Hawaii Housing Finance and Development Corporation
Before the

HOUSE COMMITTEE ON JUDICIARY & HAWAIIAN AFFAIRS

March 27, 2025 at 2:00 p.m.
State Capitol, Room 325

In consideration of
S.B. 1263 SD2 HD2
RELATING TO HISTORIC PRESERVATION.

Chair Tarnas, Vice Chair Poepoe, and members of the Committee.

HHFDC **supports** SB 1263 SD2 HD2, which creates a process for expediting the review of majority-residential mixed-use transit-oriented development (TOD) or residential TOD on certain parcels within county-designated TOD zones that have a low risk of affecting historically significant resources. It also authorizes lead agencies, including county governments, to make determinations on the potential effects of a project; creates a ninety-day limit, or thirty-calendar-day limit if no historic property is to be affected, to concur or not concur with project effect determinations; exempts projects with written concurrence from further review unless there is a change to the project or additional historic properties, aviation artifacts, or burial sites are identified within the project area; and establishes notice and reporting requirements if there is a change to the project or additional historic properties, aviation artifacts, or burial sites are identified within the project area after the initial written concurrence.

HHFDC supports efforts to streamline what has historically been a bottleneck in the development process and has slowed affordable housing projects, including those using the provisions of Hawaii Revised Statutes Chapter 201H to expedite development.

Expediting the review process for residential projects that have a low risk of affecting historically significant resources would help more affordable housing units be produced in a timely manner.

Thank you for the opportunity to testify on this bill.

Before the House Committee on
JUDICIARY & HAWAIIAN AFFAIRS

Thursday, March 27, 2025

2:00 PM

State Capitol Conference Room 325 & Videoconference

In consideration of
Senate Bill 1263, SENATE DRAFT 2, HOUSE DRAFT 2
RELATING TO HISTORIC PRESERVATION

Senate Bill 1263, Senate Draft 2, House Draft 2 proposes to create a process for expediting the review of certain residential transit-oriented development projects within Transit-Oriented Development zones that would pose a low risk of adversely affecting historic and cultural resources while making meaningful updates to the existing statute. **The Department of Land and Natural Resources (Department) supports this measure and offers the following comments.**

Chapter 6E, HRS, provides the framework for a comprehensive statewide historic preservation program in Hawai'i. A key part of that program is the review of projects as required by sections 6E-8, 6E-10, 6E-42, and 6E-43 HRS. These statutory provisions reflect the Legislature's intent to require project proponents to consider the impact of their projects on 'iwi kūpuna, as well as historic and cultural resources.

The Department recognizes the need to streamline the historic preservation review process in order to help address the current housing crisis in Hawai'i. This bill would allow residential transit-oriented development projects within Transit-Oriented Development zones to proceed in an expedited manner, provided they are located within areas that have been previously surveyed and have been determined to have low or no likelihood of containing 'iwi kūpuna or historic and cultural resources. Additionally, this bill would allow projects that are large in scale/geographical area and require that they be completed in stages to be reviewed by the Department in phases. The bill would also establish a process for which the Department may appeal the implementation of projects subject to expedited review to the Hawai'i Historic Places Review Board. The amendments to Chapter 6E, HRS, and alternative approaches established within this bill are both reasonable and feasible.

Mahalo for the opportunity to provide testimony on this measure.

COMMENTS ON SB1263_SD2_HD2
RELATING TO HISTORIC PRESERVATION

House Committee on Judiciary and Hawaiian Affairs

March 27, 2025 2:00 p.m. Room 325
Aloha e Chair Tarnas, Vice Chair Poepoe, and Members of the House Committee on
Judiciary and Hawaiian Affairs:

The Office of Hawaiian Affairs (OHA) is providing **COMMENTS** on SB1263_SD2_HD2 which sets a timeline to prioritize Hawai'i Revised Statutes Chapter (HRS) 6E review of affordable housing projects that are located within Transportation Oriented Development (TOD) corridors and proposes a risk assessment system to streamline the historic review process.

Protection of iwi kūpuna is of the deepest concern to OHA and its beneficiaries. OHA is the constitutionally established body responsible for protecting and promoting the rights of Native Hawaiians,¹ and regularly receives communications from beneficiaries concerning illegal desecration of iwi. Moreover, under HRS chapter 6E and implementing administrative rules, OHA is tasked with specific kuleana, including nominating candidates to serve on the island burial councils (IBCs) and consulting with SHPD on properties that have cultural significance to Native Hawaiians.² As a result, OHA has extensive technical expertise related to HRS chapter 6E, archaeological surveying and monitoring techniques, and culturally appropriate preservation and handling of iwi.

In OHA's experience, delays in the HRS 6E process most often are a result of project proponents submitting incomplete information to SHPD that require additional follow up from the agency's staff to make an informed determination whether to concur with the project proponent's evaluation of project impacts. OHA appreciates the amendments made by the prior committee to clarify that the clock running on SHPD's review stops when the agency is forced to go back to the project proponent for additional information due to any incomplete submittal (page 5 line 6-9). OHA also appreciates the inclusion of language specifying the contents of a complete submittal (page 7 line 20 – page 9 line 9), including consultation with OHA on projects that affect properties of significance to the Native Hawaiian community.

OHA supports in concept the utility of a programmatic assessment that would use a risk-based category system to identify areas that are most likely to contain burials and other protected sites and appreciates amendments adding OHA and the island burial councils as

¹ Haw. Const. Art. XII § 5.

² See HRS §§ 6E-3, 43, -43.5, 43.6; Hawai'i Administrative Rules (HAR) §§ 13-284-6(c); 13-275-6(c).

consulting parties on the risk classification system (page 18 line 13). However, such an assessment is still a time-intensive undertaking that should not be rushed due to the nature of the resources at stake. Therefore, OHA respectfully requests that the Committee amend the time span on page 14 line 4 from six months to one year.

Mahalo for the opportunity to provide comments on this measure.

State Capitol, Conference Room 325 & Videoconference

In consideration of
SB 1263, SD2, HD2
RELATING TO HISTORIC PRESERVATION

Chair Tarnas, Vice Chair Poepoe, and members of the Committee:

The Hawai'i Community Development Authority (HCDA) **supports SB 1263, SD2, HD2**, which intends to expedite the review process for majority-residential mixed-use transit-oriented development or residential transit-oriented development zones that have a low risk of affecting historically significant resources.

We acknowledge and appreciate the work and amendments the previous committees on Housing, and Water & Land have made on this measure and support this version. We also acknowledge the State Historic Preservation Division for their willingness to consider changes that streamline their review process.

Thank you for the opportunity to provide comments.

March 27, 2025

The Honorable David A. Tarnas, Chair

House Committee on Judiciary & Hawaiian Affairs
State Capitol, Conference Room 325 & Videoconference

RE: Senate Bill 1263, SD2, HD2, Relating to Historic Preservation

HEARING: Thursday, March 27, 2025, at 2:00 p.m.

Aloha Chair Tarnas, Vice Chair Poepoe, and Members of the Committee:

My name is Lyndsey Garcia, Director of Advocacy, testifying on behalf of the Hawai'i Association of REALTORS® ("HAR"), the voice of real estate in Hawaii and its over 10,000 members. HAR **supports** Senate Bill 1263, SD2, HD2, which creates a process for expediting the review of majority-residential mixed-use transit-oriented development or residential transit-oriented development on certain parcels within county-designated transit-oriented development zones that have a low risk of affecting historically significant resources. Authorizes lead agencies, including county governments, to make determinations on the potential effects of a project. Creates a ninety-day limit, or thirty-calendar-day limit if no historic property is to be affected, to concur or not concur with project effect determinations. Exempts projects with written concurrence from further review unless there is a change to the project or additional historic properties, aviation artifacts, or burial sites are identified within the project area. Establishes notice and reporting requirements if there is a change to the project or additional historic properties, aviation artifacts, or burial sites are identified within the project area after the initial written concurrence. Effective 7/1/3000

Hawai'i REALTORS® support efforts that streamline the review process for transit-oriented development ("TOD") projects for homes around the transit corridor. This would allow for walkable, well-connected communities where residents have a variety of transportation options. Additionally, many county designated TOD areas are already highly developed and this measure includes additional safeguards to minimize impacts on historically significant sites while allowing for the development of much needed housing.

Mahalo for the opportunity to testify on this measure.

Testimony of the Oahu Metropolitan Planning Organization

Committee on Judiciary and Hawaiian Affairs

March 27, 2025 at 2:00PM

Conference Room 325

SB 1263 SD2 HD2

Relating to Historic Preservation

Dear Chair Tarnas, Vice Chair Poepoe, and Committee Members,

The Oahu Metropolitan Planning Organization (OahuMPO) **supports SB1263 SD2 HD2**, which creates a process for expediting the review of majority-residential mixed-use transit-oriented development or residential transit-oriented development on certain parcels within county-designated transit-oriented development zones that have a low risk of affecting historically significant resources, authorizes lead agencies, including county governments, to make determinations on the potential effects of a project, creates a ninety-day limit, or thirty-calendar-day limit if no historic property is to be affected, to concur or not concur with project effect determinations, exempts projects with written concurrence from further review unless there is a change to the project or additional historic properties, aviation artifacts, or burial sites are identified within the project area, and establishes notice and reporting requirements if there is a change to the project or additional historic properties, aviation artifacts, or burial sites are identified within the project area after the initial written concurrence.

Expediting the review of majority residential mixed-use-transit-oriented development or residential transit-oriented development will allow more housing to be built more quickly, and therefore more people to live closer to a future rail station. This will encourage more walkable, connected communities where residents drive far less each day than their counterparts in more sprawling locations.¹ In addition, when more mixed-use and transit-oriented housing is provided, it makes it easier for people to get around without their car which can reduce emissions in the near term, reduce transportation costs, provide more opportunities for physical activity, and improve access to necessities for both people who don't have a car and those with cars.²

According to the State Climate Commission Report, "Drivers of VMT and priority reduction strategies in Hawaii", households in suburban areas drive around 37 percent

¹ <https://smartgrowthamerica.org/wp-content/uploads/2020/10/Driving-Down-Emissions-FINAL.pdf>

² IBID.

more than those in urban centers and households on the suburban fringe drive 68 percent more.³ Limiting outward growth and concentrating more growth in urban infill areas and those near high quality transit, will be critical for Hawaii to meet its climate and energy goals. This is because mixed use development results in shorter trips, fewer trips, and more trips taken by lower-carbon modes.⁴ With more compact development, people drive 20 to 40 percent less, at minimal or reduced cost, while reaping other fiscal and health benefits.⁵ Whether people care about reducing their own emissions or not, by providing more opportunities for them to live where emissions are naturally lower per person, we can work within the market to help address climate change.

The bill is also aligned with the State Climate Commission's *Investing in Transportation Choices Toolkit*⁶ and *Drivers of VMT and Priority Reduction Strategies for Hawaii*, which identified infill and mixed-use development, and parking management, as key strategies to reduce greenhouse gas emissions, vehicle miles traveled and improve transportation choices for Hawaii residents.

This bill is consistent with several goals of the Oahu Regional Transportation Plan including support for active and public transportation, promoting an equitable transportation system, and improving air quality and protecting environmental and cultural assets. Providing more housing in and around high-quality public transportation and where people can meet their daily needs without a car, can help residents save on their transportation costs, improve their quality of life, and reduce transportation emissions and traffic congestion.

The OahuMPO is the federally designated Metropolitan Planning Organization (MPO) on the island of Oahu responsible for carrying out a multimodal transportation planning process, including the development of a long-range (25-year horizon) metropolitan transportation plan, referred to as the Oahu Regional Transportation Plan (ORTP), which encourages and promotes a safe, efficient, and resilient transportation system that serves the mobility needs of all people and freight (including walkways, bicycles, and transit), fosters economic growth and development, while minimizing fuel consumption and air pollution (23 CFR 450.300).

OahuMPO notes the amendments and comments by HCDA and HHFDC and respectfully requests the Committees adopt and consider them. Thank you for the opportunity to provide testimony on this measure.

Committee: House Committee on Judiciary and Hawaiian Affairs
Bill Number: SB 1263 HD2, Relating to Historic Preservation
Hearing Date and Time: March 27, 2025, 2:00pm (Room 325)
Re: Testimony of Holomua Collaborative – Support

Aloha Chair Tarnas, Vice Chair Poepoe, and members of the Committee:

Mahalo for the opportunity to submit testimony **in support** of SB 1263 HD2, Relating to Historic Preservation.

Hawai'i's housing crisis continues to drive local families to move to the continent. In October 2024, a survey¹ gathering information about the day-to-day financial experience of local workers was released and it suggests this growing crisis has the potential to reach staggering levels. When nearly 1,500 local workers were asked if they may need to move to a less expensive state, only thirty-one percent answered a definitive “no,” while sixty-nine percent said “yes” or “unsure.” And nearly two-thirds of the respondents said the cost of housing was the primary impact on their cost of living in Hawai'i. Each local worker and family we lose to the continent contributes to a loss of our economy, our culture, and our family.

To address the outmigration facing the state, we must implement policies and programs that allow for housing to be built in a manner and on a scale that is affordable and attainable for local working families. One key component of keeping our local families in Hawai'i is building housing that is affordable and attainable especially in transit-oriented development (TOD) districts.

Concurrently, the State has a responsibility to protect historic buildings and burial sites, making sure that important cultural and historic places are respected.

The State Historic Preservation Division (SHPD) is tasked with providing a historic preservation review process to ensure the preservation of historic properties, aviation artifacts, and burial sites. Review of affordable housing units is one of SHPD's highest priorities, but reviews of such submissions are not always completed within the time provided by the administrative rules. This delay can and has resulted in the delay of housing units being built. With each day a unit is incomplete, the cost of the unit rises, and that cost is ultimately borne by the future owner.

The purpose of this bill is to expedite the review of majority-residential mixed-use transit-oriented development or residential transit-oriented development on certain parcels within county-designated transit-oriented development zones that have a low risk of affecting historically significant resources. The bill also sets a ninety-day limit, or thirty-calendar-day limit, to concur or not concur with project effect determinations. In addition, the bill builds in safeguards to allow SHPD to continue its crucial roles of preserving and protecting important historical and cultural property.

¹ <https://holomuacollective.org/survey/>

Page 2 of 2

Both the expedited review process and the ninety-day and thirty-calendar-day limits should increase the volume of housing available in TOD districts to local families. And with the safeguards afforded to SHPD in place, it will do this while honoring the land and sites in the area.

We respectfully request that you support SB 1263 HD2.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Joshua Wisch', is written over a light blue horizontal line.

Joshua Wisch
President & Executive Director

March 27, 2025, 2 p.m.
Hawaii State Capitol
Conference Room 325 and Videoconference

To: House Committee on Judiciary & Hawaiian Affairs
Rep. David A. Tarnas, Chair
Rep. Mahina Poepoe, Vice Chair

From: Grassroot Institute of Hawaii
Ted Kefalas, Director of Strategic Campaigns

RE: SB1263 SD2 HD2 — RELATING TO HISTORIC PRESERVATION

Aloha Chair Tarnas, Vice-Chair Poepoe and other members of the Committee,

The Grassroot Institute of Hawaii **supports** [SB1263 SD2 HD2](#), which would expedite historic preservation reviews for residential and certain mixed-use projects in county-designated transit-oriented development zones.

The bill would provide that if the State Historic Preservation Division fails to give written concurrence or non-concurrence on a project within a 90-day time frame — or a 30-day time frame if the project is likely to affect no historic properties — SHPD would be assumed to agree with the lead agency's determination and the project could proceed to the next phase of review or work.

It would also provide that if SHPD has concurred with a project's scope, the project will be exempt from further historic review unless it experiences a major change in scope or historic properties or artifacts are discovered in the project area.

The bill would also create a framework for the Hawaii Community Development Authority, county governments and the state Department of Land and Natural Resources to identify the risks that building on certain parcels in transit-oriented development areas might have to historic resources.

Taken together, these changes could help resolve significant delays in the approval process for new housing while still maintaining protections for historic properties and artifacts.

We are concerned, however, that recent amendments to SB1263 SD2 HD2 that allow for additional delay could undermine the bill’s intent of streamlining the approval process.

We ask the Committee to carefully consider which additions are strictly necessary and which might dilute the bill’s intent.

Otherwise, this bill is clearly needed. According to The Economic Research Organization at the University of Hawai’i, Hawaii’s housing regulations are the strictest in the country, and “approval delays” for housing developments are three times longer than the national average among communities surveyed.¹

Likewise, UHERO researchers have estimated that regulations comprise 58% of the cost of new condominium construction.²

As measured by the state’s Honolulu Construction Cost Index, the cost for building single-family homes in 2024 was 2.6 times higher than the cost in 2020. For highrises, the cost was 2.5 times higher.³

Historic preservation reviews certainly play a role in these delays and their associated costs. For example, SHPD noted in its report to the 2023 Legislature that its archaeology reviews were taking between six months and one year, on average.⁴

Grassroot’s recent white paper “[Preserving the past or preventing progress?](#)” analyzed SHPD data and found that more than 90% of the projects the agency reviewed from 2021 to 2024 had no impact on historic properties.

The average review time for projects issued determinations has been 94 days. However, the SHPD reviewed less than half of the applications it has received during this period.

Imposing stricter timelines for these reviews could help reduce wait times.

Thank you for the opportunity to testify.

Ted Kefalas
Director of Strategic Campaigns
Grassroot Institute of Hawaii

March 26, 2025

Representative David Tarnas, Chair
Representative Mahina Poepoe, Vice Chair
Committee on Judiciary and Hawaiian Affairs

RE: **SB 1263 SD2 HD2 - Relating to Historic Preservation**
Hearing date: March 27, 2025 at 2:00 PM

Aloha Chair Tarnas, Vice Chair Poepoe and members of the committee,

Mahalo for the opportunity to submit testimony on behalf of NAIOP Hawaii with **SUPPORT** on SB 1263. NAIOP Hawaii is the local chapter of the nation's leading organization for office, industrial, retail, residential and mixed-use real estate. NAIOP Hawaii has over 200 members in the State including local developers, owners, investors, asset managers, lenders and other professionals.

SB 1263 creates a process for expediting the review of residential and mixed use transit-oriented development on certain parcels within county-designated transit-oriented development zones that have a low risk of affecting historically significant resources. Furthermore, the measure:

- Authorizes lead agencies, including county governments, to make determinations on the potential effects of a project.
- Creates a ninety-day limit to concur or not concur with project effect determinations.
- Provides that projects with written concurrence are exempt from further review unless there is a significant change to the project or additional historic properties, aviation artifacts, or burial sites are identified within the project area.
- Establishes notice and reporting requirements if there is a change to the project or additional historic properties, aviation artifacts, or burial sites are identified within the project area after the initial written concurrence.

Currently, Hawaii is in a housing crisis which has been exacerbated by extensive regulatory hurdles and delays that have significantly added to the cost and risk of building housing across the state. NAIOP Hawaii supports this measure which prevents duplicative SHPD reviews of project areas and projects of substantially the same projects and project areas for

Representative David Tarnas, Chair
Representative Mahina Poepoe, Vice Chair
Committee on Judiciary and Hawaiian Affairs
March 26, 2025
Page 2

subsequent projects. Expediting the department's review of residential transit-oriented development is beneficial for the critical development of housing that revitalizes neighborhoods and promotes the use of public transportation, thereby enhancing the quality of life for Hawai'i residents.

Furthermore, we are supportive of the 90-day limit for SHPD to provide concurrence or non-concurrence with project effect determinations. This 90-day timeframe is consistent with intent of the bill to streamline reviews and allow projects to move forward for Hawaii residents.

NAIOP greatly supports the intent of the measure to identify a solution to the significant backlog of much needed projects awaiting SHPD review. SB 1263 will have a significant impact on the development of housing units and other projects across Hawaii. NAIOP appreciates the Legislature's commitment to collaborating on this issue and look forward to working together.

Mahalo for your consideration,

A handwritten signature in black ink, appearing to read 'Reyn Tanaka', with a stylized flourish at the end.

RE: SUPPORT for SB 1263 SD2 HD2 - RELATING TO HISTORIC PRESERVATION

Aloha Chair Tarnas, Vice Chair Poepoe, and Members of the Committee,

On behalf of Hawai'i YIMBY, we are writing in **support of SB 1263 SD2 HD2** which would create an expedited review process for residential Transit Oriented Development on parcels that have low risk of cultural or historical significance. Including mixed-use developments that are majority residential are also critical to shape transit-oriented communities where residents can live, work and play.

We believe in streamlining permitting. Combining, simplifying or removing layers of regulation that slow the permitting process for housing is important. With regard to cultural and historical reviews, there are many places of significance that are very deserving of preservation. However, there are many areas in the state that do not have any historical significance and should not be subject to the same type of rigorous review. Many of our county-designated TOD districts have areas that are already highly developed with low risk of affecting historical resources. Including a 90 (or 30) day time-limit for determination of a project's effect will help prioritize TOD developments and not create a permanent barrier due to a backlog. Additionally, once a determination is reached, exempting the development from further review unless a significant change in the scope of the project is helpful to keeping projects moving through their planning process with more certainty.

Hawai'i YIMBY
Honolulu, HI 96814
hawaiiyimby.org
info@hawaiiyimby.org

In the ongoing conversation around the housing crisis, both supporters and opponents of housing development say that housing should go along the rail, it is time to increase the stock of dense housing in areas served by transit.

Hawai'i YIMBY (*Yes In My Backyard*) is a volunteer-led grassroots advocacy organization dedicated to supporting bold and effective solutions for Hawai'i's devastating housing crisis. Our members are deeply concerned about Hawai'i's chronic and worsening housing shortage, which has caused home prices to rise much faster than incomes and pushes thousands of kama'āina out to the mainland or into homelessness every single year.

We ask your support for this bill. Thank you for the opportunity to testify.

Sincerely,

Damien Waikoloa

Chapter Lead, Hawai'i YIMBY

Edgardo Díaz Vega
