"Thank you, Mr. Speaker. All due respect to the author of this, I'm getting closer to being a yes vote on this, except I believe it's a little bit out of the context of where we are in terms of the grassroots evidence of this. Why I'm saying that is, it's with the McKinley High School, for example, it was a individual or a small number of individuals who said, hey, this is a bad idea, McKinley High School should not be named McKinley High School. And then when the alumni heard of that, they said, hey, wait a minute.

"And right now, in the hearing that we had regarding Captain Cook becoming no longer Captain Cook, there is a petition which was signed by 2,600 people, but there was not evidence that they were people from the area. And then there was other testimony in the hearing that there was narratives that said, people love Captain Cook, regardless of the history, we have to learn from history, *et cetera*.

"So the point is, Mr. Speaker, this is a good bill if it comes from the grassroots, it's got to be the people in Captain Cook who say, yeah, we no longer want to be called this. And that's my only reservation. It's well-intended, but unless we do the McKinley High School processing, this is premature. It should be the people who are under that jurisdiction and their decision, not just a handful of people. And if that can be proven, I will certainly change my vote. Thank you."

Representative Kapela rose to speak in support of the measure, stating:

"In support, Mr. Speaker. Thank you so much. There are a number of community individuals who have come forward, talked about, and even testified in front of the committee on how important this measure is. It

absolutely is grassroots, and it comes from individuals who are born and raised, have ancestral ties to Kaawaloa. So, thank you so much."

"Mr. Speaker, I stand in strong support. I thank the authors of this resolution, and it's requesting the United States Department of Defense to prepare a plan to decommission Red Hill fuel facility. Why do we have to do that, Mr. Speaker? We don't own it, we don't control it, it's not ours. I take such gratitude to this body for actually doing this, articulating what must be done, because the federal government hasn't done this and we're the ones telling them they need to do it. They should be doing it themselves.

"And I just want to reiterate, there is no estimated time closure of this facility, there's no even estimated begin date on when they're going to close

down. As we saw last week when the 30 gallons was released, in the past, last Friday there was 30 gallons released in the afternoon, I'm sure you folks know that, that wouldn't even have made the news, we wouldn't even have paid attention to it.

"Now, some poor fellow lost his career over it, and I just want to note for a moment the impact that that has on that gentleman. He's been here less than a year. He inherited a 100-year-old system which hasn't been maintained properly, clearly, and is fatigued and cracks all over the place. And less than a year he's there, and now they had to put a sacrificial lamb out there, so they gave this guy up. For the rest of his life, he's going to carry this around because this was his big major command. An O-6, he wants to become an admiral, right, he's a colonel. And they fired him. He's going to get a desk job somewhere for two, three months and then retire. But he's going to carry this the rest of his life. That's just an aside.

"But I support the measure, I support what the body's doing. It's a shame that we're the ones leading this charge, but we are, nonetheless. Thank you, Mr. Speaker."

Representative Ganaden rose to speak in support of both measures, stating:

"In strong support. Mr. Speaker, this resolution is the work of your Red Hill Committee. It is the intention of this House to hold the U.S. Department of Defense and Navy accountable for the significant and foreseeable cost to the state moving forward. It is the further intention of this House to ensure that the United States Department of Defense, the Navy, and others remediate the damage caused to the southern Oahu basal aquifer, land surrounding the Red Hill bulk fuel storage facility, and Pearl Harbor.

"In early May, pursuant to the existing court order, the United States Navy is going to be giving a report to the State Department of Health, as well as the body, as well as the Board of Water Supply and the community. What we hope to see in that report is a description of the accident as it happened. We can hope to see a description of the oversight that the Navy had with a variety of federal contractors. The incident that happened on May 6th, which led later to an incident that happened on May 20th, which led later to the poisoning of the water supply that fed 93,000 human beings. We can also hope to see some continued oversight, some changes in progress, and some discussion for how they might remediate this.

"If we don't see that, it is likely that we will have to come back next year to discuss how we're going to pay for all of this. How, if the Board of Water Supply is going to be issuing a moratorium on water permits throughout urban Honolulu, how that will affect water payers who are existing water users, how it will affect permits moving forward, and how the Board of Water Supply will discuss how it's going to do those new water permits equitably. This is going to be of great concern to our economy, to the state, and to the county. Again, thank you for passing this measure and we continue to serve this body."

Representative McDermott rose to respond, stating:

"My colleague has done tremendous thinking, the gentleman who previously spoke, tremendous thinking out-of-the-box on how this is going to affect our water usage going forward. This catastrophe that's happened at Red Hill and how the permitting allocation, I mean, I chatted with him and he's thinking two steps ahead how this is going to affect us here locally. But I'm still stuck in the mud, so to speak.

"One thing I don't want to do is blame the Navy, because they do what they're told. They work for us. They'll do what we tell them. We tell them to shut down, they'll shut it down. We just got to put it in writing. We have to tell them what to do. They work for us. We own the Navy. They work for the president, the secretary of the Navy, the secretary of defense. The policies is developed by Congress like we develop policy here, and then they implement it. So, we're waiting on Congress to tell them to shut it down. Congress has not told them to shut it down and attach money to it yet. That's why we're doing it. We're telling them, hey, shut it down.

"So, I just want to be careful blaming the men and women in uniform, because they do what they're told. And if the president, Joe Biden is our president, he's also, I believe, a member of your party, Mr. Speaker. He could close this thing down tomorrow."

The Chair addressed Representative McDermott, stating:

"Mr. McDermott, the party has nothing to do with the resolutions."

Representative McDermott continued, stating:

"Okay, I don't know what party he's a member of then, but he could shut it down tomorrow. He's the president, okay? The president could shut it down tomorrow. Secretary of Navy could shut it down tomorrow. When you get to the secretary of defense, he can kind of pause it but he doesn't have the ability to do these things, neither do the other two, quite frankly, without the money from Congress to shut this down. It's going to cost money, \$4 to \$10 billion. We got \$1 billion proposed coming in a proposed budget, which I think it, well, that's asked for to defuel, but not to decommission. Those words are important and they're missing.

"When you talk about shutting it down, it's decommissioning. Defueling is just emptying, clean it up, fix the *puka*, find the *puka*, and reapply for a permit. That's what the order says, I've read the order. In any case, I just don't want us to blame the men and women in uniform because they do what we tell them. Thank you."

Representative Ward rose to speak in support of both measures, stating:

"Mr. Speaker, support. Very simply and briefly, this is about clean water for Hawaii Kai, in my district, and for every district on this floor and in the Senate, and in the City Council. Short of clean water, Mr. Speaker, we don't have too much going for us. So, this is a very imperative, must-pass bill."

Representative B. Kobayashi rose to speak in support of both measures, stating:

"Mr. Speaker, in support. I support the resolutions, but if anything, they do not go far enough. The Navy is currently preparing a plan to decommission and defuel on its own terms. It is not following the State Department of Health order, which was given last year, that the plan be prepared by an independent consultant. The consultant that the Navy has chosen seems to be quite qualified, but Department of Health is contesting that this consultant may not be independent.

"Further, the Navy has not accepted that the State Department of Health has the authority, per federal legislation regarding underground storage tanks, to order the Navy to decommission and defuel. That issue is hung up in the courts and likely not to be decided in context with the Red Hill situation. So, this resolution is fine, but there are other loose ends still to be tied. Thank you."

Representative LoPresti rose in support of both measures and asked that the remarks of Representatives B. Kobayashi and Ganaden be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. Representative LoPresti rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. Reservations, some comments. I want to just note for you, Mr. Speaker, that this legislation has been consistently opposed by the Society for Hawaiian Archeology. Now, my paternal grandparents were both archeologists, Mr. Speaker, and archeology is a science. And I do think that if we respect science, we would listen to scientists and not create policies that try to create unachievable things for science.

"So, I support the intent, as does the Society for Hawaiian Archeology, but this bill actually creates loopholes. Instead of maintaining fines for people or developers who damage historical properties, this creates a loophole to say that they're only going to be fined if they damage pre-contact historical properties, which the Society for Hawaiian Archeology is saying is not entirely scientifically definable by the mechanisms that they have to do that sort of thing.

"So, the intent is totally a support, as again, does the Society, but it creates loopholes and it also creates possibilities for ambiguities in court, it actually could create more court challenges and these things that get very sloppy and we're going to have to come back and fix this if this passes. So, for now, I'm reservations, if only because I want to get on the conference committee to be a continued part of the conversation. Thank you."

Mr. Speaker, your Special Committee on Red Hill, as well as this body and the Senate and the Department of Health, all are committed to making sure that we hold the Department of Defense, Navy responsible for all costs associated.

"However, due to the emergency response, it impacted the department by \$1.5 million. This \$1.5 million, in this emergency appropriation, in constant discussion with the administration as well as with Finance, came up with this response so that we can continue to have the Department of Health respond to this crisis, Mr. Speaker. So again, thank you for all the support."

"In strong support, may I have the words of the previous speaker entered into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

"Thank you, Mr. Speaker. I stand in strong support of the measure. I was recently on Molokai and we got to visit with the good people there, including the Molokai Community Health Center. And they told us some very tragic stories, which could have easily been avoided had they had the ambulance there on the island. So, I'm very grateful to the author of this measure, and I'm sure the community is as well, and I wanted to stand with them in support of it. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 3248, SD 1, HD 2, entitled: "A BILL FOR AN ACT RELATING TO AMBULANCES," passed Third Reading by a vote of 48 ayes, with Representatives Costales, D. Kobayashi, and Lowen being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1800-22) recommending that S.B. No. 2142, SD 1, HD 1 pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 2142, SD 1, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative LoPresti rose to speak in opposition to the measure, stating:

"In opposition. With respect to the chair, I do support every aspect of this bill except for one key aspect, and that is legislating curriculum. Mr. Speaker, I believe that faculty and education professionals should be in charge of determining curriculum, not legislators like us. I do think we need more computer science resources, I think that the Board of Education should do that, and I think part of the reason we're looking at legislation for this is because the Board of Education is no longer an elected body and they're no longer accountable to the people. So, that's the root cause. But as an educational professional, I have to object and say no. Thank you."

Representative Woodson rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Per the previous speaker, I appreciate his comments. There is always a healthy discussion that happen

between boards, legislatures, other bodies that deal with education. It's an emotional topic. But when it comes to situations that will move our state forward, if they have statewide impacts, then that is within the Legislature's authority to move in that direction.

"And we know, Mr. Speaker, that one of the things that are incorporated into many high-performing public school systems is that they actually align formalized curriculum with marketplace need. And so, as in previous sessions, Mr. Speaker, there's been some gentle movement to focus on the space of CTE and computer science, because we want to make sure that our kids can also capitalize on those types of opportunities. And so, yes, the board can make that decision, but also the Legislature can as well, and it's consistent with past bills that have passed regarding the same topic. So, for that reason and others, I stand in support."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I stand in support as well. I'd just like the words of the Chair of Education entered in the Journal as if they were my own, and would like permission to insert written Python code into the Journal. And one equals one, Mr. Speaker," and the Chair "so ordered." (By reference only.)

Representative McKelvey submitted the following:

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1801-22) recommending that S.B. No. 3280, SD 1, HD 1 pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 3280, SD 1, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Nakamura rose to speak in opposition to the measure, stating:

"Mr. Speaker, I'd like to vote no on this measure. The private activity bonds, right now we have a ceiling every year from the federal government of \$328 million. Previously, we have been told that this doesn't affect the State at all, that we should just go ahead and approve special purpose revenue bonds because it won't affect very much. The Vice Chair of Housing and myself and others have done a deep dive into private activity bonds over the interim and during the session, and we found out that there is a huge impact for each and every special revenue bond that this body approves. And that for every dollar taken away, we lose the opportunity of doubling the revenues that we receive from the federal government through low income housing tax credits.

"So, it's very important to scrutinize each and every one of these SPRBs that are not health related and to be laser focused. If we want to solve our affordable housing crisis, we must use the resources at our disposal to build as many homes as possible. We have developers who have projects. We have a lot of feasible projects that are applying for very few of these bonds.

"So, I stand in opposition and I hope that if, over the next six years, if we focus on using private activity bonds for affordable housing, we can build close to 10,000 units over the next six years. So, standing in opposition to this bill."

Representative Hashimoto rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. I'd like the Chair of Housing's remarks entered into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Hashimoto continued, stating:

"And I do want to expand just a little bit. I think the House is really taking the lead in trying to figure out, in collaboration with the Senate, in trying to figure out what are we going to do for the future of our private activity bond ceiling. And I think this is the first step. We don't want to issue any more SPRBs, that's the first step. I think we're going to try and pass a law this year that will try and clean up the bond cap, because I think, when we talk to the Hawaii Housing and Finance Development Corporation, they always tell us we don't have enough bond cap to issue the low income housing tax credits.

"So, we're committed to the cause. I think we need to stay as laser focused on housing. It's when you take a look into our community, that's the biggest issue and will continue to be the biggest issue. And so, I think this entire body needs to make that commitment and ensuring that we stay focused on that issue. Thank you, Mr. Speaker."

Representative McKelvey rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I too am also going to vote no on this measure, I still have to turn in my green slip. And would like the words of the Chair of Housing entered into the record as if they were my own. And thank her for the work that she's doing in pointing this out to the members," and the Chair "so ordered." (By reference only.)

Representative LoPresti rose to speak in opposition to the measure, stating:

"No vote as well. And I'd just like to say, I'm repeatedly impressed by the Chair of Housing's acumen that she brings to this job in educating the fellow members and I want to thank her."

"I rise in strong opposition. I think that this bill makes clear that we have a lot of work to do with respect to the exiting of our state by big GMO seed companies, a process which has begun on the island of Kauai and will likely continue. I think that we clearly need to lay out in our license agreements more careful control of the terms of those exits, because right now it looks to me that we are being taken advantage of and that we are paying \$5 million to have the use of a facility that should be reverting to the State. Thank you."

Representative Morikawa rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. When I first heard about this proposal, I felt this was a great idea to finally, as written in the bill, promote locally grown food, teach students about growing food and aspects of agriculture. This idea of an innovation center is an opportunity for Kauai schools to establish a wellness center, a partnership with other organizations to teach our next generation about food sovereignty and entrepreneurship, enter into agreements with businesses and community partners to use their equipment expertise experience to create classrooms where teachers and students learn and work alongside industrial professionals, and to get local food into our schools.

"The big question is the cost to acquire this facility and whether the funds will be utilized efficiently to make this happen. If this should pass, and since the funds would be appropriated to the Department of Education, it is my hope that the department can negotiate a reasonable cost to acquire the assets that are already placed on state lands and have sufficient funds to accomplish this proposal. Because there is no doubt that we need to move in this direction of agriculture innovation. Thank you, Mr. Speaker."

Kobayashi, and Lowen being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1827-22) recommending that S.B. No. 2162, SD 1, HD 1 pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 2162, SD 1, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition. This is about ranked choice voting. This is the probably the third or fourth time that this bill has come before this body. And it's to make complex what is otherwise simple. There's nothing wrong with first past the posts. If there's anything wrong with our voting, our elections, it's always like what's free and fair, *et cetera*, it's not the system itself.

"The problem with ranked choice voting is people don't know what it is. I've asked so many people, can you explain it to me? In fact, my office, as I said earlier on this floor, asked me to explain and I got halfway through and I said, well, call the Office of Elections. The Office of Elections couldn't explain what it is. So, how can we expect our constituents, Mr. Speaker, to say this is good? The point is, this is confusing, it's sophisticated, it's a bit of a fad in some places. But this is not needed. This is going above and beyond for a reason that I don't understand.

"Even though I should say, for the record, every time it's come up, it's failed, and it deserves to fail because it's going to be confusing to the people

who otherwise vote for us or against us in a very simple way. We like, we don't like, not, oh, we want to know who's in block number one. Can you imagine running a track meet with, well, this is the first place runner, and then these guys, because of that one, gets to be knocked out and they get their votes. It's very sophisticated. If you're an Australian, you get used to it. But it's kind of like putting a metric system at the gas pumps. America maybe five or ten years ago said, we're going to use the metric system and we're going to use meters instead of gallons or liters instead of gallons. And they put it in all the pumps. And then suddenly after they pump gas for a while, they said, hey, this is crazy. I don't even know and understand it.

"So, ranked choice voting is rank, and I think it eliminates choices that are very clear cut for the people of Hawaii. For those reasons, Mr. Speaker, I think we're beating around the bush in the wrong direction. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2162, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO RANKED CHOICE VOTING," passed Third Reading by a vote of 42 ayes to 6 noes, with Representatives Gates, Kong, Matsumoto, McDermott, Okimoto, and Ward voting no, and with Representatives Costales, D. At 1:31 p.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:38 p.m.

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, a couple of things. First, I'd like to withdraw my question to the Majority Leader. And secondly, to thank the Speaker for a clarification which otherwise, look, I heard this in the Judiciary Committee, I'm on the Judiciary Committee. And not to say that the language is loosey goosey, but we never got the answer that we got today on the floor, and words make a difference. And today it's clear that this is a fundraiser prohibition only when this state legislature is in session. And it doesn't say

if you're the governor and you're always in session that you cannot raise money or the lieutenant governor or the city council or the prosecutor, because that's the way it was read in the committee hearing.

"Only today on the floor do I understand what this bill really means. But look, the language is a bit loosey goosey. And if some of the people sort of have a sense of, well, you sure you're not going to come against this. I'd like to see the committee report or whatever we do after we vote on this and I will vote for it. I have reservations, but I'll vote for it. But let us be very clear, this is not something that we're pushing everybody aside. We're trying to do it for the sake of clarity that when we're in session, we're not going to ask people for money, and it goes across the board. But we're not shutting anybody down, because that was the reading in the Judiciary Committee hearing that we left with, and I'm not the only member of that. For those reasons, Mr. Speaker, with reservations and thanking the Speaker for the clarification on the floor, not in the committee. Thank you."

Representative McKelvey rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I would just like to note that if the previous speaker had been at the reconsideration hearing that was held, he would have had his questions answered then and could have seen that we took steps with the Speaker's guidance to make this bill much better and to pass it out in the form which the members, I think, will support. Thank you."

"Reservations, Mr. Speaker, brief comment. I believe this bill just unifies the capacity for U.S. customs and immigration naturalization services to arrest under state law. It just clarifies what is already under law. And I think that we have some understandable and necessary reactions to seeing ICE being given broader authority to arrest individuals under state law. And I think that our wariness should continue indefinitely. But I think that this just clarifies what is already in statute. Thank you."
