Similar to the last bill, this is basically all the residents of Hawai'i, part of their state income tax goes to the state budget, the state budget goes towards feeding kids in school. That's a very, it's a great talking point, it sounds wonderful. But, we should let parents, if they choose to have sex, if they choose to have kids, if they choose to raise their kids, let them pay to feed their kids, not everybody else."

Representative La Chica rose to speak in support of the measure, stating:

"Madam Speaker, in strong support. Our Committee on Education had the opportunity to hear from amazing students who testified in front of us and just shared very heartbreaking stories of coming to school with this being their only meal of the day. Having heard from teachers who've had to share the news that their own students can't even stand in line and go to the lunch line because their own accounts can't be replenished by their parents. To be eligible for free and reduced lunch, a family of four needs to be making \$47,000 for free lunch. So, if you make \$47,001, you can't get a free lunch. If you're a mom and you have a child, you're not—"

The Chair addressed Representative La Chica, stating:

"Representative La Chica, please address the rostrum."

Representative La Chica continued, stating:

"Sorry, yes, Madam Speaker. So, we're in strong support of this because it's not just nutrition that a child deserves, we all know that a child can't learn when they're hungry. But we all know that this is something that all students shouldn't even have to worry and shouldn't even have to think about. And we're just, on behalf of the Committee on Education, we're just very, very, just encouraged to see and we would like to see the body support this bill and see it through this session. So, in strong support, Madam Speaker."

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Madam Speaker. In strong support. I'd like to adopt the words of the previous speaker as if they were my own. And I would just like to add that this bill boils down to either we care about kids, or we don't. No child should be hungry, and no child can learn if they are hungry. Thank you."

Representative Reyes Oda rose to speak in support of the measure, stating:

"Speaking in support. As the representative from Kona has just said, when we talk about feeding kids, I want everybody to understand what the dollars and cents are for how much it costs to feed a reduced-price lunch, which is what this would be. And for an individual student, that's 30 cents for breakfast and 40 cents for lunch. So, if this passes, what the Legislature is asking for is to pay 70 cents if a kid so chooses to eat both per day for each kid that qualifies for reduced lunch. And that's not for kids who are free lunch because they're already free or for kids who are full price because they still have to pay. Thank you."

Representative Perruso rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Perruso's written remarks are as follows:

"With reservations. HB 661 would fundamentally weaken Hawai'i's environmental review process. By allowing previously permitted activities to continue during environmental review, the bill undermines HEPA's purpose, which is to prevent harm before it occurs. The testimony underscores that stopping activities during review is essential to ensuring informed decision-making.

"OHA specifically notes that HEPA has been a critical tool for Native Hawaiian beneficiaries to protect traditional and customary practices. The example of the commercial aquarium trade case illustrates how allowing activities to proceed unchecked would disproportionately harm Native Hawaiian fishers and cultural practitioners. The testimony raises concerns that HB 661 would prioritize permitted activities over indigenous rights.

"Testimony provided on this issue provides concrete examples of how agencies have failed to follow environmental review laws, leading to devastating long-term impacts. The case of East Maui's stream diversions, where streams were drained for 20 years despite a court order, illustrates how HB 661 could further entrench these failures by legitimizing continued harm while legal challenges are pending.

"Environmental review is a mechanism for public participation and accountability. By allowing projects to continue before reviews are completed, HB 661 would sideline public input and place decision-making power in the hands of agencies and special interests without proper oversight.

"The Sierra Club warns that passing HB 661 would pressure decisionmakers to approve projects without fully assessing their long-term consequences, leading to irreversible damage. Environmental degradation, loss of cultural and subsistence practices, and weakened food security are among the anticipated negative impacts. I vote with reservations because it seems to me that this bill would transform environmental review from a preventive measure into an afterthought. Instead of weakening HEPA, lawmakers should strengthen enforcement to ensure compliance and protect Hawai'i's environment for future generations."
