At this time, Representative Yuen rose on a point of personal privilege and stated:

"Yesterday I was verbally criticized because I did not instruct the presenter of the lei to our lovely queen that he should not kiss the queen because of a rule that has existed for about six years. Well, this morning, Mr. Speaker, I noticed that in the newspaper, Honolulu Advertiser, there was an article about one Representative Blair. And, if I may, Mr. Speaker, I would like to read parts of it: 'Handsome young Representative Blair was all set to present the lei and a kiss to Narcissus Queen, Peggy Ann Mei Hoong Sen, when she visited the House yesterday. But the Queen's chaperone promptly blocked Blair's way and informed him that kissing the Queen wouldn't be proper. Young Blair backed off kissless as John Carroll made his statement.' But today I am very happy to say, because of this article, Russell Blair is very happy. Thank you very much."

The Chair then stated:

"He has been redeemed."

Representative Carroll then rose on a point of personal privilege and stated:

"My name was also mentioned in that article and there was a misstatement in there. The comment that I made to Representative Blair was, which I am quite sure he will confirm, that since he was not a member of the contest, the rules could not have applied to him. Thank you, Mr. Speaker."

The Chair then made the following announcement:

"Henceforth the Chair will be very strict about rising on personal privileges regarding comments made in the press or media."

SUSPENSION OF RULES

On motion by Representative Kimura, seconded by Representative Soares and carried, the rules were suspended for the purpose of taking up bills on Third Reading on the basis of a modified consent calendar.

THIRD READING

The following bills, which were

on the calendar for Third Reading, were read throughout and the following actions taken:

H.B. No. 121

Representative Roehrig moved that H.B. No. 121, having been read throughout, pass Third Reading, seconded by Representative Uechi.

Representative Roehrig then rose and stated:

"Mr. Speaker, this bill relates to procedures for prejudgment garnishment and it is intended to conform our garnishment law with federal Supreme Court decisions dealing with subject matter. We had considerable discussion on this in the caucus and I think that I would like the Journal to indicate that some of the members have reservations about the Court's practice of, in effect, legislating certain Court practices where laws are found to be unconstitutional. This practice was undertaken in the area of prejudgment garnishment and we would like this concern to be noted for the Journal on the passage of this measure.

Thank you."

The motion was put by the Chair and H.B. No. 121 passed Third Reading by a vote of 50 ayes, with Representative Kamalii being excused.

H.B. No. 944

Representative Roehrig moved that H.B. No. 944, having been read throughout, pass Third Reading, seconded by Representative Uechi.

Representative Roehrig then rose and stated:

"Mr. Speaker, just to speak briefly on this matter. It was brought to my attention that in the body of the bill, on line 6, the word 'may' is used. It was suggested that perhaps that word could be 'will' or 'shall' and this matter has been discussed with Representative Faith Evans who brought that to my attention, and with the House Majority Attorney and House Minority Attorney, and I would like the Journal to reflect that it is the Committee's intent, as shown in the second paragraph on page 1 of the Committee report and in the totality of the language of the bill, it is the intent of your Committee that the only three combinations relating to the use of married names are allowed and not any possible anagrams or use of names different from the two surnames of the married couples.

Thank you, Mr. Speaker."

Representative Stanley then rose and stated:

"Mr. Speaker, I rise to speak in favor of H.B. No. 944, H.D. l, and urge that this honorable body pass it on Third Reading.

The purpose of this bill is to give married persons the right to determine the surname they are to assume after their marriage. The bill allows them to retain their surname, adopt the surname of their spouse, or to hyphenate both surnames. Hawaii has the singular distinction of being the only State with a statute which requires married women to adopt the surname of their husband. This practice is not followed by any other state. The federal government acknowledges the right of spouses to retain the surname for administrative purposes, to receive passports, and the filing of income taxes. The present statute is historical accident, being carried over from the law passed by Kamehameha IV in $18\overline{6}0$. In a recent court decision, the present law was declared unconstitutional by a circuit court judge as a violation on the equal protection clause. By the passage of this bill, we are recognizing that married persons should make the decision as to whether or not they wish to have identical surnames. That is where the decision should be made. It is not within the province of the State to be involved in this decision.

Mr. Speaker, by passing this bill, we are recognizing the equality of both parties to a marriage. I, therefore, urge that this honorable body pass House Bill 944, House Draft 1, on Third Reading."

The motion was put by the Chair and H.B. No. 944 passed Third Reading by a roll call vote of 42 ayes to 8 noes, with Representatives Amaral, Ho, Kawakami, Kiyabu, Kondo, Lunasco, Sutton and Yuen voting no, and Representative Kamalii being excused.

H.B. No. 425

On motion by Representative Yamada, seconded by Representative Yap, H.B. No. 425 passed Third Reading by a vote of 50 ayes, with Representative Kamalii being excused.

H.B. No. 424

On motion by Representative Yamada, seconded by Representative Yap, H.B. No. 424 passed Third Reading by a vote of 50 ayes, with Representative Kamalii being excused.

H.B. No. 1209

Representative Yamada moved that H.B. No. 1209, having been read throughout, pass Third Reading, seconded by Representative Yap.

Representative Carroll then offered the following amendment to H.B. No. 1209:

"SECTION 1. House Bill 1209 is amended by adding a new subsection to be appropriately designated and to read:

'(b) If the assets of any defendant of any civil action referred to in subsection (a) shall be insufficient to satisfy any liability imposed in such action together with court costs and any outstanding liens in favor of the government, said liabilities shall rank in the order of payment as follows:

(1) court costs, including costs of discovery;

(2) civil penalties;

(3) liens in favor of the government, and

(4) restitution.'"

Representative Carroll moved that the amendment be adopted, seconded by Representative Evans.

Representative Carroll then explained the amendment as follows:

"Mr. Speaker, this amendment simply sets an order of priorities in the event that an action is brought by the Consumer Protector on behalf of the citizens of this State.

The priority insists that where there is not enough money because of the insolvency of the defendant, that first the court costs, including the cost of discovery, shall be paid back to the State. Secondly, that in the event the court finds that the civil penalty is in order, that civil penalty will be next in order of recovery. Third, any liens in favor of the government such as tax liens, will also be recovered. And finally, the restitution which may be ordered by the court in its discretion will be paid. That is ordered by the court.

The purpose of this amendment, Mr. Speaker, is to ensure that the taxpayers of this State retrieve some of their hard-earned dollars which are being used for this type of a purpose.

I urge that everyone vote in favor of this amendment. Thank you."

Representative Yamada then rose and stated:

"Mr. Speaker, I rise to speak against the amendment.

First of all, Mr. Speaker, I think this amendment invades the discretion of the court as to ranking of payments. Item 3 of the ranking--when the author of the amendment talks about liens in favor of the government--I am not quite sure what liens he is talking about as presently there are many types of liens; whether it be tax liens or judgment liens, and the law as we have now does have a ranking of liens. Also, I am not sure of what government he is talking about--whether it is the State of Hawaii or any other government outside of the State of Hawaii.

For those reasons, because it invades the discretion of the court, and also because of the vagueness of some of the language in the amendment, I ask this body to vote down the amendment."

Representative Kimura then stated:

"Mr. Speaker, I rise to speak against this amendment also.

This bill seeks to determine the order of liability in terms of the defendants or the debtor's personal assets. I think we run afoul patently, in this instance, against the Federal Bankruptcy Law. That Law specifies the order of priority in terms of the payment or from the assets that are availing to the defendant in an action and for that reason also, I believe this amendment is deficient."

Representative Carroll, in answer to the two previous speakers, stated:

"Mr. Speaker, as far as the liens are concerned, there is an order of priority of liens already set forth. But in this case, the government for which I speak is the government of the State of Hawaii, and the only one that I feel authorized to speak for at this time. I think that is rather clear from where we are standing here today and as far as the priorities are concerned, it is to ensure that the costs which are being expended, rather, the costs which are being gotten back by the court, are given back to the people first rather than being disbursed to the claimants who are, in effect, getting a windfall because of this particular arrangement.

As far as the Federal Bankruptcy Laws are concerned, the Federal Bankruptcy Law will not come into effect until there has been a petition and bankruptcy filed so I think that argument is quite specious and I would once again urge everyone to vote for this amendment. Thank you."

Representative Kunimura then inquired whether or not Representative Carroll would yield to a question to which Representative Carroll replied in the affirmative.

Representative Kunimura then questioned:

"Mr. Speaker, I would like to request if attorneys' fees are included in the court cost, including cost of discovery--attorneys' fees included?"

Representative Carroll replied:

"As far as I understand it, attorneys' fees are probably within the discretion of the court to order but, in this case, the only attorneys' fees for the State would be the attorney for the defendant and I suppose it is quite possible that he might order attorney's fee for him which, and I might suggest that this type of a measure could be a windfall for the attorney because of the type of legislation it could generate-not legislation, but judicial action, and the Consumer Protector is already paid on a salary so there certainly would not be any attorney's fee for him in addition to what we have already paid."

Representative Kunimura continued:

"Mr. Speaker, it was against my better judgment to ask an attorney for an opinion because I am more confused now. Very simple question-does the attorney get his cut before the restitution?"

Representative Carroll then replied:

"Mr. Speaker, in the case of restitution, the attorney that is in court before the judge is the Consumer Protector. There is no private counsel involved in this matter other than the attorney. . .hopefully, an attorney for the defendant."

Representative Kunimura then stated:

"My query, Mr. Speaker, is the attorney for the defendant."

Representative Carroll concluded:

"The attorney for the defendant had better have protected himself in this kind of a case or he would go begging, as they say."

DEFERRED MATTER FROM EARLIER ON THE CALENDAR

H.B. No. 85, HD 1:

Representative Kawakami moved that action on H.B. No. 85, HD 1, be deferred until Thursday, March 6, 1975, and the Chair, noting that there were no objections, so ordered.

At this time, Representative Soares rose on a point of personal privilege and stated:

"I would like to make the committee chairmen aware that we have instructed our members, Mr. Speaker, not to sign committee reports on the floor of the House when you are given a bunch from various committees. It is not responsible, and I think it puts a little pressure on the members. I would appreciate that the chairmen would give us the opportunity to sign them in committee or in their offices rather than on the floor of the House. That's number one.

Number two. We have also told our members that unless the bill is attached to the committee report, that they will not sign. I think that this is only fair - that the responsibility is ours as well as the chairmen to make sure that we have both the report as well as the bill attached. And, if there is any problem with time, we can try to adjust that accordingly, Mr. Speaker."

Representative Kunimura rose on a point of personal privilege and stated:

"Mr. Speaker, just today I found out that this House still has dual membership - one first class member of this House and the other second class member. Now, Mr. Speaker, we talked about openness, we talked about sunshine, we talked about 51 equal members in this House, and then today in caucus, I find out that the status table is provided for certain chairmen of this House. Are we second class, Mr. Speaker? Do we have to call up, waste valuable time? We talk about savings, and for the sake of savings I am ready to turn the lights off in this chamber then 51 of us will work in the dark. But I refuse to work with some with light and some without light. And, I would like to have this inequity corrected immediately."

Representative Garcia rose on a point of personal privilege and stated:

"Mr. Speaker, I would like to respond to Representative Kunimura's statements because I believe there is some merit in them, but there are reasons why we have approached this problem by having computer sheets available to certain key members in both the House and the Senate. In no way was it meant to separate first class and second class legislators in terms of having this information available to them. But we have had severe financial constraints because of the imposition of two things. The first one, the Fair Labor Standards Act which provides that no member who works for the Legislature can work for more than 8 hours unless there is compensation in terms of overtime. Because this is one of the pressing reasons and one of the more costly reasons why we had to avoid this particular

problem from previous sessions, we did go from a weekly computer printout to a daily computer printout available to leadership of both houses.

It is not only because of the cost, Mr. Speaker, but primarily also the efficiency by which we get the information now. If you remember, before, in our previous years, this printout was available only on a weekly basis the information that you received could be from anywhere one to five days late. Under the new system developed with the Committee on Legislative Management, this up-date is available as of 2 o'clock that morning. In other words, the information that we receive on the computer printout is the most up-to-date that you can get that particular day. Because of these reasons, the House and the Senate both chose to go to the route of a computer printout rather than going the route of printing a weekly status and index.

We've also mailed out several memorandums regarding this to the committee chairmen and individual representatives that if they should have any questions regarding status of bills in committee or introduced by the respective representatives, they could check with any of their leadership, the Office of Legislative Information, Legislative Reference Bureau, or the Majority Research or Majority Attorney's Office. This information is available to every representative and every member of the public. Because of the reason of cost, because it increases efficiency, that's the route we chose to go.

Thank you."

Representative Peters rose on a point of personal privilege and stated:

"I too would like to add my voice as a spin-off on Representative Kunimura's remarks. I concur with him wholeheartedly. We as members of this House were called upon to make major decisions that will have state-wide impact - it can be meaningful or it can be adverse - but it will be contingent upon us receiving information on an on-going basis; information that must be accurate, information that must be timely. If there is a lack of resources, I consider that no excuse. If there is a lack, and perhaps beefing up the capability by way of crystallizing this process so that we need and can receive this kind of information, then I suspect that somebody has to do their homework, and I beseech this body to generate that kind of pressure that is necessary for us to do our homework.

Thank you, sir."

Representative Akizaki rose and stated:

"To close this debate, I, as Chairman of Legislative Management, take full responsibility of what has happened. Thank you."

Representative Kunimura rose and stated:

"Yes, some information gotta be corrected. We had computer printout for the leadership of the House when we were printing the status weekly. So it is not that daily printout is new, it's an old stuff. But I would like to say one thing, if we are going to work in the dark, then let's all work in the dark, but if some of us are going to work in the light, then let us all work in the light."

The Chair then stated:

"I believe there is enough discussion on the matter."

THIRD READING

H.B. No. 327

Representative Roehrig moved that H.B. No. 327, HD 1, having been read throughout pass Third Reading, seconded by Representative Uechi.

Representative Roehrig then stated:

"Mr. Speaker, H.B. 327, HD 1, is our campaign spending reform bill for this year. This bill is to update our efforts of the 1973 legislative session. Last year, we had made a similar effort; however, in the closing days of the session, this measure was not adopted. This 46-page bill was worked over by the members of this House for over 30 hours for the decision making and it represents the collective efforts of many people in this body and outside. It does many things-the principal provisions relating to the Campaign Commission procedure have been made more equitable. It provides that any kind of hearing before the Campaign Spending Commission, based on complaints about violations of this part, will be confidential in nature. The due process shall be provided to anybody complained of. Then, in the event a decision is made that a violation has taken place but that it is unintentional, that a confidential direction and order will be made to the person complained of to correct any discrepancy. If it is determined that it is a willful

and intentional violation of the section, the Campaign Spending Commission has the discretion to seek prosecution if it so deems necessary

The bill goes on to correct a number of particular provisions which members of this body and the public will have concerns about in the implementation of this law. They are too numerous to mention but just to mention a few, it clarifies when a candidate becomes a candidate based on the contributions made to him or the expenditures which he makes. It clarifies what campaign advertising is and what it is not. It removes the media limitation on the overall spending limit. It provides an overall spending limit but the media limitation is no longer imposed. It clarifies who is a paid campaign worker and who is a volunteer.

Mr. Speaker, this represents the collective efforts of this body and I urge all members to vote in favor of its passage.

Thank you."

Representative Sutton then rose and stated:

"Mr. Speaker, I rise to speak on House Bill No. 327, House Draft 1.

I favor the bill, Mr. Speaker, but I should like to point out that we are the only State in the entire union that has but thirty days between the Primary Election and the General Election. This means, Mr. Speaker, that a candidate running for office must file four very complicated reports within a 45-day period. It also means, Mr. Speaker, that a statewide candidate running as he is in the archipelago state with six islands to cover, has to cover these six islands and, at the same time, he has to file his very complicated report within this very limited period.

Mr. Speaker, I would ask that if this body passes this particular bill on campaign spending that they address their attentions subsequently to the very difficult problem of having a Primary Election but thirty days before the General. Thank you very much, sir."

The motion was put by the Chair

and H.B. No. 327 passed Third Reading by a vote of 47 ayes, with Representatives Ikeda, Kamalii, Yap and Yuen being excused.

H.B. No. 158

On motion by Representative Lee, seconded by Representative Takamine, H.B. No. 158 passed Third Reading by a vote of 47 ayes, with Representatives Ikeda, Kamalii, Yap and Yuen being excused.

H.B. No. 950

On motion by Representative Lee, seconded by Representative Takamine, H.B. No. 950 passed Third Reading by a vote of 47 ayes, with Representatives Ikeda, Kamalii, Yap and Yuen being excused.

H.B. No. 116

On motion by Representative Roehrig, seconded by Representative Uechi, H.B. No. 116 passed Third Reading by a vote of 47 ayes, with Representatives Ikeda, Kamalii, Yap and Yuen being excused.

H.B. No. 420

Representative Segawa moved that H.B. No. 420, having been read throughout, pass Third Reading, seconded by Representative Lee.

Representative Lunasco then rose and stated:

"Mr. Speaker, I rise to speak against this bill.

Mr. Speaker, last year, when we passed the Prepaid Health Plan, we knew that it would put some burden on the small businesses and, at that time, we made it optional on the businesses to provide prepaid health, and now we are coming back and there are some questions in my mind that it will affect the small businesses in bookkeeping. We are saying that the employees have the right to choose the type of prepaid health they would like to have. I know the bigger businesses can absorb the cost, but I am afraid that the small businesses will be hurt a lot more than the big businesses. I am voting against this bill."

The motion was put by the Chair and H.B. No. 420 passed Third Reading by a vote of 42 ayes to 5 noes, with Representatives Blair, Carroll, Larsen, Lunasco and Sutton voting no, and Representatives Ikeda, Kamalii, Yap and Yuen being excused.

H.B. No. 606

At 2:14 o'clock p.m., on request by Representative Kimura, the Chair declared a recess, subject to the call of the Chair.

The House of Representatives reconvened at 2:49 o'clock p.m.

Representative Cobb then rose and stated:

"Mr. Speaker, I rise to speak against the bill.

Mr. Speaker, this bill could introduce what potentially could be a modern-day Tammany system of political payoffs in Hawaii by authorizing employees to serve on boards and commissions as a reward for campaign activities. I personally agree with the idea that Governor appointees have a great deal to contribute to boards and commissions, but I think we should insure that such contributions are based on job performance and not political performance.

In voting against the bill, I do so on the basis of potential political abuse plus the danger of sabotage in State and County disputes of conflicting policy. In addition to the incredible amount of infighting that goes on today in the many State boards and commissions on the State levels, I think we should consider the analogy of Pandora's box and the potential if we open it again. Thank you."

Representative Abercrombie then rose and stated:

"Mr. Speaker, I am in favor of this bill. For too long, serving the public by virtue of working for government has meant restrictions as far as I am concerned, and one's civil rights and one's capacities contribute in another way one's community. No one seems very worried at all when one great big corporation puts its head at the head of a commission which makes judgment on the activities of other big corporations. That seems to be alright. But the second public employee, a public servant, comes up--all of a sudden there is a conflict of interest. All of a sudden people think that suddenly, somehow at that point, that citizen who is making his contribution through public service in government is no longer capable of rendering that same kind of public service in another area. I would maintain that those of us who are in public service, who have been in the past, and hope to be in the future with government-we are judged, we have standards we have to meet. Those of us who have met those standards, I think, as citizens can meet the same kind of standards so I vote 'yes' on this bill."

"This morning, we are privileged to have Mr. Calvert Brand who is a former member of the Indiana Legislature with us and who is visiting our great State, and he is here to convey his aloha from the Hoosier State of Indiana."

The Chair then appointed Representatives Garcia, Kimura, Ushijima, Soares and Poepoe to escort Mr. Brand to the rostrum whereupon he addressed the members of the House as follows:

"Mr. Speaker, members of this very lovely House group:

I say this with all sincerity--Hawaii is our 50th, our youngest State, and as the youngest should be the most beautiful and that certainly is true, not only of your State, but of your just wonderful facilities here for the general assembly. I said earlier that I wished I could rub Aladdin's lamp and take this back home. I would run again for the House there if I had facilities like this in my home state.

Well, the reason for my having this wonderful privilege this morning is that it is an honor for me to represent Richard Lugar, the Mayor of Indianapolis, our capital city of Indiana. I find that the thing you always think of when I mention Indiana is basketball. Somebody offered to trade me these House chambers for the Indiana University's basketball team over there. But, it is my honor, my privilege, Mr. Speaker, to bring to you very brief greetings and a key to the city of Indianapolis which we hope will be a slight additional enticement to you to visit the states and particularly Indiana and let us show you some Hoosier hospitality such as we are receiving here in the wonderful State of Hawaii.

Thank you so much, and I also have the privilege of presenting one of these keys to...I find that I am in the minority in this House, but it is my privilege to present the key to the city of Indianapolis, again representing Mayor Lugar, to your fine Minority Leader, Mr. Poepoe."

The keys to the city of Indianapolis were than presented to the Speaker and to Representative Poepoe.

Mr. Brand continued:

"I want to express my appreciation to all of you. If you get to Indiana---I have left a couple of cards around here and I am not that hard to find--I would love to have an opportunity to show all of you around Indiana. Thank you so much."

The Chair replied:

"On behalf of the members of this House, I certainly appreciate the fine gesture of presenting the key to the city of Indianapolis. I wish, Mr. Brand, when you get back to your great city that you would convey all of our good wishes and aloha to your good Mayor. Thank you very much."

At 11:56 o'clock a.m., the Chair declared a recess, subject to the call of the Chair.

The House of Representatives reconvened at 1:35 o'clock p.m.

SUSPENSION OF RULES

On motion by Representative Kimura, seconded by Representative Soares and carried, the rules were suspended for the purpose of taking up bills on Third Reading on the basis of a modified consent calendar.

THIRD READING

The following bills, which were on the calendar for Third Reading, were read throughout and the following actions taken:

H.B. No. 115

On motion by Representative Roehrig, seconded by Representative Uechi and carried, H.B. No. 115, HD 1, was recommitted to the Committee on Judiciary.

H.B. No. 677

Representative Kawakami moved that H.B. No. 677, having been read throughout, pass Third Reading, seconded by Representative Ho.

Representative Kawakami then stated:

"Mr. Speaker, I rise to speak in favor of House Bill 677, House Draft 1.

The purpose of this bill is to establish a comprehensive State planning policy for our State which we all recognize has been long overdue. It is the outgrowth of our longstanding concern in the Legislature for an overall growth plan, and particularly highlighted this session by our discussions on the specific issue of the role of the State Land Use Commission. One of the limitations which the Land Use Commission has worked under has been the lack of statewide guidelines and parameters by which to render land use decisions. It is, therefore, part of a package of two bills, the other being House Bill 1870, House Draft 1, which requires the State Land Use Commission to render its decisions in accordance with the policies and criteria developed under this bill.

The bill provides that the State

Department of Planning and Economic Development be responsible for the planning coordination and the preparation of a State planning policy. The development of this State planning policy is to include the participation and assistance of each county through its policies, general plans and public hearings.

The bill further requires that the formulation of this State planning policy incorporate social, economic, and environmental factors. The Department of Planning and Economic Development is also required to conduct studies, evaluations, and monitor conflicts in the implementation of these planning policies as well as advise the legislative and administrative branches of government.

Mr. Speaker, this State planning policy bill has to be one of the major pieces of legislation we are acting on this session. Its product will serve as a future guide for County and State agencies in their land use planning. Because we all recognize that there is a need for a State growth policy and for coordinated planning in the determination of what our State is going to look like, I urge the members of this honorable body to vote favorably on House Bill 677, as amended."

Representative Clarke then stated:

"Mr. Speaker, I rise in support of one of the most far-reaching bills ever to be presented to this body for passage--House Bill 677, House Draft 1.

Since 1957, a variety of 'master plans' have been conceived at the State and County levels. These plans have been concerned primarily, and almost exclusively, with land use. Lately, it has become evident that Hawaii must be concerned with a planning process that also addresses itself to broad social objectives, of which land use would be but one element.

In our Republican legislative program for 1975, we pointed out that the absence of such a comprehensive, long-range program has deprived both the County and State officials of a vital and functional tool, even within the specific area of land utilization. Frequently, State departments have been working at cross purposes. County-State conflicts over land use designations have been commonplace. County general plans have objectives and an existence entirely separate from the decisions of the Land Use Commission.

We have maintained that what is needed--and what has been needed for a long time--is a truly comprehensive, long-range policy planning program; one which will not only set State social objectives, but which will also coordinate intra-state departmental programs and integrate County and State general plans into one cohesive whole. Because of the importance of this broad-gauged program, the Republicans, in the interests of the State, worked closely with the Democratic members of the House to develop this landmark legislation. We feel that House Bill 677, House Draft 1, along with its companion bill, House Bill 1870, House Draft 1, will provide the State the direction and goals that have been so sorely lacking.

The concepts of House Bill 677, House Draft 1, were supported by the county planning directors and private planners because this legislation fills the long-needed gap in our State's planning process. It may proceed on a more orderly, predictable and rational basis.

Mr. Speaker, the Republicans of this House are pleased to have taken the initiative that led to the creation of House Bill 677, House Draft 1. We commend you, your Committee Chairman, and the members of the majority in producing the open and integrated decision-making process promised on the opening day of this session. I ask all members of this body to vote aye on House Bill 677, House Draft 1.

Thank you, Mr. Speaker."

Representative Stanley then rose and spoke against the passage of House Bill 677, House Draft 1, as follows:

"Mr. Speaker, the proposed bill has a commendable intent--the creation of a State General Plan. The hope of the bill's supporters is that the development of a plan will establish policies that will make orderly growth and development possible. Thus, in the years ahead, the Land Use Commission will be able to make wise decisions in accordance with the General Plan. However, I suggest that the practice will continue in the same manner as it is today. The Land Use Commission will be making decisions which people will view as being good or bad, consistent or inconsistent with the General Plan, just as it is today. Good planning is a process, not subject to precise codification. A General Plan will not insure that the result will be what we want.

Our role as the Legislature should be to design the planning process, and as part of the process, provide for legislative review of the planning and land use decisions affecting our future. Therefore, I believe that House Bill 677, House Draft 1, will not accomplish our desired hope for good planning or good land use decision; it offers only false hope. We need, instead, a process that provides for planning, citizen participation, and legislative review.

I urge my honorable colleagues to vote against this measure."

Representative Abercrombie then rose and stated:

"Mr. Speaker, I rise to support House Bill 677 as one of those on the Water, Land Use, Development, and Hawaiian Homes Committee, who contributed, I hope, to what Representative Clarke mentioned as the open decision-making in this area.

There were several bills that were put forth on comprehensive policy planning; we have gone into it thoroughly and this bill is the result. It's a cooperative endeavor and it is based on what we hope are the needs and aspirations of people throughout the State. The State lacks policy direction statewide and in the absence of a comprehensive policy plan and direction, unlike the appointees removed from the electoral sanction, makes policy in the void of leadership. Mr. Tangen, of the Land Use Commission, himself has stated many times that minus policy direction, the Land Use Commission must act on what amounts to an ad hoc, piecemeal basis. He prefers a judicial review which is embodied in House Bill 1870 which I shall oppose when it comes up as I believe this is available in any event. But while bemoaning the

lack of a plan, the Land Use Commission, in effect, makes it as it goes along. Naturally, it would prefer to do so as there is no legislative sanction. The Land Use Commission can make rules as it goes along and does this as it pleases because we have no State comprehensive plan.

House Bill 677 will give us the opportunity in January of 1976 to present to the people of the State such a plan. It will give us the opportunity, and I am addressing my remarks now to the very pertinent points made by Representative Stanley-it will give us the opportunity at that time to correct the deficiencies which she sees may occur if we do not pay proper attention to the capacity which are ours in the passage of this bill. I, for one, am going to remain vigilant in respect of Representative Stanley's fears so that when this bill comes to us in the form of a plan, that we, in the Legislature, will meet our responsibilities, come out with policy direction that will move the State forward in a way that will fill a void of leadership that I have mentioned.

In conclusion, Mr. Speaker, I would hope that we take this opportunity which, to my mind, is one of those instances that occasionally happens in a history of a state, perhaps of a nation, in which people are allowed the opportunity, historically, to make a decision that will affect every one of their lives and the lives of their children and their children to come, and that opportunity is before us now. I recall, when I ran for office this time, saying to people who were thinking of whether or not they might vote for me that I was running for the thirteen year old vote and the reason for that was that by the time the thirteen year olds were eighteen years old and eligible to participate in the electoral process, that most of the decisions--the basic fundamental land decisions, water decisions, environmental decisions--the basic decisions that would affect their lives for the rest of their lives would already have been made by this Legislature, the Eighth Legislative Session, and the one to come. That's the heavy weight of responsibility that is upon us now and it is also our great opportunity. I believe we are at a juncture in the State in which our decisions will have that kind of effect and are that important and that is why I support this bill. And, I welcome the fact that it is

a non-partisan opportunity, a non-partisan approach, so that we can show to the people of the whole State that we are united in this effort and that everyone--Republicans, Democrats, or whatever their political persuasion--recognizes the importance of it, so I ask the concurrence of this body on House Bill 677, House Draft 1.

Thank you, Mr. Speaker."

Representative Soares then stated:

"Mr. Speaker, it is with great pleasure that I rise to speak in favor of House Bill 677, House Draft 1.

Mr. Speaker, this is a momentous occasion that has been many years in the making. For over three years, your minority members have been assisting this body in developing the criteria for a comprehensive set of statewide policies. Citizen task forces were formed, programs were developed, and lively Committee discussions ensued. In 1974, I introduced House Bill 2448 which received tremendous support by professional planners throughout the State. This year, the Republican caucus introduced House Bill 237 which again was thoroughly discussed and widely supported. The State is the beneficiary of this interplay of the democratic process in the form of House Bill 677, House Draft 1.

Members of the House, with the passage of this Act, we will have taken a giant step towards predictable State goals and, at the same time, re-enforce the faith that the democratic process brings out the best in Americans.

Mr. Speaker, I am proud to cast my vote in favor of the future of the State of Hawaii as embodied in House Bill 677, House Draft 1, and in the spirit of cooperation from which it emerged."

Representative Kawakami, on a point of clarification, stated:

"Mr. Speaker, House Bill 677 is a majority measure."

Representative Soares then inquired whether or not the Chairman of the Water, Land Use, Development, and Hawaiian Homes Committee would yield to a question to which Representative Kawakami replied in the affirmative.

Representative Soares then inquired whether or not House Bill 677 has within it House Bill 237.

Representative Kawakami replied:

"Mr. Speaker, not in its entirety. I think the legislative process is a process of getting maximum input and I feel that as far as the minority members in the Committee were concerned, they have contributed to the final development of this bill."

Representative Soares then stated:

"I would like to rise and commend the Chairman of the Committee for the spirit of cooperation with which this bill has emerged."

Representative Kunimura then stated:

"Mr. Speaker, I rise in favor of this particular measure.

I would like to state that beautiful words and phrases uttered here today do not give us the whole aku. Yesterday, we had the whole aku. Yesterday's bill, House Bill 85, with this bill, would have been a perfect land use procedure for this State. But I still cannot understand why we sent half of the aku back into the ocean and I hope not ending up with the tail of the aku. I would like to serve notice here today that the fight is not over. Next year, we will try to revive 85. Thank you."

Representative Kawakami responded:

"I think we have the sashimi with us."

The motion to pass H.B. No. 677 on Third Reading was put by the Chair and H.B. No. 677 passed Third Reading by a vote of 45 ayes to 2 noes, with Representatives Naito and Stanley voting no, and Representatives Kamalii, Lee, Lunasco and Shito being excused.

H.B. No. 1870

Representative Kawakami moved that H.B. No. 1870, having been read throughout, pass Third Reading, seconded by Representative Ho.

Representative Larsen then rose

and stated:

"Mr. Speaker, I rise to speak in support of House Bill 1870, House Draft 1.

This bill and its companion House Bill 677, House Draft 1, not only re-establish the proper balance between the legislative and executive functions of our government, but also insure that this honorable body will not assume the additional administrative burden of considering many land use and special permit applications. With the past abdication of the Legislature, the Land Use Commission has operated under an untenable delegation of legislative power. Currently, the Commission interprets and implements land use policy because of the legislative vacuum in this area. Passage of these two bills will re-establish a proper balance between the Legislature and the Land Use Commission. The bills require the Legislature to reassert its function as a policy making body. Without definitive policy guidelines, the system was inadequate. Without the procedural refinements, which House Bill 1870, House Draft 1 provides, the system operated in fits and starts. It never measured up to the expectations of the people of Hawaii.

As an integrated package, these two bills represent the combined efforts of the Democrats and the Republicans in this State House, as well as many hours of hard work by the new State Administration. I, for one, am honored to have been fortunate enough to participate in the development of this landmark legislation and I urge the members of this body to vote in its favor.

Thank you, Mr. Speaker."

Representative Kawakami then stated:

"Mr. Speaker, I rise to speak in favor of this bill.

We, in the House, have had extensive discussions on the specific issue of the State Land Use Commission. We have felt compelled to respond to recent public reaction to certain actions taken by the Land Use Commission in its required five year boundary review. We have exchanged arguments, ideas, information, and points of view. have explored the alternatives, talked with our constituents, listened to testimony. And this is as it should be; this is our responsibility as legislators.

And I think you will agree with me, Mr. Speaker, that throughout our deliberations, we have kept uppermost in mind the dual criteria of providing accountability in government and providing more effective participation in the land use decision making process. We have found that achieving these concepts is not impossible. We have found they can be accomplished by examining the process by which the Commission operates, and by ensuring that this process is in fact an accessible, equitable, and accountable one. And we have found, Mr. Speaker, that one of the problems of the Land Use Commission is that it has been without procedures or set of rules and guidelines to follow.

Mr. Speaker, this bill before us today, House Bill 1870, as amended, reflects this through the incorporation of significant procedural reforms. It establishes procedures which will assure maximum input from the counties as well as the State. It will also assure maximum citizen input in an orderly and equitable manner through an adversary process in which all interests will have the opportunity to compete and present evidence in an open forum. The bill accomplishes this by reconstituting the Commission into a judicial body mandated to make impartial decisions based on proven facts and established policies.

This means that the Commission, in conducting its hearings, must follow rules applicable to a judicial agency, such as a restriction on members from discussing the facts of a case with anyone, a requirement that decisions made must be solely on the evidence received, and a requirement that decisions must be in writing. Standing an eligibility to participate in the hearings is as wide as we can make it. The procedures allow affected parties to call and cross examine witnesses, present evidence and arguments and written rulings from the Commission.

The bill also provides that land use district boundaries existing on the effective date of the Act will continue in full force and effect. This is not intended to ratify or validate any past Commission actions but simply to provide that existing boundaries shall continue, subject to amendment, as provided in the bill and to judicial review. This is to provide a starting point, and cases on appeal at the present time are excluded.

Action on this bill will insure the effective application of the land use policies and guidelines to be established under House Bill 677 which we took action on earlier. Guidance policies developed under House Bill 677 would govern the Commission in its decisions, and the bill before us now also requires the courts, in reviewing a contested case ruling, to examine whether or not the Commission's actions are in accordance with these general policies as well as the evidence presented and proper procedures followed.

Mr. Speaker, I feel that House Bill 1870, House Draft 1, by tightening the procedures by which the Commission shall operate, meets the concerns expressed by the public regarding the manner in which land decisions. shall be arrived at in our State and I think it meets the concerns expressed by my colleagues. I also think that it will work to restore some measure of accountability and public confidence in our governmental processes. I cannot help but feel that this bill is the result of the collective thinking of us all here in the House and that it is a reflection of wide ranging discussion and argument, and it therefore is a bill worthy of everyone's favorable vote.

For these reasons, Mr. Speaker, I urge the members of this honorable body to vote aye on House Bill 1870, House Draft 1."

Representative Cobb then stated:

"Mr. Speaker, I rise to speak against House Bill 1870, House Draft 1.

Mr. Speaker, some of the previous remarks directed on the floor here touched on the questions of policy, public participation and standing. The policy contained in this bill is going to cut public input, not increase it. It is going to cut it by limiting the parties that can become an adversary in the proceedings. It is going to limit the standing, in effect,

to property owners and government agencies and that, Mr. Speaker, is not reform--that is a step backwards from the open participation process that we now have where anyone with a vital interest in the land for the use of that land can initiate a proceedings as well as participate in it. In effect, it is almost 180 degrees from House Bill 85 and from what we have now. And bad as it is that we have now, at least we have a chance for public input. We have a chance for public initiation but, with this bill, we will have to rely on the mercy and the good graces of government agencies who are not accountable to us or to the general electorate. The question then becomes--how do we initiate a land change to conservation or to up-zone even to urban? The answer is that only a property owner or a government agency can initiate such a request and, as a result, this bill cuts off the public initiation of any review of land use boundary. It cuts off any community association that says no. This is not right for our community and it leaves that discretion solely to the property owner in question or to a government agency. It is not accountable. This would affect an area such as Waiahole-Waikane, West Oahu College or even a Townfor once that basic decision is made, then the public has been cut off.

When we look at the history of the Land Use Commission, Mr. Speaker, we go back to some of the decisions that were made early in the decade of the 1960's and the resulting court actions and decisions pointed out that some of those decisions were made in violation of the Administrator's Procedures Act. Yet, they were made and forced into effect along with the land use boundaries of today, and by doing so in this measure, in effect, ratifies that. We are cutting off the public from any opportunity to initiate a review to reverse these errors because, in effect, the statute of limitations has long since run and, in response, we are running from the public.

It is a very basic philosophical question that perhaps causes a disagreement on this bill, Mr. Speaker. And that is whether 70 or 100 property owners in this State should be the ones limited to initiating review processes of land use or whether we should include the rest of the State population who would have a direct and compelling interest

and an immediate effect and allow them to make such an initation. The standing, at least in this bill, is broad enough to say that if a person is directly affected, he can become a party to the adversary proceedings. But then, I quote from the bill: 'Others may apply to intervene unless the applicant's position is substantially the same as the admitted party and admitting additonal parties will make the proceedings inefficient and unmanageable.' And there, Mr. Speaker, a straw man can be set up for one party, can intervene, and say this affects me, and all other parties, including the community associations, would then be barred and then what kind of an adversary proceedings would we have?

Mr. Speaker, the basic flaw in this bill is this limitation of public initiation and if we are going to be making land use decisions, Mr. Speaker, I think we need to include all segments of the government and the public and since we are not doing so in all cases here, I urge my colleagues to vote against this bill.

Thank you, Mr. Speaker."

Representative Roehrig then suited:

"Mr. Speaker, I rise to speak in favor of this measure. However, in doing so, I would just like to voice a few of my concerns that I would like to see taken care of during the coming year. I think it has been the concern of your membership of this House that the Land Use Commission in its decision making show some accountability, more accountability than they have in the past to the general public of this State for the welfare of the State. I have been concerned about the lack of foresight in some of the decisions that have been made by the Land Use Commission. I have been concerned about the apparent trade-offs that have been made in their decision making. However, in part, I think we have to share some of the responsibility for their lack of direction because we have provided little in the way of statewide policy planning to give them guidance.

I think yesterday, as the saying goes from Representative Kunimura,

maybe the aku got away. I thought that was the ahi but I have learned in this august body that legislation is the art of the possible. What is most advanced, yet unacceptable, is what will be approved by this House and it was apparent to me last week that the fish got out of the net. I would like to see us adopt something to improve the system from what it has been in the past and I feel that this bill is a step in the right direction, and if the judicial review is done properly and some of the questions relating to standing could be clarified as this legislation goes through the legislative process, we will have a more workable fabric in which to plan our land use decisions for the era of the '70s and beyond and I, for one, will be watching the Land Use Commission during this year and next year. Whether it is election or not, if they have not been responsive and accountable in their actions, there's going to be a lot more trouble than there was this year. Thank you."

Representative Peters then stated:

"Mr. Speaker, I rise to speak against this bill. It is a cop-out.

Yesterday, we dealt with House Bill 85 which was the whole aku. As a Hawaiian, I know what this legislation will do. Too often, the use of land in this State, the decisions thereof, have been abused. There have been a number of statements in our deliberations. The Legislature should confine itself to legislative matters. I concur-the use of land is definitely a legislative matter. I am opposed to any inequities that allow appointees of a commission to make these kinds of decisions which has undivided importance. It is our responsibility-nobody elses. When I ran for office--I am sure that many of my colleagues initiated basically the same concerns-that I am tabbed with the responsibility of representing the best interests and welfare of my constituents. the best interest and welfare of this State. I beseech them now to crystalize that concept and make democracy work in opposition to this bill. We have in the City and County of Honolulu, as well as the other counties, this process--this practice where the commission or the planning commission, if you will, will review the application on zoning, but the final decision is left with the legislative body,

the City Council. I would like to have that kind of process crystalized and implemented here. Anything short of that is a copout--no ifs or buts about it. We deal and are called upon to make major decisions--this from a budgetary point of view to the tune of \$1 billion and yet there have been remarks here to say we don't have the time to make decisions that has to do with land use. I disagree. I ask you to be accountable, to be responsible, and make the right decision. Vote down this bill and bring back the aku. Thank you."

Representative Ajifu then rose and stated:

"Mr. Speaker, I rise to speak in favor of the most significant piece of legislation to reach this floor in all of my years in this body--House Bill 1870, House Draft 1, the natural complement to House Bill 677, House Draft 1 just passed.

For years, the uncertainty in the land use designation process, devoid of goals and a definite set of procedures, has stifled our economy and encouraged land speculation. With specified procedures and uniform goals to apply, the Land Use Commission may now live up to the potential forecast for it in the early 1960's by nationally known authorities in the field of land use planning.

In these critical times, our economy begs for stability. House Bill 1870, House Draft 1, provides for applying House Bill 677, House Draft 1's policies which will permit the land user to accurately assess the future development of not only his land but also the land of his competitors. Stability will return to our economy and speculation will be dampened. This package of statewide comprehensive concept and the administrative implementation plan represents the first in what I hope will be a continuing joint effort by the Administration and both parties in the House in the best interest of the State.

Members of this House, I urge you to join me in supporting this effort. Thank you."

Representative Abercrombie then rose and stated:

"Mr. Speaker, I rise to do as I said when I spoke on House Bill 677 to urge this body to vote down 1870.

Land issues are more than just that. Therefore, decisions on land affect more than just the members of a single district. We talk about the politics of things and say, oh, we don't want to get into that; we are going to try and do everything in the best interest. Well, part of the best interest is deciding politically, as Representative Roehrig has said, what's possible. The part of what's possible is about what you want to reach for; what you really basically desire; what you really want to have when you come into this body; when you come to the point where you are the person making the decision as Representative Peters has said. I don't shirk that. I came in here to do just exactly that. And now when we have passed 677, our great opportunity that in January of next year, our great opportunity to pass the policy decisions previous to that, we are going to pass a bill which is going to limit us before we even had the chance to vote on the plan. If we put this into effect, and I beg your attention on this, because I know so many times the speeches on the floor and so on are necessarily proforma; minds are made up but not all the time. I found myself coming unto this floor all ready with my mind not necessarily set, relying on the good judgment of my colleagues in many instances. But in this--it is so important--I ask you to think about it if your mind is . . . as Representative Peters has said, hasn't crystalized entirely. Think about it. We just passed a bill that gives us the opportunity to draw the kind of plan which will include. . .don't forget the role of the Land Use Commission in that plan when we voted and don't forget 677 calls for us to do the voting. We are the ones that have said we will take the responsibility, why now then give over to the judiciary the review? Why is it?

In every other instance, with master plans coming in from the Department of Education involving hundreds, sometimes thousands of items; when budget decisions being made involving hundreds, sometimes thousands of items; when we see people, hundreds of people in our midst, and so on, are we now disenabled from being able to make the most fundamental decisions that command all our lives

and the lives of the children? Now again, that might sound mockish; it might sound corny to talk about, but that is, in fact, the reality. They are dependant upon us. The people of this State have put this responsibility upon us. Now, let us give ourselves then the opportunity to determine the role of the Land Use Commission some seven or eight months from now. Hearings will be held; all the kinds of things that were spoken of by Representative Cobb are going to be dealt with in terms of the hearings that will be held which results in the general plan-the statewide plan--it will be presented to us. At that time, not only the role of the Land Use Commission, but the various departments, the various other commissions, the Office of Environmental Quality Control--all these kinds of offices, commissions and appointees will be discussed and we will vote at that time. Why box ourselves in now, especially when you read the bill closely, you will find that the judge, a judge, will be making the decision on the manifest weight of the evidence. I refer you to page 13--the manifest weight of the evidence. We are going to set up a new commissioner above the commissioner which now already exists. And that commissioner will not be the Legislature.

Too long in this country, too long--far too long--we have had the concept of developing for good reasons and bad--going all the way back to the depression, World War II, subsequent great economic disasters that have worked social disasters and war. We have given over to appointive agencies, whether it is the FCC, Federal Drug Administration, all these various administrative bodies--given over to them what is rightfully in the hands of the people. We are going to celebrate the bicentennial of this nation--200 years. And when the nation was formed, it was formed by men and women who took responsibilities unto themselves--they were proud of that. That is what made us unique as a nation and this State was made and is made today-look around the room, the kinds of people that are here--is made by the people who determine that they were not going to knuckle under wherever they were and however they lived. They were

going to make their own stands and their own decisions. That is why this House exists today; that is why this State exists today-that is the glory of this State. That is why it is my privilege to live here. This is where I want to be because that is what this State is, so I am making an emotional appeal to you. I am making an emotional appeal to you based on the closest reading I can of the facts involved. If you haven't made your minds up yet on this bill, or if you have and are willing to open it, just a crack, to see whether this might make sense, think about your vote and think about giving ourselves the opportunity to present ourselves some eight months hence--eight or nine months hence--to the voters as responsible people worthy of their vote.

Please vote no on this bill. Thank you, Mr. Speaker."

Representative Takamura then rose and stated:

"Mr. Speaker, I would just like to respond. I think, as a person who came to this body today, I think, with some severe questions about how I will vote on this issue. . .I've kind of really been trying to listen carefully to the kinds of comments that have been made; also to think about what I feel about the problem of land in this State of ours; the great need for us to make sure that the land is used wisely because we have so little of it. .

Representative Kawakami, on a point of order, interrupted:

"Mr. Speaker, is the speaker speaking for or against the bill?"

The Chair replied that the point was well taken and directed Representative Takamura to state his point.

Representative Takamura continued:

"I will get into that. I believe that, at this time, I would just like to say that I would like to join with Representative Abercrombie and urge the members of this body to vote against this bill. I personally feel that even House Bill 85 which I was hoping to see passed--even that I felt had flaws in it which would not really solve the problems that we face, and I don't think this bill does it either and I think I would prefer to have us give ourselves the time to talk more carefully with the constituents and to also get more input from those agencies and people involved that could help us make wiser decisions on this important issue.

I don't think a year is too long to wait--the time between the next session comes for us to come up with a better plan to help us better meet the problems that we face regarding land use. I think that this is the least we can give ourselves and the most that we can give to the people of the State so that we can make the best possible decision on this crucial issue."

Representative Kunimura then stated:

"Mr. Speaker, I rise to speak against this bill, and my colleague from Kauai, I make a personal plea at this time that all the arguments presented before this body, I would like to summarize here, indicate that because of bipartisanship, that this is the correct solution.

I have not heard any arguments for this bill that would convince me that I should vote for this bill, but the arguments against this bill are heavy. I think we should bide our time. We passed the other bill--the State plan. I think that would be sufficient mandate. Please don't stifle and suffocate the issue of land use for this State by adopting this particular measure. As our motto stands--"Ua mau ke ea o ka aina i ka pono" which is translated: "The life of the land is perpetuated in righteousness"--let us all uncommit right now, call a short recess, and think very deeply because what we are about to do may be the great rape. Thank you very much."

Representative Cobb then stated:

"Mr. Speaker, normally, I don't rise the second time, but the Representative from Waianae brought a thought--a rather sad historical footnote on this measure. And that is, for over a hundred years, we have been taking land from the Hawaiian people and now, with this bill, we are denying them the right to even ask for a request of what happens to that land." The motion to pass H.B. No. 1870 on Third Reading was put by the Chair and H.B. No. 1870 passed Third Reading by a roll call vote of 35 ayes to 12 noes, with Representatives Abercrombie, Cayetano, Cobb, Garcia, Ho, Ikeda, Kunimura, Naito, Peters, Stanley, Takamura and Yuen voting no, and Representatives Evans, Kamalii, Lee and Shito being excused.

Representative Roehrig moved that H.B. No. 1248, having been read throughout, pass Third Reading, seconded by Representative Uechi.

Representative Roehrig then rose and stated:

"Just a short note for the Journal. Although we are removing the numerical restriction on resident population of conditional release centers, we would like the Journal to reflect that this is not intended as an avenue for the Department of Social Services to start making budgetary request for additional staff for these conditional release centers nor do we want them to start having resident population of these centers greatly in excess of the present ceiling. An officer or employee of the State who does not have tenure and who may be transferred or appointed to a civil service position as a consequence of this Act shall become a civil service employee without the loss of salary, seniority, prior service credit, vacation, sick leave, or other employee benefits or privileges and without the necessity of examination; provided, that such officer or employee possesses the minimum qualifications for the position to which he is transferred or appointed.

In the event that an office or position held by an officer or employee having tenure is abolished, the officer or employee shall not thereby be separated from public employment, but shall remain in the employment of the State with the same pay and classification and shall be transferred to some other office or position for which the officer or employee is eligible under the personnel laws of the State as determined by the head of the department or the governor.

It is the intent of this Act not to jeopardize the receipt of any federal aid nor to impair the obligation of the State of any agency thereof or to the holders of any bond issued by the State or by any such agency, and to the extent, and only to the extent, necessary to effectuate this intent, the governor may modify the strict provisions of this Act, but shall promptly report to the legislature at its next session thereafter for review by the legislature.

SECTION 11. This Act shall take effect upon its approval."

Representative Kawakami moved that the amendment be adopted, seconded by Representative Ho.

Representative Kawakami then stated:

"H.B. No. 91 is amended to read as set forth in the form attached thereto. This is a technical amendment. The bill that was attached to the Committee Report this morning was a working copy for the Committee and there was some error in the procedures taken by the Committee, and the attached bill, this amendment, is a very technical amendment. The bill is in correct form."

The motion was put by the Chair and carried, and the amendment was adopted by a vote of 51 ayes.

By unanimous consent, further action on H.B. No. 91, HD 1, as amended, was deferred until tomorrow, March 11, 1975, and in accordance with Article III, Section 16, of the Constitution of the State of Hawaii, printed copies of H.B. No. 91, HD 2, were made available to the members of the House at 5: 30 o'clock p.m.

The Chair directed the Clerk to note that H.B. Nos. 1759, 423, 428, 480, 11, 372, 1184, 436, 1624, 826 and 1528 had passed Third Reading at 5: 52 o'clock p.m.

At 5: 53 o'clock, on request by Representative Soares, the Chair declared a recess, subject to the call of the Chair.

The House of Representatives reconvened at 6:25 o'clock p.m.

DEFERRED MATTERS FROM EARLIER ON THE CALENDAR

H.B. No. 356:

Representative Uechi moved that H.B. No. 356, having been read throughout, pass Third Reading, seconded by Representative Inaba.

Representative Sutton then stated:

"I would like to speak against this bill because of the potential abuse that it presents the following circumstance. A large corporation from the mainland can come down here, can buy up a subsidiary that qualifies on the two-year residence. It then is in a position to compete with our local farmers for the minimum amount of money that the Agriculture Department has for loans. In addition, this greatly broadens the definition of what constitutes a farmer and you can use this as an opening in the door in the phases of the law. It's a technique, Mr. Speaker, unfortunately, which we attorneys use. Also, Mr. Speaker, I am very concerned with the proposition that we would have something like up on the Island

of Hawaii where various mainland movie actors have macadamia nuts and they come into a competetive force to receive loans at what today is a very favorable interest rate. Admittedly at the time that you passed this particular statute your interest rates were high, but now in relationship to the prime rate, they are low. I am very much disturbed about this possibility even though I see some very fine aspects on enhancing our diversified agriculture and even though I am a great admirer of the chairman of this Committee.

Representative Cobb then stated:

"Point of information to get some clarification either from the Chairman of the Agriculture Committee or from the minority spokesman of that committee relative to whether or not, in fact, a corporation who is not, in fact, a practicing farmer, could come in and purchase or buy out an individual on the Hawaii market - a Hawaii corporation that would qualify and thus qualify for a loan under provisions of this bill.

Representative Uechi then stated:

"Mr. Speaker, I believe it does; however, in reality, when these corporations were alluded to by the previous speaker from the minority, the checks that we have within the Farm Loan Program would preclude these people from getting favorable consideration with the Farm Loan Program. So, I don't see how this particular provision opens the door for big corporations to take over the Farm Loan Program."

Representative Abercrombie then stated:

"I signed that Committee Report and don't imagine it'll be the first time this comes up - at least it's the first time for me. I signed the Committee Report and after further consideration and discussion in caucus and listening to more points of view, I want to indicate that I'm going to vote no."

Representative Larsen then stated:

"I'd like to add a few words to the negative side of that problem.

I don't believe the existence of a large corporation coming

in here is where the real problem lies. I see it as a threat to a farmer who is making his living in a small situation vs. a group of doctors or lawyers who form a corporation, who will then go into business, specifically in the greenhouse business, which they are now selling to percentage ownerships in these greenhouses. These poeple would then be able to go into business on a tax loss basis and compete with a farmer who's trying to make his living that way. And, this is where, I think, the threat would be with the small farmer who is making his living farming vs. the doctor and lawyer who's trying to make his living, if he can do it, but possibly lose money for a few years and knock this small farmer out of business. I think it would be a detriment to the small farmer competing with the group of professional men who are competing against him.

Thank you, Mr. Speaker."

Representative Kunimura then stated:

"I rise to speak against this bill, Mr. Speaker, for some of the following reasons.

This bill, Mr. Speaker, looks very innocuous - talks about, Committee Report talks about, bringing in new money for the farmers. That's fine and dandy; but, sometimes with new money comes new perils. I believe the farmer has enough to contend with the elements: too much rain - not enough rain; too much wind - not enough wind; all nature seems to be against the farmer and very seldom the farmer has an opportunity to come ahead. When he does, then he's the biggest monger because the prices he can get or command for his produce seems to be out of the reach of the consumer. The farmer is always blamed and not the middle man. And, again, Mr. Speaker, this bill is going to open up another Pandora's Box and subject the farmer, the honest farmer, to some people who would like to make some devious investments. Mr. Speaker, the very, very intent - the original intent - for the Legislature in setting up this Farm Loan Program was to help the farmer and not the investor. The farmer, Mr. Speaker, is the one who not only risks his capital; but risks his labor; deprives himself of many of the good things;

ş

the many hours of leisure that he can enjoy, should he go into some other pursuit; but because the farmer loves to grow things and to provide the necessary food for those who do not know how to raise them, this farmer, Mr. Speaker, is going to be, if I may use these words, 'open to the next rape'.

And, I would like to request, Mr. Speaker, that clear thinking members of this House, if we really and truly and sincerely want to help the farmer, then this bill must be voted down because of conflicting information received at the last minute - Chairman of the Committee says the Chairman of the Board of Agriculture, who is Director of Agriculture, wants this bill; then the member of the same Committee comes back, and I got the information from Representative Kawakami, that the same man said this afternoon, 'it's not a big thing.' Why can't we defer action until we can get the real information why the Director of Agriculture wants to pass this bill when it's not a big thing; and it is very important because it's not us that's going to get raped, it's going to be the poor farmer because there just isn't enough money in the Farm Loan Program to support everybody."

Representative Carroll then stated:

"I rise to speak against the bill.

I would incorporate, for the Journal, the remarks of Representative Kunimura and Representative Larsen as being reflective of my opinion on this and I would like to add to that the fact that this bill provides for the corporations to be able to take advantage of this particular measure which sets up the situation whereby mainland investors can come in and buy up the stock in a local corporation, thereby making an end-run and opening up this entire matter for a takeover and abuse by mainland corporations--something that I think most of us are against. For this, and for all the other reasons, I respectfully urge this honorable body to vote no."

At 6: 34 o'clock p.m., on request by Representative Soares, the Chair declared a recess, subject to the call of the Chair. Upon reconvening at 6: 39 o'clock p.m., Representative Uechi withdrew his motion to pass H.B. No. 356 on Third Reading, and Representative Inaba withdrew his second.

By unanimous consent, action on H.B. No. 356 on Third Reading was deferred until tomorrow, March 11, 1975.

At 6: 40 o'clock p.m., the Chair declared a recess, subject to the call of the Chair.

The House of Representatives reconvened at 6: 42 o'clock p.m.

Representative Kimura then made the following motion:

"I move that all Standing Committee Reports laying on the Clerk's desk by 8:00 o'clock p.m. today be adopted and all House Bills accompanying said Standing Committee Reports be placed on the calendar for Third Reading or pass Second Reading and thereafter be placed on the calendar for Third Reading as recommended in the Committee Reports."

The motion was seconded by Representative Soares and carried.

His other employers are secondary employers. (The determination by the employee of his principal employer is binding.) An employer so designated as the principal employer shall remain as such principal employer for one year or until change of employment, whichever is earlier.

If an individual is concurrently a regular employee of a public entity which is not an employer as defined in section 393-3 and of an employer as defined in section 393-3 the latter shall be deemed to be a secondary employer.

An employer who, directly or indirectly, interferes with or coerces or attempts to coerce an employee in making a determination under this section shall be subject to the penalty provided under subsection 393-33(b).¹

Representative Segawa moved that the amendment be adopted, seconded by Representative Lee.

"Mr. Speaker, this amendment is for the purpose of defining cases where we have an employee having two employers so that the employer that employs a person for at least thirty-five hours a week will be responsible for the employee's portion of the prepaid health insurance. But, in the event that there are two employers who employ this employee for more than thirty-five hours a week, it gives the employee the prerogative to choose which employer would pay for his prepaid health insurance.

We have also included the portion that puts back the penalty in the event that this is not complied with.

Thank you, Mr. Speaker."

UNFINISHED BUSINESS

Representative Suwa moved that H.B. No. 13, having been read throughout, pass Third Reading, seconded by Representative Akizaki.

Representative Amaral then rose and stated:

"Mr. Speaker, I rise to speak in favor of House Bill 13, House Draft 2.

The Sixth State Legislature passed Senate Bill 372 during the Regular Session of 1971, of which Section 246.12.3 allowed persons meeting certain qualifications to dedicate their land for residential use if their land was situated in a land zoning which was higher than residential use. Though it was a step in the right direction in aiding our local residents to retain their residential property, there were two major flaws in the law. They were the restriction of the owner to a person sixty years of age or older and the restriction of the land parcels to be dedicated to not more than 10,000 square feet in area.

House Bill 13, House Draft 2, corrects these flaws by extending residential dedication to any fee simple owner regardless of his or her age and by allowing parcels for single family dwelling residential use, regardless of size, to be so dedicated. I feel we, as Legislators, have a moral obligation to assist our people in these times of rising taxes and inflation, so I encourage this honorable body to vote aye on House Bill 13, House Draft 2.

Thank you, Mr. Speaker."

The motion was put by the Chair and H.B. No. 13 passed Third Reading by a vote of 49 ayes, with Representatives Ikeda and Lunasco being excused.

Representative Abercrombie then rose and stated:

"Mr. Speaker, I rise to speak against House Bill 484 which would reduce the compulsory school age from eighteen to sixteen.

The reason I speak against this bill is that at this very time the budget is being prepared by the Education Committee which commits this State, commits the Education Committee, in its wisdom as a result of all the hearings that we've held to putting an increased amount of money into alternative schools; of committing the State in terms of dollars to new teaching methods; committing the State to dealing with all the problems that are attendant upon students being unable to read; committing the State, if this budget is passed, to new programs and vocational education, and new programs in agricultural vocational education at a very time when the State is committing themselves should this budget

pass to these new programs. What we are saying is that all that money that is supposed to go towards dealing with those students who find themselves in difficult emotional and vocational straits that, at that very time what we are going to do is reduce the compulsory age of schooling from eighteen to sixteen and, therefore, move into a situation in which we would be saying, out of sight; out of mind.

Because of the school problems, because of the circumstances in the structures of the school system which this Legislature has helped to create and for which it is directly responsible for in budgetary terms; because of the results being such that people have come to regard the school system in disrepute, we now run from the product of that school system, run from our responsibilities and say, oh, when you're sixteen years old, we'll let you go. Precisely at that time when young students are probably at an emotional peak in their lives; precisely at that time, perhaps in their sophomore year or so, when they need more than ever the kind of guidance that counselors might provide and I might add that this , budget is putting in for more counselors--I might add that that has been a bipartisan effort. Most of the things I am speaking about has been a bipartisan effort in this budget; at precisely that time, we are going to say, oh, no, go on out in the streets, go out and take your chances; we're saying that at a time, Mr. Speaker, when there is high unemployment in this State; we're saying that at a time when the possibilities for employment; the possibilities of being able to pass your apprenticeship are so dependent upon being able to read and write; at a time when there are indications that being able to read and write are at a low ebb in our State. For all these reasons, Mr. Speaker, I urge that this bill, House Bill 484 reducing the compulsory school age from eighteen to sixteen, be defeated and that this Legislature stands by its responsibilities to the young people of this State."

Representative Soares, upon being recognized, stated:

"Prior to roll call, may I rise to speak in favor of this bill and make a point please?"

The Chair directed Representative

Soares to proceed and Representative Soares continued:

"Mr. Speaker, I note that my colleague--the previous speaker--relates to the operating budget and the many features of it. I would like to make a note also that I noticed on the Committee Report just the words 'I do not concur' and I wonder whether or not my colleague realizes that he should sign his name and then indicate 'I do not concur' if he is against the bill. However, I do think that, in discussing the merits or demerits of a bipartisan or non-partisan measure, I think that the budget that has been worked on adequately covers the needs of the education field and I don't see how this can be relevant in this manner."

Representative Abercrombie then rose on a point of personal privilege and stated:

"I didn't sign my name because my name is so well known, it is superfluous."

The motion was put by the Chair and H.B. No. 484 passed Third Reading by a roll call vote of 34 ayes to 15 noes, with Representatives Abercrombie, Blair, Cayetano, Ho, Inaba, Kawakami, Kiyabu, Kondo, Kunimura, Mizuguchi, Peters, Roehrig, Segawa, Shito and Takamine voting no, and Representatives Ikeda and Lunasco being excused.

H.B. No. 518

Representative Roehrig moved that H.B. No. 518, having been read throughout, pass Third Reading, seconded by Representative Uechi.

Representative Abercrombie then rose and stated:

"Mr. Speaker, I urge that House

Bill 518 be voted down. It excludes from discovery peer review proceedings and records of optometrists.

The present situation is that the medical and dental professions enjoy this privilege. I think it should be taken away from them also. I don't see any reason, especially in the light of Watergate and related matters, that any such privilege should exist, especially in a profession that gives an opportunity for people to cover up what they might be doing. It gives the people a chance who might be buddy-up with one another in a profession to protect themselves and in the light of what might be needed, especially from those who might find themselves subject to inadequate medical care or dental care or in this instance, the optometrists. I think that ordinary people ought to have a chance to see some of these proceedings; to see what kind of judgment was being made. I am against anything that makes this discovery process unavailable to the public."

Representative Roehrig then rose and stated:

"Mr. Speaker, just a few remarks in favor of this measure.

The Legislature, in its wisdom, because of the compelling situation principally in hospitals and societies which are private in nature, having to review their own memberships' conduct, the Legislature, in its wisdom, has given them the opportunity to do this without, as we should say, the whole public knowing the nature of it. Even in our 'sunshine bill' and in the rules of the Legislature where matters of personality and personal reputation are concerned, there is adequate provision made for those matters to be discussed privately. So this does not represent an intended intrusion into an area by the public and the press that there is a compelling reason to justify. Thank you.

The motion was put by the Chair and H.B. No. 518 passed Third Reading by a vote of 47 ayes, to 2 noes, with Representatives Abercrombie and Blair voting no, and Representatives Ikeda and Lunasco being excused.

H.B. No. 1783

H.B. No. 127

Representative Roehrig moved that H.B. No. 127, having been read throughout, pass Third Reading, seconded by Representative Uechi.

Representative Roehrig then rose and stated:

"Mr. Speaker, I would like to note for the Journal that although it is not specifically provided for in this measure relating to the registration of lobbyists that the custom of having counsel or a representative of a particular organization appear with an employee before workmen's compensation hearings, TDI hearings that are quasi-judicial in nature, are not considered to be lobbying within the intent and meaning of this measure. Thank you."

Representative Cobb, upon being recognized by the Chair, stated:

"Mr. Speaker, I rise to speak in favor of House Bill 127, House Draft 1, and in so doing indicate a reservation as reflected on the signature of the Committee Report; namely, that this measure covers \$25 expenditures and above but it does so on a non-cumulative basis, so that theoretically, it would be possible for an individual to spend \$24 a day on a given individual, multiplying that by 60 days will be \$1,400 on a non-cumulative basis would not be reflected. I think many other provisions of the bill, however, has some very strong points and for that reason, I am voting for it. But with this particular weakness, I can only express the hope that we catch it in conference. Thank you."

Representative Abercrombie was recognized by the Chair and stated:

"Mr. Speaker, I rise to speak against this bill on the registration of lobbyists, not because there are not sections in it; not because the Committee on Judiciary has not labored long; not because the Committee on Judiciary has not labored indeed with tremendous pressure upon it, and part of the reason that the Committee on Judiciary has to suffer through this is because of the newspapers, because of the media. When I say the media and the newspapers, I don't mean the reporters, I mean the owners; I mean the monopolists who own the newspapers in this town and dozens of other towns across the country who parade freedom of the press and, at the same time, monopolize the news--and the owners of the newspapers in this town enjoy that privilege. I can't wait for the bill to come up when we are going to be able to audit these guys and find out what they are doing. I will vote for that in one second flat. But, in this instance, this bill exempts the various news media, including their owners and employeesthat's fine with me, but not the owners who, in the ordinary cause of business, publish news items, editorials or comments, are paid advertisements which support or oppose proposed legislative and administrative actions. The news media exemption is limited to what is necessary for them to go about the regular course of their business. The regular course of their business, as far as the owners are concerned, is to distort the news, to take what the reporters have given them in good faith, and to twist it, to put inaccurate headlines, to try and confuse the public. Just in the short time I have been here in this Legislature, I have seen time and again the good work, especially of the Chairman of the Committee on Judiciary, has been twisted and turned to suit the editorial preference of the owners of the newspapers. •••¹¹

Representative Soares rose on a point of order and stated:

"Mr. Speaker, I think the speaker should stick to the merit of the lobbyist registration bill and not the media."

Representative Abercrombie continued:

"If Mr. Soares can read the bill, he will find out, in fact, what I can find to be the only exemptions are the owners of the newspapers. Now, if he thinks the owners of the newspapers are such that they give him fair treatment--that is his privilege."

Representative Soares again rose on a point of order and stated:

"I am not going to argue the merits or demerits of the media, but I do think that the speaker should speak on the merits or demerits of the lobbyist bill and not carry on about his feelings about the media or even the Judiciary."

Representative Abercrombie then stated:

"Mr. Speaker, if I could find some substance in what was just said, I would respond further."

Representative Soares reiterated:

"Mr. Speaker, I would like to repeat my statement earlier that the speaker speak for the merit of the bill and not take off on the press or his treatment of the Judiciary Committee as previously stated.

Representative Abercrombie concluded:

"Mr. Speaker, I don't want to go on with this but I would like Mr. Soares to listen to what I am saying. I am speaking about the owners who are specifically exempted from this particular bill and not the paper, not the media. He is using the same kind of trick that the owners do.

Until such time as owners of newspapers are put in as lobbyists and are not exempted, I am not going to vote for any lobbyist's bill that is going to hang on on every legitimate lobby group that comes down here, both nonprofit and otherwise--that includes labor unions, business groups and everybody else that comes here, as well as the Sierra Club or other nonprofit groups, anyone, citizens of any kind, who come down here and exempt these people from their monopoly position to confuse and destroy what I consider to be in a modern industrial age--the only way in which people can get accurate information, so I ask that this bill be opposed until these owners

are brought into line."

Representative Roehrig then rose and stated:

"Mr. Speaker, I rise again to speak in favor of this measure, and I would like to indicate to the prior speaker that I appreciate all of the plaudits given in the direction of the Judiciary Committee and I would like to point out, for purposes of clarification, that your Judiciary Committee shared some of the same concerns that the former speaker had just mentioned, and in the course of its deliberations, your Committee on Judiciary amended page 4 of the bill as it related to the exemption for newspapers, as House Bill 127 provided for in its original form, the newspapers even when they appeared before legislative committees or executive agencies of boards were exempted. In the course of deliberations by your Judiciary Committee, it was felt that the newspapers and other news media should be given the same kind of treatment as everybody else, and so in House Draft 1 which is before this body for Third Reading, the language relating to that particular part of the exemption is deleted. It was your Committee's concern that if we disallowed the newspaper or other news media from their right and privilege to publish their point of view in the newspaper, that we would be running afoul of the recent Supreme Court decision--I believe it is the Tornelio case in Florida which gives newspapers the right to reply and the right to editorialize on any matter that they feel is in the public interest. It is a matter of freedom of speech which, in our our democratic form of government, we are obligated and entitled to allow, so while I do appreciate, and in some great measure sympathize with, the feelings of the former speaker regarding the position of economic power of the newspaper, I would suggest that his concern is adequately taken care of in this measure. Thank you."

Representative Abercrombie responded:

"Mr. Speaker, after the last few days, I want to tell Representative Roehrig that I really appreciate sympathy for my feelings. Thank you." The motion was put by the Chair and H.B. No. 127 passed Third Reading by a vote of 48 ayes to 1 no, with Representative Abercrombie voting no, and Representatives Ikeda and Lunasco being excused.

H.B. No. 1213

Representative Roehrig moved that H.B. No. 1213, having been read throughout, pass Third Reading, seconded by Representative Uechi.

Representative Soares then rose and stated:

"Mr. Speaker, I rise to speak in favor of House Bill No. 1213, House Draft 1.

I have long advocated that the bill before us is both fair and equitable and I have stated before the Charter Commission of the County previously that I have always felt that the members of the House or the Senate should resign prior to determining whether to run for other races. I do feel that this House has taken a step which we tried to three years ago in our campaign reform measure to put this into action. I am very happy and delighted tonight to speak in favor of this bill and see us passing it on Third Reading."

The motion was put by the Chair and H.B. No. 1213 passed Third Reading by a vote of 48 ayes to 1 no, with Representative Yuen voting no, and Representatives Ikeda and Lunasco being excused.

H.B. No. 989

Representative Yuen moved that H.B. No. 989, having been read throughout, pass Third Reading, seconded by Representative Machida.

Representative Abercrombie then rose and stated:

"I am sorry to have to rise so often to speak in opposition, but I think that it is necessary under these circumstances. I find that the way the bill is written; that is to say, that the written request of the parents shall be sufficient, in all likelihood, for having a principal grant a student leaving the school at any time during the school hours for any length of time as often as indicated by the parent, is simply incompatible with good school administration.

I think also that some of us are aware of the tremendous lobbying that is going on with respect to certain religious organizations who want to enable their programs to be carried forward with people who are members of that religion or any religion. I think that serious Constitutional questions would arise from such a thing and so we find that that is not before us but this bill is. I think that very careful reading of this bill by the members here will show them that abuse of what is probably the good intent of this bill can very easily occur.

In the absence of compelling reasons to have such a thing move forward; in the absence of being able to guarantee in some reasonable fashion that the principal of the school be able to maintain good order on his or her campus; in the absence of any reasonable indication to me that such abuse will not occur, I request that, in turn, this House vote down this bill until such time as the full implications of such a wide-ranging, free-floating kind of policy is established into law. I would be very hesitant if I was a member of the Board of Education, of the Department of Education, if I was a principal, to want to move to deal with the massive implications that this might entail if I was confronted with the responsibility of responding to it. Thank you."

The motion was put by the Chair and H.B. No. 989 passed Third Reading by a roll call vote of 41 ayes to 8 noes, with Representatives Abercrombie, Blair, Cobb, Naito, Peters, Roehrig, Takamura and Yamada voting no, and Representatives Ikeda and Lunasco being excused.

H.B. No. 619

Representative Segawa moved that H.B. No. 619, having been read throughout, pass Third Reading, seconded by Representative Naito.

Representative Sutton, upon being recognized by the Chair, stated:

"Mr. Speaker, I rise to speak against House Bill 619 because of the fact that it infringes on the most beautiful relationship that exists in this world and that is between parent and child. I do not like to see the government substituted for the parent. I do not feel that we accomplish anything by circumventing what is the natural law of life and the natural law of all religions; that is, the child is in the custody of his parents until he reaches a majority. We are addressing our attention here to the child in his minority. I recognize the extreme seriousness of the fact that a child, when it does have venereal disease, must be treated and must be treated immediately. I realize the statistics that we have had an increment in the number of cases, particularly in gonorrhea. However, I do feel that we can effect the same proposition by not exempting this responsibility that the parent

owes the child and the custodianship which is so traditional in America. Thank you so much."

Representative Segawa then rose and stated:

"Mr. Speaker, I rise to set a question right here. . .I believe the previous speaker may not be aware of the true wording of the bill which does not say anything about the child cannot communicate with the parent. So there is nothing that says that we are cutting this relationship off so I want that for the record. Thank you, Mr. Speaker."

The motion was put by the Chair and H.B. No. 619 passed Third Reading by a vote of 42 ayes to 7 noes, with Representatives Amaral, Kondo, Medeiros, Poepoe, Soares, Sutton and Uechi voting no, and Representatives Ikeda and Lunasco being excused.

At 9:55 o'clock p.m., the Chair declared a recess, subject to the call of the Chair.

The House of Representatives reconvened at 9:56 o'clock p.m.

H.B. No. 363

H.B. No. 1852

On motion by Representative Roehrig, seconded by Representative Uechi, H.B. No. 1852 passed Third Reading by a vote of 49 ayes, with Representatives Ikeda and Lunasco being excused.

H.B. No. 1499

Representative Cayetano moved that H. B. No. 1499, having been read throughout, pass Third Reading, seconded by Representative Kiyabu.

Representative Blair, upon being recognized by the Chair, stated:

"Mr. Speaker, I rise to speak in favor of House Bill 1499, House Draft 1.

Mr. Speaker, the purpose of this bill is to insure that State small boat harbors will be used for their intended purposes, recreational boating activities and the landing of fish. Mr. Speaker, the problem of house boats on the Ala Wai Boat Harbor is limited by this bill in that no new live aboard permits will be issued. Hardship to existing residents of the Ala Wai are avoided by explicit provision for the renewal of their live aboard permits.

Mr. Speaker, additional changes are:

1. Boats now capable of navigation, if the bill passes, this capacity must be exercised periodically; and

2. Residents will have priority in the assignment of berths.

Mr. Speaker, as a final word on House Bill 1499, House Draft 1, I would like to apologize for any of my excessive zeal and language which should not be taken to reflect the sentiments of other Representatives who may be voting for House Bill 1499, House Draft 1. Thank you, Mr. Speaker."

Representative Kamalii then rose and stated:

"Mr. Speaker, I rise to speak against House Bill 1499, House Draft 1. I am opposed to this bill because I believe that any action in this area is premature. The Legislature simply does not have enough facts in respect to persons living aboard boats in our boat harbors. Your Committee on Energy and Transportation also does not have all the fact and figures needed to make reasonable decisions.

In fact, the Harbors Division of the Department of Transportation does not have complete facts or figures. If the Department who is charged with the responsibility of regulating our small boat harbors cannot provide legislators with adequate data, I believe this body would be acting unwisely in approving any measure.

At a public hearing on this bill Saturday, testimony from one liveaboard after another indicated to me that these people are decent, honest citizens. A majority are Hawaii residents, contrary to the records of the Department of Transportation. Further, their well-documented testimony proved to me that they very much care about the quality of our environment. But, they are getting little or no help from the Harbors Division in keeping their environment clean and pollution free.

The Standing Committee Report states, among other supposed justifications, that live-aboards pay minimal charges for electricity. This is an overt case of distortion. It is simply not true. What is true is that most of the slips are metered, and these people pay electricity bills just as do homeowners and condominium dwellers.

Another example of purported fact upon which this bill was reported out of Committee, is that 'over 55% of the persons residing on vessels at the Ala Wai Boat Harbor arrived within the State in the past five years.' This is a Department of Transportation statistic. It may indeed be correct. But, can the Department or anyone else, for that matter, answer the following question: What is the comparable percentage figure for residents of Waikiki condominiums built within the last five years? I doubt the figure would be much different.

The Committee is concerned with seeing that berthing facilities are made available to State residents, so am I concerned, but I do not believe it is within our jurisdication to say that a new Hawaii citizen is to be given second class consideration. It is unjust and perhaps even unlawful to exclude new residents from berthing facilities.

The major problem, as I understand it, Mr. Speaker, lies with the Harbors Division of the Department of Transportation. Their enforcement of standards and requirements has been minimal. As an example, according to testimony, the Harbors Division has continued to approve live-aboard applications for boats that have no engines and no propellors. A ten-year old law specifically forbids live-aboards on these dormant boats, but the Harbors Division ignores the law.

Many of those living aboard boats have asked repeatedly for a financial breakdown of costs at the small boat harbors. They have repeatedly said they are more than willing to pay fees necessary to cover the costs of facilities and services which they use. These people live on their boats and are concerned for their boats and the surrounding environment. They are as opposed to dumping and pollution in the harbors as you and I, Mr. Speaker. They are probably more concerned that dormant and run-down vessels be removed from our harbors.

In January of 1973, the Director of Transportation ordered the Chief of the Harbors Division to hold in abeyance proposed revisions of the rules and regulations governing our small boat harbors. The Director also appointed a three-man Ad Hoc Committee to make recommendations and to advise him on various boating matters. During the past two years, this Ad Hoc Committee found major discrepancies in the accounting figures of the Harbors Division. The Committee also reported administrative failings of the Harbors Division. As a result, the House of Representatives of the State of Hawaii last year passed House Resolution 415, House Draft 1. This Resolution requested the Legislative Auditor to conduct an examination of the financial and management practices, policies, and procedures of the Harbors Division. Special emphasis was to be placed on examination of the small boat harbors program, and the report was to be presented to legislators twenty days prior to this legislative session. This report has not been made to date.

Further, to quote from a January 16th, 1974 letter from E. Alvey Wright, State Transportation Director:

'Currently, we are reviewing our enforcement programs for the small boat harbors in order to make them more effective. The boaters have been most helpful in bringing to our attention certain enforcement matters which seem to require serious review and possible correction.'

This review suggested by Admiral Wright himself, has not been made to date. Therefore, until the House of Representatives receives the findings mandated by its own Resolution, and until the Director of Transportation reports on its self-admitted correctable matters, I would strongly urge this body to defer any action amending any of the present laws governing the operation of the small boat harbors. Certainly, this honorable body would not like to be in a position of acting on new legislation that its own prior Resolution might easily negate or invalidate.

Therefore, I ask the members to vote 'no' on House Bill 1499, House Draft 1. Thank you, Mr. Speaker."

Representative Carroll, upon being recognized by the Chair, stated:

"Mr. Speaker, I rise to speak against this bill. I live on board a boat in the Yacht Harbor with a live-aboard permit.

Mr. Speaker, this bill will do away with our children's right to Hawaii's heritage--the right to access to the open sea. Standing Committee Report No. 458 which is supposed to reflect the findings of fact relative to House Bill 1499, House Draft 1, is grossly in error as is already been pointed out by my erudite colleague, Ms. Kamalii. This implies that the residents of the boat harbor are receiving free electricity which she pointed out is not true.

Pollution in the last two years, according to a Board of Health survey, indicates that pollution is down 95% as far as fecal coliform count is concerned since the Harbors Administration sewered the area. Photographs taken of the water indicate that that water is clean or relatively clean. Garbage pick-up which is supposed to be free to these liveaboard persons is treated the same as it is in any other neighborhood on this island.

Testimony as to crime is pure shibai. It's the only place in Waikiki where one can walk forth at night at two or three o'clock in the morning without being in fear of being attacked or robbed. The boats are left open, unlike condominiums, which have to have one and two and even three locks because of the burglars and other unsavory persons walking in those districts.

Mr. Speaker, the legal live aboards, in many cases here, are fulfilling their lifelong dream. The testimony at the hearing on this bill clearly showed that these citizens work, pay taxes and are respectable citizens. They are more than willing to pay their own way. These people are totally involved in the recreational aspects of their vessles. The primary use of these boats is recreational, Mr. Speaker. Living aboard is simply incidental to that recreational aspect. For the most part, if these people did not enjoy the boating, they would not confine themselves to this way of life.

The Committee Report indicates on page 2 that this Boat Harbor has 220 live aboard permits, sorry, the Ala Wai has 220 liveaboard permits, involving approximately 368 persons. I have no reason to doubt that figure. It's incredible that the introducer of House Bill 1499, House Draft 1, could invade the lives of these people by this bill in a state of absolute ignorance as to the current law relative to small boat harbors. The introducer of the bill and several members of the Committee were not even aware that there was such a thing as a legal live aboard permit until after the hearings had been held several times on this matter. The Committee Chairman and the introducer did not consider nor is there mentioned anywhere in the Committee report or the bill, questions, much less the answers, regarding the legal impact of this law on the lives of these nearly 400 persons. The report does not consider whether or not the government can be stopped from denying persons the full use of their personal property after having allowed them to make costly purchases of vessels.

In Kalihi, when there was a move to put the H-3 through and there was a problem of possibly displacing 110 families, a \$250 million project was moved, Mr. Speaker, to accommodate those

persons. In this case, these investments which represent most of these peoples' entire life's earnings are at stake. In some cases, prospective purchasers are involved. People who are on the list and coming up to be given a live aboard permit--there is no indication of any concern for them. There is no mention of subsequent purchases of the non-conforming personal property. There is no mention of a series of New Jersey cases addressing this very issue with respect in that case or in that State to house trailers when there was a rezoning change done, nor is there any mention that the attempt to dislodge those persons and deny them the use was held unconstitutional as being discriminatory, Mr. Speaker, not against the rich but against the poor. Questions of defacto condemnation are sluffed aside. They express some concern about denying permit applications to out-of-state residents as being 'constitutional' questions when clearly they don't. And the real questions of constitutionality as to the denial of property rights without due process and infringement of the owners were not even considered or even given summary treatment. The Committee report talks about problems and it talks about so called facts and it talks about the legislative intent of 266-1 of the Hawaii Revised Statutes, but apparently no attention was given to the harbor regulations and to the rights of the persons who have boats there after having been issued legal State permits.

It is incredible to me, Mr. Speaker, that the introducer of this bill could not at least have checked the law in this matter. I have asked, Mr. Speaker, not on the floor of this House, that this matter be referred to Judiciary so that these questions could be properly answered, so that this thing could be fileted out, and so that we could get answers which would make sense.

The thrust of the bill seems to be to remove as many people as possible who are living on the boats in the harbor. The Grandfather Clause, which I must submit was put in at my request, does alleviate some of the initial problems but as far as this new law is concerned, or as far as the House draft is concerned, this State which is the most perfectly located and environmentally suited State for living on board boats is now to become the only State that prohibits this unique way of life. This will end the achieveable dream for the citizens of this State and preserve it only to

those who are lucky enough at this time to have a live-aboard permit. We deny this right to all but the rich. This bill militates against the poor, against the havenots and it's very frustrating that Committee members cannot or will not understand this fact that only the rich will be able to afford the types of boats that are presently wet-berthed at the Ala Wai and this dream of one's own sea-going vessel is going to be foreclosed in the future to the poor and to the people of our State. There was no public urgency indicating any immediate need for this bill. There was incredible conflict at the hearings between the Harbors Division and the many citizens who testified there. There is no compelling need for the legislation, there's no need to ram this bill through the House under these circumstances in this shabby, ill thought out, makeshift piece of legislation. . . "

At this point, Representative Garcia rose and stated:

"Point of order--will the gentleman please refrain from pointing to the Committee Chairman. They have gone through the proper procedure by having Committee hearings and checked by the House Majority Attorney so will he please refrain from making any mention of this."

The Chair stated that the point was well taken.

Representative Carroll continued:

"If I had made mention of the Committee Chairman, I apologize at this time. I was referring to the bill and not to personalities. But in any event, Mr. Speaker, this bill, should it be our misfortune that it should pass, will be a pox upon this House and I am ashamed of my colleagues who vote 'yes' on this bill and I urge everyone to vote 'no.'

Thank you, Mr. Speaker."

Representative Cayetano, upon being recognized by the Chair, stated:

"Mr. Speaker, I rise to speak in favor of this bill.

Mr. Speaker, under the operating

policies of the Department of Transportation, it is permissible to live aboard one's boat while it is moored in a State small boat harbor. While living aboard is allowed only on a temporary basis in most of the harbors, permanent living aboard is allowed at two of our harbors. At Ala Wai and Keehi, large numbers of persons are currently living aboard vessels with the approval of the Department of Transportation. Based on the Department's financial records, the following facts are indicated for Ala Wai and Keehi for June 1974: At Ala Wai, the number of boats paying mooring fees totaled 723; the number of boats with live-aboards totaled 220. At Keehi, the respective numbers were 316 and 31. Additionally, Mr. Speaker, the number of unauthorized 'live-aboards' may exceed 100 for the Ala Wai Harbor alone. Moreover, if present policies and procedures continue to be followed, the numbers of live-aboards will also continue to mount. This is because more and more of the persons on the waiting lists to obtain berths at the two harbors are also applying for liveaboard status. Thus, of 670 mooring permit applications received during 1974, there were 362 applications for the right to live aboard the vessels once berths were assigned to them.

Mr. Speaker, there are numerous and significant advantages to being a live-aboard, especially at the Ala Wai. Some of these advantages apply to all vessels moored at the harbor, but become particularly advantageous when one is living aboard one's boat. These advantages include extremely modest monthly fees, free water, privileges parking, and no property tax payments, actual or inputed. My colleague, Representative Carroll, Mr. Speaker, spoke about the poor. Well, let me say this, that the inequity of this whole situation was graphically demonstrated at one of our hearings where it was gleaned through testimony that one of the boat owners there own a boat which was worth \$200,000 and paid less than \$70 a month in mooring fees. Additionally, Mr. Speaker, the liveaboard population appears to be composed of a high proportion of persons who are not residents of the State of Hawaii or who were not residents at the time of their application for berthing space. One indication of this phenomenon is the high percentage of persons who list out-of-state addresses at the time they submit their applications

to the Harbors Division. For example, Mr. Speaker, out of the 235 liveaboard permits issued in 1974, about 66 percent were from persons listing out-of-state addresses. Further, Mr. Speaker, many of the liveaboards are not paying income taxes to the State of Hawaii. Based upon a study made by the Department of Taxation at the request of the Harbors Division, about 48 percent of the persons holding live-aboard permits have filed no State income tax returns.

Mr. Speaker, contrary to legislative intent, the recreational aspect of the State small boat harbor program has been circumscribed primarily because of (1) the fact that the Department of Transportation has adopted policies, procedures, and practices which go contrary to the clear expression of legislative intent; and (2) the failure of the Department to adopt adequate and appropriate rules and regulations to ensure that craft berthed in small boat harbors are actually utilized for ocean recreation and the landing of fish. A survey of the harbor conducted by the Department in 1972 indicated that 60 percent to 70 percent of the boats moored in Ala Wai and Keehi harbors never get underway to sea for any purpose, either because they were being used primarily for domiciles or because they were in such poor condition they would sink or fall apart before reaching the breakwaters outside the harbor.

Mr. Speaker, there are other problems which have been caused or made worse by the presence of large numbers of live-aboards at the boat harbors. At the hearing, Mr. Speaker, the Department of Transportation made reference to the problem of crime. Let me say, and let me put this matter to rest once and for all. Of the one hundred something witnesses who came to testify, I don't think any member of the Committee would deny the fact that these were decent, lawabiding and hardworking citizens. So let us put that aside once and for all.

But, Mr. Speaker, one oe the more serious problems caused by the live-aboards, in part, by the live-aboards, is the problem of pollution. Although the Harbors Division has developed standards and requirements governing pollution at the harbors, enforcement of these has been minimal and pollution is believed to be on the increase. Although holding tanks, pump-out facilities, and comfort stations are provided at Ala Wai, Harbors Division personnel and others indicate that minimal use is made of many of these facilities. Hence, much sewage and effluents continue to be flushed directly into harbor waters.

Mr. Speaker, the situation has reached the point where even responsible personnel within the Department have declared that Ala Wai harbor is in an unmanageable condition. The Department recommended to us that live-aboards be excluded from State small boat harbors. Personnel of the Department must now divert a considerable amount of its limited administrative resources from one of its primary responsibilities--harbor management-to deal with the myriad of problems generated by the numerous residents who reside within harbor facilities which were neither planned nor intended for habitation purposes.

Mr. Speaker, the hearings showed that there are many people who have relied on the representation and the lack of intestinal fortitude of the Department of Transportation to enforce the rules and regulations. Therefore, we have amended House Bill 1499 by adding a new findings and purpose section and also providing that as of the effective date of the Act, no live-aboard applications shall be considered nor permits issued in order to comply with the purpose of this section; provided, however, that persons holding liveaboard permits prior to the effective date of this Act shall be permitted to renew such permits for their own use pursuant to the appropriate rules and regulations described by the Department.

Mr. Speaker, we are cognizant of the fact that State small boat harbors were not intended and constructed to provide facilities for permanent habitation nor operated or maintained as such. It is also aware that the Department of Transportation has failed to exclude live-aboards from these harbors. Your Committee, therefore, believes that a complete investigation of this issue is warranted before taking any necessary action to ensure that State small boat harbors are utilized for the purpose of promoting recreational activities and

the landing of fish. The Legislative Auditor has been conducting an audit of this program and should report his findings shortly. Therefore, rather than move prematurely in this area, we have amended House Bill 1499 to hold the matter of present live-aboards in abeyance until the issuance of the Legislative Auditor's report. At that time, Mr. Speaker, this body will have to make a hard, philosophical decision; that is, whether we will continue this lifestyle or we will permit this lifestyle to continue.

Mr. Speaker, allowing any new live-aboards is entirely contrary to the purposes of the State small boat harbors. More importantly, these harbors were not, nor are they planned to be suitable for permanent habitation. I might point out, Mr. Speaker, that until 1971, general funds were used to construct the facilities at the Ala Wai Harbor and for that matter, all small boat harbors. In effect, Mr. Speaker, until 1971, the general public, whether it be the service station worker from Kalihi or the plantation worker from Waipahu, was, in effect, subsidizing the small percentage of people who were living at the harbors. Therefore, Mr. Speaker, it is necessary to move quickly to remove from State small boat harbors those crafts which do not, with reasonable frequency, leave the harbor for the purpose of recreation and the landing of fish. The long waiting list for the berth space does not allow the use of the harbors for the purpose of recreation. As I stated earlier, we have amended House Bill 1499 to comply with this requirement.

In conclusion, Mr. Speaker, let me state that the Department of Transportation, in its failure to enforce the rules and regulations of the harbor, has built up the expectations of many of the present live-aboards. Many of them have invested heavily in their boats and many of them had expected to live there. This is a tough situation and this is something we will consider when we make the decision in the next session and this is something we have considered in the amended version of House Bill 1499.

Thank you."

Representative Blair then rose and stated:

"Mr. Speaker, I would simply like the record to reflect that the 'Grandfather Clause' was not put in at the request of any Representative, but rather, it was put in because the majority of the members felt that to leave this out would cause undue hardship for those now residing there. Thank you."

Representative Abercrombie then stated:

"Mr. Speaker, with regulations already clearly available to the Division of Harbors to deal with hulks, with speculators running wild in these islands, with millions of gallons of sewage being spilled into our waters, to single out this group at this time is something I cannot abide. At the minimum, I urge the Legislature to await the Legislative Auditor's report before we take any action.

I urge that we vote down this bill."

Representative Kamalii again rose and stated:

"Mr. Speaker, just a point. The Chairman of the Committee stated many problems and I contend that these problems are there but they are not there because of the liveaboards at the Harbor. They are there because of the negligence of the Department of Transportation and the Harbors Division. He mentioned finances, that in 1971, the CIP projects were spared as far as the boat harbor was concerned -- may I bring to the attention of this body that since 1972, 1973, 1974 and 1975 fiscal years, there has been a net surplus--in 1972 of \$141,000; \$83,000 in 1973; \$46,000 in 1974; and \$97,000 in the Special Boat Fund. These people are paying their way."

At this time, the Chair directed his remarks to the audience:

"I request that the audience do not tax the Chair's patience."

Representative Carroll, in rebuttle, then stated:

"It was mentioned that privileged parking was available to the people in the boat harbor at Ala Wai. That is not true, Mr. Speaker. Every three days or so, they are ticketed or if they accumulate numbers of tickets, they are towed away."

Representative Cayetano, in response to Representative Kamalii, stated:

"Mr. Speaker, the surplus cited by Representative Kamalii is somewhat misleading. One must remember that prior to 1971, the \$20 million worth of bonds from the General Fund were appropriated to construct the small boat harbor facilities. The General Fund is still carrying the debt service on those appropriations. The surplus you speak of, Representative Kamalii, is from the Special Fund but that does not include the debt service from the General Fund. Thank you, Mr. Speaker."

The motion was put by the Chair and H.B. No. 1499 passed Third Reading by a roll call vote of 33 ayes to 16 noes, with Representatives Abercrombie, Amaral, Carroll, Clarke, Evans, Fong, Hakoda, Kamalii, Larsen, Medeiros, Oda, Poepoe, Santos, Soares, Sutton and Yap voting no, and Representatives Ikeda and Lunasco being excused.

H.B. No. 1648 on Third Reading:

Representative Roehrig moved that H.B. No. 1648, having been read throughout, pass Third Reading, seconded by Representative Uechi.

Representative Sutton then rose and stated:

"Mr. Speaker, I wish to speak against this bill.

Mr. Speaker, we have in the common law, the concept that dower is a one third interest, at best, during life, and the courtesy is the interest of the male spouse that only vest upon them, both being one third.

For many, many years, all our deeds, all our estate planning, all of the common law has followed this concept. This is a rule of law that is imbedded very deeply in all conveyances and all transactions concerning land. When we change this, we have changed maybe 500 years of common law. When we change this, we are not just following a concept of equality of the law in a new concept of women's liberation and men's liberation, we have moved into a field and into a sphere where we interrupt the very basic elements of the common law. I, therefore, Mr. Speaker, oppose this bill."

Representative Carroll then stated:

"Mr. Speaker, I rise to speak in favor of this bill.

I signed Committee Report No. 451 reporting out House Bill 1648 'I do not concur.' At the time that we had the Committee hearing, I went over the bill that was before us and I had some concerns at that time because of the intricacies of the language changes which had been made to the original bill. After having perused that bill quite carefully and having conferred briefly with our House Minority Attorney, I find that it is a well written bill, a good law, and I urge all to vote for it.

Thank you, Mr. Speaker."

Representative Roehrig was recognized and stated:

"Mr. Speaker, I would like to make a few remarks in favor of this measure.

I think one of the previous speakers raised a very important point regarding this legislation. It is true that many of the laws that govern this community and this society have been imbedded in the legal framework as a result of many years of legislation and much tradition going back to our common law heritage in England. Notwithstanding, part of the role of the Legislature as policy makers for this society is to adjust and amend the rules of the road, so to speak, that this society operates under. In the area of dower and courtesy, we face an anomaly. This Legislature and this State has seen fit to adopt an equal rights amendment to our State Constitution which provides, in essence, that there shall be no discrimination as between men and women based on sex alone. However, in our law relating to inheritance, until this measure has been introduced this year, we were faced with a situation where the owner of property who is a woman and who is married is entitled to convey whatever property she owns in her own regard without the consent of her spouse. On the other hand, would the man attempt to do the same thing, the present statutory law and common law throughout the United States would require that the man get the consent of his wife in order that a cloud not be presented at the time of transfer of title.

This measure corrects that inequity. It provides, in the final

analysis, that women and men will be treated equally. It provides to the man of the marriage the opportunity to be consulted with and have his consent given if his spouse wishes to transfer during her lifetime an interest in property which she has. This is in keeping with our equal rights amendment and I think it is a good measure and I urge the members of this House to support it. Thank you."

The motion was put by the Chair and H.B. No. 1648, having been read throughout, passed Third Reading by a vote of 46 ayes to 3 noes, with Representatives Blair, Sutton and Yamada voting no, and Representatives Ikeda and Lunasco being excused.

The Chair directed the Clerk to note that H.B. Nos. 1854 at 9:08 o'clock p.m.; 147 at 9:09 o'clock p.m.; 1853 at 9:10 o'clock p.m.; 1855 and 1872 at 9:11 o'clock p.m.; 898 and 946 at 9:12 o'clock p.m.; 1877, 1323, 1037 and 582 at 9:13 o'clock p.m.; 1776, 1692 and 1412 at 9:14 o'clock p.m.; 1417 and 1218 at 9:15 o'clock p.m.; 484 at 9:22 o'clock p.m.; 1851 at 9:23 o'clock p.m.; 1764 and 643 at 9:24 o'clock p.m.; 1411, 1419 and 449 at 9:25 o'clock p.m.; 803, 927 and 1550 at 9:29 o'clock p.m.; 1136, 1241 and 513 at 9:30 o'clock p.m.; 259 at 9:31 o'clock p.m.; 518, 1783 and 1410 at 9:34 o'clock p.m.; 127, 108 and 931 at 9:43 o'clock p.m.; 1213, 1576, 332 and 320 at 9:45 o'clock p.m.; 1864, 766 and 1240 at 9:46 o'clock p.m.; 989 at 9:51 o'clock p.m.; 381 at 9:52 o'clock p.m.; 701 and 1748 at 9:53 o'clock p.m.; 619 at 9:55 o'clock p.m.; 1876, 1498 and 1852 at 10:00 o'clock p.m.; 1499 at 10:34 o'clock p.m.; 1734 at 10:35 o'clock p.m.; 152 and 115 at 10:57 o'clock p.m.; 430 at 10:58 o'clock p.m.; and 1648 at 11:05 o'clock p.m.

At this time, Representative Carroll rose and stated:

"Mr. Speaker, this is not an announcement but a reaffirmation of an invitation to Representative Cayetano and Representative Blair to sail on my boat out of our very clean waters in the Ala Wai."

Representative Cayetano responded:

"Mr. Speaker, Representative Carroll, I would be very glad to accept your invitation, but you don't mind if I take my wife, do you, instead of the other person you mentioned."

Representative Blair then stated:

"Mr. Speaker, I gratefully accept, provided that if I go out with Representative Carroll, there are provisions for bringing me back."

The Chair stated:

"I presume you mean alive, too."

Representative Carroll replied:

"Mr. Speaker, I meant to say that I would guarantee safe passage insofar as possible."

Representative Suwa moved that the report of the Committee be adopted and that H.B. No. 62, HD 1, having been read throughout, pass Third Reading, seconded by Representative Akizaki.

Representative Takamura requested that the following statement be inserted into the Journal:

"Mr. Speaker, I rise to speak in favor of H.B. 62, HD 1. This bill creates an Executive Office on Aging within the Governor's office and abolishes the State Commission on Aging. It is supported by virtually every senior citizen's group in the State, as well as by every government agency dealing with senior citizens, including the Commission on Aging.

The programs and services available to the elderly are inadequate and fragmented; they are continually locked in conflicts between state, local and federal regulations and standards; inadequate outreach prevents many senior citizens, who could benefit from programs the most, from ever making use of them. H.B. 62, HD 1, mandates the Executive Office on Aging to correct these problems, and gives the office the authority, structure and funds to get the job done. Accountability is ensured by assigning clear responsibility at both state and county levels, and responsiveness to the elderly is assured by building in meaningful senior citizen participation at both levels.

H.B. 62, HD 1, will improve the quality of life for the elderly in Hawaii by providing them with a single, powerful voice to speak in their behalf. I therefore urge the members of the House to join me in support of H.B. 62, HD 1."

The motion was put by the Chair and carried, and the report of the Committee was adopted and H.B. No. 62, HD 1 passed Third Reading by a vote of 46 ayes, with Representatives Hakoda, Ikeda, Kunimura, Segawa and Takamura being excused.

No. 40, HD 2, having been read throughout, passed Third Reading by a vote of 46 ayes, which is not less than two-thirds of the members to which the House is entitled, with Representatives Hakoda, Ikeda, Kunimura, Segawa and Takamura being excused.

Stand. Com. Rep. No. 498 on H.B. No. 100, HD 1 (Deferred from March 11, 1975):

Representative Machida moved that the report of the Committee be adopted and that H.B. No. 100, HD 1, having been read throughout, pass Third Reading, seconded by Representative Suwa.

Representative Machida then stated:

"Mr. Speaker, I arise to speak in favor of House Bill 100, House Draft 1.

Hawaii has been a tourist destination for well over 100 years . . . yet, in all that time the various governments of Hawaii have not seen fit to give the tourist industry guidance and direction . . . this may well be understandable, for the tourist of past decades was more a curiosity than a contributor to the community. Today, however, visitors generate more than \$1 billion income and thus directly affects the lives of each and every one of us.

It is the purpose of House Bill 100, House Draft 1, Mr. Speaker, to give the visitor industry the guidance which will insure the quality of life for all our residents . . . and to provide the protection which will insure the tourist an enjoyable stay in our islands.

The bill will establish an Office of Tourism within the Department of Planning and Economic Development where coordination and direction will take place. The bill also provides for the creation of a Visitor Industry Council which will be able to provide the necessary technical assistance and advice. Perhaps most important, however, the Bill mandates the drafting of a comprehensive 10-year controlled plan to insure that tourism follows the direction willed by the people.

Support for this bill, Mr. Speaker, represents a commitment to the preservation and enhancement of this vital industry. I encourage this honorable body to pass House Bill 100, House Draft 1 on Third Reading."

The motion was put by the Chair and carried, and the report of the Committee was adopted and H.B. No. 100, HD 1 passed Third Reading by a vote of 44 ayes to 2 noes, with Representatives Carroll and Sutton voting no, and Representatives Hakoda, Ikeda, Kunimura, Segawa and Takamura being excused.

Representative Stanley moved that the report of the Committee be adopted and that H.B. No. 35, HD 2, having been read throughout, pass Third Reading, seconded by Representative Suwa.

Representative Stanley then rose to speak in favor of the bill.

"Earlier this year, as we, in this honorable body, began to set our directions, we pledged that economic security was a matter of right for all our people. We further pledged to provide for the old, the disabled, the blind, children and mothers of young children.

House Bill 35, House Draft 2 is a step towards realizing this goal. It provides a maximum payment schedule for basic needs and shelter for those, we acknowledge, have sought the 'last resort' of public assistance. This bill seeks to restore some human dignity to our welfare system. It also seeks to make this a more equitable system by basing payments on family size. By passing this bill we will clearly establish legislative intent and direction. The Department will be able to do a better job of serving people. Discretion will be replaced with implementation.

While this bill reflects the importance

of a carefully designed welfare system, it does not, at the same time, ignore the existing community dilemmas of the lack of low cost housing units and the soaring cost of living. In the many deliberations on this bill, a humane and reasonable standard of living were earnestly sought by all parties. And it is to the credit of the community groups and Department personnel involved that we are able to vote on this matter today.

In our deliberations, we also considered the dilemma, inherent in this bill, of setting welfare benefits at a level that would discourage work. Your Committee has reached the conclusion that this bill will not discourage work nor provide more income than is needed by the recipient. We believe we have struck the correct balance in setting the level of benefits.

Mr. Speaker, may I urge my colleagues to give favorable consideration to House Bill 35, HD 2. This bill asserts our intentions to restore humanity, equity, and sensitivity to our public assistance system.

Thank you."

The motion was put by the Chair and carried, and the report of the Committee was adopted and H.B. No. 35, HD 2, passed Third Reading by a vote of 47 ayes, with Representatives Hakoda, Ikeda, Kunimura and Segawa being excused.

"Mr. Speaker, I rise to speak in favor of H.B. No. 1900. House Bill 1900 amends Section 46-15 of the Hawaii Revised Statutes by eliminating the provisions which enables the counties to designate lands for experimental and demonstration housing if those lands are contiguous or adjacent to a presently zoned urban area.

The intent of this bill is to prevent the significant circumvention of this statute by closing a loophole that now exists. Section 46-15, unless amended, presently enables the counties to develop experimental and demonstration housing projects on agricultural and conservation districts without regard to the Land Use Law, as long as the project is contiguous or adjacent to an existing urban area.

The problem is that more so than ever today, we are concerned with preserving our prime agricultural lands, and insuring that Hawaii's limited and valuable lands not be used for short-term economic gain. By having this statute remain as written, we risk the chance of losing those agricultural lands as well as open ourselves up for a greater degree of short-term speculation.

The needs for additional housing are apparent and great. But in the pursuit of providing homes for the citizenry of our State, let us not do so at the sacrifice of our agricultural lands.

In closing my remarks, I would like to extend a word to the counties about their relation to this bill. I commend all efforts by the counties in establishing and implementing housing projects. It is <u>not</u> the objective of this bill to retard or disrupt any part or whole of the counties' housing programs, rather, it is to insure that the adequate controls are present where housing projects may utilize prime agricultural or conservation lands.

I urge all members of this honorable body to vote in favor of House Bill 1900.

Thank you."
