

HAWAII STATE SENATOR BENNETTE E. MISALUCHA

*Aiea Neighborhood Board
Legislative Report*

NEWSLETTER

FEBRUARY 2021

Dear Neighbors and Friends,

Aloha mai kakou. This Legislative session is proving to be unprecedented on two points - All the hearings will be virtual and legislators are facing the biggest budget shortfall in our state's history.

To date, I have signed more than 300 pieces of legislation. Many constituents have contacted me about their concerns and issues on matters pertaining to Aiea and Halawa. This week I had met with Governor David Ige who met first-time senators on their priorities. As you know, Governor Ige was once the state senator of our district and continues to take an interest in our community. I have signaled to the Governor that I have several priority bills in which I have included on page 2 of the newsletter.

As a reminder, with operational changes at the Legislature in effect, do note that the Capitol remains closed to the public and therefore, constituents interested in having their voices heard regarding bills will no longer have the opportunity to appear in person to give testimony at hearings. To submit testimony, please go to www.capitol.hawaii.gov.

I am eager to serve each one of you and should you need any assistance with efforts to submit your testimony online, please do not hesitate to contact my office. It will be my pleasure to help you.

Very Truly Yours,

Senator Bennette E. Misalucha
District 16

Priority Bills Introduced by Senator Bennette Misalucha

SB 908 (Relating to Driver's Licenses):

“Extends the renewal period from two years to four years for licensees who are seventy-two years of age or older but younger than eighty years of age; provided their driving record does not include two or more moving traffic violation convictions after the licensee attained the age of seventy-two years. Defines moving traffic violation.”

- ⇒ Encourages safer driving
- ⇒ Judges drivers according to their performance, not their age
- ⇒ Strong support in the community (Harimoto family support)
- ⇒ Meets the needs of seniors during the pandemic when visiting the DMV is a risk

SB 913 (Relating to Sustainable Electronics):

“Requires persons who receive state funds and state financial assistance to donate unnecessary but functioning electronic devices, hardware, and televisions to nonprofit organizations that will refurbish and distribute them to eligible persons in the State. Sets reporting requirements for donating entities, nonprofit refurbishers, and the department of accounting and general services. Sets penalties for violations.”

SB 914 (Relating to Broadband Access):

“Requires the Hawaii Public Housing Authority to conduct a study on the state of broadband access in all public housing projects in the State. Requires the Public Housing Authority to submit a report of its findings and recommendations to the legislature prior to the convening of the regular session of 2022. Authorizes the Hawaii Public Housing Authority to request assistance from the Legislative Reference Bureau as may be necessary.”

SB 1004 (Relating to Education):

“Beginning with the 2021-2022 school year, requires the department of education to include the teaching of financial literacy in the personal/transition plan requirement for each student.”

- ⇒ There is no mandate to teach financial literacy within public schools, which naturally disadvantages all students, but, in particular, disadvantages lower-income students for whom access to credit and debt can be particularly obstructive to lifelong financial stability
- ⇒ Minimally intrusive to the DOE and would not require the Board to change graduation requirements.

SB 1420 (Relating to Technology):

“Creates the Hawaii Diversification and Resilience in a Vibrant Economy Program (HI DRiVE) and special fund, which requires the Hawaii technology development corporation to build on small business innovation research phase II awards and use funds to support phase III efforts to commercialize technology, develop manufacturing infrastructure, acquire equipment or materials, and support training or quality systems. Requires the governor to apply for \$100,000,000 in economic diversification assistance from the federal government for the creation of the HI DRiVE program.”

Ways to follow along and participate in committee hearings in 2021:

- **Livestreams:** All Senate and House committee hearings and floor sessions will be streamed live on **YouTube**.
- **Cable Television Broadcasts:** Selected committee hearings and floor sessions will be broadcast on public access cable television
- **Testimony:** The House and Senate standing committees will be accepting both written and remote testimony via **Zoom**
