STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 290

Honorable Members
Thirtieth Legislature
State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, House Bill No. 290, entitled "A Bill for an Act Relating to the Uniform Controlled Substances Act."

The purpose of this bill is to authorize qualifying patients or qualifying out-of-state patients to transport medical cannabis between islands for their personal medical use. It further requires the Departments of Transportation and Public Safety to adopt rules pursuant to chapter 91, Hawaii Revised Statutes, as necessary to carry out this purpose.

This bill is objectionable because of the large number of residents and visitors who may be misled to their detriment by the purported authorization in this bill of the interisland transportation of medical cannabis for personal medical use.

Interisland transport necessarily entails travel outside the jurisdiction of the State of Hawai'i, as the State only has jurisdiction up to three nautical miles offshore. Because Hawai'i's laws cannot completely regulate the interisland transport of cannabis, a state statute purporting to allow interisland transport may give false comfort to some that such transport is protected from federal enforcement.

The existing law, section 329-122(f), Hawaii Revised Statutes, defines "transport" for the purposes of interisland transportation as "between a production center or retail dispensing location and a certified laboratory for the sole purpose of laboratory testing." This bill amends that definition of "transport" to include "by a qualifying patient or qualifying out-of-state patient for the patient's personal use," but retains the existing wording, "with the understanding that state law and its protections do not apply outside of the jurisdictional limits of the State." Consequently, I believe that this bill's amendments to section 329-122(f) may result in confusion by residents and visitors as to what protection this bill provides.

In addition, this bill requires the Department of Transportation and the Department of Public Safety to adopt rules "necessary for the purposes of

this subsection." It is unclear whether, and if so, how state rules would work for an area that includes federal and international jurisdiction.

For the foregoing reasons, I am returning House Bill No. 290 without my approval.

Respectfully,
/s/ David Y. Ige

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, House Bill No. 323, entitled "A Bill for an Act Relating to Motor Vehicle Registration."

The purpose of this bill is to classify certain former military vehicles as special interest vehicles and enable owners of former military vehicles to apply for registration of the motor vehicle with the director of finance of the county in which the former military vehicle resides.

This bill is objectionable as it dramatically changes the purpose by circumventing the manufacturer's certification requirement of Section 286-42(a), Hawaii Revised Statutes, which minimizes the number of uncertified vehicles on Hawaii roads.

The special interest vehicle law was implemented to accommodate hobbyists who spend significant amounts of money and time modifying their vehicles. The objective was to make it possible for these hobbyists to show off the products of their labors.

Military vehicles are not the product of hobbyists and they were not manufactured for use on our public roads. The State of Hawaii requires vehicles to be in compliance with all applicable Federal Motor Vehicle Safety Standards as of the date of manufacture. In addition the emissions of these military vehicles do not meet Federal Clean Air Act.

Federal guidance ensures that Hawaii's inventory of registered vehicles meet certain safety standards that help keep our roads safer and environmentally friendly for Hawai'i's residents and visitors.

For the foregoing reasons, I am returning House Bill No. 323 without my approval.

The purpose of this bill is to require Board of Education approval prior to the termination of a complex area superintendent.

This bill is objectionable because the Board of Education (Board) currently has the authority to act as an appellate body for certain employment actions, including actions to terminate complex area superintendents. This bill now inserts the Board into the termination process and it is unclear how an administrative appeal by a complex area superintendent would be addressed under this law.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, House Bill No. 629, entitled "A Bill for an Act Relating to Medical Release."

The purpose of this bill is to create a medical release program within the Hawai'i Paroling Authority (HPA) to allow inmates with terminal or debilitating diseases or illnesses to be released from custody before the expiration of their sentence. The Director of Public Safety, an inmate or an inmate's representative may submit a written request for medical release. The bill also sets forth specific requirements for both HPA and the Public Safety Department (PSD) to follow when establishing and implementing the medical release program.

This bill is objectionable because it is unnecessary. A medical release program has been in existence since December 2014 under PSD and HPA policies.

Further, the bill requires PSD and HPA to complete certain tasks within short periods of time but does not provide for necessary resources. For example, the bill allows referrals for medical release from inmates and inmate representatives, who may not be medically trained. PSD's Health Care Division would be required to provide a detailed, comprehensive medical assessment within twenty days of receipt of each referral. The bill does not, however, provide funding for additional healthcare or other staff required to perform the comprehensive assessments.

For the foregoing reasons, I am returning House Bill No. 629 without my approval.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Draft 1 of House Bill No. 655, entitled "A Bill for an Act Relating to Health."

The purpose of this bill is to add a new section to chapter 8, Hawaii Revised Statutes, to designate September as "Suicide Prevention and Awareness Month."

This bill is objectionable because House Draft 1 of this bill with a delayed effective date became law on April 23, 2019, as Act 36, Session Laws of Hawai'i 2019, without my signature pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i. Therefore, Senate Draft 1 of this bill was subsequently transmitted to me in error.

However, I will issue a proclamation designating September 2019 as "Suicide Prevention and Awareness Month" and will work with the Legislature to amend Act 36 so that it furthers this laudable objective.

The purpose of this bill is to prohibit the sale or offering for sale of location data that is recorded or collected by a satellite navigation technology-equipped device without the explicit consent of the individual who is the primary user of the device.

This bill is objectionable because it attempts to regulate a complex national industry without sufficient and appropriate wording to ensure consistent compliance and enforcement. The lack of clarity in this bill as currently drafted will lead to ambiguity, confusion, and unintended consequences should it become law.

During the interim, the administration will work with the legislature through the task force created in "House Concurrent Resolution 225, Convening a Task Force to Examine and Recommend Laws and Regulations to Update Privacy Law" to provide recommendations to the legislature to ensure that appropriate legislation can be introduced next session to address this important issue.

"EXECUTIVE CHAMBERS
HONOLULU
July 9, 2019

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 748

Honorable Members
Thirtieth Legislature
State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, House Bill No. 748, entitled "A Bill for an Act Relating to Property Forfeiture."

The purpose of the bill is to prohibit civil asset forfeiture except when the owner of the asset has been convicted of a felony. The bill also changes the distribution of forfeited property, or sales proceeds from forfeited property, to the state general fund. Presently, forfeited property and/or sales proceeds are distributed to the state and local law enforcement agencies and the forfeiture fund.

At the outset, we note that there are distinctions between criminal and civil forfeiture proceedings. A criminal forfeiture is an *in personam* proceeding against an individual. The individual is charged with crimes that authorize the forfeiture of proceeds, or money or property involved in, or used to facilitate, an offense. The forfeiture becomes a component of the criminal sentence; it is not a separate criminal offense. See *Carlisle v. One (1) Boat*, 119 Haw. 245, 261 (2008) ("[T]he forfeiture of property is a part, or at least a consequence, of the judgment of conviction.") (citation omitted). A civil forfeiture, by contrast, "is entirely separate from the judgment of conviction," and is not considered punishment for an offense. *Id.* Rather, the property itself is "primarily considered as the offender[.]" The Court has also explained that such a proceeding "is a proceeding *in rem*," and "not a proceeding against any person." *State v. Tuipuapua*, 83 Haw. 141, 147 (1996).

This bill is objectionable because it eliminates civil forfeiture as an effective and critically important law enforcement tool. The Hawai'i Supreme Court has explained that the civil forfeiture law serves important non-punitive goals such as "encouragement" of property owners "to take care in managing their property," and that it tends to ensure "they will not permit that property to be used for illegal purposes." *State v. Tuipuapua, Id.* at 153 (1996) (quoting *U.S. v. Usery*, 518 U.S. 267, 289 (1996)). See also *Carlisle v. \$10,447.00 in U.S. Currency*, 104 Haw. 323, 336 (2004) (asset forfeiture statute is "designed to ensure that the economic benefits of committing a crime do not outweigh the consequential criminal penalties; otherwise, without the forfeiture statute, an individual might determine that the money gained from gambling activities outweighs the costs associated with criminal convictions."). While the language of the bill characterizes asset forfeiture as "government-sponsored theft," in reality, civil asset forfeiture is used only when a crime is committed and only for the purposes of stopping ongoing criminal activity and deterring further crimes. Moreover, while the seizure of property and proceeds of a crime can occur at the outset of the related criminal matter, the sale of any proceeds often does not occur until after a conviction.

In addition to the mischaracterization of the use and purpose of civil asset forfeiture, problems with the bill also include the following:

First, the felony conviction requirement in the bill is problematic because it misunderstands the distinct nature of a civil asset forfeiture proceeding. An asset forfeiture is usually not a proceeding against a person (unlike a criminal prosecution) but rather is a civil proceeding *in rem* (i.e., against the property used in the commission of a crime or obtained as proceeds from the commission of a crime). See *State v. Tuipuapua*, at 147. Requiring the

owner to be convicted of a crime before his or her assets are forfeited misses the point of asset forfeiture, which seeks to prevent *property* from being used in the commission of criminal conduct. Often, the owner of the property is not the defendant in the criminal case. For example, if a landlord knowingly allows his tenant to use a residence to manufacture or sell drugs, the residence may be forfeited, even if the landlord does not commit a criminal offense. To be clear, the law presently applies to property owners who *knowingly* and *blatantly* allow their property to be used in the commission of a crime. To stop ongoing criminal activity, the property of such individuals should continue to be subject to the civil asset forfeiture proceeding.

Second, the bill's requirement of a felony conviction conflicts with other provisions in chapter 712A, Hawaii Revised Statutes (HRS), and the Penal Code of the HRS. For example, section 712A-11 (6), HRS, states, "[a]n acquittal or dismissal in a criminal proceeding shall not preclude civil proceedings under this chapter." Thus, even if the defendant who engaged in the criminal conduct using property subject to asset forfeiture is not convicted, the property the defendant used is still subject to the civil forfeiture process, which uses a different standard and has different purpose, i.e., the removal of property from use in criminal activity.

Third, the bill's felony conviction requirement disregards the fact that misdemeanor and petty misdemeanor statutes specifically provide for the forfeiture of assets. Again, this is important because the asset forfeiture proceedings target property that is being used in criminal activity, regardless of a criminal conviction. For example, section 712-1230, HRS, provides for the forfeiture of gambling devices, paraphernalia used on fighting animals, or birds, implements, gambling records, and other property related to gambling. Quite often, the related criminal offense is promoting gambling in the second degree, under section 712-1222, HRS, which is a misdemeanor. Another example is section 199-7, HRS, which allows the forfeiture of property used in the commission of offenses described in chapters 6D (Protection of Caves), 6E (Historic Preservation), and 6K (Kaho'olawe Island Reserve), HRS. The offenses in these chapters are misdemeanors and petty misdemeanors, but the forfeiture of assets in these circumstances serves the same purpose: to stop the use of property in criminal activity and to deter future crimes. While not felonies, these are all serious offenses that negatively impact our society, and this bill would inhibit our ability to encourage property owners to manage their property in a legal manner, regardless of whether they are charged with criminal offenses.

Finally, the concerns referenced in the bill are misleading because they identify abuses that may occur in other jurisdictions but do not happen in Hawai'i, where we presently have significant safeguards against abuse. At the outset, our statute requires that there be a substantial connection between the property seized for forfeiture and the related crime. In the case of a seized car, for example, unless there is evidence that a particular car was used to facilitate or assist in a crime, or was obtained using the proceeds of a crime, a substantial connection is lacking and the car cannot be forfeited. See *Carlisle v. \$10,447.00 in US Currency*, 104 Haw. 323, 336 (2004). An interested party also may file a claim for relief in a court proceeding asserting that the interested party's property was used in the commission of a crime without that party's knowledge. This is an "innocent owner" defense to the forfeiture of the property. Additionally, section 712A-5.5, HRS, requires that the amount of the asset forfeiture be proportionate to the owner's conduct. Under section 712A-10(4), HRS, an interested party may file a petition for remission or mitigation for relief in an administrative proceeding.

In short, the existing statutes require proof that property was connected to a crime, give an aggrieved owner the right to show lack of knowledge of the criminal acts, and allow for relief from any excessive forfeiture.

For the foregoing reasons, I am returning House Bill No. 748 without my approval.

Respectfully,
/s/ David Y. Ige

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, House Bill No. 1133, entitled "A Bill for an Act Relating to Marine Life Conservation Districts."

The purpose of this bill is to limit the number of commercial-use permits in any marine life conservation district (MLCD) not accessible by land to no more than forty, and to limit access to an MLCD not accessible by land to fifty percent of the current number of permit holders at any one time. The bill requires the Department of Land and Natural Resources (DLNR) to initiate rulemaking for management changes to address concerns regarding overcrowding and fish disruption at the Molokini Shoal MLCD.

This bill is objectionable because it is unnecessary. DLNR already limits the number of commercial-use permits in the Molokini Shoal MLCD, which is the only MLCD that is not accessible by land, to forty.

Furthermore, the bill's language limiting access by commercial-use permit holders to fifty percent of the current number of permit holders at any one time in Molokini Shoal MLCD is counterproductive to DLNR's efforts to address concerns regarding overcrowding. DLNR is in the process of working with the commercial-use permit holders to adjust the operating schedules to coordinate access to better manage the impact of commercial activity on this precious natural resource.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, House Bill No. 1276, entitled "A Bill for an Act Relating to Education."

The purpose of this bill is to establish a working group to develop best practices for collaborative teacher preparation time and expanded learning time for students in public schools.

This bill is objectionable because, while it is well-intentioned, it would encourage the development of a "one-size-fits-all" approach to schools. Issues involving planning and expanding learning time are best left to the specific schools to address, as these matters must consider the distinct needs of a particular school as well as the unique needs of their students. Furthermore, planning and learning time are matters better left to the Board of Education, as those matters fall squarely within the Board's statutory authority.

For the foregoing reasons, I am returning House Bill No. 1276 without my approval.

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 92

Honorable Members
Thirtieth Legislature
State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Bill No. 92, entitled "A Bill for an Act Relating to Police Reports."

The purpose of this bill is to allow surviving immediate family members of murder or manslaughter victims to receive a copy of the closing report prepared by the investigating police department upon the conclusion of all criminal and civil proceedings that arose from the murder or manslaughter offenses.

This bill is objectionable because immediate family members of victims of all crimes already have the right to receive closing police reports, which makes this bill unnecessary. Under current law, members of the general public can obtain copies of any police report after the conclusion of criminal

proceedings, provided certain conditions are met in accordance with the Uniform Information Practices Act. Furthermore, restricting this right to immediate family members of only murder or manslaughter victims may lead to a narrow interpretation of the law, leaving family members of victims of other crimes without access to closing police reports.

For the foregoing reasons, I am returning Senate Bill No. 92 without my approval.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Bill No. 301, entitled "A Bill for an Act Relating to Taxation of Real Estate Investment Trusts."

The purpose of this bill is to repeal the deduction for dividends paid taken by a Real Estate Investment Trust ("REIT") that is subject to Hawai'i income taxes.

This bill is objectionable because it could discourage the business community from investing in Hawai'i. Disallowing the dividends paid deduction for REITs could potentially stifle economic development and scare away investment capital to address our aging infrastructure. From an economic development perspective, REITs provide stable economic growth and long-term benefits – including job creation – that will extend the supply chain into rental and commercial properties.

The benefits of continuing with this federally established legislation are clear and quantifiable. REITs are an important investment vehicle for all types of investments in Hawai'i. If the state corporate income tax is imposed on a REIT, there may be negative impacts to the State's economic health and business climate, such as the reduction of general excise, property and state income taxes.

Overall, the unintended consequences of imposing a corporate tax on REITs, are not worth the potential benefits. Hawai'i needs to be a place that is able to attract investment capital in order to create jobs and a sustainable economy.

For the foregoing reasons, I am returning Senate Bill No. 301 without my approval.

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 1292

Honorable Members
Thirtieth Legislature
State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Bill No. 1292, entitled "A Bill for an Act Relating to Transient Accommodations."

The purpose of this bill is to require hosting platforms that collect fees for booking services to register as tax collection agents and to collect general excise and transient accommodation taxes for transient accommodation bookings from operators and plan managers.

This bill is objectionable because the State's taxation of transient accommodations through hosting platforms should complement the counties' regulation of transient accommodations. While requiring the hosting platforms to collect and pay the taxes on illegal transient accommodation uses would not legalize these operations, there is concern that it could be viewed as legitimizing these operations. To ensure effective regulation, state statutes and county ordinances must be coordinated. Both the federal Internal Revenue Service and the State Department of Tax (DOTAX) are obligated to collect taxes on business activity, whether legal or illegal, as affirmed by the U.S. Constitution (16th Amendment) and a hundred years of court decisions. However, the passage of Bill 89 (2018) by the Honolulu City Council – which Mayor Kirk Caldwell recently signed into law and is an example of a county's enactment of specific enforcement provisions governing transient accommodations and hosting platforms – highlights the concern that a state law not impede or adversely affect county efforts to regulate land use. This bill raises significant issues, including for DOTAX, that were not fully contemplated by the Legislature or DOTAX when the bill was debated and then passed.

Importantly, the State is exercising its enforcement powers to ensure tax compliance by transient accommodations operators and managers. For example, on June 28, 2019, the State filed an application to issue a subpoena to Airbnb. The State looks forward to working with companies such as Airbnb to ensure tax compliance.

For the foregoing reasons, I am returning Senate Bill No. 1292 without my approval.

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 1353

State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Bill No. 1353, entitled "A Bill for an Act Relating to Industrial Hemp."

The purpose of this bill is to establish an industrial hemp licensing program in the Hawaii Revised Statutes that allows for the cultivation of industrial hemp in Hawai'i, to require the Department of Agriculture to create a plan based on the licensing program to be submitted for approval to the United States Department of Agriculture (USDA), and to legalize industrial hemp by (1) removing industrial hemp and THC derived from hemp from the definition of marijuana in the Hawai'i Controlled Substances Act; (2) removing criminal penalties for the cultivation, possession and sale of industrial hemp; (3) removing industrial hemp from certain Department

of Health statutes; and (4) creating an affirmative defense to certain criminal offenses relating to the cultivation and possession of marijuana.

This bill is objectionable because it legalizes the cultivation of industrial hemp without establishing effective licensing regulations. The bill would make the unauthorized cultivation of hemp, that is, the cultivation of hemp without a license, subject to only an administrative fine. A stronger incentive is necessary to ensure that growers of industrial hemp go through the licensing process, and to ensure the program is adequately enforced. Given the close relationship between industrial hemp and marijuana, the State should maintain strict control over the cultivation of hemp and a monetary penalty alone is insufficient to ensure proper regulation. Additionally, the Agriculture Improvement Act of 2018 requires USDA approval of a state regulatory program. Without sufficient regulation, there is a concern that the program will not receive approval.

For the foregoing reasons, I am returning Senate Bill No. 1353 without my approval.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Bill No. 1405, entitled "A Bill for an Act Relating to Electronic Smoking Products."

The purposes of this bill are to require public school teachers or educators to confiscate e-cigarettes from students; require public schools to coordinate with the Department of Health for proper disposal of the confiscated e-cigarettes; require the Department of Health to create a safe harbor program for the disposal of e-cigarettes; and increase the fines from \$10 to \$100 for any person under age 21 who violates laws related to electronic smoking devices.

This bill is objectionable because there are considerable implementation concerns and unknown costs relating to certain provisions of this bill. This measure does not include a definition for an "electronic cigarette." A definition is necessary to provide teachers, educators, and students with an understanding of what items are subject to confiscation. Furthermore, confiscating and destroying evidence of a crime may hinder prosecution of those individuals responsible for selling or furnishing electronic cigarettes to persons under the age of 21. It should be noted that the costs to plan for and to create a safe harbor program and store and destroy electronic smoking devices, including the hazardous nicotine waste contained in these devices, are unknown and unfunded.

For the foregoing reasons, I am returning Senate Bill No. 1405 without my approval.

The purpose of this bill is to permit defendants for whom a monetary amount of bail has been set to pay the bail amount seven-days-a-week on a twenty-four-hour basis and be released from custody upon posting or payment of bail.

This bill is objectionable because it is unnecessary. The purpose of this bill is similar to the bail reform provisions within House Bill No. 1552, entitled "A Bill for an Act Relating to Public Safety," which I approved as Act 179, Session Laws of Hawai'i 2019. Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Bill No. 1459 entitled "A Bill for an Act Relating to the State Surfing Commission."

This bill establishes a temporary State Commission on Surfing within the Department of Accounting and General Services (DAGS) to promote surfing internationally and within the State.

This bill is objectionable because, while my administration supports the promotion of surfing, the purpose of the commission is clearly outside of DAGS's mission of delivering quality support services in the areas of physical, financial, and technical infrastructure support for state departments and agencies. Additionally, no funds were appropriated for this bill, making it extremely difficult for the commission to operate. Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Bill No. 1530, entitled "A Bill for an Act Relating to the Hawaii Community Development Authority."

The purpose of this bill is to make the conversion of the means of financing for the Hawai'i Community Development Authority (HCDA) staff from the HCDA revolving fund to the general fund contingent on the HCDA developing a plan to transfer control of the Kaka'ako Community Development District to the City and County of Honolulu. The plan and proposed legislation to effectuate the transfer of control of the Kaka'ako Community Development District must be submitted to the Legislature prior to the convening of the 2020 regular session. The transfer must be executed by December 31, 2023.

This bill is objectionable because the short timeline to complete the required work to meet the conversion requirements could potentially threaten funding for thirteen HCDA positions in the third quarter of the upcoming fiscal year. Notwithstanding this objection, HCDA is committed to developing a comprehensive transition plan to transfer control of the Kaka'ako Community Development District to the City and County of Honolulu and to submitting proposed enabling legislation for the 2020 regular legislative session.

Re: HB1383 HD2 SD1 CD1

Pursuant to Section 16 of Article III of the State Constitution, HB1383 HD2 SD1 CD1, entitled "A BILL FOR AN ACT RELATING TO MARIJUANA" became law as ACT 273 on July 10, 2019.

This bill will decriminalize the possession of three grams or less of marijuana and establish that the possession of that amount is a violation punishable by a monetary fine of \$130.00. It also provides that upon motion by a person convicted for the possession of marijuana under section 712-1249, Hawaii Revised Statutes, for an amount of three grams or less, and arising from a set of facts and circumstances that resulted in no other criminal charge, the court shall grant an expungement order pertaining to the conviction for that offense. Finally, it establishes a marijuana evaluation task force to make recommendations on changing marijuana use penalties and outcomes in the State.

There are numerous concerns, including the normalization of marijuana use, clear conflicts with federal law, the inability to refer violators to effective treatment programs, and the ability for the courts to actually collect fines.

While this bill presents serious policy concerns, it also establishes a task force that is charged with thoughtfully considering recommendations on marijuana policy and preparing a report before the convening of the 2021 Regular Session. In connection with its mandate, I expect the task force will take a close look at the concerns raised in connection with this bill and carefully scrutinize and evaluate the effect of decriminalizing the possession of three grams or less of marijuana.

Gov. Msg. No. 1394, dated July 10, 2019, informing the House that on July 10, 2019, pursuant to Section 16 of Article III of the State Constitution, the following bill became law without his signature, stating:

"Dear President Kouchi, Speaker Saiki, and Members of the Legislature:

Re: HB1433 HD1 SD1 CD1

Pursuant to Section 16 of Article III of the State Constitution, HB1433 HD1 SD1 CD1, entitled "A BILL FOR AN ACT RELATING TO ADDRESS CONFIDENTIALITY" became law as ACT 274 on July 10, 2019.

This bill amends chapter 801G, Hawaii Revised States [sic], to change the governmental entity responsible for administration of the address confidentiality program from the Department of the Attorney General to the Office of the Lieutenant Governor. The legislature determined that the Office of the Lieutenant Governor is the appropriate governmental entity to administer the program.

The address confidentiality program was signed into law on July 5, 2018. This law provides survivors of domestic abuse, sexual offenses, or stalking with a substitute address to be used by state and local government agencies. The program is intended to prevent a victim's assailant or potential assailant from finding the victim through public records. Chapter 801G prohibits the address of a program participant from being made public or published in state or county governmental records.

Although the bill presents implementation and funding issues, we recognize the need to establish this program and to begin offering program services to victims that fear for their safety because their whereabouts are available through government records.

Attorney General Clare E. Connors fully supports this program and has agreed to assist with the transition of this program from the Department of

the Attorney General to the office of the lieutenant governor by sharing program processes, training presentations and forms that were developed during the past year.

Although the bill originated as a funding bill to allow for proper staffing and operational costs related to the administration of the program, funding provisions were not included in the final version of the bill. We hope to have a continued conversion to address the funding issue and to ensure successful implementation and sustained operation of the program.

For the foregoing reasons, I allowed HB1433 HD1 SD1 CD1 to become law without my signature.

Re: SB33 SD3 HD2 CD1

Pursuant to Section 16 of Article III of the State Constitution, SB33 SD3 HD2 CD1, entitled "A BILL FOR AN ACT RELATING TO ECONOMIC DEVELOPMENT" became law as ACT 275 on July 10, 2019.

This bill will: (1) increase the annual rolling cap for the motion picture, digital media, and film production income tax credit to \$50,000,000; and (2) require the University of Hawaii, West Oahu (University) and the Hawaii Technology Development Corporation (HTDC) to execute a memorandum of understanding by December 31, 2020, that will commit the parties to enter, by December 31, 2021, a no-cost lease agreement for a thirty-acre parcel of University land that is adjacent to Farrington Highway and Kapolei Golf Course Road. The bill further requires the lease agreement to be for a term of not less than sixty years, and include a provision requiring that within six years, the title of the parcel will be transferred from the University to the HTDC.

The legislature received testimony from the Department of Business, Economic Development, and Tourism and the private sector in strong support of this bill's increase of the income tax credit for the motion picture, digital media, and film production industries. The increased tax credit was viewed as essential to sustaining and continuing the growth of these industries in Hawaii, which in turn strengthens job creation and continued employment for the people of the State of Hawaii.

However, in addition to the tax credit increase, the bill also requires the University to enter into a memorandum of understanding with the HTDC for the eventual transfer of a parcel of University land to the HTDC. This part of the bill creates challenges, which should be addressed before DBEDT takes any action.

Notwithstanding the requirement for a University-HTDC memorandum of agreement, and the concerns it raises, the income tax credit established by this bill is hugely beneficial to our state. One of the goals of this administration is to create an environment that encourages and supports its citizens to remain and thrive in Hawaii. Accordingly, to that end, this administration is fully committed to strengthening the local economy through job creation and industry support. The motion picture, digital media, and film production industries are strong players in the local economy and must continue to be supported. The increased tax credit provided by this bill will further that purpose.

Since the University-HTDC memorandum of agreement does not need to be executed until December 31, 2020, my administration will be working closely with the legislature next session to reevaluate this requirement and make the necessary changes to restore the university's autonomy.

For the foregoing reasons, I allowed SB33 SD3 HD2 CD1 to become law without my signature.

Pursuant to Section 16 of Article III of the State Constitution, SB385 SD1 HD2 CD1, entitled "A BILL FOR AN ACT RELATING TO PROFESSIONAL AND VOCATIONAL LICENSING" became law as ACT 279 on July 10, 2019.

This bill repeals defaults on student loans, student loan repayment contracts, and scholarship contracts as grounds for sanctioning professional and vocational licensees. In doing so, this bill would align Hawaii with the majority of states that repeal student loan defaults as grounds for a license denial, suspension, or revocation.

However, section 4 of this bill deletes Hawaii Revised Statutes (HRS) section 431:9-235(e), which provides for the right to a hearing and an appeal from an order suspending, revoking, or not renewing any license application by the Insurance Commissioner. The right to a hearing is not limited to defaults of student loans, student loan repayments contracts, and scholarship contracts; rather, this right also applies to violations of HRS chapter 431, article 9 (Licensing of Adjusters and Bill Reviewers). Deleting the right to a hearing under HRS section 431:9-235(e) will make the legislative intent unclear and hinder the Insurance Commissioner's ability to enforce violations of the licensing laws of public adjusters and bill reviewers.

Pursuant to Section 16 of Article III of the State Constitution, SB409 SD2 HD1 CD1, entitled "A BILL FOR AN ACT RELATING TO ELECTRIC VEHICLES" became law as ACT 280 on July 10, 2019.

This bill establishes a \$50 annual vehicle registration fee for electric and alternative fuel vehicles to be deposited into the State Highway Fund.

Although my administration supports the electrification of Hawai'i's transportation system, the increase in electric vehicles has significantly reduced revenues to our State Highway Fund due to reductions in gas tax collections. The reduction in our State Highway Fund limits the Hawaii Department of Transportation's ability to capture matching federal funds. Unfortunately, the federal government operates through reimbursements and requires the state to front the money for transportation projects.

Electric vehicles will continue to receive incentives such as tax credits, free parking, and single driver zipper lane benefits. However, these drivers are equally responsible for the wear and tear to our road systems. My administration will continue looking for the appropriate balance between incentives and road usage equity.

Pursuant to Section 16 of Article III of the State Constitution, SB414 SD1 HD1 CD1, entitled "A BILL FOR AN ACT RELATING TO CRIMINAL PROCEDURE" became law as ACT 281 on July 10, 2019.

This bill will require law enforcement agencies to adopt specified procedures when conducting live lineups, photo lineups, and showups for the eyewitness identification of those suspected of committing offenses. It also requires the agencies to include these procedures in their training programs.

We understand that these procedures are intended to result in more accurate eyewitness identifications, and thereby increase the ability of law enforcement agencies to solve crimes and protect the innocent.

In fact, law enforcement agencies already have adopted many of these procedures. However, some of the other procedures have not been adopted because they are unduly burdensome. Some agencies are also concerned that this bill legislates what should be internal policies and procedures regarding the investigation of crimes. Such legislation could eliminate the flexibility and control agencies need to conduct their investigations.

The bill provides for an effective date of June 1, 2020. This delay will give law enforcement agencies time to adopt and implement eyewitness identification procedures. It will also allow them to raise any concerns that arise during the implementation process with the Legislature during the next session.

This bill will allow condominium associations to conduct nonjudicial foreclosures, regardless of whether the association's governing documents include a provision expressly providing such authority. The bill addresses a recent decision of the Intermediate Court of Appeals interpreting legislative intent in *Sakal v. Association of Apartment Owners of Hawaii Monarch*, 143 Haw. 219 (2018). It also requires the foreclosing association to offer mediation along with any notice of default and intention to foreclose, as well as prescribed procedures when mediation is chosen by the consumer.

While we have concerns because the bill expressly states that it will apply retroactively, we recognize the need for foreclosing associations to have clarity after *Sakal*. Thus, despite the retroactive application, the prospective application of the bill has utility and value.

We hope to have continued conversations next session to address the bill's implementation challenges and to help both foreclosing associations and delinquent homeowners in condominiums achieve the intent of this measure.

For the foregoing reasons, I allowed SB551 SD1 HD2 CD1 to become law without my signature.

Sincerely,

Re: SB767 SD1 HD1 CD1

Pursuant to Section 16 of Article III of the State Constitution, SB767 SD1 HD1 CD1, entitled "A BILL FOR AN ACT RELATING TO CONTRACTORS" became law as ACT 283, Session Laws of Hawaii 2019, on July 10, 2019.

This bill increases the handyman exemption from \$1,000 to \$1,500 and makes it applicable only to the cost of labor and materials.

The handyman exemption amount has not been increased since 1992. A project that cost \$1,000 in 1992 is estimated to cost more than \$1,800 in 2019 according to Bureau of Labor Statistics consumer price index. This bill will assist landlords and homeowners in reducing the cost of maintaining a home or to make expedient repairs to make rentals more marketable.

Also, rural parts of our state have a shortage of licensed contractors for these types of projects because the work is too small or contractors are unavailable. Some types of repairs required quick action to prevent further damage to the home.

Although there is merit to raising the threshold, increasing the exemption cap leads to potential consumer protection concerns as unlicensed individuals can engage in larger and more complex construction work. Many of these unlicensed individuals have not met the experience, examination, and insurance requirements required of licensed contractors.

For the foregoing reasons, I allowed SB767 SD1 HD1 CD1 to become law without my signature.

"Dear President Kouchi, Speaker Saiki, and Members of the Legislature:

Re: SB817 SD2 HD1 CD1

Pursuant to Section 16 of Article III of the State Constitution, SB817 SD2 HD1 CD1, entitled "A BILL FOR AN ACT RELATING TO SELF-SERVICE STORAGE" became law as ACT 284 on July 10, 2019.

This bill proposes to permit the issuance of a limited lines self-storage insurance license.

Currently, occupants of self-service storage units may purchase property insurance from fully licensed property and casualty producers to insure their belongings. Product availability and access to purchase these products have not been problem issues for consumers.

This bill does not introduce a new product, lower premiums, or create more competition that would presumably result in lower pricing. Rather, this bill will provide the convenience of on-site purchases of insurance by consumers for their stored property by individuals selling property insurance through these limited lines licenses. These individuals will not have the complete knowledge, experience, or background information of insurance products that fully licensed property and casualty producers have.

The creation of the self-service storage limited lines license is reflective of proposals coming from business interests to increase the number of permitted limited lines licenses covering different niche areas. Consequently, with the numerous additions of limited lines licenses permitted (e.g., air travel, vending machines, accident and health or sickness, credit, credit life disability, and motor vehicle rental), the number of non-fully licensed producers selling insurance policies is growing through a patchwork of disjointed regulations. The growth of these types of licenses, while they may be convenient ways to sell insurance, is not the best way to regulate insurance to protect consumers.

For the foregoing reasons, I allowed SB817 SD2 HD1 CD1 to become law without my signature.

Although this bill appropriates \$100,000 for a comprehensive planning study to identify public library land sites and facilities for a pilot program to lease public library lands, the public libraries do not have the resources or expertise in land development and management to conduct the pilot program.

Gov. Msg. No. 1406, dated July 10, 2019, informing the House that on July 10, 2019, pursuant to Section 16 of Article III of the State Constitution, the following bill became law without his signature, stating:

"Dear President Kouchi, Speaker Saiki, and Members of the Legislature:

Re: SB1058 SD2 HD1 CD1

Pursuant to Section 16 of Article III of the State Constitution, SB1058 SD2 HD1 CD1, entitled "A BILL FOR AN ACT RELATING TO PROPOSED CONSTITUTIONAL AMENDMENTS" became law as ACT 286 on July 10, 2019.

This bill requires the Attorney General, in consultation with the Legislative Reference Bureau (LRB), to prepare a statement, in English and Hawaiian, explaining the purpose, limitations, and effects of each constitutional amendment proposed by the Legislature for the voters. The bill also requires the Office of Elections and county clerks to make the statements available to the public at all polling places in the State and on a website operated by the Office of Elections.

While I fully support the preparation of a statement in English and Hawaiian, proposed amendments are the product of the legislators. For this reason, the statements should be prepared by those who work closely with the Legislature and within the legislative branch. This would ensure that the wording of the statements in both languages reflects the intent of the Legislature. The bill requires consultation with the Legislative Reference Bureau (LRB), but the LRB or another legislative entity would be better suited to prepare the actual statements explaining the proposed amendments.

In addition, there was no funding appropriated to prepare the translations.

For the foregoing reasons, I allowed SB1058 SD2 HD1 CD1 to become law without my signature.

Sincerely,
