

STAND. COM. REP. NO.

1877

Honolulu, Hawaii

APR 03

, 2025

RE: H.R. No. 179

Honorable Nadine K. Nakamura
Speaker, House of Representatives
Thirty-Third State Legislature
Regular Session of 2025
State of Hawaii

Madame:

Your Committee on Health, to which was referred H.R. No. 179
entitled:

"HOUSE RESOLUTION REQUESTING THE DEPARTMENT OF EDUCATION, IN
COLLABORATION WITH THE DEPARTMENT OF HEALTH AND STATE PUBLIC
CHARTER SCHOOL COMMISSION, TO CONDUCT A STUDY ON THE
PRACTICES OF MANAGING HEAT EXPOSURE IN DEPARTMENT AND CHARTER
SCHOOLS TO PROTECT STUDENTS' HEALTH DURING OUTDOOR
ACTIVITIES,"

begs leave to report as follows:

The purpose of this measure is to request the Department of
Education, in collaboration with the Department of Health and
State Public Charter School Commission, to conduct a study on the
practices of managing heat exposure in Department and charter
schools to protect student's health during outdoor activities.

Your Committee received testimony in support of this measure
from the Department of Health; Health Committee of the Democratic
Party of Hawai'i; Climate Change and Health Working Group; and two
individuals.

Your Committee finds that rising air temperatures and
Hawaii's high average relative humidity pose a significant
challenge to human thermoregulation, particularly for individuals
exercising outdoors where high humidity reduces the efficacy of
the body's ability to cool itself through sweating. Your

2025-3132 HR179 HSCR HMSO

Committee further finds that children and younger athletes are particularly vulnerable to exertional heat illness as they have reduced thermoregulation capabilities and slower heat acclimatization compared to adults and are often unable to control the timing and conditions of outdoor activities, such as recess and individual or team practices, and may have limited access to hydration during these activities. This measure seeks to improve student health by requesting the Department of Education, in collaboration with appropriate stakeholders, to conduct a study on heat exposure management practices in Department and charter schools.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 179 and recommends its adoption.

Respectfully submitted on
behalf of the members of the
Committee on Health,

GREGG TAKAYAMA, Chair

State of Hawaii
House of Representatives
The Thirty-third Legislature
