"In support, Mr. Speaker. In order to address the homelessness problem in the State of Hawai'i, we need to start building housing for people with mental illness, with substance abuse, people who are coming out of prison, men and women, kids who are aging out of foster care, people with intellectual developmental and physical disabilities, and our frail elderly.

"It's very difficult to build housing for people with very, extremely low incomes. And that's what this bill attempts to do by addressing people with incomes of 30% and below area median income. It's the most difficult type

of housing to be built, which is why it's very difficult for developers to even attempt to try to do this.

"So, this bill tries to get capital funds to encourage developers to build this type of housing, whether it's a group home, a two-story walk-up that can be renovated, or even within a multi-story building, setting aside a floor or scattered rooms to serve people with disabilities.

"This bill envisions a partnership with government, with nonprofit organizations and for-profit organizations that know how to develop the housing, working with our Hawai'i Public Housing Authority that provides rental assistance because incomes are so low, they need a subsidy, and with nonprofit organizations who can provide the supportive services but know nothing about how to build housing. So, this is a pilot program, and we ask for your support. Thank you."

Representative Holt rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. And I'd like to thank the majority leader and the Housing chair for their work on this issue. I have a lot of constituents who could be served by this. And in fact, yesterday, me and the Housing chair went down to a facility which possibly would be perfect for this program. So, I just want to give my thanks to the Housing chair and the majority leader for doing the work and trying something new to help our most needy. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition with a brief comment. Generally, EVs solve problems, not create problems. This is one that says we are going to have your mileage as a basis of how much we're going to tax you. This is a new reconfiguration of what was the fuel tax. Because EVs came in and the fuel tax didn't rise to the level, this is a way of solving that problem.

"The difficulty is instead of surcharging the EV, the Tesla drivers and others, this now is spread across everyone. And if you're old, if your car is old and it's driving a lot of mileage, like from the west side or further away from that, North Shore, you're going to pay more. I think this is an unintended consequence. I think the solution is very sexy, a lot of moving parts. But I don't think it's fair and I don't think it's just, and not a good policy. Thank you."

Representative Lowen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. And I just want to point out that the vast majority of reduction in fuel tax revenues comes from more energy efficient fossil fuel powered vehicles or hybrids, and not from electric vehicles, which are still relatively small in numbers, but rapidly growing."

Representative Todd rose to speak in support of the measure, stating:

"Thank you, I'm in support. I just wanted to point out, the bill is relatively narrowly tailored. It has an opt-in program, so zero people will have to actually opt in. It only applies to current EV owners, so it does not apply to the general population of people who have hybrids or trucks that get five miles to the gallon or fifty miles to the gallon.

"And in addition to that, we've capped the amount that they could potentially pay. So, there's literally no disincentive from enrollment. The intention of this is actually to collect data, which could potentially inform our decisions going forward on whether this should apply to a broader class of vehicles or not.

"And I also wanted to point out that rural drivers who have to commute are already punished and already pay a disproportionate amount of fuel taxes, which this would not really change that paradigm. They're already paying more as is, they're not going to be paying more as a result of this.

"In fact, if we charge on a per mile basis, the only people who would be disincentivized in the long run, if this does apply to everyone, would be EV owners and people who own very fuel-efficient vehicles, which tends to reflect people who are doing a little bit better for themselves. So, in the long run, if this does get implemented and shared across other vehicle classes, it would actually help those who have less fuel-efficient vehicles, which has been one of the most common criticisms. So, it is a little bit ironic that we've somehow mangled that into the opposite argument, but it does not apply whatsoever. Thank you."

Representative Kobayashi rose to speak in support of the measure, stating:

"Mr. Speaker, in support. The fuel gauge on the highway special fund is on low. The Highway Division came to the Legislature three times within the last decade for increases in funding for the highways. They didn't get anything all three times. As a result of that, the Highway Division set aside construction projects that would increase the capacity of many of our roads.

They concentrated on safety programs and other smaller projects. The Highway Division needs some help. This is just one plank of many options that could and should be considered to replenish the highway fund. Thank you."

Representative Kila rose to speak in support of the measure, stating:

"Strong support. May I register the words of the Transportation chair into the Journal as if they were my own and may I add a brief comment. In commuting over 20,000 miles last year alone I paid \$357 on gas tax. So, in the hopes that this program would succeed in replacing the gas tax, removing that from our Hawai'i households, putting a cap on low-income families and folks who are commuting from rural communities, this will put more money into the pockets of Hawai'i families and the folks in District 44. So, *mahalo*," and the Chair "so ordered." (By reference only.)

Representative Ward rose to respond, stating:

"Mr. Speaker, second time. I just have a basic conceptual problem of treating my car and the people of Hawai'i's car like it's a rental car in how many miles you drive, we're going to charge you. I think the concept is misplaced. Thank you."

Representative Gates rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support, may I adopt the words of the Transportation chair as if they were my own," and the Chair "so ordered." (By reference only.)
