Representative B. Kobayashi rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise with slight reservations. Mr. Speaker, this bill involves the decriminalization of possession of three grams or less of marijuana. I would note that three grams is about the weight of a penny. Today's penny, made mostly out of zinc, is approximately 2.5 grams. The old penny, the copper penny, used to be 3.11 grams. So, this decriminalization involves the weight of marijuana equivalent to, approximately, a penny. This is a tiny, half step decriminalization.

"I would note further that this is not legalization. There are 13 other states that have taken larger steps toward decriminalization. Also, I would note that the selling of any amount of marijuana is still a crime. Further, that the definition for hazardous and detrimental drug has not been changed in this HD 2, as it was in the prior draft.

"And lastly, I would note that marijuana is recognized as a cause of addiction. It does lead to bad behavior and it does, if used regularly, permanently alter brain functioning. So, this bill does recognize in part that marijuana does have detrimental effects, but it does go a very small, half step toward decriminalization, and for those reasons I am in support with some reservations. Thank you."

Representative Todd rose to speak in support of the measure, stating:

"Thank you, in support. I really hate when people quote other people in speeches, I think it's really tacky, but I thought this was appropriate, so ignore that for now. So, this speaker said, like that of millions of other Americans, my thinking has evolved as I've learned more about this issue. I decided to get involved because of the struggles of our country's veterans and the opioid epidemic, after learning how descheduling the drug can potentially help with both crises. Of course, these were the famous words of John Boehner, who once said several years ago while he was in leadership in Congress that he was unalterably opposed to decriminalizing marijuana. But now that there is profit to be made, a change of heart, perhaps.

"Beyond that, I just wanted to say that virtually every argument made here today in opposition to this legislation could easily be applied to alcohol, and we've already seen that prohibition does not work for alcohol, it's not currently working for marijuana. I think this is a very reasonable step in the right direction. I think the last thing we want to do, I think, you know I'm a high school coach, and I'm under no illusions that probably all of my players, probably nearly everyone in the public school system and the private school system here is at least experimenting with marijuana, and I think it's kind of ridiculous to move forward with policy that would criminalize those actions when this is relatively commonplace. Thank you."

Representative Takayama rose to speak in support of the measure, stating:

"Mr. Speaker, in support. Mr. Speaker, I think we can agree that we do not wish to glorify the use of marijuana, nor encourage the use of cannabis by young people. But I hope we can also agree that punishing people caught with possessing small amounts, very small amounts of cannabis, by putting

them in jail is neither advancing public safety nor the best use of our correctional justice system.

"In 2017, Mr. Speaker, the LRB conducted a study of the impact of our drug laws, and one of the things it looked at was it examined how people were punished, those caught possessing small amounts of marijuana. Current law is that's a crime of promoting a detrimental drug in the third degree, petty misdemeanor punishable by up to 30 days in jail. The LRB study found that in one year there were 397 arrests, 209 court appearances, 108 convictions, and 69 persons incarcerated in jail for this offense. And bear in mind that this is the offense of possessing one ounce or less of cannabis. The proposal before us would decriminalize, as the previous speaker from Kapahulu mentioned, three grams, which is not an ounce, not even half an ounce, it's 1/10 of an ounce of cannabis. So, for those reasons, Mr. Speaker, I ask my fellow members to support this measure. Thank you."

Representative Wildberger rose to speak in support of the measure, stating:

"Standing in support of this measure. My community sent me here to help destigmatize adult-use cannabis. We're not obviously ready to go there yet, but it's an inevitable path. I'd like to insert the words as my own from my colleague from Hilo. *Mahalo*," and the Chair "so ordered." (By reference only.)

Representative Matsumoto rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Matsumoto's written remarks are as follows:

"Thank you, Mr. Speaker. At this time, I rise in opposition. My fear is that this bill has unintended consequences far beyond merely decriminalizing certain offenses related to cannabis and is not, in fact, in the best interests of the State or the constituents we represent.

"Decriminalization of these offenses limits the court's ability to provide services to members of our community who are struggling with addiction. By removing criminal penalties for these violations, our state courts will no longer have the authority to judicially supervise offenders. Court ordered counseling or intervention services will no longer be an option in these cases.

"This is concerning particularly as it relates to younger, first time offenders. Research compiled by the National Institute of Health suggests that cannabis use is likely to precede use and abuse of other licit and illicit substances that ultimately lead to the development of more serious addictions later in life.

"This measure would eliminate the court's ability to intervene early in the cycle of addiction and thus have a deleterious impact on the most vulnerable among us, our youth.

"I fear that HB 1383 will have other unintended consequences by placing a heavier burden on our already strained judicial system.

"This bill, as written, would allow those charged with certain cannabis-related offenses occurring prior to the effective date of this legislation to apply to the court for an order of dismissal.

"This bill, as written, would require the court to consider expungement petitions for criminal convictions related to cannabis, regardless of how old the conviction might be.

"These provisions would, without doubt, create significant delays and backlogs to a judicial system that is already pushed to capacity.

"Unintended consequences, Mr. Speaker.

"Because this bill would decriminalize the possession of three grams of cannabis or less and makes possession of these amounts punishable by fines only, offenders fitting this category cannot be adequately supervised by the

courts, and thus would never be required to go through drug treatment programs that offenders may sorely need.

"Furthermore, offenders who cannot afford to pay the fines imposed would likely not be required to do so. For those offenders who can afford to pay the fine but fail to do so, the State must resort to civil process for collection. Therefore, there is no impetus for the offender to pay, as the language of the bill states the State 'may' impose fines as opposed to 'shall' or 'must.'

"As a body, we have been working to strengthen our laws, particularly in light of the recent incidents including that of the case of the impaired driver who struck and took the lives of three individuals.

"This bill, Mr. Speaker, opens the door to access and makes obtaining cannabis much less difficult. Thus, while we express our desire to tighten up our DUI laws, we're making it easier for people to obtain intoxicating substances.

"Finally, the finite resources of our judiciary, particularly as it relates to retroactive expungements for certain violations, will be significantly and irrevocably constrained, and I fear that public safety will suffer as a result.

"I am opposed to this bill and believe we need to re-evaluate our approach to this issue. The potential negative impacts for both the individuals and the communities we serve is too great to ignore.

"Thank you, Mr. Speaker."

Representative Lee rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I just wanted to say a few words in strong support, Mr. Speaker. I think this is one of those issues that inevitably ends up in our lap and we have responsibility to take on. And I want to really thank everybody from the community and our stakeholders from all sides who've weighed in on this important issue, because we couldn't have this debate we're having here today without hearing from our communities.

"And one of the things that we've heard loud and clear is that, for generations before us, marijuana has been something that has been widely available in our communities, whether we like to acknowledge that or not. The question, as policy makers, is what we do in response to that. How do we treat it, how do we treat people, how do we build a better community based on the facts before us and not a political or emotional or any other response that we might have? And in that debate, when we look at the facts, when we look at the data, we discover that the systems that we've had in place, long before any of us have been here, have not been working.

"I think it was alluded to by one of our previous speakers that, like prohibition, like our war on drugs, nationally, our policies have not been working to deter substance abuse, drug use, to empower people to build better lives and restore their sense of self-worth, to invest in their own education, jobs and the like. That's, I think, the discussion that this bill starts to move forward with.

"Mr. Speaker, what this bill is not is a legalization bill. And I respect our colleagues who've spoken in opposition from the minority, but what I've not heard is data relevant to decriminalization. I've heard a lot of anecdotal speak about legalization. That is not what this bill is, and I want that to be clear.

"Mr. Speaker, when we talk about decriminalization and when we talk about the experience that other states have had, many who've already taken this step and then some, what we find when we look at the analysis, the analysis that our good Public Safety Chair had referenced, which was a comprehensive look at what all the other states are doing, we find that, and I quote, the decriminalization of small amounts of marijuana does not appear to have led to major increases in the consumption of marijuana. And it goes on to list a whole bunch of other things.

"But suffice it to say this, we know that we can do better. And for us, we know that the way that our system currently responds to these challenges when someone is caught with marijuana, is to charge them with a criminal

offense, to put them in jail, to put a permanent mark on their record. Which, when you talk with people who've come in to testify, who've called some of our offices, saying, you know what, when I was a kid, when I was in high school, when I was in college, as an adult, I was caught and I have this permanent mark on my record which has prevented me from getting loans for college, from qualifying for jobs that I might otherwise pursue, from doing all the things that I want to do to contribute to society in a meaningful and positive way.

"Our policies are perverse, they are inverse and backward, we ought to be helping people, not punishing them in a way that destroys lives and limits potential. So, Mr. Speaker, what we need to do is to stop destroying those lives. What we need to do is not sending people to jail where they're mixing with a whole bunch of other people who've done some real serious crimes, and ultimately at the end of the day we're creating more hardened criminals. That is not the kind of thing that I think we want.

"And Mr. Speaker, when we talk about jails especially, and I think there's been a lot of talk about that recently, we have an obligation to build a criminal justice system that works, that we can afford. And it's our responsibility as stewards of taxpayers' dollars to make sure that we're spending those resources appropriately, and not just building more jails, spending hundreds of millions of dollars at a time to house people for offenses that just don't make sense.

"Mr. Speaker, what this bill actually does is not legalize marijuana, it decriminalizes three grams or less, which is minute. By far and away, we are the smallest threshold state, if we were to pass this in law, of any state throughout the United States. The next legalized, decriminalized threshold is 10 grams."

Representative McKelvey rose to yield his time, and the Chair "so ordered."

Representative Lee continued, stating:

"Thank you. The average is actually an ounce. And on top of that, not only do we have the lowest threshold, the most conservative threshold, that we're moving forward within this bill, Mr. Speaker, but the fines associated are among the highest. The lowest fines throughout the country are \$25, \$25 in many cases for up to an ounce. Mr. Speaker, here we're not only going less than an ounce, we're going three grams and the fine is \$200, eight times that. The average across the country is \$100. So we're taking this far more seriously and far more conservatively than virtually any other state, including states that have moved forward with this and found actually even better results than they imagined. Which is, I imagine, what we're going to find here.

"Mr. Speaker, if you actually read the bill, if you actually read what this does, what we find is that we have an opportunity here to fix all these problems that I've mentioned before when it comes to criminal justice, when it comes to opportunity, when it comes to taxpayer dollar investment in facilities. So, if we want, ultimately, to improve lives and give people that opportunity, we have to stop putting permanent marks on their record for things which just don't make sense. If we want to actually reduce crime, we have to stop sending people to jail and letting them become hardened criminals and adding to our problem.

"And Mr. Speaker, most of all, if we want to reduce substance abuse and drug use, not only for marijuana, but for everything else, we have to think about how we can spend our dollars better. And in this case, we're spending \$146 a day to put someone in jail. That money can be better spent, \$146 a day treating people for alternatives that actually work. And that is what this bill, Mr. Speaker, is all about.

"So, with that, Mr. Speaker, I just thank you and thank all the stakeholders who've worked on this bill from our community for their efforts thus far. Thank you very much."

At 12:46 o'clock p.m., Representative Belatti requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:50 o'clock p.m.

Representative Ward rose to respond, stating:

"Thank you, Mr. Speaker. It's not a specific rebuttal but a generic conceptual framework. If you listen to everybody, Mr. Speaker, who has spoken for the bill, they're at the micro individual personal smoker's point of view. My perspective is from the greater societal point of view, the macro, if you will. Who America is. What it does in the world with its economy, with its health, with its education.

"And from the point of view of the micro, the individual, yes, I mean, we don't want to hurt these people, but we have a greater cause in our society and who we are as a people to progress as the leaders of the world. And for people kicking back and just smoking our dope is not going to make it, Mr. Speaker. That's my point. And this is going to lead to other things. We've got enough opioid crisis, We've got enough things that we have to do with DHS and people who are in poverty. This is only going to complicate that.

"The world is a dangerous place. We have to be strong, Mr. Speaker. This weakens us. In terms of public safety and the macro of who we are as a people and a society, we have to think of that too. And I, again, I sympathize with those individuals who are going to have a mark, but as I said earlier, later it's going to be like you get a parking ticket when you're caught smoking. So, we're taking this too serious at the micro level and missing the macro at the greater societal level. That was basically the point. Not a rebuttal of any individual, but just to characterize this, it's a bigger issue than what we've got here on the policy. Thank you."

Representative Thielen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'm rising in support of the bill, Mr. Speaker, as an independent Republican. There is such a thing, fellow members. If we talk about the greater societal genre out there, we would look at the 78% to 82% of the people that are saying, just decriminalize it and make it legal. Let us be the deciding people who are going to decide whether or not we want to imbibe.

"As a disclosure, in the '70s, yes, I tried it, and no, I didn't like it. So, that was the end of that. But could have been, I could have been nailed with a criminal conviction. That's the thing that we're doing today, is we're saying it's not criminal if you have three ounces of cannabis, and that's a very good step to take.

"I have two improvements to bill, Mr. Speaker. The first is, let's stop using the racist term in our state law. 'Marijuana' came out of the '30s, and it was aimed at Mexicans, with a great deal of fear and hatred. 'Marijuana' is not scientific, there's nothing scientific about it, it's just flatly racist. So, let's go back to 'cannabis.' And once we move the discussion into a scientific area and we call it 'cannabis,' it becomes less scary. 'Marijuana' was meant to scare you. It was meant to have you be afraid. It's not the word we should be using.

"The other recommendation I would make, and I guess it may be for next year or maybe years afterward, I think we ought to free the plant. And I think we ought to listen to what the vast majority of the public is saying, leave it up to us. Some people would choose that as a way to relax after work instead of kicking back a six-pack of beer or slugging whiskey or some other hard liquor that we know can impair people's judgement, we know that that can lead to bad things and addiction. I think that the worst thing that you could have from someone relaxing at night and smoking cannabis is maybe laughter and a little bit of munchies. So, let's stop being afraid, and let's change the term. Cannabis. Thank you."

Representative Tokioka rose to respond, stating:

"Thank you, Mr. Speaker. In opposition. And after all this great debate on the floor, I'd like to call for the question. Thank you, Mr. Speaker."

At this time, Representative Tokioka called for the previous question.

Representative Mizuno rose to speak in support of the measure, stating:

"Short comments in support, Mr. Speaker. Thank you very much, I'll try to keep this very brief. In support. In the 1960s, heroin devastated the United

States. In the 1970s, cocaine hit our country. In the 1980s, crack cocaine devastated our inner cities and was connected to a single race. By the early 2000s, crystal meth devastated America and hit Hawaii extremely hard. In 2010, opioids devastated our people, claiming thousands of lives. Today, fentanyl is the new killer.

"What does this relate to in this bill? It's to address one commonality in all the drugs that I just stated, whether it's alcohol, tobacco, or the drugs I just listed. It's addiction. We need to focus our efforts on addiction. I look at this bill as a way to address addiction. This bill can really focus on rehabilitation, and not incarceration. We need to build school houses, and not jail houses. So, for those reasons, if we can continue to move this bill smartly and with the proper safeguards, I'm going to continue to stay in support. So, I'm up on this bill, thank you, Mr. Speaker."

Representative Ichiyama rose in support of the measure and asked that the remarks of Representative Takayama be entered into the Journal as her own, and asked that her written remarks be inserted in the Journal, and the Chair "so ordered." (By reference only.)

Representative Ichiyama's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in support of HB 1383, as amended. I had serious reservations about this measure as it moved through the House and came to the floor. I am grateful for the amendments made by the House Judiciary Chair as they significantly narrowed the scope and effect of the bill. Instead of decriminalizing possession of any amount of marijuana, we are now looking at only three grams (roughly the weight of a penny). Also, the bill contains a defective date, which means it will come back to the House for final consideration and vote. I will continue to carefully consider the input of my community as this bill moves through the legislative process.

"Finally, I would note that this bill is NOT about legalization of marijuana. Even if this bill passes, the use, possession, distribution or sale of marijuana will still be a crime, except for medical purposes. I do not support legalization of marijuana and would oppose any efforts to permit recreational use in Hawaii. Thank you, Mr. Speaker."

Representative Har rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and H.B. No. 1383, HD 2, entitled: "A BILL FOR AN ACT RELATING TO MARIJUANA," passed Third Reading by a vote of 34 ayes to 16 noes, with Representatives Johanson and B. Kobayashi voting aye with reservations, with Representatives Aquino, Cachola, Cullen, DeCoite, Eli, Har, Kitagawa, Kong, Matayoshi, Matsumoto, McDermott, Okimoto, Say, Tokioka, Ward and Yamane voting no, and with Representative Ohno being excused.

At 12:58 o'clock p.m., the Chair noted that the following bill passed Third Reading:

ANNOUNCEMENTS

Representative McDermott: "Mr. Speaker, we are going to have a Hawaiian plate lunch from Highway Inn. It's not actually in a plate, it's in those big things, but everybody is invited, and we hope to see you there and talk story with the vets. Thank you. Room 309."

Representative Takayama: "Mr. Speaker, I was just going to add to my colleague's remarks that I hope all of our members will be able to stop by and say hello to our honorees in Room 309 right after session. Thank you."

Representative Holt: "Thank you, Mr. Speaker. Also this afternoon, for Hawaiian Caucus members, we have resolutions for signature in my office, 333. Thank you."

Representative Wildberger: "Thank you, Mr. Speaker. I'd like to acknowledge that today is International Women's Day. For 105 years, International Women's Day has been a tradition in the United States. In 1908, 15,000 women took to the streets marching in New York City, demanding a shorter work day, better pay, and the right to vote. In 1975, the UN began observing International Women's Day in its member countries with themes like celebrating the past, planning for the future, and world free of violence against women.

"In 2017, we witnessed the MeToo movement giving a voice to denouncing sex assault and harassment. In 2018, the MeToo movement went global in India, France, China and South Korea, where women joined the conversation demanding change. Also in 2018, Alexandria Ocasio-Cortez became the youngest woman elected to the US Congress.

"The 2019 theme for International Women's Day is 'think equal, build smart, innovate for change.' They're using the hashtag BalanceForBetter, which is meant to encourage gender balance around the world.

"Do we need to continue to recognize International Women's Day after 100 years? I think we do. Women are still not getting equal pay, women are disproportionately represented in government, and women's access to education around the world is still a challenge.

"I'll share a couple of statistics. The US workforce is 47% women, the ratio of women to men in the US military is one in six, the percentage of families where a wife earns at least \$30,000 more than her spouse is 9.7%, and women with children under 18 comprise 70% of a US labor force. I look forward to continuing the important work on gender disparity with my colleagues. Thank you very much, Mr. Speaker."

Representative Belatti: "Thank you, Mr. Speaker. I'd like to just wish our colleague from District 30, Kalihi Kai, Sand Island area, a very happy birthday, and I hope everyone also joins me in wishing him a happy birthday. Thank you."

Representative Wildberger: "I would like to acknowledge the Representative behind me from Moanalua, Salt Lake for her birthday. Happy Birthday."

But for the committee members and the conference committee people who know that three to five years, or at least two to three years, would be a healthy period to get that. They just said there's not the technology to be able to keep the food out without some of the Styrofoam, but there are substitutes which needs a little bit more time for development. For those reasons, Mr. Speaker, I just hope we give them a little time, but not 100 years. Thank you."

We got half the equation and it's good news in the sense that the young people who start smoking, 80% of them start with vaping. Between 2016 and 2018, only two years, there were 23 moped or motorized scooter fatalities, 22 of them were not wearing a helmet. "Mr. Speaker, opposition, brief comment. Mr. Speaker, we are a nation of immigrants. We love immigrants. I have two immigrants in family from Malaysia and China. I know the process and I know what it goes through and I know legal help sometimes is necessary. But having sat on the committee that heard this bill, DHS gives already legal services, and the preponderance or the, in fact, what they said was the whole purpose of the legal services were for welfare or benefits purposes.

"What this bill, and they say we only have registered legal aliens or legal immigrants. This bill is pushing the envelope, Mr. Speaker, for two reasons.

One is that it's \$100,000 that it appropriates, which, if you're serious to give legal counsel, you would give a lot more than that. And secondly, the political climate about immigrants is so hot, if you will, it appears to have more political than substantive help to immigrants. For those reasons, Mr. Speaker, I think we're sort of barking up a tree that has more of a political statement than really helping immigrants, who, as we know, are very vital to our economy, to our nation, and to our families. Thank you."

"But I'm hoping that this bill goes through, because it would end the endless cycle of poverty that these payday lenders target. From a 450% annual interest rate down to 36%, it is very reasonable, people will still make money, and hopefully the endless cycle that is the source of many bankruptcies in the state, hopefully will end by the passage of this bill. Thank you very much."

"No vote with a brief comment. So, here we are again on the same bill. It doesn't make a ton of sense. There's actually not convincing evidence that vaping is more dangerous than drinking Coca-Cola, and there is significant evidence out there that it is actually much more effective to help smokers quit smoking than the nicotine patch or nicotine gum.

"I think there are very reasonable restrictions that we could place on this product, including capping the nicotine percentage, which is far too high and leads to youth addiction, and managing what sort of packaging is allowed and marketing and that sort of thing, but I don't think it's our place to restrict these flavors. Thank you."

Representative D. Kobayashi rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

"Thank you, Mr. Speaker. In support. Mr. Speaker, tobacco kills 1,400 people in the State of Hawaii each year. The reason I support this bill is if we're able to save a husband, a wife, a daughter, a son, one of your family or friends, a loved one, I think it's worth it. According to the Department of Health, tobacco costs the State \$526 million every year.

"This bill is not perfect, we defected a date, we took out menthol products. It's got a lot of work, and we support all the stakeholders in this endeavor. So, hopefully we can craft something that is sound policy. But definitely we understand the concerns. Nonetheless, for those reasons, the fact that we're hoping to cut down on deaths in the State of Hawaii, I support this measure. Thank you, Mr. Speaker."

Representative Holt rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Gates rose in opposition to the measure and asked that the remarks of Representative Todd be entered into the Journal as his own, and asked that his written remarks be inserted in the Journal, and the Chair "so ordered." (By reference only.)

Representative Gates's written remarks are as follows:

"This bill could potentially create a black market and would put hundreds of individuals out of work, for these reasons I cannot support it. Having flavored vape regulated is the only way that we can assure the quality and safety of the product. If flavored vape became a black market, the health risk to those who would indulge in this illegal vape would be immense. I also would like to adopt the Representative of District 2's words as my own."

Representative Cabanilla Arakawa rose to speak in opposition to the measure, stating:

"No vote, Mr. Speaker, and I would like to say that the reason why I'm voting no on this measure is because it includes vape products. The reason why we advocated at some point in time that we should move to vape from tobacco, is that with tobacco it has the tar in there and vape doesn't. But now we're reverting the law that we're also now including vape as tobacco, even though there is no tobacco there. So, with those reasons, Mr. Speaker, I'm voting no on this measure. Thank you."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations until the data that was cited by the good Representative from Hilo comes to everybody and I can vote no. Because it's still loosey-goosey. Each side kind of trumps up the data against this side and then the other side trumps up the data on that side. So, with reservations, because it's uncertain. Thank you."

"Mr. Speaker, with reservations, same reasons."

Representative San Buenaventura rose to speak in opposition to the measure, stating:

"Mr. Speaker, for 1375, I rise in opposition, a no vote for me. My problem with this is it is a strict liability case. Basically, we're making it illegal for retailer, not the employee. Regardless, there's no good faith defense. There's no allowing for retailer, it requires the retailer to guarantee a valid driver's license. Otherwise, if the retailer is unable, because they can't tell the difference between a fake driver's license and a valid driver's license, it makes it illegal and criminalizes the retailer. And for that reason, I'm in opposition."

Representative Cabanilla Arakawa rose to speak in opposition to the measure, stating:

"In opposition, Mr. Speaker. I think this is an antibusiness law that we're passing, and that's not what we should be doing. Thank you."

Representative D. Kobayashi rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, no vote with a brief comment. Mr. Speaker, the number that was in this particular bill for cigarettes, the increase was, it makes about \$100 for a carton of cigarettes. So, I said in the committee, well why don't we make it \$200 because there, again, according to the experts, there's a direct correlation between the cost and the quitting. So, if we make it \$200 a carton, we'll have even more people, because we have about 17% smoking now versus 34, I think, of adults, 17% of the young people. It's really for the young people that we're doing this.

"But if it's \$200 a pack, people have said, oh, wait, you're going to hurt people. Because, Mr. Speaker, right now there's a sub culture, it's a socioeconomic class, if you will, it's called people who don't have much money. It's like those who can't afford to gamble, gamble. Those who can't

afford are now the smokers. So, this says, well smoking is only for the rich people. The point is, Mr. Speaker, this is very, very regressive. But if we are so hell bent on getting rid of smoking, let's make it a \$100 a pack and see what happens.

"Because what is going to happen, inevitably it does and it's happened in my district where they say, I'm going to buy stuff at North Carolina, I'm not going to go to anybody that sells cigarettes here, and the black market gets bigger and bigger and bigger. Having spent a good time of my life in third world countries, there's a black market for cigarettes, big time in many, many countries. So, if we push beyond the elasticity where everybody will adjust to the price and pay it, we're going to have a huge, huge black market. So, Mr. Speaker, I think we should walk gently on this as we proceed. Thank you."

Representative Gates rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

For example, if after naming a Conference Committee on a House measure, the House managers of the Conference Committee decide to agree to the amendments in the Senate draft (SD) of the measure, then only the House managers of the Conference Committee shall vote on the measure, returning it to the House in its SD form. The "Record of Votes of a Conference Committee" sheet detailing the votes of the managers of the Conference Committee shall be attached to the report as a part thereof.
b. All House measures reported out of Conference Committee shall be filed with the House Chief Clerk, and likewise all Senate measures shall be filed with the Senate Chief Clerk. c. All Conference Committee Reports and Conference Drafts of measures shall be filed with the respective Chief Clerk by 11:30 p.m.

If your committee needs to meet and your assigned room has already been reserved or is in use by another committee, please contact the House and Senate Sergeant-at-Arms to arrange for the temporary use of an available conference room.

Conference committees are encouraged to give as much advanced public notice for meetings as is possible. Please be aware that lower priority room usage may be postponed or relocated as we approach the deadline to complete conference committee meetings.

"There are multiple times in our American history where we made decisions that we are not very fond of. Some of these instances, the decisions we have made cannot be changed, but as Americans now, we should always try to do what is right.

"During World War II, the American government offered the Filipino people promises of a new life in America, compensation for their services in the military, and burial benefits. What was promised was not fully granted, and this bill will help in giving these valiant people what they have been desiring for.

"Senate Bill 1417, SD2 establishes a stable and dedicated funding source for repatriation and burial costs for Filipino-American World War II veterans by appropriating funds to the state Office of Veterans Services for the provision of burial grants for Filipino-American World War II veterans. Furthermore, any funds appropriated and unencumbered shall not lapse to the credit of the general fund but shall remain available.

"As the years go by, we need to be conscious about what have been promised from those before us and those whom these promises were for. These Filipino veterans are now in their early- to mid-90s and we must not

delay this action to do what is right. As Americans, we must have integrity in our word, even if it was not precisely our words. These valiant veterans should be given the opportunity to be taken back to their homeland to have their remains from where they came, as they wish. I humbly and respectfully ask my colleagues to open their hearts and keep in mind these Filipino veterans who had put their lives on the line with American soldiers to protect the American people.

"I stand in strong support of this bill."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, no vote with a brief comment, please. Mr. Speaker, this bill proposes to tax, surcharge, or otherwise make the cost of electrical vehicle purchase and operation more expensive. It's a tax increase, but that's not the issue. The issue is, we are trying to be fossil fuel free, which means electric cars really fit the bill for what this body stands for and what the State is now leading the nation in doing.

"However, if you look at the numbers, I think we're premature in what this bill proposes. We had 1% of the vehicles on the roads of the State of Hawaii, 1%, Mr. Speaker. The point is, you don't develop a momentum or a tipping point with 1%. Inevitably, we have to make them pay their fair share because they do use the roads, but I think it's premature now to be taxing electrical vehicles, therefore possibly shutting down the purchase and the operation of electrical vehicles.

"My point is, it's a good bill, it's not timely, and if we really are going to be an electric, fossil free transportation network in Hawaii, this bill needs to be postponed for about at least two or three more years before the time is ready. Thank you, Mr. Speaker."

"Mr. Speaker, same request with a brief comment. Mr. Speaker, this is a solution in search of a problem. We have no problem with our voting, it's only when there's a close one, and I think this is confusing, as I spoke on the first crossover. Even the Elections Office didn't know how to describe what was all of this sophisticated first, second, third choice, and the amount of money that we're going to pay for it.

"So, on behalf of the minority, I think if this is going to benefit the majority, I think they have to think twice. It's going to confuse people, it's going to be retrofitting something that doesn't need fixing. Thank you, Mr. Speaker."

Representative Kong rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Matsumoto rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative San Buenaventura rose to speak in support of the measure, stating:

"In strong support. This version of ranked-choice voting is really a watered-down version of the one I introduced on the House bill version. What this actually does, if people actually try to learn it, it basically ensures that the best possible Republican candidate goes against the best possible Democrat candidate.

"And I gave a really short course on ranked-choice voting. Let's give an example, using a Republican example. The lieutenant governor's race, in the Republicans you had Jeremy Low, you had Steve Lipscomb, and you had Marissa Kerns. Marissa won by only 32%. It was basically divided almost evenly among three of them. If the Republicans had ranked-choice voting, the people who voted for Jeremy Low, their voice wouldn't count, but their second choice, if their second choice was not Marissa Kerns then it would have gone to Steve Lipscomb and you would have gotten over 50% of the Republican vote for a popular Republican candidate.

"But the way it is right now, we actually have only a plurality that goes against a plurality. So, our Democratic lieutenant governor also only got 31%, because that one was divided among six or so strong candidates. If the remainder of those candidates, if you don't count the lowest one and you just divided them up with a second ranked-choice, we may end up having had Jill Tokuda as our lieutenant governor.

"But we know when we go in to the general election, it would be the best possible Democrat candidate versus the best possible Republican candidate. And that doesn't necessarily mean that the people who ended up winning the primary wasn't the best possible candidate, but we don't know unless we had the ranked-choice voting. And as such, it is the most fair way to do it.

"And contrary to what was said earlier, I believe the League of Women Voters as well as the County Clerk was able to elucidate how ranked-choice voting works. And yes, there is going to be, as shown from the comments earlier, there is going to be a short lesson on it. But everyone, really every European country who has done it, they enjoy it and they can't see any other way of having voting. And it's about time, at least for our special elections, that we should attempt it. Thank you."

Representative McKelvey rose to speak in support of the measure, stating:

"In support, Mr. Speaker, and would like the words of the previous speaker in regards to the lieutenant governor's race entered into the Journal as if they were my own. Thank you," and the Chair "so ordered." (By reference only.)

Representative Ward rose to respond, stating:

"Mr. Speaker, second time, if I may. Mr. Speaker, the good Representative from Puna states her point very well, except incorrectly. The implication that some of us on this floor were not the ones that the people of Hawaii sort of chose from District 1 to District 51, I would take issue with.

"And when you're in a race, Mr. Speaker, some of us were in track, the one who crosses the line or the one first past the post wins. Since the Greeks, the Romans, and the Brits, and the Europeans, except for some recent sophistication with the Australians and others, the first past the post has been the standard in elections and democracies heretofore.

"If we want to get sophisticated, we've got to say, well look, you people who are out there voting for us, you're not educated enough, we've got to train you on this new system, we've got to pay another half a million dollars, is penny wise and pound foolish, Mr. Speaker. Why are we going to make more sophisticated what otherwise is simple?

"Lastly, Mr. Speaker, I would say Europe is not a model for democracy. America is the model, America is the gold standard for democracy, and whatever they're doing in Europe or Venezuela or all these other places that have very sophisticated voting is, I think, playing with folly. Thank you."

Mr. Speaker, if the members could refer to the Hawaii Sea Level Rise Vulnerability and Adaptation Report, and just note that global sea level rise will occur at 3.2 feet, and they're saying, now. So, this doesn't mean in decades henceforth, but now. And as we keep giving sea wall and revetment easements, even though they're revocable easements, we're letting people continue to harden the shoreline, and that's not the way to deal with sea level rise. Thank you."

"Thank you, Mr. Speaker. Standing in opposition for 1563 and 1564 with a brief comment. We have a need to manage our shorelines, and care and thoughtfulness given to our ag lands with carefully crafted policy to address impacts of sea level rise and not making patchwork decisions on individual private properties benefitting individual investors or residents possibly to the detriment of our public resources.

"In 1980, the Senate in Hawaii passed a bill that the governor cannot only make comments and permissions to alter shoreline, and said that the Legislature also must weigh in on that. So, I just want to reiterate that we really need cogent and specific sea level rise policy statewide, and discourage the single reactionary-type measures for individuals. *Mahalo.*"

"Thank you, Mr. Speaker. I'd like to cast a no vote on this and just have a few comments. Mr. Speaker, this measure, Senate Bill 1190, is going to allow HHFDC to enter into 99-year leases on residential property. Richard Port came to the hearing, it was really good to see him again, and I can remember back to the years that he was so active in fighting for lessees' rights during the Bishop Estate period and I think some of us were in the building at that time. He was arguing vehemently against allowing 99-year leases.

"And when you stop to think of that, no one in this building is going to be here in 99 years. But the subsequent generations of the lessees will be here saying, wait a minute, my great grandfather, my grandmother, my parents, and now me have been leasing this property, don't take it away from us, it should be ours, we've had it for 99 years. And I've seen those kinds of things happen in this building.

"So, what we're actually doing in 99 years, we're granting the fee simple interest in state land. I don't think that's a good idea, I don't think it's a good policy, and I would wish that members would rethink that. And I know the objective is to get housing out there. Mr. Port said, do that, but rent it, rent it and don't do it with a lease for 99 years. Three-year lease, fine, it can be renewed, five-year lease even. But 99 years, don't kid yourself, you're granting the fee interest. Thank you."

And for those who are thinking about cutting back on what we should be subsidizing or giving an incentive for, making movies and TV shows in Hawaii. The numbers are very clear that for every \$1 that we give in tax credits, we get \$4 back in terms of priming of the economy. I mean, that's not bad. One dollar gets you four.

"The second thing is that I think we have an unrealized potential by thinking that tax credits may or may not be beneficial. Mr. Speaker, we have the potential to be the Hollywood of the Pacific. Repeat, the Hollywood of the Pacific. We have a phenomenal environment, phenomenal people who are running this business, and phenomenal wages that the employees get. It's really an unrealized growth industry of which, if there's anything, Mr. Speaker, that's lacking in this 2019 session, it's economic development and pushing economic issues. We've got all the other issues, but we haven't done the economic ones.

"So, because of that I have reservations in that the cap should go up and the cap should not go down, and I'm afraid because it's blank, that it may go down. For those reasons, Mr. Speaker, I stay with reservations. Thank you."

Representative McKelvey rose to speak in support of the measure, stating:

"I'm going to cast a no vote on this and just brief comments, Mr. Speaker. I'm fully supportive of mental health for children, but I would like to see the tone of this changed in the case that, instead of the parents being excluded from the process, that they were more part of a holistic solution. Unless the parent is the problem. So if the parent is the problem and the student goes for counseling, I understand why you wouldn't want to inform the parent.

"But barring that, I think the parents, particularly 14-year-olds, have this right now to make a decision not to inform their parents on this very important life decision when most of the times they don't even make their bed in the morning. So, I would like to see the parents more involved in this, instead of excluding them, then to the arms of councilors who we just don't know who they are. So, I think it's a parental rights issue. Representative Cabanilla Arakawa rose to speak in support of the measure with reservations, stating:

"With reservations, Mr. Speaker, and I would like to make a comment. I think we have a lot bills on this session about e-cig, and I'm in support with some of them. This one I support that it should not be sold to minors. However, the huge success of vaping around the world alone shows that vaping is a better alternative to combustion cigarettes. And by banning the most appealing aspect of vaping could discourage the adults that truly need it to quit combustion cigarettes. So, it's like removing the fact of tobacco, while we're still doing the cigarette, the nicotine. But, two minus one is one, and one is better than two. So, by banning the flavor of the cigarette is equal to burning down the barn just to kill the mice. Thank you, Mr. Speaker."

Representative D. Kobayashi rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative McDermott rose to speak in opposition to the measure, stating:

"No vote, Mr. Speaker, and just a brief comment. I hate to rely on anecdotal data, but I know people who have quit smoking natural cigarettes, getting rid of the tar and those other things, and gone to vaping, and they

actually like some of these flavors, pineapple and other things. It's already illegal for kids to get. I mean, the law is the law, they can't get it, they're not supposed to vape, they're not supposed to smoke. They're getting it. Taking the flavor away is only going to penalize adults. So, thank you, sir."

Representative Gates's written remarks are as follows:

"While I support the intent of this bill, I foresee potential issues if this legislation were to pass. The possible creation of a black market for flavored e-liquid and the potential loss of work for hundreds of individuals are some of these potential issues. For these reasons I must support with reservations. Having flavored vape regulated is the only way that we can assure the quality and safety of the product. If flavored vape became a product sold on a black market, the health risk to those who would indulge in this illegal vape would be immense."

Representative San Buenaventura rose to speak in support of the measure with reservations, stating:

Representative Lee rose to speak in support of the measure, stating:

"Thank you, in support. I just note that I got a call from one of the principals at one of the schools in my district the other day and asked for some action on this issue. Because ultimately what they found was about 1/3 of the student at their school were regularly vaping, and it's an elementary school in Waimanalo. And what they found was, because of the nature of the flavors of these sorts of items, they're basically being bartered and traded like you would baseball cards or Pogs or anything in the past. And the challenge is, because of that, there's sort of a universal adoption amongst all cliques, amongst age groups, amongst whether you're a cool kid or not or whatever it is, it's ubiquitous.

"And the challenge is for every person, and I respect the fact that, I think some of our colleagues have mentioned, vaping does offer an alternative to traditional cigarettes. But for every adult who switches out, we're enabling dozens of kids to become hooked. And that is the challenge here. So, this measure provides one means to limit that adoption, especially amongst our youth, which we're seeing at schools around the state. I think that's something that's worth discussing. Thank you, Mr. Speaker."

Representative Wildberger rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. The statistics show that very small percentage of vapers are actually adults, and most are school-aged children. *Mahalo.*"

Representative Takumi rose to speak in support of the measure, stating:

"Mr. Speaker, in support. In response to the colleague who mentioned about these are adults buying these products and children should not get ahold of it, that's a well taken approach, but keep in mind that the FDA banned flavored tobacco, flavored cigarettes back in 2007. Adults were purchasing chocolate camels or whatever the case may be, and the only exception was for menthol cigarettes. Thank you."

"There's another bail reform bill toward the end of the agenda that is based on the group that has been working on bail reform. So, if we postpone action on this one, that was opposed by victims' advocates, there will be bail reform that can go forward anyway. Thank you. But not this one. Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, no vote with a brief comment. Mr. Speaker, this is a bill that keeps kind of coming back in that it's for midwives. And like many of the things that we pass in this building, the data is so, so lacking. That we want to license midwives, but in terms of the data that says this is dangerous and people are injured and there's infant mortality rates that are exceptional. Mr. Speaker, none of that stuff exists. But there's a whole body of citizens out there that look with expectations that we're not going to put them out of business.

"And Mr. Speaker, because there are so many different amendments that came, and I know the chairs have done their best job to stick in a task force. But I was quoted having said that there was a drop-dead issue in here, and it was misinterpreted to mean that when you have a sunset, that it drops dead. But unless I'm mistaken, there's something in here that says, if you are a midwife now and don't go through this bill in three years, you're out of business. Mr. Speaker, I think that's going to create chaos in the community. And there's a huge community out there that does midwifery.

"For those reasons, Mr. Speaker, I think we have to listen more closely and obviously keep public health in mind. But until there's data that says that this is an endangerment, why are we bothering these people continually and upsetting what otherwise is an equilibrium which from the very beginning of birthing, from the old testament when Hebrew women gave birth so quickly that the pharaoh couldn't even catch up with them. So, I think the practice is long established, and we should let it alone, unless we have data that says otherwise. For those reasons, I'm a no. Thank you."

Representative Perruso rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Tokioka rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Wildberger rose to speak in opposition to the measure, stating:

"Standing in opposition please, Mr. Speaker. I keep asking questions about this bill, and now having read the committee report that came out, the bill references that a person may practice midwifery without a license to practice if the person is acting as a birth attendant on or before July 2023. That's in the bill, which makes it sound like if you've been practicing, then you continue to do so.

"However, in the committee report, it specifically says in item number four, 'adding provisions allowing for the continued practice of birth attendants who are not midwives through July 1, 2023.' So, anyone who is not a midwife, who does not have a license, will not be allowed to continue to practice, according to the committee report, in 2023, in spite of the very front of the committee report saying the purpose of this measure is to exempt traditional midwives from licensure requirements.

"So, there's too many contradictions with this information. And with the Midwives Alliance of North America, one of the 2,000 pages of opposition testimony submitted to the committee, 'in principle, MANA supports state licensure for midwives, and would be writing a letter of support for the SB 1033 if it were a well-crafted bill. We are, however, writing in opposition to the legislation as proposed due to multiple flaws which will create undue restrictions on the right to use the title "midwife" and will have the potential to single out traditional and Indigenous midwives as inadequate and undereducated care providers, ultimately creating inequities for childbearing people in Hawaii.'

"I ask my colleagues to remember our rural communities don't have access to care, and I think that our nation is built on concepts of freedom of choice. Thank you."

Representative Cabanilla Arakawa rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I'm also in opposition of this bill because I have the same concern with the previous speaker. I was reading the bill and I was totally lost on what it was trying to do. Thank you."

Representative Matayoshi rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Har rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative DeCoite rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative San Buenaventura rose to speak in support of the measure with reservations, stating:

"With reservations. I'd like to note that there were many discussions regarding this bill. And my reservations, and with still a support for it, is based on the fact that the chairs did a fine line to still allow for licensed midwives but allow for the non-licensed midwives to continue to practice as birth attendants. And so long as they do not advertise themselves as licensed midwives, they can continue to do so.

"So, really what we did was, my understanding is we crafted, we allowed midwives who are practicing midwifery now to just get a license and be allowed to then advertise themselves as licensed midwives. But birth attendants, they can still do so, so long as they don't advertise themselves as licensed midwives. It's a fine line, but it allows for people to continue to practice, and traditional customary practices shall continue. That's my understanding, that's why I vote with it, but I also understand the concerns of my community that they be allowed to do that, and that's the only reason I have some reservations."

Representative Todd rose to speak in support of the measure, stating:

"In support. Just wanted to note that you can't get paid to cut hair in our state without being licensed. Thank you."

Representative B. Kobayashi rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, in support with very slight reservations. It was my understanding that there would be a distinction between the term 'midwife' and 'licensed midwife' or 'certified midwife.' Under this bill, the title of 'midwife' would not be allowed beginning July 1, 2020. And so, I think that the while the bill as a whole is much better than prior versions, I think that that one small flaw should be pointed out.

"The other thing is that what was added to the bill, which was good, was that there was an exemption for administering care to one's spouse, domestic partner, parent, sibling, or child. I think that those categories could perhaps be enlarged a bit. Thank you."

Representative Nakamura rose to speak in support of the measure, stating:

"In support. I wanted to ask that the words of the Chair from Puna be used as my own. I also wanted to thank the Representative from Aliamanu who helped to craft this bill. What it does, it bifurcates this process. So, there's one process for certified and professional midwives and then there's a second process to be determined. And I want to really acknowledge the Commission on the Status of Women who have stepped up to say that they will help to facilitate that discussion, that everyone says has not taken place, and to develop a process for birth mothers, cultural practitioners, and others who have tremendous value in our communities. So, in support," and the Chair "so ordered." (By reference only.)

ANNOUNCEMENTS

Representative Ward: "Mr. Speaker, tomorrow is a holiday. It's Kuhio Day. It's Prince Jonah Kuhio Kalaniana'ole Day. The prince was born on March 26, actually 148 years ago. And to get a day off and have it named after you, you have to do certain distinguishable things. Sometimes we think of Kuhio Day as a parade or *paniolo* and other lookalikes of royalty, but I would hope that this body would think of the great things that Prince Kuhio did, one of which was to expand Pearl Harbor, and secondly, and all of you know, what's going on in Hawaii Homes Commission.

"He was the progenitor in Congress in 1920 when the Hawaiian Homes Commission Act, under his leadership, passed through much argument. And if anyone ever reads the committee reports from those days, Mr. Speaker, you'd see he was a perfect gentleman. Had a sense of humor and a quick wit as much as our Speaker does and has. He was just superb.

"But the thing that I mention in his founding of the Department of Hawaiian Homes is that after almost 100 years, Mr. Speaker, it's now 203,000 acres with only 9,700 homesteaders and 27,000 on the waitlist. So, as we have a day off, we kick back, let's remember Hawaiian homes and those 27,000 who are on the wait list. Thank you, Mr. Speaker."

Representative Takayama: "Mr. Speaker, I just wanted to announce that starting today my office will be collecting gently used women's professional clothes on behalf of the YWCA on Richards Street, starting today and for the next two weeks. This clothing goes to women who are starting new professional lives. Many of them are former offenders who are turning their lives around. So, they very much appreciate the donation of gently used women's professional clothing that they can put to use in their professional careers. So, very much appreciate any donations you can put together, and be assured they'll be put to good use. Thank you."

UNFINISHED BUSINESS

Conf. Com. Rep. No. 1 and H.B. No. 2, HD 1, SD 1, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 2, HD 1, SD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Luke rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'm standing in support of House Bill 2, the budget bill. First of all, I wanted to just thank the members of the House and the members of the Senate. This is an unusual monumental step where we are passing the budget a month ahead of schedule. And when we were contemplating why we would be passing the budget so early, we had extensive discussion with the Chair of WAM and the Senate. And one of the things that we reflected upon on what to do this year is what happened at the end of session last year.

"At the end of session last year, we were struck with disasters on Kauai, on the day that we finished session we had disasters that occurred on the Big Island, and I think the Big Island and Kauai and East Honolulu are still suffering the effects of some of the disasters. But at the same time, we had tremendous successes in some of the bills that passed, including the large

homeless initiative, which included about \$50 million in funding, in Ohana Zone funding, potentially \$200 million for Rental Housing Trust Fund, a significant GE exemption for the middle income affordable housing. And one of the things that I think many of the members felt, including the money chairs, was that at the end of session, because we were busy with the budget, we did not give a lot of those worthy programs the attention and due diligence that they deserve.

"And so, when we took a look at, okay what are we doing, how should we have systematic changes within the legislative process that will help have more fulfilling discussion in one of these subject matters was because of the delay in budget. And a lot of times in the past, as the veteran members will know, there were years where the budget would be decked the Thursday or Friday before the decking deadline and there would be a scramble and cattle call at the end of session where 200 bills would be in suspense until the budget bill is done. And when you look at that process, it's confusing for the public, it's confusing for the Legislature, and it's not a very transparent process.

"So, we had a discussion with WAM about whether the right thing to do is finish the budget early and allow a lot of the different major items to continue in the regular process and, I have to say, what Mr. Shawn Nakama of LRB found is very interesting. Because he looked at some legislative history from 1950, and according to the records of the constitutional convention in 1950, the taxation committee had a discussion about this very subject and it said, 'the passage of the General Appropriations Bill in the early period of the legislature is desirable in order to prevent the confusion...of passing the governor's budget in the dying moments of the legislative session.'

"So, 60 years ago, or even 70 years ago, they had a vision that the way that we have been doing all along is not the right way to do it, the way we should be doing it is lay the budget to rest early and then let's deal with all the bills and all the priorities of the Legislature, because then we and the Legislature and the executive can work together on other priority items.

"So, we are very thankful to the members of the House for allowing this change. I know the change was very hard and difficult, and I have so much respect for all the chairs, because the various chairs worked really hard to vet a lot of these budget items because we had to be working in concert with the Finance Committee, the various subject matter chairs, and the Governor's Office to get this done. So, my sincere appreciation for every member of the House for allowing this to happen."

Representative Ichiyama rose to yield her time, and the Chair "so ordered."

Representative Luke continued, stating:

"Thank you very much. My appreciation to especially Senator Donovan Dela Cruz and his staff for allowing this process.

"So, with that, I wanted to just highlight some of the things that we continue to have to work on. So, one of the things that is not in this budget is some of the homeless programs. So, one of the things that I know the Chair of Human Services & Homelessness has committed to is continuing to work with the homeless coordinator to come out with an appropriation item that will continue to address the homeless needs.

"We also have the ADC audit bill and the budget of ADC, and the Chair of Agriculture will continue to work on that. The Energy Office will be worked on, HSDC, HTDC will also be worked on. We have tons of important issues and items that we need to continue to work on, but this passage of the budget should never be an excuse for the impediment and for the reason why other bills cannot pass. So, we are very thankful that we can move this out of the way so that we can continue to do the important people's business.

"The other thing that was driving the budget discussion to end early is because of what was going on on the Big Island. The Big Island, and much *mahalo* to the Big Island Representative and the Senators, and they have heard a lot of the struggles that's going on, they are continuing to feel a lot

of the pain and they are going to need a substantial amount of time and resources to redevelop and regrow from what had happened.

"We are happy to announce that as soon as this budget is done, the Senate is planning to move to agree and pass out the disaster relief bill that the House has passed on. So, hopefully that will land with the Governor's Office. What is going on in the Big Island is they are fronting a lot of the funds to continue their daily funding, but at some point in time, we understand in the next several months, they are going to be short of funds. So, this is important for us to pass as one of the first ones that we need to take care of after the budget is done. So, that was one of the other reasons why we sped up the budget.

"So, we just wanted to thank all the members for allowing this change and this change off process, and we will be continuing to work with the various chairs and various members, and we are hopeful that this will lead to a better and transparent and more efficient and productive session for the rest of the weeks. So, thank you very much, Mr. Speaker."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations. Mr. Speaker, I think the speech was very convincing by the Finance Chair. But to some of us who are not on the inside baseball version of it, it's counterintuitive, Mr. Speaker. There should be a correlation between time and understanding of the budget. So, when we say we rushed it to understand it better, that's counterintuitive, and I think it's difficult.

"The other reasons why I have reservations is because there's something in the budget which I've argued, and I've given an amendment here earlier, regarding the Department of Hawaiian Homes. It's still not up to the former budget by the Governor unless there are Christmas trees that are out there, meaning all the appropriation bills. Until we see all of that, given this base budget, how do we know what's even in the budget because we don't know appropriation bills are going to pass.

"So, Mr. Speaker, my reservations are that we are voting this probably with one eye open and one eye closed, and if we wanted to be transparent, we should probably have a little more time to see the whole picture rather than we got this base budget and then we got all the Christmas tree appropriation budgets. For those reasons, Mr. Speaker, until I see it clearly, I will have with reservations. Thank you."

Representative Okimoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Cullen rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Cullen's written remarks are as follows:

"Mr. Speaker, I rise in strong support on House Bill 2, HD1, SD1, CD1, Relating to the State Budget.

"I would first like to thank the House Chair of Finance, as well as the Senate Chair of Ways and Means, for working together and leading the Legislature towards a state budget that was done expeditiously. This zero-based/performance-based approach to the state budget allowed for more opportunity for discussion, as well as transparency to specific departments within the budget. This also allowed subject matter committee chairs the opportunity to provide more insight and transparency, through the state budget, to the public as it is vetted through its own subject matter.

"As the chair of the Legislative Management Committee, we were able to dig deeper into what was requested by the executive branch and what it would be used for as well as where it would go, as we were establishing the operating budget for the Office of the Governor within House Bill 1428 and House Bill 1429, before it was added back into House Bill 2. By doing so, we provided more transparency to the public and the opportunity to participate through testimony, as well as creating an environment that is more accountable to our taxpayers. As this budget exercise continues, it will provide the consistency in the practice that will have more fiscal

responsibility and work efficiency that will make us more responsive to our taxpayers.

"For these reasons, Mr. Speaker, I stand in full support of House Bill 2, HD1, SD1, CD1, Relating to the State Budget."

Representative Tokioka rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Har rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Kong rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support with just a brief comment. Mr. Speaker, I'd like to thank the Finance Committee and all of the chairs in helping to put this budget together because I think as we head into conference, this actually provides that transparency so that we know what other bills to move forward and what other priorities we have to make, the choices we have to make. So, in support, in strong support of this budget. Thank you, Mr. Speaker."

Representative San Buenaventura rose to speak in support of the measure, stating:

"In strong support. I would really like to thank the Finance Chair for taking into account the needs of the Big Island. We are in fact continuing to suffer and we are running out money. So, the fast pace of this budget process, we really need it. So, thank you so much. In strong support."

Representative Say rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, just with reservations, and I want to thank the Chair for clarifying the new process that we are going through in the formulation of our state biennium budget. Thank you."

Representative Luke rose to respond, stating:

"Thank you, Mr. Speaker. Just in support. Just to address the comment of the Minority Leader, the budget that we're passing today has exactly what the Governor has asked for in DHHL's budget, no more or no less. I think what he did not look at when he looked at the base budget is the provisos, so part of the amount that was allotted do DHHL, the entire amount of \$25 million was not going into DHHL, but a significant amount of that was going to pay for fringe benefits, so that would not be going to DHHL budget, and that was spelled out in the Governor's budget. So, this is fulfilling the exact intent of the Governor's budget. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE BUDGET," passed Final Reading by a vote of 47 ayes, with Representatives Har, Kong, Okimoto, Say, Tokioka and Ward voting aye with reservations, and with Representatives Creagan, DeCoite, Holt and McKelvey being excused.

Representative McDermott rose to speak in opposition to the measure, stating:

"1902, I stand in opposition. Just brief comments. I'm surprised that we are doing this, this body, this building, I see it didn't originate in the House, but considering that President Obama, this is his home state, he was born here, *keiki o ka 'āina*, graduate of Punahou High School. He had to endure, within 12 states, challenges to his veracity as a candidate from frivolous lawsuits and last-minute legislation that was passed that would say, you have to produce a birth certificate. He hired 11 law firms, spent almost \$1 million, and won every time because, I'm not an attorney, but it's tough, the states can't put regulations on federal requirements to run for office. And that's why he prevailed every time.

"So, I'm surprised that we would do this to another candidate after what our own beloved President Obama had to go through, not once but twice. And I think what we'll find out, Mr. Speaker, is, if this actually comes to

fruition, that the President has a lot more money than you and I, but not as much as he tells everyone, and I think that's what's going to come out of this.

"But, I think it's a waste of our time to do this. And again, particularly what our own President went through from these lawsuits from people in the south to produce a birth certificate, he challenged it on a matter of principle, obviously, he didn't think it was appropriate. I remember asking Congressman Case in the hallway one day, I said Ed, why doesn't he just give them the birth certificate, why is he fighting this? Because I would hand it over, right?"

"So, the tax returns, there's already a mountain of financial data available in the federal financial status documents that they have to require. I think much more than you would glean from a tax return. So, I think the tax return is just a naked political issue, certainly not within the spirit of what we've been, the work we've been doing together this year. And on that, I'll end, sir. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. A no vote with a comment, please. Mr. Speaker, to add what my colleague has just noted, I want to cite what the Attorney General has said about this bill. Having the president and the vice president require to put tax returns, according to the Attorney General, is outside of what is otherwise the eligibility to become president or to be eligible to run for president is clearly stated, that no person except a natural born citizen or a citizen of the United States at the time of the adoption of the Constitution shall be eligible to the Office of President, neither shall any person be eligible to that office unless they've stayed 14 years in the nation, and *et cetera*. The point is, the AG is saying, hey, this goes above and beyond that, and this is the state telling the federal level what you can or must do to be a candidate.

"At the same time, it tells the electoral college or the electors of the State of Hawaii that they must not vote for anybody who hasn't given their tax returns. The U.S. Supreme Court has ruled on this in *Powell v McCormack* in 1969, the U.S. Supreme Court said that Congress is limited to the standing qualifications prescribed in the Constitution. The Supreme Court has said then that the states may not impose qualifications for United States Congress in addition to those set forth in the Constitution.

"So, the AG is saying, hey, you want to lawyer up on this when it looks like it's going to be challenged. And Mr. Speaker, I would say to you and our colleagues here, this could be a very costly vote. Remember when some of us on this side of the aisle spoke against if you're a pregnancy center and you are forced by law to put or advertise an abortion sign in your clinic. We just voted on this body for \$60,000 to pay what otherwise was something that was unconstitutional. Mr. Speaker, I think this is bumping up against the same waste of taxpayers' money. And also, it's a single referral, so how much discussion has really gone into this? This is rather surprising.

"And lastly, I'd say that in 48 hours, this could be the statement that Hawaii again pokes its fingers into the eyes of the Federal Government, of which \$700 million for a rail that a lot of people in this body are anticipating, because without it we're going to be in more kimchee than we already are. So, Mr. Speaker, I end with a question. How much more do we want our taxpayers to pay for votes on this floor that are unconstitutional? Thank you."

Representative Okimoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Matsumoto rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Thielen rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. No vote and just a few brief comments. We could have done the pregnancy center better with the language that I said, not being a mandatory requirement, and that would have saved taxpayers \$67,000. I don't see going ahead with this. It's a foolish bill, it's an absolutely foolish bill. It's not going to take effect, and all it's going to do is, I think,

make us a laughing stock nationally, and I don't like to see that happen. Thank you."

Representative DeCoite rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"In opposition. I am opposed to this bill because I understand that it may be unconstitutional. States cannot add requirements to the qualifications for the office of president and vice president because they are laid out in the Constitution. We also cannot change the qualifications for our congressional delegations because they also are laid out in the Constitution. If Hawaii and other states were to change these qualifications, then we could see a range of different qualifications for these offices. I don't believe we want this to happen. *Mahalo*."

Representative Say rose to speak in opposition to the measure, stating:

"Mr. Speaker, a no vote also, to be consistent with my vote in the Judiciary Committee."

Representative Tokioka rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Kong rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Har rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Har's written remarks are as follows:

"Mr. Speaker, I rise in opposition to Stand. Com. Re. No. 1902, SB 94, SD1, Relating to Elections. This measure is unconstitutional because it intends to amend the qualifications clause of article II, section 1, clause 5 of the United States Constitution and the 12th Amendment, which encompasses the qualifications of the president in the former and both the president and vice president in the latter. Individual states cannot add qualifications, as the Constitution is a uniform body of law in which every state must abide by. The addition of qualifications would essentially contradict the Constitution's purpose.

"For these reasons, Mr. Speaker, I stand in opposition on SCR 1902, SB 94, SD1."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 94, SD 1, entitled: "A BILL FOR AN ACT RELATING TO ELECTIONS," passed Second Reading and was placed on the calendar for Third Reading, with Representatives Kong and Okimoto voting aye with reservations, with Representatives DeCoite, Har, Matsumoto, McDermott, Say, Thielen, Tokioka and Ward voting no, and with Representatives Cabanilla Arakawa and Lee being excused.

Representative Lee, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 1903) recommending that S.B. No. 464, SD 2 pass Second Reading and be placed on the calendar for Third Reading.

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and S.B. No. 464, SD 2, entitled: "A BILL FOR AN ACT RELATING TO PRIVATE PROPERTY," passed Second Reading and was placed on the calendar for Third Reading, with Representatives Cabanilla Arakawa and Lee being excused.

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and S.B. No. 558, entitled: "A BILL FOR AN ACT RELATING TO NAMES,"

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 325, SD 1 pass Second Reading and be placed on the calendar for Third Reading, seconded by Representative Morikawa.

Representative Okimoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 325, SD 1, entitled: "A BILL FOR AN ACT RELATING TO PARENTAGE," passed Second Reading and was placed on the calendar for Third Reading, with Representative Okimoto voting aye with reservations, and with Representatives Cabanilla Arakawa and Lee being excused.

Representative Lee, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 1906) recommending that S.B. No. 92, SD 1, as amended in HD 1, pass Second Reading and be placed on the calendar for Third Reading.

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, strong support, comments to the Journal, please."

Representative Ward's written remarks are as follows:

"Thank you, Mr. Speaker. Hawaii Kai experienced the first pedestrian death of 2019 because the City & County mistakenly removed a crosswalk that wasn't supposed to be removed. Our neighborhood board requested that it be reinstated but we were given the run around because an EIS was to be conducted first. After I saw the news of a pedestrian death, I wrote a letter

to Mayor Caldwell, and lo and behold, the mistakenly removed crosswalk is now reinstated. My point is, Mr. Speaker, with Hawaii having the most pedestrian deaths in the nation, it is essential that we do all we can to prevent pedestrian accidents. For these reasons, I stand in full support."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 98, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CROSSWALK SAFETY," passed Third Reading by a vote of 48 ayes, with Representatives McKelvey, Saiki and Todd being excused.

At 12:24 o'clock p.m., the Chair noted that the following bills passed Third Reading:

S.B. No. 693, SD 2, HD 1
S.B. No. 98, HD 1
S.B. No. 1525, SD 1, HD 1

Representative Lee, for the Committee on Judiciary, presented two reports:

(Stand. Com. Rep. No. 1926) recommending that H.C.R. No. 89 be adopted.

Representative Matsumoto rose and asked that the Clerk record a no vote for her on both measures, and the Chair "so ordered."

Representative Matayoshi rose to speak in opposition to both measures, stating:

"In opposition, brief comment. Mr. Speaker, I am not in opposition to the banking services or necessarily changing the schedule for cannabis within the Controlled Substances Act itself, though this resolution seeks to encourage the full removal of cannabis from the Controlled Substances Act, and that's why, I just believe that it really belongs there. It's one more step towards possible legalization, I believe. Thank you."

Representative Okimoto rose and asked that the Clerk record a no vote for her on both measures, and the Chair "so ordered."

Representative Eli rose and asked that the Clerk record a no vote for her on both measures, and the Chair "so ordered."

Representative DeCoite rose and asked that the Clerk record a no vote for her on both measures, and the Chair "so ordered."

Representative Har rose and asked that the Clerk record a no vote for her on both measures, and the Chair "so ordered."

Representative Kitagawa rose and asked that the Clerk record an aye vote with reservations for her on both measures, and the Chair "so ordered."

Representative Thielen rose to speak in support of both measures, stating:

"Thank you, Mr. Speaker. A strong yes vote, Mr. Speaker, and a few remarks. I met with the lead counsel of one of our major banks today. And the banks are, I believe in all of the states that have medical cannabis laws, are dealing with how do they work with financing or accepting deposits from the medical cannabis sector. We have a law, and it's a good law with a lot of protections in place, but without removing cannabis from the Controlled Substances Act, we're going to continue to have difficulties and problems with our cannabis program.

"I know when the medical cannabis started in Colorado, the shops were driving with bags full of money to pay their taxes, and of course the state government and their employees weren't prepared to deal with all of this cash coming across the counter. It was crazy.

"We have a law in place, I think it's about 32 other states maybe now that have medical cannabis laws in place, and this is just the commonsense step to take.

"I wish that we were within the Federal Government to make a bill to be signed into law back there because that would take it right out, but all we can do at this point, as a state legislature, is send a resolution saying, common sense says remove cannabis from the Controlled Substances Act. Thank you."

Representative Ward rose to speak in opposition to both measures, stating:

"Mr. Speaker, in opposition. And a brief comment, because common sense says, controlled substances is controlled because it's a substance endangering of the nation. I think what we have here is a federal law that we are challenging as a state. Federal law trumps state law. Probably a pun intended, because as long as there's a president and a Republican Senate, any of this is going to be just pushed aside and probably not paid much attention to. And that's probably why I appreciate the good Chair of Judiciary pulling back some of the other stuff that pokes the federal, or at least the administration, in the eye. And as long we have \$700 million pending, hopefully we will mind our comments.

"But to the bill itself, Mr. Speaker, we have used medical marijuana as the proverbial nose of the camel into the tent. Again, I quote our good colleague Marcus Oshiro, former Representative from Wahiaawa, who said, after medical cannabis, three to five years you're going to get decrim, and then decrim you're going to get recreational. So, a lot of this stuff that we're playing around on the fringes is really to make us a narcotic field state immunizing our young people with ambitions and freezing the brains of those young people who are going to be doing a lot of marijuana and the synopsis in their brains are not going to even connect. Oh, you sound like you're too conservative. Well, those are the medical realities, Mr. Speaker. You don't get a vibrant society of people who sit back and just float around. And I know I was cut back on this speech when I made it before, because everybody in this building probably has tried marijuana at some time, and it doesn't breed ambition. Now, if someone wants to strike this out of the thing, let it be done, but it's the reality, because you can get marijuana anywhere, anytime, at anyplace.

"The point is, Mr. Speaker, we're trying to go up against the feds with something that is impossible to do, is unconstitutional to do, and for the betterment of society, is not the best thing to do. For those reasons, Mr. Speaker, I'm a no. Thank you."

Representative Tokioka rose and asked that the Clerk record a no vote for him on both measures, and the Chair "so ordered."

Representative Wildberger rose to speak in support of both measures, stating:

"Thank you, Mr. Speaker. Strong support for both measures. I'd like the words from my colleague from Kailua entered into Journal as my own. Thank you," and the Chair "so ordered." (By reference only.)

Representative Kong rose and asked that the Clerk record a no vote for him on both measures, and the Chair "so ordered."

Representative Cachola rose and asked that the Clerk record a no vote for him on both measures, and the Chair "so ordered."

Representative San Buenaventura rose to speak in support of both measures, stating:

"In strong support. I'd like to echo the Representative from Kailua's comments. As the speaker notes, I've been involved in helping out and shepherding our medical marijuana dispensary program and being involved in the interim of trying to get banking so that we don't have to have bags of money and cash, which then increases the potential for crime, in our dispensary systems. It is because we don't have the full spectrum banking that this kind of resolution is needed.

"And I just want to make our colleagues well aware that the states are able to ban the substances themselves. The fact that we're asking the Federal Government to take into account the legalization and decriminalization in other states and to allow for full spectrum banking is the reason for this resolution. And for those reasons, I stand in strong support. Thank you."

Representative Thielen rose to respond, stating:

"Thank you, Mr. Speaker, second time, I know. I don't like using the m-word because it's a racist term from out of the 1930s filled with hatred toward Mexicans, it's not scientific. This is cannabis. Mr. Speaker, this is a plant that helps those children with Dravet syndrome, the epileptic fits that are so devastating. It's such a beneficial plant that families actually moved to Colorado, to Colorado Springs. They have quite an enclave of families that went there because their children had the epileptic seizures, and that was the only place they could get cannabis legally at the time to cure them.

"In the military, those veterans now that are suffering from PTSD, we know that many of them are looking toward cannabis and getting help from that. We have a good medical program. What we don't have is what this resolution does. We don't have the banking industry in place too. So, it's kind of a fragile program without the basis that it needs to work within our community. Mr. Speaker, it's time that people stop being afraid of a plant that has done so much good for so many people. And it's certainly is time, Mr. Speaker, that we stop using racist language in this building. Thank you."

Representative Matayoshi rose to respond, stating:

"Thank you, Mr. Speaker, I wanted to clarify that my no vote is for HR 86 and HCR 89. And I also wanted to clarify that I do sympathize with the banking industry. It's a very difficult situation that people are put in because they can't deposit there, the money collected at banks. But again, my opposition is solely for removing cannabis completely from the federal Controlled Substances Act. There are many other prescription drugs on this act, such as codeine. If this resolution was moving or changing the schedule of cannabis, I think I would probably be in favor of it, but because it's removing it completely as a controlled substance, that's why I'm in opposition to this. Thank you."

Representative Belatti rose, stating:

"Mr. Speaker, rising on a point of personal privilege. Mr. Speaker, I'm not going to request that any members comments be stricken, I think the debate here is very good, but I would just like to remind the body that according to House Rule 27.3, a question concerning conduct of members should not be presented by way of debate on other matters. Allusions to, or critical reference to members and their conduct are not in good order. Such attacks are not conducive to the good order of the House. Thank you, Mr. Speaker."

At 12:35 o'clock p.m., Representative Thielen requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:35 o'clock p.m.

Representative Say rose to speak in opposition to both measures, stating:

"Mr. Speaker, a strong no for both Stand. Com. Rep. 1925 and 1926. A no vote."

The motion was put to vote by the Chair and carried, and the reports of the Committees were adopted and H.R. No. 86, entitled: "HOUSE RESOLUTION REQUESTING THE UNITED STATES CONGRESS TO ENACT LEGISLATION REMOVING CANNABIS FROM THE FEDERAL CONTROLLED SUBSTANCES ACT AND FACILITATE THE FULL SPECTRUM OF PRIVATE BANKING SERVICES FOR CANNABIS-RELATED BUSINESS," was adopted, with Representative Kitagawa voting aye with reservations, with Representatives Cachola, DeCoite, Eli, Har, Kong, Matayoshi, Matsumoto, Okimoto, Say, Tokioka and Ward voting no, and with Representatives Holt, McKelvey, Quinlan, Saiki and Todd being excused; and

No. 89, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE UNITED STATES CONGRESS TO ENACT LEGISLATION REMOVING CANNABIS FROM THE FEDERAL CONTROLLED SUBSTANCES ACT AND FACILITATE THE FULL SPECTRUM OF PRIVATE BANKING SERVICES FOR CANNABIS-RELATED BUSINESS," was adopted, with Representative Kitagawa voting aye with reservations, with Representatives Cachola, DeCoite, Eli, Har, Kong, Matayoshi, Matsumoto, Okimoto, Say, Tokioka and Ward voting no, and with Representatives Holt, McKelvey, Quinlan, Saiki and Todd being excused.

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 1343, SD 1, HD 1 pass Second Reading and be placed on the calendar for Third Reading, seconded by Representative Morikawa.

Representative Thielen rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. Mr. Speaker, I'm casting a no vote and I'd like to explain why. Mr. Speaker, this is a bill related to Selective Service, or in other words, signing up for the draft. And we know under existing federal law, Mr. Speaker, that if a young male, only males, if a young male does not sign up between the ages of 18 and 26, then he will not be eligible for certain federal benefits.

"What this bill does is expands that restriction to all of our state rights. It means that if a young male does not sign up for Selective Services, he won't be able to get financial aid in a state college or community college. I'm not sure if he even will be able to attend that college. He won't be able to be employed by state government. Now what does that mean?

"Thirty percent of the young males in our state don't sign up for Selective Service. I'm not sure if some of those are based on maybe conscientious objector status or other status, or maybe they just don't know they have to do it. That 30%, in the event they would want to run for office, would not be eligible to be in this building. That's a pretty big segment of our young males that we would be disenfranchising, because we are working for the state as legislators.

"So, the bill is incredibly restrictive, and I think that it's very unnecessary. I'd like to have members take a harder look at that, the provision in there about being a state employee, that you're prohibited from that if you don't sign up for the Selective Service. And the day you become 27, it's too late. You can't say, whoops, I didn't know about it, who didn't tell me, what's going on, I'm one of the 30% of the men in the State of Hawaii, but I want to run for office, I want to be a legislator. Or, I don't believe in signing up for Selective Service and I want to have my voice be heard because I know there are others that feel like I do. They won't be allowed to, under this bill.

"So, I think it's wrong policy for us. The feds already have it in place, let them do it. Over half of the states do not do this, and we don't need to jump in there and restrict our young males' rights.

"The other thing is, today is Equal Pay Day, you wonder why the pink hats, but that's because of Equal Pay Day. There is a lawsuit underway, two lawsuits, I was told, where on the basis of equal protection that women are suing to be able to be part under the Selective Service Act, and I don't know whether those are going to be decided while we're still in session. But I think it's very bad policy, and I hope the bill does not come out for Third Reading. Thank you."

Representative Perruso rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. Voting in opposition, and I just wanted to note that the Hawaii Civil Rights Commission, Hawaii State Commission on the Status of Women, Hawaii Friends of Civil Rights, Americans for Democratic Action, Ka Lahui Hawaii Political Action Committee, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and the American Civil Liberties Union Hawaii have all testified in opposition. So, please note that for the record. Thank you."

Representative Ward rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support, Mr. Speaker. Maybe I'm biased, but I was a draftee for the Selective Service. I'm a Vietnam veteran. When the nation needs to call upon its youth, I was taught, I thought maybe the good Representative from Kailua was saying it should be putting women

in there, not just men, it should be for both, being today is equal pay, it should be equal draft day.

"But the point is, Mr. Speaker, the 30% who are not signing up is probably the rationale why this bill is necessary. People have forgotten that there was a draft, and even though the Selective Service System has remained intact, it has not been active. And because 30% think they don't have to sign up, and by the way we used to call those 'draft dodgers' who didn't sign up or if they signed up and left the country. The point is, if you're going to be in a nation that's the strongest economically and politically, you've got to have a ready fighting force. Now that sounds very, very super patriotic, but it's a reality.

"Mr. Speaker, China's got a standing army of 2 or 3 million people, we've got one of a few hundred thousand. If we didn't have a Selective Service and suddenly something happened, without a mechanism of this sort, you're not going to get the people in the time that they're needed in. So, for an incentivization of those who are signing up or think that they as Americans deserve not to be serving into the country like many other countries, like Israel, the IDF, its mandatory, other places serve, even in Europe, one or two years as part of your national service. Or something like the Peace Corps, which I already served in.

"Mr. Speaker, the point is, this is a national issue, and we're trying to get the least, the people of Hawaii to be up to speed with other states that feel as patriotic as those who are the founding fathers of this nation. For those reasons, Mr. Speaker, it's a good bill. Thank you."

Representative McDermott rose to speak in opposition to the measure, stating:

"Mr. Speaker, I stand in opposition. I don't think we need to have women sign up for the draft. I wasn't going to speak, but the Representative from Kailua's defense of men was breathtaking and refreshing. I've never heard that from her before, so that brought a smile to my face. Now, the one thing with Equal Pay Day that I fear, which is going to come up, I know it's not relevant, but they break out that candy bar and snip it in half, I've got real problems with that. Thank you, Mr. Speaker."

Representative D. Kobayashi rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Lee rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I, for the record, agree absolutely with the comments of everybody who's spoken before me, which makes me kind of crazy, but I appreciate all of you guys because you bring up valid points and I agree with them all. And to the point raised by the Representative from Wahiawa, all the organizations which testified on this bill from the ACLU to, on and on, I agree with them all as well. But the reason that this bill moved forward and I felt it was worth a discussion as it came out of the Judiciary Committee is because right now we cannot change federal law, and federal law requires Selective Service registration for anyone before 26, as other folks have mentioned.

"The downside of not doing that is not only a prohibition on working in federal employment, which of course in Hawaii is a huge portion of the opportunity available to us, but also all federal contractors and a whole host of private organizations and others for whom people don't realize there's an impact. So, what's happening to a lot of folks out there as we grow up, find out you've passed your 26th birthday, you did not register, not because you had any particular intention to miss it, but because you just weren't aware. And all of a sudden, an entire host of opportunity has been stripped away from you as a result.

"We can do nothing about that here in the state. That is federal law. But what we can do is prepare people. Because ultimately, while I agree that many people have a conscientious objection to serving in the military or going off to war or killing someone else, that doesn't change whether you register for the Selective Service or not. As we all know, once enrolled into a branch of the military, while serving you can still conscientiously object to something put before you or an assignment given to you. It happens all the time.

"What we want to do here, I think, is in a very cautious way, make sure that our residents aren't being disadvantaged unintentionally by missing that 26-year-old deadline.

"And I just say that I really appreciate the comments, especially on Equal Pay Day, because what we did with this bill was amend it such that it's effective date only takes place after the Selective Service begins accepting female registration as well. That could be tomorrow, it could be 50 years from now. We don't know. But in all fairness, I think to many of the concerns being raised by some of the testifiers, some of the other representatives have spoken about, we did want to make that fair.

"And finally, I'll just conclude by noting that this does have an actual defective date of 2050, as the conversation goes forward. For those reasons, I stand in support. Thank you."

Representative DeCoite rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Takumi rose to speak in support of the measure with reservations, stating:

"Thank you very much, Mr. Speaker. With strong reservations. I realize it has a defective date and so it still has a long way to go, but this issue has come up in the past before. And I remember when it came up in a hearing, the representative from the Selective Service was asked, what's the penalty if you don't register for this? The penalty is five years in prison and a \$250,000 fine. And I asked, well why don't you just go after people that don't register? And I can tell you, if one or two guys get caught and get adjudicated in court with a penalty like that, people tend to stand up and take notice that they ought to comply with the law.

"In my opinion, they ought to contract with AARP, because AARP, for some reason, when you hit 50, they find you. It's just amazing. You can be anywhere in the country and you get these cards to sign up. So, maybe they ought to contract with AARP.

"The reason why this approach isn't the best approach is because if you are one of the 30% that are not enrolled in a state supported higher institution or you're not applying for financial aid or you're not interested in applying for a state or county position, then what happens to you? And so, it unfairly penalizes, and it creates a dichotomy, it creates an unfair class. The law appreciates uniformity to the law. You should treat everybody equally. This bill obviously does not, because it unfairly treats those who are in those three categories. Thank you."

Representative B. Kobayashi rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition. I would note that the committee report says that the University of Hawaii System provided comments, but in fact the University of Hawaii System says, 'the University of Hawaii has serious concerns with this bill, and respectfully requests that SB 1343 SD1 be deferred.'

"Further, the University of Hawaii testimony seems to very strongly suggest that UH enrollment contingent upon civil service would have a dampening effect on college attendance and would require an additional screening requirement before, it seems, admitting males into the University of Hawaii System. Of course, that would obviously involve more paperwork and more screening and would cost both time and money. So, for these reasons and others, I would urge a no vote. Thank you."

Representative Holt rose in opposition to the measure and asked that the remarks of Representatives B. Kobayashi and Takumi be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Tokioka rose in opposition to the measure and asked that the remarks of Representatives B. Kobayashi and Takumi be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative San Buenaventura rose to speak in support of the measure, stating:

"In support. And I am wearing my pink hat, too. So, I'd like to point out that this bill strikes the kind of penalty that I agree with. It is not a crime, it basically removes a benefit, because it prevents the State of Hawaii from accepting the kind of benefits that we end up paying for, like Medicaid, and those kinds of benefits that people, if the men, if they register for Selective Service, that they would be eligible for. Housing benefits, HUD benefits, all of these things that the State of Hawaii ends up paying for indirectly because these men decide not to register for Selective Service.

"And I do appreciate the Chair's amendment to balance this, because while we were there at JUD hearing, he was torn, like the rest of us when we voted for this, because we could see the blatant gender bias in pushing for this. However, as JUD Chair pointed out, we cannot affect federal law. We wish we could. Being that, we should not turn down the kind of federal benefits, and the State of Hawaii should not be punished for the kind of federal benefits that we lose when Selective Service eligible individuals do not register. And for those reasons, I stand in support."

Representative Ward rose to respond, stating:

"Mr. Speaker, just a point to complement with the speaker from Aiea, the Representative. He has made the choice very clear. You want five years in prison or you want to be incentivized to get benefits. It's very clear, and it's the benign neglect at the federal level that we are allowed the capacity to do what we're doing today to incentivize people to sign up. Signing up to help your country is, you know that's not a big deal. But to get five years in prison, which fortunately they have not enforced, is really punitive. So, I think we have a good choice here, either prison or benefits. Thank you."

Representative Gates rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Gates's written remarks are as follows:

"While I support the intent of this bill, there are issues involving this legislation. SB 1343 would make it so that an individual wouldn't be able to enroll in any state-supported post-secondary institution or be able to have employment with any state or county entity. Federal law currently already requires any student applying for federal financial aid via the Free Application for Federal Student Aid (FAFSA) to register for the Selective Service. Individuals seeking higher education would be barred from entry, even if they don't want any federal or state assistance. We should not be creating barriers for those seeking higher education and employment opportunities but instead creating avenues for easier access."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1343, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO SELECTIVE SERVICE," passed Second Reading and was placed on the calendar for Third Reading, with Representatives Gates and Takumi voting aye with reservations, with Representatives DeCoite, Holt, B. ANNOUNCEMENTS

Representative Thielen: "Thank you, Mr. Speaker. In case you weren't aware, today is Equal Pay Day, and you may see a few of the pink hats that are worn in recognition of that. One of the reasons we have a gender pay gap results from being the least affordable state for child care, infant and child care. I think we rank eighth in the nation where we should be up at the very top.

"The average cost of infant care in Hawaii is over \$13,000, that's more than University of Hawaii's in-state tuition. So, how does that help working mothers stay in the work force? Well, it doesn't. It's a situation that we have

really never handled out here, we've left it to a few day care centers, maybe half of the over 60,000 youngsters that qualify for infant and day care, maybe there are spaces for half of those.

"And we could have followed role models that are, I would say Denmark is one of the ones that's a leader, for 60 years they've integrated day care within their systems. Some are in the actual working structure. I remember going to Carlsberg Brewery years and years ago and there was a day care center for the infants and the young children, and the mothers were there at work. We haven't taken care of that in our community like we should have. So, this means that mothers are disadvantaged in trying to get back into the workforce, and then you end up perpetuating the unequal pay. And many of us, many people in Hawaii have had to work all the way up till today, April 2nd, to begin to be able to earn the same for a year that the men are earning. That just isn't good policy, and we should be taking care of this.

"I can remember when I was first elected, one of the things I tried to do was get day care going at least within government facilities, where if you had an aunt, a mother, a sister, a brother, someone working for government, it would qualify for you to be able to have your child there, in the day care center. And things haven't gotten any better through the years. So, we do have the power from within here to be able to make a change, and I would hope we could start that, certainly next year. And if I may, if I could defer to my colleague wearing a pink hat. Thank you."

Representative Wildberger: "Thank you, Mr. Speaker. Today on April 2nd, Equal Pay Day, I stand in support for equal pay for equal work. It's been over a century since women took to the streets to fight for their right to vote, and in today's present day in 2019, over a century later, we're still fighting for equality between men and women in the workplace. Equal pay for equal work is imperative to an egalitarian society, a just society.

"Statistically, women earn lower wages than men for the same work. Employers have used tactics like prohibiting employees from discussing their wages. Employers impose sex bias with impunity on their female workers. Recently, the U.S. House of Representatives voted 242-187 on a bill that strengthens protections for women and to close the gender wage gap. Those 187 legislators voting against the bill show more progress is needed regarding gender wage.

"That's why today, on April 2nd, I stand in support of equal pay for equal work. I'm proud to be part of this bipartisan effort to fight for equal pay for equal work because the positive effects it will have on women, children, and our families. Thank you, Mr. Speaker."

Representative Eli: "Thank you, Mr. Speaker. Unfortunately, I do not have a pink hat, but I still wanted to take some time to talk about Equal Pay Day, which is the symbolic day dedicated to raising awareness of the gender pay gap. This date signifies how far into the year women must work just to earn what men earned in the previous year. And for this reason, I want to talk to you today about the gender pay gap.

"Closing the gap is one of my top priorities as a Hawaii State Representative, it is simply unacceptable that women who are as productive and contribute so significantly to business and the economy are paid less than men. For the past decade, the gender pay gap has remained below 82 cents per dollar for every dollar men earned.

"While women continue to suffer from the gender pay gap, it is everyone's issue. Imagine what your family could have done if your mom or wife brought home 40% more income in the 1980s. Today, now imagine what families in Hawaii if working women earn 19% more, equivalent to their male counterparts. The gender wage gap is real and affects everyone across the board by suppressing women's earnings and making it harder to balance work and family. I urge my colleagues to remember these numbers as we are considering legislative policies that affect all of Hawaii's families. Thank you, Mr. Speaker."

Representative San Buenaventura, for the Committee on Judiciary, requested a waiver of the 48-hour advanced notice requirement for the purpose of hearing the following measures on Wednesday, April 3, 2019, at 2:00 p.m. in Conference Room 325, and the Chair "so ordered."

Representative Ward: "Mr. Speaker, building on today's floor presentation, there are two other football players on the floor here. One is a halfback and one is a quarterback. And on their behalf as well as the fellowship luncheon, we are very pleased to invite everyone to lunch tomorrow with the one and the only June Jones, who's going to be our guest speaker. June Jones was the championed coach, or let's say the one who made UH make national history. So, it will be tomorrow at lunch, and we will announce the particulars of the location. So, this is sort of 24-hour notice for the June Jones event. Thank you, Mr. Speaker."

At 1:09 o'clock p.m., Representative Luke requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:14 o'clock p.m.

ORDER OF THE DAY

SUSPENSION OF RULES

On motion by Representative Morikawa, seconded by Representative Matsumoto and carried, the rules were suspended for the purpose of considering certain Senate Bills for Third Reading by consent calendar. (Representatives Mizuno and Quinlan were excused.)

UNFINISHED BUSINESS

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1921) recommending that S.B. No. 1459, SD 2, HD 1, as amended in HD 2, pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 1459, SD 2, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative DeCoite rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Har rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Tokioka rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Say rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1459, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO THE STATE SURFING COMMISSION," passed Third Reading by a vote of 50 ayes, with Representatives DeCoite, Har, Say, Tokioka and Ward voting aye with reservations, and with Representative Quinlan being excused.

Representative Takumi, for the Committee on Consumer Protection & Commerce, presented a report (Stand. Com. Rep. No. 1929) recommending that S.B. No. 638, SD 1 pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 638, SD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Matayoshi rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Matayoshi's written remarks are as follows:

"I am concerned that the maximum sentence is being lengthened from one year to five years. Currently, prosecutors do not even take the one-year sentence, preferring the fine. If the fine is as ineffective as testimony on the bill indicates, it is curious why prosecutors do not pursue jail time, unless the situation already does not warrant it. I am in favor of raising the fine, but am hesitant about classifying this as a felony, as it can have long term and severe impacts on individuals who may make a mistake and could seriously impact a person's livelihood, especially if prosecutors already seem hesitant about pursuing any jail time at all."

Representative Perruso rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered." [Note: Representative Perruso later changed her vote to a no vote.]

Representative Cabanilla Arakawa rose to speak in opposition to the measure, stating:

"In opposition, Mr. Speaker, and I just would like to make a brief comment. And I just remind my cohorts in this Chamber that every time we up punishments to felonies, we tend to forget that we are paying \$125 a day per inmate. Thank you, Mr. Speaker."

Representative Matsumoto rose to speak in opposition to the measure, stating:

"In opposition. While our caucus respects the intent of the measure and understands the reasoning and there's been a lot of violence and difficulties with those who are consuming liquor or selling liquor after 2:00 a.m. or 4:00 a.m., there's not a lot of clarity between the sale and manufacturing in this bill, as well as asset forfeiture. And we're concerned that there's no carve out for homebrewers, which is a very popular thing now, and that they will be unfairly subject to Class C felonies as well as asset forfeiture. And so, for those reasons, I vote no and would ask for more comments to be inserted into the Journal. Thank you."

Representative Matsumoto's written remarks are as follows:

"Mr. Speaker, I rise in opposition.

"While I agree with the intent of the bill, to curb violence which may be a result of after-hours unlicensed liquor sale, this bill amends the definitions of organized crime and racketeering activity to include the unlicensed sale of liquor. Again, while I applaud the intentions of this bill, I do have concerns with the language of the measure as well as the punishment for this crime.

"My concern is that there could be unintended consequences – extremely harsh penalties. A Class C felony, a punishment of five years' imprisonment and a fine up to \$10,000, as well as asset forfeiture, would deter offenders from unlicensed selling or manufacture. Does the punishment match the crime? For the very first offense, the offender is immediately subject to a Class C felony and asset forfeiture. While this punishment may deter bad actors from selling or manufacturing liquor without a license, if this bill passes, an employee who inadvertently sells liquor after her employer's liquor license expires will be guilty of a Class C felony. A graduated punishment system may be more appropriate in this type of situation.

"For these reasons, Mr. Speaker, I am in opposition to this bill. Thank you."

Representative San Buenaventura rose to speak in opposition to the measure, stating:

"In opposition. You know, when we go through this session, talking about penal reform, this creating felonies out of license violations, nonviolent crime violations, to me is the very antithesis of penal reform. And we are spending, now with inflations, \$151 per day, that is in the event we incarcerate.

"And as I had pointed out, being a criminal defense attorney, if you are charging my client with a liquor violation for a Class C felony, I and my fellow attorneys are going to demand jury trials. So that means that there are going to be delays in prosecuting murders, in prosecuting rapes, in prosecuting violent crimes, because we are clogging up our courts with violations of liquor laws.

"And yes, I understand that we need stronger racketeering laws, but let's say that. Let's say that for multiple felonies, for actual racketeering, that they become felons. But when you start bringing in homebrewers, when you bring in restaurateurs who forgot to get a liquor license because they start selling a day before their liquor license is approved and charge them with a Class C felony. It's an automatic Class C felony. Not a multiple offense Class C felony, a single offense Class C felony. Then I'm saying that we are against penal reform. We are coming out and saying that, for minor violations, we are going to stamp you down and put you away, and that is against what we should be standing up for. Thank you very much."

Representative Tokioka rose in opposition to the measure and asked that the remarks of Representative San Buenaventura be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Thielen rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition, as is our entire caucus. And Mr. Speaker, in addition to asking that the words of the Chair of Human Services

& Homelessness be entered into the Journal as my own, may I say a few remarks? Thank you, Mr. Speaker," and the Chair "so ordered." (By reference only.)

Representative Thielen continued, stating:

"There is some unintended consequences that could occur from this bill. And the unfortunate thing is, there's not a defective effective date in the bill. There's not even a House draft. So, I apologize for not being more on top of this issue as it went through our Judiciary Committee, that was the time really to grab ahold of this and ask some hard questions, but it's better late than never. And the difficult thing is, if we pass the bill today, it goes right up to the Governor. And I think that there could be some bad consequences from this, so I'd like to move to recommit the bill."

Representative Thielen moved to recommit S.B. No. 638, SD 1, seconded by Representative Ward.

At 12:53 o'clock p.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:57 o'clock p.m.

Representative Belatti rose to speak in opposition to the motion to recommit, stating:

"Thank you, Mr. Speaker. In opposition to the motion to recommit. Mr. Speaker, in opposition. Just to correct the record, the underlying bill already exempts out homebrewing, if you look HRS 281-3. This is a bill that is a law enforcement request to reduce the unlicensed sale of liquor in our community that is doing damage to our community. So, in opposition to the motion to recommit. Thank you, Mr. Speaker."

Representative Thielen rose to speak in support of the motion to recommit, stating:

"Thank you, Mr. Speaker. In support, of course. Mr. Speaker, it would give us the opportunity to look into this more carefully and address it next year, if it's appropriate to have this measure move forward. And I again, I am sorry that I did not pick up on that. I did take criminal law, but that was many years ago. And so, I did not pick on the unintended consequences and the breadth of coverage of this bill, where we could actually create felons out of some people that should not have been charged with a crime. So, it's like taking a deep breath and saying, okay, there have been concerns raised now, it's not too late, let's do it. Because if we don't recommit it, it goes right up to the fifth floor. Thank you, Mr. Speaker."

At this time, Representative Belatti called for the previous question.

Representative Cabanilla Arakawa rose to speak in support of the motion to recommit, stating:

"In support of the recommittal, Mr. Speaker. I sense there is a lot of members in this caucus that really have trouble passing or voting for this bill, and I think that to look for it further and have a peace of mind on everybody that's voting here today is a good thing to do for the sake of this Chamber. Thank you, Mr. Speaker."

The motion was put to a vote by the Chair and upon a voice vote, failed to carry, with Representatives Holt and Quinlan being excused.

(Main Motion)

Representative Lee rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. This measure is one that has had four committee hearings in which we have had great opportunity to both vet and debate its merits. There's a couple of things I'd like to correct for the record in statements previously made by a number of the speakers. The first is that it's \$145 per day, not \$125, to incarcerate someone here. Which is important to keep in mind, because as our committee has looked at this bill

in conjunction with a number of the other criminal pretrial reform bills and bail reform bills, we've intentionally tried to limit the scope of taxpayer dollars being spent on incarceration, and adjudicating these cases with the right level of penalties pursuant to the right level of crime.

"In this case, Mr. Speaker, what we find is that there's a number of things that, well, let me first go into correcting just a couple of the other things. To the Majority Leader's point, I did want to correct the record that, indeed, there is a homebrew exemption as we had heard in HRS 281-3, which allows for up to 100 gallons of beer or 200 gallons of wine to be homebrewed, but it can't be sold, otherwise you'd tread into Department of Health and all sorts of other business territory. That doesn't change. This bill does not touch that exemption. It's why the language does not even referenced in the bill, it's in statute.

"What this bill does try to address, Mr. Speaker, is a situation which is untenable in many of our communities, both here in Oahu and in some cases in some places on the neighbor islands, in which you've got unscrupulous, shady backroom businesses being run illegally, usually in concert with drugs, alcohol, gambling, and other sorts of seedy actions. We know that these things have been around for a long, long time. We know that we've struggled as a state to battle them, because they're still prevalent today. When you walk down the street in some wrong areas, it's clearly going on. And if you ask law enforcement, who weighed in on this bill, both the prosecutors, the police departments, and the liquor commissions, they're struggling to try and deal with the situation. So much so that our city councilmembers have weighed in, others have weighed in on this at the various committee hearings along the way.

"What this bill is designed to do is take an existing penalty, a misdemeanor for operating without a liquor license, selling alcohol without any sort of oversight, which is commonplace in many of these sorts of establishments, and up it so that it's effective. So that our law enforcement, whether it's liquor commission, police department, or the prosecutors who go in and adjudicate these cases, have the tools to be able to effectively shut down these illegal operations that are blighting our communities.

"We know right now that there's any number of situations which are in the news on a regular basis where you have these other sorts of accessory illegal activities. But one of the ways that these can be more easily shut down and more quickly shut down, responding to the constituency and the neighborhood in which these operations are in, is by using this particular tool. By moving from a misdemeanor to a felony, you are creating a situation where there is a meaningful deterrent. That's what this bill is ultimately all about.

"And I would like to correct for the record also previous statements about, if you just forget license or what not, if you do read into some of the bills as well as the testimony of the liquor commission, they try to address that situation. This is a tool that the prosecutors and law enforcement need.

"If it were an overreach, and this is the part where the committee had deliberated, if it were an overreach and too much of a slap in the face for this particular level of crime, the public defender would have come out in opposition, and they did not. And it's rare that you have anything in which the public defender and the prosecuting attorneys actually don't disagree, but this is one of those rare bills, because the situation has gotten so bad in some communities. So, Mr. Speaker, for those reasons, I rise in support. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, opposition. Mr. Speaker, if that's what all the bill is about, then it's a redundant bill, because there's already things on the books against gambling, against cock fighting, against drugs. So, are we trying to get Al Capone with tax evasion or something? We're trying to add something so the police has another tool in their tool box.

"Ironically, this is Stand. Com. 1929. I think it was the bathtub gin that was being busted open and beers were being discovered to be brewed without paying taxes. Mr. Speaker, this is not Chicago. If what the previous speaker said is true, go for what otherwise is enforcement of drug laws, go for otherwise enforcement of the gambling laws, why you got to have

another one? And he doesn't mention that there are some after hour clubs that if they sell a beer outside of their license, which usually expires at 2:00 a.m., a policeman can come and say, hey you sold a beer at 2:05 a.m., we've got you, five years, a felony, potential. I mean, really heavy stuff.

"So, until we know there's a proliferation of moonshine and other things that are going on in the community, I don't see what the logic of this would be. And Mr. Speaker, the greatest irony of all of this, this body wants to legalize marijuana, but now it wants to criminalize guys who may drink and do a little bit of beer outside of the hours or outside of the manufacturing laws. What are we trying to do? We want to recreate the blue laws of '30s and the '40s prohibition? Mr. Speaker, this is a bill that I just don't see how it belongs in this time, in this place, and in this body. For those reasons, it's a no vote. Thank you."

Representative Okimoto rose in opposition to the measure and asked that the remarks of Representatives San Buenaventura and Matsumoto be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative San Buenaventura rose to respond, stating:

"Second time, I just want to make sure that, I'm actually looking at the statute, 281-3. I mean, being an attorney, I actually read these statutes, it says basically that the only exemption is for the head of the family to allow for manufacture of 200 gallons a year for wine and 100 gallons for beer, but only for family use. So, the kind of craft brewery that we're having for community events, it's going to be in violation, and we're looking at Class C felony.

"And if you actually look at the written testimony, all the prosecutor did was say, in support. Normally they would have a list of things. Public defender does not weigh in because frankly, when you're talking about clubs, that kind of thing, they don't represent them. Okay, it's not their *kuleana*. So, all I'm saying is, these are working day-to-day people that this is going to be a dragnet in that we are going to grab them into facing Class C felonies. And I think that's an overreach, and it looks like it's a Honolulu-only problem, maybe make it only for Honolulu.

"But you know, we do have, and I hate to agree with the Minority Leader, and he and I disagree all the time, but we do have racketeering laws and we do have gambling laws and we do have all of these tools to hit organized crime. This kind of Class C felony that hits our everyday people, our everyday *'ohana*, our everyday friends and families, is an overreach. And that is not why we should be here. Thank you."

Representative DeCoite rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition and I'd like to adopt the words of the Chair from Human Services & Homelessness from the first time and the second time she stood up, as well as the words of the Minority Leader as if they were my own. Thank you," and the Chair "so ordered." (By reference only.)

Representative B. Kobayashi rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I would note that the bill says that unlicensed manufacture could involve a fine not more than \$2,000, or imprison not more than one year, or both. Separate from that is the unlicensed selling, which a person could be found guilty of a Class C felony. So, a person who makes his own homebrew or wine and gives it to, I think, someone in the family, would not suffer from a Class C felony. Thank you."

Representative Takumi rose to speak in support of the measure, stating:

"Thank you very much, Mr. Speaker. In support. I'd like the words of the Judiciary Chair to be entered into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Takumi continued, stating:

"You know, the years that I've been in office, Mr. Speaker, it's very unusual that you see a bill progress through the process, that two committees in the Senate, two committees in House, there were no opposition testimony. There were two individuals that testified in opposition, but no organizations.

"Secondly, there were no votes with reservations much less no votes in either the Senate or the House as this bill progressed. Usually there is someone or some organization out there or some individual members sitting on the floor that say, hey, I have some concerns about this. Now, that's not to say those who are standing up today were asleep at the wheel and they just realized it now. But I do believe that there are many organizations in the community that really look out and advocate for and on behalf of the rights of individuals, and if this was indeed an overreach, I think we would hear loud and clear from them. Thank you."

Representative Ward rose to respond, stating:

"Mr. Speaker, you know I'm fond of calling this the market place of ideas where ideas come and they are sold or bought, and we're not buying it today, because not that it's last minute, but that this is an issue of which big government, as it gets bigger and bigger every time this body meets, we have to say when enough is enough. And to criminalize some of these things I think are going above and beyond that.

"Lastly, Mr. Speaker, as much as the good defense attorney from Puna has cited me, I'd like to do a reciprocal and have her remarks entered into the Journal as my own. She was very eloquent," and the Chair "so ordered." (By reference only.)

Representative Lee rose to respond, stating:

"Thank you, Mr. Speaker. I realize that this is second time, but I'd just like to correct the record. And I do appreciate the comments from the good Representative from Puna, but the prosecuting attorney did not just click 'support,' they submitted lengthy testimony, and I just want to read one paragraph from that. And I quote, 'every day, the Department prosecutes a myriad of criminal offenses that were caused or exacerbated by the consumption of liquor. Given the many dangers associated with liquor consumption, the Department strongly believes that all liquor sales (and manufacturing) should be carefully licensed and monitored. Gone unchecked, unlicensed liquor establishments are a lightning rod for over-consumption, violence and other illegal activity, posing a serious danger to anyone present at these establishments, as well as to the general public. Raising the offense of unlicensed sale of liquor from a misdemeanor to a C felony would better reflect the seriousness of this offense, and significantly strengthen the manner in which these offenses are addressed by law enforcement and our courts.' Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. Representative Tokioka rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Tokioka's written remarks are as follows:

"With reservations. I don't think we should be exempting parking and registration fees for fuel cell vehicles because in my opinion at this point the people that would by a FCV have the resources to pay the aforementioned fees. We are already experiencing overcrowding and loss of revenues at the airports statewide due exemptions of EV. Let's not be in the same situation with FCV."

Representative Har rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Har's written remarks are as follows:

"Mr. Speaker, I rise in support but with reservations on Stand. Com. Rep. No. 1967, SB 661, SD1, HD1, Relating to Fuel Cell Electric Vehicles. To be clear, as an owner of a hybrid vehicle myself, I am in support of expanding the definition of 'electric vehicles' to include fuel cell electric vehicles. Instead, the issue that I have with the measure is the benefits electric vehicle (EV) owners receive.

"Mr. Speaker, people will purchase an EV because they want to do the right thing for the environment, not because they will receive benefits such as High Occupancy Vehicle (HOV) lane access and free parking. In fairness to all users of public parking, EV users should not be completely exempt from fees.

"Mr. Speaker, according to a Hawaii News Now report from March 20, 2019, the Department of Transportation contended that EVs could be costing Hawaii millions of dollars a year in lost parking revenue; one reason being free parking at airports. Travelers have made complaints that EVs take up a lot of valuable parking space. Additionally, state officials discovered that of the 4,500 parking stalls available in three of the Honolulu Airport's parking structures, 550 (about 12%) were occupied by EVs and suspect that many of the EVs are owned by airport workers or those who work nearby. Parking abuse situations like this are unacceptable and cause an inconvenience to travelers, especially during peak travel periods, such as spring break.

"In addition, the HOV lane was created for the purpose of vehicles carrying more than one person. It was never intended for single-use occupancy vehicles simply because the vehicle is electric. As a representative from West Oahu, where traffic is an everyday occurrence, we need to ensure that the HOV is being utilized as intended – to transport vehicles with more than one person with the hope of removing other vehicles from the road.

"It is for these reasons Mr. Speaker, that I stand with reservations. Thank you."

Representative DeCoite rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"With reservations. I am voting with reservations on this bill because I am not convinced that these vehicles should be granted parking fee exemptions, HOV use, registration, or required parking spaces in places of public accommodation. These vehicles are expensive and not yet affordable for most people, so by granting special privileges to the people who can afford them is unfair. *Mahalo.*"

Having spent most of my life in the visitor industry in some form or another, it saddens me that some of my colleagues introduce and pass bills that shoot the goose that lays the golden egg.

"Our hotel industry is the train that drives the economy and, in my opinion, instead of hurting the industry we need to support it, and one of the ways we can support the industry is to go and collect the taxes that we don't collect from VRBO, Airbnb and other platforms like that.

ANNOUNCEMENTS

Representative Brower: "Mr. Speaker, today is the birthday of one of our colleagues. This gentleman believes that neckties are not masculine enough and that's why he often wears an ascot. For people who don't know what that is, an ascot is something a man puts around his neck when he doesn't want to be taken seriously. Keep in mind, when a man wears an ascot, he is making a fashion statement. And that statement is, I don't know anything about fashion. It's less of an issue for us than him because we have to look at it. But his ascot yesterday had international flair, like he picked it up in New York, at a subway station restroom men's floor. Members, a good friend, we enjoy serving with him, and each of us needs our grant-in-aid, can we please recognize the Representative from Kapahulu."

Representative Mizuno: "Thank you, Mr. Speaker. I'd like to remind everyone that we have a fellowship luncheon today, our guest speaker will be Coach June Jones. It's in Room 423. I'd like to yield to the Minority Leader for further announcements."

Representative Ward: "Mr. Speaker, just a supplement, there's someone in this room who played halfback under June Jones, and he just spoke, so he's going to do a great introduction of his former coach. And just to remind people, we have a double header this week, the fellowship luncheon is also tomorrow, because June Jones was slotted in today, and it will be from Pastor Steeper. Otherwise, Mr. Speaker, that's two lunches today and one tomorrow. Thank you."

"Mr. Speaker, I'd like to see the test case of the young lady laying out in front of Miller Street that each of us, as we drive into this building, see. I'd like to see the Governor's czar of homeless try to remove or let's say help as much as he can with all the resources that we put together, not to save face for us, but it's embarrassing that if we can't help that lady laying outside of our building, how are we going to help the other 7,000 in the State of Hawaii, and also keep them from the children's center?

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in strong support, brief comment. Mr. Speaker, we have six strategic advantages in the State of Hawaii. And generally speaking, strategic advantages are those things of which you excel in and you've kind of either structurally or by historical abilities have been able to take the lead in that. Obviously, we always know tourism is one of our, obviously, first and biggest, and then military spending or missile defense as in Barking Sands, astronomy, space exploration, or in this case, space tourism, international sports events, and number six which goes directly to this bill, which is Senate Bill 365, We have the potential to be the Hollywood of the Pacific.

"This bill, Mr. Speaker, however, is blank in terms of the amount of money that it's going to be put in there. I think it's \$35 million is the cap presently. I would like to see as those who are on the committee to actually double that to \$70 million. People will come to Hawaii. They love Hawaii. The ability to do the films that we have with Hawaii 5-0 and all the others, it's unlimited.

"The point is, with a strategic advantage, you have to strategically take advantage of that advantage. And, Mr. Speaker, we have an opportunity here with this bill to do so, so I urge everyone to up the numbers as much as we can to make sure that we have, that we will become the Hollywood of the Pacific. Thank you."

Representative McDermott rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I've had the opportunity to watch some of these programs come out to the west side, and they actually employ an army of people. Local food trucks, in fact they would park at the Ewa Makai Intermediate and they would feed the kids. They'd feed them breakfast and lunch, just as a courtesy, in exchange for a few parking spots. The whole industry is very giving, and they want to share with the community. And we welcome them in Ewa. And we've been out there a couple of times and it's really remarkable to see this army just role in, hundreds of cars, literally. And I can understand why some neighborhoods don't like it, but in the developing areas, we really welcome it, and I would encourage more of this, so I support increasing the cap as well. And I say that as for the Hollywood of the Pacific, I say that as the George Clooney of the Pacific."

"Thank you, Mr. Speaker. Standing in strong support. This bill will be the legacy of Alexis Jenkins, the only child of Tim and Danielle Jenkins. Twenty-four-years-old, Lexi in the prime of her youth, she left this earth and her parents devastated. The Jenkins will find comfort and solace that their loss may help save someone else's child.

"Senate Bill 824 is written narrowly, with the intention to protect the freedom of choice to ride without a helmet for anyone who has a valid motorcycle license. When our visitors come to our islands full of wonderment, excitement and distractions, many are unaware of their surroundings. They don't know our roads. Add to that unfamiliar, fast moving vehicle, operating in traffic, no wonder the numbers are so high. Between 2016 and 2018, there were 23 scooter fatalities, 22 wore no helmet. With your support, colleagues, Lexi's Law can be a lifesaving legacy to other parents who won't have to experience such tragic loss. Thank you, Mr. Speaker."

ANNOUNCEMENTS

Representative Hashimoto: "Thank you, Mr. Speaker. Today is National 'Go For Broke' Day, and through the Nisei Veterans Memorial Center on Maui, they are looking at having the entire month focused on the heroism and commitment to the country for our *nisei* veterans.

"One of those most committed to the cause, a member of the 442nd and part of the infamous rescue of the Lost Battalion in France during World War II, was Mr. Hiroshi Arisumi, who, like many of our many veterans, went on to positively impact our community by developing many affordable

homes in my community. He passed away on March 8th, and tomorrow we will celebrate his life and legacy at his memorial service. So, colleagues, in honor and celebration of all our *nisei* veterans for 'Go For Broke' Day, I humbly ask today we end our session with a moment of silence in remembrance and thanks to our Maui legend, Hiroshi Arisumi, and to all, again, *nisei* veterans. Thank you, Mr. Speaker."

At this time, the members of the House of Representatives stood for a moment of silence in honor of the late Hiroshi Arisumi and all *nisei* veterans.

Representative Ichiyama: "Thank you, Mr. Speaker. Just a quick announcement that we are still collecting Easter baskets for the Women's Caucus, and donations can be dropped off at Rep. Matsumoto's Office in Room 315. We have fliers in the elevators that tell folks what kind of items that the agencies are looking for, and will be accepting donations up until Thursday, April 18th. Thank you very much, Mr. Speaker."

Representative Takayama: "Thank you. I just want to thank members for contributing gently used women's clothing to the Dress for Success program sponsored by the YWCA. We will be continuing to collect donations through next Wednesday, but since this is the last weekend for many of you to have the opportunity to clean out your closets, just wanted to provide this reminder that clothing goes to a terrific cause that provides women seeking a second chance in society to obtain clothing at no cost. Thank you very much."

Representative Morikawa: "Thank you, Mr. Speaker. Just a reminder that tonight is art night, so if you happen to be here and walk around the fourth floor, you might find some interesting things to taste. Thank you."

Representative Lee: "Thank you, Mr. Speaker. Seeing as it's Friday, I'd just like to take this opportunity to congratulate and perhaps embarrass two of my staff members, Nikki Byerlotzer and Joey Brown, whose birthdays were this week. So, I just want to wish you guys a happy birthday and thank you so much for your hard work."

Representative Cachola's written remarks in support of the measure are as follows:

"Mr. Speaker, thank you for allowing me to speak in strong support of Senate Bill 1417, SD2, HD1, Relating to Filipino Veterans Burial Assistance. This bill appropriates funds for burial grants for qualifying Filipino-American World War II veterans that will provide funeral and burial services and transportation of their remains back to the Philippines. These veterans are in their 90s, are low-income, and do not have the financial means or resources to transport their remains back home.

"As young men, they enlisted in the war against aggression and fought alongside U.S. troops. They were promised citizenship and many other benefits in return for their service. Unfortunately, the U.S. government reneged on much of their promised benefits.

"On behalf of these Filipino-American veterans, their family and supporters, I urge my colleagues to support Senate Bill 1417, SD2, HD1, which helps to rectify this indignity and recognizes the sacrifices made by these veterans and their families. This measure is long overdue; and sadly, much too late for so many.

"For the precious few Fil-Am veterans who remain, let us do the right thing and pass this important bill. It is the just and reasonable thing to do."

Representative Belatti's written remarks in support of the measure are as follows:

"Mr. Speaker, I rise in strong support of Senate Bill 50, House Draft 1.

"This measure appropriates \$910,000 (\$455,000 per year for FY 2019-20 and FY 2020-21) to continue and expand the Hawaii Nutrition Employment and Training Program (HINET), an innovative program that began in 2015 as an interagency collaboration between Windward Community College and the Department of Human Services.

"HINET provides much needed financial assistance to students who are eligible or receive Supplemental Nutrition Assistance Program (SNAP) benefits. In addition to SNAP benefits, students receive assistance through reimbursements for gas, books, supplies, and uniforms.

"HINET also allows students to count their education towards the weekly work requirements of SNAP. Students can spend less time juggling full-time work and worrying about paying for rent, food, and other basic needs. Instead, students can focus on succeeding in school and developing skills that will enhance their ability to succeed in the future.

"State and private funds invested into the HINET program are eligible for reimbursement from the Federal Government up to 50%. Thus, Senate Bill 50, House Draft 1 is expected to generate \$1,365,000 in combined federal and state spending for the HINET program. These combined funds will allow the HINET program to support an additional thousand students on top of the more than 500 students who have already benefitted from HINET assistance.

"Because HINET provides targeted assistance to support qualified students as they pursue an education that can lift them and their families out of poverty, I support Senate Bill 50, House Draft 1."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 50, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO HUMAN SERVICES," passed Third Reading by a vote of 51 ayes.

Representative Belatti's written remarks in support of the measure are as follows:

"Mr. Speaker, I stand in strong support of Senate Bill 316, House Draft 2.

"Established in 2017 by the State Legislature and formally codified in 2018, the Hawaii Community College Promise Program helps to ensure that a college education is accessible to all qualified residents of the state who demonstrate financial need.

"During the 2017-18 academic year, approximately 1,500 students received Hawaii Promise scholarships to support starting or continuing their community college education. The intent of this program is to remove all cost barriers to attending community colleges within the University of Hawaii System, allowing qualified students to use their scholarship awards to pay for tuition, fees, books, and transportation.

"This measure demonstrates the Legislature's commitment to ensuring that community college remains attainable to those most economically disadvantaged. This is especially important because poverty and lack of access to educational opportunities are inextricably linked.

"In addition to the \$1.4 million appropriated to sustain the Community College Promise Program through 2021, this measure also requires the University of Hawaii to annually assess the effectiveness of the Promise Program by collecting data that tracks whether Promise scholarship awards increase the likelihood of students enrolling into and completing a degree program in the community college system.

"It is critical that we recognize that supporting students in achieving postsecondary success leads to greater social and economic benefits for individuals, families, communities, and the state at large. Because Senate Bill 316, House Draft 2 represents an investment in our state's future, I support the continuation of Hawaii's Community College Promise Program."

Representative Belatti's written remarks in support of the measure are as follows:

"Mr. Speaker, in support of Senate Bill 366, House Draft 2.

"There are an estimated 28,000 people in Hawaii who live with Alzheimer's disease. An estimated one in three *kūpuna* will die from the disease. Unfortunately, as baby boomers age, the number of people who will develop Alzheimer's disease and other kinds of dementias will only rise. Without a cure on the horizon, our state needs to develop a comprehensive and effective plan to manage the disease and ensure care in the community.

"This bill appropriates approximately \$60,000 to fund a position within the Executive Office on Aging to update the State Plan on Alzheimer's Disease and coordinate the provision of public and private Alzheimer's disease and related dementia services.

"The State Plan – last updated in 2013 – is the state's guiding document when it comes to the prevention of Alzheimer's disease, management of the disease in people who already have it, and education of individuals and the public on the affliction. By comprehensively examining the care delivery systems through the State Plan, the State can identify gaps in knowledge, services, and data. In turn, this information can help us develop specific goals and implement strategies that better coordinate care and access to services in the community.

"Senate Bill 366, House Draft 2 demonstrates this Chamber's clear commitment to maintaining the vitality and wellbeing of our *kūpuna*, their families, and our communities. For the above reasons, I support passage of Senate Bill 366, House Draft 2. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 366, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO HEALTH," passed Third Reading by a vote of 51 ayes.

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 1353, SD 3, HD 3 pass Third Reading, seconded by Representative Morikawa.

Representative Thielen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'm rising in support and to say just a few comments. This is relating to industrial hemp, and it's a subject on which I've spoken maybe once or twice in this Chamber. The bill itself may need to be tweaked a little bit further as it goes into conference committee, but it's a good bill and it should move forward.

"I wanted to just bring members up to date. You know I've talked about the 25,000 uses and products with industrial hemp. Well, there's another. I don't know if any members or members' families or friends happen to have tattoos. They're discovering that the tattoo ink may have a bad health impact with some changes to a person's lymph nodes as the tattoo kind of ages and the person ages. Well, guess what? Hemp-based ink is healthy and it's now on the market, so we have 25,001 uses for this incredible plant. Thank you, Mr. Speaker."

Representative DeCoite rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"With reservations. I am voting with reservations on this bill because I am concerned about the future and the possibility that we may one day see approval of genetically modified hemp by the FDA. There may be potential for growing hemp in Hawaii and the Department of Agriculture currently has a list of 17 licensees in Hawaii on the islands of Hawaii, Maui, Oahu, Kauai, and Molokai. With Mahi Pono on Maui announcing big plans to farm on the 41,000 acres it bought from Alexander and Baldwin, could industrial hemp be part of their future plan?

"When Arcadia Biosciences was granted a license to grow industrial hemp on Molokai by the Department of Agriculture in March 2019, trading in shares of the company skyrocketed by 59% or 765,000 shares, near five times the full day average. Arcadia Biosciences is a large agricultural biotechnology company that sees enormous opportunity in the legal cannabis industry and the need for improved plant quality, productivity, consistency, and resilience. One of its units, Arcadia Specialty Genomics, has the capability to deliver on this need. If they are successful, Hawaii could become the GMO capitol for industrial hemp. Is this what we want? *Mahalo.*"

Representative Har rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Cabanilla Arakawa rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker, and I would like to insert written comments."

Representative Cabanilla Arakawa's written remarks are as follows:

"Mr. Speaker, I rise in support of SB 1353, SD3, HD3.

"The State of Hawaii has a real opportunity to develop the industrial hemp industry to strengthen our economy and diversify our agricultural offerings. Hawaii has the ideal climate and soil conditions and year-round sunshine that is perfect for the cultivation of hemp. It grows naturally without the need for irrigation or labor-intensive cultivation.

"The Agriculture Improvement Act of 2018 or 'Farm Bill' legalized hemp by removing hemp from the definition of 'marihuana' contained in the federal Controlled Substances Act, inter alia. Therefore, hemp is no longer classified as an illegal drug under federal law.

"The Agriculture Improvement Act also makes amendments to the Agricultural Marketing Act of 1946. These amendments authorize the department of agriculture of each state to submit to the federal Secretary of Agriculture a proposed plan for the state's department of agriculture to monitor and regulate hemp production within the state.

"It authorizes the assessment and collection of fees for applications, licenses, license renewals, inspections, and the sampling and testing of industrial hemp to ensure it does not exceed the legal limit of THC. However, the testing should only be done on the finished product because actively growing plants tend to mutate in nature and increase its contents of THC.

"After the federal Secretary of Agriculture approves a state plan, authorized entities within the respective state may engage in the production of hemp, including at the commercial level.

"Hemp is also beneficial in removing toxins from the soil (phytoremediation).

"Hemp grows quickly and is a superior phytoremediation crop. Hemp is an environmentally-friendly and efficient feedstock for biofuel. Hemp can be made into clothing and used in other products to promote the growth of small businesses.

"The imminent passage of SB 1353, SD3, HD3 will bring great opportunity to cultivate industrial hemp and produce. The Agriculture Committee recognizes the great potential for the State and the people of Hawaii to develop the industrial and a new source of revenue for the State.

"Members of Agriculture Committee are committed to helping to bring together the state, federal and local government as well as the stakeholders, potential growers and producers of the industrial hemp industry to promote and advance seedling, cultivation, processing, manufacturing and marketing of industrial hemp and its potential by-products.

"This act will facilitate the regulation and production of industrial hemp in the state by requiring the Department of Agriculture to establish a permanent industrial hemp program to license individuals to cultivate industrial hemp in the state. The act amends the definition of 'marijuana' in state law to clarify that hemp is not marijuana.

"It requires the chairperson of the Board of Agriculture to prepare and submit a proposed state plan to monitor and regulate hemp production, including commercial production and research, to the federal Secretary of Agriculture pursuant to section 297B of the Agricultural Marketing Act of 1946, as amended. It mandates them to report to the governor, speaker of the House of Representatives, and president of the Senate on the status of the federal Secretary of Agriculture's pending approval of the state plan and, if approved, the subsequent implementation of the plan. For these reasons, I urge my colleagues to support this worthy measure."

Representative Matsumoto's written remarks are as follows:

"Thank you, Mr. Speaker. At this time, I rise in strong support for SB 966.

"This bill allows Hawaii Technology Development Corporation (HTDC) to utilize identified parcels of land within or around Mililani Tech Park for development and community benefits. HTDC testified that they are currently facilitating development efforts for the First Responders Technology Campus (FRTC) in Mililani. This First Responders Technology Campus will be a community space for the State and the City and County of Honolulu to have joint trainings and operations. Police, fire, public safety, emergency services, technology services, and the Hawaii National Guard will have access to using the FRTC.

"In conjunction with their preexisting development efforts for the FRTC, this measure would ensure that these parcels are also being properly utilized to their maximum capacity. These parcels would essentially serve a diverse purpose within the community, from disaster relief to other community related efforts.

"Furthermore, the positive, overarching effect that this bill will have extends beyond the Mililani community itself. FRTC, for example, would essentially operate within Mililani but serve the State in disaster relief efforts. The benefits that FRTC will provide includes having centralized, consolidated emergency responders and data center, which will add to our overall public safety and help to reduce costs for development, maintenance, and repair by all agencies that utilize the facility. The added support these parcels would provide to this preexisting project would not only strengthen the program, but would also diversify the location for other uses.

"For these reasons, I support SB 966. Thank you, Mr. Speaker."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, strong support. Mr. Speaker, this is regarding the small business regulatory review board. I'm speaking because it's rather historical in that the review board has been around for 20 years, but it's never had a budget. This one has a blank budget and it's saying to those who are thinking that we are entirely a business unfriendly state, this is an indication that we are business friendly.

"There's been 863 decisions in the last 20 years and most of those are regarding overburdensome regulations, *et cetera*. So, Mr. Speaker, this is the watch dog that's very important in most of our small businesses using the SBA definition, we're up in the 90 percentile, our small businesses. So, this bill is historic and hopefully it's going to turn around the small business version of the unfriendly State of Hawaii. Thank you, Mr. Speaker."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. Mr. Speaker, this is the minimum wage bill. It has mutated, metastasized, and has gone from a small amount to a big amount and, Mr. Speaker, now it's about a dollar a year. But if I cite the historical record since the year 2000, there was a 24 cents increase every year, and if I go for the last 10 years it was 28 cents every year. Mr. Speaker, we're doing a five-times increase in the minimum wage.

"Mr. Speaker, this bill doesn't fit the Hawaii economy, as we are always slightly different than the mainland. And this bill is going to encourage, as it happens in many ways, there's been a few national media shows that have said that, you know, there's a tsunami coming on some of the small employers. Some of the people are going to have their hours cut back. Some of the businesses are going to cut back employees. And one of my favorite subjects, A.I. is being invited into the labor force with unimpeded instructions. Artificial intelligence is on its way, this just greases the slicks or makes the slippery slope even all the more rapid.

"And lastly, Mr. Speaker, I think the small businesses that we want to survive, because we are a state of small businesses, need to know that we are for them as we were with just the last bill, the small regulatory review board, will have a say in how this bill should be administered.

"For those reasons, Mr. Speaker, I would hope that as it gets into conference and other areas, it's not going to be looked as an antilabor, but it'll look as something that we can follow up as the State of Hawaii rather than following a national trend which everybody is trying to up each other

from \$15 to \$16, even \$17 per hour as being floated as a popular option. For those reasons, Mr. Speaker, I have a no vote. Thank you."

Representative Johanson rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I do think that tackling cost of living issues and poverty as a multifaceted problem requires a multifaceted solution, which is why I'm glad that this body takes up looking at the tax code, it also looks at provision of childcare and how to make that more affordable, as well as affordable housing.

"But I do think a key component of seriously looking at how we address our cost of living has to involve looking at compensation and looking at wages. With all due respect to the previous speaker, I do want to emphasize, particularly for members, because I think it's important, the House has always tried to take a Hawaii-centric focus and a Hawaii-specific focus. Which is why, if members look at the bill, they'll see that specifically because Hawaii is so unique in the way that it provides for employer-sponsored health care, which is a huge cost and a burden that employers bear, but I think a good one and a good one that has underpinned our very delivery of health care. I do think it's important to preserve that, Mr. Speaker, which is why each version of the minimum wage concept bill that has moved out, whether it's a House or a Senate bill, contains a provision for a lower but still increased minimum wage specific to those employers who provide employer-sponsored health care for their employees. We want to incentivize that. We want to keep the very basis of how we ensure that we have such a low uninsured rate.

"So, I do want to note, particularly because it was said, that it's important to keep Hawaii in mind. That is particularly what the House's proposal does. It takes into consideration the very specific, very unique, and I think very special and positive way that we deliver health care. Really, we were on the vanguard of how we did it back in the '70s, and we want to make sure that that special quality is preserved, and our labor policies need to take that into consideration, particularly our minimum wage policies.

"Thus, whether you are receiving health care or you're not receiving health care, under the House's version of the bill, you would be receiving an increase in your minimum wage. But I think, rightly so, we've tried to recognize that providing health care is an additional cost to employers and thus perhaps we should look at a bifurcated minimum wage to recognize just how much that cost ends up affecting small businesses. So, this is a bill that is specifically trying to take into consideration not just Hawaii's unique setting, but to reconcile both the cost of doing business as well as the cost of living imposed on employees. Thank you."

Representative Matsumoto rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Matsumoto's written remarks are as follows:

"Thank you, Mr. Speaker. I rise with very strong reservations on SB 789, SD2, HD2.

"I recognize the need for the people of Hawaii to have the income to not just make ends meet but to have the ability to thrive. I know that by nearly every measure, wages simply aren't adequate for our cost of living.

"However, I have severe reservations with raising the minimum wage by such large amounts statewide. There are three main reasons why I believe that we must be more creative with solving the cost of living rather than simply raising the minimum wage.

"First, data from mainland cities and states that have raised the minimum wage demonstrate that it's not always a net-positive. Seattle, for example, has a \$15/hour minimum wage for most employers. The data shows that places with large companies like Amazon, Expedia, and Google can support high-earning service sector workers.

"Unfortunately, data from Washington also shows that a statewide minimum wage of just \$12/hour has caused layoffs, reduced benefits, and

more limited customer amenities in several lower cost of living areas of the state.

"Perhaps Oahu's vibrant industries and above-state-average incomes could bear a higher minimum wage, but who can say with confidence that businesses in Lihue, Kaunakakai, or Hilo could handle \$15/hour?

"Second, studies indicate that minimum wage jobs don't do a very good job at helping those in poverty. In fact, raising the minimum wage tends to benefit those who already have a job, skills, and qualifications.

"When minimum wages are low, employers can take a risk by hiring someone who has never graduated from high school or is otherwise less qualified than other applicants. But when the minimum wage is too high, employers stop taking risks and instead hire people who already have skills and experience. Working at the minimum wage is meant to be temporary – raising the minimum wage will push men and women out of the labor force who desperately need the experience and training available through a minimum wage job.

"Thirdly, economic growth, innovation, and investment cause us all to be better off. As we know, Hawaii's economy is heavily reliant on the service sector where labor is the highest cost of doing business. If we increase the cost of labor through law, businesses and individuals will have less income to invest in growth and innovation.

"And although some employees will have more take-home income, if businesses close, lay people off, or move to cheaper states, Hawaii will experience stunted economic growth, innovation, and investment.

"In summary, Mr. Speaker, I have grave reservations about implementing a statewide \$15/hour minimum wage.

"I know that the current rates are blank, and I would implore my colleagues in conference to consider either a very minimal increase or return to the idea of allowing each county to set its own rate specific to their own economic conditions.

"For these reasons, I am voting for SB 789 with extreme reservations."

Representative DeCoite rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition, brief comment. While cost of living is a challenge for many of us, we are not a business-friendly state. And when the cost of minimum wage is increased, it also impacts those that have been trying to be entrepreneurs of small business.

"When you raise the cost of minimum wage, we should really call it a cost of a worthy wage. Are you worthy of it or not? Minimum wage is a basis and a starting point of whether or not someone has the license or the certification to be paid that wage. Cost of living has been a challenge for many of us here. And while businesses have been hit with other imports and so forth, whether it be from mainland or foreign countries, those are not subjected to the same costs that these small businesses are.

"And I believe that if you're worthy of the minimum wage increase, many businesses would be more than willing to pay the minimum wage increase. But the trend that we've seen across the state is businesses that are shutting down due to heavy rules and regulations that have been imposed, not just by the State of Hawaii, but by the Federal Government. For those reasons, Mr. Speaker, I'm in opposition. Thank you."

Representative Takumi rose to speak in support of the measure, stating:

"Thank you very much, Mr. Speaker. In support. I do have some concerns about the bifurcated approach to this bill, but overall, we should increase the minimum wage. In response to my good friend, the Representative from East Honolulu, Hawaii should lead the nation. As you know, Mr. Speaker, historically the minimum wage in Hawaii has been at least 50 cents higher than the rest of the country or most of the states. As it stands now, fully a third of the states in the United States are on track to enact minimum wages far higher than what we currently have in the state.

"Second point about the minimum wage and its cost to the economy, what we never talk about is the cost of a maximum wage. In this country there is no maximum wage, and yet the gap between those who make the most money, whether they're CEOs and whatnot, is greater than it's ever been in our history. We ought to take a look at capping the maximum wage. Thank you."

Representative Okimoto rose in opposition to the measure and asked that the remarks of Representative DeCoite be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Lee rose to speak in support of the measure, stating:

"Thank you, in support. Just a few words on one part of this, which is irrespective of the levels of increase and everything else that's been debated, there is one piece of this that I think needs to be spoken to, and to our good colleague from Molokai who raised the question of whether or not people are worthy of receiving a particular level of wage, this bill takes steps to try and address that for one particular subset of individuals, those folks for far too long have been deemed not worthy by this Legislature, by our government, and by society because they are disabled, because they have other physical issues which prohibit them from working in many places. We've consciously taken a step and made a decision to say, you know what, it's okay that we pay them less, they are worth less. This bill starts to fix that. Thank you, Mr. Speaker."

Representative DeCoite rose to respond, stating:

"Thank you, Mr. Speaker. The insinuation of whether or not they're physically challenged to receive that wage is not the issue. I believe most of those that are physically challenged are actually better workers in taking direction from what they are tasked to do. What we're trying is say is that, that's why you start with a minimum wage, to see if you qualify to be paid worth \$20 or \$25 an hour. That's my point that I'm trying to make, Mr. Speaker. Thank you."

Representative Tokioka rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Tokioka's written remarks are as follows:

"I believe that everyone should be paid a living wage.

"My concern is if this bill is passed as is, employees who hire individuals with disabilities will not continue to do so because of additional costs incurred. For businesses who hire members from the disability community, they are doing it to encourage these individuals to be proactive citizens in our community. I'm afraid that companies will no longer be hiring out of goodwill.

"Many locally owned restaurants have already closed and this will be one more negative impact to their bottom line."

Representative Cabanilla Arakawa rose in opposition to the measure and asked that the remarks of Representative Ward be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Ward rose to respond, stating:

"Mr. Speaker, just another added note of caution. If we are not reasonable about this and we do leaps and bounds, \$1, \$2, \$17, \$20 or more. Mr. Speaker, there's a universal guaranteed income that people are talking about in this nation, whether you work or you don't work, we're going to give you \$1,000 a month. Is that what we want? Do we want to demotivate our work force? Do we want all of this stuff to be guaranteed without any personal responsibility? Those are part of the downfalls of a nation. So, we're not there yet, but universal guaranteed income is already on the horizon. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 789, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO MINIMUM WAGE," passed Third Reading by a vote of 42 ayes to 9 noes, with Representative Matsumoto voting aye

with reservations, and with Representatives Cabanilla Arakawa, DeCoite, Har, Kong, Okimoto, Quinlan, Say, Tokioka and Ward voting no.

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 1394, SD 2, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Matayoshi rose to speak in support of the measure with reservations, stating:

"With reservations, brief comment. I do support historic preservation, but I think we need to examine how much of the cost of historic preservation the government is willing to take on. Under this bill it would allow 30% of the cost to be borne by the state taxpayers. That's in addition to 20% that's being borne federally. That's 50% of the total cost. I just want to make sure that we're all aware that this bill does have a fairly large fiscal impact and I just want to make sure we're spending our money the right way. Thank you."

Representative Matsumoto rose in support of the measure with reservations and asked that the remarks of Representative Matayoshi be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Hashimoto rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative B. Kobayashi rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise in support with reservations. In Finance Committee, we had a discussion on this. And as usual, the Tax Foundation commented that tax credits are not a very efficient way of providing support to something like historic preservations. As a previous speaker said, there's already a 20% federal tax. With this bill, there might be additional personnel hired to determine whether certain buildings qualify for this historic preservation criteria. There might be a fee that would go to the Historic Preservation Special Fund. There is provision for a recapture clause. So, a lot of little things that make up for a lot of bureaucracy, I think, and I think overall we need to think very carefully about how we do tax credits in general. Thank you."

Representative Har rose in support of the measure with reservations and asked that the remarks of Representatives Matayoshi and B. Kobayashi be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Okimoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition to this bill which most people are not going to understand. It's called ranked choice voting. This is a solution in search of a problem, Mr. Speaker. The old saying, if it ain't broke don't fix it. Mr. Speaker, let me be very frank, 46 members out of 51 in this body are already elected by our present system. This bill is anti-minority, and there's only five us. That is not fair. This bill would knock out a Charles Djou or anybody who's a minority who wins by 15,000 votes because we have to choose one, two, and three, and well let's see I know one number two, I'm not sure about number three. Mr. Speaker, even my office was arguing about how these bills were to be interpreted, so we called up the Office of Elections. They didn't know how to interpret all the jungle primary and then this primary.

"Mr. Speaker, we do not have an election system problem, we have a voter apathy problem. People don't want to sign up to vote, people don't want to show up to vote. Let's face facts with facts. This bill does nothing other than super majority the super majority even more than it is now. This bill is unnecessary, unfair, and something that should be recommitted. I will not say that I will ask for a recommittal, but it should be. Thank you."

Representative Quinlan rose, stating:

"Mr. Speaker, I rise on a point of information. In my district I am a member of the minority party."

Representative Kong rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Nakamura rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Nakamura's written remarks are as follows:

"I have numerous concerns regarding SB 1069. First, the state attorney general has opined that the proposed helicopter surcharge may be subject to a preemption challenge under the federal Anti-Head Tax Act. Second, 'noise-canceling' technology needs to be clarified in measurable terms. There is currently no accepted or articulated decibel (dBA) level and measurement (feet) distances to measure proposed 'noise canceling' technology. A required decibel threshold must be specified for an enforceable sound limit in the vicinity of residential/visitor populated or conservation areas. The decibel threshold should be agreed upon by various stakeholders and state agencies, including the Department of Health and the Department of Land and Natural Resources. Both agencies did not provide testimony on this bill.

"Before granting the privilege of tax credits, helicopter companies should work to address concerns regarding helicopter tour noise impacts on Hawaii communities – whether that means increasing flight altitudes, stricter regulations on flight patterns and/or narrower flight times, restrictions and controls must be collectively addressed."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. Representative Matsumoto rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Matsumoto's written remarks are as follows:

"Thank you, Mr. Speaker. At this time, I rise in strong support.

"Nearly a quarter of Hawaii's residents will be 65 years of age or older by year 2030. An investment in the Kupuna Caregivers program is an investment in our future and ultimately a positive investment in the wellbeing of Hawaii's economy.

"The Kupuna Caregivers program supports many of our seniors who need just a little extra help to remain in their own homes. With the allocation of \$210 per week, our *kūpuna* can receive services such as assisted transportation, homemaker services, personal care, and home delivered meals, just to name a few. Ultimately, these services afford seniors the independence and flexibility to choose and receive assistance services personalized to their individual needs while remaining in their own homes.

"This bill greatly assists caregivers with careers outside of the home to remain in the workforce with the peace of mind that the basic needs of their loved ones will be taken care of. With 154,000 unpaid family caregivers in Hawaii who are taking care of their parents, spouses, or other relatives who need extra care, the personal and financial strain can take a significant toll on the physical health of the caregiver. This program not only provides necessary assistance to Hawaii's *kūpuna*, but also allows caregivers to continue to earn retirement benefits for their future while helping Hawaii's businesses to retain qualified experienced workers.

"The Kupuna Caregivers program launched late 2017 and within its first few weeks, the Executive Office on Aging reported over 500 requests for services. The passing of this bill would assist in meeting the growing demand for services from the hundreds of family caregivers who have requested support from Kupuna Caregivers program.

"I strongly support investing in the wellbeing of Hawaii's working families and *kūpuna* through the Kupuna Caregivers program. Thank you, Mr. Speaker."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support, just a few brief comments. Mr. Speaker, drawing upon the state's long and expansive familial tradition, this body created Kupuna Caregivers in 2017. This is an important measure, because this program provides working caregivers with the resources necessary to remain employed by providing quality care to their loved ones in their absence.

"As we struggle with a huge cost of health care, this is a measure that is addressing head on that problem of the high cost of living. The Kupuna Caregivers Program has not yet had enough time to mature into the program as we all know it can, and that's why this measure calls and specifically spells out that the intent of this Legislature is to have the Office of Aging implement a plan to maximize the number of caregivers served by the program. It's very important, because as we struggled to grow this program,

we want to make sure that it maximizes the number of caregivers served by the program.

"One final thing, Mr. Speaker, we have given flexibility in this measure by appropriating \$1.5 million for the Office of Aging to have a maximum allocation from \$70 per day to \$210 per week to provide a range of services. Mr. Speaker, this is an important measure for the families in this state, and I stand in strong support."

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 1466, SD 2, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Matsumoto rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Matsumoto's written remarks are as follows:

"Mr. Speaker, at this time, I rise in opposition.

"SB 1466 provides a mechanism wherein any individual could petition the court for an order to remove lawfully owned and acquired firearms from a person who is believed to be a danger to themselves or others. Although I empathize with what this bill is attempting to achieve, I have strong concerns with the practical and unintended impact it will have if it's passed into law.

"There is a high potential for abuse relating to gun violence protection orders. Mr. Speaker, in its current form, this bill would allow essentially any person, including an angry ex-spouse or former partner, to submit a petition to the court and, upon meeting the very low evidentiary threshold, obtain a temporary order removing one's access to firearms and ammunition. If the object of the petition were, for example, a police officer or military member, they would be unable to do their job until the order was resolved. In such a case, they might face termination of employment or loss of reputation based only upon a bare allegation. They could lose their rights and livelihood, Mr. Speaker, because someone had a potential axe to grind.

"This measure places an additional burden upon our already strained police departments and law enforcement officers. Even the temporary form of this order would require police to respond to the residence of the petitioner and seize any firearms they may have. Thus, based upon simply meeting a very low evidentiary burden, which most every petition filed under this law would easily meet, significant finite law enforcement resources would be diverted.

"This law is unnecessary and redundant. The law already has a vehicle that could accomplish the same thing as proposed in SB 1466; it's known as a temporary restraining order. Adding these measures will place another unnecessary strain on our judiciary.

"Although the idea behind this measure is noble and certainly I support reducing incidents of gun violence, this bill as written can and likely will have potential implications beyond those contemplated here and may not be the right bill to accomplish that goal.

"For those reasons I am in opposition to SB 1466. Thank you, Mr. Speaker."

Representative San Buenaventura rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1466, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO GUN VIOLENCE PROTECTIVE ORDERS," passed Third Reading by a vote of 40 ayes to 11 noes, with Representative San Buenaventura voting aye with reservations, and with Representatives DeCoite, Har, D. Kobayashi, Kong, Matsumoto, McDermott, Okimoto, Quinlan, Say, Tokioka and Ward voting no.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 2208) recommending that S.B. No. 78, SD 2, HD 1, as amended in HD 2, pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 78, SD 2, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Perruso rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations. While I support maintaining funding for preschool classrooms at charter schools that would otherwise close because of the loss of federal grant funding, I do have concerns about this measure's transfer of administrative authority for preschool programming from the DOE to the Executive Office on Early Learning.

"If authority over preschool curriculum, instruction, assessment, and professional learning support is exercised by EOEL rather than the DOE, then the furlough siloing of the department and EOEL will make it difficult for the department to incorporate the positive outcomes of PreK programming into its overall strategic planning or make decisions about how to best integrate PreK and K-12 to ensure instructional continuity.

"Furthermore, importantly, this measure states that, quote, teaching staff participating in the program shall participate in all relevant professional development, all professional learning sessions, coaching and mentoring, and meetings offered through the office of EOEL, provided that the office of EOEL shall cover the associated travel and substitute teacher costs. This sets a clear precedent for future collective bargaining violations where teachers who are employees of the DOE, not EOEL, could be compelled by an EOEL supervisor who is not their employer, nor part of their employer's bureaucratic structure, to participate in professional development at the discretion of EOEL. There is no clarification in this measure about when EOEL may schedule professional learning sessions or for what purpose or even whether or not these sessions shall be implemented in consultation with the appropriate collective bargaining units.

"Finally, the Governor called for expanding preschool to all families in his State of the State address this January. So, this bill does outline the administrative parameters for achieving that vision, but it fails to recognize

that the majority of our preschool classrooms, as developed by EOEL, are currently staffed by teachers who lack in early childhood education certification. So, we need to expand carefully, ensuring that we are delivering quality early learning experiences to children who are participating in our programs. Our first priority should be determining how we will fund an expansion of PreK to those who currently lack access, which this measure doesn't address. For those reasons, I'm voting with reservations. Thank you."

Representative Woodson rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. Thank you, Mr. Speaker. This bill is necessary because it further clarifies that the administrative authorities, as it relates to the Executive Office on Early Learning, reside within that particular department. If there is a child that actually is in a DOE school, it is statutorily prohibited for them to be in a PreK classroom. That was established by the Legislature in 2012.

"Why it is very important for us to continue down this path is because currently, when you take a look at an EOEL classroom and you take a look at individuals that go through an EOEL classroom, they meet and exceed expectations. And these, Mr. Speaker, are children that come from social economic impoverished areas, they come from families that do not speak English as their first language in their homes, and they house students that come from other disadvantaged situations. So, EOEL is doing a very good job at actually administering this type of educational delivery in the State of Hawaii. We want to continue to allow them to do so.

"And objectively, when you take a look at the differences between DOE, public PreK classrooms, and EOEL classrooms, which I have done across the state, the DOE PreK classrooms do not, in fact, offer professional development to their teachers, they do not offer mentoring, they do not offer coaching, they do not offer that level of support. This is, in my mind, essential as to why we need to allow EOEL to continue to administer this type of education in the State of Hawaii.

"I agree with the previous speaker in that we do need to focus on expansion, and this bill also provides monies for that expansion. It also provides money to allow the 22 charter school classrooms to continue. Without this bill, those classrooms would cease to exist. It also transitions the authority of those charter school classrooms under the Executive Office on Early Learning.

"So, for many reasons, this bill is very important. We went through this bill with a fine-toothed comb and looked at some of the questions that the AG's Office had. We took care of those issues, so, as it stands right now, the bill stands within the constructs of law, and I'm asking my colleagues to support this proposal. Thank you."

Representative Takumi rose to speak in support of the measure, stating:

"Thank you very much, Mr. Speaker. In support. First off, my respect and admiration for the Education Chair for his work on this bill. Far better job than the previous Education Chair could have done, I suppose. But, I think a bit of history is in order. In 2012, when Act 178 was signed into law, which created the EOEL, it established the administrative authority of the EOEL over early learning in the state. May I remind colleagues that the Department of Education in 2012 testified in favor, once again, in favor of this approach by creating this EOEL office so that they would be in charge of early learning initiatives and implementing programs in our state.

"In 2017, again, another bill was introduced to further clarify the administrative authority of the EOEL over early learning. So, when comments are made that somehow this bill takes away administrative authority of the department, it's baffling because you're taking away a nonexistent administrative authority. There's never been any bill or statute enacted that says that the DOE has anything to do with early education except for special ed and Title I classrooms. Thank you, Mr. Speaker."

Representative Ohno rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I'd like to cite a number of Strive HI indicators, these are the indicators that are presented to the Board of

Education year after year for the superintendent and her team's review. The high school graduation rate has stayed stagnant, the last three years we have 82%, 83%, 83%. The college going rates within our public schools has stayed stagnant, 56%, 55%, 55%. Teacher retention in fact has dropped over the last three years, 52%, 54%, 51%. Before the superintendent looks to take on even more issues, I highly suggest to her to take a look inward and get those numbers moving forward in an upward direction. Thank you, Mr. Speaker."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support, brief comments. From a very different perspective, I think this measure, when we look at all the ways again in which we are addressing the high cost of living, early childhood care is something that eats a lot of a family's budget. As we develop government programs that are addressing these matters, whether it's early learning, whether it's Kupuna Caregivers, whether it's the minimum wage, what we are designing are programs and policies that fit Hawaii and that work within constraints that we have. And so, for that reason I support this measure, as it provides the proper oversight through the EOEL. Thank you, Mr. Speaker."

Representative D. Kobayashi rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I'd like to adopt the comments from the Education Chair and the IAC and CPC Chairs as my own."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 78, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO EDUCATION," passed Third Reading by a vote of 51 ayes, with Representative Perruso voting aye with reservations.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 2209) recommending that S.B. No. 856, SD 1, HD 2, as amended in HD 3, pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 856, SD 1, HD 3 pass Third Reading, seconded by Representative Morikawa.

Representative Perruso rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I'm in opposition. So, this measure combines a proposed adequacy study of public school funding with an audit of a school's academic and financial plans. That's problematic for several reasons. To begin, academic and financial plans are three-year plans, prepared months in advance of the actual school year for which they begin to be applicable. They're meant to be aspirational guides for resource allocation and are intended to be flexible, shifting a school condition, such as enrollment or available staff change.

"Moreover, auditing academic and financial plans will not reveal significant problems in resource allocation, like the number of non-classroom teachers, which are predominately found at the district and at department level. If this measure is intended to ensure that resources are maximized at the school level, it fails to do so by leaving out state administration entirely.

"Additionally, academic and financial plans themselves are formed under the ongoing pressure of our state's education funding crisis. While the adequacy study that's included in this bill is theoretically intended to determine how much more money is needed to bring our schools up to par, it's actually another means of kicking the can down the road. Adequacy studies themselves vary in breadth and depth, based on who's performing the study. And it's not necessary to perform an adequacy study to know that our schools are in need of better funding.

"Hawaii actually conducted an adequacy study in 2005. Even at that time, almost 15 years ago, our schools were found to be underfunded by hundreds of millions of dollars. The situation has only gotten worse since then.

"We cannot audit our way to a better school system. To deliver the schools our *keiki* deserve, we must commit to creating a dedicated funding stream for public education that keeps quality teachers in our classrooms and gives students the resources and opportunities they need to succeed. Thank you."

Representative Woodson rose to speak in support of the measure, stating:

"Mr. Speaker, in support. Thank you, Mr. Speaker. I appreciate this particular proposal. In 2007, incorporated with a lot sweeping changes in our school system, the Legislature appropriated a bill that allowed for the establishment of school community councils. The school community councils were established to work with the communities and to work with the school to come up with not only financial plans, but also academic plans.

"And the idea is, these decisions are best made at the community level. And it's a strong way to establish effectiveness and efficiencies as it particularly relates to funding. So, in this way, this proposal actually encourages that that community involvement continue, and it's simply saying that we're using this mechanism as a means to look at the school systems to see if in fact our funding is adequate or if we need to do something about providing additional funding. So, for those reasons and others, Mr. Speaker, I stand in support."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 856, SD 1, HD 3, entitled: "A BILL FOR AN ACT RELATING TO THE DEPARTMENT OF EDUCATION," passed Third Reading by a vote of 50 ayes to 1 no, with Representative Perruso voting no.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 2210) recommending that S.B. No. 1292, SD 2, HD 2, as amended in HD 3, pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 1292, SD 2, HD 3 pass Third Reading, seconded by Representative Morikawa.

Representative Thielen rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. In support, but with just a few reservations. Mr. Speaker, the only thing that would improve the bill is if we would authorize the Department of Taxation to give the owner address information to the counties, then we would really have an effective bill. And if I may please have remarks to the Journal. Thank you."

Representative Thielen's written remarks are as follows:

"Thank you, Mr. Speaker. At this time, I rise in support with some reservations.

"As this body is well aware, the prevalence of transient accommodation rentals like those listed on Airbnb and VRBO have rendered our formerly vibrant communities almost unrecognizable.

"Streets that used to ring on Saturday mornings with the sound of lawnmowers and children playing have been replaced by row after row of rental cars and itinerant tenants.

"SB 1292 takes an important step toward enforcing the laws we have on the books by requiring hosting platforms like Airbnb, VRBO, Expedia, and other companies to register as tax collection agents on behalf of their operators and plan managers.

"This creates a vital component of compliance. It requires hosting platforms to report to the state the following information: Name, address where the transient accommodation is located, TAT ID number, and GET ID number. It will quickly become clear if vacation rentals are outside compliance.

"Requiring this kind of information is a necessary first step on the road to enforcing compliance with zoning and licensing and will hopefully reverse the over-proliferation of transient vacation rentals.

"I applaud this body for taking the bold steps necessary to increase the public's oversight on these companies destroying our precious communities.

"My concerns with this bill, however, come into play when we look at who is going to need this information to enforce the laws on the books. Unfortunately, this bill doesn't contain provisions to explicitly require information-sharing with counties, who need to enforce their ordinances.

"Therefore, Mr. Speaker, I cast a confident 'yes' vote with only mild reservations, wishing that this bill could have done slightly more to help restore our communities and reduce the number of illegal vacation rentals. Thank you, Mr. Speaker."

Representative Hashimoto rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Hashimoto's written remarks are as follows:

"Mr. Speaker, I rise with reservations on SB 1292.

I appreciate all the work that has already gone into this bill, which is an important step towards making sure that vacation rentals operate legally and pay their fair share of taxes. However, there are improvements to the reporting requirements that I would like to see made that are important to helping the counties with their enforcement responsibilities.

"In order for effective enforcement to take place, we must share data on vacation rentals with the counties. This is a situation where working together is critical to our future success and enforcement.

"If we didn't think this aspect of sharing information was critical, we should have passed a similar version of this bill years ago.

"Advertisements for transient accommodations should include their county permit or registration number in counties that issue them. And information gathered by tax collection agents should be made available to the counties for land use enforcement purposes.

"I have already spoken with some of my colleagues on Maui about what the language could look like. And as the bill goes through conference committee, I look forward to discussing its incorporation into the final version.

"Again, I appreciate all the progress that has already been made with this bill and, of course, with addressing an issue important to making our state more affordable to live in. Thank you, Mr. Speaker."

Representative Matsumoto rose in support of the measure and asked that the remarks of Representative Thielen be entered into the Journal as her own, and asked that her written remarks be inserted in the Journal, and the Chair "so ordered." (By reference only.)

Representative Matsumoto's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in support of SB 1292, SD2, HD3.

"I strongly sympathize with my constituents on the North Shore who have had their communities devastated by the proliferation of transient vacation rentals. Lively neighborhoods and stable community life have been replaced by the impermanence of temporary tenants, who contribute little to our civic life.

"SB 1292 is a vital step toward enforcing our current laws. It will bolster our ability to hold hosting platforms, like Airbnb, VRBO, and Expedia, accountable by requiring them to register as tax collection agents on behalf of their operators and plan managers. Reporting certain information to the State, such as the name, address where the transient accommodation is located, TAT ID number, and GET ID number is just a part of this bill's new requirements. With this information, the State will be able to better determine when and where vacation rentals are out of compliance with state and county law.

"I want to thank this body for taking the bold steps necessary to increase our oversight of these companies who are tearing apart our precious communities and raising rent for the rest of us.

"For these reasons, I support SB 1292, and eagerly anticipate the day when the liveliness and localness of our communities are restored."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1292, SD 2, HD 3, entitled: "A BILL FOR AN ACT RELATING TO TRANSIENT ACCOMMODATIONS," passed Third Reading by a vote of 50 ayes to 1 no, with Representatives Hashimoto and Thielen voting aye with reservations, and with Representative Say voting no.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 2212) recommending that S.B. No. 1405, SD 2, HD 1, as amended in HD 2, pass Third Reading.

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and S.B. No. 1405, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO ELECTRONIC SMOKING PRODUCTS," passed Third Reading by a vote of 49 ayes to 2 noes, with Representatives McDermott and Ward voting no.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 2213) recommending that S.B. No. 1033, SD 2, HD 1, as amended in HD 2, pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 1033, SD 2, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Okimoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Quinlan rose to speak in support of the measure with reservations, stating:

"With reservations, Mr. Speaker. So, this bill has been a topic of much discussion in my household. My wife actually was considering having a home birth, and while she ultimately decided not to, she did retain the services of a doula throughout her pregnancy. And this woman in particular I felt was very helpful to my wife throughout that pregnancy. And I would really be tempted to study this issue on a deeper level, but I must admit that on some level it does elude me, never having had any formal medical training, I cannot claim any great competence in this area.

"I've read all the testimony, much of it from my own constituents. And for those who are in opposition to this bill, please hear that I do take your concerns to heart and I have listened. But ultimately, I feel that, very strongly, that this is an area, whenever we have issues that touch on health services, I think licensure is increasingly important and appropriate. And for that reason, Mr. Speaker, I stand with reservations. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. Mr. Speaker, I come from a midwifery household. I am the only one born in a hospital in my household. But I see this as another one of those areas of overreach. Basically, because of the failed task forces that were supposed to basically come to an agreement, which they never held and then they never had an agreement, so we're stuck with a bill here that's, this is I think five versions of the bill, all of them flawed, because they all violate a woman's civil rights to choose where and with whom they can birth. Repeat, Mr. Speaker, violates a woman's right to choose where and with whom they will give birth. And I know there are a lot of people who are very big on women's rights.

"Specifically, in section one it says that the act does not impede one's ability to incorporate or provide cultural practices, but then, Mr. Speaker, fast forward to section six it says, oop, there's an exemption on traditional cultural practices that expires July 1, 2020. We're already almost to 2020. So, it doesn't provide a reasonable pathway to acquire certification in order

to become licensed in Hawaii because it does not include apprenticeship pathway after January 1, 2020.

"Second point, Mr. Speaker, is that there's no data that says this is any more dangerous than any other birth. In fact, you know it's embarrassing to cite this statistic, that the US is number, let's say we rank second to last in developing nations in infant mortality and maternal mortality rating. That is embarrassing, Mr. Speaker. So, if you're born in a hospital, compared to other parts of the developing world, we're at the bottom of the line. But here, Mr. Speaker, and we did extensive discussion of this in the Health Committee, we said, well where is the data that says how many people of midwifery birth versus hospital birth, what's the danger, what's the death rate, what's *et cetera*? No data. Repeated request, no data has come forward.

"So, Mr. Speaker, we're kind of behaving like the Europeans, and I say this having been a consultant with the United Nations for a number of years. The Europeans put up barriers to people getting into small business by having licensure and insurance requirements. This is to say that, in a way, there is a turf war that's always struggling, ever since the guild system in Western Europe. We want you to be licensed, we want you to be insured, or you can't get it. That's why small business does not survive in Europe, at least Western Europe.

"And here, Mr. Speaker, we've got it to where, and I commend the good Representative from Hilo, hey even barbers have got to be licensed. Well, those are areas where if we keep on this area of licensure and insurance, following the European model, someday we're going to have to license the dog walkers and others. Government will become even more and more aggressive in its licensure.

"So, Mr. Speaker, the bottom line here is that we don't have a proud record of hospital births, but yet we're trying to push out those in the midwifery business, those who have done heretofore from biblical days to now have done very well. And until we have data, until the metric says this is a danger to our public, let us leave our midwives alone to do the business that they were trained to do. Thank you, Mr. Speaker."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support of the measure. Just a little bit of history. The purpose of this bill is to resolve a lapse in regulation that occurred 21 years ago. This measure protects the health and safety of women and unborn infants by establishing licensure and regulating requirements for midwives under DCCA. To emphasize again, midwives were regulated in Hawaii from the 1930s to the 1998. The regulation of midwifery was repealed in 1998 when nurse midwives were placed under the purview of the board of nursing.

"Since then, the licensure of midwives is a matter that has been brought to the Legislature many, many times. It is well documented by Senate Concurrent Resolution 64, SD1 (1998), the subsequent 1999 Auditor's Report No. 99-14, House Concurrent Resolution 65, HD1 (2016), and the subsequent 2017 Auditor's Report No. 17-01 that we need regulation.

"Each year we hear stories why regulation is so needed in Hawaii. We may not have hard stats or figures, but unfortunately, the stories about what is happening in our communities are getting worse and worse. The Hawaii Section of the American College of Obstetricians and Gynecologists made this bill a top priority because of the cases that they see every day in our hospitals.

"Let me share with you some of their stories. From Dr. Ronnie Texeira, an OBGYN from the windward side, quote, 'we are seeing more midwives come to Hawaii to practice because they lost their license in another state. They can basically do whatever they want here without any repercussions. I had a patient whose midwife didn't even make it to her delivery but sent her apprentice who didn't know how to do a vaginal repair but did one anyway instead of just sending her to the hospital.'

"From Dr. Duffy Casey, an OBGYN on Maui, quote, 'I have taken care of patients who've lost more than one-half of their blood volume due to lacerations which were not recognized and left unrepaired, mothers with significant infections left untreated, and patients with massive hemorrhage.

These preventable complications occur when the unlicensed midwife providing care for the patient outside of the hospital misses the warning signs of a serious problem. They enter into a runaway cycle of denial and delay which leads to an escalation of the clinical problem.'

"And from Dr. Danielle Ogez, an OBGYN on Oahu, quote, 'I have taken care of a patient who had attempted a home birth with an unlicensed midwife, during which her uterus came apart. The baby did not make it, and she almost lost her life, but thankfully made it to the hospital in time. My colleague recently took care of a patient who had completed a home birth attended by an unlicensed midwife, and came into the hospital with further bleeding. He took her to the operating room to stop the bleeding and discovered an undiagnosed second twin.'

"I understand the concerns of members about access to health care in rural areas. I think the question we really need to be looking at is the quality of care that people are receiving, not just in rural areas but all over the state.

"I'd also like to clarify some misstatements about the bill in front of us. This bill provides an exemption for persons acting as birth attendants on or before July 1, 2023, not January 1, 2020. It also provides an exemption to those who are practicing traditional, Hawaiian healing practices of prenatal, maternal, and child care as recognized by any council of *kūpuna* convened by Papa Ola Lokahi. So, there is sufficient exemptions in here to allow for home birth and home choice.

"Finally, the task force that's been created will allow for members of the community to continue to provide recommendations to this body to be able to develop regulation of direct-entry midwives.

"This is a measure that has been worked on by many members in this body, and I would like to especially thank the Vice Chair of the CPC Committee as well as the Chair of Finance for taking up this important measure this session. So, Mr. Speaker, for all of those reasons, in strong support of this measure. Thank you."

Representative Mizuno rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Today the House of Representatives will have the opportunity to pass legislation on an issue that's been going back and forth through this body and the Senate for over 20 years. To our colleagues who will be voting no or with reservations, and to my good friend from Hawaii Kai, thank you. Thank you to display that we do not rubber stamp any bill before this body. In fact, the very genesis of state legislatures is to evolve with society.

"In looking at this bill, I have a question. Does a practice of midwifery touch upon health, safety, or welfare of our consumers? And the answer is yes. Clearly, yes.

"I'm going to go on a slight tangent, kind of like a story, and talk about my sister-in-law who has a nail salon. It's called Lily's Nail Salon at Ala Moana Shopping Center, and it relates to this bill and I'll tell you how. For all of her employees, cosmetologists, they need to be licensed. They have to have 1,800 hours at a minimum, 1,800 hours education and training. For her hair stylists, they need 1,200 hours minimum, education and training. And for people that simply do nails, nail technicians, 350 hours minimum, education and training. They all need to be licensed by DCCA, they all take state board exams.

"I'm sorry to make the comparison, but as I was pondering this bill and thinking about the delivery of a new born baby and the significant safeguards that we ought to have in place for our people, I made the comparison with people that make up our hair, work on our facial skin, and beautify our nails, and they're held to a very high standard as far as education, training, and our state board exams and standards. So, I'm a little perplexed that people are saying that this practice of midwifery should not be regulated when we regulate people that do hair, nails and skin.

"Mr. Speaker, the Auditor's report in 2017 was clear, and I am going to quote the words from the Auditor's report in 2017. 'The Hawaii Regulatory Licensing Reform Act requires that the profession of midwifery be regulated and its practitioners be licensed.'

"Mr. Speaker, within a one-year time period, I had the opportunity to chair three hearings on the midwifery bill, and I got to participate as a member on the Consumer Protection & Commerce Committee. Four times in just a one-year period, this issue has come across. So, to say we need a time out or another task force or just a little more time, from my point of view that's incorrect. We don't.

"And I want to encapsulate this bill with six words. Life, newborn, mother, safety, consumer protection. I believe it represents this bill, but I also believe it represents a good friend, our colleague, the Vice Chair of Consumer Protection & Commerce who fought for this bill, and if it wasn't for her we wouldn't be having a floor debate and having this go on third reading today. I'd also like to thank the Chair of Commerce, Consumer Protection, and Health Committee on the Senate side, I wanted to thank the Chair of Finance, and the Chair of Consumer Protection & Commerce on the House side."

Representative McKelvey rose to yield his time, and the Chair "so ordered."

Representative Mizuno continued, stating:

"And finally, I wanted to say, this is about civil rights for the newborn baby. For those reasons, I stand in support of this measure. Thank you, Mr. Speaker."

Representative Wildberger rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I'm standing in opposition in defense of our rural communities that don't have the same access to health care that we might have here on the island of Oahu. I'd like to, it's a little early for introductions, but the gallery is full of young women and practitioners that will be made illegal in three years from now. So, I'd like everybody to just look them in the eye and take your vote very seriously.

"I'd like to make the point that, while the examples of complications that were stated by our Majority Leader, by unlicensed midwives, there are no licensed midwives right now in the State of Hawaii. All midwives are unlicensed. And with the US having the second worst rates of infant mortality of any industrialized nation, the UN is recommending that the United States incorporate more midwifery practice to try to curb our infant mortality.

"Hawaii doesn't have a really bad infant mortality rate compared to the rest of the states. And so I'm glad there's a task force in this bill, I think that's a good component. I think the midwifery community is supportive of regulation and that a path to licensure, if it's being mandated, that licensure should be made available easily to these practitioners. Thank you, Mr. Speaker."

Representative Ward rose to respond, stating:

"Second time, Mr. Speaker, in opposition. First, I'd like to thank the Chair of Health who, Mr. Speaker, was overly open to all kinds of comments for all kinds of length of debate and I think it was a thorough hearing. So, thank you, Chair of Health. I commend those speakers who give anecdotes, but that's not hard data.

"Mr. Speaker let me confess, since I've been a freshman in this place coming out of academia, we use anecdotes and stories rather than data and hard facts to make legislation. I mean, if we were second in the developed world for maternal mortality, infant mortality rate in the hospitals, well what's the data to say about those who are with midwives?

"You know, passing legislation, and I'm going to make this for all the things that we do. If we don't have metrics, Mr. Speaker, this is seat-of-the-pants kind of policy making. And until we find out that whatever the midwives have done or not done, systematically not anecdotally. Anecdotally, anybody can anecdote. Everybody knows somebody who knows something about something. But to get facts and figures of which our Department of Health should be collecting if they're doing their job, we

should know unequivocally that this is dangerous and therefore should be regulated.

"Until then, Mr. Speaker, let the midwives do what they're doing and let the women's rights who choose to give birth with or without the hospital around. You know, this body is very big on women's rights. I think there's a bit of hypocrisy going on here, where they cannot choose a midwife because of what this bill is going to do to put them out of business.

"For those reasons, Mr. Speaker, I think we need to be aware that, as the Majority Leader has said, this used to be where it was regulated, but history is in the eye of the beholder. Why did they deregulate it? Because they said there's no problem. And if they didn't say there was no problem, they let it alone for the last 20 years, because there was no data that says that there is a problem. So, Mr. Speaker, let's not be a solution in search of a problem, let the midwives be the midwives and carry on what they're doing. Thank you."

Representative Perruso rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Tokioka rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Har rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. Please note my reservations. May I please adopt the words of the Vice Chair of the Energy & Environmental Protection Committee into the Journal as if they were my own. And with respect to the task force, I just think it behooves us to have an OBGYN who would also sit on the midwifery board. So for those reasons, Mr. Speaker, I stand with reservations. Thank you," and the Chair "so ordered." (By reference only.)

Representative D. Kobayashi rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Cachola rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative DeCoite rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Kong rose to speak in support of the measure with reservations, stating:

"With reservations, Mr. Speaker, brief comment. One thing I've learned at my age is, to me, birth is very natural and life happens. Thank you, Mr. Speaker."

Representative Lee rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. I wasn't planning on speaking on this measure, but I did want to say a few words, because this is something that has been somewhat a close issue to me for some time, behind the scenes.

"I, for a long time, have been very fortunate to know and be very close to an OGBYN who I have great respect for. And for a long time, I was chastised by her for coming home late because of our duties here. And the one day that we had set aside for a nice dinner, just getting away, she ended up not showing up. Which was kind of irritating, because I planned this whole thing out. But what I found out after the fact was the reason she hadn't shown up was because one of her patients had come back in to the hospital after a long break, and came in and spent 12 hours hemorrhaging and bleeding out and eventually coded and died, and the baby died too. And it was because bad advice was given by people who were a midwife at the time without the adequate training, skills, and ultimately decision-making capacity to do what was in the best interest of both the mother and the child. That's something that was completely avoidable. And just like that case, there are so many others that are completely avoidable.

"This is something that I think is so important, not just because it's a policy, it puts regulations in place that, that does all the things we've been

talking about, because ultimately it saves lives. And that's the bottom line. We can talk about data and statistics and all the things that my good colleague from Hawaii Kai mentioned, but the thing is, we know what's happening, whether it's one story or two or three or more. How many dead babies, how many dead mothers does it take to be enough to justify taking some action, to protect those who are still at risk? Because that midwife who was responsible for giving that bad information is still out there right now and is still working with families right now. So, Mr. Speaker, I think this is a prudent and responsible measure going forward. Thank you very much."

Representative Todd rose to speak in support of the measure, stating:

"Thank you, I just wanted to briefly correct the record. In support. There are literally dozens of comprehensive studies that you can find on a brief Google search, just like I could find them two years ago when I was part of the Health Committee. You can easily find them now. In virtually every part of the developed world, these studies exist. And what you will find is that, while in some countries, home births that are attended by midwives are safe, that is not the case on a large scale in the United States. You will find death rates for infants to be roughly anywhere from two to seven times higher, depending on the study and depending on the state. And you will find that in that subcategory, when you are differentiating between for states that do have licensure for certified nurse midwives versus uncertified, that the death rate is also higher for those uncertified nurse midwives.

"This is very easy to access, and to claim that there is no data is misrepresenting the case. So, while I would appreciate our Department of Health conducting a very broad study on this, there is data in virtually every other state and, like I said, almost every developed country. The data is relatively clear. And I wanted to give a brief shout out to modern medicine, which in 2019 we seem dedicated to fighting. Thank you."

Representative Say rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Mizuno rose to respond, stating:

"Thank you, second time, still in support, Mr. Speaker. I wanted to kind of address some of the questions from my good friend and colleague from Hawaii Kai, the Minority Leader. The reason we did away with the midwives board is because back in history there were only two midwives left at that time and they were both nurses, so they were rolled into the Board of Nursing.

"To also address another concern with statistics or data, from 1991 to 1996 we had approximately 171 home births, delivered at home, babies delivered at home. That's nearly doubled today. In 2015, the home birth rate was 339 in the State of Hawaii, and the trend continues upward. Therefore, it's important to have consumer protections to address home delivery.

"And finally, Mr. Speaker, the law is the law. Under the Hawaii Regulatory Licensing Reform Act, this Legislature, this body has a duty to license a profession so long as it deals with the health, safety or welfare of the consumers. So, under that law, it's our duty to license midwifery and the practice of home birth deliveries.

"Again, for those reasons and stating the obvious, the only person not at the table for this bill is someone that can't speak, the newborn baby. We owe it to have proper safeguards to ensure that newborn baby and the mother provides the best health care. Thank you, Mr. Speaker."

Representative Nakamura rose to speak in support of the measure, stating:

"In support. I'd like to ask that the words of the Majority Leader be adopted as my own," and the Chair "so ordered." (By reference only.)

Representative Nakamura continued, stating:

"And I also wanted to say that when I go to a dentist, I expect the dentist to be licensed. When I see a physician, I expect that physician to meet certain standards within our state.

"I think that a very important part of this bill is the creation of the task force, because the intent is not to put traditional midwives and not to put cultural practitioners out of business, but the three years gives us the time, the opportunity to have the deliberation to figure out what is the pathway that's best for this group of practitioners.

"And I really applaud the Commission on the Status of Women for stepping up to take on this job that hasn't been really implemented before. And I want to also recognize again the Representative from Aliamanu who has pulled together a step in the right direction for our state. Thank you."

Representative Ichiyama rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. May I adopt the words of the Majority Leader as if they were my own?" and the Chair "so ordered." (By reference only.)

Representative Ichiyama continued, stating:

"And permission to insert further written comments. I just wanted to make a few notes, and thank you very much to the Representative from Kauai for noting the importance of the task force.

"I think we all heard the concerns from the community that there was a section or a group of people who were not included in previous discussions, who are not being heard. And at the same time, we also heard the testimony that they wanted to support those who requested licensure, who sought licensure out for themselves.

"And so this bill strikes a balance by allowing those who have the credentials and training and who are ready for licensure, who are asking for licensure, to obtain that, to allow them to practice to the full extent of their ability. And then creates the task force as well as a four-year period for us to look at, okay, what is this other group? Who belongs in this group? What are their qualifications? What are their competencies? I think they deserve the time and space to really work those issues out and come back to us and explain, okay, what is a traditional midwife or a biblical midwife or a direct-entry midwife or a birth attendant or a birth keeper. So many names, so many definitions, Mr. Speaker, that I think really deserve a thoughtful discussion by the task force.

"I also think it's important to recognize that the task force is self-determination for this group. For them to talk amongst themselves, to work amongst themselves with the cultural practitioners and tell us what is right for them. It's not us imposing any hierarchy on them. It is them telling us what is right for that group.

"Finally, Mr. Speaker, I'd just like to highlight some data that was shared by the Midwives Alliance of North America. They did a study of 40,000 cases of birth planned in the community setting, and this data is derived from medical records, which is the gold standard of medical research. This data found that groups of pregnant women who had risk of preeclampsia, carrying babies in a breech position, have a significantly increased risk of serious outcomes, including neonatal mortality seven to ten times higher. And this is all research that has been conducted in the United States, Mr. Speaker.

"So, I think there is data out there, that there are times when a home birth is not the safest option for a mother and the child, and we need to ensure that there are practitioners in the community who can recognize those signs before it's too late. To recognize when they need to do a transfer so that we don't have patients showing up at the hospital who've have lost half their blood volume. I think those are the circumstances that we are trying to address with this bill. Thank you, Mr. Speaker."

Representative Ichiyama's written remarks are as follows:

"Thank you, Mr. Speaker, for the opportunity to submit additional written remarks in support of this measure.

"We have struggled with the issue of licensure of midwifery for many years. I sincerely appreciate the members of the Health and Finance

Committees who took the time to study this issue and understand all the moving parts.

"When this bill first came to the House, it had many challenges. We worked hard with all the stakeholders to listen to their concerns and consider their input. The result, which is before us today, is a much-improved measure that represents compromises on all sides.

"People have made a lot of statements about what this bill supposedly 'does.' Let's be clear about what the bill contains.

"First, the bill creates a program for licensure of midwives, starting July 1, 2020. In order to become a licensed midwife, you must either be a certified midwife or a certified professional midwife. Hawaii will continue to recognize the North American Registry of Midwives apprenticeship pathway for those who became certified professional midwives prior to 2020.

"Second, the bill completely exempts family members, OBs, certified nurse midwives and Native Hawaiian practitioners recognized by Papa Ola Lokahi. Native Hawaiian practitioners who do *lomi lomi*, *lā'au lapa'au* or other practices for *hāpai* women will be able to continue to do so without a midwife license.

"Third, the bill exempts birth attendants until July 1, 2023, so long as they do not use prescription drugs or devices, do not advertise as a licensed midwife, and provide certain disclosures to clients.

"This exemption is intended to allow traditional midwives, direct-entry midwives, biblical midwives, student midwives, birth keepers, *etc.* to continue practicing as they have been and to give them time to come back to the Legislature next year with a proposal on how they should be recognized as a profession and held accountable.

"That is why Part II establishes a Home Birth Task Force, so that all community birth practitioners can talk at the table with hospitals and OBGYNs on what are the appropriate levels of consumer protection and transparency and oversight. The intent is that the Home Birth Task Force will come back to us next session and we can consider their proposals.

"Finally, I would like the members to understand that this bill contains a five-year sunset with a requirement that the state auditor evaluate the program and whether it is accomplishing the goal of protecting consumers. In light of all the concerns raised, we want to make sure that we are getting this right and that we are protecting mothers, babies and families. Thank you, Mr. Speaker."

Representative Creagan rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. I'd like to get a ruling on a conflict, my wife is a certified nurse midwife," and the Chair ruled, "no conflict."

Representative Creagan continued to speak in support of the measure, stating:

"I wouldn't think so. In strong support. Anyway, because she is a certified nurse midwife, while she is retired, she was able to and she worked in hospitals only. But over the years, as the emergency physician and because my wife is a certified nurse midwife working in a hospital, we saw cases, disasters, that happened because of out-of-hospital births. We also saw disasters of in-hospital births.

"So, you know, birth is a very precarious operation. It's natural, but so is death. And in the past, there were many more deaths than you have presently. So, I think I wanted to congratulate the Vice Chair of Consumer Protection & Commerce and the Chair of Health for taking on this issue, which I think is very vital, and as the Chair of Health says, is supporting the babies. Not just the mothers, but the babies. And I think that's what we should keep in mind going forward. Thank you, Mr. Speaker."

Representative Matsumoto rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I stand in support. And if I could have the words from the Vice Chair of CPC entered into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Matsumoto continued, stating:

"And just a few brief comments. I think I might take a little bit different take on this bill. I gave birth to my son a year and a half ago, and I did opt to have my birth in the hospital, but I was attended by a doula, because I wanted to have a natural home birth.

"And what I actually see this bill doing is providing a pathway to having more home births that are covered by insurance, because birth can be costly. And so in states that have licensure like New Hampshire, New Mexico, New York and Vermont, they also require insurers to cover at-home births, something that's currently not happening now.

"So, I actually see this bill as a way to move forward, to have a pathway to have more home births, and to also have a continuum of care, to be able to have that transferability in case there are issues, that there are that relationships between the midwives and the OGBYNS and the doctors and the hospitals. And for those reasons, I stand in support. And I'd also like permission to insert more written comments into the Journal. Thank you."

Representative Matsumoto's written remarks are as follows:

"At this time, I rise in support.

"Mr. Speaker, a person in Hawaii could not cut your hair or install gutters on your house unless they were properly licensed to do so. We regulate these industries because we want to protect our citizens from mistakes that could happen with unregulated and unchecked services. Similarly, we regulate doctors, nurses, and other healthcare professionals; we require them to obtain licensure as a way of verifying that they have the proper training and credentials to provide their services in a safe manner. Mr. Speaker, regulation of midwives is no different.

"SB 1033 is simply a measure to protect the most vulnerable among us, unborn infants. Requiring licensure would allow women who decide to use these services to do so confidently – knowing that the midwife they select is properly educated and licensed to provide the care necessary for that position.

"Mr. Speaker, Having the opportunity to talk with first responders, those on the front lines who witness the terrible tragedy that can result when a home birth goes awry, the necessity of this measure becomes all the more obvious. Even one preventable death, is one too many.

"A road to licensure for midwives would allow more underserved communities and underserved women to take advantage of these services. By having licensure and educational standardization for these medical professionals, insurance companies will likely be more willing to cover the costs associated with these services, making them much more widely available.

"Mr. Speaker, the person who cuts your hair or installs gutters on your house is required to be licensed to engage in those activities; it is extremely unlikely that either of those individuals will be required to provide decisive care in a life or death situation. Midwives are involved in the delivery of a baby outside of a hospital setting – they may, at any time, be required to act to save a life.

"Mr. Speaker, it simply makes good sense that we, as a body, make sure that when, not if, that situation arises, the midwife is ready and capable of meeting that great responsibility. For those reasons, I am in strong support of this measure. Thank you, Mr. Speaker."

At this time, Representative Quinlan called for the previous question.

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1033, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO THE LICENSURE OF MIDWIVES," passed Third Reading by a vote of 47 ayes to 4 noes, with Representatives Cachola, DeCoite, Har, D. Kobayashi, Kong, Okimoto, Perruso, Quinlan, Say and Tokioka voting aye with reservations, and with Representatives Gates, McDermott, Ward and Wildberger voting no.

At 10:44 o'clock a.m., the Chair noted that the following bills passed Third Reading:

S.B. No. 1466, SD 2, HD 2

THIRD READING

S.B. No. 1223, SD 2, HD 1:

Representative Belatti moved that S.B. No. 1223, SD 2, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Nakamura rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Nakamura's written remarks are as follows:

"While the Department of Hawaiian Home Lands (DHHL) claims that Act 141 has been successful, at the April 4, 2019 Finance Committee hearing DHHL was unable to provide data related to the number of new homes or lots created under this act in the last 10 years. This lack of data does not support DHHL's claim that this program provides beneficiaries affordable housing opportunities at no cost to the State.

"The City and County of Honolulu Department of Planning and Permitting has concerns that this program creates credit value that DHHL is able to sell to developers who then use the credit value to fulfill affordable housing requirements imposed by respective counties. This actually comes at a cost to the counties and State, as each credit used by a developer reduces the number of affordable homes that otherwise would be produced as part of county or city transit-oriented development projects, unilateral agreements or as mandated by Ordinance 18-10.

"DHHL should be required to keep record of the number of homes and lots that are created under Act 98 and Act 141, respectively.

Representative DeCoite rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"With reservations. I am voting with reservations on this bill because this law has been on the books for 10 years and will be extended for another five years under this bill. I would like more information on how the use of these credits has helped DHHL develop affordable housing. How many affordable housing units has DHHL built and how much was spent by developers to do so? Since the City and County of Honolulu expressed concerns that these credits will reduce the number of affordable homes produced as part of their transit-oriented development projects, what impact will the DHHL credits have on them in the next five years? *Mahalo.*"

The motion was put to vote by the Chair and carried, and S.B. No. 1223, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO AFFORDABLE HOUSING ON HAWAIIAN HOME LANDS," passed Third Reading by a vote of 51 ayes, with Representatives DeCoite and Nakamura voting aye with reservations.

S.B. No. 1002, SD 1, HD 1:

Representative Belatti moved that S.B. No. 1002, SD 1, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I just want to stand in support, and if this bill were a child, it would be available for selective service this year."

The motion was put to vote by the Chair and carried, and S.B. No. 1002, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE ISSUANCE OF SPECIAL PURPOSE REVENUE BONDS TO ASSIST SEAWATER AIR CONDITIONING PROJECTS ON OAHU," passed Third Reading by a vote of 51 ayes.

ORDER OF THE DAY

SUSPENSION OF RULES

On motion by Representative Morikawa, seconded by Representative Matsumoto and carried, the rules were suspended for the purpose of considering a certain House Bill for Final Reading by consent calendar. (Representatives Holt and Saiki were excused.)

FINAL READING

H.B. No. 1561, HD 1, SD 2:

Representative Belatti moved that H.B. No. 1561, HD 1, SD 2 pass Final Reading, seconded by Representative Morikawa.

Representative Say rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative DeCoite rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"With reservations. I am voting with reservations on this bill because I am not convinced that we need to spend \$100,000 for an audit of the ADC. HB 1561 does not specify any objectives for the audit, so it leaves it up to the auditor to determine. I believe this money could be used for other pressing needs that face our state.

"The ADC budget bill also specifies what will be required in its annual report including information relating to: the number of lots ADC leased or used, by size and island; the number of lots the ADC leased or used, by island, that contains protocols and conditions supporting specialty farm products; the number of vacant parcels and unoccupied parcels in the leasing process, by island, including the parcel size, location, and date the parcel was last occupied by a tenant; and a description of any lease sales or transfers approved by ADC. I am not sure what the purpose is for requesting this information, nor the questions behind the request.

"The annual report should also provide details on how it spent the money appropriated to it by the Legislature and highlight activities of what it has done in the past year. Do we need an audit to get that kind of information? *Mahalo.*"

Representative Luke rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. This is the budget of the ADC, and I just wanted to thank the good work of the Ag Chair and the members of the House for continuing to insist on transparency and accountability. What we have today is not just the ADC budget, but it also has the performance audit and the financial audit in this bill. I just wanted to also thank the Senate and my Senate counterpart, Ways and Means Chair, for agreeing to this draft. So, thank you very much."

The motion was put to vote by the Chair and carried, and H.B. No. 1561, HD 1, SD 2, entitled: "A BILL FOR AN ACT RELATING TO AGRIBUSINESS DEVELOPMENT," passed Final Reading by a vote of 49 ayes, with Representatives DeCoite and Say voting aye with reservations, and with Representatives Holt and Saiki being excused.

At 12:22 o'clock a.m., the Chair noted that the following bills passed Final Reading:

H.B. No. 1561, HD 1, SD 2

ANNOUNCEMENTS

Representative Ward: "Mr. Speaker, today is the 158th year since the beginning of the Civil War. I only announce that because it was between the North and the South, and now the contemporary version of where we are divided is sometimes Democrat, Republican, blue, red. The point is, and it follows, I think, Pastor Chun's prayer, that we have the courage to work through our differences and not do what they did between the North and the South 158 years ago. Thank you."

Representative Todd, for the Committee on Water, Land, & Hawaiian Affairs, requested a waiver of the 48-hour advanced notice requirement for the purpose of hearing the following measure on Friday, April 12, 2019, at 2:00 p.m. in Conference Room 312, and the Chair "so ordered."

S.C.R. No. 180, SD 1, Supporting the Development of a Hawaiian Language Plan, Including Goals, Benchmarks, Strategies, and Outcomes, to Build Upon Accomplishments and to Accelerate the Normalization of 'Olelo Hawai'i.

Representative Nakamura: "Thank you, Mr. Speaker. Tomorrow marks the one-year anniversary of the rain bombs that severely impacted East Honolulu and the North Shore of Kauai. Fifty inches of rain fell in Waipa on the North Shore over a 24-hour period, setting a national record. The floods damaged homes, vehicles, businesses, roads, schools, farms, parks, and trails, and there were 12 rock slides in a two-mile stretch.

"Mr. Speaker, while many families and businesses have recovered, there's still a stretch of highway undergoing hillside stabilization and road rebuilding. Over 1,500 residents in Wainiha and Haena have scheduled their lives for the past year around a set convoy schedule regulating when they can enter and leave their neighborhood. We have been told that the last stretch of the road repair will be done by the end of the month, while the three one-way bridges will be done in May or early June.

"Mr. Speaker, within 10 days of this flood event, the Legislature approved funding to assist Kauai. We are most grateful that funds were used, and continue to be used, to help with the recovery and rebuilding. So, on behalf of the Kauai delegation, I would like to thank you and this body for coming to the assistance of Kauai in time of our greatest need. *Mahalo*."

At this time, the Chair stated:

"The Chair would like to remind committee chairs that today is the last lateral filing deadline for the Senate concurrent resolutions that need to move to their final committees. Please file your committee reports and drafts with the Chief Clerk's Office by 6:00 p.m. this evening.

"Also, members, please note that floor session will convene at 11:30 a.m. effective Monday, April 15 through Wednesday, April 24. This is to maximize the amount of conference committee time available for members to meet and carry on negotiations."

"Expressing support for convening an Artificial Intelligence Advisory Committee.

"I would like to add the high degree of urgency that the State of Hawaii should have to the development of artificial intelligence projects. China's threat is to be the global leader in AI by 2030, and has extensively accelerated its investments in AI, especially by the Chinese Government. Consequently, our nation is in an AI arms race with China. With China gaining ground, in February President Trump has expressed the urgency of the U.S. maintaining its preeminence in AI for the U.S. Economy and national security, declaring that all agencies step up their involvement in this area. We need to clarify of what we mean by artificial intelligence. Is it to be augmented intelligence, emphasizing AI's assistive role, or an expert system, which is a computer system and attending software which captures and applies the knowledge and skills of a human expert to bear on a problem. Can we democratize familiarity and learning about AI involving legislators, their staff and support departments with more usage of mobile apps? We also propose a pilot project based on AI, for example, a legislative bills analysis expert system."

Representative Thielen rose to speak in opposition to the measure, stating:

"Mr. Speaker, on 2265, authorizing the issuance of an easement for pier and seawall, I would like to say few remarks in opposition. Mr. Speaker, again, this is another one of those measures where we're allowing the shoreline to stay hardened even though we know that sea level rise is inevitable. And unfortunately, the Department of Land and Natural Resources has not come out with a policy statewide. I could understand extending an easement for a one, two, or three-year period, until DLNR and the Board of Land and Natural Resources comes up with a way that we're

going to address sea level rise and what we're going to do with these hardening structures.

"So, until we have some leadership at that level, led by the fifth floor, which also has not done anything about this, I am going to continue to vote no on these measures. It's a 65-year lease, and by that time we will be well into the impacts from the rising seas around our islands."

"Mr. Speaker, reservations, and the only reason I'm standing for reservations, because I'd like the words of the speaker from Kailua entered into the record as if they were my own, because it is clearly, this is one where the fifth floor, as was stated earlier, is very culpable, so I just wanted note that," and the Chair "so ordered." (By reference only.)

Representative B. Kobayashi rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations. I would agree with the member from Kailua that a policy needs to be developed on these issues. A couple weeks ago, there was a similar resolution passed for a seawall in my district. I did not know at the time what the details were, but this is a seawall built upon rocks. So, it is not on any sandy beach. But of course, it is being damaged by wave action, even though it is on rocks. That kind of situation is a bit different, I think, than other seawalls that are actually built on sand, not rocks. And those are the kinds of policy decisions that need to be made by DLNR, so that there's clear-cut guidelines as to what might be allowed and what not. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.C.R. S.B. No. 1148, SD 2, HD 1	Gabbard, Chair; Inouye, Co-Chair; Fevella	Representative Takayama rose to speak in support of the measure, stating:	

"Mr. Speaker, in strong support. Mr. Speaker, the measure we're considering today along with the next measure combined, go a long way towards enabling our *kūpuna* to age in place gracefully in their homes, where they prefer. With the help of limited state services such as Meals on Wheels or transportation or some light housekeeping, they are able to age in their own home as opposed to nursing homes. The beneficiaries from all this are not only our seniors but also their families, who often serve as

caregivers, and we as taxpayers ourselves, because when people impoverish themselves to go on Medicaid to enter nursing homes at a cost of more than \$126,000 per year, who ends up footing the bill? It's us as taxpayers.

"So, as we all know, we in Hawaii live longer than any other place in the world, and certainly the United States. These measures go a long way towards ensuring that those who are enjoying their golden years do so in comfort and happiness and joy. So, for those reasons I ask members for their support for these measures. Thank you."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Mr. Speaker, one of the things that I believe we tried to do over the course of this session is to really focus on addressing the high cost of living, and this measure certainly does that. I'd like to also point out that this measure takes it a step further and ensures that the money that's appropriated in this bill for Kupuna Care will be folded into the base budget, the executive budget, as well as the appropriations for two years. In the past, advocates have asked us to do this, but we have refrained from doing it on a year to year basis.

"This bill really demonstrates our commitment to ensuring that the high cost living, particularly for our elderly who face increasing costs at a time when they don't have increasing income, to be able to live and thrive in our communities. So, for those reasons, Mr. Speaker, in strong support of this measure."

The motion was put to vote by the Chair and carried, and H.B. No. 465, HD 1, SD 2, entitled: "A BILL FOR AN ACT RELATING TO AGING," passed Final Reading by a vote of 51 ayes.

H.B. No. 468, HD 1, SD 2:

Representative Belatti moved that H.B. No. 468, HD 1, SD 2 pass Final Reading, seconded by Representative Morikawa.

Representative Takayama rose in support of the measure. [Note: See H.B. No. 465, HD 1, SD 2, for remarks.]

The motion was put to vote by the Chair and carried, and H.B. No. 468, HD 1, SD 2, entitled: "A BILL FOR AN ACT RELATING TO THE HEALTHY AGING PARTNERSHIP PROGRAM," passed Final Reading by a vote of 51 ayes.

At 11:50 o'clock a.m., the Chair noted that the following bills passed Final Reading:

H.B. No. 465, HD 1, SD 2
H.B. No. 468, HD 1, SD 2

ANNOUNCEMENTS

Representative Thielen: "Mr. Speaker, at the appropriate moment could we all stand for a moment of solidarity with the people of France as they're mourning the tragic fire that has destroyed part of Notre-Dame."

Representative Johanson: "Thank you, Mr. Speaker. It's fitting that on a day where we are celebrating aging and recognizing its importance, we do want to recognize our colleague from the 48th District who celebrates her birthday today and who is aging with so much grace. So, if we could all give our colleague a big hand for her birthday today."

Representative Quinlan: "Alright, so you guys see that guy sitting in the middle there, that is Brian. Brian has asked us all to please come down and sign the House Staff Directory and make our mark on history. If we do not do this, Brian will become sad, and every time Brian cries a fairy loses its wings. So, please you guys, will you go down the Clerk's Office and sign the House Staff Directory."

Representative Ward: "And before you see Brian and sign, please remember that the fellowship luncheon is still on, however the guest speaker had a family emergency, but I am told that Representative McDermott has

Subway sandwiches for all of those of you who have signed up, and it is Room 423. Thank you, Mr. Speaker."

Representative Matsumoto: "Just wanted to remind all of the members that we're coming up to the end of our Easter basket collection on behalf of the Women's Caucus. And so, if you can drop off all of your baskets to my office in Room 315. We have three organizations this year, Salvation Army, IHS, and PACT.

"And so, we normally do about 150, 180 baskets every year. We have about 30 right now. So just wanted to remind everybody that we're doing our Easter basket event, and it will be happening on Thursday at 1:45 p.m. in the front foyer, and we'll have our surprise Easter Bunny and Easter chick there for you to take pictures with. So, don't forget."

UNFINISHED BUSINESS

Conf. Com. Rep. No. 2 and H.B. No. 330, HD 1, SD 1, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 330, HD 1, SD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, strong support, request for written comments in the Journal. Thank you."

Representative Ward's written remarks are as follows:

"Mr. Speaker, I rise in support but would also like to recommend that a part of the monies be designated for support of the suicide prevention hotline, especially as for any immediate need to do a home visit consolation, or at any other location. I would also suggest that the Department of Health conduct more frequent suicide education and counseling for students at intermediate and high schools, and how to get private and urgent counseling assistance. We live in a day and age where suicide deaths are becoming more prevalent, and we need to ensure that our residents, especially our children, have the appropriate resources if and when they might need them."

Representative Nakamura rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Two weeks ago, I introduced to you 38 students from the Kapaa Middle School's AVID program. These students have a desire to attend college and, if successful, will be the first in their family to attend college. The Kauai delegation hosted lunch and, over Zip Pacs, talked about their concerns. The bad traffic through Kapaa-Wailua, homelessness on our island, and the large number of teen suicides on our island.

"Mr. Speaker, you've heard many of the overall suicide statistics, one suicide in every two days in our state. For every death by suicide, 90 attempts are made. What is less known is that in Hawaii, suicide is leading cause of injury-related deaths for 15 to 29-year-olds. For this same age group, there are about 45 deaths every year, or close to two youth suicides every single month. And for every youth suicide, there are 180 emergency room visits and close to 60 hospitalizations that we don't hear about.

"Mr. Speaker, there are a lot of statistics, but I'm sure everyone in this body has been personally touched directly or indirectly by youth suicide deaths and suicide attempts. My family, my children, while in middle and high school, have been personally touched, and we all must be aware that suicide is preventable. We all have to be gate keepers and be aware of warning signs and bring the needed resources without a moment to spare to our youth in need.

"In 2016, the Legislature created the Prevent Suicide Hawaii Taskforce, a statewide collaboration that includes county-based task forces. Last year, the taskforce submitted a community-based thoughtfully written strategic plan outlining their proposed work in early intervention, education, and prevention. And they are implementing the plan.

"Mr. Speaker, the \$150,000 in HB 330 will go to the Department of Health and the Prevent Suicide Hawaii Taskforce. It's my hope that these funds can help leverage private sector and foundation funds to help implement the taskforce's strategic plan as it relates to our most vulnerable youth between the ages of 10 to 24.

"By the way, Mr. Speaker, the Kapaa Middle School students told me that bullying and especially cyber-bullying contributes to sadness and worthlessness. And they told me that this is happening at the elementary school level. The lack of activities for youth after school and on weekends and the lack of mental health treatment in rural areas also contribute to the high neighbor island suicide rates.

"I would like to acknowledge the Representatives from Puna and Kona for working with me on this bill, for the Representatives from Kalihi Valley and Nuuanu for hearing and funding this bill, and the Majority Leader for her leadership throughout this process. *Mahalo pihā.*"

Representative Morikawa rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Strong support. Too many suicides have happened in my district, so this is really critical for us. And I'd also like the words of the previous speaker to be inserted as if they were my own. Thank you," and the Chair "so ordered." (By reference only.)

Representative Lowen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I'd like to adopt the words of the speaker from Kauai, from Kapaa, as if they were my own and also add that on Hawaii island, our rate of suicide is the highest in the state, and that's really frightening. These are children who are going through such difficult times that they feel that this is the only choice they have. And so, this is a step in the right direction to take a step toward preventing it. And I'm just thankful that we are passing this bill today," and the Chair "so ordered." (By reference only.)

Representative Gates rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I stand in strong support. As a House conferee for HB 330, I was honored to help move this bill out of committee. Suicide is something that affects our entire state but is not often discussed. Youth suicide is an issue that is a major concern for my community. Two of the most at-risk groups of youth are located on the Waianae coast. Those youths being of Native Hawaiian descent or being from a rural background. Youth suicide rates have consistently risen, and we needed to do something to address this issue.

"In HB 330, it appropriates funds to the Department of Health to support statewide youth suicide early intervention and education initiatives focusing on youth between the ages of 10 through 24. This bill is a crucial step in battling the factors that contribute to suicide. And I believe we must all do our part in bringing awareness by having robust discussions within our communities. And we must also be there to offer our *keiki* guidance, so they can navigate through perilous times without feeling alone. And I would like to *mahalo* the advocates and the legislators who worked hard on this measure, and I'm looking forward to having the Governor sign it into law. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 330, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO SUICIDE PREVENTION," passed Final Reading by a vote of 50 ayes, with Representative Mizuno being excused.

At 12:06 o'clock p.m., the Chair noted that the following bill passed Final Reading:

H.B. No. 330, HD 1, SD 1, CD 1

REPORTS OF STANDING COMMITTEES

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 2284) recommending that S.C.R. No. 3, SD 1, HD 1 be adopted.

Representative Belatti moved that the report of the Committee be adopted, and that S.C.R. No. 3, SD 1, HD 1 be adopted, seconded by Representative Morikawa.

Representative Thielen rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I wish to cast a no vote on SCR 3, Stand. Com. Rep. No. 2284, and explain why. Mr. Speaker, this would convene a task force to look into installing sprinklers in single-family residences, and we know the cost of that, Mr. Speaker, we know what it would do to the cost of construction, we know what it would do to the cost of homes for sale.

"And I find that this sprinkler system is almost becoming archaic with the technology that we now have available to us. That technology can spotlight immediately any kind of a fire. You can sit with your cell phone and take a look at what's going on in your house if you're wired in that way, to be able to do that. We have many more current kinds of things to do that are less costly than installing expensive sprinkler systems in our homes and making those homes even more unaffordable for our people. Thank you."

Representative Lee rose to speak in support of the measure, stating:

"Thank you, just in support, Mr. Speaker. I'd just like to note that sprinklers do play a pivotal role in preventing fires. Had the Cathedral of Notre-Dame had a sprinkler system, it would not have burned. But more importantly here in Hawaii, for individual residences, having a discussion about what might be appropriate, if it leads to even saving one life, is something, I think, that is worthy of consideration. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.C.R. No. 3, SD 1, HD 1, entitled: "SENATE CONCURRENT RESOLUTION CONVENING A TASK FORCE TO STUDY THE ISSUE OF RESIDENTIAL SPRINKLER COSTS IN NEW ONE- AND TWO-FAMILY DWELLINGS," was adopted, with Representative Thielen voting no, and with Representative Mizuno being excused.

Representative Belatti moved that the report of the Committee be adopted, and that S.C.R. No. 15 be adopted, seconded by Representative Morikawa.

Representative Thielen rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I want to cast a no vote please on 2291, 2292 and 2293 and explain why. Mr. Speaker, today is Earth Day. And we take a look around us, particularly in our island chain, and we recognize that sea

level rise is coming, no matter what we want to do. We know that it is inevitable. And the best thing that we can do is try to cut our carbon footprint and also try, at the most, to prepare ourselves for those rising seas.

"These three resolutions do exactly the opposite. What they do is they allow, well they were illegal, but they allow the seawalls, the revetments, the piers, the structures that are in the path of the rising sea, they allow them to stay for a term of 65 years. Well, by that time, they're going to be well underwater, so is a lot of the rest of our island chain. But to do this on Earth Day and to do it without having a plan developed by the Governor and his administration is just simply wrong.

"We don't have the leadership from the fifth floor to be able to put things in place, to say, we have to be prepared. And while these people maybe need to make some repairs to their seawalls, revetments and piers, maybe let them do that for a period of three years, as the Department of Land and Natural Resources assesses what's going on in that particular area. Should those structures be allowed to go? Are they preventing other natural movement of the rising seas? And are they maybe going to make other areas be in worse shape?

"So, while these three areas get to continue hardening the shoreline, other areas aren't going to be able to, and shouldn't be able to, and it's a foolish policy I think, Mr. Speaker. And I fault the fifth floor for lacking a plan. And I think that we need to step forward and start with a plan. Any measure like this should have no longer life span than three years at the most. Put the pressure back upstairs and have them get to work on a plan where we don't harden our shoreline, but we let the natural course take it's time and be able to move things inland. Thank you."

Representative McKelvey rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. On the same measures, 2291, 2292 and 2293, no vote, and would like the words of the previous speaker, from the words from 'the fifth floor' on to be entered as if they were my own. Thank you."

Representative Perruso rose to speak in opposition to the measure, stating:

"Same request, Mr. Speaker. In opposition to SCR 2291, 2292 and 2293 for the same reasons. Thank you."

Representative Wildberger rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. Same request for 2291, 2292 and 2293, please. Without cogent statewide policy plan, in the same manner that we manage our agricultural lands, we should be managing our costal lands. I ask that the words from my colleague from Kailua be entered into the Journal as my own. *Mahalo*," and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.C.R. No. 15, entitled: "SENATE CONCURRENT RESOLUTION AUTHORIZING THE ISSUANCE OF A TERM, NON-EXCLUSIVE EASEMENT COVERING A PORTION OF STATE SUBMERGED LANDS AT KANEOHE, KOOLAUPOKO, OAHU, FOR THE EXISTING PIER AND SEAWALL, AND FOR USE, REPAIR, AND MAINTENANCE OF THE EXISTING IMPROVEMENTS CONSTRUCTED THEREON," was adopted, with Representatives McKelvey, Perruso, Thielen and Wildberger voting no, and with Representative Mizuno being excused.

FINAL READING

Representative Belatti moved to agree to the amendments made by the Senate to the following House Bill, seconded by Representative Morikawa and carried: (Representative Mizuno was excused.)

H.B. No. 655, HD 1, (SD 1)

H.B. No. 655, HD 1, SD 1:

Representative Belatti moved that H.B. No. 655, HD 1, SD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Just a brief comment in support. I'd like to acknowledge and thank members of both the House and Senate on moving this measure forward. We were a little bit too efficient and we moved this too quickly, so we had to do a little bit of fancy footwork and make sure that this measure had an appropriate effective date.

"I rise in support because I wanted to mention, as we introduced earlier, the Prevent Suicide Hawaii Taskforce is an organization with us, a network of over 100 public and private organizations, including government agencies, that work to improve and educate the community about suicide prevention and awareness, as was discussed in the previous bill.

"This bill, some members sometimes think the designation of month is not so important, but this particular measure designating September as Suicide Prevention and Awareness Month will play a key part in advancing the recommendation of the taskforce in raising greater awareness overall. This taskforce is doing such important work, and one of their strategic recommendations, as mentioned by the Representative from Kauai, was to reduce suicide in Hawaii by at least 25% by the year 2025.

"We don't do things simply in Hawaii or we don't do things just a little half approach. This recommendation was actually modeled after a national project of 20% by 2025. Here in Hawaii, this taskforce has done such tremendous work and has set the goal of 25% by the year 2025. So, this is really an important measure to help us advance in our efforts. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and H.B. No. 655, HD 1, SD 1, entitled: "A BILL FOR AN ACT RELATING TO HEALTH," passed Final Reading by a vote of 50 ayes, with Representative Mizuno being excused.

GOVERNOR'S MESSAGES

The following message from the Governor (Gov. Msg. No. 1114) was received and announced by the Clerk and was placed on file:

Gov. Msg. No. 1114, dated April 18, 2019, informing the House that on April 17, 2019, pursuant to Section 16 of Article III of the State Constitution, the following bill became law without his signature, stating:

"Dear President Kouchi, Speaker Saiki, and Members of the Legislature:

Re: SB464 SD2

SB464 SD2, entitled "A BILL FOR AN ACT RELATING TO PRIVATE PROPERTY." will become law without my signature, pursuant to Section 16 of Article III of the State Constitution.

Albizia has become one of Hawai'i's most detrimental invasive plant species and is overtaking our natural ecosystems. Its rapid growth rate produces a large number of trunks and limbs that are structurally weak. Tropical Storm Iselle demonstrated that albizia can cause significant damage to infrastructure and be a threat to human life. To address the increasing concern, Hawai'i Invasive Species Council released the "Strategic Plan for the Control and Management of Albizia in Hawai'i" in 2018. Although the State has been actively addressing the situation, there is no mechanism to control albizia on private property.

The purpose of this bill is to authorize a property owner or agent to enter adjacent vacant privately owned real property with albizia to control the trees before they become hazardous. The property owner or agent must meet the following criteria before proceeding:

1. Consult with a certified arborist to confirm that the albizia trees are creating a condition that could become hazardous, but can be safely addressed.
2. Unsuccessfully make two or more reasonable attempts to contact the owner of the adjacent private property within the previous thirty days via telephone or registered mail
3. Give written notice to the adjacent property owner prior to accessing the adjacent property to prevent the property from mistakenly being determined vacant.

The bill also establishes a defense for the entering property owner or agent to criminal prosecution for criminal trespass and criminal property damage offenses.

Although SB464 SD2 addresses the control of albizia on private property, there are some concerns about its implementation and enforcement. The bill is adding a new section to the Hawai'i Penal Code in chapter 708, Hawaii Revised Statutes (HRS) that addresses offenses against property rights. However, a law that does not create criminal offenses, but rather allows entry onto private property to control albizia, should not be added to this section of HRS. The provision also creates a rather broad defense for the person entering another's land in regards to criminal property damage

offenses. Perhaps the defense should have been limited to the damage of albizia trees instead of general property damage.

Placing this new law into the Hawai'i Penal Code, also places the burden on the prosecutor's office to disprove beyond a reasonable doubt that the property owner or agent entered an adjacent vacant property without fulfilling the prerequisites of this statute. This would result in the owner or agent entering the property not having to prove compliance with the albizia control provisions.

The requirement to consult with a certified arborist could create difficulties. It is unclear how the certified arborist is to legally enter the private property if necessary to make an assessment.

The bill does not require any experience or licensure to fell or remove the targeted tree and lacks disposal requirements. This could result in unintended propagation of albizia in other area of previously unaffected lands.

Finally, the language of SB464 SD2 is very vague. The bill defines "vacant" as "improved or unimproved but having no reasonable indication of use or maintenance for one year or more." The term "vacant" is extremely important to this bill, as the bill is authorizing entry onto another person's private property, provided it is vacant. The definition of "vacant" is unclear and the terms "improved" and "unimproved" are not defined in this section. Also, the phrase "indication of use or maintenance for one year or more" can be interpreted in many ways. The concerns over these terms could lead to unintended circumstances.

Despite the concerns, SB464 SD2 will provide a mechanism to remove hazardous albizia so that landowners can have an option to protect themselves and their infrastructure from damage.

For the foregoing reasons, SB464 SD2 will become law as ACT 013 (19), Session Laws of Hawaii 2019, without my signature.

Sincerely,
/s/ David Y. Ige
DAVID Y. IGE
Governor, State of Hawaii"

Representative Belatti's written remarks in support of the measure are as follows:

"I rise in support of House Bill 1417, Conference Draft 1.

"Words matter. Mission matters. House Bill 1417, Conference Draft 1 codifies the duties of Hawaii's Department of Human Services ('DHS') to read as follows: 'The department shall administer programs through an integrated and multigenerational approach designed to improve the social well-being, economic security, and productivity of the people of the State and to reduce the incidence of intergenerational poverty and dependence upon public benefits.'

"DHS has long been implementing its programs using a multigenerational approach to more systematically address root causes of poverty. This multigenerational approach that focuses on children, adults, and families is truly Hawaii at its best and embodies the values associated with 'ohana and kuleana that leaders in our community live by.

"By updating and codifying DHS' authorizing statute, House Bill 1417, Conference Draft 1 better aligns practice and policy – and will help both DHS and the many community partners, stakeholders, service providers, and beneficiaries that DHS works with to achieve the positive outcomes that make for a stronger and more resilient community.

"Without reservations, I support passage of House Bill 1417, Conference Draft 1."

Representative Belatti's written remarks in support of the measure are as follows:

"I rise in strong support of Senate Bill 330, Conference Draft 1.

"This bill sets Hawaii onto the path of creating an earned income disregard program that allows individuals with disabilities to earn income and not lose their Medicaid benefits.

"Named after Kal Warrington Silvert, there are no better comments that I can offer in support of this bill other than those that were eloquently presented to the Finance Committee at its hearing on March 27, 2019, by Kal's family members and friends – Alexander Silvert, Kal's father; Diana L. Warrington, Kal's mother; and Kevin A. Yolken, Kal's friend who worked with him as a medical aide for over five years and attended numerous university classes with Kal.

"In particular, Alexander Silvert explained Kal's Law 'will not only help so many people financially, but psychologically as well. A person's self-worth has no dollar figure.' Diana Warrington testified that '[b]y supporting and passing this bill, Kal's Law, you are recognizing and restoring hope, dignity, self-determination and the right to choose how to live one's life, all the while changing many lives.' Kevin Yolken stated that '[t]he Earned Income Disregard Program would have allowed Kal to turn at least some of those what ifs [that shaped his lifetime] into his reality. The ability to work and to support yourself is a fundamental right that should never be anyone's 'what if.'"

"Based on the testimony of those who knew him best and because of the real-world impacts that will flow from this law, I strongly support passage of Senate Bill 330, Conference Draft 1, 'Kal's Law.'"

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 804, SD 1, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Belatti's written remarks in support of the measure are as follows:

"I rise in strong support of Senate Bill 804, Conference Draft 1.

"Caring for our sick and our elderly is a top priority for legislators. This bill – and the commitment of \$500,000 over two years to establish a

culturally competent palliative care program under the direction of the Department of Health – is a demonstration of this priority.

"Palliative care is team-based care that improves the quality of life of patients and their families facing the problems associated with life-threatening illness. Palliative care seeks to prevent and relieve suffering by means of early identification, assessment, and treatment of pain and other issues of a physical, psychosocial, and spiritual nature. Hospice care for those with a six month or less diagnosis to live once curative treatments have stopped is one type of palliative care. Palliative care can also be offered at the same time as patients are undergoing curative treatments and even after curative treatments are completed. By funding this pilot program, Senate Bill 804, Conference Draft 1 ensures that more of Hawaii's residents will receive the quality care they deserve in their times of greatest need.

"This bill is also significant because it continues to build on the great partnerships across communities and among Hawaii's healthcare providers. The advisory group tasked with overseeing implementation of the palliative care program will include the director of health, the mayor of the county or counties in which the pilot program is tested, the chief executive of the Hawaii Health Systems Corporation region in which the pilot program is implemented or the chief executive of Maui Health System if Maui is chosen as the site for the pilot program, representatives from the John A. Burns School of Medicine, the American Cancer Society, Kokua Mau, and a representative who is a patient or a family member of a patient who previously received palliative care.

"Because palliative care strives to provide the best quality of life and care for those with serious illness, and everyone at some point in their lives will need palliative care or will know someone who would benefit from palliative care, I wholeheartedly support passage of Senate Bill 804, Conference Draft 1."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 804, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO PALLIATIVE CARE," passed Final Reading by a vote of 51 ayes.

Representative Belatti's written remarks in support of the measure are as follows:

"I rise in strong support of Senate Bill 383, Conference Draft 1.

"Tackling the epidemic of youth suicide has been an important focus of the 2019 Hawaii State Legislature. According to the 2017 Youth Risk Behavior Study, we know that an alarming 12% of Hawaii's public middle school students and 10% of Hawaii's public high school students have attempted suicide.

"Senate Bill 383, Conference Draft 1 is important because it requires the Department of Education, in collaboration with the Department of Health, develop mandatory youth suicide awareness and prevention training programs and a risk referral program for all of Hawaii's public schools. Training will be provided to teachers, teacher assistants, administrators, and counselors – those who are on the front lines with our students in schools and communities as they navigate real world challenges and the vast new worlds available to students through the newest social media platforms.

"Senate Bill 383, Conference Draft 1 – in coordination with House Bill 330 that appropriates \$150,000 to the Department of Health to support statewide youth suicide early intervention, prevention, and education initiatives focusing on youth between the ages of 10 through 24, and House Bill 655 that designates September as 'Suicide Prevention and Awareness Month' – demonstrates this body's commitment to ensuring the mental health and resiliency of Hawaii's youth. For all of these reasons, I support passage of Senate Bill 383, Conference Draft 1."

Representative Belatti's written remarks in support of the measure are as follows:

"I rise in support of Senate Bill 390, Conference Draft 1.

"Senate Bill 390, Conference Draft 1, also known more informally as the 'Double Bucks Bill,' accomplishes two very important goals. By requiring

the Department of Agriculture to develop and administer a Hawaii Healthy Food Incentive Program in coordination with the national Double Up Food Bucks Program, Senate Bill 390, Conference Draft 1 promotes expanded access to healthy foods for low-income residents and supports Hawaii's local farming communities and businesses.

"Numerous advocates representing Hawaii's farmers, low-income residents, the health care industry, environmental and sustainability organizations, and state and county government have come out in support of this measure. While this bill starts off with a modest investment of \$50,000 in state funds, there are community partners also willing to step forward to help draw down even more federal funding to support this program.

"Because of these multiple benefits of this bill, I support passage of Senate Bill 390, Conference Draft 1."

Representative Belatti's written remarks in support of the measure are as follows:

"I rise in strong support of Senate Bill 1246, Conference Draft 1.

"Telehealth holds the potential to make health care more affordable and bring highly specialized services into isolated communities that would otherwise not have access to these services. This is especially important for Hawaii's residents who live in communities that stretch across our island state.

"Senate Bill 1246, Conference Draft 1 is critical to ensuring that Hawaii continues to make progress in telehealth adoption. This bill: (1) establishes goals for the adoption and proliferation of telehealth to increase health care access; (2) establishes the State Strategic Telehealth Advisory Council for three years; and (3) creates a full-time, permanent state telehealth and health care access coordinator position within the Department of Health. This coordinator will be tasked with leading implementation efforts, as guided by the council, to address the continuum of issues related to telehealth. These issues include incentives for provider adoption, patient comfort with new technology, health care workforce training, technology and telecommunications infrastructure issues, and administrative simplification between health systems.

"To realize the promise and potential of telehealth, Senate Bill 1246, Conference Draft 1 is a strategic investment in improving the overall healthcare system in Hawaii. Because this investment is so critical as we are seeing the changes that technology is bringing into healthcare, I strongly support passage of Senate Bill 1246, Conference Draft 1."

Representative Belatti's written remarks in support of the measure are as follows:

"I rise in strong support of House Bill 250, Conference Draft 1.

"Healthy *keiki* mean improved learning and better chances at achieving success. Since 2015, the University of Hawaii at Manoa's School of Nursing and Dental Hygiene and Department of Education have collaborated to create the Hawaii Keiki: Healthy and Ready to Learn Program.

"Hawaii Keiki is designed to improve access to quality school-based health services available to Hawaii's public school students by coordinating and expanding existing efforts of community partners and resources, and providing school health nursing and primary care services to public schools. Today, Hawaii Keiki operates with five advanced practice registered nurses and five registered nurses serving seven complex areas across three islands and five school-based health centers.

"By appropriating over \$1.5 million during the next two fiscal years, House Bill 250, Conference Draft 1 empowers the Department of Education and the School of Nursing to continue to implement, expand, and sustain Hawaii Keiki. An additional \$512,000 will allow for the licensure of electronic school records to ensure better care coordination within the public schools.

"These monies are critical in allowing the Hawaii Keiki: Health and Ready to Learn Program to grow and reach more students. Because the investment into Hawaii Keiki represents a prudent investment into the health of our children, I strongly support passage of House Bill 250, Conference Draft 1."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 250, HD 2, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO SCHOOL-BASED HEALTH SERVICES," passed Final Reading by a vote of 51 ayes.

Representative Thielen rose to speak in support of the measure, stating:

"Mr. Speaker, I'm rising in support of Conf. Com. Rep. No. 28 and its accompanying bill, Senate Bill 535, relating to pharmacists prescribing and dispensing of opioid antagonist, and if I may say a few remarks, please. Mr. Speaker, I received a personal letter from the secretary of the Smithsonian Institution, David Skorton, and he states, as a parent and physician, I share your deep concern about the opioid crisis affecting your state and our nation. We all know that there is a museum among the Smithsonian museums named the Sackler Gallery in honor of Arthur M. Sackler, and that is the family that created the opioid epidemic nationwide. Mr. Skorton goes on to say that, we have revised our current gift policy and it now limits the naming of a space to a term of 20 years or until the next major renovation of the space. Unfortunately, he notes that that won't apply at this point to the Sackler Gallery because that was a gift and a naming in perpetuity. But I would note, Mr. Speaker, that lawyers routinely revoke irrevocable trusts, so my hope is that the pressure will continue to remove that Sackler name from that museum, and I strongly support the bill that we are passing today. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. Representative Perruso rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. This bill diminishes the superintendent's authority over the complex area superintendents by making the termination subject to Board of Education purview. Currently, the Board of Education has no policies or procedures covering the appeals of CAS terminations, so they would have to create a whole new set of policies to effectuate this measure. It should be noted that creating and implementing new Board of Education policies is no simple thing, but is a long a cumbersome process that should only be pursued, according to the Board of Education's executive director, as a final or a last resort.

"More fundamentally, this measure does not appear to be grounded in actual incident in which a CAS was erroneously terminated. This measure does, however, weaken the superintendent's authority over her subordinates, and is unnecessary, since complex area superintendents are evaluated annually, and those evaluations are already given to the Board of Education so that board members can make governance decisions based on those reports. Thank you."

Representative Woodson rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. This proposal came out of the thought process that we need to give CASs more opportunity to get involved in the educational delivery of their communities. Not speaking about any particular superintendent, but in the past, CASs would want to go out and to make minor adjustments to their schools and they were met with resistance from the superintendent. So, in that way, it deterred, actually, progress from moving forward. So, the idea behind this proposal is just to allow CASs to have additional protections if, in fact, they want to go about making changes in their school systems.

"Intermittently, there was an incident that happened this year where CASs were asked to actually oppose a certain bill, and in my mind, that is also extremely inappropriate, and it was brought up to me by actually a couple of CASs that said that they weren't comfortable with coming out in opposition to this proposal, but they felt like they had to do so. So, indirectly, this bill would also help address that particular issue.

"And if there's any CAS that's actually doing something that they shouldn't be doing, if they make their case in front of the board and it's found that they should not be doing that, they still will be terminated. So, I'm asking for members to support this proposal."

Representative Perruso rose to respond, stating:

"Thank you, Mr. Speaker. In opposition. So, revising the line of authority between the superintendent and the CASs does not change our education system in any meaningful way. It only creates more busy work for the Board of Education, which has far greater priorities to consider. Our current superintendent, for instance, has been working hard to support innovation at the school level and embrace the opportunities provided by the Every

Student Succeeds Act, which allows for states to replace the punitive and test-centered focus of previous education reforms, like No Child Left Behind, with whole child learning and comprehensive systems of school and student support.

"To create public schools that are student-centered, we should work with the superintendent to boost innovative practices, like developing authentic assessments that are aligned with real-world problem solving. We should be asking the BOE to empower teacher and student voice and cultivate educator collaboration rather than micromanaging hiring and firing practices at the top ranks of school administration. Thank you."

Representative Har rose in support of the measure with reservations and asked that the remarks of Representative Perruso be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Har rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. Just briefly, this bill is unconstitutional. It goes against federal law. The fact that the matter is, when you're going through the airport through TSA, whether you're in federal air space, the fact of that the matter is, the federal law controls. Under federal law, marijuana remains a Schedule I substance and is therefore illegal. This bill will be challenged. For these reasons, I'm asking members to think carefully about this, because you don't want your vote to go down that you supported an unconstitutional bill. For these reasons, Mr. Speaker, I stand in opposition."

Representative DeCoite rose in opposition to the measure and asked that the remarks of Representative Har be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Tokioka rose in opposition to the measure and asked that the remarks of Representative DeCoite be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Lee rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support, and I just note very briefly that this program is already in place in California, and something which has been successful thus far. Thank you."

Representative Har rose to respond, stating:

"Thank you, Mr. Speaker. Still in opposition. California is different, it is not comprised of neighbor island states in which you have to travel. We don't have freeways that connect our neighbor island states to each other, and therefore the only mode of transport is through the airplane. And again, airplanes fall under federal jurisdiction. Again, this law is unconstitutional. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. At 10:44 o'clock a.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 10:45 o'clock a.m.

Conf. Com. Rep. No. 65 and S.B. No. 551, SD 1, HD 2, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 551, SD 1, HD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Perruso rose to speak in opposition to the measure, stating:

"In opposition, Mr. Speaker. So, in 2012, the Legislature repealed HRS 667-5 which had allowed a creditor holding a mortgage containing a power of sale to sell a debtor's home in as little as 36 days after declaring that the owner was in default. At the time of its repeal, the House acknowledged that

HRS 667-5 was one of the most draconian nonjudicial foreclosure statutes in the country, often used to foreclose on homeowners without their knowledge and without providing due process.

"Moreover, lawmakers noted that HRS 667-5 had been enacted in 1874 to 'make it easy to take land away from Native Hawaiians.' If passed, SB 551 would take Hawaii back to a time when nonjudicial foreclosures were used to harm the Hawaiian community and the poor.

"When people's finances are in disarray, as is often the case in our state with the high cost of living, they struggle to afford housing expenses, including mortgage payments and association fees. Thank you."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, strong support. One sentence and then the rest into the Journal. My condos in Hawaii Kai are crying out for relief. This bill does it, even though it was a rough re-straightening of some of the things that came out and then went back and back and forth. But the way it is now is good, and it's going to be a relief for all those who live in vertical housing in Hawaii. Thank you."

Representative Ward's written remarks are as follows:

"Twenty years ago, Act 236, Hawaii Session Laws 1999, was enacted authorizing condominium associations to foreclose liens for unpaid common expenses by nonjudicial or power of sale foreclosure procedures, as an alternative to judicial foreclosure. The Legislature clearly expressed this intent in both the description of the bill itself and the conference committee report. The 'bill description' for Act 236 states that it allows associations 'to foreclose liens for unpaid common expenses by non-judicial or power of sale foreclosure procedures, as an alternative to legal action.' In addition, the conference committee report for Act 236 states that the conference committee amended the measure by 'allowing associations to enforce liens created for delinquent maintenance fees, including nonjudicial or power of sale foreclosure procedures.'

"Act 236 was also intended to incorporate a power of sale provision into the bylaws of every condominium existing as of January 1, 1988, when it added subsection (13) to HRS § 514A-82(b). This amendment is important because it expressly provided that the power of sale language contained in HRS § 514A-82(b)(13) was incorporated into the bylaws of every condominium association existing as of January 1, 1988 and created thereafter through June 30, 2006.

"Furthermore, in 2012, the Legislature passed Act 182 which established Part VI of Chapter 667 which is 'an alternate power of sale process for the collection of unpaid assessments.' The conference committee report for Act 182, which was House Bill 1875, provides that the bill 'allows associations to proceed with a nonjudicial foreclosure.'

"As is stated in section 1 of Senate Bill 551, the Legislature's intent in granting to condominium associations a statutory power of sale was not abrogated by the recodification of HRS Chapter 514A or the codification of Part VI of HRS Chapter 667.

"For nearly 20 years, condominium associations have relied upon the law in conducting nonjudicial and power of sale foreclosures. However, despite the language of the law and clear legislative intent, in 2018, the Hawaii Intermediate Court of Appeals held in Sakal v. AOA of Hawaiian Monarch that there was no clear legislative act giving associations a statutory power of sale, and that power of sale language must exist in a condominium association's governing instruments in order for the association to avail itself of the nonjudicial or power of sale foreclosure procedures set forth in HRS Chapter 667. The ICA reached its decision without addressing the aforementioned conference committee reports or HRS section 514A-82(b)(13) which, by their express terms, establish clear legislative intent to give associations a statutory power of sale.

"The Sakal decision is likely to result in mass litigation against associations for doing nothing more than following the law. This, in turn, may lead to judgments and financial hardships on associations. Thousands

of condominium association members throughout the State of Hawaii may be adversely affected.

"The purpose of Senate Bill 551 is to confirm legislative intent that condominium associations may conduct nonjudicial foreclosures regardless of the presence or absence of power of sale language in an association's governing documents. Senate Bill 551 also adds additional consumer protection provisions. Senate Bill 551 contains language making sections 3 and 4 retroactive but clarifies that the Act shall not be applied so as to impair any contract existing as of the effective date of the Act in a manner violative of either the Hawaii State Constitution or Article I, Section 10 of the United States Constitution.

"Given the recent decision by the Intermediate Court of Appeals in which the court failed to find clear legislative intent to grant to condominium associations a statutory power of sale when such intent did indeed exist, it is imperative that this bill be adopted. For the foregoing reasons, I support Senate Bill 551 and urge my fellow representatives to do the same."

Representative San Buenaventura rose to speak in opposition to the measure, stating:

"In opposition. I fully understand, being a condo owner myself of two condos in Hilo and here in Honolulu, about the need for condominium associations to be able to foreclose on those who do not pay.

"However, this bill is draconian, as the Representative from Wahiawa had pointed out. Because this bill basically says, regardless of whether or not the bylaws states that there is a power of sale, that the condominium homeowners' association will then be able to nonjudicially foreclose.

"I'm for due process. I'm for requiring notice. Back in '98, the bylaws, the condominiums from then on to the present basically have it in their bylaws about the power of sale. And the Sakal case pointed it out. That is why, especially where this bill retroactively says that all of those nonjudicial foreclosures that were wrongfully done without bylaws and without notice to owners are now without rights, this bill goes way beyond. And for those reasons, I stand in opposition."

Representative Cabanilla Arakawa rose to speak in support of the measure, stating:

"In support, Mr. Speaker, and I would like to state why I'm in support. I know that judicial foreclosures are very expensive, and I apologize, I have a lot of colleagues there that are lawyers. But for those people that I've known, however little that might be left as their asset in the house after the judicial foreclosure takes over, they've got nothing, because everything went to court fees and lawyer's fees. Thank you, Mr. Speaker."

Representative Lowen rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations. I understand the need to address this issue and prevent a bunch of lawsuits that will hurt homeowners' associations and the members. At the same time, I think we could find a better middle ground with a version that we passed out of the Judiciary Committee that I think provided more protections against bad actors who would take advantage of nonjudicial foreclosures and foreclose on homeowners who could have paid off their debt and could have kept their homes. So, I do think we need to pass something and move it forward, but maybe we can come back to it in the future and try to provide more consumer protection."

Representative B. Kobayashi rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations. I would note that there was one testimony for this piece of legislation, negative, about a person who had been adversely affected by nonjudicial foreclosure who was not given notice. And the law at that time did not require notice, and this kind of tragic situation, as noted by this person, occurred where upon coming home one day, she found herself locked out of her condominium, and tragically, at that point, had a family and caused much disruption. So, this incident of notice I

think is important and perhaps something that can be worked on. Thank you."

Representative Ichiyama rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. May I have permission to insert comments into the Journal? I think this is an important measure for us to look at because the Intermediate Court of Appeals decision that came out last year threw all of the associations into chaos. Because there are associations who have completed nonjudicial foreclosures under the procedures that the Legislature created which requires notice, which requires personal service and posting of the notice of default and intent to foreclose on the actual unit. The procedures that the Legislature created for associations to use were all thrown into question by that court decision last year. And as a result, there are people living in these units who, they may have bought at a nonjudicial foreclosure, who no longer would, under this, if we do not pass this measure, have a place to live.

"Furthermore, without this legislation, associations would not have the tools that they need to deal with delinquent owners, and that burden is going to be passed on to the rest of the condominium owners, all of our constituents who could see their association monthly dues triple, quadruple, if associations are now, without this legislation, being forced to go through judicial foreclosures. For those reasons, I'm in support of the measure. Thank you, Mr. Speaker."

Representative Ichiyama's written remarks are as follows:

"Thank you, Mr. Speaker, for the opportunity to submit additional written comments in support of SB 551.

"Condominiums are important for land use, housing, and growth policy reasons. Final Report to the Legislature, Recodification of Chapter 514A, Hawaii Revised Statutes (Condominium Property Regimes) In Response to Act 213, Section 4 (SLH 2000), dated December 31, 2003. The rapid growth of condominiums and other common interest ownership communities since the 1960's has been fueled by, among other things, government policies—driven by popular sentiment—requiring that new development 'pay its own way.' Id. Condominiums and other common interest ownership communities—with their regimes of privately enforceable covenants governing use of property and establishing financial obligations to pay for formerly public facilities and services such as roads, trash collection, and recreational areas—are a fundamental necessity in having new development 'pay its own way.' Id. Virtually all new development in Hawaii for the past 45 years consists of common interest ownership communities. Id. Now, more than 31% of Hawaii's housing units are held in condominium ownership. Community Associations Factbook, by Clifford J. Treese (1999), at page 18; State of Hawaii Data Book (2017), compare Table 21.10 ('Condominium Associations and Apartments Registered: 1990 to 2017') and Table 21.20 ('Housing Units, by County: 2007 to 2017').

"Condominiums are also important to promote more efficient use of Hawaii's limited land resources. Final Report to the Legislature, Recodification of Chapter 514A, Hawaii Revised Statutes (Condominium Property Regimes) In Response to Act 213, Section 4 (SLH 2000), dated December 31, 2003. Condominiums are a valuable tool in helping to develop higher density/lower per-unit costs homeownership opportunities, i.e., creating more affordable housing. Id.

"In Hawaii, condominium associations are creatures of statute. As such, the rights and obligations of these associations are governed and regulated by Hawaii's ever evolving condominium statutes, Chapters 514A (repealed January 1, 2019) and 514B, Hawaii Revised Statutes ('HRS'), as amended from time to time. Language indicating as much is included in the governing documents of all condominium associations throughout the state. Accordingly, owners purchasing units in a condominium association are subject to a modifiable statutory framework and should expect that their rights and obligations may change with future legislation.

"Such is the case with non-judicial foreclosures. A condominium association's ability to impose financial obligations on its members is an important function in its successful operation. The Legislature, with the passage of Act 236 in 1999, granted and conferred upon condominium

associations the authority to conduct non-judicial foreclosures under sections 667-5 (repealed June 28, 2012) and 667-40, HRS, as a tool to enforce their liens, regardless of the presence or absence of power of sale language in an association's governing documents.

"In 2011, the Legislature subsequently passed Act 48 which placed a moratorium on the non-judicial foreclosures condominium associations were previously permitted to pursue under Part I of chapter 667, but preserved the right of associations to foreclose under Part II of 667 while the moratorium under Part I remained in effect. With the passage of Act 182 in 2012, the Legislature expanded its previous statutory grant of authority for condominium associations, as well as homeowners' associations existing under 421J, to nonjudicially foreclose using the processes of Part VI of 667 HRS.

"Since 1999, many condominium associations have relied on the above-referenced statutory language to manage delinquencies in part by using non-judicial foreclosures. However, recent legal rulings have called that usage into question. Lawsuits challenging the rights of condominium associations to conduct non-judicial foreclosures are threatening to, among other things, burden the court systems, negatively impact associations' ability to obtain insurance coverage, and preventing associations from protecting their non-delinquent condominium owners from legal costs and threatened liability.

"Given the importance of condominiums to the state's housing market and the public's desire for new developments to 'pay their own way,' the Legislature has recognized that the expeditious nature of non-judicial foreclosures are important for successful management and operation of condominium associations, thereby maintaining a healthy housing market in Hawaii and beneficially impacting the state's economy and public welfare.

"This measure is to clarify the authority previously granted to condominium associations, and to add additional consumer protections in the non-judicial foreclosure process moving forward. SB 551 is meant to benefit the community as a whole, and will reasonably and narrowly promote the significant and legitimate public purpose of improving Hawaii's economy and general public welfare."

Representative Takumi rose to speak in support of the measure, stating:

"In support, Mr. Speaker. I know it's very difficult on an issue as contentious and at times emotional like this to kind of separate out what should be good public policy, what has in the occurred past, and what should occur in the future. In 1999, the Legislature did pass a law that enabled condominium associations to use nonjudicial foreclosure. For the past 20 years, condo associations have relied upon this and implemented nonjudicial foreclosures as a last resort.

"I think members ought to know, very few foreclosures result in a nonjudicial foreclosure because most unit owners, for whatever reason in their lives are unable to pay the mortgage and the common expenses, deal with it. They either sell their unit, they rent it out, they do things to try to work it out. And by the way, Mr. Speaker, condo associations are loath to enact nonjudicial foreclosures. What they try to do is work out a payment plan and so on.

"When we talk about anecdotes that have happened, and I read all the testimonies that occurred in the Judiciary Committee, keep in mind all of these stories happened prior to the law being amended in 2012. So, the Representative from Kaimuki who cited the example of someone who was literally locked out of their unit, padlocked and unable to enter, in that situation it was the bank that did that, not the condo association.

"If you must remember, more times than not, in fact in the vast majority of cases when somebody is being foreclosed in a nonjudicial foreclosure by the condo association, they are also facing a foreclosure by their bank because they did not pay the mortgage. So, I know it's difficult at times to separate all that out, but as the Vice Chair of Consumer Protection & Commerce stated, without this, it really increases and exposes the liability of every condo unit owner in the state. Thank you."

Representative Perruso rose to respond, stating:

"Thank you, Mr. Speaker. Still in opposition. I have some additional concerns about this measure. Even under HRS 667-5 prior to its repeal, condominium associations were not authorized to enforce association liens through nonjudicial action. So, as other speakers have mentioned, the Legislature enacted the alternative power of sale foreclosure process in 1998, which included numerous consumer protection provisions, including that the homeowner be given 60 days notice to secure any default, and 60 days advance notice before a public sale.

"Moreover, neither Act 122 in 1988 nor Act 236 in 1999 changed the fact that nonjudicial foreclosure was a process only available to condominium associations when the power of sale was contained in a mortgage, not for association fees. Put simply, in 1998 the Legislature took a negative view of nonjudicial foreclosure, especially by condominium associations, and moved to address the abuse of nonjudicial foreclosure process. It's illogical to conclude, as this bill's preamble does, that only a year later the Legislature's intent was to allow condominium associations to bypass the safeguards it had put in place to protect homeowners. For those reasons and others, I continue to oppose this bill."

Representative San Buenaventura rose to respond, stating:

"Thank you. Just shortly, I read the Sakal decision, and the Intermediate Court of Appeals did in fact state that the remedy is not the eviction of those who purchased in a nonjudicial foreclosure. They said specifically that it was damages. So, I wanted to make sure that the record is correct as to what the actual law is in the State of Hawaii at this time.

"If we don't pass this, basically we are talking about a very limited amount of foreclosures that have occurred prior to '98 or prior to the insertion of the bylaws allowing for the power of sale foreclosure. And again, I do agree with the Representative from Kona in that I do agree with the Judiciary's version of this, which basically tried to thread the line to allow for relief on both ends and not to protect the bad actors, people who knew better and basically did a nonjudicial foreclosure on people who were not given notice. Thank you."

Representative Ward rose to respond, stating:

"Mr. Speaker, another comment in favor. Mr. Speaker, a footnote of common sense. I've been on a condominium board, nobody likes to foreclose, and we have to go through due process. But the bottom line is, these people have not paid their rent, and it's getting spread to everybody else in the condominium.

"So, for those in opposition to this, to make the victims the bad guys is counter intuitive to what's going on. People didn't pay their mortgage. They didn't pay their dues. And there's got to be some repercussion. Of course, it's got to be procedurally exact, but the fact that there's a lot of condominiums that are raising what already are high maintenance fees, common area and maintenance and other fees, security fees, landscaping fees. It's getting very expensive to live in a condominium, sometimes you've got to almost have a second mortgage, it's \$900, \$1,500 just to do monthly maintenance.

"So, if you've got somebody who's in there not paying their dues because they've got a foreclosure, or they're not paying their mortgage, you've got to deal with it. And you can't go on and on for months and years. So this is a solution. The condominiums are going to be better for it. And I hope everybody agrees, if you have or have not condominiums in your district, this is good for the high-rise dwellers. Thank you."

Representative Har rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. May I request a ruling on a potential conflict? In my private sector life, I represent both condominium association boards as well association owners," and the Chair ruled, "no conflict."

Representative Har continued in opposition to the measure and asked that the remarks of Representative San Buenaventura be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 551, SD 1, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO CONDOMINIUMS," passed Final Reading by a vote of 38 ayes to 13 noes, with Representatives B. Kobayashi and Lowen voting aye with reservations, and with Representatives DeCoite, Eli, Gates, Har, Holt, Matayoshi, McKelvey, Perruso, Quinlan, San Buenaventura, Say, Tokioka and Wildberger voting no.

Conf. Com. Rep. No. 72 and H.B. No. 463, HD 1, SD 2, CD 1:

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 463, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO FOOD SAFETY," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 75 and H.B. No. 1032, HD 2, SD 2, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1032, HD 2, SD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative DeCoite rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"With reservations. I am voting with reservations on this bill because I recognize the concerns raised by those who opposed this bill. Although this bill is a pilot project to privatize the entire Manele Small Boat Harbor on Lanai, concerns were raised about privatizing state boating facilities. DLNR already has the authority to lease parts of harbors to private interests and state enforcement agencies are already in place to enforce statutes and policies should there be any threats to Hawaii's local harbors. A private entity is not equipped to provide such protection. *Mahalo.*"

Representative Har rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1032, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO STATE BOATING FACILITIES," passed Final Reading by a vote of 51 ayes, with Representatives DeCoite and Har voting aye with reservations.

Conf. Com. Rep. No. 77 and H.B. No. 703, HD 1, SD 2, CD 1:

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 703, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO INTOXICATING LIQUOR," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 78 and S.B. No. 375, SD 2, HD 1, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 375, SD 2, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Perruso rose to speak in support of the measure with reservations, stating:

"With reservations. So, my concern with this measure is that, while it does help us develop a plan for doubling food production, we are also calling upon the Department of Agriculture to double food exports in that same time period, by 2030.

"So, our state already overemphasizes food exports at the expense of local food sustainability, and under HRS 163D-2, the majority of crops developed by the Agribusiness Development Corporation, which dominates ag lands in my district, is statutorily obligated to 51% of those, the majority of those

crops are statutorily obligated to be exported beyond our shores. So, that's an issue for us.

"According to a report from the Department of Ag and the Office of Planning that the preamble to this measure references, replacing just 10% of the food that Hawaii currently imports would retain approximately \$313 million and generate more than 2,300 jobs. So, imagine what we could achieve then if we committed to genuine food sustainability in which a majority of crops grown in Hawaii were distributed to local markets. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 375, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO AGRICULTURE," passed Final Reading by a vote of 51 ayes, with Representative Perruso voting aye with reservations.

Conf. Com. Rep. No. 80 and S.B. No. 1212, SD 1, HD 1, CD 1:

Conf. Com. Rep. No. 82 and S.B. No. 192, SD 1, HD 2, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 192, SD 1, HD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative DeCoite rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"In opposition. I am voting in opposition to this bill because we will be making it easier for criminals to get out of jail on bail with no guarantee that they will appear in court when required. Although the cash secured bail system may unjustly hurt low income individuals who commit crimes, I don't hear anyone advocating for the victims of those crimes. *Mahalo.*"

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 192, SD 1, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO BAIL," passed Final Reading by a vote of 42 ayes to 9 noes, with Representatives Aquino, Cullen, DeCoite, Har, Matsumoto, Okimoto, Say, Ward and Yamane voting no.

Conf. Com. Rep. No. 84 and H.B. No. 333, HD 1, SD 2, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 333, HD 1, SD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Nakamura rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. There are many communities throughout the state, like the end of the road on the north shore of Kauai, that are inundated with visitors attracted to state parks, hiking trail heads, waterfalls, cultural sites, and other scenic views. Yet these state highways do not have shoulders for parking, have no right of way to expand, and traverse through rural residential communities. Illegally parked cars create health and safety concerns for all. Currently, a parking fine is \$35, that goes into the general fund, which most visitors are willing to pay to park illegally.

"House Bill 333 increases the fine amount to \$200 in these special no parking zones and splits the fine equally between the state highway fund and the county police department where the citation is issued.

"Mr. Speaker, I would like to acknowledge the Transportation Chair for his leadership for the past two years and for getting us through some rough spots along the way, and the Judiciary and Finance Chairs for supporting

this partnership with counties to help with enforcement on our remote, rural highways. Thank you."

Representative Belatti rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support and just a brief comment. I think this measure does a very good job at striking the balance between our local residents and the pressures of tourism. I think one of the greatest challenges of our times is, as we continue to rely on tourism, so many of our communities are overwhelmed by the effects of tourism.

"So, I do also want to commend the Representative from Kauai as well as the Chair and the Vice Chair and all of the members of the Transportation Committee for helping us strike this balance with this bill. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 333, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE HIGHWAY ENFORCEMENT PROGRAM," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 87 and H.B. No. 444, HD 1, SD 1, CD 1:

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 444, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO ONSITE-NON-POTABLE WATER REUSE SYSTEMS," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 89 and H.B. No. 89, HD 2, SD 2, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 89, HD 2, SD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Har rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I just want to thank the introducer of this bill for shepherding this measure through the Legislature. I think that this bill will essentially give law enforcement more tools to deal with the illegal fireworks that we continue to deal with in this state. And so, for these reasons, I'm in strong support. Thank you."

Representative Okimoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Tokioka rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative DeCoite rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"With reservations. I am voting with reservations on this bill because property owners may become criminally liable if someone possesses, sets off, ignites or explodes illegal aerial devices. People may be unaware that someone is setting off illegal fireworks on their property until being informed by others or the police. People also may be arrested based on statements from witnesses and by photographs, video, or other recordings, including video taken by drones. I hope that the requirements in this bill are not going too far, too soon. *Mahalo*."

Representative Gates rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 89, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO FIREWORKS," passed Final Reading by a vote of 50 ayes to 1 no, with Representatives DeCoite, Gates, Okimoto and Tokioka voting aye with reservations, and with Representative San Buenaventura voting no.

Conf. Com. Rep. No. 95 and H.B. No. 1548, HD 1, SD 2, CD 1:

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 1548, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO RAPID OHIA DEATH," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 96 and H.B. No. 1319, HD 2, SD 2, CD 1:

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 1319, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO SPECIAL PURPOSE REVENUE BONDS FOR ELECTRIC PUBLIC UTILITIES," passed Final Reading by a vote of 50 ayes to 1 no, with Representative Thielen voting no.

Conf. Com. Rep. No. 97 and S.B. No. 9, SD 1, HD 1, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 9, SD 1, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Okimoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 9, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAII PUBLIC HOUSING AUTHORITY," passed Final Reading by a vote of 51 ayes, with Representative Okimoto voting aye with reservations.

Conf. Com. Rep. No. 99 and S.B. No. 1223, SD 2, HD 1, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 1223, SD 2, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Nakamura rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Nakamura's written remarks are as follows:

"While the Department of Hawaiian Home Lands (DHHL) claims that Act 141 has been successful, at the April 4, 2019 Finance Committee hearing, DHHL was unable to provide data related to the number of new homes or lots created under this act in the last 10 years. This lack of data does not support DHHL's claim that this program provides beneficiaries affordable housing opportunities at no cost to the State.

"The City and County of Honolulu Department of Planning and Permitting has concerns that this program creates credit value that DHHL is able to sell to developers who then use the credit value to fulfill affordable housing requirements imposed by respective counties. This actually comes at a cost to the counties and State, as each credit used by a developer reduces the number of affordable homes that otherwise would be produced as part of county or city transit-oriented development projects, unilateral agreements or as mandated by Ordinance 18-10.

"DHHL should be required to keep record of the number of homes and lots that are created under Act 98 and Act 141, respectively."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Same request with a brief comment, Mr. Speaker. Mr. Speaker, this is intended to do well, because it gives housing credits to DHHL. The unfortunate thing, if you follow the money, generally the money never goes to build more house for DHHL. As we know, they have a waitlist of 27,000 Native Hawaiians, 203,000 acres, 100 years have gone by. So, if you follow the money, Mr. Speaker, it should be directly from housing credits to building housing, and it hasn't done that. So, I would agree with the previous

speaker that this is with reservations. It has potential but it's weak, and hopefully the new director of DHHL will use housing credits to build housing. Thank you."

Representative Ward's written remarks are as follows:

"Thank you, Mr. Speaker. At this time, I rise in support with reservations.

"Mr. Speaker, I fully support the intent of this bill, to create more housing on Hawaiian home lands.

"My concern, Mr. Speaker, is the same concern that the City and County of Honolulu has expressed in their testimony. We oppose this program because it creates credit value that DHHL can sell to developers, who use it to fulfill affordable housing requirements imposed by the counties. Thus, it undermines the ability of the counties to provide new affordable housing to all its residents within county-defined income need groups, on a time schedule commensurate with private sector construction, and in geographic areas where the counties believe affordable housing is needed."

"Since this law went into effect 10 years ago, the City has awarded DHHL 768 housing credits. This has not resulted in 768 more housing units being built.

"HRS 46-15.1 says that only 25% of the monies received by selling these credits needs to be used for building rental units. Which means the majority of the funds received from selling the credits isn't creating actual housing.

"DHHL is in need of funds to develop housing on a faster time scale, even while being land rich and cash poor. And they have said that using these housing credits would allow them to work with developers to get land in urban areas to develop as housing, but the proof is in the pudding. There is still a long waiting list of people who may never get housing.

"Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1223, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO AFFORDABLE HOUSING ON HAWAIIAN HOME LANDS," passed Final Reading by a vote of 51 ayes, with Representatives Nakamura and Ward voting aye with reservations.

Conf. Com. Rep. No. 101 and S.B. No. 991, SD 1, HD 1, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 991, SD 1, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Belatti rose to speak in support of the measure, stating:

"In support. Mr. Speaker, I just wanted to take a pause on this bill, because I know that this was a difficult one to negotiate, and I wanted to thank the Chair of the IAC Committee. When we're looking at telecommunications and the changing landscape of land-based telecommunications as well as wireless, this was a difficult one to navigate. So, I just wanted to thank, and I think this accomplishes what it needs to with flexibility and providing a level playing field. So, thank you, Mr. Speaker."

Representative Tokioka rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations and I would like to ask to insert comments into the Journal. So, just a quick note, I'm really concerned about the rural areas around the state that will be, in my opinion, affected by this bill. Thank you very much."

Representative Tokioka's written remarks are as follows:

"With reservations. As I have stated in the beginning of session, I declared my potential conflict and you, Mr. Speaker, declared no conflict on my vote.

"Having said that, the reservation I have with this measure is that from the its creation, telephone companies have been subsidized by the government,

and the PUC has been responsible for oversight of that utility. I am also concerned that deregulating the phone companies could hurt people in the rural areas of the state. For these reasons, I have reservations of the passage this bill."

Representative DeCoite rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"With reservations. Although I support capping annual utility rate increases without PUC approval for counties with a population of less than 500,000, I am voting with reservations on this bill because it will relax regulatory oversight requirements to telecommunications service providers, including issuance of securities and other evidences of indebtedness, and sale or disposition of property or equipment. It is imperative that telecommunication service providers are monitored and overseen to ensure that all their services are accessible to everyone, especially those who are deaf and hard of hearing. Telecommunication services must be accessible to all. *Mahalo.*"

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 991, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO TELECOMMUNICATIONS," passed Final Reading by a vote of 51 ayes, with Representatives DeCoite and Tokioka voting aye with reservations.

Conf. Com. Rep. No. 102 and S.B. No. 1231, HD 2, CD 1:

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and S.B. No. 1231, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE SPOUSE AND CHILD ABUSE SPECIAL FUND," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 105 and S.B. No. 1348, SD 1, HD 1, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 1348, SD 1, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Ward rose to speak in support of the measure, stating:

"Strong support, comments in the Journal, please. Thank you."

Representative Ward's written remarks are as follows:

"Thank you, Mr. Speaker. At this time, I rise in strong support.

"Members of the Small Business Regulatory Review Board volunteer their time to help ensure that proposed, amended, or adopted state and county rules protect our public health, welfare, and safety without placing unnecessary and overburdening regulations on our small businesses.

"The Small Business Regulatory Review Board has proven to be very valuable to our state in reducing expensive impacts on small businesses, promoting the health of our local economy.

"During conference committee, however, the appropriation for the Small Business Regulatory Review Board was removed. The Board is moderately successful now, but they can improve with additional funds and support.

"It is important to recognize and appropriately fund the Small Business Regulatory Review Board because:

- Small businesses represent 98% (or 128K) of businesses in Hawaii
- 57% of employees work at small businesses.

"Currently, there is no budget category or even a line item in DBEDT's annual budget for the Small Business Regulatory Review Board, and creating a budget would help with oversight on small businesses which would ultimately make our economy better.

"The Board is just a fractional part of DBEDT's budget. The Board must obtain approval for basic expenses. Basics needs like air travel and office supplies are invoiced and reimbursed by DBEDT.

"A separate budget is necessary for the Small Business Regulatory Review Board.

"As members of this body know, the Small Business Regulatory Review Board has supported small businesses for over 20 years.

"We cut the funding mechanism for them this year, but I hope that we can do better next year to provide what resources we can to help the Board be even more successful.

"Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1348, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE SMALL BUSINESS REGULATORY REVIEW BOARD," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 107 and S.B. No. 1459, SD 2, HD 2, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 1459, SD 2, HD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative DeCoite rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"With reservations. I am voting with reservations on this bill because we are creating another layer of government by creating this temporary commission to promote surfing and educate the public about surfing's connection to Hawaii. The bill appropriates no money to the commission and places it in the Department of Accounting and General Services (DAGS) for administrative purposes. DAGS has no staff or expertise to support this commission, so it will need to hire temporary staff in the future when the Legislature appropriates money for that purpose. The commission will cease to exist in 2024. All of this makes no sense to me. *Mahalo.*"

Representative Tokioka rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Har rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1459, SD 2, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE SURFING COMMISSION," passed Final Reading by a vote of 51 ayes, with Representatives DeCoite, Har and Tokioka voting aye with reservations.

 S.B. No. 1348, SD 1, HD 1, CD 1
 S.B. No. 1459, SD 2, HD 2, CD 1

Conf. Com. Rep. No. 115 and S.B. No. 242, SD 2, HD 2, CD 1:

Representative Belatti moved to recommit Conf. Com. Rep. No. 115 and the attached proposed conference draft to the Committee on Conference, seconded by Representative Morikawa.

The motion was put to vote by the Chair and carried, and Conf. Com. Rep. No. 115 and S.B. No. 242, SD 2, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO HEALTH," were recommitted to the Committee on Conference, with Representative Ichiyama being excused.

Conf. Com. Rep. No. 110 and H.B. No. 673, HD 2, SD 2, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 673, HD 2, SD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Matayoshi rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Matayoshi's written remarks are as follows:

"Individuals should not make a profit off the license itself. The State created a scarcity of licenses (8), and that state-sanctioned scarcity artificially raises the value of said licenses. The licenses should not be able to be sold off to the highest bidder, especially when the value is mostly attributable to state action. I am also uncomfortable with the sale of a license for an item that is still illegal on the federal level. I would recommend that the license be only transferable, not sellable, to another qualified person. If this is not possible, the sale price should at least be limited to the licensee recovering the cost of applying for the license, as anything more would be an unfair windfall.

"On the issue of qualifications, I feel the qualifications for who can purchase a license are too broad. To be over 21, no criminal record, and at least five years of living in Hawaii means that almost anyone in Hawaii can buy a license. There is no oversight or prequalification of the purchaser, and DOH does not have authority to stop a purchase. After the intense competition and vetting process for issuing the first eight licenses, it does not make sense to allow one of those licensees to now transfer or sell the license to anyone they so choose. DOH should have oversight, and perhaps another application process for reissuing the license if an individual is no longer able or willing to hold it."

Representative DeCoite rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"In opposition. I am opposed to this bill because I believe that licensees that want to sell or transfer their license should undergo a thorough review by the Department of Health or forfeit its license. Any successor licensee should go through this process and be thoroughly vetted. Language also was deleted to allow medical cannabis production centers or dispensaries to locate within 750 feet of a public housing project or complex. This language should not have been removed. Locating within 750 feet of playgrounds and schools is still prohibited. *Mahalo.*"

Representative San Buenaventura rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 673, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO MEDICAL CANNABIS," passed Final Reading by a vote of 33 ayes to 17 noes, with Representatives Cachola,

Representative Cachola rose to speak in support of the measure, stating:

"Strong support, Mr. Speaker, and request written comments into the Journal. Thank you."

Representative Cachola's written remarks are as follows:

"Mr. Speaker, I rise to speak in strong support of SB 1417, SD2, HD1, CD1 which appropriates funds for burial grants for qualifying Filipino-American veterans of World War II to provide funeral and burial services and transportation of their remains to the Philippines. The bill also requires that funds for burial grants to not lapse to the general fund and remain available as needed.

"These veterans are now in their 90s, are low-income, and do not have the financial means or resources to transport their remains back home. As young men, they enlisted in the war against aggression, fought alongside American troops, and for their sacrifices and service were promised certain benefits, a number of which remain unfulfilled. Appropriating funds for burial grants for these veterans is just, well-deserved, and simply the right thing to do.

"In closing, I would like to thank all members of the Legislature, especially the respective chairs of the Senate Ways and Means Committee and the Senate Public Safety, Intergovernmental, and Military Affairs Committee, along with the House Finance Committee and the House Public Safety, Veterans, & Military Affairs Committee for their support of this very important bill."

Representative Aquino rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In very strong support and I'd like to request written comments for Journal. And also, I just wanted to thank the chair and vice chairs of PVM as well as Finance for their support on this measure. *Mahalo.*"

Representative Aquino's written remarks are as follows:

"In strong support of Conf. Com. Rep. No. 117, SB 1417, SD2, HD1, CD1. This measure is an important one for Filipino World War II veterans and their families. The support provided in this measure is an amazing gesture, considering some of the injustices this group had to endure for more than six decades. Burial benefits for two years will go a long way. Much gratitude to the chairs and vice chairs of PVM, House Finance, and Senate Ways and Means committees for their work and support of these veterans. *Mahalo.*"

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1417, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO FILIPINO VETERANS BURIAL ASSISTANCE," passed Final Reading by a vote of 50 ayes, with Representative Ichiyama being excused.

Conf. Com. Rep. No. 118 and H.B. No. 852, HD 1, SD 1, CD 1:

No. 852, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAII STATE ENERGY OFFICE," passed Final Reading by a vote of 50 ayes, with Representative Ichiyama being excused.

Conf. Com. Rep. No. 122 and S.B. No. 1303, SD 2, HD 2, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 1303, SD 2, HD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Okimoto rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Okimoto's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in opposition against Conf. Com. Rep. No. 122, Senate Bill 1303, SD2, HD2, CD1. Mr. Speaker, I am not opposed to the idea of leasing public school lands to generate additional funding for the Department of Education to educate Hawaii's *keiki*. Rather, I am opposed to language inserted into Part I of this measure during conference committee, which allow these lands to be leased for a period of 99 years, and I am especially opposed to this measure if the parcels chosen by the department are 'ceded' and/or Public Land Trust lands.

"The proposed lease term of 99 years is unnecessary, and unjust to Native Hawaiians. The lease of public lands to private developers, the highest bidder, for 99 years, invokes a sense of entitlement to public lands. Furthermore, multi-generational leases will lead to long term uncertainty. Future legislatures may extend the number of parcels allowed to be leased by the department and may authorize lease extensions. Perhaps the department may be required to implement lease to fee conversion over a century from now. Who knows?

"This body should not entertain the idea of leasing public school lands for 99 years until it can ensure there are sufficient provisions in the HRS to prevent public school 'ceded' and/or Public Land Trust lands from being lost forever. This body should not entertain the idea of leasing public school lands for 99 years while it continues to fail to fulfill its fiduciary and constitutional duty to fully fund the Department of Hawaiian Home Lands and the Office of Hawaiian Affairs. This measure will result in many unintended consequences if it is passed this morning.

"For these reasons, Mr. Speaker, I am opposed to Conf. Com. Rep. No. 122. *Mahalo.*"

Representative Perruso rose to speak in opposition to the measure, stating:

"In opposition. Thank you, Mr. Speaker. So, I think that public lands should be kept in public hands. This bill would allow the Hawaii Department of Education to lease public school lands for up to 99 years to private developers, purportedly to give those developers flexibility in financing development projects.

"To begin with, I take issue with the 99-year leases called for by this bill. While lands held by the DOE were exempted from the definition of public lands in Chapter 171 in 2018, doubling down on that misguided action recommitts the Legislature to circumventing important land use requirements for lease appraisal and evaluation, public auction, lessee qualifications and lease length, and renewal restrictions, among other mechanisms of accountability and transparency.

"Additionally, when discussing public lands, we must always account for ceded lands to which Native Hawaiians maintain an relinquished claim."

Long-term leases, like those called for by this bill, prevent the Hawaiian community from determining the most appropriate use of public trust lands, prolonging the erasure of Hawaiian voices in decision making about land use that could lead to the betterment of Native Hawaiian conditions. Thank you."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations, and for the same reasons as the previous speaker. The ceded lands issue is a real issue, and this one kind of, maybe a head fake to think that it's not, and it will possibly seriously come back to bite us. So, with reservations please."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1303, SD 2, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC LANDS," passed Final Reading by a vote of 45 ayes to 5 noes, with Representative Ward voting aye with reservations, with Representatives Matsumoto, McKelvey, Okimoto, Perruso and Thielen voting no, and with Representative Ichiyama being excused.

No. 808, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO SHARK AND RAY PROTECTION," passed Final Reading by a vote of 50 ayes with Representative Ichiyama being excused.

Conf. Com. Rep. No. 127 and H.B. No. 1068, HD 1, SD 2, CD 1:

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 1068, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO HEEIA STATE PARK," passed Final Reading by a vote of 50 ayes with Representative Ichiyama being excused.

Conf. Com. Rep. No. 128 and H.B. No. 172, HD 1, SD 2, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 172, HD 1, SD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative DeCoite rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"With reservations. I am voting with reservations on this bill because OHA needs to be more accountable for its use of both general and trust funds. If OHA was truly accountable for the use of the money appropriated by this Legislature, then we would have no need for an audit. We are allocating \$500,000 in trust funds for the conduct of this audit. OHA should be spending more money on outreach and connecting with beneficiaries. *Mahalo.*"

Representative Tokioka rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Har rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Yamane rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Mr. Speaker, my counterpart in the Senate will also be speaking very similar comments due to concern expressed by the state auditor that the bill wasn't specific on the request to have them to do the audit. So, for judicial intent, I wanted to make it very clear that both the House and Senate intention was to have the state auditor conduct the annual audits, both fiscal and managerial. Mr. Speaker, so if there's any confusion by any judicial judge regarding the intent of the

measure, it was to have the auditor either contract or do themselves the audit of fiscal and managerial.

"Mr. Speaker, I also wanted to thank the Finance Committee for their support on allowing us to negotiate with the Senate on this measure. Just to highlight, we felt that due to the number of public issues and concerns, that keeping their budget flat was the appropriate thing to do, as well as increase the transparency. So, Mr. Speaker, this bill will not only require the department to conduct this fiscal and managerial audit, but it will also be required to send all drafts and the progress on these unredacted audits both to the chair, this body, as well as the Governor. So, Mr. Speaker, again, thank you, and in strong support."

Representative Say rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 172, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE BUDGET OF THE OFFICE OF HAWAIIAN AFFAIRS," passed Final Reading by a vote of 50 ayes, with Representatives DeCoite, Har, Say and Tokioka voting aye with reservations, and with Representative Ichiyama being excused.

Conf. Com. Rep. No. 129 and H.B. No. 116, SD 1, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 216, SD 2, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support of Conf. Com. Rep. No. 132, Senate Bill 216, and just a few brief comments. Mr. Speaker, one of the themes of this Legislature will be a number of reforms in elections, lobbying, government measures that we pass, and this is one of those bills.

"I'd like to thank the Chair of the Judiciary as well as the Representatives from Kauai. You know, here in Hawaii we're bringing ourselves into alignment with other states that have automatic recount, but in our situation, we have to consider our smaller jurisdictions like the County of Kauai. And it was through the work of the conference committee as well as the representatives from Kauai that really worked on this. This was positioned already to be accepted by the Senate when it had crossed over, but just more careful looking at it meant that we got a better bill. So, I wanted to thank the work of the conference committee again and the representatives of the County of Kauai. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 216, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO ELECTIONS," passed Final Reading by a vote of 50 ayes, with Representative Ichiyama being excused.

Conf. Com. Rep. No. 133 and S.B. No. 1314, SD 1, HD 1, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 1314, SD 1, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Tokioka rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1314, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO TAX CREDITS," passed Final Reading by a vote of 50 ayes, with Representative Tokioka voting aye with reservations, and with Representative Ichiyama being excused.

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and S.B. No. 301, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION OF REAL ESTATE INVESTMENT TRUSTS," passed Final Reading by a vote of 43 ayes to 7 noes, with Representatives DeCoite, Har, Hashem, Kong, Okimoto, Say and Tokioka voting no, and with Representative Ichiyama being excused.

Conf. Com. Rep. No. 143 and S.B. No. 1404, SD 2, HD 1, CD 1:

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and S.B. No. 1404, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO LOAN REPAYMENT FOR HEALTH CARE PROFESSIONALS," passed Final Reading by a vote of 50 ayes, with Representative Ichiyama being excused.

Conf. Com. Rep. No. 146 and H.B. No. 820, HD 1, SD 1, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 820, HD 1, SD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Nakamura rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Nakamura's written remarks are as follows:

"HB 820 is a study of the 'ALOHA homes program' to provide low-cost, high-density leasehold homes for sale to Hawaii residents on state-owned lands within a one-half mile radius of a public transit station. First, there is no such thing as low-cost multi-family housing in Hawaii. The average construction costs for a one-bedroom unit is between \$400,000 to \$500,000. Due to this high cost, not all residents can afford or want to be a homeowner in Hawaii. This is why many of the state's current financing programs are focused on affordable rental housing. That is why we have Section 8 and rent supplement programs.

"I'm also concerned about the very high densities proposed in the original bill that would destroy view planes, obstruct natural landmarks, and negatively impact neighborhoods. The State gave the counties the power to zone, and the State should not take that power away. We should not spend more state resources and personnel to do yet another affordable housing study. Funding should be spent on delivering affordable rental and homeownership opportunities within the State of Hawaii."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 820, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO HOUSING," passed Final Reading by a vote of 50 ayes, with Representative Nakamura voting aye with reservations, and with Representative Ichiyama being excused.

Conf. Com. Rep. No. 148 and H.B. No. 1585, HD 1, SD 2, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1585, HD 1, SD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Har rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. In support with slight reservations. I want to be very clear that I do support the intent of this measure. I do think it's absolutely laudable. My reservations stem from the funding sources, which is specifically the energy security special fund as well as the Public Utilities Commission special fund. I don't think those are appropriate to run the rebate system. For these reasons, I stand with reservations. Thank you."

Representative Lowen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. So, this measure, as Hawaii moves forward trying to reduce our greenhouse gas emissions and our dependence on imported oil, we have to start talking about the transportation sector, which accounts for two-thirds of the oil we import.

"Hawaii has the second highest per capita rate of electric vehicles in the nation, but it's still at less than 1%. We still did see a growth in sales over the past 12 months of 40%, and within the next five or so years we expect there will be price parity where the cost of an EV will be about the same as the cost of a similar, regular vehicle.

"So, the biggest barrier that we face now to adoption is having infrastructure in place. So, for regular working people who don't have PV on their homes or who live in an apartment, they need to know the car they drive is going to be convenient and that they can charge it when they need to. And this measure, which will incentivize the installation of charging stations, will help to put that infrastructure in place. And it's a measure that makes electric vehicles available for everyone by getting that charging infrastructure in place ahead of time, so that we'll be ready for this transition, which is already occurring, and which is very necessary if we're going to meet our zero emissions goals by 2045. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1585, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE ENVIRONMENT," passed Final Reading by a vote of 46 ayes to 4 noes, with Representative Har voting aye with reservations, with Representatives DeCoite, Kong, Say and Tokioka voting no, and with Representative Ichiyama being excused.

At 11:25 o'clock a.m., the Chair noted that the following bills passed Final Reading:

 H.B. No. 116, SD 1, CD 1
 S.B. No. 216, SD 2, HD 1, CD 1
 S.B. No. 1314, SD 1, HD 1, CD 1

 S.B. No. 1404, SD 2, HD 1, CD 1
 H.B. No. 820, HD 1, SD 1, CD 1
 H.B. No. 1585, HD 1, SD 2, CD 1

Conf. Com. Rep. No. 149 and H.B. No. 1552, HD 2, SD 2, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1552, HD 2, SD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Takayama rose to speak in support of the measure, stating:

"Mr. Speaker, in support. First of all, I'd like to thank the former Chair of Judiciary Committee, because the Representative from Kapahulu not only helped create the pretrial task force, but also served on it for the past year, and many of its recommendations are embraced in the measure before us today. I'd also like to thank the Chair of the Finance Committee, because she recognizes the importance of investing our resources in improvements to our criminal justice system.

"Mr. Speaker, this measure before us streamlines the bail system and ends the common practice, especially on Oahu, of having detainees spend weeks in jail awaiting their bail hearings. It's important to remember that bail is not meant to punish detainees, it's simply meant to ensure their presence in court. It's not meant to favor the wealthy over the poor, it's not meant to pressure detainees into pleading guilty so they can return to their families and homes.

"The measure also creates a data center in the office of the chief justice to monitor changes that we make in the criminal justice system and to suggest improvements in the future. Finally, it strengthens our correctional system by working in partnership with the director of Public Safety to improve our rehabilitative practices in our prisons and jails and also monitor complaints that were received about the system.

"Many of us yesterday heard former Governor Ariyoshi encourage us to ask ourselves if what we're doing is good for Hawaii. Mr. Speaker, this measure does indeed improve Hawaii by building a criminal justice system and correctional system that is safer, smarter, and more transparent. Thank you."

Representative Gates rose in support of the measure and asked that the remarks of Representative Takayama be entered into the Journal as his own, and asked that his written remarks be inserted in the Journal, and the Chair "so ordered." (By reference only.)

Representative Gates's written remarks are as follows:

"Bail reform is something that I have been fighting for since I was elected in 2017. The Criminal Pretrial Task Force that was convened pursuant to House Concurrent Resolution 134 came back with insightful and thoughtful suggestions for improving our pre-trial system. HB 1552 implements some of these suggested improvements. HB 1552 makes monetary bail payable on a 24 hour a day, 7 days a week basis. It was unacceptable that individuals had to wait until specific times and days to post bail, when they had the means required to be released. *Mahalo.*"

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Also in support, and would like the words first of the Chair of Public Safety entered into the record as if they were my own, and a few comments, if I may. This measure, I think if you've seen from the headlines, is important for Maui. And what you saw at MCC is the product of many of the things the legislation seeks to look at. Our prison population has swelled because of pretrial detainees, those who can't afford bail, and this is exacerbated by the poor facilities. So, this measure will, I think, have a great impact on the overcrowded facilities, especially that on Maui. *Mahalo,*" and the Chair "so ordered." (By reference only.)

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support and just a few brief comments. This is another measure, Mr. Speaker, where I think the House really took the leadership role on making sure that good policy was put in place. I'd like to thank the Representative from Pearl City, Chair of the PVM Committee, as well the Judiciary Chair, and our past Judiciary Chair, who really also helped to sit on the task force to make sure that these measures were brought forward and considered by the Legislature. Thank you, Mr. Speaker."

Representative San Buenaventura rose to speak in support of the measure, stating:

"I also stand in strong support and I would also like to thank the past Judiciary Chair and the current Judiciary Chair for inserting in a number of the penal reform bills that was recommended during the interim that somehow died in the Senate Floor. And so for those reasons, I'm really happy that this measure is moving forward. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1248, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO ELECTIONS," passed Final Reading by a vote of 49 ayes to 2 noes, with Representative Ward voting aye with reservations, and with Representatives Matsumoto and Okimoto voting no.

"Thank you very much. In support. I'd like to request for written comments for the Journal, and in addition to that just wanted to thank the following chairs on the Committees on Education, Labor, and Finance for their support. *Mahalo.*"

Representative Aquino's written remarks are as follows:

"Thank you, Mr. Speaker. I'm standing in strong support of Conf. Com. Rep. No. 156, SB 1418, SD1, HD1, CD1. The Pamantasan Executive Council is the UH systemwide organization concerned with the status of Filipinos on all UH campuses statewide. The Council was established in 1987 to address the representation and success of Filipinos on campus and to ensure that Filipino American and Philippine courses are represented in the curriculum. The Council also looks at issues concerning Filipinos in the Hawaii Department of Education, Filipinos in the work force, and international relations between colleges and universities in Hawaii and the Philippines. This organization comprises of UH students, staff, faculty, and administrators who are committed to access and diversity issues today and in the future. The funding for Pamantasan positions and projects in this measure will ensure that the State shows its support for educational equity and diversity in higher education. On behalf of the House Filipino Caucus, I would like to thank the House and Senate Higher Education chairs and the Finance and Senate money chairs and vice chairs for their support and work on this bill. *Mahalo.*"

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1418, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE UNIVERSITY OF HAWAII," passed Final Reading by a vote of 51 ayes.

"Thank you, Mr. Speaker. Ruling on a potential conflict. My husband is a firefighter. Thank you," and the Chair ruled, "no conflict."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1201, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC EMPLOYMENT COST ITEMS," passed Final Reading by a vote of 51 ayes.

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 409, SD 2, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Okimoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 409, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO ELECTRIC VEHICLES," passed Final Reading by a vote of 47 ayes to 4 noes, with Representative Okimoto voting aye with reservations, and with Representatives Lowen, Say, Thielen and Wildberger voting no.

Conf. Com. Rep. No. 172 and S.B. No. 33, SD 3, HD 2, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 33, SD 3, HD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Perruso rose to speak in support of the measure with reservations, stating:

"With reservations, Mr. Speaker. While this measure is primarily intended to increase the annual cap on the income tax credit for film production in Hawaii, part III of the bill also contains an unrelated provision requiring UH West Oahu and HTDC to execute a no-cost lease that would involve a 30-acre parcel of land to which UH West Oahu currently holds the title. So, the intent of this land transfer is supposedly to allow HTDC to work with DBEDT to establish a public-private partnership, right? To design and create a new film studio. And I think that that actually could be really beneficial to students seeking careers in film production, but I do think that the land transfer called for by this measure should be vetted separately, apart from the income tax credit, rather than being used as a bargaining chip by the Senate. Thank you." [Note: Representative Perruso later changed her vote to a no vote.]

Representative Ward rose to speak in support of the measure, stating:

"Strong support, Mr. Speaker. Mr. Speaker, I know that we have strategic advantages as the State of Hawaii indicates. We are strategically located militarily, tourism, but there are a number of other measures, one of which is front and center in this bill. That is to become the Hollywood of the Pacific. We have that potential. This bill gives us \$15 million to top off the cap from \$35 million to \$50 million. Mr. Speaker, from my understanding, it should be probably \$70 million, it should have been doubled.

"And the logic of that is, for every \$1 that is spent by the State, there's \$4 that come in terms of employment and taxes and other stimulation of the economy. I won't mention being the sports center of the Pacific or the Geneva of the Pacific, but if we're going to develop our economy, Mr. Speaker, we've got to take advantage of our strategic advantages.

"And as Governor Ariyoshi said yesterday, space is what we should own. We have a tremendous opportunity. But with this one right in front of us, we have a great opportunity, even though \$15 million will help it along, if we really put our hearts and our money to it we can really outdo Hollywood as the Hollywood of the Pacific in Honolulu. Thank you, Mr. Speaker."

Representative Tokioka rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. And I'd like to thank the chairs that moved this bill along, and I just want to share a little bit. As one of the Representatives from Kauai, over the last year we've had two films on Kauai. And two of those films were starring Dwayne 'The Rock' Johnson. And when he comes to Kauai, and others like him, they bring a lot of economic development. They purchase food and catering, so the local peoples can work, construction people. They also purchase trailers. And all of these people are working, and you can see how happy they are.

"Former Representative and now Mayor of Kauai and I got to sit down and talk to some of the producers, and he wasn't even lobbying, he just told us that this tax credit makes it very helpful for them when they choose locations. And as everyone knows through his Facebook posts and Twitter posts, when The Rock signs a deal, he asks the producers if they can film it in Hawaii, and Kauai is the site that he picked in the last three of his movies.

"So, thank you everyone for this opportunity, for the credit to go up, and hopefully we can look at furthering that credit, because Georgia, one of the states that we compete with, they don't have a cap, and they are doing very well on their movie development. So, thank you very much."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 33, SD 3, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO ECONOMIC DEVELOPMENT," passed Final Reading by a vote of 50 ayes to 1 no, with Representative Perruso voting no.

Conf. Com. Rep. No. 183 and H.B. No. 1586, HD 1, SD 2, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1586, HD 1, SD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Okimoto rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Okimoto's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in support with reservations for Conf. Com. Rep. No. 183, House Bill 1586, HD1, SD2, CD1. Mr. Speaker, I am not opposed to the idea of leasing stadium lands to generate funding to pay off bonds to build a new stadium. Rather, I have strong reservations with the language inserted into this measure which allow these lands to be leased for a period of 99 years, and I am marginally opposed to this measure if the parcels chosen by HCDA are 'ceded' and/or Public Land Trust lands. Furthermore, the lease period provided in this measure for this proposed district is contrary to the 65-year period authorized in HCDA's other districts. For these reasons, and the reasons provided in my opposition to the lease of public school lands, I have strong reservations with this bill. *Mahalo.*"

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, just with reservations, please, on 183, which says relating to governance. Basically, it's about the stadium and how to govern the stadium authority, which is very important. We need a new stadium, Mr. Speaker. But I made a promise to this body and to my constituents that until there is naming rights in that to save taxpayers money, I will always have reservations about a new stadium.

"Clearly, we need one, but clearly, we need to leverage private sector funds, which are only there for the asking, Mr. Speaker. This is not an expensive thing. All they can say is no. But there's a lot of companies that love to have their name in front of Aloha Stadium, and we just have not asked for it. So for those reasons, Mr. Speaker, with reservations until we come to the point of saving taxpayers money. Thank you." [Note: Representative Ward later changed his vote to a no vote.]

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1586, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE STRUCTURE OF GOVERNMENT," passed Final Reading by a vote of 49 ayes to 2 noes, with Representative Okimoto voting aye with reservations, and with Representatives Perruso and Ward voting no.

Conf. Com. Rep. No. 184 and H.B. No. 867, HD 2, SD 2, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 867, HD 2, SD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Nakamura rose to speak in support of the measure, stating:

"Thank you, standing in strong support. HB 867 is kind of an obscure bill. What it does though, it adds positions in the Department of Human Resources Development to facilitate and expedite the recruitment and hiring

for civil service positions, addresses recruitment challenges, and reclassifies and abolishes any vacant positions.

"One of my observations sitting on the Finance Committee is the large number of vacant positions, some dating back for over a decade. As many new directors from the private sector do not understand the civil service law and system, it's easier to ask for new positions than to reclassify and describe existing positions. Having staff at DHRD specifically assigned to work with departments to clean up this back log is a step in the right direction.

"I would like to thank the Labor and Finance Chairs for introducing and funding this bill, which I believe will lead to improved transparency in our state budget and greater efficiencies in state government. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 867, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE DEPARTMENT OF HUMAN RESOURCES DEVELOPMENT," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 186 and S.B. No. 1353, SD 3, HD 3, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 1353, SD 3, HD 3, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Creagan rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in strong support. This bill will help our industrial hemp program get off to a strong start. I want to thank the House leadership for their support in getting this bill passed and funded and supporting our efforts to avoid criminalizing hemp violations. We don't want to make the same mistake with hemp that we did with marijuana.

"I also want to emphasize, this was a bipartisan bill. I want to thank the Representative from Kailua for all of her hard work and helpful advice. I also want to thank the Chair of the Senate Agriculture Committee for his willingness to compromise on the criminal penalties. This bill should help continue to expand a very important industry for Hawaii. Thank you, Mr. Speaker."

Representative Thielen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'm rising in strong support and with a few remarks. Mr. Speaker, I first want to thank our Agriculture Committee Chair who did an incredible job. He spent hours going over the bill. He worked with the Department of Agriculture, the Attorney General's Office, getting them to back off on Class C felony for planting a hemp seed that is legal under federal law. He was an amazing advocate for a program that is going to help Hawaii's farmers.

"This whole journey began when the sugar plantations were closing. Speaker Emeritus remembers the early years of hemp being talked about as a replacement crop for sugar. And as sugar went out and the final plant closed down, hemp was beginning to be understood a little bit better, certainly by members in this body, many of whom became leaders of the effort to make industrial hemp be our new agricultural crop.

"In 1999, we were the first in the nation to pass the bill that established a hemp research program, and the first in the nation in over 50 years to plant hemp seed in agricultural land, again, after that long prohibition by the drug administration and Federal Government.

"And then you fast forward to 2014 and, Mr. Speaker, finally Congress kind of caught up and woke up and realized in Kentucky, tobacco was going out. We were phasing out tobacco in the nation. And what was the best crop to take its place? Hemp.

"So, 2014, hemp became part of the federal Farm Act, but only for research projects. And our House jumped on that, and the House members established the hemp research project in Waimanalo. And that project was very fruitful, discovered, among other things, that hemp was excellent to

remove contaminants from agricultural soils. And so that project went ahead.

"And then in 2018, an amazing thing happened after, this is like practically a 30-year effort, maybe more for some of us. In 2018, hemp was taken was out of the Controlled Substances Act, zip, removed. Hemp is no longer a drug. It's an agricultural crop like tomatoes, carrots, papayas, whatever else. But the only thing is, we have to establish a state plan to still have a bit of an oversight over a crop that won't get anyone high, but it will do amazing other things.

"So, very fortunately, our Agriculture Chair led the effort to say, hemp is for farmers, it's not a drug, we're not going to criminalize a farmer that might plant hemp without a state permit. We'll fine him or her, but that's all there is to it. We're not going to criminalize an agricultural crop. And we are going to say to the Department of Agriculture, to its board and its director, get your act in gear and put together what is required by the United States Department of Agriculture, put together this state plan."

Representative Matsumoto rose to yield her time, and the Chair "so ordered."

Representative Thielen continued, stating:

"Thank you. And the state plan, according to federal law, just requires a once a year examination of the farmer's hemp crop, and even says a representative examination of the farmers growing hemp. One time a year, go check it, make sure it's the low THC, because you're bringing in the seed that's specified within the bill.

"It's an amazing venture. But the thing that our Agriculture Chair has led on this is a crop that is going to be far more valuable than sugar. Far more valuable.

"And I've talked about other uses for the hemp crop, which we all know, clothing, rope, building, *et cetera*. But as the crop continues to come forth again in America, we're finding the entrepreneurs that are doing amazing things with it.

"We now have hemp water filters that use hemp fibers as the primary material that kill 95% of microbes and bacteria, such as *E. coli* and salmonella, and it doesn't use dangerous chemicals, such as chlorine. So, here's hemp doing that. We all know about hemp for building and now there is a company that's doing the tiny hemp homes, and this could be a place to provide shelter for many people in our community. And it's a better product, termite proof, by the way, which for Hawaii is very important. And then we have hemp stone. Anything you can build with wood can be constructed with hemp stone, and it eliminates the common toxic chemicals found in your average home. You can do musical instruments, loudspeakers, furniture, and much more. And then the more recent discovery is hemp batteries, which of course are going to be much less costly than our present batteries.

"So, Mr. Speaker, this is going to be a more valuable crop than sugar, because you don't just grow it and then put it on the table and consume it. You grow it and you can build or create one of the well over 25,000 different added value products to it. And the one I haven't mentioned is the gold, the CBD oil. And it's pretty hard not see ads or information about CBD oil everywhere across the nation. That little bottle of CBD oil, about six inches tall, is about \$70. That's the gold for the farmers and for the economy.

"So, if you want to look at how do we keep things running for our Finance Chair, of course is worried about that, it's going to be the taxes that are paid on the products that are sold based in hemp.

"And I wanted to thank the Finance Chair and the Judiciary Chair for being part of this amazing journey. And I believe, Mr. Speaker, that we will find that hemp will far outpace sugar, and it will do so in a much more environmentally sensitive way, and allow local farmers, all of our local farmers, to participate. Thank you, Mr. Speaker."

Representative Cabanilla Arakawa rose to speak in support of the measure, stating:

"In support, Mr. Speaker. And at the appropriate time, I would like to move that this bill be named the Creagan/Thielen Act. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1353, SD 3, HD 3, CD 1, entitled: "A BILL FOR AN ACT RELATING TO INDUSTRIAL HEMP," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 190 and S.B. No. 1394, SD 2, HD 2, CD 1:

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and S.B. No. 1394, SD 2, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO HISTORIC PRESERVATION," passed Final Reading by a vote of 47 ayes to 4 noes, with Representatives DeCoite, Har, Kong and Tokioka voting no.

Conf. Com. Rep. No. 192 and H.B. No. 654, HD 1, SD 1, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 654, HD 1, SD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Mizuno rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. According to the Centers for Disease Control and Prevention and the University of Hawaii Cancer Center, Hawaii has the highest or second highest rate of liver cancer in the United States. The reason I say it's highest or second highest, fluctuates every year. What a dubious title, to be number one or number two with liver cancer throughout the United States. This bill holds the key to research the biomarkers such as infections, liver flukes, and environmental toxin, which could be linked to causing such cancer. This bill is the most aggressive stride this body has ever taken in the fight against liver and bile duct cancer in our state. The research could be the key to intervention and prevention of liver and bile duct cancer in Hawaii and for the rest of the world.

"Mr. Speaker, I promised a couple of friends that I would provide their quotes to this body, because they appreciate all of you for this bill. A good friend of mine, Lucien Wong, who's here, whose wife passed away from bile duct cancer, wanted me to share this statement in appreciation to all of the members. And this is his statement, 'the impossible becomes possible when it's the right thing to do.' Nani Medeiros, who recently lost her dad to liver cancer, has this statement that she wanted me to share with all of you. 'With the passage of this bill, our legislature sends a clear message that the health of our people is a priority. This bill will save lives and provide answers about Hawaii's high incidence and mortality rates for bile duct and liver cancers. I am infinitely grateful to our legislators for introducing and passing this bill. The lives we lost so far, my dad included, will not be in vain.'

"I'd like permission to submit comments by the University of Hawaii Cancer Center, who also thank this body and the Senate, as well as the American Cancer Society, Cancer Action Network, who also provided statements on this measure. Permission to place those in the Journal.

"And finally, I wanted to thank the Lower & Higher Education Chair who was just dogged in his fight. He displayed just great, great leadership ability and fought for the passage of this bill. I wanted to make sure everybody knew that. And I wanted to thank the Finance Chair for being a visionary. This can define the UH Cancer Center to become the world leader in liver and bile duct cancer and save lives. And I wanted to thank all the members and you, Mr. Speaker. For those reasons, I support the passage of this bill. Thank you."

Representative Mizuno submitted the following:

"Dr. Randall Holcombe, University of Hawaii Cancer Center adds, 'We are very appreciative of HB654 which will support research at the University of Hawaii Cancer Center into the causes of the high incidence of

liver cancer in Hawaii. It is imperative that the causes for this high incidence are discovered so that effective cancer prevention interventions can be implemented. Only UH Cancer Center has the researchers to conduct these types of studies. Because of the low level of funding nationally for liver cancer, passage of this bill to provide the resources needed to conduct the research is essential to reduce the burden of this cancer for the people of Hawaii.'

"Cory Chun, Government Relations Director, American Cancer Society Cancer Action Network, Inc. said, 'Cancer research saves lives. Every breakthrough in the prevention, early detection, and treatment of cancer was discovered through research. With House Bill 654 we have the opportunity to determine whether factors unique to Hawaii are contributing to our higher rates of liver and bile duct cancer.'"

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 654, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO HEALTH," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 202 and H.B. No. 1383, HD 2, SD 1, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1383, HD 2, SD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Har rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition to Conf. Com. Rep. No. 202, House Bill 1383, HD2, SD1, CD1. As we all know that this is the marijuana decriminalization bill. This reflects a major change in the fabric of Hawaii. This is a bill that will forever change our penal code system. And while I know that many members still support this, I have several reasons for which I'm standing in opposition.

"First and foremost, I think we have to remind members that marijuana still remains illegal under federal law. It is a Schedule I drug, and under Schedule I, under federal law, it remains illegal under federal law pursuant to the supremacy clause of the U.S. Constitution. Federal law trumps conflicting state law, so while many people continue to ignore that fact, it is still the fact of the matter.

"In addition, Mr. Speaker, let's remember that the Sessions memo, the Jeff Sessions memo, continues to remain in effect, notwithstanding the fact that we have a new U.S. Attorney General. The Sessions memo reiterates that the cultivation, distribution, possession of marijuana remains illegal under

the Controlled Substances Act, and that various federal statutes addressing crimes related to marijuana reflect Congress' determination that marijuana is a dangerous drug and that marijuana activity is a serious crime. So, the Sessions memo directs all U.S. attorneys to enforce the laws enacted by Congress and to follow well established principles when pursuing prosecutions relating to marijuana activity.

"Another reason for which I'm opposed to this bill, Mr. Speaker, is the fact that decriminalization is *de facto* legalization. Decriminalization is tantamount to legalization because the impacts of decriminalization are the same as legalization. In the states that have legalized and therefore decriminalized, there has been an increase in major issues, and I think we have to look at those carefully. Marijuana-related traffic deaths, for example in Colorado, marijuana-related traffic deaths have increased by 151%, while all Colorado traffic deaths increased by 35%. A Colorado Department of Transportation survey found that 69% of self-identified marijuana users admitted to driving after having consumed marijuana.

"Another issue that many states are finding is emergency room visits, hospitalization, and marijuana-related poison control calls. For example, in the State of Washington, there's been a 70% increase in poison control calls between the 3-year averages before and after legalization.

"Other states that have decriminalized and legalized are seeing things like crime increase, an increase in crime rates. The crime rate in Colorado has increased 11 times faster than the rest of the nation, with the Colorado Bureau of Investigation reporting an 8.3% increase in property crimes and an 18.6% increase in violent crimes.

"A study funded by the National Institute of Health showed that the density of marijuana dispensaries was linked to increased property crimes in nearby areas. According to the Colorado Department of Public Safety Division of Criminal Justice, the most common industry-related crime in Denver is burglary, accounting for 63% of marijuana crime related to the industry in 2015. There has been a concern that due to the cash-only nature of the industry, robbery would be prevalent.

"In Alaska, misdemeanor and vehicle thefts have dramatically increased since legalization. Alaska's national ranking for larceny moved up from 16th in the nation to 2nd, and motor vehicle theft from 16th to 5th after marijuana became legal.

"Mr. Speaker, other social ills that we found are increases in alcohol consumption, even in homelessness. In the State of Colorado, teenage use has increased, and they are seeing more homelessness amongst teenagers, particularly in the age range of 12 to 17 years of age.

"Mr. Speaker, the third reason that I'm in opposition to this bill, that this notion that prohibition has resulted in mass incarceration is simply not supported by the data. In 2017, our Legislative Reference Bureau conducted a report entitled 'Panacea or Pipedream: Does Portugal's Drug Decriminalization Policy Translate for Hawaii?' The report explicitly says, and I quote, 'it does not appear that many drug offenders in Hawaii are either incarcerated for extended periods of time solely for the possession of small amounts of marijuana.'"

Representative Perruso rose to yield her time, and the Chair "so ordered."

Representative Har continued, stating:

"Thank you. The same report notes that defendants incarcerated are generally incarcerated for an underlying, more serious offense, and any marijuana offense is essentially secondary.

"In January 2019, a report entitled 'Crime in Hawaii' prepared by the Research and Statistics Branch of the AG's Office tracked data from 2008 to 2017 regarding marijuana arrests. In 2008, the number of marijuana arrests solely for possession in the City and County of Honolulu was 58, and yet in 2017 the number was 22. The data makes clear that the number of arrests for marijuana have declined over the years.

"A fourth reason why I'm in opposition to this bill is that, you know, we've talked about this before with the previous representative from Wahiawa,

Marcus Oshiro, who noted that the move to decriminalize and therefore legalize is really to commercialize marijuana for profit. Marijuana is today's version of big tobacco. Big marijuana is borrowing from big tobacco's playbook in search of the same deep profits.

"A Honolulu Star Advertiser recent article reported that in 2018, Hawaii's medical marijuana dispensaries sold 1,569 pounds of marijuana, totaling \$12.6 million. And now with out-of-state patients who will be able to purchase from Hawaii's dispensaries, the number of patients in Hawaii, which is currently 25,000, is expected to grow 10% to 20%, as cited by Dr. Bruce Anderson of the Department of Health.

"There are clearly profits to be made in marijuana, and once we decriminalize, which is to legalize, we will see this industry take off, because it's all about the profits. But I think what's more disconcerting, Mr. Speaker, is the fact that marijuana is targeting the younger population, more frequent users, because they are likely to be hooked and therefore they will be potentially most profitable.

"A fifth reason that I'm opposed to this measure. Since legalizing medical marijuana, Hawaii has actually seen an increase in traffic fatalities. If you look at the Hawaii statistics on marijuana-related traffic fatalities, the fatality analysis reporting system, they analyze periods between 1993 and 2000, and after 2001, which was when we legalized medical marijuana.

"THC positivity among driver fatalities increased since medical marijuana legalization with a three-fold increase from 1993 to 2000, to 2001 and 2015. A total of 1,578 motor vehicle drivers were killed in traffic crashes in Hawaii from 1993 to 2018. Of the 1,578, THC positivity among fatally injured drivers increased from 5.5% to 16.3%. Over two-thirds of fatally injured were THC positive, and they also had consumed alcohol.

"From 2001 to 2015, THC positive patients were significantly less likely to wear a seatbelt or a helmet. Twenty-two percent of fatal crashes that occurred in Hawaii during calendar years 2013 to 2017 involved drivers, bicyclists and pedestrians who tested positive for having marijuana in their system. Therefore, if we think that decriminalizing/legalizing three grams or less is innocuous, we need to look at the statistics since medical marijuana was legalized in the State of Hawaii.

"Mr. Speaker, a fifth reason for which I stand opposed to House Bill 1383, CD1, is that the bill still has fundamental flaws. The CD 1 is silent with respect to minors. So, if a minor is in possession of three grams or less, will the \$130 fine be applicable? Currently, if you talk to the Prosecuting Attorney's Office or if you talk to anybody in family court, if a minor is charged with anything from a petty misdemeanor and above, a probation officer will be assigned to that minor and that minor is then ordered into drug treatment.

"Treatment is paramount, because the research conclusively shows that marijuana has significant harmful impacts on the adolescent brain. Moreover, you only have a limited amount of time in which to treat that minor before that minor ages out of the system. By decriminalizing marijuana offenses against a minor, essentially, it's going to be a status offense, similar to that of a truancy. So, right now, it's a violation. So what will happen is the police will contact that minor's parent, and that child will not have any access to drug court, drug assessment, whatever the case may be.

"You know, Mr. Speaker, even in the State of Colorado, which was the first state to outright legalize, the State of Colorado actually has an explicit provision for minors. It explicitly states that anyone under the age of 21, not only will they have to pay a penalty, the \$100 fine, but they will also be ordered to drug court. I think that is really paramount here, that that's what this bill is sorely lacking, that we don't give our children that ability to be rehabilitated."

Representative Kong rose to yield his time, and the Chair "so ordered."

Representative Har continued, stating:

"Thank you, Representative. And also, if you understand the effects of marijuana on the adolescent brain, the fact of the matter is this, that

marijuana has a detrimental effect on the grey matter of anyone under the age of approximately 28. The human brain does not actually mature until that age, and until that time, marijuana can have such detrimental effects, everything from suicidal tendencies to depression to even lowering an individual's IQ up to eight points.

"Other states that have the same type of laws as Colorado with respect to minors and drug treatment include California, Michigan, Vermont and Massachusetts. So, I'm just perplexed why we wouldn't do this for our minors. Again, in this situation, we're essentially just hitting them with a violation and then we will never be able to get to that child and be able to change the course of their life without that treatment, which other states have actually outright ordered.

"Another fundamental flaw with House Bill 1383, CD1, was noted by the County of Hawaii Police Department's testimony, in which the Big Island Police Department notes that there is no distinction being made between three grams of marijuana with 5% THC or three grams at 30% THC. We know that THC is a mind-altering substance and we know that marijuana is being genetically modified to contain higher amounts of THC. So, to ignore the amount of THC present and instead use only the weight as the dispositive factor as to decriminalization demonstrates a fundamental misunderstanding of the drug and the fact that the bill has not been well thought out.

"But I think again, the single most egregious problem with House Bill 1383, CD1, is the lack of court-ordered substance abuse treatment assessments and other related services which other states have included in addition to imposing a fine. For example, in Illinois, possession of less than 10 grams with no intent to sell or traffic, the fine is anywhere between \$100 to \$200, plus, if you're a first-time offender, the court may order probation including periodic drug testing, plus the court may order drug addiction treatment and require individuals to refrain from being in the presence of any other illicit drug and other options.

"The fundamental flaw with House Bill 1383, CD1 is that it imposes only a monetary fine, whereas the states that have decriminalized and/or have legalized have included not only fines, but have given the court jurisdiction to order drug assessment or counseling, which may ultimately save a person's life.

"The final reason for which I'm in opposition to this bill, Mr. Speaker, is the lack of transparency with respect to House Bill 1383. Procedurally, House Bill 1383 only had a hearing on the underlying bill and not the HD 1 or the HD 2. The HD 2 is significantly different from the original bill, and yet no other stakeholders were able to opine with respect to the HD 2.

"Mr. Speaker, there were 11 bills introduced this session on marijuana. Of the 11, eight had triple referrals and two had double referrals. While House Bill 1383 originally had two referrals, it was rereferred only to the Committee on Judiciary. The bill has a fine of \$130, which goes to the state's general fund. And since this money goes to the general fund, at a minimum, this bill should have gone to the Committee on Finance.

"Mr. Speaker, I pride myself on being a part of a body that espouses transparency and open government, yet I would submit that on House Bill 1383 and the CD 1 we have not exercised what we preach. We are instituting a major change to our penal system that will have major consequences for our state, and yet there was only one hearing in the House of Representatives.

"You know, Mr. Speaker, on March 1, 2019, the Associated Press published an article in which I was inspired by the words of our Majority Leader with regards to marijuana, in which she stated that, 'I also think that we have enough folks who are sitting around the table who are saying "Let's do it right. Let's not just rush into things and let's do it right."'

"Mr. Speaker, I would submit that we have not done it right in this measure. Therefore, for these reasons, I am in opposition to Conf. Com. Rep. No. 202, House Bill 1383, HD2, SD1, CD1. Thank you."

Representative Johanson rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Quinlan rose to speak in support of the measure, stating:

"In support. I think this bill is a small step in a lot of ways, but a very important step. And if I may be so bold as to quote the Minority Leader, it is a slippery slope, but I love it."

Representative San Buenaventura rose to speak in support of the measure, stating:

"Thank you, in support. As the Representative from the North Shore stated, it is a small step. We are talking about three grams. Decriminalization of three grams. We kept in the law all of the protections for the minors. We kept the felony laws regarding any reckless distribution to minors, regardless of the amount. We kept all of the laws that protect minors.

"As far as the juvenile system works, as the prior representative has pointed out, as soon as there is a violation, the family court comes into place. The family court has the whole repertoire of remedies available to it. Including intervention, including all kinds of domestic family classes, parenting classes, available to it, the whole panoply. That's the reason why we have family court.

"Three grams is two-and-a-half joints. It is a small step towards relieving our HPD from having to bust concert goers and having to bust parties for these minor possessions. It is a small step in recognizing the fact that patients do not necessarily have to have their certificates with them, so that they would still be able to use this medicine. For those reasons, I'm in strong support."

Representative Okimoto rose in opposition to the measure and asked that the remarks of Representative Har be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Matsumoto rose in opposition to the measure and asked that the remarks of Representative Har be entered into the Journal as her own, and asked that her written remarks be inserted in the Journal, and the Chair "so ordered." (By reference only.)

Representative Matsumoto's written remarks are as follows:

"Thank you, Mr. Speaker. At this time, I rise in strong opposition.

"My fear is that this bill has unintended consequences far beyond merely decriminalizing certain offenses related to cannabis and is not, in fact, in the best interests of the State or the constituents we represent.

"As I've mentioned before, decriminalization of these offenses limits the court's ability to provide services to members of our community who are struggling with addiction. By removing criminal penalties for these violations, our state courts will no longer have the authority to judicially supervise offenders. Court ordered counseling or intervention services will no longer be an option in these cases.

"This is concerning, particularly as it relates to younger, first time offenders. Research compiled by the National Institute of Health suggests that cannabis use is likely to precede use and abuse of other licit and illicit substances that ultimately lead to the development of more serious addictions later in life. The human brain is not fully developed until the age of 25 or so. This is particularly concerning to me.

"By treating illegal cannabis use like a parking ticket, what message are we sending to our state? Our communities? Our *'ohana*? As a body, we've been working to strengthen our DUI laws, in light of all of the recent tragic deaths due to intoxicated drivers. Mr. Speaker, have we done our due diligence and studied the ramifications of decriminalization of cannabis in other states? Have we looked at the rise in cannabis-related traffic accidents and the rise of homelessness in those states?

"Furthermore, Mr. Speaker, this measure would eliminate the court's ability to intervene early in the cycle of addiction and thus have a deleterious impact on the most vulnerable among us, our *keiki*, our future. Again, what message do we want to send to the children of Hawaii?

"I fear that HB 1383 will have other unintended consequences by placing a heavier burden on our already strained judicial system.

"This bill, as written, would allow those charged with certain cannabis-related offenses occurring prior to the effective date of this legislation to apply to the court for an order of dismissal.

"This bill, as written, would require the court to consider expungement petitions for criminal convictions related to cannabis, regardless of how old the conviction might be.

"These provisions would, without doubt, create significant delays and backlogs to a judicial system that is already pushed to capacity.

"Unintended consequences, Mr. Speaker.

"Because this bill would decriminalize the possession of three grams of cannabis or less and makes possession punishable by fines, offenders cannot be sentenced to probation and would never be required to go through drug treatment programs that offenders may sorely need.

"Furthermore, offenders who cannot afford to pay the fines imposed will not be required to do so. For offenders who can afford to pay the fine but fail to do so, the State will need to collect the fines through civil process. There is no impetus for the offender to have to pay the fines as the language of the bill says the State 'may' impose fines as opposed to 'shall' or 'must.'

"The finite resources of our judiciary will be significantly and irrevocably constrained and I fear that public safety will suffer as a result.

"I am opposed to this bill and believe we need to re-evaluate our approach to this issue. The potential negative impacts for both the individuals and the communities we serve is too great to ignore. Thank you, Mr. Speaker."

Representative Wildberger rose to speak in support of the measure, stating:

"Mr. Speaker, in tepid support. According to the ACLU, between 2001 and 2010, 7 million people were arrested for possession of cannabis. In 2010, law enforcement made one cannabis arrest every 37 seconds. It's time to destigmatize cannabis use and bring the State of Hawaii into the 21st century and decrim completely. *Mahalo*."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. Mr. Speaker, I may say, after so many terms in this Chamber, I've never heard a speech as metric and robust as I've heard from the Representative from Kapolei. So, I would request that her remarks would reflect my remarks and I would add a couple of things. But now I know why I didn't record my remarks, because she covered literally every base that is saying, we're not going to hell in a hand basket, but we're getting pretty ready to jump on board to a lot of degradation. And she gave the numbers," and the Chair "so ordered." (By reference only.)

Representative Ward continued, stating:

"Look, it's not opinion. These are the statistics. For those who came before us, those are the numbers that we said, let's do it right. Well, have we learned it? I'm not really sure that's the case.

"The good Representative from the North Shore is correct, this is a slippery slope. He may like it, but I don't think he knows which slope he may be on, and that's a point of geography that we have to be mindful of.

"Mr. Speaker, we are the ones that the people of Hawaii depend upon. Decisions we make affect a lot of people. The fact that this is going to be opening the door to recreational marijuana. She's already mentioned how the brains of the young people are going to be fried, the drivers, and all the other things. What are the net gains or the opportunity cost that we're going to pay for this are not in the end worthwhile?

"And I also would lastly refer to my colleague who predicted that hemp will be the crop of the future. I think already the data that was cited, that the

crop of the future is already in the ground and it's the THC crop, Mr. Speaker, one of which to be THC capital of the Pacific is not going to be exactly the best tourist attraction and the remedy for our growing economy. Having said that, Mr. Speaker, I think we know not on the path that we are taking. Thank you."

Representative Lee rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. So as not to repeat a lot of what was said on the prior third reading, I'd ask to insert my comments there to begin. Thank you," and the Chair "so ordered." (By reference only.)

Representative Lee continued, stating:

"And I just add, I appreciate a lot of the discussion that's come out of this. I think it's an important issue. I do appreciate also the questions raised about minors, and to the point of the Vice Chair of Judiciary, again, that portion of statute we actually did not touch. What's in place there, which has always been in place there, still applies to this day and will after this bill clears, if it goes forward.

"I'd just like to also point out, when we talk about statistics, and I cited a lot of them in my speech which will be going into the record, when we look at the experience from other states, both through our LRB which was cited as they did a comprehensive report looking at the experience from around the country, but also individual states including Colorado, California, and others. What those stats actually show is not the picture, I think, that has been painted.

"If we start to cherry pick facts and conflate causation with correlation, we begin to diminish our view of what's actually happening. Because when we talk about transportation statistics, for example, when prior to the decriminalization or the legalization of marijuana in some other state which led to much more wide spread availability, what's being said about these statistics in a lot of these reports and in the LRB report, is not that all of a sudden people are driving and getting into accidents at a much greater rate, rather, the same amount of accidents are happening overall. But because people have now access to medical marijuana, which has been in their system sometimes for up to a month after its use, which has no effect on impairment or anything whatsoever after the fact, those statistics are still finding that in their system, and that is what is being borne out in a lot of these cases. But yet, it has no immediate impact on someone's ability to drive.

"Mr. Speaker, when we talk about statistics in general, we can go on and on. But the one thing which is very curious, which I don't think anybody expected, when we talk about even the worst-case scenario from someone who adamantly opposes this sort of measure, is talking about that slippery slope to full legalization, which this measure absolutely is not. But even were we talking about that and looking at statistics from around the country, what we'd find is the actual legalization and regulation of marijuana in those states lead to decreases in the consumption by minors because it eliminated that black market.

"Mr. Speaker, that is not what we're here to talk about today. So, when we talk about coming up with a comprehensive set of facts and data and doing that analysis, what we find at the end of the day, and our LRB opined on this extensively in their comprehensive analysis, the finding was, and I quote, 'broadly speaking, the decriminalization of small amounts of marijuana does not appear to have led to major increases in the consumption of marijuana.' Mr. Speaker, that's the bottom line.

"And so here we have a choice to look at what are we doing in Hawaii and what can we do to stem the tide of people whose lives are impacted in a negative way by criminal conviction for something which in many other states is outright legal or decriminalized in ways that doesn't fill up our jails, doesn't remove people from opportunities to pursue jobs and student loans and all the rest of that, which is affected by that kind of mark on their record. But most of all, Mr. Speaker, it lets us avoid putting resources into the criminal holding of these people, and rather puts it into treatment, at the cost of \$146 a day, which is not insignificant.

"And so, for us, it's a question of what makes the most sense going forward when we do look at that data, when we do look at our budget, and what we can best do to affect a positive outcome here. And that's why, Mr. Speaker, this is a small step in the right direction. Thank you."

Representative Todd rose to speak in support of the measure, stating:

"In support. Thank you. I just wanted to point out that nearly every argument made today in favor of keeping marijuana illegal could easily be applied for prohibiting alcohol. There's very little distinction, and I think the question isn't whether marijuana use is bad, it's whether prohibition is worse. And I think most of the evidence suggests that that is the case, at least on an aggregate level. Thank you."

Representative Har rose to respond, stating:

"Thank you, Mr. Speaker. Brief rebuttal. Still in opposition, Mr. Speaker. Mr. Speaker, with respect to the contention that this bill does not affect minors, let's look at the bill itself. It's actually amending section 712-1249. If you actually read that part of the statute, it actually applies to everyone, including minors. So, if you are amending that section of the statute, I would submit to this body that this bill essentially, if a minor is caught with three grams or less, that minor will be subject to the \$130 fine and that is it. That minor will be slapped with a violation.

"With respect to the argument that family court has a litany of remedies in which to address any violation from a minor, let's be very clear on this. While the court may have those remedies, the fact of the matter is, on a violation, they have no authority. So, if that child comes in, if they're ordered to drug treatment, that child can come in and basically tell the court, oh sorry, didn't do it, what are you going to do to me? And because it is not a petty misdemeanor or above, the court has no authority in which to enforce any type of drug treatment, *et cetera*, against that child. Okay, so let's be very, very clear on this. The family court may have remedies, but they have no teeth because it is simply a violation. It is a status offence, similar to truancy.

"Number three, when we talk about drunk driving and we talk about alcohol, you cannot compare the two, because at least with alcohol, there is something called a breathalyzer test. We have no such thing for drugged driving. Okay? So, this constant comparison of alcohol versus marijuana, drugged driving, the fact of the matter is there is no test. So we can talk about statistics, *et cetera*, but there is really no test with respect to someone who has just smoked a joint and whether we can take that person's THC level, short of trying to take a blood sample and then we're going run into all those constitutional issues.

"Number four, again, while the Chair of Judiciary wants to argue that decriminalization is not legalization, again, it is *de facto* legalization. If something is no longer illegal, oh it must be legal. So, for those reasons, Mr. Speaker, I still stand in opposition. Thank you."

Representative DeCoite rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. I'd like to insert the words of the prior speaker from the first and the second time into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative DeCoite continued, stating:

"Again, smoke meat, not dope. For me, it's more of a safety issue. It becomes a free-for-all in areas and rural areas such as Molokai and those areas, it just opens the gateway to other drugs. And those areas, two-and-a-half grams will roll you one joint and not three joints.

"We're still looking at medicinal issues of marijuana, and of course I would also like to say we have cherry-picked this thing all the way around. Again, need I remind you that the D.A.R.E. program has been a program within the schools that we have promoted, just say no. Even though this is a slippery slope, as I'm going to end up quoting the Representative from Hawaii Kai, but for those reasons I stand in opposition. Thank you, Mr. Speaker."

Representative Belatti rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support, and call for the question. Thank you."

At this time, Representative Belatti called for the previous question.

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B.  H.C.R. No. 224, HD 1, (SD 1)
 H.C.R. No. 225, HD 1, (SD 1)

H.C.R. No. 56, HD 1, SD 1:

Representative Belatti moved that H.C.R. No. 56, HD 1, SD 1 be Adopted, seconded by Representative Morikawa.

Representative Ward rose, stating:

"Point of information, Mr. Speaker. This is for actual passage, not for putting it on Thursday's agenda? Okay, thank you."

The Chair addressed Representative Ward, stating:

"That's right. This is for adoption."

Representative Matsumoto rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Matsumoto's written remarks are as follows:

"Mr. Speaker, at this time I rise in strong support of this measure.

"In July 2005, 5-year-old Talia Williams died at the hands of her father, Naeem Williams, a former soldier. He was found guilty of her murder in 2014.

"Young Talia attended a school in my district. Her former teacher approached me with the idea that perhaps we can do more to prevent tragedies like Talia's story by working with the Department of Education,

teachers, students, administrators, and parents to prevent, identify, report, and mitigate all forms of child abuse that may take place.

"According to the U.S. Department of Justice, evidence presented at trial demonstrated that Naeem Williams and his wife beat Talia almost daily. Naeem Williams testified that the abuse was aimed at disciplining his daughter for bathroom accidents and was exacerbated due to frustrations he was experiencing in his marriage. The evidence indicated that the physical abuse included punching Talia repeatedly, commanding her to eat her own feces, depriving her of food, requiring her to do strenuous exercises and then beating her when she was unable to continue, and using duct tape to bind her to a bed post where she was whipped with a belt. In the hours preceding her death, Naeem Williams struck Talia and her head slammed backwards against the floor. Talia then appeared to have a seizure.

"Schools may be the first place of alert that child abuse is taking place. If parents, educational staff, and students were provided with training at the beginning of school in how to listen for understanding, how to communicate effectively, and how to resolve conflict, then everyone is equipped with the skills needed in life. With these skills, when conflict does arise, conflicts may be dealt with in a healthy manner and ultimately the incidents of abuse and bullying will decline.

"I want to thank Nora Sanford for advocating for this resolution both at the House and the Senate; the HSH Chair and Vice Chair; the JUD Chair and Vice Chair; and the EDU Chair and Vice Chair for all the work in refining this resolution for the betterment of the *keiki* of Hawaii."

The motion was put to vote by the Chair and carried, and H.C.R. No. 56, HD 1, SD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE DEPARTMENT OF EDUCATION TO ESTABLISH TRAINING PROGRAMS TO EMPOWER PARENTS, TEACHERS, STUDENTS, AND ADMINISTRATORS ON HOW TO PREVENT, IDENTIFY, REPORT, AND MITIGATE ALL FORMS OF CHILD ABUSE THAT MAY TAKE PLACE," was Adopted.

H.C.R. No. 216, HD 1, SD 1:

Representative Belatti moved that H.C.R. No. 216, HD 1, SD 1 be Adopted, seconded by Representative Morikawa.

Representative Belatti rose to speak in support of the measure, stating:

"Mr. Speaker, in support of this HCR, in fact all the following HCRs with just a general comment. Members, Mr. Speaker, these HCRs represent task forces that we're going to be developing and working on into the interim. For example, on college eSports, developing fair and proportional fines, convening an autonomous vehicle task force, a digital gaming advisory group, as well as a task force to look at privacy law in the context of telecommunications.

"Mr. Speaker, I'm proud that this House is already looking to the future to the work that we're going to do in the interim and that many of these task forces will be comprised of members of this House who are working diligently on many of these important issues as we look at innovation in the future. Thank you, Mr. Speaker."

Representative Belatti moved that H.C.R. No. 220, HD 1, SD 1 be Adopted, seconded by Representative Morikawa.

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, robust support please and a brief comment. Mr. Speaker, before we know it, AI is going to overtake us on the road. This is an excellent way of convening autonomous vehicle legal preparation, because I introduced a bill four years ago and they said, ah, we're not ready for that, the insurance companies fighting with the manufactures, the manufactures fighting with all the other one. This will hopefully put down some legal parameters to do what in fact in a way, AI is already here on the road. Those on this floor who have a new vehicle have a lot of things that keep them in their lane, a lot of things that if they are headed into something in front of them will automatically stop. So, this is an excellent step forward, and eventually AI is going to hit us on the road way before we even know it in other places which we are already aware of, but this is an excellent beginning. Thank you."

The motion was put to vote by the Chair and carried, and H.C.R. No. 220, HD 1, SD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE ATTORNEY GENERAL TO CONVENE AN AUTONOMOUS VEHICLE LEGAL PREPARATION TASK FORCE," was Adopted.

H.C.R. No. 224, HD 1, SD 1:

On motion by Representative Belatti, seconded by Representative Morikawa and carried, H.C.R. No. 224, HD 1, SD 1, entitled: "HOUSE CONCURRENT RESOLUTION CONVENING A DIGITAL GAMING ADVISORY GROUP TO ASSESS AND MONITOR GAMBLING PRACTICES IN THE DIGITAL GAMING INDUSTRY," was Adopted.

H.C.R. No. 225, HD 1, SD 1:

Representative Belatti moved that H.C.R. No. 225, HD 1, SD 1 be Adopted, seconded by Representative Morikawa.

Representative Belatti rose in support of the measure. [Note: See H.C.R. No. 216, HD 1, SD 1 for remarks.]

Representative McKelvey rose to speak in support of the measure, stating:

"Mr. Speaker, on 225, in strong support and would like the words of the Majority Leader entered into the record as if they were my own concerning this measure. Thank you."

The motion was put to vote by the Chair and carried, and H.C.R. No. 225, HD 1, SD 1, entitled: "HOUSE CONCURRENT RESOLUTION CONVENING A TASK FORCE TO EXAMINE AND RECOMMEND LAWS AND REGULATIONS TO UPDATE PRIVACY LAW," was Adopted.

ORDER OF THE DAY

SUSPENSION OF RULES

On motion by Representative Morikawa, seconded by Representative Matsumoto and carried, the rules were suspended for the purpose of considering certain House and Senate Bills for Final Reading by consent calendar. (Representatives DeCoite and Nakashima were excused.)

UNFINISHED BUSINESS

Representative Belatti moved to agree to the amendments made by the Senate to the following House Bill, seconded by Representative Morikawa and carried: (Representatives DeCoite and Nakashima were excused.)

H.B. No. 702, HD 1, (SD 2)

H.B. No. 702, HD 1, SD 2:

Representative Belatti moved that H.B. No. 702, HD 1, SD 2 pass Final Reading, seconded by Representative Morikawa.

Representative Kitagawa rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Quinlan rose to speak in opposition to the measure, stating:

"In opposition. So, Mr. Speaker, when I look around this room, I've got to say, I don't just see 51 supremely intelligent, incredibly beautiful people. I see a lot of sacrifice. That's honestly what I see when I look around this room and I look at these people's faces, what I see is a lot sacrifice. I see people that missed their kid's birthdays or soccer games or an anniversary. I see people that have given up so much of themselves. But that's honestly what I see. I know that so many of us have given up so much of themselves to be here and to do these incredible things that we do.

"I have serious concerns about 702. For too long, I have witnessed this body rush headlong to be first in the nation on so many issues, sometimes to our detriment. I think this is one of those cases. And when I look around and I see, I look at some of my friends and I know what they're going through and what they have sacrificed this year and in past years to be here.

"This bill could have serious and far-ranging consequences for the State. I haven't gotten a straight answer on whether or not it's a good thing from anybody. We are 1.5 million people on some tiny little rocks in the middle of the Pacific Ocean.

"I agree with the intent of this bill and I would actually like to thank the introducer for working on this measure. But if we do something like this, it has to be really, really good. It has to be almost perfect. We can't risk legal challenges, we can't risk our constituents losing access to services like Google Maps or Amazon or their banking.

"There's a lot more that I would like to say on this measure, and I think the members of the body understand exactly what I mean to say, but I can't say it on this microphone without having my words struck from the record. So, I'll just leave it at that, and I hope you all join me in voting no on this measure."

Representative Matayoshi rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Tokioka rose to speak in opposition to the measure, stating:

"No vote, Mr. Speaker. I really, really appreciate the passion of my colleague from the North Shore of Oahu. Sometimes when you're here awhile you see things that you don't agree with, but that's just the process. But I think we should take his words into consideration. I know no one wants any company following them or stalking them, but I think the problem that most of us had with this bill is that there's no clarity on what it will actually do or what it won't do. So for those reasons I'm voting no, Mr. Speaker, and I'd like to ask to insert additional comments into the Journal."

Representative Tokioka's written remarks are as follows:

"This bill is totally vague and it seems that we are trying to beat California with the effective date."

Representative Har rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. Mr. Speaker, before I begin, may I please adopt the words of the Representative from the North Shore into the Journal as if they were my own. May I also adopt the words of the Representative from Lihue as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Har continued, stating:

"That said, everybody received the memos regarding the issues with this measure. Unfortunately, I don't have it in front of me, but one of the biggest problems is this measure is absolutely vague. There are no definitions, and that is why there are serious ramifications for this measure.

"We had a bill earlier this year, it was one of the claims against the State, in which the State had to pay money. We knew that the bill was unconstitutional and yet we passed it. And here we go once again, once again being irresponsible. That is not what we have an obligation to do. We took an oath to the State Constitution, and so we have to be responsible in what we are doing. It's not about politics, it's about policy. And so, Mr. Speaker, we all know what's going on with this bill. So that said, I'm in strong opposition and I ask members to please consider submitting their green slips."

Representative Perruso rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Cabanilla Arakawa rose to speak in opposition to the measure, stating:

"I'm voting no, Mr. Speaker, and I share the passion of the Representative from the North Shore. And I would like the words that he implied in this body to be inserted into the record as if they were my own. Thank you," and the Chair "so ordered." (By reference only.)

Representative Hashimoto rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative McKelvey rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, no with reservations. I have reasons for this, Mr. Speaker. My reservations come because it's half cooked, half baked. And my no vote is because there's a better way to go about it, and I really regret that my colleague from the North Shore was not feeling safe in the marketplace of ideas where we should have freedom of expression more so than even the University of Hawaii. So, with the regrets on what otherwise this bill is intended to make for privacy, we have shut down one of our members who probably had a lot to say.

"But, Mr. Speaker, let me end by saying this. There are out there monopolies of information. The Googles, the Bezos, the Amazons, and the others, inevitably are going to be brought to task, the same way that Ma Bell

was brought to task when every telephone or telephone line was owned by them and we broke it up. Right now, we have a monopoly of information on the people of this nation and the people of this state. So, inevitably this is going to come about, but as some of my colleagues have said, there's a proper way of doing it and there's an improper way, Mr. Speaker. And this one, given the division that it's created in this House, does not seem to be the proper way. For those reasons, Mr. Speaker, reservations, but no first and then reservations second. So, I'm a no. Thank you."

The motion was put to vote by the Chair and carried, and H.B. No. 702, HD 1, SD 2, entitled: "A BILL FOR AN ACT RELATING TO SATELLITE NAVIGATION TECHNOLOGY," passed Final Reading by a vote of 32 ayes to 17 noes, with Representatives Hashimoto, Kitagawa, Matayoshi, McKelvey and Perruso voting aye with reservations, with Representatives Aquino, Cabanilla Arakawa, Cachola, Gates, Har, Holt, D. Kobayashi, Kong, Matsumoto, Ohno, Okimoto, Quinlan, Say, Todd, Tokioka, Ward and Yamane voting no, and with Representatives DeCoite and Nakashima being excused.

S.B. No. 976, SD 2, HD 1, CD 2:

Representative Belatti moved that S.B. No. 976, SD 2, HD 1, CD 2 pass Final Reading, seconded by Representative Morikawa.

Representative Okimoto rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Okimoto's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in opposition to Senate Bill 976, SD2, HD1, CD2. Mr. Speaker, I am not opposed to the idea of leasing public library lands to generate additional funding for the Hawaii State Public

Library System. Rather, I am opposed to the language which allow these lands to be leased for a period of 99 years, and I am especially opposed to this measure if the parcels chosen by the Board of Education are 'ceded' and/or Public Land Trust lands.

"The proposed lease term of 99 years is unnecessary, and unjust to Native Hawaiians. The lease of public lands to private developers, the highest bidder, for 99 years, invokes a sense of entitlement to public lands. Furthermore, multi-generational leases will lead to long-term uncertainty. Future Legislatures may extend the number of parcels allowed to be leased by the board and may authorize lease extensions. Perhaps the board may be required to implement lease to fee conversion over a century from now. Who knows?

"This body should not entertain the idea of leasing public library lands for 99 years until it can ensure there are sufficient provisions in the HRS to prevent public school 'ceded' and/or Public Land Trust lands from being lost forever. This body should not entertain the idea of leasing public library lands for 99 years while it continues to fail to fulfill its fiduciary and constitutional duty to fully fund the Department of Hawaiian Home Lands and the Office of Hawaiian Affairs. This measure will result in many unintended consequences if it is passed this morning.

"For these reasons, Mr. Speaker, I am opposed to Senate Bill 976, CD2. *Mahalo.*"

Representative Perruso rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Perruso's written remarks are as follows:

"Public libraries are a vital community resource. The pilot program envisioned by this measure mirrors Act 155's 21st Century Schools program, which sacrifices public land to for-profit developers to generate revenue for education. Yet, to date, that program has failed to produce the funding needed to deliver the schools our *keiki* deserve.

"Such programs turn public space over to corporate control, making Hawaii even more dependent on private land and real estate developers to pay for public goods. This is no way to fund our critical educational infrastructure and programs. In contrast, we can and should commit to increasing funding for education by passing legislation that raises taxes on those who can most afford it, including the developers who hold our children's future hostage to boost their own bottom lines.

"Public lands should be kept in public hands. Accordingly, I take issue with the 99-year leases called for by this bill. While lands held by the DOE were exempted from the definition of public lands in Chapter 171 in 2018, doubling down on that misguided action with regard to our state's library system recommitments the Legislature to circumventing important land use requirements for lease appraisal and valuation, public auction, lessee qualifications, and lease length and renewal restrictions, among other mechanisms of accountability and transparency.

"Additionally, when discussing public lands, we must always account for 'ceded' lands, to which Native Hawaiians maintain an unrelinquished claim. Long-term leases, like those called for by this bill, prevent the Hawaiian community from determining the most appropriate use of public trust lands, prolonging the erasure of Hawaiian voices in decision-making about land use that could lead to the betterment of Native Hawaiian conditions.

"Finally, the 21st Century Schools initiative on which this measure is based relies on the commercialization of public school space—the space in which our *keiki* play and learn. Developers are given the opportunity to build commercial residential and retail properties, in exchange for providing a few pennies of each dollar they earn to the DOE. Essentially, the 21st Century Schools program allows developers to privatize public education lands, taking away precious school space to boost corporate profits. Following that model with our public library system would greatly undermine the civic function that libraries perform, especially for our most vulnerable residents.

"Our children's education, whether through schools or libraries, should not be for sale to the highest bidder, nor should we be taking steps to

privatize education, which is the ultimate public good. We should, instead, be working to increase education funding by asking wealthy businesses and residents to pay their fair share to ensure that our children can reach their fullest potential and we, the people, can engage in a lifetime of learning."

The motion was put to vote by the Chair and carried, and S.B. No. 976, SD 2, HD 1, CD 2, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC LIBRARIES," passed Final Reading by a vote of 46 ayes to 2 noes, with Representatives Okimoto and Perruso voting no, and with Representatives DeCoite, Nakashima and Quinlan being excused.

H.B. No. 888, HD 1, SD 2, CD 2:

No. 888, HD 1, SD 2, CD 2, entitled: "A BILL FOR AN ACT MAKING APPROPRIATIONS TO THE MAUI HEALTH SYSTEM," passed Final Reading by a vote of 48 ayes, with Representatives DeCoite, Nakashima and Quinlan being excused.

ANNOUNCEMENTS

Representative Ward: "Mr. Speaker, just a moment to say *mahalo* to you for the food, for keeping good decorum, and for a *mahalo* to all of the majority, and a *mahalo* to the Governor, who we had gracing our presence at a luncheon here.

"But especially to the freshmen, you survived your first session, and we're looking forward to the freshman skit this afternoon, Mr. Speaker. So, that's really the announcement, but the real challenge is this. The gold standard of the freshman skit is with Representative Hashem of East Honolulu. If they beat that, they will have scored very, very well. But I know they'll probably be better than the Representative from Waikiki who tried to give us his best

poem this morning. For those reasons, Mr. Speaker, *aloha* to everyone, *mahalo* from the minority. *Aloha*."

Representative San Buenaventura: "Thank you, Mr. Speaker. So, last year on the last day of session, after we had passed the Kauai relief bill, I turned around to Chair Luke and I asked her, because we were undergoing a number of earthquakes at that time, so what would happen during the interim if a disaster fell in my district? And that day, at 5:00 p.m., the first fissure on Leilani Estates opened up.

"Since then, one year later, we are still recovering. I would like to thank leadership for the many times you folks have visited my district, my island. The many times you folks have met with county officials. I'd like to thank the Governor for the relief that was far more than we expected during the interim. And I'd like to thank the Legislature for passing House Bill 1180 that kick starts our recovery. And hopefully next year on the last day of session we could say we are on the path towards recovery. And for those reasons, Mr. Speaker, I'd like to also extend *mahalo* to everyone in this Chamber. Thank you very much."

Representative Holt: "Thank you, Mr. Speaker. I rise on a point of personal privilege. So, I know towards the end of session we have to pass bills without knowing everything, definitions aren't set, but it's for the betterment of the people of Hawaii. And I don't have concern with that. What I do have concern with is when we do know we have a responsibility to the people of Hawaii and we fail to act. What we do know is that the Hawaiian Kingdom lands are held in a trust, a public land trust, and 20% of those funds are supposed to go for the betterment of the Native Hawaiians. What we do know is that \$15 million is not 20% of that fund, and we do have a responsibility to update that amount. I look forward to going into next session and taking care of this responsibility that we all have. Thank you."

Representative Ward: "Mr. Speaker, may I adopt the words of the former announcement as if my own. I know it's never been done, but what he said is very important."

The Chair then recognized Representative Belatti, the Majority Leader, to deliver closing remarks on behalf of the Majority Caucus:

"Thank you, Mr. Speaker, for this opportunity to make remarks. I would like to start my remarks with those same remarks that I ended with on Opening Day, by thanking the hard-working staff of the House. The Clerk's Office, the Sergeant-at-Arms, the Legislative Reference Bureau, the House Minority and Majority Staff Offices, and all of our individual staffs and offices. A session of 60 legislative days like the one we have had in 2019 could not happen without them. Please, a round of applause for them.

"Mr. Speaker, I trust that you will take care of the substantive bills and mentioning the highlights. What I'd like to share with this body is that every year, like every year when I was a teacher, at the end of the year it was a time for self-reflection. It was a time to think about what we had done and to look forward to the future.

"For me, the lessons that I have learned in this body and in this year, and I learn them every year, every time that I come back to this place. But the lessons I learned this year was that leadership starts from a place of listening, really listening to the broad range of perspectives and concerns that come before us as lawmakers, and putting aside our own preconceived notions of what is absolutely the right thing to do.

"Leadership seeks to balance these concerns and, inevitably, the competing needs and conflicting agendas that arise from diversity. Leadership is being willing to roll up one's sleeves to do the heavy lifting of working through tough issues and crafting pragmatic solutions and pass forward for the community at large to benefit from. Leadership is about allowing all to share in the workload. Leadership is then, in this body, among all 51 of us, it is to share both the burden of leadership and to celebrate the wins together.

"It is also for all of us to come back next year, to come back if we are so lucky enough to have our neighbors, our *kūpuna*, our children, have enough

faith in us to elect us again. It is to come back and to continue to do the work of the House and the State of Hawaii. Thank you, Mr. Speaker."

Speaker Saiki then gave his closing remarks as follows:

"The Chair has a few remarks to close this session. To reiterate the Majority Leader, thank you to the staff who have helped us achieve this point in time. So, the Legislative Reference Bureau, Sergeant-at-Arms, Chief Clerk's Office, Printshop, Research Offices, our individual members' staff offices, and also to Governor Ige.

"I wanted to just, in particular, thank the Governor for working with the House throughout this session. I think that this is a really good partnership that we have between the Governor and the House, and we look forward to building upon that after this session concludes. So, thank you, Governor, for being here today.

"I would also like to thank the members of the House for all of your work. I wanted to say that there are more and more people on the outside who tell me that they look to the House to provide direction and stability for our state. And this is really an acknowledgement of all of your work. You have earned that acknowledgement from the public.

"The first year of the biennium is always the most challenging, frankly because we only have a few weeks to prepare for it. But this year, the House took the lead and made some big strides. We initiated a zero-based budgeting system that allowed our committees to scrutinize specific agency budgets, appropriations, and expenditures. This will reform and modernize state functions such as the State Energy Office, Hawaii Technology Development Corporation, Hawaii Strategic Development Corporation, and the recruitment process to fill state employee vacancies. And this new oversight has resulted in budget decisions that are being made in public and with maximum involvement.

"The members of this House have also taken charge to expand disaster relief for the Big Island and Kauai; fund personal care, meals, transportation, and daycare for seniors; implement statewide mail-in voting and mandatory recounts; expand rapid re-housing and 'ohana zones for homeless persons; revamp our pretrial detainee and corrections practices; fund the community college Promise program; stop opioid abuse; strengthen pedestrian crosswalk safety; create a permanent industrial hemp program; preserve natural resources such as the Bishop Museum, Festival of Pacific Arts, Molokini, He'eia State Park, and manta rays. And also, members, very importantly, to date, our six-week Water Dispenser Pilot Project has saved the equivalent of 12,507 plastic water bottles.

"So, the House has redefined the Legislature's role as the policy-making branch of state government. I know that there is more to be done, and we will use this interim to develop priorities for next year. So, members, thank you very much for all of your work and have a great summer. Thank you."

"EXECUTIVE CHAMBERS
HONOLULU
July 9, 2019

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 290

Honorable Members
Thirtieth Legislature
State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, House Bill No. 290, entitled "A Bill for an Act Relating to the Uniform Controlled Substances Act."

The purpose of this bill is to authorize qualifying patients or qualifying out-of-state patients to transport medical cannabis between islands for their personal medical use. It further requires the Departments of Transportation and Public Safety to adopt rules pursuant to chapter 91, Hawaii Revised Statutes, as necessary to carry out this purpose.

This bill is objectionable because of the large number of residents and visitors who may be misled to their detriment by the purported authorization in this bill of the interisland transportation of medical cannabis for personal medical use.

Interisland transport necessarily entails travel outside the jurisdiction of the State of Hawai'i, as the State only has jurisdiction up to three nautical miles offshore. Because Hawai'i's laws cannot completely regulate the interisland transport of cannabis, a state statute purporting to allow interisland transport may give false comfort to some that such transport is protected from federal enforcement.

The existing law, section 329-122(f), Hawaii Revised Statutes, defines "transport" for the purposes of interisland transportation as "between a production center or retail dispensing location and a certified laboratory for the sole purpose of laboratory testing." This bill amends that definition of "transport" to include "by a qualifying patient or qualifying out-of-state patient for the patient's personal use," but retains the existing wording, "with the understanding that state law and its protections do not apply outside of the jurisdictional limits of the State." Consequently, I believe that this bill's amendments to section 329-122(f) may result in confusion by residents and visitors as to what protection this bill provides.

In addition, this bill requires the Department of Transportation and the Department of Public Safety to adopt rules "necessary for the purposes of

this subsection." It is unclear whether, and if so, how state rules would work for an area that includes federal and international jurisdiction.

For the foregoing reasons, I am returning House Bill No. 290 without my approval.

Respectfully,
/s/ David Y. Ige

Gov. Msg. No. 1372, transmitting his statement of objections to H.B. No. 323, HD 1, SD 1, CD 1, as follows:

"EXECUTIVE CHAMBERS
HONOLULU
July 9, 2019

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 323

Honorable Members
Thirtieth Legislature
State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, House Bill No. 323, entitled "A Bill for an Act Relating to Motor Vehicle Registration."

The purpose of this bill is to classify certain former military vehicles as special interest vehicles and enable owners of former military vehicles to apply for registration of the motor vehicle with the director of finance of the county in which the former military vehicle resides.

This bill is objectionable as it dramatically changes the purpose by circumventing the manufacturer's certification requirement of Section 286-42(a), Hawaii Revised Statutes, which minimizes the number of uncertified vehicles on Hawaii roads.

The special interest vehicle law was implemented to accommodate hobbyists who spend significant amounts of money and time modifying their vehicles. The objective was to make it possible for these hobbyists to show off the products of their labors.

Military vehicles are not the product of hobbyists and they were not manufactured for use on our public roads. The State of Hawaii requires vehicles to be in compliance with all applicable Federal Motor Vehicle Safety Standards as of the date of manufacture. In addition the emissions of these military vehicles do not meet Federal Clean Air Act.

Federal guidance ensures that Hawaii's inventory of registered vehicles meet certain safety standards that help keep our roads safer and environmentally friendly for Hawai'i's residents and visitors.

For the foregoing reasons, I am returning House Bill No. 323 without my approval.

Respectfully,
/s/ David Y. Ige
DAVID Y. IGE
Governor of Hawai'i"

Thirtieth Legislature
State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, House Bill No. 407, entitled "A Bill for an Act Relating to Education."

The purpose of this bill is to require Board of Education approval prior to the termination of a complex area superintendent.

This bill is objectionable because the Board of Education (Board) currently has the authority to act as an appellate body for certain employment actions, including actions to terminate complex area superintendents. This bill now inserts the Board into the termination process and it is unclear how an administrative appeal by a complex area superintendent would be addressed under this law.

For the foregoing reasons, I am returning House Bill No. 407 without my approval.

State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, House Bill No. 629, entitled "A Bill for an Act Relating to Medical Release."

The purpose of this bill is to create a medical release program within the Hawai'i Paroling Authority (HPA) to allow inmates with terminal or debilitating diseases or illnesses to be released from custody before the expiration of their sentence. The Director of Public Safety, an inmate or an inmate's representative may submit a written request for medical release. The bill also sets forth specific requirements for both HPA and the Public Safety Department (PSD) to follow when establishing and implementing the medical release program.

This bill is objectionable because it is unnecessary. A medical release program has been in existence since December 2014 under PSD and HPA policies.

Further, the bill requires PSD and HPA to complete certain tasks within short periods of time but does not provide for necessary resources. For example, the bill allows referrals for medical release from inmates and inmate representatives, who may not be medically trained. PSD's Health Care Division would be required to provide a detailed, comprehensive medical assessment within twenty days of receipt of each referral. The bill does not, however, provide funding for additional healthcare or other staff required to perform the comprehensive assessments.

For the foregoing reasons, I am returning House Bill No. 629 without my approval.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Draft 1 of House Bill No. 655, entitled "A Bill for an Act Relating to Health."

The purpose of this bill is to add a new section to chapter 8, Hawaii Revised Statutes, to designate September as "Suicide Prevention and Awareness Month."

This bill is objectionable because House Draft 1 of this bill with a delayed effective date became law on April 23, 2019, as Act 36, Session Laws of Hawai'i 2019, without my signature pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i. Therefore, Senate Draft 1 of this bill was subsequently transmitted to me in error.

However, I will issue a proclamation designating September 2019 as "Suicide Prevention and Awareness Month" and will work with the Legislature to amend Act 36 so that it furthers this laudable objective.

The purpose of this bill is to prohibit the sale or offering for sale of location data that is recorded or collected by a satellite navigation technology-equipped device without the explicit consent of the individual who is the primary user of the device.

This bill is objectionable because it attempts to regulate a complex national industry without sufficient and appropriate wording to ensure consistent compliance and enforcement. The lack of clarity in this bill as currently drafted will lead to ambiguity, confusion, and unintended consequences should it become law.

During the interim, the administration will work with the legislature through the task force created in "House Concurrent Resolution 225, Convening a Task Force to Examine and Recommend Laws and Regulations to Update Privacy Law" to provide recommendations to the legislature to ensure that appropriate legislation can be introduced next session to address this important issue.

"EXECUTIVE CHAMBERS
HONOLULU
July 9, 2019

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 748

Honorable Members
Thirtieth Legislature
State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, House Bill No. 748, entitled "A Bill for an Act Relating to Property Forfeiture."

The purpose of the bill is to prohibit civil asset forfeiture except when the owner of the asset has been convicted of a felony. The bill also changes the distribution of forfeited property, or sales proceeds from forfeited property, to the state general fund. Presently, forfeited property and/or sales proceeds are distributed to the state and local law enforcement agencies and the forfeiture fund.

At the outset, we note that there are distinctions between criminal and civil forfeiture proceedings. A criminal forfeiture is an *in personam* proceeding against an individual. The individual is charged with crimes that authorize the forfeiture of proceeds, or money or property involved in, or used to facilitate, an offense. The forfeiture becomes a component of the criminal sentence; it is not a separate criminal offense. See *Carlisle v. One (1) Boat*, 119 Haw. 245, 261 (2008) ("[T]he forfeiture of property is a part, or at least a consequence, of the judgment of conviction.") (citation omitted). A civil forfeiture, by contrast, "is entirely separate from the judgment of conviction," and is not considered punishment for an offense. *Id.* Rather, the property itself is "primarily considered as the offender[.]" The Court has also explained that such a proceeding "is a proceeding *in rem*," and "not a proceeding against any person." *State v. Tuipuapua*, 83 Haw. 141, 147 (1996).

This bill is objectionable because it eliminates civil forfeiture as an effective and critically important law enforcement tool. The Hawai'i Supreme Court has explained that the civil forfeiture law serves important non-punitive goals such as "encouragement" of property owners "to take care in managing their property," and that it tends to ensure "they will not permit that property to be used for illegal purposes." *State v. Tuipuapua, Id.* at 153 (1996) (quoting *U.S. v. Usery*, 518 U.S. 267, 289 (1996)). See also *Carlisle v. \$10,447.00 in U.S. Currency*, 104 Haw. 323, 336 (2004) (asset forfeiture statute is "designed to ensure that the economic benefits of committing a crime do not outweigh the consequential criminal penalties; otherwise, without the forfeiture statute, an individual might determine that the money gained from gambling activities outweighs the costs associated with criminal convictions."). While the language of the bill characterizes asset forfeiture as "government-sponsored theft," in reality, civil asset forfeiture is used only when a crime is committed and only for the purposes of stopping ongoing criminal activity and deterring further crimes. Moreover, while the seizure of property and proceeds of a crime can occur at the outset of the related criminal matter, the sale of any proceeds often does not occur until after a conviction.

In addition to the mischaracterization of the use and purpose of civil asset forfeiture, problems with the bill also include the following:

First, the felony conviction requirement in the bill is problematic because it misunderstands the distinct nature of a civil asset forfeiture proceeding. An asset forfeiture is usually not a proceeding against a person (unlike a criminal prosecution) but rather is a civil proceeding *in rem* (i.e., against the property used in the commission of a crime or obtained as proceeds from the commission of a crime). See *State v. Tuipuapua*, at 147. Requiring the

owner to be convicted of a crime before his or her assets are forfeited misses the point of asset forfeiture, which seeks to prevent *property* from being used in the commission of criminal conduct. Often, the owner of the property is not the defendant in the criminal case. For example, if a landlord knowingly allows his tenant to use a residence to manufacture or sell drugs, the residence may be forfeited, even if the landlord does not commit a criminal offense. To be clear, the law presently applies to property owners who *knowingly* and *blatantly* allow their property to be used in the commission of a crime. To stop ongoing criminal activity, the property of such individuals should continue to be subject to the civil asset forfeiture proceeding.

Second, the bill's requirement of a felony conviction conflicts with other provisions in chapter 712A, Hawaii Revised Statutes (HRS), and the Penal Code of the HRS. For example, section 712A-11 (6), HRS, states, "[a]n acquittal or dismissal in a criminal proceeding shall not preclude civil proceedings under this chapter." Thus, even if the defendant who engaged in the criminal conduct using property subject to asset forfeiture is not convicted, the property the defendant used is still subject to the civil forfeiture process, which uses a different standard and has different purpose, i.e., the removal of property from use in criminal activity.

Third, the bill's felony conviction requirement disregards the fact that misdemeanor and petty misdemeanor statutes specifically provide for the forfeiture of assets. Again, this is important because the asset forfeiture proceedings target property that is being used in criminal activity, regardless of a criminal conviction. For example, section 712-1230, HRS, provides for the forfeiture of gambling devices, paraphernalia used on fighting animals, or birds, implements, gambling records, and other property related to gambling. Quite often, the related criminal offense is promoting gambling in the second degree, under section 712-1222, HRS, which is a misdemeanor. Another example is section 199-7, HRS, which allows the forfeiture of property used in the commission of offenses described in chapters 6D (Protection of Caves), 6E (Historic Preservation), and 6K (Kaho'olawe Island Reserve), HRS. The offenses in these chapters are misdemeanors and petty misdemeanors, but the forfeiture of assets in these circumstances serves the same purpose: to stop the use of property in criminal activity and to deter future crimes. While not felonies, these are all serious offenses that negatively impact our society, and this bill would inhibit our ability to encourage property owners to manage their property in a legal manner, regardless of whether they are charged with criminal offenses.

Finally, the concerns referenced in the bill are misleading because they identify abuses that may occur in other jurisdictions but do not happen in Hawai'i, where we presently have significant safeguards against abuse. At the outset, our statute requires that there be a substantial connection between the property seized for forfeiture and the related crime. In the case of a seized car, for example, unless there is evidence that a particular car was used to facilitate or assist in a crime, or was obtained using the proceeds of a crime, a substantial connection is lacking and the car cannot be forfeited. See *Carlisle v. \$10,447.00 in US Currency*, 104 Haw. 323, 336 (2004). An interested party also may file a claim for relief in a court proceeding asserting that the interested party's property was used in the commission of a crime without that party's knowledge. This is an "innocent owner" defense to the forfeiture of the property. Additionally, section 712A-5.5, HRS, requires that the amount of the asset forfeiture be proportionate to the owner's conduct. Under section 712A-10(4), HRS, an interested party may file a petition for remission or mitigation for relief in an administrative proceeding.

In short, the existing statutes require proof that property was connected to a crime, give an aggrieved owner the right to show lack of knowledge of the criminal acts, and allow for relief from any excessive forfeiture.

For the foregoing reasons, I am returning House Bill No. 748 without my approval.

Respectfully,
/s/ David Y. Ige

The purpose of this bill is to limit the number of commercial-use permits in any marine life conservation district (MLCD) not accessible by land to no more than forty, and to limit access to an MLCD not accessible by land to fifty percent of the current number of permit holders at any one time. The bill requires the Department of Land and Natural Resources (DLNR) to initiate rulemaking for management changes to address concerns regarding overcrowding and fish disruption at the Molokini Shoal MLCD.

This bill is objectionable because it is unnecessary. DLNR already limits the number of commercial-use permits in the Molokini Shoal MLCD, which is the only MLCD that is not accessible by land, to forty.

Furthermore, the bill's language limiting access by commercial-use permit holders to fifty percent of the current number of permit holders at any one time in Molokini Shoal MLCD is counterproductive to DLNR's efforts to address concerns regarding overcrowding. DLNR is in the process of working with the commercial-use permit holders to adjust the operating schedules to coordinate access to better manage the impact of commercial activity on this precious natural resource.

The purpose of this bill is to establish a working group to develop best practices for collaborative teacher preparation time and expanded learning time for students in public schools.

This bill is objectionable because, while it is well-intentioned, it would encourage the development of a "one-size-fits-all" approach to schools. Issues involving planning and expanding learning time are best left to the specific schools to address, as these matters must consider the distinct needs of a particular school as well as the unique needs of their students. Furthermore, planning and learning time are matters better left to the Board of Education, as those matters fall squarely within the Board's statutory authority.

The purpose of this bill is to allow surviving immediate family members of murder or manslaughter victims to receive a copy of the closing report prepared by the investigating police department upon the conclusion of all criminal and civil proceedings that arose from the murder or manslaughter offenses.

This bill is objectionable because immediate family members of victims of all crimes already have the right to receive closing police reports, which makes this bill unnecessary. Under current law, members of the general public can obtain copies of any police report after the conclusion of criminal

proceedings, provided certain conditions are met in accordance with the Uniform Information Practices Act. Furthermore, restricting this right to immediate family members of only murder or manslaughter victims may lead to a narrow interpretation of the law, leaving family members of victims of other crimes without access to closing police reports.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Bill No. 301, entitled "A Bill for an Act Relating to Taxation of Real Estate Investment Trusts."

The purpose of this bill is to repeal the deduction for dividends paid taken by a Real Estate Investment Trust ("REIT") that is subject to Hawai'i income taxes.

This bill is objectionable because it could discourage the business community from investing in Hawai'i. Disallowing the dividends paid deduction for REITs could potentially stifle economic development and scare away investment capital to address our aging infrastructure. From an economic development perspective, REITs provide stable economic growth and long-term benefits – including job creation – that will extend the supply chain into rental and commercial properties.

The benefits of continuing with this federally established legislation are clear and quantifiable. REITs are an important investment vehicle for all types of investments in Hawai'i. If the state corporate income tax is imposed on a REIT, there may be negative impacts to the State's economic health and business climate, such as the reduction of general excise, property and state income taxes.

Overall, the unintended consequences of imposing a corporate tax on REITs, are not worth the potential benefits. Hawai'i needs to be a place that is able to attract investment capital in order to create jobs and a sustainable economy.

For the foregoing reasons, I am returning Senate Bill No. 301 without my approval.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Bill No. 1292, entitled "A Bill for an Act Relating to Transient Accommodations."

The purpose of this bill is to require hosting platforms that collect fees for booking services to register as tax collection agents and to collect general excise and transient accommodation taxes for transient accommodation bookings from operators and plan managers.

This bill is objectionable because the State's taxation of transient accommodations through hosting platforms should complement the counties' regulation of transient accommodations. While requiring the hosting platforms to collect and pay the taxes on illegal transient accommodation uses would not legalize these operations, there is concern that it could be viewed as legitimizing these operations. To ensure effective regulation, state statutes and county ordinances must be coordinated. Both the federal Internal Revenue Service and the State Department of Tax (DOTAX) are obligated to collect taxes on business activity, whether legal or illegal, as affirmed by the U.S. Constitution (16th Amendment) and a hundred years of court decisions. However, the passage of Bill 89 (2018) by the Honolulu City Council – which Mayor Kirk Caldwell recently signed into law and is an example of a county's enactment of specific enforcement provisions governing transient accommodations and hosting platforms – highlights the concern that a state law not impede or adversely affect county efforts to regulate land use. This bill raises significant issues, including for DOTAX, that were not fully contemplated by the Legislature or DOTAX when the bill was debated and then passed.

Importantly, the State is exercising its enforcement powers to ensure tax compliance by transient accommodations operators and managers. For example, on June 28, 2019, the State filed an application to issue a subpoena to Airbnb. The State looks forward to working with companies such as Airbnb to ensure tax compliance.

For the foregoing reasons, I am returning Senate Bill No. 1292 without my approval.

The purpose of this bill is to establish an industrial hemp licensing program in the Hawaii Revised Statutes that allows for the cultivation of industrial hemp in Hawai'i, to require the Department of Agriculture to create a plan based on the licensing program to be submitted for approval to the United States Department of Agriculture (USDA), and to legalize industrial hemp by (1) removing industrial hemp and THC derived from hemp from the definition of marijuana in the Hawai'i Controlled Substances Act; (2) removing criminal penalties for the cultivation, possession and sale of industrial hemp; (3) removing industrial hemp from certain Department

of Health statutes; and (4) creating an affirmative defense to certain criminal offenses relating to the cultivation and possession of marijuana.

This bill is objectionable because it legalizes the cultivation of industrial hemp without establishing effective licensing regulations. The bill would make the unauthorized cultivation of hemp, that is, the cultivation of hemp without a license, subject to only an administrative fine. A stronger incentive is necessary to ensure that growers of industrial hemp go through the licensing process, and to ensure the program is adequately enforced. Given the close relationship between industrial hemp and marijuana, the State should maintain strict control over the cultivation of hemp and a monetary penalty alone is insufficient to ensure proper regulation. Additionally, the Agriculture Improvement Act of 2018 requires USDA approval of a state regulatory program. Without sufficient regulation, there is a concern that the program will not receive approval.

This bill is objectionable because there are considerable implementation concerns and unknown costs relating to certain provisions of this bill. This measure does not include a definition for an "electronic cigarette." A definition is necessary to provide teachers, educators, and students with an understanding of what items are subject to confiscation. Furthermore, confiscating and destroying evidence of a crime may hinder prosecution of those individuals responsible for selling or furnishing electronic cigarettes to persons under the age of 21. Gov. Msg. No. 1392, informing the House that on July 9, 2019, the following bill was signed into law:

S.B. No. 1303, SD 2, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC LANDS." (ACT 272)

Gov. Msg. No. 1393, dated July 10, 2019, informing the House that on July 10, 2019, pursuant to Section 16 of Article III of the State Constitution, the following bill became law without his signature, stating:

"Dear President Kouchi, Speaker Saiki, and Members of the Legislature:

Re: HB1383 HD2 SD1 CD1

Pursuant to Section 16 of Article III of the State Constitution, HB1383 HD2 SD1 CD1, entitled "A BILL FOR AN ACT RELATING TO MARIJUANA" became law as ACT 273 on July 10, 2019.

This bill will decriminalize the possession of three grams or less of marijuana and establish that the possession of that amount is a violation punishable by a monetary fine of \$130.00. It also provides that upon motion by a person convicted for the possession of marijuana under section 712-1249, Hawaii Revised Statutes, for an amount of three grams or less, and arising from a set of facts and circumstances that resulted in no other criminal charge, the court shall grant an expungement order pertaining to the conviction for that offense. Finally, it establishes a marijuana evaluation task force to make recommendations on changing marijuana use penalties and outcomes in the State.

There are numerous concerns, including the normalization of marijuana use, clear conflicts with federal law, the inability to refer violators to effective treatment programs, and the ability for the courts to actually collect fines.

While this bill presents serious policy concerns, it also establishes a task force that is charged with thoughtfully considering recommendations on marijuana policy and preparing a report before the convening of the 2021 Regular Session. In connection with its mandate, I expect the task force will take a close look at the concerns raised in connection with this bill and carefully scrutinize and evaluate the effect of decriminalizing the possession of three grams or less of marijuana.

For the foregoing reasons, I allowed HB1383 HD2 SD1 CD1 to become law without my signature.

Sincerely,
/s/ David Y. Ige

Gov. Msg. No. 1394, dated July 10, 2019, informing the House that on July 10, 2019, pursuant to Section 16 of Article III of the State Constitution, the following bill became law without his signature, stating:

"Dear President Kouchi, Speaker Saiki, and Members of the Legislature:

Re: HB1433 HD1 SD1 CD1

Pursuant to Section 16 of Article III of the State Constitution, HB1433 HD1 SD1 CD1, entitled "A BILL FOR AN ACT RELATING TO ADDRESS CONFIDENTIALITY" became law as ACT 274 on July 10, 2019.

This bill amends chapter 801G, Hawaii Revised States [sic], to change the governmental entity responsible for administration of the address confidentiality program from the Department of the Attorney General to the Office of the Lieutenant Governor. The legislature determined that the Office of the Lieutenant Governor is the appropriate governmental entity to administer the program.

The address confidentiality program was signed into law on July 5, 2018. This law provides survivors of domestic abuse, sexual offenses, or stalking with a substitute address to be used by state and local government agencies. The program is intended to prevent a victim's assailant or potential assailant from finding the victim through public records. Chapter 801G prohibits the address of a program participant from being made public or published in state or county governmental records.

Although the bill presents implementation and funding issues, we recognize the need to establish this program and to begin offering program services to victims that fear for their safety because their whereabouts are available through government records.

Attorney General Clare E. Connors fully supports this program and has agreed to assist with the transition of this program from the Department of

the Attorney General to the office of the lieutenant governor by sharing program processes, training presentations and forms that were developed during the past year.

Although the bill originated as a funding bill to allow for proper staffing and operational costs related to the administration of the program, funding provisions were not included in the final version of the bill. We hope to have a continued conversion to address the funding issue and to ensure successful implementation and sustained operation of the program.

For the foregoing reasons, I allowed HB1433 HD1 SD1 CD1 to become law without my signature.

Sincerely,
/s/ David Y. Ige

Gov. Msg. No. 1395, dated July 10, 2019, informing the House that on July 10, 2019, pursuant to Section 16 of Article III of the State Constitution, the following bill became law without his signature, stating:

"Dear President Kouchi, Speaker Saiki, and Members of the Legislature:

Re: SB33 SD3 HD2 CD1

Pursuant to Section 16 of Article III of the State Constitution, SB33 SD3 HD2 CD1, entitled "A BILL FOR AN ACT RELATING TO ECONOMIC DEVELOPMENT" became law as ACT 275 on July 10, 2019.

This bill will: (1) increase the annual rolling cap for the motion picture, digital media, and film production income tax credit to \$50,000,000; and (2) require the University of Hawaii, West Oahu (University) and the Hawaii Technology Development Corporation (HTDC) to execute a memorandum of understanding by December 31, 2020, that will commit the parties to enter, by December 31, 2021, a no-cost lease agreement for a thirty-acre parcel of University land that is adjacent to Farrington Highway and Kapolei Golf Course Road. The bill further requires the lease agreement to be for a term of not less than sixty years, and include a provision requiring that within six years, the title of the parcel will be transferred from the University to the HTDC.

The legislature received testimony from the Department of Business, Economic Development, and Tourism and the private sector in strong support of this bill's increase of the income tax credit for the motion picture, digital media, and film production industries. The increased tax credit was viewed as essential to sustaining and continuing the growth of these industries in Hawaii, which in turn strengthens job creation and continued employment for the people of the State of Hawaii.

However, in addition to the tax credit increase, the bill also requires the University to enter into a memorandum of understanding with the HTDC for the eventual transfer of a parcel of University land to the HTDC. This part of the bill creates challenges, which should be addressed before DBEDT takes any action.

Notwithstanding the requirement for a University-HTDC memorandum of agreement, and the concerns it raises, the income tax credit established by this bill is hugely beneficial to our state. One of the goals of this administration is to create an environment that encourages and supports its citizens to remain and thrive in Hawaii. Accordingly, to that end, this administration is fully committed to strengthening the local economy through job creation and industry support. The motion picture, digital media, and film production industries are strong players in the local economy and must continue to be supported. The increased tax credit provided by this bill will further that purpose.

Since the University-HTDC memorandum of agreement does not need to be executed until December 31, 2020, my administration will be working closely with the legislature next session to reevaluate this requirement and make the necessary changes to restore the university's autonomy.

For the foregoing reasons, I allowed SB33 SD3 HD2 CD1 to become law without my signature.

Sincerely,
/s/ David Y. Ige

Pursuant to Section 16 of Article III of the State Constitution, SB78 SD2 HD2, entitled "A BILL FOR AN ACT RELATING TO EDUCATION" became law as ACT 276 on July 10, 2019.

While this bill provides appropriations to support several priority areas in education, the language included in this bill regarding the early learning public prekindergarten program operations is too prescriptive for statutes and is more appropriate for administrative rules or memoranda of agreements.

For the foregoing reason, I allowed SB78 SD2 HD2 to become law without my signature.

Re: SB192 SD1 HD2 CD1

Pursuant to Section 16 of Article III of the State Constitution, SB192 SD1 HD2 CD1, entitled "A BILL FOR AN ACT RELATING TO BAIL" became law as ACT 277 on July 10, 2019.

This bill will authorize the court to release a defendant in custody on unsecured bail.

We understand that this change was intended to provide an alternative to cash bail. However, various alternatives to the cash bail system exist and afford judges flexibility in authorizing a Defendant's release in lieu of the posting of cash bail. Also, there is no system or procedure proposed to address the collection of unsecured bail when Defendants who have been released fail to appear at subsequent court proceedings.

For the foregoing reasons, I allowed SB192 SD1 HD2 CD1 to become law without my signature.

Re: SB381 SD2 HD1 CD1

Pursuant to Section 16 of Article III of the State Constitution, SB381 SD2 HD1 CD1, entitled "A BILL FOR AN ACT RELATING TO AGRICULTURAL LANDS" became law as ACT 278 on July 10, 2019.

This bill directs the Office of Planning, Land Use Commission, Real Estate Commission, and Honolulu Department of Planning and Permitting to study land subdivision and condominium property regime (CPR) laws and require counties to adopt supplemental rules for CPRs that involve agricultural lands.

Although this will address the inappropriate use of existing subdivision or CPR laws in state agricultural districts, the study is limited to the City & County of Honolulu. Since this issue occurs in all four counties, it would be more appropriate to do the study with input from all counties.

For the foregoing reasons, I allowed SB381 SD2 HD1 CD1 to become law without my signature.

Re: SB385 SD1 HD2 CD1

Pursuant to Section 16 of Article III of the State Constitution, SB385 SD1 HD2 CD1, entitled "A BILL FOR AN ACT RELATING TO PROFESSIONAL AND VOCATIONAL LICENSING" became law as ACT 279 on July 10, 2019.

This bill repeals defaults on student loans, student loan repayment contracts, and scholarship contracts as grounds for sanctioning professional and vocational licensees. In doing so, this bill would align Hawaii with the majority of states that repeal student loan defaults as grounds for a license denial, suspension, or revocation.

However, section 4 of this bill deletes Hawaii Revised Statutes (HRS) section 431:9-235(e), which provides for the right to a hearing and an appeal from an order suspending, revoking, or not renewing any license application by the Insurance Commissioner. The right to a hearing is not limited to defaults of student loans, student loan repayments contracts, and scholarship contracts; rather, this right also applies to violations of HRS chapter 431, article 9 (Licensing of Adjusters and Bill Reviewers). Deleting the right to a hearing under HRS section 431:9-235(e) will make the legislative intent unclear and hinder the Insurance Commissioner's ability to enforce violations of the licensing laws of public adjusters and bill reviewers.

For the foregoing reasons, I allowed SB385 SD1 HD2 CD1 to become law without my signature.

Re: SB409 SD2 HD1 CD1

Pursuant to Section 16 of Article III of the State Constitution, SB409 SD2 HD1 CD1, entitled "A BILL FOR AN ACT RELATING TO ELECTRIC VEHICLES" became law as ACT 280 on July 10, 2019.

This bill establishes a \$50 annual vehicle registration fee for electric and alternative fuel vehicles to be deposited into the State Highway Fund.

Although my administration supports the electrification of Hawai'i's transportation system, the increase in electric vehicles has significantly reduced revenues to our State Highway Fund due to reductions in gas tax collections. The reduction in our State Highway Fund limits the Hawaii Department of Transportation's ability to capture matching federal funds. Unfortunately, the federal government operates through reimbursements and requires the state to front the money for transportation projects.

Electric vehicles will continue to receive incentives such as tax credits, free parking, and single driver zipper lane benefits. However, these drivers are equally responsible for the wear and tear to our road systems. My administration will continue looking for the appropriate balance between incentives and road usage equity.

For the foregoing reasons, I allowed SB409 SD2 HD1 CD1 to become law without my signature.

Re: SB414 SD1 HD1 CD1

Pursuant to Section 16 of Article III of the State Constitution, SB414 SD1 HD1 CD1, entitled "A BILL FOR AN ACT RELATING TO CRIMINAL PROCEDURE" became law as ACT 281 on July 10, 2019.

This bill will require law enforcement agencies to adopt specified procedures when conducting live lineups, photo lineups, and showups for the eyewitness identification of those suspected of committing offenses. It also requires the agencies to include these procedures in their training programs.

We understand that these procedures are intended to result in more accurate eyewitness identifications, and thereby increase the ability of law enforcement agencies to solve crimes and protect the innocent.

In fact, law enforcement agencies already have adopted many of these procedures. However, some of the other procedures have not been adopted because they are unduly burdensome. Some agencies are also concerned that this bill legislates what should be internal policies and procedures regarding the investigation of crimes. Such legislation could eliminate the flexibility and control agencies need to conduct their investigations.

The bill provides for an effective date of June 1, 2020. This delay will give law enforcement agencies time to adopt and implement eyewitness identification procedures. It will also allow them to raise any concerns that arise during the implementation process with the Legislature during the next session.

For the foregoing reasons, I allowed SB414 SD1 HD1 CD1 to become law without my signature.

Re: SB551 SD1 HD2 CD1

Pursuant to Section 16 of Article III of the State Constitution, SB551 SD1 HD2 CD1, entitled "A BILL FOR AN ACT RELATING TO CONDOMINIUMS" became law as ACT 282 on July 10, 2019.

This bill will allow condominium associations to conduct nonjudicial foreclosures, regardless of whether the association's governing documents include a provision expressly providing such authority. The bill addresses a recent decision of the Intermediate Court of Appeals interpreting legislative intent in *Sakal v. Association of Apartment Owners of Hawaii Monarch*, 143 Haw. 219 (2018). It also requires the foreclosing association to offer mediation along with any notice of default and intention to foreclose, as well as prescribed procedures when mediation is chosen by the consumer.

While we have concerns because the bill expressly states that it will apply retroactively, we recognize the need for foreclosing associations to have clarity after *Sakal*. Thus, despite the retroactive application, the prospective application of the bill has utility and value.

We hope to have continued conversations next session to address the bill's implementation challenges and to help both foreclosing associations and delinquent homeowners in condominiums achieve the intent of this measure.

For the foregoing reasons, I allowed SB551 SD1 HD2 CD1 to become law without my signature.

Re: SB767 SD1 HD1 CD1

Pursuant to Section 16 of Article III of the State Constitution, SB767 SD1 HD1 CD1, entitled "A BILL FOR AN ACT RELATING TO CONTRACTORS" became law as ACT 283, Session Laws of Hawaii 2019, on July 10, 2019.

This bill increases the handyman exemption from \$1,000 to \$1,500 and makes it applicable only to the cost of labor and materials.

The handyman exemption amount has not been increased since 1992. A project that cost \$1,000 in 1992 is estimated to cost more than \$1,800 in 2019 according to Bureau of Labor Statistics consumer price index. This bill will assist landlords and homeowners in reducing the cost of maintaining a home or to make expedient repairs to make rentals more marketable.

Also, rural parts of our state have a shortage of licensed contractors for these types of projects because the work is too small or contractors are unavailable. Some types of repairs required quick action to prevent further damage to the home.

Although there is merit to raising the threshold, increasing the exemption cap leads to potential consumer protection concerns as unlicensed individuals can engage in larger and more complex construction work. Many of these unlicensed individuals have not met the experience, examination, and insurance requirements required of licensed contractors.

For the foregoing reasons, I allowed SB767 SD1 HD1 CD1 to become law without my signature.

Re: SB817 SD2 HD1 CD1

Pursuant to Section 16 of Article III of the State Constitution, SB817 SD2 HD1 CD1, entitled "A BILL FOR AN ACT RELATING TO SELF-SERVICE STORAGE" became law as ACT 284 on July 10, 2019.

This bill proposes to permit the issuance of a limited lines self-storage insurance license.

Currently, occupants of self-service storage units may purchase property insurance from fully licensed property and casualty producers to insure their belongings. Product availability and access to purchase these products have not been problem issues for consumers.

This bill does not introduce a new product, lower premiums, or create more competition that would presumably result in lower pricing. Rather, this bill will provide the convenience of on-site purchases of insurance by consumers for their stored property by individuals selling property insurance through these limited lines licenses. These individuals will not have the complete knowledge, experience, or background information of insurance products that fully licensed property and casualty producers have.

The creation of the self-service storage limited lines license is reflective of proposals coming from business interests to increase the number of permitted limited lines licenses covering different niche areas. Consequently, with the numerous additions of limited lines licenses permitted (e.g., air travel, vending machines, accident and health or sickness, credit, credit life disability, and motor vehicle rental), the number of non-fully licensed producers selling insurance policies is growing through a patchwork of disjointed regulations. The growth of these types of licenses, while they may be convenient ways to sell insurance, is not the best way to regulate insurance to protect consumers.

For the foregoing reasons, I allowed SB817 SD2 HD1 CD1 to become law without my signature.

Re: SB1058 SD2 HD1 CD1

Pursuant to Section 16 of Article III of the State Constitution, SB1058 SD2 HD1 CD1, entitled "A BILL FOR AN ACT RELATING TO PROPOSED CONSTITUTIONAL AMENDMENTS" became law as ACT 286 on July 10, 2019.

This bill requires the Attorney General, in consultation with the Legislative Reference Bureau (LRB), to prepare a statement, in English and Hawaiian, explaining the purpose, limitations, and effects of each constitutional amendment proposed by the Legislature for the voters. The bill also requires the Office of Elections and county clerks to make the statements available to the public at all polling places in the State and on a website operated by the Office of Elections.

While I fully support the preparation of a statement in English and Hawaiian, proposed amendments are the product of the legislators. For this reason, the statements should be prepared by those who work closely with the Legislature and within the legislative branch. This would ensure that the wording of the statements in both languages reflects the intent of the Legislature. The bill requires consultation with the Legislative Reference Bureau (LRB), but the LRB or another legislative entity would be better suited to prepare the actual statements explaining the proposed amendments.

In addition, there was no funding appropriated to prepare the translations.

For the foregoing reasons, I allowed SB1058 SD2 HD1 CD1 to become law without my signature.
