"The purpose of this bill is to combat prostitution by providing witnesses in cases involving the promotion of prostitution with the highest priority to receive government security and protection.

"I urge the Members' support."

The motion was put to vote by the Chair and carried, and H.B. No. 240, entitled: "A BILL FOR AN ACT RELATING TO PROMOTING PROSTITUTION," passed Third Reading by a vote of 46 ayes, with Representatives Cabanilla, Ching, McKelvey, Saiki and Takumi being excused.

H.B. No. 680:

Representative B. Oshiro moved that H.B. No. 680, pass Third Reading, seconded by Representative Evans.

Representative Belatti rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. Thank you. I'd just like to point out to Members that in the Committee Report there's a number of groups in opposition including the Office of Hawaiian Affairs, Sierra Club Oahu Group, The Outdoor Circle, and many, many individuals.

"Now while I understand the concern that the CPAC may not be an effective body, I would point to the testimony of the OHA which suggest that rather than completely deleting wholesale the community input process through the CPAC, that, "while democracy can be a difficult, often frustrating and time consuming process, despite this difficulty a commitment to refining a more democratic process is at the core of building a more participatory and equitable society."

"In the testimony of HCDA, we in fact do see suggested amendments to ensure that public comment, community participation, and public notice be provided. So I would urge that as this measure passes over to the Senate that some of these considerations be looked at so that rather than wholesale deletion of a mechanism to enable community input and participation, we look at ways to make that participation more effective to address the concerns of the CPAC. Thank you, Mr. Speaker."

Representative Morita rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition and I'd like to adopt the words of the Representative from Makiki as my own, and reiterate that the Hawaii Community Development Authority's testimony had suggested amendments that would have demonstrated a continued commitment to promoting public participation and to make the public comment process a little bit more palatable and inclusive. And one of my concerns is that there are no flaws in this particular measure and it really warranted more discussion. Thank you."

The motion was put to vote by the Chair and carried, and H.B. No. 680, entitled: "A BILL FOR AN ACT RELATING TO KAKAAKO," passed Third Reading by a vote of 42 ayes to 4 noes, with Representatives Belatti, Brower, Hanohano and Morita voting no, and with Representatives Cabanilla, Ching, McKelvey, Saiki and Takumi being excused.

Representative Keith-Agaran's written remarks in support of the measure are as follows:

"Thank you, Mr. Speaker. HB 453, H.D. 1 will address a gap in the currently laudable law requiring the various counties to establish or protect access to the shorelines when processing subdivision applications. This measure will ensure that the public receives more than a "paper" access—that a route to our beaches will be maintained into the future.

"This bill clarifies that where a county requires public access as a condition of a subdivision, either the county must accept the dedication of the access or make sure the access will be maintained after the developer has sold its project and moved on. The county will have the option to require the subdivider to establish, and initially fund, a stewardship fund to be controlled by the county for improvement and maintenance of the right-of-way, or the county may require the subdivider or the planned community association to improve and maintain the right-of-way. This is not unusual. A stewardship fund is what a Land Trust negotiates with landowners proposing to create a conservation easement.

"This bill makes our public access law operate in a fashion which actually provides a useful and usable route to the shorelines which serve as prime places for recreation, spiritual renewal, and sustenance for our fulltime residents."

"I note that permanent absentee voting has been efficient and beneficial in a number of other states. Given the low voter turnout in our State, absentee and permanent absentee ballot applications would be beneficial.

"I urge my colleagues to vote in favor of this bill."

Representative Tsuji's written remarks in support of the measure are as follows:

"Mr. Speaker, I speak in support of HB 290.

"This bill supports the operations of the Department of Agriculture (DOA) and helps mitigate the negative effects by its reduction in force. Among other things, the bill would allow DOA to enter into agreements with government and private agencies to hire and pay temporary inspectors to perform certification and audit services. In addition it would establish new or increase certain existing fees to cover the operation and maintenance costs of agriculture inspection and certification programs.

"Hawaii has been severely impacted by the decrease in services by plant and commodity inspectors. Although many of these tasks involved fees, there was also subsidization of associated costs from the general fund. Industry stakeholders recognize the dire state of the State budget, and have testified to their willingness to evolve to a true fee for services structure to ensure the necessary certifications and inspections for their crops. This bill provides the means to move in this direction.

"The ability to move products in and out of the State, as well as interisland is critical to the vitality of the State's agriculture industry and its overall economy. HB 290 is a vehicle for DOA to provide its necessary services that are required in that regard and I am in strong support. Thank you, Mr. Speaker."

This measure was not referred to the Committee of Hawaiian Affairs. Environmental Impact Statements include cultural assessment which has an impact on Native Hawaiian rights."

Representative Tsuji's written remarks in support of the measure are as follows:

"Mr. Speaker, I am in support of this measure. The purpose of this bill is to assist livestock farmers remain financially viable by assisting with ever increasing feed costs through the Livestock Revitalization Program and by expanding the scope of eligible farmers to include goat herds producing milk.

"HB 1570 is a way to provide the people of Hawaii with fresh, locally-produced livestock products. In addition, livestock farms provide a potentially valuable vehicle to expand agricultural tourism ventures for our State.

"Mr. Speaker, in your Agriculture Committee we heard testimonies from poultry producers of how a similar bill we passed in 2007 helped them survive and succeed. That subsidy was a tremendous aid enabling one business to afford its weekly feed purchases and gave the opportunity to invest in equipment to improve operations and to continue farming. Another stated, "I know first-hand it has saved a number of family farms from going out of business. I know they are still struggling." Their testimonies also mentioned a collective concern for the future of Hawaii's livestock operations. In 1999 there were 14 dairy farms, 17 poultry operations and numerous hog farms across the islands. Today there is one dairy, 4 poultry farms and a handful of hog farms in the State.

"Mr. Speaker, if locally produced food is in fact a desirable goal for the state, then we need to be advocates for the livestock industry. This Body's support of HB 1570 would demonstrate our continuing commitment to the viability of this agricultural sector."

Representative Pine's written remarks in support of the measure are as follows:

"I strongly support HB927 HD1, Relating to Roadway Materials for the following reasons:

"HB927 HD1 clarifies that State agencies may purchase roadway materials with minimum recycled glass content and allows for the use of minimum glass of ten per cent crushed glass aggregate in all basecourse and subbase asphalt.

"During the hearing process, all testifiers were in support of the measure in both the Committee on Energy and Environmental Protection and the Committee on Finance.

"As a freshman legislator in 2005, I sponsored a bill, HB1491, which required the Department of Transportation to use recycled materials in their projects, where cost effective. This reinforced the continuing commitment Hawaii should take in considering the use of recycled materials in our State highway and City road projects.

"The current measure before this Body, HB927 HD1, asks for clarity in the type of materials used in the production of recycled asphalt. The measure I introduced during the 2005 Legislative Session "required" the Department of Transportation to use recycled materials in their projects. This request has come full circle as we are now giving State agencies the "option" of using one, out of a number of recycled materials, to be used in asphalt to repave our highways and roads.

"Back in 2005, The Department of Transportation testified that they supported the intent of the bill, but said that it was already in the process of "considering" the use of recycled materials in its projects. The Department of Transportation, over the course of the last six years, has instituted the use of a variety of recycled materials which is beneficial to everyone who drives on our highways and roads.

"Passage of this measure will allow for the improvement of Hawaii's roads, enable more cost-effective recycling of asphalt pavements and reduce Hawaii's overall greenhouse gas emissions.

"I thank my fellow colleagues for reviving a measure similar to the bill I introduced which recognizes the importance of using recycled materials in our State and City roadways.

"For all these reasons I strongly support HB927 HD1, Relating to Roadway Materials."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 927, HD 1, entitled: "A BILL FOR AN ACT RELATING TO ROADWAY MATERIALS," passed Third Reading by a vote of 51 ayes.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1568, HD 2, pass Third Reading, seconded by Representative Evans.

Representative Tsuji's written remarks in support of the measure are as follows:

"Mr. Speaker, I am in support of HB 1568. This bill protects Hawaii's natural environment from the threat of invasive species and assists Hawaii's agricultural industry. It would establish biosecurity and inspection facilities at major State airports and harbors to strengthen and support Hawaii's agricultural industry and protect Hawaii's environment from invasive species.

"In Governor Abercrombie's *A New Day in Hawaii* publication, he stressed *"A strong economy is not one based on unfettered consumption of our natural resources, but instead one that is sustainable over time."* One of the bullet points that followed was to *"Improve prevention, management, and response system for invasive species."*

"DOA developed a multi-faceted Biosecurity Plan to enhance its invasive species prevention efforts at air and sea ports with more inspectors, more efficient and effective inspection services, improved inspection facilities, and agreements with importers and producers for improved sanitary protocols before items are shipped to Hawai'i. Having proper, enclosed inspection and quarantine facilities at all major air and sea ports, similar to the one at Kahului airport, is one of the most important components of this Plan.

"Evidence shows that *preventing* a new pest establishment is much more economical than eradicating a pest or, even worse, controlling it indefinitely once it is established.

"The Legislature's history of supporting this Biosecurity Plan has been essential to its implementation, and supporting the Department of Agriculture with proper facilities at all of the State's major ports of entry is one of the most critical things that can be done to help prevent new pests from entering our State.

"The current version of HB1568 would have the Aloha Tower Development Corporation provide space, planning and design support at the Aloha Tower Complex for biosecurity and inspection facilities intended to meet the various needs of Hawaii's agricultural industry.

"It would also require DOT to provide space and infrastructure for biosecurity and inspection facilities at Hawaii's airports to facilitate the safe movement of incoming and outgoing air cargo through the airports rather than providing it to DOA for the same purposes.

"Mr. Speaker, the State has already seen the negative effects of having less ag inspectors defending our ports of entry. We cannot further risk the future of Hawaii's agriculture by letting our guards down against invasive species. Colleagues please join me in support of HB 1568."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1568, HD 2, entitled: "A BILL FOR AN ACT RELATING TO AGRICULTURE," passed Third Reading by a vote of 51 ayes.

Representative Takai's written remarks in support of the measure are as follows:

"Mr. Speaker, I rise in support. Mr. Speaker, HB4 61 proposes to implement voting provisions for uniformed services and overseas absentee voters, as required by the Military and Overseas Voter Empowerment Act.

Voting is a basic right of every eligible American citizen. It is a foundation of our country's democratic principles.

"The procedures proposed in this bill would ensure that Hawaii residents serving in the military outside of Hawaii are guaranteed voting privileges in state and national elections.

"Our 400 retired and currently serving officers of the Uniformed Services support codification of the federal law related to Military and Overseas voters.

"Military personnel and overseas civilians face a variety of challenges to their participation as voters in U.S. elections, despite repeated congressional and state efforts to facilitate their ability to vote.

"These include difficulty in registering abroad, frequent address changes, slow mail delivery, ballots and ballot applications that never arrive, difficulty in obtaining information about candidates or issues, the inability to comply with notarization or verification procedures, or the voter's failure to properly comply with non-essential requirements for absentee materials.

"Since Hawaii, among all the other states, has our primary election the closest to our general election, we ran up against the federal mandate to allow 45 days for return of ballots from these voters.

"In fact in the most recent analysis of overseas voting by the Pew Center on the States, Hawaii did a fairly good job of getting ballots out and back, in spite of the shorter time period. Now is the opportunity to make the situation permanent.

"Moving the primary election back will help, but other factors need to be put into place to allow the Chief Elections Officer the authority to act prudently. I believe this bill does that. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 461, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE UNIFORM MILITARY AND OVERSEAS VOTERS ACT," passed Third Reading by a vote of 51 ayes.

This measure looks to address deficiencies in the Department of Public Safety's Sheriffs Division as noted in the State Auditor's June 2010 report. I understand that the Division's scope of responsibility has grown throughout the years. With the Sheriff's Division in charge of protecting State buildings and courts, providing security and protection of our airports among many other things, this bill is a step in the right direction. Thank you, Mr. Speaker."

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1088, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Aquino's written remarks in support of the measure are as follows:

"Thank you, Mr. Speaker. I speak in favor of H.B. 1088 which looks to give the Department of Public Safety the authority to render aid to inmates or detainees who refuse treatment. This Administration bill would give the Department's medical staff the ability to treat those who may be a danger to others and/or to themselves. This bill would also assist in cost savings. Currently, those who refuse treatment may be transported to the Hawaii State Hospital where treatment costs are much higher. This measure would allow medical professionals within the correctional system to provide needed care on the spot."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1088, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CORRECTIONS," passed Third Reading by a vote of 51 ayes.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 770) recommending that H.B. No. 491, as amended in HD 1, pass Third Reading.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 491, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Aquino's written remarks in support of the measure are as follows:

"Thank you, Mr. Speaker. In support. This bill would require the Department of Public Safety to prepare, apply, and obtain accreditation from the Commission on Accreditation for Law Enforcement Agencies. From what I gathered, this is a prominent accreditation. While there may be some concern on when this can be done, the intent is to address the Auditor's concerns in her June 2010 report while positioning our Sheriff's Division to be a better organization. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 491, HD 1, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC SAFETY," passed Third Reading by a vote of 51 ayes.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1109, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Takai's written remarks in support of the measure are as follows:

"Thank you, Mr. Speaker. I rise in support of this measure. Currently, employees are entitled to a total of four weeks of family leave during any calendar year upon the birth of a child of the employee, the adoption of a child, or to care for the employee's child, spouse or reciprocal beneficiary, or parent with a serious health condition. The care of employees whose family member is in the military is not covered.

"Hawaii has a rich tradition of cooperation and support of our service members. To extend the ability to take family leave to take care of activities necessitated by a family member who is proudly serving in the defense of one's country is the right thing to do.

"Eligible employees who take the leave under this measure are likely to be those not already covered under the Family and Medical Leave Act Military Family Leave Entitlements.

"These are likely to be employees of companies with 100 or more employees who have worked only six months for the company, or are reciprocal beneficiaries or grandparents-in-law of eligible service members.

"This measure will also allow all eligible employees of more 100 or more employees to take up to ten sick days for this type of leave where in the federal environment the employer can determine if sick leave will be used.

"Servicemen and women honor their families, nation and state under the American flag. I firmly believe those who employ their family members should not hesitate to ensure they can be with their uniformed loved ones on the occasions described in this Bill. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1109, HD 1, entitled: "A BILL FOR AN ACT RELATING TO FAMILY LEAVE," passed Third Reading by a vote of 51 ayes.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 960, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Cabanilla's written remarks in support of the measure are as follows:

"Mr. Speaker, I am in strong support of HB 960 HD1. The Department of Business, Economic Development and Tourism, Hawaii Housing Finance and Development Corporation says it very succinctly:

"The low-income housing tax credit (LIHTC) program is a major financing tool to construct or rehabilitate affordable rental housing for families at or below 60 percent of the area median income. Under the program, HHFDC awards federal and State tax credits that may be used to obtain a dollar-for-dollar offset (tax credit) in income tax liability for 10 years or may be syndicated to generate substantial project equity. There are two types of federal tax credits: 1) 9% competitive tax credits, which are applied against the State of Hawaii's annual LIHTC volume cap allocation; and, 2) 4% noncompetitive tax credits, which are awarded outside of the federal tax credit volume cap with tax-exempt bond financing. Approximately \$2.719 million in federal and \$1.359 million in state volume credit tax credits may be awarded each year.

"Many LIHTC projects have been stalled during the recession due to the lack of available private investors who are willing to purchase these tax credits, or due to the fact that the equity generated by the sale of State tax credits is not sufficient to fund project development.

"The tax credit exchange program proposed in H.B. 960 would allow eligible affordable rental housing developers to trade in both competitive, State volume cap LIHTCs and non-volume cap LIHTCs for a loan. The loan amount would be equivalent to 70 percent of the State LIHTC award over the ten year period. The exchange of the State LIHTC could provide nearly three times more equity for the development or rehabilitation of affordable rental housing projects compared to the existing credit program. The State LIHTC loan mechanism proposed in this bill is similar to the

Section 1602 provisions in the American Recovery and Reinvestment Act of 2009, which assists projects receiving competitive Federal volume cap LIHTCs. As the State of Hawaii's LIHTC issuing agency, HHFDC supports the creation of a loan option for the State credit to provide affordable housing developers with sufficient equity to finance construction of much-needed rental projects.

"Mr. Speaker, thank you for the opportunity to offer comments."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 960, HD 1, entitled: "A BILL FOR AN ACT RELATING TO LOW-INCOME HOUSING," passed Third Reading by a vote of 51 ayes.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 787) recommending that H.B. No. 898, HD 1, as amended in HD 2, pass Third Reading.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 898, HD 2, pass Third Reading, seconded by Representative Evans.

Representative Cabanilla's written remarks in support of the measure are as follows:

"Mr. Speaker, I am in strong support of HB 898 HD2. This bill extends the lapse date for "Housing First" funds to December 31, 2011. "Housing First" programs fund housing for the chronically homeless. The cost to Hawaii for homelessness is quite high, particularly for the chronically homeless and mentally ill. Because they have no regular place to stay, people who are homeless use a variety of public systems in an inefficient and costly manner. Preventing a homeless episode or ensuring a speedy transition into stable permanent housing can result in more positive outcomes and significant cost savings.

"38% of all public costs for those who are unsheltered are healthcare costs. A study of hospital admissions of homeless people in Hawaii revealed that 1,751 adults were responsible for 564 hospitalizations and \$4 million in admission costs. Their rate of psychiatric hospitalization was over 100 times their non-homeless cohort. It is estimated that the excess cost for treating these homeless individuals was \$3.5 million or about \$2,000 per person.

"These exorbitant costs affect all Hawaii taxpayers.

"Until our economy improves, adequate affordable housing will not be available. We will therefore continue to need to provide housing for the chronically homeless.

"Mr. Speaker, thank you for the opportunity to offer comments."

Representative Nakashima's written remarks in support of the measure are as follows:

"This bill would extend the lapse date of funds appropriated from the Emergency and Budget Reserve Fund pursuant to Act 191, SLH 2010, for the Housing First Pilot Program to December 31, 2012. This is necessary because this program which has been very successful on the mainland was not given an opportunity as the last administration did not release this money for use.

"The Housing First model has been very successful on the Mainland. It has a good track record in assisting homeless people find access to permanent housing and then aid them in providing the services they need to keep them in housing while providing successful transition off the streets."

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1342, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Nakashima's written remarks in support of the measure are as follows:

"Mr. Speaker, House Bill 1342 seeks to exempt broadband infrastructure improvements from State or county permitting requirements for five years. This will allow county efforts to meet Federal Communication Commission "narrow banding" mandates requiring first responders to all be on the same band width by 2013.

"This legislation would also allow for developing broadband infrastructure leading to economic development and educational opportunities in rural communities. For those of you who know the inconveniences of dropped calls and lost signals, imagine travelling through large tracts of land where there was just no signal at all. This is a reality in many rural communities."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1342, HD 1, entitled: "A BILL FOR AN ACT RELATING TO TELECOMMUNICATIONS," passed Third Reading by a vote of 51 ayes.

"Vog is an ongoing concern on the Big Island which periodically affects the other islands also. Farmers and ranchers have experienced various levels of losses, including death of plants and livestock, and degradation of infrastructure. It is incumbent upon us to provide any assistance possible to those affected by vog."

Representative Aquino's written remarks in support of the measure are as follows:

"Mr. Speaker, I rise in support of House Bill 1008. This bill would allow certain federal law enforcement agencies to assist State and local law enforcement in making arrests. This measure provides another security and safety tool for law enforcement agencies as we prepare for the Asia Pacific Economic Cooperation (APEC) in November of this year. This is a good bill that strengthens collaboration and resources needed for this very important event for our State. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1008, HD 2, entitled: "A BILL FOR AN ACT RELATING TO THE POWER OF ARREST," passed Third Reading by a vote of 51 ayes.

Representative Takai's written remarks in support of the measure are as follows:

"Thank you, Mr. Speaker. I rise in strong support of this measure. The intent of this measure is to simply recognize in State statute the approach that Service members under Title 10 USC Section 1482 are required by federal law to follow in designating a Person Authorized to Direct Disposition (of human remains), or PADD.

"This bill will ensure that the DD Form 93 is consulted and viewed as the legally sufficient document for designating a PADD.

"The DD Form 93 is an essential part of their military record, also designating their beneficiaries for Service Members' Group Life Insurance. Service members are required to update it annually and before any deployment.

"Forty-eight percent of Service members are less than 25 years old. Since they are required to designate a PADD on the DD Form 93, it is highly unlikely they will research to see whether they also need to follow a different state requirement for designating an agent in the event of their untimely death.

"The proposed amendment to State law on disposition removes confusion for the family. Allow me to illustrate a potential issue by sharing a case with you that shows what can happen when there is a lack of clarity in which rule to follow when designating a PADD:

A deceased Soldier who was married but estranged from his wife, elected his mother as the PADD on DD Form 93. The mother wanted to cremate the Soldier; however, the funeral home refused to cremate the remains without the wife's consent (based on the rules of the state).

The spouse was reluctant to sign the consent for cremation and only after a military attorney intervened, did the wife eventually consent.

Eventually the wishes of the Service member to have his mother direct disposition were honored; however, this situation, and the unnecessary delay it caused, could have been avoided if the state statute in question had referred to the DD Form 93.

"This bill will also enable coroners to confidently refer to a single document to approach the Service Member's choice for directing the disposition of his or her remains.

"Additionally, HB 49 will avoid the possibility of giving the body to a person not listed on DD Form 93 against the Service Member's wishes and a person who may be ineligible to receive Department of Defense funds for burial.

"In addition, having DD Form 93 in statute will make estate planners aware of its important use by the federal government. If they were to help a Service Member create a durable power of attorney or a will, they could align both the DD Form 93 and their paperwork so that there are no conflicts, thus better serving their client. If a Service Member wanted to update their DD Form 93 based on the advice of their attorney, they could do that on the spot on the attorney's computer.

"This bill would address all these issues and streamline the process in what should be naturally uncomplicated. Thank you."

Representative Cabanilla's written remarks in support of the measure are as follows:

"Mr. Speaker, I am in strong support of HB 49 HD1. It is important that the relatives of fallen service people make the decision as to the disposition of the body of Armed Forces service member. Therefore the person designated by the deceased as authorized to direct disposition on a United States Department of Defense Record of Emergency Data, DD Form 93, or its successor form, may arrange for the final disposition of the deceased's body, including cremation, if the deceased:

- (1) Died while serving in any branch of the United States armed forces, United States reserve forces, or national guard; and

- (2) Executed the United States Department of Defense Record of Emergency Data, DD Form 93, or its successor form.

"Mr. Speaker, it is critical that armed services members, who have given their lives in service of defending their country, be given the respect of having their bodies disposed of in the manner with which they wish.

"Mr. Speaker, thank you for the opportunity to offer comments."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 49, HD 1, entitled: "A BILL FOR AN ACT RELATING TO ARMED FORCES SERVICE MEMBERS," passed Third Reading by a vote of 51 ayes.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 377, HD 2, pass Third Reading, seconded by Representative Evans.

Representative Keith-Agaran's written remarks in support of the measure are as follows:

"Thank you, Mr. Speaker. I strongly support HB No. 377, H.D. 2 which will encourage the development of traditional aquaculture techniques by requiring the Board of Land and Natural Resources to provide lease preferences for State land to be used for the reconstruction, restoration, repair, or use of Hawaiian fishponds. Rep. Mark Nakashima, the primary sponsor of this legislation, recognizes that expanding our knowledge of how our host culture lived sustainably in the past is a guidepost for moving our State towards food self-sufficiency in the future.

"Fishponds are important cultural resources to Native Hawaiians. Hawaiians built 488 fishponds statewide; however, only about 60 fishponds remain recognizable today. Oahu had 97 fishponds, but only six accessible ponds remain today. Thirteen fishponds have been restored statewide, with six ponds currently in use: three on Molokai, one on the Island of Hawaii, and two on Oahu.

"While fishponds today still serve as a source of sustenance for communities, they also offer a wide range of educational opportunities. These systems were built to be self-sufficient, and used to grow a variety of fish, invertebrates, and algae. Fishponds, besides being steeped in cultural tradition, can be a home to endangered marsh birds and other birds, fish and aquatic animals.

"Providing lease preferences to fishpond restoration would help streamline the process to help efforts to revive these cultural treasures. I understand the reluctance of the new chair of the Board of Land and Natural Resource to commit to the rulemaking to facilitate this preference, but I do expect the Department of Land and Natural Resource to set its priorities in support of a sustainable tool like Hawaiian fishponds and allocate its time and resources accordingly."

Representative Nakashima's written remarks in support of the measure are as follows:

"As author of this legislation, I thank my colleagues for moving this bill forward today. House Bill 377 would require the Department of Land and Natural Resources to provide State lease preferences for the reconstruction, restoration, repair, or use of Hawaiian fishponds. This will help to revitalize the aquaculture industry via a tried and proven method of fish cultivation that is non-invasive and will not have negative impacts on the surrounding ocean environments."

While this is a very important endeavor, I would suggest that other agencies such as the Na Ala Hele to convene a working group that would help to advise the

Legislature with regard to this very important effort to preserve a system of greenways and trails throughout the islands."

"Mr. Speaker, I rise in support with concern. This measure relates to covenants that authorize the counties to enact ordinances or adopt rules to enforce covenants that run with the land that impose standards regarding use, maintenance, landscaping and setbacks. This measure is unnecessary."

Representative Marumoto's written remarks in support of the measure are as follows:

"I rise to speak in favor of this measure. HB 1431- Covenants - would allow counties to enforce covenants that run with the land. The counties could insure that standards are maintained relating to land use, property maintenance, landscaping and setbacks. Counties can also establish penalties for violations.

"Though HB 1431 has statewide application, it would be useful in maintaining the attractiveness of the Kahala area of the 19th House District. In the past 6 years, a Japanese billionaire purchased over 2 dozen properties in Kahala and has allowed many of them to remain vacant and neglected. He has knocked down walls and filled swimming pools with the rubble. He has attempted to build an illegal seawall as well as demolishing several multi-million homes. Many of his activities have been performed without the requisite county permits. If brought to his attention, he has acquired permits after-the-fact.

"Long-time residents are beside themselves with the rundown condition of Kahala Avenue. They are also upset with the announcement that this owner is thinking about establishing a museum in their neighborhood. The zoning does not lend itself to a museum, but can be constructed with a variance. HB 1431 will help residents keep the area a single-family neighborhood - attractive and livable."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1431, HD 1, entitled: "A BILL FOR AN ACT RELATING TO COVENANTS," passed Third Reading by a vote of 51 ayes.

I believe, Mr. Speaker that all students have the right to be in school without fear. This bill ensures a safe environment for all of our students."

Representative M. Lee's written remarks in support of the measure are as follows:

"Mr. Speaker, I rise in support of HB 945 regarding Multi-Track Schools. The purpose of this bill is to provide an exemption to multi-track public schools in view of the 180 day requirement, recently passed by the legislature.

"Multi-Track schools are unique, and therefore this bill will give the flexibility needed for these schools affected to meet the greater of 171 days or 90% of the minimum number of days required by schools on a regular calendar. Only Mililani and Kapolei have such schools, which came into being in areas of rapid development – and when the State could not afford to build more schools.

"Hopefully this solution will be a thing of the past in a few years. With the declining enrollment in Mililani, the schools should return to a regular schedule soon. I urge the Members' support."

Representative Keith-Agaran's written remarks in support of the measure are as follows:

"Thank you, Mr. Speaker. This is an important bill given the central role played by pollinators like honey bees in making sure that Hawaii's agriculture is sustainable for the future. This bill will allow beekeepers to register in a confidential manner with the Department of Agriculture (DOA), and sets aside funds for an apiary (beehive) program.

"Annual registration by beekeepers will increase knowledge of the rapidly changing nature of beekeeping in the State, as well as assist DOA when required to address any problems in the health of Hawaii's bees.

"I urge my colleagues to support this bill."

Representative Tsuji's written remarks in support of the measure are as follows:

"Mr. Speaker I am in support of HB 866. This bill establishes voluntary registration requirements for beekeepers. The devastating discovery of the varroa mite on Oahu in 2007 and on the Big Island in 2008, indicates a need to improve the Department of Agriculture's ability to quickly respond and control further spread.

"DOA's intent with respect to the registration provisions include:

- (1) Creating a database of beekeepers' locations and contact information;
- (2) Surveying bee colonies to quickly identify new bee pests for rapid response to new bee pests and diseases; and
- (3) Improving communication between beekeepers and DOA;

"The registration period would be one year and the number of bee colonies and the number of queen bees would not be required. Also, an apiary program would be established in the Department to enable its

officials to identify beekeepers and where they are, survey beekeepers to determine if any new bee pests or diseases have been introduced into Hawaii and provide services such as pest and disease diagnostics to ensure Hawaii's beekeeping industries remain strong and vibrant.

"Mr. Speaker, your Committee on Agriculture took great interest in the testimony stating that "The lack of registration extremely hindered the initial responses to varroa mite detections on Oahu in 2007 and on Hawaii Island in 2008. While beekeeping associations existed on these islands, precise knowledge of where beekeepers located hives in relation to first detection would have allowed the Department to develop better strategies to respond to varroa mite incursions with careful consideration of the potential impacts on beekeepers."

"HB 866 is a good first step to address any new invasions, whether it is varroa mite, small hive beetle or new pests or diseases to Hawaii. Beekeeping registration provides the DOA with a more effective mechanism for rapid response in times of need."

Representative M. Lee's written remarks in support of the measure are as follows:

"I'd like to speak in favor of HB No. 129. The Perinatal Addiction Treatment of Hawaii Clinic was established in 2006 to help address community and legislative concerns about the lack of effective intervention with pregnant, substance-using women in Hawaii. Rather than locking these women up and putting their children in State custody, it was proposed at that time by Dr. Tricia Wright, PATH Clinic founder and medical director, that more effective and medically-appropriate ways to address this troubling issue was to treat these women in a respectful and humane medical manner that addressed the many health related needs of these women and their infants and children.

"Four years later, the PATH Clinic has proven itself to be perhaps the most cost effective treatment in the country for substance using pregnant women. Over 94% of women delivering via the PATH Clinic are non-substance using at the time of their baby's birth, and over 95% women retain custody of their infants 8 weeks after delivery saving the State further cost for child protection and care. PATH also acts as the bridge to treatment for many of their clients who have been unwilling or unable to access substance abuse treatment prior to their PATH experience.

"The array of services developed by the small and modest, but surprisingly comprehensive PATH Clinic provides the women with the support and skills they need in order to be successful mothers and productive adults. The medical cost of caring for one very low birth-weight infant post delivery in Hawaii can be thousands and thousands of dollars which PATH has more than saved yearly over the past four years of its operation. Please indicate your support for the work of this clinic by voting for this bill. Thank you, very much."

"HB1303 H.D.2 authorizes the Hawaii Public Housing Authority to assess a fee on all units for community facility maintenance. It requires a minimum rent schedule for housing projects and annual Consumer Price Index adjustments of minimum rent.

"Mr. Speaker, requiring public housing residents to contribute to both common areas and personal lodging expenses will both help Hawaii public housing to become self-sustaining and help create a sense of pride and community ownership for residents. Currently there is a backlog of deferred maintenance. This creates a "slum" atmosphere, which decreases morale and the desire to improve one's life.

"This measure, if it becomes law, will bring money into the State general fund. Mr. Speaker, I urge you and my colleagues to support HB1303 H.D.2

"Mr. Speaker, thank you for the opportunity to offer comments."

"Mr. Speaker, one of the most important and historically significant bills that we adopt today is House Bill 1529 that would put the State of Hawaii back on track with regard to planning for the future of Hawaii. This bill would create a combined legislative and administration working group that would insure the update and implementation of Chapter 226, Hawaii Revised Statutes. More commonly known as the Hawaii State Plan, this document has lay mostly dormant for the past thirty years and is badly in need of updating and commitment by Hawaii's leaders to insure that future investment and allocation of State resources will no longer be squandered and that allocation of money by the State Legislature is transparent and deliberate."

Representative Tsuji's written remarks in support of the measure are as follows:

"This bill seeks to deter and prevent agricultural theft. Certain key elements of the original measure were removed. However I believe that the House must consistently support the many facets of Hawaii's agriculture industry. In that regard, addressing agriculture theft is sensible and I urge my colleagues to vote yes on HB 1554."

Representative Nakashima's written remarks in support of the measure are as follows:

"House Bill 1524 requires those sentenced for agricultural theft to provide restitution to the victim. It includes in the offense of theft in the second degree the failure to maintain required certificates while in possession of agricultural commodities

"There have been many cases on the Island of Hawaii relating to agricultural theft. Generally, these cases have a similar fact pattern. A farmer catches someone on the farmer's property – usually late at night – and the alleged thief has a bag of produce on the ground. Many times the thief does not choose the best fruit, and often times does damage to the plants. If the farmer catches the thief too soon – before they have taken a substantial haul of product – the crime is a petty misdemeanor because the value is under \$100.

"Agricultural theft is a serious problem on the Island of Hawaii causing economic hardship and massive losses of agricultural products. According to the Hawaii Agricultural Statistic Service, it is estimated that farmers and ranchers lose \$1.9 million per year due to agricultural theft. While agricultural products are being stolen on a consistent basis, it is equally devastating for Hawaii's farmers and ranchers when their equipment and supplies are also stolen from their property. I believe that this bill is an important first step in addressing the difficulties faced by Hawaii's farmers and ranchers."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1524, HD 2, entitled: "A BILL FOR AN ACT RELATING TO AGRICULTURAL THEFT," passed Third Reading by a vote of 51 ayes.

Representative Takai's written remarks in support of the measure are as follows:

"Thank you, Mr. Speaker. I rise in support of this measure. H.B. 1221 would establish a very limited exemption for liquor licensees of large public facilities such as the Aloha Stadium, Waikiki Shell, and Neal S. Blaisdell Center.

"Licensees would still have to have security plans for preventing minors from drinking on the licensed premises approved by the appropriate county liquor commission, and would still have to carry out their security plans in good faith.

"This limited exemption would recognize the unique circumstances and difficulties faced by licensees providing liquor for events in large public facilities.

"The success of such events depends on attracting a broad age-range of customers, including customers over and under the age of 21. And many customers over the age of 21 (Hawaii's legal drinking age) like to have beer, wine, and other liquor at events at the Stadium, Shell, and Blaisdell Center.

"I support this bill because I feel that if a liquor licensee who serves alcohol in a large public facility, receives the appropriate county liquor commission's approval of their security plan and implements the plan accordingly, should not be punished for a breach in the security plan that is not in their control.

"I believe the venues all do their best to keep drinks out of the hands of minors; however, there will be those irresponsible consumers who choose to do otherwise. Punishing the venue for not monitoring every single adult beverage from point of sale to consumption is beyond the purview of this Body. Thank you."

SECTION 1. Section 378-32, Hawaii Revised Statutes, is amended to read as follows:

"§378-32 Unlawful suspension, discharge, or discrimination. (a) It shall be unlawful for any employer to suspend, discharge, or discriminate against any of the employer's employees:

- (1) Solely because the employer was summoned as a garnishee in a cause where the employee is the debtor or because the employee has filed a petition in proceedings for a wage earner plan under Chapter XIII of the Bankruptcy Act; or
- (2) Solely because the employee has suffered a work injury which arose out of and in the course of the employee's employment with the employer and which is compensable under chapter 386 unless the employee is no longer capable of performing the employee's work as a result of the work injury and the employer has no other available work which the employee is capable of performing. Any employee who is discharged because of the work injury shall be given first preference of reemployment by the employer in any position which the employee is capable of performing and which becomes available after the discharge and during the period thereafter until the employee secures new employment. This paragraph shall not apply to any employer in whose employment there are less than three employees at the time of the work injury or who is a party to a collective bargaining agreement which prevents the continued employment or reemployment of the injured employee;
- (3) Because the employee testified or was subpoenaed to testify in a proceeding under this part; or

Representative Rhoads moved that Floor Amendment No. 1 be adopted, seconded by Representative Yamashita.

Representative Rhoads rose to speak in support of the proposed floor amendment, stating:

"Mr. Speaker, in support. Through the vagaries of miscommunication, sleep deprivation, things that happen at Finance late at night, the bill that stands before us today is basically 180 degrees from what was intended. The underlying principle is that you should be able to take sick leave if you're actually sick.

"This bill as it stands now would make it so that only small businesses are affected, those with under 100 employees, and those without collective bargaining agreements. The intent of both the Labor Committee and the Finance Committee, I believe, was to exempt those small businesses, those under 100 employees and to only include businesses with collective bargaining agreements. Therefore the necessity of this floor amendment."

The motion that Floor Amendment No. 1, amending H.B. No. 341, HD 3, entitled: "A BILL FOR AN ACT RELATING TO EMPLOYMENT PRACTICES" be adopted, was put to vote by the Chair and carried.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. The legislature finds that the health and well-being of Hawaii's residents and families is paramount. Consequently, for over thirty years, the Hawaii Prepaid Health Care Act has protected the welfare of the people of Hawaii, offering residents unparalleled access to health care benefits and services. The Hawaii Prepaid Health Care Act has accomplished this through various mandates, such as requiring employers who employ one or more full-time employees to provide health insurance, setting the standards for health care coverage in Hawaii, limiting the

amount that employees must contribute to premiums, and requiring employees to accept coverage unless covered under another health insurance plan (e.g., a spouse's plan). This has resulted in Hawaii having robust health care plans, low uninsured rates, and some of the lowest premiums in the country. While Hawaii experiences some of the same issues relative to access, quality, and cost as other states across the country, the Hawaii Prepaid Health Care Act has ensured system stability throughout the State.

The legislature further finds that at the time the Hawaii Prepaid Health Care Act was enacted, the legislature anticipated future federal health care reform legislation. Thus, the Hawaii Prepaid Health Care Act included a termination clause in the event such federal legislation was passed. Section 393-51, Hawaii Revised Statutes, states:

This chapter shall terminate upon the effective date of federal legislation that provides for voluntary prepaid health care for the people of Hawaii in a manner at least as favorable as the health care provided by this chapter, or upon the effective date of federal legislation that provides for mandatory prepaid health care for the people of Hawaii.

The legislature further finds that in 1993, the newly-installed Clinton administration launched health care reform onto the national agenda. Concerned that the federal law would jeopardize the quality of health care that people enjoyed in Hawaii because of the Hawaii Prepaid Health Care Act, the legislature enacted Act 99, Session Laws of Hawaii 1994, which repeals the Hawaii Prepaid Health Care Act's termination clause upon the effective date of any federal act permitting an amendment of the Hawaii Prepaid Health Care Act.

While the Clinton reform did not materialize, national health care reform finally became a reality with the enactment of the federal Affordable Care Act in 2010. Although the Affordable Care Act generally provides for individual and employer health care coverage, it acknowledges the success of Hawaii's prepaid health care model by providing for the continuance of the Hawaii Prepaid Health Care Act in Section 1560(b) of the Affordable Care Act, as follows:

Nothing in this title (or an amendment made by this title) shall be construed to modify or limit the application of the exemption for Hawaii's Prepaid Health Care Act (Haw. Rev. Stat. §§ 393-1 et seq.) as provided for under section 514(b)(5) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1144(b)(5)).

The legislature understands the value of the Affordable Care Act and the efforts of the President and United States Congress. However, the legislature continues to believe that the Hawaii Prepaid Health Care Act provides superior benefits for the people of Hawaii, and the legislature is wary that current efforts to move Hawaii to the Affordable Care Act will jeopardize the Hawaii Prepaid Health Care Act. Therefore, the

legislature believes it is imperative to study this issue before introducing any legislation that attempts to preempt the Affordable Care Act and jeopardize the Hawaii Prepaid Health Care Act.

SECTION 2. (a) There is hereby created the Hawaii prepaid healthcare task force to assess the current state of the Hawaii Prepaid Healthcare Act and the effects that the Affordable Care Act will have on the Hawaii Prepaid Healthcare Act and report back to the legislature.

(b) The task force shall consist of fifteen members and be as follows:

(1) Two members of the house of representatives, one of whom shall be appointed by the speaker of the house of representatives and one of whom shall be appointed by the minority leader of the house of representatives;

(2) Two members of the senate, one of whom shall be appointed by the president of the senate and one of whom shall be appointed by the minority leader of the senate;

(3) The Director of Health or their designee;

(4) The Director of Labor and Industrial Relations or their designee;

(5) The two US Senators from Hawaii or their designee;

(6) The two members of the US House of Representatives from Hawaii or their designee;

(7) The Attorney General or his designee; and

(8) The Governor or his designee.

(9) A representative from the health insurance industry or their designee;

(10) A representative from Hawaii Medical Association or their designee;

(11) The Dean of John A. Burns School of Medicine or their designee;

(12) A licensed physician in the State of Hawaii chosen by the other members; and

(13) A labor attorney, with an expertise in ERISA, chosen by the Hawaii Bar Association Labor Law Division.

(c) The task force shall meet at least four times and additionally as convened by the chairperson.

(d) The task force shall:

(1) Assess the Hawaii Prepaid Health Care Act, and establish the data on how many people are covered by the Act and the affects of the Act on the people of Hawaii;

(2) Study and evaluate the Federal Patient Protection and Affordable Care Act, Public Law 111-148, as amended by the federal Health Care and Education Reconciliation Act of 2010, Public Law 111-152, and any amendments to, or regulations or guidance issued under, those Acts.

(3) Study and evaluate the affect that proposed changes to the Hawaii Prepaid Healthcare Act, such as HB 1134 as originally introduced, would have on the ERISA exemption for Hawaii; and

(4) The task force shall prepare and submit a written report, 30 days prior to the convening of the 2012 legislature that includes:

(A) A summary of the work accomplished by the task force over the prior year;

(B) An assessment of the Hawaii Prepaid Health Care Act and the statistics requested;

(C) An assessment of federal Patient Protection and Affordable Care Act;

(D) An assessment of proposed legislation to amend the Hawaii Prepaid Health Care Act and the affect of ERISA preemption on the proposed legislation; and

(E) Any legislative recommendations, with a statement of how the ERISA preemption will affect the proposed legislation as the task force deems necessary.

(e) The task force shall terminate at the convening of the 2012 legislature.

SECTION 4. This Act shall take effect upon approval."

Representative Pine moved that Floor Amendment No. 2 be adopted, seconded by Representative Ward.

Representative Pine rose to speak in support of the proposed floor amendment, stating:

"Yes, Mr. Speaker. Thank you very much for the opportunity. This bill relates to what is otherwise known as 'Obamacare.' And it purports to want to save Hawaii's Prepaid Health Care Act. But the State Attorney General has said this bill would jeopardize Hawaii's health care law because this change will trigger preemption by the Federal Employee Retirement Income Security Act of 1974, otherwise known as ERISA.

"The Attorney General appointed by Governor Abercrombie is saying this bill will damage our healthcare system, so why are we pushing this legislation here today? This bill acknowledges that the Affordable Health Care Act of Hawaii also known as Obamacare is not as good as Hawaii's Prepaid Health Care Act. So why are we in this Chamber wanting to implement parts of Obamacare when our own bill is saying that our own Hawaii's Prepaid Health Care Act is superior to Obamacare.

"The Hawaii Congressional Delegation reportedly put language in the Obamacare bill to protect Hawaii's Prepaid Health Care Act, so basically what the Attorney General is trying to say, Mr. Speaker, is we received

this exemption from Obamacare, but today what we are doing is making changes to the very law that got that approval for us. And so really what we're just asking is if we can instead do a task force that can include our congressional delegation, include members of the House and Senate, include people in the health industry, our Health Director, to give us a little bit more time.

"Our congressional delegation as you know, Mr. Speaker, worked extremely hard on passing Obamacare for American citizens. And they worked extremely hard to ensure that since we have one of the best healthcare systems in the nation that our healthcare system will be excluded from having to be a part of this Act. And it was because of this exemption that we felt in Hawaii that our healthcare will not be in jeopardy because it's doing pretty good right now for our citizens.

"So by us passing this piece of legislation today as is, without instead turning it into a task force where we can look into this and work with our congressional delegation and people that understand ERISA better, we are therefore putting in jeopardy our ability to be exempted by the Obamacare Act."

Representative Ward rose to speak in support of the proposed floor amendment, stating:

"Mr. Speaker, I also rise in favor of this amendment. The amendment is to buy some time to think, to contemplate, to reason before we move, or we contemplate before we jump into this. In addition to what the Minority Floor Leader said I'd like to add three questions; three that hopefully we will all contemplate.

"Wouldn't repealing the termination clause subject Hawaii's Prepaid Health Care Act lead to possible lawsuits and are we willing to put up the money at this time of hard economic times to defend HB 1134? And would it likely not create more confusion in already a process by which as you know some of the colleagues said, 'Well, let's pass the bill first and then we'll read it and understand it second.' And we know that the bill has come in almost at twice the cost from the CBO estimates.

"The second question is, if the goal is to preserve the Hawaii Prepaid Health Care Act, then what happens if a national healthcare plan comes along that is better than the Hawaii system. Do we then need to undo this bill?

"And then question three, which is as important. Would the sponsor of this bill please explain what ERISA does and why he is willing to allow ERISA to preempt our State's Prepaid Health Care Law that has worked so effectively over the past 35 years?

"Mr. Speaker, the question is, would the Chair of the Health Committee be so gracious as to stand up and respond to the question regarding ERISA and what we may be risking, or not risking, according to his assessment of having pass this bill."

Representative Yamane rose to respond, stating:

"Thank you, Mr. Speaker. I am not the primary introducer of this measure and I will ask for a brief recess if anybody wants to ask me a question, they are free to do so."

At 9:56 o'clock a.m. Representative Yamane requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 9:57 o'clock a.m.

Representative Ward continued, stating:

"Mr. Speaker, with your permission, I would like to redirect the question to the actual sponsor of the bill who probably knows ERISA very well because I know he's read ERISA. He's read the bill. And he usually thinks some of us haven't, so his enlightenment would be greatly appreciated."

Representative B. Oshiro rose to speak in opposition to the proposed floor amendment, stating:

"Mr. Speaker, I rise in opposition to the floor amendment. I'll just be very brief. Actually what this does is it goes back, and if you look at the actual bill and what we're talking about, it is Act 99 which was going back to 1993. At that time, we had to actually try to repeal the sunset. So 18 years ago we tried to do the same thing because at that time what we realized was our Prepaid Health Care Act is about one of the best in the nation. It's about the best that you can get.

"And businesses have kind of realized that, 'We know what we're dealing with. We know what the devil is. We may not like it, but we don't want the changes.' So at that time back in 1993, 18 years ago, we tried to repeal it. And that has just sat on the books. Act 99 has just sat on the books for 18 years.

"Now that the federal government has passed a healthcare law that potentially in 2014 could have an effect of ending our Prepaid Health Care Act. This bill is intended to actually take destiny in our own hands and say, 'If we want to end our Prepaid Health Care Act, that is something we can do on our own.'

"There have been legal questions raised as to whether we are preempted, because under ERISA we have an exemption and we cannot substantively amend our Prepaid Health Care Act without getting federal approval.

"First, I would say that Act 99 has already proven that for 18 years. Preemption hasn't been brought and therefore our Prepaid Health Care Act has continued for 18 years.

"Secondly, I would also say that the Attorney General did clarify that if there is any preemption issue under the severability interpretation under our Constitution, as well as the statutes, the only thing they will be striking down is this singular act. And they wouldn't be striking down the entire Prepaid Health Care Act.

"So preemption only works in a limited fashion. What I mean by that is, it would only go as far as it needs to if, and that's a big if, we're going into a substantive area by terminating the sunset clause here, if that is the intent of preemption. At that point that singular act will be actually invalidated, but not the Prepaid Health Care Act.

"So for those reasons, I don't think that there is any need for us to go through this task force. It's something that we have until 2014 to figure out and therefore I will continue to advocate for the underlying bill and stand in opposition to this amendment."

Representative Thielen rose to speak in support of the proposed floor amendment, stating:

"Thank you. Mr. Speaker, I'm rising in support of the floor amendment and I would like to ask permission to insert the remarks of the Attorney General into the Journal. Thank you."

Representative Thielen submitted testimony from the Department of the Attorney General dated February 23, 2011, as follows:

"The Attorney General is opposed to the bill because the proposed changes are likely preempted by the Employee Retirement Income Security Act of 1974 ("ERISA").

The bill amends chapter 393, Hawaii Revised Statutes ("HRS"), also known as the Hawaii Prepaid Health Care Act ("PHCA"), by repealing chapter 393, part V, HRS, (part V consists of section 393-51, HRS, the termination provision quoted below). Section 393-51, HRS, provides that the "chapter shall terminate upon the effective date of federal legislation that provides for voluntary prepaid health care for the people of Hawaii in a manner at least as favorable as the health care provided by this chapter, or upon the effective date of federal legislation that provides for mandatory prepaid health care for the people of Hawaii." The bill will also repeal Act 99, passed by the Legislature in 1994, which repeals chapter 393, part V, HRS, and which becomes effective

"upon the effective date of any federal act permitting the amendment of the Hawaii Prepaid Health Care Act." We note that to date, no such amendment has been enacted by Congress.

The Attorney General believes that the amendments made by the bill are preempted by ERISA. ERISA regulates pension and benefit plans and establishes standards for the administration of such plans. ERISA has a sweeping preemption provision that provides in relevant part that ERISA "shall supersede any and all State laws insofar as they may now or hereafter relate to any employee benefit plan." 29 U.S.C.A. § 1144(a). The subsection, in full, provides as follows:

Except as provided in subsection (b) of this section, the provisions of this subchapter and subchapter III of this chapter shall supersede any and all State laws insofar as they may now or hereafter relate to any employee benefit plan described in section 1003(b) of this title. This section shall take effect on January 1, 1975.

There is a narrow exemption from ERISA preemption for the Hawaii PHCA. 29 U.S.C.A. § 1144(b) (5) (A) provides as follows:

Except as provided in subparagraph (B), subsection (a) of this section shall not apply to the Hawaii Prepaid Health Care Act Haw. Rev. Stat. §§ 393-1 through 393-51).

That exemption applies only to the PHCA as it existed on September 2, 1974. 29 U.S.C.A. § 1144(b) (5) (B) (ii) provides as follows:

Nothing in this subparagraph (A) shall be construed to exempt from subsection (a) of this section-(ii) any amendment of the Hawaii Prepaid Health Care Act enacted after September 2, 1974, to the extent it provides for more than the effective administration of such Act as in effect on such date.

In other words, the ERISA preemption provision applies to any amendments to the PHCA "to the extent it provides for more than the effective administration" of the PHCA. Any substantive amendment to the PHCA would go beyond the allowable exemption of amendments only for the "effective administration" of the PHCA and would, therefore, be subject to preemption. *Council of Hawaii Hotels v. Aghsalud*, 594 F. Supp. 449 (D. Haw. 1984) (amendment to require plans negotiated through collective bargaining to contain the required minimum benefits constituted a substantive change and was preempted).

The plain meaning of the word "administration" is the "performance of executive duties management." Merriam-Webster's Collegiate Dictionary 15 (10th ed. 1993). In *Council of Hawaii Hotels vs. Aghsalud*, supra, the court commented on the meaning of "effective administration" as follows:

Finally, the legislative history of the ERISA amendment indicates that Congress intended the term "effective administration" to be construed strictly. It is clear that Congress intended to adhere to *Standard Oil*, preempting the Act's drug and alcohol abuse treatment provisions. State officials had lobbied to restore state regulation of prepaid health care plans, and the accommodation reached was that the Hawaii Act would be given effect, but only as to its substantive provisions in effect on September 2, 1974. Any subsequently enacted substantive change would succumb to "the broad scope of ERISA preemption." The ERISA Amendment thus was to "operate only as a narrow exception." *Id.* At 455 (footnotes omitted).

The Attorney General believes that the repeal of the termination provision of the PHCA, section 393-51, HRS, as proposed in this bill, is not an amendment that provides for the effective administration of the PHCA because it does not merely address the performance of executive duties, but goes to the substance of whether Hawaii's PHCA continues in force or not. Therefore, we believe the amendment is subject to preemption by ERISA.

We respectfully request that this bill be deferred."

Representative Herkes rose to speak in opposition to the proposed floor amendment, stating:

"In opposition. When your Committee on Consumer Protection heard this bill, everybody was supportive except the Attorney General so we deferred it, only to learn that the Attorney General's opinion was flawed and so we came back and passed it."

Representative Ward rose to respond, stating:

"Mr. Speaker. A brief note of appreciation, in rebuttal. I appreciate the Majority Floor Leader's comments and historical note. However, he himself admitted there are legal questions. The last I checked, it's 2011. The last we understood it was 2014 when this Obamacare goes in effect. We've got three years, Mr. Speaker. So what's the hurry if there are legal questions? Why rush into it? Why leap into something we're not sure how deep the water is? So I think caution is the better message here, and discretion the better part of valor. Thank you."

Representative Pine rose to respond, stating:

"You know, Mr. Speaker, sometimes when I want to get a reality check I visit my grandmother. I'm still in opposition, in rebuttal and confusion. Because sometimes we can be in this building, and we can hear all this terminology. But still there are some really smart people out there and I like to talk to my grandmother. She's a longtime plantation worker and so sometimes she just wants to hear things straight.

"And so I say, 'Well grandmother, how did we do on the Floor today?' And she says, 'Oh baby, you sound so smart, all of you, but you still don't make any sense.' We keep repeating that we have until 2014, so what's the rush? What is the rush of passing this bill today, Mr. Speaker?

"We have the Attorney General saying one thing. Then we have someone saying that they believe in their opinion, that the Attorney General's opinion is flawed. Then you have another lawyer telling us, 'Well, if you pass that, oh my gosh, you're going to mess us the Prepaid Health Care Act,' an Act that took years, years for us to put together as a Legislature.

"So what the Republican Caucus is just doing today, it's not that we're against trying to make healthcare better, or trying to make adjustments. We have a little red flag in our minds right now. We have a fact. The one fact that we have that we can all clarify that is true and agree on is that we have until 2014. So all we're saying is on this very, very important piece of legislation, let's move wisely. Let's move slowly, and let's ensure that we make sure that we check with just about everybody that has an opinion and get the final opinion from our congressional delegation who will let us know whether we would hurt our exemption of Obamacare."

Representative Yamane rose to speak in opposition to the to the proposed floor amendment, stating:

"Mr. Speaker, I'm standing in opposition. Could I have the good words from the Representative from Aiea inserted as my own? Also, Mr. Speaker, again to support the Chair of Consumer Protection, we did get an opinion, a revised opinion by the Attorney General addressing the matter from the previous testimony on the February 23rd hearing date.

"Mr. Speaker, I'd also like to address some of the issues regarding moving slowly. On the issue about getting feedback from our congressional delegation, we've been doing that consistently and periodically on this matter, Mr. Speaker. This discussion started with our congressional delegation and with the previous Administration and their Attorney General on this issue of the Prepaid Health Care Act, and its impact on healthcare reform, Mr. Speaker. So this is an ongoing, periodic situation and does not require an unwieldy 15-member task force. Thank you."

The motion that Floor Amendment No. 2, amending H.B. No. 1134, HD 1, entitled: "A BILL FOR AN ACT RELATING TO PREPAID HEALTH CARE," be adopted, was put to vote by the Chair and upon a voice vote,

failed to carry, with Representatives Herkes, B. Oshiro and Yamane voting no.

(Main Motion)

At 10:04 o'clock a.m. Representative Pine requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 10:06 o'clock a.m.

Representative Pine rose to speak in opposition to the measure, stating:

"Yes just in opposition, Mr. Speaker. I would like to reinsert the comments that I said in support of amending this bill. I continue to believe that this is really important legislation that could affect people's lives and that we should take that extremely, extremely seriously. We should move slowly on this with the time that we are allowed to have."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition to the main motion. Thank you. And I appreciate the Chair of Health who did explain during the recess that the Attorney General is no longer opposed to it. He doesn't say however, that he doesn't have any questions about it and I think we should wait until the congressional delegation weighs in because ERISA is a federal phenomenon, not a state one. So we've got to sync and mesh with what the feds are doing, and I would feel much more comfortable to again put this on the side and wait, and reason, and then move on it because we've got three more years to go. So for those reasons, I'm still opposed. Thank you."

Representative Yamane rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'm standing in support of the measure. I would again like to request that the words of the Representative of Aiea also be inserted as my own regarding this measure. Also, Mr. Speaker, as to what was referred to by the Minority Leader, I would also request that the comments provided by the Department of the Attorney General to the 26th Legislature, 2011, dated Wednesday March 2nd, 2011 at 2:00 p.m., be inserted as part of my comments that indicate that specifically, in quotes, that the Attorney General is not opposed to the intent of the bill. So it adds to the issue regarding the opinion. Thank you."

Representative Yamane's written remarks as follows:

"Mr. Speaker, I stand in support of this measure. The Hawaii Prepaid Health Care Act (HPHCA) has provided countless working families with quality health care benefits since it went into effect in 1975. This progressive reform is without a doubt one of the main reasons why Hawaii's workers and their families today constitute one of the healthiest populations in the nation; 5th best in 2010 according to United Health Foundation. We have a lower uninsured rate than most of the country, and lower premiums on average. We have robust private benefit plans. In short, the HPHCA has proven itself to be effective. In anticipation of national health care reform that would presumably provide greater federal protections, the HPHCA included a sunset provision to be implemented upon the effective date of such federal legislation.

"Although such federal legislation has finally come in the form of the Patient Protection and Affordable Care Act (Public Law 111-148), the very future of this federal law remains in doubt even today. Congressional review of this Act is ongoing, with some in Congress moving to limit the law's effect by repealing certain provisions and cutting off funding to others. If these amendments pass, it is very possible that the federal health care law will not be capable of preserving the level of high quality health care currently enjoyed by Hawaii's residents under the State's HPHCA.

"It is extremely vital that the HPHCA remain in place so future generations of Hawaii residents can continue to enjoy the valuable health benefits that the Act has provided our State for the past 35 years. H.B. 1134, H.D. 1, would ensure that this happens. H.B. 1134 repeals the sunset provision of the HPHCA, and would ensure that the Act remains in

effect after the Patient Protection and Affordable Care Act goes into effect in 2014.

"Some of my distinguished colleagues have raised concerns that this proposed amendment would raise legal questions. Specifically, the fear is that amending the HPHCA would violate a federal law that exempts Hawaii from the preemptive clause of the Employment Retirement Income Security Act ("ERISA"), and could thereby invalidate the entire HPHCA. This fear stems from the language of the exemption at 29 U.S.C. § 1144(b)(5)(B)ii, which states that this exemption would not apply to any future amendments to the HPHCA except "to the extent it provides for more than the effective administration of such Act."

"However, these fears are largely unfounded. I refer my colleagues to the testimony of the Department of the Attorney General, dated March 2, 2011 at 2:00 p.m., and included below. Here, the Department states that it does not believe that the entire HPHCA would be repealed if a court subsequently rules that this amendment is preempted by the ERISA. Rather, only this specific amendment repealing the sunset clause would be preempted, and the Act as it currently stands would continue to be law. Further, it is doubtful whether repealing the sunset clause of the HPHCA would be regarded as substantively changing the Act because the repeal would not change any substantive rights or powers. In fact, courts have generally characterized sunset dates as procedural rather than substantive portions of laws.

"Therefore, it makes sense for us to move forward with this bill to ensure that the HPHCA continues to benefit Hawaii's residents. For these reasons, I stand in support of this bill."

Representative Yamane also submitted the following testimony:

**TESTIMONY OF
THE DEPARTMENT OF THE ATTORNEY GENERAL
TWENTY-SIXTH LEGISLATURE, 2011**

ON THE FOLLOWING MEASURE:

H.B. NO. 1134, H.D. 1, RELATING TO PREPAID HEALTH CARE.

BEFORE THE:

HOUSE COMMITTEE ON CONSUMER PROTECTION AND COMMERCE

DATE: Wednesday, March 2, 2011 **TIME:** 2:00 p.m.

LOCATION: State Capitol, Room 325

TESTIFIER(S): WRITTEN COMMENTS ONLY. For more information, call Gary S. Ige, Deputy Attorney General at 586-1450

Chair Herkes and Members of the Committee:

The Attorney General submitted testimony to this Committee on February 23, 2011, indicating opposition to the bill because of serious legal concerns. We resubmit testimony to you now to clarify our position on this bill.

Specifically, the Attorney General is not opposed to the intent of the bill, but continues to have legal concerns that the proposed repeal would likely be preempted by the Employee Retirement Income and Security Act ("ERISA"). However, since there is no case on point, should the repeal be challenged on preemption grounds, the outcome cannot be predicted with certainty.

The bill amends chapter 393, Hawaii Revised Statutes (HRS), also known as the Hawaii Prepaid Health Care Act ("PHCA"), by repealing chapter 393, part V, HRS (part V consists of section 393-51, HRS, the termination provision quoted below). Section 393-51, HRS, provides that the "chapter shall terminate upon the effective date of federal legislation that provides for voluntary prepaid health care for the people of Hawaii in a manner at least as favorable as the health care provided by this chapter, or upon the effective date of federal legislation that

provides for mandatory prepaid health care for the people of Hawaii." The bill will also repeal Act 99, passed by the Legislature in 1994, which repeals chapter 393, part V, HRS, and which becomes effective "upon the effective date of any federal act permitting the amendment of the Hawaii Prepaid Health Care Act." We note that to date, no such amendment has been enacted by Congress.

We recognize that failing to take any action regarding the termination provision could result in the eventual repeal of the entire PHCA and that this bill is an attempt to address that concern. Nonetheless, we believe that the amendments made by the bill would likely be preempted by ERISA. ERISA regulates pension and benefit plans and establishes standards for the administration of such plans. ERISA has a sweeping preemption provision that provides in relevant part that ERISA "shall supersede any and all State laws insofar as they may now or hereafter relate to any employee benefit plan." 29 U.S.C.A. § 1144(a). The subsection, in full, provides as follows:

Except as provided in subsection (b) of this section, the provisions of this subchapter and subchapter III of this chapter shall supersede any and all State laws insofar as they may now or hereafter relate to any employee benefit plan described in section 1003(b) of this title. This section shall take effect on January 1, 1975.

There is a narrow exemption from ERISA preemption for the Hawaii PHCA. 29 U.S.C.A. § 1144(b)(5)(A) provides as follows:

Except as provided in subparagraph (B), subsection (a) of this section shall not apply to the Hawaii Prepaid Health Care Act (Haw. Rev. Stat. §§ 393-1 through 393-51).

That exemption applies only to the PHCA as it existed on September 2, 1974. 29 U.S.C.A. § 1144(b)(5)(B)(ii) provides as follows:

409832_1.DOC

Testimony of the Department of the Attorney General
Twenty-Sixth Legislature, 2011
Page 3 of 4

Nothing in this subparagraph (A) shall be construed to exempt from subsection (a) of this section--

(ii) any amendment of the Hawaii Prepaid Health Care Act enacted after September 2, 1974, to the extent it provides for more than the effective administration of such Act as in effect on such date.

In other words, the ERISA preemption provision applies to any amendments to the PHCA "to the extent it provides for more than the effective administration" of the PHCA. Any substantive amendment to the PHCA would go beyond the allowable exemption of amendments only for the "effective administration" of the PHCA and would, therefore, be subject to preemption. *Council of Hawaii Hotels v. Aagsalud*, 594 F. Supp. 449 (D. Haw. 1984) (amendment to require plans negotiated through collective bargaining to contain the required minimum benefits constituted a substantive change and was preempted).

Testimony of the Department of the Attorney General
Twenty-Sixth Legislature, 2011
Page 4 of 4

The Attorney General believes that the repeal of the termination provision of the PHCA, section 393-51, HRS, as proposed in this bill, is not an amendment that provides for the effective administration of the PHCA because it does not merely address the performance of executive duties, but goes to the substance of whether Hawaii's PHCA continues in force or not. Therefore, we believe the amendment would likely be subject to preemption by ERISA.

In addition, the Attorney General believes that should the Legislature pass this bill and repeal section 393-51, HRS, and a court subsequently determines that the repeal is preempted by ERISA, such a ruling would not affect the Hawaii Prepaid Health Care Act as it exists today; only this amendment would be preempted, and the balance of the Act would remain.

Representative Pine rose to respond, stating:

"Just in rebuttal. And again, confusion. If I was just watching us, so we all know what that means when someone says that you're not opposed to the intent. I'll say it right now. The Republican Caucus is definitely not opposed to the intent of this piece of legislation. But we're really worried. We're really, really, really worried. We should never pass anything so significant, so monumental as this when someone can only say, 'Well, I support your intent.'"

Representative Takai rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. May I have a ruling on a potential conflict? I broker health insurance," and the Chair ruled, "no conflict."

Representative Takai then stood in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Takai's written remarks are as follows:

"Mr. Speaker, I rise in support of this measure. Residents in Hawaii have benefitted from expanded healthcare coverage under a unique and successful employer health care mandate that has been in place for more than 30 years-the Prepaid Health Care Act (PHCA).

"The 1974 legislation of Act 210 effective January 1, 1975, provided the working uninsured with quality mandated health care benefits and maintained the prevailing standards for those employees already fortunate to have medical coverage.

"The law requires employers to insure their workers upon attainment of eligibility. The overall impact of the law since 1974 has been the

maintenance of relatively robust private benefit plans, low rates of uninsured, and some of the lowest premiums in the country.

"In anticipation of national healthcare reform that would presumably provide greater federal protections, Act 210 included a sunset provision to be implemented upon the effective date of the federal legislation.

"Subsequently, discussions on the implementation and costs of a national health program raised the question as to whether the high quality of medical benefits enjoyed by Hawaii's workers was in jeopardy.

"In 1994, the Prepaid Health Care Act was amended with Act 99 repealing the statute's termination provision. However, the repeal was made subject to a requisite amendment of the federal Employee Retirement Income Security Act of 1974 (ERISA) that would allow for the "substantive" change to the Hawaii law. As of yet, there have been no federal legislation to amend ERISA.

"While Hawaii suffers from some of the same issues relative to access, quality and cost as other states across the country, the PHCA has been the backbone over the years ensuring system stability and moderation of problems in healthcare delivery and finance.

"Although the current system has been preserved through legislative language included by Hawaii's Congressional Delegation in the federal health care reform law, the Affordable Care Act (ACA), it may unintentionally be jeopardized without further federal- and state-level legislative fixes prior to the implementation of a newly mandated health insurance exchange in 2014.

"Work to create Hawaii's health exchange, through which individuals may shop for an appropriate health plan, has just begun.

"But, while the states scramble to address the ACA, the shift in the balance of power in Washington confounds those efforts and confuses what health care reform eventually will cover.

"Hawaii's prepaid system is established and proven to be effective.

"There must be a coordination of PCHA and the ACA, specifically with respect as to how PCHA will work in tandem with the exchange.

"Resolution of this uncertainty would ensure that Hawaii's businesses, insurers, and residents understand the way in which they should invest their appreciable yet limited resources, particularly if they must radically change the way healthcare is done in Hawaii.

"The provisions of this measure offer a simple, single step to maintain the premium healthcare that the majority of people in Hawaii already enjoy."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1134, HD 1, entitled: "A BILL FOR AN ACT RELATING TO PREPAID HEALTH CARE," passed Third Reading by a vote of 43 ayes to 8 noes, with Representatives Ching, Fontaine, Johanson, Marumoto, Pine, Riviere, Thielen and Ward voting no.

At 10:10 o'clock a.m., the Chair noted that the following bill passed Third Reading:

H.B. No. 1134, HD 1

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 737) recommending that H.B. No. 1101, HD 1, as amended in HD 2, pass Third Reading.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1101, HD 2, pass Third Reading, seconded by Representative Evans.

At this time, Representative Fontaine offered Floor Amendment No. 3, amending H.B. No. 1101, HD 2, as follows:

"SECTION 1. House Bill 1101 House Draft 2 is amended by adding a new section 1, to read as follows:

" SECTION 1. Section 249-31, Hawaii Revised Statutes, is amended to read as follows:

"**\$249-31 State registration fee.** (a) All vehicles and motor vehicles in the State as defined in section 249-1, including antique motor vehicles, except as otherwise provided in sections 249-4 and 249-6, shall be subject to a [~~\$25~~] **\$45** annual vehicle registration fee. The fee shall be paid each year together with all other taxes and fees levied by this chapter on a staggered basis as established by each county as authorized by section 286-51, and the state registration for that county shall likewise be staggered so that the state registration fee is due and payable at the same time and shall be collected together with the county fee. The state registration fee shall be deemed delinquent if not paid with the county registration fee. The respective counties shall collect this fee together with the vehicle registration tax collected for the county and shall transfer the moneys collected under this section to the State.

b) From each annual motor vehicle registration fee, the director shall deposit [~~\$20~~] **\$40** into the state highway fund and \$5 into the emergency medical services special fund."

(c) Except as provided in this section, and notwithstanding any other law to the contrary, all fees collected under §249-31 and deposited into the state highway fund and emergency medical services special fund shall only be used for the purposes in §248-9 and §321-234 shall not be transferred to the General Fund or any other fund except for the purpose allowed in §248-9 (3)."

At 10:11 o'clock a.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 10:11 o'clock a.m.

Representative Fontaine moved that Floor Amendment No. 3 be adopted, seconded by Representative Pine.

Representative Pine rose to speak in support of the proposed floor amendment, stating:

"Yes, in support of the amendment, Mr. Speaker. Just to clarify. What we're doing it's just a technical thing. Something that is very important to our Caucus. We would like to add this paragraph to this bill: Except as provided in this section and not withstanding any other law to the contrary, all fees collected under 249-31 and deposited into the State Highway Fund and Emergency Medical Services Special Fund shall only be used for the purposes of the Highway Fund and the Medical Services Special Fund and shall not be transferred to the general fund or any other fund except for this purpose.

"Let me just give you some background, Mr. Speaker. For me personally, this is a very important issue. I never thought I would be a politician. I was supposed to be in broadcast journalism right now. But one day many years ago, I believe it was 2003, I was stuck on what they call Fort Weaver Road in Ewa Beach. This little seven-mile road used to take me 45 minutes just to get from my house to the top of the freeway. And I happened to also be working here, Mr. Speaker. And I realized that in 2003, and almost every year for almost a decade, that this Legislature raided the Highway Fund.

"So what did that mean to people in areas like Ewa Beach where traffic was at its worst? It means that we didn't help the people. Just like the people of Ewa Beach were abandoned last Friday during the power outage. We even back then, this Legislature knew that we were going to have a major traffic crisis in 1993 after all the homes that were approved there. But they didn't give us the roads that we needed back then. Even though we had the money, we had lots of money. For over a decade we raided

over \$144 million from the same Fund that we're trying to fund today in many different bills by fee increases and tax increases.

"Back then, that meant a lot more than \$144 million. Because during this time, this decade of the raid, we had this amazing matching fund program with the federal government. We had 1 to 4 matching funds from the federal government. Which means that technically this Legislature really raided over a half a billion dollars from the Highway Fund because of the money that was in there.

"Mr. Speaker, this particular bill is how we will be helping the Department of Transportation according to this Legislature's feelings on this issue. The Department of Transportation says that it's short \$22.9 million this year. Wow. It really makes me think that if back then, if this Legislature, the same seats that we're sitting in now, if those people who voted every year for almost the decade to steal money from this Fund, we wouldn't have to be doing what we're doing today. This basically almost doubles the State registration fee for our motor vehicles.

"I have to tell you, there are a lot of people in my district in Ewa Beach that are really suffering right now. Because of the economy, they have lost their jobs. We have one of the highest mortgage foreclosures in the State, Mr. Speaker. Everything's going up. Gas is going up. And we have to travel some of the farthest distances just to get to town. And so to them, even a dollar is going to affect their families.

"Because right now, some families tell me, 'Okay. Well this month we decided we're going to pay our electric bill. Next month instead, we're going to pay the water bill. Next month instead, we're going to pay our car insurance.' And so that's how they're living right now.

"So this is number one of the many fee increases that will be imposed on people in the State of Hawaii, and this would especially hurt my community because they definitely rely on their cars to get to work, Mr. Speaker. And so it basically is just saying a commitment from us that we recognize what that Legislature did for a decade, that were sitting in our very seats, that we will be different. We will make a commitment to the people of Hawaii that we will never, ever, ever raid this Fund to pay for things in the general fund ever again. So that we will never affect your pocket books like we're doing today."

Representative Souki rose to speak in opposition to the proposed floor amendment, stating:

"Yes, thank you very much, Mr. Speaker. Members of the House, I wish to speak in opposition to the amendment. First of all I want to, in an ironic way, I want thank the author of the amendment in that he acknowledges that we need the funds. And as far as the request for the increase, we are in agreement with the author of the amendment and for that I wish to thank them.

"With regard to the Highway Fund, and a lot of that happened during my watch as the Speaker, I'm basically opposed to raiding the Highway Fund, but this was not done in a cavalier fashion. What we did before the raid was made, the Finance Chairman and Committee asked the DOT if there were sufficient funds for the transportation plan of highway improvement and repairs. Was it sufficient? And they acknowledged for every one of the projects, they said that this would be a surplus of funds. Based on those discussions with the then-Highway Deputy and the then-Transportation Chair we went along, and we agreed to the transferring of the funds from the Highway Fund to the general fund.

"Now for some historic reason it must be acknowledged by all the Members here, including my friends across the aisle, that we've had difficulty in balancing the budget from the days before I was the Speaker. I've always been of the opinion that we really can't support all the programs that we have. All the different departments. We've been running, trying to catch up all these years. Certainly during my years as Speaker of the House.

"And I would say because of that, because of the need to provide for health services, education services, social services, and all the needs that we have in the community, we were forced to balance the budget and to at

times look for funds other than the general fund. And in some respect, we must all take some credit for that, including the community. They've been opposed to raising the excise tax all these years so the Legislature, in the need to balance the budget, needed to look for funds. As the most recent poll by Omnitrack stated, yes they're opposed to the excise tax increase. However, they want the continuum of services that they have. There is a contradiction there.

"What we need in this Body, including the Minority, is leadership so that we can provide either the needed cuts to balance the budget, or to raise the revenue that is needed for the services that the people want. And the poll has indicated that they want to continue the services and the Legislature under the leadership of the Speaker is duty bound to provide for the needs of this community.

"So every raid that has been made then, and is being made now, has not been done in a cavalier fashion. I think the community must be aware of this. Again, Mr. Speaker, thank you very much."

Representative Cabanilla rose to speak in support of the proposed floor amendment with reservations, stating:

"Thank you, Mr. Speaker. I rise with very strong reservations. I just want to briefly rebut my neighboring colleague from Ewa Beach. I think what was not mentioned is that this Body has been very generous to our districts. Within the seven years that I've been here in this House, this Body, including the Senate, has appropriated funds for the widening of Fort Weaver Road, the completion of Kapolei Parkway, and the completion of North-South Road. It gave me great pleasure, Mr. Speaker, to give a tour of Kapolei Parkway and the North-South Road to our Whip. It's beautiful. And we owe that to this Body and I think that needs to be mentioned.

"And let's not forget. This Body also voted for the funding of the rail. Our district got a lion's share of the funding, Mr. Speaker, and I will never forget that. I want to thank all of you for doing that.

"My only reservation is that we are still looking at funding for the Leeward Bikeway. So let's not forget that. Thank you everybody, for your help."

Representative Pine rose to respond, stating:

"In rebuttal. This is where I disagree with my colleague from Ewa. This Body has not been generous to us. And the reason why I believe that is everyone's sitting here in your districts. When you had new homes, you got a road right away. Well most of you, or most of those people representing different communities, but we didn't. We didn't. That is not generosity. I am not fooled that that is not generosity. I could say other words that my community would like to say what happened to us.

"So it's like saying, all we want is to be treated equally. What we got was not generosity. We had equal treatment in terms of funding compared to what we deserved, but we got inequality when it came to finally spending those funds in a timely manner. The same way that it was done in Hawaii Kai and Kailua and many other places across the State.

"One of the reasons I'm here is to make sure that the people of Ewa Beach are never treated as substandard, and I will never say that this Body has been generous to us by saying, 'Oh you eventually treated us equally.'

"So, Mr. Speaker, back to the amendment. It is really just making the commitment in our hearts. As the former Speaker Emeritus said, Mr. Speaker, 'We saw this all coming.' I see this coming again. Not making this commitment, future Legislatures, they're going to see that same pot of money that was in there the decade where they raided it every year, and they're going to say, 'Oh we've got to go pay for this program now because it's kind of my hot button issue. I promised the people I would give it to them.'

"I actually agree with a lot of the things that the Speaker Emeritus said and I'm very excited and happy that we're having this conversation today because our credit card bill is coming up, Mr. Speaker, and we're getting to

the point where we can't make them the minimum monthly payment anymore. We as leaders, we as a family, we as a community, we need to start being honest to our friends, and our community. And those are the hardest conversations to have.

"We should continue these conversations and say what are the core functions of government? Let's go back to the old days. Maybe the Ariyoshi days. Maybe the Waihee days. I don't know. When we first became a State, what did we believe were our core functions? I see my time is up because I'm reading this little red thing here, Mr. Speaker. Thank you."

Representative Fontaine rose to speak in support of the proposed floor amendment, stating:

"Yes, Mr. Speaker. I stand in support of the amendment. You know, this amendment is that basically, the bottom line comes down to fiscal responsibility and accountability. That's why I introduced this amendment, and others today, in saying that if we are going to raise fees, and taxes, and other things, that we actually tell the constituents that that's what we're going to use it for. And that we're not going to say, 'Well, we may use it there so please, please try to swallow this pill,' as the Representative from Ewa Beach has explained about the fiscal hard times that many people are going through.

"I think that's what we need to look at. I think if we say we support this amendment, we're saying we're supporting using the money for what we're saying. If you vote against this amendment, then basically what you're saying is, 'Well, we may use it for that. But we may come up with something else that we need the money for, so we may take it and use it for that purpose,' and that's not what the people in the State of Hawaii elected us to do.

"They elected us to be honest and forthright in how we spend their money. It's not our money. It's their money. And if we're going to take their money and say we're going to use it to repair highways, then that's what we should be doing. We shouldn't be going and using it for other purposes. Thank you."

Representative McKelvey rose to speak in opposition to the proposed floor amendment, stating:

"Thank you very much, Mr. Speaker. In opposition. First to correct some inaccuracies that were stated on the Floor here. I've been here in this Chamber with all of you since 2006, and contrary to the memory of my colleague from the West Side, there has been no legislation to transfer the funds. Indeed the last time there was legislation to do this was in 2004 which was never effectuated. The last transfer from the Special Highway Fund, Mr. Speaker, to the general fund was in 2002 which to Representatives like myself, was a long, long time ago. BMT, Before My Time.

"But I will also say this, while it's well intentioned, I appreciate the Representative from South Maui in doing this because I support the underlying concept of the Special Highway Fund needing to be protected. But if you look at this last part of his Floor Amendment, subsection (c) says, 'except for 248-9.' If you look at 248-9, it gives the authority to reimburse the general fund from the Special Highway Fund for general obligation bonds. Not to mention the fact if you go to subsection (b) of the very same 248-9, it gives the Director of Transportation the authority to transfer funding from the Special Highway Fund as long as certain criteria are met.

"And as far as jeopardizing federal funding, one thing that was clear in the existing law when the transfers were made and contemplated is that it cannot include encumbered funds. That's important to note because that is the funding that the federal government matches through the State Transportation Improvement Plan.

"So the Director of Transportation, even if we were to pass this measure, this legislation is not binding on future Legislatures so any Body can come back in the future and throw this out the window. But the fact of the matter is even with this adopted, 248-9 allows for the transfer of Special Highway

Funds to the general fund both through subsection (b) and clause number 2.

"So I appreciate what the introducer is doing and I support the underlying concept. But the fact is while well intended, I think that it is first of all not binding on future legislatures, and number two, 248-9 which is included in the amendment basically allows for this transfer to take place if certain conditions are met. Thank you, Mr. Speaker."

Representative Ward rose to speak in support of the proposed floor amendment, stating:

"Mr. Speaker, I rise in favor of the motion. First, I'd like to thank Speaker Emeritus for his wise and longitudinal view. He said that even before he was Speaker, we haven't made the budget balance. But then he said, and we may not put it together, but I'm going to put it together for you because we've grown government too much. And that's why we raid funds.

"Let's go back to the basic main motion and remind people that this is an 80% increase in the vehicle registration. The people are going to be paying 80% more so we can fix the roads.

"Now you may know my district is Hawaii Kai. It has the reputation of having first-world roads. I'm here to tell you that I'm getting a lot of flack that we're having a third-world road system in Hawaii Kai. In terms of sharing the pain and all the things that supposedly don't happen there, they are happening there.

"In fact it reminds of the adage that I learned while in Uganda as a UN worker. The question is, how do you tell if somebody's drunk when they're coming at you at night with their headlights going straight for you? The answer is, those are the drunks. Because if the people are sober, they're going and missing the potholes. That's the way people in this State are starting to drive. They're starting to drive to miss the potholes and they're going back and forth.

"I think this is not about equity. It's about doing what we say we're going to do. Making the commitment that we're going to fix the roads. No district is exempted from this. No Representative is exempt from being accountable for this. So if we put the money in, let's not take it out. And there are other bills that are going to come onto the Floor today where we're actually sucking, siphoning, and otherwise removing funds. So we're just simply saying that if we put the funds in, let's tell the people we're going to fix the roads with the money that we're otherwise increasing their taxes for. Thank you."

Representative Ichiyama rose to speak in opposition to the proposed floor amendment, stating:

"Thank you, Mr. Speaker. I rise in opposition. I'd just like to point out there's a technical flaw in the draft of this amendment. If we were to adopt it as is being proposed, it'll have serious consequences for the Director of Transportation. It will take away his discretion. Thank you."

The motion that Floor Amendment No. 3, amending H.B. No. 1101, HD 2, entitled: "A BILL FOR AN ACT RELATING TO MOTOR VEHICLE REGISTRATION," be adopted, was put to vote by the Chair and upon a voice vote, failed to carry, with Representatives Ichiyama, McKelvey and Souki voting no, and with Representative Cabanilla being excused.

(Main Motion)

Representative Ichiyama rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ichiyama's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in support. This bill proposes to increase the motor vehicle registration fee from \$25 to \$45, the proceeds going into the State Highway Fund. The State Department of Transportation (DOT) relies on the Highway Fund to implement its strategic plan for highway

improvements across our islands. It is essential for the safety of our residents and visitors that our roads, bridges and sidewalks are maintained in good condition.

"Many of my constituents have expressed concerns about the numerous potholes on the on-ramp to the H-1 by Mapunapuna. We use this on-ramp daily, often swerving from side to side to protect our cars, trucks and vans. The Director of DOT testified that due to insufficient amounts in the Highway Fund, they have extended the repaving schedule of our roads to every 14 years instead of the recommended 10 years. DOT is focused on repair and maintenance, not new projects, as we cannot sustain the current system. Ideally we should be spending \$86,000,000 each year on maintenance for our highway system, but the Highway Fund does not even come close to that amount. Having a low balance also negatively affects our ability to qualify for federal matching money for highway projects.

"I understand the financial pinch that many of our local families are feeling, but this is a demand that we cannot ignore. A failure to maintain our highways results in reduced road space, deteriorating infrastructure, increased accidents and increased liability. Thank you, Mr. Speaker."

Representative Pine rose to speak in opposition to the measure, stating:

"In opposition, and I would like all the things I said for my amendment to be applied to this measure," and the Chair "so ordered." (By reference only.)

Representative Ching rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ching's written remarks are as follows:

"Mr. Speaker, I rise in opposition of H.B. 1101, which increases the State Motor Vehicle Registration Fee by \$20, raising it to \$45 annually, and deposits the money into State Highway Fund. Tax and fee increases slated for Hawaii will make the cost of living in Hawaii unbearable for our citizens and hurt our families, as well as employers' ability to exploit jobs at such crucial times. We simply cannot afford this or any other measure that would increase fees or taxes on our communities."

Representative Riviere rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1101, HD 2, entitled: "A BILL FOR AN ACT RELATING TO MOTOR VEHICLE REGISTRATION," passed Third Reading by a vote of 41 ayes to 9 noes, with Representatives Ching, Cullen, Fontaine, Har, Johanson, C. Lee, Pine, Thielen and Ward voting no, and with Representative Cabanilla being excused.

At 10:34 o'clock a.m., the Chair noted that the following bill passed Third Reading:

H.B. No. 1101, HD 2

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 739) recommending that H.B. No. 1102, HD 1, as amended in HD 2, pass Third Reading.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1102, HD 2, pass Third Reading, seconded by Representative Evans.

At this time, Representative Fontaine offered Floor Amendment No. 4, amending H.B. No. 1102, HD 2, as follows:

"SECTION 1. House Bill 1101 House Draft 2 is amended by adding a new section 1, to read as follows:

SECTION 1. Section 249-33, Hawaii Revised Statutes, is amended by amending subsection (a) to read as follows:

"(a) All vehicles and motor vehicles in the State as defined in section 249-1, including antique motor vehicles, except as otherwise provided in sections ~~[249-3 to]~~ 249-4, 249-5.5, 249-6, and 249-6.5, in addition to all other fees and taxes levied by this chapter, shall be subject to an annual state vehicle weight tax. The tax shall be levied by the county director of finance at the rate of ~~[.75]~~ 1.75 cents a pound according to the net weight of each vehicle as the "net weight" is defined in section 249-1 up to and including four thousand pounds net weight; vehicles over four thousand pounds and up to and including seven thousand pounds net weight shall be taxed at the rate of ~~[1.00 cent]~~ 2 cents a pound; vehicles over seven thousand pounds and up to and including ten thousand pounds net weight shall be taxed at the rate of ~~[1.25]~~ 2.25 cents a pound; vehicles over ten thousand pounds net weight shall be taxed at a flat rate of ~~[\$150.]~~ \$300."

(b) The tax shall become due and payable in each year together with all other taxes and fees levied by this chapter on a staggered basis as established by each county as authorized by section 286-51, the state vehicle weight tax shall likewise be staggered so that the state vehicle weight tax is collected together with the county fee. The state vehicle weight tax shall be deemed delinquent if not paid with the county registration fee. The tax shall be paid by the owner of each vehicle to the director of finance of the county in which the vehicle is registered and shall be collected by the director of finance of such county together with all other fees and taxes levied by this chapter from the owner of each vehicle and motor vehicle registered in the county.

By the fifteenth day of the month following the month in which taxes under this section are collected, the director of finance of each county shall transmit the taxes collected to the state director of finance for deposit into the state highway fund.

(c) The exemptions provided by sections 249-3 to 249-6 shall apply to this section. The provisions for refunds, and taxes for fraction of years for vehicles removed from or brought into the State and for junked vehicles, contained in sections 249-3 and 249-5 shall apply to the tax levied by this section.

(d) If it is shown to the satisfaction of the department of transportation of the State, based upon proper records and from such other evidence as the department of transportation may require, that any vehicle with a net vehicle weight of six thousand pounds or over is used for agricultural purposes the owner thereof may obtain a refund of all taxes thereon imposed by this section. The department of transportation shall prescribe rules to administer such refunds.

(e) The counties shall be reimbursed the incremental costs incurred in the collection and administration of taxes and fees imposed under section 249-31 and this section; the amount of reimbursement shall be determined by the director of transportation. "

(f) Except as provided in this section, and notwithstanding any other law to the contrary all taxes collected under §249-33 and deposited into the state highway fund shall only be used for the purposes in §248-9 and shall not be transferred to the General Fund or any other fund except for the purposes allowed in §248-9 (3)."

Representative Fontaine moved that Floor Amendment No. 4 be adopted, seconded by Representative Pine.

At 10:35 o'clock a.m. Representative Pine requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 10:36 o'clock a.m.

Representative Pine rose to speak in support of the proposed floor amendment, stating:

"Yes, Mr. Speaker. Thank you so much. I am standing in support of this amendment. And again we are raising another fee, another tax to raise money for the State Highway Fund. What this amendment does is it adds this subsection: Except as provided in this section and notwithstanding any other law to the contrary, all taxes collected under 249-33 and deposited into the State Highway Fund shall only be used for the purposes

in 248-9 and shall not be transferred to the general fund or any other fund except for the purposes allowed in 248-9.

"Mr. Speaker, I spoke two times too fast, and I could not rebut the Members who most likely have the same objections because it is the same paragraph that was inserted into the previous amendment.

"There is not a technical flaw, Mr. Speaker. The Director of the Department of Transportation still has within his perusal within the Highway Fund, to actually spend the money on highways. So if we're saying, just that comment, Mr. Speaker, concerns me. Because we're saying, 'No, no, no, no. Even though we are taxing people, increasing fees on them, because we are telling those people that we're raising this money to give you roads.' And we are saying, 'Wait, wait, wait. We don't want him to have the discretion to raid his own fund and to put it into the general fund.' That's not a technical flaw. That's an opinion.

"And my opinion is that we have done some horrible things to the people of Hawaii. And again, we're just making a commitment to them. As we know, you're down and you're hurting financially in these times. Well what this Legislature is asking my people to do is, 'I need a little more from you or else I'm not going to fix that pothole.' So if I'm going to ask my constituents, then I'm going to commit to them and look them in the eye and say, 'You know what I promise you? I will never raid this fund for purposes other than it was intended for. I make that commitment to you today.'

"That of course, is opinion. As a leader, as I feel it, I need to have that commitment to the people if I'm going to take any more from them.

"And I just want to explain what 248-9 means. The speaker from Maui who I just enjoy debating on this Floor so much. What that means is that allows the Director of the Department of Transportation to transfer funds into the general fund, so he can get general obligation bonds to fund highway projects. I support that, and that's why this is in here, Mr. Speaker. Because that's the only way he can get the general obligation funds, then I support that.

"And again, Mr. Speaker, this is just a statement of commitment at the beginning of this legislative session today. Because we are raiding a lot of funds to put money in the general fund today. We're raiding a lot of taxes, hurting people by raising taxes in these economic times, because we are telling them that we need them for roads. We need them for electricity. We need them for the homeless. We need them for education.

"So this is our first commitment as a Minority Caucus, Mr. Speaker. To say if we take any more from you today, you have our word and commitment, Mr. Speaker, that we are going to stand by you and that we know that you sacrificed tremendously to give us this money today, Mr. Speaker. So we are going to make that extraordinary commitment.

"Not binding future legislators, but making a statement on this day and this time, Mr. Speaker, that we will change government forever in this State. That we will actually use the money that we're taking from people for the intended purpose that we committed it too. And that is why I introduced this same amendment for this particular bill, Mr. Speaker. Mahalo."

Representative McKelvey rose to speak in opposition to the proposed floor amendment, stating:

"Thank you, Mr. Speaker. In opposition. And again, my opposition is not on the underlying principle of keeping the Special Highway Fund intact. Rather it's that while well-intentioned, I believe that the Floor Amendment misses the mark. It seems to me that the whole point of this is to make an undeniable pact with the citizens of Hawaii that yes, all of the money in there, if we pass this, will go in a Special Highway Fund and will go to projects.

"However, by having 248-9, and while the good Representative from Ewa Beach did touch upon subsection 3, you need to look at subsection 4(b), which does give the Director of Transportation that discretion to make that transfer of funds at any time.

"So what if the Department of Transportation and the State encounters a very serious situation, makes that determination and transfer under 248-9, 4(b)? That is a transfer from the Special Highway Fund into something else. So how could, with that exception being in there, this be a pact to the people of Hawaii saying if all the money going in there, if we adopt this, that this will definitely never be a transfer from the Special Highway Fund, because there still could be.

"And my point being, Mr. Speaker, and again there's nothing that is passed today that will tell future Legislatures either two years from now, four, or six that this will definitely be the case, because they can undo it.

"I applaud the Representative from South Maui for bringing this issue forward. I stand with him in trying to make sure this Special Highway Fund goes to what it's intended for. But I think that as far as this being a binding line in the sand that if we pass this, then there will be no transfers, is not 100% accurate. And I think that's important to continue to note, and that's why I stand in opposition.

"It's not because of the intent behind it. It's a very well-intended proposal. I think form and function has interfered with the overall thing, and that the end result will not be what is being discussed on this Floor. It will not be ironclad in law that will prohibit transfers from the Special Highway Fund, because that ability will still exist under 248-9, 4(b). Not to mention of course 248-9, 3. Thank you very much, Mr. Speaker."

Representative Fontaine rose to speak in support of the proposed floor amendment, stating:

"Yes, Mr. Speaker. I stand in support of the measure and I would like to have the words from the Representative from Ewa Beach entered as my own, for the sake of time," and the Chair "so ordered." (By reference only.)

Representative Pine rose to respond, stating:

"Yes, just additional comments in support of the amendment, Mr. Speaker. I just want to explain what this particular bill does. The underlying bill. Just so that we can see the context as we continue to increase taxes and fees on people.

"So in addition to what you're paying for your car today, it could range from three, four, five hundred dollars, six hundred dollars depending on what kind of car you have. This will, for those cars that are below or under 10,000 pounds, it'll increase your car registration fee by a hundred dollars. If it's over 10,000 pounds, then it will increase your fees by three hundred dollars.

"And I just would like to say that, I guess I just agree to disagree with the Representative from Maui and how we're reading the legislation, Mr. Speaker. I personally see no problem in transferring funds to the general fund if it is intended to help to build roads, because that is the same concept and commitment that I am trying to make with us today. And so it is for those reasons, Mr. Speaker, and on behalf of my community that are already paying a lot today on gas, I vote in support of this amendment, Mr. Speaker."

Representative Ichiyama rose to speak in opposition to the proposed floor amendment, stating:

"Thank you, Mr. Speaker. I'm in opposition. It's the same technical error in this amendment as well. If I could have my comments from the previous Floor amendment inserted here as well. Thank you," and the Chair "so ordered." (By reference only.)

Representative McKelvey rose to respond, stating:

"Thank you, Mr. Speaker. Just a quick rebuttal. While that does address 248-9, Section 3, that still does not address 248-9, 4(b) which gives the Department of Transportation Director the discretion to make the transfer to the general fund if certain criteria are taken into consideration. Thank you, very much."

The motion that Floor Amendment No. 4, amending H.B. No. 1102, HD 2, entitled: "A BILL FOR AN ACT RELATING TO MOTOR VEHICLE WEIGHT TAX," be adopted, was put to vote by the Chair and upon a voice vote, failed to carry, with Representatives Ichiyama and McKelvey voting no.

(Main Motion)

Representative Riviere rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Johanson rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I think everyone thus far has eloquently pointed out the needs for improving our roadways and our highways, and I definitely agree with that as well. I think the one point that probably has not been fleshed out in a lot of our discussion thus far is just how this bill potentially, adversely impacts or exacerbates our already high cost of living. I just don't know if my constituents, because it's such a broadbased tax, can afford to shoulder that increase burden especially in these times.

"So while I don't necessarily disagree with the underlying premise of the bill to fund the Highway Fund, I guess this particular mechanism to do so, I just think is going to hurt most of the people in my district and is going to impact all of our constituents. And it is for those reasons that I'd like to oppose this measure, as well as insert additional written comments. Thank you."

Representative Johanson's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in opposition. I think my colleagues thus far have pointed out the need for improving our road ways and highways and I definitely agree with that. I think one point that has not been fleshed out in our discussion thus far is how this bill potentially exacerbates our already high cost of living. I do not know that my constituents can afford to shoulder this increased burden in these times, especially because of the broad-based nature of this tax.

"So while I don't disagree with the underlying premise of this bill to fund the State highway fund, I think this particular mechanism is going to hurt most of the people in my district and impact many of our constituents. It is for this reason that I oppose this measure."

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition to the main motion. Mr. Speaker, just as a reminder, this adds \$100 to the registration fee. And the bill before added \$20 to the weight tax. Or is it *vice versa*? One way or the other, we're adding \$120 at least to everybody who's driving. We've got about a million cars and this is just what the State's going to do in terms of fees. Add what the City and County is going to do, and add what the Middle East is going to do in terms of gas prices.

"People are not going to be very happy with this bill, Mr. Speaker. They're not going to be happy because of the cost of living increases and quite frankly, because as the Speaker Emeritus said, we don't have a very good track record as money managers. We always run short. We always tax. And we always spend. This is an attempt to tax again those people who drive, and everybody drives.

"This is very, very essential and quite frankly, Mr. Speaker, this is only one of 26 taxes and fees which we will put forward on this Floor today. One of 26 taxes and fees valued at \$500 million out of the pockets of the people of the State of Hawaii. That's the bigger picture. And I know I'm getting off the bill, but this \$120, \$140 bucks that we're going to put on the cars, let's look at the big picture at what we're doing to the people of Hawaii which already has the highest cost of living in the United States of America. I think that's worth contemplating what we are doing today, and what this First Crossover really means. Thank you."

Representative Ching rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition and I ask that the words from the Representative from Salt Lake be entered as my own, as well as the Minority Leader. Thank you, Mr. Speaker. I just did want to echo again the fact that so many people have been laid off and are looking for new jobs. So many people are looking to do something about their mortgages.

"And so I think that in Hawaii, where we don't really have an alternative in terms of some neighborhoods. Some of us are very lucky we have TheBus. But if the place of employment is near enough, it's not really that much of a problem. Perhaps some of the people in my district might not have that problem. But I'm thinking about everybody in this State. And if they're laid off, and it means I've got to go get a job that is very far away and I have kids, and I have two, three jobs, I just don't know how they're going to do it if the price of everything connected to the car, our mode of transportation, gas prices, etc. as was mentioned by the Minority Leader, how's that going to impact people who are trying to make a new start.

"So that's why I have to say that I have to be in opposition. Although I agree with the Representative from Aiea. I understand the intention of the bill. Thank you."

Representative Ichiyama rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ichiyama's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in support. This bill proposes to slightly increase the motor vehicle weight tax, the proceeds going into the State Highway Fund. The State Department of Transportation (DOT) relies on the Highway Fund to implement its strategic plan for highway improvements across our islands. It is essential for the safety of our residents and visitors that our roads, bridges and sidewalks are maintained in good condition.

"Many of my constituents have expressed concerns about the numerous potholes on the on-ramp to the H-1 by Mapunapuna. We use this on-ramp daily, often swerving from side to side to protect our cars, trucks and vans. The Director of DOT testified that due to insufficient amounts in the Highway Fund, they have extended the repaving schedule of our roads to every 14 years instead of the recommended 10 years. DOT is focused on repair and maintenance, not new projects, as we cannot sustain the current system. Ideally we should be spending \$86,000,000 each year on maintenance for our highway system, but the Highway Fund does not even come close to that amount. Having a low balance also negatively affects our ability to qualify for federal matching money for highway projects.

"I understand the financial pinch that many of our local families are feeling, but this is a demand that we cannot ignore. A failure to maintain our highways results in reduced road space, deteriorating infrastructure, increased accidents and increased liability. Thank you, Mr. Speaker."

Representative Belatti rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1102, HD 2, entitled: "A BILL FOR AN ACT RELATING TO MOTOR VEHICLE WEIGHT TAX," passed Third Reading by a vote of 40 ayes to 10 noes, with Representatives Belatti, Ching, Fontaine, Johanson, C. Lee, Marumoto, Pine, Thielen, Ward and Wooley voting no, and with Representative Nishimoto being excused.

At 10:51 o'clock a.m., the Chair noted that the following bill passed Third Reading:

H.B. No. 1102, HD 2

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 742) recommending that H.B. No. 1097, as amended in HD 1, pass Third Reading.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1097, HD 1, pass Third Reading, seconded by Representative Evans.

At this time, Representative Fontaine offered Floor Amendment No. 5, amending H.B. No. 1097, HD 1, as follows:

"SECTION 1. House Bill 1097 House Draft 1 is amended by adding a new section 2, to read as follows:

SECTION 2. Section 251-2, Hawaii Revised Statutes, is amended by amending subsection (a) to read as follows:

"(a) There is levied and shall be assessed and collected each month a rental motor vehicle surcharge tax of [~~\$2 a day, except that for the period of September 1, 1999, to August 31, 2011, the tax shall be~~] \$3 a day, or any portion of a day that a rental motor vehicle is rented or leased. The rental motor vehicle surcharge tax shall be levied upon the lessor; provided that the tax shall not be levied on the lessor if:

- (1) The lessor is renting the vehicle to replace a vehicle of the lessee that is being repaired; and
 - (2) A record of the repair order for the vehicle is retained either by the lessor for two years for verification purposes or by a motor vehicle repair dealer for two years as provided in section 437B-16."
- (b) There is levied and shall be assessed and collected each month a tour vehicle surcharge tax of:
- (1) \$65 for each tour vehicle used or partially used during the month that falls into the over twenty-five passenger seat category; and
 - (2) \$15 for each tour vehicle used or partially used during the month that falls into the eight to twenty-five passenger seat category.

The tour vehicle surcharge tax shall be levied upon the tour vehicle operator.

"(c) Except as provided in this section, and notwithstanding any other law to the contrary all taxes collected under §251-2 and deposited into the state highway fund shall only be used for the purposes in §248-9 and shall not be transferred to the General Fund or any other fund except for purposes allowed in 248-9 (3)."

Representative Fontaine moved that Floor Amendment No. 5 be adopted, seconded by Representative Pine.

At 10:52 o'clock a.m. Representative Pine requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 10:53 o'clock a.m.

Representative Pine rose to speak in support of the proposed floor amendment, stating:

"Thank you, Mr. Speaker. This basically is extending the Rental Motor Vehicle Surcharge Tax, which is supposed to expire. It keeps it at \$3 a day. We had raised that quite some time ago. And so it adds this section, Mr. Speaker: except as provided in this section and not withstanding any other law to the contrary, all taxes collected under 252 and deposited into the State Highway Fund shall only be used for the purpose of 248-9 and shall not be transferred to the general fund or any other fund except for the purposes allowed in 248-9.

"Mr. Speaker, again since we are committing to keep this fee raised for the Motor Vehicle Surcharge Tax, I think we should make a commitment, Mr. Speaker. A commitment that we're actually going to use the money for what it's intended for.

"And just since I could not stand a third time on a previous debate, I do want to clarify that all these bills address transferring money to the general

fund, only for the particular purpose to use, to ensure, to help that Fund to do the actions that they must take, or the Fund Directors must take, to ensure that that Department is wholly for the purpose that it was intended for. Thank you."

Representative Fontaine rose to speak in support of the proposed floor amendment, stating:

"Yes, Mr. Speaker. I stand in support of this amendment. I will be brief. Again, it's about accountability, showing the people that we want to be accountable. I think it's worthwhile doing. If we have to tweak it, we'll tweak it, but we need to do something to show accountability to the people that we serve. Thank you."

Representative Ichiyama rose to speak in opposition to the proposed floor amendment, stating:

"Thank you, Mr. Speaker. In opposition, and I'd just like to note that this amendment also has the same technical flaw that we've seen in the past two floor amendments. If I could have my comments from those inserted here as well. Thank you," and the Chair "so ordered." (By reference only.)

Representative McKelvey rose to speak in opposition to the proposed floor amendment, stating:

"Thank you. In opposition, Mr. Speaker. And just for the sake of time which is fleeting, I'd just like my comments on the last measure entered into the record for this measure. And again, I just want to say that I do appreciate the Representative from South Maui bringing this forward because I believe that we are of like mind as far as trying to make sure that the money that goes in there is expended for the necessary projects. I just don't think this is the way we're going to get there. Thank you."

Representative Pine rose to respond, stating:

"My final comments on these amendments, Mr. Speaker. And then we can move on. Again, there's no technical flaw in this bill, Mr. Speaker. It is a statement. And if someone wants to say that there is a technical flaw in a statement of our commitment to the people of Hawaii, that our word is true, that we can look you in the eye and say, Mr. Speaker, 'We're going to tax you to raise funds for the Highway Fund and we're going to only ensure that these moneys, whether it's transferred into the general fund to only be used for that purpose,' Mr. Speaker. That's only what it's allowed to do when you transfer funds. For the purpose of helping this Fund and to expand our highways and use this money for the intended purpose.

"Mr. Speaker. I guess I just disagree with people's opinion on this Floor. I see no harm in making a commitment to the people of Hawaii, giving them my word, and then putting it in writing for the world to see."

Representative Chong rose to speak in opposition to the proposed floor amendment, stating:

"In opposition. As stated by the Representative from Lahaina, there's nothing preventing future Legislatures from changing it. But also in rebuttal to some of the comments made by the Representative from Ewa Beach on past raids. Just as a reminder to Members. The general fund revenues used to go into the Highway Fund. Thank you."

Representative Souki rose, stating:

"Yes, Mr. Speaker. I want to speak in favor of this measure. I think the Members should be aware of why. I'm sorry. Are we are speaking to the amendment?"

At 10:58 o'clock a.m. Representative Souki requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 10:58 o'clock a.m.

Representative Souki then stood in opposition to the proposed floor amendment, stating:

"Yes, Mr. Speaker. A Freudian slip maybe. And I wish to speak in opposition to the amendment. I just want to alert the Members that the purpose for this increase in the weight tax and the registration surcharge, all the revenue that we're going to be getting from these measures is to provide for approximately \$800 million in new highways, and repairs and maintenance for bridges and roads. All of that is badly needed and has been neglected in great part during these last eight years.

"Members should also be aware that even with the last Administration, they came out with the Highway Modernization Plan which in some ways was even more draconian than what we have now because that also included an increase in the gasoline tax. So that portion has been taken out, the increase in gasoline tax, in view of trying to be a little bit more moderate. But again, this will provide for \$800 million in highway and bridge improvements. Thank you, very much."

Representative M. Lee rose in opposition to the proposed floor amendment and asked that the remarks of Representative Souki be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

The motion that Floor Amendment No. 5, amending H.B. No. 1097, HD 1, entitled: "A BILL FOR AN ACT RELATING TO RENTAL MOTOR VEHICLE SURCHARGE TAX," be adopted, was put to vote by the Chair and upon a voice vote, failed to carry, with Representatives Chong, Ichiyama, M. Lee, McKelvey and Souki voting no, and with Representative Wooley being excused.

(Main Motion)

Representative Riviere rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Pine rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Fontaine rose to speak in opposition to the measure, stating:

"Yes, Mr. Speaker. I stand in opposition. I think the intention of this was that we increase the surcharge tax on rental cars and that somehow or another, the tourists are paying for this. But in reality, this also affects businesses on our Neighbor Islands who must come to Honolulu to do business.

"And I have personally felt that even from last year when this went into effect, at how much my rental car cost went up to come over here to do business. And so when we look at this, this has a far-reaching effect of not only affecting visitors who come here, but also Neighbor Island businesses and families who travel to Oahu either for business, or for pleasure. We are asking them to pay this additional fee.

"So I think we have to be really cognizant of that. We did it for awhile. I say, let's let it sunset and go away, and take up the issue maybe next year when we can look at it again. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition to the main motion. Mr. Speaker, this bill actually codifies our broken promise. In 1999 we said we're going to do surcharge, but it's only temporary. And now 12 years later, we've broken the promise. We know what broken promises are in Hawaii, about so many things from land use, to taxes, etc. How are we going to maintain our trust with the people of Hawaii? They have a trust in us. That's why they elect us. We're going to do the right thing. We're going to do what benefits the State and all the people.

"So this codifies what otherwise was a promise. It's only temporary. And some of the things that we're putting through today, again as I said earlier. There's 26 taxes and fees, some of which are temporary. So I hope those who keep a watch on what we're doing, and keep track of what we're

saying, are saying, 'Okay, you guys you said on the Floor, March 8, that this is only a temporary tax.' And I'm sure nobody remembers well who was on the Floor in 1999 when we said this was only a temporary surcharge. But the point is this is codifying a broken promise, and it should be taken as such. Thank you."

Representative M. Oshiro rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in strong support. Just to speak up and put some truths into the discussion today. I think everyone knows that over the past several years the Highway Fund has been running short of money for necessary repairs and to maintain our roads in safe conditions. We all know that when our roads are not in safe condition, it creates a hazard for us. In fact the past Administration, the Lingle Administration was keenly aware of that and did embark upon a massive program to restore some repair schedules to our highways.

"The truth of the matter is, Mr. Speaker, that according to the Department of Transportation we need about \$150 million per year just to maintain our roads. These roads are essential for commerce, for transportation and for business. We spend an extraordinary amount of time in delays, traffic jams, and going around potholes because of the conditions of our roads. So this is very important to our economy.

"The measure is projected to result in a revenue gain to the Highway Fund of approximately \$11.2 million in the fiscal year 2012, and \$13.5 million in fiscal year 2013. Far short of the \$150 million we need. Just so that people know, this money will be used for our highways. Let me give you some examples. It will be used for maintaining and repairing the pavement and the shoulders of our roads, bridges, and other structures. Fencing and walls, drainage systems, traffic signs, guard rails, highway pavement markings, highway lighting systems, sidewalks, and wheelchair ramps. Landscaping, irrigation systems, cleaning the streets, and restoring State highways after slides, storms, damages, accidents, and other events.

"Mr. Speaker, I don't know about the other folks opposing this, but I was here in 1999 and I made no such promise. I only promised my constituents that I would be honest with them, speak truth to the facts. And I believe my constituents want me to support this measure to ensure that their highways are safe for their children and family, and affords their businesses to get to and from in a quick and safe manner. Thank you, Mr. Speaker."

Representative Evans rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. I want to add one thing to the discussion that hasn't been brought up about the recent census data that came out. In the last ten years there are many districts in this State where many of our Representatives that are going to be pointing out to all of us the strong need for roads because the population has grown so much.

"So regarding some comments about doing the right thing, it's the right thing today given the new facts. The facts being there's a lot more people. The facts being that the cost of oil has risen so much that asphalt and what it takes to build roads has risen so much. It's eating into the funds that we have in the Highway Fund. It's not because of any raid or anything. It's the reality.

"The reality is we need more roads. The reality is it costs a whole lot more to build these roads. We have got to find a way to meet the demand. I'm even surprised at the growth in my district in West Hawaii. What is the number one issue for people in Waimea? It is roads. They want us to address roads.

"So we have to talk to our constituents and tell them the right thing to do is to work with us, because they're demanding it, but we need to find a way to pay for it. Thank you, Mr. Speaker."

Representative Pine rose to speak in opposition to the measure, stating:

"I'm sorry. I'm just need to clarify. Earlier I said I was with reservations. I meant to say in opposition for my vote. And just a couple of rebuttal

points. I want to thank the Finance Chair and the Majority Floor Leader for stating on this Floor what the intended purpose is. It is for us to fund the Highway Fund. I agree with them wholeheartedly. That is what this money in the Highway Fund is supposed to be spent on, Mr. Speaker.

"But I've got to tell you that if you're fooled more than one time, you kind of don't trust them anymore. That's how a lot of my constituents feel. It's like you're giving us these great stories. We want to help you. We want to get you back to your homes faster, and safely. You deserve this road. You deserve this improvement for your highways. But after what this Body just did in voting down a simple sentence saying, 'Hey we're going to use this money for what we're saying we're raising it for today.'

"It's so hard for me to go back to my constituents and say, 'You know, this is really what the money is going to be intended for,' because I can't have any guarantee. I have nothing in writing that anyone committed to. And so that's why I'm voting no today. Because I don't trust that this Legislature will actually use the money for the intended purpose and that's the Highway Fund."

Representative Ward rose to respond, stating:

"Mr. Speaker, a brief rebuttal. I think we've changed the lexicon of voting on the Floor here, and I seek a point of clarification from the Chair of the Finance Committee who was here in 1999. I was not here in 1999. But who said that he didn't make any promise. But I bet you he voted for the legislation.

"And if legislation votes are not promises to the people, then what are we doing in the roll call and all these other votes today. We're not making commitments by what we're putting our name, our reputation behind? What else do we have to go by? Votes are the recording codification of what we say we stand for and what we believe in."

The Chair addressed Representative Ward, stating:

"Representative Ward, could you confine your comments to the measure before us."

Representative Ward continued, stating:

"So the comment is if he thinks that voting for it and then breaking it is not a broken promise, we've changed the definition and the lexicon of what a vote means on the Floor of the House of Representatives, and the sense of what democracy is, and what our vote is as a republic voting for the people in our district. When we put our name and our vote to a piece of legislation, it should be what we intend to follow through with. Thank you."

Representative Rhoads rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I don't quite follow the logic. We vote every year, or every other year, on a budget. It doesn't mean this is the last budget we're ever going to vote for. It does mean that you're going to vote for a budget, and if you vote for a bill that's temporary, well it doesn't mean another bill can't be brought up later and that you're going to have to vote on. So I just fail to see the logic of the 'promise not kept' argument. Thank you."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I stand in support of the measure. I'm not a cheerleader here for, 'Yeah, we need more tax hikes. Yeah.' It's looking at the underlying issue. There's actually something going on on the Hill right now that was brought to my attention by our Maui County Director of Transportation that puts even more impetus on us to try and reinvigorate our Special Highway Fund, and that is called the end of earmarks and the beginning of competitive bidding.

"And what that means is every state's projects now are going to have to be bid on and reviewed by the federal government. And one of the criteria under discussion is the status of the Special Highway Fund.

"Now Mr. Speaker, yes, this does raise fees. And yes, this could end up being, as the good speaker from Hawaii Kai said, this could be \$100 more a year. But my question to him and to others is, if we don't repair these potholes, these broken sidewalks, and other things, how much damage to the car will it cost you at the end of that very same year.

"You don't need to go very far, Mr. Speaker. You can go right out there on the freeway. Right across the street here and see a big old pothole. You hit that thing going 50 mph and you're going to probably shred your tires. Go to Costco and get a new set of tires. You're already up \$300 if you have a coupon. Of course that's important to note, Mr. Speaker.

"But the main thing is, Mr. Speaker, if we're going to fix these things, if we're going to improve our roads, and if competitive bidding were to pass at the federal level, then we need to do these things now. It's not a choice that we make by, 'Yeah we want to do this because we just want to stick it to the taxpayers of Hawaii.' No. It's because we recognize that if we're going to build these roads, fix these roads, and be able to still secure federal funds, we have got to do our end to reinvigorate the Special Highway Fund.

"And for a matter of record, to my constituents, I campaigned on supporting the Highway Modernization Program as the good Speaker from Wailuku, the Transportation Chair talked about, which in his words, was a lot more onerous than the measure before us.

"Why did I support that? Because my constituents recognized that just wanting something doesn't make it happen. You need to 'feed the bulldog.' It's got to get paid for. But they recognize they would much rather have a road where they're not hitting potholes and shredding their tires. And their suspensions are being shot. And they're going into the Ace Auto building and paying \$500, \$600 minimum, or having to get a new car earlier because of the conditions of the road.

"Not to mention the effect bad roads have on mileage. Your mileage decreases greatly when you have bad, torn up roads. Not to mention that this is the only way to get intelligent traffic systems on all the islands, which will coordinate the lights, which will allow for better flow of traffic, which then decreases commuting time, and also increases gas efficiency.

"So that's why I stand in support. And just a tip to everybody out there. Next time you're stuck in traffic and you want to save gas, put your car in neutral. It works. Trust me. Thank you."

Representative Tokioka rose, stating:

"Thank you, Mr. Speaker. Just a point of clarification. Besides the Consent Calendar, is this the fifth bill that we're working on? I believe it is. So for the sake of brevity, can I call for the question, Mr. Speaker?"

At this time, Representative Tokioka called for the previous question.

Representative Pine rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1097, HD 1, entitled: "A BILL FOR AN ACT RELATING TO RENTAL MOTOR VEHICLE SURCHARGE TAX," passed Third Reading by a vote of 47 ayes to 4 noes, with Representatives Fontaine, Pine, Thielen and Ward voting no.

At 11:14 o'clock a.m., the Chair noted that the following bill passed Third Reading:

H.B. No. 1097, HD 1

At 11:15 o'clock a.m. the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 11:21 o'clock a.m., with the Speaker presiding.

Representative Carroll rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Carroll's written remarks are as follows:

"I am in strong support of HB 1486 HD1 as it requires small boat harbor vessel permittees to escort and accompany their passengers during their visit ashore by affiliated crewmember equipped to render emergency care. Furthermore, HB 1486 HD1 will address and remedy the unauthorized commercial use of Hulopoe Beach Park on Lanai by Maui tour boat operators.

"Time and time again we have received reports and complaints of private tour companies from Maui dropping numerous tourists unescorted and unattended to fend for themselves. Tour company's permits usually require these operators to stay with their customers until the end of their tour to ensure the health and wellbeing of their passengers. These commercial permits generate the necessary revenues to improve and maintain these public facilities to ensure their sustainability.

"Currently unsupervised tourists have presented issues such as overcrowding, over accumulated refuse, overuse of showers and toilet facilities, and have exacerbated the situation for those who live nearby and rely on the only public beach with shower, toilet and picnic table facilities. In addition, emergency situations are made unnecessarily complex and dangerous as many of these patrons are without identification or any type of communication with the private charter companies. House Bill 1486 HD 1 sets provisions for the use of quasi-public areas by patrons of tour companies and requires that such companies accompany their customers while they are ashore and conduct business in a satisfactory and mutually beneficial manner that will adhere to the best interests of all involved."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition. Mr. Speaker, last year on this Floor I noted job killer number 1, number 2, number 3, number 16. I never had a business killer. This is business killer number 1, because if this bill passes, all the small businesses that drop off visitors, tourists, those who want to enjoy Lanai Island will have no capacity to do so.

"And if I can be convinced otherwise, I would welcome anybody who says this is not going to kill the visitor industry or the small tour guys who bring and drop off people via boat on the Island of Lanai. Thank you, Mr. Speaker."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you very much, Mr. Speaker. In support. And to assuage the concerns of the previous speaker from Hawaii Kai, that is exactly what this will not do. What this bill does is seek to stop a loophole that has been exploited whereby carriers who are doing excursions for visitors are acting as unlicensed PUC carriers to the Island of Lanai.

"What this does is bring back what the Lanai residents originally wanted. I would like to actually submit the documentation to the Journal. They themselves asked that when people are coming to Lanai, that they be accompanied by the tour group to ensure that the facilities and other natural environment, the beauty of Lanai is protected and preserved.

"The only carrier that takes people and drops them off is a PUC license carrier. What's happened is other entities are basically doing the same thing under the guise of being a carrier, even though they're not. And they're conducting visitor operations which have greatly disturbed the people of Lanai.

"So what this does is to bring the situation into accord, and brings fairness to everybody. Most importantly, it ensures that the pact that the Lanai community and the County of Maui entered into years ago is still maintained today. Thank you very much, Mr. Speaker."

Representative McKelvey submitted the following documents:

Re: IC-2008-034: Informal Complaint filed on February 28, 2008

Dear Mr. Rabano:

This responds to the above-referenced Informal Complaint, IC-2008-034, filed by you on behalf of the Hulopo'e Beach Park Council ("Council") on February 28, 2008 ("Complaint"). The Complaint requests the State of Hawaii Public Utilities Commission ("Commission") to investigate certain companies engaging in the commercial activity of transporting passengers between the islands of Maui and Lana'i without a certificate of public convenience and necessity ("CPCN").

The Commission has conducted an investigation of the allegations in the Council's Complaint. Enclosed please find a memorandum prepared by Commission Staff that discusses the Commission's investigation of this matter.

As you may already be aware, under the Hawaii Water Carrier Act, Hawaii Revised Statutes ("HRS") Chapter 271G, water carriers operating between points within the State must apply for a CPCN and be regulated by the Commission. See HRS § 271G-10(a). HRS § 271G-6(5), however, exempts from regulation under Chapter 271G, "[p]ersons engaged in business of transporting persons for sightseeing and other recreational activities." Based on the observations discussed in the enclosed memorandum, the Commission concludes that the allegedly illegal boat operators are conducting recreational and sightseeing tours, and are therefore exempt from the Hawaii Water Carrier Act under HRS § 271G-6(5).

The Commission understands that the use of Hulopo'e Beach Park by visitors who are transported by commercial boats is a significant concern to the Council and many Lana'i residents. The Commission, however, is obliged to follow its laws, and absent a legislative amendment, those laws appear to presently exempt from the Commission's jurisdiction the commercial boaters who are the subject of the Complaint.

RE: IC-2008-034: Informal Complaint filed by Hulopo'e Beach Park Council

I. INTRODUCTION

This memorandum discusses two site investigations that were conducted by State of Hawaii Public Utilities Commission ("Commission") staff in connection with the above-referenced Informal complaint filed by the Hulopo'e Beach Park Council ("Park Council") on February 28, 2008 ("Complaint").

II. BACKGROUND

In or around late November to early December of 2007, Commission Staff was informed by the Department of Land and Natural Resources ("DLNR"), Boating Division, that the following companies were picking up passengers from Maui and dropping them off at the Lana'i Small Boat Harbor:

1. Hone Heke Corporation dba Expeditions ("Hone Heke")
2. Trilogy Corporation ("Trilogy")
3. Alililani Yacht Charters, Inc. ("Alililani") (which sails on the "Paragon")
4. Seabird Charters, Inc. (which sails on the "Spirit of Lahaina"); and
5. Seabird Cruises, Inc. ("Seabird Cruises") (which sails on the "Maui Nui Explorer")

Between December 17, 2007 to December 24, 2007, Commission Staff sent inquiry letters to all companies above, with the exception of Hone Heke since Hone Heke is currently regulated by the Commission to operate a ferry service between Maui and Lana'i. Between January 3, 2008 to February 8, 2008, the four unregulated companies responded by letters filed with the Commission. Generally, the companies asserted that they offer excursion or adventure tours (e.g., for snorkeling, sightseeing, and whale watching), and are therefore exempt from Commission regulation under Hawaii Revised Statutes ("HRS") § 271G-6(5), which exempts from the Commission's Water Carrier Law, "[p]ersons engaged in business of transporting persons for sightseeing and other recreational activities." The boat operators also stated that they all have the required DLNR permits that allow them to operate in Lahaina Harbor and Manele Harbor. Several of the operators represented that they have been operating for over twenty-five years.

On February 28, 2008, the Park Council filed its Complaint, requesting the Commission to investigate boating companies that are allegedly illegally operating as a ferry service by transporting passengers between the islands of Maui and Lana'i without a certificate of public convenience and necessity ("CPCN"). The Complaint specifically named Seabird Cruises and Alihilani, among "others," as companies that were engaged in the allegedly illegal commercial boating activity.

Upon invitation by the Governor's Lana'i Community Advisory Council ("Advisory Council"), on behalf of the Commission, Bryan Kageyama and Kalulani Shinsato ("KKS") attended the Advisory Council's monthly meeting on Lana'i on March 26, 2008. Several representatives of Castle & Cooke, the Park Council, and the community attended the meeting. In addition, corporate officers of Hone Heke and Trilogy testified at the meeting. It did not appear that representatives of Alihilani, Seabird Charters, and Seabird Cruises attended the meeting. Commission Staff explained the Commission's jurisdiction over water carriers and answered numerous questions from attendees. Based on the testimony heard at the meeting, it became apparent that the allegations of illegal boating activity were not aimed at Hone Heke and Trilogy. Specifically, it was acknowledged at the meeting that Hone Heke was operating as a legitimate ferry service between Maui and Lana'i, and had already obtained a CPCN from the Commission. Moreover, regarding Trilogy, it was explained that Trilogy was the only legitimate tour service that lands on Lana'i. Trilogy's customers are escorted onto the island by licensed/trained guides, and it pays a fee for use of the Hulopo'e Beach Park facilities. Attendees at the meeting encouraged Commission Staff to conduct site investigations and take "tours" with the unregulated boating companies.

III. SITE INVESTIGATIONS

Investigator Nicholas Ching ("NC") was informed by Seabird Charters, Inc. that it no longer operates tours to Lana'i; and as set forth above, the Park Council and community members on Lana'i do not allege that Trilogy is operating illegally. Thus, it was decided that staff should conduct two site investigations of the two remaining operators – Alihilani and Seabird Cruises.

1. Alihilani/Paragon

The first investigation of Alihilani, which sails on the Paragon, was conducted undercover by NC on June 7, 2008. Paragon advertised this tour as a "Lana'i Snorkel, Beach Picnic & Performance Sail." This tour is described on Paragon's website as follows:

Paragon Sailing Charters proudly announces their newest snorkel sail destination, the exclusive island of Lana'i. Known as the pineapple island, Lana'i's hidden secrets include spinner dolphins off the white sand beach at Manele Bay. The underwater treasures are so unique that Lana'i has

2

been rated one of the top 10 snorkel destinations in the world.

As a discriminating visitor to Lana'i, your adventure aboard *Paragon* begins at historic Lahaina Harbor with an 8:15am check-in. A deluxe continental breakfast is served as you enjoy the panoramic view of the islands of Maui, Molokai, Kahoolawe and Hawaii in the distance. The white sand and pristine water of Manele Bay is your mid-day Lana'i destination. When we arrive, you will discover one of the most beautiful beaches in Hawaii, Hulopo'e Beach. Enjoy your picnic lunch as you lounge on grass mats, or snorkel the underwater world of Hulopo'e Bay – one of Hawaii's most incredible snorkeling destinations. On the return sail, *Paragon* often stops just off Maui for our spectacular [sic] blue water swim. This refreshing swim break is a wonderful compliment to the many details Paragon offers on our Lana'i tour. Paragon Sailing Charters provides a first class experience for all.¹

The Paragon is a sailboat that is also equipped with a motor. En route to Lana'i, the Paragon went by motor, while on the return trip, the Paragon went by sail. As a part of the tour package, passengers were provided with a continental breakfast, a picnic lunch, snacks, non-alcoholic and alcoholic beverages, and snorkel gear.

NC boarded the Paragon at approximately 8:30 a.m. at Lahaina Harbor. While traveling to Lana'i, the boat encountered a pod of spinner dolphins. The boat slowed to follow the pod and allow passengers to take pictures of the dolphins. The boat's crew provided some educational explanations to passengers on sea life, including dolphins and turtles. The crew also provided a brief snorkeling lesson to passengers and handed out snorkeling equipment. The boat anchored for approximately one hour off the coast of Lana'i for passengers to snorkel. At this snorkel spot, passengers were able to view a variety of fish, as well as sea turtles.

The Paragon then traveled to Lana'i and docked in the Manele Small Boat Harbor at approximately 12:15 p.m. Passengers were allowed about an hour of free time on Lana'i; they were instructed to return to the boat by 1:10 p.m.² Passengers were escorted only to the top of the harbor area so that the beach could be pointed out down the road. The boat crew then returned to the boat, left the harbor, and most likely anchored somewhere outside of the harbor until shortly before the 1:10 p.m. pick-up time.

¹See <http://www.sailmaui.com/lanai.htm>.

²Upon earlier telephone inquiry by NC to Paragon, Paragon informed NC that they do not conduct one-way trips to Lana'i, and that Coast Guard regulations require them to return with all passengers they drop off on Lana'i.

3

Passengers walked along the road to Hulopo'e Beach. While at the beach, passengers ate their picnic lunches, swam, and sunbathed.³ Passengers then walked back to the harbor to board the boat at 1:10 p.m. The boat crew took a head count to make sure all passengers were on board.

On the return trip, conditions were windier and the Paragon sailed back to Lahaina. Passengers were offered snacks and drinks, including alcoholic drinks. The crew intended to anchor off the coast of Maui so passengers could swim. However, because some passengers became seasick when the boat stopped, the crew decided to continue the sail. The Paragon docked in Lahaina at approximately 3:30 p.m.

2. Seabird Cruises/Maui Nui Explorer

KKS conducted an undercover investigation of Seabird Cruises, which sails on the Maui Nui Explorer, on July 10, 2008. The tour, called "Lana'i Landing," is described as follows:

This is an adventure for those who want to have a lot of fun. . . . The Explorer offers two snorkel sites, one off the boat along the coast of Lana'i and several hours on the beach at Manele Bay. Continental breakfast on the way over and a deli style picnic on the beach give this trip an added twist. Beachcombing, snorkeling or a peek at the Lodge at Manele are just a few of the options. . . . This is a very good outing for those looking for adventure.⁴

The Maui Nui Explorer is a 48-foot long motorized raft. As a part of the tour package, passengers were provided with a continental breakfast, a picnic lunch, snacks, non-alcoholic beverages, and snorkel gear.

KKS boarded the Maui Nui Explorer at approximately 9:00 a.m. at Lahaina Harbor. Prior to boarding, passengers stood in front of a buoy and had their pictures taken by a photographer. These pictures were available for purchase after the trip. The boat departed for Lana'i. Midway in the trip, the captain of the boat stopped the boat to point out the islands of Maui, Molokai, Kahoolawe, and Lana'i. He also explained some geological features of the islands and the ocean (i.e., the depth of the sea floor in that area).

It took about one hour for the boat to reach the coast of Lana'i. The boat anchored in a remote spot off of the island. Snorkeling instructions were provided to

³NC noted that passengers generally did not snorkel at the beach given the relatively short time they had to spend at the beach.

4

passengers and snorkeling gear was distributed. The crew explained the kinds of sea life that were prevalent in that area. They also gave basic instructions on water safety and signals to use to communicate in the water. Passengers were then allowed about one hour to snorkel. Various types of fish were seen, as well as numerous sea turtles. Many passengers took underwater pictures.

The boat then continued to travel towards Manele Harbor. During this part of the trip, the boat kept close to the coast, which provided a more scenic view of the island. Just prior to reaching the harbor, a large pod of spinner dolphins was spotted near the coast. The captain of the boat drove the boat right next to the pod so that passengers could get a close-up view of the dolphins. Many passengers took pictures and video. The crew provided educational background on the behavior of spinner dolphins, including the fact that they enjoy playing in the wake of boats. The boat captain made several faster trips along the coast so that passengers could see the dolphins playing in the wake of the boat.

After about 30 to 45 minutes of watching the dolphins, the boat continued towards Manele Harbor. The boat actually passed the harbor and first traveled to "Sweetheart Rock," a famous landmark on Lana'i, and then went to a cove area. The boat then turned around and traveled back towards the harbor. More dolphins were seen along the way. Outside of Manele Bay, the captain stopped the boat and gave instructions for passengers' use of Manele Beach. He pointed out that the left side of the beach closest to the Four Seasons Resort at Manele Bay was for use by hotel guests and that passengers should utilize the picnic tables and showers on the right side of the beach. He also encouraged passengers to throw away their trash and to be back at the boat promptly by 3:00 p.m. for the return trip to Maui. The boat then continued towards the harbor, docking at around 12:00 p.m.

The crew explained to passengers how to get to the beach from the harbor (an approximate 5-7 minute walk). Passengers were allowed off the boat unescorted with their picnic lunches and snorkel gear. The boat left the harbor.⁵

Passengers walked to Hulopo'e Beach. While at the beach, passengers ate their picnic lunches, swam, snorkeled, sunbathed, or hiked to a scenic lookout to view Sweetheart Rock (on the opposite side of the resort). Before 3:00 p.m., passengers returned to the harbor. The boat crew took a head count to make sure all passengers were on board.

The boat traveled non-stop back to Lahaina. Along the way, the captain allowed passengers to take turns steering the boat. The boat docked in Lahaina Harbor at approximately 3:40 p.m.

⁵During the return trip to Maui, some passengers asked the crew what they did while passengers visited the beach. The crew informed the passengers that they anchored the boat outside of the harbor and did some maintenance work on the boat.

Representative Carroll rose in support of the measure and asked that the remarks of Representative McKelvey be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Morita rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I am in strong support of this measure. I also would like to adopt the words from the Representative from Lahaina as my own."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1486, HD 1, entitled: "A BILL FOR AN ACT RELATING TO SMALL BOAT HARBORS," passed Third Reading by a vote of 50 ayes to 1 no, with Representative Ward voting no.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committees was adopted and H.B. No. 924, HD 2, entitled: "A BILL FOR AN ACT RELATING TO INSURANCE," passed Third Reading by a vote of 51 ayes.

At 11:27 o'clock a.m., the Chair noted that the following bills passed Third Reading:

H.B. No. 1520, HD 2
H.B. No. 1517, HD 1
H.B. No. 1095, HD 2

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 235, HD 2, pass Third Reading, seconded by Representative Evans.

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition of this measure. This is the measure in the Finance Committee that came out as elixir if you will, for all the ills of corporations. This is a new thing called the limited liability company, or the ingenuity company. It promises to have prominent social values, prominent environmental values, and fair labor standards.

"In the testimony it was suggested that this would even help the workers in Chile, help their environment, and the standards we set by this will be implemented. Mr. Speaker, I read this, discussed it with my colleagues and from the legal point of view. There's nothing in this bill that can do any of that. It cannot effectuate a better environment, better labor standards, etc.

"It should be commended for its ingenuity in that it is called an ingenuity corporation, but in effect, it's really ingenious, if we look at what it promises and is not able to deliver. So I'm not sure why this is here. I know it was on the Floor a number of times before as basically a labor bill to get corporations to be more labor sensitive. But where it's going now I'm not sure is the genuine thing in that it calls itself as an ingenuity corporation. Thank you, Mr. Speaker."

Representative Marumoto rose to speak in support of the measure with reservations, stating:

"Thank you. Yes, with reservations on Stand. Com. Rep. No. 693. I just wanted to point out that the Business Registration Division of the Department of Commerce and Consumer Affairs said that it would require more funds to develop software to handle this new type of limited liability corporation. So just to let us know that it might cost us some extra money. Thank you."

Representative Ching rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Johanson rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Riviere rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Thielen rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Belatti rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative M. Oshiro rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in strong support. Let me first of all ask for permission to submit written comments at the close of my brief remarks.

"First of all, let's start off with the basic notion that under the federal Constitution, our founding document provides in Article I, Section 8, that Congress shall have the power to promote the progress of science and useful arts by securing for limited times to authors and inventors exclusive rights to their respective writings and discoveries. That is the fundamental law regarding ingenuity, technology, patents, copyrights, trademarks, etc. Things that are products of the mind and ingenuities of individuals.

"In the era of patents, Mr. Speaker, the purpose of having these protections is that they provide incentives for economic and efficient use of research and development. Again, the product of people. They encourage the disclosure of innovations to the public for the common good and for commerce.

"This bill will help create and retain jobs in Hawaii and the United States by requiring the ingenuity companies create jobs in Hawaii, and the United States. It will protect the rights of inventors and innovators. It will increase the value of their patents. And it will also support public policy in the laws that we pronounce to protect: our workers, our environment, our suppliers, and our communities.

"It will also mitigate the effects of the most recent decision, the eBay case by the United States Supreme Court in 2006 in the articulation and application of the four-part injunction test. It will promote fair labor standards, enhance environmental protection, and promote the development of Hawaii and the United States in the areas of science and useful arts.

"And let me give you a real example. Before me is a can of pineapple. It's stamped on it, 100% Hawaiian, USA. This is probably the last can of pineapple you might see for a while. It came off the Island of Maui before Maui Land & Pine shut down their canning operations. I think history will reflect that the entire global pineapple industry, both Dole and Del Monte had its roots in Hawaii.

"In fact, Mr. Speaker, it hits home, close to me and my own hometown, because it is where Mr. Dole, Mr. Clark and Mr. Eames began their pineapple enterprises. The first canned pineapple fruit were shipped from the community of Wahiawa to the US Continent.

"So let's go on with my example. Let's say for example, that today an inventor comes up with a new hybrid type of pineapple. This type of pineapple is sweeter, juicer, and resistant to disease. It also uses less water. The inventor of the pineapple gets a patent on it so that no one can sell or distribute this new hybrid without the permission of the inventor.

"The inventor gives a license to grow and sell the hybrid to a small pineapple company in Hawaii. Let's say Maui Land & Pine, or the folks on the North Shore of Oahu. Because of the license, those small companies are allowed to grow, sell, and make money off the hybrid Hawaiian pineapple. And again, Hawaii is the land of a thousand pines.

"But someone from a big company comes in and steals the hybrid pineapple. The big company starts to produce the new pineapple growing all of it overseas where it is cheaper. Where it does not have the environmental standards to worry about. The inventor goes to court to try to get an injunction to legally stop the big company from growing and selling the hybrid pineapple.

"The four part test that the inventor has to meet to get an injunction is as follows. Number one, that he has suffered irreparable injury. Number two, that the remedies available in law are inadequate to compensate for the injury. Number three, that considering the balance of hardships, a remedy and equity is warranted. And number four, that the public interest would not be disserved by a permanent injunction."

Representative M. Lee rose to yield her time, and the Chair "so ordered."

Representative M. Oshiro continued, stating:

"Thank you, Representative Lee. Because the inventor has given a license to a small company in Hawaii, the court sees that the inventor is willing to give out licenses. The court rules that the big company has to pay the inventor money, but it can continue to keep producing the hybrid pineapple. No injunction.

"But if this patent was held by an ingenuity company, that could be a different story. When the inventor goes to court, the same four-part test applies with one major difference. Because the ingenuity company must create jobs in Hawaii, must uphold fair labor standards, and must enhance environmental protection, the damage to the hybrid pineapple patent is

irreparable because the company is required by law, Hawaii State law, based upon the designation that they must use their patent to fulfill those futures to become compliant with the law.

"Merely paying for damages or infringements is not enough. The big company isn't doing those three things so the patent is not being used properly, and it is being used illegally. The court therefore is more likely to rule that the big company can't keep using the patents as it has been, even with a monetary award, and maybe an injunction to stop their theft will come forward.

"Certainly there is no guarantee the court will force a big company to stop the patented hybrid pineapple. There is no way to guarantee a court outcome, but being part of a company designated as an ingenuity company reinforces that if this hybrid pineapple patent is going to be used, it has to be used in those ways. Creating and retaining good jobs in Hawaii, upholding fair labor standards, and doing so in conjunction with proper environmental standards.

"Why does this all matter, Mr. Speaker? It matters because as a natural resource-poor state, except our renewable energy, we must encourage and nurture our rich human talent and innovativeness. Hawaii already has per capita, more patent holders than any other state and some countries. We need to encourage intellectual property as an industry in Hawaii and establish laws and rules to become the capital for ingenuity protection and promotion, just as Delaware, a very small state has become the capital for the traditional corporate model.

"Last night I got a call from Mr. Ian Chan Hodges and he shared with me that he had spoken with Dr. Damadian, the inventor of the MRI. Dr. Damadian wrote a letter regarding this bill and I'd like to share a few important points.

"Dr. Damadian points out these facts. The US Patent system created in part by George Washington and Thomas Jefferson is designed so that people who invent new technologies, regardless of their access to capital, own them and therefore have the opportunity to profit from them. The US Patent system is absolutely vital to America's economic strength. Indeed it helped to create it.

"Abraham Lincoln declared that patent rights, "secure to the inventor for a limited time, exclusive use of his invention and thereby added the fuel of interest to the fire of genius and the discovery and production of new and useful things."

"He closes his letter as follows: 'By establishing the ingenuity company designation, the State of Hawaii will be addressing these concerns in a matter that benefits inventors, creates and retains good jobs, as well as support other public purposes.'

"Mr. Speaker, I believe we're on to something bigger than we can imagine or foresee. I humbly ask my colleagues to hold up any cynical doubt, but have some faith in Hawaii's people and their ingenuity. Thank you, Mr. Speaker."

Representative M. Oshiro's written remarks are as follows:

"Mr. Speaker, I rise in strong support of House Bill No. 235, House Draft 2, relating to limited liability companies.

"This bill would allow a limited liability company to be designated as an "ingenuity company" and require an "ingenuity company" to use the right to exclude, conferred by a patent in which the company has an interest in this right to create job opportunities, uphold fair labor standards, and enhance environmental protections.

"The entire concept of a patent comes from Article One, Section 8(8) of the Constitution of the United States of America, which states:

"The Congress shall have power...To promote the Progress of Science and useful Arts, by securing for limited times to Authors and Inventors exclusive Right to their respective Writings and Discoveries."

"Our founding fathers recognized that it is through innovations and ingenuity that our country grows and moves forward towards further success. This understanding has always been a part of American history and culture. Patents are vital to protecting ingenuity because they encourage innovators to disclose their work for the common good, rather than keeping inventions only for their own use. Esteemed American author Mark Twain wrote, "I knew a country without a patent office and good patent laws was just a crab, and couldn't travel any way but sideways or backways." That same sentiment holds true today—our country moves forward through protecting and promoting ingenuity.

"What this House Bill No. 235, House Draft 2 does is to take that inherent belief in American ingenuity and offer it further protection in the form of law. Patents are difficult to defend in part because of the four-part test that they must pass after being infringed upon, set up in eBay Inc. v. MercExchange, L.L.C. 547 U.S. 388 (2006):

1. That the patent has suffered an irreparable injury;
2. That remedies at law are inadequate to compensate for that injury;
3. That considering the balance of hardships . . . A remedy in equity is warranted; and
4. That the public interest would not be dissected by a permanent injunction.

"I discussed in my spoken Floor remarks about this first part of the test, and how an ingenuity company would make it easier for the patent holder to prove an irreparable injury, using the example of a hybrid pineapple patent. However, this bill would enhance the ability of patent-holders to prove each part of the test, and so, I would like to briefly explain how this House Bill No. 235, House Draft 2 would assist inventors in meeting the other parts of the four-part test.

"The second requirement of the four-part test is that "remedies at law" are inadequate in terms of compensation. Using my example of the hybrid pineapple patent, when the inventor goes to court, the court will see if "remedies at law"--which refers most often to monetary damages--are adequate compensation. Without the protections afforded by an ingenuity company designation--the requirements that patents held by an ingenuity company must be used to create good jobs, to uphold fair labor standards, and to enhance environmental protection--many courts might find that monetary damages are adequate remedies at law for the damage done to the pineapple patent. The inventor could walk away with a sum of money--perhaps a large one--but without the right to stop this big company from using the pineapple patent.

"However, if the patent is held by an ingenuity company, the pineapple patent must be used in these three ways. Therefore, money alone cannot be considered adequate compensation for the violation of the patent because the pineapple patent is not being used as they legally must be used. The court is more likely to find that the ingenuity company's patent cannot continue to be used by the big company.

"The third requirement of the four-part test is that "considering the balance of hardships . . . a remedy in equity is warranted." In this example, the "balance of hardships" refers to looking at the damage done to the inventor and holder of the hybrid pineapple by the theft of the patent and looking at the damage that could be done to the big company that stole the patent if they are forced to stop using the patent. The big company claims, of course, that their hardship would be greater because they have a larger amount of assets hanging in the balance.

"However, if the pineapple patent is held by an ingenuity company, then the balance of hardships can be tipped in the inventor's favor. The pineapple patent is required by law to be used in three ways (creating good jobs, upholding fair labor standards, and enhancing environmental protection), so if the big company is not using the patent in those ways, then the hardship done to the ingenuity company is enhanced. If the ingenuity company is forced to give a license to the big company who is shipping all the jobs relating to the pineapple patent overseas where it can use forced labor and not pay attention to environmental protections, the

ingenuity company will be in violation of the law, making their hardships much greater than they would be without the protections that the designation affords.

"The fourth and final part of the four-part test is that 'the public interest would not be disserved' by the court granting the inventor a permanent injunction and forcing the big company to stop using the pineapple patent. Under current conditions, because the big company has a larger customer base, so more people have access to the hybrid pineapple, the public interest could face a greater disservice by an injunction which would prevent some people from having access to the hybrid pineapple.

"However, if the pineapple patent is held by an ingenuity company, then the injunction would serve the public interest in three specific ways: helping to create and retain good jobs in Hawaii and the United States, helping to uphold fair labor standards, and helping to enhance environmental protections. Without the injunction, these three public interests would be disserved.

"This bill seeks to provide greater protections to patent holders by creating the designation of 'ingenuity companies' and requiring companies with this designation to fulfill three public interests: to create and uphold good jobs in Hawaii and the U.S., to uphold fair labor standards, and to enhance environmental protection. We must seek to make these three interest priorities. We need jobs in Hawaii and the U.S., especially after the recession which damaged our economy. We need to uphold fair labor standards, ensuring that our American ingenuity is being used to help and not to harm others. We need to enhance environmental protection, especially in the face of climate change.

"The ingenuity company designation is a designation of companies that could change the way that patents are protected and the way American ingenuity is used throughout the world. We have a chance to be on the cutting edge of the protection and promotion of innovation, and I ask your indulgence to explore this opportunity.

"Thank you, Mr. Speaker, for this opportunity to insert written comments."

Representative Ward rose to respond, stating:

"Mr. Speaker, a brief rebuttal. Cynical doubt. I'm not sure. Even though I appreciate the live example using the Maui Pineapple. I think that it shows that it's been thought out rather than on its face value, not such thought out.

"Number one, intellectual property rights are international law. Everything that is packaged within a copyright, patent, etc. If you want to have riders on that, there's nothing in law now that says you can't do that. Like if you're going to use this, you can't do it in a certain way. You've got to be conscientious of certain standards. There's nothing in law that agreements between contracting parties cannot make.

"Number two. I appreciate the value of a small local company because we want to promote small business. But generally speaking, it's the 'big fish' eating the 'small fish.' It's the small guy with the patent who gets bought out by the big boys. The Googles who buy up the small innovative, creative companies. And that's how the small guys make money and then themselves become big boys. So the reality is his example is in fact turning it on its head. It's not easily the other way. It's usually the other way around where the big guy is the one who's actually sucking all this stuff up.

"And thirdly, Mr. Speaker. This is a \$125,000 investment. I'm not sure that the people of Hawaii at this particular junction are willing to put \$125,000 on something that's still, I believe, still unclear.

"And lastly, it's where it says that this is irrevocable. How can a corporation which is by law an individual, be irrevocable? If it's owned by people, and as said earlier, people change. They change their minds. What is in effect going to happen with an irrevocable patent such as this? It's just something maybe slightly ahead of our time. I think it needs to be a little bit more tempered. But in terms of an ingenuity corporation, I'm still not sure that it's not ingenious."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. Representative Takai rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support of this measure, Stand. Com. Rep. No. 696. Thank you. I wanted to commend the author of this bill, I believe he's the Representative from Mililani, as well as the colleagues who have worked to shape this bill. This is a very important bill. We've talked about it for quite a while in addressing our doctor shortage. We all know we're facing currently a shortage of 600 doctors in Hawaii. And we're going to hear later about some of the ways that we're attempting to deal with this shortage. But I've said many times over the years that the best way to deal with the shortage in doctors is to ensure that the doctors that we train at JABSOM work and live in Hawaii once they graduate.

"Now this may be difficult for some because we don't have residency programs in some unique fields so some of our graduates may have to go to the mainland for this further education and for their residency. But if the US Military can do this, and other disciplines can do this, we should be able to do this in medical school education, and that is to insist on people coming back to Hawaii. And if you come back to Hawaii and you practice in Hawaii, we will augment your loans. Help you repay your loans so that your amount that you have to pay to the banks or to the school will be minimized.

"I stand here today recommending that we move this forward and maybe look at ways that we can support this through the use of Tobacco Funds or any other funds because if we cannot ensure that our doctors come back after going through their residency program, then we're really not doing anything to address the shortfall. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 902, HD 2, entitled: "A BILL FOR AN ACT RELATING TO THE UNIVERSITY OF HAWAII," passed Third Reading by a vote of 50 ayes, with Representative Saiki being excused.

Representative Keith-Agaran rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, may I have a ruling on a conflict? One of the settlements in this bill is for a client represented by members of my law firm. I'd like to be excused from voting on this bill," and the Chair ruled, "no conflict."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1001, HD 2, entitled: "A BILL FOR AN ACT MAKING APPROPRIATIONS FOR CLAIMS AGAINST THE STATE, ITS OFFICERS, OR ITS EMPLOYEES," passed Third Reading by a vote of 50 ayes, with Representative Saiki being excused.

The following late introduction was made to the Members of the House:

Representative M. Oshiro, on behalf of Representative Riviere and himself, introduced teacher, Ms. Beth Araki and the students of Hale Kula Elementary.

ORDINARY CALENDAR

UNFINISHED BUSINESS

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 709) recommending that H.B. No. 1330, HD 1, pass Third Reading.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1330, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Thielen rose to disclose a potential conflict of interest, stating:

"Yes, Mr. Speaker. A potential conflict ruling, please? My grandson is at the John A. Burns School of Medicine," and the Chair ruled, "no conflict."

Representative Thielen then rose in support of the measure, stating:

"Thank you. I'm in support of the bill."

Representative Takai rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Takai's written remarks are as follows:

"I rise in opposition to this measure.

"For the record, I am and have always been a strong supporter of the University of Hawaii and the John A Burns School of Medicine (JABSOM). What I am fundamentally opposed to is the raiding of the Hawaii Tobacco Prevention and Control Trust Fund (Tobacco Fund) to cover operational expenses.

With the passage of the bill to create the Tobacco Fund in 1999, this Body made the decision to save lives, save money and improve overall public health. The bill would have a positive impact on every resident of Hawaii, especially our children.

At the time, Hawaii was poised to become one of only five states to make a commitment to fund tobacco prevention programs beyond a minimal level, placing itself on the map as one of the National's leaders in terms of public health and education.

Representative Takai, House Journal 1999

"And yet, over a decade later, we are now hastily eroding that commitment by diverting more and more funding to an entity that should have had self-sustaining financial plans from the very beginning. What JABSOM is doing is, as they say, 'taking from Peter to give to Paul'. But the revenue into the Tobacco Fund is not being replenished at a proportionate rate.

"The Tobacco Fund was never designed to be used as an emergency and budget reserve fund. I would like to remind this Body of the words of Health Chair Alex Santiago back in 1999 regarding the creation of the Tobacco Fund:

Mr. Speaker, if all goes as planned, someday when we look back on all the issues and measures I have had the privilege of being involved with, this measure, I believe, will be one of those I will remember as being significant and very important with the resulting efforts to many

individuals. I want to thank you Mr. Speaker, for giving me this opportunity to manage and be involved with this measure.

Representative Santiago, House Journal 1999

"We have had over ten years and countless promises made by the University, the University Administration and JABSOM leadership. In recent discussions with the President, Chancellor and the Medical School personnel, I shared with them the following issues: if the concern is the lack of adequate doctors in Hawaii, there should be a requirement to stay or at least strongly encourage by incentives or disincentives; if the concern is the lack of residency programs in Hawaii, we should focus on creating residency programs centered around family practice, general medicine or respiratory and pulmonology; at the onset, there were promises made to incorporate an office of smoking and health into the new medical school; and finally, acknowledgements to the people of Hawaii and the Tobacco Fund for their generous support for the construction and operations of the medical school did not occur until just before groundbreaking at my request. Currently there is no such office of smoking and health at JABSOM. The concerns about the doctor shortage in Hawaii are recognized, but not a single penny of the funds they are raiding go towards addressing this.

"I would like to see the current measure to be amended to mandate that some of these \$4 million go specifically towards fulfilling their commitments and towards addressing the doctors' shortage in Hawaii. For too long, we have provided funding to JABSOM without writing our conditions or their promises as part of the law.

"The public expects the Legislature to be accountable for the taxes we collect and the services we provide. We should do no less to those that receive our approval and funding as well. JABSOM will go a long way in providing the next generation of healers with the knowledge and support to serve the people of Hawaii. But we cannot send them forward on the basis of broken and empty promises. Thank you."

Representative Hanohano rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Awana rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ichiyama rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Wooley rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Marumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative M. Oshiro rose to speak in support of the measure, stating:

"Mr. Speaker. In strong support and written remarks, please."

Representative M. Oshiro's written remarks are as follows:

"Mr. Speaker, I rise in support of House Bill No. 1330, House Draft 1, Relating to The Hawaii Tobacco Settlement Special Fund.

"This bill extends the sunset date for an appropriation of a portion of the Hawaii Tobacco Settlement Special Fund moneys for annual operating expenses of the John A. Burns School of Medicine (JABSOM) until June 30, 2015. This bill also adds annual reporting requirements for the University of Hawaii.

"I support the intent and purpose of the bill as it provides valuable funding for Hawaii's one and only medical school. The Hawaii Medical Association reported that the State of Hawaii is currently short 644 physicians; a shortage that will balloon to more than 1,200 physicians in the next ten years. These numbers demonstrate an immediate need to educate and train physicians to meet the health demands of our State.

"While the effects of this shortage are certainly felt here on Oahu, the impact of the shortage is much greater on the Neighbor Islands. Cognizant of this disparity, JABSOM provides treatment and training opportunities specific to the needs of neighbor island communities, with a particular focus on rural areas. Without the funding provided in this bill, JABSOM will have to cut back such training opportunities, thus reducing services to the Neighbor Islands and rural communities.

"To support this bill is to also support JABSOM's membership with the University of Hawaii Cancer Consortium, which supports the growth and expansion of cancer research and care in our State. As an essential partner of the Consortium, JABSOM faculty and students contribute and participate in medical research, community education, outreach efforts, and other programs in conjunction with University of Hawaii Cancer Center. The Cancer Center is one of only 65 nationally recognized cancer centers and remains an important hub of research and care for cancer and cancer-related illness, often the result of tobacco use.

"As your Finance Chair, I have heard dissenting opinions about spending moneys from the Tobacco Prevention & Control Special Fund on any programs not explicitly related to tobacco prevention and cessation. Voices in opposition have taken a strong stance against use of the Special Fund for JABSOM's operating expenses. Though I understand these concerns, I turn my attention back to JABSOM's critical contributions to the Cancer Center, Hawaii's current and looming shortage of physicians, and the fact that every single medical student receives training in tobacco cessation and dependence treatment. Without the Cancer Center, the researchers, and the physicians to treat patients, we face future fiscal implications resulting from the lack of resources needed to address Hawaii's public health issues.

"Lastly, I support this bill because 90% of JABSOM's student body are *kama'aina* who were born and raised right here in our islands. JABSOM reports that more than half of its graduates remain in Hawaii, especially those who enroll in Hawaii-based residency programs. Consequently, this measure ensures a sustainable source of physicians knowledgeable about Hawaii and prepared to provide effective medical care to our communities throughout their professional careers.

"Mr. Speaker, for these aforementioned reasons and with an eye on the future of Hawaii's public health, I support this measure."

Representative C. Lee rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1330, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAII TOBACCO SETTLEMENT SPECIAL FUND," passed Third Reading by a vote of 45 ayes to 6 noes, with Representatives Belatti, C. Lee, Morita, Rhoads, Takai and Takumi voting no.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 711) recommending that H.B. No. 560, pass Third Reading.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 560, pass Third Reading, seconded by Representative Evans.

Representative Pine rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. Yes, Mr. Speaker. What this bill does is it requires the Director of Finance to transfer funds from the Compliance Resolution Fund to fund all interest payments on general obligation bonds issued on the behalf of the Department of Commerce and Consumer Affairs, and to collect funds from the Compliance Resolution Fund to pay interest payments on the general obligation bonds.

"That sounds pretty reasonable, Mr. Speaker, but I've been looking over what happened in Committee and particularly the testimony. What this actually is, is it's kind of a money grab by the Legislature. This is to pay for the King Kamehameha building where the DCCA is located. And this

sounds very reasonable to say, 'Hey you should pay the interest on the building that you bought so we're going to take these funds out of the Compliance Resolution Fund which is very healthy and probably one of the most healthy funds in the State of Hawaii and right now,' Mr. Speaker. They are a self-funded department and doing much better than other departments.

"The only problem with making them pay for the King Kamehameha building and the interest is that they already paid for it. So we're technically doing a big money grab by having them pay for a building twice. And basically in 2002, we transferred \$26 million from the general fund to pay for that building. And then again in 2003 we transferred \$50 million from the Compliance Resolution Fund to pay for the building, and yet this bill is saying that we need to transfer funds to pay for the building.

"So, Mr. Speaker, I just have a lot of concerns about this. I just don't know if, well I know that in the private sector, you couldn't make a family pay for their home twice, so I have a lot of concerns for those reasons."

Representative Marumoto rose in opposition to the measure and asked that the remarks of Representative Pine be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Ching rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Riviere rose to speak in support of the measure with reservations, stating:

"Yes, I'd like vote with reservations. I understand the financial situation of the State, and we've got to do what we can to close the gap. But as the Representative from Ewa mentioned, it does seem unfair to keep taking money from people who have arguably already paid their bill."

Representative Fontaine rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Johanson rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Chong rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Chong's written remarks are as follows:

"Mr. Speaker, I stand in support. This bill helps the general fund and taxpayer get reimbursed for the GO bonds issued for the DCCA building. Thank you."

Representative Thielen rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 560, entitled: "A BILL FOR AN ACT RELATING TO FINANCE," passed Third Reading by a vote of 49 ayes to 2 noes, with Representatives Marumoto and Pine voting no.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 712) recommending that H.B. No. 569, HD 1, pass Third Reading.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 569, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Pine rose to speak in opposition to the measure, stating:

"On Stand. Com. Rep. No. 712, I rise in opposition. Mr. Speaker, what this bill does is it changes a practice that was implemented in the Lingle Administration, which allowed for medical assistance recipients for the Medicaid programs to be automatically re-enrolled in their health benefits.

"This bill basically makes them now re-enroll every year. That's what we do so it seems like something that's not very unreasonable and could be seen as making good fiscal sense. We are making sure that those people that are enrolled truly qualify for the benefits that we're giving to them.

"In the Committee, AlohaCare and many other agencies had testified that this very action that we're taking today, the Legislature actually did many years ago. And what happened from that action was they found that for those beneficiaries with literacy or language issues, homeless, mental illness, and other barriers to accessing health care, they found that an annual re-enrollment requirement for this very population could be enough to cut them off from care resulting in expensive emergency hospital services ultimately paid by the State of Hawaii.

"And there are other bills that we'll be discussing, Mr. Speaker, that relate to homeless and the Partners In Care who is the umbrella organization for the homeless providers. They testified that when we don't take care of these types of services for the homeless, or those that are not doing very well financially, it actually costs the State up to ten times more to take care of them in other emergency services. So, Mr. Speaker, for this reason, I rise in opposition."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 569, HD 1, entitled: "A BILL FOR AN ACT RELATING TO MEDICAID," passed Third Reading by a vote of 46 ayes to 5 noes, with Representatives Ching, Fontaine, Marumoto, Pine and Thielen voting no.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 713) recommending that H.B. No. 684, HD 2, pass Third Reading.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 684, HD 2, pass Third Reading, seconded by Representative Evans.

Representative Fontaine rose to speak in support of the measure, stating:

"Yes, Mr. Speaker. I rise in strong support of this measure. It is the intent of this bill to provide minors with the rights to assert themselves in matters regarding their safety and well being. This bill recognizes that many youth needing emergency shelter are not able to obtain parental consent in a timely manner consistent with the needs of an emergency situation.

"By acknowledging the lack of options currently available to these youth, we are addressing the need for an alternative process to which parental consent is not required to obtain emergency services. By providing minors who run away or are homeless with access to services that will increase their safety, we are confronting a danger posed by forcing these children onto the streets.

"And finally, by allowing these minors to consent for admission to an emergency youth shelter, a licensed one, we are providing a solution to a problem of the utmost importance. I appreciate the opportunity to express my support for this measure and I ask my colleagues to show the same support for this effort to protect our youth. Thank you."

Representative Awana rose in support of the measure and asked that her written remarks, and the remarks of Representative Fontaine be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Awana's written remarks are as follows:

"Thank you, Mr. Speaker. I stand in strong support of this measure.

"Mr. Speaker, we do not all live in a perfect world where children are raised in a safe and secure environment. This bill addresses the challenges that minors have in seeking help due to circumstances beyond their control. Although we would not like to believe this takes place, there are situations where parents or guardians are substance abusers, may be

incarcerated, or may be abusive. This measure allows a minor to seek shelter – emergency shelter.

"Mr. Speaker, I ask for support from Members through the passage of this bill to ensure that there are options for our vulnerable youth other than living a life of homelessness in abandoned homes, unsheltered and exposed to the elements. And let's not forget there are predators who will take advantage of our children with nowhere else to go. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 684, HD 2, entitled: "A BILL FOR AN ACT RELATING TO MINORS," passed Third Reading by a vote of 51 ayes.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 717) recommending that H.B. No. 563, HD 1, pass Third Reading.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.B. No. 563, HD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," passed Third Reading by a vote of 51 ayes.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 718) recommending that H.B. No. 1380, HD 2, as amended in HD 3, pass Third Reading.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1380, HD 3, pass Third Reading, seconded by Representative Evans.

Representative Tsuji rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Tsuji's written remarks are as follows:

"HB 1380 is a unique way to encourage the use of local produce in Hawaii schools by: (1) Establishing a farm-to-school program in the DOA; and (2) Establishing the Hawaii-grown Fresh Fruit and Vegetable Program in the DOE.

"School gardens are increasing in popularity. The *Honolulu Star-Advertiser* ran an article on Dec. 1, 2010 featuring schools have planted gardens to raise students' awareness of fresh food and to teach them about good nutritional choices.

"Also The Grow Hawaii Challenge took place last November involving students and staff of several Oahu schools, who were joined by well-known local chefs, all in an effort to educate students about the importance of growing food locally and to spark ideas towards ways to support a sustainable lifestyle.

"Speaking more broadly, I believe HB 1380 sets a good foundation for other initiatives like The Grow Hawaii Challenge and encourages interest in agriculture in today's younger generations. For these reasons, I am in support."

Representative Ching rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ching's written remarks are as follows:

"Mr. Speaker, I rise in strong support of H.B. 1380. If passed, this bill will increase access to local, healthy and fresh foods and enhance education on nutrition and agriculture, which will facilitate healthy eating habits amongst our *keiki*. Moreover, the Hawaii Grown Fresh Fruits and Vegetables program will serve as an important strategy for strengthening the Department of Education's position as an institutional market for locally grown produce.

"This bill is a sound investment in the future of our children's health, as well as Hawaii's food security. Potential benefits include lower risk for

obesity, diabetes and other related types of health disorders, keeping in line with the Vitality Project's basic tenets of promoting the health and well being of our communities. Equally as important, enhancing the procurement of locally grown fruits and vegetables by schools also helps to strengthen and diversify our local economy and create jobs."

Representative Keith-Agaran rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Keith-Agaran's written remarks are as follows:

"Thank you, Mr. Speaker. I strongly support the concepts in HB No. 1380, H.D. 3 which will establish the Farm-to-School Program in the Department of Agriculture, the Hawaii-grown Fresh Fruit and Vegetable Program in the Department of Education; and the Farmers to Food Banks Pilot Program. If Hawaii is to move towards food self-sufficiency we need to move forward with programs that support buying local and which reconnect our community with the local sources of healthy, nutritious whole foods.

"The Farm-to-School Program will increase procurement of locally-grown fruits and vegetables. The Hawaii-grown Fresh Fruit and Vegetable Program will facilitate the consumption of locally-produced nutritious snacks to improve student health and expand the market for locally-grown produce and also will authorize schools to grow food in school gardens for consumption in schools. The Farmers to Food Banks Pilot Program will contract with local farmers to provide Hawaii-grown produce to low-income individuals through designated food banks.

"All these programs are very important and will encourage the use of locally grown fruits and vegetables in Hawaii schools. This measure will support local farmers and leverage an increase in food self-sufficiency within the State of Hawaii. Now if only the bureaucrats at the Department of Agriculture and the Department of Education would move out of their agency silos and work to make these programs successful rather than poking holes in these paradigm changes. Unless Hawaii changes and moves towards sustainability, we remain perpetually hostage to the food industrial complex on the mainland."

Representative Nakashima rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Nakashima's written remarks are as follows:

"House Bill 1380 establishes the Farm-to-School Program in the Department of Agriculture to increase the procurement of locally-grown fruits and vegetables and creates the Hawaii-grown Fresh Fruit and Vegetable Program to increase the amount of Hawaii produce available to Hawaii school children.

"Farm to school (F2S) is a win-win for both local farmers, as well as Hawaii school children, especially when combined with a robust school garden, cooking, agriculture and nutrition education program. This is an attempt to allow State policy to overcome the State bureaucracy and allow for the purchase of Hawaii produce for Hawaii's kids."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. And may I have the written comments of the Chair of Agriculture entered into the record as if they were my own. Thank you," and the Chair "so ordered." (By reference only.)

Representative C. Lee rose in support of the measure, stating:

"Mr. Speaker, in strong support."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1380, HD 3, entitled: "A BILL FOR AN ACT RELATING TO HAWAII-GROWN PRODUCE," passed Third Reading by a vote of 51 ayes.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 720) recommending that H.B. No. 1248, as amended in HD 1, pass Third Reading.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1248, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support with brief comments. This bill makes it easier for our farmers to get loans that are longer and less expensive. And, Mr. Speaker, we need to help our farmers as much as possible. From the time it was put in the Constitution, to the point where now we have farmers who are really in need of a lot of assistance because they're dying off. I commend the Chair of Agriculture, the Representative from Hilo who has really gone to bat for this bill and because of this and his plea for getting more money to the farmers. When the bill on the State Bank of Hawaii comes forward, perhaps we will not have to have so much emphasis on the government getting into business, but keeping bills like this doing well. Thank you."

Representative M. Oshiro rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support of this measure. Indeed to the contrary, Mr. Speaker. This is one of the reasons why we might need a State Bank to provide support for farmers so they don't have to come to the Department of Ag for loans. Thank you."

Representative Nakashima rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Nakashima's written remarks are as follows:

"I am pleased to be the sponsor of House Bill 1248 Relating to agricultural loans.

"The purpose of this bill is to enhance the new farmer loan program by reducing the interest rate, increasing the loan limit and reducing the number of credit denials required to qualify for the program. It also appropriates funds to directly target new farmers. The new farmer loan program is intended to encourage entrepreneurs to enter the production of agriculture on a full-time basis.

"Access to affordable capital is vital for start-up business and is especially difficult for new farm operators to obtain. Currently, the interest rate for the new farmer loan program is fixed at 6%. The proposal will set the interest rate at 1.5% below the prime rate with a cap of 6%. This will ensure that the interest rate for the new farmers will be below the interest rate for the qualified farmers.

"This bill will also increase the loan limit to \$250,000. This increases the limit of \$100,000 that has not been increased since the establishment of the program in 1972. This will allow loans to cover the increased capital requirements that modern farmers must face in today's economic climate.

"The bill also seeks to reduce the number of credit denials that a farmer must receive in order to qualify for the loan making the program more accessible to new farmers and help to encourage them to help Hawaii meet its food sustainability needs."

Representative McKelvey rose in support of the measure and asked that the remarks of Representative M. Oshiro be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Tsuji rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. We need new farmers and new farmers need new loans. Further comments into the Journal, please."

Representative Tsuji's written remarks are as follows:

"This bill would provide affordable access to loans for new farmers through the New Farmer Program. It reduces the number of credit denials required to qualify for the Program. It also reduces the annual interest rate on Program loans. Lastly, it would raise the ceiling on Program loans by \$150,000.

"HB 1248 is another measure intended to help new farmers who are the future of Hawaii's agriculture industry. In that regard, I am in support of the measure."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1248, HD 1, entitled: "A BILL FOR AN ACT RELATING TO AGRICULTURAL LOANS," passed Third Reading by a vote of 51 ayes.

At 12:02 o'clock p.m., the Chair noted that the following bills passed Third Reading:

H.B. No. 1330, HD 1
H.B. No. 560
H.B. No. 569, HD 1
H.B. No. 684, HD 2
H.B. No. 563, HD 1
H.B. No. 1380, HD 3
H.B. No. 1248, HD 1

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 721) recommending that H.B. No. 865, HD 1, as amended in HD 2, pass Third Reading.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 865, HD 2, pass Third Reading, seconded by Representative Evans.

Representative Tsuji rose to speak in support of the measure, stating:

"Mr. Speaker. Stand. Com. Rep. No. 721, in strong support. Mr. Speaker, this bill provides additional funding for invasive species prevention and control by raising the inspection quarantine and eradication service fee from 50 cents, to 75 cents for every 1,000 pounds of freight that is imported.

"Looking back at 2008, the Legislature established and funded its Department of Agriculture Biosecurity Program by imposing an inspection fee on imported cargo. This brought in an estimated annual income of about \$3.1 million. And last year we faced an enormous budget deficit crisis. In the past the Ag inspectors were entirely funded by general funds, now 51 inspectors are funded through this special program. And with 12 more inspectors expected to go into the fund during the course of this year, some DOA officials really expect come next year, the fund will collapse if something doesn't happen.

"If we don't fill these critical positions, the invasive species will continue to get past our ports, come into our farms, into our communities. At the peak, ag inspectors used to intercept between 300 to 400 incoming pests per month. Now it's dwindled down to 30 to 40, a mere 10 percent of the original. New pest introductions have already devastated most recently, if we can recall, the basil farms. And the recent proliferation of coqui frogs on the Island of Oahu. And quite serious, the recent malaria mosquito scare in Moanalua.

"In light of Hawaii's fiscal crisis, I realize that this increase may be a difficult burden, but I would stress that if we are serious about sustainable practices, then this is an appropriate way to fund this critical function. Mr. Speaker, I ask for your support. Thank you."

Representative Marumoto rose to speak in opposition to the measure, stating:

"Mr. Speaker, I understand the need for funds for the agricultural community. But on the other hand, this is raising the cost of freight from 50 cents to \$1 per 1,000 pounds of freight. This really increases the cost of living on our food, and everything that we bring in to Hawaii, so I am voting no on this measure. Thank you."

Representative Fontaine rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Pine rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 865, HD 2, entitled: "A BILL FOR AN ACT RELATING TO INSPECTION FEES," passed Third Reading by a vote of 50 ayes to 1 no, with Representative Marumoto voting no.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 723) recommending that H.B. No. 739, HD 1, as amended in HD 2, pass Third Reading.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 739, HD 2, pass Third Reading, seconded by Representative Evans.

Representative Ichiyama rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ichiyama's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in support with reservations. This bill would amend current care giving requirements to specify that in Community Care Foster Family Homes approved for a maximum of three clients, the primary caregiver must be a certified nurse aide and the substitute caregiver must be a nurse aide. Under current law, the substitute caregiver must also be a certified nurse aide. While I understand the financial constraints that many adult foster homes struggle with, I do not believe that the answer is to lower the standard of care we are giving our seniors.

"In Committee we received testimony in opposition from the Department of Human Services that primary caregivers sometimes have second jobs, leaving their patients with the secondary caregiver for 10 to 12 hours a day. A certified nurse aid must renew their certification every two years and receive required additional training. I understand that there may be financial and language barriers to taking the certification test for some of our local nurse aides. The appropriate response, however, is to make the test more accessible, not to lower the required level of proficiency for secondary caregivers. Thank you, Mr. Speaker."

Representative Jordan rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Hanohano rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Nakashima rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Nakashima's written remarks are as follows:

"Mr. Speaker, I rise with reservations regarding HB 739 that seeks to relax training standards for community care foster family homes by allowing a substitute caregiver to just be a nurse aide without have to meet more rigorous standards and requirements of a certified nurse aide. I believe that relaxing these standards will expose those unable to fend for themselves to a lower standard of care and threaten the quality of life for those whom the State must provide protection."

Representative Yamane rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Mizuno rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in support of this measure. Thank you. First, I want to thank the Members who voice their concerns on this measure with a vote with reservations, or even a no vote. Certainly this Body does scrutinize measures before they pass on this Floor and I can appreciate that.

"Mr. Speaker, we have over 1,000 community care foster homes in the State of Hawaii. They provide 24-hour healthcare services to our aged and disabled. First, I'd like to address some of the concerns by our Members regarding nurse aides, compared to certified nurse aides. That's the issue in this bill.

"I wanted to share comments by Lourdes Marcelo. She's a registered nurse who trains certified nursing assistants, as well as nurse aides. I provide her comments and I'll quote her. She provides:

I have worked with many CNAs and NAs. I believe the primary difference between them are the required examinations at the initial certification and bi-annual recertification. They perform the same duties, have the same education requirements, and perform the same skills. A CNA is simply an NA who has successfully completed their examination.

"Mr. Speaker, I'd like to elaborate on Ms. Marcelo's comments. When you talk about education, an NA, a nursing aide, and a certified nursing assistant have the same education requirement. They both have to pass through this program. It has to be a State-approved nurse aide training course. Furthermore, for licensing, NAs and CNAs have the same licensing requirement. Both are required to be registered with the Department of Human Services. They contract with Community Ties of America. They do the registration and certification.

"There is a difference though when you talk about recertification and continuing education. There is a difference between NAs and CNAs. For our nurse aides, they only are required to have 16 hours of continuing education every two years. Our CNAs are required to have 24 hours of continuing education every two years, and they must be recertified. They go through a recertification examination. That is the difference.

"And finally I wanted to note the two layers of protection when we talk about consumer protection. First, we have Community Ties of America. They provide the overview to make sure that our foster homes, as well as our NAs and CNAs are following State and federal laws. They provide personnel and staffing review, background checks, physical environment reviews, fire safety, medication, and nutrition overview, quality assurance. I can go on and on. This is the first layer of protection to make sure that we're not having substandard care.

"Second, Mr. Speaker. This is the second layer of protection. Case managers. Every single foster home in the State has a case manager. Your case manager is in charge of every single nurse aide, or certified nursing assistant. I believe these two layers of protection are quite sufficient to ensure quality services and consumer protection.

"And finally, I did want to note that the Filipino Chamber of Commerce had a legislative breakfast before Session which many of our Members attended. This was their number one priority. Their top bill for the 2011 Legislative Session. Bryan Andaya had stated that 90% of our community care foster home operators are of Filipino descent. They're quite proud of the Filipino community and what they do. So again, for those reasons I support this measure. Thank you, Mr. Speaker."

Representative M. Lee rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I rise in support of HB 739 regarding community care foster family homes. The purpose of this bill is to amend the current Community Care Foster Family Home caregiver requirements to specify that in the CCFFH's approved for a maximum of three clients the primary caregiver must be a certified nurse aide and the substitute caregiver must be a nurse aide.

"Because the substitute caregiver assumes the responsibilities of the primary caregiver whenever the primary caregiver is absent from the home, the substitute caregiver must have the same qualifications as the primary caregiver in order to adequately care for the needs of the clients. For the health, safety and welfare of each client residing in the CCFFH, the substitute caregiver must be as knowledgeable and competent as the primary caregiver. However, the competency level and the ability to pass the certificate test are often not in sync because of language access issues.

"Testimony provided asserts that not only is the certificate exam quite expensive, but also only given in English. Consider that a large number of CNA's do not speak English as a first language; it would be wise for the Department to provide an alternative exam. Certificate for all CNA's should still be a desired goal. I urge the Members to support this bill."

Representative Pine rose in support of the measure and asked that the remarks of Representative Mizuno be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 879, HD 1, pass Third Reading, seconded by Representative Evans.

Representative McKelvey rose to disclose a potential conflict of interest, stating:

"Yes, Mr. Speaker. May I have a ruling on a potential conflict? My family's currently the subject of a collateral third-party foreclosure and we're also within remodification," and the Chair ruled, "no conflict."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 879, HD 1, entitled: "A BILL FOR AN ACT RELATING TO MORTGAGE FORECLOSURES," passed Third Reading by a vote of 51 ayes.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1043, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition to this measure. Mr. Speaker, this bill raids for the second time, the Hawaii Hurricane Relief Fund. We did this before to the tune of \$67 million, and now we're going to take \$42 million out of the Relief Fund. And essentially when it was filled to the brim, we could cover 165,000 houses at a value of about \$40 billion. Right now it's down to where if this bill goes through it'll be down to about \$70 million. \$70 million buys you about \$700 million worth of coverage.

"*Iniki* was \$1.6 billion and because we are perpetually and never moving out of the hurricane zone that we're in, the point is, if *Iniki* comes again, God willing it will never, but if it does, we are underfunding this and this bill jeopardizes public safety. It's not a question of if. It's when it is coming, and we should be prepared. Good public policy would say don't raid this Fund like we shouldn't have raided the Highway Fund, etc. etc., Mr. Speaker. Thank you."

Representative C. Lee rose to speak in support of the measure, stating:

"Thank you. In support. I just wanted to note that I believe when the last Governor signed the prior bill to take money from the Hawaii Hurricane Relief Fund, she did note that no matter what the balance of the Fund is, that bonds can be floated and other means can be had to basically reinstate insurance should it be needed in the event of a hurricane. Thank you."

Representative Johanson rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Johanson's written remarks are as follows:

"Mr. Speaker, I rise with reservations on this bill. While I understand our State is in a difficult fiscal position that requires sacrifices and compromises, I also recognize the consequences of using allotted funds from one program or fund to pay for something completely different.

"Our State government should not make it a habit to require our people to pay certain fees to help create a reinsurance mechanism in anticipation of a potential hurricane and use the money for something unrelated. Because of the situation we find ourselves in now, I do find that it may be necessary to utilize some of the Hurricane Relief Funds to offset some of our fixed costs that directly impact quality of life issues for our people. I prefer to borrow the money as opposed to an outright raid and have significant reservations on this measure.

"We must remain vigilant in our fiscal decisions as a Legislature and truly take into account all those affected as well as the long-term consequences of our actions."

Representative Herkes rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Mr. Speaker, I was in CPC when we passed the original bill, and it was a result of *Iniki* when all the insurance companies left town. They're all back. As far as who paid into the Fund, we collected money from every place. And if you happen to have a policy, you got coverage for your policy. So you got what you paid for. My position is that the HHRF should be changed from a direct insurer, because there's no reason for us to do that, to be a reinsurer. And we get much more coverage if we became a reinsurer. Thank you."

Representative McKelvey rose in support of the measure and asked that the remarks of Representative Herkes be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Pine rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Rhoads rose to speak in support of the measure, stating:

"Mr. Speaker, in support. It seems to be that if we're not going to take money out of funds like this, we're going to have to raise taxes. And I think for most of us in this Body would prefer to take money from Funds like this rather than to raise taxes. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1043, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAII HURRICANE RELIEF FUND," passed Third Reading by a vote of 47 ayes to 4 noes, with Representatives Ching, Pine, Thielen and Ward voting no.

Representative Ching rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Pine rose to speak in opposition to the measure, stating:

"Just in opposition, Mr. Speaker. And a couple of comments. Yes, this legislation is drafted in particular with Alaska in mind, that uses the water as another highway system for them. It's a very good intention and it would be nice to have something like what Alaska has. And I was very much in support of the Superferry because I thought they did a good job in the private sector without investing public funds. But unfortunately that's not an option for us.

"I'm concerned, Mr. Speaker. Speaker Emeritus said that we cannot pay for what we want now. And we've been doing that for years, we've been providing a lot of services to the people of Hawaii that we cannot afford. And so this adds a huge, huge debt to our budget if we were to implement an actual ferry system run by the State of Hawaii.

"There was one problem with Alaska, and that is now they are millions and millions of dollars in debt because of this highway system, and so that's why I'm in opposition. I do know that the people that introduced this were very much in favor of the Superferry, so I understand their heart and their intent. But based on Speaker Emeritus' comments earlier, I will have to vote no."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. Representative Rhoads rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I'm standing with reservations too. I'm in agreement with the initial bill, but I'm in disagreement with the portion that gives those who've already gotten a lifetime revocation of their driver's licenses a fourth or fifth chance. I hope the bill moves forward, but I hope when it comes out of Conference it's back to the original. Mahalo."

Representative Marumoto rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, likewise with reservations. I prefer the original bill. Thank you."

Representative Fontaine rose to speak in opposition to the measure, stating:

"Yes, I stand in opposition for that very reason, giving licensees who have lost their license permanently and allowing them to now get their license back again. There was a reason why they lost their license in the first place and I don't think we should be going down that road. Thank you."

Representative Har rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. In support with reservations. Mr. Speaker, first may I request that my comments on Second Reading be incorporated into the Journal for Third Reading."

"In addition, the bill that came out of Finance currently has two major amendments which I think really abate the whole purpose of this bill. There are serious concerns because, first of all, a new section was added regarding lifetime revocations which some of the Members have already discussed. And secondly the task force, the Ignition Interlock Task Force was sunset at the conclusion of this bill."

"My current concern is the lack of safeguards and specificity with the subsequent proposed amendments, specifically in sections 15 and 16, which would permit individuals who have previously received an administrative lifetime revocation of their licensees to be able to drive with an ignition interlock device and to be eligible for relicensing. These additionally proposed amendments not originally contemplated by the task force make implementation by the ADLRO burdensome and in some cases impossible without further study and specificity of the processes needed to be reasonably implemented into this overly broad language."

"For example, section 16 of the bill authorizes the ADLRO to issue a temporary permit to those individuals who have received an administrative lifetime revocation of their license. However, there is not the usual motor vehicle licensing requirement such as a vision test or a road test."

"So, Mr. Speaker, for example, people who have had their licenses temporarily revoked oftentimes have to take an eye test just to ensure that they can still, or at a certain age they're required to take an eye test or even to take a written test. Unfortunately, this bill does not apply those particular prerequisites to the person who has had an administrative revocation of their license."

"In addition, I think that the task force being sunsetted is quite a travesty given the fact that the task force, now that the ignition interlock law has gone into effect on January 1st, 2011, they still have a very important role to play in helping our State ensure that the law is being implemented correctly. And again, they need to examine this very complicated issue regarding lifetime revocations. So we still want to get as many people into this program, but the bill as it stands right now currently has some very serious flaws, and accordingly I go with reservations. Thank you, Mr. Speaker."

Representative McKelvey rose in support of the measure with reservations and asked that the remarks of Representative Har be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Thielen rose in support of the measure with reservations and asked that the remarks of Representative Har be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations and a brief comment. Mr. Speaker, regardless of what bill we come up with, we have to face the reality, and this came out of the hearing in Finance, that there's 1,800 to 2,000 multiple

DUI drivers out there. They get caught. They get the penalties. They lose their license. They get back in the car. Get caught. Go through a series of things that which we have not been able to keep them off the road. This is really a clear and present danger to the public, so for the following reasons we've got to work on it and work on it well. And without reservations, we've got to get them off the highway. Thank you."

Representative Ching rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition as well, and I ask that the words of the Representative of Kapolei be entered as my own. But I also wanted to add that Mothers Against Drunk Driving, I believe is still in opposition. And we have to consider how many times a person has actually driven drunk before they're actually caught. Probably a lot. Thank you."

Representative Souki rose to speak in support of the measure, stating:

"Yes, Mr. Speaker and Members. I wish to speak very strongly for this measure. I believe the interlock will save lives. It will allow people to go to work and support the family, or whatever driving activities they need to do in case they get caught for DUI. But more importantly, it will keep them from drinking while they're on the road. Of course, they will have to blow into the instrument and if they've had any alcohol, the car won't go at all."

"This is the main reason for the interlock, to save lives. Now we have made a change in the bill from the House Transportation Committee and that was to include those drivers that lost their license permanently. And nobody condones the reason why they lost their license. They drank excessively a number of times. They got caught a number of times. But they have been, for many of them, for 15 or 20 years without having the ability to have a license or drive a car. This hurts them and it hurts their family. Believe me, when you're punished for 10, or 15, or 20 years, that would seem to be sufficient punishment."

"Now you know that manslaughter and other major crimes, they all go out after a few years. After 5, 6, 10 years, they're out. They're free. With those who lost their driver's license, it becomes permanent. So this bill attempts to rectify that and to allow them to drive, provided that during the course of the time that they lost their license, they have not gotten into any cases of driving without a license, or gotten into any major crimes, any abuse, or any of those types of things. The Judiciary will check their record. If they're clean and they can show they're clean, then they have to go back to drivers' licensing and apply for their license."

"That means they don't just get their license. They've got to take their license test again, and they've got to pass their test. But first of all, they've got to pass the test since they've been without a license for years, that they have been basically free of crime and drinking, or not drinking and driving, because many do after they lose their license. So this will give them the ability to come back and be a part of society and be a productive person."

"Now yes, I approached the task force a number of times and asked if they could work on this measure to allow those with permanent revocations to come back into the system. The task force last year said they would do it this year. This year, they said they would do it next year. I don't believe that for a measure like this that you need to have a whole year to develop the appropriate language. In working with some attorneys, we have developed some language that is a talking piece right now. It's not the perfect talking piece, but it's a talking piece, so that we can move it along and get the appropriate language by the end of the Session. It's a work in progress. But to wait another year, I believe, is sinful."

"Now the task force is very important, and I understand that. I helped to create the task force. But the task force does not make laws. We make the laws. They suggest. They recommend. But it is up to us to accept or not to accept. And this is the measure that I'm proposing now, and I ask you to support this measure as a work in progress. It needs to go to the Senate, and I hope we can improve what needs to be improved in the Senate. Thank you, very much."

Representative Ward rose to respond, stating:

"Mr. Speaker, a brief rebuttal, but still with reservations. I appreciate the passion and the substantive remarks of the honorable gentleman from Maui, however I suspect he's talking about the law-abiding citizens who are in the small minority.

"If in effect, as I said earlier, we have 2,000 repeat DUI offenders out there subjecting all of our mothers, children and friends, endangering their lives on a daily basis. If the speaker from Maui can come back saying those are really small compared to the law-abiding ones, I will change my vote on this. But until that's the case, there are too many out there. I suspect he's talking about the very few who may be the law abiding, who waited 10 or 15 years and have not driven. Whereas these other ones are out with abandon if you will, doing multiple DUIs. Thank you."

Representative Har rose to respond, stating:

"Thank you, Mr. Speaker. Just very briefly. Still in support with reservations. In rebuttal to the Chair of the Transportation Committee for whom I have great respect. I think the issue as the bill stands right now deals with the fact that there are no safeguards with respect to lifetime revocations. So again, going back to for example, section 16. It authorizes ADLRO to issue a temporary permit to individuals who have had their licenses revoked for a lifetime.

"Yet there is none of the usual motor vehicle licensing requirements such as taking a test, such as taking an eye test to ensure that these drivers who allegedly have not been driving for an extended period of time are still physically fit to drive.

"And so all I'm saying right now is, again, if we want to deal with the lifetime revocations in one fell swoop, notwithstanding the fact that it is a complicated issue, that's fine. But again, we need to have some safeguards to ensure that those people who have in fact received a lifetime revocation, and again a lifetime revocation means that you've been in trouble four times within a period of six years.

"So again, let's just be reminded, driving is a privilege and that person has obviously shown to the State that they've abused that privilege and therefore that's why the privilege was taken away for their lifetime.

"If as a Body we want to go back and say it's too harsh, that's fine. But my only point right now is this: let's make sure that the safeguards are in there so that those who have had their licenses revoked for their lifetime have the same standards as the rest of us. Thank you, Mr. Speaker."

Representative Pine rose to speak in opposition to the measure, stating:

"In opposition, Mr. Speaker. I can sympathize with some of the words that Speaker Emeritus said about allowing someone to work, and allowing someone to support their family, but I cannot support any vehicle that allows someone that has taken their license away for a lifetime, just so we can pass something else later on. Because as a statement today, I'm in opposition of giving anyone their license back.

"When I was in sixth grade, I lost my first friend through a drunk driver. When I was in eighth grade, I lost another friend through a drunk driver. When I was in tenth grade, I lost an uncle through a drunk driver. Talk about affecting people's lives. That one time that that drunk driver drove at the wrong time where my friends were at, that ruined their lives forever.

"And it's just too emotional to say more names that I know. This is serious stuff. These people have a disease and their car is a weapon. I know friends and family now that are alcoholics. I love them, but they have a disease and we are giving them a weapon to kill more people. I cannot support this bill, Mr. Speaker, because these people cannot be helped sometimes.

"Maybe by not passing this and ending this legislation, we're going to save lives. We're going to save that person's life that we want to give another chance to drive. This is too risky to allow, and that is the punishment that we give them, Mr. Speaker. Everyone knows in this Body, to get even caught one time, most likely you've been driving twenty times

drunk to be caught. Or you're just really unlucky to be caught the first time. So four times, that's multiple times of risking people's lives, Mr. Speaker.

"I wish that some of my friends that are alcoholic now, I wish they would be caught four times so we can take their license away. Every time they drive I wonder who is next.

"So, Mr. Speaker, this is very serious and probably one of the most important bills that we can make a statement on, Mr. Speaker. To reject that next chance in order to save another life."

Representative Yamane rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Har rose to respond, stating:

"My third time, Mr. Speaker, and I apologize to the Members. I just wanted to be clear on something. The fact of the matter is that whether we like it or not, those who are repeat offenders who do not currently have the privilege to drive, and those who have lifetime revocations, are still driving.

"Mr. Speaker, in fact the gentleman who hit me had had three DUIs. His license had been revoked. He had no insurance. He had no license. He had no registration. He was on the road.

"And so the point here again is, if we want to add in those who have had administrative revocations because we want to get as many people into the interlock program as a policy, if that's what we want to do as a Body, that's okay with me. But my only point is, right now the current version of the bill does not have those safeguards to ensure that those who have had lifetime revocations are held to the same standards to ensure that they are physically able to drive. Thank you, Mr. Speaker."

Representative Souki rose to respond, stating:

"My second time. For the Members, I just want to state that it doesn't take one year to draw up the safeguards and I challenge the previous speaker to come up with the safeguards before the Session is over. Thank you."

Representative Har rose to respond, stating:

"Excuse me, Mr. Speaker. My fourth time. In response to the previous speaker."

Representative Blake Oshiro rose to a point of order, stating:

"Point of order, Mr. Speaker."

Representative Souki rose and stated:

"Mr. Speaker, this is not in line. Tell her to cool it a little bit."

Representative Har rose and stated:

"He asked me a question."

At 1:27 o'clock p.m. Representative B. Oshiro requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:28 o'clock p.m.

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1435, HD 2, entitled: "A BILL FOR AN ACT RELATING TO HIGHWAY SAFETY," passed Third Reading by a vote of 48 ayes to 3 noes, with Representatives Ching, Fontaine and Pine voting no.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 750) recommending that H.B. No. 1457, as amended in HD 1, pass Third Reading.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1457, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition with brief comments. Mr. Speaker, like you, like probably the majority of us here, we were educated at the University of Hawaii. We have a degree at the University of Hawaii. In fact, I have the honor of getting one of their higher degrees. And even though we're supposed to be smart, I don't understand this bill.

"Because we're telling the University, 'If you don't get these guys graduated, we're going to take money away from you'. I'm not sure that what we've asked our land-grant college that is the cradle and the future of the brain trust that we have in Hawaii, is for good.

"If kids do not graduate on time, why we should turn around and, as it says here, the Director of B&F will assess the UH for additional costs to the State based upon the findings of the report that they put together based upon how many people have graduated, how many have reserved credits, and they're not out the door, nor have they put a major forth to be categorized as a student.

"One of our Members has calculated that if this bill was effect, probably about 70% of the students would come underneath it. The reasons in this bill do not relate to family responsibilities or job-related duties, or financial reasons. We just say, 'If you're not in and you get out, give back the money, UH.' That doesn't sound like a University that we've given autonomy to, nor is it a University that we believe fully in and what it's doing to educate the people of Hawaii. So for those reasons, Mr. Speaker, I don't understand this bill and there's no reason to vote for it. Thank you."

Representative Johanson rose to speak in support of the measure with reservations, stating:

"Thank you. In support with reservations. I actually think the underlying premise of this bill is a really good one in terms of trying to make UH not only fulfill its mission as a educational institution, but not necessarily serve as an added drain on the State resources that are essentially subsidizing students who can graduate, but who choose to stay there. Since there is an added cost to the State I think it's a really well intentioned bill.

"My only concern with this particular measure is because of the potential levying of assessments on UH, I would hope that maybe in future iterations of this bill we could either have a transition period which allows UH perhaps sufficient time to be able to expedite the graduation process for those students who are on their rolls now so that they don't, in the interim, hemorrhage a lot of their money.

"My concern may be obviated because the effective date is not for a while, but if that date is changed I do think that a potential unintended consequence is that UH could lose a lot of funding very quickly in a manner that leaves them potentially, adversely impacted with achieving their mission.

"So I think there is a large population of students who can afford to graduate, hence the reason for this particular measure. I think it's something that we need to consider and it's worthy and well intentioned. I just hope as we look at the effective date, we keep in mind how that may impact UH's core function. Thank you."

Representative Marumoto rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I have reservations on this measure and I'd like the thoughts of the last two speakers incorporated as my own."

Representative Chong rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Chong's written remarks are as follows:

"Mr. Speaker, I stand in support. This bill with blank amounts for the credit threshold is designed to minimize the impact to the general fund for students who are well past their minimum credit hours for graduation. In rebuttal, it will not affect 70% of students. Second, this bill is not based on time, but credits. Thank you."

Representative Takai rose to speak in support of the measure, stating:

"Mr. Speaker. Thank you. Just briefly on the measure. In support. I just wanted to, for the edification of our Members, just talk a little bit about how great a deal the University of Hawaii is. It's a great deal. It's a great deal for all of our citizens. It's so great a deal that I think we've got one of the best university systems throughout the nation.

"What you may not realize is that the cost of educating a student at the University of Hawaii at Manoa for example, is only about 25%. In other words, what they pay for their tuition money for an in-state resident student is about 25% of the cost of education. For a community college student, it's considerably less. It's about 15%.

"So where does the other money come from? The other money actually comes from the taxpayers of this State, or from grants from the feds and from other places. So I think this bill, what it's trying to do is it's trying to address the shortage of funds throughout the system and throughout the State, and it's telling the University that despite their best efforts in the past few years of increasing tuition dollars and trying to push students through the system, they've got to do a better job.

"And it's also putting students on notice that if you can't graduate or if you stay past the number of requisite credits for a baccalaureate or an associate's degree at our ten university campuses, then there's a consequence to that. Right now there's no consequence. So someone can stay at the University of Hawaii at Manoa for years, and years, and years, and take 200 plus credits, and we're paying. The taxpayers of this State, the Legislature, everybody is paying in addition to that student. I think that's the point of this measure. Thank you."

Representative Ward rose to respond, stating:

"Mr. Speaker, a brief rebuttal. The gentleman rightly so, says UH is a great deal. It's supposed to be a great deal. That's the purpose of a land grant college. So those students from your own state can be educated, and put into the labor force, be productive, and good citizens.

"What this bill fails to respond to is that's the core function of government. If we're going to start 'nickel and diming' the University, why don't we go onto the bus system? Every time you get on the bus, 35% of what the bus costs to take you where you're going, is what the fare box has. You pay 35%, and 65% is the subsidy. When we build the train, if we build it, it's going to be the same way. Because it is a core function, and we believe there is a duty, if you will, of government to subsidize.

"So these figures of 25% is nothing new, but it's a core function of which we have an obligation to educate the future generations. I think this bill goes a step backwards by making us accountable to graduate within a certain time frame.

"The danger is right now we have people 25 years and older more educated than people 25 years and younger. That's a danger sign that heretofore parents were always less educated than their children. Now it's the parents are more educated than the children. We can't dumb down the University System by taking away their money the way this bill does. We've got to encourage them. We've got to incentivize them. And I know the University is working on that particularly with the native Hawaiian population and it's doing an excellent job. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1457, HD 1, entitled: "A BILL

Representative Fontaine rose to speak in support of the measure, stating:

"Yes, Mr. Speaker. I'm standing in strong support of this measure. The Civil Air Patrol is a volunteer organization that provides vital services to the State like inland search and rescue, and tsunami alerts, especially in our rural areas on the Neighbor Islands. An appropriation is important because of reductions in federal funding for disaster training. This bill will help the Civil Air Patrol maintain constant readiness, which during a disaster could mean the difference between life and death for many of our residents. Thank you."

Representative Yamane rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, may I have a ruling on a potential conflict? I am a volunteer Major with the Civil Air Patrol," and the Chair ruled, "no conflict."

Representative Yamane continued to speak in support of the measure, stating:

"I am also standing in support with some brief comments. This organization has been actively involved in preparing with our military, as well as first responders on a number of occasions. Mr. Speaker, myself, as well as my office manager, Danielle Bass, have also been actively involved in promoting and supporting volunteer actions in regards to preparation for any type of natural or manmade disasters. I would like to highlight the accomplishments of the Civil Air Patrol. Thank you."

Representative McKelvey rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. May I have a ruling on a potential conflict. I too am an honorary officer in the Civil Air Patrol," and the Chair ruled, "no conflict."

Representative McKelvey continued to speak in support of the measure, stating:

"Thank you. I'm in strong support. I would like the words of the previous speaker entered in the Journal as if they were my own, and a brief additional comment. Nowhere has the value of the Civil Air Patrol been seen than recently when we had the tsunami scare. Well it wasn't a scare. A wave showed up. It just wasn't very big, thanks to the toughing effect."

"But in any event, without the Civil Air Patrol, there were numerous people in numerous areas who would have never gotten any warning at all. And given still the deficiencies in telecommunications in a lot of these areas, the Civil Air Patrol is our first response of information to save lives, so this is very important. Thank you."

Representative M. Lee rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, I just would like a ruling on a conflict. I'm a volunteer Major with an auxiliary of the Civil Air Patrol," and the Chair ruled, "no conflict."

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I rise in support of HB 130 regarding community reintegration. This is a bill that is a part of the 2011 Women's Legislative Caucus Package.

"The purpose of this bill is to require the Department of Public Safety to determine the number of women who are eligible for reintegration into the community and contract with providers of gender-responsive community service to assist women in successfully transitioning back into the community.

"Transferring money from corrections to community reintegration beds is a more productive way of treating women who break the law; addressing their needs appropriately and helping them learn how to live more prosocial and fulfilling lives. Many of our incarcerated women have been mothers since their teens. They need help navigating their way into the work-a-day world. Community based gender responsive reintegration programs can help them chart a more positive course for their lives as well as the lives of their children. I urge the members to support this bill."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 130, HD 1, entitled: "A BILL FOR AN ACT RELATING TO COMMUNITY REINTEGRATION," passed Third Reading by a vote of 51 ayes.

Representative Fontaine rose to speak in opposition to the measure, stating:

"Mr. Speaker, I stand in opposition. When this first came in to Committee it was, 'three mistakes and then you were out' as a contractor. Then we raised it to six, and amended it. And I understand now it's back to three. And this only means that one contractor, say he makes a mistake in one pay period involving three employees, it means that he's out of the pool on bidding on public works projects for this period of time, and I think that's a little harsh on the construction industry. Thank you."

Representative Cabanilla rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ching rose in opposition to the measure and asked that the remarks of Representative Fontaine be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Cabanilla rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Cabanilla's written remarks are as follows:

"Mr. Speaker, I am rising in strong support of this measure. This bill is a responsible short-term solution that should only serve as a part of a comprehensive approach to addressing the urgent homelessness situation in Hawaii.

"There are countless homeless individuals that come to Hawaii because of the climate and the well-known availability of social services. These are costs that drain our resources from assisting our local homeless population.

"We should allow individuals with certified family and economic ties in their home state, to receive the option and support to return to home. These individuals must apply for processing and must be recipients of social services for a period of 1 year before consideration. This will prevent abuse of the program, and ensure responsible implementation.

"Not including medical or cash benefits, the State of Hawaii spends approximately \$314.00 per person PER MONTH on food stamps, over \$600.00 in cash assistance per month, and over a thousand dollars per month in outreach services and medical care.

"This program does not expel homeless individuals out of Hawaii. The proposed law states that the person must be willing. By allowing the individual's return, the State will be making an investment. We need to spend our meager resources for our own people and for those the issue of homelessness is all of our problems.

"Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 70, HD 2, entitled: "A BILL FOR AN ACT RELATING TO THE HOMELESS," passed Third Reading by a vote of 49 ayes to 2 noes, with Representatives Keith-Agaran, and C. Lee voting no.

Representative Cabanilla's written remarks are as follows:

"Mr. Speaker, I am rising in strong support of this measure. This bill would allow affordable housing development to continue responsibly and transparently.

"Our State budget is strained as it is. We are squeezing for every penny, and I know that the Governor and this Legislature will leave no stone unturned.

"As Representatives of our constituents we must make these difficult decisions readily. Eliminating county GET exemptions for will open up options and allow the State to responsibly fund government and provide services to the taxpayers and residents.

"That is why I urge my colleagues to support this bill- to have accountability and to ensure that tax exemption status is being awarded fairly and accordingly."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1306, HD 2, entitled: "A BILL FOR AN ACT RELATING TO HOUSING," passed Third Reading by a vote of 51 ayes.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 382, HD 2, pass Third Reading, seconded by Representative Evans.

Representative Thielen rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I'm rising to speak against this measure. House Bill 382 would allow the Legislative Auditor to examine without exception, the records of the State Department of Taxation including personal tax returns of Hawaii residents which includes everyone in this room, and all of your constituents.

"Tax returns contain highly confidential and highly sensitive information and for this reason, the access to the records has been confined up until now, to duly accredited tax officials of the United States and the respective states.

"The bill permits a non-tax official, namely the Legislative Auditor, to examine this personal tax information, even though she has no authority to collect taxes or administer tax laws.

"My remarks go on, but I know the Majority Leader is counting pages and so if I could have the rest of them submitted to the Journal. But I would really ask the Members to look at this. The adequate safeguards are not in the bill and unless they're put in by the Senate, I would suggest that this bill should not go forward.

"There's a lot of difficulty with personal information being released now. There's another measure on here that I think sets up a fine system for those entities that allow that to happen, and if we are now expanding beyond the normal scope of tax officials, if we're expanding the ability to look at that information, then we need to have some pretty serious safeguards in place. We also need to make sure that this conforms with the IRS requirements. So let's take a real hard look at this before it becomes a bill that we would send up to the Fifth Floor. Thank you."

Representative Thielen's written remarks are as follows:

"Although HB 382 attempts to subject the Auditor to the confidentiality and penalty provisions in our tax statutes, it clearly allows the Auditor to determine what internal policies she will use to protect tax data without anyone checking the soundness of these procedures.

"The State Director of Taxation expressed concern with giving the Auditor access to tax information and recommended at a minimum that a written agreement be developed.

"I am concerned that whatever standards are developed may not meet the standard set by the Federal IRS for disclosure of tax information.

"Taxes have been collected year after year by the State without the need for the Auditor to look over the shoulder of State tax collectors. No one has provided convincing evidence that the Tax Department needs the Auditor to second guess their work.

"For these reasons I urge my colleagues to vote against this bill."

Representative McKelvey rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations as well. And also to note that not even the DOTAX people themselves have access to the records in their entirety. Thank you."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in strong support of this measure. This bill is all about the Asia-Pacific Economic Cooperation, better known as APEC. And APEC is probably one of the most exciting, the most ... What's the word after you're excited and you win? It's one of those. We've got a chance to make it big on the world stage.

"APEC is in November of this year. It's coming along. This bill will help fund it. It's an opportunity that if we do well on the world stage with the 21 nations that we're going to host in the first week of November, we will have a repeat of what otherwise we will do historically in 2011.

"Myself and others. There are a few of us who would love to see Hawaii become the Geneva of the Pacific. The epicenter of diplomacy. So when Fiji is having its internal problems, or the North and the South Koreans, they send them to Hawaii. We haven't realized yet, but this is our opportunity to be like *American Idol*. We're up on the stage, this is our chance to do it, and this is going to be a bill to help fund that.

"And Mr. Speaker, just as an FYI. My office is working with the Governor's Office and Speaker Boehner's Office in the US Congress to make sure that the security funds are here to keep the peace during that Conference. We're going to do all that we can do to make sure that the US Congress knows that this is Hawaii's chance, and will go to bat with us, including Hawaii's own native son, Barack Obama, whom I'm sure is going to be helping get those funds released.

"So for those reasons, Mr. Speaker, this is all about Hawaii's future. It's a very important bill and I'm very pleased. I don't want to get the reputation that I always stand up and say no. This is one of the most emphatic 'yays' that I will give. Thank you."

Representative Nishimoto rose to speak in support of the measure, stating:

"Thank you I'd like to adopt the words of the previous speaker. In strong support. Winning."

Representative Awana rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker, I stand in strong support, written comments."

Representative Awana's written remarks are as follows:

"Mr. Speaker, I stand in strong support. The Asia-Pacific Economic Cooperation scheduled to be held this November is a rare opportunity for our Host State of Hawaii to share with the people from the Pacific Rim the spirit of Aloha. While we host this event, we need to ensure the safety of our guests. This measure will provide an emergency appropriation for that reason.

"As the Chair for the House Committee on International Affairs, I believe this measure is of paramount importance. At the hearing held last month, the amount requested was not provided due to issues relating to homeland security. However, Members will have the opportunity to attend an informational briefing in a few days to hear from APEC Host Committee Leaders in which opportunities will be provided to inquire about these and other issues of importance.

"We will continue to dialogue with the APEC organization until the responses are adequately provided. I ask for the Members' indulgence as we move this measure forward. This bill is a work in progress. Again, please know that we will be monitoring this event. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1012, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE DEPARTMENT OF THE ATTORNEY GENERAL," passed Third Reading by a vote of 51 ayes.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 314, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Morikawa rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition to this measure. Thank you. I believe that it will be more costly and it adds another layer of authority to a process that already works well. The County of Kauai provides a great service in disaster preparedness. I respect and admire the good work that they do and do not believe that another agency would help. Thank you."

Representative Herkes rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. The House has passed this bill every year for the last eight years for good reason. We're not prepared for a natural disaster statewide. Civil Defense's attitude is to be prepared to respond to a natural disaster. What this bill calls for is a Commission to get us prepared before an event happens.

"Eight years ago, Representatives and I met with professors from the University who said that it was absolutely essential for us to map this State for all natural disasters with some degree of intensity and frequency. We've never mapped hurricanes for this State. We need to know what the probability is. Wherever you live, you should know what the probability is of any natural disaster hitting you.

"A few years ago we passed a bill and I never should have let it out of Committee, giving you a tax credit if you harden your home against hurricanes. Where I live, there are no hurricanes. Earthquakes is what I'm dealing with. So our building codes are not based on natural disasters because we don't know the maps. We need to get the maps and that's what this Commission is all about.

"Professor Kim at the University was going to do this work. Unfortunately, the \$8 million that our Senior Senator had appropriated wasn't earmarked and we lost that.

"Let me give you an example. We haven't learned from New Orleans or Houston. When the hurricane came through, there was glass flying all over the place. There's been no effort to prepare us for a hurricane coming through Waikiki, or Honolulu with high-rise glass. We can go in and we harden that before it happens. Why are we going to wait until the glass is flying all over the streets? This bill is absolutely essential for the safety of the people of this State. Thank you."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I would like the words of the previous speaker entered into the record as if they were my own. And a

brief additional comment. While our various county civil defenses, as the speaker from Kauai talked about, do a great job, their realm is that county, that particular area.

"What this Commission is to do is to take a forest-view look at preparedness. And not only for the mapping issues as was brought up by the speaker of Kau, but there's other things, too. For instance what are we doing to address macro disasters? Disasters. Everything from a nuclear strike to a terrorist attack. Things like that. Things that have to be addressed on both the county and State level.

"And this isn't just stuff from *Discovery Channel 2012*. The City of Los Angeles just held an integrated exercise itself with all agencies, much like this Commission would do, to look at a scenario of a nuclear attack in Los Angeles.

"And the fact is, I share the concerns with the previous speaker, I don't think there's been any macro-level effort with the counties and the State to look at systematic disasters that would affect the entire State of Hawaii, as well as those disasters which may be particular to one area, but may not be such a risk in the other.

"So I think this is a good proactive measure for government and the State to be looking at because we don't want to be in a situation should that bad day come and everything fails, Mr. Speaker, to say, 'Boy we should have done that when we had the chance.' And now we're in the unenviable situation of having no plans or coordination, or anything for these kinds of macro disasters. Thank you very much."

Representative Jordan rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Har rose to speak in support of the measure, stating:

"In strong support and can I please adopt the words of the Chair of CPC into the record as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Fontaine rose to speak in opposition to the measure, stating:

"Yes, Mr. Speaker. I stand in opposition to this measure. Typically electric guns are deployed in conjunction with a firearm which liquor authority investigators are currently not equipped with, although they could. But they choose not to arm their liquor authority investigators. Training for electric guns requires eight hours of training initially, and then four hours annually.

"The Honolulu Police Department, Maui Police Department, as well as other departments in our State consider the electric guns to be an intermediate level of force, which is right below deadly force, and they're only authorized for use in deadly force situations.

"Use without a firearm as a backup could make a situation much worse for our investigators. Electric gun shouldn't be used on people in a state of excited delirium, which a confrontational, intoxicated person would be in. Electric guns are nonlethal, but at the same token, they're not toys. Thank you."

Representative M. Lee rose in support of the measure with reservations and asked that the remarks of Representative Fontaine be entered into the Journal as her own, and asked that her written remarks be inserted in the Journal, and the Chair "so ordered." (By reference only.)

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I rise with reservations on HB 551 regarding electric guns. The purpose of this bill is to permit county liquor authority investigators to possess electric guns, establishes safety measures that must be observed by county liquor authorities and internal reporting measures and requires an annual report to the Legislature.

"County liquor inspectors are often exposed to intoxicated, hostile people who may react violently when the inspectors enforce the liquor laws. The people the inspectors are dealing with may have recently consumed large amounts of food and alcohol. Hit with an electric gun and incapacitated, they may vomit and aspirate stomach contents. This could cause death. The liquor inspectors are not trained to deal with this kind of situation. It would be better for them to call the Police and receive training on how to diffuse a potentially dangerous situation.

"Therefore my reservations express my concern that use of electric guns by liquor inspectors is inappropriate."

Representative Wooley rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Tokioka rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Thank you, Mr. Speaker. When our founding fathers adopted the Second Amendment Mr. Speaker, in 1781 to the United States Constitution, I'm sure electric guns were not even a dream. In this day and age it's more than a dream. It's a reality. And so are the dangers of our liquor inspectors. Especially those in the rural areas throughout our State. It's often been said that the Second Amendment was adopted to protect the First Amendment, Mr. Speaker.

"Mr. Speaker, all this bill does is give protection to the working men and women in the liquor departments who go out there in our rural areas unprotected and in many circumstances, in harm's way. Thank you, Mr. Speaker."

Representative Riviere rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

"Thank you, Mr. Speaker. In strong support and can I please have the words of the speaker from Lihue, and the speaker from Kaneohe adopted into the record as if they were my own."

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 18, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Marumoto rose to speak in support of the measure, stating:

"Mr. Speaker, I'm in favor of House Bill No. 18. Thank you. The good news is that Hawaii is passing a measure pertaining to ATVs. Only 3 states have no laws covering ATV safety, so Hawaii will no longer be in the small majority with the final passage of this bill. If this bill passes Final Reading.

"However, the bad news is that this bill allows children as young as 6 years old to operate ATVs. These vehicles come in three sizes: for 6 to 10 year olds; from 10 to 16 years; and from 16 years and up. My original bill would have prohibited minors from riding ATVs.

"And while I would prefer that only adults ride ATVs, probably only those who have drivers' licenses have the requisite experience to operate vehicles. That would put them at a minimum age of 16 years. And backing up that age requirement is the prestigious American Academy of Pediatrics who recommends that persons under 16 not be allowed to control ATVs.

"As this measure advances through the Senate, there is the opportunity to raise the ATV age limit. Another bill, House Bill 1095, House Draft 2 that we voted on earlier requires that only those 12 years and up ride three-wheeled mopeds.

"So if that's a good age limit for mopeds, I think I would recommend the same for ATVs or at the minimum. It is critical that we set age limits before more children get accustomed to riding ATVs, before more small-sized ATVs are sold, and before these recreational vehicles increase in popularity and use. And it is up to us legislators to enact safety laws before more young children are killed and maimed. Thank you."

Representative Hanohano rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 829) recommending that H.B. No. 1164, HD 1, pass Third Reading.

Representative Keith-Agaran's written remarks are as follows:

"Thank you Mr. Speaker. I rise in support to express some reservations regarding this bill. This measure requires the Department of Land and Natural Resources (DLNR) to consider the sale or exchange of its Sand Island light industrial and industrial parcels to lease holders.

"The impact on DLNR's public trust responsibilities that may result from losing the consistent revenue from the SIBA lease is an important consideration. DLNR's light industrial properties, including the Sand Island Industrial Park, generate substantial revenues which support DLNR's core State programs related to the prudent management of the State's land holdings and to the sustainability of Hawaii's "sensitive natural, cultural and recreational resources." Revenues from Sand Island make up 60% of the Special Land and Development Fund (SLDF), a critical source of funding for important DLNR programs. The SLDF in recent years has supported the efforts of DLNR to recover threatened and endangered species and to battle invasive species and to match federal funds support such programs. The SLDF has also supported operations and maintenance for the State Parks system, including funding lifeguard services at certain beach parks. The SLDF also funds the entire operation of the Office of Conservation and Coastal Lands which processes

conservation district use applications. Finally, the SLDF assists the Commission on Water Resource Management in its efforts to plan for long-term management of Hawaii's water sources.

"The Sand Island Business Association (SIBA) presently holds a master lease for the industrial lots and as the new Chair of the Board of Land and Natural Resources testified, DLNR has been open to exchanging the lands for property that generates comparable revenue. The bill requires DLNR to study the feasibility of selling or exchanging the industrial park and factors impacting such a decision. While the present lessees of SIBA (and their predecessors) should be commended for financing the improvements at the industrial park, we should not lose sight that they did receive the benefit of their bargain with the taxpayers of the State by having less than fair market value rents and as they pay the debt service for the improvements, a fixed rental period.

"While the status of Sand Island as part of the Ceded Lands Trust remains disputed, I also would caution against transferring these lands prior to completing the reconciliation process with native Hawaiians. Any study of the factors affecting whether DLNR should agree to a sale or exchange of the industrial park should consider whether these lands should be on the table to be included in any land transfer with the Office of Hawaiian Affairs.

While the intent of the bill is certainly noble, the possibility of error or fraud is high. I certainly feel that this needs to be addressed further. You don't end up finding out who's actually losing, or who's actually winning. If we do pass this, there's an opportunity for further review of course, as it goes to the Senate. But I did want to note that it will allow us to far more quickly find out who it is that's actually winning. Thank you."

Representative Fontaine rose to speak in support of the measure, stating:

"Yes, Mr. Speaker. I rise in strong support of this measure. This will allow counties to issue ID cards at locations where driver's licenses are issued. On Neighbor Islands you have to visit the Governor's Liaison Office to get a State ID, and the hours and the days that the office is open makes it even more difficult to get one.

"I had to personally pull my daughter out of school a few years ago so that she could get her State ID which was necessary for travel. And there's no reason that getting an ID should require taking steps like that.

"This bill would make it much easier for people to get an identification card, particularly students and residents living in rural areas who either have to cut class or drive longer distances, and then stand in line for an unnecessarily long time. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1640, HD 2, entitled: "A BILL FOR AN ACT RELATING TO CERTIFICATES OF IDENTIFICATION," passed Third Reading by a vote of 51 ayes.

Representative Ward rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Marumoto rose to speak in opposition to the measure, stating:

"Mr. Speaker, I'm in opposition to this measure and I'd like to say a few words. Mr. Speaker this bill would establish a pocket of money, a special fund to fund the operations of the department.

"And in order to do that DBEDT, the PUC, the Department of Labor and the Department of Taxation will assess a \$20 surcharge on fees for business and commerce related services and then deposit the revenue into a special fund in DBEDT. So these departments essentially become the tax collector for DBEDT's new special fund.

"This bill is bad for the following reasons. The surcharge raises the cost of living in Hawaii and the cost of doing business. The money goes directly into a special fund and not into the general fund. A nexus does not exist from the surcharge collected from various departments and the programs to DBEDT.

"The \$20 surcharge is arbitrary and capricious. It is simply a money grab to run DBEDT. As far as the general fund expenditure limit, it appears that these monies evade the general fund limit because they don't go into the general fund first where they are counted as general fund revenues upon which the limit is calculated. Too many special funds have rendered the general fund spending limit almost meaningless.

"We've been told that too many special funds remove flexibility and decision-making power from us, the legislators. Good government principles would require that taxes and fees be placed first in the general fund so that we can appropriate the amount needed to operate certain programs.

"Why charge taxpayers who want services from the Department of Taxation or the Department of Labor for DBEDT to pay for DBEDT programs? Will the charges go into DBEDT's Energy Division or the Business Division or the Film Division? Where is the nexus and where is the connection?

"What relationship does a public utility have with DBEDT? And why would they be able to collect a fee for services they don't even provide? What nexus does DBEDT have with a hoisting machine operator? Or a pyrotechnics operator? A safety and health professional? Boiler installer or an elevator mechanic? None that I can see. Yet they want to attach a surcharge for the application, issuance, renewal, or reissuance of a license, permit, certificate, or other authorization.

"Section 37-52.3 of the Hawaii Revised Statutes requires that special or revolving funds must reflect a clear nexus between the benefits sought and the charges made upon the users or beneficiaries of the program; provide an appropriate means of financing for the program or activity and demonstrate the capacity to be financially self-sustaining. This bill doesn't meet any of these codified requirements.

"I am not surprised that the Department of Commerce and Consumer Affairs and the Department of Labor and Industrial Relations are opposed to this bill. And of course it doesn't surprise me that DBEDT and DBEDT's testimony to the Committee on Finance was the only testimony in favor of this ill-conceived measure. Thank you."

Representative Choy rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. In these hard economic times the DBEDT A-fund budget is about \$5 million, and this \$20 surcharge would fund DBEDT for only a short period of time. In fact this \$20 surcharge would end on June 30th, 2015.

"Now I realize there's no difference between fees and taxes, but the score keeping function of DBEDT is very, very important to business. When you talk about score keeping, those are the first functions that are probably going to go on the cutting room floor in hard economic times. If it just takes \$20 for a short period of time to serve its business, I think this is a really great idea. Thank you, Mr. Speaker."

Representative Johanson rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Johanson's written remarks are as follows:

"I rise in opposition to this measure. I firmly believe that Hawaii's economy is predicated on the success and health of our small business sector. A surcharge like this, that has the potential to be levied multiple times on small businesses, would only increase the cost of doing business in Hawaii. Our small businesses are struggling to stay afloat and all of these additional fees that government imposes make the prospect of thriving, let alone surviving, a very daunting one.

"Despite the good intentions of this bill, I think the fees it imposes in the name of funding the Department of Business, Economic Development, and Tourism are completely counterproductive to encouraging and supporting small business in Hawaii."

Representative Morita rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. May I have a ruling on a potential conflict? Given my pending appointment to the PUC, may I be excused from this vote?"

The Chair responded, stating:

"This affects the Department of Business, Economic Development and Tourism."

At 2:33 o'clock p.m. the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 2:34 o'clock p.m.

The Chair then stated:

"At this point the Representative from the North Shore of Kauai has asked that she be excused from this particular vote pending her confirmation tomorrow. The Chair recognizes that, and you'll be excused for this particular measure."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I would like the words of my Vice Chair entered into the record as if they were my own. And also just to touch upon his comments, DBEDT is the only agency in government, to take the words of my colleague from Upcountry, Maui, that can play offense. Every other agency is a regulatory agency. DBEDT is the only one that can be proactive. And if we want to fund the Small Business Regulatory Review Board, if we want to fund the PUC, especially if you want them to address all these multiple dockets like wheeling and other things, then we need to find a revenue stream for them.

"One of the reasons why your Committee on Economic Revitalization moved this bill is because the Vice Chair is absolutely correct. In these tough budgetary times, it's DBEDT that's probably going to get the axe first and foremost. And how can we have the Small Business Regulatory

Review Board, especially given another piece of legislation that's moving, work with agencies to remove redundant rules, rules that have been adopted for statutes that are no longer in existence, if we don't fund them to do their operations.

"So this is outside of the box, but I think it's worth exploring and hopefully the conversation can continue in the Senate because again, if we can't find ways to fund DBEDT and the functions, it's going to be the business community and others who are depending upon their services that suffer. So I welcome any new ideas to this to make sure that they don't take the axe and we can't play offense. Now for our economy, it's worth exploring. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 782, HD 2, entitled: "A BILL FOR AN ACT RELATING TO THE DEPARTMENT OF BUSINESS, ECONOMIC DEVELOPMENT, AND TOURISM," passed Third Reading by a vote of 42 ayes to 8 noes, with Representatives Ching, Fontaine, Johanson, Marumoto, Pine, Riviere, Thielen and Ward voting no, and with Representative Morita being excused.

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 678, HD 3, entitled: "A BILL FOR AN ACT RELATING TO INFORMATION," passed Third Reading by a vote of 50 ayes to 1 no, with Representative Fontaine voting no.

Representative Carroll rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Carroll's written remarks are as follows:

"I am in strong support of 1483 HD1 as it will help alleviate imminent threats of agriculture shutdown on the Island of Moloka'i by reducing current water rates and forgiving outstanding debt.

"The Moloka'i Irrigation System directs the Department of Agriculture to provide water to the MIS users who lease tracts under Section 207 of the Hawaiian Homes Commission Act. The MIS is also part of the State's Irrigation System Revolving Fund that is meant to be self-sufficient with affordable water rates to encourage and sustain agricultural development. Due to the economic downturn and other unforeseen events, an outstanding balance of \$350,000 is owed on the MIS by the system's homesteaders. This debt currently extends well beyond the means of the homesteaders' ability to pay back. Being unable to pay, these homesteaders are being faced with a possible shutdown of their agricultural businesses.

"In order to ensure the survival of Molokai's agriculture, HB 1486 HD1 provides a one-time forgiveness clause to eliminate debt incurred prior the effective date of this measure. HB 1486 HD1 also reduces the current water rate to help alleviate existing expenditures and hopefully encourage new agricultural development."

Representative Jordan rose to speak in support of the measure, stating:

"In support with a comment. Thank you. I support this measure, Mr. Speaker, because the State has an obligation, a trust obligation, to provide

for projects pursuant to subsection D of the Hawaiian Homes Commission Act that sufficiently provides water for irrigation, aquaculture, and activities on tracks of leased land to Native Hawaiians pursuant to section 207A. Thank you, very much."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I would just like the words of the Representative from East Maui entered into the record as if they were my own."

Representative Ichiyama rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1483, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE MOLOKAI IRRIGATION SYSTEM," passed Third Reading by a vote of 50 ayes to 1 no, with Representative Choy voting no.

Representative Takai rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. I would like a ruling on a potential conflict. I sit as an ex-officio member of the National Interstate Compact, and also a member of the State," and the Chair ruled, "no conflict."

Representative Takai continued to speak in support of the measure, stating:

"Thank you, very much. I would like to submit written comments in support. And also I'd like to mention a letter written to the Secretary of Defense regarding this issue. Thank you."

Representative Takai's written remarks are as follows:

"Mr. Speaker, I rise in strong support of this measure. Interstate compacts are a time-tested and court-tested means of resolving interstate problems authorized under Article I, Section 10, Clause 3 of the U.S. Constitution.

"In our country's 220 year history some 200 compacts have been adopted of which Hawaii is a member of approximately 15 interstate compacts including three compacts pertaining to education.

"Interstate compacts are used for three primary purposes: boundary disputes between states, management of environmental resources, and regulatory compacts which apply to a wide variety of multi-state problems including transportation, insurance regulation, taxation, and criminal justice.

"Compacts allow the states to exercise collective control over matters which are traditionally regulated by the states without surrendering state control to the federal government.

"Interstate compacts allow the states to avoid the problem of 50 different sets of rules' with which to solve interstate problems through a uniform approach while still subject to joint state authority.

"In order to provide the desired uniformity to facilitate the transfer of students in military families from one state to another, a compact mechanism was employed which became effective upon the enactment of the compact by ten states in 2008 and since that time, 24 additional states have joined the compact, including Hawaii, for a total of 35 states.

"Since January of this year, the compact legislation has also been introduced in North Dakota, Montana, and West Virginia and Wyoming, with proposed legislation pending in New York and Pennsylvania and a number of the other non-member jurisdictions expected to introduce the legislation this year.

"On average, most military children will move at least twice. Most will attend six to nine different school systems between kindergarten and 12th grade.

"These frequent moves result in some educational obstacles. Though many states, including Hawaii, have made progress in addressing these educational concerns, there is a lack of consistency between states that continues to create difficulties for our military families.

"Some of these recurring issues include kindergarten start age, participation in extracurricular activities, immunizations, timely transfer of records, placement in appropriate courses, missed or redundant entrance and exit testing support for children of deployed service members, and on-time graduation.

"Though one state may do several things right, the next move to another state can create a new set of problems since the procedures are not the same.

"This Compact seeks to facilitate equal educational opportunity for the children of military members in four major areas: enrollment, eligibility, placement, and graduation.

"The overall goal is to establish a 'common denominator' among the member states which will remove existing barriers to timely completion of the public education process for these students who by virtue of the decision and commitment of their parent to serve our country are, in many cases, being unfairly penalized.

"The Interstate Compact does not ask for special privileges for military children; only that states create a level playing field, and work cooperatively to make it happen. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 4, HD 2, entitled: "A BILL FOR AN ACT RELATING TO THE INTERSTATE COMPACT ON EDUCATIONAL OPPORTUNITY FOR MILITARY CHILDREN," passed Third Reading by a vote of 51 ayes.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 952, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition to the public schools land trust. Mr. Speaker, we have 257 school campuses, all elementary and high school. This bill proposes that we pool them and use and develop their land and make money for the DOE.

"I think the issue and the concern about many of us is that some of our districts, some of our complexes have been subject to closure because of funding. This seems to be maybe a clever way of doing it, but I would submit this is probably a school closure or at least an incentive for school closures because in effect, as it says in one section, that the measure will identify underused public school lands and public schools.

"So with that I fear that the way all of our districts are being tormented now, this is going to be an incentive to do so. Heretofore I thought the mandate of the DOE was education, not land development. We've already got a HCDA, the Hawaii Community Development Authority. We've already got other ways of doing development and if you look at the cash flow of the Aloha Tower Development Corporation, do you think we could do very good doing land development of school properties? I don't think so. The track record is suggesting that we stick to our knitting, and DOE sticks to education and not getting into the land development business.

"And I close this with a quote from the Honolulu City Council which was unanimously passed urging the Legislature to kill this bill. Mr. Speaker, the City and County rarely weighs in as emphatically as they've done. They went out of their way to do a resolution and they're saying to us, stay away from this. It's not something that we should be doing. And, Mr. Speaker, later on when it puts us in jeopardy with the City Council and all the others who know what business is like, I think we should back off and that's why I'm speaking on this bill. Thank you."

Representative Hanohano rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Keith-Agaran rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Keith-Agaran's written remarks are as follows:

"Thank you, Mr. Speaker. I rise to express reservations regarding H.B. No. 952, HD1 which proposes to carve out a new Public School Lands Trust from the State's Public Lands corpus and creates a new commission to duplicate authority already granted to the Board of Land and Natural Resources and other governmental authorities over these lands. The measure suggests that creating this new redevelopment structure and landholding scheme will maximize the use of public school lands and generate income to improve public school facilities. This bill also establishes the Public School Lands Trust Permanent Fund along with the School Facilities Special Fund.

"No one denies that repair and maintenance of the physical infrastructure of our public school system can use additional resources, or that education is a prime core function that should be supported by public funds. However, creating a separate land trust and a new commission to manage that land trust raises some difficult issues. It's useful to remember that as a condition of being admitted to the Union as the Fiftieth State, the U.S. Congress required:

(f) The lands granted to the State of Hawaii . . . , together with the proceeds from the sale or other disposition of any such lands and the income therefrom, shall be held by said State as a public trust for the support of the public schools and other public educational institutions, for the betterment of the conditions of native Hawaiians, as defined in the Hawaiian Homes Commission Act, 1920, as amended, for the development of farm and home ownership on as widespread a basis as possible for the making of public improvements, and for the provision of lands for public use. Such lands, proceeds, and income shall be managed and disposed of for one or more of the foregoing purposes in such manner as the constitution and laws of said State may provide, and their use for any other object shall constitute a breach of trust for which suit may be brought by the United States. The schools and other educational institutions supported, in whole or in part out of such public trust shall forever remain under the exclusive control of said State; and no part of the proceeds or income from the lands granted under this Act shall be used for the support of any sectarian or denominational school, college, or university.

Admissions Act, §5(f).

"It's also useful to recognize that historically Hawaii's decision makers have used its public lands and rents from those trust lands disproportionately in support of public education as opposed to other purposes identified for these trust lands (i.e., the most glaring being "the betterment of the condition of native Hawaiians"). Further, due to the historical development of our State, the counties nominally continue to hold title to the formerly private lands under the older schools although active management of those lands has been borne generally by the State since Statehood.

"It is entirely within the Legislature's authority, if it chooses to do so, to reserve the lands with the best potential to yield income and to apply those proceeds to support our public school system. However, while this may be a good idea, we should account for the historical imbalance in the use of Hawaii's public lands. Until reconciliation is achieved, it seems premature to discuss carving out what may be the most valuable and easily developable lands from the discussion over how we achieve a just resolution with our native people.

"So although I share a strong and abiding commitment to provide the best education possible for our *keiki*, I must support HB No. 952 HD1, with these reservations."

Representative Carroll rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Jordan rose to speak in opposition to the measure, stating:

"A no vote with comments, please. Thank you. I feel this bill is premature. Before any consideration of a public school land trust, the State must first resolve claims and obligations to Native Hawaiians. Restricting the use of revenues generated on public trust lands solely for the use of public schools would violate any State obligations. Thank you."

Representative Marumoto rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I am voting on this bill with reservations. I had thought that perhaps the Board of Education and the Department of Education advanced this bill in an effort to maybe make use of Liliuokalani School because it is so well situated in a commercial area on Waiālae Avenue in Kaimuki. But the Deputy Superintendent assured me

this was not a DOE bill. It was from the HIPA, which is a think tank, a private think tank. And I believe him, that it was not intended to close certain schools and make use of their real estate.

"But there may be something to looking at the schools to see whether there might be some potential development areas. I think the schools where they're taking the property may benefit in some way, like Star of the Sea School in my district. Of course it's a private parochial school. When they developed a retirement home nearby, the retirement home was able to purchase a new gymnasium and a new early learning center for the Star of the Sea School. So maybe something of that type can be worked out in the future.

"I think that we have to go very slowly on this. You have to consider the public lands issue and also the various counties because in many places this is a land grab and it would take the property and parks away from the counties. So I think that we should step back this year. Take a long, slow look at this, a good study of the issues and see what we learn. So I'm not voting no, but I will vote with reservations. Thank you."

Representative C. Lee rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker, in support with reservations. I do think the bill has merit and is certainly worthy of further discussion. But I do think the Representative from Waianae brings up a good point and for that reason, with reservations. Thank you."

Representative Ching rose to speak in support of the measure with reservations, stating:

"I rise with reservations. I would also ask that the comments made by the Representative from Kaimuki be entered as my own. But I would be disappointed if this did lead to school closures. Thank you."

Representative Takumi rose to speak in support of the measure, stating:

"Thank you very much, Mr. Speaker. Let me respond in support. And this is the bill that's the proverbial 'work in progress' so we should always keep that in mind.

"Let me just make a couple of points, Mr. Speaker. The whole concept behind the trust idea and whether or not we go with the trust idea, the whole goal is to say, we take a school and see whether or not we can generate revenue out of that school.

"As you well know, Mr. Speaker, Wailupe Elementary School closed. Anybody who drives past that school today knows what it's being used for. Absolutely nothing. It's sitting there because it's owned by the City and County of Honolulu and there's nothing. And unfortunately unless the City continues to maintain that property, typically it will be vandalized. It'll just be run down and so on.

"And the fundamental reason for that happening is because there was no process in place as this bill intends to do, to make use of that property.

"Secondly, Mr. Speaker, this is not about school closures. Those are two separate issues. Envision this. Take Puuhale Elementary School. It's been a source of controversy as to whether or not it should be closed. Puuhale sits on seven acres of land. What if you were take that school, go to a developer, and by the way discussions are ongoing for this effort. Go to a developer and say, 'Tell you what you do. If you are willing to build a new school on that site using two acres, a state-of-the-art school, white boards, laptops, the whole nine yards. But you also get to build 100 units of affordable apartments for that community.'

"So perhaps teachers could live in those apartments, or people who work in that community could live in those apartments. We're not talking about public housing by the way, Mr. Speaker. We're talking about very nice apartment units. And the deal with the developer is we'll give you a 55 year lease, at \$1. So the land, essentially you have a commitment to have that for 55 years and that developer will then be responsible, Mr. Speaker, for the building and maintenance and running of that facility and we would

indemnify the State. The State would not have a liability in case something should happen on that property.

"I dare say, if you go to that community where Puuhale sits and you tell those parents and teachers that we will build you a state-of-the-art school, your kids can continue to come here, and we'll have apartment units there so we'll have an adult presence on that campus 24/7, and it would be at no cost to the State. And for the City Council and for the Mayor, the discussions are ongoing with them as well. The developer has to pay property taxes because they're residential units on that site. How much revenue does the City and County generate today on school campuses? Okay, I know the answer. Zero. Nothing.

"So let's keep this in mind. It's a work in progress. To simply say no at the beginning I think is way premature. And just as a matter of correction, there are 286 in this State. Thank you, Mr. Speaker."

Representative Manahan rose in support of the measure and asked that the remarks of Representative Takumi be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Awana rose in support of the measure and asked that the remarks of Representative Takumi be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Pine rose to speak in support of the measure, stating:

"In support, Mr. Speaker. And I never thought I would ever do this, but I'd like to use the words of the speaker from Pearl City as my own."

Representative Ward rose to respond, stating:

"Yes, Mr. Speaker. Just a brief rebuttal. And because I represent my district I'm going to speak exactly for my district. To have what they have at Iolani where next to their school where they build apartments to fund it. Where they have next to Star of the Sea to fund it. That would not fit in my district on the three elementary schools that I have. It just doesn't fit. To see 100 feet, or 50 feet of high rise buildings next to a school because we didn't budget ourselves. Which already the budget is at \$2 billion because we don't know how to prioritize education. We've got to go out and become developers.

"We know how good the government is at running businesses. To put the DOE or the DLNR into the business of building high rises to fund our educational system, I think I may even vote for the gambling bill before I would vote for this one. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 952, HD 1, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC SCHOOL LANDS," passed Third Reading by a vote of 49 ayes to 2 noes, with Representatives Jordan and Ward voting no.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 882) recommending that H.B. No. 953, HD 1, as amended in HD 2, pass Third Reading.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 953, HD 2, pass Third Reading, seconded by Representative Evans.

Representative Fontaine rose to speak in opposition to the measure, stating:

"Yes, Mr. Speaker, I rise in opposition. Just a real brief comment. This is not a time to be talking about salary increases for the superintendents, not with these economic times. So I think this is a discussion we should be having later on, further down in a number of years when we get better. Thank you."

Representative Jordan rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Hanohano rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Cabanilla rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Hashem rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Yamane rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Awana rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Aquino rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Johanson rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. In support with reservations. I do think one of the underlying things for us all to consider is that the timing of this is obviously not ideal and I think we all recognize that.

"But I do think that if we contextualize it in the broader discussion of education reform that this Body has actually enacted in the many years before I was here. I think it is part of the broader discussion from a human capital perspective after the enactment of Act 51, the governance change that we made with the appointed school board. A lot of these pieces of the puzzle for a better education system are things that are up for consideration by this Body. I think this particular measure from a human capital perspective is asking us to take a look at how do we attract, recruit, and retain the best qualified people. And particularly because of the reforms enacted under Act 51, many of these individuals are given very significant responsibilities for the education of our children. For those reasons, although I agree with everyone's point about the timing, I do think it is important for us to continue considering this measure. Thank you."

Representative Cullen rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Takumi rose to speak in support of the measure, stating:

"Thank you very much, Mr. Speaker. In support, but just a couple points of edification on this bill. And I realize the concerns expressed by some Members saying this is not the time. Please keep in mind that as you well know, Mr. Speaker, the Superintendent's salary is set in statute by law and currently it's \$150,000. It's been \$150,000 for ten years. I dare say many people in the community over the past ten years have gotten raises, including all 51 Members sitting on the Floor today.

"And by the way, Mr. Speaker, the dilemma is that if the Superintendent gets \$150,000, and again it's in statute, it's a percentage, that the complex area superintendents get 80% of that, and the assistant and the deputies can get up to 90% of the Superintendent's salary. And again that hasn't changed for the past 10 years.

"So because of collective bargaining, because in those ten years frankly principals have gotten raises, as well they should have. And as a result currently six principals in our system make more than the Superintendent, and well over a 100 principals make more than the complex area superintendents. So the very people that they are being supervised by get paid less than they do.

"What does that do ultimately? It really leads to a dilemma of who do you recruit to be complex area superintendents. And if you look, there are 15 of them as you know. The majority of them now are coming from the elementary schools because frankly very, very few high school principals

are going to take a \$30,000 or \$40,000 pay cut to take on much more responsibilities as a complex area superintendent.

"So there are many interim complex area superintendents, acting complex area superintendents because what the situation now is the Superintendent asks them to take the job. They do it, but they don't want to be permanent. So they do it for a few months and then they go back. That is not a healthy situation if you want to move that system forward. So I can understand again the concerns about the economy and so on, but over the years we've tried to introduce bills to increase the Superintendent's salary, and those have failed as well. Thank you, Mr. Speaker."

Representative Cabanilla rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. Now that I'm educated about how much principals and superintendents make, I understand now why the education budget is in the billions. I'm changing my vote of reservation to no. Thank you."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support with a few comments. I believe if we want to deliver on the promise of Race to the Top, if we want to deliver on the promises of Act 51, if we want to deliver a quality system for all of our Hawaii's children, it's these kinds of measures we must pass. Thank you, Mr. Speaker."

Representative Rhoads rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I know it's an old analogy, but it does seem to me that the individuals whose salaries would be covered under this bill have as much right to try to get a market wage as, say the football coach. And I think if we're going to be capping these people out at what's a relatively minor amount of money compared to other positions in this State. Don't get me wrong. Coach McMackin, I think you're doing a great job, but it's hard to see how this is consistent with where our priorities are in athletics. Mahalo."

Representative Yamane rose to respond, stating:

"Thank you, Mr. Speaker. I'm still in opposition. I just wanted to clarify that I know it's been referenced that this bill is an indication that if you are supporting Race to the Top or improving our schools, then you vote aye, versus a no. The reason why I wanted to clarify my no vote, Mr. Speaker, is that regardless of the situation that we're facing, we're still in a fiscal crisis, Mr. Speaker. These positions of, we're talking about \$120,000 annual salary versus looking at giving them an open blank check to increase that up to maybe \$150,000.

"Mr. Speaker, I'm not saying that these individuals don't earn it. I'm very confident that those in Central Oahu deserve it very much. However Mr. Speaker, my question is that with a new Board being appointed as we move forward, as we look at ways of cost cutting measures that are affecting all areas and segments of our community, that we look at salaries as an issue. And from \$120,000 to \$150,000, even for one individual is quite a hefty increase. Thank you, Mr. Speaker."

Representative McKelvey rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition as well. I would like the words of the previous speaker entered into the Journal as if they were my own. And just a brief comment here. My philosophy coming in to this has always been the same. We need to protect the 'worker bees' and look to the top level of management if we're going to make cuts. And think about how many teachers that would allow us to retain and hire for our schools, \$150,000.

"That's not to say, like the Representative from Mililani said, that they're not doing a good job. But in this deficit situation, I think our priorities, at least for me and my constituents, need to be clear. Mine are about supporting the teachers and those at the school level and give them the

resources they need to attract and retain good teachers and staff so that we can have fully functioning schools. If that means we have to hold back on the discussion of salaries for upper level management, then so be it. But I think that's where the priority needs to be. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 953, HD 2, entitled: "A BILL FOR AN ACT RELATING TO EDUCATION," passed Third Reading by a vote of 43 ayes to 8 noes, with Representatives Cabanilla, Ching, Fontaine, Marumoto, McKelvey, Pine, Thielen and Yamane voting no.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 883) recommending that H.B. No. 566, HD 1, as amended in HD 2, pass Third Reading.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 566, HD 2, pass Third Reading, seconded by Representative Evans.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise with some consternation that is negative about this bill. In opposition. The mantra in my office is, 'a solar on every roof.' Every roof in the State of Hawaii. I think there are two hundred and some thousand homes. But the data says we've only got 25% maybe 30%. Some bills push us forward, and unfortunately this bill I think is going to push us backwards because it's trying to dis-incentivize the solar industry. It's trying to take away what otherwise is our strength. We have sun in most places, some 90% of the time.

"This is a place where we need to have the political will to get rid of that \$7 billion of imported fossil fuel. If we're serious, if we've got the political will, we wouldn't just dis-incentivize this industry. We would do like Israel that's spending \$60 million a year to make sure that those people are dependent upon themselves rather than outside forces.

"This bill I think caps all of the solar credits at \$7 million. Itsy bitsy \$7 million. We've got sunshine for all of our quarter million houses and we're not taking advantage of it. The difficulty I have with it is that we've spoken from the Floor. We've written, we've said we're going to be energy independent. We're going to do this. We're going to do that, Mr. Speaker. We've given it rhetoric. And then when the rubber meets the road, we take a bill like this, we take away the incentives for the guys who are out there doing a yeoman's job. This is going to take away from those jobs. And my fear is the vision that we had or that we say we have, we don't have because this bill is so myopic in its short view of what we are as a people and what we have as a future. That we've got to go beyond that.

"So I hope this is a beginning discussion point for this. I mean we don't have to become like Israel, but let's get the political will of those other countries that don't even have sunshine, who are doing much better than we are, Mr. Speaker. Thank you."

Representative Thielen rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I'm opposed to the bill because of the delay of the tax credits and that hurts the program. Thank you."

Representative Ching rose to speak in support of the measure with reservations, stating:

"Thank you. Reservations for the same reason."

Representative Choy rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. In deference to my good friend from Hawaii Kai, this particular credit has been around for 40 years. And if we're trying to give incentives to some industry, it should be for a short time. If we're trying to achieve a goal, we should have a time frame that's realistic. It's been 40 years to achieve something. Maybe we have to realize that this particular credit is not working and we have to try something else.

"Another point is that this particular credit is going to sunset I believe, in five years. So maybe the five-year time frame is going to put some urgency into getting renewable energy and to take advantage of this particular credit. So I stand in strong support of this particular measure. Thank you."

Representative Coffman rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. This bill does not cap the Renewable Energy Systems Tax Credits. We have a sunset date in 2016. There will be a study prior to that date to see if there's any reason to continue this program, otherwise we're just looking at ending a tax credit way out in the future. Thank you, Mr. Speaker."

Representative Ward rose to respond, stating:

"Mr. Speaker, just a brief retort to the erudite individual from Manoa. He's right. It's 25 years and we've only got 25% penetration. How good is a program like that? Well if you have niggardly incentives, if you have small incentives, it's saying that we can't do it because we haven't incentivized the industry, and that's probably why people have not done it. Because number one, solar costs money. You've got to give incentives for the tax breaks, and that's probably why we've got 25% penetration and not more.

"And quite frankly, if we're not going to have the method of leadership from this Body, it's not going to be economical from the consumers' point of view. Right now, I know you can lease. Someone will say, 'Well look. They don't have to pay money up front. They can lease it.' But by the time you pay it off in 20 or 30 years, you've only saved about 15% on your electrical bill, and I think people want to save much more than that. For those reasons, Mr. Speaker, I hope this dialogue continues."

Representative Souki rose to speak in support of the measure with reservations, stating:

"Yes, thank you, Mr. Speaker. I speak with reservations even though I do support energy conservation. To give you a little history, I used to be one of the first in the State to put up solar in low income housing in Maui, Molokai and Lanai. We helped to build the solar. In fact we built our own then. And ultimately we got a little more sophisticated. But the ones that we built and the more sophisticated ones are basically the same. They provide the same hot water and the price doesn't matter. My understanding with the solar is they go as high as \$12,000 now. I used to sell some for \$300. And so with the more tax credits you give, the benefit doesn't really come to the buyer. The benefit comes to the seller.

"Another thing you must keep in mind is that ironically with the solar and with a lot of the alternate energy products, as the electric company begins to lose kilowatt revenue because of the conservation methods that you have out there, they'll have to ask our friend from Hanalei, Kauai and the PUC for an increase in the rate because electric companies can't get a return between 12 and 14%. And if it falls below that and it is falling below that because of all the energy conservation ironically, then they're going to be asking for a raise in the rate. And the net return for the user is probably not going to be that great.

"So with this basis, I speak with some reservations on the need for the continuance, and to be careful as we move along. The net gain can be not that great as we move on. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 566, HD 2, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," passed Third Reading by a vote of 48 ayes to 3 noes, with Representatives Fontaine, Pine and Thielen voting no.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 884) recommending that H.B. No. 1176, HD 2, as amended in HD 3, pass Third Reading.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1176, HD 3, pass Third Reading, seconded by Representative Evans.

Representative Thielen rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. Mr. Speaker, I'm rising to vote no on the undersea cable bill and I'd like to make a few comments. Thank you. House Bill 1176 proposes a regulatory scheme that really allocates the risk to the ratepayer. For the first time in Hawaiian Electric Industry's history, this legislation would shift HECO's share of responsibility to the ratepayer in the form of higher costs, adjusted rates and surcharges, no matter what the status of the interisland cable project. Not only would the risk of the project be put upon the ratepayer should the interisland cable be unprofitable, but House Bill 1176 also shifts the burden of doing business to the ratepayer even if the interisland cable is not completed.

"House Bill 1176 shields HECO and its shareholders from all possible negative outcomes, but on the flipside, profits will not be shared with the ratepayer. So the ratepayer pays, but the ratepayer does not get any share of the profits. The monies will continue to be the property of the shareholders exclusively.

"Proponents of the bill argue that by eliminating all risks to the utility, the ratepayer will benefit from lower rate should the cable be installed. However, this legislation does not establish any protection for the consumer that would guarantee that the ratepayer would actually benefit from lower rates. Proponents also argue that the Public Utilities Commission provides oversight, but House Bill 1176 does not guarantee the Public Utilities Commission's neutrality.

"The second reason I oppose the bill is that House Bill 1176 is premature. The environmental impact analysis for interisland cable is still in the preliminary stages. Thus even if it's eventually established that the cable is environmentally sound and that ratepayers must take all of the risks, it does not follow that the rate payer will be asked to take on the risk of the project before the cost of the project is determined. At this point the Legislature should not agree to saddle the rate payer for all of the cost of a project when it's not even clear what the extent of these costs are.

"Another reason is that House Bill 1176 establishes a presumption that the construction of the interisland cable is a foregone conclusion. By seeking to establish a regulatory structure for the interisland cable well before the preliminary analysis are completed, a presumption is created that the interisland cable is a foregone conclusion. This bill in many ways validates the criticism coming from Molokai and Lanai beneficiaries that the approval on development of these projects are completed without a good faith consideration of all pertinent data.

"There have been attempts to obtain financial information on the interisland cable, but they have been thwarted. There is a study that has been done by the National Renewable Energy Lab and Booz-Allen. The NREL study is virtually completely redacted so I show you, Mr. Speaker, a page from that study, and all you see are blanked out spots over the information. So we don't have the real information showing what the risk to the ratepayer will be and the ratepayers certainly should have access to this information.

"The other thing is, Mr. Speaker, as I stand here and I look at this piece of legislation, I keep thinking, Superferry. Special legislation for one project. Superferry. Now we know how that went. We came back in Special Session to do it again and then it was struck down by the court. This smells the same. Looks the same. I think virtually it is the same and that we have a Superferry bill sailing through in a premature fashion and I would ask the Members to look at this more thoroughly."

Representative Pine rose to yield her time, and the Chair "so ordered."

Representative Souki rose and stated:

"Mr. Speaker, the boat hasn't sailed yet."

The Chair addressed Representative Souki, stating:

"Representative Souki. You're out of order. Representative Souki, please sit down. Representative Thielen, you may proceed."

Representative Thielen continued, stating:

"You know it's a good thing I can't hear him, Mr. Speaker. Thank you. I would ask the Members, Mr. Speaker, to take a stronger look at this and think of this. We don't have the information upon which to formulate an educated act to decide whether or not legislation like this should go through. It's very premature. It certainly smells like special legislation.

"And I for one would like to see an NREL report that shows the economic analysis and the power output analysis. And I would like to see it where the data is actually shown to us as decision makers. I would hope that we would be able to get this before this bill moves any further on the Senate."

Representative Souki rose and stated:

"Mr. Speaker, a point of information. Do we have a time limit on speaking on this?"

The Chair then stated:

"Representative Souki, Representative Pine has yielded her time and that's why I've allowed Representative Thielen to continue."

Representative Souki: "All right. Please proceed."

Speaker Say: "Don't worry you two seniors. Representative Thielen, please continue."

Representative Thielen continued, stating:

"As the Chair of Transportation says, 'Please proceed.' We did that with Superferry and we were shot down. So we have the very same kind of special legislation here and I would ask that the Chair of Transportation take a look at this and say doesn't this ring bells in his head. Doesn't it sound like the same thing?

"And Mr. Speaker, I personally will be asking NREL for a copy with the data in it. I will probably be refused. DBEDT has it. I would think that we as a Body should get that information so we can really consider this and decide whether or not this bill should even move forward. Thank you."

Representative Morita rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. I think this is the final time that I will ask for a ruling on a potential conflict. Again, given my pending appointment to the PUC, may I be excused from this vote? Thank you"

The Chair responded, stating:

"So ordered. You are excused."

Representative Evans rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. Thank you. I appreciate the comments from the previous speaker, but I just respectfully disagree with the analogy that it's like the Superferry. With the Superferry, there were a lot of regulations in place. People could argue they didn't follow them. People went to court to make that argument.

"But with this bill, what it does is it sets up a regulatory structure under which the interisland undersea transmission cables could be developed, financed, and constructed on commercially reasonable terms. So this bill is just a framework. Now the discussion on who comes and works in that framework, if we like it or don't like it, that's out in the future. This just sets a framework. I think that's a reasonable thing to discuss and to move forward.

"We're trying to get renewable energy. We're trying to look at alternatives. I think this Body is very committed to try to work on finding answers other than fossil fuels. So I think this is a good bill to move forward. People can judge if they want it in the future or not. Thank you."

Representative Hanohano rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Coffman rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Just to follow up on a couple of statements that were made. In support. Thank you, Mr. Speaker. This is not special interest legislation. This is simply giving regulatory structure to the PUC. I expect if and when they ever get to a cable project, there'll be at least a half dozen companies bidding on the RFP that will be required for this. That can't be special legislation.

"Included in the bill are provisions for the PUC. The way it's worded, the cable company, if we get to that point in this project which is many years down the road, will have to have some kind of 'skin in the game' so to speak. The cable company, if they join in this partnership with the electric utility and any wind provider, any other renewable energy provider, will never collect a penny until production of electrical current goes down that cable. So they themselves have to be very well assured that all the players are committed and financially capable of moving forward with the project. So there is absolutely minimal risk to the ratepayers in that case.

"To the question about this being premature. Again, everybody keeps asking what the costs are going to be. I want to see the numbers. You can never get to those numbers unless you do an RFP and get an idea of what the actual costs are going to be. Then they go back and the PUC can plug those into the rate case and actually put those through a rate case hearing, and then we can see what those rates would be proposed. Mr. Speaker, thank you."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I would like the words of the Vice Chair of Energy entered into the record as if they were my own. And just to note since, although I agree with the Chair of Transportation, that boat has not sailed, if you look at the court's opinion on ..."

The Chair addressed Representative McKelvey, stating:

"Representative McKelvey, you're out of order. We're not addressing the Superferry. We are discussing the underwater cable."

Representative McKelvey continued, stating:

"Okay, I'm sorry. I'll save it for another day. But anyway, this is important, Mr. Speaker, because if you were at the briefing for the interisland cable, the fact of the matter is, most of the renewable energy resources, the best locations for wind and other types of renewable energies are on the Neighbor Islands, but yet the bulk of the consumers are here on Oahu.

"And another advantage of this cable, and again this is just a regulatory framework. No company has been chosen. Nothing's being done. We are just setting up a framework. But there's space in the conduit for fiber to also connect our islands with broadband. And that's really important. If you want to have a smart grid; if you want to have wheeling; or to quote our good friend from Hawaii Kai, to have solar on every roof, you're going to need that connectivity. Not only for transmission of energy, but also a fiber so you can coordinate these grid systems.

"So again, I think that this is a step in the right direction of looking at a regulatory framework to address these overarching issues. And by the way, this initiative, if I remember correctly, like the other issue, was that of the last Administration, and I concordantly still support it. Thank you."

Representative Thielen rose to respond, stating:

"Thank you. I wanted to just quote from Isaac Hall's testimony just a brief section of it. Mr. Speaker, he is representing the Friends of Lanai and I believe he was very involved as one of the attorneys in the Superferry legislation and won that case in the State Supreme Court. He states:

'This is illegal special legislation modifying our public utilities law, Chapter 269 HRS, for the benefit of a single project, the Hawaii Interisland Renewable Energy Program. For the Hawaii Interisland Renewable Energy Program alone, this bill strips generally applicable provisions from Chapter 269 intended to protect the public and ratepayers from the risks inherent in this project.'

"He goes on and I'd like to have some sections of this put into the Journal, Mr. Speaker. I won't ask for the entire three page letter to go in. But we also have the Native Hawaiian Legal Corporation which states, and I quote:

'The proposed legislative findings about the project's desirability are premature. Scoping for a joint state-federal environmental impact statement about this project is still on-going. During scoping, the state and federal agencies considering this project are required to identify issues that warrant further study. That means as of today, we have not even identified all potential impacts that must be considered in an EIS.'

"This bill is premature, Mr. Speaker. And as being premature, it has some serious defects. So why do we cost the State more money in having to go to court to defend again against something that is premature that we should have thought out more clearly. Thank you."

Representative Thielen submitted the following remarks:

"The transparent purpose of this Bill is to attract private investors as applicants for the Right of Entry from the federal government for the inter-island cable by eliminating all risks from this "investment" by requiring that all costs will be reimbursed by Hawai'i's public utility company through funds collected from the ratepayers, Hawai'i's citizens.

"The ratepayers paying the bill for the interisland cable are never clearly identified. Are they Oahu ratepayers? Oahu and Maui Country ratepayers? Or will ratepayers statewide be forced to pay for this project?

"The Bill does not provide even an estimated cost for the undersea cable and additional infrastructures. Any Bill whose purpose it is to obligate Hawai'i's citizens to pay for a huge utility capital improvement project should, at a minimum, include an estimate of the costs that the Legislature is shifting to its citizens.

"A joint federal and state Environmental Impact Statement ("EIS") for HIREP has been initiated. Until an adequate EIS is completed for HIREP it cannot be known whether an interisland cable is "feasible and necessary," whether wind farms on Lanai and Molokai can produce "four hundred megawatts" of electricity and whether or not ratepayers will benefit in any way from this project. It is premature to make "legislative findings" on these subject matters without the benefits of a complete, adequate EIS.

"SB367 and HB1176 and the actions authorized through these Bills constitute commitments to a particular alternative in violation of NEPA and HEPA. The alternative of wind farms on outer islands supplying electricity to Oahu via an interisland cable is one of several alternatives that are required to be studied in detail in the EIS before it any one alternative is selected or implemented.

"The Public Utilities Commission cannot approve any cable certification application or grant any other discretionary approval related to this project unless and until the environmental review process is completed in compliance with state and federal law.

"The Legislature should take no action on Bills of this nature until the full impacts of the project as a whole have been completely disclosed in adequate EISs."

Representative Wooley rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker, I rise with reservations. I just want to add one more note to the Representative from Kailua's comments. It's estimated that this is going to increase our rates by 25%. Thank you."

Representative Riviere rose to speak in opposition to the measure, stating:

"Thank you, I rise in opposition. Thank you. My concerns are the cost factors, the uncertainty, the risk that is quoted. I understand this project would be priced based on risk, yet the developers of the project would not in fact have risk because if the project is terminated before completion, the ratepayers of this island will make them whole. So the risk falls upon the ratepayers of this island, yet the developer charges at the risk. There's a disconnect there that I find seriously flawed.

"Also I'm not convinced that Hawaiian Electric is the most reliable organization in this State based on just looking at the recent power outages in a brand new subdivision. They couldn't deliver the electricity. So I'm concerned about rolling forward with this at this time for an interisland cable for windmills on islands where people have expressed that they're probably not happy to have the windmills. So I have concerns and I will be voting no."

Representative B. Oshiro rose to speak in support of the measure, stating:

"Mr. Speaker, in support. Just very, very briefly. I wanted to counter the arguments that this has to do with a general versus a special law. Under Article XI, Section 5 that specifically limits the legislative power over lands owned by or under the control of the State or its political subdivisions. So the only reason that the Superferry was triggered was because we were dealing with lands owned by the State and that is not the issue that's before us here.

"This is a regulatory bill. This is what we actually would need to do if we're going to have an interisland cable. It's regulatory. It's not dealing with a land *per se* and therefore, I don't think the Superferry is applicable."

Representative Carroll rose to speak in support of the measure with reservations, stating:

"Mr. Speaker. In support with reservations, and just a few comments. While I support the initiative that is taking place with our renewable energy, I'd like to also, as the Representative for Lanai, recognize and acknowledge my constituents who are concerned as well. Thank you."

Representative Ching rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

"Mr. Speaker, I would like to ask to insert written comments. In strong support. Thank you."

Representative Cabanilla's written remarks are as follows:

"Mr. Speaker, I am rising in strong support of this measure. As your Chair of the Committee on Housing, this bill is necessary and prudent.

"Residents of public housing have voiced their strong support for this bill, as they are extremely concerned about the safety and well being of their families, and their neighbors.

"It is no secret that public housing areas attract illegal gang and drug activities. While we have made great strides, there still exists a lot of apprehension by the tenants about their public safety and well being.

"The safety concerns of the public should always be a priority.

"Allowing a safety protocol such as issuing visitors pass, will increase security and awareness in public housing units. Thank you, Mr. Speaker."

Representative Nakashima rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Nakashima's written remarks are as follows:

"Mr. Speaker, it is important that State policy reflect a goal and direction that guides State actions and determined the appropriate expenditure of State resources. The Hawaii State Plan embodied in Chapter 226 Hawaii Revised Statutes was a bold attempt to set these goals and directions for the State of Hawaii.

"This bill seeks to require the University of Hawaii Board of Regents to periodically review the priority guidelines for quality education and recommend amendments to the Hawaii State Plan for consideration by the Legislature to insure that the programs and initiatives of the State University are in concert with the policy direction of the State. In this process, the University will also be responsible for the development of a functional plan that includes strategic goals, outcomes, and performance indicators that would demonstrate the University's execution of the State Plan."

Representative Har rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Pine rose to speak in support of the measure with reservations, stating:

"Yes, Mr. Speaker. I have reservations as well on this with a couple comments. What Stand. Com. Rep. No. 910 does is it basically funds Governor Abercrombie's commitment to change the health insurance or the benefits to 60/40. Basically having the State pay more for benefits. And this is while we are facing an \$800 million budget shortfall. I just believe

that this is premature at this time, Mr. Speaker. It's a great cause, but I think it's a little foolish to rush this before we finish the budget."

Representative Ching rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1038, HD 2, pass Third Reading, seconded by Representative Evans.

Representative Fontaine rose to speak in opposition to the measure, stating:

"Yes, Mr. Speaker. On Stand. Com. Rep. No. 915. I'm in opposition to this bill because of the change of the retirement age for police officers and firefighters. Presently it's 25 years, and now that changes it to 55. Recognizing that police officers and fire fighters work at a very difficult job, they should be able to be retired after 25 years of service and not made to be forced to work until 55. Thank you."

Representative Pine rose to disclose a potential conflict of interest, stating:

"Yes, Mr. Speaker. I wanted a ruling on a potential conflict, possibly for all of us. This bill does relate to all of our pensions because it includes us."

The Chair responded, stating:

"I believe as a class we are all not excused from voting on this. So we all have to take a vote."

Representative Hanohano rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1411, HD 2, pass Third Reading, seconded by Representative Evans.

Representative Riviere rose to speak in opposition to the measure, stating:

"I stand in opposition. There is a bill that we passed earlier today, I believe it was 879, and that contained the recommendations from the Mortgage Foreclosure Task Force that was convened, and it is generally accepted as the best solutions for the problems at hand facing us with mortgage foreclosures. This bill, HB 1411 incorporates other elements which I believe will have a real adverse effect in several ways and if I may address just a couple of them.

"There is one item where it requires physical presence in the State of Hawaii. That sounds like a great idea because the local banks did a reasonably good job as we went by, and there were some mainland banks that were not exactly doing a good job. There are good groups on the mainland however, such as USAA. They've submitted testimony that now they will be precluded from providing mortgage services. So limiting mortgage opportunities for residents of Hawaii is not a good thing especially when you've got good companies that will be excluded.

"There is a foreclosure moratorium. The Members may remember that I do not support moratoriums because they send shudders through the industry with the uncertainty that they bring.

"There is one element that was recognized as probably good and it is mediation. However, mediation without parameters on results can end up in endless, endless mediation, thereby creating more hardships.

"And we must remember that when we create uncertainty in the market we destroy market value. Homeowners will suffer by having market value uncertainty. If you live next door to three houses that are in a perpetual foreclosure, the value of your home will be sinking and will not stabilize until all of the uncertainties in your neighborhood get resolved.

"Then moving the items from non-judicial to judicial, that's enclosed in the 879 in a better way and there is the fear that, I think the Judiciary testified it will cost something like \$4 million or more, plus bog down the courts in about a year if everything were to just suddenly be pushed into judicial.

"So there are many, many issues with this bill that I think while the intentions are good, I just think there are too many problems with this bill to put it forward. If there are any elements such as mediation that require or warrant continuing, I will suggest that those decent elements be maybe amended in 879 as it goes along. And that's what I think. Thank you."

Representative Herkes rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. HB 1411 is a work in progress. We've got three objectives for HB 1411. The first is to have a vigorous ongoing mortgage loan system in the State of Hawaii.

"The second is to try to figure out how to deal with those people who have had some economic difficulties, to make sure that they have an opportunity to meet directly with a representative of the mortgagee. And we have dealt with that in a variety of issues. One being mediation and there is a time limit on the mediation of one month. We've talked to the State Mediator and what plan there is to find people who are familiar with banking and teach them mediation.

"And there are a lot of other protections in there. For example, we've had a problem with mortgagees on foreclosure advertising only in the local paper when they're going to do a foreclosure auction in Kona. And so we've dealt with that issue. There's been some concern about where the auctions take place. In some cases nobody knows where. We've specified where those auctions will take place.

"We are very cognizant of if you have an ability. If the mortgager has the ability with hard times to be able to service a mortgage at some level agreeable to the mortgagee. We want that to happen and that's what we're driving. If you have no intention of paying anything, we have no sympathy for you. So we've been trying to deal extensively with that issue.

"Our third objective is to make sure that we don't overburden the court system. I will say, Mr. Speaker, that we have met extensively, extensively with the mortgage brokers in the State of Hawaii, almost on a daily basis. The purpose of the moratorium was to get the attention of the offshore banks.

"We got their attention. They came down here. Bank of America met with every one of your offices. They went to 76 legislative offices in the State of Hawaii. I have met with them. Yesterday I met with two other mainland banks. We got their attention and what the Bank of America is going to do is, they're sending a swarm of mortgage people down here to deal with all of their mortgage loan problems on every island. They'll have people on every single island to deal face to face, with those people who are having problems.

"Is this bill perfect? No. We admit that it's still a work in progress. We said to the Finance Committee just please move it on. We have a lot more time to work on it. As I said, our intentions are clear. And as I said, we have met extensively, extensively with consumers and with the banking industry. We urge your support."

Representative McKelvey rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. May I have the same ruling on a potential conflict that I raised earlier?" and the Chair ruled, "no conflict."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, very much. In strong support, again. First I'd like the words of the previous speaker adopted as if they were my own. And second is I would like to have all the Members look at what this bill is trying to do, and that's to fix the bifurcated system of Chapter 667 that has made a mockery of non-judicial foreclosures and has put homeowners at the most disadvantageous place I think, in the United States.

"This Body, this State has adopted a two track 667 system, Mr. Speaker, which allows the lender to unilaterally choose which track. And because of a poison pill in part two which contains the homeowner protections, the lenders choose part one, which provides no protection and also allows, Mr. Speaker, them to go after the homeowner in deficiency.

"The whole idea of non-judicial is that the lending institution gives up the right to not go after the personal assets of the family so they can rebuild their lives in exchange for using this system that takes it outside of the courts. They proverbially, can have their cake and eat it too.

"And with all due respect to my colleague from the North Shore, the system now is failing. The system now is driving down prices, Mr. Speaker. Just in the paper the other day, prices have depressed 11%. This situation is out of control.

"Not to mention in 667-34, Mr. Speaker, is a 30-day 'get out' clause which says that if you don't object to a non-judicial foreclosure within 30 days after it's concluded, it's presumed that the non-judicial foreclosure was completely done ethically and above law. If you have reasons of fraud or collusion or any of the things, you can no longer bring them, even though the statute of limitations for these kinds of actions is normally five years.

"A lot of the people who worked on this bill came from the lending institution, the real estate community and others. The system itself is broken. This bill seeks to fix the system so that the homeowners and the lenders have definite steps that if they are met then yes, as the speaker said from Kau, if that can't happen, then they will be allowed to non-judicially foreclose.

"But there's other things in this bill too. For instance having a central location of a non-judicial auction. That brings all the earnest buyers together in one place, Mr. Speaker, so that you can drive up the auction so that not only will the lender get the full value of the note, but there's a chance the homeowner might actually get equity out of it.

"That's the thing right now. There are no protections. If we want a strong mortgage market and to protect our homeowners, we can do this, but addressing that starts with 667, Mr. Speaker.

"Right now, Mr. Speaker, and I'll use my family as an example. Right now we have non-judicial foreclosures being issued by agents of these same entities foreclosing on people who don't even live on the property. They aren't on title, or aren't even on the note. Mr. Speaker, I've seen non-judicial foreclosures issued in the name of 'occupant'. How can occupant go to the court or how can occupant defend against that? Who is occupant? Who is occupant, Mr. Speaker? Nobody knows. You've got them foreclosing on occupant, on resident, on people who aren't even associated with the note or with the property itself.

"That's what the bill seeks to do. All the homeowners in the State of Hawaii want, Mr. Speaker, is to sit down face to face with one entity and just get a straight answer. Can we work something out or not?

"Let me use another example. You've got a homeowner paying the lender their monthly mortgage. They go ahead and they try to renegotiate their remodification with this lender and a third party comes in, Mr. Speaker, and forecloses.

"How is that fair to the homeowner? How does that create a system of fairness? Our capitalistic system, our economy is based upon good faith

and fairness. How can anybody negotiate if you've got third, fourth, fifth party entities coming in?

"What this bill seeks to do is to bind them all together with one voice and presence in the State of Hawaii so that the homeowner can simply sit down and say, can this work or not? And I think that this is a work in progress, but the overall aim isn't to destroy the mortgage market. It's not to scare away veritable lenders. It's to provide a system of fairness so both sides know that there are protections, there are steps, and if they are followed, then perhaps there can be a resolution.

"Because if our working people continue to lose their homes, continue to go through the stress of not getting a straight answer of these and third and fourth collateral foreclosures, Mr. Speaker, I've got files of information of stories that would break your heart."

Representative Choy rose to yield his time, and the Chair "so ordered."

Representative McKelvey continued, stating:

"That would break your heart, Mr. Speaker. The families are dealing with, and they're all the local people. Maybe it's because the local community has grown up with the idea of when you make an obligation, a note, that all you want to do is to be able to talk to that lender entity when times are tough to see if you can work things out.

"So Members, this is a work in progress, but the problem is real. And I invite you to walk through your districts because you will hear from other people too. This is a growing problem not only in the State of Hawaii, but nationally. And if we don't do something to address this Part 1 and Part 2 of Chapter 667, then what will happen is this will continue to go on, and on, and on, and erode any type of economic recovery. So again thank you, Mr. Speaker. And thank you Vice Chair, for your time."

Representative Pine rose to speak in support of the measure with reservations, stating:

"Yes, with support with some reservations. I would just like to say a couple of sentences. I really want to thank the Chair of CPC for taking the lead on this. It's a very complicated matter. But I also want to thank the Representative from North Shore. I think we should all heed his advice because he knows his business better than any of us. So as we move forward, I hope that we can all come together to accomplish the goals that the Representative from Maui was talking about. But we need to put all of our heads together to ensure we do this right."

Representative Awana rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I stand in strong support. I appreciate the comments made by the Representative from Maui and I ask that his comments be entered into the Journal as if they were my own. Thank you," and the Chair "so ordered." (By reference only.)

Representative Evans rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. I want the comments from the Representative from Kau, and also from Lahaina as my own in the Journal. And I wanted to just point out that I really came in this year to the Legislature knowing that if we didn't address mortgage foreclosures, we weren't doing our job.

"I know of three incidences, one that really disturbed me, when a woman told me that she went home one day and the new owners of her house were there at the front door saying, 'We bought your home on the court house steps in Hilo.' And she said, 'How can that be? I never got notified.' She had been calling and working with her bank.

"There was, I guess you call it, a new way of doing business with people and that is you call in. You get a person in Costa Rica, or the Philippines, or India, who would type in your loan number. It would pop up on a screen and they'd say, 'Okay why are you calling?' They would start down that process and they'd say, 'We'll get back to you in five days.' Five days would go by and then they would call two weeks later and, get a new

person on the phone. They would type in their number in the computer and they will tell them, 'Well this is what we saw you did. You contacted us, but we need to continue working.'

"And here's the bottom line of the conversation. They wanted to do loan modification and the people would say, can I make payments on my house even if they're partial payments. The answer was always given, no, because you're in loan modification. So they wouldn't make their payment. They'd call a month later and say, I want to make a payment because I'm getting nervous, and the answer would be, 'No. Because you're in loan modification.' So now four, five months go by and they'd call up and say, 'Well, what's my status?' and they said, 'Well we're foreclosing on you because you're behind in payments by x amount of thousands of dollars.'

"And so they would see me. I saw three people and they would just see me in the grocery store. One lost their house on the court house steps without even knowing. Of course they came to Honolulu and found some attorney. They went into lawsuit against the bank. But the other ones came to me in tears and I said, 'My best answer to you is call our US Senator Dan Inouye and tell his staff whose going to call the Bank of America or Wells Fargo and get to the president and say, What the heck's going on?' I actually found that was a little more successful because it did get some attention.

"But the thing is, we as legislators, and through our Representative from Kau who's taken the leadership, and I really thank him for this, we had to address this issue because it was harming way too many people and the miscommunication and the process was not working. And his bringing it to attention, getting their attention, is admirable and we cannot stop this Session without keeping their feet to the fire and addressing this issue. Thank you, Mr. Speaker."

Representative Pine rose to respond, stating:

"Yes, another comment with reservations. Mr. Speaker, I'm almost shocked. I thought all these stories only related to the people in my district, so I'm proposing, Mr. Speaker, because of the seriousness of the fraud that's going on to the people of Hawaii, that the final bill be retroactive when it refers to when fraud has taken place, so our constituents who have already lost their homes because of fraud and mistakes by the banks, they should be compensated."

Representative Riviere rose to disclose a potential conflict of interest, stating:

"Thank you. Before I go further I would like a ruling on a potential conflict. I'm a mortgage broker and have been for 20 years," and the Chair ruled, "no conflict."

Representative Riviere rose to respond, stating:

"Thank you. I do wish to be clear, and I do appreciate the work that the Chair of CPC, the Representative from Kau has done, and the other Members of this Body. I am not saying that there is not a problem here. There is a problem, and it needs to be fixed. What I am trying to share is that we have unintended consequences if we are not careful.

"So my comments on this bill relate to things such as a clause that says that the lender upon foreclosing, the beginning of foreclosure process, the lender will be responsible for maintaining the property. That's crazy. I don't know why that's in there. I mean this is what I'm saying. There are elements in this bill that should not be there and we have to be very, very careful.

"So that's what I'm saying. It needs to be fixed. I'm glad we're working on this. This bill is obviously going to go forward, but again, let's try to stick to what was agreed upon in the Mortgage Task Force as they are the ones that have put the maximum amount of thought into this one. Thank you."

Representative Herkes rose to respond, stating:

"Thank you. We have met extensively with the Chair and Vice-Chair of the Mortgage Task Force. We passed their bill out. We wanted to keep the title alive. We've adopted portions of their recommendations that we saw were appropriate.

"And let me just say another couple of things. When the Mortgage Task Force recommendation came out that said on your option, you can go from non-judicial to judicial. What that did was, it spooked Bank of America to the point that they thought, 'My god, if we actually passed that and they can't go into non-judicial,' and they flooded the market saying how many homes in Hawaii they could foreclose on before we passed that recommendation of the Task Force.

"Then when there were certain things that happened to other homes like when we passed the moratorium, that also sent a strong message to Bank of America. Bank of America has 62,000 loans in the State of Hawaii. And what they did when they bought Countrywide, they bought a whole bunch of junk, bad loans, and now they're just trying to dump them. But we've gotten their attention so they understand that we're serious and they are going to try to work these loans out.

"And again, it's a work in progress as far as maintaining a structure. If you take over the structure and it's vacant, maintain it. Don't let a whole bunch of squatters go into the house. We're trying to deal with all of these issues. Thank you, Members."

Representative Carroll rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Mr. Speaker, I'd like to have the words of the Representatives from Kau and from Lahaina to be inserted into the Journal as my own. And just a few comments, Mr. Speaker. Yes, as my colleague from Waimea said, if we did not address this issue, we did not do our job.

"As a Representative who represents three islands, I have seen so much devastation because of the foreclosures. Some of it has been because of the consequences of our economy and what took place in losing their jobs. But some of them were mistakes on the financial institution's part where some of my constituent's neighbors were getting foreclosure notices and they weren't even in a foreclosure. Or their homes were getting auctioned and they weren't even in a foreclosure.

"But I think the main point of what our Chair of CPC was trying to do was to address the concerns that were brought forward, not just to the Legislature, but also to the department as we heard the complaints and heard the concerns about truly helping those who want to be helped. Who have done everything possible like our foreclosure attorneys who testified and said, 'We're there to answer the calls, and we're there to do the modification.' Well that's not true. And even the person who represented DCCA in testifying, he also felt that there were concerns.

"So some of the things that are in the bill are truly to address the things that are workable and reasonable so that we can actually keep some of our people in their homes. Yes, it's not a perfect system, but the whole point is that we are addressing the concerns that we can address and hopefully, this draws attention to what took place across the nation so that more things can be improved.

"But I think the last comment I also want to make is that we need to look at those who are part of this MERS that took place on Wall Street. We need to look at the taxes that were never paid or due to the State as well. So there are many different levels of concern regarding what took place across the nation. Mr. Speaker, if I may I'd like to have permission to insert comments as well, in the Journal. Thank you."

Representative Carroll's written remarks are as follows:

"I am in strong support of HB 1411 HD2 as it will amend Hawaii's current home foreclosure laws by repealing the old non-judicial foreclosure process, as contained in Part I of Chapter 667 of the Hawaii Revised Statutes, and clarifies the new process, strengthens laws regarding mortgage servicers, broadens the duties of the Center for Alternative Dispute Resolution, adopts several recommendations of the Mortgage

Foreclosure Task Force, implements a comprehensive foreclosure mediation program, and imposes a mandatory foreclosure moratorium.

"We all have been affected or know someone that has been affected by the predatory lending practices of the financial institutions on the mainland. Our local homeowners that were targeted and are now in foreclosures are suffering unnecessary confusion, frustration, depression, and anger. There has been a lack of direct communication and unwillingness on the part of the financial institutions to work out a remedy or solution to the foreclosure process that will benefit the mortgagee. I strongly feel that this legislation will persuade the industry to assess the situation and come to the table to find a viable solution, be it via mediation, loan modifications, negotiations, a forgiveness process, or other effort to help keep our families in their homes. This piece of legislation will help many of our constituents being faced with evictions until further transparency, clarification, and solutions can be achieved."

Representative M. Oshiro rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in support of this measure. I'd like to adopt the words of the Representatives from the districts of Maui and Kau as my own. Mr. Speaker, before I came here to spend most of my time as a legislator, I had the privilege of working as a Legal Aid attorney and I specialized in the area of consumer protection, and in that regard I had the opportunity to do a lot of workouts on foreclosure issues with many of the local and national banks.

"So I really appreciate the discussion going on here regarding mortgage foreclosures and the loss of one's home. Nothing can be more painful or tragic to a family, than to lose your home, your very abode of which most of us would be just torn if we were to lose it. So I feel a great deal of empathy with the folks that are going through this process right now.

"What I find so astounding is that anyone would stand here and defend the Bank of America. A friend of mine listening in just reminded me that Bank of America was one of the first private banks to receive \$45 billion in TARP funds. That's the Troubled Asset Relief Program. These are moneys that came from taxpayers.

"It was done back in 2008 by former President Bush as a way of holding off a further catastrophic demise of our economic system in America, and possibly the world. Many private banks took advantage of this. They took advantage of the ability to use public moneys, taxpayer's moneys to salvage themselves and keep them afloat for much of the last two years.

"There's been some repayment, but it's quite astounding, Mr. Speaker, that even with the public largess to backstop these banks, that they continue to move forward and plow under, and plow through, and bury over the same taxpayers whose dollars have allowed them to be here today. And I think this is really a moral question and I hope that we can work on this bill as a work in progress.

"But at the end of the day, if you need to choose between the consumers, your constituents, the homeowners and the banks on Wall Street who took advantage of the taxpayers, and for-profit institutions, corporations that have no allegiance to the community or the people, we've got to side with the people, Mr. Speaker. Thank you."

Representative Ward rose and stated:

"Mr. Speaker, just a point of clarification. The previous speaker implied that someone stood up and I didn't hear who it was who said that they were defending the Bank of America. I didn't hear anybody say that, and I wasn't sure what he was referring to. But if it was, it should be stricken. Thank you."

The Chair addressed Representative Ward, stating:

"Representative Ward, you are out of order at this point."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1411, HD 2, entitled: "A BILL

FOR AN ACT RELATING TO MORTGAGE FORECLOSURES," passed Third Reading by a vote of 50 ayes to 1 no, with Representative Riviere voting no.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 920) recommending that H.B. No. 257, HD 1, as amended in HD 2, pass Third Reading.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.B. No. 257, HD 2, entitled: "A BILL FOR AN ACT RELATING TO CAMPAIGN SPENDING," passed Third Reading by a vote of 51 ayes.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 923) recommending that H.B. No. 809, HD 1, as amended in HD 2, pass Third Reading.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 809, HD 2, pass Third Reading, seconded by Representative Evans.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition to this measure. I guess my question to my colleagues is, are we sure we want to do this? Do we want to raise the TAT tax? Unbeknownst to me, even though we think that it's thriving and business couldn't be better in Hawaii, if you look at what's going on in the mainland, this market has basically fallen out from the bottom.

"And I quote from an article from the *Dow Jones Newsletter*. It says the dirty secret of the timeshare industry is that anybody who buys one of them has been a victim of aggressive sales seminar. But the interesting thing is that the article ends by saying, what used to be the high pressure sales seminars are now, you go into the seminar and they'll tell you how lousy the timeshare market is and how your children will be burdened. And for the rest of your life you're going to be paying off the high maintenance fees. For a fee of \$3,000 they'll take it off your hands. In other words, it used to be selling seminars and now it's where they want you to dump it.

"Marriott has gotten out of the industry on the mainland. The mainland timeshare industry is basically dead. Ours fortunately, because of our beautiful location, is alive.

"But Mr. Speaker, I just want to caution Members that if this is the trend, and all of you know what dinosaurs are. When there's a trend in an industry like butcher shops, and the Blockbusters, the video guys, the Beta guys. When you see that they're dying, you don't jump on top of them and kick them. You don't jump on top of them with taxes like this.

"So even though it's reasonably robust now, I would caution saying that this is going to be a visitor industry killer if we keep pushing it. Thank you."

Representative Morikawa rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition of this measure. I know we need to find revenue streams, but after Hurricane Iniki the hotel industry on Kauai was devastated due to the severe damages suffered. The development of timeshare units enabled the tourism business to flourish, which in turn lead to the growth in business and employment.

"I truly believe that the longer stays by timeshare owners benefit the islands and I'm not willing to risk supporting this tax increase which in turn may lead to selling off of units. The spending to other businesses on the island will make up more tax benefits in the long run. Thank you."

Representative Fontaine rose to speak in opposition to the measure, stating:

"Yes, Mr. Speaker, I rise in opposition to this measure as well. When we're talking about a hotel room, and we're talking about a timeshare unit,

it's like comparing apples to oranges. Timeshares are fractional ownership so the folks that buy these units actually pay maintenance fees as was mentioned earlier, but they also pay property tax. So in essence, if we're going to pass this and we're going to now apply a tax that was originally intended for a hotel room and now apply it to a fractional ownership unit under the guise of resort timeshare, I believe is really unfair. Thank you."

Representative Pine rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. Representative Say rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, I would like to have a ruling on a potential conflict. I'm an officer of a company that has leases on private property," and the Chair ruled, "no conflict."

Representative Hanohano rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Cabanilla rose to disclose a potential conflict of interest, stating:

"I would like to get a ruling on a possible conflict. I'm a lessee. I own residential properties that are on leased land," and the Chair ruled, "no conflict."

Representative Cabanilla continued to speak in support of the measure, stating:

"And in that respect I would like to speak in favor of the bill. Mr. Speaker, the majority of these residential properties are currently rented out as affordable rentals. It is estimated that by December 2012, approximately 18,000 residents will be displaced from these affordable rentals, as well as thousands more by the year 2018. It is presumed that once these rental units are surrendered to the lessor, they will become market rentals, or these residences will be demolished to make space for new buildings and all the current tenements will be displaced.

"Mr. Speaker, as your Chair of the Housing Committee I am very aware of the State's shortage of affordable rentals. I am very concerned that these displaced tenants will add to the growing problem of homelessness. We currently have over 7,000 unhoused homeless individuals in the State who are draining our limited State funding. Displacement of tenants from these leased lands will absolutely aggravate an already grave situation.

"I urge you, Mr. Speaker, and my colleagues to push this measure forward for further discussion and I hope that the landowners will come forward and become partners in finding solutions for increasing the supply of affordable housing and affordable rental units. Thank you, Mr. Speaker."

Representative Jordan rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Fontaine rose to speak in opposition to the measure, stating:

"Yes, Mr. Speaker. I rise in opposition. I have a compassionate heart. I understand that this is only applying to residential properties. But at the same token the whole notion of forcing a landowner to sell his property, I question whether that's even constitutional. I agree that we need to sit down with the landowners and try to work out some sort of compromise, but this in essence would be a vehicle for that. And I think that the private property owners need to be able to develop their property and use it as they see fit. I do not believe that the government should be stepping in and interfering with the process of private landownership. Thank you."

Representative Johanson rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Johanson's written remarks are as follows:

"I rise with reservations on this particular bill. I do not believe property owners should have their property rights dictated to them or changed by government after they have purchased their property. However, I do recognize this bill's intent to try and help mitigate awkward situations that arise when lessees would like to extend their lease. I also have reservations about the amount of influence that an arbitrator would have if disputes were to arise."

Representative Belatti rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ching rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Riviere rose to speak in opposition to the measure, stating:

"I rise in opposition. This bill would force a landowner – and the key word here is landowner; the person who owns the land – to engage in renegotiating with the tenant within ten years of the expiration of the lease. While that can be positive and can provide some continuity and certainty for folks as their lease draws near, by contract, when a lease expires, it expires. If you have a tenant renting your house and the rent expires, you have a right to renegotiate that rent. It's called ownership.

This is a terrible bill. The idea again, is well intentioned, but the impact is terrible because it's going to force the landowner to negotiate with the person renting. And if they can't agree, then the landowner has to sell the land. Where's the fairness in that?

"And not to belabor the point, but I've got to stand up for what I believe in. I hope you can all appreciate that. This is not a good bill. I'm voting no."

Representative Hashem rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Awana rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The House of Representatives reconvene at 4:14 o'clock p.m.

"Yes, I'd like to vote with reservations, please. And a couple comments. I have concerns that this bill could impact traditional and customary practices as recognized in the State Constitution and reaffirmed by the PASH decision. Thank you."

Representative Hanohano rose in support of the measure with reservations and asked that the remarks of Representative Jordan be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 227, HD 2, entitled: "A BILL FOR AN ACT RELATING TO TRESPASS," passed Third Reading by a vote of 50 ayes, with Representative Takumi being excused.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.B. No. 1230, HD 2, entitled: "A BILL FOR AN ACT RELATING TO BUILDING PERMITS," passed Third Reading by a vote of 50 ayes, with Representative Takumi being excused.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 117, HD 2, pass Third Reading, seconded by Representative Evans.

Representative Thielen rose to speak in support of the measure with reservations, stating:

"Thank you. On Stand. Com. Rep. No. 937, Mr. Speaker. With reservations and few comments. Thank you. The purpose of this special management area permit is to protect our coastal resources from potential impacts due to development.

"The bill was amended, but I don't think it was amended in a way in the Judiciary Committee that is really going to help preserve our special management areas, our coastal resources. The bill was amended to say, if you're building a residence that's 10,000 square feet or larger, then you're going to have to get an SMA permit. Well actually if you build a 5,000 square feet home on a coastal or beachfront area, it could be very damaging and that would be exempt from the SMA process.

"The other thing was that it's a little bit unclear if there is the dollar criteria that is still applying. And it really isn't so if you have a no dollar figure, then you have a decision maker that's going to have to determine whether or not there would be any substantial adverse impact even if the residences is going to cost \$50, \$75, or \$100,000. So that could lead to a lot of uncertainty and it could lead to some litigation.

"The better way was suggested by a person from Maui who had extensive experience with land use. I'm not sure if he was in the county government, but he said that we should make it a requirement that every beachfront or coastal front home has to have a SMA permit. And that makes a lot of sense when you stop to think of it.

"Because you could have a small residence perched up on a cliff overlooking the water, and that could have very damaging kinds of impacts to the water and to the coastal area by a relatively small-sized home that is not that costly. But if we really want to preserve our coastal resources, then every beach or oceanfront home should be required to have an SMA permit. That's the better way to go.

"So I'm hoping that as the bill moves forward to the Senate, I believe this gentleman will testify over there and I hope that our side will be receptive to the changes that would say, 'You build oceanfront, you build beachfront, you have to go through an SMA permit because we want to protect our coastal resources.' Thank you."

Representative Wooley rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative C. Lee rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Thielen rose to respond, stating:

"Thank you, Mr. Speaker. I'd also like to just note that this is one of the three bills that the Sierra Club opposes in its current form. And I think we can correct it on the Senate side, but I would hope that Members would show their reservations and read what the Sierra Club had said. Thank you."

Representative Marumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker. Stand. Com. Rep. No. 938 is the one that is the second bill relating to trespass that I should refer to. And hopefully the same language of being against the bill having it as anti-First Amendment. And the media's very concerned. If anything, it distracts from what we're doing in another bill that basically takes away the sunset on the media shield. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 548, HD 3, entitled: "A BILL FOR AN ACT RELATING TO TRESPASS," passed Third Reading by a vote of 48 ayes to 2 noes, with Representatives Belatti and Ward voting no, and with Representative Takumi being excused.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1407, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Fontaine rose to speak in opposition to the measure, stating:

"Yes, Mr. Speaker. I rise in opposition to this measure. One of the things as a legislator is it is our responsibility to protect the interest of third parties. Many women that put up their child for adoption do so with the understanding that their identities will be kept private and they will not be contacted.

"Aside from corrupting that understanding and requiring these women to reapply for their privacy every ten years is yet another deterrent to the practice of adoption. This bill jeopardizes the security and privacy of women who have decided not to have an abortion.

"Furthermore this bill subjects these women to extensive inconveniences and emotional discomfort by requiring that they relive the experience of giving up a child each subsequent time that they must reapply for their privacy. As the bill stands right now it's every ten years.

"It's a concern of mine that the new provision set forth in this bill may prevent some women from going the adoption route. They may feel forced

to take the abortion route because of the privacy issue. It's for these reasons, Mr. Speaker, that I respectfully oppose this measure. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I also rise in opposition to the measure with a very brief comment. Privacy is privacy. Privacy is privacy whether it's afforded to those who choose to adopt-out their child, or should be afforded to those who choose to abort the child. It's a matter of parity of privacy. It's as simple as that. Thank you."

Representative Awana rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Yamane rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Aquino rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative McKelvey rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations. Real quick, I was in opposition to this bill in the form it arrived in, in Judiciary. However, I'm going with reservations because I believe that the Judiciary Chair has worked hard to address the concerns of those in opposition. So I'm still with reservations, but I think we need to allow him to continue his work with the groups that were opposed to this bill. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1407, HD 1, entitled: "A BILL FOR AN ACT RELATING TO ADOPTION RECORDS," passed Third Reading by a vote of 43 ayes to 8 noes, with Representatives Fontaine, Har, Johanson, Marumoto, Pine, Riviere, Thielen and Ward voting no.

THIRD READING

H.B. No. 1637, HD 1:

Representative B. Oshiro moved that H.B. No. 1637, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Brower rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations. Mr. Speaker, the Hawaii State tree is the candlenut tree, *Aleurites Moluccana*, also known as the *kukui* tree. To my recollection, Hawaii is the only state with a State tree that isn't native to its environment. The *kukui*'s origins are hard to trace, but it is likely native to Malaysia and parts of Polynesia, but not the Aloha State. We should re-think the *kukui* tree as our State Heritage Tree.

"Prior to statehood, the official tree of the territory of Hawaii, was the *Cocos Nucifera* a member of the palm family also known as the coconut tree. The *Cocos Nucifera* was never given the chance to serve as our State's true symbol as a tropical destination. This bill should be about the coconut tree. Or better yet, a better choice for the native tree would be the *Acacia Koa*, a species of flowering tree in the pea family, endemic to the Hawaiian Islands, where it is the second most common tree. Its name in the Hawaiian language, *koa*, means brave, bold, fearless, or warrior.

"The *koa*'s trunk was used by ancient Hawaiians to build *wa'a*, outrigger canoes and *papa he'e nalu*, surfboards. *Koa* is also a tone-wood often used in the construction of *ukulele* and acoustic guitars. The *Acacia Koa* is the largest native tree to Hawaii, known to be a premier timber, and one of the most expensive in the world.

"Summarizing, Mr. Speaker. I am in reservations with the *kukui* tree, *Aleurites Moluccana* as the State Heritage Tree and the *Ohia Lehua*, *Metrosideros Polymorpha* as the State Tree. Thank you."

Representative Wooley rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I first just want to clarify that the *ohia* is the most common native endemic tree, and the *kukui* is controversial. It's not clear whether it was introduced or if it was indigenous, but it is not endemic, which means it's found in other places.

"The coconut tree originated either in India, Indonesia, or Egypt. It is not clear which, but it was brought to the Hawaiian Island. I suggest that if the former speaker is concerned about the coconut tree, then maybe we can adopt something to reflect the tree that was imported for food. And may I please insert written comments. Thank you, Mr. Speaker."

Representative Wooley's written remarks are as follows:

"I am happy to support this bill and very impressed to see the Representative from Waimanalo work so hard to pass a bill that his community asked for. This bill, if it becomes law, will have only positive educational benefits for locals and tourists alike. Hawaii's unique trees should always be revered and recognized, for their ecological and historical contributions to the people of Hawaii. This simple bill will promote the proper appreciation for the *'ohia lehua* and *kukui* trees. Mahalo to the Representative from Waimanalo for all his work."

Representative Pine rose to speak in support of the measure with reservations, stating:

"Yes, Mr. Speaker. In support with some reservations. While I find it personally disconcerting that we are discussing a tree on the House Floor, I do want to support the bill because obviously this was very important to somebody in this Body. I just wanted to note for the Members that while the Member of Waikiki's family is technically not all native to the State of Hawaii, we do welcome him with open arms as a local boy and a native today."

Representative Brower rose to disclose a potential conflict of interest, stating:

"'Ae, Ho'malu 'Olelo, reservations, kane Speaker. 'A 'ala ke koa maoli ... koa tree ono kanaka maoli, kukui tree malihini. Representative, malama, Lanikai, hapa-haole, pake, lolo mahalo."

Representative Brower provided the following translation:

With reservations, Mr. Speaker. Smells good, *koa*, native born, *koa* tree native, *kukui* tree foreigner. Representative from Lanikai is without color and well intentioned.

Representative Ching rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Actually I had not thought about surmising on this measure, but in support. I thought I would just lend my own opinion. The *kukui* nut I guess, may not perhaps be, if it's controversially said indigenous to Hawaii, but the *kukui* nut has symbolized enlightenment.

"Enlightenment to our *alii* because of the candle nut's nature, it provides light and so it provides something very important in fact. It is my understanding that years ago, when I served a Member of this Body, that the *kukui* nut was oftentimes revered by people of chiefly status to remind them of who they served, the heavens, to do righteousness. And I know Price Kuhio was famous for his *kukui* nut. It became something that was famous. If you go ahead to the Queen Emma Summer Palace, you'll see some really beautiful *kukui* nut lei.

"And *ohia lehua*. Now that has a wonderful myth to it as well, symbolizing of course the love and devotion to people. So those are values of enlightenment and love, and I think those are wonderful, but of course that being said, although I am, I'd like to think I'm a *kamaaina*, I defer this to the Hawaiian Caucus. I'm sure that they have the best input of what it means to them.

"But I would like to hope that when we think of things that represent our people, that we want to take the highest and best use. To me it's never really been so much whether somebody, it's the meaning of what it stands for. The symbolism for our children that we want to tell them something by what we choose as our tree. Thank you."

Representative McKelvey rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. I have a potential conflict. I'm growing a couple of *kukui* trees in my yard," and the Chair ruled, "no conflict."

Representative McKelvey continued to speak in support of the measure, stating:

"Thank you, very much. In that case, I am in strong support and would like words of the speaker from Liliha entered into the record as if they were my own. 'Olelo Hawaii."

Representative C. Lee rose to speak in support of the measure, stating:

"In support. I'm almost not sure of what to say, but we have a budget to balance so perhaps we can move on."

Representative Fontaine rose to speak in opposition to the measure, stating:

"Yes, Mr. Speaker. I'm in opposition to this measure. I'd like to thank the Judiciary Chair for putting back some of the more heinous crimes in the repeat offender status like electronic enticement of a child. This bill still leaves out other crimes that should also be included, mainly: robbery, unauthorized control of propelled motor vehicle, burglary, and property crimes that were left out.

"In my dealings as a police officer over the last 25 years, this is a stop-gap to the revolving door of people who go out, offend, go in, come back out, re-offend, and it's a constant cycle. It's a real pain for our local law enforcement having to deal with these individuals, and at some point we just need to lock them up and get them out of our society for a while so that we can help them, try to rehabilitate them, and change their career-criminal path. So I'd like to have you consider this while we're considering this measure. Thank you."

Representative Pine rose in opposition to the measure and asked that the remarks of Representative Fontaine be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

H.B. No. 805:

Representative B. Oshiro moved that H.B. No. 805, pass Third Reading, seconded by Representative Evans.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, brief comments in opposition, please. Mr. Speaker, I've long contended that Hawaii has lived off of its good looks for too long and we've got to start using our brains. This is a bill that encourages Hawaii to use its brain through the high-technology industry. But yet it's a

discouragement because we're going to take away the incentives by taking away the tax credit. Thank you."

Representative Choy rose to speak in support of the measure, stating:

"On HB 805, Stand. Com. Rep. No. 655, I'm in strong support of this bill. This is a remnant of the Act 221 experience. We can no longer afford this credit so it's timely that we get rid of it right now. Thank you."

Representative M. Oshiro rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. The Department of Taxation supports the repeal of this generous exemption for qualified high-technology businesses. Businesses that are profitable and can pay dividends should also be responsible for paying tax on those profits.

"In addition, the Department points out that the definition of a qualified high-technology business that would apply, does not require that these businesses have any percentage of their activities in Hawaii. In other words, they could be foreign or out of state. The revenue impact of this bill is approximately \$2.5 million. Thank you."

The motion was put to vote by the Chair and carried, and H.B. No. 805, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," passed Third Reading by a vote of 48 ayes to 3 noes, with Representatives Ching, Thielen and Ward voting no.

H.B. No. 808, HD 1:

Representative B. Oshiro moved that H.B. No. 808, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Thielen rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I'm rising to cast a no vote and say a few words. Thank you. Yes, it's another of the three measures that Sierra Club is opposing. And they have very good reasons for doing this. The Land Conservation Fund preserves our pristine environmentally sensitive lands.

"There's not a huge amount of money in that Fund so it's not really going to help the general fund that much by putting that money there, but what it does do is it would allow us in a time when real estate is somewhat in a depressed state, we could be able to acquire some of these sensitive lands. We're not at the height like we were at other times. We're at a time when some landowners would be willing to sell at a reduced rate. So the money should stay in that Fund so we can acquire those lands. Thank you."

Representative Nakashima rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Nakashima's written remarks are as follows:

"Mr. Speaker, I have grave concerns regarding the temporary suspension of the Conveyance Tax to the Land Conservation Fund. This Fund allows for the purchase and preservation of valuable and significant property throughout the State and represents a small investment in the future preservation of these valuable land resources."

Representative Hanohano rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Wooley rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Morita rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Belatti rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and H.B. No. 808, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE CONVEYANCE TAX," passed Third Reading by a vote of 44 ayes to 7 noes, with Representatives Brower, Ching, C. Lee, Riviere, Takumi, Thielen and Wooley voting no.

H.B. No. 840, HD 1:

Representative B. Oshiro moved that H.B. No. 840, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Say rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, I would like a ruling on a potential conflict. I'm an importer of wine," and the Chair ruled, "no conflict."

Representative Morikawa rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Pine rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition and just a few comments. Mr. Speaker, what this bill does is it increases the liquor rate by 20%. It reduces the liquor tax rate on the first 60,000 barrels produced in a small brewery, but many of the breweries said that the increase of the liquor tax by 20% would more than hurt their business.

"Mr. Speaker, I don't drink that much, but I do know that our top income part of our economy is the tourism industry. And within the tourism industry you have many hotels, and you have many restaurants and bars. And part of the tourism industry takes part in drinking alcohol. People are on vacation and they want to have a beer or two. But a lot of people that are coming here are like many other places around the world and especially in America. They still want to go on vacations, but they have less money to spend. And we are so grateful that they're still coming here, but they're spending less.

"What this would do in my opinion is it would hurt the tourism industry. Sure they'll pay the extra 20% tax, but that means they now have less money to mainly go down the street to the ABC Store, or even go to a restaurant and instead they might go to a Foodland and buy their beer there instead of at the restaurant. And that would then lower the sales of the restaurant. That would mean that the restaurant will have to lay off workers. And so there is a big trickle effect that will happen with this increase of this tax."

Representative Johanson rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Johanson's written remarks are as follows:

"Mr. Speaker, I would like to rise in opposition to this measure. As I've stated on other measures before us today, I recognize the fiscal situation our State is in and I understand it our duty as legislators to look for solutions to reduce our budget gap. However, this particular tax will disproportionately affect many of our local businesses, including restaurants and establishments that are a critical sector of our tourism industry. I also worry that we establish negative precedents for our economy in general by targeting specific industries for tax increases.

"As Hawaii seeks to achieve not only economic recovery, but also economic growth, we must be careful not to pursue tax increases that compromise those ends."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. On the same measure, I stand in support. I would like to have the Members look at the increases that the Finance Committee did. For instance, on per wine gallon on draft beer, it goes from 53 cents, to 54 cents. One penny. And from 92 cents, to 93 cents per wine gallon on beer. So I think the Finance Committee did a good job on trying to balance the concerns of the industry with the deficit situation.

"Also I would like to note that by including Part II which is adopted from Alaska and 15 other states, we're providing our local companies with the ability to be able to produce, grow, and expand and become price competitive with mainland imports.

"So again, this is one of the many measures that we're moving forward to address the budget deficit situation, but I think what the Finance Committee did was to be very prudent with the increases. And by keeping Part II, they are going to support our local industry so they can be competitive with mainland imports. Thank you, very much."

Representative Evans rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. I would like the words from the Representative from Lahaina as my own. And I also note that this could end up definitely being price competitive because there are a lot of different brands of alcohol, different ranges of prices. I think that people that want to drink, maybe they'll buy a cheaper brand. But maybe in the end, they will make it competitive. I do not believe this will stop people from buying alcohol when they're on vacation. Thank you."

Representative Choy rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. The interesting thing about industry trends, and this is in support and rebuttal too. Tourism trends are, when we had our COR briefing, the economists were so proud that the trend in tourism which is showing a great increase right now, was predicted in 2007. So they predicted our downfall, and they predicted our upturn.

"Now you know if in 2008 and 2009 we raised the TAT. That increase in TAT had nothing to do with the tourism trend. I believe this increase in liquor taxes with have no effect on tourism. Thank you."

Representative C. Lee rose to speak in support of the measure, stating:

"Thank you. I just wanted to rise in support very briefly and follow up with comments from the Representative from Maui. There are a lot of exaggerated numbers that have been floating around regarding this bill in Finance Committee. We heard testimony that the \$3.00 increase on a gallon of wine would lead retailers to increase the same gallon by \$97, which is a bit ridiculous and cannot really be substantiated. So read the bill and focus on the facts. Thank you, very much."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. Just a brief historical note. It's widely known that during the depression in the '30s the two businesses that thrived were taverns and movie theaters. Taverns because people wanted to drown their sorrows. I mean, it's already ten bucks for a glass of wine in Waikiki. What is this going to do? It's not that the people are sad in Waikiki, but there are people who are sad who've lost their jobs in Hawaii. And I'm not saying we're going to repeat what was in the '30s, but the point is this is not a time for those who are down, to jump on top of them. That's the point. Thank you."

Representative Pine rose to respond, stating:

"Yes, just in rebuttal, Mr. Speaker. Because I did read the bill very thoroughly and I have been analyzing our tourism numbers. I do analyze a lot of pieces of legislation and their effects when we do raise taxes. And many economists will say that when you do raise taxes, people will spend less on a particular product because they only have so much disposable income to spend. That is a given fact.

"If I make \$10 a day, you can increase all the taxes you want. But I can only spend \$10 a day. You're just sticking it to me a little more, and taking more for yourself. I don't believe there's any economist that will say that raising taxes on any parts of the tourism industry is not going to have an effect on jobs, especially if people are spending less and then restaurants will have to lay off people. This tax does affect them, Mr. Speaker."

Representative M. Lee rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I rise in support of HB 840 HD1 regarding liquor. The purpose of this bill is to increase liquor tax rates, and reduce the liquor tax rate on the first sixty thousand barrels produced in a small brewer or brewpub.

"The tax on alcoholic beverages is part of a plan to balance the budget which is reasonable and serves a dual purpose of decreasing consumption in some areas, as well as producing revenue. The Finance Committee

amended the original bill by increasing the various liquor tax rates, and by changing the proposed increase on various liquor taxes from 50% to 20%.

"This will be an important addition to our efforts to restore some vital government functions."

The motion was put to vote by the Chair and carried, and H.B. No. 840, HD 1, entitled: "A BILL FOR AN ACT RELATING TO LIQUOR," passed Third Reading by a vote of 45 ayes to 6 noes, with Representatives Brower, Fontaine, Johanson, Marumoto, Pine and Ward voting no.

H.B. No. 564, HD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, H.B. No. 564, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE EMERGENCY AND BUDGET RESERVE FUND," passed Third Reading by a vote of 51 ayes.

H.B. No. 795, HD 1:

Representative B. Oshiro moved that H.B. No. 795, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Hanohano rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Fontaine rose to speak in opposition to the measure, stating:

"Yes, Mr. Speaker. I'm opposed to this measure. I can speak for Maui County. We rely on the Transient Accommodations Tax to fund all of our special services and projects and I'm sure that's the case in the other counties as well. I think that if there is additional tax that is taken, that those counties should be able to enjoy that additional funding to be able to bring back some of the services that have been cut back.

"Our only other option is to start raising property taxes in my county and that would be devastating for the people who live there. So I'm opposed to this. Thank you."

Representative McKelvey rose to speak in support of the measure with reservations, stating:

"Thank you very much, Mr. Speaker. I stand in support but I do have reservations. The reason why I'm standing with reservations and I'm not opposed to this is because this is not a raid, and I will fight tooth and nail to oppose a raid. However, I think this is a fair compromise to move the discussion forward on capping the TAT distribution at 2010 levels, and then any excess would go back to the State.

"The issues the counties have had with a raid, besides what the Representative from South Maui has talked about, the biggest reason is it blows a hole in their own budget-making process. If by capping it at 2010 levels they know how much money they have, then that gives them the ability to move forward on their budget.

"I'll wait to see how this progresses. However I think one of the unintended possible beneficial consequences of this measure is this would incentivize Hawaii Tourism Authority to market the Neighbor Islands more aggressively so they can increase the TAT income to the Neighbor Islands which will then in turn help the State as far as marketing goes and other issues. Thank you, very much."

The motion was put to vote by the Chair and carried, and H.B. No. 795, HD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," passed Third Reading by a vote of 48 ayes to 3 noes, with Representatives Belatti, Fontaine and Pine voting no.

H.B. No. 1267, HD 1:

Representative B. Oshiro moved that H.B. No. 1267, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Thielen rose to speak in opposition to the measure, stating:

"Thank you. I'm rising to speak against the bill, Mr. Speaker. This bill will take the Tobacco Settlement Funds away from tobacco prevention. I'm not sure and I would think Members would be aware, but maybe they aren't, that in the last decade because of using these settlement funds for tobacco prevention, that we've had a 50% reduction in teen smoking. That's huge. That's just huge and it's a dramatic figure. It means that the teens are more healthy and they aren't addicted to tobacco products.

"The other thing is that we have one of the lowest adult smoking rates in the nation. Those are things of which to be proud. What we are fighting is a big tobacco industry though, and they spend about \$42 million a year in Hawaii trying to get our kids to smoke and trying to get adults to smoke.

"So if we don't have the tobacco prevention money in there working to go against that tobacco industry, we're going to really fall back and you're going to see youngsters smoking again and adults getting hooked on it too. Thank you."

Representative Wooley rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative B. Oshiro rose to disclose a potential conflict of interest, stating:

"May I have a ruling on a potential conflict. At my law firm I do legal work for the Coalition for Tobacco Free Hawaii," and the Chair ruled, "no conflict."

Representative C. Lee rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Marumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Cullen rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Takai rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Takai's written remarks are as follows:

"Mr. Speaker, I rise in opposition to this measure. The intent of this bill is to divert funds currently targeted for tobacco prevention, control and cessation programs to cover Medicaid costs to the State. The end result, however, would be a likely increase in Medicaid costs to the State due to increases in tobacco-related illnesses and lost productivity.

"It would, in effect, be mortgaging the future health of the State and leaving taxpayers to cover future tobacco-related costs (which now total over a half-billion dollars per year) instead of remaining committed to reducing those costs.

"It would also likely result in burdening Hawaii taxpayers by further subsidizing the profits of the tobacco industry. The limited funds that the State currently invests in health, and in preventing unhealthy lifestyles, pay off in enormous returns in savings to the State.

"According to a study done by Penn State last year, the annual direct costs to Hawaii's economy attributable to smoking alone are estimated to be in excess of \$1.1 billion, including workplace productivity losses of \$215 million, premature death losses of \$449 million, and direct medical expenditures of \$444 million.

"The Centers for Disease Prevention and Control estimates that in Hawaii, 62% of those on Medicaid smoke. Tobacco still remains Hawai'i still has over 150,000 adult smokers throughout the State.

"And more than 1,000 Hawai'i youth become daily smokers each year. Smoking costs us an estimated \$336 million dollars per year in smoking-related health care costs, \$117 million of which is attributed to Medicaid.

"This is despite the enormous progress the State's tobacco prevention, control and cessation programs have made since the inception of the special fund in reducing teen smoking by half to less than 10%, and reducing adult smoking from approximately 25% to approximately 15%.

"Unfortunately, even if proposed funding cuts to these prevention programs were to be eventually restored when the economy improves, it would take years to restore the infrastructure of programs that have been created to address these vital health issues.

"Tobacco use remains the leading preventable cause of death in our State and in the country, and a leading risk factor for heart disease and stroke.

"The U.S. Centers for Disease Control (CDC) recommends that Hawaii needs to invest a minimum of \$15.2 million each year to fund a fully effective, comprehensive tobacco control program.

"The most that Hawaii has invested since the Tobacco Prevention and Control Trust Fund was established was approximately \$8 million.

With the passage of the bill to create the Tobacco Fund in 1999, this Body made the decision to save lives, save money and improve overall public health. The bill would have a positive impact on every resident of Hawaii, especially our children.

At the time, Hawaii was poised to become one of only five states to make a commitment to fund tobacco prevention programs beyond a minimal level, placing itself on the map as one of the National's leaders in terms of public health and education.

Representative Takai, House Journal 1999

"At the same time, according to the Federal Trade Commission, the tobacco companies spend approximately \$42 million each year toward marketing and advertising their deadly products in Hawaii to addict another generation of nicotine users.

"Allocations to the Tobacco Prevention and Control Trust Fund were halved from 25% of annual Tobacco Settlement Funds received by Hawaii to only 12% in 2001 following the 9/11 attacks to pay for construction of the new University of Hawaii medical school.

"At that time, the intent was to build the medical school and then return any moneys in excess of that needed for the construction to the Tobacco Settlement Fund, with the returned funds being allocated 80% to the "rainy day fund" and 20% to the "Tobacco Prevention Fund."

"Since then, allocations to the Trust Fund were cut in half again so that currently only 6% of the Settlement Funds actually fund tobacco prevention, cessation and control programs.

"The Tobacco Fund was never designed to be used as an emergency and budget reserve fund. I would like to remind this Body of the words of Health Chair Alex Santiago back in 1999 regarding the creation of the Tobacco Fund:

Mr. Speaker, if all goes as planned, someday when we look back on all the issues and measures I have had the privilege of being involved with, this measure, I believe, will be one of those I will remember as being significant and very important with the resulting efforts to many individuals. I want to thank you Mr. Speaker, for giving me this opportunity to manage and be involved with this measure.

Representative Santiago, House Journal 1999

"The structure of the Master Settlement Agreement payments from the tobacco industry to the State is based on national smoking rates.

"As smokers die, and tobacco-control efforts continue to successfully wean current tobacco users off their addiction and prevent new smokers

from starting, payments from the industry to the State will drop, thus making those payments an unstable source of operating income for the state.

"Tobacco settlement funds should be used to help those who are affected directly by tobacco addiction and tobacco industry marketing. The work of tobacco-dependence treatment and prevention programs is not over. Thank you."

Representative Awana rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative M. Lee rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I rise in support of HB 1267 regarding health care. This bill, as amended, redirects for 2 fiscal years the portion of Tobacco Settlement Fund monies from the Emergency and Budget Reserve Fund and the Tobacco Prevention and Control Trust Fund to the General Fund.

"It also transfers \$25 million from the Tobacco Prevention and Control Trust Fund to the General Fund.

"Through these actions proper funding of costs associated with Medicaid and other health services will be accomplished. The bill also provides funds for healthcare infrastructure (on line medical records) and preschool open doors, court substance abuse programs, matching funds for the Federal disproportionate share and funds for Kupuna Care.

"Although the Tobacco funds are being transferred, and there are concerns related to untraditional uses, our financial situation requires flexibility. \$30 million remains in the coffers of the Hawaii Community Foundation and these monies would be well used if directed towards prevention programs."

Representative Chong rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Chong's written remarks are as follows:

"Mr. Speaker, I stand in support. This bill helps to ensure core services such as Medicaid, education, *kupuna* care, State hospitals and other programs. I agree that the tobacco programs presently funded are important. This bill does end those programs. It ensures that we can keep our core health and human service programs. Mahalo."

Representative M. Oshiro rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Oshiro's written remarks are as follows:

"Mr. Speaker, I rise in support of House Bill No. 1267, House Draft 1, Relating to Health Care.

"This bill appropriates funds to ensure the continuance of vital health programs and core services to meet the needs of the public. This bill also assists the Legislature's efforts to balance the budget by making targeted appropriations to redirect into the general fund.

"I support the intent and purpose of the bill as a critical optimization of funds. During these times of economic hardship, the ability to maintain core programs while being fiscally far-sighted calls for creative thinking and problem-solving; this bill does both.

"Based on projected distribution of funds from the Hawaii Tobacco Master Settlement Agreement, this bill will redirect an estimated \$20.2M into the general fund for FY12 & FY13. This bill further assists our efforts by appropriating \$25M of the Hawaii Tobacco Prevention & Control Trust Fund to be deposited to the credit of the general fund. Such shifts are critical as we stare down a \$988M budget deficit.

"Though we face tough economic times, we must lead the State of Hawaii toward a successful future, and to do so is to focus on the most essential sectors and services affecting our people. I appreciate this opportunity to expound on the ways this bill supports core services in the areas of health, education, higher education, and human services.

"Over the years, Hawaii's healthcare costs have ascended to unfathomable levels. As a result, hospitals with high Medicaid levels and high charity care suffer significant financial losses. This year, Hawaii Health Systems Corporation reported that Medicaid/QUEST payments to its member hospitals on average cover only 59% of the care and services delivered, which thus translated to an approximate loss of \$47.1M in fiscal year 2010. Other hospitals have reported similarly significant losses.

"To meet major healthcare needs, this bill temporarily repurposes \$10M of the Hawaii Tobacco Settlement Special Fund to address rising Medicaid costs. This bill also supports the efforts of Hawaii Health Systems Corporation and its member hospitals with \$5M of the Tobacco Trust Fund dedicated to covering comprehensive healthcare costs. By providing these new funding options, the State of Hawaii proves its dedication to addressing health disparities statewide and maintaining access to care for our populations of greatest need.

"The impact of this bill is further bolstered by making a critical appropriation to match and release the federal disproportionate share hospital allowance allocated to the State. Without this matching appropriation, the State will miss an opportunity to garner federal funding needed to provide health care to our people.

"This bill also supports Hawaii's current and future health needs by maintaining the appropriation made for the John A. Burns School of Medicine. In addition to addressing Hawaii's current shortage of 644 physicians and a projected shortage of 1,200 physicians, this bill also gives credence to the importance of higher education and professional training in our islands.

"Furthering this bill's impact on our education system is a general revenue appropriation made for the Preschool Open Doors Program, which prepares students for Kindergarten by teaching social and cognitive skills. With priority given to high-need children not enrolled by the DOE for preschool, this program is an essential launch pad for life.

"Mr. Speaker, the Department of Human Services has the honorable task of providing core services and programs to our people. This bill will assist the Department's efforts by appropriating funds for the revitalization and implementation of important systems, including an electronic health records program. In this digital age, these systematic changes are critical for the efficacy of the Department.

"Lastly, this bill appropriates funding for Kupuna Care, a program which provides our kupuna various services needed to remain in the community and to live a dignified life. With a substantial aging population, it behooves us to fund Kupuna Care not only for the sake of taking care of our elderly, but for the estimated \$1.4B of medical costs saved due to the program.

"Mr. Speaker, as your Finance Chair, I understand that these dynamic fiscal shifts may be unpalatable to special interest groups and organizations focused on the acquisition of funding to fulfill just that: special interests. I send a gentle reminder that our most important interest must always be with the people of Hawaii.

"For these aforementioned reasons, I stand in support of this measure."

The motion was put to vote by the Chair and carried, and H.B. No. 575, HD 1, entitled: "A BILL FOR AN ACT RELATING TO SALARIES," passed Third Reading by a vote of 50 ayes to 1 no, with Representative Souki voting no.

H.B. No. 853, HD 1:

Representative B. Oshiro moved that H.B. No. 853, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise with consternation and reservations. This bill has come a long way. It has gone from being a state bank with our Governor as the chairman of the board and with his political appointees as the board of directors, where now it is a task force and I'm very pleased that it has changed. And I should admit I've come a long way because I voted no with reservations in the Finance Committee, and I'm speaking now with just reservations.

"The problem I have with the bill is that first, our brothers in North Dakota, that is our role model who 99 years ago set up a state bank, and now we 99 years later we see that as something we can emulate. But, Mr. Speaker, as I indicated earlier, let's look at the track record.

"How have we done as an entrepreneurial state? We have 13 hospitals which we run. We are the CEO. We are the ones who run this. And Mr. Speaker, as we all know, we lose about \$50 million a year. I mentioned earlier the Aloha Tower, which is in deep trouble. HCDC I don't think, is a cash cow.

"So what makes us think that we will be able to, number one get into this, and then again make any money? And I know that's the reasons why we have a task force. But I would ask this Body to remember that even though it's getting late, that earlier today we had a bill. It was HB No. 1284 and the Chair of Finance said the exact reason why we need a state bank is because of the agricultural loans. That was exactly the reason why the Chairman of Agriculture came to the Finance Committee and said we have farmers who need money, and that's why we passed the bill earlier to give more money, less expensive and more, without barriers for our farmers.

"So Mr. Speaker, I would ask the Committees as this goes along to remember, it's all about farmers. And to remember, I don't see any shortage of banks here. I don't see any shortage of loans here. I do see a shortage of farmers and that maybe more of the problem than trying to get into the state banking business.

"So for those following reasons, and out of respect of my colleague who heads the Finance Committee and does a very good job, I hope he will see my comments as iron sharpens iron. Iron sharpens iron, as his criticism of

me and then my of him will make this hopefully, a better bill. And in the end it will not put us in the banking business. Thank you, Mr. Speaker."

Representative Souki rose to speak in support of the measure with reservations, stating:

"Yes, Mr. Speaker. With strong reservations. I don't believe the State of Hawaii is in a financial position to have its own bank. We need to take care of our own basic needs first before we look to going into banking. Thank you, very much."

Representative M. Oshiro rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in strong support. I think the idea behind this task force is to do our due diligence to explore the possibilities that might be available in setting up a bank similar to the Bank of North Dakota. It's been around for about 100 years. And the genesis of that bank was to address the needs of the local small businesses when they could not receive financing from the East Coast bankers or robber barons of those days.

"In North Dakota, all the state funds, as well as the funds administered by the state and county agencies are deposited with the Bank of North Dakota, thus creating a large deposit base. In addition to paying competitive interest rates, the state treasurer, the Bank of North Dakota, also invests its money in loan programs to spur economic development within the state.

"The Bank of North Dakota also regularly returns over a portion of its profits to the state general funds. There are no shareholders. The shareholders in fact are the taxpayers of the State of North Dakota, and we'll do a similar thing in Hawaii.

"Over the past decade the bank has turned over approximately one third of a billion dollars to the state general fund. And despite the recent financial crisis that affected all of the nationalized banks, the Bank of North Dakota earned record profits in 2008 with net earnings of approximately \$57 million.

"Rather than competing with private banks, the Bank of North Dakota has in fact created partnerships with over 100 other local banks. The Legislature should look at this as an economic development tool to provide gap financing for community development, housing, or industry, whether it's in the farming area or in the high-tech area. This can go a long way. I have some further comments, Mr. Speaker. I ask for permission to insert them into the Journal. Thank you."

Representative M. Oshiro's written remarks are as follows:

"Mr. Speaker, I rise in strong support of House Bill No. 853, House Draft 1, relating to the bank of the State of Hawaii.

"This bill would create a two-year task force on establishing the bank of the State of Hawaii. This task force would examine the issue of a state-owned bank, looking at the model of the Bank of North Dakota, a nearly 100-year old state-owned bank.

"The Bank of North Dakota was founded in 1919 with \$2 million in capital. Today, the bank operates with more than \$270 million in capital, while regularly turning over a portion of its profits to the state general fund. Over the past decade, the bank has turned over approximately one-third of \$1 billion to the state general fund, and despite the recent financial crisis, the bank earned record profits in 2008, with net earnings of approximately \$57 million. With the help of the Bank of North Dakota, the State of North Dakota not only survived the recession—it is currently one of the only states in the nation that is operating with a surplus, rather than a deficit.

"The impressive track record of the Bank of North Dakota has not gone unnoticed in an America still struggling with the after-effects of the recession. No fewer than seven states across the country, including Hawaii, have introduced legislation to explore the question of state banks.

"The economic recession afforded us a look at the way our banking and economic work and how much they need our attention and support. Our farmers and small businesses, as well as our new and growing industries such as high technology, are still struggling during this gradual recovery. We, as a body, have an obligation to find a way to try to prevent this level of negative impact on our community in the future or at least mitigate the damage from any future recessions.

"As such, we must begin to look for other avenues to grow our economy. We must be willing to examine proven models from other communities that have helped to stabilize and protect their economies. We must be willing to look at how progressive ideas like a state-owned bank can promote agriculture, education, community development, economic development, housing, and industry.

"This House Bill No. 853, House Draft 1, creates the task force on establishing the bank of the State of Hawaii. This uncompensated task force consists of ten individuals from a wide range of sectors, both public and private, to get input from the Legislature, the Administration, the Hawaii State Association of Counties, the banking and financial institutions, and the credit unions. Getting information from all sides is imperative to furthering this discussion, so that everyone can better understand the wide range of concerns and suggestions with regard to this idea.

"This task force will review, evaluate, and create an implementation plan for the bank of the State of Hawaii. However, this plan will not be created or implemented without us doing our due diligence. This task force will fully investigate the model of the Bank of North Dakota and will look at the feasibility of a state-owned bank for Hawaii. In addition, this task force will look closely at what the short and long-term impacts of a state-owned bank on job creation and the State revenue. This task force will also look at the details of the how a state-owned bank in Hawaii would be run, including looking at the standards this bank would need to meet.

"This two-year task force will provide a close and thorough look at what a state-owned bank can do for Hawaii and how we can best implement a fiscally responsible and economically sound state-owned bank. This task force will provide a deliberate and careful study of the issue at hand because we want to be sure that we are taking the best steps for the fiscal and economic health of our State.

"We must do everything we can to grow our State and protect it. As such, we must be willing to at least discuss and study new ideas as we find them. There is no danger in a study—a study is, rather, a responsible way to begin a discussion about a new idea. Let us take this opportunity to open the door for continued discussion about state-owned banks and growing our economy in new and innovative ways.

"Thank you, Mr. Speaker, for this opportunity to insert written comments."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. May I have the words of the previous speaker, the Chair of Finance entered into the record as if they were my own? And here's the thing, if I may give a little anecdotal story.

"Earlier this Session, along with the Senate, we had a working group, an informal one established, to look at business initiatives. Among the attendees was the Chamber of Commerce and all of their members. At the first meeting, the first thing that all of them wanted was us to look at bringing back the DBEDT Capital Loan Program for small business. So I asked them what was the impetus of the members asking for this and what they said was, 'We cannot get loans right now from the banking institutions, period. There's no place for us to go.'

"So I support this bill because I think it's worthy to have a task force look at North Dakota to see if we can create a bank that will work in cooperation with our local banks. And North Dakota Bank has actually been called a banker's bank because they work with the local banks.

"But there might be many situations, if this task force does its due diligence, where in the future a local institution may not feel comfortable lending to a small business, but perhaps the State Bank of Hawaii would be. And they would work with the local banks to try and make this possible. Because at the end of the day, they might be in a better position to extend these loans to this small business than perhaps a commercial bank would be willing to take.

"So I think that alone warrants us and this task force just to look at this, to see if this is something we can develop. Because the business community, and we have a bill like this moving forward for the Small Business Capital Loan Program to bring it back, is clamoring for us to look at some ways to provide alternate means of financing for businesses that just aren't, for some reason, making the cut when it comes to trying to get financing from institutions. Thank you."

Representative Pine rose to speak in opposition to the measure, stating:

"Yes, with respect to the Finance Chair, I also will be voting in opposition to this. A capital loan program and an entire bank are two different things. Mr. Speaker, by all of our actions today, we said very loudly and clearly that we can't balance our budget on the money that is coming in to us. So what do we do to balance our budget? We tax people more. We raise their fees. Then we raided funds that were suppose to go to other things. Therefore, Mr. Speaker, I do not believe we have the capability as a government to now have a bank.

"Business is very different from government. Businesses, they have to balance their books or they go out of business. Banks are businesses. For us to have a bank through government, we have to prove that we could run ourselves like a business or else we will run ourselves into the ground.

"I would wholeheartedly support a bank, a task force, anything of that nature if we can prove that we can actually balance our own budget the way banks do."

Representative Rhoads rose to speak in support of the measure, stating:

"Mr. Speaker, in support. Considering the record of the banks over the last couple of years, I would say the banks don't know how to run banks either. And they generally come to us to bail them out after they've wasted all their own money. Thank you."

Representative Ward rose to respond, stating:

"Mr. Speaker, still with reservations. A brief retort and I think for full disclosure for the Finance Chair, and now the Labor Chair, guess what? The bank model of North Dakota has no FDIC insurance base. The feds don't touch these banks so who guarantees that the bank works? We do. Taxpayers. You think taxpayers want to give us the risk to do that? I don't think so. So that's up to \$250,000 that the FDIC insures individual accounts.

"Secondly, related to the gentleman from Maui saying, 'Hey we've run out of money. We can't get out money.' He cites one of the worst loan programs that ever existed in the State of Hawaii, the DBEDT loan program. You talk to anybody about how successful that was. Why did we basically pull the plug on it, or choke it and let it die slowly over the last two decades or last 15 years? Because it was cumbersome. It was government run. It was for boats, and then it was this, and that, and depending on who politically was up at the head of the government and what they wanted to do with those programs. It changed back, left, right, front and center. So the citation of North Dakota and DBEDT is a rather dismal one.

"And thirdly, the SBA, the Small Business Administration, they have a loan program that has given out billions of dollars to the small business of the State of Hawaii. Thank you, Mr. Speaker. I used to be one of their consultants to do business plans for them. Billions of dollars. And let's face it. We have gone cyclically from a very loose and easy capital, loose and easy loans, to where now it's very hard and very long to get small business loans. But there's no shortage of money. It's a matter of going through this

cycle which in a matter of months, by the time the task force finishes, the SBA will be up and running with all the banks which basically processes that in the private sector.

"The point is the private sector knows how to do this. They know how to do it better. And what we as the political class if you will, should stay out of it. And quite frankly when the gentleman said that the banks didn't know what they were doing, it's because we said from the political pulpit that we want everybody to own homes and you guys make sure it happens.

"So we cooked and then we pushed the playing field in a little bit different direction. We are as culpable of that crisis that took place in 2008. Liar loans, and all of those things that we've talked about which now we're going to do with foreclosures because we said we want everybody to own a home regardless of their income. Let them lie. Let this stuff go through. And we didn't monitor it.

"So it's coming back to bite us just the way a lot of these bills today that we have passed. And this is one of those. But again, I say with reservations and hopefully iron will sharpen iron, and this will come out as a good tool. Thank you."

Representative Pine rose to respond, stating:

"Yes, just in rebuttal to my favorite Representative from Chinatown. I actually agree with him. Those banks that government bailed out can't balance their budget. And you know what? Government should never have bailed them out because it proved that they shouldn't be in business. Instead what our congressional leaders did was they sold out our future so that China can own us, because they do. We took out loans to bail businesses out that should no longer be in business."

Representative Fontaine rose to speak in support of the measure with reservations, stating:

"Yes, Mr. Speaker, I rise with reservations. It's reservations because it is only a task force at this point, but just to kind of dovetail on the remarks that the Representative of Hawaii Kai made. You know, one of the reasons why the banks would be happy with this is because if the State stepped in, we would assume the risk. One of the reasons why banks don't give loans to certain businesses is because of the risk factor. For example, starting a restaurant is an extremely risky proposition. Many of them fail for example. If the State stepped in and bankrolled and assumed that risk so the bank could then make that loan and partner with them, it could have devastating effects, trickle down devastating effects in terms of us buying in, as a government, into risky loans. So that's why I'm in reservations. Thank you."

Representative Tokioka rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I am in strong support and I'd like to adopt the words from the Chair of Finance, the Chair of Labor, and the Chair of Economic Revitalization as if they were my own. Thank you, Mr. Speaker."

Representative Souki rose to disclose a potential conflict of interest, stating:

"Again, with reservations, Mr. Speaker. But first, I want to disclose that I'm a Director of the Federal Land Bank and I ask for a ruling on a potential conflict of interest. I need to disclose that," and the Chair ruled, "no conflict."

Representative Souki continued, stating:

"Thank you, very much. And I can understand the frustration you have with banks. Certainly they have not had a good track record as my good friend, the Chair of Labor has said. And so there's some justification for looking into the possibility of a state bank. This a task force to look into the feasibility, and not just going to begin a bank.

"But I just want to give these words of caution. I'm not a banker, but I've been for over 15 years a member of the Board of Directors of Land Bank,

and I know how difficult it is to run a bank under federal regulations. There is every available regulation that you can think of. And I know how difficult it is to make loans and to pay the salaries and to come out with a surplus at the end of the year. It's not an easy job.

"And so with this, I put up this caution to the members of the commission. I know the Chairman of Finance is looking very rosy at this, and I hope it won't kill all my programs by speaking against him. Thank you, very much."

Representative Tsuji rose to speak in support of the measure, stating:

"Mr. Speaker, in support. This measure calls for, not approval or endorsement of a commercial bank, or a state bank here in Hawaii. It's saying that we should enlist a task force and I am sure that a task force would do all the due diligence, like any other applicant going for a commercial bank and going through the process. And that's how banks throughout the nation and even the State of Hawaii started. They look for public good and convenience, adequate capital, and what area can you serve in the community. And how you can serve the community. This is one of the areas I am very sensitive in.

"Three Sessions or so ago, I was elected to the State Legislature. And when I got into the Committee on Agriculture, I approached the Hawaii Banker's Association. I told them that we are going into an economic demise, I told the official also, that agriculture is in a state of rebound. But they cannot do it without help. They cannot do it without capital and they cannot do it with the financial institutions in Hawaii. Will you sit down with us here at the Legislature or have an informational briefing with the Committee on Agricultural, and they refused to.

"But going on and fast forward a couple of years later. Today, when a bank goes for an application, or any type of business, they will look for character, collateral, and the conditions of the community. Also for public good and convenience. And that's what all the banks here and financial institutions in the State of Hawaii do. Not haphazardly. One gentleman stated I believe about making high risk or risk loans, we'll take into consideration character, collateral, condition, and other factors.

"What this bill also states if I remember correctly, that any excess funds will go into the State coffers or the State general fund. But in short and in close, this starts out with a task force and I support that. Thank you, very much."

Representative M. Lee rose to speak in support of the measure, stating:

"I'm standing in support. I just think it's interesting that the Bank of North Dakota, the State Bank of North Dakota has contributed \$300 million to the economy of that state in the last decade. So that's pretty impressive.

"We're not the only state that is looking at the concept of a state bank. In fact Wisconsin is looking at it, and several western states. So I think anything we can look at that might increase our State's economic activity is a good thing. And I'll add some written comments to that. Thank you."

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I rise in support of HB 853 regarding the Bank of the State of Hawaii. The purpose of this bill is to establish a task force to review, investigate, and study the feasibility and cost of establishing the Bank of the State of Hawaii.

"The creation of a State Bank would have some beneficial effects on the State's economy by making credit more available in the State, would add stability to the State banking industry particularly in times of recession, and could do this in a revenue positive way. A public bank would not be beholden to the profit-based agendas of private banks, thereby permitting the Bank of the State of Hawaii to leverage capital on a fractional basis without consideration for shareholder earnings or market expectations. The Bank of the State of Hawaii would be able to better engage in long-term planning based on available deposits and revenue forecasts.

"The Bank of North Dakota has been in existence for many years and during the past decade has directed more than \$300 million dollars back into the economy of the state. Although primarily functioning in agricultural loans, the bank's success has been noticed by several other states, including Wisconsin, Washington, and Oregon.

"In the times of austerity, we need to consider every possibility for economic advancement, and the proposed task force on a State Bank is just one option. I urge the Members' support."

Representative Keith-Agaran rose to speak in support of the measure, stating:

"Mr. Speaker, in support. And just briefly. It sounds from the discussion that we're having that a task force is completely appropriate to tell us whether this is a losing proposition or, Mr. Speaker, winning."

Representative McKelvey rose to respond, stating:

"Thank you, Mr. Speaker. Still in support and just a brief rebuttal to my good friend from Hawaii Kai. If he is so concerned with taxpayers being obligated under a financial system like this, then I would think that he would be voting against every special purpose revenue bond that is on the agenda today. Thank you"

The motion was put to vote by the Chair and carried, and H.B. No. 853, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE BANK OF THE STATE OF HAWAII," passed Third Reading by a vote of 48 ayes to 3 noes, with Representatives Ching, Marumoto and Pine voting no.

H.B. No. 799, HD 1:

Representative B. Oshiro moved that H.B. No. 799, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Har rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, can I request a ruling on a potential conflict, please? I represent subcontractors in my private sector life," and the Chair ruled, "no conflict."

Representative Har then asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ward rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Cullen rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Hanohano rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Choy rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Choy's written remarks are as follows:

"Mr. Speaker, this Body has an insatiable appetite for giving tax exemptions and tax credits to various special interest groups. Most of these tax preferences are given without thought to the reason and required results of the preference. Let's face it; most of these preferences are just political pandering at its worst.

"The questions that must be asked are: Are we really helping these businesses? Are we really helping the people of Hawaii? For example, some of these exemptions are said to lower the cost of living in Hawaii, but how can we be sure that savings from these exemption are really being passed on to the consumer. How can a mere four percent reduction in the cost of airline fuel result in a reduced ticket price. It doesn't.

"Now, we have come to a time when we are giving away a billion dollars in tax credits and tax exemptions annually. That equals two full percentage points of the general excise tax. What would be more beneficial to the people of Hawaii: the perceived benefits promised by these companies who get the credits or a two percent General Excise Tax?"

Representative Johanson rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Johanson's written remarks are as follows:

"I rise with reservations on this bill. I would otherwise object to suspending some of the specific tax exemptions highlighted in this bill. However, I believe that the temporary suspension of these exemptions are preferable to completely unpalatable measures such as raising the general excise tax in order to fulfill our constitutionally-mandated duty of balancing our State budget. I appreciate the end date of 2015 added to the text of this bill.

"Although I have significant reservations about this particular measure, I do believe it is less regressive and broad-based than an across-the-board tax increase that would place significant burden on all of our constituents."

Representative Souki rose to disclose a potential conflict of interest, stating:

"Maybe I should ask for a ruling on a potential conflict of interest. I'm a Neighbor Islander," and the Chair ruled, "no conflict."

Representative Souki continued to speak in support of the measure with reservations, stating:

"Yes, Mr. Speaker. I wish to speak with reservations. I do understand that we need the funds to balance the budget so of course I am not voting no on this, and we'll watch how it plays out in the end. But the big concern I have, the fact is that Hawaiian Airlines is going to be on this plan here which is going to cost them approximately, they're going to lose approximately \$52 or \$53 million for the biennium. And with the cost of fuel going up, and I know how expensive travel is right now for the Neighbor Islanders. If you think this is expensive, just wait a little while.

"So I would hope that in the course of the Conference when they're going through this, that there might be other areas maybe you can look at. I won't get into that now, but you certainly should look at this area again very cautiously because it's going to be affecting a lot of people. And not only the airlines, but other businesses. Thank you."

Representative Yamane rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Chong rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I understand some of the concerns that have been brought up regarding this bill. However, this bill is clearly part of our financial plan to ensure core services.

"But secondly and just as important is this issue is about fairness. And while the speaker from Maui has talked about the concern for, as one example, Hawaiian Airlines, you could look at it as instead of a \$52 million hit, that we've been giving them a \$52 million worth of tax credits each year. And that many businesses both big and small presently pay the general excise tax. They are not on the exemption list. They don't get a thousand dollars, or tens of millions of dollars in exemptions. And I think this bill is important as I stated, for both revenue and fairness. Thank you."

Representative Hashem rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ching rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Riviere rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Belatti rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative M. Lee rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I rise in support of HB 799 HD1 regarding taxation. The purpose of this bill is to temporarily suspend the exemptions from the general excise tax for certain persons and certain amounts of gross income or proceeds.

"Some corporations and organizations have had the luxury of a tax exempt status for years, while other small businesses do not have this benefit and have struggled to find ways to make ends meet in this challenging economy. This is neither fair nor justifiable. Therefore, the existing exemptions for a number of corporations and organizations will be subject to a graduated assessment rate for the general excise tax and use taxes. The rates will be as follows:

2% from January 1, 2012 to December 31, 2012
3% from January 1, 2013 to December 31, 2012; and
4% from January 1, 2014 to December 31, 2014

"The relatively large amount of revenue gained from this measure constitutes a substantial portion of the House Financial Plan for the next 2 years.

"Fairness is the issue here, and it is time for everyone to pitch in to help out our state in its time of need."

Representative M. Oshiro rose to speak in support of the measure, stating:

"I rise in support. Just a couple of points, Mr. Speaker. Number one, this measure temporarily suspends the exemption from the general excise tax and use tax for certain amounts of gross income of proceeds, and requires that these amounts be assessed a rate of 2% from January 1st, 2012 to December 31st, 2012. Then 3% from January 1, 2013 to December 31st, 2013. And 4% from January 1st, 2014 to June 30, 2015.

"The Department of Taxation estimates the revenue gain at \$55.7 million for fiscal year 2012, and \$162.8 million for fiscal year 2013. And finally, Mr. Speaker, the measure sunsets on June 30, 2015. Thank you."

Representative Takai rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, thank you. I rise with reservations. Actually I was going to vote no, but after the Finance Chair mentioned some things, I'm going to stay with reservations for now. Thank you."

The motion was put to vote by the Chair and carried, and H.B. No. 799, HD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," passed Third Reading by a vote of 49 ayes to 2 noes, with Representatives Marumoto and Ward voting no.

H.B. No. 306, HD 1:

Representative B. Oshiro moved that H.B. No. 306, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Jordan rose to speak in support of the measure with reservations, stating:

"With reservations and a comment, please. My reservation is with Section 8 of the bill which will repeal the tax credits for resident taxpayers. I believe this could be considered unconstitutional under double taxation. I

also believe it could be disproportionate for military filers also. Thank you."

Representative Riviere rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Johanson rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Johanson's written remarks are as follows:

"Mr. Speaker, I rise with reservations. I understand that many of the measures outlined in this bill were made with our State's fiscal state in mind and in a good faith effort to clarify existing tax laws and computation methods. However, I do have concerns with some of these taxes in general, mainly the amended estate tax."

Representative Chong rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Chong's written remarks are as follows:

"Mr. Speaker, I am in support. This bill seeks to address the shortfall in the section of the foreign tax credit. The issue is to look at whether or not some filers are claiming both the credit and taking the itemized deduction, and thereby double dipping. Thank you."

The motion was put to vote by the Chair and carried, and H.B. No. 306, HD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," passed Third Reading by a vote of 48 ayes to 3 noes, with Representatives Fontaine, Pine and Ward voting no.

At 5:37 o'clock p.m., the Chair noted that the following bills passed Third Reading:

H.B. No. 1270, HD 1
H.B. No. 575, HD 1
H.B. No. 853, HD 1
H.B. No. 799, HD 1
H.B. No. 306, HD 1

H.B. No. 1092, HD 1:

Representative B. Oshiro moved that H.B. No. 1092, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Ichiyama rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ichiyama's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in support with strong reservations. I understand that this measure is a part of the Governor's package in addressing our \$800,000,000 shortfall over the next two years, but I also feel it is an additional burden on our senior population. The House proposal did raise the threshold levels, for example from \$75,000 to \$200,000 AGI filing jointly, but I am still concerned that these amounts are too low.

"One of the fundamental principles of taxation policy is the balanced treatment of different types of income. I acknowledge the need to include pension income in some form of tax scheme as a matter of evenhandedness, as other types of retirement income like 401(k)s are currently taxed. I would suggest, however, that in these difficult economic times we consider raising the thresholds so that fewer families will be impacted. Thank you for the opportunity to speak with strong reservations."

Representative Marumoto rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I am opposed to this bill regarding taxing pensions.

"When I spoke on this measure a couple weeks ago, my comment was that this bill in its original form, and the \$37,500 threshold at which it proposed to begin the tax was too low, almost cruel. At the time, I was referencing the low threshold, and one of my concerns with this bill as currently drafted is that while the threshold is now higher, \$100,000, it opens the door to taxing the pensions of those with lower AGI in the future. It could slip down to \$75,000, or \$50,000, or lower before the end of this Session or in future Sessions.

"The fact is that this bill will tax our seniors, those on fixed income, those with less opportunity to adjust to our rapidly rising cost of living. Barbara Stanton of the American Association of Retired Persons said it best in this Sunday's *Star-Advertiser* when she said that this, 'came as a shock to Hawaii's seniors whose fixed incomes are no match for rising costs.' According to her, the consumer price index shows a 70 percent increase for Honolulu over the past 20 years. With costs continuing to rise, it is unfair to take from those who were promised tax-free pensions decades ago.

"Mrs. Stanton's article also raised some important legal concerns that this Body should be well-aware of before it moves forward with this bill. First, she points out, federal law prohibits taxing pension income of nonresidents living in Hawaii. Secondly, the Hawaii Constitution states that accrued benefits of retirees in the State retirement system shall not be diminished or impaired. These are potential legal problems that would diminish the gains this bill claims to generate.

"In conclusion Mr. Speaker, I strongly oppose this measure even though the federal Adjusted Gross Income is high, \$100,000, because of its potential legal flaws. But even more than that, because I find the thought of targeting our unsuspecting seniors almost cruel. I vote no on this measure. Mahalo."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I also rise in opposition as my colleague. And to quote the ranking Representative from Kaimuki-Kahala, the bill in its original form was almost cruel. Now it's almost not almost cruel, but it's there. And she cited the AARP Executive Director. I will only paraphrase what the Executive Director is saying of AARP. Leave us alone. Look what you just did with the Highway Fund and these other funds. We don't trust you to leave our pensions alone. Once you get on the threshold and the slope begins, as my colleague just said, they're entrapped.

"So, Mr. Speaker, I think the bottom line is we are on dangerous territory. We know who votes the most, who reads all of our brochures, and who really is probably the most people, if 'Olelo is still on, probably the most people watching us today are those people who are retired and on a pension.

"And lest we forget they worked hard all their life. They're there because they planned to be there. Whether their income is high or whether their income is low, they deserve to enjoy the Sunday night of their lives. What we're doing is saying, 'C'mon guys. It's equity. It's only fair.' And we can use all the superlatives to explain and to justify, but what we're doing is almost cruel and we've got to stay away from it. Thank you."

Representative Choy rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. The last Tax Review Commission that was chaired by a rather handsome guy said that pensions should all be taxed equally. About three other Tax Review Commissions prior to that also said the same thing. Mr. Speaker, it's an equality issue. When speakers say that all retirees' pensions are taxed, the majority of the pensions today are taxed because they don't have employer-sponsored plans.

"Let's face it. The pensions that we're talking about are going to be for public workers unions, and probably the military. Everybody else, people like me who work for private companies, our pensions are taxed. So it's

really an equality issue. It shouldn't be surprising to anybody because measures like this have hit this House before.

"The other thing is the only objection that I really think is valid is that we shouldn't surprise people. You know, we shouldn't tax pensions tomorrow and I think the Finance Committee did a wonderful job by putting these very, very high limits. It's really rather brilliant. For single taxpayers it's \$100,000; for married, it's \$200,000. It eliminates most of the employer-sponsored pension plans right now. In fact, it only affects about 3,000 taxpayers and these are taxpayers in very, very, very high incomes.

"Now because we set the limit so high, one day with inflation all pensions will be taxed. But that date will be 15 to 20 years in the future and I believe that's enough warning for anybody. Thank you, Mr. Speaker."

Representative Fontaine rose to speak in opposition to the measure, stating:

"Yes, Mr. Speaker, I stand in opposition to this. I would like to enter the words from the Representative of Kahala as my own, and offer a couple of additional comments. I'm a retiree. I need to disclose that. And when I joined the police department in 1980, I made \$1,138 a month, gross. But when I signed on to the police department, I was told that if I did good service and I remained in service for 25 years, that I would get certain benefits. So I was working at a level of pretty much poverty at the time.

"And over the years, there became more equity and the benefits changed as time went on. I believe in 1988, the benefits were adjusted to accommodate the better wages that police officers and others were making. But one of the things that was promised to me was that when I retired, that I would be able to enjoy my retirement tax free from the State. As many other people in the State, for workers, for teachers and everyone, that's what it was. And so that's how I planned my future.

"And as a result I did retire. I was able to retire early age and be involved in business and other things. And so to say that when people retire that they're not going to go out and look for other income and those kinds of things where they may reach this threshold is disingenuous.

"And to say that retirees will have 15 to 20 years to plan is not fair either. Because somebody at that point in their life they may be 80, 85, 90 years old, and they may not be able to adjust when that happens. Many of them may not be able to go back to work to take that into account.

"So I think we really need to take a hard look at this and ask what are the unintended consequences. Who are we actually going after? Are we just going to say, 'Well it's okay because it's the rich retirees and everybody else is safe.' Now that's not fair either. It's like we'll take from the rich and pay for the bills, and that's not correct. Thank you for the time to allow me to put these comments in."

Representative B. Oshiro rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in support. I just wanted to point out that this is a very, very limited approach that has been taken. It's only 0.7% of all tax filers. It is actually only about 5% to 6% of all of those who do have a pension income, and so it is the people who have \$200,000 in a joint filing, or \$100,000 as a single. So we are talking about those that do have the wherewithal probably to pay some level of tax on their income for this pension.

"But there was also a question raised by the Representative from Kahala regarding the legality and whether there is any question. For that I would cite to our Hawaii State Constitution, Article VI, Section 1, which is our constitutional provision that says the power of taxation shall never be surrendered, suspended, or contracted away. And there's a specific case called the Tax Appeal of Director of Taxation vs. Medical Underwriters of California, 115 Haw 180 1997 case that actually held by the Hawaii Supreme Court that yes, this is a sovereign power that isn't subject to the doctrine of a stopple and so therefore, because we have this clear

unabridged power of taxation, this question about whether we can do something with the impairment clause probably does not apply.

"There is a case that happened in Oregon called the Hughes case which did find that it may be a breach of the impairment clause. However in that Oregon case, Oregon does not have a specific prohibition against contracting away the taxation power in their constitution like we do in our Hawaii Supreme Court.

"The additional cases are also one found in Georgia, Parish vs. the ERS System of Georgia. There are New Mexico and Montana cases, Piaz vs. State of New Mexico, Sheehy vs. Public Employees Retirement Division in Montana, and both of these also found that taxation of pensions is probably okay.

"And so I think the legal questions that are presented are not really what's at issue. I think ultimately what is at issue is how are we going to address our budgetary deficit. We took a look at what the Administration has proposed. We found that to be a little bit too harsh and so we ended up limiting it in terms of its affect and application, and ultimately that is the approach that has been taken with a large, large, large majority of all of the revenue enhancement bills that have been passed out of this Body and are going up for further consideration.

"We're trying to do this in the most limited approach possible. We're trying to make sure that we don't have any broad-based tax impact because we do realize that this is still yet somewhat a fragile economy. But nonetheless, we still must balance our budget.

"Nonetheless, we still must pay for the teachers to make sure that we don't have furloughs anymore. We must pay for education so our children can continue to get educated. We must pay for Medicaid so we can make sure that those that most need health services can get them. And so I don't know how else we're going to do it if we don't have some of these revenue enhancement bills.

"Because right now as I understand our budget, we're not going with any enhancements. We're not trying to add anything. We're keeping it as barebones as possible. And unless or until anybody can propose where to find some additional cuts, at this point I think our approach is a very sound one and one that we need to take into serious consideration. Thank you."

Representative Ching rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition. Thank you, Mr. Speaker. I do appreciate the fact that it's been ameliorated. The bill has not been passed out the way it was initially. I appreciate that. There's been sensitivity to the idea that there were some people who were in very low-income brackets.

"But when I go back to my district, I think that the best description I can give you is that my people are demoralized on this issue. Because what they I think have the most problem with is that while they know that their stocks might go down, they know prices may go up, inflation, gas prices, this we all have. There are things that are out of balance and you have to do what you have to do. But what they tell me is that it was a promise made. It was a promise made, a promise kept, your word. So when they went through their lives, they were calculating out that they would have the pension and so they behaved in such a way. They made choices in such a way as to arrange their budgets thinking they that would have this with everything else in flux. And so the people that I talked to, that's their biggest concern.

"They realize there's a recession. They realize there's a budget shortfall. They realize that we have to do things, but they're demoralized that government seems like it broke its word to them. And I think that is something important. That is something where we, by when we are leaders, it's good to give our people hope and to make sure that they believe in us because it's through that belief that we have the power, that we have to do good things. So with that, I'm unfortunately still in opposition. Thank you."

Representative McKelvey rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I stand in support, but I do have reservations. I do want to acknowledge the words of our Majority Leader, and especially in the way the bill came in, and what the Finance Committee did to really narrow the scope and address it, as well as the fact that even with these and all these other measures, the Finance Committee I was told, cut an extra \$200 million this Saturday. That's in addition to the \$2 billion of cuts that have happened over the last two years.

"However, my concerns revolve around two things. One, it's still using the federal AGI. And second, I dispute the fact that the previous Tax Commission Chair is a handsome guy. Thank you, very much."

Representative Johanson rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Johanson's written remarks are as follows:

"I rise in opposition to this measure, which I believe would adversely impact our seniors. While I note the efforts my colleagues have made to change thresholds and minimize the impact of this measure, I believe it sets a detrimental precedent for our seniors, one of our most vulnerable populations who can least weather changes to their financial picture.

"Although this version of the legislation sets much higher thresholds than the Governor's original proposal, it still opens the door to future legislation to tax pensions with lower thresholds. I also believe that many people have planned their retirement to Hawaii for more reasons than our island's natural beauty, including many of my retired military constituents. I want to encourage people to choose Hawaii as their home.

"I strongly believe that the State of Hawaii needs to maintain a policy of not taxing the pensions of our elderly."

Representative Evans rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I wanted to make some comments about some previous speakers talking about promises made and promises kept, and talking about the public sector who started 25 or 30 years ago, and they were made a promise.

"Well I can tell you from my own story from the private sector viewpoint working for AT&T. When you're young, you think at the age, and for me it was 16 when I started, that at 16 the promises that I was told were going to be kept. Well I've got to tell you that when I was 32 years of age, they undid everything I thought they were going to do through collective bargaining. They changed the whole pension plan and they took away all of my years before the age of 21 which were being applied to my pension. And I'm thinking, 'What the heck's going on here?'"

"But I've got to tell, we've got to tell young people that are entering the world of employment that what you see today isn't possibly going to look the same 30 to 40 years from now when they get to retirement age. And we all know that people are living to be a hundred, so we all know that pensions between now and 30, and 40 years from now, they are not going to look the same as they do today. And so for these people, yes it's frustrating to think they started 30 years ago and thought maybe they were going to do something.

"But you know, I learned something a long time ago. There's no such thing as security and you've got to plan for yourself. And that's what this is all about. You know people have to plan for their retirement, and their pensions, and their future. They can't be so dependent and assume what we have today is going to be the same 30 or 40 years from now. The reality is it's not.

"And so it's interesting to me, some of the comments about promises made, promises kept. Because who would have know 30 years ago that you could maybe apply overtime in your high three and use that for your pension. I bet that wasn't there 30 years ago. Who would have known 30

years ago you would have all this paid vacation, and sick leave, or vacation leave that you could have cashed out. Who would have known that 30 years ago? So things do evolve and change.

"I just want to point out, I just don't agree with that argument at all. I think that what the Finance Chair and what our colleagues have done, and I really like the words from the Representative from Manoa and I'd like them included in the Journal as my own. I do think that his comment about parity was right on, and I appreciate those comments. Thank you, Mr. Speaker."

Representative Yamane rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I'm standing with reservations. I do want to express my appreciation for the Finance Committee and the Finance Chair increasing the threshold. However, I do have concerns that we're again addressing through pensions and I will determine my full support, or lack of support, upon the final version of the bill. Thank you."

Representative Har rose in support of the measure with reservations and asked that the remarks of Representative Yamane be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Pine rose to respond, stating:

"Yes, in opposition, Mr. Speaker. Just in rebuttal. I'm a little perplexed by the Majority Floor Leader's comments. One thing that stuck out in my mind that she said was that we all have to plan for our future. Well that's why the Minority Caucus is against this bill, because these people did plan for their future, very meticulously. And that's why they're living here in Hawaii with their families. So on one hand she's saying plan for your future, but on the other she's saying that it's okay that we stick it to you even though you planned for your future because we need the money.

"I'm also perplexed by what the Representative from Manoa said so briefly. He admitted that yes, in the future, all pensions will be taxed. And that is why the Republican Caucus is against this bill, because it opens the door. And so on this reason we stand with AARP. They know what they're talking about and they just admitted it on the House Floor, that's the goal, the future goal. All pensions taxed. We believe that is wrong, Mr. Speaker.

"The Representative from Manoa also said, 'Don't worry. It'll be later down the line, maybe 15 or 20 years so you can plan.' Will he put that in writing? Will every person on this Floor put it in writing that next year, the following year, and the following years after that, that we're not going to keep raising this tax and lowering the amount to the point where it is what the original bill was, \$37,500? Is everyone here willing to put that in writing?

"In the beginning of this Session, Mr. Speaker, the Minority Caucus started this Session on the basic premise that we need to keep our word to the people. All these bills that we discussed this whole day, Mr. Speaker, if you add them all up it's probably going to be over a billion dollars that we are taking out of the economy of the State of Hawaii that people thrive on and we're putting it into government.

"So at the beginning of this Session, Mr. Speaker, all we want is, what I'm asking right now, let's put things in writing. We introduced amendments to all of the tax increases that raised, supposedly raising money for the Highway Fund, that you're actually going to use that money for what you're going to say you're raising the money for. But this Body voted that amendment down saying, 'Nah. We don't want to put it in writing.'

"So that's why the AARP is so afraid and concerned about this bill because they don't believe that it's going to be just this thing for the rich. It's going to be for everybody even if you just make \$10,000 a year in pension."

Representative Marumoto rose to respond, stating:

"Thank you, Mr. Speaker. I'm still in opposition. The handsome Representative from Manoa said we shouldn't surprise people and I totally agree with him. On the other hand, Barbara Kim Stanton of AARP said this was a shock to the members of their organization. So it's more than a surprise, it's a shock. And what is even more surprising to them is that this bill is actually retroactive back to January 1st.

"So this would go into effect for this taxable year. Yes it's only maybe 3,000 people, but I think the seniors are quaking in their boots. They're extremely concerned that they're paying a lot of taxes to the federal government and increase taxes on the State level. And as the good Representative of Liliha pointed out, costs are going up. The cost of living. So it is really a scary proposition for our senior citizens.

"The good Majority Leader cited many cases about the power of the State to tax, and his brilliance, and brilliant obfuscation is hard to match. I am not a lawyer, but I do not contest the fact that the State does have the sole power to tax and should not be taken away. But on the other hand, I believe that power can be abused and I think we're abusing it today.

"We passed a series of taxes that are just as long as my arm for fuel, weight taxes, registration, and freight, and surcharges on all sorts of licenses from all different departments. We're delaying deductions and we're taking away exemptions. And really what are we doing to our people? I think we should stop and take a deep breath. Thank you."

Representative Rhoads rose to speak in support of the measure, stating:

"Mr. Speaker, in support. It does seem to me that I agree with a lot of what's been said on both sides of the aisle. There are things that strike me as a couple of unfairness. One is that many kinds of retirement income are already taxed. Social security is already taxed. At least much of it, depending on how much you make. If you're very poor, you pay less. And if your social security is addition to other income, then you pay taxes on up to 85% of it. And I also understand the argument that we were told things are going to be a certain way and we want our promises to be kept. I think there is some weight to that argument.

"But what do you do in that situation where you have two unfairnesses? You have an unfairness where everybody else's retirement income is being taxed except if you're getting a pension. Pension is a technical word. It only means a certain kind of retirement income. Or do you try to make it so that the whatever was promised, anybody at any point in their life that the promise is kept. Well I think the answer is you have to compromise because the two unfairnesses are not reconcilable. I think the Finance Committee has done as good a job as can be expected and can be done under difficult circumstances to live within the constraints that our current budget situation has put us in, and be as fair to everyone as we can be. Mahalo."

Representative Ward rose to respond, stating:

"Mr. Speaker, still in opposition. You know, sometimes when we stand up and speak, sometimes we think nobody is listening to us. But like my colleagues, I want to quote the handsome, and I think he's a pretty handsome guy from Manoa who was the former Chair and is now the Representative from Manoa. He not only said we should not surprise people, he also said we should start slowly, and then as my colleague from Ewa Beach said he said, someday all pensions will be taxed.

"I'm not sure that that's fair unless we give him a chance to say is that what he meant? Because we're quoting him and it sounds like that's what he said. So I would ask the good gentleman from Manoa if he would like to say anything about what we just quoted that he said. If he so wishes.

At 6:04 o'clock p.m. the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 6:05 o'clock p.m.

Representative Choy rose to respond, stating:

"Thank you, Mr. Speaker. Just to clarify, I was quoting from the 2005 Tax Review Commission Report, which I was the Chairman of. If I remember what the report said, it said all pensions should be treated equally, only that we should not be surprising anybody and it should be phased in slowly. I believe that's exactly what the report says, and that's what I was quoting. Thank you."

Representative Souki rose to speak in support of the measure, stating:

"Mr. Speaker, just a short comment. I wish to speak in favor. I just want to alert my colleagues across the hall here that you have not come up with any alternatives on how to handle the budget, and until you do I think you need to calm some of your statements down. Until you can come up with some sound alternatives to balance the major deficit we have had this year and the past year."

Representative Riviere rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Riviere's written remarks are as follows:

"I oppose taxing pensions for residents who have already retired because it is patently unfair to change the rules after the game has ended. We should not begin taxing them after they have completed their careers and no longer have time to adjust their retirement planning. If we are to consider taxing pensions, then we should focus on taxing pensions for future retirees.

"As to the argument that we are only taxing individuals who can afford to pay the tax, I ask why one person's pension is fair game to tax, while another's is not, when they both worked under the same understanding that their pensions would not be taxed. Furthermore, it is only be a matter of time until the Legislature lowers the income threshold to include more tax payers.

"I object to taxing pensions for those who have already retired on principal. Justifying this decision by claiming to only tax the rich is disingenuous and does not make it right."

Representative Takai rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Hanohano rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Cabanilla rose in support of the measure and asked that the remarks of Representative Souki be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Wooley rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative M. Lee rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I rise in support of HB 1092 HD1 regarding taxation. HB1092 is part of the Governor's package. The bill proposed to tax pension income which is currently not taxed at the State level. The Governor's original proposal applied the tax starting at levels of \$37,500 for single filers, \$56,250 for heads of households, and \$75,000 for joint filers. The bill also proposed to eliminate the deduction for State income taxes paid. The Tax Review Commission has recommended the taxing of pensions for many years.

"The Finance Committee amended the measure so that it will impact only about 4 to 5% of filers. It will tax the pension incomes as follows:

- A. A joint or surviving spouse filer with an adjusted gross income of \$200,000 or more;

- B. An individual filer or married person filing separately with an adjusted gross income of \$100,000 or more; or
- C. A head of household with an adjusted gross income of \$150,000 or more.

"Remember, this is a tax on pension income and; that people who have 401K's or similar retirement options are already taxed. I believe many with incomes this high will be willing and are able to help. The House has no intention to tax those on fixed income who would be placed into hardship by this measure. The average pension of those who have retired from State government service is \$22,999, far from the threshold noted in this bill.

"For these reasons, I ask the Members' support."

Representative Pine rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Har rose to respond, stating:

"Mr. Speaker, I'm sorry. Very quickly. I'm still with reservations and please may I note that I do agree that the introducer of this measure, the Representative from Manoa, is quite handsome. Thank you."

The motion was put to vote by the Chair and carried, and H.B. No. 1092, HD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," passed Third Reading by a vote of 37 ayes to 13 noes, with Representatives Belatti, Brower, Ching, Cullen, Fontaine, Hashem, Johanson, Marumoto, Nishimoto, Pine, Riviere, Thielen and Ward voting no, and with Representative Morita being excused.

H.B. No. 273, HD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, H.B. No. 273, HD 1, entitled: "A BILL FOR AN ACT RELATING TO TOBACCO PRODUCTS," passed Third Reading by a vote of 49 ayes to 1 no, with Representative Pine voting no, and with Representative Morita being excused.

H.B. No. 1140, HD 1:

Representative B. Oshiro moved that H.B. No. 1140, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Fontaine rose to speak in opposition to the measure, stating:

"Yes, Mr. Speaker. I rise in opposition to this measure. Although we've tried to in Committee lessen the impact of this and only make it for commercial entities, this authorizes a default ruling against a party that fails to pay fees in an arbitration proceeding. I believe that this is overly harsh and an inappropriate penalty allowing rulings against a party even though evidence is presented in its favor. The amendment, like I mentioned, only deals with commercial entities, but that doesn't make it any less unfair. I still think it makes money more important than the facts in the situation meant to address the disputes.

"I understand the reasoning behind putting this measure in was to stop people from not paying the arbitrator's bill and extending arbitration out forever and ever and never getting any resolution to it. But look at the unintended consequences.

"Let's take a look at say for example, a parasailing business. It takes a tourist out on a parasail. The tourist falls to his death on a parasail ride. It turns out there was a defect in the manufacturing of the parachute. Now the family goes and sues that small business owner. The small business owner's cash is completely tied up in defending that lawsuit of the wrongful death, and now is forced to come up and prepay an arbitration bill and is unable to do so against the parachute manufacturer. Hence you get into the situation where he loses the default judgment because of that.

"And I think that we have to look at those kinds of scenarios and look at the unintended consequences when we do this. I understand we don't want to have limbo created out there in the legal system, but I also believe there's a real downside to this as well. Thank you."

Representative B. Oshiro rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in support. Very briefly, anybody can move to set aside a default. It's a very simple motion. Thank you."

Representative Har rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Har's written remarks are as follows:

"Mr. Speaker, I rise in strong opposition to HB 1140, H.D. 1.

"As an attorney, I cannot support a bill which could create such injustice and also circumvent the purposes of using alternative dispute resolution procedures, such as arbitration.

"This bill would allow arbiters to enter a default judgment against a party simply because the party failed to pay fees or costs. As stated by the Judiciary Department in their testimony: "[t]o dismiss an otherwise valid claim or position for failure to pay up-front fees or costs raises concerns, especially because review of arbitration decisions is limited."

"Decisions and judgments should be made on the merits of a case, not simply because one did not pay costs or fees. The idea that a default judgment should be entered against a party because it has failed to pay arbitration fees or costs is absurd and could cause great injustice. While I appreciate the amendments made in our Committee on Judiciary to apply only to "commercial entities," I still have serious concerns about imposing such a harsh penalty when the sophistication as well as the legal and financial resources of the parties may widely vary.

"Additionally, this bill does not specify when in the arbitration process this default judgment could be entered, meaning an arbiter could enter the default judgment against a party at any time during the arbitration proceeding. The parties could proceed through the entire arbitration, only to have a default judgment entered against them, not on the merits, but because they had not paid some of the fees or costs.

"While supporters of this bill state that one can move to discharge the default judgment, as an attorney I know the reality is that this is a difficult process which is unlikely to be successful and which would add additional burden to our already overloaded court system. One of the primary purposes of arbitration is to avoid court; thus requiring parties to go to court just exacerbates the situation arbitration is intended to remedy.

"As the Representative from Kapolei, I cannot support this measure, which could hurt our citizens and small businesses, and therefore I stand in strong opposition. Thank you, Mr. Speaker."

Representative Pine rose in opposition to the measure and asked that the remarks of Representative Har be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative McKelvey rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Marumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and H.B. No. 1140, HD 1, entitled: "A BILL FOR AN ACT RELATING TO ARBITRATION," passed Third Reading by a vote of 44 ayes to 6 noes, with Representatives Ching, Fontaine, Har, McKelvey, Pine and Thielen voting no, and with Representative Morita being excused.

H.B. No. 747, HD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, H.B. No. 747, HD 1, entitled: "A BILL FOR AN ACT RELATING TO LIQUOR LIABILITY INSURANCE," passed Third Reading by a vote of 50 ayes, with Representative Morita being excused.

H.B. No. 254, HD 1:

Representative B. Oshiro moved that H.B. No. 254, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Yamane rose to speak in support of the measure, stating:

"Mr. Speaker. I'm standing in support for Stand. Com. Report 685, relating to public order. Mr. Speaker, I just wish that this measure included other communities. Those like Mililani, Waipahu, Kapolei, and other communities in the State. This measure addresses people seeing other people defecate in their communities. I think if this measure is worthy of Waikiki, it's worthy of all of our districts. Thank you."

The motion was put to vote by the Chair and carried, and H.B. No. 254, HD 1, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC ORDER," passed Third Reading by a vote of 50 ayes, with Representative Morita being excused.

H.B. No. 1138:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, H.B. No. 1138, entitled: "A BILL FOR AN ACT RELATING TO ATTORNEY'S LIENS," passed Third Reading by a vote of 50 ayes, with Representative Morita being excused.

INTRODUCTIONS

The following introduction was made to the Members of the House:

Representative Saiki introduced McKinley High School senior, Mr. James Stabilio of the Boys & Girls Club of Hawaii Charles C. Spalding Clubhouse in Mo'ili'ili. Mr. Sabilio is the winner of the Boys & Girls Club of Hawaii 2011 Youth of the Year award. He was accompanied by Mr. Kyle Nakaya, Director of the Mo'ili'ili Clubhouse.

ORDER OF THE DAY

SUSPENSION OF RULES

On motion by Representative Evans, seconded by Representative Pine and carried, the rules were suspended for the purpose of considering a certain House Bill for Third Reading by consent calendar. (Representatives Awana, Har and Riviere were excused.)

UNFINISHED BUSINESS

H.B. No. 341, HD 4

Representative B. Oshiro moved that H.B. No. 341, HD 4, pass Third Reading, seconded by Representative Evans.

Representative Johanson rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Johanson's written remarks are as follows:

"Mr. Speaker, I rise with reservations on this bill. I understand the impetus of this bill, but I am concerned that this particular bill does not address non-consecutive abuse of sick leave. This legislation gives employers the ability to ask for a doctor's verification of sickness after three consecutive days of sick leave. However, it does not address potential sick leave abuses of a non-consecutive nature.

"Sick leave is an important benefit for our workers and needs to be honored. However, we must be careful not to so curtail the prerogatives of management that we negatively affect those businesses that are providing quality jobs for our workers."

Representative Ching rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ching's written remarks are as follows:

"Mr. Speaker, I rise in strong opposition to H.B. 341, which prohibits an employer with a minimum of 100 employees or a collective bargaining unit to terminate or demote an employee over their use of sick leave.

"This measure, colleagues, could cause an unwanted intrusion into the operations of business and management's right to provide and administer a non-government-mandated benefit. Sick leave is an enhancement to afford an attractive and stable work environment.

"Hawaii's employers and their employees deserve a viable marketplace where prosperity is facilitated and encouraged, rather than impeded by regulations. Creating a protection of the use of sick leave may force many businesses, especially small companies, to reduce or eliminate voluntary sick leave due to the potential abuse of this benefit that could result if the measure is passed. This may have the unintended consequences, such as a rise in the cost of doing business, an unstable work environment, and potential litigation.

"In fact, several questions remain unclear. Will employers have the right to question or challenge the sufficiency or legitimacy of such verification? Can the hearings branch handle this additional responsibility with the limited resources currently in the Division? The added burden of an additional protected area without additional personnel may cause hearings on the issue to be delayed and untimely to achieve an appropriate remedy."

Representative Fontaine rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and H.B. No. 341, HD 4, entitled: "A BILL FOR AN ACT RELATING TO EMPLOYMENT PRACTICES," passed Third Reading by a vote of 47 ayes to 1 no, with Representative Marumoto voting no, and with Representatives Awana, Har and Riviere being excused.

At 12:14 o'clock p.m., the Chair noted that the following bill passed Third Reading:

H.B. No. 341, HD 4

At 12:14 o'clock p.m. Representative Thielen requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:18 o'clock p.m.

Representative Cabanilla rose to speak in support of both measures, stating:

"Mr. Speaker, thank you. I rise in support of HR 25 and HCR 22. The people of lower Waipahu have been asking for this cleanup for years. The Navy should be good neighbors and help us take care of the land. We previously passed a Resolution and the Navy has not initiated the actions recommended by the Legislature.

"I have met with the Navy and I believe that it is still prudent for this Body to assert the position that the Navy should clean up the mangroves and the reef. The residents of lower Waipahu deserve fair treatment and these Resolutions will further encourage the Navy to proceed with the cleanup. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. ANNOUNCEMENTS

Representative Yamane: "Mr. Speaker, I have two announcements. First, Mr. Speaker, I'd like to inform everyone that today is World Kidney Day. World Kidney Day was created to celebrate and raise the awareness of the importance of the amazing filtering function of our kidneys. For some of our colleagues, during these stressful times, I know your kidneys work extra hard in filtering out substances like alcohol.

"Today the world-renowned Moanalua High School Orchestra will be performing on Ala Moana Center Stage at 6:00 to 7:30 p.m. to raise awareness of this important day and about chronic kidney disease. Tomorrow the National Kidney Foundation of Hawaii will also be providing free kidney screening at Ala Moana Hotel from 9:00 a.m. to 1:00 p.m.

"Celebrating World Kidney Day is easy. Just remember to treat your kidneys well by spoiling them by eating one of those kidney-friendly super foods, which include cranberries, blueberries, raspberries, strawberries, garlic, bell peppers, cabbage and onions.

"Mr. Speaker, I would also like to make a second announcement and that is that one of our colleagues celebrated their 43rd birthday yesterday. This young man, a graduate from Sacred Hearts School, before it became an all-girls school I guess, represents Maui. His birthday was on March 9th, 1968. He looks young, but he's my age. So I'd like to honor Representative Angus McKelvey on his 43rd birthday."

Representative McKelvey: "Thank you, very much. Thank you, Representative from Mililani. And just for his edification, Sacred Hearts in Lahaina is not an all-girls school. You should come out sometime and we'll show you around.

"But thank you very much, colleagues. I appreciate it. These last years have been wonderful and I look forward to many more years with all of you. Especially with my brothers from another mother. And the gentleman from Hawaii Kai I believe was also a birthday boy yesterday too. Correct? Yes, guilty as charged. Happy Birthday."

Representative Ward: "Mr. Speaker, I want to acknowledge the truth of that however, I've reached the age where it's don't ask, don't tell."

Representative Marumoto: "We were not able to acknowledge our Minority Leader's birthday yesterday so today, we'd like to give him a small token of our esteem. Best wishes from the entire Body. Thank you."

Representative Wooley: "Thank you, Mr. Speaker. I just want to let you know that tickets for the March 19, 3rd Annual Legislators Barbeque at Kualoa are sold out. If you reserved a ticket, but you haven't paid, you need to pay by the 14th. The waiting list is only open to legislators at the moment. Thank you."

Representative Ward: "Mr. Speaker, just as a reminder that our job descriptions may change in a hour and half. The Council on Revenues will meet, and who knows what's going to come out of it. But if it's not good news, we've got a lot of work to do. Thank you."

At 12:26 o'clock p.m. Representative Herkes requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:27 o'clock p.m.

Representative Hanohano: "I would like to ask for a moment of silence in honor of the late Herb Kane. Thank you."

At this time, the Members of the House of Representatives stood for a moment of silence in honor of the late Mr. Herbert Kawainue Kane.

It'll be Hawaiian attire and also bring your coats for the men, and for the women if they want to wear muumuus or aloha print blouse, and also their jackets. Thank you."

Representative McKelvey: "Thank you, Mr. Speaker, at the appropriate time I would like to ask for a moment of silence for the victims of the 3/11 earthquake and tsunami. Thank you, very much."

Representative Awana: "Thank you, Mr. Speaker. To piggyback on what the Representative from Lahaina mentioned in asking for a moment of silence. I'd just like to just make a few comments.

"As the Chair of International Affairs, I'd like to join in the prior request for a moment of silence for the people of Honshu, Japan, where the 8.9 magnitude earthquake took place, decimating the lives and memories of too many to count. This disaster affected not only those in Japan, but many other countries throughout the Pacific Rim, including our State of Hawaii. And for those reasons, I humbly ask for a moment of silence at the appropriate time. Thank you."

Representative Ward: "Mr. Speaker, in keeping with that same spirit, I'd like to thank Speaker Say, the Majority Caucus, the Minority Caucus and this whole Body for staying the course, and opening our daily sessions with prayer. Thank God, no loss of life took place during last night's tsunami. And yes some would say, 'Well, we dodged a bullet.' But some of us would say and contend, and be thankful that there's an invisible hand that pushes us out of the way of the bullet.

"So thank you for keeping the course, and for doing what otherwise we could not have done ourselves. Last night has worked out very well."

Representative Brower: "Yes, Mr. Speaker. I'd just like to thank you and the Members. My grandparent's family members are from Sendai, and having visited Sendai a few years ago it is a very beautiful part of Japan. Thank you."

At this time, the Members of the House of Representatives stood for a moment of silence to remember the victims of the March 11, 2011 earthquake and tsunami generated off the coast of Honshu, Japan.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 200, HD 1, pass Second Reading and be placed on the calendar for Third Reading, seconded by Representative Evans.

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise with reservations."

The Chair addressed Representative Ward, stating:

"Please proceed with your reservations. May I incorporate your remarks for this on Third Reading, as well?"

Representative Ward: "Do you mean, will I change my mind, or will I say the same thing that I'm going to say now?"

Speaker Say: "If you will be saying the same thing that you are going to say today, so we can incorporate it and shorten the Journal."

Representative Ward continued, stating:

"Possibly. If my words are taken to heart, I won't have to speak again. If they're not taken to heart, then I have to remind people. There are a few things that need correction. Thank you, Mr. Speaker. And thank you for that primer to my thoughts because first I want to commend the Budget Chair for a job well done, almost. But because it puts the COFA funds as a separate issue, and it takes them out of the purview of what otherwise is now about \$120 million per year for the Micronesians, social, educational, and other budget. It also recognizes that we as an independent Body rejected what otherwise the Fifth Floor, of which many people thought

because the Fifth Floor says it, we're going to do it. And this budget does not reflect that perspective.

"Mr. Speaker, I do have a concern about the tenor and tone of the Committee Report, and I hope that in the Third and Final Reading, I won't have to mention this because it's more like 'tsunami' language. It says the impact of the previous Administration's policy has been widespread, significant, and devastating. I don't think that's very fair or objective. And I know we always like to blame the guys that came before us, but this is not very erudite, nor fair, quite frankly. There's too much that we have control over which we blame people before us.

"The other thing, Mr. Speaker, is that the Council of Revenues, within 24 hours after this budget went in and bumped us up by \$266 million. If we would have waited, maybe there would be less shock value in this budget because right now, there's a huge gap that's been acknowledged within that short period of time. And if we looked at the realities of what happened last Thursday, thank God we're all safe, but look at what's going on in Japan. Japan and the visitor industry is going to be direly affected by that. You can add another \$100 million because of the downturn of Japanese tourism that's going to occur because of the tsunami.

"So the point is we are going to be in deeper trouble than we already had anticipated. We've still got to look for more savings. We've still got to look at some of those structural flaws. Mr. Speaker, we've got 13 hospitals which are bleeding every year. About \$25 to \$50 million. We've got to look at getting those things structured and restructured.

"I'm also concerned that we only have a three-year plan. The six-year plan is what is called for in the Constitution. This is a three-year plan, even though there was a six-year plan submitted, it was the Lingle Administration's one. But what came from the Fifth Floor and what I've seen in this one is only for three years, so we've still got three years to go to see if we're out of the woods.

"One of the last points, Mr. Speaker is, 'Okay, yeah. You Minority guys. You stand up and you make complaints and you give different kinds of slighted comments here and there.' And the often-asked question is the one I'm going to end on. It is, 'Okay what are you, the Minority. What are you going to do about this? Where are your cuts? Where's your balanced budget?'"

"And, Mr. Speaker, I want to announce that the Minority in its second year of going to put out its alternative budget. It's still under construction, but it's going to be at www.hawaii.statebudgetonline.com. So anybody can see it and it's for the public to basically look at an Excel sheet that's interactive. They can choose which revenues that they want to use to fund it. Taxes if they want to increase taxes. They have the choice. And what expenditures they want to add, or they want to subtract.

"So, Mr. Speaker, when somebody says, 'Well they stand up and they complain. But they don't have a delivery system,' www.hawaii.statebudgetonline.com is that delivery system. For the following reasons and those that I've just spoke of, I have strong reservations. Thank you."

Representative Ching rose in support of the measure with reservations and asked that the remarks of Representative Ward be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 200, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE BUDGET," passed Second Reading and was placed on the calendar for Third Reading, with Representatives Carroll, Coffman, Marumoto, McKelvey, Morita and Nakashima being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 953) recommending that H.B. No. 300, HD 1, as amended in HD 2, pass Third Reading.

By unanimous consent, consideration of Stand. Com. Rep. No. 953 on H.B. No. 300, HD 2, was deferred and in accordance with Article III, Section 15 of the Constitution of the State of Hawaii, printed copies of H.B. No. 300, HD 2, were made available to the Members of the House.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 954) recommending that H.B. No. 400, as amended in HD 1, pass Third Reading.

By unanimous consent, consideration of Stand. Com. Rep. No. 954 on H.B. No. 400, HD 1, was deferred and in accordance with Article III, Section 15 of the Constitution of the State of Hawaii, printed copies of H.B. No. 400, HD 1, were made available to the Members of the House.

ANNOUNCEMENTS

Representative Yamane, for the Committee on Health requested a waiver of the 48-hour advanced notice requirement for the purpose of hearing with decision making to follow on S.B. No. 1274, SD 2, Relating to Health Insurance, on Tuesday, March 15, at 11:20 a.m. in Conference Room 329, and the Chair "so ordered."

"Mr. Speaker, and Members, just to let you know, the Insurance Commissioner came to me this morning requesting a waiver for this bill due to the fact that without this measure, they're dealing with the issue of federal preemptive. Thank you."

Representative Hanohano: "I would just like to make an announcement for members of the Hawaiian Caucus to meet in front of the Caucus Room for picture taking for those that didn't come the first time, so we'll be all together. Thank you."

Representative Cabanilla: "Mr. Speaker, I would like to make an announcement. Mr. Speaker, Members, in light of the catastrophe and the loss of lives in increasing numbers in Sendai, Japan, I would like to share with you my very delightful experience with spending two successive winters in Sendai, Japan. As a young second lieutenant in the Army Reserves, Mr. Speaker, many, many years ago when the price of Sapporo beer was 25 cents in US dollars, per bottle, I had the opportunity to spend time with Japanese soldiers, as well as the local people in Sendai.

"In Sendai, Mr. Speaker, there was a US Air Force base that was gifted to the Japanese Army. But the recollection that I have of those cold winters was how warm and respectful the people were, and of their inspiring hospitality. When we walked to a restaurant, Mr. Speaker, and there were no empty tables, the locals would stand up so they could offer their tables to us. They would sing karaoke in English just to impress us, and they did a pretty good job at it. As a female soldier, Mr. Speaker, they gave me the same amount of respect as that of the male soldiers.

"As a recipient of their inspiring hospitality, Mr. Speaker and Members, I ask that we pray for them for they have demonstrated in more ways than one, that they are a people who honor us and serve as an ally to this country. Thank you, Mr. Speaker and Members, for listening to my story."

Representative Awana: "Thank you, Mr. Speaker. Again, the people of Hawaii recognize that a large and prominent migration of Japanese have come to settle here in our Aloha State and as stated by President Obama, when we face these kinds of natural disasters whether it is in New Zealand or Japan, then you think about your own family and you think how would you feel if you lost a loved one or if your entire life savings were gone because of the devastation.

"Mr. Speaker and Members, we too faced the possibility of a tsunami hitting us during the early morning of March 11. Substantial damages were sustained in both Maui and Hawaii counties. And this time we were spared compared to what could have been. Let this be a call to action to live life to its fullest because it can be taken away in a matter of minutes. Thank you, Mr. Speaker."

At 12:43 o'clock p.m. Representative B. Oshiro requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:57 o'clock p.m.

Speaker Say: "The Chair has an announcement to make this afternoon and for all the Members. For all of us, this is a day of loss for the House of Representatives, but a day of great benefit to the citizens of the State of Hawaii. Representative Hermina Morita will be resigning from the House today to assume the Chairpersonship of the Public Utilities Commission.

"Governor Abercrombie has made a fine choice in appointing her to that position. We all know of Representative Morita's work ethic, intelligence, and dedication to the public good. These attributes will enable her to lead the Public Utilities Commission and the State of Hawaii to a better future.

"Representative Morita, at this time, on behalf of your colleagues in the House, we would like to present you with this token of our appreciation and friendship. Representative Blake Oshiro, please proceed."

At this time, Representative B. Oshiro presented Representative Morita with a gavel on behalf of the House of Representatives.

Representative Tokioka: "Thank you, Mr. Speaker. Mr. Speaker, it is a very proud day for Kauai today. Two of our former legislators were confirmed by the Senate today. I'm assuming that former Senator Hooser was confirmed as well, right? So on behalf of all of the people on Kauai, we want to extend to the Representative from Hanalei our best wishes. We know that she will do an excellent job at the PUC. We know that the people on Kauai will be better served. We know that the State of Hawaii will be better served with you there, Mina. Congratulations on your appointment. Mahalo."

Representative Ward: "Mr. Speaker, on behalf of your Minority we wish to also commend the Representative for a new era, and I know Representative Thielen is going to really miss you, and Representative Riviere. They're going to pine for the environmental excellence that you bring.

"But, Mr. Speaker, I hope that she will not leave until renewable energy is ingrained, institutionalized, and we are off that \$7 billion which you've stood and spoken so often about on this Floor. Well done, and may I propose a standing ovation for our illustrious Member from Kauai. Thank you."

Representative Belatti: "Thank you, Mr. Speaker. I know that it's not usual for someone to stand on this, but I think I do want to make a few remarks. I stand with deepest Aloha for my colleague from Hanalei. A quote by Margaret Mead probably most explains or applies to the Representative of Kauai. It's that you should never doubt that a small group of thoughtful, committed citizens can change the world. Indeed it's the only thing that ever does. And Mina embodies that type of small, but thoughtful, committed citizen that can move the world.

"The following are just a few of the accolades afforded to the Representative during her recent confirmation hearings as Chairwoman. Mina leaves a legacy of environmental policy advances. There is simply no person in Hawaii who knows more about energy than Mina. She tackles important policy changes before most people even understand their implications, and she operates with integrity and keeps her word.

"Mr. Speaker, as you said, it is truly a loss for this Chamber that Mina will be leaving us, but it is a gain for the State to have a Chair who understand the necessity and complexity of modernizing Hawaii's regulatory systems so that we can achieve that prosperous and sustainable future for Hawaii that we all want. I am honored to count the senior Representative from Kauai as a role model, mentor and friend, and she will be missed.

"And if there's one quote that I would hold deeply as I move forward in my career it is what she has once said on this Floor in these Chambers.

That doing nothing is not an option, not if we call ourselves leaders. Thank you to the Representative from Kauai, for all of her service."

Representative M. Lee: "Thank you, Mr. Speaker. It's sort of a sad and a happy day for me personally. In 1996 Mina and I came in together, and we're the last two left of the class of 1996, so I guess I'll have to tough it out alone. I wanted to share some of the things that Mina and I have shared together over the years because it's really been a wonderful friendship.

"Thank you, Mina, for sharing things like the ferry from Lahaina to Kauai. Limahuli Garden, which is so beautiful. Swimming in that freshwater mountain stream; kind of risky when you think about some of the diseases you can catch. Sharing a Corona while watching the sunset. Hiking the Alakai Swamp. Being Flemming Fellows in China, which was really a special experience thanks to Roy who's sitting there kind of dozing off. And thank you also for being the partner with Representative Thielen and I on the Women's Caucus. You've always been willing to speak up for the tough issues. Always been willing to give the speech on emergency contraception when others wouldn't, and you don't know how much I appreciate that.

"We'll miss you very much, but after all you are not going to Mars. You're going to be almost right next door. And so we hope that we'll be able to share other experiences with you in the future. But again you will be remembered for your hard work here in the Legislature, and for your insistence upon making good policy. You'll be remembered for the 'Bottle Bill.' I want to thank you very much for your friendship and for what you've given to this House. Aloha."

Representative Tokioka: "Mr. Speaker, not an announcement but I know how shy Representative Morita is, but can we ask her to introduce her family because I know how much she loves her grandchildren and her family. So, Mr. Speaker, could we ask the Representative to do that? Thank you."

Representative Takumi: "Thank you very much, Mr. Speaker. Before Representative Morita stands up and introduces her family and gives her final remarks into the Journal, I'd be remiss if I didn't say a few words as well.

"First of all, Mina, I thought for sure I'd be before you. But heck, I'm still here and you're going to be leaving so that's a commendation on your part I suppose. We first met when Mina decided to run for office and I still remember sitting down with her, and I left that meeting with her realizing that here's this woman, and I think that for those of you who know Mina's history, born and raised on Lanai in a very simple family in the best sense of the word. The kind of values that you have growing up in a small community like Lanai and boarded at Kamehameha School, and after that moving to Washington D.C. to work for Senator Hiram Fong, a Republican. That goes to show you she's bipartisan in that respect.

"And so I always was amazed that someone who was born and raised on Lanai who kind of had dreams for herself, ended up in Washington D.C. and ended up on Kauai with Lance to raise a wonderful family. And here she is today and still that same person, unassuming and modest. And we found out how stubborn she can be as well, but stubborn in the very best sense of the word, Mr. Speaker, because stubborn also means someone who can persevere. Someone who is focused. Someone that remains committed to the common goal that we all believe in and that is for a better Hawaii. And I think that kind of skill set will serve her well as Chair of the Public Utilities Commission.

"So I'm going to miss Mina a lot, but again she's going to be just down the road so it's not like she's going anywhere anytime soon. We wish her the best, and we know she'll do a wonderful job for the State of Hawaii. Thank you, Mr. Speaker."

Representative Morita: "Thank you, Mr. Speaker. I'm kind of bummed that I missed the Roll Call this morning. That was supposed to be my last roll call and votes. And I'm sorry to keep you waiting, and thank you for my gavel. As Chair of the Public Utilities Commission I can guarantee you that I will be making good use of it. So thank you.

"I'd like to introduce my family. My two daughters are here. My daughter Mindy Laney. And my daughter Misha Taylor, and my son-in-law Ben Taylor. Also my three granddaughters. We have Mindy's daughter Halia Tinder; and Ben and Misha's daughters Kauanoe Taylor, and Lililehua Taylor who turned four today. I also have my sisters, Phyllis McFadden, Alberta de Jetley, and my *hanai tita*, Suki Nakoa. My husband Lance is out of state right now.

"If I may, Mr. Speaker, I have a statement. I've always thought that when I left the Legislature that it would be to return to Hanalei and to retire. Never in my wildest dreams did I think that I'd be leaving without completing a term, and to take on a new challenge. And here I am today to say goodbye and thanking my colleagues. I didn't even participate in my last Floor session, but thank you.

"And as the Representative from Mililani-Mauka said, I am leaving her and she will be the last remaining person from the freshman class of 1997. It's been a privilege and honor to serve the Island of Kauai and the State of Hawaii for the past 15 years. Mr. Speaker, I am extremely grateful to you and my colleagues for your continued confidence in me to have Chaired the House Committee on Energy and Environmental Protection for the past 13 years.

"This leadership assignment undoubtedly helped to define my legislative career and opened the opportunity for me to further serve the State of Hawaii as the Chair of the Public Utilities Commission. This would not have been possible without all of your support and faith in me. Thank you.

"Under the current PUC Chair, Carlito Caliboso's thoughtful and steady leadership, the PUC has been evolving to keep up with the changing technology and innovation to meet the State's changing policies and consumer demands. I hope to build upon this foundation in a strong partnership with my fellow Commissioners, the Legislature and the Administration to enhance the capacity of the PUC to serve the needs of this State in the most cost effective way. And I know I'll be appearing before the CPC Committee and Finance Committee on many issues. So I'll just be sitting on the other side of the table now.

"But before I leave, I wanted to share some thoughts with you that have helped me navigate the political arena in the past 15 years and I think it's quite appropriate since it's Hawaiian Caucus Day.

"Years ago, I saw an embroidered pillow at a friend's house and it read, 'Be careful of the toes you step on today. It might be connected to the ass you have to kiss tomorrow.' So be kind and gentle to each other, and practice Hawaii's triple bottom line, the values that identify us as a special state. *Aloha*, to practice compassion and love, *Kuleana*, to take responsibility for one's action. And *malama pono*, to do what is right and just.

"These are the Hawaii values that we share to build stronger families, a better work environment and sustainable communities. As I look forward to taking on this new challenge I leave you with a heavy heart because of all the many special relationships I have formed with my colleagues and our dedicated support staff.

"I especially want to thank Jen Lucien, my office manager who has not only been a dedicated staff member, but a trusted friend and confidant. Merissa and Lahela, you both have been so awesome and I'm sorry to leave you, but I know the person that takes my place will be in good hands with both of you. And I thank my family, my family on Kauai, Lanai and Oahu. And my good friends, Carol and Gaylord Wilcox, and a special friend, Harold Bronstein. These people have been the pillars of my support.

"Mr. Speaker and colleagues, I am sad, but our work together will continue, just with me in another capacity, in a different role as we strive to build a better future for Hawaii. Thank you."

REPORTS OF STANDING COMMITTEES

Representative Yamashita, for the Committee on Legislative Management presented a report (Stand. Com. Rep. No. 955), recommending that H.R. No. 63, be referred to the Committee on Finance.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.R. No. 63, be referred to the Committee on Finance, seconded by Representative Evans.

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise with strong reservations on Stand. Com. Rep. No. 955. I wish we could cite speeches we gave 10 years ago or even longer because this is the same speech I've had for years about the 'Olelo coverage of which my vision was this would be a CSPAN that everybody, at any time, will know exactly what we do and what we're doing in Committees, the Floor – open, transparent.

"Mr. Speaker, what we're doing is basically, 'same old, same old.' In fact, I think it's still the same price that Mr. Booth gets, and I thank him for

keeping his prices down, but still this is command and control from the Speaker. He decides who gets coverage, who doesn't get coverage, what kind of coverage is put together, and what kind is not. I think we need to be more open and have more coverage, and it should be a committee or a task force, and not just the Speaker.

"He's done a good job, but I think we can do better with a collective mind. For those reasons, I have very serious reservations. Thank you."

Representative Saiki rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.R. No. 63, entitled: "HOUSE RESOLUTION ESTABLISHING POLICIES FOR THE LEGISLATIVE BROADCAST PROGRAM'S CABLECASTS AND WEBCASTS OF HOUSE OF REPRESENTATIVES' PROCEEDINGS," was referred to the Committee on Finance, with Representative Thielen being excused.

Representatives Cabanilla and Chang, for the Committee on Housing and the Committee on Water, Land, & Ocean Resources presented two reports:

(Stand. Com. Rep. No. 956), recommending that H.R. No. 24, be referred to the Committee on Finance; and

(Stand. Com. Rep. No. 957), recommending that H.C.R. No. 27, be referred to the Committee on Finance.

Representative B. Oshiro moved that the reports of the Committees be adopted, and that H.R. No. 24; and H.C.R. No. 27, be referred to the Committee on Finance, seconded by Representative Evans.

Representative Cabanilla rose in support of both measures and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Cabanilla's written remarks are as follows:

"Mr. Speaker, I rise in strong support of House Resolution 24 and House Concurrent Resolution 27. These Resolutions urge the Honolulu City Council to extend the Historic Property Tax exemptions to infill homes within the Ewa Villages Historic District.

"The aesthetic appearance and physical maintenance of infill homes are the same as those historic homes, yet the infill homes do not receive the same exemption as the historic homes. Since many owners of such infill homes must expend a tremendous amount of energy and resources on the upkeep, I believe it is only fair that we extend the tax exemption to those owners.

"To encourage consistent and fair policy, I strongly support the adoption of these Resolutions that urge the Honolulu City Council to treat similarly situated infill homeowners within the Ewa Villages Historic District and include them in the Historic Property Tax exemptions. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the reports of the Committees were adopted and H.R. No. 24, entitled: "HOUSE RESOLUTION URGING THE HONOLULU CITY COUNCIL TO EXTEND HISTORIC PROPERTY TAX EXEMPTIONS TO INFILL HOMES WITHIN THE EWA VILLAGES HISTORIC DISTRICT," was referred to the Committee on Finance, with Representative Thielen being excused; and

H.C.R. No. 27, entitled: "HOUSE CONCURRENT RESOLUTION URGING THE HONOLULU CITY COUNCIL TO EXTEND HISTORIC PROPERTY TAX EXEMPTIONS TO INFILL HOMES WITHIN THE EWA VILLAGES HISTORIC DISTRICT," was referred to the Committee on Finance, with Representative Thielen being excused.

Representative Brower, for the Committee on Tourism presented a report (Stand. Com. Rep. No. 958) recommending that S.B. No. 116, SD 2, as amended in HD 1, pass Second Reading and be referred jointly to the Committee on Hawaiian Affairs and the Committee on Culture & the Arts.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and S.B. No. 116, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CULTURE AND THE ARTS," passed Second Reading and was referred jointly to the Committee on Hawaiian Affairs and the Committee on Culture & the Arts, with Representative Thielen being excused.

THIRD READING

H.B. No. 200, HD 1:

Representative B. Oshiro moved that H.B. No. 200, HD 1, pass Third Reading, seconded by Representative Evans.

Representative M. Oshiro rose to speak in support of the measure, stating:

"Mr. Speaker, thank you. I rise in support of House Bill 200, House Draft 1. May I also have permission to enter additional written remarks into the Journal?

"Mr. Speaker, before I proceed speaking in support of the budget before us, please allow me the traditional courtesy and opportunity to thank those who have spent countless hours behind the scene preparing what you have before us today.

"First and foremost, let me thank my able and capable right-hand man who happens to be a woman, Vice Chair Representative Marilyn Lee, who has remained my fellow driver, conductor, co-pilot, and oftentimes the good cop of this team. She continues to help ensure the overall health and well-being of our Committee members and the budget process. And certainly her demeanor, as well as the colorful stars that she awards members for their punctuality, creates a cheerful ambiance and some levity necessary on those long days and long evenings of crafting this budget.

"Next let me thank the Committee members for their hard work and dedication towards developing meaningful fiscal and policy solutions. First of all our veteran members, those who are the sophomores, juniors, seniors, senior-seniors, and senior-senior-seniors, for your institutional knowledge and insight that have helped drive our analysis of the key issues. Certainly I believe that iron does sharpen iron, and for those stalwarts I extend my appreciation.

"To our younger and new members the freshman class, your refreshing inquisitiveness has brought new light to our discussions. Your avant-garde way of approaching the budget, your questioning, your probing has brought new light to our decisions. And of course to our Minority members, your often contrary views prompt lively discussion and debates.

"Thank you to our Committee members. Thank you also to the Committee Chairs for your input, advice and counsel.

"And finally, Mr. Speaker, I must thank my Finance staff for their hard work and diligence in their review of bills and in crafting a well-thought out budget. Our permanent and session staff includes and they are with us in the gallery today so as I call them, I will ask them to stand so you can finally put a face and being to the names that you see in emails and other communications.

"Committee Clerk, Nandana Kalupahana. Okay he's still working. Very good, Nan.

"Our Front Office Staff: Midori Hirai, Debra Yuen, Lucia Phan and Jenai Umetsu, led by Tracy Kubota and Jo Hamasaki.

"The Research Staff: Megan Muramatsu, Nicole Velasco, Tiffany Aoyama, James Larson, led by Randall Hiyoto and Stacey Tagala.

"Researcher and CIP Specialist, Erik Abe. Please remain standing you guys. I know, it's cubicle fatigue. I guess our Researcher and CIP specialist Erik Abe is not with us.

"And, our Budget Staff: Karisa Look, Maryanne Takahashi, Michael Fisher, Nicholas Chong and Renee Stapley, led by Puna Chai and Alex Kagawa.

"This year's theme was 'FIN It to Win It.' Members, please applaud our capable and dedicated Finance Staff. Thank you, Mr. Speaker.

"Mr. Speaker, in reflecting upon this budget, I find myself at a loss to describe the process we've been going through these past several months. After 3 years, here we are again: *déjà vu*. Faced with a budget deficit well beyond our ability to pay. Faced with a set of choices that no one wants to make.

"Indeed the story hasn't changed, the cost of providing government services continues to grow, but no one wants to pay for it. We all want that free lunch. Well, Mr. Speaker, there is no free lunch. Mr. Speaker, we all need a reality check."

Representative Ichiyama rose to yield her time, and the Chair "so ordered."

Representative M. Oshiro continued, stating:

"Thank you, Representative. We all need a reality check because we simply do not have the money to pay for the government services that we currently have, and we don't seem willing to pay for the government services we want. Let us not forget that even with growing fixed costs, we've cut nearly \$2 billion in expenditures over the past years. This budget proposes to cut another \$240 million over the next two years.

"Yet, it is approximately \$200 million smaller than the budget proposed by former Governor Lingle. And, it is approximately \$500 million smaller than the budget proposed by Governor Abercrombie.

"Mr. Speaker, we need a reality check when examining the projections of the Council on Revenues. You see, the Council on Revenues recently revised their projection downward from 3% growth, to 0.5% for Fiscal Year 2011. That's the fiscal year that ends in four months, June 30th 2011. And it's a 2.5% drop in revenue.

"To put this in perspective, in order to meet this 0.5% growth, we need to collect more than \$400 million in monthly tax collections over the next 4 months. The reality is we've only been averaging about \$360 million per month for the last year. The reality check, Mr. Speaker, we've only collected more than \$400 million a month twice, only two times, since July 2009. That's only twice, two times in 32 months. I seriously doubt we will hit this mark 4 times in 4 months.

"Mr. Speaker, we need to look at the realities evolving in our world economies. Due in part to civil unrest in Egypt, Tunisia, Libya, Yemen, Iran, Saudi Arabia and Bahrain, everyone here has seen the price of gas increase dramatically, where oil prices have increased from a low of \$85 a barrel, to over \$115 in recent weeks alone. Once again, Hawaii posts the highest gas prices in the nation, and some Members report a 20 cent increase in less than two weeks.

"Of course, how can we deny the tragic reality and suffering of our friends and families in Japan? Think about it. Less than one week ago, on March 11, 2011, the world changed completely as the entire global community witnessed nature as it unleashed its fury on Japan. Locally, we all braced for a tsunami and few slept that night, anxious, hoping, praying, glued to our TV sets and radios, awaiting the 3:00 arrival of the tsunami. People were evacuated. We took it seriously. Coastal communities headed for higher ground. Sirens sounded on the hour. And, the tsunami did hit us. It did inflict terrible damage to residential and business properties. But we will be okay. Hawaii will recover from the effects of the tsunami. But, in Japan, the effects of last week's earthquake and tsunami unfold like a

horrible nightmare, now compounded by the uncertainty of nuclear exposure that may surpass Three Mile Island.

"Our hearts, thoughts and prayers remain with the citizens of Japan, as well as those who have family and friends residing or visiting there. While the damage at home pales in comparison, the real impact may be seen within our tourism industry. According to local media, more than 15 incoming flights carrying thousands of tourists were cancelled on Friday. Industry stakeholders, facing reality, are bracing for the decline. Preparing and planning for this awful, but foreseeable consequence of global events beyond our shores.

"Mr. Speaker, we need to take a reality check and get back to work. With that in mind, this budget has three goals. Number one, control the growth of overall expenditures. Number two, to provide the new Abercrombie Administration the flexibility to retool and reprioritize to achieve a new normal."

Representative C. Lee rose to yield his time, and the Chair "so ordered."

Representative M. Oshiro continued, stating:

"Thank you, Representative Lee. I'm just about done. Thank you. And number three, to require higher level of accountability.

"Mr. Speaker, we have much to do and I suggest – no, actually I ask that everyone again read the Finance Committee's report that sets forth the direction and policy of your Committee.

"In closing, let me share some of the remarks of our Governor during his State of the State address on January 24th, 2011. I think it's apropos.

We cannot, and will not entertain ideas that are designed simply to shift responsibility to someone else, or to some future time. In the end, we must come to an agreement now that is balanced in its impact, that is adequate to restore the functions of government, and that does not create counterproductive barriers to economic recovery.

The challenge before us is not to simply balance a budget. Our challenge is to ensure that our values and priorities are reflected in the decisions we make and the actions we take. The time for debate, debate which merely goes through the motions, or the rhetoric for the sake of a safe harbor political agenda, has expired. Everyone must be prepared to contribute.

"Thank you, Mr. Speaker."

Representative M. Oshiro's written remarks are as follows:

"Mr. Speaker, I rise in support of House Bill 200, House Draft 1.

"Before I proceed in speaking in support of the budget before us, please allow me the opportunity to thank those who have spent countless hours preparing what you have before you.

"First and foremost, I must thank my Vice Chair – Marilyn Lee, who has remained my fellow driver, conductor, co-pilot, and "good cop". She continues to help ensure the overall health and well being of our Committee and budget. Her demeanor, as well as the colorful stars she rewards members for their punctuality, creates a cheerful ambiance which continues to carry us through the longest of hearings.

"Next, I must thank the Committee members for their hard work and dedication toward developing meaningful fiscal and policy solutions. To our veteran members, your institutional knowledge and insight have helped drive our analysis of the key issues. To our Freshmen, your refreshing inquisitiveness has brought new light to discussions; and to our Minority members, your often contrary views prompt lively debates and engaging discussion. Thank you to our Committee members.

"Thank you also to the Committee Chairs for your direct participation, advice and counsel.

"And finally, I must thank my Finance staff for their hard work and diligence in their review of bills and in crafting a well thought out budget. Our Permanent and Session staff includes:

- Committee Clerk, Nandana Kalupahana;
- Our Front Office Staff: Midori Hirai, Debra Yuen, Lucia Phan and Jenai Umetsu, led by Tracy Kubota and Jo Hamasaki;
- The Research Staff: Megan Muramatsu, Nicole Velasco, Tiffany Aoyama and James Larson, led by Randall Hiyoto and Stacey Tagala (who also serves as a budget analyst);
- Researcher and CIP Specialist, Erik Abe; and
- And, our budget staff includes: Karisa Look, Maryanne Takahashi, Michael Fisher, Nicholas Chong and Renee Stapley, led by Puna Chai and Alex Kagawa.

"Mr. Speaker, in reflecting upon this budget, I find myself at a loss for words. After 3 years, here we are again. Faced with a budget deficit well beyond our ability to pay. Faced with a set of choices no one wants to make.

"The story hasn't changed, the cost of government continues to grow, but no one wants to pay for it. We all want that "free lunch".

"What makes things worse is most cost increases have occurred in the following areas, some of which we have little control over:

- Fixed costs such as debt service we've accrued in order to pay for the construction and maintenance of state facilities, such as classrooms, hospitals and public housing units;
- Rising health care costs for active and retired state employees;
- Unfunded liabilities, like pension and social security costs for our retirees; and
- Medicaid.

"We must also fill the gap left by the onetime infusion of American Recovery and Reinvestment Act money – money that will no longer be available for us to use.

"Mr. Speaker – we all need a reality check. We simply do not have the money to pay for the government we currently have and we certainly don't seem willing to pay for the government services we want.

"Even with fixed costs growing, we've cut nearly \$2 billion in expenditures over the past 2 years. This budget, proposes to cut another \$240 million over the next 2 years. Yet, it is approximately \$200 million smaller than the budget proposed by the former Governor Lingle. And, it is approximately \$500 million smaller than the budget proposed by current Governor Abercrombie.

"Mr. Speaker, we need a reality check when examining the projections of the Council on Revenues.

"The COR recently revised their projection downward from 3% to 0.5% for Fiscal Year 2011. A 2.5% drop in revenue. To put this in perspective, we need to collect more than \$400 million in monthly tax collections over the next 4 months to reach this number. The reality is, we've only been averaging about \$360 million per month for the last year. Reality check, Mr. Speaker – we've only collected more than \$400 million a month twice since July 2009 – only twice in 32 months. I seriously doubt we will hit this mark 4 times in 4 months.

"Mr. Speaker, we need to look at the realities evolving in our world economies. Due in part to civil unrest in Egypt, Tunisia, Libya, Yemen, Iran, Saudi Arabia and Bahrain, everyone here has seen the price of gas increase drastically, where oil prices have increased from a low of about \$85 per barrel to a high of over \$115 in recent weeks alone. Once again,

Hawaii posts the highest gas prices in the nation and some Members report a 20 cent/gallon increase in less than a month.

"Of course, how can we deny the tragic reality and suffering of our friends and families in Japan? Think about it. Less than one week ago, on March 11, 2011 the world changed completely as the entire global community witnessed nature unleashed its fury on Japan. Locally, we all braced for a tsunami and few slept that night, anxious, hoping, praying, glued to our TV sets, radios, awaiting the 3:00 am arrival of the tsunami. People were evacuated. We took it seriously. Coastal communities headed for higher ground. Sirens sounded on the hour. And, the tsunami did hit us. It did inflict terrible damage to residential and business property. Fortunately no lives were lost. We will be ok. Hawaii will recover from the earthquake and tsunami in Sendai. But, in Japan, the effects of last week's earthquake and tsunami unfold like a horrible nightmare, now compounded by the uncertainty of nuclear exposure surpasses Three Mile Island nuclear event.

"Our hearts, thoughts and prayers remain with the citizens of Japan, as well as those who have family and friends residing or visiting there. While the damage at home pales in comparison, the real impact may be seen within our tourism industry. According to local media, more than 15 incoming flights carrying thousands of Japanese tourists were cancelled on Friday. Industry stakeholders, facing reality, are bracing for the decline in visitors. Preparing and planning for this awful but foreseeable consequence of global events beyond our shores.

"So far, our solutions to address such realities have been very short term in nature.

"We have approved "one time fixes" such as the diversion of tobacco monies and special funds to the general fund. And, we witnessed the short term gains, but longer term consequences of rejecting federal funds and of layoffs and furloughs. All of which depleted our workforce, diminished service delivery levels expected by the public, and eliminated valuable instructional hours for our students.

"Mr. Speaker, it is clear that while such solutions may have gotten us through the past few years, they cannot produce long term savings or permanent solutions. Without additional revenues to pay for the restoration of critical services, establishing a new normal must be explored.

"With that in mind, this budget has 3 goals:

1. To control the growth of overall expenditures;
2. To provide the new Administration the flexibility to retool and reprioritize to achieve a new normal; and
3. To require higher levels of accountability.

"Mr. Speaker, the term "new normal" cannot continue to be just a catch phrase or a slogan, but must be translated into action. It is time that we, as a State take a systematic approach to assessing and evaluating our current State of government.

"This budget does not eliminate specific programs, nor does it identify which areas should be cut. Rather, it allows the departments to prioritize and refocus on their core services.

"One of the biggest barriers to proceeding in this direction lies within each department and program wherever a "silo" mentality exists. Mr. Speaker, now is not the time to maintain walls or silos, but rather to break them down and get rid of inefficiencies and redundancies.

"To further assist in this effort, this budget provides the Governor unprecedented, broader authority to transfer resources between programs and departments to enable greater flexibility in accomplishing this objective.

"In return, your Committee seeks greater collaboration, transparency, and accountability.

"Mr. Speaker, there are few rewards to making hard choices. But it must be done. We must all be willing to make those tough decisions.

"We may not see the rewards right away, but by embracing a long-term outlook we will invest more in our future generations. Together, we can ensure the future prosperity of our island economy and State.

"As our Governor stated during his State of the State Address on January 24, 2011,

"... we cannot and will not entertain ideas that are designed simply to shift responsibility to someone else or to some future time. In the end, we must come to an agreement now that is balanced in its impact, that is adequate to restore the functions of government, and that does not create counterproductive barriers to economic recovery.

The challenge before us is not to balance a budget. Our challenge is to ensure that our values and priorities are reflected in the decisions we make and the actions we take. The time for debate – debate which merely goes through the motions, or the rhetoric for the sake of a safe harbor political agenda – has expired. Everyone must be prepared to contribute".

"Mr. Speaker, we have yet to cross uncharted waters before we can come ashore, but our canoe is taking water. We need to keep bailing. We also need to keep moving forward. But because now there are fewer paddles in the water, our momentum may slow. We cannot afford to slow down. We cannot afford to stop. So at some point, those who have been bailing water need to pick up a paddle and start paddling. There is a Hawaiian proverb or *Olelo No'eau* explaining how within a canoe, each paddler needs to paddle in unison in order for the canoe to move forward quickly: *Pupukahi I holomua*, Unite to move forward.

"Mr. Speaker, this budget and the revenue bills passed by the House asks everyone to pick up a paddle. It's the only way we will survive. Thank you."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise with reservation and with gratitude that we have the Governor's Cabinet here. I think that is a great honor to have them here even though I was looking here earlier and the *kupuna* were here, so as they stare at us, the *kupuna* because of the taxes and the pensions that's in here. It's going to balance out, but they left and now we've got the Governor's Cabinet.

"I have reservations because, reservations means we have questions about a bill, or about a policy or about anything that we do here. And I agree with the Chair of Finance who very eloquently said the Minority has a role. It has a way of putting iron against iron and my comments as I speak are for that very purpose.

"But I think the reality check is not whether there's a free lunch or not, Mr. Speaker. It's whether the people of Hawaii can afford lunch, or can feed and house and take care of themselves given the burdens that we're shifting from government to them, from the public sector to the private sector.

"So question number one is, can our community afford this budget? Can we afford this given what is going on right now with our citizens? Gasoline prices, as already mentioned are \$4 and probably going to reach \$4.50 soon. Maybe \$5.00. Registration and the other fees that are in this bill, weight taxes, double the costs of driving on the highway.

"Can we afford this budget when people are using their credit card more and more? Right now we're I think second in the nation in terms of credit card usage. Can we afford this when we are already the highest taxed state in the nation? We're already paying the highest tax. This budget bumps them up again. Again, can we afford it when our businesses are shedding employees or to some degree stabilizing them? But with the Council on

Revenues last week, it looks like because of Japan, this business community is going to get hit again.

"And yesterday some of us were in the Chamber of Commerce Small Business Community and there was very openly for the first time ever, an open discussion of an increase in the GE Tax. And I know that those ladies and gentlemen from the Governor's Office know that there was a promise made to the people of Hawaii about not increasing the GE Tax. But if you heard the discussion from some Senators and some Representatives yesterday, it's like that's coming closer to reality, contrary to what heretofore has been spoken. So, Mr. Speaker, I'm very, very concerned about the way that we're talking about not only the tax increases in here, but the way we're slowly sliding into a higher taxed, first-in-the-nation taxed state.

"As mentioned earlier, Japan is going to have a big impact upon us. Earlier I introduced my intern from Japan. He noted in his preparations for my introducing him, that batteries in Tokyo, four AA cell batteries cost \$280 in Tokyo right now. Four little batteries which we pay a couple bucks for cost \$280 in Tokyo. That's why he said there's an appeal for batteries. He also said, and I didn't have a chance to read it, that the damage so far is estimated at 8,606 people missing or dead, and \$118 billion of property losses. Why am I saying this? Because this budget is based upon raiding the Hurricane Relief Fund. If with whatever we've got left, and if we ever have, thank God we haven't, a hurricane or tsunami, it's going to give us ..."

Representative M. Oshiro rose to a point of order, stating:

"Mr. Speaker, point of order. I've been very patient, but this bill has nothing to do with the Hurricane Relief Fund."

Representative Ward: "I'm too obtuse I think."

The Chair addressed Representative Ward, stating:

"Representative Ward, would you please confine your remarks to the measure before us."

Representative Ward continued, stating:

"Mr. Speaker, I don't want to spend my speech retorting that, but when you have a budget, regardless of where the source of it comes from, part of the balance of this budget is taking money from the Hurricane Relief Fund. If that's not true, then I should sit down. But if it is true, I think we need a better explanation than what was just given.

"Having said that, the tax increases, the amount of money that we're building on top of an already highly taxed state is reason for consternation. And the reason for consternation is that so far, heretofore we have a budget that balances for three years. The six year Constitutional budget we have not been given yet from the Administration. Yes we had one, but that was the Lingle-Aiona budget. On February 22nd we had the other budget. But if we're going to balance the budget and really speak to a budget which we know for sure balances, and we need a six-year plan. And I appeal to the Chair of Finance to ask the Administration, 'Where's the six-year balanced budget that HRS 37-69 calls for?'"

Representative Ching rose to yield her time, and the Chair "so ordered."

Representative Ward continued, stating:

"Thank you, Representative Ching. Mr. Speaker, the last question that reservations give rise to is one I ask myself, and one I ask the Minority Caucus. What are you guys going to do? Put up or shut. What's your solution? Mr. Speaker, the solution that we gave last year as an alternative budget which was online and was interactive. It was a spreadsheet where people chose what their revenues were, and what their expense were. We submitted, contrary to many people on this Floor or in the Senate who said, 'You've got to do a GE Tax increase.' We showed that that was not necessary.

"So, Mr. Speaker, our contribution is coming. We have a website called www.hawaiistatebudgetonline which is under construction. I repeat, under construction because unfortunately we don't have 20 people to help us. We have a small crew, but very committed to make sure that the people of Hawaii have an alternative to the many taxes that are going to be increased. And before any of these things are on solid ground, they need to be discerned very, very closely.

"Having said that, those are my reservations and those are where I hope that at the day's end we will say we did what we had to do, and in the end the thinking that we have about a short-range balanced budget will start looking at a vision and a growth, and a building and a growing of the economy. Because if the pie stays the same, it's not only going to be as the previous speaker said, year after year, it's going to be decade after decade. We've got to start and speaking outward and with a vision for growing the economy and having a win-win set of who's going to get the side of the bed with the sheet pulled from their toes. For those reasons, Mr. Speaker, I vote with reservations. Thank you."

Representative Rhoads rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I was skeptical of the previous speaker's claim about the taxation rate for Hawaii so I looked it up on the Tax Foundation's website, which is an organization that ranks tax burdens by state. And according to them, in 2009 Hawaii was 22nd. Number 1 being the highest. We were number 22 for overall state and local taxation which, of course you have to look at both because we pay for our education through the State, whereas most states pay for their education expenses through the counties. And so we were 22nd, and that's actually lower than we were in 2008 when we were 16th. We're also below the national average by 2/10ths of a percent. Thank you."

Representative Souki rose to speak in support of the measure, stating:

"Yes, Mr. Speaker and Members, I wish to speak very strongly in favor of this budget. I want to thank the Finance Chair, the Vice Chair and members, and the Leadership for making the tough call. And it was a real tough call to make. I know this was a strain on Leadership, and a strain on the Finance Committee to do the work that has been done and the cuts that have been made.

"To say that we're not doing enough is an outright, I hate to say this, fabrication. And just in this particular item, this budget you see in front of you, there's \$120 million in cuts to the programs and to the departments of the State of Hawaii. This is on top of all of the cuts that we made in these past years. We must remember that this is the third year where we have been over a billion dollars short. And we've been able to continue to provide for the people's business even though the cuts have been tremendous. And for this I have a lot of aloha to the Members, for all of you. And I have a lot of aloha for the staff sitting up there who worked so hard to put this package together.

"Having been where you are now, I know how difficult it is to prepare a balanced budget. For those of you that claim and say how bad it is, please put yourself into the situation where you can help. You sit in your Committees. When they ask questions, come up with answers. Not problems – answers. Thank you very much, Members."

Representative B. Oshiro rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in support. I would like to thank the Finance Committee and its staff for all of its hard work on this excellent budget. I just wanted to address some of the criticisms or questions that were raised by the Minority Leader as he spoke with reservations. Specifically his question about, 'Can the community afford this budget?'

"My question is actually, can the community afford not to have this budget. This budget is based off of making sure that we provide the most essential and core services that our citizens rely upon. And again, let's take a big picture look at this. When it comes to our budget, there are certain fixed costs that we just cannot get away from when it comes to the EUTF, ERS, as well as our debt service to pay for all of our infrastructure costs.

Beyond that there are the 'big four': education, higher ed, health, and human services. And so I look forward to any suggestions they have with which to make cuts in those big areas.

"Because as I see the current budget, what I see is we've already taken \$55 million out of the Department of Education. And my understanding is this is after they've asked the Abercrombie Administration for restoration of up to \$77 million. In addition to that, lest we not forget that last year we passed mandatory minimum instructional hours. That too is not being funded in this budget, but we are asking them to find it within their own resources to make sure that they can do this.

"That, as well as things essential like transportation, like school lunches, the basic things that education must have in order to make sure that our students succeed. And so I look forward to suggestions where they can find real places where we can find some substantial cuts to make up some of these deficits and losses. Because currently, as I understand it, from the scrutiny that they were placed through by the Finance Committee, there really isn't that much room for that kind of cuts.

"Secondly, what I would also like to assert has to do with the issue about whether our community can afford it. When we passed our revenue enhancements, the many, many bills that we looked at, and I'm not going to get into them in specifics. But what we did was extremely targeted. There were 24 bills, and each attempted to look at the way in which it wasn't a broad-based tax increase. There wasn't a general excise tax increase. There wasn't an income tax increase. Instead it was asking those people who mostly haven't even paid their fair share, to start looking at whether they can contribute.

"And the reason why we believe that may be a justifiable approach is, as you know, Hawaii tops the nation in millionaires per capita, and that is excluding retirement plans and real estate according to a study by the Phoenix Data Center which was released in September 29, 2010. So Hawaii residents do have the means and wherewithal to withstand some of this burden that we're asking them to do.

"And why we are asking them to do that is something that I also find very, very interesting when it comes to looking at the income of our residents. Hawaii is actually very, very fortunate. We are 45th and 47th in terms of the nation's ranking between the income inequality in Hawaii according to the Center on Budget and Policy Priorities. Right now we don't have a wide disparity between the 'haves,' and the 'have nots.' We are extremely fortunate that we are 45th and 47th in this entire nation.

"However, if we don't take some of these steps in this budget necessary to make sure that we continue to provide these core services, then at that point that disparity will only continue to grow. We've already impacted things like Medicare. We've already taken away contracts for Temporary Assistance for Needy Families. We've already taken away some additional funding for Medicaid. And so beyond that, I really do look forward to some of these innovative approaches that may be coming from the Minority through their alternative budget to see whether we can actually incorporate some of their ideas.

"But first and foremost, let me tell you that one of them that I will find completely unacceptable is this delay in the income tax refund as according to Mr. Brewbaker, he referred to it as, 'refund shenanigans.' Because what he said is, that has substantially impacted the way in which the COR, the Council on Revenues was able to come up with their estimates. And that only ends up hurting us in the long run because we rely on the Council on Revenues in which to have our balanced budget proposal.

Representative Hashem rose to yield his time, and the Chair "so ordered."

Representative B. Oshiro continued, stating:

"So in conclusion, all I will say is I'm glad to hear that there are some questions. I'm glad to hear that there are some reservations. Because to be honest, I have some reservations. I have some reservations that there are core services that are being requested by our agencies that we just can't

afford to provide right now. That is my reservation. But I know that looking at this budget, we've done the best that we can in trying to balance all of the needs without burdening our citizenry. Thank you, very much."

Representative Fontaine rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Fontaine's written remarks are as follows:

"The budget for fiscal years 2012 and 2013 has made a 7.1% increase since last year's budget. With a \$966 million deficit, the House budget should focus on cutting non-essential programs, limiting the size of government, limiting government spending, and promoting private sector jobs to create a cash flow into the economy."

Representative Tokioka rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I stand in strong support. And, Mr. Speaker, I'd like to ask that the words of the prior speakers who spoke in support be entered as if they were my own in the Journal. Mr. Speaker, I just want to give a few examples of some of the cuts that had to be made over the last few years, and how it affected Kauai.

"We have two, Mr. Speaker, two agricultural inspectors on Kauai where we had up to six in years past. Now can you imagine two inspectors covering the whole island, including time for their days off? It's impossible, Mr. Speaker. We don't have the varroa mite on Kauai. We don't have the coffee berry borer on Kauai. There's a lot we don't have like fire ants on Kauai. These people are the gatekeepers to those species coming in to Kauai. Those are the kinds of cuts that we had to make. Tough decisions.

"The Finance Committee under the leadership of the Finance Chair and the Vice Chair, and the members made some incredibly tough decisions, Mr. Speaker. And we know we need to look at the things that we did. It's not as if we're going to ask people. The Minority Leader said, 'We have an interactive budget.' Well, I took a look at it. How many of you when you paid your income taxes said, 'I want to pay more?' Nobody's going to do that in an interactive budget.

"We have to take the leadership role and we have to make the tough decisions. No one on the Finance Committee wanted to say, 'I want to raise your tax. I want to take away your exemptions.' Those were not easy choices, but those are the types of choices that we have to make, Mr. Speaker. Those are the types of choices that good leaders make, Mr. Speaker.

"I'm very proud of the budget. I'm not proud of the cuts that we had to make. I'm not proud of the services that we had to cut for the departments, but I'm proud that under these circumstances we did what we did. So Mr. Speaker, thank you very much and I encourage the rest of our colleagues to vote in support. Thank you, Mr. Speaker."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you very much, Mr. Speaker. In support. I would like the words of all previous speakers in support entered in the Journal as if they were my own. And just as a matter of again historical clarification, I was at the same meeting that the good Minority Leader was at, and at no time did any Representative advocate for a GET increase. That's the truth.

"But what we did talk about was exemptions, and because our budget does rely upon these assumptions, I will ask for your discretion or indulgence to touch into that area. What I thought was very interesting was the members of the small business community that were there, and particularly one young woman who's the head of a very famous local eatery. She said, 'I pay \$9,000 in taxes, payroll and the others. I don't get exemptions. I don't get sweetheart deals. Why do the big boys get them, but we don't get them?'"

"If we're going to use the analogy of a canoe, Mr. Speaker, then everybody has to have a paddle in the water. And right now there are a lot of big entities that have their paddle on their laps while the rest of us, the citizens, the small businesses, and others have had to stroke deep just to sustain the State of Hawaii.

"This budget makes a lot of difficult cuts, but here's the thing, Mr. Speaker. It makes more cuts. It doesn't build. It doesn't add. It doesn't expand. It doesn't create new programs or services. It takes away from what is already there and this is on top of again, the \$2 billion that has already been cut. And as has been noted, these cuts are lower than the proposed budget that was going to be floated by the previous Administration, Mr. Speaker.

"And also there's investment in this too. Look at the capital improvement projects, Mr. Speaker. Essential repairs for our harbors, many of which have been damaged. For our airports. How can we have APEC if we don't have functioning airports, Mr. Speaker?

"So this budget makes very tough calls, Mr. Speaker. It makes tough cuts, but what it tries to do is it tries to prioritize and tries to make sure that the little guys, both in the departments, the worker bees, those who are conducting the services, that they are not going to be bearing the inordinate brunt of what is happening. But situations that are out of control are spiraling our State into deficits never seen by any generation. So I particularly applaud the Finance Committee and the Chair and all the members for being willing to look at everything, and to make these tough decisions.

"And of course nobody's going to be happy, and I do have my own personal reservations on several issues. But I think the whole end game of this, Mr. Speaker, is that this Body has tried to cut, as well as do everything it can to make sure that the spending that was included in there addresses the core services that people need, and tries to prepare our State so that an economic recovery can occur here. Thank you, very much."

Representative M. Lee rose to speak in support of the measure, stating:

"Mr. Speaker, I'd like to speak in favor of the measure. First, I feel like because of the events of the past week that I really need to mention the earthquake and the tsunami which wreaked havoc upon our friends in Japan. It really does remind us of the fragile nature of our existence. Looking at what's happening on TV, everything else almost seems unimportant. We must do everything possible to help our friends in Japan and it will take the cooperation of the whole international community to help them and to assist them in their recovery.

"I would also like to make mention of the work that the Chair of the Finance Committee has put into this budget. I truly don't think there is anybody more dedicated in this House to the work. I wish he would really get a little more sleep. Sometimes he looks kind of tired, but he looked better this weekend. Also the same thing goes for the members of the Finance Committee who it seems to me that they're working 24/7. They are some very bright and dedicated people. You know, some of them maybe should get a life. I think sometimes you ought to have a little more recreation.

"But anyhow, here is the budget and it's a good budget. It's not a budget that is without things I'd like to see included. There are a lot of cuts, and cuts in some of the major departments. But one of the things that I wanted to say is, because I listened to the Minority leader's remarks about the fact that we can't afford this. The Minority Leader introduced seven tax credit bills this year, and one appropriation bill. So you know, if we can't afford the budget we have, how can we afford tax credit bills and appropriation bills? That seemed a little strange to me.

"I wanted to mention something else too. I was kind of shocked to read something in the *Star-Advertiser* this morning which called one of our revenue generation bills, 'almost cruel.' Almost cruel. It shocked me because they were remarks that exploit the emotions of the most vulnerable people in our society, and they're really cruel in their intent. To me it's almost cruel when staff, whose job it is to monitor elder abuse, are eliminated. It's almost cruel to deprive needy seniors of Kupuna Care

which assists with bathing chores and other activities of daily living. It's cruel to limit child protective services, and to limit care to the mentally ill. It's cruel to take money away from domestic violence shelters. It's cruel to take away agricultural inspectors because then farmers can't sell their goods. And it's cruel to take away vector control officers.

"But money must come from somewhere, and if part of the solution is to take it from the top 1% of pension receivers, then so be it. The printing press in the basement doesn't do 'greenbacks,' unfortunately. We're not the federal government. So just in closing I'd like to say this is a tough budget. It's a budget that is now going to go over to the Senate. They're going to make many adjustments and come back to us with their ideas, and we'll work it out together. And that's what we have to do in these times, work together. Thank you, very much."

Representative Marumoto rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise to speak in favor of this budget. With the Council on Revenues report showing a drop in revenues, and afterwards experiencing the earthquake and tsunami in Japan, this brought to us the need of a great deal more cutting in the budget, unfortunately. And tax increases alone will not fill in the *pukas*. If anything, certain tax increases will hurt the economy and businesses, large and small, as well as job creation.

"Rather than enact all the taxes that we have moved to the Senate, and rather than raising the general excise tax, and rather than raiding more special funds, we should step back and look at the structure of State government and see how we can rebuild our departments to better provide services to our people with greater efficiency.

"We should examine which programs are mandated, and those that are not. What area should be expanded, and what should be contracted. We should consider zero-base budgeting. We need another Commission on Government Efficiency which was in existence a few decades ago. We need new thinking now more than ever. I support this budget bill because it still holds a promise of new thinking, creative ideas, and fresh energy. So colleagues, let's put our 'thinking caps' on. Thank you."

Representative Yamashita rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Yamashita's written remarks are as follows:

"Mr. Speaker, I rise in support of House Bill No. 200, House Draft 1. I would like to speak on the Capital Improvement Project Budget.

"The change in Administration posed numerous logistical challenges for your Committee on Finance in its review and deliberations on the capital improvement project budget.

"In December, the Governor transmitted a budget prepared by the previous Administration that contained capital improvement project requests of \$969,791,000 for the fiscal biennium by all means of financing. Of this, \$404,045,000 was requested in general obligation (G.O.) bonds and general obligation reimbursable (G.O.R.) bonds.

"On February 22, 2010, the Governor requested an additional \$1,709,200,000 for capital improvement projects by all means of financing, of which \$1,067,600,000 was requested in G.O. and G.O.R. bonds.

"Included in the Governor's Message was a request for \$390,000,000 to reauthorize the transfer of G.O. bond funds to the State Educational Facilities Improvement (SEFI) Special Fund. Due to an accounting error by the Department of Budget and Finance, \$390,000,000 in G.O. bonds that was to be transferred to the SEFI Special Fund for collateralization of encumbered special funds had lapsed on June 30, 2010. To ensure the certification of the budget pursuant to the enactment of this Act, the Governor requested the reauthorization of \$390,000,000 in G.O. bonds to cover the encumbered SEFI special fund during this fiscal biennium.

"The Governor indicated that the requests of February 22, 2010, were intended to supplement rather than supplant the amounts previously requested in December, which were memorialized in House Bill No. 200, as introduced.

Means of Financing	HB200	GM	TOTALs
G.O./G.O.R.	\$404,045,000	\$1,067,600,000	\$1,471,645,000
All	\$969,791,000	\$1,709,200,000	\$2,678,991,000

"To finance the authorizations requested, the Governor proposed the issuance of \$2,875,000,000 in G.O. bonds for the second half of fiscal year 2011 through the second half of fiscal year 2015. However, when your Committee also reviewed the requests of the Judiciary for capital improvement projects proposed in House Bill No. 300, your Committee realized that the total G.O. bond authorizations requested by the Executive and Judicial Branches exceeded the total G.O. bond issuances proposed by \$36,672,197.90.

"Your Committee further acknowledged that because of bond refinancing conducted in 2009, debt service payments will increase dramatically in fiscal year 2015-16. Accordingly, rather than increase the issuance of G.O. bonds to offset the negative balance put forth by the combined requests of the Executive and Judicial Branches, your Committee established a ceiling of \$2,875,000,000 in G.O. bond issuances in its deliberation of the requests.

"Accordingly, your Committee recommends total authorizations for fiscal biennium 2011-2013 of \$2,913,856,000, for all means of financing of which \$1,477,697,000 is recommended for G.O. and G.O.R. bonds. These recommendations will ensure that total G.O. and G.O.R. authorizations proposed House Bill No. 200, House Draft 1 and House Bill No. 300, House Draft 1, will not exceed the ceiling set for bond issuances earlier discussed.

"The largest areas funded by this budget are:

- \$820,663,000 for the Department of Transportation (airports, harbors, highways);
- \$390,000,000 to collateralize encumbered State Educational Facilities Improvement (SEFI) Special Funds that had lapsed on June 30, 2010, mentioned earlier;
- \$360,166,000 for the Department of Education, public charter schools, and public libraries; and
- \$182,792,000 for the University of Hawaii System.

"Your Committee also focused on the Departments of Health, Human Services, Land and Natural Resources, and Public Safety. In many instances, the infrastructure for these departments has deteriorated to the point necessitating immediate action to ensure the health and safety of our citizenry.

"As such, your Committee has included funds for the following projects:

- \$82,490,000 for public housing facilities; including \$5,600,000 to replace the solar water heating system at Mayor Wright Homes;
- \$55,315,000 for State park facilities, statewide;
- \$49,854,000 for community hospitals, statewide;
- \$20,500,000 for correctional facilities, statewide, including \$4,000,000 to replace the wastewater infrastructure at Waiawa Correctional Facility, and \$4,000,000 to replace the roofing system at Halawa Correctional Facility;

- \$15,350,000 for infrastructure improvements at small boat harbors and ocean recreation facilities statewide; and
- \$11,610,000 for various improvements to the Hawaii State Hospital.

"Lastly, your Committee appreciates the cooperation extended by the Administration in preparing this budget and looks forward to continuing dialog with them as the capital improvement project budget goes through the legislative process.

"In light of this, I urge my colleagues to support this measure. Thank you."

Representative Riviere rose to speak in support of the measure with reservations, stating:

"I rise in support, with reservations. Thank you. I rise in support because there's been so much work done. The Chair has done a great job. He's working his tail off. The Vice Chair and all of the staff have done tremendous work in drafting the current budget. And the current budget goes a long way towards righting many things, institutionally and structurally. There are a lot of great improvements that are going forward. There are some painful cuts that are in this budget. So in general it's going in the right way.

"Now to say I rise in full support would be an implication that we were there. That we're good to go, and I'm not. So I do have reservations because I am concerned about adding additional costs onto our high cost of living already. So that is my reservations. I'm not quite comfortable. It's not so easy. People say, 'It's hard. I regret this. I regret that.' Well I regret adding costs onto the taxpayers. So if we have to do that in the end, well maybe we do.

"But there's a long way to go. I understand it's a long way to go. I just think that people are wound up. The personalities are coming into play and we should focus on the issues at hand, unemotionally. Try to find the solutions. Try to find the balance. Try to find some ideas as the previous speaker spoke about. We will do this and we will stay together hopefully, and so that is why I rise with some caution. Thank you."

Representative Ward rose to respond, stating:

"Thank you, Mr. Speaker. I rise with a few rebuttals in reservations. And first, with gratitude to Speaker Say and the House Clerk for getting us computers which when something comes out on the Floor, we can see if it's true or not because according to *Forbes*, Vermont is the highest taxed. Hawaii is the second; and the third is Connecticut. Then New Jersey and Massachusetts. I'm not sure where the gentleman from Downtown Honolulu got his data, but I think *Forbes* is a pretty credible source to say that we are one of the highest taxed along with these other states in the nation.

"Second rebuttal. I'm flattered that someone has paid attention to what I said earlier about growing the economy because growing the economy is giving an incentive for investment. No investment, no jobs. Those tax credits for people to hire, to expand, to export, to push high tech. That's the mindset that we need to have. We don't have that. All we've got is the 'hangover' and the residual of Act 221 which said we got high-tech industry going, but it costs us a lot of money. Nothing ventured, nothing gained. And what we've got is an economy that's not growing.

"Another rebuttal for my good friend and colleague from Maui. No one advocated, but no one heretofore in my knowledge in the Small Business Caucus or in a discussion with the Chamber of Commerce would even come close to openly talking about a GE Tax increase as a viable option. That is what was said yesterday, and that's why I'm still surprised, chagrined, that we're openly talking about something. Something you talk about, generally you have a tendency or proclivity for behavior or acting out those things.

"Another rebuttal I guess, is for the Majority Leader who I respect greatly and I think did a very erudite job of refuting some of the things I said. However, he's amiss at one thing and that is by belittling and making

what the Lingle-Aiona Administration did by inconveniencing taxpayers for two weeks in order to get their income refund. I would ask, would he prefer that the invasive species and the Ag workers that we are missing be shunned and put aside for the sake of those people who for two weeks of inconveniences can wait for their moneys to come so we can get a balanced budget that's \$275 million, Mr. Speaker. \$275 million for two weeks of inconvenience which the Council on Revenues has said it doesn't help. It doesn't hurt the recovery, but it causes a glitch in the way they've kept score with the cash flow of the State of Hawaii.

"And lastly, I guess from the Majority Leader's point of view, they have done the job that they had to do. He's proud of that. But from my perspective, Mr. Speaker, we can do better. We are better in Hawaii and we should be doing better. Thank you, Mr. Speaker."

Representative Mizuno rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support of this budget bill. Thank you, Mr. Speaker. I wanted to give you a snapshot look of a family of four under the federal poverty level. A family of four making less than \$25,700 a year. Mr. Speaker, in the State of Hawaii, 10% of our households with children under 18 are under the federal poverty level. And, Mr. Speaker, it goes up to 20% for all households that have women as the head of the household. These are our people, Mr. Speaker.

"Mr. Speaker, we have done all we can to reduce the costs. In fact I'll give you graphic details of what we've done to the Department of Human Services. When you talk about personnel, in June of 2008 we had 2,406 employees. In June of 2010, that number was reduced to 1,895. That's a reduction of 511 employees. And Mr. Speaker, these employees provide essential services. In fact, when we talk about Child Protective Services, these are our *keiki* who are abused or neglected. Our workforce has been reduced in that branch by over 25%.

"Mr. Speaker, the priority of the Department of Human Services is to protect the most needy. These are our children, the homeless, the elderly, the disabled, those with mental challenges, those that might be drug addicted, our pregnant women, our domestic violence victims, and so many others. An investment in human services is truly an investment in our people and our future. If we support our people who are the most needy, it will quicken our move in the right direction and on our road to recovery. We have done all we can to reduce costs. I don't know how much lower we can get, and I support the Chair of Finance and his budget.

"It's unfortunate, but I have to say, as I look in the future, I anticipate decreased eligibility for those seeking human services. Decrease reimbursement. Decrease benefits. And increase cost sharing. This is the price that we have to pay, but we're doing our best and I believe this budget was prudently crafted. For those reasons, I support this budget. Thank you, Mr. Speaker."

Representative Choy rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Choy's written remarks are as follows:

"Mr. Speaker. It is half-time at the State Legislature and out of 1600 bills introduced in the House of Representatives, approximately 300 bills crossed over to the Senate. The Senate likewise will be sending over about 300 bills. Many of these bills are House companion bills so in the end, there may be about 200 new laws.

"That's a pretty good vetting process in my opinion. The Legislature started with a combined 3000 bills between the House and Senate. Approximately 200 will survive and become law. It just goes to show how difficult it is to get new laws passed; which is a good thing.

"One of the most important bills that crossed over to the Senate at half-time is the budget bill. The House of Representatives historically has the first crack at the budget. This year, as in the past three years, we faced a deficit. But what exactly is a deficit? Well, a deficit is the amount of money that is less than the prior year's budget.

"So for instance, when you hear that we are short \$800 million, we have \$800 million less than the prior year's biennium budget. The problem is compounded because in the prior biennium budget there was a deficit of \$1.7 billion.

"If you remember, this was our strategy in the past biennium. We balanced the budget by: cutting government expenditures to cover half the deficit, transferred special funds, got money from the federal government (ARRA) to cover the next 20%, and last, raised taxes to cover the last 10%. The bottom line is we balanced the budget by cutting overall spending by government. We had no choice.

"Many of the government cuts were very painful. As a reminder, here are some of the ways we cut spending: furlough Fridays for our children, cuts to Human Services (poor and homeless), cuts to the Department of Health (restaurant and health inspectors), general government services (department furlough Fridays), and finally as we are finding out now, just plain old not paying our bills (ERS, EUTF, TANF, insurance premiums).

"So here we are in a new biennium. It's a new day. We started with the budget that was prepared by the Lingle Administration. That budget was \$5,568,000,000, very austere. The new Administration recognized this and transmitted to the Legislature a 'Governor's Message' for emergency appropriations to cover various items including unpaid bills for \$100,000,000. Then after exhaling, they set out to prepare their new budget. Governor Abercrombie realized that the government he inherited was broken.

"Recognize that sometimes when you keep cutting money out of a program, you do not save money. You just grow inefficiencies. Governor Abercrombie's budget came in at \$5.702 billion, almost \$134 million higher than the former Governor Lingle's budget.

"Now the House Finance Committee gets its hands on the budget. Our perspective is a little more complex than the Governor's since we must add the opinions of our constituents into our analysis. As I have stated before, using political solutions to solve fiscal problems is by far, the most challenging experience of my financial career.

"First, we did not approve any of the Governor's new requests. And then, we deleted another \$120 million from his budget. The House Finance Committee did this in anticipation of a further decline in revenue. This brought our House Finance Committee budget to \$5,449.5 billion, \$118.7 million **lower** than Governor Lingle's budget. This is the budget we passed over to the Senate.

"Unfortunately on March 10, 2010 the Council on Revenues lowered its revenue estimate by 2.5% which means the Senate Ways and Means Committee will now have to fill a hole of approximately \$125,000,000. This is over and above the cuts that we already made. No happy campers at the Capitol this year.

"Let's give some thought to this. We all heard the stories of government inefficiency, waste and abuse, we also heard the cries to cut the size of government and government services. As policy makers, we cannot ignore these concerns.

"Therefore, I believe that we have now slashed departmental budgets to the point where inefficiencies have been created. We have Furlough Fridays. Our kids have fewer instructional days. You see more homeless on the streets. And you hear about deplorable conditions in our public housing. Cutting government spending may be politically popular as long as you're not affected.

"Look around and see the kind of world we've created.

"At some point we have to say, we need to help the disabled, our children, the homeless, and the less fortunate. I believe we have reached that point. The time is now."

Representative Pine rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative C. Lee rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'm in support. I'd like to say that I love numbers. I love studies. So I can't resist getting involved in this interesting debate. The *Forbes* list does not take into account property taxes and the fact that the State here in Hawaii pays for education which boosts us up quite a substantial margin to the top of the list. I quote from the study, 'The list does not measure the average residents' tax burden.' So there is a big debate to be had about where we're at, but I'm not sure if this is the one to quote. Thank you."

Representative Pine rose to respond, stating:

"Just to clarify, I wasn't going to mention this because we can talk about this later. But the Representative from Chinatown quoted the Tax Foundation. The Tax Foundation is located in Washington D.C. Their phone number is area code 202-464-6200. The Tax Foundation of Hawaii is located in Honolulu, Hawaii and their phone number is 808-536-4587. On the Tax Foundation of Hawaii's website you will see all tax burdens included that affects Hawaii residents, and it puts us at the top in the United States of America."

Representative Johanson rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Johanson's written remarks are as follows:

"Mr. Speaker, I rise with reservations on HB 200. I honor the hard work of my colleagues on the Finance Committee in assembling this draft of a budget. However, I am concerned that the current language provides for unfunded provisions, including the creation of new positions within State departments and increased government expenditures.

"With our current financial situation, I do not think that increasing government expenses is advisable when we are asking our people to make painful financial sacrifices. I believe that this budget is a work in progress and I hope that in successive versions, we will remove these provisions from the budget."

Representative Ching rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in support, with strong reservations to H.B. 200 - Relating to the State Budget. The budget, in my opinion, still does not reflect the necessary fiscal prudence and restraint to get our State through its fiscal crisis.

"With a \$966 million deficit, being more efficient with the funds we presently have, and encouraging business and investment is the best remedy to balance the budget. We need to focus on encouraging the creation of new business opportunities and private-public partnerships, supporting tax incentives, halting tax increases and cutting spending to put our financial house in order.

"Colleagues, that is the challenge before us. Thank you."

The motion was put to vote by the Chair and carried, and H.B. No. 200, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE BUDGET," passed Third Reading by a vote of 49 ayes, with Representative Thielen being excused.

At 1:18 o'clock p.m., the Chair noted that the following bill passed Third Reading:

"Thank you, Mr. Speaker. I rise in support. Mr. Speaker, I just wanted to make a comment about these measures that we're passing. The vehicles by which we enter into agreement I think needs to be said that we just want to ask our State to be strong, to be strong in these very hard times. An unprecedented recession. We've never seen this in our history. Complicated by the tragedy, the exasperation of this problem and the tragedy of the Japanese tsunami which undoubtedly will affect our economy.

"I think that it needs to be said that indeed it's time to pull together, to remember that like families, the State of Hawaii is a family. And when hard times come we have to sacrifice. We do have to sacrifice. We have to make sure that for the health of our State's economy that we do the right thing. That everybody understands that we all bring something to the table. But if we give much more to one son or daughter, to the point where one son or daughter suffers and can no longer bring their potential to the table,

then the entire family suffers. So we know that the health of our economy is important. We want to protect all of our people. But remember, like the best recipes in cooking, it's often about balance. Thank you."

ANNOUNCEMENTS

Representative Yamane: "Thank you, Mr. Speaker. I would like to express my wishes for a Happy St. Patrick's Day to everyone. Members, on your desk you will find a green ribbon to add color to your day. And if you turn the card it says, 'Please recycle yourself.' I know that to the dismay of the Chair of Agriculture, it does not mean grow a tree or support medical marijuana.

"Mr. Speaker, there are more than 108,000 individuals nationwide waiting for organs. In Hawaii, approximately 375 are waiting for a heart, liver, kidney, or pancreas transplants. Sadly there aren't enough donations

to meet this need. Not everyone has the 'luck of the Irish.' Last year, 16 people died in Hawaii while waiting for an organ transplant.

"Each of us carries a gift of life. You can be a registered organ and tissue donor through an online registry, or when you renew your driver's license or the State ID. So Members, as we celebrate St. Patrick's Day, please remember those who are currently on the list, waiting for the ability to continue their enjoyment of St. Patrick's Day. Thank you, Mr. Speaker."

ORDER OF THE DAY

INTRODUCTION OF RESOLUTIONS
(FLOOR PRESENTATIONS)

The following resolution (H.R. No. 285) was announced by the Clerk and the following action taken:

H.R. No. 285, entitled: "HOUSE RESOLUTION COMMENDING THE STATE OF HAWAII FOR WINNING THE 2010 SECRETARY OF DEFENSE EMPLOYER SUPPORT FREEDOM AWARD," was jointly offered by Representatives Cabanilla and Takai.

Mr. Robert Borek, Chairperson of the Employer Support for the Guard and Reserves.

Representative Cabanilla then introduced guests seated in the gallery:

P. Pasha Baker, US Army Reserve Ambassador; and
Command Chief Master Sgt. Robert Lee.

Representative Takai noted that the Freedom Award is the highest recognition that an employer can receive for their efforts on behalf of their employees, and thanked the State of Hawaii and the Employer Support of the Guard and Reserve.

The motion was put to vote by the Chair and carried, and H.R. No. 285 was adopted, with Representatives McKelvey, Nakashima and Wooley being excused.

The following resolution (H.R. No. 286) was announced by the Clerk and the following action taken:

H.R. No. 286, entitled: "HOUSE RESOLUTION CONGRATULATING KRISTEN BRUMMEL AS THE 2011 HAWAII STATE TEACHER OF THE YEAR, AND MICHELLE COLTE, ALISA BENDER, DEBORAH YASUDA, SANDY CAMELI, SCOT KIYONAGA, AND ALTHEA ARINAGA AS THE 2011 HAWAII STATE DISTRICT TEACHERS OF THE YEAR," was offered by Representative Takumi.

Representative Takumi moved that H.R. No. 286 be adopted, seconded by Representative Belatti.

Representative Takumi commended and congratulated the 2011 Teacher of the Year, and the District Teachers of the Year.

Representative Choy then introduced the first honoree who was seated on the Floor of the House:

Ms. Kristen Brummel of Noelani Elementary School, the 2011 Hawaii State Teacher of the Year.

Representative Choy then read a letter of congratulation and appreciation from his daughter, Ms. Ashley Choy, Ms. Brummel's former student.

"Dear Ms. Lum,

CONGRATULATIONS! on your **Hawaii State Teacher of the Year** award! Although 5th grade was a long time ago, I still remember all the memories we've made. Our 5th grade class wasn't a normal class but was a combo class of both 5th and 6th graders. It was a great atmosphere for me and it was nice to have upperclassmen as classmates and friends. Also, since the class size was smaller than usual, it was easier to get to know you. 5th grade was my last year at Noelani, and you truly made it a very great year.

Not to say you favored me, but I always thought our love for UH Men's basketball brought us a lot closer than a usual teacher-student relationship. As my grandma and I would walk to our seats, I always hoped to run into you. I'd look for you in your section in the arena and would sit next to you during half time. I used to talk to you about my favorite player, J.C.[Jason] Carter, and about my new puppy Tanner. You told me how you knew J.C. and I thought you were the luckiest person in the entire world. I will never forget the day you gave me an autograph from J.C. Carter. I was probably the happiest ten-year-old girl in the world. I couldn't stop smiling and read his note over and over again. At one point, I even memorized his letter by heart. To this day, I still have his letter in my room at home.

Getting J.C.'s autograph wasn't your only act of kindness towards me. One game night, you handed me a little stuffed animal that looked exactly like Tanner. You told me how it reminded you of my little puppy and that you just had to buy it for me. I named my new stuffed animal Tanner Jr. and love it just as much as my real dog. Now every time I'm away from home, I take Tanner Jr. with me. I even brought Tanner Jr. to college with me. Together we stay up late, writing papers and finishing homework I procrastinated to do.

One of my favorite memories of you in the classroom is when you taught us sex education. Teaching sex education must be every teacher's nightmare. It's a little awkward and I commend you for doing such a good job teaching us everything. I remember you told the class to be totally serious and not laugh at the video we were about to watch. As we were watching the video, I looked over to see you covering your mouth trying to stop from laughing. Eventually, you walked to the back of the room and watched the video from there. I'm not sure why this is one of my favorite memories, but it does make me smile a lot.

Once again, congratulations on your well deserved award. Your influence in my life has made me the person I am today. Your kindness has rubbed off on me and I always try to go out of my way to help others just like you. You always focus on the happiness of your students and this is just one of your many wonderful qualities. In my future, I hope I can positively impact others just how you've impacted me. Teachers like you are the reason why I'd like to go into education. Occupations like doctors and lawyers are important, but teachers like you are the foundation to every job in the entire world.

Thank you for everything you've done for me. The future kids of Hawaii are lucky to have a teacher like you.

Love,
Ashley Choy"

Representative Belatti then introduced the 2011 District Teachers of the Year who were seated on the Floor of the House:

Ms. Michelle Colte of Hale Kula Elementary School, the 2011 Central District Teacher of the Year;

Ms. Alisa Bender of James Campbell High School, the 2011 Leeward District Teacher of the Year;

Ms. Deborah Yasuda of Puohala Elementary School, the 2011 Windward District Teacher of the Year;

Ms. Sandy Cameli of Konawaena Middle School, the 2011 Hawaii District Teacher of the Year;

Mr. Scot Kiyonaga of Maui Waena Intermediate School, the 2011 Maui District Teacher of the Year; and

Ms. Althea Arinaga of Kapaa Elementary School, the 2011 Kauai District Teacher of the Year.

Representative Belatti then recognized the family and friends of the honorees seated in the gallery:

At 12:50 o'clock p.m. the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:01 o'clock p.m.

REPORTS OF STANDING COMMITTEES

Representative Souki, for the Committee on Transportation presented a report (Stand. Com. Rep. No. 970) recommending that S.B. No. 1493, SD 1, as amended in HD 1, pass Second Reading and be referred to the Committee on Energy & Environmental Protection.

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 1493, SD 1, HD 1, pass Second Reading and be referred to the Committee on Energy & Environmental Protection, seconded by Representative Evans.

Representative Ching rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support of Stand. Comm. Report 970. I just wanted to add that on this bill, relating to light pollution, this is a new up-and-coming issue because not only are we reliant on the clarity for our astronomy there on Mauna Kea, and apparently the light is traveling. But what I wanted to bring up is that they're finding more and more that there is light pollution, and that the human body can detect light, certain kinds of blue light, and it's actually affecting people's health. So at night even though you might be having a curtain, etc. it actually is related to health. We need to start thinking differently about light pollution and making sure that they're shaped downward and not upward. Thank you."

Representative Jordan rose to speak in support of the measure, stating:

"Strong support with written comments, please. Thank you."

Representative Jordan's written remarks are as follows:

"I speak in support of SB1493, SD1, HD1, Relating to Light Pollution. Artificial lighting is critical to providing public safety and security, and in maintaining our life activities. However, it also has many negative impacts on biological and cultural resources.

"It affects native wildlife populations, like turtles and marine birds, who are often disoriented and disrupted by the glare from unshielded outdoor lighting.

"It also affects Hawaii's astronomical observatories, impeding the viewing of the stars, which is important for Native Hawaiian cultural practices and "astro-tourism." The use of shielded lights will reduce light above the horizontal plane and direct it toward populated areas, where it is needed. This will improve energy efficiency and reduce light pollution.

"There is a duty of protection for natural areas that attract native wildlife at locations such as Kaena Point, Oahu and Kaneilio Point, Oahu which house habitats for Newell Shearwaters and Hawaiian Sea Turtles and this legislation is just one step toward that protection."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1493, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO LIGHT POLLUTION," passed

Second Reading and was referred to the Committee on Energy & Environmental Protection, with Representatives Chang, Coffman, Herkes, Keith-Agaran, Nakashima and Wooley being excused.

"Yes, Mr. Speaker, I rise in strong support of this measure. I think everyone here is concerned about the health and welfare of minors, especially those that are running away from an abusive situation and need to have shelter over their heads. I just encourage all the Members to vote up on this one. This one really will help out in protecting the minors in our community that are in abusive situations. Thank you."

Representative M. Lee rose to speak in support of the measure, stating:

"Mr. Speaker, in support, and in particular of the part about the anonymous filing portion. We did have a House Bill which got lost in the shuffle. But this is really an important bill and I hope to see it move forward. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 77, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE COURTS," passed Second Reading and was referred to the Committee on Judiciary, with Representatives Chang, Coffman, Herkes, Keith-Agaran, Nakashima and Wooley being excused.

Representatives Yamane and Mizuno, for the Committee on Health and the Committee on Human Services presented a report (Stand. Com. Rep. No. 974) recommending that S.B. The motion was put to vote by the Chair and carried, and the report of the Committees was adopted and S.B. No. 595, SD 2, entitled: "A BILL FOR AN ACT RELATING TO PHYSICIANS," passed Second Reading and was referred jointly to the Committee on Judiciary and the Committee on Consumer Protection & Commerce, with Representatives Chang, Coffman, Herkes, Keith-Agaran, Nakashima and Wooley being excused.

Representatives Yamane and Aquino, for the Committee on Health and the Committee on Public Safety & Military Affairs presented a report (Stand. Com. Rep. No. 975) recommending that S.B. No. 1458, SD 2, as amended in HD 1, pass Second Reading and be referred to the Committee on Judiciary.

Representative B. Oshiro moved that the report of the Committees be adopted, and that S.B. No. 1458, SD 2, HD 1, pass Second Reading and be referred to the Committee on Judiciary, seconded by Representative Evans.

Representative Tokioka rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Fontaine rose to speak in opposition to the measure, stating:

"Yes, Mr. Speaker, I'm rising in opposition to this measure. There are a number of flaws with this bill, but inherently if we look at the experiment that happened in California with these dispensaries and all of the problems that law enforcement has had with this, I just don't think the State of Hawaii should be going there with this.

"In addition to that, there are pieces of this which include a live video feed to law enforcement. It's no closer than 600 yards to any day care facility or school. This should be miles not yards and 600 yards is fairly close to any of these and I think all of these things need to be amended and maybe we should just step back and not do it at this time. Maybe we can have this bill go the way that the gambling bill went. Thank you, Mr. Speaker."

Representative Ward rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ching rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition to the Stand. Comm. Report 975. I'd like to ask that the comments made by the Representative from South Maui be entered as my own. Thank you.

"While I really appreciate some of the amendments made by our, I very much respect him, our Health Chair. I think he put in some good amendments in there. I just disagree with the direction that this goes in because as we well know, as mentioned by the previous Representative, California is now trying to change their ways on this. And I just think it's a bad direction. There are other alternatives and I think that we need to reconsider going this direction. Thank you."

Representative Thielen rose to speak in support of the measure, stating:

"Thank you. Mr. Speaker, I'm rising in support. Thank you. Mr. Speaker, I think I've told this story to some of you a few years ago in this Chamber, but I would like to share this with the new legislators. My oldest son Dave lives in Colorado, which fortunately is a state that does a medical

marijuana program that actually works. He had throat cancer. He's a non-smoker, but he had very, very serious throat cancer. We did not think he was going to live. And he went through a horrible time with chemotherapy, radiation. I flew back there several times to help with the care of Dave. He couldn't keep anything down. It was just an awful situation.

"The one thing that could provide some relief for him was medical marijuana. Not the Marinol, that synthetic thing, but medical marijuana. So why would you say to someone that is so sick, so traumatized, why would you say to someone, 'You can't have access, safe access, to this kind of natural plant.' We're not talking about a drug. We're talking a plant that grows, has grown for centuries, has been used for centuries. Why are we saying that you could not have access to that? I think it would be cruel to prohibit that.

"The way we have it now, a very ill person has to go find a drug dealer to be able to buy it. Now tell me, does that makes sense? We have a medical marijuana program that says, 'Yes, you can have this, but you have to get it illegally.' What sense is there to that?

"So this program is a baby step, and I really say it's a baby step. But at least it's a step. The toddler took a step and because of that I can support it. I think we ultimately should have a program that really works a lot better and follows other states that do that.

"What we're talking about is compassion for people that are ill. Some who are terminally ill and don't want to be drugged out of their senses. Sure you can go get the things that are true drugs that will just knock you practically unconscious, but why do that when a person does not want to go that way. They want to have a natural product that will provide some relief. I would say that we should be compassionate and make it so they can get it legally and get it safely, and go ahead with this.

"So I strongly support it. I hope next year that the toddler begins to step a little faster and begins to run a little better, but at least we will have a trial project on Maui and then we can say, 'Okay this is working Let's do it in a better way.' Thank you."

Representative M. Lee rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with strong reservations and I'd like to put some written comments in the Journal related to professional issues and issues of the experience of other states. Thank you."

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I rise with strong reservations to this measure because of professional issues, and also the history of marijuana or "Compassionate Care" dispensaries across the mainland of the United States.

"As a registered nurse for over 40 years, I have cared for many patients with terminal, life threatening and painful conditions. Years ago, there was little available to ease severe pain and nausea. Patients suffered greatly. Today, the administration of pain medications is a science that is quite advanced. It is not unusual for patients to be ambulatory in the community with such devices as a morphine pump which keeps them comfortable during their daily routine. Medications which control nausea have advanced as well. These are given in controlled amounts and in doses that do not render the patient unable to function.

"Marijuana has been a popular alternative to traditional medicine; however smoking it has both safety and regulatory concerns attached. Smoking cannabis is similar to smoking tobacco—there may be damage to the lungs, potential for severe burns if the patient falls asleep in bed while smoking, property damage from fires, loss of capacity to drive and carry out ADLs and exposure of family members to second hand smoke. Marijuana is also widely used as a recreational and street drug. Some feel it is a gateway drug, and from all reports, the strength of what is available is increasing.

"I have other concerns related to the proliferation of dispensaries in states such as California, Colorado and Montana. For the most part, these establishments are simply "restaurants" which offer a wide variety of doses, flavors and prices to their clients. The "scene" on the Internet is quite colorful and many ads clearly proclaim the virtues of marijuana use for recreational purposes.

"Cities have found that organized crime loves these establishments, which often have more than marijuana on the menu. In Montana, on March 11, 2011, a major raid was conducted by federal law enforcement agents on many of these establishments, despite the fact that the Obama Administration has stated they would not seek to punish marijuana users.

"Mr. Speaker, the bill before us is complicated and flawed. It makes use of resources we can't afford such as monitoring by police, expensive photocopying requirements, a data base, live video feed to police station, and on and on. It almost seems as if this draft is asking to be killed.

"No one wants to take away a remedy from people who really need it. I believe, we need to find another way to make the substance available to truly needy patients, but this is not the way. This is a medical issue; the Department of Health and prescribing physicians should be involved to set a standard of care, dosing recommendations. Organizations like the Cancer Society and the Lung Association need to come out of their safe zones and make recommendations as well.

"Even though this is just a pilot, I believe we risk seeing rows of marijuana "shops" in the near future in Waikiki if we should we pass this bill."

Representative Yamane rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'm standing in support. I thought I would be bipartisan, and I've never done this before, but I would like the words of the Representative from Kailua inserted as my own, except for the issue about having a son living in another state.

"Mr. Speaker, this measure again as has been highlighted is a baby step. This measure has been worked on for a long period of time in looking at both sides of the issue. Trying to incorporate the needs of the patient, as well as the concerns of law enforcement.

"It has a long way to go, Mr. Speaker. As we move forward, as we look at these issues, we really wanted to highlight the fact that the Committee did look at ongoing concerns and the development of states like California, Colorado, and others that have encountered some problems with implementing their compassion centers. And so again, Members, to highlight, this is one facility with the active involvement of law enforcement. And as this measure moves forward as we look at it, it is a potentially revenue driven measure. Thank you."

Representative Pine rose to speak in support of the measure with reservations, stating:

"I just want to note my reservations with a couple of comments. Right now you can get medical marijuana for a headache. And so I think that is a flaw in our law currently, because anyone can go to a doctor and say they have a headache.

"I know that the bill was amended just for Maui and it changes a few things. I hope as we move forward, we make sure that we change that part where it's so easy to get medical marijuana. It's not for the serious illnesses that were talked about before."

Representative Hanohano rose to speak in support of the measure, stating:

"I rise in strong support and would like to have the words from my colleague from Waipio Gentry-Mililani entered as my own in the Journal."

Representative Johanson rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Marumoto rose to speak in opposition to the measure, stating:

"Mr. Speaker, I'm in opposition to this particular measure and I'd like to make a few points. Thank you. Just to remind everyone that this still is illegal on the federal level. In speaking to some doctors, I've been told that they just have no idea what the strength of certain marijuana plants are, the THC content. They have no idea of what the proper dosage should be. I suppose if it's ever legalized clinical trials could be performed, but it is not yet so.

"Yes, it's like an herb, something organic, but marijuana has some harmful effects. I would remind those that tobacco is also a plant and could offer some people some highs. But we have found tobacco to be very bad for our health and smoking as a whole, and smoking marijuana I would assume would also have some dilatory long term effects. We spend millions on preventing smoking and we've all heard about the bad effects of second hand smoke. So I just don't see this as a viable bill at this time. Thank you."

Representative Ward rose and stated:

"Mr. Speaker. May I just have one second, please. I didn't intend to speak on this but my colleague from Kaimuki-Kahala prompted this because it is a very important point. I just saw Hina Mauka the other day and I said, 'I've been speaking on this because marijuana nowadays is not what it was in the old days,' and I said, 'It's 25 times stronger.' He said, 'No, Representative Ward. You're wrong. It's 100 times stronger.'"

"So we're not talking, sit back and be cool guy. We're talking about really heavy drugs. And the way the hydrologists have gone through the hybrid and the other seeds, this is pretty strong stuff. So as long as we don't know, it's a nice, naïve plant. But talk to Hina Mauka and he'll tell you how strong it is. Thank you."

Representative Aquino rose in support of the measure and asked that the remarks of Representatives Yamane and Thielen be entered into the Journal as his own, and asked that his written remarks be inserted in the Journal, and the Chair "so ordered." (By reference only.)

Representative Aquino's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in support of the current draft of SB 1458. Mr. Speaker, in 2000, the Hawaii State Legislature passed Act 228 to allow the medical use of marijuana. Currently, State law allows the limited possession, use and cultivation only for individuals who have certain exigent and closely monitored medical conditions with the Department of Public Safety's Narcotic Enforcement division providing enforcement oversight.

"Mr. Speaker, I understand and am aware of the concerns regarding this measure. But please be assured that the current amendments provided by your Committees on Health, and Public Safety & Military Affairs are try to address these concerns. We proposed and passed the following amendments:

- Reducing the scope to include licensure for one center on the island of Maui as a five-year pilot program;
- Fees collected to be allocated for Maui County;
- Requiring all food and consumable products to be regulated by the State Department of Health and the federal Food and Drug Administration;
- Requiring the Center to maintain photocopies of all filled prescriptions in a database which would be available for review by all law enforcement agencies;
- Establishing a 30 percent tax on all products sold under the pilot program which would be deposited into the State's general fund;

- Requiring the Center to be responsible for costs incurred for security and providing a live 24/7 video surveillance feed of its operations which would be provided to law enforcement;
- Requiring the Center to be located no closer than 600 yards of any childcare facility, preschool, or public or private school;
- Prohibiting the use of medication on the premises of the facility; and
- Prohibiting the medication from the Center to be transported out of Maui County.

"Mr. Speaker, I think these amendments are reasonable and should be further discussed. Thank you."

"I rise with reservations to this measure. I would first like to applaud the Higher Education Chair and Committee members for holding JABSOM to the promises made over ten years ago and taking confident strides forward in addressing Hawaii's doctor shortage.

"For too long, we have provided funding to JABSOM without documenting our conditions or their promises as part of the law. For too long, we have let JABSOM siphon the Hawaii Tobacco Settlement Fund of critical funding that should have gone towards community tobacco cessation programs.

"The addition of the Hawaii Medical Doctor Loan Program will provide incentives for medical students to practice in our rural areas – places where families are in dire need of quality medical care.

"Along with the mandatory three-month rotation of medical students to the outer islands, the Hilo Medical Center Residency Program will provide more residency opportunities for JABSOM graduates to give back to our islands especially in the areas least likely to attract doctors seeking to join or build their own practices.

"However, I would like to remind this Body that JABSOM still has an issue to address: that of the incorporation of an Office of Smoking and Health into the medical school. Currently there is no such office of smoking and health at JABSOM.

"This Office could serve as a trailblazer in the state in terms of studying and promoting research in smoking cessation and sharing the latest treatment options and programs with the medical students and the community.

"The public expects the Legislature to be accountable for the taxes we collect and the services we provide. We should do no less to those that receive our approval and funding as well.

"JABSOM will go a long way in providing the next generation of healers with the knowledge and support to serve the people of Hawaii. But we cannot send them forward on the basis of broken and empty promises. Thank you."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I stand with the reservations on this. Mr. Speaker, just to flag a couple of things before it goes to CPC. It sounds like it's got very good intentions, but when we have directors and we have officers without any fiduciary responsibility, no legal liabilities, it kind of puts up a red flag. Maybe we've got profits and we've got nonprofits. People who run those have character also, but how is the character of somebody who runs a sustainable business corporation not going to be subject to the same frailties of human temptation, greed, envy, whatever all the things are. So the fact that they're immune I think is a dangerous precedent.

"I hope CPC will look at it and dissect it and discern it. What it means and what it doesn't mean. Because it's really blurring the line between the profit and the nonprofit sector. And once you get beyond the warm and fuzzy *kumbayas*, I hope we really get to the substance of this. Because if it's real and it's needed, let's go for it. But if it's not and we're just doing something like an ingenuity corporation, excuse me for saying that, we probably shouldn't proceed with it. Thank you."

"However, from the outset the Business Registration Division of the Department of Commerce & Consumer Affairs expressed concerns that the proposed entity would require a new registration framework and massive software changes. My understanding is that the draft before us reflects an agreement worked out without the DCCA. I vote with reservations to flag out the need to retain the consent of the Department."

REPORTS OF STANDING COMMITTEES

Representative Coffman, for the Committee on Energy & Environmental Protection presented a report (Stand. Com. Rep. No. 1000) recommending that S.B. No. 699, SD 2, as amended in HD 1, pass Second Reading and be referred to the Committee on Finance.

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 699, SD 2, HD 1, pass Second Reading and be referred to the Committee on Finance, seconded by Representative Evans.

Representative Thielen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'm rising in support of Senate Bill 699, which will help fund the Office of Environmental Quality Control. My only caution would be that we not raid that money. Thank you."

Representative Marumoto rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, on the same Standing Committee Report 1000. I have reservations on Senate Bill 699, Senate Draft 2, House Draft 1. It has to do with the Office of Environmental Quality Control. I'm voting with reservations because while this Office does a lot of good work, we are establishing yet another special fund and raising fees to support the operations. These are very expensive fees. I would say up to \$4,000, so it's nothing to sneeze at.

"The DLNR supported the measure as long as the fees are appropriate, whatever that might be. But they had concerns with the budgetary impacts on its Department, on small landowners, and nonprofit partners engaging in conservation projects that do not generate profits and support public benefits.

"According to the City and County of Honolulu, the filing of fees from State and county agencies would severely burden those agencies required to publish many environmental review documents on a regular basis.

"The Budget and Finance Department recognizes the benefit of user's fees, but does not support the creation of a special fund.

"The Land Use Research Foundation believes that this fee is arbitrary and is inconsistent with Chapter 91, the administrative process of establishing fees for services which assures that we have public hearings and input, expert advice and greater transparency. Thank you."

Representative Coffman rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. The Office of Environmental Quality Control has been understaffed for years now and it's basically holding up a lot of development in our State. These are discretionary services. Organizations requiring this service should pay their fair share. Thank you."

Representative Souki rose to speak in support of the measure with reservations, stating:

"Yes, Mr. Speaker and Members of the House. I wish to speak with some reservations on this measure. I realize the importance of this particular department. However, I'm concerned not only about the special funds and the cost that may come about, and the kind of quasi-autonomy that we're providing for this department.

"My other concern is that we are allowing, making an exception in the hiring of employees to circumvent the civil service law and collective bargaining.

"These are my concerns and I hope that the Committee that this is going to will take a strong, hard look at that. Thank you very much, Members."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations. Just a brief comment. Any fee that goes from zero to \$4,000 deserves another look and examination. Thank you."

Representative Ching rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Fontaine rose in support of the measure with reservations and asked that the remarks of Representative Souki be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Thielen rose to speak in opposition to the measure, stating:

"Yes, could the Clerk please cast a no vote for me on using the Hawaii Hurricane Relief Fund? Thank you."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations and a brief comment. Notwithstanding the excitement of being a legislator, it's the difficult times when you're on both sides of the issue, and that's why I'm with reservations. As my colleague just indicated, she is a no vote. I have reservations about even touching that money.

"At the same time I know that this Caucus stood up last Session and said, 'Look, if you're going to have to take it, borrow it.' The good thing about this bill is that it's borrowing the money. The other good thing that it's only zero at least at the present. But there's \$117 million in there of which I think there's \$63 being spoken for.

"So the good, the bad, on both sides of it, Mr. Speaker with reservations. And if I had the power of amending it, I would cap a ceiling of \$100 that we would borrow from it. Hopefully this bill will go away. Thank you."

Representative Marumoto rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, reservations on this particular measure. I believe that this Caucus supported borrowing GO funds to bolster this Fund. I guess it was last Session. This way it would preserve our bond rating, rather than just simply raiding the Fund. Thank you, very much."

Representative Ching rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Belatti rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. Please note my reservations and if I could just make one short comment. My reservations are based on the preamble to this bill which one sentence in particular jumps out to me. 'The State's options for balancing the budget have for the most part been exercised.'

"We're well aware that with the newest Council on Revenue projections, with the request by the Governor for other projections, that we most definitely have to consider this bill. But I want us to be clear that we are going to be considering all options as suggested by the preamble in this measure before us. Thank you, Mr. Speaker."

No. 1270, SD 2, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAII HURRICANE RELIEF FUND," passed Second Reading and was referred to the Committee on Finance, with Representative Thielen voting no, and with Representatives Carroll, McKelvey, Saiki and Wooley being excused.

ANNOUNCEMENTS

Representative Ward: "Mr. Speaker, last week I introduced my intern from Japan, Masa Yuasa. And I announced that batteries, I think it was triple A batteries, were selling in Tokyo for \$280. A couple of hours after that he said, 'No, they're at \$350 now.' Then he told me on Friday that they're now at \$700. He feels compelled and I want to announce to my colleagues that there is a battery drive that he will be doing. I know some of the Members are doing blankets and other things. This is strictly for batteries. Can you imagine a pack that costs about \$5 here is \$700 in Tokyo? So a battery drive, and a memo that will be going to all Members and I ask that all help out. Thank you."

Representative Ching: "Thank you, Mr. Speaker. On behalf of the Heritage Caucus, Representative Cindy Evans and myself, tomorrow will be the 9th Annual Historic Preservation Awareness Day and it will be from 9:00 a.m. to 12:00 with booths throughout the floor. You'll notice that, and I please encourage all our colleagues to visit them because you'd be surprised that some may be from your district. And with APEC coming in November one of the focuses will be heritage, our strength here in Hawaii. So we really encourage everyone and their office staff to come visit. Thank you."

Representative Cabanilla, for the Committee on Housing requested a waiver of the 48-hour advanced notice requirement for the purpose of hearing H.R. Nos. 267 and 268, and their accompanying H.C.R. Nos. on Wednesday, March 23 at 9:00 a.m. in Conference Room 325.

"HR 267 is urging the State of Hawaii to open up the parking lot of the previous Queen Liliuokalani School to serve as a night-time parking lot for the working homeless.

Representative Awana: "Thank you, Mr. Speaker, just a point of clarification for the good Representative from Hawaii Kai who mentioned that it's \$750 for batteries. If I'm not mistaken, he may have referred to yen versus dollars. Thank you, Mr. Speaker."

Representative Ward: "Mr. Speaker, that was my exact comment back to him and he said, 'No, it's US dollars.' It's crazy that it's taken such a toll in Japan. It's actual dollars, and it's probably climbing as we speak."

"Thank you, Mr. Speaker, on Stand. Com. Rep. No. 1036. I stand in support, however I do have reservations with this measure. It's a slight reservation, but one I'd like to note nonetheless. It actually has to do with an amendment that was made on page 13, line 6, which now applies common area maintenance fees for all holders of commercial permits.

"Mr. Speaker, these are some very large costs, most of which are to address impacts by the general public at large. And if you were to

compound these with the existing and future scheduling, also coupled with the damage that these facilities have suffered, it's going to literally be a backbreaker on the business community trying to operate from our small boat harbors. I just would hope that when the Committee on Finance looks at this measure that they can work with the small business community in the State, and with the boaters to address this subsection (c) and perhaps make it inclusive of existing fees. Thank you, very much."

Representative Brower rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations on Senate Bill 1549. Thank you, Mr. Speaker. I just ask Members to consider maybe some unintended consequences of this bill in later decision making. It attempts to address needed repairs and maintenance of ocean recreational facilities such as the Ala Wai Small Boat Harbor.

"In its current form it would allow for commercial vessels at that harbor and I believe that would violate a deed. Deed 196552 between the Territory of Hawaii which was signed by Governor Samuel King and Ala Moana properties enacted back in 1956. The deed states among other things, that the territory shall restrict its use of the marine area for commercial seaworthy marine vessels.

"And in the interest of time, Mr. Speaker, I will just close with that I would prefer that an alternative funding mechanism be in place like increasing the amount of live-aboards at the Ala Wai Small Boat Harbor. The profit from increasing the amount of live-aboards at the harbor would greatly exceed the grand total of over \$140,000 per year that commercial vessels, commercial vessels in other State small boat harbors like Haleiwa, Heeia Kea, Keehi and Waianae combined, generate. It's a difference of almost \$400,000. Thank you."

Representative Riviere rose to speak in support of the measure with reservations, stating:

"With reservations. It's my understanding that there's a five-year waiting list for recreational slips in the Ala Wai. It's a well-used harbor and there's a lot of small boats going in and out, and a lot of kids learning to sail. I would suggest that it's more appropriate that we divert or direct commercial activities to Kewalo Basin which is just a mile down the street and has capacity for more usage. Thank you."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in support of this measure. Generally speaking, Mr. Speaker, I don't like mandates from 'Big Brother' or the slippery slope to the 'nanny state,' but this one fits in with, I think, the big picture of the destiny and basically the mandate of, or I should put it as the mantra of my office, a solar on every roof.

"This one actually says if you're going to build a new house starting in 2014, have it fitted for photovoltaic, not as it is now, retrofitted. This is prospective for fitting it out. This like the other mandating of solar water heating, this will now take us to photovoltaic. I think this is exemplary.

"However, Mr. Speaker, my disappointment is that we didn't pass the bill that floated bonds to get the upfront money to get the rest of the 75% of the houses that have neither solar water heating, or photovoltaic. This is a step in the right direction, but I think we're going to have to have the political will to say, 'Yes, we are going to take full advantage of our renewable energy potential.' We are still kind of giving it lip service and not serious consideration. This is a good step in the direction, but in terms of the small guy who doesn't have the funds, we need to get solar on every roof for them also. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committees was adopted and S.B. "Yes, Mr. Speaker, I stand in strong support of this measure. Mr. Speaker, imagine that you're out with your family during the day and you use a public restroom. That night you return home and find images of your children utilizing a restroom on YouTube. This measure will help protect our youth, our most vulnerable, from the prying eyes. With technology the way it is today, microscopic cameras can be placed almost anywhere.

"During the Committee hearing, we heard testimony from a woman whose ex-husband had videotaped her step-daughters secretly. They were ages 14 and 16. They should be treated just like any other sex offender and be put on this registry. So I am in strong support of this, and I hope that it gets proper attention. Thank you."

Representative Marumoto rose to speak in opposition to the measure, stating:

"Mr. Speaker, I have objections to this particular measure and will be voting no. This calls for fee increases which I think are rather large, and I think it hits primarily small businesses. Certain filings in Circuit and Appellate Court will increase by first, \$25; and then on January 2014, to an additional \$15. And then surcharges in the District Court will increase by \$15; and then in 2014 an additional \$10.

"The money will go to fund an Indigent Legal Services Special Fund and probably for the benefit of Legal Aid Society of Hawaii, which is a very meritorious group. They must find some way to keep alive and viable. But I would much prefer a grant-in-aid rather than establishing a special-funded program. Thank you."

"Mr. Speaker, I'd like a ruling on a potential conflict. I serve on the Board of Directors for Legal Aid. Thank you," and the Chair ruled, "no conflict."

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 815, SD 1, pass Second Reading and be referred to the Committee on Judiciary, seconded by Representative Evans.

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise with slight reservations on Stand. Com. Rep. No. 1051. I downgraded it from a no vote because this is the Kahoolawe forfeit

anything that flies, floats, or otherwise is equipment that gets close to Kahoolawe. Which is good. We have to protect Kahoolawe.

"However, I think it's a bit of an overkill when we have people who are breaking the law in the seas feeding sharks and having a slap on the wrist. Whereas if you get near or close to Kahoolawe you get, as there was a helicopter that landed there the other day, now it says even helicopters are going to be confiscated.

"And I guess I'm sending a subliminal message to those who didn't want to have those who give shark tours to pay other than \$100 for chumming, because it's a huge problem. It's something that we're neglecting, but yet we're giving great credence to people who I think in the last 12 months had maybe two instances of people infringing upon Kahoolawe. So for those reasons, Mr. Speaker, this is a good bill, but it's an overkill compared to what we're doing with other laws of the sea. Thank you."

Representative Thielen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'm rising in support of the measure. Thank you. There are now websites talking about secret places to visit and there's another measure that's going through to try to address that. But the problem is if Kahoolawe is one of these really exclusive secret places to visit and it's encouraging people to go there illegally, there could be very dangerous consequences.

"I think we have to be very strong in protecting that island and protecting the ability to go onto the island only if you're with a guided group. Because there still is unexploded ordnance, and more than that, the island is very important to the Hawaiian community. So I do support this measure. I think it sends out a very clear signal and we would hope it would stop any of those travel sites from saying, 'Oh we've got a secret place for you to visit.' Thank you."

Representative McKelvey rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker, I am in strong support of this measure, however I do have a slight reservation. My record on Kahoolawe has been very clear, both in my past votes, as well as supporting legislation a few years ago to amend the procurement code to allow them to get the necessities easier.

"However what worries me about the bill or concerns me about the way it's written is, there's no reflection of a mental state at all. And it appears to be strict liability in that all you need to do is inadvertently cross into the boundaries or territories of the Kahoolawe Reserve and be subjected to a forfeiture rule.

"I completely understand what the previous Representative from Kailua is saying and I agree with her, that for those who are intentionally or even recklessly doing this, then forfeiture should be allowed as a tool. However to not have those mental states included where one could theoretically be subjected to the forfeiture either by complete inadvertence or accident, it just seems a little bit harsh and could have some unintended consequences.

"And therefore I just hope that when it moves to the next Committee that maybe the discussion could take place on this issue to see if there's a way to ensure that those who are the bad actors, those who are imposing harm are punished with appropriate tools like this. But those who may inadvertently or accidentally, either through emergency or some other action, not be subjected to such a harsh penalty right off the bat. Thank you."

Representative Keith-Agaran rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, I request a ruling on a potential conflict. I formerly sat on the Commission, and I've represented clients before the Commission on administrative proceedings," and the Chair ruled, "no conflict."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 815, SD 1, entitled: "A BILL

Representative Herkes rose to speak in support of the measure, stating:

"I'm in very strong support. This deals with the mobile medical van that we've been trying to get in Kona for eight years. This deals with getting telemedicine and things of that nature. And just for the record, if we had that van in operation on the day of the tsunami, it would have provided very valuable support. So I hope that we can keep moving on this. The management of Kona Hospital changes, it seems like every 30 days, and so I hope that the new head of HHSC will be a strong supporter of the mobile medical van which is supposed to be here in August. Thank you."

Representative Evans: "Thank you, Mr. Speaker, I would like to announce to my colleagues that we're having a reception for those who came with exhibits that were up on the third floor today for our 9th annual Historic Preservation Awareness Day. Governor Abercrombie will be stopping by. The reception is from 1:00 to 2:00 and we invite all our legislators to attend. Thank you."

Representative Ward: "Mr. Speaker, as most of the Members know, I have an intern from Japan. He's been giving updates from his family and friends, and he shocked us all by announcing that a package of batteries was hundreds of dollars. The latest update is that the government has intervened with releasing of petroleum reserves because there's no electricity. Batteries were the only source. And Panasonic has just given 500,000 batteries free to those in need of that.

"So things are stabilizing, and now for only \$46 you can buy a package of eight AA batteries. So the price is down, it's stable, and I think Japan is recovering. We are still collecting batteries in Room 318 and we are greatly appreciative of people's gifts and prayers for Japan as they go through this troubling time. Thank you, Mr. Speaker."

"Mr. Speaker, I rise in favor of Stand. Com. Rep. No. 1068. How many people have heard of the Pacific International Space Alliance? I'm impressed some people have heard of the Pacific International Space Alliance known in brevity for its abbreviation, PISA. That is something that this bill will help launch. It will help us reach out. And Mr. Speaker, this bill is a winner in pushing the economic boundaries of our State basically, internationally. Because of this, all the countries of the Pacific are going to be invited. I think there are six countries already in PISA.

"It's the courtship now that Washington, i.e. NASA has with the State of Hawaii. If we pass this bill and then make the zero turn into hopefully having three, to four, to five, or six zeros, or even seven will make it impressive. Then NASA will know that we're really serious because they are in love with Mauna Kea.

"And if there's an international laboratory that fits the future of space it's the State of Hawaii. So, Mr. Speaker, it's a beginning kick-start of our potential in space. What I'm saying is not out of this world, but that's where it's going. Thank you."

Representative Johanson rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations. Thank you. I think before I state my reservations which are twofold, I would like to start off by recognizing the intent of the measure. I think all of us in this Body recognize that the EUTF is not functioning in an optimal way, both for the employer and for the worker. So I'm aware of the dysfunction.

"I think principally my concerns with this bill as it's presently drafted, are mostly for the worker. First, because of the current structure of the EUTF and the current problems that are there, I worry that by adding EUTF benefits to the collective bargaining process we may actually exacerbate the ability to arrive at quality and affordable healthcare for our workers. So I don't know that we'll arrive at the intended outcome. In fact, we may engender the exact opposite.

"Additionally, given the budget constraints and where we are in terms of the State position, I worry that this bill also compromises the Governor, and therein the Executive Branch's ability to manage costs, which has an impact for the entire State.

"So it's for those reasons that I would ask that we just continue to take a look at this as it moves forward in Committee recognizing that this may not be a panacea to the problems that we acknowledge exist with the EUTF right now. Thank you."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise with reservations. Mr. Speaker, this solid waste fee really hurts the environment. I mean, it literally hurts the environment because it disincentivizes taking waste and creating energy. We should be incentivizing anybody who produces energy and gets us away from fossil fuel. Instead this puts the price of doing business even higher. I know the budget is precarious, and I know that there's an alternative budget that's going to be coming out from our side of the aisle which doesn't have this in here.

"This is not necessary. It's contrary to what, as I spoke of the other day, about putting solar photovoltaic on every roof and doing what we politically said we wanted to do, but we've got to put legs to those things. So we need to look at this very carefully when it goes to the Finance Committee and not just disincentivize people who take waste. It's not just any burning in an incinerator, or just getting rid of it. It's using for energy and that's so important and we have to preserve that. So I hope the next Committee will take that into consideration. Thank you."

Representative Takai's written remarks are as follows:

"Mr. Speaker, I rise in strong support of this measure. This measure is the companion to HB1 which I introduced this Session. HB1 and SB883 seek to designate a new special design Gold Star Family plate for children, parents, grandparents, spouses, and siblings of fallen soldiers.

"The gold star legacy is part of the traditions of our country which is traced back to WWI when an Army Capt. Robert Queissner of the 5th Ohio Infantry created the flags to honor his two sons serving on the front lines in 1917. The flags were quickly adopted by families with sons in the Army.

"With President Wilson's support the Council of National Defenses proposal permitting mothers who had lost a child serving in the war to wear a gold star on a black arm band while in mourning. The black arm band was exchanged for a small flag and the gold star was outlined in a thin blue outline signifying that the service member had died in battle. Service flags were widely used in World War II, as most families had at least one member serving in the military.

"The single most important aspect of the adoption of SB 883 will be this Body's declaration that the Gold Star License Plate represents a life that has been lost and to remind everyone that freedom is not free. What better way to honor the lives of all of our fallen warriors so that they will never be forgotten. This Body has a remarkable record of support for Hawaii's service members and their families.

"The Purple Heart, Combat Veteran, Pearl Harbor Survivor, Prisoner of War License Plate and the precedent-setting creation of the Hawaii State Medal of Honor, presented to the next of kin of those who died in the Iraq and Afghanistan wars, are just some of the ways we honor those who have served our country.

"This measure is simply about our society re-paying a huge debt of gratitude to the families of our servicemen and women who have given their lives for our freedoms. The very essence of our freedom to live in a free society is the direct result of the bravery by those whose heroic acts and deeds this license plate honors. Thank you."

Representative Takai rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Mr. Speaker, I rise in support of this measure. Thank you. I just wanted to point out to the Members that in fact, this bill is titled broadly, Relating to Dangerous Weapons, but actually it's dealing with the concussion bombs and those types of fireworks that we've been hearing for the past few years.

"And as you all know, APEC is coming this year in November. And one of the concerns that we had last year to address this was how are we going to eliminate these items which are not only dangerous, but also a huge concern for law enforcement and for the Secret Service as well.

"So as this measure goes along, just keep that in perspective. This is a very important measure for our law enforcement as we look towards APEC. But I think it's even more important for our communities as we address those items that don't fit within the definition of fireworks. Thank you, Mr. Speaker."

Representative M. Lee rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I stand in strong support of the measure. We have all been exposed to the ear splitting noise of homemade 'bombs.' Whether made with dry ice, explosive materials, or parts of other fireworks, these devices can not only hurt and terrorize citizens and animals, but can also be deadly to the maker. It can also have a negative effect on sufferers of Post Traumatic Stress Disorder (PTSD.)

"In addition, with the coming of the APEC summit, any device which could mimic gunfire or explosives would be a potential problem; and could lead to lots of negative publicity for the State. It could also lead to confusion and chaos.

"This bill which creates a distinct offense, and separate from offenses under Section 134-8 is needed, especially with the coming of APEC. I encourage the Members' support of this important measure."

Representative Souki rose to speak in support of the measure with reservations, stating:

"Yes, Mr. Speaker and Members of the House, I wish to speak with some reservations on this measure. While I abhor dog fighting and cruelty to animals, I believe the penalty for a spectator as a Class C felony is a bit too much. We as a Legislature in these past years, we seem to be in the habit of passing a lot of Class C felonies and other felonies, and this of course continues to fill the prison system.

"Now I understand that the argument that a Class C felony will not necessarily put a person in jail. You can get probation on a Class C felony, however with a Class C felony on the record you will have some difficulty in locating a job. You'll have difficulty in traveling. Your life will just change tremendously when you have a felony.

"And that has been my concern all these years when we, in a somewhat cavalier fashion, keep on establishing these felonies, and keep on sending people away to prison, or living at home with that felony for the rest of their life. I believe that a misdemeanor will more than suffice because you can get a year or more for being a spectator, and I think that in itself is a very heavy penalty. Thank you, very much."

Representative Ching rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. Mr. Speaker, I'm going to quote a few facts here. Apparently Hawaii, and it's been getting some press, has the weakest laws in terms of dog fighting. It is ranked just about at the bottom for treatment of dogs, animals, and we're the Aloha State. But we've got APEC coming and we want to be all on the same page. But some people may say, 'Well what the heck does that have to do with APEC?'

"Well as a former elementary school teacher, I didn't put dogs in the same category as chickens. What we teach our children to do is be discerning individuals, and dogs serve. The horse can say and claim transportation. The cat can claim a rat or two and some comfort. But no animal serves like the dog. The dog has been in search and rescue missions. If you see the canine demonstrations on Keiki Day. And the dog more importantly embodies those things that we all should be proud of and we should be teaching our children. That's the interest I have in dogs. It's because I used to be an ESL elementary school teacher for ten years.

"And we cannot tell our people, our children just what not to do. We must tell them what they should be, too. We must tell them what to do. The dog for me represents a model, helpful, courageous, service oriented. I remember one colleague of mine saying, hey the pig has high IQ, and we eat pig. But the fact is that a pig trainer once told me there's a huge difference between a pig and a dog. The difference is the pig is geared towards only food. It's greedy for food. But the dog serves for the joy of serving, for serving for the pact. There are so many incidences where dogs have saved lives, have been known to go over a child's body to save it from attack killer bees. It goes on, and on, and on. I don't need to go on.

"Over 40% of Oahu households have dogs. So that's where I'm concerned. What an interesting conflict. 40% of our households have dogs, but we're ranked lowest in the US practically in the way we treat dogs.

"Symbols are important, Mr. Speaker. It's my belief that symbols are important. There are symbols all around us. The dog serves as a symbol of help like the St. Bernard that save lives in the snow. It served in the

military. A dog was honored on the Congressional Floor. And these are the things that we want to tell our children are important. And as a State, I think these are things we stand for.

"So once again, maybe you might think that connection between APEC and this is not very strong, but I'll tell you something. We need to know what we stand for so that people know who we are, and then we attract the right people, and we attract respect to our State. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1069, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CRUELTY TO ANIMALS," passed Second Reading and was placed on the calendar for Third Reading, with Representatives Belatti, Chang and Tokioka being excused.

Representative Belatti rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. Please note my reservations and if I could make just a few short comments. My reservations are based upon the opposition of the Department of Land and Natural Resources. Our waters, including our ocean waters, are like our public lands. We have a public trust duty to these properties, and I think that the course charted by the Department of Land and Natural Resources to look at a 45-year lease instead of 65-year lease is something that is a well-balanced approach. Thank you, Mr. Speaker."

Representative Carroll rose in support of the measure with reservations and asked that her written remarks and the remarks of Representative Belatti be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Carroll's written remarks are as follows:

"I would like to express my reservations to SB 1511, SD1, HD1, which would extend the maximum lease terms for all aquaculture operations from thirty-five to sixty-five years. Although I support creating opportunities to promote aquaculture development within the State of Hawaii, there are some extenuating factors that might be problematic if this measure passes and therefore must be considered with greater attention. These reservations are primarily from the testimony offered by the Department of Land and

Natural Resources, the Department of Agriculture, and the Food & Water Watch.

"Currently there are large-scale aquaculture operations, such as commercial finfish open ocean cages that are still highly experimental, and long-term lease extensions could end up costing the State more in oversight and enforcement costs than it would receive in lease payments. Furthermore, we do have sufficient regulations in place that would address the cumulative impacts from this highly experimental industry. Rather than further entrenching this industry through lease extensions, we should take a more precautionary approach until these issues are adequately addressed. In addition, while this bill would provide a benefit to aquaculture operations, it does so at the expense of ensuring fair competition for the leasing of public lands by excluding other potential bidders seeking to participate in the public disposition process. Many prospective bidders might be reluctant to invest the substantial time, energy, costs, and other resources to prepare and submit a bid knowing that the existing lessee could have the power to nullify the bid at any time. It is for the abovementioned reasons that I have my reservations to SB 1511, SD1, HD1."

"Note my reservations. This is a public lands issue and there was no referral to the Committee on Hawaiian Affairs."

Representative Thielen rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I'm rising to speak against Senate Bill 367, which is the wind cable bill. Mr. Speaker, I'd like to just state a couple of things about this for Members to think about. There was a very interesting Letter to the Editor in today's paper by a Roy Kamisato from Honolulu, and I quote him:

It looks like Hawaiian Electric Company wants its ratepayers to pay for the cost of building the undersea cable from Lanai and Molokai. This plan will allow HECO to make a profit off the undersea cable.

Why not have the taxpayers who are taking all the risk anyway, pay for the undersea cable and charge HECO rent for the use and maintenance of the cable.

The current plan sounds like the underwater oil drilling arrangement the federal government has with the oil companies. The federal government subsidizes the drilling for the oil companies, the oil companies then sell the oil on federal property, which is owned by the taxpayers, and keeps most of the profits. How is this fair?

"I think he raises a very good idea. And more than that, Mr. Speaker, I would like to raise the concerns because the legislation puts all cost for the cable on the ratepayer. I have a op-ed that appeared interestingly enough, in today's newspaper. The Members can read it in the *Star-Advertiser*, but I also would like permission to have it inserted into the Journal. Thank you.

"Mr. Speaker, it's very telling that the new Chair of the Public Utilities Commission, Mina Morita submitted this testimony to the Joint Energy & Environmental Protection, and Consumer Protection & Commerce Committees on March 21st, 2011. In her testimony she states, 'The Commission is still concerned that a certain amount of the potential risk to ratepayers which may be unavoidable will continue to exist if a project of this magnitude goes forward.

"You know, that's interesting because it was her bill. It was amended as it went through the process, but it was her bill. And there is a serious risk to the ratepayer. If the project doesn't succeed, the ratepayers pay. If the project succeeds, the ratepayers pay.

"We're talking between \$500 million, to a billion dollars for this project. You add that to the rail project which is in the multi-billions and you stop to say, 'Wait a minute. What can the people of Hawaii manage to handle?' And unfortunately it's the people on this island that are going to bear the brunt of this. We pay for the rail tax, the added 0.5% GET. The cable cost will come in at some significant amount and your existing bills from Hawaiian Electric certainly will go up. I think people are charged around 18 or 19 cents a kilowatt hour at this point on Oahu. It's more on the Neighbor Islands and I sympathize with them. But that's going to go up according to Hawaiian Electric's own testimony, to 22 or 23 cents a kilowatt hour. That's if everything works out as it should work out.

"I think that the problem with not having a real economic analysis for this project before we vote on setting up the regulatory system puts the cart before the horse. We're saying, 'Too bad ratepayers. You're going to pay 100% of it.' The shareholders of Hawaiian Electric don't bare any of the risks and wouldn't you like to have an investment like that, Mr. Speaker, where you don't have any risk you only have profit. And if the deal fails, no risk. You recover all your money. I mean, I don't know anywhere in the business world where that kind of a sweetheart deal exists."

Representative Ching rose to yield her time, and the Chair "so ordered."

Representative Thielen continued, stating:

"Thank you. Speaker Emeritus will now be able to let me go on speaking without trying to interrupt me, like last time.

"Mr. Speaker, when you just take a look at this. You're a businessman. You know how business works. You know as a small business person that you take certain risks. If those things don't work out, then your bottom line suffers. And maybe you don't even make costs during that year. But we're setting up a regulatory process to let Hawaiian Electric have a system that, whether the undersea cable works and can go into operation or it doesn't, their cost in establishing their land-based system to be able to take in that power are borne 100% by the ratepayer. It's just the wrong way to go.

"And then the major problem is that we don't really know what this will cost. When Hawaiian Electric comes before us in the Committee and testifies, they're sort of all over the ball park because they don't know what this whole thing will cost. And you can't leave the undersea cable in a vacuum because the ratepayers are going to have to pick up that cost too. We don't know what the whole thing is going to cost and yet we're setting up a regulatory process that says we don't care what it will cost. The

ratepayer will cover 100%, and shareholders - you're protected. That's just amazing to me and it's amazingly wrong, Mr. Speaker. Thank you."

Representative Thielen's written remarks are as follows:

"Proposed Legislation Puts All Costs for Cable on Ratepayer

Honolulu- If the majority of the lawmakers and Hawaiian Electric Company get their way under SB 367, the bill designed to finance an interisland cable, the Oahu ratepayer will be solely responsible for the cost of the project, predicted to cost somewhere between \$500 million to \$1 billion. An editorial in Sunday's edition indicated otherwise.

SB 367 contains several astonishing entitlements. It allows the utility to recover the full cost of the interisland cable and on-island infrastructure no matter what the outcome. Once approved by the Public Utilities Commission, these costs would be applied to the ratepayer in the form of an automatic rate adjustment, seen as an added surcharge on everyone's bill until the project is paid in full. The cost includes every conceivable expense, from predevelopment through commercial operations, and even includes a guarantee rate of return for the utility and its lucky shareholders. This boon applies to the utility no matter what degree of success the project has. Even if the cable is unsuccessful or plagued by problems, the utility will still recoup all its expenses, from planning to operations with a profit to boot.

Proponents of the bill argue that SB 367 is "just establishing a regulator structure." True enough, and this regulatory structure will change the way the utility does business, forever. Proponents also argue that the risk is very small that the project will not succeed. But if the risk is so small, why are HECO and DBEDT so determined to pass all the costs to all of us? Proponents argue that the only way to make the cable happen is to take all of the risk out of the project. But is this truly the only way? And if the ratepayer must foot the bill, why aren't they entitled to a part of the profits as well?

Almost everyone agrees that Hawaii must wean itself from imported oil before it is too late, but the question is how. Perhaps the only possible way for Hawaii to move forward is for the ratepayer to foot the entire bill for a massive wind project, and that it is too much to ask the utility to take any of the risk. But if this is true, it seems only prudent, only fair, that before the ratepayer agrees to pay for the cable, we would know the cost. The likely response? The utility can't tell us the cost until we agree to pay for it."

Representative Evans rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. I know our State is very committed to renewable energy and looking for alternatives. I believe differently from the previous speaker. This bill is about establishing a regulatory structure under which the Public Utilities Commission can certify a cable company to commercially develop, finance and construct an interisland high voltage electric transmission cable system to transmit clean, renewable energy in the State. I see that as potentially, a cable between many islands across the State.

"Yes, there is one that we know is being considered, but there's other channels. There's other islands. I do know that when we looked at photovoltaic and seawater air conditioning there were a lot of ideas floated... Biofuel, biomass, energy, waste to energy. There's all these different technologies being considered. At this point, I know that we regulate so much in this State, and I believe that once this framework is established, if there is someone who comes to the table to propose something, There will be a lot of processes and regulatory framework in addition to this, and that hopefully is there to protect us. Thank you, Mr. Speaker."

Representative Hanohano rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Keith-Agaran rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ching rose in support of the measure with reservations and asked that the remarks of Representative Thielen be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Pine rose to speak in opposition to the measure, stating:

"Yes, in opposition with some comments. I think we all here can agree with the Majority Floor Leader, that we are very supportive of renewable energy projects. The concern is, and what is hard to take is that this company is having the ratepayers pay for the investment, but if it's profitable, they get the profits.

"My biggest concern in this bill is, why are we paying for the investment and we get no piece of the profit? The people of Hawaii, if they're going to invest their own money, then we should protect them as leaders and say, 'Wait a second. The people of Hawaii that invested in this company should have the profits, and not the company.'"

Representative Johanson rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Fontaine rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

"I would like to state that I am a shareholder of Hawaiian Electric," and the Chair ruled, "no conflict."

Representative Jordan then asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Coffman rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'd like to make some comments, please. I want to clear up a couple things here, Mr. Speaker. In strong support, please. Thank you, Mr. Speaker.

"First of all, this isn't approval of a project. It's really just a regulatory process and I agree with everyone who said that we need to know what the costs are, because what this regulation will allow us to do is obtain the costs through an RFP process, and that's all.

"To the issue about paying for the investment. The cable company will have to pay for and install this particular system. If another utility wishes to buy that system from the cable company, it will have to pay for it and the only thing they will be allowed through the PUC is a return on the investment which they get right now by putting in regular power plants.

"And to address the issue about whether the risk is trying to be mitigated through regulation, which they are. There's a comment here that deals with the financing and the overview the PUC has and its says, 'To the extent to which the certified cable company assumes financial responsibility for the high voltage electric transmission cable system until both the cable system and the new generation facility or facilities have achieved commercial operation.' Commercial operation is they're in production, and the PUC is to make sure that they don't get any return, any rates, until that happens. Thank you, Mr. Speaker."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With strong reservations. On the one hand, I'm conflicted that this cable is absolutely necessary. We've got to get off of fossil fuel. This is a key for wind farms, etc. to be able to do that. On the other hand, it's got to be where we have a business model that works, and I think the language, despite the Representative from the Big Island explaining that while the 'skin in the game' is not the taxpayer, I don't think the language is clear enough, Mr. Speaker.

"We've got to show that HECO and all the others have got enough 'skin in the game' so it doesn't be where we are the venture capitalist. Because

we're already paying I think it's 20-some cents per kilowatt hour, and then almost 40 cents on Kauai. It's very expensive to generate electricity, so we have to rush for renewable energy supplies.

"We need the cable, but let's do a business model while we've got time. Let's figure out what are the risks, what are the rewards, and who's paying for it. And I'm hoping the Representative from Wahiawa will come up with some creative ways where the business model will assure the people in the language that this is not a one-sided affair. Thank you, Mr. Speaker."

The Chair then stated:

"Members, may we move on, since this particular measure will be going to the Finance Committee where the members will have the opportunity to address the concerns which have been raised by the Members of the House."

Representative Ching rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in strong support of SCR 1153, S.B. 1493 - Relating to Light Pollution. If enacted, this bill would enact the recommended legislation of the Starlight Reserve Committee. Specifically, this piece of legislation would require that all new and replacement outdoor light fixtures use a full-cutoff fixture with a few exemptions.

"I am in support of this bill for two very specific reasons. First, economic impact. At present, astronomy is responsible for an estimated \$150 - \$200 million in revenue per year. For the observatories on Mauna Kea and Haleakala to operate at optimum levels we must preserve Hawai'i's visibility of the stars by minimizing light pollution. This measure supports this goal.

"Second, there are health and safety concerns. As is cited in the testimony of Starlight Reserve Committee Chairman, Richard J. Wainscoat, "Fully shielded lights emit much less light at near horizontal angles, meaning that light trespass is substantially reduced. Light from adjacent properties or from streetlights entering our bedrooms is a form of light trespass. It can make it difficult to sleep at night. Excessive light at night has been linked to some forms of cancer, particularly breast cancer." I share Mr. Wainscoat perspective and concern on lights ability to influence our health and well being and for these reasons I support S.B. 1493."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1493, SD 1, HD 2, entitled: "A BILL FOR AN ACT RELATING TO LIGHT POLLUTION," was referred to the Committee on Finance, with Representatives Har, Riviere and Wooley being excused.

This bill potentially exacerbates our already high cost of living. I do not know that my constituents can afford to shoulder this increased burden in these times, especially because of the broad-based nature of this tax. So while I don't disagree with the underlying premise of this bill to fund the State Highway Fund, I think this particular mechanism is going to hurt most of the people in my district and impact many of our constituents. It is for this reason that I oppose this measure."

Representative Pine rose to speak in opposition to the measure, stating:

"Yes, I'm in opposition to this measure, Mr. Speaker. Mr. Speaker, what this bill does is it now will make different sections in the store. A section for the one company that never freezes their bread, only slices of bread because that same company that we're passing this legislation for does freeze its other products like hot dog buns and hamburger buns. But their slices of bread, they don't freeze. So that particular company will have a special section, passed by law if this bill is passed into law, that says that

it's not going to be frozen. And every other bread that's sliced will be put in another section that says, 'previously frozen.'

"No other state in the nation has a law like this for bread. There are several local companies that came forth that bake bread that were very concerned that this will increase costs and therefore cause layoffs to these local companies that have local residents as their staff. Fresh Start Bakeries was against this, J. Hara Store, the Department of Health because it will increase their costs as well as they didn't see this as a health concern so why would they have to then monitor this. Ani's Bake Shop, Watanabe Bakery, Times Supermarket, Hawaii Food Service Alliance, Mountain View Mini Mart, Golden Coin were against this. Many other stores. Pukulani Superette and many different companies, especially the Neighbor Island companies that do bake bread, they were very much against this bill.

"What I find concerning, Mr. Speaker, is whether it is our intention or not, what we are doing is we are using our position of power in government basically to help the marketing campaign of one company and hurt other companies. Basically we're implying that because a particular company that freezes their bread has a poorer product. I find that there are some problems possibly with the commerce clause and other laws not just locally, but nationally as well.

"Pukulani Superette stated that, 'These products that we sell are provided by local companies employing local people. This would not only hurt our company, but local jobs as well.' And that's Pukulani Superette from Makawao.

"Mountain View Mini Mart in Mountain View on the Big Island said that this bill seems designed to protect a monopoly and ensure high prices to the Hawaii consumer.

"Kalapana Village Café in Pahoa said that, 'We use previously frozen bread in bakery products because it provides a high quality product to our consumers and freezing the product helps us to keep costs low. Requiring labeling, or signage in stores would confuse consumers into thinking that these products are not as good as other products.'

"Punaluu Bake Shop said, 'Business in Naalehu is challenging enough. We cannot afford any additional costs.'

"Mr. Speaker, there's a whole packet here. This is just the testimony alone and most is against this bill from local people who have jobs in the industry. The only people that really came in favor of this bill came from one particular company, and those people said that they were worried that because these outside companies were freezing their bread from the mainland that they are competing in this marketing and hurting their business. And they said, we're worried about losing our jobs and that's why this bill is necessary.

"Well, Mr. Speaker, I looked into the income of that particular company. That particular company is probably one of the most profitable companies in the State of Hawaii right now in terms of not having a drastic downfall in their income. In fact, they increased their profits in 2010 by \$19 million, which is unheard of in this economy.

"What I found the most disturbing, Mr. Speaker, were the testifiers that were workers that came in themselves. There was a woman who had a child on her lap and she was in tears. She was explaining how this economy has already hurt her family by other family members losing their jobs, and that now so we can debate frozen and unfrozen ..."

Representative Johanson rose to yield his time, and the Chair "so ordered."

Representative Pine continued, stating:

"What she said while she had tears in her eyes was, 'Here we are debating the words, frozen and unfrozen. All I can think about is I know this is going to increase costs for the company so which one of us is going to lose our job because they have to get that machine to stamp frozen on it. That's all I can think about right now.'

"So I hope this Body really thinks very seriously about this measure. Is this an issue where our life depends on it? Does our health depend on it? How will this hurt our economy? Sure it's nice to know whether something's frozen or not frozen, but if it tastes the same and if it doesn't affect our health, is that really something that we should be involved in commerce here at the Legislature? So that is why I oppose this bill, Mr. Speaker."

Representative Ching rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition. Thank you, Mr. Speaker. You know, my grandparents owned a bakery, New England Bakery. They were bakery people and we're grateful for that because they worked really hard. Got up early, really early. And all my uncles and aunts talk about those days and how hard they had to work in the bakery business. And I probably wouldn't be here today probably without that sacrifice. My heart goes out to those in the bakery business.

"In fact, the Love's Bakery family former home is in my district on Judd Street. Love's Bakery is a very special company here in Hawaii and we all grew up with it and have a lot of attachment to it. But the reason I'm voting no on this measure is, echoing some of the comments made by the Representative from Ewa Beach, that in the big picture we are how many months away from an important event in November. It's our goal, I would hope it's our goal, to reveal what a great place Hawaii is to do business. That we're a great place to do business and we want to attract investment. We have a good business climate.

"And while I really understand the argument on the side of this particular bakery, I just don't think that this solution is the only solution. There are other ways to achieve their goal, other ways. Really good branding. Really good marketing. A different kind of a slogan perhaps, to let people know how special they are. But to punish other businesses to achieve your goals, to me, is not respectful. You can promote yourself. Promote yourself. Go, go, go. But don't hurt somebody else to do it.

"So to me this is a misguided kind of a wrong way to approach this, perhaps challenge. And to me, if it were health related it would be different. But the Department Health said it is not health related so with again, the understanding from where they come from and appreciation for this particular bakery, I have to vote no."

Representative Fontaine rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Rhoads rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Thielen rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, strong, strong reservations and a couple of comments. Mr. Speaker, government's role is the referee. But when they're on the field and they start playing for one team, where they start tilting it one way or the other, that's when we're no longer objective. That's when we're no longer the referee. In fact, we should be up in the stands watching the marketplace do what it's doing.

"But in this case we've clearly sided, for no health reasons, and I reinforce that because my first reaction when I heard about this bill was well, there's got to be something when you freeze something. You lock in bacteria. Blah, blah, blah. Nothing whatsoever in regards to health.

"So when the referee starts going into the marketplace, we should be reminded that one of the reasons and the causes of World War II were these competitive retributational things that, not in this case, governments, but countries did to each other. Point is, Mr. Speaker, the free market has prevailed, kept peace on the international scene, and can keep peace locally.

"The solution is if that particular company that my colleague from Ewa Beach cited wants to get a winner without interrupting the discourse of the game of the market, without having the referee come and play on their side, all they've got to do is print on their bread, 'not previously frozen.' Change their label. 'Not previously frozen.' And the whole issue goes away. Thank you, Mr. Speaker."

Representative Hanohano rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Evans rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. I've been in this Body for nine years and I know, being from the Big Island, there were many times when we've talked about truth in labeling. We've talked about macadamia nuts. We've talked about coffee. I know even fish sometimes, there's fresh fish and there's fresh frozen fish. So the fact that this came up is not surprising.

"Obviously our local bakers that bake, they consider it freshly baked. And then there's products coming from the mainland that are frozen, and then thawed and baked here. I think they want the consumer to know. I mean obviously they're asking us to let the consumers know and let the consumer decide if they want fresh or frozen fresh.

"But I do think this topic continues to come up at the State Legislature. This isn't new for us. It is Second Reading and Members vote your conscience. But I do believe that this is a discussion that keeps coming up and it's, I think, worthy to go on to the next Committee and see where it lies there. Thank you."

Representative Pine rose to respond, stating:

"Yes, just additional comments in rebuttal. I would agree with the previous speaker, that if a company wanted us to pass this, let us include the other products that it produces. This is what basically the bill states. It states that it will only do the sliced bread, but we will not include unsliced breads such as bagels, pastries, English muffins, hot dog buns, or hamburger buns. Just sliced bread. So why will we have a bill that makes it so obvious that this is only going to help one company? Why wouldn't that company also want its own bagels, pastries and English muffins if they so believe that the consumer should have the right to know that it was frozen. That is why I believe this is special legislation for a special company, and we should certainly kill this bill as soon as we can."

The Chair then stated:

"Member, we've had a lot of discussion. This particular measure will be moving on to the Consumer Protection and Commerce Committee for further discussion. At that point, all your particular questions can be clarified by the testifiers who come before that Committee. Or, if there is no hearing, you all have convinced the Chair that it is the will of the House. Are there any other votes in opposition or with reservations?"

Representative Marumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Johanson rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1086, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CONSUMER INFORMATION," passed Second Reading and was referred to the Committee on Consumer Protection & Commerce, with Representatives Ching, Fontaine and Pine voting no, and with Representatives Har, Riviere and Wooley being excused.

Representative Yamane rose to speak in support of the measure, stating:

"Mr. Speaker. I'm standing in support, but I need to clarify for the Members. On Stand. Com. Rep. No. 1173, SB 40, SD 2, HD 1, Members and those in the Committee who voted on this measure, if you look at this bill, it is inconsistent with what was recommended by the Chair and voted on. Members, the Chair and Committee members, when we discussed this issue, took out all requirements to require pseudoephedrine to be prescription, and intended that current laws regarding access to pseudoephedrine would remain the same.

"The intent of the bill was to address the electronic drug dispensing tracking system, and to allow for public safety. However, this current HD 1 draft that's in front of you, did not take out the intended language as stated and voted on by the members. So I just want you to be aware that what was stated verbally does not reflect what was drafted in this HD 1 at this time. Thank you."

I rise in support with reservation of SCR 1189, S.B. 239 - Relating to the Hawaii Tobacco Settlement Special Fund, which extends the appropriate of Hawaii Tobacco Settlement Special Fund monies to JABSOM until June 30, 2015. It also establishes a University of Hawaii School of Public Health, the Hawaii Medical Doctor Loan Program and the Hilo Medical Rural Interdisciplinary Residency Program and a dedicated Special Fund for each respective program.

"Mr. Speaker I am concerned about a duplicative program in the School of Public Health. I raise the question, why is it necessary to divert funds to the School of Public Health for tobacco cessation efforts when JABSOM already provides the full range of services to combat tobacco use including prevention counseling, education, outreach, cessation programs and treatment across every age group?"

Representative Takai rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Takai's written remarks are as follows:

"I rise with reservations to this measure. I would first like to applaud the Higher Education Chair and Committee members for holding JABSOM to the promises made over ten years ago and taking confident strides forward in addressing Hawaii's doctor shortage.

"For too long, we have provided funding to JABSOM without writing our conditions or their promises as part of the law. For too long, we have let JABSOM siphon the Hawaii Tobacco Settlement Fund of critical funding that should have gone towards community tobacco cessation programs.

"The addition of the Hawaii Medical Doctor Loan Program will provide incentives for medical students to practice in our rural areas – places where families are in dire need of quality medical care. Along with the mandatory three-month rotation of medical students to the Neighbor Islands, the Hilo Medical Center Residency Program will provide more residency opportunities for JABSOM graduates to give back to our islands especially in the areas least likely to attract doctors seeking to join or build their own practices.

"However, I would like to remind this Body that JABSOM still has an issue to address: that of the incorporation of an Office of Smoking and Health into the medical school. Currently there is no such Office of Smoking and Health at JABSOM. This office could serve as a trailblazer in the State in terms of studying and promoting research in smoking cessation and sharing the latest treatment options and programs with the medical students and the community.

"The public expects the Legislature to be accountable for the taxes we collect and the services we provide. We should do no less to those that receive our approval and funding as well. JABSOM will go a long way in providing the next generation of healers with the knowledge and support to serve the people of Hawaii. But we cannot send them forward on the basis of broken and empty promises. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. Representative Pine rose to disclose a potential conflict of interest, stating:

"Yes, Mr. Speaker, I rise in support with reservations. But before I proceed, I'd like to declare that I do occasional work for a homeless shelter as a potential conflict. Thank you," and the Chair ruled, "no conflict."

Representative Pine continued to speak in support of the measure with reservations, stating:

"What this bill does is it creates safe havens in various locations like parking lots, or parks, and things like that. And I want to praise the Chairs of Housing and Human Services because they really want to solve the homeless problem. They're trying to think of so many different ideas to help solve the problem. But the real problem right now in helping the homeless is that we lack the proper funding to truly enact changes to solve this problem in Hawaii. And this bill allocates \$250,000 for a particular place where people can go and just park their cars there and stay there overnight.

"Well the problem with that is it's going to be very difficult with \$250,000 to provide an actual safe haven that includes maybe facilities to keep the place free of drugs and crime.

"And a lot of the homeless providers were torn on this issue as well, Mr. Speaker. They do want to support anything that will help to provide a safe place for the homeless, but they said that what they really, really need was more affordable housing so they can move those that are in homeless shelters out of the homeless shelters, especially those with kids, to more affordable housing. That is really what they believe is going to solve the homeless problem."

Representative Jordan rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

At 1:35 o'clock p.m. Representative B. Oshiro requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:37 o'clock p.m.

Representative Fontaine rose to speak in opposition to the measure, stating:

"Yes, Mr. Speaker. I stand in strong opposition to this measure. You know, we've discussed gambling before in this Body and I've made my comments about it then, as well as about how this will forever change the landscape. It will change our culture. Mr. Speaker, people come to Hawaii for our culture, for our aloha spirit. People can go anywhere in the world. They can go for white sand beaches and the ocean in the Caribbean or Mexico. But yet people come here because of what we are as a people. We start introducing these kinds of measures and we start changing our culture and the very fabric of our family, our lifestyle, and everything else that is here.

"This measure, although it's trying to identify it as being 'entertainment' that's peer to peer, it's gambling. The house still takes a percentage of the winnings as it's written right now in the piece of legislation. And I have talked to the Representative from Lahaina about this issue and I know he wants to work on it and try to make it better to make it more palatable. But as it stands right now, I cannot support this. We need to look forward at finding other ways to generate revenue and create new business and new opportunities for people here. But this is certainly not the way to do it. Thank you, Mr. Speaker."

Representative Thielen rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker, I'm rising to speak against the bill. Thank you. Mr. Speaker, first of all I have a very serious problem with the procedure the way that this occurred. We walked into the Committee to hear a measure that was to stimulate Hawaii's economy by establishing an annual exemption from the general excise tax on retail sales of back to school items during a five day period in late July. So we were going to give families a tax holiday when they went to buy their back to school items. Wonderful idea. And in comes the 'gut and switch' and we're dealing with the gambling bill. And I felt, Mr. Speaker, that this gambled with the credibility of the Committee. I still feel that.

"I still feel that this measure, gambling, this session has received intense comment on both sides. But at this hearing, strangely enough, there were only proponents. The opponents didn't know about it. I understand some rushed to the Capitol and did talk to the EDB Chair after the hearing, but they weren't there at the hearing to be able to explain to the Joint Committee why we should not be passing this bill through. That's not the way we should do business in this Body, and I really oppose it not just on its merits, but for that procedure.

"That the other reason is we've addressed gambling. And yes, we're desperate to have more money in this State, to have more income, but we don't go and resuscitate a measure that has been voted down by this Body because sensibly, the Body feels it doesn't make sense to establish gambling in Hawaii. Hawaii is Hawaii, and we don't want to gamble with the aloha spirit. We don't want to gamble and put this out as you come here and we're just like Las Vegas or the other places.

"And you can't say that, 'Oh wait a minute. This is just a little one on gambling.' Once you open the door, Mr. Speaker, you know where that goes. I mean, once we started with the taxing measures we pass in this Body, it's going to be a temporary one. How many sunsets have we ever implemented when it comes to raising taxes and fees? We don't. They just stay in perpetuity. Well the gambling will stay, tarnish us, and then it will grow and we'll be no different than any of those other states where they have gambling and all of these social ills related to that. So I would hope this Body, in its wisdom, decides to once again table this measure. Thank you."

Representative Brower rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. In reservations. Mr. Speaker, I have reservations on the process, but I'm supportive of the idea. If a world class event is going to take place on the planet, why not Hawaii? An event like the World Series of Poker. Are we not progressive leaders? Is our island

society not mature enough to deal with the responsibility of an event like this? If we're going to be a leader among popular competitions that both attract mature elders and young twenty- and thirty-something year olds who participate and follow this, we need to support ideas like this.

"Hawaii needs to endear itself to new types of tourism or fall behind on revenues, and our residents will have a lower standard of living. If our State is going to compete with other countries it needs to adapt to changing trends. Visitors already are asking for more alternatives to participate in and at worse, an event like this will be no less the Hawaii experience than shopping at a mall. Organized groups against this bill are often human services organizations and yet, they are the ones who are asking for more funds for government and they need that support. It's ideas like this on where that money comes from. Thank you, Mr. Speaker."

Representative Marumoto rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I'm in opposition to this bill. It looks more like an entertainment bill because I see the word, 'entertainment' in here more often than 'gambling' or 'gaming.' But first we had gambling. And then they took the 'bull' out of it, and it became gaming. It's a matter of rhetoric. Now it's entertainment so I think that's a big euphemism for the gambling industry.

"I said this sends out a mixed message and it certainly does. I mean it's going to be if this passes. We'll have church bingo that's illegal, but then again this kind of Texas Hold 'em will be legal. So it's a very strange sense of values here. A hundred million dollars for a license. Give me a break. And then they said there's no 'house' involved. But yet in the bill it says there's a 20% take on all wagers placed. And you know in poker, you're always raising, so I just don't know whether you take a 20% cut of each of these bets. I really don't know.

"But I really have problems with the definition of 'games of chance' and 'games of skill.' I can't quite tell the difference between the two, and I don't know what hosting fees are. So there's a phrase in there called, 'wager service hosting fees' that's not quite defined.

"So because this bill needs so much work, I think it's really not worth our time and effort to proceed on this particular measure. I would ask that most of you, all of you, vote no on this. I commend the Chair of the Economic Revitalization Committee for trying to be creative in helping our economy out, but I think gambling will be more expensive and bring us less revenues than we would hope, especially this one type of poker game. Thank you."

Representative Souki rose to speak in support of the measure, stating:

"Yes, Mr. Speaker and Members. I am strongly in favor of this and I wish to have the speech by the Representative of Waikiki as my own. Thank you, very much."

Representative Ching rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition."

The Chair then addressed Representative Ching, stating:

"Representative Ching, if you're going to reiterate what was already stated on the Floor, you can have it incorporated as your own. Or were you going to speak on something different, as far as the measure before us?"

Representative Ching responded, stating:

"Absolutely. Thank you, Mr. Speaker. I accept that and I am. I wanted to address a few things spoken by the Representative of Waikiki, in opposition.

"Mature, he said, 'We should be more progressive rather than regressive. And he said that change, changing trends. He mentioned changing trends. Gambling is not a very young industry. In fact, it goes all the way back. It goes back to a number of things, and it has always been associated with the

ills of prostitution and drug use. It has always been, and if you go into literature, if you go into even what have you, all the realities of Las Vegas. The fact is that Las Vegas is the highest in foreclosures, the highest in unemployment. It has so many ills. I mean, why would you want to introduce that? So the fact is, it is mature.

"Each year, Mr. Speaker, the gambling lobbyist have done whatever they think is *en vogue*, whether it's for seniors, whether it's for funding education. This year now we're looking at games of skill. Whatever the pop word is, that's what they're going to plug in, and I think it reflects the lack of their sincerity for the people of Hawaii. So when we say things like mature, that ignores the facts. It ignores human psychology. We know what the history is. We know what the history is of other jurisdictions.

"And we also know that the people remember that children, we want to take care of our children. We have so many measures here addressing domestic violence, addressing all kinds of issues, especially taking care of our children. This will only introduce them to worse things. If it introduces gambling, who do you think they're going to eventually want to hire? Our young people once they graduate from high school? Is that what we want? Is that what we want for them? To be in casinos versus some of the wonderful opportunities in life, high tech, etc. The things that we've said on this Floor?

"I will summarize, Mr. Speaker. I had much more to say, but I will summarize. I will incorporate the rest of my comments, but Hawaii cannot afford casinos. For advocates to help legalize gambling as a means to keep local money in Hawaii, but we who are already the most avid gamblers. But it's a perfect situation whereby our people go to Las Vegas and if they have problems, they have to be able to put themselves in the right situation to come back.

"But the crucial reason to keep gambling from our shores is that Hawaii is already notorious for domestic violence, ranked as the number one for alcohol-related fatalities in 2007. It's below the nation with some of the lowest test scores, educational standards that determine military transfers, crystal meth abuse. Honolulu Enterprise had reported a top concern to be the industry's inability to find locals fit to hire. Rife with foreclosure, Hawaii claims to have the lowest home ownership rate of all US states. Do we really want to add one more challenge, Mr. Speaker?"

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in strong opposition of SCR 1193, S.B. 755 - Relating to Economic Development, which authorizes events featuring peer-to-peer entertainment, including poker, authorizes two licenses to operate online peer-to-peer entertainment at a minimum fee of \$100,000,000 per year and 20% of total wagers.

"I cannot emphasize enough caution with regard to traveling the very treacherous road of legalizing gambling in Hawaii. No matter what form gambling takes, the studies and data remain true, gambling wreaks havoc on the very fabric of our families and communities.

"Indeed, a study of drug and alcohol dependency treatment facilities found that 19% of nearly 500 patients interviewed were pathological or problematic gamblers by DSM III criteria. Another study found that 80% of gamblers in treatment committed civil offenses, and 23% committed criminal offenses, to finance their gambling addictions. More horrifying yet, Gamblers Anonymous members admit to having stolen an average of \$135,000 each in order to gamble.

"Colleagues, I implore you to vote no on this piece of legislation."

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. As previously said, this measure does not pass the smell test. Procedurally it was very questionable, deceptive. And even the media, I see we have one camera here. I watched the event on television last night and they said this bill will come to the Floor on Monday. Here it is already on Thursday, so who told the press that we're not going to talk about it today? Somebody told the press."

The Chair addressed Representative Ward, stating:

"Representative Ward, you're out of order on your statements."

Representative Ward continued, stating:

"My point is questioning the procedure as previously questioned from the colleague of Kailua who said our credibility is at stake here, Mr. Speaker.

"But I think the opposition to this bill is as a money generator, or let's say the proponents of the bill as a money generator, I think, can be outweighed by what is the downside of gambling and what we've done here on the Floor before. Because instead of gambling, we should be planning. That is what we should be doing if we want to put people back to work and call this an economic stimulus, we should be putting those green jobs as we did with the PACE program, having a solar on every roof, having every economic opportunity to take us off of the dependence of foreign oil, etc. Instead we're putting this as an elixir and I think it's deceptive, and it's untrue given what the statistics are for Nevada which has it front and center.

"The point is, Mr. Speaker, we need to treat this the way we treated casino gambling in Waikiki. We voted it down and it was over with. And, Mr. Speaker, at the appropriate time I will call for a roll call vote. Thank you."

Representative Johanson rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Pine rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you very much, Mr. Speaker. In support. First a rebuttal as to the process. Your Committee, when it decided to look at this issue, these ideas, we asked for the re-referral with Judiciary. We posted the 48-hours notice and we even put the proposed House Draft online. Now I could understand if we had a hearing on SB No. 755 with only ERB and we dropped the House Draft 1 onto the Committee with this, then there would be every reason to be upset. But we followed the rules that are outlined for the House for the re-referrals, the 48-hour notice, plus the House Draft was online. I talked to the opponents who showed up and they said their offices are closed three days a week which is why they didn't notice that this measure had come up.

"The world, Mr. Speaker, changed on 3/11. I wouldn't bring these ideas forward, Mr. Speaker, if the world hadn't dramatically changed. And again, it's just about, and I appreciate the comments of the good Representative from Kihei, to throw out the ideas to address two things that have happened. One has been the cataclysmic collapse of the visitor industry. They said 20%. Now we're looking at over 20%. Cancellations of the two biggest conventions that were scheduled. They are now gone. We talk about marketing to mainland visitors. From the Neighbor Islands I can very much appreciate that because historically, mainland visitors go the Neighbor Islands and bypass Oahu.

"This isn't casinos, because casinos are not mentioned in here. This isn't lottery, bingo, or anything of the sort. This is just to look at two things. Part one, to bring the World Series of Poker and other tournaments here for a limited duration. And part two, to explore the idea of having two licenses for internet servers for peer-to-peer. That's p-e-e-r. Not p-i-e-r. Human to human, whereby the people playing against each other are from around the world to avoid the very social ills that have been outlined, Mr. Speaker. With all due respect, I don't see how having the World Series of Poker will lead to foreclosures and increased meth addiction.

"The second thing is Mr. Speaker, and this is the brutal reality. We have to come up with hundreds of millions of dollars in the next three months just to make it out of this fiscal year in one piece. We're looking at pretty much the wiping out of all special funds, the elimination of programs and

services on a scale probably never seen. And from the perspective of your Economic Development Committee, Mr. Speaker, we're pretty much looking at the elimination of all tax credit programs and economic incentives. I would love to have green jobs, but how can you pay for a photovoltaic credit when there's no money. It's probably going to disappear. It'll probably be wiped off the books this year.

"And you're right. This bill needs work. The reason why we put a Commission in here, Mr. Speaker, is to prevent a runaway, to prevent peer-to-peer games of skill from turning into the concerns that have been issued today. So this Commission will review each application on a case by case basis to make sure that they're very stringent, and do they fly or not.

"And it's a starting point to have a conversation. Do we go down the road of elimination of programs and services and more taxation? Do we go down the road knowing that our visitor count is going to plummet completely and the people could possibly lose their jobs? Could we at least talk about it? Can we, to put it in the good words of the Minority Leader, put iron to iron? That's what it is. We didn't use Senate Bill 4, Relating to Gambling. We used one on economic development because we want to have this idea out there.

"And as to the news reports, it was my understanding and I was wrong, that this measure would probably be put up for vote on Monday. When I was advised in the evening that it will be today, I immediately had my office call KHON to tell them it was today. So for that, I apologize.

"So here's the point. It's to have a conversation about will this allow us, through the tournament events, to help market visitors. And visitors for these events, Mr. Speaker, come in four to six weeks at a time and fill the hotel rooms. And the thing is, these are skilled players. If you enter in round one and you are terrible, you are eliminated. You win nothing. We see it on television. It's also marketing insofar as ESPN and Versus has the World Series of Poker that showcases what Hawaii is all about, far beyond the game itself.

"And for part two, it was simply to look at the potential revenue there is for Internet based peer-to-peer games whereby the customers are not here. They're elsewhere, but are competing against each other.

"It's a starting point. I totally respect the comments of the good Representative of Kihei and the opposition, as well as those from the Representative of Hawaii Kai. But, Mr. Speaker, the last chance for your Subject Matter Committee to put new ideas on the table was this week, Mr. Speaker. And we tried to approach it in a very constrained way."

Representative Choy rose to yield his time, and the Chair "so ordered."

Representative McKelvey continued, stating:

"A very finite structure to look at this, to look at two things. One, can we bring the World Series of Poker and other large tournaments here for a limited duration. And number two, will the Internet option bring in revenues so that we can save many initiatives and programs that are probably going to get wiped out. It may not be popular to talk about it, but I thought, again, in the good words of the Minority Leader, this is the marketplace of ideas where we can bring ideas out.

"And if I had offended anybody by doing that, then I apologize. But the ideas need to be discussed and I feel at least we put every option out there and maybe your Committee on Finance will not entertain it. Or maybe they will. Maybe this bill will move no further, but at least we can turn, I can turn to my constituents and say rather than going down with GET increases, exemption taxes, and eliminating credits and programs, we at least explored these options, Mr. Speaker. And that's all it is.

"And, Mr. Speaker, that's what I tried to do as your Chair of this Committee was to look at possibilities for us to be able to address the two huge issues when, if 3/11 had not happened, if our visitor market hadn't crashed, if we weren't in now a negative three percent projection, I would never have entertained bringing up this discussion because it would not have been necessary in my point of view.

"But the fact of the matter is the world did change, and we are now faced with these huge challenges. At least we looked at it. And you know, Members, please vote your conscience on this, because it is. I understand and I appreciate your views on this, your concerns and the way you feel. So no matter how things go, I think at least we had the discussion. At least we put this option for exploration out there to the people of Hawaii.

"And for me, if this allows me to save some of the important tax credit programs that we're trying to initiate. If this allows us to save the photovoltaic credit so we can put things on the roof, then at least it was a discussion worth having. Thank you, very much."

Representative Yamane rose to speak in opposition to the measure, stating:

"Mr. Speaker, I'm standing in opposition. Thank you, Mr. Speaker. I appreciate the Chair of the Economic Revitalization and Business, as well as the Chair of the Judiciary Committee on their attempt to try to address this economic situation. I do agree that we are facing some very tight fiscal constraint which will impact both human services, as well as the huge impact on health programs. However, Mr. Speaker, I just would like to highlight to the Members, this is a 48 page bill that has two major parts. I understand the intent and I applaud the proponents for looking at this measure to try to look at all avenues of revenue generation.

"However, Mr. Speaker, this is a bill that would establish and allow these types of situations to develop and enhance them. It's not merely just an exploratory measure. It's not looking into the issues and how to develop it. It's an establishment that could happen as early as, I guess July 1st or upon approval. So, Members, I would just like to express my concerns in opposition. Thank you."

Representative B. Oshiro rose to a point of order, stating:

"First, a point of order, Mr. Speaker. Just to correct the Minority Leader. You cannot ask for a roll call vote pursuant to our House Rules 51 and 52, as well as Mason's Rules, section 535. The pending motion before us is to adopt the Committee Reports on all 29 pages. So we can't have a roll call. Instead, if Members need or want to express reservations or no, they need to rise."

Representative B. Oshiro continued to speak in support of the measure, stating:

"And just very briefly, can I make some comments in support? Thank you. I do recognize the intent by the Chair of the Economic Development Committee and therefore I think this is something worthwhile for further discussion. I do think however that unfortunately, having a 48 page bill before us may be a bit cumbersome. I do take some comfort in the fact that there is a delayed effective date of July 1st, 2112 and so obviously, we can't just have this adopted and it won't just be sailing through our legislative process. There will continue to be more debate and discussion. So I do take some comfort with that.

"I would raise that I think maybe an easier way to approach this is looking at HRS 712-1231 which already allows for social gaming. So for those people that think that we don't have gambling in our midst, that we don't allow it, they're incorrect. Our current laws actually allow you to have social gaming. The only prescription and rules are that you cannot necessarily have a house, and you cannot have somebody actually making a claim and getting a profit by it as long as all the people that are playing are the only ones benefiting. At that point, that is a legal and permissible activity under our laws.

"The one area that would need clarification is currently there is a prohibition on where these things can be held, and that includes hotels. And so if there is a need to look at holding or hosting a world poker tournament, I would say that one way to do it is just simply to look at the existing law, making minor changes, and actually maybe put in some oversight commission. Then at that point you can have both things, and then we don't have to go down this road of having such a long and

cumbersome, and potentially complex bill. That's just my humble suggestion. With that, I rise in support."

Representative M. Lee rose in opposition to the measure and asked that the remarks of Representative Yamane be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Cabanilla rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I am in support with reservations. I believe that I've heard the arguments on both sides and I now have a good picture on what this is all about. I humbly ask the Members and call for the question. Thank you, Mr. Speaker."

The Chair then announced:

"At this time Members of the House, the Chair will allow Members to cast their votes in opposition or with reservations because this is a voice vote. The main motion before this Body is for all measures on pages 1 to 28."

Representative Rhoads rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Aquino rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Cullen rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Pine rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Pine's written remarks are as follows:

"I vote no on SB 755, HD1. To eliminate the originally proposed GET tax break for Hawaii's families when they buy school supplies for their children, and then completely replace this with legalized gambling – is for this Body to make a Faustian bargain.

"As you'll recall, Faust made a bargain with the devil – exchanging his soul for a diabolical favor. Just as in every Faustian bargain, SB 755, HD1 is a dangerous one and comes at the price of Hawaii's very soul.

"It is urged by supporters of SB 755 HD 1 that this "cut and paste" is necessitated by our budget shortfall that's been made all the more acute by the earthquake and tsunami that devastated Japan two weeks ago. It is further urged by its supporters that allowing legalized gambling here in Hawaii will then help pay for this tax break to parents to buy school supplies for their kids, as well as fund all other beneficial social programs in Hawaii.

"Adopting SB 755, HD1 glaringly demonstrates this losing of our soul – in essence exchanging the spirit of aloha for the spirit of self-indulgence. To put it mildly, it is certainly in extremely poor taste to use the death and destruction that the people and nation of Japan have suffered, and its multitudes shall likely continue to suffer as a pretext to legalize gambling into Hawaii. The issue of legalized gambling in Hawaii has already been fully debated -- and rejected -- not only by this Body, but also by the people of Hawaii. Further, to eliminate a GET tax break to parents who are buying school supplies for their children in order to legalize the encouragement of a self-indulgence and of a greed so our State might get money is a clear sign that we have lost our way. For the life of our land is perpetuated in righteousness.

"The substance of SB 755, HD 1, the fallacious arguments of its supporters, and the manner in which this legalized-gambling proposal underhandedly replaced a proposed tax benefit for parents who purchased school supplies for their children, is a blight on the integrity of this legislative body. This measure is an insult to the people of Hawaii, and we the people are not fooled."

Representative Nishimoto rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Belatti rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ching rose in opposition to the measure and asked that the remarks of Representative Yamane be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Takai rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative C. Lee rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Takumi rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Saiki rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Thielen rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 318, SD 2, HD 1, pass Second Reading and be referred to the Committee on Finance, seconded by Representative Evans.

Representative Souki rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, really quickly. I'm in favor of this bill with reservations. And the reservation I have, and this is to my good neighbor from Lahaina, is that there is a section in here where you attach the Transient Accommodations Tax bill for those counties who are going to be affected by the movie studio. So again, I have been historically opposed to touching the Transient Accommodations Tax funds, and I continue to be so. Thank you, very much."

Representative Fontaine rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Pine rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Ward rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ching rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Johanson rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative M. Lee rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I rise with strong reservations to this measure because of professional issues, and also the history of marijuana or "Compassionate Care" dispensaries across the mainland of the United States.

"As a registered nurse for over 40 years, I have cared for many patients with terminal, life threatening and painful conditions. Years ago, there was little available to ease severe pain and nausea. Patients suffered greatly. Today, the administration of pain medications is a science that is quite advanced. It is not unusual for patients to be ambulatory in the community with such devices as a morphine pump which keeps them comfortable during their daily routine. Medications which control nausea have advanced as well. These are given in controlled amounts and in doses that do not render the patient unable to function.

"Marijuana has been a popular alternative to traditional medicine; however smoking it has both safety and regulatory concerns attached. Smoking cannabis is similar to smoking tobacco—there may be damage to the lungs, potential for severe burns if the patient falls asleep in bed while smoking, property damage from fires, loss of capacity to drive and carry out ADLs and exposure of family members to second hand smoke. Marijuana is also widely used as a recreational and street drug. Some feel

it is a gateway drug, and from all reports, the strength of what is available is increasing.

"I have other concerns related to the proliferation of dispensaries in states such as California, Colorado and Montana. For the most part, these establishments are simply "restaurants" which offer a wide variety of doses, flavors and prices to their clients. The "scene" on the Internet is quite colorful and many ads clearly proclaim the virtues of marijuana use for recreational purposes.

"Cities have found that organized crime loves these establishments, which often have more than marijuana on the menu. In Montana, on March 11, 2011, a major raid was conducted by federal law enforcement agents on many of these establishments, despite the fact that the Obama Administration has stated they would not seek to punish marijuana users.

"Mr. Speaker, the bill before us is complicated and flawed. It makes use of resources we can't afford such as monitoring by police, expensive photocopying requirements, a data base, live video feed to police station, and on and on. It almost seems as if this draft is asking to be killed.

"No one wants to take away a remedy from people who really need it. I believe, we need to find another way to make the substance available to truly needy patients, but this is not the way. This is a medical issue; the Department of Health and prescribing physicians should be involved to set a standard of care, dosing recommendations. Organizations like the Cancer Society and the Lung Association need to come out of their safe zones and make recommendations as well.

"Even though this is just a pilot, I believe we risk seeing rows of marijuana "shops" in the near future in Waikiki if we should we pass this bill."

Representative Awana rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Marumoto rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1458, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO HEALTH," was referred to the Committee on Finance, with Representatives Ching, Fontaine, Johanson, M. Lee, Marumoto, Pine and Ward voting no, and with Representatives Har, Riviere and Wooley being excused.

Representative Thielen rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations. Thank you. I understood the Chairs of the Committee to say that protections would be, or they were, I'm not positive. They said that protections would be placed back into the ultimate bill that moves forward. But right now we have consumer protections that are being repealed by Senate Bill 1274, House Draft 2. I'm concerned about that. The testimony from Professor Richard Miller outlined that.

"The unfortunate thing was that Commissioner Gordon Ito just didn't really respond to the questions. I tried, and he kind of danced around the answers. The Representative from Nuuanu is a very skilled attorney and she did a very good job of questioning him. I think maybe she got a better non-answer.

"But basically, the Obamacare law states on external review that a group health plan and a health insurance issuer offering group or individual health insurance coverage number one, shall comply with the applicable state external review process for such plans and issuers that, and here are the key words, the three words, at a minimum, includes the consumer protection set forth in the Obamacare, well, I'm saying Obamacare law. But the 'at a minimum,' means that Hawaii can provide more protections.

"The concern is that Senate Bill 1274 doesn't have those in it. And I would like to request permission to have the single page comparison put into the Journal showing what is being actually removed by Senate Bill 1274, the protections that previously were afforded to Hawaii consumers. Thank you."

The Chair then addressed Representative Thielen, stating:

"Excuse me, Representative Thielen. The Chair will look at what you want to submit and will make a decision later. I don't know where you got that particular comparison sheet."

Representative Thielen responded:

"I can explain it to you right away and tell you where the attachment is from ... Otherwise I could just read it now, Chair. It has a list of the consumer protections on one side."

Speaker Say: "That's okay. Representative Thielen, you're out of order. So I'll look at it later, after we get through with session, and then decide to incorporate it or not."

Representative Thielen submitted the following:

"LIST OF H.R.S. §432E-6 CONSUMER PROTECTIONS
REPEALED BY S.B. 1274 HD1

H.R.S. §432E-6 Consumer Protections	S.B. 1274 HD1
Consumers presently awaiting a hearing are guaranteed all of the rights and protections H.R.S. §432E-6 affords	Consumers presently awaiting a hearing will apparently be stranded because S.B. 1274 HD1 fails to preserve all of the H.R.S. §432E-6 rights and protections they were guaranteed on the date they filed their requests for external review
Consumers have the right to a face-to-face hearing before the Commissioner or his designee for all denials, and to present evidence and witnesses, including expert witnesses. For all denials valued at \$500 or more, the right to a face-to-face hearing by a 3-person panel. The panel is chaired by a lawyer versed in Hawaii law, and includes a managed care plan representative and a licensed provider practicing in Hawaii	Consumers get no hearing at all. All external reviews are conducted by third party independent review organizations, by a single clinician of the independent review organization's choosing. That clinician, who is not required to have any prior knowledge of Hawaii's medical necessity law, makes the binding, final decision whether the plan's denial was reasonable
Consumers have a remedy for errors of fact or law. Consumers are guaranteed the right to appeal adverse decisions to the circuit court, and appellate courts if necessary. Plans are required to comply with decisions in favor of consumers. There is no stay from the Commissioner's orders absent very extraordinary circumstances.	Consumers have no remedy for errors the IRO physician makes on the law or applying the law to the facts. S.B. 1274 HD1 makes decisions by the third party independent review organization binding on the consumer
Consumers are assured of a level playing field against the legal resources and information available to plans Consumers are indemnified for expenses reasonably incurred in having their case prepared and presented by their own attorneys and experts. Win, lose, or draw, the consumer may not be denied coverage of reasonable expenses absent proof, at a special hearing, that the consumer's case was frivolous or in bad faith.	Consumers must bear the cost of any assistance they receive from attorneys or experts
All consumers are assured that Hawaii has a strong deterrent, of proven effectiveness, against managed care abuses.	All consumers have no assurance that sending cases to a third party independent review organization will be as effective a deterrent against managed care abuses as H.R.S. §432E-6 has been

Representative B. Oshiro continued with a point of order, stating:

"One more thing. I have a point of order. I would like to request that the debate try to refrain from calling certain Acts by the federal government under the name of a President when that's the official Act. So instead of using rhetorical, inflammatory types of characterizations, I think people should try to remain and stay consistent in terms of what terms they use. Let's try to uphold some decorum in here. Thank you."

The Chair responded, stating:

"Thank you, very much. Your point is very much well taken in regards to what was stated on the Floor."

Representative Pine rose, stating:

"Mr. Speaker, a point of information. I'm thankful that I have been informed by the opinion of the previous speaker. I hope that the decorum is the same when it refers to President Bush and Governor Linda Lingle because the decorum has not been very pleasant."

Representative Fontaine rose to speak in opposition to the measure, stating:

"Yes, Mr. Speaker, I'm standing in opposition to this measure. What this does, Mr. Speaker, is it basically eliminates voluntary overtime. Overtime that you volunteered for from eventually being accrued as a part of your retirement. As a police captain, I relied on having volunteer officers coming in and working special events, or working the callback shifts without actually having to order people back. And there were occasions when I did have to order people back to work when I couldn't get volunteers. But as you know, with a lot of families the officers can't work the overtime hours, so we take the volunteers.

"What this will do, at least for police departments and perhaps other places too who are providing emergency services is that it would put the employer in a position of having to constantly order employees back which would affect morale. In addition, it will create a nightmare for paperwork if you can imagine a clerk now trying to account for specific types of overtime. Overtime that's accrued by order, or overtime that's accrued through voluntary methods. And I understand the whole concept of trying to reduce ultimately what retirement is, and trying to reduce those costs, but going after this with the voluntary aspect of the overtime, I think, will be hurtful. Thank you."

THIRD READING

S.B. No. 1069, SD 1, HD 1:

Representative B. Oshiro moved that S.B. No. 1069, SD 1, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Ching rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise again in strong support of this measure, but I did want to just recap, and I will be asking for additional written comments in support, that we honor dogs. They perform in our communities by assisting blind individuals, detecting invasive species, detecting illegal drugs, search and rescue, they serve, they protect. Mr. Speaker, in strong support."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in strong support of SB 1069 – Relating to Cruelty To Animals. If enacted, this bill would increase the penalty of cruelty to animals by fighting dogs in the first degree and establish a second degree of cruelty to animals by dog fighting.

"As noted by Inga Gibson, Hawaii State Director for the Humane Society of the United States, in a national ranking of dog fighting laws, Hawaii ranked 50th with the weakest laws. Moreover, under our existing law who are knowingly present and/or wager on dog fights, who drive the profit related to dog fights, they could simply claim they were spectators and face no penalty.

"Dogs have been specifically trained to assist those with physical and mental disabilities, have the ability to sniff out cancer and detect the onset of seizures, and help to lower blood pressure, decrease serum cholesterol and relieve anxiety in people.

"Moreover, Hawaii has one of the highest rates of diabetes and an article published in the New York Times and re-printed in the March 15, 2011 Star-Advertiser revealed a study of 41,500 California residents that showed dog owners to be 60 percent more likely to take leisure walks than non-pet owners, older people are more likely to take walks if the walking companion is a canine, and that dog walkers show a much greater improvement in fitness than non-pet owners.

"You should also note, that according to a Human Society survey in 2009, 60% of Oahu households own a pet, 43% of these Oahu households own at least one dog.

"Colleagues, I implore you to support this measure. Dogs serve as a model to our children and reflect many of the values we uphold. This bill lets violators know we are committed to cracking down on illegal dog fighting. Thank you."

Representative Souki rose to speak in opposition to the measure, stating:

"Mr. Speaker, I wish to vote no on this measure. I agree we should have a Class C felony for those who have dogs who are used for dog fighting. However, I do not agree that the spectators who are observing the fight should be given a Class C felony equal to the penalty for the owner of the dog who is participating in the fight. I believe that a misdemeanor with penalties up to one year is sufficient for a spectator who is watching the fight."

"Mr. Speaker, I do hope that as it goes into Conference that they can look at amending the section that has to do with penalties for the spectators, changing it from a felony to a misdemeanor."

"For the Member's information, even a misdemeanor can carry penalties of up to two years in jail if need be. So that is more than sufficient for being a spectator at a fight, and not for being one of the owners whose dog has participated. We have now too many felonies in the books. We don't have enough jail space. And we are not building any prisons. So until this thing is rectified, I believe we should put a halt on all of these felonies. Thank you, very much."

Representative Brower rose to speak in support of the measure, stating:

"Mr. Speaker, in support. A brief comment. I want to join my colleague from Liliha, and in my research on this bill I found out unfortunately dogs do not possess the metabolic enzymes to eat chocolate. Thank you."

The motion was put to vote by the Chair and carried, and S.B. No. 1069, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CRUELTY TO ANIMALS," passed Third Reading by a vote of 45 ayes to 1 no, with Representative Souki voting no, and with Representatives Cabanilla, Carroll, M. Oshiro and Riviere being excused.

S.B. No. 1489, SD 1, HD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, S.B. No. 1489, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO ATTORNEY'S LIENS," passed Third Reading by a vote of 46 ayes, with Representatives Cabanilla, Carroll, M. Oshiro and Riviere being excused.

Oshiro being excused.

Representative Cabanilla, for the Committee on Housing presented two reports:

Representative B. Oshiro moved that the reports of the Committee be adopted, and that H.R. No. 124; and H.C.R. No. 142, be referred to the Committee on Finance, seconded by Representative Evans.

Representative Rhoads rose to speak in opposition to both measures, stating:

"Thank you, Mr. Speaker, I just wanted to register a no vote on both Stand. Com. Rep. Nos. 1222 and 1223 and give brief comments. There's no question that NIMBY-ism is rampant everywhere, not just in Hawaii, but across the nation. But I do think that these Resolutions are unfair to the citizens of Chinatown. We do have a homeless problem in Chinatown and when you look at the point-in-time counts, Downtown Honolulu is second behind the Waianae Coast in terms of the numbers of the homeless people who are living here.

"But we also have many facilities to help the homeless. We have the River of Life to feed homeless. We have Safe Haven for the mentally ill. We have a whole variety of programs. There's at least three that I can think of off-hand, of homeless shelters in the Downtown area. One on Iwilei Road; one on Kaaahi; one on Quinn Lane. We have a methadone clinic on Kukui Street. We have a needle exchange program that's also on Kukui Street.

"We have a great array of social services in the Chinatown area and I just don't think it's fair to imply that somehow those of us who live in

Chinatown are any less caring about the homeless than anywhere else in the State. The issues that we face are issues that other neighborhoods don't want either. No one's volunteering to take homeless shelters anywhere on the island, not just in Chinatown. So I oppose these two measures. Thank you."

Representative Ching rose to speak in opposition to both measures, stating:

"Thank you, Mr. Speaker. I too will rise with opposition and I ask that the words of the good Representative from Chinatown be entered as my own. Thank you. The Liliha area has been very, I think, we have a number of people who have accommodated many of our social services. In fact we're very proud of our social services. We accommodate many things.

"But on a second note and point, we have had a number of measures this year telling the media what to do. And while I too want to see us take care of, of course our homeless, perhaps the issue to be covered is the origins of homelessness. That is provocative. That's a very good thing to cover. Thank you."

Representative Cabanilla rose to speak in support of both measures, stating:

"For both measures, Mr. Speaker, I stand in strong support. I just would like to make some corrections on a statement made. This NIMBY issue is not only for the homeless, but it is also for affordable housing and affordable rentals. And these resolutions did not address Chinatown. This issue of NIMBY had been demonstrated in places like Kahala and also in Mililani.

"But this measure is not for any particular place. It's for all of us. I think the solution of homelessness or affordable housing is not where it is. I think it lies on all of us, our attitude, the way we see it, the way we treat them. It's on all of us. So these resolutions are for us to change our attitude and the way we look at them because even though there's a lot of options there, it will never go anywhere because nobody wants the homeless. Or nobody wants affordable housing next to them, or rentals. Until that attitude is changed, Mr. Speaker, we will never get anything solved. We will be just like a ship that will never have a pier.

"And for those things, Mr. Speaker, I think the media is the best tool we have because we need to connect to ourselves. Thank you."

Representative Belatti rose in opposition to both measures and asked that the remarks of Representative Rhoads be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. Oshiro being excused; and

"Thank you, Mr. Speaker. On Stand. Com. No. 1224, HR 62, HD 1; and Stand. Com. No. 1225, HCR 70, HD 1, just in strong support. I would like to thank the Housing Committee for hearing this measure and moving it on for discussion. I think it's an important time given the overall situation in that area for us to look at this as a way to provide home ownership opportunities, as well as providing assistance for those out there who can make it work, but are having difficulties in trying to make it work given the multiple entities involved. Thank you, very much."

Representative Fontaine rose to speak in support of both measures, stating:

"Yes, Mr. Speaker. I also stand in strong support and I would like to have the words from the Representative from Lahaina entered as my own."

But there's one part that the resolutions don't address which is the Native Hawaiian claims to that land, and there are concerns about the cultural site.

(Stand. Com. Rep. No. 1237) recommending that H.R. No. 30, be adopted; and

(Stand. Com. Rep. No. 1238) recommending that H.C.R. No. 37, be adopted.

Representative B. Oshiro moved that the reports of the Committee be adopted, and that H.R. No. 30; and H.C.R. No. 37, be adopted, seconded by Representative Evans.

At 12:20 o'clock p.m. Representative Ward requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:27 o'clock p.m.

At this time, the Chair stated:

"Thank you, Members. Before the recess we were on Standing Committee Reports Nos. 1237 and 1238, those measures will be deferred one legislative day."

By unanimous consent, action was deferred one legislative day.

Representative Awana, for the Committee on International Affairs presented two reports:

(Stand. Com. Rep. No. 1239) recommending that H.R. No. 13, as amended in HD 1, be adopted; and

(Stand. Com. Rep. No. 1240) recommending that H.C.R. No. 12, as amended in HD 1, be adopted.

Representative B. Oshiro moved that the reports of the Committee be adopted, and that H.R. No. 13, HD 1; and H.C.R. No. 12, HD 1, be adopted, seconded by Representative Evans.

Representative Ching rose to speak in support of both measures, stating:

"Thank you, Mr. Speaker. I stand in strong support of both of these resos. Thank you, Mr. Speaker. Mr. Speaker, the district I represent, along with the Representative from Nuuanu, has just about all of the physical consulates in our district. In fact, we are the multicultural district in that way. There are four of them: Japanese, Korean, Philippine, and unofficially the Taipei.

"I think that this is a wonderful idea. With APEC coming in November we want to establish our relationships prior to APEC because that's when the lasting value will come, with the lasting value past November into the many years later.

"And just as an aside, perhaps for the Representative from Waikiki, three years ago I was in New York and I happened to be invited to a big conference at the Asia Center of the Rockefeller Center. In actuality, I learned about the consumption of chocolate by Asia. And what they had done is flown in a number of high-profile 'foodies' to New York City to the Rockefeller Center and they were all in discussion on a workshop seminar called, 'The increasing demand for chocolate in Asia.' And that was a conference. It attracted a lot of international stardom. It was interesting, and I bet you it was lucrative for New York City. Thank you."

Representative Ward rose to speak in support of both measures, stating:

"Mr. Speaker, I rise in strong support of these resos. Mr. Speaker, we often speak in this Chamber about diversification of the economy, and the necessity of diversifying our economy. Having a series of international conferences can do that. This is a diversification of tourism.

"It's something that some of us have hoped that in the future, as was proposed in the 2020 plan for Hawaii, that we would be the epicenter of diplomacy in Hawaii. If there's a problem in North Korea about South Korea, bring them here. Fiji, bring them here. What we've got is the potential to be the 'Geneva of the Pacific.' You've got a problem? You want to work it out? You come to Hawaii. It's a natural for us.

"The dress rehearsal for that is APEC as my colleague has mentioned. And if we do it well, there are dozens of very big conferences like APEC that the UN and other countries put on. If they knew the welcome mat was out in Hawaii we would certainly garner that business. So this is a diversification of the economy, not just a 'warm and fuzzy' reso about international relations. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 13, HD 1, entitled: "HOUSE RESOLUTION URGING CONGRESS AND THE DEPARTMENT OF STATE TO HOST MORE INTERNATIONAL CONFERENCES IN HAWAII," was adopted, with Representatives Har, Ito, M. Oshiro and Souki being excused; and

H.C.R. No. 12, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION URGING CONGRESS AND THE DEPARTMENT OF STATE TO HOST MORE INTERNATIONAL CONFERENCES IN HAWAII," was adopted, with Representatives Har, Ito, M. Oshiro and Souki being excused.

Representative Awana, for the Committee on International Affairs presented two reports:

(Stand. Com. Rep. No. 1241) recommending that H.R. No. 12, as amended in HD 1, be adopted; and

(Stand. Com. Rep. No. 1242) recommending that H.C.R. No. 11, as amended in HD 1, be adopted.

Representative B. Oshiro moved that the reports of the Committee be adopted, and that H.R. No. 12, HD 1; and H.C.R. No. 11, HD 1, be adopted, seconded by Representative Evans.

Representative Ching rose to speak in support of both measures, stating:

"Thank you, Mr. Speaker. Again in strong support, and reiterating the point made earlier that the real power according to one of the APEC committee members, they said that they looked at the different places that had held APEC and that actually a number of them had not garnered some of the success that they could have because they only saw APEC as an event for one week. November 8 through 13. One week.

"But actually the ones that were highly successful were the locations that realized that infrastructure and all of the necessary inviting people, inviting them to be Honorary Consuls came from prior because it gives you a reason to contact these people, these entrepreneurs, these businesses, and then afterwards relationship that was fostered.

"So again, actually the week is sort of like maybe the big game. But as we all know, those of us who have played sports, and as I used to tell my students, homework and practice. You've got to be there if you want to do well on the day of the big game. Thank you."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 12, HD 1, entitled: "HOUSE RESOLUTION URGING THE GOVERNOR OF HAWAII TO INVITE ALL ASIA-PACIFIC ECONOMIC COOPERATION COUNTRIES TO ESTABLISH HONORARY CONSULS IN HAWAII BEFORE THE 2011 ASIA-PACIFIC ECONOMIC COOPERATION SUMMIT," was adopted, with Representatives Har, Ito, M. Oshiro and Souki being excused; and

H.C.R. No. 11, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION URGING THE GOVERNOR OF HAWAII TO INVITE ALL ASIA-PACIFIC ECONOMIC COOPERATION COUNTRIES TO ESTABLISH HONORARY CONSULS IN HAWAII BEFORE THE 2011 ASIA-

PACIFIC ECONOMIC COOPERATION SUMMIT," was adopted, with Representatives Har, Ito, M. Oshiro and Souki being excused.

ANNOUNCEMENTS

Representative Ching: "Sorry to be so loquacious today. It's a nice, easy day and I have to fill it with all my words, right? On March 30, it will be Doctors Day. I know our former Representative that was in the back row there and is now in the Senate who was probably the only practicing doctor in the Legislature, but nevertheless a doctor. Maybe he can hear us from here.

"But this is the 78-year-old tradition of honoring physicians on March 30th that was officially recognized as a national observance in 1990 when the US House of Representatives and President George Bush issued a proclamation underscoring the sanctity of the calling to pursue medicine. More than the application of science and technology, medicine is a special calling and those who have chosen this vocation in order to serve their fellow man understand the tremendous responsibility it entails.

"And so with that, I just wanted to announce that March 30th is Doctors Day and I hope that we can show all of our friends and family who are doctors our appreciation for saving lives. Thank you."

Representative Yamashita: "Thank you very much, Mr. Speaker. I'd like to announce that there will be an informational briefing tomorrow, March 30th, in the Capitol Auditorium regarding energy conservation measures concerning this building presented by DAGS, DAGS staff, as well as NORESCO. There will be a question and answer period to follow. That's tomorrow between 2:00 and 3:00 p.m. Thank you."

Vice Speaker Manahan: "The Chair has one announcement. Members, please be advised that we will convene in Joint Session in the Senate Chambers for the Hawaii Medal of Honor ceremony at 2:00 p.m. this afternoon. All Members are encouraged to be prompt to avoid any delay in beginning the ceremony. Thank you."

RECESS

Representative Evans moved that the House stand in Recess for the purpose of convening in Joint Session in the Senate Chamber at 2:00 p.m., and reconvene for regular session at 12 o'clock noon on Thursday, seconded by Representative Pine and carried. (Representatives Har, Ito, M. Oshiro and Souki were excused.)

At 12:35 o'clock p.m., the Chair declared a recess and the House of Representatives stood in recess, subject to the call of the Chair, and in accordance with Senate Concurrent Resolution No. 27, met in Joint Session with the Senate, for the Hawaii Medal of Honor Ceremony.

JOINT SESSION

The Joint Session of the Senate and the House of Representatives of the Twenty-Sixth Legislature was called to order at 2:03 o'clock p.m. by the Honorable Shan S. Tsutsui, President of the Senate.

The President addressed the Chamber, stating:

"This is indeed a momentous occasion. We honor members of the Armed Forces of the United States, with ties to Hawaii, who fought and died bravely, in combat zones designated by presidential order.

"On behalf of the House Speaker and all of the Members of the Hawaii State Legislature, I convey our deepest condolences to our very special guests - the family, friends and colleagues of loved ones, who have lost their lives overseas while in the Middle East. Our prayers are with you, and we are honored by your presence today.

"Please rise for the posting of colors by the Joint Service Color Guard and the Hawaii Air National Guard, Royal Guard, and remain standing for the singing of the National Anthem and Hawaii Pono'i by Ms. Jennifer Lee, which will be followed by the invocation by Raymond Ganotise, Master Sergeant Retired from the Hawaii Army National Guard."

At this time, the Members of the Senate and House of Representatives, guests, and audience rose for the presentation of our Nation's and our State's Colors by the Joint Service Color Guard and the Hawaii Air National Guard, Royal Guard. The singing of the National Anthem and *Hawaii Pono'i* was led by Ms. Jennifer Lee, thereafter the invocation was delivered by Raymond Ganotise, Master Sergeant Retired from the Hawaii Army National Guard.

President Tsutsui then addressed the Members, guests and audience as follows:

"Mahalo Joint Service Color Guard, Royal Guard, Ms. Lee, and Master Sergeant Retired Ganotise. Your participation in today's ceremony is greatly appreciated. You may be seated.

"Today we have gathered so we can honor and remember our fallen heroes, their families, and friends. As we go about with our busy everyday lives, whether it's going to work, attending a baby luau, sporting events on the weekend, or even church on Sundays, it is easy to forget that there is a war going on and in other parts of the world combat in the streets is an all day and everyday occurrence for both civilians and soldiers. Through the distance we are sometimes able to disassociate ourselves from the reality that our brave soldiers experience on a daily basis and from the ensuing heartache that is felt by their loved ones who long for their safe return home.

"The Hawaii Medal of Honor is awarded on behalf of the people of Hawaii to soldiers who are connected to these islands and are part of our Ohana, our family forever. Today I am truly privileged and profoundly humbled to take part in this ceremony to honor those who have sacrificed their lives in defense of our nation and its freedoms. No one can take the place of a lost loved one. Nothing can be said to fill the void that is left in the hearts and lives of those who are left behind.

"In many ways today's events bring up mixed emotions. Great sorrow for those who have fallen, and also great pride in the bravery, dedication, and commitment these soldiers possessed and demonstrated in their lives. These individuals assumed their duties with the understanding of the potential danger that they would face and in light of that they still chose to dedicate themselves to a life of service for our country. Their courage, honor and commitment have forged an enduring legacy as common individuals demonstrating uncommon valor.

"Let us pledge to each other that these brave soldiers that have fallen will not be in vain. Let us never forget the magnitude of their sacrifices and remain ever grateful. For the debt we owe can never be repaid but through our continued commitment to the freedoms and ideals that define our country, may we honor their memories.

"Words cannot adequately express the appreciation and the gratitude that the people of Hawaii have for our courageous members in the military. To our fallen soldiers, and their family and friends, thank you for your many sacrifices. Our thoughts and prayers remain with you all. You will always be remembered with honor and respect. Thank you, and Mahalo to everyone here today and may God continue to bless all of us."

At this time, the Senate President introduced the following State, military and congressional leaders seated on the Floor of the Senate:

Representing United State Marine Forces Pacific and Lieutenant General Duane Thiessen: Colonel James Bierman;

Representing the United States Air Force 154th Wing: Colonel Brad Sakai and Mrs. Momi Sakai; and

Representing Tripler Army Medical Center and Brigadier General Keith Gallagher: Captain Jose Acosta.

President Tsutsui then called upon Major General Darryll Wong to deliver his remarks on behalf of the military as follows:

"Governor Abercrombie, Senate President Shan Tsutsui, House Speaker Calvin Say, Lieutenant Governor Brian Schatz, Walt Kaneakua, Ricky Oshiro, Marvin Buenconsejo, Rod Tanonaka, Bill Paty, Christine Kemmer, Members of the State Legislature, federal flag officers, veterans, and especially our esteemed families.

"I want to begin by thanking all of you for coming to this ceremony. Today marks the sixth year that State officials have gathered here in these Chambers for this solemn ceremony. The presentation of the Hawaii State Medal of Honor was the first of its kind in the nation and has since been emulated by several other states.

"As the newly appointed State Adjutant General, this is the first time that I've had the honor of addressing this assemblage, but it is my fervent wish that it will be the last ceremony of its kind. That will mean that no more Hawaii-based members of our Armed Forces would have paid the ultimate price in the global war on terrorism, and no more families would have to grieve for their loss. But our nation remains engaged in Iraq, Afghanistan, and elsewhere in Southwest Asia and the Horn of Africa. And therefore our men and women in uniform will continue to place themselves in harm's way for the sake and the security and the freedom of others.

"No one who puts on the uniform wants to die for their country, but they are nonetheless willing to if it means that others may live in peace and security. At the very least, such selflessness deserves public recognition of the highest order and that is why we are here today.

"The State Medal of Honor is Hawaii's way of remembering the Soldiers, Sailors, Airmen, Marines and Coast Guardsmen who have paid the ultimate sacrifice. To show our appreciation to their families, to share in their loss, and to assure them that they will always be a part of this State's Ohana or family. It doesn't matter if they were service members that grew up in Hawaii, or first set foot upon these beautiful islands as part of a Hawaii-based unit. He or she is still embraced as part of our family. There is no greater sacrifice a family can make than the loss of their loved one while in service to our nation, and there is no greater honor that the people of Hawaii can bestow upon them to symbolize that sacrifice.

"As this war on terrorism continues, it will remain our obligation to honor our selfless men and women in uniform and their families. It is the very least we can do for them after they have done so much for all of us. To the family and friends of our fallen heroes, I humbly ask that you accept this Hawaii Medal of Honor on behalf of the people of Hawaii who today and forever shall be your devoted family. Mahalo, and thank you."

The President then called upon the Honorable Neil Abercrombie to deliver his remarks as follows:

"Thank you, Mr. President. Welcome to all here, most especially to the families that have been able to join us today. I would like to begin my remarks with a passage that was taken from James Gould Cozzens in his great novel of World War II, *Guard of Honor*. It is taken from Shakespeare's *Tempest*.

I and my fellows are ministers of fate. The elements, of whom your swords are tempered, may as well wound the loud winds, or with bemocked-at stabs kill the still-closing waters, as diminish one drow that's in my plume. My fellow ministers are invulnerable.

"Cozzens understood with perhaps an artist's sensitivity and sensibility what it is that men and women had been called upon to endure in World War II. Suffice it to say that that kind of sacrifice has been asked again, and again, and yet again. Those who are here with us today understand that for however brief a time we were privileged and honored to have with us here in paradise, those we honor today.

"As a member of the Armed Services Committee of the United States House of Representatives for two decades it was my obligation and

responsibility to spend time among troops in the field, particularly in Iraq and Afghanistan. So I come to you today with these words of greeting and gratitude, bringing with me the sentiments of those who have been mentioned as part of the Congressional delegation, and from those who have served on the civilian side of responsibility with regard to what has been expected of men and women defending the strategic interest of the United States of America. That that commitment to peace, and justice, and freedom, and opportunity which was manifest in the lives that have been given are recognized here today and that those lives are held in our hearts and in our minds.

"One might say, and I expect one might find those who would dismiss a ceremony of this kind and find it to be ritualistic. After all, we've done this now as indicated by General Wong, six times. We hope not to have to do it a seventh, or an eighth, or an ninth, but should that occur and should that be a necessity, we will surely do it.

"And the reason is, is that ritual is the great conservator of values. The values that were given to these young men and women that they manifested in their lives, and in their commitment, and in their sacrifice, and we recognize it. It's important to recognize it. It's important that we who understand what that sacrifice was all about let you know that it continues in our hearts and in our minds. And so yes, we give a greeting to all of you today, but more than that we thank you. More than that we say to you, come again to paradise. More than that we say to you, you are part of our Ohana, part of our family here in paradise. Aloha, and Mahalo."

"Thank you especially for your display of commendation, respect, and gratitude for the sacrifice of the young people we have honored today.

"Thank you also for the honor you have bestowed upon their families.

"During these times of ceremonies, we are reminded of what not to take for granted. We should not take for granted our family and friends, our standard of living, and our appreciation of innovation, individualism, and self-expression. We should not take for granted our multi-cultural, multi-religious, multi-ethnic society of tolerance, which is the basis for our moral authority in the world today. Most importantly, we should never take for granted our freedom, dearly earned and preserved by the young people honored today and their predecessors.

"I am sure that they would join me in saying: God Bless America!

"Members of the House and Senate, and special guests, please stand for the retiring of the colors."

SYMBOLISM OF THE HAWAII MEDAL OF HONOR

The Hawaii Medal of Honor was designed by Sergeant First Class Aaron Pollick from the Hawaii Army National Guard. This medal consists of the following six components, superimposed on each other:

Circle of Kalo Leaves: The kalo leaves represent the family or Ohana. The leaves are designed in an encircled fashion and represent the concept of Ohana, which we strive to embrace.

Coat of Arms: The Great Shield is the keystone of the design. The eight bars represent the eight major islands of the state of Hawaii. The kapu sticks, or Pulo'ulo'u, symbolize authority and protection. The star in the center of the medallion is the Star of Hawaii, the 50th star on the flag of the United States. This star also represents the honorees of this prestigious award.

Maltese Cross: The Maltese Cross represents the four directional axes of the globe, denoting Hawaii as the Crossroads of the Pacific.

Sun Rays: The irradiant sun is symbolic of the new era. Its position in the center of the Maltese Cross represents our sunny shores and warm hearts ever shining on all the corners of the world.

The Neck Drape: The neck drape is red and golden yellow in color. These colors symbolize the royal monarchy that once ruled these islands. The red represents courage and strength. The golden yellow depicts the honor that the recipients have brought to our islands.

Service Ribbon & Attachment: The service ribbon represents distinguished service. Its colors are identical to the colors of the neck drape. The attachment device at the middle of the ribbon is an ancient flag or puela of Hawaiian Chiefs. In olden times, the puela was raised above the sail of the ancient Hawaiians' canoes while at sea. Our puela signifies that the person receiving this medal is of high rank or honor.

The motion was put to vote by the Chair and carried, and H.R. No. 295 was adopted, with Representatives Ching and Takumi being excused.

At this time the Chair invited Mr. Glenn Geller to the rostrum to address the Members of the House and audience.

"Thank you, Speaker of the House, Representative Takai, Representative Lee, and the Hawaii State House of Representatives. On behalf of the producers, the cast of Hawaii Five-0 and everyone at CBS, it is a privilege to be here today and accept this commendation. All of us are deeply honored to be part of a show that has such rich history for both Hawaii and for CBS. The generosity shown to CBS and Hawaii Five-0 over the past 43 years by the Hawaiian people has been incredible and it continues today as the Members of the House and the Senate honor Hawaii's show.

"So in the television business nothing is a sure thing. We compete in a creative landscape where many new series show promise, but ultimately fail to succeed. Growing a series from infancy is difficult enough, but bringing back such an iconic show after more than 40 years frankly is downright daunting. But aside from great storytelling and acting and production values and perhaps the best theme song ever, we also have something that gives us a distinct advantage. So with all due respect to the mainland, Hawaii, your great state, provides a backdrop like none other.

"We sometimes call Oahu the fifth character in the show and without a doubt it is one of the driving forces in our success as we complete the first season of our second incarnation. The tropical Hawaiian setting is enough to make mainland viewers watching Five-0 want to run to their travel agents immediately. The beauty of your State is so compelling it has allowed us to showcase the spirit of aloha every Monday night to anyone that lives everywhere else in the United States. That spirit is embodied in the iconic characters that America has come to know and love simply as McGarrett, Danno, Chin Ho, and Kono.

"It's my hope and belief that the relationship between the show and the State haven't been totally one sided. In addition to promoting Five-0 as a tourist destination, the show also employs 200 Hawaiians and invests nearly \$40 million annually in the local economy. The hardworking cast and crew occupy homes, apartments and hotels. We eat in your restaurants, shop in your stores. Essentially, your home has become our home. We tap into a wide range of local goods and services necessary to keep a production of this size and scope operating smoothly for 12 hours a day, at least five days a week.

"So I want to commend and thank the Governor and this Legislature for your forward thinking approach to stimulating local production here on the islands. Not every state has done so and consequently they are seeing local productions migrate to states and locations that share your wisdom and common beliefs in the symbiotic relationship between local TV and movie productions and local economies. In fact, I think anyone would be hard pressed to find a better example of the creative process, local business and state governments working together for the success of all, than right here in Hawaii.

"So from all of us at Hawaii Five-0 and CBS, we thank you once again not only for today's honor and commendation, but as we look towards the future, towards years of a mutually beneficial relationship and we hope that that will continue to pay dividends for all of us for many years to come. Mahalo."

The Chair then stated:

"Mr. Geller, thank you very much for the warm words of aloha to the people of the State of Hawaii and to the Hawaii State House of Representatives. Your support, your confidence and your commitment in having Hawaii Five-0 here is a testament of CBS's support for all of us here in the State of Hawaii.

"Members of the House, today we will deviate from our normal practice of meeting and shaking hands with the guests who are here on the Floor. We will instead be taking a photo of all of us here on the rostrum. So Members, would you please come to the rostrum for a photo shoot with the Executive Producers, Directors and the actors in one group photo."

At 12:33 o'clock p.m. the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:38 o'clock p.m.

"Mr. Speaker, I rise with some slight reservations and a brief comment, please. Thank you. Mr. Speaker, this reso is about opening an investigation regarding about a hundred year old agreement between the US and the Kingdom of Hawaii through Queen Liliuokalani. I know the saying is if you don't know history you are destined to repeat it. But my question is, is the purpose of this reso to clarify history, or to pick a fight between competing Hawaiian interests and/or between other groups in Hawaii. Let's be clear that investigative committees sometimes get out of hand, they can become witch hunts, they can become pejorative statements and revision of history.

"My hope is if this measure passes that we will approach this subject rationally, maybe even passionately at times, but we'll get to the core what the facts are and not have it spin into something that is unintentional or something that leads astray the people of Hawaii, the state of aloha. Thank you, Mr. Speaker."

REPORTS OF STANDING COMMITTEES

Representative McKelvey, for the Committee on Economic Revitalization & Business presented two reports:

(Stand. Com. Rep. No. 1272), recommending that H.R. No. 139, be referred to the Committee on Finance; and

(Stand. Com. Rep. No. 1273), recommending that H.C.R. No. 159, be referred to the Committee on Finance.

Representative B. Oshiro moved that the reports of the Committee be adopted, and that H.R. No. 139; and H.C.R. No. 159, be referred to the Committee on Finance, seconded by Representative Evans.

Representative Ward rose to speak in opposition to both measures, stating:

"Mr. Speaker, I rise in opposition to the Hawaii State Bank. Mr. Speaker, in our opening prayer, Reverend Heidele said we should be mindful of the moral principles that tie us together. This means for this bill we should be mindful of the economic principles that divide us."

Representative B. Oshiro rose to a point of order, stating:

"Point of order, Mr. Speaker. This isn't a bill, so he should refer to it as a resolution."

The Chair then stated:

"Thank you, very much. Representative Ward, this is a resolution."

Representative Ward continued, stating:

"I think it used to be a bill, which is probably why I'm speaking, because in the beginning it was a bill to establish the State Bank of Hawaii. Thank you, Majority Leader, for reminding me how bad it was when it said that the Governor of the State of Hawaii was going to be the Chairman of the Board, and his political appointees were going to be the directors. This bill, for some of us, I think that the job of the private sector is business, and the job of the public sector is government. This is crossing the line.

"And now the good thing is, and why I voted against this bill before I voted for it ..."

Representative B. Oshiro rose to a point of order, stating:

"Mr. Speaker, point of order."

Representative Ward: "I'm getting to the point."

Representative B. Oshiro: "Under Mason's he should just be talking about the measure that's before us. Section 101 doesn't allow him to refer to bills. Please just refer to the reso and the contents in the reso so we can move on because it is going to Finance and I'm sure he's going to have another opportunity in Finance. Thank you."

Vice Speaker Manahan: "Representative Ward, please confine your comments to the reso."

Representative Ward: "Mr. Speaker, I'm impressed with the sensitivity, and flattered by the Majority Leader standing to make sure I don't say anything that makes this bill look even worse than it actually is."

Vice Speaker Manahan: "Representative Ward, this is a resolution."

Representative Ward: "This reso. Excuse me, this resolution any worse than it actually is. And why that is, is because usually when we do a task force in a resolution, all we say is, 'we recommend,' or 'we suggest' in the task force. That is recommend stuff. This one says to make actual implementation plans. That's going a little bit over the line which I think economically speaking, it goes over the line because the American Bankers Association and others have said, 'We don't need this. Who is short of loans? The banks are still open. The loans are still available.'

"Just because North Dakota did it a hundred years ago and they've got a bit of a surplus, they're helping the economy out, I don't think we should take resources in our government to do this, nor take resources out of what now I think is the Bank of Hawaii who has our current account, or other banks, to siphon into the government and to pretend that we're going to have an economic advantage by it.

"Mr. Speaker, the point is this is not good policy. And it's one of those economic principles that divide I think, the number of people in this particular Body. As the resolution is, I hope it doesn't get any farther. Thank you, very much."

Representative M. Lee rose to speak in support of both measures, stating:

"I stand in support of these resolutions. Mr. Speaker, the purpose of these resolutions is to establish a task force to review, investigate, and study the feasibility and cost of establishing the Bank of the State of Hawaii.

"The creation of a State Bank would have some beneficial effects on the State's economy possibly by making credit more available in the State, and would add stability to the State banking industry, particularly in times of recession and could do this in a positive way.

"A public bank would not be beholden to the profit-based agendas of private banks, thereby permitting the Bank of the State of Hawaii to leverage capital on a fractional basis without consideration for shareholder earnings or market expectations. The Bank of the State of Hawaii would be able to better engage in long-term planning based on available deposits and revenue forecasts.

"The Bank of North Dakota has been in existence for many years and during the past decade has directed more than \$300 million back into the economy of that State. Although primarily functioning in agricultural loans, the bank's success has been noticed recently by several other states including Wisconsin, Washington, Oregon, and now Hawaii.

"In times of austerity, Mr. Speaker, we need to consider every possibility for economic advancement, and the proposed task force on a State Bank is just one option. I urge the Members' support. Thank you."

Representative McKelvey rose in support of both measures and asked that the remarks of Representative M. Lee be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Fontaine rose and asked that the Clerk record an aye vote with reservations for him on both measures, and the Chair "so ordered."

Representative Ching rose to speak in opposition to both measures, stating:

"Thank you, Mr. Speaker, I rise in opposition and I ask that the words of the Minority Leader be entered as my own with some of the exceptions of the comments made on whether it was a bill or reso. And I would like additional written comments.

"When we're talking about a bank and we're using jurisdictions such as North Dakota, I always think it's kind of important to recognize the unique environment to each idea. And I just wanted to put out the fact that North Dakota has one of the absolute top educational performances in the United States of America. It's a certain kind of state that can talk about the fact that their educational system is the top.

"You may wonder, well what does that have to do with a bank? Well it's a different kind of a state. So here we're hoping that we can do the same, but again maybe our private sector needs a little more help. Thank you."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in opposition of HR 139, HCR 159. The main concern is simply that public funds being deposited into a State Bank would be insured by the State itself. Without the benefit of being insured by a separate entity like the National Credit Union Administration (which insures and oversees all credit unions in the State of Hawaii), the state would be in an extremely precarious situation in the event of any financial difficulty within the bank. Thank you."

Representative Marumoto rose in opposition to both measures and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Marumoto's written remarks are as follows:

"In opposition. If the Hawaii State government starts a bank, what business is next? Insurance? Motor carrier businesses? Visitor Industry enterprises?"

Representative Awana rose and stated:

"Thank you, Mr. Speaker. I just would like to ask for the same courtesy as the Representative from Lanai, to adopt the words from the Representative from Mililani, as well as to also stress perhaps that if we had that \$300 million that North Dakota had for their education, and if we did the same, I'm sure we would have an excellent system in Hawaii as well. Thank you."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 139, entitled: "HOUSE RESOLUTION CREATING THE TASK FORCE ON ESTABLISHING THE BANK OF THE STATE OF HAWAII," was referred to the Committee on Finance, with Representatives Ching, Marumoto and Ward voting no, and with Representatives Belatti, Say, Takumi, Tokioka and Wooley being excused; and

H.C.R. No. 159, entitled: "HOUSE CONCURRENT RESOLUTION CREATING THE TASK FORCE ON ESTABLISHING THE BANK OF THE STATE OF HAWAII," was referred to the Committee on Finance, with Representatives Ching, Marumoto and Ward voting no, and with Representatives Belatti, Say, Takumi, Tokioka and Wooley being excused.

Representative Aquino, for the Committee on Public Safety & Military Affairs presented two reports:

(Stand. Com. Rep. No. 1274), recommending that H.R. No. 241, be referred to the Committee on Economic Revitalization & Business; and

(Stand. Com. Rep. No. 1275), recommending that H.C.R. No. 274, be referred to the Committee on Economic Revitalization & Business.

Representative B. Oshiro moved that the reports of the Committee be adopted, and that H.R. No. 241; and H.C.R. No. 274, be referred to the Committee on Economic Revitalization & Business, seconded by Representative Evans.

Representative Fontaine rose to speak in support of both measures with reservations, stating:

"Yes, Mr. Speaker. Please note my reservations. If I may just have brief comments. Although these resolutions are a very 'feel-good' type of resolution, police officers under their general orders in the State of Hawaii are not allowed to take discounts and gifts just for the reason of the ethics issue. So I was hoping that at Committee level, we were going to take that piece out. Although I want to support police officers, being a retired officer myself, there are situations within their general orders that do not allow them to take the discounts. Thus my reservations. Thank you."

Representative McKelvey rose to speak in support of both measures with reservations, stating:

"Thank you very much, Mr. Speaker, with reservations and I would like the words of the previous speaker, the Representative from Kihei, aka my 'brother from another mother,' entered into the record as if they were my own."

Representative Pine rose to speak in support of both measures with reservations, stating:

"Same request, except for the 'brother from another mother' thing. Sister from another mother."

Representative Ward rose to speak in opposition to both measures, stating:

"Mr. Speaker, I can't match that one. Just to underline the wisdom of someone who has for 24 years done the job of a first responder, the Representative from Maui speaks with wisdom. We should not be

codifying, reinforcing, or otherwise stereotyping any of these people as people who want to do this, and that we are promoting that they would like to do this.

"But if people on an individual basis have a business and want to do that, that's different. But when it gets to this level at the House at the State Legislature, I think it tends to cross the line a bit. It starts to get to where the 'smell test' may have to be applied. It gets to be where the Ethics Commission that is now looking at us and our abilities to accept \$25 to \$200 etc. It makes us all look bad, Mr. Speaker. So I would suggest this should probably not go very far. So I want to vote no. Thank you."

Representative Hanohano rose and asked that the Clerk record an aye vote with reservations for her on both measures, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 241, entitled: "HOUSE RESOLUTION URGING RETAILERS TO PROVIDE DISCOUNTS TO FIREFIGHTERS, POLICE OFFICERS, AND EMERGENCY PERSONNEL IN DEFERENCE TO THEIR WORK FOR THE PUBLIC HEALTH AND SAFETY," was referred to the Committee on Economic Revitalization & Business, with Representative Ward voting no, and with Representatives Belatti, Say, Takumi, Tokioka and Wooley being excused; and

H.C.R. No. 274, entitled: "HOUSE CONCURRENT RESOLUTION URGING RETAILERS TO PROVIDE DISCOUNTS TO FIREFIGHTERS, POLICE OFFICERS, AND EMERGENCY PERSONNEL IN DEFERENCE TO THEIR WORK FOR THE PUBLIC HEALTH AND SAFETY," was referred to the Committee on Economic Revitalization & Business, with Representative Ward voting no, and with Representatives Belatti, Say, Takumi, Tokioka and Wooley being excused.

Representative Aquino, for the Committee on Public Safety & Military Affairs presented two reports:

(Stand. Com. Rep. No. 1276), recommending that H.R. No. 178, be referred to the Committee on Finance; and

(Stand. Com. Rep. No. 1277), recommending that H.C.R. No. 207, be referred to the Committee on Finance.

Representative B. Oshiro moved that the reports of the Committee be adopted, and that H.R. No. 178; and H.C.R. No. 207, be referred to the Committee on Finance, seconded by Representative Evans.

Representative Ching rose and asked that the Clerk record an aye vote with reservations for her on both measures, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 178, entitled: "HOUSE RESOLUTION URGING THE GOVERNOR TO BEGIN DISCUSSIONS AND PLANS TO ESTABLISH PUBLIC-PRIVATE PARTNERSHIPS TO BUILD PRISONS AND CORRECTIONAL FACILITIES IN THE STATE," was referred to the Committee on Finance, with Representatives Belatti, Say, Takumi, Tokioka and Wooley being excused; and

Representative Takumi, for the Committee on Education presented two reports:

(Stand. Com. Rep. No. 1286), recommending that H.R. No. 249, be referred to the Committee on Finance; and

(Stand. Com. Rep. No. 1287), recommending that H.C.R. No. 282, be referred to the Committee on Finance.

Representative B. Oshiro moved that the reports of the Committee be adopted, and that H.R. No. 249; and H.C.R. No. 282, be referred to the Committee on Finance, seconded by Representative Evans.

Representative Takai rose in support of both measures and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Takai's written remarks are as follows:

"Mr. Speaker, I rise in strong support of these measures. For students to have a quality learning experience, it is critical that schools create a learning environment conducive to student achievement. These Resolutions would enhance the learning environment for the students who cope with the difficulties of staying focused in bearably hot classrooms.

"In 1998, Waianae High School teacher Naidah Gamurot's students posed a simple question: "Why are the portable classrooms used by the Department of Education (DOE) so stifling in hot weather?" Their goal was to figure out how the temporary structures could be cooled using minimum materials and making minimal structural changes by the average student or parent.

"The kids conducted the experiment themselves, on their own time, and learned about the process of science in a way that will help their fellow students. They built large-scale models of the portables, detailed down to window louvers and stilts so that airflow is similar. Interestingly, the students also learned a little bit of public reality: budget restrictions placed on the designers of the original buildings resulted in oven-like classrooms during the summer months.

"Many teachers and schools rely on fans as their first defense against the heat. But fans consume electricity, are mechanical and therefore require

maintenance. The students quickly discovered that while fans did cool the miniature classroom, it seems to be the least efficient method. Looking back, these students were pioneers in their simple quest to cool down their classrooms.

"Hawaii is now caught up with the rest of the country and world in the movement to be energy-efficient: Photovoltaic panels on all new development housing, hybrid and fully electric vehicles on our roadways, and wind farms dotting the fields of Kahuku to name a few initiatives.

"As a part of these efforts, the DOE completed a pilot project at Kahuku High and Intermediate School to explore alternative ways to cool classrooms other than by air conditioning. Methods such as roof insulation, heat reflective paint, additional windows, and wall insulation were installed on existing portable buildings. Data collection to determine effectiveness is underway and should be completed in April.

"Depending on the results of the data collection of the pilot project at Kahuku High and Intermediate, the DOE intends to move forward and implement these types of alternative cooling methods throughout its schools, including other types of buildings in addition to portable buildings.

"Other efforts include installation of ceiling fans in classrooms that are not air conditioned. The DOE is committed to green strategies and to finding feasible solutions in a sustainable manner and we must do our part of support their initiatives. Hawaii's temperature will not get cooler so we must adopt new ways to address this issue. Thank you."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. The House of Representatives reconvened at 12:55 o'clock p.m.

Representative Takai rose to speak in support of both measures, stating:

"Mr. Speaker. Thank you. In support. On these measures, Stand. Com. Nos. 1294 and 1295, I just wanted to point out, I thought we had fixed it, but I think there's some issue here and I hope to have it addressed in Finance. But in the title of these two resos it mentions a particular company and a particular test. The intent of the Committee, I do believe and the Vice Chair is not here, but I think her intent was to have the State Department of Education take a look at it. And also to urge the United States Department of Education to consider accepting a nationally recognized college entrance examination, either the ACT or SAT, but we didn't want to name a particular company nor a particular test. I just point that out and I hope that we can refine this later."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. Representative Takai rose in support of both measures and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Takai's written remarks are as follows:

"Mr. Speaker, I rise in support of these measures. Military men and women deploying overseas have few options for the care of their pets. Soldiers, often called up on a moment's notice, face the only alternatives of surrendering pets to a new home, dumping them in a shelter, or simply abandoning them.

"Pets are part of the family and while help is available for the deployed service member's families, there is often no one to care for the pets. The companionship that pets bring to families and individuals is immeasurable. Having to give up a pet when a person is deployed is unacceptable.

"Even when friends or relatives are willing to help with the soldier's dog or cat, problems can arise if the new animal has conflicts with existing

pets, family members, or housing arrangements. Overwhelmed shelters are filling with military pets and sometimes their only option is, sadly, to reject the pet or put it to sleep. Indeed, innocent animals are paying a price for our country's conflicts.

"On Oahu alone, animal non-profit groups report the euthanization of thousands of cats each year due to overpopulation and abandonment. No-kill shelters cannot support every pet that is left behind.

"These Resolutions will serve to assist pets in need by raising awareness to the issue of abandonment and providing legal guidelines regarding specific expectations for provisions of continued care of pets in the event of relocation or deployment. Thank you."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 114, entitled: "HOUSE RESOLUTION REQUESTING ALL ACTIVE, RESERVE, AND GUARD COMPONENTS OF THE UNITED STATES MILITARY AND THE ACTIVE AND RESERVE COMPONENTS OF THE UNITED STATES COAST GUARD TO MAKE RESOURCES AVAILABLE TO IMPROVE THE OPPORTUNITIES FOR CONTINUAL CARE FOR THE DOMESTIC ANIMALS OWNED BY MEMBERS OF THE UNITED STATES MILITARY AND UNITED STATES COAST GUARD WHO ARE REQUIRED TO DEPLOY OR RELOCATE," was adopted, with Representatives Belatti, Say, Takumi, Tokioka and Wooley being excused; and

Representative Ching rose to speak in support of the measure, stating:

"Thank you so much, Mr. Speaker. In strong support. You've probably been seeing sort of a continuum on this issue that ironically we, the Aloha State being ranked so low in animal cruelty. And I know that the genesis of this bill, or one of the reasons for this bill was the recent killing of the peacock out there.

"And I just wanted to mention that it's an opportunity. The next time, there's a lot of people who said, 'Hey, you know. It's just an animal. It's just an animal.' And I know there's been some talk about the mongoose and the rat, but again, discernment. I guess I have this thought that I like discernment because when that peacock was killed, all the children including my daughter, when they saw it on the TV, were so hurt. And when we don't remember the children and what we're teaching them. This is a positive bill because it tells them something matters.

"I'm just going to read a little bit here. In Asian culture there's not such a wide gap between spiritual and material things as there seems to exist in western civilization. Religious symbols are important. The fact is the peacock is the symbol of openness and acceptance in different religions. In Hinduism it represents Bodhisattva. In cultural significance it was the all seeing eye of the holiness because of its beautiful feathers. And in Babylonia Persia it's seen as the guardian to royalty, and it represents the all seeing church, the ancient symbol of eternal life.

"And so when we allow, and I just personally disagree with the judge, when we allow these kinds of things, what we stand for. I used to tell my daughter, I said, 'You know that God's an artist when you look at the peacock.' Thanks."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1533, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CRUELTY TO ANIMALS," passed Second Reading and was placed on the calendar for Third Reading, with Representatives Belatti, Say, Takumi, Tokioka and Wooley being excused.

Representative Keith-Agaran, for the Committee on Judiciary presented a report (Stand. Com. Rep. No. 1301) recommending that S.B. No. 105, SD 2, as amended in HD 1, pass Second Reading and be placed on the calendar for Third Reading.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and S.B. ANNOUNCEMENTS

Representative Har "Thank you, Mr. Speaker. Your Committees on Hawaiian Affairs, Water, Land, & Ocean Resources, and Judiciary will be meeting in Room 325 right after session to have a hearing on HCR 294. Thank you."

Representative Takai: "Thank you, Mr. Speaker. A few days ago on March 29th we had a very unique and special ceremony in the Senate Chamber where we recognized families of fallen service members. I recall, Mr. Speaker, the time that you and I met in 2005 in your office and talked a little bit about this concept. I can think of two things today about that meeting.

"First, I don't think we both realized that we would still be doing this. And second, I don't think that we would have anticipated how much of a profound impact we've had on these families. We hear it almost daily how much they appreciate all of our efforts.

"So I wanted to thank you for not only giving me the opportunity to introduce and shepherd that bill through the Legislature, but for giving me the opportunity to once again coordinate this year's ceremony, as well as the preparations prior. But it took many, many people and I'd like to at this time acknowledge some of them.

"I'd like to first thank all of our staff here and in the Senate including the House Chief Clerk, Pat Mau-Shimizu and her staff; Senate Chief Clerk, Carol Taniguchi and her staff; House Sergeant-at-Arms Kevin Kuroda and his staff; Senate Sergeant-at-Arms Ben Villafior and his staff; and CJ Leong of the House Majority Staff Office and her staff.

"I wanted to recognize also the Planning Committee. Senate President Shan Tsutsui and Ross Tsukenjo; you, Mr. Speaker; Senator Will Espero and Marlene Uesugi; and Representative Henry Aquino and Maureen Andrade. In addition, we got support from Major General Darryll Wong and Eleanor Thommes.

"We also had a beautiful reception following the ceremony. I wanted to thank Marlene Uesugi and Venus Delos Santos from Senator Espero's office for coordinating this effort. A big *mahalo* also goes to the Senate Clerk's staff that coordinated the check-in table. In addition, Reyna Kaneko and the Girl Scout Council of Hawaii for their gift of Girl Scout cookies distributed to each of the families being honored. I also wanted to thank our Members who were hosts to these families. The pairing of legislators with families enhanced and really helped these families.

"Thanks also go to Tammy Tengan and the House Printshop for the certificates signed by every Member of the Legislature. This certificate accompanies every single medal and is appreciated by the families who receive them.

"We did get a lot of support and assistance from the military and I would like to recognize Elisia Lukasik from the US Pacific Command, who helped us with coordinating the ceremony participants, and Leighton Siu who helped us with protocol.

"I also wanted to mention some individuals who help us throughout the year in identifying the people that we recognized on Tuesday. From the Army, we thank Kole Miller, Chief of Protocol, and Ernestine Pratt from the 25th Infantry; from the Marines, we thank Colonel (retired) Chris Blanchard and Peter Swainson.

"In addition, as all of you noticed, the Medal itself is beautiful and I wanted to once again acknowledge Sergeant First Class Aaron Pollick from the Hawaii Army National Guard, who came up with the initial design which symbolizes, as we all agree, much more than the medal.

"But with that, a lot of other people participated, namely Symbol Arts who minted the Medal. We had Kent Untermann and Valerie Wang from Pictures Plus who did the assembly and framing. Rose Lee from Rose Lee's Alterations who helped us sew the ribbons. And Ty and Cindy Tamanaha from Awardline who helped us with the plaque.

"In addition, I'd like to acknowledge those who helped us enrich the experiences for the families who travel here in attending this event. We worked very closely with the Pearl Harbor Historic Sites – the Bowfin, the Missouri, the Pacific Aviation and the Arizona now called the World War II Valor in the Pacific National Monument and they came through with support for the families. The Hale Koa Hotel and the Polynesian Cultural Center came through, and we worked specifically with the Hawaii Hotel Association to provide discounted hotel rates at participating hotels for the honorees and their families. All of these organizations and entities helped us as we helped the families make this a special visit to Hawaii.

"Many people were asking about the 'Olelo Broadcast and I wanted to make mention once again, that Capitol TV will be graciously providing a

DVD for each family, both present and not present at Tuesday's ceremony, and they will also be providing one for each one of us.

"As you all know, Mr. Speaker, much of our success and the things that we do in this Chamber, as well as in our communities, are the direct results of our staff. As I did last year and the years prior, I wanted to acknowledge my staff Lisa Vargas, Kristine Duong and Anthony Selvanathan from my staff.

"And as I said before, our staff makes us what we are. But more importantly, Lisa, our office manager, made us, the House of Representatives, the Senate, the entire Legislature and truthfully the entire State of Hawaii; she made us all look good throughout the entire nation. In fact, she has worked with the states of Alaska and New Hampshire to create their Medals of Honor to honor their sons and daughters. For us here in Hawaii, this has become an ongoing project, and over the last six years Lisa continues to work with the military throughout the year to identify service members and contact every single family we have had the privilege to honor and award.

"This medal went and continues to go to families with Hawaii ties and so far, as of December 31 of last year a total of 284 medals have been awarded. Unfortunately, however, the list continues to grow and we will unfortunately be having another ceremony.

"So Mr. Speaker, at this time I'd like to ask you and the Members of this House to recognize everybody that I mentioned and if we could give them a round of applause.

"Finally, Mr. Speaker, I wanted to read an email from a very grateful father. His name is Timothy J. Poole Sr. Actually for those of you who recall, he was standing in the back during the ceremony, and was the last guy that got mentioned with the two Marines. In fact, he stood with the Marines at attention the entire time because he felt that that was what his son, Lance Corporal Timothy J. Poole would like. But he wrote to us:

Ceremonies like the State of Hawaii is having guarantees the families of fallen heroes that their loved ones and the sacrifice they have made for their country will never be forgotten. I can only hope and pray that one day every citizen of Hawaii knows and understands how much this ceremony means to a family of a fallen hero and how much they appreciate it, and that they will never forget what the people of Hawaii has done for their family.

"Thank you, Mr. Speaker."

Representative Ward: "Yes, Mr. Speaker, I think the former speaker, Major Takai, deserves a round of applause from all of us. Thank you, Representative. Well done.

"Mr. Speaker, I'd also like to thank the Chair of the Finance Committee who asked us all if we had any suggestions on how to balance the budget. And I want to announce that we have come up with a first draft. It's online, it's hawaii.statebudgetonline.com. We welcome people's feedback. There's a comment section and as we go toward *sine die*, this is a beginning, and I hope it's iron sharpening iron. Thank you, Mr. Speaker."

"Mr. Speaker, I rise in strong support of these measures. We must keep up with the changing times by updating Hawaii's health insurance policies and showing compassion. Palliative care means patient and family centered care that optimizes quality of life by anticipating, preventing and treating suffering.

"Let's not forget those with incurable or chronic diseases or worsening medical conditions that are left to fend for themselves financially. Palliative care can ease the transition for families with a plan of how to proceed with their illness addressing the physical, intellectual, emotional, social and spiritual needs.

"Standards need to be established and improvements can be made."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. Representative M. Lee rose in support of both measures and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I rise in strong support of these measures. Standards related to the Patient's Bill of Rights apply to specific situations and need to be established. Pain is a common, subjective experience for many patients, and can worsen with chronic conditions, surgery or ongoing treatment.

"Progress has been made, although evidence continues to suggest that pain is often poorly assessed and poorly managed. Education plays an important role for patients and their families.

"Palliative care helps patients transition from curative treatment to end-of-life care. It helps patients cope with the different thoughts and emotional issues that arise, such as: worries about leaving loved ones behind, reflections about their legacy and relationships, or reaching closure with their life.

"No one should suffer from unbearable pain and suffering. Rehabilitation services are provided for infants, children, mothers and adults, let's not neglect our *kupuna*."

Representative M. Lee rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I rise in strong support to this measure. Mandating coverage for palliative care will facilitate further discussions in the community and further health insurance coverage. This measure will accomplish the twin goals of eliminating financial barriers to access for individuals and incentivizing the inclusion of palliative care in mainstream healthcare, therefore eliminating structural barriers to its provision.

"There is a need to examine reimbursement in this area as physician consultations often include advanced practice nurses, licensed clinical social workers, chaplains and other disciplines that are labor intensive. There is also a need for family discussions regarding treatment options, goals of care and value-based decision making.

"There is room for improvement in the delivery of palliative services in this State."

Representative Fontaine rose to speak in support of both measures with reservations, stating:

"Yes, Mr. Speaker, I stand with strong reservations on these measures. I'm concerned about the language about developing an 'arena.' While I understand there's a necessity of perhaps checking our backyard flocks for avian disease, I'm not exactly sure why the language of 'arena' was inserted in this legislation other than for cockfighting and that's why I have reservations. Thank you."

Representative Marumoto rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Just brief remarks in favor of this resolution. It might seem pretty innocuous in designating May as Lupus Awareness Month in Hawaii, but this is a very mysterious disease. 90% of the people it attacks are women, so this is a Women's Caucus issue.

"It is an autoimmune disease. It attacks the internal organs and various other parts of the body. Generally, you just experience a lot of fatigue and malaise, and many doctors can't diagnose it. In fact even experts, it takes them some time to diagnose it. People are telling women, 'Well you just have too much stress. Try to take it easy.' But it is a very serious disease and we want to educate people about it. It still has no cause and no cure that we know of. So this is a very serious disease and I hope that you will learn something about it. Thank you."

Representative M. Lee rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I rise in strong support of this measure. Lupus results from an immune system that is unbalanced and can become destructive to any organ in the body. Lupus is unpredictable and potentially fatal, yet no satisfactory treatment exists.

"Lupus disproportionately affects Native Hawaiian, Pacific Island, Asian, African American, Hispanic, Latina, and Native American women, a health disparity that remains unexplained. Recent data show that ninety percent of people with lupus are women, yet eighty percent of women know little or nothing about the disease of lupus.

"Unfortunately, lupus is a difficult disease to properly diagnose. We need to bring more education and awareness to this topic for the women in Hawaii."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 4, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION DECLARING THE MONTH OF MAY AS LUPUS AWARENESS MONTH IN HAWAII," was adopted, with Representatives Carroll, M. Representative B. Oshiro moved that the report of the Committee be adopted, and that H.R. No. 265, HD 1, be adopted, seconded by Representative Evans.

Representative Ching rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in strong support. Thank you, Mr. Speaker. As this is probably the last discussion on chocolate here for this Session, I did want to just share some, I thought, nice testimony from Dole Food Company that was given this past week or so, from Michael Conway.

The relatively new business of growing cacao for coco bean and chocolate production is one of the few bright spots in this State's diversified agriculture sector. Serious growers on all major islands are planting cacao for the first time or planning to expand their existing base.

And the reason for this is the growing recognition, unique quality, taste of the only bean to bar chocolate produced in the United States of America. And while Hawaii's cacao industry is regarded as small at the present time, it is picking up momentum due to the growing interest among chocolate manufacturers, chefs and entrepreneurs. For example, our Waialua milk chocolate recently won a gold medal at the San Francisco Chocolate Salon Awards, and the 70% dark gained high recognition at London's Academy of Chocolate.

Chef Alan Wong, a strong advocate of locally grown products, included Hawaiian grown chocolate at the White House Congressional Picnic in 2010 and also last month at the James Beard Culinary Academy.

The passage of HCR 89 designates it 'Hawaii Grown Cacao Month' and affords an excellent opportunity for growers and chocolatiers to display, sell their products at different venues from boutique to farmers market. And the month's festivities culminated this past year with the first ever Hawaii Chocolate Festival at Dole which indeed was a resounding success and will become an annual event.

"And so I think that on a positive note, when he said one of the few bright spots, this is something that is worthy of recognition. It's something that provides green and open spaces in the upcoming APEC. It's something that we can export and get investors for. I'm hoping that this will be a win, win, win. Green and open space, revenue for our people, even science jobs for our young students, and help for our economy. Thank you."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. And not being one to pontificate on chocolate, I felt that it was still worthy to add my voice as your Economic Revitalization & Business Chair. Opportunity, as many of you Members know, is a product of time, and one of the most opportunistic things to come along is the chocolate industry.

"And just for Member's edification, that the news about three days ago carried a report how major chocolate manufacturers were increasing the prices approximately a minimum of 15% because of the supply chain disruption of chocolate that is occurring right now with the crisis in West Africa. So again, I believe it's timely insofar as we can send a beacon to the world that there is another place to do business, and a more politically and sociably stable place to grow chocolate, and perhaps to diversify our economy. Thank you very much."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.R. No. 265, HD 1, entitled: "HOUSE RESOLUTION RECOGNIZING FEBRUARY 2012 AS 'HAWAII-GROWN CACAO MONTH'," was adopted, with Representative Carroll being excused.

Representatives Awana and McKelvey, for the Committee on International Affairs and the Committee on Economic Revitalization & Business presented two reports:

(Stand. Com. Rep. No. 1410) recommending that H.R. No. 128, be adopted; and

(Stand. Com. Rep. No. 1411) recommending that H.C.R. No. 147, be adopted.

Representative Har rose to speak in support of both measures, stating:

"Thank you, Mr. Speaker. I am in strong support of Stand. Com. Rep. Nos. 1410 and 1411."

Representative Takumi rose to speak in opposition to both measures, stating:

"Thank you very much, Mr. Speaker. In opposition to both resolutions. I apologize. This one kind of slipped by me. This was a single referral to two Committees.

"I know in this Body, we have discussed trade agreements in the past. In fact, Hawaii was one of the first states that passed a law that said that the US Trade Representative has to consult with the State Legislature when it comes to procurement, because as we all know, procurement and trade agreements should be under the purview of states and not under the federal government. I think those of us who were here at that time remember that we had to override a veto on that, but I do believe it is totally within the purview of state legislatures across the country to deal with procurement.

"This one in particular, the free trade agreement, I could talk about the impact it will have on the environmental laws that we have, on tourism, your pharmaceutical drugs. But let me just focus on one aspect: on the agriculture tariffs.

"As we all know, free trade agreements, what it does is it removes tariffs for agricultural products. So when it comes to the case of Korea, it would allow Korea then to purchase agriculture products and export them to Hawaii, or to the rest of the United States, at a greatly reduced cost. And

people will say, 'Well that's good because that will result in lower costs to consumers.'

"Well let's not forget what NAFTA did. What NAFTA did, the North American Free Trade Agreement, it led to the reduction of 5 million manufacturing jobs in this country. They went to Mexico. It was a great thing for multinational corporations, but a terrible thing for workers in the United States.

"Let me just talk about the ag products. Here's the reality. Even with zero Korean tariffs, most of Hawaii's agriculture products cannot come close to the low prices for which these products are sold to Korea by others. For example, banana farmers in India sell their crop at one-fourth the price that local farmers in Hawaii require. Peruvian farmers sell guava at \$173 per metric ton, while our price is \$346. In Thailand, the largest pineapple producer in the world, the United States now ranks 19th, Thai farmers sell their pineapples at \$120 per metric ton, while our local pineapples sell for \$458 per metric ton. The global marketplace for coffee is \$2.05 per pound, while our price is \$3.20 per pound.

"I could go on, and on, Mr. Speaker, but you get the point. That even with the elimination of tariffs, we're not going to be able to compete and it will have a tremendous impact on local farmers.

"So there's no doubt that so called free trade agreements have been very good for multinational corporations. The question we need to ask ourselves on this Floor today is whether or not it's good for workers. In my book, the answer for that is no, and that's why I cannot support these two resolutions. Thank you."

Representative Ward rose to speak in support of both measures, stating:

"Mr. Speaker, I think I was here at that particular time and I would rise in support of this. Not as a retort, but to remind people that free trade builds peace. It builds prosperity. It creates jobs. And it makes do best with what a nation is most best equipped with, resourced, and in effect, has in a global economy.

"Fortunately the prevailing spirit in the world is free trade, and if anybody remembers some of the origins of the Second World War, it was trade barriers. It was protecting local industries against other industries. And the mindset if on the micro level that we've just heard, is amplified at a macro level, those are the dangers of which we have in the world when we don't promote free trade.

"Now we've got to do it wisely. We just don't give away the store, but we also promote a rational realization that we're in a global economy. We are better through competition. We are better through free trade. And let's face it, the world has prospered through this doctrine. Not through control and command, or through socialist, or communist, or otherwise ideology. It's a, we are on our own and we are not in a global economy.

"Mr. Speaker, this is a good step with the South Korean economy, which is growing gangbusters. North Korea envies the South Koreans and this is the beginning of a number of trade agreements throughout the Pacific Region which we will hear and see more of, including Burma and all the other nations in Southeast Asia. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the reports of the Committees were adopted and H.R. No. 128, entitled: "HOUSE RESOLUTION URGING THE UNITED STATES CONGRESS TO APPROVE THE UNITED STATES-KOREA TRADE AGREEMENT," was adopted, with Representative Takumi voting no, and with Representative Carroll being excused; and

"Thank you, Mr. Speaker. I rise in support of Stand. Com. Report Nos. 1413 and 1414. Thank you, Mr. Speaker. These two resolutions recognize the dogs that help citizens with disabilities, aid the blind, and our seniors and everyone else.

"And as the Representative of Liliha, Nuuanu that has probably more human service organizations than almost any district, and in particular one of our top jewels is Ho'opono, where our blind learn to become such productive and happy citizens.

"I think it's kind of nice to again rise on animals of merit. You can see it. It just seems to be a continuum that I'm talking about, merit. Dogs have so much merit, and when we support merit we rise, all of us. So this is one of the genesis of these resolutions, but to also acknowledge which is a national effort here, those dogs that help our blind. Thank you."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. This measure will protect the privacy of individuals suffering from mental illness, substance abuse, domestic violence, and those who are minors as well as the gay community.

"Domestic violence survivors would be spared from reliving the nightmare of abuse as filing for temporary restraining orders, petitions, motions can be dangerous to the victim by exposing sensitive information to the batterer or his/her employer. Victims are often afraid of retaliation.

"Women are the most targeted and vulnerable, and for the LGBT community, we must afford them the privacy they deserve.

"Cyber bullying/ stalking/ harassment are on the rise as technology evolves with social media, blogs and websites. These are outlets used to tarnish reputations and embarrass the victim with derogatory information, revelation of sexual orientation, or revealing photos. As we have seen in the news, bullying may lead to suicide. Sensitive information such as medical records, social security numbers, telephone numbers, and home addresses should be kept private.

"Let's protect vulnerable individuals with compassion."

THIRD READING

S.B. No. 106, SD 1, HD 1:

Representative B. Oshiro moved that S.B. No. 106, SD 1, HD 1, pass Third Reading, seconded by Representative Evans.

Representative Fontaine rose to speak in opposition to the measure, stating:

"Yes, Mr. Speaker. I stand in opposition to this measure. Basically what we're doing here is we're violating the separation of powers by overwriting a multitude of judicial determinations with a legislative measure, after the fact. Please realize that people who have been sentenced to multiple terms have committed multiple felonies in this case, and is this something that we really want to go back and do.

"Also there's the question of liability, and I believe the Chair tried to address that. But if you have a prisoner who has maybe served two 10-year sentences, and has served already 14 years, and then we go back and we say, 'Oh, you should only serve 10.' There's four years of additional sentencing that this prisoner has served. Does that open the State to liability? Will he then come back to the courts and say, 'You need to pay me for the time that I've spent in jail.' So those are my brief comments in opposition. Thank you."

Representative Pine rose to speak in opposition to the measure, stating:

"In opposition. I just want to explain to Members what this means exactly. As the previous speaker had stated, a person that committed multiple crimes and was sentenced by a judge to serve consecutive sentences for those multiple crimes, they can now get off earlier. Let me tell you who that's going to affect in my community.

"A few years ago Karen Ertell was murdered by Vernon Bartley. What Vernon Bartley did to this nice woman who helped him out, his neighbor, was he raped her and then he murdered her, then he stole her car. Of course after breaking into her house to murder and rape her, and then he watched porn from her computer. And then he stole other things.

"He was sentenced to consecutive terms for all those different counts. The judge convicted him on seven counts including murder, burglary, unauthorized computer access, car theft, and credit card fraud. And if this passes and is signed into law by the Governor, I have to go to that family who was counting on him serving the time for the multiple crimes that he did to this wonderful woman and tell them that this Legislature felt that he should get off earlier. That's what I'm going to have to do if this bill passes into law.

"This is a real family who has suffered tremendously, and now this Legislature feels that this person, this awful person, should have more freedom because now he can serve all these seven counts all at the same time. And this family who was counting on, hoping on, praying on, and trusting in the judicial system that he would serve the time for these crimes. They're going to be victimized again by this Body.

"So, Mr. Speaker, I strongly ask the Members to please not let this bill get passed into law. You will find out that there are many cases in your districts that you're going to be letting off a violent criminal free because of this legislation if it becomes law."

Representative Cabanilla rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I can certainly understand the passion of my colleague in Ewa Beach regarding these crimes and that the convicted should pay for that. But I just want to point out something that's a reality that we need to face with this.

"Suppose somebody has to serve a consecutive sentence amounting to 40 years, and they were about 40 years old when that crime happens. That means assuming they live up to the age of 80, we're going to be paying 40 years at \$165 per day. When they turn 65 and they become geriatric, they will now populate our State hospitals in the geriatric ward, and that's what's happening now.

"These precious beds that we have that are supposed to be for regular nursing homes and they are now for inmates. And furthermore, if you hospitalize those inmates in a regular hospital they come with entourages of guards amounting to thousands of dollars per day when they're hospitalized.

"Considering that we are cutting services for valuable nonprofits, are we now going to switch these precious resources to funding nursing homes and hospitalization for inmates whose cost exponentially increases? Thank you, Mr. Speaker."

Representative B. Oshiro rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in support. I think it's important to provide some background on this bill. Specifically if people look at section one, what it talks about is Act 193 of 2008. What that means is back in 2007 our Department of Public Safety found out that the law, as written was actually not being properly interpreted by our Judiciary, as well as our Public Safety Department.

"And what this has to do with is when a judge issues their sentence upon a convicted criminal, when they issue their sentence they have the choice when there is more than one conviction of either saying that the terms will run concurrent, or they will run consecutive. If it's concurrent that means

you lump them all together and it's the maximum amount of time served. If it's consecutive, that means you add them up all together.

"So that has to do with Act 193. And what that had to tell judges to please be specific when they are issuing sentences and say whether a sentence is going to be concurrent or consecutive. Because if you remain silent, then at that point there will be an assumption that is concurrent. And as much as I feel for the Minority Floor Leader and her comments, that has nothing to do with this case because Act 193 did not apply there.

"What this does is, it says any conviction prior to Act 193, prior to 2008, for those sentences where the judge was silent, where the judge did not say whether a sentence will run concurrent or consecutive, it will run concurrent. And that is because that was the assumption and the practice in the entire Judiciary, as well as the entire Public Safety. And so that really was why judges were silent prior to 2008, because they assumed that when they didn't say it, it meant concurrent. And so all this is doing is conforming to what was practiced into law. Thank you."

Representative Pine rose to respond, stating:

"I understand all of that information, but this makes everything concurrent. That is our statement to society, that we want everything to be concurrent. And I'm telling you that many murderers, rapists, people who rape little children, are going to be getting off if the judge that did the sentence, that did maybe life with parole. That person has the opportunity to get out earlier. So when we're talking about maximum sentences, it's not 20 years. It's not 40 years. It could be as early as 5 years, 8 years, 10 years for a violent crime.

"So if we're going to be talking about geriatrics, let's be real. They're never going to have to serve all that time for violent crime. We're making a statement as a legislative body that these people should not be punished for all of their crimes. Because they're not going to be serving the time. They're just going to be punished for the crime that they have the most time, but if the judge gave the opportunity for parole, then that maximum time could be as low as 5 or 6 years for a violent crime."

Representative Har rose in opposition to the measure and asked that the remarks of Representative Fontaine be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Ching rose in opposition to the measure and asked that the remarks of Representatives Pine and Fontaine be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Evans rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. And may I have the words of the Majority Leader as my own. And I also want to add that I think we're all concerned about anybody that has been harmed, and that people will get the punishment they deserve I hope.

"But what I really see in this bill that hasn't been brought up is the that Judiciary still has the discretion. Clearly the court can specify if it's concurrent or not. If it's silent, we're just setting it straight so that you don't have anybody in the Department of Public Safety, a staff person and not a judge, and maybe even the Parole Authority Board trying to interpret and understand what a judge really wants. This really gives that discretion to that body. I think this is really putting the burden more on our Judiciary. I hope the speech that was given by the Minority Floor Leader would be shared with the Judiciary. Thank you."

Representative Riviere rose to speak in opposition to the measure, stating:

"In opposition. First I'd like to share that the costs should not be the predominate factor. If we've got criminals, we've got to put them away, or we've got to have the justice server serve, just as many other agencies in this government have to operate from what is right and what is wrong.

"As to the ambiguity in the law, as far as I can see, Act 193 did clarify whatever ambiguity that may have existed since 2008 so there should not

be any uncertainty. I would note that the courts do have the ability now to correct or mend anything should it be determined that a judge had meant for it to be concurrent rather than consecutive. I imagine there are procedures in place that could be adjudicated now. So what we're being asked to do here is to make that decision, and go back and make the decision for the judge from this Floor now for all cases. And so I would say that we should not be amending this Act, and let it continue as it is and was adopted three years ago. Thank you."

Representative Johanson rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Johanson's written remarks are as follows:

"Mr. Speaker, I rise in opposition to SB 106, SD1 HD1 as currently drafted. While I recognize the genesis and intent of this bill is to save our State money by streamlining the time prisoners serve and to potentially make previous legislative intent clear, I believe this bill would have too broad of an effect on prison terms and may undo the rulings by our State courts. I also echo some of the concerns of the Department of Public Safety and City Prosecutor that were raised in their testimony against this bill: retroactive application of this bill on criminals who were purposely sentenced to serve consecutive terms may ultimately lead to criminals serving fewer years because their terms may become concurrent versus consecutive. It is important to ensure justice for all; we must prioritize the rights of victims and justice for the aggrieved."

Representative Ward rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Pine rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Pine's written remarks are as follows:

"Mr. Speaker, I rise in rebuttal to the House Majority Leader's comments on SB 106 concerning multiple terms of imprisonment under the Hawaii Penal Code, as well as rise in opposition to this bill. What this bill does is require that multiple terms of imprisonment must run concurrently unless the court orders or the law mandates that the terms run consecutively. This shall apply to all sentences including those that were imposed before this bill became law. And the bill directs the Department of Public Safety to recalculate the sentences of inmates who submit written requests and, if warranted by the recalculation, release those inmates.

"The Majority Leader states that this bill will not apply if the sentencing judge is silent and does not declare that the multiple prison terms shall be served concurrently. The Majority Leader is wrong. Silence on the part of the judge -- by the very terms of this bill -- does not have this effect. As the Senate Standing Committee Report points out, the multiple sentencing terms shall be served concurrently -- "unless otherwise ordered by the court." Thus, the silence of the judge shall have the effect of these multiple sentence terms being served concurrently, not consecutively.

"And because this bill applies to all sentences, even for those sentences imposed before it became law, this bill allows prisoners to get out of prison earlier despite their heinous crimes.

"This bill opens the door for convicted murderers, rapists, child molesters, and violent criminals to get out of jail earlier. What Mr. Speaker will we in this Legislature tell the victims of these crimes concerning what we're doing here today? Once again, this Legislature has made it a priority to coddle criminals who don't deserve our support -- and we've thrown to the wayside the feelings of their victims who shall once again be victimized because of the actions we are taking here today. On behalf of these victims and our community, I therefore rise in strong opposition to this bill."

The motion was put to vote by the Chair and carried, and S.B. No. 106, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAII PENAL CODE," passed Third Reading by a vote of 37 ayes to 10 noes, with Representatives Ching, Fontaine, Har, Johanson, Marumoto,

Representative Fontaine rose to speak in opposition to the measure, stating:

"Yes, Mr. Speaker. I rise in opposition to this measure, Stand. Com. Rep. No. 1441. What this basically will do is it will put back safety inspections on new vehicles from two years, out to three years. And we had very compelling testimony during the Committee about why this is a bad idea. Parts do wear out on cars. Tires wear out, Windshield wipers wear out. Headlights become misadjusted. One testifier said that about half of the vehicles that they inspected, there was some issue with the car that was three years and younger.

"So newer cars have issues and have things that wear out. Only about 4 of the 34 inspection items that are on the safety inspection sheet are actually covered under warranty, so the argument was that people take their car in for servicing and have their oil changed and all those problems can be identified. But actually that is not the case. There are some specific servicing that's done and unless the driver instructs the repair shop, 'Hey fix my headlight,' they won't even bother with it. They'll do the oil change and send you on your way.

"So I think we have to take a step back. I understand we're trying to perhaps save money with consumers and not having to have it done so

quickly. But I think that there's definitely safety issues regarding that. Thank you."

THIRD READING

S.B. No. 1417, SD 1, HD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, S.B. No. 1417, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE REHABILITATION COUNCIL," passed Third Reading by a vote of 50 ayes, with Representative Takumi being excused.

S.B. No. 219, SD 1, HD 1:

Representative B. Oshiro moved that S.B. No. 219, SD 1, HD 1, pass Third Reading, seconded by Representative Evans.

Representative M. Lee rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I am almost certain that the saying, "Women are from Venus, Men are from Mars," applies to this issue. Having never experienced childbirth themselves, the Chairs' initial reluctance to hear this measure is perhaps understandable. I am happy and grateful they have finally seen the light.

"Women represent the fastest growing population in U.S. prisons. According to the Bureau of Justice Statistics, the number of women prisoners tripled between 1995 and 2008. As the number of incarcerated women rises, so does the number of pregnant women in prison.

"In Hawaii, as elsewhere, the number of women in prison is rising. Even so, Hawaii does not have anti-shackling laws on the books. Shackling can mean a combination of handcuffs, leg irons, belly chains, and Posey belts. While there are no statistics measuring the frequency with which shackles or restraints have been used on women prisoners in Hawaii, the use of such restraints on incarcerated pregnant women is common in the United States. These restraints may be used on pregnant women during transportation, but also during labor, delivery, and recovery.

"Shackling is an outdated, humiliating, and dangerous practice, which may severely impede a pregnant woman's health and the health of her child. Shackling may cause lack of oxygen to the fetus and resultant fetal distress, even fetal death.

"On March 23, 2010, Washington State became the seventh state in the Union to halt the unnecessary and inhumane practice of shackling.

"The American College of Obstetricians and Gynecologists, The American Medical Association, The Federal Bureau of Prisons, The National Bureau of Justice, and the United Nations Committee on Human Rights all oppose the shackling of pregnant women prisoners.

"In a letter written in support of federal legislation to prohibit the practice of shackling incarcerated pregnant women, Ralph Hale MD of the American College of Obstetricians and Gynecologists cited testimony being given on this issue in the California Legislature. Dr. Hale notes: "Physical restraints have interfered with the ability of physicians to safely practice medicine by reducing their ability to assess and evaluate the physical condition of the fetus and the mother. Similarly, they have made the process of labor and delivery more difficult than it needs to be, putting the health of mothers and unborn children at risk."

"Dr. Hale goes on to say that the shackling of incarcerated women in labor may not only compromise the health of the mother, but is also demeaning and unnecessary. Most women in correctional facilities are there for non-violent crimes.

"The safety of correctional personnel is paramount, and adequate correctional staff must be present to attend and monitor women in labor, both during and after birth, during transport to the hospital, and during recovery and hospital stay.

"Incarcerated women in labor constitute a particularly vulnerable population. PREVENTION of the practice of shackling is an important step towards humanitarian care and social justice.

"I don't ever want to hear the phrase again: Is it a problem? Let's make sure that the inhumane treatment of pregnant women prisoners is never a problem in the beautiful State of Hawaii. I urge the Members' support."

The motion was put to vote by the Chair and carried, and S.B. No. 219, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CORRECTIONS," passed Third Reading by a vote of 50 ayes, with Representative Takumi being excused.

At 1:04 o'clock p.m., the Chair noted that the following bills passed Third Reading:

S.B. No. 1417, SD 1, HD 1
S.B. No. 219, SD 1, HD 1

ANNOUNCEMENTS

Representative Thielen: "Thank you, Mr. Vice Speaker. It's my privilege to announce that next Friday will be our annual Hemp Aloha Friday, or Natural Shirt Friday for my colleague from Kaimuki. We've done this now for probably about 15 years or so. We would do it closer to Earth Day, but that Friday is a holiday so we won't be here. So for those Neighbor Islanders, bring your hemp shirts back to the Capitol to wear them next Friday, or at least a natural fiber shirt. Thank you."

Representative Herkes: "Thank you, Mr. Speaker. I just want to remind the Members of the fundraiser breakfast next Wednesday. This is to benefit all of our constituents. We want to make sure that the Red Cross here in Hawaii has enough money to take care of all natural disasters in Hawaii.

"And I will tell you that we're flying in three people from Kona that went through the tsunami so they can tell us some very, very interesting stories. I got a very nice call from a gentleman in Pahala today who's sending us a check for \$1,500.

"This is strictly nonpolitical. Everybody has to pay to get in, including me. And I hope to see you all there. Thank you."

Representative M. Lee, for the Committee on Finance, requested a waiver of the 48-hour advanced notice requirement for the purpose of hearing S.B. No. 23, Relating to Native Hawaiians, on Friday, April 8, today, at 2:00 p.m. in Conference Room 308, and the Chair "so ordered."

The Senate and the House have agreed to the following special procedures for all 2011 Regular Session Committees on Conference. For purposes of these procedures:

"Chairs" refers to all of the designated chairs and co-chairs of a Conference Committee.

"Conference Committee" refers to the conference of the House Committee and the Senate Committee assigned by their respective chamber to resolve the differences between the House and the Senate over a particular measure.

"Lead chair" refers to the chair of the House Committee or the Senate Committee who is listed first on the Action Sheets, as provided by the respective chamber.

"Lead committee staff" refers to the staff of the lead Chair from the chamber from which the measure in conference originated.

"Managers" refers to all members of the House and Senate assigned to a Conference Committee.

1. Conference Committee Scope and Amendments

The authority of the Conference Committee shall be limited to resolving differences between the Senate and House drafts of a measure. Accordingly:

- a. With the exception of the Executive Budget, the Judiciary Budget, and the Budget of the Office of Hawaiian Affairs, a Conference Committee shall not amend a measure by inserting any unrelated or new subject matter.
- b. To assure the integrity of individual measures, the merging of two or more distinct but related measures into one encompassing measure shall not be allowed.

2. Conference Committee Meeting Times

Conference Committee deliberations shall take place only between the hours of 8:00 a.m. and 12:00 midnight.

3. Initial Public-Meeting Notice

The signatures of all chairs shall be obtained before the notice of an initial meeting is posted or distributed. Prior to offering the initial meeting notice for signatures, the chairs shall consult with one another on the information to be included in the notice. Lead chairs from both houses are encouraged to sign meeting notices first, before distributing them to other chairs to sign.

Chairs shall provide at least 24 hours public notice of the first meeting of the Conference Committee, and are strongly encouraged to provide more than 24 hours notice if at all possible. Written notices shall be submitted to the Senate Chief Clerk and the House Sergeant-at-Arms for official postings. The lead committee staff shall post notice adjacent to the door of the assigned conference room at the time of the meeting.

4. Notice of Subsequent Meetings

- a. If agreement is not reached at a duly noticed meeting but the lead chairs of both chambers agree to meet again before midnight on the same day, the lead chairs of both chambers shall publicly announce at the meeting the time and place at which the Conference Committee will reconvene. Written notice of the reconvening of the Conference Committee on the same day is not required to be distributed. However, written notice containing information on the subsequent meeting shall be submitted to the Senate Chief Clerk

and the House Sergeant-at-Arms for official posting as soon as possible. The lead committee staff shall post notice adjacent to the door of the assigned conference room at the time of the meeting.

- b. If agreement is not reached at a duly noticed meeting but the lead chairs of both chambers agree to meet on another day, the lead chairs of both chambers shall publicly announce at the meeting the date(s), time(s), and place of the subsequent meeting(s), and submit written notice to the Senate Chief Clerk and the House Sergeant-at-Arms for official posting. The lead committee staff shall post notice adjacent to the door of the assigned conference room at the time of the meeting.

- c. If agreement is not reached at a duly noticed meeting and the date(s), time(s), and place of future meetings are not publicly announced at that noticed meeting, chairs shall ensure that a written meeting notice, signed by the lead chairs of their respective chamber, is submitted to the Senate Chief Clerk and the House Sergeant-at-Arms for official posting at least 24 hours in advance of the next meeting of the Conference Committee.

5. Conference Room Notice

The lead committee staff shall post notices of Conference Committee meetings adjacent to the door of the assigned conference room at the time of the meeting.

6. Attendance at Meetings

Except as otherwise provided in these procedures, attendance requirements shall be established by the respective chamber.

7. Conference Discussion

Except as authorized by the respective chairs, only the respective chairs may speak during conference. All other managers or other authorized persons shall be recognized by their respective chairs before speaking on any issue.

8. Decorum in Conference Committee Meetings and Courtesy to the Public and to the Managers

- b. Chairs shall ensure that meetings convene and reconvene at scheduled times. If none of the chairs of one of the Committees are present within 15 minutes of the scheduled meeting time, the chairs of the other Committee shall have the names of the absent chairs paged through the State Capitol public address system.

- c. If none of the absent chairs are present within 30 minutes of the scheduled meeting time, the chairs present shall inform the managers and members of public present that the Conference Committee cannot be convened or reconvened, and that, pursuant to 4c of these Committees on Conference Procedures, a 24-hour advance notice shall be provided for a subsequent meeting of the Conference Committee.

A quorum shall be a majority of the House Committee managers and a majority of the Senate Committee managers and shall include a majority of the chairs of the Conference Committee for their respective chamber.

- b. To report a measure out of Conference Committee in amended form, Conference Draft (CD), a majority of the quorum of managers

d. If, after naming a Conference Committee on a measure, the Conference Committee managers representing the chamber from which a measure originated agree to the amendments made by the non-originating chamber, only a quorum of those representing the originating chamber shall vote on the agreement at a duly noticed meeting. For example, if after naming a Conference Committee on a House measure, the House managers of the Conference Committee decide to agree to the amendments in the Senate draft (SD) of the measure, then only the House managers of the Conference Committee shall vote on the measure, returning it to the House in its SD form. For such action, only a quorum of the Conference Committee managers representing the chamber from which the measure originated need to be present. The "Record of Votes of a Conference Committee" sheet detailing the votes of the managers of the originating chamber shall be filed with the appropriate chamber without a Conference Committee Report.

Should a Conference Committee for which the vehicle is a Senate bill decide to use a proposal drafted by the House, the House chair shall have the House proposal electronically transferred to the appropriate Senate office so that the Conference Draft can be prepared. The converse shall apply to House bills with proposals drafted by the Senate that the Conference Committee agrees to.

Representative Keith-Agaran, for the Committee on Judiciary presented a report (Stand. Com. Rep. No. 1464) recommending that S.B. No. 217, SD 2, HD 1, as amended in HD 2, pass Third Reading.

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 217, SD 2, HD 2, pass Third Reading, seconded by Representative Evans.

Representative Keith-Agaran's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in strong support of this bill which extends and tolls the statute of limitations for victims of sex abuse to initiate civil actions. This measure – while incapable of restoring the innocence lost by minors subjected to child abuse – does provide these victims an opportunity to hold perpetrators responsible civilly for their heinous actions.

"Under present statutes of limitations, many claims expire before the victims are capable of getting to court. This bill would protect the children of Hawaii by making it possible for victims to come forward and identify their perpetrators in a court of law. It would bring a measure of justice to these victims.

"Recognizing that statutes of limitations are constructed to provide fairness in legal proceedings – where memories can fade over time and where evidence and records can be difficult to locate due to the passage of years – this bill strikes a balance.

"As Professor Marci Hamilton noted in written testimony, there are three public purposes served by this bill:

- 1) The identification of previously unknown child predators to the public so children will not be abused in the future;
- 2) Giving child sex abuse survivors a day in court; and
- 3) Remedying the wrong done to child sex abuse survivors caused by an overly short statute of limitations that placed predators and their enablers in a preferred position to the victims.

In this circumstance, providing a retroactive window of opportunity for victims of childhood abuse is appropriate. As Professor Hamilton also notes:

"The Hawaii Supreme Court has upheld retroactive application of a newly extended statute of limitation to revive claims that previously expired. *Roe v. Doe*, 581 P.2d 310, 316 (Haw. 1978) (holding that "[t]he right to defeat an action by the statute of limitations has never been regarded as a fundamental or vested right . . . [W]here lapse of time has not invested a party with title to real or personal property, it does not violate due process to extend the period of limitations even after the right of action has been theretofore barred by the former statute of limitations."); *Gov't Employees Ins. Co. v. Hyman*, 975 P.2d 211 (Haw. 1999).

"Hawaii does provide for a two-year (2) statute of limitations for repressed memory cases, but victims typically have a difficult time dealing with such memories. Two years is a very short period of time within which to process the information, obtain the needed counseling to be ready to go to court, and then to find an attorney and proceed to the judicial process. The window would help them, as well as the vast majority of victims, who do not have repressed memories and simply could not get to court before the statute of limitations expired.

"This bill is necessary to provide justice for these victims. I urge my colleagues to vote for this bill."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 217, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO LIMITATION OF ACTIONS," passed Third Reading by a vote of 50 ayes, with Representative Awana being excused.

Representative Johanson's written remarks are as follows:

"I rise in support of SB 1281. I am very supportive of this measure because of the regularity and structure it can provide for public school administrators. I have heard from numerous principals that it is often difficult to engage in the financial planning process for their school when they are unsure as to what the Committee on Weights will decide on the actual value of the weighted student formula. By making the meetings biennial, administrators can more expediently and efficiently craft their financial plan."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1281, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO EDUCATION," passed Third Reading by a vote of 50 ayes, with Representative Awana being excused.

Representative Hanohano's written remarks are as follows:

"Mr. Speaker, I rise in support with reservations. This measure relates to dams and reservoirs. This bill was not referred to the Committee on Hawaiian Affairs which is tasked to examine water issues in the State of Hawaii."

Representative Tsuji's written remarks are as follows:

"This bill protects Hawaii's water resources by establishing safeguards and mechanisms to preserve and maintain the State's dams and reservoirs.

"It specifically directs the BLNR to consider dams and reservoirs to be vital water resources for the State. It will also enable the BLNR to better understand and more strongly consider the importance of dams and reservoirs to the State in connection with the administration of the dam and reservoir safety program in DLNR.

"Agriculture is critical to Hawaii's food security and sustainability. Agriculture ventures need water. Our State is currently experiencing drought, and water storage facilities are essential infrastructure components to irrigation systems and safeguard against below average rainfall.

"The unsustainable costs for land owners and agricultural stakeholders incurred by the safety program are a serious concern. Overly burdensome regulations relating to dams and reservoirs maintenance and operation would be counterproductive to the long-term objective of preserving these facilities as valuable water resources.

"This proposed measure moves towards equitable and appropriate shared costs between private and public interests for the administration of dam and reservoir safety."

Representative Nakashima's written remarks are as follows:

"SB No. 142 requires BLNR to consider dams and reservoirs as important water resources for the State and acknowledge the need to maintain and operate them in a safe and feasible manner. Since the Koloko Dam incident on Kauai, State regulators have taken action that set unreasonable standards for agricultural reservoirs and threaten to undermine the State's goal for agricultural sustainability and security. This bill will reassert State policy to treat these reservoirs as important agricultural infrastructure and urge prudent action to balance the need for agricultural sustainability with public safety."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 142, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO DAMS AND RESERVOIRS," passed Third Reading by a vote of 50 ayes, with Representative Awana being excused.

Representative Hanohano's written remarks are as follows:

"Mr. Speaker, I rise in support with reservations. This measure authorizes the Department of Land and Natural Resources to collect fees to cover the technical assistance program costs associated with habitat conservation plans, and adopt rules for establishing the fees. This bill was not referred to the Committee on Hawaiian Affairs which is tasked to examine public land trust which may include classified conservation lands."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1311, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO FEES FOR HABITAT CONSERVATION PLANS," passed Third Reading by a vote of 50 ayes, with Representative Awana being excused.

Representative Hanohano's written remarks are as follows:

"Mr. Speaker, I rise in support with reservations. This measure relates to public lands. This bill was not referred to the Committee on Hawaiian Affairs which is tasked to examine public lands."

Representative Jordan's written remarks are as follows:

"I stand with reservations to SB1530, SD1, HD2, relating to the extension of public land leases for the purpose of improving Banyan Drive on the Island of Hawai'i. The problem with this bill is that it extends the lease period for the use of public lands to 55 years. This lease provides security for business owners who will theoretically use that security to invest in their properties. However, it neglects the public's interest to ensure State land is leased through public auction and fair procedures. The long lease term also restricts the lease values through time, limiting State revenues and making it difficult to keep up with market rents. Having incremental increases in lease terms would be in the State's best interest as it would allow the State to generate revenue and ensure that properties are maintained and yielding the greatest return."

Representative Nakashima's written remarks are as follows:

"Mr. Speaker, Senate Bill 1530 authorizes the Board of Land and Natural Resources to extend leases of public lands for hotel, resort, commercial, and industrial use upon approval of a proposed development agreement to make substantial improvements to the premises. This will add an additional dimension to State leases that would allow businesses an incentive to work to improve their State leasehold property that would insure continued viability of their business while maintaining and improving the value of the State's leasehold land."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1530, SD 1, HD 2, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC LANDS," passed Third Reading by a vote of 50 ayes, with Representative Awana being excused.

Representative Keith-Agaran's written remarks are as follows:

"Thank you, Mr. Speaker. I stand in strong support of this bill which provides for the safety of the State's youth-at-risk by providing a process for certain child service providers to provide emergency shelter and related services to minors at no cost under certain conditions. It fills a gap in the safety net needed to care for Hawaii's young people by allowing providers to refer youth in need to shelter and related services.

"Children at risk are entitled to the rights and social benefits as other citizens and should not be denied necessary services and forced onto the streets. This bill allows minors a limited authority to provide informed consent to enter emergency shelters and access services without the consent of parents or guardians. The balance struck in this bill protects child service providers while respecting the role of adults in the lives of these at-risk youth.

"This is a step forward towards ensuring that Hawaii's youth population receives the care and services needed to stay safe and go on to build productive and healthy lives. I urge my colleagues to support this bill."
