INTRODUCTIONS

The following introductions were made to the Members of the House:

Representative Ward introduced Mr. William Aila, Jr., Deputy Director, Department of Hawaiian Home Lands.

Representative San Buenaventura introduced visitor from San Francisco, Mr. Holland Weigel.

ORDER OF THE DAY

SUSPENSION OF RULES

On motion by Representative Evans, seconded by Representative Pouha and carried, the rules were suspended for the purpose of considering certain House and Senate Bills for Third Reading by consent calendar. (Representative Woodson was excused.)

UNFINISHED BUSINESS

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1013-16) recommending that H.B. No. 1932, HD 1, as amended in HD 2, pass Third Reading.

Representative Saiki moved that the report of the Committee be adopted, and that H.B. No. 1932, HD 2 pass Third Reading, seconded by Representative Evans.

Representative DeCoite rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I stand in strong support. This bill does more than honor our constitutional obligation that each of us has taken to uphold. Section 1 of Article XII clearly states that the Legislature shall make sufficient funds available for four purposes, one of which is the administration and operating budget of the Department of Hawaiian Home Lands.

"As a homesteader from the island of Molokai, I appreciate that the current House leadership has seen fit to provide more funding over the last few years to DHHL than has been provided in the past. But I felt it was important to provide some history about funding to DHHL for administrative and operating expenses.

"From its beginning through fiscal year 1989, with few exceptions, DHHL received no general or external funding for its administrative and operating expenses. In fiscal year 1991 to 1992, the State appropriated over \$4 million in general funds to DHHL for administrative and operating costs.

"Between fiscal years 1997 and 2009, the State appropriated less than \$1.6 million per year in general funds to DHHL for its administrative and operating budget. And in fiscal year 2010 to 2013, the Legislature appropriated no general funds for DHHL's administrative and operating budget.

"After the supreme court decision in the Nelson case, the Legislature increased its general fund appropriations from zero to \$9.6 million for DHHL's administrative and operating budget expenses. Given this history of funding, I ask my colleagues to take this historic step in complying with the constitutional mandate and providing sufficient funds to DHHL for administration and operating costs.

"I do know that as of today, the director and the Governor and leadership has taken an important role in ironing out some of the measures. And hopefully when all is said and done, that this body and this committee would find to see that that funding would maybe be in excess of \$28 million. Thank you, Mr. Speaker."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I rise with weak support, strong reservations. Mr. Speaker, I often call this the marketplace of ideas, but this product here is a half a loaf. It's a half a loaf of bread, Mr. Speaker. It doesn't actually get where it should be going.

"Number one, it's a reimbursement. It doesn't even say that we owe \$28 million, which it should. And the preamble is missing in terms of what the Nelson case that my colleague just referred to. That stipulates sufficient funding as shall, not a 'may', but a 'shall' fund \$28 million to the Department of Hawaiian Home Lands.

"Mr. Speaker, this continues the short-circuiting, the half a loaf of bread that we've given to DHHL, and I don't need to cite their statistic but I'm going to do it for the sake of getting my colleagues to realize how serious this situation is.

"For 96 years, they've put 9,378 people onto the home lands. That's how many leases exist. Twenty-seven thousand Hawaiians are waiting right now as we speak, Mr. Speaker, on the waitlist. Why are we dithering with a bill like this when the courts have already said, after it's gone through for almost nine years of adjudication, that we are going to equivocate? And I must say, if equivocation is the word, the Chair of Finance has said, look, we'll do this reimbursement and then we'll look at the budget and then we'll see how much, she didn't say this but implied, how much is left over, and then we'll settle the Nelson case.

"Mr. Speaker, I know you went to one of the Nelson hearings, or not an actual hearing, but it was when you attempted with the Governor to have a reconsideration of the Castagnetti decision. I know you went to get an amicus, you got the amicus, but I should remind Members that the reconsideration, or turning the Castagnetti decision upside down, was not granted.

"And if anything was granted, and I know people have kind of bragged that, oh, we won and we're in a good position, we don't have to pay \$28 million, the findings of fact in that case that still exist, that is alive and well that we are under obligation to fulfill, is \$28 million. What was vacated was the term in the first part of the finding that said, the Legislature is stipulated, or whatever the word was, to fund \$28 million.

"Mr. Speaker, that's the equivalent of taking the number six out and writing in the word 'half-a-dozen'. She euphemized it, put it in different terms. So Mr. Speaker, we are obliged to do this \$28 million.

"Yesterday I was accused in the Finance Committee of being confused about this bill and the state budget. Well, both of them have zeroes. This one has a zero in it, the state budget has a zero in it, and we're supposed to say that the constitutional mandate to fund DHHL is satisfied? Mr. Speaker, we are not that naive. You can't have it both ways. Either it's in this bill, \$28 million, or it's in the state executive budget. And right now, it's in neither.

"For those reasons, Mr. Speaker, I don't see how in good conscience we can stand here and not vote this up, but also vote it up in the state budget so we know that we're not playing games with the Hawaiians again. For those reasons, Mr. Speaker, I hope everyone votes their conscience. For 96 years this body has not done its obligation. I think that's enough, Mr. Speaker. Thank you."

Representative Keohokalole rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'd like to adopt the words of the previous speaker and ask that they be entered into the record as if they were my own. I'd also like to personally thank the previous speaker for his unending and undying support of Native Hawaiians and the Native Hawaiian community, on behalf of my constituents and a hundred generations of Hawaiians who've lived on this island before me. Thank you," and the Chair "so ordered." (By reference only.)

Representative Tupola rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. I would like to adopt the words of the speaker from Hawaii Kai as if they were my own, with additional comment," and the Chair "so ordered." (By reference only.)

Representative Tupola continued, stating:

"Of the four things that the Legislature is mandated to do, the judge's ruling only fixed one of them. There are still three that we're insufficient on doing for the Department of Hawaiian Home Lands. And because of the deficiency of funds that the Department of Hawaiian Home Lands has gotten, they've had to use their operating funds to do infrastructure, to pay for other costs that weren't operating costs.

"So, if this money is actually funded back to the operating cost, it is in fact true that they'll be able to put the right amount of money towards infrastructure. Right now, it costs \$200,000 to do infrastructure per lot on Hawaiian home lands. Two hundred thousand for one home. Just for the infrastructure. Not for the house, not for the loan, not for anything else, just to build, because they take care of the roads, the sewer, the water. So for a 100 lot, for a 1,000 lot, you can already imagine we're already in the millions, just to build the infrastructure.

"It is so important that we get the funding back for operational costs so that the actual money that needs to go to infrastructure can go there. On top of that, it is absolutely true that we've never ever funded Department of Hawaiian Home Lands to the extent that we should. The most that they've ever gotten is \$9 million, and I think for the deficiency from the year that it was supposed to be from 'may' to 'shall' all the way up to now, it's the very least we can do to help the Department of Hawaiian Home Lands.

"And I feel like this whole time, especially people in my community have always kind of cast this shadow over them, thinking that they're so corrupt, they're not helping us, there's all these people on the list, but the reasons why is because that didn't have sufficient funding. They didn't have the means whereby from the very beginning to operate the way they should to help Hawaiians get into their homes, and that's the same issue that we talk about on this floor with homelessness. I can tell you because I know homeless people in my district, and 90% of them are Hawaiian. And so I know that a lot of these are not from the mainland or from Kakaako. It's our own people that need help.

"And so for those reasons, I vote in support. With the same sentiment as my colleague from Hawaii Kai, saying that this is absolutely overdue. Thank you, Mr. Speaker."

Representative Ing rose to speak in support of the measure, stating:

"Mr. Speaker, in support. Just for the record, this budget is blanked out because we're in negotiations right now to talk with the department to understand exactly what these funds are going to be used for. For me, and I think homesteaders across the State, we don't want to see trust funds tapped into, we don't want to rely on general leases or revocable permits.

"So we need to put the money in. But at the same time we need to be, just like any other department, very fiscally responsible in the way we allocate taxpayers' funds. So we want to make sure that this money is putting Hawaiians in homes, one.

"Secondly, there's been a lot of talk about us not doing our duty in the last nine years, or 20 years, or however so much. And I want to thank the department this year because previous directors, they didn't even ask for money. So in terms of what's sufficient, if they're asking for zero, if they're saying that's sufficient, then how is the Legislature supposed to put any more?

"With that being said, when previous administrations have zeroed out the budget, many Members in this House who are standing up now did not speak against that. They did not stand up for Hawaiians and give these rousing speeches that they are today. I feel like this is our chance to prove that, or to squash the misconception out there that the Legislature does not support Hawaiian homes.

"But at the same time, it's a chance for us to ensure that this money is being spent responsibly and efficiently, and in a way that it's actually going to get Hawaiians back on their lands. And for that reason, I don't have reservations about the zero amount. I think there's a lot of work that still needs to be done in order for us to come up with a concrete plan of how to move forward.

"I want to commend the Director of the Department of Hawaiian Home Lands for expressing, telling me in my office and in the committee room that if we were to put this much money in, they won't need to tap into trust funds anymore, and as a matter of fact, they will not. Thank you."

Representative Pouha rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I wasn't going to speak on this bill, but I would like to just share a few comments. As one of those 27,000 families on the list, I am grateful that this body is having this discussion at this time. I am not going to declare a conflict, because I don't think it applies, but be it what it may.

"I would like to first adopt the words of the Representative from Molokai as if they were my own. And also the Representative from Kihei as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Pouha continued, stating:

"Some of the issues that haven't been raised, and this is from my discussions with the leadership from the Department of Hawaiian Home Lands, is that some people on the list want specific parcels of land. Unfortunately, those specific parcels of land are not yet ready. And that's why we've talked about some of the infrastructure needs. But some of these people on the list want parcels that are already fully developed, but unfortunately no inventory is currently available.

"So again, I am grateful that we have this bill, and I am in support of this bill so that we can continue to have this discussion.

"Now, we're not trying to blame previous legislatures, but the fact of the matter is that we have an opportunity moving forward to fund this. And to do it in an agreeable manner, as we do with any other appropriation that we make. So it's my hope that as we move forward, we can continue looking forward. Instead of looking at the problems, we can look at the opportunities and solutions before us. So for those reasons, Mr. Speaker, I am grateful for this and I am in support."

Representative Oshiro rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. First of all, may I have permission to submit written comments? I would also like to adopt the words of the Representative from Molokai, as well as Hawaii Kai as my very own," and the Chair "so ordered." (By reference only.)

Representative Oshiro continued, stating:

"But let me at first, to you, Mr. Speaker, let me thank you. I think you've always asked us to seek the role of being a statesman, of pulling our community together. Whether it deals with HC&S, or dealing with issues of other crises on Kauai, on Hawaii Island, you've always stressed that we should look beyond our own borders, our own communities, and look at what's the best interest of the State.

"And I really want to thank you for reconsidering the earlier positions of the House leadership to challenge Judge Castagnetti's decision. I know that initially there were concerns about maybe overreaching into the legislative role of appropriation and the purse strings. But I believe that Mark Bennett did an exceptional job in his amicus brief and brought to baring on her ruling the suggestion that although the court will ultimately have its authority to pronounce enforcement of its orders, especially those based upon a constitutional provision, that at the present time it may be premature to enjoin this body or the State to properly make compensation per her findings of fact and conclusions of law in her order.

"So I want to thank you for being bold enough to recognize the current ruling of the court and where we are today. I want to thank the House leadership for acknowledging the fact that while we're still in session and have two months away, we have the opportunity, and may I say the historic opportunity, to do what no previous legislators have done since statehood, the 1970 Constitutional Convention, the ratification of the constitutional provision to mandate the appropriation of sufficient funds for and to the Department of Hawaiian Home Lands.

"It tells me a lot about the character of you, Mr. Speaker, of this House leadership, acknowledging the instance of pronouncing justice for the Hawaiians and for all of Hawaii's people. So sincerely, I'm so happy to see this bill before us. I think it's a great day that we all acknowledge as a body the importance of moving this bill forward. And I have full faith and confidence in you, Mr. Speaker, and your leadership team, to bring this to a happy and just conclusion in this session. Thank you."

Representative Oshiro's written remarks are as follows:

"Mr. Speaker, at the outset, I would like to thank you for your indulgence to submit written comments regarding House Standing Committee Report No. 1013-16, House Bill No. 1932, House Draft 2. This bill is one of extraordinary importance; therefore, it is important to clarify and update this House, its Members, and the public as to the most recent ruling set forth by Judge Jeannette Castagnetti in *Nelson et. al. v. Hawaiian Homes Commission, et. al.*, Civil No. 07-1-1663-083, as it relates to House Bill 1932, House Draft 2. Indeed, contrary to recent comments made by my colleagues, and as further discussed below, this body is not absolved of its constitutional duty to fund DHHL's administrative and operating budget in the amount of \$28 million.

"As a starting point, and as reflected in House Standing Committee Report No. 1013-16, House Bill No. 1932, House Draft 2, the House Committee on Finance deleted the preamble of this Bill, which provided in pertinent part:

The legislature further finds that on November 27, 2015, the circuit court of the first circuit of the State of Hawaii issued its Findings of Fact, Conclusions of Law, and Order in Nelson v. Hawaiian Homes Comm'n, Civil No. 07-1-1663-083. The circuit court found that since 1978, the legislature has not appropriated enough general funds to pay for the department of Hawaiian home lands' administrative and operating expenses. The circuit court noted that the legislature appropriated \$9,632,000 in general funds to the department of Hawaiian home lands for administrative and operating expenses for fiscal year 2015–2016, which was less than the department's request for \$28,478,966 in general funds. The court determined that the department of Hawaiian home lands "suffers from a lack of funding..., which adversely affects beneficiaries of the Hawaiian Home Lands Trust," and declared that the legislature is constitutionally obligated to appropriate "more than \$28 million for fiscal year 2015–16" in general funds for the department of Hawaiian home lands' administrative and operating budget.

The purpose of this Act is to ensure the legislature fulfills its responsibility under article XII, section 1, of the state constitution by appropriating sufficient general funds for the administration and operating expenses of the department of Hawaiian home lands for fiscal year 2016–2017.

The legislature intends that the appropriation in this Act be made in addition to the appropriations made to the department of Hawaiian home lands in Act 119, Session Laws of Hawaii 2015.

"In light of the conspicuous absence of the substantial legal underpinnings of *Nelson v. Hawaiian Homes Comm'n* in House Bill 1932, House Draft 2, it is essential to reflect, in this record, the fully developed findings and rulings of the Court as of this date. An exhaustive legal history of the *Nelson* case was previously set forth in my written comments on House Standing Committee Report No. 600-16 on House Bill No. 1932, House Draft 1, and is incorporated herein by this reference. More important for the purposes here, and since Second Reading, a

hearing was held on February 26, 2016, in the First Circuit Court, on both the State Defendants filed a MOTION FOR RECONSIDERATION OF, OR TO ALTER OR AMEND, THE JUDGMENT AND ORDER AND the Legislature's AMICUS CURIAE BRIEF IN SUPPORT OF STATE DEFENDANTS' MOTION FOR RECONSIDERATION OF, OR ALTER OR AMEND THE JUDGMENT AND ORDER OF THE CIRCUIT COURT. Attorney Mark Bennett presented oral argument on behalf of the Legislature advancing that the Court's November 27, 2015 Findings of Fact, Conclusions of Law, and Order, was improper under the doctrine of Separation of Powers because it amounted to an order for the Legislature to appropriate funds.

"Recognizing the importance and time-sensitive nature of the issues before the Court, Judge Castagnetti issued an oral ruling on February 28, 2016. [See, attached hereto is the Transcript of Proceedings – Court's Ruling Only on State's Motion for Reconsideration, State's Motion for Reduction of Clerk's Taxation of Costs (As published in Civil Beat, March 2, 2016)].

"In addressing the motion for reconsideration on the grounds on separation of powers, the Court stated:

...[A]s the separation of powers doctrine pertains to the judicial branch's authority in reviewing the actions taken by the State, the Hawai'i Supreme Court has said, "As a general rule, the role of the court in supervising the activity of the Legislature is confined to seeing the actions of the Legislature do not violate any constitutional provision. The courts will not interfere with the conduct of legislative affairs in absence of a constitutional mandate to do so or unless the procedure or the result constitute a deprivation of constitutionally guaranteed rights." [citing, Schwad vs. Ariyoshi, 58 Hawaii 25, 37-38 (1977)].

The constitutional provision at issue in this case is the State's requirement to fund, to make sufficient sums available to the DHHL for its administrative and operating budget. This is not a typical case of the court reviewing a law or a statute for constitutionality. It involves an affirmative duty on the part of the State to sufficiently fund DHHL.

"The Court further iterated that:

...[T]he record of the trial shows, as I see it, is along the lines of what the Supreme Court has already said, the Department is and remains underfunded as to its administrative and operating budget. . .

So following Nelson 1 and Nelson 2 and after having a trial on the merits of this case, the Court did determine that the amounts appropriated by the State, even at current levels in this fiscal year, are insufficient. The amount does not even cover the DHHL's actual annual administrative and operating costs, which the Court found were \$18 million.

...[T]here was little or no evidence presented at trial explaining the factual and policy determinations that were made for the 9,632,000 appropriation and why that amount -- how that amount was determined to be sufficient. . .

The Court's findings of fact and conclusions of law rejected those arguments and they do not comply with the . . . State's constitutional duty to fund DHHL. [See, Transcript, p. 16].

"Accordingly, the Court orally held, and thereafter formally entered, pursuant to the March 8, 2016 ORDER DENYING IN PART AND GRANTING IN PART THE STATES DEFENDANTS' MOTION FOR RECONSIDERATION OF, OR TO ALTER OR AMEND, THE JUDGMENT AND ORDER FILED DECEMBER 21, 2015, as follows:

(1) The Motion is DENIED insofar as the State Defendants seek reconsideration of the Court's determination that the sufficient sums for DHHL's administrative and operating budget is \$28 million or more than \$28 million for fiscal year 2015-2016 arguing that the

determination is based on insufficient evidence. The State Defendants raised the same arguments during trial or could have raised these arguments during trial. There is also substantial evidence in the trial record to support the Court's factual findings that sufficient funds for DHHL's administrative and operating budget for fiscal year 2015-2016 is \$28 million or more than \$28 million. The evidence at trial amply demonstrated that the amount DHHL requires for its administrative and operating budget for fiscal year 2015-2016 is more than \$28 million, specifically \$28,478,966.00, and that the amount appropriated by the Hawai'i State Legislature, \$9,632,00.00, was not sufficient.

"The Court further ordered, that:

(3) *The Motion is GRANTED only insofar as this Court has determined that modification of Paragraphs 3 and 5 of this Court's Order in its Findings of Fact, Conclusions of Law, and Order, filed November 27, 2015 ("Order") is appropriate such that the Court's Order is not construed in any form as an order for the Legislature to appropriate funds. To be clear, the Court is not ordering an appropriation. The Court is, however, ordering that the State of Hawai'i must comply with its constitutional duty to make sufficient sums available to DHHL for its administrative and operating budget. There is still time for the State of Hawai'i to become in compliance during this fiscal year. Paragraph 3 of the Order shall be modified to declare and order the following:*

Although what is sufficient will change over the years, the amount of general funds appropriated to DHHL for its administrative and operating budget for fiscal year 2015-2016 (\$9,632,000) is not sufficient. The State of Hawai'i is required to comply with the Hawai'i Constitution and must fund DHHL's administrative and operating expenses by making sufficient general funds available to DHHL for its administrative and operating budget for fiscal year 2015-2016.

Paragraph 5 of the Order shall be modified to declare and order the following:

The Defendants must fulfill their constitutional duty and trust responsibilities.

Paragraphs 1, 2, and 4 of the Order shall remain the same.

[See, attached ORDER DENYING IN PART AND GRANTING IN PART THE STATE DEFENDANTS' MOTION FOR RECONSIDERATION OF, OR TO ALTER OR AMEND, THE JUDGMENT AND ORDER, FILED DECEMBER 21, 2015, p. 2-3; See also, Transcript at 19, 20; See also, the FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER filed November 27, 2015].

"In other words, the ruling of the Court has remained unchanged in holding that:

- (1) The State of Hawaii has failed to provide sufficient funds to the Department of Hawaiian Home Lands for its administrative and operating budget in violation of the State's constitutional duty to do so under Article XII, Section 1 of the Hawaii Constitution.
- (2) The State of Hawaii must fulfill its constitutional duty by appropriating sufficient general funds to the Department of Hawaiian Home Lands for its administrative and operating budget so that the Department does not need to use or rely on revenue directly or indirectly from general leases to pay for these expenses.

"Therefore, it is clear through both the Court's oral ruling of February 28, 2016, and Order entered on March 8, 2016, that the modifications made were to clarify that the Court was not ordering the Legislature to appropriate; however, this was not meant to relieve the State of its obligation to provide sufficient sums to DHHL for its operating and administrative operating budget for fiscal year 2014-2015. Sufficient sums

was determined by the Court to be at least \$28 million. Insofar as the Court's March 8, 2016, ORDER DENYING IN PART AND GRANTING IN PART THE STATE DEFENDANTS' MOTION FOR RECONSIDERATION OF, OR TO ALTER OR AMEND, THE JUDGMENT AND ORDER, FILED, DECEMBER 21, 2015, (hereafter "Order") has been misconstrued or misinterpreted to read that the Legislature has the discretion to fund DHHL less than what the Court found was the amount DHHL requires for its administrative and operating budget for fiscal year 2015-2016 in the amount of \$28,478,966.00; this is incorrect and not supported by the record in this case.

"There has been no amendment, alteration, or modification whatsoever to Judge Castagnetti's Findings of Fact issued in the Court's FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER of November 27, 2015. [See, FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER.] These findings remain unchanged and uncontroverted. Therefore, as we look to Paragraph 44, much guidance is provided. Unequivocally, the Court found that 'DHHL needs more than \$28 million annually for its administrative and operating budget for fiscal year 2015-16, not including repairs.' [See, FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER, p. 14, 44]. The evidence presented by DHHL was made with care, expertise, and sound judgment; and no evidence was provided to the contrary. [Id. at 14, 41].

"Finally, it is clear that the Court intended her Order to be injunctive in nature and stated as such. In the oral ruling, the Court explained that:

...[T]he Court does not agree that the only available judicial remedy is declaratory when the duty of the State at issue is a constitutional requirement or affirmative duty to provide sufficient or adequate funding to a State agency, and in particular a State agency that is tasked with fiduciary duties and responsibilities to trust beneficiaries. The Hawaii Supreme Court's decision in Nelson I believe supports this conclusion, as does this special, unique and extraordinary history and factual circumstances in this case. [See, Transcript, at 7].

"In fact, the Court concluded that:

...[D]eclaratory relief alone is not a sufficient remedy to the years of underfunding of the Department of Hawaiian Homelands that it has suffered and that a form of injunctive relief is appropriate and necessary for the State to comply with its constitutional mandate under Article XII, Section 1. [See, Transcript, 18.]

"As stated in the Court's Order, there is still time for the State of Hawaii to become in compliance during this fiscal year. In the words of Judge Castagnetti, and reflecting her profound respect for the separation of powers, she acknowledged that *'this Court takes seriously a claim of a constitutional foul or the Court overstepping its bounds by any co-equal branch of government, just as [the Court] would hope that any other co-equal branch of government would take seriously courts stating that the State has not lived up to its constitutional duties.'* [See, Transcript, p. 11].

"I suggest that the Legislature heed this sentiment, and in line with the Court's Order, appropriate the \$28 million necessary for the operating and administrative budget of DHHL. It is understood that there are ongoing discussions between the Department of Hawaiian Home Lands, the Attorney General, the Governor, and the Senate and House Leadership. Accordingly, the Legislature should facilitate these ongoing discussions and encourage the proper resolution in line with our Constitutional mandate pursuant to Article XII, Sec. 1 and in compliance with the First Circuit ORDER DENYING IN PART AND GRANTING IN PART THE STATE DEFENDANTS' MOTION FOR RECONSIDERATION OF, OR TO ALTER OR AMEND, THE JUDGMENT AND ORDER, FILED, DECEMBER 21, 2015, as outlined above.

"In close, let me again thank you Mr. Speaker for taking another look at this *Nelson* case and heeding the advice of the recent ruling to seek and promote an appropriation consistent with both the letter and spirit of Judge Castagnetti's well-grounded and substantial decision and order."

THE COURT: Good afternoon. Okay. Have a
seat, everyone.

The purpose of today's hearing is just for the
Court to issue an oral ruling on the State Defendant's
motion for reconsideration as well as the Court's ruling on

PERMISSION TO COPY DENIED, HRS 606.13, etc.

3

the State Defendant's motion for reduction of the clerk's
taxation of costs.

First let's take up the motion for

reconsideration. Now, before the Court is the motion for
reconsideration or to alter, amend the findings of fact,
conclusions of law and order issued by the Court on
November 27, 2015, following a bench trial on the merits of
this case.

The specific relief that the State seeks is to
strike paragraphs, 1, 3 and 5 of the Court's order and to
replace the paragraphs with a declaratory ruling that, one,
that the Legislature has the exclusive prerogative to
decide what amount of administrative and operating funding
for DHHL is sufficient, and, two, judicial courts cannot
order the Legislature to appropriate monies to DHHL. The
State also requests that certain findings of fact,
conclusions of law and the final judgment be altered or
amended accordingly. And the bases for the request are
two-fold, one, insufficient evidence, and, two, separation
of powers.

Now, the Court has reviewed the submissions of
the parties as well as the amicus filing by the Hawai'i
State Legislature, the responses to the amicus filing as
well as the arguments that were presented at the hearing on
Friday.

PERMISSION TO COPY DENIED, HRS 606.13, etc.

4

And, first, this area is well settled, but let
me just say it nonetheless. The standard of review on a
motion for reconsideration is that a motion reconsideration
is not a time to relitigate old matters or to raise
arguments or evidence that could have been, should have
been brought during the earlier proceeding. Rather, the
purpose of the motion for reconsideration is to allow the
parties to present new evidence and/or arguments that could
not have been presented earlier.

And insofar that the State seeks
reconsideration of the Court's determination that the
sufficient sums for DHHL's administrative and operating
budget is 28 million or more than 28 million for fiscal
year 2015 to 2016, based on the insufficient evidence, the
motion is denied.

The State essentially raised these arguments
during trial or could have raised these arguments during
trial. And notwithstanding this, there is substantial
evidence in the trial record to support the Court's factual
findings that sufficient funds for DHHL's administrative
and operating budget for fiscal year 2015 to 2016 is 28
million or more than 28 million. The evidence at trial
amply demonstrated that the amount DHHL requires for its
administrative and operating budget for this fiscal year is
more than 28 million, specifically \$28,478,966.00, and that

PERMISSION TO COPY DENIED, HRS 606.13, etc.

5

1 the amount appropriated by the Legislature, \$9,632,000.00
2 was not sufficient.

3 The Hawaiian Home Commission's chair
4 testified, as did DHHL's administrative services officer,
5 who as I recall from the trial has worked for DHHL for 20
6 to 30 years, I believe, and exhibits were received in
7 evidence, many of which were not objected to, that
8 establish and explain the breakdown for the amount
9 determined by the Court. The witnesses testified and
10 explained that DHHL's administrative and operating budget
11 was based on actual annual administrative and operating
12 expenses of the Department, which excluded costs or
13 expenses associated with Hawaiian Homestead lot development
14 loans and expenditures from the Native Hawaiian
15 Rehabilitation Fund.

16 There was evidence concerning the operational
17 shortfalls that the Department had been experiencing for
18 years, including staffing shortages because of a lack of
19 consistent funding from the State, which made it difficult
20 for DHHL to fill positions because in each budget cycle
21 DHHL did not know what level of funding would be provided
22 from the State.

23 The witnesses also testified as to the needs
24 of the Department going forward and there was evidence and
25 testimony that the amount was necessary so that DHHL could

PERMISSION TO COPY DENIED, HRS 606.13, etc.

6

1 serve its beneficiaries, including the 27,000 qualified
2 beneficiaries that are still on DHHL's waiting list. The
3 witnesses' testimony in this regard was credible, reliable,
4 based on sound judgment, and persuasive.

5 The State was afforded opportunity to
6 cross-examine the witnesses, object to testimony and/or
7 exhibits at trial, and to present its own witnesses if it
8 wished to do so, which it did. The Court did not shift the
9 burden of proof to the State by pointing out that there was
10 no evidence that DHHL was wasting funds or by noting that
11 the Court did not rely on or find unpersuasive the audit
12 reports that the State submitted and the Court received
13 into evidence.

14 Given that at trial the State witnesses who
15 testified about the audit reports did not know and could
16 not explain the findings in the audit reports or how the
17 figures were derived at by the auditors, a trier of fact is
18 well within the bounds of its discretion to consider the
19 reports or determine the reports to be unhelpful and not
20 afford it any weight.

21 For all of these reasons, there is substantial
22 evidence in the trial record to support the Court's factual
23 finding of \$28 million or more than \$28 million is
24 sufficient for DHHL's administrative and operating budget
25 for fiscal year 2015 to -16, and the Court's finding was

PERMISSION TO COPY DENIED, HRS 606.13, etc.

7

1 not clearly erroneous. Therefore, the motion for
2 reconsideration is denied on that ground.

3 As to the next ground, the separation of
4 powers issue, it has been presented and argued to the Court
5 that paragraphs 3 and 5 of the Court's order violate the
6 separation of powers doctrine because it amounts to an
7 order for the Legislature to appropriate funds and also
8 that the Court's authority in this case is limited to
9 declaratory relief only.

10 Respectfully, the Court does not agree that
11 the only available judicial remedy is declaratory when the
12 duty of the State at issue is a constitutional requirement
13 or an affirmative duty to provide sufficient or adequate
14 funding to a State agency and, in particular, a State
15 agency that is tasked with fiduciary duties and
16 responsibilities to trust beneficiaries. The Hawai'i
17 Supreme Court's decision in *Nelson I* believe supports this
18 conclusion, as does the special, unique and extraordinary
19 history and factual circumstances in this case.

20 Now, I spent the weekend rereading *Nelson I*
21 and 2 probably for the fiftieth time. And I do think it's
22 important for me to set forth again and reiterate what the
23 Hawai'i Supreme Court found in *Nelson I*. And that is that
24 the 1978 Constitutional Convention history provided
25 judicially discoverable and manageable standards to

PERMISSION TO COPY DENIED, HRS 606.13, etc.

8

1 determine what constitutes sufficient sums for DHHL's
2 administrative and operating budget, and that such a
3 determination was justiciable, meaning capable of
4 determination by a court.

5 Now, as to the other enumerated purposes set
6 forth in Article XII, Section 1, the Supreme Court decided
7 that the constitutional history did not shed any light on
8 what would constitute sufficient sums for the other
9 enumerated purposes and, therefore, plaintiff's claims for
10 declaratory injunctive relief as to those three other
11 purposes were nonjusticiable political questions.

12 The Court then said, quote, "The State has
13 failed by any reasonable measure under the undisputed facts
14 to provide sufficient sums to DHHL. The State's track
15 record in supporting DHHL's success is poor, as evidenced
16 by the tens of thousands of qualified applicants on the
17 waiting list and the decades-long wait for homestead lots.
18 With the benefit of 35 to 90 years of hindsight, it is
19 clear that DHHL is underfunded and has not been able to
20 fulfill all of its constitutional purposes."

21 The Court also stated: "However, were we to
22 remand this case to the Circuit Court to grant declaratory
23 relief to plaintiffs as to all of the constitutional
24 purposes encompassed in Count 1, the Circuit Court still
25 would not be able to mandate the affirmative injunctive

PERMISSION TO COPY DENIED, HRS 606.13, etc.

9

1 relief that the plaintiffs seek without encountering the
2 same uncertainty with regard to what constitutes sufficient
3 sums as to the remaining three purposes under Article XII,
4 Section 1.

5 "The plaintiffs prayed for an injunction
6 requiring the State to place as many beneficiaries on the
7 Department's waiting list for residence, farms and ranches
8 on available Hawaiian Homelands within a reasonable period
9 of time. Article XII, Section 1 and its Constitutional
10 Convention history shed no light on what those sufficient
11 sums might be."

12 The Court then concluded that the
13 determination of what constitutes sufficient sums for
14 administrative and operating expenses under Article XII,
15 Section 1, is justiciable, not barred as political
16 question, and concluded that the political question -- and
17 concluded that the political question doctrine barred
18 judicial determination of what constitutes sufficient sums
19 for the other three purposes.

20 Based on the Supreme Court's determination
21 that affirmative injunctive relief was not available to
22 plaintiffs on the three enumerated purposes set forth in
23 Article XII, Section 1 because what constitutes sufficient
24 sums as to those purposes were non-justiciable political
25 questions, then the opposite must also be true, that

PERMISSION TO COPY DENIED, HRS 606.13, etc.

10

1 affirmative injunctive relief is available to plaintiffs on
2 the enumerated purpose that the Hawai'i Supreme Court did
3 determine what was justiciable the determination of what
4 constitutes sufficient sums for DHHL's administrative and
5 operating budget.

6 I will also note in *Nelson 2* the Supreme Court
7 did state that the State must fund DHHL's administrative
8 and operating expenses. That's at *Nelson 2*, 130 Hawai'i
9 162, 167.

10 Now, at the hearing on Friday, I believe Miss
11 Aina pointed out that the power of the courts in reviewing
12 the constitutionality of laws is limited to declaring a law
13 unconstitutional but that the courts cannot order the
14 Legislature to make new laws. And the Court agrees 100
15 percent. And while not often, and perhaps maybe more than
16 the Legislature may like, courts can and have declared laws
17 unconstitutional, which has the effect of rendering a law
18 void. The Legislature can change the law, make new law, or
19 do nothing and the law is void.

20 Here, in this case, the issue is different.
21 The Hawai'i Constitution mandates or requires the State,
22 the Legislature, to act to make sufficient sums available
23 to DHHL for its administrative and operating budget by
24 appropriating same in the manner provided by law. There's
25 no discretion, DHHL's administrative and operating budget

PERMISSION TO COPY DENIED, HRS 606.13, etc.

11

1 must be funded -- must be funded.

2 And when the courts determine that the State
3 has not met its constitutional duty to act and has not
4 complied with the Constitution because the amount
5 appropriated, as determined through the budgetary
6 processes, is insufficient and does not pass constitutional
7 muster, the remedy can and should be compliance with the
8 requirement to make sufficient sums available for DHHL's
9 administrative and operating budget. Otherwise, there is no
10 effective remedy for the State's violation of its
11 constitutional duty to fund.

12 Now, as I said previously and will say again,
13 this Court, let alone any court, takes seriously a claim of
14 a constitutional foul or the Court overstepping its bounds
15 by any co-equal branch of government, just as I would hope
16 that any other co-equal branch of government would take
17 seriously courts stating that the State has not lived up to
18 its constitutional duties.

19 Now, the Hawai'i Supreme Court has said on the
20 separation of powers doctrine that the use of, quote,
21 "judicial power to resolve public disputes in a system of
22 government where there is a separation of powers should be
23 limited to those questions capable of judicial resolution
24 and presented in an adversary context." That's *Trustees of*
25 *the Office of Hawaiian Affairs versus Yamasaki*, 69 Hawai'i

PERMISSION TO COPY DENIED, HRS 606.13, etc.

12

1 154, 170 to 172 (1987).

2 And the Hawai'i Supreme Court in *Nelson 1* said
3 that the determination of what constitutes sufficient sums
4 for DHHL's administrative and operating budget is a
5 question capable of judicial resolution and the adversary
6 context within which the question was decided was the
7 trial.

8 Now, in *Yamasaki* the Court also said that,
9 quote, "Even in the absence of constitutional restrictions,
10 courts must still carefully weigh the wisdom, efficacy and
11 timeliness of an exercise of their power before acting,
12 especially where there may be an intrusion into areas
13 committed to other branches of government."

14 But the Hawai'i Supreme Court has also said
15 that some flexibility must be infused within the framework
16 of the separation of powers doctrine and that it is not a
17 correct statement of the principle of the separation of
18 powers to say that it prohibits absolutely the performance
19 of one department of acts which, by their essential nature,
20 belong to another.

21 Rather, the correct statement is that a
22 department may constitutionally exercise any power,
23 whatever its essential nature, which have, by the
24 Constitution, been delegated to it. But that it may not
25 exercise powers not so constitutionally granted which form

PERMISSION TO COPY DENIED, HRS 606.13, etc.

13

1 their essential nature to -- which from their essential
2 nature do not fall within its division of governmental
3 functions unless such powers are properly essential to the
4 performance by it of its own appropriate functions. That's
5 *Biscoe, B-i-s-c-o-e, versus Tanaka*, 76 Hawai'i 380, 383
6 (1994).

7 And as the separation of powers doctrine
8 pertains to the judicial branch's authority in reviewing
9 the actions taken by the State, the Hawai'i Supreme Court
10 has said; "As a general rule, the role of the court in
11 supervising the activity of the Legislature is confined to
12 seeing the actions of the Legislature do not violate any
13 constitutional provision. The courts will not interfere
14 with the conduct of legislative affairs in absence of a
15 constitutional mandate to do so or unless the procedure or
16 the result constitute a deprivation of constitutionally
17 guaranteed rights." That's *Schwad, S-c-h-w-a-d, versus*
18 *Ariyoshi*, 58 Hawai'i 25, 37-38 (1977).

19 The constitutional provision at issue in this
20 case is the State's requirement to fund, to make sufficient
21 sums available to the DHHL for its administrative and
22 operating budget. This is not a typical case of the court
23 reviewing a law or a statute for constitutionality. It
24 involves an affirmative duty on the part of the State to
25 sufficiently fund DHHL.

PERMISSION TO COPY DENIED, HRS 606.13, etc.

14

1 And there's a long history of Supreme Court
2 decisions and history in this case also describing what is
3 in issue here, including longstanding problems that have --
4 longstanding funding problems that have plagued the
5 Department of Hawaiian Homelands. And in *Kalima versus*
6 *State*, 111 Hawai'i 84 (2006), the Hawai'i Supreme Court
7 discussed the I'll describe them as the laudable goals of
8 the Hawaiian Homes Commission Act and gave a history of how
9 the Act came into being.

10 But what is important for this Court's
11 analysis in the *Kalima* case is when the Hawai'i Supreme
12 Court said, "Despite the Hawaiian Homes Commission Act's
13 admirable goals, controversy plagued the trust from its
14 inception in 1921 and continued after its transfer to the
15 State in 1959."

16 The problems were of such magnitude that, in
17 1983, a Federal-State Task Force on the Hawaiian Homes
18 Commission Act was convened. The task force submitted a
19 report to the State that identified several areas of
20 concern and made recommendations for improvement. The
21 areas included the lack of proper funding sources and
22 administrative problems affecting individual beneficiaries
23 such as delays related to application and eligibility
24 determination processes and delays resulting from
25 mismanagement of the long -- of the long waiting list.

PERMISSION TO COPY DENIED, HRS 606.13, etc.

15

1 So even in 1983, the State, through this
2 federal task force or Federal-State Task Force was aware
3 that the lack of proper funding sources was a significant
4 problem. But even before that, at the Constitutional
5 Convention in 1978 the delegates recognized the inadequate
6 funding and acknowledged that DHHL was getting very little
7 financial assistance to perfect its mandate. And I'm
8 referring specifically to Standing Committee Report Number
9 56 in proceedings of the Constitutional Convention at 630.

10 And not only did the delegates recognize the
11 funding problems of the Department, but in 1979 the voters
12 of the state recognized the problems and amended the
13 Constitution to require the State to fund DHHL.

14 In 2012 in the *Nelson* decision, and I've
15 already said this but I think it bears repeating again, the
16 Hawai'i Supreme Court said the State has failed by any
17 reasonable measure to provide sufficient funding to DHHL
18 and the State's track record in supporting DHHL's success
19 is poor. And with the benefit of 35 to 90 years of
20 hindsight, it is clear that DHHL is underfunded and has not
21 been able to fulfill all of its constitutional duties.

22 And in *Nelson 2* the Supreme Court said the
23 State now must fund DHHL's administrative and operating
24 expenses. As a result, DHHL will be able to shift funds it
25 was spending on administrative and operating expenses

PERMISSION TO COPY DENIED, HRS 606.13, etc.

16

1 towards fulfilling its trust duties to its beneficiaries.

2 Now, in this case once this case was remanded
3 back to the Circuit Court, this Court denied the summary
4 judgment motions and said, and I still believe this now,
5 that this case is far too important and will only benefit
6 from a fully developed factual record. And I think the
7 lawyers in this case have definitely given the Hawai'i
8 Supreme Court a fully developed factual record.

9 But the record of the trial shows, as I see
10 it, is along the lines of what the Supreme Court has
11 already said, the Department is and remains underfunded as
12 to its administrative and operating budget. The Department
13 still has to rely on its own funds to pay its
14 administrative and operating expenses. The Department
15 needs to shift its fund so it can fulfill its duties to the
16 beneficiaries because it continues to use its own funds for
17 its administrative and operating costs. It is understaffed
18 and cannot properly serve the beneficiaries at the current
19 levels.

20 The evidence at this trial also show that the
21 Department of Hawaiian Homelands is treated like any other
22 department when it comes to the budget process and
23 determination is made as to funding. Even though the State
24 has an affirmative constitutional duty to make sufficient
25 sums available to DHHL, the Department is treated like any

PERMISSION TO COPY DENIED, HRS 606.13, etc.

17

1 other department.

2 And, yes, the Court's decision on this trial
3 is only three months old, but the inadequate funding issue
4 goes back much further. The State has been aware of the
5 problem in funding for 35 to 90 years, going back that far,
6 the Constitutional Convention in 1978, the constitutional
7 amendment in 1979, the 1983 State and Federal Task Force
8 that was noted in *Kalima* and the Hawai'i Supreme Court's
9 strongly worded decisions in 2012 and 2013, which this
10 Court is bound to follow.

11 I think it's also important to note that what
12 the Hawai'i Supreme Court said in *Nelson 2* is that it was
13 necessary for plaintiffs to resort to private enforcement
14 in this case because, quote, "the State made it clear for
15 years that it did not believe it had a duty to sufficiently
16 fund DHHL," end quote. And that the State, quote, "had
17 clearly abandoned or actively opposed plaintiff's request
18 that the State sufficiently fund DHHL." That's 130 Hawai'i
19 at 168 at *Nelson 2*.

20 So following *Nelson 1* and *Nelson 2* and after
21 having a trial on the merits of this case, the Court did
22 determine that the amounts appropriated by the State, even
23 at current levels in this fiscal year, are insufficient.
24 The amount does not even cover the DHHL's actual annual
25 administrative and operating costs, which the Court found

PERMISSION TO COPY DENIED, HRS 606.13, etc.

18

1 were \$18 million.

2 And there was little or no evidence presented
3 at trial explaining the factual and policy determinations
4 that were made for the 9,632,000 appropriation and why that
5 amount -- how that amount was determined to be sufficient
6 other than the arguments that were put forth by the State
7 at trial that it has provided sufficient funds to DHHL
8 because the amount the State is constitutionally obligated
9 to fund is 1.3 million to 1.6 million, adjusted for
10 inflation each year. Or, alternatively, there were other
11 multimillions of dollars available to DHHL from other
12 funding sources.

13 The Court's findings of fact and conclusions
14 of law rejected those arguments and they do not comply with
15 the Court's -- with the State's constitutional duty to fund
16 DHHL.

17 Now, given the history and background and
18 inadequate funding of the Department as I've set forth in
19 this ruling today and the Hawai'i Supreme Court's decisions
20 in *Nelson 1* and *2*, I do conclude that declaratory relief
21 alone is not a sufficient remedy to the years of
22 underfunding of the Department of Hawaiian Homelands that
23 it has suffered and that a form of injunctive relief is
24 appropriate and necessary for the State to comply with its
25 constitutional mandate under Article XII, Section 1.

PERMISSION TO COPY DENIED, HRS 606.13, etc.

19

1 Now, to the extent this Court's order of
2 November 27th, 2015, is being construed as an order to
3 appropriate, the Court does believe that modification of
4 the Court's order would be proper and within the Court's
5 authority and discretion to do so. So I will grant the
6 motion for reconsideration only insofar as I determine that
7 modification is appropriate such that the Court's order is
8 not construed in any form as an order for the Legislature
9 to appropriate funds.

10 So just to be clear, paragraph 1 of the
11 Court's order will remain the same.

12 Paragraph 2 will remain the same.

13 Paragraph 3 will be modified to declare and
14 order the following. Although it is sufficient with change
15 over the years, the amount of general funds appropriated to
16 DHHL for its administrative and operating budget for fiscal
17 year 2015 to -16 (9,632,000) is not sufficient. The State
18 is required to comply with the Hawai'i Constitution and
19 must fund DHHL's administrative and operating expenses by
20 making sufficient general funds available to DHHL for its
21 administrative and operating budget for fiscal year 2015
22 to -16.

23 Paragraph 4 will remain the same.

24 Paragraph 5 will be modified as follows. The
25 Defendants must fulfill their constitutional duty and trust

PERMISSION TO COPY DENIED, HRS 606.13, etc.

20

1 responsibilities.

2 To be clear, the Court is not ordering an
3 appropriation. The Court is, however, ordering that the
4 State must comply with its constitutional duty to make
5 sufficient sums available to the Department of Hawaiian
6 Homelands for its administrative and operating budget.
7 There is still time for the State to become in compliance
8 during this fiscal year.

9 Now, I'm going to ask -- I'll go ahead and
10 prepare a modified order based on what I've said. I'm
11 going to ask, Miss Aina, for you to please prepare an order
12 denying the motion for reconsideration as to the specific
13 relief that the State requested, but to the extent as I
14 determined that the Court's order is being construed as an
15 order to appropriate, the motion will be granted and the
16 Court will modify its order as so stated.

17 Let me just also -- so if you could prepare
18 that, I'll do the modified order.

19 And then, I guess, following that, Mr.
20 Frankel, I'll ask you to please prepare an amended final
21 judgment that's consistent with the Court's ruling.

22 I also just want to say at this point I want
23 to thank all of the counsel who were here throughout the
24 course of the trial, as well as Mr. Bennett's participation
25 today, and the briefing that has been submitted by everyone

PERMISSION TO COPY DENIED, HRS 606.13, etc.

21

1 to this Court. I think the briefing was fantastic. This
2 is truly an extraordinary and important case for everybody
3 who is in this courtroom and I recognize that and
4 appreciate the arguments that have been put forth and made
5 by everyone.

6 But I think given what I've cited throughout
7 my lengthy oral ruling, I think that this is the best way
8 for the Court to make sure it is not overstepping its
9 bounds, but also making sure that we get compliance by the
10 State to fulfill its constitutional duty and mandate.

11 All right. On the motion for taxation of
12 costs, I know the State said it was fine for the Court to
13 rule without a hearing, but since we're here, I'll go ahead
14 and rule on that. I'm going to grant the motion in part
15 and reduce the clerk's taxation as to interisland airfare
16 costs for counsel to -- plaintiff's counsel to fly to the
17 Big Island to meet in person with new clients.

18 While the Court understands and agrees that it
19 is professionally responsible and prudent to meet in person
20 with clients, but whether that cost is recoverable as a
21 taxable cost is another matter and the Court is not aware
22 of any authority that would permit interisland travel costs
23 for counsel to meet in person with clients or prospective
24 clients. So the airline travel cost of \$174.70 is not
25 taxable and the motion is granted in that respect.

PERMISSION TO COPY DENIED, HRS 606.13, etc.

22

1 As to the remaining issues raised by the State
2 in its motion, the motion it will denied. The cost for Mr.
3 Ioane to travel twice from the Big Island to Oahu for trial
4 is a permissible taxable cost and necessary given the trial
5 schedule was fluid and his testimony did not occur as
6 anticipated by counsel.

7 As -- as to the inhouse copy costs, copy costs
8 are expressly allowed under HRS Section 607-9 and there is
9 a presumption that the prevailing party is entitled to
10 costs, and the presumption must be overcome by a showing
11 that the costs are unreasonable or inequitable under the
12 circumstances. And although counsel for plaintiffs does
13 not attest specifically that the copies were made for
14 specific documents or hearings, I don't believe that is not
15 fatal to the -- to the taxable costs.

16 It certainly helps to have counsel provide an
17 explanation, but in reviewing the history of this case and
18 also knowing this case, having reviewed the docket, the
19 copying activity that is set forth in the log in the notice
20 of taxation does correspond to activity in this case, and,
21 in particular, when summary judgment motions were filed and
22 heard and also, in particular, the bulk of the copying
23 costs took place after the Court denied summary judgment,
24 the summary judgment motion, and the case proceeded to
25 trial.

PERMISSION TO COPY DENIED, HRS 606.13, etc.

23

1 So I'm not persuaded that the copy costs were
2 unreasonable or inequitable. And under the circumstances
3 of this case, I believe the copy costs are both reasonable
4 and necessarily incurred.

5 So, Miss Aina, can you please prepare an order
6 denying in part and granting in part your motion?

7 MS. AINA: Yes, Your Honor.

8 THE COURT: Okay. All right. Thank you.

ORDER DENYING IN PART AND GRANTING IN PART THE STATE DEFENDANTS' MOTION FOR RECONSIDERATION OF, OR TO ALTER OR AMEND, THE JUDGMENT AND ORDER, FILED DECEMBER 21, 2015

HEARING:

Date: February 26, 2016

Time: 9:00 a.m.

The Honorable Jeannette H. Castagnetti

ORDER DENYING IN PART AND GRANTING IN PART THE STATE DEFENDANTS' MOTION FOR RECONSIDERATION OF, OR TO ALTER OR AMEND, THE JUDGMENT AND ORDER, FILED DECEMBER 21, 2015

The State Defendants' Motion for Reconsideration of, or to Alter or Amend, the Judgment and Order, filed December 21, 2015 (hereinafter the "Motion") and having come on for hearing on February 26 and 29, 2016, before the Honorable Jeannette H. Castagnetti; and

with Charleen M. Aina, Esq., appearing on behalf of the State Defendants¹; David Kimo Frankel, Esq. and Sharla Ann Manley, Esq., appearing on behalf of the Plaintiffs; Melvyn M. Miyagi, Esq. and Ross T. Shinyama, Esq., appearing on behalf of the DHHL Defendants²; and Mark M. Bennett, Esq. and Mateo Caballero, Esq., appearing on behalf of amicus curiae the Hawai'i State Legislature; and the Court having reviewed the Motion and all submissions and arguments related thereto, including the brief of amicus curiae the Hawai'i State Legislature and the responses thereto by the Plaintiffs and DHHL Defendants, and the entire record and files herein, and being fully advised in the premises; *as set forth in the court's oral ruling on 2/29/16*

IT IS HEREBY ORDERED, ADJUDGED, and DECREED, that the Motion is DENIED IN PART and GRANTED IN PART as follows:

(1) The Motion is DENIED insofar as the State Defendants seek reconsideration of the Court's determination that the sufficient sums for DHHL's administrative and operating budget is \$28 million or more than \$28 million for fiscal year 2015-2016 arguing that the determination is based on insufficient evidence. The State Defendants raised the same arguments during trial or could have raised these arguments during trial. There is also substantial evidence in the trial record to support the Court's factual findings that sufficient funds for DHHL's administrative and operating budget for fiscal year 2015-2016 is \$28 million or more than \$28 million. The evidence at trial amply demonstrated that the amount DHHL requires for its administrative and operating budget for fiscal year 2015-2016 is more than \$28

¹ The State Defendants include the State of Hawai'i and its Director of Finance, in his official capacity as the State Director of Finance.

² The DHHL Defendants include the Hawaiian Homes Commission, the Department of Hawaiian Homelands ("DHHL"), Jobbe Masagatani, in her official capacity as Chair of the Hawaiian Homes Commission, William K. Richardson, Michael P. Kahikina, Doreen Napua Gomes, Gene Ross Davis, Wallace A. Ishibashi, David B. Kaapu, and Wren Wescott, in their official capacities as members of the Hawaiian Homes Commission.

million, specifically \$28,478,966.00, and that the amount appropriated by the Hawai'i State Legislature, \$9,632,000.00, was not sufficient.

(2) The Motion is further DENIED in all other respects except as set forth in paragraph (3) below.

(3) The Motion is GRANTED only insofar as this Court has determined that modification of Paragraphs 3 and 5 of this Court's Order in its Findings of Fact, Conclusions of Law, and Order, filed November 27, 2015 ("Order") is appropriate such that the Court's Order is not construed in any form as an order for the Legislature to appropriate funds. To be clear, the Court is not ordering an appropriation. The Court is, however, ordering that the State of Hawai'i must comply with its constitutional duty to make sufficient sums available to DHHL for its administrative and operating budget. There is still time for the State of Hawai'i to become in compliance during this fiscal year. Paragraph 3 of the Order shall be modified to declare and order the following:

Although what is sufficient will change over the years, the amount of general funds appropriated to DHHL for its administrative and operating budget for fiscal year 2015-2016 (\$9,632,000) is not sufficient. The State of Hawai'i is required to comply with the Hawai'i Constitution and must fund DHHL's administrative and operating expenses by making sufficient general funds available to DHHL for its administrative and operating budget for fiscal year 2015-2016.

Paragraph 5 of the Order shall be modified to declare and order the following:

The Defendants must fulfill their constitutional duty and trust responsibilities.

3

Paragraphs 1, 2 and 4 of the Order shall remain the same.

CIVIL NO. 07-1-1663-08 (JHC)
(Declaratory Judgment)FINDINGS OF FACT, CONCLUSIONS
OF LAW, AND ORDERTrial: June 29, 2015
Judge: Hon. Jeannette H. CastagnettiFINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER

In 2007, Plaintiffs, native Hawaiian beneficiaries of the Hawaiian Homes Commission Act, filed suit against the State of Hawai'i for failing to adequately fund the Department of Hawaiian Home Lands as mandated by article XII, section 1 of the Hawai'i Constitution.¹ Plaintiffs also sued the Department of Hawaiian Home Lands, the Hawaiian

¹ Article XII, section 1 states in pertinent part:

... The legislature shall make sufficient sums available for the following purposes: (1) development of home, agriculture, farm and ranch lots; (2) home, agriculture, aquaculture, farm and ranch loans; (3) rehabilitation projects to include, but not limited to, educational, economic, political, social and cultural processes by which the general welfare and conditions of native Hawaiians are thereby improved; (4) the administrative and operating budget of the department of Hawaiian home lands; in furtherance of (1), (2), (3) and (4) herein, by appropriating the same in the manner provided by law.

Homes Commission and its commissioners, in their official capacities, for breaching fiduciary duties owed to Plaintiffs for failing to seek from the legislature all funding the State is constitutionally required to provide to the Department of Hawaiian Home Lands. Summary judgment was granted in Defendants' favor and against Plaintiffs in 2009 on the ground that Plaintiffs' claims were barred by the political question doctrine. Plaintiffs appealed and, in 2012, the Hawai'i Supreme Court determined that the question of what constitutes "sufficient sums" for administrative and operating expenses under article XII, section 1 was justiciable and not barred by the political question doctrine. *Nelson v. Hawaiian Homes Commission*, 127 Hawai'i 185, 277 P.3d 279 (2012).

A non-jury trial was held on Plaintiffs' claims that the State of Hawai'i violated its constitutional duty to provide sufficient sums to the Department of Hawaiian Home Lands for its administrative and operating budget (count 1 of Plaintiffs' First Amended Complaint) and that the Department of Hawaiian Home Lands, the Hawaiian Homes Commission and its commissioners breached their trust duties by failing to seek from the legislature all the funding to which the department is constitutionally entitled (count 2).

Nine witnesses testified over the course of eight trial days and 239 exhibits were received into evidence. David Kimo Frankel, Esq. and Sharla Ann Mauley, Esq. appeared on behalf of Plaintiffs. Deputies Attorney General Girard D. Lau and Charleen M. Aina appeared on behalf of Defendants Wesley Machida and the State of Hawai'i ("State Defendants"). Melvyn M. Miyagi, Esq. and Ross T. Shinyama, Esq. appeared on behalf of Defendants Hawaiian Homes Commission, the Department of Hawaiian Home Lands, Jobie Masagatani, William K. Richardson, Michael P. Kahikina, Renwick V.I. Tassill, Doreen Napua Gomes, Gene Ross Davis, Wallace A. Ishibashi and David B. Kaapu ("DHHL Defendants").

Having considered the evidence presented at trial, the arguments and written submissions of the parties, and as supported by the Findings of Fact and Conclusions of Law herein, the Court finds and concludes that the State failed to meet its constitutional obligation to provide sufficient sums for the Department of Hawaiian Home Lands' administrative and operating budget as required by article XII, section 1 of the Hawai'i Constitution. More specifically, the State violated its constitutional duty by failing to appropriate sufficient general funds to the Department, thereby forcing the Department of Hawaiian Home Lands to use its own funds, including funds from the general leasing of Hawaiian home lands, to pay for the Department's administrative and operating costs -- precisely what article XII, section 1 was supposed to prevent. The Court also finds and concludes that the Hawaiian Homes Commission and the Department of Hawaiian Home Lands owe a fiduciary duty to the beneficiaries of the Hawaiian Homes Commission Act to pursue the funding that the Department needs for its administrative and operating expenses, and prior to 2012, the Department and the Commission failed to pursue adequate funding from the legislature, thereby breaching their fiduciary duty owed to Plaintiffs, as beneficiaries of the Hawaiian Homes Commission Act.

FINDINGS OF FACTA. History of Article XII, Section 1 the Hawai'i Constitution

1. Before the Hawai'i Constitutional Convention of 1978, article XI, section 1 of the Hawai'i Constitution provided:

The proceeds and income from Hawaiian home lands shall be used only in accordance with the terms of said Act, and the legislature may, from time to time, make additional sums available for the purposes of said Act by appropriating the same in the manner provided by law.

3

2. Consequently, before the 1978 Constitutional Convention, the State of Hawai'i Legislature ("Legislature") had the discretion to fund (or not fund) the Department of Hawaiian Home Lands ("DHHL"). *Exh. B-39* [copy of *Nelson v. Hawaiian Homes Commission* SCWC 30110 (May 9, 2012)] at 6.

3. In 1979, as a result of the 1978 Constitutional Convention, the electorate of the State of Hawai'i voted to amend the Hawai'i Constitution, article XI, section 1, renumbered as article XII, section 1, to replace the last sentence of the first paragraph, quoted above, with the following language:

The legislature shall make sufficient sums available for the following purposes: (1) development of home, agriculture, farm and ranch lots; (2) home, agriculture, farm and ranch loans; (3) rehabilitation projects to include, but not limited to, educational, economic, political, social and cultural processes by which the general welfare and conditions of native Hawaiians are thereby improved; (4) the administrative and operating budget of the department of Hawaiian home lands; in furtherance of (1), (2), (3) and (4) herein, by appropriating the same in the manner provided by law.

Hawai'i Constitution, article XII, section 1 (emphasis added).

4. "Through this amendment, the discretionary funding language was changed to mandatory funding language." *Exh. B-39* at 6; *Exh. B-45* (copy of Stand. Comm. Rep. No. 56, in Proceedings of the Constitutional Convention of Hawaii of 1978, Volume 1 (1980)) at 630 ("Your [C]ommittee [on Hawaiian Affairs] proposal makes it expressly clear that the legislature is to fund DHHL for purposes which reflect the spirit and intent of the Act. Your Committee decided to no longer allow the legislature discretion in this area.")

5. The above amendment was drafted by the Committee on Hawaiian Affairs who "decided that the legislature should provide sufficient funds to DHHL for the following projects: . . . 4. For administrative and operational costs, which expenditure requests are to be

utilized for all of the [other 3 enumerated purposes in the State Constitution, article XII, section 1].” *Exh. B-45* at 630.

6. Delegate De Soto, in addressing the amendment, stated:

The Committee on Hawaiian Affairs decided that its major goals [during the 1978 Constitutional Convention] were to identify the problems and concerns of native Hawaiians as they relate to the Hawaiian Homes Commission Act in Article XI of this State Constitution. It was apparent that the identifiable problem areas were – first, that the DHHL – the Department of Hawaiian Home Lands – which provides a land base, has a monumental and eternal dilemma in funding.

....

The department must finance its own program through the general leasing of its lands. Incidentally, DHHL is the only one of 17 state departments which must fund itself. Therefore, land of any value through the years has been generally leased for revenue purposes.

Exh. B-46 (Debates in the Committee of the Whole on Hawaiian Affairs Comm. Prop No. 11, in Proceedings of the Constitutional Convention of Hawaii of 1978, Volume II (1980)) at 410-411.

7. Delegate Sutton also addressed the amendment and, specifically, the word “sufficient,” stating,

The State must not only insure there are funds to prepare sites but also insure that there is a way for the DHHL administration to be fully funded to get the evermounting paperwork done. There are presently only 90 people statewide, who are limited by time and other constraints as to what they can do. As demands on the department and staff grow, a much bigger staff will be required. At present, the DHHL budget calls for the expenditure of \$1.3 million; \$1.1 million is through land revenues and the rest through Time Certificates of Deposit (TCDs). From this budget, \$750,000 goes toward staff salaries for 66 percent of the staff. Even this figure will rise as this portion of the staff is civil service and subject to an 8-percent annual inflation rate. The other 34 percent of the staff is funded through the Comprehensive Employment and Training Act (CETA) and the State Comprehensive Employment and Training program (SCET) funds. If these temporary dollars are cut, the staff would have to be cut accordingly. Not only is

5

there a demand on the money for staff, but there are also other administrative demands that need to be met through funds, especially in the area of record-keeping. Problems the department is facing in record-keeping include a lack of proper equipment to record information, lack of a filing system, the need to automate many portions of the system to speed up the processing of records -- now there are only electric typewriters.

....

For the administration, there is need for support of a staff to adequately service the department's beneficiaries and to purchase equipment which will allow sufficient management of its resources and records.

Id. at 414 (emphases added).

8. Delegate Crozier also addressed the amendment and stated:

The Department of Hawaiian Home Lands is currently obligated to fund its own administrative budget. It is the only department that has to pay its own way. Because of this, when an administrative budget is developed, it is not based on their needs in order to achieve their goal. It is based on the amount of money the department is to receive through its funding mechanisms. One of the major mechanisms is the revenues derived from general leasing. General leasing is the leasing of DHHL lands to the general public. General leasing is not used to rehabilitate Hawaiians; these revenues are used in the administration of the department.

Id. at 415 (emphasis added).

9. Delegate Ontai likewise addressed the amendment and stated:

The Hawaiian homes department and the act were and are the most neglected part of the State of Hawaii, the most neglected department. It was woefully lacking in funds at its inception, and for the past 50 years and even today, it lacks funds to run the department properly.

Id. at 422 (emphasis added).

10. During the debates in the Committee of the Whole on Hawaiian Affairs, Delegate Burgess asked if the “\$1.3 million to \$1.6 million that was mentioned [earlier in the

debates was] the total cost of the programs which are mandated to the legislature[.] . . .

includ[ing] the development of home, agriculture, farm and ranch lots, and the other aims [of the amendment]?” *Id.* at 421. Delegate Sutton responded that “[t]he \$1.3 million to \$1.6 million is for administrative costs at present. Their need is more.” *Id.* at 422 (emphasis added).

11. Before voting on the above amendment to the Hawai‘i Constitution, article XII, section 1, the Hawai‘i electorate was advised of the following:

If adopted, this amendment:

- requires the legislature to fund the Department of Hawaiian Home Lands.
- guarantees that traditional funding continue.
- allows Department more flexibility.

Exh. B-47 (Informational Booklet re: Amendments to the State Constitution Proposed by the 1978 Constitutional Convention, November 7, 1978 at No. 27).

12. No other State department has a constitutional mandate requiring the legislature to provide “sufficient sums” for its administrative and operating budget.

B. General Fund Appropriations

13. From its beginning through fiscal year 1989 (with few exceptions), DHHL received no general (or external) funding for its administrative and operating expenses. *Exh. 4* at 3 – 4.

14. Prior to the 1978 Constitutional Convention, DHHL’s administrative and operating budget consisted of more than \$1.4 million (from special funds). *Exh. A-64* at 47. In addition to these funds, temporary funds were provided through the Comprehensive Employment and Training Act (CETA) and the State Comprehensive Employment and Training program (SCET) to pay for more than one-third of DHHL’s staff in 1977. *Id.* at 8 – 10. These additional

7

funds were not part of DHHL’s operating budget. Partial Tr. 06/29/15 p.m. at 14 (Testimony of Rodney Lau).

15. For fiscal year 1977-78, DHHL’s administrative and operating budget consisted of more than \$1.6 million (from special funds). *Exh. 1* at 44; *Exh. 77*. In addition to these funds, temporary funds were also provided through CETA and SCET. These funds supported one-third of DHHL’s staff. *Exh. 1* at 7 – 9; *Exh. B-45* at 631-32; *Exh. B-46* at 414. These additional funds were not part of DHHL’s operating budget. Partial Tr. 06/29/15 p.m. at 14 (Testimony of Rodney Lau).

16. The source of funds in fiscal years 1976-77 and 1977-78 were primarily DHHL’s operating fund and its administration account, which are special funds. *Exh. A-64* at 47; *Exh. 1* at 44; Tr. 07/07/15 (Testimony of Jobie Masagatani).

17. In fiscal year 1978-79, lease rent generated 21.8% of DHHL’s receipts, while interest income generated 45.5% of DHHL’s receipts. *Exh. A-66* at 16. A logical inference is that a significant portion of DHHL’s administrative and operating budget prior to 1978 was comprised of interest income. Much of that interest income would have been earned from lease revenue. *Cf.* Partial Tr. 06/29/15 p.m. at 30-31 (Testimony of Rodney Lau).

18. In fiscal years 1976-77 and 1977-78, the majority (but not all) of DHHL’s administrative and operating budget came from the Hawaiian Home administration account. *Exh. A-64* at 47; *Exh. 1* at 44.

19. In fiscal year 1976-77, DHHL spent more than \$1.4 million for its administrative and operating needs. *Exh. A-64* at 47.

20. In fiscal year 1977-78, DHHL spent more than \$1.5 million for its administrative and operating needs. *Exh. 1* at 44.

8

6

21. In fiscal year 1978-79, DHHL spent more than \$1.7 million for its administrative and operating needs. *Exh. A-66* at 21.

22. After the 1978 Constitutional Convention, the first general fund appropriation to DHHL for its administrative and operating budget was for fiscal year 1988-89. *Exhs. 77 – 88; Exh. 4* at 2.

23. The State appropriated the following amounts of money to DHHL for its administrative and operating budget in general funds (i.e., not including (i) any loans to the department, (ii) any funding financed through revenue bonds, (iii) any money generated by the leasing, renting, or licensing of Hawaiian home lands or waters, or (iv) any payments pursuant to Act 14,² Session Laws of Hawaii 1995, Special Session) in each of these fiscal years:

Exh. 57 at Exh. A column 3; *Exh. 12* at 4; *Exh. 13* at 1 – 2; *Exhs. 91-114; Exh. A-131*; Partial Tr. 06/29/15 at 6-8 (Testimony of Rodney Lau).

24. In fiscal year 1991-92, the State appropriated over \$4 million in general funds to DHHL for administrative and operating costs. *Exh. 57* at Exh. A column 3.

25. Between fiscal years 1997 – 2009, the State appropriated less than \$1.6 million per year in general funds to DHHL for its administrative and operating budget. *Exh. 57* at Exh. A column 3.

26. In fiscal years 2010, 2011, 2012, and 2013, the legislature appropriated no general funds for DHHL's administrative and operating budget. *Exh. 57* at Exh. A column 3.

27. After the Supreme Court's decision in this case, *Nelson v. Hawaiian Homes Commission*, 127 Hawai'i 185, 277 P.3d 279 (2012), the legislature increased its general fund appropriations from zero to \$9.6 million for DHHL's administrative and operating budget expenses. *Exh. 57* at Exh. A column 3; *Exh. 12* at 4; *Exh. 13* at 1 – 2; *Exh. A-131*.

28. Given the prior years' funding levels and the legislature's subsequent increase in funding after the Supreme Court's decision, it is reasonable to find that it was because of this lawsuit that the legislature appropriated \$9.6 million more for DHHL's

administrative and operating budget expenses than it had been providing. No witness offered any other plausible explanation for this subsequent increase in funding.

C. DHHL'S Administrative and Operating Budget

29. Administrative and operating expenses include recurring costs of operating, supporting and maintaining authorized programs, including costs for personnel salaries and wages, employee fringe benefits, lease payments, supplies, materials, equipment, motor vehicles, rent, building expenses, utilities, communications, advertising, general office expenses, travel, insurance, legal fees, consultants and other professional fees, and repair and maintenance. Partial Tr. 06/29/15 p.m. at 10-12 (Testimony of Rodney Lau); *Exh. B-31; Exh. B-32; Exh. B-19*; Tr. 07/07/15 at 85-88 (Testimony of Neal Miyahira); *Exh. A-64* at 47; *Exh. 1* at 44.

30. Since 1978, DHHL's administrative and operating expenses have increased. Partial Tr. 06/29/15 p.m. at 15 (Testimony of Rodney Lau); Tr. 07/02/15 at 100 (Testimony of Jobie Masagatani).

31. Between fiscal years 2008 and 2014, DHHL's actual administrative and operating budget expenses have ranged between \$16 million and \$19.6 million. *Exh. B-88*; Tr. 06/30/15 at 4-5 (Testimony of Rodney Lau). The actual administrative and operating expenses calculated by DHHL exclude costs associated with homestead lot development, loans, and expenditures from the Native Hawaiian Rehabilitation Fund. Partial Tr. 06/29/15 p.m. at 104-5 (Testimony of Rodney Lau). The calculation of expenses was carefully and deliberately determined. Partial Tr. 06/29/15 p.m. at 83-105 (Testimony of Rodney Lau).

32. In fiscal years 2013 and 2014, DHHL's administrative and operating expenses exceeded \$18 million annually. *Exh. B-88*.

33. DHHL's actual administrative and operating expenses do not include funds for all the DHHL authorized positions that are vacant. Filling those vacancies would require more money than the \$16 million to \$18 million DHHL expended annually in fiscal years 2008 through 2014. Tr. 06/29/15 at 85-87, 107-108 (Testimony of Rodney Lau).

34. DHHL suffers from a lack of funding and staffing, which adversely affects beneficiaries of the Hawaiian Home Lands Trust. Tr. 06/30/15 p.m. at 42 (Testimony of Rodney Lau); Tr. 07/02/15 at 102-4 (Testimony of Jobie Masagatani); Tr. 07/02/15 p.m. at 3-5, 8-10, 55, 112 (Testimony of Jobie Masagatani).

35. If DHHL received sufficient general funds for its administrative and operating expenses from the State, DHHL would be able to use its special funds and trust funds to provide financial assistance to low-income beneficiaries to help them acquire homestead lots. Tr. 07/07/15 at 62 (Testimony of Jobie Masagatani).

36. DHHL has determined that it needs additional funding to address operational shortfalls. It has determined that it requires funding so that it can fill all of its vacant positions as well as for 64 additional positions. *Exh. B-13; Exh. 24*; Tr. 07/02/15 at 102-105; Tr. 07/02/15 p.m. at 66; Tr. 07/07/15 at 5, 9, 10 (Testimony of Jobie Masagatani).

37. DHHL requested the following sums of money be appropriated to it for DHHL's administrative and operating expenses in each of these fiscal years, regardless of the means of financing:

1991-92:	\$5,111,453
1992-93:	\$5,079,006
1993-94:	\$5,569,607

1996-97:	\$6,222,903

1997-98:	\$6,944,784
1998-99:	\$7,710,784
1999-00:	\$7,120,905
2000-01:	\$7,120,905
2001-02:	\$7,373,104
2002-03:	\$7,373,104
2003-04:	\$8,890,352
2004-05:	\$8,947,595
2005-06:	\$9,129,838
2006-07:	\$9,129,838
2007-08:	\$10,966,821
2008-09:	\$11,522,092
2009-10:	\$19,603,754
2010-11:	\$19,603,754
2011-12:	\$20,122,220
2012-13:	\$20,122,220
2013-14:	\$25,727,315
2014-15:	\$27,122,825
2015-16:	\$28,478,966

Exh. 57 at *Exh. A* column 1; *Exh. 11* at 5; *Exh. 12* at 5; *Exh. 13* at 5.

38. For fiscal year 2014-15, DHHL determined that it needed \$27,122,825 for its administrative and operating budget, not including for repairs. *Exh. 12* at 5; *Exh. B-3*; *Exh.*

B-4; *Exh. B-11*; *Tr. 07/02/15 p.m.* at 59 (Testimony of Jobie Masagatani).

39. For fiscal year 2015-16, DHHL determined that it needs \$28,478,966 for its administrative and operating budget, not including for repairs. *Exh. 13* at 5.

40. DHHL's budget requests for fiscal years 2013-14, 2014-15, and 2015-16 are based upon its analysis of: prior years' expenditures; its current operational shortcomings;

13

and its needs for the coming years. *Exh. 23*; *Exh. 24*; *Exh. B-3*; *Exh. B-4*; *Exh. B-13*; *Partial Tr. 06/29/15 p.m.* at 16-21 (Testimony of Rodney Lau).

41. DHHL's determinations as to its administrative and operating needs were made with care, expertise and sound judgment. *Partial Tr. 06/29/15* at 16-21 (Testimony of Rodney Lau); *Tr. 06/30/15* at 57-58, 60-63, 73-74, 81-82 (Testimony of Rodney Lau); *Tr. 07/02/15* at 33-38 (Testimony of Rodney Lau); *Tr. 07/02/15* at 102 (Testimony of Jobie Masagatani); *Tr. 07/02/15 p.m.* at 41-45, 113, 114 (Testimony of Jobie Masagatani); *Tr. 07/07/15* at 5-6, 67-68 (Testimony of Jobie Masagatani); *Exhs. 12-13*; *Exh. 19*. No evidence was provided to the contrary.

42. Jobie Masagatani, the Hawaiian Homes Commission Chair, and Rodney Lau, DHHL's administrative services officer, were credible and clear in explaining how DHHL determined its administrative and operating needs post 2012.

43. No credible evidence was presented or produced at trial that DHHL's determinations as to its administrative and operating budget, expenses and needs were arbitrarily or capriciously made. The State presented no evidence at trial that DHHL wasted funding from the legislature.

44. DHHL needs more than \$28 million annually for its administrative and operating budget for fiscal year 2015-16, not including repairs. *Exh. 13* at 5; *Partial Tr. 06/29/15 p.m.* at 23 (Testimony of Rodney Lau); *Exhs 12, 24, B-4 through B-5*.

45. In each fiscal year since 1992, the State has appropriated to DHHL less in general funds than what DHHL requested to be appropriated for its administrative and operating costs:

14

	Amount Requested:	Amount of General Funds Appropriated:
1991-92:	5,111,453	4,278,706
1992-93:	5,079,006	3,850,727
1993-94:	5,569,607	3,251,162
1994-95:	5,609,683	3,251,162
1995-96:	6,178,421	2,565,951
1996-97:	6,222,903	1,569,838
1997-98:	6,944,784	1,493,016
1998-99:	7,710,784	1,347,684
1999-00:	7,120,905	1,298,554
2000-01:	7,120,905	1,298,554
2001-02:	7,373,104	1,359,546
2002-03:	7,373,104	1,196,452
2003-04:	8,890,352	1,297,007

2006-07:	9,129,838	1,067,559
2007-08:	10,966,821	1,169,174
2008-09:	11,522,092	883,699
2009-10:	19,603,754	0
2010-11:	19,603,754	0
2011-12:	20,122,220	0
2012-13:	20,122,220	0
2013-14:	25,727,315	9,632,000
2014-15:	27,122,825	9,632,000
2015-16:	28,478,966	9,632,000

Exh. 57 at *Exh. A* columns 1 and 3; *Exh. 12* at 5; *Exh. A-131*.

46. The \$9,632,000 legislative appropriations of general funds in fiscal years 2013-14 and 2014-15 are less than the governor and the Department of Budget and Finance

15

recommended be appropriated to DHHL for its administrative and operating budget. *Tr. 07/07/15 p.m.* at 26 (Testimony of Neal Miyahira); *Tr. 07/10/15 p.m.* at 29 (Testimony of Neal Miyahira).

47. Since 1978, the legislature has not appropriated enough general funds to pay for DHHL's administrative and operating expense. *Tr. 07/07/15* at 13.

48. The State treats DHHL's budget requests as it does any other department. *Tr. 07/07/15* at 74-5 (Testimony of Neal Miyahira); *Tr. 07/09/15* at 20-24 (Testimony of Neal Miyahira); *Tr. 07/10/15* at 29-31 (Testimony of Neal Miyahira).

D. The State Defendants' Case

49. The independent auditors' category "Administration and support services" in the annual audits cannot be assumed to include all of DHHL's administrative and operating expenses. *Tr. 07/02/15* at 20-32 (Testimony of Rodney Lau); *Tr. 07/02/15* at 41 (Testimony of Rodney Lau); *Tr. 07/09/15 p.m.* at 79 (Testimony of Neal Miyahira).

50. The State's position or argument as to what constitutes an "administrative and operating" expense and its exclusion of "programmatic expenses" is entitled to no weight because: (a) this claim or argument is inconsistent with the testimony of the State's designated HIRCP 30(b)(6) witness at his deposition; (b) was determined after the State approved DHHL's budget appropriations for fiscal years 2013-14, 2014-15, and 2015-16; and (c) created for the purpose of this trial. *Tr. 07/10/15 p.m.* 12-13, 18-22 (Testimony of Neal Miyahira). Thus, it is entitled to little or no weight.

51. The State does not know how much money would be sufficient for DHHL's administrative and operating budget nor has the State determined what DHHL's needs

16

are for its administrative and operating budget. Tr. 07/07/15 at 14-17 (Testimony of Neal Miyahira); Tr. 07/07/15 at 27-28 (Testimony of Neal Miyahira).

52. Although the Court admitted into evidence Exhibits A-104, A-105, A-107, A-114 and A-115, questions regarding underlying data or information were unanswered or unknown concerning these exhibits, and therefore, the Court finds that these exhibits were not helpful or persuasive. Accordingly, the Court did not rely on these exhibits.

E. Special and Trust Funds

53. Revenue from the general leasing of Hawaiian home lands (to non-homesteaders) is deposited into the Hawaiian Home administration account special fund. Tr. 07/07/15 p.m. at 28 (Testimony of Neal Miyahira); *Hawaiian Homes Commission Act* (“HHCA”), § 213(f).

54. The primary source of revenue for the Hawaiian Home administration account is revenue generated from Hawaiian home lands (i.e., general leases, licenses, revocable permits of the “available lands”). Partial Tr. 06/29/15 p.m. at 41, 57 (Testimony of Rodney Lau).

55. Revenue generated from leases that initially are deposited into the Hawaiian Home administration account wind up in other DHHL trust and special funds. Tr. 07/10/15 at 33 (Testimony of Neal Miyahira).

56. Some of the monies from the Hawaiian Home administration account special fund, including revenue from general leasing, are deposited into the Hawaiian Home operating fund. Partial Tr. 06/29/15 p.m. at 40 (Testimony of Rodney Lau); Tr. 07/10/15 at 33-34 (Testimony of Neal Miyahira).

17

57. Monies from loans to DHHL, revenue bond proceeds, and monies generated by the leasing, renting, or licensing of Hawaiian home lands could be deposited into one or more special funds, but the Director of Finance and the Department of Budget and Finance have no way of determining whether those monies were the monies actually appropriated or expended by DHHL pursuant to each “B” appropriation. *Exh. 59* at 2; Tr. 07/10/15 at 33-38 (Testimony of Neal Miyahira).

58. Of the money that the legislature “appropriates” from all special funds to DHHL, it is unclear what the precise amount is that comes directly and indirectly from the leasing of Hawaiian home lands or Act 14 monies. Tr. 07/10/15 at 33-38 (Testimony of Neal Miyahira).

59. It is unclear how much of the money that the legislature authorizes each year from special funds is derived from (a) the leasing, renting or licensing of Hawaiian home lands or waters, (b) any payments pursuant to Act 14 Session Laws of Hawaii 1995, Special Session, (c) any funding financed through revenue bonds, or (d) any interest generated from the Department of Hawaiian Home Lands’ own assets. Tr. 07/0/15 at 33-38 (Testimony of Neal Miyahira).

60. Special fund “appropriations” are authorizations for DHHL to spend its own money rather than a transfer of money to DHHL. Partial Tr. 06/29/15 at 35, 56, 58-59 (Testimony of Rodney Lau).

F. Act 14

61. On or about December 1, 1994, the Task Force on Department of Hawaiian Home Lands Title and Related Claims (“Task Force”) and the independent representative of the beneficiaries of the Hawaiian Home Lands Trust entered into a

18

Memorandum of Understanding (“MOU”) to resolve, *inter alia*, the wrongful use and withdrawal of Hawaiian home lands from the trust by territorial or state executive actions.

Exh. B-43 at 1. The MOU called for the establishment of the Hawaiian Home Lands settlement trust fund, which was to be funded by annual payments of \$30 million. The \$30 million payments were to continue until a total of \$600 million, over a period not to exceed twenty years, was paid into the settlement trust fund. *Id.* at 5.

62. The MOU provided that “[p]ayments into the Hawaiian home lands settlement trust fund are not intended to replace or result in a diminishing of funds that the department is entitled to under Article XII, Section 1 of the state constitution. A provision to that effect should be written into the legislation implementing the agreement.” *Id.* at 6.

63. The Office of the Attorney General concurred in the MOU. *Id.* at 7.

64. In 1995, the legislature enacted Act 14 in accordance with the MOU. *Exh. B-44* at 698 (Act 14, Special Session SLH 1995 at 698). Act 14 confirmed the \$600 million settlement fund which was to be paid in \$30 million annual payments over a period not to exceed twenty years. *Id.* at 700. Act 14 also confirmed that “[p]ayments made under this Act shall not diminish funds that the department is entitled to under article XII, section 1 of the Constitution of the State of Hawaii.” *Id.* at 701.

65. Every legislative act is reviewed by the Attorney General for constitutionality. The State Defendants did not present any evidence that the Attorney General’s review of Act 14 found it to be unconstitutional.

66. The final \$30 million payment under Act 14 will be paid in 2015.

67. DHHL has had to rely on and use Act 14 monies to pay for its administrative and operating expenses.

19

G. DHHL’s Reliance on Trust Funds, Special Funds and Revenue from the Leasing of Hawaiian Home Lands for its Administrative and Operating Budget

68. DHHL has had to rely on special funds and trust funds every year to cover a substantial portion of DHHL’s operating costs. Partial Tr. 06/29/15 p.m. at 23-24 (Testimony of Rodney Lau); Tr. 07/02/15 p.m. at 25 (Testimony of Jobie Masagatani); *Exhs. 77-114*; *Exh. 31* at 5 (FY ‘89-95); *Exh. A-39* at 7; *Exh. A-40* at 7 (FY ‘93); *Exh. A-41* at 7 (FY ‘94); *Exh. A-42* at 7 (FY ‘95); *Exh. 4* at 4 (FY ‘95 & ‘96); *Exh. 5* (FY ‘96); *Exh. A-43* at 8 (FY ‘96); *Exh. A-44* at 8 (FY ‘97); *Exh. A-56* at 15 (FY ‘09); *Exh. 9* at 8 (FY ‘08 & ‘09); *Exh. 10* at 3 (FY ‘10 & ‘11); *Exh. A-57* at 15 (FY ‘10); *Exh. A-58* at 15 (FY ‘11); *Exh. A-59* at 15 (FY ‘12); *Exh. A-60* at 16 (FY ‘13); *Exh. A-61* at 6 and 16 (FY ‘14); *Exh. 19* (FY ‘14); *Exh. B-9* at 1; *Exh. 12* at 4-5.

69. DHHL has had to rely on its own funds to pay for its administrative and operating expenses. Partial Tr. 06/29/15 p.m. at 6-8 (Testimony of Rodney Lau).

70. The use of special funds and trust funds to cover DHHL’s administrative and operating costs results in less money available to DHHL for land development, loans and other activities that assist the beneficiaries of the Hawaiian Home Lands Trust. *Exh. 4* at 4; *Exh. 5*; *Exh. B-12* at 2; Testimony of Rodney Lau; Tr. 07/02/15 p.m. at 6-8 (Testimony of Jobie Masagatani).

71. Since 1978, DHHL has continued to rely upon the Hawaiian Home administration account to pay for its administrative and operating costs. Partial Tr. 06/29/15 p.m. at 30-31, 41-42 (Testimony of Rodney Lau); *Exh. A-66* at 21 (FY ‘79); *Exh. A-67* at 22 (FY

A-49* at 11 (FY '02); *Exh. A-50* at 21 (FY '03); *Exh. A-51* at 23 (FY '04); *Exh. A-52* at 23 (FY '05); *Exh. A-53* at 23 (FY '06); *Exh. 32* at 3 (FY '06); *Exh. 33* at 3 (FY '07); *Exh. 72. The Hawaiian Homes administration account is comprised entirely of money generated from: (a) general leases, rents, licenses, revocable permits, rock sales, and other uses of Hawaiian home lands; (b) interest and income earned from investment of these revenues; and (c) minimal or small amounts of miscellaneous revenue. 73. A large portion of the principal upon which DHHL earns interest and investment income initially came from the general leasing of Hawaiian home lands. DHHL has

21

relied on this interest/investment income generated from the general leasing of its lands to pay for its administrative and operating expenses. Partial Tr. 06/29/15 p.m. at 30-31 (Testimony of Rodney Lau).

74. DHHL has had to rely on Act 14 settlement monies to pay for some of its administrative and operating expenses. Partial Tr. 06/29/15 p.m. at 33-34 (Testimony of Rodney Lau).

75. Every year since 1992, DHHL has had to rely on revenue generated from general leases, licenses, and revocable permits of Hawaiian home lands to make up for the State's failure to appropriate sufficient sums for DHHL's administrative and operating budget. Partial Tr. 06/29/15 p.m. at 41-42, 44-45 (Testimony of Rodney Lau); Tr. 07/02/15 p.m. at 25, 74 (Testimony of Jobie Masagatani); *Exh. A-61* at 6; *Exh. B-9* at 1.

H. DHHL's Actions

77. Since 1978, DHHL has been aware that article XII, section 1 required the legislature to fund DHHL's administrative and operating budget. *Exh. 2*; *Exh. 4* at 4; *Exh. 5*.

78. On July 19, 1995, Kali Watson, then Chairman of the Hawaiian Homes Commission, sent a letter to Governor Benjamin Cayetano addressing the "General Fund Reduction Target Plan." *Exh. B-2*; Testimony of Kali Watson. Chairman Watson expressed his concern "about the legality" of reducing DHHL's general funding and explained:

Article XII, Section 1, of the State Constitution requires the Legislature to make sufficient sums available for DHHL administrative and operating costs (See Attached). This past year, general fund support has been reduced. This continued erosion of

general funding by substituting special funds will adversely impact the department's direct funding to its beneficiaries.

Id. at 2.

79. The attachment to Chair Watson's letter was a copy of an opinion letter dated February 18, 1987 from Deputy Attorney General George Kaeo, Jr. to State Representative Andrew Levin setting forth the Attorney General's "opinion as to how the administrative and operating costs of the Department of Hawaiian Home Lands (DHHL) should be financed." *Exh. B-2*, attachment at 1; *see also Exh. B-2* at 1. In the Opinion Letter, the Attorney General concludes that "[t]he provisions of the Constitution are plain and unambiguous." "Article XII, § 1 mandates the legislature to make sufficient sums available to the DHHL for . . . its administrative and operating budget." *Id.* at 2.

80. The Attorney General concluded in the Opinion Letter that "the committee report[] and the informational booklet [prepared by the 1978 Constitutional Convention] make clear the intent of the framers of the constitutional provision and the understanding of the voters who adopted it." *Id.* at 5. Regarding the committee report, the Attorney General stated that "[i]t is apparent in reading the report that the Committee on Hawaiian Affairs intended to relieve the department of its present burden of general leasing its lands to generate its own revenues by requiring that the legislature provide sufficient funds to the department." *Id.* at 4. Regarding the informational booklet, the Attorney General observed that it clearly apprised voters that if the amendment was adopted, it would "require the legislature to fund the [DHHL]." *Id.*

81. Notwithstanding the concerns recognized and raised by Chair Watson in 1995 about the legality of reducing general fund appropriations to DHHL, between and including fiscal years 1992 and 2013, DHHL requested less in general funds for its administrative and operating expenses than it requested from all funding sources for its administrative and operating

23

expenses. In other words, DHHL's own funding requests to the legislature were for less than DHHL determined that it needed. *Exh. 57* at Exh. A columns 1 and 2.

82. Between fiscal years 2000 and 2013, DHHL requested less than \$1.6 million in general funds for DHHL's administrative and operating expenses. *Exh. 57* at Exh. A column 2.

83. For fiscal years 2009-10, 2010-11, 2011-12, and 2012-13, DHHL requested no general funds to pay for its administrative and operating budget. *Exh. 57* at Exh. A column 2; *Exh. 10*; Tr. 07/02/15 at 68-69 (Testimony of Rodney Lau).

84. In those years in which DHHL received no general funding for its administrative and operating budget, neither DHHL nor the Hawaiian Homes Commission made any substantive effort to obtain general funding from the legislature. Tr. 07/02/15 at 38-39 (Testimony of Rodney Lau).

85. DHHL identified no obstacles that prevented it from asking the legislature for sufficient sums for its administrative and operating budget prior to 2012.

86. DHHL has entered into general leases of Hawaiian home lands in order to raise revenue for administrative and operating expenses, including the general lease of land that is suitable for residential development. These lands under general lease are not available to the beneficiaries of the Hawaiian Home Lands Trust. Partial Tr. 06/29/15 p.m. at 36, 39 (Testimony of Rodney Lau); Tr. 07/02/15 at 25-27 (Testimony of Jobie Masagatani).

87. DHHL Defendants did not take meaningful steps during the relevant time period to obtain funding from the legislature for sufficient sums for DHHL's administrative and operating budget. DHHL Defendants did not sue the State for failing to provide sufficient sums for DHHL's administrative and operating budget and although given the opportunity to cross-

24

22

claim against the State Defendants in this case, DHHL Defendants did not. *Exh. 52; Exh. 56* at 16 and 17; Tr. 07/02/15 p.m. at 24 (Testimony of Jobie Masagatani); Tr. 07/07/15 at 63 (Testimony of Jobie Masagatani).

88. DHHL Defendants opposed Plaintiffs' efforts in this case to obtain sufficient funding, including substantively joining in the State Defendants' motion for summary judgment. *Exh. 51; Exh. 52; Exh. B-38* at 16 and page 4, n. 5 of concurring opinion; *Exh. B-39* at 13; *Exh. B-40* at 10; *Exh. A-133* at 38-39; Tr. 07/10/15 at 65-66.

89. Prior to 2012, before the Hawai'i Supreme Court's decision in this case, DHHL Defendants did not pursue adequate funding from the legislature in any meaningful way.

CONCLUSIONS OF LAW

1. The Court has jurisdiction over the subject matter of this case and over all parties.

2. Plaintiffs have standing to enforce article XII, section 1 of the Hawai'i State Constitution and the Hawaiian Home Lands Trust. *Aged Hawaiians v. Hawaiian Homes Comm'n*, 78 Haw. 192, 204-5 and 208 n.26, 891 P.2d 279, 291-92 and 295 n.26 (1995); *Pele Def. Fund v. 4. The purposes of the Hawaiian Homes Commission Act have been

variously described: for the welfare of native Hawaiians; for their rehabilitation; to respond to the poverty and rapid decline of the native Hawaiian population; to establish a permanent land base for the beneficial use of native Hawaiians; to provide native Hawaiians with lands upon which to develop homes, agriculture, farms and ranches; and for the betterment of the conditions of native Hawaiians. *Rice v. Cayetano*, 528 U.S. 495, 507 (2000); *Arakaki v. Lingle*, 477 F.3d 1048, 1054 (9th Cir. 2007); *Arakaki v. State of Hawai'i*, 314 F.3d 1091, 1093 n.2 (9th Cir. 2002); *Keaukaha-Panaewa Community Ass'n v. Hawaiian Homes Comm'n*, 588 F.2d 1216, 1218 (9th Cir. 1978); *Kalima v. State*, 111 Hawai'i 84, 87, 137 P.3d 990, 993 (2006); *Bush v. Hawaiian Homes Comm'n*, 76 Haw. 128, 132, 870 P.2d 1272, 1276 (1994); *Ahuna v. Dep't of Hawaiian Home Lands*, 64 Haw. 327, 336, 640 P.2d 1161, 1167 (1982).

Concerned about the condition of the native Hawaiian people, Congress enacted the Hawaiian Homes Commission Act ("HHCA") in 1921 to set aside about 203,500 acres of ceded lands for native Hawaiian homesteads. Hawaiian Homes Commission Act, 1920, 67 Pub. L. 34, 42 Stat. 108 (1921); see also *Rice v. Cayetano*, 528 U.S. 495, 507, 120 S. Ct. 1044, 145 L. Ed. 2d 1007 (2000). Prince Jonah Kūhiō Kalanianaʻōle, Hawaii's congressional delegate at the time, was instrumental in shepherding the Act through Congress, arguing that native Hawaiians "were entitled to a share of the lands that had been 'ceded' from the Republic of Hawaii to the United States in 1898 because they had not obtained their fair share of the lands distributed during the Mahele." Jon Van Dyke, *Who Owns the Crown Lands of Hawai'i?* 239-40 (2008). Prince Kūhiō spoke of the native Hawaiians' right to the land as follows: "Perhaps we have a legal right, certainly we have a moral right, to ask that these lands be set aside. We are not asking that what you are to do be in the nature of a largesse or as a grant, but as a matter of justice — belated justice." *Id.* at 241.

Under the Act, native Hawaiians (those of fifty percent blood quantum or more) could obtain 99-year leases for a dollar a year for residential, pastoral, and agricultural lots. See *Native Hawaiian Rights Handbook* 43 (Melody Kapilialoha MacKenzie ed., 1991). One purpose of the HHCA was to "save" the native Hawaiian race

29

by "tak[ing] [native Hawaiians] back to the lands and giv[ing] them the mode of living that their ancestors were accustomed to and in that way rehabilitate them." *Ahuna v. Dept. of Hawaiian Home Lands*, 64 Haw. 327, 336 n.10, 640 P.2d 1161, 1167 n.10 (1982) (quoting Senator John H. Wise, H. R. Rep. No. 839, 66th Cong., 2d Sess. 4 (1920)).

Nelson v. Hawaiian Homes Comm'n, 127 Hawai'i 185, 188, 277 P.3d 279, 282 (2012).

5. Article XII, section 1 of the Hawai'i Constitution states:

Anything in this constitution to the contrary notwithstanding, the Hawaiian Homes Commission Act, 1920, enacted by the Congress, as the same has been or may be amended prior to the admission of the State, is hereby adopted as a law of the State, subject to amendment or repeal by the legislature; provided that if and to the extent that the United States shall so require, such law shall be subject to amendment or repeal only with the consent of the United States and in no other manner; provided further that if the United States shall have been provided or shall provide that particular provisions or types of provisions of such Act may be amended in the manner required for ordinary state legislation, such provisions or types of provisions may be so amended. The proceeds and income from Hawaiian home lands shall be used only in accordance with the terms and spirit of such Act. The legislature shall make sufficient sums available for the following purposes: (1) development of home, agriculture, farm and ranch lots; (2) home, agriculture, aquaculture, farm and ranch loans; (3) rehabilitation projects to include, but not limited to, educational, economic, political, social and cultural processes by which the general welfare and conditions of native Hawaiians are thereby improved; (4) the administrative and operating budget of the department of Hawaiian home lands; in furtherance of (1), (2), (3) and (4) herein, by appropriating the same in the manner provided by law.

Thirty percent of the state receipts derived from the leasing of cultivated sugarcane lands under any provision of law or from water licenses shall be transferred to the native Hawaiian rehabilitation fund, section 213 of the Hawaiian Homes Commission Act, 1920, for the purposes enumerated in that section. Thirty percent of the state receipts derived from the leasing of lands cultivated as sugarcane lands on the effective date of this section shall continue to be so transferred to the native Hawaiian rehabilitation fund whenever such lands are sold, developed, leased, utilized, transferred, set aside or otherwise

30

disposed of for purposes other than the cultivation of sugarcane. There shall be no ceiling established for the aggregate amount transferred into the native Hawaiian rehabilitation fund.

(emphasis added).

6. Article XII, section 1 must be interpreted with due regard to: the intent of the framers and the matters sought to be remedied along with the history of the times.

Kaho'oahanohano v. State, 114 Hawai'i 302, 339, 162 P.3d 696, 733 (2007); *County of Hawai'i v. Ala Loop Homeowners*, 123 Hawai'i 391, 412-413, 235 P.3d 1103, 1124-25 (2010).

7. Article XII, section 1 cannot be interpreted in a manner that would render it devoid of any real substance and effect, or lead to an absurd result. *In Re Water Use Permit Applications*, 94 Hawai'i 97, 142, 9 P.3d 409, 454 (2000); *United Public Workers, AFSCME, Local 646 v. Yogi*, 101 Hawai'i 46, 53, 62 P.3d 189, 196 (2002).

8. The Constitutional Convention's committee report for this constitutional amendment declared: "Your committee proposal makes it expressly clear that the legislature is to fund DHHL for purposes which reflect the spirit and intent of the Act. Your Committee decided to no longer allow the legislature discretion in this area." Stand. Comm Rep. No. 56 in 1 Proceedings of the Constitutional Convention of Hawaii of 1978, at 630 (1980) (emphasis added).

9. The intent of the delegates of the 1978 constitutional convention was to require that the legislature appropriate and fund the Department of Hawaiian Home Lands for its operating expenses so that monies generated from the general leasing of Hawaiian home lands would not have to be used for operating expenses. Stand. Comm Rep. No. 56 in 1 Proceedings of the Constitutional Convention of Hawaii of 1978, at 630 and 632 (1980); *Nelson*, 127 Hawai'i at 203, 277 P.3d at 297. For the purposes of fulfilling article XII, section 1, there is no legally significant distinction between money raised through a general lease and money raised through a

31

license, revocable permit, or any other use of Hawaiian home lands for non-homesteading purposes. See *Exh. A-67* at 11.

10. Article XII, section 1 mandates that the legislature appropriate to the Department of Hawaiian Home Lands sufficient funding to meet the department's administrative and operating budget. When the department needs to use money from the use of Hawaiian home lands to pay its operating costs because of insufficient funding from the legislature, article XII, section 1 has been violated. *Nelson*, 127 Hawai'i at 201 and 203, 277 P.3d at 295 and 297; *Nelson v. Hawaiian Homes Comm'n*, 130 Hawai'i, 162, 167, 307 P.3d 142, 147 (2013) (*Nelson II*); Debates in Committee of the Whole on Hawaiian Affairs, in 2 Proceedings of the Constitutional Convention of Hawaii of 1978 at 415, 421-22 (1980).

11. Because the Department of Hawaiian Home Lands is the only department explicitly identified in the Hawai'i State Constitution as being guaranteed a level of funding, the State cannot treat it just like every other department when it comes to making budget decisions.

12. The administrative and operating budget includes the Department of Hawaiian Home Lands' programmatic and human infrastructure costs. *Nelson*, 127 Hawai'i at 200, 277 P.3d at 294 ("the department had to raise revenue to sustain its programmatic and human infrastructure costs (administrative and operating expenses). . ."). Cf. testimony of Jobie Masagatani. It includes DHHL's actual administrative and operating expenses. *Nelson II*, 130 Hawai'i at 167, 307 P.3d at 147 ("[T]he State now must fund DHHL's administrative and operating expenses. As a result, DHHL will be able to shift the funds it was spending on administrative and operating expenses"). As far back as 1970 (i.e., before the 1978 constitutional convention), the State defined "operating costs" as "recurring costs of operating, supporting and maintaining authorized programs, including costs for personnel salaries and

32

wages, employee fringe benefits, supplies, materials, equipment and motor vehicles.” Act 185, 1970 Sess Laws at 384. *See also* HRS §37-62 (definition of “operating costs”).

13. The State’s position that article XII, section 1 only requires funding of \$1.3-\$1.6 million plus inflation would lead to absurd results. It would in effect mean that sufficient funds for DHHL’s administrative and operating budget would be limited to funding the approximately 54 staff positions that were filled in 1978. It ignores the fact that one-third of the staff doing DHHL’s important work in 1978 were paid for outside of DHHL’s budget. In other words, \$1.3-\$1.6 million was plainly insufficient for DHHL to pay all the employees for the work it was doing in 1978. The State’s position ignores the constitutional convention delegates’ recognition that DHHL needed far more resources and DHHL’s over-reliance on its own funds.

14. The legislature satisfies its constitutional obligation only through general fund appropriations. In determining whether the legislature has fulfilled its constitutional obligation, the State cannot rely on:

- a. money that is not actually appropriated, *see* Article XII § 1 (“...by appropriating the same in the manner provided by law”);
- b. money derived from the general leasing of Hawaiian home lands, *see* Stand. Comm Rep. No. 56 in 1 Proceedings of the Constitutional Convention of Hawaii of 1978 at 631-632 (1980) (“DHHL cannot afford to lease more acreage to the general public for the purposes of generating income to accommodate a minimal employee level. It is clear to your Committee that the intent and spirit of the Act would be better served by releasing the department of its present burden to generate revenues through the general leasing of its lands. Your Committee decided that through legislative funding this dilemma would be resolved. In that manner more lands could be made available to the intended beneficiaries.”), and *Nelson*, 127 Hawai’i at 203, 277 P.3d at 297 (“It is clear that the

33

constitutional delegates intended to require appropriation of ‘sufficient sums’ to relieve DHHL of the burden of general leasing its lands to generate administrative and operating funds. . . .”);

- c. money in Department of Hawaiian Home Land trust and special funds, *see* Debates in Committee of the Whole on Hawaiian Affairs, in 2 Proceedings of the Constitutional Convention of Hawaii of 1978 at 411 (“fund itself”), 415 (“fund its own way”), 423 (“own funds”) (1980), Exhibit 1 at 44, Hawaiian Homes Commission Act § 225, 1998 Haw. Sess. Laws Act 27, Admission Act §4(3) and Hawai’i State Constitution Article XII § 1 (“The proceeds and income from Hawaiian home lands shall be used only in accordance with the terms and spirit of [the Hawaiian Homes Commission Act]”);
- d. interest and investment income earned by DHHL, *see* Debates in Committee of the Whole on Hawaiian Affairs, in 2 Proceedings of the Constitutional Convention of Hawaii of 1978 at 414 (“Time Certificates of Deposit”), Admission Act §4(3) and Hawai’i State Constitution Article XII § 1 (“The proceeds and income from Hawaiian home lands shall be used only in accordance with the terms and spirit of [the Hawaiian Homes Commission Act]”), Hawaiian Homes Commission Act § 225;
- e. money that is derived from Act 14 funds, *see* Act 14 § 6, Session Laws of Hawai’i 1995, Special Session at 701 (“Payments made under this Act shall not diminish funds that the department is entitled to under article XII, section 1, of the Constitution of the State of Hawaii.”) and Exhibit B-43;
- f. money derived from the rental, licensing, permitting, or use of Hawaiian Home Lands or waters;
- g. money that is directly or indirectly raised from the assets of the Hawaiian Home Lands Trust; or
- h. federal funds.

34

15. The State incorrectly assumed that:

- a. all expenditures from the Hawaiian Home-Development Fund are related to the development of homestead lots. *See* HHCA § 213(e) (“for such consultant services as may be contracted for under this Act”);
- b. the term “other administration expenses” found in HHCA § 213(f) is identical to the term “administrative and operating” found in Article XII, section 1 of the Hawai’i State Constitution;
- c. the independent auditors’ category “Administration and support services” includes all of DHHL’s administrative and operating expenses;
- d. the word “and” in the term “administrative and operating budget” means “but not,” *see Nelson*, 127 Hawai’i at 197-198, 277 P.3d at 291-292 (“The words in a constitutional provision are also ‘presumed to be used in their natural sense.’”); and
- e. “programmatic” costs are not “administrative and operating” costs: *But see Nelson*, 127 Hawai’i at 200, 277 P.3d at 294 (“the department had to raise revenue to sustain its programmatic and human infrastructure costs (administrative and operating expenses). . .”).

16. The legislature has failed to appropriate sufficient sums to the Department of Hawaiian Home Lands for its administrative and operating budget in violation of its constitutional duty to do so. This failure includes every fiscal year since at least 1992. While this Court draws this conclusion based solely on the evidence presented at trial, it notes that the Hawai’i Supreme Court observed:

We agree with the Plaintiffs that, “the State has failed, by any reasonable measure, under the undisputed facts, to provide sufficient funding to DHHL[.]” The State’s track record in supporting DHHL’s success is poor, as evidenced by the tens of thousands of qualified applicants on the waiting lists and the decades-long wait for homestead lots. *See generally, A Broken*

Trust: The Hawaiian Homelands Program: Seventy Years of Failure of the Federal and State Governments to Protect the Civil Rights of Native Hawaiians (1991). With the benefit of 35-90 years of hindsight, it is clear that DHHL is underfunded and has not been able to fulfill all of its constitutional purposes.

Nelson, 127 Hawai’i at 205, 277 P.3d at 299.

[T]he State now must fund DHHL’s administrative and operating expenses. As a result, DHHL will be able to shift the funds it was spending on administrative and operating expenses towards fulfilling its trust duties to its beneficiaries.

Nelson II, 130 Hawai’i at 167, 307 P.3d at 147.

17. The DHHL Defendants’ duty of loyalty is to the beneficiaries of the Hawaiian Home Lands Trust – not the governor or the Department of Budget and Finance. *Ahuna v. Dep’t of Hawaiian Home Lands*, 64 Haw. 327, 340, 640 P.2d 1161, 1169 (1982).

18. The DHHL Defendants have a trust duty to take all reasonably necessary steps to ensure that DHHL receives all the funding to which it is constitutionally entitled. *Kaho’ohanohano*, 114 Hawai’i at 325, 162 P.3d at 719; *Ahuna*, 64 Haw. at 338, 640 P.2d at 1168; *Hawaii Carpenters’ Trust Funds v. Aloe Development Corp.*, 63 Haw. 566, 576-7, 633 P.2d 1106, 1112-3 (1981). *Cf. In re Water Use Permit Applications*, 94 Hawai’i 97, 143, 9 P.3d 409, 455 (2000).

19. This duty includes a duty to file a lawsuit to obtain the funding the Department of Hawaiian Home Lands is entitled to under article XII, section 1 of the Hawai’i Constitution. *Kaho’ohanohano*, 114 Hawai’i at 325, 162 P.3d at 719. Restatement (First) of Trusts § 177.

20. The Hawai’i Supreme Court has stated that “[i]t is within the power, and is the duty, of a trustee to institute action and proceedings for the protection of the trust estate and the enforcement of claims and rights belonging thereto, and to take all legal steps which may be

36

reasonably necessary with relation to those objectives[.]” *Kaho’ohanohano*, 114 Hawai’i at 326, 162 P.3d at 720 (quoting *Brisnehan v. Cent. Bank & Trust Co.*, 134 Colo. 47, 299 P.2d 113, 115 (1956) (citation omitted)).

21. As to a trustee’s duty to file suit against a third party, the Restatement of Trusts states, “the trustee is under a duty to the beneficiary to take reasonable steps to realize on claims which he holds in trust.” Restatement (First) of Trusts § 177. Comment c to § 177 explains:

It is not the duty of the trustee to bring an action to enforce a claim which is part of the trust property if it is reasonable not to bring such an action, owing to the probable expense involved in the action or to the probability that the action would be unsuccessful or that if successful the claim would be uncollectible owing to the insolvency of the defendant or otherwise.

Cmt. c. to Restatement (First of Trusts) § 177; *see also* Cmt. c. to Restatement (Second) of Trusts § 177 (same).

22. Prior to 2012, the DHHL Defendants breached their trust duties by failing to seek from the legislature all the funding the Department of Hawaiian Home Lands needs for its administrative and operating budget. It was beyond the bounds of reasonable judgment for the DHHL Defendants to not request from the legislature all the money it needed for its administrative and operating budget. No rationalization justified the DHHL Defendants’ conduct. *Kealoha v. Machado*, 131 Hawai’i 62, 77, 315 P.3d 213, 228 (2013); *Kaho’ohanohano*, 114 Hawai’i at 325, 162 P.3d at 719, *Nelson II*, 130 Hawai’i at 168, 307 P.3d at 148.

23. Insofar as the years of underfunding by the State continued to place DHHL in the intolerable position of having to use the Department’s own funds (including revenue from general leasing of Hawaiian home lands to non-beneficiaries) to pay for its administrative and operating expenses, it was beyond the bounds of reasonable judgment for the

37

DHHL Defendants to not take action, to not file suit against the State and to oppose Plaintiffs in this case as to the claim that the State violated its constitutional duty to provide sufficient funding to DHHL. *Kealoha v. Machado*, 131 Hawai’i 62, 77, 315 P.3d 213, 228 (2013); *Kaho’ohanohano*, 114 Hawai’i at 325, 162 P.3d at 719. The DHHL Defendants breached their trust duties by failing to file suit against the State for the legislature’s failure to appropriate sufficient sums of general funds for DHHL’s administrative and operating budget.

24. Injunctive relief is appropriate when the plaintiffs have prevailed on the merits, the balance of harms favors injunctive relief and it is in the public interest. *See e.g. Office of Hawaiian Affairs v. Housing and Community Development*, 117 Hawai’i 174, 211-12, 177 P.3d 884, 921-2 (2008) *reversed on other grounds*. The plaintiffs have prevailed; the public interest is vindicated when the letter and spirit of our constitution are properly implemented; and given the harm experienced by the beneficiaries of the Hawaiian Home Lands Trust, the balance of harms favors injunctive relief. *Cf. Nelson II*, 130 Hawai’i at 168, 307 P.3d at 148. Although the circumstances of this case are unusual, properly tailored injunctive relief is appropriate in this case. *Cf. Guinn v. Legislature of the State*, 71 P.3d 1269, 1272 (Nev. 2003).

25. Because Plaintiffs have prevailed in this case as to counts 1 and 2, Plaintiffs may file a taxation of costs (including for deposition transcripts, court transcripts, court filing fees, travel expenses for witnesses, intrastate travel for counsel to meet with Plaintiffs, copying costs, long distance telephone charges, and postage, but not fees) with the clerk after final judgment has been entered pursuant to HRCF Rule 54(d)(1), HRS §§ 607-9 and 607-24, *Kamalu v. ParEn, Inc.*, 110 Hawai’i 269, 132 P.3d 378 (2006) and *Nelson II*, 130 Hawai’i at 173, 307 P.3d at 153. Defendants are jointly and severally liable for these costs. Given the

38

State’s obligation to provide sufficient funds for the Department of Hawaiian Home Lands’ operating costs, Plaintiffs may collect the entire sum from the State of Hawai’i.

26. To the extent that the Conclusions of Law constitute Findings of Fact, they shall be so deemed.

ORDER

It is hereby declared and ordered that:

1. The State of Hawai’i has failed to provide sufficient funds to the Department of Hawaiian Home Lands for its administrative and operating budget in violation of the State’s constitutional duty to do so under article XII, section 1 of the Hawai’i Constitution.

2. The State of Hawai’i must fulfill its constitutional duty by appropriating sufficient general funds to the Department of Hawaiian Home Lands for its administrative and operating budget so that the Department does not need to use or rely on revenue directly or indirectly from general leases to pay for these expenses.

3. Although what is “sufficient” will change over the years, the sufficient sums that the legislature is constitutionally obligated to appropriate in general funds for DHHL’s administrative and operating budget (not including significant repairs) is more than \$28 million for fiscal year 2015-16.

4. Prior to 2012, the DHHL Defendants breached their trust duties by failing to take all reasonable efforts – including filing suit – to obtain all the funding it needs for its administrative and operating budget.

5. The defendants shall prospectively fulfill their constitutional duties and trust responsibilities. They are enjoined from violating these obligations.

39

6. Judgment on Counts 1 and 2 shall be entered in favor of Plaintiffs and against the State Defendants (as to Count 1) and the DHHL Defendants (as to Count 2).

Representative Tokioka rose to disclose a potential conflict of interest, stating:

"Thank you very much, Mr. Speaker. I would like to ask for a ruling on a potential conflict. My mother is on the list of one of the 27,000 Native Hawaiians on the waiting list," and the Chair ruled, "no conflict."

Representative Tokioka continued to speak in support of the measure, stating:

"I rise in strong support. And just in full disclosure, the discussion that we had as a family is if she does get the property, it will be my brother's inheritance and not be a part of anything to do with me or my kids. Thank you.

"The other thing I wanted to ask, Mr. Speaker, is if the words from the Representative from Wahiawa can be entered into the Journal as if they were my own? I'd like to also thank the department for their diligence on this and the Representative from Molokai for introducing the bill, so that we could have this opportunity to have this dialogue. Thank you very much, Mr. Speaker," and the Chair "so ordered." (By reference only.)

Representative Har rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. May I please incorporate the words of the Representatives from Molokai, Hawaii Kai and Wahiawa into the Journal as if they were my own. Thank you," and the Chair "so ordered." (By reference only.)

Representative San Buenaventura rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. As a representative of a district with a large Native Hawaiian population, I fully support this bill and I rise in support. I do not know how many Native Hawaiians on the list want to move to Puna, but I want to point out that DHHL is not only about putting Hawaiians back on the land, but it's also a community.

"By funding DHHL you also fund the community resources. Especially in Puna, where we include the Maku'u Farmers Market. It brings the community that's not only Native Hawaiians together. And as such, I want this body to remember that, that by funding DHHL, you not only fund Native Hawaiians, but you also fund the community that surrounds them. And I also would like to adopt the previous speaker's remarks as if they were my own. Thank you," and the Chair "so ordered." (By reference only.)

Representative Jordan rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support, Mr. Speaker. Permission to submit comments into the Journal. Just a few comments on the floor, Mr. Speaker. First and foremost, I'd like to thank our leadership, including yourself, Mr. Speaker. I'd like to thank our OMH Chair and our Finance Chair for hearing this measure and allowing it to get to today, for this opportunity. Thank you.

"This measure that we are talking about is to address the shortfall in the current budget that we're in that ends June 30th of 2016. I am anxiously waiting for the Governor to send down his message so we may have a dollar to put in to this request. And I hope we shall hear that before we get to budget conference. And I think that's where our next guiding point will be.

"But if it wasn't for the leadership and these chairs getting it to this point, we wouldn't have that opportunity. Because there wouldn't be any way to make the department whole for this current fiscal year without this vehicle, Mr. Speaker. So now the ball is in another court and we anxiously wait for that. And I think all parties involved have put forward the great effort of trying to express what the need is, what that need is for, and what that amount may or may not be.

"To the 27,000 beneficiaries that this will effect on that list and the potential 60,000 other beneficiaries that have chosen not to be on that list

or don't know they could be on that list, or have a challenge getting to be placed on that list, this is what we're talking about today. And this will be our guiding point as we move forward in future legislatures to figure out what the correct funding for operations of this department, this state department, is.

"We've had many conversations with the chair of that department, and I think she has made many milestones in trying to bring the department up to a place where it's going to help those beneficiaries on the land and on the waiting list. We need to reimburse them for their operating cost that they took out of their trust funds for other purposes, those other three purposes. And we all need to move forward and help with them to continue with their federal funding. This is all a big, big picture, but it looks so minute with this measure called 1932.

"I would also like permission to submit into the Journal the comments on the floor from the Representative from Molokai. They were very eloquent and we should all remember those words as we go forward, when we're talking about this particular department. Hopefully our friends in the Senate are going to be hearing this and moving it along as well. We're nowhere near the finish line. But we all have to come together to resolve a problem that started way back in 1921. And their funding has never been to any sufficient levels through the territory, through the agreement through the State, through any administration. And we've all begun to be educated on that.

"And I hope we all can take that information and move forward. Because many of those beneficiaries feel like they're forgotten. And they haven't been forgotten. That's what we all stand up and swear to. To make sure that we don't forget and make sure they deserve every benefit they can on their ancestral lands. Other than that, thank you, Mr. Speaker, for again moving this measure forward. And I will remain putting the rest of my comments into the Journal."

Representative Jordan's written remarks are as follows:

"I would like to express my strong support for HB 1932, HD 1, which is an important first step to the Legislature fulfilling its responsibility under Article XII, Section 1, of the State Constitution by appropriating sufficient general funds for administration and operating expenses of DHHL.

"As an elected official, I took an oath to uphold the Constitution of the State of Hawaii and cannot in good conscience continue to ignore the constitutional mandate upon this body to provide sufficient sums to DHHL for 4 purposes, 1 of which is administration and operating expenses.

"My district of Waianae has several residential and agricultural homestead communities that would be directly served by the passage of this bill. More importantly, the supreme court and circuit court's ruling in the Nelson case specifically quoted a longtime homesteader and respected *kupuna* of Waianae, Frenchy De Soto who explained the following: 'The Committee on Hawaiian Affairs decided that its major goals [during the 1978 Constitutional Convention] were to identify the problems and concerns of native Hawaiians as they relate to the Hawaiian Homes Commission Act in Article XI of this State Constitution. It was apparent that the identifiable problem areas were – first, that the DHHL – the Department of Hawaiian Home Lands – which provides a land base, has a monumental and eternal dilemma in funding. . . . The department must finance its own program through the general leasing of its lands. Incidentally, DHHL is the only one of 17 state departments which must fund itself. Therefore, land of any value through the years has been generally leased for revenue purposes.'

"Thus, the circuit court concluded that 'Article XII, section 1 mandates that the legislature appropriate to the Department of Hawaiian Home Lands sufficient funding to meet the department's administrative and operating budget. When the department needs to use money from the use of Hawaiian home lands to pay its operating costs because of insufficient funding from the legislature, article XII, section 1 has been violated.'

"The use of DHHL special and trust funds as reported in the budget over the last several years that I've served on the House Finance Committee for administration and operating expenses is a violation of Article XII,

Section 1. The State must at minimum provide a base budget for DHHL like they do for every other department in the State.

"This bill is a good start to appropriating funds for fiscal year 2016-2017 to reimburse DHHL administrative and operating costs, which were expended by DHHL special and trust funds for fiscal year 2016. In addition to the current fiscal year ending June 30, 2016, this body must address funding for next fiscal year. In fact, the circuit court specifically stated that 'because the Department of Hawaiian Home Lands is the only department explicitly identified in the Hawaii State Constitution as being guaranteed a level of funding, the State cannot treat it just like every other department when it comes to making budget decisions.' This requires that we do more than the minimum of providing administration and operating expenses for this fiscal year, but we should also provide \$28 million for administration and operating expenses for next fiscal year and every year in each subsequent biennium budget.

"As my constituent and Waianae homesteader who provided written testimony highlighted, 'LET'S BE DONE WITH LEGAL CASES AND JUST DO THE RIGHT THING – TO INCLUDE \$28M FUNDING.'"

Representative Saiki rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in support of this measure. I would like to first thank the Representative from Molokai for introducing this measure. It is very important, and I know that all Members of this body support the mission and the purpose of the Department of Hawaiian Home Lands, and want to do what is right.

"At this point, I feel that what we really owe beneficiaries and the general public is a very candid discussion that is also accurate. We should not create false expectations, especially amongst beneficiaries, with respect to what the Legislature may or may not do this year.

"And because of that, I wanted to point out an error that the Hawaii Kai Representative made today in his floor speech. He said that the circuit court did not grant the State's motion for reconsideration, and has obligated the State to provide \$28 million in funding each year.

"This is not correct, and I want to state that for the record, because the circuit court filed its order yesterday granting and denying in part the motion for reconsideration. And the essence of the order is that the State is obligated to provide sufficient sums to the Department of Hawaiian Home Lands, as provided by law. There is no dollar amount in the order, and I would like to just make clear, because I don't want to create false expectations for beneficiaries or for the general public that there is a specific amount that is directed by the court. Thank you."

Representative Ward rose to respond, stating:

"Mr. Speaker, second time, thank you. I want to end on a note of gratitude and correction also. Thank you for keeping your word about saying that this would be a one-day delay, and you're actually hearing it. I wasn't sure really we were going to have this bill come to the floor. So, thank you for keeping your word and doing that.

"And for those who may in a mini way accuse me of popping up as the Johnny-come-lately in support for the Hawaiians, I would say look at the Journal, for those of you who haven't been here, look for example at the speeches for Hawaiian homes, look for example at the resolution, the Hawaii apology that Peter Apo, in 1994 following the Clinton Hawaiian apology, we had an apology from the State of Hawaii to the people of Hawaiian ancestry. I would just ask those freshmen and other newbies who would not know that history of the Hawaiian community and how much lip service we've given it to this day.

"In fact, today's discussion sounds a little bit like what we had 10, 20 years ago. Mr. Speaker, you've been here 30 years, you know that. In your heart, you know we haven't done right for the Hawaiians."

The Chair addressed Representative Ward, stating:

"Yes, would you please speak on the bill before us."

Representative Ward continued, stating:

"Okay, now lastly, to straighten the record about the record that he said I did not correctly cite. The motion for reconsideration was denied. Castagnetti is not going to reopen that case and say that we don't have to fund DHHL. In findings of fact number 44 or 14, it says they will fund \$28 million. That is a statement of fact. What she did was change that language in the frontal part of her ruling and make it, as I said earlier, instead of the number six, like \$28 million, she put in a half a dozen. Saying the same thing, that we are obliged.

"And this body, until the end of this session, must come up with the \$28 million, or we are going to be in contempt of court. And I would ask him to challenge me on that one also.

"The Constitution of 1978 in the convention said, instead of 'may', it 'shall' sufficiently fund. And after a lot of discourse, a lot of proof of how much it takes to fund the Hawaiian Homes Commission and the Hawaiian Home Lands, \$28 million was sufficiently evidenced and proved to be the case.

"So if we're trying to wiggle out of it, Mr. Speaker, as the Majority Leader just said, I think we're doing the same old, same old that we tried to do before. So let's be honest, let's be forthright, let's do justice with Hawaiian people. Thank you."

Representative Saiki rose to respond, stating:

"Mr. Speaker, the Hawaii Kai Representative obviously did not read the court's order that was filed on March 8th, so I'll read the pertinent conclusion of the court, which is as follows. 'Although what is sufficient will change over the years, the amount of general funds appropriated to DHHL for its administrative and operating budget for fiscal year 2015-2016 (\$9,632,000) is not sufficient. The State of Hawaii is required to comply with the Hawaii Constitution and must fund DHHL's administrative and operating expenses by making sufficient general funds available to DHHL for its administrative and operating budget for fiscal year 2015-2016.'

"Mr. Speaker, as I said in my first statement, what we owe the beneficiaries and the general public at this point is to be accurate with the facts and to not create false expectations. Thank you."

Representative Ward rose, stating:

"Mr. Speaker."

The Chair addressed Representative Ward, stating:

"You've spoken twice already, I will not have any more discussion, thank you very much."

Representative Ward: "Could I have my colleague yield to me a couple of minutes?"

Speaker Souki: "No, nobody can yield for that, you are allowed a period of time, you have spoken twice."

Representative Ward: "Because what he said is inaccurate."

At 12:47 o'clock p.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:47 o'clock p.m.

The Chair addressed Representative Ward, stating:

"Representative, the House rule does not allow you to speak a third time."

Representative Tokioka rose to respond, stating:

"Mr. Speaker, once again in support. I'd like to ask that the discussion of this issue and the details of this issue not cloud the great issue that's moving forward. And at this time, Mr. Speaker, with all due respect, I'd like to ask to call for the question."

At this time, Representative Tokioka called for the previous question.

At 12:48 o'clock p.m., Representative Evans requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:48 o'clock p.m.

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1932, HD 2, entitled: "A BILL FOR AN ACT RELATING TO THE DEPARTMENT OF HAWAIIAN HOME LANDS," passed Third Reading by a vote of 50 ayes, with Representative Ward voting aye with reservations, and with Representative Woodson being excused.

At 12:49 o'clock p.m., the Chair noted that the following bill passed Third Reading:

H.B. No. 1932, HD 2

REPORTS OF STANDING COMMITTEES

Representatives Ing and Yamane, for the Committee on Ocean, Marine Resources, & Hawaiian Affairs and the Committee on Water & Land, presented two reports:

(Stand. Com. Rep. No. 1014-16) recommending that H.R. No. 21 be adopted; and

(Stand. Com. Rep. No. 1015-16) recommending that H.C.R. No. 54 be adopted.

Representative Saiki moved that the reports of the Committees be adopted, and that H.R. No. 21; and H.C.R. No. 54 be adopted, seconded by Representative Evans.

Representative Say rose and asked that the Clerk record a no vote for him on both measures, and the Chair "so ordered."

Representative Ward rose to speak in opposition to both measures, stating:

"Mr. Speaker, my regrets that two very serious issues are juxtaposed on the OD, so I am going to stand in strong and robust opposition to this resolution. In fact if anything, Mr. Speaker, I should rise on a point of personal privilege. There is an unwritten courtesy in this body that says, if you go into somebody's district, either to campaign, to put on a forum, put on a town hall meeting, you inform as a courtesy that that is the case.

"Mr. Speaker, this is a territorially aggressive push into Districts 17 and 18, Representative Hashem and my district. No one informed us about this issue."

The Chair addressed Representative Ward, stating:

"Will you please speak on the merits of the bill, not on your personal feelings."

Representative Ward continued, stating:

"I said it borderlines a point of personal privilege because generally, when you're going to do an incursion into somebody's district, you have the courtesy to inform them of what's going on. And Mr. Speaker, that did not happen. This resolution is all about asking Kamehameha Schools to do a land swap with DHHL.

"Because, and as I read, due to public objections to development of a number of properties, Kamehameha Schools is inhibited in its plans to develop its land portfolio which limits the capital resources available to the schools, *et cetera, et cetera, et cetera.*

"In other words, the great lawn is what this is all about. All of you know where Maunaloa Bay is. Across from Maunaloa Bay, where there's going to be a carnival in another week, that's the great lawn, that's the signage that says welcome to Hawaii Kai. That's the place that we have held very dearly. So, Mr. Speaker, when you put in a resolution like this and you don't consult us, you are going to put a bee in the bonnet of my community, Mr. Speaker.

"Kamehameha Schools knows that they cannot get this done because the great lawn has had 300 to 400 people at town hall meetings. They know that for 40 years we've pushed Sandy Beach back. We've pushed cabins on Ka Iwi back. We just raised \$650,000, \$680,000 to buy the Ka Iwi lands. As so with a resolution like this, the comments say, well we can put Hawaiian homes here, or we can put a shopping center here like Kamehameha Schools wanted to do, or strip mall, Mr. Speaker, is nonsense.

"That is really pushing the envelope and really pushing the patience of my community. And when I say you're going to put a bee in the bonnet, you're going to create a firestorm in a community that has already been divided by the NOAA and the other bills that came through here about Maunaloa Bay. But the point is, what we are doing is the same as, what I am doing is the same as Justin Cruz says. Justin Cruz says there's going to be a lot of wind and rain, and then the rain is going to stop and the wind is going to continue.

"And what I am telling you today, Mr. Speaker, if you or any Members pass this, and this is not a threat, this is a matter of fact. This community in Hawaii Kai is going to rise up and we're all going to look like we don't know what we're doing, because we're doing something for the third largest land owner in the State of Hawaii and saying, to hell with you people in Hawaii Kai. We don't care what you think about that parcel of land and what you've done for the 40 years to protect it.

"For those reasons, Mr. Speaker, this is a very bad and a very dangerous policy. Thank you."

Representative Tupola rose and asked that the Clerk record a no vote for her on both measures, and the Chair "so ordered."

Representative Jordan rose to speak in support of both measures with reservations, stating:

"Thank you, Mr. Speaker. Originally I was going to go no on this. But I think I've been convinced to do a strong reservation on HSCR 1014 and HSCR 1015. Now, I'm not interested in having these two organizations sit down and have a conversation about a piece of land. But I am interested and very intrigued with the possibility of having home land located in Hawaii Kai.

"Because I'm not sure of all their inventory and I know they don't have too many lots in a lot of areas, but I think a lot of people on that list, or potential people on that list, would love to live in Hawaii Kai, and not have to drive two hours to and from the Waianae coast, or maybe even Kapolei.

"So that's why I am going to go reservations, Mr. Speaker, on this instead of *a'ole*. Maybe we should have a conversation. I like the idea of a little bit more of KS giving some lands to DHHL in Kapalama. Let's have that discussion. I understand a beautiful great lawn and I understand Hawaii Kai community trying to discourage big condominium complexes being built. I understand all that. Because I don't want big condominium complexes built on the Waianae Coast.

"But we'd like to provide the opportunity for the native host populace to have a selection. More variety across our islands, including Oahu, where almost 900,000 people live. So I think I'm going to go with reservations on this, Mr. Speaker, and may I submit additional comments into the Journal? Thank you very much, Mr. Speaker."

Representative Jordan's written remarks are as follows:

"I would like to express my reservations to HR 21/HCR 54 which encourages Kamehameha Schools to consider land swaps with DHHL. Most of the testimony on these measures were submitted by my constituents in opposition either because it is viewed as an attempt to manipulate a private *ali'i* trust or as a way for the Legislature to circumvent its duties and responsibility to provide funding to DHHL. I must stand with the voices from my community and ask my colleagues to equally express reservations to this measure."

Representative Saiki rose to speak in support of both measures, stating:

"Mr. Speaker, I rise in support of these measures. I'd like to thank the Committee on Ocean, Marine Resources, & Hawaiian Affairs and the Committee on Water & Land for advancing these two resolutions. It was a very courageous act on the part of those committees to do that. These resolutions really reflect the Legislature's initial steps this year, stopping or at least trying to mitigate any dithering or equivocation of policies concerning the Department of Hawaiian Home Lands.

"It's pretty evident now that DHHL must consider options to create inventory and dwellings for its beneficiaries. And it is entirely appropriate, as Kamehameha Schools stated in its testimony, to involve other trusts and other land owners in that discussion. So for those reasons, I support these resolutions. Thank you."

Representative Brower rose to speak in support of both measures, stating:

"Thank you, Mr. Speaker. In support. Mr. Speaker, recently there was a land swap in Kakaako, where OHA received land from the State. And I kind of found out about this in the newspaper. And I know some legislators were working on it, so I don't take that personally. In Kakaako right now there are community groups that are supporting a community vision for that land. So if there were a land switch in Hawaii Kai, it doesn't necessarily mean that the future will come out negatively for that land. Thank you."

Representative Nishimoto rose to speak in support of both measures, stating:

"Thank you, Mr. Speaker. In strong support and I'd like to adopt the words of the speakers from Waianae and McCully as my own," and the Chair "so ordered." (By reference only.)

Representative Keohokalole rose to speak in support of both measures with reservations, stating:

"Thank you, Mr. Speaker. With reservations. I also am changing my vote from a no to a reservations. The reservations come from the fact that the mission of Kamehameha Schools, pursuant to the will of Princess Bernice Pauahi Bishop, was to use its assets, including acreages of land, to be used for the education of indigent Hawaiian children.

"That's what the Princess intended those assets to be used for, that specific mandate. And I believe the State has a broader mandate when it comes to Native Hawaiians. If it's equitable for both parties to undertake these types of initiatives within the scope of their designated duties and responsibilities, then so be it. I do think that it should probably be the State that initiates that effort, not Kamehameha Schools.

"But I'd also like to thank, in response to the merits of the particular resolution I'd like to thank the Representative from Hawaii Kai on behalf of the other freshmen for the lesson on decorum. I and presumably the other freshmen who may not have been aware that the proper protocol included notifying Representatives when initiatives being undertaken by other Members were to be done in their respective districts. I appreciate the lesson on that one.

"I also appreciate the support for other initiatives on Native Hawaiian housing, like the Native Hawaiian task force. The point of which was to do outreach to the 27,000 individuals on the waitlist to figure out where they

want to live. Figure out why many of them turn down house lot offers on the neighbor islands or on the west side, and opted out to wait for better offerings in areas that they currently lived in, areas that their families and their *'ohana* have lived in for many, many generations. Areas like the *ahupua'a* of Waimanalo, which includes the Maunalua Bay area. So, I do support the intent of this proposal in that aspect. So again, with reservations. Thank you."

Representative Pouha rose in support of both measures with reservations and asked that the remarks of Representative Keohokalole be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Tokioka rose in support of both measures with reservations and asked that the remarks of Representative Keohokalole be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Hashem rose to speak in opposition to both measures, stating:

"Mr. Speaker, can you register a no vote for me? And for the record, that land is zoned preservation."

Representative Say rose to respond, stating:

"Mr. Speaker, I did not want to say anything this afternoon, even though I did record a no vote. But I truly believe what has transpired on this floor is a very lively debate on an issue that I was very disappointed when it was heard at 11:45 after our Democratic Caucus.

"I was also disappointed, Mr. Speaker, it got me infuriated Monday, when the chair of the committee that was the lead committee did not conduct the hearing and it was the vice chair that conducted the hearing. Mr. Speaker, throughout the hearing it was all in opposition, which I can respect, but my point on the matter is that if I'm listening to general public at large was in total opposition, why did we have to pass this House concurrent resolution and House resolution out?

"It infringes upon all of you, Members of the House, in your district now, that we can designate an area in your district to say that there will be a land exchange, or negotiations, where we don't have to get involved, Mr. Speaker and Members of the House. Because we have laws on the books already that state, if there is any land disposition, land exchange, it comes before this legislative body.

"Mr. Speaker, I don't know what the process is here this afternoon, or even at the committee hearing, but I truly believe if we are going to be the people's house, we should be listening to the people who testified before this body.

"If not, so be it. And I was never going to speak on this issue. I just wanted to vote my no. I can share with all of you on the floor of this House, I asked the chair of a committee if I could walk out so that I will not kill the measure until we had the majority.

"This is not what the House action should be reflected upon. We should be reflective of the people that come before this body to do what is the greater good. But when you designate two entities for a particular parcel, it is a beginning. It is a beginning of what may happen in the future for all of you in your particular districts, in infringing on your representation without any dialogue and communication before we introduce these type of measures, Mr. Speaker.

"I apologize for speaking, but I had to say my point of view of why I walked out of that hearing. Thank you."

Representative DeCoite rose in support of both measures with reservations and asked that the remarks of Representative Keohokalole be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Har rose and asked that the Clerk record an aye vote with reservations for her on both measures, and the Chair "so ordered."

Representative Say rose, stating:

"Mr. Speaker, may I just say on behalf of myself, only myself, whatever you folks decide today, it's going to be recorded in the House Journal. Thank you."

The motion was put to vote by the Chair and carried, and the reports of the Committees were adopted and H.R. No. 21, entitled: "HOUSE RESOLUTION ENCOURAGING KAMEHAMEHA SCHOOLS TO CONSIDER THE PRACTICE OF LAND EXCHANGES TO FACILITATE THE DEVELOPMENT OF HAWAIIAN HOMESTEADS IN LOCATIONS THAT BETTER SERVE THE HAWAIIAN PEOPLE," was adopted, with Representatives DeCoite, Har, Jordan, Keohokalole, Pouha and Tokioka voting aye with reservations, with Representatives Hashem, Say, Tupola and Ward voting no, and with Representatives Oshiro and Woodson being excused; and

H.C.R. Representative Ito, for the Committee on Veterans, Military, & International Affairs, & Culture and the Arts, presented two reports:

(Stand. Com. Rep. No. 1017-16) recommending that H.C.R. No. 23 be referred to the Committee on Finance.

Representative Saiki moved that the reports of the Committee be adopted, and that H.R. No. 5; and H.C.R. No. 23 be referred to the Committee on Finance, seconded by Representative Evans.

Representative Cachola rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, I'd like to request a ruling on a possible conflict of interest. My late dad is a Filipino veteran, as a guerilla fighter," and the Chair ruled, "no conflict."

Representative Cachola continued to speak in support of both measures, stating:

"Strong support on these two resolutions, HSCR 1016 and 1017. As you all know, Mr. Speaker, a lot of Filipinos gave their lives fighting side by side with the Americans during World War II. A lot of them came to Hawaii or to the U.S. to look for a better job, or at least future for their children.

"What they did when they were all given the chance to be U.S. citizens, is to petition their children and their family to come here. A lot of them are still here waiting for their children to come to America. The remaining few Filipino veterans are now in their 90s and they are dying slowly. And if they petition their kids or their family and they are not coming here yet, if they die, that's the end of their petition, and their family will remain in the Philippines.

"So the reason why I strongly support this resolution is because the federal government came up with a policy that Filipino-Americans can be buried in any national or state veteran cemeteries. However, if they want their body to go to the Philippines to be with their families, they get zero help at all.

"So, this resolution is to request Congress and for our congressional leaders to fight for it to amend, so that the money allotted for the burial

here in the State of Hawaii in any national or state or federal veteran cemetery will be used instead for the transport of the remains to the Philippines. No more than what it costs them to be buried here. That way, they will be joined with their family in the Philippines.

"I can assure you, Mr. Speaker, that if ever the family, my family, decides to have my late father be buried in the Philippines to be with my late mother, I will not spend any taxpayers' money.

"But there's a lot of Filipinos that cannot afford at all, so we do help them by doing fundraisers in the community, so that the remains of these Filipino veterans will be joining their families in the Philippines. So I strongly support this and I urge all the Members to support it. Thank you."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 5, entitled: "HOUSE RESOLUTION URGING CONGRESS TO AMEND FEDERAL LAW TO ALLOW FUNDS FOR THE BURIAL OF QUALIFIED FILIPINO-AMERICAN VETERANS IN NATIONAL AND STATE VETERANS CEMETERIES TO COVER THE COSTS OF TRANSPORTING THE REMAINS OF FILIPINO-AMERICAN VETERANS OF WORLD WAR II TO THE PHILIPPINES AND FOR FUNERAL AND BURIAL SERVICES IN THE PHILIPPINES," was referred to the Committee on Finance, with Representatives Johanson, Oshiro, Say, Tokioka, Ward and Woodson being excused; and

Representative LoPresti rose to speak in support of the measure, stating:

"Strong support. I just wanted to let the membership know that this is such a great sister-state relationship idea. As probably the only Member who's been to Goa and spent some time there, that the state of Goa is very unique in India. Though connected by land to the rest of the subcontinent, it is separated by a mountain range and it's created its own independent culture. And just as Hawaii has the largest Buddhist population in the United States, there they have the largest Christian population in India. So it's very interesting, the function that that place plays in Indian culture has very similar function that Hawaii plays in the United States culture. And it's just a really great idea and if you ever go there, come to me and I can give you all the best places to go. It's a great place."

ANNOUNCEMENTS

Representative San Buenaventura: "Thank you, Mr. Speaker. I noticed that the Representatives for Kahuku are so very proud of their school, and I'd like to point out that I'm very proud of my *alma mater* and that's McKinley High School. And on behalf of the Representatives from Pearl City, Waipahu, the Representative from Kahala and myself, we would like to announce the 150th anniversary of McKinley High School, the first public high school in the State of Hawaii.

"On Saturday, they are going to have a 150th anniversary fair from 10:00 a.m. to 2:00 p.m. Although our football team was not that great this year, our band, however was invited to Carnegie Hall and will be playing this year. So please support them, there will be later on an anniversary gala dinner on April 28th and I will announce it at that time. But if you want some fun this Saturday, it's free, parking is only \$5. Thank you."

Representative Brower: "Mr. Speaker, Happy Belatti Day. This week, Members, we weren't in session, and one of our legislators celebrated a birthday. I consider him a very special friend. When I think of this gentleman, the adjectives that come to mind are calm, shy, introverted, the phrase 'no drama' comes to mind. Members, please, a round of applause for Representative Angus McKelvey."

At this time, the Chair stated:

"The Chair would like to remind Members that today is the deadline for introducing substantive resolutions. Please make sure that you file your substantive resolutions with the Clerk's Office by 6:00 p.m. tonight."

By unanimous consent, reading and approval of the Journal of the House of Representatives of the Twenty-Seventh Day was deferred.

GOVERNOR'S MESSAGES

The following message from the Governor (Gov. Msg. No. 14) was received and announced by the Clerk and was placed on file:

Gov. Msg. No. 14, dated March 10, 2016, requesting the immediate passage of H.B. No. 2569, HD 2, Relating to Energy, and S.B. No. 3126, SD 2, Relating to Public Schools.

ORDER OF THE DAY**REPORTS OF STANDING COMMITTEES**

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1026-16) recommending that H.B. No. 1700, as amended in HD 1, pass Second Reading and be placed on the calendar for Third Reading.

Representative Saiki moved that the report of the Committee be adopted, and that H.B. No. 1700, HD 1 pass Second Reading and be placed on the calendar for Third Reading, seconded by Representative Evans.

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition as I did in the Finance Committee, and I want to give a few reasons why that's the case. There's a lot of good things in this budget, Mr. Speaker. And I was hoping that the Chair of Finance might start out saying a few of those things as she does on third reading. But I would say that it's got a lot of good things for the homeless people, for the weak, for those who want to do entrepreneurship, those who are sick. It touches bases for housing.

"Mr. Speaker, it's a good budget. There's even something in there for international relations, Mr. Speaker. When I saw that, it made me flash back to standing on this floor with the Minority Floor Leader, arguing back and forth if the Office of International Relations should have any funding. Unfortunately, the Representative from Kailua won that and we don't have Brenda Foster or Mufi Hannemann in that office.

"The bottom line, Mr. Speaker, is that I am grateful, but I still ask, why is there something conspicuously absent in this budget? Something conspicuously absent, which I want to speak on.

"Mr. Speaker, some of the reasons why this budget is not worthy of my vote in the positive is because, HB 1700 on page 29, Mr. Speaker, allocates \$9.6 million for the Department of Hawaiian Home Lands. This is for a group of people who've been waiting for justice for 96 years and on the waitlist of 27,000 people for housing that was promised to them by the U.S. Congress and by this body, this legislature.

"The second reason why the budget falls short, Mr. Speaker, is that the host culture and the Hawaiian people, by not funding the \$28 million, is a constitutional oversight, which was mandated by the court order of Judge Castagnetti just a couple of weeks ago. And why the budget is now \$13 billion but short \$9 million is that, Mr. Speaker, this office has been

confused by the interpretation of what Judge Castagnetti had said a couple of weeks ago.

"We have to be mindful that the whole purpose of DHHL and its budget is to establish a permanent land base for the Hawaiians, and placing Hawaiians on the land in a prompt and efficient manner. Mr. Speaker, prompt and efficient means more than 96 years in the waiting. Like the Jews waiting for 100 years for a homeland, Native Hawaiians are still waiting for the homestead in their own homeland.

"So let's fast forward, Mr. Speaker, from 1920 to February 2016. The following language is taken directly from Judge Castagnetti's order. If we listen closely to her words, you can see specifically they're speaking to you, Mr. Speaker, they are speaking to me and every Member on this floor. She said in her last order, the defendants must fulfill their constitutional duty and trust responsibilities. To be clear, the court is not ordering an appropriation. Mr. Speaker, that's exactly as the Majority Leader said last week. And it's appropriate."

The Chair addressed Representative Ward, stating:

"Representative, may I remind you, we are speaking on the budget. And if you are not happy with the budget, as you are not happy with the budget, keep your comments to the budget."

Representative Ward: "Mr. Speaker, I am speaking to the \$19 million missing in the budget."

Speaker Souki: "You are speaking to there's no funds in the budget relative to Hawaiian homes?"

Representative Ward continued, stating:

"Mr. Speaker, the point is that Judge Castagnetti said the court is ordering the State to comply with their constitutional duty to sufficiently fund the Department of Hawaiian Home Lands. We have until the end of this session to be compliant. The evidence that the trial experienced amply demonstrated that the amount DHHL requires for its administrative and operating budget for this fiscal year is more than \$28 million, specifically \$28,478,966. Mr. Speaker, that is \$9,632,000 which is now budgeted in HB 1700, but is not there.

"Mr. Speaker, today's budget crosses the court's line in the sand. There is no doubt that fact finding number 44 was not vacated, because it's still in the transcript. Finding of fact 44 clearly states that unequivocally, specifically, quote, DHHL needs more than \$28 million annually for its administrative funding."

Representative Tupola rose to yield her time, and the Chair "so ordered."

Representative Ward continued, stating:

"Mr. Speaker, I've just begun to speak. So, Mr. Speaker, that's the first bottom line. The second bottom line is that we have to prepare ourselves in this budget to obey the law. Every budget that we pass should be in obedience to the law. Budget should reflect a sense of justice and fairness to the indigenous people of Hawaii, particularly because they represent the largest homeless population, the largest number of incarcerated prisoners, highest number of diabetes patients, and who are still on the lowest rung of the socioeconomic ladder of education and income.

"Mr. Speaker and Members, how can any of us deny what is due to the Native Hawaiians in this budget, HB 1700? What right can we continue to add broken promises to broken promises? What right can we deny our own court's orders? By what right can we deny the State of Hawaii Constitution, Article XII, Section 1 that we swore to uphold in our oaths for us, when it's clearly spelling out that we have an obligation to sufficiently fund DHHL.

"And Mr. Speaker, this is nothing new that I'm saying, because I have another document here called A Broken Trust, and it was written in 1991,

which basically says almost everything that I've just spoken about. A Broken Trust is from the Hawaii Advisory Committee and the United States Commission on Civil Rights, 1991, mirroring what I am saying now in 2016.

"Mr. Speaker what I am saying is very simple. Contrary to the \$100 million that is now in the Rainy Day Fund, it puts nothing in the care of the Native Hawaiians who are out either sleeping or standing in the rain. What are our priorities and where is our sense of justice?"

"This \$13 billion budget is excellent for what it does, but it's an insult for what it does not do. How long will it be before we live up to our commitments? How long will the Native Hawaiians remain patient on a string of broken promises? And how many more Hawaiians will have to die on the waitlist?"

"Mr. Speaker, in the next six weeks we have a great opportunity to amend this bill, to make things right, or, Mr. Speaker, as has been said oftentimes, we're going to end up and land back in court again.

"HB 1700 can be victorious, but only if the members of our host culture are provided the \$28 million this year and hereafter. Of our \$13 billion budget, \$28 million is less than one tenth of 1% of the state budget. Yes, Mr. Speaker, it's that little, but it's that important to do the right thing.

"So, Mr. Speaker, as I said in Finance, for now I will be voting no until such time as we did, Mr. Speaker, in the past few years when OHA said we have not had our rights to the seeded lands paid properly, that it's now a time for all of us to do the proper amounts for the Hawaiian home lands.

"With that, Mr. Speaker, I look forward to third reading when I hope I have to withdraw all of my remarks, and that there will have been an amendment that will coincide with what Judge Castagnetti has said for \$28 million for the Hawaiian homes. Having said that, Mr. Speaker, I request permission to insert additional remarks into the Journal. Thank you."

A BROKEN TRUST

The Hawaiian Homelands Program: Seventy Years of Failure of the Federal and State Governments to Protect the Civil Rights of Native Hawaiians

Hawaii Advisory Committee
to the United States
Commission on Civil Rights

December 1991

This factfinding report of the Hawaii Advisory Committee to the United States Commission on Civil Rights was prepared for the information and consideration of the Commission. Statements and viewpoints in this report should not be attributed to the Commission, but only to the Advisory Committee.

VI. Findings and Recommendations

Finding 1: The Hawaii Advisory Committee concludes that the United States has failed to exercise its trust obligations to the beneficiaries of the Hawaiian Homes Commission Act, as mandated by Section 5(f) of the Hawaii Admission Act.

The statute specifically entrusts oversight responsibilities to the Federal Government and grants it exclusive authority to enforce the provisions of the act. Despite this, correspondence to the Chairman of the U.S. Commission on Civil Rights from both the U.S. Departments of Interior and Justice denies Federal trust duties. It is clear that the United States has now abandoned any interest in protecting the trust.

This retreat is unacceptable to the Advisory Committee, especially in light of overwhelming evidence that the objectives of the Hawaiian Homes Commission Act have not been achieved in 70 years of Federal and State administration. Refusal by the Federal Government to monitor compliance, investigate complaints, and take appropriate legal actions, constitute a denial of the civil rights of Native Hawaiian trust beneficiaries.

Recommendation 1: Congressional Action; Office of Compliance and Trust Counsel

The Congress should enact legislation establishing a clear Federal trust duty to Native Hawaiians for fulfillment of the Hawaiian Homes Commission Act. In view of the current Federal reluctance to accept trust obligations under the act, this congressional action is a fundamental prerequisite to any meaningful Federal participation in corrective actions to repair the trust and make it effective.

treatment and must be remedied without delay.

Recommendation 2: Federal Recognition of Native Hawaiians

The Congress should promptly enact legislation enabling Native Hawaiians to develop a political relationship with the Federal Government comparable to that enjoyed by other native peoples in the Nation. Such legislation would encourage the realization of sovereignty and self-determination for Native Hawaiians, a goal that this Advisory Committee strongly endorses.

The legislation should also explicitly confer eligibility to Native Hawaiian beneficiaries for participation in Federal programs designed to assist Native Americans, Alaska Natives, and other protected groups who have suffered from historical discrimination.

Native Hawaiians should receive the full protection of civil rights statutes and regulations applicable to Native Americans and other protected groups in the United States.

Finding 3: With questionable legal authority and negligible compensation, the Federal Government is occupying valuable Hawaiian homelands for purposes unrelated to fulfillment of the trust.

Continued control of these lands (including Luahale, Pohakuloa, Kekaha, and Keaukaha) in defiance of trust obligations, demonstrates a callous disregard for the interests of the Native Hawaiian beneficiaries. Luahale alone constitutes one-fifth of all homestead lands on Oahu, where over 5,000 Hawaiian applicants are waiting for leases. The United States has failed to return these valuable parcels to the trust and also refused to exchange them for other suitable Federal lands or provide fair compensation for their past and present use.

The Federal executive branch of government should establish an office of compliance within the U.S. Department of the Interior to evaluate systematically performance by the State in meeting its trust duties. Comprehensive compliance reviews should be conducted on a periodic basis. This office should also establish mechanisms for receiving, investigating, and promptly resolving complaints by beneficiaries of trust breaches. It should initiate appropriate actions to recover trust assets for the State of Hawaii that were lost or diminished during the period of Federal administration of the program.

To effectively carry out its enforcement functions, such a compliance unit will need the support of competent legal counsel. The Congress and the executive branch should give serious consideration to establishing an office of trust counsel with adequate legal resources and sufficient independence to aggressively seek remedies for trust violations.

Finding 2: Unlike other Native Americans, Hawaiians have never received the privileges of a political relationship with the United States. Yet Hawaiians, whose former kingdom was a member of the international community of nations and recognized by the United States, have a compelling case for Federal recognition.

The lack of formal recognition of Native Hawaiians by the Federal Government has resulted in their inability to secure control of lands and natural resources, develop self-governance mechanisms, enjoy eligibility for Federal programs designed to assist Native Americans and other protected groups, and the denial of valuable legal rights to sue for discrimination. This constitutes disparate

Recommendation 3: Return of Federal Lands; Adequate Compensation; Amend Quiet Title Act

Immediate action is required by the Federal Government to address this critical issue. The trust must be made whole, and this necessitates the Federal Government evacuating and restoring currently held homestead lands, or negotiating the exchange of other available Federal properties that are suitable for homesteading. In addition, the Federal Government must make arrangements to provide market value compensation for past and present use of Hawaiian homelands. The U.S. Department of the Interior, with legal assistance from the U.S. Department of Justice, should immediately initiate negotiations with those branches of the Federal Government using the homelands (primarily military) to effect an expeditious resolution to this problem.

To assure appropriate judicial remedies for the uncompensated use of Luahale, the Congress should amend the Federal Quiet Title Act, which currently includes a 12-year statute of limitations. This would allow resolution of the problem through the Federal court system in the event administrative negotiations are unsuccessful.

Finding 4: Native Hawaiian beneficiaries are denied the explicit right to sue for enforcement of the trust in Federal court under the Hawaii Admission Act and the Hawaiian Homes Commission Act. Because of the very narrow scope of judicial remedies available in Federal and State courts, and extensive procedural and jurisdictional constraints, beneficiaries are effectively denied full access to judicial remedies for breaches of trust.

In view of the unwillingness of the Federal Government to file such actions on their behalf, beneficiaries are effectively denied the right of judicial redress. The Advisory Committee believes this represents an egregious

abridgement of the equal protection of the laws for Native Hawaiians. In addition, there are insufficient legal resources to directly assist beneficiaries in pursuing legal remedies.

Recommendation 4: Right to Sue: Legal Resources

The U.S. Congress should enact legislation explicitly granting beneficiaries the right to sue in Federal court for breaches of trust under the Hawaii Admission Act and the Hawaiian Homes Commission Act. Such legislation should be enacted promptly, without regard to existing "right-to-sue" laws enacted at the State level, and severely limited remedies presently available through the Federal courts. Otherwise, beneficiaries will be effectively precluded from seeking restoration for breaches of trust inflicted during the nearly 40 years of Federal administration of the Hawaiian homes program.

Increased rights for Native Hawaiian beneficiaries may be meaningless without the availability of adequate resources to pursue such claims. The complex nature of many issues involving Hawaiian homelands necessitates significant resources to fund such litigation. The Advisory Committee recommends a significant increase in Federal funding of legal services programs for Native Hawaiian beneficiaries.

Finding 5: The United States has failed to provide funding support or sustained technical assistance for implementation of the Hawaiian Homes Commission Act. This failure has persisted despite the fact that the legislation was enacted by the United States Congress and that most of the damage done to the trust occurred during the territorial period. With the exception of limited technical and "housekeeping" initiatives, the Federal Government has largely ignored the findings and recommendations of the Federal-State Task Force.

Recommendation 5: Federal Funding and Technical Support

The U.S. Congress should enact legislation establishing a fiduciary responsibility of the United States for accomplishing the purposes of the Hawaiian Homes Commission Act. Enhanced Federal financial support is critical to the success of the program.

In addition, the U.S. Department of the Interior should provide technical assistance and support to help the State of Hawaii effectively implement the program. This function should be entirely independent from the compliance unit, and should serve to assist the State in aggressively seeking Federal financial and technical assistance from all sources.

Finding 6: An accurate inventory of Hawaiian homelands has never been achieved, resulting in an inability to reconcile discrepancies and resolve disputes.

Despite efforts by the State to correct this problem, there still exists only an estimate of the total acreage. This problem is largely the making of the Federal Government, as the original statute was imprecise as to the lands included and a comprehensive survey was not undertaken prior to transferring title to the State of Hawaii.

Recommendation 6: Federal Support for Completing Land Inventory

The U.S. Department of the Interior should fund and provide technical support to assist the State of Hawaii in conducting an exhaustive research project designed to document and define the total homelands inventory. The Federal Government should also assist the State in designing and implementing a management system that is capable of continuously updating the inventory, based on new information and changes resulting from land transactions.

Finding 7: The Federal-State Task Force report remains the most comprehensive and

ment to compete successfully with other more powerful political influences affecting public policy. The placement of the trust obligation in a relatively small State agency largely subordinate to other greater public interests results in a conflict of interest. From the inception of the program, the ability of larger economic and political interests to prevail over Native Hawaiian trust entitlements have worked to render the program ineffectual.

Recommendation 9: Enhanced Technical Resources; Alternate Administrative Mechanism

The Department of Hawaiian Home Lands needs enhanced staffing in order to perform its many varied functions. Management, technical, and legal capabilities must be improved. The department should not rely on other State offices for legal and technical representation, as these entities are not acting exclusively on behalf of native beneficiaries.

The reconvened Federal-State Task Force should promptly begin the process of developing recommendations for alternative administrative mechanisms to implement the Hawaiian Homes Commission Act. The Native Hawaiian community, including homesteaders, other beneficiaries, and advocacy organizations, must be fully consulted in this endeavor. The objectives of the study should be to devise a structure that, to the extent possible, insulates the trust from inherent conflict of interest difficulties.

The task force study and recommendations on a new mechanism must be accomplished in an expedient manner. This Advisory Committee believes that it is unlikely that the Hawaiian homes program will ever succeed unless the trust functions can be managed in a more independent, aggressive, and creative manner, with increased accountability to the beneficiaries. Indeed, the new administrative

structure should be governed and primarily directed by Native Hawaiians. This recommendation is in keeping with the mandate of the Hawaii Supreme Court which specified that the trustee is obligated to administer the trust solely in the interest of the beneficiary. The current structure fails to meet this test.

Finding 10: Decisionmaking in the Department of Hawaiian Home Lands is formally vested in a commission appointed entirely by the Governor. There are no systematic or institutionalized mechanisms for decisionmaking influence by the beneficiaries themselves. Furthermore, Native Hawaiians have consistently expressed frustration at the difficulty in accessing information from the Department of Hawaiian Home Lands or in resolving problems in a timely and satisfactory manner.

Recommendation 10: Appointments to the Hawaiian Homes Commission; Appointment of Ombudsmen

Until a complete restructuring of the Hawaiian Homes Commission is achieved (see recommendation 9), the Governor should consent to make appointments to the commission based on recommendations made by Native Hawaiian beneficiaries in a democratic manner. Furthermore, the Department of Hawaiian Home Lands should immediately appoint full-time ombudsmen on every major island to assist beneficiaries with problems or questions relating to their status or entitlements.

Finding 11: Failure of the Department of Hawaiian Home Lands to develop management plans for the productive use of large areas of trust land, combined with the willingness to lease land to nonbeneficiaries for purposes of generating revenue, effectively defeat the goal of putting beneficiaries back on the land. Many competing priorities on the limited staff and resources of the department have contributed to this situation. However,

accurate assessment of the Hawaiian homes program. No formal followup or reevaluation was ever undertaken, although this was called for in the study. The extensive findings and recommendations serve as the benchmark for measuring progress. Although the State has been partially responsive, the Federal Government has virtually ignored much of the advice provided in this document.

Recommendation 7: Federal-State Task Force Responses; Reconvening the Task Force

The State of Hawaii should address in a more substantive manner those task force recommendations that it has failed to adopt or implement. In those instances where actions have not been taken due to higher priorities, the State should establish a proposed timetable for full implementation.

It is especially imperative that the Federal Government provide a full accounting for its almost complete disregard of many task force findings and recommendations. The U.S. Secretary of Interior should assign a high priority to a prompt and thorough response.

In its responses, both the State and Federal governments should make every effort to update systematically critical information contained in the 1983 document.

In addition, the Secretary of the Interior and the Governor of Hawaii should immediately reconvene the Federal-State Task Force to review progress in implementing recommendations in its 1983 report and to undertake new oversight and advisory functions, as necessary. The task force should meet on a periodic basis and issue reports to the Congress and the Hawaii legislature at least biennially.

Finding 8: The State of Hawaii amended its constitution in 1978 to provide full funding of the Hawaiian homelands program, including administration, operations, and

programs. However, the Department of Hawaiian Home Lands receives less than 0.2 percent of the State's overall budget, and is therefore still exceedingly dependent on revenues generated by leasing homestead lands to nonbeneficiaries. This creates a conflict of interest situation that adversely affects beneficiary entitlements. Although funding for the program has increased measurably, especially during the administration of Governor Waihee, it falls far short of the resource level necessary to support the ambitious mandate of the Hawaiian Homes Commission Act.

Recommendation 8: State Funding

The Governor's budget submissions to the legislature should incorporate the full amount of financial assistance necessary to support effective implementation of the program. At the same time, the State should continue to aggressively solicit funding assistance from the Federal Government, which has a responsibility to assist the State in fulfilling the provisions of the act.

Finding 9: The Department of Hawaiian Home Lands continues to suffer from a lack of continuity in leadership, inadequate staff levels, and bureaucratic inefficiencies. The department lacks critical technical expertise, and creative initiatives have been stymied by the need to accommodate many competing priorities. Many recommendations in the Federal-State Task Force report have yet to be addressed as a result of these limitations. Furthermore, the basic structure of the department has impeded its ability to perform its trust duties effectively. As a State government agency within the executive branch, it is unable to function exclusively in the interests of its beneficiaries. The department is subject to many policies and regulations relating to budgeting, personnel, and administration that can frustrate its efforts. Of greater concern, however, is the inability of the depart-

ment to develop plans in a timely manner and to withdraw harmful leases, is inflicting lasting damage on the beneficiaries. In some cases, they have been waiting for as long as 30 to 40 years for residential, ranching, or farming lands, with no hope of imminent awards. Some have died and many more certainly will without receiving the benefits promised in the Hawaiian Homes Commission Act.

Recommendation 11: Limiting Revenue-Generating Leases to Nonbeneficiaries

The Hawaiian Homes Commission should drastically curtail the practice of leasing lands to nonbeneficiaries in order to generate revenue. The practice is injurious to the interests of the beneficiaries, in too many cases depriving them of their lands. The Department of Hawaiian Home Lands should secure the necessary management and technical assistance required to develop suitable management plans in an expeditious manner. Wherever there is a conflict between a lease to nonbeneficiaries and the clear interests of eligible beneficiaries, the latter should prevail.

The Hawaiian Homes Commission should make every effort to use Hawaiian Home Lands for the original intent of the act, which is to rehabilitate the Native Hawaiian by returning him to the land.

Finding 12: The Advisory Committee concludes that Native Hawaiian rights to gather, hunt, and fish for subsistence purposes, and to have access to sacred places of worship on Hawaiian Home Lands have been insufficiently protected by the State of Hawaii.

Recommendation 12: Access to Homelands

The Hawaiian Homes Commission should adopt policies and procedures in a timely manner that will allow Native Hawaiians to exercise traditional practices of gathering, hunting, fishing, and religious worship on Hawaiian homelands. These rights should be specifically reserved for Native Hawaiians, and the Department of Hawaiian Home Lands should restrict entry by other persons. A permit system might be appropriate to assure regulated access by qualified beneficiaries to the lands.

Office of the Assistant Attorney General

August 31, 1990

Mr. Arthur A. Fletcher
Chairman
United States Commission
on Civil Rights
1121 Vermont Avenue, N.W.
Washington, D.C. 20425

Dear Mr. Fletcher:

I have been asked to respond to your July 6, 1990 letter to Attorney General Thornburgh seeking Justice Department participation in an August 2, 1990 fact-finding meeting in Hawaii. The subject of the meeting, convened by the Hawaii Advisory Committee to the United States Civil Rights Commission, was implementation of the Hawaiian Homes Commission Act. As was communicated to your office by phone prior to the August 2 meeting, this Department was not able to send a representative to Hawaii. I have, however, taken this opportunity to offer a brief written response on behalf of the Department to the questions included in your July 6 letter. As you can see, the Justice Department has, at most, a peripheral role in implementation of the Hawaiian Homes Commission Act.

Turning to your specific questions:

1. How does the Department of Justice exercise oversight responsibilities for the Hawaiian Homes trust under Section 4 and 5 of the Hawaii Admission Act of 1959?

The State of Hawaii is trustee of the Hawaiian Homelands. See *Keaukaha-Panapa Community Assoc. v. Hawaiian Homes Comm'n*, 588 F.2d 1216, 1224, n.7 (9th Cir. 1978). The Justice Department does not oversee the trust. To the extent that there is active federal oversight, it is exercised by the Department of the Interior, which has accepted the status of lead federal agency in connection with federal responsibilities under the Hawaiian Homes Commission Act. Justice Department involvement, if any, would be to bring a legal action to enforce the trust under Section 5(f) of the Act. Owing to Interior's status as lead federal agency and overseer, the Justice Department would

Representative McDermott rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I appreciate your encouragement to wait till third reading, but the situation before us requires that I speak. First, I want to thank the Finance Chair for all of her hard work. She is a diligent professional. I know her team is a team of dedicated professionals and that they want nothing but the best for our students and our state.

"Mr. Speaker, I am concerned about parts of the education budget here."

Representative Evans rose to a point of order, stating:

"Excuse me, Mr. Speaker, is the speaker in support or in opposition?"

Representative McDermott continued, stating:

"Support, thank you. Support with grave reservations. I am sure that the majority body believes that this document should reflect the feeling that every student should have a first class high school. And I want to say that right up front. Every student across the State should have a first class high school, Mr. Speaker, and I know everyone in this body believes that. I know they do.

"But how do we get there, Mr. Speaker? How do we get to appropriating funds for certain projects? I think when it comes to children, these policies should be child-centered and student-based. Based on hard data, enrollment figures, growth projections. How many seats do we have for the students, Mr. Speaker? How many seats do we have for kids?

"It would seem to me that the highest priority we have is ensuring that students have a place to sit. Mr. Speaker, you don't hear me down here talking about air-conditioning anymore. We used to say that the classrooms at Campbell were like ovens. The problem now, Mr. Speaker, is we don't have enough ovens to put the kids in. So we've gone from

cooling the ovens to now we just need ovens. Isn't that a sad state of affairs, Mr. Speaker?

"So my job here is to point out that the Governor's budget had \$31 million for a new building at Campbell High School. And we cut that to \$15 million. Mr. Speaker, do you know how many kids are at Campbell High School today? Take a guess. Three thousand one hundred and two children, 3,102 children.

"Kapolei, which was built 14 years ago, is also overcrowded with 2,118 children. And their overcrowding is due to the Campbell kids getting geographical exceptions to go to their school. These two schools have over 5,000 students in them.

"Mr. Speaker, this needs to be addressed. So my job is to point out the need for fully funding the Governor's \$31 million request, which we cut in half. Which is an urgent need, the Governor put it in. Mr. Speaker, you may not know this, but the Governor is not a part of the Bob McDermott fan club. He put it in without discussing it with me. He put it in nonetheless. We cut it in half, we cut it into the amount that we provide for performing art centers at other schools, which are nice to have.

"This is exigent circumstances. This is an emergency situation. The parents are outraged, the community is outraged, the neighborhood board is outraged. But I can't blame the Chair of Finance, Mr. Speaker. I cannot blame her, because I have to assume that the Chair of Finance is given the same information I am from the Department of Education.

"I asked the Department of Education not once, not twice, but three times, what is your number one priority for a new high school? And each time I got a two-page non-answer. Two-page non-answer. So apparently, there is no priority for a new high school.

"Mr. Speaker, in this budget we are building a new high school on your island. Which is not needed. Thirty-seven million dollars. Enrollment between Maui and Baldwin is going to go down in the next three years by 400 students, while the combined enrollment between Kapolei and Campbell goes up by 768. Who builds a new high school where it's not needed?"

Representative Ward rose, stating:

"Mr. Speaker, I yield my time."

Representative McDermott continued, stating:

"Who builds a new high school where it's not needed?"

At 12:26 o'clock p.m., Representative McDermott requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:29 o'clock p.m.

At this time, the Chair stated:

"I ask the Members to respect each other, maintain decorum. You are Representatives, you represent the people of the State of Hawaii."

Representative Pouha rose to yield his time, and the Chair "so ordered."

Representative McDermott continued, stating:

"Thank you, Mr. Speaker. Mr. Speaker, the point is, we're allocating money for a high school that doesn't need to be built. The enrollment on Maui goes down by 400 students in the next three years, while the enrollment on West Oahu goes up by 769 students. This is akin to Castle High School having a roof leak and we build a new high school in Molokai to solve the problem. It's not needed, Mr. Speaker.

"The proponents of this project cite a 1990 EIS. We don't do anything on 25-year-old EISs. And the other thing they cite is a 45 minute bus ride. Mr. Speaker, I had a 45 minute bus ride every day. Maui is a rural community

as opposed to Oahu, so you can't compare Farrington High School to rural communities. You just can't do it. Its apples and oranges. Eighty percent of our population here resides on 20% of our land.

"Mr. Speaker, the terrible part about this is if we go ahead and build this high school, there will be no new high school in West Oahu for over a decade. Because we can't afford it. We are going to sentence a generation of kids on the west side to overcrowded classrooms, hot classrooms.

"By the way, Mr. Speaker, when you have 3,500 students in a high school, the good news is we'll probably win every state championship. The bad news is, when you field a team like a basketball team, you can only take 15 kids. There will be children who are good enough to start at any other high school, who will be cut from extracurricular activities and lose that opportunity and experience to participate, because we are not building a high school in West Oahu.

"The DOE knows that if we build this school on Maui, they're not going to have a chance to build a new high school within the next 10 years. That's why they don't even have a site selected. They have no priorities, they have no site selected, so then we're left to go by the whim of our political views and political muscle.

"This should be a child-centered, student-centered decision. You know, in this body we talk a lot about it's for the *keiki*, it's for the children, it's for the *keiki*. Where are all those people now about the *keiki*? I got a school with 3,000 children in it, going up to 3,500 in three years. These are DOE numbers, by the way, Mr. Speaker. They're from Colleen Matsumoto, Information Specialist. So these aren't Bob McDermott numbers.

"Today Campbell High School is at 3,102. In three years it goes up to 3,545. Kapolei, 2,063, it goes up to 2,373. Now we're building a high school on Maui to relieve Baldwin and Maui High. Their current enrollment is 1,408 and 1,849, respectively. They both drop down to about 1,400 in three years. Both will be under capacity.

"Now, when you build this new high school there, you're now adding the burden, administrative cost and burden to the Department of Education to run and maintain that new school. And you're pulling about 400 to 500 kids out of these other two schools, so you'll have about three schools with 900 students. Because of student weighted formula, those other schools will lose some programs, teachers and extracurricular activities that they currently have.

"So you have three high schools with 900 students, and you have poor Campbell High School with 3,500 students. The assistant principal thinks it's going to be closer to 4,000. He's probably right, but I can only go by these projections.

"Now I have a selfish interest why I am pushing this, Mr. Speaker. That selfish interest is I have a sophomore there and I have two more children in the queue. One is going to be a freshman next year and then one the year after that. And they are going to be put into a campus with over 3,000 children. Where are the bleeding hearts who talk about the kids all the time? And they're going to sit by silently and watch this travesty as we sentence a generation of students on the west side to overcrowded campuses, campuses that are criminally large in nature.

"The average high school is 1,468 across the United States, from the National Coalition for Education Statistics."

The Chair addressed Representative McDermott, stating:

"Okay, please cut it off, this is the third time. I'm not allowing any more, so please summarize."

Representative McDermott: "I haven't had a third time."

Speaker Souki: "Please summarize, I'm going to cut you short."

Representative McDermott: "Okay, so tomorrow, when the Finance Chair speaks, they get 10 minutes and 11 seconds and that's it. Nobody else gets more than that."

At 12:35 o'clock p.m., Representative Saiki requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:37 o'clock p.m.

Representative Thielen rose to yield her time, and the Chair "so ordered."

Representative McDermott continued, stating:

"Thank you, Mr. Speaker. Mr. Speaker, as I began to state, I'm very concerned about this. So much so that the lack of this in the budget that I talked to the Governor's Chief of Staff and I showed him the chart with the declining enrollment.

"Mr. Speaker, we run the risk of wasting a year here. And what I mean by that is it wasn't in the Governor's budget, the Governor has sold us that he is a methodical engineer who evaluates things based on need. If we appropriate this money, which by the way is \$37 million, and that won't buy one classroom, one brick, one slab of mortar. That is only to level out this land, which is at about a 20 degree angle.

"So what are we doing? The point here, Mr. Speaker, is we're building a new high school where it's not needed, when we have exigent circumstances in West Oahu and we are throwing them a crumb, \$15 million. Exigent circumstances, this is an emergency situation. And you know what? I am the only one I guess who can read a chart, apparently, about enrollment figures.

"This is a crisis situation, it needs to be resolved. And I am here not in a partisan fashion. I'm here for these children. For my kids, literally my kids, who go to this school, and the parents who are frustrated. And I can't go in good conscience and say, well, we're building a high school on Maui where they don't need one, Mr. Speaker. And with that, I'll save the balance of my remarks for third reading. Thank you, sir."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1700, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE BUDGET," passed Second Reading and was placed on the calendar for Third Reading, with Representative McDermott voting aye with reservations, and with Representative Ward voting no.

Representative Morikawa, for the Committee on Human Services, presented a report (Stand. Com. Rep. No. 1027-16) recommending that S.B. No. 2409, SD 1, as amended in HD 1, pass Second Reading and be referred to the Committee on Judiciary.

On motion by Representative Saiki, seconded by Representative Evans and carried, the report of the Committee was adopted and S.B. No. 2409, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CHILD VISITATION," passed Second Reading and was referred to the Committee on Judiciary.

ANNOUNCEMENTS

Representative Morikawa: "Last week Friday was sort of Belatti day, although the Representative said it was no such thing. However, Mr. Speaker, today is truly Belatti day, because it's her birthday. Let's all wish the Chair of Health a very happy birthday."

Representative Evans: "Thank you, Mr. Speaker. Spring break is happening for our public school kids starting tomorrow, and I am happy to announce the Outdoor Heritage Caucus, which are Members of the House and the Senate who have come together to identify, protect and promote the State of Hawaii's heritage of outdoor recreation and foster appreciation and respect for outdoor heritage.

"Tomorrow from 9:00 a.m. to 11:00 a.m. we have an event in the rotunda. Our message is, play outdoors, play safe. Also, we'll have three

floor presentations tomorrow, honoring PATH, Access Surf and the Hawaii Bicycle League. So, from 9:00 a.m. to 11:00 a.m., we have organizations that will be with us, and at 10:00 o'clock we invite all Members to come for a press conference and then we will take a picture. Thank you, Mr. Speaker."

Representative Ing: "There is a presentation today in Room 423 at 1:30 p.m. Brooks Tanenaka and the fishing guys, they're doing an educational briefing for the stuff that they're dealing on a state level. Good people, you should come check it out."

THIRD READING

H.B. No. 1700, HD 1:

Representative Saiki moved that H.B. No. 1700, HD 1 pass Third Reading, seconded by Representative Evans.

Representative Luke rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Mr. Speaker, I rise to speak in favor of House Bill 1700, House Draft 1.

"Mr. Speaker, I would like to first recognize the hard working budget staff of the Finance Committee. When I call your name please stand, and Members if you could hold your applause until everyone is recognized.

"First up, of course, is the Budget Chief, Albert Vargas. Next is Derek Shigano, and this is the guy you want to know because he is also the CIP Specialist. Julie Yang, who also is my Office Manager. Slowly walking in is Stacey Tagala. Aadel, who is also known as AJ, also known as Aj Khandaker. Daniel Park, Bethany Foo, Sean Patrick, and Julian Downey who is a returnee, he actually worked in all three sections, the front office, the research section which is the bills section, and the budget section, so he knows the ins and outs of the whole Finance Committee. Matt Tsujimura who is doing his fourth term working in Finance because he's a glutton for punishment and he keeps coming back. And of course, last but not least, Nan Kalupahana somewhere. Is he in there? Okay, he's in there. So if we could give a round of applause to all these folks. Okay, you can sit down.

"One of the things I learned this year, Mr. Speaker, I've been in Finance for four years and I've known Nan for longer than that and I think we all know Nan. And for the first time, we've all called him Nan or Nandana, but for the first time I found out that's not the right pronunciation. And he, because being a good staff, he just endured us calling him the wrong name. So, it's actually Nandana. So if we could all say it together, so as not to offend him, it's Nandana. So together, one, two three. So we, I truly want to apologize to Nan for mispronouncing your name as Nandana and kinda like putting an Anglo-Saxon pronunciation to it, so my apologies to you. So, we will not do that anymore. So, it's Nandana.

"So if you could all join me, because these guys work hours, and when I go home at five or sometimes at four I run away and I refuse to work on weekends sometimes, these guys are here all the time and they answer all the questions and they are very receptive to any Member. And so these folks, they are the ones making sure that people don't miss their assignments, and during the interim as well a lot of these folks have helped us organize a lot of the interim assignments. So if we could just give them a round of applause again.

"And of course, I want to thank the members of the committee. I have become very good friends with each and every one of you and I depend on all of you for your insight and thoughtfulness. I think in the Finance Committee, even during long hours, we really are fond of each other and we laugh at each other and I appreciate all the hard work that you all put in. Especially our newest member, I know it was a learning curve, but he is a terrific participant, so you also deserve a round of applause, all of you folks.

"I also want to thank the CIP Chair, because he is low key and he does his work, but as soon as he gets the executive budget, he has his full-on big screen computer. Oh, am I out of time already?"

Representative Mizuno rose to yield his time, and the Chair "so ordered."

Representative Luke continued, stating:

"I was having too much fun. Thank you very much, Vice Speaker. And as soon as he gets the executive budget it's like a kid in a candy store, and he lays out every single project in this huge, big screen and he goes, oh, look, look, look what they're doing, oh, look, look what I found. And I never see him so animated other than when he's looking at his screens. So, it gives him so much pleasure. But he does such a terrific job, so my deepest gratitude goes to the CIP Chair who does a terrific job and we don't recognize enough what hard work he puts in, so thank you.

"And if it wasn't for the GIA Chair, I would be having to meet with the 200-plus GIA applicants. But he spares me. I just can't possibly meet with every single one. He goes through every single applicant, he points out deficiencies and he always looks for ways to make the system better and transparent. And for us to even think about going through 200-somewhat applications and sorting through every single one and being fair and

reasonable, I don't envy his job, so I want to just thank him. And we're getting ready for our GIA hearing on Friday, so he just does a terrific job. So thank you, GIA Chair.

"And my thanks go to also the subject matter chairs. They really look at the budget in their areas and they give terrific input, especially, I know this person enjoys looking at every single dime and penny, and you know who I'm talking about. Yeah, it's not Angus. Yeah, it's you. The Chair of the Higher Education Committee, along with the Vice Chair, they really look for all kinds of different solutions in the UH budget. For them to do this kind of in-depth work as subject matter chairs, it's really terrific.

"Where I want to bring the Finance Committee is to build our budget in the future, and they are kind of leading the stage and leading the example to where we need to be several years from now, so we can call this a truly legislative budget as opposed to an executive budget. So thank you to all the chairs, and for timely prioritizing your bills as well.

"Mr. Speaker, today instead of just talking about how I do the usual Council on Revenues and how much the budget is costing us and all the number things, but I can see by your faces that you are already bored with my speech and I am already eight minutes in, and my apologies to the Ewa Representative from the other side, since at that point when he thought, oh are you going to spend ten minutes on your speech? I thought, there's no way I'm going to spend ten minutes, but looks like I am and more. So my apologies.

"So, instead of doing all that, I'm just going to cut to the chase and I'm just going to talk about the vision of the Finance Committee. Four years ago, this committee sought to address long standing problems in the state budget. That's why four years ago, the committee took an aggressive approach to reducing the number of vacancies by eliminating about 1,000 positions that have been vacant for over one year. Of course, at the end of the budget, we only ended up eliminating only a handful because it was in agreement between the Executive and the House and the Senate.

"But what this committee found is that filling vacancy was not a human resources problem or a willingness problem, it became quite clear that the departments were forced to leave vacant positions unfilled so that they could use the funding for positions to pay for sick leave and vacation payouts when one of their own employees retired."

Representative Johanson rose to yield his time, and the Chair "so ordered."

Representative Luke continued, stating:

"Thank you, Representative. Therefore, the committee began creating vacation payout funds for the departments, and I want to thank all the members of the committee who participated in this approach and understood what it needed, what we needed to change the mentality and the way we do budget in state government. And I think the Members agree that no department should be forced to pass on hiring a qualified staffer, just because there wasn't enough money to pay for retiree benefits.

"The other thing was that departments use vacant positions to fully fund positions that had not received full funding for critical positions in the past. And for me I am a skeptic because I think, what critical positions would there be in the state budget? Well, as an example, first deputy of the Attorney General's Office has never been fully funded. And I would think that's kind of a critical position. And the budget person in the Attorney General's Office was never fully funded either, and the budget person for the Attorney General's Office is also a critical position. And the deputy controller, the deputy director of DAGS, was not fully funded. So I could go on, but I think you folks get the gist.

"And so this year, the committee has also found that the deputy adjutant general is not funded, so we have fully funded that deputy adjutant general position as well. So the committee will continue to search for critically unfunded positions, so that the departments would not need to rely on vacancy savings to backfill these positions.

"If that was the end of the problem then I think it would be simpler, but that is not where the problem ends. The complicated weave between the use of special funds and general funds further exacerbates the issue, and as a result the Legislature loses its power of appropriation. And that way, neither the Legislature nor the public knows how the money is being spent. That is why the Department of Health somehow ended up using tobacco funds to buy a bunch of bicycles. And that is why the Department of Agriculture used the barrel tax money to pay for a grant to youth choir.

"I am sure if we can reign in the special funds, then some of these things would not have happened. That is why the committee has continued to examine special funds, and I want to thank the members of the Finance Committee who have taken special interest in this area and for helping me with that. And I know you know who you are.

"The committee will continue with its work to ensure that departments use their funds for what they were intended, and I think that's the same kind of mantra that the Chair of Higher Education goes for. If we give the money, then it should be used for what it's intended.

"There are many problems associated with use of vacancy savings, special funds and temporary assignments, among others, that lead to unclear budgeting process. And unless we do these clean-up things now during the times when we are economically stable, we will have a difficult time when the economy sours and the Legislature is forced to make cuts to programs and services.

"I can say now though, Mr. Speaker, the relationship between the departments and the Legislature has greatly improved. At first, the departments were skeptical of the creation of the vacation funds, but now almost every department, including the Legislature, wants to create such a fund so that they don't have to not fill positions to pay retiree benefits. The departments are now being more judicious when requesting new positions, if there are vacancies within its own department. And they are also willing to convert programs attached to special funds to general funds.

"Mr. Speaker, the budget is more than just a funding mechanism for the executive branch. This budget is part of the committee's goal to true up and be transparent about how the public's money is being spent. Therefore, I respectfully submit this budget for you and your Members' consideration. Thank you."

Representative Tsuji rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Thank you. This budget bill, in my observation, is a strong statement, a testament, emphasizing the commitment for all in the State of Hawaii. It includes the addition of new sections, providing unrestrained support for agriculture sustainability in our State of Hawaii.

"With this in mind, Mr. Speaker, I'd like to take at least this initial time to thank State House Finance Committee Chair, who hails from Makiki/Punchbowl, and her associates, for having the wisdom and fortitude for tediously taking time to carefully review a very important segment of this bill and amending our session laws as they pertain to agriculture. Agriculture biosecurity, Mr. Speaker.

"These concerns started over decades ago. Invasive species have become more and more of a problem, disrupting transportation improvements at Kahului Airport in the 1990's and causing litigations to go to federal and state courts. The court decision resulted in the State being forced to implement invasive action plans at Kahului Airport in the year 2000. With the Hawaii Superferry, the invasive species program was forced to go statewide and became known as Hawaii's biosecurity.

"But unfortunately, Mr. Speaker, invasive species do not just delay transportation improvements. They also cause serious problems with our natural resources and our agricultural industry. In 2009, our agricultural shippers were threatened with embargos by the federal government, warning them that any future pest interceptions on their products would cause them not to be allowed to ship anywhere within the continental United States.

"Now there is also growing concern that interisland shipments and shipping of agricultural shipments will cause problems to the other islands. We will continue to lose farmers if they cannot get their products to market and we will ultimately lose agriculture.

"Now is the time to get biosecurity back on track. After years of waiting, this piece of legislation will put resources to prevention and prioritize items of importance to farmers and growers of our crops. It will direct funds to the commodity associations, to put in pest management systems into agricultural production areas. It will increase the varieties of vegetables, fruits, flowers that are available to our farmers. It will initiate planning for marketing facilities for agricultural products for the Big Island, and it will serve as the prototype for all of our islands.

"This is the first big step. We need to get behind agriculture and continue in every necessary function in order for agriculture to survive. If I may take a few minutes more and identify in this budget bill six very important categories that were agreed upon to present to you today.

"Number one, \$200,000. Inspections have decreased from over 9 million parcels in 2012 down to some, let's say 5 million in 2015. Simple mathematics, over 56% downward. This means risk assessments have not been done since 2013. This is not desirable, this is the ultimate, we need help in this section.

"Three hundred thousand dollars to help our pest inspections for identification and barcoding. Interceptions are not recognized by the federal quarantine agencies, because they need to be identified by federally approved identifiers."

Representative Rhoads rose to yield his time, and the Chair "so ordered."

Representative Tsuji continued, stating:

"Thank you very much. Once the species, and this is very important, has been barcoded, it's submitted to the national database. On subsequent inspections, any body part can be identified as a species by the federal government.

"Number three, \$1.5 million, planning site selection, environmental documentation, preps for preliminary designs for two facilities. And these two facilities need to be separately identified and separate, one for edible and one for not edible. This is in compliance with the federal level of food safety compliance. Again, not desirous, but highly necessary.

"Number four, \$1 million. In 2009, growers were notified by USDA that any infested shipment would jeopardize the ability to ship their agricultural products. Concerns for Hawaii's exportations and California's interception of nursery export products. It wasn't a threat, it's in existence today, we have embargos by the State of California.

"Moving on, \$500,000, the objective of import risk placement is to decrease the amount of import commodities known to be high-risk for introducing destructive invasive species.

"And finally, \$200,000, this will provide for literally extinct prices for farmers, wholesalers and retailers to use, to provide fair pricing for agricultural commodities.

"Collectively, about \$3.7 million. Yes, agricultural initiatives will continue to be necessary for our State of Hawaii. We ask, and I ask fellow legislators to join me in supporting this very important legislation. Thank you very much, Mr. Speaker."

Representative Choy rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I stand in support of HB 1700, HD 1. Thank you, Mr. Speaker. I first would like to thank the Chair of Finance for allowing me to lend my thoughts on the University of Hawaii portion of the budget. And of course I would like to thank my vice chair for whose exceptional cunning is an invaluable tool to me and the budget process.

"This year when reviewing the budget that came from the Governor, your Committee on Higher Education noticed a major component missing from the budget. The missing component was budget allocations, specifically pertaining to students. Throughout the session, your committee worked diligently to craft bills relating to students. And with your help, Mr. Speaker, most of these appropriation bills have crossed over to the Senate for our Finance and Ways and Means Chairs to determine how these student-oriented bills will get funded as a part of the overall state budget.

"Mr. Speaker, they say that if you do the same things over and over again and expect a different result, that's the definition of insanity. In that light, Mr. Speaker, I have continued my quest to make the university understand that they are competing with other needs of our state. Our university management must realize that all states have tremendous pressures on their budget to fund all of the needs of the state.

"The university must manage itself efficiently as to have no question on the value that it gives to our state. The House budget mandates that the university looks internally to ensure that we are receiving the best value. This budget calls upon the university to look within itself, to better manage itself and service the students of the State of Hawaii.

"Mr. Speaker, the time for budget requests that are based on false premises is over. The time for just raising tuitions is over. The time for blaming the Legislature is over. The university management must give value for the money it receives, and therefore I stand in support of HB 1700, HD 1. Thank you, Mr. Speaker."

Representative Thielen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I am rising in support of the budget. I just have a few comments that I would like to make. I am delighted to see the strong support for the Department of Agriculture, and I would hope as the budget conferees get together that they could include a proviso that the Department of Agriculture and its chair move ahead quickly, entering a memorandum of understanding with the company HC&S so HC&S can continue or can go ahead with its industrial hemp research project and save some of the jobs that are in jeopardy right now.

"I love provisos, and they can come in and they can say, Chair of Agriculture, there is a two page memorandum of understanding, you can execute similar to what's being done by the Department of Agriculture in Kentucky and the 20 to 30 farmers in Kentucky that are growing hemp now. So I would hope that that would be included as a direction of what ag should do with the money that its getting out of the budget.

"The other thing, Mr. Speaker, every year I stand up with my pie chart and I really don't think any of you can see the sliver that is there that is for Department of Land and Natural Resources. It has 1%, including federal money, of the total budget of the State. And that 1% is what has to keep our islands green, beautiful, with the natural resources protected, and take care of the land and the resources that are the reason that we've become a tourist destination.

"So I would hope that that 1% doesn't shrink further, or you won't be able to see it without a magnifying glass in the pie chart. But even if there is some additional funding that can end up going toward Department of Land and Natural Resources, I think that our state benefits, our resources benefit.

"I do stand in support of the budget and in great respect of the people that have helped on the budget up there in the gallery and the committee members and certainly the chair. And let's hear it for industrial hemp for Department of Agriculture. That is their job, and I'd love to see a directive in there as a proviso. Thank you."

Representative McDermott rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I rise in support with grave reservations. First I want to thank the Finance Chair and their hard working committee. I think on balance this is a pretty good document and I wouldn't second

guess them based on all the hours they put in, going across the myriad of government services. My job though here, Mr. Speaker, is to be the voice of the loyal opposition with all due respect to you, sir.

"It is not easy to point out projects that directly impact people I consider friends. I consider you a friend, I consider many people in here a personal friend. It's not easy to criticize a performing arts center when I know the individual directly impacted who's one of the most delightful people you'll ever meet and nicest person, and then I have to see that person in the hall the next day.

"But I have to do it, because my children in my district are depending on me to fight for them. Mr. Speaker, the Maui High School and Campbell High School and Kapolei and inextricably linked. That is because if we build this high school in Maui, there will not be the money for the next decade to relieve West Oahu. And if you don't believe me, call Ray L'Heureux, call the current gentleman who is their administrator, and ask them.

"So what we're left with is a DOE that will be handcuffed. They won't have enough resources, because we are spending this money on a school that I believe is not needed. Now, I'd like to ask that my remarks from second reading be inserted, so I don't have to go through the litany of statistics again," and the Chair "so ordered." (By reference only.)

Representative McDermott continued, stating:

"Thank you, sir. According to the Department of Education, the Educational Specifications For High Schools, Hawaii State Department of Education, chapter 2, section 201.2. The minimum enrollment for a new high school needs to be 1,000 students. To build a new high school, you have to have a minimum enrollment. This will not be the case, based on the enrollment statistics given to us by Colleen Matsumoto, Information Specialist from the Department of Education.

"Maui will have 2,800 students divided by three schools. Nine hundred forty-nine students per school if they divide them equally. They probably won't. The first phase of this school is for 800 students. Not the 1,000 that the department in their own guidelines says is needed.

"Mr. Speaker, we can't build this school. Mr. Speaker, do you know how many portables, portables, this is an interesting note for the media, how many portables are currently on the Campbell campus? Forty-four portable classrooms. Forty-four. This is just unacceptable, Mr. Speaker. And it cannot go on. And unless I speak to this, it will go on.

"Now people are now beginning to become aware of this. Forty-four portables, 3,000 students, going up to 3,500. I like you, Mr. Speaker, I like my colleagues from Maui, I'm not trying to hurt them, but if we build that school, we will hurt my children, literally and figuratively. That's why it cannot be built, because we will handcuff the department for the next decade. How many portables is enough, 60, 65, 66?

"DOE is going to violate their own regulations to build this school that's not needed. We're going to handcuff the DOE for 10 years, not based on need or merit, this is pure muscle which is pushing this thing through. It's not a student-centered, child-based criteria.

"My colleagues who talk about the children, who talk about the *keiki*, and I'll wrap up here within my time, sir, as I promised you I would. Who always talk about putting the children first, who talk about equity and equality. I can't tell you how many times I've heard that in here. Equity and equality. Student-centered, child-centered. With this measure, we are not doing it. Thank you, sir."

Representative Fukumoto Chang rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I don't think I actually had a speech today, but I would. I could just say thank you to the chair. I really appreciate all the hard work that she's done. And for the Representative from Ewa Beach who has raised concerns about many of our schools, I think we all know that we have facilities at each of our schools that need help.

"I know in Mililani we have some overcrowding issues, too. I would just say that this is not always the forum to raise that. Thank you, Mr. Speaker."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I respectfully rise for the third time in opposition of this budget. As we've heard, this budget has got a lot good stuff in it. A lot of good stuff. As indicated by previous speakers, this budget has a lot of good things in it, Mr. Speaker. A lot of good things. And I want to bear witness to what the chair said. She has been probably one of the best chairs, Mr. Speaker, since you were the chair. You were the chair, once upon a time. In the beginning, there was a Chair of Finance called Joe Souki, and he was a tough guy.

"But she is tough on the departments, Mr. Speaker. I want to bear witness that she brings their feet to the fire, clearly brings their feet to the fire. And for the first time in the history of my tenure, is that she is bringing the special funds under control.

"If you remember the late Lowell Kalapa, he said, look, if you guys keep creating general funds, you might as well all go home, we don't need a Finance Committee because everything is automatically already pumped into the various departments. So I commend her, I commend the staff for all of their work that they have done.

"But, Mr. Speaker, there is a poison pill in all of these great things in this budget. The poison pill is 96 years long, it's \$28 million short. I think you know what I'm talking about. It's the Department of Hawaiian Homes. Mr. Speaker, that pill is so bitter, it's unconstitutional, it's so bitter that the Hawaiian people can't take that, nor can we take it, because we are under a court order, if you will, Mr. Speaker. Between now and the end of this session we are to come up with another \$19 million. Because right now, the only amount in this budget now is \$9 million. It's short \$19 million.

"Mr. Speaker, we don't want to go back to court. We don't want to go back to what even in 1991 was a broken trust task force that says, for the whole history of this program we've had nothing but abdication, rhetoric and other things.

"Mr. Speaker, I want to end on a personal note about this budget. The media called me this morning, saying, why are you talking about this budget so much? Even a colleague here said, what's with you? Mr. Speaker, I want to say a couple of things that go back 30 years. Thirty years ago, Mr. Speaker, my partner, my business partner was Dr. George Kanahele. One of the leading minds of the Hawaiian community. The one who helped design and create the Hawaiian sense of place with the Convention Center, *et cetera*.

"We were training Hawaiians to go into business, and I was doing my PhD at the University of Hawaii. I was interviewing Hawaiians compared to Caucasians. I interviewed 150 Hawaiians. The best and the brightest minds of what it was to be a Hawaiian, to be stereotyped, but to be an entrepreneur and to be successful. What it was like to be a Hawaiian, in that skin.

"So I wrote that dissertation, with an understanding of that when I came into the Legislature, that there is going to be an understanding of the Hawaiian community, Mr. Speaker. But for nine terms I've sat on this floor, stood on this floor, and all I've heard is rhetoric to the Hawaiian community. Except when maybe Cayetano was brought to court and said, OHA, pay your dues with the ceded lands. Then we did divvy it up.

"But, Mr. Speaker, we have not done justice for 96 years with 27,000 people waiting on that list. And for those reasons, Mr. Speaker, I will continue to speak out. Not because it's to shine light on me. Because it's the right thing, Mr. Speaker. And everybody in their heart in this building knows it's the right thing to do. So let's not hold out for this \$19 million, let's give them the \$19 million and let's get on with putting these 27,000 people into their homes, of which we promised many, many, many, many years ago.

"Lastly, Mr. Speaker, I've been warned that, because of my stand, that there may be a repercussion in my district because of the great lawn. I refuse to believe that, Mr. Speaker. So lastly, I want to thank the chair again, I want to thank this body for a great budget. But lastly, Mr. Speaker, I want to thank the people of Hawaii who funded this budget, who make all of this possible. And hopefully someday, for the Department of Hawaiian Home Lands and for the Hawaiian natives waiting on that list, they will too be satisfied. Thank you, Mr. Speaker."

Representative San Buenaventura rose to speak in support of the measure, stating:

"I rise in strong support. I would like to thank Finance Chair for what she has done with this budget. Last year in my first term, she was very generous in giving Puna what it needed, especially with our lava flow, with Iselle. So this year my requests were modest, because she gave us quite a bit last year. We got our Pohoiki boat ramp repair, we got the Pahoa Elementary School walkways, and we understand that everybody else's needs need to be met.

"But I also would like to really thank her for realizing the critical needs of the public safety and fully funding the needs for what Mr. Espinda requested. And for that, I thank her and I stand in strong support. Thank you."

Representative Cullen rose to speak in support of the measure, stating:

"Mr. Speaker, I stand in strong support, and permission to enter written comments. Thank you."

Representative Cullen's written remarks are as follows:

"Mr. Speaker, I rise in support of HB 1700.

"First of all, I would like to thank the Chair and Vice Chair of the Committee on Finance, her staff and the rest of the members of the committee for their hard work and dedication on the state budget.

"This budget reflects many long-range solutions within our communities and state. Some of those concerns are in regards to heat abatement and overcrowding in our public school system. We have been receiving and hearing numerous correspondence suggesting temporal solutions that could accumulate in cost and provide a Band-Aid solution. Therefore, I appreciate the chair's efforts in seeking to appropriate funds towards permanent and sustainable solutions as we are being responsible with our taxpayers' dollars."

Representative Lee rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in strong support. I'd just like to personally thank the Chair of Finance as well as the Finance Committee for their diligent work in preparing this budget. I think perhaps our most important job for each of us is going back to our community and delivering what's necessary for them. And this is something that I think we all work to do and we do it by working together. And so I just want to thank everybody who collaborated to make this possible."

Representative McDermott rose to respond, stating:

"Mr. Speaker, people sent me here to do a job. To do a job. And that's to make you better, sir. You better, sir. Part of checks and balances that first grade children learn in civics class. You see, I'm a member of the minority. The loyal opposition. And sir, you know I have a great affection for you, on a personal level and a professional level. But I'm here to do my job. Do my job, sir.

"And my job is to see, when I see a grotesque misfire in the budget, is to alert it. Particularly when it affects the children in my district. And offer a comprehensive solution, which is not to fund the other project, which handcuffs the Department of Education for 10 years. Mr. Speaker, I hope that you respect me for doing my job. I think you do. I know I irritate you when I talk. But I don't mind the Finance Chair talking, I encourage it. I encourage thoughtful discussion and debate.

"And if this isn't the area to bring this up, a school with 3,000 children, 44 portable classrooms, 3,500 in three years, where should I bring it up? I mean, I've talked to my wife about it. It didn't seem to work. I can go in the caucus bathroom by myself, Mr. Speaker, and talk, I suppose. I can go in my office and Representative Ward and I can have a discussion about it. But the public won't know. The media won't know. That's why we're here, to shine the light of antiseptic on poor decisions. And this is a political decision that's been made, not a student-centered, child-based decision.

"Yeah, our schools are overcrowded, but none are grotesquely overcrowded like Campbell High School. Forty-four portables, going up to 3,500 in three years, and we're building a high school on another island where it's not needed, where their enrollment drops by 400, Mr. Speaker.

"Where am I supposed to make this case? On the street corner? Maybe I should call up Tom Berg and we can go smoke a joint together and I can make the case there. Where am I supposed to make the case, Mr. Speaker? In the elevator with the homeless guy? This is my forum, and I have earned the right to do my job. And I am doing my job.

"I refuse to be a lickspittle. I refuse to be a lap dog. I know I won't be part of the cool kid's crowd and I know people are going to hold me at arm's length, because they know I'll bite like a rattlesnake when I see something wrong, but that's my job. That's why I was sent here. And I can go back to the neighborhood board and I can go back to my community and tell them I fought. I gave it all I got. I poured my heart and soul into it.

"Mr. Speaker, when I get done with these speeches, I'm exhausted. I'm emotionally drained. I give everything I got. Because I am not in the caucus with you guys. I'm not part of your team, I'm not on the first string, you see."

Representative Pouha rose to yield his time, and the Chair "so ordered."

Representative McDermott continued, stating:

"Thank you, sir. I appreciate it. So, I'm not in the caucus with you. I can share my concerns on the floor, and that's what I do. I'm not on the Finance Committee, so this is my forum.

"And I'm not going to sacrifice the future of the west side. And I'm going to tell you something, Mr. Speaker. I've sunk my teeth into this, and you know when I sink my teeth into something, I'm relentless. And I guarantee you, I'm going to put my Nostradamus hat on, Nostradamus has been a pretty good predictor around here. I'm going to guarantee you, the Governor will not release this money, when all is said and done.

"It doesn't abide by Department of Education regulations, minimum of 1,000 students. It's not needed. And the people of West Oahu won't stand for it. The Board of Education, I went to see them last night, they weren't fully aware of this, of the exigent circumstances that exist.

"So, Mr. Speaker, I make no apologies for doing my job, being a member of the loyal opposition, shining the light on things that aren't needed in the budget. Particularly when they affect my district and they impact statewide policy, because we will not build another high school for a decade. That's irrefutable. I know nobody on that side cares, but I would encourage the media to call these people. Call Ray L'Heureux, former facilities director, ask him. Call Dan Carlson, ask him.

"So we're sentencing these kids to a classroom with 3,500 students, and all the social ills that come along with a high school that is too big to manage. Teen pregnancy, drug use, fights, all these things will increase.

"So I play second fiddle to no one when it comes to fighting for the children in my district. In my district, Mr. Speaker. My district. Why shouldn't I fight for them? What am I supposed to do? Just, thank you, sir, may I have another one? Throw me a crumb, and say thank you, sir, may I have another one?

"No, I am here to fight for this. And this time, the truth is on my side. The data is on my side. The data is irrefutable. It's from the Department of Education themselves. So I'm here doing my job. Doing my job, I am not a

lickspittle. I am not a lap dog. I am here to do my job, sir, and hold your feet to the fire.

"And now you can bet your sweet bippy, an old saying from Laugh-In, that the Governor is aware of this issue. And he will not release the money. That is what I predict. Thank you, sir."

Representative LoPresti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. First, I'd like to ask that I can enter comments into the Journal. Thank you, Mr. Speaker. Where to begin. I'll begin with my first week on Finance Committee. We had informational briefings with the Department of Education at which, Mr. Speaker, I asked Superintendent Kathy Matayoshi what the number one priority was for a new high school. At which point she answered it was the Campbell/Kapolei area. That's the first fact.

"The second fact is, having one high school built in one part of the State does not preclude having one built in another part of the State where it is desperately needed, and my district too, Mr. Speaker.

"I ran for the Legislature, Mr. Speaker, because the people who were representing my area were not doing their job adequately to get the funds that were needed for our schools out there, Mr. Speaker. And I am very proud that having served in just a couple of years that I helped turn that around. And I helped get some funds for AC in those schools. And I just want to point out for the record that James Campbell High School, and I want to thank everybody here on the Finance Committee, the Finance Chair, the CIP Chair. James Campbell High School, Mr. Speaker, has the largest crumb being given to it out of any other district in the State.

"And I want to thank my colleagues for recognizing that this is desperately needed. And I've worked very, very hard to get that. And it's not even in my district. But it does, of course, serve my district. I'll reserve the rest of my comments for the Journal. Thank you, Mr. Speaker."

Representative LoPresti's written remarks are as follows:

"Mr. Speaker, House Bill 1700 includes funds to add a new classroom building to James Campbell High School to address overcrowding in the immediate future. That being said, and contrary to some rhetoric out there, plans are definitely in the works for a new high school to be built in East Kapolei that would in part service future students from Ewa and take some of the pressure off of James Campbell High School. This is part of long-term plans that have been in the works for West Oahu to deal with future growth.

"I met with the Department of Education on several occasions on this key issue and they have always indicated that an East Kapolei High School is a major priority. In fact, the Superintendent herself, Kathryn Matayoshi, when I asked her directly in a Finance and Ways & Means Committee informational briefing on January 7 of this year, indicated that an East Kapolei High School is DOE's priority. The DOE is actively looking for an appropriate site for the new school in the area and has been talking to various agencies about lands to use.

"The Legislature has already appropriated funds for planning a new school and it is my understanding that Governor Ige intends to release several million for such plans in the near future. A new school cannot be built overnight, however, and I want to thank Representatives Har and Cullen, Senators Gabbard and Espero, the Chair of Finance, Representative Luke, the House Leadership, the Department of Education, and Governor David Ige for supporting the people of Ewa and working towards a new High School in East Kapolei as a long-term solution as well as working towards a new multi-story classroom as a medium-term solution."

Representative Saiki rose, stating:

"Mr. Speaker, I call for the question. But please permit Members to insert written comments. Thank you."

At this time, Representative Saiki called for the previous question.

The motion to end debate was put to vote by the Chair and carried, with Representative Kong being excused.

The motion was put to vote by the Chair and carried, and H.B. No. 1700, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE BUDGET," passed Third Reading by a vote of 49 ayes to 1 no, with Representative McDermott voting aye with reservations, with Representative Ward voting no, and with Representative Kong being excused.

At 1:43 o'clock p.m., the Chair noted that the following bill passed Third Reading:

H.B. No. 1700, HD 1

So, maybe as this bill moves forward we can have a discussion on this issue, because this could affect a lot of people in that area. Thank you."

Please allow yourselves and your staff sufficient time to meet this deadline."

Representative Matsumoto: "I just wanted to remind all the Members that we have started our Easter basket collection, and you can drop off all of your goods to Room 303, my office. The last day will be on March 24th, where we'll be having the Easter bunny, which is still yet to be selected, we'll let you know who that is. We'll be running a sort of pageant to see who gets to win.

"And just something to remember, instead of the Easter baskets, which are very cute, if you can have reusable bags, or laundry baskets, or backpacks, that was extremely useful for the women that received this at IHS. So thank you so much, and we'll be having reminders when it gets closer."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition. Mr. Speaker, I don't need to tell anybody that we are number 50 in terms of business friendly in our environment. This bill throws gas onto the fire, so to speak. This bill says, if you want to sell any medical supplies or medical equipment in Hawaii you better get a license first, because it's prohibited under this bill.

"Mr. Speaker, that's the wrong message that we're sending. I know there is a purported good cause, and maybe it's specific to the neighbor islands, for that I might perhaps agree. But otherwise, as I spoke on the floor for the House version of this, this is side-cutting what otherwise the market resolves by competition. If you can't be available and you can't deliver on time, don't buy from those people. There are a lot of people who sell medical equipment.

"This bill, unfortunately, shuts us down, gives us a bad image, and increases the already bad reputation that we have. So, Mr. Speaker, I would say the best fate for this bill is like 1673 that we had introduced and then killed in the House, and I'm hoping that the following chairs that hear this bill will see the better of it and kill the Senate version of the same bill. We need to up our game in terms of business friendliness, and this one downs the game. Thank you, Mr. Speaker."

Representative McDermott rose in opposition to the measure and asked that the remarks of Representative Ward be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Rhoads rose to speak in support of the measure, stating:

"Mr. Speaker, in support. There's more than one of these business climate index ones. But I would point out that the Tax Foundation, which is certainly no liberal institution, the 2016 State Business Tax Climate Index, it's not a stellar rating, but it's not 50th either. We are ranked number 31. Thirty-one instead of 50. Thank you."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker, *déjà vu* all over again. In support. Mr. Speaker, just because I seem to keep saying this all the time. The reason why are we doing this bill is because of the ACA's mandate on competitive bidding, which is now going to spread to the neighbor islands.

"It is a very dire situation, because the feds are saying you have to buy at the lowest cost only. Period. There's no quality metrics, there's no any way to use local businesses, and a lot of these companies, when these devices are expected, they don't show up. The veterans can't go home, the elderly can't go home. They're stuck in the hospital. And when they call, there's no answer.

"So to just make sure that if we're forced to buy the lowest price only and we're forced to deal with companies that are refusing to deliver the goods that our veterans and elderly need, I think it's very, and this bill has been watered down quite a bit, Mr. Speaker. All it says is, just be available so we know that the equipment that our people need will show up. We're not in Illinois, we're in Hawaii. We're in the middle of the Pacific Ocean. If the equipment doesn't show up, people suffer. Thank you."

Representative Thielen rose to speak in opposition to the measure, stating:

"Another no vote, Mr. Speaker. I don't think it's appropriate to take the funds out of the Hawaii tourism program and put them into athletics. I just think that while there are things that I would say are appropriate to take out of the Hawaii tourism fund, such as things to improve our environment that tourists come to see, I don't really see the nexus between college athletics. Thank you."

Representative LoPresti rose in support of the measure with reservations and asked that the remarks of Representative Thielen be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Choy rose in support of the measure with reservations and asked that the remarks of Representative Thielen be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Woodson rose to speak in support of the measure with reservations, stating:

"Reservations, please, Mr. Speaker. I'm concerned about how it would potentially impact our community on Maui as it relates to particular programs."

Representative Morikawa rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. Reservations, and for the same reasons as the previous speaker for Kauai. Thank you."

Representative Tupola rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations and a brief comment. Mr. Speaker, in the hearing there was extensive discussion, and I hope that, even though this is second reading, at least if it's not on the floor people will have it in their head, because this is one of those avoidance-avoidance. It's like you don't want to upset one for the sake of the other."

"UH athletics are very, very dear to us. So is the HTA, the golden goose that lays all the 8.6 million visitors and the income that that creates. It's because of the lack of funding that they can go to the Hawaii Tourism Authority. But there was so much opposition in the hearing, Mr. Speaker, I don't think that the will of everyone is for this."

"UH is caught in a position of a town and gown battle, if you will, ever since the Stevie Wonder battle. We put everything under the microscope that they do. And when they're not winning, they're losing money. And when they're not losing money, we are joyful."

"But with this bill, Mr. Speaker, there's got to be a better solution than having to treat one of your children different than the other, or in the case here where you don't want to upset either of them as it is. But it's where UH athletics are important, it's kind of the spirit, if you will, of the whole academic surrounding there. But at the same time, so is the sacred cow of the visitor industry which feeds the State a third or more of its economy."

"So, Mr. Speaker, I hope there's a lot of dialogue on this one. And for the good minds that are on this floor as well as on the Senate Floor, something good will come out of it. But right now, it's split down the middle. Thank you."

Representative Brower rose to speak in support of the measure, stating:

"Mr. Speaker, in support. Mr. Speaker, I have a lot of concerns about this measure, but every issue deserves debate. And I can't think of a better afternoon to discuss this issue after what I saw when I skipped part of my committee hearing this morning on television and was broadcast nationally."

"So, I'm just glad that we're talking about this, and it begs the question, why does the University need money for its sports teams to travel? Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 83, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO APPROPRIATIONS," passed Second Reading and was referred to the Committee on Higher Education, with Representatives Choy, LoPresti, Morikawa, Tupola, Ward and Woodson voting aye with reservations, with Representative Thielen voting no, and with Representatives Cachola, Kawakami, Kong and Tokioka being excused.

Representative Rhoads, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 1124-16) recommending that S.B. No. 2312, SD 1, as amended in HD 1, pass Second Reading and be placed on the calendar for Third Reading.

On motion by Representative Saiki, seconded by Representative Evans and carried, the report of the Committee was adopted and S.B. No. 2312, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE PENAL CODE," passed Second Reading and was placed on the calendar for Third Reading, with Representatives Cachola, Kawakami, Kong and Tokioka being excused.

Representative Kawakami, for the Committee on Economic Development & Business, presented a report (Stand. Com. Rep. No. 1125-16) recommending that S.B. No. 2825, SD 1 pass Second Reading and be placed on the calendar for Third Reading.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2825, SD 1 pass Second Reading and be placed on the calendar for Third Reading, seconded by Representative Evans.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I was really pleased. I rise in opposition. But I was so pleased to see Governor Ariyoshi, because this is one of his, how would you say, pet projects, one that he went to bat for. One of my favorite projects, one of the things that I would hate to vote against, but, Mr. Speaker, there is a poison pill in this thing and it just doesn't make sense at all."

"What this bill does is really take the core of the space program and sticks its fingers in the eyes of NASA. This bill takes NASA off of the advisory board of PISCES. PISCES is the aerospace program that is in its budding growth now on the Big Island. It's something that should be nurtured, it's something we should diplomatically be very sensitive to."

"And there are six alternatives, including the President of the University of Hawaii, David Lassner, who's on the Board, who never shows up, also. I know that in the testimony it said, well NASA can't afford to come out and show up. Well, we can't afford to take NASA off of that, Mr. Speaker, because all the projects and all the money for the future of our aerospace program is NASA."

"And you might say, well, the person who's in the position now who is invited may not enjoy coming to Hawaii or may not think it's any significance, but those people change positions."

"So, Mr. Speaker, not for the sake of diplomacy, but for the sake of the treasury and the future of aerospace, this bill should take one of the people off who is a bureaucrat, not NASA, the motherload of the future of this program, Mr. Speaker. I plea with the next committee, please use your logic. Don't throw off the motherload of our aerospace program. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2825, SD 1, entitled: "A BILL FOR AN ACT RELATING TO THE PACIFIC INTERNATIONAL SPACE CENTER FOR EXPLORATION SYSTEMS," passed Second Reading and was placed on the calendar for Third Reading, with

Representative Ward voting no, and with Representatives Cachola, Kawakami, Kong and Tokioka being excused.

Representative McKelvey, for the Committee on Consumer Protection & Commerce, presented a report (Stand. Com. Rep. No. 1126-16) recommending that H.C.R. No. 7 be referred to the Committee on Legislative Management.

On motion by Representative Saiki, seconded by Representative Evans and carried, the report of the Committee was adopted and H.C.R. No. 7, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE AUDITOR TO ASSESS THE PROBABLE EFFECTS OF LICENSING AND REGULATING YOUTH SPORTS COACHES," was referred to the Committee on Legislative Management, with Representatives Cachola, Kawakami, Kong and Tokioka being excused.

REPORTS OF STANDING COMMITTEES

Representative Morikawa, for the Committee on Human Services, presented a report (Stand. Com. Rep. No. 1127-16) recommending that S.B. No. 2315, SD 2, as amended in HD 1, pass Second Reading and be referred to the Committee on Judiciary.

On motion by Representative Saiki, seconded by Representative Evans and carried, the report of the Committee was adopted and S.B. No. 2315, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO JURY DUTY," passed Second Reading and was referred to the Committee on Judiciary, with Representatives Har, Kawakami, Kong, Luke, Rhoads, Say and Tokioka being excused.

Representative Takumi, for the Committee on Education, presented a report (Stand. Com. Rep. No. 1128-16) recommending that S.B. No. 2624, SD 2 pass Second Reading and be referred to the Committee on Finance.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2624, SD 2 pass Second Reading and be referred to the Committee on Finance, seconded by Representative Evans.

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, in support with a brief comment. Mr. Speaker, I was impressed with the role models that we just commended for their access and their success and their achievements for education. I just had read the bill prior to giving them congratulatory remarks and I said, hey, how does the level of reimbursement here, the tax exemption, if you buy school supplies, you get up to \$250. And they said, oh, that's really low.

"I said, should that be \$1,000, should it be \$750? They said, no, \$500 would be fair. So, Mr. Speaker, I would hope as this bill carries on that the rather low bar at \$250 would be raised a bit, because \$250 isn't very much. You can't buy too much for a whole year for \$250. For those reasons, I hope it's considered to be higher. Thank you."

Representative Jordan rose to speak in support of the measure with reservations, stating:

"With reservations, Mr. Speaker. Just one comment. This is a dollar for dollar tax credit. When we start talking about tax liability, if our average tax for an individual in the State of Hawaii is about 8% and you multiply eight times 1,000, that's \$80. And you're talking \$250, dollar for dollar, that gets rather expensive in our tax coffers. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2624, SD 2, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," passed Second Reading and was referred to the Committee on Finance, with Representative Jordan voting aye with reservations, and with Representatives Har, Kawakami, Kong, Luke, Rhoads, Say and Tokioka being excused.

Representative Brower, for the Committee on Tourism, presented a report (Stand. Com. Rep. No. 1133-16) recommending that S.B. No. 2987, SD 2, as amended in HD 1, pass Second Reading and be referred to the Committee on Finance.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2987, SD 2, HD 1 pass Second Reading and be referred to the Committee on Finance, seconded by Representative Evans.

Representative McKelvey rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I have serious reservations on this measure. Comments to the Journal, and just would like to say that I think fiscal responsibility would be, if you have a percentage, that's when the counties would exercise fiscal responsibility, because if revenues drop, then everybody suffers the down turn. I think a set cap dollar amount is not the way to go, and I think to make it permanent at this time is also, it gives me a lot of concerns. So, with reservations."

Representative McKelvey's written remarks are as follows:

"Mr. Speaker, this measure caps the TAT to the counties at a set dollar amount every year, which discourages good fiscal management. Should revenue decline, then the counties have to share in the loss along with the State. Subsequently, why should the counties be punished when times are good and tourists are coming in droves and pouring money into the TAT?

"The policy for TAT revenue distribution should be based on a formula that returns a set percentage of revenue to the counties where it is earned, rather than a fixed amount. A formula-based policy allows distributions to the counties to increase as visitor numbers grow, without a need to change the statute.

"Additionally, the State-County Functions Working Group ('Working Group') issued its final report and recommendations to the Legislature in December 2015, after two years of intensive research and hard work. The Working Group recommended an allocation to the counties of 45% of the remaining transient accommodations tax (TAT) revenues after adjustments to the Tourism Special Fund. Creating another Working Group at taxpayers' expense is unnecessary.

"As partners in Hawai'i's governance, it is critical that the State provide a greater share of TAT revenues to the counties, who are responsible for providing essential services to residents and visitors. The collective cost of county services for police, fire and parks have increased by \$170.3 million since 2007, a 30% increase. In comparison, the counties have received only a 2.2% increase in TAT revenues over that same period. Mr. Speaker, by unfairly denying TAT revenue to the counties, the State has been effectively requiring residents to pay for the visitors' share of expenses. Therefore, I have reservations of this measure."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I will vote with the counties. No vote."

Representative Morikawa rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Tupola rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative DeCoite rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Woodson rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2987, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE TRANSIENT ACCOMMODATIONS TAX," passed Second Reading and was referred to the Committee on Finance, with Representatives DeCoite, McKelvey, Morikawa, Tupola and Woodson voting aye with reservations, with Representative Ward voting no, and with Representatives Har, Kawakami, Kong, Luke, Rhoads, Say and Tokioka being excused.

S.B. No. 2825, SD 1:

Representative Saiki moved that S.B. No. 2825, SD 1 pass Third Reading, seconded by Representative Evans.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, no vote, with the request that my remarks from second reading would be entered into the Journal for this third reading. Because, Mr. Speaker, without NASA there is no aerospace program. It's simple as that. This is cutting the nose to spite the face. For those reasons, I continue to vote no. Thank you," and the Chair "so ordered." (By reference only.)

Representative McKelvey rose to speak in support of the measure, stating:

"Just in support, Mr. Speaker. NASA has been wanting off this board for quite some time. They never show up, we can't get quorum to do the other

businesses, to do to anything. And actually having them on there, in their words, is cutting off our nose to spite our face. Thank you."

The motion was put to vote by the Chair and carried, and S.B. "In the testimony, many organizations quoted suicide as one of the reasons this bill was needed, not to mention the lack of 'support' for children who are contemplating suicide.

"Yet, 'suicide prevention' (not to mention mental health 'support') is available to all children through the extensive DOE system, support hotlines, as well as other social groups.

"If the idea is to enhance a child's ability to talk to someone, I do believe the support systems currently exist and we as a governing body do not need to lower the age of consent. Hence my vote with reservations."

"Mr. Speaker, strong support, comments to the Journal on both measures."

Representative McKelvey's written remarks are as follows:

"Mr. Speaker, I rise in strong support of these resolutions because it is something that is long overdue. Disaster preparedness in Hawaii has always been done in a piecemeal localized fashion. While there have been disaster training exercises, the simulation of such exercises have been very finite and focused, and any extensive scenarios have only involved certain actors such as the federal government. As such, they have not tested the full capability of the State and City and County Civil Defense System. Furthermore, such a scenario could help to point out the weaknesses in any type of resiliency programs as well as to show what type of third stage recovery efforts would be needed in large-scale catastrophe.

"A nuclear attack on Hawaii is not science fiction, as evidenced by the growing threat in both North Korea and the recent growth of China. Under such a scenario, not only would there have to be an immediate response where much of the infrastructure will have been completely obliterated. Also, what type of secondary and third measures would be needed to

rebuild after such an event? Mr. Speaker, how would we combat things like radiation exposure and poisoning, starvation, riots, lawlessness, loss of specialized workers and equipment and loss of knowledge? Other situations like a local pandemic, EMP strikes or even an asteroid-driven tsunami or a super volcanic explosion would have wide reaching effects all over the State of Hawaii.

"It would be a shame that future generations would have to face such a challenge and only see the failure of all local apparatuses as well as an absence of coordination with federal and international efforts that could result in thousands of lives being lost. It is for this reason that a scenario exercise is not only long overdue but it is pragmatic in helping to map out truly what it would take to respond to and to recover from such a global catastrophe."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 42, HD 1, entitled: "HOUSE RESOLUTION URGING THE STATE TO DEVELOP AND IMPLEMENT A STATEWIDE EMERGENCY MANAGEMENT SIMULATION EXERCISE," was referred to the Committee on Finance, with Representatives Kawakami, Kong and Pouha being excused; and

H.C.R. No. 80, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION URGING THE STATE TO DEVELOP AND IMPLEMENT A STATEWIDE EMERGENCY MANAGEMENT SIMULATION EXERCISE," was referred to the Committee on Finance, with Representatives Kawakami, Kong and Pouha being excused.

Representative Rhoads, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 1271-16) recommending that S.B. No. 2451, SD 2, HD 1, as amended in HD 2, be referred to the Committee on Finance.

On motion by Representative Saiki, seconded by Representative Evans and carried, the report of the Committee was adopted and S.B. No. 2451, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO CHAPTER 183, HAWAII REVISED STATUTES," was referred to the Committee on Finance, with Representatives Kawakami, Kong, Oshiro, Tokioka, Tupola and Woodson being excused.

Representative Rhoads, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 1272-16) recommending that S.B. No. 2659, SD 2, as amended in HD 1, be referred to the Committee on Finance.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2659, SD 2, HD 1 be referred to the Committee on Finance, seconded by Representative Evans.

Representative Thielen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I am in strong support, but I wanted to point out a couple of things to the chair and members of Finance. On page 17 of the bill, this is requiring the farmers to have case-hardened locks and chains to limit anyone getting near a plant that won't get anyone high.

"I mean, the restrictions are really pretty absurd. And it goes on, on page 17, which I hope all of it will be eliminated, that the farmer would have to mark each plant. I mean, this is nuts. This isn't required under federal law and it wasn't required for the Waimanalo project. There is no reason to make this so onerous. And then you go on to page 18 and they continue with some really unreasonable and unnecessary restrictions.

"And then the clincher is on subsection K on page 18, this will hurt the small farmers, this wouldn't hurt a big operation like A&B, but it would hurt the ranchers that want to grow hemp for animal forage. It would hurt the egg producers that want the good omega benefits in the eggs, because the eggs are more valuable and more healthy. So you go to subsection K and they have restrictions that local smaller farmers are just going to throw up their hands and say, forget it. A physical barrier such as a hoop house or row cover, what are we talking about with a plant that grew out in the open in Waimanalo, did very well, and it can grow in other places in our state.

"So I strongly encourage the Finance Committee and the Finance Chair to remove those unnecessary provisions, and then we have a bill that can move forward and not only can A&B grow, but so can our local cattle ranchers, egg producers and others. And we will see the benefit of industrial hemp. Thank you."

Representative McKelvey rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. For those very reasons, I'm going to go with reservations on this measure. I'd like to adopt the words of the previous speaker as if they were my own. And to note, you probably have a better chance of getting high smoking the signs that they want to put on the plant than you do the plant itself. Thank you," and the Chair "so ordered." (By reference only.)

Representative Ing rose to speak in support of the measure, stating:

"In support, but I will mention a few of my concerns. First, I would like to adopt the words of the Representative from Kailua," and the Chair "so ordered." (By reference only.)

Representative Ing continued, stating:

"We had a bill that crossed over to the Senate which was very open. It was a free market type of bill, opened the industry out to anybody who wants to participate, you simply need to sign a memorandum of understanding with the Department of Agriculture.

"That model was based on what has been successful in Kentucky and Colorado where there is over 1,000 growers now growing industrial hemp without any repercussions from the DEA or the federal authorities in general. And this bill, when you read through the language, it tends to treat industrial hemp as a drug and not just the growing and selling of it.

"Right now you can go on Amazon and you can buy hemp seeds to plant, or eat, or to cook with, or whatever. But if this bill passes, there could be questions of whether you can still do that without all these procedures. Alexander & Baldwin themselves said, hey, Kaniela, we support your language a lot better than this overly comprehensive verbose bill. But they did try to propose amendments in order to make our bill limited to just one corporation or one pilot project.

"As a legislature and looking to open up a new industry for our economy here in Hawaii and diversify our economy here in Hawaii, I don't think we should be limiting it to one corporation, just because they asked. And moving on, I hope that we could adopt language that's maybe not identical, but a lot closer to what we proposed in the House. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2659, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO INDUSTRIAL HEMP," was referred to the Committee on Finance, with Representative McKelvey voting aye with reservations, and with Representatives Kawakami, Kong, Oshiro, Tokioka, Tupola and Woodson being excused.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2924, SD 2, HD 1 pass Second Reading and be referred to the Committee on Finance, seconded by Representative Evans.

Representative Jordan rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2924, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE DISCLOSURE OF TAX RETURN INFORMATION," passed Second Reading and was referred to the Committee on Finance, with Representative Jordan voting aye with reservations, and with Representatives Kawakami, Kong, Oshiro, Tokioka, Tupola and Woodson being excused.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2411, SD 2, HD 1 pass Second Reading and be referred to the Committee on Finance, seconded by Representative Evans.

Representative LoPresti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support, but I did want to express some concerns. I support this measure for the use of law enforcement cameras. In fact, it has I think the entirety of my HB 1738 put into it. But it's been substantially changed, as I understand it, and that gives me some cause for concern. The bill that I had introduced that goes along with this idea helps protect privacy rights. I don't think it's a good idea that just because any time a citizen walks in front of a police officer, they lose their Fourth Amendment right to privacy.

"I'm concerned that the way that some of the language in this bill is being altered or evolving, it's going to allow that any time you have any interaction with an officer, it could be on YouTube. Just because somebody makes a noise complaint or an officer has a conversation with you, doesn't mean that it should now be just accessible to the media or the public. God forbid somebody loses a loved one in a car accident, now what? The footage is going to be on YouTube and the 6 o'clock news. I don't think anybody should have to go through that.

"For criminal purposes, I'm concerned it could pollute jury pools if it's just automatically available to the public if there is an arrest, or some violent altercation even. Certainly it should be available for review. I think there should be some judicial controls as to when footage is released, but I am very concerned about protecting Fourth Amendment rights, while also providing for accountability.

"But I think we also have to concern ourselves with protecting the police officers themselves and their rights to privacy. Just because they have a conversation at lunch doesn't mean that their administrator should be able to review everything they said that day, and in a sense spy on what they're doing in their down time, just because they have a camera on.

"I know its second reading, but I put all this out there for us to consider when it gets to Finance. Thank you. I am in support, but I have concerns."

Representative Har rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. Mr. Speaker, I realize that it is second reading. In support with reservations. But as this bill has a clean date, I will be voting with reservations. May I request permission to enter written comments into the Journal? Thank you."

Representative Har's written remarks are as follows:

"Mr. Speaker, I rise in support of Senate Bill 2411, SD 2, HD 1, with reservations. The purpose of this bill is to establish requirements, restrictions, and implementation guidelines for body-worn cameras and vehicle cameras for county police departments, as well as funding a body- and vehicle-camera program through state grant matching of county funding. While I support the intent of the bill to increase accountability and transparency in law enforcement, I have reservations about the scope, structure, and cost of the intended program.

"The scope of this program will be grand. Video files are large, and having a large number of cameras recording every day will bring law enforcement agencies deeply into the role of data storage and processing. In the language of the bill, videos recorded by law enforcement agents will need to be held for between one and three years by the agency employing the device. Where these videos are held and how they are used is poorly addressed by the bill. As many testifiers mentioned about this bill, the line of public-private life is blurred by such extensive footage, and the public nature of it. There must be a legal framework to encompass this and ensure that the public is protected in its right to privacy to a further extent than the bill currently provides. In the internet age, footage can be a tool for transparency just as much as it can be a tool for legal spin, public shaming, and selfish gain. Establishing strong protections for the public and setting hard standards for control over footage needs to be done early on, as dissemination and framing of footage in today's world is powerful enough to sway the public at-large and even influence jury pools. The lives of private citizens should not be freely publicized or framed at the whims of social, private, or public media. It is important to realize how ambitious this undertaking is in the age we live in, and take care to do it with foresight, keeping the rights of the public in mind.

"This leads to my second reservation as to the structure of the proposed program. The massive amounts of data that will be collected and stored under this bill will need to have a level of standardization to allow counties, courts, and law enforcement agencies to transmit and use the data efficiently. This raises questions: Will smaller agencies with fewer cameras still require investment in storage and staff to hold the footage? Will they be allowed to work with another agency to centralize footage, or must the footage remain with the specific agency? The bill as it stands

does not effectively address these, and a more specific answer to these questions would help ensure the success of the program.

"The scope and structure of the bill will eventually compound costs upon costs unless these shortcomings are addressed specifically. As the adoption of body and vehicle cameras proceeds, more complex systems of organization, more hardware, and more staff will be required to handle the influx of video footage. In the current language, this financial and logistical burden is simply on 'the agency which employs the law enforcement officer.' This disproportionately affects smaller agencies, who will need a base level of hardware, organization, and staff to implement the policy, and given my aforementioned concerns with how agencies will keep up with the footage and even how they will be allowed to, there is no real way to predict the expense this will generate for the State and counties. The language only provides the appropriated funds to departments for cameras, it does not account for other costs. It would be a shame to see a program with such potential fail because the costs were not properly analyzed or controlled.

"For these reasons, Mr. Speaker, I stand in support of Senate Bill 2411, SD 2, HD 1, with reservations. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2411, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO LAW ENFORCEMENT CAMERAS," passed Second Reading and was referred to the Committee on Finance, with Representative Har voting aye with reservations, and with Representatives Kawakami, Kong, Oshiro, Tokioka, Tupola and Woodson being excused.

Representatives Lee and Yamane, for the Committee on Energy & Environmental Protection and the Committee on Water & Land, presented a report (Stand. Com. Rep. No. 1276-16) recommending that S.B. No. 2535, SD 2, as amended in HD 1, pass Second Reading and be referred to the Committee on Finance.

Representative Saiki moved that the report of the Committees be adopted, and that S.B. No. 2535, SD 2, HD 1 pass Second Reading and be referred to the Committee on Finance, seconded by Representative Evans.

Representative Thielen rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I'm going to vote no on this measure. I know it's been gutted and it's sitting out there sort of as an empty bill, but the problem is the underlying purpose of that bill was to take away the county's authority over geothermal. And we all know what can happen to a bill as it moves through the process. What was gutted can be replaced. So I would rather just see the bill stop in its tracks now and let the Big Island County of Hawaii deal with this on a local basis. So a firm no vote, sir."

Representative Lowen rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative San Buenaventura rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Creagan rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committees was adopted and S.B. No. 2535, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO GEOTHERMAL," passed Second Reading and was referred to the Committee on Finance, with Representatives Creagan, Lowen, San Buenaventura and Ward voting aye with reservations, with Representative Thielen voting no, and with Representatives Kawakami, Kong, Oshiro, Tokioka, Tupola and Woodson being excused.

Representatives Belatti and Lee, for the Committee on Health and the Committee on Energy & Environmental Protection, presented a report (Stand. Com. Rep. No. 1277-16) recommending that S.B. No. 75, SD 2, as amended in HD 1, pass Second Reading and be referred to the Committee on Finance.

On motion by Representative Saiki, seconded by Representative Evans and carried, the report of the Committees was adopted and S.B. No. 75, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE ENVIRONMENT," passed Second Reading and was referred to the Committee on Finance, with Representatives Kawakami, Kong, Oshiro, Tokioka, Tupola and Woodson being excused.

Representatives Belatti and Rhoads, for the Committee on Health and the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 1278-16) recommending that S.B. No. 2384, SD 1, as amended in HD 1, pass Second Reading and be referred to the Committee on Finance.

On motion by Representative Saiki, seconded by Representative Evans and carried, the report of the Committees was adopted and S.B. No. 2384, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO LICENSING INSPECTIONS," passed Second Reading and was referred to the Committee on Finance, with Representatives Kawakami, Kong, Oshiro, Tokioka, Tupola and Woodson being excused.

Representative Belatti, for the Committee on Health, presented a report (Stand. Com. Rep. No. 1279-16) recommending that S.B. No. 2394 pass Second Reading and be referred to the Committee on Finance.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2394 pass Second Reading and be referred to the Committee on Finance, seconded by Representative Evans.

Representative Creagan rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in strong opposition to this bill. May I be allowed to provide some brief comments? You may be asking why I am objecting to this bill on second reading, but this does have a good date and I believe that it could be salvaged in some way. I am a physician, after all. I was a medical director of a biotech vaccine company. I have vaccine patents. So, don't I want to protect poor, helpless patients in the hospital against flu? What kind of monster am I?"

"Well, if you look at this bill, you'd think there was some tremendous advance in vaccine technology. Such a stunning advance that would warrant infringing on the rights of individuals to protect their own bodies against harm. After all, haven't women been demanding autonomy over their bodies for years? But where is the breakthrough?"

"The reality is that this is about a push by big pharma to ensure that they make money from vaccines. Even if those are at times lousy vaccines and they hurt people. Big pharmacy has also gotten into the vaccine profiteering act big time, and they are all supporting this bill. The secret sweetener is that Medicare will give the hospitals 2% more for their billings if they achieve 90% uptake of flu vaccine among their employees.

"What are they doing in other states? Given the carrot for the hospitals, I can now understand the rush to push through bills in other state legislatures. But many of these bills in other states have better protections and options for employees. For example, they often require that an employee who does not receive the vaccine to wear a surgical mask during the flu season. Some have argued that this is a shaming technique, but the hospitals have argued vehemently that this is about patient protection. They also provided exemptions for philosophical objections, which this bill does not.

"Yet some years, the vaccine only provides 18% protection or less. And theoretically, according to the CDC, if the CDC guesses wrong about the strains, there could be no protection and yet there could be substantial risk. So, if there is less than 20% protection from the vaccines, why don't hospitals require surgical mask of all employees during flu season? As if

they are correct, these masks will protect their patients. What is the downside of that?"

"Another aspect is compensation for vaccine injuries. There is a voluntary system reporting outsourced effects to vaccines called VAERS or the Vaccine Adverse Event Reporting System. Because it is voluntary and there is justifiable cynicism of its non-use, perhaps only 5% of VAERS events are reported. The CDC claims perhaps 10%, but others differ.

"What are some of the side effects? The list is quite long, but two stand out. Guillain-Barre syndrome, which is a progressive paralysis caused by the body attacking its own nervous system. Some people die from this. I have seen one young man and taken care of that young man on a ventilator for over six months, before he partially recovered.

"And let me tell you about what happened to a friend of a friend. He was working as a nursery man but his business was not thriving so he returned to school, was trained as a respiratory therapist. He then applied to a hospital. He was told he would have to receive a panel of vaccines. He said that he already had those diseases and asked that they do antibody screening instead. That was the standard of care, when I worked for Kaiser briefly. I didn't need any vaccines, as I was already immune.

"They insisted he receives vaccines, so he received them. He developed Guillain-Barre syndrome and became progressively paralyzed. Guillain-Barre syndrome is caused by your immune system attacking your nervous system, replacing your antibody laden plasma. A process called plasmapheresis was tried. Unfortunately, air was introduced accidentally into the IV lines, and the air went to his brain and caused a massive stroke. He survived, but was permanently impaired. He and his wife were financially devastated, and it took years of fighting before they received any compensation. Their lives were ruined.

"The informed consent document from the CDC also acknowledges that people can be killed by that shot. The most likely reason for this is that an anaphylactic reaction, often caused by an egg allergy, although not all flu vaccines contain egg. Some versions of flu vaccine also contain mercury, although they are safer alternatives. Safer, but not cheaper.

"The next issue is who pays if someone is injured by vaccines. After a number of successful suits against vaccine makers for brain damage due to pertussis, vaccine manufacturers were folding."

Representative McKelvey rose, stating:

"Since I'm in opposition too, I'll yield my time."

Representative Creagan continued, stating:

"Thank you. A National Vaccine Injury Compensation Program was thus set up. For a small amount of 75 cents per dose, vaccine manufacturers were largely off the hook. Instead, injured parties had to file their claims through the vaccine court in Washington D.C. The court seemed like a good idea, but in practice it is a sham. The government has unlimited resources to pay its witnesses, and those witnesses, as in the workers' compensation system, can often be paid liars. The injured parties, however, have to pay their witnesses up front and though all the legal fees may be covered after the fact, it is very difficult to get legal representation, and without that you can almost forget any compensation.

"I was a witness for two children in the vaccine court who lost most of their hearing after improperly given Hib vaccines. One of them who received the improper vaccine at 15 months developed neurologic symptoms consistent with autism spectrum disorder, and was still unable to read in his teens. His sister who received the vaccine at four years of age, after the brain was fully developed, is now at Dartmouth on a \$50,000 scholarship. Neither of these children received any compensation for their injuries. None.

"The last thing that I think is egregious is that this bill is a major infringement on employee's rights and should have been heard in the Labor Committee and it was not.

"I think that using the state's power to force this issue, not based on medical science but on money issues, while ignoring the individual philosophic objections to these injections, is reprehensible.

"I would propose that given the amount of money the hospitals receive, it would behoove them to use a carrot approach, and I would support funding a pilot program at Hilo Hospital to give perhaps \$200 to an employee if they receive the vaccine.

"I think that a program of surgical masks could also be employed, given the increased protections that mainland hospitals claim. This could be compared as a control group to Kona Hospital within the HHSC system, and a report provided to the Legislature for further evaluation next session. Given the potential savings to the system, I think this is a more reasonable approach.

"I do think, however, that close attention should be given to the informed consent component of this program and to the programs in pharmacies. I doubt people are being told that vaccines can paralyze them or kill them, and I think the compensation or the lack thereof for injury should also be explained. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I was going to vote with reservations on this bill, but with the usually calm, quiet, sometimes I can't even hear him speak, but with the commitment that he just gave, I am going to go for a no vote, Mr. Speaker.

"And while he was speaking, I was remembering when I was the Peace Corps Country Director in East Timor, we had to vary the vaccines with our volunteers. And they would tell me that if you use the North American one, you can have this rate of effect, if use the African or the Southeast Asian one. This really sometimes is a crap shoot. So we think when we get a flu shot, we're really getting what we're supposed to be getting. The probabilities are, as the good gentleman and the Peace Corps volunteer himself has just said, it's a crap shoot.

"And now to force it, and I didn't know it was for the big pharma guys that we are doing it. For all of those reasons, Mr. Speaker, this is not a good policy. Thank you."

Representative San Buenaventura rose to speak in support of the measure with reservations, stating:

"With reservations. I am one of those who annually take my flu vaccination. I and my family do whatever the doctor tells us to do, as far as taking vaccinations. But I also agree with the Representative from Kau. My brother got Guillain-Barre syndrome because of a flu shot. He was paralyzed. Mandating vaccinations that we think is so innocuous as the flu without considering other incentives or other less invasive means such as surgical masks, I believe is foolhardy. For those reasons, it's with reservations."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Very brief, I just want to point out that this is a bill that is limited in scope to hospital workers. There are exemptions, religious exemptions as well as a medical exemption for individuals, if contraindicated for those individuals. I would also note, Mr. Speaker, before vaccines, and flu vaccine is very, when people say, well it's not clinically tested. Well, it's not, because we understand the pathology of the flu vaccine, and every year it's different because scientists around the world are trying to determine which is going to be the flu vaccine that is going to be most effective.

"Before the onset of flu vaccines, I just want to point out to Members, in 1918 the pandemic of influenza led to 50 million deaths statewide. This is an issue of public health, and I urge you to look at the many, many, many medical societies that are standing behind in support of this measure. Thank you, Mr. Speaker."

Representative Ing rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative McDermott rose to speak in opposition to the measure, stating:

"No vote, Mr. Speaker. And I'd just like to compliment the good doctor on his devastating remarks. Thank you."

Representative Thielen rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Lowen rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative LoPresti rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Kobayashi rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I would note that this bill contains an exemption for those people working in hospitals who do not want a flu shot, you can wear a mask. It is true that no vaccine is 100% effective. At the same time, no vaccine is 100% safe. The issue is a bit confused, in part because there are a huge number of flu-like illnesses that cannot be easily distinguished from a flu. But, unfortunately, to distinguish between one versus the other can take a little bit of effort.

"Infections in hospitals are a serious problem. And I would say that if we can do something to lessen hospital-based infections, that would be a help. Thank you."

Representative Rhoads rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I just wanted to point out that the Centers for Disease Control lists the ten greatest public health achievements in the 20th century, and right at the top of the list is immunizations. So, if used correctly, overall the benefit is huge. I'm sorry, I didn't mean to quote Mr. Trump. It was very significant."

Representative Yamane rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, ruling on a potential conflict. I have been in the past a medical social worker and a hospital employee both in the ER and in the hospital and would be affected by being required to take the influenza shot," and the Chair ruled, "no conflict."

Representative Takayama rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Matsumoto rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Jordan rose to speak in opposition to the measure, stating:

"Please note my no vote, Mr. Speaker. Although I know the chair has done a lot of great work on hearing the discussion on this particular measure, I have some challenges with requiring individuals, even in the hospital setting, to have this immunization. Personally, I have never taken the flu vaccination that I know of. And I don't want to impose that upon employees that have to make that decision.

"I think there is just a slim exemption under religious aspects of it, and I don't think many other people could step out of those exemptions that are placed in this particular measure. So therefore I have some grave concerns on this measure. So it will remain as no, Mr. Speaker."

Representative Har rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Brower rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Pouha rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Creagan rose to respond, stating:

"Still in opposition. And I thank the Chair of Health for reminding me that this is an experimental vaccine. It is put out there every year, never having been tested on people. So we don't know what the side effects are, because we never tested it. We only see if it's effective after it's been put out there. So, it is human experimentation on a grand scale.

"The other thing is, unfortunately the exemption that my friend on the Health Committee indicates was there for wearing masks is not in the bill, and there is no philosophical exemption as is provided in almost every other state that requires this. There is the religious exemption, but as one of the testifiers from one of the healthcare systems said, that only applies to one particular religion, because all the others don't have that.

"So there is no philosophical exemption, there is no allowance for people to wear masks, as many other states provide. And they don't make other people wear masks, even though the other states say this is a very beneficial effect. So I remain in opposition. Thank you."

Representative DeCoite rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2394, entitled: "A BILL FOR AN ACT RELATING TO INFLUENZA IMMUNIZATION," passed Second Reading and was referred to the Committee on Finance, with Representatives Brower, DeCoite, Har, LoPresti, Lowen, Pouha, San Buenaventura and Takayama voting aye with reservations, with Representatives Creagan, Ing, Jordan, Matsumoto, McDermott, McKelvey, Thielen and Ward voting no, and with Representatives Kawakami, Kong, Oshiro, Tokioka, Tupola and Woodson being excused.

Representative Belatti, for the Committee on Health, presented a report (Stand. Com. Rep. No. 1280-16) recommending that S.B. No. 3085, SD 1, as amended in HD 1, pass Second Reading and be referred to the Committee on Consumer Protection & Commerce.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 3085, SD 1, HD 1 pass Second Reading and be referred to the Committee on Consumer Protection & Commerce, seconded by Representative Evans.

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In very strong support. Mr. Speaker, I rise in strong support and I just have very brief comments. I have two names and a Supreme Court case that I would like to talk about as to why I am in support of this matter.

"North Carolina State Board of Dental Examiners v. Federal Trade Commission. This is a Supreme Court case that was decided February 25th, 2015. Its holdings are very significant to us as a state. All states in fact are dealing with this ruling. The court held in this ruling that a state board on which a controlling number of decisionmakers are active participants in the occupation the board regulates must satisfy active supervision requirements in order to invoke state action antitrust immunity. The court further said that if a state wants to rely on active market participants as regulators, it must provide active supervision if state action immunity is to be invoked.

"Mr. Speaker, here in the State we have the duty to supervise many, many, many professional boards. Your Committee on Health has over the last three to four years done its due diligence and had many individuals come forward to talk about, in one particular case, the board of dental examiners here in this state.

"Mr. Speaker, this bill is an important measure and I feel like I need to stand up on second reading, because I'm not even sure that this will get further hearing, but I look forward to working with the future committee and Members on this measure. This measure would seek to clarify what is the legislative intent for the regulation of dentists, dental hygienists and dental assistants in this state.

"The three names I would like to leave with you, Mr. Speaker, as to why we need to do this. Not simply because of Supreme Court ruling, because we should actively supervise these active market participants who we ask to regulate, but because of the public health and safety in this state.

"The three names I would like to leave you with are Finley Boyle, three years old, January 2014, passes away, dies after undergoing root canals in a Kailua Honolulu dentist office. Kristen Tavares, 24 years old, mother of two, March 2014, falls into a coma after going in to have her wisdom teeth removed in a Hilo dental office. Recently, this year, and I don't want to say the name of the dental assistant and I don't know the name of the victim, but March 10th of this year, a dental assistant was charged for assaults and prohibited acts related to controlled substances for administering drugs to a two-year-old girl who became unconscious for 12 hours.

"Mr. Speaker, it would be unfortunate that we do not act, because we have been trying to act on this issue for the last three to four years. It would be unfortunate if we did not act. It would be unfortunate that it would take a death of a child on Kauai, or Maui, or Molokai before we do something.

"With the extension of pediatric dental health care in all plans because of the Affordable Care Act, we need to take greater responsibility of overseeing the supervision of these kinds of professions that affect the health, safety and welfare of our community. Thank you, Mr. Speaker. In very strong support."

Representative Souki rose to speak in support of the measure with reservations, stating:

"Thank you very much. In support with a slight reservation. And let me tell you why there's a slight reservation, because I've been known as a champion of the ferry. I also want to thank the Transportation Committee members for passing this measure. I think it's very important that we move it on. I just want to give a little history on the ferry.

"There's a lot of blame that goes back that the former Governor, and I was the Transportation Chairman myself during that particular time, did not have an EIS. The Governor was advised by her director, who was responsible for determining the need of an EIS or not, that there was no need for an EIS, this was given to the Governor, as it is an ocean-going vessel. I didn't quite believe the Governor, even though she was from Maui and Molokai, and I went and called that person myself. And she said yes, the committee felt and she felt that, as an ocean-going vessel, there is no need for an EIS.

"Then may I just go on a little bit. We have a ferry that has been going on for years between Lahaina and Lanai and Molokai, no EIS is required of them. We have a new ocean vessel in Pasha, it has a roll on, roll off, and it's quite different than the other freight boats that come through to Hawaii, and that didn't require it. Then of course, they never did require it in the days past of Young Brothers and Matson and any of those. And of course, you've got the Navy ships going up and down, that's not required.

"So, it's an imposition that was put upon by people who just didn't, for some reason, didn't want the ferry. And of course, the judge then, and he is my good personal friend, believed them and he said that there was a need for an EIS. So okay, so be it. There will be an EIS. But I wanted to give you a history of this, of why this measure came about. Thank you very much."

Representative McKelvey rose to speak in support of the measure, stating:

"Strong support, comments to the Journal. I would really like to thank the Transportation Chair. Thank you."

Representative McKelvey's written remarks are as follows:

"Mr. Speaker, in this measure Hawaii Airport Authority would benefit the State of Hawaii with one jurisdiction having overall authority to efficiently manage and allocate statewide resources, as appropriate, to improve the airport facilities and operations. This airport authority will give Hawaii the opportunity to create a truly world-class airport system that supports the critical air transportation needs of our communities and the continuing economic growth of business and leisure travel.

"I believe that this measure could facilitate the completion of long-needed airport improvement and also create a platform for integrated planning that will greatly benefit the traveling public. There are over 40 airport authorities on the mainland that recognize the importance of their airports as playing a key role and economic engine for their community. As an island state, Hawaii clearly needs one as well. Additionally, experience at these US airports shows that airport authorities can develop and implement policies and procedures designed to deliver uniquely complex airport capital programs more effectively and in a more timely fashion, while retaining full public transparency and accountability.

"Being a neighbor island resident, there are further reasons why I support this measure:

1. On August 4, 2015, Phase 1 of the Airport Access Road in Kahului opened for motorists, providing traffic relief to visitors and residents. Modernization of surrounding infrastructure calls for the timely creation of a Hawaii Airport Authority, which can provide focus and efficiency on improving our outdated airports and support facilities, especially on the neighbor islands.
2. The State Department of Transportation plays numerous roles with many constituencies, spanning from harbors to roadways. A single entity with a consolidated jurisdiction will be able to solely focus on operations and long-term planning for our airports. The authority will also allow for community input, while complementing other efforts to revitalize and promote Hawaii's economy.

3. Airport concessions are also in favor the idea of an Authority because contracts can be "negotiated" via RFP or other means with interested parties like all the other airports across the United States. It's time Hawaii airports utilizes a process that will achieve the overall maximum benefits that can result from negotiations among competitors.

4. This would allow proper resources and planning to develop our small airport systems as an independent transportation network and lay the groundwork for possibly bringing in the small boat harbor system.

"Mr. Speaker, airports are the first and last impression visitors see of Hawaii, and a positive impression is critical for our long-term success as an international destination. It is vital that we improve upon the service, infrastructure, and overall development of such a vital entity.

"For these foregoing reasons, I support SB 3072, SD 2, HD 1."

The motion was put to vote by the Chair and carried, and the report of the Committees was adopted and S.B. No. 3072, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO AN AIRPORT AUTHORITY," passed Second Reading and was referred to the Committee on Finance, with Representatives Kawakami, Kong, Oshiro, Tokioka, Tupola and Woodson being excused.

Representative Thielen rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I'm in support, but with some reservations. Thank you. What this would do is establish the Office of Planning as the lead state agency for transit-oriented development coordination. There's a sense to doing that, but there is a real void in the make-up of the group. You read the list of the different people that are to be on that, and they're all government related. We don't have the development community in there, and there should certainly be more than one token person, but by development community I mean those people that are experienced in putting shovels to the ground and building affordable or low-cost housing. That's the brain that we need on that group, rather than just government people.

"So I hope as the bill moves forward that the next committee, Finance Committee, could take a look at that make-up and get rid of a few of the, what is it, 14, 15 government people, put in those with real actual knowledge of how to do this, so it doesn't just become a talk story group, but it becomes an effective group that's going to result in affordable and low-cost housing being built. Thank you. May I also have remarks to the Journal, please? Thank you."

Representative Thielen's written remarks are as follows:

"I vote with reservations on SB 3077.

"The bill establishes the Hawaii Interagency Council for Transit-oriented Development within DBEDT in order to coordinate effective and efficient transit-oriented development planning on a statewide level. However the composition of the Council does not include enough expertise, including professionals with real estate development experience, especially with respect to affordable housing development.

"The bill's language provides that the Council consist of: 1. Director of the Office of Planning; 2. Executive Director of the Hawaii Housing Finance and Development Corporation; 3. Chairperson of the Board of Land and Natural Resources; 4. Director of Transportation; 5. Comptroller;

6. Director of Health; 7. Director of Human Services; 8. Director of Public Safety; 9. Chairperson of the Hawaiian Homes Commission; 10. Chairperson of the Board of Trustees of the Office of Hawaiian Affairs; 11. President of University of Hawaii; 12. Superintendent of Education; 13. Executive Director of the Hawaii Community Development Authority; 14. Executive Director of the Hawaii Public Housing Authority; 15. One Member of the House of Representatives to be designated by the Speaker of the House; 16. One Member of the Senate to be designated by the President of the Senate; 17. The mayor of each county; 18. A representative of the Honolulu Field Office of the United States Department of Housing and Urban Development; 19. A representative of the business community to be designated by the Governor; and 20. A representative of the community who is a housing advocate, to be designated by the Governor.

"The Council cannot be dominated by Government agencies, there must be more direct involvement from professionals with training in affordable housing building projects, otherwise, this development scheme will not address the pressing needs of our community.

"Accordingly, I vote with reservations on this measure."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, support with a brief demographic footnote. I just wanted to create the awareness that we are in the process, not knowingly, but creating a smoking underclass. The more that these bills are heard, the more that I hear that those who have stopped smoking are generally those in the upper and the middle classes.

"What we've got now is a smoking underclass. Those who can least afford it are the ones who are going to get hit with this tax. Just like gambling. Those who can least afford to gamble are the ones that gamble.

"Just so we know that as we put the percent, or the per cigarette tax on this, that it's going to a regressive purpose, the same way the GET tax, they say it's very regressive, because the poor pay more. The same, Mr. Speaker, if there's any mental health benefits to the poor having a cigarette, I think we have to be cognizant of that.

"For those reasons, I'm in support, but I think we should be cognizant of what we're doing demographically. Thank you."

Representative Har rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Har's written remarks are as follows:

"Mr. Speaker, I rise in support of Senate Bill 1311, SD 2, HD 1, with reservations. The intent of the bill is to exempt licensed or credentialed practitioners from licensing requirements for the practice of behavior analysis. It specifically relates to autism treatment services pursuant to the Department of Education's Individualized Education Plan. My reservations stem from various testimonies provided to the House Committee on Consumer Protection and Commerce. The concerns raised by testifiers centered around the strain that will be placed on teachers, and the strong need for behavioral analysts in appropriately working with *keiki* who need these services.

"Teachers have come forward to speak directly to the need for behavioral analytic services in their defined capacity, and that the assumption of this bill going forward is that the teachers themselves can simply 'handle it.' According to the very powerful testimony provided to the committee, there is a strong understanding in the teaching profession that the education and experience required for teaching does not adequately equip teachers to deal with the demand for behavioral analytic services. Requiring them to do so can create many issues for both teachers and the most at-risk students in our schools.

"The need for behavior analysts has already presented itself, it is what has given rise to Senate Bill 1311. I am concerned that the language of the bill will not address the real need for the service, but instead hopes to address an arbitrary numerical requirement in place for department professionals who provide the service. The key here is that the service would not actually be provided. This is not a prudent solution, allowing the educational system to 'fulfil its legal obligations' but putting the burden of these obligations on the already-overburdened staff of the educational system and students in need. It also leaves neither with any recourse; students and parents cannot ask for redress as the State will have, under this bill, fulfilled its obligations, and teachers cannot appropriately provide for the most at-risk students, as the burden can be placed on them with impunity. All of Hawaii's children deserve the best from our educational system, and care needs to be taken to ensure that laws we pass provide the most for our *keiki*, and not just for state departments. The testimony heard on this measure leaves me with concerns as to where this will leave our state's schools.

"For these reasons I stand in support of Senate Bill 1311, SD 2, HD 1, with reservations. Thank you, Mr. Speaker."

Representative Kawakami, for the Committee on Economic Development & Business, presented a report (Stand. Com. Rep. No. 1348-16) recommending that H.C.R. No. 196 be referred to the Committee on Finance.

On motion by Representative Mizuno, seconded by Representative Evans and carried, the report of the Committee was adopted and H.C.R. No. 196, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE STATE PROCUREMENT OFFICE TO REVIEW HAWAII'S PROCUREMENT LAWS IN COMPARISON WITH FEDERAL PROCUREMENT LAWS," was referred to the Committee on Finance, with Representatives Kong, Lowen, Matsumoto, McKelvey, Oshiro and Saiki being excused.

Representative Kawakami, for the Committee on Economic Development & Business, presented two reports:

(Stand. Com. Rep. No. 1349-16) recommending that H.R. No. 51 be referred to the Committee on Finance; and

(Stand. Com. Rep. No. 1350-16) recommending that H.C.R. No. 89 be referred to the Committee on Finance.

Representative Mizuno moved that the reports of the Committee be adopted, and that H.R. No. 51; and H.C.R. No. 89 be referred to the Committee on Finance, seconded by Representative Evans.

Representative Thielen rose to speak in opposition to both measures, stating:

"Thank you, Mr. Speaker. A no vote, please, on both, Mr. Speaker. And I see a tax looming in the measures. Thank you."

Representative Fukumoto Chang rose and asked that the Clerk record a no vote for her on both measures, and the Chair "so ordered."

Representative Ward rose to speak in opposition to both measures, stating:

"Mr. Speaker, I rise in opposition with a brief comment. Mr. Speaker, I think this is the proverbial nose of the camel going into the tent before the foot goes in the tent and then the whole body and then the whole nine yards, which means this is a full blown, basically it's a tax bill as a Trojan Horse, it's a tax bill in disguise.

"It says, let's look at all of the leakage, or let's look at all of the funding tax-wise that we're losing by not taxing internet sales. Mr. Speaker, what people fail to understand is that it's really a level playing field now. Every business that existed is a business that's going to survive is on the internet.

"And Mr. Speaker, having been a retailer for 15 years in Waikiki, I know every time that we had people, customers who were repeat customers at the Royal Hawaiian Hotel, we never paid GE tax. And I know a lot of people say, well this is for the sake that we got the brick and mortar, and they're paying more than anybody else. Well, anybody who is selling from Hawaii to the rest of the world, there's 6 billion people out there, doesn't pay the GE tax. There's a column in the monthly filing that says exempting. And if it's sent overseas, it's exempted. So, if we want this to be a reality, let's take away that exemption and say you can send stuff overseas and you can't get an exemption.

"But it's a misstatement to say that the brick and mortar are being punished, because every brick and mortar worth their cement is in effect on the internet. And if they're not on the internet, it's not working. So, Mr.

Speaker, with those in mind, perhaps someday we will have taxing on the internet, but now it's premature. This bill is not good news. Thank you."

Representative Fukumoto Chang rose in opposition to both measures and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Fukumoto Chang's written remarks are as follows:

"Mr. Speaker, I rise in opposition to HR51/HCR89. The resolutions call for a study to be conducted on taxing goods sold via the Internet, which is not a new issue for the State. We have been talking about this issue at a state level for years – as well as on a federal level. As such, I believe conducting another study on the topic would be redundant. Instead, we as the legislative body either need to make a policy decision or wait until the federal government unveils their proposed national uniformity on the issue.

"Furthermore, Mr. Speaker, many of my constituents shop online due to the high costs of goods and limited array of merchandise here in Hawaii. I believe my constituency is opposed to new taxes on purchases, including taxes on internet purchases. For these reasons, I am in opposition to HR51/HCR89. Thank you, Mr. Speaker."

Representative McDermott rose and asked that the Clerk record a no vote for him on both measures, and the Chair "so ordered."

Representative Tupola rose and asked that the Clerk record a no vote for her on both measures, and the Chair "so ordered."

Representative Evans rose to speak in support of both measures, stating:

"Thank you, Mr. Speaker. In strong support. I think it's really imperative that we talk about what's happening to our retail economy in Hawaii. And clearly, the internet is impacting a lot of our small businesses. I think it's important that we, as legislators, because clearly we want to see our economy grow and expand, and these small retail businesses are a huge part of what makes Hawaii. And I think it's important that we have this as information, and so I strongly support moving this forward. Thank you."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 51, entitled: "HOUSE RESOLUTION REQUESTING THE DEPARTMENT OF BUSINESS, ECONOMIC DEVELOPMENT AND TOURISM TO CONDUCT A STUDY ANALYZING THE IMPACTS OF RETAIL ON HAWAII'S ECONOMY, WITH A FOCUS ON THE PURCHASE OF GOODS THROUGH THE INTERNET," was referred to the Committee on Finance, with Representatives Fukumoto Chang, McDermott, Thielen, Tupola and Ward voting no, and with Representatives Kong, Lowen, Matsumoto, McKelvey, Oshiro and Saiki being excused; and

Representative Cachola rose to speak in support of both measures, stating:

"Mr. Speaker, in committee I voted with reservations. And the reason why I voted with reservations, is nobody even came in to testify in support of the bill. But after reading the bill, I know how important it is for the people in Maui. For that, I will be voting in strong support. Thank you."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. On motion by Representative Mizuno, seconded by Representative Evans and carried, the report of the Committee was adopted and H.R. No. 26, entitled: "HOUSE RESOLUTION RECOGNIZING AEROSPACE AS A STRATEGIC AND TIMELY GROWTH INDUSTRY FOR HAWAII AND REQUESTING THE STATE ADMINISTRATION TO TAKE PROACTIVE, COORDINATED, AND SUSTAINED ACTION TO FULLY REALIZE THE SIGNIFICANT SCIENTIFIC, EDUCATIONAL, AND COMMERCIAL BENEFITS THE AEROSPACE INDUSTRY CAN BRING TO THE STATE," was referred to the Committee on Finance, with Representatives Kong, Lowen, Matsumoto, McKelvey, Oshiro and Saiki being excused.

Representative Kawakami, for the Committee on Economic Development & Business, presented a report (Stand. Com. Rep. No. 1354-16) recommending that H.C.R. No. 59 be referred to the Committee on Finance.

On motion by Representative Mizuno, seconded by Representative Evans and carried, the report of the Committee was adopted and H.C.R. No. 59, entitled: "HOUSE CONCURRENT RESOLUTION RECOGNIZING AEROSPACE AS A STRATEGIC AND TIMELY GROWTH INDUSTRY FOR HAWAII AND REQUESTING THE STATE ADMINISTRATION TO TAKE PROACTIVE, COORDINATED, AND SUSTAINED ACTION TO FULLY REALIZE THE SIGNIFICANT SCIENTIFIC, EDUCATIONAL, AND COMMERCIAL BENEFITS THE AEROSPACE INDUSTRY CAN BRING TO THE STATE," was referred to the Committee on Finance, with Representatives Kong, Lowen, Matsumoto, McKelvey, Oshiro and Saiki being excused.

On motion by Representative Mizuno, seconded by Representative Evans and carried, the report of the Committee was adopted and H.R. "Mr. Speaker, I rise in support of HCR 127, HD 1. Advocates have stated that decriminalizing the possession of illegal drugs will release low-level drug offenders from incarceration, thus reducing overcrowded jail and prison populations. As such, they have pushed decriminalization laws both in Hawaii and nationwide. However, I am concerned that enacting policy without understanding its wide-ranging impact is unwise. Therefore, I believe it is imperative that a study on the effects of decriminalizing illegal drugs is conducted before any policy measures are undertaken. I have very serious concerns with decriminalization, and I expect a study will reveal those dangers and caution against further legislative action. For this reason, I rise in support of HCR 127, HD 1. Thank you, Mr. Speaker."

"Mr. Speaker, I rise in opposition to HCR 127, HD 1, which requests the Legislative Reference Bureau to study whether it would be feasible or wise

to decriminalize possession of small quantities of illicit drugs for personal use in Hawaii.

"I personally feel that this study will open up a Pandora's box of more problems because of accessibility and usage by medical patients. Let us wait until the medical marijuana issue is addressed thoroughly before jumping into the fire. Evaluating and researching just the country of Portugal is very narrow and limited in scope to determine the validity of decriminalization of Class C felony drugs. Portugal is a European country, and maybe the United States of America (the Federal Government) should research or evaluate the idea, rather than a state. Conflicts with federal laws and state laws will also have to be addressed.

"And finally, I am also very concerned about the Drug Abuse that may occur in Hawaii. For these reasons, I oppose this House Concurrent Resolution. Thank you."

Representative Keohokalole rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Keohokalole's written remarks are as follows:

"In support. The purpose of this resolution is to take a look at a policy that has after 15 years showed to be a viable alternative to the US's over 40 year old war on drugs, which in this country has resulted in the highest rate of incarceration in the world and not ended drug use. Recent media reports indicate a heroin epidemic in the Northeast and Midwest that is reaching crisis level, and recent media reports have indicated a growing methamphetamine epidemic in metropolitan Los Angeles.

"In 2009, the conservative leaning think tank the Cato Institute published a review of the Portugal decriminalization system, and concluded:

[W]hile there is a widespread perception that [administrative] changes need to be made ... to make it more efficient and effective, there is no real debate about whether drugs should once again be criminalized. More significantly, none of the nightmare scenarios touted by pre-enactment decriminalization opponents—from rampant increases in drug usage among the young to the transformation of Lisbon into a haven for "drug tourists"—has occurred.

...Those data indicate that decriminalization has had no adverse effect on drug usage rates in Portugal, which, in numerous categories, are now among the lowest in the EU, particularly when compared with states with stringent criminalization regimes. Although postdecriminalization usage rates have remained roughly the same or even decreased slightly when compared with other EU states, drug-related pathologies—such as sexually transmitted diseases and deaths due to drug usage—have decreased dramatically. Drug policy experts attribute those positive trends to the enhanced ability of the Portuguese government to offer treatment programs to its citizens—enhancements made possible, for numerous reasons, by decriminalization.

"The study ultimately concluded that, 'judged by virtually every metric, the Portuguese decriminalization framework has been a resounding success. Within this success lie self-evident lessons that should guide drug policy debates around the world.' What are those lessons and what can we here in Hawaii learn? We are in a different part of the world with different issues and different laws. But our laws are not working. For those reasons, I stand in support."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 127, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE LEGISLATIVE REFERENCE BUREAU TO CONDUCT A STUDY ON THE FEASIBILITY AND ADVISABILITY OF DECRIMINALIZING THE ILLEGAL POSSESSION OF DRUGS FOR PERSONAL USE IN HAWAII," was adopted, with Representatives Johanson, Matsumoto, McDermott, Pouha, Say, Tupola and Ward voting no, and with

Representative McDermott rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Tupola rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Fukumoto Chang rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Fukumoto Chang's written remarks are as follows:

"Mr. Speaker, I rise today in opposition to SB 2954, SD 2, HD 1. This bill would authorize county police departments to enroll individuals who are applying for and registering their firearms into a criminal record monitoring service used to alert police when an owner of a firearm is arrested for a criminal offense anywhere in the country. This program is known as the Federal Bureau of Investigation's (FBI) 'rap back system.'

"The 'rap back' is a criminal record monitoring service used to alert police when an owner of a firearm is arrested for a criminal offense anywhere in the country. The federal databases involved in the 'rap back' belong to the International Justice and Public Safety Network, and include: U.S. Immigration and Customs Enforcement query, National Crime Information Center, and National Instant Criminal Background Check System. Additionally, SB 2954, SD 2, HD 1 authorizes the Hawaii Criminal Justice Data Center to access firearm registration data.

"This bill is severely problematic for two main reasons. Firstly, it will almost double the costs associated with registering firearms because applicants will have to pay for state fingerprinting and enrollment in state and federal databases.

"Secondly, although the details about the types of firearms registered would not be in the database, this bill would track firearm ownership – a constitutional right – in the same database that is used to monitor people working in sensitive jobs and verify lack of criminal record (e.g. airline pilots, teachers, law enforcement officers, daycare center workers). This is especially problematic as it appears to monitor individuals simply for exercising an individual right to own a firearm, with the assumption that one day the police might need to seize it if the individual commits a criminal act.

"Hawaii already has some of the strongest gun laws in the nation, including a background check for firearms owners, and I support that. However, I do not believe that adding another background check that will add costs and put firearms owners in a federal database is necessary.

"Mr. Speaker, I believe this bill is a huge overreach into an individual's rights, and for the reasons above I am in opposition to SB 2954, SD 2, HD 1. Thank you Mr. Speaker."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Matsumoto rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

No. 2954, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO FIREARMS," passed Second Reading and was placed on the calendar for Third Reading, with Representatives Har, Oshiro, Pouha, Thielen and Ward voting aye with reservations, with Representatives Fukumoto Chang, Matsumoto, McDermott and Tupola voting no, and with Representatives Choy, Ichiyama, Rhoads, Souki and Tokioka being excused.

ANNOUNCEMENTS

Representative Brower: "Thank you, Mr. Speaker. Yesterday one of our Members celebrated a birthday. What I like about this legislator is that he is a no-nonsense and practical leader. You wouldn't see him trying to get a cheap laugh by putting on a bunny costume for the Women's Caucus.

"Mr. Speaker, let me start over. Members, occasionally a legislator must wear a bunny outfit to help a charity during Easter. Mr. Speaker, I guess what I'm trying to say is when I think of a legislator with a big heart who cares about people, one who has exciting floor presentations, I think of the Legislative Management Committee's Vice Chair. Sitting next to the Vice Chair, a person whose birthday we recognize today. And Members, he is someone who enriches our lives and reminds us to do good. Let's recognize Representative Scott Nishimoto."

Representative Ward: "Mr. Speaker, since we are nearing the end of the session and we may not have many more fellowship luncheons left, I just wanted to announce that Bishop Silva will be tomorrow the luncheon speaker at the fellowship luncheon. Following the session tomorrow, in Room 437."

"Thank you, Mr. Speaker. I normally don't speak on resolutions, but I'm in strong support. We need to, in the State, I think to have greater recourse, to have oversight of these very powerful boards and homeowners associations. They lack in many ways transparency, they lack in many ways accountability. Generally I'm not in favor of removing constitutional rights to a trial by jury, but we have to do something to be able to find, I think, extrajudicial ways of settling disputes between homeowners associations and members of those associations that don't require very expensive litigation. Thank you, Mr. Speaker."

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2886, SD 2, HD 2 pass Third Reading, seconded by Representative Evans.

Representative McDermott rose to speak in opposition to the measure, stating:

"Mr. Speaker, I'll be brief. I'd like to cast a no vote and I'd like my remarks from the previous readings to be referenced as I speak. My concern, as I've already spoken about previously which I won't go over again, but the main thing that bothers me is creating the statutory framework at age 14. I can see in the out years as we're doing this, and of course I talked about how we were doing it before, that this could cause problems, unforeseen consequences that we're not even thinking about today. So, those are my concerns and they are heartfelt. Thank you, sir," and the Chair "so ordered." (By reference only.)

Representative Oshiro rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I'll just be voting with reservations. My reservations stem from the fact that, given the current structure of the bill, the licensed mental treatment health professionals own pecuniary interest might override other concerns that are not being reviewed by any third party, such as the family court. So, those are my concerns right now. Thank you."

Representative Har rose in support of the measure with reservations and asked that the remarks of Representative Oshiro be entered into the Journal as her own, and asked that her written remarks be inserted in the Journal, and the Chair "so ordered." (By reference only.)

Representative Har's written remarks are as follows:

"Mr. Speaker, I rise in support of Senate Bill 2886, SD 2, HD 2, with reservations. The intent of the bill is to reduce barriers to accessing mental health services for minors by lowering the age of consent to receive treatment and services. The age of consent in these cases would be lowered from 18 years of age to 14 years. It attempts to reduce mental health services using methods other than prescription medication or out-of-home or residential treatment. While I support the overall intent of the measure to improve mental healthcare, I note my reservations on the grounds of compelling state interest, potential precedent, and financial liability.

"While there is merit to protecting the health and wellbeing of our *keiki*, I am concerned that it is not entirely appropriate to grant legal sovereignty to 14-year-olds outside of the consent of their parents or guardians. Family is important, and if the State wants to overstep the jurisdiction of the

family, it must do so with a strong compelling interest for the well-being of the public or the child. In this sense, SB 2886, SD 2, HD 2 is vague, allowing a large amount of discretion on the part of a child and that child's mental healthcare provider. Care should be taken to ensure that this level of discretion is held tightly, especially since it could potentially be used to stonewall parents out of a child's healthcare proceedings.

"Further, the precedent set by this bill is to allow legal grounds for 14-year-olds. I have heard the concerns of many of my colleagues here in the House and agree with their worry that 14 years of age is too early for children to be given the sovereignty and opportunity to, as I mentioned before, stonewall their parents out of their lives. As the legal framework this bill will eventually create expands, the age of 14 will remain law. This has the potential to be used as a standard in policy and judicial proceedings in the future. While it is understandable to ensure that children in precarious situations are protected by the laws of our state, the broad strokes painted by this law may go far beyond the intent of simply protecting the children.

"Finally, I am concerned that the bill excuses several parties from financial responsibilities for mental health services, but does not appropriate funds to cover the exemption. Licensed mental health professionals, just like any professionals, cannot be reasonably expected to work without compensation. It is admirable that this bill protects patients/counselees from financial liability, but this admirable exemption has the potential to be the hamartia of the bill. It is in the best interest of the State to provide the best service to at-risk children, but the best licensed mental health professionals cannot and should not work for free, and it is unfair for the State to expect them to do so.

"I agree that we must protect our children, Mr. Speaker. However, we must do so in a way which will provide specific protections based on compelling state interest, avoid ungrounded precedent, and be careful about approaching mental health provision unilaterally. For these reasons I stand in support of Senate Bill 2886, SD 2, HD 2, with reservations. Thank you, Mr. Speaker."

Representative Tupola rose in opposition to the measure and asked that the remarks of Representative Oshiro be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative DeCoite rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2886, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO AGE OF CONSENT FOR ADOLESCENT MENTAL HEALTH SERVICES," passed Third Reading by a vote of 44 ayes to 5 noes, with Representatives DeCoite, Har and Oshiro voting aye with reservations, with Representatives Kong, Matsumoto, McDermott, Tupola and Ward voting no, and with Representatives Rhoads and Thielen being excused.

UNFINISHED BUSINESS

S.B. No. 2954, SD 2, HD 1:

Representative Saiki moved that S.B. No. 2954, SD 2, HD 1 pass Third Reading, seconded by Representative Evans.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition, a few comments. Mr. Speaker, we have to keep guns out of criminals' hands, but we don't want to make those hands that have legal weapons into criminals, and unfortunately this bill seems to put people who are not criminals on a criminal list. So by association of the guilt by association, naturally you're going to be locked into that imagery. Plus, according to the data in the hearings, the Owners' Protection Act of 1986 says that there will not be a federal list of firearms. So this flies in the face of that.

"And for those who are thinking that, well, we're going to get some money out of the \$50 that this is going to bring in, it actually goes to the feds.

"And lastly, Mr. Speaker, I think that the Second Amendment is pretty clear, that these people who have arms have a right to do that. And the legislation that says that we're not going to have a national arms, can you imagine during the revolution when we were against the British and we had a list of all those who had weapons, the British would've beat us, we would've never been America, because we had the Second Amendment as part of what in our *psyche*, if you will, which now we have in law, keeps the citizens protected from their government, and if you will, the government protected from their citizens, because they have the right to bear arms.

"So this thing criminalizes a lot of people, and the other interesting thing is that we are the only state to do this. I mean, we like to be out in the forefront, but I think with these kinds of things we're actually going to be in the backyards of history on this one. Thank you, Mr. Speaker."

Representative Rhoads rose to speak in support of the measure, stating:

"Mr. Speaker, in support. In opposition to the previous speaker, I guess I should say. This doesn't criminalize anybody, all this does, all this bill does is allows our counties to take advantage of a federal program to do a rap back for arms purchases. It doesn't criminalize anybody. On the contrary, anybody who, this only catches people, the flag only goes up if a crime has been committed or other disqualifying matters, so that's just not correct.

"A statement was made that it conflicts with the federal, I forgot the technical name of it, the 1986 law. It doesn't. The federal government wouldn't be able to run the program if it did, and there are no legal or constitutional impediments to our counties going ahead and accepting the rap back program that the federal government has put out here for checking for background checks for gun purchases. It's one of the specific reasons that the rap back program was put into effect by the FBI. And we have the forms, I have a copy of the form if anybody would like to see it, gun checks are right there, so this is something that the federal government developed specifically for this purpose.

"I would also note that the counties already have the authority to do exactly the same thing as this bill does, they just have to do it manually. So it's practically not possible, but we do have the authority to do it already. Thank you."

Representative Ward rose to respond, stating:

"Mr. Speaker, the learned gentleman from downtown deserves a retort. And with his reputation that is impeccable, I would say he should never be put on a FBI most wanted list. Because he is an honorable gentleman. But when you get his name up to those, even though he hasn't committed a crime, I am giving you a parallel of what this bill does, it puts you on a list that is very suspect. If someone learns that the good gentleman from downtown is on the FBI most wanted list, they say, oh there must be something wrong with his character."

"Well, what this bill does is put these people with firearms on a list which otherwise is associated with very unsavory individuals, because those people on there are waiting to be dinged for criminal activity."

"I see the intent, I don't see any other state doing this, and it does fly in the face of a 1986 law that says we will not have a federal list of firearms. The rest of the states wouldn't put up with that. The spirit of the Second Amendment, the spirit of being an independent America, with your government knowing everybody who's got a weapon. That's what the 1986 law is about, and what the good gentleman will not admit that it does actually say."

"For those reasons, Mr. Speaker, this is not a good bill. We've got a policy that's working to the degree already, but why do we want to push it farther? And no one is following us. Even California, which does above and beyond the expectation for gun control. Or even on the East Coast. We have not got that. So why are we doing this? I have no idea. Thank you, Mr. Speaker."

Representative Rhoads rose to respond, stating:

"Mr. Speaker, still in support. Section 846-2.7, which is in the bill, has a list of 42 different groups of people who are subject to rap back, if those agencies decide to use them. And they are people who are not in any way considered to be. The Department of Health or its designee on operators of adult foster care homes. Department of Health prospective employees, persons seeking to serve as providers, or subcontractors in positions that place them in direct contact with clients."

"None of these people are in a suspect list. We just want to be sure that there is no one there who has committed a felony. And because of the sensitivity of the position, because of the sensitivity of owning a gun, they can cause a lot of damage. It's very good public policy to be sure that those who have committed felonies are at least checked to be sure that they still qualify under our gun control laws. And the good Representative from Hawaii Kai is incorrect about the 1986 law. Thanks."

Representative LoPresti rose to speak in support of the measure, stating:

"In support. I ask to enter comments into the Journal. And I would only add, and I mean this after careful consideration. If you're against this bill, essentially what you're against is against criminal background checks. You are against criminal background checks because *de facto* what it means is that you're against having a check on felons having access to firearms. And not having this law actually protects felons and ensures that felons will have firearms. Thank you."

Representative LoPresti's written remarks are as follows:

"On this particular measure, I feel that there may be some misrepresentation of the bill by some groups. It may be of interest to you to know that this bill is, in fact, supported by the Hawaii Rifle Association – they submitted testimony in support of the measure during the February 8th hearing, noting that it eased moving between counties without having to re-register firearms. Additionally, the NRA has not submitted testimony opposing the bill for any reason, at any of the three separate hearings

throughout February and March. Neither had NRA, to my knowledge, raised any questions as to the constitutionality of this measure."

"I certainly understand general concerns about limiting law-abiding citizens' ability to own a firearm, however, this bill in no way prohibits or prevents this. It only applies to convicted criminals (specifically felons), not law-abiding citizens. In other words, my understanding of the bill is that only those who have disqualified themselves from owning a gun by criminal conviction would be affected by SB 2954. It is already the case that such convicted individuals, by law, should self-report and either turn in or turn over to someone else firearms that were up to the point of conviction legally in their possession. Their ownership of a firearm was legal at one point but because of convicted felonious activity, their possession is no longer legal – this has been the law of the land for a very long time. Not surprisingly, many do not self-report and do not turn over firearms that are illegally possessed. This bill merely makes it possible for law enforcement to more efficiently know if someone may be illegally in possession of a firearm by virtue of a criminal conviction; it is important to note that law enforcement already has the legal ability and duty to do this, SB 2954 only gives them the human and technological resources to conduct such criminal background checks in a timely and efficient manner. Thus, to be clear, this bill merely provides law enforcement the awareness that they need to enforce current laws that they already enforce. Without this law, the illegal possession of firearms by convicted felons is practically ensured."

"There has been some spreading of misinformation that SB 2954 is in violation of federal law, but in fact it would utilize an existing federal program – offered by the federal government – to assist in criminal background checks. Again, the police already have the authority to do this, SB 2954 simply offers additional human resources and technology to improve and facilitate to continue to do what they already do."

Representative Ward rose, stating:

"Mr. Speaker, a point of personal privilege. I believe that he imputed motivation for my speaking. I am not against background checks. That is not the point. Background checks are there, they work, and there is no imputed..."

The Chair addressed Representative Ward, stating:

"I apologize, Representative Ward, I am looking at the rules relating to personal privilege. Members must relate to the person as a member of the body or relate to charges against their character that, if true, would incapacitate them from membership. I don't think that you have met the level. Thank you, though. Thank you, Representative."

The motion was put to vote by the Chair and carried, and S.B. No. 2954, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO FIREARMS," passed Third Reading by a vote of 26 ayes to 21 noes, with Representatives Aquino, Choy, Cullen, DeCoite, Fukumoto Chang, Har, Hashem, Ito, Jordan, Kawakami, Kong, Matsumoto, McKelvey, Morikawa, Pouha, Say, Tokioka, Tsuji, Ward, Yamane and Yamashita voting no, and with Representatives McDermott, Oshiro, Thielen and Tupola being excused.

"Thank you, Mr. Speaker. I rise in support of HR 55 and HCR 94. As the Representative for House District 32 – Salt Lake, Moanalua and Aliamanu – since 2010, I regularly receive concerns from constituents about traffic congestion in our neighborhood. For example, one family reports that they are unable to exit their driveway because of the traffic from Tripler Army Medical Center. Other residents express concerns about the traffic from Moanalua Valley to the Moanalua Freeway west-bound on-ramp, which was rated an 'F' in a recent traffic study. I also regularly hear about the congestion on Puuloa Road and Salt Lake Boulevard.

"Without question, traffic congestion negatively affects the quality of life for our area residents. I support HR 55 and HCR 94 as steps to solve these challenges."

Representative Johanson rose in support of both measures and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Johanson's written remarks are as follows:

"Mr. Speaker, on behalf of the communities that I represent, including the areas of Ft. Shafter, Moanalua Gardens, Red Hill, Aliamanu Military Reservation, and Mapunapuna, I rise in support of House Resolution 55 and House Concurrent Resolution 94, which offers the potential to help alleviate and address existing traffic congestion in the Aiea, Red Hill, Moanalua, Aliamanu, and Salt Lake areas – notably some of the worst points of congestion on the Island of Oahu.

"I believe that we owe it to our residents to prioritize addressing the traffic issues that have been ailing the surrounding communities for years. With the Moanalua Freeway running through my district on one side and the H-1 Freeway passing through it on the other side, my district plays an important and significant role in shouldering the transportation infrastructure needs for much of Central and Leeward Oahu commuters. It is a shared burden that our community has embraced. However, it also means that our communities are disproportionately impacted when anything adds to congestion and traffic on freeways and thoroughfares in our area.

"According to the 2015 American Highway Users Alliance's (AHUA) Report, the Ala Kapuna Overpass (Red Hill) section of Moanalua Freeway has the greatest congestion in the State of Hawaii, with delays totaling up to 607,100 hours for commuters. People living within the affected areas of Moanalua, Salt Lake, Red Hill, Aliamanu, and Aiea face crowded roads, increased travel time, and a lower quality of life due to the traffic issues within our neighborhoods.

"For too long, the State and City have not adequately coordinated a comprehensive traffic and congestion study and plan. House Resolution 55 and House Concurrent Resolution 94 correctly encourages both the State Department of Transportation and the City Department of Transportation Services to complete the long-overdue study as well as assessing the need for consideration of our communities' traffic and congestion issues in the Oahu Metropolitan Planning Organization's Transportation Improvement Projects.

"House Resolution 55 and House Concurrent Resolution 94 offers a potential solution to help address a key concern of many residents in my community: traffic and congestion."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 55, entitled: "HOUSE RESOLUTION REQUESTING WORK ON THE H-1 CORRIDOR STUDY TO BE EXPEDITED AND THE STATE AND THE CITY AND COUNTY OF HONOLULU TO EVALUATE TRAFFIC MANAGEMENT INITIATIVES AND DEPARTMENT OF TRANSPORTATION-SPONSORED PROJECTS IN THE OAHU METROPOLITAN PLANNING ORGANIZATION-APPROVED FY 2011-2014 TRANSPORTATION IMPROVEMENT PROGRAM TO ADDRESS TRAFFIC CONGESTION IN THE AIEA-RED HILL-MOANALUA-SALT LAKE AREA," was adopted, with Representatives McDermott, Oshiro, Thielen and Tupola being excused; and

"There is currently only one ambulance station in Ewa, and it is only operational for 12 hours a day. Ewa continues to have the fastest growing population in the State, and the station is unable to keep up with the increasing number of calls. HR 70/HCR 113 would move the station from its current location within the Ewa Villages Golf Club – where ambulances have to fight traffic to reach a majority of the calls received – to the far more centrally located former fire station on Pohakupuna Road. The former fire station is much closer to the center of population in Ewa, and moving the station there will improve response times and save lives."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 70, entitled: "HOUSE RESOLUTION URGING THE EMERGENCY MEDICAL SERVICES AND INJURY PREVENTION SYSTEM BRANCH OF THE DEPARTMENT OF HEALTH TO SUPPORT FUNDING FOR A CENTRALLY LOCATED AMBULANCE STATION IN EWA BEACH," was adopted, with Representatives McDermott, Oshiro, Thielen and Tupola being excused; and

Representative Ichiyama's written remarks are as follows:

"Thank you, Mr. Speaker. I am in strong support of HR 89/HCR 137.

"If passed, these resolutions would request the Hawaii Department of Education ('DOE') to affirm its commitment to uphold the tenets of Title IX of the Education Amendment Act of 1972, renamed the Patsy Takemoto Mink Equal Opportunity in Education Act ('Title IX').

"Title IX prohibits discrimination on the basis of sex in the administration of educational programs and activities. Title IX is vital to increasing educational opportunities for women and girls, fostering equality between men and women, and eliminating sex discrimination.

"In the 40 years since its passage, federal regulations and guidance issued by the United States Department of Education's Office of Civil Rights have constructed a robust framework for what educational institutions need to do in order to comply with Title IX. Yet many educational institutions across the country, including DOE, are failing to implement or do not adequately implement the requirements of Title IX.

"Discrimination on the basis of sex, particularly in the form of sexual harassment or violence, is still all too common in schools. Girls and young women cannot fully pursue their studies in environments where sexual harassment and predation from peers and staff is allowed to occur.

"A review of DOE's Title IX procedures and resources reveal substantial shortcomings, which fosters an environment where it is difficult for Hawaii's girls and women to learn and achieve their full potential.

"These resolutions address the shortcomings in DOE's Title IX compliance, and call on DOE to take specified actions, including developing strong policies and procedures and employing sufficient staff to properly monitor, analyze and resolve Title IX cases, to ensure that DOE students and employees are protected against sexual discrimination and all of our girls and young women have equal access to educational opportunities.

"Thank you very much, Mr. Speaker, for the opportunity to express my support of HR 89/HCR 137."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. Representative Saiki moved that the reports of the Committee be adopted, and that H.R. No. 97; and H.C.R. No. 146 be adopted, seconded by Representative Evans.

Representative Say rose in support of both measures, stating:

"Mr. Speaker, in strong support with written comments."

Representative Say's written remarks are as follows:

"Mr. Speaker, I am in strong support of HR 97/HCR 146, Requesting the Department of Education to Provide Equipment Necessary for a Full-Service Conventional Kitchen at Keaukaha Elementary School and to Provide Necessary Positions to Operate the Kitchen.

"The community and residents of Keaukaha have worked tirelessly with their legislators (especially Rep. Clift Tsuji) and the Department of Education to have this cafeteria built. The present language in the resolution is correct and a proviso was added in 2011 to show legislative intent for a Full-Service Conventional Kitchen.

"Please note that the following proviso was passed in Act 164, Session Laws of Hawaii 2011, Part V. Capital Improvement Program Provisos, Section 65:

(2) By amending Item G—49 to read as follows:
 "P90083 KEAUKAHA ELEMENTARY SCHOOL, HAWAII
 PLANS, DESIGN, CONSTRUCTION AND
 EQUIPMENT FOR A NEW CAFETERIA[—], INCLUDING A
 FULL-SERVICE, CONVENTIONAL KITCHEN TO BOTH
 PREPARE AND SERVE FOOD; GROUND AND SITE
 IMPROVEMENTS; EQUIPMENT AND APPURTENANCES.
 ... "

"This was the 'legislative intent' when the funding was included in the state budget – that the new Keaukaha Elementary School Cafeteria would continue to play the role of supporting both the school and community by confining to be a 'full-service' cafeteria.

"In light of this ongoing dispute between the community and the DOE, the legislators' support was sought in 2011. At that time, the legislators passed what became Act 164, which made clear that funding for the new school cafeteria would include, 'a full-service, conventional kitchen to both prepare and serve food'.

"Common sense dictates that this would include staffing positions and equipment necessary to 'prepare and serve food'.

"I would like to ask the Department of Budget and Finance, the Department of Education, and the Governor to please support this proviso and appropriations of the past. Thank you."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. In 1995, the Legislature appropriated funds for the Leeward Bikeway – over 20 years ago. Bikeway construction has been delayed for far too long. Citizens should have been able to enjoy it for the past two decades, and there is no good reason for it to be put off any longer."

Representative Har rose to speak in support of both measures, stating:

"Thank you, Mr. Speaker. In strong support and may I request permission to enter written comments into the Journal? Thank you."

Representative Har's written remarks are as follows:

"Mr. Speaker, I rise in support of House Resolution Number 124, HD 1, and House Concurrent Resolution Number 174, HD 1. These resolutions seek to address the traffic nightmare that citizens of West and Central O'ahu face on a daily basis.

"Traffic congestion is a serious problem faced by cities around the country and throughout the world. It negatively impacts the quality of life for many residents of O'ahu, especially for working professionals and students commuting from outside the metropolitan Honolulu area. This is by far the most frequent and strongest complaint I receive from my constituents, and I applaud the Representative from Royal Kunia for seeking ways to mitigate the ongoing traffic crisis.

"Traffic congestion in Honolulu is consistently ranked as one of the worst in the nation, ranking second in a report by INRIX, a traffic information and driver services company. The countless hours that residents and visitors to the island spend in traffic should instead be spent shopping, dining, or with family. Worse than congestion and delays, increased traffic in Hawaii contributes to a rate of around 10,000 serious traffic accidents a year, resulting in between 120 and 150 fatalities and 8,000 to 12,000 individuals being seriously injured. Wasted time is only a piece of the puzzle, the safety concerns put lives at risk.

"The problems with traffic in Honolulu are particularly pronounced in weekday commutes between metropolitan Honolulu and the Leeward and Central areas of O'ahu. This problem will only worsen with the growth of Kapolei and the Ewa region, as recent economic forecasts predicting job growth in the Ewa market of more than 67,000 new jobs over the next decade and a half.

"An overhaul of the infrastructure has the potential to greatly improve quality of life for residents of West O'ahu, the results of which will be felt across the island. For this reason I stand in support of House Resolution Number 124, HD 1 and House Concurrent Resolution Number 174, HD 1. Thank you, Mr. Speaker."

Representative Cullen rose in support of both measures and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Cullen's written remarks are as follows:

"Mr. Speaker, I rise in support of HR 124/ HCR 174.

"This measure supports a collaborative resolution that will try to address our traffic needs in the leeward area of Oahu on different levels. I believe that the different agencies listed within the resolution need to improve their communication and collaboration as they consider new ideas to address

traffic. As stated in the resolution, traffic congestion negatively impacts the quality of life for many residents of Oahu. With that being said, I hope this resolution will continue to look at new solutions to address traffic, and connect and integrate current solutions and plans between the departments to improve the lives of the Leeward Oahu community."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 124, HD 1, entitled: "HOUSE RESOLUTION REQUESTING THE DEPARTMENT OF TRANSPORTATION, DEPARTMENT OF ACCOUNTING AND GENERAL SERVICES, AND UNIVERSITY OF HAWAII TO CREATE A TRAFFIC MITIGATION PLAN FOR THE LEEWARD AND CENTRAL AREA OF OAHU," was adopted, with Representatives McDermott, Oshiro, Thielen and Tupola being excused; and

Representative Har rose to speak in support of both measures, stating:

"Thank you, Mr. Speaker. In strong support and may I request permission to enter written comments into the Journal? Thank you."

Representative Har's written remarks are as follows:

"Mr. Speaker, I stand in support of House Resolution Number 130 and House Concurrent Resolution Number 180. The intent of these resolutions is to address school overcrowding in my district and the surrounding area, which is a real problem for residents of West O'ahu and their children. Kapolei is one of the fastest-growing communities on O'ahu and in the State as a whole. Large numbers of young families with school-aged children are moving to Kapolei because of the relatively affordable housing in these areas. This growth creates economic prosperity for everyone, but only if public infrastructure can keep up.

"Due to the growth of West O'ahu, student enrollment is projected to increase at public schools. When overcrowding at public schools occurs, it adversely affects both teaching conditions for teachers and learning conditions for students. Because of overcrowding, there are reports of public school teachers who must teach classes that are startlingly large in size. This results in lower quality education and more at-risk students going underserved.

"The Legislature has appropriated \$10,000,000 as a lump sum to the Department of Education to address overcrowding in public schools. It would be admirable if this task force can use the resources provided to find a reasonable remedy for the situation. Addressing education shortfalls will have a profound effect on the future of West O'ahu, the island, and the State. For these reasons I stand in support of House Resolution Number 130 and House Concurrent Resolution Number 180. Thank you, Mr. Speaker."

Representative Cullen rose to speak in support of both measures, stating:

"Strong support, same request. Thank you."

Representative Cullen's written remarks are as follows:

"Mr. Speaker, I rise in support of HR 130/HCR 180.

"At this point, Mr. Speaker, the schools within Waipahu, Kapolei and Ewa are at or over capacity, and the projected population growth in Waipahu, Kapolei and Ewa will only add to this issue. The current schools will eventually reach maximum capacity, and the planned schools to be built in these areas are years away from addressing the current overcrowding issue. The community deserves a plan moving forward on how, as a state, we will address this issue.

"I hope this task force will look at funding mechanisms and design-build process for schools to address the length of time it takes to complete a project. These are just a few areas I hope they can look at among many others to improve our current process. If we do nothing, this issue will continue to negatively impact the quality of education for our students. Therefore, creating this task force will allow for a well-rounded discussion and create viable solutions to overcrowding."

Representative LoPresti rose to speak in support of both measures, stating:

"Strong support, same request. Thank you."

Representative LoPresti's written remarks are as follows:

"The Leeward side's population has grown at a rapid pace for the past decade, and continues to grow as more and more families settle in Ewa, Kapolei and Waipahu. James Campbell High School, the largest school in the State, is already crippling overcrowded, and projected enrollment numbers show that the problem will only continue to get worse in the coming years. The Department of Education needs to get in front of this issue before it becomes irreparable, and the first step in doing that is forming this task force."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 130, entitled: "HOUSE RESOLUTION REQUESTING THE DEPARTMENT OF EDUCATION TO ESTABLISH A TASK FORCE TO CREATE A PLAN TO ADDRESS OVERCROWDING IN PUBLIC SCHOOLS IN KAPOLEI,

EWA, AND WAIPAHU," was adopted, with Representatives McDermott, Oshiro, Thielen and Tupola being excused; and

H.C.R. No. 180, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE DEPARTMENT OF EDUCATION TO ESTABLISH A TASK FORCE TO CREATE A PLAN TO ADDRESS OVERCROWDING IN PUBLIC SCHOOLS IN KAPOLEI, EWA, AND WAIPAHU," was adopted, with Representatives McDermott, Oshiro, Thielen and Tupola being excused.

Representative Saiki moved that the report of the Committee be adopted, and that H.C.R. No. 188, HD 1 be adopted, seconded by Representative Evans.

Representative Jordan rose to speak in support of the measure with reservations, stating:

"Reservations, Mr. Speaker. Just a few comments if I may, Mr. Speaker. Mr. Speaker, my reservation on this particular measure is, this is a negotiating committee. I don't think they should've use those words, 'negotiating committee', because I don't think they're going to be negotiating anything at this point in time, since they're just going to be providing a report. Maybe they should have used the words 'working group'.

"I have a problem with the individuals that are on this particular negotiating committee. I see Senate President or the designee, House of Representatives Speaker, designee, Governor, designee, Chair Person of Office of Hawaiian Affairs.

"Apparently, this is a state and state agencies discussing revenues for beneficiaries. The problem is, Mr. Speaker, as I don't see any beneficiaries that will be on this working group. Although some people are under the conception that OHA represents all beneficiaries, I don't take that position, Mr. Speaker. I think we should at least have somebody that represents beneficiaries outside of a state agency, known as OHA, representing that voice at this particular table.

"That's what my reservation is at this point in time. Hopefully the Senate may add some adjustments to this. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 188, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE ESTABLISHMENT OF A PUBLIC LAND TRUST REVENUES NEGOTIATING COMMITTEE," was adopted, with Representative Jordan voting aye with reservations, and with Representatives McDermott, Oshiro, Thielen and Tupola being excused.

Representative Luke, for the Committee on Finance, presented two reports:

(Stand. Com. Rep. No. 1567-16) recommending that H.R. No. 106 be adopted; and

(Stand. Com. Rep. No. 1568-16) recommending that H.C.R. No. 154 be adopted.

Representative Saiki moved that the reports of the Committee be adopted, and that H.R. No. 106; and H.C.R. No. 154 be adopted, seconded by Representative Evans.

Representative Ward rose to speak in opposition to both measures, stating:

"Mr. Speaker, I rise in opposition with a brief comment. Mr. Speaker, this bill suggests that we should have a separate system of financing the Judiciary for the sake of their medical programs, for their retirement programs. The ERS, as you know, handles all of the state employees. Why we should separate one is, according to this bill, is because there's a conflict of interest if there is something that comes before the ERS to the Judiciary. How many times that's ever happened I'm not sure, but that seems to be a pretty lame excuse.

"The second thing is that there's about 82 people that would be covered in this separate section. And the cost to do that would be tremendous. And thirdly, Mr. Speaker, under the constitutional equal protection, all laws must be rationally related for the purpose of the bill, and I think it fails that test.

"It looks as though it's discriminating against one branch of government by trying to make it separate. It's stretching things a bit and makes it look petty, in fact I don't see any fiscal, constitutional or commonsense reason why are we doing this, unless there's something behind it that has, like maybe a kabuki play where you don't really see the characters, but you see them, and in this case it maybe petty politics in the background. Thank you, Mr. Speaker."

Vice Speaker Mizuno: "Representative Ward, if I may, these are resolutions, not bills, but thank you very much for your insight."

Representative Say rose in opposition to both measures and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Say's written remarks are as follows:

"Mr. Speaker, I rise in strong opposition to HR 106 and HCR 154, requesting the Legislative Reference Bureau to evaluate the establishment of separate medical and pension benefit plans for justices and judges. My testimony will make reference to the testimony submitted by the Legislative Reference Bureau (LRB).

"The LRB, in its testimony, stated that establishing separate medical and pension benefit plans solely for justices and judges would not be constitutionally or statutorily barred for persons who first enter service as a justice or judge after the establishment of such plans. According to Article XVI, Section 2 of the Hawaii State Constitution, current or past justices or judges would be barred from being transferred to such new plans.

"The testimony also stated that the establishment would not fulfill the intent of solving potential conflicts of interest, since after all justices and judges transition to the new plans, the same justices and judges would still be asked to preside over such cases.

"The LRB also stated that they lack 'specific expertise' in determining what would be deemed appropriate or commensurate medical or pension benefits plans that would attract qualified individuals to serve as justices or judges.

"For these reasons, I stand in strong opposition to these resolutions. Thank you."

Representative Luke rose to speak in support of both measures, stating:

"Thank you, Mr. Speaker. In support. So this actually is in response to the Dannenberg case. Dannenberg case was a case instituted by a retired judge. Because of the Dannenberg case and because all the five justices on the Supreme Court knew Judge Dannenberg, they recused themselves. So, it's going to be a continuous problem if we don't do a different type of ERS system, because the Supreme Court justices recused themselves because they said, okay, we're part of this system. So we need to create a different system so that we can have a finality on the Dannenberg case. Thank you."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 106, entitled: "HOUSE RESOLUTION REQUESTING THE LEGISLATIVE REFERENCE BUREAU TO EVALUATE THE ESTABLISHMENT OF SEPARATE MEDICAL AND PENSION BENEFIT PLANS FOR JUSTICES AND JUDGES," was adopted, with Representatives Say and Ward voting no, and with Representatives McDermott, Oshiro, Thielen and Tupola being excused; and

Representative San Buenaventura rose to speak in support of both measures, stating:

"In strong support. It has been shown that DWI courts have shown very high success rates in Honolulu, so it's about time it comes to the Big Island. Thank you very much."

Representative Lowen rose to speak in support of both measures, stating:

"Mr. Speaker, in strong support and permission to submit comments into the Journal."

Representative Lowen's written remarks are as follows:

"Thank you, Mr. Speaker. In support. Hawaii Island has by far the largest per capita incidence of impaired and drunk driving offenses. Needless, tragic deaths occur every year because of this problem, and we should be doing everything we can to stop this from happening."

"This resolution is a step towards establishing DWI courts on Hawaii Island. DWI Court is a court dedicated to changing the behavior of the hardcore DWI offenders, with a model that uses accountability and long-term treatment to prevent repeat driving incidents. Many courts in other states have evaluated their programs and have shown successful results and significant reductions in repeat offences."

"Given that Hawaii Island has the worst problem in the State with drunk driving offenses, if establishing DWI courts is one way to reduce the number of drunk and impaired driving incidents, then we should move to do so as quickly as possible."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 12, entitled: "HOUSE RESOLUTION URGING THE JUDICIARY TO EXAMINE THE FEASIBILITY AND POTENTIAL BENEFITS OF ESTABLISHING DWI COURT PROGRAMS IN KONA AND HILO ON HAWAII ISLAND," was adopted, with Representatives McDermott, Oshiro, Thielen and Tupola being excused; and

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations and a brief comment. Mr. Speaker, this resolution attempts to call for a constitutional amendment to make sure that corporations are not defined as people. I think that's probably well taken, but it's only half what we should be doing. Let me give a bit of a

history on campaign funding and spending. Because the Citizens decision made it where unlimited amounts of money can be spent by corporation. And what's missing and why this is a half a loaf, is that unions can also do that.

"In the beginning, there was campaign spending beginning in 1867, Mr. Speaker. First campaign spending law was in 1867. Government employees were trying to take dock workers for campaign funds, obviously to get their bosses reelected. Then in 1907, Congress passed no corporations will give money to campaign funds. In 1943, unions were forbidden from giving campaign funds to candidates. And then in 1976, Buckley v. Valeo, and this is where the Supreme Court really got involved, they said you cannot limit campaign spending. Campaign spending limits were lifted.

"But fast forward to 2012, when the Citizens United came, it said, corporations, and this is where most people miss it, colleagues, and unions can spend unlimited amounts of money. Now, this is an uncoordinated money, but it's unlimited from unions and corporations. This one is only hitting the corporations. Mr. Speaker, unions and corporations should be hit on this, because those are the big boys. Those are the ones who can really push the dial in these campaigns, with their millions of dollars.

"So I'm hoping with this reservation it makes people aware that it's just not the corporations, it's whoever is big out there and the kinetic energy, if you will, with their finances, can sway elections. So this is a half-a-loaf, but it should be both unions and corporations that we're aiming our legislation at. Thank you, Mr. Speaker."

Representative Lee rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. And I actually ask to purchase an additional five minutes of speaking time this morning."

Vice Speaker Mizuno: "I guess that's so ordered."

Representative Lee: "Five dollars a minute? What's the going rate?"

Vice Speaker Mizuno: "I don't know what the fair market value is per minute going on right now."

Representative Lee: "It's my understanding, House Rules don't permit the purchase of additional speaking time."

Vice Speaker Mizuno: "Good point."

Representative Lee: "Thank you very much, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 29, entitled: "HOUSE CONCURRENT RESOLUTION URGING HAWAII'S CONGRESSIONAL DELEGATION TO PROPOSE AND PASS A PROPOSED AMENDMENT TO THE UNITED STATES CONSTITUTION CLARIFYING THAT CORPORATIONS ARE NOT PEOPLE WITH CONSTITUTIONAL RIGHTS, AND THAT UNLIMITED CAMPAIGN SPENDING IS NOT FREE SPEECH," was adopted, with Representative Ward voting aye with reservations, and with Representatives McDermott, Oshiro, Thielen and Tupola being excused.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2928, SD 2, HD 1 pass Third Reading, seconded by Representative Evans.

Representative Ohno rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations. Mr. Speaker, this is the bill that requires special event operators to collect information on the folks who are part of their organization and their event. And I think it's the most commonsense and practical means to collect the tax revenue that we're owed. However, my reservations stem from the fact that I believe we are asking private industry to do the work of the Department of Taxation. Thank you, Mr. Speaker."

Representative McKelvey rose to speak in support of the measure with reservations, stating:

"With reservations as well, Mr. Speaker. I would like the comments of the previous speaker entered into the Journal as if they were my own. Another point to bring out is it actually, obviously doesn't apply to non-profits, and it's basically incentivizing everybody to become a non-profit, which deprives the State of revenue, right? Thanks," and the Chair "so ordered." (By reference only.)

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations, a brief comment. Mr. Speaker, a few years ago, this body discerned the fact that DOTAX needed to get everybody a license, and everybody should have a license who does business in the State of Hawaii. So what we did was authorize them to do basically flea market raids. They would flash their badge and say, I want to see your GET tax license. And they were doing that. And now this is like almost the flea market police where it's saying, for you who are the organizers, you do our work, as the good Representative from Liliha said.

"Mr. Speaker, there's got to be a compromise as to how much we are pushing these small business entrepreneurs, while at the same time there are a few billion dollars' worth of the big fish out there who we're not going around and chasing, we're chasing these *manini* guys. So with that, Mr. Speaker, let's put it in perspective and know that the flea market police is not going to make the State rich. Thank you."

Representative Tupola rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Kobayashi rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations. I'm looking at the definition again that exempts non-profits. The problem is that if a non-profit organization raises money, it is normally required to pay a GET tax. So, many non-profits from cultural groups, to even some schools, will organize an event that raises money for their entity, but they have to report GET tax. I think the clarification as to who is required to report would be helpful. Thank you."

Representative Choy rose to speak in support of the measure, stating:

"Mr. Speaker, in support. Mr. Speaker, as I listen to my colleagues, it's interesting to note that we are trying to collect our GE taxes from people who already owe GE taxes. This is not a new tax, we're just trying to do a compliance measure. So I'm really surprised that my colleagues would object to us having stricter laws in collecting our taxes. If we don't collect our taxes, I believe that we're going to end up raising taxes to cover the people who don't pay our taxes. So I stand in support of any measure that's going to help us collect our taxes. And it's not a new tax, it's just the right thing to do. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2928, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO GENERAL EXCISE TAX REPORTING FOR SPECIAL EVENTS," passed Third Reading by a vote of 45 ayes, with Representatives Kobayashi, McKelvey, Ohno, Tupola and Ward voting aye with reservations, and with Representatives DeCoite, Hashem, Ing, Kong, Oshiro and Thielen being excused.

Representative Kawakami rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Strong support with permission to insert written comments. Thank you."

Representative Kawakami's written remarks are as follows:

"Mr. Speaker, in strong support.

"Mr. Speaker, this bill will ensure the continuance of a program that makes doing business in Hawaii a little easier. Mr. Speaker, I am reminded of the generations that came before us who worked and toiled the land tirelessly to create a better future for all of us. Now we have an opportunity to do the same for the generations to come.

"This grant program helps by providing aid for a sector of our economy that has great potential. The manufacturing industry on Kauai alone could utilize this grant program. From Kai Kini Bikinis, Kauai Kookie, Koloa Rum, Nani Moon Mead, and a slew of other manufacturers which provide local jobs, local products, and further help brand the State of Hawaii and the island of Kauai, this program will provide an economic boost to help expand businesses and hire more local workers.

"Mr. Speaker, the Kawakami family knows firsthand how challenging it is to manufacture in Hawaii. Our family has operated Kauai Kookie, the Big Save Value Centers, and the Menehune Food Mart convenience stores which provided the famous Lawai Manju and various *omiyage* items. It would be an honor to provide support to fellow manufacturers and help them expand and improve their operations. These are the reasons I stand in strong support of this measure."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 3109, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO MANUFACTURING," passed Third Reading by a vote of 45 ayes, with Representatives DeCoite, Hashem, Ing, Kong, Oshiro and Thielen being excused.

Representative Kawakami rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Strong support and permission to insert written comments."

Representative Kawakami's written remarks are as follows:

"Mr. Speaker, in strong support.

"Mr. Speaker, this measure ensures we continue a beneficial program we created last session. Mr. Speaker, last session the House Committee on Economic Development & Business prioritized the creation of two programs. One was the manufacturing grant program and the other allowed the Small Business Innovation Research Program to issue grants to Phase 2 and Phase 3 applicants. You see, Mr. Speaker, we were funding Phase 1 projects but did not follow up on support for Phase 2, prototyping, and Phase 3, manufacturing, so these innovators, dreamers and entrepreneurs were coming up with these grand ideas but found themselves stuck on a treadmill and getting nowhere really fast. This measure allows these dreamers, innovators and entrepreneurs to cross the bridge and bring their ideas to fruition.

"I would like to end by saying that none of this would be possible without the support of the committee. I would like to personally thank the committee members Jimmy Tokioka, Isaac Choy, Lynn DeCoite, Clift Tsuji, Tom Brower, Ken Ito, Takashi Ohno, Justin Woodson, Richard Onishi, Romy Cachola, Gene Ward and Lauren Matsumoto. I would also be remiss if I didn't disclose that I think that I am the luckiest Chair in the House, not only because I have great committee members, but because I have the nicest vice chair in the world, Representative Sam Kong. This guy is the epitome of a people's person. I would also like to thank my hardworking staff who really helped carry me through the session, Ben

Viernes, Polly Phillips, Jason Young, and of course our team mom Ms. Gini Kapali. I am forever grateful. All of you have made a mark in my life and I am very fortunate our paths have crossed in this journey of life."

Representative McKelvey rose to speak in support of the measure, stating:

"Strong support, same request, if you please. Thanks."

Representative McKelvey's written remarks are as follows:

"The technology industry in Hawaii has grown over the past 10 years and has made significant strides towards achieving the goal of diversifying and stimulating Hawaii's economy.

"The measure provides the opportunity for the High Technology Development Corporation (HTDC) to continue to help level the playing field for Hawaii's technology companies, enabling them to compete on more even footing with mainland companies for these increasingly scarce and competitive Federal Small Business Innovation and Research (SBIR) Phase II research dollars and Phase III commercialization investments, and thereby be more successful in their Phase II Research and Development and Phase III commercialization efforts. The continuation of the SBIR Phase II and III grants is crucial for the maturation and commercialization of Hawaii's technology companies.

"Mr. Speaker, it should be noted that the HTDC has offered matching grants to SBIR awarded companies since 1989; as a result, Hawaii companies have attracted 20 federal dollars in return to the state plus commercialization funding for every dollar invested through this program. Further, it is part of HTDC's vision to create 80,000 new innovation jobs in Hawaii earning \$80,000 or more by 2030, salaries that can reduce the 'brain drain' and keep our local talent from having to move away from their home. Just last year, through Act 216, the Legislature appropriated \$2 million to expand the Hawaii SBIR program to include companies winning SBIR phase II and phase III awards.

"I support the objectives of the SBIR grants, for they represent the pioneering spirit of entrepreneurship that Hawaii should embrace as we look to the future.

"The objectives of the SBIR Phase II and III grants are:

- To support economic growth and the diversification of our economy;
- To support the growth of the tech industry and the creation of intellectual property and innovation in the State;
- To launch new ventures based on technology innovations; and
- To act as a bridge across the 'valley of death' and to assist in commercializing research discoveries for societal benefit.

"For these foregoing reasons, I support SB 3110, SD1, HD1."

Representative Jordan rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative McKelvey rose to speak in support of the measure with reservations, stating:

"With reservations on this measure. Just two things for the conference committee moving forward. One is that when it comes to enforcement, a lot of the times the vendors themselves will basically turn each other in, so you could have rampant enforcement occurring us to prevailing wages. Second is the contracts clause potential impact upon the fact that you have existing contracts of employment, and should the lease be renewed that could be impaired. So, that's all. I hope the conference committee can address those, because prevailing wage of course is a good thing, so all our workers get good salaries. Thanks."

Representative Tokioka rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Johanson rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Johanson's written remarks are as follows:

"Mr. Speaker, I rise with reservations on SB 1311, relating to the exemption of licensing and certification in practicing behavior analysis. I support this bill because I believe we should provide greater support for the workers who provide for autistic students in Hawaii. I support the efforts to grow a workforce of licensed and certified professionals that can work with the autistic and behavioral needs students.

"However, I have reservations on this bill because I believe that these children deserve adequate and professional care. The lack of certification for these behavioral analysts that this bill accepts might be inefficient and detrimental to these students who have very specific needs. Also, allowing unlicensed behavioral analysts to engage in an otherwise specific (and certification required) job could lead to future liabilities for the State. It is for these reasons that I vote with reservations on this bill, SB 1311."

Representative Cullen rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Fukumoto Chang rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Yamane rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Tupola rose to speak in opposition to the measure, stating:

"Mr. Speaker, a no vote, please, brief comment. I'm not in favor of even a temporary, I guess, exemption from licensure for behavior analysis. I want to commend our chair, she asked some very good questions, and we have a department that is in desperate need of getting people who are licensed and qualified to take care of this population of children in our educational system that has been negligent for years. And so for that reason, I don't support this. Thank you."

Representative Tokioka rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Morikawa rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ichiyama rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Har rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Har's written remarks are as follows:

"Mr. Speaker, I rise in support of Senate Bill 1311, SD 2, HD 1, with reservations. The intent of the bill is to exempt licensed or credentialed practitioners from licensing requirements for the practice of behavior analysis. It specifically relates to autism treatment services pursuant to the Department of Education's Individualized Education Plan. My reservations stem from various testimonies provided to the House Committee on Consumer Protection and Commerce. The concerns raised by testifiers centered around the strain that will be placed on teachers, and the strong need for behavioral analysts in appropriately working with *keiki* who need these services.

"Teachers have come forward to speak directly to the need for behavioral analytic services in their defined capacity, and that the assumption of this bill going forward is that the teachers themselves can simply 'handle it.' According to the very powerful testimony provided to the committee, there is a strong understanding in the teaching profession that the education and experience required for teaching does not adequately equip teachers to deal with the demand for behavioral analytic services. Requiring them to do so can create many issues for both teachers and the most at-risk students in our schools.

"The need for behavior analysts has already presented itself, it is what has given rise to Senate Bill 1311. I am concerned that the language of the bill will not address the real need for the service, but instead hopes to address an arbitrary numerical requirement in place for department professionals who provide the service. The key here is that the service would not actually be provided. This is not a prudent solution, allowing the educational system to 'fulfil its legal obligations' but putting the burden of these obligations on the already-overburdened staff of the educational system and students in need. It also leaves neither with any recourse; students and parents cannot ask for redress as the State will have, under this bill, fulfilled its obligations, and teachers cannot appropriately provide for the most at-risk students, as the burden can be placed on them with impunity. All of Hawaii's children deserve the best from our educational system, and care needs to be taken to ensure that laws we pass provide the most for our *keiki*, and not just for state departments. The testimony heard on this measure leaves me with concerns as to where this will leave our state's schools.

"For these reasons I stand in support of Senate Bill 1311, SD 2, HD 1, with reservations. Thank you, Mr. Speaker."

Representative Choy rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Choy's written remarks are as follows:

"Mr. Speaker, I have reservations on this measure.

"Mr. Speaker, a license is a privilege or permission to perform a task. The privilege is given after meeting the requirements of licensure. These requirements usually include basic education, experience, and testing. It also includes the maintenance of competence through continuing education and relevant experience. Services performed by an unlicensed person circumvent the critical policy of consumer protection and consumer expectations, and therefore should never be tolerated, even for a temporary period."

Representative Aquino rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ito rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Keohokalole rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1311, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO EDUCATION," passed Third Reading by a vote of 43 ayes to 2 noes, with Representatives Aquino, Choy, Cullen, Fukumoto Chang, Har, Ichiyama, Ito, Johanson, Kawakami, Keohokalole, Morikawa, Pouha, Tokioka, Ward and Yamane voting aye with reservations, with Representatives Matsumoto and Tupola voting no, and with Representatives DeCoite, Hashem, Ing, Kong, Oshiro and Thielen being excused.

ORDINARY CALENDAR

UNFINISHED BUSINESS

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1616-16) recommending that S.B. No. 2384, SD 1, HD 1 pass Third Reading.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2384, SD 1, HD 1 pass Third Reading, seconded by Representative Evans.

Representative San Buenaventura rose to speak in opposition to the measure, stating:

"In opposition. I'd like to point out that these licensing care facilities are run by families with 24-hour jobs. At the time of the HLT/JUD hearing, DOH did not have anybody testify in favor of it, they just submitted written report stating that all the other states have this. They had nothing to rebut the fact that there already are surprise visits whenever it is required. To add in an extra stressor to small families who have these licensed care facilities in their home by having a surprise visit, merely to have it comply with all the other states, to me it is an added burden for no added purpose, for no added benefit. So in that regard, I stand in opposition."

Representative Johanson rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Johanson's written remarks are as follows:

"Mr. Speaker, I rise with reservations on SB 2384. I am very supportive of the provisions of the bill that pertain to unannounced inspections of medical marijuana dispensaries for license renewal. Medical marijuana, if not properly regulated, can negatively impact public safety and health on a societal level. We need double-check mechanisms to protect the public, including, but not limited to, unannounced inspections of dispensaries for the purpose of licensing.

"However, I am concerned about the sections of the bill relating to unannounced inspections of care facilities. Specifically, I am concerned about linking these inspections to re-licensing. Residential care facilities represent an important part of the health care spectrum, and we need to make sure that we do not place burdensome restrictions on these facilities that may cause them to leave the healthcare sector. I understand the need for inspections, but I would hope that we can find a way to inspect without compromising our overall health care network."

Representative Cachola rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I will be voting with reservations. Let me just say that in the HRS or in the books right now, the administration has the right to go and inspect those care homes, *et cetera*, anytime they want to, unannounced. But when it comes to relicensing which is done once a year, right now in the books it says it's got to be announced. And the rationale for that is this, when they look at their relicensing application, it takes them about six to eight hours to process. Sometimes the care home operators, or the operators can possibly be out of their homes, because they are bringing their patients or residents to the hospital or doctors.

"So an investigator goes there to inspect and they're not there, they'll come back again. So they waste their time. So when it comes, for example, the reason for unannounced is to look at abuses, they already have the prerogative to look and inspect the place unannounced the whole year round.

"This is an added burden on the part of operators. I believe that in our community a lot of the operators are in the same ethnic group as yours truly. Some of them work 24 hours a day just to take care of the residents. And they are underpaid. They house them, they feed them, they bring them to the doctors, they take good care of them. And the administration already has the latitude to inspect those facilities all year round, unannounced.

"Only one now for relicensing once a year, and they're trying to come up unannounced? It's a waste of time on the part of the administration. Hopefully rational heads will prevail and do away with the unannounced portion of the bill for relicensing. Just leave the marijuana bill, and hopefully everybody will be happy and we will be helping a lot of people not to be stressed out. Thank you, Mr. Speaker."

Representative McKelvey rose to speak in support of the measure with reservations, stating:

"Thank you. Reservations, please, Mr. Speaker. Just a couple comments. First, I would like to adopt the words of the previous speaker as if they were my own," and the Chair "so ordered." (By reference only.)

Representative McKelvey continued, stating:

"Second is, I think this bill suffers from a legal problem, a big one, in the fact that you have two separate things going on in the measure that are not related to each other, all within one title. So I think the fact they have no nexus to each other whatsoever presents a legal challenge, in my mind.

"And finally, to be honest with you, this is like a reverse Reese's Peanut Butter, it's just two bad tastes that get terrible together. So I would hope that the conference committees can kind of figure out what they want to do with this and go one way or the other, but I think, given the comments of the previous speakers, I hope they would really look to the dispensary inspections instead. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, opposition to this hit piece against the mom and pop businesses. And may the words of the good Representative from the Big Island be entered into the Journal as my own. Thank you," and the Chair "so ordered." (By reference only.)

Representative McDermott rose in opposition to the measure and asked that the remarks of Representative Cachola be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Tupola rose to speak in opposition to the measure, stating:

"A no vote, please, Mr. Speaker. Really quick, I wanted to mention that in this current version of the bill it still lists adult foster homes. In the testimony from the State Council on Developmental Disabilities, adult foster homes are not state facilities and therefore can't be subject to unannounced inspections as its personal people's homes. And I would like the words from the speaker from Puna inserted as if they were my own. Thank you," and the Chair "so ordered." (By reference only.)

Representative Cullen rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Cullen's written remarks are as follows:

"Mr. Speaker, I rise in support with reservations on SB 2384, SD 1, HD 1. I support the unannounced inspection for marijuana dispensaries that will improve our communities' safety. My reservation is with section 2 of this bill regarding the relicensing and recertification for those homes that care for those in need. I want to ensure that our *kūpuna* and those who are being cared for are done so in a safe and responsible manner within a certified care home. That is why the Department of Health has the ability to do these unannounced visits, and I believe they need to develop efficient and effective alternatives of ensuring safety. This bill will adversely impact those homes that are properly caring for our *kūpuna*. As the bill moves through conference, I hope it will be amended to only include the unannounced inspection for marijuana dispensaries."

Representative Evans rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Thank you. I just want to tell everyone, because we've had so much discussion, to be concise, the purpose of the act is to require the Department of Health to conduct visits and relicensing or recertification inspections without notice for state-licensed care facilities and unannounced inspections for license renewals for medical marijuana dispensaries.

"I am in strong support, because I think we have to really be careful about the standard that we want for people that are in these facilities. The standard that we want people to live up to, given that we have licensed them, we told them what our expectations are. I do not believe unannounced visits are a bad thing. Unfortunately, maybe we could tighten

up the language a little bit on the hours, because I'd hate to have people show up at 11:00 at night when you have people in their home resting, because it could be a disturbance to people.

"But the reality is, unannounced, I've always believed in unannounced inspections, when it is a state-licensed facility, be it the medical marijuana dispensary or these care facilities. They signed up for it, they know what the expectation is. And the reality is, when people are in the care of other people, if the family members come in and they have complaints or they have concerns about the way something is run, they should be able to call the Department of Health and they should have an expectation that the Department of Health is going to respond to that complaint.

"So for those reasons I think this is really a good idea. And again, it has a defective date, it's going to conference. But overall, the idea is a good idea and we should move it forward. Thank you."

Representative Aquino rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Aquino's written remarks are as follows:

"Thank you, Mr. Speaker. I rise with some reservations on SB 2384, HD 1.

"The current language that would allow unannounced visits of medical marijuana seems reasonable and I support. However, the unannounced visits for residential-based homes for the purpose of relicensing and or recertification is a bit of a reach considering the limited resources of OHCA and the number of residential-based, state-regulated care facilities. Currently, there is an inspection process that facility owners already adhere to. Thank you."

Representative Tsuji rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Onishi rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ichiyama rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative DeCoite rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Matsumoto rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Matsumoto's written remarks are as follows:

"Mr. Speaker, I rise with reservations on this measure that requires the Department of Health to conduct unannounced visits and inspections for relicensing and recertification of adult care homes and medical marijuana dispensaries.

"As has been stated in testimony, unannounced inspections are a key tool that the Department uses to ensure compliance with the law and ensure safety of our constituents. With over 12,000 individuals in adult care facilities, safety is of paramount concern. We have also heard that unannounced visits are the industry standard across the country to regulate various large-scale industries, including adult care homes. Many large nonprofits support unannounced visits as they have the around-the-clock staffing and legal departments to meet such demands.

"However, unique to Hawaii are small-scale adult care homes, or those that attend to the needs of as few as one to three people. We have heard testimony from numerous small-scale home care providers that they view their role as accepting another member into their family and not simply as a money making venture that just happens to serve our *kūpuna*. Others testified that the DOH already has the authority in the Hawaii Revised Statutes to conduct unannounced inspection visits, so safety is not the

issue, since the Department may check for safety now. The issue is that the excessive paperwork burden that this bill imposes would likely put most of the small-scale operators out of business at a time when our *kūpuna* population is growing. If this were to happen, our ability as a state to ensure affordable, safe and effective adult care facilities would be greatly compromised.

"Unannounced relicensing visits may make sense for large-scale adult care providers and large-scale dispensaries where many people may be put at risk if the laws of Hawaii are not complied with, but would be excessive for our small-scale adult care homes that provide a unique service to our *kūpuna*. Given that the HRS has provisions for unannounced visits and that we have a need for small-scale adult care homes, perhaps the Department could work with these small-scale providers to offer a two to three week window of time where the unannounced relicensing visit will occur, so they may have the opportunity to gather the 50-plus pieces of required documentation and otherwise plan on being present for the visit and not be in transit with patients to their doctors' appointments.

"In favor of compromise, I humbly stand with reservations to Senate Bill 2384, HD 1. Thank you, Mr. Speaker."

Representative Tokioka rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Pouha rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Kobayashi rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations. I support unannounced inspections for marijuana dispensaries, that's easy. On the other point of unannounced visits to state-licensed care facilities, there is a lot of wiggle room possible. Right now, the designation is that the inspections would occur on one particular day of the week, say a Thursday of a particular month, given that there are five working days per week.

"There's wiggle room. That is, you could reserve the ratio, make it four out of the five days, or you can keep it at the current situation, where the inspections will occur on only one particular day of the week. So I think this is something that could be fixed with a little bit more discussion. Thank you."

Representative Morikawa rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2384, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO LICENSING INSPECTIONS," passed Third Reading by a vote of 42 ayes to 5 noes, with Representatives Aquino, Cachola, Cullen, DeCoite, Ichiyama, Johanson, Kobayashi, Matsumoto, McKelvey, Morikawa, Onishi, Pouha, Tokioka and Tsuji voting aye with reservations, with Representatives Lowen, McDermott, San Buenaventura, Tupola and Ward voting no, and with Representatives Ing, Kawakami, Oshiro and Thielen being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1630-16) recommending that S.B. No. 2217, SD 2, as amended in HD 1, pass Third Reading.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2217, SD 2, HD 1 pass Third Reading, seconded by Representative Evans.

Representative Kawakami rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Strong support and written comments, please."

Representative Kawakami's written remarks are as follows:

"Mr. Speaker, strong support.

"Mr. Speaker, this is a great example of a successful public-private partnership. Mr. Speaker, in the Committee on Agriculture, the Department of Agriculture testified that if the State were to do the work that the East Kauai Water Users Cooperative did, it would be exponentially more expensive than the current appropriation. Mr. Speaker, the East Kauai Water Users Cooperative led by Jerry Ornellas is truly the definition of salt of the earth. Humble and hardworking, they ensure that the future of agriculture continues on Kauai. Let us remember that 'No water, no farms, no food.' Thank you, Mr. Speaker."

Representative Tokioka rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Tokioka's written remarks are as follows:

"Thank you, Mr. Speaker, for allowing me to insert written remarks in support of SB 2217 that appropriates funds for operation, repair, maintenance, and improvement costs for the East Kauai Irrigation System by the East Kauai Water Users' Cooperative. I would like to thank Jerry Ornellas and members of the Kauai Hindu Monastery for all of their volunteer work. The \$75,000 a year to maintain this reliable irrigation system is a minimal amount compared to the cost it would take for the State to take over this system. It is my hope that we can find a reliable funding source so that East Kauai sewer and water are not having to come to us every year asking for a sum of money when in reality they are saving the State a great deal."

Secondly, I just wanted to say that it looks to me like we're giving a special deal to a specific affiliate of a local insurance company, and I'm not sure that makes sense on a number of levels, maybe first of which is just it must be demoralizing for other competitors to say, this one company is getting a special deal, how come I'm not. So, with reservations for now. *Mahalo*."

"Register a no vote, please. Currently, the four county police chiefs are convening about this and they're implementing it as soon as they can with specific staffing and duties that they need to do. So for those reasons, I think it's already going towards the direction we would like it to go. Thank you."

Representative Har rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Har's written remarks are as follows:

"Mr. Speaker, I rise in support of Senate Bill 2411, SD 2, HD 2, with reservations. The purpose of this bill is to establish requirements, restrictions, and implementation guidelines for body-worn cameras and vehicle cameras for county police departments, as well as funding a body- and vehicle-camera program through state grant matching of county funding. While I support the intent of the bill to increase accountability

and transparency in law enforcement, I have reservations about the scope, structure and cost of the intended program.

"The scope of this program will be grand. Video files are large, and having a large number of cameras recording every day will bring law enforcement agencies deeply into the role of data storage and processing. In the language of the bill, videos recorded by law enforcement agents will need to be held for between one and three years by the agency employing the device. Where these videos are held and how they are used is poorly addressed by the bill. As many testifiers mentioned about this bill, the line of public-private life is blurred by such extensive footage, and the public nature of it. There must be a legal framework to encompass this and ensure that the public is protected in its right to privacy to a further extent than the bill currently provides. In the internet age, footage can be a tool for transparency just as much as it can be a tool for legal spin, public shaming, and selfish gain. Establishing strong protections for the public and setting hard standards for control over footage needs to be done early on, as dissemination and framing of footage in today's world is powerful enough to sway the public at-large and even influence jury pools. The lives of private citizens should not be freely publicized or framed at the whims of social, private, or public media. It is important to realize how ambitious this undertaking is in the age we live in, and take care to do it with foresight, keeping the rights of the public in mind.

"This leads to my second reservation as to the structure of the proposed program. The massive amounts of data that will be collected and stored under this bill will need to have a level of standardization to allow counties, courts, and law enforcement agencies to transmit and use the data efficiently. This raises questions: Will smaller agencies with fewer cameras still require investment in storage and staff to hold the footage? Will they be allowed to work with another agency to centralize footage, or must the footage remain with the specific agency? The bill as it stands does not effectively address these, and a more specific answer to these questions would help ensure the success of the program.

"The scope and structure of the bill will eventually compound costs upon costs unless these shortcomings are addressed specifically. As the adoption of body and vehicle cameras proceed, more complex systems of organization, more hardware, and more staff will be required to handle the influx of video footage. In the current language, this financial and logistical burden is simply on 'the agency which employs the law enforcement officer.' This disproportionately affects smaller agencies, who will need a base level of hardware, organization and staff to implement the policy, and given my aforementioned concerns with how agencies will keep up with the footage and even how they will be allowed to, there is no real way to predict the expense this will generate for the State and counties. The language only provides the appropriated funds to departments for cameras, it does not account for other costs. It would be a shame to see a program with such potential fail because the costs were not properly analyzed or controlled.

"For these reasons, Mr. Speaker, I stand in support of Senate Bill 2411, SD 2, HD 2, with reservations. Thank you, Mr. Speaker."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative LoPresti's written remarks are as follows:

"We need to realize that legislation has not kept up with the technology, and any bill requiring cameras should also ensure that both citizens and police officers deserve to know when and under what circumstances they and their activities are being recorded, who has access to that footage, why and under what circumstances, how long footage is kept, and what are the rules regarding its deletion. Privacy is a growing issue in our digital lives, and parts of this bill aims to protect our rights as citizens, as well as establish what the police force can do with body camera footage. It is time

that we begin to recognize the need for and establish in law our digital civil liberties."

Representative LoPresti rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations. Mr. Speaker, I share some of the DLNR's concerns that the exemption in this bill allowing for the trap, neuter, release actually can continue the problem rather than help solve it. And so just a quote from the DLNR, which I totally agree with, the department suggests that this practice, that is TNR, should not be exempted from laws regarding animal desertion and that subsection (c) on page two, lines 15 and 16 of this measure should be removed. I wholeheartedly agree with that.

"The reason is that the TNR practice and the idea that people can then abandon their animals to these cat colonies provides them with false moral comfort, Mr. Speaker, that these animals will then be taken care of by some good Samaritan. And that should be removed and they should face both the moral knowledge and reflection that what they are doing is wrong, and also that the State is not and a good Samaritan is not going to step in

and take care of their responsibilities that they are abandoning, and that is the life of an animal. Thank you."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I would like to put comments into the Journal. And just a message to the conference committee, although I would love to be on it because it affects commerce and consumer protection greatly, I hope that they will keep the intra-island portion of the study in there and keep them separate, because it will restore a lost opportunity that happened when the Superferry first came to Hawaii, Mr. Speaker.

"Real quickly, Austal built the Superferry, was tested in Mobile Bay, Alabama, and its purpose was to be used in the Persian Gulf. Areas that are all flat water with no marine activity and no wave action. It wasn't meant to be charging through the five roughest channels in the world. However, there are channels, like the North Sea Channel, where boats regularly take passengers and vehicles back and forth. They're not sexy, they're not fast. In fact, they're called sea cows. But they get the job done. That's a separate

mode of transportation, but I think for Oahu and West Oahu, the Superferry could be the silver bullet, Mr. Speaker.

"Talking to one of the pilots back in the day, when the special session happened, they said they can make a run from Kalaheo to downtown Honolulu in 19 minutes, with about 600 cars. Think about that. Four ferries going through three hours of rush hour, how many cars that would be off the road. Not to mention all the return cargo and other types of things going to West Oahu that are now off the road.

"I think it can be done cheaper and faster and help to really alleviate traffic now, so I hope that when this conference committee and the task force get together, they look at the Superferry as a real solution for traffic challenges in West Oahu, but also look at a suitable solution for the neighbor island channels that need that reliable service that can plunge through those channels. Thank you very much."

Representative McKelvey's written remarks are as follows:

"Mr. Speaker, I stand in strong support of this measure. Currently, air transportation is the dominant means of travel between the Hawaiian Islands, and an interisland ferry system would offer a transportation alternative for passengers and cargo traveling between the Hawaiian Islands. A local ferry system would also provide an attractive shipping option for small businesses and farmers, while enabling *kūpuna*, disabled individuals, families with infants, and youth groups to enjoy another mode of travel between the islands. I also believe during times of statewide emergencies caused by natural or man-made disasters, it would be a practical way to move people, equipment, food, and supplies between the islands. Additionally, as Hawaii grows, the need for improved transportation services is urgently needed. In an effort to foster statewide food resiliency, we cannot depend solely on air transport, and new food safety regulations coupled with market needs require improvements in transportation for the agriculture industry.

"When the interisland ferry was last implemented, it proved to be a popular transportation choice. Surveys continue to show that an overwhelming majority of the people of Hawaii want a ferry service. This bill enables the State to take a critical first step in addressing important environmental issues that were bypassed the first time and a major reason the ferry service was halted. In addition to this, the proposed feasibility study in this bill should look at the data collected for the prior State DOT ferry pilot project, the City's TheBoat operation, and the former Superferry concept. I believe a market survey and business plan should also be a part of the study to determine how such a ferry operation could be fiscally sustainable with minimal impact to consumers and taxpayers. It should be noted that there needs to be a more coordinated effort among the agencies and potential operators in developing an environmental assessment that would meet the requirements of Chapter 343 HRS as a 'public disclosure' document, and avoid future challenges that 'sunk' the Superferry's operations in Hawaii.

"The best model for a Hawaii interisland ferry service I have identified is the existing service operating with two conventional ferry vessels between Mainland Australia and the island state of Tasmania across the Tasman Straits. I believe the best prospects for introducing a successful Hawaii interisland ferry would be using a conventional displacement hull ferry of the kind that commonly operate throughout Europe. This kind of vessel would be far more economical to acquire and operate than the high-speed aluminum-hulled catamaran ferry vessels of the Hawaii Superferry, and should have better sea-keeping characteristics.

"For these foregoing reasons, I support SB 2618, SD 1, HD 2."

Representative LoPresti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. With strong support. I ask that the previous speaker's words be entered into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative LoPresti continued, stating:

"I would add that if they were transporting that many people, they wouldn't even need to have the cars on the ship with them. I moved to Ewa Beach originally because I bought a home in a place that said there was going to be a marina and I could walk down the street two minutes and get on a boat and take it down to the harbor here and get off and be at work.

"Well, that didn't quite work out. But I think there is clearly a demand for these kinds of intra-island. There used to be an intra-island ferry run by the Navy at Iroquois Point, and it took hundreds and hundreds of cars off the road as well. And I think there's many excellent options here for intra-island ferry service just on Oahu alone. Thank you."

Representative Tupola rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I also want to expound and support the comments from the first speaker that the inter-island ferry is needed in Kalaheo Harbor, which is part of my district, to Waianae Harbor, which many of the residents of Waianae commute there every day. It's such a small stretch, but yet it takes people hours because of traffic. And yet there's two harbors right there that possibly could be served by something smaller, from one harbor to another.

"And so, in support, and I hope that, in that hearing there was a man that disclosed that he had all the documents, the pros and the cons, the positive and the negatives that happened the first time the ferry went through, as he was part of the team that built it. And I hope that those documents are looked forward. I have them, and if anyone wants them, you can look at them. A full I guess disclosure of things that we should avoid and things that we should pursue in regards to the past experience with the Superferry. Thank you."

Representative Pouha rose in support of the measure and asked that the remarks of Representative McKelvey be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Lowen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I'd like the comments of the Representative from Lahaina adopted into the Journal," and the Chair "so ordered." (By reference only.)

Representative Lowen continued, stating:

"Just a few brief comments. I think we do need travel alternatives for neighbor islands. But when we did have Superferry between Maui and Honolulu, I think the trip was about three and a half to four hours from Honolulu to Kahului. And to Big Island it would probably be close to double on very rough seas, so it's not the alternative quite that people think it is, and we do need to I think in future sessions look at what we can do to reduce the cost of air travel. Because this won't be the silver bullet to neighbor island travel issues."

Representative DeCoite rose in support of the measure and asked that the remarks of Representative McKelvey be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Har rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support and may I request permission to enter written comments into the Journal? Thank you."

Representative Har's written remarks are as follows:

"Mr. Speaker. I rise in support of Senate Bill 2811, SD 2, HD 1. I thank the Governor's Administration for bringing this idea back to the floor this year, and I hope my fellow legislators will see the same importance in this bill now as I intended a similar measure last year when I proposed it as HB 1248. The intent of the bill is to abrogate parental rights from the perpetrators of a sexual assault which resulted in conception. I have heard many horror stories of women who were sexually assaulted, only to have the abuser granted custody over the child by the court system. I continue to

strongly approve of this legislation as a vital redress for sexual assault survivors across the State.

"The findings by both the State of Hawai'i and the Congress of the United States on the occurrence and ramifications of sexual assault are disheartening. The system of parental rights in the nation's judiciary has been leveraged to victimize our brothers and sisters who are already survivors of a heinous offense. Perpetrators of sexual assault time and time again use threats of court proceedings to gain custody of resulting children in an attempt to dissuade sexual assault survivors from pressing charges or taking other legal action against them. To be a victim already traumatized by such an egregious crime, such threats can shake any sense of hope or faith in pursuing recourse or justice.

"This bill is a much-needed attempt to restore a sense of hope and faith in justice for sexual assault survivors statewide. We should do our part as leaders to protect the rights of the survivors as robustly as possible. Only then can we ensure that offenders cannot use the legal system to commit further crimes against their victims.

"The manipulation of the law by abusers and criminals must end, Mr. Speaker. This bill will give sexual assault survivors in our state the rights they need and deserve. For this reason I stand in support of Senate Bill 2811, SD 2, HD 1. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2811, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO PARENTAL RIGHTS," passed Third Reading by a vote of 49 ayes, with Representatives Ing and Thielen being excused.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, opposition, brief comments. Mr. Speaker, travel agencies have been dying left, right, front and center. They are almost like with dengue, Zika and whatever you call it, they're dying off. This bill, which turns them into not only travel agents, mom and pop, basically at home, but it makes them travel desks. Travel desks are what we usually have at the hotel lobbies in Waikiki. My point is, Mr. Speaker, this is probably the final nail in the coffin for those who want to bear through it and probably the other ones will drop off.

"We need to nurture our small businesses. Travel agencies have been overcome by the internet, they have been overcome by what is otherwise done online, and this one making more regulations is, I'm afraid, the last strangulation blow to these guys. For those reasons, Mr. Speaker, I hope we reconsider this. Thank you."

Representative Tupola rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. A no vote, please. Just real quick, the DCCA commenting also that this is requiring two licenses now by these businesses, so the duplicative nature of the bill I think is unnecessary for small businesses that are trying to survive. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2673, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO TRAVEL AGENCIES," passed Third Reading by a vote of 46 ayes to 3 noes, with Representatives McDermott, Tupola and Ward voting no, and with Representatives Ing and Thielen being excused.

Representative Matsumoto rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Matsumoto's written remarks are as follows:

"Mr. Speaker, I rise in strong support of SB 1374, SD 2, HD 2 to allow DOA to negotiate a land exchange with Dole.

"One-third of my district is comprised of these lands, which are perfectly situated for the agricultural uses intended. The largely contiguous 15,000 acres have a deep history in providing for our island, in both food sustenance and the local economy. Now is the time for the next chapter in its history.

"This bill allows for agricultural lands to remain used for agricultural purposes where food source and production has been proven. Most importantly, we have a constitutional obligation and responsibility to protect agricultural lands. This allows us to work towards food sustainability and security, while protecting our islands for future generations.

"Secondly, this bill may grow the agricultural industry through agricultural diversification and the encouragement of more small farms. There is a national trend of revitalized interest in farming, and keeping these lands zoned for agriculture will allow for this industry to once again flourish.

"Finally, this area of Oahu is uniquely equipped with vital resources in land, workforce, and potential infrastructure needed for the agricultural industry. Generations of knowledge, experience, and learned labor provides the perfect opportunity to use the existing lands and people to move us forward. Thus, I strongly support this land exchange and this bill.

"Thank you, Mr. Speaker."

Representative Keohokalole's written remarks are as follows:

"Mr. Speaker, I rise in opposition to this bill because I think this bill is redundant because this offense is already against the law. HRS 134-7(b) already prohibits the possession of weapons belonging to felons. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2916, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC SAFETY," passed Third Reading by a vote of 48 ayes to 1 no, with Representative Keohokalole voting no, and with Representatives Ing and Thielen being excused.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2647, SD 1, HD 2 pass Third Reading, seconded by Representative Evans.

Representative LoPresti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I ask that my comments from the ivory House Bill be entered into the Journal as if they were my own. And just note that 85% of the voters here in Hawaii support a prohibition on the sale of ivory and other endangered species, parts and products. And I'll keep my moralizing to the comments this time. Thank you," and the Chair "so ordered." (By reference only.)

Representative Yamane rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Standing in support. Mr. Speaker, sorry not addressing you on the rostrum, but the real Speaker, the one from Maui. So the real speaker, if you recall, approached me in January of this year and, Mr. Speaker, you asked me to address this issue and provide a comprehensive bill that both the House and Senate could be proud of. So, Mr. Speaker, you have that bill before you today.

"Mr. Speaker, I rise in support. This bill is relating to the sale and trafficking of wildlife. This bill sets standards for the sale and trade of wildlife in order to preserve and defend endangered animals. There needs to be improved coordination between Hawaii's natural resources laws and governing authorities in order to protect these land and marine species from ending up in the black market trade.

"Many of these illegal activities and trade in ivory are financially supporting terrorist groups. For example the African militia group such as Janjaweed in Sudan, Uganda's Lord's Resistance Army, and Somalia-based Al Shabaab rely on the sale of this blood ivory to fund their terrorist activities.

"Mr. Speaker, the bill before you tries to address Hawaii being the fourth largest black market globally. Mr. Speaker, this bill before you incorporated the feedback from the Hawaii Rifle Association, the conservationists as well as the State Department of Land and Natural Resources.

"To address these trafficking issues, we focused on addressing the importers, exporters and sellers that do not provide the appropriate documentation required by federal law. Mr. Speaker, this bill does not go after law-abiding citizens who own these ivory items through passing it

down family to family or purchasing it through the appropriate legal means.

"Mr. Speaker, we have taken the comments by the community very seriously. So with all their input we have put in an exemption that includes and protects musical instruments, guns and knives, and requires that they have less than 20% of ivory by volume. Mr. Speaker, throughout the process we have kept in constant contact with the Hawaii Rifle Association and Hawaii musicians regarding the language presented in the bill before you.

"Mr. Speaker, I would also like to announce that there was a recent poll done on February 23rd, 2016 in which 505 surveys were completed on the islands of Oahu, the Big Island, Maui and Kauai. And Mr. Speaker, the response was overwhelmingly in support. Over 85% supported the overall ban and protection of these animals. Mr. Speaker, this survey also looked at homes that had gun owners, hunters, and those who supported the gun industry, and again, over 80% of those households supported this measure.

"Mr. Speaker, it is time that Hawaii stands forward and addresses this black mark against Hawaii's name as being one of the third largest black market section for dealing with ivory and all these other protected animals. So, Mr. Speaker, I am proud to present this bill before you. Thank you."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Before, I've gone with reservations on this measure because of the concerns that I and others have had. I want to really thank the Water & Land Chair for the work he has done, and for that reason I'm going in support, Mr. Speaker. He has done a meticulous job in listening to every concern, addressing every issue, and really bringing a commonsense approach, mirroring that of a federal government to the table.

"So, I just want to thank him again for all the hard work and for listening to everybody, whose concerns were legitimate. It wasn't that they hate elephants or love ivory poaching, but their concerns were legitimate. And he has woven them into a bill that I believe, as he says, puts Hawaii forward on the issue. So, thank you very much."

Representative Souki rose to speak in support of the measure, stating:

"Mr. Speaker and Members of the House, I want to congratulate the Chair of Water & Land for a wonderful bill and a job well done. Thank you very much."

Representative Tokioka rose to speak in support of the measure, stating:

"In support, and may I ask that the words from the Representative from Lahaina be inserted as if they were my own, about the Chair of Water & Land. He got a haircut just like me, so thank you, Mr. Chair," and the Chair "so ordered." (By reference only.)

Representative Tupola rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I want to thank the Water & Land Chair as well. Just minor reservations. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2647, SD 1, HD 2, entitled: "A BILL FOR AN ACT RELATING TO NATURAL RESOURCES," passed Third Reading by a vote of 49 ayes, with Representative Tupola voting aye with reservations, and with Representatives Ing and Thielen being excused.

Representative Rhoads, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 1693-16) recommending that S.B. No. 2888, SD 2, HD 1, as amended in HD 2, pass Third Reading.

Representative Tupola rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations. I am hoping that in conference committee they work out the fine details with some of the concerns brought up by the family court personal records, and hope that it can get to a point where the state hospital and the courts agree with the version of the bill. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2888, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO FORENSIC MENTAL HEALTH PROCEDURES," passed Third Reading by a vote of 49 ayes, with Representative Tupola voting aye with reservations, and with Representatives Ing and Thielen being excused.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2102, SD 1, HD 2 pass Third Reading, seconded by Representative Evans.

Representative Tupola rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations. My quick comment is that this current version of the bill takes out 107 positions for the family court, a total of \$5.1 million. I know that on March 29th that was the current listing of vacancies, so they had about 107 vacancies to this day, April 11th. They filled eight of those vacancies and they have progress on the other 99.

"I think hopefully by the time that this final version comes out, they can take into consideration their efforts to fill those positions and help the family courts. I know with the Kona courts coming out and different steps forward we've made for the courts, they need to quickly fill these positions so that we can get the courts to where they need to be in. So I hope that in conference they can consider that and not take away all of these needed positions. Thank you."

Representative San Buenaventura rose to speak in support of the measure with reservations, stating:

"With reservations. I understand that Finance Chair has a difficult job in coming up with a budget. And I understand full well that the Judiciary asks for a lot of money. However, whenever we enact laws like the environmental court getting tougher on family court cases, like abuse of family household member, we've got to give them money so that they will be able to enforce it. And these added vacancies that they are requesting that be funded that were removed in HD 1, I request that the conference committee really consider adding back some of the funding for these vacancies, so that we can enforce the laws that we pass. Thank you."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, as a member of the Finance Committee, I would be amiss if I didn't note my reservations on this bill. My understanding was, this was an ILAF exchange. ILAF is Indigent Legal Assistance Fund. That was being, according to some individuals, not used properly and therefore we were going to exchange out special funds of that fund for general funds. But having a hit piece of \$5 million was not in my understanding, when it was voted on an HD 1 or HD 2.

"Mr. Speaker, for that it's a bit of a surprise. And for other things that we've been trying to hit the Judiciary with, *i.e.* ERS and other deductions, I think this is unfair and the conference committee, as previously noted, should take into full consideration for full refunding of those \$5 million that's missing. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2102, SD 1, HD 2, entitled: "A BILL FOR AN ACT RELATING TO THE JUDICIARY," passed Third Reading by a vote of 49 ayes, with Representatives San Buenaventura, Tupola and Ward voting aye with reservations, and with Representatives Ing and Thielen being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1695-16) recommending that S.B. No. 2131, SD 2, HD 1, as amended in HD 2, pass Third Reading.

Representative Tokioka rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Thank you, Mr. Speaker. I'd like to thank the Chair of the Energy & Environmental Protection Committee and the Chair of the Finance Committee for reviving this bill. Hopefully it will make it on through final reading. Thank you very much, Mr. Chair."

Representative Kawakami rose to speak in support of the measure, stating:

"Strong support, written comments."

Representative Kawakami's written remarks are as follows:

"Mr. Speaker, strong support."

"Mr. Speaker, as a former board member of the Kauai Island Utility Cooperative I can attest that this tax exemption is in order. The naphtha fuel we utilize in our Kapaia Power Station was never intended to be taxed as a transportation fuel. This measure would ensure that over \$4 million goes back to our member-owners. Yes, Mr. Speaker, unlike other utilities across the State, KIUC is member-owned, meaning that it is truly non-profit and any revenue that exceeds expenses is rightfully returned back to the members. Mr. Speaker, for these reasons I stand in strong support."

Representative Morikawa rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Strong support. This is very important to Kauai. I'd like to have permission to insert written comments. Thank you."

Representative Morikawa's written remarks are as follows:

"KIUC continues to believe that the primary purpose of the fuel tax is to provide funds for highway construction and maintenance (or in the case of aviation fuels, funds for airport construction and maintenance). This has been accomplished over the years by imposing the tax on fuel sold for on-highway use. KIUC believes that the intent of the law is to exclude naphtha sold and used for power generation purposes from the state vehicle transportation and respective county fuel taxes.

"Senate Bill No. 2131, SD 2, HD 2 clarifies this interpretation. KIUC uses approximately 15 million gallons of naphtha annually in the generation of electricity, which represents approximately 50% of KIUC's yearly electrical energy production. This would result in an additional \$4.4 million tax expense that would increase KIUC's cost of purchased fuel and raise the average residential electric bill by 7% or about \$10 a month.

"As you know, KIUC is a member-owned electric cooperative. Unlike for-profit corporations (*i.e.* investor-owned utilities), cooperatives are not-

for-profit and member-run. Without the need for profits and shareholder dividends, cooperatives are free to invest what would normally be profits (cooperatives call them 'margins') in the business by allocating margins to the cooperative's members as capital credit contributions, or, eventually, by making patronage capital refunds to its members; and otherwise generally using the monies collected for the general welfare of the cooperative members. Any additional expenses would be passed through to our members and reduce KIUC margins that would impact patronage capital refunds back to our members."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2131, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO ENERGY," passed Third Reading by a vote of 49 ayes, with Representatives Ing and Thielen being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1696-16) recommending that S.B. No. 3126, SD 2, HD 1, as amended in HD 2, pass Third Reading.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 3126, SD 2, HD 2 pass Third Reading, seconded by Representative Evans.

Representative Ohno rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. This is the bill that requires the Department of Education to become net-zero in 2035 and requires annual reporting towards that goal. I am hugely grateful that it looks like we're on the verge of appropriating \$100 million from our green infrastructure special fund, \$30 million from the general fund, but I realize there's a lot of work to get there by 2035. We can't bind future legislatures to continue that work, and sometimes the reports, this bill requires reporting, sometimes reports, in my experience, don't always incite action by the Legislature.

"I hope that we realize there's a lot more work and resources to be done, should we be serious and pass this bill out and put this goal to have our schools net-zero by 2035, and realize that sometimes it might require sacrifice in the years between now and then to appropriate the resources needed. Thank you, Mr. Speaker."

Representative McKelvey rose to speak in support of the measure, stating:

"Just in strong support and would like the words of the Vice Chair of Education entered into the records as if they were my own," and the Chair "so ordered." (By reference only.)

Representative LoPresti rose to speak in support of the measure, stating:

"In support. I also ask that the comments of the Vice Chair of Education be entered into the Journal as my own. Thank you. And I would just add that the microgrid section, if I understand it correctly, is also very forward-thinking, because many public schools serve as shelters in the case of natural disasters. And this allows for setting them up so that they have their own power with PV on and their own microgrid so that people will have energy in the event of a natural disaster. Thank you," and the Chair "so ordered." (By reference only.)

Representative Lee rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Just briefly, I wanted to thank the various chairs of the other committees for prioritizing, obviously cooling for our schools, which is of utmost importance. I'd like to just briefly also share that the funding for this I think is critical and I think both the House and Senate have made that clear, as well as the Governor, and hope this moves forward. But in doing so I think it is incumbent upon us as the Legislature, as the gatekeepers of funding to our departments, to make sure that there are cost controls put in place.

"One thing that this bill has in it, which the previous bill that this body considered did not, was a requirement that as the department implements AC in our schools and as it implements efficiency and conservation and

other renewable technologies, it does so in concert, so that the additional load placed on the grid and the additional electric costs that would be placed on us and on taxpayers is minimized, making sure that it rises no more than 10%. This provides the department with a little bit of a buffer, but also ensures that, as we've seen in some schools already demonstrated, when you air condition a school campus, often that can lead to more than doubling of electric costs.

"Currently, the department spends about \$48 million a year on its electric bill. And I don't think we want to come back and have that be \$100 million next year or the year after. That's the protection that's built in for today. But in the long term, the real question is, how do we get beyond that additional cost, which we continue to bear for the cost of energy and electricity?

"Setting a long term goal to ensure the department can one day produce as much renewable energy as it consumes not only incentivizes conservation and efficiency, but does so in a way that ensures that as we continue to put money into our educational system, into our facilities, they are built to standards that are incredibly doable today already, but also ensure that conservation and energy efficiency ends up reducing that electric bill over the long term.

"Every dollar we put into our electric bills is a dollar less that we put into classrooms, into teachers, into supplies, into our students, which is, I think, something that we have an obligation to do where possible. Through this, we have an opportunity to do just that and create for the first time an incentive and a directive to the Department of Education to reduce those costs, so that we can put those dollars where they're better spent.

"Already we've seen the University of Hawaii this past year pick up this standard with the 2035 goal, which is 20 years to convert its facilities, which is incredibly doable at the current rate of investment that the State is making for maintenance and all the other things that we're trying to tackle.

"What this really does is mimic the larger goal that we've set for the State. Being 100% renewable by 2045. Already our progress toward renewable portfolio standards has saved our consumers and our people here in Hawaii over \$237 million. And that number is growing every year as we avoid costs for electricity generated by fossil fuels and other more expensive technologies.

"Mr. Speaker, by moving ahead at our facilities, especially where our kids are involved, where our money is best spent on them and not electricity costs, we can move the needle and ensure over course that we are no longer spending millions of dollars on unnecessary costs that five years from now, ten years from now, are expected only to grow. So with that, Mr. Speaker, thank you very much."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 3126, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC SCHOOLS," passed Third Reading by a vote of 49 ayes, with Representatives Ing and Thielen being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1697-16) recommending that S.B. No. 3084, SD 1, HD 1, as amended in HD 2, pass Third Reading.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 3084, SD 1, HD 2 pass Third Reading, seconded by Representative Evans.

Representative Jordan rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative San Buenaventura rose to speak in support of the measure with reservations, stating:

"In support with minor reservations. This bill still gives a tax credit to very wealthy people. I would like to have the exemption, not only for people who are making over \$200,000 per person, but let's bring it down to

\$100,000 per person so that the very rich are not the only ones who could take advantage of this. Thank you very much."

Representative DeCoite rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Har rose in support of the measure with reservations and asked that the remarks of Representative San Buenaventura be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Tupola rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Lowen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Just with some comments. The environment doesn't know the difference between who is wealthy and who is not, and because, and I've said this many times this session, because the Department of Health is not putting forth the rules package that would make any of these cesspool conversions mandatory, taking advantage of this tax credit is completely voluntary. So if we limit it to people under a certain amount of income, they'll still have to come up with \$15,000 or \$20,000 out-of-pocket to pay for the conversion.

"So, I don't think that a lot of people will necessarily choose to voluntarily do that, or could afford to. So if we limit it from families on the upper end of the income scale who might voluntarily put in that extra \$15,000 or \$20,000 to be able to take advantage of the tax credit, which would then benefit the environment by getting rid of cesspools that are right next to the ocean, basically flushing our toilets onto our reefs and there is a lot of scientific evidence that this is happening. So I just think there is another side to that that people have to consider."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 3084, SD 1, HD 2, entitled: "A BILL FOR AN ACT RELATING TO CESSPOOLS," passed Third Reading by a vote of 49 ayes, with Representatives DeCoite, Har, Jordan, San Buenaventura and Tupola voting aye with reservations, and with Representatives Ing and Thielen being excused.

At 10:20 o'clock a.m., the Chair noted that the following bills passed Third Reading:

S.B. No. 2647, SD 1, HD 2
S.B. No. 2888, SD 2, HD 2
S.B. No. 2102, SD 1, HD 2
S.B. No. 2131, SD 2, HD 2
S.B. No. 3126, SD 2, HD 2
S.B. No. 3084, SD 1, HD 2

At 10:20 o'clock a.m., Representative Saiki requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 10:47 o'clock a.m.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1698-16) recommending that S.B. No. 3071, SD 1, HD 1, as amended in HD 2, pass Third Reading.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 3071, SD 1, HD 2 pass Third Reading, seconded by Representative Evans.

Representative Creagan rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'd be remiss in not supporting this bill. This land mentioned in this bill is the land where Senator Kahele was born. He was actually born in a grass shack on that land, that very land, near a very well-preserved Holua Slide. So it's not just because this was one of his dying wishes, to have preserved this land, but because the land itself deserves to be preserved. So for all those reasons, I stand in support. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 3071, SD 1, HD 2, entitled: "A BILL FOR AN ACT RELATING TO THE ACQUISITION OF MAKAI LANDS OF KAPUA IN SOUTH KONA ON THE ISLAND OF HAWAII," passed Third Reading by a vote of 50 ayes, with Representative Thielen being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1701-16) recommending that S.B. No. 2738, SD 2, HD 1, as amended in HD 2, pass Third Reading.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2738, SD 2, HD 2 pass Third Reading, seconded by Representative Evans.

Representative Jordan rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ohno rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. Mr. Speaker, this is the bill that has an energy storage rebate mainly for battery storage. Anytime the government gives away a tax credit or rebate, what we're doing is opening up the State of Hawaii's check book and writing a check to individuals. I think that this is going to be available only to those folks who have means to pursue this course, and I think it's going to exclude many people who can't afford it or who are renting.

"Secondly, I just feel that burgeoning private industries should be driven by true costs, innovation, market forces and their product, and not subsidies. Thank you, Mr. Speaker."

Representative Tupola rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations, please. I just still am unsure about using the GEMS loan program money as a rebate, and I know that my colleague from Kailua is really passionate about making sure that money is spent well. So, those are my reservations, thank you."

Representative Lee rose to speak in support of the measure, stating:

"Thank you, in support. Just to clarify, this bill when it came over from the Senate was a tax credit looking at subsidizing energy storage, which has been obviously the next evolution of technology that can allow people to save on their electric bills. As the PUC and others have pointed out, it is where we need to go to be able to install more renewable energy on the grid and allow more PV on the grid in communities where you have reached your circuit capacity.

"I really want to commend the Finance Chair for moving this forward, because what it does is actually tackles that problem without taking any money out of the State's pocket book. Instead of doing a tax credit, which impacts the general fund and all the other programs which we all hold dear, this instead uses dormant funding out of the green energy market securitization program.

"Back when that was first created about three years ago, the PUC, DBEDT, HECO, the consumer advocate, everybody said, you know what, this is going to be great, we're going to empower local homeowners, especially those who can't take advantage of solar and other things because of a high upfront cost.

"Now three or four years later, that program has not got off the ground, and all that money is still sitting right there. We have an obligation, I believe at this point, to make that funding available for its original purpose, which is for the residents of this state, particularly those who can't afford the upfront costs, to be able to take advantage of it. And so this would deploy funding out of that fund, which has been sitting stagnant, which has had no action by these other agencies.

"On top of that, Mr. Speaker, built into this bill are cost controls to ensure that the money is spent wisely, but most of all, that those who need

the money most get to take advantage of this, so that there are income thresholds built into the bill so that if you are truly in need of assistance, you can qualify for 100% of this credit. If you are less in need and you are wealthier, you don't get that.

"So it's something that I think deserves to move ahead at this time, targeting exactly the people who we originally intended with this. Thank you very much."

Representative Ward rose to speak in support of the measure, stating:

"Strong support, Mr. Speaker. Mr. Speaker, for the last ten years the mantra of my office has been solar on every roof. For the last two years it's been solar on every roof and batteries under every house. Mr. Speaker, this bill brings us closer to that reality. And if we are wondering about the value of tax credits, without tax credits we would never have solar on whatever roof, leading the nation and almost leading the world in terms of renewable energy.

"Those who confuse tax credits and social policy need to go back to the late Senator Sparky Matsunaga. Sparky said some of the greatest things have happened through tax incentives. For example, Mr. Speaker, why is the American dream buying house and why do we have such a deduction as interest. It's to encourage people to buy houses.

"Why, when we give to our churches, synagogues and mosques, do we have a deduction? To encourage people to be generous. So, Mr. Speaker, we have to encourage people to be generous, to get batteries to capture the energy, to use what we have as the God-given best place in the world for independence of energy. For those reasons, Mr. Speaker, this is a bill of the future, and it's a good one. Thank you."

Representative San Buenaventura rose to disclose a potential conflict of interest, stating:

"Ruling on a potential conflict. I will be one of those people who will be taking advantage of this bill. I'm going to buy batteries. In fact, I have a battery already in order," and the Chair ruled, "no conflict."

Representative San Buenaventura continued to speak in support of the measure, stating:

"I stand in strong support. Not only will this incentivize people to get off the grid, it will help people in Puna and other rural areas for which HELCO does not reach, where batteries are expensive, where we have to provide our own energy resources. And for those reasons, I stand in strong support."

Representative Ing rose to speak in support of the measure, stating:

"In support. I'm in support because I support subsidizing batteries for people who need it. And I just want to clarify, no matter how you look at it, in the State we have a balanced budget amendment, which means if you have a tax credit somewhere, it's going to have to come from somewhere else, either by cutting or raising taxes. Therefore, any tax credit is exactly the same as a subsidy. If you support this bill, you support a subsidy. I do. Thank you."

Representative Creagan rose to speak in support of the measure, stating:

"On this bill, I rise in support. As the Representative from Puna said, there are many areas on the Big Island and elsewhere in the State, particularly on Hawaiian home lands, where it's very difficult to provide the infrastructure to build the homes. This would go a long way towards providing some of that infrastructure so that homes on remote parcels of Hawaiian home lands could be built and put some of the Hawaiian people back on the land where they belong. Thank you, Mr. Speaker."

Representative Keohokalole rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I rise with reservations. I'd like to adopt the words of the Vice Chair of Education," and the Chair "so ordered." (By reference only.)

Representative Keohokalole continued, stating:

"I stand in support, because I understand that in places like the Big Island and rural communities, disconnection from the grid is a reality. And that programs like this can help those folks obtain energy independence in an affordable manner.

"I have reservations with this measure, because I believe if we're going to be shifting direction on the GEMS program to make it a more viable policy initiative, then we should be using it on the public schools, from a social justice stand point. I think we can spread that money more evenly among the population of our residents who really need it. Thank you."

Representative Kobayashi rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations. I too agree that the general idea of energy storage is great and should be supported wholeheartedly. I am a little concerned about and have reservations with who gets this rebate. Oftentimes, we give tax rebates and credits to those who already have, shall we say, more financially than the average person. Perhaps some sort of lottery system could be used to give out the credits so that the person first in line doesn't necessarily guarantee himself the tax rebate. Thank you."

Representative Belatti rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. In support with reservations. I'd like to adopt the words of the speakers from Kahaluu and also from Nuuanu/Liliha," and the Chair "so ordered." (By reference only.)

Representative Belatti continued, stating:

"One of my concerns with this is for many of those who cannot take advantage of these solar tax credits, whether it's to get panels on their roofs, or now at this point to get batteries under their homes, i.e. many of those who live in condominiums, we will not be able to take advantage of this. And this will have the unintended consequence of leaving some stranded on old infrastructure, while others are energy independent, raising the cost of electricity for many thousands of our residents in the urban core.

"So for those reasons, I express my reservations and I hope as we move forward we will be able to find that right balance. Thank you, Mr. Speaker."

Representative Lee rose to respond, stating:

"Thank you, I rise only to just make one correction. If you actually read the language in the bill, specifically, I can't remember which page, but there is a provision in this which requires of the money being spent for this program, you have a specific set-aside to ensure that you have large-scale community renewable projects which are specifically aimed at condo owners in urban areas, and that can only be used for that purpose. And this is to make sure that those who are absolutely unable, under current definitions, unable to take advantage of PV because they have no roof, are able to. And that's a specific set-aside that was made specifically to address the concern about all those folks.

"And so this is something that I think is important for a totally different reason, because it is as of now the only measure moving forward that has that sort of appropriation or that sort of focus which would expand beyond the status quo to allow all those folks in urban areas to take advantage. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2738, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO RENEWABLE ENERGY," passed

Third Reading by a vote of 49 ayes to 1 no, with Representatives Belatti, Jordan, Keohokalole, Kobayashi and Tupola voting aye with reservations, with Representative Ohno voting no, and with Representative Thielen being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1703-16) recommending that S.B. No. 2535, SD 2, HD 1 pass Third Reading.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2535, SD 2, HD 1 pass Third Reading, seconded by Representative Evans.

Representative LoPresti rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I understand why we have blank bills. They serve a very important purpose. But I cannot in good conscience support a blank bill on final reading before it goes into conference. I think that flies in the face of all transparency, which I try to strive for. So thank you."

Representative Keohokalole rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I rise in opposition to this bill because, as previously mentioned, the bill has no contents. Geothermal is a significant issue. It's a significant issue for the residents of Hawaii Island, a significant issue in the discussions regarding affordable energy and our renewable energy goals, and it's a significant issue in the context of how it involves our environment in our host culture.

"Significant issues that come before this body deserve the transparency that comes with a public discussion on the merits of the issue. I don't think we can achieve that in conference, Mr. Speaker. And for those reasons, I oppose this bill."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, strong reservations. I say strong reservations because I hope somebody will stand up and enlighten us as to why there should be a blank check. Mr. Speaker, in the street language of business or of household budgeting around the kitchen table, you never write a blank check. What we're doing here is we're writing a blank check to the Senate. Why are we doing that? There's got to be some logic. Is this a sneak attack on something? Is it something about the geothermal on the Big Island, they got something waiting in the wings to do it?

"We should be very transparent, we've never passed a bill like this in the years that I've been here, so why are we doing it? Mr. Speaker, until I find out why, I have reservations. But we should go no, unless the reasons are for good reasons. Thank you."

Representative San Buenaventura rose to speak in support of the measure, stating:

"I stand surprisingly in strong support of this bill. As being in the only district in the entire state with a geothermal plant, by passing this bill as it is, HD 1, a blank bill, we leave intact county regulations, county oversights, where my constituents will be able to have a voice in geothermal explorations. The original bill removed that. And as such, I stand in strong support of leaving it the way it is, so that my constituents who have a difficult time coming to the State Capitol to testify will be able to do so in the county where the geothermal explorations are in. Thank you."

Representative McKelvey rose to speak in support of the measure, stating:

"In strong support and I like the House position on this. Thank you."

Representative Har rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. In support with reservations, please. First of all, may I please incorporate the words of the Vice Chairs of Transportation and Labor into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Har continued, stating:

"Thank you, Mr. Speaker. Very briefly, when this bill came over from the Senate, and I do want to thank the introducer of the bill, because when the bill came over from the Senate, it clearly talks about the development and regulation of geothermal energy development and production being a matter of statewide concern. And with all due respect to the Vice Chair of Judiciary, I think that regulations concerning the development of geothermal energy exploration and geothermal mining operations should in fact be uniform throughout the State.

"With that said, as previous speakers have mentioned, this bill in fact essentially is a blank bill, it is a short form bill and it does not really clarify what exactly, and while the vice chair has contended that this bill, as a blank bill, preserves the county's position, and I don't dispute that, I just am not clear what exactly we are voting on.

"So for those reasons, I do support the Senate Draft 2 that came over. I think that geothermal is an important piece of addressing our energy issues that we have in this state, and therefore for these reasons I stand with reservations. Thank you."

Representative Lowen rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition, but oddly for similar reasons as the Representative from Puna. The contents of this bill, before it was gutted and became a short form bill, undermined the county's power to weigh in on these geothermal projects. There are a lot of concerns with that. And just out of the concern that that language could resurface, that is where my opposition comes from."

Representative LoPresti rose to respond, stating:

"Second time, still in opposition. Thank you, Mr. Speaker. I just wanted to clarify that my opposition has nothing whatsoever to do with my stance on geothermal, which I support in principal, but in practice, obviously, there's some concerns. So I just wanted to clarify, it has nothing to do with my stance on geothermal. This is rather the blankness of the bill. Thank you."

Representative Tokioka rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Tokioka's written remarks are as follows:

"Mr. Speaker, I understand the intent of this bill. However, without knowing the entire context of this bill I cannot in good conscience make a 'yes' vote."

Representative Ward rose to respond, stating:

"I'm going to move from strong reservations to just reservations, given what the Representative from Puna has just said. That there is a value, but the value it sounds to me should be killing the bill rather than keeping it alive so the Senate can stick something in that we don't like. Therefore, Mr. Speaker, this is a bit a half of a loaf of something that's good, so with that, I still have reservations, without being serious. Thank you."

Representative Pouha rose in support of the measure with reservations and asked that the remarks of Representatives LoPresti and Keohokalole be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2535, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO GEOTHERMAL," passed Third Reading by a vote of 44 ayes to 6 noes, with Representatives Har, Pouha, Tokioka and Ward voting aye with reservations, with Representatives Ing, Keohokalole, LoPresti, Lowen, McDermott and Tupola voting no, and with Representative Thielen being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1704-16) recommending that S.B. No. 3034, SD 1, HD 1, as amended in HD 2, pass Third Reading.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 3034, SD 1, HD 2 pass Third Reading, seconded by Representative Evans.

Representative San Buenaventura rose to speak in support of the measure, stating:

"I stand surprisingly in support of this bill. I am in favor of victims' rights. I myself was a victim of burglaries. I have represented the victim of one of the most heinous crimes in Puna, that of Tadeo v. Davis, where a young child was stalked, raped and killed.

"What I would like would be to amend this bill. Instead of a constitutional right, let us actually give victims some rights under HRS 801D-4. Right now, HRS 801D-4 puts it into the county, and that's the reason why we have a number of very unsatisfied victims. County of Hawaii, where I am from, has very strong victims' rights advocates. I was informed every step of the way as a victim, my clients and myself was informed when Mark Davis escaped from Kaneohe and eventually died in Kaneohe. So we were informed every step of the way.

"I understand here in Honolulu, because of various administrations, that the victims' advocacy bills have died. HRS 801D-4, we should enforce that, we should require counties to have this. If we put it in the State Constitution, these are rights interpreted by the Judiciary and by all judges to be rights against the State. Not against the county.

"And what I wanted to point out is, as soon as it goes into the Constitution, it is going to be very difficult to amend it. One example of this is, in 1998 there was the same-sex marriage amendment. It took 15 years for us to fix it. Versus our DUI laws, the DUI laws, every year we fix it to make it better. We first started off with our DUI laws, making every violation a misdemeanor. Then the prosecutors found out that the defendants ended up asking for jury trials, they ended up gaming the system, so that we actually decrease the number of convictions. So the next year or the next succeeding years, we actually brought down DUI penalties to petty misdemeanors instead of misdemeanors, and increased and created administrative penalties.

"If we put this in the Constitution, we won't have that flexibility. And again, just last week with the DUI laws, we actually repealed the petty misdemeanor offense of refusing to consent to a breathalyzer, because the convictions of those DUI offenders were in jeopardy.

"If we put this in the Constitution, these rights of Constitution, we won't have that flexibility. However, if we keep it and we enforce 801D-4, make the counties accountable and actually fund maybe a statewide victims' assistance group, we can actually enforce victims' rights. And as such, I stand in support of victims' rights."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 3034, SD 1, HD 2, entitled: "A BILL FOR AN ACT PROPOSING AN AMENDMENT TO ARTICLE I OF CONSTITUTION OF THE STATE OF HAWAII TO ESTABLISH RIGHTS FOR VICTIMS OF CRIMES," passed Third Reading by a vote of 50 ayes, with Representative Thielen being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1705-16) recommending that S.B. No. 2076, SD 2, HD 1 pass Third Reading.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2076, SD 2, HD 1 pass Third Reading, seconded by Representative Evans.

Representative Tupola rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations about the fee. I'd like the words of the CPC Chair from a previous floor session to be inserted as the reasons why we possibly need it. Thank you," and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2076, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO HEALTH CARE," passed Third Reading by a vote of 49 ayes to 1 no, with Representative Tupola voting aye with reservations, with Representative McDermott voting no, and with Representative Thielen being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1706-16) recommending that S.B. No. 2083, SD 1, HD 1 pass Third Reading.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2083, SD 1, HD 1 pass Third Reading, seconded by Representative Evans.

Representative Jordan rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I know this pains me and probably others here. With reservations, Mr. Speaker. At some point in time, when do we draw the line of privacy? I understand what this measure means. I understand we should protect individuals under 18 years of age. But when do we start looking at adults in charge of those youth and being accountable for what they are doing, instead of us passing measures to get into that realm. So I will stand with reservations on this measure for right now and see what happens at the beginning of May. Thank you, Mr. Speaker."

Representative McKelvey rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations. I would like the words of the previous speaker entered into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative McKelvey continued, stating:

"Also, I guess what concerns me is the subjectivity of this bill as far as enforcement goes. I know it's an active use, but what is active use? That's up to the officer enforcing it. Is it an e-cig that's on all the time in the passenger seat? That could be active use. Is it a pack of cigarettes maybe under the seat, inadvertently dropped there? That could be active use or not. We have the same situations now emerging with the cell phone bill we passed several years ago, where subjectivity is being applied, even though it's a secondary offense. So I hope that the conference committee looks at these issues, because I could see it easily having the same situations, whereby people are being busted for a secondary offense, which has been the subjective view of the officer, not any concrete standard of law. Thank you."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, reservations. My fear is I think a couple of things. One is, incremental nanny state-ism. Mr. Speaker, this says that if you're in a car and you got somebody under 16, you can't smoke or you get pulled over by the smoking police. As if our police didn't have enough work to do already.

"Second thing is, any parent should know that they shouldn't be smoking in front of their kid. So why don't we tell parents other things that we

should be doing as a nanny state, send your kids to school, don't beat your kids. Where does the nanny state stop, Mr. Speaker? I'm not going to use the silly metaphor of slippery slope, but this is where we have to decide as a governing body, where we have to put responsibility into the citizens versus responsibility under ourselves.

"In a way, this is the easiest kind of thing to do, we just make it a law and shoot it through. But I think for the sake of the police, just like teachers, teachers are so abject to having, don't give me another thing to do. Giving the police another thing to do, which likely is probably not even enforceable, you're going to catch it when the smoke comes out. What about when you're following behind a car where you see it looks like the tailpipe, the engine is blowing up because it's an e-cigarette, these huge puffs of smoke. You pull them over, but you don't see any smoke when you've got the person there. Then you check the ID and what the person looks like, they're 18, but you've got to check their ID.

"Are we going to keep our police tied down to doing things like that? So for the sake of the police and for the sake of the nanny state, Mr. Speaker, this is a policy I think we have to seriously project into the future to know what we're doing and do it well. Because I think we're just slipping into oblivion by being the nanny state. Thank you."

Representative Rhoads rose to speak in support of the measure, stating:

"In support. It's hard to know where to begin. Approximately 440,000 people every year die from cigarette smoking in the United States, 40,000 of those are from secondhand smoke. That's more people than die in car crashes, if I remember correctly. With car crashes, we do require that you strap your minor into the car and we have very strict rules about how you do it, because we don't want them to die from that.

"Well, we should not want them to die from cigarette smoke either. Human tendency is to exaggerate exotic risks and to underestimate prosaic risks. This is a very prosaic risk, we see it all the time, but it doesn't mean that tobacco smoke is not a Group 1 carcinogen. The Centers for Disease Control said there's no known dosage of secondhand smoke that's safe. The physiological effects are immediate. And it's just completely unfair for someone who is a minor, who has no control over the adult, who is in the car with them. They may have to ride with them in the car to get to school or to go to soccer practice or whatever. And to just say, hey, you know, too bad, we're going to expose you to carcinogens.

"I agree with a previous speaker, that if adults would act like adults, we wouldn't have to do this kind of thing. But clearly, they're not. And with regard to the question about enforcement, if you read the penal code, there are so many ambiguities in the criminal laws that we pass, that's what judges and juries are for. They figure out the fact questions, whether this was actually a violation or not. Some of the cases are going to be really easy. You're going to pull them over, the guy's going to be smoking a cigarette and there's going to be a five-year-old sitting in the seat next to him. Hey that's easy. It's a harder case if there's no cigarette actually burning in the guy's mouth, but the car is full of smoke. Well, it probably wasn't the five-year-old smoking. So it just depends on the situation. Some cases will be easy to make, others won't and probably prosecutors won't prosecute in those situations.

"But again, just bottom line is, cigarette smoke is very, very risky, exposure to it is very risky. Secondhand smoke kills tens of thousands of people every year. *Mahalo*."

Representative LoPresti rose to speak in support of the measure, stating:

"Strong support. I ask that the Judiciary Chair's words be entered into the Journal as if they were my own. Thank you," and the Chair "so ordered." (By reference only.)

Representative McDermott rose to speak in opposition to the measure, stating:

"Opposition, Mr. Speaker. Mr. Speaker, if you're in the car rolling down the highway at 55 miles an hour and you're smoking. By the way, I don't smoke, I don't like cigarettes, I think it's nasty, smoker's breath is like an

ashtray, it's not cool, I don't support it, it does kill, it hurts people. Why don't we make it illegal? Or I should reiterate my call to shoot all smokers.

"Short of that, what are we doing here? You're driving down the road at 55 miles an hour, your windows are open, you're having a cigarette. It's your car. You do what you want. That child is going to be exposed to much more smoke and carcinogenic effects if they are living with their parents in an air-conditioned condominium. But we're not banning that. I suppose that is the next step.

"Where does the nanny state end and where does personal responsibility and freedom begin? This is America, after all. If cigarettes are that bad, outlaw them. Ban them. Just have the courage to do it. But you're nickel and diming them. Where they can smoke? They can't smoke around the building, they have to go across the street in some cubby hole somewhere. Now they can't smoke in their car. Next it will be their house.

"We're actually going to have police, 911, I saw a driver, he has an unfiltered Camel, he's on H-1 and he's going 55 miles an hour. Dispatch, unfiltered Camel, please alert and send two cars, it could be a difficult situation. I mean, this is ridiculous. It won't be enforced, and when we pass bills that aren't enforceable or won't be enforced, we undermine the whole legal system and our statutory laws.

"I think from Kapolei to Waianae, you have seven officers who cover that beat. You've got all these challenges, drug use, domestic violence, DUIs, real crimes. And now you're going to task these guys, if you see the unfiltered Camel, pull them over. I don't care if it's rush hour, pull them over, he's smoking a cigarette and he's got that child. I mean, it is just laughably ridiculous. And what if the windows are open? He's getting very little smoke.

"And secondly, the Judiciary Chair mentioned, there's no amount of secondhand smoke that is deemed safe. Well what amount is deemed unsafe? Surely there is an amount of that. But this is just a political statement, political correctness, overreach, nanny state, leftism, taking away the rights of individuals. This isn't America, and I vote no. Thank you."

Representative Kobayashi rose to speak in support of the measure, stating:

"Mr. Speaker, in support. The question of enforcement of smoking laws have come up often. I used to be a legislative representative of the American Lung Association, and addressed this topic often. The stance has been that smoking laws are self-enforcing, for the most part. The fact that there is a law on a certain subject, be it smoking indoors or traffic laws, speeding laws, prevents many people from breaking those laws, just because of respect for law. It is not expected that police would specifically target enforcement of a, shall we say, minor offense such as that. But we think that most people will respect the law and abide by them, if we pass them. Thank you."

Representative Rhoads rose to respond, stating:

"Still in support. I just want to say that the libertarian arguments for not restricting smoking also cuts both ways, so I guess we should legalize *pakalolo* and all other drugs as well. *Mahalo*."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2083, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATEWIDE TRAFFIC CODE," passed Third Reading by a vote of 48 ayes to 2 noes, with Representatives Jordan, McKelvey and Ward voting aye with reservations, with Representatives McDermott and Tupola voting no, and with Representative Thielen being excused.

At 11:21 o'clock a.m., the Chair noted that the following bills passed Third Reading:

S.B. No. 3071, SD 1, HD 2
S.B. No. 2738, SD 2, HD 2
S.B. No. 2535, SD 2, HD 1

S.B. No. 3034, SD 1, HD 2
S.B. No. 2076, SD 2, HD 1
S.B. No. 2083, SD 1, HD 1

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1707-16) recommending that S.B. No. 2723, SD 1, HD 1, as amended in HD 2, pass Third Reading.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2723, SD 1, HD 2 pass Third Reading, seconded by Representative Evans.

Representative McDermott rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I have reservations on this measure. So, in support with reservations. I hope that the things can be worked out in the future. The bottom line is, if you don't want to get penalized or fined, don't break the law, right? I mean, that's clear. So for that reason, I support it. However, my concerns are at this point, the potential for multiple violations inadvertently by small companies that could very well put them out of business.

"I don't mind going after the bad actors who habitually game the system and hurt the working men and women of this community. That's not a good thing, obviously. But what I am concerned about is if someone does something inadvertent and they mischaracterize an employee and then the employee is also, perhaps works overtime or a holiday, then that's another violation on top of it. These violations can mount up quite substantially, and particularly if it's not the first time. And if you're not an expert in record keeping, perhaps you just made an honest mistake, this could be very, very detrimental, particularly to a small company.

"So for those reasons, I look forward to seeing what this final thing will look like, but I have reservations. And I asked the two parties if they could get together in the hearing. I said, can't you guys get together, find a happy medium? Because that's what we do down here most of the time, try and find a solution. And that was my encouragement to them. So it puts us all in a tough spot, I think, because we want to support business but we don't want the bad actors, so how do we find that medium? So I look forward to seeing this in its final form. Thank you, sir."

Representative Tupola rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. A no vote. I know that the latest version of it has blanked out the fines, but I still have concerns of what those blanks are going to be filled in with. It moved from \$25 for the first violation up to \$1,000, and now there are two tiers after that, the second violation is 50% back wages and \$5,000, and then the third violation is 50% with \$10,000.

"I think the increase in wages, when we asked in the labor hearing, were inconclusive as to how we got to that increase in fines. How do we calculate from \$25 we're going to go up to \$1,000?

"So again, I realize those fines are blanked out in this recent version and hope in the conference committee that there can be something that is actually calculated upon what is fair and not just a random amount or a random increase from \$25 to \$1,000. Thank you."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, reservations until the fines are rational. Thank you."

Representative Har rose to disclose a potential conflict of interest, stating:

"May I request a ruling on a potential conflict? At my law firm, I represent contracts and subs. Thank you," and the Chair ruled, "no conflict."

Representative Cachola rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2723, SD 1, HD 2, entitled: "A BILL FOR AN ACT RELATING TO ENFORCEMENT OF WAGE LAWS," passed Third Reading by a vote of 48 ayes to 2 noes, with Representatives Cachola, McDermott and Ward voting aye with reservations, with Representatives Kong and Tupola voting no, and with Representative Thielen being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1708-16) recommending that S.B. No. 2398, SD 2, HD 2 pass Third Reading.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2398, SD 2, HD 2 pass Third Reading, seconded by Representative Evans.

Representative Tupola rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. A no vote, quick explanation. I've been waiting to cast this vote until I was able to meet with the graduate student president as well as VP Dickson at UH to kind of discuss what it is that the graduate students need, how many of those needs can we fill by actually talking and finalizing a contract that might even be ready to roll out this fall for the graduate student assistants.

"There are six things that they're fighting for. One, is a year contract. So prior to them bringing up this discussion, it wasn't even sure whether or not they'd have assistantship for more than a semester, which is hard for people to plan ahead. Second, notification of dates, as to whether or not you're going to get your graduate assistantship back the next semester. And some of those notifications came so late that people would miss out on financial aid.

"Third, a clear grievance process, whereby they can work with the university if they have problems with their graduate assistantship and their professor. Fourth, a way to report on sick days, that wasn't clear. Fifth, discussions as to how you can get up a step as a graduate assistant. As of right now, there is no clear way if you are getting a new degree you may or may not escalate a step. It's not totally sure. And the last one is actually the steps, increases haven't been changed for the past 12 years I believe.

"And so after sitting down with both of them, I think speaking through a lot of these, at least four to five of these things can be resolved by them actually writing down a contract between the university administration and the graduate student department, and making this part of their administrative policy. And that's what VP Dickson is working on.

"And I look forward to supporting them in this, and I actually told them that I would attend their graduate student assistance training/orientation this coming fall, to make sure that all of this happened. And even meet with the Board of Regents about increasing this. Although I don't feel like collective bargaining is the direction that they should go, I encourage them to pursue all paths.

"And I acknowledge Jonathan Dial, who is the president, for his courageousness, and for all the graduate assistants that have been fighting to get their voices heard. And I wanted to commend them for what they're doing, and let them know that I'll be paralleling and augmenting their efforts by trying to work with the university to resolve these concerns. Thank you."

Representative LoPresti rose to speak in support of the measure, stating:

"Strong support. I wasn't planning on speaking on this, but you cannot even engage in bargaining with contracts if you don't have a good faith group to bargain with. And in my opinion, for over a decade the university has not been a good faith partner in any kind of negotiations with graduate students.

"They've only begun to get any traction whatsoever because the Legislature has begun to take seriously the last few years, allowing them to collectively bargain. And I think its past time that we pass this and that hopefully the Governor doesn't veto it again, and I hope if he does that we override that, sir. Thank you."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations. As the previous speaker noted, it is true that unionization fills the gap when management doesn't do their job. That's standard lesson in any MBA course. And evidently, the UH is not doing their job. Now, of course that doesn't mean that we should jump up and down and say, let's unionize everyone. Because my sense is, those of us who have office managers who have tried to get unionization, if this bill goes through, that's obviously going to be the next one.

"So it's an incremental thing, but it's where if we're not treating our officer managers correct, they're going to unionize. And that's the same message that I think we're sending to the UH. You don't treat the graduate students, they're going to unionize. But the bill for unionization of our office managers has come up over the last five, six, seven, eight years and it hasn't passed. But with this one, possibly next year, 2017 session, that may be part of the floor debate. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2398, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO COLLECTIVE BARGAINING," passed Third Reading by a vote of 49 ayes to 1 no, with Representative Ward voting aye with reservations, with Representative Tupola voting no, and with Representative Thielen being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1709-16) recommending that S.B. No. 2077, SD 1, HD 1, as amended in HD 2, pass Third Reading.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2077, SD 1, HD 2 pass Third Reading, seconded by Representative Evans.

Representative Jordan rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2077, SD 1, HD 2, entitled: "A BILL FOR AN ACT RELATING TO SEPARATION BENEFITS," passed Third Reading by a vote of 50 ayes, with Representative Jordan voting aye with reservations, and with Representative Thielen being excused.

Representative Rhoads, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 1710-16) recommending that S.B. No. 2816, SD 1, HD 1, as amended in HD 2, pass Third Reading.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2816, SD 1, HD 2 pass Third Reading, seconded by Representative Evans.

Representative McKelvey rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I actually was going to vote no on this bill, but I'm changing it to with reservations and I'd like to explain why. First of all, could I enter the editorial from today's Star Advertiser into the record as if it were my own, on this subject?

"And I think for me, both sides of the argument come up in my district. The concerns for the Native Hawaiian community in particular, for access, cultural gathering and also the ability to have their First Amendment rights. There was a group called Aloha Aina led by one Archie Kalepa, a friend and waterman in my district, to protest the moves of an offshore developer to take away their *kuleana* lands.

"They were marching along the Lahaina bypass in peaceful protest of this situation, and under this law they could have been charged with criminal trespass. Not to mention that, because there is no underpass, they do have to cross the bypass to access the lands on the other side that are also *kuleana* gathering lands.

"So these things have to be addressed by the conference committee and I hope that they do. But at the same, just north at Lipoa Point, state lands where we have criminal situations which occur after dark. Assaults, robberies, all sorts of things that this law could be used to have the DOCARE officers, the officers basically stop this activity and not simply depend on simple trespass.

"So I go with reservations, because I see the need with the Lipoa Point example, but I hope the conference committee looks at the concerns that have been raised by the Aloha Aina example, which I bring to you today. Thank you."

Representative McKelvey submitted the following *Honolulu Star-Advertiser* editorial:

"Give state ability to move homeless

April 12, 2016

Much like the city ordinances that allow police to roust the homeless from public sidewalks, Gov. David Ige's administration has proposed legislation that would criminalize trespassing on all state lands. If passed, the measure could become a useful addition to the government's toolbox addressing homelessness — albeit far from a solution.

Senate Bill 2816, which is up for a House floor vote, would give the state a tool that parallels Honolulu's law banning sitting and lying down on sidewalks, which has helped reduce the number of homeless visible in Waikiki, downtown and other areas.

The city used its ordinances to dismantle encampments in Kakaako last fall, but many of those who were displaced simply moved to nearby state land, including Kakaako Waterfront Park and Kewalo Basin. The state has had little success in reducing the homeless population in those areas, and more clarity in the criminal-trespass laws could bolster its efforts.

Currently, criminal-trespass laws don't apply to improved state lands — land that's built or improved in some way — and it's unclear whether Hawaii's trespass laws apply to state land under freeways or in boat harbors. Those who drive past the airport viaduct or visit the Waianae Boat Harbor know that those areas have become magnets for hundreds of unsheltered individuals and families, and that has increased problems of public access and safety.

Although opponents of the legislation say it needlessly criminalizes homelessness, the state contends it is not a measure that targets only the homeless. Under SB 2816, a person commits criminal trespass, a petty misdemeanor, on state lands if he or she enters or remains unlawfully when the land is closed to public use and its closure hours are posted on a sign or signs, or if the land is not open to the public. The bill broadly defines state land as "all land owned by the State through any of its departments or agencies" but also specifies land "on or under any highway."

As it is, chronic encampments at the Nimitz viaduct and under an H-1 freeway overpass across Harding Avenue necessitate cleanups twice yearly; each sweep costs \$250,000 to \$300,000.

If lawmakers pass SB 2816, they cannot ignore that future enforcement could further clog the judicial system with "nuisance" cases. It would behoove legislators also to pass a separate bill to create and fund a mobile court to handle the overload of cases, traveling to community centers and shelters. Such a pilot project would place the court system in places more accessible to the unsheltered population, and focus on manageable solutions such as community service.

There is no question it will take a multi-pronged approach to reduce the highest per capita rate of homeless in the nation, which is in excess of 7,000. That's why it's so perplexing that many homeless initiatives proposed this session have gotten a cold reception from state lawmakers.

Among them: the state's effort to convert a Kakaako maintenance shed into a unique homeless shelter for families, which is already running

three months behind schedule. Ige had requested spending \$900,000 in annual operating costs for the shelter, but a House bill provides no money, and a Senate version includes only \$450,000, half of the requested amount.

Homelessness and emergency shelters are just the front end of a housing continuum that ends with permanent, affordable homes. As it pertains to this end, Ige has declared the homeless issue an emergency, but any sense of urgency seems lacking at the state Capitol.

State legislators need to work with the Ige administration to get people off the streets — and that requires giving the state the authority to clear trespassers from state lands as well as adequately funding shelters and the pilot mobile court."

Representative Jordan rose to speak in support of the measure with reservations, stating:

"With reservations, Mr. Speaker. I too am divided on this particular issue. I see it as a plus and I see it as a minus. But we all understand what this is really about. This is about removing individuals that could be potentially squatting on state lands. Some of my initial concerns were traditional and cultural practices.

"But since under the Constitution, most of those are geared towards open spaces, not necessarily spaces that have so-called improvements on it. I do have some concerns with what is considered improvements in this particular measure. I have concerns of how our state wishes to deal with individuals that are potentially squatters or homeless, whatever term you wish to use.

"I don't think we should be looking at what the City and County of Honolulu has taken their approach with. I think we should be dealing with compassionate disruption, and not putting things in statue, although I do understand our public ways such as our harbors, our highways, our byways, should be safe for all, including those individuals that currently reside underneath there. Many of us who go down Dillingham towards airport can clearly understand that in the middle of the dark, when individuals dart across those three or four lanes. Or when somebody drives down Farrington Highway and sees somebody dashing across the highway in the middle of the evening to get to a city and county park, which now chooses to close them with signage, which this measure addresses.

"This is a tough issue, but I'm not so sure this is the direction we should be going. And I'm not so sure if I want to see it come out of conference either. So for right now, I have strong reservations on this measure as we move forward, Mr. Speaker."

Representative Pouha rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative DeCoite rose to speak in support of the measure with reservations, stating:

"With reservations, Mr. Speaker, and just a comment in regards to trespassing. You're looking at state lands, and for those, whether you want to consider people that are leasing those state lands privately as farmers and ranchers, we've struggled with signage, we've struggled with people that have trespassed, and yet I understand the *kuleana* rights and gathering of the land.

"We have always offered permission when asking and while we are in those areas working, whether it be gathering for hunting purposes and workers within those areas of dodging bullets, I fear for the safety of these people that have put liability insurance on their lands. Though in some cases I understand that there is good and bad to this bill, but for the safety and the onus of liability issues, I have strong reservations for this bill. Thank you, Mr. Speaker."

Representative Keohokalole rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. Mr. Speaker, I rise in opposition. I haven't had the opportunity to take a vote on this bill until

now, and I have concerns regarding the breadth of this bill and whether it could be better tailored to specifically serve the purpose it's suited.

"But aside from that, I think this bill will have a negative impact on my district, where there are numerous camps on state lands, homeless encampments that have not been properly accounted for in the point in time count, are not currently receiving the breadth of homeless services that other areas of the islands, for good reason, are receiving attention at this point.

"If we've seen the experience in town and in other areas where they do sweeps of hidden encampments, where they haven't devoted sufficient resources to help get those individuals off the streets permanently, and without those resources in my district I think we are just going to start, we could potentially just be raiding encampments in our community and sweeping those folks out onto the city sidewalks where they can be chased around Kaneohe like they are in town, into our parks, our shopping centers, our sidewalks. I don't think that solves the problem and I don't think that moves us in the right direction. And for those reasons, I oppose this bill. Thank you."

Representative San Buenaventura rose to speak in opposition to the measure, stating:

"In opposition. I originally voted with reservations, because I do understand DOT's concerns about wanting to be able to arrest potential copper thieves but not catching them in the act, DLNR's concerns about people cutting down hundreds of miles of fencing in parks. And I also do appreciate the Judiciary Chair's attempt to alleviate the homelessness that is concerned by putting it in the committee report.

"However, I strongly believe, like the Representative in Kaneohe has stated, that this is disproportionately another attempt to criminalize the status of homelessness, and unless we are able to address that, I cannot stand in support of this. Thank you."

Representative Rhoads rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. This is obviously an issue that affects my district pretty severely in Chinatown, Palama, Iwilei. If you do read the committee report, we go into the judicial background on this. There is a ninth circuit case that basically says you can't prosecute somebody for being homeless if that's the only reason, if they're doing something that they have to do as a human being and there is no other place for them to do it.

"So the attorney general, his assurances to me were that they wouldn't prosecute people. If this was where they're living and there was no room in a homeless shelter available that night, that people wouldn't be prosecuted for that. Obviously the county prosecutors are involved in this as well and we urge them in the report to follow the ninth circuit case, the Jones case, which as I mentioned before basically says you can't prosecute somebody for doing something that they have to do to be a human.

"Having said that, if there is a place for the person to go, then there is also a fairness issue just in terms of other people can't trespass onto that property and not expect to have some consequences, so why should someone who does have somewhere else to go be able to do that.

"The other thing that I thought was important with this bill was that there are antitrespassing laws already, but basically you're just cited and in fact you don't have to vacate the property. You have to go to court and fight the citation and you get a fine. But if you are a copper thief, you don't have to get off the median where you're not supposed to be, you just have to go to court and fight the citation. That doesn't make any sense at all. If you have a place to go and the possibility is high that you're there for no good reason and you're trespassing where it's already illegal for you to be, then why shouldn't there be a penalty that at least can get you off the property for that, that you can already be cited for.

"So I realize it's a very difficult balancing act. Some people view the homeless as if they would be nice people if it just weren't for the circumstance of their situation. Well, that's true in some cases, but there

are also homeless people who are committing crimes in addition to doing things like trespassing, which don't immediately affect anybody. So this committee report also mentions the fact that you can't be arrested for just trespassing, but you could be arrested if you're trespassing and you're also vandalizing or stealing. So again, difficult balance, I'm aware of the concerns and I'll certainly keep them in mind during the conference committee. Thank you."

Representative LoPresti rose to speak in support of the measure, stating:

"In support. I again ask that the words of the Judiciary Chair be entered into the Journal as if they were my own, and I also ask that the Star Advertiser's editorial op-ed be entered into the Journal as if it were my own," and the Chair "so ordered." (By reference only.)

Representative Tupola rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I request to have the comments from the Representative from Kaneohe and Puna inserted as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Tupola continued, stating:

"My concern is with the scope of what state lands are. I think it's nice that the prosecutors said they wouldn't prosecute if homeless people didn't have a place to go, but that's still going to be of concern. Because by putting it into statute, that still means that they will be charged as criminal trespassing.

"And so I know this is going to affect many people in my district, and as brought up in prior speeches, there is possibly for a lot of these people, nowhere to go. And so I feel like this also touches on ceded land, it also touches on state land, UH land, a lot of other lands, possibly back into the Mauna Kea argument. I don't know what exactly it would do, if there isn't possibly going to be prosecution for but it would be part of the law. I'm almost positive that by putting it into law, there will be definitely areas and instances where people will be prosecuted for criminal trespassing, and it will go against other constitutional rights that they have.

"For those reasons, I feel like we need to probably study the scope of what we are trying to do. I realize what it's trying to address, but possibly if there is a way for us to do that without having to call all of these lands, which we don't even know the scope of how many lands that will be, as criminal trespassing for various reasons that could be addressed through other methods. Thank you."

Representative Ing rose to speak in opposition to the measure, stating:

"In opposition. There's a lot of trespassing laws already on the books. I feel that this bill adds laws that are unnecessarily cumulative for those who, quote unquote, 'trespass'. There's a law for sleeping or camping after closure of any state park, it's HRS 708-813, 814 and 815. If you remain unlawfully on any highway, that's in statute as well, HRS 711-1105.

"This bill seems to target homeless individuals and families. But we know through history that criminalizing the poor does nothing to alleviate homelessness. I also have concerns that this may infringe on individuals rights to peaceful protest. As you know, if there is development you don't like or something happening, to organize and make a stand that's otherwise not really harming anybody, this will make those types of actionists criminals.

"In the interest of constitutional rights of protest, not being too cumulative in terms of prosecuting the poor and the homeless, I respectfully oppose this bill. And I just wanted to add that, if we really wanted to tackle homelessness in good faith, it really is our responsibility to not keep making these Band-Aid fixes or moving members of our community to different areas, but rather to address the problem holistically. Which I know we're trying to do in earnest, but maybe one way we can step up our game is to do the opposite of this bill and open all state parks after hours for anyone who needs to sleep in there. And I think

that would really get the conversation going, because of course that would be very unpopular, but it's our duty."

Representative Yamane rose to speak in support of the measure, stating:

"Standing in support. Members, this is an admin bill, so Water & Land didn't draft this one. So, sorry for the controversy. Members, I know there's a lot of discussion regarding the issue of homelessness, and that's why the committee initially had some reservations about even hearing this measure.

"When I met with the attorney general as well as two directors, and the motive behind the administration's bill was not to target the homeless. The issue for them was to try to address health and safety concerns, specifically as mentioned regarding people staying underneath the overpasses and on the side of the roads.

"Also, Mr. Speaker, there's been ongoing problems with the health and safety concerns of homeless both at the airports and next to harbors in which, per the attorney general, they are unable to address. My understanding per the attorney general as well is that the administration has a rule regarding the evacuation of homeless, in which they have a 24-hour notice rule.

"As well as this bill tries to address it by putting up signs to address the open areas. Mr. Speaker, the State of Hawaii has a lot of open land that's unfenced and unsecured. And what this bill tries to do is address it comprehensively to protect those open spaces. Mr. Speaker, there's been a lot of ongoing problems as mentioned from the Representative from Maui regarding illegal behavior, as well as the collection of very important koa trees, sandalwood trees, and poaching of other animals and plants from state property. And that has been an ongoing challenge by the State to make sure that these type of illegal behaviors are punished to stop.

"Mr. Speaker, I know the attorney general mentioned the issue of copper thieves and others. However, the intent, per the administration, is that they're trying to address the health and safety needs, not only on open parks, but state lands that actually can be proved to be dangerous, even for hikers and others. So with that, Mr. Speaker, knowing the intent of the administration, I stand in support."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2816, SD 1, HD 2, entitled: "A BILL FOR AN ACT RELATING TO CRIMINAL TRESPASS," passed Third Reading by a vote of 43 ayes to 7 noes, with Representatives DeCoite, Jordan, McKelvey, Pouha and Ward voting aye with reservations, with Representatives Fukumoto Chang, Ing, Keohokalole, Lowen, Matsumoto, San Buenaventura and Tupola voting no, and with Representative Thielen being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1711-16) recommending that S.B. No. 2987, SD 2, HD 1, as amended in HD 2, pass Third Reading.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2987, SD 2, HD 2 pass Third Reading, seconded by Representative Evans.

Representative Ohno rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations. Mr. Speaker, to my knowledge, every single school district in this country receives federal, state and county dollars to fund their operations, with the exception of one. I hope that the counties who ask the State for more and more money realize that in this state, they're uniquely given a pass to fund our education system. Thank you, Mr. Speaker."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Cachola rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations. As you all know, I used to serve in the City and County of Honolulu as a councilmember. I think this bill changed the formula and the distribution of the TAT. Is that what the bill calls for? And to a point, all the three counties got a raise, except for the City and County of Honolulu. I think City and County of Honolulu, they reduced it from 40% to 30%. That's a lot of money, surely, for the City and County of Honolulu. As you all know, the City and County of Honolulu really was caught off guard. This is not for the best interest of the City and County of Honolulu for the following reasons.

"As you all know, the cost of rail is going up, up and up. To a point that by reducing the amount of TAT going to them, it will be more or less a lot more shortage in the cost of rail in some other ways.

"Second, under Act 268 on the prefunding of OPEB, Other Post-Employment Benefits, if the city and county cannot pay their share of the prefunding, under the law it says it will be taken out of their portion of the TAT given to the counties. Ultimately, this will not be good for the taxpayers, because the city and county will end up raising taxes, property tax, and it will hit every homeowner in the City and County of Honolulu.

"Those are the things that I can see why we should at least change the formula and not overburden the City and County of Honolulu. I think Mayor Kirk Caldwell as well as the city council were caught off guard, I hate to say napping, because I haven't seen them at all to more or less say something of concern about this bill.

"The other thing is, they have the association called Hawaii State Association of Counties. When they come to the Legislature to ask for a measure or benefits, all of them should vote in support. The mayor of counties do the same thing. But this is one case where we haven't heard from this Hawaii State Association of Counties as to the formula change, whereby one county has a reduction from 40% to 30%.

"That's the reason why I'm speaking with reservations on this measure. Hopefully in conference committee I'll be there to give some light to this measure. Thank you."

Representative San Buenaventura rose to speak in support of the measure, stating:

"In support. Hawaii County already has a higher real property tax rate than that of Honolulu, so we do appreciate the increase in TAT and we do appreciate that the Chair of Finance has seen fit that we get a slightly higher share than we used to have. Thank you."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I stand in support because it reflects the great compromise that brought the convention center to life. I was actually around, believe it or not, back in the day as a staffer, when the convention center debate was roiling, actually divided the State Senate, caused reorg almost, actually it did cause a reorg. But anyway, during that time the neighbor islands were not supporting the convention center and the funding for it, because it was going to be, unless they knew that convention centers would eventually be built on all the neighbor islands, so they too could have the floor space to have these large groups come.

"Obviously at that time there was much consternation about that, so what was offered as a great compromise was we'll give you a portion of the TAT back so you can market your islands individually in exchange for supporting the convention center, which was chosen to the site where it is today.

"So I think this legislation simply reflects that fact. You have a convention center here in Oahu, we didn't have Comic Con come to Maui. Comic Con is not going to come to Hawaii. All that discretionary spending of all those young people will never see our islands unless we have a

convention center. So I think this just reflects what the deal was back in the day, and that's why I support it. Thank you."

Representative Fukumoto Chang rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Lowen rose to speak in support of the measure, stating:

"In strong support."

Representative Souki rose to speak in support of the measure with reservations, stating:

"Mr. Speaker and Members, I was one of the authors of what you have right now, the formula. I wish to speak for the bill with some slight reservations. I like many parts of the bill, especially the increase in revenue, but you need to understand, and I'm sure the Finance Committee does as they will begin to work out with the Senate Ways and Means, that you have to look back at the original formula, it was based on hotel rooms. And of course, Honolulu has most hotel rooms, Maui had the second best, the neighbor islands, Kauai and Hawaii didn't have nearly as much.

"And so in the end to provide some equity to the neighbor islands, especially Kauai and Hawaii, they reduced the formula from Honolulu, from 52% down to approximately 48%, and those dollars went to Kauai and Hawaii.

"So we've already made some adjustments then. And so all I ask is that the money committees, which I am sure they will, be looking at the formula again and try to find something that is as equitable as can be. Thank you very much."

Representative Har rose in support of the measure with reservations and asked that the remarks of Representative Souki be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Say rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition. The reason why I am opposed, I believe the Speaker is correct. This particular TAT was created in replacement of grants-in-aid to the respective counties.

"I'd also like to correct the Representative from Lahaina. The only reason why we have the convention center is because we have the hotel rooms, in providing the visitors to come to the conventions. It was never being against Maui, Kauai or the Big Island, and the Speaker is correct. When the Speaker was the Finance Chair, may I say this, Speaker Souki? You were very gracious in giving Maui a bigger share. Then Kauai and the Big Island got their share.

"But if you folks understand the tourist industry, Oahu was always the center point of the visitors arriving here. We had the spokes and wheel, meaning Aloha and Hawaiian took the visitors to the neighbor islands. Today we don't have that, it's direct flights. And that's why we have one demise of Aloha Airlines.

"I'm not here to pit Maui, Kauai and Hawaii against Oahu. But I would really love to know, if the Finance Committee and Ways and Means Committee, if they want to stick with the allocation, Members of the House, can you increase the TAT allocation for the counties? That way, that 40%, which is down to 30%, they may get that \$5 million that Oahu is losing to Kauai and the Big Island.

"But in the end, Members of the House, my opposition is this. We're all in the same canoe. No matter what we do, we're going to affect our voters and our constituency. If we lose this 10% for Oahu, how do you make it up? Property taxes? That's the only recourse that they have. That's the only recourse that they have for the counties. I've got friends here who want to raise the property tax because it is so low. But do our counterparts across the street have the will and the wherewithal?

"And the other concern I shared with some of our colleagues this morning was this. I asked the City and County of Honolulu, the different

departments, for a lot of support in the community. Department of Facility Maintenance, how many of you have homeless in your community? We had to call Department of Facility Maintenance for the Representative from Kaimuki, the Representative from Manoa, in cleaning up a homeless structure that was underneath our highway. We have it in McCully-Moiliili by the library, and we asked the city and county to do all of our work, to do all of our favors.

"That is why I don't believe at this point in time we should be delving into something like this, when Oahu will be losing a greater share of the TAT. That is the concern for the Oahu Members at this point in time. Yes, you have a defective date, but what is the policy of this House today? Take from Oahu, give to Kauai and Big Island. Hey, it's fine with me, but I've got to go and face my voters to tell them why I took out \$10 million in their allocation.

"I wasn't going to speak, but the Members of this House have to be corrected in some of the statements that are being made. Finance Chair was the Speaker, before that it was another Kaimuki Representative, Ken Kiyabu, who was the Finance Chair."

Representative Hashem rose to yield his time, and the Chair "so ordered."

Representative Say continued, stating:

"Thank you very much, Representative. So all I'm getting at is that let's not play a game with the people of the State of Hawaii, since we are all in the same canoe. And Oahu is the focal point and the entry for a lot of our visitors. I still recall, for the Representative from Lahaina, where we were all scared one morning, or one evening, when the Representative from Kalihi had a bulletproof vest, because of the threats that were happening to him. But as a friend and colleague in the House, hey, I have so much fun with all of you. I told the Representative from Kalihi, hey, if I was smart, I wouldn't shoot you in the body, I'd shoot you between the eyes.

"But getting back to this industry, which is the number one industry in the State of Hawaii, I am concerned about this particular legislation, and that is the reason why I am voting against it. So in closing, I am sorry for the Journal, I won't be writing anything for you today. But I was going to do that, rather than speak. But let me correct all of this that has been said on the floor."

Representative Cachola rose to respond, stating:

"Thank you, Mr. Speaker. I just want to enlighten some of the Members of the House, because I was the Chair of Tourism way back when we debated on the convention center, as to its rationale, why we had to do it, and how we can come up with a convention center at less expense. We came up with a free convention center, but it died. Well, I can say that in hindsight, that could have been the best thing that we have done.

"It's true what Speaker Emeritus said, that I was wearing a bulletproof vest when I was threatened. And it was something that nobody here should experience, because your life is at stake. Not only my life, but my family, they also got threatening letters. But did I back down? No. Because I know that coming up with ways to generate funds for the State will be for the best interest of all the residents. Not only for Oahu, but the State of Hawaii.

"One of the rationale of why we have a convention center is the conventioners will come here. Not only to attend the convention, but after the convention, like two or three days, they go to the neighbor islands and spend their vacation. That's the task of the Hawaii Tourism Authority, to promote not just Honolulu, but the entire State of Hawaii. So we can see a lot of conventioners going to different islands, and that's one way to help the other counties.

"So hopefully by explaining to the Members of the different counties that it's not only the City and County of Honolulu that is going to benefit in the construction of the convention center. Hopefully, if you have any questions, I will be free to respond. Thank you."

Representative LoPresti rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. Reservations. My reservations stem from the reallocation of money away from Oahu. The Legislature already takes 10% of the GET for HART from Oahu taxpayers and then that money goes in the general fund. The odds are, most of it gets spent back on Oahu, because this is where the seat of government is and most of the services and everything.

"But we take this money from Oahu taxpayers and it goes into a pot that's used by the whole state. And I don't think we should do that. And now we reduce the amount of the TAT tax that goes to the City and County of Honolulu, when it's obvious that the City and County of Honolulu have the highest infrastructure cost for supporting the largest industry of the State. And I just have serious reservations about that, and I hope in conference committee perhaps that reallocation can be looked at again. Thank you."

Representative Har rose to respond, stating:

"Thank you, Mr. Speaker. Still in support with reservations. I just want to correct one of the statements that was made by a previous speaker. The amount that Oahu stands to lose is \$28 million, not \$10 million. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. "With slight reservations. I'm in strong support of the bill. I would like to, however, point out that by putting the bail monies as part of the collection, it actually dis-incentivizes bounty hunters. And not only that, it also would put at risk family monies, because those are usually the people who put up their homes and their monies to bail out people. And it seems to me it's highly inappropriate to punish the family for the sins of the defendants. And as such, it is with slight reservations. Thank you."

ANNOUNCEMENTS

Representative Evans: "Thank you, Mr. Speaker. I find it interesting that today is the day we finished our third reading bills, but it's also Equal Pay Day. April 12th, today, thousands of men and women across the United States are going to join in a national day of action against unfair pay called Equal Pay Day. April is symbolic of the point in the new year that a woman must work in order to earn the wages paid to a man in the previous year.

"On the national level, women are paid only 79 cents for every dollar a man is paid, according to the US Census Bureau. At a time when America's economy is facing uncertainty, every penny counts. Economist Evelyn Murphy, president and founder of the WAGE Project, estimates that the wage gap costs the average American full-time woman worker between \$700,000 and \$2 million over the course of a lifetime.

"Fair pay strengthens the security of families today and eases future retirement costs while enhancing the American economy. I challenge all of us to encourage our business community and government to review their pay practices to ensure that women are not discriminated against by performing an equal pay self-audit.

"So with that, Members and people listening, I think it's good that we point it out to everyone and keep moving forward and making progress. Thank you, Mr. Speaker."

Representative Saiki: "Mr. Speaker, I'd like to congratulate all the Members for beating the Senate today. I'm sure in many years it's the first time. After we adjourn, lunch is set up. Thank you."

Representative Say's written remarks are as follows:

"Mr. Speaker, in strong support of SCR 146, SD 1, Requesting the Department of Education to Work with a School of Architecture to Develop a Proof of Concept for the Planning and Designing of a Gymnasium at Anuenue School.

"Knowing that the Department of Education supports this resolution, I am in strong support also. Anuenue School was officially an elementary school in the back of Palolo Valley. With the consolidation of Anuenue School with Palolo Elementary School, Anuenue has since expanded into a K-12 Hawaiian Immersion School. Due to its physical site limitations, space to expand facilities is a significant challenge. And this also makes for a unique learning opportunity for students at the School of Architecture at the University of Hawaii. Knowing that the DOE is happy to work with the School of Architecture to develop and provide the framework of the master plan of a gymnasium, I wholeheartedly endorse this resolution. Thank you for the Opportunity."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.C.R. Representative McDermott rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. Opposition, please. First of all, I don't condone any sort of violence directed at anyone, particularly Planned Parenthood clinics. I think that is just deplorable and I think that those folks who engage in that sort of behavior are terribly, terribly sick and should be put in jail, Mr. Speaker.

"But this goes beyond that, Mr. Speaker. Planned Parenthood is responsible now for writing most of the sex ed curricula across the country. I have proven on this House Floor that that material is grossly inaccurate. For example, the anus as a genital. In fact, it's so pervasive, if you google anus as a genital, you will find it come up under Google, because they've gotten it into all the schools. But that's medically inaccurate.

"Their approach to sex ed with young women and sexuality education and counseling actually encourages sexual activity. In fact, the Pono Choices program, which they wrote, tells 10-year-old children, 10 years old, that you're ready when you decide you're ready. And Planned Parenthood was the, quote unquote, 'medical expert' for that program.

"By encouraging early onset of sexual activity, and that is what they do, they're increasing the number of partners and the risk of HIV, HPV and chlamydia. They do nothing to say, delay your sexual activity. Quite the opposite, they encourage early sexual activity.

"We know they don't perform mammograms, although that was touted for years, they perform mammograms. They don't perform any mammograms. They do give referrals for other services, but the main thing they do is terminate pregnancies. And there is no limit. We are here today to celebrate an organization that believes you should be able to abort a child the fifth month, the sixth month, the seventh month, the eighth month, right up to the moment it comes out of the birth canal.

"There are no limits with Planned Parenthood. It's an organization, they talk about the videos in this resolution. Well, what the video showed, of course you're going to edit them because you can't show eight hours of video straight on a news broadcast. But these videos were reviewed by Coalfire, forensic analysts, and they found that they were not deceptively edited. Planned Parenthood hired its own forensic firm, Fusion GPS, which has ties to the Democratic Party, to look at the videos. They too found, quote, no widespread evidence of substantive video manipulation.

"So the selling of baby body parts, I'm sorry, fetal tissue for research. The laughing about when you ship a brain, you have to keep it in the severed head of the baby in order not to damage the brain so the researcher, when they get it, can work on this brain in the baby's head. And they were laughing, you have to warn the researcher because they'll open the box and they'll see a baby's head and they'll freak out. And that was quite a moment of jocularity for the Planned Parenthood employees.

"It is an organization that has its roots in racism. Margaret Sanger did not like African Americans. Last year in New York City more black babies were aborted than born. Congratulations, Margaret Sanger, you've accomplished your dream.

"Here are some quotes from Margaret Sanger, the founder of Planned Parenthood. The most merciful thing that a family does to one of its infant members is to kill it. Quote, birth control must lead ultimately to a cleaner race."

Representative Tupola rose to yield her time, and the Chair "so ordered."

Representative McDermott continued, stating:

"Quote, we should hire three or four colored ministers, preferably with social-service backgrounds, and with engaging personalities. The most successful educational approach to the Negro is through a religious appeal. We don't want word to go out that we want to exterminate the Negro population. Quote, eugenic sterilization is an urgent need. We must prevent the multiplication of bad stock. Quote, birth control itself, often denounced as a violation of natural law, is nothing more or less than the facilitation of the process of weeding out the unfit, of preventing the birth of defectives or of those who will become defectives.

"This is a racist. This is who founded Planned Parenthood. By the way, I'll point that Pono Choices was directed at children of color. Asians, Pacific Islanders. Just an aside.

"The imbalance between the birth-rate of the unfit and the fit is the greatest menace to civilization, and the most urgent problem today is how do we discourage the over-fertility of the mentally and physically defective. She's got a big heart. Quote, our failure to segregate morons who are increasing and multiplying, a dead weight of human waste, an ever increasing, unceasingly spawning class of human beings who never should have been born at all.

"Quote, the undeniably feeble-minded should, indeed, not only be discouraged but prevented from propagating their kind. Quote, the procreation of the diseased and feeble-minded should be stopped. Quote, the marriage-bed is the most degenerating influence of the social order. Mandatory sterilization for the insane and feeble-minded is the answer. Nice lady. Real sweetheart.

"So how does Planned Parenthood violate the law? These are just as of January 2016 this past year, Ohio records show multiple Planned Parenthood facilities appear to be illegally dumping aborted fetuses in landfills. The Ohio Planned Parenthood were also steam-cooking the aborted baby bodies before dumping them. This is a great organization, I'm so glad we're really celebrating today."

Representative Evans rose to a point of order, stating:

"Mr. Speaker, a point of order. We're talking about another state instead of this resolution is about the Hawaii Planned Parenthood."

At 12:00 o'clock p.m., Representative McDermott requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:01 o'clock p.m.

At this time, the Chair stated:

"Members, before we continue, I just wanted to read off, and we're not going to take away your time as I read this off. Quickly, Rule 27.7 provides, 'it is not the person but the measure that is the subject of debate, and it is not allowable to arraign the motives of a Member, but the nature or consequences of a measure may be condemned in strong terms.'

"At this point, the current speaker has not attacked any Member in this body, and the floor speech is focused on the merits of the bill, so the current speaker will be allowed to continue. Representative McDermott."

Representative McDermott continued, stating:

"Thank you, Mr. Speaker. And by the way, I love most of the people in this chamber, I really do. I have affection for many of them. And I know many of them care about me, they just don't like my politics. And I understand that, that's okay. We're here in the marketplace of ideas to discuss this measure. I didn't go looking for it, it was brought to the floor, it talks about the videos and it talks about Planned Parenthood both locally and nationally as well. So I am just trying to point out that this organization has a record.

"First of all, I'd like to ask, comments to the Journal, please, to make it a little briefer. I hate to cheat the Members out of the opportunity to hear, but I will make it a little briefer.

"But across the country, they have violated laws. And they treat the child with such disrespect. Six months, you've seen the videos. There are things that their own people said they weren't widely doctored. There are things that just boggle the mind of a human being. We care more about stray dogs in this facility, this building, than we do about aborted babies. And I can understand intellectually how someone at two weeks or four weeks is, if they're fuzzy about whether that's a person. But when you get to four months and five months and six months, then it's beyond question.

"But we celebrate the killing of children. We celebrate it. That's what this is. This is a totally immoral measure in my view, as we're celebrating, affirming a tragic event. Abortion is never happy. It's never fun. I have yet to talk to a woman who said, I had an abortion, it was a blast. It's a tragic, tragic event and I feel for the women, but I also feel for the children. It's tragic. And here we are celebrating it, affirming it, saying it's the greatest thing since sliced bread."

Representative Pouha rose to yield his time, and the Chair "so ordered."

Representative McDermott continued, stating:

"Here we are affirming it, saying it's the greatest thing since sliced bread. And boy, if you don't agree with this, there's something wrong with you. I remember when Bill Clinton said that abortion should be safe, legal and rare. And he won the presidency. But where is the rare component now? It's abortion on demand, any time, any place. We have Kapiolani women and children's hospital. If a woman goes in there with a preemie at five months, the doctors are in the operating, sleeves rolled up, doing everything they can to try and save that child, to try and keep it alive. In the incubator, hooking it up, neonatal, fetology, all this advanced medicine comes to bear to save the life of that child. And they are successful 20 weeks and beyond. The next operator over there is a girl who is five and a half months, two weeks further along, and she's having an abortion. That's a child.

"Mr. Speaker, we thank Planned Parenthood, we should thank them because a 13-year-old can get an abortion in this town without talking to her mother or father. Thank you, Planned Parenthood. In Pono Choices, the anus is a genital. Thank you, Planned Parenthood.

"They do nothing to discourage young sexual activity, in fact quite the opposite, they promote sexual behavior. They do nothing to say, wait, wait, wait, you'll be better off if you wait. We know you won't wait until marriage, but that's the gold standard, but try and wait. You don't tell them at 10 years old to begin. But that's what Planned Parenthood does.

"And if anybody wants documentation, go to my website, ohanapolicygroup.com. All my reports are there, fully footnoted and documented. And who do you think wanted sex ed in kindergarten? Kindergarten. You don't go in Ewa Beach and tell the local people, we think your kids need sex ed in kindergarten. Two words come to my mind, dirty lickings. That is what Planned Parenthood does, that's what they push. No boundaries, no rules, no restriction.

"Mr. Speaker, this is a terrible, terrible organization. They do things behind your parent's back. Come get birth control without talking to mom and dad. I could read what they did in Florida, Pennsylvania, South Carolina, Missouri, Colorado, Kentucky, you've seen it. Girls go in and they were raped. They were raped. A victim of violence. Planned Parenthood doesn't report it. What if they were a victim of incest? Planned Parenthood doesn't report it. The girl goes back home and is victimized again and again and again. So this thought that we're trying to help them by making them more sexually active and not reporting anything, it's just horrible, horrible, horrible.

"And so, I am going to insert more comments in the Journal, Mr. Speaker, but I've spoken plenty enough. Thank you for your kindness and thank the Floor Leader over there for her kindness as well. Thank you."

Representative McDermott's written remarks are as follows:

"Mr. Speaker, I rise to oppose any resolution that supports and affirms Planned Parenthood. It has long been troubling to many Americans that the nation's largest abortion network, performing over a third of all abortions, receives over half a billion taxpayer dollars a year. This concern has rightly grown in recent years for Americans overwhelmingly oppose public funding of abortion.

The most recent revelations about Planned Parenthood's willingness to traffic in fetal tissue from abortions to alter methods not for any reason related to women's health but to obtain more "intact" organs is the latest demonstration of callousness toward women and their unborn children that is shocking to many Americans.¹

"According to a Reuters Poll, federal funding for Planned Parenthood dropped 20 points from 54% to 34% after respondents learned more about Planned Parenthood's abortion policies and procedures. Planned Parenthood performs over 330,000 abortions each year with its \$1.2 billion-dollar budget.

¹ Mollie Hemingway, "Fact Check: The Largest Women's Health Care Provider in America is NOT Planned Parenthood," <http://thefederalist.com/2015/08/03/fact-check-the-largest-womens-health-care-provider-in-america-is-not-planned-parenthood/> (Accessed April 19, 2016)

"Planned Parenthood describes itself as the 'most trusted provider of reproductive health care.'² This is only true if you define 'health care services' as abortion.³ The fact is, 'women's health needs – including heart disease (the number one killer of women), cancer, diabetes, and other non-sexual health concerns – are a larger concern for the majority of US women.'⁴

"When it comes to women's health, community health centers and rural health clinics do a far better job in caring for women than does Planned Parenthood.

"Consider the following statistics:⁵

Facilities in the US

- Planned Parenthood – fewer than 700 facilities (31 states have fewer than 10 clinics)
- Community Health Centers – more than 9,000 (located in 98% of Congressional Districts)

Number of patients served (men and women)

- Planned Parenthood – 2.7 million patients
- Community Health Centers – 21 million patients

Pap Tests

- Planned Parenthood – 378,692
- Community Health Centers – 1,787,256 tests

Mammograms

- Planned Parenthood – ZERO
- Community Health Centers – 424,376

Abortion

- Planned Parenthood – 327, 653
- Community Health Centers – ZERO

"Planned Parenthood claims that its 'health centers provide a wide range of safe, reliable health care' and that 'caring physicians, nurse practitioners, and other staff take time to talk with clients.'⁶ It also claims that it helps to reduce the number and spread of sexually transmitted infections (STIs) through testing and treatment.

"Very few of its clinics actually provide primary care, and unless a woman is getting an abortion, most never see a physician. 'Typically, she would see a nurse. In most states, prescriptions for medication are written in the name of the local Planned Parenthood's medical director – who the woman never sees.'⁷

"Planned Parenthood says that its services prevent unintended pregnancies through contraception.⁸ It does not tell women what that means.

Most women rightly believe that pregnancy begins when the sperm penetrates the egg and a new human being is created. Planned Parenthood, however, uses an obscure 1965 medical definition that defines pregnancy as beginning at implantation in the womb.⁹

"This means that most of the products that Planned Parenthood sells as contraceptives work, at least some of the time, by killing a new human being rather than preventing creation. The birth control pills that Planned Parenthood pushes on women have been identified by the World Health Organization as a Group 1 carcinogen.¹⁰ Does Planned Parenthood realize that cancer is the second highest cause of death in American women? If so, does this sound as if they really care about women's health?

"Planned Parenthood does not like to talk about the fact that it is the number one provider of abortions in America. 'Complications from abortion include future risk of premature birth, low birthrate; higher risk of

maternal death, increasing with each abortion; links to mental illness, and sterility.'¹¹ Do Hawaii's legislators still think that Planned Parenthood is the healthy choice for women in our state?

"Planned Parenthood likes to brag that they help 'reduce the spread of sexually transmitted infections (STIs).'¹² 'Yet, scientists have known that the birth control pill (and similar products) actually increases the spread of STIs through lowering the woman's immune system.'¹³ If Planned Parenthood were really serious about lowering the spread of STIs, it would be getting women off the pill and teaching abstinence-based sex education to teens as opposed to working behind the scenes with legislators and/or school boards to get rid of it in state after state and replacing it with their pornographic sex ed programs.

"Planned Parenthood's president, Cecile Richards, misled the public when she testified at a Congressional hearing in September 2015 saying that if her organization were defunded, it would mean that millions of women would not have access to mammograms. In 2012, Planned Parenthood issued a press release that read, 'Planned Parenthood helps women nationwide get access to mammograms, as part of the range of health care Planned Parenthood health centers provide to nearly three million people a year.'¹⁴ On September 15, 2015, Ms. Richards indicated that Planned Parenthood does not provide mammograms. They have no mammogram machines at any of their abortion clinics or other locations and refer out for mammograms.¹⁵

"Planned Parenthood claims to screen for cervical cancer. The major risk factor for cervical cancer is the human papilloma virus (HPV). Young girls who start having sex at a very young age and with many partners are much more likely to get and stay infected with HPV.¹⁶ 'Since Planned Parenthood encourages young people to explore their sexuality, this is the cause of the problem, not the solution.'¹⁷

"Planned Parenthood is not a health organization. It is in the sex business and it makes its money off of luring young people into sexual lifestyles that are not healthy. It profits off the misery of others and destroys lives.

"Planned Parenthood covers up statutory rape. According to Alliance Defending Freedom (ADF), they 'frequently and flagrantly disregard mandatory sex abuse reporting laws' and 'with the evidence of their crimes covered up and destroyed, predators are free to continue abusing their child victims.'¹⁸

"Here is a summary of the cases ADF found and compiled in their 2015 report:¹⁹

"Arizona

"A 23-year-old man who impregnated his 12-year-old foster sister took her to a Planned Parenthood clinic for an abortion days before her 13th birthday, and returned with her for a second abortion six months later. The clinic did not notify authorities of the case until five days after the second abortion, and the girl won a settlement from a subsequent lawsuit against the clinic.

"In a second still pending case, a 15-year-old girl's mother took her to a Planned Parenthood for an abortion, and says she notified the clinic her daughter had been sexually assaulted. The mother later told investigators the clinic employee told them it wasn't worth the 'hassle' to report the assault and recorded it as consensual. The man who allegedly carried out the assault was later charged with sexual assault against a number of other minors.

"A girl impregnated by her father, who had been abusing her for four years, went to a Planned Parenthood clinic for an abortion when she was 16, and told an employee she had been raped. The clinic did not report her case to police, and she was abused for another one and a half years. Her father was later prosecuted and incarcerated, and the clinic settled a civil lawsuit on behalf of the girl.

"California

"Before 61-year-old Andrew King was convicted of sexually abusing scores of young girls over decades while working as a swim coach, one of his 14-year-old victims went to Planned Parenthood for an abortion. The clinic did not alert the authorities and only learned of King's pattern of sexual assault after a different victim brought charges.

"A man convicted for raping his 13-year-old stepdaughter brought her to a Planned Parenthood clinic for an abortion in order to conceal his crime when she started putting on weight. The clinic did not report the case to authorities, but referred the girl for a late-term abortion that required a surgical procedure.

"A man prosecuted for sexually abusing his daughters impregnated his 13-year-old daughter, who went to a Planned Parenthood clinic in 2010 for an abortion. About six months later the girl returned to the clinic for a second abortion, and the doctor implanted an intrauterine device to stop her from getting pregnant. The clinic did not report either case, and authorities arrested the man only after the girl's older sister went to the police.

"Connecticut

"A 41-year-old man who kept a 14-year-old girl locked in a small room in his home, where he regularly raped her, brought her to a Planned Parenthood clinic for an abortion under a fake name. The clinic did not report suspected statutory rape, and the girl was held captive for a year until police found her while investigating the man. He was later convicted and incarcerated.

"A 21-year-old man convicted of sexually abusing a 14-year-old girl, who was his girlfriend at the time, became pregnant three times in six months. She got abortions at a Planned Parenthood clinic each of those times, but the clinic allegedly did not report the first statutory rape and abortion to authorities.

"Colorado

"A man who had been abusing his stepdaughter for seven years took her to a Planned Parenthood clinic for an abortion when she was 13. Although the man who brought her to the clinic did not share the girl's last name, and wanted her to get a form of birth control she wasn't comfortable with, Planned Parenthood did not notify the child's parents or report the case to police. The man was later prosecuted and incarcerated, and Planned Parenthood settled a civil suit from the child.

"Minnesota

"A 42-year-old father was prosecuted for sexually assaulting his son's 14-year-old girlfriend — having her sleep over when the son wasn't home and grooming her by driving her to and from school and buying her things, such as Victoria's Secret underwear. He also took her to Planned Parenthood to get birth control, but the clinic allegedly did not report the case to authorities.

"As all 50 states have mandatory reporting laws regarding suspected sexual abuse that typically includes statutory rape, Planned Parenthood was sued directly for failing to report such abuse.²⁰ This begs the question — How many young girls have been taken to Planned Parenthood centers as a result of abuse? And instead of getting the help they needed, how many of them had their lives destroyed because proof of abuse was covered up?

"One of the most powerful and recent investigations into Planned Parenthood's willingness to cover things up was the undercover investigations regarding sex trafficking of young girls.

*Planned Parenthood was caught coaching a man and woman, posing as a pimp and a prostitute, to obtain abortions, STD testing and birth control for their underage female sex slaves. Staffers instructed the "sex traffickers" to tell the girls to lie about their ages and the ages of their "boyfriends." They even coached the undercover operatives on how to receive discounts on birth control and abortions, and advised which facilities had less stringent standards. Once again, Planned Parenthood was caught on tape covering up abuse—showing they were more than willing to break state and federal laws in order to continue profiting from abortion, even if it meant driving young women back into the arms of their abusers.*²¹

"Does this sound like an organization that really cares about women?

"Planned Parenthood Targets Minority Women

"And let us look at minority women. Planned Parenthood facilities across the nation engage in racial targeting for abortions.

"Planned Parenthood's founder, Margaret Sanger, was a woman who had a clear and forceful hatred towards minorities, and her views continue to infiltrate the organization to this day.²²

- African-Americans have a disproportionate number of abortions according to their population in the United States.²³
- African-American women are 4.8 times as likely as non-Hispanic white women to have an abortion and the African-American population is the only population in the country that is in decline.²⁴

"Racist Roots of Planned Parenthood²⁵

"Margaret Sanger was obsessed with eugenics and racism. She was present at the first World Population Conference in Geneva in 1926. That same year, she was present at a Klu Klux Klan rally in Silver Lake, New Jersey and recounted this event in her autobiography, 'I accepted an invitation to talk to the women's branch of the Ku Klux Klan ... I saw through the door dim figures parading with banners and illuminated crosses ... I was escorted to the platform, was introduced, and began to speak ... In the end, through simple illustrations I believed I had accomplished my purpose. A dozen invitations to speak to similar groups were proffered' (Margaret Sanger, 'An Autobiography,' Page 366).

"In a letter to Clarence Gable in 1939, Sanger wrote: 'We do not want word to go out that we want to exterminate the Negro population, and the minister is the man who can straighten out that idea if it ever occurs to any of their more rebellious members' (Margaret Sanger commenting on the 'Negro Project' in a letter to Gamble, Dec. 10, 1939). The objective of this 'project' was to infiltrate the black community by presenting birth control as a health option for women.

"Her own words and television appearances leave no room for parsing. For example, she wrote many articles about eugenics in the journal she founded in 1917, the Birth Control Review. Her articles included 'Some Moral Aspects of Eugenics' (June 1920), 'The Eugenic Conscience' (February 1921), 'The Purpose of Eugenics' (December 1924), 'Birth Control and Positive Eugenics' (July 1925) and 'Birth Control: The True Eugenics' (August 1928), to name a few.

"Margaret Sanger's Telling Racist Quotes:

- "While I personally believe in the sterilization of the feeble-minded, the insane and syphilitic, I have not been able to discover that these measures are more than superficial deterrents when applied to the constantly growing stream of the unfit. They are excellent means of meeting a certain phase of the situation, but I believe in regard to

these, as in regard to other eugenic means, that they do not go to the bottom of the matter." ("Birth Control and Racial Betterment," Feb. 1919, The Birth Control Review).

- "Eugenics without birth control seems to us a house builded upon the sands. It is at the mercy of the rising stream of the unfit" ("Birth Control and Racial Betterment," Feb. 1919, The Birth Control Review).
- "Stop our national habit of human waste." ("Woman and the New Race," 1920, Chapter 6).
- "By all means, there should be no children when either mother or father suffers from such diseases as tuberculosis, gonorrhea, syphilis, cancer, epilepsy, insanity, drunkenness and mental disorders. In the case of the mother, heart disease, kidney trouble and pelvic deformities are also a serious bar to childbearing. No more children should be born when the parents, though healthy themselves, find that their children are physically or mentally defective." ("Woman and the New Race," 1920, Chapter 7).
- "The main objects of the Population Congress would be to apply a stern and rigid policy of sterilization and segregation to that grade of population whose progeny is tainted, or whose inheritance is such that objectionable traits may be transmitted to offspring[;] to give certain dysgenic groups in our population their choice of segregation or sterilization." ("A Plan for Peace," 1932).
- In a 1957 interview with Mike Wallace, Sanger revealed: "I think the greatest sin in the world is bringing children into the world — that have disease from their parents, that have no chance in the world to be a human being practically. Delinquents, prisoners, all sorts of things just marked when they're born. That to me is the greatest sin — that people can — can commit."

"This line of thinking from its founder has left lasting marks on the legacy of Planned Parenthood. For example, 79% of Planned Parenthood's surgical abortion facilities are located within walking distance of black or Hispanic communities.²⁶

"Sanger's hatred of African American (i.e., she saw them as 'unfit') continues to influence the culture and the rise in the number of minority abortions. Contrary to the public's belief that Planned Parenthood is helpful and supportive of family planning and the health of the mother and child, recent news and research show that the roots of its foundation have continued to show disdain for minorities that its founder saw as 'unfit.'²⁷

"The Centers for Disease Control and Prevention's Abortion Surveillance report revealed that between 2007 and 2010, nearly 36% of all abortions in the United States were performed on black children, even though black Americans make up only 13% of our population.²⁸ A further 21% of abortions were performed on Hispanics, and 7% more on other minority groups, for a total of 64% of U.S. abortions tragically performed on minority groups. Margaret Sanger would have been proud of the effects of her legacy.²⁹

"Planned Parenthood's Continued Targeting of Minorities"³⁰

"Lila Rose, 19-year-old sophomore at UCLA and editor of The Advocate, exposed the truth about Planned Parenthood through legally recorded calls to facilities in seven states. Clinics in Ohio, Oklahoma, Idaho and New Mexico have all been captured on tape willfully accepting donations from a donor that designated the money be spent to abort a black child. These videos which are the audios of the calls, <http://www.youtube.com/watch?v=pgf5m1QoCOU> and <http://www.youtube.com/watch?v=4iQhCv00dZY>, attest to the fact that Planned Parenthood has no problem taking money earmarked for a specific race. The below transcripts of the New Mexico and Ohio calls been

provided by The Advocate.³¹

• New Mexico:

Donor: Um, can I make the donation specifically for a minority group?

Planned Parenthood: Like a specific group, or color...or a group of...

Donor: Yeah, yeah, I mean like, I want the abortion to be to be for an African American baby?

Planned Parenthood: Okay.

Donor: ...and I was wondering if that could be possible?

Planned Parenthood: The exact amount we charge right now is \$450 for an abortion

Donor: Okay, \$450

Planned Parenthood: Mhm, and, um, we can definitely designate it for an African American.

Donor: Wonderful, Um

Planned Parenthood: Yeah

• Ohio:

Donor: When I underwrite abortions, does that apply to minorities too?

Planned Parenthood: If you specifically wanted to underwrite an abortion for a minority person, you can target it that way. You can specify that is how you wanted it spent.

Donor: Ok, yeah, because there's definitely way too many Black people in Ohio, so I'm just trying to do my part.

Planned Parenthood: Ok, whatever.

Donor: Well Blacks especially need abortions too, so that's what I'm trying to do.

Planned Parenthood: Well, for whatever reason, we'll accept the money.

Donor: Ok great, thank you.

"Reverend Clenard H. Childress Jr., head of the LEARN (Life Education and Resource Network) project stated 'every 3rd abortion in America is on Black women. It is the most common surgical procedure performed on Afro-American women.'³²

"Black Pastors Demand Smithsonian Remove Statue of Planned Parenthood's Margaret Sanger"

"In August, 2015, a group of African American pastors wrote the taxpayer funded Smithsonian and asked them to remove a statue of Margaret Sanger because as they explained, she was far from a champion for their race because of her ties to eugenics. Today, Planned Parenthood continues Sanger's work by placing 79% of their abortion facilities near minority neighborhoods. Tragically, since 1973, approximately 13 million black babies have been killed in abortions.³³ The truth is, what the Klu Klux Klan could only dream about, the abortion industry is doing right now and funded with taxpayer money.³⁴

"Planned Parenthood's Deception and Death"³⁵

"While Planned Parenthood boasts that abortion procedures at their facilities are safe, evidence exists to indicate that is far from the truth.

"There is no way to know how many complications from abortion actually occur at Planned Parenthood clinics because there are few mandatory reporting requirements for abortion providers, who are known to often skirt the laws or under-report.

"What is known about Planned Parenthood abortion abuses are just the tip of a very large iceberg. The truth about illegal and dangerous operations has been discovered through research and eyewitness accounts and gleaned through court and newspaper accounts.

"Planned Parenthood Under Investigation for Fraud"³⁶

"Planned Parenthood receives hundreds of millions of our tax dollars in funding, but they're alleged to have filed more than 500,000 false, fraudulent, or ineligible Medicaid claims - charges that carry fines of more than \$5.5 billion. Planned Parenthood receives over \$500 million from taxpayers and paid out \$4.3 million to settle a case alleging fraud. Michael J. Norton, Alliance Defending Freedom Senior Counsel and former U.S. attorney has stated, 'Americans deserve to know, especially in economic times like these, if their hard-earned tax money is being funneled to groups that are misusing it; compliance with the law should not be sacrificed for the sake of Planned Parenthood's bottom line. They have taken advantage of the American taxpayer for too long.'³⁷

"Planned Parenthood Indoctrinates Children and Promotes its Extreme Sexual Views on Youth

The Planned Parenthood Federation of America (PPFA) has, since 1970, pushed for sex education in public schools. In 1986, its president, Faye Wattleton, stated that PPFA had established a goal of getting kindergarten through twelfth grade sex education mandated in every school district in the nation. Planned Parenthood sees sex education as a way of indoctrinating our children with PP's philosophies-philosophies that include the acceptance of abortion and deviant sexual practices, philosophies that are in direct opposition to the teachings of most churches in this country.³⁸

"According to their own website, 'Planned Parenthood is the largest provider of comprehensive sex education in our communities. Each year, Planned Parenthood affiliates reach 1.5 million young people and parents with effective sex education and outreach in programs run by professional educators and youth peer educators.' [Emphasis theirs.]

"Its website also states that they provide 'young people with positive messages about sex and sexuality as natural, normal parts of life.' This means that there is no such thing as right or wrong when it comes to childhood sexuality. Planned Parenthood is teaching a truly radical philosophy of sexuality to our children.

"As quoted from the EXCLAIM! Young People's Guide to Sexual Rights, Planned Parenthood states: 'young people are sexual beings. They have sexual needs, desires, fantasies and dreams. It is important for all young people around the world to be able to explore, experience and express their sexualities in healthy, positive, pleasurable and safe ways.

This can only happen when young people's sexual rights are guaranteed.' [Emphasis mine.]

"And further: 'Sexual rights are human rights related to people's sexuality. Like everyone else, all young people are entitled to them and they are necessary for the development and well-being of all people and societies in which they live. However, discrimination, stigma, violence, fear, ignorance and some cultural and traditional beliefs threaten people's sexual rights.'

"Should our schools instruct even the very young they have a 'right' to have sexual pleasure, including the how-to's of vaginal, oral, and anal sex, and 'genital rubbing'? Should same-sex and opposite sex partners be casually promoted as equivalent options for kids?

"Planned Parenthood is actually indoctrinating kids into engaging in terribly destructive sexual activity—by describing it, exploring it, and removing all boundaries or moral guides. Planned Parenthood is additionally teaching our kids that their parents have nothing to say about their children's sexual activities.

"You may recall, Mr. Speaker, that after parents contacted me about the now infamous *Pono Choices*—the program that teaches middle school students about same-sex relationships and oral and anal sex—that I attempted to get copies of the entire curriculum from the state Department of Education (DOE), but incredibly, my request was denied. I then approached the University of Hawaii, which received, in partnership with Planned Parenthood, almost a million dollars in a teen pregnancy prevention grant to develop and implement the program. Once again I, as a State Representative for the voters in my district, was turned down. At the time, the DOE spokeswoman told reporters that 'the curriculum is sensitive in nature and can be misinterpreted.'

"Sensitive, indeed! To again quote from PP's EXCLAIM! Proclamation, parents are violating young people's sexual rights by interfering with their children's choices.

"As Planned Parenthood's noxious sex education continued to rocket across the country at unprecedented rates—propelled by millions of dollars in Obamacare PREP grants—those who bore the greatest responsibility for the oversight of children's education were being denied the opportunity to know what their children will be taught in these taxpayer-funded programs.

"And do not presume to think that the voters in my district have forgotten how Planned Parenthood tried to influence the State's Legislature to mandate comprehensive sexuality (CSE) education for the children in the State of Hawaii and when they failed to obtain their objective legislatively, they worked behind the scenes to push the State Board of Education (BOE) to make a policy change. Abstinence-based sex education was removed despite the overwhelming opposition of a good number of caring and involved parents. So, no, I do not think the State should be considering any resolution that would in effect 'affirm' Planned Parenthood.

"And how many of my fellow legislators are aware that in 2012, Hawaii Free Press printed *Undercover Video Catches Hawaii Planned Parenthood Offering Sex Selective Abortions*.³⁹ These undercover videos showed two of Hawaii's Planned Parenthood clinics (Honolulu and Maui) advising undercover investigators on how to procure a sex selective abortion of a baby girl because she wanted a boy instead. Video also showed a Planned Parenthood Maui Clinic worker counseling Live Action's undercover journalist to wait for a late term abortion to double-check that the baby is actually a girl before killing her.⁴⁰

increased scrutiny, it is simply not true that the videos were deceptively edited.

"There have been two different independent expert investigations into the videos and both concluded that the videos were substantially accurate. Coalfire, an internationally recognized digital forensic firm that works for Fortune 500 companies, looked at the videos.⁴¹ Their own forensic analysis showed that the videos were not deceptively edited. Planned Parenthood hired its own independent analysts, who also verified that 'there was no widespread evidence of substantive video manipulation.'⁴²

"Planned Parenthood is on the ropes and reeling from months of being exposed for the sickeningly evil practice of selling aborted baby body parts. They have, however, made a number of stunning admission about its abortion and baby harvesting practices according to American Center for Law and Justice:⁴³

First, Planned Parenthood admits that "abortion" is a "core" service, meaning it is one that "every affiliate is required to provide."

Second, as a result of the investigative journalists exposing Planned Parenthood's baby harvesting practice, the abortion giant admits that at least 4 of its 59 national affiliates have suddenly stopped all baby harvesting. One can only wonder why.

Third, according to Planned Parenthood, it just lost at least 33% of baby harvesting business because it just lost a key buyer when StemExpress recently cut ties with Planned Parenthood.

Fourth, while Planned Parenthood attempts to downplay its involvement in baby organ harvesting and employs numerous accounting gimmicks in its letter, the evidence Planned Parenthood admits to is that nearly 20% of its affiliates, which could amount to over 100 affiliates, have been involved selling murdered babies for parts over the last five years alone.

Fifth, Planned Parenthood claims it has advised all clinics of the federal law banning the sale of aborted babies and the expansive loophole in the law that allows for extensive "reimbursement." However, this supposed policy was issued in "May 2015," just three months ago, near the end the Center for Medical Progress's undercover investigation – and one can presume likely after Planned Parenthood got wind it was about to be exposed.

Sixth, Planned Parenthood also admits that it receives "\$60 per tissue specimen." \$60 for every dead baby part sold can add up quickly.

Seventh, Planned Parenthood makes this shocking assertion about federal law: "The federal rules relating to consent and timing and method of abortion when the donated tissue is used for federally funded fetal transplantation research are therefore not applicable to any recent fetal tissue donations in the United States."

What this means is that Planned Parenthood is boldly asserting that federal law requiring the informed consent of the woman and requiring no alteration in the timing and method (how the abortion is performed) is "not applicable" to Planned Parenthood.

As absurd as this sounds, Planned Parenthood may have just found another massive loophole in the law to exploit the bodies of the babies it has killed for financial gain at the expense of the health and safety of the women in the hands of its supposed "care."

We know from the videos that Planned Parenthood abortionists change the procedures; they will "crush" here and "crush" there and alter the presentation of the abortion to ensure they get intact (read: more financially valuable) babies.

Eighth, and worse yet, Planned Parenthood goes on in their letter to Congress to state that they "voluntarily" required both informed consent and disallowed any alteration. We've seen the consent form and we've heard the abortionists discussing issuing them in the

videos. What this means is Planned Parenthood is violating its own informed consent forms – which is called medical malpractice.

We also know that after women refuse to give consent, Planned Parenthood may still sell the baby parts.

Ninth, Planned Parenthood claims that only "1%" of its businesses sell murdered baby parts (note that 1% of Planned Parenthood's reported \$1.145 billion dollars in annual affiliate revenue would be \$11.45 million dollars). Sound familiar to its now discredited (even by the mainstream media) 3% lie about abortion "services"?

"The Center of Medical Progress' recent expose' of Planned Parenthood's dissecting and selling live baby body parts after intact birth expulsion from the womb has indeed caused a national scandal. There is shocking video footage available which shows top Planned Parenthood executives discussing the sale of baby body parts, saying that it is a 'valid exchange' and that clinics can make a 'fair amount of income' doing it.⁴⁴ While Planned Parenthood likes to claim that these horrific videos have all been 'edited,' the truth is that all of them have been released in unedited form.⁴⁵ There is no getting around the things that have actually been said by multiple Planned Parenthood executives. Nobody was putting words in their mouths.

"Here is a guide to a summary of some of these videos:

"A Quick And Easy Guide To The Planned Parenthood Videos"⁴⁶

<http://thefederalist.com/2015/09/29/a-quick-and-easy-guide-to-the-planned-parenthood-videos/>

"Here's what they show:

1)Planned Parenthood Uses Partial-Birth Abortions to Sell Baby Parts

This 9-minute-video with more than 3 million views on YouTube features Dr. Deborah Nucatola, Planned Parenthood's senior director for medical services, munching on a salad and sipping wine while she admits to altering abortion procedures in such a way that baby body parts can later be sold to human organ buyers. Laws prohibit altering abortion procedures for organ procurement.

"We've been very good at getting heart, lung, liver, because we know that, so I'm not gonna crush that part," Nucatola tells actors posing as organ traffickers. "I'm gonna basically crush below, I'm gonna crush above, and I'm gonna see if I can get it all intact."

2)Second Planned Parenthood Senior Executive Haggles Over Baby Parts Prices, Changes Abortion Methods

This video features Dr. Mary Gatter, who at the time the video was filmed was serving as the president of the Planned Parenthood Medical Directors Council. In this video, she haggles over the payment for human body parts from aborted fetuses. While negotiating a price, she says she doesn't want to be the first person to name a price, because "the person who throws out the figure first is at a loss."

3)Human Capital – Episode 1: Planned Parenthood's Black Market in Baby Parts

This video features Holly O'Donnell, a former StemExpress technician who harvested the parts from the aborted babies at a Planned Parenthood clinic. This is the first video to really explore how the organs are procured.

4)Planned Parenthood VP Says Fetuses May Come Out Intact, Agrees Payments Specific to the Specimen

This video features Planned Parenthood Rocky Mountains VP & Medical Director Savita Ginde discussing the practice of procuring baby parts as well as how to avoid media scrutiny of their organ harvesting.

Toward the end of the video, the cameras get inside the abortion

clinic's pathological laboratory. Medical assistants are heard and seen cracking skulls, and extracting brains. "Here's some organs for you," a Planned Parenthood employee said. "Here's a stomach, kidney, heart." A medical assistant exclaims: "And another boy!"

5) Intact Fetuses "Just a Matter of Line Items" for Planned Parenthood TX Mega-Center

This video features Planned Parenthood Gulf Coast Research Director Melissa Farrell trying to negotiate a business agreement with investigators posing as organ buyers. She also tells them that some abortionists harvest body parts for their own research. They discuss how they could defend increased payments for more valuable organs even though the law only permits payment for costs. "It's all just a matter of line items," she says.

This video also features employees of a Gulf Coast clinic pulling a 20-week-old twin baby out of the freezer, and graphically sifting through second trimester body parts. An employee holds up a liver and lungs as the technician gushes over how intact the organs are. A large severed limb is also pulled out of the dish where the other mangled remains lay. It is in this section of the video that we hear about the Planned Parenthood Federation's encouragement of fetal organ harvesting.

6) Human Capital – Episode 2: Inside the Planned Parenthood Supply Site

This video once again features former StemExpress procurement technician Holly O'Donnell. O'Donnell worked in Planned Parenthood clinics in California. In this video she explains how the procurement works and the cooperation between Planned Parenthood and Stem Express. Planned Parenthood provides the organ buyers with a list of what operations are being performed. Women are supposed to give consent for donating the body parts of their children. But, O'Donnell says, their organs were regularly harvested without the informed consent of the mothers.

7) Human Capital – Episode 3: Planned Parenthood's Custom Abortions for Superior Product

This is the video that the media claim doesn't exist. It's absolutely horrifying. It combines clips from previous videos we've already seen, such as some of the statements of Planned Parenthood officials, with the claims of others in the baby organ procurement business. But the centerpiece is the first-person testimony of O'Donnell explaining how a late-term baby boy was aborted, how she didn't know if he was technically alive or not since the heart was beating. She says she harvested his brain by cutting his head open beginning at the chin. She describes how afterwards she had difficulty shoving him into a container because he was so big. She says it was the hardest experience she ever had. O'Donnell describes harvesting the boy's body parts with her colleague:

"... its nose was very pronounced, it had eyelids, and its mouth was pronounced. And then since the fetus was still intact, she said, 'okay, well, this is a really good fetus, and it looks like we can procure a lot from it. We're going to procure brains.'"

While she's talking about this, footage of another aborted later-term baby kicking his legs in a dish is shown. Later we see a picture of yet another boy who was born premature and died in his parents' arms.

8) Planned Parenthood Baby Parts Buyer StemExpress Wants "Another 50 Livers/Week"

This video features Planned Parenthood organ buyer StemExpress's CEO Cate Dyer talking about "consistent growth" in the industry. She says, "Planned Parenthood has volume because they're a volume institution." Asked what would make her happy, she says "another 50 livers a week." She says they work with almost triple digit numbers of clinics. They discuss intact cases, though the company later claimed it was just referring to intact organs, not entire bodies.

Dyer also discusses the lack of sanitary conditions at some clinics, which makes it difficult to get human organs that are not contaminated.

9) Planned Parenthood Baby Parts Vendor ABR Pays Off Clinics, Intact Fetuses "Just Fell Out"

This video features Perrin Larton, the procurement director for Advanced Bioscience Resources (ABR), a California-based non-profit organ middleman. She tells an undercover journalist that pro-lifers are making business difficult for baby organ traffickers.

Larton notes that while there have been federal limits on embryonic stem cell lines, taxpayer-funded research on aborted baby parts has gone on for decades.

"Fetal got lost in the mix," she said. She said that they sent fetal tissue to the National Institutes of Health even though the tissue was gleaned from abortion.

This video features graphic discussions of how abortionists shred body parts and tear the baby apart in the womb.

10) Planned Parenthood Exec: Baby Parts Sales "A Valid Exchange," Can Make "A Fair Amount of Income"

Though this video featuring discussions with a wide range of Planned Parenthood executives isn't graphic, it is in some ways the most troublesome for Planned Parenthood. That's because this video shows that Planned Parenthood encourages the fetal organ trade at the very highest levels. They discuss how exchanging money for tissue is valid. Deb VanDerhei, the national director of the Consortium of Planned Parenthood Abortion Providers claims that some colleagues generate a great deal of income on the sale of human organs from aborted babies. Dr. Carolyn Westhoff, senior medical advisor for Planned Parenthood Federation of America, doesn't shy away from specific discussions of the human organ trade, specifying which human organs buyers are interested in, such as eyes, brains and gonads. "Certainly everything we provide," she says.

"All of these videos show a despicable, callous disregard for the law, human life, and women. The selling of baby body parts is against the law and Planned Parenthood knows it, which is why they have hired a public relations firm to run damage control and filed huge, expensive lawsuits to silence the undercover videographers.⁴⁷ Planned Parenthood knows that it has a public relations nightmare on its hands and it is doing its utmost to try to preserve its carefully crafted public image. Being caught red handed coyly negotiating prices for baby body parts is not something they want the public to see, but the truth remains – Planned Parenthood sells dead baby parts. This is a fact that has not been even remotely debunked.⁴⁸

"SCR 85/SR56 also suggests that Planned Parenthood has been subjected to numerous investigations 'that have failed to reveal any wrongdoing by Planned Parenthood.' While it is true that Planned Parenthood has been under increased scrutiny by state and federal authorities that since the release of the Center for Medical Progress videos, to suggest that they are innocent of any wrongdoing is simply not true. This is just another Planned Parenthood talking point that bears little resemblance to the brutal reality of what they do. Since the video expose, Planned Parenthood has broken the law or been fined in eight states.⁴⁹

"Planned Parenthood has also been caught in a slew of illegal activity, including the cover-up of child sexual abuse and sex-trafficking, as investigations by Live Action reveal. Undercover tapes also expose how the corporation routinely lies to women and the American public, is willing to abort babies based on sex or race, and promotes dangerous sexual practices to children.⁵⁰

"In recent years a number of Planned Parenthood's own employees have filed whistleblower lawsuits claiming Planned Parenthood has defrauded state and federal governments.⁵¹ In 2011, Americans United for Life issued a full report, *The Case for Investigating Planned Parenthood*, that documents these and other problems with Planned Parenthood (e.g., misuse of federal health care and family planning funds, failure to comply

with parental involvement laws, failure to report criminal sexual abuse, etc.)⁵² In this report, Americans United for Life documents the known and alleged abuses by Planned Parenthood, including:

"Misuse of federal health care and family planning funds. State audit reports and admissions by former employees detail a pattern of misuse by some Planned Parenthood affiliates.

"Failure to report criminal child sexual abuse. Substantial and still-developing evidence indicates that many Planned Parenthood clinics fail to report all instances of suspected abuse, and instead advise minors and their abusers on how to circumvent the mandatory reporting laws.

"Failure to comply with parental involvement laws. Some Planned Parenthood affiliates exhibit a pattern and practice of violating and circumventing parental involvement laws.

"Assisting those engaged in prostitution and/or sex trafficking. Some Planned Parenthood clinics have demonstrated a willingness to partner with pimps or sex traffickers to exploit young women instead of safeguarding their health and safety.

"Dangerous misuse of the abortion drug RU-486. Planned Parenthood's admitted disregard for the FDA's approved protocol puts profits above women's lives and safety.

"Misinformation about so-called 'emergency contraception,' including ella. Planned Parenthood boasts of its role in the approval of a new drug ella, yet provides considerable misinformation about the drug.

"Willingness to provide women with inaccurate and misleading information. Some Planned Parenthood affiliates continually demonstrate a disregard for women's health and safety through their willingness to provide inaccurate and misleading information regarding fetal development and about abortion's inherent health risks.

"Willingness to refer to substandard clinics. Some Planned Parenthood affiliates put the lives and safety of women and girls at risk by associating with substandard abortion providers.

"In addition, this report documents the efforts of Planned Parenthood and its affiliates to defeat legislation intended to protect women and families, and to overturn common-sense federal and state laws, further enriching their 'bottom-line' with attorney fee awards.

"In September, 2015, Alliance Defending Freedom (ADF) submitted a report to Congress identifying waste, abuse and potential fraud by Planned Parenthood and its 59 separate affiliates and noted that while Planned Parenthood receives hundreds of millions of our tax dollars in funding, they are also alleged to have filed more than 500,000 false, fraudulent or ineligible Medicaid claims.⁵³

"As of March 30th, Florida became the 12th state to have voted to defund Planned Parenthood since the undercover video scandal.⁵⁴ Other states include Alabama, Arkansas, Kansas, Louisiana, New Hampshire, North Carolina, Texas, Utah, Ohio, Mississippi.⁵⁵ Perhaps this is why Planned Parenthood is so anxious for at least one state to 'affirm' them. Pollsters have already seen a 5 percentage point drop in their favorability rating compared to what it was before the undercover videos were released.⁵⁶

"SCR85/SR56 mentions nearly 'seven thousand violent acts against abortion providers' since 1977, but ignores the widespread 'violence' (e.g., brutal beating, attacks, vandalism, etc.) and other crimes perpetrated against pro-life activists, a sample of which can be seen documented here:

"BULL'S-EYE! VIOLENCE STALKS PRO-LIFE PROTESTERS

Attack numbers tell story that shocks activists

<http://www.wnd.com/2014/12/bulls-eye-violence-stalks-pro-life-protesters/#WUjyvhqz8sPmmkxW.99>

"The proposed resolution does not mention the 'violence' perpetrated upon the innocent human beings that are aborted each year. Planned Parenthood has committed over 7 million abortions since 1970.⁵⁷ By definition, these too are 'violent acts' as the brutality of abortion is, by Planned Parenthood's own admission, the violent killing of a human life.⁵⁸

"SCR85/SR56 contains language regarding the 'eleven murders of individuals associated with abortion care' but neglects to mention that Planned Parenthood kills over 300,000 human beings a year.⁵⁹ These too are 'individuals' and among the most vulnerable and defenseless of all human beings. As the nation's largest abortion provider, Planned Parenthood has made its living by ending the lives of the most vulnerable among us and thereby denying millions of Americans their most basic and fundamental right: the right to life.

"Planned Parenthood would no doubt like you to buy into the 3% figure that they like to tout when saying that abortion is but a small part of what they do. This talking point is nothing more than an overly-tired phrase that they like to use to underplay the significance of abortion in its business model. Equating abortion to another 'service' no different than handing out birth control pills is an accounting gimmick used to create a deceptive view of what it does. The *Washington Post* actually took the time to push past Planned Parenthood's nonsense and called the 3% figure misleading and cautioned the public to be wary of this figure. Quoting *National Review's* Rich Lowry, the *Washington Post* notes:⁶⁰

Such cracked reasoning could be used to obscure the purpose of any organization.

The sponsors of the New York City Marathon could count each small cup of water they hand out (some 2 million cups, compared with 45,000 runners) and say they are mainly in the hydration business.

Or Major League Baseball teams could say that they sell about 20 million hot dogs and play 2,430 games in a season, so baseball is only .012 percent of what they do.

Supporters of Planned Parenthood want to use its health services as leverage to preserve its abortions, as if you can't get one without the other.

Of course, this is nonsense.

"The fact is, abortion has a tremendous impact on Planned Parenthood's bottom line. Take the lowest possible price for approximately 320,000 abortions, and Planned Parenthood makes millions.

"Instead of affirming and supporting Planned Parenthood, there should be legislation to redirect taxpayer funds to health care groups that provide comprehensive care to families. American taxpayers must not be forced to fund Planned Parenthood's abortion empire and its many abuses, including the illegal profiting from the sale of baby body parts and the horrific practice of allowing infants that are born alive to die so that their organs can be harvested.

"As an elected official, I represent all the people and I cannot in good conscience neglect the unborn. A public servant cannot legitimately ignore an entire segment of the public that is being destroyed. This is not a matter of views (i.e., 'I'm personally opposed to abortion but can't impose my views on others.') This is about violence. The law is supposed to protect human life despite the 'views' of those who would destroy it.

"To those who would say that the government should not be involved in such a personal decision, I would suggest that the government got 'too involved' in abortion when it claimed to have the authority to deprive some human beings of their right to life. The Declaration of Independence asserts that government exists to *secure the rights* already bestowed by the Creator. Moreover, when somebody's 'choice' destroys somebody else's life, that choice is no longer merely a personal, private matter.

"I strongly support women's rights and women's health, and it is because I am so supportive of these things that I will not support any resolution to 'affirm' Planned Parenthood. And it is for this reason that I would strongly suggest that you and the other Members of this body first consider examining the evidence, which is more plentiful than ever, that abortion is destructive of women's health, and listen to the growing voices of those who have been harmed by abortion. That is also why you should examine how the abortion industry, through unregulated and dangerous clinics, continues to deceive and exploit women before you go and promote a resolution to affirm Planned Parenthood.

"As a husband and father of eight, I must stand up for even the smallest of children. Abortion is not about beliefs, it's about bloodshed. Those who need protection need it despite the disagreement with others. When victims are oppressed, we don't sit back and 'agree to disagree' with the oppressor. Rather, we intervene to save the victim.

"As a Catholic politician who practices his faith, I am a believer in the dignity and sanctity of all life. I believe that life is a precious and fragile gift and that it is sacred and inviolable. Pope John Paul II's *Evangelium Vitae*⁶¹ calls on everyone, politicians included, to find solutions to today's problems that respect life. We are to welcome, nourish and support the dignity of every human being.

"Mr. Speaker, abortion can never be separated from Planned Parenthood. Thus, I in good conscience, could never support a resolution that seeks to affirm an organization that profits off of the death of the most innocent among us. No matter how many 'services' Planned Parenthood says it provides, nothing changes the fact that almost 900 preborn children die each day in America's largest abortion chain.

If one is opposed to the intentional taking of innocent human life, one can't turn around and praise Planned Parenthood for the other things it does. That's like excusing child labor in the 1800s and 1900s by saying, "I'm opposed to child labor, but those textile companies do produce nice clothes."⁶²

"As legislators we need to look at Planned Parenthood's actual record and examine the truth as opposed to simply buying into all of its talking points and rhetoric. Before committing the State to a resolution that seeks to 'affirm' them for the 'services' they provide, we should seriously consider that they are presently under Congressional investigation for illegally selling the body parts of aborted babies.

"Just yesterday, April 20, 2016, three former federal prosecutors testified that a federal investigation is warranted into whether a California medical procurement company and abortion clinics are illegally profiting from aborted fetal tissue.

"Based on my review of the exhibits, a competent, ethical federal prosecutor could establish probable cause that both the abortion clinics and the procurement business violated the statute, aided and abetted one another in violating the statute, and likely conspired together to violate the statute," said Brian P. Lennon, a former federal prosecutor in Michigan and Virginia.⁶³

"Former U.S. prosecutor Brian Lennon told Congress Wednesday "there is proof without a reasonable doubt" abortion clinics and a procurement company illegally profited from the sale of aborted fetuses."⁶⁴

"Again, Mr. Speaker, how can we even consider a resolution to affirm an organization that is, in all likelihood, engaged in illegal criminal activity? And what about our responsibility as a body to defend and promote the life of every human being? The very well-being of society depends on the respect for life. We must respect, defend and promote the dignity of every human person.

"Finally, Mr. Speaker, while I may stand alone and in the minority on this issue, I would argue that truth is never determined by a majority vote. In the end when all is said and done, each of us is personally accountable to our Creator for protecting and defending human life. And absolute respect for every innocent life also requires the exercise of conscience, which is why I cannot support this resolution.

"*Evangelium Vitae* (The Gospel of Life) was issued over 20 years ago as a pressing appeal addressed to each and every person in the name of God to respect, protect, love and serve every human life. This document is no less relevant today. It calls upon all of us to be mindful of the serious threats to the very meaning and value of human life. The document notes how ethical relativism is becoming the basis for rejecting universal moral norms, and as these start to become obscured by government, the democratic system itself will be shaken in its foundation.

"EVANGELIUM VITAE

"Our country was founded on the recognition of certain basic moral principles, among which is that the right to life is unalienable, is bestowed by the Creator, and is to be protected by the government. The very greatness of America depends on her adherence to this truth.

"You see, Mr. Speaker, our nation is an experiment in self-governance. Whether this experiment succeeds or fails depends on our faithfulness to the values that have long helped societies survive. Again, truth is not up for a vote, and no majority can make what is wrong into something that is right. People cannot govern themselves if they have lost the sense of right and wrong.

"Seeking to give special recognition by the State 'affirming' Planned Parenthood when it is an organization founded by the elitist bigotry of Margaret Sanger, is offensive to me. In her eyes, the sign of a large family is a sign of being 'unfit.' As a father of eight, I reject this notion that people are somehow the equivalent of livestock to be controlled and/or manipulated all in the name of human betterment.

"This ethic of control continues to be imposed on our country and in much of the developing world by Sanger's followers who make up Planned Parenthood.

Former PPFA president Pamela Maraldo insisted in 1993 that "Planned Parenthood has never strayed from the fundamental principles she [Sanger] espoused or from her determination to confront the glaring social and health needs of the day."⁶⁵

"I am equally offended that a resolution is being proposed to affirm an organization that was founded by a racist. It is no secret that Margaret Sanger habitually referred to blacks and Jews as 'bad stock.' Dr. Alveda King, a public figure in her own right as well as the niece of Dr. Martin Luther King Jr., openly stated:

The most obvious practitioner of racism in the United States today is Planned Parenthood, an organization founded by the eugenicist

"King knows that while about 13% of Americans are black, more than one-third of all abortions are administered to black women.⁶⁷ Statistics show that 79% of Planned Parenthood abortion facilities are strategically placed in low-income minority neighborhoods.⁶⁸ Since 1973, abortion has wiped out over 25% of the black population, and statistics show that for every two African American women that get pregnant, one will abort.⁶⁹ Is this really the type of organization that the State of Hawaii should be proposing a resolution to affirm?

"Lives matter, Mr. Speaker. All lives. And I think that it behooves us all to remember that there can be no true democracy without the recognition of every person's dignity and without respect for his or her rights.

"I invite everyone to read *Evangelium Vitae* and reflect upon it. Fundamentally, it notes that democracy is a 'system' and as such is a means, not an end. That means that it basically stands or falls based on the values that it embodies or promotes. If our state motto, *Ua mau ke ea o ka 'āina i ka pono*, is said to reflect the character and beliefs of the citizens of our state, then let us honor life and not be used as a pawn by Planned Parenthood who is looking to score political points with some sort of public relations stunt. I respectfully request that we honor the people we were elected to represent, Mr. Speaker."

Representative San Buenaventura rose to speak in support of the measure, stating:

"I stand in strong support. Planned Parenthood has been attacked, as the Representative in Ewa has stated. And it is high time that we point out the successes that Planned Parenthood has in this community. It is because of Planned Parenthood that Hawaii now has the lowest number of teenage pregnancies, lower than it's ever been since 1990s. It is because of Planned Parenthood that poor teens now have a future, rather than resort to back-alley abortions. In fact, right now we don't even hear about back-alley abortions. It's because of Planned Parenthood.

"Planned Parenthood has made it easier for teens to know that they have a place that they can go to without having to resort to wire hangers. Without having to resort to self-abortion, self-abuse. And the teen health of Hawaii since Planned Parenthood has been in Hawaii shows that. That teen health pregnancies, every child should be a wanted child. And that's what Planned Parenthood promoted and that's what Planned Parenthood's success is. Thank you."

At 12:09 o'clock p.m., Representative Saiki requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:09 o'clock p.m.

Representative Tupola rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. With the current state of the investigation of selling of baby body parts as well as many other concerns, I can't support this resolution at this time. But I do want to note that there's a lot of good organizations here in Hawaii that we haven't ever recognized. A lot of non-profits, a lot of hospitals, a lot of health care providers that are also doing very, very admirable things for our communities and for our people.

"And I think granted that there might be some good within this, I feel like we should stay relevant to our communities and acknowledge these

before stepping forward to acknowledge and celebrate possibly something that has still a lot of unanswered questions for a lot of the public who are concerned about the selling of baby body parts as well as the illegalities of what that includes. And so for those reasons, in opposition. Thank you."

Representative Lee rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Thank you. I really want to commend this organization for helping our local population, especially avoid unnecessary abortions and loss of life, both of child and mother. I think it's obvious that whether the law allows for that or not, it's going to happen in our society. And we should be proud to have an organization working to try and avoid that on the front-end, allowing alternatives for family planning, and on the back-end making sure that the mother's health is protected.

"And with that I just ask to insert the executive summaries from seven state investigations, three congressional investigations, and the findings of a Texas grand jury, that all find no wrong doing at Planned Parenthood. Thank you."

Representative Lee submitted the following:

"Growing List Of State And Federal Investigations Clear Planned Parenthood Of All Wrongdoing

U.S. Dept. Of Health And Human Services: There Are "No Known Violations Of The Country's Fetal Tissue Laws." In response to an inquiry by Republican Sens. Joni Ernst (Iowa) and Roy Blunt (MO), the Department of Health and Human Services told Congress that they "know of no violation of [tissue] laws in connection with the research done at our agencies":

The Obama administration says there are no known violations of the country's fetal tissue laws among government researchers or the companies that supply the tissue.

"Currently, we know of no violation of these laws in connection with the research done at our agencies," Jim Esquea, assistant secretary for legislation at HHS, wrote in a letter to Sens. Joni Ernst and Roy Blunt, obtained by POLITICO. "Furthermore ... we have confirmed that HHS researchers working with fetal tissue obtained the tissue from non-profit organizations that provided assurances to us that they are in compliance with all applicable legal requirements.

[...]

HHS has gotten re-affirmations from government researchers and government-funded researchers that their tissue procurement is done in accordance with the tissue laws. And it got assurances from the companies that provide that fetal tissue to researchers at NIH and FDA that they are obtaining the fetal tissue and organs in compliance with federal laws, the letter says. [*Politico*, 8/16/15]

Massachusetts: Investigation Reveals Planned Parenthood Is "Fully Compliant With State And Federal Laws." Massachusetts Attorney General Maura Healey announced on July 29 that her office has found "no evidence" of wrongdoing by Planned Parenthood after an investigation was concluded:

Attorney General Maura Healey says her office has found no evidence that the Planned Parenthood League of Massachusetts is operating the sort of fetal tissue donation program highlighted in a series of undercover videos released by a national anti-abortion group in recent weeks.

Healey's office conducted the review at the request of state Representative James J. Lyons Jr., an Andover Republican who cited a Center for Medical Progress video that showed a Planned Parenthood official discussing how the group provides fetal parts to medical researchers over lunch at a Los Angeles restaurant.

[...]

"Over the past week, my office has conducted a thorough review and found that Planned Parenthood League of Massachusetts' health care centers are fully compliant with state and federal laws regarding the disposition of fetal tissue," Healey said in a statement. "Although donation of fetal tissue is permissible under state and federal law,

PPLM does not have a tissue donation program. There is no evidence that PPLM is involved in any way in the buying or selling of tissue. As such, our review is complete." [*The Boston Globe*, 7/29/15]

Indiana: Planned Parenthood Cleared Of Any Wrongdoing In The Handling Of Fetal Tissue. On July 30, the Indiana Department of Health cleared Planned Parenthood clinics in the state of any wrongdoing after they were "unable to find any non-compliance with state regulation":

Gov. Mike Pence, a Republican, on July 16 ordered an investigation of Planned Parenthood facilities in Indianapolis, Bloomington and Merrillville to see if organs from aborted fetuses were being sold. He was among a number of conservative lawmakers around the country who have called for investigations after an anti-abortion group circulated a video it made secretly showing some of its national officials discussing how they obtain organs from aborted fetuses for research. Planned Parenthood, the nation's largest provider of abortions, has said its donations of fetal tissue for research are legal.

The Indiana Department of Health said in a statement Thursday that an investigation found no evidence of any laws being broken. Health department inspectors investigated the Indiana facilities on July 21.

Letters from the health department to the three Indiana facilities dated Tuesday and released to the media by Planned Parenthood said the agency had completed its investigation into the Planned Parenthood facilities that perform abortions in Indiana. The letters said the agency was "unable to find any non-compliance with state regulations. Therefore, no deficiencies were cited." The letters say the complaint is closed. [*Associated Press*, 7/30/15]

South Dakota: No "Evidence Of Illegal Activity" In South Dakota At Planned Parenthood Clinic. South Dakota Attorney General Marty Jackley determined that there was "no evidence of illegal activity" at the one Planned Parenthood clinic in the state:

The state Health Department says it hasn't received any reports or evidence that the sale of fetal tissue has occurred in South Dakota since the department started regulating abortion facilities in 2006.

[...]

Spokeswoman Jennifer Aulwes says the organization doesn't have a program in the state for the legal donation of fetal tissue from terminated pregnancies and says it follows state and federal laws.

Attorney General Marty Jackley says he contacted the Health Department in mid-July about the issue. Jackley says there's no evidence of illegal activity. [*KDLT News*, 8/12/15]

Georgia: Department Of Public Health Finds Planned Parenthood "Complied With The Law." After a review into the state's abortion providers, the Georgia Department of Public Health "concluded an investigation" and found that Planned Parenthood and other clinics "are all complying with the law":

State public health investigators have concluded that Planned Parenthood Southeast and four other abortion providers are properly disposing of fetal tissues after abortions.

The commissioner of the Department Public Health, Dr. Brenda Fitzgerald, told Gov. Nathan Deal in a letter Wednesday that her agency had completed the inquiry that Deal ordered last month after videotapes surfaced of national Planned Parenthood officials talking about harvesting fetal remains.

Fitzgerald wrote: "As you know, Georgia law requires that licensed abortion clinics (or a medical disposal service provider with whom they have contracted) to bury or cremate fetal remains following the termination of a pregnancy. DNA or genetic testing can and does take place in certain cases, such as if a rape has occurred or there was an abnormality in the pregnancy."

She said the abortion providers reviewed by her investigators are all complying with the law. [*The Atlanta Journal-Constitution*, 8/12/15]

Pennsylvania: "No Evidence" Of Wrongdoing By "Any Planned Parenthood" In Pennsylvania. As *The Hill* noted, Pennsylvania became the fifth state to find no wrongdoing by Planned Parenthood. Pennsylvania Secretary of Health Karen Murphy noted that the Pennsylvania state health department "has never found a violation of the

Abortion Control Act provisions regarding the procurement or use of fetal tissue":

Pennsylvania has found no wrongdoing by Planned Parenthood in the state after a review, according to a letter from the state health department.

"Although donation of fetal tissue is lawful under the Abortion Control Act and federal law, our review has found that Planned Parenthood facilities in Pennsylvania do not participate in this practice," Pennsylvania Secretary of Health Karen Murphy wrote in a letter to a state legislator. "Moreover, there is no evidence that any Planned Parenthood site in this Commonwealth is involved in the buying or selling of fetal tissue."

Murphy said Planned Parenthood has contracted with "appropriate vendors to properly dispose of tissue."

"Since 2011 when the Department instituted annual and random unannounced surveys of Planned Parenthood facilities in Pennsylvania, the Department has never found a violation of the Abortion Control Act provisions regarding the procurement or use of fetal tissue," Murphy adds. [*The Hill*, 8/21/15]

Florida: Planned Parenthood Cleared Of Mishandling Fetal Remains By Florida's Agency For Health Care Administration. Florida's Agency for Health Care Administration (AHCA) was ordered by Republican Gov. Rick Scott to investigate whether Florida Planned Parenthood locations illegally sold fetal tissue. The AHCA concluded its investigation on August 5 finding there was "no evidence of the mishandling of fetal remains at any of the 16 clinics we investigated across the state," however it was later revealed Scott's staff rewrote press releases about the investigation to remove sentences the AHCA staff wished to include that emphasized this finding. Missouri: "No Evidence That Planned Parenthood's St. Louis Clinic ... Engaged In Unlawful Activity." Missouri Attorney General Chris Koster announced September 28 that the state's investigation "found no evidence that Planned Parenthood's St. Louis clinic mishandled fetal tissue or engaged in unlawful activity," as Reuters reported:

An investigation in Missouri found no evidence that Planned Parenthood's St. Louis clinic mishandled fetal tissue or engaged in unlawful activity, Attorney General Chris Koster's office said on Monday.

Koster's office had launched an investigation after an anti-abortion group released videos over the summer alleging that Planned Parenthood in other states illegally sold fetal tissue.

"The evidence reviewed by my investigators supports Planned Parenthood's representation that fetal tissue is handled in accordance with Missouri law," Koster said in a news release. "We have discovered no evidence whatsoever to suggest that Planned Parenthood's St. Louis facility is selling fetal tissue." [Reuters, 9/28/15]

Washington State: "No Evidence To Support Claims That The Organization Sells Fetal Tissue Or Performs Illegal Partial-Birth Abortions." Washington State Attorney General Bob Ferguson released a 48-page memo detailing the results of his office's investigation into whether Washington Planned Parenthood affiliates were performing partial-birth abortions or selling fetal tissue for profit. As *The Spokesman-Review* reported, the investigation "found no evidence to support" the allegations:

Planned Parenthood clinics in Washington do not sell fetal tissue and do not perform partial-birth abortions, conservative lawmakers were told Monday.

Responding to requests from 38 state representatives and 13 state senators, Washington Attorney General Bob Ferguson said he assigned two of his attorneys to investigate their concerns about the organization after national reports of "trafficking in human body parts." That review found no evidence to support claims that the organization sells fetal tissue or performs illegal partial-birth abortions, and Ferguson called such unfounded allegations troubling. [*The Spokesman-Review*, 11/16/15]

Kansas: Planned Parenthood "Exonerated" As Kansas Medical Board Announces "No Action" Will Be Taken Following "Careful Review." The Associated Press reported on January 14 that the Kansas State Board of Healing Arts, "after completing an investigation into whether illegal sales of fetal tissue are occurring after abortions" announced it was "taking no action" against a Planned Parenthood clinic. In a letter sent to Planned Parenthood of Kansas and Mid-Missouri, board disciplinary attorney Dan Riley stated that after "careful review of the investigative materials" the board had concluded "no further action would be taken at this time." The investigation followed a 2015 order from Republican Gov. Sam Brownback to investigate Planned Parenthood after the release of the deceptively-edited CMP videos. State Senator Laura Kelly (D) described the announcement as an "exonerat[ion]" of Planned Parenthood. [Associated Press, 1/14/16]

Michigan: "There Is No Evidence To Date That Illegal Practices Are Occurring" At Planned Parenthood. In July 2015, Republican Sen. Phil Pavlov demanded an investigation "to determine whether or not any Michigan-based facilities have participated in the horrifying sale of babies' body parts." NPR reported that in October, "the two departments handling the investigations issued a statement" concerning the findings of their work. They concluded that "there is no evidence to date that illegal practices are occurring." [NPR, 1/28/16]

Nevada: Attorney General Conducted Investigation And "Is Satisfied That The Nevada Offices Aren't Donating Tissue From Aborted Fetuses." Nevada Attorney General Adam Laxalt said in December 2015 that he had officially closed the investigation in December 2015, nothing that he was "satisfied that the Nevada offices aren't donating tissue from aborted fetuses." [Associated Press, 12/2/15]

Ohio: Investigation By Attorney General "Found No Evidence That Planned Parenthood Clinics In Ohio Sold Fetal Tissue." Following the release of the deceptively edited CMP videos, Ohio Attorney General Mike DeWine opened an investigation into the practices of Planned Parenthood clinics in the state. In December 2015, DeWine announced that his office had "found no evidence that Planned Parenthood clinics in Ohio sold fetal tissue." According to Cleveland.com, although DeWine cleared Planned Parenthood of "the original subject of the probe" he still alleged that Planned Parenthood had violated Ohio state code in its disposal of fetal tissue. [Cleveland.com, 12/11/15]

South Carolina: Investigation Into Planned Parenthood "Revealed No Criminal Wrongdoing" And That "No One Had Broken The Law." In August 2015, the South Carolina Legislative Oversight Committee opened an investigation into Planned Parenthood and its relationship with state agencies. The committee closed its investigation on March 10 after finding that "no one had broken the law," according to *The Post and Courier*. The committee concluded that the investigation had "revealed no criminal wrongdoing" after learning that "the Department of Health and Human Services does not directly provide state funding to Planned Parenthood or other abortion providers," *The Post and Courier* reported. The report instead revealed that none of the abortions covered by Medicaid in the state had been performed by Planned Parenthood since at least 2011. Rep. James Smith (D-SC) said that although the investigation was merely "a McCarthy-style witch hunt," he was pleased that "in the end, Planned Parenthood was completely vindicated." [*The Post and Courier*, 3/10/16]"

"Texas Grand Jury:

Harris County's investigation

Harris County, Texas grand jury empaneled to investigate whether Planned Parenthood was illegally selling fetal tissue cleared the group of wrongdoing, instead indicting two anti-abortion activists behind the undercover recordings.

"We were called upon to investigate allegations of criminal conduct by Planned Parenthood Gulf Coast," Harris County District Attorney Devon Anderson said. "As I stated at the outset of this investigation, we must go where the evidence leads us. All the evidence uncovered in the course of this investigation was presented to the grand jury. I respect their decision on this difficult case.""

Representative Evans rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I'd like the words of the Representative from Puna in the Journal as if my own," and the Chair "so ordered." (By reference only.)

Representative Evans continued, stating:

"I just wanted to add a few comments about how people make statements generalizing about this important issue, which is really an individual issue. When you talk about Planned Parenthood, it's also about men and women making decisions about their family. I think Planned Parenthood sends a really strong message, especially to people who really need to think about family, family planning. So I do think it's for all of us.

"I want to share a story, because again, it's very individual. In 1970, I left Illinois and went to Seattle with a suitcase and I stayed at the Salvation Army. But I became 18 years of age and I had a boyfriend I'd had for many, many years, and I was very concerned about my future and what was going to happen to me. And I had no money, so I went to Planned Parenthood and I talked to them about my concerns and what do I need to do. I had a lot of great counseling, it was affordable, it was accessible healthcare for me, someone who didn't have money, didn't have the ability to have a family doctor. The other thing I wanted to point out to people is I didn't have parents that ever had a discussion about family planning and about sexuality. And they didn't, for some reason, it was not something they ever wanted to talk about.

"But the point is, is that it's so individual, and I am personally offended by people making statements that just generalize all women and generalize all of us and our decisions. Because you know, planning your family and your sexuality and your own identity is so individual. It's the person. So I think making this, Planned Parenthood has offered to people who have no money and have no support from family, it's there for them. I think it's played a huge role, and I think it needs to continue. And for that reason, I strongly support this resolution. Thank you."

Representative Morikawa rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Strong support. I'd like to incorporate the words from the Representative from Puna, and I have a couple comments. Because if not for Planned Parenthood, I probably wouldn't be here today. Thank you," and the Chair "so ordered." (By reference only.)

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Very briefly, Mr. Speaker. For over 50 years, Planned Parenthood of the great Northwest and the Hawaiian Islands has provided vital medical care and education for our communities here in our islands. Planned Parenthood offers cancer screenings, pregnancy testing, counseling, treatment for STDs, preventative healthcare, birth control, and yes, abortion services. Planned Parenthood ensures that everyone has access to high-quality healthcare, and acquires the knowledge to enable individuals to make healthy decisions about their lives.

"I appreciate the comments of the good Representative from Ewa Beach and Waianae. Because yes, on the issue of abortion services, we will disagree. And I also appreciate that the Representative from Ewa Beach stands against violence. But it is because of this violence that I think it's important that we reaffirm our support for Planned Parenthood here in Hawaii.

"In the last year alone across the nation Planned Parenthood has dealt with numerous arson attacks, vandalism, and most recently in Colorado Springs, Colorado, November 2015, which left three dead, nine injured, and an entire community terrorized.

"These attacks have been extreme and hostile to the healthcare providers and patients. As leaders, we can reaffirm our support for Planned Parenthood here in our state and continue to show our support for the health services they provide in Hawaii. Everyone has the right to access to

health services without fear of violence and hostility when visiting a Planned Parenthood. Thank you, Mr. Speaker."

Representative LoPresti rose to speak in support of the measure, stating:

"Strong support. I ask that the words of the Health Chair and the EEP Chair be entered into the Journal as if they were my own, as well as the documents referred to by the Representative from Waimanalo. Thank you," and the Chair "so ordered." (By reference only.)

Representative Matsumoto rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Matsumoto's written remarks are as follows:

"Mr. Speaker, I rise in opposition to SCR 85. This resolution asks the Legislature to support Planned Parenthood and denounce the violent behavior directed at the organization.

"I do not condone violence nor do I believe any organization, its workers, or its patients should undergo physical or verbal assault for providing or receiving medical treatment. The attacks and other atrocities that occur against individuals for working or seeking treatment at Planned Parenthood is a horrific wrong in society. Violence against any organizations and persons must stop, not just violence at Planned Parenthood specifically.

"Planned Parenthood should not be singled out for celebration when so many grey areas and unknowns regarding their operations persist—not just in the media, but also in practice. Women, men, and young people visiting these clinics are looking for help – help that can be provided there but may also be provided elsewhere or in other ways. These organizations should be forthright and clear with them and the public on its practices.

"While I support an end to violence at Planned Parenthood and other organizations, I cannot support this resolution as a celebration of the works of Planned Parenthood. I do not support its practice of performing abortions and believe this is not the time for this resolution when other organizations also provide life-saving medical treatment, counseling, and care for Hawaii's residents. Rather, it is a time for clarity, transparency, and honesty. This will result in better care and ultimately Hawaii residents will be better for it.

"Thank you, Mr. Speaker."

Representative Pouha rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative McDermott rose to respond, stating:

"Second time, sir. Still in opposition. I think violence against Planned Parenthood clinics is terrorism. Unacceptable. Unacceptable. And if we catch them, I will nail them up to the barn door. I don't have a problem with that. But Mr. Speaker, one of the comments that was made is that because of Planned Parenthood, the teen pregnancy rates have gone down.

"The gentlelady is referring to the latest data available, and that is based on the abstinence-based sex education programs, which as of last June were voted out of the DOE and now it's comprehensive sex ed, which is not comprehensive in nature because it doesn't talk about delay or waiting. Those programs have not yet hit the public schools, because they didn't buy the books for them yet.

"So they're still operating on the abstinence-based programs, which she said are working. They've driven the teen pregnancy rate down. But Planned Parenthood doesn't want any notion of telling young people to delay their sexual gratification. If you're 10 years old, in Pono Choices they tell you, you decide when you're ready, and that the anus is a genital, which is medically inaccurate. I have proven they provide medically inaccurate information. Medically misleading information.

"That is why we have an epidemic of HPV. And it only gets worse, because they tell them, if you want to start early, go ahead, just make sure your partner has a condom. But telling a 15 or 16-year-old to make sure your partner has a condom, unless they use it correctly and consistently every time, it's as if they never used it at all. And by the way, against HPV, a condom is about as effective as putting a rain coat on and going swimming in the Pacific Ocean and hoping not to get wet. Because sex is messy.

"Then we don't talk about chlamydia, which sexually active young girls can get and as often have no symptoms and renders them sterile. You won't find that in the Planned Parenthood sex ed programs, because they don't want anyone to know. And they omit the elevated risk profiles of all these various sexual behaviors and diseases. They don't articulate them, because they don't want the kids to freak out and not engage in early sexual activity. They encourage, encourage early sexual activity, and I dare someone to find something contrary to that in the Hawaii materials that is not that way. Thank you."

Representative Ward rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ing rose to speak in support of the measure, stating:

"Very quickly, in strong support. I'd like to adopt the words from the Chair of Health, the Vice Chair of Judiciary, and the Chair of Human Services," and the Chair "so ordered." (By reference only.)

Representative Ing continued, stating:

"I just wanted to note in the interest of human life that if not for Planned Parenthood and access to safe healthcare for abortions, in particular, before Roe, thousands of women died every year because of unsafe, illegal abortions. So in the interest of saving lives, this is why we need to support Planned Parenthood in any way we can."

Representative Rhoads rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I would like to adopt the words of the Representative from District 51," and the Chair "so ordered." (By reference only.)

Representative Rhoads continued, stating:

"Also, I just point out that all the studies indicate that abstinence-only doesn't work. It just doesn't work. Human beings are built to have sex and they start having sex as soon as they know what it is, if you don't counsel them otherwise and help them to avoid the worst consequences of doing so. Obviously, there are pluses and minuses to having sex.

"I'd also point out that from the legal perspective, abortions are still a constitutional right, despite the fact that we've had one of the most conservative supreme courts in the history of the United States over the last 15 to 20 years. Abortion is still a constitutional right. *Mahalo.*"

Representative Saiki rose, stating:

"Mr. Speaker, I'd like to call for the question, but please permit written comments. Thank you."

At this time, Representative Saiki called for the previous question.

The motion was put to vote by the Chair and carried, and the report of the Committees was adopted and S.C.R. No. 85, SD 1, entitled: "SENATE CONCURRENT RESOLUTION AFFIRMING SUPPORT OF PLANNED PARENTHOOD, RECOGNIZING ITS VITAL ROLE IN PROVIDING HEALTH CARE, AND DENOUNCING VIOLENCE TOWARDS ABORTION PROVIDERS AND THEIR PATIENTS," was adopted, with Representatives Matsumoto, McDermott, Pouha, Tupola and Ward voting no, and with Representatives Choy, Fukumoto Chang, Har, Hashem, Ito, Johanson, Jordan, Kong, McKelvey, Oshiro, Say, Souki and Tokioka being excused.

INTRODUCTION OF RESOLUTIONS

The following concurrent resolution (H.C.R. No. 207) was announced by the Clerk and the following action taken:

H.C.R. No. 207, entitled: "HOUSE CONCURRENT RESOLUTION CALLING FOR A JOINT SESSION OF THE LEGISLATURE FOR THE PURPOSE OF APPOINTING THE OMBUDSMAN, THE DIRECTOR OF THE LEGISLATIVE REFERENCE BUREAU, AND THE AUDITOR," was offered by Representative Souki.

On motion by Representative Saiki, seconded by Representative Evans and carried, H.C.R. No. 207 was adopted, with Representatives Choy, Fukumoto Chang, Har, Hashem, Ito, Johanson, Jordan, Kong, McKelvey, Oshiro, Say, Souki and Tokioka being excused.

ORDER OF THE DAY

SUSPENSION OF RULES

On motion by Representative Evans, seconded by Representative Pouha and carried, the rules were suspended for the purpose of considering a certain Senate Bill for Third Reading by consent calendar. (Representative Tupola was excused.)

UNFINISHED BUSINESS

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1613-16) recommending that S.B. No. 2554 pass Third Reading.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2554 pass Third Reading, seconded by Representative Evans.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition. Mr. Speaker, this is a well-intended amendment, because we have a huge unfunded liability. We have a big bond and debts to pay. But Mr. Speaker, this bill kills the 1978 Constitutional Convention clear message to the taxpayers that whenever there is an excess of any funding, they will have it in return.

"Presently we have \$15 billion or so of unfunded liabilities. What is this bill being passed for, in the sense that will we ever get to that point where there will ever be again a taxpayer refund? Mr. Speaker, the people in 1978 were very clear, that when government does its job well it returns its excess funds to the people. And unfortunately, we have rigged the constitutional convention system to where blank votes are no votes, and therefore the probability of ever having the taxpayers again speak to having excess revenues go into their pockets is very, very far and in the future.

"In fact, Mr. Speaker, this effectively kills the 1978 Constitutional Convention return of money to the taxpayers. Or, if you're optimistic and say, well, in 30-some years we will have the unfunded liabilities paid off and then we'll talk about taxpayers return, Mr. Speaker, that's wishful thinking, this in effect is a death knell for the taxpayers for any excess refund in the future of the State of Hawaii. Thank you."

Representative Rhoads rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I've lived in Hawaii about 20 years now and we did get tax refunds a few years back because we were running surpluses at the end of fiscal years, but I never got a tax refund of more than \$1. And the way it was set up, that having a \$1 tax refund probably cost more money to send it out than it was worth, I think that's why this came about and I don't see a disadvantage. Unfortunately, the Member from Hawaii Kai is correct, in my lifetime there's going to be big pressure on the state budget because of the EUTF and ERS obligations. *Mahalo.*"

Representative Luke rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. This constitutional amendment, the constitution was already changed a few years back where the public had opportunity to vote whether they wanted a credit or allow the Legislature to put money into the rainy day. The public has already spoken and they said, they spoke very loud and clear with a pretty majority amount of vote, that the public wanted the Legislature to have the option instead of a credit to put money into the rainy day, so that when we have a deficit situation we don't close down the schools again. Thank you."

Representative Ward rose to respond, stating:

"Mr. Speaker, one thing I forgot to mention is that I would prefer that this be an incentive for the 2018 constitutional convention, so we have an opportunity to give people the reason why not to have a blank vote, but say yes, as the majority of the people have said they want another constitutional convention, but somehow we've rigged it, or the black robes have rigged it, to where if you blank it, it's a no vote. The merits of the constitutional convention, I am speaking against. In terms of the merits of this bill, I think it takes away the taxpayers 1978 will, and the probability of having another constitutional convention because of the blank votes is a very, very remote possibility. Thank you."

Representative McKelvey rose to speak in support of the measure, stating:

"Just in support and I would like to note, by that logic this probably won't pass either. Thank you very much."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2554, entitled: "A BILL FOR AN ACT PROPOSING AN AMENDMENT TO ARTICLE VII, SECTION 6, OF THE HAWAII CONSTITUTION, RELATING TO THE DISPOSITION OF EXCESS REVENUES," passed Third Reading by a vote of 50 ayes to 1 no, with Representative Ward voting no.

At 12:04 o'clock p.m., the Chair noted that the following bill passed Third Reading:

S.B. No. 2554

Representative Saiki moved that the report of the Committees be adopted, and that S.C.R. No. 63 be adopted, seconded by Representative Evans.

Representative Ward rose to speak in support of the measure, stating:

"Strong support. Mr. Speaker, I rise in celebrating this first time ever in the State of Hawaii formalizing Earth Day, which started actually way back in 1970. It was a UN proclamation, actually. And with that, it's a reminder that year after year we not only neglect but we tend to have a forgetful day about what our environment is. And I want you to know that it's in my community a very serious day. It's not just something that kind of gets onto the calendar, but it's a very serious day.

"And just as an FYI, this Saturday the 23rd is the 8th Annual Ka Iwi Clean-Up. Now, Ka Iwi is the coast and the one that we just paid and basically bought out, so it's in preservation. But Ka Iwi is a very popular place to drink beer, burn palettes, eat hot-dogs, and leave a mess. And because of that, there is a number of residents who go every year. But every Earth Day, my office goes with the boy scouts, the girl scouts, the former Peace Corps volunteers, 808 Cleanups, *et cetera*, as a way of remembering that Ka Iwi is a very beloved place in our district.

"So for that reason, Mr. Speaker, I am very indebted to the authors of this, who after 46 years have finally formalized it in the State of Hawaii, and I think it's a good reminder to all of us that we should have an Earth Day in our district. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committees was adopted and S.C.R. No. 63, entitled: "SENATE CONCURRENT RESOLUTION URGING THE STATE TO ESTABLISH AN ANNUAL STATEWIDE CLEAN-UP DAY ON APRIL 22 TO COINCIDE WITH EARTH DAY AND CELEBRATE AND HONOR HAWAII'S ENVIRONMENT AND NATURAL RESOURCES," was adopted, with Representatives LoPresti, McDermott, Nakashima, Tokioka and Tupola being excused.

Representative Thielen: "Thank you. Following up on the measure we just passed that's related to Earth Day, tomorrow is a very important day

Representative Mizuno submitted the following remarks on behalf of Speaker Souki:

"Mr. Speaker, I rise in support of the nomination of Charlotte Carter-Yamauchi as director of the Legislative Reference Bureau. Too often in the hiring process we face candidates who are unproven for the position they are seeking. This morning we have a rare opportunity to secure the services of an individual who is not just 'qualified' to hold a position but has shown she can do the job in outstanding fashion.

"Charlotte Carter-Yamauchi has proven herself not only over the last six years as acting director of the Legislative Reference Bureau, but has dedicated her professional career to the bureau and its mission. She has been the acting director of the Legislative Reference Bureau since December 2010. She began her long career with the bureau as a research attorney in 1987, and was appointed as the assistant director for research in 2003 and the first assistant in 2008.

"Charlotte is a long-time, active participant in both the National Conference of State Legislatures (NCSL) and the Council of State Governments (CSG) activities. She currently serves as chair of the Research and Committee Staff Section and on the Legislative Staff Coordinating Committee of NCSL.

"And if that's not enough to keep her busy, she also serves as present chair of the CSG West Legislative Service Agency/Research Directors, a member of CSG's Executive Committee, and a member of CSG's Shared State Legislation Committee. And if you can remember what all of those acronyms mean, you're a better person than me. But I can assure you, Charlotte does.

"Prior to coming to work for LRB, Charlotte was in private practice, served as a deputy prosecuting attorney for the City and County of Honolulu, and worked as a staff attorney for the National Center for State Courts in Williamsburg, Virginia. She received her J.D. from the College of William and Mary's Marshall-Wythe School of Law and is a member of the Virginia and Hawaii Bars.

"Finally, for those of you who know the children's book – if the LRB is Charlotte Carter-Yamauchi's web, then all of us 'Wilburs' are in no danger of being lost. The LRB will continue to be in good hands. Thank you."

The motion on behalf of the House of Representatives was put to vote by the Chair and carried by a vote of 50 ayes, with Representative Woodson being excused.

President Ronald D. Kouchi then assumed the rostrum.

Representative Mizuno rose to speak in support of the nomination, stating:

"Mr. Speaker, thank you very much. In strong support, Mr. Speaker. And on behalf of you, Mr. Speaker, I'd like to ask that your written comments in support be inserted in the Journal for Robin Matsunaga. Thank you."

Representative Mizuno submitted the following remarks on behalf of Speaker Souki:

"Mr. Speaker, I rise in support of the nomination of Robin K. Matsunaga as ombudsman for the State of Hawaii. Mr. Speaker, the Hawaii Ombudsman Office was established in 1967 to investigate citizen complaints about executive agencies of the state and local governments in Hawaii, and was the first of its kind to be established in the United States.

"The ombudsman serves as a neutral, independent intermediary between citizens and state agencies, conducting investigations in a fair and impartial manner. In addition to the resolution of individual complaints, it makes recommendations for changes to the law, administrative rules or operating procedures to make government work better.

"In other words, the ombudsman must be fair, independent, solution-driven and understanding of the role of government, as well as the rights of all citizens under our laws and constitution. Robin Matsunaga has shown that he is such an individual and has led the Office of the Ombudsman since 1998.

"Robin was appointed by unanimous vote of the Hawaii Legislature in 1998 to serve as ombudsman and was reappointed to a second six-year term by the 2008 Legislature.

"Robin has represented the Office of the Ombudsman, the Legislature, and the State of Hawaii at the national and international levels through his participation and leadership in the U.S. Ombudsman Association, the International Ombudsman Institute, and the American Bar Association. He is the current president of the USOA and has been a member of their Board of Directors since 1999, serving as Outreach and Membership Committee Chair.

"In 2004, together with the Alaska and Arizona ombudsmen, Robin developed curricula for the USOA's New Ombudsman Training workshop and has served as an instructor for those workshops. Robin was an institutional member of the International Ombudsman Institute from 1998

to 2014 and served as regional director for the IOI's North America Region from 2011 to 2012.

"Robin is currently a member of the American Bar Association Dispute Resolution Section Ombuds Committee and a member and senior advisor/liaison of the ABA Administrative Law and Regulatory Practice Section Ombuds Committee.

"Prior to his appointment as ombudsman, Robin served for six years as the chief of staff of the Hawaii House of Representatives during my tenure then as Speaker. He also served as the chief clerk of the House Finance Committee and as a program evaluation analyst for the state Department of Transportation.

"Mr. Speaker, clearly, we have an individual who is highly qualified, with the experience, character and temperament to lead this office, and I wholeheartedly support his appointment."

The motion on behalf of the House of Representatives was put to vote by the Chair and carried by a vote of 50 ayes, with Representative Woodson being excused.

President Ronald D. Kouchi then assumed the rostrum.

"In strong support. Thank you, Mr. Speaker. If a tree falls in a forest and no one is around to hear it, does it make a sound? The answer, to many of my oversharing millennial generation, is no. If it's not Facebook official, it didn't happen. So on behalf of my peers, I'd like to thank the introducer and chair for the passage of this bill, #grateful #blessed. Thank you, Mr. Speaker."

H.B. No. 2084, HD 2, SD 1:

Representative Saiki moved that H.B. No. 2084, HD 2, SD 1 pass Final Reading, seconded by Representative Evans.

Representative McDermott rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, I'd like to declare a potential conflict. Over 30 years ago, my wife and I took care of and housed her transgender cousin for about six months," and the Chair ruled, "no conflict."

Representative McDermott continued to speak in opposition to the measure, stating:

"Thank you, sir. I rise in opposition. I would like permission to insert comments in the Journal. I believe everyone has a right to health insurance. Somehow I was unable to communicate that last time, although I thought I did. While not a constitutional right, we have a moral responsibility as a community to take care of everyone.

"I think the title of the bill does a disservice to our physicians and our hospitals. I know of no case where someone goes in with a compound fracture, be it a man who is living as a woman with a wig and high heels on, and is denied treatment. I don't know of any physicians who do that. I don't know of any hospitals that do that. And I don't believe our society turns people away, certainly not in Hawaii. So this is a solution in search of a problem.

"The social aspects of this bill are obviously troubling for me. The very definition, the new definition of gender identity and fully omitting what your biological sex is, as if it's irrelevant, is quite troubling. But even more troubling is the fact that we treat a psychological disorder, which the bill itself says it's a disorder, with a physical solution. I don't think we're doing those folks any favors, Mr. Speaker.

"Mr. Speaker I refer to the chief of psychiatry at Johns Hopkins University, Dr. Paul McHugh, who said quote, transgenderism is a mental disorder that merits treatment, that sex change is biologically impossible, and that people who promote sexual reassignment surgery are collaborating with and promoting a mental disorder. Johns Hopkins University, psychiatrist-in-chief. Now clearly this body has demonstrated we have more knowledge on this topic than Dr. McHugh. And of course we know Johns Hopkins was the granddaddy of performing sex change surgery.

"Disorder of assumption, the notion that their maleness or femaleness is different from what nature has assigned them biologically. That's McHugh. Quote, this is Dr. McHugh again, policy makers and the media are doing no favors either to the public or the transgendered by treating their confusions as a right in need of defending, rather than a mental disorder that deserves understanding, treatment and prevention.

"I think this bill would be much more compassionate if we offered them free psychiatric care. Free psychiatric care instead of trying to address a psychological disorder with a physical solution. Which is what this bill does. I don't think, let me say I don't believe my colleagues understand the scope of this measure. Because, Mr. Speaker, on these matters, I'm the watchdog. And I didn't know exactly what this bill did, because it's so confusingly and poorly written. I had three attorneys review it and one physician. Two attorneys said it does require the health insurance companies to pay for gender reassignment surgery, sex change operations. One of the attorneys said, I'm not sure.

"Any procedure covered under your standard HMSA plan, a mastectomy, for example, woman has cancer, going to have a mastectomy. Well, if a woman wants to go through transition, because a mastectomy is elected, she doesn't have to disprove that she has cancer. In fact, the bar for accessing gender transition surgery in this measure is remarkably low."

Representative Ward rose to yield his time, and the Chair "so ordered."

Representative McDermott continued, stating:

"If you go to section 2, point (c), it talks about medical necessity. And it goes on for a page and a half. And then finally it says, 'adopts the appearance or behavior of the opposite sex.' That bar is so low, we've researched other places that do gender transition surgery and you have to have at least two qualified medical professionals, psychiatrists, doctors, it depends on the facility, before you can access any medical services.

"Mr. Speaker, what we're talking about here is amputating, genital mutilation. A few years ago, my first time around here, we passed a bill that banned genital mutilation. Representative Marilyn Lee pushed that for years, banning genital mutilation. Now here we come back, 20 years later, and we're telling health insurance companies, you must pay for genital mutilation, albeit a different type of surgery, to have a man's penis amputated because of psychological disorder. To have his testicles removed and the insurance company has to pay for it, which means we all pay for it, for an elective procedure.

"Breast reconstruction surgery is covered, because cancer victims are entitled to breast reconstruction surgery. Any medical procedure that is covered by your current health insurance plan, which means everything, everything is now available to the transgender individual, the individual seeking a sex change on an elective basis.

"It's got to be medically necessary, I just showed you the bar. Medical necessity assumes the behavior or a lifestyle of a woman or a man in this case. Mastectomy, vaginoplasty, testicle removal, penis amputation, breast reconstruction, these are elective.

"Now, Mr. Speaker, I'm accused of being a bigot, a hater, a homophobe and all those things, but I have demonstrated my love long before it was cool and fashionable. And like I said, we took in my wife's transgender cousin. But what about the people who go through this surgery? We're enabling now. We're going to pick up the hormonal treatments, absolutely covered. Absolutely covered, no question. Not even fuzzy. Go through this, and then change their mind. After they've had the surgery.

"Let's start with Alan Finch, a resident of Australia, who decided when he was 19 to transition from male to female. In his twenties, he had genital surgery. By 36 he told the Guardian newspaper, quote, transsexualism was invented by psychiatrists. You fundamentally can't change your sex. The surgery doesn't alter you genetically. It's genital mutilation. My, quote, unquote, vagina, was just the bag of my scrotum, like a pouch. Like a kangaroo. What's scary is you feel like you still have a penis when you are sexually aroused. It's like a phantom limb syndrome. It's all been a terrible misadventure. I've never been a woman, just Alan. The analogy I use about giving surgery to someone desperate to change sex is a bit like offering liposuction to an anorexic.

"That is from a transgender surgery survivor, who is now experiencing regret.

"Mr. Speaker, you and I are both old enough to remember this name, Dr. Renée Richards. Quote, if there was a drug I could have taken that would have reduced the pressure, I would have been better off staying the way I was, a totally intact person. I get a lot of inquiries from would-be transsexuals, but I don't want anyone to hold me out as an example to follow. Today there are better choices, including medication, for dealing with the compulsion to cross dress and the depression that comes from gender confusion. As far as being fulfilled as a woman, I'm not as fulfilled as I dreamed of being. I get a lot of letters from people who are considering having this operation. I discourage them all.

"Mr. Speaker, this bill is titled anti-discrimination against transgenders. There is no discrimination. That title's a misnomer, and I believe we've done the medical community a disservice by implying that they don't treat the people who show up, when actually it's a Trojan horse that mandates that health insurance companies must pay for gender transition surgeries and all the related care that goes with it. An elective surgery, designed to treat a psychological disorder."

Representative Tupola rose to yield her time.

At 12:18 o'clock p.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:19 o'clock p.m.

Representative McDermott continued, stating:

"Thank you, Mr. Speaker. Oh, so kind. I appreciate your counsel and guidance. Again, I just want to recap, Mr. Speaker, as a courtesy to you, that this is a Trojan horse. I don't believe our doctors discriminate. We have a physician here in our body who I admire and hold in high esteem and I can tell you he is a good man and he'll treat anybody who comes to see him. And I think all our physicians are like that. So to imply that there is a problem, when we're sliding this in in such a poorly, confusing doublespeak, layer upon layer upon bill.

"Why don't we just tell the public what we're doing? We are going to require insurance companies to pay for sex change operations. That's what we're requiring the insurance companies to do today. And I love these people and I have compassion for them. I have lived with them. And they need psychological help, not the amputation of healthy, good organs and body parts. For that, sir, I stand in opposition."

COMMENTARY

Transgender Surgery Isn't the Solution

A drastic physical change doesn't address underlying psycho-social troubles.

By PAUL MCHUGH

June 12, 2014 7:19 p.m. ET

The government and media alliance advancing the transgender cause has gone into overdrive in recent weeks. On May 30, a U.S. Department of Health and Human Services review board ruled that Medicare can pay for the "reassignment" surgery sought by the transgendered—those who say that they don't identify with their biological sex. Earlier last month Defense Secretary Chuck Hagel said that he was "open" to lifting a ban on transgender individuals serving in the military. Time magazine, seeing the trend, ran a cover story for its June 9 issue called "The Transgender Tipping Point: America's next civil rights frontier."

Yet policy makers and the media are doing no favors either to the public or the transgendered by treating their confusions as a right in need of defending rather than as a mental disorder that deserves understanding, treatment and prevention. This intensely felt sense of being transgendered constitutes a mental disorder in two respects. The first is that the idea of sex misalignment is simply mistaken—it does not correspond with physical reality. The second is that it can lead to grim psychological outcomes.

The transgendered suffer a disorder of "assumption" like those in other disorders familiar to psychiatrists. With the transgendered, the disordered assumption is that the individual differs from what seems given in nature—namely one's maleness or femaleness. Other kinds of disordered assumptions are held by those who suffer from anorexia and bulimia nervosa, where the assumption that departs from physical reality is the belief by the dangerously thin that they are overweight.

A man who looks into the mirror and sees himself as a woman GETTY IMAGES

With body dysmorphic disorder, an often socially crippling condition, the individual is consumed by the assumption "I'm ugly." These

disorders occur in subjects who have come to believe that some of their psycho-social conflicts or problems will be resolved if they can change the way that they appear to others. Such ideas work like ruling passions in their subjects' minds and tend to be accompanied by a solipsistic argument.

For the transgendered, this argument holds that one's feeling of "gender" is a conscious, subjective sense that, being in one's mind, cannot be questioned by others. The individual often seeks not just society's tolerance of this "personal truth" but affirmation of it. Here rests the support for "transgender equality," the demands for government payment for medical and surgical treatments, and for access to all sex-based public roles and privileges.

With this argument, advocates for the transgendered have persuaded several states—including California, New Jersey and Massachusetts—to pass laws barring psychiatrists, even with parental permission, from striving to restore natural gender feelings to a transgender minor. That government can intrude into parents' rights to seek help in guiding their children indicates how powerful these advocates have become.

How to respond? Psychiatrists obviously must challenge the solipsistic concept that what is in the mind cannot be questioned. Disorders of consciousness, after all, represent psychiatry's domain; declaring them off-limits would eliminate the field. Many will recall how, in the 1990s, an accusation of parental sex abuse of children was deemed unquestionable by the solipsists of the "recovered memory" craze.

You won't hear it from those championing transgender equality, but controlled and follow-up studies reveal fundamental problems with this movement. When children who reported transgender feelings were tracked without medical or surgical treatment at both Vanderbilt University and London's Portman Clinic, 70%-80% of them spontaneously lost those feelings. Some 25% did have persisting feelings; what differentiates those individuals remains to be discerned.

We at Johns Hopkins University—which in the 1960s was the first American medical center to venture into "sex-reassignment surgery"—launched a study in the 1970s comparing the outcomes of transgendered people who had the surgery with the outcomes of those who did not. Most of the surgically treated patients described themselves as "satisfied" by the results, but their subsequent psycho-social adjustments were no better than those who didn't have the surgery. And so at Hopkins we stopped doing sex-reassignment surgery, since producing a "satisfied" but still troubled patient seemed an inadequate reason for surgically amputating normal organs.

It now appears that our long-ago decision was a wise one. A 2011 study at the Karolinska Institute in Sweden produced the most illuminating results yet regarding the transgendered, evidence that should give advocates pause. The long-term study—up to 30 years—followed 324 people who had sex-reassignment surgery. The study revealed that beginning about 10 years after having the surgery, the transgendered began to experience increasing mental difficulties. Most shockingly, their suicide mortality rose almost 20-fold above the comparable nontransgender population. This disturbing result has as yet no explanation but probably reflects the growing sense of isolation reported by the aging transgendered after surgery. The high suicide rate certainly challenges the surgery prescription.

There are subgroups of the transgendered, and for none does "reassignment" seem apt. One group includes male prisoners like Pvt. Bradley Manning, the convicted national-security leaker who now wishes to be called Chelsea. Facing long sentences and the rigors of a men's prison, they have an obvious motive for wanting to change their sex and hence their prison. Given that they committed their crimes as males, they should be punished as such; after serving their time, they will be free to reconsider their gender.

Another subgroup consists of young men and women susceptible to suggestion from "everything is normal" sex education, amplified by Internet chat groups. These are the transgender subjects most like anorexia nervosa patients: They become persuaded that seeking a drastic physical change will banish their psycho-social problems. "Diversity" counselors in their schools, rather like cult leaders, may encourage these young people to distance themselves from their families and offer advice on rebutting arguments against having transgender surgery. Treatments

here must begin with removing the young person from the suggestive environment and offering a counter-message in family therapy.

Then there is the subgroup of very young, often prepubescent children who notice distinct sex roles in the culture and, exploring how they fit in, begin imitating the opposite sex. Misguided doctors at medical centers including Boston's Children's Hospital have begun trying to treat this behavior by administering puberty-delaying hormones to render later sex-change surgeries less onerous—even though the drugs stunt the children's growth and risk causing sterility. Given that close to 80% of such children would abandon their confusion and grow naturally into adult life if untreated, these medical interventions come close to child abuse. A better way to help these children: with devoted parenting.

At the heart of the problem is confusion over the nature of the transgendered. "Sex change" is biologically impossible. People who undergo sex-reassignment surgery do not change from men to women or vice versa. Rather, they become feminized men or masculinized women. Claiming that this is civil-rights matter and encouraging surgical intervention is in reality to collaborate with and promote a mental disorder.

Dr. McHugh, former psychiatrist in chief at Johns Hopkins Hospital, is the author of "Try to Remember: Psychiatry's Clash Over Meaning, Memory, and Mind" (Dana Press, 2008)."

Transgenderism Is A Mental Illness, Not A Civil Rights Issue

John Hawkins | Posted: Sep 30, 2014 12:01 AM

If someone came to a doctor and asked him to cut off a perfectly healthy arm because it just felt "wrong" for the arm to be there, should the doctor do it? This isn't an idle question because this does happen with a mental illness called Body Integrity Identity Disorder (BIID). People who have it feel as if they're not supposed to have a certain body part, like an arm or leg. As a general rule, doctors won't remove a healthy body part; so some of these poor deluded people crush, mangle, burn, or otherwise deliberately destroy their own arms or legs in order to get a surgeon to slice them off.

This raises a question: Are surgeons who refuse to remove healthy limbs from people with BIID doing them a service because they're mentally ill or are they denying them their civil rights? MOST of us would say that a surgeon who refuses to cut off a healthy leg is doing the right thing.

Of course, not everyone would agree. In fact, there are some people who will tell you that mental illness is a "super power."

Members of the mad pride movement do not always agree on their aims and intentions. For some, the objective is to continue the destigmatization of mental illness. A vocal, controversial wing rejects the need to treat mental afflictions with psychotropic drugs and seeks alternatives to the shifting, often inconsistent care offered by the medical establishment. Many members of the movement say they are publicly discussing their own struggles to help those with similar conditions and to inform the general public.

...Some Icarus Project members argue that their conditions are not illnesses, but rather, "dangerous gifts" that require attention, care and vigilance to contain. "I take drugs to control my super powers," Mr. DuBrul said.

It's easy to laugh at this silly idea. Hearing voices or thinking the CIA is using a mind control ray on you is supposed to be a super power? Seriously?

But, this is a relatively small movement that happily hasn't gained wide societal acceptance. Meanwhile, something just as ridiculous, the idea that you can change your sex, is accepted by many people in society.

There are people demanding that we change the birth certificates of people who've had sex reassignment surgery to reflect the gender they now claim to be. Children are being told to use whatever bathroom they feel most comfortable using. Kids under the age of 10 are being given drugs and treatment to prepare them for sex change surgery later on.

This is what happens when you cater to a pathology instead of treating it.

If you are born a man, you can mutilate yourself and take female hormones, but you can't become a woman. If you are born a woman, you can mutilate yourself and take male hormones, but you can't become a man.

If you're a man who mutilates yourself to look like a woman, you're not going to actually be a woman. You're also probably not going to be the attractive fantasy you imagined yourself being because you've had male hormones pumping through your body for a lifetime. Your relationships are probably going to be screwed up because most men are going to view you as another man. Even if you do somehow meet a guy you like who isn't using you to fulfill some forbidden fantasy for a night, what happens when he finds out? The relationship is probably over. The sex probably isn't going to be good either because your groin has been cut to pieces and refashioned. Additionally, your mortality rate will be 51% higher than the general population because of suicide and all the female hormones you've pumped into your body en masse. In fact, the suicide rate for people who are transgender is 25 times that of the general population according to the American Psychological Association.

Certainly, there are some people who are happy and successful after having gender reassignment surgery, just as there are happy and successful people in every other walk of life, but they are exceptions to the rule. What about everybody else? Imagine mutilating yourself and realizing that it didn't make any difference or worse yet, that it was a HUGE MISTAKE. What do you do then?

When children who reported transgender feelings were tracked without medical or surgical treatment at both Vanderbilt University and London's Portman Clinic, 70%-80% of them spontaneously lost those feelings. Some 25% did have persisting feelings; what differentiates those individuals remains to be discerned.

We at Johns Hopkins University—which in the 1960s was the first American medical center to venture into "sex-reassignment surgery"—launched a study in the 1970s comparing the outcomes of transgendered people who had the surgery with the outcomes of those who did not. Most of the surgically treated patients described themselves as "satisfied" by the results, but their subsequent psycho-social adjustments were no better than those who didn't have the surgery. And so at Hopkins we stopped doing sex-reassignment surgery, since producing a "satisfied" but still troubled patient seemed an inadequate reason for surgically amputating normal organs.

There's nothing shameful about having a mental illness. If you break your leg, you go to a doctor and get it fixed. If you have some form of mental illness, you go to a psychologist or psychiatrist and get it treated as best you can. Sometimes you can be cured. Sometimes it's a lifetime struggle, but all of us have different challenges to deal with and that's okay.

On the other hand, you can rant about "bigots," "gay pride" and "civil rights" all day long, but it doesn't change the fact that encouraging troubled people to permanently disfigure themselves instead of working through their issues with a mental health professional is a thoughtless, cruel, and monstrous act."

Gender Ideology Harms Children

March 21, 2016 – a temporary statement with references. A full statement will be published in summer 2016.

The American College of Pediatricians urges educators and legislators to reject all policies that condition children to accept as normal a life of chemical and surgical impersonation of the opposite sex. Facts – not ideology – determine reality.

1. Human sexuality is an objective biological binary trait: "XY" and "XX" are genetic markers of health – not genetic markers of a disorder. The norm for human design is to be conceived either male or female. Human sexuality is binary by design with the obvious purpose being the reproduction and flourishing of our species. This principle is self-evident. The exceedingly rare disorders of sex development (DSDs), including but not limited to testicular feminization and congenital adrenal hyperplasia, are all medically identifiable deviations from the sexual binary norm, and are rightly recognized as disorders of human design. Individuals with DSDs do not constitute a third sex.¹

2. No one is born with a gender. Everyone is born with a biological sex. Gender (an awareness and sense of oneself as male or female) is a sociological and psychological concept; not an objective biological one. No one is born with an awareness of themselves as male or female; this awareness develops over time and, like all developmental processes, may be derailed by a child's subjective perceptions, relationships, and adverse experiences from infancy forward. People who identify as "feeling like the opposite sex" or "somewhere in between" do not comprise a third sex. They remain biological men or biological women.^{2,3,4}

3. A person's belief that he or she is something they are not is, at best, a sign of confused thinking. When an otherwise healthy biological boy believes he is a girl, or an otherwise healthy biological girl believes she is a boy, an objective psychological problem exists that lies in the mind not the body, and it should be treated as such. These children suffer from gender dysphoria. Gender dysphoria (GD), formerly listed as Gender Identity Disorder (GID), is a recognized mental disorder in the most recent edition of the Diagnostic and Statistical Manual of the American Psychiatric Association (DSM-V).⁵ The psychodynamic and social learning theories of GD/GID have never been disproved.^{2,4,5}

4. Puberty is not a disease and puberty-blocking hormones can be dangerous. Reversible or not, puberty- blocking hormones induce a state of disease – the absence of puberty – and inhibit growth and fertility in a previously biologically healthy child.⁶

5. According to the DSM-V, as many as 98% of gender confused boys and 88% of gender confused girls eventually accept their biological sex after naturally passing through puberty.⁵

6. Children who use puberty blockers to impersonate the opposite sex will require cross-sex hormones in late adolescence. Cross-sex hormones (testosterone and estrogen) are associated with dangerous health risks including but not limited to high blood pressure, blood clots, stroke and cancer.^{7,8,9,10}

7. Rates of suicide are twenty times greater among adults who use cross-sex hormones and undergo sex reassignment surgery, even in Sweden which is among the most LGBTQ – affirming countries.¹¹ What compassionate and reasonable person would condemn young children to this fate knowing that after puberty as many as 88% of girls and 98% of boys will eventually accept reality and achieve a state of mental and physical health?

8. Conditioning children into believing that a lifetime of chemical and surgical impersonation of the opposite sex is normal and healthful is child abuse. Endorsing gender discordance as normal via public education and legal policies will confuse children and parents, leading more children to present to "gender clinics" where they will be given puberty-blocking drugs. This, in turn, virtually ensures that they will "choose" a lifetime of carcinogenic and otherwise toxic cross-sex hormones, and likely consider unnecessary surgical mutilation of their healthy body parts as young adults.

Bruce Springsteen and Bryan Adams: hypocrites and bigots

By Bryan Fischer

Follow me on Twitter: @BryanJFischer, on Facebook at "Focal Point" Host of "Focal Point" on American Family Radio, 1-3pm CT, M-F www.afr.net

Bruce Springsteen canceled a North Carolina concert to protest a new law designed to keep sexual predators out of the bathroom his own daughter would have used at his performance. Breaking his commitment cost the Greensboro Coliseum a net revenue loss of around \$100,000.

Not to be outdone, Bryan Adams canceled a Mississippi concert in protest of a new civil rights bill that protects the conscience rights of blacks in a state that once was world-renowned for racial prejudice.

So on the grounds of personal principle, Bruce Springsteen is now officially a general in the war on women, and Bryan Adams is now the leading bigot in the South.

The Mississippi law that has Adams all wigged out protects the conscience and liberty rights of blacks (and whites) who serve as pastors, county clerks, heads of non-profits and adoption agencies, and who operate businesses as wedding vendors. Their right to freely exercise their religious convictions is what HB 1523 is all about.

Because this law protects the rights of blacks as well as whites, there are some striking implications for blacks in Mississippi, which is still regarded by many as a haven of racist bigotry.

Black pastors won't be forced to perform sodomy-based wedding ceremonies against their conscience just because a white man in government says they have to. Black churches won't be forced to rent their houses of worship for sodomy-based wedding ceremonies. Black county clerks won't be forced to issue sodomy-based wedding licenses that violate their conscience just because a white boss says she has to.

Blacks who run adoption agencies will be free to place adoptive children in a home with a mother and a father without fear of government discrimination at the hands of some white bureaucrat. Black fire chiefs like Kelvin Cochran won't have to worry about getting fired in Mississippi for believing that marriage is the union of a man and a woman.

In other words, HB 1523 is a brilliantly conceived anti-discrimination bill. It does not foster discrimination, it prevents it. It is a world-class civil-rights bill of which Martin Luther King, Jr. would be justifiably proud. Anybody and everybody who is against invidious discrimination ought to love this law.

Mississippi can proudly take its place now as the leading civil rights state in the Union, providing more legal protections for people of faith and conscience than any other place in America.

But Adams is having none of it. He is evidently happy to drag Mississippi blacks back to the civil rights Stone Age of the 1960s in which their religious principles and rights of conscience had no legal protection, an era in which black pastors could be thrown in jail for standing for principles of liberty and equality.

Adams' apparently believes that black pastors, clerks, non-profit leaders, and wedding vendors in Mississippi have no rights the white man is bound to respect.

And Bruce Springsteen is apparently eager to expose vulnerable young girls to sexual predators who, without the North Carolina bill, would be free to roam public bathrooms, fitness center locker rooms, and public swimming pool shower rooms at will.

So Springsteen is a sexist of the worst sort, and Bryan Adams is bigoted against people of faith, both black and white.

Let's not miss this one last point. Both of these musicians claim they have done what they have done out of conscience. Springsteen said, "Some things are more important than a rock show," and Adams said, "I cannot in good conscience" keep my April 14 concert commitment.

And so flushed with self-righteous indignation and in a high moral dudgeon, they seem spectacularly unaware of their own rank hypocrisy: they get to make business decisions based on conscience but nobody else does.

They preen about declining to use their artistic abilities on the grounds of conscience and high moral principle. But bakers and florists and photographers and adoption agencies are not allowed to do the same. In fact, Springsteen and Adams believe if other people make business decisions based on conscience like they do, the offenders should not be praised but punished to the full extent of the law.

Meet Bruce Springsteen and Bryan Adams: the biggest bullies, bigots and hypocrites on the block.

"The Boss" Praised by Men Who Think They Are Women

ANTHONY ESOLE

As everyone in America knows by now, the old rocker Bruce Springsteen has canceled a concert in North Carolina, because the state passed a law preserving the *status quo ante* as of ten seconds ago, which is that men empty their bowels in the men's room and not in the ladies' room. It should be noted that Mr. Springsteen has made a living from concerts held in states in which men emptied their bowels in the men's room and not in the ladies' room, and that there is not the slightest documentary evidence, or even hearsay, that he has ever made his appearances conditional upon a state's customary recognition of, to use the juridical term, cross-dumping. I myself attended one of his concerts when I was a young man at Princeton, and though we prided ourselves upon our intellectual amorality, even we would have caned any man caught in a women's bathroom, mid-delusion. Nor did Mr. Springsteen,

to my knowledge, call us in advance to ascertain our policy in this regard.

Much has been made of the hypocrisy of the Pubic (and now Plumbic) Left, which hails Mr. Springsteen as a hero for the rights of men who think they are women, while at the same time they cry out for the financial ruin of a Christian couple who politely decline to bake a cake for two women who think they are a man and a woman or a woman and a man, as the mood strikes them. Some of this outcry is not fair to Mr. Springsteen. We must draw distinctions here. There is a difference between a rock star and a pastry baker. The rock star rolls in wealth. The pastry bakers can barely make ends meet. The rock star can work whenever he pleases. The pastry bakers have to work ten hours a day and still must cross their fingers. The rock star doesn't need the engagement. The pastry bakers can hardly afford to turn away a customer. The rock star will get a lot of free publicity, lest people forget that he is still around and is still singing, still modulating his voice between low C and low F and all the many notes in between, still sweating on stage and poising his guitar upon that convenient rest that Nature has provided him in his belly. The pastry bakers want no publicity at all. They just want to be left in peace.

No, there is no comparison. Rock stars are far more important than pastry bakers, in the same way that school principals are more important than parents, inside traders are more important than truck drivers, journalists are more important than people who read books to find the truth, and politicians are more important than everybody. They are more important because they hold the hammer.

There's another difference. The pastry bakers wish to order their actions according to the dictates of conscience. Mr. Springsteen wishes to order his actions according to the dictates of political ideology. Now there is no comparison between conscience and political ideology. Conscience is, as Newman says, that "stern monitor," warning us at the threshold of consent. It tells us what we must not do, even though we would like to do it, or it would be profitable for us to do it. Or it tells us what we must do, even though we would like not to do it, or it would hurt us not to do it. In other words, it warns us against self-indulgence and the neglect of duty. It is not a dispenser of permissions. It is a voice we never find it comfortable to heed. At best we can say, "My conscience is clear"—though whenever I hear someone say that, I reach for my wallet and glance toward the door. Political ideology, by contrast, tells us what we *get to do*—and often enough what we get to do to other people. Breaking eggs to make an omelet: that is how one renowned chef *du politique* put it.

The pastry bakers were following the dictates of conscience, formed by their religious duties. This was not a refusal to serve sinners. They serve sinners all day long. They serve sinners whenever they sit down to lunch. If a fornicator shows up at their bakery and wants a cheese danish, they serve him a cheese danish. He asks for the pastry not as a fornicator but as a human being who happens to be hungry. If a pornographer shows up at their bakery and asks them to cater a birthday party for his three year old nephew, they cater the birthday party. He shows up not as a pornographer but as someone whose three-year-old nephew is having a birthday.

But if the owner of a legal brothel shows up and asks you to cater a party for the hookers, if you are a Christian, you must decline. You cannot lend your support to prostitution. You cannot participate in celebrating it, in any way. If you are polite, you will tell the owner of the soul-gnawing establishment where he or she can take his business; across the street, as may be, or down a certain road towards the everlasting bonfire; but you cannot take part. You *must* not. You hear the words of Jesus ringing in your ears: "Truly I say to you, if a man but looks at a woman with lust in his heart, he has already committed adultery." And, try as you may, you lack the theological sophistication to twist this Jesus, yogi-like, into the requisite pretzel, so that the Master who numbered fornication among the things that come out of a man to make him filthy will now smile upon a prostitution ring—or sodomy, or pornography, or mere garden fornication, for that matter. "I *knew* I should have majored in theology," you mutter; but you decline none the less.

Now, why should the law respect such a thing as conscience, when it does not respect religion at all? Conscience is not to be respected. It is to be crushed flat, under a steamroller. Hence the Pubic Left is *not*

inconsistent when they praise Mr. Springsteen. For *his conscience has nothing to do with the matter*. If he says that his religious faith commands him to wave the banner for cross-dumping, we might ask him to show us precisely where, in his Scriptures, it says, "Thou shalt not prevent the man from relieving himself in the midst of women: I am the Lord." Supposing he could do this, bringing forth to the world a hitherto unknown holy book, we would shrug and tell him that his religion is at least irrelevant, and at most something that we would not mind obliterating as such. If he then says that his *conscience alone* tells him that he must not, in the solemn dread of neglecting his moral duty, sing tuneless old songs to several thousands of his aging fans in a state where—unspeakable horror!—men are not allowed to invade the privacy the women's room, we will ask him why he agreed to sing in that state in the first place, when the norm was then as the law stipulates now. For nothing has changed.

We will also ask what it is about singing songs that pricks his tender conscience. Surely *what he intends to sing* will not have changed? He will not be compelled to sing rallying cries for the *ancien regime*, that one under which he has lived his whole life minus ten seconds. He will not be compelled to participate in a demonstration for keeping men in men's rooms and women in women's rooms. He will not be compelled to do anything about it one way or another. He might even spare himself the dreadful indignity of using the toilet in a public place in that state, and instead merely relieve his bowels and his conscience in the privacy of his own van.

And what of the people with tickets to the concert? His conscience cannot possibly be exercised about them. He does not know them. They stand for nothing, as a group, except that they have the dubious distinction of enjoying his music. For all he knows, they may be eager to engage in cross-dumping themselves, or they may be trying, like nouveaux Pilates, to wash their hands of the whole matter, with anti-bacterial soap. And they, unlike the people who show up at a bakery and say, "Please bake us a cake to help us celebrate our sodomy," are out a lot of money. They have bought tickets. Some will have arranged their work schedules so that they could attend the concert. Some will have bought plane tickets. The pastry bakers breached no contract; they merely declined to make a contract in the first place. Mr. Springsteen has breached a contract, and has hurt people who have nothing to do with the controversy in question.

But the pastry bakers must be ruined, and Mr. Springsteen deserves to have all of Asbury Park wrapped in toilet paper on his behalf. Why is this? It has nothing to do with conscience.

It has to do with politics, and power. Why are we so slow to perceive what is so evident? If you have the right politics, then you are a hero, no matter how rich you are, or how much you hurt others, or how you use your wealth to extort what you want from those talking mealworms, the invertebrate multiplicative politicians. Mr. Springsteen is right because we say he is. The end justifies the means—and the arse justifies the end. There is no hypocrisy here, because there is no cherished ideal to uphold. You have almost to believe in something to be a hypocrite. Nor is there any inconsistency. When smooth talk works, flatter the people and lead them by the nose to where you want them to be. When not—make them an offer they can't refuse. Money talks. So do the doors of a prison."

'Deviation' only word to describe gender theory and homosexual 'marriage': Cardinal Sarah

ROME, April 5, 2016 (LifeSiteNews) — Gender theory, homosexual "marriage" and "the negation of the difference between man and woman are all deviations," Cardinal Robert Sarah told Italians recently at a presentation of his book *God or Nothing*.

In France, "they corrected me, they said I cannot use the word 'deviation', but I would not know which other word to use," added the prefect for the Congregation for Divine Worship and the Discipline of the Sacraments.

"I also cannot deny that God created man and woman."

Italian journalist Marco Tossatti reported the cardinal's outspoken remarks on gender theory, which Catholic writer Maïke Hickson has translated into English.

"Even fools recognize that, between a man and a woman, there is a difference and a complementarity. Man is nothing without a woman and vice versa," Sarah said.

"This is not my own position, this is the position of the Church, and all Christians, all families, are called to fight against this deviation."

"I do not understand how the European culture – so steeped in Christianity – could get to such a point," noted Sarah.

The cardinal's book *God or Nothing: A Conversation on Faith*, published January 2016, is a wide-ranging interview between the Guinean cardinal and French journalist Nicholas Diat in which the cardinal asserts, among other things, that "the most difficult thing for the postmodern world is to believe in God and in his only Son."

According to Pope Emeritus Benedict XVI, Sarah's book also offers "courageous answers to the problems of gender theory" that "clear up in a nebulous world a fundamental anthropological question." The former pontiff noted he read it with "great spiritual profit, joy and gratitude."

Here's how the Catechism of the Catholic Church treats homosexuality:

2357 Homosexuality refers to relations between men or between women who experience an exclusive or predominant sexual attraction toward persons of the same sex. It has taken a great variety of forms through the centuries and in different cultures. Its psychological genesis remains largely unexplained. Basing itself on Sacred Scripture, which presents homosexual acts as acts of grave depravity, tradition has always declared that "homosexual acts are intrinsically disordered." They are contrary to the natural law. They close the sexual act to the gift of life. They do not proceed from a genuine affective and sexual complementarity. Under no circumstances can they be approved.

2358 The number of men and women who have deep-seated homosexual tendencies is not negligible. This inclination, which is objectively disordered, constitutes for most of them a trial. They must be accepted with respect, compassion, and sensitivity. Every sign of unjust discrimination in their regard should be avoided. These persons are called to fulfill God's will in their lives and, if they are Christians, to unite to the sacrifice of the Lord's Cross the difficulties they may encounter from their condition.

2359 Homosexual persons are called to chastity. By the virtues of self-mastery that teach them inner freedom, at times by the support of disinterested friendship, by prayer and sacramental grace, they can and should gradually and resolutely approach Christian perfection."

50 Years of Sex Changes, Mental Disorders, and Too Many Suicides

by Walt Heyer

within Bioethics, Healthcare, Science, Sexuality

February 2nd, 2016

Early pioneers in gender-reassignment surgery and recent clinical studies agree that a majority of transgender people suffer from co-occurring psychological disorders, leading tragically high numbers to commit suicide. Outlawing psychotherapy for transgender people may be politically correct, but it shows a reckless disregard for human lives.

Dateline Oct 4, 1966: *The New York Daily News* gossip column reported a girl was making the rounds in Manhattan clubs who admitted to being

a man in 1965. She had undergone a sex-change operation in Baltimore at the Johns Hopkins gender clinic.

By 1979, thirteen years later, enough gender surgeries had been performed to evaluate the results. It was time for a report card based on actual patients.

1970s: How effective was the change surgery? What were the outcomes for transgender people?

The first report comes from Dr. Harry Benjamin, a strong advocate for cross-gender hormone therapy and gender-reassignment surgery, who operated a private clinic for transsexuals. According to an [article](#) in the *Journal of Gay & Lesbian Mental Health*, "By 1972, Benjamin had diagnosed, treated, and befriended at least a thousand of the ten thousand Americans known to be transsexual."

Dr. Benjamin's trusted colleague, endocrinologist Charles Ihlenfeld administered hormone therapy to some 500 transgender people over a period of six years at Benjamin's clinic—until he became concerned about the outcomes. "There is too much unhappiness among people who have the surgery," he said. "Too many of them end as suicides. 80% who want to change their sex shouldn't do it." But even for the 20% he thought might be good candidates for it, sex change is by no means a solution to life's problems. He thinks of it more as a kind of reprieve. "It buys maybe 10 or 15 years of a happier life," he said, "and it's worth it for that."

But then, Ihlenfeld himself never had a sex change. I did, and I disagree with him on that last point: The reprieve is not worth it. After I had a reprieve of seven or eight years, then what? I was worse off than before. I looked like a woman—my legal documents identified me as a woman—yet I found that at the end of the "reprieve" I wanted to be a man every bit as passionately as I had once yearned to be a woman. Recovery was difficult.

Nevertheless, based on his experience treating 500 transgenders, Dr. Ihlenfeld concluded that the desire to change genders most likely stemmed from powerful psychological factors. He said in *Transgender Subjectivities: A Clinician's Guide*, "Whatever surgery did, it did not fulfill a basic yearning for something that is difficult to define. This goes along with the idea that we are trying to treat superficially something that is much deeper." Dr. Ihlenfeld left endocrinology in 1975 to begin a psychiatry residency.

About three years ago, while writing my book *Paper Genders*, I was curious and called Dr. Ihlenfeld to ask if anything had changed his mind about the remarks he made in 1979. Ihlenfeld was polite to me on the phone and quickly said that no, nothing had changed his mind. It is interesting in today's atmosphere of political correctness that Dr. Ihlenfeld, a homosexual, holds the view that gender-reassignment surgery isn't the answer to alleviate the psychological factors that drive the compulsion to change genders. I appreciate his honest, clinical evaluation of the evidence and refusal to bend the medical results to fit a particular political viewpoint.

Next let's take a look at the Johns Hopkins University Gender Clinic where the transgender girl gossiped about in the *New York Daily News* had her surgery. Dr. Paul McHugh became director of psychiatry and behavioral science in the mid-1970s and asked Dr. Jon Meyer, director of the clinic at the time, to conduct a thorough study of the outcomes of people treated at the clinic. McHugh says,

[Those who underwent surgery] were little changed in their psychological condition. They had much the same problems with relationships, work, and emotions as before. The hope that they would emerge now from their emotional difficulties to flourish psychologically had not been fulfilled.

In 2015 I sat across from Dr. McHugh in his office at Johns Hopkins University and asked him the same question I had asked Dr. Ihlenfeld: Had anything changed his mind regarding surgically made genders? McHugh told me that he has yet to see a medical justification for the surgical alteration of genitalia and that it is the obligation of medical practitioners to follow the science where it leads, rather than ignoring the science to advance political correctness.

These two powerful and influential doctors were early pioneers in the treatment of transsexualism. Dr. Ihlenfeld is a homosexual psychiatrist;

Dr. Paul McHugh is a heterosexual psychiatrist. Both came to the same conclusion, then and now: Having surgery did not resolve the patients' psychological issues.

2000s: Were the psychological factors from the Hopkins and Benjamin clinics supported by later studies?

Studies show that the majority of transgender people have other co-occurring, or comorbid, psychological disorders.

A [2014 study](#) found 62.7% of patients diagnosed with gender dysphoria had at least one co-occurring disorder, and 33% were found to have major depressive disorders, which are linked to suicide ideation. Another [2014 study of four European countries](#) found that almost 70% of participants showed one or more Axis I disorders, mainly affective (mood) disorders and anxiety.

In 2007, the Department of Psychiatry at Case Western Reserve University in Cleveland, Ohio, committed to a clinical review of the comorbid disorders of the last 10 patients interviewed at their Gender Identity Clinic. They found that "90% of these diverse patients had at least one other significant form of psychopathology . . . [including] problems of mood and anxiety regulation and adapting in the world. Two of the 10 have had persistent significant regrets about their previous transitions."

Yet in the name of "civil rights," laws are being passed at all levels of government to prevent transgender patients from receiving therapies to diagnose and treat co-occurring mental disorders.

The authors of the Case Western Reserve University study seemed to see this legal wave coming when they said:

This finding seems to be in marked contrast to the public, forensic, and professional rhetoric of many who care for transgendered adults . . . Emphasis on civil rights is not a substitute for the recognition and treatment of associated psychopathology. Gender identity specialists, unlike the media, need to be concerned about the majority of patients, not just the ones who are apparently functioning well in transition.

As [one who went through the surgery](#), I wholeheartedly agree. Politics doesn't mix well with science. When politics forces itself on medicine, patients are the ones who suffer.

What about the suicides?

Let's connect the dots. Transgender people report attempting suicide at a staggering rate—above 40%. According to Suicide.org, 90% of all suicides are the result of untreated mental disorders. Over 60% (and possibly up to 90% as shown at Case Western) of transgender people have comorbid psychiatric disorders, which often go wholly untreated.

Could treating the underlying psychiatric disorders prevent transgender suicides? I think the answer is a resounding "yes."

The evidence is staring us in the face. Tragically high numbers of transgender people attempt suicide. Suicide is the result of untreated mental disorders. A majority of transgender people suffer from untreated comorbid disorders—yet against all reason, laws are being enacted to prevent their treatment.

I write out of [deep concern for the transgender men and women who attempt suicide](#), who are unhappy, and who want to go back to their birth gender. The other ones—those who appear to be functioning well in transition, at least for now during their "reprieve"—are celebrated in the media. But I hear from others—the ones who prefer to stay hidden, who are contemplating suicide, whose lives are torn apart, who have had the surgery but still have debilitating physical or psychological issues—the ones whose reprieve is over.

In the 1970s and now, gender-reassignment surgery is routinely performed when requested. Transgender people are the one population allowed to diagnose themselves with gender dysphoria solely on the basis of their desire for sex-reassignment surgery, and not because the medical community has found objective proof that such surgery is medically required.

After fifty years of surgical intervention in the United States, a scientific basis for surgical treatment of transgender people is still lacking. A task force commissioned by the American Psychiatric Association did a [review of the literature](#) on the treatment of gender identity disorder and

in 2012 stated, "The quality of evidence pertaining to most aspects of treatment in all subgroups was determined to be low." In 2004, the review of more than 100 international medical studies of post-operative transsexuals found "no robust scientific evidence that gender reassignment surgery is clinically effective."

We hear the echoes from the pioneers at the Hopkins and Benjamin clinics and see their early conclusions confirmed in today's studies, showing again and again that psychiatric and psychological disorders exist in the psyches of gender-changers—but who is paying attention?

Scorn and vilification await anyone who dares to suggest that psychotherapy is needed to effectively treat gender dysphoria. Dr. McHugh, Dr. Ihlenfeld, and others like them display great integrity when they publicly raise concerns about psychological issues existing in the gender-changers, and when they push back against the "steamroller approach" of treatment that provides hormones and reassignment surgery without first pursuing less-invasive and life-altering treatment.

Advocates and trans-clients fear that if a psychologist or a psychiatrist looks too deeply into the patient's psyche they could discover the presence of a disorder that, if properly treated, would take away the dream of sex change, a fantasy they nurtured most of their lives. Living in denial is often a means of escape, a way to avoid looking back at early childhood events and doing the hard work of dealing with a painful past. The causes of these disorders lie buried so deep, and stirring them up leads to such high levels of anxiety, that changing one's identity and appearance—while extreme—seems preferable.

Thirty-three years ago I underwent gender-reassignment surgery only to discover it was a temporary reprieve, not a solution to the underlying comorbid disorders. I have written books, published articles, and spoken publicly around the world to enlighten people on the prevalence of suicide among transgender people and on the risks and regrets of changing genders.

Television networks such as ABC that glamorize transgenders like Bruce Jenner, in his psychological turmoil, do a great disservice to transgender people and to those who treat them by denying them a safe environment in which to tackle the deeper issues of comorbid disorders and suicide. Continuing to ignore history and the warnings in studies and reports—however inconvenient or politically incorrect they may seem—is no solution to the treatment of psychological disorders. Ignoring suicides will not help to prevent them. Outlawing certain medical interventions when we know that 90% of suicides are due to untreated mental disorders and that a majority of transgender people have coexisting psychological disorders doesn't advance effective treatment protocols; it shuts down the freedom to follow where science leads.

Allowing a political agenda to override and silence the scientific process will not prevent suicides or lead to better treatments for this population. It's not compassion; it's reckless disregard for people's lives.

Public School LGBT Programs Don't Just Trample Parental Rights. They Also Put Kids at Risk.

by Walt Heyer
within Education, Marriage, Sexuality

June 8th, 2015

No matter what well-intentioned teachers and administrators believe, LGBT acceptance programs designed by GLSEN and funded by the CDC are designed to encourage kids to question their gender identity and sexual orientation.

Through his executive appointments, President Obama has helped expose American schoolchildren to activism that places them at risk.

On May 19, 2009, a few short months after his inauguration, Obama gave the green light to Secretary of Education Arne Duncan to appoint

Kevin Jennings to a top position to influence school policy: the post of Assistant Deputy Secretary for the Office of Safe and Drug-Free Schools, also known as the "safe schools czar." Jennings, a powerful LGBT rights activist who is himself a gay man, was the founder of the Gay, Lesbian, and Straight Education Network (GLSEN). GLSEN is one of the largest LGBT activist organizations in the nation and is devoted to promoting homosexuality in K-12 schools. Jennings served as "safe schools czar" from 2009-2011.

Given his connection with the organization, we should not be shocked to discover that GLSEN received a grant from the Centers for Disease Control in 2011 for \$1.425 million over five years to promote the LGBT agenda in public schools at taxpayers' expense. Through these publicly funded in-school programs, kids are being bombarded with the message that same-sex attraction and gender-identity confusion are innate and therefore not changeable.

Those who design these programs probably believe that they are offering hope to children who may feel different, flawed, or unlovable. They believe that if they affirm children's LGBT identities as something positive, something that makes up the core of who they are, the children will fare better.

This is not the case. No matter what well-intentioned teachers and administrators believe, these programs ultimately entail an agenda that hurts kids. The messages these programs send do nothing to combat the tragically high suicide rates among the LGBT community. Data indicate that kids are actually put at risk when schools encourage them to identify themselves as gay or transgender at an early age. For each year children delay labeling themselves as LGBT, their suicide risk is reduced by 20 percent.

I'm passionate about this issue because I was a trans-kid myself. I know how easy it was for my grandma to manipulate me into thinking I should change genders. Young trans-kids need to know they were not born that way, and that most will no longer have a desire to change genders once they grow into adulthood. Parents need to know that up to 94 percent of school-age kids who identify as transgender will grow out of their desire to change genders as adults—if parents and schools stop encouraging them to internalize and publicize their LGBT identities.

The Power of Childhood Influences

I'm not sure we truly understand how easily young people's thinking about gender identity can be influenced by parents, television shows, and teachers who encourage them to explore new genders. During early childhood development, kids learn gender roles from observation within the family setting, peers, television, and school. They use their imagination, actions, and language to play-act what they see.

GLSEN capitalizes on the impressionable, imaginative nature of young children by designing and implementing programs for children as young as kindergarten. Consider their toolkit for elementary educations, Ready, Set, Respect! GLSEN knows that the elementary years are a prime opportunity to encourage kids to reject the values of their parents. The handbook outlines a variety of activities that gradually introduce and reinforce the messages that gender is a social construct, that moms and dads are interchangeable, and that anyone who says otherwise is hateful and prejudiced.

Along with lessons designed to help kindergarten through fifth-graders to "explore the definition of a family and to understand that there are a variety of family structures" and to "challenge their own and other's [*sic*] assumptions about gender and gender roles," the guide recommends a variety of books and videos to help cement the lessons. *Asha's Mums*, for example, teaches third- through fifth-graders that "having two mums is no big deal." An additional discussion guide goes into greater detail about books such as *And Tango Makes Three*, which is recommended for pre-kindergarten through third-graders:

This book talk is designed to help students realize that there are different family structures including families led by LGBT parents. This is the true story of Roy and Silo, two male penguins who share a nest like other penguin couples, and who are given an egg in need of nurturing. . . .

Conclude by telling students that Tango's family is just one kind of family. Ask them if they think there is a certain number of kinds of families and how they know that. Let students know that through

your life you have discovered and met and continue to meet different kinds of families and that you're not sure there is a certain number of possibilities.

Other books, such as *10,000 Dresses* and *My Princess Boy*, are listed as resources to help children who are "Exploring Non-Traditional Gender Roles." While parts of the lesson plans are correct and even healthy (yes, girls can climb trees and boys can play with dolls), encouraging cross-gender identification at such a young age can have painful, long-lasting consequences. Inadvertently manipulating the minds of young people by suggesting that their "real" gender might not match their body can shape how they think, feel, and behave for years to come.

As someone whose grandmother lavished me with affirmations as she cross-dressed me as a girl, I am concerned by the growing trend in schools of encouraging kids to change genders. The activists have convinced the parents this will do no harm. I have traveled this path, and I can tell you: childhood influences matter.

Events and "Research"

GLSEN website provides an LGBT inclusive curriculum to help educators develop lessons that include "positive representations of lesbian, gay, bisexual and transgender (LGBT) people, history, and events."

The GLSEN student calendar for grades six through twelve is full of events and suggestions for how to celebrate them: LGBT History Month, LGBT Pride Month, National Coming Out Day, and Ally Week, which is touted as "a week where we can have vital conversations to move the movement forward toward our collective queer liberation!"

What other external organizations are granted access to shaping school curricula and activities? I would venture to say that GLSEN is one of the most provocative. Parents take note: the organization aided by taxpayer funds and influencing schools is the one devoted to the LGBT cause.

In order to justify the need for LGBT curricula, clubs, and programs to be included in the classroom, GLSEN often cites the National School Climate Survey, which they conduct every two years. References to the survey are peppered throughout their educator's guides, student programs and campaigns, and press releases, with such phrases as "Research shows . . ." The problem is: the sampling is flawed.

Basic principles of statistics and probability state that generalizations about a population from a sample are valid only if the sample is representative of that population. Random sampling is the best way to do that. Read the survey and it's obvious that the sampling is not random and not representative of US students. In fact, it is a "self-selected" sample, which means that anyone can elect to take the survey, which is freely available on their website. For example, a transgender man in his seventies can fill out the survey posing as a student, which I did to illustrate how flawed the selection process is. The problem of self-selection is that such polls are biased toward people with strong opinions.

Politics, Bullying, and the Science of Sexual Orientation

These problematic school programs are both a symptom and a cause of our culture's continuing confusion about gender and sexuality. When it comes to the nature of sexual identity and orientation, scientific studies with findings that run contrary to the party line are squelched or dismissed out of hand. Researchers who dare to follow where the data lead and to question existing premises are lambasted and risk being professionally marginalized.

One example of this is the bullying of Dr. Robert Spitzer, a leading figure in the study of homosexuality. Spitzer's work was embraced and celebrated by LGBT rights activists until he authored a study in 2003 called Can Some Gay Men and Lesbians Change Their Sexual Orientation? 200 Participants Reporting a Change from Homosexual to Heterosexual Orientation. The study abstract finishes with the line: "Thus, there is evidence that change in sexual orientation following some form of reparative therapy does occur in some gay men and lesbians."

Here was a case of a prominent scientist following his curiosity, challenging position statements about reparative therapy (also known disparagingly as "conversion therapy") made by major mental health organizations in the United States, and publishing the objective results of

what he found. For this, he was attacked mercilessly. After nearly a decade of public, personal, and professional assault, eighty-year-old Spitzer recanted his views in May 2012 and issued a letter of apology to the gay community.

Now, President Obama is advocating a ban on psychotherapy that suggests sexual orientation and the desire to change genders are themselves changeable. His administration has issued this statement: "As part of our dedication to protecting America's youth, this Administration supports efforts to ban the use of conversion therapy for minors."

More research needs to be done into the nature of sexual orientation and sexual identity. However, current research suggests that by intervention and encouragement, school programs designed by LGBT rights activists are encouraging children to self-identify in ways that are harmful to their psychological well-being. Rather than allowing the scientific community the space to objectively study these issues, and giving members of the psychiatric profession room to respond to the freely stated needs of the children who come to them, politicians who are hungry for public approval are zealously working to outlaw appropriate and effective psychotherapies for kids who want them.

It's Time to Protect Our Kids

I understand the impulse that probably motivates many people to encourage young children to embrace an LGBT identity. After a lifetime of feeling like "a woman trapped in a man's body," I underwent gender reassignment surgery and lived as a woman for years. I was convinced that this was the right decision, and that this was an option that everyone should have for the sake of their happiness and psychological well-being.

I was wrong. My gender change only brought temporary relief; it did nothing to combat my underlying psychological disorder. My suffering brought me close to suicide. Years after my gender change, I underwent traditional therapy and successfully restored my masculinity and my sanity. Effective psychotherapy and my faith proved to me that changing genders is not a medical necessity.

I have written extensively about the lack of evidence that changing genders is medically necessary. What I didn't expect was for the State of California to agree with me. On May 5, California officials asked a federal court to block a judge's order that the state provide sex-reassignment surgery for a prisoner. The state officials argued that "no treating physician has ever determined that reassignment surgery is medically necessary [for the prisoner in question]."

The State of California is willing to argue for protecting a prisoner from unnecessary surgery, but the same state is unwilling to step in and protect the personal privacy of non-transgender school children in restrooms and locker rooms. With Assembly Bill 1266, California became the first state in the nation to require public schools to allow transgender students to use restrooms and participate on sports teams matching the gender with which they identify, rather than their biological sex.

Homosexuals and transgendered people, like all other citizens, should be protected by law from violence and abuse. But that doesn't change the principle that parents should have access to public education for their children that does not push an ideological sexual and political agenda based on a vision of the human person that many parents deeply disagree with, especially when significant evidence suggests that the messages embedded in these school programs can be harmful to children.

Control of schools should belong to parents, not to the federal government and activist organizations such as GLSEN.

Walt Heyer is an author and public speaker with a passion to help others who regret gender change. Through his website, SexChangeRegret.com, and his blog, WaltHeyer.com, Heyer raises public awareness about the incidence of regret and the tragic consequences suffered as a result. Heyer's story can be read in novel form in Kid Dakota and The Secret at Grandma's House and in his autobiography, A Transgender's Faith. Heyer's other books include Paper Genders and Gender, Lies and Suicide."

Representative Saiki moved that H.B. No. 2311, SD 1 pass Final Reading, seconded by Representative Evans.

Representative Jordan rose to speak in support of the measure with reservations, stating:

"With reservations, Mr. Speaker. A few words. I know many of you keep wondering why do I stand up on this with reservations. Well, I'd like to go no, but I can't go no on this measure, because the information that we transmit from the Department of Health to agencies like Department of Human Services and other state agencies that deal with maybe providing health insurance for an individual who may pass away and we're still paying those premiums, but once we're notified of the death of that individual, we can stop that cost to the State and paying those premiums for somebody who may be deceased.

"My reservations on this, Mr. Speaker, actually stands for, in 2014 we gave the authorization to Department of Health to transmit this information to other departments. Because in some avenues, it's illegal under the federal law. And we gave them a sunset period of two years, which ends this year, because Department of Human Services was standing up an electronic platform that was going to be transmitting this information between our state agencies and automatically doing these checks and balances and saving the state money. Unfortunately, that platform hasn't been set up.

"So we have a department coming back and saying, hey can you extend it two more years? And, oh, by the way, we're going to authorize giving the last four digits of their social security number to help out those departments find these identified individuals.

"So that's where my reservations really stand. We need to be putting the feet to the fire in these departments and finishing what they've come in here and asked for. Finish the platforms, start doing that information electronically, so we don't have to provide lists to individuals that have information to these documents and provide the protection for these individuals. Even though they may be deceased, no longer in our state, at the end of the day we're trying to save money. But at the end of the day, we must hold our agencies or our departments accountable for the promises they commit to us that we provide dollars for.

"And that's where my reservations really stand with this. It's not necessarily transmitting the information between the departments, it's making those departments be more accountable for what they promised us and we provide those dollars for. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and H.B. No. 2311, SD 1, entitled: "A BILL FOR AN ACT RELATING TO REPORTING DEATHS TO STATE AGENCIES," passed Final Reading by a vote of 49 ayes, with Representative Jordan voting aye with reservations, and with Representatives Ing and Oshiro being excused.

Representative Nakashima's written remarks are as follows:

"Mr. Speaker, I rise in support of this resolution that helps to preserve and ensure a very special resource that we have at Waipio Valley in my district on the Big Island. This resolution requests that the Waipio Valley Alliance assume the responsibility for inviting taro farmers, residents, property owners, Kamehameha Schools, Bishop Museum, and other stakeholders to discuss the future stewardship, as well as environmental and cultural uniqueness, of Waipio Valley for future generations.

"For three decades, the State has recognized this important cultural resource and attempted to take steps to ensure its preservation with marginal success. The recent announcement by Bishop Museum expressing the need to divest itself of their Big Island landholdings, including much of Waipio Valley, has renewed this discussion and urgency for action, sooner, rather than later.

"With this resolution, the Legislature has placed the future of Waipio into the hands of those closest to the situation – the residents and families of the valley who have invested generations of nurturing and care to make Waipio Valley the very special place that it is today. With this resolution, we are asking that the stakeholders in Waipio Valley provide the Legislature with a plan for implementation that would ensure the future stewardship of this very special resource while balancing this desire with the dynamic community that shares the valley and its resources today.

"It is my hope that this plan will once and for all settle the future preservation of the cultural and environmental significance of this natural resource while ensuring that the management will be able to change and adapt to address the needs and interests of the valley's stakeholders.

"Aloha."

The motion was put to vote by the Chair and carried, and H.C.R. No. 162, SD 1, entitled: "HOUSE CONCURRENT

Representative DeCoite rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"There are many conflicting stories that have made many of us confused about this bill. DLNR and CWRM have impacted all farmers and ranchers in the process. The people of East Maui have waited patiently and far too long for justice to be served. Because of lack of attention to this matter, many have been put at risk at the sake of your department. Though a task force has been created, I don't have much faith in your process. I would expect while we are waiting for the inflow streams, we should have the capabilities to restore water effective immediately. Take that into consideration and do what is right. We need to make sure that the agency that created the task force will move forward and be *pono*. *Pono*, in setting policy and criteria to make sure that this is a fair process without prolonging it unnecessarily. I will continue to advocate and make sure that things are *pono* for all."

Representative Matsumoto rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Matsumoto's written remarks are as follows:

"I rise in opposition."

"The purpose of this bill is to address a water rights lease during the application process, but legal experts in environmental issues and water rights have weighed in and parties cannot agree on what the ramifications of this bill are. When asked whether this bill will affect revocable permits other than Alexander & Baldwin, the Attorney General stated, 'The answer is there will be no immediate effect either way.'

"The language in the bill discusses only an application for a lease, and thus we cannot be certain that this will affect the farmers and ranchers with revocable permits. Again, the Attorney General sees no immediate effect."

"What we do know is that our water must be conserved and protected under our Constitution. It is our constitutional mandate to 'promote the development and utilization of [water] in a manner consistent with [its] conservation and in furtherance of the self-sufficiency of the State.'

"We are mandated by the Constitution to enact laws to protect our water. The court holds the responsibility to interpret the laws we pass."

"While this bill intends to address current issues in the leasing process, it also appears to create an environment in which the judicial process is minimized. The courts have ruled on and continue to look at the complicated water and land issues of our islands. It may prove short-sighted to legislate for a particular situation and bypass the judicial branch."

"I would like to add a caveat to my previous statement. Coming from a small family farm background, I understand firsthand how many of the decisions made in this body sometimes inadvertently hurt farmers, either by passing or killing legislation. If this bill fails and the farmers and ranchers that provide food sustainability to our state become collateral damage, I commit to being at the front of the line to find a solution."

"However, in this case, it is my understanding this bill won't affect those with current permits; thus we must act in the best interest of our land and precious resources."

Representative Yamane rose to speak in support of the measure, stating:

"In support. In the nature of the discussion, written comments."

Representative Yamane's written remarks are as follows:

"Thank you, Mr. Speaker, I rise in support of HB 2501, Relating to Water Rights. The purpose of this bill is to temporarily provide the authority to the BLNR to issue a 'holdover' of a previously authorized lease during the pending status of an application for lease renewal for the next three years."

"Mr. Speaker, the recent judicial ruling of *Carmichael et. al. vs. Board of Land and Natural Resources*, created a very serious situation for agriculture and water use throughout the State as well as question the validity of the BLNR's use of water and land revocable permits. Furthermore, in her ruling, Judge Nishimura opined that although HRS Sections 171-10 and 171-55 authorize 'temporary' use of public lands, BLNR's previous issuance of a 'holdover' was inconsistent with HRS Chapter 171."

"To address this ruling, the Attorney General's Department explains that, 'this bill, if passed would allow the BLNR to authorize the holdover of the revocable permit until the contested case is decided'. The opinion continues, that 'under the current law, the situation that required the Board of Land and Natural Resources to place the revocable permits into holdover status is still capable of occurring in the future. The Legislature has the opportunity to address this situation by passing the proposed legislation.'

"Maui's situation is unique since these are presently the only revocable permits in 'holdover' status right now."

"However, as of December of 2015, nine other water revocable permits can be supported by this bill's issuance of a 'holdover' status, including:

- Hawai'i Island's Electric Light Company's hydroelectric plants;

- Ka'u Agricultural Water Cooperative District's supporting local farmers and ranchers; and
- Kaua'i Island Utility Cooperative's hydroelectric plants to supply electricity to Kaua'i residents.

"Mr. Speaker, earlier this year Hawaiian Commercial & Sugar Company announced the closure of Maui's only sugar plantation operations. For over 130 years, this sugar plantation thrived as a major employer and economic driver for the Island of Maui.

"This closure has had a very real impact on peoples' lives, as over 650 people have lost their jobs. Hawaii's Department of Labor and Industrial Relations and Maui's Office of Workforce Development Division have been working with the affected HC&S workers. To assist these workers, the U.S. Department of Labor awarded over \$2 million to the State of Hawaii to provide case management services, retaining, relocation support, and supportive services to assist HC&S workers to return to gainful employment.

"Mr. Speaker, if it was not for the water provided by East Maui over the past 130 years, 36,000 acres of Central Maui land would not have thrived as agricultural land.

"Maui, like the rest of our state, is facing drastic change with the closure of the Hawaiian Commercial & Sugar Company. This is the end of an era for Hawaii's history. Our history is rich in agricultural production. We must decide whether our intent as a legislature is to keep these 36,000 acres of Central Maui land as agricultural land.

"We know, however, that we need water for our agriculture to thrive. If we do not continue to share water from East Maui to Central Maui, we risk losing this vast agricultural production area for our state.

"The owner of these 36,000 acres announced their intent to keep these lands under an agricultural designation to produce diversified agriculture.

"The vision for this diversified agriculture includes: biofuel crops to support our state's clean energy goals, irrigated pastures for local ranchers, food crops, and an agricultural park available to community farmers.

"In order to support this diversified agriculture, the Department of Agriculture predicts the need to use 3,500 gallons of water, per acre, per day. Using this calculation, all 36,000 acres will require a total of 126 million gallons of water per day to sustain diversified agriculture across Maui's Central plain.

"The water shared by East Maui can sustain this substantial yield for diversified agricultural production in Central Maui.

"Members, according to the Land Use Commission, 75% of these agricultural lands –over 27,000 acres –of Central and Upcountry Maui lands are classified Important Agricultural Lands pursuant to HRS Section 205-44.

"By declaring these 27,000 acres as Important Agricultural Lands, there is a compelling state interest in conserving the State's agricultural land resource base and assuring the long-term availability of these agricultural lands for future use to: conserve and protect agricultural lands, promote diversified agriculture, increase agricultural self-sufficiency, and to assure the availability of agricultural self-sufficiency.

"Members, without a 'sufficient supply of water' as explained HRS Section 205-50, we as a state risk losing the designation of these 27,000 acres of Important Agricultural Lands.

"This bill is only a temporary resolution in sharing Maui's water. However, the landowner pledged to fully and permanently restore water to seven East Maui streams forever.

"Presently, the Commission on Water Resource Management is again reviewing the State's recommendation to increase and restore an additional 18 million gallons of water per day to 10 of the East Maui streams, which will provide the necessary water for *kalo* farmers in East Maui.

"Finally, this bill will require that the 'holdover' permits be renewed annually for only three consecutive, one-year holdover permits. We have ensured through this bill that the holdover must be consistent with the State's public trust doctrine. We are requiring annual reports to be submitted by the DLNR to the Legislature for the next four years, and plan to repeal this bill in 2019.

"To further assist the DLNR, we as a legislature have also added two positions to expedite lease applications in the state budget. We have also budgeted \$1.5 million for a U.S.G.S. study on streams throughout the State. Members, the state budget further finances another \$1.5 million to the Department of Agriculture and an additional \$3 million to the Department of Land and Natural Resources for the plans, design and construction for irrigation and the improvement of water delivery systems in East Maui.

"Members, this legislation will address what will happen if and when these circumstances occur again on all islands. This bill, if passed, will allow the Board of Land and Natural Resources for the next three years the ability to resolve applications to continue a previously authorized water use in order to prevent its abrupt cessation and the resulting negative social and economic impacts that would threaten our communities.

"Members, this is only a temporary measure to address the problem caused by a lack of action and extensive litigation in the past. Let us be a forward-thinking legislature, let us protect our *'āina*, and support the preservation of our agricultural lands."

Representative Tupola rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. A no vote, please. And permission to enter my comments from the last reading of the bill. Thank you," and the Chair "so ordered." (By reference only.)

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ing rose to speak in opposition to the measure, stating:

"In opposition. I was with reservations before, changing to opposition now over some of the facts that have been revealed. I have some comments too, briefly.

"In a previous speech, I detailed some false claims made this session about water availability, claims repeated throughout session about statistics on gallons per day. How much can be pumped, how much water is brackish and so on. I believe that the facts, when they're all laid out, it's clear that this bill represents a choice between decimating local *kalo* farmers and slightly cutting into a corporation's bottom line.

"But to understand this, or any natural resource issue in Hawaii, we need to understand our history. Centuries ago, my ancient Hawaiian ancestors understood that naturally flowing water wasn't something you could simply own. You could borrow it from the *'āina* to use as you needed for your family's subsistence as a steward of a balanced ecosystem. That principle was not just for some but for all, it went all the way to the top level. Even the chiefs or king could not own the streams. Rather, they exercised control as trustees of a public resource.

"Now, that changed in the plantation era, where a small group of wealthy businessmen diverted water without consent from *kalo* farmers across our state. It decimated Hawaiian families, it desecrated sacred waterfalls, and it terminated small Hawaiian farms, all for the sole benefit of just five wealthy missionary families. That spurred lawsuits that persisted, well, until today.

"Now, no one here will argue against the notion that the Big Five may have acted immorally or exploitative at that time. Looking back at history, we recognize the wrongs that were done. But our question here tonight is, do we have the courage to correct this injustice right here on the House Floor?

"I've been challenged, Mr. Speaker, by industry folks saying, Kaniela, you need to understand that too many struggling working people, too many Hawaiians rely on the plantation to make a living. So I answered respectfully, you need to understand that is the problem.

"I believe local people are ready for self-determination. Many will say that we cannot make it on our own, that we must continue to fall in the rank and file and be thankful for what we are handed under the table. But that's not what I see when I look at Hawaiians and working families. Graduating from universities and starting businesses in record numbers, creating jobs and industry, preserving miles of pristine agricultural land, making waves both at home, nationally and abroad. I believe that we have the capacity, the education, the foresight to take our futures, our local economy, into our own hands, the citizens right here in Hawaii, without relying on mainland-owned corporations. Let the end of the plantation era signal the end of the plantation mentality.

"You see, I was born and raised and come from seven generations on Maui. I come from a working family, I worked in the pineapple fields as a teenager to help my widowed mom with family bills. So I understand the struggles of plantation workers. I would not be here today if not for Maui's plantation history.

"But more than ever before, Maui is at a crucial crossroads. And the people we serve have privileged us with a tremendous power to make decisions like these that will shape the next seven generations.

"Growing up, my father would drive my older brother and I to the beach in Kihei every Sunday after church in Upcountry. He'd point out across the vista of sugar and he'd have us say a prayer of thanks for the island we were blessed to be born on. But he would tell us that within our lifetime, all the sugar will be gone and we'll have the duty to decide what comes next.

"Today we decide, do we want that future to remain in the hands of the Big Five, or do we wish to give the people of Maui a chance to determine their own future.

"This battle isn't unique to Hawaii, it's not just happening now. A similar battle took place in Arizona where a small group of organizers, activists led by John Muir, decided that this is a great canyon we're looking at and I wish this was preserved in perpetuity.

"Now, the biggest interests at the time, the local politicians, they were beholden to industry, and the idea was, absolutely not. It took the federal government, Teddy Roosevelt, to come in and declare the Grand Canyon a national monument. Now, history is kind to these folks. When we think about the next generation before the next election..."

Representative Say rose to yield his time, and the Chair "so ordered."

Representative Ing continued, stating:

"Thank you, Speaker Emeritus. So let us have the courage in our hearts and the distance in our eyes like Teddy Roosevelt. Because today not a single Arizonian, not an industry person, not an environmentalist, thinks that was a bad decision, to preserve the Grand Canyon.

"It used to be the case before national parks, which have a parallel to our public trust doctrine, that the only time you can have wilderness preserved is when a wealthy nobleman decides to issue a decree. I think what makes America unique in our national park system, we're the first to do it, is that we don't have to rely on a rich nobleman. National parks, and in Hawaii our public trust doctrine, is an example of what democracy looks like at its best, when it's working.

"This session I've been hugged and kissed by elders from my home island of Maui, thanking me for standing for our water. My cheeks are soaked with the tears of my *kūpuna*, and I long to wash these tears away under waterfalls that will be regained from the stone into which they have withered.

"Many of you know that water in Hawaii means *wai*. And Hawaii without *wai* is just *ha'i*, which means broken. If we make a decision today against our courts, against the will of our people, for the sole benefit of a corporate plantation, we will reveal that our democracy is broken. Mr. Speaker, let's restore our streams. Thank you."

Representative Tsuji rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Tsuji's written remarks are as follows:

"Your Committee on Agriculture frequently hears testimony attesting to the goal of increasing amounts of locally grown food. To achieve this, the Legislature introduced several bills this year which took different approaches to help our farmers. In addition, the Governor's priorities for agriculture include 'double local food production by 2020, and develop water and energy resources to support this effort.' Reliable water access is a recurring theme between the legislative and executive branches of government, because it is essential to successful ag ventures.

"Unfortunately, our state continues to experience meager rainfall. In February, a hydrologist at the National Weather Service reported that the worst drought impacts in the State were found on the leeward sides of Maui and the Big Island. In March, NWS declared severe drought for Hawaii Island, and said it will likely spread and intensify through the summer.

"It has been mentioned that there are a number of revocable permit holders in the Big Island's Kau region. Their ventures range from growing coffee to raising cattle. The drought has kept the coffee largely dormant, and ranchers have started to haul water and provide supplements for livestock. The Kau cooperative is pursuing longer term leases, but it takes time. This bill would ease concerns that their current revocable permits would be invalidated. This measure will calm the uncertainty for Kau's group – and others statewide – whose operations may be in jeopardy and provide temporary relief for RP holders.

"Fruits and vegetables, livestock, horticulture; these crops need water. The crop growers are the ones helping to decrease our dependence on imports and to reach food sustainability. Therefore, the policies we make should safeguard dependable water access to aid their endeavors while longer lease terms are pending."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2501, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO WATER RIGHTS," passed Final Reading by a vote of 41 ayes to 10 noes, with Representatives Creagan, San Buenaventura, Say, Takumi, Thielen, Ward and Woodson voting aye with reservations, and with Representatives DeCoite, Ing, Jordan, Keohokalole, LoPresti, Lowen, Matsumoto, McKelvey, Pouha and Tupola voting no.

Representative Saiki moved that H.C.R. No. 127, HD 1, SD 1 be Adopted, seconded by Representative Evans.

Representative McDermott rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition against this one. I don't see any positive benefit for legalizing drugs. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, a no vote and a few comments. Mr. Speaker, it's interesting when we said we are going to do medical marijuana and some people said, well, you're setting up a retail system just so you didn't get a slippery slope and legalize it. And everybody who were the proponents said, oh no, no, that's not the case. What do we got here? We've got the case formalizing the study to legalize marijuana, which the proponents said they were not going to do.

"I think this is a bit of a switch and bait. It's a bit of a deception. And if in effect what people said in three to five years there was going to be legalization of marijuana, this is part of the slippery slope and greasing the slicks to make it so. For those reasons, Mr. Speaker, this is not good policy. Thank you."

Representative Tupola rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Oshiro rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Keohokalole rose to speak in support of the measure, stating:

"In support. I'd like to ask that my words from the third reading on this measure in the House be incorporated again," and the Chair "so ordered." (By reference only.)

Representative Keohokalole continued, stating:

"Just a brief comment. The whole purpose of this resolution was to study the way the system works in Portugal. And I'd just like to note that Portugal instituted a decriminalization system, not a legalization system, 15 years ago. So that's more than enough time to determine whether the thing was good or not. The radical elements of the Portuguese Legislature don't try and repeal the bill every three months. And seven years ago, a conservative Washington D.C. think tank did a comprehensive study of the policy and determined that it was, quote, a resounding success. Thank you."

Representative Matsumoto rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Pouha rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Har rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Fukumoto Chang rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support with brief comments. I'm not necessarily in favor of decriminalizing drugs, but I do think that it's worth looking at, because there's a lot of information floating out there and this is just a working group, so I think it's worth studying. Thank you."

Representative Pouha rose in support of the measure with reservations and asked that the remarks of Representative Fukumoto Chang be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Tupola rose to respond, stating:

"Brief comment, I just wanted to say that I did read through the study that was done by the think tank and so I think we should take into consideration South America vs. U.S., as far as peer reviewed research. I read through what they came through as far as the longevity of when you decriminalize, that it doesn't have long term effects. Seven years is a long time, but in the lifespan of a year I still feel like it's still new. So I know it's just a study and it's just getting together, but we should take that into consideration. I lived in South America. Things are different, so let's just consider the big picture. Thank you."

Representative Ing rose to speak in support of the measure, stating:

"Very briefly, in support. Decriminalization is great for while we're going to study this, it's great for mass incarceration, for reducing people that don't need to be locked up. But I think it doesn't go far enough. If you really want to outprice the black market and be able to regulate these things, so people like my friends who are smoking weed at 12-years-old and their dealer happened to lace their weed with meth and they became addicted to meth and ended up in prison, the whole shebang. If you want to get rid of that, you're going to have to legalize and regulate. So, hopefully that's part of the discussion as well. Thank you."

Representative Keohokalole rose to respond, stating:

"I'd just like to correct the record. The study was done in Portugal, which is in Western Europe. Thank you."

Representative Souki rose to speak in support of the measure, stating:

"Mr. Speaker and Members, strong support, and I wish to adopt the words from the Representative from Kihei," and the Chair "so ordered." (By reference only.)

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you. In strong support, and would like to adopt the words of the Representative from the windward side as if they were my own," and the Chair "so ordered." (By reference only.)

Representative San Buenaventura rose to speak in support of the measure, stating:

"In strong support. I'd also like to point out that very conservative politicians and commentators like William F. Buckley back in the '80s have pushed for decriminalization and legalization before. So it's about time we study it. Thank you very much."

Representative Fukumoto Chang rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Fukumoto Chang's written remarks are as follows:

"Mr. Speaker, I once again rise in support of HCR 127, HD 1, SD 1. Advocates have stated that decriminalizing the possession of illegal drugs will release low-level drug offenders from incarceration, thus reducing overcrowded jail and prison populations. As such, they have pushed decriminalization laws both in Hawaii and nationwide. However, I am concerned that enacting policy like this without understanding its wide-ranging impact is unwise. Therefore, I believe it is imperative that a study on the effects of decriminalizing illegal drugs is conducted before any policy measures are undertaken. I have concerns with decriminalization, and I expect a study will caution against further legislative action. For this reason, I rise in support of HCR 127, HD 1, SD 1. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and H.C.R. No. 127, HD 1, SD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE LEGISLATIVE REFERENCE BUREAU TO CONDUCT A STUDY ON THE POTENTIAL IMPACT ON ADMINISTRATIVE AND JUDICIAL SYSTEMS OF STATE GOVERNMENT OF DECRIMINALIZING THE ILLEGAL POSSESSION OF DRUGS FOR PERSONAL USE IN HAWAII," was Adopted, with Representative Say being excused.

Representative McDermott rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition. I would like permission for my remarks on the second reading of the House Bill dealing with this subject matter, although not exactly the same I think it's germane, and have that entered in by reference, please," and the Chair "so ordered." (By reference only.)

Representative McDermott continued, stating:

"It's getting down to the end of the session. We're all tired, so just a word of caution. And I go back to setting up the statutory framework bit by bit, bill by bill, piece by piece, of age 14. This is very, very dangerous, Mr. Speaker. I've cited numerous examples before. Here's one today, this will pass and become law. Next year, there will be others. What they are, I don't know, but there will be more. And where is that taking us? Where that's taking us is 15 years from now, my granddaughter, who at 14 might be dating a 30-year-old man. And we've created this statutory framework all over the place that she's emancipated. Those are my concerns, Mr. Speaker. Thank you."

Representative Belatti rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Belatti's written remarks are as follows:

"I rise in strong support of Senate Bill 2886, Conference Draft 1, Relating to Age of Consent for Adolescent Mental Health Services.

"In a recent *Civil Beat* article, '1 in 8 Hawaii Middle Schoolers Say They've Attempted Suicide,' attached herein, reporter Jessica Terrell explains that 24.8% of middle school students in Hawaii 'seriously thought about killing themselves' while 16% of high school students in Hawaii 'seriously considered attempting suicide.' Ms. Terrell further reports that '[f]rom 2010 to 2014, 45 youths ages 10-19 committed suicide in Hawaii. According to the Department of Health, for every child who dies, another six are hospitalized for a suicide attempt.'

"According to the Department of Health's *Injuries in Hawaii Report, 2007-2011*, '[s]uicide was the second leading cause of death among teenagers in Hawaii, after motor vehicle crashes, but outnumbering deaths from cancer, heart disease, and other chronic diseases.'

"Behind these heartbreaking statistics are grieving families and vulnerable youth. Senate Bill 2886, Conference Draft 1 seeks to assist the most vulnerable in our community and ensure that fewer families have to live with the devastation caused by suicide. By lowering the age of consent to mental health services to age 14, opportunities for young people to reach out for help will increase.

"Initially, this bill advanced age 12 as the age of consent, a position I support. This age matches those tough pre-teen, middle school years when youth are in the seventh and eighth grade, coinciding with the statistics that reveal that these are the years youth are beginning to struggle with the challenges that lead one too many to think about suicide. The age of 14 represents a compromise between those who are concerned about parental consent and those who too often are the service providers or government agencies who work with the troubled youth this bill is intended to help. Those who supported 12 as the age of consent include the Department of Health, the Department of Human Services, the Office of Youth Services, the Judiciary, and numerous community organizations including Hawaii Youth Services Network, Mental Health America of Hawai'i, Hale 'Ōpio Kaua'i, and Imua Alliance.

"As the State Judiciary testified, Senate Bill 2886 'does not overlook parents. The mental health service provider has an affirmative duty to contact and involve parents unless the provider determines that such contact is inappropriate. [This bill] strikes a balance between the rights and responsibilities of the parents, the growing need for such services to youth, and all parties' constitutional right to privacy.'

"The Department of Health echoes this sentiment and describes this bill as 'striking] a balance between the immediate needs of an adolescent or teen and a parent's right to know by requiring licensed professionals to consider parental involvement first, and only after carefully assessing an adolescent or teen's maturity[.]' Other provisions recognizing the role of parents provide that: (i) a minor may not abrogate their parent's consent to receive services, nor vice-versa; (ii) a minor is under no financial obligation to the provider for services rendered; and (iii) services are limited to out-patient talk therapy and requires parental consent if treatment involves any medications or placement into an out-of-home or residential treatment program.

"Ultimately, Senate Bill 2886, Conference Draft 1 is about providing options to adolescents who are seeking help at a time when they may feel like they have few options. As stated by the Department of Health, 'some treatment is better than no treatment.' For these reasons, I strongly support passage of this bill."

"1 In 8 Hawaii Middle Schoolers Say They've Attempted Suicide"

Nearly one in four say they've at least considered killing themselves. Can teaching kids about mental health earlier change that?

APRIL 20, 2016 · By Jessica Terrell

Malia-Grace Bush never knew their names, but she can still picture their faces: the kids on her middle school campus who seemed somehow off, the ones who made her think, "something's wrong."

Bush, now 19 and a member of the statewide Youth Leadership Council for Suicide Prevention, says she didn't know anything about depression in the eighth grade. She didn't have the skills or knowledge she needed to reach out to her classmates.

Chances are, a lot of them needed reaching out to.

Last year nearly a quarter of middle school students in Hawaii said they had seriously considered suicide, according to the 2015 Youth Risk Behavior Survey. One in eight said they tried to take their own lives.

Mental health and suicide prevention efforts need to start sooner for middle school students like these in a recent PE class in Honolulu, according to the state's Youth Leadership Council for Suicide Prevention.

BEHAVIOR STUDY RESULTS

High school students in Hawaii who "seriously considered attempting suicide"
1997: 25.5 percent
2015: 16 percent

Middle school students in Hawaii who "ever seriously thought about killing themselves"
1997: 28.8 percent
2015: 24.8 percent

The biennial survey, conducted by the Department of Health and the Department of Education, is slated for release in June, when national results are also available for comparison. It was previewed for the Board of Education earlier this month.

Middle school students in Hawaii have been reporting

high rates of suicidal feelings since the state started surveying kids on the topic in 1997. Despite the alarming numbers, education and prevention efforts historically have focused on older teens.

That's in part because, for several years, Hawaii had the highest rate of high school students who said they had seriously considered suicide, according to the Youth Risk Behavior Survey. (In the most current available data, from 2013, Hawaii reported the seventh-highest rate in the nation.)

There's also a sense among some adults that kids in elementary and middle school are too young for such a heavy topic, that they should "just be happy," said state Department of Health suicide prevention coordinator Nancy Deeley.

That needs to change, the youth leadership council says.

Formed last year, the council had a clear message after reviewing the state's suicide prevention plan: Hawaii needs to start talking to kids about mental health and suicide sooner. Much sooner.

Why Is Middle School So Hard?

Experts say it's difficult to pinpoint specific reasons why so many teens in Hawaii report feeling suicidal.

Anxiety, which might be an even bigger contributor to suicide attempts than depression, is a more prevalent issue for youth in Hawaii than in other states, said Deborah Goebert, a professor and associate director of research at the University of Hawaii's John A. Burns School of Medicine.

But it's unclear why anxiety levels are higher in Hawaii.

Teens in high school may face as many — or more — stressors as they did in middle school, but they are also more likely to have developed a range of coping strategies.

There are also some groups within the state that seem particularly at risk for depression, anxiety and suicidal feelings, including Native Hawaiians, kids living in rural or economically depressed areas and military children. Risk factors are complex, however.

Many experts say that middle school is just a uniquely tough time for kids anywhere.

Middle school students are undergoing enormous transitions. Their bodies are changing. Their hormones are changing. And for kids getting on social media for the first time, the way they interact with their peers is changing.

Bullying is more prevalent in middle school. In 2015, one in four middle school students in Hawaii said they had been electronically bullied in the

previous year, and 45 percent said they had been bullied on campus, according to the preliminary youth survey results.

In high school, those figures dropped to 14.7 percent coping with electronic bullying and 18.6 percent experiencing bullying on campus.

There's also the maturity factor. Teens in high school may face as many — or more — stressors as they did in middle school, but they are also more likely to have developed a range of coping strategies.

Click on the various options in the graphic below to see what the 2015 risk-behavior middle school survey results would look like in a class or 28 students.

Finally, depression in middle school can be hard to identify.

The youth survey asked students if they have felt sad or hopeless for an extended period of time. Asking students if they've been feeling angry every day might be a better indicator of depression, Goebert said.

"In the school system if someone is angry and acting out, they are not necessarily referred to mental health," Goebert said. "That's usually a referral for the vice principal to take care of, and not necessarily seen (as a sign) that someone is struggling."

Changing Strategies

One of the biggest statewide efforts in preventing youth suicide has been focused on "gatekeeper" training — helping peers, teachers, parents and community members learn to identify and reach out to at-risk youth.

WARNING SIGNS

The following are warning signs to watch out for, according to the National Suicide Prevention Lifeline:

"Talking about wanting to die or to kill themselves. Looking for a way to kill themselves, such as searching online or buying a gun. Talking about feeling hopeless or having no reason to live. Talking about feeling trapped or in unbearable pain. Talking about being a burden to others. Increasing the use of alcohol or drugs. Acting anxious or agitated; behaving recklessly. Sleeping too little or too much. Withdrawing or isolating themselves. Showing rage or talking about seeking revenge. Displaying extreme mood swings."

"If youth don't feel supported, if they can't identify what's going on internally, it's really hard to get them help," said Mara Pike, Pono Youth Program manager at Mental Health America of Hawaii. "So the idea is to get the trainings going so they can identify when they need help or if someone else looks like they are having a hard time they can talk to them as peers."

Much of the training was funded by a federal grant that ended in 2014, for a partnership between UH and Mental Health America focused on high school students.

The training has continued without grant funding, although resources are tight. One way that Mental Health America is trying to make the effort sustainable is by creating the youth leadership council to facilitate more peer-to-peer outreach.

This year, because of the suggestions of young adults on the youth council, the group modified its suicide prevention training curriculum so that it can be used at middle schools, Goebert said.

During the council's first meeting last year, members said the biggest state need was for student education in elementary and middle schools about mental health and suicide. Many members said they received some training in developing coping skills in high school, but learning the skills earlier would have allowed them to support each other and themselves, Pike said.

State curriculum benchmarks for middle and high school have requirements for emotional and mental health education. But young people on the council are saying that more teachers and adults need to really use the word "suicide" and be comfortable talking about it, Pike said.

The group also said more adults need to be trained on how to work with youths effectively, Pike said. For example, crisis workers who man the state suicide hotline don't necessarily have specific training in youth counseling, she said.

YOUTH SUICIDE IN HAWAII

From 2010 to 2014, 45 youths ages 10-19 committed suicide in Hawaii. According to the Department of Health, for every child who dies, another six are hospitalized for a suicide attempt. Suicide is the second leading cause of death for people in this age group.

Hawaii has had challenges with professional development training on suicide prevention in schools. According to a 2014 national study by the Centers for Disease Control and Prevention, only 17.7 percent of lead high school health teachers in Hawaii had received professional

development on suicide prevention over the prior two years — the second-lowest rate in the nation.

In January, the Department of Education rolled out a statewide training program, open to both school officials and community members, as part of a new mental health pilot program.

Project HI AWARE (Advancing Wellness and Resilience in Education), which is being piloted in three school complex areas in Hawaii, aims to increase awareness of childhood mental health issues and improve coordination between schools, the Department of Health and community resources, said Chad Farias, superintendent for the Kau-Keaa-Pahoa complex on Hawaii Island.

The goal is also to identify strategies that can be used throughout the state, including Youth Mental Health First Aid training.

GETTING HELP

National Suicide Prevention Lifeline: 800-273-8255

Crisis Text Line: Text 'START' or 'HELLO' to 741-741

Crisis Line of Hawaii: O'ahu, 808-832-3100; neighbor islands: 800-753-6879

The department hopes to train 3,000 youth mental health "first aiders" over the next four years.

"These are issues that need to be addressed, but these are issues that are treatable if they are approached properly," Farias said.

Lawmakers are also expected to pass a resolution soon calling for the state's suicide prevention task force to create a plan for reducing suicides in the state by 25 percent in the next decade.

The subcommittee in charge of coming up with the strategic plan would include at least two members of the youth leadership council.

In the meantime, schools like Kailua Intermediate are working to address mental health issues by targeting campus bullying and monitoring student behavior and academic progress through early intervention systems.

Sometimes, academic performance is nine-tenths of the problem, Kailua Principal Lisa DeLong said.

"If they are feeling successful, that helps," DeLong said."

Representative Fukumoto Chang rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Fukumoto Chang's written remarks are as follows:

"Mr. Speaker, I rise in support of SB 2886, SD 2, HD 2, CD 1. Every year, 10 children in Hawaii die from suicide, 53 are hospitalized, and 140 are sent to the emergency room due to attempted suicide. According to the Hawaii State Department of Health (DOH), from 2009 to 2013, suicide was the second leading cause of death among children aged 10 to 19 years old. This measure would allow minors 14 years old and older to seek mental health treatment or counseling without the approval of their parents. Hawaii law already allows minors to seek medical treatment for substance abuse. According to the Department of Health, 20 states and the

District of Columbia allow for minors to consent to mental health treatment.

"This measure will save children's lives by giving them access to mental health care. But at the same time, it will not infringe upon a parent's rights. Although the minor can access mental health services, they will not be able to receive prescription medication or out-of-home therapy without parental consent, and providers are required under this measure to keep parents informed to the best of their ability. It is for all these reasons that I am in support of SB 2886, SD 2, HD 2, CD 1. Thank you, Mr. Speaker."

Representative Har rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Har's written remarks are as follows:

"Mr. Speaker, I rise in support of Senate Bill 2886, SD 2, HD 2, CD 1, with reservations. The intent of the bill is to reduce barriers to accessing mental health services for minors by lowering the age of consent to receive treatment and services. The age of consent in these cases would be lowered from 18 years of age to 14 years. It attempts to improve mental health services using methods other than prescription medication or out-of-home or residential treatment. While I support the overall intent of the measure to improve mental healthcare, I note my reservations on the grounds of compelling state interest, potential precedent, and financial liability.

"While there is merit to protecting the health and well-being of our *keiki*, I am concerned that it is not entirely appropriate to grant legal sovereignty to 14-year-olds outside of the consent of their parents or guardians. Family is important, and if the State wants to overstep the jurisdiction of the family, it must do so with a strong compelling interest for the well-being of the public or the child. In this sense, SB 2886, SD 2, HD 2, CD 1 is vague, allowing a large amount of discretion on the part of a child and that child's mental healthcare provider. Care should be taken to ensure that this level of discretion is held tightly, especially since it could potentially be used to stonewall parents out of a child's healthcare proceedings.

"Further, the precedent set by this bill is to allow legal grounds for 14-year-olds. I have heard the concerns of many of my colleagues here in the House and agree with their worry that 14 years of age is too early for children to be given the sovereignty and opportunity to, as I mentioned before, stonewall their parents out of their lives. As the legal framework this bill will eventually create expands, the age of 14 will remain law. This has the potential to be used as a standard in policy and judicial proceedings in the future. While it is understandable to ensure that children in precarious situations are protected by the laws of our state, the broad strokes painted by this law may go far beyond the intent of simply protecting the children.

"Finally, I am concerned that the bill excuses several parties from financial responsibilities for mental health services, but does not appropriate funds to cover the exemption. Licensed mental health professionals, just like any professionals, cannot be reasonably expected to work without compensation. It is admirable that this bill protects patients/counselees from financial liability, but this admirable exemption has the potential to be the hamartia of the bill. It is in the best interest of the State to provide the best service to at-risk children, but the best licensed mental health professionals cannot and should not work for free, and it is unfair for the State to expect them to do so.

"I agree that we must protect our children, Mr. Speaker. However, we must do so in a way which will provide specific protections based on compelling state interest, avoid ungrounded precedent, and be careful about approaching mental health provision unilaterally. For these reasons I stand in support of Senate Bill 2886, SD 2, HD 2, CD 1, with reservations. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2886, SD 2, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO AGE OF CONSENT FOR ADOLESCENT MENTAL HEALTH SERVICES," passed Final Reading by a vote of 41 ayes to 6 noes, with Representative Har voting aye

with reservations, with Representatives Kong, Matsumoto, McDermott, Oshiro, Tupola and Ward voting no, and with Representatives Hashem, Say, Thielen and Tokioka being excused.

"EXECUTIVE CHAMBERS
HONOLULU
April 29, 2016

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 2181

Honorable Members
Twenty-Eighth Legislature
State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2181, entitled "A Bill for an Act Relating to Access to Treatment for Terminally Ill Patients."

The purpose of this bill is to enable terminally ill patients in Hawai'i to obtain from manufacturers investigational drugs and biological products that have not yet been approved by the United States Food and Drug Administration (FDA) for general use. This bill also shields practitioners who recommend investigational drugs to their patients from liability and the heirs of patients who receive investigational drugs from claims of responsibility for the costs of those drugs in the event of the patient's death.

This bill is objectionable because the FDA's existing "expanded access program" (also known as the "compassionate use program"), which this measure seeks to circumvent, already serves to increase access to investigational drugs for patients under the care of a physician while preserving the approval process, treatment data reporting, and other patient-centered safeguards. The regulations associated with this program were amended in 2009 and should be allowed a chance to be fully implemented and further publicized. While admirably seeking to increase access to potentially life-saving drugs, this measure unreasonably compromises the consumer protections provided by the FDA's expanded access program. The federal system of regulations that govern the sale and distribution of new and investigational drugs is also instrumental in the development of beneficial drug products. Interference with that system will likely have the unintended consequence of delaying development of

those potentially life-saving drugs. Additionally, this measure unreasonably intrudes upon a system of federal law in violation of the Supremacy Clause. Since the sale and distribution of new and investigational drugs will remain federally regulated whether or not this measure becomes law, it is also unclear what actual benefits would accrue to patients in Hawai'i.

For the foregoing reasons, I am returning Senate Bill No. 2181 without my approval.

Respectfully,
/s/ David Y. Ige
DAVID Y. IGE
Governor of Hawaii"

UNFINISHED BUSINESS

Conf. Com. Rep. No. 140-16 and H.B. No. 1700, HD 1, SD 1, CD 1:

Representative Saiki moved that the report of the Committee be adopted, and that H.B. No. 1700, HD 1, SD 1, CD 1 pass Final Reading, seconded by Representative Evans.

Representative Luke rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise to speak in support of House Bill 1700, HD 1, SD 1, CD 1. This is the budget for the executive branch. Mr. Speaker, first of all, I would like to introduce the hard working finance staff, and I am proud to say this is probably the first year where I can actually say their names without actually looking at my notes because I know every one of their names. With 20 people on your staff, a lot of times I forget a lot of their names, but I can actually say I know every single one of them.

"Every year I think that the class is special, but this class has been especially special. We didn't fire anybody, first of all. Well, maybe the front staff, but that's something else. But this group was very special. They got along really well, they watched each other's back, and they were there as support for each other and for the House as well. So I wanted to introduce them.

"First of all is my office manager, Julie Yang, who is the rock. So when I call your name, if you can stand and if the Members and the audience could refrain from clapping until we introduce every one of the 20 hardworking folks. So Julie Yang, Jo Hamasaki, hiding somewhere. Brandon Marzan, working in the front office. Kay Mochizuki, she also worked in the front office. Kim Duong and Joy Nakashima, they were the ones instrumental in putting a lot of the bill testimony and worked really long hours to make sure that the Members had all the information for various hearings.

"On the bill section, led by of course Randall Hiyoto and his right hand person Stacey Tagala. They fight like crazy, but we know they love each other. Alana Folen, Kuuipo Aki-Siler, Angela Mooney, Sheryll Yotsuda, who is a returnee and we love to have her. And on the budget side, led by Alberto Vargas. The CIP specialist and he also did a lot of operating budget as well this year is Derek Shigano. Aj Khandaker, who just never met a food that he didn't like. Daniel Park, Julian Downey, Sean Patrick, Bethany Foo. Matt Tsujimura, I think he is at school but he returned several times and he has been really instrumental in a lot of the budget as well. And of course, the chief, Nandana Kalupahana, he is hiding with the press folks next to Kevin and Nathan there. So, if we could give all of them a round of applause.

"Thank you very much. And look how good they are still standing up. Okay, you may sit down now. But they work long hours. Sometimes I would stay here till midnight and they were still here, and they are just so hardworking and I appreciate every one of them. I'm going to miss you folks when you leave in a few weeks, but feel free to come by and say hello to everybody, because we have come to be very tight and close. So thank you very much for all your hard work.

"And next of all, I would like to thank Chair Tokuda and her staff, especially Calvin Azama. He's no stranger, he knows the intricacies of the Legislature, and I always think he knows some of the secrets from the House so I'm always suspicious. But her staff works really hard, and her staff along with our staff, they put in some long hours, so we want to thank her. She was a tough negotiator, but she just found ways to navigate

through the various needs of our state, so I want to thank Chair Tokuda personally."

Representative Cullen rose to yield his time, and the Chair "so ordered."

Representative Luke continued, stating:

"Thank you very much, Representative. I also want to thank the members of the Finance Committee, especially the vice chair. He is the one who put levity in situations where we get pretty tense at times. He criticizes me and he thinks he can say whatever he wants and I endure it and I don't know why. Can I have a new vice chair? But he is actually the one who keeps me grounded when I want to lash out, because my Korean side comes out. And he is the one who tells me, okay, that's very bad, so you should calm down, count to ten and then do a decision. You would think between me and him I am the calm one and I am the reasonable one, but one out of maybe 100 times he is the one who keeps me grounded. So a special thanks to the vice chair, although I'm taking names for next year.

"I do want to thank every single one of the Finance Committee for their diligence and hard work. Each one of them add valuable insights and perspective and I want them to know that I appreciate them very much. It's amazing, you have different folks who come with different backgrounds. Even our freshman class, we have a very independent business woman who knows agriculture, and you have a philosopher, and you have somebody who works with various DLNR and Native Hawaiian sectors. These folks bring different perspective. And then you have people who do tax items, and you have people who have very intricate knowledge in human services and health. You know who I'm talking about, even if he's ignoring me right now. These folks all bring so many perspectives and I want to thank them for adding so much more to the discussion in Finance. So if we could give all the members of the Finance Committee a round of applause as well.

"My special thanks goes to the CIP Chair for his hard work on the CIP budget. People know it has been an extremely challenging year for CIP. This year seeing his work, every year I get impressed but this year I was especially impressed and I have gained so much respect for the CIP Chair. I always say this, but people have no idea how many projects there are. You think navigating through the operating budget is tough enough, but he's the one who has to deal with peoples' needs, various needs. Not just the individual legislators but the different departments. To sort all that out and come out with a balanced budget, I just think it's mind boggling. He just spends countless hours looking at his big screen, which he loves. He just loves, loves to just stare at his, I don't know, the 40 to 50 inch screen in front of his desk. And I think only he can really love, love this job. So if we can thank the CIP Chair for the countless hours that he has spent.

"And of course I would like to thank the GIA Chair. This year he vetted over 270 GIA applications. He went through an extensive process to select the non-profit organizations that will best serve the needs of the State. And I know during session and prior to session he's like everyone's best friend. All the non-profits go to him and somehow he finds the way to know all these interesting details about every single application, which I have no idea where he gets it from. But he has this chart where he knows where they get money from in the past and then where else they get money from, either the counties or through the State. He just has so much knowledge. But he vets through a huge number of applications and he finds a way to select organizations that will best serve the needs of the State."

Representative Morikawa rose to yield her time, and the Chair "so ordered."

Representative Luke continued, stating:

"So as I have stated in the past, I have the utmost trust and faith in the GIA Chair, and I want to thank him again for his great work, and if we could give him a round of applause.

"Mr. Speaker, I would like to thank Governor Ige and his administration for their cooperation. We were in constant communication and his accessibility helped thwart a lot of possible breakdowns, so I want to thank him and his administration. Sometimes he's watching, so Governor Ige,

thank you for being a friend. Even if I'm harsh on your departments sometimes, I know he knows we all have the State's best interest in heart.

"Mr. Speaker, this budget along with the bills we will pass today address some of the most critical needs in our state. This past year, the State had to deal with the outbreak of dengue fever, resulting in more than 250 confirmed cases. The State is now faced with the possibility of the risk of the Zika virus. An outbreak would have significant impact to not only the health and safety of our citizens, but also would devastate our economy. The Department of Health did its best to address the problems and has been somewhat successful in containing the outbreak to Hawaii Island. However, it became very evident that the 2009 recession and the resulting budget cuts to the Department of Health left the department in a tenuous situation in its ability to control the outbreaks effectively. Mr. Speaker, this budget provides an additional 20 positions to the department's vector control branch, and an additional \$1.2 million, bringing the total to 45 people to control populations of animals and insects that spread diseases. This is a huge step towards ensuring the health and safety within our state.

"I just wanted to thank the Big Island delegation, because they are the ones who really called upon the department to do work and do more than what they are supposed to do. So the Big Island, it seemed like the last year they got hit with everything. They got the hurricane, they got the lava, now they got the dengue fever, and then now I'm going to talk about invasive species. It seems like the Big Island gets everything. So the Big Island delegation, they have so many needs that they need to fight for, and this is one of the ones that they did. So my thanks goes to the Big Island delegation for bringing this important issue to our attention.

"So moving on to invasive species, which really a lot of it is a huge state problem, but again, we see more problems on the Big Island. And it continues to plague our island communities. When this Finance Committee, thanks again to the Big Island delegation, visited Hawaii Island, we saw firsthand the devastating effects of the growth of albizia trees. These trees are highly invasive and threaten many of our rare and endangered plants. This budget, thanks to the efforts of the Vice Chair of Agriculture, provides \$1.5 million in general funds for albizia eradication efforts. This funding will be used as a coordinated effort by the stakeholders, including county and the utility company to address this problem.

"Also this session, we have learned about the effects of a fungus on the State's *ʻōhiʻa* plants. So along with what we're doing in the budget, House Bill 2675 provides research funding to help combat the negative impacts of the spread of disease which cause Rapid *ʻŌhiʻa* Death. We must continue to be vigilant in our fight against these invasive species.

"In 2010 through Act 73, the Agriculture Chair ensured that a portion of the barrel tax was allocated to address food security and sustainability. Since then, the use of this barrel tax by the Department of Agriculture has been somewhat questionable."

Representative Belatti rose to yield her time, and the Chair "so ordered."

Representative Luke continued, stating:

"This year, in order to fulfill the vision set forth by the Agriculture Chair, this budget provides \$700,000 for flower and produce research and evaluation, and a statewide risk assessment of ports of entry susceptible to invasive pests. When the Agriculture Chair created this food security and sustainability program in 2010 he had a great vision, and I think it's our obligation to continue that vision, so if we could give the Agriculture Chair a round of applause.

"The increased regulations by the federal government on our small farmers to comply with food safety have taken a toll. This was something that the good Representative from Molokai has alerted us. Therefore, along with the food security funding in the budget, House Bill 2582 will provide additional funding and positions to assist with the federal food safety certification program. Thank you, Representative.

"Mr. Speaker, during the interim, Chair Tokuda and I were part of the Governor's Leadership Team on Homelessness. Through that participation

I learned that there are many efforts to address the issue of homelessness in Hawaii, but efforts are siloed and compartmentalized, and the lack of coordination between the State, the counties and the non-profit organizations became very, very evident. Limited data, duplicative efforts and the lack of vision led to a lot of money being spent without true results.

"This budget takes a different approach to tackle this tough issue. Rather than funding itemized services and programs for a specified amount that is usually the practice for most of the executive budget request, this budget funds a lump sum amount of \$12 million to address homelessness. This is more than the \$9 million that was requested in the executive budget for specific programs. So instead of providing limited funds for Housing First, or rapid re-housing, or enforcement efforts, or outreach programs, what we're doing is we're tasking the Governor's homeless coordinator and the Department of Human Services to put in place a strategic plan to utilize the \$12 million based on best practices. We believe providing this flexibility will allow the department to act quickly and efficiently to address the problem.

"Early learning prepares our young *keiki* to be ready for school when they enter kindergarten. However, affordability has been a major stumbling block for families who want to send their children to preschool but can't afford to do so. For the last few years, the State has provided \$6 million to fund Preschool Open Doors, which provides vouchers for low-income families who want to send their children to preschool. With \$6 million, the State was only able to take care of about 1,200 kids. However, every year over 2,000 applications come in for people who want to participate in this program. This budget for the first time since 2013 will increase that funding from \$6 million to \$10 million, significantly raising the number of children served from 1,200 to 2,000 every year. We want to ensure that affordability will not be a barrier for low-income families who want to send their children to preschool.

"Education funding through the Weighted Student Formula was created in 2004 as part of Act 51 by the Education Chair. This funding mechanism was a visionary effort to provide schools with more control and flexibility over their allocated money. Since then, many adjustments to the weights have been made. However, for some schools, adjustments have not been enough, and they struggle with hiring more staff and paying for expenses. This year this budget provides an increase of \$16,537,791 to the Weighted Student Formula, which increases the per-student base amount, and put additional weights on K-2 class size, the economically disadvantaged, and gifted and talented, among others. This is the largest increase to the Weighted Student Formula since its inception."

Representative DeCoite rose to yield her time, and the Chair "so ordered."

Representative Luke continued, stating:

"Thank you, Representative. It will assist struggling schools to pay for personnel and student needs. Before I go on I just wanted to recognize the Education Chair, it was his vision to put local control back in the schools, and hopefully with the additional \$6 million we will ensure that schools won't struggle to pay for a lot of these staffing and services that they continue to struggle with. So, I know it's long overdue. He created this in 2004, we're continuing on his vision, so if we could give the Education Chair our thanks for his hard work. He's so shy.

"But also every year, teachers pay out-of-pocket for supplies and classroom needs. This budget provides \$500,000 to assist schools with such needs. For some schools, recruiting and retaining good teachers has become challenging. Constant overturn of teachers negatively impacts student learning. Thanks to the efforts of the Vice Chair of Education, this budget for the first time in several years fully funds the Teach for America program, which is vital to the recruitment and retention of teachers, especially in rural areas. Thanks, vice chair.

"Taking care of the beneficiaries of our host culture is not just a legal obligation but a moral one. The Nelson case highlighted this responsibility. This budget provides close to \$24 million in general funds for the Department of Hawaiian Home Lands. This is by far the largest amount of

general funds allotted to the department. However, the Nelson case only addressed administrative and operating expenses, and rejected the notion of a constitutional obligation to provide expenses for infrastructure funding. In order for the department to sufficiently serve the beneficiaries, it not only needs administrative costs but infrastructure funds as well. Therefore, this budget provides \$14 million in CIP funds to pay for maintenance and repair needs, bringing the total allocation to DHHL to over \$38 million this year. We will continue to work with the department to ensure that the needs of the beneficiaries are met.

"The State has a responsibility to care for our *kūpuna*, and I'm glad a lot of folks from AARP are here. The budget provides \$3 million for Kupuna Care, but in addition to that, House Bill 1878 allocates \$1.7 million for the Aging and Disability Resource Center throughout the State to provide prompt referrals and essential services to our *kūpuna*. Furthermore, with the passage of House Bill 1943, for the first time since 2009, thanks to the efforts of the Chair of Human Services, long-term care providers, including hospital and community care foster family homes, will receive an inflationary increase in the amount of \$1.55 million with \$1.77 million in federal matching funds for reimbursement to care for Medicaid patients. This is a huge step in caring for our elderly population, and my special thanks goes to the Chair of the Kupuna Caucus and the working group, so that is the Chair of Public Safety and working group members, Chair of Health, for their continuous efforts to fight for the needs of our elderly.

"Mr. Speaker, you have heard me several times criticizing the departments' practice of holding back vacancies to pay for retiree benefits. In this budget, we have now established vacation payout funds in almost every department. The amount appropriated to the Department of Human Services totals more than \$1 million. That means that DHS had to refrain from hiring \$1 million worth of positions just to pay for retiree benefits. What began as a novel idea met with skepticism is now embraced by the departments. We are hopeful that the departments will now fill those needed positions, and at the same time will continue to be vigilant in eliminating vacant positions that the departments have failed to fill."

Representative Johanson rose to yield his time, and the Chair "so ordered."

Representative Luke continued, stating:

"In 2013, this legislature had the courage to pass Act 268. And due to the act of this legislature, we made a commitment to reduce the State's unfunded liability by pre-funding retiree OPEB obligations. Under this act, by year 2019 the State would pay 100% of the ARC, stabilizing the State's obligation for the future years. For fiscal year 2017, the budget that we're working on, the state planned to meet 60% of its obligation under Act 268, which is equivalent to \$245 million. Rather, this budget appropriates instead of 60%, 80% of the ARC, amounting to an additional \$81 million, for a total contribution this year of \$327.7 million. This will ensure that our future generations will not be saddled with today's debts. In addition, allocation of \$150 million to the Rainy Day Fund and House Bill 2317 further ensures that the State has the resources during an economic downturn.

"Mr. Speaker, I think together this session, you look at what we passed in the budget and all the bills that we'll be passing today, I think we have something to be proud of. So many different needs and so many critical issues have been taken care of, and so many Members of this legislature and the Senate have worked so hard to take care of the true issues and true needs in the State.

"So I am proud to present this budget for your consideration, and I want to thank the Members of the House for their hard work this session. Therefore, I respectfully submit this for you and your Members' consideration. Thank you."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise in support with reservations. Mr. Speaker, I agree with many of the things that have just been said. One might say it's gilding the lily a bit, but there are a couple of flaws in this budget, Mr. Speaker. I

wish to point out a couple of those other than, generally when you have a good budget, whether you're a family or a state or a nation, you don't spend more money than you have. This budget is \$400 million over the top. That's a structural flaw. And assuming that we do have some difficult times coming, we have to be very observant not to overspend.

"The other flaw, Mr. Speaker, well, let's say a constituency that may be missing, Mr. Speaker, is spoken to by this headline. It says, 48% of the people of Hawaii are walking a financial tight rope. Forty-eight percent of our people are one check away from homelessness. I don't see in this budget that we have considered fully the economic direction that we've had in the past. We have median income of \$42,000, we have people working two and three jobs. We have an economy that is based upon the visitor industry, we do not have high paying jobs, and the visitor industry is a very volatile one. So, Mr. Speaker, I would've preferred that we saw a bit more vital economic development for us. And there's a couple of things in manufacturing and innovating, but it's not robust, and that's the fear that I have, Mr. Speaker. That so many of our people, 48% are one check away from homelessness. That is shocking. Are we really doing our job if half of our population, half of our constituencies, are one check away from homelessness? That is a shame. I don't think it's conscionable as Representatives that we should be able to do that. Ok, that's one constituency that may be missing.

"Another way this bill could've been better cast is if we would not have cheaply funded DHHL. And all of you know that this is the first time I've not been on the conference committee because I voted against the budget because I felt very strongly that the \$7, \$8, \$10 million, now we're up in the \$20s if you count a lot of the positions that have been given. But, Mr. Speaker, we have short changed what otherwise is a legal and constitutional obligation.

"So rather than just praise, I think we should be critical, Mr. Speaker. Let us be mindful that Hawaii is a renting state. More people rent than own, Mr. Speaker. That means the Hawaiian community is even more prone to homelessness because the amount of people who are renting. We don't have the homeownership of the mainland, which is 60%, almost 70%. People can say there's a piece of land or a house that they can call their own. And that's why, Mr. Speaker, in the beginning in 1920, when our Congressman Kalaniana'ole, a Republican, said, we want to have an Organic Act. And it was passed unanimously.

"I love Senator Akaka, he's probably one of the most genuine, respected people in this nation. But, Mr. Speaker, he couldn't get the Akaka bill through, but Kalaniana'ole got through the Organic Act in 1920. But to this day, Mr. Speaker, we've only put less than 10,000 people on the land, of which 203,000 acres have been designated. Mr. Speaker, that is almost as shameful as having half of our people one check away from homelessness.

"And Mr. Speaker, I wish to correct the learned Chair of Finance. She said that Castagnetti rejected the constitutional obligation of her decision in her ruling. Mr. Speaker, that is something I think that the Speaker bought and others have bought to think that we are not obliged to abide by that decision. Mr. Speaker, there's nothing farther from the truth in that. Because it's very clearly spelled out in findings of fact number 4 that we are obliged to pay \$28,478,966. What the learned chair forgot to mention in the Castagnetti ruling is that she changed three sentences out of 40 pages as a way of respecting this body as a separate and equal Member of the Legislature."

Representative Tupola rose to yield her time, and the Chair "so ordered."

Representative Ward continued, stating:

"I don't think I'll go 25 minutes, though, as we had the previous speaker. Mr. Speaker, the point is, Judge Castagnetti changed three sentences in her 40 page decision. So by mere wordsmithing, this body, our leadership has taken that to mean that, oh, we are not obliged to do what the constitution says, which in 1978 they made 'may' sufficiently fund to 'shall' sufficiently fund, Mr. Speaker. That's very real. Shall means a lot to this body. We are all wordsmithing. But when you change three sentences out of 40 pages and you say, oh we've turned it on its head, Mr. Speaker, that isn't correct. It is simply incorrect.

"And, Mr. Speaker, I know I'm not saying anything new to the Speaker who is from Maui, who is not on the podium, but two weeks ago I wrote him a letter. And I said, the first purpose of this letter is to note that time is of the essence and we are fast approaching the 2016 May 5 deadline. This was written on the 20th of April. I said, the second purpose of the letter is to caution you that this legislature, if it does not comply to the court order, we, you, me, the Governor, the Legislature will be in contempt of court. Then, Mr. Speaker, I said, I encourage you, no, I beseech you, to stop this fighting against the Native Hawaiians and provide them with the housing and the lands that were mandated by the U.S. Congress 96 years ago, by the State of Hawaii 1959, and legally brought to the floor under the Nelson case that we have underfunded the DHHL.

"How else can you explain, after nine decades, only slightly over 9,000 leases have been issued and 27,000 Native Hawaiians remain on the waiting list, Mr. Speaker? We've got maybe 6,000 to 10,000 homeless people, we've got 27,000 people on the wait list. About 60,000 Hawaiians have half, in terms of the blood quantum, to qualify. Are we doing a demographic run out the clock, Mr. Speaker? Because as intermarriage, and everybody gets intermarried in Hawaii, but as Hawaiians dilute their population, are we trying to propagate this by not having people eligible? I think that's a very callous way of looking at it. But the longer we delay, the less people are going to be eligible for Hawaiian homes, and the more who are on the waiting list are going to pass away, Mr. Speaker. That's a shame. That was letter number one to Speaker Souki.

"Letter number two was written just last week, and I put a headline on this one. I said, countdown to contempt of court, four days remaining. I reminded him of the letter that I wrote on April 20th and then I said, it is therefore timely again for a sign of good will through either the budget conference committee, topping of the executive budget with the constitutionally mandated \$28 million for DHHL, or the appropriation bill by the Representative from District 13, which I believe was HB 1932. I end by saying, please know there is a legal team waiting on the sidelines until May 6th and will surely be proceeding with as much legal energy and astuteness that led to the Nelson case and the Castagnetti decision that is now being ignored by you. Please save taxpayers money by avoiding further litigation.

"Mr. Speaker, the bottom line is, we are on a collision course by passing this bill without \$28 million in it. It is very clear that the Castagnetti decision is being misinterpreted by this body, it's very clear that we are giving rhetorical excuses for not having our congressional as well as constitutional and statehood obligations to fund the Hawaiian home lands.

"My request may have been ignored, Mr. Speaker, but let me say this very unequivocally. The Native Hawaiian Legal Corporation is very serious in pursuing this. I don't represent them, I don't have a conflict of interest in them. But I see a new generation of Hawaiians, bright, young, legally grounded. We're going to pursue this and they're going to bite our heels until, like OHA did with us, until we pay up.

"So, Mr. Speaker, the point is, the sooner we can do this, the sooner we can do a \$27 billion budget like we're passing today and leave out \$8 million or \$28 million for the Hawaiians and then beat our chest and say we did a great job, when these people have waited for 96 years and there is 27,000 of them waiting, I think we need to look at those people and apologize to them."

Representative Pouha rose to yield his time, and the Chair "so ordered."

Representative Ward continued, stating:

"You know, they say you give a politician a microphone, they'll never sit down, but I would actually have just finished my speech. I thank you, Representative. And I want to say, Mr. Speaker, time is of the essence, and we are having a legal battle ahead of us. I don't think it's going to cause us to come back into special session, this is an election year, but I think we have to take very seriously what the Native Hawaiian Legal Corporation, what the recipients or the beneficiaries who are now getting organized are doing. Mr. Speaker, we haven't heard the last of this, but the way that we've gilded the lily by saying we did first thing and gave them the most money ever, Mr. Speaker, that is not fair, it's not just. I think we really

have to contemplate the future of the Native Hawaiians in the State of Hawaii, and we should start right here, right now, and legally with the Nelson case. Thank you, Mr. Speaker. Thank you all for listening."

Representative Keohokalole rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I'd like to just mention that I sincerely appreciate the support for DHHL from the learned Representative from Hawaii Kai for now supporting such generous and now constitutionally mandated funding for housing for Native Hawaiians. He is right, this body should fund DHHL. And it could have funded DHHL, it could have funded DHHL in the 2000s when this body passed budgets where DHHL operating funds never exceeded \$1.3 million and were under the leadership of a Republican executive branch that funding was zeroed out. Zero dollars. So again, much *mahalo* to the Representative from Hawaii Kai for the change of heart. It only took a Supreme Court case and 26 years. Thank you."

At this time, the Chair stated:

"Members, I apologize. We've got to keep proper decorum, so please, proper decorum."

Representative McDermott rose to speak in support of the measure with reservations, stating:

"Proper decorum and I'm up. How appropriate. The Speaker, he was going to appoint me caucus couch control officer, so I appreciate that. I stand in support with grave reservations. In order to cut my time down, and I hope I don't cheat the Members out of hearing my wonderful oratory, but I would like to ask a special favor, Mr. Speaker. And that is my remarks from second reading be reprinted, not entertained by reference. Because if they're entertained by reference, I have to repeat it all again, and I'm sure my colleagues don't want to hear that," and the Chair "so ordered."

Representative McDermott continued, stating:

"Thank you very much. So that I can get away from all the statistics. I certainly like the Finance Chair, support the Finance Chair. The Finance Chair has done a wonderful job with this huge document. I remember when the Finance Chair became Finance Chair, we greeted each other in the hall after 10 years of me being out of office, it was very warm. So I have nothing personal against the Finance Chair. I have nothing personal against the legislators from Maui. The Speaker of the House I have great affection for, the CPC Chair has grown on me and I have really come to like these individuals. So it's nothing personal. I want the Members to know that. In fact, I don't even know where any of these district lines are over there, who represents what area.

"My challenge is that we have exigent circumstances, an emergency situation, in West Oahu. And ground zero is Campbell High School. This is a bipartisan view point, Mr. Speaker, demonstrated by the fact that it was the Governor's number one priority, \$31 million, he put it in the budget. He put in zero for the Maui High School. And the reason I use the Maui High School is it's because it's a nice to have, it's not a need. The analogy I will put in is, there are two patients in the emergency room. One guy's had the flu for 12 hours and he's been waiting to see the doctor. It's his turn, but in comes somebody with a compound fracture. You have to prioritize. So you take the compound fracture, because it's an emergency situation.

"We have a finite pot of money, Mr. Speaker. And Mr. Speaker, we are not addressing the need of Campbell High School. In fact, it's less than half of what the Governor asked for. The Democratic Governor asked for \$30 million. This is \$12 million, it's way underfunded for the requirement that will be cresting in about two years. What saddens me is that this is a deliberate decision we've made. We have the facts in front of us and we have made a deliberate decision, which is going to have impacts two, three years down the road.

"Now, I've asked Ms. Matayoshi what her number one priority was in writing, she would never reply to me in writing what it was. Now my good

friend and colleague from Ewa Beach said that she did articulate it in a Finance Committee hearing that Campbell High School was the department's number one priority. And if he said that, I believe him. So the question is this. If it's the Governor's number one priority, and he doesn't even mention Maui, Kihei High School, and it's the DOE's number one priority, how come it's not ours? How come we don't even fund it half way?

"The reason it's so expensive, Mr. Speaker, \$31 million, is you have to go up. There is no room on campus, because 44 portables are already there. Mr. Speaker, the school is so crowded, they have to start lunch service at 9:30 in the morning. Lunch, to get all the kids through. Now we know these facts, and yet we chose, chose to ignore them in part. It's a matter of needs versus wants. I want every kid to have a brand new high school. I want every kid to have a wonderful learning facility. But we have an emergency situation. I can tell you honestly, I would never argue the opposite. I would never stand here and say, you know what, Campbell needs a new high school, I don't care if your enrollment is over 3,000, you've got 500 more kids coming in the next three years, doesn't matter, I've waited my turn, we're first. I would never do that. And you know what, I would be laughed out of this building if I did it. Particularly as a Republican. I couldn't do it. I couldn't do it."

Representative Matsumoto rose to yield her time, and the Chair "so ordered."

Representative McDermott continued, stating:

"Thank you. So it is with a heavy heart and disappointment that, how do I go back to my community and tell them we got \$12 million? Well, it sounds like a lot, but it's half of what's needed. What does the principal think, what does the vice principal think, what are they supposed to think of us, that we've turned our back on them? This is the most urgent need in the State for DOE by far and we are not funding it. What do we do two or three years from now when there is no more classrooms, there is no space? Do we send them to the gymnasium and kind of like put up dividers? I mean, I don't know.

"The Governor did release \$5 million for the new West Oahu High School that Representative Cabanilla worked so hard to get a few years ago and that's out there now, but the DOE is so dysfunctional they don't even have a site selected. And I notice in the budget here, a new Kapolei secondary school. So this is ostensibly to work with that \$5 million, I guess, \$1,000 appropriated. One thousand dollars, a one, a numeral one, I've never seen it before. That's like a slap in the face. We're not taking it seriously. We have an emergency situation on the west side, and I don't know why it's not being addressed. I just don't know. I have some ideas, but I don't know why it's not being addressed.

"I have gone over this material *ad nauseam*, and this will be a test for our Governor, who said he's a methodical decision maker and looks at all the pros and cons. Well, when he's going for a re-election, the enrollment's going to begin to crest in our west side. He's been alerted by me, I've talked to his chief of staff, I've written him numerous letters. Will he release this money? That's the question. Because in two years, you can't go to West Oahu with a whimper and say, I'm sorry. I want him to call us back into special session and finish this. We need to fully fund this requirement. And I'm going to write him a letter today asking him to do that, so he's on record.

"But with that, Mr. Speaker, I have a heavy heart, I am extraordinarily disappointed. Sometimes when you come down here, you think that the facts will carry the day. The facts. The facts are clear in this case and I would never argue the reverse. I couldn't, in good conscience. The facts, Mr. Speaker, the facts say that Campbell High School should have a full \$30 million building. It's getting \$12 million, it's not enough, I'm extraordinarily disappointed, I'm beyond angry at this point, I'm resigned to the fact that we're going to have a disaster on our hands in two years. And all I can say is, I told you so. Thank you."

Representative McDermott's remarks in support of the measure with reservations from second reading on the measure on March 14, 2016, are as follows:

Mr. Speaker, I appreciate your encouragement to wait till third reading, but the situation before us requires that I speak. First, I want to thank the Finance Chair for all of her hard work. She is a diligent professional. I know her team is a team of dedicated professionals and that they want nothing but the best for our students and our state.

Mr. Speaker, I am concerned about parts of the education budget here.

Support, thank you. Support with grave reservations. I am sure that the majority body believes that this document should reflect the feeling that every student should have a first class high school. And I want to say that right up front. Every student across the State should have a first class high school, Mr. Speaker, and I know everyone in this body believes that. I know they do.

But how do we get there, Mr. Speaker? How do we get to appropriating funds for certain projects? I think when it comes to children, these policies should be child-centered and student-based. Based on hard data, enrollment figures, growth projections. How many seats do we have for the students, Mr. Speaker? How many seats do we have for kids?

It would seem to me that the highest priority we have is ensuring that students have a place to sit. Mr. Speaker, you don't hear me down here talking about air-conditioning anymore. We used to say that the classrooms at Campbell were like ovens. The problem now, Mr. Speaker, is we don't have enough ovens to put the kids in. So we've gone from cooling the ovens to now we just need ovens. Isn't that a sad state of affairs, Mr. Speaker?

So my job here is to point out that the Governor's budget had \$31 million for a new building at Campbell High School. And we cut that to \$15 million. Mr. Speaker, do you know how many kids are at Campbell High School today? Take a guess. Three thousand one hundred and two children, 3,102 children.

Kapolei, which was built 14 years ago, is also overcrowded with 2,118 children. And their overcrowding is due to the Campbell kids getting geographical exceptions to go to their school. These two schools have over 5,000 students in them.

Mr. Speaker, this needs to be addressed. So my job is to point out the need for fully funding the Governor's \$31 million request, which we cut in half. Which is an urgent need, the Governor put it in. Mr. Speaker, you may not know this, but the Governor is not a part of the Bob McDermott fan club. He put it in without discussing it with me. He put it in nonetheless. We cut it in half, we cut it into the amount that we provide for performing art centers at other schools, which are nice to have.

This is exigent circumstances. This is an emergency situation. The parents are outraged, the community is outraged, the neighborhood board is outraged. But I can't blame the Chair of Finance, Mr. Speaker. I cannot blame her, because I have to assume that the Chair of Finance is given the same information I am from the Department of Education.

I asked the Department of Education not once, not twice, but three times, what is your number one priority for a new high school? And each time I got a two-page non-answer. Two-page non-answer. So apparently, there is no priority for a new high school.

Mr. Speaker, in this budget we are building a new high school on your island. Which is not needed. Thirty-seven million dollars. Enrollment between Maui and Baldwin is going to go down in the next three years by 400 students, while the combined enrollment between Kapolei and Campbell goes up by 768. Who builds a new high school where it's not needed? Who builds a new high school where it's not needed?

Thank you, Mr. Speaker. Mr. Speaker, the point is, we're allocating money for a high school that doesn't need to be built. The enrollment on Maui goes down by 400 students in the next three years, while the enrollment on West Oahu goes up by 769 students. This is akin to Castle High School having a roof leak and we build a new high school in Molokai to solve the problem. It's not needed, Mr. Speaker.

The proponents of this project cite a 1990 EIS. We don't do anything on 25-year-old EISs. And the other thing they cite is a 45 minute bus ride. Mr. Speaker, I had a 45 minute bus ride every day. Maui is a rural community as opposed to Oahu, so you can't compare Farrington High School to rural communities. You just can't do it. Its apples and oranges. Eighty percent of our population here resides on 20% of our land.

Mr. Speaker, the terrible part about this is if we go ahead and build this high school, there will be no new high school in West Oahu for over a decade. Because we can't afford it. We are going to sentence a generation of kids on the west side to overcrowded classrooms, hot classrooms.

By the way, Mr. Speaker, when you have 3,500 students in a high school, the good news is we'll probably win every state championship. The bad news is, when you field a team like a basketball team, you can only take 15 kids. There will be children who are good enough to start at any other high school, who will be cut from extracurricular activities and lose that opportunity and

experience to participate, because we are not building a high school in West Oahu.

The DOE knows that if we build this school on Maui, they're not going to have a chance to build a new high school within the next 10 years. That's why they don't even have a site selected. They have no priorities, they have no site selected, so then we're left to go by the whim of our political views and political muscle.

This should be a child-centered, student-centered decision. You know, in this body we talk a lot about it's for the keiki, it's for the children, it's for the keiki. Where are all those people now about the keiki? I got a school with 3,000 children in it, going up to 3,500 in three years. These are DOE numbers, by the way, Mr. Speaker. They're from Colleen Matsumoto, Information Specialist. So these aren't Bob McDermott numbers.

Today Campbell High School is at 3,102. In three years it goes up to 3,545. Kapolei, 2,063, it goes up to 2,373. Now we're building a high school on Maui to relieve Baldwin and Maui High. Their current enrollment is 1,408 and 1,849, respectively. They both drop down to about 1,400 in three years. Both will be under capacity.

Now, when you build this new high school there, you're now adding the burden, administrative cost and burden to the Department of Education to run and maintain that new school. And you're pulling about 400 to 500 kids out of these other two schools, so you'll have about three schools with 900 students. Because of student weighted formula, those other schools will lose some programs, teachers and extracurricular activities that they currently have.

So you have three high schools with 900 students, and you have poor Campbell High School with 3,500 students. The assistant principal thinks it's going to be closer to 4,000. He's probably right, but I can only go by these projections.

Now I have a selfish interest why I am pushing this, Mr. Speaker. That selfish interest is I have a sophomore there and I have two more children in the queue. One is going to be a freshman next year and then one the year after that. And they are going to be put into a campus with over 3,000 children. Where are the bleeding hearts who talk about the kids all the time? And they're going to sit by silently and watch this travesty as we sentence a generation of students on the west side to overcrowded campuses, campuses that are criminally large in nature.

The average high school is 1,468 across the United States, from the National Coalition for Education Statistics.

Thank you, Mr. Speaker. Mr. Speaker, as I began to state, I'm very concerned about this. So much so that the lack of this in the budget that I talked to the Governor's Chief of Staff and I showed him the chart with the declining enrollment.

Mr. Speaker, we run the risk of wasting a year here. And what I mean by that is it wasn't in the Governor's budget, the Governor has sold us that he is a methodical engineer who evaluates things based on need. If we appropriate this money, which by the way is \$37 million, and that won't buy one classroom, one brick, one slab of mortar. That is only to level out this land, which is at about a 20 degree angle.

So what are we doing? The point here, Mr. Speaker, is we're building a new high school where it's not needed, when we have exigent circumstances in West Oahu and we are throwing them a crumb, \$15 million. Exigent circumstances, this is an emergency situation. And you know what? I am the only one I guess who can read a chart, apparently, about enrollment figures.

This is a crisis situation, it needs to be resolved. And I am here not in a partisan fashion. I'm here for these children. For my kids, literally my kids, who go to this school, and the parents who are frustrated. And I can't go in good conscience and say, well, we're building a high school on Maui where they don't need one, Mr. Speaker. And with that, I'll save the balance of my remarks for third reading. Thank you, sir.

Representative Kobayashi rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in support. We live in an imperfect world. We are all not all wise, all knowing, and in that situation we have an imperfect but very good budget proposal before us. And I urge support for that proposal. When we see facts and information presented in this body, these facts and information are sometimes contorted, sometimes partial, sometimes intertwined, sometimes crosscurrent. But luckily we have a Finance Chair with the appropriate temperament, appropriate intelligence, people skills, tolerance for us imperfect human beings, who has crafted a very good budget.

"I too am disappointed that certain things are not in the budget. I wish there were more things for DOE. UH could use a few dollars. The hospital could use a few dollars. Invasive species. OPEB, our unfunded liabilities could use a lot more dollars. So, it is disappointing at points, but we live

with what we have, and that is limited resources. And in that context, I support the budget and hope everyone does. Thank you."

Representative Cullen rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Cullen's written remarks are as follows:

"Mr. Speaker, I rise in support of HB 1700, HD 1, SD 1, CD 1.

"First of all, I appreciate the fiscal chairs from both chambers for composing a well-rounded budget, addressing the needs of the State. I would also like to thank the rest of the members of the committee for their hard work and dedication on the state budget. The finalization of the state budget would not have been possible without the help of exemplary staff. With that being said, I would like to extend my appreciation to my staff, Rachele Lamosao and Chantelle Esteban (my committee clerks).

"This budget reflects many long-range solutions within our communities and our state. A few of those concerns are in regards to heat abatement and overcrowding within our public school system, and many other concerns within our state. Therefore, I appreciate the chair's efforts in seeking to appropriate funds towards permanent and sustainable solutions as we are being responsible with our taxpayers' dollars."

Representative Ward rose to respond, stating:

"Thank you, Mr. Speaker. I will not rise on a point of personal privilege, but I will take the good gentleman's ridicule as flattery in that how much influence I had over the Lingle Administration, particularly Governor Linda Lingle. And secondly I want this body to know I have never, repeat, never voted against a DHHL budget. Never. Thirdly, I think I personify what's going on in the Hawaiian community. It's not an awakening, it's not a Johnny-come-lately, it's a wake up, it's about time that we do something about this, and we are going to do it legally. Enough is enough. And that's what I sense is going on in the Hawaiian community. And if I can personify that here on this floor, sitting from Hawaii Kai, without a dog in a race, but only for what is just. And I ask this for all of you, every time you walk by Liliuokalani statue..."

The Chair addressed Representative Ward, stating:

"Representative Ward, Representative Ward, focus on the Speaker."

Representative Ward: "Mr. Speaker, I am doing a gesture, because the statue is over there. You're not Liliuokalani, the statue is over there. Every time you walk by Liliuokalani statue, ask yourself."

Representative Souki rose to a point of order, stating:

"Mr. Speaker, point of order. This man is out of order. Will you please call him out of order?"

Vice Speaker Mizuno: "Representative Ward, focus on the merits of the bill."

Representative Ward: "Oh, come on. Come on. I told you guys. I am the quarterback, the more you push on me, the more I'm going to push back, so leave me alone."

At 10:20 o'clock a.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 10:26 o'clock a.m.

Vice Speaker Mizuno: "Representative, that was uncalled for. Focus on..."

Representative Ward continued, stating:

"Mr. Speaker, my last sentence was in reference to a historical statue that is outside of this building. I ask that the Members have a look at that

and remember Hawaiian history, remember where we are today, and remember that that which she cried for when she was under house arrest was the freedom of her people. And Mr. Speaker, to know now that behind her, in the shadows like a *kabuki* play, is the Native Hawaiian Legal Corporation. So when you go by, listen to your mind and your conscience. Thank you, Mr. Speaker."

Representative Ing rose to speak in support of the measure, stating:

"In support. I just wanted to say that, a lot of us, I very much support full funding, \$28 million for DHHL. But it should be noted that the department gave this number that we're putting in as the maximum that they could possibly spend in hiring people. You can only hire so many hundreds of employees in one year. And it's one thing to not vote against a DHHL budget, but it's another thing to vote for a zeroed out budget without creating all this ruckus. And that has happened in the past by the previous speaker.

"Lastly, regarding the high school on Maui. I know I haven't done this all session, but just looking at facts. There is one district that's the largest district without a high school, that's Kihei. The fastest growing city in America now, in America, for 5 years until last year was Kihei. There's 1,000 students now ready to go to high school in this district that have to be driven to another district in order to go. We don't have a single stadium, let alone a gymnasium to play basketball in our entire district of 40,000 people.

"So right now it takes 20 minutes minimum, well it depends on the traffic, it could be up to 40 or 50, just to go to high school in the morning. It's one thing to not have enough classroom buildings in your high school, it's another thing not to have a high school at all.

"Regarding number one priorities, Kihei High School was the Governor's number one priority when we funded it. We got it started, now it isn't. We put the number 2 priority to take its place. It makes sense, doesn't it? That's it for now. Thank you."

Representative McDermott rose to respond, stating:

"Mr. Speaker, I appreciate the comments from my colleague from Maui, and he's fighting for his community. And I was quite particularly impressed with his speech on the water bill. I thought that was magnificent and it did move me, to be honest with you. Again, it's not personal, Mr. Speaker. I want Kihei to have a new high school as well. But we have an emergency situation, and this Governor, it's not his number one priority. It might have been Abercrombie's, but it's not this Governor's, because the population is exploding.

"In 2020, Campbell High School will have more students than Maui and Baldwin combined. I mean it's just. So you're building another high school to relieve two high schools, which one has 1,400, one has 1,800. Their enrollment's going down. It may have been a fast growing city, but now it's going down. While ours is continuing to explode.

"And then I saw in the budget that there's money for affordable rentals and affordable housing. Where is that stuff going to be built? West side, where I'm at. Where these kids are at. This is an emergency situation. Emergency. I'm not saying that these guys don't rate a new high school. Everybody rates a new high school, but you have to prioritize. You have a finite pot of money, and it was \$5 million that was released to get it started. Well, we just got \$5 million released for West Oahu to get it started. Okay, so now it's \$37 million to level the ground, which is at a double digit grade, which violates DOE's own rules.

"Secondly, the school is only being built for 800 students, which violates DOE's own rules, the first phase. You've got to have 1,000 to start a new high school, because they are so doggone expensive. And then finally, it violates the DOE's rules with regards to egress and ingress. There is only one way, one side to do it on. So, this thing is fraught with problems. Now I'm sure the Maui delegation is happy about it, and I'm sure the CIP Chair from Maui took all these things into consideration when he made this decision and said, you know what, Maui High School is more important than Campbell, I know they're not going to have seats. We're talking about

seats for kids. Ain't going to have them, ain't there. At \$12 million, you can't buy them. You're not going to have enough seats for students. And we made this deliberate decision. They got seats. We ain't going to have seats. And the train is coming down the track, so what we did is, well, we took one leg off but we still have the other leg there and we're going to get run over. It's just not going to be as bloody."

Vice Speaker Mizuno: "Representative Thielen, would you be willing to yield your time?"

Representative McDermott: "I don't need it, I got 20 seconds, I'll finish up. I'm glad the minority leadership is so attentive, firing up to yield time to their colleagues. That is a wonderful mark of leadership. Thank you, Mr. Speaker. And with that, I will close this dysfunctional discussion."

Representative Ing rose to respond, stating:

"In support. I'm not about to speak on behalf of the Governor like the previous speaker, but I will say that the Governor did come fly in to my district for the ground breaking ceremony after \$30 million was released for this project by the current Governor. And he did express his commitment to see it through publicly. Thank you."

Representative LoPresti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I do have to speak on this issue. I've worked tirelessly for two years for our district to get as much money as we can for Campbell High School. In support. And to perhaps correct or at least clarify I think some misinformation, the \$12 million that this budget has for James Campbell High School, to begin with, it is the second largest CIP given to any school in the State through CIP budget and general obligation bonds funding. The second highest. So it's pretty obvious that in this budget, Campbell is a priority, the students of Ewa is a priority.

"Secondly, in speaking with the Department of Education and the amount of work that they can do to shoehorn a large new building into the James Campbell campus, which is overcrowded, there's not even places to put any new portables there. And thankfully last year we got a whole bunch of new portables to help address some emergency capacity issues. But the maximum amount of money that they can spend in one year to clear the ground, put in infrastructure, move some portables so they can put a \$35 million building in there, is \$12 million, Mr. Speaker. That's the most that they can use and spend in one year.

"This state, as we all know, has enumerable priorities and issues that need funding now. It is a crisis in Ewa, it is a very big crisis for our students. But it doesn't make sense to have \$20 million sitting in an account doing nothing, when it can go to help other students in other districts, and next year, once that work is done, we put the rest of the money in and build the rest of the building. It makes financial sense to do it that way.

"As for the new East Kapolei or Kapolei or Ewa high school, I don't know why they call it East Kapolei, it's really to serve, in my opinion, the kids of Ewa Beach, but names are names. The location for that high school is not yet determined. I've been to I can't even count the number of meetings with the DOE and their consultants, and poured over enumerable maps about where this high school is going to go. And there's a lot of challenges, Mr. Speaker, where this high school may go. And it's not yet settled. The Governor has released \$5 million to help go towards this, but it also doesn't make sense to give many more millions yet, when we don't even have a location.

"I fully expect in the next session, with the support of my colleagues and the support of the Governor, that this body will, I have no doubt, fund a new high school for Ewa Beach and for Kapolei. But we don't even have the location yet. We can't put the cart before the horse. But it doesn't mean we don't fight and we don't try and we do the hard work and we meet with the CIP Chair, we meet with the Finance Chair, we meet with the DOE. That's the real job that we have, in advocating for our districts, Mr. Speaker.

"And if I may speak a little truth for those at home, when they watch these proceedings, everybody knows sometimes when they come to the floor, decisions may already be made. Much of what's said here sometimes is theater, Mr. Speaker. And we do not do our jobs by waiting till the end to make a performance on the floor, and say that that's doing our job. We do our job every day, working hard for the people in our district. Not waiting till the end and making boisterous speeches. Thank you."

Representative Jordan rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I'd kind of like to go back to the bill itself, Mr. Speaker. First and foremost, I'd like to thank my fellow members on the Finance Committee, I'd like to thank our chair, and I'd like to thank our counterpart in the Senate. When we start talking about the budget, it's not one particular project, it's not one particular department, it's a budget. How are we moving forward, creating a six year balanced budget according to our constitution? To make sure we weigh all the options for everybody's needs. With the departments, with emergencies, with needs of 76 Members.

"When we looked at this budget as we have over the last few years, we focused on the departments. We focused on vacancies again, we focused on 89-day hires, we focused on exempt positions, and we pressed harder on those departments. As you'll see, there's countermeasures that we'll be voting on today that address these as we move forward and become more accountable. Not only to these constituents in the State of Hawaii, but to us in a balanced budget.

"We're providing \$327 million, as the chair has said, to our unfunded liability, to make sure that people who have worked for the State before will get their checks in the future. Some of those people are living to 100-plus years old, sometimes getting retirement longer than they paid into the system. We have an obligation to make sure they have that. We have an obligation to make sure they have that health care. That comes out of this budget. We have an obligation to make sure when negotiated contracts come up next year that we have enough money to continue to keep those employees and not lose them to public sector, and provide those needed services.

"So when we talk about a budget, it's not talking about one particular thing. It's the whole thing. And that's what's more important when we talk about this. How much we put away, \$150 million into a rainy day fund, or the Hurricane Relief Fund, to make sure when we go to ask for money on a national level for bonding that we keep our great bond rating. So we can borrow at the lowest rate of interest. I think our bond bill is close to \$970 million. That's future debt we're going to be putting onto future generations.

"These are all things we need to be cognizant of when we each come and ask for something to take home to our districts. But at the end of the day, we need to have a balanced budget, and we need to make these harsh decisions. We have two other measures that will be coming up today talking about reviewing credits, reviewing deductions in our tax code to see if they're viable and if it's costing us too much money or we should change it. That's what a budget is, Mr. Speaker. And I wish we would speak to that merit and show these people of the State of Hawaii that we really do work hard here.

"It's all about how we're protecting our state for our future needs and making sure that everybody has a safe place to live in and be able to remain here. That's what this budget really is about. And it does take many, many hours. I thank the chair and her staff, because those individuals work very hard. As well as do my counterparts on the Finance Committee. And it's like drinking from a water hose when you get on that committee, it's not that easy. But the more you learn about our state budget, I think the more well-rounded you become. And how to articulate this budget to our constituents who just want to know, what are you bringing home? If we can explain to them how much it's costing us, I think they'll be more understanding, just like with their personal budgets. Thank you, Mr. Speaker."

Representative McKelvey rose in support of the measure and asked that the remarks of Representative Jordan be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Luke rose, stating:

"Mr. Speaker, I just wanted to introduce one more member of the finance staff who walked in not too long ago, Matt Tsujimura. If we could give him a special round of applause. And with that, I call for the question."

At this time, Representative Luke called for the previous question.

Representative Say rose to speak in support of the measure, stating:

"Mr. Speaker, may I say a few words? Mr. Speaker, I stand in strong support of this measure. But more importantly, let me start the preface by saying this to all of you. On behalf of myself, congratulate the chair and the Finance Committee members and also the staff. Yes, we are all here in representing our constituency. But more importantly, I think we should be looking towards the future. The future for the future generations.

"Thirty-four Members of this House did not get the opportunity, Mr. Speaker, of sitting on the Finance Committee. This debate here this morning is a start of that particular journey, because I would ask the Members a question. How many of the 51 Members of the House got a chance to look at the supplemental Governor's report that was sent down, the budget? What was the fund balance after June 30th, 2015? How was the discussion broken into revenue enhancements versus expenditures? I am very proud of this budget today, because, may I also incorporate the words of the Finance Chair as though they were my own," and the Chair "so ordered." (By reference only.)

Representative Say continued, stating:

"But more importantly, Members of this House, we talk on just looking at it today. Today's budget is not our biennium budget. It is a supplemental budget, where you try to address emergencies. Emergencies that the administration has highlighted. How many Members of this House understand, what is the GM that you see on your order of the day at the beginning of session? What is the GM? Governor's message, you are correct, Representative from Kahala. But my point is that I am so elated and happy that the Finance Committee and its chair, in their wisdom, has set aside \$150 million for the rainy day fund.

"The fall of 2015 it was really ironic, because Governor Ige went to a National Governor's Association conference, and I was very privileged to see the discussion on the national level of his peers of what is happening in America today. There was a panel of four economists plus a moderator. And the four economists talked about, are we ready, a country that we love so dearly, the United States of America, ready for another recession? A recession is cyclical, and for those who were here in 2009 and 2010, you recall how big this recession became and it was almost like a depression. What the Finance Committee and its chair has done is set aside now \$150 million in preparation, when it does occur. Will that be enough? I really don't know.

"But for the Finance Committee and Members of this House, you should look at the pie chart of your revenues and your expenses, and how much of the expenses are going to our mandated benefits. What do you folks want? More debt service? Preservation of health benefits? Employers' contribution to the retirement system? That's what you folks have done this session in trying to balance those big three ticket items. Come the fall of August, September, the administration is back on the table for collective bargaining negotiations. All of these variables, I'm just happy to share with the Members who are not on the Finance Committee. Because the truth will be told, if the recession occurs in 2017, at the end of 2017 or 2018, we will have to come back to determine how are we going to fund these three mandated benefits. Debt service, pension, and health fund.

"Sometimes I'm very conflicted, and I'll share this with the Members of the House and audience at large, is this. I've got to really support more employees in the state government, in hiring more employees."

Representative Hashem rose to yield his time, and the Chair "so ordered."

Representative Say continued, stating:

"People may think I'm critical. The public may think I may be very out of sight, out of mind in saying something like this, but the answer is this. At the end of the day, you are the employer. The less employees we have, the more employer pays into the pension fund, into the health fund. Wake up.

"We don't have everything that's before us, but it is a start that the Finance Chair and the committee did. Look at the macro. That's why I feel very frustrated, because we're only looking at ourselves and our particular districts, and not at the overall state government that we provide services to. Yes, I was very critical in some of my statements on the floor on measures, but I'm just trying to say to all of you, let's be fair, let's be honest, let's be transparent.

"I had about four or five calls asking me, hey, Representative Say, Speaker Emeritus, what is a blank bill? It's not dealing with the budget, but it's the process that we're dealing with. A blank bill was to continue the conversation, but also a blank bill could be interpreted as the status quo."

The Chair addressed Representative Say, stating:

"Speaker Emeritus, I apologize, can we focus on the merits on House Bill 1700?"

Representative Say continued, stating:

"Yes, I am trying to. But let me continue. Transparency in the budget is so important, and you'll be getting to see the opportunity this morning and this afternoon of all of the other appropriation bills. If in June 30th of 2015, the fund balance was \$800 million and in March it got up to \$1 billion, that's where the public has to understand, and Members, how much of that \$1 billion cash carry-over balance are we appropriating today as a supplemental budget? That will give me an opportunity, really, to tell the people back home that it is a balanced budget. But if we're spending more than what's coming in, it just doesn't make sense, the statement that people would make.

"Yes, it is a six years financial plan. Why I was a little frustrated? We're not preparing ourselves, also. Do we have revenue enhancement measures before us to comfort, lower the blow for all of us here who will be back in 2017?

"I really believe that we have to look towards the future, and the chair and the Finance Committee has done their job. But more importantly, that may not be enough. That may not be enough. And so I warn the Members of this House that we should all be working together creatively and openly and honestly. And for the Representative from the area of Campbell, maybe it will be done in two phases or three phases, who knows? But I'm just proud to say that you folks have done a great job, and this is what I wanted to say, to prepare yourselves for the next biennium, because all of you will be back, and then you'll have to face some very tough issues, collective bargaining, increased debt service, pension employers' contribution and health fund contributions.

"Thanks to the chair and the Finance Committee the past three years, the savings we have had in OPEB, other pension employee benefits, have saved us a lot of money also. That's the kind of discussion you folks need, because the actions that you take today will create some savings in the future.

"But more importantly for Hawaii, we're at a crossroads. Why I say this, at the prayer breakfast I had an opportunity to talk to the Mayor of Maui. Probably by the end of the year you'll get about maybe 800 to 1,200 employees who will be on the bench, HC&S and the Maui Prince Hotel conversion. Do we have the programs already in place for the retraining, rehiring, *et cetera*? But I'm proud that we have a bill in regards to unemployment insurance and severance for those particular workers. But

more importantly, in six months, they'll be out of a job. And that's the kind of worries I have."

Representative Ito rose to yield his time, and the Chair "so ordered."

Representative Say continued, stating:

"But in closing, my whole message this morning was this. We are all here for our constituency. But more importantly, can we not look for the future for those Members of the House who have young *keiki o ka 'āina*? A future that we can be proud of in having them and the opportunities. So, thank you very much."

Representative Saiki rose, stating:

"Mr. Speaker, I'd like to call for the question, but please permit written comments."

At this time, Representative Saiki called for the previous question.

Representative Choy rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Choy's written remarks are as follows:

"Mr. Speaker, I stand in SUPPORT of the supplemental budget for 2016. I would like to highlight the good work that your leadership, the members of the House Committee on Higher Education and the House Committee on Finance put into this year's supplemental state budget. Our budget for the University of Hawaii emphasized students. The joint committees sent the message that the University needs to refocus itself on the needs and servicing of the students. The \$750,000 for the Graduation Pathways System (GPS) will help students graduate in four years and lessen the amount of student debt they must carry. The appropriation to the Title IX Sexual Assault initiative gave a strong indication that the State House of Representatives does not tolerate this type of behavior and the protection of our students is paramount in our eyes. Finally, the support of the Theater and Dance program showed administration that they need to reprioritize their support for the academic mission of the University. This year's budget accomplished all of these items and more.

"For all of these reasons, I stand in SUPPORT of HB 1700, HD 1, SD 1, CD 1."

Representative Ito rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ito's written remarks are as follows:

"Mr. Speaker, I rise in support of Conference Committee Report 140-16, HB 1700, HD 1, SD 1, CD 1.

"I want to commend Chair Luke and her staff for their hard work in balancing the State budget and still be able to find the necessary funding for two very important needs for the military community. First, the \$50,772 for a full-time veterans services coordinator IV position that will be dedicated to women veterans. As more women enlist in the armed forces, the State's Veterans' Services Office will begin to see an influx of women veterans who have unique needs. Second, the \$200,000 for the Vietnam veterans' 50th commemoration. This commemoration is very important to the veterans of the Vietnam war as many were shunned when they returned home after the war.

"Thank you, and I ask all my colleagues to support this measure."

Representative Oshiro rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Oshiro's written remarks are as follows:

"Mr. Speaker, I rise in support of House Bill No. 1700, House Draft 1, Senate Draft 1, Conference Draft 1.

"There are only two points that I would like to make. First, I would like to thank you, House Leadership, and all of my colleagues for supporting the appropriation of \$2.5 million for Wahiawa General Hospital. The infusion of cash to the hospital for fiscal year 2016-2017 will ensure that the hospital will continue to operate for at least one more year while it devises and implements a sustainable business model. It is unfortunate that the full \$3 million that they requested was not funded, and as such, the hospital will need to scale back some of its operations as well as possibly lay off some of its employees. Yet, the assistance provided in this budget will guarantee that the emergency room and the long-term beds will continue to serve Central Oahu and protect the health and welfare of the more than 100,000 residents that rely on this critical facility. For that, I am truly grateful."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1700, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE BUDGET," passed Final Reading by a vote of 51 ayes, with Representatives McDermott and Ward voting aye with reservations.

At 10:55 o'clock a.m., the Chair noted that the following bill passed Final Reading:

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2077, SD 1, HD 2, CD 1 pass Final Reading, seconded by Representative Evans.

At this time, Representative Nakashima offered Floor Amendment No. 1, amending S.B. No. 2077, SD 1, HD 2, CD 1, as follows:

"SECTION 1. S.B. No. 2077, S.D. 1, H.D. 2, C.D. 1, section 2, is amended by amending paragraphs (6) and (8) of the proposed new subsection -3(c), Hawaii Revised Statutes, on page 6, lines 18-19, and page 7, line 5, to clarify that an employee shall qualify for the special retirement benefit, if the employee:

SECTION 2. S.B. No. 2077, S.D. 1, H.D. 2, C.D. 1, subsection (b) of section 3 is amended as follows:

1. By amending paragraph (1) to read:

"(1) For retired employees based on the self plan with at least nine years but fewer than twelve years of service, a monthly contribution equal to one-half of the base medicare or non-medicare monthly contribution set forth under section 87A-33(b), Hawaii Revised Statutes; provided that retired employees who were hired after June 30, 1996, but before July 1, 2001, with dependent-beneficiaries, as that term is defined in section 87A-1, Hawaii Revised Statutes, shall be eligible for a monthly contribution equal to one-half of the base medicare or non-medicare monthly contribution for two-party or family plans, as applicable, set forth in section 87A-33(b), Hawaii Revised Statutes;"

2. By amending paragraph (4) to read:

Representative Nakashima moved that Floor Amendment No. 1 be adopted, seconded by Representative Keohokalole.

Representative Nakashima rose to speak in support of the proposed floor amendment, stating:

"Mr. Speaker, the proposed amendments to Senate Bill 2077, SD 1, HD 2, CD 1 are technical amendments to ensure consistency and uniformity throughout the measure. The amendments include technical amendments for employees who are in the hybrid class of the employee's retirement system to ensure that the benefits are consistently implemented throughout and across the board for contributory, non-contributory and hybrid members.

"Additionally, there is clean-up language in part 2 of the measure, which ensures conformity of the language to existing benefits provided by the Employer-Union Health Benefits Trust Fund. These technical amendments comport with the intent of this measure and will ensure uniformity of employees' benefits across the board. Thank you, Mr. Speaker."

Representative Ward rose to speak in support of the proposed floor amendment, stating:

"Mr. Speaker, support. A brief comment and a question. Clearly, those who are being separated deserve compensation for all the service they've given to the State of Hawaii. My only question is, Mr. Speaker, what would the cost implication be? If the Chair of Labor or the Chair of Finance would know that, that would be greatly appreciated."

The Chair then stated:

"Representative, I appreciate it. The vote will be by voice vote, and should it pass, this will be giving you 48-hour notice for the measure to be officially passed on Thursday, so I think that will give you sufficient time to talk to the Chair of Labor."

The motion that Floor Amendment No. 1, amending S.B. No. 2077, SD 1, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO SEPARATION BENEFITS," be adopted, was put to vote by the Chair and carried.

At 11:46 o'clock a.m., the Chair noted that Floor Amendment No. 1 was adopted.

At this time, the Chair stated:

"Members, please note the 48-hour notice for this measure."

At this time, the Chair recognized the Clerk who announced:

Representative Ward: "Mr. Speaker, may I also make a Senate announcement? The good Senator Slom is on the floor arguing, debating as he said he would and he is there. Just so people will know that that is the case and they are going full speed ahead."

Representative Takumi's written remarks in support of the measure are as follows:

"As legislators, we are responsible for many statewide issues that affect all of us—education, public safety, human services—but we are also responsible for responding to issues that may not loom large. HB 1578 does this.

"In June 2015, the Nagamine family visited their family's graves at Sunset Memorial Park in Pearl City. Imagine their shock and sadness when they discovered that the urns holding the ashes of their loved ones were gone. Compounding their distress was later finding the urns at a copper recycling center where it had been sold for \$31 and the urns were empty.

"They knew that nothing could be done, but they resolved to do what they could to ensure that no other family should suffer what they went through. They asked that a bill be introduced so that the penalty for stealing an urn be a Class C felony rather than a misdemeanor.

"This is the bill before us. The family were present at every committee hearing and gave testimony. Family member Lisa Wond testified:

Last June, thieves broke into the gravesite of my grandfather, my grandmother, my aunt and my uncle, and stole their urns. The thieves took the urns to Reynolds Recycling, and received \$31. For them, it was a way to make money.

For our family, it was heartbreaking. Our family canvassed the graveyard and surrounding areas, but the ashes of my family members were never recovered. My hardworking grandparents came to Hawaii a century ago, to build a better life for themselves. They raised ten children, all law-abiding, taxpaying, and contributing members of our communities. Our family is on its fifth generation, and numbers nearly 100. In Hawaii, where we respect our elders and our ancestors, what the thieves did to our family was unbelievable.

For us, they stole much more than the urns and ashes of our loved ones. We mourn for a second time the loss of our family members. My mom has had many sleepless nights over the loss of her parents' ashes and what we thought was their final resting place. We are unable to continue our family's culture and tradition of taking our children and grandchildren to visit our family gravesite, knowing

that it lies empty. I feel violated and angry that anyone could commit such desperate and selfish acts against us, for \$31.

It is a sad statement of our society when we have to enact laws to prevent people from stealing the urns of dead people. But I fully support this bill, with the hope that it will deter thieves enough to prevent other families from going through what we are enduring.

"I am gratified to have played a small role in bringing a small measure of closure for the families. It serves as a reminder that we can make a difference in the lives of people in our community."

Representative Saiki moved that the report of the Committee be adopted, and that H.B. No. 1897, HD 1, SD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Belatti's written remarks in support of the measure are as follows:

"I rise in strong support of House Bill 1897, Conference Draft 1, Relating to Insurance Coverage of Health Screenings.

"House Bill 1897, Conference Draft 1 clarifies and ensures that all health insurers in this state provide insurance coverage for annual screenings for sexually transmitted diseases, including screenings for human immunodeficiency virus and acquired immunodeficiency syndrome. The federal Affordable Care Act already requires health insurance plans to cover these screenings without any patient cost sharing. This bill closes any gaps in access to screenings for sexually transmitted diseases. The long-term patient benefits of these screenings will include early detection, better access to timely and proper treatment, prevention of further transmission, and decreases in transmission rates. For all of these reasons, I strongly support passage of this bill."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1897, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO INSURANCE COVERAGE OF HEALTH SCREENINGS," passed Final Reading by a vote of 51 ayes.

Representative Saiki moved that the report of the Committee be adopted, and that H.B. No. 2252, HD 1, SD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Belatti's written remarks in support of the measure are as follows:

"I rise in strong support of House Bill 2252, Conference Draft 1, Relating to Discharge Planning.

"As described in the conference committee report, the substantial need for this bill is driven by the projected growth rates within the elderly population that we are already witnessing and the need to support individual family caregivers who will have to shoulder more and more of the financial and personal responsibilities in caring for their aging family members. By being able to designate a caregiver for a patient receiving inpatient treatment at hospitals in the State and ensuring that the family caregiver is involved in the discharge planning process, House Bill 2252, Conference Draft 1 ensures better care for elderly patients and provides needed instructional support for family caregivers at some of the most stressful times during the care of their loved ones.

"This bill represents the tireless work of many, many community advocates and groups including AARP Hawaii, the Hawaii Family Caregiver Coalition, ILWU Local 142, the Policy Advisory Board for Elder Affairs, and the Healthcare Association of Hawaii – all of whom participated in many community meetings and informational briefings, two interim task forces, and numerous committee hearings spanning multiple legislative sessions. This bill also represents the hard work of the Chairwoman of the Senate Committee on Health and the Representative of District 34, both of whom were co-chairs of the Kupuna Caucus and true champions of this bill, along with the Chairwomen of the Senate Committee on Commerce, Consumer Protection, and Health and the House Committee on Human Services.

"While much more work still needs to be done in improving access to community-based services for those individuals who wish to age-in-place and in their own homes and insurance payment models that will support these services, House Bill 2252, Conference Draft 1 is an important step to improve home-based care in our communities. For these reasons, I strongly support House Bill 2252, Conference Draft 1."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2252, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO DISCHARGE PLANNING," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 98-16 and H.B. No. 1907, HD 2, SD 2, CD 1:

Representative Saiki moved that the report of the Committee be adopted, and that H.B. No. 1907, HD 2, SD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Belatti's written remarks in support of the measure are as follows:

"I rise in strong support of House Bill 1907, Conference Draft 1, Relating to Sexual Assault.

"It was shocking to learn throughout the course of this legislative session that there are 1,500 untested sexual assault kits in the custody of the Honolulu Police Department. This number was especially astonishing since not more than four years ago, in 2012, the Hawaii Department of the Attorney General testified clearly and plainly before the House Judiciary Committee on HCR 99 (2012) that 'there is no current backlog in processing deoxyribonucleic acid (DNA) rape kits.' Similarly the Honolulu Police Department also testified, '[t]he perception that there is a considerable backlog of unfulfilled requests for the analysis of rape kits is erroneous.' The Honolulu Police Department continued to state that '[t]he decision to request an analysis of a rape kit is strictly that of the case investigator and/or deputy prosecutor.'

"That this prosecution-centered approach to the handling of sexual assault testing kits has only come to be better understood by legislators today underscores the urgency with which the Legislature is now adopting House Bill 1907, Conference Draft 1 with clear legislative intent that all new kits, beginning July 1, 2017, shall be tested according to criteria and policies that do not simply embody a prosecutor's discretion about whether a case is winnable.

"House Bill 1907, Conference Draft 1 creates a strict timeline in which the Legislature expects law enforcement agencies to inventory and report back to the public about the numbers of kits in storage by those agencies. Next, the Department of the Attorney General is tasked with convening and involving community stakeholders in compiling a report about past practices, a timeline for testing all untested kits, a plan for determining the priority of untested kits and new kits for testing, proposed or adopted processes to track kits, and identified criteria and processes to determine which untested kits will be tested, as well as the criteria to be applied to all new sexual assault evidence kits.

"Lastly, legislators are also very mindful – as all the community advocates were on this matter, including the law enforcement community – that funding for victim notification and support services would also need to be identified as the agencies collectively begin to test the many, many untested kits that remain in the custody of law enforcement agencies.

"As some advocates have eloquently expressed disappointment at the current state of untested kits, the time is now to ensure testing of sexual assault evidence kits. Not only are there federal grant monies that are available for State and local agencies, this legislature has also appropriated through House Bill 1907, Conference Draft 1, \$500,000 to begin testing at least 500 untested kits by December 31, 2016, and for associated victim support services. Given the broad interest, especially from members of the Women's Legislative Caucus and community groups-at-large, the time is certainly now for state and local law enforcement agencies to shift their thinking and practices regarding sexual assault evidence kits so that victims are truly placed at the center of the process, and near universal – if not universal – testing occurs with any kit that a victim courageously undertook in the aftermath of the original trauma and assault. For these reasons, I support the passage of House Bill 1907, Conference Draft 1."

Representative Belatti's written remarks in support of the measure are as follows:

"I rise in strong support of Senate Bill 2915, Conference Draft 1, Relating to the Uniform Controlled Substances Act.

"This bill is, in part, the annual update of the State's Uniform Controlled Substances Act that adds drug scheduling changes made by the federal government to the State's scheduled substances lists. This conference draft adds four substances to the State's schedules, a synthetic opioid and a synthetic cannabinoid to the State's Schedule I list, and pentazocine and eluxadoline to the State's Schedule IV list. These conforming amendments ensure public safety and consistent regulatory controls over these dangerous substances.

"Senate Bill 2915, Conference Draft 1, however, goes beyond the annual update and adopts numerous measures that are designed to tackle the prescription painkiller epidemic that is rampant throughout the country and in our very own communities. Of particular significance, this bill mandates all practitioners, except veterinarians, and pharmacies to register to use the State's electronic prescription accountability system. Next, this bill improves access to the State's electronic prescription accountability system by allowing practitioner delegates and pharmacist delegates to use the system.

"Operational since 1993, the State's electronic prescription accountability system has evolved to require all pharmacies and dispensing practitioners to submit prescription data into an electronic database. The amendments in Senate Bill 2915, Conference Draft 1 will empower practitioners and pharmacists to be able to retrieve prescription history of their patients to avoid over-prescriptions and assist in designing the most appropriate care and treatment plans for their patients, especially in instances where controlled substance abuse is suspected. Emergency room physicians will also be able to check the database system to evaluate patients who are exhibiting destructive drug-seeking behaviors.

"Senate Bill 2915, Conference Draft 1 also imposes a 30-day supply limitation on the amount of Schedule II narcotic controlled substances that can be prescribed at a time. Notably, Conference Draft 1 carves out two practical and compassionate exceptions to this 30-day supply limit: (i) where such substances come in a single unit dose package that exceeds the 30-day limit; and (ii) where a terminally ill patient is certified by a physician to exceed the 30-day limit.

"Lastly, Senate Bill 2915, Conference Draft 1 authorizes the Department of Public Safety to enact rules and create effective drug take-back procedures, consistent with federal reverse distribution or take-back laws, that will remove unused medications from the community, one of the sources through which dangerous prescription drugs are getting into our communities and schools.

"Prescription drug abuse has long been known to be a problem by many families who have been touched by this epidemic. According to the Centers for Disease Control and Prevention, the national death rates involving opioid drugs have nearly quadrupled from 1999 to 2013. The provisions in Senate Bill 2915, Conference Draft 1 begin to tackle the tough problem of prescription drug abuse by equipping health care providers, regulators, and the community-at-large with better tools and information to provide better care and reduce the destructive behaviors that come with drug dependency. For these reasons, I strongly support passage of Senate Bill 2915, Conference Draft 1."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2915, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE UNIFORM CONTROLLED SUBSTANCES ACT," passed Final Reading by a vote of 51 ayes.

Representative Morikawa rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Strong support. Long-term care providers in Hawaii have gone without an inflationary increase to their Medicaid rates since 2009. This industry is critical to our increasing elderly population, and they need all the help they can get. This legislation will provide relief by increasing Medicaid rates through a modest inflationary update in fiscal year 2017.

"The appropriated general funds of about \$1.5 million will be matched with approximately \$1.7 million of federal funds. This is for only one fiscal year, so we need to pursue this in future years in order to assist our long-term care providers with the upcoming silver tsunami. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1943, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO LONG-TERM CARE FACILITIES," passed Final Reading by a vote of 51 ayes.

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2392, SD 2, HD 3, CD 1 pass Final Reading, seconded by Representative Evans.

Representative Belatti rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. Mr. Speaker, with this measure we are taking a large step forward in addressing prescription drug overdoses, in addition to Senate Bill 2915, which has passed on the consent calendar. We are taking large steps forward. So, in strong support and with request to insert written comments."

Representative Belatti's written remarks are as follows:

"I rise in strong support of Senate Bill 2392, Conference Draft 1, Relating to Opioid Antagonists.

"Together with Senate Bill 2915, Conference Draft 1 passed this session, this bill will have substantial impacts in addressing the prescription drug epidemic that is ravaging communities across the country and destroying lives in our own state. Senate Bill 2392, Conference Draft 1 includes numerous measures that can immediately decrease the number of deaths in the State related to opioid drug overdoses.

"First, this bill provides immunity to health care providers and pharmacies who prescribe, dispense and distribute opioid antagonists, such as Nalaxone, that can reverse the effects of opioid-related overdoses.

"Second, this bill, beginning on January 1, 2017, authorizes all emergency personnel and first responders such as police officers, firefighters and lifeguards to administer opioid antagonists.

"Third, Senate Bill 2392, Conference Draft 1 authorizes harm reduction organizations like The CHOW (Community Health Outreach Work) Project to store and distribute opioid antagonists.

"Fourth, this bill has a critical public health focus that requires the Department of Health to collect information and report on the trends in unintentional opioid-related drug overdose fatalities that occur each year in the State. The Department of Health is also tasked with working with community partners to provide education and training on opioid-related drug overdose prevention, recognition, response and treatment.

"As discussed previously, Senate Bill 2915, Conference Draft 1 includes numerous measures also tackling the problem of prescription drug abuse. Both Senate Bill 2392 and Senate Bill 2915 represent a comprehensive approach to reducing prescription drug abuse. Together, these bills place Hawaii in a very good position to partner with federal public agencies and draw down any federal grant monies that address this systemic prescription drug problem. For all of the reasons stated above and previously with respect to Senate Bill 2915, I strongly support passage of Senate Bill 2392, Conference Draft 1."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2392, SD 2, HD 3, CD 1, entitled: "A BILL FOR AN ACT RELATING TO OPIOID ANTAGONISTS," passed Final Reading by a vote of 51 ayes.

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1111, HD 2, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO RECORDS OF THE HAWAII HEALTH SYSTEMS CORPORATION," passed Final Reading by a vote of 47 ayes to 4 noes, with Representatives Fukumoto Chang, Matsumoto, McDermott and Pouha voting no.

Conf. Com. Rep. No. 42-16 and S.B. No. 2319, SD 1, HD 3, CD 1:

On motion by Representative Saiki, seconded by Representative Evans and carried, the report of the Committee was adopted and S.B. No. 2319, SD 1, HD 3, CD 1, entitled: "A BILL FOR AN ACT RELATING TO INSURANCE," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 43-16 and S.B. No. 2387, SD 2, HD 1, CD 1:

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2387, SD 2, HD 1, CD 1 pass Final Reading, seconded by Representative Evans.

Representative Belatti rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Belatti's written remarks are as follows:

"I rise in strong support of Senate Bill 2387, Conference Draft 1, Relating to Physical Examinations.

"For the last three years, lawmakers and community advocates concerned with the health and well-being of children in our state have long worked on legislation that would ensure children are getting regular physical examinations. This has become even more important as the Affordable Care Act has ensured that preventative services such as annual physical examinations are essential health benefits in any insurance plan sold in our state.

"Senate Bill 2387, Conference Draft 1 promotes preventive health benefits by reconnecting seventh grade public school students to their primary care providers for annual physical examinations. This requirement for entry into the seventh grade presents an important opportunity for parents and their children to address physical, developmental and mental health issues that begin to occur in the pre-teen and teenage years of life.

"Requiring physical examinations for entry into seventh grade will further ensure that families and teens have the opportunity to address health concerns and identify appropriate resources for lifestyles changes to increase a student's performance in attendance, academic achievement, and progress towards graduation.

"As a public health measure, Senate Bill 2387, Conference Draft 1 is also very important since Hawaii struggles with the problem of obesity, with more than one in two adults and over one in four high school students designated as overweight or obese. Cumulatively, Hawaii spends \$470 million a year on obesity-related medical costs and \$770 million on diabetes-related medical costs.

"A physical examination requirement for seventh grade public school students may seem like an insignificant step in addressing these huge costs, but it is with little steps and policies like Senate Bill 2387, Conference Draft 1 that Hawaii can build a better culture of wellness and health where preventative, proactive care becomes a part of everyday life. For these reasons, I strongly support passage of this bill."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2387, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO PHYSICAL EXAMINATIONS," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 44-16 and S.B. No. 2896, SD 1, HD 2, CD 1:

On motion by Representative Saiki, seconded by Representative Evans and carried, the report of the Committee was adopted and S.B. No. 2896, SD 1, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE PREVENTION OF UNFAIR LABOR PRACTICES," passed Final Reading by a vote of 50 ayes to 1 no, with Representative Tupola voting no.

Conf. Com. Rep. No. 45-16 and S.B. No. 2673, SD 2, HD 2, CD 1:

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2673, SD 2, HD 2, CD 1 pass Final Reading, seconded by Representative Evans.

Representative McKelvey rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I stand in support of this measure but I do have some reservations I'd like to just briefly share with the Members. This is a client trust account, Mr. Speaker, for travel agency desks, and while on its face it seems like it's a pressing good need, what concerns me is that the harm in the industry compared to the volume of sales may not warrant this. And so hopefully future legislatures will look at it. Really quickly, you have \$300 million in activities sold a year in the State of Hawaii, and out of that I think there was only \$30,000 in non-paid funds by a travel desk. That's .000003%, Mr. Speaker.

"Now, let's turn to the restaurant industry, Mr. Speaker. The failure rate, that's people not getting paid, vendors and others, is 50%. So the question is, if we are going to look at client trust accounts, we should be looking at areas where you have this type of great harm of non-payment occurring. I just think that given the \$30,000 out of a \$300 million industry just may not be warranted in the future. Thank you."

Representative Ward rose in opposition to the measure and asked that the remarks of Representative McKelvey be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2673, SD 2, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO TRAVEL AGENCIES," passed Final Reading by a vote of 49 ayes to 2 noes, with Representative McKelvey voting aye with reservations, and with Representatives Tupola and Ward voting no.

At 11:59 o'clock a.m., the Chair noted that the following bills passed Final Reading:

Representative Tupola rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative LoPresti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. If you'll indulge just a few comments, I'd appreciate it. This bill relating to personal account privacy and social media, Mr. Speaker, 23 states have already passed laws to protect employees' digital civil liberties, and as we increasingly use computers, tablets and other electronic devices at work, we need to realize that Hawaii's legislation has not kept up with the technology.

"This bill protects employee privacy on social media in regards to email as well. The bill prohibits employers from forcing employees and potential employees to provide password or access to private social media pages and personal email accounts. The final draft takes into account the concerns of many different groups, including civil rights organizations, business commissions and various tech and security companies to ensure that employees' online rights will be protected without diminishing essential investigative abilities of employers.

"The bill specifically states that employers may continue to access publicly available information about employees and investigate potential work-related misconduct on private sites. The bill allows for a boss to, for example, friend request an employee, but it also guarantees the employee does not have to accept such request for outreaches on social media. An employee is free to share what they would like with their employer and they are also free to keep private what they like from their employer.

"Finally, this bill is an important step in protecting our right to privacy in the digital age, Mr. Speaker. A right that can be especially significant for members of the LGBTQ community, for pregnant women, crime victims, or other marginalized groups. I believe the right to privacy is essential for all of us, employers and employees. We all have the right for our privacies to not be infringed upon. And as technology increasingly becomes part of our daily lives, it's time we recognize the need to expand our Fourth Amendment rights into the digital age. Thank you."

Representative Tupola rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I'd like to cast a no vote. Here we are at the end of conference and this bill has kind of changed a lot and I just wanted to thank the conference committee for amending certain parts of it. There are things that have gotten better, specifically disqualifying inmates who have prior conviction history for victim offenses such as assault, violating

TRO, stalking. It also requires DPS to submit an annual record of all misdemeanors that have been excused by the DPS director. It also allows the DPS director to apply conditions that might be applied by a judge, such as staying away from drugs, or staying away from a certain place. And the last thing it does is 48 hours prior to release, the director does have to notify the courts as well as the prosecutors to let them know.

"But I still have concerns with the system that we have and the system that's being proposed. In the prior bill, people were concerned about us overriding the judicial process. And I would say in this one, I think I have similar concerns. Because in our current system in the criminal court, a defendant can make a motion to reduce bail, or a motion to release based upon recognizance in a pre-trial context. And then also you can reduce a sentence in post-trial context. So there are ways that you can plead to reduce your sentence or to possibly be excused.

"But by giving the DPS direct authority over this, this may be duplicative. Meaning that once they go through a court proceeding which requires that the judge hear arguments, the prosecution and defense council, they consider input from victims and then they have to make a public ruling on how they came to that decision, now would be duplicated because regardless of that, they would still go through maybe a similar process with the DPS director who might be able to override that and release that misdemeanant.

"Lastly, I think the question is, there is a lot of overcrowding, but how many people would have to be released in order for us to alleviate that number? And it might be in the hundreds. And so that leaves that concern in my mind of how many law-abiding citizens might be affected by the amount of people that could possibly be released. And how some of these perpetrators with repeated crimes that already know your home, they already know your whereabouts, they've been tracking you for a while and maybe stealing from you, whether it be your personal belongings, bicycle, anything, that you won't be able to know that your perpetrator is back out on the street.

"And so I think that the way out is what we have to consider of how much we're saving versus how much people might not feel as safe anymore, not knowing if their perpetrator is back out there. So I am in strong support of really helping the inmates rehabilitate faster, giving services on the back end so that we can get people through the system and back on transitioning into getting jobs back into society. And so with those comments, that's why I have concerns and vote in opposition. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition, brief comments. Three things, Mr. Speaker. First, clearly, we have overcrowding. No one can deny that. But this way of opening the doors makes this bill a get out of jail free card. If you're the public safety director, you can pick and choose who can walk out the door. This is very risky. My previous colleague's speech gave that danger to the public. Which means, public safety is first, Mr. Speaker, not saving money.

"The second thing is, and I think it's probably more systemic than we would like to realize. This bill really shows how much of a failure our system is. I see Kat Brady is up in the gallery. Fifty to sixty to seventy percent, depending if you use a three year or a five year phase to measure it. Recidivism is why the prisons are filled, Mr. Speaker. Knock recidivism down and you got a half-empty prison, or given what we have now, we would have no overcrowding. Which really says, this bill is saying, hey state, get your act together, you can do better than this. Haven't we learned something over the years?

"So, Mr. Speaker, for those reasons, for protecting the public and asking the system to do a better job of rehabilitating people, I think this is a bad policy. It's a knee jerk, it's cost saving, it's instant, it's really something you don't have to really be a genius about. It's kind of a no-brainer, but it's not effective policy. For those who are in and those who need to come out with some sense of pride in who they are, confidence, and with job skills, we're doing none of that. Even not even giving enough drug rehabilitation for those who got in because of drugs on the first place. Mr. Speaker, we can do better than this. Thank you."

Representative San Buenaventura rose to speak in support of the measure, stating:

"In support. This current version prevents the violent misdemeanants from being released. Now, we all know about overcrowding. What people don't quite realize is that, and maybe we do, maybe the legislator does, because we keep passing these laws making it illegal to do various things. I mean, one of the things that we passed a law on was that voter fraud is a Class C felony. Now these are types of crimes that are non-violent.

"What people don't here realize, until they actually look at the penal code and doing criminal defense, I know this by heart, is that as soon as the judge determines that somebody is to be incarcerated, our current penal code requires the maximum sentence. Which means in a misdemeanor position, the judge cannot say, six months jail. The judge is required, required by what we passed, to sentence them to the full year.

"And that's the reason why we have to give Nolan Espinda, the Department of Public Safety, some leeway. He knows of all people which ones are the most eligible for this. Because we've already tied his hands, we told him, no violence, no crimes of assault, no crimes of even a threat of violence can be released.

"We've got to give him some leeway. Director Espinda knows full well from seeing them in action which ones are the most eligible, and we should give him that opportunity to do so. Thank you."

Representative McKelvey rose to speak in support of the measure with reservations, stating:

"I just wanted to note my reservations, serious reservations, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2391, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE RELEASE OF CERTAIN MISDEMEANANTS," passed Final Reading by a vote of 33 ayes to 18 noes, with Representative McKelvey voting aye with reservations, and with Representatives Aquino, Cullen, DeCoite, Fukumoto Chang, Har, Johanson, Kawakami, Kong, Matsumoto, McDermott, Ohno, Oshiro, Pouha, Thielen, Tokioka, Tupola, Ward and Yamane voting no.

Conf. Com. Rep. No. 75-16 and S.B. No. 1311, SD 2, HD 1, CD 1:

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 1311, SD 2, HD 1, CD 1 pass Final Reading, seconded by Representative Evans.

Representative Belatti rose to speak in support of the measure, stating:

"Mr. Speaker, in support with brief comments. Thank you, Mr. Speaker. Staffing within our public schools is challenging, we all know that. Staffing in our public schools for students in the special education program with individual education plans is even more challenging. This bill crafts an exemption for behavioral therapists for a period of two years. Just as we would not want physical therapists or occupational therapists without any certification working with students, so too we do not want ABA therapists and RBTs without their proper certification.

"Again, this is a measure that crafts a two year limited exemption, allows the department to begin to build up the workforce for our special education program, and I think strikes the balance at making sure that we will have qualified ABA therapists and RBTs in our school system. Thank you, Mr. Speaker."

Representative Tupola rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I'd like to cast a no vote. I wish I could do both, though. I mean, it does actually make the supervisors have to be licensed and it does require that the RBTs, people that work with the kids in effect by 2019 have to be licensed. My concern is that there hadn't been

significant progress in the hearing shared by the department that they were able to actually get that pool big enough where they had enough qualified people.

"And so this two year, I guess, exemption that we're giving, it still concerns me. Because that means that the people who work with kids every day, not the supervisors but the ones that actually have to interface with the children that actually need this help, won't necessarily be qualified yet. I hope they do get, obviously, by 2019, but it's still concerning to me because many of the parents that testified said, the regression they've seen in behavior over a small period of time, even a year, even two years, has had detrimental effects on their children. And so those are my concerns. Thank you."

Representative Matsumoto rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. Respectfully, in opposition. Just a few comments. A school in my district had a lot of issues in the past with behavior analysts, and so I have to vote no on this. Thank you."

Representative Takumi rose to speak in support of the measure, stating:

"Thank you very much, Mr. Speaker. In support. I think this bill represents a good compromise as to how we should proceed in this issue, by giving the Department of Education two years to come up and survey the landscape. What are we talking about? What kind of credentials do people need? What kind of licensure is going to be required? And most importantly, Mr. Speaker, how much is this going to cost?

"Because I know from the Department of Education's point of view, they would love to have everybody fully credentialed and licensed. However, there are two big problems with that. One is funding, and the second is the availability of these types of qualified individuals. So the next two years will give us an opportunity to see what this entails and what kind of resources they will need. Thank you."

Representative Johanson rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Johanson's written remarks are as follows:

"Mr. Speaker, I rise with reservations on SB 1311, which would create exemptions for licensing and certification for behavior analysts and direct support workers for autistic students. While I support the efforts to credential more certified professionals who can work with autistic and behavioral needs students, I am concerned that the differing levels of certification and credentials that this bill accepts might be ineffective and ultimately detrimental to these students who have very specific needs. This is the concern of so many parents. Autistic and other special needs students need help, but the help should be provided by qualified professionals, not well-intentioned people without training."

Representative Ichiyama rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Fukumoto Chang rose in opposition to the measure and asked that the remarks of Representative Matsumoto be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Ward introduced former Representative Alex Santiago.

UNFINISHED BUSINESS**Conf. Com. Rep. No. 110-16 and S.B. No. 2076, SD 2, HD 1, CD 1:**

On motion by Representative Saiki, seconded by Representative Evans and carried, the report of the Committee was adopted and S.B. No. 2076, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO HEALTH CARE," passed Final Reading by a vote of 47 ayes to 2 noes, with Representatives McDermott and Tupola voting no, and with Representatives Ing and Souki being excused.

Conf. Com. Rep. No. 113-16 and S.B. No. 2812, SD 2, HD 2, CD 1:

On motion by Representative Saiki, seconded by Representative Evans and carried, the report of the Committee was adopted and S.B. No. 2812, SD 2, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO CHARITABLE SOLICITATION," passed Final Reading by a vote of 49 ayes, with Representatives Ing and Souki being excused.

Conf. Com. Rep. No. 115-16 and S.B. No. 2652, SD 2, HD 2, CD 1:

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2652, SD 2, HD 2, CD 1 pass Final Reading, seconded by Representative Evans.

Representative Jordan rose to speak in support of the measure with reservations, stating:

"Please note my reservations on this, Mr. Speaker. Normally I probably would've been a no on this, but this does have a five year sunset, so I will watch it for the next five years and see where it goes. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2652, SD 2, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," passed Final Reading by a vote of 49 ayes, with Representative Jordan voting aye with reservations, and with Representatives Ing and Souki being excused.

Conf. Com. Rep. No. 117-16 and S.B. No. 2512, SD 1, HD 2, CD 1:

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2512, SD 1, HD 2, CD 1 pass Final Reading, seconded by Representative Evans.

Representative San Buenaventura rose to speak in opposition to the measure, stating:

"In opposition. By voting in opposition, I want my constituents to know it's not that I do not love animals. In fact, probably I love animals too much. This bill penalizes those who love animals and decide to neuter them and release them. Instead of allowing for exception to those who are willing to take in the cats, the dogs that stray into their yard and take care of them and spay them, this bill would penalize them. And for those reasons, I say I stand in opposition. Thank you."

Representative Oshiro rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Oshiro's written remarks are as follows:

"Mr. Speaker, I rise in opposition to Senate Bill No. 2512, Conference Draft 1, RELATING TO ANIMALS.

"This bill is not enforceable. Specially, this bill will make it a petty misdemeanor for anyone to 'desert' a pet animal or equine animal.

"The problem is found in the definition of 'desert'. The term is defined to mean 'to leave without the intent to return'.

"Let's say I want to get rid of a 'pet' dog or cat. I take the dog or cat to a neighborhood park in another district and release the animal. So long as I intend to return to that neighborhood park, I would not be in violation of

the statute as it is written in this bill. There is no way of proving that a person does not intend to return to another place.

"The law doesn't even address a situation where a pet animal is released without leaving the owner's property. Caged birds fall under the definition of a 'pet animal'. Say I want to get rid of the birds I own. All I need to do is leave the cage door open. When the birds leave the cage, all I would need to do is close the door and remove the cage. In this scenario, I do not 'leave' anywhere and thus, cannot 'desert' the animal as it is defined in this bill.

"This bill is not well thought out. It gives the public the perception that the Legislature is trying to address the very real problem of owners deserting their pets without doing anything at all.

"For this reason, I am opposed to this bill."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2512, SD 1, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO ANIMALS," passed Final Reading by a vote of 47 ayes to 2 noes, with Representatives Oshiro and San Buenaventura voting no, and with Representatives Ing and Souki being excused.

Conf. Com. Rep. No. 121-16 and S.B. No. 2547, SD 1, HD 1, CD 1:

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2547, SD 1, HD 1, CD 1 pass Final Reading, seconded by Representative Evans.

Representative Thielen rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Jordan rose to speak in support of the measure, stating:

"Strong support."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2547, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," passed Final Reading by a vote of 48 ayes to 1 no, with Representative Thielen voting aye with reservations, with Representative McDermott voting no, and with Representatives Ing and Souki being excused.

At 1:42 o'clock p.m., Representative Cachola requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:42 o'clock p.m.

Conf. Com. Rep. No. 128-16 and S.B. No. 2723, SD 1, HD 2, CD 1:

On motion by Representative Saiki, seconded by Representative Evans and carried, the report of the Committee was adopted and S.B. No. 2723, SD 1, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO ENFORCEMENT OF WAGE LAWS," passed Final Reading by a vote of 47 ayes to 2 noes, with Representatives Kong and Tupola voting no, and with Representatives Ing and Souki being excused.

Conf. Com. Rep. No. 129-16 and S.B. No. 2439, SD 1, HD 1, CD 1:

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2439, SD 1, HD 1, CD 1 pass Final Reading, seconded by Representative Evans.

Representative Matsumoto rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. This measure is a sign of the times that we now live in where we can photograph and film anything, anytime, anywhere with a device that we hold in our hands. This freedom of speech empowers citizens first to hold law enforcement accountable and encourage transparency with those who they serve and protect, and also to protect each other from unfair accusations.

"However, I'd like to point out that the privacy of victims and other first responders are also of vital importance, and I appreciate the language that was added in this bill in the conference limiting filming and photography to appropriate time and places. We need to continue to encourage accountability in our community, as well as ensuring that we provide help where help is needed first and not just trying to get that fame on social media. Thank you, Mr. Speaker."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2439, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO LAW ENFORCEMENT," passed Final Reading by a vote of 47 ayes to 2 noes, with Representative Ward voting aye with reservations, with Representatives McDermott and Tupola voting no, and with Representatives Ing and Souki being excused.

Conf. Com. Rep. No. 131-16 and H.B. No. 1749, HD 1, SD 2, CD 1:

Representative Saiki moved that the report of the Committee be adopted, and that H.B. No. 1749, HD 1, SD 2, CD 1 pass Final Reading, seconded by Representative Evans.

Representative Morikawa rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. On this measure I have some reservations. This is a good initiative, by the way, but this is about redirecting treated water to government facilities. In my district, we're on the verge of getting R-1 water to be used at nearby parks, schools and the hospital. However, installation of new pipes will be necessary from the treatment plant to whatever facility can use it. So let's keep in mind that these mandates need to be backed by sufficient infrastructure funding. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1749, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO WATER MANAGEMENT," passed Final Reading by a vote of 49 ayes, with Representative Morikawa voting aye with reservations, and with Representatives Ing and Souki being excused.

Conf. Com. Rep. No. 133-16 and H.B. No. 2037, HD 1, SD 2, CD 1:

On motion by Representative Saiki, seconded by Representative Evans and carried, the report of the Committee was adopted and H.B. No. 2037, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE WORLD CONSERVATION CONGRESS," passed Final Reading by a vote of 49 ayes, with Representatives Ing and Souki being excused.

Conf. Com. Rep. No. 138-16 and H.B. No. 2561, HD 1, SD 1, CD 1:

Representative Saiki moved that the report of the Committee be adopted, and that H.B. No. 2561, HD 1, SD 1, CD 1 pass Final Reading, seconded by Representative Evans.

Representative Tupola rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations and a quick comment. I just wanted to say, there's parts of this bill that I appreciate, especially when it comes to clarifying the criminal laws and putting victims first in part VII

of the bill, which actually addresses driving recklessly or at excessively high speeds when fleeing from police. The last part that I had concerns with had to do with raising the theft threshold.

"And so I know we've already talked about this bill, but this bill being so huge and so many parts of it. There are some good to it, but that raising the theft threshold leaves me enough concerns to vote with reservations. Thank you."

Representative Thielen rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. Reservations, because the measure does raise the theft threshold. Thank you."

Representative Johanson rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Johanson's written remarks are as follows:

"Mr. Speaker, I rise with reservations on HB 2561, which provides numerous revisions to the penal code. I appreciate that this bill adds stricter penalties for repeat offenders, as I believe that this will have a strong deterrent effect on crime. However, I am concerned about the provision that would raise the felony theft threshold from \$350 to \$750. Although this raise is ostensibly pegged to inflation, I worry that raising the threshold represents a move in the opposite direction of deterrence."

Representative McKelvey rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative McKelvey's written remarks are as follows:

"Mr. Speaker, I oppose certain parts of the bill, specifically relating to the threshold dollar amounts for theft offenses and to sentencing for the methamphetamine trafficking offenses. However, I support the rest of the bill.

"While the purpose of this bill is to enact the recommendations of the 2015 Penal Code Review Committee, I have concerns about the amendments proposed in part V of the bill which increase the threshold dollar amounts for the offenses of Theft in the Second Degree, Theft in the Third Degree, and Theft in the Fourth Degree. Additionally, I have concerns about the amendments proposed in part VIII of the bill which eliminate mandatory sentencing provisions for the methamphetamine trafficking offenses.

"In part V, the bill increases the threshold value of property and services from \$300 to \$750 for the offense of Theft in the Second Degree, and from \$100 to \$250 for the offense of Theft in the Third Degree. The bill also increases the maximum value of property and services for Theft in the Fourth Degree from \$100 to \$250. I have serious concerns about these amendments.

"As the Chair of the Consumer Protection and Commerce Committee, I recommend that the threshold values for these theft offenses not be increased. The current values of \$300 and \$100 are appropriate amounts. To put it in perspective, the state minimum wage was \$6.25 per hour in 2003. The current minimum wage is \$8.50 per hour. Currently, a minimum wage worker would have to work at least 40 hours, over a full week, to replace property worth \$300. The \$300 felony theft amount remains a significant amount. To make \$750 (pretax), a minimum wage worker would have to work 89 hours, or over two weeks. That would be half of the worker's monthly salary before taxes and other deductions.

"Additionally, increasing the theft threshold value from \$300 to \$750 would diminish the seriousness of many theft crimes and reduce the deterrent impact of the theft offenses. Under this bill, theft of property or services valued between \$250 and \$750 would only be a misdemeanor. As such, the many convicted misdemeanor offenders, who are felony offenders under the current law, would not receive the level of appropriate

treatment, counseling, and supervision that they would otherwise receive from felony probation services. This bill would reduce the deterrent effect against crime, while at the same time reducing the level of services to offenders, which itself may increase the rate of recidivism and the number of victims. Thieves know the difference between misdemeanor and felony offenses. With the proposed amendments, thieves will know they can steal up to \$750 in property without triggering felony prosecution. Property owners, particularly small business owners, may suffer greater losses, and are likely to pass all of those losses to their customers.

"In part VIII, the bill eliminates mandatory sentencing provisions for the methamphetamine (Meth) trafficking offenses. I have concerns about these amendments, which will significantly reduce the consequences of trafficking methamphetamine. Meth is one of the most commonly abused drugs in Hawaii, and by far the most dangerous. Meth destroys families and is frequently a factor in violent and property crimes.

"Mr. Speaker, the current methamphetamine trafficking offenses were adopted in 2006 to address the serious problem of methamphetamine abuse in our community. Meth has ruined numerous lives. The trafficking offenses were intended to target the distributors and sellers who were providing the drug to vulnerable individuals, getting them addicted to the substance, and making profits from their addiction. Mr. Speaker this bill will allow these traffickers to get probation.

"Also, the bill does not simply change the penalty for an offense; it repeals offenses, creates new offenses, and requires defendants to be retroactively prosecuted and/or resentenced on one of the new offenses. The elements of a new offense may be the same or similar to a repealed offense, but it is a different offense, with different penalties. If enacted, the proposed retroactive application raises several issues. For example, it is not clear if a defendant needs to be charged and prosecuted on the new offense. Finally, it is not clear if the state prosecutor, who has charged and prosecuted a defendant under a valid and existing law, is required to undo that prosecution and start anew.

"The bill seems to indicate that a defendant who has been convicted and sentenced, and whose case is on appeal, shall be entitled to be resentenced under one of the new offenses, if the judgment is affirmed on appeal. But if a judgment is affirmed on appeal, then the conviction is a final judgment, and the provisions of this bill would amount to the Legislature overturning a final conviction and thereby possibly violating the separation of powers doctrine. Finally, the measure does not address the issue of resentencing a defendant for an offense for which the defendant was never charged or prosecuted.

"For these foregoing reasons, I support HB 2561, HD 1, SD 1, CD 1 with reservations."

Representative Pouha rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Fukumoto Chang rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"No vote on the shoplifters dream bill, Mr. Speaker."

Representative San Buenaventura rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Har rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

At 1:48 o'clock p.m., Representative Tokioka requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:48 o'clock p.m.

Representative Har rose, stating:

"I apologize Mr. Speaker, and apologize to you and the clerks. Could you please have the Clerk change my reservations to a no vote? Thank you."

Representative Tupola rose, stating:

"Same request, a no vote."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2561, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE ADMINISTRATION OF JUSTICE," passed Final Reading by a vote of 41 ayes to 8 noes, with Representatives Fukumoto Chang, Johanson, McKelvey, Pouha, San Buenaventura and Thielen voting aye with reservations, with Representatives Aquino, Cullen, Har, Kawakami, McDermott, Tupola, Ward and Yamane voting no, and with Representatives Ing and Souki being excused.

At 1:51 o'clock p.m., the Chair noted that the following bills passed Final Reading:

S.B. No. 2076, SD 2, HD 1, CD 1
S.B. No. 2812, SD 2, HD 2, CD 1
S.B. No. 2652, SD 2, HD 2, CD 1
S.B. No. 2512, SD 1, HD 2, CD 1
S.B. No. 2922, HD 1, CD 1
S.B. No. 2547, SD 1, HD 1, CD 1
S.B. No. 2723, SD 1, HD 2, CD 1
S.B. No. 2439, SD 1, HD 1, CD 1
H.B. No. 1749, HD 1, SD 2, CD 1
H.B. No. 2037, HD 1, SD 2, CD 1
H.B. No. 2561, HD 1, SD 1, CD 1

Conf. Com. Rep. No. 143-16 and H.B. No. 2569, HD 2, SD 1, CD 1:

Representative Saiki moved that the report of the Committee be adopted, and that H.B. No. 2569, HD 2, SD 1, CD 1 pass Final Reading, seconded by Representative Evans.

Representative Ohno rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Mr. Speaker, this is the bill that would codify our goal to have the Department of Education fully net-zero by 2035, that's in 18 and a half years. Mr. Speaker, I'm very excited to get this work started, I'm very excited to see our repair and maintenance backlog, a big dent made in that backlog so that we can see energy efficiencies within our schools. I'm very excited to see our 255 public schools, 34 charter schools, to see them also, many of those buildings become LEED buildings. Just recall that the 255 public schools are often made up of multiple buildings.

"I do know that in this journey to get this work done, today's vote is going to be the easiest part, and the work is ahead of us. And sometime in the coming future, the Department of Education is going to come to us with a bill, saying that they're going to need this much money to become fully net-zero by 2035. And when that day comes, I look forward to seeing this body and the energy sector come and support that appropriation of funds to reach the schools. Thank you, Mr. Speaker."

Representative McKelvey rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I am in strong support of the measure, however I do have some reservations that I'd like to express in comments in the Journal, if that's okay with you. Thank you."

Representative McKelvey's written remarks are as follows:

"Mr. Speaker, after thorough review, I applaud the language change in House Bill 2569 which funds classroom cooling through \$100 million in general revenue (from unexpected federal Medicaid reimbursements) and

\$30 million in general obligation bonds, instead of borrowing the funds from the Hawaii Green Infrastructure Special Fund (GEMS).

"Despite my strong support of solar technology, the concept of using 'solar-powered air conditioning solutions' that utilize 'solar panels and batteries without the need to connect to the electric grid' to cool our schools, as HB 2569 HD 2,SD 1,CD 1 suggests, warrants thorough review not included in this legislation. Hawaii's individual non-interconnected island grids have some of the highest levels of distributed solar penetration in the country. This means that during peak solar hours (10am – 2pm) Hawaii's electrical grids often have too much energy and are forced to curtail other forms of energy. Taking any school cooling load off the grid via battery storage would eliminate any possible benefits this load could provide (as a dispatchable resource) to the grid. By keeping school cooling systems connected to the grid, schools could help to absorb the utility's excess daytime load, therefore reducing the need to curtail other energy sources during peak solar times. Also, if battery storage technology is to be used to help integrate the Cool Schools Program (especially ratepayer-funded infrastructure), such technology must be connected to the grid so all ratepayers can receive the ancillary benefits (energy storage, frequency modulation, voltage regulation, etc.) provided by the battery infrastructure.

"With respect to other aspects of HB 2569, HD 2,SD 1,CD 1, I support parts (1) Establishing a goal of becoming net-zero with respect to energy use by January 1, 2035; and (2) Establishing microgrid pilot projects at public schools that also serve as emergency shelters.

"For these foregoing reasons, I support HB 2569, HD 2, SD 1, CD 1 with reservations."

Representative Lowen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I just want to point out, we had a \$5.2 million general fund appropriation in the budget to help DOE pay its utility bills. We gave them \$100 million to work on heat abatement. And so we don't want to go forward without pushing them to be more efficient and to use renewable energy. We're going to end up with \$100 million appropriation to help them pay their utility bills if they all put in AC and we have no goal set in the law to move in that direction. So, in strong support. Thank you."

Representative LoPresti rose to speak in support of the measure, stating:

"Strong support. I just ask that the words of the Vice Chair of Education and words of the Vice Chair of Energy & Environmental Protection be entered into the Journal as if they were my own. Thank you," and the Chair "so ordered." (By reference only.)

Representative Lee rose to speak in support of the measure, stating:

"Thanks. In support. I just note that our current expenditures over the next 19 years up until 2035, the existing electric bill for the Department of Education, if unaltered, would reach nearly \$1 billion. Even we can make even a 2% annual reduction in our consumption, by just being a little bit more efficient, just that little bit, that's over \$300 million in general fund savings that we could put back into classrooms and other uses. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2569, HD 2, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO ENERGY," passed Final Reading by a vote of 49 ayes, with Representative McKelvey voting aye with reservations, and with Representatives Ing and Souki being excused.

Conf. Com. Rep. No. 147-16 and H.B. No. 1902, HD 2, SD 1, CD 1:

Representative Saiki moved that the report of the Committee be adopted, and that H.B. No. 1902, HD 2, SD 1, CD 1 pass Final Reading, seconded by Representative Evans.

Representative Belatti rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support, request to insert written comments. And just real quick, thank you to this body for passing this measure, as it was a priority of the Women's Legislative Caucus. Thank you."

Representative Belatti's written remarks are as follows:

"I rise in strong support of House Bill 1902, Conference Draft 1.

"For many years, the Legislature has worked on the issue of modernizing Hawaii's prostitution laws to explicitly identify sex trafficking as a crime and apply a more victim-centered approach to the problem of prostitution in our community. House Bill 1902, Conference Draft 1 accomplishes this goal by defining the crimes of sex trafficking and promoting prostitution while strengthening laws and penalties against sex traffickers.

"Of particular importance in this bill is the treatment of minor victims who are less than 18 years of age as victims and not criminals. As explained by the Hawaii State Commission on the Status of Women, 'children are the most at risk demographic for sex trafficking' with the 'average age of entry into prostitution . . . between 12 and 13 years old.' By amending our penal code, victims of sex trafficking, especially child victims, will not be labeled and treated as criminals, but rather as victims who can obtain resources, support and treatment services.

"The perennial opponents to this bill disingenuously argue that House Bill 1902, Conference Draft 1 legalizes prostitution for minors and suggests that by making prostitution a violation for minors, '[i]n the haste to attempt to protect minors, this provision exposes minors to more danger.' These same opponents continue that under House Bill 1902, Conference Draft 1, 'pimps would recruit minors by telling them they could make money and if caught, it is only a violation and not a criminal act.'

"What these opponents fail to recognize with their arguments is that House Bill 1902, Conference Draft 1 actually empowers prosecutors and provides stronger laws and penalties to hold responsible those who are the actual criminals, those who are the pimps engaged in the act of trafficking minors for sex or the 'Johns' who pay money to exploit and have sex with minors. Under the new provisions in House Bill 1902, Conference Draft 1, persons who pay, agree to pay, or offer to pay a fee to another to engage in sexual conduct and who do so in reckless disregard of the fact that that other person is a victim of sex trafficking can be charged with and found guilty of a Class C felony. Similarly, for those who engage in sex trafficking of a minor, this bill now allows the prosecution to prove only that the person committing the offense acted negligently with respect to the element of proving the victim's age.

"Hawaii has long waited for its laws on sex trafficking to catch up to the rest of the country in order to more comprehensively protect individuals coerced into the sex trade. Because House Bill 1902, Conference Draft 1 is a culmination of the many years of work invested into this matter by a coalition of community advocates and the Women's Legislative Caucus, a bipartisan group of legislators representing all corners of our state, I strongly support passage of this bill."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1902, HD 2, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO SEX TRAFFICKING," passed Final Reading by a vote of 49 ayes, with Representatives Ing and Souki being excused.

Conf. Com. Rep. No. 148-16 and H.B. No. 2156, HD 2, SD 2, CD 1:

On motion by Representative Saiki, seconded by Representative Evans and carried, the report of the Committee was adopted and H.B. No. 2156, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO CAMPAIGN FINANCE," passed Final Reading by a vote of 48 ayes to 1 no, with Representative Oshiro voting no, and with Representatives Ing and Souki being excused.

Conf. Com. Rep. No. 149-16 and H.B. No. 260, HD 1, SD 1, CD 1:

On motion by Representative Saiki, seconded by Representative Evans and carried, the report of the Committee was adopted and H.B. No. 260, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO INSURANCE," passed Final Reading by a vote of 48 ayes to 1 no, with Representative Rhoads voting no, and with Representatives Ing and Souki being excused.

Conf. Com. Rep. No. 152-16 and S.B. No. 2384, SD 1, HD 1, CD 1:

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2384, SD 1, HD 1, CD 1 pass Final Reading, seconded by Representative Evans.

Representative Rhoads rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, just wanted to ask for a ruling on a potential conflict. The chair of my campaign committee is a member of a *hui* that was applying for one of the eight licenses. Thank you," and the Chair ruled, "no conflict."

Representative Johanson rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Johanson's written remarks are as follows:

"Mr. Speaker, I rise with reservations on SB 2384. I am very supportive of the provisions of the bill that pertain to unannounced inspections of medical marijuana dispensaries for license renewal. Medical marijuana, if not properly regulated, can negatively impact public safety and health on a societal level. We need double-check mechanisms to protect the public, including, but not limited to, unannounced inspections of dispensaries for the purpose of licensing. However, I am concerned about the sections of the bill relating to unannounced inspections of care facilities. Specifically, I am concerned about linking these inspections to re-licensing. Residential care facilities represent an important part of the health care spectrum, and we need to make sure that we do not place burdensome restrictions on these facilities that may cause them to leave the healthcare sector. I appreciate the work of the conference committee in delaying the onset of healthcare facility inspections for three years, but I would still hope that we can find an alternative to these inspections that ensures quality care and a reasonable and practical regulatory framework for care facility operators. I understand the need for inspections, but I would hope that we can find a way to inspect without compromising our overall health care network."

Representative Aquino rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Cullen rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Cullen's written remarks are as follows:

"Mr. Speaker, I rise in support with reservations on SB 2384, SD 1, HD 1, CD 1.

"I support the unannounced inspection for marijuana dispensaries that will improve our communities' safety. My reservation is with section 2 of this bill regarding the relicensing and recertification for those homes that care for those in need. I want to ensure that our *kūpuna* and those who are being cared for are done so in a safe and responsible manner within a certified care home. That is why the Department of Health has the ability to do these unannounced visits, and I believe that three year implementation delay will allow the department to develop efficient and effective alternatives of ensuring safety. This bill will adversely impact those homes who are properly caring for our *kūpuna*."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2384, SD 1, HD 1, CD 1,

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with slight reservations. I know this bill has been a long time in the making, but I also know it's been a long time the way that we've run government. We've had temporary employees forever and ever. Not that this will stop government, but it's certainly going to slow it down, unless we adjust very well and get our recruitment and our HRD sped up. Otherwise this is going to be, it's a bill we should watch to see if it actually works. It may have unintended consequences, but let's see where it goes. For those reasons, I'm in support with reservations."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. Representative San Buenaventura rose to speak in support of the measure, stating:

"In strong support. This is the second time I've introduced this bill and hopefully it will pass this time through. I just want to make sure the Legislature knows that there are many times when our constituents come to us, especially in an election year, and tell us, we pass laws that help the poor, we pass tax credits and deductions that help the rich, what about the middle class, what about the working class?"

"This is a working class bill. This bill helps the working class divorced people, save them thousands of dollars and having to pay for another attorney. This helps the abused woman who normally would end up having to give up their share of retirement for fear of having to face their abuser again. This bill helps everybody else. It also helps the Judiciary, because

those are another set of hearings that the judges, which are already overcrowded, do not have to hear.

"For all those reasons, this really helps a community and it is 40 years overdue. It's been passed on the mainland, it's been passed in multiple states. It's about time it passes here. Thank you."

No. 1527, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," passed Final Reading by a vote of 48 ayes to 1 no, with Representatives Thielen and Ward voting aye with reservations, with Representative McDermott voting no, and with Representatives Ing and Souki being excused.

Conf. Com. Rep. No. 170-16 and H.B. No. 1850, HD 1, SD 3, CD 1:

Representative Saiki moved that the report of the Committee be adopted, and that H.B. No. 1850, HD 1, SD 3, CD 1 pass Final Reading, seconded by Representative Evans.

Representative Thielen rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I'm standing to speak firmly against the Airbnb bill. My concern is that we'll be exchanging a potential tax revenue for TAT and GET of \$15 million for the degradation of our neighborhoods, not just on the island of Oahu but on our neighbor islands. These renters are clever, and we all know that they've been renting out parts of our public beaches, parts of our public parks. That's something that we won't ever be able to get a handle on again. And where we are authorizing a Airbnb billion dollar operation that its whole stated purpose is to open up everything for rental and we'll collect the tax money for you, but where we're authorizing that entity to go ahead and do it, we're going to end up with neighborhoods that you won't recognize anymore.

"One of the impacts that I've seen is that the price of houses in areas, it can range from Ewa to Kailua to Waimanalo, wherever, that the price of housing, now you're factoring in how can you churn this to the Airbnb customers. It's putting a false value on those homes, which are placing them out of reach of our local families, because these many times overseas, out-of-state owners buy them and think, hey, we've got a mini

hotel right there in Ewa, we've got a mini hotel right there in Waimanalo. And we're going to go ahead and churn that. And they're going to do it.

"I think that that is tainted money, because it comes at the cost of housing for our local people, and I don't want to vote for a measure like this. It may mean we have to forgo those tax revenues, but the flip side is, we then have the housing for families that want to stay here, whose children want to stay here and live here, and they won't be priced out of their homeland. So I vote a very, very, very strong no. I'm sorry to see this bill move out of the House. It almost failed in the Senate. I wish it had. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, no vote and may I request the remarks of the Representative from Kailua to be entered into the Journal as my own," and the Chair "so ordered." (By reference only.)

Representative Ward continued, stating:

"I'll add one comment, Mr. Speaker. If we were really serious about stopping this, we would have added not that there would be attestation to the legality or the city and county permitting process, it would be a way of showing proof that there is a legal permitted land use for the B&B or whatever use for accommodation for vacation rentals. This bill kind of goes half way, it's not really what it should be, and for those reasons I think we better watch this one very, very, very closely. Thank you, Mr. Speaker."

Representative Kobayashi rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations. As a prior speaker had said, I live in a district with a lot of single-family homes, where people would like to stay, where their children would like stay. But this kind of bill will promote more density, more bothersome neighbors, and make the neighborhood less pleasant. So for those reasons, I stand with reservations."

Representative LoPresti rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. Mr. Speaker, I believe this bill sets a very poor precedent. It puts the needs and desires of mainland tourists above those of our citizens and our local residents. Excessive numbers of short-term vacation rentals in residential areas play a huge role, as mentioned before, in driving up rent prices. And it contributes to increasing homelessness. Additionally, I believe this bill forces the State to collude with criminals.

"We cannot simply tax illegal activities while turning a blind eye to the fact that they are illegal. And I've heard colleagues mention that, well the counties have to enforce this. We know they don't. We know they won't. And yet we go out of our way to collude with criminals. It can't be just about collecting taxes. The social cost, Mr. Speaker, is too high. This measure shields illegal renters from oversight of the tax department, since the tax department would have no way of verifying that the information is provided.

"Mr. Speaker, this in some sense is an assault on our number one industry, tourism. It's an assault on the way of life of local people by assaulting the very communities that they live in and changing the nature of them. It takes away jobs from people in my district who work in the hotels. As mentioned, it contributes to homelessness. And one of the most outrageous arguments that I hear, Mr. Speaker, is that some people, some poor people who live on the beach, aren't going to be able to afford their homes anymore unless they have illegal vacation rentals. Cry me a river for the poor rich person who lives on the beach, who has to conduct illegal activity to have that lifestyle. Give me a break.

"This is outrageous and it should not be passed. And at the very least, any bills that we passed to collect taxes should at least make sure that people follow the darn law. Thank you."

Representative Jordan rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. I don't know where to begin. I think our neighborhoods have already become overrun. I am somebody who's been watching my beach loops. Upena, Makua, Makau, Fricke, these are all beach loops in my district where 15 to 20 years ago you could have bought a home on one of those loops for \$350,000, beach front. About 15 years ago, you couldn't touch one of those for \$700,000. Right now, those homes are sold by Sotheby's. People don't know that's a big, huge real estate broker out of New York.

"I've already seen my community change with transient, short-term rentals, bed and breakfasts, whatever term you wish to use. I've watched my county, City and County of Honolulu, District 1, rarely talk about it in the last 18 years. I sat on the neighborhood board for 12 years. That is a city entity, and we discuss these issues. Never rose to the occasion of the council. Currently, there's less than 300 permitted, legal short-term renters on Oahu. But yet there is a study that came out a couple of years ago of 23,000 within Hawaii. Either we're going to take the stance and start pushing the dial, or we're going to sit back and we're going to be out of control. I think we're out of control already.

"So what this measure really does is it keeps the perspective on where the state jurisdiction ends. Most of these issues people are talking about are county ordinances, county permitting and county enforcement. Last time I checked, I thought we were the state. We don't overrule or take away home rule of our counties, all four of them. And I believe the County of Kauai has been addressing this the last three to four years that I've heard of. I think the County of Hawaii has been starting to address it. The big animal in the State is Oahu.

"Does the visitor industry need short term rentals? Yes. When we keep hearing, no more hotels, 8 million visitors, 6 million rooms, where are the other people going? Really, I don't want them in my neighborhoods. I don't. Now they are. Unless our neighbors start calling their respective counties and turning them in for the illegal permits, the illegal uses, unrelated bodies in those houses, we have no jurisdiction, meaning the State has no jurisdiction over that. If you have an illegal vacation rental, they owe their general excise to the State of Hawaii, they owe their transient accommodations tax to the State of Hawaii. Legal or illegal, read our statute. There are estimates of \$4 million to \$15 million laying on the table.

"When somebody said earlier today, where are the revenue generators off our order of the day today? This is a revenue generator. I heard the word Airbnb today. This is not Airbnb's bill. This is a mechanism for any entity to come before our Department of Taxation and apply for a license. You're not going to pay for it, you're going to become a tax collector. You're going to become responsible for that GE and the TAT. You're going to be in compliance with Act 204 from last session.

"We're not going to say if they're legal or illegal, that is a county issue. We are trying to collect our tax. When Department of Taxation keeps coming to this body and asking for more bodies to collect our taxes and enforce people not paying their taxes, of which \$900 million is still owed to the State and we're not collecting it, how do we pass out credits for our low income renters?"

Representative San Buenaventura rose to yield her time, and the Chair "so ordered."

Representative Jordan continued, stating:

"How do we provide credits to child care and increase open doors programs, when we don't have enough money? Now some people might say, \$15 million, ah, just leave it on the table. In New York, this industry has doubled every single year for the last four years. If you look across the country, the implementation on these rules and these laws are all county and municipalities. Again, city issues, not state.

"This measure before you really does not touch any of the city issues. And I challenge every one of us to go and talk with our personal councilmembers and say, when are they going to start talking about that

issue? So Airbnb, or VRBO, or whatever their funky names are, because millennials create little applications to do business by technology, have created a new world that our statutes haven't caught up to. That's all this is talking about.

"So unless an entity comes forward and requests to be that taxpayer, this measure is just being placed in statute, modeled after MLM in our current statute. And I think it's a decent measure for what we were given to deal with. And I thank those who are going to support it. I thank our Senator counterparts for having the courage to move this forward. Because this is telling our constituents we need to move it forward. We need to have these discussions. And we need to go to our respective counties. And when people are going to say, well, what about those people trying to rent open spaces, a.k.a. Makua, which was pictured on a Airbnb site. I get it. It's illegal to re-rent any permit you get from the State or the City and County of Honolulu.

"So people need to address the illegalities. If you have a problem with those interface companies, shoot them an email. After it was brought to the company Airbnb that 30 of those were public properties, they removed them off their site. So we have to do our due diligence and remind them when we see something that's not correct. Should I force them to have filters? They're going to be placing a TAT number on there. Anybody that's on that host website will have to follow our rules.

"I think this measure will help us going forward, especially if this is going to grow. And it is going to grow. And at some point in time, the ones that are causing most of the problems are going to get out of the business, because they can't afford it. We are only trying to collect what is owed to us, that's all. Nothing more. Thank you, Mr. Speaker."

Representative Pouha rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I rise in support with strong reservations. This bill does not fix all of the challenges that our communities are facing with our current situation. I would like to at this time adopt the words of the Representative from Waianae," and the Chair "so ordered." (By reference only.)

Representative Pouha continued, stating:

"After reading over this measure and following it this session and reflecting on both sides of this issue as per my constituents sharing their thoughts with me on both sides of this measure, I find that within the stewardship and the purview which the State has, this action through this measure seems appropriate, although many would disagree.

"But I would like to see in the coming years that we perhaps address that issue as it comes along, and also speak to our counterparts across the street. This unpermitted activity is creating a problem, a problem that has been going on for a long time. So with that, thank you, Mr. Speaker."

Representative Kawakami rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. Mr. Speaker I urge this body to move cautiously on this measure. As a former councilmember, I was on Kauai when we took up the vacation rental issue. And I say that we should move cautiously because I can tell you that as they created the framework on how to deal with these illegal vacation rentals, what happened was these illegal vacation rentals were paying their GE tax and paying their TAT, and because of that, it legitimized their business. They said, hey, we've been paying these taxes all along, so we should be grandfathered in. And on Kauai that is exactly what happened.

"They made the case that, hey, we've been paying our GE tax, we've been paying our TAT, so that should make us legal. And that's exactly what happened on Kauai. It decimated neighborhoods, it moved local families out, it priced local families out. So I urge this body to move cautiously on this measure. It's almost like saying, if a drug dealer is paying their tax, should they be legal? So, it happened on Kauai, I'm afraid that it could happen statewide, so we should move cautiously. Thank you."

Representative Onishi rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. I'd like to have the words of the Representative from Waianae entered as if my own," and the Chair "so ordered." (By reference only.)

Representative Onishi continued, stating:

"Mr. Speaker, I'd like to thank the Representative from Waianae and her staff for crafting a bill that I think appropriately addresses the State's requirement in regards to this whole issue. We've had, and I'm sure all of you have had, numerous emails and contacts regarding this issue. And I for one serve in the State Legislature. This is a state issue in terms of taxation. The State is not responsible for the permitting of property in any of the counties. That's a county responsibility. And the counties come to us and request more and more money, saying, we don't have enough money, or, you guys are taking away our money for us to do our job.

"Well, this is an opportunity for them to look at their revenue stream and to work on this issue and get more revenue through property taxes for these people that are illegally having accommodations in their homes. Either they can stop that from happening, or they can permit them. And if the county councils decide to permit them, because of their argument that they're paying taxes, then that's their decision. They can increase the property taxes, they can bring in more revenue, they can hire enforcement people within the counties to do their job. It's not our job to do their job, and they don't want to do our job. So, again, I stand in strong support and I want to thank the Representative from Waianae for doing a great job. Thank you."

Representative LoPresti rose to respond, stating:

"I just want to address a couple of points that have been made. I think we're setting the counties up to fail, as my colleague from Kauai had mentioned, who served on a county council. I think we're setting up the counties to fail because the next step, Mr. Speaker, should this succeed, will be in a few years the same group pushing this will go to the county councils and say, see how much money you got? Cash in hand's a tempting thing. And we're setting them up to be in a position where they can't say no, and in a sense we're forcing that decision upon them.

"I hear so much back and forth about, well it's county jurisdiction or state jurisdiction, it's home rule, the state determines this. And the only theme that I see when those kinds of things are brought up is, what side is big business on? Does it benefit them to say it's the State? Then it's the State. Does it benefit them to say, well, it's the counties? Well, then it's the counties.

"If it's a county bill, well, we don't need it then. We don't need this bill, if it's a county issue. When the counties pass something about GMO labelling or pesticides, oh, no, no, no, that's a state jurisdiction thing. And the only logic here is what side's the money on. Well, that's not enough for me, and that's why I'm opposed to this. Thank you."

Representative San Buenaventura rose to respond, stating:

"In support. I would also like to thank the Representative from Waianae who has come up with this bill. I believe it's quite ingenious. And I'd like to point out to the people who are opposing it what history has taught us, and maybe they failed to remember that Al Capone was actually arrested and convicted for tax evasion, not for the illegal enterprise that he was actually doing. So if you want to talk about this as an enforcement tool, this is an enforcement tool not only to collect taxes, but potentially for law enforcement purposes.

"If we don't pass this bill, the illegal activity will continue. If we pass this bill, we actually have an enforcement capability that we did not have before. So, I fail to see the reasoning behind the people who oppose it. It is so difficult in the Legislature for us to raise taxes, as shown by the gas tax brouhaha that happened. Here we have an opportunity to increase our revenue not by increasing taxes, but actually enforcing it against illegal activity, and why shouldn't we grab it? So for those reasons, I support it. Thank you."

Representative Say rose to speak in opposition to the measure, stating:

"Mr. Speaker, during the first cross I did vote against the measure with the Representative from Kaimuki, and I'll support the opposition to this particular measure. But for the Members of the House and the general public who are listening to today's debate, it's a question of one's quality of life. For those of East Honolulu where there has been abuse of the B&Bs, it is occurring. Will this measure, like what the Representative from Kauai of the North Shore stated, if they be a part of that agency that would be paying the taxes, will they be grandfathered in? That is a question that the Members of this House will have to address. But for those on the neighbor islands, maybe because your density is so limited as far as how vast your islands are. But for East Honolulu it is an issue.

"Two weeks ago walking on 10th Avenue, this young man who is in his 60s, Cliff is his name, talked to me about, Representative Say, right next door to my house I know there is a B&B. One, two o'clock in the morning you hear the suitcase going up the stairs then you hear people talking. Two weeks later there is another group of individuals. I did call the Department of Planning and Permitting to ask that an investigator go out. At that point, they had a hard time finding who the property owner is, if it was rented out to another individual.

"My point to you this afternoon, for the Members of the House, is a question for those who consider the quality of life that we have here in the State of Hawaii that I enjoyed as a youngster in Palolo Valley. Will it become a segment of Waikiki past the Ala Wai Canal?

"For those reasons, I do support what the Representative from Kauai has stated, and I hope, I truly hope that we had some idea that we could have set aside some monies for the respective counties in hiring more inspectors. Really.

"If we're saying to ourselves, like I stated before, we're all in the same canoe. The State and the county. And at the end of the day, we have the general excise tax, we have the income tax, we have all the other taxes except property taxes, which is for the county. My other concern would be this. If it is legitimized in a particular residential district and the city and county wants to increase the property tax values, what about our surrounding neighbors whose values are going to go up based on the increase in the property tax of an absentee land owner who has invested a lot of money in having these types of B&Bs? Don't get me wrong, I've heard debate on the floor that yes, we don't want to see property tax increases, we don't want to see GET increases, we don't want to see TAT.

"But I truly believe, and I'll make the statement, I don't believe this is part of our overall financial plan as a revenue enhancement. If we hit, we hit. We've had the Department of Taxation hire collectors in the past to go and collect monies, delinquent taxes. And this is one approach that we are taking today.

"But in the overall summary, if it does create a lot of frustrations for all of us here on the floor, that is my concern. But for the bigger scheme of things, money and sacrificing our quality of life. I've disagreed in the neighborhood boards in regards to ADU, additional dwelling units. Why? You add more density to a home whereby you encroach on your neighbor's driveway. These issues are issues that I face in my district that I represent and maybe for a lot of other Members in the Honolulu proper. And it is for that reason why I am still opposed and I'll continue to be opposed. Thank you very much."

Representative Tupola rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I just want to thank the Representative from Palolo for those reflective questions. I think quality of life is a huge question in this debate that we're having over this bill. I'd like the words of the Representative from Kailua inserted as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Tupola continued, stating:

"I'd also like to commend the Representative from Kauai, as many of my family members on Kauai frequently talk about what a big problem this is. I don't know when it wasn't brought up as one of the big reasons why they're concerned about how much Kauai is changing and how many people own properties that aren't from the island.

"And so in addition to my colleague from Ewa Beach bringing up, I don't know if there is any other issue that we would actually feel okay that doing something illegally is okay just as long as you are paying taxes. And I think that that's the fine line that we're walking here, is that we need to be, again, approaching it cautiously, because again, on any other issue we wouldn't be okay with that. But because somehow it's run rampant, we think if they pay taxes that it's going to be okay. I think we really do need to approach this cautiously because Hawaii is already changing.

"I want to thank the Representative from Waianae for bringing up the fact that we can actually report these on our own. And maybe it's neighborhood by neighborhood, community by community starting to do that. Do more reporting of these illegal entities, maybe going online and actually looking these up and reporting them as opposed to thinking that a law is going to cure it. Maybe we all need to take some of that responsibility into ourselves and into our own communities so that we can start to protect and preserve that which is for the local people of Hawaii. And so for those reasons, I stand in opposition. Thank you."

Representative Luke rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. This issue is a tough one, but I wanted to especially thank the Representative from Waianae who crafted what you see as CD 1 today. This is not the same language we saw when it passed the House, and this is a difficult issue for a lot of people. But for us it is about state taxation. She was able to figure out some type of compromise between what the House initially passed and what we see today. So it's a tough job, and I'm glad that she was able to work through this issue. And so if I could adopt the words from the Representative from Waianae, the Representative from the Third District, and the Puna Representative as my own. Thank you," and the Chair "so ordered." (By reference only.)

Representative DeCoite rose to speak in support of the measure, stating:

"Mr. Speaker, in support. If anybody knows what hardship is in a district of low, highest economic unemployment and welfare, it's the canoe district of District 13. I'd like to thank the Representative from Waianae for bringing this bill forward. On Molokai, we have very little opportunity and we have very few ways to draw income. In areas of low income, there have been vacation rentals, Airbnb's. Where I'm from, I hear what everybody's saying. You have those that have encroached into our areas, the dogs start barking and then the person comes in and complains about it. It's for us as well as those to educate those people who do these rentals. Talk to your neighbor. Have that conversation.

"But we hear funding. We need more funding for schools, for education. And at some point I believe the education should go both ways. As us as legislators to also understand the needs of our community, and I know many of us do. Which is why many of us have serious concerns about the diversity of who we are and where we're from. But I do support this measure, and I would like to leave that at that, because at 2:59, well, but thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1850, HD 1, SD 3, CD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," passed Final Reading by a vote of 30 ayes to 19 noes, with Representatives Kobayashi and Pouha voting aye with reservations, with Representatives Aquino, Brower, Cachola, Cullen, Kawakami, Keohokalole, Kong, Lee, LoPresti, Lowen, Matsumoto, McDermott, Rhoads, Say, Thielen, Tokioka, Tupola, Ward and Yamane voting no, and with Representatives Ing and Souki being excused.

Conf. Com. Rep. No. 173-16 and H.B. No. 2707, HD 1, SD 2, CD 1:

Representative Saiki moved that the report of the Committee be adopted, and that H.B. No. 2707, HD 1, SD 2, CD 1 pass Final Reading, seconded by Representative Evans.

Representative Rhoads rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, just need a ruling on a potential conflict of interest. My campaign chair, he's a member of a *hui* that bid on one of the eight dispensary licenses. Thank you," and the Chair ruled, "no conflict."

Representative Jordan rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Cachola rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Oshiro rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Oshiro's written remarks are as follows:

"Mr. Speaker, I rise in strong opposition to House Bill No. 2707, House Draft 1, Senate Draft 2, Conference Draft 1. My position in relation to the State's newly implemented medical marijuana dispensary system and its corresponding regulatory scheme has been made clear and comprehensively documented in this legislature's Session Laws, House Journals, and a vast number of other media during the 2015 calendar year. In particular, I incorporate by reference my remarks made during the 2015 Regular Legislative Session on House Bill 321, on the following session days and pages of the 2015 House Journal:

- Day 19, House Journal, Regular Session of 2015, pages 250 to 252
- Day 25, House Journal, Regular Session of 2015, pages 362 to 367
- Day 60, House Journal, Regular Session of 2015, pages 725 to 730

"In short, it is beyond reason that this body seeks to implement new law via HB 2707, guised and literally coined by Members as a 'clarification' bill, before the full implementation of Hawaii's Medical Marijuana Dispensary Law, Act 241, Session Laws of Hawaii 2015, has been implemented and applied. The detrimental ramifications inherent in HB 2707, HD 1, SD 2, CD 1 are numerous and obvious. Let's fix, or rather – not fix, this while we can.

"The first of many foreseeable problems has recently come to light. The Department of Health, charged with the duty of selecting the eight dispensary licensees allowed pursuant to Act 241, recently released the names of the selected applicants on April 29, 2016. This release was made a week late and in violation of its own statutory mandate to name the selected licensees by April 15, 2016. This not only indicates that the Department of Health (DOH) is not equipped to handle the magnitude of this industry – but also serves as a warning and scary precedent of matters to come. If we can't abide by our own self-imposed guidelines to date, why on earth are we seeking to implement new law?

"As a preliminary matter, it should be noted that the reason given for the DOH's delay was completion of background checks as mandated by the current law; which is information codified to be submitted to the Department during the application process. Not even a week after the dispensary licensees were named, it reported that the sole selectee for the island of Kauai was experiencing legal problems, specifically facing civil charges alleging theft of \$375,000.00 from a business partner. Said charges were said to be filed in February of this year – making it clear that had due diligence been operated – said information would have been easily and readily discoverable.

"Although there is no indication that parallel or related criminal charges are pending against that individual, it does raise concerns threefold:

- (1) Whether the utilized procedures clearly establish the DOH due diligence in performing background checks;

- (2) Whether the capital requirement by the State has been met (i.e., a proven \$1.2 million in financial backing); and
- (3) Whether the lack of any character or fitness element in awarding a coveted license in a multi-million dollar groundbreaking medical marijuana industry.

"The public is not yet privy to the selection process or grading that the Department of Health utilized in its recent decision; however, it is not hard to foresee the issues that those not awarded a license may validly raise, especially in light of House Bill No. 2707, House Draft 1, Senate Draft 2, Conference Draft 1. First, this bill drastically changes an applicants' justifiable reliance in established law.

"For instance, this new draft seeks to insert a new definition of 'enclosed indoor facility.' Contrary to the current law, this definition means:

[A] permanent, stationary structure with a solid floor, rigid exterior walls that encircle the entire structure on all sides, and a roof that protects the entire interior area from any exterior view and elements of weather; provided that the roof of an enclosed indoor facility utilized as a production center pursuant to a medical marijuana dispensary license application or license renewal application submitted after January 29, 2016, may be partially or completely transparent or translucent.

"What is known is that the existing applicants have more than likely invested substantial money, resources and time into consultants, business plans, lawyers, building and manufacturing agendas in order to comply with the existing law – only now to have it morphed into an almost unrecognizable version, which will unfairly contradict the rules that they were originally and they are still required to follow.

"It is not in the best interest of the fledgling industry or basic fair play to change 'the rules' mid-game. Just because the Legislature chose to push the envelope and rush into the opening of medical marijuana dispensaries based on an insecure foundation upon unproven sets of rules and regulations, we should not now come in and change the process. And, the substantive law and rules to follow. To be clear, House Bill No. 2707, House Draft 1, Senate Draft 2, Conference Draft 1, is not a 'clarification' or housekeeping measure. It is a complete overhaul with substantial impact.

"As this bill maneuvered through the legislative process this session, our committees made some good decisions. For example, an attempt to make marijuana cigarettes an allowable marijuana product was stricken. Further, a medical marijuana advisory commission was quashed. Both are good policy calls. However, as written now, and pursuant to part IV, there is established a 'legislative oversight working group to develop and recommend legislation to improve the medical marijuana dispensary system in the State.' This approach has already been taken.

"Pursuant to House Concurrent Resolution 48, Regular Session of 2014, a Medical Marijuana Dispensary System Task Force was established in the public policy center in the College of Social Sciences at the University of Hawaii at Manoa to develop 'recommendations for the establishment of a regulated statewide dispensary system for medical marijuana to provide safe and legal access to medical marijuana for qualified patients.' The task force included a panel of predominantly pro-medical marijuana individuals, which inevitably resulted in biased opinions, reports, and recommendations skewed toward the industry. What was lacking was an objective stance in approaching the establishment of a robust, highly regulated, and safe industry. Further, the working group's ineffectiveness is apparent in the submission of House Bill No. 2707, alone.

"A close look at the currently proposed working group shows an almost identical attempt to re-establish the same approach taken in 2014. However, the working group under House Bill No. 2707, House Draft 1, Senate Draft 2, Conference Draft 1 includes additional individuals with biased and self-serving motives, including an advanced nurse practitioner participating in Hawaii's medical marijuana program, two representatives from the Hawaii Dispensary Alliance, two representatives of the medical marijuana dispensary industry, and one representative from a laboratory capable of testing marijuana or marijuana-manufactured products. In

effect, we are including only those that will seek to advance the industry and unfortunately those whose views may be less than objective, which is required to seriously address the best interests, safety, and public welfare. If that is what the Legislature seeks to do – then it should act accordingly.

"The bill contains numerous flaws and opens up countless avenues for attack and harm to the State and its residents. It bears my repeating – we have had the great advantage and opportunity to establish one of the best medical marijuana systems in the country; we must stop trying to come in mid-stream and make changes to a statutory scheme that we have not even had the opportunity to see play out. It is irresponsible and does nothing to protect the general public. For these reasons, I urge my fellow colleagues to oppose this measure."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2707, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO MEDICAL MARIJUANA," passed Final Reading by a vote of 36 ayes to 12 noes, with Representatives Cachola and Jordan voting aye with reservations, with Representatives Choy, Fukumoto Chang, Har, Kong, Matsumoto, McDermott, Oshiro, Pouha, Say, Tokioka, Tupola and Ward voting no, and with Representatives Ing, Kawakami and Souki being excused.

"Thank you, Mr. Speaker. In strong support and request to insert comments in the Journal."

Representative Lowen's written remarks are as follows:

"Thank you, Mr. Speaker. I strongly support this measure to honor the name of Ellison Onizuka at the Kona International Airport at Keahole. Ellison Shoji Onizuka was born in Kealahou in 1946, and was a graduate of Konawaena High School in South Kona. He went on to earn a Master's degree in aerospace engineering and then served in the United States Air Force until being selected by NASA in 1978 for the astronaut training program.

"On January 24, 1985, Ellison made history by becoming the first Asian-American, the first Japanese-American, and the first person from Hawaii in space on the space shuttle Discovery. He brought a piece of home with him, in the form of some freeze-dried Kona coffee. In January of the following year, 1986, Ellison embarked on his second spaceflight on the space shuttle Challenger. Tragically, he perished in this mission at the age of 39 along with the other astronauts on board.

"During his too-short time on earth, Ellison inspired many kids in Hawaii, especially on the Big Island in his home district of South Kona. It was important to him to be a role model for children in Hawaii and to encourage them to invest in their education and pursue their dreams. In 1980, he delivered the following remarks at the Konawaena High School graduation:

If I can impress upon you only one idea . . . Let it be that the people who make this world run, whose lives can be termed successful, whose names will go down in the history books, are not the cynics, the critics, or the armchair quarterbacks.

They are the adventurers, the explorers, and doers of this world. When they see a wrong or problem, they do something about it. When they see a vacant place in our knowledge, they work to fill that void.

Rather than leaning back and criticizing how things are, they work to make things the way they should be. They are the aggressive, the self-starters, the innovative, and the imaginative of this world.

Every generation has the obligation to free men's minds for a look at new worlds . . . to look out from a higher plateau than the last generation.

Your vision is not limited by what your eye can see, but by what your mind can imagine. Many things that you take for granted were considered unrealistic dreams by previous generations. If you accept these past accomplishments as commonplace then think of the new horizons that you can explore.

From your vantage point, your education and imagination will carry you to places which we won't believe possible.

Make your life count – and the world will be a better place because you tried.

"This year, 2016, marks the 30th anniversary of Ellison Onizuka's death in the Challenger Disaster, and 30 years since Hawaii Island and the entire state lost a local hero. His legacy lives on in the many youth he has inspired, not just in Hawaii, but throughout the nation and around the world. It is with pleasure that I vote 'aye' on this bill, which will honor his memory at the Kona Airport, a place where visitors and locals alike will be reminded daily of Ellison Onizuka's distinguished legacy and honorable life."

Representative Ward's written remarks are as follows:

"I rise in strong support of HB 2669 which offers bonds for TruTag Technologies.

"TruTag perfectly exemplifies the type of innovative entrepreneurialism that I have been urging this legislature to support for decades. This SPRB is a middle-class grower bill, not a middle-class killer bill. TruTag is like a unicorn in the Legislature—a rarity where a company both grows businesses, provides groundbreaking technology, and protects our state's residents.

"Counterfeiting and diverted goods is a trillion-dollar global problem. That's 'trillion' with a 'T'. We need to keep our small businesses and innovators safe by providing the kinds of tracking that TruTag provides. We are an island state in the middle of the ocean susceptible to all fronts of attack—physical, economic, social, and technological. It is our duty as a body to support creative solutions to the ever present security breaches and concerns.

"This SPRB allows Hawaii to finally be on the cutting edge of security, innovation, and technology. We have missed too many opportunities to help small businesses and the local economy by alienating these burgeoning industries.

"We are finally doing the right thing for the right companies in the right sectors.

"Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and H.B. No. 2669, HD 1, SD 1, entitled: "A BILL FOR AN ACT RELATING TO THE ISSUANCE OF SPECIAL PURPOSE REVENUE BONDS TO ASSIST TRUTAG TECHNOLOGIES, INC.," passed Final Reading by a vote of 50 ayes, with Representative Souki being excused.

No. 2788, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE MOLOKAI IRRIGATION SYSTEM WATER USERS ADVISORY BOARD," passed Final Reading by a vote of 49 ayes, with Representatives Cachola and Souki being excused.

Conf. Com. Rep. No. 71-16 and S.B. No. 2217, SD 2, HD 1, CD 1:

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2217, SD 2, HD 1, CD 1 pass Final Reading, seconded by Representative Evans.

Representative Kawakami rose to speak in support of the measure, stating:

"Strong support."

Representative Tokioka rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Tokioka's written remarks are as follows:

"Thank you, Mr. Speaker, for allowing me to insert written remarks in support of SB 2217 that appropriates funds for operation, repair, maintenance, and improvement costs for the East Kauai Irrigation System by the East Kauai Water Users' Cooperative. I would like to thank Jerry Ornellas and members of the Kauai Hindu Monastery for all of their volunteer work. The \$75,000 a year to maintain this reliable irrigation system is a minimal amount compared to the cost it would take for the State to take over this system. It is my hope that we can find a reliable funding source so that East Kauai sewer and water are not having to come to us every year asking for a sum of money when in reality they are saving the State a great deal."

Representative Morikawa rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Strong support. Reliable irrigation systems, that is the importance of this legislation. This will help many small farmers with access to irrigation water, because we all know how hard it is for farmers to survive. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2217, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO AGRICULTURE," passed Final Reading by a vote of 50 ayes, with Representative Souki being excused.

At 3:03 o'clock p.m., the Chair noted that the following bill passed Final Reading:

S.B. No. 2217, SD 2, HD 1, CD 1

Conf. Com. Rep. No. 88-16 and S.B. No. 2659, SD 2, HD 1, CD 1:

Representative Saiki moved that the report of the Committee be adopted, and that S.B. No. 2659, SD 2, HD 1, CD 1 pass Final Reading, seconded by Representative Evans.

Representative Thielen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Just very brief remarks and may I have permission to insert additional remarks in the Journal? Thank you. Well, hemp hemp hurray! Here is just another product that we have. Anyone that wants a sip, come on over and I will give you one. Very healthy, a hemp drink instead of a replacement for milk. It's a wonderful day. This is going to save jobs on Maui, this is going to create jobs, it's an entrepreneur's dream, because there are 25,000 uses and products for this crop. None of them will get you high. And I wanted to thank the Chair and Vice Chair of Agriculture for their support. I think this is a wonderful step forward, and I believe Hawaii will be the leader in the nation, if not the world, with industrial hemp and seed production. So, hemp hemp hurray, and *mahalo* to all of you."

Representative Thielen's written remarks are as follows:

"I speak in strong support of SB 2659 which would establish an industrial hemp program to allow its cultivation and the distribution of its seed by licensed farmers under the auspices of the Department of Agriculture.

"After more than 20 years of advocating for this agricultural crop with 25,000 uses and products, the message has resounded: Industrial hemp has no power to get anyone high, and its byproducts like paper, clothing and low-cost hempcrete for construction create entrepreneurial growth.

"In 2016, the timing of this bill's passage is most relevant to help make up ground for the demise of Maui's sugarcane crops just weeks away and to provide hundreds of the 700-plus otherwise unemployed sugar workers with a viable crop to farm with a minimal transition phase and loss of income.

"A trace of fear about this agricultural crop still exists, unfortunately, and local farmers will have to go through unprecedented and costly measures to grow and secure a crop that is as benign as a cornfield: Install locks, build fences and create borders. Are we cultivating a harmless plant or building a prison? These shackles are better suited for bills that allow the spraying of poisonous pesticides near our schools.

"In passing this hemp bill, Hawaii will join more than 30 countries, and Kentucky, Colorado, Vermont, Tennessee and Oregon, which cultivate hemp. Hemp products are an estimated \$620 million-a-year-and-growing retail business in the U.S., with much of it presently sourced from China and Canada. SB 2659 will change that and put Hawai'i in the lead with industrial hemp.

"And lastly and most importantly, I would like to recognize the Chair of Finance and thank her for her strong support of this historical piece of legislation."

Representative Ing rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support and I'd like to adopt the words of the great Representative from the windward side. I also want to note that, let this be an example across the nation with all division of legislators crossing party lines, generation gaps, and coming together for a common cause that will help the people of their state. Thank you," and the Chair "so ordered." (By reference only.)

Representative Morikawa rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Strong support. Mr. Speaker, if hemp can be shown to clean our soil, then I welcome it on Kauai. Thank you."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I only comment because I was not able to attend the conference committee that voted on this and I wasn't present. So I really, really want to express my very strong support for this measure. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2659, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO INDUSTRIAL HEMP," passed Final Reading by a vote of 50 ayes, with Representative Souki being excused.

"Strong support."

Representative Tokioka rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Tokioka's written remarks are as follows:

"Thank you to Senate President Kouchi for introducing this bill. I want to also thank the Kauai delegation for their patience and perseverance on the passage of this bill that will be a tax relief of \$2 million a year for electric repairs on Kauai for Kauai Island Utility Cooperative members."

Representative Morikawa rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Strong support. Kauai is very dependent on this measure, because it's use of naphtha is for the generation of electricity and not a fuel tax for highway construction and maintenance. Our electric cooperative is member-owned and not-for-profit. If not for this initiative, Kauai's ratepayers will have an additional \$4.4 million tax expense, raising the average residential electric bill by 7%. Therefore, Mr. Speaker, I would like to personally thank my colleagues for supporting Kauai. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2131, SD 2, HD 2, CD 1,

ORDER OF THE DAY

On motion by Representative Evans, seconded by Representative Pouha and carried, the rules were suspended for the purpose of considering certain House and Senate Bills for Final Reading by consent calendar. (Representative Hashem was excused.)

UNFINISHED BUSINESS

S.B. No. 2077, SD 1, HD 2, CD 2:

Representative Saiki moved that S.B. No. 2077, SD 1, HD 2, CD 2 pass Final Reading, seconded by Representative Evans.

Representative McKelvey rose to speak in support of the measure, stating:

"Mr. Speaker, just in strong support, and would like to thank the Labor Chair and the Finance Chair for diligently working on this issue for our hospital. Thank you."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, support, brief comment. Mr. Speaker, a very deserving bill for those who work for the State of Hawaii. They deserve fair compensation, timely compensation, and I think this bill lays out a lot of options. But I think as a member of the Finance Committee, and a question that I asked when this went on the floor for the amendment two days ago, I

said, well what might it cost? And I was asking if the chairs might respond to that. And to this day I would repeat, is there a price tag that is what otherwise looks like an excellent bill? That's the question, Mr. Speaker. Thank you."

Representative Jordan rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and S.B. No. 2077, SD 1, HD 2, CD 2, entitled: "A BILL FOR AN ACT RELATING TO SEPARATION BENEFITS," passed Final Reading by a vote of 50 ayes, with Representative Jordan voting aye with reservations, and with Representative Hashem being excused.

At 12:52 o'clock p.m., the Chair noted that the following bill passed Final Reading:

S.B. No. 2077, SD 1, HD 2, CD 2

UNFINISHED BUSINESS & FINAL READING

At this time, the Chair stated:

"Members, we will be taking up House Bill 799 with item number 6, Final Reading."

Representative Saiki moved to agree to the amendments made by the Senate to the following House Bills, seconded by Representative Evans and carried: (Representative Hashem was excused.)

H.B. No. 799, HD 2, (SD 1)
H.B. No. 1654, HD 1, (SD 2)
H.B. No. 1669, HD 2, (SD 1)
H.B. No. 1853, HD 2, (SD 1)
H.B. No. 2086, HD 2, (SD 2)
H.B. No. 2543, HD 2, (SD 1)

The Chair addressed the Clerk who announced that the record of votes for the appropriate measures had been received which indicated that the requisite number of House conferees appointed had agreed to the amendments made by the Senate, and had cast affirmative votes to report said measures to the floor for final disposition.

H.B. No. 799, HD 2, SD 1:

In accordance with the Conference Committee Procedures agreed upon by the House of Representatives and the Senate, the managers on the part of the House recommended that the House agree to the amendments proposed by the Senate to H.B. No. 799, HD 2, on the following showing of Ayes and Noes:

Ayes, 4 (Yamane, Rhoads, Kawakami and Pouha). Noes, none. Excused, none.

Representative Saiki moved that H.B. No. 799, HD 2, SD 1 pass Final Reading, seconded by Representative Evans.

Representative Jordan rose to speak in support of the measure with reservations, stating:

"With strong reservations, Mr. Speaker. Thank you."

Representative DeCoite rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition and just a few comments. In an area of rural low economic development and for those that have remained living off the land in these rural areas, they depend on these resources to live off of. My fear of the aerial hunting would incur more impacts to those areas of high tourist travel, of area helicopters visiting with tourists. My feeling is that if these areas are very hard to get to in getting rid of a lot of

these animals, then I believe that we should have a strategic plan to track these animals to come out into the open where it is safer for both the department as well as the hunters themselves. For those reasons, I'm in opposition. Thank you."

Representative McKelvey rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I too am in opposition to the measure. I would like the words of the previous speaker entered into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative McKelvey continued, stating:

"For West Maui, hunting, Mr. Speaker, is an important tool of management, but it's also a sustainability thing. Our hunters provide food through the work that they do to keep our rainforests clean of invasive species. So I would rather see us pursue this through measures that unfortunately may not have passed to work and use the hunting community to create sustainability and true ecological removal of pests in a way that won't endanger our visitors who also use this area. Thank you very much."

Representative Yamane rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Thank you. Mr. Speaker, this measure before you was a result by the 1998 court issuing a stipulation requiring the State of Hawaii to incorporate arrow shooting in accordance to the 1979 US district court ruling that requires and stated failure to remove said feral animals, sheep and goats, from the critical habitat, constitutes an unlawful taking of the Palila, in violation of section 9 of the Endangered Species Act. So, Mr. Speaker, the department needs to do this, because we were being required and issued by the federal government.

"But I do want to assure the other members that we've worked with this issue for the last year and a half with the hunters from the various islands. And as part of this uniform aeronautics act is also tied into the gaming commission that we passed for the first time on the floor on Tuesday. In accordance, we are trying to work, have the department as well as the hunters from all islands work together, not only to use this as only a specific tool, but also to support all hunters and game areas throughout the State. So, Mr. Speaker, in support."

Representative Onishi rose to speak in support of the measure, stating:

"Mr. Speaker, in support. Mr. Speaker, it's taken us a while to address this issue for the hunting community and those people that support themselves through subsistence hunting. The need for aerial shooting also addresses invasive species issues, and especially in those very, very hard to reach areas in which it would be dangerous for us or it would be too time consuming for us to send people in to address the invasive species. So, this bill is very much necessary. We already have county legislation that prohibits this activity, and this bill will protect our state employees in doing their jobs.

"We have vetted this with the hunting community, and they understand that the newly formed hunting commission will be engaged in looking at future aerial shooting projects, and will have input into the department and the land board in regards to these projects. So this is a very important bill, I think, to protect our employees and also to help support the hunters in our communities. Thank you."

Representative Evans rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. In support with slight reservations. First of all, I want the words of the Chair of Water & Land and the Vice Chair of Agriculture in the Journal as my own," and the Chair "so ordered." (By reference only.)

Representative Evans continued, stating:

"But the reason I have a slight reservation is because I really know that the hunters are very passionate about animals that are left to die. And if

you read the language of the bill, it really is kill or attempt to kill any wildlife. And I'm really hoping, because we do have the chair and the deputy of DLNR in the gallery, that, just to be passionate, because what happens is it's very possible when they do the aerial hunting that they're going to leave animals there just partially wounded and it may take a while for them to die.

"So I just want to point that out that, hopefully we're very diligent in making sure we take care of animals. And the other piece to this is not let the carcass lay there and rot. I think that's always been a concern of the hunters, so I do want to point that out and make it of record. Thank you."

Representative Lowen rose to speak in support of the measure, stating:

"Thank you. In support. I'd like the words of the Chair of Water & Land and the Representative from Volcano entered into the Journal, and I just want to add that it shouldn't be a matter of hunters versus conservationists. There is a lot of ways these two groups can work together, and here at the Legislature we support the access to hunting and conservation efforts, but we need this tool, especially looking at the threat posed by Rapid 'Ōhi'a Death and what that could do to our watersheds on the Big Island. We need every tool possible to try to combat that. So, in support. Thank you."

Representative Tupola rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Creagan rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. This is a difficult issue. It's difficult for hunters, it's difficult for people who are harvesting animals for food and hate to see them wasted or hate to see them dying while wounded. So it's a difficult position, but I support the efforts of the Chair of Water & Land to resolve this issue and I think he did a great job. Thank you."

The motion was put to vote by the Chair and carried, and H.B. No. 799, HD 2, SD 1, entitled: "A BILL FOR AN ACT RELATING TO THE UNIFORM AERONAUTICS ACT," passed Final Reading by a vote of 47 ayes to 3 noes, with Representatives Evans, Jordan and Tupola voting aye with reservations, with Representatives DeCoite, McDermott and McKelvey voting no, and with Representative Hashem being excused.

The motion was put to vote by the Chair and carried, and H.B. No. 1669, HD 2, SD 1, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC ACCOUNTANCY," passed Final Reading by a vote of 50 ayes, with Representative Hashem being excused.

Representative Saiki moved that H.B. No. 2086, HD 2, SD 2 pass Final Reading, seconded by Representative Evans.

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you. In strong support, Mr. Speaker. I want to thank the Finance Chair and the money committees for this general fund appropriation, because I know the method proposed was challenging, but the funds generated and this funding is very sorely needed by a lot of our communities who are challenged with transportation issues. So I think this is a really good last measure that will have a big impact now for our communities. I'm very thankful for bringing this back and look forward to working with the Department of Transportation this summer on the issues that hopefully some of this funding can provide for our area. *Mahalo*."

The motion was put to vote by the Chair and carried, and H.B. No. 2086, HD 2, SD 2, entitled: "A BILL FOR AN ACT RELATING TO TRANSPORTATION," passed Final Reading by a vote of 50 ayes, with Representative Hashem being excused.

INTRODUCTION OF RESOLUTIONS

The following resolutions (H.R. Nos. 176 and 177) were announced by the Clerk and the following action taken:

H.R. No. 176, entitled: "HOUSE RESOLUTION AUTHORIZING AND EMPOWERING THE SPEAKER TO PERFORM AND CARRY OUT ANY OFFICIAL LEGISLATIVE BUSINESS DURING THE INTERIM BETWEEN THE 2016 AND 2017 REGULAR SESSIONS," was jointly offered by Representatives Saiki and Fukumoto Chang.

Representative Saiki moved that H.R. No. 176 be adopted, seconded by Representative Evans.

Representative Ward rose, stating:

"Mr. Speaker, point of Information. Mr. Speaker, this is a usual and customary resolution, it looks to be the same as last year. Except last year there was a possible misinterpretation that if in the event that there was a legal challenge, which the Native Hawaiian Legal Corporation had for DHHL, you had an intervention. And some question as to whether that was allowable in the resolution. And as I had foreshadowed, predicted yesterday or the day before yesterday, it's likely there will be a legal challenge. So my question is, Mr. Speaker, will this resolution empower you again to hire a lawyer and challenge what is alright?"

The Chair addressed Representative Ward, stating:

"This resolution will provide me with the tools to do what I need to do. Otherwise, I don't think your question is appropriate at this time."

At 1:06 o'clock p.m., Representative Saiki requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:07 o'clock p.m.

The motion was put to vote by the Chair and carried, and H.R. No. 176 was adopted, with Representative Hashem being excused.

ANNOUNCEMENTS

At this time, the Chair stated:

"If you don't mind giving the Speaker a little leverage here, we're going to have a presentation to Representative Kawakami because he's leaving us. Representative Kawakami, will you please rise and maybe give a few remarks."

Representative Kawakami: "Thank you, Mr. Speaker. First and foremost, there are few thank yous that are in order. To all of the hard working staff, the offices, *mahalo nui loa* for your tireless work for the State of Hawaii. You guys are the very thread that holds this quilt together, and on behalf of myself, the 14th District, the Island of Kauai, and all of us here, we'd like to say thank you for all that you do.

"To my staff who is my family, all of them that have been here from the very beginning, Merissa, Tammy, Lahela, Rise, Matthew, Marissa, Kristi, Polly, Ben, Jason, and of course, Aunt Gini who's been like a second mother to me, thank you for your tireless work, patience, support, patience, love, and patience that you have given me and my family. Thank you, I love you, I'll always consider you folks as *'ohana*.

"To the people of the beautiful 14th District, a big *mahalo nui loa* for allowing me to serve as your Representative for the last five years. I truly look forward to being at home with all of you. And to my family and friends, my wife Monica, my daughter Hailee, my son Christopher, my dad, my mother-in-law, my father-in-law, my family, thank you for all of your love and support. Thank you for believing in me and for standing by me at all times. I love you and I look forward to being at home with you as well, and I look forward to making up for some lost time.

"And to my colleagues here in the House, I've truly been blessed and I truly believe that I'm one of the luckiest guys in the world to have been able to have my path on this journey of life to have been able to have intersected with yours. And to the current and past House leadership, I am thankful for your guidance and for your courage to lead us through some of the roughest times that our state has been faced with in recent history. And I would have never imagined that in my short time I would have been able to serve under two Governors, two great Speakers of the House, two great Finance Chairs and three Majority Leaders, and I am fortunate and blessed to have had this experience.

"The ocean, the sea has been my sanctuary and my church at times, it's the place where I can feel my mom's presence, and it has taught me so many lessons. When you're in the ocean, you can't help but to be humble and to feel, well, small. And today for example, I paddled out, caught a few waves, and on the third or fourth wave I wiped out and pop, my contact lens popped out of my eye. And so I'm here and there's a south swell coming, Mr. Speaker, so I'm sure a few of my friends are excited about that. But here I am, out in the middle of the ocean, and my closest friends know how blind I am without my contacts or eye glasses. So I'm out there with one eye, and it's so challenging to be able to time the waves. And your perception of depth is totally lost and with one eye it became difficult, it became tiresome, and it became quite dangerous. And so I paddled in, got another contact lens in my eye and paddled back out and everything became so very clear.

"Oftentimes, I think we go through periods of life like that, with perhaps only one eye open. And at times, myself included, it causes us to have a distorted view on life. But then we experience what I would call, like today, an eye opening experience. In moments like this, things become very clear. There are many things that have happened to me over the course of the year that have made me open my eyes and to see things clearly, and one of those things is, as hard as it is for me, to come to the conclusion that my time here is coming to an end. And believe me, it's not easy, because I absolutely love this place. I absolutely love all of you. I love the people, and I am truly blessed and thankful to have each and every one of you in my life. Some of you drive me crazier than others, but I love you nonetheless, unconditionally.

"And I would pray that if you are like me and perhaps walking through this life, that you don't forget to actually live. Go get out into the ocean, go

get into the mountains. Love your children. Children are funny. You cannot tell them you love them, you've got to show them you love them, and they can't be bought. So do what you've got to do. Call in sick, have a hooky day, but live life. And don't forget, as we're walking through this journey, to actually live it.

"Mr. Speaker, as some of you may have noticed, my invocations are usually sprinkled with some of my mom's wisdom. She was an ocean lover, she was a nature lover, and she passed down a ritual to me that I still do when I come out of the sea. She'd tell me, when you get out, you wash your eyes out with that salt water with the ocean. Clean your eyes, so that you only see the positive things in people. And wash your mouth out with the sea to clean your mouth out, so that you only say good things about people and places. And she said finally, to wash your ears out, so that you can actually listen and learn.

"I've learned so much from all of you, and I've only seen beautiful things from each and every one of your hearts. And I absolutely have only positive things to say about my colleagues and my family here in the House. So finally, to all of you, I am truly blessed, and I never meant to cause you any sorrow, I never meant to cause you any pain. *Aloha aku, aloha mai*. I give my love to you, *aloha*, God bless and *mahalo*."

Speaker Souki: "Thank you Representative, for the very, very emotional speech. Now we have some things to give you, can we have the lei given to you by Cindy and the gavel by Mizuno. We also have Representative Ichiyama with a certificate from your classmates, your legislative classmates, who's going to give you the presentation."

Representative Ichiyama: "Thank you very much, Mr. Speaker. I just wanted to share with Derek and all of our colleagues, this is a really big goodbye card from us who are your classmates from the class of 2010. Representative Dee Morikawa, Representative Jo Jordan, Representative Mark Hashem, Representative Johanson, Representative Cullen, and now Senator Riviere, because we're really going to miss you, Derek. And we know how eager you are to get home and be a loving father and caring husband that you are, and we just want to let you know how much we're really going to miss you."

Speaker Souki then gave his closing remarks as follows:

"Thank you very much. For the Speaker's remarks, I simply want to say thank you for being good Representatives, for writing good legislation. I'm very proud of you. I hope you have a good, long recess during the interim and we can see you back come fall. So again, thank you very much. Mr. Clerk, would you please have my speech be incorporated in the Journal, please. Thank you very much."

Speaker Souki submitted the following closing remarks:

"Fellow Representatives, in January I asked you to use the momentum created from our last session to keep us and Hawaii moving forward.

"During this session, you did just that with hard work and perseverance.

"You helped shape a budget that is fiscally prudent, forward looking, and addresses the state's priorities on:

- The homeless and affordable housing,
- Our classrooms and education,
- Our public hospitals and healthcare,
- Our prisons and public safety, and
- Hawaiian home lands and our host culture.

"You provided assistance for the homeless that will allow the city, the State, and the many private agencies to continue their coordinated approach to helping these individuals.

"At the same time, you provided for more affordable homes and rentals that will help us short circuit homelessness in the future—providing \$36.6 million for the Rental Housing Revolving Fund and \$25 million for the Dwelling Unit Revolving Fund.

"You also put us on a path toward building affordable Housing units on state-owned parcels along our future rail system. This effort offers great potential for not just home building but community building.

"An essential part of community building is to make that community sustainable for the long term. That's why it was important for us to protect prime agriculture land between Wahiawa and Waialua and invest \$31.5 million to purchase those lands from Dole Food Co.

"As we look to open state-regulated dispensaries, you helped fine-tune the ground rules to ensure we provide safe and reliable access to medical marijuana for those who require it for health reasons.

"You took action that will allow us to complete the groundbreaking private-public partnership with Maui's hospitals, which could provide a formula for other facilities in our statewide public hospital system. And you listened to the health concerns of the people of Central Oahu and provided \$2.5 million to assist Wahiawa general hospital. You also provided \$160.5 million to help rebuild the Hawaii State Hospital for the mentally ill.

"Because of your actions this session, the DOE has \$100 million to aggressively move on heat abatement for our classrooms, making it easier for teachers to teach and students to learn. You also made it easier for teachers and others to accompany students on field trips that enrich their educational experience.

"You helped our *kūpuna* by passing a measure that ensures their health and safety in care facilities throughout the State, and you passed a bill that will help family members care for their seniors after they come home from the hospital. More importantly, it will provide the kind of medical training for caregivers that is so essential to keep our *kūpuna* healthy.

"In addition, you provided help for Maui workers and their families affected by the closure of Hawaiian Commercial & Sugar Company.

"On another Valley Isle matter, you helped sort out a fair way of dealing with the highly emotional issue of water rights among competing interests on Maui.

"It is never an easy task to deal with competing interests and priorities. Each priority seems so obvious in isolation. But the devil is never in a single priority, but always in the prioritization process itself. It's easy enough to throw your hands up and call them no-win situations. But our job is to provide leadership and make the difficult decisions.

"In doing so, you may not win any popularity contest. But you will have earned the respect and appreciation from those who see the big picture, and understand your position and your responsibility to all the people of Hawaii.

"And for that reason, let me add my own personal thanks to each of you for doing your job in workmanlike fashion—every day of this 2016 session. Well done!

"Thank you and *aloha*."

Representative Saiki gave his closing remarks on behalf of the Majority as follows:

"Thank you, Mr. Speaker. I just wanted to make four acknowledgements today. So first of all, thank you to all of the residents of our communities who have given us the opportunity to represent them in the Legislature.

"Second, thank you to the staff who have worked really hard this past session to bring us to this point. Specifically, thank you to the Legislative Reference Bureau, Sergeant-at-Arms, the Printshop, the Chief Clerk's Office, our research offices, and also our individual staff members. I'd like to request that their names be incorporated into the Journal.

"Third, thank you to our colleagues across the aisle who have worked, I know, worked very hard and diligently with us and who have been, I

believe, very responsive to the public interest, and who have been very constructive throughout this entire, not just this past session, but also last session as well. So, thank you very much to our Republican Caucus.

"And finally, Mr. Speaker, thank you to the members of your Majority Caucus. It was a privilege to work with each and every one of them. I will say that the members did exactly what we said we would do at the start of this session, and that was to address infrastructure issues. And that is what happened, when you look at the legislation that was approved this year. Whether it was in a form of classrooms, or state hospital, fresh water, affordable housing, that's exactly what happened. And all of this was done within the context of a state budget that addressed long-term investments, particularly with respect to our rainy day fund and our OPEB benefits, our employee benefits. And it was also done within the context of a budget that is balanced and that secures a positive balance in the future years ahead of us.

"So once again, I like to just thank you, Mr. Speaker, and all of the members for a very productive year. I know that the accomplishments of this legislature will benefit all of the residents of our state. Thank you very much."

Representative Fukumoto Chang gave her closing remarks on behalf of the Minority as follows:

"Thank you, Mr. Speaker. I hope you'll indulge me, my remarks are slightly longer, but I think this is only the second speech I've made all session. First of all, I wanted to start by acknowledging the staff of the House Minority Caucus. Thank you for all your hard work and tireless dedication to our members. The work we accomplished this session could not have happened without you. And thank you to all House staff, whose work makes everything that takes place in this building possible.

"To all of my colleagues, congratulations on your work this session. Our job is more than just speeches that the public sees on this floor, and it's more than what gets covered in the media. The real work takes place in the countless hours we spend in communities, in committees, and at our desks. Our job is to find practical and actionable solutions to our state's problems. Thank you all for doing that hard work.

"To the members who gave me the opportunity to be their minority leader, thank you for always valuing our diversity, thank you for respecting each other despite our many differences, and thank you for giving me the freedom to aggressively redefine what it means to be a minority member in this body. Every criticism we received was outweighed by encouragement from Hawaii voters who are tired of partisan politics, who don't want to hear token opposition, and who want their leaders to be constructive, not destructive.

"And to the majority leadership team, thank you for giving us a seat at the table. Thank you for utilizing our solutions, for passing our bills, and providing for our schools. A minority cannot be productive participants unless it's accompanied by a majority that's willing to ignore labels and listen. This majority was. And together, we've done what Washington can't.

"Finally, Mr. Speaker, I want to end by thanking the people of Hawaii for giving each of us the opportunity to play a small role in this sometimes messy, 200 year experiment called democracy."

Representative Say: "Mr. Speaker, I just wanted to ask the members of this body that if I may incorporate the words from the Representative from Waimanalo, Keolu Hills, in regards to thanking all of the legislative agencies. And secondly, may I be permitted to submit written comments in the ending of this great session? So, Speaker Souki and the House majority leadership, minority leadership, congratulations on a great session. And Speaker Souki, congratulations. *Aloha*."

Representative Say submitted the following:

"Mr. Speaker, I would like to share with the Members of the House the story of James Funaki, an individual who has dedicated his life to the State House of Representatives for more than half a century.

"Mr. Funaki was born on the Olaa Sugar Camp on Hawaii Island on May 20, 1930, and graduated from Hilo High School. He went to law school on the mainland, passed the Hawaii State Bar, and began his career in the State House of Representatives as a session counsel under the administration of Speaker Elmer Carvalho. He worked for eight Speakers of the House of Representatives: Speakers Cravalho, Tadao Beppu, James Wakatsuki, Henry Peters, Richard Kawakami, Daniel Kihano, Joseph Souki and Calvin Say.

"Understanding and comprehending the legal aspects of legislation with Mr. Funaki's expertise, and with all of the State programs and projects past and present in Hawaii, it would be fair to say that Mr. Funaki made a lasting mark on the laws of our state. Drafting, reviewing and vetting the issues with his legal background and understanding of constitutional law, Mr. Funaki had a big part in facilitating the passage of many bills by the Legislature.

"He was actively involved in the Constitutional Convention of 1978, also referred to as ConCon. He was a chief counsel to the leadership team in developing the State Constitution into what it is today.

"When I worked with Mr. Funaki, I found him to be quiet, focused, a realist and a great listener. He has a commonsense approach to understanding problems and discussing the solutions within the legislative framework of our branch of government. I am proud to say that he is one person who always protected our backs and was not afraid of tackling difficult societal issues.

"On behalf of the past and present legislators, chief clerks and assistant clerks, the sergeant-at-arms and their staff, the directors and deputy directors of the House Majority Staff Office, and all past and present employees of the House, we offer a big *mahalo*, *xie xie*, *arigato* and thank you for your contributions to the people of the state of Hawaii.

"The State House of Representatives anoint you solicitor, lawyer and justice of your courtroom, 'The House Chamber.'"

Representative Ward: "Mr. Speaker, I would be remiss if we didn't, on behalf of those who didn't speak on the Kauai Representative's behalf. Be remiss if we didn't say, back at you, we love you, we wish you the best. Thank you, Derek, for being a part of this body. We're going to miss you. *Aloha*."

Representative Tokioka: "Mr. Speaker, I was going to make the same request as Speaker Emeritus, because I didn't know if we could insert comments into the Journal during announcements, but I would like to do that. I did bring Kleenex just in case I was going to talk, but I know the Representative from North Kauai knows how much I appreciated him and love him, and we're going to miss him. Thank you."

Representative Tokioka submitted the following:

"Mr. Speaker, today is a sad day. Mr. Speaker, for the last five and one-half years I got to work side-by-side with a friend, a colleague, a great committee chair, but most importantly a great husband and a great dad. The only reason I say it's sad is because it's obvious how much he will be missed in the State House of Representatives but I know his decision to be back on Kauai is the best decision for he and his family. We've had a lot of great times during his tenure in the State House. This body and the State will lose one of the greatest advocates for the business community and individuals with disabilities, a leader who could work with both sides of the aisle, our Senate colleagues and the administration to get things done for the betterment of the people of the state of Hawaii.

"Mr. Speaker the State House of Representatives may be losing a great Representative, but in his next journey in public service I'm confident that he will be able to bring the same style of leadership to the Kauai County Council, and as the people of Kauai know, his collaborative style of leadership is definitely needed on the Kauai County Council. So we say

aloha and *mahalo* for now, but I'm sure, Mr. Speaker, we have not seen the last from the Representative of District 14."

Representative Fukumoto Chang: "Thank you, Mr. Speaker. I forgot that I was going to do this. I was speaking the other day with our minority whip who complained that her birthday is in August, so we never get to wish her happy birthday. So, if we could wish her a happy birthday for her birthday in August, that would be wonderful."
