Representative Jordan rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition, Mr. Speaker. My opposition mainly hinges upon the section that remained in this measure that said, although no fee to participate in these meetings, which I totally support, my opposition is to the requiring registration, Mr. Speaker. You see, there are public meetings that require registration to enter the event. There's no fee charged, they are open to the general public, not just individual board members, meaning neighborhood board members who are located on the

island of Oahu. So basically, that's where my opposition to this measure stands at this particular time, Mr. Speaker. So, thank you very much."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 419, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO NEIGHBORHOOD BOARDS," passed Final Reading by a vote of 47 ayes to 3 noes, with Representatives Choy, Fukumoto Chang and Jordan voting no, and with Representative McDermott being excused.

Representative Jordan rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Jordan's written remarks are as follows:

"I stand in support of HB 1075 with reservations, which relates to health. The purpose of this bill is to authorize the Governor, the Board of Directors of the Hawaii Health Systems Corporation, and Board of the Maui Regional System Board to enter into an agreement with a private entity duly authorized to conduct business in the State to transfer any one or more of the facilities of the Maui Regional System to a new nonprofit management entity to manage, operate, and use to provide health care services.

"I recognize that healthcare today is a very specialized, complex and fluid business, and the governmental model that we have in Hawaii today may no longer be the best model for our acute hospitals moving forward as we strive to provide vital healthcare services throughout the State while striving to reduce taxpayer subsidies. Partnering with non-profit healthcare providers will be able to bring investments in health information technology, physician networks, quality management, supply chain management, and expertise in revenue cycle maximization. Since it has been reported during testimony that Maui Memorial Regional System requires approximately 35% of the HHSC budget; therefore, that money can be spent to upgrade services in all the other state medical regions.

"My reservations continue to focus on employee issues, continued need for state subsidies for operating costs, and any unintended consequences that may occur when there is such a great paradigm shift in our local state government-run acute hospital regional system. I am hopeful that these issues will be worked out in good faith and look forward to on-going analysis and reports of progress as required in the HB 1075, CD 1."

Representative LoPresti rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Har rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Har's written remarks are as follows:

"Mr. Speaker, I rise with strong reservations to House Bill No. 1075, HD 2, SD 2, CD 1. The purpose of this bill is to authorize: '*...the Governor, the Board of Directors of the Hawaii Health Systems Corporation, and Board of the Maui Regional System Board to enter into an agreement with a private entity...to transfer any one or more of the facilities of the Maui Regional System to a new nonprofit management entity to manage, operate, and use to provide health care services.*'

"I support the intent of this bill and the efforts taking place to ensure Maui residents have the same access to quality medical care as we do here on Oahu. However, I have concerns about the financial mechanics of this bill. Mr. Speaker, The National Council for Public-Private Partnerships describes 'public-private partnerships' as arrangements that '*typically involve a government agency contracting with a private partner to renovate, construct, operate, maintain, and/or manage a facility or system, in whole or in part, that provides a public service.*'

"*Under these arrangements, the agency may retain ownership of the public facility or system, but the private party generally invests its own capital to design and develop the properties. Typically, each partner shares in income resulting from the partnership. Such a venture, although a contractual arrangement, differs from typical service contracting in that the private-sector partner usually makes a substantial cash, at-risk, equity investment in the project, and the public sector gains access to new revenue or service delivery capacity without having to pay the private-sector partner.*'

"As stated on page 12, lines 17-20, '*...the private entity or its nonprofit management entity...may seek funds from the State for its operating costs...*' Furthermore, on page 15, lines 9-15, '*...the private entity or its nonprofit management...may seek funds from the State for capital expenditures...for each or all of the first ten years of the lease...*'

"Mr. Speaker, I recognize that there will be significant benefits for the State and Maui residents if a private entity absorbs a facility on Maui. However, as evidenced on pages 12-15 in HB 1075, this bill no longer proposes a public-private partnership. It has now transformed into a subsidy for a private entity to operate a public hospital using public funds. How much capital is this private entity going to invest into a public hospital on Maui? How much funding will the private entity seek from the State every year?

"Moreover, the language in House Bill No. 1075 requires the private entity to only commit to retention of the workers at Maui Memorial Medical Center for six months. As the State is taking such a proactive role in subsidizing the private entity, I would hope the private entity would commit to working with the State in finding additional or alternative jobs as these are our local residents. It goes unsaid that any increase in unemployment as a result of this 'merger,' is not good for economy or the people of Maui.

"For these reasons, Mr. Speaker, I have strong reservations with House Bill No. 1075."

Representative Oshiro rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker, I'll be voting with reservations. I'd just like to say a few remarks, Mr. Speaker. Thank you. First of all, I'd like to recognize the work that was done in the last several days to come up with this draft. It shows a lot of creativity and understanding of the basic principles of collective bargaining, and I think a lot of the credit needs to be brought to where it originated and I think where this bill will go in this implementation.

"So first of all, I'd like to acknowledge the work of the Governor's Office and his staff who really thought through the different possibilities that this bill in this current draft will allow the employers of HHSC and the other systems to best address the needs of those who might be affected by any type of change and the transition of the Maui facility and facilities to a non-government entity.

"I'd like to also recognize the work and the ingenuity and understanding of the Director of the Department of Human Resources Development, Mr. James Nishimoto. In having worked with him back in 1997, '98, '99 when you were Speaker, and at that time we looked at the civil service laws, collective bargaining laws, with Governor Cayetano. So I see what we're trying to achieve in this measure. So that's why I feel like I should stand and express these thoughts.

"I also need to recognize the affected unions through their leadership. This is going into uncharted waters. I don't think any of us know where this thing is going to end up. We hope that it does provide for the needs of both the citizens of the Maui region and those islands and those communities, as well as address the needs of the employees and workers in these positions. So I need to also express kudos to those leaders there.

"But this is a new model we're going into, Mr. Speaker, and I just hope that we're making the right choice at this time. So there's some trepidation in making this bold move, but with that I will be voting with reservations and ask for indulgence to submit further written comments. Thank you."

Representative Oshiro's written remarks are as follows:

"Mr. Speaker, let me also thank specifically the leader of the Hawaii Government and Employees Association ('HGEA') for his strong and relentless advocacy on behalf of his members and specifically those in the collective bargaining units associated within the employer group of the Hawaii Health Systems Corporation ('HHSC'). He has and is facing an extraordinary shift in public perception and political attachment to the HGEA in that this measure is passing without much opposition and did earlier with nearly unanimous support in the Senate. As we all know, the bill has the effect of privatizing a large segment of our State of Hawaii government services. Some would even describe these health care services and the personal therein as 'essential' and I believe they are. For what can be more essential than the provision of health services to the citizens of Hawaii.

"But, this is why this bill and more specifically the present draft – the conference draft 1 – deserves the recognition of all of us and this footnote that my mere words seek to convey. For this is not only an extraordinary legislative action because of the privatization, but extraordinary when seen in the context of occurring in a state like Hawaii, a state known for its active union enrollment and historical allegiance with the ruling Democratic Party of Hawaii for over 50 years. It then can be seen as a sea of change of philosophical and political linkages to labor heretofore unseen or experienced. Or, maybe a more sophisticated or pragmatic evaluation of public sectors labor interest and importance in a post-Great Recession budgetary world where fiscal realities, limitations, and changing community demographics are coming to the fore and tipping the scales away from historical hardened political and social alignment. Whatever may be the cause or the genesis of this change in perception or belief, is mere speculation and not a bellwether of eventual dismantling of favorable labor and management interest and inter-dependence. I hope so.

"But, this is why this conference draft, which arises from these present day changes as demonstrated in the Senate vote and past House votes on earlier drafts, is so important and has meaning. For one, it is a draft that recognizes that the biennium has been put to bed and no further funds or subsidies will be coming from this year's Legislature. Requests made through the Governor's Office, Budget and Finance, HHSC Boards, and CEO, is what it is – and a decision of how much and when it is settled. Now is the time to quickly assess, make plans, and move on and make it work the best we can. This budget fact has been taken into account and this suggests very serious and somber and practical action. For certainly, one knows that there is less money appropriated than requested and hence services and personal have to be cut. The hardest part of the equation is the human element and how this will impact the hundreds of 'warm bodies' and employees. However, the experience and insight of the collective bargaining and civil service system is now the tool that can ameliorate and even provide more meaningful practical solutions for soon-to-be displaced workers, and soften the blow upon the worker and his or her family and communities, and his or her colleagues and co-workers. It is both a product of desperation as well as inspiration for the welfare of the worker and community.

"Mr. Speaker, prior to carefully studying and researching this final conference draft, I was leaning forward to cast my final vote in the negative, for all the prior drafts were nothing more than gross and naked giveaways of the public trust and transfer of public assets to a private concern. And, although there is still concern with the inevitable expectation of continuous and constant subsidization of a private concern, that concern is for a private not-for-profit health care system indigenous to Hawaii. In other words, a private non-profit health care provider that we, the people of Hawaii, already subsidize and deem a business deserving of our favorable tax treatment and associated benefits. And, that makes it more palatable and acceptable. Furthermore, there is no longer any guarantee of any capital improvement subsidy or operating subsidy and both must be vetted by the Executive Branch prior to and concomitant with review by the Legislative Branch. These changes made the bill acceptable.

"Still, it was the final amendments to Chapter 89 that did it for me. The amendment to allow an expanded reading and application of 'employer' to allow the Governor or Mayors or University or Judiciary to consider the employer jurisdictions to provide assistance to employees of the HHSC reveals the intelligence and compassion of those in the Governor's Office, Department of Human Resources Development, Attorney General's Office, and the leadership of the Hawaii State Government Association and United Public Workers ('UPW'). In short, this means that a worker let go because of a 'reduction in force' ('RIF') may now seek employment in the Department of Health, County Health Office, or even at the Department of Education or State Judiciary. This means greater opportunity for employment on the island of Maui that under previous drafts, and hence less disruption to one's family and household. This also allows trained and experienced civil servants to be placed in available and open positions. The public benefits from this allowance, and experience and talent do not go unused or wasted. Recruitment and training expenses are also reduced and employer jurisdictions save time and money. This opportunity is only because of the dogged member advocacy, understanding of Hawaii's collective bargaining law, and fundamental practical political understanding of a few good leaders, like Mr. Randy Perreira, Executive Director, HGEA, and Mr. Dayton Nakanelua, Executive Director, UPW. Not many understand and appreciate what they did under overwhelming and difficult circumstances.

"In closing, I hope that the spirit that enables all to find a more favorable and mutually beneficial solution to this extraordinary measure and action, will continue throughout the transition to the private entity and thereby allow the respective public workers' unions the ability to best assist and provide hope for their members in this uncertain and challenging time. This can be a win-win-win for the Chief Executive, Union Leaders, and Community. Perhaps, we can move Hawaii forward and not leave anyone behind. I hope so. For these reasons, I will vote in support with reservations."

Representative Tokioka rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Tokioka's written remarks are as follows:

"We cannot refute that Maui County must continue to have a medical facility that is able to accommodate the medical needs of Maui County's growing population while maintaining a standard of care for its patients that is superior to generally accepted standards of care. While the Hawaii's Health Systems Corporation (HHSC) – Maui Region has, in recent years, been utilizing every resource at their disposal to keep Maui Memorial Hospital running effectively and efficiently, we currently find ourselves asking if this business plan is one that is sustainable, and if it is one that we as a state can continue to support.

"With that being said, I have grave concerns that the scope of HB 1075, HD 2, SD 2, CD 1 will not address the multitude of questions that stem from a public-private partnership between the State and a private healthcare entity.

"As an outer-island Representative with two HHSC Hospitals in neighboring Districts 14 and 16, HB 1075 sets a dangerous precedent for our Kaua'i hospitals to follow the same path to privatization via public-

private partnership. This path does not provide adequate protection of the hospitals' employees (State employees). §323 F-G(c) explicitly states, *'The private entity or its nonprofit management entity shall offer all employees of the pre-transfer facility, employment for a period of no less than six months after the transfer completion date.'* §(a) of the forgoing section only stipulates that union representatives and the corporation *'shall meet to discuss the impact of a transfer on the employees and the feasibility of tempering the adverse effect of layoffs by amending the employees' collective bargaining agreements pursuant to section 89-8.5.'*

"Furthermore, §323 F-G(b) states, *'The employees of a private entity or its nonprofit management entity shall not be governed by state laws that apply to public officers and employees of the State...'* Thus, hospital employees, some of whom have worked for years or even decades in the hospital may very well be let go within six months following the transfer with no source or method for recourse, and that is unacceptable.

"In this 'deal' there also lies disconnect between the State's liabilities and responsibilities versus its benefit. If approved by the Legislature and subsequently signed by the Governor into law, the State will not only be handing over control of the operations aspect of the hospital, we will also be transferring ownership of *'equipment and furnishings, including any leases for the same; accounts receivable; medicare and other provider agreements; business and commercial licenses and registrations; intellectual property and goodwill; administrative, financial, and medical records and information; or any other interests or property of the Maui regional system facility or facilities to be transferred under this part, that the parties agree to transfer or assign.'* In essence, the State will relinquish control of its facility, its employees, its equipment, and any other property – tangible or otherwise – to the private entity or its nonprofit management entity.

"Conversely, as indicated in §323 F-F(a), *'The State, the Maui regional systems board, or the corporation, separately or collectively, shall be responsible for any and all obligations incurred by the facility or facilities to be transferred ... including any accounts payable, accrued paid time off, debt, capital leases, malpractice liabilities, and other obligations incurred before the transfer completion date.'* Thus, while the private entity or its nonprofit management entity will be the beneficiary of Maui Memorial Hospital's employees, accounts receivable, facilities, equipment, including any other property and intellectual rights – it will not be responsible for clearing any liabilities possessed by Maui Memorial Hospital nor its regional system.

"This inequity begs the question, 'Is this the best solution for HHSC, Maui Memorial, and our state?' It is my humble belief that we can do better. For these reasons, I stand with reservations on HB 1075, HD 2, SD 2, CD 1."

Representative Say rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Belatti rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Belatti's written remarks are as follows:

"I rise in support of HB 1075, CD 1 that further clarifies and details the authority and process for establishing a public-private partnership for the Maui Regional System within the Hawaii Health Systems Corporation. As noted in the Conference Committee Report, HB 1075 builds upon Act 182 passed in 2009 that authorized any of the regional systems or individual facilities of the Hawaii Health Systems Corporation to explore and transition into new entities that could better address the operational challenges facing our public hospitals throughout the State.

"Since 2009, the challenges of operating public hospitals have only become increasingly more difficult. As was learned by members of the House Committee on Health that traveled to the various regions throughout the summer and fall months of 2014, our public hospitals must contend with decreasing reimbursements, unfavorable payor mixes, changing healthcare reform requirements, cumbersome payment systems, workforce shortages, geographic isolation, and bureaucratic and

administrative challenges, to name just a few, that make running these public hospitals difficult, at best.

"Even with passage of HB 1075, CD 1, our public hospital system will still be faced with mounting and substantial challenges that will likely lead to shrinking services and job losses in the community as other market forces continue to make the business of running hospitals a financially challenging task.

"Nevertheless, HB 1075, CD 1 provides a process whereby our public hospitals on Maui, with the leadership of the Governor, the Hawaii Health Systems Corporation, and the Maui regional board, will have a better chance at financial sustainability by enabling negotiations with a suitable private partner that will be able to manage, operate, and provide the quality health care services that the people of Maui deserve. This process further includes significant worker protections; commitments that a private partner will address the health care needs of the community; and limitations on the operating support and capital expenditures that will be required from the State if a private partner should successfully negotiate a management and operation agreement for facilities within the Maui region. For these reasons, I support HB 1075, CD 1."

Representative McKelvey rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative McKelvey's written remarks are as follows:

"Mr. Speaker, draw a 5-mile circle around the State Capitol. You will find five major hospitals available to the public: Queens, Kuakini, Kaiser, Kapiolani and Straub.

"We all remember when St. Francis hospital went out of business, its demise threw up emergency alerts, but Honolulu residents survived.

"Now put yourself in Wailuku and ask what happens if Maui Memorial Medical Center can't pay employees, buy needles and bandages, and has to close.

"Realistically, that is the end of the game for your health care on Maui.

"We have one hospital in Maui with approximately 170,000 to 200,000 people, including the tourists. We don't have sufficient revenue to give the people the care that they need and the quality of care that they need. Additionally, the State currently spends about \$100 million per year to support the hospital network operated by the Hawaii Health Systems Corp., including the Maui and Lanai facilities.

"This bill represents a partnership, Mr. Speaker, not an intervention. The State has been subsidizing the hospitals' operations for years, and a public-private partnership with these facilities is necessary to reduce the costs to the State. This measure is really just setting up the framework for how the State will pay the cost of transforming the hospitals.

"Mr. Speaker, after years of debate, we are poised to pass this measure. The bottom line is that HB 1075 must pass this session, in a form that will allow Maui Memorial Medical Center, Kula Hospital and Lanai Community Hospital to survive for the long term.

"At the end of the day, I'm hoping that this is a bill that most Mauians will live with, even though some of our unions are against it. It is unfortunate, but there weren't feasible alternatives presented to the House. That being said, I, for one, don't want to cut services. I don't want to cut jobs. Saving the hospitals for Maui County and with them, most of these jobs are essential. But the way to accomplish that is through enacting the solid plan that has taken shape in HB 1075. I stand in support of HB 1075."

Representative Kawakami rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I feel compelled, I want to go opposition with reservations but I don't know if that's ever been done. But I feel compelled to first off and foremost, to my Maui colleagues and to the

people of Maui, to apologize for my opposition. But in all honesty, very early on I had committed to a no vote in all privatization. And it may have been a mistake on my part for committing so early, but in the small island of Kauai, a small community, your word and your handshake is still a contract, and for these reasons, I'm opposed. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1075, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO HEALTH," passed Final Reading by a vote of 34 ayes to 16 noes, with Representatives Har, Jordan, Oshiro, Say and Tokioka voting aye with reservations, with Representatives Aquino, Brower, Choy, Cullen, Johanson, Kawakami, Lee, LoPresti, Lowen, Morikawa, Ohno, Onishi, Rhoads, Takumi, Tsuji and Yamane voting no, and with Representative McDermott being excused.

On motion by Representative Saiki, seconded by Representative Evans and carried, the report of the Committee was adopted and H.B. No. 119, HD 2, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO HEALTH," passed Final Reading by a vote of 50 ayes, with Representative McDermott being excused.

RE: Extension of Conference Deadlines for H.B. No. 321 HD1 SD2

Rule 11 of the Committees on Conference Procedures for the 2015 session specifies deadlines for decision-making on conference bills. Per Rule 11(a), fiscal bill negotiations were to conclude by 6:00 p.m. on May 1, Final Decking, and per Rule 11(c), the filing deadline was 11:30 p.m. of the same day.

It has come to our attention that most of the negotiations for H.B. No. 321 HD1 SD2 had been completed prior to the 6:00 p.m. deadline, but time

constraints prevented detailed final agreement on a conference draft. We therefore hereby exercise our authority pursuant to Rule 13 of the Committees on Conference Procedures to grant a waiver of both negotiation and filing deadlines for this particular bill.

Conferees are allowed to continue negotiations on Monday, May 4, 2015 between the hours of 12:00 noon and 2:00 p.m. Additionally, a conference committee report and draft may be filed with the Chief Clerk no later than 5:00 p.m. the same day.

All other non-deadline requirements established within the Committees on Conference Procedures still apply.
