At 11:04 a.m., the Chair declared a recess subject to the call of the Chair.

At this time, the members of the House, their guests, and audience were entertained by the Mākaha Sons.

The House of Representatives reconvened at 11:23 a.m.

At this time, the Speaker delivered his address, stating:

"First of all, can we give a big hand to the Mākaha Sons for the entertainment this morning. The Chair has some remarks this morning, but before beginning, the House of Representatives would like to extend its deepest condolences to the family of Ron Menor, who was a former member of this House.

"So, normally I try to keep my speech within seven minutes, but today I am going to spend a lot of time introducing and acknowledging people. So, I apologize because I am going to go over time.

"First of all, thank you to the Hawai'i Symphony Orchestra for the pre-program music. Thank you to Miss Kawaipomaika'i Kahaloa, daughter of Representative Kahaloa, for the Pledge of Allegiance. Thank you to Major Jared Sroat of the Hawai'i Air National Guard for the national anthem and Hawai'i Pono'i.

"Please join me in thanks and acknowledgement to the community leaders who are cultural practitioners for setting the ground for us in chant and prayer at the start of today's proceedings, Dr. Punihei Lipe who provided the *oli*, and Dr. Noe Noe Wong-Wilson for the invocation.

"Please welcome my lovely and beautiful wife, Patsy Saiki. And my parents, Richard and Sue, who are watching online this morning.

"We also have guests from the Hokkaido Prefectural Assembly and the Fukuoka Prefectural Assembly in the gallery.

"And I'd also like to introduce some of the public officials who are here with us this morning. Governor Josh Green and Mrs. Jaime Green. Lieutenant Governor Sylvia Luke and Second Gentleman Michael Luke. Incidentally, thank you to the Lieutenant Governor for providing the members with a cactus plant, although mine is plastic, I'm not sure why.

"From the Hawai'i Supreme Court, Chief Justice Mark Recktenwald and Associate Justices Paula Nakayama, Sabrina McKenna, Michael Wilson,

and Todd W. Eddins. From the Office of Hawaiian Affairs, Chair Carmen 'Hulu' Lindsey.

"From our congressional delegation, United States Senator Mazie Hirono, Congressman Ed Case and Mrs. Audrey Nakamura, Congresswoman Jill Tokuda.

"We also have former governors with us this morning. Governor George Ariyoshi and Mrs. Jean Ariyoshi, Governor John Waihee III and Mrs. Lynn Waihee, Governor Linda Lingle, Governor Neil Abercrombie. We also have former Congresswoman Colleen Hanabusa. Honolulu Mayor Rick Blangiardi and Kaua'i Mayor Derek Kawakami.

"And we have council chairs here with us. From Kaua'i, Chair Mel Rapozo, from Maui, Chair Tasha Kama, from the Big Island, Chair Heather Kimball, and from Honolulu, Chair Tommy Waters.

"And finally, we also have members of the Consular Corps with us this morning, could the members please stand.

"*Aloha. Aloha kākou. Aloha* to all of us. Welcome and thank you for attending our first open Opening Day in three years.

"So, a couple of weeks ago, Chris West, who is the president of ILWU Local 142, said something to me that is spot on today. He said, it's cool to have Hawai'i back. I know we all agree with Chris. So, let's give everyone here a round of applause for making it through the pandemic. We celebrate this moment, and are happy to see so many familiar faces and many new faces.

"Today, we are joined by 16 new House members. This is our largest freshman class in 28 years. And I would like to introduce twelve of them, and Representative Lauren Matsumoto will introduce the remaining four. So, members, could you please stand when I call on you.

"First, Representative Kirstin Kahaloa from District 6. Kirstin is a Native Hawaiian woman, mother, paddler, nonprofit manager, and someone who originally left Hawai'i for 14 years and almost didn't return, but did so to make her community and state a better place to live.

"From District 11, Representative Terez Amato. So, Terez is known as Tamato in her community. She grew up on Maui, she's an advocate who eagerly overcomes obstacles and challenges, and views this role as an opportunity of a lifetime.

"From District 13, Representative Mahina Poepoe. Mahina was born and raised on Moloka'i, she is a Native Hawaiian woman who is passionate about *aloha 'aina*, and seeks to bring this intention to government.

"From District 14, Representative Elle Cochran. Elle is the purple hair lady who is a surfer, she previously lived off the grid, she is a floral arranger, she is passionate about regenerative agriculture, and she will work her hardest to ensure that the voice of her community is heard in the State House.

"From District 22, Representative Andrew Garrett. Andrew was born and raised in Kanagawa, Japan, he's a former cabinet member, he is married to my law school classmate, Patti, and he wants to ensure that his two daughters and all families here have opportunities to thrive in Hawai'i.

"From District 27, Representative Jenna Takenouchi. Jenna is a problem solver who thrives in absorbing information, has a background in library and information sciences, and is a trivia expert.

"District 32, Representative Micah Aiu. Micah is an attorney and volleyball coach who makes history as the first mother/son team serving concurrently in the House and Senate, and who wants to make Hawai'i a better place to live.

"From District 35, Representative Cory Chun. Cory began his public service as a member of the Waipahu Neighborhood Board, and his entire family, himself, his wife, and his two children all have names that begin with the letter C.

"From District 36, Representative Rachele Lamosao. Rachele is a mother, lifelong Waipahu resident, a proud Marauder, she is the youngest female Waipahu representative elected thus far, and wants to create a better future for her son, Waipahu, and Hawai'i.

"From District 40, Representative Rose Martinez. Rose is the dean of the freshman class, she has a never quit and a can do attitude, whose lifelong passion and purpose is to serve her community and make a positive difference for the state.

"From District 44, Representative Darius Kila. The son of Stephen Kila, Jr. and Heide Kila, grandson of Grandma Leslie, and a proud, diehard Taylor Swift fan, Kapolei High and collegiate football player, and the tallest member of the Legislature.

"From District 50, Representative Natalia Hussey-Burdick. Natalia is a former restaurant server who fosters stray kittens, who fell in love with the legislative process, and is not afraid to take on our toughest challenges and brings so much enthusiasm to the House.

"Those are our freshmen. But I'd like to spend a couple of minutes to introduce our sophomore members because they were elected two years ago during the pandemic shutdown and they have never had an open Opening Day yet, where they could be introduced to everyone. So, I wanted to just do that very quickly.

"From District 4, Representative and Vice Speaker Greggor Ilagan. From District 5, Representative Jeanne Kapela. From District 21, Representative Jackson Sayama. From District 24, Representative Adrian Tam. From District 30, Representative Sonny Ganaden. And from District 51, Representative Lisa Marten. Could you please give a hand to all of our freshmen and sophomore members.

"So, as you know, the past three years impacted everyone in our community. Stay-at-home parents instantly became homeroom teachers; students could no longer have daily interactions with other students; employees faced fiscal uncertainty; employers faced business uncertainty; individuals and communities already at a disadvantage when times are good carried even more hardships; families lost loved ones, including the recent loss of community members and leaders; and our healthcare professionals and first responders worked tirelessly through it all.

"As we return, we know that the lessons and inspirations of meeting difficult challenges will always be with us. Every crisis, if met together with resilience and resolve, brings new lessons and a chance to improve. In the face of adversity, this House rejected business as usual and arose in action and inquiry in unconventional ways. We asked the community to work with us in ways that were outside the box to better understand conditions and aspirations, and to produce results.

"There are a few groups here today whose work continues to be felt and I want to acknowledge them very briefly. The first is the chairs who ran our House committees during the pandemic shutdown. And in doing so, each took on specific initiatives to manage the problems we were facing. Could our House chairs please stand to be recognized.

"The second group is the House Select Committee on COVID-19 Economic and Financial Preparedness that the House formed in March 2020. This committee included leaders from the public, private, and nonprofit sectors, and it protected public health and our economy by developing reopening protocols, creating mass vaccination centers, and providing timely data to the public.

"Several members from our COVID-19 committee are with us today, Peter Ho, Dr. Mark Mugiishi, Elliot Mills, Na'alehu Anthony, Pamela Tumpap, Tina Yamaki, Sheryl Matsuoka, Sherry Menor-McNamara, Dr. Carl Bonham, and Su Shin. Could you please stand to be recognized.

"The third group is the House's Mauna Kea Working Group that met for a year and a half to propose a new governance structure for Mauna Kea. The proposal is now law and is being implemented. Simply put, this group is showing us how we can resolve conflict in our state. Several working group members are here today, Dr. Noe Wong-Wilson, Rich Matsuda, Brialyon Onodera, Shane Palacat-Nelsen, Jocelyn Leialoha Doane, Dr. Lui Hokoana, Joshua Lanakila Mangauli, Kaiu Kimura, Mahina Paishon Duarte, and Sterling Wong. Please stand to be recognized.

"So, sometimes through adversity we are reminded that we should be better. Without public trust, we cannot lead. All of us need to rise to the highest expectations, and standards of conduct help set the way. Last year, the House asked Judge Dan Foley to chair the Commission to Improve

Standards of Conduct and to make recommendations how standards can be improved.

"This House takes reset and reform seriously and will take up the recommendations in earnest this session. Judge Foley is here with us today along with another member, former U.S. Attorney Flo Nakakuni. Could you please stand to be recognized.

"COVID challenged us, but we learned and adapted throughout. The pandemic taught us that if we don't meet challenges directly and timely, they will only grow larger, more difficult, and more divisive. It's time to take those lessons and incorporate them into our work.

"Our first step was our decision to continue the hybrid legislative environment allowing in-person and remote testimony from the public. But we are not done.

"One hundred and fifty years ago, in 1873, a 33-year-old Catholic priest from Belgium arrived in our islands, volunteering to serve a spare and forgotten settlement at Kalaupapa. There was not much there except for great need and the sick, caring for the very sick.

"Father Damien and the sisters built shelters, established a reliable water supply, nursed the sick, and welcomed patients as human beings into the community as best as they could become. He labored until his death in 1889, demonstrating courage, resolve, and resilience.

"Today we have far more resources, infrastructure, and authority than Father Damien. But will we have his courage, resolve, and resilience?

"While we undoubtedly deal with many issues, as every other legislature in the U.S. will do this year, we have an opportunity and the resources to focus on unresolved issues that often seem insurmountable. Here are a few examples.

"First, financial relief for Hawai'i residents. We need to continue to build on the progress of prior legislatures to target relief for middle- and lower-income families. One potential reform is to adjust the earned income tax credit, which provides comprehensive relief for 108,000 Hawai'i households.

"Second, renewable energy. The Legislature set the year 2045 as the deadline for our 100% renewable energy mandate. A \$200 million investment for low interest, pay-as-you-go loans for low- and moderate-income families would allow up to 7,600 households to install solar battery systems, resulting in lower utility bills and preventing the emission of 767,000 metric tons of greenhouse gases over the lifetime of their systems.

"Third, Hawaiian home lands. Last year, the Legislature made a concerted decision to reduce the waitlist. We will work with the Department of Hawaiian Home Lands to ensure there is a strategic and common-sense plan to leverage and maximize the \$600 million infusion.

"Fourth, mental health. The gaps in our mental health system can be seen as we walk and drive through our communities. The pandemic has exacerbated the demand for mental health services. We will work with our mental health partners, the Judiciary, and the Department of Health to identify, treat, and support these members of our community.

"Fifth, housing. We will add another \$300 million to finance affordable housing projects, to meet the housing demand for lower-income groups.

"Sixth, state parks and trails. Visitors should pay fees to maintain our state parks, trails, and other venues. We should create a statewide visitor reservation and payment system; make major investments to repair or restore our state parks, ocean resources, and forests; and harness the enthusiasm and physical strength of community organizations to maintain our parks and trails.

"And finally, Red Hill. When it comes to the current state of our environment, no issue presents more of an existential challenge than the purity and well-being of our water. The House will reauthorize a special committee for Red Hill and the aquifer, for accountability as well as to formulate a state and local coordinated policy as we step into the stewardship of this most precious resource that feeds this entire island, our people, businesses, and future.

"In all of these areas, we open this session pledging resolve and fresh perspectives. And let me mention one other thing. I'm going to steal this from the Sesame Street playbook. The Sesame Street word of the day is 'cooperation.' Cooperation, as you know, is the process of working together toward the same ends. In order for Hawai'i to be successful, we must all endeavor to cooperate with each other. And we should routinely challenge ourselves to serve as Father Damien did, and would ask us to do so with courage, resilience, and resolve.

"So, speaking of cooperation, as you know, there have been some media reports speculating on the relationship between the Legislature and the Governor. So, let me be clear. The House will work with Governor Green and his team in good faith and in a positive manner so that we can solve problems and bring results to Hawai'i residents. Governor Green, could you please stand to be recognized. And I guess the Lieutenant Governor can also stand to be recognized.

"The year 2023 is a challenge and opportunity for all of us. Freshmen with enthusiasm and energy, sophomore members with the benefit of fresh perspectives on existing issues, and veterans with institutional and experiential knowledge.

"Let's resolve to face and deal with problems together, with and for the community. Let's be resilient in the face of adverse conditions. Let's have the courage to make this time and labor count, for all. And maybe we should routinely ask of ourselves, what would Father Damien do?

"Thank you, members, and let's have a productive session."

The Chair then recognized Representative Matsumoto, the Minority Leader, to deliver remarks on behalf of the Minority Caucus:

"Thank you, Mr. Speaker. Mr. Speaker, Majority Leader Nakamura, friends, family, and public who are here to celebrate with us today, good morning and *aloha*.

"I remember standing in this room for the first time 10 years ago, humbled by what it meant to be a State House Representative. I remember the excitement and the anticipation, and let's be honest, a little bit of nerves. Let me tell you, that doesn't go away. But each and every one of us being sworn in today has worked so hard to get here. You each have a vision and a passion to serve your community.

"So, on my first opening day, I remember my brother coming up to me. He gave me a lei, he looked at me and he said, get over yourself. Younger brothers, I tell you. And while it pains me to admit it, he was right. None of us have gotten to this point alone.

"I'd like you to just take the time to think of all of those who have helped you to get here today. Your family, your friends, your mentors, and your communities. And as we go through session, I ask you to never forget why you are here and who you are doing it for.

"Each of us standing here today has been honored to represent thousands of people in our communities. Hawai'i deserves leadership that will work together to put the common interests of people ahead of our own. And sometimes that will mean voicing opposition. But that's vital for a healthy democracy, and it actually produces better legislation. And though we may have differences, I commit to work collaboratively and fairly, giving honest feedback with respect, and I am humbly asking for your willingness to do the same. Mr. Speaker, thank you for your leadership and commitment to the people of Hawai'i. We look forward to working with you.

"Now, I'd like to take some time to acknowledge the members of the Minority Caucus. As a polyglot speaking Malay, Indonesian, Vietnamese, and English, we have Representative Gene Ward. Representative Gene Ward is an expert in international affairs, as well as local issues. He is our longest serving member, a Vietnam veteran, Peace Corps director, has a Ph.D., and an endless list of accolades from his time serving the people of Hawai'i. Representative Ward, your dedication to serve the people of Hawai'i and your relentless persistence to seek their best interests does not go unnoticed.

"His not-so-secret talent of singing and playing *'ukulele*, we have Representative Diamond Garcia. Diamond has brought much joy to his district on the leeward side of O'ahu. I'd also like to add that he just beat me

out for the record, for the youngest Republican ever elected in the State of Hawai'i by just two months. But this is a title that I gladly pass on. Representative Garcia, your passion and youthful zeal to uphold the values of the people of Hawai'i are a force to be reckoned with.

"As a Division I rower at USC, we have Representative Kanani Souza. Representative Souza went on to be an attorney licensed in both Hawai'i and Washington, D.C. She is also a proud graduate of Kamehameha Schools. Representative Souza, your strength and unwavering conviction gives me confidence that this legislature will be held to the highest standard.

"As a sixth generation from Ewa Beach, we have Representative David Alcos. Representative Alcos is a successful business owner and leading contractor in Hawai'i's construction industry. He is a proud husband, father, and papa, and really sticks to his values of family first. Representative Alcos, your incredible ability to stand firm in your conviction while still having a soft heart is a skill that few have mastered.

"And last but not least, as an athlete, referee, chaplain, professor, author, and officer in the Air Force Reserves, Representative Elijah Pierick, he has accomplished so much at such a young age. Representative Pierick, your desire to seek change and growth in every area while still pursuing humility is admirable.

"And I'm proud to stand among each and every one of you today. Although our caucus is few in numbers, we are strong in our passion, conviction, and motivation. And let me tell you, we have a lot to bring to the table.

"What brings us all together today, but the one thing we all absolutely have in common is we all call Hawai'i home. Everyone in Hawai'i will be affected by the decisions that we make in this chamber. The House Republican Caucus is committed to take a stand for Hawai'i this legislative session so that the people of Hawai'i aren't simply surviving but thriving.

"Our Republican legislation will focus on combating the high cost of living, assisting local families towards home ownership, supporting the rights of people to make decisions for themselves and for their families, implementing government reform, and keeping our communities safe by being tough on crime as well as focused on rehabilitation.

"I'd like to just take a quick moment to highlight a few of the policies that we're going to introduce. As we know, the majority of people in Hawai'i are living paycheck to paycheck. For years, the cost of living has been a top issue. And for decades, the Republican Caucus has introduced legislation to eliminate tax on food and medical services. This is not a revolutionary idea. The majority of states are already doing this. Even further, we propose to eliminate the state income tax. For the average household, this will provide an additional \$15,000 back in their pockets. That is life changing.

"Home ownership is unattainable for the majority of our state. It is a pipe dream. The people of Hawai'i need assurance that we as a legislative body are taking every possible action so that families are not left with the tough decision to leave Hawai'i. Creating paths towards home ownership is a top priority. One of the biggest obstacles to buying a home is a down payment. So, we propose a down payment assistance program to make that pipe dream a reality.

"And the people in our state want their voices to be heard and are more than capable of making choices that are best for them and for their families. We want to turn the volume up on their voices to be heard through legislation like implementing local school boards. Every single state has implemented local school boards except for Hawai'i. By doing this, communities will have a greater say in the direction of our public education, and local voices need to have a seat at the table.

"And our legislative body has lost the trust of the people. In order to earn that trust back, government reform is imperative. We propose several safeguards to ensure that elected officials are held to the highest standards, as well as a 12-year term limit for state elected officials. We need transparency in government now more than ever.

"And finally, the phrase 'crime is on the rise' doesn't even begin to capture the severity of the issue. Last week, we all heard the story on the news of the man who broke into a 77-year-old woman's home, pushed her down the stairs and violently beat her. That man is a convicted murderer who was let

out of jail. And this is an issue that hits close to home because that woman is my neighbor.

"Crime is happening in our backyards. For the last decade, our policies have opened the doors to an increase in crime, and our communities are looking to us to make laws that protect them this legislative session. And that's why we will introduce legislation to be tough on crime, as well as focused on rehabilitation.

"In the last decade that I've been here, I learned it's critical to think not only of our own goals and priorities, but we must recognize that first, great accomplishments don't happen alone. And second, in order to do the best work for our state, we have to genuinely listen and work together.

"It is with so much gratitude that I stand here today. Equal to the amount of gratitude that I feel is the weight of responsibility heavy on my shoulders, our shoulders, to ensure that Hawai'i stays home for generations to come. People of Hawai'i, we are listening. We want to hear what you have to say. Please join us this legislative session to have your voices be heard to make the best possible future for the generations to come. And to all of my colleagues in the room, let's enjoy the celebrations of today. But tomorrow, let's get over ourselves and work together for the people of Hawai'i. *Mahalo.*"

The Chair then recognized Representative Nakamura, the Majority Leader, to deliver remarks on behalf of the Majority Caucus:

"*Aloha* and good morning, everyone. Thank you, Mr. Speaker and members, for the opportunity to serve as majority leader of our Democratic Party Caucus. I would like to first recognize Representative Della Au Belatti for her five years of service as majority leader. Della, please stand. We thank you for your leadership, for your boundless energy, and the sacrifices you made to guide the majority caucus. And *mahalo*, Representative Belatti, for personally helping me and my staff prepare for this new challenge.

"Mr. Speaker, we all know how much our families and friends help us get elected and support us so that we can do our work. I'd like to recognize my mother, Mabel Maeda, 95 years old. And I'd like to thank my family and my friends in the gallery for their support over the years. And a special shout out to Ben Viernes and my staff, past and present, who continue to support me.

"While there has been a dark cloud hanging over the Legislature, Mr. Speaker, please take note. The voters of Hawai'i, from Hilo to Hanalei, reelected 31 incumbent Democrats in the House. Hawai'i residents gave their vote of confidence because members responded to their concerns, passed meaningful and impactful legislation, engaged with their communities, problem solved, helped their constituents navigate the state bureaucracy, and most of all conducted themselves ethically. Mr. Speaker, I'm honored to serve alongside incumbents and the 14 new Democrats you just introduced.

"We heard loud and clear from our constituents that we need more affordable housing, we need more mental health services, and we need to take care of our natural resources.

"Mr. Speaker, your House Majority believes that our families in Hawai'i cannot grow and thrive without building more affordable housing. Although we allocated close to \$1 billion for housing last session, we can't take our foot off the pedal. The State Legislature's past investment will yield over 7,000 affordable housing units over the next several years. By putting an additional \$300 million into the Rental Housing Revolving Fund, we can build another 800 units of affordable housing and keep the development and construction pipeline flowing. I would like to thank Housing Chair Troy Hashimoto for his work on this bill.

"The House Majority believes we must listen to the voices that are not always heard in these halls. The growing need for child and adult mental health services requires a multi-pronged approach, including bills to improve and expedite assisted community treatment for those experiencing severe mental health crises and improve youth crisis response services through a pilot mobile outreach program. We recognize you, Speaker Saiki, and Representative Lisa Marten for working with our community partners and the administration to craft these bills.

"The House Majority deeply values the natural beauty and resources of the State of Hawai'i and believe it's our responsibility to steward our lands and waters. We propose funding targeted to divisions within DLNR who *mālama* our natural resources, and in doing so help to mitigate and adapt to climate change.

"Funds are needed to purchase heavy equipment to clear debris to prevent flooding, develop fire resistant landscapes, develop an urban forestry program, reforest acres of land with koa and other native tree species, control and maintain invasive species that threaten watershed functions. And there are many other ways that we can add to this list. But we also would like to leverage critical federal grants. We thank Energy and Environmental Protection Chair Nicole Lowen for working on this bill.

"Mr. Speaker, your House Majority serves with *aloha*, a willingness to collaborate, a pledge to resolve differences respectfully. We commit to work hard, to serve with integrity, and most of all, work together for all of Hawai'i's residents. *Mahalo piha.*"

Aloha Speaker,

I regretfully submit my letter of resignation for the position of State House of Representatives for District 37 to be effective January 3.

It has been an honor to represent District 37 in the Hawaii State House since 2004. My community has provided me with many valuable learning opportunities and experiences. With Governor Josh Green's appointment, I will accept the position as Deputy Director for the Department of Human Resources Development.

I truly enjoy working directly with constituents, schools, colleagues and the various other community entities involved with policy making. This opportunity provided by Governor Green will allow me to continue my commitment to help our State and hopefully improve the lives of local families. Working with you in the House has been a privilege and I look forward to continuing our friendship as I work on behalf of the Administration.

Leadership is extremely vital to any organization and I am glad that you are there guiding the House through some tough times. If there is anything I can do to support you or the House, please do not hesitate to contact me. The Speaker then presented to the Members of the Thirty-Second Legislature and the audience, the Honorable Josh Green, Governor of the State of Hawai'i.

The Governor then addressed the Joint Session as follows:

"*Aloha*. Thank you for that welcome, it warms my heart. Good people of Hawai'i, Jaime, Speaker Saiki, Senate President Kouchi, Chief Justice Recktenwald, OHA Chairwoman Carmen Lindsey, Lieutenant Governor Sylvia Luke, honorable members of our Legislature, colleagues and friends, former governors of our state, I respect you so much, mayors, your representatives, congressional delegation, foreign dignitaries, and leaders from our public sector and private sectors, *mahalo* for being here. I appreciate you.

"It's a great honor to stand before you here and address you as your governor. This is more than just an update. This is more than an update just on our progress as a state. This is our beginning, our *huliau*. A moment to share our vision and values.

"Over the past few years, we have come through enormous challenges together. We endured a once-in-a-century pandemic that impacted our way of life, threatened our economy, and robbed us of too many precious lives. We wrestled with a housing crisis. This housing crisis forced too many of

our people out of our state, in search of economic opportunity or, more importantly, affordable homes.

"We witnessed the risks and the consequences of an economy that's simply too dependent on tourism alone. And we suffered environmental threats from both pollution and the effects of global climate change.

"But even in our darkest hours, Hawai'i's values shone through. The character and soul of our people has prevailed, and we found a new dawn of hope. A new dawn of hope together. Through these difficult times, we showed that when we stand together, when we put our values into action, we can meet almost any challenge and overcome any problem, no matter how large or difficult it may seem.

"People of Hawai'i have elected us to lead and they've given us a clear mandate, and I say 'us' a clear mandate, not me, to act on their behalf following our common values. It's time for us to move Hawai'i forward. And we'll do that by taking bold action rooted in these values that we share.

"Unity. Governor John A. Burns said it best. 'In diversity, there can be unity; in division, there is a schism.' Hawai'i is one *'ohana*, one family, and this is one of our most important values and greatest strengths. In its essence, *'ohana* is a commitment to each other with *aloha*, respect and appreciation for our diversity, and tolerance of our differences, all in service to the greater good. I know we share that value.

"It allows all of us to benefit from our different cultures, our perspectives, our lived experience. And that is a different lived experience all across our state. Through this we forge a single unity of purpose out of the most diverse population imaginable. Look at us. Look how diverse. We unite and bring all of our strengths to bear on the urgent issues we face with this diversity.

"This will be one of my most important responsibilities as governor, honestly, to bring people together. I'll unite us as one *'ohana*, and always remind us that we're stronger together and that we can accomplish anything when we share a common purpose.

"A mandate for bold action. The preamble of our constitution in Hawai'i holds that, 'we reserve the right to control our destiny, to nurture the integrity of our people and culture, and to preserve the quality of life that we desire.' It's not only our right, but our *kuleana*, our responsibility, to take action to control that destiny and preserve the quality of life for our people. Our constitution gives us this right, and the people of Hawai'i have given us, again 'us,' the mandate and imperative as their elected leaders to do it.

"So, today we need new ideas, we need new solutions, and bold action rooted in these shared values, once again. So, you know me. Business as usual won't work anymore, there's simply too much on the line to accept the status quo. Each day without action means another family is forced to leave to the mainland, another child is sleeping on the street, another local business closes, or another precious natural resource is put at risk. Each day without action means we miss another opportunity to heal Hawai'i, do what's right and just, and preserve our islands for the future generations.

"So, our administration has already begun to act with urgency since day one. Our state motto says so powerfully, 'the life of the land is perpetuated in righteousness.' And this is the moment for righteous, bold action rooted in our common values.

"So, I ask everyone here to say yes to the wisdom of guiding us in our constitution, our motto. And in the mandate the people have given us, say yes to new ideas, solutions, and to putting our values into action. Say yes to achieving goals. Yes to overcoming challenges. Yes, we can make a difference in our communities and the lives of the most vulnerable. And yes to more housing, as we all believe. Yes to more jobs and opportunities for our young residents. Yes to building and leading the world on renewable energy. Yes to lowering the cost of living, which we know is the most important thing that our families wrestle with. And, yes to governing ethically together.

"We owe the people of Hawai'i an effective government that takes action. If we accept our *kuleana* and we follow the mandate we've been given and take rooted action in common values, we'll show the people of our state that we're working for them and they can believe in government once again.

"So, what have we done so far? Today is day 49 of our administration. We've had a little more than 1,000 hours on the job. We've already accomplished a great deal together in a short time.

"We nominated a cabinet of qualified public servants, led by my chief of staff, Brooke Wilson. Thank you, Brooke, for that. I appreciate you. We showed respect to our public workers with administrative leave during the holiday season, a move which also supported local spending and our local businesses.

"We announced a new educator tax credit, which I hope that you guys will believe in, so that our teachers can receive a \$500 credit to support the work and investment they put into students in the classroom.

"Because of your work, your work, we released \$50 million in grants-in-aid to directly support our non-profits across our state and the service providers for the critical work that they do in our communities. That's credit to you, thank you for giving us those resources for people who need it.

"And we've proposed a climate impact fund of \$100 million, right out of the gate, to fight climate change. We've announced the return of over 363 acres to the Hawaiian Homes Commission on Moloka'i for beneficiaries.

"And we've signed an agreement with Haneda Airport to streamline travel and promote made-in-Hawai'i products and even improve Daniel K. Inouye Airport. We took immediate action to prevent disruption in a health care crisis when the service to our rural communities was threatened when the plane crashed from Hawai'i Life Flight. This saved lives along the way. We've been active. Our administration attacks problems.

"So, now is the time to invest in our people and our communities. With this in mind, I'll identify, right now, several of the priorities our legislature and administration must act on to move Hawai'i forward. I take to heart what you are saying.

"Budget and bill priorities. The Legislature, on Opening Day, already advanced extraordinary ideas. Our budget will reflect those priorities. We're adding and emphasizing several high priority items related to housing, homelessness, the cost of living, climate, environment, and mental health.

"Some important specifics that you'll see right now, additional Ohana Zone funding, which puts homeless individuals into permanent housing right away to give them the chance to thrive. You already have supported that, *mahalo*.

"More resources for the Hawai'i State Loan Repayment Program to help pay off educational loans for primary care providers and behavioral health providers so that Hawai'i remains the health state for generations to come. This investment once and for all addresses our healthcare provider shortage. Once and for all, we cannot have shortages in our neighbor islands. Thank you for supporting these initiatives.

"In the health theme, our budget also adds 60 new positions to expand nursing and medical programs across all of the UH campuses, with a special emphasis on behavioral health, which the freshmen legislators made very clear was a priority for them. *Mahalo* early legislators.

"And we also know that there has to be more service in certain parts of our state. So, we'll expand the intensive care unit and medical surgical units at Hilo Hospital with a \$50 million request for CIP funds. They have great needs on Big Island, and we saw that during the pandemic. Thank you for that recommendation, Big Island.

"In your wisdom, you created an Office of Wellness & Resilience within the Governor's Office, to focus on trauma informed care. We have put resources in there to make that permanent. And we will have a concerted push to protect our natural environment in partnership with all of the great work that you always have done.

"We're adding critical mental health resources in our budget for schools and our communities, because that's where kids get care. And finally, we'll be supporting our state's priority to make pre-K universally available to Hawai'i's families, led by my lieutenant governor, whom I think some of you know.

"Since our inauguration last month, I've been meeting with departments and agencies to insist we break barriers and open doors in the halls of government. I tell them constantly care for people. That's my message. So, here's how we're going to start caring for people.

"Affordable housing. The biggest factor affecting the cost of living in our state, the biggest, is affordable housing. Safe, affordable, and stable housing is a human right. And it's more than just a place to live, it impacts our health, our identity, our sense of belonging.

"Housing crises are not new. All the way back, May 15, 1935, the Eighteenth Territorial Legislature created the Hawai'i Housing Authority, this basically as the first body in our islands' history dedicated to addressing the housing needs of our state as a priority. But nearly nine decades later, we're still working to provide housing for our people.

"When Governor Burns signed Act 105 into law on June 19, 1970, which was 5 months after I was born, state government initiated housing and community development on a scale unprecedented in our state. So, I suggest we return now to an era of bold housing initiatives.

"I'm completely aware that you've already begun this fight. But, we need a comprehensive approach, it has to continue, to housing on all segments of our population, from renters, to low- to moderate-income individuals, to families, to those experiencing homelessness. That's why our administration is making housing the top priority and committing a comprehensive housing agenda to you. You'll see the details right now.

"Developing infrastructure from the resources we appropriate for the state is crucial in every way to create adequate housing. But we need to start from the ground to make sure that our infrastructure is built, and affordable housing actually gets expedited. We'll also address and improve policies and processes that impede the development of housing. This has become a very big problem.

"And we can't do this alone. We need a coordinated approach with the counties and our stakeholders. That's why I'm glad they're here today. We need to also make these big investments, but we have to coordinate getting rid of the red tape. So, we're proposing over \$1 billion of new investment in housing, and I've already heard some of that from you, as leaders.

"To be specific, these funds will be used to support major investments in the Hawai'i Public Housing Authority to renovate and upgrade public housing units, to provide state rental subsidies for the low-income families we have, and to boost financing for more affordable units through the Hawai'i Housing Finance and Development Corporation, HHFDC. You are all familiar with these approaches.

"But we'll also deliver on the Legislature's commitment to fund the Department of Hawaiian Home Lands. This is a priority for our administration. I know you want answers, we will work with you to get this done.

"In addition, new ideas, we propose a state match for a city affordable housing program, which incentivizes the development of more affordable housing rental units in urban Honolulu. Mayor Blangiardi and I are already partnering on our approach, day and night, to this housing initiative because the crisis is felt most intensely on O'ahu, but of course, all across our state. So, I'll partner with all of our mayors, and regularly convene stakeholders across all sectors so we can troubleshoot and streamline the processes to speed up housing. These projects have to go faster.

"So, what you'll see is you'll see us cutting red tape so we can provide housing as soon as possible. And it will likely require additional action from you and from the executive branch. Please don't doubt the scope of this problem requires both.

"Now I'd like to talk about housing communities that are homeless based. We can't forget about our unhoused communities. They're struggling. In the past, efforts to address homelessness has often emphasized enforcement and triage. Pushing people from one neighborhood to another, moving people from street or shelter to temporary housing, with many frankly finding themselves back right where they started.

"We've made progress at getting people into homes in recent years, but the number of people on the street, those experiencing unsheltered

homelessness, continues to rise, and we see it every day. We need to shift our efforts from temporary fixes to a permanent solution. We need these places immediately.

"Homelessness should not be accepted as a normal of our society. It shouldn't be normal to avert our eyes from the suffering of another human being, ever. We shouldn't ever need to avoid our public places because homeless citizens have overwhelmed a park or street or sidewalk. We've come to accept the silent suffering that goes on for thousands of our people in our parks, along our beaches, even here on the grounds of the State Capitol. Our homeless crisis is a strain on our *aloha* and a threat to our spirit.

"That's why we're committed to the development of 12 *kauhale* across our state, 12 *kauhale*. As you know, *kauhale* are tiny villages. They are communities where people can thrive. And we send our special respect and application to Twinkle, to Auntie Blanche, to others who have been pioneers in this area.

"So soon, Hawai'i will break ground on a new neighbor island *kauhale*, perhaps in the next two or three days. This will be at Kukuioia Emergency Shelter and Assessment Center in Kona. With 64 units, this new *kauhale* will meet the housing, social, and healthcare needs of a people there on the street. It will help future residents for years to come and it will only cost \$8,000 per unit, that's about \$500,000 in total.

"Now, for perspective, it costs \$322,000 a year to support a person who is suffering with schizophrenia or other mental illnesses at our Hawai'i State Hospital, \$322,000 per person, per year. So, for less than the cost of keeping two such people out of a hospital for one year, we can build an entire community of low-cost, permanent housing, a *kauhale*. Just two people.

"Building *kauhale* communities takes time, it takes energy, it takes planning, it takes people, it takes passion. It also takes conviction, a commitment to breaking from the status quo. So again, Twinkle Borge and Blanche McMillan, just two names among many, are showing what it takes to embrace this village concept to help our people find a permanent home.

"So, to be specific, our enhanced *kauhale* initiative will follow their example, it will create low-footprint, low-cost housing, with a village environment designed for community support, healing, and progress. As long as we are in a housing crisis, we'll treat it like an emergency.

"So, I'm going to do something a little untraditional. I'm going to take action right now, with all of you. I've spoken with many of you as leaders. As of this moment, because this is a crisis, in my hands is an emergency proclamation. And I'm signing it for you, for all of us. It goes into effect today. Thank you for that.

"This emergency proclamation will streamline construction and processes for housing, low-impact housing. It removes unnecessary barriers, it removes red tape. We've done this before together and it worked. It enables our partners, our community leaders, to tackle homelessness head-on, right quick, affordably. A copy of this proclamation will be delivered to your offices right now. Thank you for working with me on this.

"The cost of living. Two weeks ago, I testified in person before the House Finance Committee on the meaning of ALICE, asset limited, income-constrained, and employed-people. These are families that are struggling to afford very basic household necessities such as childcare, healthcare, and transportation. Families who have to choose between buying food or medicine for their families. One paycheck, one paycheck away from a healthcare crisis which would bankrupt them, slipping them deeper into poverty or facing eviction.

"Our cost of living is the highest in the country at nearly twice the national average. We all know this. In Hawai'i, we should not teeter, none of our people should teeter on the brink of poverty in order to simply provide for their *ohana*. Our job should be enough to support our families with just one employed person in our family.

"So, here's what we're going to do. Our plan takes the necessary steps to strengthen the health of ALICE families in our communities. The Green Affordability Plan, GAP, cuts taxes significantly and provides tax relief for people that need it the most. And I was so grateful to hear that in the speech of Speaker Saiki and alluded to by Senate President very passionately just one week ago. Give them a round of applause, they are incredible people.

"If adopted fully, this package, by the Legislature, it will provide just over \$300 million in tax relief annually to the people who need it the most. This tax break will help us get money into the pockets of the working families that I referenced, so that they can purchase essential goods and services like food, medicine, and housing, as we discussed. And it will in turn stimulate our economy because every single dollar that goes back to an ALICE family will be spent immediately in the economy, immediately.

"So, this proposal follows very specifically the recommendations of the 2020 Tax Commission. So, we will reform our tax code. We do this to provide for a cost-of-living adjustment in response to recent inflammatory pressures. They were inflammatory but they're also inflationary, which is really what I meant to say.

"This plan provides universal tax relief, and let me break it out for you. We shift the tax brackets slightly to ensure that working families aren't burdened by inflation, more than double the standard deduction from \$2,200 to \$5,000. We double the personal exemption from \$1,144 to \$2,288. Now it may sound complicated, but it's not. Our current tax structure misses support, in many cases, for ALICE families. It helps people who are in deep, deep, deep trouble, but in the ALICE family sense, it doesn't.

"And I'm just going to show you just a little bit of what it looks like without dwelling on this, okay. Right now, ALICE families are in the middle here. These are people that make between \$41,000 and \$129,000 depending on how many kids they have. They really struggle to pay their rent, their mortgages, for food. We have a lot of tax breaks for people who are deeply, deeply impoverished. So, you can get an idea of what that looks like.

"If we implement this plan together, this is what it looks like. These are those ALICE families, and these are the tax breaks that they would see. It would be tax breaks for every single income bracket in our state. They'd be paying less taxes under this plan. This is where we are focusing our energies.

"So, I reiterate, the Green Affordability Plan directly supports ALICE families. This plan makes sure every income bracket does a little better. And it directly lowers Hawai'i's cost of living for every single resident by keeping more money in our pockets for each taxpayer, especially those who are wrestling with survival. This proposal means that a family of four in every income bracket can anticipate \$2,000 in savings right off the bat through reduced taxes. And lower-income families will see even more savings, significantly. For many, this is the equivalent of a full extra paycheck every year.

"In the spirit of what you've been proposing and working on for years, sometimes with me, sometimes with other leaders, the Green Affordability Plan also intentionally rewards families who take care of others, the caretakers, the caregivers, and educators. As I mentioned, it creates a new educator tax credit of \$500 per teacher. They can help their students. It provides our hardest-hit residents a renters' credit of \$350. It also makes the food/excise tax credit available to a full third of all taxpayers. It expands the earned income tax credit from 20% to 30% of the federal amount.

"We will also take bold action to expand something important, the child and dependent care tax credit. Now, under this proposal, working families paying for daycare, babysitters, summer camps, after school care, care for support is needed when families are working, and people who have adult daycare individuals in their family, they'll be eligible for up to \$10,000 to offset the costs of the fees that are going into all of that care.

"Now, this will provide huge relief for working families and help reduce the choice that they face. They have to face the choice of whether to start a family or invest in a career. That choice won't be before them if they're able to have this tax credit.

"Now, how can we afford this? Well, this plan doesn't just make it easier for ALICE families. This plan goes to the core of what economic growth has to be. This plan will grow our economy. It ensures healthier *kūpuna*, our *keiki* are healthier, they have more care, it reduces the burden placed on family caretakers all across our state. This way they don't have to choose between a job, childcare, rent, or healthcare, or even between school supplies and dinner.

"So, the Green Affordability Plan, our plan, is essentially relief from the economic burdens faced by all of the families who are right now choosing

to leave our islands. We've thought long and hard about this, how resources should be allocated and invested. And these are our state priorities. So, when we invest in families, we invest in our future, and our return on investment is unlimited as it will come back to us tenfold.

"Now, as you can see, I feel that the people of Hawai'i deserve generational tax reform. And I think this is the time to do it, with a new legislature, a new governor, coming out of the pandemic. All the stars have aligned for us to take action for people. And what this will do will help us build a more equitable future, where our people can be productive and secure. A future where residents are not one paycheck away from crisis. A future where our priorities reflect, actually, our values, and that we can all rise together as one 'ohana. That's what this plan is about.

"Our climate crisis. Tax relief provides immediate support to our families across the state, but we also need to take action to protect our environment and our planet. Which is why we have direct and long-term effects constantly on the horizon. Even as our economy is struggling, we have to look to the future for climate response. This is why addressing climate change today is most important. So, the impact of climate change is wide-ranging.

"As an island state, climate change does so many things. It threatens our economy, our culture, our environment, and really the sustainability of our way of life. So, you heard me commit \$100 million for climate impact funds steered by the Climate Change Mitigation and Adaption Commission. So, it's not just my ideas, it's the ideas of those who know about the environment.

"But we're committed to broader strategies on climate change, strategies that are equitable, culturally responsive to a resilient future. And this includes looking at resiliency of the power grid, renewable energy, sustainable transportation, land use planning, sea level rise, the health and how it's impacted by the environment, natural and cultural resource impacts, and frankly much more. So, we've dedicated these resources in a vital effort, but we can't do this alone at all.

"So, this fund, which I do believe is a necessity, will be open to contributions from anyone, whether they are local or from around the globe. This is our opportunity to seek resources on the impact of tourism.

"Now let's break this out a little bit. The revenues generated from visitor impact fees should fortify all of our efforts to protect Hawai'i's people and our way of life. And we'll continue to take the impacts of climate change seriously. I support any plan, any plan that gets us to a place where resources come from the impact of travelers to protect our environment. Thank you, Senate President, for expressing those good ideas.

"Economic development. Our administration will work to ensure that our economy does several things. Fosters prosperity for all of our people, creates opportunities for our *keiki*, protects the unique character of Hawai'i, and finally, strengthens and supports all of our shared values. So, we're not going to sit passively on the sidelines any longer when it comes to our economic development. We'll reach out to beyond our shores and seek opportunities for our people.

"In doing so, we'll fill the promise that Governor Burns saw for our state, and in his words, Hawai'i will finally assume our rightful place in the Pacific sun. We're the center of the Pacific, linking Australia, New Zealand, Taiwan, Japan, Korea, and the broader United States. In the coming years, I hope to reposition our economy to pursue global opportunities. We retool tourism, develop green technologies, and expand our reach into international markets better than ever for our small businesses and also our world-class professional sector.

"How do we do this? We do this by being bold. We'll have to move beyond an economy of pure tourism, and we have to become energy independent, as you all know. We fulfill this potential as an economic renewable energy leader in the Pacific.

"We have already, in the first 49 days, been doing something. We've been working with partners across the globe, Japan, local businesses, and key sectors from Hawai'i's economy. Like the international wedding industry, which also brings in 20% of all the visitors from Japan. We're working with them to change the way we view our traditional economy. And welcoming more visitors like our Japanese neighbors means we can generate much

more revenue for local businesses while taking in fewer tourists overall. That's tourism management.

"But we're also working on new plans. New plans to increase the export of locally-made and locally-grown products with our regional partners. Despite being the 41st largest state by population, we rank last of all U.S. states in overall economic exports, a statistic that has to change. So, our economy is rife with untapped potential. We'll encourage small businesses and professional service sectors to seek new markets beyond our islands. Health tourism should be among that.

"But we'll strengthen, most importantly, Native Hawaiian-owned businesses. By supporting Native Hawaiian-owned businesses, we support Hawaiian agricultural food products like taro, breadfruit, sweet potatoes, and we promote indigenous farming practices to keep our people physically, mentally, and spiritually nourished. Diversifying our crops, expanding on ag with food systems that actually help us connect with the land and each other, helps us grow in ways that we haven't done before. We eat together, we grow foods together, we deepen our connection to our 'āina. This is critical for our state.

"By advocating for our local interests and through dialogue with our partners, we can create many more opportunities for Hawai'i. I'm pleased to share that we are doing something right now, it's an initiative with the federal government, our community, and international partners to pursue investment in cutting-edge hydrogen technologies for Hawai'i.

"I'm going to give you the highlight here, through cooperation with partners in Japan, Australia, New Zealand, and the Congress, this technology can help stabilize the Pacific's energy resilience that we need. It promotes our defense infrastructure and reduces our reliance on fossil fuels. To that end, we are preparing right now a historic application to potentially bring over \$1 billion in federal and private sector investments to our state through a regional hydrogen hub.

"The integration of hydrogen technology into our grid, along with continued expansion of traditional renewables, solar, wind, all of the infrastructure, gives utilities, businesses, and local talent an international advantage. With the potential to turn our state into a regional energy exporter, we change the whole model of our economy. Through proactive efforts like these, these are just a few examples, Hawai'i can lead our Pacific neighbors into the future. This is not just through defense initiatives, which are critical to us, but through greater economic, energy, and cultural integration. This is our future.

"So, as you see, what we'll be doing is leveraging climate investments, renewable energy and environmental expertise, and our unique geographic position, our location, to achieve even greater economic diversification. This is one of the ways we escape from a full reliance on tourism.

"Now, please indulge me as I talk about major projects. We also need to address two major projects at least, the stadium and a new correctional facility. We all want a stadium, a place where we can be proud of our sports teams. We want a stadium for our university, our families, our *keiki*, and our broader community.

"Now, when the Aloha Stadium first opened in Central O'ahu on September of 1975, it was a great triumph. We won six of our last eight games that season. We had a new coach. I'll tell you this, we had 40,585 people in the stands on that last game against Tennessee. And the Pittsburgh Steelers that year won their first of their six titles. But for a project of this size, we have to be thoughtful, thorough, and analytical.

"We've already addressed the benefits of a public-private partnership in the future development of the Aloha Stadium, but such a partnership will only work if the state gets a fair deal. We're carefully reviewing our options, we're working with colleagues, because we know that there is some conflict. And we'll find the best option to go forward to make this a reality for our people. We can't afford to wait, as has been pointed out by dear friends. We can't afford to wait, because the longer the delay, the higher the cost. We have to support this stadium with economic activity all around it.

"The same goes for replacing the obsolete OCCC. To replace the OCCC we need to build a modern, new correctional facility that's safe, secure, and humane. It has to have the capacity to provide rehabilitation, counseling,

education, job training opportunities to inmates, and at the same time protects us, protect our kids.

"Almost all of those convicted of non-violent crimes and held in our correctional facilities will someday return to our communities and will be living alongside us as our neighbors. We must move forward with restorative approaches to justice rather than strictly punitive ones.

"As my administration reviewed the details of these projects, we saw that previous legislatures provided general fund monies to begin the construction of a new stadium and plan the construction of the new jail. We'll work with you on projects of this size, hand in hand, we have to work together to reach consensus. Because these two projects will have to be debated seamlessly between us, we have to get it right. Again, our goal will be to secure the best deals for our state and get these projects moving forward as quickly as possible. I am there with you 100% of the way.

"Just a little more to share. Accountable government. Our state deserves transparent and accountable government. We agree on this. Without good governance, without trust, without ethical standards, how can we truly serve the people and make progress for our state? Corruption from the past must be taken seriously and rooted out. The abuse of power is an affront to all the people of Hawai'i. They tell us that day in and day out. And corruption was the basis of widespread pessimism which people expressed openly across our state.

"To be a public servant is to be responsible. It's a privilege, and we carry with this privilege a full responsibility for everyone around us. So, I've directed our new attorney general to take seriously corruption and ethics reform in our state and county government.

"Now, what does this mean? I agree with the recommendations of the House Commission to Improve Standards of Conduct. It's time to, as they said, 'rebuild integrity and trust in government.' I look forward to working with the Legislature in every way on taking a course of action, and I will sign any common-sense legislation that achieves anything meaningful from ethics reform standards in our state government. I am there, again, with you 100% of the way.

"So, as you can see, we'll hold everyone in Hawai'i to this high standard of ethics and accountability. And the federal government, also, and its institutions are no exception. We must hold the U.S. Navy accountable for the environmental disaster at Red Hill and shut it down for good. To be blunt, Hawai'i must never again risk any leaks or spills of any toxic substance into our water supply. This means that any entity or organization that wants to operate in our state must fully understand, respect, and comply with the absolute commitment that Hawai'i will not tolerate pollution of our water.

"The current oversight of Red Hill is not strong enough. I just need to be direct about this. Like so many citizens, I was not satisfied with last week's presentation from the Navy and the EPA. And I say that with respect. The Navy needs to be 100% transparent with us and open with the public and their elected leaders, which is all of us in this room.

"To be specific on how we will approach this, our administration intends to approach Red Hill like we dealt with the pandemic, with continued monitoring, continued updates, continued analysis, and transparent updates so people can see what is actually happening. Enhanced oversight, these frequent updates, and constant communication about the draining of the tanks, the quality of our water around them in the community, the progress to permanently close Red Hill will all be led by our deputy director of health in partnership with the Board of Water Supply's leadership. And I will be there every step of the way beside them. So, forgive me, get used to some more white boards on these matters.

"Finally, I've tasked our attorney general with a real problem to address a chilling reality described in the Missing and Murdered Native Hawaiian Women and Girls Task Force Report, which found that Native Hawaiian girls, women, were experiencing gender-based violence at rates disproportionate to any other population. The very recognition of this matter is a critical first step towards reckoning with the depth of this horrifying issue. And we are committed in our Attorney General's Office to providing the resources to end these crimes against Native Hawaiian women. Thank you, Anne, for leading this charge.

"When it comes to governance, sunlight, open windows, and plenty of fresh air are the best disinfectants we have. Don't freak out here. This is why I agree with the call from the Civil Beat Law Center for our administration and their partners, our government documents have to be easily accessible and available and virtually cost-free to obtain. We're going to make that happen in our administration. We need to build trust, and to do what we can to be open and transparent all the time, and accountable to the public. That's a commitment I give from our administration.

"A culture of public service. Over the last few weeks, the Legislature has conducted many important informational briefings with our new cabinet and nominees. As we lean into our first legislative session together, this administration comes to you in a spirit of full collaboration. You have my cell phone. Our nominees are stepping forward in a time of great adversity. Times are tough, you know that as elected officials. They are willing to dedicate themselves heart and soul to the work of the people of Hawai'i. And several critical members of our cabinet and our government will require absolutely confirmation by the Senate in the coming weeks. Thank you, colleagues, for that work.

"But government in Hawai'i cannot function without these people. Without qualified and dedicated people, a corps of public servants, to administer all that we come up with together to implement our mandates and priorities. All the work that you will do in these next 100 days. So, I extend my gratitude to our cabinet nominees who have stepped up to serve. They are leaders in their fields, they have great experience. They're often willing to sacrifice enormous time with their families and other professional opportunities for a life now of public service. So, I'd like to especially to congratulate and welcome our many new women and Native Hawaiian leaders. They will smash the remaining glass ceilings of public service, and I am honored to sweep-up the debris behind them.

"I want you to know, I've set a high standard for all of our nominees. None of us can actually meet all of the expectation of us as legislators. But they are already meeting with you, they're exceeding my expectations as a new governor, because of how hard they work and how much they care. So, the Senate will now vet them and confirm them on their ability to do the job, I hope.

"There are moments when nominees can become collateral damage, from potential disputes that have gone way back for us politically, though we've done what we can to heal any rifts that we ever had. But their ability to work and their commitment to getting things done in Hawai'i is critical. I would say this, any conflict, chronic or acute, and dysfunction amongst branches of government is not going to be good for any of us, especially when it doesn't serve the interest of the people. I need these folks working. I nominated them because they can get the job done in their disciplines. And we will work together to make sure that happens. So, I ask you to let them do just that. *Mahalo* for considering all of these nominees.

"Now with due diligence, I ask that you confirm them. But I will work with you day and night to make sure we are a responsive, powerful, impactful government. They will make Hawai'i proud. They're making me proud. And they, like you, are public servants. So, we ask each other to respect our team, your teams, as they step forward into these roles. This is Hawai'i's team. Thank you for your consideration.

"Our dream and our destiny. Today we find ourselves at a crossroads, a turning point in our history. We face enormous challenges as a state. And the strain of these challenges is slowly eroding the hopes and the dreams of our people. Thousands of families are voting with their feet, choosing to leave our islands in search of affordable housing and economic opportunity. Thousands more live in our streets, suffering without help, without hope, despairing for a better tomorrow. Climate change and industrial pollution threaten our permanently degraded land and resources. These are tragedies which must not stand by and be witnessed idly without doing everything in our power to change.

"Ultimately, we're not going to be judged by our words or our rhetoric. We're going to be judged by our actions and our accomplishments. How will we secure the health of our state? How will we nurture the integrity of our people and culture? How will we create the quality of life that we desire? We will do it together, as one *'ohana* united by our shared values. We must provide economic relief, that I described, and restore hope to our people.

We must restore the health of our land and our water. We must redeem the promise of Hawai'i.

"In pursuit of these goals, here and now, we commit ourselves to four years of decisive action. Making progress every single day and never giving up. Hawai'i's people deserve ambitious goals, big dreams, and bold action. 'The less foresighted may label us dreamers for expressing what may be regarded as overly grandiose thoughts.' Governor Burns said that. 'But dream we must, as we must pursue these dreams with vigor and energy, if we are to attain the greatness that is so patently the destiny of Hawai'i and its people.'

"Governor Burns was right. Hawai'i's destiny is greatness. A greatness born of shared values. A greatness of family, community, and love, of rich diversity, tolerance, and unity. Of commitment, responsibility, and hope. Of reverence for our natural and cultural heritage and our shared history. We are the inheritors of this dream and this destiny. Together, we will fulfill our destiny. Together, we will realize our dreams. And together, we will live up to the promise of Hawai'i. *Mahalo* and thank you for the honor to serve."

President Kouchi then rose and stated:

"Thank you, Governor Green. I would like to cite two specific examples of how I will commit my personal support in working with you going forward. I have never made the top 10 best dressed list in any kind of fashion competition. But I want you to know that I chose the tie with intentionality this morning, and it's buried in the leis, but it's a green tie, for Governor Green and the Green Plan.

"Going forward, as showing a sign of my support, the second is when the Governor talks about 100% renewable as the goal. Currently in my district, the islands of Kaua'i and Ni'ihau, they are in for a permit for a pump storage energy plan out in West Kaua'i. If approved, by 2025 Kaua'i will have achieved a 90% renewable energy provision to the grid on Kaua'i. And so, the goal is attainable, and my personal commitment is not to stop to take care of my district, Governor Green, but to continue to have Kaua'i work with you and your team to bring those kinds of numbers to the rest of the state.

"Last Wednesday, when we convened in the Senate, I wanted to be cautious. And we opened at 60% and invited cabinet members, the military, and the consular corps, but we had no one from the private sector on our floor. So, in closing, I would like to look to the private sector people who are here today.

"When the pandemic hit and we were faced with what seemed like an insurmountable challenge, you responded in such an incredible way. And so quickly, with nonprofit leadership from Hawai'i Community Foundation, all of the banks putting aside the competition for customers and pooling their resources to help us, the hospitals putting aside their competitive issues and working together for all of the people of Hawai'i, and I appreciate that I have a chance to say to all of the private sector businesses, the non-profits, and most importantly, each of you have stories of the unsung heroes in your communities, individuals who stepped forward during the pandemic and helped others in their community to make sure that nobody was left behind. A big thank you.

"And I commit on behalf of the Senate, and I am confident of the commitment of the House, that we will replicate what we did together in collaboration during the pandemic. The challenges that the Governor has outlined are greater than any one of us individually could overcome by ourselves. And it's only in that collaboration that we will succeed. So, Governor, you have the full support of the Senate as we go forward.

"I declare the joint session adjourned."

"An event was held this past Sunday that brought such pride and joy to our state, the running of the Eddie Aikau Big Wave Invitational. I am honored that we're joined here today by Eddie's brother, Clyde Aikau, who organized this epic event. I'd like to ask him to please stand and be recognized. Mr. Clyde Aikau.

"The Judiciary '*ohana* is made up of 1,700 dedicated and hard-working members. And as chief justice, I'm proud to be one of them. I thank the Legislature for this opportunity to tell our story, to explain how we are advancing the cause of justice and serving our community.

JOINT SESSION

The Joint Session of the Senate and the House of Representatives of the Thirty-Second Legislature, Regular Session of 2023, was called to order at 10:05 a.m. by the Honorable Ronald D. Kouchi, President of the Senate.

The President then stated:

"Before receiving the Chief Justice's message, I would like to recognize some of our honored guests. So, it was really fun Monday to be at the House Chamber where the Speaker had to read all of the names and I got to just say what I wanted at the end, and so unfortunately today I'm the reader of the names and then I will shut up for the rest of the day."

The President then welcomed and recognized the following honored and distinguished guests:

Governor Josh Green and Mrs. Jaime Green, who were presented with lei by Representative Nadine K. Nakamura and Senator Les Ihara, Jr.;

Lieutenant Governor Sylvia Luke and Mr. Michael Luke, who were presented with lei by Senator Henry J.C. Aquino and Representative Dee Morikawa;

Mrs. Gailynn Williamson, wife of Chief Justice Recktenwald, who was presented with lei by Senator Mike Gabbard;

Mr. Andrew Recktenwald and Mrs. Jessica Recktenwald, son and daughter-in-law of Chief Justice Recktenwald, who were presented with lei by Representative Amy A. Perruso and Senator Chris Lee;

Speaker of the House Scott K. Saiki;

"To Governor Green, we're eager to collaborate with your administration and are encouraged by your focus on homelessness and mental illness in our community.

"I wish to recognize my two friends and colleagues, Justice Paula Nakayama and Justice Michael Wilson. They are retiring this year after serving a combined total of over 50 years in the Judiciary. Would they please stand so we can recognize their outstanding contributions to our state.

"On a sad note, I wish to acknowledge the recent passing of two beloved members of the Judiciary *'ohana*, my predecessor Chief Justice Ronald T.Y. Moon, and Judge Darolyn Lendio Heim. As the first person of Korean ancestry to serve as chief justice on any American court, CJ Moon helped shape the Judiciary into the institution it is today. Judge Lendio Heim made her mark in district court, by taking the court out into the community to reach those in need. We dearly miss them both.

"Public service is the lifeblood of the Judiciary. It defines who we are as an institution. The Judiciary's role in our democracy is different from the other branches of government, but we share the common goal of serving the public.

"Our core mission is to decide cases fairly and impartially in accordance with the law. But our work doesn't end when the gavel falls. We implement programs to address the root causes of recidivism, such as drug use and mental illness, and to respond to other urgent community needs. We embrace this expanded role.

"Like everyone else, the pandemic tested us, but we have emerged as a stronger, more resilient institution. We've harnessed new technologies to make us more accessible. We're forging new partnerships to make our community safer. We're expanding programs to support vulnerable children and families. And we're improving access to justice, nurturing diversity, and promoting civic engagement. And I look forward to sharing these priorities with you today.

"The pandemic created immense challenges to a court system accustomed to conducting business in-person. Despite personal hardships, our judges and staff have always met those challenges and kept providing justice to our community. I want to thank our chief judges, Lisa Ginoza, Mark Browning, Peter Cahill, Bob Kim, and Randal Valenciano for their leadership. But it is truly a team effort, and I would ask all the members of the Judiciary *'ohana* here in attendance today to stand and be recognized for keeping the Judiciary strong. Please stand.

"We learned from the pandemic. We could not meet in person, so we harnessed new technologies to conduct proceedings remotely. Instead of having to miss work, people can now appear in a traffic infraction case by simply using their phone. Since the pandemic began, we have held more than half a million remote hearings, and this number is rapidly climbing.

"We also started an eReminder service and have sent more than 24,000 texts and emails to notify parties of upcoming court dates. Guess what happened? The appearance rate has significantly increased and is now almost 90% in O'ahu District Court.

"We are also more transparent. The Hawai'i Supreme Court now livestreams all of our oral arguments, and more than 17,000 people have tuned in. And last April, we made electronic filing available 24/7 for all courts throughout our system, a huge milestone, by adding family court civil cases. In short, we have created modern courts that use new technologies to meet the needs of a community accustomed to doing business online.

"In his Opening Day speech, Speaker Saiki said the Sesame Street word of the day was cooperation. Indeed, the pandemic demonstrated the importance of partnerships, working together with others, to achieve far more than we could do on our own.

"When the pandemic hit, there were predictions that there would be thousands of evictions, a literal tsunami, but that didn't happen. One big reason why is because the Legislature enacted Act 57, which required eviction cases to go to mediation. It was a win-win for both landlords and tenants. It kept people in their homes, while treating landlords fairly. Statewide, over 85% of the 1,600 cases mediated were settled without going to court. And here on O'ahu, 85% of the settlements resulted in tenants remaining in their homes.

"Mahalo to Representatives Troy Hashimoto and Nadine Nakamura for crafting Act 57 and our district court judges, the bar, and mediation providers for implementing it. Act 57 expired last year, but we look forward to working with the Legislature to re-establish a similar program going forward.

"Hale Hilinai is another example of a successful partnership. If you've driven up Piikoi Street recently, you've seen it, a gleaming new 20-story tower. It provides both 200 affordable rental units and critical resources for juveniles. We could not have completed this innovative project without the Legislature's cooperation, and particularly that of Speaker Saiki, and our partner, the Hawai'i Housing Finance & Development Corporation. This new facility symbolizes the Judiciary's commitment to prevention and healing for at-risk youth. It enables us to intervene earlier and connect youth and their families with meaningful, culturally responsive services. In short, it will empower at-risk youth to forge a better future.

"The new Wahiawa Civic Center, which will house the Wahiawa District Court and probation offices, is another multi-use project that will provide much needed benefits to the community. *Mahalo* to Senator Donovan Dela Cruz for having the vision for this project.

"Our core mission is deciding cases. Last year, we resolved more than 92,000 criminal cases, 35,000 civil cases, and 13,000 family court cases, not to mention several hundred thousand traffic and parking infractions. Deciding that many cases gives us unique insights into the challenges facing the community. And we use these insights to find ways to help people and identify broader solutions.

"We can keep our community safer by addressing the root causes that bring people into the criminal justice system. The rates of serious mental illness and substance use disorders are four to seven times higher for those in jail than the general population, and many inmates suffer from both conditions. Yet these individuals often cycle repeatedly in and out of incarceration without access to needed services and treatment. We must stop that revolving door.

"One answer is treatment courts. They use intense supervision and a team approach to break the cycle of recidivism. From our ground-breaking Girls Court to our Drug, Mental Health, and Veterans Treatment Courts, we have developed specialized programs that enable participants to overcome deep-seated challenges and lead productive lives.

"Building on this success, the Legislature last session approved funding for Women's Court. It recognizes the simple fact that women experience very different pathways to criminal involvement than men. Women in prison are 80% to 90% more likely to have extensive histories of trauma, such as sexual or physical abuse. In just six months, our Women's Court team, led by Judge Trish Morikawa, has developed programs tailored to address women's needs, collaborated with treatment providers, and selected participants. And we are excited to announce that Women's Court will officially go live later this afternoon.

"*Mahalo* to Judge Mark Browning for having the vision for Women's Court, and to the Women's Legislative Caucus for its support, and in particular, Representative Linda Ichiyama and Lt. Governor Sylvia Luke. *Mahalo* also to the Women's Prison Project, a grass-roots group organized by former Governor Linda Lingle, that supported Women's Court and other legislation focusing on the special needs of women in the criminal justice system.

"Homelessness. We see it around us every day. People in makeshift tents lining the sidewalk, in parks, and at beaches. Indeed, right outside this building. I'd bet that for many legislators here, it is the number one concern voiced by your constituents. We know there are no simple solutions, and no branch of government can hope to address homelessness on its own. But the Judiciary is committed to doing our part to find more effective solutions.

"Our Community Outreach Court represents a novel approach that has achieved positive results. The court focuses on non-violent individuals who are houseless or on the verge of becoming houseless and who have pending matters for minor offenses. Participants agree to perform community service to resolve those matters and are matched with service providers who assist them in obtaining housing, mental health and drug treatment, and other services.

"Community Outreach Court is unique in that teams go out into the community, sometimes tent to tent, to find participants to enroll, and the court itself travels to convene where those in need live. More than 465 individuals have completed the outreach court program, 7,600 cases have been cleared, and 5,600 hours of community service have been completed. We're holding Community Outreach Court on O'ahu in Wai'anae, Kāne'ohe, and Kaka'ako, and on Maui in Kīhei, and we plan to expand the court to Waikīki.

"In 2019, we held a summit that identified major shortcomings in how people suffering from mental illness are treated in the criminal justice system. It simply makes no sense to hold in custody for months non-violent petty misdemeanor defendants who are incompetent, only to release them back to the streets with no ongoing treatment or services.

"The Legislature responded by passing Act 26, giving those offenders the chance to obtain treatment, rather than having them languish in custody. And I appreciate Representative Della Au Belatti and Senator Joy San Buenaventura for their work on Act 26. In the short time since it was enacted, the State has saved over \$8.5 million due to reduced incarceration and state hospital costs, over 70 defendants have been discharged and linked to services, and more than 25 have received an extended commitment for treatment. We should build on that success and consider diverting other non-violent individuals with mental illness.

"All of us, the Legislature, the Executive Branch, and the Judiciary, are strongly committed to resolving the mental health emergency afflicting our community. Let's seize the opportunity and work together. Let's invest in resources such as mental health drop-off centers and crisis stabilization units, successfully used in Arizona and Miami, to get people appropriate treatment away from the criminal justice system. Let's explore all options to get treatment for those who need it. Let's join forces to find more effective solutions.

"Family court is where hope, healing, and new beginnings occur. It is where the profound impact of our expanding role in providing essential services can most clearly be seen. Reducing the detention of minors has been a critical focus of the family courts. Almost all the minors in the juvenile justice system are themselves victims of abuse and trauma. Research shows that placing them in detention often inflicts additional harm which can spiral into more serious offenses.

"Our reforms, which have been underway for more than a decade, focus on detaining youth only when necessary for public safety and diverting the others into appropriate supervision and treatment. These efforts have been a resounding success. We have drastically reduced the number of juveniles held in detention, while enhancing public safety.

"In the last 15 years, the number of juveniles admitted to secure detention or committed to the Hawai'i Youth Correctional Facility has dropped by more than 80%. But juvenile crime did not go up, quite the opposite. There has been an 85% reduction in juvenile felony petitions. But there is one statistic that exemplifies the tremendous progress we've made. Last June, for the first time ever, there were no girls detained at the Hawai'i Youth Correctional Facility. You cannot do better than zero.

"The pandemic was particularly hard on our state's students. Many faced obstacles to participating meaningfully in classes. Our Truancy Court program is helping students who aren't attending school to get back on track. The key is early intervention. Our juvenile probation officers engage with students, parents, and counselors to resolve the issues causing students to miss school. These early interventions are highly successful in getting students back to attending classes and only rarely are formal court proceedings required. From its start at Waiānae Intermediate, the Truancy Court program has expanded to other middle schools, with the goal of spreading further as resources allow.

"Family court is also targeting absenteeism in elementary schools, and is currently working with the families of eighty-eight students at eight schools. I thank Judges Matthew Viola, Rebecca Copeland, Jessi Hall, and Darien Nagata for all their efforts on these initiatives.

"To ensure the public's trust, courts must be transparent and accessible, judges should reflect the diversity of the communities they serve, and the

public must understand the Judiciary's role in our democracy. So how are we building trust? First, we must ensure that everyone's voice is heard.

"We have established self-help centers across the state where volunteer attorneys provide free legal information or assistance to people in civil cases who otherwise would have to navigate the system alone. Over the past decade, there have been more than 35,000 self-help consultations at little or no cost to the public, and remote consultations added during the pandemic have expanded the centers' reach.

"We could not provide this critical resource without the steadfast support of the Access to Justice Commission, the Hawai'i State Bar Association, the Legal Aid Society of Hawai'i, the county bar associations, and the hundreds of attorneys who have donated their time. We have an absolutely amazing access to justice movement in Hawai'i, and that's because of the passion of so many people who are dedicated to supporting that effort. And I want to ask all of them here in the audience today that I just mentioned to please stand and be recognized.

"We must ensure that 'olelo Hawai'i can flourish in our courts. We recently hired a Hawaiian language coordinator, and I thank Senator Karl Rhoads for his support of that position. One of the first projects she will tackle is to make foundational legal documents, our constitution, key cases, and statutes, readily available in 'olelo Hawai'i.

"Public trust is also bolstered by a judiciary that reflects the diversity of the communities we serve. Here in Hawai'i, our merit-based judicial selection system has enabled us to secure highly qualified judges from many different backgrounds. The Senate is a crucial component of the selection process, and I thank President Kouchi and the members of the Senate for their commitment to that process.

"Here's one important sign of the progress we've made on diversity. I am pleased to report that as of today, 49% of our full-time judges are women. And our judges reflect Hawai'i's rich diversity of races, ethnicities, and backgrounds. In cultivating the values of diversity and inclusion, we post demographic information about our judges and mandate implicit bias training for all judges and staff.

"Finally, trust requires public understanding of the importance of a strong and independent judiciary. Our Courts in the Community program promotes that awareness by holding Supreme Court oral arguments live, in actual cases, at high schools across the state. Over the past decade, more than 5,000 students have participated. Just last month, we convened at Lahainaluna High School with over 300 enthusiastic high school students from Maui, Moloka'i, and Lāna'i. The energy in that gym was amazing. We are so grateful to the lawyers who volunteered their time to teach the students about the case, and I want to thank each and every one of them for their commitment. Thank you very much.

"Courts in the Community is part of a much broader effort. The Supreme Court has created the PACE Commission to promote and advance civic education for students and citizens throughout Hawai'i. The commission, led by Chief Judge Lisa Ginoza and Representative Amy Perruso, recently hosted a free, three-day academy for high school students on Maui. They learned about the legal system, community involvement, and law-related careers. *Mahalo* to the American Judicature Society and its chair, Larry Okinaga, for supporting the PACE Commission, and to the William S. Richardson School of Law, the University of Hawai'i Maui College, and the Maui County Bar Association for making the academy such a success.

"Although we are proud of what we have accomplished, much remains to be done. We thank the Legislature for your past funding support. As we move forward, we respectfully ask for funding that will enable the Judiciary to provide justice and meet our community's needs.

"For our operating budget, we are requesting a modest increase of 4.4% in the coming fiscal year, and 4% the year after. Most critically, we are seeking restoration of funding for more than 30 positions statewide that were de-funded early in the pandemic. We curtailed our budget requests during the pandemic and did everything we could to stretch our limited resources. But without restoration of funding, our ability to provide needed services is severely compromised.

"We are also seeking a new district court judge in the First Circuit to provide stability and continuity for rural courts on O'ahu, funding for our programs in the community, including our new juvenile resource center at Hale Hilinai, and funding for court-appointed counsel, guardians ad litem, and to permit children to stay with their mothers undergoing residential treatment.

"Our capital improvement requests total \$16 million, and they include fixtures and equipment for the new Wahiawa District Court and funds for essential repair and maintenance for our aging courthouses to keep the roofs from leaking and the elevators working.

"These requests reflect what we need to restore the services impaired by the pandemic and to forge ahead with new initiatives to serve the community. And we sincerely appreciate the Legislature's consideration.

"In sum, the Judiciary is moving forward from the pandemic a stronger and more resilient institution, applying the lessons we learned, and building on the partnerships we formed. We have harnessed new technologies to make us more accessible. We are expanding programs to reach and assist vulnerable children and families. And we are raising awareness of the Judiciary's critical role in our democracy. We are doing everything in our power to provide justice and serve our community.

"This past Sunday, in monster waves with 50-foot faces, the Eddie Aikau Big Wave Invitational was held at Waimea Bay. The contest honors Eddie Aikau, the legendary lifeguard and waterman who risked, and ultimately gave his life, to help others. Eddie's legacy is captured in the simple phrase, Eddie would go.

"Just as Eddie would go, the three branches of government must also be bold and courageous in finding solutions to the daunting challenges facing our community. Each branch must of course be faithful to the separate roles we play in our democracy. But we can still collaborate to find solutions. On issues such as homelessness and mental illness, the ideas are out there, the resources are out there, the will is out there. Let's dive in and find the way forward, together.

"Once again, thank you to the Legislature for inviting me to be here today, and best wishes for a productive session. *Mahalo* and *aloha*."

Speaker Saiki then rose and stated:

"Thank you, Chief Justice Recktenwald. I just told the chief justice that his speech was better than my Opening Day speech, and certainly better than the Senate President's Opening Day speech.

"Before adjourning the session, I'd just like to make three brief shout outs. So, first to Chief Justice Recktenwald. I just want to let everybody know that we really respect the chief justice, his leadership, and his advocacy for the Judiciary. And we look forward to working with him this year and next year. So, thank you, Chief Justice.

"And as the CJ mentioned, we like to also do a shout out to all of the judges and the Judiciary staff and community partners who we know have worked so hard throughout the pandemic. We know that you worked under severe constraints and limitations that were exacerbated by the need to balance due process. So, thank you for all of your work throughout the pandemic.

"And finally, we'd like to do a shout out and thank you to our retiring justices, Justice Wilson and Justice Nakayama. In particular, I'd like to just mention something about Justice Nakayama, because from afar I have just developed so much respect for her. And I know that after 30 years, she leaves a body of work that will endure because it is reasoned and practical and leaves us with a framework to solve problems in our state. So, thank you to both Justice Wilson and Justice Nakayama.

"And with that, I declare that this joint session is adjourned."

At 10:41 a.m., Speaker Saiki declared the Joint Session of the Senate and the House of Representatives of the Thirty-Second Legislature, Regular Session of 2023, adjourned.

ADJOURNMENT

At 12:11 p.m., on motion by Representative Morikawa, seconded by Representative Garcia and carried, the House of Representatives adjourned until noon tomorrow, Tuesday, January 31, 2023. (Representatives Amato and Nakashima were excused.)

EIGHTH DAY

Tuesday, January 31, 2023

The House of Representatives of the Thirty-Second Legislature of the State of Hawai'i, Regular Session of 2023, convened at 12:07 p.m., with Vice Speaker Ilagan presiding.

The invocation was delivered by Representative Sonny Ganaden, after which the Roll was called showing all members present with the exception of Representatives Amato, Kong, Nakashima, and Quinlan, who were excused.

By unanimous consent, reading and approval of the Journal of the House of Representatives of the Seventh Day was deferred.

ORDER OF THE DAY

UNFINISHED BUSINESS

H.R. No. 9:

Representative Nakamura moved that H.R. No. 9 be adopted, seconded by Representative Morikawa.

Representative Ganaden rose to speak in support of the measure, stating:

"My thanks to the Speaker for introducing HR 9, which reestablishes the House Special Committee on Red Hill. We heard many issues regarding Red Hill over the last year. There were several concerns that came up over the summer and during the interim. Despite notions that the federal government and the county have already come to agreements about this, I think the state still certainly has a role to play and this House has a role to play because of our direct involvement with our communities, we're supposed to be the closest to them and hearing directly from them.

"As the representative of many people who were displaced in 2021, our office hears some pretty horrendous stories about people who've had to move away, health issues, and we know that these are going to be coming up. I think that for the duration of my career here in this House, I'm going to be hearing about Red Hill. Again, my appreciation to the Speaker and the House for continuing this important work. In support."

The motion was put to vote by the Chair and carried, and H.R. No. 9, entitled: "HOUSE RESOLUTION ESTABLISHING THE HOUSE SPECIAL COMMITTEE ON RED HILL TO ADDRESS ISSUES RELATED TO THE RED HILL BULK FUEL STORAGE FACILITY, WATER CONTAMINATION AND REMEDIATION, AND ALL RELATED IMPACTS," was adopted, with Representatives Amato, Kong, Nakashima, and Quinlan being excused.

H.R. No. 10:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, H.R. No. 10, entitled: "HOUSE RESOLUTION ESTABLISHING A LEGISLATIVE WORKING GROUP TO OVERSEE THE DEPARTMENT OF HAWAIIAN HOME LANDS' EXECUTION OF FUNDS APPROPRIATED PURSUANT TO ACT 279, SESSION LAWS OF HAWAII 2022, TO ADDRESS THE BENEFICIARY WAITING LIST," was adopted, with Representatives Amato, Kong, Nakashima, and Quinlan being excused.

REPORTS OF STANDING COMMITTEES

Representative Perruso, for the Committee on Higher Education & Technology, presented a report (Stand. Com. Rep. No. 1) recommending that H.B. No. 390, as amended in HD 1, pass Second Reading and be referred to the Committee on Finance.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 390, HD 1 pass Second Reading and be referred to the Committee on Finance, seconded by Representative Morikawa.

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Pierick rose to speak in support of the measure with reservations, stating:

"*Aloha*. Mine is a no with reservations. Yes with reservations. My perspective being, in going door to door, my constituents were concerned about higher taxes. And so, the desire is to decrease taxes in the State of Hawai'i."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 390, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE UNIVERSITY OF HAWAII PROMISE PROGRAM," passed Second Reading and was referred to the Committee on Finance, with Representative Pierick voting aye with reservations, with Representative Garcia voting no, and with Representatives Amato, Kong, Nakashima, and Quinlan being excused.

Representative Perruso, for the Committee on Higher Education & Technology, presented a report (Stand. Com. Rep. No. 2) recommending that H.B. No. 78, as amended in HD 1, pass Second Reading and be referred to the Committee on Finance.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 78, HD 1 pass Second Reading and be referred to the Committee on Finance, seconded by Representative Morikawa.

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Strengthening access to community college is essential to delivering the promise of higher education to all Hawai'i residents. Too often, the cost of college tuition is unattainable to working families, many of whom are experiencing chronic financial hardship because of our island's extreme and ever-increasing cost of living.

"According to the University of Hawai'i's Institutional Research, Analysis and Planning Office, UH reported that roughly 12,500 classified students with Hawai'i residency were enrolled in community college. Approximately 5,000 were registered as full-time students and 7,500 were registered as part-time students. UH also reported that approximately 42% of community college students received financial aid to cover the cost of their tuition in the most recent year for which data is available, and that part-time residential community college students enroll in an average of six credits per semester.

"When these data points are considered, the cost of making community college tuition free for Hawai'i residents can be estimated at less than \$20 million, even after accounting for first year enrollment increases which were experienced by other states. In fact, the actual cost is likely to be even lower since many students receive financial assistance from other scholarship programs. Many states have implemented programs to make community college free for all students, or most students, including California, Delaware, Nevada, New York, Oregon, Rhode Island, Tennessee, Virginia, and Washington. We should join this movement and ensure that the dream of higher education is affordable and attainable for all working families and their *keiki*. Thank you, Mr. Speaker."

Representative Garcia rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Garcia's written remarks are as follows:

"*Mahalo*, Mr. Speaker, I stand in opposition to HB 78 because it is my sincere belief that universal education is a step in the wrong direction both nationally and locally. This bill vastly expands the scholarship program for eligible students and expands the eligibility requirements. This is a step toward socialism.

"If an individual is low-income there are already FAFSA grants and multiple scholarship programs that will cover the tuition needs for a community college."

Representative Pierick rose in support of the measure with reservations. [Note: See Stand. Com. Rep. No. 1, H.B. No. 390, HD 1 for remarks.]

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 78, HD 1, entitled: "A BILL FOR

AN ACT RELATING TO STRENGTHENING ACCESS TO HIGHER EDUCATION," passed Second Reading and was referred to the Committee on Finance, with Representative Pierick voting aye with reservations, with Representative Garcia voting no, and with Representatives Amato, Kong, Nakashima, and Quinlan being excused.

At 12:17 p.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:17 p.m.

Representative Perruso, for the Committee on Higher Education & Technology, presented a report (Stand. Com. Rep. No. 3) recommending that H.B. No. 230, as amended in HD 1, pass Second Reading and be referred to the Committee on Finance.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 230, HD 1 pass Second Reading and be referred to the Committee on Finance, seconded by Representative Morikawa.

Representative Garcia rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Garcia's written remarks are as follows:

"Mr. Speaker, the University of Hawai'i testified in committee explaining that this bill is plainly unnecessary. For these reasons, I vote aye with reservations."

Representative Takayama rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition with a brief comment, please. I think the last poll that was taken, that 65% or 70% of us are UH graduates, so we've got skin in the game on this one, Mr. Speaker. But for some of us who have been here that voted for autonomy for the University of Hawai'i, this bill is a micro-managing bill. Why do we have to tell them how to do what they're doing when, in fact, we've given them autonomy?"

"And I think this is an overreach and it's like a lack of trust with the officers of the building. And I think we should just leave it the way it is and not put our nose into their business, which we officially, technically, and legally gave them autonomy, the only thing is we've never implemented it. So, for those reasons, a no vote, please. Thank you."

Representative Kobayashi rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Perruso rose to speak in support of the measure, stating:

"Mr. Speaker, we are still responsible for matters of statewide concern. And the division of power and preventing the overcentralization of power at the University of Hawai'i is still our responsibility. So, for these reasons, I support this measure."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 230, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE UNIVERSITY OF HAWAII," passed Second Reading and was referred to the Committee on Finance, with Representatives Garcia, Kobayashi, and Takayama voting aye with reservations, with Representative Ward voting no, and with Representatives Amato, Kong, Nakashima, and Quinlan being excused.

Representative Perruso, for the Committee on Higher Education & Technology, presented a report (Stand. Com. Rep. No. 4) recommending that H.B. No. 231, as amended in HD 1, pass Second Reading and be referred to the Committee on Judiciary & Hawaiian Affairs.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 231, HD 1 pass Second Reading and be referred to the Committee on Judiciary & Hawaiian Affairs, seconded by Representative Morikawa.

Representative Tam rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Garcia rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Takayama rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Onishi rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Kobayashi rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Perruso rose to speak in support of the measure, stating:

"Mr. Speaker, I will note that this measure is a result of conversations that have to do with making our structures in alignment. I am in support. So, currently our Department of Education has no such body as the Candidate Advisory Council to provide recommendations to the governor for his appointments to the Board of Education. And this measure would simply bring the Board of Regents into that same structural process alignment. Moreover, this also brings us into alignment with what happens at other public universities across the country. *Mahalo.*"

Representative Alcos rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, no vote for the same micromanaging reasons as the previous bill. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 231, HD 1, entitled: "A BILL FOR AN ACT PROPOSING AN AMENDMENT TO ARTICLE X, SECTION 6, OF THE HAWAII STATE CONSTITUTION TO MODIFY THE APPOINTMENT PROCESS FOR THE BOARD OF REGENTS OF THE UNIVERSITY OF HAWAII," passed Second Reading and was referred to the Committee on Judiciary & Hawaiian Affairs, with Representatives Alcos, Garcia, Kobayashi, Matsumoto, Onishi, Takayama, and Tam voting aye with reservations, with Representative Ward voting no, and with Representatives Amato, Kong, Nakashima, and Quinlan being excused.

Representative Ward rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I rise with reservations and a brief comment, please. Mr. Speaker, the State Constitution says the counties shall have the right to property taxes. We've breached that by giving them not only property taxes, we've given them TAT taxes, we've given them GET taxes, state storm drain taxes, solar farm exemptions from property taxes to a fee, and now we want to take GET taxes and give it to fixing the roads, which is going to cause a deficit over here, which I fear is going to create another increase in GET taxes, of which we're really straying from the Constitution.

"This is probably, it's a good cause because I know a lot of people here have electric cars and the gas tax is not being paid. But if we're going to have a county tax competing with the state, I think in the long run it's going to be detrimental. My point is now, using this is purposely meaningful, but in the long run it is going to be detrimental. Thank you, Mr. Speaker."

Representative Alcos rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

"Thank you, Mr. Speaker. I rise in support. When we're looking at bills such as this intent, where we have dilapidating roads in communities that never got the chance to turn over their roads to the city--"

Representative Garcia rose to a point of order, stating:

"Point of order, Mr. Speaker. If the gentleman could please address the Chair. Thank you."

Representative Kila continued stating:

"Okay. So, when we're looking at bills like this where we're addressing the county roads, in my community and communities throughout urban and rural Honolulu that are not getting the maintenance that's needed but they're traversed by the public constantly and always, I'm looking for ways that we can find ways to support these roads where they're having potholes awful wide and whatnot. Because honestly, when we are traversing these roads, these private roads owners that are subject to the use of these roads, that really is the intent to help out our local residents in the rural communities. So, I stand in strong support of this bill. Thank you."

Representative Todd rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'm in support. I just wanted to note that this does not create an additional tax, it simply provides the county flexibility in how to deploy that tax. And there are notable rural communities, like in my newly minted community, where first responders cannot respond in time due to the condition of some of these roads. So, this would allow the county that flexibility where necessary to look out for the public good. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 279, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE COUNTIES," passed Second Reading and was referred to the Committee on Judiciary & Hawaiian Affairs, with Representatives Alcos, Garcia, and Ward voting aye with reservations, and with Representatives Amato and Nakashima being excused.

Representative Pierick rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Garcia rose to speak in opposition to the measure, stating:

"Same request, brief comment. This bill would simply remove fines for minors when they break the law or what have you. The judge came from Family Court and testified and said, really there's no need for this because minors are hardly ever fined anyway, and if they do, it's very small and there are options to pay fines through community service. So, for those reasons and us going softer on crime, no vote."

Representative Ganaden rose to speak in support of the measure, stating:

"In strong support. This is part of a national move to treat juvenile offenders like juveniles, basically realize that they are young people that deserve the opportunity to learn from their mistakes, to build services around them, to be part of families, and to integrate them into our communities moving forward. Fees have proven to be of no use in allowing children to learn from their mistakes to become participating members of our community.

"In the wake of numerous lawsuits here in the state, I think that we need to pass something like this in anticipation of a prospective lawsuit with the Supreme Court mandating that we do so. Thank you so much."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, no vote and a brief comment. Mr. Speaker, I don't know if you've seen the news in the last couple of days, but there is a couple of people beating the bejesus out of a young person. To say that the violence among youth has increased I think is a little bit of an understatement. So, to give a get out of fees jail fee free I think is the wrong direction, though contrary to our good friend from Kalihi. I think we have to put a responsibility to the young people as to what their behavior can and cannot do.

"And I think this sort of opens the door. It's almost like giving the people who, hey look, if I steal less than \$750, I get out of jail free. If I do these particular things, I don't get any fees or any penalties whatsoever. The bottom line, Mr. Speaker, it's the wrong message to the young people who we should be raising as responsible civic-minded adults. And I think this one goes in the opposite direction. Thank you."

Representative Alcos rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Mizuno rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I appreciate the WRs and the no votes, we certainly do not rubber stamp. In support, Mr. Speaker. I stand in support because Judiciary provided important comments for this bill which we placed in the committee report. I'm going to ask for your kind indulgence as I read back the testimony by the Judiciary. The intent and purposes of this bill are admirable, the strategies employed are evidence-based. And that family courts across the state rarely impose fine, fees, or costs on minors and their parents.

"At the end of the day, Judiciary supports this measure. It's not perfect. It's a work in progress and we still have to work to get the correct language in. But they support the intent. For those reasons, I support this measure. Thank you."

Representative Souza rose in support of the measure and asked that the remarks of Representative Ganaden be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Garcia rose to speak in opposition to the measure, stating:

"No vote and a brief comment. The bill would require that the preschools who receive funding through the open doors program, that those preschools meet a certain criteria with accreditation. It doesn't give room for religious

schools, where currently, through the open doors program, they can choose to go to various church preschools or non-profit preschools. And so, this bill would simply give the power to the department director to say yes or no, whether or not church schools could receive funding through the open doors program. So, for those reasons and the attack on religious liberty, a strong no vote."

Representative Pierick rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations, brief comment. Mr. Speaker, the biggest window to socio-economic mobility is education. And if we get them earlier, the better. This is a good bill. But if it knocks out the core, the pillar of the school system, because I think when we, a number of years ago, considered preschool, it was the parochial, the church-based schools that were the bulk of the locations and the bulk of the teachers. If this one takes that out, I think it's really putting one arm behind the back. So, I'm for the preschool, but for eliminating one of the major players, if you will, I think is not the policy we should be backing. Thank you."

"Thank you, Mr. Speaker. In support with a brief comment. While I'm appreciative of the work that's been done by the commission to improve standards of conduct, I believe that we should institute an even more robust public financing program than what's called for in this bill.

"This year, we have an opportunity to open up government to a new generation of leaders by establishing a robust public financing and public funding election system. I hope that we will have the opportunity to discuss and debate the merits of H.B. No. 967, which goes much further in creating a comprehensive public financing program and will do much more to ensure that our elections are guided by the public interest, not special interests."

Representative Pierick rose to speak in opposition to the measure, stating:

"No, please. There's a few things I'd like to cover. So, in the Hippocratic Oath, it says, I will do no harm. In the practice of medical aid in dying or euthanasia, it's basically killing somebody, and that, I believe, is against the Hippocratic Oath.

"The second point is sociology. As a hospice chaplain, I've been with many families where the patient desires MAID service, medical aid in dying, and the family strongly disagrees with it. It causes much social turmoil for that family in the process of that elderly person committing suicide to kill themselves. That's one reason I am strongly against it.

"For the third, it's based on theology. It says in Ecclesiastes 3 that there's a time to be born and a time to die. That's in the context of God explaining

his sovereignty to the people of Israel. I believe it's God's place to have somebody's life terminate. In the Book of Job, Job was saying, God, please kill me, it's too hard here down on Earth. And God's reply to him was, it's my job to determine the end of man.

"These are the three reasons I'm against this bill."

Representative Alcos rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Garcia rose to speak in opposition to the measure, stating:

"Same request, brief comment. Our state motto, Mr. Speaker, *Ua mau ke ea o ka 'āina i ka pono o Hawai'i*, the life of this land is perpetuated in righteousness. And we continue to move into steps which are unrighteous. And if we're not going to move in righteousness, there will be no more life in this land. This bill takes life away from people. So, for those reasons, no vote."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition, I have a brief comment. I think maybe it's reason number five and it's basically about supply and demand. Do you know why this bill is here? Do you know why it's needed?"

Representative Quinlan rose to a point of order, stating:

"Point of order. Will the gentleman please address the chair."

Representative Ward continued, stating:

"Where's the chair? Sorry, Mr. Speaker. You're the man. You're the man who knows better than this. Because reason number five is supply and demand. How many doctors have wanted to do the suicide bill? The point is, they have vacated that responsibility, and now we got to say, hey, nurses, you come up and fill the gap. That's the basis of this bill, because they don't want anything to do with it.

"Imagine if you were a physician and your hands, the day before, created somebody's death and now today you're going to heal somebody. That's the Hippocratic Oath. This is why this is a manpower, a womanpower issue, and it's because the doctors don't want to do it. I think it's like 90-some percent saying, thank you, but no thank you. And that's why these nurses are here. And we may inevitably see the nurses may turn against it. So far I know they're for it, but I think inevitably they may turn as the doctors. Thank you, Mr. Speaker."

Representative Garcia rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. This bill is relating to marriage. Opposition, thank you. In regards to marriage, this bill says that when someone transitions their gender and changes their gender, they're allowed to go back, if the bill passes, to change their marriage certificate to reflect their preferred gender to match all their other legal documents. Once again, I just don't think

that gender is changeable. You're born male, you're born female. There are trans individuals. There are trans men. There are trans women. There are LGBTQI, non-binary, lots of options. But you can't change gender, Mr. Speaker. And so, for those reasons, a strong no vote. When you change your gender and you're arrested previously as a male, does that change your criminal record? Can I change my race, my age? The list goes on and on. You're born what you're born, and that's a legal document, it should remain that way. So, for those reasons, no vote."

Representative Pierick rose to speak in opposition to the measure, stating:

"No, please. For the following reasons, I'm voting no. The question is asked, how does one change their gender? If they're undergoing a sex change surgery, at their chromosomal level and at their DNA, their gender stays the same. When they die and when they're buried, if their bones are excavated, brought back out of the ground, if they do a DNA test on their bones, they're still the same gender as they were born with.

"And the second is based on theology, and that is from Genesis 127, which reads, so God created man in his own image, in the image of God created he him, male and female created he them. Thus, if God created two genders, who are we to say that—"

Representative Nakamura rose to a point of order, stating:

"Mr. Speaker, point of order. Concerned about the separation of church and state."

At 12:35 p.m., Representative Matsumoto requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:36 p.m.

Representative Pierick continued, stating:

"Standing on the foundation of the First Amendment, which says that Congress shall enact no law establishing the religion thereof, I now proceed with the following scripture verse. It says again in Genesis 127, so God created man in his own image, in the image of God created he him, male and female created he them.

"I'm going to share another scripture. It says in Matthew 18:6, and this is with the perspective of we as adults creating legislation in Hawai'i that has an impact on youth. But whoever causes one of these little ones who believe in me to sin, it would be better for him to have a great millstone fastened around his neck and to be drowned in the depth of the sea.

"We are adults here, and the legislation that we enact affects the children of Hawai'i. If we are saying that it's okay to change your gender, we are deceiving them, and the judgment can then be incurred upon us. For these reasons, I vote no."

"Mr. Speaker, I applaud this bill. I'm in reservation mode right now because this says, by our Constitution, and anything that is ingrained in the Constitution has a superpower, a super veto over other things. And this has to do with the environment and the guarantee for the health of the environment.

"Everybody knows I live in Hawai'i Kai. But if I lived in Waianae, I would sue the state for the landfill that's next door to my house and to the breath that I breathe and the children that I have that are going to be polluted by that. My point is, this is going to open the state to a huge series of lawsuits. And the Waianae landfill is only one example of that, Mr. Speaker.

"So, I would say let us be fiscally responsible when we pass legislation. This is a good intention. But we've been warned even on this floor about guaranteeing the rights of particular individuals. They said, you know, you open a plethora of lawsuits to the State of Hawai'i, of which, Mr. Speaker, as you know, we cannot afford to do. For those reasons, I have an abundance of caution, and with that, reservations because of what it implies legally. Thank you."

Representative Pierick rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ward rose to speak in support of the measure with reservations, stating:

"With reservations, brief comment, Mr. Speaker. Mr. Speaker, I have my same reservations as I had earlier with the bill that said, we are going to open ourselves to a flood of costly liabilities. This one removes the \$2,000 asset limit. We already have probably almost a half a million, about a third of our population, on this particular Medicaid program. If we lift the cap to where it's anybody, and I don't see anything in the bill that says, you can be driving a Tesla and you can be qualified for health service.

"The point is, Mr. Speaker, there are things that we have to kind of keep the banks of the river, so people don't go astray in this. And I think this is a great cause. If we didn't have this, there would be a lot of sick people in Hawai'i. But to have it without limits, I think is going a little bit too generous, a little bit too far afield and something I don't think the State of Hawai'i can afford.

"For those reasons, Mr. Speaker, with reservations and I hope future committees will at least put some kind of a cap that's rational. We shouldn't have people on the welfare of the Health Department as at the same time they're driving Teslas. It just doesn't mesh. Thank you."

Representative Ganaden rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. Many of the income limits that we're discussing in this bill were not strictly applied during COVID and it allowed the Department of Human Services to be more free in preventing poverty throughout our communities, especially child poverty. For that reason, I stand in strong support."

Representative Amato rose to speak in support of the measure, stating:

"In support. The \$2,000 Medicaid asset limit actually costs us more money because of the verification process that is required to go through to verify these limits. By removing it, states that have done so have found that they actually save a lot of money, that removing the asset limitation is actually a cost saving method. Thank you."

"Mr. Speaker, thank you. No vote. And I would also like to read the testimony from the Hawai'i State Energy Office. Hawai'i's eligibility for FEMA funding for disaster mitigation, resilience and recovery is determined in part by scores for hazard-resistant building codes and standards."

"I can't support something like this if we're going to possibly lose our disaster funding. Last year in a portion of a district that's no longer in my area or in my district, but there was a building that had waves that were crashing over it, and this building is three stories high. Representative Kapela rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. I just want to make mention that, yes, we do have high taxes. But this is a tax that taxes luxury investments. It also taxes luxury items that are art or antiquities that our local families can't afford. So, why not capitalize on these things and then make sure that we're investing that money in our public schools, in a child tax credit, back into our communities, back into the pockets that need it. Thank you."

Representative Garcia rose to respond, stating:

"Second time, in opposition still. Our state has record surplus and yet we continue to raise taxes. The term was used 'luxury.' Well, flash alert, the average price for a house in Hawai'i is over \$1 million, that's luxury. So, anyway, no vote."

Representative Tam rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I just wanted to make a comment that although we do have a surplus this year, that might not be the case for any future years. Thank you."

Representative Kong rose to respond, stating:

"Second time, still in opposition. For some reason, people are trying to equate this as income tax, also, right, the capital gains. But the capital gains is applied to all tax brackets, from the lowest to the highest. So, not necessarily it's a luxury to anyone when they sell their homes and getting this capital gains. Thank you."

Representative Kapela rose to respond, stating:

"Thank you, Mr. Speaker. Second time and just to clarify as well, in very strong support, if capital gains were to be taxed as regular income, there are studies and data that shows that the bottom 80% of taxpayers, this includes even doctors, lawyers, business executives, would be paying absolutely nothing at all. So, the only people that are actually impacted if we were to tax capital gains as regular income would be people who are making at least half a million dollars a year. So, when we talk about houses and the ability for local families, for Native Hawaiians, to not be able to afford houses, these are people who are benefitting from a living wage, not individuals who are making over half a million dollars a year. Those are individuals that need to be taxed at a higher tax rate and at least make sure that they're paying regular income on these luxury investments."

Representative Ward rose to respond, stating:

"Mr. Speaker, brief rebuttal if I may, in opposition. I know we don't have a macro economic instructor in these particular hallowed halls, but capital

is what keeps the economy and businesses and employees, it makes the economy move. Because if you don't have investment, you don't have any businesses, you don't have any hiring, you don't have any jobs. That's a macro principle regardless of where you apply it.

"The point is, why the governor had the REITS bill vetoed is because the capital that they want to bring in was saying, hey, you tax us higher, we're not going to come around. The point of making that in this context is, if you don't have capital or you discourage capital, it's going to go where it's welcome. We have no capital markets here. We have to either go to the East Coast or the West Coast in terms of where, we are a capital-short state. That's the bottom line.

"So, the more we discourage capital, the less economic development. And Mr. Speaker, if there's anything that we need, it's economic diversification. And if we discourage, for example, becoming the Hollywood of the Pacific or other ways of being innovative and creative, the sports center of the Pacific, the Geneva of the Pacific, where it's going to take capital to make it. If we discourage it. But you know, it's only 2%, okay, but who knows, it's going to go up to another 4% or 5% into the teens, to which then there will be discouragement.

"The point is, economics is market forces. This is a political force on this floor. But political forces have market consequences of which, as a capital-short place, we should not discourage people as already the highest taxed in the nation to come and invest in Hawai'i. Thank you, Mr. Speaker."

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 1110, HD 1 pass Second Reading and be referred to the Committee on Consumer Protection & Commerce, seconded by Representative Morikawa.

Representative Garcia rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. This bill is relating to the road usage charge program. It creates a mileage-based road usage charge. So, we're going to charge people based upon the miles they drive. This affects those who live furthest from town, West O'ahu, North Shore, rural areas. And it gives incentives to move to e-vehicles. Well, I can tell you, lots of folks in my community can't afford a Tesla and they drive to town each day for work, and this bill will definitely impact them and break their banks. So, no vote."

Representative Lowen rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations, but for different reasons. I just think we're sending mixed signals about electric vehicle adoption. If we're moving to decarbonize the economy, ground transportation is a huge part of it, and this singles out electric vehicles for extra charges without at the same time repealing the \$50 extra charge on EVs that we implemented several years ago. So, if we're going to test out the road mileage charge on EVs, fine, but then we should also repeal that \$50 extra charge at the same time. Thank you."

Representative Todd rose to speak in support of the measure, stating:

"Thank you, in support. I just wanted to note that there already is a tax for driving a lot and it's called the fuel tax. So, this does not actually discourage or put a penalty on rural drivers because that already exists, it's the fuel tax. This has nothing to do with incentivizing EV adoption. All it does is pilot project what would be an opt-in for EV owners who already pay a surcharge, and this is an alternative to the surcharge.

"And as the prior speaker noted, there may actually be concerns in the opposite direction, that this could potentially disincentivize that adoption, which is why we left it as an opt-in. So, just in summary, we already pay a fuel tax, so this has no impact on that. And there is an opt-in program, so there is no direct impact to encourage or discourage EV adoption. Thank you."

Representative Marten rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Just as an EV driver, I want to assure people that in committee I did make sure this will actually not penalize EV drivers. We currently pay \$50, and they will allow us to pay less than \$50 if our road usage comes, the formula comes out to less than \$50. So, this could incur savings for EV drivers. But it's also a chance for them to test the system and get it figured out with a smaller group of drivers so that when they do transition this, which will still be equitable because those that drive far now are paying more for gas, those that drive far later will pay more with their mileage, but they just need to test the system. Thank you, in support."

Representative Alcos rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition, brief comment. Mr. Speaker, this bill is caused by a deficit in the fuel tax going to repair the roads, *et cetera*. This is an EV-created problem, but we're pushing it on the poor and the ones who live far away as a way of doing it. I know there was a great equalizer from the gentleman from the Big Island. But if you look at it, if you got an old junk that has very little mileage, that burns oil and other things, this is a punishment of the ALICE families. Let's call a spade a spade, because the EVs have not bought the gas, everybody else is having to pay. That's the problem with this bill. This is an EV-created situation. And my sense is, particularly if you want to have capital gains, have those Tesla drivers, have the other ones compensate with not \$50 but \$150."

Representative Quinlan rose to a point of order, stating:

"Mr. Speaker, point of order. Will the representative please confine his remarks to the measure at hand."

Representative Ward continued, stating:

"Sorry, I missed the comment. What did he say? This is an EV-created problem. My point is, we should have the EVs pay the difference. They're the ones who have created the deficit in the fuel tax repository. So, therefore, make it up to them rather than have everybody having to pay it, particularly if you're poor, you live far away, and you got an old junk that doesn't have any good mileage. It's very simple economics. Thank you."

Representative Todd rose to respond, stating:

"Thank you. Once again, in support. I just want to note again that this bill does not apply to non-EVs. It's very clear in the language of the bill and even in the summary of the bill that it does not apply to anyone else. It is an opt-in program. And one of the things it's trying to address is we're trying to study this as a potential model to replace the fuel tax in the long run, which already penalizes rural drivers, it already penalizes people who may have cars that are not as miles-per-gallon friendly.

"So just as a quick example, I have a hybrid. I'm fortunate to have a hybrid, it gets over 50 miles to the gallon. So, one of the things we're trying to address in here is that EV drivers would actually pay more currently than I would for a hybrid. So, we're trying to find an opt-in model that finds a balance there. As a quick example, if you were to opt in, you would benefit if you drive about 6,500 miles or less, give or take. And if you drive more than that, you'd be better off paying the existing fee that's already in place, the surcharge.

"But once again, it does not apply to anyone else, and it's an opt-in program. And I think the language in the bill is very clear that that is the case. And I just wanted to put that out there."

Representative Lowen rose to respond, stating:

"Thank you, Mr. Speaker. Still in support, slight reservations but I want to adopt the most recent words of the Transportation Chair. And also just comment that the reduction in fuel tax, electric vehicles are still less than 2% of all cars on the road. The reduction in fuel tax revenues has more to do with more efficient vehicles than it does with electric vehicles. And I think it's a good thing to transition off of fossil fuels, reduce local air pollution, *et cetera*. So, we need to come up with different systems. I do support switching to the road usage charge, I just want to also make sure that we have strong incentives in place for EV adoption. Thanks."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1110, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE ROAD USAGE CHARGE PROGRAM," passed Second Reading and was referred to the Committee on Consumer Protection & Commerce, with Representatives Alcos and Lowen voting aye with reservations, and with Representatives Garcia and Ward voting no.

Representative Pierick rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Kahaloa rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. I'd like to request a ruling on a potential conflict of interest. My fiancé is a public affairs officer for the Hawai'i Tourism Authority," and the Chair ruled, "no conflict," and that the ruling would extend through *sine die*.

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition, brief comment. Mr. Speaker, when a coach wins a season in football or basketball or any sport, you say, hey, right on, spot on. He comes into a losing season, you say, eh, fire the bugger. This is basically what this bill does to the Hawai'i Tourism Authority. We told them in the early 2000s, hey, guys, we got to get better. We got half of our economy on you, get out there and promote. They did Hawai'i Five-0, they got everything everywhere and they got it up to 10 million. And then this body said, hey, control things, manage tourism.

"This says, throw the baby out with the bath. This says, you guys haven't done diddly squat. It does not acknowledge, in fact, it's an insult, in effect, the way that this bill is coming up. I don't see how you can take and repeal something which has done such a good job, and in this interim, COVID interim, has not been able to control things.

"So, Mr. Speaker, I think this is a policy that is reactionary, it's emotional. It doesn't have the substance of what otherwise the executive branch has had heretofore to have 50% of our economy strong, vital, everybody knows Hawai'i, everybody loves Hawai'i. Now we've got to manage it, we've got to be able to have a green fee, we've got to be able to control our environment by charging people who are using it. So, I think we're in the right direction. But this bill is a hook in the road, turning us around in the wrong direction. Thank you."

Representative Quinlan rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. So, I think it's important to go back a little bit in time, back to the 1980s. We were coming out of the plantation days and we made a conscious decision to save our economy by investing very heavily in tourism. And then sometime later, we created the Hawai'i Tourism Authority and we gave them a mission, and their mission was to market Hawai'i to the world and bring in as many visitors as possible. And they were very successful at that mission.

"The representative from Hawai'i Kai, as always, makes a number of very fine points. However, I must disagree with the characterization of this bill as in any way being insulting. This bill is an attempt for Hawai'i to keep pace with the times. The residents' sentiment has changed. The type of visitor we're getting has changed. We are getting hordes of people day after day pouring into some of our communities with no management and very little messaging.

"Mr. Speaker, over the years we have done a lot for the visitor in Hawai'i. We have done a lot for the visitor industry, and it was appropriate to do so. And now, Mr. Speaker, I think it is appropriate to do something for us, for all of us, for the local residents. Destination management is the key to the future of tourism in Hawai'i. Thank you."

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Kapela rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Hussey-Burdick rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, thank you. With reservations, brief comment. I would like to thank the introducer for introducing this important measure and passing it through the first committee. I strongly support the intent of this bill. I was just at a meeting last night where we were shown pretty drastic pictures of people's houses that are falling into the ocean. Some of these people have lived in those houses for generations and they do not have the wealth or the means to move.

"And so, this fund is exactly what we need to move our state forward and to give these homeowners an out. But I'm worried because I don't see any protections, any income cap. So, I'm a little bit worried that without those kinds of things, we might see people with the wealthy attorneys being the first to take advantage of this money. And, as we know, our resources are limited, and we really have to prioritize those with low income. So, I appreciate that this bill is moving forward, and I hope that the next committee will take those concerns under consideration. Thank you."

Representative Kong rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I don't think I'm going to go into my sea level rise as I did last year, but we really have to address the erosion problem instead of focusing on this thinking that by addressing to sea level rise that we're going to solve this problem. Thank you very much."

Representative Cochran rose to speak in support of the measure with reservations, stating:

"Thank you, Chair, for this opportunity to state with reservations. An explanation, please. So, knowing that this will be being heard through multiple hearings, I'm looking forward to having my issues and concerns addressed through the process. And I appreciate having another tool in the toolbox for OCCL. And again, just looking forward to the process and having my issues being heard and addressed then. Thank you."

Representative Garcia rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I want to thank the representative from Aiea for his words. And my only problem with this is, first, I do support the fact of addressing the issue of houses falling into the ocean. But the problem is, this bill would expand the climate change adaption priority guidelines, and for those reasons, a no vote."

Representative Amato rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Perruso rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Kapela rose to respond, stating:

"Thank you, Mr. Speaker. I would just like to note that erosion is caused by sea level rise and, still in opposition, second time, and sea level rise is caused by our pending climate doom unless we address climate change."

Representative Kong rose to speak in opposition to the measure, stating:

"In opposition, second time. I'm not sure if anybody remembers my speech last year, Mr. Speaker. But the rate of sea level rise still is 1.5 millimeters per year. And it has been that way, according to the NOAA, for the past 100 years. So, any destruction that has occurred with even the last 50 years is still accountable for a sea level rise of 1.5 millimeters. If you want to see what that is, you have to imagine, there's ten millimeters in a centimeter, two and a half centimeters in an inch. I didn't want to have to get into this, but here we go again. Any case, because of the facts, I mean, it's just not my data, this is the NOAA data specifically addressing sea level rise. If I was to use a different study, anybody can look up the author, Nils-Axel Mörmér. He is a leading, well, he was, I'm sorry, he passed away, geophysicist for Stockholm, but he is a leading authority on sea level rise. So, if anyone wants to go back and really take a look at what the facts are, then they can look at this study. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 756, HD 1, entitled: "A BILL FOR AN ACT RELATING TO LAND USE," passed Second Reading and was

Representative Garcia rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I do support the intent of the bill, I think that the intent is fantastic, and we all agree that more action to mitigate sexual abuse on children is important. But my only reason for voting no on this is I am a firm believer in the separation of church and state. And some folks don't understand what that means. But what that means is the government shall never tell the church what to do and vice versa. It keeps it separate to refrain from bad experiences, which we've seen throughout history. And this bill is now allowing the government to now step foot into the church and tell them what to do. So, for those reasons, a no vote."

Representative Pierick rose to speak in support of the measure, stating:

"I stand in support. From the perspective of needing to protect children, and that's it."

Representative Ward rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Quinlan rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. I'm also a very strong believer in the separation of church and state. Now, let me quote from the Bible. No, I'm just kidding."

Representative Souza rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. There's no reason to perpetuate secrecy in this regard. Thank you."

Representative Mizuno rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Mr. Speaker, I just wanted to share my thoughts on this bill. I understand about separation of church and state. I wanted to say that just because you're a pastor, you're human and

you can make mistakes. And just because you're in a clergy, it doesn't give you a free pass. If a child is being sexually assaulted, we need to know that. I mean, it's simple, what would Jesus do? For those reasons, I support this bill. Thank you."

Representative Ward rose to respond, stating:

"Mr. Speaker, there's one more piece of information here. That is, if you're a journalist, you don't have to give your sources, generally speaking, because the press is sacred. However, if there is a crime and it's proven that you are a key witness, of course this should apply. But this says mandatory, it doesn't say what stage, at least my understanding of this bill, doesn't say what stage it's in. So, they should be treated at least like journalists. Which if it leads to a crime or somebody's injured or somebody's killed or somebody, somebody, somebody, something really harmful happened. If that chronology is in this bill, I'm for it. But if it's not, we're treating clergyman less fairly than we are journalists. And journalists, as you know, really push back heavily when they are forced to testify because they have a secret source, almost like a lawyer has a confidentiality agreement with their clients. So, I think this may need a little bit more exploration to make it equivalent to what journalists have now have in their context. Thank you."

Representative Mizuno rose to respond, stating:

"Still in support. I appreciate the words from the good representative from Hawai'i Kai. However, this talks about a clergyperson knowing that there's sexual assault happening. And within a reasonable, foreseeable future, they need to report that. So, time is of the essence. We need to save those kids.

"So again, I'm a Christian, I support our churches. But in this case, if someone's being sexually assaulted, it doesn't matter if you're a pastor or minister or what, you need to report that. And that's what this bill displays. For those reasons, I still stand in support of this bill. Thank you, Mr. Speaker."

Representative Garcia rose to respond, stating:

"Thank you, Mr. Speaker. Still in opposition. The phrase was mentioned, what would Jesus do? Well, he said, render unto Caesar what is Caesar's and render unto God what is God's. I do, once again, support the intent of the bill. Safety of children is super important. But once again, the point is never shall government tell the church what to do. That's a basic, fundamental philosophy from the inception of this nation, and that should remain that way. Thank you."

Representative Perruso rose to speak in support of the measure, stating:

"Mr. Speaker, I stand in support of this measure. First, I'd like to clarify that there is a relationship between the church and state. And the government does pass laws that the church has to abide by. So, that should be clear. And I also would like to state that I would hope, as a former teacher who is a mandatory reporter, that members of the clergy would hold themselves to a higher standard and embrace this opportunity to be mandatory reporters alongside teachers."

Representative Souza rose to respond, stating:

"Again, Mr. Speaker, in strong support. Just to echo the sentiments of the previous speaker and also to note that the moral minimum should be disclosure. And so, the law currently exempts clergy. So therefore, separation of church and state doesn't really apply to this argument. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 350, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CHILD ABUSE REPORTING," passed Second Reading and was referred to the Committee on Judiciary & Hawaiian Affairs, with Representatives Garcia and Ward voting no.

Representative Ward rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I have a reservation vote and a very, very brief comment. I'm not sure how we're going to enforce this. I mean, it sounds logical. This is about having, if you charge too much on your shipping, this says you are having a deceptive practice. Which is good. It's kind of a slap on the wrist. But how do we know that the price that they're charging for shipping is too high?

"The second concern is, I have a lot of products I want to buy and they say, oh we don't ship to Alaska or Hawai'i. I'm afraid that this may even make it worse, if we're going to say, hey guys, if you've got an extra 5 or 10 cents or \$5 or \$1 on it, it may cut down that service to Hawai'i. We're already kind of a bit isolated because of our distance. So, hopefully we can handle this gingerly. It's effective in shooting a shot across the bow. But in terms of denying our people here because of this shipping, whether it's a couple of bucks that we're going to be able to take advantage of is fine. The intent is good, I'm not sure about the implementation or if it's going to cut some of our supply lines. Thank you."

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

We've got to get the tires off of the dump, side of the road, but to make a tire police inside of the AG's Office rather than say, DLNR or the Department of Health, I think is a bit of an overkill and the cost of government goes up, therefore, the cost of living goes up. "Thank you, Mr. Speaker. I would like to rule out a potential conflict. I was born at home under the expert care of a traditionally trained birth attendant, and if and when I become pregnant, I would prefer the same type of birth attendant to help me bring my child into the world," and the Chair ruled, "no conflict," and that the ruling would extend through *sine die*.

Representative Hussey-Burdick continued to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. So, first I want to be very clear about the two things that this bill, HB 955, is doing. So, the original version eliminated what's been known as the drop-dead date in the current law that's scheduled to make traditional birth attendants illegal on July 1st of this year. The HD 1 version changes that drop dead date to 2025, which matches the sunset date of the whole statute. At that time, we will have a sunset analysis and we'll be back here again deciding the fate of the midwifery licensure law. So, this is currently just a temporary extension so that nobody becomes illegal while we figure out the details of licensure.

"The second part of this bill allows all certified professional midwives, or CPMs, to be eligible for licensure because our current law only allows certain CPMs to be licensed. Both of these elements are in alignment with Oregon's midwifery law, and many other states either have similar provisions or don't regulate midwifery at all.

"I want to thank the Health Committee Chair for moving this bill forward and writing into the committee report, 'your committee finds that traditionally-trained birth attendants of all cultures are valued and preferred by some consumers, and that the type of birth attendant utilized at a birth should be the birthing person's choice. Your committee further finds that Act 32, Session Laws of Hawai'i 2019, inadvertently omitted a category of professional midwives who have completed the North American Registry of Midwives portfolio evaluation process.'

"Mr. Speaker, 33 years ago, my mother intentionally chose a traditionally-trained birth attendant to help her give birth to me at home in our little house in Kapaa Street, in Kailua. That birth attendant's name was Medra. She had already attended over 1,000 births before mine, and she had been practicing since long before any of these certifications or licenses ever existed. Just two years later, my little brother was born in the same room, in the same home, with the same birth attendant.

"For both of those births, Mr. Speaker, that choice that my mother made was criminal, because just before I was born in 1989, the people in this very same square building that we stand in today, with all their good intentions, had passed a law making Medra's traditional knowledge illegal. And I'm so grateful that she was willing to care for my family anyway. Because when my baby brother was born, he came out with his cord wrapped around his neck, his face was blue, and he wasn't breathing. But Medra, with her years of traditional training, gave him the breath of life.

"Now, my mother is highly educated, an attorney who many other attorneys and members of this room probably know from her years of advocating for women's rights. She did her research. She knew who she was choosing. And she carefully weighed those risks against the risks of an impersonal, uncomfortable hospital birth filled with the pressure of unnecessary medical interventions. She felt so strongly that she wanted a non-certified non-medicalized birth attendant that she told me she probably would have given birth unassisted if she couldn't find a traditionally trained midwife to care for her.

"Unfortunately, mothers on Moloka'i or Lāna'i or the more rural areas of our neighbor islands literally don't have that luxury of choosing whether or not to go to a birth center up the street like my mother did. They don't have access to a nearby hospital. There are simply not enough licensed midwives practicing on their island. So, unless this law passes, their only chance will be to either fly to O'ahu for the last month of their pregnancy, give birth

unassisted, which will almost certainly happen if it's premature before they have that chance to fly, or illegally enlist the services of the traditionally trained birth attendants who have been serving their communities for decades.

"Mr. Speaker, I encourage everyone in this room to go on YouTube and watch the Health Committee hearing from last Friday, February 3rd, and read all the testimony on HB 955. In my six years of working here, I have never seen so much overwhelming support on any other bill. One thousand two hundred and thirty-one people took time out of their day to give passionate, moving testimonies in support. Only 39 opposed, but the vast majority of that opposition made comments indicating they actually support the bill's intent by stating things like, I oppose this bill because I should be allowed to choose my traditional birth attendant. In comparison, Mr. Speaker, death with dignity had between 800 to 900 testimonies and they were very mixed in terms of support."

Representative Kobayashi rose to yield his time, and the Chair "so ordered."

Representative Hussey-Burdick continued, stating:

"I'm sure you'll remember that with death with dignity, members of the medical community stood on both sides of that issue, as they do now with this bill. The only bill I've been able to find that had more testimony was same sex marriage. But again, those were very mixed in terms of support. Mr. Speaker, in both of those instances, this body was brave enough to pass laws that gave people the right to make decisions about their own lives. And that's all I ask of you again today. *Mahalo.*"

Representative Marten rose to speak in opposition to the measure, stating:

"Thank you, I'm registering a no vote and with brief comments. I understand this is a work in progress, and I appreciate the efforts of the Health Chair to address the issue. The reason for my no vote is that I think that everybody should be licensed when providing this kind of very important health care and that standards should be met. And I understand that three years ago, when the deadline was given, that was a time period to resolve some of the issues and agree on a path forward. And I'd hate to just keep kicking the can down the road while people are still practicing, taking money for a service in our state, without any set of standards.

"In my mid-twenties, I worked in Guatemala. I ran a child and infant nutrition program. And there in very traditional Mayan villages, almost everybody was attended by traditional midwives with no particular certification. The only people that were not were the people that could afford to go to the hospital. We did have relatively high maternal mortality. And I saw the consequences of that among the children that I cared for when they were orphaned. So anyways, I believe that everybody probably has the talents and skills and ability to learn to become licensed. But we should have that standard in our state. Thank you."

Representative Pierick rose to speak in support of the measure, stating:

"In support. My mom had four home births. My sister had four home births. Based on experience and in observation, I support."

"Mr. Speaker, I have reservations about this and I have a very brief comment. Mr. Speaker, this allows you, if you're a bicycle, to go through a red light if it's between, I think, 10 p.m. and 6 a.m., and that's because the bicycles can't do the pressure to make the sensor. Sometimes sensors don't even work. And I'm not sure this, in a pavlovian kind of way, will condition bicyclists to think, hey, you can be going through these things and you're going to be immune and assuming that people are going to be able to see you going through a red light, would be, perhaps, dangerous.

"I can see the intent to yield to bicycles to be a little more free. But, as I think many of the cyclists say, we are to be treated equally as cars, and cars can't go through red lights with impunity, particularly now that we want to put red light cameras up. I think this probably is a little bit too liberal into the wrong direction. For those reasons, Mr. Speaker, serious reservations. Thank you."

"In strong support, Mr. Speaker. First off, the purpose of this bill is to establish and appropriate moneys for a four-year Pacific cultural court pilot program in the family court of the First Circuit, that's here on O'ahu.

"As testified before the Judiciary Committee, Judge Hall noted that, in Hawai'i, children of Hawaiian ancestry and other Pacific Island youth are overrepresented in the juvenile justice system. For the fiscal year 2022, statewide, Native Hawaiian and Pacific Island youths accounted for 48% of youths who were arrested, 49% of the youths who were referred to the

family court, 50% of the petitions filed in family court, and 63% of youths who were placed in our detention facility.

"Studies have shown that youth who are connected to their culture and community are more successful and less likely to become involved in the justice system. We envision a cultural court program that will connect at-risk youth to their community and their culture, and in turn reduce their involvement in the justice system.

"Mr. Speaker, there are similar programs currently happening in Navajo communities, in First Nation communities in Manitoba, and, most notably, in New Zealand, they call it the Rangatahi Court. They've essentially changed their entire juvenile justice system to be a partnership between the juvenile court system and various community groups.

"What we're trying to do is use best practices, the diversity of our community, and acknowledge that courts can often act as another source of trauma for children. That oftentimes when young people meet a judge, it's just a person in a black robe telling them that they're a bad person. We now know that excessive fines, court dates, and a probation officer don't replace a loving family, a connection between mistakes and growing up, or taking accountability. Mr. Speaker, this is our opportunity to have the justice system act as part of the village instead of an oppressive experience of trauma.

"We also have an opportunity to partner with numerous philanthropic organizations. The Kellogg Foundation has just given \$20 million to Partners in Care, the Hawai'i Youth Correctional Facility, and numerous other non-profits are looking forward to partnering with the Judiciary in reducing trauma to communities and to children, and to really, finally, having an effect on the overrepresentation of Pacific Islander and Hawaiian kids in our justice system. Thank you so much."

"No with a brief comment, please. Mr. Speaker, this is the new no cash bail bill, which I think was passed last session, which was then vetoed by the governor because as many places on the mainland said, hey, this just doesn't work. Getting out of jail free doesn't work. Plus, I would hope that people would know that Act 277 was passed in 2019, which if you are indigent or you're poor or whatever you have no money to post bail, instead of going to jail, which costs us, Mr. Speaker, \$258 per day, this Act 277, and I hope CJ and other judges are listening, is a bill that this body passed which says, hey, if you don't have the money, just give us your signature. It's an IOU, it's a promissory note. And if they show up, Mr. Speaker, the thing is ripped up, a no brainer. But none of the Judiciary has practiced that.

"There is now circulating without a hearing, I think it's bill 1172, which I talked with the head of the prisons yesterday, he didn't know about it. The point is, we have a way of doing without cash, if people would just keep their word. So, Mr. Speaker, this is redundant and to me and no is a no brainer because there should not be no cash bail. You've got to have skin in the game. And right now, people are not showing up, even if they're poor or they're rich. This is not the way we should be going. Thank you."

"In strong support, Mr. Speaker. In response to the representative from District 18, this is not affecting cash bail. It still remains in the purview of the issuing court to issue bail if they decide to. Members of the CMV and Judiciary Committees last week heard from the National Conference of State Legislatures regarding numerous best practices happening around the country, regarding how we treat those who are charged with crimes but who are not yet convicted. This does work, as seen through around the country. We also need to start making moves towards remedying the ill effects of the war on drugs. I have much more to say on this, but I suppose I'll wait until third reading. Thank you so much."

"Thank you, Mr. Speaker. No vote with a brief comment. This is a tax credit solely for rich people. The district that I represent, portions of my community don't even have access to clean water at all. Many people in my district live off of catchment, so that means that they're catching water off of their roof that goes into a tank and then they're then able to use that. We have no tax credits or tax breaks for those individuals, oftentimes people who are marginalized and come from very impoverished communities.

"I think that if we're going to move on a water credit, it should be equitable and we should make sure that the communities that are the most harmed have access to these things. However, if this is specifically to Red Hill, then we need to make sure that in this bill we provide the proof of harm so that we're making sure that that money is going towards families that may have been impacted by Red Hill. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 543, HD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," passed Second Reading and was referred to the Committee on Finance, with Representative Kapela voting no, and with Representative Kitagawa being excused.

get there are trans individuals, but legal documents ought to report accurate information and not live in the world of the make believe. So, no vote."

Representative Hussey-Burdick rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I have a biology degree and I studied sex and gender pretty extensively during my undergrad. I just think that maybe this body should be aware that a 2018 study by Horii, *et al.*, published in the *Gynecologic and Obstetric Pathology*, Third Edition, shows that people with intersex parts have different XXXY genotypes, concluding that chromosomes do not necessarily dictate what genitals you get. From the study it says, based on external phenotype, two-thirds of true hermaphrodites are raised as males, despite the presence of an XX, female, karyotype in at least half of them. Other karyotypes are 46,XX/46,XY and 46,XY.

"Mr. Speaker, according to the science, there are far more than two naturally occurring sexes, and perceived sex is actually a complicated mix of hormones and genotypes. As a biologist and a strong LGBTQ+ ally, I support the right of all humans to make decisions about their own body. Thank you."

"On the neighbor islands, we don't have access to reproductive health at all. It's very difficult in many areas and in rural communities, you barely have access to a doctor. "Mr. Speaker, I rise in strong support with a strong comment. This bill answers a desire that I've had for years and years and that is a diversification of the economy. This is low-lying fruit. This is creating the Hollywood of the Pacific, i.e., making the tax credit really competitive. You know who is beating us now, Georgia and Kentucky. Can you imagine, we're not even at their level yet. But we've got the most beautiful environment in the nation.

"Mr. Speaker, this creates high paying jobs. It's pollution free, so to speak, in that it's not an industrial smokestack industry. And it's something, I would hope, would start a trend, and I want to thank the author for introducing this, and I hope this sails through. And I hope it's a beginning for future diversification, to some have said, we can be the sports center of the Pacific, if we get a stadium eventually, if this body decides what to do with that. We can be the diplomatic Geneva of the Pacific, diplomacy, we have the East-West Center and the other in Waikiki. We could also be space tourism.

"The point is, Mr. Speaker, we've got to think outside of the box because, and here's the bottom line, we have half of our population is ALICE families, asset limited income challenged, and they're working. We are the stewards, if you will, of this economy. And when we have half of our population, we don't have an economy this size. And this helps expand that economy, it helps good paying jobs, and it's probably one of the best bills this session, if it goes all the way through. For those reasons, I hope everybody votes with exemplary enthusiasm. Thank you."

"With reservations, brief comment. The original bill, I fully support. But the HD 1, it removes the exemption for small businesses and makes it a bit tougher for them to do this. So, with reservations."

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support with a brief comment. I would like to thank the chair of the Committee on Labor & Government Operations for passing a strong sick leave bill through our committee. Currently, approximately 180,000 workers in Hawai'i lack access to sick leave, most of whom work in the service industry in jobs that frequently engage the public, like food servers and sales associates.

"Low-income workers and women are significantly less likely to have paid sick leave than other members of our workforce. Only one in five low-income workers has access to paid sick leave. Studies have shown that access to sick leave actually reduces the cost for businesses, especially small businesses, because it increases employee retention.

"We just went through the pandemic, whose effects we are still feeling today. We know that people were and still are going to work with COVID-19 because they cannot afford to sacrifice their financial security in order to get better. Paid sick leave is essential to preserving personal and public health, giving employees time to recover from illness and prevent the spread of contagions in our communities.

"I would also like to add that I am very grateful for the HD 1 of this bill that cuts out the exemption for small businesses. Because if we were to use that exemption, 91% of all businesses in Hawai'i are small businesses with less than 50 employees, which means that all of those workers would not have access to this very, very important opportunity to get better. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1202, HD 1, entitled: "A BILL FOR AN ACT RELATING TO PAID SICK LEAVE," passed Second Reading and was referred to the Committee on Finance, with Representative Garcia voting aye with reservations, and with Representative Todd being excused.

"Mr. Speaker, I rise in opposition with a brief comment. This bill will, by the end of the year, allow a surcharge to be made by the counties for building infrastructure, to build housing. Mr. Speaker, we have a housing crisis, and this is going to punish them all the more. That's reason number one.

"Number two is that we're giving the counties so much taxing power. They're going to be competing with us and competing with each other to whereas in the Constitution it says, the counties shall have property tax authority. And it's kind of getting out of hand. There are stormwater authority, to give a tax on that, which we'll come to later on this agenda. They have TAT tax, they have GET tax, I mean where does this end? Particularly now with housing, another tax for them to say, hey, if you're going to build infrastructure for housing that we need, like 50,000 to 60,000

shortage of units that we have right now, we're going to make you pay more, which is going to go on to the consumers, which is going to put the price of housing even higher than it is right now at \$1.1 million. Thank you, Mr. Speaker."

"Mr. Speaker, I rise in opposition again, with a brief comment. Mr. Speaker, 65% to 70% of this body are graduates of the University of Hawai'i. A lesser percentage are graduate student teaching assistants, of which I was one. It's a rather nice position to have. You get free tuition, you get to be a professor for the day, you get to be an administration, if you will,

of the course. And you put it on your resume and it's a good track becoming a professor or getting a MA, or probably more so, a PhD.

"The point is, Mr. Speaker, this has come up every 10 years. We are now in a crunch with the University of Hawai'i. The University of Hawai'i budget is being challenged, as it was cut in the last couple of sessions. I think this is going to decrease their viability as well as also, for the last 10 years we've said, look, we're not ready for that. And I think this session, we're not ready for it either. Thank you."

Representative Perruso rose to speak in support of the measure, stating:

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, with all due respect to our colleague on the North Shore, I vote vehemently against this bill, with a couple of comments which hopefully will provoke him to jealousy to come up and refute it.

"We had a great discussion on the radio the other day. I said, basically, we're throwing the HTA out with the bath. We're punishing achievement, because look, they've done such a good job. They're the ones with their foot on the accelerator, they got us all these tourism, they will know how to back it off. They have a management plan, but we're not giving them a chance to show their stuff by saying, hey, we're going to cut you off at the pass or cut you at the knees.

"My point is, Mr. Speaker, let them do what they're doing well, and they're turning into an indigenous organization, not the one at HVCB that just rallies everybody to come to Hawai'i. My point is, this may come up next year, but right now it's untimely. And I think it needs to be put on ice for the present. It's not a good bill. Thank you, Mr. Speaker."

Representative Quinlan rose to speak in support of the measure, stating:

"In strong support. Mr. Speaker, Shakespeare once wrote, give every man thy ear, but few thy voice. And I think that the voices of our people, of those

communities that have suffered so much from unmanaged over tourism, are not being heard. And I have a commitment to those people, Mr. Speaker, to continue to lend them my voice. Thank you."

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ward rose to respond, stating:

"Mr. Speaker, second time in opposition. Mr. Speaker, we have to know historically why we've reached this point. Number one countless is the Airbnb. If we can't solve the Airbnb process and the situation, how are we going to solve the HTA, which is a threat of situations? The second thing is, this went under the microscope because the HTA contract with HVCB and with CNHA and what the former administration did with awarding the contract, taking the contract back, awarding to the other entity and contracting it back, has made us focus, like in a laser focus, on what's going on with tourism.

"I think understanding those two things has highlighted, because look, all of our neighborhoods are under a threat of Airbnb. We haven't been able to do that. But to blame the HTA on the Airbnb phenomenon, I think is misplaced importance. Regardless of what Shakespeare has said, damning with faint praise is not praise at all. Thank you."

"Thank you, Mr. Speaker. In strong support and may I have the words of the representative from Hawai'i Kai entered into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

"Mr. Speaker, I rise in opposition. In an earlier speech today, I referenced the ability of the counties to tax just about everything. And now this is a tax for what you have in terms of driveways, roof space, sidewalks, anything that's non-porous, they're going to tax you. It's coming to all of our neighborhoods on O'ahu. Some of you recall they came to the neighborhood boards and explained that this is coming soon. And by the way, Mr. Speaker, they said yes, government is going to have to pay.

"This one is a direct contradiction to what the City & County of Honolulu has spread out throughout the neighborhood boards of this island. This

exempts the state from all of its lack of ability to fess up to what it's been telling all of us in the different neighborhoods, that you will be taxed also.

"So, this bill is totally unfair to what has already been circulated. This exempts them and it's not fair because of what they said. And it's another new tax, also. Because of your driveway, the size of your roof, you're going to pay another way. You know, there's so many ways you can get money out of people's pockets, but to me, this is a very unfair way. Thank you, Mr. Speaker."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in strong, strong opposition, based upon principle and on conscience. Mr. Speaker, this allows a relocation allowance, if you're a millionaire on the beach, we're going to find you another property as a substitute where you live. This is such a slap in the face of the Hawaiian community that's on the beach, homeless, and we can't find them houses because we want to reserve the money, and there's a fund in this to move those millionaires off the beach so they can be safe from the sea climate change.

"Mr. Speaker, this bill is probably the unkindest cut of all in all of these bills that are negative. This is unfair. It should fail. It should not be even written by any of us here, to say that we back such a bill with such inequity implied and totally funded by the state for the favor of one group. Thank you, Mr. Speaker."

"Thank you, Mr. Speaker. I stand in opposition.

"This bill, HB 1050, would actually work and accomplish what it sets out to do, lowering the cost of goods to the consumer, if the state of Hawai'i had a sales tax system.

"But we do not! We have a General Excise tax system. The GE tax system is uniquely structured to affect the cost of doing business in this state. Yes, the GE tax may be passed through to the consumer but doesn't necessarily mean that it has to be passed on to the consumer, or vice versa.

"In other words, any GE tax cut may not necessarily be beneficial to the consumer, but will definitely benefit said business.

"For this reason, I stand in opposition."

Representative Lowen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. This is one of the recommendations of the Cesspool Conversion Working Group. And the requirement to convert cesspools was established in 2017, it's been in law for six years now. So, this isn't a new requirement to convert. It does accelerate the date for something like 25,000 of the almost 90,000 cesspools that exist in the state with the reasoning that if we wait until 2049 before this requirement kicks in for anyone, we're going to be in a lot worse situation by doing nothing.

"And so, we need to move the date a little earlier in order to encourage workforce development, to get those loan programs, the grant programs, the tax credit, all that stuff in place. We're simultaneously working on a lot of other measures that also implement recommendations of the Cesspool Conversion Working Group. But this is also an important part of it."

year. It's a grant program to assist low- and moderate-income property owners, up to 140% or below, to upgrade their priority 1 and 2 cesspools. So, there is funding available for low-income people to help them through this priority process."

Representative Kapela rose to speak in support of the measure, stating:

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations. My hesitation is because, why did we allow thousands upon thousands of cesspools to go this far without bringing it to the attention of those people when it was more affordable. And now, I think the state, the counties have some of the responsibility of allowing lava tubes to be filled with excrement and all of these things and various farmers who now are really pushed to make survival and a living. I just think some of the burden should be on us, therefore loans and other things that have been spoken of is probably very, very well taken. Thank you."

Representative Tarnas, for the Committee on Judiciary & Hawaiian Affairs, presented a report (Stand. Com. Rep. No. 775) recommending that

H.B. No. 984, as amended in HD 1, pass Second Reading and be referred to the Committee on Finance.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 984, HD 1 pass Second Reading and be referred to the Committee on Finance, seconded by Representative Morikawa.

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition, brief comment. I want to remind members of this body what the Constitution says, because oftentimes it goes forgotten. The right of the people to keep and bear arms shall not be infringed. And the U.S. Supreme Court recently ruled that concealed carry is a constitutional right. Therefore, bills like this, says that you can conceal carry, but you can't do it anywhere. So, it defeats the purpose. No vote."

Representative Pierick rose to speak in opposition to the measure, stating:

"No, please. I'd like just to remind us that we all took an oath to protect and defend the Constitution, which includes the Second Amendment."

Representative Alcos rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Souza rose to speak in opposition to the measure, stating:

"No vote please, Mr. Speaker. I think that the members of this body should remember that the *Bruen* case is a little bit more complicated than just fighting for Second Amendment rights. But I do feel that this bill generally, there's many facets that do overstep and infringe upon our Second Amendment rights, even though the purpose of the bill is to update our Hawai'i gun laws based on the *Bruen* decision. Thank you, Mr. Speaker."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Kong rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Lowen rose to speak in support of the measure, stating:

"In strong support and just want to note that in preface to the part of the Constitution that was mentioned, it's also prefaced by mention of a well-regulated militia."

Representative Tarnas rose to speak in support of the measure, stating:

"In support. This bill is a bill that is implementing the necessary system to comply with the U.S. Supreme Court decision that requires all states to set up a system to allow for concealed carry weapon licenses. We developed this bill, the attorney general proposed it, and we carefully reviewed it to ensure that it is compliant with the Supreme Court decision.

"We also used the concurrent decision that Justice Kavanaugh and Justice Roberts signed on to, that would allow for certain restrictions that are reasonable and also they allow for certain sensitive places. And so, this bill I think is very reasonable and it is protecting the rights of those who seek to get concealed carry weapon licenses and also protects the rights of the general public. So, I urge all members to support it. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 984, HD 1, entitled: "A BILL FOR AN ACT RELATING TO FIREARMS," passed Second Reading and was referred to the Committee on Finance, with Representatives Alcos, Matsumoto, and Ward voting aye with reservations, with Representatives Garcia, Kong, Pierick, and Souza voting no, and with Representative Marten being excused.

UNFINISHED BUSINESS

Representative Nakamura moved that H.R. No. 16 be adopted, seconded by Representative Morikawa.

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise in support but with reservations and I have a brief comment. This is not new to some of us who sit on this side of the aisle, but it's maybe new to some others. I think the rules have been really updated

and they're very well taken. Except there's one that is conspicuous in its absence, and that's the decision making.

"I was going to start off my floor speech by saying, hey, I can kill a bill anytime I want to. That's a famous quote for someone who is now incarcerated. The point is, we have not changed that methodology of decision making. When a bill is voted down, everybody is silent. Because of that, Mr. Speaker, we can vote a bill up, but when it's deferred, the chair reigns superior. And that's why I say, when the quote is, hey, I can kill a bill anytime I want. That doesn't pass the smell test.

"Everything else in there is good except that one needs to be reworked and recommitted. Because decision making is a democratic process in a democratic body such as this. Thank you for listening."

The motion was put to vote by the Chair and carried, and H.R. No. 16, entitled: "HOUSE RESOLUTION ADOPTING THE RULES OF THE HOUSE OF REPRESENTATIVES OF THE THIRTY-SECOND LEGISLATURE, INCLUDING THE OPERATING PROCEDURES FOR THE SELECT COMMITTEE ON STANDARDS OF CONDUCT," was adopted with Representative Ward voting aye with reservations, and with Representative Tam being excused.

Representative Tarnas, for the Committee on Judiciary & Hawaiian Affairs, presented a report (Stand. Com. Rep. No. 788) recommending that H.B. No. 981, as amended in HD 1, pass Second Reading and be placed on the calendar for Third Reading.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 981, HD 1 pass Second Reading and be placed on the calendar for Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"No, please, with a brief comment. I'd like to share with the body the Second Amendment which reads, 'a well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed.' I'd like to read the caption of this bill, 'authorizes a fingerprint-based criminal history record check by the county police departments of applicants for licenses to sell, offer to sell, distribute, or otherwise transfer electric guns or cartridges.'

"So, from my understanding, now we're going to implement background checks for weapons, electric guns, tasers. I don't believe that the Fourth Amendment had in mind a background check. Keep in mind the colonial people, they were wanting to prevent suppression by England. And so, they thought to themselves, we need to make sure we're allowed to bear arms to keep against this.

"Well, if the person in power, if the group in power so chooses we should not allow the sale of a gun because we determined the background check should not go through, a quick phone call from the governor to the police department, *et cetera*, that to me sounds like a loophole in the Second Amendment. So, for those reasons, I vote no."

Representative Souza rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. No vote for me. I think the majority of the reason why I'm voting no, in addition to the Second Amendment, is that the Honolulu Police Department provided testimony in opposition. Thank you."

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Kong rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ward rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Alcos rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Tarnas rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. This measure requires those who sell electric guns to go through those checks, not the people who buy. So, I want to make sure the members understand what the purpose of this is. And this is, I think, a standard approach that I think ensures that those who are sellers of electric guns meet certain standards. I urge the members to support this. Thank you."

Representative Kila rose to speak in opposition to the measure, stating:

"Mr. Speaker, no vote. Can I adopt the words from the representative from Kohala into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Gates rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 981, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CRIMINAL HISTORY BACKGROUND CHECKS," passed Second Reading and was placed on the calendar for Third Reading, with Representatives Gates and Matsumoto voting aye with reservations, with Representatives Alcos, Garcia, Kila, Kong, Pierick, Souza, and Ward voting no, and with Representative Tam being excused.

"Thank you, Mr. Speaker. In strong support. On August 27, 2020, Act 14 was signed into law legalizing the growth of hemp in Hawai'i through the U.S. Department of Agriculture, USDA, Domestic Hemp Production Program. That meant that beginning on November 1st, 2020, individuals and entities who wish to grow hemp in Hawai'i must acquire a hemp production license from the USDA and comply with state requirements.

"Well, Mr. Speaker, here we are today again trying to allow hemp farmers to get their products out to market. Now, we have seen foreign hemp products come to Hawai'i markets from outside of the state, but not locally produced. In attempt to get a variety of local products sold here, legislation has been unsuccessful since 2020. We talk about sustainability, but with this crop it is very difficult.

"Our former and now retired colleague from Kailua was a strong advocate and champion for hemp production. She would bring hemp products for us to taste, she encouraged the use of hemp clothing on one special Friday, and did all she could to get Act 14 to become a reality.

"Our challenge with this legislation is to finally allow our hemp farmers to get products out to market. Mr. Speaker, this bill, I hope, will finally help our hemp farmers who have invested so much into a farm product that may have many health and environmental benefits. Thank you, Mr. Speaker."

Representative Morikawa rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Although the committee report will show that there were many reservations on this version of the

bill, including mine, this issue is very important. The reservations were because of the added language that this bill only applied to any island with a population of 500 or less, which would be the island of Ni'ihau.

"The original intent of this bill was to bring awareness to the difference of Ni'ihau speakers, who have maintained the language of their ancestors and are now the only true community of Hawaiian language native speakers left in the world, to clarify the type of support needed for native speakers of all islands who have never lost the Hawaiian language in their families, and to appropriate funds to support the perpetuation of that language with regard to the provision of public services and notices to native speakers in the language and orthography they understand best.

"The Department of Accounting and General Services, DAGS, submitted testimony in support of this bill because they believe that increased support and education of the Hawaiian language, that includes the form of the language that was taught during the Hawaiian kingdom, should be acknowledged and that the rich documentary heritage contained in the State Archives is accessible to more than just the few native speakers and academics who understand it.

"Further, DAGS suggests that efforts to more fully support increased fluency in the indigenous language that existed in the early Hawaiian kingdom should be made throughout Hawai'i and not restricted to just islands with populations of 500 or less, so that that rich documentary heritage contained in the many memory institutions throughout Hawai'i can be more widely understood and appreciated.

"Mr. Speaker, after much discussion and some misunderstanding, I believe we need to at some point return to the original language of the bill to support all of Hawai'i. Thank you, Mr. Speaker."

"Mr. Speaker, strong support. May I have the good remarks from the good representative from Kaua'i entered into the Journal as my own," and the Chair "so ordered." (By reference only.)

And for the program to succeed, it needs more than one year. So, requesting that University of Hawai'i take this and run with it and put it in their own budget. So, *mahalo*. No vote."

"No. My understanding is that this bill would promote critical race theory, which is basically racism against white people."

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Perruso rose to speak in support of the measure, stating:

"In strong support. And I just want to state for the public record that this program is not designed to promote racism against white people. And critical race theory is a body of knowledge that has been developed to help those going through and entering into the legal profession to better understand the history of race relations in this country and to be able to address them in their practice. And I think that it would be wise if we better understood the concepts that we're using on the floor before we use them to determine our analysis about bills. *Mahalo*."

Representative Garcia rose to respond, stating:

"Second time in opposition still. Just for the record, critical race theory is racism because it tells you to judge certain classes of people based upon their skin color. So, no vote."

Representative Ganaden rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. In response to the representative from District 42, discussing race is in the original draft of the Constitution, when we discussed slavery. This bill is the result of three different deans, some of the most esteemed academics in our community, coming to us, asking to collaborate to give us best practices for how the justice system works, to basically make our jobs easier.

"I think it's troubling that there is an anti-academic bent and a movement against what is basically a technical legal analysis of constitutional law that is coming from, I don't know, radio punditry or something.

"Essentially, discussing race and the way that history plays into the law is embedded in the way we discuss everything here on the floor. It is a part of our legal practice. If we think about the cases that were developed after the Richardson Supreme Court, in which they protected water rights, those water rights were then embedded in the 1978 Constitutional Convention. That was essentially critical race theory because they analyzed a discussion of the law going back to a time when it was essentially legal in the kingdom but illegal in American law. It was a discussion in the case.

"Much of the discussion about critical race theory is already in place at the law school. I'm a proud graduate of that law school. I didn't know about the thing until the second and third year of law school. And I'm really proud to have been educated by people like Mari Matsuda, who was the first ever Asian-American law professor tenured in the United States. I'm a former student of Chris Iijima, who developed some of these theoretical frameworks and who passed away and who educated many of us in this community. So, as a part of that pride, I am a strong supporter of this bill."

Representative Souza rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I stand in strong support of this bill. This bill is generally to foster a collaboration between different aspects of academia at the University of Hawai'i System. And it's not just with the law school, the law school will be housing this program, but it's to bring different facets of academia together. And also, the program is meant to have an eye towards peace and justice. And I think that everybody should want world peace. And generally, I think that there definitely has been a sensationalizing the law on the floor and overgeneralization of the law. Thank you."

Representative Pierick rose to respond, stating:

"In opposition. In commenting on academics, I have a bachelor's and two masters with a 4.0 GPA. I have a doctorate degree and I teach at four universities. Thank you."

Representative Chun's written remarks are as follows:

"Mr. Speaker, I rise in strong support of House Bill 907, House Draft 2, which establishes health insurance reimbursements for telephonic telehealth services.

"The purpose of this bill is to better support residents that live in rural, isolated, and underprivileged communities who do not have enough access to proper medical care. During the COVID-19 pandemic, telehealth - whether by virtual or through telephonic means - became a necessity to making sure that Hawai'i residents could continue receiving necessary medical services in a safe and effective manner. House Bill 907, House Draft 2, seeks to make the delivery of these services permanent in statute.

"I rise to share the work of many major stakeholders, including Hawai'i Medical Service Association (HMSA), the Hawai'i Psychological Association, the National Association of Social Workers, Hawai'i Island Association for Marriage and Family Therapists, the Hawai'i Substance Abuse Coalition; the Hawai'i Primary Care Association (HPCA), AARP, the American Cancer Society Cancer Action Center, the Hawai'i Parkinson's Association, the Epilepsy Foundation of Hawai'i, and the Alzheimer's Association, brought together by this bill's introduction and have collaborated over the last several weeks to fine tune the language into an agreement better suited for all involved.

"Given the nature of the legislative process and the time needed to reach this consensus, HB907 HD2 does not reflect the most recent agreement. Should this bill move forward, my hope is that this agreement becomes a part of the final measure.

"For these reasons, I stand in support of House Bill 907, House Draft 2. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 907, HD 2, entitled: "A BILL FOR AN ACT RELATING TO TELEHEALTH," passed Third Reading by a vote of 51 ayes.

Representative Cochran rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, WR on this. I always get leery when we're mandating requiring counties to do certain things. And in this bill, I'm also a staunch

supporter of affordable in perpetuity. This is only keeping the housing at 30 years. I reached out to Maui County to see if they had a chance to chime in and look this over. And they, as I understand, had not. So, thereby, I'm WR on this one."

Representative La Chica rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

"Thank you, Mr. Speaker. In opposition, brief comment. Building codes exist for a reason. And we have to think not just about upfront costs but the cost to taxpayers if things are not built to appropriately deal with natural disasters. And we have to think about cost to the occupants of these units if they're not built with energy and water efficiency, for example. But all of that aside, there's already a process in place for the counties to amend building codes. And this is just basically, in my view, facilitating a certain county's incompetence and I cannot vote for it."

Many two parent households will have to sacrifice a parent not to work to watch the kids. In this case, when you have three- and four-year-olds in early education centers, this will allow both parents to work. THIRD READING

H.B. No. 132, HD 1:

Representative Nakamura moved that H.B. No. 132, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Tarnas rose to speak in support of the measure, stating:

"Thank you, in support. This bill clarifies the use of electronic voting systems for the purposes of marking and counting ballots and auditing the results. Electronic voting systems were first used in Hawai'i during the 1998 elections. The technology involved with such systems has continued to evolve to improve the administration and security of elections. Ballots are scanned and counted through the electronic voting equipment.

"Since we have transitioned to elections by mail, ballots are processed and counted in the order they are received, in contrast to a polling place model which we used in the past, where the ballots are isolated to the assigned district and precinct only. Using the voting equipment, the counted ballots then can be filtered to the selected precinct and viewed to create a hand tally of the results. Further, we're still able to track and go back to the individual source ballot and do a physical review as necessary.

"Your Committee on Judiciary & Hawaiian Affairs amended the bill to ensure that a post-election pre-certification audit to be done of a random sample of no less than 10% of the precincts is required. For these reasons, I encourage all our members to support this measure. Thank you."

Representative Pierick rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Nakamura moved that H.B. No. 1039, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Perruso rose to speak in opposition to the measure, stating:

"I want to register a very strong no vote on this measure. Because if you read it closely, in the middle of the bill, there's one line that codifies in law a first responder campus, which I have been pretty adamantly opposed to because my constituents told me that they don't want to spend hundreds of millions of dollars of taxpayer money in this fashion. So, for that reason, I'm a no."

The motion was put to vote by the Chair and carried, and H.B. No. 1039, HD 1, entitled: "A BILL FOR AN ACT RELATING TO ACT 278, SESSION LAWS OF HAWAII 2022," passed Third Reading by a vote of 49 ayes to 2 noes, with Representatives Kapela and Perruso voting no.

Representative Nakamura moved that H.B. No. 981, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"No, please. My understanding is that even an electric gun or the sale of an electric gun is an arm per the Second Amendment. And this wouldn't be an infringement if the background check was curtailed to discriminate against that person."

Representative Tarnas rose to speak in support of the measure, stating:

"Thank you. In support, just a brief comment. This measure specifically requires those who sell, or offer to sell, distribute, or otherwise transfer electric guns or cartridges to be required to have a criminal history background check. This is for public safety and consumer protection. I urge all members to support this measure."

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Souza rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Chun rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Chun's written remarks are as follows:

"Mr. Speaker, I rise with reservations regarding House Bill 981, House Draft 1, Relating to Criminal History Background Checks.

"The purpose of House Bill 981 is to require the sellers of electronic guns to submit fingerprints and photographs to the county police departments for the purpose of using national databases to determine if the seller has any history of criminal felony convictions.

"Mr. Speaker, I want to thank the chair of the Committee on Judiciary and Hawaiian Affairs and its members for working on this measure. Generally, I would support having some type of oversight over sellers of these devices. My concern, however, is the way that the bill is currently drafted. On page 5, lines 3-5, the bill requires county police departments to acquire fingerprints and photographs.

"(e) Every applicant or, in the case of an applying entity, every responsible person *shall* be fingerprinted and photographed by the police department of the county of application;" (emphasis added)

"The measure makes the background check, however, permissive for the county police departments.

"The police department *may* perform a fingerprint-based criminal history record check pursuant to section 846-2.7, before any determination to issue a license is made." (emphasis added)

"Mr. Speaker, if the purpose of the measure is to require background checks using fingerprints and photographs for the purpose of conducting national criminal databases, then county police departments should also be required to run these background checks. If the purpose of the bill is to have the county police departments decide whether to use these background checks, then the fingerprint and photograph requirements should also be authorized only when the county elects to use these background checks. Otherwise, the requirement to collect this information is an unnecessary burden to the police departments and overly intrusive to the applicants.

"I look forward to working with the subject matter committees on this bill, Mr. Speaker. Based on my previously stated concerns, however, I have reservations with this bill and hope that work can continue to clarify these concerns. Thank you, Mr. Speaker."

Representative Kila rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I'd like to register a no vote and may I adopt the words from the previous speaker of Waimea into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Alcos rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Lamosao rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

H.B. No. 792, HD 1:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, H.B. No. 792, HD 1, entitled: "A BILL FOR AN ACT RELATING TO MINORS," passed Third Reading by a vote of 51 ayes.

H.B. No. 426, HD 1:

Representative Nakamura moved that H.B. No. 426, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Tarnas rose to speak in support of the measure, stating:

"Mr. Speaker, thank you. In support and a few words. This bill will function as an exception to the federal law, Protection of Lawful Commerce in Arms Act, which was passed in 2005, which I'll refer to as PLCAA. That bill provides gun manufacturers, distributors, and gun dealers with special protections from civil liability. These protections are such that none other U.S. industry is provided. This bill will ensure that valid civil claims can be brought against the gun industry for dangerous, negligent, and unlawful actions. And so why is this important?

"The PLCAA, the federal law, has been interpreted by some courts to effectively bar victims and survivors of gun violence from holding firearms businesses liable for injuries caused by negligence, defective products, or unreasonably dangerous conduct that would otherwise be actionable under civil justice principles. The PLCAA denies justice to victims and survivors. The PLCAA perpetuates the flow of crime guns into communities of color. The PLCAA disincentivizes responsible business practices.

"Remember, this federal law, Protection of Lawful Commerce in Arms Act, provides gun manufacturers and distributors special protection from civil liability that no other U.S. industry is currently afforded. I ask members to please support this measure, as no industry should be above the law, especially not one that makes and sells lethal weapons. This bill will ensure that bad actors in the gun industry are held accountable and victims of gun violence are able to get justice through the law. I urge all members to support this measure. Thank you."

Representative Pierick rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Alcos rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Souza rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Chun rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Chun's written remarks are as follows:

"Mr. Speaker, I rise with reservations regarding House Bill 426, House Draft 1, Relating to Firearms.

"The purpose of the bill is to impose liability towards firearm manufacturers and sellers to make sure that they take necessary precautions and protocols to protect the public from the improper use of these products.

"Mr. Speaker, I want to thank the chair of the Judiciary and Hawaiian Affairs Committee for working on this measure. In general, I support making sure that manufacturers and sellers share in the responsibility of making sure that their products are safe for use and that they take necessary precautions to protect the public. This measure as currently written, however, raises several concerns by having terms that are overly broad and undefined.

"Specifically, on page 4, line 17, the bill uses the word 'assaultive purposes' as a presumption that the product is abnormally dangerous. The term assaultive is not defined. Abnormally dangerous is partially defined, however, as a firearm is not abnormally dangerous based on a firearm's inherent capacity to cause injury or lethal harm. The question, then, is what type of firearm or aftermarket addition or enhancement qualifies as making the device assaultive. Firearms are generally mass-produced products and owners make customizations in the form of aftermarket products to make the device easier to use for the owner. It is unclear from the provision what types of enhancements would qualify the device as assaultive since it cannot be based on inherent capacity to cause injury or lethal harm.

"Mr. Speaker, I also have concerns over the rebuttable presumption created by page 6, lines 13-15, that allows for the presumption if the 'action or failure to act created a reasonably foreseeable risk that the harm alleged by the claimant would occur.' The concern with this standard is that foreseeable risk standard extends beyond the purchaser of the device and transfers this risk towards a potential third-party victim. It is unclear what types of actions or failures to act create risk that is not currently addressed by the current regulations regarding licensing and background checks for purchasers. If the purpose is to extend liability for violating current restrictions, then the measure should reflect violations of those provisions instead of creating a new standard.

"I look forward to working with the subject matter committees to clarify these concerns. This bill is still going through the legislative process and the final version may address these concerns. At this time, however, based on the current draft and the concerns raised, I support this measure with reservations. Thank you, Mr. Speaker."

Representative Lamosao rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, no vote and a brief historical note regarding what the former speaker, the chair of Judiciary noted. The COVID manufacturers, Pfizer, *et cetera*, they are exempt from being sued, so there is an exception to what you say. Also, I think if we look at the industry called Twitter and Facebook, they also cannot be sued because there's no Act 230, which holds them accountable.

"So, in a way, this is not unusual. It's kind of par for the course for those that feel like they're immune or they should be immune. But this is something where we just need to consider it a bit more seriously. And remember, it's the Supreme Court that's going to be the final arbiter of many of these gun issues that we are concerned with here today. Thank you."

Representative Aiu rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Matsumoto rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Kila rose to speak in opposition to the measure, stating:

"Mr. Speaker, no vote and may I register the comments from the representative from Waimea into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and H.B. No. 426, HD 1, entitled: "A BILL FOR AN ACT RELATING TO FIREARMS," passed Third Reading by a vote of 42 ayes to 9 noes, with Representatives Aiu, Chun, and Lamosao voting aye with reservations, and with Representatives Alcos, Garcia, Kila, Kong, Matsumoto, Pierick, Quinlan, Souza, and Ward voting no.

"Thank you, Mr. Speaker. In strong support. In my district I have teachers that live in tents because they can't afford housing. I also have teachers that have multiple master's degrees, that are in their 30s and 40s, yet are sharing

a one-bedroom apartment with three or four other teachers because they can't afford to live here in Hawai'i. These are people who are working professionals that teach our kids, that teach the future of Hawai'i, and yet they cannot afford to live here. So, I think the least we can do is help with teacher housing."

"No, please. I do support the homeless, and I believe that they should have resources available to them. But I think the non-profits are better suited to serve them."

Representative Nakamura rose to speak in support of the measure, stating:

"In support, Mr. Speaker. In order to address the homelessness problem in the State of Hawai'i, we need to start building housing for people with mental illness, with substance abuse, people who are coming out of prison, men and women, kids who are aging out of foster care, people with intellectual developmental and physical disabilities, and our frail elderly.

"It's very difficult to build housing for people with very, extremely low incomes. And that's what this bill attempts to do by addressing people with incomes of 30% and below area median income. It's the most difficult type

of housing to be built, which is why it's very difficult for developers to even attempt to try to do this.

"So, this bill tries to get capital funds to encourage developers to build this type of housing, whether it's a group home, a two-story walk-up that can be renovated, or even within a multi-story building, setting aside a floor or scattered rooms to serve people with disabilities.

"This bill envisions a partnership with government, with nonprofit organizations and for-profit organizations that know how to develop the housing, working with our Hawai'i Public Housing Authority that provides rental assistance because incomes are so low, they need a subsidy, and with nonprofit organizations who can provide the supportive services but know nothing about how to build housing. So, this is a pilot program, and we ask for your support. Thank you."

Representative Holt rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. And I'd like to thank the majority leader and the Housing chair for their work on this issue. I have a lot of constituents who could be served by this. Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition with a brief comment. Generally, EVs solve problems, not create problems. This is one that says we are going to have your mileage as a basis of how much we're going to tax you. This is a new reconfiguration of what was the fuel tax. Because EVs came in and the fuel tax didn't rise to the level, this is a way of solving that problem.

"The difficulty is instead of surcharging the EV, the Tesla drivers and others, this now is spread across everyone. And if you're old, if your car is old and it's driving a lot of mileage, like from the west side or further away from that, North Shore, you're going to pay more. I think this is an unintended consequence. I think the solution is very sexy, a lot of moving parts. But I don't think it's fair and I don't think it's just, and not a good policy. Thank you."

Representative Lowen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. And I just want to point out that the vast majority of reduction in fuel tax revenues comes from more energy efficient fossil fuel powered vehicles or hybrids, and not from electric vehicles, which are still relatively small in numbers, but rapidly growing."

Representative Todd rose to speak in support of the measure, stating:

"Thank you, I'm in support. I just wanted to point out, the bill is relatively narrowly tailored. It has an opt-in program, so zero people will have to actually opt in. It only applies to current EV owners, so it does not apply to the general population of people who have hybrids or trucks that get five miles to the gallon or fifty miles to the gallon.

"And in addition to that, we've capped the amount that they could potentially pay. So, there's literally no disincentive from enrollment. The intention of this is actually to collect data, which could potentially inform our decisions going forward on whether this should apply to a broader class of vehicles or not.

"And I also wanted to point out that rural drivers who have to commute are already punished and already pay a disproportionate amount of fuel taxes, which this would not really change that paradigm. They're already paying more as is, they're not going to be paying more as a result of this.

"In fact, if we charge on a per mile basis, the only people who would be disincentivized in the long run, if this does apply to everyone, would be EV owners and people who own very fuel-efficient vehicles, which tends to reflect people who are doing a little bit better for themselves. So, in the long run, if this does get implemented and shared across other vehicle classes, it would actually help those who have less fuel-efficient vehicles, which has been one of the most common criticisms. So, it is a little bit ironic that we've somehow mangled that into the opposite argument, but it does not apply whatsoever. Thank you."

Representative Kobayashi rose to speak in support of the measure, stating:

"Mr. Speaker, in support. The fuel gauge on the highway special fund is on low. The Highway Division came to the Legislature three times within the last decade for increases in funding for the highways. They didn't get anything all three times. As a result of that, the Highway Division set aside construction projects that would increase the capacity of many of our roads.

They concentrated on safety programs and other smaller projects. The Highway Division needs some help. This is just one plank of many options that could and should be considered to replenish the highway fund. Thank you."

Representative Kila rose to speak in support of the measure, stating:

"Strong support. May I register the words of the Transportation chair into the Journal as if they were my own and may I add a brief comment. In commuting over 20,000 miles last year alone I paid \$357 on gas tax. So, in the hopes that this program would succeed in replacing the gas tax, removing that from our Hawai'i households, putting a cap on low-income families and folks who are commuting from rural communities, this will put more money into the pockets of Hawai'i families and the folks in District 44. So, *mahalo*," and the Chair "so ordered." (By reference only.)

Representative Ward rose to respond, stating:

"Mr. Speaker, second time. I just have a basic conceptual problem of treating my car and the people of Hawai'i's car like it's a rental car in how many miles you drive, we're going to charge you. I think the concept is misplaced. Thank you."

Representative Gates rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support, may I adopt the words of the Transportation chair as if they were my own," and the Chair "so ordered." (By reference only.)

ORDINARY CALENDAR

UNFINISHED BUSINESS

Representative Nakashima, for the Committee on Consumer Protection & Commerce, presented a report (Stand. Com. Rep. No. 1041) recommending that H.B. No. 192, HD 1, as amended in HD 2, pass Third Reading.

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 192, HD 2, entitled: "A BILL FOR AN ACT RELATING TO ENERGY EFFICIENCY," passed Third Reading by a vote of 51 ayes.

Representative Nakashima, for the Committee on Consumer Protection & Commerce, presented a report (Stand. Com. Rep. No. 1047) recommending that H.B. No. 1340, HD 1, as amended in HD 2, pass Third Reading.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 1340, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"Opposition. The testifier on behalf of the State Health Department mentioned that the private sector could sufficiently provide this service to the State of Hawai'i. My recommendation is that we don't need to be expanding the government and using more tax dollars."

Representative Tam rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. The purpose of this bill is to authorize the Department of Health to establish temporary advisory councils to a breakthrough therapy, to establish those rules and regulations for such therapy if they are to be administered within the state. So basically, the state will use their own existing resources to administer and establish this council.

"So, with respect to the representative from Royal Kunia, if we were to take his suggestion, it would mean that the state would shovel out taxpayer dollars to procure a private business to establish those rules and regulations, which does not make sense. The Health Department can establish these councils of qualified experts on their own, saving taxpayer dollars in the process, which this bill seeks to allow them to do. I urge all members to support this measure."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1340, HD 2, entitled: "A BILL FOR AN ACT RELATING TO MENTAL HEALTH," passed Third Reading by a vote of 50 ayes to 1 no, with Representative Pierick voting no.

Representative Nakashima, for the Committee on Consumer Protection & Commerce, presented a report (Stand. Com. Rep. No. 1051) recommending that H.B. No. 187, HD 1, as amended in HD 2, pass Third Reading.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 187, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"No, please. This bill would be increasing the cost of construction, and my understanding is that we are in an economic crisis. So, my encouragement is that we vote no on bills that will hurt the economy."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Garcia rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Garcia's written remarks are as follows:

"Mr. Speaker, I rise today in opposition to HB 187, which seeks to establish labor requirements for the construction of renewable energy projects. While I support the development of renewable energy projects in Hawai'i, I believe that this bill will have negative consequences for our state's economy and housing market. By imposing additional labor requirements on renewable energy projects, this bill will increase the cost of construction and make it more difficult for developers to build affordable housing in Hawai'i. This is a serious concern, as our state is already facing a housing crisis, with many families struggling to find affordable homes.

"Furthermore, this bill could discourage investment in renewable energy projects in Hawai'i, as developers may choose to invest in other states with less restrictive labor requirements. This could have a negative impact on our state's economy and job market. In conclusion, while I support the goal of promoting renewable energy in Hawai'i, I believe that HB 187 is not the right approach. Instead, we should focus on policies that encourage the development of affordable housing and promote economic growth in our state.

"Therefore, I urge my colleagues to vote against this bill. *Mahalo.*"

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 187, HD 2, entitled: "A BILL FOR AN ACT RELATING TO RENEWABLE ENERGY," passed Third Reading by a vote of 48 ayes to 3 noes, with Representative Matsumoto voting aye with reservations, and with Representatives Garcia, Pierick, and Ward voting no.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 1241, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"No, please. So, this bill would violate the Fourth Amendment, which reads, 'The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no Warrants shall issue, but upon probable cause, supported by Oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.'

"So, I know land surveyors, that's not their intent to do any of these things. But the idea of trespassing and the right to allow who can and cannot go on your property should be the resident's protected right."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. Representative Souza rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, request for a ruling on a potential conflict. My cousin is the chair of the Hawai'i Correctional System Oversight Commission. And this bill deals with correctional system oversight. And the commission also submitted testimony in support of this measure."

The Chair addressed Representative Souza, stating:

"Representative, the Chair's ruling is that there is no conflict because this legislation deals with a class of individuals. So, the ruling is no conflict through *sine die* unless circumstances change."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 823, HD 2, entitled: "A BILL FOR AN ACT RELATING TO DEATHS WITHIN THE CORRECTIONAL SYSTEM," passed Third Reading by a vote of 51 ayes.

Representative Tarnas, for the Committee on Judiciary & Hawaiian Affairs, presented a report (Stand. Com. Rep. No. 1073) recommending that H.B. No. 70, HD 1, as amended in HD 2, pass Third Reading.

Representative Souza rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations. I am in full support of the intent of this measure. However, I take issue with the requirement in subsection (b)(1), mandating that the seller disclose all permitted and unpermitted erosion control structures, specifically on state land seaward and adjacent to the parcel. Sellers should not have to be required to disclose information regarding property that they do not own, even though these erosion structures may be known to them. The assumption that this bill makes is that the seller perhaps built the erosion control structure that is on state land adjacent to their parcel, which is not always the case.

"I understand the sentiment of this requirement. However, technically this could be problematic when a seller for any reason is simply not aware of these structures that are not specifically on their property, which could open them up to liability for lack of disclosure. The seller should already be disclosing information regarding erosion control structures that are on their land, and buyers should be doing their due diligence in this regard as well. Thank you."

Representative Perruso rose to speak in support of the measure, stating:

"Mr. Speaker, in full support. I think it's a reasonable assumption that the owner of a property would be aware of erosion control measures that are property adjacent, and I think it is a reasonable requirement that they be required to disclose those structures."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1091, HD 2, entitled: "A BILL FOR AN ACT RELATING TO REAL PROPERTY DISCLOSURES WITHIN SHORELINE AREAS," passed Third Reading by a vote of 50 ayes to 1 no, with Representative Souza voting aye with reservations, and with Representative Pierick voting no.

Representative Tarnas, for the Committee on Judiciary & Hawaiian Affairs, presented a report (Stand. Com. Rep. No. 1077) recommending that H.B. No. 1159, HD 1, as amended in HD 2, pass Third Reading.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 1159, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition to this measure with a brief comment. Mr. Speaker, contrary to the name of this bill, which says relating to climate change, this is not a climate change bill. This is another way of nullifying the idea of Kaka'ako Makai and OHA building its high rise in order to get the money that it was owed from the ceded lands.

"It's a way of saying that we're going to hide behind the ghost of sea level rise and say, by the way, according to this bill, we can resite buildings that don't fit our climate change, sea level rise dimensions. It's something that we should not be behind because there's enough issues with OHA right now that we don't have to steal another way of getting their development rights put on the back burner. Thank you."

At 10:23 a.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 10:24 a.m.

Representative Ward continued, stating:

"Thank you, Mr. Speaker. Why is Waikiki not listed in the bill and only Kaka'ako, which Kaka'ako Makai happens to be OHA, happens to have land that is now at the \$200 million mark devalued down to \$100 million. And this says, hey, by the way, this bill can tell you where you can and cannot build. Mr. Speaker, that's not fair."

The Chair addressed Representative Ward, stating:

"Representative Ward, please confine your remarks to the bill that is before us, the measure before us."

Representative Ward continued, stating:

"That is purposely confusing to me, what you just said. Having said that, Mr. Speaker, if we're going to say if you are on the ocean front, let's just not say Kaka'ako Makai oceanfront, let's say you guys in Waikiki, you better watch out. We're not going to allow you to build."

At 10:25 a.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 10:26 a.m.

Representative Ward continued, stating:

"Mr. Speaker, I have one more comment, and that is this bill has an immediately effective upon its approval. So, there's no debate. If the House does it and the Senate does it, this baby is gone. So that's a very important thing that we should know. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1159, HD 2, entitled: "A BILL FOR AN ACT RELATING TO CLIMATE CHANGE," passed Third Reading by a vote of 46 ayes to 5 noes, with Representatives Alcos, Garcia, Matsumoto, Pierick, and Ward voting no.

Representative Alcos rose to disclose a potential conflict of interest, stating:

"Conflict of interest. I'm a contractor."

The Chair addressed Representative Alcos, stating:

"The Chair's ruling is that there is no conflict because this legislation applies to a class of individuals, all contractors, so there is no conflict. This ruling remains in effect through *sine die* unless circumstances change."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Garcia rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered." [Note: Representative Garcia later changed his vote to a no vote.]

Representative Garcia's written remarks are as follows:

"Mr. Speaker, I rise today in opposition to HB 167, which seeks to make general contractors liable for the debts incurred by subcontractors for wages due to claimants. While I understand the intention of this bill to protect workers and ensure they receive the wages they are owed, I believe that it will have negative consequences for our state's construction industry and economy.

"By making general contractors liable for the debts of subcontractors, this bill will increase the cost of construction and make it more difficult for developers to build affordable housing and other private works in Hawai'i. This is a serious concern, as our state is already facing a housing crisis, with many families struggling to find affordable homes.

"In conclusion, while I support the goal of protecting workers and ensuring they receive the wages they are owed, I believe that HB 167 is not the right approach. Instead, we should focus on policies that promote fair labor practices and protect workers' rights, while also supporting our state's construction industry and economy. Therefore, I urge my colleagues to vote against this bill. *Mahalo.*"

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 167, HD 2, entitled: "A BILL FOR AN ACT RELATING TO WAGES," passed Third Reading by a vote of 48 ayes to 3 noes, with Representative Matsumoto voting aye with reservations, and with Representatives Garcia, Pierick, and Ward voting no.

Representative Tarnas, for the Committee on Judiciary & Hawaiian Affairs, presented a report (Stand. Com. Rep. No. 1080) recommending that H.B. No. 448, HD 1, as amended in HD 2, pass Third Reading.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 448, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"No, please. It's a good idea to have children giving their input when they're requesting a restraining order on another adolescent. But I think the parents' consent would be wise in requiring a restraining order."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 448, HD 2, entitled: "A BILL FOR AN ACT RELATING TO MINORS," passed Third Reading by a vote of 48 ayes to 3 noes, with Representative Matsumoto voting aye with reservations, and with Representatives Garcia, Pierick, and Ward voting no.

Representative Tarnas, for the Committee on Judiciary & Hawaiian Affairs, presented a report (Stand. Com. Rep. No. 1083) recommending that H.B. No. 650, HD 1, as amended in HD 2, pass Third Reading.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 650, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"No, please. So, it says in the Declaration of Independence that we are to protect life. Euthanasia is an attack on life. It's in violation of the Declaration of Independence. If we look at the Hippocratic Oath, it says that we should do no harm. To do harm is to, at times, end life. And so, I believe that the euthanasia bill is in opposition of the Hippocratic Oath.

"Also, it says in Ecclesiastes, Chapter Three, that there is a time to be born and a time to die. This is God explaining his sovereignty to his people. It also says in the Book of Job, that Job was suffering, and he asked God to kill him. Like, Lord, just kill my life, it's too hard down here. And God's reply to him was that it's my job to determine the end of man. For these reasons, I vote no against the euthanasia bill."

Representative Souza rose to speak in support of the measure, stating:

"In support, Mr. Speaker. Just a point of clarification that this bill is not about euthanasia. That's a different term and a different meaning. Although this bill presents a subject that is not easy to discuss, the bottom line is that medical aid in dying is already allowed in respect to physicians. Therefore, expanding this practice to APRNs, amending the mandatory waiting period, and providing an expedited pathway for terminally ill qualified patients to bolster the sentiment of the original act so it can achieve its full potential and implementation is all that this measure purports to do. The law, as it is, presents roadblocks for some patients, and this bill will rectify these issues. Thank you."

At 10:31 a.m., Representative Matsumoto requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 10:32 a.m.

At this time, Representative Pierick offered Floor Amendment No. 1, amending H.B. No. 650, HD 2 as follows:

SECTION 1. House Bill No. 650, HD2, is amended by amending section 3, page 5, to insert an age requirement of 120 years read as follows:

"~~[A~~n~~]~~ Except as otherwise provided in section 327L-11(c), an adult who is capable, is a resident of the State, is age 120 or older, and has been determined by an attending provider and a consulting provider to be suffering from a terminal disease, and who has voluntarily expressed the adult's wish to die, may, pursuant to section 327L-9, submit:"

Representative Pierick moved that Floor Amendment No. 1 be adopted, seconded by Representative Ward.

Representative Pierick rose to speak in support of the proposed floor amendment, stating:

"I'm in support of the amendment. I'm in opposition to euthanasia. I believe that if we were to increase the euthanasia age to 120, it would effectively disqualify this law from the state."

Representative Belatti rose to speak in opposition to the proposed floor amendment, stating:

"Thank you, Mr. Speaker. In opposition to the floor amendment. As noted by the speaker previously, this is intended to undermine the entire medical

aid in dying chapter. In addition, this amendment also undercuts the safeguards, the safeguards that were put into the medical aid in dying to ensure that this process is done with care and integrity and with dignity. Thank you, Mr. Speaker."

The motion that Floor Amendment No. 1, amending H.B. No. 650, HD 2, entitled: "A BILL FOR AN ACT RELATING TO HEALTH," be adopted, was put to vote by the Chair and upon a voice vote, failed to carry.

(Main Motion)

Representative Lamosao rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ganaden rose in support of the measure and asked that the remarks of Representative Souza be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Aiu rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Martinez rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Belatti rose to speak in support of the measure, stating:

"Mr. Speaker, in support. Mr. Speaker, thank you. As noted before, this is a measure that updates, after five years of the medical aid in dying chapter operating, some reasonable amendments that ensure access to a process that is highly regulated and safeguarded. We are increasing the providers to be able to allow APRNs to participate in the assessment, as well as reducing the mandatory waiting period at the discretion of the health care provider who is responsible for working with the patient on the Our Care Our Choice Act. Thank you, Mr. Speaker."

Representative Chun rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 650, HD 2, entitled: "A BILL FOR AN ACT RELATING TO HEALTH," passed Third Reading by a vote of 43 ayes to 8 noes, with Representatives Aiu, Chun, Lamosao, and Martinez voting aye with reservations, and with Representatives Alcos, Garcia, Kila, Kitagawa, Kong, Matsumoto, Pierick, and Ward voting no.

Representative Tarnas, for the Committee on Judiciary & Hawaiian Affairs, presented a report (Stand. Com. Rep. No. 1089) recommending that H.B. No. 470, HD 1, as amended in HD 2, pass Third Reading.

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 470, HD 2, entitled: "A BILL FOR AN ACT RELATING TO MINORS," passed Third Reading by a vote of 51 ayes.

Representative Tarnas, for the Committee on Judiciary & Hawaiian Affairs, presented a report (Stand. Com. Rep. No. 1090) recommending that H.B. No. 350, HD 1, as amended in HD 2, pass Third Reading.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 350, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Mizuno rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I stand in support. I'm going to explain the reasons I support this bill, along with addressing some of the questions that were voiced on this bill during second reading. Please note that I have complete respect for all colleagues and the focus is on the policy of this bill, not any member.

"The purpose of House Bill 350, House Draft 2, is to require clergy to report child abuse, even when the information is received in a penitential communication. What is a penitential communication? It means a communication, including a sacramental confession, that is intended to be kept confidential and is made to a member of the clergy.

"I wanted to thank my good friend, the representative from Hawai'i Kai, who brought up a number of questions about this bill, and I'm going to do my best to address them.

"In hearing this important piece of legislation, your Committee on Human Services, as well as your Committee on Judiciary & Hawaiian Affairs, made the appropriate amendments to provide, penitential communications shall remain confidential except when the clergy member believes that there exists a substantial risk that child abuse or neglect is occurring and it is especially heinous, atrocious, cruel, manifesting exceptional depravity, and this may occur in the reasonable, foreseeable future. I've just identified the elements of the bill and a timeframe of the bill. So, I thank my colleague from Hawai'i Kai for pressing for those answers.

"Mr. Speaker, as a person of faith, I stand candidly that I've been around some outstanding pastors. And a measure of this magnitude will definitely help to bring trust and faith back toward members of the clergy and our churches. But most importantly, this bill will protect our *keiki*. Licensed and registered professionals, teachers and employees of any public or private school, physicians, psychologists, nurses, pharmacists, healthcare workers, law enforcement, childcare providers, coaches of any public or private agency providing recreational or sports activities are all mandated to report any child abuse or suspected child abuse. So why are the members of the clergy exempt?

"Today, the House of Representatives will have the opportunity to change the clergy exemption to save our *keiki* from sexual assault and abuse. For those reasons, I support the passage of this bill. Thank you, Mr. Speaker."

Representative Souza rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Even though I am in strong support of this measure, I believe this bill does not go far enough in addressing reporting by the clergy. I understand the sanctity of penitential communications. However, protecting our children should supersede this practice and no exception should exist.

"This bill requires that the clergy need only report child abuse or neglect that may occur in the reasonably foreseeable future if it is especially heinous, atrocious, or cruel, manifesting exceptional depravity, which means a conscienceless or pitiless crime which is unnecessarily torturous to a victim, which can be found in HRS 706-657. However, meeting this threshold may be problematic and discretionary. Our duty is to protect our *keiki* at all costs, and this bill, as it is written, is the first step in doing so. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 350, HD 2, entitled: "A BILL FOR AN ACT RELATING TO CHILD ABUSE REPORTING," passed Third Reading by a vote of 50 ayes to 1 no, with Representative Garcia voting no.

Representative Tarnas, for the Committee on Judiciary & Hawaiian Affairs, presented a report (Stand. Com. Rep. No. 1091) recommending that H.B. No. 1319, HD 1, as amended in HD 2, pass Third Reading.

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 1319, HD 2, entitled: "A BILL FOR AN ACT RELATING TO THE TRAFFIC CODE," passed Third Reading by a vote of 48 ayes to 3 noes, with Representatives Garcia, Matsumoto, and Ward voting no.

Representative Tarnas, for the Committee on Judiciary & Hawaiian Affairs, presented a report (Stand. Com. Rep. No. 1092) recommending that H.B. No. 1154, HD 1, as amended in HD 2, pass Third Reading.

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 1154, HD 2, entitled: "A BILL FOR AN ACT RELATING TO GUARDIANSHIP," passed Third Reading by a vote of 49 ayes to 2 noes, with Representatives Hussey-Burdick and Kapela voting no.

Representative Tarnas, for the Committee on Judiciary & Hawaiian Affairs, presented a report (Stand. Com. Rep. No. 1093) recommending that H.B. No. 1336, HD 1, as amended in HD 2, pass Third Reading.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 1336, HD 2 pass Third Reading, seconded by Representative Morikawa.

At this time, Representative Ward offered Floor Amendment No. 2, amending H.B. No. 1336, HD 2 as follows:

SECTION 1. House Bill No. 1336, HD2, is amended as follows:

1. Inserting a new section on after section 11 on page 22 to amend HRS §804.9.5 relating to unsecured bail; and
2. Amending the section numbers after the new insertion of section 12 to proceed accordingly.

Representative Ward moved that Floor Amendment No. 2 be adopted, seconded by Representative Pierick.

Representative Ward rose to speak in support of the proposed floor amendment, stating:

"Mr. Speaker, I rise in support of the amendment. A very simple amendment. Mr. Speaker, in the context that we've been talking about, no cash bail, this amendment is simply one word that is in already an existing statute. It says that the Judiciary shall allow the indigent, the poor, those who don't have the money to make bail, and they have to go to jail. It says they sign a promissory note that is an IOU, and that's all the amendment is about.

"It's something where we've had cash bail. We had the governor doing a bill that everybody loved, and then he vetoed it. The mayor got involved. And there's a plethora of no cash bail going on in the mainland. This simply came up in 2019. I want to thank Kat Brady publicly for bringing it to my attention. It's already on the books. It says, if you don't have the money, just sign your name. If you show up in court, they rip it up and it's finished.

"Mr. Speaker, this is a very simple amendment. It's a no brainer. It says instead of may, and I don't know why the Judiciary hasn't utilized it, why the judges are ignoring it, and maybe they don't know about it. But I hope that this will bring it to their attention and to know that that is already on the books, and this is a bill that it's inserted to bring to their attention. For those reasons, Mr. Speaker, I hope we have no cash bail *vis-à-vis* this IOU promissory note."

Representative Tarnas rose to speak in opposition to the proposed floor amendment, stating:

"In opposition to this floor amendment. Thank you very much. This floor amendment is requiring the court, saying the court shall order the defendant released upon an execution of an unsecured financial bond for all or part of the bail amount by the defendant. The whole effort of this bill, the underlying bill itself, is to be permissive, to give more discretion to the court. And I will speak to more of the details on the bill when we come to the main motion.

"But this floor amendment actually runs counter to what the purposes of the bill itself, because it is tying the hands of the judges and compelling them to use this one particular means. So, I urge the members to vote against this floor amendment. Thank you."

Representative Ward rose to respond, stating:

"Mr. Speaker, in favor of the amendment. I find it rather strange that if you're a judge and you say you've got to go to jail or sign this promissory note, that that's being unkind or giving a lack of options to those who are indigent. Mr. Speaker, you know we have over 50% of our families are ALICE families. They don't have enough money to survive. And those who go to jail are generally those who don't have the money.

"This is a no brainer to say it's not going to cost us anything. But if you show up to court, this is simply a disciplinary matter. And the judges are basically psychologists, so to speak, in terms of what best to do to turn the person around. So, to say it's unkind for the judge to give an opportunity to sign a promissory note versus, hey, you're going to go to jail because you don't have any money, that doesn't make sense, Mr. Speaker. For those reasons, this is a very simple thing that we need to get on the books and ask, with shall, that the judges will do this for the sake of the poor in the State of Hawai'i. Thank you."

The motion that Floor Amendment No. 2, amending H.B. No. 1336, HD 2, entitled: "A BILL FOR AN ACT RELATING TO CRIMINAL JUSTICE REFORM," be adopted, was put to vote by the Chair and upon a voice vote, failed to carry.

(Main Motion)

Representative Tarnas rose to speak in support of the measure, stating:

"Thank you, in support. The main goal of this bill, and I want to thank the introducer, the representative from Kalihi, for his hard work on this. We're adopting the best practices from throughout the country on how to improve our pretrial detention practices within the State of Hawai'i.

"The representative from Kalihi attended a series of presentations and workshops, run by the National Conference of State Legislatures, in order to learn about best practices from across the country. This bill is the product of that work.

"And I recognize some members might feel uncomfortable with some of the things that we're talking about here and the recommendations. But this is a big paradigm shift. So, I can understand their discomfort and I think whatever reservations they have about this bill, that's okay. I think it will improve the bill as it goes forward.

"The main goal of this bill is to reduce the number of unnecessary arrests made in criminal cases to reduce the overcrowding of our correctional facilities. And it's done by authorizing a 48-hour grace period after a missed initial court appearance. This is to standardize the current practice of continuances that many judges already grant. This will also be done in conjunction with another bill that we have, which authorizes the Judiciary to send text messages and emails to remind people that they should show up at court.

"The other thing this bill does, it authorizes officers to issue citations in lieu of making certain arrests. This bill deals only with misdemeanors, Mr. Speaker. So that means only nonviolent crimes are eligible for the provisions in this bill. Most of the provisions pertain to pretrial detainees and not those who have been adjudicated. The provisions relating to drug testing do apply to parolees, but often they have been adjudicated for a different crime and then rearrested for a failed drug test. So, this bill helps to keep them out of jail as well.

"This bill also makes meaningful reforms to the determination of eligibility for pretrial release and promote greater fairness and equity in the criminal courts by doing a number of things. Let me just mention and highlight a few. It requires that copies of the bail report be provided to the parties, including the defendant's counsel, no later than the commencement of the bail hearing. It requires that bail be set in an amount affordable to the defendant under certain circumstances. It prohibits the denial of pretrial release based solely upon certain factors, such as the defendant's first positive test for drug use. It requires automatic issuance of no contact orders in assaultive cases. It prohibits a defendant from being arrested for a violation of conditions of release solely because the defendant had one positive drug test. It requires the prosecution, with respect to sanctions for violations of conditions of release, to prove by a preponderance of the evidence, based on certain specified criteria, that the defendant intentionally or knowingly violated reasonable conditions of release. And the last one I want to highlight is that a law enforcement officer issuing a citation in lieu of arrest must find and be reasonably satisfied that the person poses no significant danger to a specific or reasonably identifiable person or persons.

"This bill does a number of different things. I will leave it to the introducer to expound upon this further. But I urge all members to support this very important bill in adapting pretrial best practices to the State of Hawai'i. Thank you, Mr. Speaker."

Representative Ganaden rose to speak in support of the measure, stating:

"Mr. Speaker, in support. It's become the fashion this year to mention religion. So, I'll just share something that was told to me when I was a kid. I was told to act as if you had faith, and faith will be given to you. So, I'm acting. And as an act of that faith, I suppose in democracy, this bill is the work of many hands, in coordination with the chairs of Corrections, Military, & Veterans Affairs and Judiciary, through a state-sponsored bipartisan fellowship with the National Coalition of State Legislatures, the

MacArthur Foundation, utilizing best practices from other states, and most importantly, existing court procedures that have been in effect in Hawai'i for decades.

"What is presented is not new. The Legislature ordinarily abhors an omnibus. I understand why. But that is what is necessary here. Mr. Speaker, the right to be free pending a trial on the merits of a criminal case is enshrined in our federal and state constitutions. For the last several decades, we have used pretrial incarceration in Hawai'i as a means to prevent future crime and to punish defendants.

"The first reason, preventative detention, that's valid. But punishment without a trial is a violation of human rights, as we have argued internationally. The federal courts have essentially abolished bail, instead holding defendants only if they are a danger to themselves or others or are a flight risk.

"The intent of this bill is to decrease crime through proven methods. Section two of this bill allows, but does not force, a judge to offer a defendant a continuance for 48 hours to appear for a pretrial hearing. Regular working people with nonviolent charges have issues with lack of reliable transportation, the inability to find childcare, or simply losing track of dates. They miss court appearances often.

"The courts, without our help, have expanded hearings significantly during COVID to utilize Zoom and other technologies. I would like myself, Mr. Speaker, and many others to think of how we were reminded when to go to the dentist, or pay your phone bill, or file your ethics forms. For nonviolent petty misdemeanors and misdemeanors, court dates are important. However, allowing an individual to essentially reschedule without being incarcerated is an important and often used option. This practice is not codified. Judges are not rubber stamps. This legislation allows courts to refer to the code to give guidance.

"Mr. Speaker, section four allows, but does not force, county police officers to have discretion in giving citations, essentially tickets with an order to appear instead of arrests for nonviolent petty misdemeanors and misdemeanors. The Honolulu Police Department has come out in support of this, as an arrest for a minor nonviolent charge entangles an officer for hours, ratchets up the danger of an interaction, and means an officer is unable to assist in other more serious offenses that arise during a shift. This has become the practice, at least here on O'ahu, but without guidance from the Legislature.

"It is important to note that arrests for minor crimes do not lead to a lower crime rate. Sweeping arrests and arrest-heavy policies do not solve issues related to mental health or homelessness. Citations have been studied internationally and nationally. They save time, increase law enforcement efficiency, enhance community police relations by reducing the ill will that results from unnecessary arrests. And importantly, Mr. Speaker, reduces taxpayer jail costs and overcrowding.

"Section eight amends the Hawai'i Revised Statutes to align with the modern use of the terms of bail. A task force convening prosecutors, defenders, the courts, the Office of the Attorney General, and numerous others, including the vice chair of Judiciary, suggested simple amendments to the code five years ago. These amendments protect victims by codifying the practice of issuing automatic stay away orders in cases involving alleged physical or sexual assault. It also codifies the practice in drug court, veterans court, in women's court, in which one positive drug test does not automatically trigger an arrest.

"Section 13 allows the discretion, not yet codified, to order a defendant to undertake a substance abuse assessment. Mr. Speaker, we collectively now know much more about the way addiction and mental health operate than we did 50 years ago at the onset of the war on drugs. There are several other measures that our body, the federal government, and the counties have adopted that advance drug treatment facilities, triage centers, and housing for those who are recovering from addiction."

Representative Mizuno rose to yield his time, and the Chair "so ordered."

Representative Ganaden continued, stating:

"Mr. Speaker, the law needs to catch up. Pretrial incarceration and monitoring for continued drug use is still an option for courts. This just honors what we now know about addiction in the 21st century.

"Mr. Speaker, I think that we should remember the Legislature of 1993 and '94 in which inaction led to a federal court case and federal oversight of the Department of Public Safety and contracts with private prisons to reduce overcrowding that we still have.

"Mr. Speaker, I think we should also remember our collective experience from just last summer in which years of inaction at the Legislature led to a Supreme Court case which caused near disarray in the way defendants are charged with serious crimes and a request by all county prosecutors to call a special session. To the extent possible, Mr. Speaker, these sorts of situations can and should be avoided with best practices."

Representative Alcos rose to speak in opposition to the measure, stating:

"Mr. Speaker, I'm in opposition on this. Safety should be the most important thing for our families, for our community, even for our state. And the reason why these bills are coming out is because it's overcrowded on jail. We don't want to hold prisoners or convict low crime. But this is danger to our society. It's increasing more crime on our street. So, we need to protect our families. And I'm opposed on this bill. Thank you."

Representative Holt rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. Mr. Speaker, this bill authorizes a grace period of 48 hours after an initial missed court appearance. And as I had mentioned in the Judiciary hearing, I believe that part of my job is to be a good example for our community, especially our *keiki*. And what kind of example are we sending to them if we're telling them that court is not important and you can show up 48 hours later.

"The public defender's testimony in support refers to making an honest mistake or a family emergency. However, the bill does not mention any of this, it just gives a blanket 48-hour exemption for anybody. Proponents say that this is best practices from rural states around the country. I believe those states may be red states in the middle of America. So, I don't know how relevant those lessons we learn from those rural states are valid here.

"Also, our rural courts are on the neighbor islands. And in the testimony, we've learned that they only operate once or twice a week. And when I had asked them how they would practically administer this measure, nobody had any answers.

"Also, just to note that the Judiciary who would have to administer these new changes is in strong opposition. In fact, from their testimony, 'The Judiciary strongly opposes this section of the bill as untenable and disruptive to daily court operations. This proposed legislation disregards the function of the court and disrupts the orderly judicial process, and detracts from the serious nature of court proceedings. The court is an institution based on rules and procedures. For every hearing, the court provides notice to the litigants and counsel based on established rules. Court calendars exist for a reason. Hearings are intentionally scheduled in advance to provide the judge and staff time to adequately prepare,' which, by the way, this measure makes police officers be judges on the spot without having time to adequately prepare.

"Such a scheduling system is vital to maintaining an organized and thoughtful judicial process. Permitting defendants to suddenly appear for their court hearings without notice to the court and parties disrupts this system. This bill forces courts to accommodate walk-ins and requires prosecutors and defense counsel to be on standby at every courthouse. There are insufficient resources for such accommodations."

"The testimony alludes to what I'm saying, Mr. Speaker. Should we let kids go to school whenever they feel like it or take the test whenever, 48 hours after it's initially scheduled?

"There's another section which creates a rebuttable presumption, and I'm not a lawyer, so I had to take the word of the Hawai'i County prosecutor's office and all the other prosecuting offices which were in opposition. And they say, 'creates a "rebuttable presumption" that a defendant is entitled to

release on recognizance or supervised release.' So, on the spot, the police officer already is leaning towards releasing the person. 'The burden is then placed upon the prosecution to establish by clear and convincing evidence that release would be inappropriate based upon certain criteria... Presumption of release mandates like these further decrease the public's trust and confidence in our criminal justice system.'

"Mr. Speaker, speaking of remembering what happened last summer, we did pass a measure similar to this, which did subsequently get vetoed by the governor, and I took lots of flack in my community for it. I was asked many times. In fact, when this bill was brought up in front of our neighborhood board a few weeks ago, it was faced with heavy opposition. Only opposition.

"And I'll just end with the prosecuting attorney of the City and County of Honolulu, because my community is looking for increased safety, Mr. Speaker, not to be letting more people out on the streets after they commit these offenses. And the City and County of Honolulu states that, 'we urge the committee to maintain the current safeguards that are used to assess a pretrial detainee, and allow our courts to continue to consider each defendant's circumstances and background on a case-by-case basis. Not only does this provide the best opportunity for the court to consider each person's potential for dangerousness, obstruction of justice, witness tampering and other illegal activity, it also provides the best opportunity for courts to determine if and how to safely release an individual back into the community.'"

Representative Gates rose to yield his time, and the Chair "so ordered."

Representative Holt continued, stating:

"So, Mr. Speaker, I understand we have a jail overpopulation problem, but our community is looking to me for more safeguards, not to relax the safeguards. And if we need more space in jails, then maybe we should build a new one. Thank you, Mr. Speaker."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. I'd like to have the words from the representative from Kalihi adopted as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Pierick continued, stating:

"I'd also like to point out to the body a few examples of misdemeanors. So, these are things that if occurred or if experienced by a citizen of Hawai'i, they wouldn't have to go to jail now. That is, disorderly conduct, simple assault, harassment, trespassing, theft. Have these things become irrelevant? Driving under the influence of alcohol or drugs, reckless driving, possession of marijuana, resisting arrest. So, if we resist arrest, now we can't get arrested? Violation of a restraining order. Indecent exposure. Have clothes become irrelevant? Vandalism or criminal property damage, prostitution or solicitation of prostitution.

"I think the person or the group that has the most *akamai* in this conversation is the police. Let's see what the police have to say on this issue. 'Our officers are on the front lines battling crime 24 hours a day, seven days a week, 365 days a year. We know who the habitual criminals and repeat offenders are who we arrest repeatedly, just to see them set free without any consequences. The rate of certain types of criminal activity, including violent crimes, have jumped over the last several years. The homicide rate is more than double the rate from 2021 and going back to 2017. Robberies and auto thefts have also leaped to their highest levels in over five years. Passing over the needs of victims of these crimes in our community, this bill arbitrarily emphasizes the need to address life disruption and bias experienced by those arrested and positions bail reform as the way to address it and solve prison overcrowding. But we ask at what cost? Our community cannot afford the consequences of this bill.'

"I think if the police say this is a bad idea, and this is a bill to address what the police are doing, we must listen to them. Thank you."

Representative Perruso rose in support of the measure and asked that the remarks of Representative Tarnas be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. In a summary statement, I would say this is part of the series of get out of jail free that has been sweeping the mainland. And I think some people in this body feel like that's the best way to do it in order to save money, not save safety, but to save money.

"Lastly, I would say, may I have the remarks of the representative from Downtown as my own, except take away the red states and say the blue states where most of these get out of jail free things are occurring. Thank you," and the Chair "so ordered." (By reference only.)

Representative Kobayashi rose to speak in support of the measure, stating:

"Mr. Speaker, in support. We should be reminded that approximately 40% of the people who are in jail have violated supervision or awaiting trial. These pretrial people number over 1,000 year after year after year. They are not convicted. They haven't even gone to court. But they are in jail at the cost of what is equivalent to an Ivy League tuition and room and board. So, I urge support for this item. Thank you."

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition. Thank you, Mr. Speaker. A lot was mentioned, and I agree with them, for those who are against the bill, so I'll save my comments. But the term was mentioned, best practices. This isn't best practices. This is bad practices. And it mentions that this is only focusing on misdemeanors, nonviolent offenses. Promoting pornography for minors, possession of a child-like sex doll, criminal trespassing, negligent homicide. I'm sorry, but this is a soft on crime bill. And the people of Hawai'i have spoken loud and clear this last election that they just don't feel safe. And so, we pass bills like this, and last year no bill, making our streets more and more unsafe. So, no vote, thank you."

Representative Matsumoto rose to speak in opposition to the measure, stating:

"In opposition and a brief comment. I have surveyed my district for the last 10 years. And every year we ask, what is the biggest issue facing our community, what is the biggest issue facing our state? For the first eight years, crime was not even in the top five. Last year, crime was number one, and this year crime was number two. This is a huge concern for our districts and for our communities. And I think it's something that we really need to look into further as we move forward if this bill is going to pass today. Thank you."

Representative Kila rose to speak in opposition to the measure, stating:

"In opposition, Mr. Speaker. I appreciate the comments given from our Judiciary chair and the representative from Kalihi, and I hope and envision that maybe one day we can move towards this system. But at this time, when the residents are asking for us to come a little bit harder on the issues we are facing, this is the reason for my opposition. *Mahalo*."

Representative Takayama rose to speak in support of the measure, stating:

"Mr. Speaker, in support. We've all heard in this chamber and in our communities the fact that our correctional facilities are overfilled beyond capacity. We also have all heard the concerns from our neighbors about crime in our communities.

"This measure addresses both issues by ensuring that those who are in jail and who are in prison are those who are awaiting trial for the most serious crimes. The repeat offenders, those who have used or threatened violence against our fellow citizens. Those are the ones who should be and would have space for in our in our jail while they await trial. And this bill does so by ensuring that those who are unable to afford bail, simply for the reasons of poverty, are not the ones who are sitting in jail awaiting trial. For those reasons, I asked my colleagues to support this measure."

Representative Aiu rose to speak in opposition to the measure, stating:

"In opposition, permission to enter the comments from the representative from Palama into the Journal as if they were my own, with the exception that I am an attorney and I do understand what a rebuttable presumption is. Thank you, Mr. Speaker," and the Chair "so ordered." (By reference only.)

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I would just like to adopt the words of the chair and the vice chair from Judiciary into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Todd rose to speak in support of the measure, stating:

"Thank you, in support. I share many of the concerns and I'm hopeful that as this progresses through the legislative session, that specifically some of the violence-adjacent crimes are addressed and maybe carved out. But as a model, I think it's generally a good idea to relieve some of that burden.

"And I think it's also worth noting that there's a lot of evidence that just even a brief stint of incarceration, much less prolonged, can actually make someone more likely to re-offend in the future. So, there may be the opportunity where this could actually potentially reduce crime in the long run, provided that we make some of those carve outs down the road prior to passage. I think I would be generally supportive.

"And I think it's also worth considering that, generally speaking, crime is declining nationwide and has been for the last 30-plus years, pretty much the entire length of my very, sometimes it feels young life, maybe not today. So, while we're categorizing crime trends, it's valuable to keep in mind that the recent uptick may have more to do with the COVID pandemic, because we've seen this uptick everywhere and we're starting to begin to see a subsequent decline. So, just worth considering while we're making these decisions that, generally speaking, crime has been declining, even though attention on crime has been increasing. And I think it's worth collecting data over the next few years to see if our crime rates continue to fall back to prior trends or if the trend we're seeing over the last two to three years is something indicative of a larger social and societal shift. Thank you."

Representative Souza rose to speak in opposition to the measure, stating:

"In opposition. Can you please enter the words of the representative from Moanalua into the record as my own with the same caveat. Thank you," and the Chair "so ordered." (By reference only.)

Representative Matayoshi rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I think we did not learn the lessons of last year when this bill came up. Specifically, the exclusive nature of these. There are certain misdemeanors that I think should probably be excluded because they are more violent adjacent to it. That came up very, very late in testimony after the bill passed this body and went to the governor, but I do think that they had a point.

"Instead of using exclusive language, though, I think we need to be using inclusive language and specifically identify what crimes should fall under this bill and thereby excluding all others, not creating certain exemptions that are up for debate or interpretation.

"The other portion of this bill that I have concerns about is the language being inserted to require that in order to deny bail, that now a significant danger must be shown and danger to a specific person or persons. That, I think, is too restrictive. And if someone is showing themselves to be a danger to someone, not just a specific person, then bail also should be considered to be denied. Thank you."

Representative Hashimoto rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Chun rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1336, HD 2, entitled: "A BILL FOR AN ACT RELATING TO CRIMINAL JUSTICE REFORM," passed Third Reading by a vote of 32 ayes to 19 noes, with Representatives Chun and Hashimoto voting aye with reservations, and with Representatives Aiu, Alcos, Garcia, Gates, Holt, Kahaloa, Kila, Kitagawa, Lamosao, Lowen, Matayoshi, Matsumoto, Nishimoto, Pierick, Quinlan, Sayama, Souza, Tam, and Ward voting no.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 485, HD 3 pass Third Reading, seconded by Representative Morikawa.

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition. I just want to reiterate that legal documents ought to report accurate information, and allowing someone to change their gender to a preferred one is not accurate information."

Representative Tam rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Marriage certificates are important legal documents necessary for a number of different affairs, both legal and financial. These certificates are needed for sharing health and other insurance benefits, applying for a loan or mortgage, filing taxes, arranging property succession or retirement benefits to a spouse, giving tax free gifts to a spouse, custody changes, international travel, amongst many others.

"There are other avenues in Hawai'i that allow for an individual to change their names and gender on their driver's licenses, birth certificates, and other legal documents. But as of now, there is no way to update a marriage

certificate to reflect someone's preferred name or gender identity. This could cause legal and clerical issues if these documents do not match up.

"The only way for an individual to change and correct their gender or sex identifier on a marriage certificate is by legally filing for divorce and remarrying for a new certificate. This is costly, emotionally distressing, and will unnecessarily raise Hawai'i's divorce rates.

"Marriage is sacred and an expression of an individual's love for and commitment to one another. It is disheartening that couples who have made it through the often difficult journey of a transition aren't allowed to have their truth reflected on their marriage certificates. People should have the opportunity to have this important document reflected of their true current selves. People should not have to be misgendered or deadnamed on a legal and highly personal and sentimental document. The advocates for this bill are asking for dignity and respect, and the Legislature should pass this bill granting that. Thank you."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. Gender is binary. I'm going to get graphic. Males have a penis and women have a vagina. If somebody undergoes sex change surgery, if they're buried and they're excavated, their bones stay the same surgery. God said in Genesis 1 that he made mankind in his image, male and female he created them. There's only two genders. And if we're trying to share with people that you can change your gender, we are deceiving them."

Representative Perruso rose to a point of order, stating:

"Point of order. The previous speaker is conflating sex and gender and I would like the record to reflect that."

Representative Pierick rose to respond, stating:

"In opposition. I can give the same speech again if everyone would like, but just use the word 'sex.' They're the same thing."

Representative Alcos rose to speak in opposition to the measure, stating:

"Mr. Speaker, I oppose this bill. Again, that my community that I represent in our area mostly believe that there should be only two genders, male or female. And I don't feel that in a marriage, on your birth certificate, it says when you get born, they recognize your gender right away, right from birth. Right the day, the minute of. They see what you have and that's your identity. You can't change your identity when you get married. So therefore, I oppose this bill. Thank you."

Representative Ichiyama rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. I wanted to let the members know that I introduced this bill on behalf of my constituents. This is not a hypothetical situation. This affects real people and real lives. My constituents are able to change their name, amend their birth certificate, get a new driver's license, but not update their marriage certificate. To me, this is one of the last few statutes relating to government documents that should be updated to reflect our changing society.

"I wanted to thank the Equality Caucus for adopting this measure as a part of its caucus package. I also wanted to share my appreciation with the Health, Judiciary, and Finance Committees for hearing this measure and moving it forward on behalf of my constituents. This bill tells not only my constituents, but the rest of the community, that we see them for who they are, we accept them, and that their relationship is valid under the laws of the State of Hawai'i. Thank you."

Representative Perruso rose to speak in support of the measure, stating:

"In strong support. I wanted to first thank the introducer of this bill, not just for the pragmatic implications and the positive impact it will have on her constituents, but also because it allows us to have this very important conversation around sex, gender, and identity. And I do think it's important to clarify that sex is biological, gender is socially constructed. And that's a very important distinction. And I hope that moving forward in our legal work, we can be very clear about that distinction."

Representative Garcia rose to respond, stating:

"Second time in opposition. Thank you. For thousands of years, sex and gender has been the exact same thing. There's male and female, period. The previous speaker mentioned changing things to fit their truth. If we're going to allow people to change legal information on legal documents to fit their version of truth, should we allow name, name changes are allowed. Shall we allow age changes, address changes, race changes, hair color changes, eye color changes? No, because you can't change what's truth. This is a legal document, it should report accurate information."

Representative Marten rose to speak in support of the measure, stating:

"Thank you. In strong support. I want to thank the introducer of this bill. And I also wanted to have the words of the representative from Waikiki adopted as my own," and the Chair "so ordered." (By reference only.)

Representative Hussey Burdick rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I wanted to let the record show that sex and gender are both nonbinary, with around 1.7% of the population born with intersex traits and many are found by doctors later in life to have traits that they didn't originally know. And I would like the words from my floor comments on the 14th on this bill to be inserted into the Journal again," and the Chair "so ordered." (By reference only.)

Representative Sayama rose to speak in support of the measure, stating:

"In support with brief comments. I'd like to note that there have been many changes over the past thousand years, both socially and legally. Not to name a few, but to first of all, women weren't able to engage in our civic procedures. Persons of color were treated as property. These were truths back then. Things have changed for the better and we are still working on them. And this bill, thanks to the introduce of the bill, pushed that forward and makes it clear in the State of Hawai'i that you are accepted. And I just want to again urge the body to vote in support. Thank you."

Representative Souza rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Thank you to the introducer for this bill. And also, allowing a change on a marriage certificate of bride, groom, partner, or spouse is fine by me. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 485, HD 3, entitled: "A BILL FOR AN ACT RELATING TO MARRIAGE," passed Third Reading by a vote of 47 ayes to 4 noes, with Representatives Alcos, Garcia, Matsumoto, and Pierick voting no.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 540, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Ward rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. This bill is free lunches. My concern is that this is indicative of the need to diversify the economy. We have free breakfasts, free lunches, because we don't have enough money in families that they can afford to do this, Mr. Speaker. These are the ALICE families that I'm referring to. Those that are over 50% of the population who are asset limited, income challenged, and they're working, they're employed.

"It's like, as I mentioned before on the floor, it's like having eight kids. Three of them you can feed, two are on rations, and then the others are on SNAP and other government programs. If we can't afford families with an income to feed their families, Mr. Speaker, we're derelict in our duties. This is why we have to diversify the economy, we have to create good jobs and high paying jobs. And this is just a reminder of it. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 540, HD 1, entitled: "A BILL FOR AN ACT RELATING TO EDUCATION," passed Third Reading by a vote of 49 ayes to 2 noes, with Representatives Garcia and Pierick voting no.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 503, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Lamosao rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

No. 503, HD 2, entitled: "A BILL FOR AN ACT RELATING TO COMPUTER SCIENCE EDUCATION," passed Third Reading by a vote of 48 ayes to 3 noes, with Representative Lamosao voting aye with reservations, and with Representatives Aiu, Kila, and Pierick voting no.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 971, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill is designed to provide bailout for a company that goes under. I don't believe the government should be feeding tax dollars to failed economies or failed businesses. If I start a business and I fail, I wouldn't expect my neighbors to pay taxes to rescue my business."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 971, HD 2, entitled: "A BILL FOR AN ACT RELATING TO AGRICULTURAL LOANS," passed Third Reading by a vote of 50 ayes to 1 no, with Representative Pierick voting no.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 567, HD 2 pass Third Reading, seconded by Representative Morikawa.

At this time, Representative Ward offered Floor Amendment No. 3, amending H.B. No. 567, HD 2 as follows:

SECTION 1. House Bill No. 567, HD2, is amended as by amending section 9, line 2 to read as follows:

"SECTION 9. There is appropriated out of the general revenues of the State of Hawaii the sum of \$600,000,000 or so much thereof as may be necessary for fiscal year 2023-2024 for the purposes of Act 279, Session Laws of Hawaii 2022; provided that any moneys not encumbered for specific purposes shall lapse to the general fund on June 30, 2025."

Representative Ward moved that Floor Amendment No. 3 be adopted, seconded by Representative Pierick.

Representative Ward rose to speak in support of the proposed floor amendment, stating:

"Thank you, Mr. Speaker. Support of the floor amendment. The purpose of the floor amendment is to safeguard the \$600 million which we have passed and promised to the Hawaiians. Like many of us in this chamber last session, we sang the praises of the positive nature of this. We virtue signaled how good this was going to be for the Hawaiian community. I was one of those.

"But, Mr. Speaker, when I saw this bill, I saw a blank where in effect the \$600 million, we backed out because we only gave them a short period of time to implement it, and then to put it back in, it was blank. So, Mr. Speaker, this amendment simply puts in a dollar amount of \$600 million of which we promise legally past that we would give the Hawaiians.

"Now, I know then some would say, well, they've already spent \$19.6 million. Well, let's give them another \$19.6 million. After 100 years of only having 9,800 homes, 28,000 on the waiting list, it's about time we top off, if you will, Mr. Speaker. So, the point is, this is to do what we did last year, \$600 million in not leaving it blank. So, between the House and the Senate, we can do some horse trading."

Representative Hashimoto rose to speak in opposition to the proposed floor amendment, stating:

"Thank you, Mr. Speaker. In opposition. I think when you take a look at this bill, it's a simple bill to allow some of the things that the Department of Hawaiian Home Lands wants to do. And I think when we took a look at this bill, we needed to really try and figure out how to ensure the \$600 million would be available. And I think when you take a look at the provision that this floor amendment tries to fix, it's actually really defecting the bill. Because the way that we are trying to move this bill along is we're not sure how much money is actually needed to reappropriate.

"So, essentially what our original bill does is force lapses and reappropriates the funds. So really what you have to do is you have to minus out how much money they've already spent, which at this date, it's about \$23 million. By the time we get to the end of session, it's probably going to be more, maybe upwards of \$50 million, and you're going to have to minus that out and put it back into the bill to reappropriate the funds to ensure that they have the funding available to use for the allotted period of time that DHHL wishes to have it.

"So, I think this amendment doesn't follow the intent of what the Department of Hawaiian Home Lands actually wants. So, I ask the body to vote it down. Thank you."

Representative Ward rose to respond, stating:

"Mr. Speaker, I would just add a note that if in effect we've spent \$20 million or whatever, I would give the honorable gentleman from Maui the amendment to change it, put \$580 million if that's the case.

"But the point is, don't leave it blank to do horse trading between the House and the Senate. We cannot risk that. This is where the genuine sense of commitment to the Hawaiian people of \$600 million is what this bill is all about. It's not about personal things. It's about what the community has waited for 100 years to build the houses with 28,000 on the waiting list. Mr. Speaker, that cannot be overemphasized.

"We shouldn't be nickeling and diming this thing. We should say, here's the money. We're not going to change it. We're going to fill in the blank and we're going to do it now, and you don't have to worry about when the House and the Senate go horse trading. That's simply all we want to do, is to say this is a commitment, we're keeping our word. Thank you."

The motion that Floor Amendment No. 3, amending H.B. No. 567, HD 2, entitled: "A BILL FOR AN ACT RELATING TO THE DEPARTMENT OF HAWAIIAN HOME LANDS," be adopted, was put to vote by the Chair and upon a voice vote, failed to carry, with Representative Lowen being excused.

(Main Motion)

Representative Holt rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. And first, I'd like to give great thanks to the Housing chair for doing a lot of work on this measure to help the department responsibly spend the \$600 million we appropriated last year. I do appreciate the representative from Hawai'i Kai is concerned for making sure we spend this responsibly.

"And, Mr. Speaker, because of your foresight in introducing HR 10 and creating that working group, which the representative from Hawai'i Kai is a part of, we also did have a meeting yesterday and the Housing chair did lay out to us all of the information which he just explained again about spending the money. And side note, they're doing a good job at spending the money. So, we will keep on top of that and make sure it's spent well. Thank you, Mr. Speaker."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition. Mr. Speaker, if you're a beachfront owner, this is a super bill for you. This bill, because of sea level rise, will allow you to move your house to an inland safe place which has a relocation fund in the bill. It has a way of getting land trade exchanges. So, if you're a millionaire on the beach, you're in great shape.

"If you're Hawaiian on the beach, Mr. Speaker, and you have no home, you have no relocation, this is a smack in the face. I hope you don't cut that out. This is an unfair bill, Mr. Speaker. It gives priorities to those who can afford to move on their own, but yet those who cannot afford are not given any sense of relocation. We have Hawaiians living on the beach. How many Hawaiian homes have we got for those? Well, there's 28,000, probably a good share of those on the beach.

"The point is, Mr. Speaker, this is a bill that really differentiates in an unfair way. If you've got the wherewithal to be on the beach, we're going to help you because of sea level rise, but if you're on the beach out of homelessness, we have no way to help you. For those reasons, Mr. Speaker, I'm not sure where this bill came from or where it's going, but it's using the sea level rise issue as another excuse for, I don't want to be called out of

order, for denigrating a particular group of people who live on the beach, but they don't have anything over their heads. How's that for a euphemism? Thank you."

"The Chair's ruling is that there is no conflict because this measure affects a class of individuals and homeowners. The ruling remains in effect through *sine die* unless circumstances change."

Representative Matsumoto continued to speak in support of the measure with reservations, stating:

"So, with reservations, please. And I think one of my reservations with this bill is the part with eminent domain. I think there's a lot that we need to look. This is, of course, an issue. We're seeing it all across North Shore, my former district. But I do think we need to look at all of the specifics in the bill and the three different ways that we're trying to address this."

Representative Pierick rose to speak in opposition to the measure, stating:

"No, please. This bill would be using tax dollars to study the weather, to study climate change. I believe the private sector can best use their resources to study the weather and then we can just ask them for a copy and save tax dollars."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 993, HD 1, entitled: "A BILL FOR AN ACT RELATING TO SEA LEVEL RISE ADAPTATION," passed Third Reading by a vote of 49 ayes to 2 noes, with Representatives Garcia and Pierick voting no.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, this is the stormwater drain bill. In opposition. This is if you have a roof and a driveway and a sidewalk at your house, it's going to charge you a particular percentage of the square footage. Mr. Speaker, this is another tax that is come at the county level. I think it's going to be one that people will regret once they see what's going on. But this one actually exempts the, which was said in committee that they were not going to be exempt, the State Department of Transportation, which has all these roads which are impervious. For those reasons, Mr. Speaker, I think government has to pay its fair share and with this one it doesn't. Thank you."

The House of Representatives reconvened at 12:55 p.m.

Representative Matayoshi rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Strong support. I'm not going to go too much into this, you all know my strong support of this bill. I also want to point out that it does have broad public support. I'm sure many people's constituents have contacted them advocating for this bill.

"The one point I do want to make and reemphasize, Mr. Speaker, is that this is not a smoking cessation device. Flavored vaping products, while they may have some impact in allowing smokers to quit, 80% of youth have or try flavored vaping product as their first tobacco product. That's 80% of our youth getting addicted, that are being addicted to nicotine based on these. So even if it does have some positive impact in smoking cessation, the overall impact on our society is that we're addicting another generation to nicotine, and we just cannot afford that. Thank you."

Representative La Chica rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. I would like to thank the introducer of the measure, representative from Kāne'ohe. I'd like also to thank the chairs from Labor, and Consumer Protection, as well as Finance for moving this out of committee. This is a good bill.

"When I had first worked on this issue before being in here, I was pregnant with my first child. That child is now six years old. And he now goes to the same school where a lot of vaping behaviors are being observed at such a young age. As the representative and the introducer had mentioned, our kids deserve a life free of addiction. Many of us grew up or have been exposed to households where there have been cigarettes or other tobacco products. But we didn't grow up in households that had candy flavors and fruit flavors and all things that could be addicting and deemed as addicting to our kids.

So, I'd like to ask the rest of the body to join me in supporting this measure. *Mahalo.*"

Representative Lamosao rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations. I'm afraid of the harmful unintended consequences that this ban may cause to my community. This ban may compel people to purchase these goods online and especially in the black market or military bases. Thank you."

Representative Gates rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, reservations, brief comment. I support the intent of this measure, but as the representative from Waipahu stated, the unintended consequences may increase the issue that we're trying to resolve with this. I'll leave off by saying that I strongly believe that prohibition on these types of items does not work. Look at our firework issues, look at the many things that are happening on the black market because there is no regulatory platform for these things to exist. So, thank you."

Representative Marten rose to speak in support of the measure, stating:

"In support. As a mother, I feel like we can't protect our children from everything but where we can protect them, we should. And so, trying to protect our kids from predatory marketing, targeting them to get them addicted and hooked to support a particular industry lifelong is something that we should try to protect them from. Thank you."

Representative Perruso rose to speak in support of the measure, stating:

"In strong support. I just want to add that there are a number of youth advocates who have become adults throughout the course of their advocacy on this bill, and I would really like to see them see some success on this measure."

Representative Nakashima rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. HB 521, HD 1 is targeted specifically for small farms with a maximum of 10 milk producing cows, it is not a massive dairy operation with hundreds or thousands of cows. This bill helps to promote sustainable farming practices and provides consumers with a direct source of fresh, locally produced milk. This is especially important for Hawai'i's rural areas, where small scale farming can serve as an important part of the local economy.

"While there is a small risk of illness associated with consuming raw milk, there is also other foods that also have the same risks. However, these can be minimized through proper production and handling practices. This bill specifically requires the establishment of standards to prevent such contamination.

"It is hypocritical from a health standpoint to legalize sale of an item that are otherwise legal to consume. Farmers who produce raw milk can drink it or give it away free for human consumption and it is not illegal, it is just the sale of raw milk that is currently illegal. Milk is not a drug. The general public will not be forced to consume raw milk. Even if this measure passes, most consumers may not even become aware that this option exists.

"Opponents have misconstrued the health dangers associated with just raw milk. The government allows consumers to access foods and other commodities that are also proven to cause illnesses ranging from leafy greens, raw fish, shellfish, raw eggs, raw meat, and even alcohol and cigarettes. The CDC website cautions against all of these items, not just raw milk.

"This measure is about protecting the family farm, giving consumers a choice, and not really about public health. It's time that Hawai'i joins the 41 other states that allows for the sale of raw milk in one form or another. *Mahalo.*"

Representative Morikawa rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. When I was a little child, or actually I was a toddler or a baby perhaps, all I had access to was raw milk. So, when milk became homogenized, I told my mom, Mommy, this milk is green. In other words, I thought the raw milk was ripe, homogenized milk was green. Thank you, Mr. Speaker."

Representative Onishi rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. Mr. Speaker, two bills ago, people talked about how important it was to protect our children. The consumption of raw milk, although it can hurt the health of all people, it especially can affect the health of young children.

"The Department of Health continues to oppose this measure because of the impact it might have to public health. We have seen situations where farms that do not practice clean sanitation, do not have regular safeguards, can create situations where large portions of the population can be infected and become ill because of the products that they are producing.

"So, if the Department of Health thought that there was very, very, very minor danger in the public consuming raw milk, then they wouldn't oppose it. But in this case, we do bill after bill to try to protect children's health and this bill is taking us in the wrong direction. Thank you, Mr. Speaker."

Representative Morikawa rose to respond, stating:

"Thank you, Mr. Speaker. Second time in support. I would like to have the words of the representative from District 1 inserted as if they were my own," and the Chair "so ordered." (By reference only.)

The Chair addressed Representative Souza, stating:

"The Chair's ruling is that this measure applies to a class of individuals and all correctional officers, so there is no conflict. And this ruling will remain in effect through *sine die* unless circumstances change."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Lowen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Hawai'i does not have a sustainable solid waste management system and is desperately in need of a systemic shift in how we think about and manage waste. Most waste created in the state is landfilled or incinerated, which represents a linear waste stream, is very costly to taxpayers, and creates pollution that is harmful to the health of the environment and the residents of the state.

"Landfills discharge leachate, a contaminated toxic fluid which has potential for leakage that can harm groundwater, surrounding communities, near shore and marine resources downslope. On O'ahu, the landfill produces around 9,800 gallons of leachate per day and sits over Hawai'i's aquifer.

"Waste that is incinerated can be used to produce energy. But this process still produces air pollutants, greenhouse gases, and toxic ash. An average of 411 tons of toxic ash from H-Power are buried in the landfill every day.

"A linear waste management system is characterized by a take, make, and dispose model where virgin resources are extracted and goods are produced and then discarded with the end result of a growing mountain of waste and depletion of resources. In a linear economy, taxpayers and local governments bear the costs for waste management.

"In contrast, a circular economy is designed to keep resources in use for as long as possible, reducing waste, conserving finite resources, and promoting sustainability. A circular economy prioritizes waste reduction and creates a closed loop system where producers are responsible for at least some of the cost of disposal of their products, creating market-based incentives for waste reduction and product redesign that reduces waste at the source and facilitates reuse, composting, and recycling.

"A zero-waste initiative in Hawai'i would elevate these circular economy principles and put them at the center of the state's waste management strategies, redirecting state and county agencies to prioritize source reduction, reuse, refill, composting, and to improve the availability of recycling services for waste that cannot be avoided, reused, or composted.

"The adoption of a zero-waste initiative would lead the shift away from the linear waste system and toward a circular economy that is more sustainable, will create green jobs, and will reduce costs for waste management that are borne by taxpayers. It would also address the environmental and public health concerns posed by our overflowing landfills.

"The second part of this bill is about creating an extended producer responsibility program for packaging waste. Extended producer responsibility or EPR programs can exist for almost any product type. There are existing programs in other jurisdictions that cover a range of products, including things like carpets, large appliances, e-waste, packaging waste, prescription drugs, batteries, paint, pesticides, tires, photovoltaic panels, used motor oil, and mattresses.

"Under these programs, producers are responsible for ensuring that services are available to reclaim them and recycle products when they reach the end of their useful life. And producers are accountable for ensuring that their products don't wind up in landfills. Countless tons of waste and virgin resources are voided when these programs are implemented.

"Additionally, EPR programs for packaging waste already exist in Europe, Canada, China, India, Japan, South Korea, and many countries in Africa and South America, and in recent years have been adopted in California, Colorado, Maine, and Oregon, and proposed in many other state legislatures.

"For those with concerns about whether implementation of this program would add to the cost of goods, a 2022 published study from Columbia University looked at this issue and concluded that the estimated increase in costs would be zero to less than 1%, and that 'it would be difficult to discern

such a small impact on prices.' At the same time, implementation of this program would bring funds into the state to improve recycling services and offset the cost to taxpayers, making it a net positive.

"There's growing recognition globally, nationally, and here in Hawai'i that our throwaway culture is not sustainable and that we need a new and more sustainable approach to waste management, which is what is proposed in this bill."

"In opposition. So, this bill is about acquiring St. Francis School at a discount to expand the University of Hawai'i. The University of Hawai'i has asked for about a \$17 million budget this year. That is a big dent in our state budget. And if we are to acquire more property for the campus, it's to consume more tax dollars. Why not give tax dollars to Chaminade, Pacific Rim University, Wayland Baptist University, the list goes on and on, HPU. Should the government be paying for education or should it be privatized? Thank you."

Representative Aiu rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

"Mr. Speaker, in strong support. Many of us have heard about the issues regarding mental health that COVID has brought to our communities and especially to young people and the unfortunate rise in suicide rates in our communities. I think that this is difficult, important work that this task force is producing and will produce in the coming years.

"I'd also like to say that I rise in support of someone I knew very well, his name is Mikey Sakuma. He passed away in May of last year at the age of 10 years old. And he's loved and missed dearly. And I think that any efforts to stop incidents like that happening in the future should be supported by this body."

Representative Tarnas rose to speak in support of the measure, stating:

"Mr. Speaker, thank you. In support. This bill is in response to a U.S. Supreme Court case known as the *Bruen* case. And the decision by the U.S. Supreme Court means that, regarding concealed carry weapons licenses, Hawai'i must comply by moving from what one might call a 'may' issue

state to a 'shall' issue state for concealed carry licenses. In other words, we have to come up with a system for the application and provision of licenses for people to carry weapons in a concealed manner. But restrictions on who gets these licenses and where the licensees can use the guns are permitted under the *Bruen* decision. From the case it says the 'reasoning under the Second Amendment is neither a regulatory straitjacket nor a regulatory blank check.'

"In addition to the majority decision, there was a concurrence written by Justice Kavanaugh and signed also by Chief Justice Roberts. I'm going to read two short snippets from it. 'Nothing in our opinion should be taken to cast doubt on longstanding prohibitions on the possession of firearms by felons and the mentally ill, or laws forbidding the carrying of firearms in sensitive places such as schools and government buildings, or laws imposing conditions and qualifications on the commercial sale of arms. We identify these presumptively lawful regulatory measures only as examples; our list does not purport to be exhaustive.'

"In his concurrence, Justice Kavanaugh went on to say he preemptively gave a green light to a variety of restrictions on concealed carry permits, including, 'fingerprinting, a background check, a mental health records check, and training in firearms handling and in laws regarding the use of force.' All of these requirements, he declared, are constitutionally permissible.

"In this bill, we've worked to craft a fair bill to meet the needs of the Supreme Court case and treat fairly those who wish to carry weapons in a concealed manner and also protect public interest. There are three categories of policy in this bill, one regards permits, the second regards usage, and the third regards accountability. I'll briefly summarize those three categories.

"Regarding permitting, this bill sets up a license for concealed carry that applies statewide. There are two types of licenses, open and concealed. *Bruen* does not change the criteria for open carry, but only for concealed carry. The state applies criteria including training, definitions of suitable person. This concealed carry license would last for four years instead of what was originally two years in the original draft. And it costs \$150 per application. The counties can designate a non-government agency to conduct trainings to support their needs. A person who is denied a license is entitled to a contested case hearing conducted by the police chief or a designee. And this addresses the due process concerns that some opponents have. An applicant for a license to carry must identify any health care providers who possess or may possess any records that have a bearing on the mental health of the applicant. The license holder must include the name, address, and phone number for the transferer and the transferee of a firearm. Licensing authorities must consider whether a person would present a danger to the community when making determinations on whether a person lacks the essential character or temperament to be entrusted with a firearm.

"Regarding usage, as to the sensitive places where concealed carry weapons are not allowed. In the Kavanaugh opinion, he said, 'nothing in our opinion should be taken to cast doubt on longstanding prohibitions on the possession of firearms by felons and the mentally ill, or laws forbidding the carrying of firearms in sensitive places such as schools and government buildings.'

"Hawai'i didn't have a set of rules about this before, because so few people got the permit in the past. So, the attorney general, in crafting this bill, looked to other states for guidance like New York and New Jersey. Concealed carry is prohibited on private property unless the owner explicitly allows for it."

Representative Onishi rose to yield his time, and the Chair "so ordered."

Representative Tarnas continued, stating:

"Thank you. The bill exempts law enforcement officers from being prosecuted under these restrictions. And the bill exempts from liability physicians, psychologists, physician assistants, advanced practice registered nurses, and psychiatrists who provide information on the applicant for firearms permits.

"And finally, Mr. Speaker, the provisions regarding accountability. Terroristic threatening in the first degree, a Class C felony violation, increases to Class B felony if a user carries a gun in sensitive places. Any crime committed under the Chapter 707, Hawai'i Revised Statutes, which

regard assaults, could rise to the level of prohibiting a person from owning a gun. And this should act as a deterrent.

"The insurance requirement in the original bill was removed because there was questions about whether or not there was even an insurance policy that would meet the needs. So, we have a House resolution that we're submitting for consideration to study how best to implement that provision.

"A licensee must securely lock the firearm in a storage box when transporting it. Alcohol and drug use is prohibited while carrying the gun. And finally, an annual report from the attorney general is required, that details the number of licenses that are issued and those that are denied. I think that we have come up with a bill that is fair, reasonable, and I ask for everyone's support to pass it. Thank you, Mr. Speaker."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. Legislators take an oath of office, which starts, 'I do solemnly swear (or affirm) that I will support and defend the Constitution of the United States against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same.'

"The first paragraph of the Bill of Rights, which is a portion of the Constitution of which we all took an oath to uphold, says, 'the Conventions of a number of the States, having at the time of their adopting the Constitution, expressed a desire, in order to prevent misconstruction or abuse of its powers, that further declaratory and restrictive clauses should be added: And as extending the ground of public confidence in the Government, will best ensure the beneficent ends of its institution.' This is the first paragraph of the Bill of Rights.

"Now jumping to the Second Amendment. 'A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed.'

"We took an oath to not infringe the right to bear arms. So, I'm in opposition to this bill, which would infringe the right to bear arms. Thank you."

Representative Souza rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. Thank you to the Judiciary chair for his hard work on this bill, but my perspectives diverge. I will reiterate that Justice Kavanaugh's concurring opinion in the *Bruen* decision states that the Second Amendment is neither a regulatory straitjacket nor a regulatory blank check. And properly interpreted, the Second Amendment allows a variety of gun regulations.

"However, this measure goes too far in regulating the right to bear arms in our state. Especially in light of the fact, as Justice Kavanaugh also states, that individual self-defense is an essential component of the Second Amendment right to possess and carry handguns for self-defense.

"Justice Alito states in his concurring opinion that the *Bruen* decision holds that, 'a State may not enforce a law, like New York's Sullivan Law, that effectively prevents its law-abiding residents from carrying a gun for this purpose.' In this instance, Justice Alito is referring to the right of individuals to use a firearm to defend themselves. He goes on to say, in regard to the *Bruen* decision, that, 'our holding decides nothing about who may lawfully possess a firearm or the requirements that must be met to buy a gun.'

"Facets of this bill are burdensome to Second Amendment rights for our Hawai'i residents, and therefore I am voting no. Thank you."

Representative Alcos rose to speak in opposition to the measure, stating:

"Mr. Speaker, I oppose this bill. I feel that government is reaching too far for our Second Amendment. And if someone goes crazy in public, grabs a gun, how are we to protect ourself? We cannot protect ourself with our fist. We cannot protect ourself with our hands, with a rock or a stone. The bill will restrict a lot of places to carry our firearms. And if something happens in a public area, if someone had a firearm before the police get there, they can save a person's life or help someone's family. In taking away the right where we can't have that choice anymore. And I feel that safety, again, is a big and important thing in our lives. We want to feel safe that we be able to protect our families. And therefore, I'm against this bill. Thank you."

Representative Lowen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Today is March 7th and our nation has already surpassed 100 mass shootings this year and there's still ten months to go till the end of 2023. And those aren't just statistics, those are lives of civilians and children and others gunned down, and their families and communities left behind to deal with the consequences.

"There are 120 guns for every 100 Americans in our country. No other nation comes close to the amount of civilian-owned guns that we have here. And the data is very clear, more guns equals more shooting, more accidents, more suicides, and more deaths. The U.S. has more deaths from gun violence per capita than any other developed nation, eight times more than Canada, twenty-two times more than the European Union, twenty-three times more than Australia.

"So, I support this bill and any bill that leads to fewer guns and more restrictions on gun ownership and where people can bring guns, because all of the evidence shows, this makes our society safer and that more guns makes us less safe.

"And I would just point out, the U.S. Constitution has been amended 27 times. It's not a holy text, it's a living document that should reflect the will of the people. And polling shows again and again, the will of the people in the U.S. is better gun control. So, I thank the Judiciary chair for working on this bill."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ganaden rose in support of the measure and asked that the remarks of Representative Lowen be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Marten rose to speak in support of the measure, stating:

"Same request and a brief comment in support. I feel much less safe, and I resent the fact that the Supreme Court is able to change the way that we keep people in our state safe. And I appreciate the work of the Judiciary chair in the House and in the Senate to try to do the best they can with our circumstances. Thank you."

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support and I'd like to adopt the words from the representative from Kailua-Kona into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Lamosao rose in support of the measure with reservations and asked that the remarks of Representative Souza be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Perruso rose to speak in support of the measure, stating:

"I'm in strong support. I'd like to adopt the words of the representative from Kailua-Kona as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Kila rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition. Guns are not the problem. Mental illness and lack of heart is the problem. And that's where we should be focusing and not taking people's rights away. We're passing bills to increase crime on the streets and at the same time restricting people from protecting themselves. This is ridiculous. No vote."

Representative Ward rose to speak in opposition to the measure, stating:

"In opposition, brief comment, Mr. Speaker. I mean, it's good we have to keep guns out of the hands of the crazies. The difficulty is that the crazies, they don't pay attention to the law at all. They are the active shooters of which, if there's anything good in this bill that we need to look at, is that there are no locations other than your home, probably, where you can keep the concealed carry.

"Active shooters are in shopping centers, they're in schools. If you have someone who's not a crook with a weapon, it sends a message to these guys who are going to shoot somebody up that, as soon as they get their gun out, they're going to get shot themselves. Mr. Speaker, that's the good side of this. The other thing is, whenever you get any of these shooters, they're all illegal, they're criminals. They're not paying attention to the law. So, to protect our people, look at this in the opposite sense, saying this is a public security bill if we have the active shooters shot immediately. Thank you."

Representative Pierick rose to respond, stating:

"In opposition. It was mentioned that the U.S. Constitution was amended 27 times and thus it's a living document. Let's understand what the founding fathers said about this original document, of which we all took an oath to follow. Thomas Jefferson said this, 'on every question of construction, carry ourselves back to the time when the Constitution was adopted, recollect the spirit manifested in the debates, and instead of trying what meaning may be squeezed out of the text, or invented against it, conform to the probable one in which it was past.'

"I'd like to quote another founding father, James Madison, concerning authorial intent to the Constitution. He said, 'I entirely concur in the propriety of resorting to the sense in which the Constitution was accepted and ratified by the nation. In that sense alone it is the legitimate Constitution.'

"Proceeding on now to the chief justice, the first in America, James Wilson. He said this, 'the first and governing maxim in the interpretation of a statute is to discover the meaning of those who made it.' Those who made the Constitution were a group of men who had just come through a brutal war fighting against British tyranny. They wanted to keep themselves from the probable forming of a bad government by bearing arms. It's the right of the people to bear arms to prevent us, the government, from ever becoming evil and coming against the people. Thank you."

Representative Nakamura rose to speak in support of the measure, stating:

"In strong support. May I have the words of our Judiciary and EEP chairs adopted as my own," and the Chair "so ordered." (By reference only.)

Representative Tam rose to speak in support of the measure, stating:

"Same request," and the Chair "so ordered." (By reference only.)

H.B. No. 370, HD 1:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, H.B. No. 370, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE PUBLIC UTILITIES COMMISSION," passed Third Reading by a vote of 42 ayes to 9 noes, with Representatives Amato, Hussey-Burdick, Kapela, Lowen, Marten, Perruso, Poepoe, Sayama, and Tam voting no.

H.B. No. 797, HD 1:

Representative Nakamura moved that H.B. No. 797, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Lamosao rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Onishi rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. This bill affects the consumer protection of individuals in the State of Hawai'i. The bill would eliminate the requirement that CPAs from outside of the State of Hawai'i, that are not licensed in Hawai'i, would not have to report to the DCCA of their presence in Hawai'i doing work in Hawai'i.

"This bill also affects licensed CPAs in Hawai'i who pay license fees in order to do business in Hawai'i. This bill would allow unlicensed CPAs from throughout the United States to practice in Hawai'i without notice, without the ability for us to track taxes that would be due the State of Hawai'i for doing work in the State of Hawai'i. This bill really takes away protections for the public and for our public accounting industry in the State of Hawai'i. So, I'm voting no on this bill. Thank you, Mr. Speaker."

Representative Souza rose in support of the measure with reservations and asked that the remarks of Representative Onishi be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Chun rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Aiu rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Poepoe rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Pierick rose in opposition to the measure and asked that the remarks of Representative Onishi be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Hashem rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and H.B. No. 797, HD 1, entitled: "A BILL FOR AN ACT RELATING TO OCCUPATIONAL LICENSURE," passed Third Reading by a vote of 41 ayes to 10 noes, with Representatives Aiu, Chun, Hashem, Lamosao, Poepoe, and Souza voting aye with reservations, and with Representatives Garrett, Hashimoto, Kapela, Kila, Kong, La Chica, Marten, Onishi, Sayama, and Tam voting no.

H.B. No. 1018, HD 1:

Representative Nakamura moved that H.B. No. 1018, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. My understanding is that this bill permits or promotes the construction of the new stadium. I believe the new stadium would be another rail project, another siphoning of our state budget, another excuse for people to be lazy and elongate projects and hurt the state."

The motion was put to vote by the Chair and carried, and H.B. No. 1018, HD 1, entitled: "A BILL FOR AN ACT RELATING TO STATE FUNDS," passed Third Reading by a vote of 50 ayes to 1 no, with Representative Pierick voting no.

ORDER OF THE DAY

REPORTS OF STANDING COMMITTEES

Representative Nakashima, for the Committee on Consumer Protection & Commerce, presented a report (Stand. Com. Rep. No. 1219) recommending that H.C.R. No. 28 be adopted.

Representative Nakamura moved that the report of the Committee be adopted, and that H.C.R. No. 28 be adopted, seconded by Representative Morikawa.

Representative Nakashima rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. My life was changed 1,000% because I received a kidney from a living organ donor. Organ, eye, and tissue donations is one of the most generous gifts that can be given because it has the impact of improving the quality of life for some individual. In the U.S. alone, there are more than 100,000 people waiting for a potentially lifesaving organ donation. If you have ever wondered about how you might make a difference in this world, please consider registering with Donate Life Hawai'i. Because someone who did something similar changed my world. Thank you very much, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 28, entitled: "HOUSE CONCURRENT RESOLUTION DESIGNATING THE MONTH OF MARCH AS HAWAII KIDNEY AWARENESS MONTH," was adopted, with Representative Perruso being excused.

ANNOUNCEMENTS

Representative Garcia: "Thank you, Mr. Speaker. Today is a milestone for one of the longest serving members in the House Republican Caucus. The honorable gentleman from Hawaii Kai, today's his birthday. And not just any birthday, it's the 80th birthday. So, let's all give him a round of applause for hitting this milestone."

Representative Ward: "Mr. Speaker, may I respond to that? Because heretofore, for those of you who are new, it was always don't ask, don't tell. Except now this milestone. Remember, it's also Senator Angus McKelvey's birthday. But we would always conspire how to keep this off the floor. But now that you're 80, you say, thank God I've lived this long, thank you for acknowledging it. And I didn't know I was the oldest one, I guess maybe I am the oldest one on the floor, so I guess I get *kupuna* status or something. But the point is, thank you, it's a blessing to be 80 years old. I never knew I would even arrive to this day, but I'm thankful. So, thank you very, very much, all of you who've, as your youth grows, come to this day and you get blessed. Thank you."

At 12:37 p.m., Representative Nakamura requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:37 p.m.

Representative Hashimoto: "Thank you, Mr. Speaker. I also do want to wish a happy belated birthday to our colleague from Salt Lake. Wishing her a very, very happy birthday one day late. Thank you."

Representative Matsumoto: "Thank you, Mr. Speaker. On behalf of the Women's Legislative Caucus, I want to remind everybody or tell everybody

if it's your first year in the Legislature, that every year the Women's Legislative Caucus does our Easter basket drive. It's going to be April 5th. But I'm telling you now, because you need to start collecting things for your Easter baskets. So different household items and hygiene items. We're going to be emailing your offices so you can start collecting those things.

"We're going to be donating to the Domestic Violence Action Center, the Institute for Human Services, Parents and Children Together, the Salvation Army Hawaii, and Mohala Mai. And if you don't want to put a basket together, we also have the digital donations that you can do as well. But I also want to say, we're bringing back the voting for the freshman member to be the Easter Bunny. So those will be coming soon and we're looking forward. It will be revealed on April 5th who our lucky winner is. Thank you."

Representative Quinlan: "Thank you, Mr. Speaker. Members, tomorrow is Tourism Day. Please join us on the fourth floor and we will have hula dancing."

Representative Garcia: "Thank you, Mr. Speaker. Following this floor session, please join us in Room 423 for celebration of Rep. Ward's birthday."

Representative Kapela: "Mr. Speaker, thank you. Yesterday was International Women's Day and I think we would be remiss to not recognize the incredible, hardworking women that sit on this floor every single day. Thank you for your leadership."

Representative Pierick: "Thank you, Mr. Speaker. We have a wonderful group of midwives and advocates of midwives in the gallery today. If you have any questions about the benefits of midwifery and birthing attendants in Hawaii, please speak to the midwives."
