Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition to 1187. Mr. Speaker, this is about virtual currency, of which no one understands except maybe one person on this floor, and he may say something other than what I'm going to say.

"In the hearing it was basically a face-off between the young people who said, don't pass this, it's too premature to do it, and to the older people who testified and said, you probably should do this, and it was a confusion between blockchains, of which probably nobody understands what it is, including many of us, and actually the gambling, and even one of the members of the committee said he almost lost \$10,000 by virtue of bitcoin.

"So Mr. Speaker, I think us passing this is a bit premature, it needs to be studied more, it needs to be put in its proper perspective, because there's no regulation of it, there's no real total place that it fits in the present macro and microeconomic environment, even though one of the testifiers said he bought a car with bitcoin somewhere in Honolulu, and other things that are going on of which we have no idea what it is. So with those, Mr. Speaker, I reserve this as a no for the time being. Thank you."

Representative Choy rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I'd like to invite my friend from Hawaii Kai to read the bill. Thank you."

Representative Cachola rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations. I know that my colleague over there said that I almost lost \$10,000 in a week's time, but I was smart enough not to buy or invest. That's how volatile this currency is. So, with reservations. Thank you."

Representative Tupola rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. Representative Tupola rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. Register a no vote, please, brief comment. I do support, I think it was House Resolution 194, which calls for an audit of the Agribusiness Development Corporation so that we can further see into the financials. And I think not putting the cart before the horse is a good idea, and that was offered by our Ag Chair, is just making sure that we're going through the financials first and then further growing what this organization does. But I would say that that's where my hesitation is, before we continue on with this, making sure that we audit it first. Thank you."

Representative Thielen rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. A no vote on the same measure, Mr. Speaker, and a few words. Thank you. This authorizes the Agribusiness Development Corporation to enter into contracts with private businesses to remove select municipal solid waste, glass, food and green waste from the waste stream. The Agribusiness Development Corporation seems to have been operating without oversight from the Legislature. It's of a concern to me. I think an audit of them is well overdue. I know that we don't receive reports from them, understand what they're doing. We hear discussion from the former Ag Chair, who heads the ADC, we hear from him at committee hearings, but there's a great deal that we don't know about what is going on. So I think it's not wise to move ahead and give more work to that organization until we audit them and find out exactly what is happening. Thank you."

But I know that there's some on this floor who would like to see it within due time, that it become recreational rather than medical marijuana. Thank you, Mr. Speaker."

"No vote, brief comment. One of the things we're concerned about, which we mentioned in the committee, was about not having a grandfathering clause for businesses that are already existing within these zones around schools, as well as no clause addressing the issue that if, in a school zone, where we need a school, where the population has grown, that it's able to be built without evading or compromising this law, because these zones would be built in areas where we don't know where the population would be at that time.

"So those are my concerns, and as many times we talk about tobacco, if we just don't want it, then we should just outlaw it altogether. But creating these buffer zones in areas where we don't know how big these are and then saying that schools can't be there, when we know on the west side because of how big and how fast we've grown, we need schools all the time, everywhere, this would really affect us. Thank you."
