"Thank you, Mr. Speaker. I rise in opposition to this. Mr. Speaker, a few of us were around during the Lingle Administration, when there was a deep recession. We had to really count on what were basic services because we were running out of money. Since that payroll lag was implemented, every administration heretofore really liked it because, hey, this is \$172 million you don't have to pay out. Now, Mr. Speaker, this bill says, hey, we want to do a payroll—"

At 12:13 p.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:14 p.m.

Representative Ward continued, stating:

"Thank you, Mr. Speaker. I hope they find whoever is missing. And I may relate that to what I'm going to say. Because if we take \$172 million out of our budget to do a payroll advance, we're going to be hurting somebody on Maui. And it could be a kid, it could be a missing kid, it could be somebody who lost their family.

"I really think this is a bad policy and bad timing. If you want to do this, do it when there's a robust budget, not when things are tight and we've got an island that's suffering and not surviving. They need probably about \$6 billion. And we want to do a payroll advance. And if you know payroll advances are hard when you make a mistake to really recall that money.

"Everybody's adjusted to this since the Lingle Administration. Nobody probably other than inside baseball knows about it. So, Mr. Speaker, it's a policy to go back to normal. But in terms of timing, it's really, really bad. And we should look bad because it's going to be taking away from Maui.

And anybody from Maui who knows about this, I think will be ashamed of us. Thank you."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Garcia rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill would basically pay for all the meals for the kids in the Department of Education, no matter their income level. I don't think it's the job of all of the people of Hawai'i to be paying their state income tax towards the meals of the children. Parents should raise the kids and not the government."

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Students can't learn if they're hungry and starving. I think it's important that we ensure that every single child has access to not only a quality education, but the opportunity to really learn that education. Thank you."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise with mixed emotions on this bill. I support it, but I have some reservations. Okay, I know you're going to put me in favor. But hey, guys, let's all recall that we have ALICE families. When the governor stood there and he said 44% of Hawai'i's families are ALICE families, 63% of the Hawaiian community are ALICE families. We're saying, hey, we don't have enough money in our economy to have a roof over our head and feed our kids.

"So, what is surprising about feeding our kids in school? These kids are not getting it. What I'd like to see as this progresses through our system in the Legislature, is there'd be some metrics. We should be able to get a GPA or some kind of a measurement that this is helping people to do better in school, because otherwise, as was indicated earlier, if you're hungry, you're not going to be very smart or you're not going to be very much prone to excel in your academic performance.

"So, Mr. Speaker, this is good, but I hope it's temporary. We should be able to have an economy that allows people to buy lunch for their kids. I put the burden of proof on this body that we are not diversifying our economy enough to have wages in our families. And I'm still talking about this is good. Let's give them a crutch, but let's not wire it to them where it's forever and ever. We've got to get people to be self-confident, independent, and self-reliant rather than government for anything, even including their lunch and their breakfast.

"It's unfortunate we have to do it. It's a good bill, but it's unfortunate we have to do this. We've got to get a stronger economy to make this not happen perpetually into the future. Thank you."

Representative Matayoshi rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In favor, in support. This is my bill. I think the best way to prevent being becoming an ALICE family is to get a good education. And kids can't learn without food.

"So, pretty simple bill. It sounds like everyone is in favor of, well it sounds like most of us are in favor of feeding kids. I think this bill is fairly targeted since a lot of ALICE families are in the public school system. For better or worse, a lot of wealthier families choose to not send their kids to public schools. So, this is a bill, again, targeted relief. And what better way to spend government money than feeding kids and growing the next generation? Thank you."

Representative Perruso rose to speak in support of the measure, stating:

ROUGH DRAFT

"Mr. Speaker, I would just like to enter the words from the vice chair of Higher Education and the chair of Labor into the Journal as if they were my own. And also to note that, as the previous speaker mentioned, the majority of our students are actually living in poverty, and the majority of our schools are Title I schools. So that should be some indication to the body that there is a high level of need," and the Chair "so ordered." (By reference only.)

Representative Garcia rose to respond, stating:

"Mr. Speaker, still with reservations. I do want to say, as somebody who was raised in public housing and with free breakfast and lunch in Hawai'i public schools, I appreciate the services that are there for families who cannot afford to pay for their own school lunch. But for families who can afford to pay for it, it should not be the job of every other hard-working taxpayer in the state to cover that. So, with reservations."

Representative Perruso rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Ward rose to speak in support of the measure, stating:

"Thank you. Mr. Speaker. I stand in strong support, and I'd like to write strong comments into the Journal regarding the revitalization of the business community, which goes back to our previous discussion about why are there so many ALICE families? Because we haven't revitalized our economy to do what we are best at. Having said that, this is a good bill, we need, again, all boats rise with a rising economy. When our economy is so weak and wages so small, Mr. Speaker, we need bills like this for us to focus our attention on revitalization of our business community."

Representative Ward's written remarks are as follows:

"I am in strong support of HB 1965. In my 'past life' prior to joining elected office, I worked extensively in the business world as both a small business owner and entrepreneur trainer, as well as studied Hawai'i's business environment and potentials at length as the focus of my PhD. When joining the Legislature in 1993, I co-created the House Small Business Caucus which continues to this day to advocate on behalf of our entrepreneurs. One of my greatest priorities is increasing Hawai'i's economic diversification and competitiveness. Our location and resources provides us with a prime opportunity to expand in many different directions. We can be the Hollywood of the Pacific, the Space Center of the Pacific, the Geneva of the Pacific, the Pharmaceutical Center of the Pacific, the list goes on..."

"This measure through the creation of a task force to explore such potentials is long overdue. I am hopeful that its findings will allow us to become more entrepreneurial, more innovative, and more competitive in our region and across the world in a variety of fields. As we continue to suffer from brain drain to the U.S. mainland, it is crucial we invest in our state and its people by stimulating our industries and fostering a friendly business climate which as of late we have sadly failed to do."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1956, HD 1, entitled: "A BILL FOR AN ACT RELATING TO ECONOMIC DEVELOPMENT," passed Second
