### A BILL FOR AN ACT

RELATING TO CRITICAL INFRASTRUCTURE RESILIENCY.

#### BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. The legislature finds that achieving electric
grid resiliency requires maximizing energy efficiency, strategic
planning for electric grid infrastructure, and leadership from
the public sector.

5 The legislature further finds that in September 2017, 6 Hurricanes Irma and Maria struck Puerto Rico with devastating 7 force, causing an estimated \$95,000,000,000 in damage to the 8 island, including extensive damage to the island's electrical 9 infrastructure. The power in Puerto Rico was not fully restored 10 until August 2018, thus leaving some residents without power for 11 half a year. The prolonged lack of electrical power left the 12 residents of Puerto Rico without essential services and has 13 created a humanitarian crisis. The interdependencies between 14 different critical infrastructure sectors, including energy, 15 water, environmental services, transportation, and 16 communications, have further complicated restoration efforts in

Puerto Rico, underscoring the need for systemic resiliency
planning.

3 The legislature further finds that a direct hit on Oahu 4 from a similar category five hurricane would almost certainly 5 cause extensive property damage and extended power outages 6 across the island. Moreover, much of the State's energy-7 generating infrastructure is susceptible to storm surges due to 8 the structures being located at or near coastlines. The Hawaii 9 emergency management agency estimates that under a best-case 10 scenario, it would take at least fourteen days after landfall of 11 a category four hurricane on Oahu to restore eighty per cent of 12 grid power. Most public emergency shelters in the State do not 13 have the capacity to provide two weeks of electrical service, 14 and relief from the mainland is dependent upon a functioning 15 airport and seaport. Furthermore, the risks of a natural 16 disaster increase with the impacts of climate change. 17 Scientists have described 2017 as the most weather destructive 18 year on record and have opined that the number of extreme 19 weather events will continue to increase.

20 The legislature hereby declares that it shall be the policy21 of the State to ensure that the State is prepared to withstand

1 natural disasters and other emergencies and protect the State's 2 critical infrastructure and its citizens by making investments 3 in grid resiliency. The goals of this policy are to: 4 (1) Prevent or reduce the severity of damage to the 5 electric grid from a natural disaster or state of 6 emergency; 7 (2) Enable faster recovery of normal grid operations after 8 a grid outage due to a natural disaster or state of 9 emergency; and 10 (3) Maintain critical loads at critical infrastructure, 11 such as hospitals, fire stations, police stations, 12 airports, and seaports during a grid outage due to a 13 natural disaster or state of emergency. 14 The purpose of this Act is to create a homeland security 15 and resiliency council to identify electric grid and other 16 critical infrastructure needs and provide recommendations for 17 enhancing grid and critical infrastructure resiliency throughout 18 the State. 19 SECTION 2. Chapter 128A, Hawaii Revised Statutes, is

20 amended by adding a new section to be appropriately designated 21 and to read as follows:

Page 3

1	" <u>§12</u>	8A- Homeland security and resiliency council;
2	membershi	<b>p; duties.</b> (a) There is established a homeland
3	security	and resiliency council, which shall be placed within
4	the offic	e of homeland security for administrative purposes.
5	<u>(b)</u>	The council shall be composed of the following members
6	or their	designees:
7	(1)	The director of homeland security, who shall serve as
8		the co-chair of the council;
9	(2)	The administrator of the Hawaii state energy office,
10		who shall serve as co-chair of the council;
11	(3)	The director of the office of planning;
12	(4)	The administrator of the Hawaii emergency management
13		agency;
14	(5)	The director of transportation;
15	(6)	The chairperson of the public utilities commission;
16	(7)	The directors of each of the county emergency
17		management agencies;
18	(8)	The directors of each of the county water supply
19		departments or boards; and
20	(9)	The directors of each of the county environmental
21		services or environmental management departments.

1	(c)	The president of the senate and the speaker of the
2	house of	representatives shall jointly invite as members of the
3	council:	
4	(1)	Representatives of each electric utility company
5		operating in the State;
6	(2)	Representatives of each gas utility company operating
7		in the State;
8	(3)	Representatives of each telecommunications company
9		serving at least one hundred thousand customers in the
10		<u>State;</u>
11	(4)	Representatives of each fuel importer and fuel refiner
12		operating in the State; and
13	(5)	Representatives of each water carrier, as defined in
14		section 271G-5, that provides transportation of
15		property between points within the State.
16	(d)	In addition to the members listed in subsections (b)
17	and (c),	the co-chairs of the council may request the
18	participa	ation or input of members of the public; experts in the
19	<u>field, ir</u>	ncluding but not limited to community emergency response
20	team volu	inteers and other organizations committed to emergency

1	preparedn	ess; county, state, or federal officials; or others as
2	necessary	•••••
3	<u>(e)</u>	The members of the council shall serve without
4	compensat	ion, but shall be reimbursed for necessary expenses
5	incurred	in the performance of their duties. No member of the
6	council s	hall be made subject to the financial disclosure
7	requireme	nts of sections 84-13 and 84-17 solely because of that
8	member's	participation as a member of the council.
9	<u>(f)</u>	The council shall:
10	(1)	Establish strategies, goals, priorities, and
11		recommendations to enhance the security and resiliency
12		of the electric grid and other critical infrastructure
13		sectors in the State, and give appropriate
14		consideration to interdependencies between the sectors
15		and to differing needs of communities based on
16		location, access to resources, and vulnerabilities;
17		and
18	(2)	Assess the capacity and availability of existing
19		resources and identify new sources of revenue
20		necessary to enhance resiliency of critical
21		infrastructure sectors.

### Page 7

# S.B. NO. <sup>609</sup> S.D. 1

1	(g) The council shall submit a report summarizing its		
2	findings, recommendations, and the status of actions to enhance		
3	electric grid and other critical infrastructure sector security		
4	and resiliency to the governor, legislature, and mayor and		
5	county council of each county no later than twenty days prior to		
6	the convening of the regular session of 2020, and every two		
7	years thereafter.		
8	(h) In carrying out its duties, the council, to the extent		
9	permitted by law, shall take appropriate measures to protect		
10	from public release any confidential or sensitive information if		
11	the release of that information could expose critical		
12	infrastructure to attack or damage.		
13	(i) Nothing in this section shall be deemed to delegate or		
14	detract in any way from the functions, powers, and duties		
15	conferred by law or ordinance on any state or county department		
16	or agency."		
17	SECTION 3. Section 128A-2, Hawaii Revised Statutes, is		
18	amended by adding three new definitions to be appropriately		
19	inserted and to read as follows:		
20	""Critical infrastructure sector" means a sector whose		
21	assets, systems, and networks, whether physical or virtual, are		

1	vital to the State's security, economic security, public health
2	or safety, or any combination thereof, including but not limited
3	to the water, environmental management, transportation,
4	electrical energy, gas energy, fuel import and refining,
5	interisland transport of property by water, and communications
6	sectors.
7	"Electric grid" means the network of electric generators,
8	transmission and distribution lines, substations, energy storage
9	devices, and supporting infrastructure used to produce and
10	deliver electricity to end-users.
11	"Resiliency" means the capacity to prevent or reduce the
12	severity of damage from a natural disaster or manmade emergency,
13	and to enable faster recovery of normal infrastructure
14	operations after a natural disaster or manmade emergency."
15	SECTION 4. There is appropriated out of the general
16	revenues of the State of Hawaii the sum of \$ or so
17	much thereof as may be necessary for fiscal year 2019-2020 and
18	the same sum or so much thereof as may be necessary for fiscal
19	year 2020-2021 for the homeland security and resiliency council
20	to perform its duties under chapter 128A, Hawaii Revised
21	Statutes.

8

Page 8

The sums appropriated shall be expended by the office of
homeland security for the purposes of this Act.

3 SECTION 5. New statutory material is underscored.

4 SECTION 6. This Act shall take effect on July 1, 2019.

## S.B. NO. 5.D. 1

#### Report Title:

Critical Infrastructure Resiliency; Electric Grid; Homeland Security and Resiliency Council; Appropriation

#### Description:

Establishes a Homeland Security and Resiliency Council to identify electric grid and other critical infrastructure needs and provide recommendations for enhancing the State's grid and critical infrastructure resiliency. Appropriates funds. (SD1)
