## STANDING COMMITTEE REPORTS

Representative Herkes, for the Committee on Consumer Protection & Commerce presented a report (Stand. Com. Rep. No. 1381-10) recommending that H.R. No. 136, as amended in HD 1, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.R. No. 136, HD 1, be adopted, seconded by Representative Evans.

Representative Herkes rose to speak in support of the measure, stating:

"Mr. Speaker, in very strong support. This deals with Hawaiian Ocean View Estates which is in the Kahuku district of Hawaii Island and in my district. About 6,000 people live in Ocean View. They are in the middle of a 30 mile stretch with no potable water, no pipe water, and it's about a 27 mile round trip to the nearest water spigot.

"About 12 to 14 years ago there was money in the budget to develop a water well and system for Ocean View, but then-Governor Cayetano would not release the money. During the 2005 Session, \$6 million was put in the budget for a water well and system for Ocean View. Governor Lingle released the money in April of 2006. So Mr. Speaker, that was four years ago.

"First, they had to do a test well. USGS was charged with that and they drilled about two or three times a week. They finally completed it, but you can't use a test well for a production well. So we had to start all over and the decision was made to drill *mauka* of the highway. The well was completed about two years ago and it just sits there.

"Since then the Hawaii County Department of Water Supply has hired a company to design, build and complete the system. This company, Bolton Inc., has made significant changes to the design, much of which is contrary to the original design and the EA that the community supported. The changes are significant and the community was not advised or given an opportunity to comment on the changes. The community is very angry and very frustrated. So am I.

"Our job as elected officials is to support and protect the community and the taxpayers; not the Department of Water Supply. I thank all of the 11 of you that voted for this resolution in Committee the other day and I hope that this will be adopted on the Floor. And then a demand letter will be sent to the Mayor of Hawaii County because that's where the money went. The decision was made to hire the Department of Water Supply and there will be some very pertinent questions and we will ask for a response in writing. Then we'll investigate after that if we have to. I support this resolution."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I would just like to support the words of the colleague from Ka'u and I'd like to adopt them as if they were my own."

Representative Thielen rose to speak in support of the measure, stating:

"Also in strong support, Mr. Speaker. And I would like to support the words of the Chair of CPC. And I was present at that hearing."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.R. No. 136, HD 1, entitled: "HOUSE RESOLUTION ESTABLISHING AN INVESTIGATIVE COMMITTEE TO INVESTIGATE THE COUNTY OF HAWAII DEPARTMENT OF WATER SUPPLY," was adopted, with Representative M. Oshiro being excused.

At 6:44 o'clock p.m. Representative Souki requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 6:45 o'clock p.m.

I really want to also just thank everyone out there across the State that are doing wonderful projects this week and this weekend honoring Earth Day and caring for our *aina*. Thank you, Mr. Speaker."

Representative Evans' remarks are as follows:

"Today we celebrate the 40th anniversary of Earth Day!

"Sen. Gaylord Nelson is the creator of Earth Day, which helped jumpstart the modern environmental movement. The first Earth Day spurred Congress into creating some of the most vital environmental legislation, including: the Clean Water Acts, the Federal Pesticides Act,

the Clean Air Act, and the Environmental Education Act. Later in 1970, President Richard Nixon and Congress established the U.S. Environmental Protection Agency, which would help repair existing damage to the environment and establish guidelines to make the environment cleaner and safer.

"Today we are challenged to create a healthier and more prosperous clean-energy economy for now and the future.

"President Obama said, "As we continue to tackle our environmental challenges, it's clear that change won't come from Washington alone." That change will come from us – from people all across the country taking action within their homes and communities to create a global green economy. Today can be a turning point to advance energy efficiency, renewable energy, and green jobs.

"During the month of April, Recycle Hawai'i and Earth-Friendly Schools Hawai'i co-sponsored "Caring for the Earth Month – A Billion Acts of Green" on the Big Island to celebrate this anniversary, which involved artists teaching students about the environment, hula demonstrations, and partnerships with museums and art institutions to raise environmental awareness through art.

"Today the Honoka'a People's Theater and Hawai'i Farmers Union on the island of Hawai'i invite the public to celebrate the earth, and this weekend on April 24, Earth Day fairs will be held at Pana'ewa Zoo and Kahalu'u Bay Beach Park .

"We should remember that every day is Earth Day and we can live a greener lifestyle each day. There are many ways we can do this:

- Plant trees, which helps to reduce greenhouse gas emission and to clear the pollution.
- Learn more about the environment and teach others about it. Make a commitment to see what more you can do to protect our Earth.
- Recycle. Support our local growers and producers. Take a cloth bag when you go shopping instead of using plastic bags.
- Help get rid of litter on our roadways, your neighborhood streets, and especially around the Capitol.
- Commute without polluting. Ride your bike or take the bus.

"We should remember – What we do today shapes what our earth will be like tomorrow."
