Honorable Members

State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, House Bill No. 2, entitled "A Bill for an Act Relating to Agriculture."

The purpose of this bill is to authorize the placement of "tiny homes" of 500 square feet of living space or less within the State agricultural district in Hawaii County for farm workers or their immediate family members on farms currently engaged in agricultural production.

This bill is objectionable because the State Land Use Law, chapter 205, Hawaii Revised Statutes, and Hawaii County Zoning Code chapter 25 already allow for "employee housing" and/or "farm dwellings" of any size as permitted uses of agricultural-zoned lands. "Tiny homes" as defined in this bill are a subset of either employee housing or farm dwellings. As the law already allows "tiny homes," there is no need for this bill.

For the foregoing reason, I am returning House Bill No. 2 without my approval.

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 627

Honorable Members

State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, House Bill No. 627, entitled "A Bill for an Act Relating to Public-Private Partnerships."

The purpose of this bill is to establish the Office of Public-Private Partnership in the Department of Business, Economic Development, and Tourism to manage all contracts, proposals, and negotiations associated with the State's public-private partnerships. In addition, this bill appropriates funds for one public-private partnership office coordinator position.

This bill is objectionable because of the concern that one position is not sufficient to manage all of the State's public-private partnership projects and to perform all of the duties required to maximize the opportunity for these projects to succeed. The duties of the Office of Public-Private Partnership in this bill are vast and include: creating a strategic plan; collaborating with state agencies in analyzing and developing projects; creating analysis reports that include economic and social benefits and contractual terms; coordinating the activities of multiple state agencies; formulating project proposals; and overseeing and implementing the projects.

I am also concerned that creating an office to oversee and manage all public-private partnership projects in the State could impede the progress of those public-private partnership projects that have already commenced in the State. Finally, this bill places the Office of Public-Private Partnership in the Department of Business, Economic Development, and Tourism, even though the expertise and responsibility for many construction and infrastructure projects are currently held by the Department of Accounting and General Services.

For the foregoing reasons, I am returning House Bill No. 627 without my approval.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, House Bill No. 727, entitled "A Bill for an Act Relating to Motorcycles."

The purposes of this bill are to alleviate traffic congestion and enhance the safety of motorists by allowing motorcycles and motor scooters to pass between two same-bound lanes and on roadway shoulders when traffic is stopped, a practice known as motorcycle lane filtering.

This bill is objectionable because of the concern that motorcycles and motor scooters operating between lanes and on the shoulders will cause more safety issues than could be alleviated. Shoulders were designed for stalled vehicles and other emergencies. One of the intents of the bill is to reduce congestion, but motorcycles and motor scooters make up less than one-half of one percent of vehicles. Data shows motorcycle and motor scooter usage is going down due to decreases in gasoline prices. The practice of lane filtering will increase the potential for road rage by providing preferential treatment for motorcycles and motor scooters.

Another intent of the bill is to reduce rear-end collisions between cars and motorcycles. From 2009 through 2015, only two out of 162 motorcycle fatalities involved rear-end collisions. Of those two, one was a motorcycle crashing into another motorcycle and the other was a motorcycle hitting a car.

For the foregoing reasons, I am returning House Bill No. 727 without my approval.

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 1309

Honorable Members  
Twenty-Ninth Legislature  
State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, House Bill No. 1309, entitled "A Bill for an Act Relating to Grants."

The purposes of this bill are to add grants for planning, design, construction, renovation, operations, and equipment of facilities to the types of grants for which repayment to the State is required if the grantee acquires land and discontinues the activities or services approved in the grant by selling the land in fee simple or by lease; require the grantee to publicly recognize that the project was supported by the State through an awarded grant; and allow the expending agency to delegate its expending authority to a different agency when it is deemed advantageous to do so with the approval of the Governor.

This bill is objectionable because chapter 42F, Hawaii Revised Statutes, requires that when a grantee uses a grant for land acquisition and discontinues the activities on the land acquired with the grant and disposes of the land in fee simple or by lease, the grantee must negotiate with the expending agency for a lump sum or installment repayment to the State of the amount used for the acquisition of the land. This bill adds these conditions to grants used for the planning, design, renovation, operations, and equipment and requires the Department of Budget and Finance to negotiate with the grantee instead of the expending agency for the repayment of the grant moneys. Consequently, this bill only applies to that small category of grants where the grant funds are used to acquire land as its part of providing services to the public.

I have concerns about applying the same repayment requirements to operating expenditures such as planning, design, construction, renovation, operation, and equipment for facilities as compared to the repayment requirements for capital expenditures for the acquisition of land. It appears contrary to the intent of chapter 42F to provide funds for operations serving the public, only to require the reimbursement of such funds at a later date, perhaps beyond the date of the grant contract. Further, I believe that it would be more appropriate for negotiations for the repayment of the subject moneys to be handled by the expending agency that had the initial contractual relationship with the grantee, and not the Department of Budget and Finance.

For the foregoing reasons, I am returning House Bill No. 1309 without my approval.

State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, House Bill No. 1414, entitled "A Bill for an Act Relating to the Department of Taxation."

The purpose of this bill is to require the Auditor to engage a contractor to investigate the tax system modernization project of the Department of Taxation to: (1) identify any operational problems of the project; (2) ascertain the causes of those problems; and (3) estimate the amount of tax revenue lost because of the problems associated with the use and implementation of the project, if any, and to submit a report to the legislature. This bill also appropriates \$150,000 to engage the contractor.

This bill is objectionable because it is unnecessary and redundant as the Department of Taxation has already engaged a contractor to conduct an independent verification and validation of the tax system modernization and is awaiting the findings and results. In addition, the Auditor stated that it may be difficult to identify and assess operational issues relating to the tax system modernization project until the project is completed and there has been sufficient time for the department and users to identify any operational problems.

For the foregoing reasons, I am returning House Bill No. 1414 without my approval.

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 1588

Honorable Members

State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, House Bill No. 1588, entitled "A Bill for an Act Relating to General Obligation Bonds."

The purpose of this bill is to prohibit the issuance of general obligation bonds to finance the repair and maintenance of a capital asset where the repair or maintenance costs incurred add value to and prolong the life of the asset for a period of less than ten years. In addition, this bill requires the Director of Finance to set a maturity date of not more than ten years when issuing general obligation bonds to finance the repair and maintenance of a capital asset where the repair or maintenance costs incurred add value to and prolong the life of the asset for a period of ten years or more.

This bill is objectionable because the prohibition against general obligation bond issuances to fund the repair and maintenance of capital assets that will add value and prolong the life of such assets for a period of less than ten years will severely impact the State's ability to perform such work given the limited pool of operational funds and may lead to further increases in deferred maintenance or negatively impact program operations.

Also, the cap on the maturity of the general obligation bonds issued for repair and maintenance projects that extend the life of an asset for a period of ten years or greater will reduce the State's flexibility to structure its debt.

Further, the tracking and recordkeeping necessary to ensure compliance with the provisions of this bill would be overly burdensome on the departments managing repair and maintenance capital improvement projects.

For the foregoing reasons, I am returning House Bill No. 1588 without my approval.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Bill No. 410, entitled "A Bill for an Act Relating to Collective Bargaining."

The purpose of this bill is to clarify the scope of collective bargaining negotiations regarding the rights and obligations of a public employer.

This bill is objectionable because it directly impacts the ability of state departments to effectively manage its workforce and it seeks to dismantle essential management rights presently protected by section 89-9(d), Hawaii Revised Statutes.

The bill would effectively negate management rights to direct its workforce and require union consent on such matters as assignment, transfer, and discipline.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Bill No. 562, entitled "A Bill for an Act Relating to Tort Liability."

The purpose of this bill is to require the Attorney General to defend any civil action or proceeding brought in any court against a county based on any negligent or wrongful act or omission of a lifeguard who provides lifeguard services at a state beach park under an agreement between the State and a county.

This bill is objectionable because it requires the Attorney General to defend the counties for any civil action or proceeding, without exception, based on an allegedly negligent or wrongful act or omissions of a county lifeguard providing lifeguard services at a state beach park. Because the Attorney General would be required to defend a lawsuit brought against the counties for any "wrongful" act of a lifeguard, and not just acts that are within the scope of the lifeguard's employment, the Attorney General potentially could be required to defend the counties for acts arising out of criminal or intentional acts of lifeguards and for the county's own wrongful acts that may have allowed the lifeguard to commit criminal or intentional acts. This is contrary to well-established tort and agency law and is bad public policy.

The safety of the beachgoing public remains the utmost priority. In order to avoid a disruption in lifeguard services, the state and counties are working together to extend the existing agreements to keep lifeguards on the state beaches until more comprehensive agreements can be reached with the respective counties that can address any issues that may arise from the loss of the limited liability protections with the sunset of Act 170 (SLH 2002).

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 713

Honorable Members  
Twenty-Ninth Legislature  
State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Bill No. 713, entitled "A Bill for an Act Relating to Budget Documents."

The purpose of this bill is to require the inclusion in the state's six-year program and financial plan and budget, information on tax expenditures, which are exemptions, deductions, credits, exclusions, or other deviations from the normal tax structure as determined by the Department of Taxation.

This bill is objectionable because chapter 23, Hawaii Revised Statutes, already requires the State Auditor to conduct periodic reviews of certain credits, exemptions, exclusions, and deductions under the various State taxes pursuant to a ten-year schedule. Chapter 23 specifies that these periodic reviews include amounts of the tax expenditures for the previous

three years, the current year, and the ensuing two years. The chapter 23 information encompasses, for the most part, the additional reporting required in this bill.

Further, the Department of Taxation does not have the resources to undertake the necessary annual studies to provide the required information on a timely manner to meet budget preparation deadlines for submittal of the biennium and supplemental budgets.

For the foregoing reasons, I am returning Senate Bill No. 713 without my approval.

Respectfully,  
/s/ David Y. Ige  
DAVID Y. IGE

WHEREAS, Senate Bill No. 713, entitled "A Bill for an Act Relating to Budget Documents," passed by the Legislature, was presented to the Governor within the aforementioned period; and

WHEREAS, Senate Bill No. 713 is unacceptable to the Governor of the State of Hawai'i;

NOW, THEREFORE, I, DAVID Y. IGE, Governor of the State of Hawai'i, do hereby issue this proclamation, pursuant to the provisions of Section 16 of Article III of the Constitution of the State of Hawai'i, giving notice of my plan to return Senate Bill No. 713 with my objections thereon to the Legislature as provided by said Section 16 of Article III of the Constitution.

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 722

Honorable Members  
Twenty-Ninth Legislature  
State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Bill No. 722, entitled "A Bill for an Act Relating to Efficiency Measures."

The purpose of this bill is to recommence the efficiency measures pilot project that was established under Act 67, Session Laws of Hawaii 2015. This bill requires the Director of Finance and a selected state department to conduct the recommended pilot project with the intent of addressing several issues, including the formulation of the best definition of "efficiency measure" to be used for state budgeting, development of program expectations, determination of appropriate benchmarks, and determination of optimal program funding levels. The Director of Finance must select a department by August 1, 2017, to participate in the pilot project.

This bill is objectionable because, by imposing additional requirements for data collection on our state budget system, this bill would require the re-programming of older software on our mainframe computers at a time when the State is upgrading its information technology systems to cloud-based applications. I believe that our limited state resources would be better spent updating our budget information technology programs into cloud-based applications.

For the foregoing reasons, I am returning Senate Bill No. 722 without my approval.

Respectfully,

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 1073

Honorable Members  
Twenty-Ninth Legislature  
State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Bill No. 1073, entitled "A Bill for an Act Relating to the State Foundation on Culture and the Arts."

The purpose of this bill is to appropriate funds to the State Foundation on Culture and the Arts to support its artist fellowship program, which awards fellowships to promising artists.

The bill is objectionable because the funding source of the appropriation is the Works of Art Special Fund, and expenditures from the special fund for artist fellowships may adversely affect the State's financial interests. The Works of Art Special Fund is established by section 103-8.5, Hawaii Revised Statutes, and consists of one percent of the cost element of all state

fund appropriations for the construction and renovation of state buildings. In turn, the one percent amount generally consists of proceeds from tax-exempt bonds. Under the Internal Revenue Code, federally tax-exempt bonds may be used to finance capital projects, but should not be used to finance operating expenses, except under limited circumstances. Federally tax-exempt bond proceeds, subject to the de minimus exceptions described in Treasury Regulation Section 1.148-6(d)(3)(ii), may only be used for capital projects that are subject to depreciation or are depreciable. Violations of this provision may subject the State to adverse tax consequences, such as the loss of the federal tax-exemption on the bonds, and may: (1) expose the State to lawsuits from bond purchasers whose interest income from the bonds have become taxable; (2) adversely affect the State's bond rating; and (3) cause the State to issue taxable bonds for which the State would pay higher interest than for tax-exempt bonds. The artist fellowships are not capital projects, but are monetary prizes awarded to artists, for which in return the artist must hold an exhibition or give a performance.

For the foregoing reasons, I am returning Senate Bill No. 1073 without my approval.

Respectfully,

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 1074

Honorable Members  
Twenty-Ninth Legislature  
State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Bill No. 1074, entitled "A Bill for an Act Relating to the Fiftieth Anniversary of the Hawaii State Capitol."

The purpose of this bill is to appropriate funds to the State Foundation on Culture and the Arts to plan and coordinate the celebration of the fiftieth anniversary of the Hawaii State Capitol.

The bill is objectionable because the funding source of the appropriation is the Works of Art Special Fund, and expenditures from the special fund for planning and coordination of a celebration may adversely affect the State's financial interests. The Works of Art Special Fund is established by section 103-8.5, Hawaii Revised Statutes, and consists of one percent of the cost element of all state fund appropriations for the construction and renovation of state buildings. In turn, the one percent amount generally consists of proceeds from tax-exempt bonds. Under the Internal Revenue Code, federally tax-exempt bonds may be used to finance capital projects, but should not be used to finance operating expenses, except under limited circumstances. Federally tax-exempt bond proceeds, subject to the de minimus exceptions described in Treasury Regulation Section 1.148-6(d)(3)(ii), may only be used for capital projects that are subject to depreciation or are depreciable. The planning and coordination of a celebration of the fiftieth anniversary of the Capitol is not a capital project that is consistent with the permitted expenditures of tax-exempt bond proceeds.

For the foregoing reasons, I am returning Senate Bill No. 1074 without my approval.

#### STATEMENT OF OBJECTIONS TO SENATE BILL NO. 1240

Honorable Members  
Twenty-Ninth Legislature  
State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Bill No. 1240, entitled "A Bill for an Act Relating to Aquatic Life."

The purposes of this bill are to:

(1) Require the Department of Land and Natural Resources (DLNR) to define "sustainable" and establish a policy for sustainable collection practices and a process for determining limits for certain species, for legislative adoption, to ensure the sustainability of Hawai'i native near shore aquatic life; and

(2) Prohibit the DLNR from issuing new aquarium fish permits to use fine meshed traps or fine meshed nets, other than throw nets, to take aquatic life and from transferring or renewing existing permits except under certain conditions.

This bill is objectionable for the following reasons:

1. The State of Hawai'i, by its DLNR, is in agreement that sustainable policies and practices are paramount where state aquatic resources are concerned. However, the focus of this bill on the aquarium fishery, by requiring collection limits for the "top forty" species and phasing out the use of aquarium fish permits, does not appear to be correct.

The State established the West Hawai'i Regional Fishery Management Area almost two decades ago, as the aquarium fish collection industry is strongly concentrated in West Hawai'i island. DLNR established fishery replenishment areas in West Hawai'i island as protected areas to allow fish to grow to full mature reproductive potential and repopulate fish stocks both inside and outside of the fishery replenishment areas.

Scientific data, involving more than 6,700 coral reef survey transects by DLNR in West Hawai'i island taken in the course of over seventeen years, show that aquarium fish populations are generally stable or increasing due to the spillover effect of the fishery replenishment areas. Populations of yellow tang and kole, two of the most heavily collected species in the aquarium industry, have not declined either inside or outside of the fishery replenishment areas, notwithstanding the concentration of fishing pressure in the areas outside of the fishery replenishment areas.

In contrast, food fish - which represents over ninety percent of all fish caught in Hawai'i - have decreased dramatically statewide. Reasons for this decline include overfishing, destructive fishing practices (including lay gill nets or night spearing with scuba), and decreases in coral reef habitat. Coral health is imperiled by the lack of such large herbivores as uhu (parrotfish), surgeonfish (such as paku'iku'i or Achilles tang), and sea urchins that keep algae in check, allowing room for more coral growth. Other pertinent impacts to the reef include coral bleaching events.

Despite the premise of the bill that the primary problem is from the aquarium fishery, the actual scientific data do not support that conclusion. The bill cites a 2015 article in the journal Nature. No actual mention of the impact of aquarium fisheries is made in the article.

2. Numerous technical problems with this bill appear to have been established by the wording adopted by the conference committee. These include the requirement that DLNR develop a process for establishing sustainable catch limits by the 2019 regular session for a top forty of near shore aquatic species currently collected. No guidance is given as to whether the top forty should be constituted by number, size, biomass, economic value, fisheries landings, ecological trophic level, or other factors. There is no indication that establishing catch limits for the "top forty" species will advance the bill's stated primary purpose of reef recovery.

Even given this undetermined quality, the goal established in the bill appears unrealistic as DLNR indicates that such individual catch limits would take years of data and millions of dollars to establish.

3. The wording in section 3 of the bill that prohibits the issuance of new permits and limits the transfer of permits beyond five years would create a safety issue for permit holders who continue to operate. Permit holders would be unable to employ other permitted companions who can act as safety "dive buddies."

Given the willingness of DLNR to work with the proponents of this bill, legislators, industry representatives, and the public and the availability of management tool resources such as limited entry regulations (e.g., permit caps, open and closed seasons), marine managed areas (e.g., fishery replenishment areas), and other collection restrictions, it appears that these means can achieve fisheries resources that are sustainable without eliminating one of the State's public fisheries.

For the foregoing reasons, I am returning Senate Bill No. 1240 without my approval.

Respectfully,

Gov. Msg. No. 1319, dated July 12, 2017, informing the House that on July 12, 2017 [*sic*], pursuant to Section 16 of Article III of the State Constitution, the following bill became law without his signature, stating:

"Dear President Kouchi, Speaker Saiki, and Members of the Legislature:

Re: SB376 SD1 HD1 CD1

SB376 SD1 HD1 CD1, entitled "A BILL FOR AN ACT RELATING TO THE INTERISLAND TRANSMISSION SYSTEM" will become law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to repeal chapter 269, part VIII, HRS, relating to the interisland transmission system.

The elimination of HRS 269, Part VIII, would increase uncertainty surrounding the development of an interisland undersea cable. This would likely lengthen the assessment and development period which would be necessary before moving forward with such project. There is also concern

that current renewable technology and efficiency levels are not sufficient to hit the 100% renewable level on O'ahu without the interisland transmission system.

For the foregoing reasons, SB376 SD1 HD1 CD1 will become law as Act 205, Session Laws of Hawaii 2017, effective July 12, 2017, without my signature.

Sincerely,  
/s/ David Y. Ige

Gov. Msg. No. 1320, dated July 12, 2017, informing the House that on July 12, 2017 [*sic*], pursuant to Section 16 of Article III of the State Constitution, the following bill became law without his signature, stating:

"Dear President Kouchi, Speaker Saiki, and Members of the Legislature:

Re: HB116 HD1 SD1 CD1

HB116 HD1 SD1 CD1, entitled "A BILL FOR AN ACT RELATING TO PUBLIC SCHOOLS" will become law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to require the City and County of Honolulu to transfer the fee simple interest of parcels on which fourteen Department of Education schools sit to the Department of Land and Natural Resources. It also extends the 21st century schools pilot program by an additional five years.

The bill provides that the property boundaries of the conveyed land are to be determined pursuant to "subsection (d)." No provision in the bill, however, including subsection (d), concerns property boundaries. The lack of a mechanism for determining the boundaries of the conveyed properties, as required by the bill, is a material legal defect at the heart of the legislation.

There is insufficient information about the properties at issue to perform a full analysis of the legal implications of the bill. The bill releases, waives, and extinguishes all claims and liabilities that the Department of Land and Natural Resources has, may have had, or may have in the future against the City and County of Honolulu concerning the physical, environmental, soil, economic, and legal conditions of the conveyed properties. Even though the Department of Education has been operating schools on these properties, it is imprudent to acquire substantial property and extinguish unknown potential liabilities without ordinary due diligence.

The bill does not provide the Department of the Attorney General with any role in the conveyance of the properties. According to section 107-10, Hawaii Revised Statutes, "No real property or any right, title, or interest therein shall be acquired by agreement, purchase, gift, devise, eminent domain, or otherwise, for any purpose, by the State or any department . . . without the prior approval of the attorney general as to form, exceptions, and reservations." The bill states that the City and County of Honolulu shall prepare, execute, and record quitclaim deeds for the properties without providing a role for any state entity in this process, including the Department of the Attorney General.

For the foregoing reasons, HB116 HD1 SD1 CD1 will become law as Act 206, Session Laws of Hawaii 2017, effective July 12, 2017, without my signature.

Sincerely,  
/s/ David Y. Ige

Gov. Msg. No. 1321, dated July 12, 2017, informing the House that on July 12, 2017 [*sic*], pursuant to Section 16 of Article III of the State Constitution, the following bill became law without his signature, stating:

"Dear President Kouchi, Speaker Saiki, and Members of the Legislature:

Re: HB471 HD1 SD1 CD1

HB471 HD1 SD1 CD1, entitled "A BILL FOR AN ACT RELATING TO THE EMERGENCY AND BUDGET RESERVE FUND" will become law without my signature, pursuant to Section 16 of Article III of the State Constitution.

This bill prohibits the Legislature from appropriating from the Emergency and Budget Reserve Fund: 1) more than fifty percent of the balance of the fund in a single year; 2) to expend for discretionary costs in a fiscal year, an amount that exceeds ten percent of the total discretionary funds appropriated by the Legislature for the same fiscal year; and 3) for a succeeding fiscal year, unless the current fiscal year's tax collection is less than the collection for the previous fiscal year.

The purpose of the EBRF is to provide a temporary supplemental source of funds during emergencies, severe economic downturns, or unforeseen reduction in revenues. An adequate EBRF appropriation will better enable the State to plan its course of action to meet the budget shortfall. The restrictions set by this bill limits the Legislature's ability to address budget shortfalls and may lead to deeper budget reductions and reductions in workforce.

Another concern is this measure allows appropriations from the EBRF in a succeeding fiscal year, if the State collected or is projected to collect less general fund tax revenue in the current fiscal year. Thus, appropriations from the EBRF would be allowable in years with robust general fund tax growth as long as collections in the current fiscal year are less or are projected to be less than the prior fiscal year. This provision does not appear consistent with the desire to preserve the use of EBRF for dire financial situations.

For the foregoing reasons, HB471 HD1 SD1 CD1 will become law as Act 207, Session Laws of Hawaii 2017, effective July 12, 2017, without my signature.

Sincerely,  
/s/ David Y. Ige

"Dear President Kouchi, Speaker Saiki, and Members of the Legislature:

Re: HB115 HD1 SD1 CD1

HB115 HD1 SD1 CD1, entitled "A BILL FOR AN ACT RELATING TO HIGHWAYS" will become law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to address the roads "in limbo" throughout the State whose ownership has been disputed or called into question. The bill provides that a disputed road may be transferred ownership to a county as directed by the State Department of Transportation.

There is concern that on roads that are privately owned but the private owners cannot be easily determined or are unwilling to accept responsibility for the road will expose the counties to an unknown and unquantified potential liability. This could also be a potential unfunded mandate to the counties.

For the foregoing reasons, HB115 HD1 SD1 CD1 will become law as Act 208, Session Laws of Hawaii 2017, effective July 12, 2017, without my signature.

"Dear President Kouchi, Speaker Saiki, and Members of the Legislature:

Re: HB839 HD1 SD1 CD1

HB839 HD1 SD1 CD1, entitled "A BILL FOR AN ACT RELATING TO THE DEPARTMENT OF LAND AND NATURAL RESOURCES" will become law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to require the Auditor to conduct a performance audit of the Department of Land and Natural Resources' Special Land and Development Fund and the Land Conservation Fund.

The Department of Land and Natural Resources is unsure of the reasoning behind these audits as they are not mentioned in the bill. The Auditor already does rotating audits of all departments and this could be an ineffective use of taxpayer dollars.

For the foregoing reasons, HB839 HD1 SD1 CD1 will become law as Act 209, Session Laws of Hawaii 2017, effective July 12, 2017, without my signature.

"Dear President Kouchi, Speaker Saiki, and Members of the Legislature:

Re: SB724 HD1 CD1

SB724 HD1 CD1, entitled "A BILL FOR AN ACT RELATING TO NONDISCRETIONARY COSTS" will become law without my signature, pursuant to Section 16 of Article III of the State Constitution.

This bill requires the Department of Budget and Finance to submit a one-time report prior to the 2019 Regular Session, on various non-discretionary costs and related ratios for fiscal years 2018-2019 and 2019-2020. It also requires the Director of Finance to recommend whether the information should be provided annually after 2019.

Compiling the report will require the Department of Business, Economic Development, and Tourism to forecast data for population, gross State product and personal income. There will be a one- to two-year lag before actual data becomes available to produce a forecast. In addition, there are margins of error in forecasts, especially the further out into the future the forecasts are made. Moreover, forecasts won't be able to predict "economic shocks" and the use of a handful of metrics is too simplistic to forecast the future of Hawaii's economy (population, personal income and gross State product).

For the foregoing reasons, SB724 HD1 CD1 will become law as Act 210, Session Laws of Hawaii 2017, effective July 12, 2017, without my signature.

Sincerely,

Gov. Msg. No. 1325, dated July 12, 2017, informing the House that on July 12, 2017 [*sic*], pursuant to Section 16 of Article III of the State Constitution, the following bill became law without his signature, stating:

"Dear President Kouchi, Speaker Saiki, and Members of the Legislature:

Re: HB475 HD1 SD2 CD1

HB475 HD1 SD2 CD1, entitled "A BILL FOR AN ACT RELATING TO MOVIE THEATRES" will become law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to extend the sunset date of Act 39, Session Laws of Hawaii 2015, to January 1, 2020. A public accommodation that owns, leases, leases to, or operates a motion picture theater in more than two locations in the State will have to provide: (1) open movie captioning during at least one showing per week, or (2) a personal closed captioning system.

There is a concern that this bill will render the current state law meaningless because it offers a choice between open captioned movies or providing "lightweight eyewear" as an alternative. Under the ADA, movie theaters already must provide a system to view closed captioning effectively eviscerating the requirement to provide open captioning.

There is also concern that this bill will potentially create problems where theaters could be in compliance with state law but be in violation of federal ADA laws.

For the foregoing reasons, HB475 HD1 SD2 CD1 will become law as Act 211, Session Laws of Hawaii 2017, effective July 12, 2017, without my signature.

Sincerely,  
/s/ David Y. Ige

Gov. Msg. No. 1326, dated July 12, 2017, informing the House that on July 12, 2017 [sic], pursuant to Section 16 of Article III of the State Constitution, the following bill became law without his signature, stating:

"Dear President Kouchi, Speaker Saiki, and Members of the Legislature:

Re: HB83 HD1 SD2 CD1

HB83 HD1 SD2 CD1, entitled "A BILL FOR AN ACT RELATING TO HOMELESSNESS" will become law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to require the Hawaii Interagency Council on Homelessness, in consultation with the Department of Land and Natural Resources and the Department of Human Services to establish a working group to examine and develop recommendations for the establishment of safe zones.

The Housing First approach has been the preferred solution to address homelessness in Hawaii. In 2012, the Legislature directed the Hawaii Interagency Council on Homelessness (HICH) to study the issue of "designating safe facilities located at areas, showers, toilets, laundry facilities, and locker rooms in various locations throughout the State for homeless persons for overnight stays." In its report to the Legislature, the HICH concluded that "[c]reating camping areas for homeless individuals in our parks and in our public buildings ... is unworkable, is not advisable, and should not be pursued." The better long term strategy is to link people to housing.

Homelessness continues to be a major concern in Hawaii and the administration will continue to look at all options regarding this issue.

For the foregoing reasons, HB83 HD1 SD2 CD1 will become law as Act 212, Session Laws of Hawaii 2017, effective July 12, 2017, without my signature.

"Dear President Kouchi, Speaker Saiki, and Members of the Legislature:

Re: HB591 HD1 SD2 CD1

HB591 HD1 SD2 CD1, entitled "A BILL FOR AN ACT RELATING TO THE CAPITAL INFRASTRUCTURE TAX CREDIT" will become law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to assist tenants displaced from Kapalama Container Terminal site by updating the capital infrastructure tax credit to cover some costs associated with moving to a new site. It doubles the amount of credit per taxable year from \$1.25 million to \$2.5 million.

There is concern that this bill will set a precedent for future tax credit legislation. The Department of Taxation prefers conformity to the Internal Revenue Code as much as possible to prevent credit claims more than what was intended by the Legislature.

For the foregoing reasons, HB591 HD1 SD2 CD1 will become law as Act 213, Session Laws of Hawaii 2017, effective July 12, 2017, without my signature.

Gov. Msg. No. 1328, dated July 12, 2017, informing the House that on July 12, 2017 [sic], pursuant to Section 16 of Article III of the State Constitution, the following bill became law without his signature, stating:

"Dear President Kouchi, Speaker Saiki, and Members of the Legislature:

Re: HB375 HD1 SD1 CD1

HB375 HD1 SD1 CD1, entitled "A BILL FOR AN ACT RELATING TO TAXATION" will become law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to appropriate \$1,000,000 for the Hawaii Tourism Authority, working in conjunction with the private sector to address homelessness in tourist and resort areas.

Although this will help to leverage private funds via dollar for dollar match to provide much needed funding for homelessness, the bill is unconstitutional because the title does not match the contents of the bill. While I agree with the intent of the bill, it will be subject to further review by the Attorney General's Office.

For the foregoing reasons, HB375 HD1 SD1 CD1 will become law as Act 214, Session Laws of Hawaii 2017, effective July 12, 2017, without my signature.

Gov. Msg. No. 1329, dated July 12, 2017, informing the House that on July 12, 2017 [sic], pursuant to Section 16 of Article III of the State Constitution, the following bill became law without his signature, stating:

"Dear President Kouchi, Speaker Saiki, and Members of the Legislature:

Re: HB575 HD1 SD1 CD1

HB575 HD1 SD1 CD1, entitled "A BILL FOR AN ACT RELATING TO PUBLIC LANDS" will become law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to allow lessees of public lands being used for commercial purposes, and who are in the last ten years of their lease, to enter into a process to determine interest in future land leases thereby providing certainty about future leases. This will help to encourage economic development in leasehold properties and incentivize lessees to maintain public lands and buildings at a high standard.

This could be an essential tool in helping to support lessees obtain bank financing for capital improvement in the latter part of the lease. Banks often consider new buildings and improvements done in the last half of the lease term to be "wasting assets". It is important to provide lease certainty to lessees on public lands to encourage investments and upkeep of lands.

There is a minor concern that this bill could be special legislation because it limits application to only commercial and industrial classed lands without providing any basis for distinguishing these from other public lands. Although there are potential legal issues, we have heard from many in our community that the benefits of this bill could resolve many issues regarding lease extensions.

For the foregoing reasons, HB575 HD1 SD1 CD1 will become law as Act 215, Session Laws of Hawaii 2017, effective July 12, 2017, without my signature.

Sincerely,

Re: HB1258 HD2 SD2 CD1

HB1258 HD2 SD2 CD1, entitled "A BILL FOR AN ACT RELATING TO TRANSPORTATION" will become law without my signature, pursuant to Section 16 of Article III of the State Constitution.

This purpose of this bill is to define and establish licensing and registration requirements for autocycles.

There is a concern that the legislative intent was to have autocycles be licensed under section 286-102(b)(3). However, the bill references section 286-102(b)(2) instead. Although this is a substantive error and does raise legal concern, it appears to be a housekeeping error that can be corrected in the next legislative session.

For the foregoing reasons, HB1258 HD2 SD2 CD1 will become law as Act 216, Session Laws of Hawaii 2017, effective July 12, 2017, without my signature.

Re: HB523 SD1 CD1

HB523 SD1 CD1, entitled "A BILL FOR AN ACT RELATING TO RECYCLING" will become law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to authorize the Department of Accounting and General Services (DAGS) to establish a recycling pilot program for the onsite collection of recyclable materials at DAGS buildings and facilities.

There is concern that there is not a sufficient amount of recyclable material in the waste stream to warrant spending for this type of program. Many of the DAGS facilities have already implemented recycling programs in which individuals or janitors volunteer to handle the recyclables.

However, the State Capitol receives an influx in public traffic during session and recyclable material could increase in the waste stream. DAGS can work with the State Capitol Management Committee to address this issue.

There is concern that DAGS received no positions and will be required to hire vendors to implement the program. The administration is committed to working with the legislature on this issue and implementing recycling programs where necessary.

For the foregoing reasons, HB523 SD1 CD1 will become law as Act 217, Session Laws of Hawaii 2017, effective July 12, 2017, without my signature.
