Thank you."

"Thank you, Mr. Speaker. I too am in support, but there's one item I think we need to work on in this measure as it moves forward, is the criminal penalty for a violation. I think that besides judicial resources and others, I

think this would be more effective as a fine system like other business infractions are. So, thank you, look forward to this bill as it moves along."

"I stand also in reservations as to the HD 2 specifically for the criminalization. And so, for that, I stand with reservations."

"Just a clarification. I'm in support of the measure, no reservations."

"Mr. Speaker, I'm rising to speak on Standing Committee Report 593, and I'm, at this point, going to cast a no vote. I'm hoping that the sponsor of the measure will give some insight to those of us that do not sit on the Labor Committee.

"What this is doing is taking the law enforcement divisions within all of the different departments where they are presently embedded and know those department's functions, and it's putting them all into the Office of the Attorney General. I can't see how this is going to provide for more knowledgeable and better law enforcement on the different measures. I'm thinking particularly, Department of Land and Natural Resources, for their enforcement division is right within the department and knows very well all of the different rules for that department, and then uprooting them and putting them in Office of the Attorney General, I don't think it's going to be more effective for preservation and protection of our environmental natural resources.

"So, I hope to learn more about this. It is going on to Finance, it will come back to us for, I assume, for another vote if Finance decides that this makes sense. And at this point, I'm a no vote. Thank you."

"Thank you, Mr. Speaker. With reservations, quick comment. Thank you. Same concerns as the Representative from Kailua, but specifically in regards to DLNR, we've had issues with not understanding, one, the community, and two, within the department, and I feel like putting them even farther away from it, that's my main concern. It's just those interactions that those officers have had and making sure that we keep them as close to the situation and department as possible so they can be more knowledgeable about it, rather than more distant and not sure why they're at certain incidents and

arresting people that they're not even sure what's going on. So, that's my concern, obviously it has a ways to go. Thank you."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, reservations with a brief comment. This bill comes up for graduate students year after year, after year, after year. And having been a graduate assistant, okay, you don't get paid very much money, but you do well academically, as well as given priorities to learn how to teach and to do things.

"Why the heck do we unionize it, unless there's really a super grievance, I'm not sure whether we're just doing this to increase the cost of the University of Hawaii, which already is a concern, because everybody says that tuition is going through the roof.

"So, Mr. Speaker, I hope as we have done in the past, think very seriously about this, and why the students need to be unionized is still questionable. Thank you."

Representative Choy rose to speak in support of the measure, stating:

"Mr. Speaker, in support. The point of this bill is to allow the graduate students to collectively bargain. I believe everybody has the right to collectively bargain, and I think this bill does that. So, I'm in strong support. Thank you."

Representative Tupola rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. There were actually five issues that the graduate students had with the college, and specifically with the office of graduate assistants. We've been trying to work on two of the five, which one was as simple as there was no manual telling them what the procedure was as far as when you're a graduate assistant, what the payrate is, when you get paid, how recent or late they give you notice that you're going to continue on to the next semester, so that part's been resolved.

"The other part was that the notice that they gave students when they actually had maybe not decided to continue them on for the next semester was too short for them, and a lot of them didn't have that tuition figured out before that they were cut off.

"So, again, I think that whatever happens with this, is what happens. But we really should get into the nitty gritty of what those issues were and just start to solve it with the university, because they can start to do some of that stuff now. So, thank you."

"Mr. Speaker, I rise with a no vote with a very brief comment. In its present form, this is a hit against the small business community, the mom and pop, the guys who fix cars under trees or under Quonset huts or otherwise. The reason why I voted no, and I'll say exactly what I said in the committee, RICO, who is the progenitor of this bill, has no data that we have been shown for any citations.

"When you do something like this where you're going to fine people for not having their license displayed, like a restaurant doesn't have their pass displayed, and the guy's got to have something in his pocket also that says that he's kosher. Why we want to go after these small guys I would agree with if we have, 2017 we had so many pirate mechanics. There's no evidence that RICO knew, in the hearing. So, I would suggest for those who are going to hear this bill in the future, if RICO doesn't come up with some reason, this is simply just a premeditated attack on the small guys who are trying to make a living by being mechanics.

"And with that, Mr. Speaker, I would hope everybody would pursue this so we don't pinch the small business community more than they already are being done so. Thank you."

Representative McDermott rose to speak in support of the measure, stating:

"Mr. Speaker, 670, I stand in support. Very briefly, I'd like to thank the committee chair for hearing the measure. He always makes me feel like a fully enfranchised member of the committee and cares about the input that I'm giving, and asks for it.

"I'd also like to thank my colleague from Ewa Beach. We had a town hall meeting, it was in my district, but I invited him out to hear the concerns of the residents regarding this road. He took two, two and a half hours out of his night, a very busy individual, but he saw the concerns of these folks, because it's a safety issue.

"Very briefly, the road, the City owns one third of the road, then the golf course owns a third of the road, then the Navy owns the final third. Well, as you can imagine, the only part of the road that's not maintained is the part that the golf course owns. So that's when cars get dumped there, or refrigerators, or tires, or trash. The golf course is less than receptive to pick it up. And it's only about 800 meters, but it's 800 meters right in the middle of the road. So it creates quite a problem for the elected officials, because we get all the phone calls, and we call the City, and they say it's private property, we can't do anything about it.

"To that regard, the golf course has said they will give us the road, previously. I went over there this morning, as a matter of fact, trying to get it for a dollar. We can worry about improvements down the road, but if we can get this, we can be in the process of bringing this up to snuff, because there're 1,400 families that live in Iroquois Point, and this is a problem for them.

"So, that being said, I'd like to thank the chair and my colleague from Ewa Beach for taking the time out to come out there and hear the concerns of people that weren't in his district. I found that truly remarkable. Thank you, sir."

Representative LoPresti rose to speak in support of the measure, stating:

"Thank you, in strong support. This is extremely important for the Ewa Beach community. This is a road that has brush overflowing on it that children are walking down at 4:00 in the morning, 5:00 in the morning, to get to the school or get to the bus, and walking back at 7:00 p.m. or later, just to get home, along a very dark road with speeding cars and no sidewalks and dumped cars, it's a mess. And we really owe it to the people in the Iroquois Point community to do this. So, very, very strong support, and thanks to my colleague for taking the lead on this."

Representative Thielen rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. Mr. Speaker, I'm rising to speak against Standing Committee Report 696. This is relating to transient accommodations, or TVUs as they're known in the community. Evidently, the neighbor islands, Mr. Speaker, have special use permits to allow these kinds of short-term rentals on the neighbor islands. Oahu does not, and so I'm speaking against the bill as an Oahu Representative, and one on the Windward side, an area that is so badly hit by the illegal short-term rentals. Those short-term rentals take away housing from our local folks in the community. They can't find rentals because they're all on this short-term basis.

"So this bill, I understand the proponents are trying to come up with something that's going to help solve this. Well, it won't help solve it for Oahu, and I'll tell you why. What it's doing, it's developing a process, it's telling the City and County of Honolulu, among the others, to develop a process to expediently issue special use permits, and that's for the short-term rentals. So it's saying, City and County, we'll give you \$1 million from the State, \$1 million, and you have to in return develop a special use permit for short-term rentals.

"And then on top of that, Mr. Speaker, we put in a process that says all of those illegal operators now that are going to be first in the door to try to get the short-term rental permits, all those illegal operators then are granted a speedy, expedited process for addressing an appeal to the City that would be filed by any of the short-term operators that were denied a special use permit.

"So, number one, we've got the \$1 million on Oahu. We tell the City, put in a special use permit system, which they haven't had, for good reason, and the special use permit is for issuing short-term rental permits in our Windward side and other areas of the island where these short-term rentals, the illegal operators, have been operating. Then we say, okay, you illegal operators, if you're denied the permit, you get an expedited appeal process.

"So what do you think that's going to do, I mean what message is that, to these illegal operators? Number one, be first in the door, tell the City you want the \$1 million from the State, get going, let us have our special use permit, we want to make this something that we can go ahead and do all the time in our neighborhoods.

"Number two, you denied it to me? I'm going to be 9,486th in line behind all these others that are appealing your denial of my special use permit. So we'll flood the City and we will get what we want, which is to be able to turn our residential areas into resort destinations, taking away the housing from our kids, our local folks, giving it out to the tourists in residential areas, and degrading the integrity of those residential areas.

"I know the bill was well intentioned, but as it applies to Oahu, it's a terrible, terrible bill, Mr. Speaker, and it will destroy the integrity of our neighborhoods. A lot of us are fighting back against this, Mr. Speaker."

Representative Matsumoto rose to yield her time, and the Chair "so ordered."

Representative Thielen continued, stating:

"Thank you very much. A lot of us are fighting back against this, and we're saying. A lot of us as we go door to door, Mr. Speaker, you can tell when there's a dead street, where they're all the illegal rentals, no slippers outside the door, and those lock things that you punch in a code that those operators give to someone calling from the mainland or from overseas. You punch in the code and then you go in. The places are sterile, no bicycles in the garage, everything locked up until the short-term renter appears. And then those maybe further down the street don't have a community, the communities that we've always loved and treasured.

"When my family was young, Mr. Speaker, we never locked our front door, we had a hook and eye on it. That was our evening lock. You don't have that anymore, particularly when you have strangers from all over the world coming in for two, three, four nights. You have the mess of the trash they leave behind, because they don't care, they don't pick it up, they don't put the blue bin out, the green bin out, the grey bin out, none of that.

"And this bill is creating, with \$1 million, creating a process for the City and County to go ahead and just open up our neighborhoods to become tourist destinations for short-term stays. And then it's doing the other thing, Mr. Speaker, it will erode away a large part of their \$1 million to have to handle the multitude of contested case proceedings that they have, if they ever do deny any of these short-term rental permits.

"So I really would ask Oahu members in sensitive areas, Windward side certainly, other areas where they've been hit, I would ask them to rethink their support for this bill, and I would hope that the bill does not survive to make it over to the Senate side. Thank you, Mr. Speaker."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I'd like to commend my colleague from Kailua, and with that, a no vote. Thank you."

Representative Todd rose to speak in support of the measure, stating:

"Briefly, in support. I just wanted to point out that I have a punch key entrance for my door, it's very convenient for when you need someone to come in and feed your cats or if you forget your keys, so I just wanted to point that out. Thank you."

No. 2605, HD 1, entitled: "A BILL FOR AN ACT RELATING TO TRANSIENT ACCOMMODATIONS," passed Second Reading and was referred to the Committee on Finance, with Representatives Thielen and Ward voting no, and with Representatives DeCoite, Ing, Nakamura, Onishi and Woodson being excused.

Representative Souki rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I have some reservations with this item. Historically, I had something to do in developing tourist accommodation tax, and throughout the years I've seen that the tax has been raided, so to speak, by different types of function other than the purpose of marketing.

"The tourist accommodation tax was developed for marketing purposes, and to provide assistance to the counties in the pursuit of tourism. And I see that we're beginning to move away from these things here. The language in the bill here, as far as mitigating types of problems that they have because of tourism, I don't know how you can define mitigation, it's such a general term, you can say the whole state is mitigated by tourism. So to get a

particular area that's going to claim that they're mitigated is going to lead to a lot of litigation and a lot of problems, besides, again, taking money away from tourism where it should be used for two items. One is for marketing, one is to assist the counties in the pursuit of tourism. Thank you very much."

Representative Ward rose, stating:

"Mr. Speaker, I wasn't clear whether the previous speaker was for or against the bill."

Speaker Saiki then stated:

"He was with reservations."

Representative Souki rose, stating:

"Mr. Speaker, I believe I said with reservations because I want to see as this bill proceeds how it's going to effect, but at this moment I have some grave reservations."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1828, HD 2, entitled: "A BILL FOR AN ACT RELATING TO TOURISM," passed Second Reading and was referred to the Committee on Finance, with Representative Souki voting aye with reservations, and with Representatives DeCoite, Ing, Nakamura, Onishi and Woodson being excused.

"Mr. Speaker, in strong support. I want to thank the introducer, thank all of those who put it together. It's definitely an issue, not just in our community, across the island as well as across the state. One clarification I wanted to bring up is that on line six and seven of the last page, it says that if there's no current registration it should be considered derelict.

"I just wanted to share with the members, since a lot of us have been going back and forth on how to help out with this issue, that currently in the law, in 298, derelict is already defined as this. So there's five things that make a car derelict, which means that you can just haul it whenever you want. One, is that the registered owner doesn't live at the address anymore. Two, is that the registered owner says that's not my car. Three, if the license plate and

the VIN number are scratched out, it's derelict. Four, if it hasn't been registered in that period or previous years. And five, if it's not registered in that county, it's considered derelict and you can haul it.

"So as far as those people who are trying to solve the issue, this helps us. This bill helps and as well knowing what derelict helps, so that we can all be active and help out in our communities, since it's a growing epidemic everywhere now. So, thank you."

Representative Tupola rose to speak in support of the measure, stating:

"Mr. Speaker, thank you. In support. I just wanted to share a little bit, because I did actually interface with the county clerks in Oregon that do the all mail-in voting across the state. They've seen in the regular elections about a 70% to 80% turnout, which is really high. And I asked them how they detect for fraud, and it's actually a really, really strong, I think, tight-knit system where they actually check five different points in the signature matched up with the ballot, so they've actually been able to do away with a lot of those skepticisms that it'd be fraudulent, and they showed me how they do it, so I kind of sort of became a believer once I saw that. And I think that if we can try to embrace it, even as a pilot, it could be a good idea, especially if we model it after states that have gone through all of those issues and worked them out. Thank you."

Representative Thielen rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I'm rising to speak against this bill, and I voted against it in committee hearing as well. Mr. Speaker, I would like to thank the chair for removing the political rhetoric in the bill that was, I think, very inappropriate to be in a measure before this body. But the difficulty is that the entire bill is political. And what it is doing, I'm afraid, it's going to put Hawaii in the, whatever you call those things on a rifle, the crosshairs, in the crosshairs of the Federal Government.

"We can take the example in Chicago, which is a sanctuary city, and the Federal Government has come down pretty hard on undocumented residents back there. So, in a bill that we're trying to put forward to be a feel-good bill to protect our undocumented residents, what we're actually doing, I believe, is putting them at significant harm. These are people that are in our communities that some of us know personally, some of us know of them, some of us see them, maybe they're coaches of our athletic teams, maybe they're volunteers on beach cleanups, you name it, what they are, they're part of our communities.

"And the way to protect them is not by passing this bill, because this bill is saying to Washington D.C., to the administration, come get them. Look what we're doing, we're saying you can't, we're picking a fight with you. Well, they're a heck of a lot bigger than we are, they have a heck of a lot more resources, and they're going to then come after the very people that we should be trying to protect. It's a feel-good bill, Mr. Speaker, but it doesn't do good for the undocumented residents in our communities.

"I hope people will think hard about this. It's a pretty dramatic step to say we're going to be the sanctuary state in the Pacific. And that's, I think, going to have a very sad backlash against the people that we would like to protect in our communities. Thank you."

Representative McDermott rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"No vote, brief comment. To summarize, having spoken rather lengthily on third reading, I would just summarize by saying, this bill is going to cost us money and our reputation.

"Money, I noted that 25% of our budget is actually federal money, why should we want to jeopardize that? Let's be like Mayor Caldwell, he saw \$1.5 billion coming out of the feds for the rail. And anybody on this floor who voted for rail should think twice, because \$750 million is still sitting with the Federal Government. Why do we want to poke our fingers in the eyes of the administration?

"And then the reputation is, we have been known to do that, I think this will even make it more intensive, like sharpen our fingernails so when we poke the next time it'll hurt even all the more.

"Mr. Speaker, we don't need to do that, this is a nation of 51. I would just put it this way. We are part of a bigger entity called the Federal Government, where 50 states of which we are one of those, and to say that we're not going to cooperate with the mothership just doesn't make any sense.

"And as my colleague from Kailua said, this is more of a political statement. Mr. Speaker, political statements belong in resolutions, not in law, bills like this. So let's get over it and get on with it, and let this thing go

on the wayside the way it did with, it came up in the City and County and they realized that, hey we don't want to cut our nose to spite our face for economic reasons and for reputational reasons. For those reasons, Mr. Speaker, let us all contemplate what we're doing here. Thank you."

Representative Choy rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Tokioka rose in opposition to the measure and asked that the remarks of Representative Thielen be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Har rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Har's written remarks are as follows:

"Mr. Speaker, I rise in opposition to Standing Committee Report number 748-18, HB 1994, HD 2, Relating to Law Enforcement. This bill would prohibit state law enforcement agencies from complying with federal immigration detainers or honoring requests for 'non-public information.' I oppose this measure for the following reasons: HB 1994 contravenes federal law and could result in the loss of federal funds, it is unconstitutional, and it opens-up our law enforcement agencies to liability.

"First, HB 1994 may cause the loss of federal funding because it contravenes federal law. As stated by the Department of the Attorney General, *'it is the position of federal authorities that when federal grantees commit to following all relevant federal laws when they sign for their grant awards, it includes compliance with section 1373.'* Title 8 U.S.C., section 1373, subsection (b) reads:

... no person or agency may prohibit, or in any way restrict, a Federal, State, or local government entity from doing any of the following with respect to information regarding the immigration status...

Thus, noncompliance with title 8 U.S.C., section 1373 could result in the loss or delay of federal funding.

"Secondly, HB 1994 is unconstitutional. As the ACLU testified, *'the non-warrant exceptions to the prohibition against honoring immigration detainers are contrary to the 4th Amendment and therefore, unconstitutional.'* The exceptions made in section 4(b)(2) of HB 1994 states that a Hawaii law enforcement agency would allow for an ICE detainer request under certain conditions, even without a judge's signature or a warrant. It is this section specifically that is unconstitutional.

"Finally, HB 1994 leaves our law enforcement agencies open to liability. The Maui Department of the Prosecuting Attorney testified that *'this measure does not protect state and county law enforcement agencies from liability if a person who should have been held on an immigration detainer is released pursuant to this measure and the person victimizes members of the public.'* We should be considering the protection of our local and state law enforcement. We should not be setting them up for possible lawsuits.

"It is for these reasons, Mr. Speaker, that I rise in opposition to this measure."

Representative Tupola rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. No vote, quick comment. When it came up last year, my vote was in the same regards, which is, us dictating through state law what law enforcement officers should do, which at the time of incidence, giving them the autonomy to decide and as an agency determine if it's a safety issue or if they should comply, I think we should leave it at that level so that there's no interference from the state side, and issues that may or may not regard safety of the citizens. So, thank you very much."

Representative Matsumoto rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative McKelvey rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, on 754 and 755, for expeditious sake, please note my reservations and comments to the Journal."

Representative McKelvey's written remarks are as follows:

"Mr. Speaker I stand with strong reservations on both HB 2471 and HB 2727 which seek in essence to make all video games gambling and pay public monies to create another level of bureaucracy to oversee the content of all video games and labeling.

"Despite the claims that this is to protect the *keiki*, the average gamer today is 35 years old with 20% percent of Americans over the age of 50 playing video games at least once per week. Additionally, Mr. Speaker, 67% of parents play video games with their children at least once per week.

"The assertions in the preambles quite frankly are sensationalist opinions rather than scientific facts.

"It would be helpful for the chair of the committee to have a comprehensive understanding of the in-game mechanisms this legislation is seeking to address before advancing something so overboard and draconian it will not only be unenforceable but create economic harm to our current diversification efforts.

"While both measures inaccurately compare the reward system of 'loot boxes' which are in-game mechanisms to gambling and being similar to slot machines, HB 2471 legally includes all reward-based games and video game loot boxes gambling. Loot boxes do not constitute gambling. In general, for an activity to constitute gambling, it must meet three elements: staking something of value (consideration) for a chance to win something of value (prize) and something of value is given to the 'House' which gets a cut for the chance to play. Loot boxes do not satisfy those elements.

"Like opening a package of baseball cards, customers might not know exactly what they are getting until they open the loot box, but they are guaranteed to get something. Loot boxes may reward the gamer with a sought-after virtual item (e.g., a hard-to-find object) or a more pedestrian item, often a combination of both. However, players always get something for use within the game, not outside the game. All loot boxes contain virtual items.

"There is no 'prize' because you cannot win something of value in the real world. Whatever worth those virtual items have, it is limited to within a virtual universe. Nor can one cash them out legally as the terms of service prohibit it. So, the virtual items found in loot boxes have no 'value' in the real world.

"If it is the *keiki* the proponents seek to protect, in my humble opinion the most effective tool available to consumers today in limiting unwanted content are the parental control features available on all devices used for playing video games.

"More to the point—why is this legislation aimed at video games while ignoring, for instance, sports cards? Who will be responsible for monitoring games with 'random rewards'? How often will they audit game publishers? Who will they audit? Who will do the auditing? Who will bear that expense? What is to prevent a publisher from offering 'clean' code up to an auditor and then going right back to the 'exploitive' code after the audit completes?

"Thank you, Mr. Speaker." [Note: See Stand. Com. Rep. No. 755-18, H.B. No. 2727, HD 1, for further remarks.]

Representative Say rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I'll be changing my no vote that came out of the committee to with reservations."

Representative Tokioka rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Har rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. Representative McKelvey rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, on 754 and 755, for expeditious sake, please note my reservations and comments to the Journal."

Representative McKelvey's written remarks are as follows:

"Mr. Speaker I also stand with very strong reservations on HB 2727 which seeks to require all video games sold that feature a system of further purchasing to 'prominently disclose and publish to the consumer the probability rates of receiving each type of randomized reward' and further labeling requirements.

"HB 2727 inaccurately states that video games allow players to 'purchase changes at wining rewards within games, like a slot machine.'

"'Randomized reward' can mean anything. When I play a RPG like Lord of the Rings Online and my team defeats the Watcher, say; the Watcher will drop some 'loot.' That is, a random piece of in-game equipment; perhaps several such including rare legacy items.

"Does this mean that I and my teammates are in danger of being harmed?"

"Rather than having the state mandating its own warning labels that video games are gambling, which I believe violates federal law, this body should lobby to strengthen ESRB ratings. These established ratings, when conspicuously placed with its recognizable and trusted icons and other descriptors, allow parents to quickly and easily identify in-game features they may not want their children to access, including digital purchases.

"That Lord of the Rings Online should have a big red sticker that warns purchases of the dangers of gambling addiction? That when we enter a 'dungeon' to fight the Balrog, that a big alert should pop up that details every possible bit of loot the dragon might ward and the odds of receiving each one?"

"Again, why is this measure also only targeting video games? If a warning is required on Madden Football or Star Wars Battlefront II, then surely every product on a store shelf that offers a 'random reward' should likewise be labeled as potentially harmful and addictive? Magic the Gathering? Harmful? Fleer Football Stars 2018? Harmful. Chocolate Kinder Joy. Addictive! Delicious, but harmful to our youth!

"Thank you, Mr. Speaker." [Note: See Stand. Com. Rep. No. 754-18, H.B. No. 2471, HD 1, for further remarks.]

Representative Thielen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'm rising in strong support of the measure, and I want to applaud the sponsors of this measure. I wasn't aware, Mr. Speaker, that embedded in some of the video games is a device that really encourages gambling and gambling addiction, and these are games that our kids are using.

"So, it's something that has kind of gone under the radar, and I am very pleased that these three sponsors are bringing it out into the open so we can really take a look at this more seriously, because we're enabling gambling addiction in our youth, and I'm glad we're going to take some steps to reverse that. Thank you."

Representative Say rose to speak in support of the measure with reservations, stating:

"Once more, I'll change my vote that I was a no from the committee, as a with reservations, thanks to a member who educated me on this issue. Thank you."
