At 11:12 o'clock a.m., the Chair declared a recess, subject to the call of the Chair.

At 11:50 o'clock a.m., the House of Representatives reconvened.

SUSPENSION OF RULES

On motion by Representative Ushijima, seconded by Representative J. Garcia and carried unanimously, the rules were suspended for the purpose of considering bills on Third Reading on the basis of a modified consent calendar.

THIRD READING

The following bills, which were on the calendar for Third Reading, were read throughout and the following actions taken:

Third Reading of H.B. No. 482.

Representative Lunasco moved that H.B. No. 482, having been read throughout, pass Third Reading, seconded by Representative Takamine.

Representative J. Garcia then offered a verbal amendment as follows:

"House Bill No. 482 be deleted in its entirety and H.B. No. 404 be substituted in lieu thereof."

Representative J. Garcia moved that the amendment be adopted, seconded by Representative Soares.

At this point, Representative J. Garcia rose to speak in favor of the amendment by stating that a similar Republican measure, H.B. No. 404, was previously reported out and subsequently recommitted simply because it was a Republican measure. He further stated that, in fairness to the Republicans, this Honorable Body vote for the amendment.

The motion to adopt the amendment was put by the Chair and failed to carry by a voice vote.

At this time, Representative Saiki rose to speak in favor of H.B. No. 482 stating that the intent of the bill is to review the specific section of the Unemployment Compensation Benefits Law and bring it into equal standards with other laws on our books which fully implement the intent of the Equal Rights Amendment to the State Constitution, which was ratified by the people of our State. Representative Saiki urged the members to vote for the bill.

Representative Soares also rose to speak in favor of H.B. No. 482.

The motion was put by the Chair and H.B. No. 482 passed Third Reading by a vote of 48 ayes to 2 noes, with Representatives Ajifu and Hapai voting no and Representative Iha being excused.

Third Reading of H.B. No. 161.

On motion by Representative Sakima, seconded by Representative Young and carried, H.B. No. 161 was recommitted to the Committee on Education.

Third Reading of H.B. No. 162.

On motion by Representative Sakima, seconded by Representative Young, H.B. No. 162 passed Third Reading by a vote of 49 ayes to 1 no, with Representative Cobb voting no and Representative Iha being excused.

Third Reading of H.B. No. 1093.

On motion by Representative Suwa, seconded by Representative Akizaki, H.B. No. 1093 passed Third Reading by a vote of 50 ayes, with Representative Iha being excused.

Third Reading of H.B. No. 1874.

On motion by Representative Wasai, seconded by Representative Kawakami, H.B. No. 1874 passed Third Reading by a vote of 50 ayes, with Representative Iha being excused.

UNFINISHED BUSINESS

Consideration of Stand. Com. Rep. No. 137 on H.B. No. 142 which had been deferred to this day.

On motion by Representative Lunasco, seconded by Representative

Takamine and carried, the report of the Committee was adopted and H.B. No. 142, having been read throughout, passed Third Reading by a vote of 50 ayes, with Representative Iha being excused.

Consideration of Stand. Com. Rep. No. 138 on H.B. No. 143 which had been deferred to this day.

On motion by Representative Lunasco, seconded by Representative Takamine and carried, the report of the Committee was adopted and H.B. No. 143, having been read throughout, passed Third Reading by a vote of 50 ayes, with Representative Iha being excused.

The Chair here directed the Clerk to note that H.B. Nos. 482, 162, 1093, 1874, 142 and 143 had passed Third Reading not earlier than 11:53 o'clock a.m.

At 11:59 o'clock a.m., the Chair declared a recess, subject to the call of the Chair.

At 12:02 o'clock p.m., the House of Representatives reconvened.

DEFERRED MATTER

Consideration of Stand. Com. Rep. No. 152 on H.R. No. 220 which had been deferred to this time.

On motion by Representative Kimura, seconded by Representative Kishinami and carried, the report of the Committee was adopted, and H.R. No. 220 was referred to the Committee on Finance.

INTRODUCTION OF RESOLUTION

A concurrent resolution (H.C.R. At 11:12 o'clock a.m., the House of Representatives reconvened.

At this time, Representative Kimura introduced to the members of the House Miss Diane McDonagh, a member of the McKinley High School Girls' Precision Marching Team, who has been deaf since birth.

Miss McDonagh then addressed the members of the House, as follows:

"Good Morning!

Thank you for this opportunity to talk with you. I am profoundly deaf. This means that since birth I have heard no speech sounds. I can hear only the roar from a jet airplane or feel the vibrations of a slamming door.

Because I was born deaf, it has been very difficult for me to learn to speak. I cannot hear speech so I cannot copy what I hear other people say. Because my mother and father wanted me to be like any other person, they found speech teachers who know how to teach deaf children to speak to teach me to talk. I can remember the many hours of repeating the speech sounds over and over. It has been worth it! Today, many people do not believe that I am deaf because I can speak and lipread very well. Some people think that I am from England.

Last year, two of my teachers asked me to try out for the McKinley High School Girl's Precision Marching Drill Team. I thought that they were crazy. I cannot hear so how could I do that marching to music. Then I decided I would try it anyway just to see what I could do. I wanted to prove to everyone that even though a high school girl is deaf, she can do what other girls do.

My teacher helped me to learn to listen to the music. We used special equipment called the 'phonic mirror' which makes the sounds so loud and clear. I learned to listen for the strong beats of either the drums or the bass guitar. We listen for hours and hours. Then I try to listen to the music with my very powerful hearing aid. After that, I combine the music and the motions and I count the beats.

I am so happy that I was selected for the Drill Team. It has given me the opportunity to be a typical teenager instead of just a 'deaf kid.'

Next Fall, I hope to attend California State University where I will major in Art and Psychology. I want to help people learn to adjust to life.

Now that you know which girl is deaf, watch me closely when I perform 'Joy.' This is very difficult music to hear for there are so many beats to count. But I

know I can do it!"

Representative Kimura then introduced the other members of the Drill Team known as the "Taika's", as follows: Mrs. Peggy Anderson, Head Coach; Kathy Russell, Commandant; Annie Choy, Evelyn Taqupa, Jere Chun, Natalie Mun, Joanne Morioka, Sharon Fukai, Francine Castillo, Thelma Siu, Noke Laietmark, Tammy Mossman and Donna Clarke, and Ms. Gaile Sykes, Auditory Specialist for the Deaf and the Hard-of-Hearing at McKinley High School.

At 11:20 o'clock a.m., the Chair declared a recess, subject to the call of the Chair, for the purpose of having the Taika's entertain the members of the House.

At 11:45 o'clock a.m., the House of Representatives reconvened.

At 11:46 o'clock a.m., on motion by Representative Ushijima, seconded by Representative J. Garcia and carried, the House of Representatives adjourned to 11:00 o'clock a.m. tomorrow, March 15, 1973.

SUSPENSION OF RULES

On motion by Representative Ushijima, seconded by Representative J. Garcia and carried unanimously, the rules were suspended for the purpose of taking up bills on Third Reading on the basis of a modified consent calendar.

THIRD READING

The following bills, which were on the calendar for Third Reading, were read throughout and the following actions taken:

Third Reading of H.B. No. 18.

Representative O'Connor moved that H.B. No. 18, having been read throughout, pass Third Reading, seconded by Representative Kimura.

Representative O'Connor then spoke in favor of the bill, as follows:

"Mr. Speaker, the bill before this Honorable Body has to do with the non-disclosure of sources of information

by the persons engaged in the gathering and editing of news.

The Supreme Court of the United States in June 1972, in the Caldwell case, ruled that the First Amendment does not guarantee the press a constitutional right of special access to information not available to the public generally and further ruled that the sources of the press for general information should be divulged, particularly in criminal cases.

Mr. Speaker, as a result of this ruling, the inherent freedom of the press which the First Amendment of the Constitution of the United States establishes was in some ways weakened. The Supreme Court of the United States in rendering the Caldwell decision indicated that states of the United States could act by way of legislation on the source problem for people engaged in gathering news. Therefore, Mr. Speaker, we have before us House Bill 18, HD 1, which establishes a privilege to divulge the source of information.

This bill is a little different from other bills in that it establishes the privilege for the source of information as opposed to establishing the privilege for the newsperson. And, if the source of the information desires, he may disclose himself to be the source and thereby waive the privilege.

There is a second exception established by this bill, Mr. Speaker. That is, in an action of libel or slander brought against the newsperson, the newsperson would be required to divulge the source of his information. However, I might say, Mr. Speaker, for the record in this particular situation, that we would seek to have the courts in making such a divulgence make sure that there was a concrete demonstration that the identity of the news source was required to prove actual malice in such a case prior to requiring the source to be divulged and that the actual malice required, of course, will be the malice necessary to prove the libel or slander.

Mr. Speaker, I urge all members of this Honorable Body to vote for House Bill 18, HD 1."

Representatives Roehrig and Cobb then rose and spoke in favor of House Bill 18, HD 1.

The motion was put by the Chair and H.B. No. 18 passed Third Reading by a vote of 48 ayes, with Representatives Ajifu, Kato and Soares being excused.

Third Reading of H.B. No. 311.

On motion by Representative O'Connor, seconded by Representative Kimura, H.B. No. 311 passed Third Reading by a vote of 48 ayes, with Representatives Ajifu, Kato and Soares being excused.

Third Reading of H.B. No. 355.

On motion by Representative O'Connor, seconded by Representative Kimura, H.B. No. 355 passed Third Reading by a vote of 48 ayes, with Representatives Ajifu, Kato and Soares being excused.

Third Reading of H.B. No. 466.

On motion by Representative O'Connor, seconded by Representative Kimura, H.B. No. 466 passed Third Reading by a vote of 49 ayes, with Representatives Ajifu and Soares being excused.

Third Reading of H.B. No. 8.

Representative O'Connor moved that H.B. No. 8, having been read throughout, pass Third Reading, seconded by Representative Kimura.

Representative Leopold then spoke against House Bill 8, HD 1, as follows:

"Mr. Speaker, I believe that we should require our State courts to allow a plaintiff who wins a constitutional case to recover his attorney's fees and court costs. The reasoning behind this recovery of cost is sound because we are tapping the resources of a richer pocket—the pocket of a defendant who has violated the constitutional rights of an individual or a class of individuals. Clearly, it is the responsibility of the State Attorney General to protect the constitutional rights of the citizens of this State. However, it has been left to the private law community to handle these cases.

It is well known that the prominent law firms in this community rarely take constitutional cases because there is generally so little money in them. For

those attorneys who do care deeply enough to take constitutional cases with little compensation, for those individuals who are concerned enough to see that the constitutional rights of all the people of the State are vigorously protected, at least the Legislature should provide as much encouragement as possible. After all, how meaningful is our State Constitution if we as legislators do not make every effort to encourage the enforcement of its provisions. This is the thrust of my serious reservation to this measure."

Representative O'Connor then rose and spoke in favor of House Bill 8, HD 1, as follows:

"Mr. Speaker, under the present laws of this State, the costs in a law suit which is won by the person bringing the suit are recoverable against the other party. The bill before us today would allow in certain specific actions brought against the State or its agencies or its political subdivisions attorney's fees when someone brings an injunctive action or the extraordinary relief action for a writ of prohibition or mandamus and that party prevails in his action.

Mr. Speaker, the bill allows the court in its good discretion to make this award. For that reason, I urge all members of this Honorable Body to vote in favor of this measure."

The motion was put by the Chair and H.B. No. 8 passed Third Reading by a vote of 45 ayes to 4 noes, with Representatives Leopold, Suwa, Wong and Yim voting no and Representatives Ajifu and Soares being excused.

The Chair directed the Clerk to note that H.B. Nos. 18, 311, 355, 466 and 8 had passed Third Reading not earlier than 12:4 o'clock p.m.

STANDING COMMITTEE REPORTS

SUSPENSION OF RULES

On motion by Representative Ushijima, seconded by Representative J. Garcia and carried unanimously, the rules were suspended for the purpose of considering bills on Third Reading on the basis of a modified consent calendar.

THIRD READING

The following bills, which were on the calendar for Third Reading, were read throughout and the following actions taken:

Third Reading of H.B. No. 1381.

On motion by Representative Iha, seconded by Representative Nakama, H.B. No. 1381 passed Third Reading by a vote of 51 ayes.

Third Reading of H.B. No. 1382.

On motion by Representative Iha, seconded by Representative Nakama, H.B. No. 1382 passed Third Reading by a vote of 51 ayes.

Third Reading of H.B. No. 41.

On motion by Representative Suwa, seconded by Representative Akizaki, H.B. No. 41 passed Third Reading by a vote of 51 ayes.

Third Reading of H.B. No. 61.

On motion by Representative Suwa, seconded by Representative Akizaki, H.B. No. 61 passed Third Reading by a vote of 51 ayes.

Third Reading of H.B. No. 216.

On motion by Representative Suwa, seconded by Representative Akizaki, H.B. No. 216 passed Third Reading by a vote of 51 ayes.

Third Reading of H.B. No. 954.

On motion by Representative Suwa, seconded by Representative Akizaki, H.B. No. 954 passed Third Reading by a vote of 51 ayes.

Third Reading of H.B. No. 1141.

On motion by Representative Suwa, seconded by Representative Akizaki, H.B.

No. 1141 passed Third Reading by a vote of 51 ayes.

Third Reading of H.B. No. 11.

Representative O'Connor moved that H.B. No. 11, having been read throughout, pass Third Reading, seconded by Representative Kimura.

Representative King rose to speak against H.B. No. 11 stating that the Committee Report does not mention the fact that any person, including a first offender, upon whom the additional sentence the bill calls for is imposed, shall or can have the benefit of probation. It goes on to provide that, for second or subsequent offenses, even the possibility of parole during the full minimum sentence is wiped out. It may well be that in 99 percent of the cases there should be no probation, or no parole. But one of the things we have always prided ourselves on is the recognition of the individual.

She further stated that what this bill does is erase the individual. "Instead of letting our system of justice consider him as a person, it makes of him a number with no face. No matter what the circumstances, or what the potential he shows for rehabilitation, we are saying no probation. We smother him with a mandatory sentence by law. I realize there is precedent for this. And I realize only too well the tragic and heinous crimes being committed with firearms and with frightening frequency.

I am not saying don't send him to prison for as long as is necessary. I am saying, decide each individual case on its own merits."

Representative O'Connor then rose to speak in favor of the bill as follows:

"Mr. Speaker, I think it should be noted that this bill goes to a problem in our community which must be solved, not only by correction after the fact, but also by deterrence. This bill addresses itself to four major crimes. These crimes are murder, assault in the first degree, kidnapping and robbery in the first degree. And the bill addresses itself only to a situation where a firearm is used in the felony, after the person is convicted of the felony, or where a firearm is in the possession of a person who has been

convicted of a felony.

Mr. Speaker, in this circumstance, this community needs every deterrent that we can possibly put together. And this bill is but one step in this area of deterrence in this situation of heinous crime. Therefore, Mr. Speaker, I would urge all members of this body to vote for this bill to help control the crime in this community."

The motion was put by the Chair and H.B. No. 11 passed Third Reading by a vote of 50 ayes to 1 no, with Representative King voting no.

Third Reading of H.B. No. 637.

Representative Yap moved that H.B. No. 637, having been read throughout, pass Third Reading, seconded by Representative Suwa.

Representative Yap here noted that a typographical error appears on Page 29, Line 29 of H.B. No. 637, H.D. 1, wherein the word "not" was inadvertently inserted. By unanimous consent, the explanation was accepted.

At 12:10 o'clock p.m., the Chair declared a recess, subject to the call of the Chair.

At 12:30 o'clock p.m., the House of Representatives reconvened.

Representative Roehrig rose and stated that he is a practicing attorney and handles tort cases and asked the Chair for a ruling as to whether or not there was a conflict of interest.

The Chair ruled that there was no conflict of interest and Representative Roehrig was not excused from voting on this measure.

Representative W. Chong rose and stated that he is a licensed insurance agent and asked the Chair for a ruling as to whether or not there was a conflict of interest.

The Chair ruled that there was no conflict of interest and Representative W. Chong was not excused from voting on this measure.

Representative Yap then rose and spoke in favor of House Bill No. 637 as follows:

"Mr. Speaker, today, this Honorable Body has before it one of the most important pieces of legislation of the

present session. Today, as representatives of the people, we are going to vote on the reformation of automobile insurance in Hawaii.

In the late 1890's, the automobile, commonly referred to then as the horseless carriage, made its appearance in the United States. The impact of the automobile drastically influenced society by people's reliance upon their 'metallic member' of the family. Presently, there is an estimated 109 million motor vehicles in the United States. Hawaii, with a population in excess of 700,000, has 404,000 registered automobiles.

Along with the automobile came another occurrence--an automobile accident. U.S. traffic accidents in 1969 killed 56,000 people and injured 4.6 million. In addition to the human suffering, the economic loss amounted to \$16.5 billion in the form of medical costs, lost income and property damage. Yes, Mr. Speaker, accidents occasionally resulting in deaths! How to compensate victims of this man-made destruction was and still is one of the greatest dilemmas confronting us today.

The concept of automobile insurance reform dates as far back as 1919 when two men, Rollins and Carman, suggested that the workmen's compensation no-fault principle be adapted to the problem of auto accident compensation. Many studies followed thereafter, climaxing with the Department of Transportation study presented before Congress on March, 1971, urging the states to reform the automobile insurance system. Hawaii's Legislature responded and studied the complex problem. The result was the presentation of the Haldi Report in 1972.

Mr. Speaker, before you and members of this Honorable Body is our response to the needs and concerns of the people of Hawaii--H.B. No. 637, HD 1, 'The Hawaii Motor Vehicle Accident Reparations Act'. This bill creates a fair and equitable system of reparations for injuries and losses arising from motor vehicle accidents.

At this time, Mr. Speaker, I would like to point out some of the highlights of this bill.

One, it is compulsory that every one

who drives carry insurance.

Two, every person suffering loss from injury arising out of the maintenance or use of a motor vehicle has a right to basic reparation benefits. Basic reparation benefits will be paid without regard to fault. It includes medical expenses, work loss, replacement services loss, and survivors' loss. The maximum aggregate limit payable to each person per accident is \$25,000.

Three, automobile insurance will be non-cancellable and automatically renewable except for only nonpayment of premiums.

Four, benefits are payable monthly as loss accrues. Insurers are penalized for delaying payments.

Five, there is reform of the present rate-making system. (a) The present rates are to be reduced by a minimum of 15%. (b) There is public participation in rate-making. (c) The consumer has a recourse on grievances. (d) The insurers are mandated to rebate or pay back to policy holders any excessive profits made by the insurers. (e) The insurers, who do business in Hawaii, shall establish and maintain at all times an office in the State to conduct the administration of its business and the handling of its claims.

Mr. Speaker, at this time, I would like to thank the members of your Judiciary, your Finance, and your Consumer Protection Committees, the attorneys, Representative O'Connor and his staff, Representative Suwa and his staff, and my staff. Everyone of these people put many long and arduous hours into the drafting of the final bill.

Mr. Speaker, I would also like to emphasize the fact that the Hawaii Motor Vehicle Accident Reparations Act is the result of nonpartisan deliberation by all of the members of the joint committee. I am proud to say that during the deliberations on H.B. No. 637, HD 1, we were neither Democrats nor Republicans, majority nor minority, but all representatives working for the good and welfare of the people. Everyone of your joint committee members had an input into the creation of H.B. No. 637, HD 1.

As most of the members in the joint committee will agree with me,

automobile insurance reform is a very complex and at times a confusing issue. In a recent editorial by one of the press, the Legislature was warned of not exchanging quality for cheapness. Mr. Speaker, despite the complexities involved, I sincerely believe H.B. No. 637, HD 1, is a 'quality' plan. It is a plan that pays 'fairly, reasonably fully and promptly' and yet guarantees a decrease in the premium rates.

This bill, though, Mr. Speaker, does not solve our basic problem—the automobile accident. We have attempted to take care of those involved in accidents, but the crux of the problem remains with all the drivers in this State.

Before closing, Mr. Speaker, I would like to note that this bill does not take effect until July 1, 1974. This will give the public, insurance companies and government ample transitional time to adjust to the new insurance system.

Thank you, Mr. Speaker, and I urge all members to vote in favor of House Bill 637, HD 1."

Representative Kihano also rose and spoke in favor of the bill.

Representative Yim rose and inquired whether Representative Yap would yield to questions to which Representative Yap replied in the affirmative. Representative Yim then inquired whether an actuarial analysis of the bill had been made to determine what the premium savings or increases would be; in other words, has the bill been costed out, to which Representative Yap answered in the negative.

Representative Yim then stated that on Page 53, starting with Line 1, the bill reads in layman's language: "Rates for the insurance coverage required by Section 7a shall be decreased by at least 15 percent by each insurer for the first year of operation calculated as a percentage of comparable combination insurance in effect on June 1, 1973, or of a comparable combination insurance in effect at the time such rates to be given effect. In either event, such rates shall be provisional" and inquired whether the chairman would render an explanation with particular attention to the words "comparable", "combination insurance" and the word "provisional."

Representative Yap replied that the Committee has not costed out this package but since the effective date is July 1, 1974, there was time to cost it out and to work on the rates. He further stated that it is mandated in the bill that there shall be at least a 15 percent decrease in premiums.

Representative Yim inquired just exactly what is to be reduced by 15 percent, to which Representative Yap replied the Committee has taken the bodily injury section which was costed out in a previous package; that is, last year's H.B. No. 2400, where the most notable savings were in the bodily injury portion, where that portion would be 41.5 percent the present rate of 72. That means that at 41.5 percent, the present rate will figure a savings of 59.5 percent on the BI portion of the insurance, which is the most crucial part today of the auto insurance.

Representative Yim then inquired, since the right to sue is being retained in many cases resulting from an auto accident, whether a law suit can come about without having to reach the \$25,000 limit in payments. Representative Yap replied in the affirmative and added that where significant permanent injury or serious permanent disfigurement such as the loss of an eye or an arm occurs, or if one is hospitalized for more than 30 days or if one is totally disabled and there is complete inability to work in an occupation, that person can sue. And, if a person is responsible for more than \$25,000 aggregate in basic reparations benefit, he can sue. However, if the injury is not worth \$5,000, he cannot sue. It is a jurisdictional decision that his injuries or his suffering have to be over \$5,000 before he can sue.

Representative Yim then inquired whether it would be reasonable to expect that those already carrying liability insurance of \$100,000 to \$300,000 to continue to do so to which Representative Yap replied that the basic requirement is 15, 25 and 10,000. However, if a person wishes to carry a million dollars' worth of insurance, that is his prerogative.

Representative Yim then inquired, since most people are continuing to buy the present insurance and will be buying

an additional \$25,000 first party coverage as required by this bill, whether one can conclude that premiums, instead of being reduced by 15 percent, can be more costly.

Representative Yap replied that anything can cost more than what a person is paying today; that is, this bill is not designed to save everybody money but is designed to pay those injured as rapidly as possible.

Representative Aki offered the following amendment to H.B. No. 637, HD 1:

“Section 1. House Bill 637, HD 1, is amended by deleting it in its entirety and substituting in lieu thereof House Bill 699.”

Representative Aki moved that the amendment be adopted, seconded by Representative J. Garcia.

Representative Aki rose and spoke in favor of the amendment as follows:

“This amendment, the result of the Legislative Auditor’s study, seeks to establish a pure no-fault motor vehicle insurance system for Hawaii.

The people of Hawaii are extremely unhappy with the present automobile insurance system. Drastic reforms are needed to improve the present system.

The Republicans have reached a conclusion that the present ‘fault system’ is obsolete. It has been exposed again and again in numerous studies made by governmental agencies, including the U.S. Department of Transportation, as well as the \$160,000 Haldi Report, that the ‘fault system’ is slow, wasteful, unfair and inhuman.

We are firmly convinced that the present system is socially and economically regressive. We are of the opinion that the key point of the reform is to eliminate the fault principle from auto insurance. The rationale for abolishing tort liability has been discussed by the Bar Association of the City of New York, and they issued an excellent statement on the subject. Most of what was said is just as applicable to Hawaii as it is to New York.

On the fault concept, the New York City Bar Association Report said:

‘No meaningful reform of the present system for compensating automobile accident victims, which it is universally agreed does not work well, can be accomplished unless the fault concept which is the basis of the present system is eliminated. The root of all criticisms leveled at the existing system is the fault principle with the difficulties, delays, inequities and exorbitant costs which inhere in it.

The goals of a proper system for compensating victims of automobile accidents should be to reimburse all of them fully and promptly for their economic losses, assure complete and prompt payment of all hospital and medical bills, rehabilitate the injured to the fullest extent modern medicine can make possible, and provide appropriate compensation for permanent impairments at the lowest possible cost to the driving public. Such a proposal is not based on any gimmick or insurance bargain, but aims at fully compensating all persons injured in automobile accidents through employing the insurance dollar for that purpose rather than largely wasting it in the costly process of investigating and trying out the issue of fault.

The fault liability system does not serve well because it centers too much time, effort and expense on determining why an accident took place and not enough on remedying the consequences of accidents. Indeed, the required change is simple—to make automobile insurance insure against injuries instead of against liability for adjudicated fault.

...there has been a reluctance on the part of some to be realistic in acknowledging that the fault concept of compensation the victims of automobile accidents is the root of all the ills in the present system of handling automobile accident cases.”

We are convinced that the fault principle must be abolished and should be replaced by a system that serves the purpose clearly desired, that of providing swift and sure compensation to the victim of automobile accidents at the lowest possible cost.

Clearly, Mr. Speaker, this is a pure no-fault system. We, therefore, urge all our colleagues to vote in favor of this amendment."

Representative Ushijima rose and spoke against the amendment stating that the complete no-fault concept has brought about some debatable questions. Primarily, the cost of implementing a complete no-fault plan has been challenged because of its "unlimited benefits." A point which must be considered is that this kind of an open-end coverage makes it difficult to determine insurance rates and, as a result, the smaller auto insurance companies can only remain in business if they are able to transfer a portion of their exposure to the reinsurance market. As insurance companies are forced out of the market, control of the market by larger insurers will result in less competition.

Representative Ushijima further stated that if we are to prevent this kind of thing from happening, if we are to give the consumer such insurance benefits, there will be an inevitable increase in insurance premium rates which we are so highly concerned about. This we must keep in mind as, under any system, we only get what we pay for.

For these reasons, Representative Ushijima urged the members of the House to vote against the amendment.

Representative J. Garcia rose and spoke in favor of the amendment, as follows:

"Mr. Speaker, I believe the speaker before me has made some very interesting observations and perhaps the most pressing observation of them all is the fact that, under H.B. No. 637, tort is retained. Under pure no-fault, tort is removed. I think, Mr. Speaker, that is one of the basic arguments for pure no-fault versus partial no-fault. When we talk in terms of costing out H.B. No. 699 as compared with H.B. No. 637, we find that the Chairman of the Consumer Protection Committee was unable to answer the figures insofar as costs were concerned in that measure. But let me point out some of the benefits of pure no-fault as we have them listed.

As pointed out, the basic fundamental issue involved here is the removal and

abrogation of tort in pure no-fault as compared to the retention of tort in H.B. No. 637. We pointed out its significant points--the prompt payments, noncancellable insurance and compulsory insurance for all vehicles. Some of the benefits are as follows:

First, all medical expenses unlimited, either in amount or time. Second, loss of income up to a maximum of \$600 per month, but unlimited in aggregate amount or time. Third, non-vehicular property damages also unlimited. Fourth, all expenses up to \$7,200 incurred by a victim or members of his household for the loss of possible services incurred within one year. All other pocket expenses up to \$500. We also have burial benefits up to \$2,000.

Mr. Speaker, let us not sell pure no-fault insurance short. Let us give this matter serious and deliberate consideration. Those of us who are proponents of pure no-fault feel very strongly that pure no-fault is the right vehicle to employ as the wheel from this House to the Senate. I urge all members of this Honorable Body to support this amendment."

The motion to adopt the amendment was put by the Chair and failed to carry by a roll call vote of 32 noes to 19 ayes with Representatives Aduja, Ajifu, Aki, Amaral, W. Chong, Cobb, J. Garcia, R. Garcia, Hapai, Kato, Leopold, Lunasco, Medeiros, Oda, Soares, Uechi, Wasai, Wong, and Yim voting aye.

Representative Uechi then offered an amendment to H.B. No. 637, HD 1, as follows:

"PART I

GENERAL PROVISIONS

SECTION 1. Short title. This act shall be known as the "Hawaii Motor Vehicle Insurance Act."

SECTION 2. Purpose. The purposes of this act are to establish a system for prompt and fair compensation to all victims of motor vehicle accidents and to provide for equitable and reasonable rates for motor vehicle insurance.

SECTION 3. Definitions. As used in this act:

(1) "Bodily injury" means physical harm, sickness, or disease, including death resulting therefrom, arising out of a motor vehicle accident.

(2) "Claimant" means a victim or any other person entitled to any benefit under motor vehicle insurance.

(3) "Commercial vehicle" means a motor vehicle having a gross weight of ten thousand pounds or more.

(4) "Commissioner" means the insurance commissioner.

(5) "Insured" means a motor vehicle owner designated as such in a policy of motor vehicle insurance issued in compliance with this act.

(6) "Insured vehicle" means a motor vehicle covered by insurance as provided in this act.

(7) "Insurer" means a person who undertakes or is required to pay the benefits under a motor vehicle insurance.

(8) "Light motor vehicle" means a motor vehicle having a gross weight of less than 1200 pounds.

(9) "Member of the insured's household" means an insured's relative of any degree by blood, adoption, or marriage, or any other person designated by the insured in his policy of motor vehicle insurance, who usually makes his home in the same family unit with the insured, including any such relative or person temporarily living elsewhere by reason of study, work, or otherwise.

(10) "Motor vehicle" and "vehicle" means a vehicle, operated or used on land, which is self-propelled but not operated upon rails and includes trailers and semi-trailers attached to the vehicle.

(11) "Motor vehicle accident" means an accident arising out of the operation, maintenance, or use of a motor vehicle.

(12) "Occupant" means a person in or upon or entering into or alighting from a motor vehicle.

(13) "Owner" means a person having property in or title to a vehicle, other than a holder of a security interest therein. It includes a person entitled to

the use and possession of a vehicle subject to a security interest in another person, but excludes a lessee under a lease not intended as security, unless under the terms of the lease, the lessee is required to purchase and maintain an insurance on the leased vehicle.

(14) "Property" means any real or personal property other than a motor vehicle and its contents.

(15) "Required benefits" means the minimum benefits required in section 8 of this act.

(16) "Victim" means any person sustaining bodily injury or damage to or loss of property as a result of a motor vehicle accident.

(17) "Vehicle insurance" means an insurance against loss or expense, or liability for loss or expense, resulting from injury to persons or loss of or damage to property arising from the ownership, operation, maintenance, or use of a vehicle.

SECTION 4. Tort liability abolished. (a) Tort liability arising from a motor vehicle accident occurring within the State is abolished, and no person shall be subject to any civil action for damages for losses sustained in such accident, except actions for damages based on alleged defective product against the manufacturer of a motor vehicle involved in the accident, action for damages based on alleged defective repair, service or maintenance against a person engaged in the business of the repair, service or maintenance of a vehicle involved in the accident, and actions for damages by or against the United States government or an instrumentality of the United States, which although the owner of a motor vehicle involved in the accident, is exempt under the Constitution of the United States from the requirements of this act.

(b) If any claimant who has received any benefit under this act recovers damages from a manufacturer, the United States government or an instrumentality of the United States, the insurer who has paid the required benefit shall be entitled to reimbursement from any such recovery to the extent that the recovery includes payment for loss or expense covered by the required benefit paid by the insurer

and to the extent of the amount of such required benefit actually paid.

SECTION 5. Motor vehicle insurance required. (a) The owner of every motor vehicle operated or used in the State shall maintain at all times insurance on the vehicle which provides for payment by the insurer of at least those required benefits specified in section 8.

(b) No motor vehicle shall be registered or its registration renewed under chapter 286, unless at the time of submission of an application for registration or renewal, the owner submits proof that an insurance on the vehicle as required by subsection (a) will be in effect during the period for which registration or renewal is sought. At the time of submission of such application for registration or renewal, the owner shall also submit proof that the required insurance was continuously in effect during the period of his ownership of the vehicle in the State in the preceding registration period. Failure to submit proof that the required insurance was continuously in effect during the preceding registration period shall not be a bar to registration or renewal of the owner's vehicle, but shall constitute a prima facie evidence, in any criminal proceeding brought against the owner, of violation by the owner during the preceding registration period of subsection (a). Proof shall be submitted on forms prescribed by the commissioner and may consist of such statements of the insurer, as the commissioner may approve, attesting to the existence of such insurance.

SECTION 6. Form of insurance. (a) The insurance required to be maintained by the owner of every motor vehicle may be provided through a policy of insurance issued by an insurer authorized to transact the business of vehicle insurance in the State or through a system of self-insurance.

(b) Any policy of insurance presented by the insured as providing the required benefits shall be read to comply with this act, and any later agreement, contract, covenant, or disclaimer inconsistent therewith be void.

(c) An owner of twenty-five or more motor vehicles may self-insure his vehicles, provided that the method of self-insurance is approved by the

commissioner. No method of self-insurance shall be approved by the commissioner unless the commissioner finds that the owner has the financial ability to pay the required benefits and that the method of self-insurance affords security for the payment of the required benefits equivalent to that afforded by a policy of vehicle insurance. All applications for self-insurance shall be submitted to the commissioner on forms prescribed by the commissioner. Upon approval of any application, the commissioner shall issue a certificate of self-insurance. A certificate of self-insurance may be cancelled by the commissioner on reasonable grounds upon not less than five days' written notice to the self-insurer. Failure to pay any of the required benefits within thirty days after it is due constitutes a reasonable ground for cancellation. Every owner to whom a certificate of self-insurance is issued shall have all the rights and obligations of an insurer enumerated in this act, except where expressly exempt or the rights and obligations are stated to be those of insurers authorized to transact the business of vehicle insurance in the State.

SECTION 7. Failure to maintain insurance.. Any owner of a motor vehicle required to be insured who fails to maintain the insurance shall be subject to the penalty provided in section 33(b) and, in the event his motor vehicle is involved in an accident, be personally liable for the payment of the required benefits which an insurer would have been required to pay had the vehicle been insured. If benefits are paid by an insurer to whom a claim is assigned pursuant to section 26, the insurer shall be entitled to reimbursement from such an owner.

PART II

BENEFITS

SECTION 8. Required benefits. Every policy of insurance required by this act to be maintained by the owner of a motor vehicle shall provide for payment by the insurer, without regard to fault or negligence, or the following minimum benefits:

(1) To each victim sustaining bodily injury, other than death, as a result of an accident involving the insured motor vehicle:

(A) All reasonable and customary expenses for necessary medical, hospital, and dental services furnished the victim, including ambulance, surgical, x-ray, professional nursing and therapeutic services and prosthetic devices, and for any other services, products and accommodations necessary for treatment, rehabilitation, and recovery.

(B) All losses of income, up to \$600 per month, sustained by the victim as a result of the injury disabling or preventing him from fully performing work in which he was employed when the disability commenced.

(C) All expenses, up to \$7,200, reasonably incurred by the victim or members of his household within one year from the date of the injury for ordinary and necessary household services which the victim himself would have ordinarily performed but for the injury; provided such services are obtained from persons not members of the victim's household.

(D) All other out-of-pocket expenses reasonably incurred as a result of the injury, not exceeding \$500 in the aggregate.

(E) A sum for such disfigurement as the victim may sustain in accordance with the schedule set forth in section 10.

(2) To each victim sustaining damage to or loss of property as a result of an accident involving the insured vehicle, the repair or replacement cost thereof.

(3) If any victim dies as a result of bodily injury sustained in an accident involving the insured vehicle:

(A) To the legal representative of the estate of each victim, all expenses, losses, and sums enumerated in paragraph (1) incurred but remaining unpaid by the insurer on the date of the death of the victim and all funeral and burial expenses not exceeding \$2,000.

(B) To the victim's surviving spouse, or, if no surviving spouse, to the victim's surviving children below the age of 18 years:

(i) All expenses reasonably incurred after the victim's death, but within one year from the date of victim's

injury resulting in his death, for ordinary and necessary household services which the victim himself would have ordinarily performed for the benefit of the surviving spouse and children but for his death; provided that such services are obtained from persons not members of the deceased victim's household.

(ii) The monthly income, up to \$600 per month, that the deceased victim was earning from work he was performing at the time of his injury or at the time of his death, whichever amount is greater.

The monthly sum shall be payable to the surviving spouse until he or she dies or remarries. If the spouse remarries and the total of all monthly sums paid to the spouse prior to his or her remarriage is less than \$10,000, then upon such remarriage, the insurer shall pay to the spouse in lump sum as death benefit, the difference between \$10,000 and the total of all monthly sums theretofore paid, and the obligation of the insurer under this paragraph shall terminate.

If the spouse dies, or if at the time of the victim's death there is no surviving spouse, the monthly sum shall be payable in equal shares to those of the victim's children who are from time to time surviving and below the age of 18 years until the last of them dies or attains the age of 18 years; provided that, considering the age of the youngest of the children then surviving and below the age of 18 years, if the total of all monthly sums to be paid to the children will not equal or exceed the sum of \$10,000, less such total amount as the victim's spouse may have received during his or her lifetime, the insurer shall pay in equal shares to such children then surviving and below the age of 18 years, in lump sum as death benefit, the sum of \$10,000, less such total amount as the victim's spouse may have received during his or her lifetime, and the obligation of the insurer under this paragraph shall terminate.

(iii) If the benefit provided in paragraph (ii) above is not payable because the victim was not earning income from work at the time of his injury or death, a lump sum death benefit of \$10,000.

(C) If there is no surviving spouse and no surviving child below the age of 18 years, to the victim's estate a lump sum

death benefit of \$10,000. Any sum due under this paragraph but not payable for want of beneficiaries shall not escheat but shall be applied to payments required to be made under the assigned claims plan described in section 26.

For purposes of this paragraph (3), any surviving child, regardless of age, who is incapable of self-support because he is mentally retarded or physically handicapped shall be considered a child below the age of 18 years, and as to him, the provision of paragraph (3)(B)(ii) regarding termination of benefits upon attaining the age of 18 years shall not apply.

SECTION 9. Income and income loss determination. (a) For purposes of section 8(1)(B) and section 8(3)(B)(ii), the work in which the victim was employed when disability commenced or the work he was performing when he sustained his injury or when he died shall be deemed to be:

(1) The work he was then actually performing; or

(2) If temporarily unemployed at the time, any work which he performed during the two years immediately preceding his disability, injury, or death, provided that the victim performed work from which he earned an income during a total of at least twenty weeks in the twelve month period or a total of at least thirty-six weeks in the twenty-four month period immediately preceding the date of his disability, injury, or death. Work performed during any portion of a week shall constitute a week of work.

(b) The amount of income a victim was earning from work shall be determined on a monthly basis and shall be the monthly amount that he was actually earning or, if the earnings consisted in whole or in part of commissions and gratuities or if the victim was self-employed or temporarily unemployed or if the job he was performing was of a temporary nature pending permanent employment, then the greater of:

(1) The average monthly income reportable as earned from work for State or federal income tax purposes for the current taxable year; or

(2) The average monthly income reported as earned from work for State or federal income tax purposes for the last completed taxable year; or

(3) The average monthly income reported as earned from work for State or federal income tax purposes for the last two completed taxable years.

To determine the average monthly income, the total income reportable or reported as earned from work for the taxable year shall be divided by the total number of months in which income was actually earned from five or more days of work. Work performed during any portion of a day shall constitute a day of work.

(c) Except as otherwise provided in subsection (d), income loss shall be determined by deducting from the monthly income the victim was earning eighty percent of all monthly income which the victim earns from any work he performs after sustaining injury; provided that, the amount paid as income loss shall not, when added to the full amount the victim earns from any work he performs after sustaining injury, exceed the amount the victim was earning at the time of the injury as defined in sections 9(a) and 9(b).

(d) In case of a victim who suffers any of the following conditions, income loss shall be deemed to be the greater of the monthly income the victim was earning, without deduction of any amount he earns from any work he performs after sustaining injury, or the sum of \$360 per month:

(1) Loss of sight in both eyes; or

(2) Loss of both feet at or above the ankle; or

(3) Loss of both hands at or above the wrist; or

(4) Loss of one hand and one foot; or

(5) Permanent and complete paralysis of both legs or both arms or one leg and one arm as a result of injury to the spine; or

(6) Incurable imbecility or insanity

as a result of an injury to the skull; or

(7) Any other condition or combination of conditions similar to or of equal severity as those enumerated above, which permanently and completely disables the victim from performing any work.

(c) "Monthly salary" and "monthly income" shall be the gross monthly salary or gross monthly income, less fifteen percent for State and federal income taxes.

SECTION 10. Disfigurement schedule. (a) Payment by the insurer for disfigurement provided in section 8 shall be made in accordance with the following schedule:

(1) Loss of thumb	\$ 2,100
(2) Loss of first finger, commonly called index finger	1,290
(3) Loss of second finger	840
(4) Loss of third finger	700
(5) Loss of fourth finger	420
(6) Loss of phalanx of thumb or finger:	
First phalanx of thumb	1,575
First phalanx of finger:	
First Finger	645
Second Finger	420
Third Finger	350
Fourth Finger	210
More than one phalanx of the thumb or any finger	Full amount payable for loss of that thumb or finger
(7) Loss of great toe	1,065
(8) Loss of other toes	450
(9) Loss of phalanx of toe:	
First phalanx of toe:	
Great toe	530
Other toes	225

	More than one phalanx of any toe	Full amount payable for loss of the entire toe
(10)	Loss of hand	6,830
(11)	Loss of arm	8,735
(12)	Loss of foot	5,740
(13)	Loss of leg	8,065
(14)	Loss of eye:	
	Loss of eye by enucleation	4,480
	Loss of vision	3,920
	Loss of binocular vision	3,920
(15)	Loss of ear or hearing:	
	Loss of hearing—both ears	5,600
	Loss of hearing—one ear	1,455
	Loss of both ears	2,240
	Loss of one ear	1,120
(16)	Scarring	Not to exceed \$12,000 under standards established by the commissioner
(17)	For those conditions enumerated in section 9(d)	\$20,000

A victim shall be compensated for each disfigurement enumerated in this subsection; provided that the aggregate amount of the benefits payable by the insurer under this subsection shall not exceed \$20,000.

(b) For those conditions enumerated in section 9(d), in addition to the lump sum provided in paragraph (17) of subsection (a) above, the insurer shall pay to a victim who is not otherwise compensable for income loss under sections 8(1)(B) and 9(d), the sum of \$360 per month.

(c) Loss of a hand means amputation between the elbow and the wrist. Loss of an arm means amputation at or above the elbow. Loss of a foot means amputation

between the knee and the ankle. Loss of a leg means amputation at or above the knee.

SECTION 11. Adjustments in amounts of benefits. If the commissioner at any time finds that the consumer price index has risen by seven percent or more since the required benefits payable under this act were last adjusted, the commissioner may increase any or all benefits by five percent.

SECTION 12. Required territorial coverage. Every policy of insurance required by this act to be maintained by the owner of a motor vehicle shall provide for the payment of the required benefits to the insured and the members of his household for bodily injury and death sustained by him or any member of his household as a result of any motor vehicle accident occurring outside the State but within the United States, its territories and possession, or Canada; provided that the insurer may seek reimbursement of the amounts of benefits paid from any recovery had by the insured or any member of his household under the laws of the locality in which the accident occurs.

SECTION 13. Collateral sources of indemnity. (a) Except as provided in the subsections following, a required benefit, other than payment for damages to or loss of property, lump sum death benefit, or lump sum disfigurement benefit, shall be paid net of any payment that the claimant is entitled to receive, for the loss or expense covered by the required benefit, under the United States Social Security Act, the Hawaii Workmen's Compensation Law, the Hawaii Temporary Disability Insurance Law, any other state or federal income disability or workmen's compensation law, any accident, health, sickness, or disability insurance, and any contract or agreement of any group, association, organization, partnership, or corporation to pay for or reimburse such loss or expense or to provide services, the cost of which is an expense covered by the required benefit. Nothing in this section shall prevent any person from expressly insuring against, and receiving payment for, losses and expenses in amounts in excess of those included in the required benefits under this act.

(b) No vacation or sick leave

payments and no life insurance proceeds to which the claimant may be entitled and no disability insurance cash benefits payable under the United States Social Security Act to victims who suffer any of the conditions enumerated in section 9(d) of this act shall be deducted from the required benefits payable under this act.

(c) The deduction required under subsection (a) shall not apply to any accident, health, sickness, or disability insurance, and any contract or agreement of any group, association, organization, partnership, or corporation to pay for or reimburse any loss or expense covered by the required benefits or to provide medical, hospital, dental, or other services included in the required benefits under this act if such insurance, contract, or agreement expressly provides that the required benefits under this act shall be deducted from the benefits payable under such insurance, contract, or agreement.

(d) Notwithstanding that the claimant is entitled to payment under any law, insurance, contract, or agreement enumerated in subsection (a) for any loss or expense covered by a required benefit, the insurer under this act shall pay the required benefit, unless within the period prescribed in section 15, payment under such law, insurance, contract, or agreement is received by or mailed to the claimant; provided, that upon receipt by the claimant of such payment, the insurer shall be entitled to reimbursement to the extent of the amount of the required benefit actually paid by the insurer.

SECTION 14 Optional insurance coverage. Every insurer authorized to transact the business of motor vehicle insurance in the State may offer to the owner of any motor vehicle it insures, which offer may be rejected, coverages in excess of or in addition to the required benefits. If the commissioner finds that any or all of the following are not being offered as optional coverages, he may require them to be offered by any or all insurers:

(1) Payment for loss of income resulting from bodily injury to or death of the insured or any member of his household in excess of the maximum amount required to be paid under section 8.

(2) Payment of all reasonable

expenses incurred for ordinary household services which the victim would have ordinarily performed but for his injury or death for a period in excess of one year from the date of the victim's injury.

(3) Payment for damage to or loss of the insured motor vehicle and its contents resulting from collision and from theft, fire and other causes, without regard to fault or negligence. The coverage with respect to damage or loss resulting from causes other than collision may be offered on a comprehensive basis. The coverage with respect to damage to or loss of a motor vehicle shall be offered with option in the owner to accept it subject to a deductible amount selected from varying deductible amounts offered by the insurer, including \$250. The insurer may include within the terms and conditions applicable to these coverages such other provisions as it customarily applies to such coverages in other states.

(4) If the expenses for medical, hospital, and dental services incurred as a result of bodily injuries sustained by the insured or a member of his household exceed \$5,000, payment for physical pain and suffering at a stipulated percentage of the medical, hospital, and dental expenses or at a stipulated percentage of the amount recoverable for disfigurement.

(5) Payment of claims for bodily injury, death, and property damage made against the insured or any member of his household as a result of a motor vehicle accident occurring outside the State.

PART III

BENEFIT PAYMENTS; ENFORCEMENT OF PAYMENTS

SECTION 15. Benefits payable when. (a) Unless otherwise expressly provided, all benefits, both required and optional, shall be paid as loss accrues; provided that income benefits shall be paid not less often than semi-monthly as loss accrues. All benefits shall be payable within thirty days after the insurer receives notice of the fact and of the amount of loss sustained. Payment shall be deemed to have been made when delivered or when a draft or other valid instrument of payment is placed in the United States mail, properly addressed and postage prepaid. All payments not

made within thirty days shall bear simple interest at the rate of eighteen percent per year, which shall accrue to the claimant. All claims for benefits shall be made on forms approved by the commissioner.

(b) If any action is brought by a claimant to enforce payment of any benefit and if the court finds that the insurer unreasonably refused to pay the claim or unreasonably delayed making proper payment, an attorney representing the claimant shall be entitled to a reasonable fee which shall be a charge against the insurer in addition to the benefits recovered. In any such action, if the court finds that the action was fraudulently brought, the court in its discretion, may award the insurer a reasonable sum against the claimant as an attorney's fee, which award may be offset by the insurer against any benefit then due or thereafter coming due the claimant.

SECTION 16. Lump sum settlement. Where benefits accrue periodically and the total sum payable to a claimant is not likely to exceed \$1,000, the insurer may, with the approval of the claimant, pay all of such amounts that are likely to accrue in a lump sum; provided that such lump sum payment shall not preclude further claim for payment if the recoverable losses accruing after such settlement exceed \$2,000. No lump sum settlement shall be made in cases where the total amount of the benefits is likely to exceed \$1,000, except upon approval by a court of competent jurisdiction. The court may approve any such lump sum settlement if it is satisfied, after a hearing upon due notice at which all interested parties have had an opportunity to be heard, that the settlement is in the best interest of the claimant. All lump sum settlements shall disclose the complete basis of computation.

SECTION 17. Payment from which insurance. (a) Except as provided in the subsections following, the insurer of a motor vehicle involved in an accident shall pay the required benefits accruing as a result of bodily injury and property damage sustained by all victims of the accident.

(b) If two or more motor vehicles are involved in an accident, the insurer of each vehicle shall pay the required

benefits accruing as a result of bodily injury sustained by all victims who are occupants of the vehicle insured by it; and the insurer of any of the vehicles shall be subject to claim for payment of the required benefits accruing as a result of bodily injury and property damage sustained by victims, not occupants of any of the involved vehicles, subject to apportionment of all payments made by any insurer among insurers of all involved vehicles as provided in section 27.

(c) If the identity of any motor vehicle involved in an accident is not known or if any motor vehicle involved in an accident is not insured for any reason, a claimant who would otherwise have been paid by the insurer of such vehicle shall be paid the required benefits from the insurer to whom his claim is assigned under the assigned claims plan provided in section 26; provided that no claim arising from bodily injury or property damage sustained by the owner of the uninsured vehicle shall be subject to assignment under the assigned claims plan.

(d) The provisions of this section shall apply, notwithstanding that any victim is an insured of another motor vehicle or the owner of another insured motor vehicle, except that a claimant, to the extent that he is so entitled, may claim against the insurer of such other vehicle for benefits in excess of the required benefits.

SECTION 18. Benefits not assignable. An agreement assigning the right of a claimant to any benefit payable by the insurer shall be void, except that the claimant may assign to the provider of services such amounts receivable from the insurer to pay for the cost of the services actually provided.

SECTION 19. Claims for benefits excluded when. (a) No claimant shall be paid any of the benefits provided in this act if his claim arises from bodily injury or property damage sustained by a victim which the victim intentionally causes or in an accident occurring during the course of commission by the victim of a felony, other than negligent homicide, of which he is convicted. Nothing in this section shall be construed to preclude payment to other claimants.

(b) In case of a claim arising from

injury or damage sustained by a victim in an accident occurring during the course of commission by the victim of a felony, other than negligent homicide, upon the indictment of the victim for such felony, the insurer shall place in escrow all funds required to be paid on the claim under this act until such indictment is dismissed or a conviction obtained. The funds in escrow shall be paid to the claimant upon dismissal of the indictment or returned to the insurer upon conviction of the victim.

(c) Any insurer paying any benefit for bodily injury or property damage intentionally caused or resulting from an accident occurring during the course of commission of a felony, other than negligent homicide, shall be entitled to reimbursement from the person intentionally causing the injury or damages or the person convicted of committing the felony.

SECTION 20. Statute of limitations. Actions against an insurer for the recovery of any benefit shall be brought within two years from the date an injury or loss is sustained or one year from the date of the last payment of benefit, whichever is later.

SECTION 21. Insurer's right to information. (a) Whenever the mental or physical condition of an injured victim is material to any claim, the insurer may request the victim to submit to a mental or physical examination by a physician or physicians. Any examination conducted at the request of the insurer shall be at the expense of the insurer.

(b) An employer of a victim, if requested by an insurer against whom a claim has been made for payment of income or income loss, shall forthwith furnish on a form approved by the commissioner, a statement under oath or affirmation of the amount that the victim was earning at the time and during a reasonable period before the victim sustained his injury, disability, or death and the amount the victim earned or is earning after he sustained his injury or disability.

(c) Every provider of medical, hospital, and dental services, products, and accommodations, if requested by an insurer against whom a claim has been made for expenses incurred by a victim for such services, products, or

accommodations, shall forthwith furnish such information as requested or permit an examination of its records pertaining to the services, products, and accommodations furnished, rendered to, or performed for the victim and the nature of the condition for which such services, products, and accommodations were furnished, rendered, or performed.

(d) No insurer shall seek to enforce its right to information provided in this section for the purpose of annoying, harassing, embarrassing, or oppressing any claimant. Upon the petition of a claimant, a court of competent jurisdiction may enjoin an insurer from requiring any examination or disclosure of information or permit such examination or disclosure upon prescribed conditions and in any such proceeding may order payment by the insurer of all costs and expenses of the proceeding, including reasonable attorney's fees.

(e) Interest on any payment of benefit delayed as a result of the insurer's request for examination or disclosure of information shall continue to accrue during such examination or disclosure and shall be payable by the insurer if such examination or disclosure results in no change in the insurer's liability to pay the benefits.

SECTION 22. Subrogation rights against third parties. (a) If any claimant who has received any required benefit under this act is entitled to receive or recover any benefit or damages from a third party for losses or expenses covered by the required benefit received, the insurer who has paid the required benefit shall be subrogated to the rights of the claimant against the third party to the extent of the losses and expenses covered by the required benefits and to the extent of the amount of the required benefits actually paid.

(b) If the claimant files a claim or commences a civil action against the third party, the claimant shall notify the insurer of the claim or action. The insurer paying the required benefit may join as a party to the claim or action or assert a lien on the amount of any recovery had by the claimant in such claim or action to the extent of its subrogation rights. If the claimant does not file a claim or commence action within nine months

after his right to claim or commence action accrues, the insurer may, in behalf of and in the name of the claimant or in its own name file the claim or commence the action; provided, that the claimant shall be entitled to join in the claim or action and to any surplus over the amount to which the insurer is subrogated.

S E C T I O N
23. Rehabilitation. (a) The insurer shall cause to be evaluated for rehabilitation every victim who sustains permanent bodily injury as a result of a motor vehicle accident and shall offer such a victim a rehabilitation program whenever such evaluation indicates that such a program will be potentially beneficial to the victim.

(b) Every victim who sustains permanent bodily injury as a result of a motor vehicle accident which results in total or partial loss of income shall make reasonable efforts to obtain rehabilitative treatment or occupational training, provided such treatment or training is reasonably accessible, and every such victim entitled to compensation for income loss shall make reasonable efforts or to submit to reasonable rehabilitative treatment or occupational training, an insurer may petition any court of competent jurisdiction for an order that benefits be reduced or terminated so as to limit recovery of benefits to an amount equal to the benefits that in reasonable probability would be due if the victim submitted to such rehabilitative treatment or occupational training or made reasonable efforts to work, or for such other order as may be reasonable. The court in determining whether the victim has reasonable grounds for refusing to submit to rehabilitative treatment or occupational training or has made reasonable efforts to work shall take into account all relevant factors, including the extent of the probable benefit, the attendant risks, the extent to which the procedure, treatment, training, or work is accessible and is or is not recognized as standard and customary, and whether the imposition of sanctions because of the victim's refusal would abridge his right to the free exercise of his religion.

SECTION 24. Right to purchase insurance. No insurer authorized to transact business of motor vehicle insurance in the State shall refuse to issue

a policy of insurance providing for the payment of the required benefits to any person, except on grounds of fraud in an application for insurance or nonpayment of a premium or any installment thereof. No policy of insurance issued on any motor vehicle shall be cancellable and every such policy shall be automatically renewed, except on grounds of fraud or nonpayment of any premium or any installment thereof within thirty days after it becomes due.

PART IV

RIGHTS AND OBLIGATIONS BETWEEN AND AMONG INSURANCE COMPANIES

S E C T I O N

25. Reinsurance. (a) Insurers authorized to transact the business of motor vehicle insurance in the State shall establish, maintain, and participate in a plan of reinsurance approved by the commissioner for the purpose of distributing among themselves the costs of insuring risks which an insurer does not wish to bear alone. Each insurer shall be limited in its participation to an amount equal to not more than one-third of its gross dollar volume of motor vehicle insurance issued in the State in any calendar year, unless otherwise approved by the governing board or committee of the plan, and shall be assessed the costs of reinsurance in proportion to the gross dollar volume of motor vehicle insurance it issues in the State. Any insurer may appeal to the commissioner from any ruling or decision of the manager, governing board, or committee designated to operate the plan.

(b) Insurers authorized to transact the business of motor vehicle insurance in the State may enter into any plan of reinsurance approved by the commissioner for the purpose of equitably distributing among themselves losses which may result to any insurer as a result of benefit payments in excess of those which may reasonably be borne by an insurer in consideration of its total exposure to loss and its statutory capital and surplus positions. If no such plan is established by the insurers and the commissioner deems the establishment of such plan advisable for the protection of the public interest, he may require the insurers to establish such plan. Any such

plan, once established, shall be open to participation by all insurers authorized to transact the business of motor vehicle insurance in the State. Any insurer may appeal to the commissioner from any ruling or decision of the manager, governing board, or committee designated to operate the plan.

SECTION 26. Establishment of assignment claims plan. All insurers authorized to transact the business of motor vehicle insurance in the State shall establish, maintain, and participate in a plan for the equitable assignment among themselves of claims for the required benefits arising out of accidents involving vehicles not insured as required by this act. The plan, the rules and regulations for the operation of the plan, and the method of assignment of claims shall be subject to the approval of the commissioner. If the insurers default in the establishment and continued maintenance of such plan, the commissioner shall organize and maintain such a plan. The insurer to whom a claim is assigned shall thereafter have all the rights and obligations with respect to such claim as it would have if the insurer had issued a policy on the vehicle.

SECTION 27. Apportionment of obligations. (a) If a motor vehicle accident involves two or more vehicles, the insurers of all involved vehicles shall apportion equally among themselves the costs of paying the required benefits accruing as a result of bodily injury and property damage sustained by victims, not occupants of any of the involved vehicles.

(b) If a motor vehicle accident involves one or more commercial vehicles, not legally parked, and one or more non-commercial vehicles, the insurers of the commercial vehicles shall apportion equally among themselves the costs of reimbursing the insurers of the non-commercial vehicles for a percentage of the costs of all required benefits paid by them.

(c) If a motor vehicle accident involves one or more motor vehicles other than light motor vehicles, not legally parked, and one or more light motor vehicles, the insurers of the motor vehicles other than light motor vehicles shall apportion equally among themselves the costs of reimbursing the insurers of

the light motor vehicles for a percentage of the costs of all required benefits paid by them.

(d) The commissioner shall promulgate regulations classifying all motor vehicles into reasonable categories and assigning to each category a percentage of responsibility for the costs of paying the required benefits to the occupants of vehicles of other categories. The percentages of responsibility shall be based upon the propensity of vehicles of each category to affect probability and severity of injury to occupants of vehicles of other categories and shall be derived from a consideration of such factors as the weight, size, and configuration of the vehicles, provided that the minimum percentage of responsibility for commercial vehicles shall be seventy percent in the situation described in subsection (b), and the minimum percentage of responsibility for motor vehicles other than light motor vehicles shall be seventy percent in the situation described in subsection (c).

(e) As used in this section, "legally parked" means being stationary, with ignition off, and if on a public highway, in a place, manner, and position authorized by law.

PART V

MOTOR VEHICLE INSURANCE RATES

SECTION 28. Rates generally. With the exception of section 431-693 and except as otherwise provided in this act, all premium rates for motor vehicle insurance shall comply with the provisions of the casualty rating law contained in chapter 431.

SECTION 29 Making of rates. (a) All premium rates for motor vehicle insurance shall be made in accordance with the following provisions:

(1) Consideration shall be given to the individual insurer's: past and prospective loss experience within the State; reasonable margin for underwriting profit from and contingencies in the administration of motor vehicle insurance sold within the State; past and prospective expenses in the sale and administration of motor vehicle insurance within the State; income from

investments of premiums and other proceeds received on account of motor vehicle insurance sold within the State; and all other relevant factors.

(2) No insurer shall pool or in any manner combine its past or prospective expenses of adjusting losses, sale, and underwriting, or its past or prospective administrative expenses of any other kind for any class of risk in any rating territory with those of any other insurer. An insurer may pool its loss experience in the State with the loss experience in the state of any other insurer, subject, however, to the provisions of subsection (c) of this section.

(3) The systems of expense provisions included in the rates for use by an insurer may differ from those of other insurers to reflect the requirements of the operating methods of any such insurer with respect to motor vehicle insurance or with respect to any classification for which classification separate expense provisions are applicable.

(4) Rating territories may be established and risks may be grouped by classifications for the establishing of rates and minimum premiums. The commissioner may by rule or regulation provide for a uniform classification of risks and rating territories for the various coverages. Classification rates may be modified to produce rates in accordance with rating plans which establish standards for measuring variations in hazards or expense provisions, or both. Such standards may measure any differences among risks, including vehicles, occupations, and involvement in past accidents, provided they are established to have probable effect upon losses or expense. For the required benefits, no standard or rating plan shall be based, in whole or in part, directly or indirectly, upon frequency of accident involvement associated with age, sex, length of driving experience, or marital status.

(5) Rates shall not be excessive, inadequate or unfairly discriminatory. Differentials reflecting difference in administration, overhead, or selling expenses shall not be deemed to be unfairly discriminatory.

(b) No manual of classification, rule, rate, rating plan, designation of rating

territories, or standard for motor vehicle insurance shall be effective unless approved by the commissioner. No such approval shall be given to any classification, rating plan, rating territory, or standard without a public hearing at which all affected and interested parties have an opportunity to examine and comment on the impact and application of the proposed classification, rating plan, rating territory, or standard. The commissioner shall publish a notice of the date, time, and place of the public hearing at least once in each of three successive weeks in a newspaper of general circulation.

(c) Motor vehicle insurance rates shall be made separately for each insurer and no insurer shall agree, combine, or conspire with any other insurer or enter into, become a member of, or participate in any understanding, pool, or trust, to directly or indirectly fix, control, or maintain motor vehicle insurance rates. The provisions of sections 431-696, 431-697, and 431-698, relating to rating organizations, shall not apply to motor vehicle insurance rates. Any violation of this subsection shall be subject to all civil and criminal penalties provided in chapter 480.

SECTION 30. Review of rates. Any person aggrieved by the application as to him of any classification, rule, standard, rate, or rating plan made, followed, or adopted by an insurer may make written request to the insurer to review such application and grant the relief requested. If the review is not granted within thirty days thereafter, the person may treat it as refused. Any person aggrieved by the action of an insurer in refusing to review the matter or grant the relief requested may file a written complaint with the insurance commissioner, specifying the grounds relied on. If the commissioner finds that probable cause for the complaint exists or that the complaint charges a violation of this act or any applicable provisions of the casualty rating law, he shall conduct a hearing on the complaint. The hearing shall be subject to the procedure provided in section 431-705(a).

SECTION 31. Noncompliance of rates. (a) If the insurance commissioner has good cause to believe that a classification, rule, standard, rate, rating territory, or rating plan made, followed,

or adopted by an insurer does not comply with any of the requirements of this act or any applicable provisions of the casualty rating law, he shall, unless he has good cause to believe that such noncompliance is willful, give notice, in writing, to such insurer stating therein in what manner and to what extent such noncompliance is alleged to exist and specifying therein a reasonable time, not less than ten days thereafter, within which such noncompliance may be corrected. Notices under this subsection shall be confidential as between the commissioner and the parties unless a hearing is held as provided in subsection (b).

(b) If the insurance commissioner has good cause to believe such noncompliance to be willful, or if, within the period prescribed by the commissioner in the notice, the insurer does not make such changes as may be necessary to correct the noncompliance specified by the commissioner or establish to the satisfaction of the commissioner that such specified noncompliance does not exist, then the commissioner may proceed with a hearing which shall be subject to the hearing procedure provided in section 431-705(a).

SECTION 32. Orders on hearing. If, after a hearing conducted pursuant to section 30 or 31, the insurance commissioner finds that the complainant is entitled to relief or that any classification, rule, standard, rate, rating territory, or rating plan violates this act or any applicable provisions of the casualty rating law, he shall issue an order granting the complainant's claim for relief or prohibiting the insurer from using such classification, rule, standard, rate, rating territory, or rating plan. The order shall contain the commissioner's finding of facts and conclusions of law, including, as appropriate, a specification of the respects in which a violation of this act or any applicable provision of the casualty rating law exists and shall specify a reasonable time period within which the insurer shall comply with the terms of the order. Any such order shall be subject to judicial review in accordance with the provisions of section 431-705(b).

PART VI

PENALTIES; EVALUATION; RULES

AND REGULATIONS

SECTION 33. Penalties. (a) In addition to any other penalty prescribed in this act, the penalties provided in section 431-707 shall be applicable to an insurer who violates any provision of this act or fails to comply with any order of the commissioner.

(b) Any owner of a motor vehicle who fails to maintain the insurance required by this act or who gives information in an application for motor vehicle insurance knowing or having reason to believe that the information is false, or who forges or, without authority, signs any evidence of proof of insurance, or who files or offers for filing any evidence of proof of insurance, knowing or having reason to believe that it is forged or signed without authority, shall be fined not more than \$1,000 or imprisoned not more than one year, or both.

SECTION 34. Evaluation and report. (a) The commissioner shall periodically review and evaluate the motor vehicle insurance program described in this act, including an annual review of the premium rates, benefit payments, and insurers' loss experience.

(b) The commissioner may require insurers to report periodically any loss experience and other statistical information necessary for an evaluation of the insurance program. Any insurer failing to report information in the manner and within the time required by the commissioner shall be subject to the penalty provided in section 431-707.

(c) The commissioner shall prepare and submit to the legislature annually a report containing his evaluation of the insurance program, with respect to both required and optional coverages. The report shall include a summary of abuses and deficiencies in benefit payments, the complaints made to the commissioner and their disposition, and the extent of compliance and noncompliance by each insurer with the provisions of this act and any applicable provision of the Hawaii insurance law.

SECTION 35. Rules and regulations. The commissioner shall promulgate rules and regulations, pursuant to chapter 91, to effectuate the

purposes of this act.

PART VII

**TRANSITIONAL REQUIREMENT;
REPEALER; SEVERABILITY;
APPROPRIATION; EFFECTIVE DATE**

SECTION 36. Transitional requirement. (a) During the period between the approval of this act and December 31, 1973, policies of motor vehicle insurance insuring the insured against liability in tort for bodily injury and property damages arising out of motor vehicle accidents may continue to be issued. Any such policy may be issued for a term expiring beyond December 31, 1973, or for a term expiring on December 31, 1973; provided that:

(1) If a policy of liability insurance is issued for a term expiring beyond December 31, 1973, on January 1, 1974, such policy of insurance shall automatically be converted to a policy complying with the provisions of this act, and the premium for the liability insurance shall be adjusted so that the total premium for the policy of liability insurance and the new policy complying with this act shall not exceed the sum of the following:

(A) The annual premium for the liability insurance policy divided by twelve and the quotient resulting therefrom multiplied by the number of months the liability insurance policy was in effect; and

(B) The annual premium for the new policy complying with this act divided by twelve and the quotient resulting therefrom multiplied by the number of months the new policy will be in effect.

(2) If a policy of liability insurance is issued for a term expiring on December 31, 1973, the premium for such liability insurance shall not exceed a sum equal to the annual premium for the liability insurance divided by twelve and the quotient resulting therefrom multiplied by the number of months the liability insurance will be in effect.

(b) During the period between the approval of this act and January 1, 1974, the commissioner shall do all things necessary, for the full implementation of

the provisions of this act on January 1, 1974, including promulgating rules and regulations, approving manuals of classifications, rules, standards, rates, rating territories, and rating plans, and prescribing forms, all in the manner provided in this act; and the office of consumer protection shall organize and conduct a public information program explaining the provisions of this act.

(c) After approval of this act and before January 1, 1974, insurers authorized to transact the business of vehicle insurance in the State may sell motor vehicle insurance complying with the provisions of this act to be effective January 1, 1974, provided that the commissioner has approved all such matters pertaining to such insurance which require his approval under this act and, for the purpose of securing such approval and effectuating such sale, may take such actions as necessary to formulate plans and determine rates complying with the provisions of this act.

SECTION 37. Laws repealed. The following chapters and sections of the Hawaii Revised Statutes are repealed: chapter 287, chapter 288, section 286-92, section 286-112(c), section 431-448, and section 431-448.1. All other laws relating to motor vehicle insurance which are inconsistent with this act are repealed.

SECTION 38. Severability. If any provisions of this act or the application thereof to any person or circumstance is held unconstitutional, the remainder of this act and the application of such provision to other persons or circumstances shall not be affected thereby, and it shall be conclusively presumed that the legislature would have enacted the remainder of this act without such invalid or unconstitutional provision.

SECTION 39. Appropriation. There is appropriated out of the general revenues of the State the sum of \$45,000, or so much thereof as may be necessary, to the department of regulatory agencies and the sum of \$30,000, or so much thereof as may be necessary, to the office of consumer protection for the purposes of this act.

SECTION 40. Effective date. Sections 36, 38 and 39 shall take effect upon approval, and the remainder of the act

shall take effect on January 1, 1974.”

Representative Uechi moved that the amendment be adopted, seconded by Representative Wong.

Representative Uechi rose to speak in favor of the amendment as follows:

“Mr. Speaker, in explanation of this particular amendment, I would like to say that I have included in this amendment all of the provisions of H.B. No. 101 introduced by the Chairman of the Consumer Protection Committee. This was the Haldi bill that was submitted. Also, you will recall, Mr. Speaker, amendments were made to the Haldi bill; that is, H.B. No. 101 in H.B. No. 574. These amendments were also included in the amendment that I have on the Clerk’s desk.

H.B. No. 574 was also introduced by the Chairman of the Consumer Protection Committee. Also included in this amendment is a section dealing with commercial vehicles and motorcycles. The provision here is that the heavier vehicle will bear at least 70 percent of the cost and the Insurance Commissioner will establish the exact rate. Further, Mr. Speaker, this particular amendment has also included in it, in its entirety, the provisions of H.B. No. 699 introduced by the minority. As such, I would like to give them specific credit for this particular section. Section 4 clarifies that tort liability is retained in cases of action against defective products that was proposed by the minority. It also includes in Section 8, subsection 1c the minority’s limitation of \$7,200 for replacement services as specified in the comparable section that I have introduced.

This particular bill, I believe, is a comprehensive bill on pure no-fault and I am sure, conceptually, this type of no-fault measure is the best for the constituency of the State of Hawaii. I urge all members to vote in favor of this amendment.”

The motion to adopt the amendment was put by the Chair and failed to carry by a roll call vote of 31 noes to 20 ayes, with Representatives Aduja, Ajifu, Aki, Amaral, A. Chong, W. Chong, Cobb, J. Garcia, R. Garcia, Kato, King, Leopold, Lunasco, Medeiros, Oda, Soares, Uechi, Wasai, Wong and Yim voting aye.

At this time, Representative Uechi rose and moved to recommit H.B. No. 637, HD 1, seconded by Representative Wong.

Representative Uechi rose and spoke in favor of the motion stating that the House should obtain firm cost figures before passing this measure.

At 1:32 o'clock p.m., the Chair declared a recess, subject to the call of the Chair.

At 1:40 o'clock p.m., the House of Representatives reconvened.

Representative Suwa then rose and spoke against the motion to recommit H.B. No. 637, HD 1, as follows:

"Mr. Speaker, H.B. No. 637, HD 1, represents the efforts of many hours of deliberations by the chairmen and members of your Joint Committee on Judiciary, Consumer Protection and Finance, which comprises more than one-half of the membership of this body.

H.B. No. 637, HD 1, is based on the Uniform Motor Vehicle Accident Reparation Act drafted by the National Conference of Commissioners on Uniform Laws and approved for enactment in all of the states. That recommendation was made just last year and is supported by the Advisory Council of Attorneys, law professors, insurance executives and other experts."

Representative Suwa further stated that the difference in cost between the tort system and pure no-fault is only \$52. Hence, based on a 15 percent reduction, he estimated that the consumers will save about \$9 million. Representative Suwa also stated that because the bill does not take effect until mid 1974, there will be adequate time for the public and insurance companies to make the necessary adjustments. He then urged the members to vote against the recommitment of H.B. No. 637, HD 1.

Representative O'Connor also rose and spoke against the motion to recommit the bill, as follows:

"Mr. Speaker, I find it incumbent to join the previous speaker in urging that this motion be defeated.

Mr. Speaker, if this bill came lightly before this body—without any thought, without any work, with insufficient amount of input from the various members of the committees to which it had been referred, then I would see some merit in this motion. However, Mr. Speaker, the committees to which this bill had been referred have worked long and arduous hours on the bill—each member having complete and total input to the final product. I might say that some of these ideas expressed today on this floor were not expressed in those committees although there was ample opportunity to make such expression. I might further say, Mr. Speaker, that every single person involved in the committees, some 30 strong of this body, had the ability to comment, debate and urge changes in every vicinity necessary in order to make a strong, healthy piece of legislation for no-fault.

Mr. Speaker, I would urge that the motion before this body be defeated."

At this time, Representative Kato, on a point of information, rose and inquired when the actuarial figures could be expected.

In response, Representative O'Connor stated that they do have some figures. For example, he stated that figures are available from the American Insurance Association which costed out the Uniform Motor Vehicle Reparation Act. The figures indicate that, upon the basic bill, there will be a savings in insurance premiums of from 20 to 23 percent. In addition, if one chose to take the deductible in the bill; e.g., if one chose a \$100 deductible on basic reparations, the savings would go to 25 percent; if one chose a \$300 deductible, it would go to 28 percent; if one chose a \$500 deductible, it would go to a 30 percent savings.

Representative O'Connor concluded that there is enough in the way of figures to indicate that there will be considerable savings by way of insurance premiums. Further, because of the mandate in the bill that the insurance required by the bill be reduced by the Insurance Commissioner in the first year of its operation, there will be time to change any of the benefits or limits to fit the situation in Hawaii.

Representative Kato asked for a specific date that figures can be expected from the Ford Foundation.

Representative O'Connor replied that rough figures are expected sometime within the next week or two; however, it would take longer to obtain firm figures.

At this time, Representative Kato spoke in favor of the motion to recommit the bill stating that the House should await the arrival of firm figures.

Representative Yim then rose on a point of information and inquired how many members of the joint committee had seen the figures in question.

Representative O'Connor rose and replied that the figures were provided to the Consumer Protection Committee during testimony by our State Commissioner on the Uniform Act, Mr. John Chanin. He further stated that the figures were published in the local newspaper.

Representative A. Chong rose and spoke against the recommittal of the bill.

The motion to recommit H.B. No. 637, HD 1, was put by the Chair and failed to carry by a voice vote.

Representative Lunasco rose and spoke against the bill concluding that the consumer will not be guaranteed savings in premium costs.

Representative O'Connor rose and spoke in favor of the bill, as follows:

"Mr. Speaker, there was a cartoon this past year of an automobile which had been driven into a line of about ten automobiles and the driver of the automobile said aloud, 'Thank God for no-fault insurance.' Mr. Speaker, we urge and argue various measures each year on traffic safety. One factor which is largely forgotten in the area of no-fault insurance, which H.B. No. 637, HD 1 addresses itself to, is the retention of some responsibility on the part of our drivers in the State of Hawaii. It is well to urge insurance reform. It is well to urge many of the facets which are included in the no-fault bill which have been discussed today. But, Mr. Speaker, I would bring the members' attention to a remark which was made earlier and that

is, 'We cannot forget the accident itself.' There has to be, in addition to insurance reform and quick payments, some overall inhibition on the part of the drivers in the State of Hawaii to keep them from continuously slaughtering people in our streets. I would suggest to you, Mr. Speaker, that H.B. No. 637, HD 1, in retaining tort liability for the first accidents, injury-wise, which occur in our streets, retain such an inhibition to drivers. I would further urge, Mr. Speaker, that if you did away with this civil liability, there would be very strong feelings among some of our drivers that they could do anything. There is another facet of H.B. No. 637, HD 1, which lends itself to this same idea and that is excluding property damage from no-fault. Drivers will know when they drive upon our streets that if they harm property, they will be personally responsible for the property they harm.

Now, Mr. Speaker, some of the honorable members of this Body journeyed to Massachusetts during the interim and brought back some very interesting information for us. This information goes along the line of taking no-fault a step at a time. We were urged by Massachusetts to first look carefully at bodily injury and adopt no-fault as it regards to bodily injury. Then, after we've learned to walk, Mr. Speaker, we might then look at something like property damage. If property damage is successful and we learn to run a little, then maybe we can look at another step in this insurance—and that is getting closer to what some people in this Honorable Body have called pure no-fault.

Mr. Speaker, in joining some 12 other states that have adopted somewhat similar pieces of legislation, I urge my colleagues to vote of H.B. No. 637, HD 1, as being a good piece of legislation for Hawaii in the no-fault area."

Representative Cobb rose and spoke in favor of the bill, as follows:

"Mr. Speaker, this measure has several loopholes and faults in it. Yet, the people of Hawaii are in dire need of some kind of no-fault protection. I feel that this House has voted down better alternatives of no-fault today; and it has been pointed out that there is no precise cost analysis available on H.B. No. 637. In addition, the proof of insurance requirements

could be both burdensome and potentially a great deal of paperwork.

Secondly, the accident and health section included in this bill would in fact raise the cost for H.M.S.A. or other types of accident health coverage. As a result, the people of Hawaii could end up paying higher rates for their accident health coverage and lower rates for their auto insurance.

Thirdly, I fail to see that motorcycles are fully protected in this bill because a \$1,000 deductible is added on to the provision of 75/25 percent loss ratio. Yet, there are indications that motorcyclists' premiums are still going up.

And, finally, in the area of public hearing and rates, the 15 percent reduction proposed in the bill is both arbitrary and impractical and the public hearings may only be a show, with little substance. Thank you."

Representative Wong rose and spoke against the bill stating that the State spent \$160,000 and almost one whole session discussing the Haldi pure no-fault bill. He stated that the Haldi plan has a proven track record and that consumers could save anywhere from 19 to 26 percent in premiums; that the people of this State have paid, during the ten-year period of 1960-1970, a total of \$321.3 million, of which \$180.7 million went to benefits and 43.8 percent went to profits for insurance companies and concluded that the Haldi plan would have been a better bill to send to the Senate.

Representative Uechi rose and spoke against the bill, as follows:

"Mr. Speaker, in general, this bill provides for a modified tort liability system. While requiring coverage for \$25,000 in first party benefits for economic losses, it retains tort liability in so many situations that the net effect is virtually to preserve the present system. My concern is generally centered in four areas.

First, retention of tort liability. In Section 5 of the bill, it provides for the abolition of tort liability, except for certain situations. But the exceptions, especially in Subsection 7 and 8, swing the door wide open to tort liability. Subsection 7 retains tort liability for

damages for non-economic detriment. For example, pain and suffering, inconvenience, physical injury or impairment and other pecuniary damages recoverable under the tort law of the State. Also, if the accident causes death, significant permanent injury, serious permanent disfigurement, 30 days of hospitalization, more than four months of unemployment, or results in more than \$25,000 in basic benefits, tort is applicable. Also, the proposed limitation that the amount of controversy must exceed \$5,000 is in reality no limitation at all. Anyone bent on pursuing tort recovery could be expected to claim more than \$5,000 and significant permanent injury if his suit did not qualify under the other provisions. It should also be noted that one does not have to read the \$25,000 limit in payment before he can file suit. In Subsection 8, it retains the tort liability for punitive and exemplary damages. Again, anyone bent on filing suit could be expected to claim that gross wrong has been committed. Thus, while the bill claims partial abolition of tort liability in the provisions of Section 7 and 8, it effectively retains the tort liability system. Also, all property damage continues to remain under the tort liability system.

The second area of concern affects insurance rates. The bill, in effect, requires every car owner to carry two forms of insurance—first of all, coverage for first party benefits up to \$25,000 and secondly, liability insurance of not less than \$25,000 for bodily injury and \$10,000 for property damage. It is reasonable to expect that those who carry more realistic amounts of liability insurance; that is, \$100,000 or \$300,000, will continue to do so. This is because the bill does little to reduce the chances of a person being subject to a suit when he is involved in an accident. Thus, for most persons, this means continuing to buy the present additional insurance. Apparently, this bill has not been costed out. At least the committee report makes no reference to actuarial analysis as to what the premium savings or increases are estimated to be. But it has been said of modified tort liability plans, generally, that enactment of such plans will not result in any material savings and may actually increase the rates. This is due, chiefly, to the large component of mandatory first party benefits coupled with the continued resort of action of

recovery of general damages. The requirement of Section 39, Subsection 6 that insurance rates be reduced by 15 percent is illusory and deceptive. Note that the reduction is to be calculated as a percentage of comparable combination insurance in effect on July 1, 1973, or comparable combination insurance in effect at the time that such rates is to be given. In any event, such rates shall be provisional. But at this point there seems to be no basis for determining just what the rates are toward comparable combination insurance. The required \$25,000 in first party coverage is a new form of insurance, and this State has no track record or premium rate experience for such a coverage. Exactly what, then, is to be reduced by 15 percent. What is to prevent the insurer from arriving at a high estimate of comparable combination insurance and reducing that by 15 percent.

The third area of concern is the adequacy of coverage. The bill provides for a maximum limit of \$25,000 in first party benefits. While this would appear to take care of most of the accident victims, it still leaves the more seriously injured victim at the mercy of the present tort liability system to recover for large losses. Moreover, it is entirely possible that the seriously injured victim would himself be subject to suit. The provision for only \$25,000 in bodily injury liability insurance would also make the system operate perversely in serious injury cases. Providing someone else is found at fault, the seriously injured innocent victim only stands to get an additional amount of \$25,000 with a likelihood that a substantial portion of that award will go to his attorney.

The fourth and final area of concern is in the area of rate making. The bill continues to rely on existing laws on rate filings and rate administration. This will continue to permit rates to be based on pool experience on a firm's individual experience even though the competitive enterprise system does not function in the consumers' best interest under the widespread pooling of experience of rate fixing which now exists. There is no prescription against such rate making criteria as age, sex, or marital status. The likely result is that the insurance rate will continue to fall heavily on young drivers. There is nothing in this bill to focus rate making on controllable variables rather

than on arbitrary factors of which a person has no control. For these reasons, Mr. Speaker, I urge that members of this house vote down this bill."

Representative Roehrig then rose and spoke in favor of the bill stating that in the rate making area, the Haldi measure did not provide for the Insurance Commissioner to set the rates but that the insurance companies themselves would make rate proposals, each one individually, and they would present them to the Commissioner. He further stated that what this State wants and what the consumers have been clamoring for is a system of uniform rates to be set by the Commissioner.

Representative Roehrig further stated:

"The bill before us has addressed itself to this particular problem. As far as the pooling aspect, that may have been a problem in the past but I think that page 52 addresses itself to that particular problem. I would suggest, Mr. Speaker, that the provision in the Haldi measure relating to the individual or insurers individually providing for rate schedules would be both time consuming and almost prohibitive from a cost standpoint for the Insurance Commissioner's office to police because it would necessitate one of the 20 some odd insurance companies in this State that are going to provide this type of insurance coverage. The way we have provided in the bill that the Insurance Commissioner shall set the rate, this shall be done on a presumably uniform statewide or county-wide basis and they will be set on a uniform basis rather than on an individual basis.

I would urge all members to vote in favor of this measure."

Representative Wong rose on a point of personal privilege and suggested that the Insurance Commissioner take a look at Haldi, page 32: "About half of all motorists which the industry insures, but considers to be high risks are not known to have any record of accidents or traffic violations." Representative Wong further stated that it has been over one year and he is yet to see the Insurance Commissioner do something about the assigned risk program which he had referred to. He also stated that he is transmitting a letter to the Insurance Commissioner to ask him to look into the

area of assigned risks.

Representative A. Chong rose and spoke in favor of the bill, as follows:

“With regard to one of the points made by the other speaker where it was suggested that insurance companies will continue to make excess profits, I would like to call attention to page 53 of the bill, Section 39, item 7, where it is stated in one very simple sentence: ‘The Commissioner shall order insurers to rebate to policyholders any excessive profit realized by insurers from their operation.’”

The motion to pass H.B. No. 637 on Third Reading was put by the Chair and H.B. No. 637 passed Third Reading by a vote of 39 ayes to 12 noes, with Representatives Ajifu, Aki, J. Garcia, R. Garcia, Kato, Lunasco, Oda, Soares,

Uechi, Wasai, Wong and Yim voting no.

The Chair here directed the Clerk to note that H.B. Nos. 1381, 1382, 41, 61, 216, 954, 1141, 11 and 637 had passed Third Reading not earlier than 12:05 o'clock p.m.

Third Reading of H.B. No. 22.

On motion by Representative O'Connor, seconded by Representative Kimura and carried, H.B. No. 22 was recommitted to the Committee on Judiciary.

At 2:28 o'clock p.m., on motion by Representative Ushijima, seconded by Representative J. Garcia and carried, the House of Representatives adjourned until 11:00 o'clock a.m. tomorrow, April 20, 1973.
