Representative McDermott rose to speak in support of the measure, stating:

"Mr. Speaker, I stand in strong support. Being in the minority for 16 years, it's great when we have an opportunity to work together and when everybody agrees on something, as with this measure and the body's overall reaction to the crisis at Red Hill, given our limited legal authorities that we have. Quite frankly, I'm not sure everyone is aware of it, but we're basically at the mercy of the federal government. That's part of the problem.

"Mr. Speaker, I think this is a great measure. I think the body is prudent in doing it because we don't know what's going to happen. And what I mean by that, Mr. Speaker, is a real time snapshot for the body. Where are we right now? Well, we have a memo from Secretary Austin saying that he was going to close the facility. But there is no timeline. There is not a target date or a completion date. Even the great John Kennedy said, we're going to go to the Moon by the end of the decade.

"We don't have a target date. We don't even have a start date. What we have is this nebulous, vague promise, and in there, direction to the commanders to start thinking about this in a different way, this fueling issue. The only time frame we have is 12 months that we're told it will take to start to empty the tank until they're all empty, that's it. But we don't have a start date, no completion date. So, that's the Austin memo, then that's what we're basing all our hopes on, this secretary of defense memo. It doesn't have the force of law.

"The omnibus bills that were recently passed by Congress were great. All the remediation money we need, all the money for families to reimburse them for the hotels and all that stuff has been taken care of. But in both of these bills that were recently passed, there is no memo or any notion of closure, there is only funds to defuel and repair infrastructure and remediation. In fact, the latest omnibus bill states the DOD will prepare a new report looking at all, and I emphasize the word all, options to store fuel in the Pacific. That includes obviously the status quo.

"So, my point is, Mr. Speaker, it's great that this body is engaged and moving forward. My point is, we're not out of the woods yet. Thank you."

Representative Ganaden rose to speak in support of the measure, stating:

"I rise in support. Regarding the previous speaker's discussion, I am in total agreement that we're not out of the woods yet. I further think that we are fulfilling our constitutional duties under the State Constitution to provide clean drinking water for all of our constituents. So, despite us not having all of the power of the federal government, us complying with the needs of the Constitution, as we are doing in this bill and in other bills and in previous resolutions, are in full support of what our communities need.

"Also in response, we are not yet sure about the process by which the County's Board of Water Supply will enter into a moratorium for the issuance of new water permits. If this were to go into effect, this would have a significant impact on the economy here on Oahu for building contracts, for development, for the various unions that we work with, for the various working class jobs that people do in construction. We don't have a process by which the Board of Water Supply will decide how to give out permits once a moratorium has happened. We don't have a process or a timeline from the Department of Defense for the defueling or the decommissioning of these tanks moving forward.

"There are many questions yet unanswered, that I'm hoping that your Committee on Red Hill and this body can help find answers for prior to the conclusion of the legislative session. Thank you."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, support. And I would like the words of the previous speaker and my colleague from Ewa Beach to be entered into the Journal as my own," and the Chair "so ordered." (By reference only.)

Representative Ward continued, stating:

"And, Mr. Speaker, my point is this, I have a concern about the way the bill reads on page two, line one. It says that the money will be reimbursed *vis-à-vis* what is called, the Department of Health will pursue the reimbursement. That's pretty wimpy and weak as far as I'm concerned. It

should say will obtain the reimbursement and with the timeline. So, as we kick this down the line, if you will, I think we have to tighten it up. It looks like, well, you can pay it back, you're going to pursue it. You know, you can pursue something for years and years and years, like the TMT and other things, you just keep kicking the thing down the line. So, I think we need to tighten it up and be serious about this because my people, and there's many people in this building, our constituents, drink this water, and we got to be assured that it's pure. Thank you, Mr. Speaker."

Representative McDermott rose to respond, stating:

"Still in support. I want to acknowledge my friend from Kalihi's work in the very beginning. He spearheaded a call for an investigation and that helped get the ball rolling, excellent job there. And I think we're all in agreement. But as of Monday, my dear colleague was talking about the legal process, as of Monday afternoon, they hadn't withdrawn their permit request and in the legal case review. So, they have two things going. They have a permit request and then a legal appeal in court, and they haven't withdrawn from either of those.

"So, when you combine all of that and the fact that there's no dates, for start, no target date, let's have it done by 2025 or something like that and then you work towards that. There's nothing except his aspirations, his desire to have this done. But as you know, it requires a line item with funding next to it. There's not even any money in here to plan to move any time soon, no money to plan a move, let alone no money to move. So, that's where we're at. And we're going to catch it because the public is under the impression it's closed, it's a done deal, finished. That's not closing anytime soon. Thank you, sir."

The motion was put to vote by the Chair and carried, and the report of the Committees was adopted and S.B. No. 3124, SD 1, HD 1, entitled: "A BILL FOR AN ACT MAKING AN EMERGENCY APPROPRIATION TO THE DEPARTMENT OF HEALTH FOR COSTS RESULTING FROM THE RELEASE OF PETROLEUM FROM THE RED HILL BULK FUEL STORAGE FACILITY," passed Second Reading and was referred to the Committee on Finance, with Representative Ohno being excused.

Representative Kong rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Okimoto rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Har rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition. I'm sorry, guys, I know we all want to go home because it's a long weekend, but very quickly. Number one, in the CPC Committee, none of the county planning departments testified on this measure. This bill, beginning January 1st, 2023, would prohibit county planning departments from issuing any building permits on new construction if in fact there are 10 or more parking stalls in that new construction building and all 100% of the stalls must be EV ready. That said, my issue number two is, I think that this bill absolutely is an evisceration of home rule.

"Secondly, my issue is affordable housing. If this bill applied to luxury units, no problem whatsoever. But when you apply a bill like this to market rate or affordable housing, you have now increased the cost of that housing. This is going to have an absolute detrimental impact upon the affordable housing industry, as well as our market rate industry, only increasing the costs for our local residents.

"The City and County of Honolulu dealt with a similar issue two years ago. And they, in fact, put in an exemption for affordable housing at about 100% and below AMI because they recognize 80% to 100% is workforce housing. So, if this bill should move forward, I implore the subsequent committees to please consider exempting affordable housing. Thank you."

Representative Lowen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. First of all, just to point out that this would only apply to multi-unit dwellings. So, not all building permits. But what we were sent over from the Senate basically put this requirement in place but put the onus on apartment owners to pay for it after the fact. And that is like 10 times more expensive than if it's included in the building up front. So, to us, it was more of an equity issue to think we're going to put some requirement in law that EV charging facilities must be installed, but to have it done after the fact instead of upfront with the construction of it, when the cost of it is much, much cheaper.

"The City and County does have a law that I think is pretty weak and the exemption for affordable housing was due to political compromising, *et cetera*. But in my view, it's really a detriment to low- and moderate-income individuals. It makes it inaccessible for them to purchase an electric vehicle and to realize the savings that they could enjoy if they were able to have an electric vehicle by not being able to charge it at home. So, we're still working on this issue. We got over what we got from the Senate and tried to work to make it better. Thank you."

Representative Onishi rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. And I'd like to have the words of the Representative from Kapolei added as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Onishi continued, stating:

"Also, I'd like to add that this requires 100%, all of the parking stalls in a development, to be EV charging ready. It does not take into account, and the people who were there to testify could not tell us what is going to be the future of zero emission vehicles. Yet at this point, we're trying to make this a mandate across all new development, and we don't even know if hydrogen vehicles, for example, are going to be three, four, five years around the corner where that's going to be the more environmentally friendly type of vehicles and maybe even more affordable than electric vehicles, yet we're putting in all this infrastructure, requiring all this infrastructure and costs that could affect development.

"One of the things that concerns me is, yes, the City and County already has standards for new development, but it's at 25%. And in my mind, that makes a lot of sense because you don't even know how many of those units would have electric vehicles or some other type of zero emission vehicle. So, with that, I am strongly opposed to this measure at this point. Thank you."

Representative Lowen rose to respond, stating:

"Still in support, Mr. Speaker. I would just suggest that the Representative from Hilo do some looking into the viability of hydrogen vehicles for passenger cars, the price point, the market readiness, the cost of hydrogen fuel, especially if you expect to make it from renewable resources. Because I would say that the direction that this industry is moving is, for those of us that spend a lot of time working on this issue, is pretty clear. And that is that electric vehicles are going to be the future for passenger cars.

"There is a place for hydrogen for heavier duty vehicles, for transit, for the long distance things like trucking, *et cetera*, and manufacturing, there's a huge place and opportunity for a future for hydrogen. But I and many others who work in this area do not see that it's going to be for passenger cars. And so to continue to entertain this and invest state funds in two paths at once really poses a loss to taxpayers, a misuse of taxpayer funds. It's a

real opportunity cost. And I think that we need to go all in on electric vehicles for passenger cars. That's the future."

Representative D. Kobayashi rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Okimoto rose in opposition to the measure and asked that the remarks of Representatives Onishi and Har be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Kong rose to respond, stating:

"Thank you, Mr. Speaker. Same request, still in opposition. What's interesting is, we do not know the advancements of technologies. I mean, every day something new happens. I mean, who could think that we could charge our phones with a portable charger now? Who knows one day that electric vehicles will not have portable chargers? If we are going to invest and put in this infrastructure, it may not even be needed in the future. And by the time this bill and this all takes effect, all this permitting and everything, it might be too late, if we're going to spend all that money committing ourselves when who knows what the future will bring in technologies. Thank you, Mr. Speaker," and the Chair "so ordered." (By reference only.)

Representative Perruso rose to speak in support of the measure, stating:

"In strong support. I'd like to enter the words of the Chair of Energy & Environmental Protection into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

LATE INTRODUCTIONS

The following late introduction was made to the members of the House:

Representative Ilagan introduced Jane Clement, executive assistant to Mayor Mitch Roth; and May Mizuno, wife of Representative Mizuno.

ANNOUNCEMENTS

Representative Branco: "On Saturday will be Prince Kuhio Day, and tomorrow we will celebrate it, and I just want to share a few words about this great statesman, civic leader, sportsman, and heir to the throne of the Kingdom of Hawaii. I look with awe and humble aspiration at the life of Prince Jonah Kuhio or Ke Ali'i Maka'āinana. Most remember the great accomplishments this honored *ali'i* achieved. My inspiration comes from the many hurdles he overcame. At the age of 24, he participated in the 1895 Wilcox Rebellion against the Republic of Hawaii. This uprising was unsuccessful, and Prince Kuhio was sentenced to a year in prison, while others were charged with treason and sentenced with execution. Distraught, he self-exiled himself for a year in Africa.

"The people begged him to return, and he did because he needed leadership that our people needed. He rose above the anger, the disappointment, and dedicated himself to serving the Hawaiian people. His

success was not in protest but was astutely learning and successfully navigating lawmaking as Hawaii's delegate to the United States Congress.

"It is reported Kuhio arrived in Washington, D.C. with much excitement, though the reality of the racial prejudice quickly set in. When President Theodore Roosevelt greeted Kuhio in 1903, he balked at the name Kalaniana'ole. 'I shall not call him Prince Cupid, and I cannot pronounce his last name. I never would be able to remember it, anyhow,' the president complained. 'Can't we cut it off somewhere and make it simpler?'"

"Prince Kuhio devoted his life to helping his people. He survived displacement, imprisonment, disappointment, and prejudice. As a lawmaker, I applaud his strength and character, his commitment to doing what is right, even when faced with failure and rejection. Truly, one's best successes do not often come from life's greatest disappointments. *Mahalo*."

Representative Ward: "Mr. Speaker, I am compelled to say in the spirit of bipartisanship, I want to thank the gentleman from Kailua for mentioning the meaning and the seriousness, as well as he being the founder of the Republican Party, of which a lot of us stand for us. So, thank you very much and happy Prince Kuhio Day, Kalaniana'ole Day. Thank you, Mr. Speaker."
