

THE
 TWENTY-FIFTH LEGISLATURE
 STATE OF HAWAII
 REGULAR SESSION OF 2010
 JOURNAL OF THE HOUSE

FIRST DAY

Wednesday, January 20, 2010

In accordance with the provisions of Section 10, Article III of the Constitution of the State of Hawaii, the House of Representatives of the Legislature of the State of Hawaii, convened in Regular Session of 2010.

The Honorable Calvin K.Y. Say, Speaker of the House of Representatives, called the House to order at 10:00 o'clock a.m.

The invocation was then delivered by Brother Bernard Ploeger, President, Chaminade University, after which the Roll was called showing all Members present.

At this time, the Speaker delivered his address, stating:

"Last year, the State of Hawaii, the nation, and the world faced an international financial meltdown unprecedented since the Great Depression.

"To prepare us for the resulting challenges, I paraphrased Martin Luther King Jr. in my 2009 Opening Day speech: "The true measure of a person is not how the person behaves in moments of comfort and convenience, but how the person stands at times of controversy and challenges."

"I then asked: "What is our true measure? How will we react to the challenges of this great State?"

"Members, I am proud to say that we accepted and confronted those challenges directly. We, along with the State Administration and the Senate, made many extremely difficult decisions to fill a gap of \$2.1 billion – decisions that were very unpopular among segments of the community.

"Last year, despite clear evidence of the economic downturn and tax revenue shortfall, many parties still requested the establishment of new programs, appropriation of more moneys, or retention of tax credits of great costs. Together, we withstood the criticism, pressure, and even threats of those who opposed our actions to balance the budget. Members, last year we, along with the Senate and the State Administration, performed admirably.

"This year, again we face substantial economic and budgetary problems. The University of Hawaii Economic Research Organization projects that the unemployment rate will increase in 2010, while real personal growth will decrease. Moreover, those on the Finance Committee heard the Council on Revenues has lowered its projection of general fund revenues for the fiscal year to a minus 2.5 percent from a minus of 1.5 percent. The continuation of the Great Recession has once again caused a budget gap of another \$1.2 billion.

"And so last year, Members, I laid upon us certain challenges. This year, because of the recurrent budget gap, those challenges still hold true. We must join together to resolve the budget crisis. We must focus our priorities to do so. We must maintain a basic safety net of social and health services for those who have suffered through no fault of their own. We must continue to support our public school system.

"This year, I lay one new challenge upon this chamber. Let us remember to be "unselfish" in our legislative work.

"Let us work with the sole purpose of producing good policies and legislation for the people of this great State. Let us share our ideas and, more importantly, be willing to share credit with others. Let us work without expectation of public accolade, media attention, or political reward. Let us be willing to compromise and sacrifice and subordinate ourselves when necessary to achieve positive and meaningful legislation. Let us be respectful of and listen to our fellow Members, even when they have their differing viewpoints. Let us be empathetic to our fellow Members, giving attention to their needs, vulnerabilities, and conscience. Let us all collectively share the burden of moving the State forward. We have the will and ability to do so.

"Finally, let us put the overall public good before narrow benefits to special interests. As I said last year: "Almost all special interest groups, whether for-profit or nonprofit, have organized memberships with a lobbying presence at the Legislature. Ordinary taxpayers, however, have none. They have only you and me to represent them."

"And let me repeat this, for it is a precept that can easily slip the mind during the hectic months ahead: ordinary taxpayers have only you and me. I am confident that we will not let them down.

"This year, I also lay some challenges on others involved in the political process.

"To the business community, to the trade community, to the labor community, and to the nonprofit organizations that come before this legislative body, be aware of the need for "balance" among competing interests during these extraordinary times. We recognize, with much sympathy, that both the public and private sectors have already suffered due to layoffs, furloughs, pay cuts, grant-in-aid reductions, sales decreases, business closures, and higher taxes. Nonetheless, the economic and budgetary problems persist, requiring more sacrifice rather than preservation of the status quo. This economic and budgetary crisis requires a change of attitude among all of us. I understand that you, the advocacy organizations, must lobby for your memberships and their interests, but I challenge you to take more of an unselfish approach. Be aware of the negative impacts of your positions on others and consider compromises that benefit the overall good of our economy and community. I know that your officers, representatives, and members care as much about Hawaii as we do.

"To the general public, we need you to identify your priorities, but also to be prepared for the consequences if implemented. We cannot operate with the intent of making everyone happy and expect to remain fiscally solvent. Instead, we must act on the principle that government cannot be everything to everyone. If you want more of a better public service or facilities, be prepared to pay for them. Conversely, if you do not want to pay more taxes or fees, be prepared to receive less public services or facilities. If you want more mandates on business, be prepared for an increase in the cost of compliance, and the resultant rise of consumer prices or decrease of business income. On the other hand, if you want to de-regulate business, be prepared for the diminished protection for the public health, environment, workers, and consumers. In the end, I have much faith in the fairness, altruism, foresight, and, most of all, common sense of the general public. I know that their priorities will be sound and unselfish.

"Members, at this time I am very optimistic about the next year. For us, economic recovery is approaching.

"Many signs of improvement are apparent. Hawaii has been selected to host the APEC Conference. Almost 700,000 air seats will be added to the Hawaii market by various trans-Pacific airlines. A new company of brave entrepreneurs will continue the fresh pineapple operation on Maui. A major entertainment company, without a previous presence in Hawaii, is proceeding with its Ko Olina time share project and that same company will begin filming the fourth *Pirates of the Caribbean* movie in the State during the summer. The Hawaii seed crop industry and the bottled water industry continue to grow, two bright spots in attracting out-of-state dollars into this economy. Just as beneficial, local dollars are being kept in Hawaii because more and better renewable energy projects are replacing imported fossil fuels.

"In closing, Members, be reminded that the condition of our State is not predestined, nor unchangeable. Our State is not fated to follow the economists' predictions of our short-term sluggishness. On the other hand, neither is our State fated to automatically rebound after reaching the absolute bottom of the recession. We can and must be active contributors towards the betterment of this great State that we love, and not merely passive observers content to watch from the sideline.

"Members, I am confident that we, along with the Senate and State Administration and people of Hawaii, have the character, the courage, the compassion, the intelligence, and the sense of purpose to overcome the challenges set before us. We will realize a better future for the State of Hawaii.

"To all of you Members, friends, and you, the public out there, let's get to work! Aloha!"

At this time the Chair recognized special visitors to today's Opening Day Session:

The Lieutenant Governor, Duke Aiona and Mrs. Vivian Aiona;

Legislators and members of the Fukuoka Prefecture delegation visiting from Japan;

Counsel General Yoshihiko Kamo, Consul General of Japan; and

County Council Members of the respective four counties.

The Chair then recognized Representative Finnegan, the Minority Leader, to present the Minority's response.

"Thank you, Mr. Speaker. Welcome Lt. Governor, Mrs. Aiona, and to all our special guests from Fukuoka, as well as our State, City and County governments, Mr. Speaker, Members of our House of Representatives, and to all of you who took the time to be here today. Thank you and welcome.

"I think it's fair to say that the mantra of the majority of the people in this Chamber this past year has been "hope" and "change." Your House Republicans agree with the Majority. It's time to fundamentally change the way we do things in Hawaii. The severity of our economic and budgetary challenges leaves us with no other alternative. Failure to change would be just that – a failure. It's time to make a difference in the two main areas that dominate the hearts and minds of the people of Hawaii: education and economy.

"We've spent decade after decade trying to figure out how to fix education. Despite the \$2 billion we spend on education, the current DOE system continues to favor adults above students. I'm tired of hearing about Hawaii's education being ranked 47th in the nation, and you should be too. We can't fail our children again. It is time to end Furlough Fridays and other symptoms of the broken system and improve education. We are offering changes to instructional days, DOE accountability, the collective-bargaining process and Public Charter Schools.

"All of the legislative measures we will introduce focus on putting students and their needs first. Remember, the fundamental purpose of our educational system is to educate, not just to employ. Furlough Fridays demonstrate that we are not succeeding in our mission to put students first.

"I believe that all of us want to improve our economy. The primary difference between the political parties lies in how we do it. It's a matter of survival – economic survival that doesn't cause this fragile recovery to crumble. The challenges and hurdles that lie ahead in the path of full economic recovery require prudent decision-making and a long-term vision for sustainable economic growth. Our posture for economic recovery will include protecting residents from higher taxes and a higher cost of living, improving the business climate that includes decreasing the soaring unemployment insurance tax premiums, and promoting job growth measures that shape our vision for Hawaii's future. The House Republicans are committed to providing that kind of leadership here at the State Capitol.

"And although there are signs of the economy turning around, the Republican Caucus believes that raising taxes to balance the budget is the wrong decision. We are one of the highest taxed states in the nation. The more we tax, the less our hardworking people and their families have to manage family budgets. The higher the taxes, the bigger the government. The bigger the size of government, the more it contributes to inefficiency and the more it curtails personal freedom for our tax-paying residents. Answer this question: if we are to raise taxes to deal with the budget shortfall, would we decrease taxes when the economy improves? The answer is no. In times like these, people are looking for ways to be self-sufficient, to succeed. Raising taxes penalizes self-sufficiency and success, and is completely counterproductive during a recession. It's time that our State government lives within its means and makes sure that we still fund priorities like instruction days for students.

"We can't fix our economic problems by increasing the taxes on businesses. Businesses don't have more money to give to government, especially during these times. Small businesses are the engine of economic growth. Shirokiya's recent announcement of laying-off 71 employees in anticipation of the increasing unemployment insurance tax serves as powerful evidence of what businesses will and must do when taxes are increased. One of the fundamental differences between the majority and minority is the recognition that innovation in the private sector grows the economy far better than government can.

"In conclusion, fundamentally, the more you tax people, the more we become dependent on government. The more we become dependent on government, the less opportunity and personal liberty we have. There is an enduring nature of America's promise of opportunity. The continuing immigration to America is powerful testimony that people are still seeking that kind of opportunity and promise, even today. These immigrants are consciously choosing to pursue opportunity, just like my dad and my grandparents, and many of the family members before you. We, too, must consciously foster opportunity. The hope of Hawaii's future lies not in enabling inefficiencies and dependency. By embracing change and opportunity, Hawaii's best days lie ahead. It's time for things to change. It's time to put students and families first.

"Thank you, Mr. Speaker and colleagues; we look forward to working with you and to our guests who made it a point to come and talk story, the Republican Members wanted me to invite you to our offices upstairs after this. Mahalo and aloha."

State Capitol
Honolulu, Hawaii 96813

GOVERNOR'S MESSAGE TO THE 25TH STATE LEGISLATURE OF HAWAII MEETING IN THE REGULAR SESSION OF 2010

In compliance with Article VII, Section 9, of the Hawaii Constitution, I hereby submit to the State Legislature the Executive Supplemental Budget for Fiscal Biennium 2009-11 and the updated Program and Financial Plan for the period 2009-15.

This Supplemental Budget proposes a number of significant changes and adjustments to Act 162, SLH 2009, the General Appropriations Act of 2009, which authorized funding for the two-year fiscal period that began on July 1, 2009 and ends on June 30, 2011.

Much has changed in the past two years. The severe recession of 2008 swept across the nation and many parts of the world with unanticipated force and brought with it enormous challenges for governments at all levels. Its devastating effects on businesses and employment are still being felt today. The national Gross Domestic Product (GDP) began its downturn in the first quarter of calendar year 2008 and ended in the fourth quarter with essentially no growth. The year 2009 saw continued deterioration to a -1.4% decline in the first quarter and -2.4% in the second quarter. The recent improvement in third quarter GDP is the first encouraging sign in a long time and its sustainability is not yet known.

National and global economic events have had a profoundly adverse impact on Hawaii. The tourism industry has suffered severe setbacks. Visitor arrivals decreased by double-digits throughout most of 2008 and the first half of 2009. Private construction building permits went into negative territory for the same time period. Hawaii's unemployment rate, which had stayed consistently below 3% since 2004 and had been among the lowest in the nation, doubled to 6.5% in the first months of 2009. It was at 7.0 % in November 2009. After years of extraordinary growth when Total Personal Income (TPI) was in the range of 6% to 8% annual gains, Hawaii's TPI registered essentially no improvement in the first half of 2009.

Reflecting the contraction in the economy, State tax revenue collections have also been on a steep decline. General fund tax revenues fell by -9.5% in FY 2009 and are projected by the Council on Revenues (COR) to decrease by an additional -2.5% in the current FY 2010.

This is the economic and fiscal environment we have confronted during the past two years. As a State, we have had to take difficult but necessary actions to meet Hawaii's critical needs in these challenging times while dealing with historical revenue declines.

Starting with the execution of last year's budget (FY 2009), our Administration responded quickly to limit the State's exposure to the unfolding economic and fiscal uncertainties. First, hiring restrictions went into effect for all programs except those affecting public health and safety. Second, a general fund restriction of 4% on discretionary operating costs was applied to all departments. Third, restrictions were placed on specific appropriations outside of the budget. These were the beginning steps of a deliberate and prudent fiscal policy to control State spending and keep it in line with lower revenue expectations.

These restrictive measures continued when additional spending reductions were imposed (2% in January 2009 and 2% in May 2009) as we developed the budget for the Fiscal Biennium 2009-11. Sharply declining State revenues required the most severe budget reductions in recent history. General fund operating costs were cut by \$270 million over the biennium. The 2009 Legislature further reduced the Executive Branch biennium budget by an additional \$173 million in response to lower revised revenue projections by the COR during the session. These cost cutting decisions and various revenue generation actions by the Legislature and the Administration were instrumental in averting a serious budget shortfall at the end of FY 2009.

However, the fiscal crisis continued as we began the new fiscal biennium on July 1, 2009 with a worse-than-projected revenue picture. Using the official revenue projections from the COR as of June 2009, we had anticipated a budget gap of \$633 million by the end of FY 2011. This number became significantly larger, \$1.19 billion, as a result of the COR's lower revisions in August 2009. The stark reality of continuing declining general fund revenues means the State does not have sufficient resources to cover all expenditures that previously had been authorized for the new FY 2009-11 budget. The gap between projected revenues and actual appropriations must be closed to satisfy the constitutional requirement of a balanced budget. This is our paramount responsibility for the current fiscal biennium, recognizing we have an obligation to do so in a manner that protects the core functions of State government.

REVENUE PROJECTIONS

On September 29, 2009, the COR revised its general fund tax revenue projections to reflect a decrease of -1.5% for FY 10 and an increase of 6.5% for FY 11. (The previous projections were 0% and 5.6%, respectively.) To put these numbers in perspective, general fund tax revenues increased by 8.3% in FY 04, 16% in FY 05, 10.9% in FY 06, 3.4% in FY 07, and 1.2% in FY 08; positive growth was reversed by a decrease of -9.5% in FY 09.

On December 17, 2009, the COR revised its projections to reflect a decrease of -2.5% for FY 2010 and an increase of 7.6% for FY 2011. These revisions mean the cumulative general fund budget gap for the current biennium grew by another \$40 million.

In the first five months of FY 2010 (July through November 2009), general fund tax collections decreased by a cumulative -6.5% over the previous year.

We estimate that general fund revenues will not return to pre-recession 2008 levels until FY 2012 at the earliest. Further, because State tax revenues lag behind improvements in the private sector economy, it is possible it will be 2014 before revenues return to pre-recession levels.

REDUCING EXPENSES IN FY 2010

As stated above, our paramount responsibility in the current fiscal biennium is to address a current revenue shortfall of \$1.23 billion. The magnitude of the gap has required a substantial and immediate reduction in operating expenses. For FY 2010, spending restrictions and other administrative measures were implemented on July 1, 2009 to reduce overall spending. These included restrictions on specific appropriations, eliminating cash funding for capital improvements, debt restructuring, and a comprehensive restriction of 13.85% on operating budget appropriations.

Because payroll costs are the single largest category of expenditures in the State budget, accounting for 60% of the budget total, they must be reduced for any plan to effectively close the budget gap. Our original plan to implement a furlough of all State employees for 3 days a month was blocked. This furlough plan would have saved an estimated \$680 million in general funds for the biennium.

To achieve needed payroll savings, a reduction-in-force (RIF) was initiated in August 2009. I was personally saddened by the necessity to take this action and understand the hardship it has created for those affected by the RIF. However, the State had few options to achieve immediate payroll savings.

Concurrently, collective bargaining discussions were pursued with the Hawaii State Teachers Association (HSTA), the Hawaii Government Employees Association (HGEA) and the United Public Workers (UPW) to arrive at contract agreements for the biennium. Contracts with the HGEA and the HSTA allow for furloughs averaging two days a month over the biennium. General fund savings on payroll costs including fringe benefits from the furlough plan are estimated to be \$170.7 million in FY 2010.

The combination of all the above actions - - restrictions, debt restructuring, RIF, furlough and other administrative measures - - is expected to reduce general fund spending by a total of \$452.3 million in FY 2010. This is a critical step toward closing the budget gap but it is not enough to close the shortfall completely. The following additional actions are needed in order to balance the 2010 budget and reflect a projected \$60.3 million ending fund balance:

1. Transfer excess balances from special funds. Our most recent review of non-general fund accounts indicates a potential \$10 million in excess balances that can be transferred to the General Fund.
2. Delay payment of income tax refunds within the legally allowed 90-day period starting in 2010. This option would provide a one-time savings of \$275 million in FY 2010.
3. Refinance and restructure G.O. bond debt. The refinancing of debt which was recently completed in November 2009 yielded a total of \$97.3 million in savings for the biennium. Additional refunding and restructuring will reduce debt service costs by \$18.6 million in FY 2010.
4. Review expenditure plans and lapse excess authorizations as applicable. We will continue our efforts to closely monitor program expenditure plans to eliminate unnecessary spending and lapse any excess appropriations.

REDUCING EXPENSES IN FY 2011: SUPPLEMENTAL BUDGET REQUESTS

We must continue pursuing labor cost reductions and are redoubling our efforts to reshape State government to focus on essential and critical services. Our objective is to realign State programs and services with available resources and place the State budget on a sustainable path. The austere financial environment that we face requires nothing less.

As an integral part of budget preparation, departments and agencies have been directed to continue a critical review and re-assessment of programs to determine the core functions and essential services of State government. The overall target is a 13.85% reduction in general funded operating costs for FY 2011. Special funded programs are also required to operate under a ceiling and trim their expenses.

For capital improvements, the current level of authorizations is substantial and is deemed adequate for the biennium. Requests for new funding and projects have been kept at a minimum to curtail borrowing costs. Departments have been instructed to accommodate their capital improvement program (CIP) needs through lapses and trade offs of existing capital improvement program appropriations.

The Executive Supplemental Budget requests for FY 2010-11 are summarized below.

	<u>FY 11</u> <u>Appropriations</u> (\$million)	<u>FY 11</u> <u>Adjustments</u> (\$million)	<u>FY 11</u> <u>Requests</u> (\$million)
Operating Budget			
All means of financing (MOF)	10,467.3	(378.2)	10,089.1
General Fund	5,267.6	(348.3)	4,919.4
Capital Improvements			
All MOF	972.3	164.9	1,137.2
G.O. Bonds	185.8	46.3	232.1

The Operating Budget

The Executive Supplemental Budget submission for FY 2011 reflects the following actions:

1. **Reduce State payroll costs.** A total of 1,990 positions (1,693 permanent and 297 temporary) are proposed for elimination. A total of 792 of these positions are vacant. The distribution by departments and means of financing (MOF) is presented in the Appendix that follows. While every department is affected, the biggest reductions are in the largest general funded programs: Health, Human Services, Public Safety, Accounting and General Services, and Agriculture. The reduction includes the following components:
 - Elimination of 792 vacant positions (\$29.2 million saved from all MOF, \$11.1 million in general funds).
 - Elimination of up to 1,198 positions identified for layoffs under the August 2009 RIF plan (\$48.8 million saved from all MOF, \$42.7 million in general funds).
 - Adjustment in the number of positions that were affected by program changes due to reduction, restructuring, or MOF changes.

For the Department of Education (DOE), the University of Hawaii (UH), and the Hawaii Health Systems Corporation (HHSC), their respective governing boards were given latitude as to how to implement a 13.85% reduction in operating expenses.

The overall changes to the State's workforce are summarized below.

	<u>General Fund</u>	<u>Other MOF</u>	<u>Total</u>
Number of reductions	1,402	588	1,990
Permanent	1,263	430	1,693
Temporary	139	158	297

Filled positions	1,023	175	1,198
Vacant positions	379	413	792

2. **Pursue other labor cost savings through collective bargaining negotiations.**

Another means to reduce payroll expenses is through curtailment of working days. The new contract with the HGEA implements a furlough of up to 24 days in FY 2011, and the HSTA contract includes furloughs of 17 or 21 days depending on whether the employee is a 10-month or 12-month worker. While negotiations are still pending with other unions, the departments and agencies their members work for are held to the same level of savings that can be expected from a comparable furlough. Overall payroll reductions including fringe benefits are estimated to be \$198.4 million from general funds.

3. **Align program requirements with appropriate means of financing.**

We have identified additional programs and activities that appropriately should be funded with revenue sources other than general funds. As a result, 22 positions and related program expenses are proposed to be funded by various federal and non-general fund sources. General fund savings of \$15 million each year are derived from the following changes:

- In the Cash Support for Families program (HMS 211), two-parent cases are moved from general funds to federal funds under the Temporary Assistance for Needy Families (TANF) program (\$7.6 million).
- In the Cash Support for Child Care program (HMS 305), childcare expenditures are moved from general funds to TANF funds (\$5.5 million).
- In Plant Quarantine (AGR 122), funding for Inspectors is changed from general funds to special funds generated by program fees (22 positions and \$1.7 million).

4. **Reduce operating costs, restructure programs, and preserve essential services of State government.** As revenues continue to decline, the State cannot stay on its current course and maintain the same level of services. Reductions in general funded programs will be achieved through: consolidating and streamlining operations, rolling back non-essential or recently added services, eliminating programs of low priority, and reducing levels of benefits. Adjustments occur in the following areas:

Department of Agriculture

- Elimination of the Agricultural Statistics Services Branch and the Market Analysis and News Branch.
- Deletion of 30 Inspector positions (28% reduction) in the Plant Quarantine program.

Department of Health

- Abolishment of Dental Hygiene Services. Preventive services to students will no longer be offered.
- Abolishment of the Community Health Division and consolidation of services into the Tobacco Settlement program account.
- Restructuring and merging existing services into a new General Medical and Prevention Services Division.
- Reduction of 37 permanent positions (20% reduction) in the Adult Mental Health program for outpatient services.
- Reduction of 62 permanent positions (36% reduction) in the Family Health Services program.
- Reduction of 23 permanent positions (89% reduction) in the Public Health Nursing program relating to school health aides.

- Reduction of 37 permanent positions (63% reduction) in the Vector Control Branch.

Department of Human Services

- Elimination of HMS 212 (Cash Support for Aged, Blind, and Disabled Individuals) and consolidating services into HMS 202 (Aged, Blind, and Disabled Payments) and HMS 204 (General Assistance Payments).
- Curtailment of benefits in the Medicaid Adult Dental Services program to include emergency dental services only.
- Reduction of healthcare costs through implementation of managed care and the new Basic Health Hawaii plan.
- A reduction of 113 permanent positions (38% reduction) in the Medicaid program.

Department of Accounting and General Services

- Deletion of 57 permanent positions (30% reduction) in the Information Processing and Communications Services program.
- Deletion of 49 permanent positions (33% reduction) in the Custodial Services program.

Department of Public Safety

- Closing of Kulani Correctional Facility on Hawaii and assigning 81 permanent positions (from a total of 91) to other facilities.

Two significant programs will continue to require further monitoring:

- Medicaid. Proposed appropriation levels for FY 2011 have been established using the best assumptions available regarding enrollment growth and cost containment. These assumptions may be revised if enrollment and costs exceed our current projections.
- The Hawaii Health Systems Corporation. Proposed funding from general funds is at the level authorized for FY 2011. Any adjustment will have to be addressed during the 2010 Legislative Session.

5. **Maximize the use of federal funds.** Hawaii is receiving a substantial amount of federal assistance under the American Recovery and Renewal Act of 2009 (ARRA). A total authorization of \$943 million was included for the biennium in Act 162, SLH 2009, to provide additional operating funds for higher and lower education, unemployment insurance and workforce development, health and welfare, renewable energy and environmental management, housing, and transportation. Another \$19.8 million is requested in the Supplemental Budget to increase the federal ceiling for ARRA funds being received by the Housing Finance and Development Corporation. We continue to explore and maximize the opportunities for additional federal grants under ARRA as well as through traditional federal programs.
6. **Continue the restructuring and refinancing of G.O. bond debt.** Debt restructuring has been an important tool of fiscal management as we seek to find market opportunities for reducing the debt service costs of the State's borrowing program. For FY 2011, a restructuring program will provide significant savings and result in lower debt service costs.

The Capital Improvement (CIP) Budget

The capital improvement plan for FY 2011 continues to focus on an expanded Major Repair and Maintenance program aimed at getting projects done quickly to address the repair and maintenance backlog and help with job creation. Priority is given to projects currently in progress or

nearing completion and projects that improve energy efficiency or contribute to the development of clean energy alternatives for Hawaii. In the area of transportation, we will continue to make modernization plans for airports and harbors high priorities.

In an effort to update and eliminate project authorizations that are no longer necessary, we have identified a total of \$70.2 million in existing CIP appropriations that are designated to lapse.

New requests for capital improvements include the following significant projects:

- A new facility for the College of Hawaiian Language at the University of Hawaii at Hilo (\$31 million)
- Facility repair and maintenance and construction for public charter schools (\$10 million), including \$2.2 million for health and safety, \$6.0 million for classroom renovations, and \$1.8 million for relocating charter schools to public facilities
- Renovation of the Kulani facility and infrastructure to develop a new Youth Challenge Academy on Hawaii (\$1.8 million)
- Capitalization loans for safe drinking water projects (\$6.5 million)
- Capitalization loans for wastewater projects (\$12.7 million)
- Improvements to Honolulu International Airport, Elliot Street support facilities (\$50.9 million)

PROPOSALS TO ADDRESS THE BUDGET AND REVENUE SHORTFALL IN FY 2011

As substantial as our proposed actions are in FY 2011, these reductions are not sufficient to close the budget gap. We must consider, in this legislative session, other options for generating the revenues needed for basic support of State programs and services. Thus, in addition to the spending reductions being proposed, I am recommending that we take the following actions:

1. Refinance and restructure G.O. bond debt. Additional refunding and restructuring will reduce debt service by \$75.2 million in FY 2011.
2. Suspend distribution of revenues from the Transient Accommodations Tax (TAT) to the counties. TAT taxes are currently earmarked for several purposes: funding the operations and marketing programs of the Hawaii Tourism Authority and the Hawaii Convention Center, and giving financial aid to the counties. I am recommending that distribution to the four counties be suspended until the State regains its fiscal balance.
3. Implement tax measures to reform and improve Hawaii's tax system. Legislative proposals will be submitted to make Hawaii's tax system more efficient and equitable, to tighten up tax rules, and to improve tax administration. The total tax package, including the TAT proposal, is an integral part of the General Fund Financial Plan and is estimated to generate \$178.3 million in additional revenues for the State in FY 2011.

Taken together, the proposed actions summarized above are expected to generate a significant stream of additional revenues for the State and will enable us to achieve a positive balance in the General Fund for FY 2009-11 and for each year of the planning period.

These are difficult but necessary steps that we must take in order to navigate the fiscal crisis the State faces, and to meet our legal obligation to produce a balanced budget as required by the State constitution.

In these truly challenging times, I am encouraged by the positive credit ratings that Hawaii continues to receive from all three major rating agencies. In October 2009, Hawaii received a rating of "AA" from both Standard and Poor's Ratings Service and Fitch Ratings, and "Aa2" from Moody's Investor Service. These positive ratings reflect the assessment of

these nationally recognized firms that Hawaii State government has consistently displayed prudence and responsibility in fiscal management and governance.

We are committed to making the hard decisions and setting a responsible course that leads Hawaii through this critical period toward a brighter future.

With aloha,

LINDA LINGLE
Governor of Hawaii"

Representative Marumoto: "Thank you, Mr. Speaker. On this historic, austere Opening Day, I'd like to point out to the assembled legislators and friends that students of Kalani High School have displayed several sculptures in the basement of the Capitol, at the Chamber entrance. The large sculptures are made of scotch tape and serve as a commentary on an important national issue. Their teacher, John Nippolt, is to be commended. So please stop by to see these thoughtful expressions of our young people. Thank you."

Representative Pine: "Yes, Mr. Speaker, I also want to announce to legislators that Generation Joshua is here today. There are about 30 students that are here today to share with us how they would like to solve our government situation."

Representative Rhoads: "Mr. Speaker, I just want to remind Members that I will have the unemployment insurance tax deferral bill available for signature after the session is over in the caucus room. Mahalo."
