Representative La Chica rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. Wanted to just say a few comments, my first opportunity to speak on this bill. Just wanted to thank the Judiciary chair and CPC chair for moving both measures, Senate and House. This bill would target the spread of deepfakes during an election. And as you all know, with all the benefits of AI, unfortunately, AI also has the ability to not just threaten people's livelihoods as what we've seen with the film and the creative industry, but it can also be used to misrepresent individuals running in an election through the spread of fabricated media. And so deepfakes really are media portraying individuals saying or doing some things that they've never said or done. And so, this bill would help protect the integrity of our elections. For those reasons, I support this measure."

Representative Garcia rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2687, SD 1, HD 2, entitled: "A BILL FOR AN ACT RELATING TO ELECTIONS," passed Third Reading by a vote of 49 ayes, with Representative Garcia voting aye with reservations, and with Representatives Kitagawa and Souza being excused.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2747, SD 2, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Morikawa rose to speak in support of the measure with reservations, stating:

"Strong reservations, Mr. Speaker. This bill will hurt Kaua'i's aviation tour industry. I received concerns from Kaua'i operators, and I would like to share them for the record. These are quotes. The aviation insurance requirements in this version are not obtainable by any of the nine helicopter and three airplane tour companies on Kaua'i. This bill would cause all of the air tour companies on Kaua'i to cease operations. Approximately 300 Kaua'i residents directly employed by air tour companies would lose their jobs.

"Requiring insurance that is not readily available at a reasonable cost to operators, as well as creating a requirement for air tour operators that are not imposed upon other operators, would be deemed by the FAA to be a violation of FAA grant assurances. The FAA has the exclusive authority to regulate aircraft safety generally. Based upon that authority, the FAA has the exclusive jurisdiction to establish, and actually has established, insurance requirements for operators. The states have no discretion by their regulatory powers to impose higher standards. As a result, the bill is federally preempted.

"Another concern as follows, the House Consumer Protection & Commerce Committee amended SB 2747 to increase the liability insurance requirement for air tour operators to \$20 million per person per incident. Notably, this amendment was not informed by committee-conducted studies or assessments, but rather prompted by the recommendation of a single testimony. It is crucial to highlight that this testimony does not represent the views of the general aviation industry in Hawai'i.

"Mr. Speaker, I'm very concerned about the consequence this version will have, raising the liability insurance requirement from \$1 million to \$20 million. And I am sure that many operators are not aware of the sudden change, because the amount of testimonies we see, from what I saw, were very few. Thank you."

Representative Nakamura rose to speak in support of the measure with reservations, stating:

"With reservations. Just wanted to adopt the words of the Majority Floor Leader as if they were my own. And also wanted to add that, for a bill that is involved with aircraft and helicopters, that both the Department of Transportation and the attorney general did not weigh in on this bill. Thank you," and the Chair "so ordered." (By reference only.)

Representative Ward rose in opposition to the measure and asked that the remarks of Representative Morikawa be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Garcia rose in opposition to the measure and asked that the remarks of Representative Morikawa be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Amato rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Kila rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. Reservations, please, and brief comment. There are concerns about the measure before us because at the beginning of its conception, \$1 million was the first number. There was no issue with some of the number being proposed, because every operator was able to provide coverage and even has coverage as such. The bill's intent is around a 2019 accident in Kailua, but as the measure sits before us now, as previous speakers have mentioned, \$20 million is only applicable and obtainable by one operator.

"I'm concerned that measures like this benefit one single person and operating group, and that will hurt the small operators of helicopters. And I would like to add, the FAA has the exclusive authority to regulate aircraft safety generally. And based on this authority, the FAA has the exclusive jurisdiction to establish this. So as a result, the bill is federally preempted. So, reservations."

Representative Matsumoto rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Pierick rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Alcos rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Kapela rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Cochran rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2747, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO AIRCRAFT," passed Third Reading by a vote of 40 ayes to 9 noes, with Representatives Amato, Kila, Morikawa, and Nakamura voting aye with reservations, with Representatives Alcos, Cochran, Evsliin, Garcia, Kapela, Matsumoto, Miyake, Pierick, and Ward voting no, and with Representatives Kitagawa and Souza being excused.

Representative Hussey-Burdick rose to speak in opposition to the measure, stating:

"Thank you. No vote, brief comment. There's a growing body of scientific literature that demonstrates how seawalls and shoreline hardening negatively impact nearby beaches. This is one of many reasons why the Legislature codified HRS Chapter 171-53 in 1962, requiring the Legislature to approve any lease of state submerged lands via concurrent resolution like these. The text of these resolutions, this resolution, and the following five, almost urge the Legislature not to pass it. It warns of rising sea levels and states, I quote, 'the practice of issuing easements to private landowners for state submerged lands on a case-by-case basis is not prudent as a long-term strategy when considered in relation to the public trust doctrine and in the context of planning for landscape-scale adaptation and retreat.'"

Representative Amato rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Hussey-Burdick rose to speak in opposition to the measure, stating:

"No vote, brief comment. I understand that this resolution is a little bit different. It deals with an apartment building that houses a lot of people, some local residents, some not. But the underlying point remains the same. These are private property owners. This is a public trust resource. If the ocean is encroaching on a private property, no matter how big or small, we need to recognize that as a wasted asset and retreat and move inward and realize that we cannot keep building shoreline homes at a cost of millions of dollars and expect that people can continue to live there. Thank you."

Representative Perruso rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Kapela rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Belatti rose to speak in support of the measure, stating:

"Mr. Speaker, in support for this measure and the previous measures related to the term leases. Brief comment in support. I understand the issues being raised by our colleague from Kailua. But I also appreciate that these resolutions have been amended with a shorter lease term, and that there is a promise and an expectation that we will confront these issues being presented by these resolutions in legislative sessions to come. Because truly, managed retreat in addressing our shoreline is a critical issue that we have to face for our generation. Thank you, Mr. Speaker."

Representative Cochran rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Also in support. And I think I stated previously that I am definitely not a fan of seawalls. This is something that has been exacerbated, it has already a domino effect. And it will be detrimental if they cannot continue to maintain and do improvements upon this existing wall, which had started because of the harbor that the state had built many, many years ago. So, there is a clear delineation on when you do not put a wall versus having a wall in this particular shoreline. And the part where they force the landowner to manage retreat, the land itself has eroded just pure dirt into the ocean there because of lack of seawall and existing seawalls around it. So, this definitely needs to happen. And I concur with previous testimony here and I am in very strong support because it's very needed. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 14, HD 2, entitled: "HOUSE CONCURRENT RESOLUTION AUTHORIZING THE ISSUANCE OF A TERM, NON-EXCLUSIVE EASEMENT COVERING A PORTION OF STATE SUBMERGED LANDS AT MAALAEA BEACH LOTS, WAIKAPU, WAILUKU, MAUI, FOR THE EXISTING SEAWALL, AND FOR USE, REPAIR, AND MAINTENANCE OF THE EXISTING IMPROVEMENTS CONSTRUCTED THEREON," was adopted, with

Representative Hussey-Burdick rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition, brief comment. I would like to insert the comments that I made for H.C.R. No. 10, and also note that there are at least three private beachfront properties that benefit from this resolution, each valued between \$4 million and \$5 million. I have taken an oath to uphold the public trust, and as such, I have a fiduciary duty to oppose the passage of measures that would exclusively benefit private interests at the expense of our public trust beaches. It is time that the Legislature stops automatically approving seawalls and hardening to benefit wealthy private landowners at the cost of our public trust beaches. Thank you."

Representative Belatti rose and asked that the Clerk record an aye vote with reservations for her on both measures, and the Chair "so ordered."

Representative Poepoe rose to speak in opposition to both measures, stating:

"No vote and a comment. In a nutshell, this resolution is directed at the County of Maui. It lists several whereas clauses speaking to the devastating effects of the fires, the cost of recovery. It comments on the mayor's recent proposed budget. It opines on certain things that should be included or omitted from the budget. And in the be it resolved, it urges the County of Maui to pass a fiscally prudent budget specifically to maintain current staffing levels, except for increases mandated by the county charter or those critical to wildfire response.

"There is a particular whereas clause that for me is problematic and could be interpreted, in my opinion, as contradictory to the be it resolved clause. The ninth whereas clause calls out two things that I am very protective of and two things very important and directly impacting to my district. This clause mentions that the mayor's budget includes funding for the Department of 'Oiwi Resources and funding for the East Maui Regional Community Board. And, as we know, East Maui is within a part of my district. And both of these are charter amendments.

"A little bit of history. The water authority was created to give East Maui residents a seat at the table when decisions are made regarding water resources in East Maui. For decades, East Maui streams were decimated, dewatered, and completely dried up. There was once a thriving commercial *kalo* export industry made up of generational and lineal Native Hawaiian families in East Maui, and that industry was killed when the water was diverted to grow sugar in the central plains. It took decades in court to get some of that water restored so that families could start their *lo'i* again. And that's some of the history behind why that board was created.

"The Department of 'Oiwi Resources was created to elevate and incorporate our culture and native worldviews and perspectives. Our cultural resources, arts, our language, our place names, our *'ike*, into the works and decisions of our county government. And that was another huge fought win and recognition for *kānaka* and culture in our government.

"So, I question why this clause is included at all considering the county is mandated to fund the charter. The Department of 'Oiwi Resources is required by charter to be active by July 1st, 2024. So, I think that potentially to not fund these items may put the county in violation of its own laws.

"I know that this is a resolution. But that message could be perceived as suggesting the county to not fund these important sections of the charter. And I've had numerous constituents reach out with great concern for this resolution. And at the end of the day, I'm here to represent my district and our people and our *'āina*. So, no vote. Thank you."

Representative Amato rose, stating:

"Thank you, Mr. Speaker. I would like to cancel my reservations and change my vote to no, please."

Representative Marten rose and asked that the Clerk record an aye vote with reservations for her on both measures, and the Chair "so ordered."

Representative Belatti rose, stating:

"Thank you. Based on the words of my colleague from Moloka'i as well as from Lahaina, I'd like to also change my reservations to a no vote. Thank you."

Representative Ganaden rose, stating:

"Same request."

Representative Ward rose to speak in opposition to both measures, stating:

"Mr. Speaker, no vote. And a brief comment on the comments. As I read this and I hear this, this is kind of like a hit piece to the Maui County vote of no confidence or we know better at the state than you do. I think it's rather offensive, I think it's out of bounds, the way that we've handled this. So, strong no vote and in favor of every comment that has been made by the Maui reps."

Representative Garcia rose and asked that the Clerk record a no vote for him on both measures, and the Chair "so ordered."

Representative Matsumoto rose and asked that the Clerk record a no vote for her on both measures, and the Chair "so ordered."

Thank you."

Representative Hussey-Burdick rose to speak in opposition to the measure, stating:

"No vote, brief comment. I understand that the two most controversial provisions were removed in the only committee held by the House. But I also understand that any part of any previous version could potentially be revived in conference committee. I understand that the main argument in support of this bill is because we haven't built enough housing stock to house all of our people.

"But is that really true when we have such high vacancy rates? Some areas are as high as 25%. That means one out of every four units in those communities are sitting empty, while people who are born and raised here are sleeping in their cars on the street. How much more housing do we need to build in order to make these houses affordable?

"There's also been an assertion that one of the main reasons inflating the price of housing is because of our arduous permitting process. Let me correct the record. This bottleneck is not caused by our hard fought environmental and community protections. It's because most of our county permitting departments are disastrously underfunded, understaffed, and overworked. This bill is not going to fix that and would actually lead to a further backlog of permit requests from an unprecedented number of homeowners trying to suddenly subdivide their existing units.

"If this body was serious about reducing the cost of housing, we would require counties to adequately fund their permitting departments and impose a steep vacant homes tax to incentivize our existing units to go back on the market and bring prices down. I'm voting no on this bill because urban sprawl is not the answer to our housing crisis. Our urban roads, sewer systems, and emergency facilities are not built to withstand three to six times higher density. My community is already feeling the impacts of

overburdened sewer systems and roadway congestion. Thank you, Mr. Speaker. No vote."

"Thank you, Mr. Speaker. No vote for me with brief comment. Mr. Speaker, I really appreciate the hard work of the committee chairs on this bill and the amendments that they made. But I still have strong reservations about the potential that this bill will increase the price of residential homes and potential vacant land once it gets rezoned and make it more attractive to investors, not just people in Hawai'i, but also for people from outside of Hawai'i that are going to be coming to Hawai'i and bid up the price for land and residential homes. Thank you."

"No vote, brief comment. My opposition stems from the fact that this would no longer require persons undergoing assisted community treatment to not be defended by a public defender. And I just think that in any situation regarding a court case, everyone deserves to have an attorney. Thank you."

Representative Amato rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Marten rose to speak in support of the measure, stating:

"In support with brief comments. Assisted community treatment is basically something that's reserved for people who aren't able to make good decisions about their own health and safety and their impact on others as well. And we've seen that the public defenders always oppose these. They're not the people that are taking care of these patients and they're not the people that understand what is possible with medication and treatment. So, this would have healthcare providers that are experienced in this area make those decisions on behalf of the patients. And I think they are probably in a better position to do a good job. Thank you."

Representative Ganaden rose to speak in opposition to the measure, stating:

"I'm in opposition. This bill would remove the Office of the Public Defender from representing individuals whose body is being taken custody of by the state. Ordinarily, I absolutely agree with Office of the Public Defender. However, we're not replacing this representation with anything. We're not replacing them in statute with a qualified nonprofit such as the Legal Aid Society, any of the qualified nonprofits that operate throughout the state. For that reason, I am not in support. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition. We've just gone through a very serious emergency. And this particular measure says, hey, when we got an emergency, we've got to give the governor a mother-may-I of 14 days before the money is going to be released. I mean, that's counterintuitive to the fact. When you have an emergency, time is of essence, time is of life, time is of keeping with what you're supposed to do in an emergency and that's make quick decisions, pay quickly with money, and not say..."

"Look, I respect everything that we have in the Constitution. We are the watchdogs. We are the ones that control the purse strings. But why we want to handcuff the governor for an emergency. Not handcuff, okay, that's a little bit extreme. Why do we want to delay release of money? We want to get everything, men, materials, women, assets, off the spot. I don't know of any other place that would have this. Because in the Constitution it says, the governor can move money around from the departments by the very right of he being the governor.

"Why do we want to do this? I don't know if somebody's got a sore bone about what happened in Maui or what happened with whatever, or it's because it's 2024 election. Why do we want to do this? I hope somebody stands up and says, Ward, you're wrong, and this is something that we really need because he's taken advantage of us.

"For those reasons, Mr. Speaker, why do we want to, after experiencing an emergency, lets prepare ourselves for one that's coming obviously somewhere down in the future. For those reasons, I would love to hear an explanation of the logic of this bill."

Representative Cochran rose to speak in support of the measure, stating:

"Thank you, and I'll respond to the representative from Hawai'i Kai. In support. There needs to be more accountability, open and transparency, especially with the moneys that have been brought down to Lahaina, specifically. I mean, nine months later, billions of dollars later, there still has not one house built. The people of Lahaina want to know, where is all the money? I continuously see people on the parks, in cars, on the streets, in the beaches, committing suicide all the time. It's just, yeah, we want to know that trickle down, where has every penny gone. Because a lot of it has not fell upon the people to better their situations at this time. So, I would like to see some accountability and reporting. Thank you."

Representative Ward rose to respond, stating:

"Mr. Speaker, also in continual opposition. And I agree with the good representative from Maui. Accountability, we have. But this this bill is about timing. Give him the opportunity to get the money quickly. And it's got to be accountable. You're not going to get accountability by giving 14 days. It's just not going to happen. So, of course, we have to be accountable. But this is moving quickly to get the fire or whatever it is that's happening to done quickly, and the governor is the one who can do this. For those reasons, Mr. Speaker, it's common sense. Don't shackle the governor. Thank you."

"Thank you, Mr. Speaker. WR. The comments come from a lot of state entities and, I'm just like, where is the County of Maui involved, Where are comments from Lahaina Strong, any nonprofits? Our hospitals need nurses, our schools need teachers. I understand this is going to move forward and hopefully incorporate all of these entities, so that's great. So, hence my WR in moving this conversation forward. Thank you."

Representative Belatti rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. In support with strong reservations and brief comment. Mr. Speaker, I really want to express my thanks to the chairs of the Water & Land Committee, Judiciary & Hawaiian Affairs, and Finance

Committee, because they did in fact amend this measure to really constrain the original request of DLNR to have unfettered ability to do direct negotiations for public land leases. The source of my reservations comes largely because we know how fraught and political the process has been around public land leases.

"In fact, all of those chairs on those previous committees and myself served on a select committee where we were analyzing and looking at the auditor's analysis of the handling of public land leases. And we know it is fraught with political uncertainties. And so, based on that experience, as well as the testimony from two groups, the League of Women Voters and UNITE HERE, in the committee before Finance, I'd just like to express what their concerns are.

"The League of Women Voters opposes this version because, 'eliminating competition for public commercial and industrial leases on parcels up to 5 acres will encourage "pay-to-play" political campaign contributions by lessees who want a lease extension and potentially could politicize the selection of lessees.' The League of Women Voters go on to suggest further safeguards that we might consider in this process, if we're going to allow the direct negotiation for public land leases.

"UNITE HERE cautions us to say, and says in their testimony in comment, that 'we continue to encourage this Committee to consider whether or not it is in the public's interest or the State's interest for any public land to be leased without going through the procurement process.'

"So, for these reasons, and as this bill continues to move ahead, Mr. Speaker, I vote with strong reservations. Thank you."

Representative Cochran rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Amato rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Yamashita, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1779-24) recommending that S.B. No. 3207, SD 2, HD 1 pass Third Reading.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 3207, SD 2, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill would allow, basically, the salary cap of the superintendent of the State of Hawai'i for the Department of Education to be removed. That salary cap currently is \$250,000, and I believe his pay at the moment is \$240,000. So, with the potential of his pay increasing by \$10,000, this bill would eliminate that to where it can go even higher and higher. When will it stop, \$300,000, \$400,000? That's a lot of money to go to the Department of Education superintendent.

"Let's compare that with the annual income of a teacher. It's nowhere near \$100,000. So, there's a big pay disparity between a teacher who's the boots on the ground with the children and the superintendent. So, I believe that we shouldn't be increasing the salary of the superintendent, especially with the ACT and SAT scores of Hawai'i being at a national average below many other states."

Representative Matayoshi rose to speak in support of the measure with reservations, stating:

"Reservations, brief comment. I do want to say, I think the superintendent is actually doing quite a good job right now. The reason I'm with reservations, even though I voted no in committee, is because I think we do need some version of this bill to go forward. Right now, the cap is \$250,000

but it's going to go back down to \$150,000 if the sunset clause remains in the current statute. And I don't think that the superintendent should be taking a \$90,000 cut. Again, I think he's doing a good job.

"Uncapped seems maybe a little too far, though. I would like to see some kind of cap in this. The cap in the original bill was set at \$350,000. That's still seems a little high to me, but I've heard the Board of Education is doing a study on what should be the appropriate salary for a superintendent, given our district, given our state size, given his responsibilities. If we are going to raise the cap, I would like it raised to a number defined by data and by that study. So, I think we should be waiting for that study to come through before we raise the cap. But I do want this bill, again, to go through just to eliminate at least the sunset date on it. Thank you."

Representative Lamosao rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Woodson rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Excluding our superintendent's current salary, the average salary for superintendents for like school districts is \$379,000. Mr. Speaker, as it was mentioned, our superintendent currently makes \$240,000, which is the lowest in the group. However, if this proposal is not passed, there is a provisional sunset, which, as stated, would revert our superintendent's salary cap to \$150,000 annually.

"To me, Mr. Speaker, that just sends the wrong message. And what is to stop people from then saying that we should pay our administrators a fraction of a comparable salary, or our teachers a fraction of the current salary.

"And I want to speak to something that actually bothered me on the floor when this bill was considered previously in this chamber, because I think it was a direct attack on the superintendent. And someone stated that this particular superintendent has not done anything for the entirety of the system, that he has been ineffective. And that is just factually and empirically false.

"You can take a look at certain metrics. You could take a look at state by state comparisons. And when you do that, as an example, our fourth graders, their reading scores are in the top ten in the nation. That is up from 39th in the country. From 39th to the top ten under the leadership of this superintendent and his team, which would also be impacted by this bill. Our fourth-grade math scores have went from the bottom half to the top half. And I could draw other correlations as to how the superintendent, his team, the teachers, the administrators, all have worked together to improve preparedness for our students.

"And so, Mr. Speaker, I'm humbly requesting that the members do support this proposal. It is true, as it was mentioned, that this would allow the Board of Education to then set the salary of the superintendent. To me, that is appropriate. We allow the Board of Education to set standards. Standards dictate curriculum. Curriculum dictates preparedness. That is significantly more important than the superintendent's salary. And so, for these reasons and others, Mr. Speaker, I'm humbly asking my colleagues to please support this proposal. *Mahalo*."

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition. Mr. Speaker, allow me to list ten reasons why this bill should not pass, or that this bill will lock in the status quo, of which not too many of us are always proud of what we have in the State of Hawai'i.

"This is kind of like news flashes, December 7, 2023, DOE calls off \$500 million worth of construction projects after failing to meet timelines. Half a billion dollars, well, we didn't know what was going on. Number two, February 8, 2024, DOE, 11 public schools fire alarms don't work and at least a dozen more need repair. I mean, that's rocket science. You can't fix fire alarms. The point is, if you're the superintendent, the buck stops there, the Harry Truman. I know you've got other people who may be the ones who fall on their sword, but that's not the case.

"Number three, August 7, 2023, thousands of Hawai'i classrooms lack AC. The DOE won't say which ones. Teachers say they're frustrated by a lack of transparency about how many AC units need to be installed and

where. Number four July 25, 2023, newsflash, DOE to suspend school bus service to 14 campuses amid ongoing driver shortage. Number five, June 29, 2023, investigation finds DOE wasted millions of dollars on solar-powered AC systems. Number six, February 12, 2024, the Hawai'i Department of Education is nowhere close to meeting its mandate to buy more local food. The DOE has also failed to deliver a required annual update to state lawmakers on its progress.

"Number seven, and this goes to the good chair's statistics, 2022 to 2023 school year, 52% proficiency in language arts, 40% proficiency in math, 40% proficiency in science. Third grade literacy, reading near or above third grade level, 78%. On time graduation, 85%. Going to college, just 50%. Chronically absent students, 15 days or more, 30%. Mr. Speaker, do we want to reward this? I don't think so. America is a meritocracy. If you do well, you get advancement *vis-à-vis* salary increases, *et cetera*. This is going to lock us into a status quo.

"Look, there's nothing personally wrong with the particular individual. He is doing well, we just got to do better as a state. Because it's not about him, it's about our *keiki* and about the state of the art of what we need with the brains that what we can do as a state in the middle of the Pacific that needs these people to be more educated than what we have today. For those reasons, Mr. Speaker. Let's not reward meritocracy."

Representative Todd rose to speak in support of the measure, stating:

"Thank you, in support. I'll be brief, but I would just note that if we were to look at articles about the Legislature, we'd probably find a lot of reasons to cut our own salaries. It's not a good justification, just by looking at headlines to make these determinations.

"And that actually supports my argument for why we should have an uncapped salary figure, which is that an inherently political body, like the Legislature, should not be making these decisions. We don't make decisions on our own salaries. We don't set the salary for the governor or department heads, which are the most similar jobs to being the superintendent. We have a salary commission that is specifically designed to be an apolitical body to make those recommendations to us, and not the other way around. I think we can rely on the Board of Education, which is a non-elected body, to be that impartial, when necessary, to set a number that they believe is appropriate.

"And I would just note that while \$250,000 definitely is a lot of money and sounds like a lot of money, relative to a two-plus billion-dollar budget, if you were to look in the private sector, that is a very minuscule amount. And if we were to compare it to teacher pay, my wife is a teacher, in full disclosure. If you look at that as a multiplier, the average teacher is making about a quarter, give or take, of what the superintendent makes. If you look at any private sector industry and you compare CEO pay to an average employee, that number is astronomically higher. I think that's a very reasonable figure. I think we can rely on the board to make that determination.

"And we should also note that anything we set in effect does not apply specifically to this superintendent but to that position in general and would affect future superintendents as well. So, using job performance, positive or negative, for a current superintendent to make this determination is not appropriate in my mind. Thank you."

Representative Perruso rose to speak in opposition to the measure, stating:

"In opposition with a brief comment. I want to thank the chair of Education for his work on this measure. And I recognize the situation that has brought us here. I continue to be opposed to this particular approach to the problem, in part specifically because I lack the kind of confidence that my colleague has in the Board of Education. So, because our Board of Education is no longer elected, they are buffered from public sentiment, they are not accountable to the public, they're appointed by the governor. And I think that it's really important that the Legislature maintain a relationship and a negotiating role in the salary of the superintendent. Because I think that we direct significant funds to the Department of Education, and I think that it is our role and responsibility to be engaged in the determination of his or her salary. Thank you."

Representative Quinlan rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. And I'd like to adopt the words of the chair of the Education Committee, as well as the chair of the Transportation Committee, as my own."

Representative Kila rose to speak in support of the measure with reservations, stating:

"Reservations, brief comment. I will say, as a former bus driver, I do applaud the new superintendent's way to solve some of the issues that they've inherited."

Representative Garcia rose in opposition to the measure and asked that the remarks of Representative Ward be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Gates rose in support of the measure with reservations and asked that the remarks of Representative Todd be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Ward rose to respond, stating:

"Mr. Speaker, second time in opposition. Let me be very clear, it's not about money. This bill is not about money, this bill is about performance. I mean, I would pay \$500,000, \$750,000 to the superintendent if it puts us up in the top one, or two, or three in the nation. That our kids are the smartest, they all go to MIT or Harvard or wherever. It's not about money. Look, we've got money to pay this stuff. I mean, that's nickel and diming. The argument about money is not the issue. The issue is performance and getting us all uplifted in math, science, and all the other things that we need. To me, this is the issue. We're arguing dollars and cents, it doesn't make sense. It's about performance. That's what we need in the DOE. Thank you."

Representative Chun rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Martinez rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

At 2:00 p.m., Representative Nakamura requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 2:01 p.m.

Representative Pierick rose to respond, stating:

"In opposition for the second time. Thank you. It was discussed earlier about how the salary commission sets the salary for legislators, and the Board of Education would then in this bill, set the salary for the superintendent. Allow me to just bring light to who gets to be those people on the salary commission and the Board of Education. To be a member of the Board of Education, the governor would select somebody, and then that person needs to be confirmed by the Senate. So, in other words, if you're a friend of the governor and you do well enough in the Senate, win the committees, you become a member of the Board of Education. And then one of those members can get selected to become the superintendent.

"So, we have a part to say in all of this process of what their salary is, because we're voting on this measure to cap their salary or not. And then our colleagues in the Senate, they get a say—"

Representative Ganaden rose to a point of order, stating:

"Point of order, Mr. Speaker. Friend of the governor sort of implies an ethical distinction that I think should be stricken from the record."

At 2:02 p.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 2:03 p.m.

Representative Pierick continued, stating:

"Thank you, Mr. Speaker. So, we've just defined how you get appointed to the Board of Education, how they select the superintendent, and how that pay is unfolded. With regards to the salary commission, we as members of the House of Representatives, we do have a part to play in that. And according to this document, two members of the salary commission shall be appointed by the governor, two members shall be appointed by the president of the Senate, two members shall be appointed by the speaker of the House

of Representatives. We all select the speaker of the House, so we have a part to say in that. And one member shall be appointed by the chief justice of the Supreme Court. We decide the salary of the chief justice of the Supreme Court. We very much, as representatives, have a part to play in the salary commission and the Board of Education, and so, we should vote no on this bill to not let the salary of the superintendent exceed \$250,000.

"If I'm a worker and I'm working hard and my part of my income gets taken out into the state budget, into the line item for the Department of Education. If I'm only making \$70,000 a year and I know that \$16,000 of my taxes, maybe not mine specifically, but that line item of like \$2.1 billion in the Department of Education is going towards an exorbitant salary of the superintendent, I don't think most of the Hawai'i residents would support that. So, I'm voting no."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 3207, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO EDUCATION," passed Third Reading by a vote of 37 ayes to 12 noes, with Representatives Chun, Gates, Kila, Lamosao, Martinez, and Matayoshi voting aye with reservations, with Representatives Aiu, Alcos, Amato, Garcia, Hussey-Burdick, Kapela, Matsumoto, Perruso, Pierick, Poepoe, Tam, and Ward voting no, and with Representatives Kitagawa and Souza being excused.

At 2:08 p.m., the Chair noted that the following bills passed Third Reading:
