
A BILL FOR AN ACT

RELATING TO MOTOR VEHICLE SAFETY INSPECTIONS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that requiring vehicle
2 owners to present a valid certificate of registration in order
3 to receive a certificate of inspection creates an arduous three-
4 step process if the owner's certificates of inspection and
5 registration are both expired. First, the vehicle owner must
6 schedule an appointment with an inspection station and receive a
7 failed safety inspection to certify that the owner has satisfied
8 all of the requirements of the inspection, except the
9 certificate of registration. Then, the owner must present to
10 the appropriate county department having jurisdiction over motor
11 vehicle registration the failed safety check and all other
12 required documents. Finally, the owner must return to the
13 initial inspection station to receive a completed certificate of
14 inspection. This process creates extra traffic on the road,
15 unnecessary complications for the vehicle owners, and extra work
16 for safety inspection stations.

H.B. NO. 739

Report Title:

DOT; Rules; Evidence of Registration; Certificate of Inspection

Description:

Requires the Department of Transportation to amend its administrative rules to repeal any provisions requiring the furnishing of evidence of registration as a condition precedent to receiving a certificate of inspection.
