TO: The Honorable Representative Lisa Marten, Chair
House Committee on Human Services & Homelessness

FROM: Ryan I. Yamane, Director

SUBJECT: **HB 244 – RELATING TO THE DEPARTMENT OF HUMAN SERVICES.**

Hearing: February 6, 2025, 10:00 a.m.
Conference Room 329 & Videoconference, State Capitol

DEPARTMENT'S POSITION: The Department of Human Services (DHS) appreciates the intent of the measure, provides comments, and requests clarification. DHS respectfully requests that any appropriation not reduce or replace priorities identified in the executive budget.

PURPOSE: Appropriates funds for the Department of Human Services to collaborate with community-based organizations to address the need for social services in the State.

DHS is well aware that the true cost of providing contracted services has increased faster than appropriations and contracted amounts. This results in community-based organizations having to fundraise, hire less staff, or reduce the number of people served by the contract.

DHS respectfully requests clarification if the Legislature intends that the appropriation be directed toward a particular program.

Thank you for the opportunity to provide comments on this measure.

TESTIMONY IN SUPPORT OF HB 244 RELATING TO THE **DEPARTMENT OF HUMAN SERVICES**

Hawaii Youth Services Network (HYSN), a statewide coalition of youth-serving organizations, supports HB 244 Relating to the Department of Human Services, which aims to increase funding for the Department of Human Services to enhance its partnership with Community-Based Organizations (CBOs).

Hawaii's most vulnerable populations including children, youth, and young adults, need the educational, vocational, family strengthening, and other services provided by CBOs. We all want our children to grow up safe, healthy, and ready to succeed. It takes a network of trauma-informed, culturally relevant, and accessible services to enable our young people to make successful transitions to adulthood.

The most recent ALICE report by Aloha United Way noted that 37% of households said that someone in their family is considering moving out of state. 85% of families said it was simply the high cost of living in Hawai'i, and 73% said it was because of the high cost of housing,

CBOs struggle to attract and retain qualified staff. When contracts and grants do not pay the full cost of providing services, workers leave for higher paying jobs or places with a lower cost of living. It is shameful that wages are so low that a portion of Hawaii's CBO staff receive SNAP and other public assistance benefits. Staff working with homeless persons are concerned about becoming homeless themselves. One outreach worker shared with me, "If my landlord raises my rent, I won't be able to afford my housing." In 2024, The Salvation Army Family Intervention Services stopped admitting clients to its emergency shelter for boys on Maui due to critical staffing shortages.

Thank you for this opportunity to testify.

Sincerely,

A handwritten signature in black ink that reads "Judith F. Clark". The signature is written in a cursive style with a large, looping initial "J".

COMMITTEE ON HUMAN SERVICES & HOMELESSNESS

Rep. Lisa Marten, Chair

Rep. Ikaika Olds, Vice Chair

Thursday, Feb 6, 2025: 10:00: Room 329 Videoconference

Hawaii Substance Abuse Coalition Supports HB244:

ALOHA CHAIR, VICE CHAIR, AND DISTINGUISHED COMMITTEE MEMBERS. My name is Alan Johnson. I am the current chair of the Hawaii Substance Abuse Coalition (HSAC), a statewide organization for substance use disorder and co-occurring mental health disorder treatment and prevention agencies and recovery-oriented services.

There is a significant need for more residential and intensive outpatient services for individuals with co-occurring disorders (mental health and substance use disorders) in Hawaii.

While state funding has been reduced for formal treatment for this population, the state faces unique challenges, including a high cost of living, a shortage of mental health and addiction treatment providers, and a large homeless population—many of whom struggle with co-occurring disorders.

Despite the rising need for more funding, the state recently and significantly reduced funding for residential and outpatient, especially for co-occurring disorder treatment (mental health and substance abuse).

Why More Services Are Needed:

- 1. High Rates of Co-Occurring Disorders**
 - Many individuals experiencing homelessness in Hawaii have both mental health and substance use disorders needing long-term recovery support.
- 2. Limited Availability of Residential Treatment**
 - Funding is needed to sustain these programs because there are only a few dedicated residential programs that offer integrated care for both conditions.
 - Many existing programs focus on either mental health or substance use but not both, leading to gaps in care.
- 3. Barriers to Accessing Care.**
 - Insurance and funding constraints limit the number of available treatment beds.
- 4. Geographic Challenges**
 - Services are often concentrated in Honolulu, leaving rural communities and outer islands underserved.

Possible Solutions

1. **Expand state funding for residential treatment beds** with integrated mental health and substance use care.
2. **Increase funding for dual-diagnosis programs, including outpatient as well as residential** through Medicaid, state grants, and federal support.
3. **Develop more community-based step-down housing** to help individuals transition from residential care to independent living.
4. **Improve coordination between mental health, addiction treatment, and housing services** to provide long-term support.

Hawai'i's Medicaid program (Med-QUEST) has received increased funding in recent years, such as a \$25 million expansion for adult dental benefits, but additional investment is needed to strengthen behavioral health services. Efforts are underway to support workforce development and increase the number of providers through partnerships and loan forgiveness programs.

Advocating for more co-occurring disorder residential services in Hawaii is essential for reducing homelessness, improving public health, and breaking the cycle of crisis care. Expanding Medicaid funding for behavioral health services is not just a healthcare issue—it's a social and economic imperative that improves outcomes and reduces long-term public costs.

We appreciate the opportunity to provide testimony and are available for further questions.

Comments:

Aloha Committee,

Mahalo for moving HB244 forward. As a Maui County provider of services for those living unsheltered and unhoused, I am in support of HB244. Maui County has been in crisis for over a decade and Covid and the wildfires have deepened the needs and exacerbated already critical needs. Our only ER is unable to adequately manage the continued needs for those without shelter and we need immediate assistance to reach those for whom Maui County does not provide shelter.

Mahalo in advance for your support,

Lisa Darcy, Share Your Mana

COMMITTEE ON HUMAN SERVICES AND HOMELESSNESS

Representative Lisa Marten, Chair

Representative Ikaika Olds, Vice Chair

Thursday, February 6, 2025

Room 329 & VIDEOCONFERENCE

10:00 AM

STRONG SUPPORT FOR HB 244 - DEPARTMENT OF HUMAN SERVICES

Aloha Chair Marten, Vice Chair Olds and Members of the Committee!

My name is Kat Brady and I am the Coordinator of Community Alliance on Prisons, a community initiative promoting smart justice policies in Hawai'i for more than two decades. This testimony is respectfully offered on behalf of the 3,697 Hawai'i individuals living behind bars¹ and under the "care and custody" of the Department of Corrections and Rehabilitation on any given day. We are always mindful that 937 - 49% - of Hawai'i's imprisoned male population are serving their sentences abroad -- thousands of miles away from their loved ones, their homes and, for the disproportionate number of incarcerated Kanaka Maoli, far, far from their ancestral lands.

As a member of the True Cost Coalition, Community Alliance on Prisons appreciates this opportunity to **strongly support HB 244** that appropriates funds for the Department of Human Services to collaborate with community-based organizations to address the need for social services in Hawai'i nei.

Individuals exiting incarceration need a whole host of supports from housing, food, healthcare to name a few in order to transition from incarceration to community life. Hawai'i community-based organizations have nobly filled the pukas in services and for that, we are eternally grateful.

Hawai'i's amazing nonprofits have stepped up to provide the services that communities across our pae`aina desperately need and that the state is unable to provide themselves. These organizations don't have millions of dollars as a safety net when the

¹ DCR Weekly Population Report, January 20, 2025

<https://dcr.hawaii.gov/wp-content/uploads/2025/01/Pop-Reports-Weekly-2025-01-20.pdf>

government is slow to reimburse them for the services they have provided. They are doing the work of the government, and should not be short-changed because they are doing work they love providing vital services to some of our most vulnerable neighbors and communities.

Here is a snapshot from a 2022 survey of Hawai`i Community-Based Nonprofit Organizations:

- 91% reported government contracts do not cover full operating costs.
 - o 79% had to cut administrative costs.
 - o 56% had to reduce staff salaries.
 - o 87% relied on private funders to close funding gaps.
 - o 23% incurred loan/interest fees while awaiting contract payments (59% were never reimbursed).

- 40% of organizations reported they may cease operations if these funding challenges persist. This would be a big blow to our communities across Hawai`i nei.

The current state of Federal spending certainly is a clarion call for the state to step up to their responsibilities for the people. We pay our taxes so that the government can deliver the services that communities need by itself or through their contracts with community-based organizations. The new federal administration has openly discussed cuts to federal spending, creating significant uncertainty for programs and services. This reinforces the urgency to address local funding shortfalls to protect Hawai`i's most vulnerable residents.

Community Alliance on Prisons respectfully asks our legislature to step up to increase the contracts with these community-based organizations by 20% as the Department of Human Services has determined is needed to meet the demands for services.

Mahalo for this opportunity to share our thoughts. Community Alliance on Prisons hopes that our legislature will step up to increase the contracts by 20% so that Hawai`i can deliver the services and the Aloha spirit to our struggling neighbors and communities.

Mahalo nui!

HB244 DHS Funds for Social Services

COMMITTEE ON HUMAN SERVICES & HOMELESSNESS

Rep. Lisa Marten, Chair

Rep. Ikaika Olds, Vice Chair

Thursday, Feb 6, 2025: 10:00am: Room 329 Videoconference

Hina Mauka *Supports* HB244:

*ALOHA CHAIR, VICE CHAIR, AND DISTINGUISHED COMMITTEE MEMBERS.
My name is Brian Baker. I am the Chief Operating Officer for Hina Mauka, a mental health and substance use disorder treatment and prevention agency for thousands of adults and adolescents on Oahu and Kauai, including recovery-oriented services and housing transitional living programs.*

Hina Mauka provides this testimony as a community treatment and prevention provider, as well as a member of the Hawaii Substance Abuse Coalition (HSAC).

Despite the rising need for more funding, the state recently and significantly reduced funding for residential and outpatient services, especially for co-occurring disorder treatment (mental health and substance abuse.)

Unfortunately, these funding cuts directly harm the same people who are ALSO impacted by Hawaii's high cost of living, lack of affordable housing, and lack of mental health and substance use disorder treatment. Programs that have weathered the storms and continue, remain at risk of being lost, due to chronic underfunding,

There is a significant need for more residential and intensive outpatient services for individuals with co-occurring disorders in Hawai'i.

Expanding state funding for residential treatment beds is a good first step toward stabilizing this situation, and reversing the long-term trend of cuts. Expanding funding to incentivize co-occurring treatment then takes the next step toward making the system more efficient and effective.

We appreciate the opportunity to provide testimony and are available for further questions.

To: House Committee on Human Services and Homelessness
Re: HB 244 Relating to the Department of Human Services

Hawai'i State Capitol, Conference Room 329 & Via Videoconference
Thursday, February 6, 2025, 10:00AM

Dear Chair Marten, Vice Chair Olds, and Committee Members,

On behalf of HCANSpeaks!, I am writing in strong support of HB 244, relating to early childhood intervention. This bill appropriates funds for the department of human services to collaborate with community-based organizations (CBOs) to address the need for social services in the State.

Hawai'i's most vulnerable populations—children, individuals experiencing homelessness, and those in need of social services—rely heavily on the safety net provided by CBOs. However, stagnant funding levels and rising operational costs, especially following crises like the Maui wildfires, have pushed these organizations to the brink.

This bill is a necessary step toward addressing Hawai'i's growing social service needs. By strengthening collaborations with CBOs, we can improve access to benefits, childcare, workforce training, and homelessness services while promoting stability and well-being in our communities.

Given the ongoing uncertainty of federal spending on social service programs, Hawai'i must take decisive action to ensure the stability of critical services provided through the Department of Human Services. Federal resources often fluctuate, and reductions in funding could disproportionately impact programs supporting homelessness, employment support, and child welfare. This bill is a necessary safeguard to guarantee that Hawaii's most vulnerable populations continue receiving the assistance they need, regardless of federal budget changes.

The True Cost Coalition supports HB 244 because it directly addresses an urgent funding gap that, if left unchecked, would jeopardize the critical services Hawaii families depend on. We urge you to pass this measure and invest in the future of Hawaii's most vulnerable residents.

Mahalo for the opportunity to submit testimony in **strong support of HB 244.**

Kind regards,
Noreen Kohl, Ph.D.

Policy Researcher and Advocate

Hawai'i Children's Action Network, a member of the Hawai'i [True Cost Coalition](#)

Hawai'i True Cost Coalition

Date: February 6, 2025

Re: Strong Support of HB 244, Relating to the Department of Human Services

Aloha Chair Marten, Vice Chair Olds, and Members of the Committee,

Our coalition of organizations for Hawai'i True Cost Coalition are writing in strong support of HB 244 Relating to the Department of Human Services. This bill appropriates funds for the department of human services to collaborate with community-based organizations to address the need for social services in the State.

The Hawai'i True Cost Coalition is an alliance of over 70 community-based nonprofit organizations serving more than 500,000 residents statewide. Since its establishment in 2020, the coalition has focused on strengthening collaboration between nonprofits and the state to ensure taxpayer funds are allocated equitably and efficiently. By advocating for sustainable funding solutions, the coalition helps safeguard critical services for Hawai'i's most vulnerable populations, including children, kupuna, individuals experiencing homelessness, and survivors of domestic violence. These efforts are essential to ensuring that nonprofit organizations can continue providing the vital care and support on which so many residents rely.

Hawai'i's safety net often goes unnoticed—until it begins to fray. This safety net consists of community-based nonprofit organizations (CBOs) that provide essential services to tens of thousands of residents every day. These organizations offer shelter for at-risk youth, meals for kupuna, aid for survivors of domestic violence, and countless other supports that touch every corner of the state. Without immediate action, many of these programs could disappear entirely, leaving some of Hawai'i's most vulnerable residents without the critical support they need to thrive.

HB 244 addresses funding gaps for the Department of Human Services (DHS), enabling stronger partnerships with CBOs and sustaining essential services. Increased DHS funding ensures Hawai'i families receive housing assistance, food security, youth support, and care for low-income households. This measure promotes community well-being while strengthening Hawai'i's social safety net for the future. Investing now secures vital support for years to come.

Mahalo for the opportunity to testify on this important measure.

Subject: Support for HB 244 Relating to the Department of Human Services

Dear Chair Marten, Vice Chair Olds, and Members of the Committee,

I am writing in strong support of HB 244 which increases funding for the Department of Human Services to enhance its partnership with Community-Based Organizations (CBOs) and ensure the service it depends upon CBOs to administer can be adequately funded.

Hawaii's most vulnerable populations—children, individuals experiencing homelessness, and those in need of social services—rely heavily on the safety net provided by CBOs. However, funding levels have not kept pace with rapidly rising operational and staffing costs, and crises like the Maui wildfires have pushed these organizations to the brink.

This bill is a necessary step toward strengthening collaborations with CBOs, which will improve access to benefits, childcare, workforce training, and homelessness services while helping the State to meet its ambitious goals for stability and well-being in our communities

Given the ongoing uncertainty of federal spending on social service programs, Hawaii must take decisive action to ensure the stability of critical services provided through the Department of Human Services. Federal resources often fluctuate, and reductions in funding could disproportionately impact programs supporting homelessness, employment support, and child welfare. This bill is a necessary safeguard to guarantee that Hawaii's most vulnerable populations continue receiving the assistance they need, regardless of federal budget changes.

Aloha United Way and the True Cost Coalition supports HB 244 because it directly addresses an urgent funding gap that is jeopardizing critical services for Hawaii families and must be addressed.

We urge you to pass HB 244 measure and invest in the future of Hawaii's most vulnerable residents.

Thank you for considering this important legislation.

Michelle Bartell
President & CEO
Aloha United Way

CATHOLIC CHARITIES HAWAII

TO: House Committee on Human Services & Homelessness
FROM: Tina Andrade, President and CEO, Catholic Charities Hawai'i
Date: February 6, 2025

Subject: Support for HB 244 Relating to the Department of Human Services

Dear Chair Marten, Vice Chair Olds, and Members of the Committee,

We appreciate the opportunity to provide testimony in **strong support of HB 244** with the goal of securing additional funding for the Department of Human Services to strengthen its collaboration with Community-Based Organizations (CBOs). I am Tina Andrade, with Catholic Charities Hawai'i.

Catholic Charities Hawai'i (CCH) is a tax exempt, Community-Based Organization that has been providing social services in Hawai'i for over 77 years. CCH has programs serving children, families, elders, homeless, and immigrants. Our mission is to provide services and advocacy for the most vulnerable in Hawai'i. Catholic Charities Hawai'i has a long history of working in the areas of affordable housing, homelessness, and child welfare.

We are a member of the Hawai'i True Cost Coalition, comprised of Community-Based Organization, serving over 500,000 people across the state. Hawaii's most vulnerable populations—including children, individuals experiencing homelessness, and those requiring social services—depend significantly on the support provided by CBOs. However, stagnant funding and increasing operational costs, particularly in the aftermath of crises such as the Maui wildfires, have brought these organizations to a critical breaking point.

With the continued uncertainty surrounding federal funding for social service programs, Hawaii must act decisively to secure the stability of essential services delivered through the Department of Human Services. Fluctuations in federal resources, including potential funding cuts, could severely affect programs addressing homelessness, employment support, and child welfare. This bill serves as a vital measure to ensure that Hawaii's most vulnerable populations consistently receive the assistance they need, regardless of changes in the federal budget.

The True Cost Coalition supports HB 244 as it tackles a pressing funding shortfall that, if unaddressed, would endanger the essential services relied upon by Hawaii families. We strongly encourage you to pass this measure and make a vital investment in the future of Hawaii's most vulnerable residents. Thank you for considering this important legislation.

Sincerely,

Tina Andrade, President and CEO of Catholic Charities Hawai'i

Subject: Support for HB 244 Relating to the Department of Human Services

Dear Chair Marten, Vice Chair Olds, and Members of the Committee,

I am writing on behalf of Child and Family Service to show our **strong support** of HB 244 Relating to the Department of Human Services, which aims to increase funding for the Department of Human Services to enhance its partnership with Community-Based Organizations (CBOs).

Through the utilization of our core H.O.P.E. values (Humility, Ownership, Perseverance, and Engagement), our program aims to help Hawaii's most vulnerable populations to strengthen families and foster the healthy development of children. Children, individuals experiencing homelessness, survivors of domestic violence, and many other groups rely on the safety nets provided by CBOs. However, stagnant funding levels and rising operational costs, especially following crises like the Maui wildfires, have pushed these organizations to the brink.

Given the ongoing uncertainty of federal spending on social service programs, Hawaii must take decisive action to ensure the stability of critical services provided through the Department of Human Services. The True Cost Coalition supports HB 244 because it directly addresses an urgent funding gap that may jeopardize the critical services Hawaii families depend on.

This bill is a necessary safeguard to guarantee that Hawaii's communities continue receiving the assistance they need, regardless of federal budget changes. By strengthening collaborations with CBOs, we can improve access to benefits, childcare, workforce training, and homelessness services while promoting stability and well-being in our communities.

We urge you to pass this measure and invest in the future of Hawaii's most vulnerable residents.

Thank you for considering this important legislation.

Child & Family Service

“We’re all about FAMILY”

Mission: Strengthening Families and Fostering the Healthy Development of Children

Subject: Support for HB 244 Relating to the Department of Human Services

Dear Chair Marten, Vice Chair Olds, and Members of the Committee,

I am writing in **strong support** of HB 244, which aims to increase funding for the Department of Human Services to enhance its partnership with Community-Based Organizations (CBOs). Hawai'i's most vulnerable populations—children, individuals experiencing homelessness, and those in need of social services—rely heavily on the safety net provided by CBOs. However, stagnant funding levels and rising operational costs, especially following crises like the Maui wildfires, have pushed these organizations to the brink.

This bill is a necessary step toward addressing Hawaii's growing social service needs. By strengthening collaborations with CBOs, we can improve access to benefits, childcare, workforce training, and homelessness services while promoting stability and well-being in our communities.

EPIC 'Ohana has served communities, families, young adults, and children impacted by the foster care system statewide, for almost thirty years. The need for critical supports has never been more urgent as Child Welfare Services faces an almost 40% vacancy rate and a newly released legislative working group report that highlights the need for sweeping reforms.

Given the ongoing uncertainty of federal spending on social service programs, Hawai'i must take decisive action to ensure the stability of critical services provided through the Department of Human Services. Federal resources often fluctuate, and reductions in funding could disproportionately impact programs supporting homelessness, employment support, and child welfare. This bill is a necessary safeguard to guarantee that Hawaii's most vulnerable populations continue receiving the assistance they need, regardless of federal budget changes.

The True Cost Coalition supports HB 244 because it directly addresses an urgent funding gap that, if left unchecked, would jeopardize the critical services Hawai'i families depend on. We urge you to pass this measure and invest in the future of Hawai'i's most vulnerable residents.

Mahalo nui loa for considering this important legislation.

Delia Parker Ulima
Executive Director, EPIC 'Ohana

Katy Chen
President/CEO
Goodwill Hawaii
1/20/2025

Subject: Support for HB 244 Relating to the Department of Human Services

Dear Chair Marten, Vice Chair Olds, and Members of the Committee,

I am writing in **strong support** of HB 244, which aims to increase funding for the Department of Human Services to enhance its partnership with Community-Based Organizations (CBOs). Hawaii's most vulnerable populations—children, individuals experiencing homelessness, people receiving public assistance such as TANF or SNAP benefits, and those in need of social services—rely heavily on the safety net provided by CBOs. However, stagnant funding levels and rising operational costs, especially following crises like the Maui wildfires, have significantly impacted the financial sustainability of these organizations. Goodwill Hawaii, as one of the leading CBOs in Hawaii, has to continuously look for other sources of funding to supplement costs associated with Government contracts, and to support our continuous operations.

Goodwill Hawaii has been providing employment, training, and case management services to Hawaii's vulnerable populations since 1959. The populations we serve include people with disabilities, people who are receiving public assistance such as TANF and SNAP benefits, at risk youths, immigrants, low-income families, dislocated workers, and justice involved individuals. Our mission is to help people with employment barriers to reach their full potential and become self-sufficient. We have been receiving funding from the Department of Human Services for over 20 years to provide essential services to adults and youths. For most of the contracts we have with DHS, the contract amount has not increased for years. Despite the stagnant contract fund, we still have to increase staff wages and pay the increase in cost of other expenses such as rent and supplies. The increase in cost has intensified in recent years after the pandemic. As a result, it is harder and harder to operate the programs effectively without enough funding to cover the true cost of operations. We often need to compensate by not paying our staff a competitive wage, which resulted in difficulty in recruitment and high staff turnover due to staff finding better paying positions with for profit companies. Many of our staff moved on to work for the state because of higher wage and better benefits. An increase in contract price is essential for us to operate the program well and to continue providing quality services to the most vulnerable populations in Hawaii. This bill is a necessary step toward addressing Hawaii's growing social service needs. By strengthening collaborations with agencies like Goodwill, we can improve access to benefits, childcare, workforce training, and homelessness services while promoting stability and well-being in our communities.

Given the ongoing uncertainty of federal spending on social service programs, Hawaii must take decisive action to ensure the stability of critical services provided through the Department of

Human Services. Federal resources often fluctuate, and reductions in funding could disproportionately impact programs supporting homelessness, employment support, and child welfare. This bill is a necessary safeguard to guarantee that Hawaii's most vulnerable populations continue receiving the assistance they need, regardless of federal budget changes.

The True Cost Coalition supports HB 244 because it directly addresses an urgent funding gap that, if left unchecked, would jeopardize the critical services Hawaii families depend on. We urge you to pass this measure and invest in the future of Hawaii's most vulnerable residents.

Thank you for considering this important legislation.

Letter of Support

February 6, 2025

RE: Support for HB 244 Relating to the Department of Human Services

Dear Chair Marten, Vice Chair Olds, and Members of the Committee,

I am writing in **strong support** of HB 244 which aims to increase funding for the Department of Human Services to enhance its partnership with Community-Based Organizations (CBOs).

Hawaii's most vulnerable populations—children, individuals experiencing homelessness, and those in need of social services—rely heavily on the safety net provided by CBOs. However, stagnant funding levels and rising operational costs, especially following crises like the Maui wildfires, have pushed these organizations to the brink.

This bill is a necessary step toward addressing Hawaii's growing social service needs. By strengthening collaborations with CBOs, we can improve access to benefits, childcare, workforce training, and homelessness services while promoting stability and well-being in our communities.

Given the ongoing uncertainty of federal spending on social service programs, Hawaii must take decisive action to ensure the stability of critical services provided through the Department of Human Services. Federal resources often fluctuate, and reductions in funding could disproportionately impact programs supporting homelessness, employment support, and child welfare. This bill is a necessary safeguard to guarantee that Hawaii's most vulnerable populations continue receiving the assistance they need, regardless of federal budget changes.

Hawai'i Health & Harm Reduction Center's mission is to reduce harm, promote health, create wellness and fight stigma in Hawaii and the Pacific. We focus our efforts on those disproportionately affected by social determinants of health, including but not limited to: people living with and/or affected by HIV, hepatitis, substance use, and the transgender, LGBTQ and the Native Hawaiian communities.

The True Cost Coalition supports HB 244 because it directly addresses an urgent funding gap that, if left unchecked, would jeopardize the critical services Hawaii families depend on. We urge you to pass this measure and invest in the future of Hawaii's most vulnerable residents.

Thank you for considering this important legislation.

From: Judith F. Clark, MPH
Executive Director
Hawaii Youth Services Network

Subject: Support for HB244 Relating to the Department of Human Services

Dear Chair Marten, Vice Chair Olds, and Members of the Committee,

Hawaii Youth Services Network (HYSN), a statewide coalition of youth-serving organizations, supports HB244, which aims to increase funding for the Department of Human Services to enhance its partnership with Community-Based Organizations (CBOs).

Hawaii's most vulnerable populations including children, youth, and young adults, need the educational, vocational, family strengthening, and other services provided by CBOs. We all want our children to grow up safe, healthy, and ready to succeed. It takes a network of trauma-informed, culturally relevant, and accessible services to enable our young people to make successful transitions to adulthood.

The most recent ALICE report by Aloha United Way noted that 37% of households said that someone in their family is considering moving out of state. 85% of families said it was simply the high cost of living in Hawaii, and 73% said it was because of the high cost of housing,

CBOs struggle to attract and retain qualified staff. When contracts and grants do not pay the full cost of providing services, workers leave for higher paying jobs or places with a lower cost of living. It is shameful that wages are so low that a portion of Hawaii's CBO staff receive SNAP and other public assistance benefits. Staff working with homeless persons are concerned about becoming homeless themselves. One outreach worker shared with me, "If my landlord raises my rent, I won't be able to afford my housing." In 2024, The Salvation Army Family Intervention Services stopped admitting clients to its emergency shelter for boys on Maui due to critical staffing shortages.

The Institute for Human Services, Inc.
Ending the Cycle of Homelessness

TO: Chair Marten
Vice Chair Olds

FROM: Connie Mitchell, Executive Director
IHS, The Institute for Human Services, Inc.

DATE: February 6, 2025

POSITION: IHS supports HB 244 Relating to the Department of Human Services

IHS, The Institute for Human Services, **strong support** of HB 244, which aims to increase funding for the Department of Human Services to enhance its partnership with Community-Based Organizations (CBOs). Hawaii's most vulnerable populations—children, individuals experiencing homelessness, and those in need of social services—rely heavily on the safety net provided by CBOs. However, stagnant funding levels and rising operational costs, especially following crises like the Maui wildfires, have pushed these organizations to the brink. Last year, we saw homeless service providers having to close their doors and for some organizations having to take out lines of credit to keep up with operational costs. Our strategies at IHS have been to broaden our streams of funding to include fee for service contracts. But even those rates have failed to keep up with the cost of covering clinical case management within our shelters or pre-housing navigation.

For over 46 years, IHS has offered critical support to those experiencing homelessness, from emergency shelter and meals to healthcare, job training, and housing. Such services come at a cost that often cannot be passed onto our clients, so we rely on government contracts supplemented with private donations from individuals, businesses, and foundations.

This bill is a necessary step toward addressing Hawaii's growing social service needs. By strengthening collaborations with CBOs, we can improve access to benefits, childcare, workforce training, and homelessness services while promoting stability and well-being in our communities. Given the ongoing uncertainty of federal spending on social service programs, Hawaii must take decisive action to ensure the stability of critical services provided through the Department of Human Services. Federal resources often fluctuate, and reductions in funding could disproportionately impact programs supporting homelessness, employment support, and child welfare. This bill is a necessary safeguard to guarantee that Hawaii's most vulnerable populations continue receiving the assistance they need, regardless of federal budget changes.

To truly end cycles of homelessness, wraparound, holistic solutions are needed. Thus, IHS operates a comprehensive approach to homelessness, including supportive medical and psychiatric care. Our services are rooted in a mission to equip individuals with the skills and resources to live independently in permanent housing for the long term. Hence, we have begun to tap into Medicaid funding to help fill some of the gaps, allowing us to continue delivering our programs. However, the administrative burden of doing so requires building greater capacity to do so and also funding. Mahalo for your leadership in addressing this critical issue and for this opportunity to testify.

Lanakila Pacific

Subject: Support for HB 244 Relating to the Department of Human Services

Dear Chair Marten, Vice Chair Olds, and Members of the Committee,

On behalf of Lanakila Pacific, I am writing in strong support of HB 244, which aims to increase funding for the Department of Human Services (DHS) to enhance its partnership with Community-Based Organizations (CBOs). Lanakila Pacific has supported vulnerable members of our community for 85 years, ensuring individuals with disabilities and seniors are able to live independently and thrive. We can't continue to be effective without the support of DHS which needs adequate funding for safety net programs.

Hawaii's most vulnerable populations—children, individuals experiencing homelessness, and those in need of food—rely heavily on the safety net provided by CBOs. However, stagnant funding levels and rising operational costs, especially following crises like the Maui wildfires, have pushed these organizations to the brink. This bill is a necessary step toward addressing Hawaii's growing social service needs, improving access to public benefits, and promoting stability and well-being in our communities.

Given the ongoing uncertainty of federal spending on social service programs, Hawaii must take decisive action to ensure the stability of critical services provided through the Department of Human Services. Federal resources often fluctuate, and reductions in funding could disproportionately impact programs supporting homelessness, employment support, and child welfare. This bill is a necessary safeguard to guarantee that Hawaii's most vulnerable populations continue receiving the assistance they need, regardless of federal budget changes.

The True Cost Coalition supports HB 244 because it directly addresses an urgent funding gap that, if left unchecked, would jeopardize the critical services Hawaii families depend on. We urge you to pass this measure and invest in the future of Hawaii's most vulnerable residents.

Subject: Support for HB244 Relating to the Department of Human Services

Dear Chair Marten, Vice Chair Olds, and Members of the Committee,

On behalf of The Mediation Center of the Pacific (MCP), I am writing in **strong support** of HB244, which seeks to provide critical funding for the Department of Human Services to strengthen partnerships with Community-Based Organizations (CBOs). This legislation is essential to ensure that Hawaii's most vulnerable residents, including those in rural and underserved communities, have access to timely and quality services that protect the health of our residents.

This bill is a necessary step toward addressing Hawaii's growing social service needs. By strengthening partnerships with CBOs, we can improve access to benefits, childcare, workforce training, and homelessness services while promoting stability and well-being in our communities.

The uncertainty surrounding federal funding exacerbates the challenges faced by Community-Based Organizations (CBOs) and the Department of Health. Federal spending levels remain unpredictable, and potential reductions or delays in federal support could further strain Hawaii's health system. Without reliable state funding, CBOs may be forced to scale back critical services, leaving vulnerable populations at greater risk. By passing this bill, Hawaii can ensure a stable, local solution to safeguard access to care, regardless of federal budget fluctuations.

The Mediation Center of the Pacific believes this bill addresses the pressing issue of preserving access to care for thousands of community members. Funding this initiative ensures that CBOs can continue to serve those most in need, improving health outcomes statewide, and strengthening communities.

We urge you to pass HB 244 to protect and enhance access to critical healthcare services for all Hawaii residents.

Thank you for your consideration and leadership.

PARTNERS IN DEVELOPMENT
FOUNDATION

February 6, 2025

From: Shawn Kana'iaupuni, President & CEO
Partners in Development Foundation

Subject: Support for HB 244 Relating to the Department of Human Services

Dear Chair Marten, Vice Chair Olds, and Members of the Committee,

As President and CEO of Partners in Development Foundation (PIDF), I write expressing strong support for HB 244, which aims to increase funding for the Department of Human Services to strengthen its partnership with Community-Based Organizations (CBOs). This legislation is essential to ensure the Hawai'i's most vulnerable, including those in rural and underserved communities, have access to timely and quality service that protects the health of our residents.

The challenges facing our community have grown increasingly complex. Rising demand for services, coupled with stagnant government contract funding and soaring operational costs have pushed many CBOs to their limits. This bill represents a crucial step towards addressing these pressing issues and ensuring the continuity of vital services for our people.

By enhancing collaborations with CBOs, this measure will improve access to essential services such as benefits administration, keiki care programs, workforce training, and houselessness support. These services embody the spirit of aloha and mālama that defines our islands, promoting stability and well-being in our communities.

The uncertainty surrounding federal funding for social service programs makes this bill even more critical. We must take proactive steps to safeguard the stability of these essential services. This legislation serves as a necessary protection to ensure that our most vulnerable community members continue to receive the support they need, regardless of changes in federal budgets.

This bill directly addresses an urgent funding gap that, if left unattended, could jeopardize the critical services our Hawai'i families rely on. It represents an investment not just in services, but in the future of our keiki, our kūpuna, and all those who call these islands home.

I humbly urge you to pass HB 244 and make a lasting investment in the resilience and well-being of Hawai'i's most vulnerable residents. Your support will echo through generations.

Mahalo nui loa for your consideration and leadership.

Subject: Support for HB244 Relating to the Department of Human Services

Dear Chair Marten, Vice Chair Olds, and Members of the Committee,

I am writing in strong support of HB244, which aims to increase funding for the Department of Human Services to enhance its partnership with Community-Based Organizations (CBOs).

Samaritan Counseling Center Hawai'i is a 501(c)(3) nonprofit organization that provides professional, accessible mental health counseling to people with limited resources. We are a safety net for individuals and families who are uninsured or underinsured; who are unable to afford high co-pays and deductibles; or who have health insurance coverage which pays at below market-rates, making it difficult for them to find a counselor.

Through our Client Assistance Fund, we ensure that the people of Hawai'i can receive the mental health care they need to be healthy and whole – and support access to mental health care, especially in rural and underserved communities.

In 2024, Samaritan Counseling Center Hawai'i provided 3,556 mental health counseling sessions, and 2,374 sessions (67%) were subsidized in some way. Sometimes clients were not even aware that they were beneficiaries of the Client Assistance Fund!

Hawai'i's most vulnerable populations—children, individuals experiencing homelessness, and those in need of social services such as mental health care — rely heavily on the safety net provided by CBOs.

This bill is a necessary step toward addressing Hawai'i's growing social service needs. By strengthening collaborations with CBOs, we can improve access to benefits, childcare, homelessness services, and mental health care, while promoting stability and well-being in our communities.

TESTIMONY IN SUPPORT OF HB 244 RELATING TO THE DEPARTMENT OF HUMAN SERVICES

TO: Chair Marten, Vice-Chair Olds, & Members,
House Committee on Human Services & Homelessness
FROM: Trisha Kajimura, Vice-President of Strategy and External Affairs
Ryan Kusumoto, President & CEO
DATE: February 6, 2025 at 10:00 AM

Parents and Children Together (PACT) strongly supports HB 244, which appropriates funds for the Department of Human Services to collaborate with community-based organizations to address the need for social services in the State.

We submit this testimony as a member of the Hawai'i True Cost Coalition – over 50 community-based non-profit organizations fighting to sustain essential social services for our communities. The people of our community are strong, resilient and capable yet challenged by systems of scarcity that are difficult to overcome without targeted support. They must be supported by high-quality organizations that are sustainable, and state funding is an important part of that. State contracts that have not increased over time as operating costs increase make this important work unsustainable. We support increases to these contracts because the need for social services in our state is higher than ever.

Founded by residents of Kuhio Park Terrace in 1968, PACT is a statewide community-based organization providing a wide array of innovative and educational social services to families in need. Assisting more than 15,000 people across the state annually, we help identify, address, and successfully resolve challenges through our 20 programs. Among our services are early education programs, domestic violence prevention and intervention programs, child abuse prevention and intervention programs, childhood sexual abuse supportive group services, child and adolescent behavioral health programs, sex trafficking intervention, poverty prevention and community building programs.

Thank you for the opportunity to testify. Please contact me at (808) 847-3285 or tkajimura@pacthawaii.org if you have any questions.

Honorable Rep. Lisa Marten Chair
Members of Committee on Human Services & Homelessness
RE: HB 244

February 4, 2025

Hearing: Thursday, February 6, 2025
Time: 10:00 am

Place: Via video Conference, Conference Room 329, State Capitol, 415 South Beretania Street

Position on HB 244 – **In Support**

Aloha Chair Marten, Vice Chair Olds and Members of the Committee on Human Services & Homelessness, Mahalo for the opportunity to provide testimony for HB 244, I'm Renae Hamilton-Cambeilh, the Executive Director of YWCA Kaua'i. On behalf of the YWCA staff and the individuals and families we serve, **I am testifying in strong support of HB 244.** The YWCA Kaua'i has been serving our island community for over 100 years, our local work is focused on providing services for survivors of domestic violence and sexual assault. For over 25 years, we have been the sole provider of 24-hour crisis intervention services for victims of DV & SA, we also provide the only Family Violence Shelter on island. Our services save lives and provide long term support for the survivors trying to healing from these traumatic experiences and crimes.

The Department of Human Services has been the largest funder for these vital services for over 25 years, in the beginning funding was adequate to meet the costs of a 24 hour facility, however, the funding from DHS has not risen to meet the yearly rising costs of providing 24 hour services. The YWCA has worked hard at providing a "patchwork" of funding to keep services going while also trying to meet the higher demand for services. This "patchwork" approach has not been sustainable and it is more challenging every year to secure needed funding. This has resulted in the following actions:

- Vacant positions at the Family Violence Shelter are not being filled.
- The following positions have been suspended or eliminated; Children's Advocate, Housing Advocate, Case Manager and on-site Shelter Therapist. This results in reduced services for survivors and their children, when survivors don't receive the support needed to navigate their challenging situations, it may lead to returning to an abusive and violent home which perpetuates the cycle of violence once again.
- Inability to keep up with increased wages to retain staff and attract qualified candidates. Staff turnover is high and there is constant extra burden on remaining staff to ensure basic 24-hour services continue.

These actions did not occur all at once, it has been building over the years due to stagnant DHS funding and less outside options for funding. This is threat to service delivery is happening all over the state. In this bill, DHS acknowledges the need for an increase in funding, in 2024, DHS testified that a 20% increase is needed to shore up funding and meet some of the ongoing rising costs.

The YWCA Kaua'i is committed to continue serving DV and SA survivors, I support this bill as it is necessary to address the stagnant funding to ensure our state has services in place for the most vulnerable individuals and families. Mahalo for your consideration to support HB 244.

Respectfully,
Renae Hamilton-Cambeilh, Executive Director

**Past Chair of the Board*

Testimony on HB244

Submitted to: Committee on Human Services & Homelessness
Representative Lisa Marten, Chair
Representative Ikaika Olds, Vice Chair

From: Debbie Spencer-Chun, President and CEO of Adult Friends for Youth (AFY).
In support of HB244.

Mahalo nui loa for allowing me to testify.

As the President and CEO of Adult Friends for Youth for the past 17 years and working directly with high-risk youth for over 20 years, it comes as no surprise that the needs have gotten greater despite the great work that many Community-Based Organizations deliver to our society.

For many years, CBOs have had to deliver services at the same rate. We often don't get paid the full amount and have to offset our budgets with other funding, making it a balancing act to stay afloat. Some key concerns, according to a 2022 survey conducted by True Cost Coalition of Community-Based Organizations, are

- "79% had to cut administrative costs." (Noting that some private funders are not allowing this cost either.)

Examples:

1. **Salaries:** It takes people to conduct the services, so salaries are critical. Our staff has to wear dual hats as administrators and direct service roles, which means that we can only charge percentages of their time. In turn, our staff has to submit timesheets/salary worksheets to the government, which means more paperwork for our staff to provide statistics on their daily duties. Do government workers have to do this?
2. **Rent:** This is not seen as critical. Yet, our staff needs a safe space to write reports, prepare sessions, conduct mediation, conduct group sessions with high-risk youth (especially during violent crisis situations), provide individual and family counseling sessions, and so much more.
3. **Insurance:** The government has a threshold that we must meet for insurance coverage, but it does not consider the rising costs. (Note: According to TCC, "Insurance expenses rose by 40.8% (adjusted for 2022 dollars)."

There are many more examples, but for the sake of this testimony, I will limit them to these three points.

Bottom line: We are grateful for the government's support. However, I would like us to be recognized as a partnership—the same private/public partnership they build/have with for-profit businesses, with the contract reflecting that. Recognize that without many of CBO's crucial services, our great state of Hawaii would be in dire straits.

Mahalo for your time. I appreciate you allowing me to share my mana'o.

Respectfully submitted, Deborah Spencer-Chun

Policy & Advancement Manager

DATE: February 6, 2025 (10:00 AM)

Hawai'i Health & Harm Reduction Center (HHHRC) **strongly supports** HB 244, which appropriates funds for the Department of Human Services to better collaborate with community-based organizations to address the ongoing need for social services.

HHHRC provides homelessness services in Regions 1 and 6 on O'ahu and is a member of [Partners in Care \(PIC\)](#), a planning, coordinating, and advocacy alliance that develops recommendations for programs and services to fill needs within O'ahu's continuum of care for homeless persons. In alignment with PIC and other non-profit members of the [True Cost Coalition](#), we met with legislators and supported legislative efforts last year to increase baseline funding for work that is outlined in multi-year service contracts.

Recruitment and retention of frontline staff have become increasingly difficult with flatlined salary structures and acute increases in the cost of living in the wake of the COVID-19 pandemic. Many employees, including those with valuable lived experience with homelessness, behavioral health issues, and criminal legal system involvement, have taken part-time jobs in the service sector or have departed our agency for full-time service sector employment.

HHHRC's mission is to reduce harm, promote health, create wellness, and fight stigma in Hawai'i and the Pacific. We work with many individuals impacted by poverty, housing instability, and other social determinants of health. Many have behavioral health problems, including those related to substance use and mental health conditions, and have also been deeply impacted by trauma related to histories of physical, sexual, and psychological abuse.

Mahalo for the opportunity to provide testimony.

To: The Honorable Lisa Marten, Chair
The Honorable Ikaika Olds, Vice Chair
House Committee on Human Services and Homelessness

Hearing: Thursday, February 6, 2025, 10:00am, Conference Room 329

RE: **HB244 Relating to the Department of Human Services**

AlohaCare appreciates the opportunity to provide testimony in **support of HB244**. This measure appropriates funds for the Department of Human Services to collaborate with community-based organizations to address the need for social services in the State.

Founded in 1994 by Hawai'i's community health centers, AlohaCare is a community-rooted, non-profit health plan serving over 70,000 Medicaid and dual-eligible health plan members on all islands. Approximately 37 percent of our members are keiki. We are Hawai'i's only health plan exclusively dedicated to serving Medicaid and Medicaid-Medicare dually-eligible beneficiaries. Our mission is to serve individuals and communities in the true spirit of aloha by ensuring and advocating for access to quality, whole-person care for all.

AlohaCare's commitment to whole-person care and health equity includes addressing the various social determinants of health. We work closely with Hawai'i's safety net of non-profit community-based organizations (CBOs) dedicated to supporting individuals and families facing social risks, such as homelessness, domestic violence, and food insecurity among other challenges.

As a safety-net health plan, AlohaCare is very appreciative of the critical services our fellow safety-net CBOs provide for the health and well-being of our community. The financial viability and sustainability of our safety-net partners is imperative to AlohaCare and is why we joined the True Cost Coalition. This measure is in line with the True Cost Coalition's goal which is to ensure government contracts adequately reimburse community-based non-profit providers of essential social services that have created a crucial safety-net for our community.

Many of our CBO partners rely on federal, state, and local grants to attempt to fill the current funding gap created by stagnant state funding and rising operational costs.

AlohaCare has witnessed the urgent funding needs of its CBO partners through its *Imua Loa* community giving program, which recently grew into the AlohaCare Foundation, giving \$1 million to providers and CBOs annually in grants, sponsorships, and donations. Even with effective community giving sources such as the AlohaCare Foundation, Hawai'i's CBOs are unable to fill the funding gaps and are in desperate need of steady sources of long-term funding. State appropriations and collaboration with CBOs are especially significant with potential federal budget changes.

Without action, programs and services are at risk of being cut or eliminated, which will harm the most vulnerable in our community. We ask our state government leaders to ensure that funding is allocated to keep our communities healthy and safe. This measure will support CBOs and ensure that the critical services they provide aren't jeopardized.

Mahalo for this opportunity to testify in **support of HB244**.

RE: Support for HB 244, Relating to the Department of Human Services

Aloha Chair Marten, Vice Chair Olds, and members of the committee,

On behalf of Hawai'i Foodbank, I express our support for HB 244, Relating to the Department of Human Services. This bill appropriates funds for the department of human services to collaborate with community-based organizations to address the need for social services in the State.

For over 40 years, Hawai'i Foodbank has provided daily and emergency assistance to those facing food insecurity in Hawai'i. As the state's leading hunger-relief organization, Hawai'i Foodbank distributes food to families and individuals on O'ahu and in Kaua'i County through direct service programs and through our network of 266 agency partners and pantries. Last year, we served an average of over 150,000 people each month, distributing a total of 21 million pounds of nutritious food, including 5.9 million pounds of fresh produce. Hawai'i Foodbank is also contracted as a SNAP outreach provider through the State.

Based on our experience serving over 150,000 people each month – nearly as much as during the peak of COVID – we know firsthand how important it is that we continue to address the needs in our community.

We urge you to consider this important measure, which will help community-based organizations continue to provide critical services and care for all of Hawai'i's families.

With aloha,

Comments:

Thank you for the opportunity to provide testimony.

The Hawaii Health and Harm Redcution Center strongly supports this measure which will give much needed funds to the Dept. of Human Services. More than ever, we need to ensure that our local programs are funded to meet the needs of our most vulnerable residents. Thank you for investing in our local families!

Subject: Support for HB 244 - Relating to the Department of Human Services

Dear Chair Marten, Vice Chair Olds and Members of the Committee,

I am writing on behalf of Child and Family Service to show our **strong support** of HB 244, which aims to increase funding for the Department of Human Services to enhance its partnership with Community-Based Organizations (CBOs).

Through the utilization of our core H.O.P.E. values (Humility, Ownership, Perseverance, and Engagement), our programs aim to help Hawaii's most vulnerable populations to strengthen families and foster the healthy development of children. We work directly with individuals and families to break cycles of violence and foster environments where children and families can thrive. Children, individuals experiencing homelessness, survivors of domestic violence, and many other groups rely on the safety nets provided by CBOs. However, stagnant funding levels and rising operational costs, especially following crises like the Maui wildfires, have pushed these organizations to the brink.

Given the ongoing uncertainty of federal spending on social service programs, Hawaii must take decisive action to ensure the stability of critical services provided through the Department of Human Services. The True Cost Coalition supports HB 244 because it directly addresses an urgent funding gap that may jeopardize the critical services Hawaii families depend on.

This bill is a necessary safeguard to guarantee that Hawaii's communities continue receiving the assistance they need, regardless of federal budget changes. It will be a safeguard for essential services and investment in the safety, health and future of Hawaii's communities. By strengthening collaborations with CBOs, we can improve access to benefits, childcare, workforce training, and homelessness services while promoting stability and well-being in our communities.

We respectfully urge you to pass this measure and invest in the future of Hawaii's most vulnerable populations ensuring they receive the protection and assistance they deserve. Thank you for considering this important legislation.

Sincerely,

Amanda Pump
President & CEO
Child & Family Service

Re: HB244 Relating to the Department of Human Services

Dear Chair Marten, Vice Chair Olds, and Members of the House Committee on Human Services & Homelessness:

The Hawai'i State Coalition Against Domestic Violence (HSCADV) addresses the social, political, and economic impacts of domestic violence on individuals, families, and communities. We are a statewide partnership of domestic violence programs and shelters. **On behalf of HSCADV and our 25 member programs statewide, I respectfully submit testimony in strong support of HB244**, which aims to increase funding for the Department of Human Services to enhance its partnership with Community-Based Organizations (CBOs).

Most of our member programs receive funding from DHS directly through the state or from the federal government in pass-thru grants. For example, at least half of the \$3 million in DHS budget for domestic violence services consists of federal funds. Over one million comes directly from the Department of Health and Human Services Office of Family Violence Prevention Services. These funds are being scrutinized by the current Presidential administration.¹

The services funded include:

- **Emergency domestic violence shelters**
- **Domestic violence services for families engaged in the child welfare system**
- **Domestic violence-related legal services**

¹ <https://www.documentcloud.org/documents/25506813-govdoc20250128-263582/#document/p16>

- **Teen domestic violence prevention**

For years, our programs have barely been making do with their current funding. Contracted amounts have not changed in a decade, and organizations are expected to do more with less. Now, with potential changes in federal funding, lives are at stake. The federal funding freeze will impact life-saving services and endanger survivors' lives and those of their children.

Shelters that provide homes for those fleeing violence will have to consider drastically reducing their services or even closing their doors which could lead to increased homelessness in a state that is already grappling with an overwhelming homeless population. No less than four thousand lives will be impacted, and much more when we consider those who serve survivors and their children.

This is an urgent funding gap that, if left unchecked, would jeopardize the critical services Hawai'i families depend on. We urge you to pass this measure and invest in the future of Hawaii's most vulnerable residents.

Thank you for the opportunity to testify on this important matter.

Sincerely,
Angelina Mercado, Executive Director

Comments:

Representative Marten and committee,

DHS testified at an Informational Briefing in November that most of 10 million dollars allocated to the department had been spent on community or contracted organizations to hire qualified people to provide services to families. The result was that those organizations were unable to hire qualified people. Where is the money now and to whom was it dispersed?

Re: **HB 244**: Relating to the Department of Human Services
Hawai'i State Capitol, Room 329 and Videoconference, February 6, 2025, 10:00am

Position: SUPPORT

Dear Representative Marten, Representative Olds, and Committee Members:

Thank you for the opportunity to provide testimony in support of **HB 244**, which appropriates funds for the Department of Human Services to collaborate with community-based organizations (CBOs) to address critical social service needs in our state. This legislation represents an important step toward strengthening Hawaii's social safety net and ensuring sustainable support for our most vulnerable populations.

My name is Karen Worthington, and I am a children's law and policy attorney with a consulting business on Maui, Karen Worthington Consulting. I have worked as a lawyer in and around state systems affecting children and families throughout my 30-year career and I have worked extensively with Hawai'i state departments and nonprofit organizations that support children and families who exist at the margins of our society.

Please pass HB 244. A 2022 survey of Hawaii Community-Based Organizations revealed that 91% reported government contracts do not cover full operating costs, with 79% having to cut administrative costs to maintain services. This situation is unsustainable and threatens the stability of our social service infrastructure.

CBOs are essential partners in delivering critical services on behalf of the Department of Human Services. They provide vital support for child welfare services, homelessness prevention, workforce development, and family strengthening programs. However, stagnant funding levels combined with rising operational costs have created an increasingly precarious situation for these organizations.

The uncertainty surrounding federal funding for social services makes this legislation particularly timely. By ensuring adequate state support for CBOs, we can maintain crucial services regardless of federal budget fluctuations. This proactive approach will help protect Hawaii's most vulnerable residents from potential disruptions in federal funding streams. If you would like additional information related to my testimony, please do not hesitate to contact me at karen@karenworthington.com.

Best regards,

Karen Worthington
