Comments:

Several times in the last few years the untreated wastewater exceeded safe levels at Kailua Beach. Most times the public doesn't find out about this until after they swim there. Also, the corals are full of algae because the reef fish are gone and the corals are dying. The wastewater effluent must not be allowed to enter our bay untreated. Please fix this.

Comments:

As a long time Ko'olaupoko resident, I offer my full support on this important House resolution.
Thank you.

Comments:

It is important that we pass this bill as we do not want a repeat of the Red Hill disaster. Kaneohe Bay is a precious resource for all of us. It is too easy for government and military organizations to put off infrastructure maintenance until it is too late. Please pass this bill.
