REQUESTING THE ESTABLISHMENT OF A STREAM MAINTENANCE WORKING
GROUP WITHIN THE DEPARTMENT OF LAND AND NATURAL RESOURCES.

1 WHEREAS, the flooding of streams has been a persistent

4 WHEREAS, trash and other debris can restrict the flow of
5 water through streams and other waterways, thereby preventing
6 the draining of stormwater and contributing to flooding; and

7
8 WHEREAS, woody debris, such as fallen trees, logs, and
9 branches, while important to the aquatic habitat, can also
10 obstruct drainage patterns and contribute to flooding; and

14 jurisdictions, which includes stream cleaning and drainage
15 improvement projects; and

16
17 WHEREAS, private landowners are responsible for stream
18 management on their properties; and

19
20 WHEREAS, a common concern of homeowners and other
21 landowners is the accumulation of debris in the stream channel
22 that obstructs stream flow, which can lead to flooding; and

23
24 WHEREAS, this problem is compounded by the illegal dumping
25 of trash that clogs and pollutes Hawaii's streams; and

26
27 WHEREAS, the Department of Land and Natural Resources,
28 through its stream maintenance schedule, as well as other
29 departments and agencies that have jurisdiction over stream
30 maintenance, such as the Department of Education, are often

8 complex, multi-jurisdictional issues that require a high degree
