"And last, we have special guests from Fukuoka, the Chairman of the Fukuoka Prefectural Assembly Jungo Inoue, and six of his colleagues are here in the gallery, would you please stand. My parents are also here, Richard and Sue Saiki, and my wife, Patsy Saiki.

"I wanted to spend a couple of minutes to introduce our new House members, because this year we have 10 new members, so could you please stand and remain standing when I introduce you. First, from District 11, a small business owner, ocean paddler, and proud owner of two Rottweilers, Representative Tina Wildberger. From District 23, a Manoa native, former stock broker and accountant, and former neighborhood board chair, Representative Dale Kobayashi.

"From District 36, a former public school teacher, President of the Women's Relief Society, and Mililani AYSO team parent and coach, Representative Val Okimoto. From District 43, a Nanakuli High School graduate, a lifelong resident of the leeward coast and homesteader, and a former neighborhood board member, Representative Stacelynn Eli. From District 46, a former social studies teacher at Mililani High School, a fierce public school advocate, and a recipient of various outstanding teaching awards, Representative Amy Perruso.

"From District 48, a Castle High School graduate, a former University of Hawaii faculty member, and a mother of two, Representative Lisa Kitagawa. From District 49, a public school teacher and attorney who was once an intern with Senator Dan Akaka, and vice president of the Kaneohe Christmas Parade, Representative Scot Matayoshi.

"And finally, two of our new members are returnees. From District 7, an environmental planner, Representative David Tarnas. And from District 41, a nurse and a lieutenant colonel in the Army Reserve, Representative Rida Cabanilla Arakawa. Could we all please give our new members another round of applause. Thank you.

"So, as you can see, this is one of the largest and most diverse group of freshmen members we have seen in a while. More than half are women, their ages range from 34 and up, their backgrounds and experiences vary. This group represents a new generation of political leaders. They are focused and are anxious to get to work. And they know that there are some serious challenges ahead of us.

"There is one condition that I want to discuss, because it affects all of us. As we already know, regular people are having an increasingly difficult time making ends meet, and the divide between those with and without resources is growing.

"In 2017, the Aloha United Way and Hawaii Community Foundation joined with private sector partners to conduct the first ALICE report in Hawaii. ALICE is the acronym for Asset Limited, Income Constrained, Employed. ALICE includes people who have income above the federal poverty level, but not enough to afford a basic household budget that includes housing, child care, food, transportation, and health care.

"The findings are troubling. There are 165,000 ALICE households in Hawaii, which represents 37% of total households. There are another 47,000 households that live below the federal poverty level, which represents 11% of households. This means that 48% of Hawaii households are ALICE and below.

"There is another sobering statistic. For the first time since statehood, we have experienced two consecutive years of population loss. Last year, 12,430 residents moved to other states.

"The question is, how do we help ALICE households? The major drivers, income and housing, are issues that the Legislature can and has worked on over the years. But it is time to revisit them. We need to re-examine wage disparity, but while also considering the impact on those who pay wages, and especially small businesses that, unlike those in other states, provide medical insurance and other benefits to their workers.

"Another cause is the availability of affordable housing. Last year, the Legislature appropriated \$200 million in cash and \$300 million in tax credits to subsidize the development of affordable rental housing units. It was an unprecedented package, and this year, we will work with the administration to ensure prompt implementation of these funds.

"We also appropriated \$30 million to develop transitional units for homeless persons modeled after Kahauiki Village. The village is a self-contained community that was initially comprised of 153 transitional homes, a preschool, a market, and a police meeting room that operates from a PV-generated battery system. This model can be extended to populations with substance abuse and mental health conditions. This year, the House will oversee the administration's implementation of projects like Kahauiki Village.

"It is within our control to ensure that government funds are well-spent and produce their intended results. All pocketbooks are hit when funds are misspent, the pocketbooks of those who pay taxes and those who expect to receive services.

"The House intends to fulfill its role as an important check on its fellow branches of government, and we will do so in the following ways. First, we must reaffirm the Legislature's policymaking role. The Hawaii Constitution gives the Legislature the authority to approve the state budget, appropriate public funds, and to enact laws. This is how the Legislature sets policy for our state. No other branch has this authority. At times, the Legislature has abrogated this role to the executive and judiciary. But to fulfill its constitutional purpose, we need to reassert the Legislature's policymaking role. Unlike the Executive and the Judiciary, the Legislature provides a venue in which ideas may be regularly introduced, debated and voted upon. In other words, policy is made here in this Chamber through a democratic process.

"The House has an advantage because of our composition. We are comprised of 51 members. We represent some of the smallest units of government. Our members know their constituents and have a pulse on what real people are thinking. And, unlike the Executive and Judiciary, our ideas and decisions are tested every two years by our constituents through the election process.

"The Chief Justice of the United States Supreme Court, John Roberts, said it succinctly when he wrote the following. 'In a democracy, the power to make the law rests with those chosen by the people. [The Supreme Court's] role is more confined – to say what the law is. That is easier in some cases than in others. But in every case we must respect the role of the Legislature, and take care not to undo what it has done.'

"The bottom line is that for everyone to do their job effectively, the three branches of government must not overlap. If one branch of government

exceeds or disregards its authority, then government becomes dysfunctional. If government is dysfunctional, then the public interest suffers.

"Number two, we must listen to others and particularly those who are affected by our work. Eleanor Roosevelt once said, 'it is not only important but mentally invigorating to discuss political matters with people whose opinions differ radically from one's own... Find out what people are saying, what they are thinking, what they believe. This is an invaluable check on one's own ideas.'

"We should spend more time listening to others. We especially need to view circumstances through the lens of those who are impacted by them. Some of the most contentious issues in Hawaii arise when people believe that government does not consider their perspective or history. We need to draw upon the experience, circumstances, and knowledge of all our people, and especially those impacted by our work. Single working mothers, seniors on fixed incomes, small business owners, cultural advocates, counties, recent college graduates who want to stay in Hawaii, and even astronomers.

"Number three, be prepared to compromise. Governor John Burns said, 'any fool can take a stand.' Now that we serve in the Legislature, we know that Governor Burns was correct. It is easy to be a liberal. It is easy to be a progressive. It is easy to be a conservative. But it is not easy to be a problem solver when the problem is complicated and has no real answer. Problem solving requires hard work, reflection, and, most importantly, compromise.

"President Barack Obama said it best in his farewell address to the nation. He said, 'Understand, democracy does not require uniformity. Our founders quarreled and compromised, and expected us to do the same. But they knew that democracy does require a basic sense of solidarity – the idea that for all our outward differences, we are all in this together; that we rise or fall as one.' He went on to say, most issues are rarely black and white. That even when you're 100% right, getting things done requires compromise. That democracy doesn't work if we constantly demonize each other. That for progress to happen, we have to listen to each other, see ourselves in each other, fight for our principles, but also fight to find common ground, no matter how elusive that may seem.

"This year marks the 60th commemoration of Hawaii's statehood, and look at how our state has changed. In 1959, the state population was 622,000 people. Today it is 1.4 million. In 1959, gross state product was \$1.5 billion. Today it is \$88 billion. In 1959, there were 29,000 senior citizens. Today there are 254,000. In 1959, there were 273,000 students in high school and below. Today there are 306,000.

"With these changes come different benefits and challenges. But remember that along the way, Hawaii has been significantly ahead of the curve. Hawaii was the first state to require employers to provide medical insurance to their employees. Hawaii was the first state to ratify the Equal Rights Amendment to the United States Constitution. Hawaii was the first state to require that 100% of its electricity be produced from renewable sources. The list goes on because Hawaii has been pursuing a progressive agenda even before it became vogue.

"The House will continue a progressive course in a pace that is appropriate and best for all of Hawaii's people. And remember that what sets Hawaii apart from all other states and Washington D.C., is that we govern as a family. We gather, we argue, we decide, and then we eat together. The House is a leader. Be confident, stay focused, take risks, and then you will effect profound change for our entire state. Thank you and have a great legislative session."

The Chair then recognized Representative Ward, the Minority Leader, to deliver remarks on behalf of the Minority Caucus:

"Thank you, Mr. Speaker. Well said, I like the last part. Let's eat. And we are the only thing in the way between now and your *pupus* and celebration. I will not repeat the elaborate introduction of all of you, but you honor us by being here, all of you other officials, and particularly you who are the new members, welcome to you, congratulations, and especially to our new member from Mililani, Val Okimoto, we are proud that you've joined us today.

"I only have a few minutes to say a few things. I want to tell you how much the five of us love the State of Hawaii, the people of Hawaii, and why we expect a lot of things that we can do here in the State of Hawaii in the next 60 days. That's all the time that we've got, 60 days.

"I want to talk from the point of view of the loyal opposition. We are the ones, Mr. Speaker, that after we wrestle on the floor, we go out and eat and then drink, but there are some things that I want to talk about that we want to emphasize in playing both offense and defense. I want to talk about the way we've forgotten some of the ordinary guy, or the one that Frank Fasi used to call the small guy, the little guy. I think Hawaii is forgetting that person.

"And what we're going to do when we do offense, is have a package that remembers the small guy. And particularly, as someone said earlier, we are exporting our youth, we are exporting our brains, and we have a package entitled Calling All Kama'āina. The first part of it is Kama'āina Come Home. We have an incentive system whereby one of the biggest difficulties of coming home and settling is we don't have a down payment for a home. So, Mr. Speaker, we're going to do it like the GI Bill, where you have no down payment, but you can get a house and you can come home and we can unite our families. It's a big piece missing.

"We also have for the *kama'āina* stay home, we have a rent-to-own version that's coming out. Those are two issues that will come back and bring our families together. There is also a Kama'āina Education. Mr. Speaker, we know the DOE has missed some money by the lack of the amendment that failed or was actually struck down by these good members of the supreme court.

"Your Minority Caucus, Mr. Speaker, has compensated in a small way. We have 1% of every CIP that goes to public art, but what most of you don't know is we've got six warehouses filled with public art. We want to channel at least half of that money into the classroom where we, and I can't believe, some places don't even have books, they don't even have computers. And I understand, Mr. Governor, that some of the air conditioning is faltering a bit, so we may need some money on that one also. The point is, Mr. Speaker, we need an agenda that helps these people out.

"I'm an old football player, there is an offense and there is the defense. I always liked to play offense, but let's be frank, the majority plays offense, the minority, the loyal opposition, plays defense. But as you play offense, Mr. Speaker, I would hope that you would conform to things like free markets, free people without the shackles of the government, and also, and as you pointed out so well, that we build an economy, Mr. Speaker.

"I'm embarrassed when we say 57% of the people in this state have fathers who can't send their kids to school with money for lunch. And we as the legislators have our hand on the economic things, so I'm really glad that you presented an economic revival for these families that you said are just not able to make it. We need to concentrate on prosperity for all, and we're becoming increasingly the haves and the have-nots, and I think we have to narrow that.

"Mr. Speaker, we will also be playing defense. Now when you play defense, you try to, obviously, do the good things in good bills, but you also try to either ban or block or kill bad bills. In our defense, Mr. Speaker, we have support for your minimum wage. I know that's something that a lot of you have been thinking about. But please make it reasonable, Mr. Speaker. Not giant steps, but reasonable increments, and we're behind you 100%.

"Another issue that we are very, very keen on, and I salute your Chair Sylvia Luke for having performance-based, zero-based budgeting. Mr. Speaker, it's interesting how the interaction of the minority and the majority, if I may add, years ago we proposed that. I don't know if it was at the minority speaker's Opening Day address, but Mr. Speaker, we're really proud of that, and we know that the \$17 billion that we have in unfunded liabilities, saving those monies by having performance-based budgeting is going to make a huge, huge difference.

"We also want to help you tackle housing and homelessness. Mr. Speaker, that's a thing that we've kicked down the can. We've got a lot of money, but it costs a lot of money to build and to house our people here.

"For the neighbor islanders, I want you to know, we assure you, we're behind you in your recovery. Whether it was from floods or whether it was from lava from the Big Island. I know that's going to be a big finance issue, and we are with you.

"Mr. Speaker, I want to add one identity marker. We only have one out of the 10 new members. We're only 5 out of 51, we're 10%. But I want you to look at it a little bit differently than usual. Mr. Speaker, generally in terms of elections, on this side of the aisle we get 20% to 40%, let's round it off to one third. Let's round our population off to 1.5 million. So Mr. Speaker, when we five speak, think of the 500,000 people that we're speaking for. Those 500,000 people are leaning at least conservative or are conservative but have another perspective. So our job as the watchdog, our job as the minority, is to keep you honest, keep the state going forward, and doing as much progressive with your agenda as possible.

"So, Mr. Speaker, I'm grateful that you mention that we eat and then we become one. I want you to know that we met together on December 3 and we vowed, we pledged, we didn't cut our thumbs or anything like that, but we said we're going to be a model, the way that he and I behave together, for others. And my colleagues keep us honest in case we break ranks on that. How we are going to show, not what the mainland does, but civility and decorum, what it means here, in the State of Hawaii. Now it doesn't mean that we're not going to scrap on the floor, but it means afterwards we're going to go to dinner, we're going to have some drinks, and we're going to be collegial. We're going to agree to disagree, but not be disagreeable. We can do that.

"What's the *aloha* spirit for, except for the imparting is particularly in the political arena that has become pretty toxic and pretty, if you will, the politics of personal destruction. So the bottom line, Mr. Speaker, your minority is ready to do business, please show us the way, lead the way, and remember your loyal opposition is behind you all the way. Thank you and *aloha*."

The Chair then recognized Representative Belatti, the Majority Leader, to deliver remarks on behalf of the Majority Caucus:

"Thank you, Mr. Speaker. I would like to start, first, by thanking the hard-working staff of the House. The Clerk's Office, the Sergeant-at-Arms, the Legislative Reference Bureau, the House Minority and Majority Staff Offices, and all of our individual staff and offices. A day like this could not happen without them. Please, a round of applause for them.

"Now, we did have many special guests, but I want to introduce some very special guests from the public. These eight special individuals are the leaders of a movement. They are beacons of empowerment and engagement, and it is so fitting that in this *'āina* it is *kanaka maoli* youth who are leading the way by encouraging first time voters. If I can have the Kamehameha School students stand as I call them, Mirai Mawae, Mahea Lewis, Hokupa'a Melim, Kaulana Kano, Sierra Furukawa, Karina Jacang, Rory Keliikipi and Connor Kalahiki, who could not vote this time, but inspired his classmates to do so. Let's give them a round of applause. Thank you.

"As I said, these are leaders for the future. Beacons of empowerment and engagement. We are only here because of the trust placed in us by voters. To much is given, much is expected. We all know that here. We know that we are faced with difficult problems. A dysfunctional federal government. Concerns about increasing health care costs, energy costs. All of us struggling with astronomical housing costs. We have communities recovering from disaster. From floods, and fires, and lava eruptions. We have entire coastlines that are concerned about the problems of rising shorelines. And we have communities struggling and being destroyed by substance abuse.

"But, Mr. Speaker, I'm hopeful that even with these challenges ahead of us, on the horizon, we have hope. We have a hard-working group of individuals here who are willing to roll up their sleeves and be, as you said, Mr. Speaker, problem solvers.

"We will not govern simply by slogans, but we will dig into the issues. We will weigh all of the competing interests. We will collaborate with all of

the stakeholders, and we will keep our eyes on how to advance the good for the public. I am confident in this group of legislators.

"I would like to end, as I promised I would be brief to my colleagues, with a personal comment to my colleagues, if you will indulge me. There are so many smiling faces amongst us. There are so many babies and *keiki* in this room, and with them they carry the hopes of generations ahead of us. We have a lot of graying hair, mine included. And we remember the people we have lost. I can think back on my very first opening day and how for the past 12 years my father would not have missed this great day, and I know he is looking down on us, smiling and knowing that we can do the work ahead.

"To my colleagues, what I say to you, to the people who you have seated next to you, thank them. Thank them and say, sorry, I might not see you for the next 60 days. But thank them because they are the individuals that you work for. They are the individuals who will support you in your darkest times. You will not always agree with them. You will not, but they will love you unconditionally. And it is through their strength that you will have the strength to face the challenges ahead in this building. *Aloha*, Mr. Speaker, and I wish the House the very best in 2019. Thank you."

ANNOUNCEMENTS

Representative Ichiyama: "Thank you very much, Mr. Speaker. On behalf of the Women's Legislative Caucus, I just wanted to let caucus members know that bills will be available for signing in my office, Room 426. It's women for the remainder of today and then its open to the rest of the members starting from tomorrow morning. Thank you very much, Mr. Speaker."

Representative Takayama: "Mr. Speaker, along those lines, I just want to announce that Kupuna Caucus bills are available for signature by all members in my office, Room 323, for the rest of today and for most of tomorrow. Thank you."

Representative Mizuno: "Thank you, Mr. Speaker. Same thing for Keiki Caucus bills, available for signing for all members in Room 402 today and tomorrow. Thank you."

Representative Tokioka: "Thank you, Mr. Speaker. Between the ending of last session and the beginning of this session, we lost three, well we lost more than three, but three people that I'd like to acknowledge and have a moment of silence at the appropriate time, Mr. Speaker.

"Mr. Speaker, yesterday when Henry Kaponu was playing, he did play a tribute to Malani Bilyeu. Malani was from Kalihi, but he spent the last 25 years on Kauai. Everyone in here we know is going to miss his music and his lyrics. For those of you who were here in 2010, he performed on the House Floor and we honored him here. We're going to miss him dearly.

"We also have two members of our family, Mr. Speaker, that passed away after session ended last year and I'd like to acknowledge them, because they were a big part of this building, and for every single person in the Legislature that asked for House tours, we lost a great man, Richard Rodrigues, he did incredible tours, and we'd like to honor him with a moment of silence.

"And last but not least, a good friend and one of the sergeants that passed away unexpectedly who everyone knows was always here for us, protecting us, and he always had our back. But most importantly, he was a good man with a good heart and he was always smiling and happy to see us, Glenn Ganigan. So, Mr. Speaker, could we please have a moment of silence for the three people."

At this time, the members of the House of Representatives stood for a moment of silence in honor of the late Malani Bilyeu, Richard Rodrigues, and Glenn Ganigan.

ANNOUNCEMENTS

Representative Ward: "Thank you, Mr. Speaker. We know we're not convening on Monday because it's Martin Luther King Day. And Mr. Speaker, I wanted to add a couple of demographics, data points for this great man and the great time that we're going to have a day off. Mr. Speaker, he got his PhD in 1955, and that was from the Boston theological university. But his career really started after a brief pastorate in Montgomery when he started the bus boycott. It was 382 days that the blacks of Montgomery, Alabama boycotted because of the segregation on busses.

"In the process of his life, he wrote five books and articles inspiring the letter from Birmingham. But Mr. Speaker, what we most remember is the 'I Have a Dream' speech that was in 1963 after a march of 250,000 people in Washington D.C. One of the quotes that's indelibly in our minds, in our memories, is, I have a dream that my four children will one day live in the nation where they will not be judged by the color of their skin, but the content of their character. That quote will live in everyone's heart who loves freedom. But then he was arrested, and it was 20 times that he was put in jail. He had five honorary degrees, was Time's Man of the Year, and in 1968 won the Nobel Peace Prize.

"Mr. Speaker, this is a man who needs to be acknowledged, so as we take the day off on Monday, we can remember that we stand on the shoulders of such great men in this nation, and his name is Martin Luther King. Thank you."

Representative Ichiyama: "Thank you, Mr. Speaker. Just wanted to remind members that the Women's Caucus bills are still available in my office for signature. If you haven't stopped by, please do, they'll be available till 4:00 p.m., and this is an open invitation to all members. Thank you."

Representative Takayama: "Mr. Speaker, a similar reminder to members that Kupuna Caucus bills are available for signature in my office until 1:00 p.m. That's in Room 323. Thank you."

Representative Mizuno: "Thank you, Mr. Speaker. Same message, Keiki Caucus bills are available for signature for all the members until 2:00 p.m., I believe, in my office, 402. Thank you."

Representative Holt: "Thank you, Mr. Speaker. Same thing, Hawaiian Caucus bill will be for signature in my office, Room 333, until 3:30 p.m. this afternoon. Thank you."

Representative Aquino: "Thank you, Mr. Speaker. Filipino Caucus bills are available in Room 419. *Mahalo*. For all members."

At this time the Chair stated:

"I would like to remind members that on Tuesday we will convene at 9:00 a.m. for our regular session and then convene in joint session at 10:00 a.m. in this Chamber for the Governor's State of the State address."

RECESS

At this time, the Chair stated:

"Please note that tomorrow is a recess day. We will convene again on Thursday, January 24 at 9:00 a.m. Following that we will recess and walk over to the Senate for the 10:00 a.m. State of the Judiciary address. For the purposes of today, the House will stand in recess for the purpose of convening in joint session at 10:00 a.m. for the Governor's State of the State address."

At 9:09 o'clock a.m., the Chair declared a recess and the House of Representatives stood in recess subject to the call of the Chair, and in accordance with House Concurrent Resolution No. 2 met in Joint Session with the Senate to receive the Governor's State of the State address.

JOINT SESSION

The Joint Session of the House of Representatives and the Senate of the Thirtieth Legislature, Regular Session of 2019, was called to order at 10:06 o'clock a.m. by the Honorable Scott K. Saiki, Speaker of the House of Representatives.

The Speaker then welcomed and recognized the following honored and distinguished guests:

- Lt. Governor Josh Green, who was presented with lei by Representative Joy A. San Buenaventura;
- Senate President Ronald D. Kouchi;

The Speaker then called upon Representatives Della Au Belatti and Gene Ward on behalf of the House of Representatives, and Senators J. Kalani English and Kurt Fevella on behalf of the Senate, to escort the Honorable David Y. Ige, Governor of the State of Hawaii, to the rostrum.

The Governor was presented with lei by Representative Dee Morikawa on behalf of the House of Representatives, and Senator Rosalyn H. Baker on behalf of the Senate.

The Speaker then presented to the members of the Thirtieth Legislature and the audience, the Honorable David Y. Ige, Governor of the State of Hawaii.

The Governor then addressed the Joint Session as follows:

"Mr. Speaker, President Kouchi, former governors, distinguished justices of the courts, representatives of our congressional delegation, members of the Hawaii State Legislature, elected officials, military leaders, honored guests, and all of you who took the time to be with us this morning, *aloha*.

"Like the start of each new year, the State of the State address offers us an opportunity to both look back at where we've been and forward to where we want to go. The decisions we make today touch all of our lives. They are informed by our past and will affect the lives of many far down the road.

"As I look around the room and see the former governors, I am reminded of the hard choices they made during their tenure and how much we benefit

from those decisions today. Yet the view from this crossroad is often obscured by our busy schedules and the day-to-day concerns we face as parents, students, employees and community leaders. But it's a view that we need to pay close attention to and perhaps look at from other perspectives.

"About a minute past midnight on January 1, 2019, Alekah Obra Garcia was born to Clarissa and Johnson Garcia of Kona, the first baby of the new year for the State of Hawaii. In 2037, when she and her classmates graduate from high school, some of us will be long gone. Perhaps one of your grandchildren will be among the Class of 2037. How will they view the decisions we make today? How will they grade the schools and education we provided for them? How will they assess the job and career opportunities that will be available to them? What will they say about the condition in which we left our ocean, beaches and rain forests? How will they view their past and their children's future? Will they look back with reverence the way we do at our parents' generation, or will they look back with disappointment and regret?

"Too often, when we talk about the future, we speak in macro-economic terms. But for me, the future is personal. In many ways, it has to be if we want to make good and wise decisions. The future has a name and it is the name of your son or daughter, your grandson or granddaughter. But whether you have children or not, I know many of you feel the same way about Hawaii.

"The future is personal because it is about our home. We choose one path over another, believing it will lead to a better, more secure, more nurturing Hawaii. We make choices for Alekah's sake, we make choices for our children's sake. Fortunately, we do so at a time when our foundation is strong.

"Hawaii is once again ranked the healthiest state in the nation. That's due in part because our health care coverage is among the broadest and most enduring. Our unemployment rate is among the lowest in the country. Our visitor industry is moving toward another record setting year, and both individual personal income and the state's gross domestic product have been steadily growing over the years.

"For four years, we have worked hard to put the state on sound financial footing by building our reserves and paying down our unfunded liabilities, including those to our employee pension and health benefit systems. We now have the highest bond rating in the state's history, resulting in lower interest rates when we need to borrow money. The state of the State of Hawaii is sound.

"More importantly, we are positioned to meet the challenges, both good and bad, because we have proposed a prudent budget that does not spend all that we project to bring in. As President Kouichi had noted in his opening day remarks, we will continue with that prudent stance even as we take care of the current needs of our people. It is, as you might guess, a delicate balancing act.

"I am mindful that the world around us has changed since we began this journey four years ago. Indeed, it has dramatically changed since I delivered my second inaugural address just a few weeks ago. In my remarks, I talked about how we are no longer limited by our geographic isolation, freed by the wonders of technology. But that's also a double-edged sword. The very thing that makes us more connected with the rest of the world, also makes us more vulnerable to its slings and arrows, including what happens in our nation's capital. More than ever, we need to take control and shape our own destiny through education and innovation. And we need to protect those things which mean the most to us, our natural resources, our way of life, our values, and our children's future.

"Together, we have done so much in the last four years. In 2015, we were the first state to set a 100% renewable energy standard, the most aggressive clean energy goal in the country. In 2016, we were the first in the nation to enroll firearms owners in a centralized information system. In 2017, we were the first state to enact legislation that aligns with portions of the Paris Accord. In 2018, we were the first state to ban pesticides containing chlorpyrifos to protect our children's health and the first in the world to ban certain sunscreens to protect our environment.

"The road ahead remains clear and so do the reasons why we need to press on with the progress we've made over the last four years. In transforming our schools with a new education blueprint that is school and community based. In reshaping our economy using technology to drive innovation. In addressing homelessness in a compassionate way, and in short circuiting the underlying cause of homelessness by building more affordable homes.

"As a state, we have always been outward looking in our values, goals and actions. We have always put others first. In today's me-centered world, that is what I am most proud of as your governor. That is the gift we pass on to little Alekah Garcia, that compassionate spirit that I believe resides in all of us, the spirit of *aloha*.

"Concern for our children and the future of our island community is one of the most important ways we show our compassion for others. In 2023, Alekah will be ready for preschool. But will a preschool be available and ready for her? Our public-school system begins with kindergarten, but early education specialists tell us how important it is to prepare young children for a lifetime of learning. Research also tells us that early childhood education, such as preschool programs, are critical for brain development. It contends that children's early years set the stage for how well they will learn for the rest of their lives. Yet in Hawaii, we have left that important task to others and only for families who can afford private preschool tuition. But it doesn't have to be that way.

"First and foremost, we must create a universal, statewide high-quality public preschool system that will give every child in Hawaii a head start on learning. Ultimately, we will need more than 300 public pre-K classrooms. Clearly, this is a long-term goal. But we don't have to wait until we have the funding for all of it. We can start to fill this significant gap in our education system by being smart about how we use existing space.

"But I don't want to just add pre-kindergarten classes. I want us to do much more. I am proposing to the Department of Education that we look at our elementary schools in a whole different light. That we reinvent our elementary education by making early learning an integral part of our children's overall elementary curriculum. That's what good beginnings are all about.

"That's why I am proposing to the DOE that we restructure those schools presently composed of kindergarten through grade six to pre-K through grade five. Grade six in those schools would then become part of our middle schools, where the added classes could be more easily and financially accommodated. Presently, about half of our elementary schools still include sixth grade classes. Most are located on the neighbor islands, where preschools, both private and public, are lacking. That provides us with a tremendous opportunity to kick start this initiative, initially in those communities where they are needed most.

"In addition, the phasing in of our public preschools will give us the time to ensure that we have well qualified preschool teachers to staff these classes. We also want to apply best practices learned from our own Public Pre-Kindergarten Program and from other states who have added preschools to their public education system. Of all the initiatives upon which we've embarked, I believe this one will make the greatest difference in preparing our children for the future and in creating a 21st century workforce.

"Moreover, this initiative we can and should begin now. My thanks to Lauren Moriguchi, Director of the Executive Office on Early Learning, and DOE Superintendent Christina Kishimoto for spearheading this initiative. A recently released strategic plan details the state's vision for early learning in Hawaii.

"And so, in 2034, when Alekah Garcia is a freshman in high school, she'll be well prepared to take advantage of the state's Early College and Hawaii Promise programs if she chooses, a choice made possible because of the partnership we've established with the DOE, UH, and its community colleges. That's why we're working hard to ensure that Alekah will have good teachers throughout her education. That's why we need to expand our pool of teachers in some of our most difficult to staff schools. And we're doing this in partnership with the university, HSTA, and the DOE, and with the help of education advocates like State Senator Michele Kidani and State Representative Justin Woodson.

"On an island where land is scarce and the cost of living high, providing affordable homes for our families has been one of the most challenging aspects of caring and looking out for each other. Widespread homelessness across the state is a symptom of how steep that challenge is. I don't have to tell you it is a complicated one and one that will take an entire village to solve. But more than any other place in this country, Hawaii intimately understands the village concept, because it is embedded in our values of *'ohana* and *aloha*.

"With the help of the Legislature, our congressional delegation, the counties, federal agencies, businesses, and community service organizations, we have made significant strides in addressing homelessness in Hawaii. Together, we have reduced our homeless population for two consecutive years, for a total reduction of 18%. This includes decreases in every county, as well as decreases in key homeless sub-groups, such as families, children and veterans.

"We have also seen an increase in people exiting homeless programs to permanent supportive housing. Two years ago, only a third of those exiting homeless services went to permanent housing. That number has now increased to over 50%.

"In addition, this year's budget includes \$35 million for homeless programs. More importantly, we have addressed this challenge as a community and not left it to government alone. For example, the Queen's Medical Center has seen what the impact of homeless patients has had on its overall mission. Without appropriate housing, recovery was a hit-and-miss affair, and many became repeat patients with prolonged stays. Hospital officials knew that if they didn't treat the whole patient, that the process would become frustratingly repetitive for both the patient and the doctor. And that's why they became the first hospital in the nation to place its most medically fragile, homeless patients into housing as part of the recovery process.

"In the last year and a half, the Queen's Care Coalition team has worked with 112 individuals, placing 75% of them into stable housing. The hospital estimates the program has generated more than \$5 million of savings and, at the same time, lightened the burden on the emergency rooms and the ambulances. And more importantly, it has changed the lives of those they have treated. With us this morning is Dr. Daniel Cheng, who heads the Queen's Care Coalition, members of his coalition team, and the president and CEO of Queen's Health Systems, Art Ushijima. I would like to ask them to stand and be recognized. Thank you for reminding us that we all can take on a role in helping others.

"I should also note that Lieutenant Governor Josh Green will be the State's new point person on leveraging private sector partnerships to address the chronically homeless in our community, which includes some of the most difficult situations to resolve. He will be working closely with Scott Morishige, the State's homeless coordinator, who will continue to lead the State's overall homeless efforts.

"I strongly believe that our response to homelessness must address both immediate concerns and its underlying cause, the lack of adequate affordable housing. That's why this year's budget includes \$315 million for housing over the next two years. In the past four years, we've produced a total of 6,600 units with over 7,100 in the pipeline, 90% of which will be rentals.

"We have also struggled with the reality that the lack of affordable housing affects more than just families at risk. It impacts all of us. For many in Hawaii, homeownership has always seemed like a farfetched dream. The high cost of land will always be a significant barrier to making homes affordable. And on an island with little capacity to expand, demand will always outpace our limited supply. It seems like a no-win situation. Perhaps until now. How do you make homes in Hawaii affordable? I believe you do it by thinking outside of the box, by looking at what you do have and not focusing on what you don't have.

"We need to use public resources and public authority to break the cycle of speculation and profit taking that has turned affordable housing into an unreachable goal for our people. That's why we will be submitting legislation to build condominiums for sale on state lands utilizing 99-year

leases. These will include parcels along the transit route as well as on other underutilized state lands. This legislation will be critical to unlocking the potential for thousands of new affordable housing units to be built on state lands on all islands.

"The state will retain ownership of the land under these condos and determine the terms of resale if the owners decide to sell at a later date. In this way, we will be able to keep the units affordable, plan growth, create jobs, and make the most of unused state lands. We can take a no-win situation and turn it into a win-win situation. My thanks to State Senator Stanley Chang, whose input went a long way in helping us shape this initiative.

"We have long talked about transit-oriented development as one of the benefits of rail, as a way to build communities and provide housing for our families. But it's not just about rail. On Maui, for example, we have a great example of how the state and county are working together to build a new transit hub at the Kahului Civic Center. Together, we are transforming underutilized state land into a vibrant new mixed-use project with multi-family affordable rental housing, senior housing, and office space. It's a good example of the collaboration happening between state and county on behalf of the people.

"In addition to controlling and directing growth, planned development allows us to accommodate other priorities as well. Our future requires that over time we, as a state, acquire and preserve more and more land, either as a state or in the hands of partners like the Trust for Public Lands and the Nature Conservancy. If we want green spaces, if we want to grow our own food, if we want places for recreation, if we want clean, fresh water, if we want the environment that has been so central to Hawaii's life, we need to have special lands in public hands.

"Take, for example, the new state Helemano Wilderness Recreational Area, 2,900 acres of former plantation and conservation land now dedicated to protecting our watershed and wildlife habitat and providing outdoor recreational opportunities for all. In October 2018, the Trust for Public Land and the State completed the purchase of four parcels of land from Dole Food Company, using a creative combination of private, federal, and state funding.

"In an earlier time, those lands might have been sacrificed to uncontrolled development. To a certain extent, this project was made possible because we have a plan for future development on Oahu, for directed growth to our urban core and along our fixed transit system. That lessens the pressure for development on other areas, including important agricultural and preservation lands. It also allows us to initiate discussions with other private landowners, who have expressed an interest in developing lands in places like Kaneohe and Maunawili. We would prefer to negotiate acquisition agreements with them so that we can realize similar benefits to our natural resources and recreational venues.

"For those unfamiliar with the neighborhoods, Kaneohe and Maunawili both include areas that the landowners have proposed for housing development. But they also contain the *mauka* source of freshwater streams that feed ancient *lo'i* and flow into vital coastal waters of Kaneohe Bay and Kawaiinui Marsh. They contain some of the richest agricultural lands on Oahu and have been farmed by ancient Hawaiians for centuries. They are irreplaceable natural resources and part of the economic, ecological, and cultural heritage of Ko'olaupoko. These places are worth saving for us and for future generations. That's why we are requesting increased funding for land conservation, by removing the \$6.8 million cap on the 10% conveyance tax to the Legacy Land Conservation Program. And I've also instructed DLNR to prioritize a strategic plan to help us better identify and coordinate the acquisition of such parcels of land going forward.

"In addition to the preservation of important conservation and agricultural lands, we have established strong guidelines to protect our watershed forests, better manage our oceans, strengthen invasive species prevention through our bio-security plan, double our local food production, and achieve 100% renewable energy by 2045. Our budget includes \$3.9 million over two years for Sustainable Hawaii initiatives, to support our biosecurity plan, watershed protection, and our Agricultural Loan Revolving Fund.

"And speaking of sustainability, I would be remiss if I didn't mention that last November, Hawaii was designated one of the United Nation's first Local2030 sustainability hubs, the first and only such forum in the Pacific. I would like to thank Hawaii Green Growth and the Kamehameha Schools for their work in achieving this designation. They are highlighting our achievements and helping to establish Hawaii as a leader in sustainability in the Pacific.

"In addition, private companies are investing in Hawaii to help us meet our sustainability goals. For example, Ampaire has a memorandum of understanding with Mokulele Airlines to deploy an electric airplane on Maui. CarbonCure is working with the Hawaii Department of Transportation, HC&D, and Hawaii Gas to develop carbon-infused concrete to lower the carbon dioxide emitted during the construction process.

"And our public utilities have also made great progress in transitioning to a renewable energy future. Earlier this month, Kauai Island Utilities Co-op announced it had reached 50% renewable generation and believes it can reach 70% renewable energy a full 10 years ahead of schedule. In the last 10 years, Hawaiian Electric Companies have reduced fossil fuel use to generate electricity by 26%, that's 48 million gallons fewer of imported oil each and every year. The companies have also pioneered technology to integrate more renewable energy into the electrical grid, and delegations from around the world are coming to Hawaii to learn from our experience.

"In agriculture, we are entering a new age of innovation, one that will bring new jobs and opportunities and decrease our reliance on imported foods. The future of agriculture relies on producing crops more efficiently and with less impact on the environment. Farmers are constructing cutting-edge greenhouses, using automated production systems, and analyzing data to increase crop yields. These modern practices will require new skills and a workforce grounded in science and math-related education. Companies like Costco want to build high tech greenhouses and use these new agricultural techniques in Hawaii to complement the food production of local farmers and replace fruits and vegetables from out of state.

"Just as the nurturing of our natural environment is critical to the future of these islands, so too is the nurturing of those who, together, make up our human resource, including those who are incarcerated. There are some who hold fast to the old notion of crime and punishment and scoff at the concept of second chances. But correctional facilities today need to be more than just a secure holding cell. They need to be places where an individual can take stock of his or her life and seek a second chance at become a contributing member of society. If we don't, then our jails will become a place for repeat offenders, at a terrible cost to them and to all of us.

"We are seeking to continue the process of replacing the outdated correctional center in Kalihi. The relocation gives us a chance to provide enhanced services and program opportunities that would aid in rehabilitation. I agree with Representative Gregg Takayama and Senator Clarence Nishihara who have led the committees on Public Safety. It's a chance to rethink how we design and build correctional facilities. If we are legally obligated to carry out judgments of the courts whenever confinement is ordered, then let's do it in a way that doesn't make matters worse for those incarcerated. If we disagree on this location, how big it should be, or the programming that should offered, fair enough, let's work together to define it. Let's take this initiative and move it forward, with thoughtful planning and with purpose.

"And let me add one more thought on this matter. For several generations now, the community of Kalihi has hosted OCCC, with little protest, in its back yard. While it is not the primary reason to relocate Oahu's outdated jail, the chance to revitalize the community of Kalihi by using that vacated space to create new economic and social opportunities is another good reason to relocate OCCC.

"Concern for others whether they are homeless, incarcerated, disadvantaged, our children, or the community at large, that is the hallmark of who we are. Concern for others is why we are submitting legislation to bring the minimum wage closer to a real living wage.

"Concern for others also underlies the reason why we work so hard to provide economic opportunities for all to realize their dreams, whatever they

may be. But to translate those concerns into meaningful action takes resources. That's why we must also be cognizant of the needs of the counties. To help them do their jobs better, we will be asking the Legislature to remove the current \$103 million cap on the TAT and return the tax to how it originally functioned, allocating to the counties a straight percentage of TAT funds collected. In other words, the counties' share would rise and fall based on the amount of money collected, without any cap on the high side.

"There is a fairness to that formula that speaks volumes not only about our concern for others, but about our willingness to work with the counties as equal partners in moving the state forward. It's a change in the whole notion of revenue sharing whose time has come.

"Let me add that the bill we're submitting would also increase from \$3 million to \$10 million, monies earmarked to maintain our state parks, trails, beaches, and waters to the benefit of both residents and visitors alike.

"In 2018, mother nature threw a lot our way. Historic volcanic eruptions, hurricanes, and floods. And yet I find that we, as a people, are amazingly resilient and resourceful. We should all applaud those on Hawaii Island who faced devastating volcanic eruptions, and others on Kauai and Oahu who were buffeted by damaging hurricanes and floods, and who refused to be defeated by those events. We will work with the Legislature to continue our support for those families affected as they put their lives back on track.

"Finally, we have spent the last four years implementing frameworks that will help guide us along the continuum that will extend far beyond the next four years. Our blueprint for education, our clean energy portfolio, and our sustainability roadmap.

"The major initiatives that I've highlighted this morning, on public preschool education, affordable leasehold condominiums, and the TAT adjustment, are built upon these and other frameworks. But to realize our goal, it will take more than just this administration, more than government, more than the private sector, or community service and nonprofit organizations. It will take all of us.

"In my inaugural address, I talked about the need to work together. Little did I expect that the leaders in Washington would underscore my point by shutting down the Federal Government. That, my friends, is what gridlock looks like. Tragically, it has been devastating for the many federal workers caught in the middle, and increasingly for the general public.

"I began my remarks this morning with the notion that the future is personal. Leadership is also personal, and it has a name, and it is us.

"We have a duty and responsibility to do our jobs and to do them in partnership with each other. That is the least those folks up there in the gallery, the people we all work for, expect from us. But I know we can do so much more if we work together. And it begins with me, and it begins with all of you. That's why we have been meeting with the Senate and the House, to see if we can establish a common ground from which both houses can better shape a budget that serves all the people of Hawaii.

"After four years in this office, I know that what I'm asking is not an easy task. It never has been. But it becomes easier if we remember that little girl who was born in Kona in the very early morning hours of January 1st. She's the reason we do what we do. She is the real source of our strength and our determination and our commitment to the people of Hawaii. She is the one who will carry on the values that were passed on to us from our parents. Reverence for our *kūpuna*, love for family, respect for each other, and love for this *'āina* and this place we call home.

"We are here to protect her and nurture her. In turn, she enriches our lives. We have much to teach her and she has much to teach us. I hope and pray that one of the most important things that we instill in her is empathy and compassion for others. Empathy for those who are homeless even while she sleeps safe and warm in her own bed. Compassion for those who go hungry even when she is generously nursed and nurtured. Compassion for those who cannot make ends meet even if she thrives with a career that meets all of her needs. And empathy for those who find themselves without a country or face a wall that is far more daunting than any physical one we could ever build.

"Empathy and compassion are no strangers to those raised in these islands or to those who embrace our shared values. We do not often speak of them by those names, but rather by the one word we hold above all others, *aloha*. Alekah Obra Garcia is our future, and we welcome her with loving open arms. We have a job to do to prepare these islands for her, so let's get started, shall we? Thank you and *aloha*."

President Kouchi then rose and stated:

"Thank you, Governor Ige. Based on my remarks last week when we opened in the Senate Chambers, while I will not have a grandchild who will be a classmate of Alekah Garcia, Class of 2037, nonetheless, I certainly share the vision, the dreams, and the hopes that you have for her and all the rest of the children of Hawaii.

"I'd like to paraphrase from Dr. Martin Luther King. The measure of an individual is not what you do in times of comfort, but what you do in times of adversity. Last year, in spite of different political choices by each and every one of us that we're going to make in the upcoming election, we rose above the politics and joined together to create an amazing agenda for the people of Hawaii in affordable housing, in dealing with homelessness, in dealing with the disasters that we were confronted with, and I stand committed, as I said on the Senate Floor last week Wednesday, to work with you, Governor, to create that future.

"To my colleagues in the House, I have never had a better feeling than gaveling out at the end of last year, looking back to see everything that we could all accomplish together. I look forward to having a better feeling when we hit the gavel at the end of session this year.

"And I would simply close by quoting Ecclesiastes 4:9-10, 'Two are better than one, because they have a good return for their labor. If either of them falls down, one can help the other up. But pity anyone who falls and has no one to help them up.'

"So my hand will be out for the whole session to my colleagues in the House, and to you, Governor Ige, and Lieutenant Governor Green."

At 10:58 o'clock a.m., President Kouchi declared the Joint Session of the House of Representatives and the Senate of the Thirtieth Legislature, Regular Session of 2019, adjourned.

INTRODUCTION OF RESOLUTIONS

The following resolutions (H.R. Nos. 7 and 8) were announced by the Clerk and the following action taken:

H.R. No. 7, entitled: "HOUSE RESOLUTION ADOPTING THE RULES OF THE HOUSE OF REPRESENTATIVES OF THE THIRTIETH LEGISLATURE, INCLUDING THE OPERATING PROCEDURES FOR THE SELECT COMMITTEE ON STANDARDS OF CONDUCT," was jointly offered by Representatives Belatti and Ward.

Representative Belatti moved that H.R. No. 7 be adopted, seconded by Representative Thielen.

Representative Say rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support with written comments. Thank you."

Representative Say's written remarks are as follows:

"Mr. Speaker, I rise in strong support of HR 7, relating to operating procedures.

"I am in strong support of codifying the operating procedures for the Select Committee on Standards of Conduct of elected officials and their office staff. The operating procedures enhance transparency and openness of the process for those parties that are affected by the complaint.

"It is for these reasons that I am in strong support of HR 7. *Mahalo.*"

The motion was put to vote by the Chair and carried, and H.R. No. 7 was adopted, with Representatives Aquino, Har, D. Kobayashi, Lee, Matsumoto, McDermott, Nakamura, Nakashima, Quinlan and Ward being excused.

H.R. No. 8, entitled: "HOUSE RESOLUTION ADOPTING THE HOUSE ADMINISTRATIVE AND FINANCIAL MANUAL OF THE HOUSE OF REPRESENTATIVES OF THE THIRTIETH LEGISLATURE," was jointly offered by Representatives Belatti and Ward.

Representative Belatti moved that H.R. No. 8 be adopted, seconded by Representative Thielen.

Representative Say rose to speak in support of the measure, stating:

"Mr. Speaker, once more, in strong support."

Representative Belatti rose to speak in support of the measure, stating:

"Mr. Speaker, also in strong support, insert written comments."

Representative Belatti's written remarks are as follows:

"Mr. Speaker, I stand in strong support of House Resolution 8 adopting the House Administrative and Financial Manual of the House of Representatives of the Thirtieth Legislature.

"The adoption of the House's Workplace Harassment Policy in Chapter 27 of the manual is long overdue and represents the work of employment and civil rights experts outside of the Legislature and significant input from legislative staff members and elected members of the State House of Representatives.

"On May 9, 2018, House Speaker Scott Saiki formed an Interim Working Group to Evaluate House Procedures on Disruptive Behavior to evaluate the House's procedures relating to reporting, investigating, and eliminating inappropriate harassment behavior. I would like to thank the members of this working group – Janna Nakagawa, Ryan Sanada, Robin Wurtzel, and ex-officio member Brian Takeshita, House Chief Clerk, who served in an advisory capacity – who made significant recommendations to improve the House's workplace standards and procedures based on best practices found in workplaces across different sectors and industries.

"Based on the working group's diligent efforts, the new House policy updates key definitions, including examples of harassment, sexual harassment, and bullying; clarifies reporting requirements and methods of reporting, the reporting obligation by victims and witnesses, and alternative options for recourse; provides more information about the investigative process, including the requirement to provide the victim with an estimated timeline for investigation completion; prohibits retaliation and sets up a process to investigate reprisals; and requires annual workplace harassment training for all House members and employees.

"Underscoring the House's policy is that the workplace should be a safe and civil environment for employees, members of the public, and House members. Because this policy is the embodiment of this House's commitment to ensuring a safe and civil environment, I strongly support adoption of House Resolution 8."

The motion was put to vote by the Chair and carried, and H.R. No. 8 was adopted, with Representatives Aquino, Har, D. Kobayashi, Lee, Matsumoto, McDermott, Nakamura, Nakashima, Quinlan and Ward being excused.

The President then presented to the members of the Thirtieth Legislature and the audience, the Honorable Mark E. Recktenwald, Chief Justice of the Hawaii Supreme Court.

The Chief Justice then addressed the Joint Session as follows:

"Thank you very, very much everyone. Thank you so much. Good morning, *aloha*. President Kouchi, Speaker Saiki, Governor and Mrs. Ige, Lieutenant Governor and Mrs. Green, members of the Senate and House, Mrs. Ariyoshi, Governor and Mrs. Waihee, Chief Justice Moon, my fellow justices, judges and judiciary staff, members of the Consular Corps and the Royal Order of Kamehameha, distinguished guests and friends, once again, good morning and *aloha*.

"I'd like to thank the Legislature for this opportunity to speak today. I'm grateful for your strong support of the Judiciary, and in particular for enabling us to achieve the decades-old vision of constructing a modern, secure courthouse for the people of Kona. Thanks to you, the new Keahuolu Courthouse will open this fall, on time and on budget. Thank you so much.

"The Judiciary has one mission. To provide justice. We offer a fair and impartial forum where people can peacefully resolve their disputes. We strive to ensure the peace they find is a lasting one by helping them address the causes of what brought them before the courts. And we provide justice for all regardless of the person's background or economic status.

"Under our constitution, the Judiciary is sometimes called upon to protect the rights of those whose views may be unpopular. In making decisions, our judges must faithfully apply the constitutions and laws of the United States and Hawaii to the facts of each case, free from passion, pressure or outside influence.

"While our core values are timeless, the tools we use to achieve our mission cannot be frozen in time. We must constantly ask whether our justice system is achieving the results that our people rightfully expect. We appreciate it when the Legislature asks tough questions, because we are asking those questions ourselves. Is our criminal justice system keeping our communities safe, while respecting the constitutional rights of defendants who are awaiting trial? Are we rehabilitating those who have been convicted? Is our civil justice system providing justice that is timely and affordable?

"While there is much work to do, we have a strong foundation to build on. Our efforts to increase access to our civil courts have received national recognition. With the support of the Legislature and the bar, we are exploring new ways to use technology. These range from using text messages to remind criminal defendants to appear for court to using artificial intelligence to make the civil litigation process more understandable for self-represented litigants.

"We have made progress because we have so many partners who share our passion for providing justice for all, including the Legislature, the executive branch, with Governor Ige and Lieutenant Governor Green, the Hawaii State Bar Association, the William S. Richardson School of Law, the American Judicature Society, and the community as a whole.

"Last year, approximately 500,000 cases were filed in our courts, including traffic offenses. Each day, our judges address some of the most sensitive and challenging problems facing our community, from violent crimes, to bitter disagreements between divorcing spouses, to complex environmental cases. I will address each of those areas, our criminal, family and civil courts, to highlight the challenges we face and the opportunities we see.

"Our criminal courts are home to some of our most innovative programs. In order to keep our communities truly safe, we are often called upon to address the underlying challenges, such as substance abuse and mental illness, that defendants face. One size fits all simply doesn't work in this context, so we offer programs that are targeted to specific populations, Drug Court, HOPE Probation, Mental Health Court, and Veterans Treatment Court, to name a few.

"One recent example of this approach involves homeless individuals, some of whom have multiple cases in our district courts for non-violent offenses such as sleeping in public parks. With the strong support of the Legislature, we have partnered with the prosecuting attorney and the public defender to launch Community Outreach Court on Oahu. The goal is to

enable homeless individuals to resolve their pending cases by performing community service, while offering them services that can get them back on their feet.

"Since the program started in 2017, 102 participants have performed more than 2,100 hours of community service, and more than 1,100 pending cases have been cleared. Many participants have found jobs, housing and more stable shelter, and have earned driver's license permits.

"When we started the program, court sessions were held in a typical setting, a courthouse in downtown Honolulu, with a judge sitting up high on the bench. Thanks to funding from the Legislature, we were able to expand the program to Wahiawa District Court. But the vision has always been to hold sessions outside of a traditional courthouse to make the program more accessible, and this became a reality in September, when Judge Darolyn Lendio held court at the Waianae Public Library. She sat at a plastic folding table, at eye level with the participants. And that truly is justice in action. We have several participants from the Community Outreach Court in the gallery today, along with Judge Lono Lee, Deputy Court Administrator Calvin Ching, and the staff and community partners. Could they all please stand and be recognized?

"There are other significant developments underway in our criminal justice system. The first involves reforming the way we handle criminal defendants who have been accused of crimes, but are awaiting trial. Under the law, they are presumed innocent and are entitled to bail or other forms of release, except to the extent necessary to ensure their appearance and protect the community if they pose a danger. Low-risk defendants should not be in jail simply because they are too poor to afford bail. At the same time, the community must be protected from those who are dangerous.

"A number of states have undertaken pretrial reforms. In response to House Concurrent Resolution 134, the Judiciary convened a task force led by circuit judges Rom Trader and Shirley Kawamura. That task force had 30 members, including the chiefs of police and prosecuting attorneys of all four counties, and I appreciate many of them being here today, defense attorneys, including the public defender, and I appreciate Jack Tonaki being here today, the Office of Hawaiian Affairs and other agencies, and Senator Clarence Nishihara and Representative Scott Nishimoto. They recently delivered a comprehensive report with recommendations for legislative and administrative action.

"The Judiciary is already implementing several of the recommendations, such as obtaining more information about each defendant's ability to afford bail. We're also creating an electronic reminder system for defendants so they can receive text reminders before their next scheduled court date. We have implemented this system on the neighbor islands, and expect to extend it to First Circuit district court in February. These reminders increase the likelihood that defendants will appear, and save scarce public resources by decreasing the number of bench warrants that are issued.

"Another important statewide initiative is the Prison Reform Task Force chaired by my colleague, Justice Michael Wilson. This task force, with broad representation from the community, including Senator Nishihara and Representative Gregg Takayama, studied effective incarceration policies in other jurisdictions, and has made recommendations to improve Hawaii's correctional system by focusing on rehabilitation. Those recommendations include expanding Drug Court to provide an alternative to incarceration for defendants with serious drug problems.

"I thank Judges Trader and Kawamura, Justice Wilson, and the members of both task forces. Thanks to their hard work, we have a unique opportunity to make Hawaii safer, and our criminal justice system more fair and effective.

"Our family courts also have a long tradition of innovation and working collaboratively with many partners to protect Hawaii's children and support Hawaii's families. Virtually all of the youth in our juvenile justice system have been subjected to trauma in their lives, so we have focused on addressing the effects of that trauma. And that approach has worked. Over the last 10 years, the number of youth held in custody has decreased by 61%. I want to thank the senior family court judges who've led this effort, including Mark Browning, Cathy Remigio, and Christine Kuriyama, and our

entire family court team. While these strategies require additional resources up front, that expense is modest in comparison to the cost, both financial and social, of having these children become adult offenders.

"We have many programs, such as Girls Court, that have contributed to these positive results by providing individualized care where it can help the most. And notably, our Oahu Juvenile Drug Court, which provides drug treatment and intense supervision, last year had the lowest recidivism rate since the program began in 2001.

"Another example of this individualized approach is the family court's effort to address truancy by collaborating with the Department of Education to intervene early when children start missing school, and addressing the circumstances that caused them to be absent.

"This approach resulted in a significant decrease in the number of unexcused absences when we first used it at Waianae Intermediate School. Building on that success, the Judiciary launched another truancy collaboration on Kauai, under the leadership of Judge Edmund Acoba, at Waimea Canyon Middle and High School. That effort reduced truancy petitions in the district from 56 in 2016 to only six the following year. And on the Big Island, we recently launched another truancy collaboration project under the leadership of Judge Darien Nagata at Keau Middle School, with partners including the Salvation Army and the Children's Law Project.

"Other important innovations include a public-private partnership to build a center for youth offenders, along with nearly 200 affordable rental apartments on Alder Street in Honolulu. This project, which is expected to be completed by 2021, will include a 24-hour youth shelter, a meeting space for youth to take after-school classes and receive other vital services. We're grateful to Speaker Scott Saiki, Councilmember Ann Kobayashi, the Hawaii Housing and Finance Development Corporation, and the many others who are making this project possible. This is the first joint partnership of its kind between two branches of government and a private entity. So again, thank you to all of those folks that made this possible for us.

"Our family courts also address some of the most heartbreaking cases we see involving the abuse and neglect of children. Some are newborns whose mothers abused crystal meth or alcohol during their pregnancy, others are mere toddlers. To meet their special needs, we have created a Zero to Three Court designed to provide them with permanency as quickly as possible, whether through reunification with their parents, legal guardianship, or adoption to a safe, new home.

"To cite one example, a homeless family entered the program as a result of a domestic violence report. The Zero to Three team helped them obtain employment and find an apartment, furniture and household goods. Thanks to these steps, the family eventually was reunited. The judge and the court team members took the time to show these parents that they mattered. And sometimes, that's the most important thing we can do to help families succeed.

"And finally, I want to thank the Legislature for its support of our efforts to more effectively address domestic violence. In 2017, the Women's Legislative Caucus held meetings across the state to hear from stakeholders, including domestic violence survivors and advocates. We made several significant changes as a result. For example, the Kauai YWCA is now providing free assistance in our Lihue Courthouse to individuals who are seeking petitions for temporary restraining orders.

"Turning to our civil courts, there have been profound changes in the civil justice system nationwide. In 2008, a national survey of several thousand lawyers concluded that America's civil justice system was in serious need of repair, it takes too long and costs too much.

"That report jump-started interest in rethinking how civil litigation is conducted. A number of states and the federal courts explored ways to improve.

"Here in Hawaii, there has been much discussion about this issue during our annual bench-bar meetings, which have become a valuable source of feedback to the Judiciary. As a result of that input, in June of last year I

created the Task Force on Civil Justice Improvements for Hawaii's Circuit Courts, chaired by retired Chief Judge Craig Nakamura. Seven current and retired judges and 17 attorneys are also serving on the task force, and expect to submit their report later this year.

"In our district courts, we have a high percentage of litigants who are representing themselves. To make the court more accessible to them, we are revising our most commonly used forms to make them more understandable. And moreover, we're identifying opportunities to use technology to help them.

"Deputy Chief Judge Lono Lee is leading a group that is evaluating online dispute resolution alternatives for small claims cases. This project could enable civil litigants to mediate certain types of claims online, and if online mediation is unsuccessful, the parties could then, by agreement, have a judge quickly resolve the case, based on documents and other materials submitted online. Online dispute resolution is not appropriate for every litigant, such as those with limited English proficiency or without access to the internet, but for some people, the possibility of being able to resolve their dispute without having to come into a brick-and-mortar courthouse will be very appealing.

"Also, I am happy to share that the Judiciary's online electronic filing system is set to launch in our civil courtrooms this fall. People will be able to file documents electronically and access case information 24/7, much like what is available now for criminal and appellate cases. And I'd like to thank Judge Gary Chang and his team for their hard work in developing this system.

"We're also making significant strides in increasing access to our civil courtrooms for those who cannot afford an attorney. Last year marked the 10th anniversary of the Hawaii Access to Justice Commission, which is chaired by retired Justice Simeon Acoba. The commission has championed many significant initiatives, such as our self-help centers, where volunteer attorneys provide legal assistance to self-represented litigants. More than 24,000 people have been helped so far. The centers are a great example of what can be accomplished when we work together, and I want to thank the Hawaii State Bar Association and its President, Derek Kobayashi, and Executive Director, Pat Mau-Shimizu, the Legal Aid Society of Hawaii and its Executive Director, Nalani Fujimori Kaina, the county bar associations, who've been great partners in so many of our initiatives, and all the volunteer attorneys for making this resource available to the community.

"Often, people find themselves in court when they're experiencing turmoil in their lives, and the experience can be daunting. The Judiciary launched a Volunteer Court Navigator Program in the Second Circuit that helps those who do not have an attorney. Court navigators assist individuals when they appear in district court civil cases, such as landlord-tenant disputes or debt collection cases. Court navigators help in small, but important ways, by helping to ensure that parties arrive at the proper courtroom, check-in, and respond when called on, among other things.

"Thanks to the enthusiasm of the volunteer navigators, and the leadership of our 2018 Jurist of the Year Chief Judge Joseph Cardoza, more than 200 people have been helped through the program, and it's now being piloted in the First Circuit.

"All of our work on access to justice has helped establish national recognition for Hawaii, which has opened doors to increased resources for our efforts. One project championed by Majority Leader Della Au Belatti is creating an interagency roundtable on access to justice. Another involves training for community navigators, trusted leaders such as a respected teacher, church pastor, or *kūpuna*. By providing them with the necessary tools and information, they can help members of the community access our civil legal system.

"Another project that is garnering national attention is the Legal Navigator portal, which was made possible thanks to the contributions of Microsoft, the Legal Services Corporation, ProBono Net, and the leadership of the Legal Aid Society of Hawaii. Microsoft has dedicated close to \$2 million worth of resources to Alaska and Hawaii to develop an online legal services portal that will use artificial intelligence to help people identify legal problems, and then access critical resources. This transformative project will

launch later this year and will empower those whose voices might not otherwise be heard.

"Although we've undertaken many of these initiatives with existing resources, in some instances we'll need additional funding to address new challenges. And this session, we're respectfully requesting funding for four new judges. A family court position on Kauai, where we currently have only one full-time family court judge, a family court judge on Oahu, where some judges have calendars nearing 3,000 cases per year, a district court judge on Oahu to help handle the increased number of DUI cases and expand Drug Court, and a district court judge on Maui, where the population has more than doubled since the last position was added in 1982. Additionally, we're asking for several staff to support the Community Outreach Court, a permanent position for the Zero to Three Court, maintenance staff and funds to operate the Keahuolu Courthouse when it opens, and additional funds for domestic violence services for Maui County, among other needs. Finally, our construction-related requests are all focused on repairs, maintenance, and keeping our current buildings safe and secure. We appreciate your consideration of our requests and stand ready to provide any information you may need.

"In conclusion, one of the most fundamental challenges we face as an independent branch of government is building trust and understanding of the Judiciary's mission. We do this in many different ways. For example, it became apparent last year that we needed to do more to ensure that the use of *ōlelo Hawaii* was encouraged and protected in our courts. We adopted a policy to ensure that parties who want to express themselves to the court in the Hawaiian language are able to do so, and we have actively recruited more interpreters for that purpose. Also, in response to House Resolution 110, we've held Hawaiian language training for more than 400 judges and staff. And earlier this month, we began calling cases in the Hawaii Supreme Court in both Hawaiian and English.

"In addition, we're engaging our young people so they understand the role of the courts in our democracy. Under the Courts in the Community program, the Supreme Court holds oral argument in schools across the state in real cases with volunteer attorneys visiting classrooms to help the students understand the issues. This program has had an incredible impact. So far, we've held 13 oral arguments, with more than 4,500 students from 61 schools participating. Many partners assist us with this program, the volunteer attorneys who visit the classrooms, the Hawaii State Bar Foundation which provides buses and lunches for the students, law students from the William S. Richardson School of Law, which has been a great partner in so many initiatives, and the teachers who work with the Judiciary History Center to incorporate our program in their lesson plans, and who welcome the volunteer attorneys into the classrooms. And I want to extend my thanks to each and every one of them for making this program possible.

"Another important component of building public trust is a judicial selection process that ensures we have highly qualified judges who reflect and understand our community. Although there are many reasons why people become judges, our robust system of judicial selection and retention has attracted individuals who are highly qualified and who reflect the diversity of our community. As Chief Justice, I appoint the judges who serve in our district and family courts. And I am pleased to report that we now have an equal number of men and women serving on the bench in these courts.

"We can never forget that our diversity is a great source of strength. The late Governor John A. Burns stood before this Legislature nearly 50 years ago, in February 1969, and delivered one of his most famous speeches. Governor Burns spoke about the 'tremendous power of Hawaii as a source of inspiration' and reminded his listeners about how 'It is through an understanding of our backgrounds, our heritage, that we can best achieve amicable accommodation of the diversity of views that is the hallmark of a truly democratic society. Let us clearly understand that diversity and division are not the same. In diversity there can be unity.'

"The wisdom reflected in those words guides us at the Judiciary. I thank our dedicated judges, staff, and volunteers for treating everyone who comes before us with respect, fairness and compassion. By doing so, we provide a place where all of Hawaii's people can find justice.

"We thank the Legislature and our other partners for supporting us in that cause, and look forward to working with each of you in the years ahead. *Mahalo and aloha.*"

Speaker Saiki then rose and stated:

"Thank you, Chief Justice Recktenwald, for your eloquent and judicious message. I'm sure that the Senate President will agree with me that not many people realize how challenging it is to manage and administer a branch of government, especially when you have to count the votes. So, could we just please give the Chief Justice another round of applause for his work."

At 10:39 o'clock a.m., Speaker Saiki declared the Joint Session of the Senate and the House of Representatives of the Thirtieth Legislature, Regular Session of 2019, adjourned.

ORDER OF THE DAY

REPORTS OF STANDING COMMITTEES

Representative Lowen, for the Committee on Energy & Environmental Protection, presented a report (Stand. Com. Rep. No. 6) recommending that H.B. No. 560, as amended in HD 1, pass Second Reading and be referred to the Committee on Lower & Higher Education.

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 560, HD 1, entitled: "A BILL FOR AN ACT RELATING TO ENERGY TRAINING," passed Second Reading and was referred to the Committee on Lower & Higher Education, with Representatives Thielen and Tokioka being excused.

Representative Lowen, for the Committee on Energy & Environmental Protection, presented a report (Stand. Com. Rep. No. 7) recommending that H.B. No. 562, as amended in HD 1, pass Second Reading and be referred to the Committee on Consumer Protection & Commerce.

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 562, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CONSTRUCTION WASTE," passed Second Reading and was referred to the Committee on Consumer Protection & Commerce, with Representatives Thielen and Tokioka being excused.

Representative Lowen, for the Committee on Energy & Environmental Protection, presented a report (Stand. Com. Rep. No. 8) recommending that H.B. No. 563, as amended in HD 1, pass Second Reading and be referred to the Committee on Consumer Protection & Commerce.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 563, HD 1 pass Second Reading and be referred to the Committee on Consumer Protection & Commerce, seconded by Representative Morikawa.

Representative McDermott rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I have reservations on this. I certainly support the intent of clean energy. Mr. Speaker, out there, there is a, literally, a mountain of coal ash out at Campbell Industrial Park. It's huge. And my concern is, moving forward, if there is a technology developed that can get some of the residual energy still in that coal ash out of that coal ash, where we can reuse it, if you will, recycle the coal ash, technology that I may not be aware of or one that already exists, it just may be prohibitively expensive at this time, that the only alternative they're left with is to bury that. So, that is why my reservation, sir. Thank you."

Representative Har rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. Please have the Clerk note my reservations. Brief comments, please. Just very briefly, my concerns really just are raised from the testimony that was submitted by AES as well as Hawaiian Electric. I want to be very carefully in support of the intent of this measure, but the fact of the matter is, is that there has to be some flexibility with respect to the power purchase agreement, and that's all that the parties were asking for. And for those reasons, I stand with reservations. Thank you, Mr. Speaker."

Representative Okimoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Kong rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, reservations, brief comment. Mr. Speaker, your minority is very concerned about the rising cost of living and how we seem to be having a very difficult time checking it at all. This is a cost of living increase. If we take coal out, we take away the cheapest source of electricity in the State of Hawaii.

"I don't think electric bills should increase, which this bill will cause. And plus, we should be tolerating the ambiguity of, we don't know what's going to take place technologically between now and the next two to three to five years. 5G is coming, other, *et cetera, et cetera*. The point is, I think we should be flexible about the future and not predestinate to be something that says, you will not have the cheapest electricity available for the people of Hawaii. I think that's unfair and the cost of living is choking and we're exporting people already. This complicates that. Therefore, with reservations, borderline no. Thank you."

Representative Lowen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I just want to point out that our one remaining coal plant in Hawaii is already due to be phased out by the end of 2022. The measure that we're discussing is, in certain ways, a feel-good measure just to affirm our clean energy goals and certainly doesn't affect anyone's cost of living in any way or jobs. Thank you. In support."

Representative Ward rose to respond, stating:

"Mr. Speaker, brief rebuttal. Mr. Speaker, there is such a thing as renewal of contracts. When contracts expire, they can be renewed and therefore we can keep the cost of electricity stable as it is."

Representative Wildberger rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I just want to show my support for this bill. Maui had a coal plant and it stopped producing two years ago and there were no changes in our electricity costs as a result of that changing. We were able to replace that power plant with renewables. Thank you."

Representative Cabanilla Arakawa rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative DeCoite rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. Reservations, brief comment. Molokai has the highest electric in the nation. The phasing out of those coal companies has actually skyrocketed ours even higher on that island. Not to mention, with the lockdown of the grid and renewables, it has made it worse for those neighbors that cannot afford to put in renewables. So, with that, reservations, please."

Representative Say rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 563, HD 1, entitled: "A BILL FOR AN ACT RELATING TO A COAL-FREE HAWAII," passed Second Reading and was referred to the Committee on Consumer Protection & Commerce, with Representatives Cabanilla Arakawa, DeCoite, Har, Kong, McDermott, Okimoto, Say and Ward voting aye with reservations, and with Representatives Thielen and Tokioka being excused.

SUSPENSION OF RULES

On motion by Representative Morikawa, seconded by Representative Matsumoto and carried, the rules were suspended for the purpose of considering a certain House Bill for Third Reading by consent calendar. (Representatives Thielen and Tokioka were excused.)

THIRD READING

H.B. No. 2, HD 1:

Representative Belatti moved that H.B. No. 2, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Luke rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support of House Bill 2, House Draft 1. Mr. Speaker, if you'll allow me some time to introduce my hard-working staff at this point. So, the reason why I am introducing both the budget and research section today is because the Finance Committee, with your permission, have taken up a new budget approach and it will take a lot of coordination between budget and research.

"So, with that, with the budget section, if we could just hold our applause until everyone is introduced. Budget, we have Alyssa Hayamoto, when I call your name if you can stand, and Alyssa is a returnee, so we are happy to have her, Andrew Howard, Michael Smith, Tabrina Webb-Hayes. And our new addition to our permanent staff, Aldric Ulep, who was a former Finance staff, Riley Fujisaki, Julie Yang, and leading this group is Albert Vargas, head of the budget section.

"For our research section we have Lily Zheng, Harrison Oshiro, Candace Okouchi, Alexis Van Pernis and Stacey Tagala. And leading the research section is Randall Hiyoto.

"And we also have the front office, Gayzeljoy Alonzo, Natassja Arakaki, and my OM is Suhyeon Burns.

"And we also have the hard-working bill section, they compile all the testimony for all the members, and that is Sean Cummings, Joy Nakashima and Jo Hamasaki, who is hiding somewhere, I can't see. And then of course, we have Nandana Kalupahana, who is also hiding somewhere, oh there you are. If we could give a round of applause to these individuals. Thank you, you can be seated. And these are the individuals you will see in your committee hearings, and these are individuals that committee chairs and vice chairs will interface with throughout session.

"So, Mr. Speaker, the 1970 Legislature had a vision. They wanted a periodic revision of state programs and an evaluation of alternatives for a more efficient and effective use of state resources. This was the basis for performance-based budgeting. They felt so strongly about this approach, that it was codified into law. Today, 50 years later, we are fulfilling that vision.

"The budget approach challenges the departments to reexamine state programs and address the needs of its clients, the taxpayers. Vice Chair correctly describes this approach as aligning the programs with the funding. I want to thank the subject matter chairs for taking on this difficult role to bring accountability for our taxpayers.

"I'd like to highlight some of the work which the chairs will undertake this year. All of the programs within DCCA are fully funded by fees, as you know, and so with that, we always look at DCCA as something that it's run on its own. But because of this new budget approach, our Intrastate Commerce Committee Chair plans to align the various fees assessed to the services offered at DCCA, and this is going to be done for the first time.

"The Office of Energy has been heavily criticized by the Auditor's Office for its lack of vision in energy policies. As you know, the Legislature has taken a very aggressive and progressive approach to energy policies. So, the Energy & Environmental Protection Committee Chair will reassess the role of the office in light of the Legislature's role."

Representative Cullen rose to yield his time, and the Chair "so ordered."

Representative Luke continued, stating:

"The Agriculture Committee will examine the accountability of ADC, and that is why the budget of ADC is not in House Bill 2, and it will be in another bill.

"Health and Human Services Chairs will evaluate whether the Office of Aging is delivering the services effectively to our *kūpuna*. So that's another section that is not in House Bill 2, House Draft 1, and will be in another bill.

"In addition to all the ones that we have mentioned, we have numerous number of program IDs that have been eliminated from House Bill 2 and will be floated in different bill forms through the subject matter committees for further vetting.

"With these examples, I want to thank the members of Finance, because this is a new concept, and this is something that we can all undertake together. And I want to thank the subject matter chairs and the committee members, and especially you, Mr. Speaker, and the other Speaker who is sitting down, for allowing the House to fulfill the 1970 vision for performance-based budgeting. Thank you for taking this journey with us. Thank you."

Representative Ward rose to speak in support of the measure, stating:

"In support with semi-brief comments, Mr. Speaker. In my opening speech, I commended the Chair of Finance for adopting this process, performance-based budgeting, zero-based budgeting. It promotes efficiency, it promotes accountability, and I think we're going to get accomplishments through this, Mr. Speaker.

"It's revolutionary, quite frankly. I compare it to the revolution that American Professor Deming did to the Japanese auto industry. The American version of it was, workers are lazy. Deming went to Japan and he said, no, it's the structure that's incorrect in the American auto industry. And I would think that what the Chair is promoting is that the structure of the way that we've kept the executive accountable has been faulty, Mr. Speaker. So, this should overcome that, the processes should be much smoother. The difficulty is going to be the enforcement and really getting the numbers of how much people accomplish with the amount of money that we've given the departments.

"I know, having been on Finance, and I do dearly miss it, I know there was a cat-and-mouse always played between the departments and the Finance Committee. Fortunately, there is a lot of intelligentsia in the staff

that were introduced. But it's that cat-and-mouse game that probably should be diminished, if not totally put aside and we should be making better use of our funds.

"I had forgotten, however, that it was 50 years, Mr. Speaker, in trying to do this. So, it's about time, we've come a long way, baby. And I hope that we do this and the Senate will agree. Because if the Senate doesn't agree with it, that's going to be the demise of what otherwise is probably one of the most innovative things that this body has taken since statehood. Thank you, Mr. Speaker."

Representative Cullen rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Cullen's written remarks are as follows:

"Mr. Speaker, I rise in strong support on House Bill 2, House Draft 1, Relating to the State Budget.

"I would first like to thank the Chair of Finance for having the courage and the trust in the subject matter chairs to work on zero-based/performance-based budgeting. The House Chair of Finance mentioned earlier the history about this budget process. This process allows the subject matter committee chairs the opportunity to provide more insight and transparency, through the state budget, to the public as it is vetted through its own subject matter. We understand that this will take time and consistency, but we need to start somewhere.

"I would like to thank the Finance staff for their patience and all their hard work in getting the budget done in a timely manner. As this becomes common practice within the House of Representatives, it creates an environment that will be more accountable to our taxpayers.

"For these reasons, Mr. Speaker, I stand in full support of House Bill 2, House Draft 1, Relating to the State Budget."

Representative Say rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with strong reservations. The budget that is before this House is a budget that 51 members may not know what it is. Is this the House position that we are taking? Realizing this is Third Reading, it is going to go over to the Senate. This is the first time in my career that within 10 days the House budget has been adopted without a thorough analysis by the subject committee chairs and their respective committee members.

"I've asked some of our chairs that I sit on if I could have a copy of the budget worksheets that was presented by Finance Committee and the BJ tables. The exercise would be in futility because a lot of the subject committee chairs may not know what the process is in addressing the respective departments, the ASOs, administrative services officers, or their budget analysts. Your committee clerks, Mr. Speaker, will be those individuals that will be shredding those respective programs within the respective committees.

"Department of Agriculture, nine programs. Nine programs which is 0.2% of our state budget. That's very simple. I think the Chair of Finance is absolutely correct, the two largest departments that are specially funded is the Department of Transportation, highways, airports and harbors, and the Department of Commerce and Consumer Affairs, where we address it through fees.

"Mr. Speaker, I don't know why we have a rush, where we can vet it publicly and openly what is the House Draft 1. If the intent is to go zero-based budgeting, I can respect that. But have any of the members of this House reviewed the variance reports that are tied to the budget? What are variance reports? What is PPB, for the freshmen and sophomores? Planning, programing, budgeting. All I'm saying, I don't know why I should be supporting this measure not knowing what the position of the House of Representatives is on a \$14.4 billion budget.

"I put my faith and trust in the leadership, in the Finance Chair, but when will we see the results of what it will take to balance our budget, also? Those

members who have eight to ten years or more can understand that. I'm very sorry for those members who were not here when we had the great recession. The exercise we had to go through in cutting the budget in order to not increase the general excise tax or the pension tax. Let's be honest with ourselves. Subject committee chairs, it's your responsibility to share that particular knowledge and information and financing and dollar amounts that are used by your committee structure that you folks have.

"And in closing, I'd be happy to see what the Judiciary budget will be, if it's zero-based, and what the Judiciary's request is for the members of the House who do not sit on the Judiciary Committee. This is the kind of concerns I have about how this process is being done. How many of you know what you are adopting today?"

Representative Belatti rose to a point of order, stating:

"Point of order, Mr. Speaker. The speaker should be addressing the Speaker, thank you."

Representative Say continued, stating:

"Well, Mr. Speaker, I'll close at this point in time. But I just forewarn the members of this House to be educated on your particular programs that your subject committees and understand that, always understand that you are elected by the people that you represent and the district that you represent. So, thank you very much for just giving me the opportunity."

At 12:54 o'clock p.m., Representative Say requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:56 o'clock p.m.

Representative Luke rose to respond, stating:

"Mr. Speaker, again in support. And my apologies to the Speaker Emeritus because, clearly, he did not understand what we were trying to do. And I think what we want to make sure is that everybody understand and that's why we explained time and time again what we are trying to do and, clearly, it seems like the Speaker Emeritus did not completely understand what the objective was.

"So what we're passing today, so let me just take my time to explain this. So what we're passing today in House Bill 2 is the base budget from last year. And that's why we need a framework where we can start. So it is the base budget from last year which everyone voted on and supported. It has no new additions, and that's why it is a zero-based, performance-based budget. And any new addition, and if the chairs want to look at the base budget, as the Ag Chair wants to look at ADC and look at not just the additions but the whole budget and how the function of ADC is doing, the Ag Chair has graciously taken ADC out of this base budget and put it into another bill so that he and the Ag Committee can have a thorough vetting of ADC.

"Similar to EEP Chair, the EEP Chair has taken the Office of Energy, which is not in this House Bill 2, so that the Energy Chair can take a look at what the Energy Office has done in the past and why are they not aligning the goals of the State with the Legislature's policy. And the Health Chair has taken a lot of their subject matter out of this bill, so that they can do zero-base and performance-base. And in addition to that, maybe I should elaborate a little bit more. I was going to summarize, but okay, too bad for you guys, because I'm going to now take my time.

"Education Chair is taking the entire education budget and the University of Hawaii budget out of House Bill 2 so that he can thoroughly vet the education budget. Because, as you know, the big issue during this past election was the accountability of DOE."

Representative Ichiyama rose to yield her time, and the Chair "so ordered."

Representative Luke continued, stating:

"And through this zero-based, performance-based budgeting process, he will not only be looking at the additional requests submitted by the executive or by the advocacy groups, he will be looking at how that relates to all the budget items in the base. And the Vice Chair is looking at, under DAGS you have a surplus properties section, you have lease division section, what are all these sections?"

"So it's time that we as the Legislature understand what these different agencies do and how they relate to how we function as government. Water Land Chair is taking a look at various services within DLNR to look at if they are providing the services and programs that effectively serve our taxpayers.

"I actually didn't mention DBEDT, and I wanted to mention DBEDT. DBEDT is our working engine, where they have to bring economic development. And it's very important that we need to figure out if every agency in DBEDT is creating the type of economic opportunities that we have. So, thank you to Economic Development Chair, who has taken out from this House Bill 2 various agencies that serve the public and could look at what is aerospace and what is technology development corporation and what is international student. What are they doing and how much activity are they producing?"

"That's why I am very thankful, and I have a lot of trust in the subject matter chairs that they are willing to vet this. And as I said before, this is a difficult process, and it's not going to be something that we can just do this year. I'm assuming there is going to be a lot of negotiations with the executive, there's going to be a lot of work between now and the end of session with the Senate and the committee members, but this is our job.

"We cannot just continue to look at the various add-ons by the executive and vet those things. We have not done our job for many, many years, which is to be accountable for the entire \$14 billion budget. And that's why I am super thankful for all the subject matter chairs who are willing to look at the base budget. And that is what we're doing today. Thank you."

Representative Ward rose to respond, stating:

"Second time, in support. I want to thank the good Chair of Finance for elucidating and educating the process because it is such new territory. That is very helpful. I think, maybe, and assumption is the lost form of information. I think the assumption was by the previous speaker, Speaker Emeritus, is that everything is locked in stone and therefore whatever the chairs is going to be doing is non-substantive. But in effect, there's going to be a lot of amendments. And my assumption is, if the Finance Chair would take a question, there's going to be amendments and there's going to be a give and take, and the budget is not going to be locked in as it was last year."

At 1:02 o'clock p.m., Representative Belatti requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:03 o'clock p.m.

Representative Say rose to respond, stating:

"Mr. Speaker, my second time, please. With strong reservations, once more. I can appreciate what the Chair of Finance is stating for the record on the members of the House, but how will the members of the House realize what is the Governor's proposal, if it's based on a zero-base budget? Mr. Speaker, how will the members know, do all of you know what the Governor's proposals are in the State of the State? In what program ID? But is it recorded in the base budget? No, it's not recorded in the base budget, it's on top of the base budget. It is what the Governor wishes to propose to the Legislature to decide.

"Are there vehicles for those particular measures on behalf of the Governor of the State of Hawaii in working collaboratively, Mr. Speaker? I don't know. I just don't know. But I hope all of you take the responsibility seriously about what the budget is all about. And how many of you have looked at the two-year biennium budget and all the programs that he has

proposed to do, that we are supposed to be working together? And now we have a budget that does not even address that. That is the concern I have. On behalf of the people of the State of Hawaii, it's not just one particular district or two, it's all.

"So, all I'm saying to you, I truly hope as we move through the session, that for the first cross, this particular measure has already crossed. And second cross when it comes back from the Senate as a SD 1, where will the discussion take place? On the individual bills, Mr. Speaker? Members of the House, you have sole responsibility to really understand what the budget is, the process we are going through. And I just wish that we can work together, collaboratively, openly and honestly with the executive branch. Thank you."

Representative Lee rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. My thanks to the Finance Chair, the Finance Committee, and all the other chairs of the various committees for their work in making this process that, while new, is going to open up transparency in state government.

"And I especially want to add that, as the Chair of the Judiciary Committee, I look forward to working on the Judiciary budget itself. And I think I would invite my good colleague from Palolo, at the appropriate time, to be a part of that process. Because we're going to be hearing multiple bills that not only span the Judiciary budget, but also, we've pulled out of the base budget the Attorney General's Office, the Sheriff's Department, the Campaign Spending Commission, the Office of Elections, and many other places for a deep dive. To look in for the first time into what those functions are, how money is being spent, and ultimately how we can create more efficient services while saving taxpayers money.

"I'm going to look at the base as well as the adds from the Governor in separate budget bills, which is something I think that, especially for new members here, I'm really excited about. Because I think back to my days back in 2009 when I was first elected in my very first year, and we spent hours and hours and hours in the Finance Committee till 4 a.m., 4:30 a.m., depending on the day, while important decisions on the State's finances and its budget were being made in the dead of the night. And that doesn't serve transparency.

"And I really want to give, I think, credit to all the members here, including those that have come before, for stepping forward to try and improve that process. To improve public transparency and do it in the light of day, where each of us not only can see what's in the budget, but also, we invite the public to comment and testify on these measures, just as we do with any bill. I think it's something that is, while a great experiment, is necessary, and I look forward to working with everyone on it. Thank you very much."

Representative San Buenaventura rose to speak in support of the measure, stating:

"I stand also in strong support. I have never served in the Finance Committee, and I strongly support the transparency that this new approach is going to have, that the subject matter witnesses are going to be there and forefront to question the add-ons that the Governor may want on the bills, as well as the department heads. And for those reasons, because it will allow for a more robust discussion, I strongly support HB 2. Thank you."

The motion was put to vote by the Chair and carried, and H.B. No. 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE BUDGET," passed Third Reading by a vote of 49 ayes, with Representative Say voting aye with reservations, and with Representatives Thielen and Tokioka being excused.

At 1:09 o'clock p.m., the Chair noted that the following bill passed Third Reading:

ANNOUNCEMENTS

Representative San Buenaventura: "Thank you, Mr. Speaker. Today is National Wear Red Day, I see not many people were aware of that. But today was designated by the American Heart Association, designated the first Friday in February, which is heart health month, as a day to raise awareness around heart disease and the impacts it has on women in the United States. I think they need to do a better job, frankly.

"But anyway, according to the FDA, heart disease is the number one cause of death in women, in one in four of those deaths nationally. Nearly 90% of cardiac events can be prevented through exercise and a diet low in sodium and trans fats. So, check out the American Heart Association website on heart healthy tips and to know the signs of a heart attack. So, wear red please next time for women's health. Thank you."

Representative Quinlan: "Mr. Speaker, Sunday is a very special day for a lot of us, it's the Super Bowl, but it's made even more special by the fact that it's also Chris Todd's birthday. So, can you join me in wishing Chris Todd a happy birthday? Is he not here?"

ANNOUNCEMENTS

Representative Holt: "Thank you, Mr. Speaker. To my esteemed colleagues, this week is Hawaiian Caucus Week 2019. This year we have reinvigorated the Hawaiian Caucus and I'm proud to say that we have 34 members in our House Chamber as members this year. And our vision is to be engaged, informed and educated on issues that affect our Native Hawaiian community. And although we all may not be Native Hawaiian, these issues affect all of us and we all have Native Hawaiians in our districts that we all represent.

"This week's floor presentations will be conducted in both the Senate and the House Chambers, starting today with our *'ohana*, we honor our *keiki*, our *'ōpio*, our future. Children are raised not only by their parents, but by their grandparents and other relatives. And as the saying goes, it truly takes a village to raise a child.

"Today we share a story about some *'ōpio* and their involvement in the political process on the subject of water management. Tomorrow we will honor a *makua*, a parent, and their strong dedication and commitment to their family and their Native Hawaiian community. On Wednesday, we honor a *kupuna* who believes that we are always learning, no matter how old you are, as long as you learn with *aloha*. On Thursday, we honor one of the largest ethnic groups that came into our islands, who have always created great working relationships with Native Hawaiians. And finally, on Friday, we celebrate the centennial anniversary of one of the largest grassroots organizations in Hawaii and its movement.

"The importance of *'ōlelo* Hawaii to our state is very evident, it is both the indigenous language and an official language as recognized by the Hawaii State Constitution. Further, Act 28 in 2013 designated the month of February as *'ōlelo* Hawaii Month to celebrate and encourage the use of the Hawaiian language.

"The importance of indigenous languages from around the world are being recognized globally. The general assembly of the United Nations recently declared 2019 as the International Year of Indigenous Languages. Its purpose is to draw attention to the critical loss of indigenous languages and the urgent need to preserve, revitalize and promote indigenous languages.

"As part of our festivities on Hawaiian Caucus day this Friday, the Honorable Governor David Ige will sign a proclamation in the Capitol Rotunda declaring 2019 as the International Year of Indigenous Language in Hawaii. Also on Friday, our community will come together and take part in educational displays, speeches and entertainment to share and highlight our Native Hawaiian language and culture.

"I would like to *mahalo pihā* the following. The Governor, David Ige, you, Mr. Speaker, the Senate President, the Office of Hawaiian Affairs, Kamehameha Schools, labor unions, and Ke One o Kākuhihewa, the Oahu Council of the Association of Hawaiian Civic Clubs, for their support in assisting with our Hawaiian Caucus week events. *Mahalo*, Mr. Speaker."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Okimoto rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Okimoto's written remarks are as follows:

"Thank you, Mr. Speaker. In support with strong reservations for House Bill 1315, HD1. I commend the Speaker's initiative to think outside of the box to draft legislation to address our state's housing crisis. However, I strongly believe that amending the Constitution is not the correct path. This body should continue to focus on funding existing state programs which encourage public-private partnerships to develop affordable housing for the residents of Hawaii. Finally, perhaps this body should briefly refrain from pursuing amendments to the Constitution as the electorate voted overwhelmingly in opposition against a Constitutional Convention in November."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition with brief comments. Mr. Speaker, this bill guarantees, through a constitutional amendment, access to housing. Very laudable, very, I mean everybody should have access to food and water and housing and all that, it's very laudable. It, however, may be the first promise that we will not be able to deliver. As you will recall that this body, in a number of years ago, said we should have all access to health care. When the pencils were put to how much it would cost, it knocked us out of the ballpark and it was not passed. So, access to anything as progressive as this has never met the test of, or let's say, has never met muster. And I know we're going to have other progressive things here that are related to education and health care.

"It has to do also with the terminology of access. To be very frank, it's a loosey-goosey term, you can't really tell what it is, it's almost like the ConAm amendment, where because it didn't say where the money was going, it was so vague, that the courts kicked it back and people were confused by it.

"I think that if we look at, really, the housing situation, we are actually short 50,000 houses. And now when you say everybody is going to have access to housing, what about the 7,000 who are homeless? What about the 27,000 Native Hawaiians who actually already have the land in DHHL, but they don't have houses? So, I think what we have in front of us is probably more aspirational, it probably should be a reso, it's warm and fuzzy, but in terms of substantial government engagement of giving everybody housing, it is almost a phenomenally unreachable, unrealistic, but laudable goal. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1315, HD 1, entitled: "A BILL FOR

AN ACT PROPOSING AMENDMENTS TO ARTICLE IX, SECTION 5, OF THE CONSTITUTION OF THE STATE OF HAWAII," passed Second Reading and was referred to the Committee on Judiciary, with Representatives Matsumoto and Okimoto voting aye with reservations, with Representative Ward voting no, and with Representatives Quinlan, Say, Thielen and Tokioka being excused.

Mr. Speaker, this is, to go back to what it was a number of years ago in terms of elected Board of Education, there's probably a good 50% of us who were here who said, yes this is a good thing, let's get the governor, the way it is now so there can be accountability, there can be efficiency. They said nobody knows who their Board of Education is. We have a board that's as big as the, it's statewide, and now we're going back to the old one which everybody in this body condemned as ineffective and unaccountable.

"So, Mr. Speaker, this is a bit of a schizo bill, it's a little bit of like, what do we really mean? Do we have numbers? Do we have data that says we have changed it and it worked, or we changed it and it didn't work? I think we have to get our head straight on this before we vote with sensible objectivity. Thank you, Mr. Speaker."

"Thank you, Mr. Speaker. In strong support. And I was one of those who did not like the idea of having an all appointed board. And I think my concerns have been well established. On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 1359, entitled: "A BILL FOR AN ACT RELATING TO FISCAL BIENNIUM 2019-2021 BUDGET REQUESTS FOR THE DEPARTMENT OF LAND AND NATURAL RESOURCES," passed Second Reading and was referred to the Committee on Finance, with Representatives Nakamura and Thielen being excused.

Representative Takumi, for the Committee on Consumer Protection & Commerce, presented a report (Stand. Com. Rep. No. 59) recommending that H.B. No. 1557, as amended in HD 1, pass Second Reading and be referred to the Committee on Judiciary.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1557, HD 1 pass Second Reading and be referred to the Committee on Judiciary, seconded by Representative Morikawa.

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations, brief comment. Mr. Speaker, this is a foreclosure, a warning to those who keep their house empty for any amount of time. They are fined, and it's kind of a revealing fact as it says in the very first paragraph that, in Hawaii, to do a foreclosure it takes 1,553 days, unbelievable. That's four to five years. It also says if you leave it empty one day, it's \$1,000.

"Mr. Speaker, it's already punitive, when you do a foreclosure, you're probably hurting something economically or some job dislocation. But, I would think we need to rework this, there's a lot of moving parts. So, until we get it really refined, I think we're going a bit extreme in how many people have been taken over or how many of the homeless come in, I know that's a concern. But as to whether this is going to eliminate it, it may just accumulate more fines. So, Mr. Speaker, until we really refine it, I think it's deserving of 'with reservations.' Thank you."

Representative San Buenaventura rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. In my district, there have been a number of zombie foreclosures. And I have found the problem to be hugely disastrous during the lava disaster, because we couldn't even open up those homes for the 800-plus families who were found homeless. A lot of those homes, which could have been made livable for these homeless families, we found that the owners were over in Germany, or they were owned by banks, they were being managed by realtors whose hands were tied.

"We found that these homes were being left vacant because, one, the rentals were either too high or were being purposely left vacant, hopefully with this weird idea that these owners, who are usually out-of-state, think that Hawaii homes are supposed to command these astronomical prices. They obviously did not know about lava zones. So these homes with these inflated prices are not being sold, and because of the unrealistic expectation of their owners, they are being left vacant, so reducing the number of affordable housing in my district as well as increasing squatters, which become a blight in my neighborhood.

"And for those reasons, I believe a high enough fine to force the owners to come to terms with a realistic price of these homes is the only way to go. Thank you very much."

Representative Okimoto rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, may I request a ruling on potential conflict? I serve as a director on a planned community association board and we can initiate foreclosures," and the Chair ruled, "no conflict."

Representative Okimoto continued, stating:

"Mr. Speaker, may this ruling apply for the rest of the session? Thank you," and the Chair "so ordered."

Representative Ward rose to respond, stating:

"Mr. Speaker, second time with reservations. Mr. Speaker, I sympathize with the plight of the lava victims and what is going on in the good Representative from Puna's district. However, this is statewide, this is a state legislature. If it's something that is specific to the Big Island, I think we can say with a population under a certain amount we can say that could be effective. If it's something that because of other ownership you could word it in such a way that it's not so broad or not so punitive.

"And Mr. Speaker, I think the bottom line is, if we are doing foreclosures and this new term, zombie foreclosure, if it takes us 1,500 days, we gotta do a better job as a government to do that. We should be looking or turn this into a study to find out why do we do foreclosures, taking so long, and so much bureaucracy that people would have the gall, if you will, to take over somebody's house, which they shouldn't be doing. But this is a good shot across the bow, but I've got reservations about how we're implementing it statewide. Thank you."

Representative Kong rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. "This bill will only serve to make it harder and more expensive for Hawaii residents to transition from cigarettes, chewing tobacco, and other harmful products to a less harmful nicotine delivery system such as e-liquid."

Representative Ward rose, stating:

"Mr. Speaker, I know that this is not allowable, but I'd love to abstain from this vote. Let me explain it and you can tell me what it is. I know we can't do that. But it's the reason why in the hearing, and we heard a lot of data on this, and we know that 80% of all the young people who are smoking, or 80% of the smokers who are young people have vaped. Clear correlation. Very, very strong. The only thing that we couldn't get in the hearing is--"

Representative Belatti rose to a point of order, stating:

"Point of order. In opposition or in support, Mr. Speaker, for the previous speaker?"

Representative Ward: "I'll go *kanalua*, madam."

At 12:44 o'clock p.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:45 o'clock p.m.

Representative Ward continued to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I rise with reservations, with the hope that someday we can abstain from voting, but that's a different issue. Mr. Speaker, I was trying to bare my heart about the conflict here, because the young people who are smoking, it's not good that they're vaping. And 80% of those who are smoking is young people are coming out of vaping. Therefore, it's a gateway. But a gate goes in and it goes out.

"The problem where I found in the hearing that we were missing, conspicuously in its absence, how many people are the hardcore smokers, who are vaping, who are leaving smoking. It's \$250-some million we lose because of smoking, the cost of smoking is very, very high. So, I want to see what's the net gain or the net loss of those who are going into smoking because of vaping and those who are coming out of smoking.

"Mr. Speaker, we should have metrics, we should have a databased policy legislation rather than, well it smells and it looks like big clouds of smoke coming out of people's cars and mouths. We should have data before we do that. That's why I have reservations, and I hope somebody, somewhere will get the data about how many hardcore people, and I understand there may be one or two in this body that vaped and got off of cigarettes, that's very, very important. For those reasons, I hope the data comes, and those reasons why I have reservations, even I'd love to go *kanalua*."

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1462, HD 1 pass Second Reading and be referred to the Committee on Consumer Protection & Commerce, seconded by Representative Morikawa.

Representative Cachola rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in strong support of this bill. All the members of this House voted, a year or two ago, unanimously without reservation. And it will guarantee us to save over half a billion dollars every year. Strong support with additional written comments, Mr. Speaker. Thank you."

Representative Cachola's written remarks are as follows:

"I am in strong support of House Bill 1462, HD1, Relating to Unfunded Liabilities. Our state faces over \$12 billion in health unfunded liabilities. Act 268 (2013) requires the State and counties to pre-fund Other Post-Employment Benefits (OPEB) annual required contributions to cover the Employer Union Health Benefits Trust Fund (EUTF) unfunded liability. The pre-funding amount is about \$500 million per year for the next 30 years or more.

"As of 2018, the total pre-funded amount is \$2.37 billion. However, paying down the billions of dollars in unfunded liability may require drastic measures such as raising general excise tax (GET) and property taxes; laying-off state and county employees; cutting back benefits for state and county employees; increasing employee contributions; or using a combination of the aforementioned solutions.

"HB 1462, HD1, when enacted into law, could potentially save over \$500 million each year for the next 30 years. These savings may be used to fund much-needed state and county projects and provide a welcomed relief for taxpayers.

"Part I of HB 1462, HD1 also requires a feasibility study to determine the advantages of providing health benefits to state and county employees under a self-insured model. Over 300 businesses and organizations in Hawaii have successfully converted to self-insured from fully-insured. In addition, research has shown that 29 states that converted from a fully-insured health program to self-insured were able to control costs, save money and customize benefits.

"For the above reasons, I respectfully ask that your committee pass House Bill 1462, HD1, Relating to Unfunded Liabilities, to help the State meet its unfunded health care obligations for current public workers, retirees, future retirees and their dependents."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, I stand with mild support, but it's a controversy that I hope will be put to rest after the study is done, because we have to commend the representative who just spoke that he has been a dogged believer in this, and hopefully the study will either confirm or deny what otherwise has been an ongoing discussion for decades. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. "Mr. Speaker, with reservations on 612 and a brief comment if I may, sir. Mr. Speaker, I think the bill is very well worded but there is one thing missing and very conspicuous in its absence. Most of us here watch the Super Bowl. We saw from the aerial helicopter shots as they zeroed in on the stadium, what did we see? We saw the Mercedes-Benz logo. My office found, through research, that there was \$328 million that they gave for 30 years of advertisement.

"Mr. Speaker, I would plead with the authors and this body to do public-private sector exploration, at least, to see if we can leverage money. We may not have a Mercedes-Benz sponsor here, but there are so many other corporations that would love to get their name in front of Aloha Stadium. Hawaiian Airlines, Cutter Ford, you name it, they will come. But I think we should leverage the funds the way that they do on the mainland. Staples, Gillette, there are so many different places that have used that.

"So, I just say as an encouragement to the authors as well as the conference committee that it will probably go to, that naming rights be included as part of this package for the funding, rather than just an appropriation. Thank you, Mr. Speaker."

"Would you please record a no vote for me? I have a brief comment. I'd like to share some thoughts about HB 1326. East Maui *kalo* farmers and East Maui residents who've had the streambeds on their properties are battling corporate interests for their constitutionally protected right to water access for two decades. This body has an opportunity to end the complicit support of these plantation era predatory practices.

"While we talk about improving transparency and accountability in our governance with the budget process, at the same time we witness the wholesale giveaway blank check in explicit subversion of the public trust and our state's constitution by participating in the unconscionable diverting and dumping of over 90 million gallons of water a day without a modicum of stream restoration. *E ola i ka wai*. Water is life. There is enough water for all of our uses. Let us not abdicate our *kuleana* to represent all interests. Thank you, Mr. Speaker."

Representative Yamane rose to speak in support of the measure, stating:

"Mr. Speaker, in support. But members and colleagues, I wanted to note for the bill before you that there were unintentional errors made during the drafting process of the recommendations made in the Water, Land, & Hawaiian Affairs committee that affected HB 1326, HD1.

Also, members, the recommendation of the Chair was to make this bill effective upon July 1, 2019, which was not reflected as well in the bill.

"So, as this measure moves forward through the process, Mr. Speaker, I would like to request the consideration for the next committee to please

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1048 pass Second Reading and be placed on the calendar for Third Reading, seconded by Representative Morikawa.

Representative McDermott rose to speak in opposition to the measure, stating:

"Mr. Speaker, on 811 I'm going to vote no. Some brief comments, sir. It changes the fees and permits and licenses issued under Hawaii Revised Chapters 243, 244D and 245 HRS from specified amounts to reasonable fees established by rule by the Department of Transportation. And those include fuel tax, liquor tax, cigarette and tobacco tax. I could be wrong, but the way I understand it is that we're kind of waiving our responsibility to set these and allow it to be done by rulemaking. And that could be a backdoor way. Particularly, my concern is the fuel tax, representing people in Ewa Beach who have to drive quite a bit to and fro from work that the fuel tax could go up by rule and not public hearings and statute as the way we do it now. So, for those reasons, I'm going vote no. Thank you, sir."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Okimoto rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Okimoto's written remarks are as follows:

"Thank you, Mr. Speaker. In support with reservations for House Bill 1048. The first section of this bill will allow the Department of Taxation to set a reasonable fee for the liquid fuel retail dealer's permit via rulemaking. I am not opposed to allowing the department to reassess a fee which has remained unchanged since 1959. However, I believe that 'reasonable' should be defined to ensure any reassessed fee is not too excessive."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, no vote and request the comments from my colleague from Ewa Beach entered in the Journal as if they were my own, plus a comment that I'd like to make," and the Chair "so ordered." (By reference only.)

Representative Ward continued, stating:

"Thank you. Mr. Speaker, should we trust the civil servants in the departments to tax our constituents? My no vote is based upon, no we shouldn't, because this body is the one that has set it historically and I think we should maintain the amount of fees that we do. Rather than being an end run for cigarette tax, or in this case the gas tax, which the Governor already wants to do with weight and per gallon, giving our authority over to the department is not the best way for governing, if we represent the people and represent their will, because nobody wants any new taxes.

"Particularly regarding, and I get it at home from my wife saying, why did I pay \$420 just to register my car? I said, well, that's because the highway fund was raided and we made some mistakes and now we're trying to compensate for it. And I know we've given the Department of Transportation their own rulemaking to do harbors and airports and their other fees, and I'm not sure that's the best example we want to follow, but this one is after that same bill. And to me it's not a good policy, and for those reasons, I'm voting no. Thank you."

Representative Cabanilla Arakawa rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I have to vote with strong reservations on behalf of the people on the west side, because until the rail is in place whereby we have other options except to drive our car and spend a lot of money on gasoline, this will not be a very good measure for them. Thank you, Mr. Speaker."

Representative Har rose in support of the measure with reservations and asked that the remarks of Representatives McDermott and Cabanilla Arakawa be entered into the Journal as her own, and asked that her written remarks be inserted in the Journal, and the Chair "so ordered." (By reference only.)

Representative Har's written remarks are as follows:

"Mr. Speaker, I rise in support but with some very serious reservations to Stand. Com. Rep. No. 811, HB 1048, Relating to Department of Taxation Fees. While I strongly support the portions of the bill that would allow DOTAX to raise fees for permits and licenses via chapter 91 administrative rulemaking for liquor and tobacco, I am in opposition to the section of the bill that allows for an increase of the fuel tax by administrative rulemaking.

"Mr. Speaker, section 1 of the bill, which covers HRS section 243, the fuel tax, proposes to allow the DOTAX to adopt by rule pursuant to chapter 91 a 'reasonable fee to be charged for each permit or renewal thereof.' Mr. Speaker, the term 'reasonable fee' is a broad one. Moreover, it is completely subjective. While the average resident may consider a 'reasonable fee' to be \$10, DOTAX could define it as \$400 or even \$4,000. This is a serious flaw in the bill for which I am opposed.

"Mr. Speaker, I am also in opposition to section 1 of this bill because of the fact that increasing the fees for permits of retail gas stores could potentially lead to an increase in the fuel tax. The residents of West Oahu are stuck in traffic daily spending hours in their commute. These residents moved out to West Oahu because the cost of owning a home was too expensive in town. So, in order to live the American dream of homeownership, they find themselves dealing with grueling traffic gridlock. Any potential increase in the fuel tax would undoubtedly hurt our residents because of the time and money they spend in their cars and in traffic. As a resident of Kapolei myself, I empathize with the people who need to commute on a regular basis from the west side to town, and who need to travel long distances. Our residents in West Oahu should not be penalized via an increase in the gas tax for living on the west side. This bill has the potential to do just that, which is why I have serious reservations.

"For these reasons, Mr. Speaker, I stand in support but with reservations on HSCR 811, HB 1048."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1048, entitled: "A BILL FOR AN ACT RELATING TO DEPARTMENT OF TAXATION FEES," passed Second Reading and was placed on the calendar for Third Reading, with Representatives Cabanilla Arakawa, Har, Matsumoto and Okimoto voting aye with reservations, with Representatives McDermott and Ward voting no, and with Representatives Mizuno, Nakamura and Onishi being excused.

"Reservations, brief comment, Mr. Speaker. May I have the comments of the good Representative from Puna entered as my own, because it says two things, Mr. Speaker. We're not going to make bookkeepers out of these rugged individuals, but this bill calls to make bookkeepers out of those people. You know FICA, FUTA, SUTA and all of those things are really complicated. Even self-employed partners or sole proprietors have a difficult time with some of these things.

"So, to say that an owner-builder is going to do that, I think is a misconception of who these rugged individuals are. Particularly if you've been inundated by lava and you're short on money and you've got to do bookkeeping of which you know nothing about. I think this is a misconceived bill. Thank you."

"Mr. Speaker, I rise in strong support to HB 305, HD1, Relating to Crosswalks. I want to thank Department of Transportation for their support as reflected in their testimony. With record number of traffic fatalities over the past few years, this bill will work to facilitate pedestrian safety through awareness that is actively created with community partners participating in a pilot program. This program designates community crosswalks within the Waipahu school complex.

"This measure was initiated as I participated in several awareness campaigns with student-led organizations from the high school, intermediate, and elementary schools within Waipahu complex, and from there an idea sparked for safety and pride.

"Knowing that pedestrian safety is of utmost importance, especially around our schools where our future generations develop and learn, the hope is that this measure will showcase a neighborhood or school's uniqueness and history with its design, while increasing safety and pride through awareness, education and community participation.

Representative Thielen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'm rising in support of Standing Committee Report No. 842, which is the bill Relating to Hemp, and if I may say a few words. Mr. Speaker, we have a large number of new members in the House that may not be aware of our decades of work to bring back hemp to the agricultural fields of Hawaii.

"For a long period of time, hemp was miscategorized by the federal government as a controlled substance, a drug. This is an agricultural crop, Mr. Speaker, with 25,000 uses, none of which could get you high. Congress finally corrected that in December and the bill was signed into law. Hemp is no longer under the Controlled Substances Act. It's a farm crop, available for farmers throughout America.

"Our bill recognizes this, and I applaud the members of the Agriculture Committee, I applaud the members of Judiciary Committee and their chairs, and I applaud the members of Finance. Our bill recognizes this, and it directs the state Department of Agriculture to submit the state plan to the United States Department of Agriculture as is required under the federal law. And this also will allow farmers to utilize hemp genetics and be able to use seed back and forth across the nation. And it changes the mistaken and racist word, 'marijuana,' and replaces it with correct scientific term, 'hemp.'

"And then the bill requires reports to us, and that part is important, Mr. Speaker, because unfortunately the fifth floor has been very tepid in moving ahead with this agricultural crop. And the state Department of Agriculture has been even less than tepid moving ahead. They're now telling farmers that call in from the Big Island, that call in and say they want to apply for a hemp permit to grow this legal crop, and they're saying, don't bother, we're too busy, we're not going to deal with your permit application, we're not going to issue anymore this year. That's what they're saying.

"Well, we set the policy, and our policy has been strong right across the board. We want hemp available for farmers. With a recent boom in CBD oil, farmers are making an immense amount of money per acre because of the wonderful properties in the hemp CBD oil. Our farmers have been prohibited from moving ahead by the state Department of Agriculture that's been poorly managed and doesn't care about the hemp program.

"So, our policy is strong, it's saying it's a legal crop we want our farmers to be able to grow. Because of the CBD oil from hemp, the different companies that make forecasts, the responsible companies that make forecasts, are talking about it being a \$2 billion, \$2 billion crop by the year 2022. Nationwide, other departments of agriculture get the picture, and they're moving ahead and their farmers have thousands and thousands of acres under cultivation. They're moving ahead very well. Kentucky, California, Colorado, I think North Dakota is up there too. Hawaii, you can count the amount of acres planted in hemp now in inches. We're under an acre, and nothing is even growing right now. And you get your farmer from the Big Island to call the state Department of Agriculture, the hemp project manager will say, don't bother, I'm busy, don't put in an application for a permit.

"So, I really applaud members for the strength of this bill. We're going to get one from the Senate, it's not the one that should move into law, I can say that loud and clearly because it just goes back and says, okay Department of Agriculture, do what you want to do. We set the policy and our policy is strong. and pretty soon we're going to have hemp Aloha Friday, Mr. Speaker. Thank you."

Representative Cabanilla Arakawa rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. Before I proceed, I would like to recognize the perseverance of my colleague across the aisle, the Representative from Kailua, for her perseverance for over a decade in trying to educate us members about the economic propensity of this measure, hemp. It's about time that we recognize that hemp is an economic driver for our state, and that I'm really happy that it now became a bi-partisan effort to promote hemp and I'm very proud of this Chamber for attaining such.

"Now, my statement about hemp, Mr. Speaker, is that I said it's an economic driver. In 2014 I was not a member of this body and I was looking for things to do. So, I researched the advantages of CBD oil over cannabis and I found out that the price of cannabis was between 18 to 22k per kilo, but for CBD it was 24k, and it was a lot of profit going to that business because it sold in micrograms. So, I think that we are behind time, we are way behind time, in getting to this agricultural product. And we have been trying to promote agriculture in this Chamber and finally the time has come for us to go back to the state that we were loved for, for the scenery that we had, that we promote to our tourism, and that is to see an island that is truly an island and not a parking lot for traffic and a place for a lot of tract homes.

"So, I'm really proud of my colleague from Kailua for her perseverance, and I thank her very much for trying to put this Chamber forward. There are a lot of research on what hemp could do, one of which I'm very interested with and I don't know how it works, but it's said that would be a battery for all the Tesla automobiles that people are so crazy about. So, there is more to know, there is more that hemp can go forward, and I beg my fellow members here to go forth on something that we can bring our state forward. Thank you, Mr. Speaker."

Representative Creagan rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in strong support. I want the words of the Representative from Kailua recorded as my own. Thank you," and the Chair "so ordered." (By reference only.)

Representative Har rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. Sadly, in opposition. Just brief comments. First and foremost, I want to recognize the comments made by both the speaker from Kailua as well as from Ewa Beach, and I appreciate their passion. And you know, sadly, I actually wish I could have voted up on this bill, I wanted to support the bill. Unfortunately, when I looked at the testimony of the Department of Agriculture and I read bill, that's where my concerns stem from and unfortunately why I'm forced to vote no.

"Essentially what the bill does is it changes the definition of marijuana to exclude hemp, and by doing so it's actually confusing and unnecessary. Under the bill language definition, viable cannabis seeds which could produce high THC plants could qualify as hemp simply by being a seed. Hemp is already distinguished from marijuana by definition. So what we're doing right now is making it more confusing, and I think what we're doing is we're creating a whole nother set under the definition of marijuana, in trying to extract marijuana, I should say. I don't think that was the intent, but that's how the bill stands now. As we know, the devil is always in the details, and unfortunately because of this fact, regrettably, I have to be voting no on this bill at this point. Thank you."

Representative Mizuno rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I'd like to thank the good Representative from Kailua. I actually believe that she has been advocating for the safe use of hemp for over two decades, as well as the introducer of this measure, the good Representative from the Big Island. And could I please have the words of the Representative from Kailua placed into the Journal as if they were my own. Thank you, Mr. Speaker," and the Chair "so ordered." (By reference only.)

Representative Cachola rose to speak in support of the measure, stating:

"Mr. Speaker, I'm speaking in strong support of this measure, assistance to the Filipino veterans living here. The passage of this bill is long overdue. If you look at the amount of money that we will be spending, it's practically a wash, because Filipino veterans are allowed to be buried in any state or federal cemetery at no cost. So, if they're going to be buried in the Philippines, the cost here is not going to be spent, it's practically the same thing, and that the saving here will be used to more or less ship the body and be buried in the Philippines.

"With that, strong support, Mr. Speaker, I have other written remarks and I'm requesting that it be entered in the Journal. Thank you, Mr. Speaker."

Representative Cachola's written remarks are as follows:

"Mr. Speaker, I rise to speak in support of House Bill 378, HD 1, Relating to Filipino Veterans Burial Assistance.

"More than 250,000 Filipinos fought side-by-side with American soldiers during World War II but sadly, many were never duly recognized or compensated for their heroism. Father Time has since caught up with these veterans who are now in the twilight years of life and the time to honor them is running out.

"House Bill 378, HD 1 establishes a stable and dedicated funding source for repatriation and burial costs for Filipino-American World War II veterans by appropriating funds to the state Office of Veterans Services for the provision of burial grants for Filipino-American World War II veterans. Furthermore, any funds appropriated and unencumbered shall not lapse to the credit of the general fund but shall remain available.

"The remaining Filipino veterans of World War II in Hawaii are now in their early to mid-90s. They have been provided with burial benefits at national and state veterans' cemeteries at no cost, but many have expressed a desire for their remains to be returned to their homeland.

"Accordingly, the Legislature provided for burial grants to be given to qualifying Filipino veterans to assist with the return of their remains to their homeland for burial. Providing burial grants to qualified Filipino veterans to return their remains to the Philippines will allow the State to accommodate many other veterans who are eligible to be buried at a federal or state cemetery at no cost. Furthermore, the costs of transporting the remains and the opening and closing services in the Philippines is generally offset by the savings associated with the costs of a cemetery plot and the opening and closing services in Hawaii.

"As I stated earlier, these aged but gallant soldiers fought decades ago as young men alongside their U.S. counterparts in a bloody war against aggression. Since time is quickly running out, I respectfully ask my colleagues to pass House Bill 378, HD 1 out on third reading, which is an important step in paying the long overdue tribute owed by our country to these Filipino-American veterans."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 378, HD 1, entitled: "A BILL FOR AN ACT RELATING TO FILIPINO VETERANS BURIAL ASSISTANCE," passed Third Reading by a vote of 50 ayes, with Representative DeCoite being excused.

"Mr. Speaker, I'd like to explain my no vote on 868. Mr. Speaker, there are some things that are transpiring that are going to potentially allow school lands to be used for purposes other than schools. I think that's a very slippery slope, I don't like to see us do that.

"There was another bill that would actually extend the lease term to 99 years, which fortunately did not move ahead, it may be moving ahead on the Senate side. But, what it's going to allow is private developers to come in and develop land adjacent to our schools.

"When we set our schools up, we many times have located them near public parks and other areas like that where they can have some more expansive property around them.

"You may remember when we fought against the development on McKinley High School, at one point that was going to be developed with high rise towers, and that was when now U.S. Senator Mazie Hirono was in our body and was chairing, I think, the consumer protection committee. And she joined with the rest of us in being able to kibosh that idea, and McKinley retains its lands that can be used for athletic purposes and other purposes.

"I am concerned about this because once you get developers involved and they see this vacant land by our schools, we may regret what they ultimately are allowed to put up on it. Thank you."

"Mr. Speaker, thank you for allowing me to share some of my thoughts on this measure. I stand with strong reservations on this proposal. Bills of this nature clearly gives advantage to bigger firms which relies on interstate and global business to the detriment of the smaller local accountants and local consumers.

"It is important to note that currently, with our temporary licensing feature for out-of-state CPAs, these individuals can practice in Hawaii, and unfettered practice privileges, as this bill proposes, is not necessary.

"HB 1109, which gives practice privileges to out-of-state individuals and firms, only gives the advantage to those who want to take away local jobs and not contribute in any way to our state economy or community. This bill allows out-of-state accountants to work in Hawaii without any notice or paying fees or, for that matter, taxes to our state.

"On a personal note, Mr. Speaker, as a father I know having my children remain in Hawaii is a great challenge. Any policy that would give away local jobs and favor out-of-state businesses is a not a good idea, and bills like this will only perpetuate the continuing 'brain drain' and eventually, if not already, hurt our state.

"I stand with strong reservations on this measure. Thank you."

"Mr. Speaker, I rise with reservations on HB 1109, HD1, Relating to Public Accountancy.

"First, I'd like to point to the testimony on the bill, which is mostly opposed. In fact, some of those who testified in opposition are my constituents. Also, the state Board of Public Accountancy recently voted to oppose this bill.

"A lot of the concern was over the effect it would have on the State's ability to provide oversight and with the ways Hawaii-based businesses would be further disadvantaged. On that latter point, I think it's important for us to remember that one of the reasons it's so expensive to operate a business here is the cost of renting space to work out of. The only way that our businesses can address that issue is to move out. For the first time since statehood, we've experienced two consecutive years of population loss, including an increase in net migration out of the state. I don't think furthering that trend is or should be one of our priorities.

"I appreciate that it looks like an attempt to address some of the concerns was made. But it's clear that a lot of people still aren't satisfied with the current version of this bill. Perhaps with more work, they could be.

"For those reasons, I vote with reservations. Thank you, Mr. Speaker."

"Mr. Speaker, strong support, brief comment. Mr. Speaker, this bill, which I commend the authors for, finally puts a comprehensive security plan into motion. Not that we are fearful, but we should be not naïve, Mr. Speaker. Not too many days or weeks ago we were all in this Chamber at the state of the state. Every leader in the State of Hawaii, exempting a few, were here. Imagine an SUV, weaponized, going past the Damien statue, right through this glass and into this Chamber. Ditto the same vulnerability of the other. Or as some of my expert constituents have said, just park underneath and you can just blow it up.

"Not that we should be fearful, but we should be wise, Mr. Speaker. This bill does that. And I think it's time we update ourselves. There's a lot of, not because of what happened last week with the open container and the unfortunate individual death, but that we should be mindful that there are a lot of incidences that we are not prepared for. Anybody can get anywhere into the building anytime, except after six o'clock unless they have at least some key or fingerprint. But even up to Governor's Office, Mr. Speaker, we have no identification, either by person or by car. So this is a great step forward.

"And people say, oh, we are the people's house. Yes, we are people's house, but it's our behavior that makes us open. How we answer the phone, how we deal with constituents, how we comport ourselves in public, that's the *aloha*, that's the openness of the building, not the way that we shutter and lock ourselves down, Mr. Speaker.

"So, this is a great bill, it's long overdue, and I hope it leaves some room for flexibility, but it does something that's very wise of which many, many other state legislatures are already up to speed doing. Thank you, Mr. Speaker."

"So, if you tell the truth, and say you 'snapped' because the tongue that was in your mouth was a man's and not a woman's, well that is not acceptable. You should enjoy both equally! You are not allowed to prefer one over the other... so says the thought police.

Representative McDermott rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, no vote and a comment, if I may. Mr. Speaker, this is the first step to legalization of marijuana. It's what I see is probably inevitable through the prophetic voice of one Marcus Oshiro who said on this floor, after we did the dispensaries, he said, wait three to five years we'll do decrim and then decrim will go into legalization. Mr. Speaker, I hate to see we are fulfilling his prophetic words or his prognosis, but the evidence suggests that it is a gateway drug. Of 15 different states that had decrim, eight actually went legal directly. That is pretty good evidence that this is really going to be the slippery slope for what it could do.

"The second point that I want to make is that it increases the use, Mr. Speaker, of those who are partakers. These are studies that have indicated those who are smoking are going to increase it, and from their increasing causes number three, more accidents, more, I think the heaviest statistic is the suicide rate that increases, particularly for teenagers who are regular

users. They have seven times more chance of committing suicide, 60% likely not to graduate from high school.

"Mr. Speaker, the bottom line of decriminalizing is that we are opening a door to a lethargy for our youth and for the formation of the cortex in the brain, and for what otherwise is a sapping of a competitive life force, if you will, because everybody probably in this Chamber has tried it, and you kick back and you just float around, and that's not something that we need enough of, or more of, because we have opioids and all kinds of things that are going on now.

"So, Mr. Speaker, this is, I know it's second reading, but this is really the slippery slope that the other states show that half of them that do this one go directly then for legalization. So, in view of what Representative Marcus Oshiro said, we're right on time. Set up the dispensaries and then three to five years you do the decrim and then legalization or one or the other. So, Mr. Speaker, let us not be naïve, we know what this is all about. And for those reasons, I'm a no. Thank you."

Representative Har rose to speak in opposition to the measure, stating:

"No vote, and I'd just like to rebut some of the comments, just one comment made by the Minority Leader. I will leave you with this, decriminalization is de facto legalization. Thank you, Mr. Speaker."

Representative Kong rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative McDermott rose to speak in opposition to the measure, stating:

"Mr. Speaker, I'm going to cast a no vote on this, and just brief comments. It seems to me that we're abdicating our ability to control fees for the fuel tax. I'm not so concerned about cigarettes and alcohol, but for the folks who live in Ewa Beach and have to drive very far, any increase in fees related to a fuel tax which, we're giving them the flexibility, I don't think they're going to decrease the fees, so obviously they'll go up, that would impact their pocketbooks and concern me greatly, so for that reason I'm a no vote."

Representative Cabanilla Arakawa rose in opposition to the measure and asked that the remarks of Representative McDermott be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Luke rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I just wanted to clarify that HRS Section 243-3, which deals with the fuel section, is actually not the fuel tax, this is to allow the Department of Taxation to allow them to sell permits for the gas dealers. So, it's actually not the fuel tax, it's every retailer and distributor of fuel needs to have a taxation permit, which is right now at \$5. So, this is for Department of Taxation, not Transportation, to sell the \$5 permits at a higher amount or a lower amount as they deem. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, no vote, brief rebuttal. A rose by any other name, if I may say. It's another way of getting to the gas tax, which businesses always pass on to the consumer. Which right now is \$5, who said it couldn't go to \$50 or \$100? And I know, the point is, we are enabling taxation by people who are unelected. We are the power, we are the policymaking branch, as my colleague from Kailua stated very clearly. We are the ones who set policy. This is a secondment of that policy to people who otherwise have no concern for those who are paying their bills, because they don't need to get reelected. In fact, most of them in the government are tenured and will be impossible to be removed.

"So, my point is the procedure, the due process, if you will, taxation should come out of this body or the Senate, not out of people who are unelected. For those reasons, I am a no. Thank you."

Representative Okimoto rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Okimoto's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in opposition to House Bill 1048. The first section of this bill will allow the Department of Taxation to set a reasonable fee for the liquid fuel retail dealer's permit via rulemaking. I am not opposed to allowing the department to reassess a fee which has remained unchanged since 1959. However, I believe that 'reasonable' should be defined to ensure any reassessed fee is not too excessive. Furthermore, the department, in its testimony, fails to indicate what a reasonable fee could be. Thus, it is possible that a reasonable fee for Oahu could be excessive for gas station owners on neighbor islands such as Molokai and Lanai. For these reasons, Mr. Speaker, I am strongly opposed to this bill."

The motion was put to vote by the Chair and carried, and H.B. No. 1048, entitled: "A BILL FOR AN ACT RELATING TO DEPARTMENT OF TAXATION FEES," passed Third Reading by a vote of 45 ayes to 5 noes, with Representatives Cabanilla Arakawa, Matsumoto, McDermott, Okimoto and Ward voting no, and with Representative DeCoite being excused.

"Mr. Speaker, I stand in opposition to this bill because I believe that it's essential to preserve the traditional and historic custom of walk-in voting on Election Day. Many people across this state take pride in the fact that they go to their local school or city hall, on Election Day, to make their voice heard. Although supporters of vote-by-mail emphasize its apparent convenience for voters, there have been concerns raised about relying on the U.S. Postal Service. Here in Hawaii, we already provide various methods of voting, and it's imperative that we always give people the choice, to vote how they would like to vote. *Mahalo.*"

Representative Lee rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Lee's written remarks are as follows:

"Empowering members of the public to vote has long been a democratic virtue. This measure begins with extending the time of polling places from 6:00 p.m. to 7:00 p.m. to offer more flexibility and accessibility to voters. It then establishes a vote-by-mail system in Hawaii; these two changes would go a long way toward accomplishing our goal of empowering voters and encouraging voter engagement. By providing eligible members of the public the option to vote from the comfort and privacy of their own home, those who would otherwise not have an opportunity to physically visit a polling place due to schedule, accessibility, or otherwise are still afforded a way to make their voice heard. Voting at home puts voters' needs and convenience first by letting voters decide when, how, and where they vote.

"States have seen significant increases in voter turnout after implementing election-by-mail. For example, in 2016, 21 of 29 counties in Utah conducted the general election by mail. A study on turnout statistics using vote propensity scores to control for voters' pre-existing differences showed that voter turnout in vote-by-mail counties increased by five to seven percentage points. A 2013 study in Washington State also showed an increase in voter participation by two to four percentage points. In addition, states that have adopted a vote-by-mail system experience higher voter turnout specifically amongst younger, older, poorer, and minority voters. A vote-by-mail system in Hawaii would be a crucial step toward increasing voter turnout and empowering voters."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1248, HD 1, entitled: "A BILL FOR AN ACT RELATING TO ELECTIONS," passed Third Reading by a vote of 47 ayes to 3 noes, with Representatives Matsumoto, Okimoto and Ward voting no, and with Representative DeCoite being excused.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, opposition. I stood here on Opening Day and I said, if the minimum wage is reasonable, I will vote for it. This one goes above and beyond what's reasonable. And I know we have another bill that's going to talk about the actual amount. This one goes outside the purview of being a State of Hawaii. It's kind of a balkanization bill, if you remember how Yugoslavia broke into pieces because everybody said, me first, me too, we're subsidizing you, Slovenia, or Slovenia is subsidizing Croatia and Macedonia and all the other parts of the country. So, they broke up.

"Having a minimum wage compete county to county I think is a bit of foolishness. We pride ourselves on being the first centralized DOE, everybody is equal and everybody gets treated equal. To give the different counties this minimum wage differential, do you want them to compete? And I know we have a TAT that's going to do that same balkanization.

"So, Mr. Speaker, I don't see the logic, so much as maybe trying to get a little bit of a competitive edge, which from an entrepreneurial point of view may be good. But from the point of view of having an inconsistency, I think you should leave it to the private sector, not a public issue. If employers on the Big Island want to charge or pay more for their employees, or Kauai, let them do it. But to have this in statute I think is going above and beyond, of which I don't think any other state has done such a thing. For those reasons, Mr. Speaker, a no vote. Thank you."

Representative Johanson rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Just as a quick clarification, there are multiple states who have jurisdictions who all have different minimum wages. This is also a home rule issue and might permit our counties to be able to do what is in their best interest. So just as a point of clarification to the members, we would not be the first state that allowed counties to enact a higher minimum wage based on jurisdiction. Thank you."

Representative Todd rose to speak in support of the measure, stating:

"Just in strong support. I just wanted to briefly point out that the median home price in Honolulu is roughly three times East Hawaii. So, this sort of discretion may be appropriate."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 96, HD 1, entitled: "A BILL FOR AN ACT RELATING TO MINIMUM WAGE," passed Third Reading by a vote of 49 ayes to 1 no, with Representatives Har, Kong, Matsumoto, Okimoto, Say and Tokioka voting aye with reservations, with Representative Ward voting no, and with Representative DeCoite being excused.

"Mr. Speaker, in opposition, please. Thank you, Mr. Speaker. In fact, commenting on being ahead, we have 220 bills, which generally we do at crossover, it's a bit of a quick study, if you will, on an agenda of some 40 pages, which we usually do on an all-day on Monday caucus.

"Being that is the case, on 990, we have basically state employees paying a percentage for 0.01 of their gross salary to do training. Mr. Speaker, I know there are some progressives in this body who would say we should get free tuition at the university, and to say now we should be paying, our public employees should be paying to get training, just doesn't make any sense. So, if this is a revenue enhancement issue, I think it's barking up the wrong tree. Thank you."

Representative Tokioka rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Kong rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations and a brief comment, please. Mr. Speaker, this minimum wage bill may affect those that I actually try to help the most, or I used to try to help the most. As a small businessman, at \$15 an hour I really try to help the students of my community. At \$15 an hour, they may no longer be able to have the experience of getting a job and being hired because, as you know, I used to own a florist and I would bring them in and be trained to get that job experience. As you may well know that people actually used to pay me to learn how to do *ikebana* arrangements. But now the tables will be turned where I would actually have to pay them at \$15 an hour, and I would get second thoughts in doing so.

"So, that would actually make it much more difficult for them to be employed. And that's just one career field, so that would be giving, I'm not sure how many other career fields would be affected for our students.

"But I don't want to digress too much on that subject, but the reason why I'm going with reservations is it's not necessarily the minimum wage that I'm standing up against, it's the fact that we need to increase the living wage in the state and not necessarily the minimum wage. So, how do we go addressing the living wage? And it's not by mandating the minimum wage. We need to send a message to the businesses of this community and help them understand that we understand business. By increasing the minimum wage, we have to let businesses know that we understand them, that on the back end, if we increase minimum wage, that ties into the workman's comp, TDI, and that on the back end of business, that will increase the insurance.

"So, by getting this message out to businesses that we understand how they do business, that's going to let them understand that they can actually look at their bottom line to look at how they can help their employees by increasing their living wage. We have to send a message that people like our chair in IAC is looking at reducing fees in construction, realty, cable, and that this is a message this legislative body needs to send to the business community. That we're looking to cut costs to businesses. This is how we as a body look to help businesses grow the economy.

"We're last in doing business in the nation. We need to send a message to businesses that we can number one in doing business in this nation. This is how we help the economy, we help businesses grow, so instead of mandating things like minimum wage we can help businesses grow and this is a place to do business instead. So, if we can get this message out, we can actually help our communities, our businesses, our employees actually gain the right wages that they need to have. Thank you, Mr. Speaker."

Representative Matsumoto rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Matsumoto's written remarks are as follows:

"Mr. Speaker, I rise with strong reservations.

"As a member of the House Committee on Labor & Public Employment, I had the opportunity to hear arguments in support and in opposition of this measure. Increasing the minimum wage is a topic that generates robust and passionate discussion. In balancing the potential positive and negative effects of this bill, Mr. Speaker, I am still not convinced that increasing the minimum wage is the solution to combating cost of living.

"Mr. Speaker, have we explored every option?"

"While I sympathize with the plight of minimum wage earners, I have been working on ways to reduce our cost of living. For example, I introduced House Bill 1592 to eliminate the general excise tax from food, medical services, and feminine hygiene products. Nonprofits who serve our vulnerable community members emphasize that feminine hygiene products are among the items 32 states plus the District of Columbia exempt groceries from their sales taxes. Forty-one states generally exclude medical services from their sales taxes. It's been time for Hawaii to join this majority. This is one step we can take as a state to mitigate the cost of living. The people of Hawaii should not be taxed for a basic necessity.

"In thinking of ways we can be more effective as a government, I introduced House Bill 1593 in order for us to have a better understanding of how taxpayers' monies are being spent. We can use the data to tighten up where we need to as opposed to spending our way out of a problem. I also introduced House Bill 1591 to reduce our income tax burden.

"In making decisions as a body, we need to think of creating a sustainable future for our *keiki* as well as our *kūpuna* and neighbors who are on a fixed income. Unintended consequences of raising the minimum wage include the increase in the price of goods and services. How will our *kūpuna* afford another expense?

"For many businesses, a mandated increase in wages will mean a decrease in the money that employers are able to spend on health benefits, sick leave, vacation time, and other benefits to the employee. Due to the high tax rates, increasing the minimum wage will certainly increase costs to the employer, but employees will only see a marginal increase in their pay.

"Due to the unreasonably high costs of housing, transportation, food, and medical services in our state, increasing the minimum wage is not an effective way to offset the financial burden for our state. Raising the minimum wage is a bandage type of fix for a much bigger systemic issue of a lack of resources and an increasing demand. Simply increasing wages may actually cause the cost of living to increase even more, as more funds will be needed to offset the new burden on the employers. This issue becomes cyclical and the people most hurt will be the middle class workers in the minimum wage jobs.

"Mr. Speaker, for these reasons, I have strong reservations on this measure. Thank you, Mr. Speaker."

Representative Cabanilla Arakawa rose to disclose a potential conflict of interest, stating:

"Ruling on a potential conflict. I am an employer."

The Chair addressed Representative Cabanilla Arakawa, stating:

"There's no conflict. It will remain in effect through *sine die*."

Representative Cabanilla Arakawa continued to speak in opposition to the measure, stating:

"Thank you. In opposition, Mr. Speaker. I understand that we want to take care of our people. We want to raise the minimum wage, we want to raise the living wage. However, there is a portion of this bill that it does not address.

"As an employer and owner of medical facilities, I have to deal with sequestration from the Federal Government, meaning they keep lowering the fees and adding additional taxes to it, but they call it sequestration. And insurance companies there's something called capitation, where you cannot bill anybody any higher than that, and other sorts of fee limitation with Quest insurances. So, I'm in opposition of this because we're just looking at the workers, how about the employers that has to deal with those fees and being caught in between? So, those are my reasons, Mr. Speaker."

Representative Perruso rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker, I stand in strong support. According to a 2016 report from DBEDT, a single adult in Hawaii required an income of \$32,950 to achieve self-sufficiency, while a single parent with only one child required \$56,157. Yet at our current statewide minimum wage rate at \$10.10 an hour, the full-time employee earns only \$21,000 annually. According to census bureau data, the number of people living below the poverty level in my district is 25% higher than the state average. For their sake and for the well-being of all working families in our state, I strongly support this measure's effort to provide economic justice to those who need it most."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. On Opening Day, Mr. Speaker, I stood here and said, if there is a reasonable increase, I will definitely support it. I have

six reasons why this is not reasonable, Mr. Speaker. May I proceed? Number one, it's a job killer. Employers know that they can cut back employees or they can cut back hours. I mean, that happens all the time, so this is just an invitation to do that.

"The second reason is that it's going to increase the cost of living because, as you know, employers pass on expenses to the customers. Therefore, the price of goods go up, the cost of living goes up, and, as you know Mr. Speaker, we have the highest cost of living next to New York or San Francisco in the nation.

"So, a job killer, a cost of living increaser, and thirdly, an AI incentivizer. AI, artificial intelligence, you know and I know that mechanization, computers are taking over where we humans are no longer going to be necessary. Some restaurants have totally, like McDonalds in Arizona, have totally become a mechanized phenomenon. If we push employers out, and I think the unions are aware of this, if we keep pushing for the wages that squeeze employers from the human side to the mechanical and the metal and computer side, we will in the end lose.

"Fourthly, market forces are already actively doing that. There's a lot of places that are fast foods paying \$12, \$13, \$14 an hour just to compete or pinch employees from other companies. So, letting the market do this is actually doing a good job already and doing that now.

"Fifthly, and this is according to some of the restaurateurs who told me that, if you guys push it too far, we're going to increase the already underground, under the table payments. Hey, you work for me for ten bucks an hour, I won't take any taxes out, you don't have to report anything, and we get a black market underground economy. That, Mr. Speaker, is not wise.

"And sixthly and lastly and probably more statistically accurate, over the past 10 years there has been in the State of Hawaii an average 29 cents per year increase in the minimum wage. Over the last 20 years in the State of Hawaii, it's been about 25 cents increase. From the national point of view, it's been 0 and 11 cents in the last 20 years, so we're way, way ahead of the federal. But the point is, if we go from 29 cents a year over the last 10 years to now \$1 a year, we're pumping it up four times the average over the last 20 years.

"Is that reasonable, Mr. Speaker? What happened? What has magnified four times in the last 10 years that we should increase it so fast? So unreasonable. Again, I repeat, it was 29 cents a year for the last 10 years, 25 cents a year for the past 20 years. This is exceeding and going well beyond that.

"The bottom line is, Mr. Speaker, in the short run there may be a gain but in the long run I think we're really hurting the employees of this state, and as our good colleague has said, we need to help the small businesses and their employees. Thank you, Mr. Speaker."

Representative Wildberger rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I would like entered into the record the words of my esteemed colleague from Wahiawa as my own and I would like to speak out as a small employer who already pays a \$15 minimum wage that we need a minimum wage bill and I strongly support this bill. Thank you," and the Chair "so ordered." (By reference only.)

Representative Okimoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition and a brief comment of this is the same balkanization of the counties for competing that hotels may be on one island may be a higher taxation to our visitors and lesser on another one. And it goes contrary to want to spread the wealth around between getting visitors on the neighbor islands, whose economies may not be as strong as Oahu. So, this gives a chance for again, competitively, entrepreneurly, but in terms of actual consistency of taxation, not probably a very good policy. May I have additional comments inserted into the Journal, please? Thank you."

Representative Ward's written remarks are as follows:

"Mr. Speaker, I stand in opposition to this bill, because I don't want to see a taxation domino effect fall upon our already unaffordable living situation here in Hawaii. This body, two years ago allowed a 1% surcharge on the TAT tax to go to the rail, and now we are going to open the possibilities to more surcharge taxes? Enough with the taxes! There will always be a need, departments and counties will always need more money, but that doesn't mean we go out and tax the public to fill the void, how about we start being good stewards of what we already collect?"

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 631, HD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," passed Third Reading by a vote of 48 ayes to 2 noes, with Representative Okimoto voting aye with reservations, with Representatives McDermott and Ward voting no, and with Representative DeCoite being excused.

And for the sake of, again, I point out there is big differential of about 30% between the Majority Research Office and the Minority Research Office, and this is going to hide it and make parity a much more difficult proposition. Thank you, Mr. Speaker."

Representative Ward's written remarks are as follows:

"Mr. Speaker, we need to understand that we work for the people of this state; we serve at their pleasure. Any time taxpayer money is being used, they have a direct right to see where their money is going and how much is being spent. We should be passing laws that make government more transparent, not less. Let me also mention the fact that the research staff on the majority side receive 30% more in salary than the research staff on the minority side. This bill will cloud the disparity between majority and minority staff even further. For these reasons, Mr. Speaker, I oppose this bill. *Mahalo.*"

"Mr. Speaker, once more if it's possible just to go with reservations and to maybe someday ask the chair of LMG to give us a break down of what the A funds are for TAX105 and TAX107. And the only reason why is the process of how we are developing this budget. That's all. Because right now it's blank. Do we have any appropriations for these particular positions that are presently filled and their operating budget as far as overall? So, just for Stand. Com. Report 1015 and 1016, because it's just A funds and B funds, and there's no number attached to it. Thank you."

Representative Thielen rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I would like to speak with reservations, please. Mr. Speaker, this is relating to the Department of Agriculture's operating budget. And while hemp may not be specifically within that budget, the department itself has the overall responsibility for it, and they are doing a very, very poor job. I find it hard to vote in favor of a budget for an ineffective department.

"Under their mismanagement of the hemp program, there are only 10 approved licensees, and they will not consider any new applications for the following quarter. Unfortunately, a farmer from the Big Island named Mr. Wirick, who is part of a group called Hawaii Island Hemp Collective, was told by the program manager, Shelley Choy, that, don't bother going ahead because she has too many applications and will not be taking any more. She also tells him that most likely their inspectors will be too busy after the harvest of the upcoming quarter and there is little chance that she'll be taking applications even in June.

"So, when the Department of Agriculture comes before us asking for their budget to be approved, I just find it hard to say, sure, because I think they are doing a very ineffective job. We all know that we're trying to become at least somewhat food self-sufficient in our islands. We're not getting that direction from the top floor, we're not getting it from the Department of Agriculture. And I don't think we have many months and years ahead of us to turn that balance to where when we have a disaster, and California has a disaster, and we're looked at like you're not going to get the ships coming over to you. What's going to stock the produce sections in our markets? What's going to happen?"

"You know, I'm probably one of the only members in the whole body that had a victory garden during World War II, and we took that seriously. I was quite young, but I was alive then, and we had victory gardens.

"We're almost at a point where our Department of Agriculture is so ineffective and so obstructionist that we may need to go out to our constituents and to ourselves and say it's time to start planting a preservation garden to be able to feed ourselves, our neighbors, and be able to be somewhat self-sufficient. Because we sure aren't getting the leadership from up there.

"And I think, Mr. Speaker, we ought to think very seriously. I know I give the Finance Chair a lot of credit because she's calling these departments to task to say, prove what you're doing. Well, agriculture and food self-sufficiency is life and death for us. It really is. And they're not doing their job. We need to do our job. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. Representative Tokioka rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Tokioka's written remarks are as follows:

"My strong reservations on this bill are also comments I expressed in the Education Committee regarding the budget process. When the decision was made by the Chair of Finance to try a different method known as a zero-based budgeting, it doesn't seem to me that the Chair took the time to check with the administrators of the budget at B&F to truly understand what the consequences of her decision would be and how it would impact the budget for the entire state. That would, in my opinion be the first mistake.

"The second mistake would be sending the budget to the Senate less than 3 weeks into session without inserting the program IDs that the committee chairs took out of HD 2 and worked with their respective departments to give input from many of the chairs that worked with division heads. I do think most chairs worked hard to do what they felt was best for the departments that they oversaw but, again, the Chair of Finance sent the budget over to the Senate early and did not understand how her decision would impact the state budget. As it is right now, 33,000 positions from the state budget are not included in HD 2, 33,000 positions!! I would compare this to an incredibly difficult puzzle, taking it apart, removing pieces, cutting some of them in half, then asking B&F to put them back together. This is why I have strong reservations on this bill."

"In support. I understand that this is a drastic measure to basically require homeowners to not leave their foreclosed, their homes undergoing foreclosures vacant for squatters and to allow for affordable housing for those homeowners who end up having to leave their homes early and require the foreclosing authorities to basically require a rental, but in my district there are plenty of vacant homes that did not need to be vacant but could have been used for affordable housing, that could have been used during the emergency disaster for use by people who normally have homes but were forced out of them because of the lava.

"During that time, the foreclosure process was extended because of the FEMA hold on such foreclosure process. There were FEMA monies available, but for some reason despite incentives, the foreclosing owners refused to rent when there were so many people in need. And that's the reason why this bill was constructed, solely for the limited period during the foreclosure process. Again, it incentivizes foreclosing owners, foreclosing people, from preventing or forcing out homeowners as well as incentivizing affordable housing. Thank you."

It's no longer safe to walk through parks, beaches, parking lots, etc. If someone is obviously mentally ill and is posed to be a threat to their surroundings, then we must act. We must protect our communities and public spaces. It's about time we pass a measure such as this. We must help those who can't help themselves. *Mahalo.*"

Representative Perruso rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I stand in opposition to this measure. To begin with, the Board of Education already has a policy in place, 301.8, that allows for this to happen, for people to work with schools and the board to name facilities after benefactors. Even with this policy in place, there has not been an outpouring of donations from the wealthy benefactors seeking to provide financial assistance to schools in exchange for naming rights. Even if there was, would we be content to see companies like Coca-Cola and McDonalds use our local schools as an opportunity to brand their products to the young? How would we feel to drive by the golden arches of education?"

"This measure is not a solution to the chronic underfunding of public education in our state school system. The Department of Education school facilities are over six years old on average. Each classroom in every building should be staffed by a qualified teacher, and yet today our school system is struggling to fill over 1,000 vacancies today. We are facing an education emergency. Rather than allowing corporations to use school campuses for branding campaigns, we must support comprehensive solutions to increasing public school funding. Like raising the general excise tax or higher earner income taxes, which would generate hundreds of millions of dollars to serve the schools our *keiki* deserve. Thank you."

Representative Okimoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Woodson rose to speak in support of the measure, stating:

"In support. Thank you, Mr. Speaker. This bill is not meant to address all the issues that we have within the Department of Education as relates to funding. This proposal is simply meant to allow for private sector individuals to participate in the process by allowing for naming rights for particular buildings, so that we can bring in more income to the Department of Education. Furthermore, the board policy that was referenced, that is only specific to certain circumstances, so as this proposal is drafted it would allow for the naming rights for buildings of all sorts and entities. Thank you."

Representative Hashem rose to speak in support of the measure, stating:

"Mr. Speaker, I stand in support. First of all, I want to thank my colleagues for funding one of the new locker rooms that we have at Kalani High School. It's a brand new girl's locker room, and unfortunately, they're not going to name it after me, they're going to name it after one of the former Kalani graduates, and that person went on to become very wealthy. Him and his wife went to Kalani. His wife recently passed away. He is offering Kalani \$100,000 a year in perpetuity for scholarships for Kalani school graduates, and in exchange, he wishes to put his wife's name on the building. So, with that, Mr. Speaker, I am in full support of this bill. Thank you."

Representative Cabanilla Arakawa rose to speak in support of the measure, stating:

"In full support, Mr. Speaker, and I would like to credit the vice principal of Campbell High School for giving me the idea of this measure, because they are in partnership with other high schools on the mainland, and that's what they do. And I think this is a wonderful idea. Yes, there is a board policy. It's a policy, Mr. Speaker, and I would like it to be codified into law. Because that would intensify the appeal of such measure. Into law as opposed to just a board policy that can be changed at any time.

"Furthermore, with the participation of big companies, like there's a lot of rich people in the state, Oracle, Bruno Mars, that can come and help us out. It's very clear, Mr. Speaker, that our state cannot provide for the infrastructure of our schools. It can never do. So this means we can now recruit those people who have gotten far beyond, that they can come and the thing that we can offer is for them to see their names in our schools. I'm not talking about small donors, Mr. Speaker, although they can donate as well.

"And furthermore, this bill would allow for a sub account for the high schools in their name, so they can work harder to get donations. And furthermore, if you take out the big-ticket items from the DOE budget, that would leave more money for school teachers' raises and supplies and other things that the DOE can use the money for. So, again, if you take out big items, more money in the pot. Thank you, Mr. Speaker."

Representative Quinlan rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. I'm very blessed to represent the representative district that has more NFL players than probably any state representative district in the entire nation. These guys have made a lot of money in their careers and they want to help out, and I think this is a great way to allow them to do so. Thank you."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, in support. Mr. Speaker, I sense that the future of government is public-private cost sharing, partnerships, or whatever you want to call it, because I don't think government has been able to do it on its own, particularly as the needs for so many issues. So everything that was said I think is very well taken, particularly the Kalani High School option. I mean, that's tremendous, that's really philanthropy. And for the DOE purpose. However, I would say for those who are for this bill, please consider naming rights for the new stadium, which would be worth millions of dollars and there are corporations all over the world that would be willing to do that if we, in this body, would open it up to naming rights. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 745, HD 1, entitled: "A BILL FOR AN ACT RELATING TO SCHOOL SPONSORSHIP NAMING RIGHTS," passed Third Reading by a vote of 49 ayes to 1 no, with Representative Okimoto voting aye with reservations, with Representative Perruso voting no, and with Representative DeCoite being excused.

Representative Matayoshi rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Matayoshi's written remarks are as follows:

"I am in support of the Legislature executing its responsibility to the community by conducting oversight of beneficiaries of our taxpayers. However, this bill forces all charter schools to perform independent audits, which will create an unnecessary financial burden on our charter schools already struggling with a lack of facilities funding. It is unfair to put more strain and financial responsibility on all of our charter schools when the State Public Charter School Commission testified that it has a list of only four to five charter schools that need this oversight. The State Public Charter School Commission is appointed by the Board of Directors at the DOE and are put in place to maintain the rules and standards of education across all charter schools in the state. Because the State Public Charter School Commission already identified which charter schools need this additional oversight, burdening all charter schools is both unnecessary and harmful to students."

Representative Nakamura rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Onishi rose to speak in opposition to the measure, stating:

"Mr. Speaker, no vote and short comments. Mr. Speaker, I was dismayed that this bill that deals with agricultural land was not referred to the Agriculture Committee. And I believe this sets very bad precedence in regards to utilizing A class land for anything but strictly agriculture. Thank you."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, tepid support, brief, brief comment. Given what the gentleman from the Big Island said, I would say, if we would take out A lands, that is the best of the best, this bill probably would make sense, because we need energy, we need it to come free from the sky, but when you got your prime agricultural lands to make solar, that just doesn't make sense. And we're losing so much now, some of the best ag land was in Ewa Beach, and Ewa Beach is being basically housing, as many other places. So, I would hope that those who are on either the next committee or the conference committee just strike out those ag lands letter A. Thank you."

Representative B. Kobayashi rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition. Let me note that the vote in Finance Committee was nine in favor, two with reservations, and six opposed. Had the two with reservations voted in opposition, the bill would not be here. Secondly, I would reiterate what was said earlier by the Representative from the Big Island, that this bill was not referred to the Agriculture Committee and it deals with class A agricultural lands. Lastly, I would note that there was a very, very unusual array of supporters and opponents of this bill. This was the first time in history that two of Hawaii's most well-known farmers, Richard Ha and Dean Okimoto, voted against the Hawaii Farm Bureau, the Department of Agriculture, the Hawaii Crop Improvement Association. That is an unusual alignment that we have never seen before, and it said something about the controversial nature of this bill.

"So, for those reasons and plus the fact that class A agricultural lands represent only 3% of all agricultural lands. If you look up the definition of class A agricultural lands, it is very specific, and those are the most potentially productive agricultural lands in the State of Hawaii. If we are serious about growing our own crops, then I think we should look seriously about not supporting this bill. Thank you."

Representative Okimoto rose in opposition to the measure and asked that the remarks of Representative Onishi be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Gates rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Thielen rose in opposition to the measure and asked that the remarks of Representative B. Kobayashi be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative San Buenaventura rose to speak in support of the measure with reservations, stating:

"With reservations. I'd like to point out a couple of things. One, I understand fully the need for ag lands to be used for ag purposes, yet we also should be mindful that our farmers need to use whatever resources are available to them to be able to make money in this climate. And I noticed that one of the supporters is a Big Island nursery, Green Point Nursery, who provided us with all of our greenery on Opening Day, and they would like to be able to use this ability to harness the solar energies in order to be able to finally be able to make money when times are tough. And for those reasons, again, I fully understand the need for it. This doesn't require the use of ag lands for solar purposes, this just permits and allows them to be able to do that. And for those reasons, I stand in support but with reservations."

Representative Quinlan rose to speak in opposition to the measure, stating:

"In opposition, Mr. Speaker. In my community, we basically do two different things with ag land, we build gentleman's farms on them and we build windmills. We cannot continue to expand permitted uses on agriculture land, because we're never going to meet our agricultural goals if we continue to do so. Thank you."

Representative Holt rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Wildberger rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative McKelvey rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered." [Note: Representative McKelvey later changed his vote to a no vote.]

Representative Creagan rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Hashimoto rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Hashimoto's written remarks are as follows:

"Mr. Speaker, I rise in opposition to HB 593, HD1.

"Land in this state is a scarce resource. This is especially true for our prime agricultural land, or A-rated land.

"In testimony to Finance, proponents of this bill said that they wanted to open this land to utility-scale solar energy generation because of its proximity to transmission lines and power stations. But that's infrastructure we can build. We currently cannot build more prime agricultural land.

"One of the state's other goals is to increase our agricultural output. The smartest way to pursue both is by using our best agricultural land for agriculture and using other land, land that isn't as good for growing food, for renewable energy. There's no reason to create a situation that puts them into conflict with each other.

"For these reasons, I'm voting against HB 593, HD1. Thank you, Mr. Speaker."

Representative Lowen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support, although I understand the reservations people have, and I just wanted to correct something that was said. This doesn't permit projects on ag land, it makes it an allowable use that they would have to apply to the Land Use Commission for a special use permit that's not guaranteed to be approved, and they would have to show that they were providing a net benefit to the farmer on that land. And I think we should be preserving, especially class A ag lands for agriculture, and it is a slippery slope to continue to expand the allowable uses, but at the same time, a lot of this land is not in production. And the reason it's not in production is because it's hard to be a farmer today. And so, this was just having a conversation about if it was possible to find some mutual benefit here where these solar development projects could actually create an incentive for that land to be put into production and actually used for farming. Thanks."

Representative Onishi rose to respond, stating:

"Second time and still in opposition. This Legislature has seen fit in the past to allow for class C, D and E agricultural lands to be used for solar production for projects that would help us reach our goals of 100% renewable energy. If you look again at the list of testifiers, and to see that most of our Hawaii ag organizations are against this policy, granted, this is a policy, but it sets a very poor precedent for us to encourage agriculture use when we're willing to give up our best land for potential use that will only

benefit that particular farmer and their land. Some of this land is actually lease land, and therefore would also be open to potential solar project development. Again, if you look at the people who testified against this, who are against this bill, these are the major agricultural organizations in the State of Hawaii. Thank you, Mr. Speaker."

Representative Yamane rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I just would like to add to what the Chair of EEP mentioned, this is an allowable permitted use. Entities that would go through this would still be required to go, in the proposed language, to the Land Use Commission with anything from zero to whatever property size permitted within the conditions of the use. As well as, Mr. Speaker, the nexus of the idea was to give the opportunity, looking at future farming. And Mr. Speaker, part of future farming is the use of potential greenhouses. Meaning not only just solar panels on the ground, but solar panels on top of greenhouses, which not only produces potential energy within the growing environment within the greenhouse, but also give the opportunity for farmers to potentially sell the excess energy to the grid to help supplement the ability for them to grow.

"So, Mr. Speaker, in light of what we've been talking, A land use, Mr. Speaker, currently right now we can put wind mills on A lands. That's in law. Mr. Speaker, in the past we've actually put homes on A lands, right. So if we're talking about the issue of requiring that within this kind of measure that the farmer not only has electricity and water, but also we push the discussion forward about elevating our ability to be self-sustaining food by increasing power as well as water conditions so that our future farmers have the best technology available. We just wanted the discussion to have this continue. Thank you, Mr. Speaker."

Representative Eli rose in opposition to the measure and asked that the remarks of Representative Onishi be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Perruso rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I stand in opposition. So, as a representative of a district where we have 17,000 acres in state ag land, this kind of future farming is being proposed. And I do think that it is important to think about the use of technology and the ways in which we can marry our energy needs and our food sustainability needs and address both of them at the same time. But I do think that we do have to make sure that A lands are reserved for growing food. And so if we keep that as a fundamental baseline and then we can do additional work around that, but I do think that criteria, that fundamental baseline, is really important. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 593, HD 1, entitled: "A BILL FOR AN ACT RELATING TO LAND USE," passed Third Reading by a vote of 37 ayes to 13 noes, with Representatives Creagan, Gates, Holt, Nakamura, San Buenaventura and Wildberger voting aye with reservations, with Representatives Eli, Hashimoto, Kitagawa, B. Kobayashi, Matayoshi, Matsumoto, McKelvey, Okimoto, Onishi, Perruso, Quinlan, Tarnas and Thielen voting no, and with Representative DeCoite being excused.

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 1028, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE ENDANGERED SPECIES TRUST FUND," passed Third Reading by a vote of 50 ayes, with Representative DeCoite being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1133) recommending that H.B. No. 1584, HD 2 pass Third Reading.

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 1584, HD 2, entitled: "A BILL FOR AN ACT RELATING TO CARBON EMISSIONS," passed Third Reading by a vote of 49 ayes to 1 no, with Representative Ward voting no, and with Representative DeCoite being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1134) recommending that H.B. No. 210, HD 1 pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 210, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Nakamura rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, we're on 1134, Relating to Elections? The elections that for three reason I'm opposed to. Mr. Speaker, these are the elections called 'ranked choice voting.' A step backwards, sir, and I have three reasons why I'm against this bill. First of all, it's too confusing. I'm sure everybody's debated among themselves no it means this, no it means, no it's like the jungle primary, no it's not like the jungle primaries. So we said, okay, call the experts, call the Office of Elections. So we called them, and they were confused, Mr. Speaker. The ones who are going to implement it don't even know what it is. So, first point of this thing being what it is, is it's too confusing.

"Number two is, it's unnecessary. There's already a method for nonpartisan contests and runoffs, contested primaries, and all the other things. We're doing fine as we are. Thirdly, it's costly, \$580,000 for a multipage ballot. We already have a shortage of funds for that particular group.

"But, the worst, or Shakespeare said, the unkindest cut of all, Mr. Speaker, is under this system, there would be no Charles Djou, no Ed Case. There would, if we are in the Senate bill going to entertain the jungle primary, there would only be two of us on this side of the aisle, Mr. Speaker. Is the intent to, I mean we're only five out of 51. Do we want to get rid of the loyal opposition? I don't think so. You're smiling though, I'm giving you an idea. Mr. Speaker, this is something which is a problem which we don't have, but it's the solution in search of a problem, and just because some guys on the mainland are trying to do it and have done it, it doesn't mean that we should do it. This is a bad bill, Mr. Speaker. Please make sure it doesn't live. Thank you."

Representative B. Kobayashi rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations. I would note that ranked choice voting may have a good place in certain kinds of elections, such as in special elections where we have a current winner-take-all system, but it would not work well in other situations, particularly, shall we say, in Kauai, where all

of the councilmembers are essentially in one district, and probably also with Office of Hawaiian Affairs. So, perhaps ranked choice voting might be applied more selectively, and then I think it might be a better idea. Thank you."

Representative Todd rose to speak in support of the measure with reservations, stating:

"Thank you. Just to echo the previous speaker, I actually support the concept, but I believe it should be applied only to specific election types, including general elections. I think the benefit of ranked choice voting is primarily to allow for votes for third parties or independents without feeling like you're sacrificing your vote towards a candidate who you may share a lot of values with, but I don't believe it has a role in the primary system that we currently have. Thank you. Reservations."

Representative Thielen rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. Ruling on a potential conflict. Mr. Speaker, had ranked voting been in place, I would not be here," and the Chair ruled, "no conflict."

Representative Thielen continued and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative McKelvey rose to speak in support of the measure, stating:

"In support, for the reasons cited by the previous speaker."

Representative Eli rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative San Buenaventura rose to speak in support of the measure, stating:

"With strong support. I understand the need for certain elections like Kauai where basically it's one district and multiple people, and it may not be workable there. But I'd like to cite the lieutenant governor's race, for instance, where we had a number of very good candidates. And a number of us, although we shared values with one candidate, felt that we were throwing our vote away if we voted for that candidate. Ranked choice voting basically allows our ability to choose the candidate we identify with, but not have our vote thrown away. Because if our candidate loses, then our second choice comes into play and is counted towards the remaining candidates who get in. And by doing that, we basically allow for a popular vote, which is what it is meant to be. And we actually reduce the number of special elections and having to keep doing this over and over again.

"So for those reasons, it's about time we do this, and I believe it's just a matter of education to let people know how ranked choice voting works, and when they actually do, and the number of counties that actually have ranked choice voting, they love it, because they know that their choice counts. Thank you."

Representative Hashimoto rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Holt rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Matayoshi rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ward rose to respond, stating:

"Mr. Speaker, brief rebuttal, if I may, from the good lady from the Big Island. The notion that your vote doesn't count, Mr. Speaker, let's look at the numbers. What's the turn out? What's the voter registration? More than half the people don't even sign up and the other half don't even, after they sign up, vote. Thirty-eight percent is an embarrassment. The reason people don't show up is not because they don't have all their choices that win, it's because

they have a one-party state here. They want to do, not diminish the minorities, but to increase them. This is just going to be the opposite of that.

"So, Mr. Speaker, we need to get our voter registration and voter participation up, not to have more fancy, six pages, half a million dollar and other kinds of things, which by the way, the Senate's floating with this jungle primary. Which is really, it's more dangerous than this one, if we think we have a convoluted system. And also, if we're going to do it, we should at least get the Office of Elections up to speed to know what this thing is. It's very convoluted and it's very expensive. So, Mr. Speaker, we have a lot to do politically here, but this is not one of the solutions. Thank you."

Representative San Buenaventura rose to respond, stating:

"Again, in strong support. I'd like to point out, there's nothing in the bill that gets rid of the party system, so it's basically within the primary, and as such, we're going to still be able have a two-party system so long as a Republican shows up. Thank you."

Representative Luke rose to speak in support of the measure, stating:

"Thank you, in support. I think there's some confusion with this bill compared to the that one I introduced, which died in Judiciary. So that bill actually gets rid of all the party affiliation and then select the top two, kind of similar to the council races where the top two or top three or whatever the number is moves on to the general.

"In this situation, you keep the entire party structure, but within the party structure you can rank from the choices. Actually, you know, another good example is the CD race. CD1 race had a bunch of people, you know you could go either way on all of them or you could go no way on any of them, but you know you kind of had a choice. So, if you kind of had a choice of the top whatever, you know top six, then you could have ranked it as opposed winner take all.

"So clearly there is some confusion, and we talked about this in Finance, and even the Office of Elections officials said, no, it doesn't impact the current party structure where you have the Democrat moving on to the general, the Republican winner move on to the general, Libertarian, so forth. That doesn't change. But within the party structure itself, when you vote in the primary races and you can vote one through dumpty dum, because as you saw in the CD1 race, the person who won, won by 38%, as opposed to, what we should expect is, by a majority of votes. So clearly, there's some confusion. Thank you."

Representative Okimoto rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. I just wanted to point out that it seems like there is a lot of confusion, and to me it would be irresponsible as a legislature to pass a bill that we're not sure about. And I also want to note that I probably wouldn't be standing here if this system was in place, and that would be a travesty. Thank you."

Representative Perruso rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'm in strong support. So, as a civic educator, I wanted to say while there may be some confusion amongst adults, there may be some confusion about ranked choice voting, I think it's very common in other countries. And my experience with young people is that they generally tend to favor this kind of voting. They feel more engaged, they feel like their voice is more thoroughly articulated. So, I think that this would be a great move and it does preserve the two-party system, so I think there's no need to be anxious about that."

Representative Lee rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support and I just I think add to some of the discussion by saying, I think our democracy here in this country is the oldest modern democracy on the planet and it is set up in a way that we vote in a first-past-the-post system, meaning you need 50% plus one, as we are all well aware. The problem with that, in situations where you have multiple candidates on the ballot, as I think some of our colleagues described, is that

you end up electing someone with a minority, sometimes even a fraction of the electorate. Which means that person does not have a mandate from the population, from the voting public, in order to take office and to govern.

"What this system does is sets up an opportunity for everyone to be able to vote on that final two candidates that are going to be governing them. And so it ensures that there is a mandate from the public and gives everyone a voice, rather than disenfranchising a great majority of voters in each election. It's something which other states, other countries, have certainly figured out, which is far more advanced and far more appreciated I think in many cases than the democracy we have here, which is reflected in their voter turnout, which far exceeds ours.

"But I'll just say this, the reason that I think we entertain this bill is because it's time that we had a discussion. No bill is perfect, I think this goes on to the Senate for further discussion, but I think it's time we at least entertain that, on behalf of our constituents. Thank you, Mr. Speaker."

Representative Ward rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ward's written remarks are as follows:

"Mr. Speaker, I oppose this bill because I believe in the simple election methods that have been used for decades in this country. The candidate who receives the most votes, wins. If the State of Hawaii were to adopt this voting method, anyone with the least number of votes will automatically be disqualified and their votes would go to each voter's second choice. Given the confusion amongst the public, including those in the Office of Elections, I respectfully vote 'no.' *Mahalo.*"

That really wipes out our young people, middle aged people that are there that maybe want to use public lands. And I think the original restriction of the 65 years is sound and should stand. I know there is three subpoenas, *et cetera*.

"But I'm not convinced there couldn't be something tandem, rather than shut down the whole thing. Why this audit, of which by the way, Mr. Speaker, you know and I know that this body fought tooth and nail on that bill to make sure that it passed, and that it passed with a lot of hard work, and now suddenly we're throwing it out the window. I'm just not prepared to sort of just accept that, saying, oh yeah, it's contradictory, without more details, without more basis of fact. For those reasons, with reservations. Thank you."

Representative Matayoshi's written remarks in support of the measure are as follows:

"This bill is to address the ongoing problem of abandoned vehicles littered across our state. On the suggestion of the administrator of Department of Customer Services, Abul Hassan, I propose to allow vehicles assessed at \$1,000 or less to be classified as derelict vehicles. Cars that are declared derelict can be removed much faster. Without this derelict designation, the City has a responsibility to attempt to track down the owner, which can leave abandoned cars on our roads for a month or longer. Attached is a letter from Administrator Hassan in support of this bill, which goes into detail of how this bill will assist the efforts of the department in clearing cars from our streets."

HOUSE BILL 316, "RELATING TO Derelict Vehicles"

Dear Representative Matayoshi:

This letter is in response to your inquiry on the City and County's ability to remove derelict vehicles and some of the challenges faced in the removal of these vehicles, particularly when vehicles are valued at less than \$1,000. The Department of Customer Services (DCS) understands that H.B. No. 316 proposes to address this matter.

The Division of Motor Vehicles, Licensing and Permits of the Department of Customer Services is the entity that oversees the Motor Vehicle Control section which has the specific duties of enforcing code and subsequently working with vendors to remove vehicles classified as derelict or abandoned.

In light of our in-the-field experience, we have run into a multitude of issues where the vehicle in question is determined to be inoperable and has a valid registration, but may be valued under \$1,000 because while it is validly registered it is also being cannibalized for parts because it is in a state of abandonment by its registered owner.

As the regulation on derelict vehicles presently exists, it is seldom that we are able to qualify a vehicle that is inoperable with one of its secondary requirements such as: 1) An owner disclaims the vehicle or 2) License plate is missing or 3) No record is found. As a result, a majority of vehicles that are derelict in public spaces are often forced to be classified as abandoned thereby creating a major hurdle for the administration as it must go through a far more rigid process of notification prior to auction. Said auctions generally net a sale of roughly 2.5% of the total inventory placed in auction whereby the rest of the vehicles are salvaged post auction.

The above statistics clearly demonstrate that the majority of unclaimed vehicles are not auction worthy. However, in the absence of regulation that gives us leverage to further classify vehicles as derelict we are left with simply bad options that are resource exhaustive and yield little to no result.

The City would welcome additional means to remove vehicles identified as inoperable but still validly registered, such as is proposed in H.B. No. 316, so long as the constitutional rights to personal property are still protected as required by law.

If you have any questions or need any further assistance, please do not hesitate in contacting me at (808) 768-9199.

Respectfully,

Abul Hassan

Administrator

Motor Vehicle Licensing & Permits
City & County of Honolulu

(c) If the person fails to answer within twenty-one days of issuance of the notice of infraction or fails to appear at the hearing, the court shall take action as provided in subsection (d).

(d) Whenever judgment by default in favor of the State is entered, the court shall mail a notice of entry of default judgment to the address provided by the person when the notice of infraction was issued. The notice of entry of default judgment shall advise the person that the total amount specified in the notice of infraction and default judgment shall be paid within thirty days of entry of default judgment and shall explain the procedure for setting aside a default judgment. The notice of entry of default judgment shall also inform the person that if the total amount is not paid within thirty days, the court shall take action as provided in section -6.

Judgment by default for the State entered pursuant to this section may be set aside pending final disposition of the infraction upon written

application of the person and posting of an appearance bond equal to the amount of the total amount specified in the default judgment. The application shall show good cause or excusable neglect for the person's failure to take action necessary to prevent entry of judgment by default.

Upon receipt of the application and required appearance bond, the court shall determine whether good cause or excusable neglect exists for the person's failure to take action necessary to prevent entry of judgment by default. If the court determines that good cause or excusable neglect exists, the application to set aside default judgment shall be granted, the default judgment shall be set aside, and the notice of infraction shall be disposed of pursuant to this chapter. If the court determines that good cause and excusable neglect do not exist, the application to set aside default judgment shall be denied, the appearance bond shall be forfeited and applied to satisfy amounts due under the default judgment, and the notice of infraction shall be finally disposed. In either case, the court shall determine the existence of good cause or excusable neglect and notify the person of its decision on the application in writing.

§ -5 Hearings. (a) In proceedings to contest a notice of infraction where the person to whom the notice was issued has timely requested a hearing and appears at the hearing:

- (1) In lieu of the personal appearance by the officer who issued the notice of infraction, the court shall consider the notice of infraction and any other written report made by the officer, if provided to the court by the officer, together with any oral or written statement by the person to whom the notice of infraction was issued;
- (2) The court may compel by subpoena the attendance of the officer who issued the notice of infraction and other witnesses from whom it may wish to hear;

- (4) After due consideration of the evidence and arguments, if any, the court shall determine whether commission of the infraction has been established. Where the commission of the infraction has not been established, judgment in favor of the defendant, dismissing the notice of infraction or any count therein with prejudice, shall be entered in the record. Where it has been established that the infraction was committed, the court shall enter judgment in favor of the State and shall assess a monetary fine pursuant to section -10. The court also shall inform the person of the right to request a trial pursuant to section -8. If the person requests a trial at the time of the hearing, the court shall provide the person with a trial date as soon as practicable.

(b) If a person for whom a hearing has been scheduled to contest the notice of infraction or to assert affirmative defenses fails to appear at the hearing, the court shall enter judgment by default for the State and take action as provided in section -4(d). If the total amount of the monetary assessment, fees, interest, or costs is not paid within thirty days of entry of default judgment, the court shall take action as provided in section -6.

§ -6 Failure to pay fine. When the person issued a notice of infraction or notice of entry of default judgment fails to pay the total amount specified in the notice, the amount may be collected in the same manner as a judgment in a civil action. The State may collect the amount, including costs, interest, and attorney's fees, pursuant to section 706-647.

§ -7 Time computation. In computing any period of time prescribed or allowed by this chapter, the day of the act, event, or default from which the period of time begins to run shall not be included. The last day of the period so computed shall be included, unless it is a Saturday, Sunday, or legal holiday, in which event the period shall run until the end of the next day that is not a Saturday, Sunday, or legal holiday. Intermediate Saturdays, Sundays, and legal holidays shall be included. Whenever an act required to be performed under this chapter may be accomplished by mail, the act shall be deemed to have been performed on the date of the postmark on the mailed article.

§ -8 Trial and concurrent trial. (a) There shall be no right to trial unless the defendant contests the notice of infraction pursuant to section -5. If, after proceedings to contest the notice of infraction, a

determination is made that the defendant committed the infraction, judgment shall enter in favor of the State. The defendant may request a trial in which the Hawaii rules of evidence, as specified under section -9(b), and the rules of the district court shall apply; provided that any request for trial shall be made within thirty days of entry of judgment. If, after appearing in person at a hearing to contest the notice of infraction, the person requests a trial at the conclusion of the hearing, the court shall provide the person with a trial date as soon as practicable.

(b) At the time of trial, the State shall be represented by a prosecuting attorney of the county in which the infraction allegedly occurred. The prosecuting attorney shall orally recite the charged civil infraction in court prior to commencement of the trial. Proof of the defendant's commission of the infraction shall be by a preponderance of the evidence.

(c) If trial on the infraction is held prior to trial on any related criminal offense, the following shall be inadmissible in the subsequent prosecution or trial of the related criminal offense:

- (1) Any written or oral statement made by the defendant in proceedings conducted pursuant to section -5; and
- (2) Any testimony given by the defendant in the trial on the infraction.

The statement or testimony, or both, shall not be deemed a waiver of the defendant's privilege against self-incrimination in connection with any related criminal offense.

(d) In any concurrent trial, the State shall be represented by a prosecuting attorney of the county in which the infraction and related crime allegedly occurred. Proof of the defendant's commission of the infraction shall be by a preponderance of the evidence, and proof of the related criminal offense shall be by proof beyond a reasonable doubt. The concurrent trial shall be conducted pursuant to the rules of the appropriate court, the Hawaii rules of evidence, and the Hawaii rules of penal procedure.

§ -9 Rules. (a) The supreme court may adopt rules of procedure for the conduct of all proceedings pursuant to this chapter.

(b) Chapter 626 shall not apply in proceedings conducted pursuant to this chapter, except for:

- (1) The rules governing privileged communications; and
- (2) Proceedings conducted under section -8.

(c) Notwithstanding section 604-17 to the contrary, while the court is sitting in any matter pursuant to this chapter, the court shall not be required to preserve the testimony or proceedings, except proceedings conducted pursuant to section -8 and proceedings in which the infraction is heard on the same date and time as any related criminal offense.

(d) The prosecuting attorney shall not participate in infraction proceedings conducted pursuant to this chapter, except proceedings pursuant to section -8 and proceedings in which a related criminal offense is scheduled for arraignment, hearing, or concurrent trial.

Representative Lee moved that Floor Amendment No. 1 be adopted, seconded by Representative San Buenaventura.

Representative Lee rose to speak in support of the proposed floor amendment, stating:

"Thank you, Mr. Speaker. I rise in support. The floor amendment before us today seeks to draw a clear line between what is dealing and what is possession. I think it's in our interest to make sure that we draw that line clearly at this point and encourage further discussion. And what the bill also does is add in a task force to look at what we do with additional penalties and how to make sure that we're capturing the right folks who are responsible for drug distribution, trafficking, dealing, and not put additional penalties and unnecessary handcuffs on those folks who are victims to that. I think that's something that we're trying to address with this floor amendment and the work that the potential task force would do going forward. Thank you."

Representative Har rose to speak in support of the proposed floor amendment with reservations, stating:

"Thank you, Mr. Speaker. I rise in support with reservations. First of all, I want to thank the Chair of Judiciary for putting together this floor amendment. I appreciate the defective date, given the fact that this was a single referral bill. Now that said, and I do appreciate the explanation from the Chair of Judiciary, but that said, these are very substantive changes. And with all due respect, we were given this amendment approximately an hour ago, we haven't really had a chance to go through it. Moreover, because this bill was singly referred, there will never be another opportunity for any other testifier, any other agency, to opine on this House Draft 1. So, again, if this bill had the opportunity to go to another committee, we would have that opportunity.

"One of the things I'm so proud of this body, Mr. Speaker, is the fact that we espouse transparency. And I think with such substantive changes, we're actually flying in the face of that. So, for those reasons, I do support the floor amendment, but for procedural reasons, I'm with reservations. Thank you, Mr. Speaker."

Representative Say rose to speak in support of the proposed floor amendment with reservations, stating:

"Mr. Speaker, since this is a voice vote, may I request with reservations. Thank you."

At 10:17 o'clock a.m., the Chair noted that Floor Amendment No. 1 was adopted.

At this time, the Chair stated:

"Members, please note that there is 48-hour notice for this measure."

Representative Say rose, stating:

"Mr. Speaker, I believe there is a Floor Amendment No. 4 that is tied to 1383 also."

Speaker Saiki: "Please state the floor amendment number."

Representative Say: "Floor Amendment No. 4, relating to House Bill 1383, HD1, which we adopted the Floor Amendment No. 1. It's tied to the measure that was before us earlier, right?"

Speaker Saiki: "Okay, Floor Amendment No. 4 is out of order because House Bill 1383 is no longer before the body."

At 10:18 o'clock a.m., Representative Say requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 10:19 o'clock a.m.

Representative Say rose, stating:

"Mr. Speaker, I rise on a point of personal privilege for the members of this House and the people of the State of Hawaii. Mr. Speaker, I truly feel that I have been aggrieved by not having the House leadership share with me that Floor Amendment No. 4, which we discussed in caucus, is not before this body to be considered. And I would like to state for the record, I hope that the leadership understands that everyone here who has submitted a floor amendment, even though tied to the original measure, as far as 1383, should be given an opportunity to discuss this particular Floor Amendment No. 4. And that is why I'm rising on a point of personal privilege, that I have been aggrieved by this body, and I would like to say a few words in regards to Floor Amendment No. 4."

At 10:20 o'clock a.m., Representative Belatti requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 10:22 o'clock a.m.

Representative Say rose, stating:

"Thank you very much for the privilege once more. And I just want to state for the record that even if I propose this floor amendment on Thursday, it is not going to meet the internal deadline of passing third reading going to the Senate. I just wanted to say a few words about small business as far as its impact of this particular measure. And I'll get the opportunity on Thursday?"

Speaker Saiki: "Yes, you can introduce it on Thursday."

Representative Say: "Yes, and then have the discussion. Thank you."

Speaker Saiki: "Okay members, we're back on page 18."

Representative Ward rose, stating:

"Mr. Speaker, point of information. For the other amendments, we will take them as they appear on the page, or are we going to go consecutively from amendment one to amendment two?"

Speaker Saiki: "We'll follow the Order of the Day."

Representative Ward: "Order of the Day. Thank you very much."

And the bill is either silent or prevents that, the way I read it, and I could be wrong, so that young person voluntarily going to their parents and saying, I need help, where do they get that help? "Mr. Speaker, in opposition, sir. I've worked in the coffee industry at Lion Coffee, Superior Coffee, Royal Kona Coffee, and this is a battle that goes on every year. And it appears that in order to call coffee a Kona blend, you're going to have to have 51% of the coffee be Kona coffee. The reason they don't use 51% now is because Kona coffee is just prohibitively expensive, it's \$12, \$14 a pound, I don't know, but it's very expensive. So, they blend it, and thereby blending it, they sell more coffee as a Kona blend. This is kind of a turf war which we're getting engaged in. And then we impose these labeling restrictions, which are meaningless when we import the coffee to or export it to California or Japan or other places like that because we can't compel them to follow our laws. So, for those reasons, I stand in opposition."

Representative San Buenaventura rose to speak in support of the measure with reservations, stating:

"With reservations. I'd like to note that because we can only pass statutes that affect within the state, so basically we are going to require our own state coffee manufacturers and producers to come up with a per gram and per region, and we can't affect those people who produce these things outside the state. So, for those reasons, I understand the need for it, but it's with strong reservations as to why we're doing this to our own people. Thank you."

Representative Hashimoto rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative McKelvey rose in support of the measure with reservations and asked that the remarks of Representative San Buenaventura be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Okimoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1485, HD 2, entitled: "A BILL FOR AN ACT RELATING TO VOTER REGISTRATION," passed Third Reading by a vote of 49 ayes to 2 noes, with Representatives Matsumoto and Okimoto voting aye with reservations, and with Representatives McDermott and Ward voting no.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1210) recommending that H.B. No. 1143, HD 1, as amended in HD 2, pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1143, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Okimoto rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Okimoto's written remarks are as follows:

"Thank you, Mr. Speaker. In support with reservations for House Bill 1143, HD2. The subject of finding and incentivizing teachers for hard to staff locations merited a hearing before the Committee on Lower & Higher Education."

Representative Perruso rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. Rising in opposition. Mr. Speaker, this measure creates a definition of classroom teacher in state law that conflicts with the definition of teacher contained in Section 302A-101 that could also be used to create unnecessary distinctions in the teaching profession that could have repercussions for collective bargaining. More importantly, while I applaud

this measure's attempt to increase pay for teachers at hard to fill schools, it does not provide a comprehensive solution for our state's teacher shortage crisis, which currently stands at more than a thousand vacancies. Our state continues to lose approximately 50% of its teacher workforce every 5 years. In fact, the number of teachers exiting the teaching profession in this state has increased by more than 80% since 2010.

"While teacher retention is a complex issue, one of the primary drivers of the state's chronic teacher shortage crisis is low salaries. So, numerous studies have indicated that our teacher salaries in Hawaii rank last in the nation when adjusted for cost of living. We need to invest in our state teacher workforce by creating a dedicated source of funding for public education, which will allow our state to increase salaries for all teachers. Until we do, our state's teacher shortage crisis will continue to worsen, and our children's future will continue to be placed at risk. Thank you."

Representative Wildberger rose to speak in support of the measure with reservations, stating:

"With reservations please, Mr. Speaker, in support of my colleague from Wahiawa."

Representative Har rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. Thank you, Mr. Speaker. First of all, my I please adopt the words of the Vice Chair of Higher Education into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Har continued, stating:

"I want to mirror her comments, but I think there is one additional thing. First and foremost, I want to thank the introducer of the bill. I have had a lot of experience in a former lifetime serving as the lieutenant governor's aide to the National Commission on Teaching & America's Future. At that time, I was privy to understanding the issues in the State of Hawaii regarding teacher quality, specifically with respect to the reasons why we had such difficulties in terms of attracting teachers into the Department of Education.

"So, I think that the intent is absolutely laudable. My concerns stem from chapter 89, collective bargaining. I think that when you do this, when you pass a measure such as this, it really takes away the rights from both the employee as well as the employer, and that is why we have chapter 89 in statute. So for those reasons, Mr. Speaker, and for the reasons stated by the Vice Chair of Higher Education, I respectfully am voting in opposition. Thank you."

Representative Kong rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Todd rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, may I ask to be recused from this, as my wife teaches at a hard to staff school."

The Chair addressed Representative Todd, stating:

"There is no conflict. It will remain in effect through session. It deals with the class of people, so there is no conflict."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Tokioka rose in opposition to the measure and asked that the remarks of Representatives Har and Perruso be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1319, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Thielen rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I am rising to speak against House Bill 1319. Thank you. Mr. Speaker, although the amount of money in the SPRB is blank, the original bill had \$700 million in that. This is for Hawaii Electric to be able to use for lower cost financing. The difficulty is, Hawaiian Electric hasn't shown us what they're planning to do with that money. The details are really very sparse. I think we should hold them to a higher standard.

"Particularly, Mr. Speaker, you remember, and I certainly remember, the years that Hawaiian Electric fought us when we tried to become a more renewable energy state and get the grid to be able to do that too. They, Hawaiian Electric, fought against the renewable companies, and this went on for decades. We've sort of rounded the corner, but they aren't telling us what they're planning to do with that.

"Just as kind of a bit of contrast and a little bit of humor, here is what we could do with \$700 million for renewable energy projects. We could buy and rent 20,000 Tesla Model 3s, we could cover 1,400 acres with solar panels, and we could follow the North Sea countries, Norway, Sweden and Scotland, and install enough wave power generation to bring electricity prices down to 4 cents a kilowatt hour from where it is today.

"So, I just think that Hawaiian Electric didn't do its disclosure work, and I don't like to have them take a disproportionate amount of this SPRB money for projects that are undisclosed. So, I'm a no. Thank you."

Representative Onishi rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, ruling on potential conflict of interest. I have Hawaiian Electric stocks."

The Chair addressed Representative Onishi, stating:

"There's no conflict. It will apply for the remainder of session."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1319, HD 2, entitled: "A BILL FOR

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 897, HD 2, entitled: "A BILL FOR AN ACT RELATING TO THE DEPARTMENT OF LAND AND NATURAL RESOURCES," passed Third Reading by a vote of 51 ayes.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1228) recommending that H.B. No. 356, as amended in HD 1, pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 356, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Okimoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Har rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. In support with reservations and just a brief comment, Mr. Speaker. I support this bill, but my only concern is that the current House draft does not take into account any negative changes to the consumer price index, and so for that reason, I'm voting with reservations. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 356, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CLAIMS AGAINST THE STATE," passed Third Reading by a vote of 51 ayes, with Representatives Har and Okimoto voting aye with reservations.

Representative Nakamura rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Nakamura's written remarks are as follows:

"With reservations. HB 1382 prohibits campaign fundraising on the property of a person that has entered into a contract with the State. In the district I represent, there are many neighborhoods and communities without a neighborhood or community center or gathering place. Nonprofit organizations and the County of Kauai have been recipients of state funds for such facilities and park amenities. Some of these facilities and parks are in rural areas where a state grant-in-aid was awarded prior to my service at the State Legislature to address the need for community meeting facilities.

"I believe, as written, the bill is overly restrictive and would prevent me from having a fundraiser at any county facility or park, a remote north shore community meeting facility, and centrally located facility with the capacity to hold a large event. I would like to have the opportunity to pay to use these public and private facilities as any other member of the public."

Representative San Buenaventura rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1243) recommending that H.B. No. 1497, HD 2, as amended in HD 3, pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1497, HD 3 pass Third Reading, seconded by Representative Morikawa.

Representative Perruso rose to speak in opposition to the measure, stating:

"Mr. Speaker, I'm rising in opposition. I'm rising in opposition because while Hawaii has an appetite for entertainment experiences, I don't think that public funding of these experiences should come at the expense of public services. The most recent draft of this measure would provide \$350 million in bond revenue to build a new stadium and related development district. That's enough to build three to five entirely new schools or take care of 40% of the DOE's backlog in repair and maintenance. So, we have a legal obligation to build and maintain our public schools, and we have no legal obligation to provide massive public entertainment venues. Thank you."

Representative McDermott rose to speak in support of the measure, stating:

"Mr. Speaker, I stand in support. I think this is a great idea, long overdue. Particularly, if you've ever been in the men's restroom at the stadium, you'll know what I'm talking about. It's long overdue, Mr. Speaker. And we spend so much on repair and maintenance each year, it's become a black hole and it's just not a fixture to attract big time events from the mainland.

"I'm very proud that the majority has taken this on knowing that you're going to get flak for it, but it's something that needed to be done, it has to be done, and I have been advocating it for years, myself. I just think it's just a great opportunity and we're going to bring in more acts and I'm excited by the proposal I've seen laid out, you try to maximize the use of land with some housing and shopping and all these things.

"So, I want to salute my colleague, whose area I used to represent years ago, and the Senate for working together on this. And I just think, you know, we hammer you guys, the minority hammered you when we think you deserve it, and in this case I think you deserve some kudos, so, well done, sir."

Representative Todd rose to speak in support of the measure, stating:

"Thank you, in support. I just want to point out that, according to the Stadium Authority's most recent projections, Aloha Stadium is already going to require at least \$30 million over the next two years just for, in public money, for maintenance. And the new stadium, in theory at least, should be more cost effective and be a better use of public resources. In addition to that, I know that a new stadium, if it's going through HCDA, will have an opportunity for more public-private partnerships and have an opportunity to shift some of that tax burden away from the public and more towards private sector. Thank you."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, strong support for the concept, weak support, if not no, for the funding. Therefore probably, what, with reservations. We need a stadium. We are, we can be the sports center of the Pacific. This has got a lot of potential and we need a new stadium. But the way we're funding it, I totally agree with the gentlelady from Wahiawa. We have \$300 million we're throwing out the window.

"All of you watched, well let's say, most of you watch the Pro Bowl. When you saw the helicopters zeroing in on the arena, what did you see? You saw the Mercedes emblem, \$328 million worth for 30 years. Why are we not even asking, Mr. Speaker, for the private sector to chip in? Name it, whatever they, well, whatever is reasonable that they want.

"I cannot understand why we're waiting for government to pay for everything. As I said two days ago, the future of government is going to be

public and private sector. This is a great opportunity to get somebody's name all over that new stadium, which we do need. But to fund it by these GO bonds, I think is, can I say stupid, Mr. Speaker, or is that going to malign somebody?"

Speaker Saiki: "Please find a synonym."

Representative Ward: "I'll say it's foolhardy, penny wise and pound foolish when we put GO bonds where we could put private sector funds. For those reasons, Mr. Speaker, with reservations. But I hate the funding mechanism. Thank you."

Representative Quinlan rose to speak in support of the measure, stating:

"Strong support, Mr. Speaker. We're not going to get anywhere close to \$350 million dollars upfront no matter how much of the naming rights or building or the stadium we sell. So, I'm fine with the funding method, and I think it's time, and I want to thank the introducer. Thank you."

Representative Luke rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. I just wanted to point out that the investment that we will make on this, this is one of the biggest economic drivers and economic opportunity bills that we have this session. The amount that we are investing on this will, as the former Representative from that area pointed out, this is going to have huge economic opportunities and development to really look at the next set of development.

"We cannot continue to develop Kakaako, Mr. Speaker, as you know, we cannot continue to have more and more vertical approaches. We need to look at the next community that needs economic opportunities and development. And this area, the Aiea-Salt Lake area, a lot of times has been the area that a lot of the things that people, communities don't want including public housing, other type of, you know, it's neighboring the jails and everything that happens in that area. We need to support that community, and this is going to have huge economic opportunities.

"The other thing I wanted to point out is that the funding mechanism allows for \$50 million of front cash, and that's to allow HCDA in conjunction with the Stadium Authority to start looking at the infrastructure. There is, I can tell you, there is no developer who is going to want to take on the responsibility of building out the infrastructure. And so what this is doing is it's providing \$50 million to complete the EIS and other foundational work and it allows for \$150 million in GO. And that is the capital improvement bonding that the State is investing for the infrastructure, which is the sewer compacity, the water compacity, and other things that generally a lot of even the naming rights or the investors or other entities will not invest in, that's the expectation of the State, and that's why Kakaako has been so successful, because the State put in all that infrastructure work.

"And the missing piece that the Minority Leader pointed out is actually in this bill. That's why this bill allows for \$150 million in revenue bonds. The revenue bonds is the maximum commercial opportunity for the stadium, because the revenue bond is giving the directive to the Stadium Authority and HCDA to look at commercial activity, to look at public-private partnership, to look at other type of sources so that we are sending a message to the stadium that the State will not pay for the entire thing. We will invest the \$150, but the additional \$150 will come from private sources, and that's how they're going to build out the stadium. So, thank you very much."

Representative McDermott rose to respond, stating:

"Mr. Speaker, second time, still in support. What some folks fail to realize is that it's almost impossible to get a large sponsor like TD Ameritrade or Wells Fargo when you don't have a professional sports team anchoring that facility. We do not have a professional sports team. Therefore, it falls upon us to provide the facilities for the entire state. UH is our professional team, okay, if you will.

"So, we will get investments, but they will be smaller in scale because you don't have the repetitive nature of your name being mentioned over and over for like 42 NBA home games. Wells Fargo where the sixers play, that gets

mentioned 42 times on national television or local television. So, we don't have a professional team anchoring the stadium, so that we're not going to get \$100 million naming. That's just not going to happen. So, we have to be creative, and I think they have done a good job of figuring out ways to do that. Thank you, sir."

Representative San Buenaventura rose to speak in support of the measure, stating:

"In support. And I'd like to point out that it was embarrassing that in December 2015, that the US Women's Soccer cancelled an international tournament because our stadium was not up to snuff. So, I'm hoping that these kinds of international embarrassments will not occur. Thank you."

Representative Ward rose to respond, stating:

"Mr. Speaker, with reservations, mini rebuttal, if I may. I'm very pleased to hear that there is \$150 million suggested, projected for commercial utilization. However, that's probably rental space and other kinds of concessions which we have at the airport. It's very lucrative, it's good. Naming rights may be in the fine print without ink that's visible. But I would say if we can do a committee report that says naming rights that are naming rights. And to my good friend from the North Shore, the art of the deal is if you want \$100 million, you ask for \$300 million. As for my colleague from Ewa Beach, if you don't ask, you don't get, and we don't have a team, but we have 10 million tourists who can participate in what otherwise are international sports. For those reasons, Mr. Speaker, I still have reservations, seriously, about the way it's funded. Thank you."

Representative Johanson rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker, and thank you for the opportunity to speak on House Bill 1497, Standing Committee Report 1243. In support. I appreciate all the comments made by our fellow colleagues, so I won't belabor the point, but I think the one thing that hasn't been mentioned that also bears worth noting is, and the Chair of Finance alluded to this, in addition to the incredible amount of state infrastructure that this region hosts, which includes two freeways that most people drive through our districts on, the airport, the stadium, Halawa, the prison, soon to be the new jail if it gets built in Halawa, as well as the harbors, it's a burden that many of the people in the sort of Kalihi to Aiea corridor accept and, I think, do a great job of understanding their role in playing a part of the bigger whole."

"But what also doesn't get enough attention, Mr. Speaker, and, I think one of the catalysts for this bill, is the region also hosts one of the number one tourist attractions in the State of Hawaii, which is Pearl Harbor. It will soon be a major rail stop. And one of the things that I think this body is trying to do and be a little bit more creative on behalf of the taxpayer for, is to look at how we leverage and maximize much of the public expenditure that we are doing. To be faithful, not just to one project."

"So, this is about a stadium, but it's also about the 98-parcel property that surrounds it. And it's also about the ancillary areas that are on the immediate periphery that have so much potential but are sort of disjointed and not connected and often, because of that, really lacks being fully maximized. And I think we owe it to the taxpayer to continue to explore how do we, in a responsible way, really leverage the sacrifice that we're asking them to make. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1497, HD 3, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAII COMMUNITY DEVELOPMENT AUTHORITY," passed Third Reading by a vote of 50 ayes to 1 no, with Representative Ward voting aye with reservations, and with Representative Perruso voting no.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1247) recommending that H.B. No. 942, HD 1, as amended in HD 2, pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 942, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Thielen rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I'm rising in support, but I do have a little bit of reservations on this. Thank you. Mr. Speaker, I really applaud the Finance Committee chair and members for now taking the settlement money out of the respective department budgets. I think that's the best way to send that message back to those departments. Your budget will be docked if you don't take care of matters in a way that you don't end up being sued."

"My one concern is, I don't feel that we would have had to pay the Aloha Pregnancy Care and Counseling Center funding or settlement if we had changed the language of the law from the imperative to the indicative. And I'll just reference the remarks in the House Journal on the 47th Day in 2017, page 507. So sometimes a grammar lesson can save us a lot of money. In this case, unfortunately, we left the language mandatory, and that's what the courts struck. Thank you."

Representative Har rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. In support with reservations. As you know, this is our annual claims against the state bill, and as a general rule I vote no for principle reasons. But this year I am voting with reservations and in support, because I am going to support actually the previously speaker's, the settlement, the \$60,000 that is awarded pursuant to House Bill 942, House Draft 2. That said, first and foremost, Mr. Speaker, may I adopt the words of the previous speaker from Kailua into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Har continued, stating:

"And again, I think it behooves us. We knew that this bill was unconstitutional on its face. We were warned by many of the testifiers. And in fact there was a similar case that was in Arizona, I believe, that really set the precedent with respect to the constitutionality of this bill, yet we proceeded."

"You know, I pride myself on the fact that I think that this body, we really are judicious with our taxpayer dollars. And so, this really is quite frankly a waste of \$60,000, and while \$60,000 in the big scheme of things may not seem like a lot of money, to the average taxpayer, it's a lot of money."

"And so, this is something we need to be prudent, it behooves us. If we know that a bill is unconstitutional on its face, let's be careful with these types of things. When we move forward, let's be judicious, let's think about the taxpayer's dollars that will be funding the settlement now. For those reasons, I stand in support with reservations. Thank you, Mr. Speaker."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, in support. Mr. Speaker, I think we're all on the same wavelength. I call it a teachable moment, I call it a lesson learned. Also, maybe for those who are freshmen, your votes cost money. If we would have heeded the fact that you can't say in a pregnancy counselling center that, hey, you can get an abortion down the street. The votes that took place here have cost us \$60,000. I think that's a teachable moment, and when we do vote and there are going to be very marginally constitutional, I think we end up paying as we have today. So, Mr. Speaker, this is a teachable moment. It's one that if we monetized or made metrics of our votes, we would probably be a bit more circumspect. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 942, HD 2, entitled: "A BILL FOR AN ACT MAKING APPROPRIATIONS FOR CLAIMS AGAINST THE STATE, ITS OFFICERS, OR ITS EMPLOYEES," passed Third Reading by a vote of 50 ayes to 1 no, with Representatives Har and Thielen voting aye with reservations, and with Representative McKelvey voting no.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1248) recommending that H.B. No. 773, HD 1, as amended in HD 2, pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 773, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Matsumoto rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. In support with reservations. I support the intent of the bill, I think it's so important to support our film industry, our creative industry. I was a graduate of the Academy for Creative Media at the University of Hawaii, and so I understand a lot what the film industry needs. I mean, just last year they had \$477 million in direct production expenditures, and that translated into more than \$800 million in overall economic activity for the State.

"However, with this bill, I don't think it's time to restructure and reorganize our film office. It could be extremely time consuming and potentially divert all the efforts and the good work that they're doing right now. Thank you."

Representative McKelvey rose to speak in support of the measure, stating:

"In support. And it's the auditor's report as to why this is very necessary. And if we want to create more actual opportunity from productions coming to Hawaii, we need to link the workforce that we're investing into to the actual production office that's giving out credits to these companies. Thank you very much."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 773, HD 2, entitled: "A BILL FOR AN ACT RELATING TO THE DEPARTMENT OF BUSINESS, ECONOMIC DEVELOPMENT, AND TOURISM," passed Third Reading by a vote of 51 ayes, with Representative Matsumoto voting aye with reservations.

At 11:03 o'clock a.m., the Chair noted that the following bills passed Third Reading:

H.B. No. 125, HD 1
 H.B. No. 1485, HD 2
 H.B. No. 1143, HD 2
 H.B. No. 1503, HD 2
 H.B. No. 615, HD 3
 H.B. No. 1319, HD 2
 H.B. No. 821, HD 2
 H.B. No. 897, HD 2
 H.B. No. 356, HD 1
 H.B. No. 748, HD 2
 H.B. No. 1382, HD 2
 H.B. No. 1490, HD 2
 H.B. No. 419, HD 2
 H.B. No. 548, HD 2
 H.B. No. 158, HD 1
 H.B. No. 1358, HD 1
 H.B. No. 1497, HD 3
 H.B. No. 942, HD 2
 H.B. No. 773, HD 2

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1249) recommending that H.B. No. 622, HD 1, as amended in HD 2, pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 622, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Matayoshi rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Matayoshi's written remarks are as follows:

"I am voting with reservations on HB 622, HD1, I would like that my concerns be noted in the Journal as follows.

"While I understand the desire for greater accountability, implementing a purchase order system will impair charter schools' ability to easily and quickly access their funds. Instead, individual charter schools should maintain individual accounts which they can use to access charter school funds. This would allow for oversight and accountability without further burdening our underfunded charter schools.

"As to the proposed audits, I am against putting more financial strains on all charter schools in Hawaii when the Charter School Commission has already identified the four to five charter schools that need independent oversight. The Charter School Commission is appointed by the Board of Directors at the DOE and are put in place to maintain the rules and standards of education across all charter schools in the state. Given the Charter School Commission's previous identification of the schools that need this added oversight, it would be wise to target just the charter schools that need it, as opposed to a blanket approach in legislation."

Representative Okimoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative DeCoite rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. In support with reservations, brief comment. Mr. Speaker, while I believe this is a really good bill pertaining to charter schools, I believe those schools that are in compliance are subjected to the purchase order system that could really affect them in those areas with limited resources. Deviating from the purchase order could really affect these schools in having supplies in a timely manner or having supplies being distributed to the island. So, thank you, Mr. Speaker."

Representative Tarnas rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative San Buenaventura rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Woodson rose to speak in support of the measure, stating:

"Mr. Speaker, in support, please. Thank you, Mr. Speaker. I appreciate the previous comments. This proposal seeks to actually incorporate a purchase order system which is similar to what is already required in the rest of our governmental agencies. And as the proposal moves forward, we will be looking at only applying this to those institutions that are under federal investigation. But for now, I request favorable consideration for the proposal. Thank you."

Representative Har rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 622, HD 2, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC CHARTER SCHOOLS," passed Third Reading by a vote of 48 ayes to 2 noes, with Representatives DeCoite, Har, Matayoshi, Okimoto, San Buenaventura and Tarnas voting aye with reservations, with Representatives McDermott and Ward voting no, and with Representative Ichiyama being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1250) recommending that H.B. No. 172, HD 1 pass Third Reading.

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 172, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE BUDGET OF THE OFFICE OF HAWAIIAN AFFAIRS," passed Third Reading by a vote of 50 ayes, with Representative Ichiyama being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1251) recommending that H.B. No. 402, HD 1 pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 402, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Holt rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. First, I'd like to thank the chair of the Water, Land, & Hawaiian Affairs Committee as well as the chair of the Finance Committee for all the hard work done on this very important issue.

"Mr. Speaker, as the introducer of this bill, I may have made a mistake as the title should have been 'relating to the betterment of the conditions of Native Hawaiians,' because that's what this bill here is about.

"To give some history on this issue, I'd like to read a few passages from Attorney General Opinion 03-04, which is in response to questions from Senator Les Ihara and former Representative Ezra Kanoho regarding ceded land payments. This is from the opinion. Section 5(f) of the Admission Act of 1959 makes an undifferentiated interest in the income and proceeds from the ceded lands available to Native Hawaiians, but leaves it to the State's Constitution and statutes to detail how this objective is accomplished. The State Constitution expressly makes Native Hawaiians the beneficiaries of the section 5(f) trust lands, and directs the Legislature to quantify the extent of Native Hawaiians' interest in ceded land receipts.

"The Legislature has responded to the Constitution's direction in HRS section 10-13.5 and specified that 20% of all funds derived from the public land trust, described in section 10-3, shall be expended by OHA for the purposes of this chapter.

"Further on in opinion, the delegates to the 1978 Constitutional Convention added article XII, sections 4, 5, and 6 to the State Constitution to provide further details on how the ceded land receipts were to be used to accomplish section 5(f)'s purposes. Section 6 sets out the powers of OHA's trustees, and implicitly directs the Legislature to quantify the extent of the Native Hawaiians' share of ceded land receipts.

"Mr. Speaker, by recent accounting, 20% of ceded land revenues amounts to about \$35 million a year. The current amount transferred to OHA is \$15 million as set by the Legislature in 2006. Imagine what an additional \$20 million could do for the betterment of the conditions of Native Hawaiians. Colleagues, we are here 13 years later with a chance to update this amount as only we can, as prescribed by the Constitution. Thank you, Mr. Speaker."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, strong support. Request for, let me put it this way, the gentleman who just spoke, his remarks including mine for the Journal please," and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 402, HD 1, entitled: "A BILL FOR AN ACT RELATING TO INCREASING THE OFFICE OF HAWAIIAN AFFAIRS' PRO RATA SHARE OF PUBLIC LAND TRUST FUNDS," passed Third Reading by a vote of 50 ayes, with Representative Ichiyama being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1252) recommending that H.B. No. 1326, HD 1, as amended in HD 2, pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1326, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Matayoshi rose to disclose a potential conflict of interest, stating:

"Ruling on a potential conflict. The law firm I'm employed at represents one of the parties involved in these water matters."

The Chair addressed Representative Matayoshi, stating:

"You'll be recused from voting on this measure under these limited circumstances."

Representative Thielen rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. Mr. Speaker, I'm rising in strong opposition to this bill and I would like my remarks primarily to be placed into the Journal, but I do have a few words I just wanted to lead off with. This bill purposes to extend by another seven years the sunset date of Act 126. And it will essentially allow large corporations to further abuse the system of revocable water permits and, in the process, further bleed our streams and rivers dry.

"And the rest of my remarks I would like to go into the Journal, but I would strongly urge members to rethink their vote, if they're vote is in favor or in favor with reservations, and to stop extending this deadline and in favor of the large corporations. I think the bill is bad policy and should not move forward. Thank you."

Representative Thielen's written remarks are as follows:

"In 2016, HB 2501 barely squeezed through this body and was signed into law as Act 126, which allowed consecutive one-year holdovers of revocable water permits.

"The purported intent of the law was to allow the small guys, our family farms and cultural practitioners, to have access to water while waiting on an application for the disposition of water rights to be resolved.

"This was a valiant aim: environmental assessments are often costly, outpacing the financial capacity of most family-run businesses.

"Unfortunately, in the process this body used a chainsaw when we should have used a scalpel.

"Companies like Alexander and Baldwin on Maui and Kauai Island Utility Cooperative's hydropower plant are using the one-year holdovers as a way to escape their responsibility to the public trust.

"Instead of complying with the required environmental studies and finding out just what kind of impact they're having on one of our state's most precious public resources, they're using the one-year holdovers to divert almost endless amounts of water scot-free.

"Diversion are drying out downstream farms, desiccating kalo farms, and reducing the vital replenishment of aquifers.

"We need to create a permanent fix to this system so that our small farmers have access to the resources they need to survive. But this bill is not the fix. Why should we allow another seven years of holdover permits?

"Alexander & Baldwin has failed to fulfill a 15-year-old court order to conduct an environmental assessment for its diversion of over 100 East Maui streams and tributaries.

"Since the passage of Act 126, there has been no visible progress on the completion of environmental assessments or environmental impact statements.

"The environmental destruction being done by these big corporations is too large to excuse for the sake of protecting 'the little guy.'

"We must fulfill our Constitutional duty to safeguard our state's water resources for the benefit of small farmers and cultural practitioners, and ensure these resources are available for future generations.

"Because this once again will end up working to the benefit of negligent corporations to the detriment of the rest of our state, I stand in strong opposition.

"Thank you, Mr. Speaker."

Representative Onishi rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Mr. Speaker, this particular bill will affect ranchers and farmers in my district who are currently on month to month permits. The Department of Land and Natural Resources was supposed to be vetting this process in order to evaluate and provide them with access to water. It has taken longer than expected, and this extension is necessary in order to continue the operations of small farms in my district, coffee farmers, not large corporations, a ranch that does ranching in the Kau district. So, I'm in support of this bill. Thank you."

Representative Kitagawa rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Perruso rose to speak in opposition to the measure, stating:

"Rising in opposition. Alexander & Baldwin is currently diverting water from over 100 East Maui streams and tributaries on 17,000 acres of public watershed lands despite a 15-year-old court order compelling A&B to conduct an environmental assessment. In 2016, this Legislature passed Act 126, allowing holdovers of A&B's revocable permits on Maui to continue without satisfying the environmental review requirement that had been mandated in court. Yet Act 126 also stated that upon sunset, any holdover granted should be consistent with the public trust.

"Since 2016, A&B has not completed an environmental assessment or environmental impact statement for its water diversion practices, which undermine Native Hawaiian traditional and customary practices and the sustainability of coastal ecosystems. There is no indication that A&B's private watershed lands and wells are insufficient for its projected water needs and agricultural plans.

"Moreover, this plan is not constrained to Maui. On Kauai, the Kauai Island Utility Corporation has been diverting nearly all of the baseflow of Waialeale stream for over 15 years without justifying its actions or assessing the environmental and cultural impacts of this diversion.

"Today, temporary permits are being used to abuse the public trust and weaken accountability for failures to perform mandatory environmental and cultural reviews.

"We spend a significant amount of energy in this body and in this building talking about holding state agencies accountable and compelling them to be transparent in their work for the public good. I think that we should start spending more energy holding developers and large corporations accountable for their use of public resources. As we've heard in our islands and across our nation, water is life. We should preserve our water supply for future generations rather than encouraging the further colonization of our 'āina by real estate corporations for whom the land is and always has been merely a source of profit."

Representative Eli rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Wildberger rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I stand in opposition to HB 1326. Because corporate interests of A&B and KIUC could have been pulled out of this bill and small farmers would not be pawns in what constitutes normalizing water theft, because I feel this body is abdicating its *kuleana* to uphold our public trust doctrine, because this flies in the face of our State Constitution, because this is a corporate giveaway of a public resource, because my community supports my message that the era of puritanical plantation patriarchy is over

or at least it should be, I ask my colleagues to join me in voting no on this business as usual bill. *E ola i ka wai*. Water is life. Thank you, Mr. Speaker."

Representative Nakamura rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. I'm just confirming that my excusal from the second reading applies to third reading."

The Chair addressed Representative Nakamura, stating:

"Yes, it applies here."

Representative DeCoite rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"In opposition. I am opposed to this bill because the historic diversion of free-flowing streams in East Maui caused devastating impacts to stream ecosystems, fisheries, cultural traditions, and subsistence communities. The Board of Land and Natural Resources has failed to comply with state laws regarding environmental impact statements, despite a 2003 court ruling that requires an environmental assessment to be performed before any water use permits are issued. The board has failed to limit diversions from public lands, failed to require measurements of the quantity of water taken from each stream, failed to protect aquatic life, and failed to enforce permit conditions. We cannot continue issuing holdover water permits forever. We need to stop and correct this situation. I am a farmer and a strong supporter of agriculture throughout Hawaii, however, we must be responsible stewards of our precious water resources. The bill before us today does not reflect the responsible stewardship we need. *Mahalo*."

Representative Tokioka rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I wasn't going to stand up and say anything, but two previous speakers talked about Kauai Island Utility Corporation. And so, I just want to share with the members that, being from Kauai, Kauai Island Utility has been a leader in sustainable energy throughout the state. In fact, many of you who sit on the Energy & Environmental Protection Committee praise the efforts of Kauai Island Utility, and I do as well.

"This year they're at 65% renewable energy and by 2030 their plan is to be at 100% renewable energy. Part of this permit will allow them to get a permit that would allow them to put in to more sustainable energy through another hydro plant. They have two, there are partnerships with two current hydro plants, one in Wainiha and one in Koloa. So, if you just look at the results of KIUC and I think some of them talked about a corporation, this corporation is managed by the people and for the people. I don't know of any other utility company in the State of Hawaii that can elect people through the election process to put them on the board of KIUC and oversee them, and if they don't like them, they can vote them out.

"So, I praise what they're doing, and I ask for the support of the members on this bill. And I also thank the chairs of Water, Land and Finance for moving this bill to help Kauai Island Utility. Thank you very much, Mr. Speaker."

Representative Lowen rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative San Buenaventura rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations and short comments. I am fully aware of the need to monitor and not to just give a blanket renewal each time. However, as the speaker from Kauai noted, as far as hydroelectric plants they do not remove water, they divert, and if we are going for 100% renewable energy, we should really try to foster that kind of wise energy usage.

"And the second thing is, if we don't allow, I would request really an amendment to this as we move forward to require goals as to determine how far they are in the EIS process. Because I can see the need for an EIS and, you know, the law requires it, and the fact that we are allowing them without the EIS process, that's reason I'm standing with reservations. But if we don't allow this, I am concerned that we are further increasing the concreteness of Hawaii. And for those reasons, support with reservations."

Representative Har rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative McKelvey rose to speak in opposition to the measure, stating:

"Mr. Speaker, I wasn't planning to stand up, but I'm standing in opposition because the reasons why I can't support this measure are my own and that of my constituents. Thank you."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1326, HD 2, entitled: "A BILL FOR AN ACT RELATING TO WATER RIGHTS," passed Third Reading by a vote of 39 ayes to 9 noes, with Representatives Har, Lowen, Matsumoto, San Buenaventura and Ward voting aye with reservations, with Representatives DeCoite, Eli, Gates, Kitagawa, D. Kobayashi, McKelvey, Perruso, Thielen and Wildberger voting no, and with Representatives Ichiyama, Matayoshi and Nakamura being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1255) recommending that H.B. No. 601, HD 1 pass Third Reading.

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 601, HD 1, entitled: "A BILL FOR AN ACT RELATING TO EXEMPTIONS FROM REGISTRATION FEES," passed Third Reading by a vote of 50 ayes, with Representative Ichiyama being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1257) recommending that H.B. No. 993, HD 2 pass Third Reading.

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 993, HD 2, entitled: "A BILL FOR AN ACT RELATING TO EMERGENCY MANAGEMENT," passed Third Reading by a vote of 50 ayes, with Representative Ichiyama being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1266) recommending that H.B. No. 1124, HD 1, as amended in HD 2, pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1124, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Okimoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1124, HD 2, entitled: "A BILL FOR AN ACT RELATING TO THE DEPARTMENT OF COMMERCE AND CONSUMER AFFAIRS," passed Third Reading by a vote of 50 ayes, with Representative Okimoto voting aye with reservations, and with Representative Ichiyama being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1284) recommending that H.B. No. 893, HD 1, as amended in HD 2, pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 893, HD 2 pass Third Reading, seconded by Representative Morikawa.

At this time, Representative Ward offered Floor Amendment No. 2, amending H.B. No. 893, HD 2, as follows:

SECTION 1. House Bill No. 893, H.D. 2, is amended as follows:

1. In section 3 of the bill, by replacing the amounts for general funds for Administration and Operating Support (HHL 625) to \$28,000,000 for FY2019 and \$28,000,000 for FY2020.

Representative Ward moved that Floor Amendment No. 2 be adopted, seconded by Representative McDermott.

Representative Ward rose to speak in support of the proposed floor amendment, stating:

"Mr. Speaker, I was going to start out with a ruling on a potential conflict, but as I thought through it, it's probably not appropriate, maybe I should just do a disclosure. Because a lot of people say, Ward, why are you doing this for DHHL, what's with your motivation? And I say, well I don't have a lot of Hawaiians in my community, I'm not running for higher office, but I'm an old Peace Corps volunteer who quotes Jack Kennedy a lot because of what we were doing in the villages of the world, saying we're not there to win friends for the Russians or win friends for the Americans, we're there because it's right.

"So, Mr. Speaker, this amendment is the right thing to do because what it does is three things. Number one, it restores the Governor's funding into the budget. The Governor's funding was \$25 million. But it also goes one step beyond and then gives the Castagnetti decision, which said, by according to the Constitution, there should be \$28-plus million for the Department of Hawaiian Home Lands just to keep their lights on and hire their employees. But thirdly and most importantly, Mr. Speaker, why I'm doing this, not only because it's right, it restores the dignity and gives hope for what otherwise, the Hawaiians for 100 years have waited for the 200, 300,000 acres that were given for what is now a 27,000-person waitlist with only 9,700 houses.

"Mr. Speaker, this body belies the fact that there are 7,000 homeless people we've got to help. Well, the Hawaiians have waited for 100 years to implement this act. And the audacity to zero out its budget to \$1,750,000 general funds, A funds, is unbelievable.

"Now, I know somebody is going to say, well look, there's a defective date, so it's still under discussion. But Mr. Speaker, it's a damning with faint praise if that's the reason why we would zero out the Hawaiian's budget.

"When there is money in the budget, it's never what the Castagnetti decision says. And when there's an ask for building more houses, generally they get 10 cents on the dollar. I said earlier, if you want \$100 million, you've got to ask for \$200 or \$300 million. Whereas here they usually ask for \$100 million to build houses and we give them \$10 million. In this case, we haven't given them anything, we've got federal funds and trust funds only.

"So, Mr. Speaker, where's justice, where's fairness, where's 100 years of playing around with the Hawaiians? And you know I've stood here for 10 different sessions and I've heard a lot of pabulum given to the Hawaiian community when it comes to their issues. The young gentleman earlier mentioned some of the things that were not fair and just regarding the ceded lands. Well, Mr. Speaker, this has been on the books for 100 years and we're still not resolving it. And because of those reasons, an amendment is very much in order, and for those reasons I so move. Thank you."

Representative Luke rose to speak in opposition to the proposed floor amendment, stating:

"Thank you, Mr. Speaker. In opposition to the floor amendment. First of all, I wanted to correct some of the things on the record. The Governor's budget did not include \$25 million, the Governor's budget included no additional funds than what's included in the base, which is \$9 million. So,

that's number one. The second thing is that the Castagnetti decision has been overturned by the Supreme Court. So, as a responsible body, we cannot pick and choose which decision we want, we need to comply by the last decision, which is the Supreme Court's decision, which overruled the \$28 million, and the Supreme Court determined that it is up to the Legislature to set that amount.

"The third thing is, the amount that was provided to DHHL for the operation of DHHL for the budget, for the department of DHHL, both the Governor and the Legislature determined that it was about \$9 million. Out of the \$9 million, DHHL continued to struggle with fully spending that amount. The Legislature, because we wanted to give a lot of room for the department, has not been taking the same approach with this department as the other departments in taking back a lot of the vacant positions. The approach that the Finance Committee and this Legislature has done in looking forward towards transparent and responsible governing is to be very strict on taking back vacant positions that have been vacant for a long time. With DHHL, because we understand the situation that they are in, we have been very judicious and generous in leaving a lot of the vacant positions. In spite of that, they continue to struggle with a lot of vacancies and they cannot spend down the \$9 million.

"What we forget and what the Minority Leader forgets to mention, is that in addition to the \$9 million appropriated for the operation, the Supreme Court struck down the constitutional requirement for the Legislature to fund lot improvement or other capital improvement projects. In spite of that, in spite of the fact that the Supreme Court said there is no obligation by the Legislature to provide these funding to Department of Hawaiian Home Lands, the Legislature continues to fund, thanks to the CIP Chair and thanks to this body, actually, to provide about \$20 million or more in other expenses.

"So, including the CIP funding that we continue to provide, in spite of the fact that there is no obligation placed upon this body to provide CIP funding. Included in that is grants in aid, thanks to the prior chairs of grants in aid, including the Representative from Kona and the Vice Chair of Finance. They provided millions of dollars in grant services to homestead association and other beneficiaries of DHHL that are not provided by the DHHL budget.

"So, when we look at the DHHL budget we cannot just look at staffing. The staffing itself is not going to help place these individuals who are on the wait list on land. What we need to look at is staffing, and adequate staffing, which right now they are still having a difficult time because they cannot even find enough employees to fill even positions for \$9 million. But we need to look at lot development, we need to look at other things. And what we have failed to hear is, a lot of times the Department of Hawaiian Home Lands, when you look at the land that they have been given by the Federal Government, they are sitting on lands that don't have infrastructure, don't have substantial sewer and water capacity.

"So, what we, as a responsible body, need to look at it is, hey you know, why should Native Hawaiians be only limited in living on those lands that they're given. We should be looking at things in other areas, including Hawaii Kai, East Honolulu, other areas that have the infrastructure. And so that's the failure of this body, that we don't voluntarily give up land within our districts to help elevate the Hawaiian people. So, thank you very much."

Representative Ward rose to respond, stating:

"Thank you, Mr. Speaker. Still in support of the amendment and I thank the good Chair of Finance. And Mr. Speaker, who am I to challenge and debate the Chair of Finance. Well, it's not about me, it's not about her, it's about this body and its fiduciary responsibility of 1921 with the U.S. Congress in 1959 when we became a state and assume the responsibility of the Hawaiian Homes Act of 1921. It's the law, Mr. Speaker.

"Now, one by one in what the good Chair said. Unless my staff was delusional last night, it is in the Governor's budget, and there's \$25 million. Secondly, the cost of the Castagnetti decision. The Castagnetti decision said \$28 million. If you understand the history of the Castagnetti decision, it was Nelson, Nelson a poor homesteader, who was so frustrated, like maybe I'm expressing today, with, why don't you guys give us some money to build the houses? One hundred years, 9,700 houses. Why don't you guys give us the

money? He took the State to court, won over a five-year period, probably five victories. But, Mr. Speaker, he's a homesteader, these are the people who should be pushing that for the funding of it. That's what the purpose of the amendment is.

"Granted, DHHL has vacancies, it has flaws. But Mr. Speaker, when you need money to build infrastructure, to build houses, all of the good Chair of Finance's excuses are just that. She did it in an excellent way, but it explains away our job. Our job, particularly before we see the census, where it says hey there's no more Hawaiians eligible, it's 50% blood quantum. Are we going to wait till then? That's ok, say, oh well, yeah, we can't give you money because there's not enough eligible Hawaiians. Well, the way that marriage and the way that the homestead demography is going, Mr. Speaker, there will not be Hawaiians eligible, and we've only got 9,700 homesteads, 203,000 acres. Bishop Estate only has 365,000 acres. This is a land rich department, but it's cash poor. And its cash poor because of this body and the Senate."

Representative Say rose to yield his time, and the Chair "so ordered."

Representative Ward continued, stating:

"Thank you, Speaker Emeritus. Cash poor, land rich. I would wish that the Chair of Finance's good wish to put Hawaiians in Hawaii Kai could come true. If there was the money to put in to do it. Because they should be buying more land. Prince Kuhio said there should be an independent self-sufficient Hawaiian community in the State of Hawaii. Independent and self-sufficient. Now it's a dependency, with people begging, give us the money that the Congress said should be the case, give us the money that the State agreed to in 1959.

"So, Mr. Speaker, what's the solution? We can explain away this forever and ever. But I know there's a frustration in the Hawaiian community, a disappointment in the Hawaiian community. There's one third of the homeless from the Hawaiian community. How long does this have to go? Many of you know that I interviewed all of the former directors of DHHL. They thought it was a great act, but they never felt they had the resources. They were disappointed in what they couldn't accomplish. So, we call that research project Broken Promises. Broken promises of 1921 and broken promises of 1959. We have a working group that is going to slowly go through the process of bringing attention to that issue, Mr. Speaker, but how long will the Hawaiians wait? How long should the Hawaiians wait for this?

"Again, this is not about me and it's not about the Finance Chair, it's about the people of Hawaii and the law of the U.S. Congress and the constitution of this state, Mr. Speaker. We all rose our hand to defend the Constitution, and it's right in the Constitution that we will sufficiently fund the Department of Hawaiian Home Lands. As of the 1978 constitution, it is the law of this land. To say that we are sufficiently funding the Department of Hawaiian Home Lands with no A funds except \$1,750,000, is a joke. Mr. Speaker, we can do better than this. We have to do better than this. And for those reasons, Mr. Speaker, this amendment will at least fund them, so they can keep their lights on, hire their people, and pay their people. For those reasons, Mr. Speaker, I ask people for their support. Thank you."

Representative Lee rose, stating:

"Mr. Speaker, I rise on a point of information. I appreciate the introducer of the floor amendment's intent, but I think for my purposes and I think for many of us and for this body, we rest on facts. And I'd just like to ask the previous speaker, or the introducer of the floor amendment, if indeed the premise that he's building his argument upon and those facts are indeed incorrect with respect to the amount of money in the budget on which this floor amendment is built, if that is incorrect, would he consider withdrawing his floor amendment?"

At 11:33 o'clock a.m., Representative Belatti requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 11:34 o'clock a.m.

Representative Luke rose to respond, stating:

"Thank you, Mr. Speaker. Still in opposition and, clearly, the Minority Leader needs to look at the budget documents, maybe half a year not being on Finance he forgot how to read the budget documents, but we know for a fact that the Governor did not put in the \$25 million. And the other thing is, the whole thing about operation is staffing, it's \$28 million of staffing, of which the Department of Hawaiian Home Lands cannot even fill the \$9 million. So, what we're saying is instead of providing more staffing funds, what we need to do is give them money for lot development and give them money for resources to develop homes. And in as much as the Minority Leader is skeptical of DHHL, DHHL has been doing its job and doing the best they can to whittle down the wait list, and so if he has a problem with the funding, maybe he should take it up with DHHL instead."

Representative Ward rose to respond, stating:

"Mr. Speaker, I have no rebuttal time, but I have request for comments in the Journal of which I will rebut."

Representative Ward's written remarks are as follows:

"Mr. Speaker, I stand in support of this amendment because I believe that this body of lawmakers has the legal and moral obligation to fulfill the mission of DHHL; we cannot do so if we refuse to adequately fund it. Circuit Judge Jeanette Castagnetti ruled in 2015 that the base number that DHHL needs to keep its lights on is \$28 million. Last year, we appropriated \$25.1 million in 'A' funds for HHL625; this is a far cry from the current proposal of \$1.75 million. Mr. Speaker, we must do what is right. That is why I urge my colleagues to support this floor amendment and make sure we enable the Department of serve the Hawaiian people.

"Mr. Speaker, I would also like the record to show that the base budget should in fact be \$25.1 million and would like to reference page 34 of last year's budget accordingly. Furthermore, I would also like to reference the Governor's request of \$25.5 million as stated in the Executive Budget-in-Brief, page 74, and DHHL's previous testimony on this measure.

"Lastly, I would like to point out that the current \$1.75 million is only for the Department's current 'lease payments' and would like to reference page 747 of the Governor's Executive Budget.

"Bottom line, Mr. Speaker, this is a far cry from this body's supposed baseline and my proposed request of \$28 million. In response to the good Finance Chair and other members' doubt to the accuracy of my budget figures, I would like to submit my letter to her with attachments."

Representative Ward also submitted the following letter:

REPRESENTATIVE GENE WARD, Ph. D.
MINORITY LEADER
STATE CAPITOL

March 6, 2019

The Honorable Sylvia Luke
Chair, House Committee on Finance
Hawaii State Capitol, Room 306
Honolulu, HI 96813

WHICH FLOOR SPEECH TO BELIEVE ABOUT THE DHHL BUDGET?

Aloha Chair Luke,

Thank you for the spirited discussion on my floor amendment to HB 893, HD2 yesterday.

However, I would like to address the statements made by you and Chair Yamane relating to the DHHL's operating budget (HHL625).

You said my budget figure of \$25 million of operating funds from the general funds ("A" Funds) was incorrect and we are to base a budget based "on facts" only. In your rebuttal following my speech, you stated the base budget for DHHL's operating expenses was around \$9 million. Chair Yamane stated that the request, as written in HB 893, HD2 reflects the desires of the Department of the Hawaiian Home Lands.

Unfortunately, there is nothing in the bill, the committee report, or the Department's testimony to support your claims.

See, for example, the Governor Ige's FB 2019-21 Executive Biennium Budget, "Budget in Brief," page 74, that clearly indicates funding for DHHL according to the Governor should be \$25,503,947 for FY2020 and \$25,510,167 for FY2021.

I have also listed DHHL Director, Jobie Masagatani's testimony in the January Info briefings and in February 8th budget hearing where she unequivocally stated that the Governor's request for \$25,503,947 for FY 2020 and \$25,510,167 for 2021 is to be, at the very least, the base of the general fund appropriation.

So you may clearly see where you are incorrect, my office has compiled the chronological general fund appropriations, and requests, on the following page:

*Numbers reflect baseline as requested by DHHL. This excludes the "Sufficient Sums" budget request.
**DHHL requests HB 893 HD1 be amended to reflect HHL625 in Governor's Executive budget request.

I have respectfully attached each source for your review. Aside from the \$1.75 million put forth in HB 893 HD1 and HB 893 HD2, the lowest appropriation for HHL625 is \$18,638,060, as listed in HB 2.

While I am a fan of your newly-implemented performance-based budgeting method and have praised you on the House Floor for undertaking such an approach, I am not convinced that any of the numbers requested/appropriated by the Chair of the Hawaiian Homes Commission, the Governor, or the Legislature merit such an abysmal operating budget for DHHL.

As the measure moves forward, I trust your efforts with Chairs Dela Cruz, Shimabukuro, and Yamane will produce a budget that will help the people native to these islands and provide the funds our constitution mandates.

The truth is DHHL cannot pay its staff and keep its lights on with a budget of \$1,750,000 of "A" General Funds. Please explain where any of the above figures are incorrect and the conclusion that DHHL's budget has been underfunded.

Aloha,

Representative Gene Ward

Representative Yamashita rose to speak in opposition to the proposed floor amendment, stating:

"Thank you very much, Mr. Speaker. In opposition of the floor amendment. Mr. Speaker, just to note, last biennium the appropriation for CIP appropriations, grant in aid and NAHASDA money was \$96.23 million. Thank you."

Representative Yamane rose to speak in opposition to the proposed floor amendment, stating:

"Mr. Speaker, in opposition. The underlying bill, Mr. Speaker, reflects what has been requested by the department. Mr. Speaker, myself and Finance staff has gone through it, looking at the positions available, the needs of the department, and currently this is their request, which came from the administration. Mr. Speaker, also I'd like to note the fact that if we are talking about fiscal accountability, throwing money to an entity that's not capable currently of dealing the budget at hand, as well needing more time to vet not only a future of how to develop these properties, but also their internal conflicts and potential investigations. Thank you, Mr. Speaker."

Representative McKelvey rose to speak in opposition to the proposed floor amendment, stating:

"Thank you, Mr. Speaker. In opposition, and as one who has a sizeable Native Hawaiian community, DHHL in my district, it's important that my constituents know the facts. And because of that, I'd like to adopt the words of the Water, Land Chair and the Chair of CIP as if they were my own. Thank you very much. And the Finance Chair, too," and the Chair "so ordered." (By reference only.)

Representative DeCoite rose to speak in opposition to the proposed floor amendment, stating:

"Thank you, Mr. Speaker. In opposition. As a Native Hawaiian and speaking on behalf of the budget itself and the strong support that we have from this body, we need to understand that when a department cannot handle its fair share of the budget and spend the money down, we call use it or lose it, it's a full waste of where monies could be put forward. While we have met with the many different associations and the different state leaders across the State of Hawaii this past year, it is apparent to us that the sufficient budget that is before us is adequate. Thank you, Mr. Speaker."

The motion that Floor Amendment No. 2, amending H.B. No. 893, HD 2, entitled: "A BILL FOR AN ACT RELATING TO THE DEPARTMENT OF HAWAIIAN HOME LANDS BUDGET," be adopted, was put to vote by the Chair and upon a voice vote, failed to carry, with Representative Ichiyama being excused.

(Main Motion)

Representative Okimoto rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, in weak support with reservations."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 893, HD 2, entitled: "A BILL FOR AN ACT RELATING TO THE DEPARTMENT OF HAWAIIAN HOME LANDS BUDGET," passed Third Reading by a vote of 49 ayes to 1 no, with Representative Okimoto voting aye with reservations, with Representative Ward voting no, and with Representative Ichiyama being excused.

At 11:40 o'clock a.m., the Chair noted that the following bills passed Third Reading:

H.B. No. 622, HD 2
H.B. No. 172, HD 1
H.B. No. 402, HD 1
H.B. No. 1326, HD 2
H.B. No. 601, HD 1
H.B. No. 993, HD 2
H.B. No. 1124, HD 2
H.B. No. 893, HD 2

At 11:40 o'clock a.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 11:43 o'clock a.m.

THIRD READING

H.B. No. 69, HD 1:

On motion by Representative Belatti, seconded by Representative Morikawa and carried, H.B. No. 69, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CONTRACTORS," passed Third Reading by a vote of 50 ayes to 1 no, with Representative D. Kobayashi voting no.

H.B. No. 295, HD 1:

Representative Belatti moved that H.B. No. 295, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Okimoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative San Buenaventura rose to speak in support of the measure with reservations, stating:

"In support, but with very strong reservations. HB 295 is a dangerous bill because it appears to be pro-prevention of domestic violence, but it has unintended consequences. In 2017, the Women's Caucus went statewide to

ask the proponents for women's rights as to what was the problem with enforcement of our domestic violence bills, and the biggest concern they had was delay and continuances.

"No one voiced the concerns stated in HB 295, because the reality is, and this is from someone who has been practicing family law for over two decades, that because of the judge's liberal interpretation of our current domestic violence laws, the truly domestic violence incidents are already being prosecuted and are already being subject to protective order. So, by increasing what is considered domestic abuse to include emotional abuse, which is very common on every relationship, people talk about name calling, people talk about coerciveness, you basically increase the docket. And by increasing the docket, you delay the enforcement of those protective orders and those domestic abuse cases that's already in the docket.

"So not only are we, that's why this is dangerous, by increasing, but also the definition of the coercive conduct. Coercive conduct includes humiliation, which includes name calling, very common, isolating a person from source of support, resources, depriving means, and regulating the person's everyday behavior. That is so common in every divorce case, Mr. Speaker.

"I know so many people who are wage earners who are basically getting allowances from their spouses, and they will be able to claim domestic abuse based upon this definition. And that's why this is dangerous, because of the kind of manipulation in very contested divorces, it's a kind of first to file kind of thing. And we've already prevented the kind of dual protective orders used by abusers to manipulate the system, we shouldn't give them more ammunition. And for those reasons, I am in support of the intent, but very, very strong reservations because of the unintended consequences. Thank you."

Representative Cabanilla Arakawa rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. Although I'm a female, I'm voting in opposition of this matter, because I think that once we pass this, the work load in family court will just not double, but probably quadruple, because it qualifies in every case. Thank you, Mr. Speaker."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative McKelvey rose to speak in support of the measure with reservations, stating:

"Thank you, with reservations. I'd like the words of Vice Chair of Judiciary entered in the record as if they were my own. Also, I just have a concern that this may actually create less choice for insurance and people being dropped, it could end up hurting the very people we're trying to protect. Thank you," and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and H.B. No. 295, HD 1, entitled: "A BILL FOR AN ACT RELATING TO DOMESTIC ABUSE," passed Third Reading by a vote of 50 ayes to 1 no, with Representatives McKelvey, Okimoto, San Buenaventura and Ward voting aye with reservations, and with Representative Cabanilla Arakawa voting no.

ACT RELATING TO REPORTS OF CANDIDATE COMMITTEES," passed Third Reading by a vote of 51 ayes.

H.B. No. 712, HD 1:

Representative Belatti moved that H.B. No. 712, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Okimoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative DeCoite rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Har rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and H.B. No. 712, HD 1, entitled: "A BILL FOR AN ACT RELATING TO ELECTIONS," passed Third Reading by a vote of 46 ayes to 5 noes, with Representatives DeCoite, Har, Matsumoto and Okimoto voting aye with reservations, and with Representatives Kong, McDermott, Say, Tokioka and Ward voting no.

H.B. No. 290, HD 1:

Representative Belatti moved that H.B. No. 290, HD 1 pass Third Reading, seconded by Representative Morikawa.

On motion by Representative Belatti, seconded by Representative Morikawa and carried, H.B. No. 213, HD 1, entitled: "A BILL FOR AN ACT RELATING TO PRIVATE PROPERTY," passed Third Reading by a vote of 51 ayes.

On motion by Representative Belatti, seconded by Representative Morikawa and carried, H.B. No. 1246, HD 1, entitled: "A BILL FOR AN ACT RELATING TO TRESPASS," passed Third Reading by a vote of 51 ayes.

H.B. No. 951, HD 1:

Representative Belatti moved that H.B. No. 951, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative San Buenaventura rose to speak in support of the measure with reservations, stating:

"I stand with reservations. My main concern is the strict liability for state language in this bill. Normally, strict liability, criminal law normally requires *mens rea*, which is basically an intentional purpose, and that is why we are criminalizing that action. By making it strict liability, basically we are saying that a doctor who prescribes a drug that is ultimately ingested by a minor, even though that doctor did not have any evil intent, then becomes criminally liable. I understand the civil liability, but criminal liability is a much stronger type of penalty. And so for those reasons, I stand in strong reservations."

The motion was put to vote by the Chair and carried, and H.B. No. 951, HD 1, entitled: "A BILL FOR AN ACT RELATING TO

MANSLAUGHTER," passed Third Reading by a vote of 51 ayes, with Representative San Buenaventura voting aye with reservations.

H.B. No. 1381, HD 1:

Representative Belatti moved that H.B. No. 1381, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Takayama rose to disclose a potential conflict of interest, stating:

The Chair addressed Representative Takayama, stating:

H.B. No. 307:

Representative Belatti moved that H.B. No. 307 pass Third Reading, seconded by Representative Morikawa.

Representative Thielen rose to speak in opposition to the measure, stating:

"Mr. Speaker, I'm rising to speak against the measure. This is House Bill 307, Relating to Renewable Energy, and what it does is adds a category to renewable energy in our state law. And that category is self-replenishing non-fossil fuel. Well, when you stop and look at what that possibly could be, one of the things could be nuclear power. Now I know you have to have a three-fourths vote in both houses to allow nuclear power to be able to be used in Hawaii, but at least by broadening the definition, the statutory change would be made.

"The other is natural gas, and it's still questionable whether natural gas really should be determined a renewable energy, natural renewable energy power. My concern is we're really putting the cart before the horse and we ought to take a look at what is the actual power that is seeking to be in this definition, and we ought to be able to vet that before we change the definition. I think we are doing it backward, and I would like to see great caution taken before we change the definition. Thank you."

Representative Perruso rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition. Mr. Speaker, this measure bypassed the Energy & Environmental Protection and Consumer Protection & Commerce Committees to which it was originally referred, instead being re-referred to the Finance Committee on February 28th. It was passed out of the Finance Committee unamended that afternoon. So, as a result, I'm uncertain that its impact has been properly vetted by the committees most responsible for its subject matter, especially since it has no defective date and could be passed by the Senate without the House having another chance to revisit the bill.

"This measure came up in 2016, at that time DBEDT and the Public Utilities Commission expressed strong reservations about the measure's lack of clarity. And I think that rather than providing a blanket provision that could be abused by entities seeking to exploit Hawaii's push toward clean energy future, we should be responsible policy makers and add emerging technologies contained in our state's definition of renewable energy after they have been established to improve and to advance the public interest. Thank you."

Representative Wildberger rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I'm standing in opposition to House Bill 307. Since no human was offered an opportunity to testify on this bill, it's an energy bill as my colleague from Wahiawa stated that was rereferred to Finance with 30 minutes notice. Since the system has been put in place here to vet our legislation and it has been subverted in this case, it seems wholly inappropriate for an unpopular bill that has failed three years in a row should

get a bypass in our processes. For these reasons, I'm voting no on this measure. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and H.B. No. 307, entitled: "A BILL FOR AN ACT RELATING TO RENEWABLE ENERGY," passed Third Reading by a vote of 47 ayes to 4 noes, with Representatives Matsumoto, Perruso, Thielen and Wildberger voting no.

H.B. No. 118, HD 1:

Representative Belatti moved that H.B. No. 118, HD 1 pass Third Reading, seconded by Representative Morikawa.

At this time, Representative Ward offered Floor Amendment No. 3, amending H.B. No. 118, HD 1, as follows:

SECTION 1. House Bill No. 118, H.D. 1, is amended by changing the starting year for the annual audit to 2025 and ending 2039.

Representative Ward moved that Floor Amendment No. 3 be adopted, seconded by Representative Matsumoto.

Representative Ward rose to speak in support of the proposed floor amendment, stating:

"Mr. Speaker, I rise in support of the floor amendment. Mr. Speaker, this is a very simple floor amendment. It simply says, let's take time out, let's not cancel the audit. We fought tooth and nail on this floor to make sure there was a very strong audit so the rail didn't go over budget and over time, which we already know it's going. And now we have an intervening variable of a criminal subpoena or subpoenas or subpoena, whatever it is.

"And Mr. Speaker, this amendment says let's take time out, lets knock out our Les Kondo, he is the champion of getting to the details of any and all audits, no matter what field or industry he's looking at. So, I would say this is a way of keeping him in our corner.

"It follows very specifically what the City Council did on Thursday, they also have an auditor and an audit, and they said, okay we're not going to cancel it, we're going to postpone it. And Mr. Speaker, this amendment simply postpones it from 2017 to begin, giving them until 2025. That's a lot of time for a lot of criminal proceedings, courts and appeals and other sorts of things.

"So this is saying, let's buy time, let's basically not abandon the ship, okay, stay by the lifeboats, but let's not pull out of this. And this bill basically surrenders. And I know we don't want to intervene and interfere with what the feds are doing. But we should be standing on the sidelines, Mr. Speaker, so if and when we need to refute or add to facts or to be part of the discussion in the final end, because it's, look, a lot of that is our money, and the State, and the GET, the other add-ons that we have argued for here, we have to protect our investment. So, Mr. Speaker, this amendment simply says, don't cancel, just delay just like the City Council. Let's stick with Les Kondo in our corner and continue to just stand by so we can then, when it's timely, to do it, and also a future Legislature can even tweak those numbers if we haven't given them enough time to do it.

"So, Mr. Speaker, it's very simple, it's kind of a no-brainer, but it's really more of an attitudinal sort of thing. It's an attitudinal thing that says, and some of you know I don't like to give up easy, but it's like the State is kind of just rolling over for something I think is not necessary. And all we've got to do is tweak this, change the date, and it's over with. So, Mr. Speaker, let's stand tall, stand strong, and as they say in Kū Kanaka, be proud of who we are and in our Les Kondo to back him with this resolution. Thank you."

Representative Luke rose to speak in opposition to the proposed floor amendment, stating:

"Thank you, Mr. Speaker. In opposition to the floor amendment. Thank you very much. First of all, I just wanted to correct the record of the Minority Leader, he did not fight tooth and nail to support the audit, because he voted no on the bill that created the audit, so he cannot now say he fought tooth and nail to implement the audit. He voted no, okay, which included the audit

portion. Just for the audit, we had an extensive discussion with the Auditor's Office, and people in Finance, you heard from the Auditor himself. He initially had trouble obtaining full records from HART, and I know he had substantial difficulty in getting all that information, and now he is concerned that with the federal investigation, that he will have additional difficulty in getting complete records from both HART and the City.

"We, as a state, invest \$1 million to do the audits, and we have authorized the Auditor's Office not only to do an interim audit, but to do an annual audit. And he himself has said that, okay not only is he running into some difficulties, but he doesn't want to be providing a report to the Legislature that is not complete, and so he is the one who has come forward and said, hey, you know, at this point in time, can we cancel the audit? Because if we have this on the books, we are making him a lawbreaker. Because if he doesn't provide an audit as required by law, then the Auditor's Office essentially is breaking the law, and he doesn't want to be in that situation.

"And as you know, Mr. Speaker, the Auditor's Office can initiate audits on its own or at the authority of the Legislature. Why put a timeline of when the Auditor's Office must pick up the investigation? This sends even worse of a signal, because what if the investigation ends next year and the Legislature must take a look at, okay is there other type of responsibility for rail other than the audit itself?

"The other thing, the danger in copying what the City and County of Honolulu is doing is this. Of course the City and County of Honolulu would like to do the audit until 2039, because what this is signaling is, chances are they would like to have a GET extension up to 2039. So, by voting for this, in essence we are somehow giving this signal that, hey, you know what, okay, maybe we'll pick up the audit in 2025 and then we'll have an audit until 2039. It's actually giving a signal that there might be an appetite by this Legislature to authorize another extension of GET from 2031 to 2039, which I am not comfortable with doing right now. I don't know if anybody other than the Minority Leader is comfortable with giving anyone the signal that we are going to authorize a GET extension up to 2039.

"This is a bad policy. This is not something that the auditor wants to do at this point. Right now, we need to be completely in cooperation with the Federal Government. Not us, we're expecting HART and the City and County of Honolulu to be complete in cooperation with the federal investigation. And the Auditor's Office do not want to interfere with the federal investigation, and we should not be telling the Auditor's Office when to pick it up, we don't know when the federal investigation is going, and we should not be signaling through this floor amendment that we agree to any additional GE extension. Thank you."

Representative Ward rose to respond, stating:

"Thank you, Mr. Speaker. Brief rebuttal, particularly regarding the Chair's lack of recollection of what we did when we did pass the audit. We were wrestling over the words 'management' and 'financial.' Some people just said, let the audit be forensic, generic, and some of us were arguing, I think there may have even been an amendment on the floor to make it a financial and management, not just looking at the numbers but looking, hey did you guys spend the money in the proper way and all the legal ways, which now, actually, the feds are doing. So that's why I used the words 'tooth and nail,' Mr. Speaker. Because that was, look, a lot of us in our districts are not very fond of the rail, and we fought to make sure that what we're going to examine we examine with specificity and we examine it with exactness. So, regarding my vote on that issue, I think that it should be reasonably clear.

"The other issue about postponement, I don't think postponement puts us in jail, nor does postponement make us de facto supporting a GET tax increase. It was said so quickly with sleight of hand, I cannot imagine how that was even derived other than that the GET tax may have expired, therefore why would anybody suggest it would implemented.

"Mr. Speaker, I started by saying that this is a no-brainer, it's just simply a time change, it's saying let's not pull out, let's just stand down and wait. Again, as the City Council has waited, and they're the ones with skin in game, they have got a huge, huge investment. This is a City project. We kind of topped off with some money, but if they're saying they want to keep their

auditor at alert or on standby, I see no reason why we shouldn't do equally so to protect taxpayer's money and Mr. Kondo. Thank you, Mr. Speaker."

Representative Luke rose to respond, stating:

"Thank you. Just briefly, the reason why I have pointed out that the GE extension is relevant in this floor debate is that the audit function expires at the time of the last GE collection, which is in 2031. So from 2031 to 2039, what is the Minority Leader trying to have audit other than additional GE extension.

"Of course the City and County of Honolulu would want an audit up to 2039, because they will not only be looking at the capital improvement side, but they will also be looking at the operation side, and at that point in time it is not the responsibility of the State to pay for the operation of rail. We have made it clear, time and time again, so it doesn't make sense that we would allow an audit of 2039, and it gives the impression that the Legislature is open to a GE extension, which many of us, maybe some of you are, maybe the Minority Leader is, but many of us are not comfortable doing.

"And of course the City and County of Honolulu will be looking at something in the future. Because the City and County of Honolulu, in addition to HART, is right now contemplating whether the federal FTA or the Federal Government will be not only not providing the additional \$700 million, but they need to grapple with what happens at the end of the investigation that they take away the entire \$1.5 billion. So, I'm assuming that is the reason why they are looking at an audit of a future date, because this is an issue that this Legislature may have to deal with in the next few years if the Federal Government decides to take back the entire \$1.5 billion. Thank you."

Representative Ward rose to respond, stating:

"Mr. Speaker, request for comments in the Journal and rebuttal. Thank you."

Representative Ward's written remarks are as follows:

"Mr. Speaker, I support this floor amendment because it does not do away with our decision to audit HART, it simply postpones the starting date to 2025. I agree that there is no need for the State to audit HART if the Federal Government is doing it themselves. However, after all is said and done, we may still want to conduct annual audits ourselves. By 2025, I hope that the Federal Government will have had ample time to complete its audit. If not, we as a body can amend the law accordingly.

"Mr. Speaker, the Minority Caucus fought hard to ensure accountability standards for this project in 2017, and I would like to reference pages 1-9 of the 2017 House Journal – Special Session – 5th Day. *Mahalo.*"

The motion that Floor Amendment No. 3, amending H.B. No. 118, HD 1, entitled: "A BILL FOR AN ACT RELATING TO GOVERNMENT," be adopted, was put to vote by the Chair and upon a voice vote, failed to carry.

(Main Motion)

The motion was put to vote by the Chair and carried, and H.B. No. 118, HD 1, entitled: "A BILL FOR AN ACT RELATING TO GOVERNMENT," passed Third Reading by a vote of 51 ayes.

H.B. No. 257, HD 2:

On motion by Representative Belatti, seconded by Representative Morikawa and carried, H.B. No. 257, HD 2, entitled: "A BILL FOR AN ACT RELATING TO HOMELESSNESS," passed Third Reading by a vote of 51 ayes.

H.B. No. 460, HD 1:

Representative Belatti moved that H.B. No. 460, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Okimoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Hashimoto rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. In support with reservations, brief comments. I truly understand the concerns of the introducer, but I believe this bill would be much more appropriate for counties with more than 500,000 residents, and I believe this would help to satisfy the concerns without unintended consequences statewide. Thank you, Mr. Speaker."

Representative Nakamura rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Nakamura's written remarks are as follows:

"With reservations. HB 460 prohibits a county from authorizing and accepting a discounted payment of a fine levied by the county planning and permitting department or agency. As a former county council member and managing director for the County of Kauai, I believe the State gives the county the authority to zone and to enforce local zoning regulations. I'm concerned that this bill does not give the county flexibility to reduce fines in cases of hardship, including age, disability, and ability to pay in a timely manner."

Representative Quinlan rose to speak in support of the measure, stating:

"In support. Mr. Speaker, this vehicle is far from perfect. As many of you know, we have a serious problem here on Honolulu with the Department of Planning and Permitting. They issue large fines, but their internal policy is to take a 90% discount on any fine issued. Which basically leads to a complete lack of enforcement on this entire island. And this lack of enforcement mostly affects the little guys. The big guys, they don't care. They have strategies to deal with it. But when you're living next door to somebody who is constantly breaking a land use ordinance or residential building codes, it can be very, very frustrating to see that person get away with it. So, I beg the members indulgence as we continue to work on this very important issue, and I do take your concerns to heart. Thank you."

Representative San Buenaventura rose to speak in support of the measure with reservations, stating:

"With reservations and I echo the concerns of the Representative from Wailuku."

The motion was put to vote by the Chair and carried, and H.B. No. 460, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE COUNTIES," passed Third Reading by a vote of 51 ayes, with Representatives Hashimoto, Nakamura, Okimoto and San Buenaventura voting aye with reservations.

H.B. No. 1190, HD 1:

Representative Belatti moved that H.B. No. 1190, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Todd rose to speak in support of the measure, stating:

"Strong support. I just wanted to commend the author of the bill. And this is going to end up potentially removing all income tax burden from those living below the poverty line. But in addition to that, if you are filing a single return and make below \$14,400 or a joint return below \$28,800, you will also receive a tax cut if the original numbers are restored down the road. So, I just wanted to commend the author. In some ways I'm very disappointed that this has not received more attention as we've gone through the process, especially with all of the progressive groups around the state who seem to be submitting testimony on everything, even if it's not within their purview. This should have hundreds of pages of testimony. This is a very high-profile issue. And hopefully we can stir up some more of that down the road. Thank you."

Representative Holt rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support and may I have words of the previous speaker entered into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Perruso rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Strong support. According to the Economic Policy Institute, the average income of the top 1% of wage earners in Hawaii is \$797,000, which is 13.7 times higher than the average income of the bottom 99%. In Honolulu, the situation is even worse, with the top 1% of wage earners earning on average 25 times what the bottom 99% make in a year.

"Wealth inequality in our islands is real and growing, leaving many working families struggling to meet their basic needs, as many of us know. Measures like this will provide much needed financial relief to those at the bottom of our state's pay scale, who are at the greatest risk of falling victim to rising prices for food, housing, medicine, and other basic necessities. But as we work to assist our most economically disadvantaged neighbors, I would hope that in the future, we also work to close our widening income gap by increasing income taxes on our state's highest earners, who can afford to pay a little more to expand the services that support our working families. Thank you."

The motion was put to vote by the Chair and carried, and H.B. No. 1190, HD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," passed Third Reading by a vote of 51 ayes.

H.B. No. 1394, HD 1:

Representative Belatti moved that H.B. No. 1394, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative San Buenaventura rose to speak in opposition to the measure, stating:

"I stand against this measure. My district has been inundated with lava in the past few months, and my concern is if we give the counties leeway to use the monies for other than roads and mass transit, and our busses on the Big Island really need to be replaced, that they will use the monies for other than the transportation needs of my island. And as such, I understand why the neighbor islands want the flexibility, but until they fix our roads and until everyone gets proper access back to their homes and back to their farms, I need to be in opposition. Thank you."

Representative Onishi rose to speak in support of the measure with reservations, stating:

"With reservations, Mr. Speaker. And I'd like to have the words of the Representative from Puna inserted as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Onishi continued, stating:

"And short comments. Mr. Speaker, I come from a very rural district on the Big Island, it's over 56 miles long, and the current mass transit system is very lacking, to the point where school children, in my district, are unable to sometimes participate in extracurricular activities because the school bus system leaves right after school ends, and there is no way for them to get back to their communities.

"I think the Big Island has huge needs for a mass transit system, and as many of you know, our district, in terms of income, is the lowest in the state. So, I think that repurposing this money at the county's discretion is bad policy, and it doesn't equally affect every county in the state. And I think picking and choosing on this particular matter is not good policy. Thank you."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations. And my exact sentiment was expressed by the Representative from Puna, may I request her remarks to be in the Journal as my own," and the Chair "so ordered." (By reference only.)

Representative Lowen rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations. When the county passed their 0.25% GE surcharge, back when the eruption was ongoing, they then pulled their mass transit budget and just replaced it with the amount of revenue they would expect to receive from that and absorb that into general funds. So, I don't have any confidence that if they're given this expanded uses, that it's going to further the purposes that they're saying it's for specifically, which I think in this bill it's public safety, I'm not sure what else.

"And I also agree with the Representative from Puna, both Representatives from Puna. Mass transit, it's one of the most important things we can be doing for ameliorating cost of living, for reducing carbon emissions, for dealing with traffic. And the mass transit system on Hawaii Island is the furthest behind in the state. In West Hawaii, we basically have nothing. And there's plenty of room to spend this money on that, and I wouldn't be comfortable considering other uses for it until we have a functioning transit system and roads are repaired."

Representative McKelvey rose to speak in support of the measure, stating:

"In support, Mr. Speaker. The way I read the bill is that the ability of the counties to use these funds for public transportation would still remain intact in statute. It is merely adding the flexibility for infrastructure and public safety. And for one of the areas that's hit hardest, when you talk about visitor impacts, it's on our infrastructure of West Maui. We have a population of about 10,000, but on any given day because of the visitors we have 60,000 people using very same small corridors, the same overtaxed waste water system, which resulted in the county using injection wells, which is subject of a Supreme Court lawsuit, which could have been avoided, and a lot of other impacts.

"The concern in Maui has been, if we adopt a surcharge, are we limited only to these specific impacts and what about these other areas. So, that's why I support this measure, because if you've ever been down Waieae Street, Mr. Speaker, you'll see if any place needs some help and repair from all the visitor traffic, it's that little street in Lahaina. Thank you."

Representative DeCoite rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"With reservations. I have reservations with this bill because it is a broadening of the original intent of the county surcharge for the counties. The surcharge was to be used for county transportation systems such as roads, highways, buses, trains, ferries, pedestrian paths or sidewalks, or bicycle paths. I don't believe we have done this. We have numerous roads and highways that we need to address. By adding infrastructure and public safety to this, we will just be adding to the list of what we can use the surcharge money for, but if we do this, then it is purely a tax increase for general use. I don't think this is the direction we should be taking. *Mahalo.*"

Representative Creagan rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and H.B. No. 1394, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE COUNTY SURCHARGE ON STATE TAX," passed Third Reading by a vote of 50 ayes to 1 no, with Representatives Creagan, DeCoite, Lowen, Onishi and Ward voting aye with reservations, and with Representative San Buenaventura voting no.

At 12:19 o'clock p.m., the Chair noted that the following bills passed Third Reading:

H.B. No. 497, HD 1
 H.B. No. 164, HD 1
 H.B. No. 307
 H.B. No. 118, HD 1
 H.B. No. 257, HD 2
 H.B. No. 460, HD 1
 H.B. No. 1190, HD 1
 H.B. No. 1394, HD 1

At 12:19 o'clock p.m., Representative Belatti requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:21 o'clock p.m.

ORDER OF THE DAY

SUSPENSION OF RULES

On motion by Representative Morikawa, seconded by Representative Matsumoto and carried, the rules were suspended for the purpose of considering a certain House Bill for Third Reading by consent calendar. (Representative Ohno was excused.)

UNFINISHED BUSINESS

H.B. No. 1383, HD 2:

Representative Belatti moved that H.B. No. 1383, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Kitagawa rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Matayoshi rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Matayoshi's written remarks are as follows:

"I am conflicted, though I am ultimately voting no at this time. There are certainly advantages to decriminalizing possession of small amounts of marijuana, replacing prison time with a fine. Our correctional facilities are overcrowded, and we gain little, if anything, by incarcerating people on minor offences relating to minor marijuana possession. Prison can turn minor offenders into hardened criminals, with no options when they are released. Incarceration also costs the taxpayers, when our schools and infrastructure are already woefully underfunded. We also must consider the lives affected by current statutes; a disproportionate number of Native Hawaiians and Pacific Islanders are being held in our correctional facilities. A minor marijuana possession charge can derail the life of a resident that can be a productive member of our society.

"That being said, the fine must be high enough to discourage the use of marijuana, which I still consider harmful to society when not used for medicinal purposes. I favor community service or rehabilitation programs over a monetary penalty, and I hope this bill will be revised as such. I have also received testimony from my district, all of which is against this bill, and note that all of our law enforcement agencies are similarly opposed. Ultimately, I would like more information on how this bill will affect Hawaii's citizens and how many criminal records only have marijuana possession of three grams or less marring them. If the benefits I listed above will not be accomplished by this bill, then we are loosening the reigns on marijuana for no reason."

Representative DeCoite rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"In opposition. I oppose this bill because it's a safety issue. On one hand, we say that the Federal Government has jurisdiction over the state, however, now it is like we're making our own rules. My question is, do we have to change this every time we see fit?

"We are still dealing with the medical marijuana dispensaries, and while people may need it, we still have problems with testing. Every individual reacts differently to the product. I believe medicines belong in the pharmacies. If it is truly a medicine, then it should be covered by insurance.

"Our law enforcement people do not support decriminalization. We also have complaints from schools where kids are bringing it in and encouraging their peers to try it. It is accessible and way too easy to get by our kids. *Mahalo*."

Representative Johanson rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Eli rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Tokioka rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, opposition and my comments now. I want to keep in the same spirit of continuity here, Mr. Speaker. The theme of my remarks are what some of us know as a very fond saying in a particular ethnic community, *kodomo no tame ni*, for the sake of the children, Mr. Speaker, I'm going to mention why I'm against this particular bill.

"The first reason is that decriminalization is *de facto*, if not *de jure*, legalization, and is the slippery slope we don't want to tread on. Mr. Speaker, the indication of all the past states that have gone this route, beginning with Seattle in 2003, Oakland 2004, Denver 2005, San Francisco 2006, Massachusetts 2008, Connecticut 2011, down 12 all the way down to New Hampshire in 2017. Of these 15 jurisdictions that I've noted, eight of them now have legalized recreational marijuana. Mr. Speaker, this is empirical evidence of the slippery slope that we're on.

"Now some have said, well, look we never intended to do recreational. Well, intentionality is certainly signaled by what we're doing here on the floor today. And 12 of those 15 states are now perched on that slippery slope for recreational marijuana.

"The fact is that decriminalization has quickly paved the way to legalization. And I quote the great prophet who used to be a part of this body, Marcus Oshiro, he said, if we do medical marijuana and have eight dispensaries, we will within three to five years do decrim and recreational. I know the good administrative law judge is not with us today, but his words will resound to those of who were on this floor when he did those very profound words for what now we are today faced with, the decriminalization.

"Decriminalization increases marijuana use, causes more traffic accidents, and causes the black market to thrive. Let me deconstruct that a bit. Mr. Speaker, without mentioning any names, somebody on the floor today, this morning on the television said that we want to crack down on DUIs, we want to get serious with DUIs. Well I ask, if you want to be serious with DUIs, how are we then now adding another drug to the body and the blood of those people who are driving to endanger more of the public? What side of our mouth are we speaking on?

"The bottom line is, Mr. Speaker, we have enough studies from Colorado and California to know that this is a dangerous public health hazard and a public safety hazard. Ask any of the Police Department who testified for this bill. They are totally convinced, because they see it up front and close, that this is not a good policy for the people of Hawaii.

"The good Representative, Speaker Emeritus tried to warn us Tuesday with an amendment to say, what do you do when one of your employees has a few tokens before he comes off the sidewalk and into the employer's place of work and then he causes somebody to die or injures himself and then the employer is held liable? That was the whole point of his, I think the legal term for you lawyers is *respondeat superior*, when there is the responsibility of the employer for all the acts of the employee. In this case it would be exempted if somebody comes in with their decriminalized marijuana and already in their bloodstream doing dangerous things. Can you imagine a school bus driver toking before he gets behind the wheel because he had a bad night with his spouse or something? And ask the chief of police on the Big Island if there are not more drug DUIs than there are alcohol DUIs, and this was a number of years ago he told me that.

"Lastly, Mr. Speaker, for the sake of our children, marijuana fries the brains of our *keiki* and drains the life force out of them. If you're young, it's going to fry your brains, and they have proof of that, physiologically. That the synapses that when you're 16 or below—"

Representative Say rose to yield his time, and the Chair "so ordered."

Representative Ward continued, stating:

"I didn't realize that time has gone, I must be on something. Mr. Speaker, the point is this. Brains that are unformed when they're constantly exposed to THC, the one that's the psychogenic phenomenon chemical, the synapses don't get connected, and if they do they, I can only say they fry or they fizzle, like when bad connections spark. And I cite a 2018 study, rather recent, in the American Journal of Psychiatry that showed that marijuana use is more detrimental to the developing brains of teenagers than, and I underline, alcohol, Mr. Speaker.

"And something that is very clear that some people think is, well, we got to make it more accessible because somebody is going to ruin their federal career because they got a decrim, or they have a record and we don't want young people who are bright-eyed and bushy-tailed to have their reputation spoiled. Well, Mr. Speaker, I would predict on this floor today that eventually smoking marijuana is going to be like you get a traffic ticket, they're not going to count it. But in the meantime, the Federal Government has this a Schedule A drug. This bill goes contrary to the law of the land of this nation. So, somebody who wants to get a federal job, yeah probably it's going to hurt them. Otherwise, it's not going to matter whatsoever, like a traffic ticket does not matter.

"On the suicide issue, in terms of the study of 2018 that said, seven times more likely to commit suicide than those who are not regularly smoking marijuana. Mr. Speaker, we already have a suicide crisis. The other irony is, we have another bill in this House that says, we've got to have a suicide prevention hotline, as well as, there's a bill with a lot of money in it. We're going at cross purposes. It says, if you're young and you're smoking marijuana, seven times more likely to attempt suicide. So rather than a suicide crisis or intervention, let's just not start promoting marijuana. It's kind of a no brainer, Mr. Speaker.

"Having said what Marcus Oshiro of this body has said and what we see in the studies of Colorado and other places, we have arrived at those three to five years, Mr. Speaker. The bottom line is this. Evidence shows that decriminalizing marijuana is bad for our state, bad for our *keiki*, and a bad policy for this body to adopt. For those reasons, Mr. Speaker, a very strong no. Thank you."

Representative Okimoto rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in strong opposition against House Bill 1383, HD2. I solicited the input of my community, and they are vehemently opposed to the decriminalization of marijuana. I've also received feedback from my schools indicating that marijuana use in Mililani is on the rise. This is a great concern to them. Statistically, statewide, marijuana use by public school students increases by 42% from sixth to twelfth grade. What kind of message does this send to our *keiki*? As a mother and an educator, I have strong concerns about the short- and long-term effects this would have on our children. Having two daughters of my own who attend public schools, play sports, and attended countless events in the community, I worry about how this bill would affect their lives and the lives many other *keiki* and residents in our state.

"Knowing what we know about the serious negative effects of secondhand cigarette smoke, how can we assume that this will not also be the case, if not worse, for secondhand marijuana smoke? Just as the Minority Leader mentioned, research shows that marijuana can affect a child's brain development and their short- and long-term memories, which in turn affects their cognitive levels and ability to function in and out of school. As an educator, I cannot see how we as a Legislature can allow that.

"We also have the responsibility, whether a parent or not, to ensure the safety of our *keiki*. By allowing the decriminalization of marijuana, we open

a Pandora's box of situations where their lives may be put at risk. Imagine someone driving under the influence of the drug, or an educator coming to work high on the drug, which actually happened in Mililani back in 2006. Would we as a legislative body be able to sleep at night knowing that we have allowed these types of unsafe events to occur, endangering the lives of our children, friends and family? I, for one, am not willing to take that chance. Not when it comes to the lives of my loved ones.

"Even putting all of that aside, the decriminalization of recreational marijuana still conflicts with federal law. By passing this law, we inadvertently burden our hard-working police officers with a moral and ethical decision to enforce state law over prevailing federal statutes.

"I strongly implore the members of this Legislature to take a step back and consider all the effects that the decriminalization of marijuana will have on our communities. I'm not willing to take that risk. For these reasons, I cannot support this bill. Thank you, Mr. Speaker."
