Representative Thielen rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I'm rising with reservations on Senate Bill 3099 and I would like to make a few comments. Thank you. Mr. Speaker, this doubles the deposit that our constituents and visitors are going to have to pay when they purchase something that's subject to the Hawaii HI-5. I think the better approach would have been to read the Auditor's report, which was very critical of the HI-5 program, and then to look at our different communities to see whether or not that program is being run even in a way that will enable our residents to turn in their bottles and cans.

"I get a lot of complaints from people that the redemption centers aren't well located, that their hours aren't really kept in the way that they should be. And it makes it difficult, and then people get discouraged and just don't participate in it. So I think we're going about the approach in the wrong way. Instead of hitting people with more fees, double, double the amount, which sure is going to make a difference when you do your grocery shopping, I think we ought to make the redemption process be a very good one.

"I know that some places actually allow you to go to your grocery stores and turn your bottles and cans in there. We had a lot of push back from the grocery industry about doing that. Although I think a couple of the large boxes like Costco were talking at one point, this was some years ago, but talking about being willing to set this up within their system. So there are a lot of different things that we could do other than just going ahead and hitting people with another fee that just raises their cost of living and makes it harder. Thank you."

Representative McDermott rose to speak in opposition to the measure, stating:

"No vote, and I'd like to echo the sentiments of the previous speaker."

Representative Tupola rose to speak in support of the measure with reservations, stating:

"With reservations, brief comment. I'm still in discussions, most of the recycling companies are actually in my district, a lot of them are in Campbell Industrial, a lot of them are giving me their insight on kind of what the real issue is going on in our recycling industry. I'm trying to wait for some of their comments to come back to me. On third reading we definitely can make more comment about it, but I think we need to consider where these monies are actually going, where the increase goes, if it really does target that issue, and how much it does affect the cost of living for people, even as small as it is. Thank you."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations. And if it has in the bill that it's double, I'll have a no vote, but I read the bill that it's not in there, that it has been taken out of the Senate draft, so I'll stick with reservations for the point right now. Thank you."

Representative Har rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. Please register a no vote, may I please adopt the words of the Representative from Kailua into the Journal as if they were my own. And in particular, I just, again, would like to note the audit that was done by the Auditor's Office. I think that really gets to the crux of the problem with the HI-5 program. While I understand the intent is to incentivize people to turn in their bottles, the fact of the matter is, that audit really gets to the heart of the matter and what the issues are with the HI-5 program.

"So what we should be doing is, looking at the audit and really addressing the issues in the audit, as opposed to attempting to increase the fees on each bottle, because I don't necessarily think that that is still going to be the incentive people need to recycle. For these reasons, I'm in opposition. Thank you."

Representative Evans rose in opposition to the measure and asked that the remarks of Representative Har be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Creagan rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. My initial response to this was somewhat negative, but I do rise in support. On the Big Island, we have a problem with implementing the recycling. But I think on Oahu and perhaps on the Big Island, this might help some of the homeless population actually support themselves and buy some food. It will double the amount they could collect in a relatively short period of time. So I think that little silver lining of this might be worth doing it. Thank you."

Representative DeCoite rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations. My concern is, on the island of Lanai, when they lost their recycling, people that were there, they still ended up paying for their cans and bottles, and yet those were never being reimbursed back. So in areas such as that, there is nobody to handle the recycling, it becomes a big problem that now they're being doubled, the payment for it. So, still have major concerns behind this bill. Thank you, Mr. Speaker."

Representative Tokioka rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 3099, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO SOLID WASTE MANAGEMENT,"

No. 2122, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO ELECTRIC VEHICLES," passed Second Reading and was referred to the Committee on Finance, with Representative McKelvey voting aye with reservations, and with Representatives Ing, Lee and Souki being excused.
