
A BILL FOR AN ACT

RELATING TO DIGITAL EQUITY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that digital equity
2 across the State and in every community is essential to the
3 well-being and economic realities of the State's residents. The
4 need for digital equity is significant, highlighted by the
5 devastating impacts of the recent coronavirus disease 2019
6 pandemic. The lack of digital equity has had a tremendously
7 negative effect in many areas, but particularly socio-
8 economically disadvantaged communities.

9 The legislature further finds that digital equity has meant
10 the difference between an employee being able to work remotely
11 or possibly facing unemployment. Additionally, digital literacy
12 and broadband access are critical tools for those seeking to
13 access social services such as unemployment claims, Supplemental
14 Nutrition Assistance Program (SNAP) benefits, vital records, and
15 other essential government, educational, and medical services.

16 The legislature further finds that digital equity in the
17 State would enhance Hawaii's overall economic development,

1 education, health care, and emergency services. Making grants
2 available to achieve digital equity in disadvantaged populations
3 would move the State toward universal access to broadband
4 services.

5 The legislature strongly supports efforts to improve
6 digital equity for residents, consumers, and businesses across
7 the State.

8 The purpose of this Act is to identify and address any
9 remaining obstacles to digital equity to all areas of the State
10 by establishing the digital equity grant program to award grants
11 and create a condition in which all individuals and communities
12 in the State have the information technology capacity needed for
13 full participation in society, democracy, and the economy.
