Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. I want to say this gently, but I want to say this is a silly bill that says we're going to allow jaywalking. And the only thing I can think of, it really explains in detail why we have a approval rating in this legislature of 18%, it's even worse than our president, 18% approval rating because we're spending our time on things like this, which is probably going endanger people. I don't care what the studies have been cited as. Encouraging jaywalking, particularly as kids see adults and the kid do it, just like in marijuana, it's going to lead to a disaster. This will end up being appealed if we practice it. It's a silly bill and embarrasses us. Thank you."

Representative Todd rose to speak in support of the measure, stating:

"Thank you, in support. I just wanted to speak briefly about an issue I'm extremely passionate about, which is crossing streets when you're more than 200 feet away from a crosswalk provided that there is no imminent danger, it would not slow or cause any cars to stop or slowdown whatsoever. I think that's pretty much it, I just want to issue my strong support for the measure. Thank you."

Representative Lowen rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I'll adopt the words of the Transportation chair. And just say that, we should be encouraging environments where pedestrians are safe instead of continuing just to build streets and transit and cities around cars solely. And this measure would do that. When jaywalking

was initially made illegal back when cars were first becoming popular, it was specifically effort and action of the automobile industry. And we're just so used to it that we can't see outside this box that we're in to understand that things can be different. And so, I support this measure."

Representative Matayoshi rose to speak in opposition to the measure, stating:

"In opposition. I just want to note that, when we're all driving and there's no crosswalk there, I feel like people are not expecting a pedestrian. Even though it may look safe, I think that crosswalks are probably the right place to, it's not only a signal to pedestrians to tell them which area is safe to cross, but it's also to kind of to give drivers a heads up. And without that there, I am just afraid that we're doing something that's going to place people in danger. Thank you."

Representative Kahaloa rose to speak in support of the measure, stating:

"In support. In certain rural communities, we do not have enough crosswalks. So, they are a suggestion and not a rule. So, unless the state would like to put in a ton more crosswalks in rural communities, that would cost money, I'm in support of this measure."

Representative Cochran rose to speak in support of the measure, stating:

"Thank you, in support and here is my justification. The one and only connector road, it is dangerous, but it's the only way for residents across the street to get over to the grocery store, to the shopping mall, to the restaurants. And obviously government needs to install crosswalks, but at this time, there aren't any. So, they have to cross the road and jaywalk, in essence. Thank you."

Representative Ward rose to respond, stating:

"Mr. Speaker, again in opposition, but in sympathy. If I was a neighbor islander, I would say exactly what my colleagues have just said. So, this should be for a certain island of a certain number of people, and not push it on the neighbor islands. Because what they're saying is correct. We don't want people to walk far away, even though it's good for their exercise. You want it to be primarily for an urban and an island like O'ahu. So, I want to agree with the neighbor islands, but disagree with the whole application of the bill. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B.
