INTRODUCTION

In 1995, Act 240 of the Eighteenth Legislature of the State of Hawai‘i established the Hawai‘i Teacher Standards Board (HTSB) (Board). Initially, the Board was composed of nine members, including four licensed teachers, three educational officers, the chairperson of the Board of Education, and the Dean of the University of Hawai‘i at Mānoa’s College of Education. The primary aim of Act 240 was to transfer the responsibility for determining public school teacher licensure standards and requirements from the Hawai‘i Department of Education (HDOE) to the HTSB. The HTSB officially assumed responsibility for licensing teachers in 2002.

Along with setting the standards for issuing teaching licenses and credentials, the Board’s authority also extends to:

- Managing its own budget and financial affairs.
- Adopting, amending, repealing, or suspending Board policies, standards, or rules in accordance with Chapter 91.
- Receiving grants and donations from private foundations to support its work.
- Submitting an annual report to the Governor and Legislature detailing the Board’s activities and operations.
- Conducting regular reviews of teacher standards and recommending improvements.
- Setting licensing and credentialing fees, in line with Chapter 91.
- Establishing penalties related to licensure in accordance with Chapter 91.
- Issuing, renewing, forfeiting, restoring, conditioning, revoking, suspending, and reinstating teaching licenses as appropriate.
- Developing criteria for a Career and Technical Education (CTE) license, allowing qualified individuals with industry experience, content expertise, and a background in pedagogy to teach in CTE assignments.
- Reviewing emergency hire reports submitted by the Department of Education for individuals hired without licensure.
- Applying licensing standards on a case-by-case basis and conducting evaluations to ensure qualifications are met.
- Preparing and distributing teacher licensing information to schools and staff.
- Approving teacher preparation programs to ensure alignment with Board standards.
- Establishing policies for alternative pathways to teaching, including approval of non-traditional licensure programs.
- Administering reciprocity agreements with other states to recognize out-of-state licensure.
- Conducting research on teacher licensure systems, beginning teacher programs, and assessments of teaching skills.
- Engaging in initiatives related to teacher quality, professional development, and the promotion of high standards in education.
- Adopting rules and procedures necessary to carry out its responsibilities.

VISION AND MISSION

HTSB envisions a highly esteemed Hawai‘i public education system with rigorous professional teacher standards that foster student success. Our mission is to collaboratively set high teacher licensing and credentialing standards to:

- Provide every child in Hawai‘i with qualified teachers.
- Promote professionalism and teaching excellence.
- Build public confidence in the teaching profession.
- Provide more accountability to the public.

HTSB MEMBERSHIP

By statute, the Governor appoints members to the Hawai‘i Teacher Standards Board from a pool of qualified nominees recommended by various departments, agencies, representative organizations, and current Board members. The Board consists of seventeen members, including:

- at least six licensed classroom teachers who are actively teaching at the time of their appointment,
- three educational officers currently employed by the Hawai‘i Department of Education,
- the Chairperson of the Board of Education, or their designee,
- the Superintendent of the Hawai‘i Department of Education, or their designee,
- the Dean of the University of Hawai‘i at Mānoa College of Education, or a designee from the Teacher Education Coordinating Committee,
- a representative from the Hawai‘i Association of Independent Schools, and
- two public members.

Changes to the statute in 2014 required that one of the teacher representatives be from a Hawai‘i State Public Charter School. In 2018, further revisions expanded the Board’s composition to include the Chairperson of the Native Hawaiian Education Council (or their designee), and a non-voting teacher candidate representative selected on a rotating basis from the educator preparation programs across the University of Hawai‘i System.

The HTSB is grateful to the Governor and the Senate Education Committee for their role in nominating and confirming these members to serve on the Board.

	Board Member 2024-2025	Representative Organization
1.	Kristi Miyamae, Chairperson	Licensed Teacher, O‘ahu
2.	Lokelani Han, Vice Chairperson	Licensed Public Charter School Teacher, Moloka‘i
3.	Dawn Raymond	Licensed Teacher, Hawai‘i Island
4.	Dale Matsuura	Licensed Teacher, O‘ahu
5.	Dondra Ozaki	Licensed Teacher, O‘ahu
6.	Vacant	Licensed Teacher
7.	Kim Sanders	Principal, middle school, O‘ahu
8.	Dr. Katina Soares	Principal, high school, Moloka‘i
9.	Justin Mew	Principal, high school, O‘ahu
10.	The Honorable Roy Takumi (Kahele Dukelow, Designee)	Chairperson, Board of Education
11.	Keith T. Hayashi (Sean Bacon, Designee)	Superintendent, Hawai‘i Department of Education
12.	Dr. Nathan Murata (Dr. Cecily Ornelles, Designee)	Dean, University of Hawai‘i at Mānoa College of Education
13.	Keahi Makaimoku (Elena Farden, Designee)	Chair, Native Hawaiian Education Council
14.	Dr. Jonathan Gillentine	Public member, O‘ahu
15.	Vacant	Public member
16.	Dr. Philip Bossert	Hawai‘i Association of Independent Schools representative
17.	Vacant (non-voting)	University of Hawai‘i system teacher candidate

Table 1. HTSB Board Members.

EXECUTIVE SUMMARY

The HTSB is fully responsible for setting licensing standards for teachers, school counselors, and school librarians, as well as issuing licenses to education professionals who meet the established criteria. The Board issues three levels of licenses: Provisional, Standard, and Advanced, along with the following special permits: CTE, Hawaiian, Student Teacher, and Emergency Hire.

In addition to its licensing duties, the Board approves state-based educator preparation programs (EPPs) for teachers, school counselors, and school librarians in Hawai‘i. HTSB also submits reports to the federal government on teacher licensing and EPPs under Title II of the Higher Education Act, and it approves, validates, and adopts licensure tests.

The Board plays an active role in advancing teacher quality, including providing support to candidates pursuing National Board Certification through the National Board for Professional Teaching Standards.

Furthermore, HTSB has the authority to establish penalties for teacher misconduct, which may include the suspension or revocation of a teaching license.

HTSB extends its continued gratitude to the Governor and the Legislature for their ongoing support and looks forward to continuing its work in collaboration with these partners to serve Hawai‘i’s educators, students, families, and communities.

FINANCIAL REPORT

Thanks to the support of the Governor and the Legislature, HTSB was able to secure full general funding for its personnel and operations, which allowed for the discontinuation of all application, license, and permit fees in 2019. This decision reflects a deep commitment to honoring the dedicated teachers who serve Hawai‘i’s students, families, and communities. It also provides much-needed funding for important work in educator professional development and the advancement of alternative routes to licensure.

Year	General Fund Personnel Costs	General Fund Operating Costs	General Fund Expense Total
2020-2021	687,933	464,734	1,152,667
2021-2022	663,762	464,573	1,128,335
2022-2023	648,762	839,100	1,487,862
2023-2024	648,762	839,100	1,487,862
2024-2025	658,562	829,300	1,487,862

Table 2. HTSB Funding.

HTSB remains profoundly grateful to the Legislature for its continued support in funding personnel and operations through the general fund. Educators have expressed their relief and appreciation for this gesture, recognizing it as a significant acknowledgment of their preparation and professional licensure.

Staffing

The HTSB is supported by a dedicated team of twelve professionals responsible for implementing the Board's mission and ensuring the smooth operation of its various functions related to teacher licensure, professional development, and quality in Hawai‘i.

The Executive Director champions high standards for teaching, ethics, and professional integrity. The role oversees HTSB's daily operations and staff management, ensuring effective implementation of Board policies and initiatives. The Executive Director also serves as the primary liaison between HTSB, HIDOE, EPPs, and the broader community.

Licensing Specialist

The Licensing Specialists are responsible for processing applications for teacher licenses, renewals, and special permits (e.g., CTE permits, Emergency Hire permits). This includes, but is not limited to, reviewing and verifying all documents submitted by applicants to ensure that all applicants meet the necessary criteria set by HTSB for licensure/permit. The Licensing Specialists are responsible for tracking the status of applicants from the submission of the applications to their completion/cancellation.

In addition to their licensing responsibilities, the Licensing Specialists also handle a range of additional tasks:

- Professional Fitness**

A specially assigned Licensing Specialist is responsible for handling all matters related to professional fitness/ teacher misconduct. This includes, but is not limited to: 1) Preparing all professional fitness documents (i.e. initial professional fitness letters, Demand for Hearing letters, Report for Board Action; Final Board Orders); 2) Information gathering and reviewing from a variety of sources to prepare required action documents for the Board regarding a teacher's misconduct; 2) Assisting Licensing Specialists in preparing comprehensive written communications/documents for teachers suspected of misconduct; 3) Serving as the Licensing Specialist point person for all cases that are potentially going to litigation due to teacher misconduct; 4) Preparing all legal documents necessary for due process compliance in a contested hearing matter (i.e. Demand for Hearing letter; Prehearing Order; Post-hearing notification documents; Final Board Orders); 5) Providing necessary trainings for Hearing Panel Members and Board Chair regarding procedural requirements in contested hearings; 6) Assisting the Executive Director in preparing the case for the contested hearing; 7) Assisting the Board regarding post-hearing oral argument requests by the aggrieved party; 8) Ensuring that once the Final Board Orders have been completed and time for appeal has lapsed the Final Board Order is uploaded to the NASDTEC Clearinghouse.

- Revise Current Administrative Rules**

The Licensing Specialists meet regularly to review the current existing Hawaii Administrative Rules (HAR) and draft proposed language to present to the Board, which provides more clarity to the existing law and additional language to make the HAR more robust and comprehensive.

- **Standards and Policy**

Licensing Specialists also focus on developing, reviewing, and updating the professional standards for teachers, school counselors, and school librarians. They collaborate with stakeholders to ensure that HTSB's standards align with current educational requirements as set forth by the Hawaii Revised Statutes (HRS), HAR, and HTSB Policies, along with national data, to ensure that HTSB has taken appropriate action. They also support the development of policies surrounding alternative pathways to licensure, professional development, and quality assurance.

- **Audit and Compliance**

An assigned Licensing Specialist is responsible for conducting monthly audits of HIDOE teachers and Hawai'i Public Charter School (HIPCS) teachers to ensure they hold an active teaching license/permit prior to teaching in the classroom, which is required by law. The Licensing Specialists' duties include, but are not limited to, preparing comprehensive audit letters, email communications, phone messages, and text messages to HIDOE and HIPCS teachers and their Administrators/Directors until all HIDOE and HIPCS teachers are in full compliance.

- **Research and Data Analysis Team**

HTSB often conducts research to improve the educator licensure system and EPP. Licensing Specialists collect data on licensure trends, teacher quality, and the effectiveness of EPPs while providing valuable insights that influence policy decisions. They also assist in preparing reports for the Governor, Legislature, and federal entities regarding teacher licensure data.

- **Public Engagement and Outreach**

Licensing Specialists are responsible for communicating with educators, the public, and educational organizations about licensure requirements, updates to standards, and available resources. They manage HTSB's website, social media presence, and outreach efforts to ensure that teachers and the public are well-informed about HTSB's work and initiatives. Licensing Specialists have provided license/permit training/presentations to various EPP teacher candidates and teachers, both on O'ahu and on the neighbor islands. These presentations have been either in-person or delivered via a web-based platform and include an extensive, individualized PowerPoint presentation tailored to the audience.

- **Policy and Legislative Liaison**

A Licensing Specialist role involves monitoring legislative developments that may impact or violate the applicable laws pertaining to HTSB. Their role also involves preparing legislation that advocates for the Board's interests at the state level. They work closely with the Governor's office, the Legislature, and other stakeholders to ensure that HTSB's initiatives and needs are supported.

- **Educator Preparation Programs**

Licensing Specialists support the EPPs by providing guidance on licensure pathways, conducting EPP reviews, auditing teacher candidates, and delivering licensing presentations. Licensing Specialists also collect and analyze data for state and federal reports. Please see the Educator Preparation Program section for additional responsibilities and initiatives.

Administrative Secretary

The Administrative Secretary provides essential administrative and logistical support to the Board and staff. Key responsibilities include coordinating and scheduling meetings, preparing necessary documents for in-state and out-of-state meetings and conferences, and managing communications with Board members, conference sponsors, stakeholders, the Executive Director, and staff.

This position also oversees employee records management, travel coordination, and logistical arrangements for the 17-member Board, 12-member staff, and other stakeholders attending or supporting HTSB-related events, meetings, and trainings. The Administrative Secretary ensures that all required documentation is submitted to the HIDOE following travel to facilitate timely reimbursements for Board members and staff.

Teacher Licensing Clerks

The Teacher Licensing Clerks are responsible for the day-to-day operations of the Board's office, including, but not limited to, tending to walk-in customer visits, responding to general licensure email inquiries and requests for HTSB online account assistance, forwarding phone correspondences appropriately, retrieving the Board's postal mail, uploading received documents to applicants' accounts, verifying identification documents, and communicating with applicants through the licensing management system.

To ensure the Board is compliant with Sunshine Law, the Licensing Clerks are responsible for posting and submitting public board meeting materials accordingly and preparing board meeting minutes that accurately document the Board's actions for public record. They are responsible for setting up and breaking down the board meeting room for both in-person and virtual attendance of Board members and the public, as well as assisting with the operations of the board meeting.

The Licensing Clerks are responsible for collaborating with their supervising Licensing Specialists on focus areas, including, but not limited to, professional fitness, educator preparation programs, public charter schools, National Board Certified Teachers, legislative matters, pre-apprenticeship, registered teacher apprenticeship, and audit and compliance. They assist the Executive Director, Administrative Secretary, and all Licensing Specialists with workgroup meetings, convenings, out-of-office events, and other tasks.

Facility

As HTSB expands its staff to support its growing initiatives, the need for additional office space has become essential. With support from the HIDOE, the HTSB continues to actively seek new office space to accommodate its increasing initiatives and workforce.

HIGHLIGHTS 2024-2025

Teacher Standards Committee

- The Expansion of School Counseling Licensure to Include New Grade Levels
- The 2024-2025 Career and Technical Education Workgroup Recommendation to Expand from HTSB's Six CTE License Fields to Thirteen

- HTSB's Continued Support of the Educators Rising Pilot

Teacher Education Committee

- Revised State Approval of Leeward Community College Educator Preparation Unit and Programs
- Approval of Leeward Community College's Letter of Intent to Plan a SPED PK-3 Initial Licensure Program
- Revised Approval of the University of Hawai‘i at Mānoa's Letter of Intent to Plan a New Program in School Counseling
- Revised Criteria for Satisfying HTSB's Clinical Experience Options
- Revised Student Teaching Policy for HTSB Approved Educator Preparation Providers
- Adoption of Revised Hawaiian Program Standards
- Approval of Modifications to the University of Hawai‘i at Mānoa's Dual Preparation Bachelor of Education Early Childhood Education and Elementary Education Program to a Single Licensure Track
- Approval of Modifications to the University of Hawai‘i at Mānoa's Master of Education in Teaching Initial Dual Preparation Licensure Program
- The Expansion of Chaminade's School Counseling License to Include Preschool
- Adoption of the Council for Exceptional Children's Advanced Special Education Preparation Standards
- Approval of the University of Hawai‘i at Mānoa's Letter of Intent to Plan a Reading Specialist Add-a-Field Program
- Adoption of the Professional Standards and Competencies for Early Childhood Educators
- The University of Hawai‘i at Hilo's Bachelor of Arts in Education Studies Elementary Education Program Review
- Granting Hawai‘i State Approved Teacher Preparation Providers with Approved Science Programs the Option to Recommend in Grade Levels 6-8
- Granting Hawai‘i State Approved Teacher Preparation Providers with Approved Science Programs the Option to Recommend within the Science License Fields
- The Formation of the Cooperating/Mentor Teacher Workgroup
- Program Review Committee Evaluation of the University of Hawai‘i at Mānoa's School Counseling Program

HTSB Workgroups

HTSB forms workgroups to assess the knowledge and skills required for teachers to be effective licensed professionals. These workgroups comprise a diverse group of content experts from key stakeholders, including HIDOE, HIPCS, the Hawai‘i State Teachers Association, the Institutes of Higher Education, classroom teachers, and community organizations. Based on their findings, the workgroups make licensure recommendations to the HTSB Board, focusing on specific teaching fields and grade levels.

The CTE Workgroup is committed to enhancing the quality and impact of Career and Technical Education in Hawai‘i. Among its recent efforts, the workgroup has recommended changes to the

Hawaii Revised Statutes to allow individuals with industry experience to teach in Hawai‘i public schools, broadening access to skilled professionals in the classroom.

The Hawaiian Workgroup updated the Hawaiian Program Standards for EPP and made recommendations, including issuing teacher licenses in both English and Hawaiian and developing opportunities for teachers prepared outside of Hawai‘i to learn about Hawaiian culture, language, and knowledge.

LICENSE AND PERMIT DATA

LICENSES

Provisional License

A Provisional License may be issued to individuals who have completed a state-approved teacher education program (SATEP) in Hawai‘i or another U.S. state and have less than three years of full-time teaching experience within the last five years. A Provisional License is valid for three years.

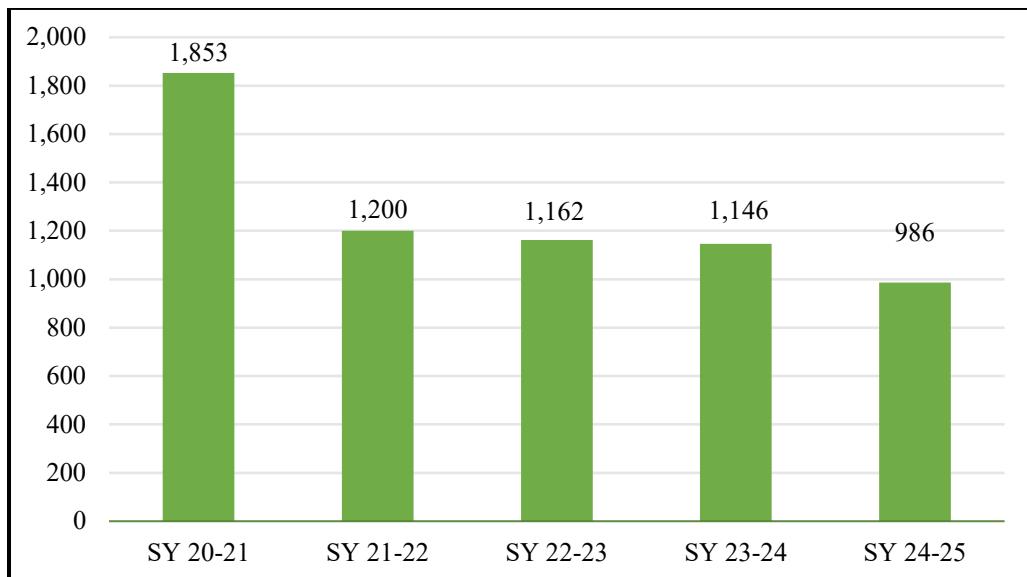

Figure 1. Approved Provisional License by school year.

Standard License

A Standard License may be issued to teachers with three or more years of full-time teaching experience within the last five years in a P-12 contracted position from a school in Hawai‘i or another U.S. state. A Standard License is valid for five years.

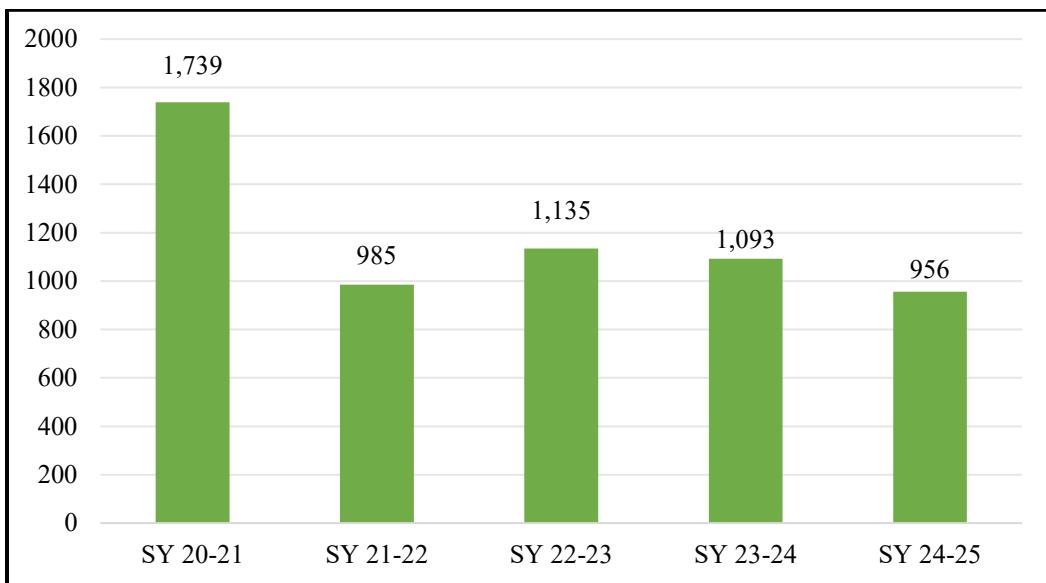

Figure 2. Approved Standard License by school year.

Advanced License

An HTSB Advanced License is a higher-level teaching license designed for experienced educators who meet specific qualifications beyond those required for the Standard License. The Advanced License recognizes teachers who have demonstrated a higher level of expertise, experience, and leadership in the field of education. An Advanced License is valid for a period of ten years.

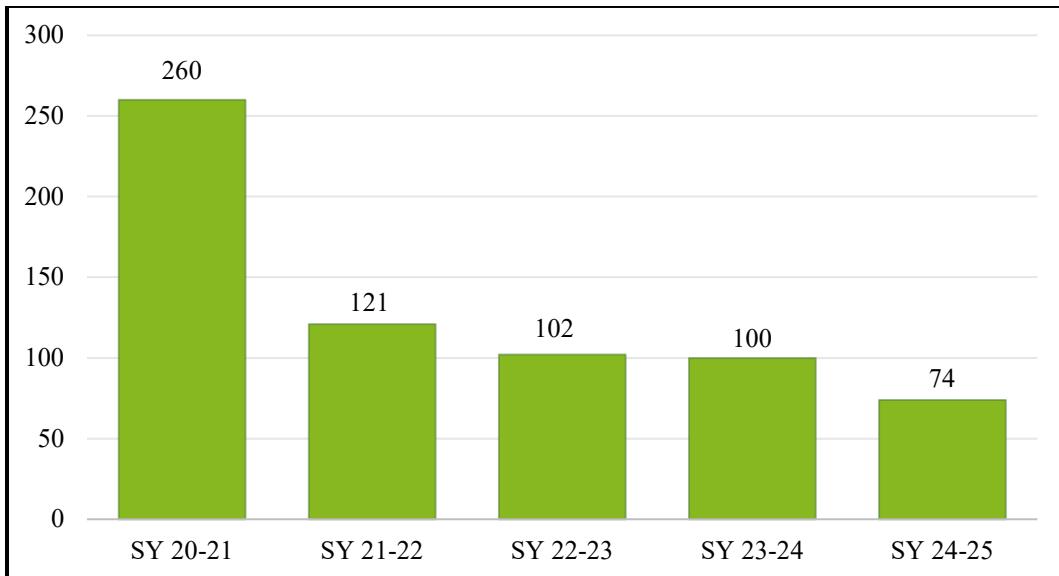

Figure 3. Approved Advanced License by school year.

Add a Teaching Field

To add a teaching field to an existing Hawai‘i teacher, school counselor, or school librarian license, applicants are required to verify both experience and content knowledge in the new license field and grade level.

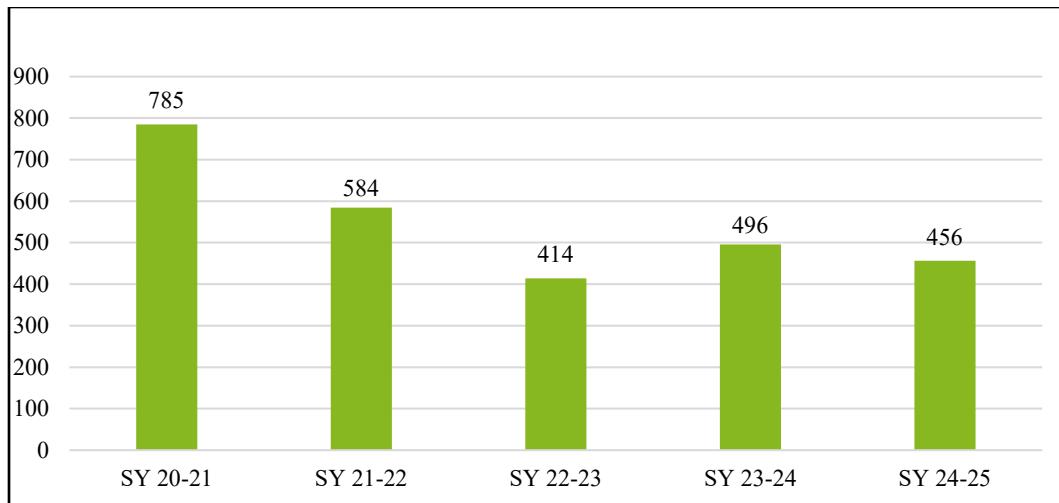

Figure 4. Approved Add a Teaching Field by school year.

License Renewals

Teachers in Hawai‘i renewing their license are required to verify both experience and demonstration of the HTSB-approved performance standards.

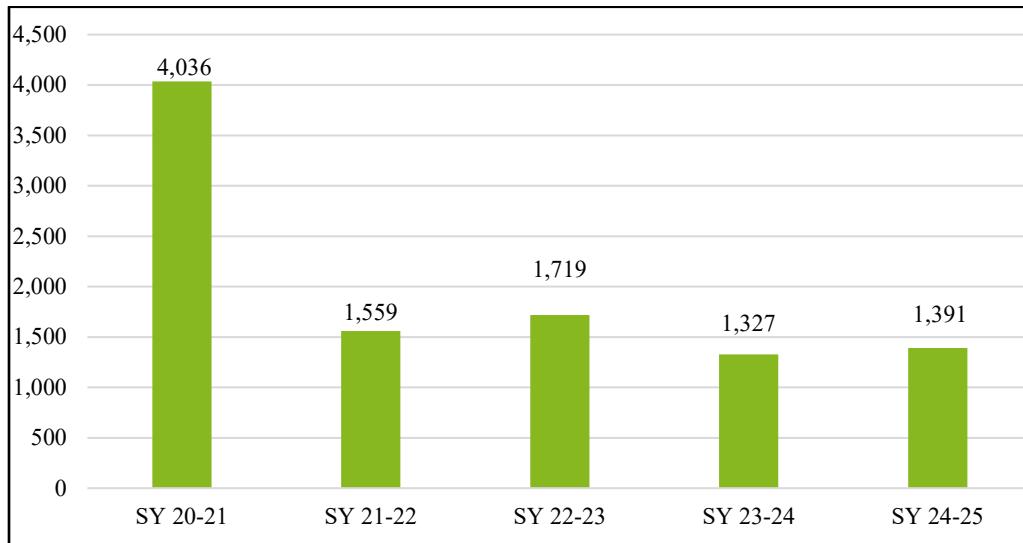

Figure 5. License renewal by school year.

PERMITS

The HTSB grants specific permits to individuals who are working toward fulfilling the requirements for teacher licensure.

Career and Technical Education Permit

A CTE Permit may be issued to an unlicensed individual employed by a HIDOE or HIPCS school in a CTE classroom when no licensed teacher is available.

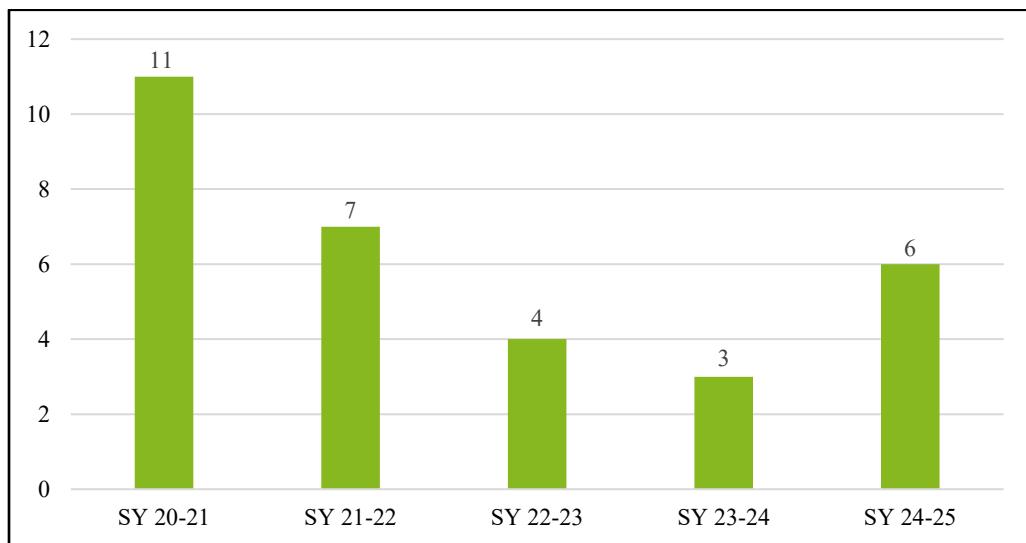

Figure 6. Approved CTE Permits by school year.

Emergency Hire Permit

An Emergency Hire Permit may be issued to an unlicensed individual who wishes to teach in a HIDOE or HIPCS school in a shortage area or hard-to-fill position when no licensed teacher is available.

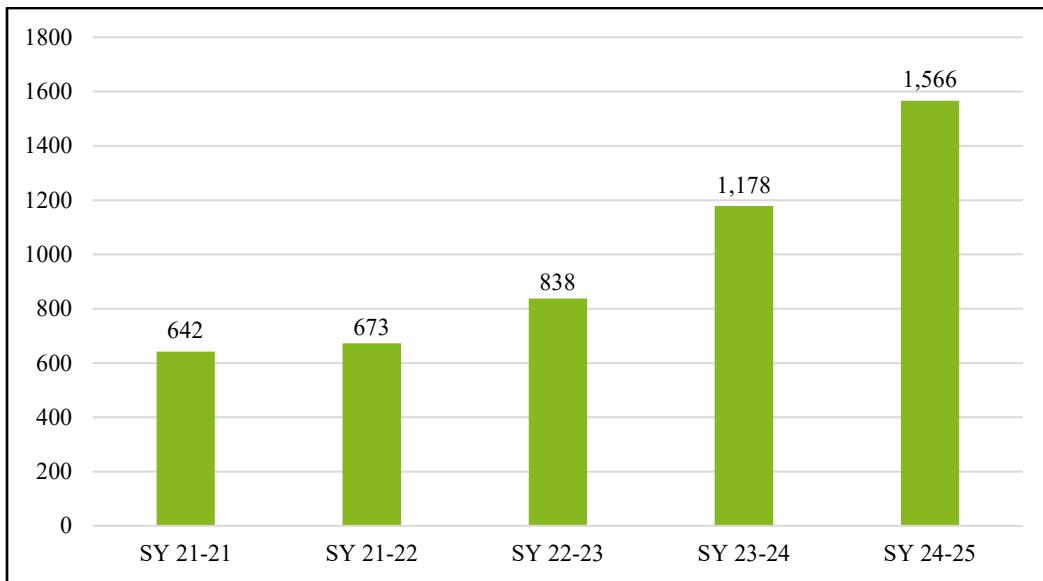

Figure 7. Approved Emergency Hire Permits by school year.

Hawaiian Permit

A Hawaiian Permit may be issued to an unlicensed individual employed by a HIDOE or HIPCS school in Kaia‘ōlelo-Kaiapuni Hawai‘i, Hawaiian Language Immersion, or Hawaiian Knowledge classrooms when no licensed teacher is available. The Office of Hawaiian Education must recommend applicants for this permit.

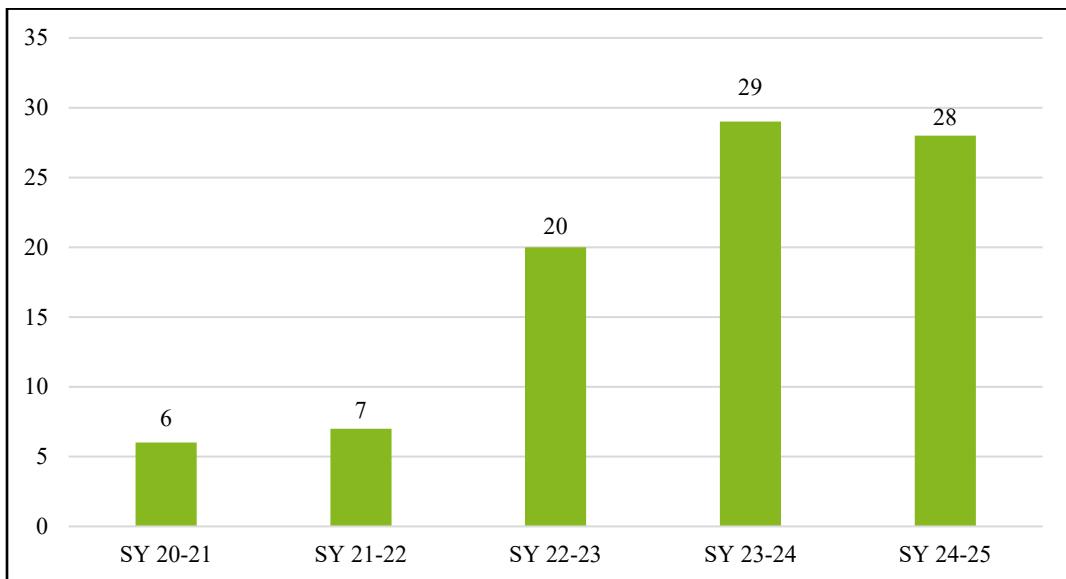

Figure 8. Approved Hawaiian Permits by school year.

Student Teacher Permit

A Student Teacher Permit may be issued to an unlicensed individual recommended by a Hawai‘i SATEP to serve as a student teacher for their clinical experience/student teaching semester.

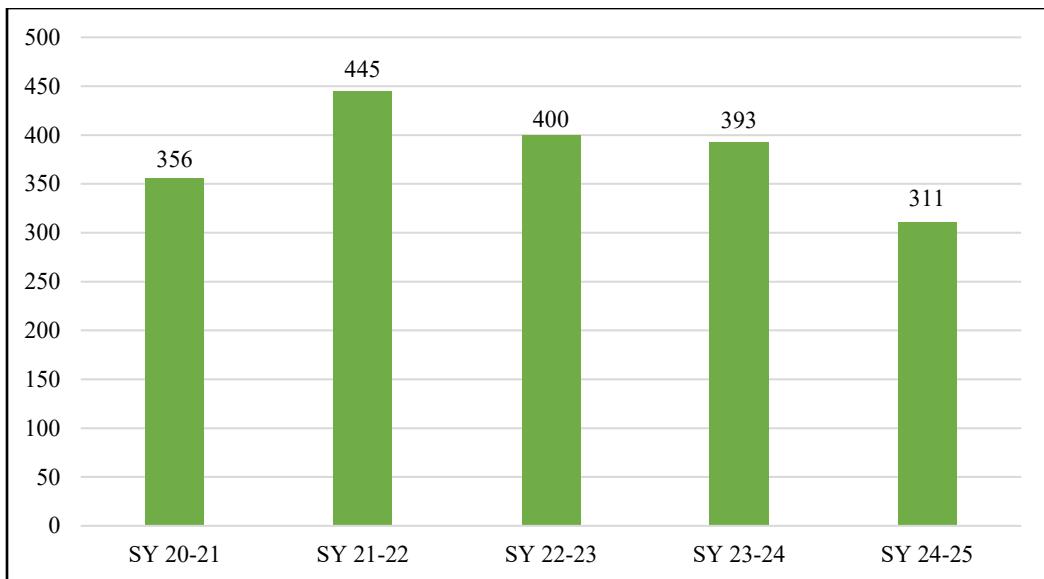

Figure 9. Approved Student Teacher Permits by school year.

TEACHER SHORTAGE DATA

As the teacher shortage persists, HTSB collaborates with public school employers, Hawai‘i EPPs, and other key stakeholders to help recruit and retain teachers. HTSB identifies staffing needs in public schools by tracking the number of Emergency Hire Permits issued and the specific positions filled each year. An Emergency Hire Permit allows an unlicensed individual to teach in a HIDOE or HIPCS school in a shortage area or other hard-to-fill position when no licensed teacher is available. These permits are valid for one year, expiring on June 30th, and may be reissued twice for up to three years as the individual works toward obtaining full licensure.

WORKFORCE DEVELOPMENT

TEACHER APPRENTICESHIP

The Hawai‘i Registered Teacher Apprenticeship Program will offer aspiring educators a unique opportunity to gain hands-on classroom experience while fulfilling the requirements for full teacher licensure. In this program, apprentices are paired with experienced mentors in the classroom, where they receive guidance and training in teaching practices, classroom management, and curriculum development. Apprentices work as Educational Assistants (EAs) or Teacher Assistants (TAs) while completing required coursework and other licensure components on their path to becoming fully licensed teachers.

The apprenticeship model is part of HTSB’s efforts to address the teacher shortage by providing a supportive and structured pathway to licensure for individuals with non-traditional backgrounds or those seeking to transition into education from other careers. The program also helps to recruit and retain high-quality teachers in underserved areas and shortage fields.

TEACHER PRE-APPRENTICESHIP

The HTSB provided funding to support HIDOE’s Teaching as a Profession (TAP) teachers by implementing the Educators Rising curriculum and covering the costs of student membership. Educators Rising plays a vital role in building a sustainable pipeline of homegrown teachers by engaging students early in exploring and preparing for careers in education.

LICENSE DISCIPLINE AND APPEALS

The HTSB is responsible for the licensure and regulation of educators in Hawai‘i, including overseeing disciplinary actions and appeals related to teacher licensure.

HTSB’s licensing and disciplinary processes are designed to protect the integrity of the teaching profession while ensuring that educators who are licensed in Hawai‘i meet the highest standards of professionalism and competency.

Discipline Cases 2020-2025								
Year	Denied	Revoked	Suspended	Deferred or No Action	Reinstated or Approved	Reprimanded or Warned	Conditioned	Total Cases
SY 20-21	0	0	0	0	0	0	0	0
SY 21-22	0	12	0	0	0	0	0	12
SY 22-23	0	33	0	0	0	0	0	33
SY 23-24	0	7	0	0	0	0	0	7
SY 24-25	1	13	0	0	0	0	0	14

Table 4. Discipline cases from school years 2020-2025.

The Model Code of Ethics for Educators (MCEE) is a set of ethical guidelines and principles designed to provide a framework for the professional conduct of educators across the United States. Adopted by the HTSB in 2018, the MCEE serves as a critical tool for guiding educator behavior and ensuring the highest standards of professionalism, integrity, and accountability.

Implemented through Hawai‘i SATEP, the MCEE is integral to promoting ethical conduct among educators in Hawai‘i. Establishing clear ethical expectations provides a unified approach to professional behavior, informing how educators interact with students, parents, colleagues, and the broader community.

EDUCATOR PROFESSIONAL DEVELOPMENT

EDUCATOR STANDARDS

In the 2011-2012 school year, the Board introduced new performance standards for teachers, school counselors, and school librarians. In the following year (2012-2013), HTSB collaborated with these educator groups to create informational videos and resource materials to help them understand and integrate the new standards into their practices. These videos were distributed on DVD to all Hawai‘i public schools and made available on HTSB's website.

In 2013-2014, new standards were introduced to Hawai‘i SATEP. In 2015-2016, new standards for Hawaiian Language, Hawaiian Studies, and Hawaiian Language Immersion were adopted. Then, in 2016-2017, HTSB reviewed content standards for potential revisions based on updates from national specialty content organizations. In 2017-2018, HTSB adopted new standards for the review of EPPs.

Subsequently, the National Specialty Professional Associations updated their content area standards, which were reviewed by the Board. HTSB formally adopted these updated standards on March 5, 2021, with implementation for Hawai‘i SATEP starting on July 1, 2023.

A list of approved educator Content Area Standards is located on the HTSB website.

https://www.hawaiiteacherstandardsboard.org/apps/pages/index.jsp?uREC_ID=4412479&type=d&pREC_ID=2644381

See Appendix A for the Teacher Performance Standards and Appendix B for the Educator Preparation Program Standards.

HAWAIIAN STANDARDS

In 2024, the Hawaiian Workgroup revised the Hawaiian Program Standards for Hawai‘i SATEP. The Hawaiian Program Standards should be implemented no later than July 1, 2024.

https://media.edlio.net/e045d0de/dc9a2963/f0ad6156/50a5e74948a5440fb9c92bd353c02174?_=Rev_NBI-24-06-Adoption-of-Rev_Hawaiian-Program-Standards.pdf

NATIONAL BOARD FOR PROFESSIONAL TEACHING STANDARDS

HTSB remains committed to providing ongoing informational and support sessions for Hawai‘i's educators. One of the key offerings is the On-Board for National Board workshop, which helps

Hawai‘i teachers build a solid foundation for pursuing National Board Certification. HTSB is also awaiting the release of newly certified teachers from the National Board organization on December 6, 2025.

HTSB continues its strong partnership with the Institute for Native Pacific Education and Culture (INPEACE) to address the need for highly skilled teachers on the Leeward Coast of O‘ahu. Additionally, the Hawai‘i National Board Collective, sponsored by HTSB, serves as a platform for National Board Certified Teachers (NBCTs) from across the state to collaborate. This group plays a critical role in outreach and support for teachers pursuing National Board certification and offers opportunities for NBCTs to become more engaged in statewide education initiatives.

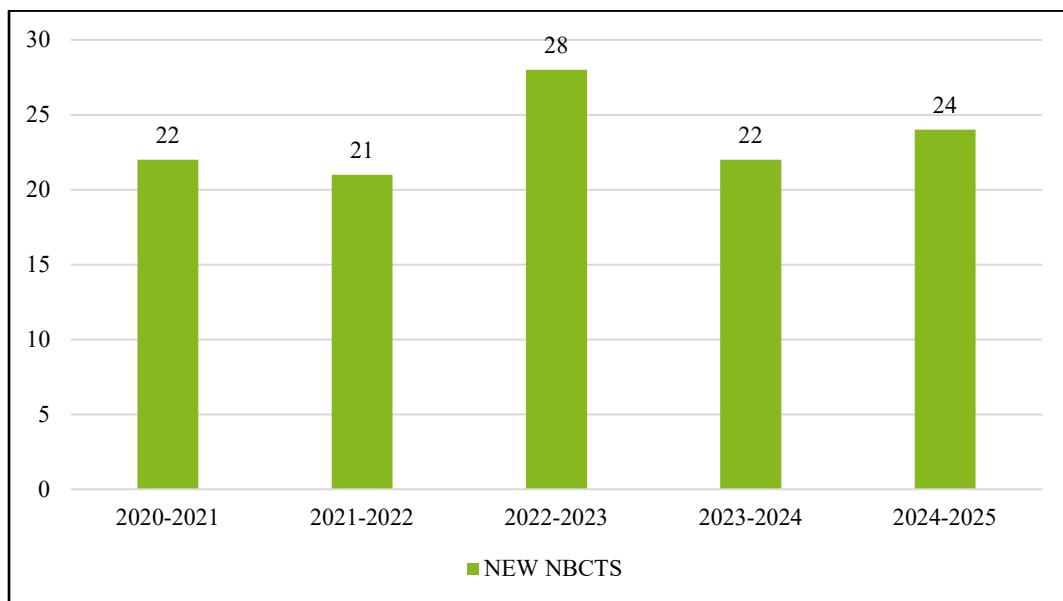

Figure 12. National Board Certified Teachers by school years.

HAWAI‘I STATE APPROVED TEACHER EDUCATION PROGRAMS

The HTSB is responsible for overseeing and ensuring the quality of teacher preparation programs within the state. This includes the management and oversight of the fourteen SATEPs. These programs, which are designed to prepare and educate teacher candidates, must meet the standards set forth by the HTSB.

HTSB continues to review, approve, and monitor the licensure programs of Board-approved teacher education providers. HTSB closely examines approved EPPs that prepare teachers in their content areas, provide a quality clinical experience, and continually follow federal and state-level policies as outlined in the HAR.

HTSB also adopted the latest revision of the national MCEE for use by Hawai‘i SATEP to help prepare teacher candidates for challenging issues they may face in their careers. HTSB staff continues to offer training in the MCEE.

THE ROLE OF HTSB IN TEACHER PREPARATION

Under HRS §302A-802, teacher candidates are required to demonstrate competencies that are established by the HTSB as part of the licensure process. This statute grants the HTSB the authority to establish the criteria and competencies that teacher candidates must meet to be eligible for licensure in the state of Hawai‘i.

Currently, all Hawai‘i SATEPs are accredited by national or international accreditation bodies, ensuring that these programs meet rigorous standards for quality and effectiveness. These accrediting organizations include:

- The Association for Advancing Quality in Educator Preparation (AAQEP)
- The Council for the Accreditation of Educator Preparation (CAEP)
- The World Indigenous Nations Higher Education Consortium (WINHEC)

These accrediting bodies play a critical role in evaluating and ensuring that teacher education programs meet high standards for preparing educators who are capable of addressing the diverse needs of students in Hawai‘i.

ACCREDITATION

AAQEP and CAEP are well-established national accreditation bodies that assess EPPs based on a range of factors, including program quality, outcomes, and the preparedness of graduates to teach effectively. These accreditations ensure that Hawai‘i’s teacher preparation programs align with national standards and are capable of preparing teachers who can meet the evolving needs of students in the classroom.

WINHEC focuses on ensuring that teacher preparation programs for Indigenous communities are culturally appropriate and effective. WINHEC’s accreditation process is unique in that it emphasizes Indigenous perspectives, knowledge, and practices, which are crucial for providing culturally responsive and community-centered education.

Hawai‘i is proud to offer Indigenous-focused teacher preparation programs. These programs are designed to honor and integrate Indigenous cultural values and knowledge into the teaching profession. These programs were among the first to undergo the WINHEC review process, which provides an accreditation process specifically tailored to the needs of Indigenous education. This collaboration between HTSB and Indigenous programs in Hawai‘i is a direct response to the importance of ensuring that teacher education is culturally appropriate and reflects the rich cultural heritage of Native Hawaiians and other Indigenous groups in the state.

These partnerships with WINHEC ensure that these programs provide high-quality training for educators who are not only skilled in pedagogy but also grounded in the cultural and spiritual values of Indigenous communities, offering a unique and deeply relevant form of teacher preparation.

This direct collaboration between the Indigenous programs has allowed for the development of a culturally appropriate review process that incorporates Indigenous knowledge systems, traditions, and worldviews into the preparation of future educators. This ensures that the programs not only meet general educational standards but also honor the cultural heritage and educational practices that are crucial for teaching Native Hawaiian and Indigenous students.

PROFESSIONAL LEARNING AND TRAINING

During the 2024-2025 school year, the HTSB offered a range of professional development opportunities for educators, EPPs, and education professionals across the state. These sessions aimed to provide essential knowledge and skills to enhance the effectiveness of Hawai‘i’s educator workforce. Many of these professional development opportunities were delivered through in-person or online training, and some were offered in partnership with external organizations to ensure a comprehensive and well-rounded learning experience. Below are the key sessions provided during this period.

ETS Praxis Presentation

Partner: Educational Testing Service (ETS)

This session focused on the Praxis exams, which are a series of standardized tests used to measure the content knowledge and teaching skills of teacher candidates. The presentation helped participants better understand the Praxis assessments, including preparation strategies, registration processes, and insights on how to succeed on the exams.

Educator Preparation Program Reviews

Partners: EPP staff, HIDOE staff

These reviews assist EPP staff in approving their teacher licensure program applications. Program review committee members review applications and determine if the EPP program meets HAR and HTSB policies. In turn, they offer feedback or meet with EPP staff to support them through the approval process.

HTSB Licensing Presentations

Partner: HTSB staff

These presentations offered comprehensive guidance on the teacher licensure process in Hawai‘i. Topics covered included the different types of licenses (e.g., Provisional, Standard, Advanced), requirements for each, and steps for applying for and renewing licensure. These sessions were designed to clarify the licensure process for teacher candidates and educators, ensuring they had the information needed to successfully navigate licensure requirements.

HAWAI‘I SATEP INFORMATION

Each Hawai‘i SATEP is responsible for implementing approved EPP that offer pathways for teacher candidates to obtain either an academic degree and teacher license or just a teacher license in specific teaching fields and grade-level spans. These programs are designed to ensure that teacher candidates meet the necessary standards for licensure as outlined by the HTSB.

Hawai‘i SATEP and Educator Preparation Programs

EPPs offer different pathways for teacher candidates.

Traditional Pathway. Some EPPs offer traditional pathways that provide an academic degree and a teacher license. These programs prepare teacher candidates in both their content area and pedagogical skills, ensuring they meet all licensure requirements and university degree requirements.

Alternative Pathway. Other EPPs offer pathways that focus on obtaining a teacher's license in specific subject areas and grade spans. These programs are particularly beneficial for candidates who already hold a minimum of a bachelor's degree in a specific field but need to complete the necessary licensure requirements.

Add Teaching Field Pathway. Some EPPs provide a pathway for licensed teachers to add a teaching field and gain additional content expertise.

Program Completion and Licensing. Upon successfully completing an EPP, teacher candidates are recommended for licensure by HTSB. The Board reviews the program completion to ensure the candidate has met the standards and competencies required for teaching in Hawai‘i.

This includes assessment of academic performance and field experience (i.e., clinical placements), as well as successful completion of any licensure examinations or other requirements as determined by HTSB.

Annual Progress Report. Each Hawai‘i SATEP is required to submit an annual progress report to HTSB. The report includes updates, outcomes, licensure recommendations, and compliance with HTSB standards.

Accrediting Body Report. These reports are also submitted to the program's accreditor (i.e., AAQEP, CAEP, or WINHEC) to maintain accreditation status and ensure that programs continue to meet national and international standards.

Federal Title II Higher Education Act. As part of the Federal Title II reporting process, Hawai‘i SATEPs must provide data on program completers, admission and exit requirements, information on the number of graduates, licensure status, and the effectiveness of the program in preparing educators for the classroom.

The following section provides a summary of each Hawai‘i SATEP program completer's information, categorized by licensure pathway: traditional, alternative, or adding a teaching field. The highest number of completers by teaching field is bolded.

APPENDIX B. APPROVED EDUCATOR PREPARATION PROGRAM STANDARDS

The HTSB approved the EPP Standards to support the additional options for Hawai‘i EPP to select state or national review for their units and programs on June 4, 2018.

New Business Item 17-39: <https://hawaiiteacherstandardsboard.org/content/wp-content/uploads/NBI-17-39-Update-of-EPP-Standards-1.pdf>

State Approved Teacher Educator Program Unit Standards

Standard 1: Candidate Content Knowledge, Pedagogical Knowledge, and Dispositions

Candidates demonstrate strong subject matter knowledge, culturally relevant pedagogical knowledge, pedagogical content knowledge, and professional dispositions in instruction and in other interactions with all P-12 learners.

Standard 2: Clinical Practice and Partnerships

The educator preparation program and its associated partners have shared responsibility for the design, implementation, and evaluation of diverse clinical experiences that provide the candidate the opportunity to have a positive impact on the growth and development of learners.

Standard 3: Assessment and Evaluation

Educator preparation programs have criteria for and monitor candidate progression from admissions to student teaching, through completion, and recommendation for licensure. They gather, analyze, and interpret data for continuous improvement of the program.

Through their work with P-12 students, the candidate understands and uses multiple methods of assessment to monitor learner progress and to inform their practice. Candidates can demonstrate a positive impact on P-12 learners’ growth and development.

Standard 4: Governance and Resources

The educator preparation program has sufficient faculty, financial, physical, and technological resources and capacity to support and sustain the quality of its educational program.

Standard 5: Hawai‘i Specific Requirements

The educator preparation program ensures it meets all requirements in Hawaii Administrative Rules governing the approval of Educator Preparation Programs (HAR) §8-54-19, Appendix A.
