"I would like to add the high degree of urgency that the State of Hawaii should have to the development of artificial intelligence projects. China's threat is to be the global leader in AI by 2030, and has extensively accelerated its investments in AI, especially by the Chinese Government. Consequently, our nation is in an AI arms race with China. With China gaining ground, in February President Trump has expressed the urgency of the U.S. maintaining its preeminence in AI for the U.S. Economy and national security, declaring that all agencies step up their involvement in this area. We need to clarify of what we mean by artificial intelligence. Is it to be augmented intelligence, emphasizing AI's assistive role, or an expert system, which is a computer system and attending software which captures and applies the knowledge and skills of a human expert to bear on a problem. Can we democratize familiarity and learning about AI involving legislators, their staff and support departments with more usage of mobile apps? We also propose a pilot project based on AI, for example, a legislative bills analysis expert system."

Representative Thielen rose to speak in opposition to the measure, stating:

"Mr. Speaker, on 2265, authorizing the issuance of an easement for pier and seawall, I would like to say few remarks in opposition. Mr. Speaker, again, this is another one of those measures where we're allowing the shoreline to stay hardened even though we know that sea level rise is inevitable. And unfortunately, the Department of Land and Natural Resources has not come out with a policy statewide. I could understand extending an easement for a one, two, or three-year period, until DLNR and the Board of Land and Natural Resources comes up with a way that we're

going to address sea level rise and what we're going to do with these hardening structures.

"So, until we have some leadership at that level, led by the fifth floor, which also has not done anything about this, I am going to continue to vote no on these measures. It's a 65-year lease, and by that time we will be well into the impacts from the rising seas around our islands."

"Mr. Speaker, reservations, and the only reason I'm standing for reservations, because I'd like the words of the speaker from Kailua entered into the record as if they were my own, because it is clearly, this is one where the fifth floor, as was stated earlier, is very culpable, so I just wanted note that," and the Chair "so ordered." (By reference only.)

Representative B. Kobayashi rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations. I would agree with the member from Kailua that a policy needs to be developed on these issues. A couple weeks ago, there was a similar resolution passed for a seawall in my district. I did not know at the time what the details were, but this is a seawall built upon rocks. So, it is not on any sandy beach. But of course, it is being damaged by wave action, even though it is on rocks. That kind of situation is a bit different, I think, than other seawalls that are actually built on sand, not rocks. And those are the kinds of policy decisions that need to be made by DLNR, so that there's clear-cut guidelines as to what might be allowed and what not. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.C.R.
