
A BILL FOR AN ACT

RELATING TO THE RIGHT TO GARDEN.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the 2023 Maui
2 wildfires interrupted food supply chains for the island. The
3 legislature notes that growing one's own food is a fundamental
4 right under the First and Fourteenth Amendments to the United
5 States Constitution and sections 4, 5, and 21 of article I of
6 the Constitution of the State of Hawaii. The legislature
7 believes that authorizing residents to grow their own food will
8 increase Hawaii's resident population and food resiliency while
9 mitigating the negative effects of future catastrophic events.

10 The legislature also finds that, according to the Lahaina
11 Wildfire interim Working Group, as "a geographically isolated
12 state with a limited local food supply and reliance upon imports
13 . . . , Hawai'i is particularly susceptible to food insecurity
14 following a disaster event." The working group recommended
15 that, because disaster events may lead to an increased reliance
16 on food assistance programs and the severity of food insecurity,
17 statutorily authorizing home gardens will improve Hawaii's food

3 resident gardening practices.

7 SECTION 2. Chapter 514B, Hawaii Revised Statutes, is
8 amended by adding a new section to be appropriately designated
9 and to read as follows:
