## Testimony of the Public Utilities Commission

To the  
Senate Committee on  
Ways and Means

April 1, 2025  
10:01 a.m.

Chair Dela Cruz, Vice Chair Moriwaki, and Members of the Committee:

**Measure:** H.B. No. 1052, H.D. 1, S.D. 1  
**Title:** RELATING TO THE UNIVERSAL SERVICE PROGRAM.

### Position:

The Public Utilities Commission ("Commission") strongly supports this Administration's package measure and offers the following comments for consideration.

### Comments:

The Commission strongly supports this measure to establish clear authorization and guidance to implement and manage the universal service program and the universal service fund.

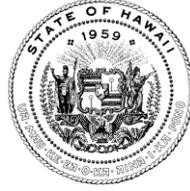

The Commission, under the authority granted by Act 247, Session Laws of Hawaii 2023, conducted procurement, signed a contract, and currently administers a program called the Third-Party Provider to Offer Assistive Services for the Print Disabled, informally termed Print Disability Assistance Program ("PDAP"). The program provides assistive services for the print disabled that includes a call-in service that converts local text news, periodicals, and job ads to voice for eligible persons. It expands the services that are currently offered through the Ho'opono Services for the Blind administered by the Department of Human Services – Division of Vocational Rehabilitation ("DHS-DVR").

The Commission notes that the current contracts contain options for a single one-year extension, which the Commission may execute to allow for time to implement the Universal Service Program ("USP") and appropriately gather funds in the Universal Service Fund ("USF"). The Commission is in discussions with DHS-DVR to provide access to, or otherwise transfer, necessary funds to maintain the portion of the USP that addresses HRS § 269-42 part (b). As is normally required, if the Commission does

provide funds to DHS-DVR, the Commission will also assist DHS-DVR in any procurement efforts to enable selection of a contract provider that will meet the needs of HRS § 269-42 part (b).

The Commission requests that the Committee consider the total not to exceed fund value of \$150,000, as it relates to the blank amount on Page 5, line 9.

Thank you for the opportunity to testify on this measure.

**Testimony of the Department of Commerce and Consumer Affairs**

**Before the  
Senate Committee on Ways and Means  
Tuesday, April 1, 2025  
10:01 a.m.  
Conference Room 211**

**On the following measure:  
H.B. 1052, H.D. 1, S.D. 1, RELATING TO THE UNIVERSAL SERVICE PROGRAM**

**WRITTEN TESTIMONY ONLY**

Chair Dela Cruz and Members of the Committee:

My name is Michael Angelo, and I am the Executive Director of the Department of Commerce and Consumer Affairs (Department) Division of Consumer Advocacy. The Department supports this administration bill.

The purpose of this bill is to clarify that the Public Utilities Commission (Commission) under the Universal Service Program may provide, and may use funds from the Universal Service Fund to provide, free telecommunications access to individuals with print disabilities.

The Department supports the provision of affordable utility services, including basic telecommunications services for all customers, regardless of their socioeconomic status or location. The Department understands that the intent of this bill is to ensure that individuals with print disabilities continue to have access to time-sensitive information such as state and local government information and public notices, emergency alerts, job

opportunities, daily newspapers, and other content, which the Department fully supports. While there may be other means to support services for individuals with print disabilities, the Department understands that this bill which clarifies that the Commission may provide services for this segment of our community through the state universal service program, which is existing legislation, will provide the Commission with necessary flexibility to ensure the continuation of on-going services for individuals with print disabilities as envisioned in Act 247, Session Laws of Hawaii 2023.

Thank you for the opportunity to testify on this administration bill.

The Honorable Senator Donovan M. Dela Cruz, Chair  
Senate Committee on Ways and Means  
The Thirty-Third Legislature  
State Capitol  
State of Hawai'i  
Honolulu, Hawai'i 96813

Dear Senator Dela Cruz and Committee Members:

SUBJECT: HB1052 HD1 SD1 Relating to the Universal Service Program

The Hawai'i State Council on Developmental Disabilities **SUPPORTS HB1052 HD1 SD1**, which clarifies that the Public Utilities Commission, under the Universal Service Program, may use funds from the Universal Service Fund to provide free telecommunications access to individuals with print disabilities. Takes effect 7/1/2050. (SD1)

Access to telecommunications services is essential for individuals with intellectual or developmental disabilities (I/DD), particularly those with print disabilities, such as individuals who are blind or visually impaired. Accessible and reliable communication services promote independence, enhance personal safety, and ensure equal access to crucial information. This would include emergency alerts, public resources, government services, and job opportunities.

This measure affirms the State's commitment to digital accessibility by authorizing the Public Utilities Commission to support telecommunication services for individuals with print disabilities. Additionally, utilizing Universal Service Program resources will help bridge existing service gaps and establish long-term sustainability. Ensuring equitable access to telecommunications empowers individuals with disabilities to fully participate in their communities and daily life.

Thank you for the opportunity to submit testimony in **support of HB1052 HD1 SD1**.

Sincerely,

TO: The Honorable Senator Donovan M. Dela Cruz, Chair  
Senate Committee on Ways and Means

FROM: Ryan I. Yamane, Director

SUBJECT: **HB 1052 HD1 SD1 – RELATING TO THE UNIVERSAL SERVICE PROGRAM.**

Hearing: Tuesday, April 1, 2025, at 10:01 a.m.  
Conference Room 211 & Videoconference, State Capitol

**DEPARTMENT'S POSITION:** The Department of Human Services (DHS) supports this administration measure, provides comments, and defers to the Public Utilities Commission (PUC).

**PURPOSE:** The measure clarifies that the Public Utilities Commission, under the Universal Service Program, may use funds from the Universal Service Fund to provide free telecommunications access to individuals with print disabilities. Effective 7/1/2050. (SD1).

The Committee on Consumer Protection & Commerce has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

The Committees on Commerce and Consumer Protection and Health and Human Services amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

The measure aims to ensure access to essential telecommunications services for individuals with print disabilities, including providing free, print-disability-friendly telephonic access to time-sensitive information for individuals who are blind or visually impaired. "Time-sensitive information" includes state and government information, public notices, emergency alerts, job opportunities, and daily newspapers.

The DHS Division of Vocational Rehabilitation (DVR) administers state-wide vocational rehabilitation services programs for individuals with physical and mental disabilities, including those who are blind and deaf. These include independent living rehabilitation services for individuals with significant disabilities, specialized services for individuals who are blind, deaf-blind, and low vision, and the determination of disability claims for Social Security Disability Insurance and Supplemental Security Income benefits issued by the Social Security Administration. DVR recognizes the importance of providing timely and essential information to all community members, including those with print disabilities, in an accessible format. DVR looks forward to the day that the State of Hawaii's Universal Service Program and Fund (USF) are authorized and implemented.

Thank you for the opportunity to provide comments on this measure.

National Federation of the Blind of Hawaii  
Testimony Submitted by James Gashel, legislative chair

Senate Ways and Means (WAM) Committee

Thirty-third legislature, 2025 regular session

April 1, 2025, 10:01 am, hearing on HB1052, H.D. 1, S.D. 1

Aloha Chair, Vice Chair, and members of the Ways and Means Committee. I am James Gashel, National Federation of the Blind (NFB) of Hawaii legislative chair, strongly supporting HB1052 H.D. 1, S.D. 1, relating to the Public Utilities Commission's universal service program and telecommunications information services for persons with print disabilities. Thank you for considering this important bill for decision making.

HB1052 is part of the governor's package, developed and requested by the Public Utilities Commission. Members of the NFB of Hawaii use and benefit substantially from telecommunications services for persons with print disabilities currently provided through the Commission under Act 247, passed in 2023. HB1052 is proposed to provide continued support for services like those described in the attachment below.

This program is all about making information more accessible to anyone with a print disability. Blindness, visual impairment, and learning disabilities, including dyslexia are among the most prevalent forms of print disability. Lack of timely access to information can be a real, day in and day out problem for approximately twenty five thousand residents of our state who can't see or use standard print as their primary form of communication, leaving them at an information deficit. Disabilities, like vision loss, often go with aging and can happen to anyone.

By way of full disclosure, NFB of Hawaii presently fulfills a contract with the Public Utilities Commission pursuant to Act 247. This is a very successful program, funded by an appropriation to the PUC special fund. However, providing information services for persons with print disabilities is also a legitimate responsibility of the Public Utilities Commission's Universal Service Program.

Mahalo for considering HB1052, vital to continuing the services described below. Members of the NFB of Hawaii strongly support this bill and hope you will do so too.

Attachment

Summary of Free Telephone Service for Residents of Hawaii with Print Disabilities

The free telephone service currently available to Hawaii residents with print disabilities offers state and local government information (including public notices) and other information (including current daily newspapers, magazines, emergency alerts, job opportunities, and other timely content) using accessible

formats.

Accessible formats provide information in an alternative manner or form that gives persons with print disabilities access to information equivalent to access for a person without a disability.

These formats include converting printed information into audio, Braille, or both. This service is available 24 hours per day, seven days per week.

Hawaii publications currently available include the Star Advertiser, Garden Island News, and Associated Press Hawaii. Efforts are currently underway to include additional Hawaii publications, such as The Maui News, as well as a Hawaii Island newspaper.

In addition to local newspapers, Hawaii residents with print disabilities can also access their local weather forecast, emergency weather alerts, and local television listings through the free telephone service.

The local information channel that is part of the free telephone service provides information and announcements from state and local government agencies regarding emergency preparedness, updates on public transit, accessible voting, utility rate hearings, services provided by the Hawaii Library for the Blind and Print Disabled, etc. The local information channel also includes information about local organizations serving Hawaii's blind and low-vision community such as the National Federation of the Blind of Hawaii, Hawaii Association of the Blind, and Travel Visions Aloha.

In addition to local news and information, the free telephone service also provides adults with print disabilities access to over 500 newspapers, including six Spanish language newspapers, and more than 90 magazines. National newspapers available through the free service include the New York Times, Washington Post, Wall Street Journal, and USA Today. Over 100 international newspapers, including Manilla Bulletin, Irish Times, Shanghai Daily, and Japan Times are also available through the free service. Magazines available to adult subscribers include Time, Rolling Stone, The Economist, and AARP Magazine. Finally, in the breaking news category, over forty-four publications are available including ABC, Fox, NPR, Apple Insider, and Science Daily.

In addition to using a touchtone telephone, subscribers can access the content available through the free service using a secure website, smartphone app, digital talking book player, and Amazon Alexa device. Content can be read in Braille using a refreshable Braille display or NLS e-reader.

A limited access account to the free telephone service is also available to children with print disabilities. The service is a valuable resource for leisure and educational activities and provides a restricted level of publications and content specifically structured for children. Publications in the limited access subscription include state publications and state local information channel, Animal Tales, Highlights, and National Geographic for Kids.

In addition to accessing news and information, adult subscribers to the free telephone

service can search for job listings on USA Jobs, and Career Builders. Job listings can be searched by zip code, desired income, and education level.

æ

Testimony Submitted by Katie Keim

Senate Ways and Means (WAM) Committee

Thirty-third legislature, 2025 regular session

April 1, 2025, 10:01 am, hearing on HB1052, H.D. 1, S.D. 1

Aloha Chair, Vice Chair, and members of the Ways and Means Committee. My name is Katie Keim, a proud member and leader of the National Federation of the Blind of Hawaii, strongly supporting HB1052 H.D. 1, S.D. 1, relating to telecommunications information services for persons with print disabilities, supported by the Public Utilities Commission's universal service program. Mahalo for considering this important bill for decision making.

HB1052, introduced at the request of the Public Utilities Commission, ensures continued support for accessible telecommunications information services first authorized by Act 247 in 2023.

As a local blind business woman, I can access daily news, magazines and important community notices as well as emergency alerts 24 hours a day. My schedule often does not allow me to sit in front of the TV to get information in time for my work day, or while traveling outside the state. Using this service enables me to access news and alerts from any location I am at, important while traveling for work outside our state or emergency alerts while at conferences. Information accessible to me is essential to news and critical community announcements maintaining my active involvement as a local blind business woman.

I stand in strong support of the testimony submitted by James Gashel, Legislative Chair for the NFB of Hawaii.

As a member of the National Federation of the Blind of Hawai 'i, I urge your support. Mahalo nui loa for advancing HB1052, which helps maintain equal access to information.

Testimony Submitted by Virgil Stinnett

Senate Ways and Means (WAM) Committee

Thirty-third legislature, 2025 regular session

April 1, 2025, 10:01 am, hearing on HB1052, H.D. 1, S.D. 1

Aloha Chair, Vice Chair, and members of the Ways and Means Committee. My name is Virgil Stinnett, President of the National Federation of the Blind of Hawaii, strongly supporting HB1052 H.D. 1, S.D. 1, relating to telecommunications information services for persons with print disabilities, supported by the Public Utilities Commission's universal service program. Mahalo for considering this important bill for decision making.

HB1052, introduced at the request of the Public Utilities Commission, ensures continued support for accessible telecommunications information services first authorized by Act 247 in 2023.

As a local blind business man serving our Department of Defense with 81 employees, having accessible and timely information accessible to me is critical. Daily I read the local and national newspapers often on my way to work early in the morning, ensuring I am prepared with important updates in our community and nation that is vital in my daily communication with my project manager and regularly scheduled meetings with the DOD staff. Additionally, all my employees are Hawaii civilian residents which requires me to be on top of emergencies and critical local news and island weather, or other community announcements. All of this is accessible to me in a variety of platforms any where, whether traveling outside the state, at home or at work, and 24 hours a day.

I stand in strong support of the testimony submitted by James Gashel, Legislative Chair for the NFB of Hawaii.

Mahalo nui loa for advancing HB1052, which helps maintain equal access to information. As the elected president of the National Federation of the Blind of Hawai'i, I and our members urge your support.

Testimony of Donald Sakamoto

Senate Ways and Means Committee (WAM)

Thirty-third legislature, 2025 regular session

Tuesday, April 1, 2025, 10:01 am, hearing on HB1052 H.D. 1 S. B. 1

Good Morning Chair, Vice Chair, and members. I am Donald Sakamoto, testifying to support HB1052 H.D. 1 S. B. 1, Universal service program, Public Utilities Commission, telecommunications information services for persons with print disabilities.

This bill clarifies that the Public Utilities Commission (PUC), under the Universal Service Program, may provide, and may use funds from the Universal Service Fund to also provide, free telecommunications access to individuals with print disabilities.

Blindness, visual impairment, and learning disabilities, including dyslexia are among the most frequent forms of print disability. Lack of timely access to information can be a real, day in and day out problem for approximately some 25,000 residents of our state who can't see or use standard print as their primary form of communication, leaving them at an information deficit.

The program authorized by HB1052 H.D. 1, is currently being managed and funded by the PUC with an appropriation made under Act 247, SLH 2023. HB 1052 will allow the PUC to continue this service by implementing its universal service program. The service includes content such as state and local public notices, current daily newspapers, magazines, emergency alerts, job opportunities, and other timely content using non-visual formats accessible to persons with print disabilities.

Thank you so much for allowing me to testify on this important bill, and I urge you all to kindly please have HB1052 H.D. 1 S. B. 1 to proceed on for this legislative session.

Brandon Young

3/30/2025

Testimony Submitted by Brandon Young

Senate Ways and Means (WAM) Committee

Thirty-third legislature, 2025 regular session

April 1, 2025, 10:01 am, hearing on HB1052, H.D. 1, S.D. 1

Aloha Chair, Vice Chair, and members of the Ways and Means Committee. I am Brandon Young, strongly supporting HB1052 H.D. 1, S.D. 1, relating to telecommunications information services for persons with print disabilities, supported by the Public Utilities Commission's universal service program. Thank you for considering this important bill for decision making.

HB1052, introduced at the request of the Public Utilities Commission, ensures continued support for accessible telecommunications information services first authorized by Act 247 in 2023. These services are essential for approximately 25,000 Hawai'i residents with print disabilities—such as blindness, low vision, or dyslexia—who cannot use standard print for daily communication. Access to timely information is crucial, particularly for seniors and others affected by age-related vision loss.

We thank you for advancing HB1052, which helps maintain equal access to information. Members of the National Federation of the Blind of Hawai'i urge your support. I use this service to keep up with the news of the day. I enjoy this wonderful service and it helps myself as well as all of the blind of Hawaii keep up to date with the news of Hawaii and the world.

Summary of Free Telephone Service for Residents of Hawaii with Print Disabilities

Hawai'i's free telephone service provides essential information in accessible formats for individuals with print disabilities. It includes:

- Government and public notices
- Local newspapers such as the Star Advertiser, Garden Island News, and Associated Press Hawaii
- Weather forecasts and emergency alerts
- Local television listings
- Over 500 national and international newspapers (e.g., New York Times, Wall Street Journal, Japan Times)
- More than 90 magazines (e.g., Time, AARP Magazine, The Economist)
- Breaking news from over 40 outlets, including ABC, NPR, and Science Daily

Information is available 24/7 via phone, website, smartphone app, digital talking book player, or Amazon Alexa. Content can also be read in Braille using an NLS e-reader or refreshable Braille display.

The service includes a local information channel with announcements on emergency preparedness, transit updates, accessible voting, and programs from organizations like the Hawai'i Library for the Blind and Print Disabled, and the National Federation of the Blind of Hawai'i.

Children with print disabilities have access to a limited subscription tailored for education and leisure. Publications include Animal Tales, Highlights, National Geographic for Kids, and state-specific materials.

Adult subscribers may also search job listings through USA Jobs and Career Builders, filtered by location, salary, and education level.

Ann Lemke	Individual	Comments	Written Testimony Only

Comments:

Hellocommittee chair, vice chair and members,

My name is Ann Lemke and I am submitting testimony to support this bill, because I am a blind retired person who accesses the newspaper content made available through funds from the Public Utilities Commission. If these newspaper sources were not available to me as a print-disabled individual, I would be much less prepared to participate meaningfully in the civic responsibilities I feel we all have as members of our community.

When I can listen to this news content from local and national news sources, I feel better prepared to make more informed voting choices.

Respectfully,

AnnLemke, Ph.D., retired from UH Windward
