Testimony of the Public Utilities Commission

To the
House Committee on
Consumer Protection & Commerce

April 1, 2025
2:00 p.m.

Chair Matayoshi, Vice Chair Chun, and Members of the Committee:

Measure: H.C.R. 45 H.D. 1 / H.R. 38 H.D. 1
Title: URGING THE PUBLIC UTILITIES COMMISSION TO SUPPORT THE COMPLETE TRANSFER OF ITS REGULATORY AUTHORITY OVER MOTOR CARRIERS AND OTHER MEANS OF TRANSPORTATION, INCLUDING WATER CARRIERS, TO THE DEPARTMENT OF TRANSPORTATION.

Position:

The Public Utilities Commission (“Commission”) supports this resolution and offers the following comments and amendments for consideration.

Comments:

The Commission supports this resolution that urges the Commission to support a potential transfer of regulatory oversight of Motor Carriers and Water Carriers, from the Commission to the Department of Transportation (“Department” or “DOT”). The Commission notes that this session, the Commission supported S.B. 1219, a substantially similar bill to the current resolution.

In line with the Commission’s support of S.B. 1219, the Commission observes that Act 117, Session Laws of Hawaii 2024, has already transferred the enforcement responsibilities of the Motor Carrier Law from the Commission to the DOT.

The Commission has no concerns if an appropriate agency takes over the regulation of Motor Carriers and Water Carriers that have a Certificate of Public Convenience and Necessity (“CPCN”) with the Commission. The Commission notes that such transfer of responsibilities will likely require legislation, and said legislation should include a transition period. In this transition period, the Commission would assist the Department in the

transfer of information, processes, documents, rules, etc. The Commission believes that, so long as the Department is comfortable with assuming said regulation and responsibilities, setting up the necessary internal resources, and converting or adopting necessary rules, that this transfer is possible.

Furthermore, if a bill were passed into law, the Commission's intent would be to conclude all remaining proceedings for Motor Carriers and Water Carriers within the transition period so that the Department can assume responsibility without pending Commission actions.

The Commission appreciates that this resolution includes Water Carriers, as was contemplated by S.B. 1219.

Thank you for the opportunity to testify on this resolution.
