Testimony of the Department of Commerce and Consumer Affairs

Before the
House Committee on Health and Homelessness
Wednesday, March 20, 2024
10:30 a.m.
Conference Room 329 and Videoconference

On the following measure:

H.R. 106, REQUESTING THE ESTABLISHMENT OF A TELEHEALTH WORKING GROUP TO EXAMINE THE IMPACT OF WIDESPREAD TELEHEALTH ADOPTION DURING THE COVID-19 PANDEMIC AND IDENTIFY PUBLIC POLICY INITIATIVES AT THE FEDERAL AND STATE LEVEL TO OPTIMIZE TELEHEALTH UTILIZATION AS THE STATE TRANSITIONS OUT OF THE COVID-19 PANDEMIC

Chair Belatti and Members of the Committee:

My name is Ahlani Quiogue, and I am the Licensing Administrator of the Department of Commerce and Consumer Affairs' (Department) Professional and Vocational Licensing Division. The Department appreciates the intent of and offers comments on this measure.

The purposes of this resolution are to establish the Telehealth Working Group to:

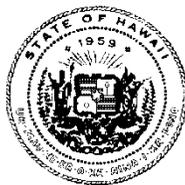

- (1) evaluate the impact of impact of widespread telehealth adoption in the State on safety, utilization, total cost of care, and patient and provider satisfaction to determine how best to integrate telehealth into in-person practice as the State transitions out of the COVID-19 pandemic would provide the State with greater insight into existing telehealth challenges and benefits;
- (2) examine the impact of widespread telehealth adoption

during the COVID-19 pandemic and identify public policy initiatives at the federal and state level to optimize telehealth utilization as the State transitions out of the COVID-19 pandemic; and (3) submit a report of its findings and recommendations, including any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2025.

The Department understands the importance of the working group to identify the impacts of telehealth initiatives and the utilization of this modality to provide health care services. The Department respectfully requests that page 3, item (6), be amended to allow the Licensing Administrator of the Professional and Vocational Licensing Division to appoint/name a designee similar to the authority provided to the Insurance Commissioner on page 2, item (4).

Thank you for the opportunity to testify on this bill.

SUBJECT: [HCR 125/HR106](#) - REQUESTING THE ESTABLISHMENT OF A TELEHEALTH WORKING GROUP TO EXAMINE THE IMPACT OF WIDESPREAD TELEHEALTH ADOPTION DURING THE COVID-19 PANDEMIC AND IDENTIFY PUBLIC POLICY INITIATIVES AT THE FEDERAL AND STATE LEVEL TO OPTIMIZE TELEHEALTH UTILIZATION AS THE STATE TRANSITIONS OUT OF THE COVID-19 PANDEMIC.

Hearing: March 20, 2024, 10:30 AM
Conference Room 329 & Via Videoconference, State Capitol

DEPARTMENT'S POSITION: The Department of Human Services supports this resolution.

PURPOSE: This resolution requests the establishment of a telehealth working group to examine the impact of widespread telehealth adoption during the COVID-19 pandemic and identify public policy initiatives at the federal and state levels to optimize telehealth utilization as the state transitions out of the COVID-19 pandemic.

DHS supports the review of telehealth adoption during and since the COVID-19 pandemic and looks forward to having the Med-QUEST Administrator or the Administrator's designee participate in this workgroup.

Thank you for the opportunity to provide testimony on this resolution.

RE: HCR 125 / HR106

Requesting the Establishment of a Telehealth Working Group to Examine the Impact of Widespread Telehealth Adoption During the COVID-19 Pandemic and Identify Public Policy Initiatives at the Federal and State Level to Optimize Telehealth Utilization as the State Transitions Out of the COVID-19 Pandemic

Testimony of John C. (Jack) Lewin, M.D.
SHPDA Administrator

Wednesday, March 20, 2024
10:30 a.m.

1 **Agency's Position: SUPPORT**

2 **Fiscal Implications: none**

3 **Purpose and Justification:** SHPDA is evolving into the State's needed health care oversight
4 body for assuring universal access to high-quality, equitable, and affordable health and long-
5 term care for ALL citizens. While SHPDA appreciates the importance and value of in-person
6 health assessments and development of patient-clinician relationships, telehealth is a valuable
7 means in many clinical circumstances of increasing efficiency, convenience, and cost-
8 effectiveness in delivery of health care and behavioral health services. Telehealth will become
9 increasingly important in improving health outcomes in home and community-based services
10 for Kūpuna, for palliative care, and for management of chronic diseases.

1 SHPDA fully supports establishment of this working group, which should include the
2 DOH, the DHS, the EOA, SHPDA, and other state agencies as well as representation of the
3 public and private health sector to be effective.

4 Mahalo for the opportunity to testify.

Re: HCR125/HR106 – Requesting the establishment of a Telehealth Working Group to examine the impact of widespread telehealth adoption during the COVID-19 pandemic and identify Public Policy Initiatives at the Federal and State level to optimize telehealth utilization as the State transitions out of the COVID-19 pandemic

Dear Chair Belatti, Vice Chair Takenouchi, and Members of the Committee:

Hawaii Medical Service Association (HMSA) appreciates the opportunity to provide testimony in support of HCR125/HR106, which requests the establishment of a Telehealth working group to examine the impact of telehealth adoption during the COVID-19 pandemic and future policy initiatives to optimize the use of telehealth in Hawaii.

As an early supporter of telehealth access for our state, we believe in increasing access to health care services in Hawaii, especially for kupuna who may have limited digital literacy and for those living in rural and underprivileged communities where broadband coverage is lacking. With the end of the Public Health Emergency related to COVID-19 and upcoming changes from Centers for Medicare & Medicaid Services, we think it's critical to better understand the role telehealth has played and the optimal role it will play in the future for Hawaii residents.

We would respectfully request the committee's consideration to include HMSA as a member of the working group.

Thank you for the opportunity to testify in support of HCR125/HR106.

Sincerely,

Dawn Kurisu
Assistant Vice President
Community and Government Relations

COMMENTS IN SUPPORT OF HCR125/HR106 — REQUESTING THE ESTABLISHMENT OF A TELEHEALTH WORKING GROUP TO EXAMINE THE IMPACT OF WIDESPREAD TELEHEALTH ADOPTION DURING THE COVID-19 PANDEMIC AND IDENTIFY PUBLIC POLICY INITIATIVES AT THE FEDERAL AND STATE LEVEL TO OPTIMIZE TELEHEALTH UTILIZATION AS THE STATE TRANSITIONS OUT OF THE COVID-19 PANDEMIC

Aloha Chair, Vice-Chair and other Committee members,

The Grassroot Institute of Hawaii would like to **comment in support** of [HCR125](#) and [HR106](#), which looks to establish a telehealth working group.

The purpose of the working group would be to examine the impact of widespread telehealth adoption during the COVID-19 lockdowns and identify policy initiatives that might build on that experience in order to optimize telehealth usage in Hawaii.

Telehealth provides a wonderful opportunity to mitigate the problems related to healthcare access and staffing shortages that have had a significant effect on healthcare in Hawaii.

The COVID-19 crisis was instrumental in showing the potential of telehealth as a way to improve healthcare outcomes. Moreover, the experience of Hawaii and other states under emergency orders related to telehealth demonstrated that removing barriers to out-of-state telehealth access was helpful to both patients and providers.

In an upcoming policy brief, the Grassroot Institute examines ways in which the state could improve outcomes and expand healthcare access by removing regulations that prevent Hawaii patients from receiving telehealth from out-of-state providers.

This is a strategy that has been embraced by other states with great success. Twenty-six states have special license or telehealth registration programs that allow out-of-state doctors to offer telehealth services.

Idaho, for example, allows licensed doctors to offer telehealth care to patients with whom they have an established relationship but are in the state only temporarily.¹

And Florida recently created a system that allows licensed out-of-state providers to practice telehealth by registering with the state medical board and agreeing to certain conditions such as liability coverage.²

Hawaii's geographic challenges make telehealth expansion a necessity. We commend the Legislature for seeking ways to remove barriers to telehealth in Hawaii.

Thank you for the opportunity to testify.

Ted Kefalas
Director of Strategic Campaigns
