

RULES OF THE HOUSE OF REPRESENTATIVES

STATE OF HAWAII

THIRTY-THIRD LEGISLATURE

2025-2026

Preface to House Rules

Members of the House of Representatives hold positions of public trust and shall conduct themselves in a manner which reflects credit upon the Legislature.

To this end, it is the policy of the House of Representatives to:

- (1) Provide the general public with a meaningful opportunity to participate in the legislative process. Public participation is a basic tenet of our democratic process. Public participation is vital to maintaining a check on the legislative process and legislative decisions.
- (2) Prevent discrimination against members and staff. No member or staff shall be discriminated against based on race, sex, age, religion, color, ancestry, mental or physical disability, genetic information, citizenship, national origin, veteran/military status, marital status, pregnancy, childbirth, breastfeeding or related medical condition, sexual orientation, gender identity or expression, arrest and court record, domestic or sexual violence victim status, credit history, whistleblower status, or any other status or condition that is protected by state or federal law.
- (3) Ensure a work environment free from violence, threats of violence, harassment, intimidation, and other disruptive behavior.

TABLE OF CONTENTS

PART I. ORGANIZING THE HOUSE

Rule 1. Election of Officers; Selection of Party Leaders; Succession

PART II. OFFICERS, PARTY LEADERS, AND EMPLOYEES

Rule 2. The Speaker

- Rule 59. Rules: Amendment
- Rule 60. Rules: Suspension
- Rule 61. Parliamentary Practice

PART XIII. CODE OF LEGISLATIVE CONDUCT

- Rule 62. Standards of Conduct

PART XIV. SOCIAL MEDIA POLICY

- Rule 63. Social Media Policy

PART I. ORGANIZING THE HOUSE**Rule 1. Election of Officers; Selection of Party Leaders; Succession**

- 1.1. When the House convenes, the member from the First Representative District shall act as temporary presiding officer. The House shall then immediately elect a temporary chair. The temporary chair shall appoint a temporary Chief Clerk and a credentials committee of no fewer than three members.
- 1.2. The credentials committee shall immediately examine the credentials of the members elected. Upon verification that the credentials are in order, the credentials committee shall report this to the House, and the temporary chair shall order the temporary Chief Clerk to call the roll.
- 1.3. The temporary chair shall then appoint a committee of no fewer than three members to wait upon a justice of the Supreme Court or a judge of the Intermediate Court of Appeals or Circuit Court to administer the oath of office, as required by the Constitution of the State of Hawaii. After the oath has been duly administered, the House shall organize by electing by resolution, a Speaker, Vice Speaker, Chief Clerk, Assistant Chief Clerk, Sergeant-at-Arms, and Assistant Sergeant-at-Arms and by adopting Rules.
- 1.4. The members of the majority and minority parties shall designate, respectively, a Leader, a Caucus Leader, a Floor Leader, Whips, Assistant Leaders, and Assistant Floor Leaders, or other positions as they may choose to have.
- 1.5. The Speaker and Vice Speaker shall hold office during the term for which they are elected to the House, unless sooner removed by majority vote of the House. If they are reelected to membership in the House for the succeeding term, they shall retain their respective positions until the day before the opening day of the succeeding Legislature.
- 1.6. The Majority Leader, Majority Caucus Leader, Majority Floor Leader, Minority Leader, Minority Caucus Leader, Minority Floor Leader, Whips, Assistant Leaders, and Assistant Floor Leaders as the House members of the majority and minority parties shall hold office during the term for which they were elected to the House, unless sooner removed by their respective parties.
- 1.7. If the office of Speaker becomes vacant, the Vice Speaker shall serve as acting Speaker until a successor Speaker is duly elected by the House.
- 1.8. Any vacancy in the office of Speaker and Vice Speaker shall be filled by election by the House.

PART II. OFFICERS, PARTY LEADERS, AND EMPLOYEES**Rule 2. The Speaker****2.1.** It shall be the duty of the Speaker to:

- (1) Open the meetings of the House;
- (2) Maintain order in the House Chamber and require proper decorum at all times on the part of all those present in the House Chamber;
- (3) Announce the business before the House in the order prescribed by these Rules;
- (4) Receive all matters brought properly before the House and submit them to the House, and call for votes on these matters and announce the results of the votes;
- (5) Consult with and advise the committees of the House and assist them in their work as an ex officio member without vote;
- (6) Receive all communications from other branches of the Government and present them to the House;
- (7) Assign to each member of the House a seat on the floor of the House; until the Speaker assigns seats to the members, they may occupy any vacant seat;
- (8) Authenticate all acts of the House by signing appropriate documentation;
- (9) Make known the Rules of Order upon request and decide all questions of order, subject to appeal to the House;
- (10) Issue warrants to arrest offenders upon the order of the House, and issue subpoena and subpoena duces tecum requiring the attendance of witnesses or the production of books, documents, or other evidence in any matter pending before the House or any committee;
- (11) Clear the House of any or all persons except its members and officers if the House adopts a motion to require it, or if there is a disturbance or disorderly conduct at any time;
- (12) Direct committees of the House to consider messages from the Governor or other communications from the executive;
- (13) Appoint any member to preside over the meetings of the House if the Vice Speaker, Majority Leader, and Majority Floor Leader are not available to perform such duties, but such substitution shall not extend beyond an adjournment;
- (14) Within four session days, refer all bills to committees, subject to an appeal to the House. In referring bills to one or more standing committees, the first referral shall be to the standing committee whose area of responsibility as described in Part III of these Rules is most closely related to the subject matter contained in the bill being referred. In the case of multiple committee referrals, the Speaker shall name the standing committee referred to in the sentence immediately preceding as the committee having primary responsibility for making recommendations for action on the bills so referred. However, where more than one standing committee could qualify as the committee having primary responsibility, preference shall be given to the committee having jurisdiction on a statewide, rather than a local, basis.

The chair of a standing committee affected by a referral of a bill may appeal the referral to the Speaker within 24 hours from the time the referral sheet containing the subject referral is made available to the members of the House. The Speaker shall review the appeal and shall meet with the chair and the chair(s) of the standing committee(s) affected by the referral to settle their differences. If the Speaker is unable to settle the differences between and among the chairs of the standing committees involved within 48 hours after the filing of the appeal, the Speaker shall immediately forward the appeal to the Review Panel, which shall make its recommendation to the Speaker within 24 hours after receipt of the appeal. If the Speaker shall concur with the recommendation of the Review Panel, the referral of the bill shall stand or the bill shall be re-referred, as the case may be, according to or consistent with the recommendation. If the Speaker disagrees with the recommendation of the Review Panel, the Speaker shall submit reasons in writing in support of the Speaker's decision to the Review Panel and the chairs of the standing committees involved within 24 hours of the receipt of the recommendation from the Review Panel. The Speaker's decision shall be the final disposition of the matter.

The Review Panel shall be composed of the Majority Leader who shall serve as chair, the Vice Speaker, and Majority Floor Leader;

- (15) Appoint the chair and members of conference committees pursuant to Rule 16;
- (16) Establish final dates for action on legislation. These shall include the final date for introducing bills pursuant to Rule 34.4, the final date for third reading of House bills, the final date for third reading of Senate bills, the final date for approving conference committee agreements and drafts of bills, the final date for final reading of the General Appropriations Bill, and the final date for final reading of the Supplemental Appropriations Bill. The Speaker shall coordinate with the President of the Senate to establish these final dates within seven days after the opening of the legislative session;
- (17) Notify members of the names of individuals nominated for or appointed to a task force, commission, working group, or similar position requiring the Speaker to nominate individuals for such a position. The Speaker, or the Speaker's designee, shall maintain a master list that shows all of the individuals nominated or appointed by the Speaker, along with the terms of service for these nominees and the date when a subsequent nomination will have to be named and/or filled by the Speaker; and
- (18) Perform other duties required by law or these Rules.

2.2. To facilitate House floor proceedings, the Speaker may establish dates for a consent calendar consisting of all third and/or final reading bills that have not been selected for debate by any member. Said bills shall be considered without debate, but members shall be permitted to insert into the House Journal written remarks in support of or in opposition to the measure, consistent with the usual practices of the House. If a consent calendar is established pursuant to this rule, the Speaker shall set the deadlines for members to communicate to the Chief Clerk their intention to debate calendared bills.

- 2.3. The Speaker after giving all members at least 15 days prior written notice may authorize legal action on behalf of the House and shall notify members of non-confidential legal action taken on behalf of the House, provided no other external legal actions affecting the Legislature's interest shall necessitate more expedient action by the House. The Speaker shall not less than annually report the status of each legal action and disclose expenditures and costs to the members.

Rule 3. The Vice Speaker

The Vice Speaker shall consult with and advise the standing committees and assist them in their work and shall perform such other duties as may be assigned by the Speaker. In the absence of the Speaker, the Vice Speaker shall exercise all the duties and powers of the Speaker.

Rule 4. Party Leaders

- 4.1. The majority and minority parties may choose to have Leaders, Caucus Leaders, Floor Leaders, Whips, Assistant Leaders, and Assistant Floor Leaders. These positions shall perform such duties as may be assigned by their respective memberships.
- 4.2. If the Speaker and Vice Speaker are absent when the House convenes, the Majority Leader or Majority Floor Leader, in that order, may convene the House and shall serve as Acting Speaker until the Speaker or Vice Speaker returns.

Rule 5. The Chief Clerk

- 5.1. The Chief Clerk shall be responsible for the safekeeping of all records of the House. The Chief Clerk shall retain possession of all original documents, unless the Speaker orders the Chief Clerk to release the records to someone else.
- 5.2. The Chief Clerk shall make a record each day of all matters brought before the House. This record shall state in a complete and concise manner, the nature of the matters brought before the House, the names of their introducers, and the date and day of the session on which the House considered the matters. This daily record and such additional matters as the Speaker may order the Chief Clerk to include in it shall constitute the Journal of the House, a copy of which shall be made available on the following session day or as soon thereafter as practicable. The House shall approve the Journal, subject to corrections, by vote of the House. However, the House may dispense with the reading of the Journal by majority vote.
- 5.3. The Chief Clerk shall read all bills, resolutions, and other matters aloud to the House when the House requires it.
- 5.4. The Chief Clerk shall immediately forward all communications and other matters the Chief Clerk receives to the parties to whom they are addressed.
- 5.5. The Chief Clerk shall deliver immediately to the chairs of the appropriate committees all matters duly referred to those committees.
- 5.6. The Chief Clerk shall maintain for the committees of the House a record of subjects contained in messages from the Governor, which are referred to the committees.
- 5.7. The Chief Clerk shall keep a record of all questions of order and the decision on each of them, and the Chief Clerk shall append this record to the Journal at the close of the session.
- 5.8. The Chief Clerk shall perform all other duties appropriate to the Chief Clerk's office that the House or the law assigns.

Rule 6. Assistant Chief Clerk

The Assistant Chief Clerk of the House shall assist the Chief Clerk in all duties. In the absence of the Chief Clerk, the Assistant Chief Clerk shall perform all duties of the Chief Clerk.

Rule 7. Sergeant-at-Arms

- 7.1. The Sergeant-at-Arms shall:
- (1) Execute the orders of the Speaker;
 - (2) Attend every session of the House;
 - (3) Maintain order among persons who attend the sessions of the House;
 - (4) Notify the presiding officer of the presence of persons who have communications for the House or who otherwise are of interest to the House;
 - (5) Keep the entrances and exits of the House clear at all times, and keep from the floor of the House all persons except members of the House, authorized employees of the House, and guests of the House;
 - (6) If requested, maintain order among persons attending meetings or hearings of committees of the House;
 - (7) Serve all orders or process directed by the Speaker or the House;
 - (8) Make all arrests ordered by the Speaker or the House and restrain persons in custody;
 - (9) Be responsible for the House postal service; and
 - (10) Be responsible for the House's safety and security operations, including emergency procedures.
- 7.2. The Sergeant-at-Arms shall be responsible for making purchases for the House in accordance with the House Administrative and Financial Manual.

- 7.3. The Sergeant-at-Arms shall be custodian of all property of the House and shall perform all duties related to its safeguard, care, and maintenance as provided in Part VIII of the House Administrative and Financial Manual.

Rule 8. Assistant Sergeant-at-Arms

The Assistant Sergeant-at-Arms shall assist the Sergeant-at-Arms in all duties. In the absence of the Sergeant-at-Arms, the designated Assistant Sergeant-at-Arms shall perform all duties of the Sergeant-at-Arms.

Rule 9. Officers and Employees: Responsibilities; Salaries

- 9.1. In addition to the responsibilities assigned by law and these Rules, all officers and employees of the House may be assigned responsibilities by their respective appointing authorities.
- 9.2. The pay of each member shall be pursuant to Article XVI, Section 3.5 of the Constitution of the State of Hawaii. Officers and employees of the House shall be employed and paid as authorized in the House Administrative and Financial Manual.

Rule 10. Officers and Employees: Floor Session Attire

While present on the floor of the House Chamber, each member shall be dressed in court attire; provided that on Fridays, any member may dress in aloha attire. "Court attire" means coat and tie for men and jackets for women.

PART III. COMMITTEES

Rule 11. Standing Committees: Composition; Chair; Decision-making; Reports

- 11.1. Standing committees shall be committees established to consider and report on all bills, petitions, resolutions, budgets, and any other matters referred to such committees.
- 11.2. The composition of the standing committees shall be as follows:
- (1) The membership of each standing committee shall be appointed by the Speaker. The respective chairs and vice-chairs of each standing committee shall be appointed by the Speaker; and
 - (2) The membership of each standing committee, including the designation of the chair and vice-chair shall be provided for by resolution, provided, however, that the composition of the committee shall be on a proportional basis with the members of each party.
- 11.3. The chair of each standing committee shall call and preside over all standing committee meetings; determine the order of deliberations on bills, resolutions, and other matters over which the standing committee as a whole retains jurisdiction; coordinate the scheduling of meetings and public hearings of the standing committee and assure that such schedules and agendas are posted or distributed as required by these Rules; establish guidelines to coordinate the flow of work to assure that directions of the House are fulfilled; supervise the work of the committee staff; and supervise the maintenance and disposition of the records of proceedings of the standing committee. The vice-chair shall, at the request of the chair, assist the chair in the performance of any duties. The vice-chair shall perform the duties of the chair in the chair's absence.

If the chair and vice-chair are unavailable to preside over a committee meeting, the Speaker may designate a committee member from the majority party to preside over the meeting.

If the chair and vice-chair are unavailable to sign a meeting notice, committee report, or other committee document in time to meet an applicable deadline, the Speaker may sign the document.

If a chair of a standing committee refuses a request of a majority of the committee members to set for public hearing a bill or resolution referred to the committee, the majority of the committee members may petition the Review Panel established under Rule 2.1(14) to compel the chair to set the bill or resolution for public hearing. The Review Panel shall establish a process pursuant to which the Review Panel shall receive and consider the petition and shall make a recommendation to the Speaker. If the Speaker concurs with the recommendation of the Review Panel, the chair shall either be sustained or be directed to duly set the bill or resolution for public hearing at the next available date according to or consistent with the recommendation. If the chair refuses to comply with the order of the Speaker, then the vice-chair shall act as chair for the purpose of hearing the bill or resolution under consideration. If the vice-chair refuses, then the Speaker may appoint any member of the House to act as temporary chair. If the Speaker objects to the recommendation of the Review Panel, the Speaker shall submit reasons in writing to support the Speaker's decision, which shall be the final disposition of the matter.

- 11.4. The chair of each standing committee shall keep a record of public hearings and shall file the same with the State Archives, through the Speaker as soon as practicable after each session.

11.5. *Standing Committee Meetings.*

- (1) Meetings (hearings and informational briefings) shall be held in public, be simultaneously broadcast, and be recorded for subsequent viewing on the legislative platform. The public may attend meetings in person or via broadcast. Meeting notices shall include instructions relating to public participation and public testimony. In the event of any unforeseeable or unavoidable circumstances that are beyond the control of the House or any other party, the committee may (a) proceed without simultaneous broadcast or (b) cancel or reschedule the meeting.
- (2) Notice of meetings shall be publicly posted or announced on the House floor at least 48 hours prior to the meeting. Except for notices posted by the Committee on Finance, notice shall be posted before 4:30 p.m. on the last day of the work week for a hearing to be held on the following Monday or Tuesday. Notice of meetings may be shortened at the discretion of the Speaker upon request on the House floor by a chair or vice-chair and upon good cause shown.
- (3) As practicable, standing committees shall schedule their meetings at times and at places as are convenient for attendance by the general

public and shall, in coordination with other committees of the House or Senate, endeavor to hold joint meetings and public hearings on matters of mutual interest.

- (4) The House will make available to the committee members and the public any testimony that is submitted to the standing committee prior to or at the applicable testimony submission deadline, at least two hours before the publicly-noticed time of the meeting or briefing. Committee chairs are encouraged to release testimony to committee members and the public as early as possible. All written testimony received by the committee for decision making purposes will be made available to the public as soon as is practicable.
- (5) No bill or resolution other than a congratulatory resolution shall be reported out of a standing committee unless the measure shall have received a public hearing in the House; provided that a bill that contains only a reference to the general idea of the bill in short form and contemplates the subsequent drafting of the specific details in long form may be reported out of a standing committee without a public hearing so long as the bill is reported out:
 - (a) In an amended form containing the substantive contents of the bill in long form;
 - (b) Recommending that the bill be recommitted to the same committee for the purpose of holding a public hearing thereon after satisfaction of the notice requirements set forth in paragraph (2) above; and
 - (c) Without recommendation for passage on any reading of the bill.
- (6) Upon the request of a chair of a standing committee, the Speaker may authorize the chair and the members of the standing committee to conduct a community-based public hearing whenever appropriate and practicable, subject to notice as required in paragraph (2) above. "Community-based public hearing" means a hearing conducted by a standing committee outside the State Capitol building at a location within the community for the purpose of accommodating the public to be heard on the matter under consideration by the standing committee.
- (7) No standing committee shall sit during the time when the House is actually in session except with the permission of the Speaker.

11.6. Committee Decision-making.

- (1) A quorum of the committee, which shall be a majority of the committee membership, shall be present for decision-making.
- (2) Committee decision-making shall be by a majority of the members present. Reporting a measure out of the committee shall require a favorable vote of not less than a majority of the members present at a meeting duly constituted with a quorum. Any member voting "with reservations" shall be deemed to be in favor of the recommendation.
- (3) The vice-chair of the committee, or the designee of the chair in the absence of the vice-chair, shall be the recorder of the record of the quorum and the votes.

In the case of a joint hearing, the vice-chair of the lead committee, or the designee of the lead committee chair in the absence of the vice-chair, shall be the recorder of the record of the quorum and the votes of all the committees party to the public hearing, unless otherwise agreed to by the respective chairs. A member's vote on a measure shall be the same for all committees that the member may sit on.

- (4) After hearing a measure, the chair shall recommend with sufficient explanation one of the following recommendations for the measure: (a) passed with or without amendment, (b) held, or (c) deferred. A recommendation to pass a measure may include language that defects the measure to ensure further deliberation upon the measure. A measure that is held is a decision to conclude consideration of a measure, subject to reconsideration. A measure that is deferred is a decision to postpone consideration of a measure to a time certain or indefinitely. A vote shall be taken with respect to a recommendation to pass a measure and favorable action by the committee shall be conveyed in a committee report.
- (5) If a committee reports out a bill or resolution with proposed amendments that may affect the referral of that bill or resolution, the committee chair shall, within 24 hours, notify the Speaker.

11.7. Standing Committee Reports.

- (1) Standing committees shall report from time to time upon matters referred to them with such copies as may be designated by the Speaker. Such reports shall be printed by the House and be furnished to each member.
- (2) The reports shall state findings of facts and conclusions based thereon, together with a distinct recommendation as to the disposition of the matter.
- (3) A report recommending a measure for passage shall clearly state the legislative intent and purpose of the measure. The chair shall attest to the action of the committee by signing the report on behalf of the committee. A record of the quorum present at the meeting and a record of the votes of the members of the committee on the bill or resolution as attested to by the recorder shall be attached to the report as a part thereof.
- (4) A report upon a measure shall state clearly the proposed amendments, if any. If a proposed bill, for one or more bills referred to the committee, shall be reported, such proposed bill shall be consistent with the subject of the bill or bills referred to the committee. The report shall describe the disposition of the bill or bills referred.
- (5) All matters referred to and not reported upon by the standing committees shall be returned to the Chief Clerk at the close of the regular session in the even-numbered year.

Rule 12. Standing Committees: Description

Standing committees shall be created by resolution at the opening of the session, or as soon thereafter as possible, to serve during the legislative session. The standing committees therein shall be as follows:

- (1) Committee on Agriculture & Food Systems, whose scope shall be those programs relating to the Department of Agriculture, agriculture, aquaculture, crop and livestock production, food production and distribution, agricultural parks, animal welfare, invasive species, and other pertinent matters referred to it by the House.
- (2) Committee on Consumer Protection & Commerce, whose scope shall be those programs relating to consumer protection, the Department of Commerce and Consumer Affairs, the regulation of trade, business, professions, occupations, and utilities, the Residential Landlord-Tenant Code, condominiums, housing cooperatives, planned communities, insurance, financial institutions, and other pertinent matters referred to it by the House.
- (3) Committee on Culture & Arts, whose scope shall be those programs related to Hawaii's multi-cultural heritage and the State Foundation on Culture and the Arts; and other pertinent matters referred to it by the House.
- (4) Committee on Economic Development & Technology, whose scope shall be those programs relating to private sector job creation, public-private business or investment partnerships or ventures, new industry development, planning for economic development and diversification, industrial and product promotion and financial and technical assistance to business for interstate and intrastate commerce, broadband and cable communications and services, intergovernmental relations, and technology and cybersecurity, and other pertinent matters referred to it by the House.
- (5) Committee on Education, whose scope shall be those programs relating to early childhood education, primary and secondary schools, continuing education, libraries, and other pertinent matters referred to it by the House.
- (6) Committee on Energy & Environmental Protection, whose scope shall be those programs relating to energy resources, electric and gas utilities, the development of new energy resources, energy efficiency, and electrification of transportation; programs relating to climate change mitigation, including decarbonization, emissions reduction, and carbon sequestration; programs relating to environmental health, including air pollution, drinking water, hazardous waste, solid waste, recycling, and wastewater management; programs relating to natural resources protection and conservation; programs relating to environmental impact assessment and chapter 343, Hawaii Revised Statutes; and other pertinent matters referred to it by the House.
- (7) Committee on Finance, whose scope shall be those programs relating to overall state financing policies, including taxation and other revenues, cash and debt management, statewide implementation of planning, programming, budgeting, and evaluation, and procurement and the Procurement Code, and other pertinent matters referred to it by the House.
- (8) Committee on Health, whose scope shall be those programs relating to general health, maternal and child care, dental health, medical and hospital services, mental health, hospitals, community health care facilities, and communicable diseases; and other pertinent matters referred to it by the House.
- (9) Committee on Higher Education, whose scope shall be those programs relating to the University of Hawaii, the community colleges, and other institutions of post-secondary education, intercollegiate athletics, and the Waikiki Aquarium; and other pertinent matters referred to it by the House.
- (10) Committee on Housing, whose scope shall be those programs relating to housing development financing, assistance for homebuyers and renters, affordable and rental housing, public housing, and other pertinent matters referred to it by the House.
- (11) Committee on Human Services & Homelessness, whose scope shall be those programs relating to financial assistance, medical assistance, vocational rehabilitation, social welfare services, the general well-being of the State's elderly and youth, and juvenile correctional services, and homeless services and sheltering, and other pertinent matters referred to it by the House.
- (12) Committee on Judiciary & Hawaiian Affairs, whose scope shall be those programs relating to the courts, crime prevention and control, penal code, criminal enforcement, police and law enforcement, prosecution, sentencing, disposition, and punishment, probation, parole, furlough, and other alternatives to incarceration, indigent legal representation and defense matters, civil law, firearms, weapons, judicial and legal questions, constitutional matters, the Attorney General, the Judiciary, individual rights, civil rights and liberties, the Civil Rights Commission, the Ethics Code, campaign spending, and elections; and persons of Hawaiian ancestry, including programs administered by the Department of Hawaiian Home Lands and the Office of Hawaiian Affairs; and other pertinent matters referred to it by the House.
- (13) Committee on Labor, whose scope shall be those programs relating to employment, government operations and efficiency, employee pay and benefits, employee recruitment, classification and training, career development, employee performance, employment conditions, standards of conduct for employers and employees, collective bargaining in public employment, the civil service system, workers' compensation, unemployment compensation, temporary disability insurance, prepaid health care, employment opportunities, and labor-management relations in the private sector; and other pertinent matters referred to it by the House.
- (14) Committee on Legislative Management, whose scope shall be those programs relating to the administrative operations and legislative services of the House, including the Legislative Reference Bureau, Legislative Auditor, Office of the Ombudsman, Public Access Room, the Hawaii State General Plan, and other pertinent matters referred to it by the House.
- (15) Committee on Public Safety, whose scope shall be those programs relating to adult corrections, rehabilitation, and correctional facilities and industries; military facilities, activities, and veterans' affairs; and emergency management, including prevention, preparation, response, and recovery from civilian emergencies and disasters, and the safety, welfare, and defense of the State and its people; and other pertinent matters referred to it by the House.
- (16) Committee on Tourism, whose scope shall be those programs relating to tourism, including the Hawaii Convention Center, Hawaii Visitors and Convention Bureau, and Hawaii Tourism Authority, and other pertinent matters referred to it by the House.
- (17) Committee on Transportation, whose scope shall be those programs relating to the development and maintenance of air, water, and ground transportation, infrastructure, and facilities, and other pertinent matters referred to it by the House.
- (18) Committee on Water & Land, whose scope shall be those programs relating to climate adaptation to the actual or expected impacts of

climate change; land and water resource administration and use, coastal lands, the Land Use Commission, county land use planning and zoning, the Hawaii Community Development Authority, infrastructure development, outdoor recreation, fresh water and brackish waters, small boat harbors and their infrastructure, State parks, historic sites development and protection, ocean activities and outdoor marine matters, the Coastal Zone Management Act; and other pertinent matters referred to it by the House.

Rule 13. Standing Committees: General Responsibility; Special Responsibility

13.1. *Standing Committees: General Responsibility.* It shall be the duty of each standing committee to:

- (1) Consider all bills, petitions, and resolutions as may properly come before it;
- (2) Review those portions of the State's program and financial plan and variance reports as may relate to programs over which the committee has primary responsibility. Through informational briefings, it shall gather information and examine those portions of the executive budget and the General and Supplemental Appropriations Bills relating to such programs and recommend to the Committee on Finance the programs and amounts to be spent thereon (The executive budget and the General and Supplemental Appropriations Bills are hereinafter collectively referred to as the "State budget."). The recommended programs and amounts, taken as a whole, shall be consistent with and within the expenditure amounts allocated by the Committee on Finance;
- (3) Determine the objectives of any bill referred to it and make appropriate recommendations, including, if proper, expenditure recommendations on other bills referred to it by the House. Such expenditure recommendations shall be consistent with the allocations established by the Committee on Finance. On bills that relate to programs and matters over which a standing committee to which they are referred has no primary responsibility, the standing committee shall propose no substantive change to the bill unless prior concurrence of the chair of the committee which has the primary responsibility is first obtained. If the chair of the standing committee, which has primary responsibility over programs and matters of a bill, does not concur with the substantive change to the bill affecting such programs and matters sought to be proposed by a standing committee, any of the chairs of the standing committees involved may submit the matter to the Speaker for resolution. The Speaker shall meet with the chairs of the standing committees involved, hear their differences, and settle their differences with a decision, which shall be the final disposition of the matter; and
- (4) Review how programs over which it has primary responsibility have been carried out in compliance with legislative direction and whether studies, analysis, and audit should be conducted on all or part of the program in order to define issues and recommend improvements. Each standing committee shall also recommend amendments to existing appropriation acts and may further recommend revenue measures and improvements to the State's planning, programming, budgeting, and evaluation system to the Committee on Finance.

13.2. *Committee on Finance: Special Responsibility.* The Committee on Finance shall:

- (1) Have final responsibility over all programs and matters relating to the State's financing policies, including taxation and other revenues, level of expenditures, cash and debt management, and to the statewide implementation of planning, programming, budgeting, and evaluation. Subject to the provisions of these Rules, it shall consider the reports of the fiscal officers of the State, all bills, petitions, and resolutions, those portions of the state budget, and all other items pertaining to such programs and matters. It shall also consider such other pertinent items as may be referred to it by the House;
- (2) Establish, within the revenue raising ability of the State, the general level of total governmental expenditures for each fiscal year of a biennial period and allocate to each standing committee a proportionate part of such expenditures. Each standing committee shall be responsible for budget review of the programs within its jurisdiction and for making program expenditure recommendations to the Committee on Finance. Upon receipt of the recommendations of the other standing committees, the Committee on Finance shall review the same to determine if, when taken as a whole, the programs and amounts to be expended thereon are consistent with and within the expenditure amounts it has allocated to the respective standing committees. In making allocations to and in reviewing recommendations, the Committee on Finance shall invite the participation of the chair of the standing committee having primary responsibility over the program. After review of all standing committee recommendations, the Committee on Finance shall be responsible for preparing the General and Supplemental Appropriations Bills for consideration by the House; and
- (3) In all other appropriation bills, inform the standing committee primarily responsible for the program or matter under consideration, of the amount and type of finances available. Upon receiving recommendations for the expenditures from the appropriate standing committee, the Committee on Finance shall review such recommendations to determine if, when taken as a whole, the recommendations are consistent with and within the expenditure amounts allocated. In reviewing recommendations of the standing committees, the Committee on Finance shall invite the participation of the standing committee chair concerned.

13.3. *Committee on Legislative Management: Special Responsibility.* The Committee on Legislative Management shall:

- (1) Make recommendations to the Speaker on the procedures and manner in which the administrative operations of the House should be conducted;
- (2) Make recommendations to the Committee on Finance on the expenses to be included in the appropriation bills providing for the expenses of the Legislature and procedures to ensure that the expenses of the House are in accordance with the appropriation acts providing therefore; and
- (3) Make recommendations to the Speaker on programs relating to the establishment and operations of the House staff.

Rule 14. Special Committee

- 14.1.** The Speaker may appoint special committees for special or temporary purposes to consider and report on such special or temporary matters referred to it.
- 14.2.** Special committees shall consist of not less than three members each, unless otherwise ordered by the House, to serve until discharged or until finally reporting on such matters referred to them.

- 14.3. Meetings of special committees shall be conducted in the same manner as provided for standing committees.
- 14.4. Special committees shall report upon matters referred to them within the time prescribed under the appointment of the special committees, unless further time is given by vote of the House.

Rule 15. Committee of the Whole

- 15.1. Whenever any matter shall be referred to the entire membership of the House by adoption of a motion to that effect, the House may at any time thereafter resolve itself into a Committee of the Whole to be chaired by the Speaker.
- 15.2. The Chief Clerk of the House shall act as Clerk of the Committee of the Whole, without extra compensation, and shall make a careful record of the proceedings, which shall be filed as one of the records of the House.
- 15.3. The committee may, on motion, rise and ask leave to sit at any future time. The rules of procedure in the House shall be observed, except as follows:
 - (1) Any member may speak more than once on the same subject, provided that the member shall not speak a second time or further until others desiring to speak have had an opportunity; and
 - (2) The motion for the "previous question" shall not be allowed.

Rule 16. Conference Committee

- 16.1. Conference committees shall consist of not less than three members each unless otherwise ordered by the House to be appointed for the purpose of resolving differences between the House and the Senate on any matters where the joint agreement of the House and the Senate is required and shall serve until discharged or until finally reporting on the matter referred to it.
 - 16.2. The composition of the conference committee shall be as follows:
 - (1) The chair of the standing committee having primary responsibility of the subject matter to be resolved shall be the chair of the conference committee on the part of the House. In the absence of the chair of the conference committee, a designee of the chair shall serve as chair; and
 - (2) The membership of a conference committee shall be on a proportional basis. In appointing the minority party members, the Speaker shall consult with the minority leadership of the House.

The Speaker shall appoint the members of a conference committee as the Speaker and the chair of such standing committee having primary responsibility of the subject matter shall so mutually agree.
 - 16.3. The chair of the Committee on Finance shall be designated the chair of the conference committee on the General and Supplemental Appropriations Bills. The chair shall invite the participation of the chair of the standing committee having primary responsibility over the program or matter, as described in Part III of these Rules, to which the appropriation relates. After review, the chair of the conference committee shall be responsible for preparing the budgets for consideration by the House.
 - 16.4. The meetings of the conference committee shall be conducted as agreed upon by the members of the conference committee, subject to the provisions of Rule 16.5. It is the position of the House that conference committee meetings and decision-making sessions shall be public. Public notice of the meetings shall be given. Public notice may be posted or announced on the House floor during the session day. Subsequent meetings may be announced during conference committee meetings.
 - 16.5. The authority of a conference committee shall be limited solely to resolving differences between the House and the Senate versions of a bill or resolution.
- Accordingly, a conference committee shall not amend a bill or resolution by inserting into the bill or resolution any unrelated or new subject; provided that the restrictions in this Rule shall not apply to the General and Supplemental Appropriations Bills; provided further that any increases to the salaries, pensions, or retirement benefits for any elected or appointed officer of the State or County shall be considered by separate bill other than the aforesaid Appropriations Bills or any bill ratifying collective bargaining agreements.

Rule 17. Interim Committee

- 17.1. Interim committees may be established between regular sessions to accomplish specified objectives and work. The appointment of interim committees shall be completed by the Speaker as soon as practicable.
- 17.2. The composition of interim committees shall be as follows:
 - (1) The chair of the interim committee shall be the chair of the standing committee having primary responsibility, as defined by these Rules, over the program or matter to be considered by the interim committee; and
 - (2) The membership of the interim committee shall be on a proportional basis. In appointing the minority party members to the interim committee, the Speaker shall consult with the minority leadership of the House. The Speaker shall appoint the members of an interim committee as the Speaker and the chair of the interim committee shall so mutually agree.
- 17.3. Interim committees may submit interim committee reports from time to time on matters referred to them. The reports shall state findings of facts and conclusions based thereon, together with such recommendations as to the disposal of the matter.

Rule 18. Committee on the Journal

- 18.1. A Committee on the Journal shall be appointed to: prepare, compile, and bind the House Journal; enter into contracts for printing and any other acts necessary to accomplish the purpose of printing the Journal; and distribute the Journal to the members of the House at the next regular

session.

- 18.2. The Committee on the Journal shall consist of the Speaker, Vice Speaker, Majority Leader, Majority Floor Leader, Minority Leader, Minority Floor Leader, and the chair of the Committee on Legislative Management, whose duty it shall be to prepare, compile, and bind the House Journal, and who shall be authorized to make contracts with any printer, publisher, or bookbinder for the printing and binding of said Journal. The Chief Clerk of the House shall act as Clerk of the Committee on the Journal. The committee shall report from time to time to the House.
- 18.3. The Committee on the Journal may correct certain errors in all proper cases, and shall correct any mere clerical errors in the compilation of the Journal, such as errors in orthography or the use of one word for another as "affect" for "effect," "previous" for "previously," and the like. No corrections other than such as are authorized by this Rule shall be made at any time by the Clerk or the Clerk's assistants, unless upon order of the committee.

Rule 19. Advisory Committee on Rules and Procedure

The Speaker shall, prior to the convening of a legislative session in an odd- numbered year, establish an Advisory Committee on Rules and Procedure. The committee shall include at least one member from the minority party. The Advisory Committee on Rules and Procedure shall review these Rules and propose to the House such amendments as the committee deems appropriate.

Rule 20. Open Committee Meetings

Every meeting of a committee of the House or of a committee composed of a member or members from the House and the Senate held for the purpose of making decisions on matters referred to the committee shall be open to the public and appropriately noticed in accordance with this Part; provided that certain kinds of meetings, including but not limited to executive sessions, organizational meetings, partisan caucuses, advisory committees, and meetings the subject of which involves the invasion of a person's right to privacy if made public, need not be open to the public.

PART IV. SESSIONS; ATTENDANCE

Rule 21. Meetings

- 21.1. After the opening day of the Legislature, the House shall meet for the transaction of public business every day except Saturday, Sunday, any legal holiday, and any day in recess, and such other day as the House shall designate.
- 21.2. The House shall determine from time to time the normal hour of its meetings.
- 21.3. Each regular session shall be recessed for not less than five days at some period between the twentieth and fortieth days of the regular session. The House shall, by concurrent resolution, determine the dates of the mandatory recess. Any session may be recessed when a majority of the members of each house adopts a concurrent resolution for that purpose. When directed by a resolution adopted by the House, the Speaker shall consult with the President of the Senate to agree upon the time of a recess or recesses.

Rule 22. Quorum

- 22.1. A majority of the members to which the House is entitled constitutes a quorum, of which a majority vote shall suffice for the conduct of ordinary business unless otherwise provided in these Rules, but the final passage of a bill shall require the vote of a majority of all members to which the House is entitled.
- 22.2. A majority of less than a quorum may adjourn from day to day and compel the attendance of absent members.
- 22.3. If a quorum is not present at the designated time of meeting, the Speaker may declare the House adjourned.
- 22.4. The Speaker shall count the number of members present to determine whether there is a quorum.

Rule 23. Attendance

No member shall be absent from service to the House, unless the member is sick and is unable to attend or is excused by the Speaker.

Rule 24. Adjournments

- 24.1. Meetings of the House may be adjourned at any time by vote. Every adjournment shall be until the normal hour of meeting on the next business day, unless the motion for adjournment specifies otherwise.
- 24.2. A motion to adjourn is always in order and shall be decided without debate. However, one motion to adjourn shall not follow another without intervening business.
- 24.3. A motion to adjourn sine die or to adjourn to a specified time may be debated. No member shall speak more than once on such a motion.

Rule 25. Extension of Session

- 25.1. Two-thirds of the members to which the House is entitled, two-thirds of the Senate concurring, may petition the Speaker of the House and the President of the Senate to extend any session of the Legislature. The petition shall read:

"To the Speaker of the House of Representatives and the President of the Senate:

Your petitioners, members of the House of Representatives and of the Senate of the ____ Legislature of the State of Hawaii, respectfully request an extension of ____ days beyond the ____ day of the Regular Session of ____ of the ____ Legislature of the State of Hawaii."

- 25.2. The petition shall be in writing, above the signatures of the members.
- 25.3. When the Speaker of the House receives such a petition, and it is properly signed by two-thirds of the members to which each house is entitled, the Speaker and the President of the Senate shall jointly issue a proclamation extending the session for the number of days sought in the petition.

Rule 26. Special Sessions

- 26.1. Two-thirds of the members to which the House is entitled, two-thirds of the Senate concurring, may petition the Speaker of the House and the President of the Senate to call a special session of the Legislature. The petition shall read:

"To the Speaker of the House of Representatives and the President of the Senate:

Your petitioners, members of the House of Representatives and of the Senate of the ____ Legislature of the State of Hawaii, respectfully request the convening of a special session of ____, the ____ Legislature of the State of Hawaii."

- 26.2. The petition shall be in writing, above the signatures of the members.
- 26.3. When the Speaker of the House receives such a petition, and it is properly signed by two-thirds of the members to which each house is entitled, the Speaker and the President of the Senate shall jointly issue a proclamation convening the Legislature in special session at the time and place sought in the petition.

PART V. ORDER; DECORUM

Rule 27. Questions of Order

Any member may raise a question of order at any stage in the proceedings of the House, except during a roll call vote. The Speaker shall decide questions of order without debate, subject to an appeal of the House. Laying an appeal on the table shall sustain the Speaker's ruling.

Rule 28. Decorum: Punishment for Violations

- 28.1. No person shall sit at the desk of the Speaker or Chief Clerk, except by permission of the Speaker.
- 28.2. No person shall walk out of the House Chamber or across the floor of the House while the Speaker is addressing the House. No person shall maintain a private discourse while the Speaker is addressing the House or a member is speaking. No person shall walk between the Speaker and a member who is speaking.
- 28.3. A question concerning conduct of the Speaker or members should not be presented by way of debate on other matters. Allusions or critical references to the Speaker or members are not in good order. Such attacks are not conducive to the good order of the House.
- 28.4. The Speaker shall order any member who conducts himself or herself in a disorderly manner during any session of the House to stay in his or her seat and be in order. The Speaker shall order the Sergeant-at-Arms to remove any member who persists in disorderly conduct from the House for the remainder of the day's session, unless the member who has been disorderly pledges to the House that he or she will maintain good behavior.
- 28.5. Any member who wishes to speak shall rise from his or her seat and address the Speaker, saying, "Mr. Speaker" or "Madam Speaker". When recognized, the member shall face the Speaker and address the question under debate. All debate shall be addressed to the Speaker and not to the membership or an individual member.
- 28.6. A member referring to another member should avoid using the member's name or political party, rather identifying the member by district, seat, as the member who last spoke, or other similar manner.
- 28.7. It is not the person but the measure that is the subject of debate, and it is not allowable to arraign the motives of a member, but the nature or consequences of a measure may be condemned in strong terms.
- 28.8. The Speaker shall call to order any member who violates these Rules while in session, and the member shall then immediately sit down. The Speaker shall then decide the question of order without debate, subject to an appeal to the House. The Speaker may call for the sense of the House on any question of order.
- 28.9. A member who is called to order while speaking shall retain the floor while the question of order is decided. However, the member may not proceed with the matter under discussion until recognized by the Speaker to continue.
- 28.10. Any member may demand that the Chief Clerk take down the words or actions objected to when a member is called to order for words spoken or actions taken during debate, and may ask that they be read for the information of the House.
- 28.11. The House may censure its members for disorderly conduct or neglect of duty. The House may also suspend or expel a member by a two-thirds vote of the total membership of the House.
- 28.12. The House may establish an investigating committee pursuant to chapter 21, Legislative Hearings and Procedure, Hawaii Revised Statutes, for the purposes therein mentioned.
- 28.13. Cell phones, pagers, and similar devices shall be kept in silent mode while on the floor of the House Chamber.

Rule 29. Disclosures and Punishment of Members

- 29.1. Each member shall file with the Ethics Commission of the State of Hawaii a financial disclosure, and any applicable amendments, as prescribed by law.

- 29.2. If a legislative matter that affects a member's interests arises before the member has filed a financial disclosure, or any amendments thereto, to the Ethics Commission, the member shall disclose his or her interest to the House pursuant to Rule 62 before voting.
- 29.3. In accordance with Rule 62, the Speaker shall appoint a Select Committee on Standards of Conduct to receive complaints and investigate any member for misconduct, disorderly conduct, neglect of duty, violation of chapter 84, Hawaii Revised Statutes, or violation of these Rules. The House may punish any member found guilty by such a committee by censure, suspension, or expulsion. Censure shall require the approval of a majority of the members to which the House is entitled. Suspension or expulsion shall require the approval of two-thirds of the members to which the House is entitled.

PART VI. ORDER OF BUSINESS

Rule 30. Order of Business: General; Order of the Day

30.1. The daily order of business shall be:

- (1) Roll call;
- (2) Reading and approval of the Journal unless the House by motion dispenses with such reading;
- (3) Messages from the Governor;
- (4) Reports and communications from the heads of agencies; and
- (5) Bills, resolutions, and other matters received from the Senate to be placed on the calendar.

30.2. At the option of the Speaker, prior to the convening of any session, there shall be an invocation. Any invocation shall be limited to 90 seconds, and should not be used to proselytize, advance, inhibit, or disparage any religion or point of view. Attendance at and participation in the invocation shall be voluntary for all persons. Additional guidelines may be issued via memorandum by leadership of the House.

30.3. The order of matters to be considered in the Order of the Day shall be:

- (1) Unfinished business upon which the House was engaged at the time of its last adjournment;
- (2) Reports of committees;
- (3) Petitions, memorials, and communications;
- (4) Second and third readings;
- (5) Introduction of bills and resolutions;
- (6) Any miscellaneous business on the Speaker's table; and
- (7) Announcements.

Rule 31. Order of Business: Special

The House may, by previous motion, direct that any matter be made a special order of business. Special orders shall take precedence over all business after the fourth order in the order of business. The House may also specify that special orders be taken up at a later specified point in the order of business.

Rule 32. Order of Business: Unfinished Business; Committee Reports and Messages

- 32.1. Any business that the House did not complete before its last adjournment shall have precedence in the Order of the Day. No motion or other business shall be received without special leave of the House until the unfinished business is disposed of.
- 32.2. Reports from conference committees and from the Committee on Legislative Management shall be in order at all times. Upon motion, messages or reports from the Governor, Judiciary, or from the Senate may be received at any time, provided that without unanimous consent such messages or reports shall not be in order for discussion when received but shall be placed on the calendar as "Unfinished Business".

Rule 33. Order of Business: Questions of Priority

All questions relating to the priority of business shall be decided without debate.

PART VII. BILLS AND RESOLUTIONS

Rule 34. Form: Bills, Resolutions, and Amendments

- 34.1. All bills and resolutions to be introduced shall be submitted in the form and in the number of copies designated by the Chief Clerk. Short form bills may also be introduced. All bills and resolutions shall be signed by the introducer in black ink.
- 34.2. Every bill introduced or reported out of any committee, which amends an existing section or subsection of the Hawaii Revised Statutes or Session Laws of Hawaii, shall set forth the section or subsection in full, and the matter to be deleted shall be enclosed in brackets and stricken, and any new matter added to the section or subsection shall be underscored. However, a bill need not conform to this rule if it is: (1) a Supplemental Appropriations Bill; or (2) a bill amending the intent and effect of which can be clearly identified and understood without repeating the entire section or subsection, in which case only the paragraphs, subparagraphs, clauses, or items to be amended need be set forth as the Speaker may allow. The Speaker may allow additional exceptions to this rule.

- 34.3. No floor amendment to a bill shall be voted upon unless a copy of such amendment shall have been presented to the Chief Clerk, who shall prepare and distribute copies of the amendment to each member of the House present.
- 34.4. The House shall, in concurrence with the Senate, provide for the date by which all bills to be considered in a regular session shall be introduced. This date shall precede the commencement of the mandatory recess provided for by Article III, Section 10 of the Constitution of the State of Hawaii.

Rule 35. Bills: First Reading

The first reading of a bill shall be by its title only.

Rule 36. Bills: Second Reading

On second reading, a bill may be read by title only, or, on motion, read throughout. It shall then be subject to a motion for referral to a committee. If it is referred to the Committee of the Whole instead of a special or standing committee, the chair of the Committee of the Whole shall set a day for its consideration. When a bill is reported by a standing committee, special committee, or the Committee of the Whole, and has passed second reading, it shall take its place in the order of business for future consideration.

Rule 37. Bills: Third or Final Reading

- 37.1. No bill shall pass third or final reading in the House unless printed copies of the bill in the form to be passed have been made available to the members of the House for at least 48 hours. "Form to be passed" means the form in which a bill is to be either: (i) passed on third reading in the House; (ii) concurred to by the House after amendments have been made by the Senate; or (iii) passed by the House after a conference committee has agreed upon it.
- 37.2. A bill on its third or final reading may be read by its title only, and the Speaker shall then ask the House, "Shall this bill pass its third reading?" or "Shall this bill pass its final reading?" as the case may be. Such bill may be amended on its third reading. For the final passage of any bill, the Ayes and Noes shall be called or a vote shall be taken pursuant to Rule 53.3 and such passage shall require the affirmative vote of a majority of all members to which the House is entitled. The vote upon third reading shall be upon a motion that the bill pass third reading, rather than upon adoption of a committee report, so that amendments to the bill may be offered at third reading and voted upon.
- 37.3. The House shall not concur with substantive amendments made by the Senate to a House bill until the chair of the standing committee having primary responsibility for the subject matter contained in the bill has granted prior concurrence to such amendments as provided for under Rule 13.1.

Rule 38. Bills: Recall from Committee

- 38.1. Any bill that has been referred to a committee may be recalled from that committee 20 days after referral, if one-third of the members to which the House is entitled vote in favor of the recall.
- 38.2. No parliamentary rule or procedure may supersede the constitutional right of recall of a bill from committee.

Rule 39. Bills: Certification

- 39.1. When the House passes a bill, the Speaker and the Chief Clerk shall certify it and note the day of its passage at the bottom of the last page of the bill.
- 39.2. When a bill introduced in the House passes third reading in the House, the Speaker and the Chief Clerk shall immediately send it to the Senate. Likewise, they shall send to the Senate any bill that the House receives from the Senate, amends, and passes on third reading in the House. Likewise, they shall send to the Senate any bill introduced in the Senate in the first regular session of a Legislature that passes third reading in the House in the second regular session of the same Legislature.

Rule 40. Bills and Resolutions: Order of Consideration

- 40.1. The Chief Clerk shall send bills that have passed first reading to be printed immediately. When they have been printed and circulated to the members of the House, the Speaker shall refer them to the various committees. When the committees have considered them and reported on them, the committees shall return them to the Chief Clerk, and the Chief Clerk shall place them in the second reading file. The House shall consider them in the order in which they appear in the second reading file.
- 40.2. The Chief Clerk shall arrange bills that have passed second reading in the order of their passage on second reading, regardless of the date of their referral to committee or the date of the committee report on them. The Chief Clerk shall place them in the third reading file in the order in which they passed second reading, and the House shall consider them on third reading in that same order. However, if the third reading of a bill is set for some particular date, that bill shall be removed from the third reading file.
- 40.3. The Chief Clerk shall send all resolutions, except congratulatory resolutions, to be printed. When they have been printed and circulated among the members of the House, they shall be placed on the calendar for adoption, unless the House orders otherwise.
- 40.4. Resolutions shall either be considered at a stated date or be referred to a committee.

Rule 41. Bills and Other Matters: Special Order of Consideration

- 41.1. The Chief Clerk shall place all bills and other matters that are to be considered on particular dates in a special file, in the order of dates assigned for their consideration, and the House shall consider them in that order.
- 41.2. If the House adjourns before disposing of matters on special order, those matters shall carry over to the next day's business. The House shall then consider them under "Unfinished Business" in the Order of the Day, unless the House orders otherwise.

Rule 42. Bills: Property of the House

All bills introduced in the House shall be the property of the House.

Rule 43. Bills: Carryover Bills

- 43.1. Any bill pending at the final adjournment of a regular session in an odd-numbered year shall carry over with the same status to the next regular session; provided that if such bill shall have passed third reading in the House in an odd-numbered session, it shall again be placed in the third reading file and pass at least one reading in the House in the next regular session upon its return to the House from the Senate.
- 43.2. Bills that carry over from a regular session in an odd-numbered year to the next regular session shall retain the numbers assigned to them. The Chief Clerk shall keep a record of the status of all bills in possession of the House at the end of the session in odd-numbered years and shall publish the record of the status of all such bills prior to the convening of the next regular session.

Rule 44. Bills: Pre-Filing

The Chief Clerk shall accept bills to be pre-filed within seven calendar days before the commencement of each regular session.

Rule 45. Bills: Corrections of Errors

When a bill has passed the House and the Senate and an error in the bill is discovered prior to its having received approval of the Governor, the bill may be returned by concurrent resolution in the house last considering the bill for proper correction.

PART VIII. PETITIONS AND COMMUNICATIONS**Rule 46. Petitions and Communications: Presentation and Disposition**

- 46.1. Any person may petition the House. Petitions shall be in writing, and the petitioners shall sign them.
- 46.2. The Speaker shall order all petitions and communications filed or referred to a committee without any motion or vote, unless there is objection from the members. If there is objection, the Speaker shall dispose of the matter as the House directs.
- 46.3. Upon the request of a member, the Speaker may authorize the issuance of congratulatory certificates in the name of the House.

PART IX. MOTIONS; DEBATE**Rule 47. Motions: Generally**

- 47.1. No motion shall be received and considered by the House until the same shall have been seconded.
- 47.2. After a motion is stated and determined to be in order by the Speaker, it shall be disposed of by vote of the House. However, the motion may be withdrawn by the movant at any time before a decision or amendment.
- 47.3. Whenever any question whatsoever shall be under discussion, the only permanent motions shall be:
First: To lay on the table;
Second: To postpone to a certain time;
Third: To commit;
Fourth: To amend; and
Fifth: To postpone indefinitely;

which motions shall have precedence in the order named.
- 47.4. The first two motions shall be decided without debate and shall be put as soon as made.
- 47.5. Whenever any of the first four motions mentioned above shall be decided in the negative, it shall not be revived the same day in regard to the main question under discussion. If a motion to amend in a specific manner is defeated, it shall not be revived on the same day.

Rule 48. Indefinite Postponement

When a question is postponed indefinitely, the same shall not be acted upon again during the regular or special session in which it was introduced without the consent of two-thirds of the members to which the House is entitled.

Rule 49. Matters Tabled

When a question has been laid on the table, it shall not thereafter be taken from and be considered or restored to a place upon the calendar of the House without the consent of the majority upon a motion made on the day the question was tabled or on the next day that the House is in session; thereafter, no motion to take any question from the table shall be made without the consent, in writing, of the majority. A motion to take any question from the table, if decided in the negative, may not again be made on the same day.

Rule 50. Motions: Previous Question

The purpose of the motion for the previous question is to end debate. The motion shall always be in order, except as otherwise provided herein. It shall require a majority vote of the members present in the House at the time the motion is made. Whenever the motion is carried, the movant of the main subject under discussion shall be permitted to close the debate, after which the main question, subject to the order of priority, shall be put; provided that the movant may delegate the right to close to another member.

Rule 51. Motions: Reconsideration

- 51.1. When a motion has been made once and carried in the affirmative or negative, it shall not be in order for any member who voted in the minority to move for reconsideration, but any member who voted with the majority may move to reconsider it on the same or succeeding day of the session. A motion to reconsider shall take precedence over all other questions except a motion to adjourn.
- 51.2. The House shall not reconsider a motion to reconsider.
- 51.3. If the House wishes to reconsider a measure or other matter which it already has passed or adopted and sent to the Senate, the motion to reconsider shall be accompanied by a motion to request the Senate to return the measure or other matter. The House shall act first on the motion for return of the measure or other matter, without debate. If this motion fails, it is an end of the matter, and the movant and seconder of the motion to reconsider shall withdraw their motion.

Rule 52. Debate: Limits

- 52.1. No member shall speak more than twice on the same question without leave of the House; provided, however, that the movant of the matter pending shall be permitted to speak in reply, but not until every member choosing to speak shall have spoken. No member shall speak longer than five minutes the first time and three minutes the second time on the same question; provided however, that any member may yield his or her speaking time to another member.
- 52.2. When a member yields the floor to another member, the yielding member's time shall continue to run, except when such yielding shall be to allow a specific question to be asked and when in response to the specific question asked.
- 52.3. Members may submit written remarks in lieu of speaking, subject to the approval of the Speaker, that conform to Rules 28.3, 28.7, 62.1, and other applicable rules herein.

PART X. VOTING**Rule 53. Voting: Methods**

- 53.1. There shall be five methods of ascertaining the decision of the House on any matter: first, by voice vote; second, by raising of hands; third, by standing; fourth, by call of the roll of members, each of whose votes shall be recorded by the Chief Clerk; and fifth, by unanimous consent.
- 53.2. When the House is ready to vote on any question, the Speaker shall rise, state the question, and ask all those who wish to vote yes on the question say "aye" in a clear, loud voice. The Speaker then shall ask all those who wish to vote no on the question say "no" likewise. The Speaker shall announce the decision of the House after the Chief Clerk has announced the result of the voting of the House, except that the Chief Clerk shall not announce the decision of the House after a voice vote.
- 53.3. With the unanimous consent of the House, the Speaker may direct the Chief Clerk to record an aye for each member of the House. If there is no objection, the Chief Clerk shall so record the vote. If there is objection, the Speaker shall ask for the names of the members voting no, and order the Chief Clerk to record no votes for them. A vote shall not be recorded for any member who is not present at the time the vote is taken.

Rule 54. Voting: Rights of Members; Restrictions

- 54.1. In case of a voice vote, if one-fifth of the members present doubt the result the Speaker announces, they may ask for a show of hands. The Speaker then shall state the question again and ask those who wish to vote yes on the question to raise their hands. The Chief Clerk then shall count the number voting yes and report the result to the Speaker. The Speaker then shall ask those who wish to vote no to raise their hands likewise. The Chief Clerk shall count the no votes and report the result to the Speaker. The Speaker then shall announce the result to the House.
- 54.2. In case of a show of hands, if one-fifth of the members present doubt the result the Speaker announces, they may ask for a standing vote. The Speaker then shall state the question again, and ask those who wish to vote yes to stand up and remain standing until the Chief Clerk counts their votes and reports the result to the Speaker. The Speaker then shall ask those who wish to vote no to stand likewise. The Chief Clerk shall report the result to the Speaker and the Speaker shall announce it to the House.
- 54.3. Any time one-fifth of the members present request it, the Chief Clerk shall call the roll of members of the House to determine their vote on a question. Each member who wishes to vote yes on the question shall say "aye" in a loud, clear voice when his or her name is called by the Chief Clerk. Each member who wishes to vote no on the question shall say "no" likewise.
- 54.4. No member shall refrain from voting unless excused pursuant to Rule 62.6.
- 54.5. When voting is by roll call, no member may explain his or her vote, unless the House permits it by unanimous consent.
- 54.6. No member may vote or change his or her vote after the Speaker has announced the result of voting.
- 54.7. Any member who refuses (including the "kanalua" response) three times to vote when ordered to do so will be considered to have voted aye, and the Chief Clerk shall record an aye vote for the member.

PART XI. MISCELLANEOUS**Rule 55. Subpoena; Oaths; Witness Fees**

- 55.1. The Speaker, and every investigating committee under chapter 21, Hawaii Revised Statutes, may issue subpoenas requiring the attendance of witnesses or production of evidence in any matter before the House or its committees pursuant to chapter 21, Hawaii Revised Statutes.
- 55.2. Any member of the House may administer oaths to witnesses in any matter pending in the House or in any committee of the House.

- 55.3. Any witness subpoenaed to appear before the House or any of its committees shall receive the same witness fees and mileage allowances that the Circuit Courts of the State pay.

Rule 56. Public Information

The Speaker may admit to the House Chamber stenographers and members of the news media who wish to take down debates or report the proceedings of the House. The Speaker shall assign such persons places for observation and other facilities that will not interfere with the operations of the House.

Rule 57. Disposition of Records at Adjournment

Within ten days after the House adjourns sine die in even-numbered years, its committees shall deliver to the Chief Clerk all bills, resolutions, petitions, and any other papers referred to the committees, plus any evidence taken by the committees. If a committee fails to comply with this rule, the Chief Clerk shall report its failure to the Speaker.

Rule 58. House Administrative and Financial Manual

- 58.1. The House shall adopt an administrative and financial manual.
- 58.2. After adoption, any revision to the manual shall be presented to the House unless otherwise provided in the manual.

PART XII. AMENDMENT, SUSPENSION, AND INTERPRETATION OF RULES

Rule 59. Rules: Amendment

These Rules shall not be altered unless the members of the House have received the 24 hour notice of the proposed change. The 24 hour period shall commence with the placement of a printed copy of the proposed amendment upon the desk of each member. Changes in these Rules shall be taken up as a special order. Any change in these Rules shall require the approval of a majority of the members to which the House is entitled.

Rule 60. Rules: Suspension

These Rules may be suspended by the approval of a majority of the members to which the House is entitled.

Rule 61. Parliamentary Practice

Mason's Manual of Legislative Procedure, 2020 Edition, is hereby designated as the adopted parliamentary authority of the House.

PART XIII. CODE OF LEGISLATIVE CONDUCT

Rule 62. Standards of Conduct

- 62.1. Members should conduct themselves in a respectful manner befitting the office with which they as elected officials have been entrusted, respecting and complying with the law and acting at all times in a manner that promotes public confidence in the integrity of the House.
- 62.2. Members should not lend the prestige of public office to advance the private interests of themselves or others; nor should members convey or permit others to convey the impression that they are in a special position to unduly influence public business pending before them.
- 62.3. Members should treat their fellow House members, staff, and the general public with respect, courtesy, fairness, equity, dignity, and inclusion, regardless of political or religious beliefs, age, race, ethnicity, sex, sexual orientation, gender identity or expression, or physical disability.
- 62.4. The legislative duties of members, as prescribed by law and these Rules, should take precedence over all of their other business or professional activities. Members should freely and willingly accept certain restrictions on their business activities and professional conduct that might be considered burdensome by an ordinary private citizen, and should perform the duties of elected office impartially and diligently. To the greatest extent reasonably possible, members should:
- (1) Refrain from allowing family, social, business, or other relationships to unduly influence the member's legislative conduct or judgment;
 - (2) Refrain from showing bias or prejudice, including but not limited to bias or prejudice based on political or religious beliefs, age, race, ethnicity, sex, sexual orientation, gender identity or expression, or physical disability, in the performance of their official duties;
 - (3) Exercise patience, tolerance, and courtesy to all those with whom they deal with in an official capacity, and require staff and others subject to their direction and control to maintain similar standards of conduct, fidelity, and diligence inherent in public service;
 - (4) Exercise the power of appointment impartially and on the basis of merit, refraining from making unnecessary appointments and approving compensation of appointees beyond the fair value of services rendered;
 - (5) Afford to every person who wishes to participate in the legislative process the opportunity to be heard according to established procedures;
 - (6) Consider at all times whether their conduct would create in reasonable minds the perception that their ability to carry out legislative responsibilities with integrity and independence is either questionable or impaired;
 - (7) Manage their personal interests and obligations so as to minimize the number of votes in which they are in, or may reasonably be perceived to be in, potential conflict;
 - (8) Refrain from using, or permitting the use of, the privileges and prestige of their public office to derive undue personal, professional, or

financial benefits for themselves, members of their family, or others with whom they maintain personal, business, or professional relationships;

- (9) Refrain from engaging in financial and business dealings that involve them in frequent transactions, or continuing business or professional relationships, with those persons likely to derive benefits from public financial matters either pending or already deliberated and voted upon by the House, to the extent that such conduct may reasonably be perceived as personal exploitation of their public office; and
 - (10) Refrain from membership in an organization that practices invidious discrimination and gives rise to perceptions that one's impartiality and ability to serve as a representative are unduly compromised.
- 62.5.** Each member, as an elected representative of their district, has the obligation or duty to vote on measures before the House, unless the member is recused or excused from voting. A member may be recused or excused from voting when the member has a conflict of interest. A "conflict of interest" arises when the standards herein are impacted and includes, but is not limited to, situations when the measure affects the member's direct personal, familial, or financial interest; provided that a conflict does not arise where the measure applies to a broader class.
- 62.6.** A member may make an oral or written request for a ruling by the chair in a committee hearing or by the Speaker on the floor of the House chamber as to whether a conflict exists. The request shall include with particularity the basis for the request. If it is determined that a conflict exists, the member shall be recused or excused from voting by the chair or Speaker, as applicable. When making a determination in cases where a portion of a measure may place a member in a conflict of interest, the chair or Speaker, as applicable, shall give due consideration to the context of the particular conflict as it relates to the overall purpose of the measure. A ruling of the chair or Speaker shall be subject to an appeal by any member.
- 62.7.** There shall be established a Select Committee on Standards of Conduct composed of three members of the majority party and three members of the minority party, who shall be appointed by the Speaker. The Committee shall investigate any member for misconduct, disorderly conduct, neglect of duty, conflict of interest, violation of chapter 84, Hawaii Revised Statutes, or violation of these Rules. The Select Committee on Standards of Conduct shall operate in accordance with rules and procedures adopted by the House.
- 62.8.** Except as provided, a member shall not accept an honorarium related to the member's legislative role, duties, or responsibilities. For the purposes of this rule, an "honorarium" means compensation provided to a member for services rendered by the member under conditions for which there is no contractual or legal obligation by the recipient of the services to compensate the member. The following shall not be considered an honorarium:
- (1) Reasonable and verifiable expenses for the member's meals, travel, lodging, and for care of a child or dependent adult that are actually incurred;
 - (2) Permissible gifts under chapter 84, Hawaii Revised Statutes;
 - (3) Anything of value that is otherwise reported or reportable as a campaign donation or expenditure; or
 - (4) Any compensation if the member is requested to appear and/or speak on a topic or issue that is not related to the member's legislative role or duties.
- 62.9.** Even if permitted by Rule 62.8, a member may not accept an honorarium if the offering of the honorarium is made for the purpose of influencing the performance of a member's official duties.
- 62.10.** No member shall solicit any monetary campaign contribution from an employee over whom the member has authority to exercise direct control.
- "Direct control" means the authority to subject a person to an adverse employment action, including termination, reduction in compensation, demotion, or denial of a promotion.
- 62.11.** Nothing herein shall be construed to limit, approve, prohibit, or infringe upon the proper jurisdiction of the Ethics Commission.

PART XIV. SOCIAL MEDIA POLICY

Rule 63. Social Media Policy

- 63.1.** The following pertains to a House member's use of any social media account considered their official legislative social media account.
- "Official legislative social media account" means any account such as Facebook, Instagram, TikTok, or any other similar account which a member uses for communication with the public and identifies themselves as a state representative and is not used for campaigning, private business, or other purpose in violation of the State Ethics Code.
- For the purpose of brevity, "official account" is synonymous with "official legislative social media account."
- 63.2.** When using an official account, a member shall adhere to the following:
- (1) All content in official social media communication must be related to official legislative business. This includes matters which relate directly or indirectly to the legislative process, functions, and operations, constituent services, state issues of public concern, and issues related to the member's district.
 - (2) Members shall not use their official accounts to disparage other members or individuals, and shall not encourage, support, or invite disparagement or threats by commenters. This includes posts on a member's own official account page as well as posts on other social media pages using the member's official account.
 - (3) Content may not be used to disparage other members, other individuals, or political parties. This includes featuring other members, individuals, or political parties in a way that invites disparaging or threatening comments or reactions, even if the content is presented

- in a neutral manner.
- (4) The use of original recordings of official legislative business such as floor proceedings or committee meetings is allowed, as long as their use is not in violation of any other provisions of the House Rules. Any introduction, overlays of graphic images, logos of the offices, or words that are not part of the transcript must be consistent with this Rule.
 - (5) Hyperlinks may not link to any websites or documents that contain campaign-related information, comments, or that, by association with the member's official accounts, violate the State Ethics Code (chapter 84, Hawaii Revised Statutes).
 - (6) No campaign content, electioneering, or fundraising on official account pages.
 - (7) No content developed using campaign resources.
 - (8) No endorsement or promotion of non-governmental companies, products, or services, including charitable organizations.
- 63.3.** Violations of this policy may result in disciplinary action. Complaints may be addressed according to Part XIII of these Rules.
- 63.4.** This policy is in addition to any requirements of the "House Computer, Software, E-Mail, Internet and Communications Technology Use Policy" and the "Request to Add Social Media Links to My Legislative Webpage" form.

HOUSE OF REPRESENTATIVES

RULES FOR THE SELECT COMMITTEE ON STANDARDS OF CONDUCT

STATE OF HAWAII
THE THIRTY-THIRD LEGISLATURE

2025-2026

RULES FOR THE SELECT COMMITTEE ON STANDARDS OF CONDUCT

TABLE OF CONTENTS

PART 1. DEFINITIONS

- 1.1. Definitions

PART 2. GENERAL APPLICABILITY

- 2.1. Powers of the Speaker of the House
- 2.2. Vacancies
- 2.3. Meetings
- 2.4. Quorum
- 2.5. Order of Business
- 2.6. Hearings Announcements
- 2.7. Committee Meetings
- 2.8. Record of Testimony and Committee Action
- 2.9. Ineligibility or Disqualification of Members
- 2.10. Television, Film, Radio
- 2.11. Legislative Recommendations
- 2.12. Educational Mandate
- 2.13. Limitations

PART 3. GENERAL PROCEDURES

- 3.1. Right to Hearing
- 3.2. Closed Hearings
- 3.3. Adjudicatory Hearings
- 3.4. Presiding Officer
- 3.5. Subpoenas
- 3.6. Depositions
- 3.7. Oath or Affirmation
- 3.8. Witnesses
- 3.9. Right to Testify
- 3.10. Committee Report; Opposing Views

PART 4. PROCEDURES FOR COMPLAINTS, ALLEGATIONS, OR INFORMATION

- 4.1. Complaint, Allegation, or Information
- 4.2. Form and Content of Complaints

PART 5. PROCEDURES FOR CONDUCTING A PRELIMINARY INQUIRY

- 5.1. Basis for Preliminary Inquiry
- 5.2. Scope of Preliminary Inquiry
- 5.3. Opportunity for Response
- 5.4. Final Report
- 5.5. Committee Action

PART 6. PROCEDURES FOR CONDUCTING AN ADJUDICATORY REVIEW AND ADJUDICATORY HEARING

- 6.1. Scope of Adjudicatory Review
- 6.2. Notice to Respondent
- 6.3. Final Report of Adjudicatory Review to Committee
- 6.4. Committee Action
- 6.5. Right of Appeal
- 6.6. Adjudicatory Hearings; Notice
- 6.7. Adjudicatory Hearings; Preparation
- 6.8. Adjudicatory Hearings; Right to Cross-Examine and Call Witnesses
- 6.9. Adjudicatory Hearing; Admissibility of Evidence
- 6.10. Adjudicatory Hearing; Supplementary Hearing Procedures

PART 7. DEPOSITIONS

- 7.1. Persons Authorized to Take Depositions
- 7.2. Deposition Notices
- 7.3. Deposition Procedure
- 7.4. Filing of Depositions

PART 8. RIGHTS OF WITNESSES

- 8.1. Television, Film, Radio
- 8.2. Right to Counsel
- 8.3. Statements
- 8.4. Proposed Questions
- 8.5. Opening Statements

PART 9. VIOLATIONS OF LAW; CONTEMPT; PERJURY; AND APPLICABLE RULES AND STANDARDS OF CONDUCT

- 9.1. Violations of Law
- 9.2. Contempt
- 9.3. Perjury
- 9.4. Applicable Rules and Standards of Conduct

PART 10. RULES OF DISCLOSURE

- 10.1. Non-Disclosure Policy
- 10.2. Disclosure to Executive and Judicial Officials
- 10.3. Committee-Sensitive Documents
- 10.4. Release of Report to Public

PART 11. CHANGES IN SUPPLEMENTARY PROCEDURAL RULES

- 11.1. Adoption of Changes in Supplementary Rules
- 11.2. Publication

Preface

The purpose of these rules is to enable the Select Committee on Standards of Conduct to properly perform the powers and duties vested in the Committee, including the conduct of hearings, in a fair and impartial manner, consistent with the protection of constitutional rights of persons called to testify at hearings and the preservation of public good.

PART I. DEFINITIONS

1.1. Definitions. As used in these rules, unless a different meaning is clearly intended by the context:

"Adjudicatory review" means a proceeding undertaken by the Committee after a finding, on the basis of a preliminary inquiry, that there is substantial cause for the Committee to conclude that a violation within the jurisdiction of the Committee has occurred.

"Authorized membership" means the total number of members appointed to the Committee.

"Chair" includes the Chair appointed by the Speaker, or in the absence of the Chair, the Vice Chair appointed by the Speaker, or in the absence of both the Chair and Vice Chair, a member designated by the Chair.

"Committee" means the Select Committee on Standards of Conduct established under House Rule 62.7.

"Executive session" means a session at which only members, staff, witnesses, and counsel for a witness or witnesses are permitted to be present. Other individuals may be admitted to an executive session for a specified period or purpose on the motion of a member with the approval of the Chair and Vice Chair. An executive session may be convened by a two-thirds vote of the authorized membership.

"House" means the House of Representatives.

"Member" means a member of the Committee.

"Preliminary inquiry" means a proceeding undertaken by the Committee following the receipt of a complaint from a Representative about misconduct to determine whether there is substantial credible evidence that provides substantial cause for the Committee to conclude that a violation within the jurisdiction of the Committee has occurred.

"Quorum" means a majority of the authorized membership provided that, except for an adjudicatory hearing under Part 6 or the taking of a deposition under Part 7, one member shall constitute a quorum to hear testimony if all members have been given notice of the hearing and a member of the majority party and a member of the minority party have been designated by the Chair and Vice Chair respectively to be in attendance.

"Speaker" means the Speaker of the House of Representatives.

PART 2. GENERAL APPLICABILITY

2.1. Powers of the Speaker of the House. The Speaker shall have administrative authority over the activities and operations of the Committee to:

- (1) Assign appropriate staff and to direct appropriate services to assist the Committee in accomplishing its purpose;
- (2) Adjust the respective membership of the Committee as deemed necessary, including the filling of vacancies; and
- (3) In the absence of the Chair, sign hearing notices or subpoenas and subpoenas duces tecum, as authorized to be issued by the Committee.

2.2. Vacancies. Vacancies shall not affect the authority of the remaining members to execute the functions of the Committee.

2.3. Meetings. Meetings may be held at the call of the Chair if at least 48 hours notice is furnished to all members. If all members agree, or if approved by the Speaker, a meeting may be held on less than 48 hours notice.

2.4. Quorum. A quorum shall be present for the transaction of business involving complaints or allegations of, or information about, misconduct, including resulting preliminary inquiries, adjudicatory reviews, recommendations, and reports.

2.5. Order of Business. The order of business and the procedure of the Committee shall be decided by the Chair and Vice Chair.

2.6. Hearings Announcements. The Committee shall publicly announce the date, place, and subject matter of its hearing at least one week before the commencement of that hearing. If the Committee determines that there is good cause to commence a hearing at an earlier date, notice shall be given at the earliest possible time.

2.7. Committee Meetings. Meetings of the Committee shall be open to the public unless the meeting is held in executive session.

2.8. Record of Testimony and Committee Action. (a) An accurate stenographic or transcribed electronic record shall be kept of all Committee proceedings, whether in executive or public session, which record shall include rulings of the Chair, questions of the Committee and its staff, the testimony or responses of witnesses, sworn written statements submitted to the Committee, any vote of the Committee, and such other matters as the Committee or the Chair may direct.

(b) The record of any remarks made by a member, Committee staff, outside counsel retained by the Committee, counsel for the witness, or witness, whether in public or executive session, shall be made available for inspection in accordance with Part 10 under Committee supervision at a time and place determined by the Chair; a copy of any testimony given by a witness in public session, or that part of the testimony given by the witness in executive session and subsequently quoted or made part of the record in a public session shall be made available to any witness if requested.

(c) Any member, Committee staff, outside counsel retained by the Committee, counsel for the witness, or witness may suggest to the official reporter, any corrections to typographical or transcription errors. If the reporter declines to make the requested corrections, the member, staff, outside counsel, counsel for the witness, or witness may request a ruling by the Chair and Vice Chair, acting jointly. Any questions arising with respect to the processing and correction of transcripts shall be decided by the Chair and Vice Chair, acting jointly.

(d) Except for the record of a hearing which is closed to the public, each transcript shall be printed as soon as is practicable after receipt of the corrected version. The Chair and Vice Chair, acting jointly, may order the transcript of a hearing to be printed without corrections if a reasonable time to correct the transcript has been afforded and corrections have not been requested.

(e) Records of the Committee shall be maintained by the Chief Clerk of the House.

2.9. Ineligibility or Disqualification of Members. (a) A member shall be ineligible to participate in any Committee proceeding that relates specifically to any of the following:

(1) A preliminary inquiry or adjudicatory review relating to:

(i) The conduct of the member; or

(ii) Any complaint filed by the member against another Representative; and

(2) The determinations and recommendations of the Committee with respect to any preliminary inquiry or adjudicatory review described in subparagraph (1).

A member may also be ineligible to participate if the member's staff will be a witness.

(b) If any Committee proceeding appears to relate to a member in a manner described in paragraph (a), the staff shall prepare a report to the Chair and Vice Chair. If either the Chair or the Vice Chair concludes from the report that it appears that the member may be ineligible to participate in a Committee proceeding, the member shall be notified in writing of the nature of the particular proceeding and the reason that it appears that the member may be ineligible to participate in it. If the member agrees to the ineligibility, the member shall notify the Chair or Vice Chair. If the member does not agree, the member may explain the reasons to the Chair and Vice Chair, and if they both agree that the member is eligible, the member shall continue to serve. But if either the Chair or Vice Chair continues to believe that the member is ineligible and the member disagrees, the matter shall be promptly referred to the Committee. The member shall present arguments to the Committee in executive session. Any contested questions concerning a member's eligibility shall be decided by a majority vote of the Committee, meeting in executive session, with the member in question not participating.

(c) Members may disqualify themselves from participating in any preliminary inquiry or adjudicatory review pending before the Committee and the determinations and recommendations of the Committee with respect to any such preliminary inquiry or adjudicatory review.

(d) Whenever any member is ineligible under paragraph (a) to participate in any preliminary inquiry or adjudicatory review, or is disqualified under paragraphs (b) and (c) from participating in any preliminary inquiry or adjudicatory review, another Representative shall be appointed by the Speaker, after written notice about the ineligibility or disqualification, to serve as a member solely for purposes of such preliminary inquiry or adjudicatory review and the determinations and recommendations of the Committee with respect to such preliminary inquiry or adjudicatory review. Any Representative appointed for such purposes shall be of the same party as the member who is ineligible or disqualified.

(e) The Speaker shall be given written notice of the ineligibility or disqualification of any member from any preliminary inquiry, adjudicatory review, or other proceeding requiring the appointment of another member in accordance with paragraph (d).

2.10. Television, Film, Radio. Public hearings or meetings may be televised, filmed, or otherwise recorded and made public, unless otherwise determined by a two-thirds vote of the authorized membership. Photographers and reporters using mechanical recording, filming, or broadcasting apparatus shall position their equipment so as not to interfere with the seating, vision, and hearing of the members and staff, or with the orderly process of the meeting or hearing.

2.11. Legislative Recommendations. The Committee shall recommend to the House by report or resolution any additional rules or other legislative measures as it determines to be necessary or desirable to ensure proper standards of conduct by Representatives. The Committee may conduct inquiries as it deems necessary to prepare this report or resolution, including the holding of hearings in public or executive session and the use of subpoenas as provided for in Part 3. The Committee may make legislative recommendations as a result of its findings in a preliminary inquiry, adjudicatory review, or other proceeding.

2.12. Educational Mandate. The Committee may develop and implement programs and materials designed to educate members about the laws, rules, and standards of conduct applicable to members in the performance of their duties.

2.13. Limitations. Nothing in these rules shall be construed to limit or prohibit the acquisition of evidence or information by the Committee through any lawful means.

PART 3. GENERAL PROCEDURES

3.1. Right to Hearing. The Committee shall give the Representative responding to the complaint or facing an adjudicatory review under Part 6 an opportunity for a hearing before it recommends disciplinary action against that Representative to the House or before it imposes an order of restitution or reprimand (not requiring discipline by the full House).

3.2. Closed Hearings. All hearings of the Committee relating to allegations of misconduct shall be closed to the public unless the Committee determines by a two-thirds vote of the authorized membership that a hearing should be public.

3.3. Adjudicatory Hearings. The Committee may, by a two-thirds vote of the authorized membership, designate any public hearing or executive session as an adjudicatory hearing. Any hearing which is concerned with possible disciplinary action against a respondent or respondents designated by the Committee shall be an adjudicatory hearing. In any adjudicatory hearing, the procedures described in Part 6 shall apply.

3.4. Presiding Officer. The Chair shall preside over hearings.

3.5. Subpoenas. (a) The Committee, with the concurrence of the Speaker, may issue, by a two-thirds vote of the authorized membership, subpoenas requiring the attendance of witnesses and subpoenas duces tecum requiring the production of books, documents, or other evidence, in any matter pending before the Committee.

(b) The form of subpoenas, the manner of service, witness service fees, and notice requirements shall be as provided in sections 21-8 and 21-9, Hawaii Revised Statutes.

(c) Every subpoena and subpoena duces tecum authorized to be issued by the Committee shall be issued under the signature of the Chair and shall command each person to whom it is directed to attend and give testimony at a time and place thereon specified, and if requested by the Committee, to produce the books, papers, documents, or tangible things required by the Committee to be produced.

(d) The Committee may delegate to the Chair the authority to specify the time and place at which the person subpoenaed is to attend and give testimony and to designate the books, papers, documents, or tangible things required by the Committee to be produced.

(e) The Committee, by a two-thirds vote of the authorized membership, may withdraw a subpoena issued on behalf of the Committee.

3.6. Depositions. Depositions shall be taken in accordance with Part 7.

3.7. Oath or Affirmation. (a) All testimony given or adduced at a hearing; preliminary inquiry under Part 5; or adjudicatory review or hearing under Part 6, shall be made under oath or affirmation unless the requirement is dispensed with in a particular instance by a majority of the members present at a hearing. Any member may administer an oath or affirmation to a witness at a hearing of the Committee.

(b) The form of the oath or affirmation shall be as follows: "Do you solemnly swear or affirm that the testimony you are about to give will be the truth, the whole truth, and nothing but the truth?"

3.8. Witnesses. Any witness may be asked, or subpoenaed, to testify at a hearing or adjudicatory review and shall have the rights set forth under Part 8.

3.9. Right to Testify. Persons whose names are mentioned or who are specifically identified or otherwise referred to in testimony or in statements made by a member, staff, or outside counsel, or any witness, and who reasonably believe that a statement tends to adversely affect their reputation may:

- (1) Request to appear personally before the Committee to testify on their own behalf; or
- (2) File a sworn statement of facts relevant to the testimony or other evidence or statement complained of. Such requests and statements shall be submitted to the Committee for its consideration and action.

3.10. Committee Report; Opposing Views. Each member shall be given a reasonable opportunity to have separate views included as part of any Committee report.

PART 4. PROCEDURES FOR COMPLAINTS, ALLEGATIONS, OR INFORMATION

4.1. Complaint, Allegation, or Information. Any Representative may report to the Committee a sworn complaint alleging that a Representative has violated a law, the House Code of Legislative Conduct, or any rule of the House relating to conduct of any individual in the performance of duties as a Representative, or has engaged in improper conduct which may reflect negatively upon the House. Complaints may be reported to the Chair, the Vice Chair, or a member.

Complaints shall not be accepted by the Committee during an election year on, or after, the filing deadline until one day after the general election. During this time, the Speaker shall accept complaints, allegations, or information and determine the action to be taken.

4.2. Form and Content of Complaints. A complaint shall be sworn but need not be in any particular form to receive Committee consideration, but shall:

- (1) State the name of the party filing the complaint;
- (2) Provide the name of each Representative who is specifically alleged to have engaged in improper conduct or committed a violation; and
- (3) State the nature of the alleged improper conduct or violation and may supply documents in the possession of the party filing the complaint relevant to or in support of the allegations as an attachment to the complaint.

For the purposes of this Rule, a "sworn complaint" means a written statement of facts, submitted under penalty of perjury, alleging a violation of law, the Code of Legislative Conduct, or any other Rule relating to the conduct of individuals in the performance of their duties as Representatives.

PART 5. PROCEDURES FOR CONDUCTING A PRELIMINARY INQUIRY

5.1. Basis for Preliminary Inquiry. The Committee shall promptly commence a preliminary inquiry whenever it has received a sworn complaint from a Representative about alleged misconduct or violations by a Representative pursuant to Part 4; provided that the Chair and Vice Chair, acting jointly on behalf of the Committee may dismiss any matter, which is determined to lack substantial merit.

5.2. Scope of Preliminary Inquiry. (a) The preliminary inquiry shall be of a duration and scope necessary to determine whether there is substantial credible evidence, which provides substantial cause for the Committee to conclude that a violation within the jurisdiction of the Committee has occurred. The Chair and Vice Chair, acting jointly, on behalf of the Committee may supervise and determine the appropriate duration, scope, and conduct of a preliminary inquiry. Whether a preliminary inquiry is conducted jointly by the Chair and Vice Chair or by the Committee as a whole, the day-to-day supervision of a preliminary inquiry rests with the Chair and Vice Chair, acting jointly.

(b) A preliminary inquiry may include any inquiries, interviews, sworn statements, depositions, or subpoenas deemed appropriate to obtain information to make any determination provided for by these rules.

5.3. Opportunity for Response. A preliminary inquiry shall include an opportunity for the Representative against whom the complaint is being brought or the Representative's designated representative to present either a written statement, or to respond orally to questions from the Committee. Oral statements or answers shall be transcribed and signed by the person providing the statement or answers.

5.4. Final Report. When the preliminary inquiry is completed, the Chair and Vice Chair shall make a report, oral or written, to the Committee on findings and recommendations, as appropriate. Disclosure of this report shall be governed by rules provided under Part 10.

5.5. Committee Action. As soon as practicable following submission of the report by the Chair and Vice Chair on the preliminary inquiry, the Committee shall determine by a recorded vote of a majority of members to which the Committee is entitled whether there is substantial credible evidence which provides substantial cause for the Committee to conclude that a violation within the jurisdiction of the Committee has occurred. The Committee may make any of the following determinations:

- (1) That there is not substantial credible evidence and in this case the Committee shall dismiss the matter. The Committee shall inform the complainant and the respondent to the complaint of the dismissal;
- (2) That there is substantial credible evidence, but that the alleged violation is inadvertent, technical, or otherwise of a de minimis nature. In this case, the Committee may dispose of the matter by issuing a public or private letter of admonition, which shall not be considered discipline and which shall not be subject to appeal to the House. The issuance of a letter of admonition shall be approved by the affirmative recorded vote of not less two-thirds of the authorized membership; and
- (3) That there is substantial credible evidence and that the matter cannot be appropriately disposed of under paragraph (2). In this case, the Committee shall promptly initiate an adjudicatory review in accordance with Part 6. No adjudicatory review of the conduct of a Representative may be initiated except by the affirmative recorded vote of not less than two-thirds of the authorized membership.

PART 6. PROCEDURES FOR CONDUCTING AN ADJUDICATORY REVIEW AND ADJUDICATORY HEARING

6.1. Scope of Adjudicatory Review. When the Committee decides to conduct an adjudicatory review, it shall be of a duration and scope necessary for the Committee to determine whether a violation within its jurisdiction has occurred. An adjudicatory review shall be conducted by the Committee unless the Committee determines to use outside counsel for this purpose. In the course of the adjudicatory review, the Committee may conduct any inquiries, interviews, or hearings, take sworn statements, use its subpoena powers, take depositions, or take any other actions that the Committee deems appropriate to secure the evidence necessary to make a determination.

6.2. Notice to Respondent. The Committee shall give written notice to the Representative who is the subject of an adjudicatory review. The notice shall be sent to the Representative against whom the complaint has been made no later than five working days after the Committee has voted to conduct an adjudicatory review. The notice shall include a statement of the nature of the possible violation and description of the evidence indicating that a possible violation occurred. The Committee may offer the Representative an opportunity to present a statement, orally or in writing, or to respond to questions from members, or outside counsel, if such counsel has been retained by the Committee.

6.3. Final Report of Adjudicatory Review to Committee. Upon completion of an adjudicatory review, the Chair and Vice Chair shall submit a written report to the Committee, which shall detail the factual findings of the adjudicatory review and which may recommend disciplinary action, if appropriate. Findings of fact of the adjudicatory review shall be detailed in this report whether or not disciplinary action is recommended. Disclosure of this report shall be governed by rules provided under Part 10.

6.4. Committee Action. (a) As soon as practicable following submission of the report of the Chair and Vice Chair on the adjudicatory review, the Committee shall prepare and submit a report to the House, including a recommendation to the House concerning disciplinary action, if appropriate. A report shall be issued, stating in detail the Committee's findings of fact, whether or not disciplinary action is recommended. The report shall also explain fully the reasons underlying the Committee's recommendation concerning disciplinary action, if any. No adjudicatory review of conduct may be conducted, or report or recommendation relating to an adjudicatory review of conduct may be made, except by the affirmative recorded vote of not less than two-thirds of the authorized membership.

(b) After receipt of the report prescribed by Rule 6.3, the Committee, by a recorded vote of not less than two-thirds of the authorized membership, may make recommendations for disciplinary action or issue an order for reprimand or restitution, as follows:

- (1) A recommendation to the House for expulsion, censure, payment of restitution, recommendation to the Speaker regarding the Representative's positions of responsibility and committee assignments, or a combination of these;
- (2) In the case where the Committee determines, after according due notice and opportunity for a hearing, that misconduct occurred warranting discipline less serious than discipline by the full House, and subject to Rule 6.5 relating to appeal, by a unanimous vote of six members order that a Representative be reprimanded or pay restitution or both; and
- (3) In the case where the Committee determines that misconduct is inadvertent, technical, or otherwise of a de minimis nature, issuance of a public

or private letter of admonition to a Representative, which shall not be subject to appeal to the House.

(c) In the case where the Committee determines, upon consideration of all the evidence, that the facts do not warrant a finding that there is substantial credible evidence which provides substantial cause for the Committee to conclude that a violation within the jurisdiction of the Committee has occurred, the Committee may dismiss the matter.

(d) Promptly after the conclusion of the adjudicatory review, the Committee report and recommendation, if any, shall be forwarded to the Chief Clerk of the House, and a copy shall be provided to the Representative bringing the complaint and the Representative responding to the complaint.

6.5. Right of Appeal. (a) Any individual who is the subject of a reprimand or order of restitution, or both, pursuant to Rule 6.4 (b)(2), may, within ten days of the Committee's report to the House of its action imposing a reprimand or order of restitution, or both, appeal to the House by providing written notice of the appeal to the Committee and the Speaker. The Speaker shall cause the notice of the appeal to be printed in the House Journal.

(b) A motion to proceed to consideration of an appeal pursuant to paragraph (a) shall be highly privileged and not debatable. If the motion to proceed to consideration of the appeal is agreed to, the appeal shall be decided on the basis of the Committee's report to the House. Debate on the appeal shall be limited to two hours, which shall be divided equally between those favoring and those opposing the appeal.

6.6. Adjudicatory Hearings; Notice. A copy of the public announcement of an adjudicatory hearing shall be furnished together with a copy of this Part to all witnesses at the time that they are subpoenaed or otherwise summoned to testify.

6.7. Adjudicatory Hearings; Preparation. (a) At least two working days prior to the commencement of an adjudicatory hearing, the Committee shall provide the following information and documents to the Representative responding to the complaint, if any:

- (i) A list of proposed witnesses to be called at the hearing;
- (ii) Copies of all documents expected to be introduced as exhibits at the hearing; and
- (iii) A brief statement as to the nature of the testimony expected to be given by each witness to be called at the hearing.

(b) At least two working days prior to the commencement of an adjudicatory hearing, the respondent, if any, shall provide the information and documents described in paragraph (a) to the Committee.

(c) At the discretion of the Committee, the information and documents to be exchanged under this Part shall be subject to an appropriate agreement limiting access and disclosure.

(d) If a Representative responding to the complaint refuses to provide the information and documents to the Committee (see paragraphs (a) and (b)), or if a responding Representative or other individual violates an agreement limiting access and disclosure, the Committee, by a two-thirds vote of the authorized membership, may recommend to the House that the offender be cited for contempt.

6.8. Adjudicatory Hearings; Right to Cross-Examine and Call Witnesses. (a) In adjudicatory hearings, respondents and any other persons upon obtaining the permission of the Committee, may personally or through counsel cross-examine witnesses called by the Committee and may call witnesses on their own behalf.

(b) A Representative responding to a complaint may apply to the Committee for the issuance of subpoenas for the appearance of witnesses or the production of documents on the Representative's behalf. An application shall be approved upon a concise showing by the responding Representative that the proposed testimony or evidence is relevant and appropriate, as determined by the Chair and Vice Chair. The subpoena shall be issued pursuant to Part 3.

(c) With respect to witnesses called by a responding Representative, or other individual given permission by the Committee, each witness shall first be examined by the party who called the witness or by that party's counsel.

6.9. Adjudicatory Hearing; Admissibility of Evidence. (a) The object of the hearing shall be to ascertain the truth. Any evidence that may be relevant and probative shall be admissible unless privileged under the Hawaii Rules of Evidence. Rules of evidence shall not be applied strictly, but the Chair shall exclude irrelevant or unduly repetitious testimony. Objections going only to the weight that should be given evidence will not justify its exclusion.

(b) The Chair shall rule upon any question of the admissibility of testimony or other evidence presented to the Committee. Rulings shall be final unless reversed or modified by a two-thirds vote of the authorized membership before the recess of that day's hearings.

(c) Notwithstanding paragraphs (a) and (b), in any matter before the Committee involving allegations of sexual discrimination, including sexual harassment, or sexual misconduct, by a Representative, the Committee shall be guided by the standards and procedures of Rule 412 of the Hawaii Rules of Evidence, except that the Committee may admit evidence subject to the provisions of this paragraph only by a two-thirds vote of the authorized membership that the interests of justice require that this evidence be admitted.

6.10. Adjudicatory Hearing; Supplementary Hearing Procedures. The Committee may adopt any additional special hearing procedures that it deems necessary, or appropriate to a particular adjudicatory hearing, copies of the supplementary procedures shall be furnished to witnesses and respondents, and shall be made available upon request to any member of the public.

PART 7. DEPOSITIONS

7.1. Persons Authorized to Take Depositions. Depositions may be taken by any member designated by the Chair and Vice Chair, acting jointly, or by any other person designated by the Chair and Vice Chair, acting jointly, including outside counsel, Committee staff, other employees of the House, or government employees assigned to the Committee.

7.2. Deposition Notices. Notices for the taking of depositions shall be authorized by the Chair and Vice Chair, acting jointly, and issued by the Chair, Vice Chair, or Committee staff or outside counsel designated by the Chair and Vice Chair, acting jointly. Depositions may be taken at any time during a preliminary inquiry, adjudicatory review or other proceeding. Deposition notices shall specify a time and place for examination. Unless otherwise specified, the deposition shall be in private, and the testimony taken and documents produced shall be deemed for the purpose of these Rules to have been received in an executive

session of the Committee. The Committee shall not initiate procedures leading to criminal or civil enforcement proceedings for a witness's failure to appear, or to testify, or to produce documents, unless the deposition notice was accompanied by a subpoena.

7.3. Deposition Procedure. Witnesses at depositions shall be examined under oath. Questions may be propounded by any person or persons who are authorized to take depositions for the Committee, if a witness objects to a question and refuses to testify, or refuses to produce a document, the Chair or Vice Chair, if present, may rule on the objection and, if the objection is overruled, direct the witness to answer the question or produce the document. If the Chair or Vice Chair is not present, the individual who has been designated by the Chair and Vice Chair, acting jointly, to take the deposition may proceed with the deposition, or may, at that time or at a subsequent time, seek a ruling by telephone or otherwise on the objection from the Chair or Vice Chair of the Committee, who may refer the matter to the Committee or rule on the objection, if the Chair or Vice Chair, or the Committee upon referral, overrules the objection, the Chair, Vice Chair, or the Committee as the case may be, may direct the witness to answer the question or produce the document, the Committee shall not initiate procedures leading to civil or criminal enforcement unless the witness refuses to testify or produce documents after having been directed to do so.

7.4. Filing of Depositions. Deposition testimony shall be transcribed or electronically recorded. If the deposition is transcribed, the individual administering the oath shall certify on the transcript that the witness was duly sworn in the presence of that individual and the transcriber shall certify that the transcript is a true record of the testimony. The transcript with these certificates shall be filed with the clerk of the Committee, and the witness shall be furnished with access to a copy at the Committee's offices for review. Upon inspecting the transcript, within a time limit set by the Chair and Vice Chair, acting jointly, a witness may request in writing changes in the transcript to correct errors in transcription. The witness may also bring to the attention of the Committee errors of fact in the witness's testimony by submitting a sworn statement about those facts with a request that it be attached to the transcript. The Chair and Vice Chair, acting jointly, may rule on the witness's request, and the changes or attachments allowed shall be certified by the Committee's clerk. If the witness fails to make any request under this paragraph within the time limit set, this fact shall be noted by the Committee's clerk. Any person authorized by the Committee may stipulate with the witness to changes in this procedure.

PART 8. RIGHTS OF WITNESSES

8.1. Television, Film, Radio. Any witness served with a subpoena by the Committee may request not to be photographed or to give evidence or testimony while the broadcasting, reproduction, or coverage of that hearing, by radio, television, still photography, or, other methods is occurring. At the request of any witness who does not wish to be subjected to radio, television, still photography, or other methods of coverage, and subject to the approval of the Committee, all lenses shall be covered and all microphones used for coverage turned off.

8.2. Right to Counsel. Every witness at a hearing, adjudicatory review, adjudicatory hearing, or deposition, may be accompanied by counsel of the witness' own choosing, who may advise the witness of the witness' rights, subject to reasonable limitations which the Committee may prescribe to prevent obstruction of or interference with the orderly conduct of the hearing.

8.3. Statements. (a) A witness, or the witness' counsel, with the consent of a majority of the members present at the hearing, may file with the Committee for incorporation into the record of the hearing, sworn written statements relevant to the purpose, subject matter, and scope of the Committee's investigation or inquiry. If a witness, or witness' counsel, desires to read the prepared or written statement, the determination of whether the statement may be read or simply placed in the record of the hearing shall be made by the Chair and Vice Chair, acting jointly.

(b) The witness or witness' counsel may also submit additional sworn testimony for the record within 24 hours after the last day that the witness has testified. The insertion of such testimony in that day's record is subject to the approval of the Chair and Vice Chair, acting jointly, within five days after the testimony is received.

8.4. Proposed Questions. A witness at a hearing, or the witness' counsel may submit to the Committee questions proposed to be asked of the witness or any other witness relevant to the matters upon which there has been any questioning or submission of evidence, and the Committee shall ask those questions that the Committee determines to be appropriate for the subject matter of the hearing. Questions shall be submitted to the Committee at least one working day before a witness's scheduled appearance.

8.5. Opening Statements. As far as practicable, each witness may be permitted to present a brief oral opening statement.

PART 9. VIOLATIONS OF LAW; CONTEMPT; PERJURY; AND APPLICABLE RULES AND STANDARDS OF CONDUCT

9.1. Violations of Law. Whenever the Committee determines by a two-thirds vote of the authorized membership that there is reason to believe that a violation of law, including the provision of false information to the Committee, may have occurred, it shall report the possible violation to the proper state and local authorities.

9.2. Contempt. (a) A person shall be in contempt if the person:

- (1) Fails or refuses to appear in compliance with a subpoena, or having appeared, fails or refuses to testify under oath or affirmation;
- (2) Fails or refuses to answer any relevant question or fails or refuses to furnish any relevant book, paper, or other document subpoenaed by or on behalf of the Committee; or
- (3) Commits any other act or offense against the Committee, which, if committed against the Legislature, or either House thereof, would constitute contempt.

(b) The Committee may, by a two-thirds vote of the authorized membership, report to the Speaker, any instance of alleged contempt. The Speaker shall certify the report of such contempt under the signature of the Speaker to the State Attorney General who shall prosecute the offender in any court of the State.

9.3. Perjury. Any person who knowingly and willfully swears falsely to a sworn complaint or any other sworn statement to the Committee does so under penalty of perjury. The Committee may refer any such case to the State Attorney General for prosecution.

9.4. Applicable Rules and Standards of Conduct. (a) Notwithstanding any other provision of this Part, no adjudicatory review shall be initiated for any alleged violation of any law, the House Code of Legislative Conduct, or Rule, which was not in effect at the time the alleged violation occurred. No provisions

of the House Code of Legislative Conduct shall apply to or require disclosure of any act, relationship, or transaction which occurred prior to the effective date of the applicable provision of the House Code of Legislative Conduct.

(b) The Committee may initiate an adjudicatory review of any alleged violation of a rule or law which was in effect prior to the enactment of the House Code of Legislative Conduct if the alleged violation occurred while such rule or law was in effect and the violation was not a matter resolved on the merits by the predecessor Committee.

PART 10. RULES OF DISCLOSURE

10.1. Non-Disclosure Policy. Except as provided in Rule 10.2, no Representative, member, staff, or any person engaged by contract or otherwise to perform services for the Committee shall release, divulge, publish, reveal by writing, word, conduct, or disclose in any way, in whole or in part, or by way of summary, including during tenure with the Committee or anytime thereafter, information or material in the possession of the Committee which pertains to illegal or improper conduct by a present or former Representative; allegations or accusations of this conduct; any resulting preliminary inquiry, adjudicatory review or other proceeding by the Committee into these allegations or conduct and any report issued about the inquiry, review, or other proceeding; the investigative techniques and procedures of the Committee; any testimony or other evidence given before the Committee in executive session (including the name of any witness who appeared or was called to appear in executive session), any classified or Committee-sensitive information, document or material, received or generated by the Committee, any material or information deemed to be confidential by the Chair and Vice Chair, acting jointly, or any classified or Committee-sensitive information which may come into the possession of this person during tenure with the Committee or its staff. No such information shall be made public unless authorized by a two-thirds vote of the authorized membership.

10.2. Disclosure to Executive and Judicial Officials. (a) Information, documents, or materials may be released to an official of the executive branch properly cleared for access with a need-to-know, for any purpose or in connection with any proceeding, judicial or otherwise, as authorized by the Committee or, in the event of termination of the Committee, in such a manner as may be determined by its successor or by the House.

(b) Information, documents, or materials may be released to an official of the judicial branch if it is required for judicial purposes, as authorized by the Committee or, in the event of termination of the Committee, in such a manner as may be determined by its successor or by the House.

10.3. Committee-Sensitive Documents. (a) Committee-sensitive documents and materials shall be stored in the Chair's office, with appropriate safeguards for maintaining the security of the documents or materials. Removal from the Chair's office of these documents or materials is prohibited except as necessary for use in, or preparation for, interviews or Committee meetings, including the taking of testimony, or as otherwise specifically approved by the Chair and Vice Chair, acting jointly.

(b) Each member shall have access to all materials in the Chair's possession. Members' staff shall not have access to Committee-sensitive documents and materials without the specific approval in each instance of the Chair and Vice Chair, acting jointly. Members may examine these materials in the Chair's office.

(c) Any Representative, who is not a member and who seeks access to any Committee-sensitive documents or materials, other than documents or materials which are matters of public record, shall request access in writing. The Committee shall decide by a two-thirds vote of the authorized membership whether to share documents or materials available. If access is granted, the Representative shall not disclose the information found in the documents or materials except as authorized by the Committee.

(d) Whenever the Committee makes Committee-sensitive documents or materials available to any Representative who is not a member in response to a specific request to the Chair and Vice Chair, a written record shall be made identifying the Representative requesting such documents or materials and describing what was made available to the Representative.

10.4. Release of Report to Public. All information of official actions, statements, or positions of the Committee shall be made by the Chair.

PART 11. CHANGES IN SUPPLEMENTARY PROCEDURAL RULES

11.1. Adoption of Changes in Supplementary Rules. The Rules of the Select Committee on the Standards of Conduct, other than rules established by statute, or by the Rules of the House, may be modified, amended, or suspended at any time, pursuant to a recorded vote of not less than two-thirds of the authorized membership taken at a meeting called with due notice after prior written notice of the proposed change has been provided each member.

11.2. Publication. Any amendments to the Rules of this Committee shall be published.

SCRep. 1 Human Services & Homelessness on H.B. No. 225

The purpose of this measure is to establish a working group within the Department of the Attorney General to study the issue of squatting in Hawaii and submit a report of its findings to the Legislature.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Human Services and Office of the Public Defender.

Your Committee finds that squatting presents a challenging and legally complex issue in the State. Even when members of the public report public nuisances on private property, law enforcement officers cannot remove squatters unless the property owner makes a trespass complaint, which allows squatters to continuously trespass on vacant or abandoned properties. Additionally, a property owner may claim that occupants are trespassing as squatters while the occupants claim they are former or present tenants. Therefore, this measure establishes a working group to study this issue and identify a more efficient process for addressing squatting in the State.

Your Committee has amended this measure by:

- (1) Changing the composition of the working group, including adding, replacing, and removing certain members;
- (2) Clarifying that the chair of the working group shall invite certain public members of the working group to participate;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 225, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 225, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Alcos).

SCRep. 2 Human Services & Homelessness on H.B. No. 280

The purpose of this measure is to permanently establish and appropriate funds for the Community Outreach Court as a division of the District Court of the First Circuit.

Your Committee received testimony in support of this measure from the Judiciary; Office of the Public Defender; and Hawaii Substance Abuse Coalition.

Your Committee finds that a Community Outreach Court Program was established in 2017 to assist non-violent offenders who are charged with offenses that disproportionately impact the homeless community by making court attendance more accessible, resolving any active charges, and utilizing alternative sentences such as community service work. Because the Community Outreach Court Program has proven to be successful in helping its participants address legal matters through alternative sentences, this measure would permanently establish the Community Outreach Court, which would allow participants to obtain basic necessities and, if necessary, access to appropriate social services.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 280, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 280, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Alcos).

SCRep. 3 Human Services & Homelessness on H.B. No. 431

The purpose of this measure is to:

- (1) Appropriate funds for the continued operation of the Kauhale Initiative;
- (2) Establish and appropriate funds into and out of the Supportive Housing Special Fund to assist the Hawaii Housing Finance and Development Corporation to facilitate the development of mixed-income rental housing projects; and
- (3) Establish the Kauhale Initiative Special Fund to assist the Statewide Office on Homelessness and Housing.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness; Department of Human Services; Hawai'i State Council on Developmental Disabilities; Kaua'i County Housing Agency; Catholic Charities Hawai'i; Hawaii Substance Abuse Coalition; Democratic Party of Hawai'i; Reimagining Public Safety in Hawai'i Coalition; Hawai'i Health & Harm Reduction Center; Going Home Hawai'i; and three individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Hawaii has the highest homelessness rate per capita in the nation. The State has made significant strides in addressing the pressing issue of homelessness, but continued efforts are needed. This measure represents a critical step forward in meeting the housing needs of Hawaii's most vulnerable populations by providing additional funds for the Kauhale Initiative and enabling the Hawaii Housing Finance and Development Corporation to work with developers to create additional supportive housing units. This measure further supports efforts to build partnerships between government and the community, which will help create an effective, efficient, and transparent system for developers, service providers, individuals with special housing needs, and the community as a whole.

Your Committee notes that to ensure transparency and fairness within the community, the procurement of services and projects related to the Kauhale Initiative should be awarded, to the extent possible, to multiple bidders and not just a single entity.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified amounts;
- (2) Deleting language that attempted to prevent the proper lapse of a general fund appropriation at the end of the fiscal biennium for which the appropriation was made;

- (3) Deleting language that would have established the Kauhale Initiative Special Fund;
- (4) Inserting language that appropriates an unspecified amount to assist the Statewide Office on Homelessness and Housing Solutions in implementing the Kauhale Initiative;
- (5) Changing the effective dates to June 29, 3000, and July 1, 3000, respectively, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$50,000,000 for the continued operation of the Kauhale Initiative and \$12,000,000 to be deposited into and out of the Supportive Housing Special Fund, including \$11,810,250 for the financing of the development, operation, and maintenance of affordable, supportive housing projects and the provision of supportive services for households with special needs who reside in the supportive housing projects and \$189,750 for the establishment and hiring of one temporary full-time equivalent (1.0 FTE) Housing Finance Specialist I within the Hawaii Housing Finance and Development Corporation to help with administration of the special fund.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 431, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 431, H.D. 1, and be referred to your Committee on Housing.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Alcos).

SCRep. 4 Human Services & Homelessness on H.B. No. 701

The purpose of this measure is to establish a refundable tax credit for nonpaid family caregivers.

Your Committee received testimony in support of this measure from the Executive Office on Aging; AARP Hawai'i; Hawai'i Family Caregiver Coalition; Democratic Party of Hawai'i; Alzheimer's Association - Hawaii; and numerous individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that unpaid family caregivers face significant physical, emotional, and financial challenges, often juggling caregiving duties alongside work and other personal responsibilities. Additionally, your Committee notes that family caregivers, on average, allocate twenty-six percent of their income to caregiving expenses, with over three-quarters covering out-of-pocket costs for items such as equipment, transportation, and home modifications. Therefore, this measure aims to alleviate the financial burden that unpaid family caregivers bear while supporting their loved ones in the State.

Your Committee notes the concerns raised in testimony by the Department of Taxation, regarding whether the Department has the appropriate personnel to determine tax credit eligibility. The Department of Taxation also noted that making the tax credit nonrefundable, rather than refundable as currently proposed by this measure, is preferable, as refundable credits are more susceptible to waste and could allow persons without a connection to the State to claim the credit and obtain a refund. The Department also noted that this measure makes the tax credit equal to the full amount of a taxpayer's expenses, whereas making the amount of the credit equal to a percentage of the taxpayer's expenses would discourage waste. Your Committee also notes the concerns raised in testimony about whether the tax credit is duplicative of an existing tax credit. Your Committee believes these concerns merit further discussion by your Committee on Economic Development & Technology.

Your Committee has amended this measure by:

- (1) Deleting the definition for "kupuna care services", as this term is not used in this measure;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 701, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 701, H.D. 1, and be referred to your Committee on Economic Development & Technology.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Alcos).

SCRep. 5 Human Services & Homelessness on H.B. No. 753

The purpose of this measure is to:

- (1) Increase a taxpayer's applicable percentage of employment-related expenses that is used to calculate the Household and Dependent Care Services Tax Credit; and
- (2) Extend the sunset date of the temporary increase in maximum employment-related expenses that are used to calculate the tax credit.

Your Committee received testimony in support of this measure from the Executive Office on Aging; Catholic Charities Hawai'i; AAUW of Hawaii; Hawai'i Children's Action Network Speaks!; AARP Hawai'i; Early Childhood Action Strategy; Chamber of Sustainable Commerce; and numerous individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that because the average cost of full-time child care in Hawaii currently exceeds \$13,000 per year for working families, the rising cost of child care should be reflected in the income tax credits allowed for expenses for household and dependent care services. While Act 163, Session Laws of Hawaii 2023 (Act 163), partially improved the Household and Dependent Care Services Tax Credit by increasing the claimable expenses, it did not raise the maximum percentage of expenses that can be claimed for the purposes of the tax credit, limiting its benefit. This measure increases the percentage of child and dependent care expenses eligible for the Household and Dependent Care Services Tax Credit, providing greater support for Hawaii's working families, and also fulfilling the Legislature's original intent for Act 163.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion;
- (2) Changing the sunset date to June 30, 3005; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 753, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 753, H.D. 1, and be referred to your Committee on Economic Development & Technology.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Alcos).

SCRep. 6 Human Services & Homelessness on H.B. No. 900

The purpose of this measure is to establish and appropriate funds for a working group to improve family court processes, including access to legal representation for youth in the child welfare system.

Your Committee received testimony in support of this measure from the Office of Wellness and Resilience; Judiciary; Mālama 'Ohana Working Group; Hawai'i Children's Action Network Speaks!; Hawaii Coalition for Child Protective Reform; and five individuals.

Your Committee finds that the Malama Ohana Working Group established by Act 86, Session Laws of Hawaii 2023, was tasked with recommending transformative changes to the State's existing child welfare system. Among the many recommendations of the working group was to strengthen the family court process for child welfare cases. Because the problems faced by children and families in the State's child welfare system are complex, the State must continue to work with the community and various stakeholders, including parents and children with lived experience in the child welfare system, to determine where necessary improvements to the family court process can be made.

Your Committee has amended this measure by:

- (1) Clarifying the duties of the working group related to site visits to selected jurisdictions in other states to identify possible practices to implement in Hawaii;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 900, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 900, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Alcos).

SCRep. 7 Labor on H.B. No. 201

The purpose of this measure is to appropriate funds to the Department of Labor and Industrial Relations to supplement the salary of the State Fire Marshal.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Lāhainā Strong.

Your Committee finds that the State Fire Marshal's salary should be commensurate with the greater responsibilities contemplated in the Lahaina Fire Incident Analysis Report. Your Committee believes that this measure addresses this need by appropriating funds to supplement the salary of the State Fire Marshal.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 201, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 201, H.D. 1, and be referred to your Committee on Public Safety.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 8 Labor on H.B. No. 205

The purpose of this measure is to limit the amount an employee has to pay for clinically necessary nonprescription, over-the-counter, or nonlegend drugs for workers' compensation purposes.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Insurers Council.

Your Committee finds that a payment rate for nonprescription, over-the-counter, or nonlegend drugs is necessary to limit the rising cost of workers' compensation insurance policies. Your Committee further finds that the State's unclear reimbursement rates for these drugs causes inflated drug prices, which then increases the cost of workers' compensation insurance policies. Your Committee believes that this measure will help reduce overall costs by establishing a clear payment rate in statute.

Your Committee amended this measure by:

- (1) Clarifying that payment for nonprescription, over-the-counter, or nonlegend drugs shall not exceed cost plus forty per cent; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 205, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 205, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 9 Labor on H.B. No. 222

The purpose of this measure is to amend the definition of "employee" in Hawaii's wage and hour law by excluding individuals who are primarily engaged in the range production of livestock.

Your Committee received testimony in support of this measure from the Hawaii Cattlemen's Council, Inc.; and one individual. Your Committee received comments from the Department of Labor and Industrial Relations.

Your Committee finds that the existing definition of "employee" under Hawaii's wage and hour law does not exclude individuals who are primarily engaged in the range production of livestock. As the daily tasks of a livestock producer can vary widely on any given day, your Committee believes that excluding them from the definition of "employee" provides the necessary flexibility under the wage and hour law.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 222, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 222, H.D. 1, and be referred to your Committee on Agriculture & Food Systems.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 10 Labor on H.B. No. 325

The purpose of this measure is to prohibit an employer from discriminating against a person in hiring, termination, or any term of condition of employment based on the person's status as a medical cannabis registry card holder, under certain conditions. This measure also authorizes an employer to use a fit-for-duty test for qualifying patients in potentially dangerous occupations and exempts certain occupations from the measure's nondiscrimination requirements.

Your Committee received testimony in support of this measure from the Department of Health; Imua Alliance; Hawai'i Cannabis Industry Association; Aloha Green Apothecary; and numerous individuals. Your Committee received testimony in opposition to this measure from the Hawaii Food Industry Association. Your Committee received comments on this measure from the Hawaii Substance Abuse Coalition; Maui Chamber of Commerce; and Society of Human Resource Management.

Your Committee finds that although medical cannabis was legalized in the State in 2000, many individuals who possess a medical cannabis registry card and are seeking employment still lose out on employment opportunities because of an employer's drug-free workplace policy, while employers are unsure whether state laws supersede their power to enforce drug-free workplace policies. As such, greater clarity is needed to ensure that individuals' rights are protected while employers are still able to provide a safe workplace. Your Committee believes that this measure provides clarity and balance by preventing employers from discriminating against an individual based on their status as a medical cannabis registry card holder, while still authorizing employers to conduct fit-for-duty tests in potentially dangerous occupations and completely excluding certain occupations from the nondiscrimination requirements of this measure.

Your Committee amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 325, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 325, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 11 Labor on H.B. No. 480

The purpose of this measure is to streamline the approval process for functional capacity exams to ensure automatic approval of such exams when requested by the attending physician for an injured employee.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Hawai'i Association of Professional Nurses; Hawaii Insurers Council; and one individual. Your Committee received comments on this measure from the Department of Human Resources and Development.

Your Committee finds that injured employees should receive medically necessary functional capacity exams upon a qualifying referral to improve the recovery of the injured employee. Your Committee further finds that functional capacity exams are critical for assessing whether an injured employee can return to work with or without accommodations, or to proceed with vocational rehabilitation when return to work is not possible. Currently, functional capacity exams are delayed because of pending approvals from insurers or adjusters. This process is further delayed by limiting who is qualified to perform functional capacity exams. Your Committee believes that this measure ensures the injured employee receives a functional capacity exam in a timely manner by authorizing attending physicians to request functional capacity exams without first obtaining the approval from an employer, and by allowing licensed occupational and physical therapists to perform these exams.

Your Committee has amended this measure by:

- (1) Specifying that a functional capacity exam can be requested when an injured employee has reached medical stabilization and is permanently unable to return to their usual and customary work; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 480, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 480, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 12 Labor on H.B. No. 595

The purpose of this measure is to establish the right of a person to record law enforcement activities and a private right of action for any violation of the right to record law enforcement activities.

Your Committee received testimony in support of this measure from the Office of the Public Defender; All Hawaii News; Big Island Press Club; and two individuals.

Your Committee finds that the First Amendment of the United States Constitution protects freedom of speech and expression and courts have determined that this includes the right to record police officers in public spaces so long as it does not interfere with the officer's duties and is done lawfully. Your Committee further finds that it is important to protect the right to record law enforcement activities and prevent infringements upon this right. Your Committee believes that this measure strikes an appropriate balance between an individual's right to record law enforcement activities and to bring an action for any violation of this right with law enforcement's ability to carry out its duties.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 595, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 595, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 13 Labor on H.B. No. 815

The purpose of this measure is to require health benefits plans established by Board of Trustees of the Employer-Union Health Benefits Trust Fund to meet or exceed the requirements of the Prepaid Health Care Act.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO and Hawaii State AFL-CIO. Your Committee received testimony in opposition to this measure from the Department of Budget and Finance.

Your Committee finds that members enrolled in the Employer-Union Health Benefits Trust Fund often pay forty percent of the total cost of their medical premiums while private sector employees covered under Hawaii's Prepaid Health Care Act contribute no more than 1.5 percent. Your Committee further finds that this measure will ensure that health benefits plans established by the Board of Trustees of the Employer-Union Health Benefits Trust Fund meet or exceed requirements under Hawaii's Prepaid Health Care Act, providing more affordable health care options.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 815, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 815, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 14 Tourism on H.B. No. 97

The purpose of this measure is to establish a new regulatory framework for the sale of travel insurance in the State, including licensing and registration requirements for limited lines travel insurance producers.

Your Committee received testimony in support of this measure from Crum & Forster, Allianz, United States Travel Insurance Association, and American Property Casualty Insurance Association. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that this measure will protect consumers in Hawaii by regulating the sale of travel insurance.

Your Committee has amended this measure by:

- (1) Changing its effective date to October 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Consumer Protection & Commerce, should it deliberate on this measure, to consider the amendments suggested by the Department of Commerce and Consumer Affairs.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 97, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 97, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Holt).

SCRep. 15 Tourism on H.B. No. 348

The purpose of this measure is to prohibit lodging establishments from providing personal care products in small plastic containers within sleeping room accommodations, any space within sleeping room accommodations, or bathrooms used by the public or guests.

Your Committee received testimony in support of this measure from the Environmental Caucus of the Democratic Party of Hawai'i and two individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Health, Hawai'i Lodging & Tourism Association, and Starn O'Toole Marcus & Fisher.

Your Committee finds that this measure will reduce the amount of harmful plastic waste in Hawaii while also making the visitor industry more sustainable.

Your Committee has amended this measure by:

- (1) Amending the definition of "personal care product"; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 348, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 348, H.D. 1, and be referred to your Committee on Energy & Environmental Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Holt).

SCRep. 16 Water & Land on H.B. No. 309

The purpose of this measure is to establish a working group within the University of Hawai'i Sea Grant Program to develop an inventory of state-owned fishponds.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawai'i Climate Change Mitigation and Adaptation Commission; Hawai'i Alliance for Progressive Action; Green Party of Hawai'i; Historic Hawai'i Foundation; Kua'āina Ulu 'Auamo; Hawai'i Farmers Union United; Hawai'i Fishermen's Alliance for Conservation and Tradition, Inc.; Strata Farms; and numerous individuals.

Your Committee finds that an inventory conducted in 1901 found approximately three hundred sixty loko i'a, or fishponds, in the State, with approximately ninety-nine in active use at the time. Your Committee further finds that since that survey, a range of factors have impacted loko i'a to varying degrees. While some loko i'a remain relatively intact, many have fallen into disrepair, are in ruins, or have been destroyed. Your Committee believes that in addition to preserving traditional Native Hawaiian culture and practices, loko i'a play a vital role in enhancing the State's ecological well-being and offer opportunities to expand food security and community-based resource management. This measure is intended to fulfill the State's responsibility as a steward of the land and ensure future generations can benefit from the opportunities loko i'a provide by developing a comprehensive inventory of loko i'a in the State, their condition, and their potential for restoration.

Your Committee has amended this measure by:

- (1) Clarifying that the inventory shall be of all fishponds on state land and shall include information on the function of each fishpond;
- (2) Specifying that the literature review shall include a review of Hawaiian language newspapers;
- (3) Changing the appropriation to an unspecified amount;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$250,000.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 309, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 309, H.D. 1, and be referred to your Committee on Higher Education.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 1 (Woodson).

SCRep. 17 Water & Land on H.B. No. 3

The purpose of this measure is to extend the deadline for the University of Hawai'i Sea Grant College Program to submit the North Shore Beach Management Plan to the Governor and Legislature.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; University of Hawai'i Sea Grant College Program; Climate Resilience Collaborative; and one individual.

Your Committee finds that Act 226, Session Laws of Hawaii 2024, required the University of Hawai'i Sea Grant College Program to submit a beach management plan for Oahu's North Shore by December 1, 2025. Your Committee believes that extending this deadline to December 1, 2026, will better enable the University of Hawai'i Sea Grant College Program to engage the community and develop a thorough and comprehensive beach management plan.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3, H.D. 1, and be referred to your Committee on Higher Education.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 1 (Woodson).

SCRep. 18 Water & Land on H.B. No. 505

The purpose of this measure is to:

- (1) Establish a Red Hill Water Alliance Initiative (WAI) policy coordinator to coordinate WAI initiatives across state and county agencies and appropriate federal entities; and
- (2) Establish the Red Hill Remediation Special Fund.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; University of Hawai'i System; Honolulu Board of Water Supply; Coalition Earth; Ka Lahui Hawai'i; Sierra Club of Hawai'i; Democratic Party of Hawai'i; Hui Malama Pono Hawaii; Mala Hanai Pua LLC; Hawai'i Alliance for Progressive Action; Environmental Caucus of the Democratic Party of Hawai'i; The Queens Court; and numerous individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the State has an affirmative duty to preserve and protect public trust resources, including water resources. Your Committee further finds that future access to clean drinking water on the island of Oahu has been seriously imperiled after fuel releases at the United States Navy's Red Hill Bulk Fuel Storage Facility contaminated the aquifer located beneath the facility.

As a response to the Red Hill crisis, representatives from the State and the City and County of Honolulu issued a unified statement and created the WAI working group to identify an approach to ensure clean water for current and future residents of Oahu. In November 2023, the WAI published a public, final report setting forth its findings and recommendations for the remediation needs for the future well-being of Oahu's aquifers and clean water sources, water distribution system, and the overall ecosystem, including springs, streams, and nearshore waters. While some of these recommendations can only be carried out by the federal government, other recommendations can be undertaken by the State or the City and County of Honolulu.

Your Committee believes that there should be no delay in taking steps to implement the WAI's recommendations that can be executed by the State and county. This measure is intended to protect the future of Oahu's clean water by establishing a WAI policy coordinator to ensure remediation efforts are appropriately coordinated between the State, City and County of Honolulu, and any appropriate federal entity.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 505, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 505, H.D. 1, and be referred to your Committee on Energy & Environmental Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 1 (Woodson).

SCRep. 19 Water & Land on H.B. No. 1144

The purpose of this measure is to allow the Department of Land and Natural Resources to employ civil service and non-civil service professional and technical staff in its State Historic Preservation Program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that existing law requires the State Historic Preservation Program to employ professional and technical staff in compliance with the State's civil service requirement. Your Committee further finds that authorizing a civil service exemption for these employees will enable the State Historic Preservation Program to maintain competitive compensation with the private sector, retain staff, and fill vacancies.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Labor, should it deliberate on this measure, to consider whether to reprice and reclassify these positions as an alternative means of ensuring competitive compensation for these positions.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1144, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1144, H.D. 1, and be referred to your Committee on Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 1 (Woodson).

SCRep. 20 Water & Land on H.B. No. 29

The purpose of this measure is to authorize the counties to implement additional enforcement mechanisms to address severe public nuisances that remain unmitigated after the exhaustion of all other existing remedies.

Your Committee received testimony in support of this measure from the Department of Planning and Permitting of the City and County of Honolulu and four individuals. Your Committee received testimony in opposition to this measure from the Grassroot Institute of Hawaii.

Your Committee finds that neglected properties often constitute public nuisances and can pose significant risks to public health, safety, and neighboring properties. Your Committee further finds that although the counties may initiate a non-judicial foreclosure for the collection of real property tax liens, there is no similar process when an administrative lien is placed on properties that become public nuisances. This measure is intended to extend the counties' authority to initiate non-judicial forecloses on neglected properties after the counties have exercised all other existing remedies.

Your Committee has amended this measure by:

- (1) Requiring counties to remit all revenues from the sale of the property in excess of any unpaid civil fines to the property owner;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 29, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 29, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Belatti). Noes, none. Excused, 1 (Woodson).

SCRep. 21 Water & Land on H.B. No. 331

The purpose of this measure is to:

- (1) Establish an exemption from applicable county permit requirements for repetitive construction projects for facilities under the control of any state department or agency; and
- (2) Clarify that contracts for the construction, renovation, or repair of facilities under the control of the Department of Education, University of Hawai'i, or School Facilities Authority are exempt from county permitting requirements that related off-site improvements be made by the contracting government agency as a condition to the issuance of any permit.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; University of Hawai'i System; School Facilities Authority; and two individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that most, but not all, counties exempt state agencies from county permitting requirements. Your Committee believes that aligning the county permitting exemptions for state agencies across all counties will accelerate the timeline for essential repairs and improvements and more efficiently address critical repair and maintenance and infrastructural needs across the State.

Your Committee has amended this measure by:

- (1) Defining "repetitive construction project";
- (2) Clarifying that county permitting exemptions do not apply to projects within a Special Flood Hazard Area;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 331, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 331, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Belatti). Noes, none. Excused, 1 (Woodson).

SCRep. 22 Water & Land on H.B. No. 306

The purpose of this measure is to establish a \$50 minimum and \$60,000 maximum fine for every violation of the State Water Code.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawai'i Alliance for Progressive Action; Green Party of Hawai'i; Environmental Caucus of the Democratic Party of Hawai'i; Sierra Club of Hawai'i; Strata Farms LLC; and numerous individuals. Your Committee received comments on this measure from the Honolulu Board of Water Supply; Department of Water Supply of the County of Hawai'i; and one individual.

Your Committee finds that the State has an affirmative duty to protect, control, and regulate the use of the State's water resources. Your Committee further finds that the current penalties in the State Water Code do not serve as a sufficient deterrent to prevent over-extraction or misuse of these resources. Your Committee believes that establishing minimum and maximum penalties for violations of the State Water Code, as intended by this measure, will help preserve water resources, protect vulnerable ecosystems, and ensure access to safe drinking water for residents and visitors in the State.

Your Committee has amended this measure by:

- (1) Including failure to comply with standardized water audit requirements as a violation subject to a penalty;
- (2) Leaving the maximum penalty unspecified;
- (3) Establishing factors that must be considered by the Commission on Water Resource Management when imposing a penalty;
- (4) Reverting to existing statutory language that permits, rather than requires, the Commission to set, charge, and collect administrative fines;
- (5) Establishing an incremental increase of the maximum fine effective every five years over a twenty-year period beginning in 2035;
- (6) Inserting severability and savings clauses;
- (7) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 306, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 306, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Iwamoto, Souza). Noes, none. Excused, 1 (Woodson).

SCRep. 23 Agriculture & Food Systems on H.B. No. 47

The purpose of this measure is to:

- (1) Authorize the Division of Animal Industry of the Department of Agriculture to adopt, amend, and repeal rules to develop an assessment and approval process to import and move aquatic livestock in the State; and
- (2) Require and appropriate funds for the Division of Animal Industry to develop that process through a biological aquatic risk-based framework.

Your Committee received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Hawai'i Farm Bureau; Hawai'i Farmers Union United; and Hawaii Aquaculture and Aquaponics Association.

Your Committee finds that Hawaii's aquaculture industry makes significant contributions to the State's economy in diversified agriculture. By allocating resources toward the development of regulatory frameworks that prioritize sustainability and biosecurity, this measure ensures the protection of the State's local communities and natural resources while promoting growth in local aquaculture.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$1,000,000.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 47, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 47, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 24 Agriculture & Food Systems on H.B. No. 781

The purpose of this measure is to appropriate funds for the Waiahole water system for bond debt service and tunnel repair.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation; Kunia Village Title Holding Corporation; Bayer; Hawaii Agriculture Research Center; Ulupono Initiative; Hawai'i Farm Bureau; Hawaii Crop Improvement Association; Land Use Research Foundation of Hawaii; Hawaii Cattlemen's Council; Kunia Agriculture Park, LLC; Aloun Farm, Inc.; Larry Jeffs Farms, LLC; Hawai'i Farmers Union United; and one individual. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the Waiahole water system transports water from the windward side of Oahu to the leeward side of the island, serving approximately five thousand six hundred acres of land in central and leeward Oahu, of which approximately eighty-six percent is in active agricultural use at any given time. The current agricultural water rate for users of the Waiahole water system is more than double that of comparable area rates for agricultural water. These costs are passed on to consumers, resulting in higher food prices. Therefore, as the debt service fees continue to escalate and deferred maintenance repairs need to be addressed, it is critical to appropriate funds to the Agribusiness Development Corporation to fully pay off the bond debt service on the Waiahole water system and repair critical infrastructure.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified amounts;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$4,500,000 to pay the bond debt service on the Waiahole water system and \$2,000,000 for the repair of the adit 8 tunnel of the Waiahole water system.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 781, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 781, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 25 Tourism on H.B. No. 446

The purpose of this measure is to require the Hawaii Tourism Authority and School of Travel Industry Management at the University of Hawaii at Manoa to collaborate to actively plan for the design, construction, and operations and management of a state hotel.

Your Committee received testimony in opposition to this measure from four individuals. Your Committee received comments on this measure from the Department of the Attorney General, Hawai'i Tourism Authority, School of Travel Industry Management at the University of Hawaii at Manoa, and Hawai'i Lodging & Tourism Association.

Your Committee finds that a state hotel could create workforce development opportunities for local residents and better allow the State to promote regenerative tourism for visitors.

Your Committee has amended this measure by:

- (1) Requiring the Hawaii Tourism Authority and School of Travel Industry Management at the University of Hawaii at Manoa to jointly perform a study, rather than actively plan, for the design, construction or purchase, and operations and management of a state hotel;
- (2) Requiring a report on the study to be submitted to the Legislature prior to the Regular Session of 2027;
- (3) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it choose to deliberate on this measure, to consider appropriating \$150,000 for the study.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 446, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 446, H.D. 1, and be referred to your Committee on Higher Education.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Holt).

SCRep. 26 Health on H.B. No. 303

The purpose of this measure is to:

- (1) Amend the definitions of "preceptor" and "volunteer-based supervised clinical training rotation" to improve accessibility for providers to receive income tax credits for acting as preceptors, including removing "primary care" from the criteria to qualify as a preceptor;
- (2) Add physician assistants, social workers, and licensed dietitians to the list of preceptors and in the definition of "eligible student";
- (3) Expand eligibility for the tax credit to include accredited residency programs that require preceptor support; and
- (4) Revise the membership of the Preceptor Credit Assurance Committee to include the Director of Health and residency programs with eligible students.

Your Committee received testimony in support of this measure from the Department of Health; Hawaii Health Systems Corporation Corporate Board of Directors; University of Hawai'i System; Hawai'i State Center for Nursing; Hawai'i Primary Care Association; Healthcare Association of Hawaii; Hawai'i Pacific Health; Hawai'i Association of Professional Nurses; The Queen's Health Systems; Hawaii Medical Association; Kaiser Permanente Hawai'i; Hawai'i Academy of Physician Assistants; The Kahala Clinic for Children and Family; Hawai'i-American Nurses Association; Hawai'i Affiliate of the American College of Nurse-Midwives; and numerous individuals. Your Committee received comments on this measure from the Department of Taxation; Tax Foundation of Hawaii; and one individual.

Your Committee finds that there is a shortage of primary care providers in the State. Your Committee further finds that the healthcare preceptor income tax credit is intended to incentivize volunteer preceptors to offer professional instruction, training, and supervision to students and residents seeking careers as health care providers. However, only a small subset of providers meet the credit's eligibility requirements each year. Additionally, some classes of health care providers, such as licensed dietitians, physician assistants, and social workers, are statutorily ineligible for the tax credit. This measure is intended to increase eligibility for the tax credit by clarifying compensation limits for volunteer-based supervised clinical training rotations and expanding the definition of "preceptor" to include additional medical specialties.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 303, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 303, H.D. 1, and be referred to your Committee on Economic Development & Technology.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 27 Health on H.B. No. 441

The purpose of this measure is to increase the cigarette tax and allocate the increase to be deposited into the Hawaii Cancer Research Special Fund.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of Health; University of Hawai'i Cancer Center; Hawai'i Pacific Health; Hawaii Substance Abuse Coalition; Hina Mauka; Hawai'i Primary Care Association; The Queen's Health Systems; Hawaii Medical Association; Coalition for a Tobacco-Free Hawai'i; Campaign for Tobacco-Free Kids; American Cancer Society Cancer Action Network; The Friends of Kamalani and Lydgate Park; Hawaii COPD Coalition; and numerous individuals. Your Committee received testimony in opposition to this measure from the Cigar Association of America; Retail Merchants of Hawaii; and five individuals. Your Committee received comments on this measure from Department of Taxation; Tax Foundation; Taxpayers Protection Alliance; and one individual.

Your Committee finds that cigarette smoking remains the leading cause of preventable death nationally, and is linked to heart disease, cancer, and stroke. According to the United States Surgeon General, increasing the price of tobacco products is the single most effective way to reduce consumption. Your Committee further finds that the University of Hawai'i Cancer Center receives funding through revenues from the State's cigarette tax stamp. However, cigarette tax stamp revenues have been declining since 2015, resulting in fewer funds going to the Cancer Center. Your Committee believes that increasing taxes on cigarettes and little cigars, as proposed by this measure, will reduce tobacco consumption in the State and ensure the University of Hawai'i Cancer Center receives adequate funding to carry out its important work of building and launching strategic initiatives to combat cancer.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 441, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 441, H.D. 1, and be referred to your Committee on Higher Education.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 28 Human Services & Homelessness on H.B. No. 731

The purpose of this measure is to:

- (1) Authorize a physician, upon consultation with a minor patient who indicates that the minor was the victim of a sexual offense, with the consent of the minor patient, to perform customary and necessary examinations to obtain evidence of the sexual offense and may prescribe for and treat the patient for any immediate condition caused by the sexual offense; and
- (2) Provide that the consent of the parent, parents, or legal guardian of a minor offender who has been committed to the Hawaii Youth Correctional Facilities shall not be necessary in order to authorize hospital, medical, mental health, dental, emergency health, or emergency surgical care.

Your Committee received testimony in support of this measure from the Office of Youth Services; Hawai'i Association of Professional Nurses; and one individual. Your Committee received testimony in opposition to this measure from The Sex Abuse Treatment Center. Your Committee received comments on this measure from the Department of the Attorney General; Hawai'i State Center for Nursing; and SAFE Team Maui County.

Your Committee finds that minors who are victims of sexual offenses require access to necessary and timely trauma-informed care. By safeguarding minors' rights and streamlining access to specialized care, such as sexual assault forensic examinations, this measure strengthens Hawaii's ability to address the needs of vulnerable youth and reduce the barriers to justice and recovery.

Your Committee has amended this measure by:

- (1) Clarifying that a licensed health care provider properly trained in the medical forensic care of a patient who has experienced sexual assault or abuse, rather than a physician, may perform the customary and necessary examinations under this measure;
- (2) Clarifies provisions related to civil and criminal liability for health care providers;
- (3) Deleting language regarding parental or guardian consent for treatment of minors in the custody of the Hawaii Youth Correctional Facilities, as the Director of the Office of Youth Services already has the power to consent to medical and other health care services for youth in custody;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 731, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 731, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, 1 (Garcia). Excused, 1 (Alcos).

SCRep. 29 Human Services & Homelessness on H.B. No. 129

The purpose of this measure is to:

- (1) Prohibit the assessment of any fees, fines, or court costs against a person who is adjudicated for an offense committed while the person was a minor under the age of eighteen, or against the person's parent or guardian;
- (2) Limit court-ordered community service for a minor to no more than seventy-two hours; and
- (3) Repeal certain penalties imposed on parents, guardians, or other persons associated with unaccompanied children in streets and unmarried minors in dance halls.

Your Committee received testimony in support of this measure from the Office of the Public Defender; Hawai'i Juvenile Justice State Advisory Council; Mālama Mākuā; American Civil Liberties Union of Hawai'i; Hawai'i Friends of Restorative Justice; Opportunity For Youth Action Hawai'i; Nā 'Ōpio Waiwai; Debt Free Justice Hawai'i; Community Alliance on Prisons; and three individuals. Your Committee received testimony in opposition to this measure from the Office of the Prosecuting Attorney of the County of Kaua'i. Your Committee received comments on this measure from the Judiciary; Department of the Attorney General; and Department of Education.

Your Committee finds that charging fees, fines, and court costs to youth is a harmful and ineffective accountability practice, disproportionately affecting Native Hawaiian and Pacific Islander minors in Hawaii. A report by the Administrative Director of the Courts revealed that only seventeen percent of fines ordered against minors in the past five years have been paid, highlighting the impracticality of this approach. Your Committee further finds that assessing fines in juvenile justice proceedings has not been shown to rehabilitate, deter, or effectively punish delinquent youth. With many states taking steps to end fees and fines in juvenile justice cases, this measure ensures that youth are not burdened by financial penalties for mistakes made during their formative years.

Your Committee has amended this measure by:

- (1) Clarifying that the removal of the responsibility of any financial reimbursement from a minor does not preclude the courts from ordering restitution to a victim when applicable;
- (2) Clarifying provisions to allow the principal of a public school to use their discretion in determining whether a student can repair damage caused by vandalism;
- (3) Restoring statutory language that requires a minor to pay for the actual cost of having the damaged property repaired or replaced in cases involving graffiti;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 129, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 129, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, 1 (Garcia). Excused, 1 (Alcos).

SCRep. 30 Agriculture & Food Systems on H.B. No. 499

The purpose of this measure is to:

- (1) Establish a refundable income tax credit for qualified taxpayers that incur qualified expenses in connection with activities that enhance the resiliency of the food and beverage supply chain; and
- (2) Require the Department of Business, Economic Development, and Tourism to establish expedited permitting processes for certain food and beverage supply chain projects.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau; Hawaii Food Industry Association; Hawaii Aquaculture and Aquaponics Association; Land Use Research Foundation of Hawaii; Hawai'i Farmers Union United; and Hawai'i Foodbank. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the State is vulnerable to disruptions caused by natural disasters, which could leave residents with limited access to food and essential supplies for extended periods. Despite the State's goal of doubling local food production by 2030, small businesses engaged in food and beverage production, distribution, and retailing face significant challenges. This measure would provide incentives for improving food and beverage supply chain activities and create an environment where local businesses could expand and succeed.

Your Committee has amended this measure by:

- (1) Specifying that at least twenty-five percent of the total amount of tax credits per year shall be reserved for small-scale producers and community-based organizations;
- (2) Requiring the Department of Business, Economic Development, and Tourism to establish reporting metrics;
- (3) Clarifying the definition of "qualified taxpayer";
- (4) Clarifying rulemaking responsibility for the Department of Business, Economic Development, and Tourism, rather than the Department of Taxation;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriate maximum amount of tax credits allowed per taxpayer per year, as the measure includes an aggregate \$2,000,000 cap for all qualified taxpayers in any taxable year, and the Department of Business, Economic Development, and Tourism's request for one full-time equivalent (1.0 FTE) position to facilitate the tax credit.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 499, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 499, H.D. 1, and be referred to your Committee on Economic Development & Technology.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 31 Culture & Arts on H.B. No. 307

The purpose of this measure is to authorize the issuance of special number plates to recognize restoration and preservation efforts on Kaho'olawe Island by the Protect Kaho'olawe 'Ohana, Kaho'olawe Island Reserve Commission, and other community members.

Your Committee received testimony in support of this measure from the Kaho'olawe Island Reserve Commission; Protect Kaho'olawe 'Ohana; Kua'āina Ulu 'Auamo; Sierra Club of Hawai'i; and numerous individuals.

Your Committee finds that January 4, 2026, marks the fiftieth anniversary of the first successful landing on Kaho'olawe by nine courageous individuals, known as the "Kaho'olawe 9", in support of Native Hawaiian sovereignty and self-determination, initiating an island wide movement to "Stop the Bombing" and the United States' military use of the island of Kaho'olawe. In subsequent years, the Protect Kaho'olawe 'Ohana and Kaho'olawe Island Reserve Commission were formed and worked with the Department of Land and Natural Resources to undertake the stewardship of the island to restore vital cultural practices and preserve Kaho'olawe's natural ecosystem. Your Committee finds it appropriate to honor Kaho'olawe with a special name plate to support the ongoing efforts of restoration and preservation of the land and culture.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Culture & Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 307, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 307, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Reyes Oda).

SCRep. 32 Public Safety/Water & Land on H.B. No. 113

The purpose of this measure is to:

- (1) Require certain owners and others with charge of or control over properties located in hazardous fire areas to maintain effective firebreaks within thirty feet of the property and to practice other fire prevention activities; and
- (2) Establish the Community Fuels Reduction Project to be administered by the Department of Land and Natural Resources.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; a member of the Kaua'i County Council; Hawai'i Climate Advisory Team; Wildfire Safety Advocates of Waikoloa; and three individuals. Your Committees received comments on this measure from the Department of Education; State Fire Council; Kamehameha Schools; Life of the Land; and one individual.

Your Committees find that because of Hawaii's many areas of fire vulnerability, it is imperative for the State to be aggressive in public and private efforts to control burnable fuel overgrowth and create effective firebreaks.

Your Committees have amended this measure by:

- (1) Deleting part I, which required certain owners and others with charge of or control over properties located in hazardous fire areas to maintain effective firebreaks within thirty feet of the property and to practice other fire prevention activities;
- (2) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Public Safety and Water & Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 113, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 113, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chairs on behalf of the Committees.
Public Safety: Ayes, 9. Noes, none. Excused, 1 (Woodson).
Water & Land: Ayes, 9. Noes, none. Excused, 1 (Woodson).

SCRep. 33 Health on H.B. No. 302

The purpose of this measure is to:

- (1) Repeal the requirement that a provider-patient relationship be established in person for purposes of obtaining a certification for medical cannabis; and
- (2) Allow applicants or primary caregivers to temporarily purchase medical cannabis after the submission of the applicant's certification form.

Your Committee received testimony in support of this measure from the Hawai'i Cannabis Industry Association; Aloha Green Apothecary; Cure Oahu; Noa Botanicals; and Big Island Grown Dispensaries. Your Committee received comments on this measure from the Department of the Attorney General; Department of Health; and Akamai Cannabis Consulting.

Your Committee finds that access for qualifying patients and primary caregivers to medical cannabis remains challenging due to limited access to medical providers, delays in obtaining authorizations for access to enter and purchase medical cannabis from licensed medical cannabis dispensaries, and a thriving illicit market. Your Committee further finds that between August 2021 and November 2024, the number of registered card-holding patients in Hawaii decreased by fifteen percent, indicating that qualifying patients are shifting away from licensed medical cannabis dispensaries and instead obtaining their medical cannabis from elsewhere. Your Committee believes that reducing some of the administrative barriers to accessing medical cannabis, as intended by this measure, will support the State's medical cannabis program and encourage qualifying patients to access medical cannabis in a manner that ensures patient safety, product safety, and public safety.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 302, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 302, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, none.

SCRep. 34 Health on H.B. No. 557

The purpose of this measure is to:

- (1) Update the State's laws on telehealth services to conform with federal Medicare regulations;
- (2) Require the Insurance Commissioner to report to the Legislature on reimbursements claimed in the previous year for certain telehealth services; and
- (3) Repeal the sunset date of Act 107, Session Laws of Hawaii 2023.

Your Committee received testimony in support of this measure from the Department of Health; State Health Planning and Development Agency; University of Hawai'i at Mānoa John A. Burns School of Medicine; Hawai'i Primary Care Association; Hawai'i Pacific Health; OhanaPsych; Hawai'i Psychological Association; Hawaii Counselors Association; The Hawaiian Islands Association for Marriage and Family Therapy; National Association of Social Workers

Hawai'i Chapter; AARP Hawai'i; American Cancer Society Cancer Action Network; Catholic Charities Hawai'i; AlohaCare; The Queen's Health Systems; Alzheimer's Association Hawaii Chapter; and three individuals. Your Committee received testimony in opposition to this measure from the Hawaii Medical Service Association and Hawaii Association of Health Plans. Your Committee received comments on this measure from the Department of Human Services and Department of Commerce and Consumer Affairs.

Your Committee finds that the State's rural and underprivileged communities are often cut off from receiving essential health care services through telehealth because they lack the broadband coverage necessary to access this care. Your Committee further finds that the use of standard telephone contact in telehealth during the COVID-19 pandemic demonstrated the effectiveness of this tool as a mode of essential health care delivery, particularly for residents living in rural, isolated, or underprivileged communities. Your Committee recognizes the concerns raised in testimony that the existing Medicare flexibility for expanded audio-only modalities is set to expire on March 31, 2025. Your Committee further recognizes the concerns that while Medicare guidelines do allow for the use of audio-only modalities for all services, these guidelines must be considered in parallel with the telehealth coverage provisions of section 1834(m) of the Social Security Act, which limits the kinds of health care services that can be provided in the home to mental health services, substance use disorder services, and end-stage renal dialysis.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying the definition of "interactive telecommunications system" by:
 - (A) Restricting the provision of two-way, real-time, audio-only communication technology between a patient and distant site health care provider for services furnished for the purposes of diagnosis, evaluation, or treatment of a mental health disorder; and
 - (B) Requiring health care providers to append a modifier designated by the Centers for Medicaid and Medicare Services to any claim for two-way, real-time audio-only communications technology to verify that the requirements for audio-only telehealth services have been met;
- (2) Removing the requirement that the Insurance Commissioner include the total number of claims for audio-only telehealth services not related to mental health from the required annual report to the Legislature; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 557, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 557, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Alcos), None. Noes, none. Excused, none.

SCRep. 35 Agriculture & Food Systems on H.B. No. 501

The purpose of this measure is to:

- (1) Establish an Agricultural Enforcement Program within the Department of Law Enforcement;
- (2) Establish the Agricultural Enforcement Special Fund; and
- (3) Appropriate funds for and establish positions within the Agricultural Enforcement Program.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Research and Development of the County of Hawai'i; Hawaii Cattlemen's Council; Hawai'i Farm Bureau; Palani Ranch Company, Inc.; Hawaiian Host Group; Hawai'i Farmers Union United; and nine individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that agricultural theft and vandalism are impediments to running a successful and profitable farming operation and are harmful to consumers and residents. Agricultural theft and other crimes occurring on agricultural lands have become commonplace, as rural locations of ranches and farms can make it challenging for law enforcement agencies to timely respond to reports. Your Committee further finds that establishing an Agricultural Enforcement Program will lead to stronger enforcement and greater deterrence of crimes on agricultural lands, thereby increasing public safety.

Your Committee has amended this measure by:

- (1) Clarifying that the Assistant Chief, rather than the Director of Law Enforcement, shall determine certain duties and responsibilities to be carried out by state law enforcement officers in the Agricultural Enforcement Program;
- (2) Changing the numbers of various positions to be established within the Agricultural Enforcement Program to unspecified numbers;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider one full-time equivalent (1.0 FTE) Assistant Chief position; eight full-time equivalent (8.0 FTE) State Law Enforcement Investigator positions, with two positions for each county; and thirty-six full-time equivalent (36.0 FTE) Uniformed State Law Enforcement Officer positions for patrol functions, with the counties of Hawaii, Kauai, and Maui having eight positions each and the City and County of Honolulu having twelve positions.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 501, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 501, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 36 Agriculture & Food Systems on H.B. No. 643

The purpose of this measure is to:

- (1) Establish short-term management initiatives for the Coconut Rhinoceros Beetle Response Program; and
- (2) Appropriate funds to support the Program's activities and positions.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; University of Hawai'i System; Hawaii Invasive Species Council; two members of the Kauai County Council; Department of Agriculture of the County of Maui; Department of Research and Development of the County of Hawaii; Office of Economic Development of the County of Kauai; Coordinating Group on Alien

Pest Species; Hawai'i Farm Bureau; O'ahu Invasive Species Committee; Kauai Invasive Species Committee; Big Island Invasive Species Committee; and numerous individuals. Your Committee received testimony in opposition to this measure from Malama Aina Landscape and Masonry Design, LLC; and one individual.

Your Committee finds that the coconut rhinoceros beetle can have devastating impacts on palm species that are foundational to the State's agricultural economy, cultural heritage, and ecosystems. Your Committee further finds that the Coconut Rhinoceros Beetle Response Program, a coordinated partnership among the University of Hawaii, United States Department of Agriculture, Hawaii Department of Agriculture, and other key organizations, investigates new control methods and best practices to combat the coconut rhinoceros beetle. This measure ensures that the program incorporates strategic short-term management initiatives and has sufficient funding and personnel.

Your Committee notes that the Coconut Rhinoceros Beetle Response Program has been primarily funded by the federal government and that the program may or may not receive continued funding later this year if continued funding is not reapproved.

Your Committee has amended this measure by:

- (1) Including the island of Kauai among the islands to be served by the Coconut Rhinoceros Beetle Response Program;
- (2) Clarifying that the University of Hawaii shall perform canine inspections in coordination with the Department of Agriculture on high-risk cargo moving between islands;
- (3) Deleting language related to subsidizing container fumigation of high-risk materials traveling between islands;
- (4) Changing the appropriation allocations to unspecified amounts;
- (5) Appropriating an unspecified amount for three drones to be used on Hawaii island and the islands of Maui and Kauai;
- (6) Specifying the types of positions being established for biocontrol research;
- (7) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation allocation amount of \$15,000 for training tree trimmers, arborists, and the landscaping industry; \$160,000 for subsidizing canopy treatments for residential palm owners; \$25,000 for extending deployment of coconut rhinoceros beetle response teams to Hawaii island and the islands of Maui, Molokai, Kauai, and Lanai; \$250,000 for canine inspections for high-risk cargo moving between islands; \$60,000 for drones; and \$200,000 for one Technician position and two Graduate Student positions for biocontrol research.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 643, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 643, H.D. 1, and be referred to your Committee on Higher Education.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 37 Agriculture & Food Systems on H.B. No. 452

The purpose of this measure is to require and appropriate funds for the Department of Business, Economic Development, and Tourism to develop and implement a grant program to expand the meat processing capacity in the State.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Hawaii Food Industry Association; Land Use Research Foundation of Hawaii; and two individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of the Attorney General and Department of Business, Economic Development, and Tourism.

Your Committee finds that there is a need for increased meat processing capacity in the State, as smaller ranchers and hunters compete for limited capacity, resulting in the loss of potential use of wild game meat. Additionally, axis deer, an invasive species that poses a continuing threat to Hawaii's environment, and other wild game could provide significant quantities of meat as a protein source for non-profit food distribution centers. This measure would strengthen Hawaii's food self-sufficiency by expanding the meat processing capacity of the State through a grant program and allowing for the potential use of wild game meat by non-profit food distribution services.

Your Committee has amended this measure by:

- (1) Inserting language that specifies standards for the issuance of grants under the program;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee requests your Committee on Economic Development & Technology, should it deliberate on this measure, to consider establishing and appropriating funds for a meat processing mobile or brick-and-mortar facility on a rural island, Hawaii island, or the island of Maui, rather than establishing a grant program.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 452, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 452, H.D. 1, and be referred to your Committee on Economic Development & Technology.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 38 Agriculture & Food Systems on H.B. No. 496

The purpose of this measure is to impose certain labeling requirements for māmaki tea sold in the State.

Your Committee received testimony in support of this measure from the Department of Agriculture and Hawai'i Farm Bureau.

Your Committee finds that māmaki is a plant that is endemic to Hawaii and used to make an herbal tea. Because māmaki tea is a growing agricultural commodity, the implementation of labeling requirements would ensure the viability of Hawaii-grown māmaki tea. This measure protects Hawaii-grown

māmaki tea by establishing certain labeling requirements for māmaki tea products sold in the State to ensure that labels purporting that all or a portion of the māmaki tea was grown in Hawaii are true and accurate.

Your Committee has amended this measure by:

- (1) Prohibiting the use of certain words that can be used on the label of a consumer package that contains or includes tea or dried leaves from the plant *Pipturus albidus*, unless one hundred percent of the tea or dried leaves were grown in the State;
- (2) Inserting language that appropriates an unspecified amount for staff positions for the Department of Agriculture to support enforcement of labeling regulations;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$65,000 for one full-time equivalent position for the Department of Agriculture.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 496, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 496, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 39 Agriculture & Food Systems on H.B. No. 774

The purpose of this measure is to establish a food and product innovation network within the Agribusiness Development Corporation to enable businesses to scale up new products from research and development to manufacturing and commercialization.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Business, Economic Development, and Tourism; University of Hawai'i System; Agribusiness Development Corporation; Hawai'i Farm Bureau; Hawai'i Farmers Union United; and Hawaii Food Industry Association.

Your Committee finds that establishing a food and product innovation network is critical to meeting the State's agricultural and economic diversification goals. Additionally, a network of open-access food and value-added product development facilities in Hawaii would support the production of new value-added products, which would allow locally-produced value-added goods to compete with imported products. This measure strengthens the local economy by capitalizing on the Hawaii brand and supporting local producers in expanding into new export markets.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 774, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 774, H.D. 1, and be referred to your Committee on Economic Development & Technology.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Perruso). Noes, none. Excused, 1 (Ward).

SCRep. 40 Education on H.B. No. 110

The purpose of this measure is to modify certain benchmark goals and timelines for the Department of Education to purchase a certain amount of fresh local agricultural products and local value-added, processed, agricultural, or food products.

Your Committee received testimony in support of this measure from one member of the Kaua'i County Council; Hawai'i Public Health Institute; Green Party of Hawai'i; Hawaii Cattlemen's Council, Inc.; Hawai'i Farm Bureau; Hawai'i Farmers Union United; Strata Farms LLC; and numerous individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that supporting local agriculture and strengthening local food systems can improve the resilience of the State's economy, environment, culture, and public health. To provide support for local farmers and guarantee that revenue derived from local produce remains in the State and feeds local people, Act 175, Session Laws of Hawaii 2021, was enacted, which established a programmatic goal for the Department of Education to provide a minimum of thirty percent locally sourced food in Hawaii public school meals by 2030. In addition, the enactment of Act 176, Session Laws of Hawaii 2021, Act 144, Session Laws of Hawaii 2022, established benchmarks ensuring a certain percentage of produce that is purchased by the Department of Education, Department of Health, Department of Public Safety, Department of Defense, and University of Hawaii System is locally grown.

Your Committee further finds that the existing goals set different standards for various state departments. Specifically, the programmatic goal for the Department of Education to locally source at least thirty percent of food served in public schools by 2030 is higher than other state departments. Your Committee believes that the benchmark goals for certain departments should be assessed on a more frequent basis than the Department of Education. This measure will resolve some of the discrepancies between the locally sourced food benchmarks for the Department of Education and those of other state entities.

Your Committee has amended this measure by changing the effective date to July 1, 3000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 110, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 110, H.D. 1, and be referred to your Committee on Agriculture & Food Systems.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 41 Education on H.B. No. 1088

The purpose of this measure is to exempt housing developed by the Department of Hawaiian Home Lands from school impact fees.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and School Facilities Authority. Your Committee received comments on this measure from the Department of Education and Tax Foundation of Hawaii.

Your Committee finds that the Department of Hawaiian Home Lands leases some of its lands for educational facilities at minimal to no cost. Additionally, the Department of Hawaiian Home Lands does consider the need for educational facilities when developing its affordable housing plan. Your Committee believes that exempting housing developed by the Department of Hawaiian Home Lands from school impact fees will allow for more homes to be developed and thus benefiting more native Hawaiian beneficiaries.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1088, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1088, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 42 Education on H.B. No. 628

The purpose of this measure is to authorize the Department of Education to establish a program to award high school diplomas to persons who did not receive a high school diploma as a result of compulsory or voluntary induction into active service in the armed services of the United States and any person whose high school education was interrupted due to wartime practices during World War II, the Korean War, or the Vietnam War.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that compulsory induction into active service in the Armed Services of the United States and other wartime practices caused individuals to defer their educational goals. Your Committee further finds that the establishment of a program to award high school diplomas to these individuals allows them to receive recognition and gratitude from the State for their wartime sacrifices to their country.

Your Committee has amended this measure by changing the effective date to July 1, 3000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 628, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 628, H.D. 1, and be referred to your Committee on Public Safety.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 43 Education on H.B. No. 497

The purpose of this measure is to:

- (1) Transfer the Hawaii Child Nutrition Programs Agency from the Department of Education to the Department of Agriculture; and
- (2) Appropriate funds for grants to be administered by the Hawaii Child Nutrition Programs Agency.

Your Committee received testimony in support of this measure from the Hawai'i Public Health Institute; Hawai'i Youth Food Council; Hawai'i Farmers Union United; Hawaii Cattlemen's Council, Inc.; and one individual. Your Committee received comments on this measure from the Department of the Attorney General; Department of Education; and Department of Agriculture.

Your Committee finds that the Hawaii Child Nutrition Programs is the state agency link between the United States Department of Agriculture Food and Nutrition Service and local program operators and plays a critical role in ensuring the State meets its programmatic goal of providing at least thirty percent locally grown food in the State's public schools by 2030. Currently, the Hawaii Child Nutrition Programs is attached to the Department of Education under the Board of Education. Your Committee finds that it would be more appropriate for the Hawaii Child Nutrition Programs to be independent from the Department of Education to allow the Hawaii Child Nutrition Programs greater independence, efficiency, and flexibility in conducting compliance audits and fiscal reviews.

Your Committee has amended this measure by:

- (1) Inserting language establishing standards for the distribution of the funds appropriated in this measure as grants under the program administered by the Hawaii Child Nutrition Programs Agency;
- (2) Amending the preamble;
- (3) Changing the effective date to July 1, 3000; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 497, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 497, H.D. 1, and be referred to your Committee on Agriculture & Food Systems.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 44 Education on H.B. No. 1074

The purpose of this measure is to require the School Facilities Authority to consult with the Department of Education and other impacted departments or agencies prior to the conveyance of ownership rights or lease of lands owned or occupied by the Department of Education or other impacted departments or agencies to the School Facilities Authority.

Your Committee received testimony in support of this measure from the Department of Education. Your Committee received comments on this measure from the School Facilities Authority.

Your Committee finds that requiring consultation with the Department of Education and other impacted departments or agencies by the School Facilities Authority (Authority) prior to any conveyance of ownership rights or lease of lands to the Authority will promote a practical, balanced, and cooperative approach to state land management and ensure that the Authority's land use decisions align with the Department of Education's operational and strategic goals.

Your Committee has amended this measure by:

- (1) Deleting the requirement that the Department of Education's transfer of land be based upon terms and conditions as may be agreed to by the parties;
- (2) Changing the effective date to July 1, 3000; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1074, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1074, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 45 Education on H.B. No. 328

The purpose of this measure is to:

- (1) Require the Department of Education to authorize and facilitate complex areas or individual department schools to form their own Farm to School Meal Programs; and
- (2) Authorize the Department of Education to establish a plant-based meal program to provide a plant-based meal as an option under the school meals program.

Your Committee received testimony in support of this measure from the Department of Agriculture; one member of the Hawai'i County Council; Environmental Caucus of the Democratic Party of Hawai'i; Hawai'i Alliance for Progressive Action; Hawai'i Public Health Institute; Green Party of Hawai'i; Climate Protectors Hawai'i; Down to Earth Organic and Natural; 350Hawaii.org; Hawai'i Farmers Union United; Chamber of Sustainable Commerce; Hawai'i Youth Food Council; Hawaii Cattlemen's Council, Inc.; Strata Farms LLC; Hawai'i State Teachers Association; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and numerous individuals. Your Committee received comments on this measure from the Department of the Attorney General and Department of Education.

Your Committee finds that setting a target goal of food served in public schools to consist of locally sourced products is of great benefit for the health of Hawaii's students. Establishing a partnership between schools and nonprofit organizations or private entities to meet these target goals will increase student meal participation, reduce food waste, increase cost savings, and significantly increase the amount of locally sourced food served in school cafeterias. Additionally, offering plant-based meals in public schools can also greatly increase demand for local greens and encourage students to engage in healthy nutrition. This measure promotes local farming jobs and agriculture through incentives for public schools and expanding meal options for students.

Your Committee has amended this measure by:

- (1) Deleting language that would have authorized the Department of Education to accept public or private donations or grants from individuals and other agencies to support the Farm to School Meal Programs;
- (2) Inserting language that authorizes public schools to accept donations or contributions from individuals, nonprofit organizations, or private entities to support the farm to school meal program, subject to approval of the Superintendent of Education;
- (3) Clarifying the applicability of the farm to school programs to the Department of Education and public schools;
- (4) Changing the effective date to July 1, 3000; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 328, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 328, H.D. 1, and be referred to your Committee on Agriculture & Food Systems.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 46 Education on H.B. No. 903

The purpose of this measure is to:

- (1) Authorize the Department of Education to stock bronchodilators for emergency use during respiratory distress;
- (2) Authorize certain employees of a school and Department of Education personnel to volunteer to administer certain medication in emergency situations, under certain conditions; and
- (3) Amend prescription drug labeling requirements to include certain information related to a school, if applicable.

Your Committee received testimony in support of this measure from the Department of Health; University of Hawai'i at Mānoa School of Nursing and Dental Hygiene; Hawai'i State Center for Nursing; Hawai'i Primary Care Association; Hawai'i State Rural Health Association; Hawai'i Children's Action Network Speaks!; Hawai'i Association of Professional Nurses; Hawaii Medical Association; Hawaii Chapter of the American Academy of Pediatrics; Hawai'i–American Nurses Association; American Lung Association; AlohaCare; and eight individuals. Your Committee received testimony in support of the intent of this measure from the Department of Education. Your Committee received comments on this measure from the Department of the Attorney General and one individual.

Your Committee finds that asthma is a significant concern for children in the State, made worse by unique factors like vog and allergens. Without immediate treatment, asthma attacks can escalate, endangering lives and leading to costly emergency care. Your Committee believes that stocking schools with bronchodilators and training staff to recognize and respond to asthma symptoms and other illnesses will ensure timely care for Hawaii's youth.

Your Committee has amended this measure by:

- (1) Specifying that the administration of stock bronchodilator by authorized employees or agents to a student shall not require or imply any diagnosis, or be interpreted as the practice of medicine, nursing, or other licensed professional activity;
- (2) Clarifying the scope of personnel who are authorized to administer certain medication in emergency situations, under certain conditions;
- (3) Changing the effective date to July 1, 3000; and

(4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 903, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 903, H.D. 1, and be referred to your Committee on Health.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 47 Education on H.B. No. 323

The purpose of this measure is to establish and appropriate funds for the Teacher Housing Assistance Program to provide housing vouchers to certain eligible teachers.

Your Committee received testimony in support of this measure from the State Public Charter School Commission; Hawai'i State Teachers Association; Democratic Party of Hawai'i Education Caucus; Democratic Party of Hawai'i; and one individual. Your Committee received comments on this measure from the Department of Education; Department of the Attorney General; and Hawaii Government Employees Association AFSCME Local 152, AFL-CIO.

Your Committee finds that there is a severe shortage of qualified teachers in the State. Your Committee believes that major contributing factors to this shortage are the State's high cost of living and lack of affordable housing. Your Committee believes that this measure will alleviate the financial burden on teachers in obtaining housing by providing housing vouchers.

Your Committee has amended this measure by:

- (1) Inserting language establishing standards for the distribution of the funds appropriated in this measure as housing vouchers under the Teacher Housing Assistance Program;
- (2) Changing the maximum amount for a housing voucher to an unspecified amount;
- (3) Specifying that teachers who are eligible for participation in the Teacher Housing Assistance Program include teachers employed by a charter school;
- (4) Changing the effective date to July 1, 3000; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider \$500 per month as the maximum amount for a housing voucher under the Teacher Housing Assistance Program.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 323, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 323, H.D. 1, and be referred to your Committee on Housing.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 48 Education on H.B. No. 841

The purpose of this measure is to:

- (1) Authorize a retirant to be rehired as a teacher or administrator in difficult-to-fill positions identified by the Department of Education;
- (2) Require retirants rehired as teachers or administrators in teacher shortage areas or in difficult-to-fill positions to be paid at least the minimum salary for a teacher with equivalent experience and qualifications;
- (3) Prohibit retirants rehired as teachers or administrators in teacher shortage areas or in difficult-to-fill positions from receiving additional employment benefits; and
- (4) Require the Department of Education to adopt rules to identify teacher shortage areas and difficult-to-fill positions.

Your Committee received testimony in support of this measure from the Hawai'i State Teachers Association. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that the State has been experiencing a shortage in teachers and administrators for difficult-to-fill positions under the Department of Education, making it very challenging to provide a quality education for Hawaii's students. Your Committee believes that retirants are an asset that can be used to take on difficult-to-fill positions and positions in teacher shortage areas.

Your Committee has amended this measure by:

- (1) Repealing statutory language prohibiting retirants to be rehired as teachers or administrators within twelve calendar months of leaving employment with the State or a county;
- (2) Deleting language which would have required retirants rehired as teachers or administrators to be paid at least the minimum salary for a teacher with equivalent experience and qualifications;
- (3) Clarifying that a retirant may be rehired as a teacher or an administrator in a hard-to-fill position, rather than difficult-to-fill position, identified by the Department of Education;
- (4) Specifying that the Department of Education shall adopt rules to identify teacher shortage areas and hard-to-fill positions;
- (5) Changing the effective date to July 1, 3000; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Labor, should it deliberate on this measure, to examine the prohibition on retirants rehired as a teacher or an administrator from receiving additional employment benefits afforded to public service employees under chapter 78, Hawaii Revised Statutes, as required by this measure.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 841, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 841, H.D. 1, and be referred to your Committee on Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 49 Education on H.B. No. 245

The purpose of this measure is to:

- (1) Require and appropriate funds for the Department of Education, in collaboration with the Department of Health, to develop statewide guidelines related to managing heat exposure to protect students' health during outdoor activities; and
- (2) Appropriate funds for wet-bulb globe temperature thermometers for all public and charter schools statewide.

Your Committee received testimony in support of this measure from the Hawaii State Council on Developmental Disabilities; State Public Charter School Commission; Hawai'i Climate Change and Health Working Group; Hawai'i Children's Action Network Speaks!; Sierra Club of Hawai'i; Hawai'i Public Health Association; and six individuals. Your Committee received comments on this measure from the Department of Education; and Department of Health.

Your Committee finds that Hawaii has experienced rising air temperatures, with annual peak averages consistently breaking record highs. Exercising in hot and humid weather can be dangerous, as the body's ability to cool itself through sweating becomes less effective under humid conditions. When sweat cannot evaporate efficiently due to high moisture levels in the air, the risk of heat-related illnesses increases.

Your Committee further finds that shade can significantly reduce the risk of heat-related illnesses by providing cooler spaces for students to exercise, train, and play. Expanding shaded areas on school campuses and properties is critical for creating safer environments during outdoor activities. Additionally, wet-bulb globe temperature measurements are the gold standard for assessing heat stress. As wet-bulb globe thermometers are relatively affordable for schools and athletic departments to acquire and use, the purchase of wet-bulb globe thermometers will serve as a practical tool for ensuring safer outdoor activities.

Your Committee notes that the Department of Education needs time to examine its current practices of managing heat exposure in schools and the timeline and costs of implementing the guidelines as required by this measure.

Your Committee has accordingly amended this measure by:

- (1) Deleting language which would have:
 - (A) Required and appropriated funds for the Department of Education to develop statewide guidelines related to managing heat exposure to protect students' health during outdoor activities; and
 - (B) Appropriated funds for wet-bulb globe temperature thermometers for all public and charter schools statewide;
- (2) Inserting language that requires the Department of Education, in collaboration with the Department of Health and State Public Charter School Commission, to conduct a study on the current practices of managing heat exposure in state public and charter schools to protect students' health during outdoor activities and to develop a plan if the current practices are insufficient in managing heat exposure;
- (3) Amending the preamble to reflect the measure's amended purpose;
- (4) Changing the effective date to July 1, 3000; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 245, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 245, H.D. 1, and be referred to your Committee on Health.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 50 Housing on H.B. No. 606

The purpose of this measure is to:

- (1) Extend the Act 279 Special Fund to June 30, 2028;
- (2) Deposit funds into the Act 279 Special Fund and appropriate funds out of the Special Fund for the Department of Hawaiian Home Lands to eliminate its waitlist; and
- (3) Require the Department of Hawaiian Home Lands to submit a strategic plan to the Legislature detailing the anticipated uses of the funds.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Kupa'a Lāhui Alliance; Hoomana Pono, LLC; LIMBY Hawai'i; and eight individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that the Department of Hawaiian Home Lands continues to make progress regarding the encumbrance of funds, expenditure of funds, and delivery of lots pursuant to Act 279, Session Laws of Hawaii 2022 (Act 279). Your Committee further finds that this measure will ensure that the Department of Hawaiian Home Lands has adequate time to encumber and expend the necessary Act 279 funds and will secure additional funds that will allow the Department to continue to address its applicant waiting list.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified amounts;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$600,000,000 to be deposited into and appropriated out of the Act 279 Special Fund.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 606, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 606, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 51 Housing on H.B. No. 1086

The purpose of this measure is to exempt any development of homestead lots or housing for the Department of Hawaiian Home Lands from general excise and use taxes.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Gentry Homes, Ltd; LIMBY Hawai'i; and Hoomana Pono, LLC. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the Department of Hawaiian Home Lands has several projects funded via capital improvement projects or through Act 279, Session Laws of Hawaii 2022, that are underway or in the pipeline for construction. Your Committee further finds that this measure could provide a significant sum of general excise tax cost savings for the Department of Hawaiian Home Lands that could be utilized to develop more homestead lots.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1086, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1086, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 52 Housing on H.B. No. 1408

The purpose of this measure is to allow the Department of Hawaiian Home Lands to utilize the Dwelling Unit Revolving Fund as collateral when the Department acts as an eligible borrower for a loan agreement under section 184A of the federal Housing and Community Development Act of 1992, as amended.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Department of Hawaiian Home Lands; Hoomana Pono, LLC; and one individual.

Your Committee finds that Congress established the Section 184A Native Hawaiian Housing Loan Guarantee Program to provide access to sources of private financing on Hawaii Home Lands. The Department of Hawaiian Home Lands is an eligible borrower under the program and can use these funds to develop rental housing or build single-family homes. However, the Hawaiian Homes Commission Act of 1920, as amended, limits what can be used as collateral to secure loans made by government agencies or private lending institutions. This measure therefore authorizes the Department of Hawaiian Home Lands to utilize monies in the Dwelling Unit Revolving Fund for collateral, which will help the Department to secure private financing to develop housing for native Hawaiian beneficiaries.

Your Committee has amended this measure by:

- (1) Changing the appropriations to an unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$75,000,000.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1408, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1408, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 53 Housing on H.B. No. 740

The purpose of this measure is to establish an Accessory Dwelling Unit Financing and Deed Restriction Program under the Hawaii Housing Finance and Development Corporation.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; one member of the Maui County Council; Hawaii Appleseed Center for Law & Economic Justice; Catholic Charities Hawai'i; Hawai'i YIMBY; Holomua Collaborative; Housing Hawai'i's Future; Hawai'i Community Foundation; Title Guaranty Hawaii; Mana Up; Hawai'i Gas; HPM Building Supply; aio; Tori Richard, Ltd.; Maui Chamber of Commerce; and four individuals. Your Committee received comments on this measure from the Department of Taxation and Hawai'i Association of REALTORS.

Your Committee finds that accessory dwelling units are an innovative way to help alleviate the severe lack of housing for Hawaii residents. Despite this, the upfront costs for designing and permitting are barriers for many homeowners to develop an accessory dwelling unit. This measure offers a practical solution to create immediate housing opportunities through ensuring long-term affordability through deed restrictions, thereby preserving these units for Hawaii's workforce.

Your Committee notes that the intent of the Legislature with this measure is for the amount paid to the property owner to be the market rate for a deed restriction. Ideally, through a negotiation process between the county and the property owner, the rate will be high enough to incentivize a property owner to sell a deed restriction, while low enough that it remains an effective use of government funds. It is also the intent of your Committee to not subject any instruments by which a deed restriction is placed on a dwelling unit under the Accessory Dwelling Unit Financing and Deed Restriction Program (Program) to the conveyance tax.

Your Committee has amended this measure by:

- (1) Authorizing the Hawaii Housing Finance and Development Corporation to allocate an annual lump sum, to be determined by the Corporation, rather than requiring the counties to apply for a specific minimum amount;
- (2) Prohibiting the Hawaii Housing Finance and Development Corporation from distributing funds under the Program solely based on the population size of a county;

- (3) Clarifying that for a planned community, a deed restriction placed and owned by a county may be secondary only to conditions, covenants, and restrictions with a requisite first position;
- (4) Deleting language that would have required a retiree or an individual with a disability to have worked for ten consecutive years and five consecutive years, respectively, in the county or State, to qualify as an owner-occupant under the Program;
- (5) Exempting any contract entered into by a county under the Program from the Procurement Code;
- (6) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee also notes that while language that could have been construed as a durational requirement for a retiree or an individual with a disability was removed from this measure, your Committee is working with the Department of the Attorney General on language that can withstand constitutional scrutiny to ensure that bona fide residents of the State can benefit from the Accessory Dwelling Unit Financing and Deed Restriction Program.

Your Committee further notes that the Department of Taxation requested in its testimony that should this measure pass the Legislature, an effective date of January 1, 2026 be included, to allow the Department sufficient time to make changes necessary for the implementation of the new conveyance tax exemption.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 740, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 740, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 2 (Muraoka, Pierick). Excused, 1 (Cochran).

SCRep. 54 Housing on H.B. No. 739

The purpose of this measure is to establish the Kamaaina Homes Program to provide funding to the counties to purchase voluntary deed restrictions from eligible homeowners or homebuyers.

Your Committee received testimony in support of this measure from the Department of Transportation; Hawaii Housing Finance and Development Corporation; Hawaii Appleseed Center for Law & Economic Justice; Wall to Wall Studios; Hawai'i YIMBY; Holomua Collaborative; Maui Tomorrow Foundation; Kobayashi Group; Housing Hawai'i's Future; Hawai'i Community Foundation; Title Guaranty Hawaii; Mana Up; Hawai'i Gas; HPM Building Supply; aio; Tori Richard, Ltd; Maui Chamber of Commerce; LIMBY Hawai'i; and numerous individuals. Your Committee received comments on this measure from the Department of Taxation; Department of the Attorney General; and Hawai'i Association of REALTORS.

Your Committee finds that housing affordability challenges are among the most pressing issues in the State. With median home prices now exceeding \$800,000, homeownership has become unattainable for many local families, forcing many residents to leave Hawaii in search of affordable living options elsewhere. Your Committee further finds that the resulting outmigration not only diminishes the State's workforce, but also erodes the cultural fabric and sense of community that make Hawaii unique. This measure builds on a successful model that works with homeowners to ensure that residents have access to housing in the State.

Your Committee notes that the intent of the Legislature with this measure is for the amount paid to the property owner to be the market rate for a deed restriction. Ideally, through a negotiation process between the county and the property owner, the rate will be high enough to incentivize a property owner to sell a deed restriction, while low enough that it remains an effective use of government funds. It is also the intent of your Committee to not subject any instruments by which a deed restriction is placed on a dwelling unit under the Kamaaina Homes Program to the conveyance tax.

Your Committee has amended this measure by:

- (1) Authorizing the Hawaii Housing Finance and Development Corporation to allocate an annual lump sum, to be determined by the Corporation, rather than requiring the counties to apply for a specific minimum amount;
- (2) Prohibiting the Hawaii Housing Finance and Development Corporation from distributing funds under the Kamaaina Homes Program solely based on the population size of a county;
- (3) Clarifying that for a planned community, a deed restriction placed and owned by a county may be secondary only to conditions, covenants, and restrictions with a requisite first position;
- (4) Deleting language that would have required a retiree or an individual with a disability to have worked for ten consecutive years and five consecutive years, respectively, in the county or State, to qualify as an owner-occupant under the Program;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee also notes that while language that could have been construed as a durational residency requirement for a retiree or an individual with a disability was removed from this measure, your Committee is working with the Department of the Attorney General on language that can withstand constitutional scrutiny to ensure that bona fide residents of the State can benefit from the Kamaaina Homes Program.

Your Committee further notes that the Department of Taxation requested in its testimony that should this measure pass the Legislature, an effective date of January 1, 2026 be included, to allow the Department sufficient time to make changes necessary for the implementation of the new conveyance tax exemption.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 739, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 739, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, 1 (Muraoka). Excused, 1 (Cochran).

SCRep. 55 Water & Land on H.B. No. 175

The purpose of this measure is to require owners, lessees, or managers of real property to maintain their property and establish penalties for failure to do so.

Your Committee received testimony in support of this measure from one member of the Kaua'i County Council and three individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources; Hawai'i Association of REALTORS; and Maui Chamber of Commerce.

Your Committee finds that neglected properties create environmental hazards, including serving as breeding grounds for invasive species and raising the risk for wildfires. Your Committee believes that property owners and lessees have a duty to mitigate these risks by taking steps to prevent properties from falling into neglect. This measure is intended to protect the State's ecosystem and reduce the risk of wildfires by requiring owners and lessees to maintain their properties.

Your Committee has amended this measure by:

- (1) Removing property managers from the list of persons subject to the requirements of this measure;
- (2) Clarifying the property management requirements for preventing the proliferation of invasive species;
- (3) Requiring the Department of Agriculture, rather than Department of Land and Natural Resources and Department of Health, to establish rules relating to inspection, enforcement, and the collection of fines and restricting the purview of the Department of Agriculture to violations relating to the proliferation of invasive species;
- (4) Requiring the Office of the State Fire Marshal to establish rules relating to inspection, enforcement, and collection of fines for violations relating to the prevention of wildfires and other public safety hazards and authorizing the Office to delegate the inspection, enforcement, appeal, and collection of fines to the county fire departments;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 175, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 175, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 1 (Woodson).

SCRep. 56 Human Services & Homelessness on H.B. No. 874

The purpose of this measure is to protect the safety, morals, health, and well-being of child performers who work or reside in the State by:

- (1) Requiring a parent or legal guardian of a minor in theatrical employment to establish a trust account for the minor;
- (2) Requiring the employer of a minor in theatrical employment to deposit a portion of the minor's earnings into the trust account until the minor becomes an adult or is emancipated; and
- (3) Clarifying that theatrical employment, as used in the State's child labor law, includes gainful occupation as a social media influencer.

Your Committee received testimony in support of this measure from SAG-AFTRA Hawaii Local, AFL-CIO; Hawaii State AFL-CIO; Hawaii Teamsters and Allied Workers, Local 996; and one individual. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that child performers contribute significantly to the entertainment industry, yet without proper financial protections, they risk losing the earnings they work hard to achieve. To prevent the financial exploitation of child performers in the State, this measure provides certain protections and safeguards to ensure that young performers' earnings are protected, promoting their financial security and well-being.

Your Committee has amended this measure by:

- (1) Clarifying that the misappropriation or fraudulent use of funds by a parent or legal guardian is a breach of fiduciary duty subject to penalties;
- (2) Adding a savings clause;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 874, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 874, H.D. 1, and be referred to your Committee on Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 57 Human Services & Homelessness on H.B. No. 241

The purpose of this measure is to require the Department of Human Services to:

- (1) Establish a Child Care Classroom Contracts Pilot Program to contract directly with child care center providers in licensed infant and toddler child care centers and group child care centers that meet certain criteria; and
- (2) Submit annual reports to the Legislature on the pilot program.

Your Committee received testimony in support of this measure from the Department of Human Services; American Association of University Women of Hawaii; Early Childhood Action Strategy; Hawai'i Children's Action Network Speaks!; and four individuals. Your Committee received comments on this measure from the Executive Office on Early Learning.

Your Committee finds that access to affordable child care is essential for working families in the State, yet many child care center providers face financial instability due to fluctuating enrollment numbers. Your Committee further finds that child care providers that depend on tuition-based funding are vulnerable to disruptions and potential closures, impacting families and providers. This measure creates a more stable funding model by directly subsidizing classrooms in licensed infant and toddler child care centers and group child care centers, ensuring that the State continues to invest in keiki and working families.

Your Committee has amended this measure by:

- (1) Specifying additional requirements for child care centers to be eligible for the pilot program;
- (2) Changing the minimum number of required licensed group child care centers in the pilot program from two to one per county;
- (3) Clarifying the responsibilities of the Department of Human Services regarding monitoring seat utilization and contract modification;

- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 241, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 241, H.D. 1, and be referred to your Committee on Education.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, none.

SCRep. 58 Human Services & Homelessness on H.B. No. 880

The purpose of this measure is to:

- (1) Require the Department of Human Resources Development to reclassify certain positions within the Early Childhood Services Unit of the Department of Health Early Intervention Section; and
- (2) Appropriate funds for the reclassification of certain positions and establishment of mental health specialist positions within the Early Childhood Services Unit of the Department of Health Early Intervention Section.

Your Committee received testimony in support of this measure from the Department of Health; Hawai'i Early Intervention Coordinating Council; Wai'anae Coast Early Childhood Services; Early Childhood Action Strategy; Association for Infant Mental Health in Hawai'i; Hawai'i Children's Action Network Speaks!; and nine individuals. Your Committee received comments on this measure from the Department of Human Resources Development.

Your Committee finds that Hawaii continues to face significant challenges in providing essential services for children with special needs under the age of three, largely due to high vacancy rates among early intervention providers. The shortage of specialists affects infant and toddler development and the State's ability to comply with federal mandates. This measure strengthens the State's capacity to meet early childhood developmental and mental health needs and addresses recruitment and retention issues that are critical to ensuring that children receive the essential services they need.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified amounts; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$52,800 for the reclassification of certain positions within the Early Childhood Services Unit of the Department of Health Early Intervention Section and \$142,032 for the establishment of two full-time equivalent (2.0 FTE) permanent mental health specialist positions within the Early Childhood Services Unit of the Department of Health Early Intervention Section.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 880, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 880, H.D. 1, and be referred to your Committee on Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, none.

SCRep. 59 Human Services & Homelessness on H.B. No. 933

The purpose of this measure is to:

- (1) Establish a reduction in the general excise tax rate on gross proceeds or gross income from the sale of groceries that are eligible for purchase under the Supplemental Nutrition Assistance Program or Special Supplemental Nutrition Program for Women, Infants, and Children and from the sale of nonprescription drugs; and
- (2) Require the Department of Business, Economic Development, and Tourism to conduct an economic cost-benefit analysis on the general excise reductions and submit a report to the Legislature.

Your Committee received testimony in support of this measure from the Grassroot Institute of Hawaii; Hawai'i Foodbank; Hawai'i Pacific Health; Hawaii Food Industry Association; and Maui Chamber of Commerce. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that Hawaii's high cost of living forces many residents to struggle with basic necessities, including food, housing, and medication. Food insecurity remains a serious issue, with nearly half of Hawaii families with children experiencing difficulty affording enough to eat. Unlike most states, Hawaii taxes groceries at the full general excise tax rate, which disproportionately burdens working families and those on limited budgets. Reducing the general excise tax on groceries and nonprescription drugs would provide immediate financial relief, helping families afford essential items.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

Your Committee notes the request in testimony from the Department of Taxation that this measure take effect on January 1, 2027, rather than January 1, 2026, to allow the Department sufficient time to implement the proposed reduced rates for the sale of eligible groceries and nonprescription drugs and provide businesses with enough time to update their accounting systems to comply with the changes proposed by this measure.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 933, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 933, H.D. 1, and be referred to your Committee on Economic Development & Technology.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, none.

SCRep. 60 Human Services & Homelessness on H.B. No. 1140

The purpose of this measure is to:

- (1) Appropriate funds to the Department of Land and Natural Resources for the removal of homeless encampments on state lands under the Department's control; and
- (2) Beginning with fiscal biennium 2027-2029, require the Department of Land and Natural Resources to include line-item funding to cover the clean-up costs associated with homeless encampments on its lands in the Department's annual budget request.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that homeless encampments on public lands managed by the Department of Land and Natural Resources pose significant challenges, including environmental degradation, public health hazards, and increased cleanup costs. These encampments are found in high-traffic areas such as Diamond Head State Monument, wildlife sanctuaries, harbors, and unencumbered lands across the islands. To ensure the Department of Land and Natural Resources can continue encampment cleanups without diverting critical operational resources, this measure provides dedicated funding for the cleanup and restoration of Department-managed lands.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$2,500,000.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1140, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1140, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Amato). Noes, none. Excused, none.

SCRep. 61 Human Services & Homelessness on H.B. No. 1486

The purpose of this measure is to:

- (1) Make it a disorderly conduct offense to remain or loiter within twenty feet of a bus stop with no intent to utilize any bus service;
- (2) Authorize law enforcement officers to immediately remove any person committing the offense, including confiscating any of their personal property and determining if the confiscated property is to be saved or discarded; and
- (3) Appropriate funds to the counties for enforcement.

Your Committee received testimony in support of this measure from the Office of the Mayor of the City and County of Honolulu; Honolulu Police Department; and five individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender and one individual.

Your Committee finds that Hawaii's homelessness crisis has reached a critical point, creating safety concerns for the general public. A growing issue is the use of bus stops as makeshift residences, where individuals occupy entire shelters and store personal belongings, leaving little to no space for riders. This not only displaces commuters, especially kupuna and those with mobility issues, but also poses hazards for those boarding or exiting buses. To ensure public safety and accessibility, this measure seeks to prohibit loitering near bus stops without intent to use transit, empower law enforcement to address obstructions, and provide necessary funding to enforce these measures.

Your Committee notes the concerns regarding the constitutionality of certain provisions in this measure and requests the Department of the Attorney General to examine this issue further should your Committee on Judiciary & Hawaiian Affairs choose to deliberate on this measure.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1486, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1486, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, 1 (Amato). Excused, none.

SCRep. 62 Human Services & Homelessness on H.B. No. 877

The purpose of this measure is to prohibit the erection, placement, construction, or maintenance of an encampment within one hundred feet from the property line of a K-12 public or private school or school facility.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Department of Education. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that homeless encampments near school grounds pose significant safety, health, and environmental risks to students, school staff, and the surrounding community. These encampments, which often consist of tents and makeshift shelters, can obstruct public access, introduce hazardous conditions, and create public safety concerns. This measure seeks to prohibit the establishment of encampments within one hundred feet of public and private school property, ensuring a safer and more secure environment for students, educators, and other staff.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "buffer zone" to include pre-K classrooms and public or private property;
- (2) Making a violation of the school encampment buffer zone a petty misdemeanor, rather than subjecting violators to immediate removal;
- (3) Requiring law enforcement personnel to take the personal belongings of individuals displaced from encampments into custody for storage, to be returned to the individual upon release from custody;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and

(5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 877, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 877, H.D. 1, and be referred to your Committee on Education.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Amato). Noes, none. Excused, none.

SCRep. 63 Human Services & Homelessness on H.B. No. 322

The purpose of this measure is to:

- (1) Require the Department of Human Services to automatically transmit voter registration information for any Med-Quest applicant;
- (2) Authorize state agencies to implement automatic voter registration if designated by the Office of Elections; and
- (3) Require eligible applicants for instruction permits, provisional licenses, driver's licenses, and identification cards to be automatically registered or preregistered to vote unless the applicants opt out.

Your Committee received testimony in support of this measure from the Hawai'i State Council on Developmental Disabilities; League of Women Voters of Hawaii; Hawai'i Alliance for Progressive Action; Democratic Party of Hawai'i Education Caucus; and numerous individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of Human Services and Office of Elections.

Your Committee finds that ensuring every eligible person can register to vote in a convenient and secure manner is essential to a strong democracy. While Hawaii implemented automatic voter registration in 2021 to address historically low voter participation rates, the current opt-in system still places the burden on individuals to register, limiting its effectiveness. Therefore, this measure strengthens the State's automatic voter registration program, making the process more seamless and accessible for all eligible residents.

Your Committee has amended this measure by:

- (1) Deleting language that would have required the Department of Human Services to automatically transmit voter registration information for any Med-Quest applicant;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 322, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 322, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, 2 (Alcos, Garcia). Excused, none.

SCRep. 64 Judiciary & Hawaiian Affairs on H.B. No. 603

The purpose of this measure is to:

- (1) Require the Office of Hawaiian Affairs to administer and oversee a Native Hawaiian Marketing Program to promote businesses owned by native Hawaiians through marketing and technical assistance;
- (2) Require the Office of Hawaiian Affairs to submit reports on the status of the Native Hawaiian Marketing Program; and
- (3) Appropriate funds for the Native Hawaiian Marketing Program.

Your Committee received testimony in support of this measure from Cupcakes, BOOM!; BOOM! Wahine; Welo Creations; and two individuals. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that Hawaiian-owned businesses are indispensable to the State's communities as those businesses create jobs, grow the local economy, advance Hawaiian entrepreneurship, and advance cultural preservation. Your Committee further finds that the Office of Hawaiian Affairs has concerns regarding enforcement of the proposed initiative and proposes that the appropriation be reallocated for the Office of Hawaiian Affairs to establish a working group.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have established the Native Hawaiian Marketing Program;
- (2) Changing the appropriation to an unspecified amount;
- (3) Reallocating the appropriation for the Office of Hawaiian Affairs to convene a working group to engage with relevant stakeholders about program design, implementation, and long-term viability of a Native Hawaiian Marketing Program to promote and support the success of businesses owned by Hawaiians through marketing and technical assistance;
- (4) Amending the information required for the reports by the Office of Hawaiian Affairs;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$350,000.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 603, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 603, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Todd).

SCRep. 65 Health on H.B. No. 139

The purpose of this measure is to require insurers, mutual benefit societies, and health maintenance organizations to provide coverage for standard fertility preservation services under certain circumstances for policies, contracts, plans, and agreements issued or renewed after December 31, 2025.

Your Committee received testimony in support of this measure from the Hawaii Society of Clinical Oncology; Association for Clinical Oncology; Leukemia & Lymphoma Society; Advanced Reproductive Medicine & Gynecology of Hawaii, Inc.; Fertility Institute of Hawaii; American Cancer Society Cancer Action Network; Alliance for Fertility Preservation; FORCE: Facing Our Risk of Cancer Empowered; Hawaii Medical Service Association; Hawaii Association of Health Plans; and six individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Office of the Auditor.

Your Committee finds advances in technology have greatly improved cancer treatment and survivor rates. Your Committee further finds that many medical treatments that treat cancer, such as chemotherapy and radiation, can significantly damage reproductive tissues and affect fertility in men and women. However, many of these individuals are unable to afford the financial burden of fertility preservation, often leaving cancer survivors in their prime without the ability to start a family. Your Committee believes that requiring coverage of fertility preservation for patients whose diagnosis and treatment may adversely affect their fertility will reduce some of the long-term mental, emotional, and physical impacts of cancer on patients and their families.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Consumer Protection & Commerce, should it deliberate on this measure, to consider including spouses and dependents of policyholders over the age of twenty-six among the individuals able to receive coverage for standard fertility preservation services as provided by this measure.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 139, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 139, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 66 Health on H.B. No. 714

The purpose of this measure is to appropriate funds to support educational programs that expand the State's health care workforce.

Your Committee received testimony in support of this measure from the Department of Health; Department of Education; Hawaii Health Systems Corporation Corporate Board; University of Hawai'i System; Hawai'i State Council on Developmental Disabilities; Hawai'i Pacific Health; Hawai'i Primary Care Association; Healthcare Association of Hawaii; Liberty Dialysis-Hawaii; The Queen's Health Systems; and Kaiser Permanente Hawai'i.

Your Committee finds that as the State's population ages, there is an increased demand for workers in all areas of the health care workforce. Your Committee further finds that workforce development programs, such as public high school health care certificate programs and the certified nurse assistant to licensed practical nurse glidepath program, are crucial programs that aim to strengthen the State's health care system by preparing new health care workers to enter the workforce and supporting the career advancement of existing workers. This measure supports the work of these programs by appropriating funds to continue ongoing activities and allow the programs to scale up to meet the increasing health care needs of the State.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount, to be expended by the Department of Business, Economic Development, and Tourism, rather than the Department of Education and University of Hawai'i;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$1,450,000.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 714, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 714, H.D. 1, and be referred to your Committees on Higher Education and Education.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 67 Health on H.B. No. 1085

The purpose of this measure is to:

- (1) Increase the tax rates for cigarettes and little cigars, beginning January 1, 2026;
- (2) Amend the disposition of tax revenues to certain non-general funds, beginning July 1, 2025; and
- (3) Expand the disposition of tax revenues to the non-general funds to include all tobacco product taxes.

Your Committee received testimony in support of this measure from the Department of Health; Department of the Attorney General; University of Hawai'i Cancer Center; Hawaii Substance Abuse Coalition; Keiki Injury Prevention Coalition; Hina Mauka; Hawai'i Pacific Health; Hawaii COPD Coalition; Hawai'i Primary Care Association; American Cancer Society Cancer Action Network; Healthcare Association of Hawaii; Hawai'i Children's Action Network Speaks!; The Queen's Health Systems; Coalition for a Tobacco-Free Hawai'i; Hawaii Medical Association; and numerous individuals. Your Committee received testimony in opposition to this measure from the Cigar Association of America; Americans for Tax Reform; Hawaii Smokers Alliance; and three individuals. Your Committee received comments on this measure from the Department of Taxation; Tax Foundation of Hawaii; and Tax Foundation.

Your Committee finds that according to the United States Surgeon General, increasing the price of tobacco products is the single most effective way to reduce consumption. A ten percent increase in price is estimated to reduce overall cigarette consumption by up to five percent. Your Committee additionally finds that since its inception, cigarette tax revenue has been used to support vital health care services in the State, including cancer research and prevention, the State Trauma System, community health centers, and emergency medical services. However, in recent years cigarette tax revenue has declined, severely impacting the funding for these services. Your Committee further finds that these services only receive cigarette tax revenues, but do not see revenues from taxes on products such as e-cigarettes, e-liquids, cigars, and other tobacco products. This measure will increase the tax on cigarettes and expand the allocation

of revenues to the special funds that support these important health care services to include all tobacco products, ensuring these services remain adequately funded.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1085, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1085, H.D. 1, and be referred to your Committee on Higher Education.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 68 Health on H.B. No. 72

The purpose of this measure is to:

- (1) Require pharmacy technicians to be registered with the Board of Pharmacy by January 1, 2026;
- (2) Impose a duty on pharmacists-in-charge to report violations conducted by registered pharmacy technicians; and
- (3) Specify that supervising registered pharmacists are responsible for the actions of registered pharmacy technicians and pharmacy interns.

Your Committee received testimony in support of this measure from the Daniel K. Inouye College of Pharmacy at the University of Hawai'i at Hilo; KTA Pharmacy; Hawaii Pharmacists Association; and seven individuals. Your Committee received comments on this measure from Walgreen Co.

Your Committee finds that Hawaii is the only state that does not maintain a list of practicing pharmacy technicians, leaving a significant gap in oversight that can impact patient safety. Your Committee further finds that pharmacy technicians are a distinct category of health care professionals whose functions may include dispensing medications, processing insurance claims, and administering vaccines to patients. This measure will support public health and safety by ensuring pharmacy technicians have the appropriate background and supervision for their essential health care activities.

Your Committee has amended this measure by:

- (1) Adding a definition of "auxiliary pharmacy personnel" for personnel that may be at the pharmacy, but whose duties are clerical in nature and excluding these individuals from the definition of "pharmacy technician";
- (2) Clarifying the duties of registered pharmacy technicians and what constitutes supervision of a registered pharmacy technician by a registered pharmacist;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 72, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 72, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 69 Health on H.B. No. 1179

The purpose of this measure is to:

- (1) Provide a statutory framework for the licensure of rural emergency hospitals at the state level; and
- (2) Provide for the continuation of Medicaid policy protections for hospitals transitioning to a rural emergency hospital designation.

Your Committee received testimony in support of this measure from the Department of Health; Hawaii Health Systems Corporation Corporate Board of Directors; Maui Health System; and Healthcare Association of Hawaii. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the federal government recently authorized the creation of rural emergency hospitals, a new type of Medicare provider meant to address nationwide closures of rural hospitals. A rural emergency hospital designation will allow rural hospitals to focus on important services such as emergency department services, observation care, and tailored outpatient medical and health services while eliminating underutilized high-cost services, such as inpatient care. Your Committee further finds that a hospital must first be recognized as an emergency rural hospital at the state level before the hospital can pursue the new rural emergency hospital designation with the Centers for Medicare and Medicaid Services. This measure is intended to allow the State's rural hospitals to best meet the health care needs of their communities, including pursuing a rural emergency hospital designation, through the creation of a statutory framework for the licensure of rural emergency hospitals.

Your Committee notes the concerns raised by the Department of Human Services in their testimony on this measure that the state protections proposed by this measure may be insufficient given the federal interpretation of the rural emergency hospital designation. Your Committee respectfully requests that the Department seek guidance from federal officials regarding the Medicaid reimbursement protections outlined in this measure and any potential ramifications associated with critical access hospitals being redesigned as rural emergency hospitals.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1179, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1179, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 70 Health on H.B. No. 712

The purpose of this measure is to preserve the integrity of the federal 340B Drug Pricing Program by prohibiting drug manufacturers from restricting the use of or denying access to pharmacies that are contracted with any 340B covered entity in the State.

Your Committee received testimony in support of this measure from the Hawaii Island Community Health Center; Kōkua Kalihi Valley; Hawai'i Health & Harm Reduction Center; Hawai'i Pacific Health; Hawai'i Primary Care Association; Hawai'i Island Community Health Center; Healthcare Association of Hawaii; Hawai'i Children's Action Network Speaks!; The Queen's Health Systems; and numerous individuals. Your Committee received testimony in opposition to this measure from the Biotechnology Innovation Organization and Pharmaceutical Research and Manufacturers of America. Your Committee received comments on this measure from the Department of Health and Department of the Attorney General.

Your Committee finds that the federal 340B Drug Pricing Program (340B Program) is essential for providing health care access to low-income and uninsured populations. The 340B Program requires drug manufacturers to offer significant discounts on outpatient medications to eligible health care facilities. Your Committee further finds that drug manufacturers have consistently limited the use of contract pharmacies by 340B covered entities, which significantly impacts the abilities of patients to access prescription medications. This measure will ensure access to essential health care for all persons, and particularly the State's rural population, by prohibiting drug manufacturers from restricting the use of pharmacies contracted with 340B covered entities.

Your Committee has amended this measure by:

- (1) Placing the statutory provisions of this measure under chapter 481B, Hawaii Revised Statutes, which relates to unfair and deceptive practices, rather than under chapter 321, Hawaii Revised Statutes;
- (2) Removing references to wholesale distributors and clarifying the prohibition against manufacturers denying, restricting, or prohibiting the acquisition, shipping, or delivery of a 340B drug to a 340B contract pharmacy;
- (3) Amending the definition of "340B drug" to mean a prescription drug that is purchased by a 340B covered entity through the 340B Drug Pricing Program as authorized by federal law and is dispensed by a pharmacy;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 712, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 712, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 71 Health/Human Services & Homelessness on H.B. No. 556

The purpose of this measure is to provide state-funded financial assistance for colorectal cancer screenings to certain Hawaii residents.

Your Committees received testimony in support of this measure from the Community Clinic of Maui-Mālama I Ke Ola Health Center; Hawai'i Primary Care Association; Fight Colorectal Cancer; American Cancer Society Cancer Action Network; Hawaii Association of Health Plans; Hawai'i Association of Professional Nurses; and six individuals. Your Committees received comments on this measure from the Department of Human Services; Department of Health; and Department of Commerce and Consumer Affairs.

Your Committees find colorectal cancer is the third leading cause of cancer in Hawaii and the third leading cause of cancer deaths nationwide. Your Committees further find that screening is vital for the early detection of colorectal cancer. However, not all residents of Hawaii have access to health insurance that provides no-cost colorectal cancer screening. Deaths from colorectal cancer are largely preventable and this measure will increase access to preventative health screenings, which will improve health outcomes for more Hawaii residents.

Your Committees have amended this measure by:

- (1) Clarifying that the state-funded colorectal screenings are for residents of the State who are permanent United States resident aliens and nonresident aliens who are ineligible for Medicaid, rather than Medicare;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Health and Human Services & Homelessness that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 556, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 556, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 9. Noes, none. Excused, none.

Human Services & Homelessness: Ayes, 9. Noes, none. Excused, none.

SCRep. 72 Transportation on H.B. No. 655

The purpose of this measure is to limit the required payment of certain unpaid motor vehicle taxes and fees and accompanying financial penalties to those incurred during the most recent five consecutive years of delinquency.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from Tax Foundation of Hawaii and one individual.

Your Committee finds that this measure provides a statute of limitations on unpaid motor vehicle taxes and fees and penalties to address the uncertainty and administrative burden of these fees on residents and the government respectively.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 655, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 655, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 73 Transportation on H.B. No. 228

The purpose of this measure is to:

- (1) Authorize the counties to adopt rules for the use of electronic license plates;
- (2) Prohibit the use of license plate flipping devices; and
- (3) Establish maximum fines for intentionally obscuring a license plate with a cover or shield.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the City and County of Honolulu Division of Motor Vehicles of the Department of Customer Services.

Your Committee finds that the Department of Transportation's Automated Speed Enforcement Systems Program relies on the ability to accurately identify the license plate of motor vehicles and that the use of license plate flipping devices are intentional attempts to avoid identification. This measure seeks to take a proactive approach to prevent the potential use of license plate flipping devices to ensure law enforcement can effectively track and identify vehicles involved in illegal activities.

Your Committee has amended this measure by:

- (1) Inserting a minimum fine amount of \$750 and a maximum fine amount of \$1,000 for violating the prohibition on license plate flipping devices;
- (2) Inserting a minimum fine amount of \$500 and a maximum fine amount of \$1,000 for violating the prohibition on intentionally obscuring a vehicle's license plate with a cover or shield; and
- (3) Changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 228, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 228, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 74 Transportation on H.B. No. 231

The purpose of this measure is to increase the fines for violating motor vehicle insurance requirements.

Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that uninsured drivers pose a significant financial and safety risk to all road users in the State, ultimately undermining the effectiveness of the State's motor vehicle insurance laws. Existing penalties have proven insufficient to deter repeat offenders and stronger measures are necessary to promote compliance and protect victims. This measure aims to enhance penalties and enforcement to ensure greater accountability and improve roadway safety.

Your Committee has amended this measure by:

- (1) Increasing the minimum and maximum fines to \$200 and \$5,500, respectively, for violating any provision of the motor vehicle insurance law;
- (2) Increasing the minimum and maximum fines to \$600 and \$2,500, respectively, for driving without a valid motor vehicle insurance policy;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 231, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 231, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 75 Transportation on H.B. No. 227

The purpose of this measure is to establish a maximum fine for offenses where the certificate of inspection for vehicles or mopeds are expired for more than two years.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that worn or faulty components on motor vehicles and mopeds may fail while in operation and that regular safety inspections minimize the potential for component failure and increase safety for drivers, passengers, and the public. Your Committee further finds that existing penalties are insufficient to deter individuals from continuing to operate a vehicle or moped without a valid certificate of inspection.

Your Committee has amended this measure by:

- (1) Increasing the fines for the first offense and second offense within ten years of a prior offense to a maximum of \$150 and \$250, respectively;
- (2) Inserting a savings clause;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 227, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 227, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 76 Transportation on H.B. No. 577

The purpose of this measure is to establish a five-year tax credit for businesses in a county having a population of seven hundred thousand or more that pay for the public transportation costs of their employees.

Your Committee received testimony in support of this measure from Retail Merchants of Hawaii and one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that this measure would help businesses subsidize certain transportation costs of their employees and encourage the use of public transportation.

Your Committee has amended this measure by:

- (1) Deleting language that would have limited the tax credit to an employer having a place of business in, and public transportation operated in, a county with a population of seven hundred thousand or more;
- (2) Specifying that no tax credit carried forward shall be used as a credit for a taxable year beginning after December 31, 2030;
- (3) Specifying that no other tax credit or deduction for the same expenses shall be claimed under the state income tax law;
- (4) Deleting language that would have required the Director of Taxation to include in their report to the Legislature the impact of the tax credit and whether this tax credit should be continued;
- (5) Specifying that this measure, upon its approval, applies to taxable years beginning after December 31, 2025;
- (6) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 577, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 577, H.D. 1, and be referred to your Committee on Economic Development & Technology.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 77 Transportation on H.B. No. 697

The purpose of this measure is to:

- (1) Allow authorized employees of the Department of Transportation and Department of Law Enforcement to inspect and provide a certificate of certain evidence for speed limit violations obtained by automated speed enforcement systems; and
- (2) Appropriate funds to the Department of Transportation to establish and implement the Automated Speed Enforcement Systems Program.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the expansion of the Automated Speed Enforcement Systems Program will require additional personnel to review and process citations accurately and efficiently. Authorizing staff within the Department of Transportation and Department of Law Enforcement to inspect and certify certain evidence relating to speed limit violations will ensure consistent application of the Program.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$5,000,000.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 697, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 697, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 78 Transportation on H.B. No. 810

The purpose of this measure is to establish a private right of action for any person aggrieved by a violation of the Federal Aviation Act and existing federal laws to bring a civil action against the owner or operator of the helicopter in violation and collect damages and litigation costs.

Your Committee received testimony in opposition to this measure from Vertical Aviation International. Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that there have been community complaints alleging that helicopter tour operators are flying too close to residences. Your Committee further finds that operators are alleged to operate at varying hours of the day and that the noise generated from their operations causes significant disruption to many residents on a daily basis. This measure provides a mechanism for persons to hold disruptive operators accountable by establishing a private right of action for any person aggrieved by violations of federal aviation law.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 810, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 810, H.D. 1, and be referred to your Committee on Energy & Environmental Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Miyake). Noes, none. Excused, 1 (Cochran).

SCRep. 79 Public Safety on H.B. No. 677

The purpose of this measure is to require the Department of Corrections and Rehabilitation to:

- (1) In collaboration with various agencies and upon request of the inmates, assist inmates in obtaining their civil identification card, birth certificate, social security card, and other relevant identification necessary for successful reentry into society, as soon as practicable, but no later than one year before the inmate's parole or release date; and
- (2) Initiate the process of obtaining identifying documents for inmates released to work furlough, extended furlough, or community placement programs, by providing the forms necessary for the inmate to obtain civil identification cards and other identifying documents to the inmate as soon as practicable, but no later than ninety days before the inmate's release date.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Department of Corrections and Rehabilitation; Hawaii Correctional System Oversight Commission; Office of the Public Defender; Waikiki Health; Community Alliance on Prisons; Hawaii Disability Rights Center; American Civil Liberties Union of Hawai'i; and two individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that this measure is one way to help individuals leaving the correctional system to reintegrate into society as smoothly as possible.

Your Committee has amended this measure by changing its effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 677, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 677, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 1 (Woodson).

SCRep. 80 Agriculture & Food Systems on H.B. No. 534

The purpose of this measure is to prohibit the sale of raw ahi and raw ahi products in retail establishments in the State without a label that states the country where the ahi was landed.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; North Shore Nutrition; Hawai'i Fishermen's Alliance for Conservation and Tradition, Inc.; Hawaii Longline Association; Farm Link Hawai'i; Paradise Poke Hawaii; Local I'a; and numerous individuals. Your Committee received comments on this measure from the Department of the Attorney General and Department of Agriculture.

Your Committee finds that Hawaii's tuna fisheries are a vital part of the State's economy and food system, yet consumers are often misled about the origin of the ahi they purchase, as most ahi sold at retail establishments, particularly in poke and sushi products, is actually imported, previously frozen, and carbon monoxide-treated. Due to a loophole in federal labeling laws, retailers are not required to disclose the origin of these products, leading many consumers to falsely assume they are purchasing fresh, locally caught tuna. By ensuring transparency in seafood labeling, this measure empowers consumers to make informed choices, supports Hawaii's fishing industry, and protects the integrity of the State's premium seafood market.

Your Committee notes that further consideration should be given to other ways to strengthen the intent of this measure by looking at other metrics for labeling requirements of processed ahi, such as "fresh" or "previously frozen".

Your Committee has amended this measure by:

- (1) Clarifying that the labeling requirements apply to processed ahi, rather than raw ahi;
- (2) Adding a definition for "processed ahi";
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 534, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 534, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 81 Agriculture & Food Systems on H.B. No. 912

The purpose of this measure is to appropriate funds to the Agribusiness Development Corporation to offset the financial burden of reimbursement of debt service for the Waiahole water system.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation; Land Use Research Foundation of Hawaii; Hawai'i Farmers Union; Kunia Village Title Holding Corporation; Hawai'i Farm Bureau; Hawaii Agriculture Research Center; Bayer; Larry Jeffs Farms, LLC; and four individuals.

Your Committee finds that the Waiahole water system is a vital component of Hawaii's agricultural infrastructure, providing a dependable water source for thousands of acres of productive farmland on Oahu. Originally constructed to support sugarcane plantations, the system now plays a crucial role in sustaining diversified agriculture, which is essential to the State's long-term food security and economic resilience. However, the financial burden of repaying acquisition costs has strained the Agribusiness Development Corporation, limiting its ability to maintain and improve the system. This measure addresses this issue by appropriating funds to offset the remaining debt, ensuring that farmers and ranchers who rely on this irrigation system can continue to operate without excessive financial strain.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified amounts;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully respects your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$4,411,426.49 for fiscal year 2025-2026 to be deposited into the Waiahole Water System Revolving Fund; and \$426,370 for fiscal year 2025-2026 and \$427,172 for fiscal year 2026-2027 for the reimbursement to the state general fund of debt service on reimbursable general obligation bonds, including ongoing expenses related to the issuance of the bonds.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 912, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 912, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 82 Agriculture & Food Systems on H.B. No. 498

The purpose of this measure is to:

- (1) Establish and appropriate funds for the Hawaii Agricultural Crimes Council to develop agricultural crime prevention, problem solving, and crime control recommendations and implement related programs to encourage timely reporting of agricultural crimes; and
- (2) Require the Department of Agriculture to collaborate with and support the Council.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Research and Development of the County of Hawai'i; Hawaii Cattlemen's Council; Hawai'i Farm Bureau; Hawai'i Farmers Union United; North Shore Livestock; Hawaiian Host Group; Kealia Ranch; and numerous individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that theft and vandalism within the agricultural sector are significant problems in the State. Because these crimes occur in rural and geographically isolated locations and due to limited resources, law enforcement agencies often cannot timely respond to and adequately address reports of the crimes. This measure establishes the Hawaii Agricultural Crimes Council to help the State address resource limitations and enforcement capabilities, enhance data collection, and restore public trust in law enforcement to adequately prosecute agricultural crimes.

Your Committee has amended this measure by:

- (1) Modifying the membership of the Hawaii Agricultural Crimes Council to include designees of certain members;
- (2) Clarifying that the Hawaii Agricultural Crimes Council may investigate and enforce violations of agricultural crimes by appointing and commissioning investigators;
- (3) Inserting language that establishes the Agricultural Enforcement Special Fund, to be administered by the Department of Law Enforcement;
- (4) Directing monies, revenue, and fines received by the Hawaii Agricultural Crimes Council into the Agricultural Enforcement Special Fund instead of the Animal Industry Special Fund;
- (5) Changing the appropriation to an unspecified amount;
- (6) Changing the numbers of various positions to be established for the Hawaii Agricultural Crimes Council to unspecified numbers;
- (7) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$2,000,000 for the establishment and operation of the Hawaii Agricultural Crimes Council, including one full-time equivalent (1.0 FTE) Executive Director position, one full-time equivalent (1.0 FTE) Staff Assistant position, and two full-time equivalent (2.0 FTE) Deputy Inspector positions.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 498, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 498, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 83 Agriculture & Food Systems on H.B. No. 1449

The purpose of this measure is to:

- (1) Authorize the Department of Agriculture to adopt rules and establishes administrative penalties to establish and enforce the Plant Care Component Program; and
- (2) Appropriate funds for the Plant Care Component Program and certain positions.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Invasive Species Council; Hawai'i Farmers Union; Hawai'i Farm Bureau; and Hawai'i Food+ Policy.

Your Committee finds that Hawaii's agricultural and natural ecosystems are highly vulnerable to invasive pests and plant diseases, which can threaten local food production, biodiversity, and forest health. Act 197, Session Laws of Hawaii 2024, took an important step in addressing this issue by requiring the Department of Agriculture to certify the treatment of plant care components such as wood chips, compost, and filter socks. However, without clear enforcement mechanisms and sufficient resources, the risk of untreated or improperly treated materials spreading harmful pests persists. This measure strengthens the existing program by authorizing the Department of Agriculture to adopt rules and administrative penalties and providing additional resources. By investing in regulatory oversight, this measure not only protects the State's agricultural industry and forests, but also supports food security, reduces dependence on imported goods, and promotes long-term sustainability.

Your Committee has amended this measure by:

- (1) Clarifying the conditions under which a person may distribute within the State a plant care component that originated outside the State;

- (2) Adding definitions for "board" and "person";
- (3) Clarifying the definition of "plant care component" or "component";
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully respects your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$471,168 for the implementation and performance of the Plant Care Component Program, including the establishment of one full-time equivalent (1.0 FTE) permanent civil service Plant Quarantine Inspector IV position and seven full-time equivalent (7.0 FTE) permanent civil service Plant Quarantine Inspector III positions within the Department of Agriculture's Plant Industry Division, Plant Quarantine Branch.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1449, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1449, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 84 Agriculture & Food Systems on H.B. No. 1334

The purpose of this measure is to exempt the donation of wild game meat or meat products, including axis deer, to a charitable, religious, or nonprofit organization for purposes of feeding those in need from certain laws regarding the inspection and transportation of meat.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; one member of the Maui County Council; Hawai'i Farmers Union; Maui Wild Game Management; Hawai'i Foodbank; Maui Food Bank; Hawaii Cattlemen's Council; Maui Adaptation Project; Hawaii Food Industry Association; Hawai'i Pacific Advisory Group; and numerous individuals.

Your Committee finds that food insecurity remains a pressing issue in the State, with many families struggling to access adequate nutrition. Additionally, the overpopulation of axis deer in Hawaii has caused significant damage to watersheds, ecosystems, and agricultural lands, while also contributing to economic losses for farmers and landowners. This measure provides a practical solution to those challenges by exempting the donation of wild game meat and meat products, including axis deer, to charitable, religious, and nonprofit organizations from certain inspection and transportation laws. By removing certain barriers to meat donation, this measure enables hunters and landowners to help control the invasive deer population while providing a healthy, locally sourced protein to those in need.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1334, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1334, H.D. 1, and be referred to your Committee on Health.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 85 Agriculture & Food Systems on H.B. No. 427

The purpose of this measure is to:

- (1) Rename the Department of Agriculture to the "Department of Agriculture and Biosecurity";
- (2) Rename the Board of Agriculture to the "Board of Agriculture and Biosecurity";
- (3) Establish and appropriate funds for a Deputy Director of Biosecurity;
- (4) Change references to the plant and animal declaration form to the "biosecurity form";
- (5) Authorize and specify conditions under which the Department of Agriculture and Biosecurity may declare a biosecurity emergency, during which the Department and Governor may take certain actions to prevent the establishment or spread of pests and prohibited or restricted organisms;
- (6) Broaden the objectives and general actions of the Biosecurity Program; and
- (7) Appropriate funds for positions for the Department of Agriculture and Biosecurity.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Invasive Species Council; one member of the Kaua'i County Council; Hawaii Cattlemen's Council; Hawai'i Farm Bureau; Democratic Party of Hawai'i; Kealia Ranch; Kupuna for the Moopuna; Larry Jefts Farms, LLC; Hawai'i Farmers Union United; Sierra Club of Hawai'i; Green Party of Hawai'i; and numerous individuals. Your Committee received testimony in opposition to this measure from numerous individuals. Your Committee received comments on this measure from the Coordinating Group on Alien Pest Species; O'ahu Invasive Species Committee; Matson Navigation Company, Inc.; Kaua'i Invasive Species Committee; and numerous individuals.

Your Committee finds that the impacts of invasive species to Hawaii have been severe, negative, and expensive and have included serious habitat degradation, extinction of native species, increased wildfire risk, increases in the cost of agriculture and livestock production, among other impacts. Strengthening the State's biosecurity response and resources, including broadening the conditions under which a biosecurity emergency may be declared, would facilitate more proactive and expedient mitigation of the risks posed by invasive species and their importation.

Your Committee notes that there were several organizations and individuals who submitted testimony indicating that they wanted more legislative oversight in the selection process of the Deputy Director of Biosecurity.

Your Committee has amended this measure by:

- (1) Moving language that establishes the Deputy Director of Biosecurity from chapter 150A, Hawaii Revised Statutes, to chapter 141, Hawaii Revised Statutes;
- (2) Clarifying that the Deputy Director of Biosecurity shall be appointed by the Governor, rather than the Chairperson of the Board of Agriculture, but not be subject to the advice and consent of the Senate;

- (3) Changing the numbers for various positions, including for the Deputy Director of Biosecurity, to unspecified numbers;
- (4) Clarifying that for the duration of a declared biosecurity emergency, the Hawaii Invasive Species Council shall work with the Chairperson of the Board of Agriculture, rather than report directly to the Chairperson;
- (5) Clarifying the objectives of the Biosecurity Program related to the control and eradication of pests;
- (6) Clarifying provisions related to providing public education on reporting pests and prohibited or restricted organisms under the Biosecurity Program;
- (7) Clarifying provisions related to the Department of Agriculture's ability to subpoena certain documentation from importers for the purposes of the Biosecurity Program;
- (8) Deleting language that would have granted the Department of Agriculture certain quarantine powers;
- (9) Changing the appropriation and allocations to unspecified amounts;
- (10) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider establishing one full-time equivalent (1.0 FTE) permanent Deputy Director of Biosecurity position and \$12,735,015 for forty-four full-time equivalent (44.0 FTE) positions within the Department of Agriculture and Biosecurity, including \$11,930,523 for thirty-two full-time equivalent (32.0 FTE) positions under plant pest and disease control (program ID AGR122) and \$804,492 for twelve full-time equivalent (12.0 FTE) positions under pesticides (program ID AGR846).

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 427, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 427, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 86 Agriculture & Food Systems on H.B. No. 1323

The purpose of this measure is to require the Department of Agriculture, upon approval of the Board of Agriculture, to accept the transfer of and manage certain qualifying non-agricultural park lands.

Your Committee received testimony in support of this measure from the Land Use Research Foundation of Hawaii; Ernest De Luz Ranch, LLC; Hawai'i Farm Bureau; Hawaii Cattlemen's Council; Boteilho Hawaii Enterprises Inc.; SC Ranch Company, Inc.; Maui County Farm Bureau; Larry Jeffs Farms, LLC; Kapapala Ranch; and eight individuals. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources and one individual. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that for over two decades, the transfer of non-agricultural park lands from the Department of Land and Natural Resources to the Department of Agriculture has been stalled, creating uncertainty for farmers and ranchers who rely on these lands for agricultural production. Act 90, Session Laws of Hawaii 2003, was intended to ensure the long-term productive use of public lands for agriculture, but many leaseholders are still waiting for their lands to be transferred. Without the stability of long-term agricultural leases under the Department of Agriculture, farmers and ranchers face significant challenges in making necessary investments in infrastructure, conservation, and sustainable land management. This measure resolves the long-standing delays by requiring the Department of Agriculture, upon approval of the Board of Agriculture, to accept the transfer of qualifying agricultural lands, ensuring that lands primarily used for farming and ranching are managed by the agency dedicated to fostering agriculture.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1323, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1323, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Lowen, Perruso). Noes, none. Excused, 1 (Ward).

SCRep. 87 Agriculture & Food Systems on H.B. No. 1006

The purpose of this measure is to include agricultural tourism in the definition of "enterprise" to authorize the Agribusiness Development Corporation to financially support farming businesses engaged in agricultural tourism.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Agribusiness Development Corporation; Hawai'i Farmers Union; Hawai'i Farm Bureau; Hawaii Cattlemen's Council; and two individuals.

Your Committee finds that agritourism is an innovative strategy that merges agriculture and tourism, providing farmers with additional revenue streams while educating consumers about local food production. By including agricultural tourism in the definition of "enterprise", this measure allows the Agribusiness Development Corporation to extend financial and technical support to farming businesses engaged in agritourism. This expansion will enable farmers to develop activities such as farm tours, hands-on workshops, and farm-to-table experiences, which not only enhance profitability but also strengthen consumer awareness and appreciation for Hawaii-grown products.

Your Committee notes that the Agribusiness Development Corporation will need to revise its rules to account for the impact that this measure will have on existing state laws related to agritourism activities before it can begin effectuating this measure, if enacted.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1006, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1006, H.D. 1, and be referred to your Committee on Tourism.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Perruso), Noes, none. Excused, 1 (Ward).

SCRep. 88 Energy & Environmental Protection on H.B. No. 976

The purpose of this measure is to:

- (1) Establish a temporary Sustainable Aviation Fuel Import Income Tax Credit; and
- (2) Amend the Renewable Fuels Production Tax Credit by:
 - (A) Increasing the tax credit rate;
 - (B) Repealing the cap on claimable credits per taxpayer per taxable year and increasing the cap on total claimable credits for all eligible taxpayers per calendar year;
 - (C) Specifying that the credit may be claimed for fuels with lifecycle greenhouse gas emissions and product transportation emissions below certain thresholds;
 - (D) Repealing the prohibition on claiming other credits for the cost incurred to produce renewable fuels;
 - (E) Adding credit values for low lifecycle emissions renewable fuels and sustainable aviation fuels produced;
 - (F) Allowing a taxpayer who previously claimed a credit to claim another one for taxable years beginning after December 31, 2024; and
 - (G) Amending the required information in the certified statement for the credit.

Your Committee received testimony in support of this measure from the Department of Transportation; Environmental Caucus of the Democratic Party of Hawai'i; Life of the Land; Climate Protectors Hawai'i; Hawai'i Renewable Fuels Coalition; Pono Pacific; Alaska Airlines and Hawaiian Airlines; Par Hawaii; Hawai'i Farm Bureau; Coalition Earth; Pacific Biodiesel Technologies; Airlines for America; Twelve; and two individuals. Your Committee received testimony in opposition to this measure from Americans for Democratic Action, Hawaii Chapter; Energy Justice Network; and four individuals. Your Committee received comments on this measure from the Department of Taxation; Hawaii State Energy Office; Tax Foundation of Hawaii; and Hawai'i Natural Energy Institute.

Your Committee finds that encouraging increased sustainable aviation fuel production will help the State decrease its dependence on fossil fuels. This measure addresses this need by establishing a temporary Sustainable Aviation Fuel Import Income Tax Credit and amending the Renewable Fuels Production Tax Credit by increasing the credit rate, repealing the cap on claimable credits per year, adding additional credit values, and allowing a taxpayers who previously claimed the credit to claim another.

Your Committee has amended this measure by:

- (1) Deleting the process by which a taxpayer may elect to receive a refund of credits in excess of payments due;
- (2) Changing the total amount of credits allowed under the Sustainable Aviation Fuel Import Income Tax Credit and Renewable Fuels Production Tax Credit to unspecified amounts;
- (3) Amending the Renewable Fuels Production Tax Credit by:
 - (A) Reverting to the existing statutory prohibition on claiming other credits for the costs incurred to produce renewable fuels;
 - (B) Establishing a cap on the total aggregate amount of additional credit value for sustainable aviation fuel in any year;
 - (C) Amending the credit period to be for a maximum period of ten consecutive years beginning from the effective date of this measure; and
 - (D) Narrowing the definition of "lifecycle greenhouse gas emissions" by deleting carbon offsetting and reduction scheme for international aviation from the methodologies used to calculate attributional core lifecycle greenhouse gas emissions;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 976, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 976, H.D. 1, and be referred to your Committee on Economic Development & Technology.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Quinlan, Ward).

SCRep. 89 Energy & Environmental Protection on H.B. No. 978

The purpose of this measure is to allow the Public Utilities Commission to appoint a receiver to take temporary action necessary to assure continued service or to bring the service up to appropriate regulatory standards when a regulated investor-owned electric utility is failing, or there is an imminent threat of the utility failing, to provide adequate and reasonable service to its customers.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and Climate Protectors Hawai'i. Your Committee received comments on this measure from the Public Utilities Commission.

Your Committee finds that when a regulated water or sewer utility is failing, or there is an imminent threat of the utility failing, to provide adequate and reasonable service to its customers, the Public Utilities Commission has the authority to appoint a receiver to take temporary action. Your Committee further finds that the Public Utilities Commission does not have the same authority for regulated investor-owned electric utilities. This measure addresses this need by allowing the Public Utilities Commission to appoint a receiver for a regulated investor-owned electric utility under certain circumstances.

Your Committee has amended this measure by:

- (1) Deleting the appropriation;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

If the scope of the Public Utilities Commission's authority to appoint a receiver were to be expanded to include gas utilities in addition to investor-owned electric utilities, your Committee notes the concern raised by Hawai'i Gas during the hearing that the Public Utilities Commission lacks jurisdiction over the gas utility's unregulated business segment. Your Committee finds that this issue merits further examination and consideration.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 978, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 978, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Quinlan, Ward).

SCRep. 90 Energy & Environmental Protection on H.B. No. 339

The purpose of this measure is to:

- (1) Require the Public Utilities Commission to consider or impose certain conditions of approval on any order approving, in whole or in part, an application for the proposed acquisition, merger, or consolidation of an electric utility by an acquiring entity; and
- (2) Establish a process to ensure that when an application for the proposed acquisition, merger, or consolidation of an electric utility is filed by an investor-owned utility, the Public Utilities Commission suspends its review of the application for one hundred eighty days for the consideration of alternative applications from non-investor-owned utilities.

Your Committee received testimony in support of this measure from Ulupono Initiative; the International Brotherhood of Electrical Workers Local Union 1260; and Climate Protectors Hawai'i. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Public Utilities Commission.

Your Committee finds that if the Public Utilities Commission considers the application of an acquisition, merger, or consolidation of an electric utility, the Commission should consider certain conditions of approval for the application and establish a process to ensure that bids for acquisition from non-investor-owned utilities are concurrently considered. This measure establishes certain conditions of approval related to a potential acquiring entity's perceived or actual support for or opposition to the State's renewable portfolio standards, the existing performance-based regulation framework, power purchase agreements, and collective bargaining agreements.

Your Committee has amended this measure by:

- (1) Adding a requirement that the acquiring entity be bound to existing collective bargaining agreements and retain all covered employees;
- (2) Deleting the requirement that the Public Utilities Commission suspend its review for one hundred eighty days and establish a process and instead requiring an electric utility subject to an application for a proposed acquisition, merger, or consolidation by an investor-owned utility to:
 - (A) Demonstrate that it solicited bids from entities operating under a non-investor-owned utility ownership model, specify whether these types of entities submitted bids, and reasons those bids were or were not accepted; and
 - (B) If the electric utility accepted a bid from an entity operating under a non-investor-owned utility ownership model, present the bid to the Public Utilities Commission concurrently with an application by an investor-owned utility;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 339, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 339, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Quinlan, Ward).

SCRep. 91 Energy & Environmental Protection on H.B. No. 342

The purpose of this measure is to require:

- (1) Gas utility companies to file a proposed initial renewable gas tariff or tariffs with the Public Utilities Commission by August 31, 2025; and
- (2) The Public Utilities Commission to approve or modify the proposed initial renewable gas tariff or tariffs no later than six months after the filing of the tariff, provided that the proposed tariff does not increase rates for other customers, and the tariff is found to be just, reasonable, and in the public interest.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office; Hawai'i Gas; BANA PACIFIC INC; Hawai'i Restaurant Association; Coalition for Renewable Natural Gas; and two individuals. Your Committee received testimony in opposition to this measure from Life of the Land. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Public Utilities Commission.

Your Committee finds that it is imperative that renewable gas tariffs be established by gas utilities in the State in order to reduce reliance on imported petroleum and promote renewable energy production. This measure addresses this need by requiring gas utility companies to file proposed initial gas tariffs with the Public Utilities Commission by August 31, 2025, which the Public Utilities Commission shall approve or modify within six months, provided the tariffs meet certain standards.

Your Committee has amended this measure by:

- (1) Moving the contents of the measure from Hawaii Revised Statutes to session laws;
- (2) Specifying that the Public Utilities Commission shall determine the completeness of an application for a proposed renewable gas tariff within thirty days of the filing of the application;
- (3) Amending the definition of "net therm usage" to mean the amount of gas a customer uses during a monthly billing cycle as measured in therm units;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 342, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 342, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 92 Energy & Environmental Protection on H.B. No. 750

The purpose of this measure is to:

- (1) Require the Department of Health to conduct a statewide needs assessment to determine what will be needed to reduce waste generation, increase reuse, improve recycling collection services, and expand local processing of materials through an extended producer responsibility program for packaging materials and paper products;
- (2) Establish an advisory council to review the draft needs assessment and propose recommendations;
- (3) Require the Department of Health to hold a public hearing on the draft needs assessment and submit the needs assessment to the Legislature by December 31, 2028; and
- (4) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Health; Hawai'i Climate Change Mitigation and Adaptation Commission; Hawai'i Reef and Ocean Coalition; Climate Protectors Hawai'i; AMERIPEN; Democratic Party of Hawai'i; American Cleaning Institute; Hawai'i Farmers Union United; Environmental Caucus of the Democratic Party of Hawai'i; and three individuals. Your Committee received comments on this measure from the Hawaii Food Industry Association and Flexible Packaging Association.

Your Committee finds that extended producer responsibility programs shift responsibility for a product's lifecycle, including end-of-life management, from consumers and governments to the producers of the product. Your Committee further finds that these kinds of programs encourage sustainable product designs that lead to less waste and more fully recyclable and reusable products and packaging. This measure will help determine the viability of such a program by requiring the Department of Health to conduct a needs assessment to determine what will be needed to reduce waste generation, increase reuse, improve recycling collection services, and expand local processing of materials through an extended producer responsibility program for packaging materials and paper products.

Your Committee has amended this measure by:

- (1) Adding representatives from a business that manufactures consumer packaged goods for sale in Hawaii and the composting industry to the advisory council;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes the testimony from the Hawaii Food Industry Association regarding exemptions for prescription medications, medical devices, and supplements but finds that since this measure only creates a needs assessment, these exemptions may be premature and instead should be considered in future legislation creating an extended producer responsibility program.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider appropriating funds for this measure out of the Deposit Beverage Container Deposit Special Fund instead of general revenues.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 750, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 750, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Quinlan, Ward).

SCRep. 93 Energy & Environmental Protection on H.B. No. 350

The purpose of this measure is to expand the types of water heater systems required for the issuance of a building permit for new single-family dwellings to include ENERGY STAR certified heat pump water heaters.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office and Hawai'i Energy. Your Committee received comments on this measure from The Solaray Corporation dba Inter-Island Solar Supply and the Hawaii Solar Energy Association.

Your Committee finds that ENERGY STAR certified heat pump water heaters offer an environmentally friendly and energy-efficient alternative to traditional electric water heaters. Your Committee further finds that these types of water heaters do not currently satisfy the water heater system requirements for the issuance of a building permit for new single-family dwellings. This measure addresses this issue by expanding the types of water heater systems that satisfy this requirement to ENERGY STAR certified heat pump water heaters.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee notes and will continue to consider the amendment suggested by the Solaray Corporation to allow only ENERGY STAR certified heat pump water heaters that meet or exceed the average efficiency of solar water heaters to be added to this measure.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 350, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 350, H.D. 1, and be referred to your Committee on Housing.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 94 Energy & Environmental Protection on H.B. No. 346

The purpose of this measure is to expand the existing Electric Vehicle Charging System Rebate Program to provide rebates for the installation of eligible electric vehicle-ready parking stalls in new construction of affordable housing.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office; Office of Planning and Sustainable Development; Public Utilities Commission; Green Party of Hawai'i; Climate Protectors Hawai'i; Hawaiian Electric; 350Hawaii.org; Hawaii Electric Vehicle Association; Citizens' Climate Lobby Hawaii; Hawai'i Energy; RERides EV, LLC; Kauai Climate Action Coalition; Alliance for Automotive Innovation; EAH Housing; Coalition Earth; NAIOP Hawaii; and numerous individuals.

Your Committee finds that there is a lack of adequate electric vehicle charging infrastructure in the State, limiting the adoption of electric vehicles and depriving the State of the environmental benefits associated with increased electric vehicle usage. This measure addresses this need by establishing rebates for the installation of eligible electric vehicle-ready parking stalls for new construction of affordable housing.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 346, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 346, H.D. 1, and be referred to your Committee on Housing.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 95 Energy & Environmental Protection on H.B. No. 742

The purpose of this measure is to require the Hawaii Community Development Authority to prepare environmental impact statements for the Iwilei/Kapalama and University of Hawaii West Oahu transit-oriented development infrastructure improvement districts.

Your Committee received testimony in support of this measure from the University of Hawai'i System; Hawai'i YIMBY; Holomua Collaborative; Hawaii Appleseed Center for Law & Economic Justice; Mana Up; Title Guaranty Hawai'i; HPM Building Supply; and one individual. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation; Hawai'i Community Development Authority; and Office of Planning and Sustainable Development.

Your Committee finds that the Iwilei/Kapalama and University of Hawaii West Oahu districts have been identified as transit-oriented development infrastructure improvement districts, meaning these districts are within county-designated transit-oriented development zones or within close proximity to a proposed or existing transit station. Your Committee further finds that environmental impact statements should be prepared for these districts to identify the potential effects of development on surrounding land and natural resources.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 742, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 742, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 96 Energy & Environmental Protection on H.B. No. 470

The purpose of this measure is to:

- (1) Increase penalties for violations of leaf blower and weed whacker restrictions;
- (2) Repeal the exemption for government agencies from leaf blower and weed whacker restrictions; and
- (3) Beginning July 1, 2028, prohibit the sale of leaf blowers, string trimmers, and weed whackers rated by their manufacturers at greater than sixty-five weighted decibels when measured at a distance of fifty feet.

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from Retail Merchants of Hawaii and one individual. Your Committee received comments on this measure from the Department of Health and Department of Education.

Your Committee finds that certain leaf blowers, string trimmers, and weed whackers operate at high measures of weighted decibels, creating a nuisance for those in the vicinity and potentially causing hearing damage through prolonged exposure. Your Committee believes that this measure will address this issue by increasing penalties for violations of leaf blower and weed whacker restrictions, repealing certain exemptions to these restrictions, and prohibiting the sale of certain leaf blowers, string trimmers, and weed whackers.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 470, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 470, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 97 Energy & Environmental Protection on H.B. No. 366

The purpose of this measure is to require contested cases, environmental assessment cases, or environmental impact statement cases involving renewable energy projects over twenty megawatts in size, except cases that involve any form of incineration, to be appealed from an agency's decision directly to the Hawaii Supreme Court for final decision and prioritized and decided expeditiously.

Your Committee received testimony in support of this measure from Climate Protectors Hawai'i and Kaua'i Island Utility Cooperative. Your Committee received testimony in opposition to this measure from 350Hawaii.org and Hawaii Clean Power Alliance. Your Committee received comments on this measure from the Office of Planning and Sustainable Development; Public Utilities Commission; and Life of the Land.

Your Committee finds that the State can support renewable energy projects by expediting the permitting process for projects that align with its clean energy goal. This measure addresses this need by requiring contested cases, environmental assessment cases, or environmental impact statement cases involving certain renewable energy projects to be appealed from an agency's decision directly to the Hawaii Supreme Court for final decision and prioritized and decided expeditiously.

Your Committee has amended this measure by:

- (1) Clarifying that cases involving the determination of a finding of no significant impact for an environmental assessment shall be appealed directly to the Hawaii Supreme Court;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 366, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 366, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Quinlan). Noes, none. Excused, 1 (Ward).

SCRep. 98 Energy & Environmental Protection on H.B. No. 786

The purpose of this measure is to:

- (1) Amend the types of containers beverage dealers must accept for redemption and repeal certain exemptions for beverage dealers from the requirement to operate redemption centers;
- (2) Allow for the establishment of regional centers for the redemption of refillable beverage containers in addition to existing redemption centers; and
- (3) Require the Department of Health to establish a Reverse Vending Machine Pilot Program, using the Deposit Beverage Container Deposit Special Fund to provide grants to deploy reverse vending machines.

Your Committee received testimony in opposition to this measure from Hawaii Food Industry Association. Your Committee received comments on this measure from the Department of the Attorney General and Department of Health.

Your Committee finds that the State must ensure that consumers have access to redemption centers to recycle beverage containers. This measure addresses this need by allowing the Department of Health to use money from the Deposit Beverage Container Deposit Special Fund to deploy reverse vending machines, repealing certain exemptions for beverage dealers from the requirement to operate redemption centers, and allowing for the establishment of regional redemption centers.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Health is not required to use grants to deploy reverse vending machines;
- (2) Removing the requirements for the types of containers beverage dealers must accept;
- (3) Reinstating the exemption for beverage dealers in high density population areas and changing the qualifications for the exemption to beverage dealers within one-half of a mile of a redemption center;
- (4) Reinstating the requirement that a beverage dealer's place of business be less than five thousand square feet of interior space to qualify for the exemption;
- (5) Removing the requirement for the Department of Health to establish a Reverse Vending Machine Pilot Program;
- (6) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 786, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 786, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 99 Energy & Environmental Protection on H.B. No. 734

The purpose of this measure is to:

- (1) Require the Department of Health, in consultation with appropriate agencies and professionals, to review rules and practices and propose changes that have the potential to make wastewater systems and cesspool upgrades more affordable without compromising water quality; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Health; Department of Hawaiian Home Lands; University of Hawai'i Sea Grant College Program; Environmental Caucus of the Democratic Party of Hawai'i; Public Access to SunScreens Coalition; Hawai'i Reef and Ocean Coalition; Coral Reef Alliance; WAI: Wastewater Alternatives & Innovations; Hawai'i Wai Ola; The Nature Conservancy Hawai'i and Palmyra; and four individuals.

Your Committee finds that cesspools in the State are a serious environmental and public health issue. This measure addresses cesspool pollution and explores additional pathways toward cesspool upgrade or conversion affordability without compromising water quality.

Your Committee has amended this measure by:

- (1) Removing the University of Hawaii Sea Grant College Program from the list of entities with whom the Department of Health shall consult;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$150,000.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 734, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 734, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 100 Energy & Environmental Protection on H.B. No. 736

The purpose of this measure is to establish and appropriate funds for a three-year Wastewater System Technology Testing Pilot Program within the University of Hawai'i Water Resources Research Center.

Your Committee received testimony in support of this measure from the Department of Health; Department of Hawaiian Home Lands; University of Hawai'i Water Resources Research Center; Hawai'i Climate Change Mitigation & Adaptation Commission; Environmental Caucus of the Democratic Party of Hawai'i; Public Access to SunScreens Coalition; Hawai'i Reef & Ocean Coalition; Coral Reef Alliance; WAI: Wastewater Alternatives & Innovations; The Nature Conservancy Hawai'i and Palmyra; Hawai'i Wai Ola; and five individuals.

Your Committee finds that the State is committed to improving water quality and public health in its programs aimed at transitioning away from cesspools. However, the existing approved replacement options pose their own challenges as advanced treatment units are highly effective but costly and septic systems, though more affordable, have limited nutrient removal efficiency in Hawaii's coastal environments. The lack of viable, cost-effective solutions is a major barrier to meeting the State's water quality goals and could lead to substantial investments with limited impact. This measure addresses some of the State's cesspool conversion challenges by exploring alternative affordable and effective treatment options.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

Your Committee notes the existing unspecified appropriation amount in this measure and requests the University of Hawaii to provide the anticipated costs to implement the Wastewater System Technology Testing Pilot Program as this measure advances through the legislative process.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 736, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 736, H.D. 1, and be referred to your Committee on Higher Education.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 101 Energy & Environmental Protection on H.B. No. 969

The purpose of this measure is to prohibit the construction, modification, or expansion of any waste or disposal facility on land that is near or above a significant aquifer, as determined by the Department of Health.

Your Committee received testimony in support of this measure from the Honolulu Board of Water Supply; Environmental Caucus of the Democratic Party of Hawai'i; North Shore Chamber of Commerce; Hawai'i Farm Bureau; Sierra Club of Hawai'i; IATSE Local 665; Health Committee of the Democratic Party of Hawai'i; Hawai'i Farmers Union; Kupuna for the Moopuna; Green Party of Hawai'i; Ka Lahui Hawai'i; Free Access Coalition; International Brotherhood of Electrical Workers Local 1260; and numerous individuals. Your Committee received testimony in opposition to this measure from the County of Kaua'i Department of Public Works. Your Committee received comments on this measure from the Department of Health and Department of Environmental Services of the City and County of Honolulu.

Your Committee finds that the State's aquifers are essential to public health and safety. Aquifers provide source water for domestic uses, agricultural irrigation, industrial uses, cultural practices, and environmental habitats through springs and wetlands. This measure strives to protect the State's aquifers by preventing possible environmental contamination through landfills and other waste or disposal facilities.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 969, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 969, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 102 Energy & Environmental Protection on H.B. No. 379

The purpose of this measure is to require newly installed or modified individual wastewater systems that are near the shoreline, or likely to pollute groundwater, to include denitrification capacity.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; one member of the Kaua'i County Council; one member of the Hawai'i County Council; Hawai'i Reef and Ocean Coalition; Coral Reef Alliance; The Nature Conservancy, Hawai'i and Palmyra; WAI: Wastewater Alternatives & Innovations; Hawai'i State Association of Counties; and two individuals. Your Committee received comments on this measure from the Department of Health and Hawai'i Association of REALTORS.

Your Committee finds that wastewater treatment systems near shorelines have an increased potential to contaminate nearshore waters and coral reef systems and that a wastewater treatment system with denitrification capacity may protect these resources from contamination.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion. Your Committee notes the concerns raised regarding the criteria for determining whether a wastewater system needs a denitrification capacity and respectfully requests the Department of Health to review the proposed criteria in this measure and provide recommendations for more appropriate criteria as this measure advances through the legislative process.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 379, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 379, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 103 Energy & Environmental Protection on H.B. No. 798

The purpose of this measure is to:

- (1) Clarify the exemptions to the prohibition on discharging any wastewater or raw sewage into state waters; and
- (2) Exempt treatment plants having a treatment capacity of less than 10,000,000 gallons per day from the prohibition on discharging any wastewater or raw sewage into state waters after December 31, 2026.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Maui; Hawai'i Wai Ola; and one individual. Your Committee received testimony in opposition to this measure from Coral Reef Alliance. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that in order to protect Hawaii's waters, it is vital to prohibit practices that discharge wastewater and raw sewage. Your Committee further finds that existing law prohibits the discharge of any treated or raw sewage into state waters, with certain exemptions. The intent of this measure is to clarify what discharge is subject to the law and what is exempt.

Your Committee has amended this measure by:

- (1) Removing the exemption for treatment plants that produce clean energy;
- (2) Changing the maximum number of gallons per day limit to an unspecified number;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 798, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 798, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 104 Energy & Environmental Protection on H.B. No. 879

The purpose of this measure is to:

- (1) Increase the maximum grant amount for the Cesspool Compliance Pilot Grant Project from \$20,000 to \$30,000;
- (2) Establish positions within the Department of Health for the Cesspool Compliant Pilot Grant Project; and
- (3) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Department of Health; Environmental Caucus of the Democratic Party of Hawai'i; Public Access to SunScreens Coalition; Hawai'i Reef and Ocean Coalition; Hawai'i Association of REALTORS; Coral Reef Alliance; Hawai'i Wai Ola; WAI: Wastewater Alternatives & Innovations; and four individuals.

Your Committee finds that all cesspools in the State are required to be upgraded or converted to an approved wastewater system or connected to a sewage system by 2050. Your Committee further finds that although Act 153, Session Laws of Hawaii 2022, established a Cesspool Compliance Pilot Grant Project to assist certain low- and moderate-income property owners with the cost of upgrading or converting cesspools, the maximum grant amount may be insufficient to cover all upgrade or conversion costs. Your Committee believes that increasing the maximum grant amount, as proposed by this measure, will ensure the State meets its goal of upgrading or converting all cesspools by 2050.

Your Committee has amended this measure by:

- (1) Clarifying that the owner or lessee shall provide receipts of payment made to wastewater and plumbing supply companies to satisfy certain requirements for grant awards;
- (2) Changing the maximum grant amount for the Cesspool Compliance Pilot Grant Project to an unspecified amount;
- (3) Removing the appropriation establishing a position within the Department of Health;
- (4) Changing the appropriation to fund the Cesspool Compliance Pilot Grant Project to an unspecified amount;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider the appropriation amount of \$5,000,000 to fund the Cesspool Compliance Pilot Grant Project.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 879, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 879, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 105 Energy & Environmental Protection on H.B. No. 338

The purpose of this measure is to clarify that adjustments linked to premium interest rates for high-yield credit are mechanisms for reasonable and appropriate incremental adjustments that the Public Utilities Commission may include in the rate payable to producers of nonfossil-fuel-generated electricity.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office; Public Utilities Commission; Hawaii Clean Power Alliance; and one individual. Your Committee received testimony in opposition to this measure from Hawaiian Electric. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that renewable energy from independent power producers and community-based renewable producers will help achieve the State's renewable energy goals. Your Committee further finds that the procurement, contracting, and delivery of operational renewable energy facilities and community-based renewable energy projects are in jeopardy due to financial issues outside of the control of these power producers. Currently, these producers face the prospect of securing loans with a higher-than-average interest rate to finance renewable energy facilities or community-based renewable energy projects. This measure is intended to assist independent power producers by allowing them to be paid incrementally from increased rates to reflect increased costs from a premium interest rate for high-yield credit.

Your Committee has amended this measure by:

- (1) Clarifying that the Public Utilities Commission may only approve a rate adjustment if the producer can demonstrate that the adjustment is required by clear and convincing evidence;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 338, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 338, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 106 Energy & Environmental Protection on H.B. No. 376

The purpose of this measure is to:

- (1) Accelerate the deadlines for required upgrades, conversions, or connections of:
 - (A) The 13,821 priority level 1 cesspools in the State to 2035, with certain exceptions; and
 - (B) The 12,367 priority level 2 cesspools in the State to 2040;
- (2) Appropriate funds for the Cesspool Compliance Pilot Grant Program; and
- (3) Re-establish a Cesspool Upgrade, Conversion, or Connection Income Tax Credit.

Your Committee received testimony in support of this measure from Department of Hawaiian Home Lands; Hawaii Green Infrastructure Authority; one member of the Kaua'i County Council; one member of the Hawai'i County Council; Hawai'i Reef and Ocean Coalition; Hawai'i State Association of Counties; The Nature Conservancy Hawai'i and Palmyra; Hawai'i Wai Ola; WAI: Wastewater Alternatives & Innovations; and one individual. Your Committee received comments on this measure from the Department of the Attorney General; Department of Health; Hawai'i Association of REALTORS; and Tax Foundation of Hawaii.

Your Committee finds that cesspools are antiquated, substandard systems that pollute Hawaii's waters and contribute to environmental harm across the State. Your Committee further finds that the State must expedite its efforts to upgrade, convert, or connect certain cesspools. This measure addresses this need by accelerating the deadlines for the required upgrades, conversions, or connections of priority level 1 and priority level 2 cesspools to 2035 and 2040, respectively.

Your Committee has amended this measure by:

- (1) Removing the appropriation for the Cesspool Compliance Pilot Grant Program;
- (2) Removing the Cesspool Upgrade, Conversion, or Connection Income Tax Credit;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 376, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 376, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 107 Energy & Environmental Protection on H.B. No. 243

The purpose of this measure is to require certain measures that ensure solar conduit- and electrical panel-readiness for new residential construction offered for sale at fair market value and electric vehicle-readiness when an electrical panel and parking area are installed.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office; Green Party of Hawai'i; Citizens Climate Lobby Hawai'i; Climate Protectors Hawai'i; 350Hawaii.org; Hawaii Electric Vehicle Association; Hawaii Solar Energy Association; Alliance for Automotive Innovation; Kauai Climate Action Coalition; Chamber of Sustainable Commerce; and numerous individuals. Your Committee received testimony in opposition to this measure from NAIOP Hawaii.

Your Committee finds that there is an urgent need to encourage the rapid transition to renewable energy. Your Committee further finds that this measure would better accomplish this need by establishing a Streamlined Grid-Ready Home Interconnection Process that supports the rapid adoption of clean energy technologies and ensures power system reliability.

Your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of H.B. No. 340, a measure heard and considered by your Committee that:
 - (A) Requires the Public Utilities Commission to establish a Streamlined Grid-Ready Home Interconnection Process; and
 - (B) Authorizes the use of the Hawaii Electricity Reliability Surcharge for cost recovery of certain expenses of the Hawaii Electricity Reliability Administrator associated with the Streamlined Grid-Ready Home Interconnection Process;
- (2) Changing the deadline for the Public Utilities Commission to establish the Streamlined Grid-Ready Home Interconnection Process to October 1, 2026;
- (3) Changing the cost-sharing fee for service upgrades to an unspecified amount and deleting the deadline for completion of service upgrades;

- (4) Adding requirements obligating regulated electric utilities to allow for the interconnection and utilization of vehicle-to-grid capabilities;
- (5) Removing the provision authorizing the use of the Hawaii Electricity Reliability Surcharge for cost recovery of certain expenses;
- (6) Requiring reports on the status of the Streamlined Grid-Ready Home Interconnection Process to be submitted to the Legislature instead of the Public Utilities Commission;
- (7) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 243, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 243, H.D. 1, and be referred to your Committee on Housing.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 108 Transportation on H.B. No. 1158

The purpose of this measure is to limit civil liability for private individuals who assist in providing firefighting services in and around commercial harbors and waterfront facilities.

Your Committee received testimony in support of this measure from the Department of Transportation and The Maritime Group.

Your Committee finds that there are privately owned assets and vessels equipped with fire monitors and water cannons that could be used in fighting fires in and around waterfront facilities. However, there have been instances where private individuals responsible for these assets and vessels have declined to assist county fire departments in providing firefighting services because of concerns over possible civil liability. This measure seeks to facilitate participation from private individuals who can provide assistance to county fire departments in certain situations by limiting liability except for damages as may result from gross negligence or wanton acts or omissions.

Your Committee has amended this measure by:

- (1) Clarifying that the limitation of civil liability is for individuals who render firefighting services with a firefighting vessel;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1158, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1158, H.D. 1, and be referred to your Committee on Public Safety.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Cochran, La Chica).

SCRep. 109 Transportation on H.B. No. 1464

The purpose of this measure is to provide access by owners of motor vehicles and independent repair facilities to motor vehicle manufacturer diagnostic and repair information and diagnostic repair tools otherwise made available to dealers.

Your Committee received testimony in support of this measure from O'Reilly Auto Parts; Autocare Association; 808 Safety; Coalition for Automotive Repair Equality; LKQ Corporation; and two individuals. Your Committee received testimony in opposition to this measure from the Alliance for Automotive Innovation and Hawai'i Automobile Dealers Association. Your Committee received comments on this measure from the Motorcycle Industry Council.

Your Committee finds that this measure allows vehicle owners and independent repair shops to have the same critical repair and maintenance data as motor vehicle dealers. This will allow vehicle owners to choose where to have their vehicle repaired and may lead to more affordable repairs.

Your Committee respectfully requests that a possible exemption for motorcycles be considered as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Deleting language that would have established various requirements for manufacturers of vehicles sold in the State, except for manufacturers of model year 2022 or later vehicles;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1464, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1464, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Cochran, La Chica).

SCRep. 110 Transportation on H.B. No. 1301

The purpose of this measure is to:

- (1) Repeal the Public Utilities Commission's authority to regulate ratemaking for motor carriers;
- (2) Apply the existing framework regulating motor carriers onto transportation network companies; and
- (3) Repeal the chapter regulating transportation network companies.

Your Committee received testimony in support of this measure from Roberts Hawaii, Inc. Your Committee received testimony in opposition to this measure from Uber; Lyft Inc.; and Hawaii Association for Justice. Your Committee received comments on this measure from the Department of the Attorney General and Public Utilities Commission.

Your Committee finds that Hawaii is the only state in the United States regulating motor carriers. In 1995, the Interstate Commerce Commission Termination Act of 1995 extended Hawaii's exemption from the preemption of states' rights to govern the transportation of freight, preserving Hawaii's full jurisdiction over intrastate motor carriers of passengers and property. Although Hawaii's law provides exemptions, your Committee believes that the law needs to be updated and modernized to recognize and accommodate for advancements in technology.

Your Committee has amended this measure by:

- (1) Reinstating the Public Utilities Commission's authority to regulate ratemaking for motor carriers;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1301, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1301, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Cochran, La Chica).

SCRep. 111 Transportation on H.B. No. 226

The purpose of this measure is to lower the minimum light transmittance levels permitted on car window glazing materials from thirty-five percent to twenty percent.

Your Committee received testimony in support of this measure from the T&T Tinting Specialists, Inc. Your Committee received testimony in opposition to this measure from the Department of Transportation.

Your Committee finds that rising global temperatures and increased heat in the interior of vehicles due to climate change have become a growing concern for public health and safety. Your Committee further finds that existing vehicle window tinting regulations fail to adequately address the escalating heat buildup in cars, leading to discomfort and potential health risks for drivers and passengers.

Your Committee notes the safety concerns that darker tints can reduce visibility, both into and out of the vehicle, making it harder for drivers to see other vehicles or pedestrians, as well as difficult for law enforcement to see into the vehicle to conduct safety checks. Your Committee believes that existing tinting requirements should be updated to current climate changes, but also believes that protections should be in place to ensure that law enforcement officers are able to conduct any necessary safety checks at traffic stops.

Accordingly, your Committee has amended this measure by:

- (1) Prohibiting a person from installing, mounting, adhering, affixing, or using a sun screening device in conjunction with glazing material of a motor vehicle with mirrored, metallic, red, yellow, amber, or blue tint;
- (2) Requiring all drivers and passengers of motor vehicles with applied tint to roll down their windows when stopped by a law enforcement officer at a traffic stop;
- (3) Reinstating the existing authorized light transmittance percentage for sun screening devices for front side wing vents and windows;
- (4) Specifying that sun screening devices for side windows at the rear of the driver and rear windows on sedans, vans, minivans, trucks, and buses are allowed to have a light transmittance of no less than twenty percent;
- (5) Specifying sun screening requirements do not apply to side windows to the rear of the driver and rear windows on sedans, in addition to vans, minivans, trucks, or buses;
- (6) Increasing the minimum and maximum fines for:
 - (A) An owner of a motor vehicle violating sun screening device requirements by \$50 each to \$300 and \$550, respectively; and
 - (B) The installer of any sun screening device in violating of sun screening device requirements by \$200 each to \$700 and \$1,200, respectively;
- (7) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 226, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 226, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Cochran, La Chica).

SCRep. 112 Transportation on H.B. No. 1159

The purpose of this measure is to clarify the requirement of vessels to evacuate a commercial harbor upon order by the harbor master during an emergency and to establish penalties for noncompliance.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received testimony in opposition to this measure from the Hawaii Longline Association; Holo Holo Charters Inc.; Captain Andy's Sailing Adventures; and Blue Dolphin Charters.

Your Committee finds that proper evacuations during emergencies could help mitigate damage to port infrastructure and may support efficient restoration of port operations. This measure will increase safety and operations at commercial harbors by ensuring that persons in charge of vessels follow the harbor master's order to evacuate a commercial harbor.

Your Committee notes that due to the smaller nature of Hawaii longline vessels, forcing these vessels into the potential path of a dangerous hurricane puts lives at risk. Your Committee will continue to work with stakeholders as this measure moves through the legislative process to examine potentially expanding exemptions, particularly for vessels with approval from the United States Coast Guard.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and

(2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1159, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1159, H.D. 1, and be referred to your Committee on Public Safety.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Cochran, La Chica).

SCRep. 113 Transportation on H.B. No. 1083

The purpose of this measure is to clarify that the requirements for the securing of mooring lines in state commercial harbors shall not apply to certain vessels.

Your Committee received testimony in support of this measure from Hawaii Longline Association and General Contractors Association of Hawaii. Your Committee received testimony in opposition to this measure from Holo Holo Charters; Captain Andy's Sailing; and Blue Dolphin Charters.

Your Committee finds that this measure exempts government-owned or government-sponsored vessels, training vessels, and fishing vessels from the requirements that the securing of mooring lines from vessels to the State's commercial docks, wharves, piers, quays, and landings be performed by labor that is subject to collective bargaining.

Your Committee respectfully requests your Committees on Labor and Consumer Protection & Commerce, should they deliberate on this measure, to work with the Department of Transportation in potentially expanding the exemptions under this measure to include other vessels, as necessary.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1083, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1083, H.D. 1, and be referred to your Committee on Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Muraoka, Pierick). Noes, none. Excused, 2 (Cochran, La Chica).

SCRep. 114 Transportation on H.B. No. 1165

The purpose of this measure is to authorize the counties to sell or dispose of property bordering the ocean when the Department of Transportation requests the acquisition of the property for state highway purposes.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that this measure will provide a narrow exception to the prohibition on counties selling property that is bordering the ocean if it is for state highway purposes, such as for construction, maintenance, or realignment of state highways.

Your Committee has amended this measure by:

- (1) Updating the severability clause;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1165, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1165, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, 2 (Muraoka, Pierick). Excused, 2 (Cochran, La Chica).

SCRep. 115 Transportation on H.B. No. 1304

The purpose of this measure is to require the Department of Transportation to adopt rules regarding a clean fuel standard for alternative fuels in the State.

Your Committee received testimony in support of this measure from Neste; Biotechnology Innovation Organization; and Coalition Earth. Your Committee received comments on this measure from Hawaiian Electric.

Your Committee finds that clean fuel policies drive the adoption of lower carbon transportation technologies, resulting in advanced competition and a diversity of fuel options for consumers. Your Committee further finds that a clean fuel standard would enable the State to meet its decarbonization goals in regard to transportation fuels.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

Your Committee notes that alternative fuels technology is an emerging technology in the State and as such, the financial impacts of adoption are not easily discernable.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1304, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1304, H.D. 1, and be referred to your Committee on Energy & Environmental Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, 2 (Muraoka, Pierick). Excused, 2 (Cochran, La Chica).

SCRep. 116 Transportation on H.B. No. 1302

The purpose of this measure is to require the Department of Human Resources Development to create and implement a comprehensive transportation demand management program for all state employees with the goal of reducing vehicle emissions and single occupancy vehicle commutes.

Your Committee received testimony in support of this measure from the Hawai'i State Energy Office; Oahu Metropolitan Planning Organization; Get Fit Kauai; and six individuals. Your Committee received comments on this measure from the Department of Human Resources Development.

Your Committee finds that ground transportation makes up thirty-eight percent of transportation emissions in the State. Incentivizing public transit and active modes of transportation over private vehicles for state workers' commutes will not only reduce carbon emissions in the State but promote healthy habits and increase well-being through greater physical activity.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

Your Committee notes that the Maui Metropolitan Planning Organization may additionally benefit from a position within their organization to assist in the implementation and administration of the statewide transportation demand management program proposed in this measure.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1302, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1302, H.D. 1, and be referred to your Committee on Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, 2 (Muraoka, Pierick). Excused, 2 (Cochran, La Chica).

SCRep. 117 Transportation on H.B. No. 1161

The purpose of this measure is to:

- (1) Establish a State Mileage-Based Road Usage Charge Subaccount within the State Highway Fund;
- (2) Authorize counties to establish a county mileage-based road usage charge for electric vehicles beginning July 1, 2028;
- (3) Establish a process for the counties to adopt a per-mile rate by ordinance;
- (4) Clarify the use of monies collected under the state and county road usage charges;
- (5) Set a default state and county road usage charge when the charge cannot be calculated due to incomplete information; and
- (6) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Transportation; one member of the Maui County Council; and Department of Customer Services of the City and County of Honolulu. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Tax Foundation of Hawaii and Alliance for Automotive Innovation.

Your Committee finds that in 2023, the Legislature enacted a small-scale per-mile road usage charge program for electric vehicles. This measure would build off the success of the 2023 program and allow, among other things, the counties to begin transitioning to a mileage-based road usage charge as a replacement for the county motor fuel tax.

Your Committee has amended this measure by:

- (1) Clarifying that the county mileage-based road usage charge is paid each year following the most recent registration, rather than inspection;
- (2) Changing the appropriations to unspecified amounts;
- (3) Updating the fiscal year for the appropriation for the implementation of the State Mileage-Based Road Usage Charge Program;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider the following appropriation amounts:

- (1) \$1,700,000 for the implementation of the State Mileage-Based Road Usage Charge Program; and
- (2) \$200,600 for fiscal year 2025-2026 and \$1,542,480 for fiscal year 2026-2027 for the continued implementation of the State Mileage-Based Road Usage Charge.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1161, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1161, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, 2 (Muraoka, Pierick). Excused, 2 (Cochran, La Chica).

SCRep. 118 Education on H.B. No. 329

The purpose of this measure is to:

- (1) Clarify that the School Facilities Authority (Authority) is responsible for certain development, planning, and construction projects for prekindergarten, preschool, and child care facilities, as well as workforce housing;
- (2) Allow the Authority to use the Department of Education for certain recruitment and hiring responsibilities;
- (3) Allow the Authority to partner with public and private development agencies to develop prekindergarten facilities; and
- (4) Clarify the applicability of the Sunshine Law to the School Facilities Authority Board.

Your Committee received testimony in support of this measure from Hawai'i Children's Action Network Speaks!; Early Childhood Action Strategy; and two individuals. Your Committee received testimony in support of the intent of this measure from the School Facilities Authority and Department of

Community Services of the City and County of Honolulu. Your Committee received testimony in opposition to this measure from the Public First Law Center. Your Committee received comments on this measure from the Department of the Attorney General; Department of Education; and Office of Information Practices.

Your Committee finds that the School Facilities Authority is entrusted with responsibilities relating to the development, planning, and construction of public school projects. This measure amends certain statutes governing the School Facilities Authority, thereby allowing the Authority to carry out its responsibilities with greater efficiency and streamlining school development while addressing the critical needs of students, their families, and the education workforce.

Your Committee has amended this measure by:

- (1) Deleting language that would have repealed language stating that all other provisions of chapter 92, Hawaii Revised Statutes, shall apply to school facilities authority board workgroups and subcommittee and amending the preamble to reflect this amendment;
- (2) Specifying the responsibilities of the School Facilities Authority relating to the development, planning, and construction of new or renovated prekindergarten, preschool, and child care facilities and workforce housing for educators and other education workers in schools serving prekindergarten under chapter 302L, Hawaii Revised Statutes, which relates to the early learning system;
- (3) Authorizing the School Facilities Authority to develop workforce housing for teachers on land not owned by the Department of Education;
- (4) Changing the effective date to July 1, 3000; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 329, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 329, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 119 Education on H.B. No. 330

The purpose of this measure is to:

- (1) Place oversight of the School Impact Fee Program's governance structure under the School Facilities Authority Board; and
- (2) Allow the School Facilities Authority Board to dissolve a school impact district without a public hearing.

Your Committee received testimony in support of this measure from Hawai'i YIMBY. Your Committee received testimony in support of the intent of this measure from the School Facilities Authority and Hawaii Appleseed Center for Law & Economic Justice. Your Committee received comments on this measure from the Department of Education; Tax Foundation of Hawaii; and Grassroot Institute of Hawaii.

Your Committee finds that the existing governance structure of the School Impact Fee Program is misaligned. As the School Facilities Authority is currently responsible for administering the program, your Committee believes that it is appropriate that the School Facilities Authority Board be the governing entity overseeing the school impact fee program rather than the Board of Education.

Your Committee has amended this measure by:

- (1) Deleting language that would have authorized the School Facilities Authority Board to dissolve a school impact district without a public hearing;
- (2) Directing the School Facilities Authority Board to carry out the processes and procedures conducted by the Board of Education to dissolve a school impact district upon the transfer of oversight of the School Impact Fee Program;
- (3) Changing the effective date to July 1, 3000; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 330, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 330, H.D. 1, and be referred to your Committee on Housing.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 1 (Muraoka). Excused, 1 (Kapela).

SCRep. 120 Consumer Protection & Commerce on H.B. No. 380

The purpose of this measure is to repeal existing laws that:

- (1) Declare the sale of cigarettes, tobacco products, and electronic smoking devices a statewide concern; and
- (2) Preempt all local ordinances and regulations that regulate the sale of cigarettes, tobacco products, and electronic smoking devices.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of Health; one member of the Kaua'i County Council; one member of the Hawai'i County Council; one member of the Maui County Council; Hawai'i State Association of Counties; Hawai'i Youth Services Network; The Friends of Kamalani and Lydgate Park; Youth Council of the Coalition for a Tobacco-Free Hawai'i; Hawaii Primary Care Association; AlohaCare; American Cancer Society Cancer Action Network; Coalition for a Tobacco-Free Hawai'i; Hamakua Health Center; Hawaii COPD Coalition; Campaign for Tobacco-Free Kids; Hawai'i Health & Harm Reduction Center; Hawaii Dental Association; American Heart Association; Hawaii Substance Abuse Coalition; American Lung Association; and numerous individuals. Your Committee received testimony in opposition to this measure from Marukin Market; Number One Store; VOLCANO Vape Shops; Cigar Association of America, Inc.; Discount Smoke Shop Hawaii; ABC Stores; and six individuals. Your Committee received comments on this measure from the Taxpayers Protection Alliance.

Your Committee finds that tobacco use remains the leading cause of preventable death in the State. In Hawaii alone, tobacco use claims 1,100 lives each year and creates \$336,000,000 in annual health care costs directly attributed to smoking. Most persons start smoking before the age of eighteen, with many beginning tobacco use before high school.

Your Committee further finds that the State is experiencing a youth vaping epidemic. Usage rates vary across the State. For example, while ten percent of the adult population of the State smokes, several communities have much higher rates of smoking: Puna/Ka'u has a rate of nineteen percent and Nanakuli/Wai'anae has a rate of twenty-one percent. These geographic tobacco-related disparities are a serious health problem in Hawaii. This measure

allows local communities to develop local solutions for their unique circumstances by allowing counties to implement more restrictive regulations for the sale of cigarettes, tobacco products, and electronic smoking devices.

Your Committee has amended this measure by:

- (1) Inserting a savings clause;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 380, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 380, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, 1 (Kong). Excused, 1 (Lowen).

SCRep. 121 Consumer Protection & Commerce on H.B. No. 1433

The purpose of this measure is to:

- (1) For a one-year pilot period beginning on February 5, 2026:
 - (A) Modify the notice requirements when terminating a rental agreement on or after February 5, 2026;
 - (B) Require tenants and landlords to engage in mediation and delay filing an action for summary possession if a tenant schedules or attempts to schedule mediation; and
 - (C) Require landlords to provide specific information to tenants; and
- (2) Appropriate funds for the Judiciary to contract for mediation services.

Your Committee received testimony in support of this measure from the Judiciary; Mediation Center of the Pacific; and nine individuals. Your Committee received comments on this measure from the Hawai'i Association of REALTORS.

Your Committee finds that Act 57, Session Laws of Hawaii 2021 (Act 57), established a temporary Pre-Litigation Mediation Program to address the potential high volume of evictions as a result of the COVID-19 pandemic. Through the program, mediation assisted many low-income renters to avoid eviction or allowed a negotiated move-out that avoided further judicial proceedings and judgments, while also ensuring that landlords received their payments. The Program succeeded in mediating agreements for eighty-five percent of disputes, allowing tenants to remain in their residences and providing stability to their housing situation.

Your Committee further finds that even after the expiration of Act 57, mediation has shown to be an effective tool in amicably resolving eviction disputes. After the expiration of Act 57, the Mediation Center of the Pacific continued to offer mediation services for eviction disputes. The Center mediated ninety-six early eviction cases with ninety percent resulting in final agreements, which includes payment plans or providing tenants with more time to find alternative living arrangements. This measure will reimplement some of the successful provisions of Act 57 by requiring mediation between tenants and landlords to prevent evictions, thereby allowing families to remain in stable housing and children to continue to attend their community schools and maintain their social connections.

Your Committee has amended this measure by:

- (1) Changing the length of time for which a landlord must delay the filing of a suit for summary possession when mediation is scheduled and a tenant participates, from twenty days to an unspecified number of days;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1433, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1433, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, 1 (Pierick). Excused, 1 (Lowen).

SCRep. 122 Economic Development & Technology on H.B. No. 438

The purpose of this measure is to establish the Due Process in Immigration Proceedings Program within the Judiciary to provide legal representation to individuals in immigration-related proceedings in immigration court.

Your Committee received testimony in support of this measure from the Office of the Public Defender; one member of the Hawai'i County Council; one member of the Honolulu City Council; IATSE Local 665; UNITE HERE Local 5; Indivisible Hawaii; Refugee & Immigration Law Clinic; Hawai'i Coalition for Immigrant Rights; The Legal Clinic; League of Women Voters of Hawaii; North Hawaii Community Action Network; Hawaii Government Employees Association; AFSCME Local 152; AFL-CIO; HCANSpeaks!; COFACAN; Oahu Filipino Community Council; Hawaii Friends of Civil Rights; Filipino Chamber of Commerce of Hawaii; Roots Reborn; Hawai'i Democratic Party; Hawaii State AFL-CIO; Fujiwara & Rosenbaum, LLC; Catholic Charities Hawai'i; Imua Alliance; Democratic Party of Hawai'i Education Caucus; ACLU Hawai'i; A.L.O.H.A. Latinos; Hawai'i Workers Center; and numerous individuals. Your Committee received testimony in opposition to this measure from Hawaiian Islands Republican Women and numerous individuals. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that the State should ensure that all Hawaii residents, regardless of citizenship status, have certain due process protections. Your Committee further finds that many individuals facing deportation or other immigration-related proceedings lack legal representation. This measure addresses this need by establishing a Due Process in Immigration Proceedings Program to provide representation to individuals in immigration-related proceedings.

Your Committee has amended this measure by:

- (1) Clarifying that the Judiciary shall administer funding to entities contracted to implement and operate the program, rather than administer it directly;
- (2) Adding a requirement that entities contracted to implement and operate the program partner with the University of Hawaii at Manoa William S. Richardson School of Law; and

(3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider the appropriation amount of \$750,000 for the Due Process in Immigration Proceedings Program.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 438, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 438, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 123 Economic Development & Technology on H.B. No. 73

The purpose of this measure is to prohibit:

- (1) The Department of Land and Natural Resources and Board of Land and Natural Resources from disposing of or approving the use or setting aside of public lands for the establishment of any immigration detention facility; and
- (2) State and county agencies from contracting with the federal government or processing any permit for this purpose.

Your Committee received testimony in support of this measure from the Office of the Public Defender; one member of the Hawai'i County Council; one member of the Honolulu City Council; IATSE Local 665; UNITE HERE Local 5; Hawai'i Coalition for Immigrant Rights; The Legal Clinic; Indivisible Hawaii; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; HCANSpeaks!; COFACAN; Hawaii Friends of Civil Rights; Oahu Filipino Community Council; Filipino Chamber of Commerce of Hawaii; Roots Reborn; Hawaii Democratic Party; Hawaii State AFL-CIO; Catholic Charities Hawai'i; Imua Alliance; Democratic Party of Hawai'i Education Caucus; A.L.O.H.A. Latinos; Hawai'i Workers Center; Fujiwara & Rosenbaum, LLC; and numerous individuals. Your Committee received testimony in opposition to this measure from Hawaiian Islands Republican Women and numerous individuals.

Your Committee finds that using state lands for immigration detention facilities contradicts Hawaii's values of welcoming all people regardless of immigration status and diverts critical resources away from affordable housing, sustainable development, and infrastructure improvements. This measure prohibits use or setting aside of public lands, contracting with the federal government, or processing of a permit for the purpose of establishing immigration detention facilities.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 73 and recommends that it pass Second Reading and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 124 Water & Land on H.B. No. 915

The purpose of this measure is to:

- (1) Authorize the Board of Agriculture to investigate and survey the availability of non-potable water;
- (2) Authorize the Commission on Water Resource Management to require the use of dual line water supply systems in new residential and mixed-used developments located in designated water management areas; and
- (3) Include residential and mixed-use developments in irrigation projects under certain conditions.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual. Your Committee received testimony in opposition to this measure from the Department of Agriculture. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that authorizing the Commission on Water Resource Management to require dual line water supply systems in new residential and mixed-use developments as a condition for issuing permits in designated water management areas will better assist the State in its water conservation goals while ensuring the health and safety of its people.

Your Committee has amended this measure by:

- (1) Requiring the designation of a recycled water manager as part of the permitting process for irrigation of a single-family residential home;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes the concern raised by the Department of Agriculture in testimony that by including residential and mixed-use developments in irrigation projects, this measure would require the Department's irrigation program, which provides irrigation water to commercial-scale farms, to provide services for which it was never intended and use resources it does not currently have. As such, your Committee respectfully requests your Committee on Agriculture & Food systems, should it deliberate on this measure, to consider whether the Department of Agriculture is the appropriate department to operate and maintain residential and mixed-use developments in irrigation projects or whether, as the Department suggests, county departments of water supply or public works may be more suitable.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 915, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 915, H.D. 1, and be referred to your Committee on Agriculture & Food Systems.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Shimizu). Noes, none. Excused, 1 (Woodson).

SCRep. 125 Water & Land on H.B. No. 818

The purpose of this measure is to establish the Waiakea Peninsula Community Development District and transfer lands and leases within the Waiakea Peninsula Community Development District from the Department of Land and Natural Resources to the Hawaii Community Development Authority.

Your Committee received testimony in support of this measure from the Mayor of the County of Hawai'i; Planning Department of the County of Hawai'i; Hawaii Community Development Authority; and two individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources and Department of Budget and Finance.

Your Committee finds that the Waiakea Peninsula is located near Hilo town and the cruise ship terminal. Your Committee further finds that aging infrastructure, underutilized spaces, and ongoing security concerns have hindered the area's ability to thrive. Your Committee believes that establishing a Waiakea Peninsula Community Development District will renew and revitalize the area and provide residents and visitors with much needed recreational, educational, and entertainment facilities.

Your Committee has amended this measure by:

- (1) Deleting language that would have transferred lands and leases within the Waiakea Peninsula Community Development District from the Department of Land and Natural Resources to the Hawaii Community Development Authority;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 818, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 818, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Shimizu). Noes, none. Excused, 1 (Woodson).

SCRep. 126 Water & Land on H.B. No. 1494

The purpose of this measure is to:

- (1) Lapse appropriations of general obligation bond funds previously authorized for the planning, design, and construction of a stadium in Halawa by the Stadium Authority;
- (2) Authorize the issuance of general obligation bonds for a new stadium on the University of Hawai'i at Mānoa campus; and
- (3) Rename the Stadium Authority and Stadium Development District as the Halawa Redevelopment Authority and Halawa Redevelopment District, respectively.

Your Committee received testimony in opposition to this measure from the Department of Business, Economic Development, and Tourism; Department of Accounting and General Services; Aloha Stadium; and Stanford Carr Development. Your Committee received comments on this measure from the University of Hawai'i System.

Your Committee finds that the New Aloha Stadium and Entertainment District project has reached a critical milestone and has recently finalized selection of a proposed developer and is negotiating for a development agreement to begin the project. Your Committee further finds that relocating the site of the new stadium to the University of Hawai'i at Mānoa campus would unnecessarily delay the construction of a new stadium, as a new environmental impact statement would need to be completed and the new location would face significant additional costs to meet the engineering requirements for the construction of a stadium that would likely be unable to support the community expectations for a new stadium.

Accordingly, your Committee has amended this measure by:

- (1) Changing the location of the new stadium to an unspecified location;
- (2) Authorizing the Halawa Redevelopment Authority, rather than the University of Hawaii, to expend any funds from a general obligation bond issued pursuant to this measure;
- (3) Reverting to existing statutory language to allow the Halawa Redevelopment Authority to develop, construct, and manage a new stadium;
- (4) Authorizing the Halawa Development Authority to sell the naming rights to a stadium located within the Halawa Development District and operated by the Authority;
- (5) Allowing the Halawa Redevelopment Special Fund to accept donations from private parties and the sale of naming rights;
- (6) Allowing the display of the name of a private entity who has purchased the naming rights to a stadium located in the Halawa Redevelopment District and operated by the Halawa Redevelopment Authority along the exterior of the stadium;
- (7) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Higher Education, should it choose to deliberate on this measure, to consider an appropriate location for the stadium.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1494, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1494, H.D. 1, and be referred to your Committee on Higher Education.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Iwamoto). Noes, none. Excused, 1 (Woodson).

SCRep. 127 Tourism on H.B. No. 594

The purpose of this measure is to:

- (1) Require hotelkeepers to provide adequate notice of service disruptions to guests and third-party vendors under certain conditions; and
- (2) Allow for recovery of damages.

Your Committee received testimony in support of this measure from UNITE HERE Local 5. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that this measure would protect consumers and help Hawaii maintain a positive image even among visitors who face hotel service disruptions during their stays.

Your Committee has amended this measure by:

- (1) Adding a preamble;
- (2) Clarifying the conditions under which a hotelkeeper must provide notification to consumers of service disruptions;
- (3) Specifying that regardless of whether the hotelkeeper provides the required notice, a consumer may terminate any remaining period of a reservation, booking, or agreement for the use of a room or hotel service without being assessed a fee, penalty, or other charge or forfeiting certain deposits;
- (4) Modifying the amount of damages that a hotelkeeper must pay to an injured consumer;
- (5) Allowing a private right of action by an injured consumer;
- (6) Amending the definition of "service disruption";
- (7) Adding a provision that protects against the impairment of contracts;
- (8) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 594, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 594, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 128 Tourism on H.B. No. 973

The purpose of this measure is to require transient accommodations brokers and any other persons or entities to:

- (1) Offer, list, advertise, or display a transient accommodations rental rate that includes all resort fees required for the furnishing of transient accommodations; and
- (2) Include all applicable taxes and fees imposed by a government on the stay in the total price to be paid before a consumer reserves the furnishing of transient accommodations.

Your Committee received testimony in support of this measure from the Hawai'i Hotel Alliance and American Hotel & Lodging Association. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that the establishment of a single standard for a mandatory display of fees across the tourism ecosystem's entirety--from hotels, motels, and short-term rental accommodations to online travel agencies, metasearch sites, and short-term rental platforms--would prevent consumers from being misled and ensure a level playing field across the tourism industry.

Your Committee has amended this measure by:

- (1) Removing the requirement that only if transient accommodations brokers and all other persons or entities knew or should have known that they offered, listed, advertised, or displayed a transient accommodations rental rate in violation of this measure would they be subject to civil penalties;
- (2) Changing its effective date to January 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 973, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 973, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 129 Tourism/Housing on H.B. No. 604

The purpose of this measure is to increase transient accommodations tax rates by one percent, beginning on January 1, 2026, and deposit the increased revenues into the Hawaiian Home General Loan Fund established under the Hawaiian Homes Commission Act, 1920, as amended.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands. Your Committees received testimony in opposition to this measure from the Grassroot Institute of Hawaii. Your Committees received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committees find that increasing the transient accommodations tax rate by one percent would aid the Department of Hawaiian Home Lands in addressing its extensive waiting list of applicants through a source of funds that is not currently available to the Department.

Your Committees have amended this measure by changing its effective date to July 1, 3000, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Tourism and Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 604, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 604, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.

Tourism: Ayes, 7; Ayes with Reservations (Matsumoto). Noes, none. Excused, none.

Housing: Ayes, 5. Noes, 1 (Muraoka). Excused, 3 (Cochran, La Chica, Pierick).

SCRep. 130 Labor on H.B. No. 806

The purpose of this measure is to appropriate funds to the Honolulu Police Department and Department of Law Enforcement to conduct sting operations on Oahu to enforce fireworks ordinances or laws. This measure also authorizes a court to order the forfeiture of one-half of any pension of an Employees' Retirement System member, former member, or retiree upon conviction of the individual for a felony related to certain uses of prohibited fireworks.

Your Committee received testimony in support of this measure from the Department of Law Enforcement and four individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and United Public Workers, AFSCME Local 646, AFL-CIO. Your Committee received comments on this measure from two individuals.

Your Committee finds that the State's communities deserve to live in peace and security without the widespread use of illegal fireworks that pose an extreme danger and lethal risk to public health and safety. Your Committee believes this measure is an effective approach in deterring the use of illegal fireworks by using intelligence-led policing and criminal surveillance of illegal fireworks.

Your Committee has amended this measure by:

- (1) Deleting language which would have authorized a court to order the forfeiture of one-half of any pension of an Employees' Retirement System member, former member, or retirant upon conviction of the individual for a felony related to certain uses of prohibited fireworks;
- (2) Removing the appropriation to the Honolulu Police Department;
- (3) Changing the appropriation to the Department of Law Enforcement to an unspecified amount;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$1,000,000 for fiscal year 2025-2026 and \$1,000,000 for fiscal year 2026-2027.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 806, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 806, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 131 Labor on H.B. No. 864

The purpose of this measure is to allow newly graduated former students to be eligible for the State's workers' compensation coverage during the summer following their high school graduation while participating in work-based learning programs sponsored by the Department of Education.

Your Committee received testimony in support of this measure from the Department of Education and Maui Chamber of Commerce.

Your Committee finds that a recent high school graduate is no longer considered a student for purposes of workers' compensation coverage while participating in a Department of Education-sponsored work-based learning opportunity during the summer following graduation. Your Committee further finds that employers and organizations of these department-sponsored programs incur the additional cost to cover these individuals under their workers' compensation liability and therefore, may be hesitant in hiring these recent graduates. Your Committee believes this measure supports the participation of newly graduated high school students in Department of Education-sponsored work-based learning programs by including these individuals in the State's workers' compensation coverage during the summer following their high school graduation.

Your Committee amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 864, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 864, H.D. 1, and be referred to your Committee on Education.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 132 Labor on H.B. No. 1183

The purpose of this measure is to include certain law enforcement administrators and employees of the Department of Law Enforcement as Class A members in the Employees' Retirement System.

Your Committee received testimony in support of this measure from the Department of Law Enforcement. Your Committee received testimony in opposition to this measure from the Department of Budget and Finance. Your Committee received comments on this measure from the Employees' Retirement System.

Your Committee finds that it is important to have equitable retirement benefits for service members within the Department of Law Enforcement. Your Committee further finds that when a Class A service member is appointed as Director, Deputy Director, Sheriff, or investigator in the Department of Law Enforcement, they no longer qualify as Class A members and must forfeit the benefit of receiving 2.5 percent of their average final compensation for pension that other Class A members in the Department of Law Enforcement are entitled to. Your Committee believes that this measure ensures equitable retirement benefits in the Department of Law Enforcement by including these positions as Class A members in the Employees' Retirement System.

Your Committee amended this measure by:

- (1) Requiring these positions in the Department of Law Enforcement to contribute 14.2 percent of their compensation to the annuity savings fund;
- (2) Removing language that would have required members to have at least five years of service as Class A members prior to being appointed to one of these positions to qualify as Class A members under this measure;
- (3) Adding language to these positions in statute for the purpose of assessing the employer's accrued liability contributions;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1183, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1183, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 133 Labor on H.B. No. 1182

The purpose of this measure is to authorize the Public Utilities Commission to establish preferential rates for the purchase of renewable energy from facilities that utilize labor paid at prevailing wages.

Your Committee received testimony in support of this measure from the Hawai'i State Energy Office and Hawaii Clean Power Alliance. Your Committee received testimony in opposition to this measure from Hawaiian Electric. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Public Utilities Commission.

Your Committee finds that providing tax incentives for large-scale renewable energy facilities can support the State in achieving its clean energy goal of having a one hundred percent renewable portfolio standard by 2045. Your Committee further finds that growing the workforce and developing career pathways in this industry can help support a clean energy economy. Your Committee believes that this measure supports the State's clean energy goals by authorizing the Public Utilities Commission to establish preferential rates for the purchase of renewable energy from facilities that meet certain prevailing wage requirements, as an incentive to support these facilities. Your Committee does note that there are some concerns about whether this measure would increase prices for rate payers.

Your Committee amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Consumer Protection & Commerce, should it deliberate on this measure, to consider issues raised by the Public Utilities Commission in its testimony on:

- (1) Whether renewable energy facilities that pay prevailing wages to out-of-state workers would be entitled to preferential rates under this measure; and
- (2) The ambiguity of whether the preferential rates contemplated in this measure benefit the consumer or the producer of electricity.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1182, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1182, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Kapela). Noes, 2 (Kong, Reyes Oda). Excused, none.

SCRep. 134 Housing on H.B. No. 286

The purpose of this measure is to increase the maximum annual deduction for contributions to, and maximum account levels for, individual housing accounts.

Your Committee received testimony in support of this measure from the Maui Chamber of Commerce and numerous individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that as the cost of housing increases, the State must continue to assist residents in finding methods of increasing options for homeownership. Saving for a down payment on a home loan continues to be a barrier for many Hawaii residents, as there are limited numbers of programs available to assist in this endeavor. This measure increases the contribution levels and maximum account levels for individual housing accounts to better reflect current housing prices and further encourage prospective first-time homeowners to save for a down payment and closing costs.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 286, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 286, H.D. 1, and be referred to your Committee on Economic Development & Technology.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 135 Housing on H.B. No. 949

The purpose of this measure is to:

- (1) Clarify that a partner or member that is a partnership or limited liability company that has been allocated a Low-Income Housing Tax Credit may either further allocate the credit or transfer, sell, or assign all or a portion of the credit to any taxpayer; and
- (2) Extend the sunset date of Act 129, Session Laws of Hawaii 2016, relating to the Low-Income Housing Tax Credit.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Mark Development, Inc.; EAH Housing; Ahe Group LLC; NAIOP Hawaii; Central Pacific Bank; and Kobayashi Group. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the expansion of the Low-Income Housing Tax Credit program is vital to addressing the ongoing shortage of affordable housing in the State. Your Committee believes that expanding the pool of investors for state tax credits will enhance the ability of affordable housing developers to raise equity efficiently, thereby leading to faster project funding, less reliance on other financing sources, and enhanced affordability for residents.

Your Committee has amended this measure by:

- (1) Specifying the timeframe for reporting the transfer, sale, or assignment of the credit to the Department of Taxation; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee notes the request by the Department of Taxation to have this measure apply to taxable years beginning after December 31, 2025, rather than taxable years beginning after December 31, 2024, to provide sufficient time for the Department to implement the changes proposed by this measure.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 949, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 949, H.D. 1, and be referred to your Committee on Economic Development & Technology.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 136 Housing on H.B. No. 1325

The purpose of this measure is to require developers developing affordable housing projects under the Hawaii Housing Development and Finance Corporation completed with state or federal funds that result in the eviction or displacement of tenants in existing rental properties to:

- (1) Grant certain persons displaced or evicted by the proposed affordable housing project the right of first refusal of a comparable unit in the housing project at an affordable rate;
- (2) Establish a fund to provide relocation benefits to displaced or evicted tenants;
- (3) Provide information, either directly or through a contracted service, on how to obtain assistance and exercise the right of first refusal; and
- (4) Establish procedures to maintain communication with displaced and evicted tenants.

Your Committee received testimony in support of this measure from Tagnawa; Hawai'i Workers Center; Hawai'i YIMBY; Hawaii Appleseed Center for Law & Economic Justice; Medical-Legal Partnership for Children in Hawai'i; and numerous individuals. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation and one individual.

Your Committee finds that efforts to increase affordable housing production have inadvertently led to the displacement of vulnerable tenants, disrupting their social networks and economic stability. Your Committee further finds that residential instability resulting from displacement is linked to negative health and social outcomes, particularly for children and youth. Your Committee believes that it is imperative to balance the development of affordable housing with measures to protect displaced and evicted tenants to ensure their continued access to stable, affordable housing.

Your Committee has amended this measure by:

- (1) Requiring a developer of a proposed housing project to either offer the displaced or evicted tenant the right of first refusal for a comparable unit in the proposed housing project or establish a fund and create a relocation program to provide relocation benefits;
- (2) Specifying that if a developer chooses to provide relocation benefits, a displaced or evicted tenant may choose to receive either three separate payments with each payment equal to no less than one month's rent in a comparable unit or a lump sum equal to no less than three months' rent;
- (3) Clarifying communication requirements between developers and displaced or evicted tenants;
- (4) Clarifying that federal regulations for federal programs for affordable housing that offer greater tenant relocation payment and assistance control;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1325, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1325, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 137 Housing on H.B. No. 1409

The purpose of this measure is to:

- (1) Define transit-oriented development for purposes of state implementation of transit-oriented development;
- (2) Incentivize development in county-designated transit-oriented development areas; and
- (3) Allocate a minimum percentage of the Rental Housing Revolving Fund for certain mixed-income rental housing projects or units.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Office of Planning and Sustainable Development; Hawaii Appleseed Center for Law & Economic Justice; Hawai'i YIMBY; Grassroot Institute of Hawaii; Holomua Collaborative; and Housing Hawai'i's Future. Your Committee received comments on this measure from the Department of Planning and Permitting of the City and County of Honolulu and one individual.

Your Committee finds that the State's housing crisis is exacerbated by a significant demand-supply imbalance, particularly in urban areas. Your Committee further finds that transit-oriented development offers a critical solution by promoting higher-density housing near public transit. Transit-oriented development not only enhances public transit ridership and reduces greenhouse gas emissions, but also supports economic equity by improving access to housing, employment, and essential services for low- and moderate-income households. This measure encourages strategic investment in regional infrastructure and the removal of restrictive development standards that will foster vibrant, walkable communities and reduce the urban sprawl.

Your Committee has amended this measure by:

- (1) Deleting language that would have required development in a county-designated transit-oriented development zone to have priority for financing under certain circumstances and instead including these requirements under the definition of "transit-supportive density";
- (2) Clarifying the types of mixed-income rental projects in an area that satisfies transit-supportive density requirements that receive prioritized funding from the Rental Housing Revolving Fund;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1409, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1409, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, 1 (Pierick). Excused, 1 (Cochran).

SCRep. 138 Housing on H.B. No. 1317

The purpose of this measure is to:

- (1) Establish a Workforce Housing Regulatory Sandbox Program within the Hawaii Housing Finance and Development Corporation to expedite permitting and regulatory requirements for workforce housing projects; and
- (2) Establish an advisory council within the Workforce Housing Regulatory Sandbox Program to provide guidance and oversight.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and Hawaii Chamber of Commerce.

Your Committee finds that the State continues to face a severe housing shortage, with a critical need for workforce housing to support the State's economy and provide affordable living options for essential workers. Your Committee further finds that despite efforts to streamline permitting and increase land availability, bureaucratic challenges have hindered progress. Your Committee believes that a regulatory sandbox offers a pathway to foster innovative housing solutions and accelerate the development of workforce housing throughout the State.

Your Committee has amended this measure by:

- (1) Specifying that notwithstanding any other law, rule, ordinance, or code to the contrary, the Workforce Housing Regulatory Sandbox Program (Program) is vested with the authority to waive or temporarily modify permitting processes and other regulatory requirements for eligible workforce housing projects;
- (2) Modifying the membership of the Workforce Housing Regulatory Sandbox Program Advisory Council, including adding the following:
 - (A) The Director of the Office of Planning and Sustainable Development, who shall serve as the Chairperson;
 - (B) Each director of a county department of planning or department of planning and permitting, as applicable; and
 - (C) Each director of a county department of public works or department of facility maintenance, as applicable;
- (3) Clarifying that one adult in each household participating in the Program shall work an average of thirty hours or more per week at a business operating in the State;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1317, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1317, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.
Ayes, 6; Ayes with Reservations (Grandinetti). Noes, 2 (Muraoka, Pierick). Excused, 1 (Cochran).

SCRep. 139 Housing on H.B. No. 916

The purpose of this measure is to:

- (1) Allow tax credits claimed under the state Low-Income Housing Tax Credit Program to be used to offset taxes imposed by the state transient accommodations tax law in the county where the qualified low-income building is located; and
- (2) Make permanent Act 129, Session Laws of Hawaii 2016, relating to the State Low-Income Housing Tax Credit.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and Maui Chamber of Commerce. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that this measure significantly expands the pool of investors by allowing affordable housing developers and project partners to attract contributions from entities with transient accommodations tax obligations, not just income tax liabilities. This broader investor base would enhance the ability of affordable housing developers to raise equity efficiently. Increased investor participation can lead to faster project funding, less reliance on other financing sources, and enhanced affordability for residents. This measure also makes the State Low-Income Housing Tax Credit more attractive to businesses, which can further the State's goal of building more low-income housing.

Your Committee has amended this measure by:

- (1) Clarifying that under the transient accommodations tax law, the Low-Income Housing Tax Credit may be utilized toward a taxpayer's transient accommodations tax liability;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

Your Committee notes the request by the Department of Taxation to have this measure be applicable to taxable years beginning after December 31, 2026, rather than taxable years beginning after December 31, 2025, to provide sufficient time for the Department to implement the changes proposed by this measure.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 916, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 916, H.D. 1, and be referred to your Committees on Tourism and Economic Development & Technology.

Signed by the Chair on behalf of the Committee.
Ayes, 8; Ayes with Reservations (Muraoka). Noes, none. Excused, 1 (Cochran).

SCRep. 140 Housing on H.B. No. 1451

The purpose of this measure is to establish the Affordable Housing Land Inventory Task Force within the Hawaii Community Development Authority to update the Affordable Rental Housing Report and Ten-Year Plan maps, tier tables, and inventories of state lands suitable and available for affordable housing development.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority and Hawaii Housing Finance and Development Corporation. Your Committee received comments on this measure from the Hawai'i Community Development Authority and Office of Planning and Sustainable Development.

Your Committee finds that Hawaii is facing a severe shortage of affordable housing, exacerbated by rising demand and limited land availability for new development. With the growing population and increasing housing costs, there is an urgent need to identify and utilize existing state-owned lands for affordable housing projects. This measure will focus on updating land inventories and identifying suitable lands for development, which will be a helpful tool for the development of new affordable housing inventory throughout the State.

Your Committee has amended this measure by:

- (1) Removing as unnecessary a reference to the State Ethics Code, as the State Ethics Commission's longstanding practice is to exclude the activities of provisions of the Code;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1451, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1451, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 2 (Muraoka, Pierick). Excused, 1 (Cochran).

SCRep. 141 Housing on H.B. No. 1298

The purpose of this measure is to:

- (1) Require the Hawaii Housing Finance and Development Corporation to establish a Government Employee Housing Revolving Fund Program and Government Employee Ninety-Nine Year Leasehold Rent-to-Own Program; and
- (2) Establish the Government Employee Housing Revolving Fund.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; United Public Workers, AFSCME Local 646, AFL-CIO; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committee received comments on this measure from the Department of Budget and Finance and Tax Foundation of Hawaii.

Your Committee finds that there is a critical need to attract and retain State and County employees. Your Committee further finds that rising costs of housing has become a significant barrier to workforce stability, forcing many residents to leave the State in search of more affordable housing opportunities. Your Committee believes that providing affordable housing opportunities on state owned land, particularly in transit-oriented development areas, will enhance the quality of life of government employees, attract qualified candidates, and support the State's broader goals of sustainable growth.

Your Committee has amended this measure by:

- (1) Clarifying that the Government Employee Housing Revolving Fund (Revolving Fund) shall be used to provide interim and permanent loans and grants;
- (2) Specifying that sixty percent of available units funded with monies from the Revolving Fund, rather than all, shall be for persons and families with incomes at or below one hundred forty percent of the area median income;
- (3) Specifying that state departments and agencies, instead of nonprofit organizations, are eligible applicants for funding under the Government Employee Housing Revolving Fund Program;
- (4) Authorizing, rather than requiring, the Hawaii Housing Finance and Development Corporation to credit a portion of rent toward the purchase of a unit under the Government Employee Ninety-Nine Year Lease hold Rent-to-Own Program;
- (5) Exempting, rather than subjecting, design and development contracts for residential condominium units within a transit-oriented development site and construction contracts from the State Procurement Code;
- (6) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that in its testimony, the Hawaii Housing Finance and Development Corporation requested \$450,000 out of the Dwelling Unit Revolving Fund for the establishment of two full time equivalent (2.00 FTE) to administer the programs established by this measure.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1298, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1298, H.D. 1, and be referred to your Committee on Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 2 (Muraoka, Pierick). Excused, 1 (Cochran).

SCRep. 142 Housing/Transportation on H.B. No. 157

The purpose of this measure is to:

- (1) Require the Hawaii Housing Finance and Development Corporation to transfer the public roads of the Villages of Kapolei to the City and County of Honolulu by January 1, 2026; and
- (2) Authorize county police officers to enforce the statewide traffic code on all public streets, roadways, and highways within the State.

Your Committees received testimony in support of this measure from the Office of the Mayor of the City and County of Honolulu; one member of the Honolulu City Council; Villages of Kapolei Association; and four individuals. Your Committees received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committees find that the transfer of roads within the Villages of Kapolei to the City and County of Honolulu have been delayed for years due to the City and County of Honolulu establishing certain requirements to accept the dedication of the roads. This delay has left many residents of the Villages of

Kapolei uncertain regarding who is responsible for maintenance, repairs, and overall infrastructure management. This measure will resolve a decades old problem for residents of the Villages of Kapolei by requiring the public roads to be transferred no later than January 1, 2026.

Your Committees have requested a formal opinion from the Department of the Attorney General seeking advice on the legality of requiring the City and County of Honolulu to accept the terms of the transfer. Your Committees will continue to work with stakeholders to address any potential legal concerns as this measure moves through the legislative process.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Housing and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 157, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 157, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 7. Noes, none. Excused, 2 (Cochran, La Chica).

Transportation: Ayes, 7. Noes, none. Excused, 2 (Cochran, La Chica).

SCRep. 143 Water & Land on H.B. No. 1316

The purpose of this measure is to require the registration and numbering of rental watercraft before they are provided or offered to the public for transiting the navigable waters of a state park.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Outfitters Kauai Ltd; Kayak Adventures Inc; and two individuals.

Your Committee finds that there is a robust market of rental kayaks and stand-up paddleboards serving the visitor industry across the State. Your Committee further finds that visitors often enjoy kayaking and stand-up paddleboarding on the navigable waters in the Wailua River State Park on Kauai, Kealahou Bay State Historic Park on Hawaii island, and Ahupuaa O Kahana State Park on Oahu, which are the only state parks with navigable waters. However, the use of these rental kayaks and stand-up paddleboards, particularly for rented kayaks and stand-up paddleboards that are rented from vendors outside of the park boundaries, can create overuse of these waterways, leading to conflicts with local resident users. Your Committee believes that instituting a permitting process for rented water vessels will reduce these conflicts and ensure visitors and residents are able to enjoy the State's natural resources.

Your Committee has amended this measure by:

- (1) Replacing the word "watercraft" with "vessel" to better align with existing regulations;
- (2) Authorizing the Department of Land and Natural Resources to adopt rules to establish conditions of use for rental vessels;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1316, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1316, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 1 (Woodson).

SCRep. 144 Water & Land on H.B. No. 1007

The purpose of this measure is to streamline transit-oriented development infrastructure improvements by making Chapter 206E, Part X, Hawaii Revised Statutes, relating to transient-oriented development infrastructure improvements, a program under the Hawaii Community Development Authority, rather than districts to be overseen by a board.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Office of Planning and Sustainable Development; and Hawaii Community Development Authority.

Your Committee finds that the transit-oriented development infrastructure improvement districts established by Act 184, Session Laws of Hawaii 2022 (Act 184), could be more efficiently administered and managed. Your Committee further finds that Act 184 contemplated these districts would be overseen by boards established within each county. However, to date these boards have not been constituted. Your Committee believes that repealing the transit-oriented infrastructure improvement districts and boards and reconstituting them as a program under the Hawaii Community Development Authority will allow for greater collaboration with private entities and federal, state, and county agencies to complete community development plans for the betterment of the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Judiciary & Hawaiian Affairs, should it deliberate on this measure, to request the Hawaii Community Development Authority to expand on the fiscal impact of the shift from assessments against real property owners to fees assessed against users in the improvement areas.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1007, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1007, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Iwamoto). Noes, none. Excused, 1 (Woodson).

SCRep. 145 Water & Land on H.B. No. 1132

The purpose of this measure is to make critical infrastructure information received or maintained by the Office of Homeland Security confidential, except in certain circumstances.

Your Committee received testimony in support of this measure from the Office of Information Practices. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that defining and clarifying the confidentiality protections afforded to critical infrastructure information will better enable the Office of Homeland Security to ensure the security and resiliency of the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1132, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1132, H.D. 1, and be referred to your Committee on Public Safety.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, 1 (Iwamoto). Excused, 1 (Woodson).

SCRep. 146 Water & Land on H.B. No. 299

The purpose of this measure is to appropriate funds for the Native Resources and Fire Protection Program and Hawaii Invasive Species Council to continue to control and eradicate invasive species in the State.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; Hawaii Invasive Species Council; Coordinating Group on Alien Pest Species; Sierra Club of Hawai'i; Kupuna for the Moopuna; Green Party of Hawai'i; Environmental Caucus of the Democratic Party of Hawai'i; Kua'āina Ulu 'Auamo; Hawai'i Farm Bureau; Hawai'i Farmers Union; Kauai Invasive Species Committee; and numerous individuals.

Your Committee finds that the Hawaii Invasive Species Council was created in 2003 to provide statewide coordination and direction in addressing invasive species. Your Committee further finds that appropriations to the Council are primarily used to provide funding through a competitive grant process to partner organizations dedicated to controlling targeted pests in Hawaii. Your Committee believes that providing additional funds to the Council will enable the State to enhance its existing biosecurity measures and allow partner organizations to move from containment to eradication of invasive species where possible.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$4,250,000.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 299, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 299, H.D. 1, and be referred to your Committee on Agriculture & Food Systems.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 1 (Woodson).

SCRep. 147 Higher Education on H.B. No. 223

The purpose of this measure is to establish a pharmacist workforce assessment fee and the Daniel K. Inouye College of Pharmacy Special Fund to fund activities of the Daniel K. Inouye College of Pharmacy to support pharmacist workforce assessment and planning efforts.

Your Committee received testimony in support of this measure from the University of Hawai'i at Hilo; Hawai'i Pharmacists Association; Moloka'i Drugs, Inc.; and five individuals. Your Committee received comments on this measure from the Department of Budget and Finance; Board of Pharmacy; and Tax Foundation of Hawaii.

Your Committee finds that there is a need to support the Daniel K. Inouye College of Pharmacy to ensure the quality of health care and improve access to care for the people of Hawaii. Providing additional resources through a workforce assessment will help the College to proactively address issues of Hawaii's current health care crisis and leverage pharmacists to fill gaps in care related to medication management.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 223, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 223, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 148 Higher Education on H.B. No. 546

The purpose of this measure is to establish and appropriate funds for an artificial intelligence institute within the University of Hawaii to develop, support, and advance artificial intelligence initiatives statewide.

Your Committee received testimony in support of this measure from the University of Hawai'i System and University of Hawaii Professional Assembly. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that artificial intelligence technologies are rapidly transforming industries and societies globally by enabling machines and computers to simulate human learning, comprehension, problem solving, decision making, creativity, and autonomy. Your Committee further finds that the University of Hawaii has the unique capacity to draw upon its academic disciplines, research strengths, and professional programs to serve as the hub for artificial

intelligence development in the State. Your Committee recognizes the importance of artificial intelligence to the State and believes that funding an institute dedicated to research, governance and ethics, development, and applications of artificial intelligence and related technologies is in the public interest and will be of great benefit to Hawaii.

Your Committee has amended this measure by:

- (1) Changing the amounts appropriated and amount of positions to be funded to unspecified amounts; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Finance, should it choose to deliberate on this measure, to consider appropriating funds, as follows:

- (1) \$2,000,000 for fiscal year 2025-2026 to establish faculty of practice and administrative professional technical positions within the Aloha Intelligence Institute and to develop, support, and advance artificial intelligence initiatives statewide, as follows:
 - (A) \$1,500,000 for ten full-time equivalent (10.0 FTE) permanent positions; and
 - (B) \$500,000 for seven full-time equivalent (7.0 FTE) non-recurring positions and start-up expenses; and
- (2) \$2,000,000 for fiscal year 2026-2027 to establish faculty of practice and administrative professional technical positions within the Aloha Intelligence Institute and to develop, support, and advance artificial intelligence initiatives statewide, as follows:
 - (A) \$1,500,000 for ten full-time equivalent (10.0 FTE) permanent positions; and
 - (B) \$500,000 for non-recurring start-up expenses.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 546, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 546, H.D. 1, and be referred to your Committee on Economic Development & Technology.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 149 Higher Education on H.B. No. 549

The purpose of this measure is to establish and appropriate funds for an Early Learning Apprenticeship Grant Program, to be administered by the University of Hawaii, to assist publicly- or privately-run early learning program service providers participating in state- and federally-approved early learning apprenticeship programs.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; University of Hawai'i System; Department of Human Services; Early Learning Board; Executive Office on Early Learning; Department of Community Services of the City and County of Honolulu; Hawai'i Early Childhood Educator Excellence and Equity Project; Puakalehua Early Learning Consortium; Keiki O Ka Aina Family Learning Centers; American Association of University Women of Hawaii; Early Childhood Action Strategy; Keiki o Ka Aina Preschool, Inc.; Parents and Children Together; Hawai'i Children's Action Network Speaks!; Chamber of Commerce Hawaii; and numerous individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the establishment of an Early Learning Apprenticeship Grant Program will provide opportunities to support the recruitment, retention, and professional development of early learning professionals in a career field that has been experiencing a continuous shortage of qualified caregivers and staff for early learning programs.

Your Committee has amended this measure by:

- (1) Amending the preamble to declare that the establishment of an Early Learning Apprenticeship Grant Program is a matter of statewide concern;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 549, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 549, H.D. 1, and be referred to your Committee on Human Services & Homelessness.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 150 Higher Education on H.B. No. 1172

The purpose of this measure is to include the Department of Taxation to the list of state agencies sharing data through the statewide longitudinal data system. This measure also allows the Department of Taxation to share certain wage data with the University of Hawaii and other state agencies.

Your Committee received testimony in support of this measure from the Department of Taxation; University of Hawai'i System; and Hawai'i P-20 Partnerships for Education. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that data currently collected by state educational systems and workforce training agencies does not include information from certain segments of the State's workforce, including those who are self-employed. This leaves the current workforce data incomplete. Your Committee further finds that gathering data from tax filings of those who are self-employed, as provided by the Department of Taxation, will provide a more accurate analysis of Hawaii's workforce. This measure will help inform better policy while ensuring safeguards for privacy and confidentiality.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1172, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1172, H.D. 1, and be referred to your Committee on Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 151 Public Safety on H.B. No. 1059

The purpose of this measure is to convert the emergency management specialist series positions at level V and higher in the Hawaii Emergency Management Agency from civil service status to exempt status.

Your Committee received testimony in support of this measure from the Department of Defense and Hawai'i Emergency Management Agency. Your Committee received testimony in opposition to this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that there continues to be an insufficient number of Hawaii Emergency Management Agency staff and applicants to fill critically important position vacancies with trained, experienced, and qualified personnel. Your Committee further finds that exempting key positions of the Hawaii Emergency Management Agency from civil service is one way to expedite the filling of these essential positions, but that addressing the underlying administrative problem of the State's lengthy hiring timeline, increasing position pay, and offering modern and attractive recruitment and retention incentives are better alternatives to systematically address the filling of these critical vacancies.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Labor, should it choose to deliberate on this measure, to further consider the issues raised in Act 234, Session Laws of Hawaii 2024, including those regarding repricing, and further examine the barriers that impede agencies from engaging in negotiating more competitive salaries.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1059, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1059, H.D. 1, and be referred to your Committee on Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 1 (Woodson).

SCRep. 152 Culture & Arts on H.B. No. 133

The purpose of this measure is to appropriate funds to the Department of Education to support the establishment of surfing as an interscholastic sport.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Kaua'i; one member of the Kaua'i County Council; 'Iolani Surf Team; Hana High and Elementary School; Outrigger Duke Kahanamoku Foundation; Leilehua High School Surf Team; H.P. Baldwin High School; Ke Kula 'o Samuel M. Kamakau, LPCS; Kahuku High School Surf Team; Kaiser High School Surf Team/Club; Waialua High School Surf Team/Club; and numerous individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that surfing is of significant cultural, social, and economic value to the State and believes surfing should be sponsored by more of the State's athletic leagues to enable student-athletes to compete in and perpetuate the legacy of this sport through state championship events. This measure provides financial resources that may encourage more Department of Education schools to participate in the sport of surfing and ultimately encourage more athletic leagues to add surfing as a sponsored sport.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Education, should it deliberate on this measure, to consider the clarity of the cost estimate for operations per surfing competition provided by the Department of Education in written testimony and the Department's breakdown of that estimate in oral testimony.

As affirmed by the record of votes of the members of your Committee on Culture & Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 133, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 133, H.D. 1, and be referred to your Committee on Education.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Reyes Oda).

SCRep. 153 Culture & Arts on H.B. No. 450

The purpose of this measure is to:

- (1) Transfer the duties and responsibilities of the Department of Accounting and General Services relating to the State Foundation on Culture and the Arts and King Kamehameha Celebration Commission to the Department of Business, Economic Development, and Tourism; and
- (2) Transfer the authority held by the Comptroller over the Works of Art Special Fund to the Director of Business, Economic Development, and Tourism.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; and one individual. Your Committee received comments on this measure from the Department of Accounting and General Services and State Foundation on Culture and the Arts.

Your Committee finds that the mission and duties of the State Foundation on Culture and the Arts and King Kamehameha Celebration Commission align more closely with those of the Department of Business, Economic Development, and Tourism. Your Committee further finds that transferring these duties and responsibilities, along with expending authority and responsibilities relating to the Works of Art Special Fund, to the Department of Business, Economic Development, and Tourism ensures more appropriate management and support of these organizations.

Your Committee has amended this measure by:

- (1) Appropriating funds to the Department of Business, Economic Development, and Tourism for one full-time equivalent position within the Administrative Services Office to assist with the transfer;
- (2) Changing the effective date to an unspecified year, with the goal of providing two years to complete the transfers pursuant to this measure; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Culture & Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 450, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 450, H.D. 1, and be referred to your Committee on Economic Development & Technology.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Reyes Oda).

SCRep. 154 Human Services & Homelessness on H.B. No. 238

The purpose of this measure is to:

- (1) Require the Department of Human Services to establish and implement a Child Care Provider Subsidy and Bonus Program to provide subsidies to retain the existing child care workforce in licensed infant and toddler child care centers, group child care centers, and group child care homes and bonuses to registered family child care homes; and
- (2) Appropriate funds for the program, including administrative staff.

Your Committee received testimony in support of this measure from the American Association of University Women of Hawaii; Puakalehua Early Learning Consortium; Association for Infant Mental Health in Hawai'i; Early Childhood Action Strategy; Chamber of Commerce Hawaii; Hawai'i Children's Action Network Speaks!; Commit to Keiki; and two individuals. Your Committee received comments on this measure from the Department of Human Services and Executive Office on Early Learning.

Your Committee finds that a strong child care and early education workforce is essential to supporting Hawaii's children, working families, and communities. However, the demand for quality child care far exceeds the number of qualified professionals available, making it difficult to maintain and expand affordable child care programs. This measure establishes a Child Care Provider Subsidy and Bonus Program to ensure fair compensation, improve retention, and strengthen the early education workforce, ultimately benefiting families and children across the State.

Your Committee notes the request by the Department of Human Services, in its testimony before your Committee, for an effective date of January 31, 2026, or later, to have sufficient time to establish and implement the Child Care Provider Subsidy and Bonus Program.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 238, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 238, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 155 Human Services & Homelessness/Health on H.B. No. 1131

The purpose of this measure is to establish and appropriate funds for a pilot program in the Department of Health to provide intensive mobile treatment-type services to chronically houseless individuals suffering from serious brain disorders, including but not limited to schizophrenia and schizoaffective disorder.

Your Committees received testimony in support of this measure from the Department of Health; Hawai'i Primary Care Association; Hawai'i Health & Harm Reduction Center; Hawaii Substance Abuse Coalition; Hawaii Medical Association; and two individuals.

Your Committees find that houseless individuals with serious brain disorders may resist services due to co-morbid medical conditions or a lack of trust in those seeking to assist them. It is therefore critical to provide outreach services for these individuals by building engagement, rapport, and trust using highly specialized skills and training. This measure provides intensive mobile treatment-type services to chronically houseless individuals suffering from serious brain disorders, including schizophrenia or schizoaffective disorder. These services are intended to decrease morbidity and mortality amongst these individuals, while also saving the community money through decreased hospitalizations, decreased law enforcement encounters, and decreased incarcerations.

Your Committees have amended this measure by:

- (1) Clarifying that the pilot program shall manage at least forty participants, rather than cap the number of participants at forty;
- (2) Changing the appropriation to an unspecified amount;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committees respectfully request your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$1,300,000.

As affirmed by the records of votes of the members of your Committees on Human Services & Homelessness and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1131, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1131, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chairs on behalf of the Committees.

Human Services & Homelessness: Ayes, 9. Noes, none. Excused, none.

Health: Ayes, 9. Noes, none. Excused, none.

SCRep. 156 Agriculture & Food Systems on H.B. No. 859

The purpose of this measure is to:

- (1) Establish an Agricultural Crime Prevention Program within the Department of Agriculture to provide grants, education, administrative enforcement, and other services for the benefit of the State's agricultural industry;
- (2) Clarify, create, and strengthen laws regarding crimes and violations related to agriculture or agricultural lands and hunting on private agricultural lands;
- (3) Establish clear distinctions between administrative and criminal penalties; and

(4) Appropriate funds for certain positions.

Your Committee received testimony in support of this measure from the Department of Agriculture; Office of the Prosecuting Attorney of the County of Hawai'i; Honolulu Police Department; Hawai'i Farm Bureau; and three individuals. Your Committee received comments on this measure from the Department of the Attorney General; Department of Budget and Finance; and Hawaii Cattlemen's Council.

Your Committee finds that agricultural crime, including theft, vandalism, trespassing, and illegal hunting, poses a growing threat to Hawaii's farmers and ranchers, jeopardizing food security, economic stability, and the viability of local agriculture. Farmers already face numerous challenges such as unpredictable weather, pests, and labor shortages, and the added burden of crime further threatens their livelihoods. Despite efforts by the agricultural community to enhance security through surveillance and community watch programs, limited law enforcement resources make it difficult to effectively deter and prosecute offenders. This measure addresses the issue by establishing an Agricultural Crime Prevention Program within the Department of Agriculture, which will provide grants for security measures, support education and outreach, and strengthen collaboration with law enforcement. By creating a structured approach to prevention and enforcement, this measure ensures that agricultural crimes are taken seriously, protecting Hawaii's farming industry and safeguarding the future of local food production.

Your Committee has amended this measure by:

- (1) Strengthening language in the preamble related to how unauthorized hunting on private lands negatively impacts agricultural lands and farmers and ranchers;
- (2) Expanding certain powers of the Department of Agriculture to relate to agriculture, rather than only livestock;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 859, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 859, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 157 Tourism/Economic Development & Technology on H.B. No. 449

The purpose of this measure is to promote economic development by:

- (1) Requiring the Hawaii Technology Development Corporation to establish a program that provides technology enablement for small businesses related to the tourism industry in the State; and
- (2) Appropriating funds to assist in the development and promotion of Hawaii-manufactured products through the INNOVATE Hawaii program.

Your Committees received testimony in support of this measure from the Hawai'i Technology Development Corporation; Hawaii Food Industry Association; WaiHome LLC; and Cymz Sweet Kre8tionz LLC.

Your Committees find that programs operated by the Department of Business, Economic Development, and Tourism and the Hawaii Technology Development Corporation can leverage their existing partnerships with other organizations to bring new advanced technology to Hawaii to assist small businesses with development, manufacturing, operations, and marketing of "Made in Hawaii" products.

Your Committees have amended this measure by:

- (1) Removing the requirement for the Hawaii Technology Development Corporation to establish a program that provides technology enablement for small businesses related to the tourism industry in the State;
- (2) Changing the appropriation to an unspecified amount;
- (3) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committees respectfully request your Committee on Finance, should it choose to deliberate on this measure, to consider an appropriation amount of \$500,000.

As affirmed by the records of votes of the members of your Committees on Tourism and Economic Development & Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 449, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 449, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chairs on behalf of the Committees.

Tourism: Ayes, 7. Noes, none. Excused, none.

Economic Development & Technology: Ayes, 7. Noes, none. Excused, none.

SCRep. 158 Health on H.B. No. 250

The purpose of this measure is to:

- (1) Examine prior authorization practices in the State by requiring utilization review entities to report certain data to the State Health Planning and Development Agency; and
- (2) Establish the Health Care Appropriateness and Necessity Commission to make recommendations to improve and expedite the prior authorization process.

Your Committee received testimony in support of this measure from the Department of Health; State Health Planning and Development Agency; Mohala Health; Hawaii Medical Association; Philippine Medical Association of Hawai'i; Waipahu Therapy Center, LLP; Hawai'i Association of Professional Nurses; Hawaii Provider Shortage Crisis Task Force; Waves of Health Inc; Hawaii Academy of Family Physicians; and numerous individuals. Your Committee received comments on this measure from Hawaii Medical Service Association; Hawaii Association of Health Plans; and Kaiser Permanente Hawai'i.

Your Committee finds that prior authorization was initially created in the 1980s to identify and deny payment to doctors, hospitals, and health care providers that was deemed not medically necessary or appropriate. Your Committee further finds that since then, the practice of prior authorization has been more frequently used to deny medical claims, regardless of the medical necessity or appropriateness of the prescribed medical treatment. As a result, physicians

and other health care providers must expend an increasing amount of time and money to go through the process of appealing denials to ensure patients receive the medical treatment they were prescribed. Your Committee additionally finds that the basis for denial of prior authorization requests varies from insurer to insurer, further increasing costs for health care providers and delaying the timely provision of health care. Your Committee believes that streamlining and increasing the transparency of the prior authorization process, as proposed by this measure, will reduce the burden of navigating the prior authorization process and ensure the State's health care providers are able to deliver health care services to their patients in a safe and timely manner.

Your Committee has amended this measure by:

- (1) Establishing timelines for the approval of prior authorization requests for urgent and non-urgent health care services;
- (2) Establishing a Health Care Appropriateness and Necessity Working Group, rather than a commission;
- (3) Including laboratory and diagnostic tests to the list of services to be assessed by the Working Group;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes the testimony of the Hawaii Medical Service Association and Hawaii Medical Association proposing alternative compositions of the Health Care Appropriateness and Necessity Working Group. Your Committee believes that the working group should be composed of members best suited to effectively carry out the purposes of this measure, which is regulatory in nature and therefore more appropriately addressed by your Committee on Consumer Protection & Commerce. Therefore, your Committee respectfully requests your Committee on Consumer Protection & Commerce, should it deliberate on this measure, to consider amending this measure to provide the most effective composition of the working group.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 250, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 250, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 159 Health on H.B. No. 756

The purpose of this measure is to prohibit the sale or distribution of all flavored nicotine products, including products with menthol, and prohibit the mislabeling of products as nicotine-free.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of Health; Hawaii State Council on Developmental Disabilities; Hawai'i Youth Services Network; Hawaii Substance Abuse Coalition; Hina Mauka; Keiki Injury Prevention Coalition; Coalition for a Tobacco-Free Hawai'i Youth Council; Hawaii COPD Coalition; Hawai'i Primary Care Association; Hawai'i Children's Action Network Speaks!; Coalition for a Tobacco-Free Hawai'i; Campaign for Tobacco-Free Kids Hawaii; Tobacco-Free Kids Action Fund; Kaiser Permanente Hawai'i; and numerous individuals. Your Committee received testimony in opposition to this measure from the Cigar Association of America, Inc.; Americans for Tax Reform; ABC Stores; Marukin Market; China Town Liquor; No. 1 Store; Discount Smoke Shop Hawaii; and two individuals. Your Committee received comments on this measure from the Tax Foundation and Reason Foundation.

Your Committee finds that Hawaii's youth have been disproportionately affected by the nationwide vaping epidemic, with latest estimates showing e-cigarette use among high schoolers at 13.2 percent and 10.3 percent use among middle schoolers, a 6.7 percent increase from 2023. Your Committee further finds that more than eight out of ten youth e-cigarette and nicotine pouch users reported using flavored products, with fruit as the most common flavor, followed by candy, desserts or other sweets, mint, and menthol. For youth nicotine pouch users, mint was the most commonly used flavor, followed by fruit.

Your Committee believes that an expansive catalog of flavors is one of the main reasons why the use of tobacco and nicotine products and electronic smoking devices by Hawaii's youth continues to rise. Electronic smoking devices and flavored tobacco products offered in Hawaii include flavors and packaging designed to appeal to the State's youth, such as POG, shaka strawberry, luau punch, and lilikoi lychee. This measure seeks to address the youth vaping crisis by prohibiting the sale and distribution of all flavored nicotine products and mislabeling of products as nicotine-free.

Your Committee has amended this measure by:

- (1) Amending the definitions of "distinguishable", "electronic smoking device", "e-liquid", "flavored nicotine product", "nicotine product", "retailer", and "nicotine product retail location";
- (2) Inserting definitions for "inspector", "nicotine", and "nicotine product flavor enhancer";
- (3) Making it unlawful to sell nicotine product flavor enhancers as well as flavored nicotine products;
- (4) Clarifying that a statement or claim that a product is a flavored nicotine product includes any statements or claims made by an importer, a distributor, or a retailer, or their agents or employees, and any claims that the product has a minty or cooling effect;
- (5) Authorizing the Department of Health to amend interim rules;
- (6) Clarifying the Department of Health's ability to contract with third-party inspectors;
- (7) Changing the number of full-time equivalent positions to unspecified numbers;
- (8) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider appropriating funds for two full-time equivalent (2.0 FTE) program specialist positions and one full-time equivalent (1.0 FTE) hearings officer position.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 756, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 756, H.D. 1, and be referred to your Committees on Consumer Protection & Commerce and Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 160 Consumer Protection & Commerce on H.B. No. 108

The purpose of this measure is to allow the direct shipment of beer and distilled spirits by certain liquor licensees.

Your Committee received testimony in support of this measure from the Kōloa Rum Company; Maui Brewing Co.; Lanikai Brewing Company; Beer Lab HI; Maui Wine; Ola Brew; Kuleana Rum Works; Brewers Association; Napali Brewing Company; Koolau Distillery; Kaua'i Island Brewing Co.; Hana Hou Brewing Co.; Kauai Beer Company; and five individuals. Your Committee received testimony in opposition to this measure from the Hawaii Liquor Wholesalers Association and Hawai'i Alcohol Policy Alliance.

Your Committee finds that existing law imposes differential treatment among liquor licensees by authorizing direct business-to-consumer shipping of alcoholic beverages for wineries shipping wine, but not for other licensees or other types of alcohol. This differential treatment impedes the growth of small licensees that struggle to secure relationships with wholesalers to distribute the small licensees' products across the State. This measure provides another avenue for small business licensees to reach consumers by allowing the direct shipment of beer and distilled spirits by certain licensees.

Your Committee has amended this measure by:

- (1) Clarifying that the authority for an out-of-state manufacturer to ship directly to consumers is contingent upon the manufacturer being licensed in a jurisdiction that affords licensees in Hawaii shipping privileges for the shipment of beer and distilled spirits direct to consumers in that jurisdiction;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Judiciary & Hawaiian Affairs, should it deliberate on this measure, to consider whether reciprocity provisions relating to the interstate shipment of intoxicating liquor are constitutional.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 108, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 108, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 161 Tourism/Economic Development & Technology on H.B. No. 448

The purpose of this measure is to promote economic development and tourism by appropriating funds to the Hawaii Technology Development Corporation to assist small businesses, including those related to the tourism sector, with technology enablement.

Your Committees received testimony in support of this measure from the Hawai'i Technology Development Corporation; Hawaii Food Industry Association; and WaiHome LLC.

Your Committees find that the Hawaii Technology Development Corporation provides small businesses with access to modern digital tools and advanced technology to optimize operations, expand to new markets, reduce manufacturing costs, and become globally competitive.

Your Committees have amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committees respectfully request your Committee on Finance, should it deliberate on this measure, to consider appropriating \$250,000 for the Hawaii Technology Development Corporation to assist small businesses, including those related to the tourism sector, with technology enablement.

As affirmed by the records of votes of the members of your Committees on Tourism and Economic Development & Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 448, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 448, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chairs on behalf of the Committees.

Tourism: Ayes, 7. Noes, none. Excused, none.

Economic Development & Technology: Ayes, 7. Noes, none. Excused, none.

SCRep. 162 Energy & Environmental Protection on H.B. No. 735

The purpose of this measure is to:

- (1) Allow an individual wastewater system to serve up to five bedrooms, regardless of the number of dwelling units or accessory units, whether attached or detached; and
- (2) Temporarily permit certain new buildings constructed within a priority level 3 area, as designated by the Hawaii Cesspool Prioritization Tool, that contain up to five bedrooms to be served by an existing cesspool.

Your Committee received testimony in support of this measure from Grassroot Institute of Hawaii; Hanalei Initiative; and two individuals. Your Committee received testimony in opposition to this measure from Hawai'i Wai Ola. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that existing administrative rules allow an individual wastewater system to serve no more than five bedrooms, regardless of whether the five bedrooms are in one dwelling unit or two dwelling units. Therefore, certain dwelling units may be prohibited from using an individual wastewater system solely because the bedrooms are outside the dwelling unit. This measure addresses this issue by allowing an individual wastewater system to serve up to five bedrooms, regardless of the number of dwelling units or accessory units, whether attached or detached.

Your Committee has amended this measure by:

- (1) Excluding new requests to connect additional dwelling units to an existing cesspool from the provision allowing an individual wastewater system to serve up to five bedrooms, regardless of the number of attached or detached dwelling or accessory units;
- (2) Removing the language allowing certain new buildings constructed within a priority level 3 area to be served by an existing cesspool;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 735, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 735, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 163 Transportation on H.B. No. 914

The purpose of this measure is to:

- (1) Require the Public Utilities Commission to establish an automatic adjustment mechanism, including a water carrier inflation cost index automatic adjustment mechanism; and
- (2) Authorize the Public Utilities Commission to waive or exempt a water carrier from the Hawaii Water Carrier Act.

Your Committee received testimony in support of this measure from the Department of Transportation; Office of the Mayor of the County of Kaua'i; Matson Navigation Company, Inc.; Young Brothers, LLC; Hawai'i Harbors Users Group; and Lanai Oil Company, Inc. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Public Utilities Commission.

Your Committee finds that water carriers in Hawaii face significant challenges due to inflation and regulatory lag, which hinder their ability to maintain efficient and affordable transportation services for passengers and goods. These challenges are exacerbated by the lack of a streamlined mechanism for timely rate adjustments in response to fluctuating economic conditions. This measure will allow water carriers to make annual rate adjustments to promote financial stability and service reliability.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that the Public Utilities Commission, in its written testimony to your Committee, raised concerns that the mandatory establishment of a water carrier inflationary cost index automatic adjustment mechanism may have compounding effects on rates and impact on customers. As such, the Public Utilities Commission recommended that the establishment of such a mechanism be discretionary. Your Committee respectfully requests your Committee on Consumer Protection & Commerce, should it deliberate on this measure, to consider the concerns raised by the Public Utilities Commission.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 914, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 914, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 164 Transportation on H.B. No. 532

The purpose of this measure is to:

- (1) Reduce the period in which a transferee is required to forward the certificate of ownership to the Director of Finance when a title of vehicle is transferred from thirty days to fourteen days; and
- (2) Allow a letter of attestation to the Director of Finance to act as an endorsed certificate for a motor vehicle transfer.

Your Committee received testimony in support of this measure from the Office of the Mayor County of Maui; two members of the Maui County Council; and one individual. Your Committee received testimony in opposition to this measure from the Department of Customer Services of the City and County of Honolulu and one individual.

Your Committee finds that when a vehicle is transferred, the transfer is not considered complete until the county receives a certificate of ownership documenting the transfer. This creates an issue when the buyer of a vehicle fails to submit the required documentation and the vehicle remains legally registered to the previous owner. As a result, the previous owner may be liable for things like parking tickets or certain infractions even though they are no longer in possession of the vehicle.

Your Committee has amended this measure by:

- (1) Deleting language that would have:
 - (A) Reduced the period in which a transferee is required to forward the certificate of ownership to the Director of Finance when a title of vehicle is transferred from thirty days to fourteen days; and
 - (B) Authorized a letter of attestation to the Director of Finance to act as an endorsed certificate for motor vehicle transfer;
- (2) Specifying that proof that the transferor has filed a required notice form shall serve as a complete defense to any action brought against the transferor for an act or omission, civil or criminal, arising out of the use, operation, or abandonment of the vehicle by another person after the transferor's filing of the notice form;
- (3) Establishing a penalty for a transferor who submits false or fraudulent information regarding transferring a title to a vehicle;
- (4) Requiring the courts, by July 1, 2026, to create new forms permitting transferors to respond to actions arising out of the use, operation, or abandonment of transferred vehicles;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 532, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 532, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 165 Transportation on H.B. No. 468

The purpose of this measure is to require the Civil Rights Commission to receive and investigate complaints related to acts of discrimination committed by transportation network company drivers against riders with service animals and report the results of its investigation to the Department of Transportation, which shall issue penalties to transportation network companies.

Your Committee received testimony in support of this measure from the National Federation of the Blind of Hawaii; Hawaii Disability Rights Center; and numerous individuals. Your Committee received testimony in opposition to this measure from Uber. Your Committee received comments on this measure from Lyft.

Your Committee finds that despite existing regulations, there have been numerous reports of transportation network company drivers refusing service to passengers accompanied by service animals. This discriminatory practice undermines the rights of individuals with disabilities and hinders their ability to access transportation services. This measure ensures that individuals with disabilities are not unfairly denied access to transportation services, thereby upholding their rights and promoting equal access for all.

Your Committee has amended this measure by:

- (1) Requiring the Civil Rights Commission to complete their investigation and respond to the complaint within an unspecified number of days after receiving a complaint;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 468, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 468, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 166 Transportation on H.B. No. 486

The purpose of this measure is to:

- (1) Prohibit:
 - (A) The operation of an electric bicycle on a highway, street, or roadway;
 - (B) A person from operating an electric bicycle in an unsafe manner; and
 - (C) A person from removing a manufacturer- or factory-installed speed limiting device from an electric bicycle or operating an electric bicycle in which the manufacturer- or factory-installed speed limiting device was removed;
- (2) Require the Department of Transportation to develop a traffic safety education program and public awareness campaign to educate the public on general electric bicycle riding safety, rules of the road, and laws pertaining to electric bicycles; and
- (3) Appropriate funds.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from Hawai'i Bicycling League; Moped Doctors Inc.; Law Office of Georgette A. Yaindl, LLC; and three individuals. Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that the increasing popularity of electric bicycles in the State has led to a rise in safety concerns, including a significant number of accidents and fatalities involving cyclists, pedestrians, and motorists. Your Committee further finds that the removal of speed-limiting devices and unsafe riding practices have compounded these dangers, placing riders and the public at risk. This measure will reduce accidents involving electric bicycles by ensuring speed-limiting devices remain intact and implementing education and awareness programs to promote safe riding practices and compliance with traffic laws.

Your Committee has amended this measure by:

- (1) Removing the provisions that prohibited:
 - (A) The operation of a bicycle equipped with a motor on a highway, street, roadway, or any other areas designated for motor vehicles; and
 - (B) The reckless or unsafe operation of an electric bicycle;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 486, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 486, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Evslin). Noes, none. Excused, 1 (Cochran).

SCRep. 167 Economic Development & Technology on H.B. No. 639

The purpose of this measure is to require corporations, organizations, or individuals engaging in commercial transactions to inform consumers when the consumers are communicating or otherwise interacting with a chatbot or other technology that mimics human interaction.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Public Citizen; and one individual. Your Committee received testimony in opposition to this measure from TechNet and the Chamber of Commerce Hawaii.

Your Committee finds that chatbots have increased in their sophistication and can engage in human-like conversations and potentially mislead users into believing they are interacting with real people. This measure will ensure that consumers are informed when they are interacting with a chatbot or similar technology during commercial transactions.

Your Committee has amended this measure by:

- (1) Adding an exemption for small businesses that unknowingly utilize artificial intelligence chatbots;
- (2) Adding a requirement for developers of chatbots to make certain disclosures regarding their chatbots' use of artificial intelligence;
- (3) Clarifying that the Director of the Office of Consumer Protection may file a petition for injunctive relief against violators;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 639, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 639, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Templo).

SCRep. 168 Economic Development & Technology on H.B. No. 671

The purpose of this measure is to require the Department of Business, Economic Development, and Tourism to identify all legislative districts in the State in which a majority of the population consists of Native Hawaiians and designate these districts as Native Hawaiian majority districts.

Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that if fifty percent is used as the minimum threshold to determine a majority and if the United States Census Bureau's category of "Native Hawaiian Alone" is used as the race category, then none of Hawaii's legislative districts would be classified as a Native Hawaiian majority district as proposed by this measure. If the United States Census Bureau's category of "Native Hawaiian Alone or in Combination with Other Races" is used, the Department of Business, Economic Development, and Tourism would need to do special tabulations to determine which districts would be designated Native Hawaiian majority districts under this measure.

Your Committee has amended this measure by:

- (1) Changing the agency tasked with identifying the legislative districts from the Department of Business, Economic Development, and Tourism to the Office of Hawaiian Affairs;
- (2) Specifying that the minimum population threshold for these legislative districts to receive the designation shall be twenty-five percent;
- (3) Specifying that the legislative districts shall be designated as Native Hawaiian Notable Districts;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 671, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 671, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Templo).

SCRep. 169 Economic Development & Technology on H.B. No. 1308

The purpose of this measure is to allow for the regulation of sports wagering by the Department of Business, Economic Development, and Tourism and to specify that sports wagering and fantasy sports contests do not constitute gambling.

Your Committee received testimony in support of this measure from BetMGM; DraftKings; Iron Workers Stabilization Fund; Sports Betting Alliance; and one individual. Your Committee received testimony in opposition to this measure from the Honolulu Police Department; Boyd Gaming; and one individual. Your Committee received comments on this measure from the Department of Budget and Finance; Department of Taxation; Department of Business, Economic Development, and Tourism; and Office of Information Practices.

Your Committee finds that sports wagering is widespread in the State through an unregulated, illegal market. Your Committee further finds that regulating sports wagering would protect consumers, generate a new stream of revenue for the State, and stifle the illegal market. This measure addresses this need by allowing for regulated, mobile sports wagering and legalizing fantasy sports contests.

Your Committee has amended this measure by:

- (1) Changing the regulatory entity from the Department of Business, Economic Development, and Tourism to the Department of Commerce and Consumer Affairs;
- (2) Clarifying the extent to which the Department of Commerce and Consumer Affairs is required to keep certain information pertaining to a sports wagering operator licensee or applicant confidential;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that the percentage of all taxes collected that will be deposited into the Problem Gambling Prevention and Treatment Special Fund is currently unspecified. Your Committee respectfully requests your Committee on Finance, should it choose to deliberate on this measure, to consider the rate other states that regulate sports wagering have used for similar funds or purposes. Your Committee also respectfully requests your Committees on Judiciary & Hawaiian Affairs and Finance, should they choose to deliberate on this measure, to consider the testimony from the Department of Taxation.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1308, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1308, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Matsumoto). Noes, none. Excused, 1 (Templo).

SCRep. 170 Judiciary & Hawaiian Affairs on H.B. No. 772

The purpose of this measure is to disallow the use of campaign funds to purchase up to two tickets for an event held by another candidate or committee.

Your Committee received testimony in support of this measure from the Campaign Spending Commission; Hawai'i Alliance for Progressive Action; Green Party of Hawai'i; Free Access Coalition; Chamber of Sustainable Commerce; Our Hawai'i; Democratic Party of Hawai'i Education Caucus; and numerous individuals.

Your Committee finds that this measure implements one of the recommendations made by the Commission to Improve Standards of Conduct established by the House of Representatives in House Resolution No. 9, Regular Session of 2022. This measure would reduce the appearance of any impropriety since a candidate's campaign funds are likely contributions made to a specific candidate and not intended to be used for other candidates.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 772, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 772, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 171 Judiciary & Hawaiian Affairs on H.B. No. 370

The purpose of this measure is to:

- (1) Increase the amount of funds available to candidates who qualify to participate in the partial public financing program;
- (2) Adjust the minimum amount of qualifying contributions certain candidates must receive to participate in the partial public financing program;
- (3) Increase the matching fund payments to candidates in the partial public financing program for excess qualifying contributions; and
- (4) Appropriate funds to increase the amount of funds available in the partial public financing program and to permit the Campaign Spending Commission to hire more staff to address the anticipated increase in participation in the financing program.

Your Committee received testimony in support of this measure from the Campaign Spending Commission; League of Women Voters of Hawaii; Hawai'i Alliance for Progressive Action; Green Party of Hawai'i; Democratic Party of Hawai'i Education Caucus; Our Hawai'i; 350Hawaii.org; Free Access Coalition; Chamber of Sustainable Commerce; Hawaii Workers Center; and numerous individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that this measure implements one of the recommendations made by the Commission to Improve Standards of Conduct established by the House of Representatives in House Resolution No. 9, Regular Session of 2022. This measure would bolster publicly funded elections thereby expanding the reach of many small donors and relieving candidates of the need to rely on the support of special interest groups or large donors.

Your Committee has amended this measure by:

- (1) Changing the appropriation for staff within the Campaign Spending Commission and the number of staff positions to unspecified amounts;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$200,000 for two full-time equivalent (2.0 FTE) permanent positions to be placed within the Campaign Spending Commission.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 370, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 370, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 1 (Garcia). Excused, 1 (Cochran).

SCRep. 172 Judiciary & Hawaiian Affairs on H.B. No. 134

The purpose of this measure is to require and appropriate funds for the Chief Election Officer to provide a system for the electronic filing of nomination papers.

Your Committee received testimony in support of this measure from the Office of Elections and four individuals. Your Committee received testimony in opposition to this measure from three individuals.

Your Committee finds that the existing process for completing and filing nomination papers is a hybrid electronic-physical process. Providing a fully electronic process for completing and filing nomination papers will streamline the candidate filing process and improve government efficiency.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to January 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that the Office of Elections submitted testimony requesting that the measure be amended to authorize elections officials to charge a processing fee when candidates electronically file their nomination papers. The Office of Elections is also requesting the effective date be changed to January 1, 2028, to ensure that it is able to procure, test, and train candidates on the use of the electronic system.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$500,000.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 134, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 134, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, 1 (Garcia). Excused, 1 (Cochran).

SCRep. 173 Education on H.B. No. 1188

The purpose of this measure is to establish and appropriate funds for a Teacher Workforce Housing Stipend Program (Program) to support teacher retention at public schools designated as rural or in an underserved area.

Your Committee received testimony in support of this measure from the State Public Charter School Commission; Hawai'i State Teachers Association; Democratic Party of Hawai'i Education Caucus; and two individuals. Your Committee received comments on this measure from the Department of the Attorney General; Department of Education; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that certain areas of Hawaii face significant challenges in attracting and retaining qualified educators due to limited affordable housing options and the State's high cost of living. Addressing teacher retention is critical to reducing educational disparities and ensuring equitable access to high-quality learning opportunities for every student in public and charter schools. This measure would provide financial assistance for housing through a Teacher Workforce Housing Stipend Program and will support teacher retention while alleviating economic burdens and encouraging educators to make long-term commitments to teaching in the State.

Your Committee has amended this measure by:

- (1) Specifying that the Teacher Workforce Housing Stipend Program is to support teacher retention at any public school and charter school that is designated as hard-to-staff;
- (2) Clarifying that an individual shall be eligible for stipend consideration if the individual does not own a residence;
- (3) Changing the stipend award amount to an unspecified amount;
- (4) Clarifying that the terms and conditions set by the Department of Education for the repayment of stipends include circumstances under which recipients may be eligible for deferment or forgiveness in certain situations;
- (5) Specifying that stipends repaid by a stipend recipient shall be deposited into the Teachers' Housing Revolving Fund;
- (6) Authorizing the Department of Education to:
 - (A) Accept federal funds to support the Program;
 - (B) Enter into written contracts with collection agencies to collect delinquent repayments of stipends owed to the Department; and
 - (C) Adopt rules to implement and administer the Program;
- (7) Amending the purpose and uses of the Teachers' Housing Revolving Fund to accept stipend repayments and use funds for the Program;
- (8) Changing the effective date to July 1, 3000; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider \$1,000 per month as the stipend award amount under the Teacher Workforce Housing Stipend Program.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1188, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1188, H.D. 1, and be referred to your Committee on Housing.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Kapela).

SCRep. 174 Education on H.B. No. 624

The purpose of this measure is to establish a School Psychologists Working Group within the Department of Education to recommend actionable steps or propose legislation to the Legislature for an immediate pathway to licensure for school psychologists in 2026.

Your Committee received testimony in support of this measure from the Board of Psychology; Hawai'i Primary Care Association; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawai'i Association of School Psychologists; and five individuals. Your Committee received testimony in support of the intent of this measure from the Department of Education. Your Committee received comments on this measure from the Hawai'i Psychological Association.

Your Committee finds that Hawaii is the only state without a pathway to licensure for school psychologists. Your Committee recognizes that school psychologists are essential in helping students succeed academically, socially, behaviorally, and emotionally by providing direct educational and mental health services for children and youth. As there is no statutorily established criteria for licensure for school psychologists, a working group to recommend actionable steps to create a pathway to licensure for school psychologists is needed.

Your Committee has amended this measure by:

- (1) Adding a representative of the Board of Psychology and a representative of the Hawaii Psychological Association to be invited to serve on the School Psychologists Working Group by its Chair;
- (2) Changing the effective date to July 1, 3000; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 624, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 624, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Kapela).

SCRep. 175 Education on H.B. No. 625

The purpose of this measure is to establish and appropriate funds for a Nationally Certified School Psychologist Incentive Program.

Your Committee received testimony in support of this measure from the Hawai'i Primary Care Association; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawai'i Association of School Psychologists; and four individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that school psychologists are integral to meeting students' mental, emotional, and social needs, as well as helping students succeed in the school environment. The National Association of School Psychologists recommends a ratio of one school psychologist to every five hundred students; however, many school psychologists in the State have more than fifteen hundred students.

Your Committee further finds that the establishment of a Nationally Certified School Psychologist Incentive Program will assist the State in addressing the critical shortage of accredited school psychologists in public schools and provide students with access to professionals who engage in high quality, evidence-based practices.

Your Committee has amended this measure by:

- (1) Changing the amounts awarded to unspecified amounts; and
- (2) Changing the effective date to July 1, 3000.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider establishing an award amount of:

- (1) \$5,000 per year to each nationally certified school psychologist who maintains a current national certification;
- (2) Up to \$500, depending on the certification fee structure, upon completing all components of the Nationally Certified School Psychologist credential; and
- (3) An additional \$5,000 bonus per year to each school psychologist employed by the Department of Education who maintains a current Nationally Certified School Psychologist certificate and provides school psychology services to children in a hard-to-fill area as defined by the Department.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 625, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 625, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Kapela).

SCRep. 176 Education on H.B. No. 1314

The purpose of this measure is to require all schools in the State to develop plans to execute mental health check-ins with their students in grades six through twelve.

Your Committee received testimony in support of this measure from the Hawai'i Primary Care Association; Hawaii Association of School Psychologists; Democratic Party of Hawai'i Education Caucus; and three individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of the Attorney General; Department of Education; and Hawai'i Youth Services Network.

Your Committee finds that, as children become teenagers, their attention shifts from the approval of their parents to that of their peers, causing youth to be more susceptible to peer-pressure, bullying, and increased deviant behaviors. In addition, with the increased access of social media, youth can be inundated with content that is difficult to process. Youth trying to negotiate their way through this turbulent time may find it difficult to communicate their struggles to their parents. This can leave the youth feeling isolated and unable to cope with their psychosocial stressors.

Your Committee further finds that it may fall onto other positive adult figures to step up and check-in with youths. These adult figures are often teachers, counselors, or coaches at the school the youth attends. Your Committee believes that requiring all schools to develop mental health plans that include the implementation of mental health check-ins will offer support and mental health resources for students.

Your Committee has amended this measure by:

- (1) Inserting language providing immunity for Department of Education schools, charter schools, and private schools, including their personnel and any private contractors hired by the schools, from any civil or criminal liability arising from providing mental health check-ins with their students, except where the conduct would constitute gross negligence, willful and wanton misconduct, or intentional misconduct; and
- (2) Changing the effective date to July 1, 3000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1314, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1314, H.D. 1, and be referred to your Committee on Health.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Kapela).

SCRep. 177 Education on H.B. No. 616

The purpose of this measure is to provide increased protection for educational workers by requiring the Department of Education and state public charter schools to take certain steps to better address the harassment of educational workers.

Your Committee received testimony in support of this measure from the State Public Charter School Commission; Hawai'i State Teachers Association; United Public Workers, AFSCME Local 646, AFL-CIO; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and nine individuals. Your Committee received comments on this measure from the Department of the Attorney General and Department of Education.

Your Committee finds that this measure recognizes the necessity of safeguarding educational workers who may encounter instances of harassment which may interfere with educational workers ability to provide optimal delivery of educational services to the State's students and families. This measure is a step in helping to maintain a secure and conducive learning environment for educators and students.

Your Committee has amended this measure by:

- (1) Clarifying that an educational worker shall not be required to work under conditions or perform tasks when the educational worker is being subjected to harassment, as provided by law, because of the educational worker's position as an educational worker;
- (2) Specifying that the Department of Education and public charter schools shall reimburse the education worker for costs incurred from serving temporary restraining orders related to harassment, rather than be required to reimburse the educational worker's attorney's fees or court costs;
- (3) Clarifying that an educational worker shall be entitled to paid leave of absence when seeking judicial protection from harassment, as provided by law, because of the educational worker's position as an educational worker;
- (4) Changing the effective date to July 1, 3000; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 616, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 616, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Kapela).

SCRep. 178 Education on H.B. No. 1496

The purpose of this measure is to:

- (1) Establish the position of Ka Papahana Kaiapuni program complex area superintendent;
- (2) Require that at least one at-large member of the Board of Education be a Hawaiian educator, practitioner, or scholar of Hawaiian studies or the Hawaiian language;
- (3) Clarify the purpose and objective of the Hawaiian Language Medium Education Program; and
- (4) Appropriate funds for the establishment of:
 - (A) The Ka Papahana Kaiapuni program complex area superintendent; and
 - (B) A secretary position to support the Ka Papahana Kaiapuni program complex area superintendent.

Your Committee received testimony in support of this measure from the Hawai'i State Teachers Association; 'Aha Kauleo; 'Aha Pūnana Leo; Nā Leo Kāko'o O'ahu; and numerous individuals. Your Committee received testimony in support of the intent of this measure from the Department of Education. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Board of Education.

Your Committee finds that 'olelo Hawaii, or the Hawaiian language, is an officially recognized language of the State. Your Committee further finds that in 2004, Hawaiian language immersion was codified in the Hawaii Revised Statutes. The Ka Papahana Kaiapuni programs provide bicultural and bilingual education, emphasizing Hawaiian language, history, and values. As of the 2024-2025 school year, the Ka Papahana Kaiapuni programs serve over three thousand four hundred students at twenty-nine public schools; however, despite the success of these programs, your Committee recognizes the importance of providing further support and recognition to these programs.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1496, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1496, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Kapela).

SCRep. 179 Education on H.B. No. 88

The purpose of this measure is to establish and appropriate funds for a student athlete travel pilot program to provide funds for intra-county travel expenses for student athletes of Maui County.

Your Committee received testimony in support of this measure from the State Public Charter School Commission and five individuals. Your Committee received testimony in support of the intent of this measure from the Department of Education. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that, as a multi-island jurisdiction, Maui County students participating in school sports face unique and burdensome challenges when attending competitions within the county. The travel costs for student athletes to compete within Maui County presents significant and unique financial and logistical burdens for the athletes and their families, which may prevent student athletes from reaching their athletic potential. This measure would explore the use of a funding mechanism to cover intra-county travel expenses for student athletes of Maui County to ensure equitable access to the opportunities and benefits provided through participating in school sports and athletics.

Your Committee has amended this measure by:

- (1) Clarifying that students of counties with a population of less than 500,000 are eligible for the student athlete travel pilot program;
- (2) Allowing the funds appropriated for the student athlete travel pilot program to be used for the hiring of an athletic clerk to assist with travel procurement and the implementation of the pilot program;
- (3) Changing the effective date to July 1, 3000; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 88, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 88, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Kapela).

SCRep. 180 Education on H.B. No. 626

The purpose of this measure is to appropriate funds to the Department of Education to expand the Ho‘ākea Program.

Your Committee received testimony in support of this measure from the Department of Education; Mayor of the County of Hawai‘i; one member of the Hawai‘i County Council; Department of Parks and Recreation of the County of Hawai‘i; Kingdom Pathways; Mālama Learning Center; Mālama ‘Āina Foundation; Hui O Wa‘a Kaulua; Ka‘ala Farm; La‘i‘ōpua 2020; Kuleana Coral Restoration; Maui Hulia Foundation; and numerous individuals.

Your Committee finds that the Department of Education's Ho‘ākea: Mauka to Makai Navigating our Future Program is designed to educate students by integrating core educational concepts in math, science, social studies, civics, leadership, language, and literacy with cultural practices and traditions in ‘āina and community settings, with lesson plans integrating environmental stewardship, climate change, Native Hawaiian practices, responsibility to care for community, total well-being, and a sense of place. The Ho‘ākea Program has reached over three thousand two hundred students and nearly one thousand three hundred teachers and engaged more than fifty organizations across Hawaii. Your Committee recognizes that the Department of Education cannot meet the increasing demand from schools for ‘āina-based learning experiences with existing resources. This measure will provide the Department of Education with sufficient funding and enable the Department to triple engagement with the Ho‘ākea Program by 2027.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated to an unspecified amount;
- (2) Changing the effective date to July 1, 3000; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it choose to deliberate on this measure, to consider an appropriation amount of \$3,500,000 for funding for the Ho‘ākea Program.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 626, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 626, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Kapela).

SCRep. 181 Education on H.B. No. 1346

The purpose of this measure is to provide automatic step increases in teacher salaries for each year of satisfactory service completed, subject to available funds.

Your Committee received testimony in support of this measure from the Hawai‘i State Teachers Association; Democratic Party of Hawai‘i Education Caucus; and five individuals. Your Committee received testimony in opposition to this measure from the Department of Budget and Finance; Office of Collective Bargaining; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committee received comments on this measure from the Department of the Attorney General and Department of Education.

Your Committee finds that the recruitment and retention of qualified teachers is essential to the success of the Hawaii's public education system. To address matters of teacher recruitment and retention, it is critical that teacher salaries remain competitive to attract qualified individuals who are responsible for the education of the State's children. Your Committee believes that applying salary differentials for teachers will help to incentivize qualified teachers to fill teacher vacancies and reduce associated labor shortages.

Your Committee has amended this measure by changing the effective date to July 1, 3000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1346, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1346, H.D. 1, and be referred to your Committee on Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 10; Ayes with Reservations (Olds). Noes, none. Excused, 1 (Kapela).

SCRep. 182 Finance on H.B. No. 1440

The purpose of this measure is to appropriate funds to provide for the expenses of the Legislature, Auditor, Legislative Reference Bureau, Ombudsman, and Hawaii State Ethics Commission.

Your Committee received testimony in support of this measure from the Legislative Reference Bureau; Office of the Ombudsman; Hawai‘i State Ethics Commission; Office of the Auditor; and one individual.

Your Committee finds that this measure appropriates sufficient funds to defray the necessary expenses of the Senate and House of Representatives through June 30, 2026, including session and nonsession expenses. Your Committee further finds that this measure also appropriates sufficient funds to defray the necessary expenses of the Office of the Auditor, Legislative Reference Bureau, Office of the Ombudsman, and Hawaii State Ethics Commission for fiscal year 2025-2026.

Your Committee has amended this measure by:

- (1) Correcting the exceeded amount of the general fund expenditure ceiling for fiscal year 2024-2025; and
- (2) Amending the general fund appropriation sum in section 7 to the Office of the Auditor for accuracy.

As affirmed by the record of votes of the members of your Committee on Finance that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1440, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1440, H.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 15. Noes, none. Excused, 1 (Ward).

SCRep. 183 Culture & Arts on H.B. No. 531

The purpose of this measure is to authorize the issuance of special number plates to recognize the University of Hawaii Cancer Center.

Your Committee received testimony in support of this measure from the University of Hawai'i System and American Cancer Society Cancer Action Network.

Your Committee finds that the University of Hawaii Cancer Center provides important cancer research, access to life-saving treatment, and patient care. Your Committee believes that issuing special number plates can provide additional funds to support the Hawaii Cancer Center's ongoing efforts in cancer research and treatment.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Culture & Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 531, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 531, H.D. 1, and be referred to your Committee on Higher Education.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Reyes Oda).

SCRep. 184 Higher Education on H.B. No. 1320

The purpose of this measure is to:

- (1) Require the University of Hawaii System to collect, analyze, and publicly report certain data on graduate outcomes; and
- (2) Require and appropriate funds for the development and maintenance of a graduate outcomes dashboard, including for the establishment of two full-time equivalent positions with the University of Hawaii System's Office of the Vice President for Academic Strategy to support the development and maintenance of the graduate outcomes dashboard.

Your Committee received testimony in support of this measure from the University of Hawai'i System.

Your Committee finds that publicly reporting data on certain metrics of educational institutions, including post-graduation employment rates and median incomes will enable students and their families to make informed decisions about the student's career path and which educational institution the student will attend. Your Committee further finds tracking and reporting this data will help ensure institutional accountability and align higher education programs with Hawaii's workforce development needs.

Your Committee has amended this measure by:

- (1) Changing the amount of positions to be established to an unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to determine the appropriate number of positions to be established to support the development and maintenance of the graduate outcomes dashboard as required by this measure.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1320, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1320, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 185 Health/Human Services & Homelessness on H.B. No. 553

The purpose of this measure is to require health insurers, mutual benefit societies, and health maintenance organizations to provide coverage for biomarker testing beginning January 1, 2026.

Your Committees received testimony in support of this measure from the Alliance for Patient Access; National Comprehensive Cancer Network; American Cancer Society Cancer Action Network; Biotechnology Innovation Organization; American Kidney Fund; International Cancer Advocacy Network; Liberty Dialysis-Hawaii; Alzheimer's Association Hawaii Chapter; Oncology Nursing Society; Advanced Medical Technology Association; American Lung Association; and nine individuals. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs; Department of Human Services; Kaiser Permanente Hawai'i; Hawaii Medical Service Association; and Hawaii Association of Health Plans.

Your Committees find that biomarker testing is an invaluable tool in the diagnosis, treatment, appropriate management, and ongoing monitoring of diseases or conditions. This testing allows for a more precise and personalized approach to medical care by identifying specific genetic, molecular, or biochemical markers associated with an individual's disease. This measure would advance the standard of care for individuals facing various diseases and conditions, particularly in the field of oncology where biomarker testing plays a pivotal role in personalized medicine.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Health and Human Services & Homelessness that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 553, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 553, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 9. Noes, none. Excused, none.

Human Services & Homelessness: Ayes, 9. Noes, none. Excused, none.

SCRep. 186 Health on H.B. No. 1300

The purpose of this measure is to appropriate funds to the University of Hawai'i Cancer Center to conduct a multiethnic cohort study focusing on the social determinants of health, lifestyles, environmental exposures, and resilience factors of Native Hawaiians, Pacific Islanders, and Filipinos, including an analysis of the health effects and risks of individuals living in close proximity to landfills in Nanakuli, Oahu.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; University of Hawai'i Cancer Center; University of Hawai'i at Mānoa John A. Burns School of Medicine; Hawai'i Primary Care Association; The Queen's Health Systems; American Cancer Society Cancer Action Network; Iron Workers Stabilization Fund; Lou's Quality Home Health Care Services, LLC; Advanced Care Training, LLC; Philippine Nurses Association; and four individuals.

Your Committee finds that while cancer incidences and mortality rates have decreased in Hawaii over the last decade, disparities between ethnic populations continues to be an area of concern, particularly with Native Hawaiians, who experience higher incidences of breast and ovarian cancers, and Filipino women, who experience higher incidences of ovarian and thyroid cancers. Your Committee believes that there is a need to identify the root causes of these disparities, including determining health risks associated with living in close proximity to certain environmental hazards and exposures like county and private waste landfills.

Your Committee further finds that the University of Hawai'i Cancer Center is one of seventy-one National Cancer Institute-designated cancer centers in the United States and the only center in the Hawaii and Pacific region, which allows the University of Hawai'i Cancer Center to conduct research that cannot be easily conducted anywhere else in the world. This measure is intended to address concerning health disparities by appropriating funds to enable the University of Hawai'i Cancer Center to conduct vital cancer research focusing on Native Hawaiians, Pacific Islanders, and Filipinos.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$500,000 for each year of the fiscal biennium.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1300, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1300, H.D. 1, and be referred to your Committee on Higher Education.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 187 Health on H.B. No. 1427

The purpose of this measure is to appropriate funds to the Department of Health and Department of Agriculture to prevent, monitor, and respond to avian influenza in the State.

Your Committee received testimony in support of this measure from the Department of Health; Department of Land and Natural Resources; Department of Agriculture; State Health Planning and Development Agency; Hawaii Veterinary Medical Association; Hawai'i Farmers Union United; Hawaii Food Industry Association; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; and one individual. Your Committee received testimony in opposition to this measure from five individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that H5 avian influenza viruses, also referred to bird flu, can cause severe illness with a high mortality rate among certain bird populations, such as poultry. The virus can also pass to other species, including dairy cows and humans. Your Committee further finds that bird flu was detected in a domestic flock of birds on Oahu in November 2024 and has since been detected in wastewater testing in Hilo and on Kauai. As of January 2025, the Centers for Disease Control and Prevention reported sixty-seven confirmed human cases of bird flu, with one case resulting in the patient's death. Although the risk of human-to-human infection is currently low, your Committee believes that close monitoring of the situation to identify any changes in the virus that may increase transmissibility or infection severity is warranted to protect Hawaii's residents.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation of between \$3,300,000 and \$4,700,000, depending on the availability of federal funds, for the Department of Health and an appropriation of \$293,000 for the Department of Agriculture.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1427, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1427, H.D. 1, and be referred to your Committee on Agriculture & Food Systems.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, 1 (Garcia). Excused, none.

SCRep. 188 Higher Education on H.B. No. 940

The purpose of this measure is to appropriate funds for the rat lungworm lab at the Daniel K. Inouye College of Pharmacy at the University of Hawaii at Hilo.

Your Committee received testimony in support of this measure from the University of Hawai'i at Hilo and one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that rat lungworm disease causes substantial impairment to quality of life, is difficult to diagnose, and lacking in strong evidence to guide treatment recommendations. There is critical need for ongoing research into rat lungworm disease. The appropriation of funds as provided in this measure will promote and advance high quality research to improve the diagnosis, treatment, and prevention of rat lungworm disease.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated to an unspecified amount; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$500,000 for the rat lungworm lab at the Daniel K. Inouye College of Pharmacy at the University of Hawaii at Hilo.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 940, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 940, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 189 Education on H.B. No. 1202

The purpose of this measure is to recognize prior teaching experience at an equal salary comparable to currently hired teachers of identical years of experience for newly hired teachers or teachers reentering the service of the Department of Education.

Your Committee received testimony in support of this measure from Kūlia Academy and numerous individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that this measure is a crucial step in addressing teacher shortages and ensuring that public schools in the State can offer competitive compensation to attract and retain top teaching talent.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1202, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1202, H.D. 1, and be referred to your Committee on Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 190 Agriculture & Food Systems on H.B. No. 1291

The purpose of this measure is to:

- (1) Extend the offense of false labeling of Hawaii-grown coffee to include roasted coffee; and
- (2) Impose a mandatory \$10,000 fine for each separate offense of false-labeling of Hawaii-grown roasted coffee.

Your Committee received testimony in support of this measure from the Department of Agriculture; Synergistic Hawaii Agriculture Council; Hawai'i Farm Bureau; Hawai'i Farmers Union; Kona Coffee Farmers Association; and three individuals.

Your Committee finds that Hawaii-grown coffee is one of the State's most valuable and well-known agricultural products, contributing significantly to the economy through direct sales, employment, land preservation, and tourism. However, the industry faces an ongoing threat from coffee counterfeiting, where cheaper, lower-quality coffee is falsely labeled as originating from Hawaii. While existing laws regulate the labeling of green coffee, a loophole allows misleading claims on roasted coffee products, which are more commonly purchased by consumers. This measure addresses that gap by extending labeling requirements to roasted coffee, ensuring that only authentic Hawaii-grown coffee can be marketed as such. By imposing stricter penalties and enhancing oversight, this measure protects local farmers and preserves the integrity of Hawaii's coffee industry.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "roasted coffee";
- (2) Clarifying that each act of false labeling of Hawaii-grown coffee shall constitute a distinct and separate offense;
- (3) Adding a savings clause;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1291, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1291, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 191 Agriculture & Food Systems on H.B. No. 719

The purpose of this measure is to prohibit the sale, offer for sale, possession with intent to sell, display for sale, distribution, or trade of fur products in the State, with certain exceptions.

Your Committee received testimony in support of this measure from Animal Rights Hawai'i; Animal Defenders International; Hawaiian Humane Society; FOUR PAWS USA; World Animal Protection; Aloha Animal Advocates; Animal Legal Defense Fund; ECOPEL; Farm Sanctuary; The Humane Society of the United States; In Defense of Animals; Humane Society Veterinary Medical Alliance; Animal Welfare Institute; and four individuals. Your Committee received testimony in opposition to this measure from the Fur Commission USA; Retail Merchants of Hawaii; Northern Wisconsin Mink Association; ANAMODA, Inc.; Fur Institute of Canada; Natural Fibers Alliance; and two individuals.

Your Committee finds that the sale of new animal fur products contributes to animal cruelty, public health risks, and environmental harm. Eliminating these products in Hawaii will help reduce demand for inhumane practices, promote awareness of animal welfare, and further the State's sustainability policies. This measure prohibits the sale, distribution, and trade of fur products in the State, with certain exceptions, ensuring a more humane and environmentally responsible marketplace.

Your Committee has amended this measure by:

- (1) Changing the effective date to June 30, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 719, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 719, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Quinlan, Ward).

SCRep. 192 Agriculture & Food Systems on H.B. No. 1184

The purpose of this measure is to authorize the issuance of general obligation bonds for the development of a controlled-environment agriculture research and demonstration facility at the Magoon research and teaching site in Manoa, Oahu.

Your Committee received testimony in support of this measure from the University of Hawai'i System; Land Use Research Foundation of Hawaii; Hawai'i Floriculture and Nursery Association; Hawai'i Farmers Union; Hawai'i Farm Bureau; and one individual. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that a comprehensive approach to controlled-environment agriculture is essential for advancing sustainable food production in Hawaii. Establishing a state-of-the-art research and demonstration facility at the University of Hawaii at Manoa's Magoon research and teaching site will provide a platform for research, education, and industry development. This measure supports the next generation of researchers, industry leaders, and practitioners and promotes commercial-scale agricultural innovation by supporting the development of a controlled-environment agriculture research and demonstration facility.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an amount of \$6,000,000 for the issuance of general obligation bonds and appropriation.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1184, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1184, H.D. 1, and be referred to your Committee on Higher Education.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Quinlan, Ward).

SCRep. 193 Agriculture & Food Systems on H.B. No. 1337

The purpose of this measure is to require the University of Hawaii to establish an Endemic Plant Seed Bank Pilot Program to preserve and promote the planting of plant species that are endemic to Hawaii.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawai'i Farmers Union; Hawai'i Farm Bureau; and two individuals. Your Committee received comments on this measure from the University of Hawai'i System.

Your Committee finds that seed banks play a vital role in conserving plant biodiversity and supporting habitat restoration, particularly for Hawaii's native flora, which face significant threats from human activity. With over half of the State's endemic plant species at risk of extinction, proactive preservation efforts are critical. By requiring the University of Hawaii at Manoa to establish an Endemic Plant Seed Bank Pilot Program, this measure provides safeguards to protect these species and promote their propagation across the State.

Your Committee has amended this measure by:

- (1) Specifically directing the University of Hawaii at Manoa College of Tropical Agriculture and Human Resilience to establish an Endemic Plant Seed Bank Pilot Program;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1337, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1337, H.D. 1, and be referred to your Committee on Higher Education.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Quinlan, Ward).

SCRep. 194 Agriculture & Food Systems/Tourism on H.B. No. 189

The purpose of this measure is to:

- (1) Require the counties to adopt ordinances setting forth procedures and requirements for the review and permitting of agricultural tourism uses and activities as secondary uses, in addition to accessory uses, on a working farm or farming operation; and
- (2) Require the counties' ordinances to include certain requirements.

Your Committees received testimony in support of this measure from the Hawaii Food+ Policy; Hawai'i Farmers Union; Hawai'i Farm Bureau; Maui Chamber of Commerce; and two individuals. Your Committees received testimony in opposition to this measure from Heavenly Hawaiian Farms; Hawaii Cattlemen's Council; Kualoa Ranch; and one individual. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that agricultural tourism, or agritourism, offers a vital opportunity to support Hawaii's farmers while promoting cultural heritage, sustainability, and economic growth. The agricultural sector faces challenges such as competition from imports and climate change, making diversification crucial for long-term viability. This measure allows agritourism as a secondary use on working farms and farming operations, providing farmers with an additional revenue stream while ensuring agricultural activities remain the primary focus.

Your Committees have amended this measure by:

- (1) Deleting language that would have required the counties to establish certain requirements for agricultural tourism to include only those activities that are allowed under existing zoning and land use regulations;
- (2) Clarifying the definition of "productive agricultural use" to not include minimum active agricultural cultivation and annual revenue requirements;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and

(4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Agriculture & Food Systems and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 189, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 189, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chairs on behalf of the Committees.

Agriculture & Food Systems: Ayes, 5. Noes, none. Excused, 1 (Ward).

Tourism: Ayes, 5. Noes, none. Excused, 2 (Hussey, Matsumoto).

SCRep. 195 Water & Land on H.B. No. 491

The purpose of this measure is to prohibit the State from leasing any public lands, or extending the lease of any public lands, to any individual, corporation, or federal agency that is not in good standing with the State or that has not met all financial, contractual, and legal obligations.

Your Committee received testimony in support of this measure from the Sierra Club of Hawai'i; Chamber of Sustainable Commerce; The Queens Court; Kai Law, LLC; Environmental Caucus of the Democratic Party of Hawai'i; Kupuna for the Moopuna; Ka Lahui Hawai'i; Kuleana Ka 'Aina; Greenpeace Hawaii; Hawai'i Alliance for Progressive Action; California-Pacific Conference of the United Methodist Church; and numerous individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that this measure upholds responsible stewardship by prohibiting the leasing or renewal of public lands to entities not in good standing and providing a framework for enforcing compliance, thereby ensuring that public resources are managed in a fair, lawful, and sustainable manner.

Your Committee has amended this measure by:

- (1) Specifying that no lease of public lands, or extension of the lease of any public lands, shall be to individuals, corporations, or federal agencies that have been found to be in violation of federal or state laws aimed at protecting the environment, instead of convicted of a crime;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Judiciary & Hawaiian Affairs, should it deliberate on this measure, to consider whether to expand the vendor compliance reporting requirement to include a method of reporting outstanding debts to other agencies.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 491, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 491, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 196 Water & Land on H.B. No. 314

The purpose of this measure is to require the Hawaii Climate Change Mitigation and Adaptation Commission to develop adaptation pathways plans to modify and relocate development and associated infrastructure away from critically vulnerable areas to locations outside of sea level rise and coastal flooding exposure areas.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Health; University of Hawai'i Sea Grant College Program and Climate Resilience Collaborative; Hawai'i Climate Change Mitigation and Adaptation Commission; Office of Planning and Sustainable Development; Hawai'i Reef and Ocean Coalition; Coalition Earth; Surfrider Foundation Hawai'i Region; and two individuals.

Your Committee finds that sea level rise and associated coastal hazards pose a significant and growing threat to Hawaii's natural and built environments, impacting communities, ecosystems, and public infrastructure. Without proactive planning, continued development in vulnerable coastal areas will result in costly damages, loss of public trust resources, and increased risks to residents and businesses. This measure requires adaptation pathways plans that promote long-term resilience through community-based planning, natural resource conservation, and strategic relocation of development away from high-risk areas.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$2,000,000.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 314, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 314, H.D. 1, and be referred to your Committee on Energy & Environmental Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 197 Water & Land on H.B. No. 1233

The purpose of this measure is to ensure the health, safety, and welfare of the citizens of the State by:

- (1) Prohibiting counties from permitting or allowing retention and detention ponds to be constructed except under certain conditions;
- (2) Creating safety requirements for Hawaii's rainwater retention and detention ponds; and
- (3) Require the Department of Health to conduct a survey of existing retention and detention ponds statewide.

Your Committee received testimony in support of this measure from the Keiki Injury Prevention Coalition; Hawaii Water Safety Coalition; Hawaiian Lifeguard Association; Hawai'i Lodging & Tourism Association; and numerous individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that retention and detention ponds, while essential for stormwater management and flood control, pose significant safety risks, especially to children, due to their potential for sudden water level changes and deep standing water. The State's high drowning rate, particularly among residents and visitors, underscores the need for stronger safety measures around these water retention systems. Your Committee recognizes the concerns raised in testimony by the Department of Health that conducting safety inspections, surveying existing storm water retention and detention ponds, and developing safety requirements fall outside the function and capability of the Department and that the counties would be better positioned to carry out these tasks.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the counties, rather than the Department of Health, to establish safety standards and conduct periodic inspections of retention and detention ponds;
- (2) Requiring the counties, rather than the Department of Health, to conduct a survey of existing retention and detention ponds statewide and provide a report to the Legislature; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1233, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1233, H.D. 1, and be referred to your Committee on Health.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 198 Water & Land on H.B. No. 1358

The purpose of this measure is to appropriate funds to the Office of Hawaiian Affairs for the hiring of necessary staff and the purchase of equipment and professional services on behalf of the Public Land Trust Working Group.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Office of Hawaiian Affairs; one trustee of the Office of Hawaiian Affairs; Malama Kaua'i; Hawaiian Nationals Regardless of Race; Nohopapa Hawaii, LLC; Hana Health; Ko'olauloa Hawaiian Civic Club; The Spoehr Foundation; Naalehu Theatre; Ka Lahui Hawai'i; and numerous individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies and one individual.

Your Committee finds that Act 226, Session Laws of Hawaii 2022, established a Public Lands Trust Working Group (Working Group) to determine the pro rata share of income and proceeds from the Public Land Trust due annually to the Office of Hawaiian Affairs. Your Committee further finds that the Working Group has determined that information in the Public Land Trust Information System (PLTIS) developed and maintained by the Department of Land and Natural Resources is based in part on self-reporting of revenues by state agencies and counties and there has not been a third-party independent audit, review, or evaluation of the thoroughness or accuracy of the PLTIS, including existing reporting practices and determinations of what lands should be included or excluded from the PLTIS database. This measure is intended to support the efforts of the Working Group in accurately determining the pro rata share of income and proceeds due to the Office of Hawaiian Affairs by appropriating funds for a third-party review of the PLTIS.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$1,000,000.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1358, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1358, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 199 Legislative Management on H.B. No. 640

The purpose of this measure is to:

- (1) Require and appropriate funds for specialized training for all employees of the Office of the Ombudsman to develop relevant expertise relating to the child welfare system;
- (2) Require the Office of the Ombudsman to publish a quarterly report on its website that identifies the number and nature of complaints that it receives regarding the Child Welfare Services Branch of the Department of Human Services; and
- (3) Require the Child Welfare Services Branch to notify birth families, children, and resource caregivers that they can file a complaint with the Office of the Ombudsman.

Your Committee received testimony in support of this measure from the Hawaii Coalition for Child Protective Reform; Mālama 'Ohana Working Group; and two individuals. Your Committee received comments on this measure from the Department of Human Services and Office of the Ombudsman.

Your Committee finds that the Malama Ohana Working Group, established by Act 86, Session Laws of Hawaii 2023, developed recommendations to create a trauma-informed, community-based child welfare system that better supports children and families. Among these recommendations was the need for an independent method to resolve complaints related to the child welfare system. While the Office of the Ombudsman currently serves this role, greater awareness and specialized expertise are needed to ensure effective oversight. This measure mandates reporting on child welfare-related complaints and directs the Child Welfare Services Branch to inform families and caregivers of their right to file complaints.

Your Committee has amended this measure by:

- (1) Deleting language that would have required and appropriated funds for specialized training for all employees of the Office of the Ombudsman to develop relevant expertise;
- (2) Clarifying the nature of complaints that must be published on the Office of the Ombudsman's website; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Legislative Management that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 640, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 640, H.D. 1, and be referred to your Committee on Human Services & Homelessness.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 200 Transportation on H.B. No. 958

The purpose of this measure is to:

- (1) Require all bicycles equipped with motors to be operated only with all wheels on the grounds at all times, with certain exceptions;
- (2) Prohibit certain actions while operating a bicycle equipped with a motor;
- (3) Define "electric bicycle" and replace the term "low-speed electric bicycle" with "electric bicycle";
- (4) Define "electric micro mobility device" and require the same regulations as electric foot scooters to apply to electric micro mobility devices;
- (5) Authorize a person to ride an electric bicycle on a sidewalk at a speed not exceeding ten miles per hour;
- (6) Prohibit a person from operating a bicycle, electric foot scooter, or electric micro mobility device under the age of eighteen without a helmet;
- (7) Substitute the term "motor drive cycle" with the term "motor scooter"; and
- (8) Appropriate funds for a coordinated education campaign on electric mobility devices.

Your Committee received testimony in support of this measure from the Department of Transportation Services of the City and County of Honolulu; one member of the Honolulu City Council; Hawai'i Bicycling League; and one individual. Your Committee received testimony in opposition to this measure from the Moped Doctors.

Your Committee finds that the rapid increase in the use of electric bicycles and electric micro mobility devices has raised concerns about safety, especially regarding unsafe riding behaviors, lack of proper regulation, and the absence of clear rules for their operation on public roads. This measure will ensure safer operations of electric bicycles and similar devices by providing clear safety guidelines, registration requirements, and age restrictions.

Your Committee notes that the definition of "electric micro mobility device" should remain broad to encompass emerging motorized devices and ensure inclusivity for evolving technologies.

Your Committee has amended this measure by:

- (1) Clarifying that engaging in any other non-standing or non-standard riding position is prohibited;
- (2) Prohibiting a person from operating a high-speed electric device on a public roadway, bicycle lane, and other designated areas and clarifying that a high-speed electric device does not include a moped or a motorcycle that can legally be operated on a road or street, as provided by law;
- (3) Requiring manufacturers and distributors of electric bicycles to apply a label containing the classification number, top assisted speed, and motor wattage of the electric bicycle;
- (4) Requiring distributors of electric bicycles to place a sign at or near the point of sale with certain wording regarding the regulation of electric bicycles and provide an electronic bicycle booklet or pamphlet with associated state laws about electric bicycles to purchaser;
- (5) Clarifying the definition of "electric bicycle" and separating each class of electric bicycle as separate definitions;
- (6) Inserting a weight limit of seventy-five pounds in the definition of "electric micro mobility device";
- (7) Prohibiting a person under the age of fifteen from operating a class 3 electric bicycle;
- (8) Clarifying that any person may operate a class 1 electric bicycle or class 2 electric bicycle, regardless of age;
- (9) Prohibiting a person from riding a class 3 electric bicycle on any sidewalk;
- (10) Deleting the unspecified appropriation for the Department of Transportation to conduct a coordinated education campaign on electric mobility devices;
- (11) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 958, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 958, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 201 Transportation on H.B. No. 543

The purpose of this measure is to prohibit the use of license plate flipping devices.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the use of license plate flipping devices, which allows drivers to switch or conceal their license plates, has become a growing concern for law enforcement. These devices enable individuals to evade identification, obstructing efforts to enforce traffic laws and compromising public safety. This measure seeks to take a proactive approach to prevent the potential use of license plate flipping devices to ensure law enforcement can effectively track and identify vehicles involved in illegal activities.

Your Committee has amended this measure by:

- (1) Establishing a minimum fine of \$250 for violating the prohibition on license plate flipping devices; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 543, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 543, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 202 Transportation on H.B. No. 708

The purpose of this measure is to require and regulate insurance coverage for the operation of electric bicycles in the State.

Your Committee received testimony in support of this measure from four individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender; Kauai Path, Inc.; PeopleForBikes Coalition; Hawai'i Bicycling League; Get Fit Kauai; and seven individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that the increasing popularity of electric bicycles in Hawaii has led to a rise in accidents and injuries involving these vehicles, highlighting a gap in the existing insurance and liability framework. Many electric bicycle operators are not required to carry insurance, leaving riders and other individuals on the road vulnerable in the event of an accident. This measure ensures the safety and accountability of electric bicycle operations by mandating liability insurance.

Your Committee has amended this measure by:

- (1) Deleting all references to class 1 electric bicycles and class 2 electric bicycles;
- (2) Amending the definitions of "class 3 electric bicycle" and "electric bicycle";
- (3) Specifying that electric bicycle insurance requirements only apply to a county with a population of five hundred thousand or more;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 708, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 708, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, 1 (Evslin). Excused, 1 (Cochran).

SCRep. 203 Housing/Transportation on H.B. No. 1484

The purpose of this measure is to:

- (1) Establish a Transit-Oriented Community Improvement Partnership and the Community Improvement Revolving Fund to coordinate transit-oriented community development; and
- (2) Authorize the Hawaii Community Development Authority to assist the Transit-Oriented Community Improvement Partnership in identifying lands and facilities that may be suitable for community improvement projects.

Your Committees received testimony in support of this measure from one individual. Your Committees received testimony in opposition to this measure from four individuals. Your Committees received comments on this measure from the Hawai'i Community Development Authority.

Your Committees find that Hawaii's high cost of living, driven largely by the rising expenses of housing and transportation, continues to strain families and communities across the State. Housing projects are becoming prohibitively expensive due to added costs associated with parking and amenities. This measure will encourage transit-oriented development, thereby reducing transportation expenses and lowering overall living costs of residents.

Your Committees have amended this measure by:

- (1) Deleting language that would have authorized the Hawaii Community Development Authority to assist the Transit-Oriented Community Improvement Partnership;
- (2) Changing the number of positions to unspecified numbers;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committees respectfully request your Committee on Finance, should it deliberate on this measure, to consider the following number of positions:

- (1) One full-time equivalent (1.00 FTE) executive director position;
- (2) One full-time equivalent (1.00 FTE) planner position; and
- (3) One full-time equivalent (1.00 FTE) project development specialist position.

As affirmed by the records of votes of the members of your Committees on Housing and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1484, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1484, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 7; Ayes with Reservations (Muraoka). Noes, none. Excused, 2 (Cochran, La Chica).

Transportation: Ayes, 7; Ayes with Reservations (Muraoka). Noes, none. Excused, 2 (Cochran, La Chica).

SCRep. 204 Housing on H.B. No. 528

The purpose of this measure is to exempt state and county lands leased after July 1, 2025, for an initial period of no less than ninety-nine years from residential leasehold and residential leasehold condominium and cooperative housing corporation requirements.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that existing residential leasehold requirements apply to all state and county lands. This measure exempts these lands for an initial period of no less than ninety-nine years from state law governing residential leasehold and residential leasehold condominium and cooperative housing corporation requirements.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 528, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 528, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Cochran, La Chica, Pierick).

SCRep. 205 Housing on H.B. No. 276

The purpose of this measure is to exclude a homeowner-developer of a condominium property regime from the annual requirement to file a developer's report and pay a fee if the homeowner's development consists of no more than two units, under certain conditions.

Your Committee received testimony in support of this measure from the Grassroot Institute of Hawaii and one individual.

Your Committee finds that under existing law, homeowners who subdivide their property into two units under a condominium property regime are considered developers, and are therefore required to file annual reports and pay a fee, even when they are not actively selling or developing additional units. This requirement places an unnecessary burden on homeowners who permanently reside in one unit and do not intend to sell their unit in the development. This measure will alleviate the administrative and financial burden of a homeowner-developer who develops no more than two units in a condominium property regime, one of which is the homeowner-developer's primary residence.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 276, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 276, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Cochran, La Chica, Pierick).

SCRep. 206 Housing on H.B. No. 463

The purpose of this measure is to:

- (1) Require that all court records of any eviction proceeding be sealed within specified timeframes upon resolution of the proceeding;
- (2) Authorize the court to seal certain eviction records prior to the expiration of these timeframes upon motion by a tenant who is able to demonstrate that certain conditions apply;
- (3) Require the clerk of the court to provide access to sealed eviction records to the tenant;
- (4) Make it a discriminatory practice to require a person to disclose a sealed eviction record as a condition of certain real property transactions; and
- (5) Prohibit discrimination in real property transactions against a person with a sealed eviction record.

Your Committee received testimony in support of this measure from the Maui Housing Hui; Hawaii Appleseed Center for Law & Economic Justice; Hawai'i Workers Center; Medical-Legal Partnership for Children in Hawai'i; and numerous individuals. Your Committee received testimony in opposition to this measure from the Public First Law Center. Your Committee received comments on this measure from the Judiciary; Department of the Attorney General; and Hawai'i Association of REALTORS.

Your Committee finds that there can be lasting negative impacts of eviction records on individuals' and families' ability to secure stable housing. Currently, the mere filing of an eviction case, regardless of its outcome or merits, stays on a tenant's record. Studies have indicated that this creates insurmountable barriers to future housing access. This measure ensures that dismissed or resolved cases do not continue to unfairly impact tenants' housing opportunities.

Your Committee has amended this measure by:

- (1) Removing the requirement for the court to seal all court records related to an eviction proceeding within two years if the landlord prevails and regains summary possession;
- (2) Removing provisions that made it a discriminatory practice for any person to require another person to disclose a sealed eviction record as a condition precedent to certain real property transactions;
- (3) Inserting a severability clause;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 463, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 463, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Cochran, Kitagawa).

SCRep. 207 Housing on H.B. No. 1467

The purpose of this measure is to:

- (1) Establish the Strengthen Hawaii Homes Program with the Department of Business, Economic Development, and Tourism to administer grants to retrofit residential properties in historically vulnerable areas; and
- (2) Establish the Strengthen Hawaii Homes Program Special Fund and appropriate funds out of the special fund for the Strengthen Hawaii Homes Program.

Your Committee received testimony in support of this measure from the Hawaii Green Infrastructure Authority and Hawai'i Climate Advisory Team. Your Committee received comments on this measure from the Department of the Attorney General; Office of Information Practices; and Office of Planning and Sustainable Development.

Your Committee finds that many residential properties in the State face significant risks from natural disasters, which can lead to devastating property damage. Your Committee believes that the State should be proactive in mitigating damages caused by natural disasters by providing financial support to residents to strengthen their properties accordingly, which will enhance resilience, safety, and long-term savings in communities throughout the State.

Your Committee has amended this measure by:

- (1) Expanding the definition of "disaster";
- (2) Deleting throughout the measure all references to a historically vulnerable area and associated language;
- (3) Authorizing the Department of Business, Economic Development, and Tourism to delegate the powers and responsibilities of the Strengthen Hawaii Homes Program (Program) to a third party and contract with that third party, without regard to the Hawaii Public Procurement Code;
- (4) Clarifying the grant application process and information that must be included in the application;
- (5) Specifying that a household with an income of no more than one hundred forty percent, rather than one hundred sixty percent, has priority for the award of grants under the Program;
- (6) Deleting language that would have required improvements necessary for a residential property eligible for the Program to achieve standards of any successor designation;
- (7) Authorizing, for good cause, the Department of Business, Economic Development, and Tourism to extend the timeframe for the completion of a retrofit project;
- (8) Inserting a general fund appropriation of an unspecified amount to be deposited into the Strengthen Hawaii Homes Program Special Fund;
- (9) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Consumer Protection & Commerce, should it deliberate on this measure, to determine whether the Department of Business, Economic Development, and Tourism or Department of Commerce and Consumer Affairs is the state department best suited to oversee the Program.

Your Committee also respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$10,000,000 for the Program.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1467, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1467, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Cochran, La Chica, Pierick).

SCRep. 208 Housing on H.B. No. 1096

The purpose of this measure is to repeal the tenant selection preferences for disabled veterans and spouses of deceased veterans in the State Low-Income Housing Program.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority.

Your Committee finds that the existing tenant selection preferences in the State Low-Income Housing Program create inconsistencies with federal public housing regulations, particularly regarding preferences for disabled veterans and spouses of deceased veterans. These preferences may result in unnecessary complexity and discrepancies between state and federal housing policies. This measure will align state law with federal public housing requirements by repealing the tenant selection preference for disabled veterans and spouses of deceased veterans, as these groups have access to other public housing opportunities in different programs offered by the Hawaii Public Housing Authority.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1096, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1096, H.D. 1, and be referred to your Committee on Public Safety.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Cochran, La Chica, Pierick).

SCRep. 209 Housing on H.B. No. 737

The purpose of this measure is to:

- (1) Redefine historic property for the purposes of the State Historic Preservation Program; and
- (2) Require historic review for proposed projects on existing privately—owned single-family detached dwelling units or townhouses only if the unit or townhouse is historic property, rather than over fifty years old.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Kaua'i County Housing Agency; Housing Hawai'i's Future; Grassroot Institute of Hawaii; Hawai'i YIMBY; Holomua Collaborative; and two individuals. Your Committee received comments on this measure from Historic Hawai'i Foundation and NAIOP Hawaii.

Your Committee finds that Hawaii's existing definition of "historic property" is overly broad, requiring historic review for any structure over fifty years old, regardless of its actual historical or cultural significance. This has created unnecessary delays in the permitting process, particularly for homeowners seeking to renovate or redevelop aging properties. With nearly sixty percent of Oahu's single-family homes already over fifty years old—and that number increasing each year—the backlog of historic reviews is straining the resources of the State Historic Preservation Division, leading to months-long delays. This measure refines the definition of "historic property" to focus on structures that meet clear criteria for historical significance and integrity, aligning state policy with federal historic preservation standards.

Your Committee has amended this measure by:

- (1) Correcting its title by changing it from "HISTORIC PRESERVATION" to read in its corrected form, "RELATING TO HISTORIC PRESERVATION";
- (2) Deleting language that would have required an application for a proposed project on an existing privately-owned single-family detached dwelling unit or townhouse to be subject to historic preservation review if the unit or townhouse is a historic property; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 737, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 737, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Cochran, Kitagawa).

SCRep. 210 Housing on H.B. No. 741

The purpose of this measure is to exempt certain projects funded by the Affordable Homeownership Revolving Fund from prevailing wages provisions.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Hawaii Habitat for Humanity Association; Hawai'i Community Lending; and Maui Chamber of Commerce.

Your Committee finds that the high cost of construction labor, driven by prevailing wage requirements, has become a significant barrier to the development of affordable housing in the State, particularly for smaller-scale projects. These added costs often discourage developers from pursuing affordable housing projects, slowing efforts to address the critical housing shortage. This measure will alleviate this burden by exempting certain small-scale projects funded through the Affordable Homeownership Revolving Fund from prevailing wages requirements. This narrowly-tailored exemption will help nonprofit developers maximize the impact of this limited funding and produce more affordable homeownership opportunities for Hawaii residents.

Your Committee has amended this measure by:

- (1) Inserting a purpose section;
- (2) Clarifying that an affordable housing project financed by a certified nonprofit community development financial institution utilizing less than \$1,500,000 of monies from the Affordable Homeownership Revolving Fund are exempt from prevailing wages provisions;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 741, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 741, H.D. 1, and be referred to your Committee on Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Cochran, La Chica, Pierick).

SCRep. 211 Housing on H.B. No. 1008

The purpose of this measure is to:

- (1) Require the Department of Land and Natural Resources to determine the effect of any proposed state affordable housing project within ninety days of a request for determination; and
- (2) Set forth the historic review requirements based on the project area's known historic, cultural, and archaeological resources.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Land and Natural Resources; Hawaii Housing Finance and Development Corporation; NAIOP Hawaii; and Maui Chamber of Commerce.

Your Committee finds that lengthy and backlogged historic preservation reviews prevent the timely development of affordable housing and drive up its costs. This measure would enable affordable housing units to be built at a faster pace and lower cost by creating a separate historic review process for certain proposed state affordable housing projects.

Your Committee has amended this measure:

- (1) Authorizing the Department of Land and Natural Resources to allow a proposed project to proceed under an archaeological monitoring program if the Department determines that the proposed project is located in a highly sensitive area and an archaeological inventory survey has already been previously reviewed and accepted by the Department;
- (2) Specifying that the Department of Land and Natural Resources may allow a proposed project to proceed under an archaeological monitoring program in a moderately sensitive area where an archaeological inventory survey has already been previously reviewed and accepted by the Department;
- (3) Clarifying that the Department of Land and Natural Resources shall provide its written documentation within ninety days after the filing of a complete and accurate project request;
- (4) Clarifying when an agency or officer of the State or its political subdivisions is required to obtain state inventory of historic places numbers for all historic properties identified within an affordable housing project area during the archaeological inventory survey;

- (5) Clarifying mitigation efforts an agency or officer may take if an adverse effect on a significant historic property cannot reasonably be avoided;
- (6) Clarifying the conditions and procedures in determining when work is stopped if human remains or historic properties are identified during archaeological monitoring or affordable housing project construction;
- (7) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1008, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1008, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Cochran, Kitagawa).

SCRep. 212 Housing on H.B. No. 467

The purpose of this measure is to:

- (1) Prohibit sellers of foreclosed homes in a nonjudicial foreclosure from bundling properties at a public sale for sale to a single buyer and require each foreclosed home to be sold separately; and
- (2) Allow tenants, families, city and state government, affordable housing nonprofits, and community land trusts forty-five days to match or beat the best public sale bid to buy the property.

Your Committee received testimony in support of this measure from Lahaina Strong; Lahaina Community Land Trust; Northwest Community Land Trust Coalition; and numerous individuals.

Your Committee finds that the foreclosure moratorium for borrowers with Federal Housing Administration-insured mortgages on Maui expired on January 1, 2025. This measure ensures that foreclosed properties must have individual property auctions and cannot be bundled together, which allows residents to have a greater chance to submit competitive offers.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

Your Committee notes that community development financial institutions are currently collaborating with affected resident homeowners to develop proposals to bid on their property. Should your Committee on Consumer Protection & Commerce deliberate on this measure, your Committee respectfully requests that it consider whether to include community development financial institutions in the definition of an "eligible bidder" under this measure.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 467, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 467, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Cochran, Kitagawa).

SCRep. 213 Housing on H.B. No. 466

The purpose of this measure is to:

- (1) Prohibit landlords from terminating certain tenancies without cause;
- (2) Establish criteria under which landlords can undertake a no-fault eviction; and
- (3) Require landlords, when proceeding with a no-fault eviction, to offer relocation assistance to the tenant or waive the final month's rent.

Your Committee received testimony in support of this measure from the Maui Housing Hui; Hawai'i YIMBY; Catholic Charities Hawai'i; Hawaii Guerrilla Video Hui; Hawai'i Workers Center; and numerous individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that Hawaii's high cost of housing has created a large population of long-term renters, yet existing laws allow landlords to terminate leases without cause, even when tenants have followed all terms of their rental agreements. This lack of protection leaves tenants vulnerable to sudden displacement, contributing to financial instability, housing insecurity, and, in some cases, homelessness. The fear of arbitrary evictions can also prevent tenants from reporting habitability issues, further compromising their living conditions. This measure seeks to address these concerns by prohibiting no-cause evictions, establishing clear criteria for when a landlord may lawfully terminate a tenancy, and requiring relocation assistance or a rent waiver in cases of no-fault evictions.

Your Committee has amended this measure by:

- (1) Deleting language throughout the measure that would have authorized a landlord to initiate a no-fault eviction at the end of the term of a rental agreement;
- (2) Reducing the amount of time a landlord is required to give a tenant to vacate the dwelling unit upon initiation of a no-fault eviction from ninety days to sixty days and reducing the amount of time the landlord must wait to list the dwelling unit as a transient vacation rental from ninety days to sixty days after a tenant vacates;
- (3) Deleting language that would have authorized a landlord to initiate a no-fault eviction if a tenant refuses to sign a new rental agreement with reasonable terms, under certain circumstances;
- (4) Deleting language that would have authorized a landlord to initiate a no-fault eviction at the end of the term of a rental agreement if a tenant submits late rent payments, under certain circumstances;
- (5) Clarifying that rental assistance is an amount equal to one month's rent;
- (6) Specifying that nothing under the measure shall be applied so as to impair any contract in a manner violative of the Hawaii State Constitution or Article I, Section 10, of the United States Constitution;

- (7) Inserting a severability clause;
- (8) Changing the effective date to January 1, 3000, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 466, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 466, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Cochran, Kitagawa).

SCRep. 214 Housing on H.B. No. 1294

The purpose of this measure is to:

- (1) Require the Department of Agriculture to establish an Agricultural Workforce Housing Working Group to address the shortage and challenges of agricultural workforce housing; and
- (2) Appropriate funds for the working group.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Agribusiness Development Corporation; Hawai'i Food+ Policy; Hawai'i Farmers Union United; and Hawai'i Farm Bureau. Your Committee received comments on this measure from the Department of the Attorney General; Department of Agriculture; Office of Planning and Sustainable Development; and Land Use Commission.

Your Committee finds that Hawaii's agricultural industry faces a significant workforce housing shortage, which is hindering the growth and sustainability of the agricultural sector. Limited housing options near agricultural zones have made it difficult for farmers and farm employees to secure housing that is affordable and located in proximity to their work. This measure establishes the Agricultural Workforce Housing Working Group, which can help the State explore potential policies and recommend solutions to meet the agricultural industry's need for farmworker housing while also protecting agricultural lands from non-agricultural residential uses.

Your Committee has amended this measure by:

- (1) Clarifying that the Agricultural Workforce Housing Working Group is to be established within the Department of Agriculture for administrative purposes;
- (2) Removing as unnecessary language exempting the members from the State Ethics Code, as the State Ethics Commission's longstanding practice is to exclude the activities of working group members from the general provisions of the Code;
- (3) Specifying that the Department of Agriculture is required to provide administrative support to the Agricultural Workforce Housing Working Group;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1294, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1294, H.D. 1, and be referred to your Committee on Agriculture & Food Systems.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 3 (Cochran, La Chica, Pierick).

SCRep. 215 Housing on H.B. No. 830

The purpose of this measure is to require the Department of Land and Natural Resources to contract its review of proposed state projects, projects on privately owned historic property, and projects affecting historic properties to third-party consultants if the Department is unable to complete its review within sixty days.

Your Committee received testimony in support of this measure from the Mayor of the County of Maui; NAIOP Hawaii; Hawai'i Association of REALTORS; Grassroot Institute of Hawaii; and Maui Chamber of Commerce. Your Committee received comments on this measure from the Department of Land and Natural Resources and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the historic preservation review process needs to streamline the timeliness of its reviews and decisions. Your Committee notes that the use of third-party consultants may not be feasible for the Department of Land and Natural Resources if the State Historic Preservation Division is required to cover the expenses associated with contracting with the third party.

Accordingly, your Committee has amended this measure by:

- (1) Authorizing the State Historic Preservation Division to assess the costs of retaining a third-party consultant to the applicable project proponent;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 830, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 830, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Cochran, Kitagawa).

SCRep. 216 Housing on H.B. No. 1013

The purpose of this measure is to:

- (1) Establish an important agricultural lands incentive to provide alternative means to develop housing for farmers and farm employees;
- (2) Authorize a landowner or lessee of important agricultural lands to apply to a county for a permit allowing the landowner or lessee to develop, construct, and maintain farm cluster housing;

- (3) Require each county to enact ordinances to allow farm cluster housing on important agricultural lands;
- (4) Establish requirements for farm cluster housing; and
- (5) Repeal existing requirements for farm dwellings and employee housing on important agricultural lands.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; Office of Planning and Sustainable Development; Agribusiness Development Corporation; Hawai'i Food+ Policy; Hawai'i Farmers Union United; and Hawai'i Farm Bureau. Your Committee received comments on this measure from the Land Use Commission and Department of Planning and Permitting of the City and County of Honolulu.

Your Committee finds that Act 233, Session Laws of Hawaii 2008, was enacted as an incentive to establish and sustain viable agricultural operations on important agricultural lands by allowing the development of certain farm dwellings and employee housing. However, this law created uncertainties about whether farm dwellings and employee housing on important agricultural lands were subject to additional restrictions. This measure will streamline the development of housing on important agricultural lands by providing an option for farm cluster housing, which will reduce development and infrastructure costs of such housing, reduce the footprint and amount of agricultural land used for housing, and ensure that the housing is occupied by bona fide farmers and farm employees.

Your Committee has amended this measure by:

- (1) Including a definition for "short-term vacation rental", as that term and similar terms are used in the applicable county ordinance;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1013, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1013, H.D. 1, and be referred to your Committee on Agriculture & Food Systems.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Cochran, La Chica, Pierick).

SCRep. 217 Housing on H.B. No. 89

The purpose of this measure is to establish and appropriate funds for the Teacher Housing Assistance Program to provide housing vouchers to certain eligible teachers who are employed at a hard-to-fill school.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; one member of the Kaua'i County Council; and Education Caucus of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of the Attorney General; Department of Education; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that there is a severe shortage of qualified teachers in the State. Major contributing factors to this shortage are Hawaii's high cost of living and a lack of affordable housing. According to the Department of Education's employment report for the 2020-2021 school year, roughly fifty-seven percent of teachers who resigned cited the high cost of housing as the primary reason for leaving the State. Your Committee believes the Teacher Housing Assistance Program proposed by this measure is an important step in attracting and retaining teachers.

Your Committee has amended this measure by:

- (1) Establishing standards for housing voucher applications under the Teacher Housing Assistance Program;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 89, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 89, H.D. 1, and be referred to your Committee on Education.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Cochran, La Chica, Pierick).

SCRep. 218 Housing on H.B. No. 464

The purpose of this measure is to improve tenants' ability to secure adequate housing by:

- (1) Requiring, for tenancies greater than ninety days, a landlord to notify a tenant of any intent to raise the rent for any subsequent rental agreement or any termination of a rental agreement sixty days before the expiration of the original rental agreement;
- (2) Requiring ninety days' notice for a landlord or tenant to terminate tenancies of three years or more and sixty days' notice to terminate tenancies of less than three years, with certain exceptions; and
- (3) Increasing the amount of notice required to terminate tenancies that are less than month-to-month.

Your Committee received testimony in support of this measure from the Maui Housing Hui; Hawaii Appleseed Center for Law & Economic Justice; Hawai'i Workers Center; Catholic Charities Hawai'i; and numerous individuals. Your Committee received comments on this measure from the Department of the Attorney General and Hawai'i Association of REALTORS.

Your Committee finds that ample notice periods for rent increases and termination of rental agreements is essential for tenants to plan their housing arrangements and for landlords to manage their properties effectively. However, when a landlord exercises terminations rights under the Residential Landlord-Tenant Code, tenants may experience sudden displacement. This measure ensures housing stability for working families by increasing protections for tenants, while ensuring transparency and fairness in rental agreements.

Your Committee has amended this measure by:

- (1) Clarifying that this measure shall not impair existing rental agreements and rental agreement renewals entered into before the effective date;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 464, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 464, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Cochran, Kitagawa).

SCRep. 219 Housing on H.B. No. 745

The purpose of this measure is to streamline building codes by:

- (1) Beginning January 1, 2028, superseding all existing county building codes by the most recent Hawaii state building code adopted by the State Building Code Council and thereafter allowing the counties to remove requirements set by the state building codes or add requirements to the state building codes only with prior council approval; and
- (2) Repeal the counties' authority to adopt, amend, and update the state building codes for their respective county building codes.

Your Committee received testimony in support of this measure from the Grassroot Institute of Hawaii; Hawai'i YIMBY; Legislative Advocacy Committee, American Institute of Architects, Hawaii State Council; and one individual.

Your Committee finds that under existing law, the State Building Code Council is required to adopt every iteration of the International Building Code and related codes within two years of their release; the counties have an additional two years to adopt and make their amendments to the state code. Your Committee further finds that the staggered adoption process means county building officials, builders, and architects must constantly re-learn the build code requirements. This takes time and training, which can result in higher administrative costs, and can exacerbate permitting delays, which in turn can affect the price of housing. This measure removes this two-step process and ensures that a swift adoption of the state building code will be consistent statewide.

Your Committee has amended this measure by:

- (1) Clarifying the date on which all existing county building codes are superseded by the Hawaii State Building Code;
- (2) Deleting specifications for how each county may amend the Hawaii State Building Code after the county building codes are superseded;
- (3) Changing the effective date to January 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 745, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 745, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Grandinetti). Noes, none. Excused, 3 (Cochran, La Chica, Pierick).

SCRep. 220 Housing on H.B. No. 420

The purpose of this measure is to:

- (1) Clarify the statute of repose to make it clear that it applies to contract, tort, and statutory claims, fraudulent concealment is not a defense with respect to the repose period, and require a violation of a building code to be material to be actionable;
- (2) Clarify the required contents of a notice of claim of construction defect served on a contractor;
- (3) Amend the process and time frame for a claimant to accept a contractor's offer to settle or inspect and authorize the contractor to proceed with repairs;
- (4) Limit the amount a claimant can recover if the claimant rejects a contractor's reasonable proposal for inspection or a reasonable offer to remedy; and
- (5) Clarify the consequences of rejecting an offer of settlement.

Your Committee received testimony in support of this measure from Pacific Resource Partnership; General Contractors Association of Hawaii; Ali'i Glass & Metal, Inc.; Hawaii Laborers & Employers Cooperation and Education Trust; Hawaii Regional Council of Carpenters; Hawai'i Association of REALTORS; Housing Hawai'i's Future; R. M. Towill Corporation; Mutual Housing Association of Hawai'i, Inc.; Paradigm Construction LLC; Hawai'i YIMBY; Holomua Collaborative; Gentry Homes, Ltd.; D.R. Horton Hawaii; Kasdan Turner Thomson Booth, LLC; Kapolei Chamber of Commerce; Operating Engineers Local 3; Raynor Hawaii Overhead Doors and Gates Inc.; Case Lombardi, A Law Corporation; KY International, Inc.; Damon Key Leong Kupchak Hastert A Law Corporation; Island Flooring; Z Contractors, Inc.; A-Plus Seamless Rain Gutters, Inc.; and numerous individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the intent of the Contractor Repair Act was to foster a cooperative, good-faith process between builders and homeowners to address legitimate construction defects. However, the existing system has gone astray of that original intent. Excessive legal claims against new developments have had far-reaching consequences, including increased construction costs, higher insurance premiums, and more restrictive lending conditions. This measure intends to restore a fair dispute-resolution process for resolving construction defects, which will promote a more sustainable and affordable housing market in Hawaii.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 420, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 420, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Muraoka). Noes, none. Excused, 2 (Cochran, Kitagawa).

SCRep. 221 Housing on H.B. No. 1410

The purpose of this measure is to:

- (1) Establish the Supportive Housing Special Fund;
- (2) Restructure the conveyance tax to a marginal rate system and adjust the tax for multifamily properties to reflect value on a per-unit basis;
- (3) Allocate revenues from conveyance tax collections to the Supportive Housing Special Fund; and
- (4) Allocate a portion of conveyance tax collections to the Dwelling Unit Revolving Fund to fund infrastructure programs in county-designated transit-oriented development zones or districts that meet minimum standards of transit-supportive density.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Catholic Charities Hawai'i; Hawaii Appleseed Center for Law & Economic Justice; and one individual. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS; and Land Use Research Foundation of Hawaii. Your Committee received comments on this measure from the Department of Land and Natural Resources; Department of Taxation; Department of Budget and Finance; Tax Foundation of Hawaii; and Grassroot Institute of Hawaii.

Your Committee finds that the State's affordable housing crisis requires immediate action to ensure sustainable growth. The existing funding mechanisms for affordable housing and supportive services are fragmented and insufficient, leaving many vulnerable populations without stable housing. This measure will restructure the conveyance tax, thereby generating dedicated revenue for affordable and supportive housing projects.

Your Committee notes the concern raised in testimony that this measure could potentially discourage adaptive reuse and your Committee will continue to work to address this concern as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Requiring proceeds from the conveyance tax deposited into the Dwelling Unit Revolving Fund to only be used to fund infrastructure programs in areas that meet minimum standards of transit-supportive density requirements;
- (2) Inserting definitions for "county-designated transit-oriented development area", "floor area ratio", and "ministerial";
- (3) Amending the definition of "transit-supportive density" to include certain development standards and other requirements;
- (4) Clarifying the calculation of the cost-of-living adjustments to conveyance tax rates;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that the Department of Taxation has requested an effective date of January 1, 2026, for this measure, to give the Department sufficient time to make changes necessary for the conveyance tax rate changes and amendments to the allocation of revenues.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1410, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1410, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 2 (Muraoka, Pierick). Excused, 1 (Cochran).

SCRep. 222 Housing on H.B. No. 1318

The purpose of this measure is to:

- (1) Remove from the definition of "public lands" lands set aside by the Governor to the counties for the purpose of affordable housing; and
- (2) Allow the Board of Land and Natural Resources to issue residential leases for affordable housing with an aggregate of initial terms and extension up to ninety-nine years.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and Kaua'i County Housing Agency. Your Committee received comments on this measure from the Department of Land and Natural Resources and Office of Hawaiian Affairs.

Your Committee finds that Hawaii's ongoing housing crisis requires innovative solutions to increase the supply of affordable homes, particularly on underutilized state lands. While the State has set aside certain lands for county-led affordable housing development, bureaucratic hurdles have slowed progress. This measure removes certain lands from the definition of "public lands", streamlining the approval process and enabling counties to move forward with much-needed housing projects more efficiently.

Your Committee notes that it is the intent of the Legislature to ensure that counties utilizing ceded lands are in full fulfillment of the public trust. While your Committee acknowledges the request in testimony from the Department of Land and Natural Resources to clarify the fiduciary duty to manage lands as set aside under this measure, your Committee has concerns that specifically requiring only these lands to be managed pursuant to the public trust could be construed to mean that the other exemptions to the definition of "public land" are not required to fulfill their public trust fiduciary duties and obligations.

Your Committee has amended this measure by:

- (1) Defining "affordable housing";
- (2) Deleting language that would have authorized residential leases made by the Board of Land and Natural Resources for affordable housing to be made for an initial term of fifty-five years, not to exceed ninety-nine years;
- (3) Specifying that lands set aside by the Governor to the counties for affordable housing require legislative approval for the sale or gift of such lands; and
- (4) Changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1318, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1318, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Muraoka). Noes, none. Excused, 2 (Cochran, Kitagawa).

SCRep. 223 Energy & Environmental Protection on H.B. No. 461

The purpose of this measure is to require the Director of Human Resources Development, in consultation with the Hawaii Climate Change Mitigation and Adaptation Commission, Hawaii State Energy Office, and Department of Accounting and General Services, to develop and implement a Commuting Choice Benefit Program for all state employees regardless of mode of transportation.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office; Hawai'i Climate Change Mitigation and Adaptation Commission; Oahu Metropolitan Planning Organization; and three individuals. Your Committee received comments on this measure from the Department of Accounting and General Services; Department of Human Resources Development; and one individual.

Your Committee finds that the State's policy of providing subsidized parking for state employees creates an inequitable transportation benefit and discourages the use of alternative commuting methods. Your Committee further finds that employees who walk, bike, use public transit, or car-share do not receive comparable subsidies, despite using a more environmentally friendly mode of transportation. This measure strives to provide equitable transportation benefits for all state employees, regardless of their mode of travel, through the establishment of a Commuting Choice Benefit Program.

Your Committee has amended this measure by:

- (1) Requiring the Commuting Choice Benefit Program to conduct education and outreach regarding state employee transportation benefits;
- (2) Requiring each state department and agency to establish a Volunteer Employee Transportation Coordinator;
- (3) Requiring the Department of Human Resources Development to offer fully subsidized public transit and bikeshare passes;
- (4) Requiring the Department of Human Resources Development to develop a Parking Opt-Out Program;
- (5) Adding an appropriation of an unspecified amount for the development of the Commuting Choice Benefit Program and establishment of positions;
- (6) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation for one full-time equivalent (1.0 FTE) permanent position within the Department of Human Resources Development and one full-time equivalent (1.0 FTE) permanent position within the Oahu Metropolitan Planning Organization.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 461, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 461, H.D. 1, and be referred to your Committee on Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 224 Energy & Environmental Protection on H.B. No. 790

The purpose of this measure is to:

- (1) Establish an installation goal for customer-sited distributed energy resources in the State;
- (2) Ensure that fair compensation is provided to distributed energy resources exports as part of grid service programs; and
- (3) Authorize retail wheeling of renewable energy and require the Public Utilities Commission to establish policies and procedures to implement retail wheeling and microgrid service tariffs.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office; Hawaii Green Infrastructure Authority; Sunrun; Photonworks Engineering; Credence Projects LLC; Energy Advisors, LLC; Enphase Energy, Inc.; Hawaii Solar Energy Association; Holu Hou Energy; and seven individuals. Your Committee received testimony in opposition to this measure from Hawaiian Electric; International Brotherhood of Electrical Workers Local Union 1260; and Kaua'i Island Utility Cooperative. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs; Public Utilities Commission; and Life of the Land.

Your Committee finds that customer-sited distributed energy resources, such as rooftop solar and energy storage systems, play a critical role in meeting the State's renewable energy goals. This measure seeks to increase renewable energy usage by establishing an installation goal for customer-sited distributed energy resources and ensuring fair compensation is provided to distributed energy resource exports.

Your Committee has amended this measure by:

- (1) Changing the deadline for the distributed energy resources installation goal to December 31, 2030;
- (2) Clarifying that the Public Utilities Commission may, but is not required to, use tariffs for grid services programs and community-based renewable energy;
- (3) Removing an exemption from the definition of "public utility" relating to microgrid construction, maintenance, or operation and the authorization for the Public Utilities Commission to use tariffs for microgrids and retail wheeling;
- (4) Changing the rate at which energy exported to the electric grid as part of a grid service program will be credited to a rate sufficient to encourage the deployment of distributed energy resources in order to meet the goal of December 31, 2030;
- (5) Removing the authorizations for microgrids and retail wheeling;
- (6) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 790, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 790, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 225 Energy & Environmental Protection on H.B. No. 932

The purpose of this measure is to establish a Green Bonds Working Group to develop recommendations for creating a green bonds financing program for Hawaii.

Your Committee received testimony in support of this measure from the Hawaii Green Infrastructure Authority; Office of Planning and Sustainable Development; Climate Protectors Hawai'i; Hawai'i Reef and Ocean Coalition; Hawaii Food+ Policy; and Coalition Earth. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that green bonds are specifically aimed at funding projects that have positive environmental impacts and include investments in renewable energy, energy efficiency, clean transportation, sustainable agriculture, and green infrastructure. This measure helps evaluate the potential for the establishment of a green bonds financing program for the State by establishing a Green Bonds Working Group.

Your Committee amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 932, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 932, H.D. 1, and be referred to your Committee on Economic Development & Technology.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 226 Energy & Environmental Protection on H.B. No. 1077

The purpose of this measure is to:

- (1) Authorize the Department of Defense to fund projects that strengthen the State's resiliency against climate change;
- (2) Require the Department of Defense to convene a selection committee to review and recommend projects to receive an allocation of monies from the Climate Mitigation and Resiliency Special Fund;
- (3) Establish the Climate Mitigation and Resiliency Special Fund;
- (4) Establish the Economic Development and Revitalization Special Fund;
- (5) Increase the Transient Accommodations Tax and allocate a portion of the tax to the Climate Mitigation and Resiliency Special Fund and the Economic Development and Revitalization Special Fund; and
- (6) Appropriate funds into and out of the special funds established in this measure.

Your Committee received testimony in support of this measure from the Office of the Governor; Office of the Governor Recovery and Resiliency Unit; Hawai'i Climate Advisory Team; Department of Land and Natural Resources; Department of Business, Economic Development, and Tourism; Hawai'i Emergency Management Agency; Hawaii State Energy Office; Office of Planning and Sustainable Development; Hawaii Green Infrastructure Authority; Hawai'i Climate Change Mitigation & Adaptation Commission; Kua'āina Ulu 'Auamo; Hawai'i Land Trust; Coalition Earth; Climate Protectors Hawai'i; Pacific Whale Foundation; Care for 'Āina Now Coalition; and three individuals. Your Committee received testimony in opposition to this measure from 3 G International, Inc.; Grassroot Institute of Hawaii; Maui Chamber of Commerce; and eight individuals. Your Committee received comments on this measure from the Department of the Attorney General; Department of Taxation; Hawai'i Tourism Authority; Tax Foundation of Hawaii; and Hawai'i Lodging & Tourism Association.

Your Committee finds that the State is experiencing a climate emergency that is threatening the health and well-being of Hawaii's residents and environment. This measure establishes funding mechanisms to advance projects addressing climate change, including the establishment of the Climate Mitigation and Resiliency Special Fund and Economic Development and Revitalization Special Fund.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified amounts;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider the following appropriation amounts:

- (1) \$50,000,000 into and out of the Climate Mitigation and Resiliency Special Fund;
- (2) \$90,000,000 out of the Climate Mitigation and Resiliency Special Fund; and
- (3) \$90,000,000 out of the Economic Development and Revitalization Special Fund.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1077, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1077, H.D. 1, and be referred to your Committees on Economic Development & Technology and Tourism.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 227 Energy & Environmental Protection on H.B. No. 1307

The purpose of this measure is to provide follow-up funding for the next steps in the investigation, exploration, and identification of geothermal resources on Hawaiian home lands.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Hawaiian Electric; Sustainable Energy Hawai'i; Ulupono Initiative; and three individuals. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that geothermal resources can provide a stable alternative to biofuels. Your Committee further finds that the Department of Hawaiian Home Lands has been provided funding for the investigation, exploration, and identification of geothermal resources on Hawaiian home lands. However, the

Department of Hawaiian Home Lands requires additional funding for water well development at certain sites for further exploration of geothermal resources. This measure appropriates follow-up funding for this purpose.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$20,000,000.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1307, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1307, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 228 Energy & Environmental Protection on H.B. No. 1459

The purpose of this measure is to establish requirements for commercial airlines to utilize at least ten per cent sustainable aviation fuel in intrastate flights beginning January 1, 2030, to be increased annually by five per cent until January 1, 2045, at which time one hundred per cent sustainable aviation fuel will be required.

Your Committee received testimony in support of this measure from Coalition Earth; Blue Planet Foundation; Biotechnology Innovation Organization; and one individual. Your Committee received testimony in opposition to this measure from Alaska x Hawaiian Airlines; Environmental Caucus of the Democratic Party of Hawai'i; Energy Justice Network; and Airlines for America. Your Committee received comments on this measure from the Department of the Attorney General and Twelve Benefit Corporation.

Your Committee finds that sustainable aviation fuel offers a promising alternative to conventional fuels and can help minimize carbon emissions while fostering economic growth in the clean energy sector. This measure helps increase sustainable aviation fuel usage by requiring commercial airlines to utilize at least ten per cent sustainable aviation fuel in intrastate airline flights by January 1, 2030.

Your Committee has amended this measure by:

- (1) Removing the annual five per cent increases for sustainable aviation fuel usage and the requirement for one hundred per cent sustainable aviation fuel usage;
- (2) Removing the requirement that the Department of Transportation collaborate with various entities for the development and funding of sustainable aviation fuel;
- (3) Requiring the Department of Transportation to adopt rules in consultation with the Hawaii State Energy Office;
- (4) Removing the requirement that the Department of Transportation adopt rules to incentivize the development and use of sustainable aviation fuels;
- (5) Amending the definition of "sustainable aviation fuel" to mean liquid fuels that consist of synthesized hydrocarbons, meet certain standards, and are derived from biomass resources, waste streams, renewable or zero carbon energy sources, or gaseous carbon oxides;
- (6) Removing the appropriation;
- (7) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1459, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1459, H.D. 1, and be referred to your Committee on Transportation.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 229 Energy & Environmental Protection on H.B. No. 1495

The purpose of this measure is to establish the Keauhou Aquifer System Monitoring Pilot Program and appropriate funds to the Department of Land and Natural Resources to install two monitoring wells in the Keauhou Aquifer System.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawaii Housing Finance and Development Corporation; Natural Energy Laboratory of Hawaii Authority; and one individual.

Your Committee finds that the Keauhou Aquifer System is a vital water source that sustains local communities, ecosystems, and cultural practices. Your Committee further finds that the Keauhou Aquifer System faces ongoing challenges due to water demand and overuse. Your Committee recognizes the importance of monitoring these vital water resources and believes this measure will address this need by establishing a Keauhou Aquifer System Monitoring Pilot Project and appropriating funds for the installation of two monitoring wells in the Keauhou Aquifer System.

Your Committee has amended this measure by:

- (1) Amending the Keauhou Aquifer System Monitoring Pilot Project by:
 - (A) Clarifying that the Commission on Water Resource Management may work with other agencies;
 - (B) Clarifying that the Commission will conduct water salinity tests and include water salinity analysis in reports to the Legislature;
 - (C) Adding additional responsibilities related to monitoring, public outreach, and planning; and
 - (D) Requiring the Department of Land and Natural Resources to determine whether to continue, expand, or end the Keauhou Aquifer System Monitoring Pilot Project based on its assessment of the Pilot Project;
- (2) Adding an appropriation for the Keauhou Aquifer System Monitoring Pilot Project;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and

(4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider the appropriation amounts of:

- (1) \$200,000 for the Keauhou Aquifer System Monitoring Pilot Project; and
- (2) \$163,000 for the installation of two monitoring wells in the Keauhou Aquifer System.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1495, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1495, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 230 Energy & Environmental Protection on H.B. No. 982

The purpose of this measure is to:

- (1) Establish the Wildfire Recovery Fund; and
- (2) Allow for securitization for electric utilities.

Your Committee received testimony in support of this measure from the Hawai'i Climate Advisory Team; Kalaeloa Partners LP; Plus Power; Ulupono Initiative; International Brotherhood of Electrical Workers Local Union 1260; Hawaii Cattlemen's Council, Inc.; Sustainable Energy Hawai'i; Par Hawaii; Kauai'i Island Utility Cooperative; Hawaiian Electric; Retail Merchants of Hawaii; Hawai'i Farm Bureau; Chamber of Commerce Hawaii; Ameresco; Land Use Research Foundation of Hawaii; Hawai'i Island Chamber of Commerce; Clearway Energy Group; AES Hawai'i; Kapolei Chamber of Commerce; North Kohala Community Resource Center; Kona-Kohala Chamber of Commerce; Hawaii Fire Fighters Association; Maui Chamber of Commerce; and numerous individuals. Your Committee received testimony in opposition to this measure from Hawaii Insurers Council; Hawaii Regional Council of Carpenters; Pacific Resource Partnership; and Hawaii Association for Justice. Your Committee received comments on this measure from the Office of the Governor; Department of the Attorney General; Department of Commerce and Consumer Affairs; Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs; Public Utilities Commission; and Life of the Land.

Your Committee finds that the increasing risk of catastrophic wildfires in Hawaii has heightened the threat of property damage, and the litigation process for compensation is costly and inefficient. To address this, an administrative claims process will provide a faster, low-cost alternative for claimants while preserving their right to litigation and ensuring the financial stability of regulated utilities. This measure also supports securitization as an efficient funding mechanism, balancing wildfire recovery efforts with the long-term resilience of Hawaii's utility infrastructure.

Your Committee has amended this measure by:

- (1) Expanding the definition of "catastrophic wildfire" to include wildfires that, for an electric cooperative with less than fifty thousand residential members, cause a certain dollar amount of potential claims to be determined by Executive Director of the Wildfire Recovery Fund;
- (2) Clarifying that the definition of "qualified damages" means economic damages;
- (3) Requiring a person or entity to provide a comparison of costs for current commercial insurance coverage compared to wildfire property damage and loss, in order to be eligible to participate as a contributor;
- (4) Changing the initial contributions from investor-owned electric utilities to be \$500,000,000, to be recovered from customers, and \$505,000,000 to be funded by shareholders;
- (5) Clarifying that an error resulting from the failure of a system, process, or program to prevent the error could qualify as a basis for a finding of imprudence;
- (6) Requiring the Executive Director of the Wildfire Recovery Fund to submit an annual report regarding the Wildfire Recovery Fund to the Public Utilities Commission in addition to the Legislature;
- (7) Amending the definition of "financing costs" to mean reasonable costs to issue, service, repay, or refinance bonds and include costs related to the engagement of services of a financial advisor by the Public Utilities Commission;
- (8) Removing professional fees, consultant fees, redemption premiums, tender premiums, and other costs incurred by the electric utility in using proceeds of bonds to acquire outstanding securities from the definition of "wildfire recovery costs";
- (9) Clarifying that an application for a financing order shall include only a description of how wildfire recovery costs will be allocated among consumers;
- (10) Requiring the Public Utilities Commission to issue approval or denial of any application for a financing order within ninety days of the last filing in the applicable docket;
- (11) Requiring the Public Utilities Commission to consider whether the issuance of bonds and imposition and collection of wildfire recovery charges are consistent with the public interest;
- (12) Clarifying that wildfire recovery charges and any associated fixed recovery tax amounts will be imposed only on existing and future customers in the utility service territory of the electric utility subject to such financing order;
- (13) Clarifying that section B-3(b), Hawaii Revised Statutes, relating to wildfire recovery financing order, shall not preclude actions that would not adversely affect the interests of the electric utility, assignees of wildfire recovery property, and bondholders;
- (14) Requiring periodic true-up adjustments to wildfire recovery charges to consider interest on ratepayer investments into the Wildfire Recovery Fund;
- (15) Authorizing the Public Utilities Commission to engage the services of a financial advisor to assist in its consideration of an application for a financing order;
- (16) Clarifying that the Legislature authorizes the issuance of special revenue bonds for costs that require an allocation of the annual state ceiling for private activity bonds;
- (17) Authorizing project agreements entered into in connection with the issuance of special purpose revenue bonds to finance costs to include a project agreement with an affiliate of an electric or gas utility;
- (18) Clarifying that the Legislature authorizes the allocation of the annual state ceiling to the issuance of bonds that require allocation in order for the interest on the bonds to be tax-exempt;

- (19) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (20) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes the concerns raised in the testimony submitted by the Department of Commerce and Consumer Affairs regarding the need for Hawaiian Electric to issue further evidence and quantitative analysis regarding how it reached the \$1.005 billion initial contribution amount.

Your Committee recognizes that there is a need to determine when it is appropriate for the Wildfire Recovery Fund to end, should the insurance market and the public utility's credit rating stabilize, and how, upon the Fund ending, ratepayers would get refunded.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 982, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 982, H.D. 1, and be referred to your Committees on Consumer Protection & Commerce and Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Quinlan, Ward).

SCRep. 231 Energy & Environmental Protection/Agriculture & Food Systems on H.B. No. 760

The purpose of this measure is to:

- (1) Reenact the Agricultural Development and Food Security Special Fund;
- (2) Establish and appropriate funds into the Carbon Emissions Tax and Dividend Special Fund;
- (3) Establish a refundable Carbon Cashback Tax Credit to mitigate the impact of a carbon emissions tax on lower-income taxpayers; and
- (4) Amend the Environmental Response, Energy, and Food Security Tax by taxing fossil fuels based on their emissions.

Your Committees received testimony in support of this measure from the Department of Agriculture; Kauai Climate Action Coalition; Citizens' Climate Lobby Hawaii; Carbon Cashback Hawaii; Climate Future Forum; Coalition Earth; Citizens Climate Lobby at the University of Hawai'i at Mānoa; Hawai'i Farmers Union; Haiku Laboratories; and numerous individuals. Your Committees received testimony in opposition to this measure from Life of the Land; Grassroot Institute of Hawaii; Retail Merchants of Hawaii; Greenpeace Hawaii; Hawaiian Islands Republican Women; Kaua'i Island Utility Cooperative; and numerous individuals. Your Committees received comments on this measure from the Department of Taxation; Department of Budget and Finance; Department of Health; Tax Foundation of Hawaii; Airlines for America; and Maui Chamber of Commerce.

Your Committees find that there is an urgent need to reduce Hawaii's greenhouse gas emissions in order to meet the State's zero emissions clean economy goal. This measure addresses this need by taxing fossil fuels based on their emissions and establishing a tax credit to mitigate the effect of the tax on taxpayers, establishing a Carbon Emissions Tax and Dividend Special Fund, and reenacting the Agricultural Development and Food Security Special Fund.

Your Committees have amended this measure by:

- (1) Amending the Carbon Cashback Tax Credit by:
 - (A) Expanding eligibility to any Hawaii taxpayer who files an individual income tax return; and
 - (B) Changing the qualifications for the amount of tax credit a taxpayer will receive to be based on filing status and number of dependents instead of income;
- (2) Clarifying that unspecified percentages of Environmental Response, Energy, Carbon Emissions, and Food Security Tax paid on all petroleum products, rather than the tax paid on just certain fuels for airplanes and small boats, shall be deposited into the Airport Revenue Fund and Boating Special Fund, respectively;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Energy & Environmental Protection and Agriculture & Food Systems that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 760, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 760, H.D. 1, and be referred to your Committee on Economic Development & Technology.

Signed by the Chairs on behalf of the Committees.
Energy & Environmental Protection: Ayes, 5. Noes, none. Excused, 1 (Ward).
Agriculture & Food Systems: Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 232 Agriculture & Food Systems on H.B. No. 547

The purpose of this measure is to:

- (1) Establish and appropriate funds into a Spay and Neuter Special Fund to reduce pet overpopulation and the reproduction of free-roaming cats; and
- (2) Establish various revenue and fundraising sources for the Special Fund.

Your Committee received testimony in support of this measure from the Animal Interfaith Alliance in Britain; Animal Rights Hawai'i; AdvoCATS, Inc.; Hawaiian Humane Society; Hawai'i Reef and Ocean Coalition; Aloha Animal Advocates; Pele Lani Farm, LLC; Big Island Invasive Species Committee; and numerous individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance; Department of Land and Natural Resources; Department of Taxation; and Tax Foundation of Hawaii.

Your Committee finds that feral cats have become a significant issue in Hawaii, particularly in suburban and urban areas, where their growing population threatens native wildlife, disrupts ecosystems, and raises public health concerns. Spaying and neutering are effective methods for reducing pet overpopulation and humanely managing free-roaming cat populations. Despite the benefits, the State currently provides no dedicated funding to address these issues. Therefore, to support these efforts, this measure establishes a Spay and Neuter Special Fund, along with various revenue and fundraising sources, to help control pet overpopulation and reduce the number of free-roaming cats in a humane and sustainable manner.

Your Committee notes the concerns of the Department of Budget and Finance regarding its lack of subject-matter expertise to properly administer the Spay and Neuter Special Fund and possibly appropriating funds directly to the counties, who have historically been responsible for animal control functions.

Your Committee has amended this measure by:

- (1) Moving language that authorizes the proposed check-off option for the spaying and neutering of animals for income tax purposes to section 235-102.5, Hawaii Revised Statutes;
- (2) Changing the appropriation amounts to unspecified amounts;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully respects your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$50,000 to be appropriated into and out of the Spay and Neuter Special Fund to reduce pet overpopulation and the reproduction of free-roaming cats.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 547, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 547, H.D. 1, and be referred to your Committee on Culture & Arts.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Quinlan, Ward).

SCRep. 233 Agriculture & Food Systems on H.B. No. 1185

The purpose of this measure is to establish and appropriate funds for a working group to study and report on how best to grow plants and develop plant-based building materials in Hawaii.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farmers Union; Hawai'i Reef and Ocean Coalition; Climate Protectors Hawai'i; Hawai'i Farm Bureau; and four individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that Hawaii's climate provides an ideal environment for cultivating plant-based materials that can be processed into sustainable building materials. Fast-growing resources like clumping bamboo, industrial hemp, and biocements offer strong, flexible, and environmentally friendly alternatives to traditional materials while also supporting carbon sequestration. To explore this potential, this measure establishes and funds a working group to study and develop strategies for growing and producing plant-based building materials in Hawaii, which could result in the creation of green, agricultural jobs and help the State meet its net negative carbon and greenhouse gas emission reduction goals.

Your Committee has amended this measure by:

- (1) Clarifying that this measure is a matter of statewide concern;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1185, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1185, H.D. 1, and be referred to your Committee on Higher Education.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Quinlan, Ward).

SCRep. 234 Agriculture & Food Systems/Tourism on H.B. No. 966

The purpose of this measure is to establish statewide, uniform standards to promote agricultural tourism activities in the State by:

- (1) Creating agricultural tourism activity requirements that are applicable to all counties that have adopted an agricultural tourism ordinance;
- (2) Requiring agricultural tourism activities to be registered by the respective county planning commission; and
- (3) Requiring agricultural tourism activities to coexist with an agricultural activity on a farming operation and providing for the termination of agricultural tourism activities upon the cessation of the agricultural activity.

Your Committees received testimony in support of this measure from Heavenly Hawaiian Farms; Covfefe Coffee Farm; Hawai'i Farmers Union; Hawai'i Farm Bureau; Hawaii Coffee Growers Association; Rising Kona Coffee Farm Tours; Kailua Kona Estate; Hawaii Coffee Association; and one individual. Your Committees received testimony in opposition to this measure from the Hawaii Cattlemen's Council; Kualoa Ranch; and two individuals. Your Committees received comments on this measure from the Department of Agriculture; Hawai'i Tourism Authority; Mahina Farms, Maui LLC; Grassroot Institute of Hawaii; and one individual.

Your Committees find that agricultural tourism is becoming an essential revenue stream for farms and ranches nationwide, helping to sustain agricultural operations. However, Hawaii's inconsistent county-level permitting processes create regulatory barriers that hinder the growth of agricultural tourism and limit its potential as a viable business model. A uniform statewide framework would encourage investment, support regenerative tourism efforts, and strengthen partnerships between farmers and local businesses. To achieve this, this measure establishes consistent agricultural tourism activity requirements, mandates county planning commission registration, and ensures that agricultural tourism remains tied to active farming operations.

Your Committees have amended this measure by:

- (1) Deleting language that would have prohibited revenue from all agricultural tourism activities on a farming operation from exceeding revenue from the agricultural activity conducted on the farming operation;
- (2) Clarifying that agricultural tourism shall only be allowed on land on which productive agricultural use is occurring;
- (3) Removing language that would have prohibited a person from staying in overnight accommodations included with agricultural tourism activities for longer than twenty-one days in total within one county during any one-year period;
- (4) Clarifying that agricultural tourism activities shall be registered by the owner or lessee with the county planning department, rather than county planning commission;
- (5) Expanding agricultural-based commercial operations to include a roadside stand or retail activities in an enclosed structure under three hundred square feet that is on a trailer;
- (6) Changing the effective date to July 1, 3000, to encourage further discussion; and

(7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Agriculture & Food Systems and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 966, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 966, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chairs on behalf of the Committees.

Agriculture & Food Systems: Ayes, 5. Noes, none. Excused, 1 (Ward).

Tourism: Ayes, 5. Noes, none. Excused, 2 (Hussey, Matsumoto).

SCRep. 235 Labor on H.B. No. 755

The purpose of this measure is to require the Department of Labor and Industrial Relations:

- (1) By January 1, 2028, to establish a Family and Medical Leave Insurance Program and begin collecting payroll contributions; and
- (2) By January 1, 2029, to begin receiving claims and paying benefits under the Program.

Your Committee received testimony in support of this measure from the Office of Wellness and Resilience; Hawai'i State Commission on the Status of Women; one member of the Hawai'i County Council; two members of the Kaua'i County Council; ACLU of Hawai'i; American Association of University Women of Hawaii; AARP Hawai'i; Catholic Charities Hawai'i; Chamber of Sustainable Commerce; Hawai'i Alliance for Progressive Action; Democratic Party of Hawai'i Education Caucus; Early Childhood Action Strategy; Hawai'i Appleseed; Hawai'i Family Caregiver Coalition; Hawai'i Children's Action Network Speaks!; Hawai'i Nurses' Association; Hawai'i State Coalition Against Domestic Violence; Hawai'i Workers Center; Hawaii Teamsters and Allied Workers Local 996; Healthy Eating Active Living Coalition; International Alliance of Theatrical Stage Employees Local 665; Kūpuna Caucus of the Democratic Party of Hawai'i; Imua Alliance; Leukemia and Lymphoma Society; Papa Ola Lōkahi; Pride at Work; Stonewall Caucus of the Democratic Party of Hawaii; and numerous individuals. Your Committee received testimony in opposition to this measure from the 604 Hospitality Group LLC; Grassroot Institute of Hawaii; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; United Public Workers, AFSCME Local 646, AFL-CIO; Hawaii Restaurant Association; Highway Inn; Kuleana Rum Works; Maui Chamber of Commerce; Retail Merchants of Hawaii; Society of Human Resource Management-Hawaii; and Tiki's Grill and Bar. Your Committee received comments on this measure from the Department of Human Resources Development; Department of Labor and Industrial Relations; Kapolei Chamber of Commerce; and one individual.

Your Committee finds that Hawaii's working families are not adequately supported during times of caregiving and illness. While the federal Family and Medical Leave Act allows twelve weeks of unpaid leave to employees who have worked at a business that employs fifty or more employees, the majority of Hawaii's workforce cannot afford to take unpaid leave to care for a new child or attend to the needs of a family member with a serious health condition. Your Committee believes this measure ensures that employees in Hawaii are provided family and medical leave insurance benefits when they need to provide care for their families.

Your Committee amended this measure by:

- (1) Removing the definition of "application year" and replacing the term with "benefit year";
- (2) Inserting a definition of "benefit year";
- (3) Replacing the term "application" with "claim", to eliminate ambiguity;
- (4) Adjusting the minimum earning requirement for a covered individual from \$400 to \$5,040, to reflect what the minimum wage will be in 2028;
- (5) Inserting a definition of "designated person" and including this term in the definition of "family member";
- (6) Including the spouse or domestic partner of a covered individual's sibling in the definition of "family member";
- (7) Inserting a definition of "wage";
- (8) Clarifying when family and medical leave insurance benefits must first be paid and how often;
- (9) Specifying a deadline to file a claim for family and medical leave insurance benefits;
- (10) Clarifying that family and medical leave insurance benefits will not be payable until the covered individual accrues at least eight hours of family and medical insurance benefits leave;
- (11) Removing language that would have limited the sequential use of accrued family and medical leave hours;
- (12) Adding language to clarify that this measure does not conflict with the Employee Retirement Income Security Act and the Prepaid Health Care Act;
- (13) Adding language to prevent simultaneous payments for vacation, sick, or other earned leave benefits and for family and medical leave insurance benefits when a covered individual uses accrued leave while receiving family and medical leave insurance benefits;
- (14) Clarifying that family and medical leave insurance benefits may be subject to federal income tax but are not subject to state income tax;
- (15) Authorizing the use of funds from the Family and Medical Leave Trust Fund to establish information technology and data systems for the Family and Medical Leave Program;
- (16) Repealing statutory language that prohibits an employee from using accrued sick leave for family leave purposes;
- (17) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (18) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Consumer Protection & Commerce, should it deliberate on this measure, to consider the establishment of 120 positions required for the Department of Labor and Industrial Relations to successfully administer this program, as requested by the Department of Labor and Industrial Relations in written testimony.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 755, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 755, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Kong, Reyes Oda).

SCRep. 236 Consumer Protection & Commerce on H.B. No. 364

The purpose of this measure is to:

- (1) Prohibit the ownership of a cat over the age of three months, unless the cat is surgically sterilized, with some exemptions;
- (2) Authorize the county animal control authority to administer a breeding cat permit program; and
- (3) Establish a special fund to be:
 - (A) Administered by the Department of Budget and Finance, with the assistance of an advisory committee, to provide monies for the reduction of pet overpopulation in the State; and
 - (B) Funded by fees, an income tax designation, and special motor vehicle number plates.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawai'i Reef and Ocean Coalition; Fur-Angel Foundation; Environmental Caucus of the Democratic Party of Hawai'i; Animal Interfaith Alliance in Britain; American Bird Conservancy; Love a Cat Charity; Hawaiian Humane Society; Hui Ho'omalua i ka 'Aina; Cat Colony Caregivers Honolulu; Pacific Whale Foundation; Lucky Paws; The Wildlife Society Hawai'i Chapter; Animal Rights Hawai'i; and numerous individuals. Your Committee received testimony in opposition to this measure from Aloha Animal Advocates; Pele Lani Farm LLC; Cat Fanciers of Hawaii Cat Club; and eight individuals. Your Committee received comments on this measure from the Department of Taxation; Department of the Attorney General; Department of Budget and Finance; Hawaii Board of Veterinary Medicine; and two individuals.

Your Committee finds that the State is experiencing a cat overpopulation crisis that endangers cats, other domestic animals, wildlife, and human communities. Your Committee further finds that one of the most effective strategies to address the cat overpopulation is to encourage the sterilization of pet cats and free-roaming cats. This measure takes an important step in addressing cat overpopulation by requiring the sterilization of cats over a certain age and establishing a breeding cat permit program.

Your Committee has amended this measure by:

- (1) Specifying that the advisory committee is established within the Department of Budget and Finance;
- (2) Amending the age for requiring the sterilization of male cats from three months of age to five months of age;
- (3) Clarifying that one of the offenses for disqualifying an applicant for a breeding cat permit is a conviction for the offense of cruelty to animals by trapping, rather than the offense of pet animal or equine animal desertion;
- (4) Deleting the funding mechanism for the Spay and Neuter Special Fund through the issuance of new special motor vehicle number plates;
- (5) Changing the appropriation to an unspecified amount;
- (6) Changing the effective date to July 1, 3000, to encourage further discussion;
- (7) Changing the effective date for the administration of the income tax designation to taxable years beginning after December 31, 2025; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that the Hawaii Board of Veterinary Medicine raised concerns in its written testimony that the age of three months old may be too early for the sterilization of cats, as it could lead to increased difficulty in treating lower urinary tract disease and urethral obstructions. Accordingly, your Committee amended this measure to raise the age for which the sterilization of male cats is required to five months of age. However, your Committee notes that similar concerns also exist for female cats. As such, should your Committee on Judiciary & Hawaiian Affairs deliberate on this measure, your Committee respectfully requests that it consider raising the age for which the sterilization of female cats is required from three months of age to five months of age.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$500,000 into and out of the Spay and Neuter Special Fund.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 364, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 364, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, 2 (Kong, Pierick). Excused, 1 (Lowen).

SCRep. 237 Water & Land on H.B. No. 867

The purpose of this measure is to enhance the inclusion of physically disabled youth in important socialization activities by:

- (1) Requiring by June 30, 2027, all playgrounds located in state parks and on public school grounds to have a minimal set of special needs recreational playground equipment, including a wheelchair accessible swing set; and
- (2) Appropriating funds to the Department of Land and Natural Resources and Department of Education to purchase and install special needs recreational playground equipment.

Your Committee received testimony in support of this measure from the Hawai'i State Council on Developmental Disabilities; Hawaii Disability Rights Center; Hawaii Self-Advocacy Advisory Council; and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance; Department of Education; Department of Land and Natural Resources' Division of State Parks; and Disability and Communication Access Board.

Your Committee finds that accessible recreational spaces are essential for the physical, social, and emotional development of all children, including those with disabilities. Currently, many state parks and public school playgrounds lack equipment that accommodates physically disabled youth, limiting their ability to engage in play, interact with peers, and participate fully in their communities. Ensuring that playgrounds include disability-compatible equipment will promote inclusivity and foster an environment where all children can enjoy recreation and socialization.

Your Committee has amended this measure by:

- (1) Beginning on June 30, 2030, requiring all new playgrounds constructed in state parks and public schools to include accessible recreational equipment, rather than requiring the installation of accessible recreational equipment in all playgrounds located in state parks and public schools by June 30, 2027;
- (2) Changing all references from "special needs recreational playground equipment" to "accessible recreational playground equipment";
- (3) Removing the requirement that playgrounds include a wheelchair accessible swing set;

- (4) Renaming the special fund created by this measure the "Accessible Recreational Playground Equipment Special Fund";
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 867, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 867, H.D. 1, and be referred to your Committee on Education.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Shimizu). Noes, none. Excused, none.

SCRep. 238 Housing on H.B. No. 295

The purpose of this measure is to amend the Hawaiian Homes Commission Act of 1920, as amended, to authorize the transfer of a living beneficiary's place on the Department of Hawaiian Home Lands' waitlist for any residential, agricultural, or pastoral tract to a successor who is at least one twenty-fifth Hawaiian, if the beneficiary dies.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Hawaii Self-Advocacy Advisory Council; and numerous individuals. Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that the Department of Hawaiian Home Lands has faced significant challenges in reducing the waitlist for beneficiaries, with many eligible individuals experiencing prolonged delays. These delays have caused hardship, particularly for the families of beneficiaries who have passed away before securing a homestead. This measure will ensure that intergenerational inequities are not compounded by enabling children and other immediate relatives of beneficiaries who die while on the waitlist to succeed to the land that their family member was never able to rightfully inhabit and enjoy while alive.

Your Committee has amended this measure by:

- (1) Inserting a definition for "qualified application successor" and specifying that the individual must be at least one-fourth Hawaiian;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 295, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 295, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Cochran, La Chica, Pierick).

SCRep. 239 Housing on H.B. No. 738

The purpose of this measure is to:

- (1) Create a process for expediting the review of residential transit-oriented development on certain parcels within county-designated transit-oriented development zones that have a low risk of affecting historically significant resources;
- (2) Further empower lead agencies, including county governments, to make determinations on the potential effects of a project;
- (3) Create a ninety-day limit to concur or not concur with project effect determinations; and
- (4) Ensure that projects with written concurrence are exempt from further review unless there is a significant change to the project.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawaii Housing Finance and Development Corporation; Grassroot Institute of Hawaii; Hawai'i YIMBY; NAIOP Hawaii; Holomau Collaborative; and two individuals. Your Committee received comments on this measure from the Office of Hawaiian Affairs; Hawaii Community Development Authority; and Department of Planning and Permitting of the City and County of Honolulu.

Your Committee finds that there is an urgent need for more housing development throughout the State, especially in transit-oriented areas. Your Committee acknowledges that preserving Hawaii's cultural heritage in historic properties and burial sites is essential to the State's identity and history. This measure will streamline historic property review processes for residential transit-oriented development in areas with low risk to historically significant resources, while empowering agencies to ensure cultural preservation and enabling timely housing construction.

Your Committee has amended this measure by:

- (1) Expanding the historic property review process to include mixed-use transit-oriented development as long as a majority of the mixed-use transit-oriented development is residential;
- (2) Clarifying the components of the programmatic agreement between the Department of Land and Natural Resources and the project applicant;
- (3) Clarifying that if the Department of Land and Natural Resources fails to issue notice or non-concurrence within ninety days, or within thirty days if no historic properties are to be affected, of a complete and true submittal, concurrence is assumed, and the project may proceed;
- (4) Exempting a project from further review by the Department of Land and Natural Resources unless there is a change to the project's physical scope of work;
- (5) Specifying that an agent or officer may appeal the Department of Land and Natural Resources' failure to provide written concurrence or non-concurrence within the ninety-day review period;
- (6) Defining "lead agency";
- (7) Clarifying what triggers further review of a project by the Department of Land and Natural Resources once the Department has provided written concurrence for state projects, privately owned historic properties, and proposed projects;
- (8) Expanding the methods to address levels of risk for the lower two effect levels of parcel classifications to include archaeological field surveys, excavation, or onsite monitoring;
- (9) Changing the effective date to July 1, 3000, to encourage further discussion; and

(10) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 738, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 738, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, 2 (Muraoka, Pierick). Excused, 2 (Cochran, Kitagawa).

SCRep. 240 Public Safety on H.B. No. 1002

The purpose of this measure is to:

- (1) Extend the term of the Oversight Coordinator of the Hawaii Correctional System Oversight Commission, beginning July 1, 2025; and
- (2) Clarify that the Oversight Coordinator has the general authority to inspect agencies and correctional facilities without notice.

Your Committee received testimony in support of this measure from the Hawaii Correctional System Oversight Commission; Office of the Public Defender; Community Alliance on Prisons; American Civil Liberties Union of Hawai'i; and three individuals. Your Committee received comments on this measure from the Department of Corrections and Rehabilitation.

Your Committee finds that a two-year term for the Oversight Coordinator does not provide sufficient time for the individual to fully understand the role, build relationships, or develop and implement meaningful policies or projects. Your Committee further finds that unfettered access to information and correctional facilities allows the Oversight Coordinator to uncover and address issues like poor conditions or abuse, ensuring humane treatment and fostering public trust in the corrections system.

Your Committee has amended this measure by:

- (1) Extending the term of the Oversight Coordinator by three years rather than four years;
- (2) Authorizing the Hawaii Correctional System Commission to review the Coordinator's performance and make a recommendation to the Governor as to whether the Coordinator should be retained for an additional term;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1002, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1002, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 3 (Ichiyama, Morikawa, Woodson).

SCRep. 241 Public Safety on H.B. No. 358

The purpose of this measure is to improve the State's preparedness for stronger hurricanes by requiring all public buildings, including public school buildings, constructed after January 1, 2026, to be designed to withstand category five hurricanes and be used as shelters in the event of an emergency.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Hawai'i Emergency Management Agency; Hawai'i Climate Advisory Team; and one individual. Your Committee received comments on this measure from the Department of Education; Department of Accounting and General Services; and Department of Corrections and Rehabilitation.

Your Committee finds that in light of the potential for stronger and more frequent hurricanes caused by climate change, Hawaii needs greater number of public buildings that can also serve as hurricane shelters. By requiring that all public buildings constructed after January 1, 2026, to be able to withstand category five hurricanes will help ensure that public buildings will be able to protect Hawaii's residents and visitors in case of an emergency.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 358, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 358, H.D. 1, and be referred to your Committee on Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Shimizu). Excused, 3 (Ichiyama, Morikawa, Woodson).

SCRep. 242 Public Safety on H.B. No. 1376

The purpose of this measure is to:

- (1) Require the State to phase out the use of private correctional facilities to incarcerate Hawaii inmates; and
- (2) Prohibit the construction of new correctional facilities or the expansion of existing correctional facilities without the approval of the Hawaii Correctional System Oversight Commission.

Your Committee received testimony in support of this measure from ACLU Hawai'i; Imua Alliance; and two individuals. Your Committee received testimony in opposition to the measure from the Department of Corrections and Rehabilitation. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the State has relied on private, out-of-state prisons to house a significant number of the State's incarcerated individuals for more than two decades. These individuals are serving their sentences away from family, friends, and their support systems. Your Committee further finds that the State is currently planning for the construction of a new correctional facility. This new facility, along with a shift to focusing on diversion, should allow the Department of Corrections and Rehabilitation to reduce the number of inmates at out-of-state prisons.

Your Committee has amended this measure by:

- (1) Deleting its preamble;

- (2) Deleting language that would have prohibited the State from committing, transferring, or housing any inmate at a private correctional facility beginning on July 1, 2030;
- (3) Adding language to require that:
 - (A) Beginning July 1, 2028, the Director of Corrections and Rehabilitation (Director) reduce the number of committed felons incarcerated at private, out-of-state correctional institutions by twenty-five percent; and
 - (B) Beginning July 1, 2030, the Director reduce the number of committed felons incarcerated at private, out-of-state correctional institutions by fifty percent;
- (4) Requiring the Department of Rehabilitation and Corrections to report to the Legislature on its actions and progress in meeting the requirements of paragraph (2);
- (5) Deleting language that would have prohibited the construction of new correctional facilities or the expansion of existing correctional facilities without the approval of the Hawaii Correctional System Oversight Commission;
- (6) Changing the effective date to July, 1, 3000, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1376, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1376, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 3 (Ichiyama, Morikawa, Woodson).

SCRep. 243 Public Safety on H.B. No. 1263

The purpose of this measure is to:

- (1) Establish a moratorium on the issuance of a request for proposals and construction of any new or expanded correctional facility from July 1, 2025, to June 30, 2028, including the planned construction of a new facility to replace the existing Oahu Community Correctional Center; and
- (2) Establish a Criminal Justice Diversion Task Force.

Your Committee received testimony in support of this measure from the Office of the Public Defender; Community Alliance on Prisons; Hawai'i Friends of Restorative Justice; Reimagining Public Safety in Hawai'i Coalition; Green Party of Hawai'i; Imua Alliance; 'Ekolu Mea Nui; Hawai'i Alliance for Progressive Action; and numerous individuals. Your Committee received testimony in opposition to this measure from the Department of Corrections and Rehabilitation; Department of Accounting and General Services; Department of the Prosecuting Attorney of the City and County of Honolulu; and one individual. Your Committee received comments on this measure from the Hawaii Correctional System Oversight Commission.

Your Committee finds that there needs to be a stronger focus on rehabilitation and re-entry services to assist persons who are currently incarcerated.

Your Committee has amended this measure by:

- (1) Deleting the three-year moratorium;
- (2) Deleting the Criminal Justice Diversion Task Force;
- (3) Requiring the Department of Corrections and Rehabilitation to establish a Rehabilitation and Re-Entry Services Task Force;
- (4) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation of \$100,000.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1263, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1263, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Iwamoto). Noes, none. Excused, 3 (Ichiyama, Morikawa, Woodson).

SCRep. 244 Public Safety on H.B. No. 1502

The purpose of this measure is to establish requirements for property and casualty insurance policies for pre- and post- disaster protections.

Your Committee received testimony in support of this measure from the Council for Native Hawaiian Advancement; Ho'ōla iā Mauiakama Disaster Long Term Recovery Group; and five individuals. Your Committee received testimony in opposition to this measure from the Hawaii Insurers Council. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and National Association of Mutual Insurance Companies.

Your Committee finds that the overwhelming majority of insurance policyholders who were affected by the Maui wildfires of August 2023 were underinsured and face financial uncertainty about their ability to rebuild. Your Committee further finds that this measure addresses this problem by establishing pre- and post-disaster protections for policyholders. This measure is a critical step in learning from previous disasters to assist survivors of future disasters with recovery.

Your Committee has amended this measure by:

- (1) Deleting the preamble;
- (2) Deleting various provisions related to notice of cancellation or nonrenewal; insurance disclosures; grace periods; adjustment of premium policy limits post disaster; close of claims and extensions; inquiries; and reductions in time to file a claim;
- (3) Modifying requirements for property and casualty insurance policies for pre- and post- disaster protections regarding:
 - (A) Claims for additional living expenses under homeowners insurance policies during states of emergency;

- (B) A total loss of contents as well as contents coverage during states of emergency; and
- (C) Minimum requirements for losses due to emergencies;
- (4) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1502, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1502, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, 1 (Shimizu). Excused, 2 (Ichiyama, Morikawa).

SCRep. 245 Public Safety on H.B. No. 1064

The purpose of this measure is to effectuate the recommendations of the "Phase 3" Forward-Looking Report by Fire Safety Research Institute on the August 2023 Maui wildfires.

Your Committee received testimony in support of this measure from the Office of the Governor; Department of Defense; Department of Labor and Industrial Relations; Hawai'i Climate Advisory Team; Lāhainā Strong; Wildfire Safety Advocated of Waikōloa; Hawaii Insurers Council; Hawaiian Electric; Kamehameha Schools; AARP Hawai'i; and two individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources; State Fire Council; and Hawai'i Wildfire Management Organization.

Your Committee finds that in the aftermath of the August 2023 fires on Maui, the Department of Attorney General initiated an investigation and retained the independent, third party Fire Safety Research Institute. The investigation led to three reports, the last of which, the "Phase 3 Forward-Looking Report, called for changes and improvements to the Office of the State Fire Marshal, which was recently established by Act 209, Session Laws of Hawaii 2024. This measure takes action on a number of those recommendations.

Your Committee has amended this measure by:

- (1) More closely aligning the duties of the Office of the State Fire Marshal with what currently exists in statute;
- (2) Requiring the Office of the State Fire Marshal to develop and administer a Community Risk Reduction Program;
- (3) Establishing the Community Risk Reduction Special Fund;
- (4) Requiring biennial reporting to the Legislature;
- (5) Establishing an advisory board within the Office of the State Fire Marshal;
- (6) Adding an appropriation in an unspecified amount for the operations and work of the Office of the State Fire Marshal;
- (7) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1064, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1064, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Iwamoto). Noes, none. Excused, 2 (Ichiyama, Morikawa).

SCRep. 246 Judiciary & Hawaiian Affairs on H.B. No. 1324

The purpose of this measure is to increase access to representation for residential tenants in actions or proceedings for possession by:

- (1) Providing for state-funded access to legal services for residential tenants;
- (2) Authorizing attorneys, paralegals, and law students to provide the legal services; and
- (3) Appropriating funds to the Judiciary to contract with legal service organizations or clinical training programs to carry out this purpose.

Your Committee received testimony in support of this measure from Hawaii Appleseed Center for Law and Economic Justice and four individuals. Your Committee received comments on this measure from the Judiciary and Department of Attorney General.

Your Committee finds that providing legal representation for tenants facing eviction is crucial. It helps level the playing field against landlords, significantly increases the chances of a positive outcome for tenants, and can prevent the devastating consequences of eviction, including homelessness. This measure will ensure that Hawaii's low-income tenants have a fair opportunity to protect their housing rights.

Your Committee has amended this measure by:

- (1) Amending the definition of "eligible residential tenant" to:
 - (A) Delete language that would have included tenants of the Hawaii Public Housing Authority; and
 - (B) Change the income threshold to persons whose household earns at or below two hundred fifty percent of the applicable federal poverty level for Hawaii;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1324, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1324, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Garcia). Noes, none. Excused, 4 (Belatti, Cochran, Hashem, Kahaloa).

SCRep. 247 Judiciary & Hawaiian Affairs/Agriculture & Food Systems on H.B. No. 1246

The purpose of this measure is to:

- (1) Enact the Hawaii Cannabis Law to:
 - (A) Provide a legal safe harbor from state or county criminal prosecution concerning activities relating to cannabis for those who strictly comply with the provisions of the law;
 - (B) Establish the Hawaii Cannabis and Hemp Office as an independent body with the power to administratively regulate all aspects of the cannabis plant;
 - (C) Legalize the sale and possession of cannabis for personal adult use beginning January 1, 2026;
 - (D) Provide economic opportunities to disproportionately impacted areas;
 - (E) Encourage those currently engaging in illegal, unlicensed commercial cannabis activities to enter the legal market;
 - (F) Ensure that state and county law enforcement agencies work closely with the Hawaii Cannabis and Hemp Office and vigorously investigate and prosecute illegal cannabis activities that fall outside any safe harbor protection; and
 - (G) Mandate that the Hawaii Cannabis and Hemp Office make the protection of public health and safety its highest priorities;
- (2) Establish a tax on the retail sale of cannabis and a tax on the sale of medical use cannabis and require every business engaged in the sale of cannabis to obtain a cannabis tax permit;
- (3) Add new traffic offenses relating to the consumption or possession of marijuana or marijuana concentrate;
- (4) Make conforming amendments relating to the legalization of personal adult use of cannabis under the Hawaii Cannabis Law;
- (5) Decriminalize certain drug offenses related to marijuana and marijuana concentrate;
- (6) Transfer the personnel and assets of the Department of Health and assets of the Department of Agriculture relating to cannabis and hemp to the Hawaii Cannabis and Hemp Office;
- (7) Establish various positions within state entities to regulate the personal adult use of cannabis and appropriate funds; and
- (8) Make other conforming and housekeeping amendments.

Your Committees received testimony in support of this measure from the Department of Agriculture; Office of the Public Defender; Stonewall Caucus, Kupuna Caucus, and Education Caucus of the Democratic Party of Hawai'i; Invisible Hawai'i; Medical Cannabis Advocates Maui; Doctors for Drug Policy Reform; Cultivation Sector Consulting, LLC; Marijuana Policy Project; Pride at Work – Hawai'i; Rainbow Family 808; Democratic Party of Hawai'i; Hawai'i Cannabis Industry Association; Big Island Grown; LabGrown Genetics; Green Aloha; Hilo Grow Shop, LLC; Hawai'i Alliance for Cannabis Reform; ACLU Hawai'i; Drug Policy Forum of Hawai'i; Law Enforcement Action Partnership; and numerous individuals.

Your Committees received testimony in opposition to this measure from the Honolulu Police Department; Department of the Prosecuting Attorney of the City and County of Honolulu; Department of the Prosecuting Attorney of the County of Maui; Hawaii Substance Abuse Coalition; Hina Mauka; Hawaiian Islands Republican Women; Retail Merchants of Hawaii; Hawaii Family Forum; Care Waialua; United Public Workers, AFSCME Local 646, AFL-CIO; Kaua'i Hemp Company; 5 Minute Pharmacy; American Cancer Society Cancer Action Network; Pakaloha Care Clinic; Hawaii SAM; Hawai'i Christian Coalition; Coalition for a Drug-Free Hawaii; and numerous individuals.

Your Committees received comments on this measure from the Department of Budget and Finance; Department of Commerce and Consumer Affairs; Department of the Attorney General; Department of Human Resources Development; Department of Taxation; Department of Health; Tax Foundation of Hawaii; Kaua'i Farm Planning; Hawai'i Public Health Institute; and two individuals.

Your Committees find that over the past decade, there has been a growing movement across the nation to legalize cannabis, also known as marijuana, for recreational use. As of June 2024, twenty-four states, two territories, and the District of Columbia have legalized small amounts of cannabis for adult recreational use.

Your Committees further find that in late 2022 President Biden directed the Secretary of Health and Human Services and the United States Attorney General to review how marijuana is scheduled under federal law. Marijuana is currently classified as a Schedule I controlled substance, alongside heroin and LSD, but ahead of fentanyl and methamphetamine. On May 21, 2024, the Department of Justice proposed to transfer marijuana from Schedule I to Schedule III of the federal Controlled Substances Act. Your Committees recognize that the descheduling of marijuana at the federal level may be imminent, thus it is important for the State to have regulations in place.

Your Committees additionally find that allowing the State to regulate and tax the sale of cannabis will undercut the illegal drug trade in Hawaii and redirect revenue from drug trafficking organizations to the State where it can be used for public safety and substance abuse prevention, treatment, and education.

Your Committees have amended this measure by:

- (1) Clarifying that a college or university may allow medical use of cannabis by a college or university faculty member or student while the faculty member or student is within faculty or student housing;
- (2) Deleting language that would have specifically included randomized lottery selection as a potential procedure by which licenses or permits are awarded;
- (3) Requiring the rules established by the Hawaii Cannabis and Hemp Office to include procedures and policies that promote and encourage full participation in the regulated cannabis industry by legacy growers;
- (4) Clarifying that the Hawaii Cannabis Law shall not be construed to prohibit the State or any of its political subdivisions from conducting drug testing or using the results of those tests for discipline of employees if the testing is done to comply with an executive order;
- (5) Clarifying that the authorization for the medical use or personal adult use of cannabis does not apply to the manufacture, distribution, dispensing, or possession of cannabis in certain prohibited locations;
- (6) Amending the residency exemption for cannabis licensees to only be applicable to existing medical cannabis dispensaries that convert the dispensary's operations into licenses under the Hawaii Cannabis Law;
- (7) Requiring the granting of craft cannabis dispensary licenses to promote legacy growers, in addition to other groups;
- (8) Amending the maximum amount of tetrahydrocannabinol that may be in tincture that is exempt from inclusion on the restricted cannabinoid product list;

- (9) Providing that the limitation on the collection of taxes shall be suspended for the period an appeal of the assessment is pending before the Taxation Board of Review or the Tax Appeal Court;
- (10) Amending where a person may store marijuana, marijuana concentrate, or receptacles containing any marijuana or marijuana concentrate in a motor vehicle or moped to the trunk, luggage compartment, or similar location;
- (11) Requiring courts to refer a person who is under twenty-one years old and sentenced for committing the offense of promoting a harmful drug in the fourth degree or promoting a detrimental drug in the third degree to a certified substance abuse counselor for assessment and treatment, if needed;
- (12) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (13) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committees note that the Department of Budget and Finance recommends that the transfer of appropriations, positions, and other assets from the Department of Agriculture and Department of Health to the Hawaii Cannabis and Hemp Office be effective no earlier than July 1, 2026, to allow the Department of Budget and Finance sufficient time to consult with the affected agencies and facilitate the transfer.

Your Committees note that the Department of Taxation has requested that the authorization of cannabis sales and tax law provisions in part III of the measure take effect no earlier than January 1, 2027.

Your Committees note that the Department of Health has requested a delayed effective date of twelve months to allow for adequate time to adopt rules and transfer personnel and assets.

Your Committees note that the Department of Agriculture suggested amendments that would exempt cannabis from the Department's inspection of imported articles. It is the intent of your Committees, should this measure pass the Legislature, that the Department of Agriculture work with the Hawaii Cannabis and Hemp Office to create rules related to biosecurity and the movement of cannabis as a plant material.

Your Committees respectfully request your Committee on Finance, should it deliberate on this measure, to consider an appropriation for two auditors, one cashier, two special enforcement section investigators, two tax information technicians, and two tax law change specialists in the Department of Taxation.

As affirmed by the records of votes of the members of your Committees on Judiciary & Hawaiian Affairs and Agriculture & Food Systems that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1246, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1246, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chairs on behalf of the Committees.

Judiciary & Hawaiian Affairs: Ayes, 6; Ayes with Reservations (Perruso). Noes, 4 (Hashem, Takayama, Garcia, Shimizu). Excused, 1 (Cochran).

Agriculture & Food Systems: Ayes, 5; Ayes with Reservations (Perruso). Noes, none. Excused, 1 (Ward).

SCRep. 248 Culture & Arts on H.B. No. 925

The purpose of this bill is to effectuate its title.

H.B. No. 925 was introduced as a short-form bill, which is sometimes referred to as a "vehicle" bill primarily used to introduce a bill containing only a general idea as to the purpose of the bill without specific details in the long form.

Your Committee has amended the bill to provide the substantive contents of the bill in long form so that a public hearing may be properly held on its substantive contents.

As affirmed by the record of votes of the members of your Committee on Culture & Arts that is attached to this report, your Committee is in accord with the action to report out H.B. No. 925, as amended herein, and recommends that it be recommitted to your Committee on Culture & Arts, for the purpose of holding a public hearing thereon, in the form attached hereto as H.B. No. 925, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 249 Health on H.B. No. 716

The purpose of this measure is to establish a grant program within the Department of Health, to be administered by the State Health Planning and Development Agency, to support a certified, hosted, and maintained health information technology infrastructure and the implementation of interoperable health information technologies for federally qualified health centers, rural health clinics, Ryan White HIV/AIDS Program centers, and Native Hawaiian health centers in Hawaii.

Your Committee received testimony in support of this measure from the Department of Health; State Health Planning and Development Agency; Hawai'i Pacific Health; Healthcare Association of Hawaii; Ho'ōla Lāhui Hawai'i; Waikiki Health; Hawai'i Primary Care Association; Hawai'i Health & Harm Reduction Center; Hana Health; Waimānalo Health Center; Waianae Coast Comprehensive Health Center; OCHIN; and two individuals. Your Committee received comments on this measure from Papa Ola Lokahi.

Your Committee finds that federally qualified health centers, rural health centers, Ryan White HIV/AIDS Program centers, Native Hawaiian health centers, and some critical access hospitals and rural providers lack the resources to adopt the interoperable health technologies available and in use by the majority of the State's hospitals, clinics, and physician practices. Your Committee further finds the coordination of health information through a certified, hosted, and maintained health information technology infrastructure will enable the State to immediately identify emerging health trends and issues, making it possible to provide timely interventions. Your Committee believes that establishing a grant program to assist qualified health centers in investing in this critical health information infrastructure will ensure all health care providers, regardless of size or location, have the tools needed to deliver care to all patients in the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount between \$20,000,000 and \$25,000,000 for the grant program.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 716, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 716, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Alcos, Garcia). Noes, none. Excused, none.

SCRep. 250 Economic Development & Technology on H.B. No. 22

The purpose of this measure is to allow state and county law enforcement agencies to collaborate with United States Immigration and Customs Enforcement and Customs and Border Protection for immigration purposes in only limited, specific circumstances.

Your Committee received testimony in support of this measure from the Office of the Prosecuting Attorney of the County of Kaua'i; Office of the Public Defender; one member of the Hawai'i County Council; one member of the Honolulu City Council; IATSE Local 665; The Legal Clinic; Indivisible Hawaii; Hawai'i Coalition for Immigrant Rights; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; HCANSpeaks!; Fujiwara & Rosenbaum, LLC; COFACAN; North Hawaii Community Action Network; ACLU Hawai'i; Hawai'i Friends of Civil Rights; UNITE HERE Local 5; Filipino Chamber of Commerce Hawaii; Roots Reborn; Hawaii State AFL-CIO; Tagnawa; Catholic Charities Hawai'i; Imua Alliance; Education Caucus of the Democratic Party of Hawai'i; A.L.O.H.A. Latinos; Hawai'i Workers Center; and numerous individuals. Your Committee received testimony in opposition to this measure from Hawaiian Islands Republican Women and numerous individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that several federal courts have ruled that civil immigration detainees are unconstitutional. Your Committee further finds that federal law does not require state and local entities to collect or share information with Immigration and Customs Enforcement and Customs and Border Protection. This measure allows state and county law enforcement agencies to collaborate with Immigration and Customs Enforcement and Customs and Border Protection for immigration purposes in only limited, specific circumstances.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 22 and recommends that it pass Second Reading and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 251 Consumer Protection & Commerce on H.B. No. 224

The purpose of this measure is to:

- (1) Establish a procedure for the immediate removal of an unlawful occupant of a dwelling or premises with assistance from law enforcement;
- (2) Specify that unlawful occupants of dwellings or premises are liable for damages to the dwellings or premises; and
- (3) Including under the offense of criminal property damage in the second degree the intentional or knowing damage to a dwelling or property therein in excess of \$999 from an unlawful trespasser.

Your Committee received testimony in support of this measure from the Grassroot Institute of Hawaii; Hawai'i Association of REALTORS; and four individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General; Office of the Public Defender; Honolulu Police Department; and one individual.

Your Committee finds that squatting occurs when an unlawful occupant resides in an abandoned, vacant, or unoccupied property. During this time, squatters can cause significant property damage or engage in activities that pose safety risks to property owners, real estate professionals, and the surrounding community. In some cases, squatters have even presented fraudulent rental agreements, forcing property owners and real estate professionals into a lengthy and costly eviction process. This measure establishes a procedure for the timely removal of an unlawful occupant.

Your Committee has amended this measure by:

- (1) Deleting the condition that there be no pending or ongoing litigation related to the dwelling or premises between the owner and any known unauthorized person, for the removal of the unauthorized person;
- (2) Specifying that the submission of a fraudulent complaint or knowing inclusion of false information in a complaint resulting in the removal of a rightful occupant is the offense of instigation of wrongful removal, which is a misdemeanor, rather than specifying that those actions are the offense of perjury;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 224, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 224, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 252 Consumer Protection & Commerce on H.B. No. 426

The purpose of this measure is to be a stop-gap measure enabling the provision of insurance for condominium associations that are unable to purchase adequate property insurance for their respective condominium buildings by:

- (1) Enabling the Hawaii Property Insurance Association and the Hawaii Hurricane Relief Fund to underwrite certain insurance risks that no standard insurer is currently willing to underwrite; and
- (2) Requiring the Insurance Commissioner to conduct a study to monitor the existing market and identify the most effective methods of stabilizing the property insurance market in the State.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Hawaii Green Infrastructure Authority; one member of the Maui County Council; Hawaii Insurers Council; Hawaii Bankers Association; Hawaii Credit Union League; AARP Hawai'i; Hawai'i Association of REALTORS; Mortgage Bankers Association of Hawaii; and two individuals. Your Committee received comments on this measure from the Department of the Attorney General; National Association of Mutual Insurance Companies; State Farm Mutual Automobile Insurance Company; and one individual.

Your Committee finds that the availability of condominium building master insurance policy and unit owner insurance policy options within the condominium insurance marketplace was shrinking, even before the August 2023 Maui wildfire event. For condominium building master insurance policies,

insurers have increased deductible amounts from what used to be between \$10,000 to \$25,000 per unit, per occurrence, to as much as \$250,000. Furthermore, insurance premiums for hurricane insurance policies have recently risen so high that three hundred seventy-five to three hundred ninety buildings have opted to renew their hurricane insurance policies with less than one hundred percent hurricane coverage. This measure expands the markets of last resort in the State to assist the stabilization of the property insurance market until risks can be depopulated back to the standard insurance market when market conditions improve and risks become more insurable because of building component replacement or maintenance, or mitigation equipment or protocols have been implemented for fire, wildfire, or hurricane events.

Your Committee has amended this measure by:

- (1) Clarifying that, for purposes of the definition of "condominium" under the statutes governing the Hawaii Property Insurance Association, the real property is used primarily for residential purposes;
- (2) Specifying that the Hawaii Hurricane Relief Fund may impose an additional assessment on insurers acting as servicing facilities if a loss occurs from a covered event;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 426, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 426, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 253 Consumer Protection & Commerce on H.B. No. 70

The purpose of this measure is to:

- (1) Provide that the defense of good faith compliance is unavailable to any condominium association whose board adopts a budget that omits the required budget summary; and
- (2) Provide that an association has the burden to prove substantial compliance.

Your Committee received testimony in support of this measure from the Hawaii Legislative Action Committee of the Community Associations Institute; Hawaii First Realty LLC; Hawaiiana Management Company, Ltd.; and six individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from eight individuals.

Your Committee finds that the Legislature has recently passed laws to increase transparency and accuracy with respect to condominium association replacement reserves and reserve studies. Your Committee further finds that additional effort is needed to ensure that condominium associations are complying with these new laws. Accordingly, this measure is intended to increase condominium association compliance with recent disclosure requirements associated with reserve studies and budget summaries.

Your Committee has amended this measure by:

- (1) Specifying that budget summaries must contain all required information without referring the reader to other portions of the budget;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 70, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 70, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 1 (Pierick).

SCRep. 254 Consumer Protection & Commerce on H.B. No. 253

The purpose of this measure is to allow authorized insurers in the State to offer building and hurricane insurance for condominium buildings at a lesser rate than the building's prior surplus lines insurance policy for the same coverage.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that the availability of condominium building master insurance policy and unit owner insurance policy options within the condominium insurance marketplace was shrinking, even before the August 2023 Maui wildfire event. For condominium building master insurance policies, insurers have increased deductible amounts from what used to be between \$10,000 to \$25,000 per unit, per occurrence, to as much as \$250,000. Furthermore, insurance premiums for hurricane insurance policies have recently risen so high that three hundred seventy-five to three hundred ninety buildings have opted to renew their hurricane insurance policies with less than one hundred percent hurricane coverage. This measure will incentivize admitted insurers to provide insurance at rates, while higher than the rates they provide, lower than the rates offered by surplus lines insurers.

Your Committee notes that there are ongoing discussions between the Committee and larger insurance companies for those companies to be drawn into and enter the admitted insurance carrier market.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 253, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 253, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 255 Human Services & Homelessness on H.B. No. 239

The purpose of this measure is to amend the definition of "child abuse or neglect" by clarifying that the failure to provide certain needs to a child constitutes child abuse or neglect only if the person or entity responsible for the care of the child is financially able to provide and fails to do so or is offered financial or other reasonable means to provide and fails to accept these offers.

Your Committee received testimony in support of this measure from the Office of Wellness and Resilience; Department of the Attorney General; Hawaii Coalition for Child Protective Reform; Hawai'i Children's Action Network Speaks!; Prevent Child Abuse HI; Hawai'i Youth Services Network; Catholic Charities Hawai'i; National Center for Youth Law; Ho'ouikaika Partnership; Mālama 'Ohana Working Group; and eight individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney for the City and County of Honolulu. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that under existing law, the failure to meet a child's basic needs qualifies as child abuse or neglect, even in cases where financial limitations are the primary barrier. Although the Department of Human Services does not currently remove children from their homes solely due to poverty, it is important to ensure that statutory definitions reflect this practice.

Your Committee has amended this measure by:

- (1) Clarifying that a failure to provide certain care to a child is not considered neglect if the sole reason is that the caregiver lacks the financial resources to adequately provide for the child's care;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 239, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 239, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 256 Human Services & Homelessness on H.B. No. 646

The purpose of this measure is to require the Department of Human Services to automatically enroll, or authorize the Social Security Administration to automatically enroll, in the State's Medicaid program any individual in the State who receives federal Supplemental Security Income benefits.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the federal Supplemental Security Income Program provides critical financial support to individuals with disabilities and older adults who have little or no income, yet Hawaii does not automatically enroll Supplemental Security Income recipients into the State's Medicaid program. Unlike several other states where Supplemental Security Income recipients are seamlessly enrolled based on Social Security Administration notification, Hawaii requires a separate Medicaid application, which creates unnecessary barriers to health care access and can deter some individuals from applying altogether. To streamline access to health care, reduce administrative burdens, and encourage greater Medicaid participation rates, this measure requires the State to automatically enroll Supplemental Security Income Program participants in Medicaid, ensuring that vulnerable residents receive the medical coverage they need without delay.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 646, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 646, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 257 Human Services & Homelessness on H.B. No. 692

The purpose of this measure is to:

- (1) Expand the Preschool Open Doors Program's eligibility criteria; and
- (2) Repeal the requirement that Preschool Open Doors Program providers be accredited.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor; Department of Human Services; Executive Office on Early Learning; Early Learning Board; Department of Community Services of the City and County of Honolulu; Indivisible Hawai'i; American Association of University Women of Hawaii; Early Childhood Action Strategy; PATCH Hawaii; Aloha United Way; Hawai'i Children's Action Network Speaks!; Keiki O Ka 'Āina Family Learning Centers; Holy Nativity School; Chamber of Commerce Hawaii; Kamehameha Schools; and numerous individuals.

Your Committee finds that Hawaii is facing a child care crisis, with the demand for quality, affordable early learning programs far exceeding available capacity. Many families struggle to find openings for their young children, particularly for infants and toddlers, leaving parents with difficult choices between economic hardship or placing children in informal care settings that may lack developmentally appropriate learning opportunities. This measure enables more parents and caregivers to participate in the workforce by reducing financial barriers to early learning programs, which will help their children receive the early childhood development and learning experiences critical to lifelong well-being.

Your Committee has amended this measure by:

- (1) Clarifying that the Preschool Open Doors Program shall continuously serve children who are in the three years prior to kindergarten entry until they enter kindergarten;
- (2) Clarifying the types of child care programs that are eligible to participate in the Preschool Open Doors Program;

- (3) Specifying that a parent or guardian of a child enrolled in the Preschool Open Doors Program may share in the costs of the Program through a copayment based on need, rather than an amount of up to one dollar;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 692, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 692, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 258 Human Services & Homelessness on H.B. No. 702

The purpose of this measure is to appropriate funds to increase the funding for Medicaid in-home services, conditioned on the Department of Human Services obtaining the maximum federal matching funds.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities; Executive Office on Aging; and three individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that many of Hawaii's kupuna prefer to age in place, relying on in-home services for essential support such as meal preparation, cleaning, personal care, and mobility assistance. A 2021 study found that eighty-three percent of residents aged forty-five and older consider staying in their homes as they age to be extremely or very important. However, low Medicaid reimbursement rates for in-home care services make it difficult for providers to sustain operations, limiting access to care for Medicaid clients. To address this issue, this measure increases Medicaid reimbursement rates for in-home services, ensuring fair compensation for providers and improving access to critical care for those in need.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully respects your Committee on Finance, should it deliberate on this measure, to consider that the amount of general funds needed to reach the "high" level of compensation for in-home services is \$16,530,000, which is \$6,790,000 more than in the Governor's budget request.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 702, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 702, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Garcia).

SCRep. 259 Human Services & Homelessness on H.B. No. 713

The purpose of this measure is to appropriate funds for the Department of Human Services to conduct a rate study for Medicaid home health services in Hawaii.

Your Committee received testimony in support of this measure from the Healthcare Association of Hawaii and one individual. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that home health services play a critical role in the health care system by providing skilled care, such as physical therapy, wound care, and chronic condition management, to homebound individuals who require medical support but do not need hospitalization. However, federal Medicare cuts and Medicaid payment shortfalls have led to financial losses for home health agencies, resulting in a reduction in the proportion of Medicaid patients they serve. Additionally, rising labor costs and a thirty-nine percent vacancy rate for health care positions in home health settings make it difficult to recruit and retain qualified providers. Therefore, this measure provides funding for the Department of Human Services to conduct a Medicaid home health services rate study, ensuring informed decision-making to support the future sustainability of home health care in the State.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Specifying that the appropriation shall be for only fiscal year 2025-2026, as the rate study proposed by this measure can be completed within one fiscal year;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully respects your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$250,000, as the cost of the study will be \$500,000, with fifty percent of that cost to be covered by federal funds.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 713, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 713, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 260 Human Services & Homelessness on H.B. No. 1079

The purpose of this measure is to direct and appropriate funds for the Office of Wellness and Resilience to collaborate with the Department of Human Services to, either directly or by contract, design, administer, and implement a program for trauma-informed organizational assessments and a training curriculum for the Department of Human Services Child Welfare Services Branch staff.

Your Committee received testimony in support of this measure from the Office of Wellness and Resilience; Department of Human Services; Hawai'i Youth Services Network; Hawai'i Substance Abuse Coalition; Mālama 'Ohana Working Group; Hawai'i Children's Action Network Speaks!; Early Childhood Action Strategy; and six individuals.

Your Committee finds that children and families involved with the Department of Human Services Child Welfare Services Branch have often experienced significant trauma, requiring a compassionate and well-informed response from staff. Your Committee further finds that the Malama Ohana Working Group, established by Act 86, Session Laws of Hawaii 2023, has recommended comprehensive trauma-informed care training for all Child Welfare Services Branch staff to create a more supportive and effective child welfare system. To support these efforts, this measure directs the Office of Wellness and Resilience to collaborate with the Department of Human Services to develop and implement a trauma-informed organizational assessment and training program for Child Welfare Services Branch staff, which will provide training on vicarious trauma, secondary traumatic stress, and burnout and address staff well-being.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount to an unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully respects your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$425,000, as that amount is in the Governor's budget request.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1079, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1079, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 261 Human Services & Homelessness on H.B. No. 1081

The purpose of this measure is to:

- (1) Transfer the Office of Wellness and Resilience to the Department of Human Resources Development on June 29, 2025;
- (2) Create a Wellness and Resilience Advisory Board to advise on wellness and resilience through trauma-informed care in the State; and
- (3) Update the functions of the Office of Wellness and Resilience.

Your Committee received testimony in support of this measure from the Office of Wellness and Resilience; Department of Human Services; Department of Health; Department of Education; Department of Corrections and Rehabilitation; Executive Office on Early Learning; Mālama 'Ohana Working Group; Catholic Charities Hawai'i; Hawai'i Youth Services Network; and two individuals.

Your Committee finds that the Office of Wellness and Resilience leads efforts to make Hawaii a trauma-informed state by promoting policies that acknowledge and address the impacts of trauma. Strengthening trauma-informed programs can improve workforce retention and recruitment while fostering healthier workplaces. Given its role in collaborating with state agencies, the Office of Wellness and Resilience is best suited to operate under the Department of Human Resources Development, which oversees key areas such as workplace well-being, training, and professional development. To support this alignment, this measure transfers the Office of Wellness and Resilience to the Department of Human Resources Development for administrative purposes, establishes a Wellness and Resilience Advisory Board to advise on wellness and resilience through trauma-informed care in the State, and updates the Office's functions.

Your Committee has amended this measure by:

- (1) Changing the effective date to June 29, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that in order to ensure a smooth transition of the Office of Wellness and Resilience to the Department of Human Resources Development, the effective date of this measure should be June 29, 2025. Your Committee therefore respectfully requests your Committee on Finance, should it deliberate on this measure, to consider that effective date.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1081, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1081, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 262 Human Services & Homelessness on H.B. No. 1098

The purpose of this measure is to:

- (1) Specify that intentionally or knowingly causing bodily injury to a protective services worker who is engaged in the performance of the worker's duties is a class C felony; and
- (2) Clarify that a protective services worker is a public servant for the purposes of the offense of terroristic threatening in the first degree.

Your Committee received testimony in support of this measure from the Department of Law Enforcement; Department of Human Services; Department of the Prosecuting Attorney for the City and County of Honolulu; and Honolulu Police Department.

Your Committee finds that protective services workers play a critical role in preventing, investigating, and intervening in cases of abuse and neglect involving children and vulnerable adults. However, these workers are often targets of physical violence and death threats, creating significant safety concerns that impact their well-being and ability to perform their duties effectively. This measure seeks to deter assaults and terroristic threats against protective services workers, ensuring a safer work environment and maintaining the integrity of protective services for Hawaii's most vulnerable populations.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1098, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1098, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 263 Human Services & Homelessness on H.B. No. 1099

The purpose of this measure is to make an emergency appropriation for fiscal year 2024-2025 to the Department of Human Services to support the necessary modifications to the ongoing development of a new eligibility system.

Your Committee received testimony in support of this measure from the Department of Human Services; Department of Budget and Finance; Hawai'i Farmers Union; Hawaii Appleseed Center for Law & Economic Justice; and Catholic Charities Hawai'i.

Your Committee finds that the Supplemental Nutrition Assistance Program is essential for providing food assistance to low-income households in Hawaii. However, the State recently incurred a penalty of \$10,934,327 from the United States Department of Agriculture Food and Nutrition Service due to a payment error rate exceeding the national average for two consecutive federal fiscal years. The payment error was the result of several contributing factors that strained staff and operations, including impacts of the COVID-19 pandemic, increased applications, larger caseloads, hiring freezes, and loss of personnel due to positions being defunded, retirements, and resignations. To address this issue, the State has been offered the option to reinvest fifty percent of the penalty amount into program improvements that would reduce the payment error rate, potentially waiving the remaining penalty if the State successfully lowers and maintains its error rate below the national average.

Therefore, to prevent delays and ensure compliance with the United States Department of Agriculture Food and Nutrition Service reinvestment plan, this measure provides an emergency appropriation for fiscal year 2024-2025, which will go toward the Department's ongoing development of its new Benefits Eligibility Solution system, that will not only help Hawaii avoid paying the full penalty but also improve the accuracy of federal food assistance benefits, reducing the burden on recipients and minimizing the risk of future financial penalties. Your Committee notes that these funds need to be available during this fiscal year to address federal requirements.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1099, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1099, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Garcia). Noes, none. Excused, none.

SCRep. 264 Human Services & Homelessness on H.B. No. 1382

The purpose of this measure is to appropriate funds for the Department of Human Services to contract with a non-profit specializing in domestic violence to provide training and staff to be housed on-site in Child Welfare Services Branch offices to support all aspects of screening for and addressing domestic violence within a case.

Your Committee received testimony in support of this measure from the Department of Human Services; Mālama 'Ohana Working Group; Hawai'i Youth Services Network; and three individuals.

Your Committee finds that the Malama Ohana Working Group, established by Act 86, Session Laws of Hawaii 2023, identified the need to strengthen the Child Welfare Services Branch's ability to manage cases involving domestic violence. In 2024, the Child Welfare Services Branch received five hundred one reports of children experiencing domestic violence, with one hundred eight confirmed victims. To improve response efforts, this measure provides resources to enhance the Child Welfare Services Branch's ability to assess risk, support families, and ensure effective intervention.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1382, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1382, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 265 Human Services & Homelessness on H.B. No. 1383

The purpose of this measure is to establish and appropriate funds for a five-year Family Resilience Pilot Program within the Office of Wellness and Resilience to provide trauma-informed peer support, financial assistance and resource supports, and trauma-informed parenting intervention services for local families.

Your Committee received testimony in support of this measure from the Office of Wellness and Resilience; Department of Human Services; Hawaii Coalition for Child Protective Reform; Mālama 'Ohana Working Group; Hawai'i Children's Action Network Speaks!; Catholic Charities Hawai'i; Hawai'i Youth Services Network; Early Childhood Action Strategy; National Center for Youth Law; Hale Kipa; and five individuals.

Your Committee finds that Hawaii lacks sufficient resources to prevent families from entering the child welfare system, particularly in primary prevention and universal support services. Many at-risk families are unaware of available assistance, and establishing programs like family resource centers and accessible pathways to basic needs can help divert them from child welfare involvement. Therefore, this measure establishes and funds a five-year Family Resilience Pilot Program within the Office of Wellness and Resilience to support at-risk families and reduce child welfare system involvement.

Your Committee has amended this measure by:

- (1) Requiring the Office of Wellness and Resilience to establish data and referral system tracking needs and protocols and an implementation and evaluation plan that includes certain goals by December 31, 2025;
- (2) Changing the appropriation amount to an unspecified amount;

- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully respects your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$1,468,500.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1383, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1383, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, none.

SCRep. 266 Human Services & Homelessness on H.B. No. 1477

The purpose of this measure is to:

- (1) Clarify that the monthly needs allowance afforded to individuals living in certain long-term care facilities is not intended to replace or affect funds received as a state supplemental payment for domiciliary care and shall be supplemental to any funds provided to a recipient as a state supplemental payment for domiciliary care; and
- (2) Appropriate funds for the Department of Human Services' Community-Based Residential Support Program.

Your Committee received testimony in support of this measure from the Department of Human Services and one individual.

Your Committee finds that the monthly needs allowance for individuals in certain long-term care facilities and the state supplemental payment to specified care providers were recently increased to provide greater financial support. However, due to the way the Social Security Administration administers these payments, the \$25 increase in the needs allowance is being deducted from the \$132 state supplemental payment increase, effectively negating part of the intended financial relief, and which was not the intent of the Legislature. To correct this issue, this measure clarifies that the needs allowance is intended to be supplemental and does not affect the state supplemental payment for domiciliary care.

Your Committee has amended this measure by:

- (1) Removing the specific statutory reference to the starting date for the increase in needs allowance and state supplemental payment;
- (2) Deleting as unnecessary the appropriation for the Department of Human Services' Community-Based Residential Support Program;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully respects your Committee on Finance, should it deliberate on this measure, to consider an effective date of October 1, 2025, to give the Social Security Administration adequate time to implement the increase in needs allowance and state supplemental payment proposed by this measure.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1477, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1477, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 1 (Garcia).

SCRep. 267 Labor on H.B. No. 1026

The purpose of this measure is to make emergency appropriations for collective bargaining cost items for the members of Bargaining Units (2), (3), (4), (8), (9), (13), and (14) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal year 2024-2025.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; Hawaii Health Systems Corporation; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; United Public Workers, AFSCME Local 646, AFL-CIO; and one individual.

Your Committee amended this measure by:

- (1) Including Bargaining Units (1) and (10); and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1026, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1026, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Kong, Reyes Oda).

SCRep. 268 Labor on H.B. No. 1028

The purpose of this measure is to make appropriations for collective bargaining cost items for the members of Bargaining Unit (2) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2025-2027.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Hawaii Health Systems Corporation; University of Hawai'i System; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1028, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1028, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Kong, Reyes Oda).

SCRep. 269 Labor on H.B. No. 1029

The purpose of this measure is to make appropriations for collective bargaining cost items for the members of Bargaining Unit (3) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2025-2027.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Hawaii Health Systems Corporation; University of Hawai'i System; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1029, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1029, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Kong, Reyes Oda).

SCRep. 270 Labor on H.B. No. 1030

The purpose of this measure is to make appropriations for collective bargaining cost items for the members of Bargaining Unit (4) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2025-2027.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Hawaii Health Systems Corporation; University of Hawai'i System; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1030, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1030, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Kong, Reyes Oda).

SCRep. 271 Labor on H.B. No. 1034

The purpose of this measure is to make appropriations for collective bargaining cost items for the members of Bargaining Unit (8) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2025-2027.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1034, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1034, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Kong, Reyes Oda).

SCRep. 272 Labor on H.B. No. 1035

The purpose of this measure is to make appropriations for collective bargaining cost items for the members of Bargaining Unit (9) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2025-2027.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Hawaii Health Systems Corporation; University of Hawai'i System; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1035, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1035, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Kong, Reyes Oda).

SCRep. 273 Labor on H.B. No. 1036

The purpose of this measure is to make appropriations for collective bargaining cost items for the members of Bargaining Unit (10) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2025-2027.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Hawaii Health Systems Corporation; University of Hawai'i System; and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1036, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1036, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Kong, Reyes Oda).

SCRep. 274 Labor on H.B. No. 1037

The purpose of this measure is to make appropriations for collective bargaining cost items for the members of Bargaining Unit (11) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2025-2027.

Your Committee received testimony in support of this measure from the Department of Budget and Finance.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1037, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1037, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Kong, Reyes Oda).

SCRep. 275 Labor on H.B. No. 1038

The purpose of this measure is to make appropriations for collective bargaining cost items for the members of Bargaining Unit (13) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2025-2027.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Hawaii Health Systems Corporation; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and one individual.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1038, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1038, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Kong, Reyes Oda).

SCRep. 276 Labor on H.B. No. 1039

The purpose of this measure is to make appropriations for collective bargaining cost items for the members of Bargaining Unit (14) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2025-2027.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1039, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1039, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Kong, Reyes Oda).

SCRep. 277 Tourism on H.B. No. 972

The purpose of this measure is to authorize condominium associations and planned community associations located in a zoning district that allows for transient vacation rentals to assess an impact fee on owners or members, respectively, who use their units as transient vacation rentals.

Your Committee received testimony in support of this measure from the Hawai'i Lodging & Tourism Association; UNITE HERE Local 5; and one individual. Your Committee received testimony in opposition to this measure from three individuals. Your Committee received comments on this measure from the Tax Foundation of Hawaii and Hawai'i Association of REALTORS.

Your Committee finds that it is equitable for condominium associations and planned community associations to be able to assess impact fees on owners or members, respectively, who use their units as transient vacation rentals because of the additional costs and impacts on other units in the association.

Your Committee has amended this measure by:

- (1) Requiring the board of directors of a condominium association or planned community association located in a zoning district that allows for transient vacation rentals to provide at least thirty days' notice to owners or members, respectively, who use their units as transient vacation rentals, before the association assesses the impact fee;
- (2) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Consumer Protection & Commerce, should it deliberate on this measure, to consider setting a cap on the amount of impact fees that can be assessed and collected.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 972, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 972, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Holt).

SCRep. 278 Legislative Management on H.B. No. 792

The purpose of this measure is to clarify the Office of the Legislative Analyst.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that the Office of the Legislative Analyst, established by Act 347, Session Laws of Hawaii 1990, was created to assist the Legislature with fiscal, budgetary, and tax analyses and to play a critical role in providing timely and informed policy research to members of the House and Senate. However, the Office of the Legislative Analyst has not been staffed since its creation and has instead resulting in the Legislature's reliance on session staff which can lead to gaps in institutional knowledge and delays in the research process. To address this, this measure clarifies the role of the Office of the Legislative Analyst, ensuring continuity in fiscal and budgetary research and enhancing the Legislature's ability to make well-informed policy decisions.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Legislative Management that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 792, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 792, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 279 Legislative Management on H.B. No. 1425

The purpose of this measure is to establish and appropriate funds for a temporary working group to study the feasibility of transitioning the Hawaii State Legislature's Regular Session from one that meets for three and a half months, from mid-January to early May, to one that meets on a year-round basis.

Your Committee received testimony in support of this measure from the Green Party of Hawai'i; Hawai'i Alliance for Progressive Action; and numerous individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that the existing limitation in the Hawaii State Constitution restricts the Legislature from being in Regular Session for more than sixty days each year. That span of time generally lasts about three and a half months. The constitutional limitation of meeting for only sixty days each year in combination with the practical aspect of working within tight legislative filing deadlines often leads to rushed decision-making and limited community engagement. Transitioning to a year-round legislature could foster a more deliberate and inclusive legislative process, allowing for better-crafted legislation, more robust community involvement, and quicker responses to emergencies like natural disasters. However, this shift would require careful consideration of the financial and logistical implications, which have not yet been fully explored. Therefore, this measure establishes a temporary working group to study the feasibility of transitioning the Hawaii State Legislature to a year-round schedule, ensuring a thoughtful and well-balanced approach to this potential change.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Legislative Management that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1425, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1425, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 280 Education on H.B. No. 249

The purpose of this measure is to appropriate funds to the Executive Office on Early Learning to contract with third-party providers of family-child interaction learning programs.

Your Committee received testimony in support of this measure from the Early Learning Board; Executive Office on Early Learning; PATCH People Attentive to Children; Early Childhood Action Strategy; Commit to Keiki; Keiki O Ka 'Āina Family-Child Interaction Learning Programs; Partners in Development Foundation; Hawai'i Children's Action Network Speaks!; and numerous individuals.

Your Committee finds that family-child interaction learning programs provide children from birth to age five with engaging, literacy-rich early learning environments that foster social and emotional development and support school readiness. Family-child interaction learning programs are uniquely positioned to improve early detection of developmental delays, expand access to infant and early childhood mental health services, and connect families with a wide variety of social services. This measure will provide families with additional options for educating their children by expanding the availability of family-child interaction learning programs in the State.

Your Committee has amended this measure by changing the effective date to July 1, 3000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 249, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 249, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 281 Judiciary & Hawaiian Affairs on H.B. No. 395

The purpose of this measure is to increase compensation for a juror or prospective juror from \$30 to \$50 for each day of attendance at court.

Your Committee received testimony in support of this measure from the Judiciary; Office of the Public Defender; Department of the Prosecuting Attorney of the City and County of Honolulu; and Hawaii State Bar Association.

Your Committee finds that juror compensation has not been increased since 1986. Your Committee recognizes the sacrifices made by jurors and prospective jurors in the performance of their civic duty and believes that an increase in compensation is timely.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$684,385.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 395, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 395, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 282 Judiciary & Hawaiian Affairs on H.B. No. 1351

The purpose of this measure is to increase the limit of the State's liability for monies borrowed by the Department of Hawaiian Home Lands or loans made to lessees that are guaranteed by the Department from \$100,000,000 to \$500,000,000.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that, despite the historic \$600,000,000 investment by the State into Hawaiian home lands in 2022, various factors have increased the cost of housing, including higher mortgage interest rates, increasing construction costs, and inflation. As a result, the Department of Hawaiian Home Lands has faced rising expenses in the construction of housing. This measure raises the liability cap, which will allow the Department to secure, pledge, or guarantee loan repayments up to \$500,000,000.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that the Department of Budget and Finance, in its written testimony, raised concerns that the increase in the liability limit will affect the amount of general obligation bonds the State may issue within the debt limit. As such, the Department stated that the State will need to appropriate general funds to cover the liability if the guarantee is called. Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to give due consideration to the concerns raised by the Department of Budget and Finance.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1351, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1351, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Todd).

SCRep. 283 Judiciary & Hawaiian Affairs on H.B. No. 410

The purpose of this measure is to appropriate funds for the 2025-2027 fiscal biennium for certain operating expenses of the Office of Hawaiian Affairs.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Native Hawaiian Chamber of Commerce; Ko'olauloa Hawaiian Civic Club; and numerous individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies and two individuals.

Your Committee finds that the Office of Hawaiian Affairs is a semi-autonomous state agency established by the Hawaii State Constitution whose mandate is to better the conditions of Native Hawaiians. Your Committee further finds that the appropriations made by this measure will help the Office of Hawaiian Affairs to fulfill this constitutional mandate.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 410, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 410, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Cochran, Hashem, Todd).

SCRep. 284 Judiciary & Hawaiian Affairs on H.B. No. 1239

The purpose of this measure is to:

- (1) Allow the Department of Hawaiian Home Lands to retain independent legal counsel as needed;
- (2) Authorize the Department of Hawaiian Home Lands to use the services of the Attorney General as needed; and
- (3) Provide that funds owed to independent legal counsel shall be paid by the State.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and one individual. Your Committee received testimony in opposition to this measure from the Department of the Attorney General.

Your Committee finds that there are circumstances where the interests of the State and Department of Hawaiian Home Lands may be adversarial and that it is vital and necessary for the Hawaiian Homes Commission to carry out its fiduciary duties to be able to retain independent counsel. This measure would further provide the Department of Hawaiian Home Lands with the assurance that its counsel is providing legal advice in the sole interest of the Department.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider the concerns raised by the Department of the Attorney General in its written testimony submitted to your Committee, stating that an appropriation is necessary if the intent is to pay for attorneys from sources other than the Department of Hawaiian Home Lands' trust funds.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1239, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1239, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Todd).

SCRep. 285 Judiciary & Hawaiian Affairs on H.B. No. 871

The purpose of this measure is to clarify that Act 130, Session Laws of Hawaii 2024, which amended the Hawaiian Homes Commission Act to increase the loan limit for direct loans provided by the Department of Hawaiian Home Lands, takes effect on either the date of the Secretary of the Interior's notification letter that Act 130 does not require congressional approval, or on the date that the United States Congress approval becomes law.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and two individuals.

Your Committee finds that Act 130, Session Laws of Hawaii 2024, increases the loan limit for direct loans provided by the Department of Hawaiian Home Lands to seventy-five percent of the maximum single residence loan amount allowed in Hawaii by the United States Department of Housing and Urban Development's Federal Housing Administration, rather than the fifty percent as outlined in the Hawaiian Homes Commission Act, 1920. However, Act 130 contained an error with respect to recognizing the appropriate approval procedure for its enactment. This measure corrects Act 130 to accurately reflect the necessary approval process for the enactment of laws that amend the Hawaiian Homes Commission Act, 1920.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 871, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 871, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Todd).

SCRep. 286 Judiciary & Hawaiian Affairs on H.B. No. 400

The purpose of this measure is to appropriate funds for the 2025-2027 fiscal biennium for certain operating expenses of the Judiciary.

Your Committee received testimony in support of this measure from the Judiciary; Volunteer Legal Services Hawai'i; Legal Aid Society of Hawai'i; The Legal Clinic; and two individuals.

Your Committee finds that the appropriations made by this measure will assist the Judiciary in its efforts to fulfill its constitutional, statutory, and public service duties.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider authorizing \$7,000,000 in lump sum general obligation bond funds for capital improvement projects for Judiciary facilities to account for the additional cost of \$2,000,000 to relocate the Children's Justice Center.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 400 and recommends that it pass Second Reading and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Cochran, Hashem, Todd).

SCRep. 287 Judiciary & Hawaiian Affairs on H.B. No. 396

The purpose of this measure is to increase the rate of compensation and maximum allowable amounts per case for court-appointed counsel in criminal proceedings.

Your Committee received testimony in support of this measure from the Judiciary; Office of the Public Defender; Department of the Prosecuting Attorney of the City and County of Honolulu; Office of the Prosecuting Attorney of the County of Kaua'i; Hawaii State Bar Association; and numerous individuals.

Your Committee finds that most indigent criminal defendants have a right to representation by competent counsel appointed by the court. Usually, these defendants are represented by the Office of the Public Defender. However, in the event of a conflict, the defendant has a right to the appointment of private defense counsel.

Your Committee further finds that the existing rate of pay has not been adjusted in almost twenty years. This measure will adjust the rate of compensation to attract competent individuals to serve as appointed counsel for these defendants.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$2,890,000.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 396, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 396, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 288 Judiciary & Hawaiian Affairs on H.B. No. 397

The purpose of this measure is to establish the amount of compensation for private-sector examiners who evaluate a criminal defendant's penal responsibility or fitness to proceed in a legal case.

Your Committee received testimony in support of this measure from the Judiciary; Office of the Public Defender; Department of Health; Department of the Prosecuting Attorney of the City and County of Honolulu; Hawaii State Bar Association; and Hawai'i Psychological Association.

Your Committee finds that fees paid to private-sector examiners who evaluate a criminal defendant's penal responsibility or fitness to proceed has not been increased since approximately 2008. Due to the low rate of pay, several former certified examiners no longer accept appointments from the First Circuit Court. This measure will attract more private-sector examiners - reducing delays that cause defendants to spend more time in custody and enabling the courts to meet their constitutional and statutory obligations.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$975,000.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 397, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 397, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 289 Judiciary & Hawaiian Affairs on H.B. No. 398

The purpose of this measure is to increase the rate of compensation and maximum allowable amounts per case for court-appointed counsel and guardians ad litem in family court proceedings.

Your Committee received testimony in support of this measure from the Judiciary; Office of the Public Defender; Department of Human Services; Department of the Prosecuting Attorney of the City and County of Honolulu; Hawaii State Bar Association; Legal Aid Society of Hawai'i; and two individuals.

Your Committee finds that court-appointed guardians ad litem perform a critical role in a wide range of family court cases, including representing the best interest of children in child protective cases or child custody matters and representing persons in involuntary hospitalization and assisted community treatment proceedings. The subjects of these proceedings are the most vulnerable members of the community who are frequently unable to advocate for themselves or meaningfully participate in court proceedings.

Your Committee further finds that court-appointed attorneys play a similar role in family court cases. These court-appointed attorneys provide constitutionally mandated representation to individuals whose parental rights are at stake in child protective cases and to minors who have been charged with violations of the law.

The work court-appointed guardians ad litem and counsel perform can be quite complex and is extremely important. It requires expertise and experience. This measure will help attract and retain highly competent individuals to serve as court-appointed guardians ad litem and counsel in family court cases.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 398, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 398, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 290 Judiciary & Hawaiian Affairs on H.B. No. 399

The purpose of this measure is to establish an additional district court judgeship in the First Circuit.

Your Committee received testimony in support of this measure from the Judiciary; Office of the Public Defender; Hawaii State Bar Association; Collection Law Section of the Hawaii State Bar Association; and Hawaii Financial Services Association.

Your Committee finds that the population and legal issues facing the City and County of Honolulu have significantly increased since the last District Court judge was authorized over forty years ago. Authorizing an additional District Court judge will allow the District Court to better manage court dockets, be more responsive to the needs of the community, increase capacity in the rural courts, and develop or expand specialized court calendars.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 399, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 399, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 291 Judiciary & Hawaiian Affairs on H.B. No. 401

The purpose of this measure is to establish an additional district court judgeship in the Third Circuit.

Your Committee received testimony in support of this measure from the Judiciary; Office of the Public Defender; Hawaii State Bar Association; Collection Law Section of the Hawaii State Bar Association; Hawaii Financial Services Association; and three individuals.

Your Committee finds that there is a critical and urgent need to address the severe strain on the Kona District Court, where a single judge handles nearly 16,000 individual cases annually. Adding an additional district court judge will reduce the individual caseloads and allow the court to operate more efficiently, dispose of cases more promptly, and provide litigants and victims with timely and equitable justice.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 401, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 401, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 292 Judiciary & Hawaiian Affairs on H.B. No. 114

The purpose of this measure is to establish positions and appropriate funds for Adult Services Probation of the First Circuit Court.

Your Committee received testimony in support of this measure from the Judiciary.

Your Committee finds that the additional positions established in this measure will help the Adult Client Services Branch of the First Circuit Court better align with the recommended national best practice standards for community supervision with respect to optimal caseload distribution.

Your Committee has amended this measure by:

- (1) Changing the appropriations and the number of staff positions to unspecified amounts; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of:

- (1) \$781,248 to establish permanent positions in Adult Client Services Branch of the First Circuit Court, including:
 - (A) \$73,836 each for eight full-time equivalent (8.0 FTE) probation officer positions;
 - (B) \$50,880 for one full-time equivalent (1.0 FTE) social worker assistant position;
 - (C) \$48,936 each for two full-time equivalent (2.0 FTE) clerk positions; and
 - (D) \$41,808 for one full-time equivalent (1.0 FTE) secretary position; and
- (2) \$140,000 for operating expenses for the Adult Client Services Branch of the First Circuit Court.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 114, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 114, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 293 Judiciary & Hawaiian Affairs on H.B. No. 146

The purpose of this measure is to appropriate funds to the Judiciary to support its 'Ōlelo Hawai'i Initiatives.

Your Committee received testimony in support of this measure from the Judiciary; one member of the Kaua'i Council; and one individual. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee finds that the 'Ōlelo Hawai'i program provides court interpretation, website translation, archival legal language research, and other services and resources for the public.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$300,000.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 146, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 146, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 294 Higher Education on H.B. No. 309

The purpose of this measure is to establish a working group within the University of Hawai'i Sea Grant Program to develop an inventory of state-owned fishponds.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; University of Hawai'i Sea Grant College Program; Hawai'i Climate Change Mitigation and Adaptation Commission; Office of the Mayor of the County of Maui; Kua'āina Ulu 'Auamo; Sierra Club of Hawai'i; Hawai'i Alliance for Progressive Action; Kauai Climate Action Coalition; Malama Kaua'i; Hawai'i Farmers Union

United; Historic Hawai'i Foundation; Hawai'i Ocean Legislative Task Force; Hawai'i Reef and Ocean Coalition; Hawai'i Food+ Policy; Pacific Whale Foundation; Mālama Pa'akea o Waimalau; Environmental Caucus of the Democratic Party of Hawai'i; and numerous individuals.

Your Committee finds that the University of Hawai'i Sea Grant College Program (Hawai'i Sea Grant) has supported the restoration of loko i'a and the perpetuation of loko i'a practice for decades as part of its mission to improve understanding and stewardship of coastal and marine resources. Your Committee further finds that the Hawai'i Sea Grant's expertise and partnerships with the Department of Land and Natural Resources and other partners involved in the restoration, preservation, and perpetuation of Hawaiian fishponds will be of great value in developing an inventory of state-owned fishponds.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 309, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 295 Higher Education on H.B. No. 3

The purpose of this measure is to extend the deadline for the University of Hawaii Sea Grant College Program to submit the North Shore Beach Management Plan to the Governor and Legislature.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; University of Hawai'i Sea Grant College Program; and Climate Resilience Collaborative.

Your Committee finds that Act 226, Session Laws of Hawaii 2024, required the University of Hawaii Sea Grant College Program to submit a beach management plan for Oahu's North Shore by December 1, 2025. Your Committee recognizes that completion of the beach management plan by the existing deadline will be challenging and believes that extending this deadline to December 1, 2026, will provide the University of Hawaii Sea Grant College Program sufficient time for community engagement and outreach as part of the plan.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 296 Culture & Arts on H.B. No. 194

The purpose of this measure is to designate a certain day each year as Maritime Day to preserve the State's maritime history and celebrate maritime workers and port operations.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that it is important to preserve the State's maritime history and celebrate the efforts in port operations by maritime workers. Your Committee also finds that maritime operations and the efforts of maritime workers at state ports enable the transportation of a majority of basic necessities for the State and its residents into and throughout the State. Your Committee believes this measure preserves the State's rich maritime history and recognizes the hard work that goes into port operations by annually observing Maritime Day.

Your Committee amended this measure by:

- (1) Designating May 22 of every year to be Maritime Day;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Culture & Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 194, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 194, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Reyes Oda).

SCRep. 297 Culture & Arts on H.B. No. 458

The purpose of this measure is to designate April 27 of every year as Brother Joseph Dutton Day.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services; Joseph Dutton Guild; and three individuals.

Your Committee finds that Brother Joseph Dutton was an influential figure in helping the residents of Kalaupapa during the leprosy epidemic. Your Committee finds that Kalaupapa was established as a settlement to isolate people afflicted with leprosy. Upon learning of the ongoing efforts of Father Damien to help the patients of Kalaupapa, Brother Joseph Dutton traveled to the settlement to assist with the treatment and overall well-being of afflicted patients, and continued with his efforts for over 40 years. Your Committee further finds that in 1929, the Hawaii Territorial House of Representatives acknowledged the work of Brother Joseph Dutton and passed House Resolution No. 7 to thank him for his service for the people on Molokai. Your Committee believes that this measure appropriately commemorates his work in Kalupapa by designating April 27 of every year as Brother Joseph Dutton Day.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Culture & Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 458, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 458, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Reyes Oda).

SCRep. 298 Economic Development & Technology on H.B. No. 1391

The purpose of this measure is to establish the Hawaii-Ireland Trade Commission within the Department of Business, Economic Development, and Tourism.

Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; and APEC Hawaii.

Your Committee finds that establishing a Hawaii-Ireland Trade Commission could help promote trade relations, establish business and academic exchanges, and initiate joint action on policy issues of mutual interest to Hawaii and Ireland. This measure establishes the Hawaii-Ireland Trade Commission within the Department of Business, Economic Development, and Tourism.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1391, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1391, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Templo).

SCRep. 299 Economic Development & Technology on H.B. No. 1384

The purpose of this measure is to establish the Hawaii Artificial Intelligence Advisory Council.

Your Committee received testimony in support of this measure from the Office of Enterprise Technology Services and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that the rapid transition to artificial intelligence necessitates adequate policies and practices to ensure that the State captures the full economic benefits of this technology while promoting responsible use. This measure addresses this need by establishing the Hawaii Artificial Intelligence Advisory Council.

Your Committee has amended this measure by:

- (1) Adding provisions to ensure that the Hawaii Artificial Intelligence Advisory Council addresses responsible use and accountability for artificial intelligence vendors;
- (2) Removing the requirement that the Advisory Council's interim report include an analysis of certain aspects of artificial intelligence systems;
- (3) Removing the requirement that the Advisory Council's final report include an evaluation of potential beneficial use cases and recommendations for supporting government employees in the transition to artificial intelligence;
- (4) Changing the appropriation to an unspecified amount;
- (5) Changing the number of positions established to an unspecified number;
- (6) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$500,000 and positions counts of one full-time equivalent (1.0 FTE) permanent management analyst position and one full-time equivalent (1.0 FTE) permanent clerical or secretarial position.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1384, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1384, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Templo).

SCRep. 300 Economic Development & Technology on H.B. No. 455

The purpose of this measure is to establish the Hawaii Start-Up Business Loan Program to encourage entrepreneurship, economic diversification, and resilience.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Food Industry Association; Chamber of Commerce Hawaii; Holomua Collaborative; Mana Up; Hawai'i Community Foundation; Title Guaranty Hawaii; HPM Building Supply; aio; Maui Chamber of Commerce; and one individual. Your Committee received comments on this measure from the Department of Budget and Finance; and Tax Foundation of Hawaii.

Your Committee finds that new businesses that have existed for under five years create the most new jobs, on net, in the United States and help foster economic growth. This measure will benefit the local economy and help create new jobs by establishing a Hawaii Start-Up Business Loan Program to encourage entrepreneurship, economic diversification, and resilience.

Your Committee has amended this measure by:

- (1) Incorporating the Hawaii Start-Up Business Loan Program into the Department of Business, Economic Development, and Tourism's existing Community-Based Economic Development Program;
- (2) Changing the appropriations to unspecified amounts;
- (3) Adding an appropriation for an unspecified amount for a business loan officer position;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider appropriation amounts of:

- (1) \$500,000 to be deposited into and appropriated out of the Hawaii Start-Up Business Loan Program Special Fund; and
- (2) \$95,000 to fund one full-time equivalent (1.0 FTE) business loan officer position.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 455, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 455, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 301 Water & Land on H.B. No. 506

The purpose of this measure is to appropriate funds for the Oahu branch of the Division of Conservation and Resources Enforcement of the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Mālama Pūpūkea-Waimea; Hawai'i Ocean Legislative Task Force; Kua'āina Ulu 'Auamo; and seven individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that one of the most effective ways to help the State's coral reefs withstand and recover from present and future threats, such as warmer ocean temperatures, pollution, and ocean acidification, is to ensure healthy populations of herbivorous fishes. Your Committee further finds that although the Board of Land and Natural Resources adopted statewide herbivore fishing rules in December 2023, enforcement of these rules is particularly difficult on the island of Oahu due to a variety of factors, including greater fishing intensity, diversion of conservation and resources enforcement officers, and nighttime poaching activities. Your Committee believes that providing funding for additional resources will allow the Oahu branch of the Division of Conservation and Resources Enforcement to better protect the State's herbivorous fish populations.

Your Committee has amended this measure by:

- (1) Changing the appropriation and allocations to unspecified amounts;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$4,974,040 to be allocated as follows:

- (1) \$800,000 for two maritime enforcement patrol vessels, complete with audible/visual emergency equipment;
- (2) \$50,000 for two patrol watercrafts, complete with audible/visual emergency equipment;
- (3) \$50,000 for shipment costs for the items in paragraphs (1) and (2);
- (4) \$3,040,000 for thirty-two police marked patrol vehicles, complete with audible/visual emergency equipment;
- (5) \$206,000 for two towing vehicles for patrol vessels, complete with audible/visual emergency equipment;
- (6) \$10,000 for extended warranties for the two vehicles in paragraph (5);
- (7) \$14,000 for one floating drive-on dock;
- (8) \$1,800 for six personal flotation devices;
- (9) \$36,000 for six sets of SCUBA gear, including full equipment and training and certifications;
- (10) \$224,000 for thirty-two portable radios;
- (11) \$5,000 for one base station/repeater;
- (12) \$128,000 for thirty-two night-vision devices;
- (13) \$128,000 for thirty-two drones;
- (14) \$5,600 for thirty-two remote pilot certificates for the drones in paragraph (13);
- (15) \$215,640 per year for six mobile surveillance trailers;
- (16) \$48,000 for six quick-deploy license plate recognition camera systems; and
- (17) \$12,000 for installation costs for the items in paragraph (16).

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 506, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 506, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 1 (Woodson).

SCRep. 302 Water & Land on H.B. No. 1220

The purpose of this measure is to appropriate funds to support efforts of the Division of Aquatic Resources of the Department of Land and Natural Resources in the removal of majano anemone from Kaneohe Bay.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; Hawai'i Invasive Species Council; Coordinating Group on Alien Pest Species; and two individuals.

Your Committee finds that analysis of survey work at Joint Base Pearl Harbor-Hickam in 2023 found that *Anemonia majano*, or the majano anemone, is an invasive species that was detected in Kaneohe Bay. Majano anemone are known for their rapid growth and spread throughout various substrates, aggressive competition for space, and ability to smother native species. Your Committee further finds that while the majano anemone are currently contained in Kaneohe Bay, if left unchecked they could rapidly spread and significantly degrade reef health and fish habitats, harm marine biodiversity, and disrupt vital coastal ecosystems throughout the State. This measure is intended to prevent the spread of harmful invasive species by appropriating funds to support efforts to remove majano anemone from Kaneohe Bay.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$200,000.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1220, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1220, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 1 (Woodson).

SCRep. 303 Water & Land on H.B. No. 502

The purpose of this measure is to temporarily allow each county to petition for the redistricting of land from an agricultural district to a rural district through the Land Use Commission's declaratory ruling process.

Your Committee received testimony in support of this measure from one member of the Hawai'i County Council; Hawai'i Association of REALTORS; Hawai'i Farm Bureau; Hawai'i Farmers Union. Your Committee received comments on this measure from the Department of the Attorney General; Department of Agriculture; Office of Planning and Sustainable Development; and Land Use Commission.

Your Committee finds that there are small lot subdivisions within agricultural districts in each county that may be more appropriately placed within rural districts. Your Committee further finds that these lots were originally created for speculative purposes prior to 1961 and currently inhibit the ability of the counties to ensure appropriate use of lands within agricultural districts. Your Committee believes that providing the counties with a time-limited opportunity to petition the Land Use Commission to issue a declaratory ruling to reclassify these lands will better enable the State and counties to separate non-farm residential uses from bona fide farming to reduce pressure on the State's limited productive agricultural lands.

Your Committee has amended this measure by:

- (1) Excluding important agricultural lands from the redistricting process;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Judiciary & Hawaiian Affairs, should it deliberate on this measure, to consider whether a requirement should be added to consider the agricultural viability, which may be measured by soil productivity rating, of the agricultural lands that could be redistricted using the process proposed by this measure.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 502, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 502, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 1 (Woodson).

SCRep. 304 Water & Land on H.B. No. 1137

The purpose of this measure is to amend the definition of "beach restoration" to expand the types of activities the State recognizes as restorative and beneficial to beach lands in response to sea level rise and beach loss.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; University of Hawai'i Sea Grant College Program and Climate Resilience Collaborative; and one individual.

Your Committee finds that the existing definition of "beach restoration" is limited to the placement of sand on eroded beaches and that other activities, such as sand management, native vegetation management, and removal of abandoned materials from public beaches are restorative and beneficial to beach restoration. This measure will provide the Department of Land and Natural Resources with flexibility to proactively manage and care for beach resources.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1137, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1137, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, none.

SCRep. 305 Water & Land on H.B. No. 1348

The purpose of this measure is to establish a lottery system for the leasing of cabins on public lands for recreation-residence use.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Kōke'e Leaseholders Association; and numerous individuals.

Your Committee finds that there are approximately one hundred recreational-residential, or cabin, leases in Kokee-Waimea Canyon State Parks on Kauai. These unique cabins allow occasional use and are intended to allow families to gather and commune with nature, escape the summer heat, and keep forest roads and amenities open and accessible. However, due to various factors, there is significant inequity in annual rents charged for these cabins, with rents ranging from approximately \$5,000 to \$41,000, and rents for some cabins are unaffordable for many local families. This measure seeks to reward lessees who have stewarded these cabin resources well by allowing existing lessees to directly negotiate for lease extensions if they are in good standing, create more equitable and affordable rents by setting rents at appraised value, and creating a fairer process for acquiring available cabins by offering them through public lottery rather than auction.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1348, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1348, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, none.

SCRep. 306 Water & Land on H.B. No. 316

The purpose of this measure is to appropriate funds for the continuation of the Green Jobs Youth Corps Program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Climate Change Mitigation and Adaptation Commission; Hawai'i State Energy Office; Malama Pūpūkea-Waimea; Kupu; Kua'āina Ulu 'Auamo; Re-use Hawaii; 350Hawaii.org; Coalition Earth; Hawai'i Farmers Union; Holomua Collaborative; Hawai'i Reef and Ocean Coalition; Climate Protectors Hawai'i; The Nature Conservancy, Hawai'i and Palmyra; and five individuals.

Your Committee finds that youth and young adults face higher unemployment rates, which can negatively impact their long-term well-being. To address this, the State has assisted in providing greater work opportunities to youth and young adults in sustainability-related fields through the Green Jobs Youth Corps Program. This measure continues and supports the Program, which has proven successful in providing conservation and sustainability-related work experiences for young adults.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$6,000,000.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 316, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 316, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 10; Ayes with Reservations (Shimizu). Noes, none. Excused, none.

SCRep. 307 Water & Land on H.B. No. 533

The purpose of this measure is to amend the definition of "historic property" under the State's Historic Preservation Program to include only property that predates Statehood Day and, with respect to buildings and structures, is registered on the Hawaii Register of Historic Places.

Your Committee received testimony in support of this measure from the Grassroot Institute of Hawaii; NAIOP Hawaii; and three individuals. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources; Historic Hawai'i Foundation; and two individuals. Your Committee received comments on this measure from the Climate Protectors of Hawaii.

Your Committee finds that this measure improves the determination of which buildings and structures are considered historic property under the State's Historic Preservation Program by considering more than merely the age of the structure, object, or site.

Your Committee has amended this measure by:

- (1) Amending the definition of "historic property" to mean properties included, or eligible for inclusion, on the National Register of Historic Places or Hawai'i Register of Historic Places, rather than properties that predate Statehood Day;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 533, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 533, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 10; Ayes with Reservations (Iwamoto, Poepoe, Shimizu). Noes, none. Excused, none.

SCRep. 308 Higher Education on H.B. No. 1169

The purpose of this measure is to:

- (1) Repeal the existing Conference Center Revolving Fund, University of Hawaii at Hilo; and the Community College Conference Center Revolving Fund;
- (2) Establish a new University of Hawaii Conference Center Revolving Fund to facilitate the administration of the revolving fund for conference center programs among various campuses and operating units of the University of Hawaii System;
- (3) Transfer all appropriations and encumbrances of the Conference Center Revolving Fund, University of Hawaii at Hilo; and the Community College Conference Center Revolving Fund to the University of Hawaii Conference Center Revolving Fund; and
- (4) Appropriate funds out of the University of Hawaii Conference Center Revolving Fund.

Your Committee received testimony in support of this measure from the University of Hawai'i System.

Your Committee finds that establishing a single conference center revolving fund within the University of Hawaii System would standardize implementation of conference center programs across the various campuses of the University of Hawaii System, thereby increasing access to conference center usage on University of Hawaii campuses.

Your Committee has amended this measure by:

- (1) Clarifying that all unencumbered funds in the Conference Center Revolving Fund, University of Hawaii at Hilo; and the Community College Conference Center Revolving Fund shall lapse to the University of Hawaii Conference Center Revolving Fund on the effective date of this measure;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1169, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1169, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 309 Higher Education on H.B. No. 443

The purpose of this measure is to appropriate funds for one retention coordinator position, one internship coordinator position, and student enrollment management initiatives at the University of Hawaii at Hilo.

Your Committee received testimony in support of this measure from the University of Hawai'i at Hilo and Hawai'i Island Chamber of Commerce.

Your Committee finds that the University of Hawaii at Hilo is experiencing a declining enrollment rate. University of Hawaii at Hilo officials have cited the school's limited brand exposure outside of Hawaii, difficulty retaining students from the mainland, and an increase in online educational opportunities as factors contributing to the school's enrollment issues. Your Committee further finds that funding for positions and initiatives directly related to addressing student enrollment are vital to ensuring that the school has the necessary staff and resources to retain students and increase enrollment.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified amounts; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider appropriating \$507,500 for fiscal year 2025-2026 and \$790,000 for fiscal year 2026-2027 for the University of Hawaii at Hilo, as follows:

- (1) \$37,500 for fiscal year 2025-2026 and \$75,000 for fiscal year 2026-2027 for a retention coordinator;
- (2) \$37,500 for fiscal year 2025-2026 and \$75,000 for fiscal year 2026-2027 for an internship coordinator; and
- (3) \$432,500 for fiscal year 2025-2026 and \$640,000 for fiscal year 2026-2027 for student enrollment management initiatives.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 443, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 443, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 310 Higher Education on H.B. No. 718

The purpose of this measure is to appropriate funds to the University of Hawaii John A. Burns School of Medicine (JABSOM) for:

- (1) Faculty positions in the fields of cardiovascular biology, tropical medicine, and quantitative health biostatistics; and
- (2) An environmental health and safety officer staff position.

Your Committee received testimony in support of this measure from the University of Hawaii John A. Burns School of Medicine; University of Hawaii Professional Assembly; and Hawai'i Primary Care Association.

Your Committee finds that additional faculty positions in cardiovascular biology, tropical medicine, and quantitative health biostatistics will enable JABSOM to better understand potential health disparities across a wide spectrum of conditions and diseases commonly experienced by many in the State who are already at higher risk for disease or who suffer disproportionately.

Your Committee further finds that an environmental health and safety officer is needed at JABSOM's health and wellness medical school buildings to conduct the required testing of injection wells and reporting duties at the buildings once JABSOM's contract with the City and County of Honolulu Board of Water Supply expires on September 15, 2025.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated and number of positions to be funded to unspecified amounts; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$763,000 for JABSOM to fund:

- (1) Three full-time equivalent (3.0 FTE) faculty positions: one each in the fields of cardiovascular biology, tropical medicine, and quantitative health biostatistics; and
- (2) One full-time equivalent (1.0 FTE) environmental health and safety officer staff position.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 718, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 718, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 311 Water & Land on H.B. No. 878

The purpose of this measure is to:

- (1) Extend the landfill buffer zone from one-half mile to one mile; and
- (2) Require the landfill buffer zone to apply to lands in the state conservation district and lands designated as national conservation areas.

Your Committee received testimony in support of this measure from one member of the Honolulu City Council; Hawai'i Farmers Union; and four individuals. Your Committee received testimony in opposition to this measure from the Office of the Mayor of the City and County of Honolulu; Department of Public Works of the County of Kaua'i; Environmental Caucus of the Democratic Party of Hawai'i; and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources; Department of Health; Office of the Mayor of the County of Maui; and Iron Workers Stabilization Fund, Local 625.

Your Committee finds that Hawaii's unique ecosystems and cultural sites require stronger protections from the potential environmental and health hazards associated with landfills. Expanding the landfill buffer zone to one mile and including certain conservation areas within its scope will help safeguard native species, critical habitats, and culturally significant lands.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 878, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 878, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Belatti, Morikawa, Woodson). Noes, 3 (Iwamoto, Shimizu, Souza). Excused, none.

SCRep. 312 Agriculture & Food Systems on H.B. No. 92

The purpose of this bill is to effectuate its title.

H.B. No. 92 was introduced as a short-form bill, which is sometimes referred to as a "vehicle" bill primarily used to introduce a bill containing only a general idea as to the purpose of the bill without specific details in the long form.

Your Committee has amended the bill to provide the substantive contents of the bill in long form so that a public hearing may be properly held on its substantive contents.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the action to report out H.B. No. 92, as amended herein, and recommends that it be recommitted to your Committee on Agriculture & Food Systems, for the purpose of holding a public hearing thereon, in the form attached hereto as H.B. No. 92, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 313 Labor on H.B. No. 1027

The purpose of this measure is to make appropriations for collective bargaining cost items for the members of Bargaining Unit (1) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2025-2027.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Hawaii Health Systems Corporation; University of Hawaii System; and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1027, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1027, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Kong, Reyes Oda).

SCRep. 314 Labor on H.B. No. 1031

The purpose of this measure is to make appropriations for collective bargaining cost items for the members of Bargaining Unit (5) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2025-2027.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawai'i State Teachers Association.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1031, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1031, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Kong, Reyes Oda).

SCRep. 315 Labor on H.B. No. 1032

The purpose of this measure is to make appropriations for collective bargaining cost items for the members of Bargaining Unit (6) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2025-2027.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1032, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1032, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Kong, Reyes Oda).

SCRep. 316 Labor on H.B. No. 1033

The purpose of this measure is to make appropriations for collective bargaining cost items for the members of Bargaining Unit (7) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2025-2027.

Your Committee received testimony in support of this measure from The Department of Budget and Finance; University of Hawai'i System; and University of Hawaii Professional Assembly.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1033, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1033, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Kong, Reyes Oda).

SCRep. 317 Labor on H.B. No. 1042

The purpose of this measure is to:

- (1) Extend the deadline for payment to the Employees' Retirement System for departments or agencies of the State or counties that fail to comply with reporting requirements by one year after the review period; and
- (2) Change the timeframe for which the Employees' Retirement System must report regarding any department or agency's failure to submit required information to the Employees' Retirement System from the current fiscal year to the previous fiscal year.

Your Committee received testimony in support of this measure from the Board of Trustees of the Employees' Retirement System.

Your Committee finds it important to provide the Employees' Retirement System more time to effectively collect, review, and analyze the data reported to it and for employers to prepare pre-payment to the Employees' Retirement System, to ensure that requirements are adequately met. Your Committee believes this measure can alleviate undue burdens on the overall process of employer reporting, while ensuring that requirements and deadlines are adequately met.

Your Committee amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1042, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1042, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Kong, Reyes Oda).

SCRep. 318 Labor on H.B. No. 1040

The purpose of this measure is to:

- (1) Effective January 1, 2026, increase the employer base composite monthly contribution to the Hawaii Employer-Union Health Benefits Trust-Fund by 5.2 percent of the 2025 employer base composite monthly contribution; and
- (2) Effective January 1, 2027, require the calculation of the employer base composite monthly contribution to be based on the change in Medicare Part B premiums from 2025-2026 and at two-year increments thereafter.

Your Committee received testimony in support of this measure from the Hawaii Employer-Union Health Benefits Trust Fund Board of Trustees.

Your Committee finds that the employer's monthly base composite contribution to the Employer-Union Health Benefits Trust Fund, as it relates to Medicare Part B premiums, are published shortly after open enrollment for retired members of the Employees' Retirement System ends, resulting in retirees committing to healthcare plans for the upcoming year without knowing what the employer's contributions will be. Your Committee believes that this measure will give retirees adequate time to make informed decisions regarding their healthcare benefits.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1040, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1040, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Kong, Reyes Oda).

SCRep. 319 Labor on H.B. No. 813

The purpose of this measure is to change the minimum number of years of credited service for qualified Tier 2 employees' retirement status from 10 years to 5 years, to be eligible for vested service retirement allowances.

Your Committee received testimony in support of this measure from the Office of the Governor; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawai'i State Teachers Association; United Public Workers, AFSCME Local 646, AFL-CIO; and one individual. Your Committee received comments on this measure from the Employees' Retirement System.

Your Committee finds that the State's public sector continues to struggle with widespread employment vacancies which have negative impacts on providing essential services to the public. Your Committee also finds that reducing the minimum requirement of credited service for Tier 2 members from 10 years to 5 years to be eligible for vested benefits can attract candidates to apply for state and county jobs, while incentivizing current government employees to continue working in the public sector. Your Committee believes that this measure supports the recruitment and retention of qualified employees to fill the vacancies in the public sector.

Your Committee amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 813, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 813, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Kong, Reyes Oda).

SCRep. 320 Labor on H.B. No. 1041

The purpose of this measure to amend the Employees' Retirement System's requirements for beginning dates and automatic disbursements to reflect the most recent requirements of the Internal Revenue Code of 1986, as amended, and preserve the Employees' Retirement System's federal tax qualification.

Your Committee received testimony in support of this measure from the Board of Trustees of the Employees' Retirement System.

Your Committee finds that the Employees' Retirement System undergoes burdensome and costly steps to maintain its beneficial federal tax status while distributing the required minimum distributions to its members. Your Committee also finds that the automatic distribution requirement for non-vested hybrid members necessitates third-party retirement accounts which must be separately defined as contributions plans, to avoid tax implications on contributions. Your Committee believes this measure streamlines the distribution process while ensuring the Employees' Retirement System retains its federal tax status.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1041, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1041, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Kong, Reyes Oda).

SCRep. 321 Labor on H.B. No. 158

The purpose of this measure is to authorize striking workers to be eligible for unemployment benefits.

Your Committee received testimony in support of this measure from the Democratic Party of Hawai'i Labor Caucus; Hawai'i Children's Action Network Speaks!; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawai'i Nurses' Association; Hawai'i State Teachers Association; IATSE Local 665; International Brotherhood of Electrical Workers Local 1357; Pride at Work; UNITE HERE! Local 5; United Public Workers, AFSCME Local 646, AFL-CIO; Hawaii State AFL-CIO; University of Hawaii Professional Assembly; and four individuals. Your Committee received testimony in opposition to this measure from NFIB Hawaii Chapter and the Society of Human Resource Management-Hawaii. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that employees who are striking during labor disputes with their employer are not eligible to receive unemployment benefits. Your Committee also finds that workers resort to striking only when all efforts have been exhausted to reach a fair agreement which results in striking workers undertaking financial burdens. Your Committee believes that this measure ensures striking workers are supported while they are working through an impasse with employers.

Your Committee amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 158, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 158, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 322 Health on H.B. No. 36

The purpose of this measure is to prohibit excited delirium from being:

- (1) Recognized as a valid medical diagnosis or cause of death in the State or stated on a certificate of death or any report as to the cause of death by a local health officer or agent of the Department of Health;
- (2) Used by a law enforcement officer to describe an individual in an incident report; and
- (3) Admitted as evidence in any civil action.

Your Committee received testimony in support of this measure from the ACLU of Hawai'i; National Police Accountability Project; Hui Malama Pono Hawaii; and numerous individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Health and Hawaii Disability Rights Center.

Your Committee finds that "excited delirium" is a term with no medical basis that is used to justify the use of excessive force by some law enforcement officers against individuals experiencing a mental health crisis. Your Committee further finds that "excited delirium" has no consistent definition or diagnostic criteria and is not currently included in the DSM-5, the authoritative classification system for mental health disorders used by medical professionals in the

United States. Your Committee believes that the interests of justice and public health and safety dictate that "excited delirium" should not be recognized as a valid cause of death, used in incident reports, or admissible in civil cases in the State.

Your Committee notes the concerns raised in testimony by the Department of Health that its role in recording causes of death is purely a ministerial function; the Department does not question, confirm, or alter causes of death.

Accordingly, your Committee has amended this measure by:

- (1) Placing the new statutory language about cause of death in Chapter 327C, Hawaii Revised Statutes, relating to death, rather than in Chapter 338, relating to vital statistics, and prohibiting medical examiners, coroners, and health care providers from recognizing excited delirium as a medical diagnosis or cause of death;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 36, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 36, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Alcos). Noes, none. Excused, 1 (Garcia).

SCRep. 323 Health on H.B. No. 213

The purpose of this measure is to appropriate funds to the Healthcare Education Loan Repayment program to continue to provide loan repayment assistance to health care workers in Hawaii.

Your Committee received testimony in support of this measure from the Office of the Governor; Department of Health; State Health Planning and Development Agency; University of Hawai'i at Mānoa John A. Burns School of Medicine; Hawaii Health Systems Corporation Corporate Board of Directors; Hawai'i State Center for Nursing; Hawai'i Primary Care Association; Hawai'i Pacific Health; Hawaii Substance Abuse Coalition; Hawaii Dental Association; The Queen's Health Systems; Healthcare Association of Hawaii; Kaiser Permanente Hawai'i; American College of Obstetricians and Gynecologists – Hawai'i Section; Hawaii Medical Association; AlohaCare; Hawaii Medical Service Association; Hawaii Association of Health Plans; Hawai'i Association of Professional Nurses; and four individuals.

Your Committee finds that a persistent workforce shortage in the health care industry has created difficulties for patients trying to access health care services, in part because of the combination of the high cost of living in the State and the large amount of educational debt carried by many health care professionals. Your Committee further finds that the Legislature appropriated a total of \$30,000,000 over the 2024-2025 fiscal biennium to fund a Healthcare Education Loan Repayment Program (HELP), which assists health care professionals in Hawaii in repaying their health care education loans in exchange for a commitment to provide at least two years of health care service to patients in Hawaii.

In 2023, HELP awarded loan repayments to eight hundred ninety health care workers, including nearly three hundred primary care and behavioral health providers, and had approximately one thousand five hundred applicants waitlisted; these waitlisted applicants will be reviewed, and awards will continue to be provided to the extent that funding is available for 2024 applications. Your Committee believes that continuing to fund this program will help the State in addressing its health care workforce shortages, encourage health care professionals to remain in the State, and ensure Hawaii's residents receive timely access to health care services.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$15,000,000.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 213, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 213, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Garcia).

SCRep. 324 Health on H.B. No. 474

The purpose of this measure is to appropriate funds to the Department of Health for the Fall Prevention and Early Detection Coordinator position established by Act 153, Session Laws of Hawaii 2014.

Your Committee received testimony in support of this measure from the Executive Office on Aging; AARP Hawai'i; and one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that falls among adults aged sixty-five and older are the leading cause of injury death for individuals in that age group. Your Committee further finds that Act 153, Session Laws of Hawaii 2014 (Act 153), established and appropriated funds for a Fall Prevention and Early Detection Coordinator position within the Department of Health's Emergency Medical Services and Injury Prevention Systems Branch. Your Committee believes that appropriating funds to address fall prevention will ensure safety and well-being of the State's older residents.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes the testimony of the Department of Health before your Committee, which stated that a full-time equivalent position dedicated to addressing fall prevention already exists within the Department of Health's Emergency Medical Services and Injury Prevention System Branch and that the funds appropriated by this measure may be better used to assist the existing Fall Prevention and Early Detection Coordinator in enhancing and expanding statewide programs and services that address fall prevention.

Accordingly, your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation of \$100,000 for the existing position and removing language specifying that the funds appropriated by this measure be used specifically for the Fall Prevention and Early Detection Coordinator position established by Act 153.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 474, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 474, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Garcia).

SCRep. 325 Health on H.B. No. 729

The purpose of this measure is to end child marriage in Hawaii by:

- (1) Raising the minimum age for marriage from sixteen to eighteen;
- (2) Repealing the authority of parents and the Family Court to consent to a minor's marriage; and
- (3) Repealing spousal cohabitation after the parties attain legal age as an exception for an annulment based on nonage.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women; Kauai County Committee on the Status of Women; Zonta Club of Hilo; Unchained At Last; Service Women's Action Network; Zonta International USA Caucus; Protect Our Defenders; Equality Now; Zonta Club of Hilo Foundation; AHA Foundation; American Atheists; a petition signed by twenty-four individuals; and numerous individuals. Your Committee received comments on this measure from the Department of the Attorney General; Department of Health; and Department of Human Services.

Your Committee finds that there is growing national and international recognition that child marriage is a human rights violation. A child entering into a marriage has not reached the threshold of adulthood that grants certain rights and responsibilities and may have been pressured or coerced into marrying, especially if the marriage is because the child is pregnant or the result of sex trafficking. Girls are disproportionately affected by the practice of a child marriage, with the vast majority of marriages occurring between a minor female and an adult male. In Hawaii, of the approximately eight hundred child marriages that have taken place in the State since 2000, eighty percent of these marriages were minor females marrying adult men. Your Committee further finds that as of 2018, thirteen states and two territories have banned child marriage in their jurisdictions. Your Committee believes that ending child marriage in Hawaii will protect vulnerable minors from being coerced into marriages they do not want and cannot fully consent to.

Your Committee has amended this measure by:

- (1) Repealing language in the Uniform Guardianship and Protective Proceedings Act that empowered a guardian of a minor to consent to the marriage of the minor;
- (2) Amending the Penal Code to remove exceptions to sexual assault offenses if the person who committed the offense was legally married to the minor;
- (3) Inserting a savings clause;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 729, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 729, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Garcia).

SCRep. 326 Health on H.B. No. 784

The purpose of this measure is to appropriate funds for the operation of an additional advanced life support ambulance to be based in the Makalei area on the island of Hawaii.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Hawaii Health Systems Corporation Corporate Board of Directors; one member of the Hawai'i County Council; Hawaii Fire Department; American Medical Response; and five individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that there is an urgent need for an additional advanced life support ambulance to augment the Hawaii County emergency medical services system for residents of the North Kona area on the island of Hawaii. Your Committee further finds that for residents of the area, primary care services can be as far as thirty miles away. The vast coverage area, challenging terrain, and increasing traffic congestion all contribute to delayed emergency response times. The establishment of an additional advanced life support ambulance, as intended by this measure, will significantly improve response capabilities, ensuring residents and visitors receive swift, life-saving care.

Your Committee notes the consideration provided by the Department of Health in their written testimony before your Committee, regarding whether traditional 911 services would be the most efficient or cost effective for these communities, given the potentially lower emergency call volume. Your Committee also notes the alternative model suggested by the Department to utilize advanced life support services through community paramedicine or mobile integrated health programs, which are designed to address emergency and non-emergency medical needs at a potentially lower cost.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$1,750,000.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 784, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 784, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Garcia).

SCRep. 327 Health on H.B. No. 816

The purpose of this measure is to:

- (1) Authorize emergency medical technicians in the State to administer buprenorphine after the administration of an opioid antagonist during an opioid overdose response; and
- (2) Require the Department of Health to adopt rules that incorporate standard protocols associated with opioid-related drug overdoses and buprenorphine administration, allocate resources for emergency medical technician training, and coordinate with emergency medical service providers in the State regarding buprenorphine administration.

Your Committee received testimony in support of this measure from the Mayor of the County of Hawai'i; Hawaii Substance Abuse Coalition; Big Island Substance Abuse Council; Hawai'i Island Fentanyl Task Force; Hawai'i Health & Harm Reduction Center; and two individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that administration of an opioid antagonist in the case of an opioid overdose can have the unintended consequence of causing acute withdrawal symptoms in individuals, leading to severe distress, refusal of further treatment, or increased risk of repeat overdoses. Your Committee further finds that the administration of buprenorphine has been proven to prevent withdrawal symptoms and the administration of buprenorphine after the administration of an opioid antagonist has been adopted by many other states as part of their emergency medical services protocols. Your Committee believes that authorizing emergency medical technicians to administer buprenorphine after the administration of an opioid antagonist in cases of an opioid overdose may reduce the risk of repeat overdoses and provide a bridge to additional treatment.

Your Committee notes the concerns raised in testimony by the Department of Health that there are a lack of treatment centers in the State that can accept patients who have been administered buprenorphine by an emergency medical technician within a day or two after their emergency medical services encounter for follow up care and additional treatment with buprenorphine.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 816, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 816, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Garcia).

SCRep. 328 Health on H.B. No. 341

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist the Hawai'i Island Community Health Center purchase or lease land on the island of Hawaii to develop primary care health care facilities.

Your Committee received testimony in support of this measure from the Hawai'i Primary Care Association; Hawai'i Island Community Health Center; AlohaCare; and three individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Hawai'i Island Community Health Center plays a critical role in providing comprehensive, affordable and accessible health care who often face significant barriers to receiving timely medical attention, whether due to geographical isolation, financial constraints, or other shortages. Your Committee further finds that the issuance of special purpose revenues bonds to assist Hawai'i Island Community Health Center in purchasing or leasing land on the island of Hawaii will enable the State to increase access to primary care services for the residents of Hawaii island without imposing undue financial strain on taxpayers.

Your Committee has amended this measure by:

- (1) Changing the special purpose revenue bond issuance authorization amount to an unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider a special purpose revenue bond issuance authorization amount of \$80,000,000.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 341, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 341, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Garcia).

SCRep. 329 Economic Development & Technology on H.B. No. 934

The purpose of this measure is to:

- (1) Transfer the Hawaii Broadband and Digital Equity Office from the Department of Business, Economic Development, and Tourism to the Office of Enterprise Technology Services in the Department of Accounting and General Services; and
- (2) Establish the Broadband and Digital Equity Special Fund.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor; Hawai'i State Council on Developmental Disabilities; University of Hawai'i System; and one individual. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Budget and Finance; Office of Enterprise Technology Services; and Charter Communications.

Your Committee finds that reliable, affordable high speed internet access is essential for ensuring greater educational, economic, and social opportunities for all. This measure addresses this need by transferring the Hawaii Broadband and Digital Equity Office to the Office of Enterprise Technology Services to consolidate and centralize broadband responsibilities currently dispersed across state agencies and establishing the Broadband and Digital Equity Special Fund.

Your Committee has amended this measure by:

- (1) Excluding the deployment of broadband infrastructure for the provision of retail service from the authorized uses of the Broadband and Digital Equity Special Fund;
- (2) Changing the appropriations to unspecified amounts;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider the appropriation amount of \$200,000 to be deposited into and appropriated out of the Broadband and Digital Equity Special Fund.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 934, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 934, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 330 Economic Development & Technology on H.B. No. 650

The purpose of this measure is to appropriate funds to provide education and support to local businesses regarding the United States Food and Drug Administration's guidance on colored sea salt.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Agriculture; Hawaii Food Industry Association; Hawai'i Farm Bureau; H.K. Enterprise Group, Inc.; and one individual.

Your Committee finds that the United States Food and Drug Administration's industry guidance on the use of color additives in sea salt products indicates that manufacturers who intend to use color additives that are not currently approved for food use should obtain approval through the color additive petition process. This measure appropriates funds to provide education and support to local businesses regarding the industry guidance on colored sea salt.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$300,000.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 650, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 650, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 331 Economic Development & Technology on H.B. No. 437

The purpose of this measure is to require the Department of Business, Economic Development, and Tourism to establish an out-of-state office in the Philippines.

Your Committee received testimony in support of this measure from the Oahu Filipino Community Council; Filipino Chamber of Commerce of Hawaii; Hawaii Philippines Business & Economic Council; and three individuals. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that enhancing economic ties between Hawaii and the Philippines presents significant opportunities for strengthening mutual economic development. This measure is intended to help foster these economic benefits by requiring the Department of Business, Economic Development, and Tourism to establish an out-of-state office in the Philippines.

Your Committee has amended this measure by changing its effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider the following appropriation amounts for the establishment of an out-of-state office in the Philippines:

- (1) \$200,000 for fiscal year 2025-2026 for salaries, operating expenses, programmatic expenses, and start-up costs including a study as to where best to locate the office; and
- (2) \$175,000 for fiscal year 2026-2027 and thereafter on a recurring basis.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 437, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 437, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 332 Economic Development & Technology on H.B. No. 572

The purpose of this measure is to:

- (1) Exempt food and groceries from the General Excise Tax; and

- (2) Expand General Excise Tax exemptions to include certain healthcare-related goods or services that were not purchased under the Medicare, Medicaid, and TRICARE programs.

Your Committee received testimony in support of this measure from the Hawai'i Association of Professional Nurses; Hawaii Food Industry Association; University of Hawai'i System; AlohaCare; Hawaii Association of Health Plans; Grassroot Institute of Hawaii; Maui Chamber of Commerce; Hawaii Cattlemen's Council, Inc.; Chamber of Commerce Hawaii; and numerous individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that expenses related to healthcare and food and groceries contribute heavily to the high cost of living in Hawaii. This measure seeks to lower the cost of living in the State by exempting food and groceries from the General Excise Tax and expanding General Excise Tax exemptions to include certain healthcare-related goods or services that were not purchased under the Medicare, Medicaid, and TRICARE programs.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 572, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 572, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 333 Economic Development & Technology on H.B. No. 701

The purpose of this measure is to establish a refundable Family Caregiver Tax Credit for nonpaid family caregivers.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board; AARP Hawai'i; Alzheimer's Association, Hawaii Chapter; Hawai'i Family Caregiver Coalition; Hawaii Self-Advocacy Advisory Council; Hawaii Primary Care Association; Hawai'i Children's Action Network Speaks!; Aloha United Way and the ALICE Initiative; and numerous individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that a 2023 report from the AARP found that 154,000 Hawaii residents provide unpaid caregiving services for a loved one. Your Committee further finds that unpaid family caregivers face many physical, emotional, and financial challenges and often balance caregiving with work and other responsibilities. This measure helps provide support to these caregivers by establishing a Family Caregiver Tax Credit for nonpaid family caregivers.

Your Committee has amended this measure by:

- (1) Making the Family Caregiver Tax Credit non-refundable;
- (2) Requiring the Director of Taxation to prepare forms, ascertain the validity of claims, and adopt rules in consultation with the Executive Office on Aging;
- (3) Requiring the Executive Office on Aging to certify claims for tax credits;
- (4) Adding an appropriation of an unspecified sum for the Executive Office on Aging to certify claims for tax credits;
- (5) Changing the taxable years for which the Family Caregiver Tax Credit applies to taxable years beginning after December 31, 2025;
- (6) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$750,000 for the Executive Office on Aging to certify claims for tax credits.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 701, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 701, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 334 Economic Development & Technology on H.B. No. 753

The purpose of this measure is to:

- (1) Increase a taxpayer's applicable percentage of employment-related expenses that is used to calculate the Household and Dependent Care Services Tax Credit; and
- (2) Align the sunset dates for the temporary increase in applicable percentage proposed by this measure and the temporary increase in maximum employment-related expenses enacted by Act 163, Session Laws of Hawaii 2023, both of which are used to calculate the Household and Dependent Care Services Tax Credit, by extending the sunset date of the temporary increase in maximum employment-related expenses under Act 163, Session Laws of Hawaii 2023.

Your Committee received testimony in support of this measure from AARP Hawai'i; the Hawai'i Family Caregiver Coalition; Indivisible Hawai'i; Early Childhood Action Strategy; AAUW of Hawaii; Education Caucus of the Democratic Party of Hawai'i; Catholic Charities Hawai'i; Hawai'i Children's Action Network Speaks!; Puakalehua Early Learning Consortium; Save Medicaid Hawaii; Hawai'i Health & Harm Reduction Center; Aloha United Way and the ALICE Initiative; and numerous individuals. Your Committee received comments on this measure from the Department of Taxation; Tax Foundation of Hawaii; and one individual.

Your Committee finds that child care costs in the State are rising, with the average cost of full-time child care in Hawaii currently exceeding \$13,000 a year. The Household and Dependent Care Services Tax Credit offers some financial relief from child care costs through a tax credit calculated by taking the applicable percentage, based on annual gross income, of employment-related expenses incurred. The Legislature attempted to strengthen the Household and Dependent Care Services Tax Credit with the enactment of Act 163, Session Laws of Hawaii 2023 (Act 163), which temporarily raises the amount of employment-related expenses that may be taken into account for the purposes of the credit. However, Act 163 did not also increase the applicable percentage

portion of the calculation of the tax credit, resulting in significantly less relief. This measure addresses the shortcomings of Act 163 by temporarily increasing the applicable percentage and making the temporary increases to the applicable percentage and employment-related expenses coincide.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 753, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 335 Economic Development & Technology on H.B. No. 1442

The purpose of this measure is to:

- (1) Establish the Office of Entrepreneurship; and
- (2) Authorize the use of funds in the Hawaii Film and Creative Industries Development Special Fund to fund a program in partnership with the Office of Entrepreneurship that creates opportunities in film, media, electronic sports, and creative industries for new businesses.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii and six individuals. Your Committee received comments on this measure from the Department of Budget and Finance and Maui Chamber of Commerce.

Your Committee finds that according to a 2019 Bureau of Labor Statistics study, fifty percent of Hawaii businesses close within the first six years of operation. Your Committee further finds that Hawaii's entrepreneurs and new businesses need increased support from the State in order to help them be successful and stay in business. This measure addresses this need by establishing the Office of Entrepreneurship to support the growth of entrepreneurship, assist new businesses in interacting with state agencies, help entrepreneurs navigate regulatory requirements, and advocate for entrepreneurs.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1442, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1442, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 336 Economic Development & Technology on H.B. No. 546

The purpose of this measure is to establish and appropriate funds for the Aloha Intelligence Institute within the University of Hawaii to develop, support, and advance artificial intelligence initiatives statewide.

Your Committee received testimony in support of this measure from the University of Hawai'i; Hawai'i Technology Development Corporation; and one individual.

Your Committee finds that artificial intelligence technologies are rapidly transforming industries and societies worldwide. Your Committee further finds that the State should ensure that it is properly positioned to take advantage of the many benefits of artificial intelligence. This measure addresses this need by establishing the Aloha Intelligence Institute to develop, support, and advance artificial intelligence initiatives statewide.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 546, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 337 Economic Development & Technology on H.B. No. 796

The purpose of this measure is to require income tax credits established or renewed after December 31, 2025, to include a five-year sunset or a gradual reduction over a three-year period, beginning with the sixth year of the credit.

Your Committee received testimony in opposition to this measure from HCANSpeaks!; SAG-AFTRA; Catholic Charities Hawai'i; Democratic Party of Hawai'i Labor Caucus; IATSE Local 665; Democratic Party of Hawai'i Education Caucus; and six individuals. Your Committee received comments on this measure from the Department of Taxation; Department of Business, Economic Development, and Tourism; and Tax Foundation of Hawaii.

Your Committee finds that the State must establish a more fiscally responsible phase-out process for tax credits to ensure the State's long-term economic well-being. This measure addresses this need by requiring income tax credits established or renewed after December 31, 2025, to include a five-year sunset or a gradual reduction over a three-year period, beginning with the sixth year of the credit.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 796, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 796, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Hussey, Tam, Matsumoto). Noes, none. Excused, none.

SCRep. 338 Education on H.B. No. 429

The purpose of this measure is to appropriate funds for the Executive Office on Early Learning:

- (1) To hire teachers and teacher assistants; and
- (2) For equipment and services for public preschools.

Your Committee received testimony in support of this measure from the Lieutenant Governor; Department of Human Services; Executive Office on Early Learning; Hawai'i State Teachers Association; Kamehameha Schools; and one individual.

Your Committee finds that the cost of childcare is a significant contributor to the high cost of living in the State. Many working families with young children or those considering having children cannot afford, or must save significantly to afford, a typical monthly childcare expense.

Your Committee further finds that increasing access to free public preschool education will help working families in Hawaii prepare their children for kindergarten, which would then dramatically improve the child's academic success and ultimate career opportunities. However, preschools across the State are encountering staffing shortages and lacking funding for services and equipment. This measure will provide funding for staff, equipment, and services for public preschools that will enable the State's young children to learn in a rich classroom environment.

Your Committee has amended this measure by:

- (1) Changing the amounts appropriated and amount of positions to be funded to unspecified amounts;
- (2) Changing the effective date to July 1, 3000; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider appropriating funds for the Executive Office on Early Learning, as follows:

- (1) \$5,027,927 for fiscal year 2025-2026, as follows:
 - (A) \$1,706,525 for twenty-five full-time equivalent (25.0 FTE) pre-school teacher positions;
 - (B) \$1,175,100 for twenty-five full-time equivalent (25.0 FTE) educational assistant III positions;
 - (C) \$787,552 for eight full-time equivalent (8.0 FTE) twelve-month state office teacher positions;
 - (D) \$48,750 for substitute teachers;
 - (E) \$200,000 for classroom supplies;
 - (F) \$175,000 for intra-state transportation;
 - (G) \$45,000 for subscriptions;
 - (H) \$45,000 for other miscellaneous current expenses;
 - (I) \$825,000 for furniture and furnishings; and
 - (J) \$20,000 for reference books; and
- (2) \$8,236,302 for fiscal year 2026-2027, as follows:
 - (A) \$3,413,050 for fifty full-time equivalent (50.0 FTE) pre-school teacher positions;
 - (B) \$2,350,200 for fifty full-time equivalent (50.0 FTE) educational assistant III positions;
 - (C) \$787,552 for eight full-time equivalent (8.0 FTE) twelve-month state office teacher positions;
 - (D) \$97,500 for substitute teachers;
 - (E) \$400,000 for classroom supplies;
 - (F) \$225,000 for intra-state transportation;
 - (G) \$55,000 for subscriptions;
 - (H) \$63,000 for other miscellaneous current expenses;
 - (I) \$825,000 for furniture and furnishings; and
 - (J) \$20,000 for reference books.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 429, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 429, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 339 Education on H.B. No. 621

The purpose of this measure is to:

- (1) Require the Department of Education to pay salary differentials for English learner educators; and
- (2) Appropriate funds to fund the pay differentials.

Your Committee received testimony in support of this measure from the Hawai'i State Teachers Association; Hawai'i Coalition for Immigrant Rights; Hawai'i Friends of Civil Rights; Waipahu Safe Haven Immigrant/Migrant Resource Center; Secondary Student Conference Student Achievement Committee; Hawai'i Children's Action Network Speaks!; and numerous individuals. Your Committee received testimony in support of the intent of this measure from the Department of Education. Your Committee received testimony in opposition to this measure from the Office of Collective Bargaining. Your Committee received comments on this measure from the Department of the Attorney General and State Public Charter School Commission.

Your Committee finds that there is a critical shortage of qualified English language learner educators in Hawaii, which is having a detrimental impact on the education of students whose primary language is not English. Your Committee further finds that providing a pay differential to English language educators is a proven strategy to incentivize skilled professionals to enter and remain in the profession.

Your Committee has amended this measure by changing the effective date to July 1, 3000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 621, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 621, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 340 Education on H.B. No. 863

The purpose of this measure is to appropriate funds to the Department of Education for teacher-requested classroom supplies.

Your Committee received testimony in support of this measure from the Department of Education; State Public Charter School Commission; Democratic Party of Hawai'i Education Caucus; Hawai'i State Teachers Association; Environmental Caucus of the Democratic Party of Hawaii; and eight individuals.

Your Committee finds that nationwide, teachers spend an average of \$500 out of pocket on their classrooms each year. This measure appropriates funds to the Department of Education to provide teachers with their requested classroom supplies and will alleviate the financial burden on teachers in acquiring their own supplies.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated to an unspecified amount; and
- (2) Changing the effective date to July 1, 3000.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$3,000,000 for teacher-requested classroom supplies.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 863, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 863, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 341 Education on H.B. No. 98

The purpose of this measure is to authorize public school complexes to use authentic assessments as part of classroom-based performance assessments.

Your Committee received testimony in support of this measure from the Hawai'i State Teachers Association; Democratic Party of Hawai'i Education Caucus; and numerous individuals. Your Committee received testimony in opposition to this measure from four individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that the federal No Child Left Behind Act of 2001 and the 2009 United States Department of Education grant competition, the Race to the Top Assessment Program, shifted national education priorities from inquiry-based teaching to standardized testing and led teachers and administrators to spend more time, money, and energy on standardized testing at the expense of alternative learning pathways. Your Committee further finds that an overemphasis on standardized testing narrows academic curricula, causing teachers to teach to the test and leading to a reduction in vocational programs and arts and cultural education.

Your Committee notes that the federal Every Student Succeeds Act of 2015 urged states to adopt innovative assessments as an alternative to standardized testing. Authentic assessments are one example of an innovative assessment, as they align classroom curricula with real-world problem solving. This measure will enable public school complex areas to use authentic assessments as part of classroom-based performance assessments to encourage student achievement.

Your Committee has amended this measure by changing the effective date to July 1, 3000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 98, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 98, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 342 Education on H.B. No. 627

The purpose of this measure is to appropriate funds to the Department of Education for positions to implement and maintain school safety measures.

Your Committee received testimony in support of this measure from the Department of Law Enforcement; Department of Education; Hawai'i Fire Department; Hawai'i State Teachers Association; and two individuals.

Your Committee finds that funding is critically needed for school safety measures, including active threat response training, hazardous material disposal contracts, school safety equipment, threat assessment and reporting, and fire safety. Your Committee further finds that state funding for school safety measures is a proactive step to protect schools in the State and ensure that students can focus on learning without fear.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated and amount of positions to be funded to unspecified amounts;
- (2) Changing the effective date to July 1, 3000; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$15,800,000 for one targeted violence prevention and threat assessment program manager and one fire safety and security technology program manager to implement and maintain school safety measures.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 627, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 627, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 343 Education on H.B. No. 629

The purpose of this measure is to expand the scopes of practice for occupational therapists, physical therapists, and speech pathologists employed by or contracted with the Department of Education to diagnose students with a medical condition and treat the students.

Your Committee received testimony in support of this measure from the Department of Human Services; Department of Education; Hawai'i FASD Action Group; and one individual. Your Committee received testimony in support of the intent of this measure from the Hawaii Board of Speech Pathology and Audiology. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs; American Physical Therapy Association-Hawaii; and one individual. Your Committee received comments on this measure from the Board of Physical Therapy.

Your Committee finds that timely access to occupational, physical, and speech therapy services is critical for supporting students' development, particularly with physical, sensory, cognitive, and communication skills. These services will enable students to benefit more effectively from their learning environments and participate more fully in educational and social activities.

Your Committee further finds that amending Hawaii's occupational therapy, physical therapy, and speech pathology laws is necessary to promote a more cost effective model for delivering therapeutic services to students in the Department of Education. By allowing these services to be provided after a diagnosis of a medical condition without a physician's diagnosis, the Department of Education can more effectively bill for these services, generating additional funding to support and enhance therapeutic resources for students.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Consumer Protection & Commerce, should it deliberate on this measure, to consider the concerns raised in testimony by the Department of Commerce and Consumer Affairs and other entities regarding whether the actions allowed by this measure fall outside the scope of practice for occupational therapists, physical therapists, and speech pathologists.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 629, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 629, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 344 Education on H.B. No. 763

The purpose of this measure is to:

- (1) Establish a Hawaii Civic Education Trust Fund for the educational benefit of students in the Hawaii public school system; and
- (2) Appropriate funds for the expansion of civic education in public schools.

Your Committee received testimony in support of this measure from the Democratic Party of Hawai'i Education Caucus; PACE Commission; Hawai'i Youth Food Council; Green Party of Hawai'i; and numerous individuals. Your Committee received testimony in support of the intent of this measure from the Department of Education. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that civic education prepares students to participate in the public and political lives of their communities and helps them develop critical thinking skills that are vital to the functioning of a democratic nation. Your Committee further finds that the establishment of a Hawaii Civic Education Trust Fund and providing funding to the Department of Education to increase access to civic education in Hawaii's public school systems will increase voter turnout and citizen engagement over the long term.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated and amount of positions to be funded to unspecified amounts;
- (2) Changing the effective date to July 1, 3000; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of:

- (1) \$84,000 for the expansion of civic education in public schools; and
- (2) \$200,000 for two permanent civic education resource teacher positions.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 763, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 763, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 345 Education on H.B. No. 637

The purpose of this measure is to:

- (1) Require schools to administer Department of Education-approved dyslexia-sensitive universal screening as a part of the universal screening process;
- (2) Implement evidence-based interventions for students who are identified as having dyslexia and students who are flagged as having language and literacy challenges through the Hawaii multi-tiered system of supports;
- (3) Provide professional development for teachers to increase the implementation of structured literacy instruction; and
- (4) Support pre-service teacher programs in training their general and special education teacher candidates in structured literacy instruction.

Your Committee received testimony in support of this measure from the Department of Education; State Council on Developmental Disabilities; HawaiiKidsCAN; Early Childhood Action Strategy; Renaissance Learning; Environmental Caucus of the Democratic Party of Hawai'i; Lou's Quality Home

Health Care Services, LLC; Advanced Care Training, LLC; and four individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the Department of Education is striving to address poor reading proficiency rates by administering a universal screener at the beginning, middle, and end of the year for all students from kindergarten to grade nine to identify students who may be at risk for reading failure and to provide evidence-based interventions to support these students. However, not all universal screeners are able to detect or identify students who may have certain underlying language challenges that impact learning, which is problematic because students with dyslexia or other developmental language disorders may need more intensive support or a more individualized intervention program to address the causes of their reading challenges. This measure will support students with dyslexia and students with language and literacy challenges, which will enable these young students to achieve academic success in an effective and efficient manner.

Your Committee has amended this measure by:

- (1) Appropriating an unspecified amount of funds to the Department of Education for dyslexia-sensitive universal screeners;
- (2) Changing the effective date to July 1, 3000; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$750,000 for dyslexia-sensitive universal screeners.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 637, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 637, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 346 Education on H.B. No. 620

The purpose of this measure is to:

- (1) Require the Department of Education to include the instruction of braille and provision of braille instructional materials under certain circumstances; and
- (2) Require and appropriate funds to the Department of Education to establish and maintain a braille literacy resource center.

Your Committee received testimony in support of this measure from the National Federation of the Blind of Hawaii; Hawaii State Committee of Blind Vendors; and numerous individuals. Your Committee received comments on this measure from the Department of the Attorney General; Department of Education; and Department of Human Services.

Your Committee finds that literacy skills are necessary for success in education, employment, and life for all members of society, including individuals who have low vision or are blind. Your Committee further finds that Braille literacy skills are fundamental for low vision and blind students to learn, seek and maintain remunerative employment, and access the opportunities in life open to all regardless of disability. Your Committee believes that it is in the best interest of the State to make learning opportunities available to all residents. Therefore, your Committee finds it necessary to promote Braille instruction and the timely access to braille instructional materials for low vision and blind students, parents, teachers, and other school personnel.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 620, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 620, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 347 Education on H.B. No. 439

The purpose of this measure is to require the Hawaii Teacher Standards Board to establish an international teaching license for certain visa holders and the criteria for obtaining the international teaching license.

Your Committee received testimony in support of this measure from the Department of Education; Hawaii Association of Filipino Educators; Hawai'i Friends of Civil Rights; Oahu Filipino Community Council; Filipino Chamber of Commerce of Hawaii; Foreign Cultural Exchange Consultants LLC; Kings Church; Alliance Abroad Group; and numerous individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Teacher Standards Board. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the BridgeUSA J-1 visa program, administered by the United States Department of State, offers foreign teachers an opportunity to teach in accredited schools in the United States servicing students in grades kindergarten through twelve. Since its implementation, the J-1 visa program has been of great success, especially in bringing educators from the Philippines to the State, serving in 55 public schools statewide.

Your Committee further finds that the State's existing licensing rules hinder the full potential of prospective teachers for the J-1 visa program. The State's existing licensure reciprocity policies also do not adequately recognize the international qualifications of J-1 teachers. This measure will recognize the qualifications and experience of international educators, while ensuring equitable compensation, to fully leverage the skills, knowledge, and experience of international educators.

Your Committee has amended this measure by:

- (1) Deleting language that would have established the criteria for obtaining an international teacher license;
- (2) Requiring the Hawaii Teacher Standards Board to establish the requirements necessary to obtain the international teacher license;
- (3) Requiring the Hawaii Teacher Standards Board to submit a report to the Legislature prior to the 2026 Regular Session on how to support international teachers teaching in the State through the J-1 visa program;

- (4) Changing the effective date to July 1, 3000; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 439, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 439, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Muraoka). Noes, none. Excused, none.

SCRep. 348 Energy & Environmental Protection on H.B. No. 749

The purpose of this measure is to:

- (1) Establish a Cesspool Conversion Section within the Department of Health's Wastewater Branch that is dedicated to facilitating the conversion of cesspools within the State; and
- (2) Establish and appropriate funds for positions within the Cesspool Conversion Section.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Maui; Environmental Caucus of the Democratic Party of Hawai'i; Public Access to SunScreens Coalition; Hawai'i Reef Ocean Coalition; Coral Reef Alliance; Mālama Pūpūkea-Waimea; WAI: Wastewater Alternatives & Innovations; The Nature Conservancy; Hawai'i Wai Ola; Resources Legacy Fund; Pacific Whale Foundation; Surfrider Foundation; and six individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that every cesspool in the State, excluding cesspools granted certain exemptions, is required to be upgraded or converted to a director-approved wastewater system or connected to a sewerage system by January 1, 2050. Your Committee further finds that the Department of Health needs additional personnel to facilitate compliance with this mandate. This measure addresses this need by establishing a Cesspool Conversion Section within the Wastewater Branch of the Department of Health which will be responsible for facilitating the conversion of cesspools within the State.

Your Committee has amended this measure by:

- (1) Changing the number of positions established to an unspecified number;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$280,000 and three full-time equivalent (3.0 FTE) positions within the Cesspool Conversion Section.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 749, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 749, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 349 Energy & Environmental Protection on H.B. No. 977

The purpose of this measure is to:

- (1) Authorize the Clean Energy and Energy Efficiency Revolving Loan Fund to be used to provide financial assistance to underserved ratepayers, in addition to other eligible borrowers; and
- (2) Appropriate funds into and out of the Clean Energy and Energy Efficiency Revolving Loan Fund.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Hawaii Green Infrastructure Authority; Hawai'i Climate Change Mitigation & Adaptation Commission; Sierra Club of Hawai'i; Climate Protectors Hawai'i; Inter-Island Solar Supply; Shifted Energy; Alternate Energy Hawaii; HNU-Energy; 350Hawaii.org; Coalition Earth; and four individuals.

Your Committee finds that rooftop solar plus storage systems will help the State meet its one hundred percent renewable energy portfolio standard goal by 2045 and help reduce reliance on imported fossil fuels. Your Committee further finds that while the Hawaii Green Infrastructure Authority was awarded \$62,000,000 in federal solar-for-all loan funds, these funds are restricted to low-income households, leaving moderate-income households and other underserved ratepayers without access to financing for these solar systems. This measure addresses this need by authorizing the Clean Energy and Energy Efficiency Revolving Loan Fund to be used to provide financial assistance to underserved ratepayers.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider the appropriation amount of \$50,000,000 to be deposited into and appropriated out of the Clean Energy and Energy Efficiency Revolving Loan Fund.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 977, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 977, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 350 Energy & Environmental Protection on H.B. No. 1020

The purpose of this measure is to establish the Carbon Sequestration and Underground Water Resource Characterization Program and require an environmental assessment of the program's actions.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii State Energy Office; Ulupono Initiative; and two individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Honolulu Board of Water Supply.

Your Committee finds that resource characterization via slim-hole bores can help identify water and carbon sequestration resources across the State. Your Committee further finds that these resources can serve as a viable form of renewable energy. This measure establishes the Carbon Sequestration and Underground Water Resource Characterization Program to identify the location and characteristics of underground water and carbon sequestration resources.

Your Committee has amended this measure by:

- (1) Requiring the Hawaii State Energy Office to collaborate with the Director of Business, Economic Development, and Tourism to implement the Carbon Sequestration and Underground Water Resource Characterization Program and conduct an environmental assessment;
- (2) Changing the appropriations to unspecified amounts;
- (3) Changing the number of positions established to an unspecified number;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider appropriation amounts of:

- (1) \$16,500,000 for the Carbon Sequestration and Underground Water Resource Characterization Program; and
- (2) \$135,000 for one full-time equivalent (1.0 FTE) permanent position.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1020, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1020, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 351 Energy & Environmental Protection on H.B. No. 1076

The purpose of this measure is to establish the Climate Mitigation and Resiliency Special Fund, to be funded by an allocation of all earned interest from the Emergency and Budget Reserve Fund, and appropriate funds out of the Climate Mitigation and Resiliency Special Fund to advance projects addressing climate change impacts.

Your Committee received testimony in support of this measure from the Office of the Governor, including Recovery and Resiliency Units; Hawai'i Climate Advisory Team; Department of Land and Natural Resources; Hawaii Emergency Management Agency; Hawaii State Energy Office; Hawaii Green Infrastructure Authority; Office of Planning and Sustainable Development; Kua'āina Ulu 'Auamo; Hawai'i Land Trust; Hawai'i Food + Policy; Coalition Earth; Climate Protectors Hawai'i; Care for 'Āina Now Coalition; and two individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from Tax Foundation of Hawaii.

Your Committee finds that the interest generated by the Emergency and Budget Reserve Fund, also known as the "Rainy Day Fund," is generally reinvested into the original fund. By allocating the interest generated into the Climate Mitigation and Resiliency Special Fund, this measure provides a necessary funding source to address the impacts of climate change.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$60,000,000 to advance projects addressing climate change impacts.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1076, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1076, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 352 Energy & Environmental Protection on H.B. No. 1295

The purpose of this measure is to require all state and county agencies to utilize applicable federal clean energy tax credits, pursuant to the Inflation Reduction Act of 2022, for the purchase and financing of capital improvement projects that use clean energy technology and zero-emission vehicles.

Your Committee received testimony in support of this measure from the Public Utilities Commission and one individual.

Your Committee finds that the Inflation Reduction Act of 2022 allows for "elective pay", a tax credit monetization option commonly known as "direct pay", which makes clean energy tax benefits available to state and local governments, amongst other entities. This measure requires all state and county agencies to utilize applicable federal clean energy tax credits, pursuant to the Inflation Reduction Act, for the purchase and financing of capital improvement projects that use clean energy and zero-emission vehicles.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1295, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1295, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 353 Water & Land on H.B. No. 1181

The purpose of this measure is to exclude the reconstruction of certain lawfully constructed structures that were damaged by certain types of disasters from the definition of "development" for coastal zone management purposes.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Maui; one member of the Maui County Council; Maui Chamber of Commerce; Lahaina Brewery, dba Koholā Brewery; Chamber of Commerce Hawaii; Grassroot Institute of Hawaii; and numerous individuals. Your Committee received comments on this measure from the Office of Planning and Sustainable Development.

Your Committee finds that reconstruction after a disaster requires the rebuilding of all aspects of a community, from small residential homes to larger commercial buildings. Your Committee further finds that most non-shoreline projects trigger a Special Management Area Major permit, a time-consuming process that can delay construction efforts. Your Committee believes that expediting the reconstruction of structures in the aftermath of a disaster, as proposed by this measure, will enable impacted communities to recover without unnecessary delays.

Your Committee has amended this measure by:

- (1) Replacing the types of reconstruction excluded from the definition of "development" with reconstruction of any lawfully constructed structure that was damaged or destroyed in a disaster proclaimed to be a state of emergency or local state of emergency; provided that the structure is not situated on a shoreline parcel or a parcel that is impacted by waves, storm surges, high tide, or shoreline erosion and the reconstructed structure is similar to its original footprint or the overall dimensions that were existing or permitted and is in compliance with the requirements of the National Flood Insurance Program; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1181, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1181, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 1 (Ichiyama).

SCRep. 354 Water & Land on H.B. No. 732

The purpose of this measure is to increase the valuation of development that determines the necessity of a special management area minor permit or special management area use permit to \$750,000 and require that amount to be increased annually for inflation.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Maui; Department of Planning and Permitting of the City and County of Honolulu; one member of the Maui County Council; and Grassroot Institute of Hawaii. Your Committee received comments on this measure from the Office of Planning and Sustainable Development.

Your Committee finds that inflation and increasing construction costs have made it necessary to adjust the valuation threshold for special management area permits to ensure that regulatory requirements remain aligned with ongoing economic conditions. The existing threshold no longer accurately reflects the cost of development, leading to unnecessary burdens on small-scale projects that do not pose significant environmental risks. By implementing a periodically adjusted development valuation threshold based on inflation, this measure ensures that permit requirements remain relevant and proportionate while maintaining environmental protections.

Your Committee has amended this measure by:

- (1) Requiring the \$750,000 development valuation threshold to be adjusted for inflation every five years, rather than annually;
- (2) Amending the definition of "special management area minor permit" to include developments of single-family residences that are less than 3,500 square feet of floor area and are not part of larger developments;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion;
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 732, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 732, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, none.

SCRep. 355 Water & Land on H.B. No. 86

The purpose of this measure is to appropriate funds to the Department of Land and Natural Resources for the establishment of one full-time equivalent permanent Program Specialist V position to coordinate and implement actions necessary to meet the goals and objectives of the Makai Watch Program.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Department of Land and Natural Resources; Kua'āina Ulu 'Auamo; Hawai'i Ocean Legislative Task Force; Malama Pūpūkea-Waimea; Hawai'i Farmers Union; and two individuals.

Your Committee finds that the Makai Watch Program has been instrumental in fostering community engagement and effective co-management of nearshore marine resources. Expanding this program, including establishing a permanent statewide coordinator, is critical to ensuring the long-term sustainability of Hawaii's marine ecosystems amidst growing environmental pressures.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 86, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 86, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 1 (Ichiyama).

SCRep. 356 Water & Land on H.B. No. 1278

The purpose of this measure is to appropriate funds for the assessment and removal of hazardous trees on state lands.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and five individuals.

Your Committee finds that according to the 2023 State of Hawaii Hazard Mitigation Plan, windstorm events significantly contribute to downed trees, which can cause power outages, road closures, significant traffic delays, and serious injuries. Your Committee further finds that the State has a duty to maintain state-owned forests adjacent to residential areas to protect the health and safety of these communities from the dangers posed by downed trees. Your Committee believes that providing the Department of Land and Natural Resources with dedicated funds for the assessment and removal of hazardous trees on state lands will enable the Department to promptly address hazardous trees and protect human life and property.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1278, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1278, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 1 (Ichiyama).

SCRep. 357 Water & Land on H.B. No. 781

The purpose of this measure is to appropriate funds for the Waiahole Water System for bond debt service and tunnel repair.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation; Ulupono Initiative; Hawaii Agriculture Research Center; Kunia Village Title Holding Corporation; Bayer; Larry Jeffs Farms, LLC; Land Use Research Foundation of Hawaii; Hawai'i Farm Bureau; Hawaii Crop Improvement Association; Hawai'i Farmers Union; and two individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the Waiahole Water System (System) plays an essential role in supporting agriculture on Oahu through the delivery of a reliable source of irrigation water to local farming operations in the central and leeward regions of the island. Your Committee further finds that while the System's water users have grown more efficient with their use, users pay significantly more for water from the System than others pay for agricultural water from comparable systems, due in large part to existing debt owed on general obligation bonds issued in 1999 to enable the Agribusiness Development Corporation to purchase the System and replace the System's three deteriorated redwood siphons. Additionally, crucial repairs are needed to the System's infrastructure. Your Committee believes that appropriating funds to pay off the remaining debt service on bond obligations and perform necessary repairs will reduce water costs and ensure all users who depend on the System continue to have reliable access to water.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$4,500,000 to pay the bond debt service on the Waiahole Water System and \$2,000,000 for the repair of the adit 8 tunnel of the Waiahole Water System.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 781, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 1 (Ichiyama).

SCRep. 358 Water & Land on H.B. No. 1141

The purpose of this measure is to require lease extensions approved by the Board of Land and Natural Resources to be drafted on the most current approved lease form, be subject to the most current leasing practices and policies, not rules, of the Board of the Land and Natural Resources, and control over conflicting or inconsistent provisions in a lease being extended.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that issues that were identified in Auditor's Report No. 19-12 and a subsequent House Investigative Committee report are of significance to the State, as the inability to update lease terms and conditions not only deprives the public of a fair return for the use of public lands, but also could lead to additional liability against the State and significant public health and safety issues, such as when structures beyond their useful life are left on public lands at the end of a lease. This measure increases departmental revenue and mitigates against future liability for public health and safety issues by allowing the Board of Land and Natural Resources to update lease terms and conditions upon extension of the lease.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1141, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1141, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 10; Ayes with Reservations (Belatti). Noes, none. Excused, none.

SCRep. 359 Water & Land on H.B. No. 1143

The purpose of this measure is to reenact the Historic Preservation Income Tax Credit for substantial rehabilitation of a certified historic structure that was repealed on December 31, 2024.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Historic Hawai'i Foundation. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the Historic Preservation Income Tax Credit provided property owners in the State economic support and incentive to continue to rehabilitate, adaptively reuse, and preserve historic buildings and residences. This measure provides the Department of Land and Natural Resources with a valuable tool and incentive to promote investment and economic development in the State by maintaining historic buildings.

Your Committee has amended this measure by:

- (1) Changing the annual aggregate tax credit caps to unspecified amounts;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an aggregate tax credit cap of \$1,000,000 for each taxable year.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1143, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1143, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Belatti). Noes, none. Excused, none.

SCRep. 360 Water & Land on H.B. No. 211

The purpose of this measure is to prohibit the storage of personal property in or near a public stream or tributary.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the State's public streams and tributaries play a vital role in the State's ecosystems, serve as crucial infrastructure for managing stormwater, and provide recreational and aesthetic value to residents and visitors. Your Committee further finds that improper storage of personal property in or near these waterways pose significant environmental, health, and safety risks, including obstructing water flow, increasing flood potential, and introducing pollutants into the ecosystem. Your Committee believes that prohibiting the storage of personal property in or near public streams will protect public safety and maintain the functionality and health of the State's waterways for present and future generations.

Your Committee has amended this measure by:

- (1) Clarifying that the counties, rather than the Department of Land and Natural Resources, are responsible for removing and disposing of personal property stored in or near a channel, streambed, streambank, or drainageway;
- (2) Deeming personal property stored in or near a channel, streambed, streambank, or drainageway for a continuous period of more than twenty-four hours to be abandoned property and authorizing the State and counties to dispose of it;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 211, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 211, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Iwamoto). Noes, none. Excused, 1 (Ichiyama).

SCRep. 361 Water & Land on H.B. No. 649

The purpose of this measure is to:

- (1) Establish the Small Boat Harbor Commercial Vessel Special Fund, to be used for improvements that primarily benefit commercial vessels utilizing the State's small boat harbors;
- (2) Increase moorage fees for commercial vessels in small boat harbors; and
- (3) Authorize the issuance of general obligation bonds for repairs of various small boat harbors, with debt service to be paid from special funds.

Your Committee received testimony in opposition to this measure from the Maui Hotel and Lodging Association; Calypso Charters; Ocean Tourism Coalition; Body Glove Cruises; Sea Paradise Scuba Inc.; Sail Maui; Sailing Maui Inc.; Sea Quest Hawaii; Captain Andy's Sailing Adventures; Holo Holo Charters, Inc.; Maui Classic Charters; Outfitters Kauai Ltd; Explore Kauai Scuba, LLC; and numerous individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources and Department of Budget and Finance.

Your Committee finds that the State's small boat harbors are in need of significant repair. Your Committee further finds that increasing the fees charged to commercial vessels who moor in small boat harbors and allocating those fees to a special fund will enable the State to make badly needed improvements to the State's small boat harbor infrastructure.

Your Committee has amended this measure by:

- (1) Changing the percent of gross revenues a vessel used for commercial purposes must pay in lieu of a monthly moorage fee to an unspecified amount;
- (2) Changing the percent of total revenues collected from vessels used for commercial purposes from permitted moorings in a small boat harbor that are to be allocated to the Small Boat Harbor Commercial Vessel Special Fund to an unspecified amount;
- (3) Changing the general obligation bond issuance and appropriation allocations to unspecified amounts;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider increasing the percent of gross revenues paid by a commercial vessel in lieu of a monthly moorage fee to five percent, allocating forty percent of all revenues collected to the Small Boat Harbor Commercial Vessel Special Fund, and authorizing the issuance of general obligation bonds in the amount of \$32,000,000, with \$9,000,000 going to capital improvement projects at the Ala Wai small boat harbor, \$8,000,000 going to capital improvement projects at the Haleiwa small boat harbor, \$4,500,000 going to capital improvement projects at the Honokohau small boat harbor, \$6,000,000 going to capital improvement projects at the Maalaea small boat harbor, and \$4,500,000 going to capital improvement projects at the Port Allen small boat harbor.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 649, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 649, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Morikawa). Noes, 2 (Shimizu, Souza). Excused, 1 (Ichiyama).

SCRep. 362 Water & Land on H.B. No. 510

The purpose of this measure is to amend the conditions, manner, and areas in which the Commission on Water Resource Management can declare and provide notice of water shortages and emergencies.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Honolulu Board of Water Supply. Your Committee received testimony in opposition to this measure from Hawai'i Farm Bureau.

Your Committee finds that the Commission on Water Resource Management (Commission) is tasked with formulating water shortage plans and adopting a reasonable system of permits to properly plan for future water shortages. Your Committee further finds that existing law does not allow the Commission to declare a water shortage in non-designated water management areas. As water shortages affect all users in a region, your Committee believes that it is vital to allow the Commission to respond to conditions anywhere in the State that threaten the State's water supply when issuing water shortage and emergency declarations.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 510, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 510, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Morikawa, Shimizu). Noes, none. Excused, 1 (Ichiyama).

SCRep. 363 Water & Land on H.B. No. 778

The purpose of this measure is to require the Office of Planning and Sustainable Development to develop an integrated land use study that incorporates the State's various climate and sustainability goals and studies to serve as a guide for planning and decision making on the use of agricultural lands.

Your Committee received testimony in support of this measure from the Office of Planning and Sustainable Development; Hawai'i Farm Bureau; Hawai'i Farmers Union; and Hawaii Food+ Policy. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that the State has enacted multiple climate and sustainability statutory targets, including the development of affordable rental housing units, doubling food production, sequestering more atmospheric carbon and greenhouse gases, and requiring all electricity in the State to come from renewable sources. Your Committee further finds that these goals can create conflicting interests when it comes to the use of the State's limited agricultural land resources. Your Committee believes a comprehensive study to assess existing land uses, identify conflicts, and develop balanced solutions will ensure the State puts its limited agricultural lands to their highest and best use while meeting its statutory and policy commitments.

Your Committee has amended this measure by:

- (1) Requiring the Office of Planning and Sustainable Development, when conducting the study, to:
 - (A) Clearly define and prioritize the protection of productive agricultural lands, including adopting measures to ensure agricultural lands designated for agriculture production are not compromised for short-term developmental needs; and
 - (B) Include direct input from the agricultural community;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 778, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 778, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Shimizu). Noes, none. Excused, 1 (Ichiyama).

SCRep. 364 Culture & Arts on H.B. No. 554

The purpose of this measure is to:

- (1) Designate the second new moon after the winter solstice of every year as Lunar New year; and
- (2) Establish Lunar New Year as a state holiday.

Your Committee received testimony in support of this measure from five individuals. Your Committee received comments on this measure from the Office of Collective Bargaining; Department of Budget and Finance; and Department of Human Resources of the City and County of Honolulu.

Your Committee finds that by celebrating Lunar New Year in Hawaii, the State can honor its rich cultural history, demonstrate its commitment to cultural diversity, and extend its best wishes for peace and prosperity to all who celebrate this important occasion. Your Committee recognizes that the Asian

community in Hawaii has contributed greatly not only to the State's social, civic, and economic success, but also to its diverse and vibrant culture, which includes the celebration of Lunar New Year. Your Committee believes that this measure honors the rich and diverse Asian community in the State by designating the second new moon after the winter solstice of every year Lunar New Year as a special day.

Your Committee amended this measure by:

- (1) Removing language that would establish Lunar New year as a state holiday and clarifying that Lunar New Year shall not be construed to be a state holiday;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Culture & Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 554, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 554, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Reyes Oda).

SCRep. 365 Culture & Arts on H.B. No. 345

The purpose of this measure is to designate the 'ōpae 'ula as the state shrimp to help protect the anchialine pool ecosystems in the State.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Environmental Caucus of the Democratic Party of Hawaii; Hawai'i Alliance for Progressive Action; Hawai'i Ocean Legislative Task Force; Hawai'i Wildlife Fund; Kua'āina Ulu 'Auamo; Pacific Whale Foundation; and numerous individuals. Your Committee received comments on this measure from the Hawai'i Reef and Ocean Coalition.

Your Committee finds that 'ōpae 'ula are an endemic species found in abundance in healthy anchialine pools in the State. Your Committee also finds that anchialine pools are considered culturally sacred and should be protected. Your Committee believes that this measure will raise awareness of the protection efforts of anchialine pools by designating 'ōpae 'ula as the state shrimp.

Your Committee amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Culture & Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 345, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 345, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Reyes Oda).

SCRep. 366 Culture & Arts on H.B. No. 957

The purpose of this measure is to designate May 1 of each year as Lau Lau Day.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau and numerous individuals.

Your Committee finds that the consumption and preparation of laulau are cherished practices in Hawaiian communities, serving as a symbol of unity and cultural pride. Your Committee also finds that the preservation and promotion of Hawaiian food traditions are essential to honoring the rich legacy of Native Hawaiian culture and fostering a deeper understanding of the cultural practices that have been passed down through generations. Your Committee believes that designating one day each year as Lau Lau Day will provide an opportunity to celebrate and recognize the cultural significance of laulau and support local farmers, restaurants, and communities who keep this tradition alive.

Your Committee has amended this measure by:

- (1) Designating the first Friday in May, rather than May 1, of each year as Lau Lau Day;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Culture & Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 957, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 957, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Reyes Oda).

SCRep. 367 Energy & Environmental Protection on H.B. No. 1051

The purpose of this measure is to:

- (1) Extend the State's deadline to achieve its energy-efficiency portfolio standards from 2030 to 2045 and update the standards;
- (2) Require the Public Utilities Commission to establish additional interim standards for electricity use reduction to be achieved by 2035 and 2040; and
- (3) Authorize the Public Utilities Commission to adjust the 2030 and 2045 standards and interim standards.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Public Utilities Commission; Hawaii State Energy Office; Hawai'i Climate Change Mitigation and Adaptation Commission; Hawaii Green Infrastructure Authority; Office of Economic Development of the County of Kaua'i; Hawai'i Energy; Hawaiian Electric; Ulupono Initiative; 350Hawaii.org; Coalition Earth; and two individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the energy-efficiency portfolio standard set the statewide energy efficiency goal for 2030 at four thousand three hundred gigawatt hours and directed the Public Utilities Commission to establish interim goals for 2015, 2020, and 2025. Your Committee further finds that there is a need to extend these standards and ensure that the Public Utilities Commission can continue its work developing and overseeing the State's energy-efficiency portfolio

standards beyond 2030. This measure extends and updates the energy-efficiency portfolio standards established and overseen by the Public Utilities Commission.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1051, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1051, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 368 Transportation on H.B. No. 368

The purpose of this measure is to exempt from restrictions on light transmittance percentages, up to a certain percent, of certain motor vehicle sun screening devices for persons having light sensitivity of the eyes due to a medical condition.

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from the Department of Transportation.

Your Committee finds that individuals with light sensitivity due to a medical condition, such as those related to eye or skin conditions, often face difficulties driving in bright sunlight despite using protective eyewear. Your Committee further finds that existing laws do not sufficiently accommodate these individuals, as existing restrictions on sun screening devices do not allow for the level of protection necessary for their safety and well-being. This measure ensures individuals with light sensitivity can safely operate their vehicles without compromising their health, while still maintaining road safety standards.

Your Committee notes that as this measure moves through the legislative process, clarification is needed on which authority should be responsible for regulating and approving medical conditions to ensure consistent enforcement and compliance with this measure.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 368, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 368, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Cochran, La Chica).

SCRep. 369 Transportation on H.B. No. 860

The purpose of this measure is to provide immunity to the State and counties for injuries sustained due to the repair or maintenance of streets undertaken by the State or a county, in cases in which the ownership or jurisdiction of such streets is in dispute between the State and a county.

Your Committee received testimony in support of this measure from the Department of Transportation and Office of the Mayor of the City and County of Honolulu. Your Committee received testimony in opposition to this measure from Hawaii Association for Justice and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that roads for which ownership or jurisdiction is in dispute between the State and a county often suffer from a lack of repair and maintenance. Therefore, government agencies are unwilling to maintain these roads because of potential liability issues associated with the repair and maintenance of the roads. This measure seeks to address this issue by providing immunity to the State and counties for personal injuries or property damage arising out of the repair or maintenance of roads in limbo.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 860, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 860, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 370 Transportation on H.B. No. 1167

The purpose of this measure is to make an emergency appropriation to the Department of Transportation to enforce the Motor Carrier Law.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that Act 117, Session Laws of Hawaii 2024, transferred the enforcement of the Motor Carrier Law from the Public Utilities Commission to the Department of Transportation. However, your Committee notes that this transfer of responsibility was made with no transfer of funds or personnel to enforce the Motor Carrier Law. This measure will ensure the Department of Transportation has the necessary resources to enforce the Motor Carrier Law throughout the State.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$1,500,000.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1167, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1167, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 371 Transportation on H.B. No. 135

The purpose of this measure is to authorize the issuance of general obligation bonds and appropriate funds for the purchase of the real property located at 64-486 Kamehameha Highway on the North Shore of Oahu.

Your Committee received testimony in support of this measure from the Department of Transportation and one individual.

Your Committee finds that the purchase of the real property located at 64-486 Kamehameha Highway, also known as "weed circle", on the North Shore of Oahu, is important to realizing sustainable development for communities in the area. Your Committee further finds that, with the City and County of Honolulu implementing its North Shore Sustainable Communities Plan, this property will serve as the primary parking hub where residents and visitors will be able to park and access a shuttle service that will reduce traffic congestion and improve the quality of life for area residents.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to work with the Department of Transportation to determine an appropriate dollar amount to be inserted into the measure.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 135, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 135, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 372 Transportation on H.B. No. 1259

The purpose of this measure is to specify that an engineering study is not required to be considered when reducing the maximum speed limit within ten miles per hour of the existing speed limit for that road.

Your Committee received testimony in support of this measure from the Department of Transportation; Oahu Metropolitan Planning Organization; and one individual.

Your Committee finds that existing requirements for an engineering study before reducing speed limits creates a delay in implementing necessary traffic safety measures. This requirement can be particularly burdensome when modest speed limit reductions, such as those within ten miles per hour of the existing speed limit, are warranted to improve road safety. This measure is crucial to allow more efficient adjustments to speed limits, thereby enhancing public safety without unnecessary procedural obstacles.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1259, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1259, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 373 Transportation on H.B. No. 1422

The purpose of this measure is to exempt non-profit community-based organizations that provide transportation services from the State's motor carrier regulations, under certain circumstances.

Your Committee received testimony in support of this measure from the Office of Economic Development of the County of Kaua'i; The Hanalei Initiative; Hui Maka'āinana o Makana; and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources; Public Utilities Commission; and Hawaii Transportation Association.

Your Committee finds that traffic congestion near Hawaii's popular natural and cultural sites is exacerbated by limited parking along state highways and county roads. Community-based non-profit organizations that provide transportation services have proven effective in alleviating this congestion, but their operations are hindered by existing regulations that do not account for their unique role. This measure will allow community-based non-profit organizations to continue providing essential transportation services that reduce traffic and support the preservation of natural and cultural resources by exempting them from certain motor carrier regulatory requirements.

Your Committee notes the concerns stated in testimony by the Public Utilities Commission requesting clarification as to the definition a "non-profit community-based organization" as it would be difficult for the Commission to determine or qualify what is community-based. Your Committee respectfully requests your Committee on Consumer Protection & Commerce, should it deliberate on this measure, to work with the Public Utilities Commission in establishing an appropriate definition of a non-profit community based organization.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1422, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1422, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 374 Transportation on H.B. No. 1156

The purpose of this measure is to increase the total principal amount of special facility revenue bonds that may be issued by the Department of Transportation for harbor improvements.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that special facility revenue bonds expedite certain projects at commercial harbor facilities and increase project efficiencies. Your Committee further finds that the Department of Transportation has experienced escalating project costs due to inflation and rising costs of materials and labor. Future projects that would use special facility revenue bonds are large in scope and scale and will require funding above the existing limit, which was last increased in 1993. This measure will allow the Department of Transportation to expedite additional projects and prioritize public improvements to harbor facilities by increasing the amount of special facility revenue bonds for harbor improvements.

Your Committee has amended this measure by:

- (1) Changing the total principal amount of special facility revenue bonds that may be issued to an unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider a total principal amount of \$600,000,000 for special facility revenue bonds that may be issued by the Department of Transportation.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1156, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1156, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 375 Transportation on H.B. No. 960

The purpose of this measure is to:

- (1) Increase the maximum value of capital advancement contracts that may be executed by the Department of Transportation without legislative approval;
- (2) Repeal the requirement for the Department of Transportation to obtain legislative approval for capital advancement contracts;
- (3) Increase the total aggregate value of capital advancement contracts the Department of Transportation may enter into in a fiscal year; and
- (4) Establish certain reporting requirements to the Legislature related to capital advancement contracts.

Your Committee received testimony in support of this measure from the Department of Transportation; Young Brothers, LLC; and Chamber of Commerce Hawaii.

Your Committee finds that the existing cap of \$2,000,000 per contract and an aggregate limit of \$5,000,000 per party restricts the scope, type, and number of projects that can be undertaken under a capital advancement contract. Increasing these limits to at least \$5,000,000 per contract and \$20,000,000 in total would enable the Department of Transportation to enhance port facility improvements more effectively. Given rising project costs due to inflation and increasing material and labor expenses, higher caps would allow for more efficient project execution and delivery.

Your Committee, therefore, respectfully requests your Committee on Finance, should it deliberate on this measure, to consider increasing the amounts by at least \$5,000,000 per contract and \$20,000,000 in total.

Your Committee has amended this measure by:

- (1) Changing the reporting period to align with the fiscal year;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 960, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 960, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 376 Transportation on H.B. No. 706

The purpose of this measure is to require the use of a helmet by anyone under the age of sixteen while riding a skateboard.

Your Committee received testimony in support of this measure from the Department of Transportation; Keiki Injury Prevention Coalition; Kapiolani Medical Center for Women & Children; and two individuals.

Your Committee finds that skateboarding, while a popular recreational activity, poses significant safety risks to the head and face. Given the serious consequences of head trauma, particularly for young people, your Committee finds that the implementation of helmet requirements for skateboarders under the age of sixteen will help mitigate the risk of serious injury.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and

- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 706, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 706, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Pierick).

SCRep. 377 Transportation on H.B. No. 177

The purpose of this measure is to make the issuance or renewal of a civil identification card free of charge.

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from the Department of Transportation. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that civil identification cards are primarily used by elderly individuals, people with disabilities, minors, homeless individuals, and non-drivers. This measure removes the financial barriers to obtaining an identification card, while streamlining the administrative process.

Your Committee has amended this measure by:

- (1) Changing the effective date to June 30, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

Your Committee notes the concerns in the Department of the Attorney General's written testimony regarding the absence of a state cost sharing mechanism with the counties as this measure requires the counties to incur costs without a dedicated funding source.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 177, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 177, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Pierick).

SCRep. 378 Transportation on H.B. No. 169

The purpose of this measure is to increase:

- (1) The minimum age for moped operators from fifteen to sixteen years; and
- (2) The minimum age requirement for individuals prohibited from operating a moped unless they wear a safety helmet from eighteen to twenty-one years.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received testimony in opposition to this measure from Moped Doctors Inc.; Mopeds Direct; and seven individuals.

Your Committee finds that helmets significantly reduce the risk of life-threatening injuries for moped operators. This measure enhances the safety for moped riders and all road users.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee notes the concerns regarding raising the minimum age requirement for operating a moped while wearing a safety helmet from eighteen to twenty-one. Your Committee respectfully requests your Committee on Judiciary & Hawaiian Affairs, should it deliberate on this measure, to consider whether this requirement is appropriate.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 169, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 169, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Muraoka). Noes, none. Excused, 1 (Pierick).

SCRep. 379 Transportation on H.B. No. 277

The purpose of this measure is to statutorily establish statewide vehicular law enforcement pursuit policies.

Your Committee received testimony in support of this measure from the Policing Project; ACLU Hawai'i; and one individual. Your Committee received testimony in opposition to this measure from the Hawai'i Police Department and Maui Police Department. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that vehicular pursuits by law enforcement pose significant risks to public safety, particularly given Hawaii's unique road conditions and densely populated areas. Establishing clear and uniform statewide policies regarding vehicular pursuit, will help ensure that pursuits are conducted only when absolutely necessary and in a manner that prioritizes the safety of officers, suspects, and the general public.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

Your Committee notes the concerns raised by the county police departments in their written testimony on whether codifying vehicular pursuit policies is the most appropriate form of establishing statewide standards rather than through the existing Law Enforcement Standards Board.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 277, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 277, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Pierick).

SCRep. 380 Transportation on H.B. No. 220

The purpose of this measure is to require that persons operating mopeds in the State carry an insurance policy.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received testimony in opposition to this measure from Moped Doctors Inc.; and numerous individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that mopeds, like motorcycles, pose significant risks to operators and other road users. Ensuring that operators carry liability coverage will help protect all parties in the event of an accident. This measure integrates mopeds into the existing insurance framework for motorcycles and motor scooters, mandating liability insurance, setting coverage requirements, and establishing penalties for noncompliance.

Your Committee notes concerns raised in testimony regarding the financial burden this measure would put on moped operators, who are typically younger adults who use mopeds as an affordable means of transportation and often do not yet have the financial stability to afford additional costs. Your Committee respectfully requests your Committee on Consumer Protection & Commerce, should it deliberate on this measure, to consider any unintended financial consequences this measure would have on certain moped operators.

Your Committee has amended this measure by:

- (1) Making conforming amendments to motor vehicle insurance laws to avoid any conflict in no-fault insurance laws;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 220, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 220, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Pierick).

SCRep. 381 Transportation on H.B. No. 229

The purpose of this measure is to establish a statewide speed restriction for motor vehicles with three or more axles or motor vehicles weighing more than ten thousand pounds.

Your Committee did not receive any written testimony on this measure.

Your Committee finds that large vehicles, particularly those with three or more axles or weighing over ten thousand pounds, pose a unique risk to road safety due to their size and the difficulty they present in maneuvering at high speeds. Your Committee further finds that data from the National Highway Traffic Safety Administration shows a two percent increase in fatalities and a 3.7 percent increase in injuries from crashes involving large trucks between 2021 and 2022. This measure establishes appropriate speed limits for such vehicles, ensuring that they operate within a safe range that reduces the likelihood of accidents and enhances overall traffic flow and safety.

Your Committee has amended this measure by:

- (1) Establishing exemptions from this measure under certain circumstances;
- (2) Establishing a minimum fine of \$150 for a first offense and a maximum fine of \$350 for a subsequent offense within a two-year period;
- (3) Specifying that this measure applies only to a county with a population of five hundred thousand or more and authorizing a county with a population of less than five hundred thousand to adopt an ordinance adopting the provisions of this measure;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 229, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 229, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Pierick).

SCRep. 382 Transportation on H.B. No. 230

The purpose of this measure is to require police officers to send a carbon copy of a citation to the registered owner of a vehicle within a certain time frame after the citation is issued.

Your Committee received testimony in support of this measure from Matson Navigation Company, Inc; and two individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Police Department.

Your Committee finds that timely notification of traffic violations to vehicle owners is critical for ensuring accountability and proper citation processing. However, existing procedures do not consistently specify deadlines for mailing citations in all cases, potentially causing delays in notifying registered vehicle owners. This measure clarifies and standardizes the timeframes for sending citations by mail, improving the efficiency and effectiveness of traffic law enforcement.

Your Committee has amended this measure by:

- (1) Specifying that the carbon copy of the citation shall be sent by certified or registered mail with a return receipt postmarked within five business days of the time of the incident;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 230, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 230, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 1 (Pierick).

SCRep. 383 Transportation on H.B. No. 102

The purpose of this measure is to prohibit the issuance of a certificate of inspection for a moped or motor vehicle that has been altered, installed, or otherwise modified in any way that will noticeably increase the noise emitted by the motor vehicle or moped above that emitted by the motor vehicle or moped as equipped from the factory.

Your Committee received testimony in support of this measure from Citizens Against Noise and six individuals. Your Committee received testimony in opposition to this measure from ten individuals. Your Committee received comments on this measure from the Department of Transportation and Motorcycle Industry Council.

Your Committee finds that excessive noise from modified vehicle and moped mufflers has become a growing nuisance, negatively affecting the quality of life in Hawaii's communities. This measure addresses altered or modified mufflers that noticeably increase noise, thereby promoting quieter and safer roadways.

Your Committee has amended this measure by:

- (1) Establishing an exception for motorcycles and mopeds that do not exceed certain federal regulations;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 102, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 102, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 1 (Pierick).

SCRep. 384 Transportation on H.B. No. 54

The purpose of this measure is to increase the penalty for a third or subsequent offense, within five years, of excessive speeding to a class C felony and that the vehicle be subject to forfeiture.

Your Committee received testimony in support of this measure from the Department of Transportation; Department of the Prosecuting Attorney of the City and County of Honolulu; Honolulu Police Department; and Oahu Metropolitan Planning Organization. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that excessive speeding presents a significant threat to public safety, contributing to severe accidents, injuries, and fatalities on Hawaii's roads. Your Committee further finds that a 2011 study conducted by the AAA Foundation for Traffic Safety found that the average risk of death for a pedestrian reaches fifty percent at an impact speed of forty-two miles per hour, seventy-five percent at fifty miles per hour, and ninety percent at an impact speed of fifty-eight miles per hour. These alarming statistics do not consider age and fatality rates would be higher for the most vulnerable populations. By enhancing penalties for repeat offenders to felony offenses, this measure aims to deter dangerous driving behaviors and promote greater accountability among motorists.

Your Committee notes the concerns raised in written testimony from the Office of the Public Defender regarding the punishment on a non-violent traffic offense that this measure would impose. Your Committee acknowledges these concerns and respectfully asks your Committee on Judiciary & Hawaiian Affairs, should it deliberate on this measure, to work with the Office of the Public Defender and other stakeholders in ensuring a fair and just resolution.

Your Committee has amended this measure by:

- (1) Requiring as part of sentencing that a person be ordered to report to an appropriate law enforcement agency or governmental agency for fingerprinting;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 54, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 54, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 8; Ayes with Reservations (Grandinetti, Evslin). Noes, none. Excused, 1 (Pierick).

SCRep. 385 Transportation on H.B. No. 667

The purpose of this measure is to require the Department of Transportation or appropriate county department when disposing of a deceased cat or dog from a public roadway to scan the animal for a microchip, record certain information, and report that information to the appropriate county animal services or animal service contractors.

Your Committee received testimony in support of this measure from the Department of Transportation; Hawaiian Humane Society; Pacific Pet Alliance; and numerous individuals.

Your Committee finds that, despite mandatory microchipping for cats and dogs in Hawaii, state and county agencies do not routinely scan deceased animals collected from public roadways, leaving pet owners unaware if their lost pets have been deceased. This measure will provide concerned pet owners with closure if their missing pet is found deceased by state and county agencies.

Your Committee notes that the Department of Transportation has already acquired the microchip scanners that would have been required under this measure and thus no longer would require an appropriation for such purchase.

Accordingly, your Committee has amended this measure by:

- (1) Naming the measure the "Mila Microchip Identification Act";
- (2) Amending the purpose section;

- (3) Requiring certain county agencies to collaborate with the Department of Transportation in utilizing the Department's microchip scanners;
- (4) Deleting the unspecified appropriation for the purchase of microchip scanners;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 667, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 667, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Pierick).

SCRep. 386 Transportation on H.B. No. 670

The purpose of this measure is to:

- (1) Amend the existing Electric Bicycle and Moped Rebate Program to further encourage the purchase and use of adaptive electric bicycles, electric bicycles, electric mopeds, and other electric mobility devices; and
- (2) Update the definitions of "electric mobility device" and "electric bicycle" to align with federal and state policies and programs.

Your Committee received testimony in support of this measure from the Department of Transportation; Oahu Metropolitan Planning Organization; Hawaii Appleseed Center for Law & Economic Justice; Hawai'i Bicycling League; and Ulupono Initiative.

Your Committee finds that electric bicycles, electric mopeds, and other electric mobility devices offer a more affordable, environmentally friendly alternative to gas-powered vehicles. Your Committee believes that enhancing the electric mobility device rebate program by increasing the rebate amount and expanding eligibility will further alleviate transportation costs and foster the adoption of more sustainable transportation options for residents.

While your Committee acknowledges the good faith intent of this measure, your Committee realizes that this measure will require significant funding during a time of uncertainty of federal funds and its impact on the State's budget. Your Committee, however, believes that there is merit in advancing this measure to continue the discussion.

Your Committee has amended this measure by:

- (1) Amending the definitions of "electric bicycle" and "electric micro-mobility device";
- (2) Amending the class 3 classification of an electric bicycle by requiring it to be equipped with a speedometer;
- (3) Defining "high-speed electric device";
- (4) Changing all dollar amounts to unspecified amounts;
- (5) Deleting language that would have authorized the Department of Transportation to establish a retailer application portal and to provide rebates directly at the point of sale;
- (6) Repealing language that prohibited a third-party administrator from expending a ten percent of the amounts appropriated for the rebate program for administration, promotion, and reporting of the rebate program;
- (7) Specifying that any modification or alteration to an electric bicycle or electric micro-mobility device after purchase will result in the disqualification of the rebate and requiring the recipient to repay the rebate received;
- (8) Requiring the Department of Transportation to establish a process to verify and enforce if a modification or alteration was made after purchase;
- (9) Appropriating unspecified amounts into and out of the Electric Mobility Subaccount in the Highway Development Special Fund;
- (10) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to take into consideration the suggested amendments made by the Oahu Metropolitan Planning Organization and Hawai'i Appleseed Center for Law & Economic Justice in their testimony.

Your Committee also respectfully requests your Committee on Finance, should it deliberate on this measure, to consider the following amounts:

- (1) \$750 for an initial rebate under the program and an additional assistance rebate of \$750, under certain circumstances;
- (2) \$1,500 in total amount of rebates an individual can receive in each fiscal year;
- (3) \$10,000 in total amount of rebates a non-profit organization can receive in each fiscal year;
- (4) \$2,000,000 in total rebates the Department of Transportation can issue in each fiscal year; and
- (5) \$500,000 for fiscal year 2025-2026 and \$700,000 for fiscal year 2026-2027 out of the Electric Mobility Subaccount in the Highway Development Special Fund for the rebate program.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 670, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 670, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Pierick).

SCRep. 387 Transportation on H.B. No. 184

The purpose of this measure is to require operators of low-speed electronic bicycles to possess a valid driver's license, instruction permit, or provisional license.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from Kauai Path, Inc.; Hawai'i Bicycling League; PeopleForBikes Coalition; Get Fit Kauai; and numerous individuals.

Your Committee finds that it is essential for laws governing electric bicycles to remain current in order to address the rapid advancements in technology and the growing presence of electric bicycles on the streets. Your Committee further finds that the existing definition of a low-speed electric bicycle no longer encompasses the various types of electric bicycles used across the State. Outdated regulations can lead to confusion, safety concerns, and inconsistent enforcement. Your Committee believes that updating electric bicycle laws will ensure clearer guidelines and promote a safer environment for all road users.

Accordingly, your Committee has amended this measure by:

- (1) Defining "electric bicycle" and its classes in place of "low-speed electric bicycle", as well as defining "high-speed electric device";
- (2) Amending the definition of "bicycle";
- (3) Prohibiting a person under the age of fifteen from operating a class 3 electric bicycle;
- (4) Prohibiting a person from operating a class 3 electric bicycle unless they satisfy certain requirements;
- (5) Authorizing any individual to operate a class 1 electric bicycle and class 2 electric bicycle;
- (6) Specifying that the requirements of this measure apply only to a county with a population of five hundred thousand or more;
- (7) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 184, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 184, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 388 Transportation on H.B. No. 435

The purpose of this measure is to:

- (1) Amend the definition of "electric bicycles";
- (2) Establish additional regulations for the registration and use of electric bicycles; and
- (3) Increase the minimum age to operate an electric bicycle.

Your Committee received testimony in support of this measure from the Department of Transportation; Hawai'i Bicycling League; and six individuals. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that the increasing use of electric bicycles throughout the State has led to rising concerns over safety on public roads and bike paths, as the unique characteristics of electric bicycles, such as their speed and motorized assistance, can pose risks to riders, pedestrians, and other road users. Existing laws do not fully address the potential hazards associated with electric bicycles. This measure will provide clear and comprehensive regulations for operation, safety, and registration of electric bicycles, ensuring safer use and greater public awareness.

Your Committee has amended this measure by:

- (1) Deleting language that would have subjected an electric bicycle or a person operating an electric bicycle to the provisions of the traffic code relating to financial responsibility, driver's licenses, certificates of title, off-highway vehicles, and license plates;
- (2) Defining "electric micro mobility device" and requiring the same regulations as electric foot scooters to apply to electric micro mobility devices;
- (3) Specifying that no person under the age of fifteen shall operate a class 3 electric bicycle and explicitly allowing any individual to operate a class 1 electric bicycle or class 2 electric bicycle;
- (4) Increasing the age limit from sixteen years old to eighteen years old for those who are required to wear a helmet when operating a bicycle;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 435, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 435, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 389 Agriculture & Food Systems on H.B. No. 968

The purpose of this measure is to require and appropriate funds for the Department of Agriculture to establish a Healthy Soils Program.

Your Committee received testimony in support of this measure from the Hawai'i Climate Change Mitigation and Adaptation Commission; Hawai'i Farmers Union; Hawai'i Farm Bureau; 350Hawaii.org; Kauai Climate Action Coalition; Citizens' Climate Lobby Hawai'i; Hawaii Cattlemen's Council; and numerous individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that Hawaii's agricultural sustainability and environmental resilience depend on healthy soils. Your Committee further finds that investing in healthy soils is a critical step toward ensuring Hawaii's farms remain productive for future generations while strengthening the local economy and food security. This measure establishes a Healthy Soils Program within the Department of Agriculture to assess and improve soil conditions statewide while providing education and technical assistance to farmers.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$500,000.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 968, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 968, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 390 Agriculture & Food Systems on H.B. No. 428

The purpose of this measure is to establish and appropriate funds for the Hawaii Farm to Families Program to fund food banks in the State to purchase, store, and transport fresh, Hawaii-grown or -produced food to food insecure communities.

Your Committee received testimony in support of this measure from the Department of Agriculture; one member of the Kaua'i County Council; Department of Research and Development of the County of Hawai'i; Hawai'i Hunger Action Network; Hawai'i Farm Bureau; Hawai'i Farmers Union; Hawai'i Foodbank; Maui Food Bank; Hawai'i Youth Food Council; Hana Farmers Market; Hawai'i Public Health Institute; Hawaii Appleseed Center for Law & Economic Justice; Waianae Coast Community Foundation; 350Hawaii.org; Ulupono Initiative; Kauai Climate Action Coalition; The Food Basket, Inc.; Hawaii Cattlemen's Council; Hawai'i Crop Improvement Association; and numerous individuals.

Your Committee finds that Hawaii faces a persistent food security crisis, with one in three households struggling to access consistent, nutritious food. The burden falls hardest on keiki, with nearly thirty percent of children living in food-insecure homes, leading to serious developmental and health consequences. Your Committee also finds that local farmers face unpredictable markets and distribution challenges, limiting their ability to expand production. By strengthening the link between local agriculture and food assistance programs, this measure establishes and funds the Hawaii Farm to Families Program, enabling food banks to purchase, store, and distribute locally grown food and fostering a resilient food system that nourishes communities, supports local agriculture, and reduces dependence on imports.

Your Committee has amended this measure by:

- (1) Clarifying the contents of the reports submitted to the Legislature related to the activities of the Hawaii Farm to Families Program;
- (2) Changing the appropriation to an unspecified amount;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$2,000,000.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 428, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 428, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 391 Agriculture & Food Systems on H.B. No. 967

The purpose of this measure is to:

- (1) Establish the Statewide Interagency Food Systems Coordination Team and the Interagency Food Systems Working Group within the Department of Agriculture; and
- (2) Appropriate funds for the working group and certain positions.

Your Committee received testimony in support of this measure from the Office of Planning and Sustainable Development; Agribusiness Development Corporation; Department of Research and Development of the County of Hawai'i; Hawai'i Foodbank; Hawai'i Farmers Union; Hawai'i Farm Bureau; Ulupono Initiative; Hawai'i Food+ Policy; and three individuals. Your Committee received comments on this measure from the Department of Agriculture and Hawai'i Emergency Management Agency.

Your Committee finds that Hawaii remains committed to strengthening its local food system through sustainability initiatives, increased food production, and enhanced food security. Despite these efforts, nearly one-third of households still experience food insecurity and many local farmers continue to face regulatory and logistical challenges that hinder their ability to expand production and distribution. Addressing these issues requires interagency collaboration to streamline policies, improve procurement processes, and create better market access for local producers. By establishing a Statewide Interagency Food Systems Coordination Team and an Interagency Food Systems Working Group to develop a more resilient and equitable food system, this measure will support local farmers, improve food access, and promote long-term sustainability for Hawaii's communities.

Your Committee notes the Hawai'i Emergency Management Agency's request for one full-time equivalent (1.0 FTE) position to bolster their operational capacity and facilitate effective coordination among various state agencies involved in food systems management.

Your Committee has amended this measure by:

- (1) Changing the appropriation and allocation to unspecified amounts;
- (2) Clarifying that the appropriated funds are allocated for the purpose of hiring appropriately skilled personnel to supplement the Department of Agriculture's staff to support the Statewide Interagency Food Systems Coordination Team and Interagency Food Systems Working Group;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of at least \$100,000 for the establishment and operation of the Interagency Food Systems Working Group.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 967, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 967, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 392 Agriculture & Food Systems on H.B. No. 812

The purpose of this measure is to require a contract for the purchase of local produce having a value of more than \$250 to be for a term of at least five years.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau; Hawai'i Farmers Union; and Hawai'i Food+ Policy. Your Committee received comments on this measure from the Department of Education and State Procurement Office.

Your Committee finds that Hawaii's farmers and ranchers face numerous challenges, including high operational costs, labor shortages, and market instability, which hinder their ability to expand production and invest in infrastructure. Additionally, short-term procurement contracts create further uncertainty, making it difficult for local producers to commit to long-term growth. This measure provides farmers with greater financial stability, promotes crop diversification and livestock expansion, and supports the State's goals of reducing reliance on imports and strengthening local agriculture.

Your Committee has amended this measure by:

- (1) Increasing the minimum contract value threshold from \$250 to \$25,000;
- (2) Authorizing, rather than requiring, the contracts for the purchase of local produce to be for a term of at least five years;
- (3) Inserting language that requires the contracts to include a price adjustment clause to increase or decrease the value;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 812, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 812, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 393 Agriculture & Food Systems on H.B. No. 1187

The purpose of this measure is to phase in a ban on state departments and administratively attached agencies from purchasing imported flowers and lei.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau and Hawai'i Farmers Union. Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that Hawaii's floriculture industry is a vital part of the State's agricultural sector, deeply rooted in cultural traditions and local identity. However, competition from imported flowers, high production costs, and market instability have made it difficult for many local growers to thrive. This measure phases in a ban on state departments and administratively attached agencies from purchasing imported flowers and lei, ensuring a stable market for Hawaii's farmers while promoting sustainability by reducing reliance on imports.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1187, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1187, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 394 Agriculture & Food Systems on H.B. No. 110

The purpose of this measure is to modify certain benchmark goals and timelines for the Department of Education to purchase a certain amount of fresh local agricultural products and local value-added, processed, agricultural, or food products.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farmers Union; Hawai'i Farm Bureau; Hawai'i Public Health Institute; and Hawaii Cattlemen's Council. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that supporting local agriculture and strengthening Hawaii's food systems are critical to the State's economic resilience, sustainability, and public health. While existing laws set procurement benchmarks for various state agencies, inconsistencies in these targets create challenges for state agencies and local farmers trying to scale production. Specifically, the programmatic goal for the Department of Education to locally source at least thirty percent of food served in public schools by 2030 is higher than other state departments. Therefore, this measure resolves discrepancies between the Department of Education's locally sourced food benchmarks and those of other state agencies, ensuring a more consistent and effective implementation of Hawaii's food sustainability goals.

Your Committee notes the concerns that the shifting of the term "produce" to "food" in Act 144, Session Laws of Hawaii 2022, may have inadvertently broadened the inclusion of products that do not substantially benefit the local agricultural landscape. Additionally, your Committee notes that updating reporting requirements for the Department of Education to track the status of progress toward local procurement goals more accurately is essential.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 110, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 395 Agriculture & Food Systems on H.B. No. 328

The purpose of this measure is to:

- (1) Require the Department of Education to authorize and facilitate complex areas or individual department schools to form their own Farm to School Meal Programs; and

- (2) Authorize the Department of Education to establish a plant-based meal program to provide a plant-based meal as an option under the school meals program.

Your Committee received testimony in support of this measure from one member of the Hawai'i County Council; Department of Agriculture of the County of Maui; Hawai'i Farmers Union; Hawai'i State Teachers Association; Hawai'i Public Health Institute; Greenpeace Hawaii; Climate Protectors Hawai'i; 350Hawaii.org; Kauai Climate Action Coalition; Hawai'i Food+ Policy; Climate Future Forum; Hawaiian Islands Republican Women; Lou's Quality Home Health Care Services, LLC; and numerous individuals. Your Committee received comments on this measure from the Department of Education and Hawai'i Cattlemen's Council.

Your Committee finds that progress toward the goal of sourcing thirty percent of school meal ingredients locally by 2030 has been slow, limiting the availability of fresh, nutritious food for students while missing an opportunity to strengthen Hawaii's agricultural economy. Empowering individual schools and complex areas to form their own farm-to-school partnerships will create more regional opportunities for farmers, reducing transportation costs and increasing access to fresh produce. Additionally, offering plant-based meal options provides students with healthier alternatives while supporting sustainability efforts and expanding demand for local agriculture. This measure ensures that Hawaii's schools serve meals that nourish students while fostering a resilient, community-based food system that benefits keiki and local farmers.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 328, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 396 Agriculture & Food Systems on H.B. No. 497

The purpose of this measure is to:

- (1) Establish the Hawaii Child Nutrition Programs as an agency in the Department of Agriculture; and
- (2) Fund grant-based programs to be administered through the Hawaii Child Nutrition Programs.

Your Committee received testimony in support of this measure from the Hawai'i Farmers Union; Hawai'i Public Health Institute; Farm Link Hawai'i; Hawai'i Cattlemen's Council; and five individuals. Your Committee received comments on this measure from the Department of Education and Department of Agriculture.

Your Committee finds that the Hawaii Child Nutrition Programs plays a vital role in linking federal nutrition services with local school meal programs, ensuring compliance with federal requirements while supporting food access for students. As the Department of Education works toward its "30 by 30" goal—sourcing at least thirty percent of school meal ingredients locally by 2030—additional resources and staffing are needed to strengthen farm-to-school connections. This measure better aligns the Hawaii Child Nutrition Programs' mission with the State's broader agricultural goals and provides funding for grant-based programs, further supporting Hawaii's commitment to improving nutrition, food security, and local agricultural sustainability.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 497, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 497, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 397 Agriculture & Food Systems on H.B. No. 773

The purpose of this measure is to appropriate funds for grant specialist positions to assist farmers and ranchers in meeting the requirements to receive grants offered by the United States Department of Agriculture, State, counties, or private entities.

Your Committee received testimony in support of this measure from the Department of Agriculture; Ulupono Initiative; Hawai'i Farm Bureau; Hawai'i Farmers Union; Local Food Coalition; Hawai'i Cattlemen's Council; Hawai'i Food+ Policy; and one individual.

Your Committee finds that many of Hawaii's farmers and ranchers struggle to secure the financial support needed to grow and sustain their businesses. While grants from the United States Department of Agriculture, State, counties, and private entities offer valuable funding opportunities, the complex application processes can deter farmers from applying. Without specialized knowledge in grant writing, many farmers and ranchers miss out on critical resources that could strengthen the local agricultural industry. This measure appropriates funds to establish grant specialist positions within the Department of Agriculture to assist farmers and ranchers in navigating the application process, securing funding, and fulfilling grant requirements. By providing this support, the State can help to ensure that Hawaii's agricultural businesses thrive and contribute to food security and economic resilience.

Your Committee has amended this measure by:

- (1) Changing the number of full-time equivalent grant specialist positions to an unspecified number;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$200,000 for two full-time equivalent (2.0 FTE) grant specialist positions with the Department of Agriculture.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 773, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 773, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 398 Agriculture & Food Systems on H.B. No. 776

The purpose of this measure is to establish the Hawaii Agricultural Transportation Assistance Program, to consist of a reimbursement program and grant program, to assist certain farmers and livestock producers with transportation costs for agricultural products, inputs, supplies, and production and distribution of agricultural commodities.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Hawai'i Farmers Union; Watanabe Floral, Inc.; Hawaii Cattlemen's Council; Hawai'i Food+ Policy; Molokai Farm Bureau; and Hawai'i Island Chamber of Commerce. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Hawaii's geographic isolation and inter-island transport limitations create significant challenges for farmers, ranchers, floriculturists, and food producers, particularly due to high transportation costs. Additionally, shipping expenses impact the import of essential agricultural supplies and the export of locally grown products, making it difficult for local producers to compete in broader markets. By establishing the Hawaii Agricultural Transportation Assistance Program, this measure will improve market access, enhance food security, and promote a more sustainable and resilient agricultural economy for Hawaii.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "geographically disadvantaged farmer or livestock producer";
- (2) Changing the maximum reimbursement amount to an unspecified amount;
- (3) Include food hubs as an entity eligible to receive a grant under the Agricultural Transportation Grant Program;
- (4) Inserting language that appropriates an unspecified sum of funds into and out of the Hawaii Agricultural Transportation Assistance Special Fund;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider a maximum reimbursement amount of \$8,000 for a single applicant in a single year who participates in the Agricultural Transportation Reimbursement Program.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 776, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 776, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 399 Agriculture & Food Systems on H.B. No. 782

The purpose of this measure is to establish and appropriate funds for a working group within the Department of Agriculture to review and make recommendations on amending or repealing unnecessary or obsolete laws pertaining to agriculture.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau; Hawai'i Farmers Union; Hawai'i Food+ Policy; and Land Use Research Foundation of Hawaii. Your Committee received comments on this measure from one individual.

Your Committee finds that Hawaii's agricultural industry faces significant challenges, including outdated regulations that may no longer align with modern farming practices. Many existing agricultural laws were established decades ago and could be hindering innovation, efficiency, and the State's goal of increasing local food production. This measure establishes a working group within the Department of Agriculture to review and recommend amendments or repeals of unnecessary or obsolete laws that may be impeding agricultural growth. By streamlining regulatory processes and ensuring policies remain relevant, this measure also supports a more resilient and sustainable agricultural sector.

Your Committee has amended this measure by:

- (1) Adding a representative from the Hawaii Farmers Union to the working group;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$100,000 for the working group.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 782, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 782, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 400 Higher Education on H.B. No. 1168

The purpose of this measure is to authorize the Board of Regents of the University of Hawaii to issue revenue bonds and appropriate funds out of the revenue bond proceeds to finance qualifying priority capital improvement projects of the University of Hawaii.

Your Committee received testimony in support of this measure from the University of Hawai'i System.

Your Committee finds that allowing the University of Hawaii to issue revenue bonds will help address the University's capital facility needs, including new construction, modernization, and its major repair and maintenance backlog.

Your Committee has amended this measure by:

- (1) Changing the maximum revenue bond issuance and appropriation to unspecified amounts;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider the maximum revenue bond issuance and appropriation amount of \$8,000,000 to finance qualifying priority capital improvement projects of the University of Hawaii.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1168, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1168, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Muraoka). Noes, none. Excused, none.

SCRep. 401 Higher Education on H.B. No. 563

The purpose of this measure is to appropriate funds to the University of Hawaii at Manoa Institute for Astronomy to support the University's space science and engineering initiative.

Your Committee received testimony in support of this measure from the University of Hawai'i System; Department of Research and Development of the County of Hawai'i; Hawai'i Island Chamber of Commerce; Maunakea Scholars; Kona-Kohala Chamber of Commerce; Maunakea Observatories; and numerous individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that there is a need in the State for long-term science, technology, engineering, and mathematics (STEM) workforce development programs to foster a sustainable and economically diverse base for advanced-technology-sector companies. Your Committee further finds that investing funds into the University of Hawaii at Manoa Institute for Astronomy's space science and engineering initiative will grow the pool of Hawaii's workforce in the STEM field and is critical for the continued growth and success of the State's economy and its people.

Your Committee has amended this measure by:

- (1) Changing the amounts appropriated and positions to be funded to unspecified amounts;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to appropriate an amount of \$650,000, to be allocated as follows:

- (1) \$400,000 for salaries and fringe benefits for the following positions:
 - (A) One full-time equivalent (1.0 FTE) University of Hawaii space science and engineering initiative workforce development program manager;
 - (B) One full-time equivalent (1.0 FTE) Maunakea Scholars program coordinator; and
 - (C) One full-time equivalent (1.0 FTE) administrative clerk for the University of Hawaii space science and engineering initiative workforce development program; and
- (2) \$250,000 for office equipment and supplies, operational costs, and internship stipends for high school and college students.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 563, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 563, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 402 Higher Education on H.B. No. 617

The purpose of this measure is to appropriate funds for the establishment of a Bachelor of Science in Nursing degree program at the University of Hawaii Maui College.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Hawai'i State Center for Nursing; Hawai'i-American Nurses Association; Hawai'i Primary Care Association; Healthcare Association of Hawaii; and nine individuals. Your Committee received comments on this measure from University of Hawai'i System and one individual.

Your Committee finds that the State faces a growing nursing workforce shortage. Your Committee further finds that Maui County is the largest county in the State without a college or university Bachelor of Science in Nursing degree program. Your Committee believes that offering a Bachelor of Science in Nursing Program at the University of Hawaii Maui College will increase the supply of nursing graduates, reduce the nursing workforce shortage, and allow Maui nursing students to remain on Maui during their entire course of study.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider the following appropriation amounts:

- (1) \$100,000 for fiscal year 2025-2026 and \$60,000 for fiscal year 2026-2027 for prerequisite courses by students newly enrolled in the Bachelor of Science in Nursing degree program at the University of Hawaii Maui College;
- (2) \$90,000 for fiscal year 2025-2026 and \$60,000 for fiscal year 2026-2027 for additional personnel associated with establishment of the Bachelor of Science in Nursing degree program at the University of Hawaii Maui College;
- (3) \$60,000 for fiscal year 2025-2026 and fiscal year 2026-2027 for supplies, equipment, and simulation and laboratory upgrades associated with establishment of the Bachelor of Science in Nursing degree program at the University of Hawaii Maui College; and
- (4) \$250,000 for fiscal year 2026-2027 for instructional costs associated with providing a third year of nursing courses following the establishment of the Bachelor of Science in Nursing degree program at the University of Hawaii Maui College.

Your Committee further requests your Committee on Finance to consider including the appropriations contained in this measure in the base budget of the University of Hawaii through the state budget.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 617, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 617, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Kila).

SCRep. 403 Higher Education on H.B. No. 1171

The purpose of this measure is to authorize the Board of Regents to use funds from the University of Hawaii Tuition and Fees Special Fund for student aid in direct response to an emergency or disaster, as declared by the Governor.

Your Committee received testimony in support of this measure from the University of Hawai'i System and University of Hawai'i Student Caucus.

Your Committee finds that this measure will enable the University of Hawaii to offer financial support to students through funding from the University of Hawaii Tuition and Fees Special Fund during disaster situations. Your Committee further finds that the University's ability to provide disaster relief funding will enhance student retention and improve overall student success.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1171, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1171, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Evslin, Muraoka).

SCRep. 404 Higher Education on H.B. No. 1170

The purpose of this measure is to require the University of Hawaii to grant the resident tuition fee for enrollment at any University of Hawaii campus to individuals who have graduated from a Hawaii high school and are enrolling in an undergraduate degree program, under certain conditions.

Your Committee received testimony in support of this measure from the Department of Education; University of Hawai'i System; and University of Hawai'i Student Caucus.

Your Committee finds that securing the resident tuition fee for Hawaii high school graduates will increase accessibility for students who are deterred from seeking an undergraduate degree due to perceived high cost and will provide a competitive choice for students considering out-of-state options. This measure will also help some local graduating students or recent graduates who may, for a variety of reasons, meet the current statutory requirements for providing evidence of bona fide residency in the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1170, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1170, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Evslin, Muraoka).

SCRep. 405 Higher Education on H.B. No. 843

The purpose of this measure is to appropriate funds:

- (1) For critical repairs, maintenance, demolition, design, and construction for facilities of the College of Tropical Agriculture and Human Resilience at the University of Hawaii at Manoa; and
- (2) To establish positions within the University of Hawaii for the College of Tropical Agriculture and Human Resilience at the University of Hawaii at Manoa.

Your Committee received testimony in support of this measure from the College of Tropical Agriculture and Human Resilience at the University of Hawai'i at Manoa; Hawai'i Farm Bureau; MetroGrow Hawaii; and Maui County Farm Bureau.

Your Committee finds that in the past twenty years, the College of Tropical Agriculture and Human Resilience (CTAHR) at the University of Hawaii at Manoa has lost personnel and struggled with deteriorating facilities and infrastructure. Without the proper personnel, CTAHR will be unable to support its agricultural research and extension stations. Your Committee further finds that many of CTAHR's facilities are decades old, with some dating back to the early- to mid-1900s, and most facilities have only received minimal repairs over the years. This measure will ensure that CTAHR has the resources necessary to obtain staffing positions and repair its facilities so it can continue its vital work in supporting the State through its programs and initiatives.

Your Committee has amended this measure by:

- (1) Changing the amounts to be appropriated and number of positions to be funded to unspecified amounts; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider appropriating the following amounts:

- (1) \$11,000,000 for critical repairs, maintenance, demolition, design, and construction for facilities of CTAHR, to be expended as follows:
 - (A) \$5,000,000 for the Waimanalo research station on Oahu; and
 - (B) \$6,000,000 for the Magoon research station on Oahu; and

- (2) \$2,083,334 to establish eight full-time equivalent agricultural technician positions, four full-time equivalent community coordinator positions, and eight full-time equivalent administrative professional technical positions within CTAHR.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 843, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 843, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Evslin, Muraoka).

SCRep. 406 Higher Education on H.B. No. 842

The purpose of this measure is to appropriate funds to the University of Hawaii at Manoa to establish three additional permanent mental health practitioner positions within the Division of Student Success' Counseling and Student Development Center.

Your Committee received testimony in support of this measure from the University of Hawai'i at Manoa; Academic Labor United; and one individual.

Your Committee finds that the Counseling and Student Development Center at the University of Hawaii at Manoa is a critical resource providing mental health support to its students. However, the Center's staffing levels remain critically low. This measure will provide funding for additional full-time, permanent mental health professionals to meet the mental health needs of university students.

Your Committee has amended this measure by:

- (1) Changing the number of positions to be funded to an unspecified number; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 842, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 842, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Evslin, Muraoka).

SCRep. 407 Higher Education on H.B. No. 840

The purpose of this measure is to appropriate funds for the program and operations of athletics departments of the University of Hawaii.

Your Committee received testimony in support of this measure from the University of Hawai'i at Manoa and University of Hawai'i at Hilo.

Your Committee finds that the funds appropriated by this measure will support student-athletes and athletic programs of the University of Hawaii System, including for ongoing costs related to nutrition programs, athletic training services, recruitment, and travel.

Your Committee has amended this measure by:

- (1) Changing the amounts appropriated and the number of positions to be funded to unspecified amounts;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$8,519,341 for the program and operations of the athletics departments at the University of Hawaii, to be allocated as follows:

- (1) \$3,200,000 for each fiscal year to the University of Hawaii at Manoa athletics department;
- (2) \$800,000 for each fiscal year to the University of Hawaii at Hilo athletics department; and
- (3) \$4,519,341 for each fiscal year to establish forty-three temporary full-time equivalent (43.0 FTE) positions at the University of Hawaii at Manoa athletics department and provide additional support.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 840, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 840, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Evslin, Muraoka).

SCRep. 408 Higher Education on H.B. No. 542

The purpose of this measure is to expand and appropriate funds for the Hawaii Promise Program to provide scholarships to qualified students enrolled at any University of Hawaii campus, rather than just community college campuses.

Your Committee received testimony in support of this measure from the University of Hawai'i System; University of Hawaii Professional Assembly; University of Hawai'i Student Caucus; and two individuals.

Your Committee finds that the cost of attendance continues to be a significant barrier for many of the State's residents in pursuing higher education. In response, the University of Hawaii implemented the Hawaii Promise Program to provide need-based awards intended to be applied toward the unmet need of qualified students enrolled at any community college campus of the University of Hawaii. This measure will expand the Hawaii Promise Program to provide scholarships for the unmet needs of qualified undergraduate students enrolled at any four-year University of Hawaii campus, thereby increasing the number of students who enroll and earn degrees to prepare them for success in the workforce and their communities.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 542, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 542, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Evslin, Muraoka).

SCRep. 409 Housing on H.B. No. 1093

The purpose of this measure is to clarify the Hawaii Public Housing Authority's powers relating to housing projects.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority.

Your Committee finds that in recent years, the United States Department of Housing and Urban Development has encouraged public housing authorities to shift their focus toward creating financially viable and socially stable, mixed-income communities. This measure will allow the Hawaii Public Housing Authority to achieve its long-term goals of deconcentrating poverty and redeveloping existing public housing projects into mixed-income communities.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1093, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1093, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Cochran, La Chica, Pierick).

SCRep. 410 Housing on H.B. No. 1097

The purpose of this measure is to reduce the period of time the Hawaii Public Housing Authority is required to store the unclaimed property of a tenant evicted from public housing from thirty to fourteen days.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority.

Your Committee finds that when a Hawaii Public Housing Authority tenant is evicted, oftentimes the Authority is forced to store their belongings. In most circumstances, the Authority does not have dedicated storage facilities where the evicted tenant's property can be stored, so the property must be stored in the vacated unit, which delays repair work and placement of a new family into the unit. This measure enables the Authority to efficiently prepare and turn over vacant units so more individuals and families can secure stable housing.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1097, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1097, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Cochran, La Chica, Pierick).

SCRep. 411 Housing on H.B. No. 1094

The purpose of this measure is to provide the Hawaii Public Housing Authority with greater ability to dispose of abandoned or seized property in and around federal public housing projects.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority.

Your Committee finds that Hawaii Public Housing Authority federal public housing projects do not have on-site storage facilities, which make it challenging to retain abandoned or seized property for extended periods. This measure establishes clear procedures for the management of abandoned or seized property in federal public housing projects similar to the procedures already in place for State public housing projects, which will create uniformity in the Authority's policies while improving operational efficiencies and reducing the average vacancy period of units.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1094, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1094, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Cochran, La Chica, Pierick).

SCRep. 412 Housing on H.B. No. 199

The purpose of this measure is to expressly provide conditions under which all parcels under the jurisdiction of the Hawaii Public Housing Authority and authority offices and facilities may be closed to the public so that trespassing violations may be prosecuted as criminal trespass in the second degree.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority and one individual.

Your Committee finds that incidents arise on Hawaii Public Housing Authority property due to the presence of uninvited individuals. This measure clarifies the conditions under which Hawaii Public Housing Authority properties may be closed to the public to protect the well-being of its tenants and staff and provide a safer living environment for public housing tenants and the surrounding community.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 199, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 199, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Cochran, La Chica, Pierick).

SCRep. 413 Human Services & Homelessness on H.B. No. 1349

The purpose of this measure is to appropriate funds to the Department of Human Services to authorize Medicaid coverage through the Children's Health Insurance Program to income-qualified pregnant persons and children regardless of immigration status.

Your Committee received testimony in support of this measure from one member of the Hawai'i County Council; Indivisible Hawai'i; American Association of University Women of Hawaii; The Legal Clinic; Hawai'i Children's Action Network Speaks!; The American College of Obstetrics and Gynecology Hawai'i Section; Save Medicaid Hawaii; Hawai'i Coalition for Immigrant Rights; AlohaCare; Hawai'i Friends of Civil Rights; Roots Reborn Maui; and numerous individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that access to high-quality, affordable health care is essential for public health, yet many individuals in Hawaii are denied Medicaid and other health coverage due to their immigration status. Your Committee further finds that lack of prenatal care significantly increases the risk of preterm birth and neonatal death, placing parents and infants in life-threatening situations. Currently, twenty-four states and the District of Columbia provide Medicaid coverage to all income-qualified pregnant residents regardless of immigration status, in recognition of the long-term health and economic benefits this coverage provides. This measure appropriates funds to the Department of Human Services to expand Medicaid coverage through the Children's Health Insurance Program, ensuring that income-qualified pregnant individuals and children have access to essential care and improving health outcomes for Hawaii's families.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider the costs, as estimated by the Department of Human Services, to support health insurance coverage under program ID HMS401, as proposed by this measure, as follows:

- (1) \$744,000 for pregnant persons;
- (2) \$620,000 for pregnant persons, including ten months post-partum care; and
- (3) \$2,976,000 for children under the Health Services Initiative option.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1349, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1349, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, 2 (Alcos, Garcia). Excused, none.

SCRep. 414 Human Services & Homelessness on H.B. No. 324

The purpose of this measure is to establish the Baby Bonds Working Group to develop a plan for the creation of a baby bonds program for the State to address intergenerational poverty and wealth inequality in Hawaii.

Your Committee received testimony in support of this measure from the Democratic Party of Hawai'i Education Caucus and one individual. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that intergenerational poverty undermines economic and social well-being, making it difficult for families to achieve financial stability, particularly in Hawaii, where the high cost of living creates significant barriers. Your Committee further finds that Connecticut has a successful Baby Bonds Program, which invests in children born into poverty to support future financial independence. By establishing a working group that examines matched savings opportunities, this measure aims to develop a plan for initiatives that would help break cycles of poverty, promote wealth-building opportunities, and create long-term economic growth for future generations in the State.

Your Committee notes that the State does have existing savings programs, including the individual development account program and HI529-Hawaii's College Savings Program. Your Committee therefore finds that it would be beneficial to expand the working group's focus to include strategies to improve participation or utilization of existing asset-building programs.

Accordingly, your Committee has amended this measure by:

- (1) Changing the name of the working group to the "Wealth Building Working Group";
- (2) Expanding the scope of the working group to include reviewing other existing asset-building programs;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 324, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 324, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, 1 (Garcia). Excused, none.

SCRep. 415 Human Services & Homelessness on H.B. No. 705

The purpose of this measure is to:

- (1) Establish a temporary Medi-Medi Project within the Hawaii State Health Insurance Assistance Program to assist older adults, Medicare beneficiaries, individuals with disabilities, and other underserved populations who may qualify for various low-income subsidy programs to gain access to their benefits;
- (2) Require the Executive Office on Aging to submit annual reports to the Legislature on the Medi-Medi Project; and
- (3) Appropriate funds for the Hawaii State Health Insurance Assistance Program, including for staff and operating expenses.

Your Committee received testimony in support of this measure from the Executive Office on Aging; State Council on Developmental Disabilities; AARP Hawai'i; Hawai'i Family Caregiver Coalition; and three individuals.

Your Committee finds that many low-income individuals in Hawaii qualify for subsidy programs, including Medicare, Medicaid, and Medicare savings programs such as Medicare Part D Extra Help, which reduce out-of-pocket medical and prescription drug costs. However, barriers such as language access, lack of awareness, and difficulty navigating the application process prevent many from receiving these essential benefits. To address these challenges, this measure establishes the temporary Medi-Medi Project within the Hawaii State Health Insurance Assistance Program to assist underserved populations in accessing and maintaining their health benefits, ensuring they receive the support they need.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$100,000 for only fiscal year 2025-2026 for the Hawaii State Health Insurance Assistance Program, as the Program should be self-sufficient after the first fiscal year.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 705, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 705, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 416 Human Services & Homelessness on H.B. No. 327

The purpose of this measure is to appropriate funds to the Office of the Governor for a state childcare facility for state employees and their families.

Your Committee received testimony in support of this measure from the Office of the Public Defender and one individual. Your Committee received comments on this measure from the Department of Human Services and Executive Office on Early Learning.

Your Committee finds that providing childcare services for public employees can strengthen workforce development by attracting a broader talent pool, improving retention, and increasing productivity by reducing absenteeism. Access to reliable childcare also enhances economic security for families and supports overall community well-being. This measure would provide a critical resource for state employees, allowing many of them to balance work and family responsibilities more effectively.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 327, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 327, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 417 Consumer Protection & Commerce on H.B. No. 565

The purpose of this measure is to require, beginning October 1, 2025, mortuaries, cemeteries, and pre-need funeral authorities to include in contracts for funeral services with cremation a provision that requires notice if precious metals are recovered after the cremation process and written consent before the sale or recycling of the precious metals.

Your Committee received testimony in support of this measure from Kokua Council; AARP Hawai'i; and five individuals. Your Committee received comments on this measure from the Regulated Industries Complaints Office, Office of Consumer Protection, and Division of Professional Vocational Licensing Cemetery and Funeral Trusts Program of the Department of Commerce and Consumer Affairs.

Your Committee finds that cremation is the process that converts human remains to ashes and mineral fragments through combustion and oxidation. Your Committee further finds that decedents may have metals on or in their bodies that survive the cremation process, including titanium implants. Typically, these metals are disposed by the crematory through various means, including donation or sale to a medical recycling company, with the disposition of the proceeds determined by the crematory. This measure provides the family of the decedent with the option for retaining the metals.

Your Committee has amended this measure by:

- (1) Clarifying that the new requirements for a contract that includes cremation apply to contracts entered into on or after October 1, 2025;
- (2) Deleting language that applied the contract requirements to cemetery authorities since cemetery authorities are not permitted to enter into funeral service contracts;
- (3) Deleting the requirement that written consent be obtained by the purchaser before the sale or recycling of any recovered precious metals;

- (4) Specifying that the contract must include a disclosure that after the receipt of the written notice, the purchaser has thirty days to claim the precious metals recovered, after which the precious metals may be sold or recycled by the mortuary or pre-need funeral authority;
- (5) Specifying that the failure of a mortuary or pre-need funeral authority to include the required provision and disclosure shall be a violation;
- (6) Clarifying the definition of "precious metals";
- (7) Deleting language that required mortuaries, cemetery authorities, and pre-need funeral authorities to provide to purchasers of contracts entered into before October 1, 2025, an addendum with the contract requirements being enacted by this measure;
- (8) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 565, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 565, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 2 (Kong, Lowen).

SCRep. 418 Consumer Protection & Commerce on H.B. No. 979

The purpose of this measure is to require landlords, lessors, or plaintiffs in a summary possession action to submit a general excise tax license in good standing as a condition to the issuance of a writ of possession.

Your Committee received testimony in support of this measure from the Hawaii Appleseed Center for Law & Economic Justice. Your Committee received comments on this measure from the Judiciary; Department of Taxation; and Tax Foundation of Hawaii.

Your Committee finds that the revenue generated from the leasing of real property is subject to the general excise tax. Your Committee further finds that, while residential rental properties serve a valuable role of providing housing, landlords should also fulfill their tax obligations. This measure imposes a requirement for the landlord to provide proof of compliance with the landlord's general tax obligations to prior to availing the landlord with the remedy of summary possession.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee notes that the Judiciary, in its written testimony to your Committee, raised concerns that the measure would require the Judiciary to develop system modifications to its existing case management system to account for the general excise tax license information. As such, the Judiciary requested that the measure be effective no sooner than July 1, 2026, to allow for these necessary systems modifications.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 979, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 979, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 2 (Kong, Lowen).

SCRep. 419 Consumer Protection & Commerce on H.B. No. 1053

The purpose of this measure is to clarify the ability of a condominium association to borrow from or reallocate from its replacement reserves fund to be used toward operating expenses if repaid within one year.

Your Committee received testimony in support of this measure from the Real Estate Commission and Palehua Townhouse Association. Your Committee received testimony in opposition to this measure from the Hawaii Legislative Action Committee of the Community Associations Institute; Hawaii Council of Community Associations; and three individuals. Your Committee received comments on this measure from seven individuals.

Your Committee finds that, due to issues in the global insurance industry and recent increases in catastrophic weather events around the world, there have been unprecedented insurance premium rate increases for condominium associations. Condominium associations have been unable to fund these significant increases, which in turn has placed an unbearable and unforeseeable financial burden on condominium unit owners to cover these last-minute costs. This measure allows a condominium association to borrow and subsequently repay from its reserve fund account to assist in paying for operating expenses within the condominium association's budget.

Your Committee notes that a concern was raised by the Community Associations Institute, in its written testimony before your Committee, that the proposed spending limits in this measure based on percentages would be highly difficult to enforce. This is a consequence of the vast majority of condominium associations (approximately more than ninety-five percent) adopting reserve studies using the cash flow funding method, which excludes percentages under the Pooling Method of preparation. Under the cash flow funding method, a condominium association's reserve balance is projected over a thirty-year period, accounting for income and expenses, and is deemed fully funded if the ending balance is a positive balance. As such, any determination of percentages is inconsistent with that methodology. Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to give due consideration to this concern.

Your Committee has amended this measure by:

- (1) Clarifying that a violation of the provisions governing the authorization for a condominium association to borrow or reallocate replacement reserves funds is a violation of the member's fiscal duty;
- (2) Specifying that every authorized borrowing or reallocation of replacement reserves funds is to be restored before any additional borrowing or reallocation, if the replacement reserves are less than one hundred percent of the estimated replacement reserves;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1053, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1053, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Iwamoto, Tam). Noes, none. Excused, 2 (Kong, Lowen).

SCRep. 420 Consumer Protection & Commerce on H.B. No. 1277

The purpose of this measure is to limit the value of daily transactions through a digital financial asset transaction kiosk to a maximum of \$2,000 per day.

Your Committee received testimony in support of this measure from AARP Hawai'i and one individual. Your Committee received testimony in opposition to this measure from CoinFlip and Bitcoin Depot.

Your Committee finds that a digital financial asset transaction kiosk is a type of electronic kiosk where customers can buy and sell digital financial assets, or cryptocurrencies, using cash, credit cards, or bank transfer. While the operators of these kiosks are not subject to any state oversight or regulation in their business practices, federal law does require operators to comply with laws designed to combat money laundering and terrorist financing. Yet, consumers have no protections designed to protect their financial interests when transacting at these kiosks.

Your Committee further finds that, while these kiosks enable people to make legitimate financial transactions every day, these kiosks are also increasingly being used in scams targeting older adults. In these scams, victims are convinced to use the kiosks to transfer cryptocurrencies to a wallet address controlled by the scammer. This measure imposes a daily transaction limit to prevent large sums of money from being withdrawn or deposited in a single day.

Your Committee has amended this measure by:

- (1) Lowering the daily limit imposed by this measure from \$2,000 to \$1,000; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1277, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1277, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, 1 (Pierick). Excused, 2 (Kong, Lowen).

SCRep. 421 Consumer Protection & Commerce on H.B. No. 939

The purpose of this measure is to establish a liquor tax rate for low alcohol by volume spirits beverages.

Your Committee received testimony in support of this measure from Maui Wine, Ltd.; Lanikai Brewing Co.; Kauai Beer Company; Kaua'i Island Brewing Co.; Maui Brewing Co.; Johnson Brothers of Hawaii, Inc.; and one individual. Your Committee received testimony in opposition to this measure from the Beer Institute; Wine Institute; and Hawai'i Alcohol Policy Alliance. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that spirits based low-proof, ready-to-drink beverages are taxed at a rate of \$5.98 a gallon, or more than six times higher than malt beverages and beer with similar alcohol by volume. This dramatic difference in the taxation of products with similar alcohol content creates an unfair marketplace. This measure adjusts the tax rate for low-proof spirits-based beverages to be comparable to other low-proof beverages.

Your Committee has amended this measure by:

- (1) Increasing the tax rate proposed for low alcohol by volume spirits beverages, from 85 cents to 93 cents per wine gallon;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Inserting a three-year sunset date of December 31, 2028.

Your Committee notes that the Department of Taxation, in its written testimony before your Committee, requested that the new tax proposed by this measure begin on January 1, 2026, to allow the Department sufficient time to implement the measure's provisions.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 939, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 939, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Iwamoto). Noes, none. Excused, 2 (Kong, Lowen).

SCRep. 422 Consumer Protection & Commerce on H.B. No. 1052

The purpose of this measure is to provide clear authorization and guidance for the Public Utilities Commission to implement and manage, through the Universal Service Program, the provision of essential telecommunications services for individuals with print disabilities.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Department of Human Services; Public Utilities Commission; Hawaii State Council on Development Disabilities; and National Federation of the Blind of Hawaii.

Your Committee finds that Act 225, Session Laws of Hawaii 1995, established the Universal Service Program, the purpose of which, in part, is to help customers with disabilities access and maintain a basic set of essential telecommunications services as determined by the Public Utilities Commission. Despite existing law requiring telecommunications carriers to contribute to the Program, the Program is currently inactive with no funds available. Furthermore, there is a lack of clear legislative authority for the Public Utilities Commission to develop a program addressing print disabilities. This measure resolves these issues by adding language to clearly authorize the Public Utilities Commission to develop a program for persons with print disabilities and authorizing the use of funds for this purpose.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1052, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1052, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 2 (Kong, Lowen).

SCRep. 423 Consumer Protection & Commerce on H.B. No. 1049

The purpose of this measure is to make various amendments to the Money Transmitters Modernization Act to be more consistent with the Model Money Transmitters Modernization Act by:

- (1) Amending the definition of "permissible investments" to include certain receivables;
- (2) Correcting the required tangible net worth that must be maintained by a licensee and repealing language that specified the manner in which tangible net worth is to be calculated; and
- (3) Removing the refundable \$5,000 initial annual license fee and instead allowing a fee to be assessed after an application has been approved.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that the existing calculation for tangible net worth under the State's Money Transmitters Modernization Act is based on an older model law and does not comport with national standards. This measure will correct the existing calculation to ensure that licensees can operate and conduct their business in a safe and sound manner across the nation and in Hawaii.

Your Committee further finds that existing law requires an applicant for licensure as a money transmitter to pay a \$5,000 initial annual license fee with their application, which is then returned if the application is denied. This process is administratively burdensome and frustrating to an applicant. This measure therefore streamlines the process to only require the \$5,000 fee once an applicant's application has been approved.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1049, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1049, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 2 (Kong, Lowen).

SCRep. 424 Consumer Protection & Commerce on H.B. No. 1055

The purpose of this measure is to make an emergency appropriation for the Public Utilities Commission to procure services by consultants with technical expertise to assist with the efforts to strengthen the resilience and reliability of electric utility services in the State.

Your Committee received testimony in support of this measure from the Public Utilities Commission and Hawaiian Electric.

Your Committee finds that the devastating Maui wildfires on August 8, 2023, was one of the worst natural disasters in the State's history. Your Committee further finds that the Public Utilities Commission is the regulatory body with the oversight authority for strengthening critical infrastructure, mitigating risks, protecting utility customers, and ensuring robust recovery following extreme weather events.

In response to the Maui wildfires, the Public Utilities Commission will further efforts to strengthen the resilience and reliability of electric utility services in the State. To assist in this effort, the Public Utilities Commission needs consultants with specialized expertise to provide technical assessments, evaluations, and recommendations for mitigating storm-related power outages, restoring the grid, rebuilding infrastructure, and preparing for direct impacts of other natural disasters. This measure provides the Public Utilities Commission with the emergency funding to contract with consultant services to provide the needed expertise.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$700,000.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1055, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1055, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, 1 (Pierick). Excused, 2 (Kong, Lowen).

SCRep. 425 Consumer Protection & Commerce on H.B. No. 106

The purpose of this measure is to clarify the process for unit owners and tenants to dispute assessments levied by condominium associations and ensure that there is due process when fines are imposed on individuals subject to condominium association enforcement actions.

Your Committee received testimony in support of this measure from the Hawaii Legislative Action Committee of the Community Associations Institute; Hawaii First Realty LLC; Hawaiiana Management Company, Ltd.; and seven individuals. Your Committee received testimony in opposition to this measure from ten individuals.

Your Committee finds that owners, tenants, and other persons who use condominium property are subject to the declarations and bylaws adopted by the condominium association and that those persons must strictly comply with the covenants, conditions, and restrictions set forth in the declaration, bylaws, and house rules. Your Committee further finds that the existing model of self-governance for condominium associations necessitates that condominium associations have mechanisms to enforce compliance. However, such mechanisms should also provide persons with notice and an opportunity to be heard. This measure ensures that unit owners and tenants are afforded a fair process to dispute fines levied by a condominium association.

Your Committee has amended this measure by:

- (1) Specifying that the new statutory provision, which clarifies the process for unit owners and tenants to dispute fines imposed by condominium associations, controls over fine-related provisions in an association's declaration, bylaws, house rules, or regulations;

- (2) Specifying that a timely demand for mediation stays a condominium association's efforts to collect a contested assessment for one hundred twenty days, rather than sixty days;
- (3) Specifying that the Small Claims Division of the District Court has jurisdiction over all cases arising from a board of director's decision that is adverse to the unit owner or tenant relating to fines under the new statutory provision;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 106, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 106, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 426 Consumer Protection & Commerce on H.B. No. 1048

The purpose of this measure is to make clarifying amendments to the installment loans law, including:

- (1) Using defined terms consistently;
- (2) Requiring lenders to prorate fees on a daily basis;
- (3) Allowing lenders to charge a convenience fee for debit card payments;
- (4) Requiring paper receipts only for in-person or cash payments and removing the requirement that receipts not contain the consumer's name; and
- (5) Repealing the cool down period between loans.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committee received testimony in opposition to this measure from the American Fintech Council.

Your Committee finds that the existing installment loan law allows lenders writing loan contracts to fully capture the maximum monthly maintenance fees even if the lender provides service for only a portion of the month. This measure will require lenders to prorate the monthly fees daily.

Your Committee further finds that the existing installment loan law requires a three-day waiting period between loans. The original intent for the three-day waiting period was so that borrowers would not be in a continuous cycle of debt by repaying the loan and borrowing again on the same day. However, unlike payday loans, which the installment loan law replaced, installment loans are gradually paid down through a series of payments. The repeal of the waiting period will allow consumers on the neighbor islands, which only have access to one or two lenders, to have more access to financial services.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion;
- (2) Inserting a three-year sunset date of June 30, 2028; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1048, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1048, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 2 (Kong, Lowen).

SCRep. 427 Consumer Protection & Commerce on H.B. No. 331

The purpose of this measure is to:

- (1) Establish an exemption from applicable county permit requirements for repetitive construction projects for facilities under the control of any state department or agency; and
- (2) Clarify that contracts for the construction, renovation, or repair of facilities under the control of the Department of Education, University of Hawai'i, or School Facilities Authority are exempt from county permitting requirements that related off-site improvements be made by the contracting government agency as a condition to the issuance of any permit, except for projects in special flood hazard areas.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Education; University of Hawai'i System; School Facilities Authority; Grassroot Institute of Hawaii; Hawaiian Islands Republican Women; and two individuals. Your Committee received testimony in opposition to this measure from the Board of Water Supply of the City and County of Honolulu and one individual.

Your Committee finds that the county permitting process coordinates work with fire, water, electrical, and various other county approvals. This measure would streamline the permitting process for projects under the control of certain state agencies.

Your Committee has amended this measure by specifying that repetitive construction projects include minor renovations.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 331, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 331, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Iwamoto). Noes, none. Excused, none.

SCRep. 428 Consumer Protection & Commerce on H.B. No. 302

The purpose of this measure is to:

- (1) Repeal the requirement that a provider-patient relationship be established in person for purposes of obtaining a certification for medical cannabis; and
- (2) Allow applicants or primary caregivers to temporarily purchase medical cannabis after the submission of the applicant's certification form.

Your Committee received testimony in support of this measure from the Hawai'i Cannabis Industry Association; Cure Oahu; Big Island Grown; Noa Botanicals; and one individual. Your Committee received comments on this measure from the Department of the Attorney General; Department of Health; and Akamai Cannabis Consulting.

Your Committee finds that the number of registered medical cannabis patients has been in decline since 2021. There are various issues with the registration process, particularly the number of providers participating in the certification process. This measure eases the hurdle of access to participating providers by repealing the requirement that a provider-patient relationship be established in person for purposes of obtaining a certification for medical cannabis.

Your Committee has amended this measure by:

- (1) Specifying that written certifications must originate from within the State;
- (2) Deleting language that allowed applicants or primary caregivers to temporarily purchase medical cannabis after the submission of the applicant's certification form; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 302, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs in the form attached hereto as H.B. No. 302, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Iwamoto). Noes, none. Excused, none.

SCRep. 429 Consumer Protection & Commerce on H.B. No. 981

The purpose of this measure is to limit attorneys' fees in settlement agreements relating to, or actions brought as a result of, construction defects to ensure that plaintiffs can better afford the repair costs.

Your Committee received testimony in support of this measure from D.R. Horton; Hawaii Laborers and Employers Cooperation and Education Trust; Gentry Homes, Ltd.; Stanford Carr Development, LLC; Building Industry Association of Hawaii; and one individual. Your Committee received testimony in opposition to this measure from Kasdan Turner Thomson Booth, LLC; and two individuals.

Your Committee finds that attorney's fees can cost a prevailing party a significant portion of the party's settlement amount or monetary award. In some cases, a prevailing party may only receive sixty to sixty-five percent of the settlement amount or monetary award after attorney's fees and costs are deducted. This is particularly concerning if the claim is based on a construction defect since a significant reduction in the settlement amount or monetary award may not leave the plaintiff with enough money to cover the necessary repair costs. In such cases, the plaintiff may actually be in a worse position than before the suit. This measure limits the attorney's fees in cases with construction defect claims to ensure that plaintiffs receive a greater portion of their settlement amount or monetary award.

Your Committee has amended this measure by:

- (1) Specifying that attorneys are entitled to their accrued attorney's fees and costs not to exceed twenty-five percent of the recovery amount, rather than specifying that plaintiffs receive ninety percent of the repair cost;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 981, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 981, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 430 Consumer Protection & Commerce on H.B. No. 1482

The purpose of this measure is to:

- (1) Prohibit the sale and distribution of hemp products that contain cannabinoids created through isomerization, including Delta 6 cis or trans tetrahydrocannabinol, and their optical isomers;
- (2) Exempt certain cannabis and manufactured cannabis product sales from the prohibition; and
- (3) Insert alternative names for Delta 6 cis or trans tetrahydrocannabinol and their optical isomers into the list of schedule I controlled substances.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu; Honolulu Police Department; Aloha Green Apothecary; Noa Botanicals; Cure Oahu; and two individuals. Your Committee received comments on this measure from the Department of Health; Department of the Attorney General; and Akamai Cannabis Consulting.

Your Committee finds that delta-8-tetrahydrocannabinol is found in the *Cannabis sativa* plant. The substance has psychoactive and intoxicating effects, similar to delta-9-tetrahydrocannabinol, which is responsible for the "high" people may experience from using cannabis. Delta-8-tetrahydrocannabinol is not found in significant amounts in the cannabis plant. However, hemp products, if not manufactured properly, could expose consumers to higher levels of the substance. The United States Food and Drug Administration has noted that delta-8-tetrahydrocannabinol products have been marketed in ways that put public health at risk, and that concerns exist over variability in product information and product labeling, the inclusion of cannabinoid and terpene content, and variable delta-8-tetrahydrocannabinol concentrations.

Your Committee also finds that, although existing state law already classifies delta 8 cis or trans tetrahydrocannabinol, and their optical isomers, as schedule I controlled substances, this status is unclear because they are listed as their synonyms delta 6 cis or trans tetrahydrocannabinol, and their optical isomers.

Your Committee lastly finds that under schedule I of the Uniform Controlled Substances Act, there are numerous cannabinoids found to have the highest degree of danger or probable danger. This measure explicitly provides that such substances are excluded from manufactured hemp products.

Your Committee has amended this measure by:

- (1) Deleting the word "synthetic" when referring to the cannabinoids controlled under schedule I of the Uniform Controlled Substances Act, to avoid confusion with the term "synthetic cannabinoid" defined under the hemp processors law;

- (2) Specifically excluding synthetic cannabinoids and artificially derived cannabinoids from the definition of "manufactured hemp product", rather than simply excluding the schedule I cannabinoids;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1482, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1482, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Iwamoto). Noes, none. Excused, none.

SCRep. 431 Consumer Protection & Commerce on H.B. No. 699

The purpose of this measure is to provide protections for pet owners and pet animals by:

- (1) Prohibiting insurers from refusing to issue or renew, canceling, restricting, otherwise terminating, or charging higher rates for a commercial general liability insurance policy, homeowners insurance policy, renters insurance policy, or dwelling fire policy based on the breed of any dog that is kept on the insured premises;
- (2) Prohibiting landlords from charging additional monthly fees for the keeping of a pet animal, except in certain circumstances; and
- (3) Limiting the monetary amount that a landlord may charge for a pet deposit.

Your Committee received testimony in support of this measure from the Hawaiian Humane Society; Sabers4Animals; Animal Interfaith Alliance in Britain; Animal Legal Defense Fund; The Humane Society of the United States; American Kennel Club; Environmental Caucus of the Democratic Party of Hawai'i; and numerous individuals. Your Committee received testimony in opposition to this measure from the Hawaii Insurers Council and one individual. Your Committee received comments on this measure from the Hawai'i Association of REALTORS and American Property Casualty Insurance Association.

Your Committee finds that the lack of access to housing that welcomes pets breaks up families. Thirty percent of families who had surrendered a pet in the past five years said it was due to an inability to be housed with their pet. Furthermore, twenty-nine percent of houseless residents have at least one pet.

Your Committee further finds that fears surrounding pets in rental housing are not supported by data, as research has indicated that there is little difference in damage between tenants with and tenants without pets. Only nine percent of pets were reported to cause any damage whatsoever, and the average damages were \$210. Furthermore, most pet owners paid to fix damages themselves, with only two percent of pets that caused damage requiring a security deposit deduction for repairs. This measure promotes access to rental housing for persons with pets by limiting the additional charges a landlord may impose on a tenant simply for owning a pet.

Your Committee has amended this measure by:

- (1) Deleting language that prohibited insurers from making underwriting decisions based on the breed of any dog that is kept on the insured premises;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 699, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 699, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 1 (Pierick). Excused, none.

SCRep. 432 Consumer Protection & Commerce on H.B. No. 918

The purpose of this measure is to establish labeling requirements for certain premoistened nonwoven disposable wipes.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Maui; Department of Environmental Services of the City and County of Honolulu; Department of Environmental Management of the County of Hawai'i; INDA, Association of the Nonwoven Fabrics Industry; and Hawai'i Association of REALTORS. Your Committee received comments on this measure from the Department of Health; Department of Agriculture; and Retail Merchants of Hawaii.

Your Committee finds that wipes made from synthetic materials do not break down when they become wet. As a result, these wipes cause clogs or blockages in pipes and pumps, leading to sewage spills. This increases maintenance costs, reduces the efficiency of wastewater treatment facilities, and poses a health and safety risk to workers and residents. This measure is intended to raise public awareness and encourage responsible disposal of wipes by establishing labeling requirements for premoistened nonwoven disposable wipes.

Your Committee has amended this measure by:

- (1) Moving the statutory language and the regulation of the labeling requirements under jurisdiction of the Department of Health;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that, as this measure advances through the legislative process, that consideration be given for making the labeling requirements effective on July 1, 2026. Your Committee further notes that written testimony received by your Committee has suggested an alternative implementation strategy, using Oregon as a model. Your Committee respectfully requests your Committee on Judiciary & Hawaiian Affairs, should it deliberate on this measure, to give due consideration to this suggestion.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 918, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 918, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 433 Human Services & Homelessness on H.B. No. 212

The purpose of this measure is to require and appropriate funds for the Statewide Office on Homelessness and Housing Solutions to establish a permanent Return-to-Home Program to return homeless individuals in the State to families and relatives in their home states.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness; Department of Land and Natural Resources; Office of the Public Defender; The Institute for Human Services, Inc.; and one individual. Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that Hawaii continues to face one of the highest per capita rates of homelessness in the nation. Many of these individuals are recent arrivals from out of state, placing additional strain on local outreach and shelter programs. The Return-to-Home Pilot Program, established by Act 94, Session Laws of Hawaii 2023, has successfully assisted over one hundred homeless individuals in voluntarily returning to their home states, reducing demand on local resources. Given its effectiveness, expanding the program with additional resources would further its impact. This measure establishes the Return-to-Home Program as a permanent initiative to ensure continued support for those seeking to return home.

Your Committee has amended this measure by:

- (1) Subjecting, rather than exempting, all entities competing for contracts in the program to a competitive procurement bidding process;
- (2) Adding additional requirements for an individual's participation in the Return-to-Home Program;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 212, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 212, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 434 Agriculture & Food Systems on H.B. No. 1450

The purpose of this measure is to establish and appropriate funds for a three-year Climate-Resilient Food Systems Grant Pilot Program to provide grants to agricultural producers in the State for the acquisition of special-purpose equipment, technology, and ancillary costs.

Your Committee received testimony in support of this measure from the Department of Agriculture; Office of Planning and Sustainable Development; Department of Research and Development of the County of Hawai'i; Hawai'i Farm Bureau; Hawai'i Farmers Union; Hawai'i Food+ Policy; 350Hawaii.org; and one individual.

Your Committee finds that Hawaii's agricultural sector faces increasing challenges due to high equipment costs, climate change, and global supply chain disruptions. To strengthen local food production and enhance resilience, farmers and ranchers require financial support to invest in climate-smart technology and infrastructure. By equipping local producers with these resources, this measure will improve farm efficiency and promote long-term food security.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$3,000,000.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1450, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1450, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 435 Agriculture & Food Systems on H.B. No. 1393

The purpose of this measure is to:

- (1) Require the Department of Agriculture to revitalize and enhance the Agricultural Statistics Program to collect data on local agricultural interests; and
- (2) Appropriate funds for program expenses and certain positions.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Research and Development of the County of Hawai'i; Ulupono Initiative; Hawai'i Farm Bureau; Hawai'i Farmers Union; Hawai'i Food+ Policy; and one individual. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that timely and accurate agricultural statistics are crucial for informed decision-making, policy development, and the long-term success of Hawaii's agricultural industry. By leveraging electronic data collection methods and expanding insights into local and imported agricultural goods, this measure will support producers in optimizing operations, expanding market reach, and increasing food security.

Your Committee has amended this measure by:

- (1) Clarifying provisions related to the exemption of certain data and information collected from public disclosure, under certain conditions;
- (2) Requiring, rather than authorizing, the Department of Agriculture to collaborate with national and local entities to enhance data collection, analysis, and reporting efforts;
- (3) Changing the appropriation and allocation amounts to unspecified amounts;
- (4) Changing the number of positions to unspecified numbers;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and

(6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$880,000, including \$170,000 for the establishment of two full-time equivalent (2.0 FTE) agricultural economist positions; \$280,000 for the establishment of four full-time equivalent (4.0 FTE) research statistician positions; \$130,000 for the establishment of secured office space, equipment, the development of electronic data collection systems, and program expenses throughout the State; and \$300,000 for contracted specialty surveys to be conducted by third-party entities focusing on critical agricultural data needs.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1393, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1393, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 436 Tourism on H.B. No. 1006

The purpose of this measure is to include agricultural tourism in the definition of "enterprise" to authorize the Agribusiness Development Corporation to financially support farming businesses engaged in agricultural tourism.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Business, Economic Development, and Tourism; Agribusiness Development Corporation; Hawai'i Farm Bureau; Hawai'i Farmers Union; Maui Chamber of Commerce; Hawai'i Food+ Policy; and one individual. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that agricultural tourism is an entrepreneurial strategy that offers local farmers, many of whom may qualify as small businesses, greater economic opportunities through direct sales to and interaction with visitors to the State and other customers, while allowing farmers to capitalize on Hawaii's unique regional identity.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1006, H.D. 1, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Matsumoto).

SCRep. 437 Higher Education on H.B. No. 1345

The purpose of this measure is to require the Board of Regents to grant a waiver on all tuition and mandatory fees to a resident student enrolled in the College of Education at the University of Hawaii at Manoa for the semester or term that the student enrolls in a state-approved teacher education program.

Your Committee received testimony in support of this measure from the Department of Education; Office of Hawaiian Affairs; and Hawai'i State Teachers Association. Your Committee received comments on this measure from the Department of Education and University of Hawai'i System.

Your Committee finds that this measure will incentivize more individuals to pursue a career in education in the State by alleviating the financial burden of tuition for attendance at the University of Hawaii at Manoa for individuals who enroll in the College of Education. Your Committee further finds that granting a waiver on all tuition and mandatory fees to a qualifying resident student enrolled at the University of Hilo and University of Hawaii West Oahu will further attract individuals to pursue an education degree in the State.

Accordingly, your Committee has amended this measure by:

- (1) Expanding the granting of a waiver on all tuition and mandatory fees to residents enrolled in a four-year college campus of the University of Hawaii with an education program or that offers an education degree for the semester or term that the student enrolls in a state-approved teacher education program; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1345, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1345, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Evslin, Muraoka).

SCRep. 438 Higher Education on H.B. No. 643

The purpose of this measure is to:

- (1) Establish short-term management initiatives for the Coconut Rhinoceros Beetle Response Program; and
- (2) Appropriate funds to support the Program's activities and positions.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; University of Hawai'i at Manoa College of Tropical Agriculture and Human Resilience; Hawaii Invasive Species Council; one member of the Kaua'i County Council; Office of Economic Development of the County of Kaua'i; Hawai'i Farmers Union United; Big Island Invasive Species Committee; Hawai'i Farm Bureau; and two individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the coconut rhinoceros beetle is a significant pest that poses a significant threat to Hawaii's agricultural landscape, particularly its coconut and palm populations. In response, the Coconut Rhinoceros Beetle Response Program was established to combat the growing population of coconut rhinoceros beetles. Your Committee believes that establishing short-term management initiatives for the Program is essential in protecting farms and natural resources in the State from this invasive species. Additionally, further funding for the Program will enable the implementation of immediate actions to manage and mitigate coconut rhinoceros beetles.

Your Committee has amended this measure by:

- (1) Inserting language establishing standards for the distribution of the funds appropriated to subsidize canopy treatment for residential palm owners;
- (2) Amending the preamble to declare that the management of coconut rhinoceros beetles is a matter of statewide concern; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 643, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 643, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Evslin, Muraoka).

SCRep. 439 Higher Education on H.B. No. 442

The purpose of this measure is to appropriate funds for various nursing programs of the University of Hawaii System.

Your Committee received testimony in support of this measure from the University of Hawai'i System; East Hawaii Region of Hawaii Health Systems Corporation; Hawai'i State Center for Nursing; Healthcare Association of Hawaii; and AlohaCare. Your Committee received comments on this measure from Academic Labor United and one individual.

Your Committee finds that growing demand for skilled nursing professionals is critical to addressing health care shortages and ensuring the well-being of the State's communities. Your Committee further finds that investing in nursing education programs of the University of Hawaii not only strengthens Hawaii's health care system but also supports economic growth, improves health outcomes, and enhances the State's capacity to provide equitable and accessible care for all residents.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified amounts;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider appropriating the following amounts:

- (1) \$447,936 for fiscal year 2025-2026 and fiscal year 2026-2027 for University of Hawaii, Manoa (UOH 100)-University of Hawaii, West Oahu nursing collaboration phase III;
- (2) \$111,984 for fiscal year 2025-2026 and fiscal year 2026-2027 for the University of Hawaii, Manoa (UOH 100) for the online RN to BS program;
- (3) \$424,364 for fiscal year 2025-2026 and fiscal year 2026-2027 for the University of Hawaii, West Oahu (UOH 700) for the pre-nursing pathway; and
- (4) \$297,500 for fiscal year 2025-2026 and \$595,000 for fiscal year 2026-2027 for the University of Hawaii at Hilo (UOH210) to increase its school of nursing cohort size.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 442, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 442, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Evslin, Muraoka).

SCRep. 440 Higher Education on H.B. No. 548

The purpose of this measure is to authorize the Board of Regents of the University of Hawai'i to issue revenue bonds and appropriate funds out of the revenue bond proceeds for the acquisition of the former Saint Francis School campus located at 2707 Pamoia Road in Honolulu.

Your Committee received testimony in support of this measure from the University of Hawai'i System and numerous individuals. Your Committee received testimony in opposition to this measure from the Avalon Group and two individuals.

Your Committee finds that the University of Hawaii is interested in the property previously owned by the St. Francis of the Neumann Communities and currently owned by the Avalon Group at 2707 Pamoia Road in Honolulu because of its close proximity to the University of Hawaii at Manoa campus and the potential integration of the property into its long-range development plan. Accordingly, this measure would allow the University to be prepared to pursue acquisition of the property if it becomes available for sale.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 548, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 548, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, 1 (Muraoka). Excused, none.

SCRep. 441 Economic Development & Technology on H.B. No. 1176

The purpose of this measure is to establish the Hawaii Economic Diversification Grant Program under the Hawaii Technology Development Corporation to provide grants to qualified high technology businesses engaging in qualified research activities.

Your Committee received testimony in support of this measure from Makai Ocean Engineering; Oceanit; PacMar Technologies; Hawaii Food Industry Association; Chamber of Commerce Hawaii; and one individual.

Your Committee finds that Hawaii's economy is heavily reliant on the tourism industry and that there is a need to support opportunities for economic diversification and the development of high technology businesses. This measure addresses this need by establishing the Hawaii Economic Diversification Grant Program to provide grants to qualified high technology businesses engaging in qualified research activities.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1176, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1176, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 442 Economic Development & Technology on H.B. No. 1370

The purpose of this measure is to amend the definition of draft beer to mean beer in an individual container of five gallons or more.

Your Committee received testimony in support of this measure from Lanikai Brewing Co.; Hana Koa Brewing Co.; Kauai Beer Company; Napali Brewing Company; Brewers Association; and Maui Brewing Co. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that beer that qualifies as draft beer, which is currently defined as beer in an individual container of seven gallons or more, is subject to a lower liquor tax rate. Your Committee further finds that this definition does not align with industry practices, as most retailers, restaurants, and bars dispense draft beer from kegs smaller than seven gallons. This measure addresses this issue by amending the definition of draft beer to mean beer in an individual container of five gallons or more.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1370, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1370, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 443 Economic Development & Technology on H.B. No. 1372

The purpose of this measure is to increase the amount of manufactured liquor or other alcoholic beverages that a small craft producer pub license holder may produce.

Your Committee received testimony in support of this measure from Kauai Beer Company; Napali Brewing Company; and Maui Brewing Co.

Your Committee finds that existing law limits the amount of liquor and other alcoholic beverages that can be manufactured by licensed small craft producer pubs. This measure increases these production limits, thereby enabling small craft producer pubs to expand, support local agriculture, create more jobs, and contribute more to the local economy.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1372, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1372, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 444 Health/Human Services & Homelessness on H.B. No. 237

The purpose of this measure is to appropriate funds for the establishment and oversight of peer-to-peer support programs for children from birth to age five and their families.

Your Committees received testimony in support of this measure from the Office of Wellness and Resilience; Department of Health; Commit to Keiki; Hawai'i Children's Action Network Speaks!; Hawai'i Health & Harm Reduction Center; Family Hui Hawai'i; Association for Infant Mental Health in Hawai'i; AlohaCare; and numerous individuals. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that peer-to-peer support programs for families with young children increase the exchange of information between parents with shared experiences, provide parents and caregivers with screening and referrals to other services, and reduce social isolation. Your Committees further find that peer-to-peer support programs are a cost-effective means of reducing negative parenting practices, connecting victims of intimate partner violence to appropriate support, and encouraging completion of substance use disorder programs. Your Committees believe that investing in peer-to-peer support programs for families with young children will increase savings in the long term and provide the State's children with a solid foundation for life.

Your Committees have amended this measure by:

- (1) Changing the appropriation and position counts to unspecified amounts; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

Your Committees respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$860,000, to be allocated as follows:

- (1) \$200,000 for one full-time equivalent program specialist V position and one full-time equivalent program specialist IV position;
- (2) \$270,000 for purchase of service contracts with neighborhood or location peer-to-peer based groups; and
- (3) \$390,000 for purchase of service contracts for addiction and child welfare peer support programs.

As affirmed by the records of votes of the members of your Committees on Health and Human Services & Homelessness that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 237, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 237, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 9. Noes, none. Excused, none.

Human Services & Homelessness: Ayes, 9. Noes, none. Excused, none.

SCRep. 445 Health on H.B. No. 872

The purpose of this measure is to authorize health care practitioners to make undesignated prescriptions for epinephrine for the purpose of stocking a supply at various types of business and state and county government offices, including public schools.

Your Committee received comments on this measure from the Department of Education and Department of Health.

Your Committee finds that anaphylaxis is a life-threatening allergic reaction that is characterized by rapid onset and the involvement of multiple organ systems. Individuals who are unaware of an allergy or who have had only mild allergic reactions in the past may suddenly experience a life-threatening reaction. Your Committee further finds that the first-line treatment for anaphylaxis is the timely administration of epinephrine, which reduces the risk of fatal or debilitating outcomes associated with anaphylaxis. This measure is intended to improve survival rates and health outcomes for persons affected by severe allergies by allowing various entities to stock a supply of undesignated epinephrine.

Your Committee notes the concerns of the Department of Health in their written testimony regarding the potential costs and administrative responsibilities associated with this measure. Your Committee appreciates these concerns but notes that this measure is discretionary and not a requirement on the Department of Health or practitioners.

Your Committee has amended this measure by:

- (1) Replacing all references of "auto-injectable epinephrine" with "single-use epinephrine";
- (2) Clarifying that instruction in the administration of single-use epinephrine given to state and county employees and agents shall be by a practitioner or registered nurse;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 872, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 872, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 446 Health on H.B. No. 1092

The purpose of this measure is to amend third party liability provisions for Medicaid programs for payment as required under the federal Consolidated Appropriations Act, 2022.

Your Committee received testimony in support of this measure from the Department of Human Services.

Your Committee finds that updates to state law are necessary to conform to new third party liability requirements included in the federal Consolidated Appropriations Act, 2022. This measure requires liable third-party payers to be responsible for reimbursing Medicaid providers based on the standards of the Medicaid program and prohibits providers from denying payment based on other standards.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1092, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1092, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 447 Health on H.B. No. 1120

The purpose of this measure is to clarify the legal authority of the Department of Health to prevent and address nuisances that threaten public or environmental health, or both.

Your Committee received testimony in support of this measure from the Department of Health and one individual. Your Committee received testimony in opposition to this measure from five individuals.

Your Committee finds that the scope of nuisances overseen by the Department of Health is overly broad, as it encompasses all health, which leads to ambiguity as to the Department's role in addressing nuisances. It is therefore in the interest of public health and safety to clarify that the Department of Health's oversight is specifically for nuisances that threaten public health, environmental health, or both.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1120, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1120, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 448 Health on H.B. No. 1282

The purpose of this measure is to lower the minimum age for a certified caregiver for an adult foster home from twenty-one to eighteen.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities; ILWU Local 1000; Sebastian's ARCH LLC; Providing Healthy Homecare for Hawaii - PH3; and six individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that the children of families who run adult foster homes often grow up alongside the residents, resulting in young adults who have a unique bond with the individuals they care for. Your Committee further finds that the individuals often need part-time jobs to help support their families. Lowering the minimum age for a certified caregiver for an adult foster family home to eighteen will enable adult foster homes to address staffing shortages and enable these young adults to make a meaningful contribution to their community.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1282, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1282, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 449 Health on H.B. No. 1109

The purpose of this measure is to protect public health and ensure responsible consumption of hemp-derived products by prohibiting the sale or offer for sale or distribution of any manufactured hemp product to individuals under the age of twenty-one.

Your Committee received testimony in support of this measure from the Department of Health. Your Committee received testimony in opposition to this measure from Retail Merchants of Hawaii; VNV Holdings; Hawaiian Choice; and three individuals. Your Committee received comments on this measure from Hemptuary Hawaii.

Your Committee finds that use of untested and unapproved drugs, such as hemp-derived cannabinoid products, can have unpredictable and unintended consequences, particularly on children due to the differences in how their bodies absorb, metabolize, and distribute these substances. Your Committee further finds that the United States Food and Drug Administration has consistently determined that cannabidiol, more commonly known as CBD, and tetrahydrocannabinol, whether derived from hemp or cannabis, is not allowed as a dietary supplement or food under federal law. Your Committee believes that raising the minimum age for purchase of manufactured hemp products will protect the health and safety of consumers in Hawaii.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1109, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1109, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, 2 (Alcos, Garcia). Excused, none.

SCRep. 450 Health on H.B. No. 1389

The purpose of this measure is to appropriate funds to the City and County of Honolulu for the expansion of the feral chicken program and the Vector Control Branch of the Department of Health for a statewide education campaign for the feeding of feral animals.

Your Committee received testimony in support of this measure from the Department of Health; Department of Land and Natural Resources; Department of Customer Services, City and County of Honolulu; and Hawai'i Farm Bureau. Your Committee received testimony in opposition to this measure from three individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that feral animals threaten local ecosystems and can transmit diseases that affect humans and native species. Your Committee further finds that feeding feral animals increases feral populations, often to the detriment of the welfare of the feral animals, environment, and human health. Your Committee believes that providing financial support to expand county feral animal programs and educating residents and visitors on the harmful effects of feeding feral animals is vital to protect the health and safety of Hawaii's environment and its people.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests the Department of Health to provide an estimate of program costs necessary for this measure to your Committee on Finance, should it deliberate on this measure.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1389, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1389, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, 1 (Garcia). Excused, none.

SCRep. 451 Health on H.B. No. 866

The purpose of this measure is to require, and appropriate funds for, the Department of Health to stockpile a one-year supply of mifepristone.

Your Committee received testimony in support of this measure from one member of the Hawai'i County Council; AAUW of Hawaii; Democratic Party of Hawai'i; Indivisible Hawai'i; Democratic Party of Hawai'i Women's Caucus; American College of Obstetricians and Gynecologists; Democratic Party of Hawai'i Education Caucus; Hawai'i Public Health Institute; Fujiwara & Rosenbaum LLC; and numerous individuals. Your Committee received testimony in opposition to this measure from five individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that developments in the nation's legal landscape threaten the reproductive health care rights of people in Hawaii. Legislative efforts and legal challenges from anti-abortion State lawmakers on the mainland could lead to nationwide restrictions and potential federal actions could be used to

ban mifepristone throughout the country. Your Committee further finds that by stockpiling mifepristone, the State ensures continued access to medication-based abortions, especially given limited in-person services and potential supply chain disruptions. This measure reinforces the State's longstanding commitment to privacy, bodily autonomy, and reproductive rights.

Your Committee notes the appropriation amount of \$75,000 in this measure for the purchase of mifepristone and respectfully requests the Department of Health to develop a storage and distribution plan, particularly for neighbor islands.

Your Committee has amended this measure by:

- (1) Providing the Department of Health with the flexibility to coordinate the stockpiling of mifepristone in quantities no less than a one-year supply;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 866, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 866, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, 2 (Alcos, Garcia). Excused, none.

SCRep. 452 Public Safety on H.B. No. 1062

The purpose of this measure is to:

- (1) Allow the head of the Hawaii Air National Guard to hold the rank authorized by the United States Department of the Air Force, which is currently major general;
- (2) Provide the Adjutant General with the flexibility to assign either the Chief of Staff or the Assistant Adjutant General to lead the Hawaii Air National Guard; and
- (3) Authorize the pay and allowances for the Chief of Staff of the Hawaii Air National Guard to be determined according to the pay tables of the regular Air Force of the United States.

Your Committee received testimony in support of this measure from the Department of Defense; Hawaii Air National Guard; and one individual.

Your Committee finds that this measure streamlines the chain of command and provides the Adjutant General with the flexibility to appoint either the Chief of Staff or the Assistant Adjutant General-Air to head the Hawaii Air National Guard.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1062, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1062, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 2 (Lamosao, Woodson).

SCRep. 453 Public Safety on H.B. No. 674

The purpose of this measure is to authorize the payment of allowances for TRICARE, TRICARE Dental Program, and vision coverage to all officers, warrant officers, and enlisted personnel of the Hawaii National Guard ordered to active duty for more than thirty days.

Your Committee received testimony in support of this measure from the Department of Defense; Hawaii National Guard; and one individual.

Your Committee finds that it is essential to ensure that Hawaii National Guard servicemembers receive necessary medical care when they are called to serve on state active duty for more than thirty days, especially during disasters or domestic crises. These servicemembers who make significant sacrifices to selflessly protect and serve the people of Hawaii deserve this vital coverage for their health and well-being.

Your Committee has amended this measure by changing its effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 674, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 674, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 1 (Woodson).

SCRep. 454 Public Safety on H.B. No. 628

The purpose of this measure is to authorize the Department of Education to establish a program to award high school diplomas to persons:

- (1) Who did not receive a diploma as a result of compulsory or voluntary induction into the United States armed services during certain time periods; or
- (2) Whose high school education was interrupted due to wartime practices during World War II, the Korean War, or the Vietnam War.

Your Committee received testimony in support of this measure from the Department of Education; Office of Veterans Services; Hawaii Military Affairs Council; and one individual. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that compulsory or voluntary induction into active service in the armed services of the United States and the implementation of other wartime practices caused the interruption of many individuals' education. Your Committee further finds that the establishment of a program to award high school diplomas to these individuals recognizes their service and sacrifice.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 628, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 2 (Hashem, Ichiyama).

SCRep. 455 Public Safety on H.B. No. 1058

The purpose of this measure is to establish the Veterans Cemeteries Board within the Office of Veterans Services of the Department of Defense to provide veterans cemeteries in the State with guidance, education, technical assistance, and other support to ensure compliance with standards set by the National Cemetery Administration of the United States Department of Veterans Affairs.

Your Committee received testimony in support of this measure from the Department of Defense; Office of Veterans Services; and one individual.

Your Committee finds that the final resting places of eligible veterans, active-duty servicemembers, and their eligible family members should reflect Hawaii's appreciation and gratitude for their service and sacrifice to the State and nation.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1058, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1058, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 1 (Woodson).

SCRep. 456 Public Safety on H.B. No. 503

The purpose of this measure is to appropriate funds for the Department of Accounting and General Services to engage a consultant to evaluate potential sites and designs for the Hawaii First Responders Memorial.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services; Office of the Mayor of the City and County of Honolulu; County of Kaua'i Fire Department; a member of the Honolulu City Council; United Public Workers, AFSCME Local 646, AFL-CIO; and one individual.

Your Committee finds that it is important to create a suitable memorial to serve as a lasting tribute to Hawaii first responders who have selflessly served their community and made the ultimate sacrifice.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider appropriating \$100,000 to hire a consultant to evaluate potential locations and designs for a Hawaii First Responders Memorial.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 503, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 503, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 9; Ayes with Reservations (Shimizu). Noes, none. Excused, 1 (Woodson).

SCRep. 457 Public Safety on H.B. No. 1158

The purpose of this measure is to limit the civil liability of individuals who render firefighting services with a firefighting vessel, upon reasonable command, at any of the State's commercial harbors or roadsteads, any commercial harbor or waterfront improvement belonging to or controlled by the State, or any vessel within a commercial harbor or roadstead to only damages resulting from the individual's gross negligence or wanton acts or omissions.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that this measure provides legal protection to private individuals who can assist county fire departments in certain situations by limiting their liability, except for damages resulting from gross negligence or wanton acts or omissions.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1158, H.D. 1, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 2 (Hashem, Ichiyama).

SCRep. 458 Public Safety on H.B. No. 1159

The purpose of this measure is to:

- (1) Require masters or persons in charge of vessels to follow an order by a harbor master to evacuate a commercial harbor during emergencies;
- (2) Establish higher penalties for noncompliance with evacuation orders; and
- (3) Require fines collected for violations to be paid into the Harbor Special Fund.

Your Committee received testimony in support of this measure from the Department of Transportation and Hawai'i Emergency Management Agency. Your Committee received comments on this measure from the Hawai'i Harbors Users Group.

Your Committee finds that during times of emergency, it is essential that commercial harbor users evacuate the State's commercial harbors when ordered to do so by the harbor master.

Your Committee notes the concerns raised in written testimony that smaller vessels may face danger if required to evacuate and be forced out into the open sea.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1159, H.D. 1, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Iwamoto, Shimizu). Noes, none. Excused, 2 (Hashem, Ichiyama).

SCRep. 459 Public Safety/Transportation on H.B. No. 657

The purpose of this measure is to exempt disabled veterans from the State's vehicle weight tax and repeal the exemption for disabled veterans from the State's annual vehicle registration fee.

Your Committees received testimony in support of this measure from the Veterans of Foreign Wars - Department of Hawai'i; Hawaii Military Affairs Council; Hawaii National Guard Enlisted Association; and five individuals. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that many disabled veterans in Hawaii live on fixed incomes yet face an ever-rising cost of living, which makes assistance through the reduction of a recurring financial burden particularly helpful.

Your Committees have amended this measure by:

- (1) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Public Safety and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 657, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 657, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chairs on behalf of the Committees.

Public Safety: Ayes, 9; Ayes with Reservations (Iwamoto). Noes, none. Excused, 1 (Woodson).

Transportation: Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 460 Education on H.B. No. 838

The purpose of this measure is to:

- (1) Increase the bonus for teachers who achieve and maintain a current national board certification from \$5,000 to \$10,000; and
- (2) Appropriate funds to fund the teacher bonuses.

Your Committee received testimony in support of this measure from the Hawai'i Teacher Standards Board; State Public Charter School Commission; Hawai'i State Teachers Association; and numerous individuals. Your Committee received testimony in opposition to this measure from the Office of Collective Bargaining. Your Committee received comments on this measure from the Department of the Attorney General and Department of Education.

Your Committee finds that, according to the National Board for Professional Teaching Standards, Hawaii currently has 789 total National Board Certified Teachers, with 345 more individuals pursuing this prestigious distinction. Your Committee further finds that the process of seeking National Board Certification is rigorous and often referred to as the most effective professional development that a teacher can go through. Your Committee believes that incentivizing teachers to pursue National Board Certification Teacher status will encourage more teachers to pursue the rigorous process while also encouraging them to stay in the State.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated to an unspecified amount;
- (2) Changing the effective date to July 1, 3000; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 838, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 838, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 461 Education on H.B. No. 1499

The purpose of this measure is to authorize public school employees or agents who have completed appropriate training to act as volunteer substitutes to administer medications to students.

Your Committee received testimony in support of this measure from the Department of Education; Department of Health; University of Hawai'i at Mānoa School of Nursing and Dental Hygiene; University of Hawai'i at Mānoa John A. Burns School of Medicine; Hawai'i State Center for Nursing; Environmental Caucus of the Democratic Party of Hawai'i; and nine individuals.

Your Committee finds that school health assistants may administer medications to students in state public schools. However, due to vacancies, many schools face challenges in meeting the needs of students who are prescribed medications or may benefit from receiving medications in emergency situations while on campus. Your Committee believes that school staff acting as volunteers can be an effective substitute for school health assistants after completing training and general instruction in certain tasks.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1499, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1499, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 462 Education on H.B. No. 961

The purpose of this measure is to:

- (1) Establish a two-year pilot program for two certified librarians to provide rotating support services to schools in one school complex on Oahu and one school complex on a neighbor island; and
- (2) Appropriate funds for the certified librarian positions.

Your Committee received testimony in support of this measure from the Hawai'i State Teachers Association; Hawai'i Library Association; Hawai'i Association of School Librarians; and numerous individuals. Your Committee received testimony in support of the intent of this measure from the Department of Education.

Your Committee finds that out of the two hundred fifty-eight public elementary, middle, intermediate, and high schools throughout Hawaii, only seventy-five have a full-time or part-time librarian position filled to support student learning in 2025. Your Committee further finds that establishing a pilot program to provide rotating support services provided by a certified librarian between schools will help bolster library services in the State.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated and the number of positions to be funded to unspecified amounts;
- (2) Changing the effective date to July 1, 3000; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$132,308, to be allocated as follows:

- (1) \$66,154 for one twelve-month state office-level teacher position, to be filled by a certified librarian, for a school complex on Oahu; and
- (2) \$66,154 for one twelve-month state office-level teacher position, to be filled by a certified librarian, for a school complex on an island other than Oahu.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 961, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 961, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 463 Education on H.B. No. 962

The purpose of this measure is to require the Department of Education to establish and administer a two-year school librarian pilot program to provide financial support to Department of Education schools for the hiring of qualified librarians.

Your Committee received testimony in support of this measure from the Hawai'i State Teachers Association; Hawai'i Library Association; Hawai'i Association of School Librarians; and numerous individuals. Your Committee received testimony in support of the intent of this measure from the Department of Education.

Your Committee finds that a well-equipped and staffed library is essential for fostering student learning, personal growth, and academic success. Your Committee further finds that only twenty-four percent of Hawaii's public schools are staffed with licensed school librarians. This measure establishes a pilot program to provide funding for schools to hire qualified librarians and provide students of the State with a key resource to succeed through school librarians.

Your Committee has amended this measure by changing the effective date to July 1, 3000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 962, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 962, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 464 Education on H.B. No. 730

The purpose of this measure is to establish and appropriate funds for five full-time equivalent positions within the Civil Rights Compliance Branch of the Department of Education.

Your Committee received testimony in support of this measure from the Department of Education; Hawai'i Children's Action Network Speaks!; Fujiwara & Rosenbaum, LLC; American Association of University Women of Hawai'i; and numerous individuals.

Your Committee finds that complying with and upholding state and federal civil rights laws is an important responsibility of the Department of Education. Your Committee further finds that additional staff and funding are needed for the Department of Education to better comply with and uphold state and federal civil rights laws.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 730, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 730, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 465 Education on H.B. No. 754

The purpose of this measure is to appropriate funds to the Department of Education for community schools, including for one full-time equivalent program manager position.

Your Committee received testimony in support of this measure from the Hawai'i State Teachers Association; Pacific Resources for Education and Learning; YMCA of Honolulu; University of Hawaii Place-based Afterschool Literacy Support Team; Ceeds of Peace; Hawai'i Children's Action Network Speaks!; Democratic Party of Hawai'i Education Caucus; Harold K.L. Castle Foundation; Hawai'i Afterschool Alliance; and eight individuals. Your Committee received testimony in support of the intent of this measure from the Department of Education. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that community schools help align and leverage resources already in the community to address students' barriers to learning. Community schools are a proven, time-tested strategy that can produce short-term results, including improving family engagement and attendance and decreasing behavioral referrals, and long-term results like improving academic scores, school culture and climate, student enrollment, teacher retention, and graduation rates. This measure will provide funding for community schools to ensure high-quality educational opportunities and improved educational outcomes for students through the support and input from families of students and the local community.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 754, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 754, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 466 Education on H.B. No. 1069

The purpose of this measure is to add two voting members that represent the Department of Education and Board of Education to the School Facilities Board.

Your Committee received testimony in support of this measure from the Board of Education and Department of Education. Your Committee received comments on this measure from the School Facilities Authority.

Your Committee finds that adding two voting members that represent the Department of Education and Board of Education to the School Facilities Board is necessary to ensure that the planning and development of school facilities in Hawaii by the School Facilities Authority are closely aligned with the educational goals and priorities of the State's public education system.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1069, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1069, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 467 Education on H.B. No. 636

The purpose of this measure is to establish and appropriate funds for a school capital improvement project modernization initiative in the School Facilities Authority to create a planning database for school facilities.

Your Committee received testimony in support of this measure from the School Facilities Authority; Hawai'i State Teachers Association; Environmental Caucus of the Democratic Party of Hawai'i; Lou's Quality Home Health Care Services, LLC; and Philippine Nurses Association of Hawaii. Your Committee received comments on this measure from the Department of Education; Department of the Attorney General; and Department of Budget and Finance.

Your Committee finds that construction is historically expensive in Hawaii and that the industry has faced challenges related to the lingering impacts of the COVID-19 pandemic. The amount of money the State spends on school-related construction and the reasons for such spending need to be informed and justified. Your Committee believes that a planning database can help inform spending and prioritization of capital improvement projects for school facilities in the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 636, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 636, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 468 Education on H.B. No. 987

The purpose of this measure is to:

- (1) Establish the State Procurement Automation System Special Fund to receive transaction fees from the procurement automation system to pay for the system's administration, management, operation, maintenance, and upgrade; and
- (2) Add the School Facilities Authority Executive Director as a chief procurement officer.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services and State Procurement Office.

Your Committee finds that in 2022, the Legislature authorized a procurement automation system and authorized the State Procurement Office to implement a transaction fee on vendors to pay for the administration of the system. However, the Legislature did not authorize a special fund into which to deposit the transaction fees collected. Until a special fund is established, the vendor contracted to implement the procurement automation system collects the fees and holds the funds in trust for the State. This measure will establish a special fund to hold these transaction fees and ensure that the fees deposited into the special fund will be administered by the State Procurement Office.

Your Committee further finds that when the School Facilities Authority was established under Act 72, Session Laws of Hawaii 2020, the Executive Director of the School Facilities Authority was mandated to serve as the Authority's Chief Procurement Officer. This measure will provide clarity by explicitly adding the Executive Director of the School Facilities Authority to the list of chief of procurement officers.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 987, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 987, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 469 Education on H.B. No. 902

The purpose of this measure is to appropriate funds to the Department of Education to conduct a study on methods that will help support schools impacted by the Hawaiian Electric Company's Planned Public Safety Power Shutoff program.

Your Committee received testimony in support of this measure from the Department of Education; Public Utilities Commission; and Hawaiian Electric.

Your Committee finds that the Hawaiian Electric Company's Planned Public Safety Power Shutoff (PSPS) Program, implemented on July 1, 2024, aims to reduce wildfire risks by proactively shutting off power in high-risk areas during specific weather conditions. While the PSPS Program is critical for public safety, the program's implementation poses significant operational challenges for public schools and may disrupt essential services at the schools. Currently, fifteen Department of Education schools and one public charter school are identified as vulnerable to PSPS events.

Your Committee believes that maintaining school operations during PSPS events is vital to ensuring educational continuity, providing access to meals, and sustaining a sense of normalcy for students. This measure will provide funding for a study that will give further insight on ways to support schools that may be impacted by the PSPS Program.

Your Committee notes that electric utility public safety power shutoffs may affect parts of Kauai County and believes that the study as required by this measure should encompass counties that are not provided electricity by the Hawaiian Electric Company.

Your Committee has accordingly amended this measure by:

- (1) Clarifying that the appropriation to the Department of Education shall be used to conduct a study on methods to support Department schools that may be impacted by electric utilities' planned public safety power shutoff program;
- (2) Amending the preamble to reflect its amended purpose;
- (3) Changing the effective date to July 1, 3000; and
- (4) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 902, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 902, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, 1 (Muraoka). Excused, none.

SCRep. 470 Higher Education on H.B. No. 441

The purpose of this measure is to increase the cigarette tax beginning July 1, 2025, and allocate the increase in the cigarette tax amount to be deposited into the Hawaii Cancer Research Special Fund.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of Health; University of Hawaii Cancer Center; Hawaii Substance Abuse Coalition; Hina Mauka; Hawaii Medical Association; Hawai'i Pacific Health; Waianae Coast Comprehensive Health Center; Campaign for Tobacco-Free Kids; The Queen's Health Systems; Coalition for a Tobacco-Free Hawai'i; American Cancer Society Cancer Action Network; Hawai'i Health & Harm Reduction Center; American Lung Association; Kobayashi Group; and numerous individuals. Your Committee received testimony in opposition to this measure from Japan Tobacco International U.S.A., Inc.; Hawaii Smokers Alliance; Marukin Market; BMA Mart; Cigar Association of America; Wawa Market; Kilani Market; and seven individuals. Your Committee received comments on this measure from the Department of Taxation; Tax Foundation of Hawaii; and Tax Foundation.

Your Committee finds that funding from the cigarette tax has been instrumental since the Hawaii Cancer Research Special Fund's inception in 2006, enabling the construction of the University of Hawaii Cancer Center building and the launching of strategic initiatives to combat cancer. However, due to the success of smoking cessation efforts, this allocation has declined, indicating both progress in public health and a concerning decrease in resources for the initiatives that have fueled this advancement. Your Committee believes that an increase in the cigarette tax will restore funding for the University of Hawaii Cancer Center and expand its capacity to conduct groundbreaking research and deliver patient care to save more lives across the State.

Your Committee has amended this measure by:

- (1) Changing the cigarette tax amount and dispositions of the cigarette tax revenue to unspecified amounts; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider:

- (1) Establishing a tax rate of 18.00 cents for each cigarette or little cigar sold, used, or possessed by a wholesaler or dealer on and after July 1, 2025; and
- (2) After June 30, 2025, depositing the following amounts from the cigarette tax revenue into the appropriate special funds:
 - (A) 4.0 cents per cigarette to be deposited to the credit of the Hawaii Cancer Research Special Fund;
 - (B) 1.125 cents per cigarette, but no more than \$7,400,000 in a fiscal year, to be deposited to the credit of the Trauma System Special Fund;
 - (C) 1.25 cents per cigarette, but no more than \$8,800,000 in a fiscal year, to be deposited to the credit of the Community Health Centers Special Fund; and
 - (D) 1.25 cents per cigarette, but no more than \$8,800,000 in a fiscal year, to be deposited to the credit of the Emergency Medical Services Special Fund.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 441, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 441, H.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Evslin, Muraoka).

SCRep. 471 Higher Education on H.B. No. 1085

The purpose of this measure is to:

- (1) Increase the tax rates for cigarettes and little cigars, beginning January 1, 2026;
- (2) Amend the disposition of tax revenues to certain special funds, beginning July 1, 2025; and
- (3) Expand the disposition of tax revenues to the various special funds to include all revenues collected from all tobacco product taxes.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of Health; University of Hawaii Cancer Center; State Health Planning and Development Agency; Healthcare Association of Hawaii; Hawaii Substance Abuse Coalition; Hawaii Medical Association; Hawai'i Pacific Health; Hawaii COPD Coalition; The Queen's Health Systems; Coalition for a Tobacco-Free Hawai'i; American Cancer Society Cancer Action Network; Hawai'i Health & Harm Reduction Center; American Lung Association; and numerous individuals. Your Committee received testimony in opposition to this measure from Japan Tobacco International U.S.A., Inc.; Hawaii Smokers Alliance; Cigar Association of America; Americans for Tax Reform; and three individuals. Your Committee received comments on this measure from the Department of Taxation; Tax Foundation of Hawaii; and Tax Foundation.

Your Committee finds that cigarette tax revenue has progressively declined since its inception, which has affected funding for many critical health care services and programs of the State, including funding for the University of Hawaii Cancer Center. Your Committee further finds that increasing the tax on cigarettes and expanding the allocation of revenues to the special funds that support these important health care services and programs to include tax collected from all tobacco products will ensure that these services and programs are sufficiently funded.

Your Committee has amended this measure by changing the tax rate for cigarettes and little cigars, as well as the disposition amounts of the tobacco product tax revenue, to unspecified amounts.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider:

- (1) Establishing a tax rate of 21.00 cents for each cigarette or little cigar sold, used, or possessed by a wholesaler or dealer on and after January 1, 2026; and
- (2) Beginning July 1, 2025, depositing the following amounts from the tobacco product tax revenue into the appropriate special funds:
 - (A) Twenty-five percent or \$14,080,000, whichever is less, to be deposited to the credit of the Hawaii Cancer Research Special Fund;
 - (B) Twenty-five percent or \$7,400,000, whichever is less, to be deposited to the credit of the Trauma System Special Fund;
 - (C) Twenty-five percent or \$8,800,000, whichever is less, to be deposited to the credit of the Community Health Centers Special Fund; and
 - (D) Twenty-five percent or \$8,800,000, whichever is less, to be deposited to the credit of the Emergency Medical Services Special Fund.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1085, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 1085, H.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Evslin, Muraoka).

SCRep. 472 Labor on H.B. No. 430

The purpose of this measure is to:

- (1) Establish an on-the-job training work experience program for eligible interns that partners with private entities to increase opportunities for high school and college and university students to participate in summer internship programs;
- (2) Establish internships with private sector employers through a cost-sharing strategy; and
- (3) Appropriate funds to the Department of Labor and Industrial Relations for the purposes administering this program.

Your Committee received testimony in support of this measure from the Department of Education; Department of Labor and Industrial Relations; University of Hawai'i System; Hawai'i State Council on Developmental Disabilities; Chamber of Commerce Hawaii; Hawaii Food Industry Association; Hawai'i P-20 Partnerships for Education; Healthcare Association of Hawaii; Kohala Coast Resort Association; Kapolei Chamber of Commerce; and Maui Chamber of Commerce. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that internship and mentorship programs give students the chance to build communication skills, relationships, and confidence, while gaining valuable work experience that will build a stronger workforce. Your Committee further finds that expanding state-funded internships to include private-sector positions will benefit the State by promoting economic growth, fostering public-private collaborations, and supporting job creation. Your Committee believes that this measure will create opportunities for interns to gain practical work experience and prepare for their future careers.

Your Committee has amended this measure by:

- (1) Allowing an extension of up to eight weeks for high school students during the summer break;
- (2) Excluding from eligibility apprentices who are in a registered apprenticeship program;
- (3) Requiring interns to pass a criminal background check;
- (4) Requiring employers will provide equitable conditions to interns as they do to regular employees;
- (5) Requiring employers to consult with the Department of Education to obtain assistance for an intern who requires support services to complete a task;
- (6) Increasing the maximum of working hours for high school student during the summer break to forty hours;
- (7) Limiting the maximum working hours for college students who are enrolled in at least two college courses;
- (8) Clarifying the intent for workers' compensation coverage for students by the State is for the proposed internship program;
- (9) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 430, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 430, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 473 Labor on H.B. No. 827

The purpose of this measure is to expand workers' compensation coverage to include firefighters who develop cancer or diseases in the discharge of their firefighting duties.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Hawaii Fire Fighters Association; and two individuals.

Your Committee finds that firefighters have a 9 percent greater chance of being diagnosed with cancer and a 14 percent greater chance of dying from cancer than the general United States population. Your Committee also finds that firefighters are constantly inhaling and ingesting carcinogens from fire combustion which put them at high risk for developing diseases later in life. Your Committee believes that this measure ensures support for firefighters by providing workers' compensation benefits to those who develop cancer or diseases resulting from firefighting duties.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 827, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 827, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 474 Labor on H.B. No. 423

The purpose of this measure is to:

- (1) Clarify the process for selecting a certified provider of rehabilitation services; and
- (2) Require providers to automatically approve vocational rehabilitation services for an injured employee if those services will likely be required for suitable gainful employment.

Your Committee received testimony in support of this measure from the Department of Human Resources Development; American Property Casualty Insurance Association; and Hawaii Insurers Council. Your committee received comments on this measure from the Department of the Attorney General and Department of Labor and Industrial Relations.

Your Committee finds that early intervention is vital to ensure the efficient and effective rehabilitation of employees who suffer a work-related injury. Your Committee also finds that employees who participate in vocational rehabilitation services have better recovery outcomes and can return to work earlier than if they had not participated in rehabilitation. Your Committee further finds that the existing process hinders the success of recovery from an injury because there is a lengthy approval process for the injured employee to be referred to vocational rehabilitation. Your Committee believes that this measure maximizes the chances of a successful recovery for the injured employee so that they can return to work with minimal limitations and minimizes costs for employers and insurers.

Your Committee amended this measure by:

- (1) Clarifying the voluntary basis of the vocational rehabilitation program;
- (2) Clarifying when the thirty days begins for an injured employee to choose a provider;
- (3) Adding statutory language to align this measure with title 34 Code of Federal Regulations section 361.45(e) related to when a provider must file the employee's plan of employment;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 423, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 423, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 475 Labor on H.B. No. 162

The purpose of this measure is to:

- (1) Authorize the Hawai'i Labor Relations Board to include the Federal Mediation and Conciliation Service in their request to the American Arbitration Association to furnish a list of five qualified interest arbitrators, to mediate labor disputes; and
- (2) Clarify that the list of five interest arbitrators may contain interest arbitrators from the American Arbitration Association and the Federal Mediation and Conciliation Service, or its successors.

Your Committee received testimony in support of this measure from the Hawaii State AFL-CIO; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and United Public Workers, AFSCME Local 646, AFL-CIO. Your Committee received comments on this measure from the Hawai'i Labor Relations Board.

Your Committee finds that the American Arbitration Association is the only organization that is authorized to furnish a list of five neutral interest arbitrators to mediate impasses during labor disputes. Your Committee believes that expanding the pool of qualified and experienced interest arbitrators to be chosen from can ensure fairness and efficiency to resolve labor disputes.

Your Committee amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 162, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 162, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 476 Labor on H.B. No. 202

The purpose of this measure is to amend the definition of "adequate reserve fund" to specify the multipliers used in the calculation of the adequate reserve fund for calendar years 2026 through 2030.

Your Committee received testimony in support of this measure from Department of Labor and Industrial Relations. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that it is important to ensure that the Unemployment Trust Fund has enough solvency to dispense unemployment insurance benefits, especially during times of economic crises. Your Committee also finds that in 2007 the multiplier used to calculate the adequate reserve fund was changed from 1.50 percent to 1 percent, which resulted in inadequate reserves during the COVID-19 pandemic when unemployment was high, which further led to the Unemployment Reserve Fund having to borrow \$700,000,000 from the United States Department of Labor to pay unemployment insurance benefits. Your Committee believes that incrementally readjusting the multipliers to calculate the adequate reserve fund to 1.50 percent would strengthen the Unemployment Trust Fund against high unemployment rates during economic crises.

Your Committee has amended this measure by:

- (1) Using the multiplier of 1.25 percent only for calendar year 2026;
- (2) Using the multiplier of 1.50 percent starting in calendar year 2027 and thereafter;
- (3) Changing the effective date to January 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 202, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 202, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 477 Labor on H.B. No. 165

The purpose of this measure is to authorize the Hawai'i Labor Relations Board to enforce its own orders.

Your Committee received testimony in support of this measure from the Hawai'i Labor Relations Board. Your Committee received testimony in opposition to this measure from the Department of the Attorney General.

Your Committee finds it important to clarify that the Hawaii Labor Relations Board has the authority to enforce its own orders. Your Committee also finds that under existing law the Hawaii Labor Relations Board is authorized to conduct proceedings on complaints of prohibited or unfair practices and take action as it deems necessary and proper. Therefore, your Committee believes it is appropriate to authorize the Hawaii Labor Relations Board to enforce such actions, as it relates to proceedings on complaints of prohibited practices by employers, employees, and employee organizations.

Your Committee amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 165, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 165, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 478 Labor on H.B. No. 164

The purpose of this measure is to:

- (1) Require disbursing officers to notify employees within sixty days of determining that an indebtedness has occurred as a result of salary or wage overpayment; and
- (2) Change the amount that a disbursing officer may deduct from an employee's salary, wage, or compensation based on the employee's gross income.

Your Committee received testimony in support for this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and United Public Workers, AFSCME Local 646, AFL-CIO. Your Committee received comments on this measure from the Department of Accounting and General Services.

Your Committee finds that the State and counties will mistakenly overpay an employee, and seek to correct this error by collecting repayment of either \$100 per pay period, or 25 percent of the employee's salary, wage, or compensation until the indebtedness is paid in full, without regard to the employee's earnings. Your Committee believes that this measure provides a repayment plan that is manageable for low-income employees to repay the State or a county while lessening the financial strain.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 164, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 164, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 479 Labor on H.B. No. 847

The purpose of this measure is to:

- (1) Clarify the definition of "covered employer" in the Hawaii Retirement Savings Act;
- (2) Require automatic enrollment of employees into the Hawaii Retirement Savings Program unless the employee opts out;
- (3) Repeal the limit on the total fees and expenses that can be spent for the program each year; and
- (4) Appropriate funds for the Hawaii Retirement Savings Program's development and operations.

Your Committee received testimony in support of this measure from the Executive Office on Aging; Hawai'i Retirement Savings Board; 604 Hospitality Group LLC; Hawai'i Family Caregiver Coalition; Hawai'i Restaurant Association; and one individual. Your Committee received comments on this measure from the Retail Merchants of Hawaii and Tax Foundation of Hawaii.

Your Committee finds that employers with retirement savings programs auto-enrollment policies have higher overall contribution rates by their employees than employers with only voluntary enrollment. Your Committee believes that this measure encourages employees to engage with their retirement plans and make proactive and informed decisions about their financial future.

Your Committee has amended this measure by:

- (1) Replacing the term "program administrator" with "covered employer" with regard to who is to provide employees written notice of employees' right to opt out of automatic enrollment;
- (2) Changing the appropriation to an unspecified amount;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$720,000.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 847, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 847, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Garrett).

SCRep. 480 Labor on H.B. No. 163

The purpose of this measure is to:

- (1) Require the State or a county to reimburse a public officer or employee within thirty calendar days after a reimbursement request for work-related travel costs that the officer or employee loaned to the State or county; and
- (2) Require the State or a county to pay a percentage of interest on the total amount owed to an officer or employee until the loan is fully reimbursed.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; United Public Workers, AFSCME Local 646, AFL-CIO; and one individual. Your Committee received comments on this measure from the State Procurement Office and Department of Accounting and General Services.

Your Committee finds that work-related travel costs for public officers and employees can unnecessarily put a financial strain on employees when the State or county does not provide reimbursement in a timely manner. Your Committee believes that this measure ensures that public officers and employees are reimbursed with interest in a reasonable time.

Your Committee has amended this measure by:

- (1) Specifying that a Statement of Completed Travel or similar document must be submitted as the formal request for reimbursement; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 163, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 163, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 481 Labor on H.B. No. 159

The purpose of this measure is to clarify that the civil service exemption for personal service contracts with qualified community rehabilitation programs for certain maintenance services shall not cost more than \$850,000 in the aggregate per private person or entity.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawaii State AFL-CIO; and United Public Workers, AFSCME Local 646, AFL-CIO. Your Committee received comments on this measure from the Office of the Mayor of the County of Maui.

Your Committee finds that the State and counties regularly outsource service jobs to private entities for certain maintenance services that would otherwise be fulfilled by government employees. Your Committee also finds that these lucrative private contracts entice employees to seek positions with certain private employers which contributes to the high position vacancy rates that the State and counties are faced with. Your Committee believes that this measure strikes a balance between preventing over-privitization and allowing qualified community rehabilitation programs to provide meaningful employment opportunities to individuals for disabled workers.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 159, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 159, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 482 Labor on H.B. No. 555

The purpose of this measure is to require employers to authorize and permit employees a ten minute paid rest period for every four hours worked.

Your Committee received testimony in support of this measure from six individuals. Your Committee received testimony in opposition to this measure from the Chamber of Commerce Hawaii; Hawai'i Restaurant Association; Kapolei Chamber of Commerce; Retail Merchants of Hawaii; and Tiki's Grill & Bar. Your Committee received comments on this measure from the Department of Human Resources Development; Department of Labor and Industrial Relations; Department of Human Resources of the City and County of Honolulu; Hawaii Food Industry Association; and Matson Navigation Company, Inc.

Your Committee finds that it is important to ensure all employers provide employees with rest periods during their work shift without deducting wages. Your Committee further finds that while some employers informally provide their employees with paid rest periods, it is not a requirement for them to do so. This measure protects employees against bad employer practices by adding a requirement for employers to permit a paid rest period for every four hours worked in statute.

Your Committee has amended this measure by:

- (1) Clarifying that the requirements of this measure does not apply to public employees who are excluded from collective bargaining;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 555, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 555, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Lee, Reyes Oda). Noes, 1 (Kong). Excused, none.

SCRep. 483 Housing on H.B. No. 417

The purpose of this measure is to establish a Housing Efficiency and Innovation Subaccount within the Rental Housing Revolving Fund to be used for providing loans or credit enhancements to certain projects on state or county-owned land and state-funded housing projects.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Holomua Collaborative; Title Guaranty of Hawai'i; HPM Building Supply; Mana Up; Tori Richard, Ltd.; and Hawai'i Gas. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the housing crisis in Hawaii continues to drive families out of the State in search of affordable housing. The Rental Housing Revolving Fund provides equity gap low-interest loans to qualified owners and developers building affordable housing. However, your Committee further finds that despite the success of the Rental Housing Revolving Fund, existing prioritization of projects limit the breadth of projects and residents who can benefit from the Rental Housing Revolving Fund. Your Committee believes that increasing the types of projects that can be funded by the Rental Housing Revolving Fund would directly address the lack of affordable and stable rental housing in the State.

Your Committee notes that the main purpose and intent of the Rental Housing Revolving Fund is focused on affordable rental housing projects, rather than for-sale projects. However, your Committee believes that there should be further discussion on whether there is value in increasing the flexibility of the Rental Housing Revolving Fund so that its funds can be used for affordable rental projects and for-sale projects to ensure that there is sufficient funding to help families achieve homeownership.

Your Committee has amended this measure by:

- (1) Clarifying that loans from the Housing Efficiency and Innovation Subaccount are to be used solely for rental housing projects, instead of for-sale and rental housing projects;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 417, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 417, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Cochran, Kila).

SCRep. 484 Housing on H.B. No. 373

The purpose of this measure is to repeal the sunset provision related to the counties' authorization to develop, construct, finance, refinance, or otherwise provide mixed-use developments.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; one member of the Maui County Council; and Office of Housing of the City and County and Honolulu.

Your Committee finds that Act 45, Session Laws of Hawaii 2024, clarified the counties' powers relating to developing, constructing, financing, refinancing, or otherwise providing mixed-use developments. This was to align the powers of the counties to that of the Hawaii Housing Finance and Development Corporation to allow each county to implement their general plans and create communities that offer multiple housing options. Your Committee believes that this authority should remain permanent to ensure that the counties have all the powers necessary to provide affordable housing options to their residents.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 373, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 373, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Cochran, Kila).

SCRep. 485 Housing on H.B. No. 1009

The purpose of this measure is to:

- (1) Codify the Dwelling Unit Revolving Fund Equity Pilot Program as a permanent program; and
- (2) Allow partial or full repayment of Dwelling Unit Revolving Fund interim loans by eligible developers in the form of unit equity through the Dwelling Unit Revolving Fund Equity Program.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; and one individual.

Your Committee finds that the high cost of housing is causing Hawaii residents, especially those in professions facing a shortage, such as teachers, health care workers, and law enforcement officers, to leave the State. To address this, the Legislature enacted Act 92, Session Laws of Hawaii 2023, which established the Dwelling Unit Revolving Fund Equity Pilot Program (Program). The Program allows residents to purchase a for-sale housing unit with Hawaii Housing Finance and Development Corporation's equity investment in the unit. Your Committee further finds that developers have shown strong interest in the Program, with three projects already participating. This measure will build on the success of the pilot program and make it permanent for the benefit of future projects.

Your Committee has amended this measure by:

- (1) Clarifying that the Hawaii Housing Finance and Development Corporation may purchase equity in for-sale housing development projects secured by a recorded instrument as determined by the Corporation;
- (2) Deleting language that would have authorized an eligible developer to repay, in the form of equity, a part or all of the interim financing made under the Program;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1009, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1009, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Cochran, Kila).

SCRep. 486 Housing on H.B. No. 529

The purpose of this measure is to authorize the Hawaii Housing Finance and Development Corporation to secure a line of credit or other instrument of indebtedness for the Bond Volume Cap Recycling Program.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation. Your Committee received comments on this measure from Department of Budget and Finance.

Your Committee finds that a line of credit is needed for private activity bond recycling to provide liquidity and ensure that funds are readily available to pay off existing bonds as they mature or are redeemed. The line of credit acts as a financial bridge, maintaining continuity in funding and avoiding disruptions in the financing structure, which is critical for compliance with federal law for qualified bonds. This measure will allow the Hawaii Housing Finance and Development Corporation to retire old bonds while waiting for new bonds to be issued or for cash flows from the underlying projects to become available.

Your Committee has amended this measure by:

- (1) Clarifying that the Hawaii Housing Finance and Development Corporation may secure revenue bonds as a line of credit or other instrument of indebtedness for the Bond Volume Cap Recycling Program;
- (2) Changing the line of credit or other instrument of indebtedness amount to an unspecified amount; and

(3) Changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider a line of credit or other instrument of indebtedness amount of \$300,000,000.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 529, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 529, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Cochran, Kila).

SCRep. 487 Housing on H.B. No. 833

The purpose of this measure is to support the expansion of community land trusts by authorizing, and appropriating funds for, the Hawaii Housing Finance and Development Corporation to establish a Community Land Trust Equity Pilot Program to provide community land trusts with a low-cost line of credit for housing purposes.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; County of Hawai'i Office of Housing and Community Development; Nā Hale O Maui; Kohala Community Land Trust; Lahaina Community Land Trust; LIMBY Hawai'i; Maui Chamber of Commerce; and four individuals.

Your Committee finds that community land trusts are effective tools for producing and preserving permanently affordable housing, fostering generational wealth, and enhancing neighborhood stability. By removing housing from the speculative market and providing shared equity opportunities, community land trusts help prevent displacement and support low- to moderate-income families. This measure authorizes a pilot program to expand these efforts, which can help preserve long-term housing affordability in the State.

Your Committee has amended this measure by:

- (1) Changing the appropriation to the unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$5,000,000.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 833, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 833, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Cochran, Kila).

SCRep. 488 Housing on H.B. No. 1432

The purpose of this measure is to:

- (1) Add loan funds administered by Nonprofit Community Development Financial Institutions (CDFIs) for certain for-sale affordable housing projects to the list of loan priorities for the Affordable Homeownership Revolving Fund; and
- (2) Expand use of monies in the revolving fund to allow financing as matching funds for CDFIs to mobilize other funding sources.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that this measure helps more CDFIs access additional capital from federal, private, and philanthropic sources, which will amplify the impact of the Affordable Homeownership Revolving Fund and ensure broader financial support for projects serving low- and moderate-income families, in alignment with the State's commitment to increasing affordable housing availability.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1432, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1432, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Cochran, Kila).

SCRep. 489 Housing on H.B. No. 1428

The purpose of this measure is to appropriate funds to the Hawaii Housing Finance and Development Corporation to enhance the capacity of Hawaii's United States Department of Housing and Urban Development-certified housing counseling agencies to provide housing counseling, renter education, homebuyer education, and eviction and foreclosure intervention to certain low- and moderate-income households.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Hawaiian Community Assets; and four individuals.

Your Committee finds that more support mechanisms are needed for the State's Asset Limited, Income Constrained, Employed (ALICE) households. ALICE households have income above the federal poverty line but below the basic cost of living; in Hawaii forty-eight percent of households fall into the ALICE category or below.

Your Committee further finds that providing United States Department of Housing and Urban Development-certified housing counseling agencies helps expand outreach to ALICE households and other underserved communities and ensures more residents have access to critical housing resources, and enhanced service delivery that provides timely, effective counseling to prevent housing crises like foreclosures or evictions.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$2,500,000.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1428, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1428, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Pierick). Excused, 2 (Cochran, Kila).

SCRep. 490 Housing on H.B. No. 432

The purpose of this measure is to provide a dedicated source of funds to finance mixed-income rental housing projects.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Office of Housing of the City and County of Honolulu; Chamber of Commerce Hawaii; Holomua Collaborative; Hawaii Appleseed Center for Law & Economic Justice; Hawai'i YIMBY; Michaels Development; Hawai'i Community Foundation; Title Guaranty of Hawai'i; HPM Building Supply; Hawai'i Gas; Mana Up; and Tori Richard, Ltd. Your Committee received comments on this measure from the Department of Budget and Finance and LIMBY Hawai'i.

Your Committee finds that while the Rental Housing Revolving Fund has two priority funding groups, limited funding dedicates most of the funds to projects or units for households with income at or below sixty percent of the area median income. Your Committee further finds that private development of rental housing for households earning between sixty percent and one hundred forty percent of the area median income remains financially unfeasible without additional public support. This measure establishes a dedicated funding source to address the gap, ensuring mixed-income rental housing projects can move forward and help local working families remain in the State.

Your Committee has amended this measure by:

- (1) Defining "perpetual" as the life of the project;
- (2) Changing the appropriation to an unspecified amount and changing the amount of funds the Director of Finance may transfer into the Rental Housing Revolving Fund Mixed-Income Subaccount to an unspecified amount;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$75,000,000 into and out of the Mixed-Income Subaccount of the Rental Housing Revolving Fund.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 432, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 432, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Pierick). Excused, 2 (Cochran, Kila).

SCRep. 491 Housing on H.B. No. 374

The purpose of this measure is to:

- (1) Require the Hawaii Housing Finance and Development Corporation to take into consideration additional preferential factors of project applicants when supplying housing or assistance in obtaining housing;
- (2) Require a certain percentage of available units to be set aside for state or county employees in projects developed or administered by the Hawaii Housing Finance and Development Corporation; and
- (3) Require the Hawaii Housing Finance and Development Corporation to determine the order of preferences and rank applicants, select applicants based on application date, and validate the preference status of applicants.

Your Committee received testimony in support of this measure from two members of the Kaua'i County Council and Hawai'i State Association of Counties. Your Committee received comments on this measure from the Department of the Attorney General and Hawaii Housing Finance and Development Corporation.

Your Committee finds that the existing housing preference criteria employed by the Hawaii Housing Finance and Development Corporation have been instrumental in addressing housing needs across the State. However, as the State's communities evolve, it becomes imperative to reassess and enhance these criteria to ensure they align with the diverse and changing needs of residents. This measure is intended to broaden the existing housing preference criteria, thereby creating a more comprehensive framework that accounts for various elements influencing housing needs.

However, your Committee has heard the concerns raised in testimony by the Department of the Attorney General that certain provisions in this measure appear to impose a durational residency requirement that may be subject to challenge as a violation of the right to travel protected by the United States Constitution.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have required the Hawaii Housing Finance and Development Corporation to take into consideration whether an applicant is a returning resident that left for academic reasons and returned to the State within two years;
- (2) Deleting language that would have required an unspecified percent of available units developed by Hawaii Housing Finance and Development Corporation to be set aside for state or county employees;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 374, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 374, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Pierick). Excused, 2 (Cochran, Kila).

SCRep. 492 Housing on H.B. No. 1411

The purpose of this measure is to authorize the Hawaii Housing Finance and Development Corporation to allow affordable housing projects to grant preferences in the sale or lease of housing units to applicants who live or work within five miles of the project.

Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds granting a preference for eligible applicants who live or work within five miles of an affordable housing project supports the creation of neighborhoods where residents can live, work, and play.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1411, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1411, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Pierick). Excused, 2 (Cochran, Kila).

SCRep. 493 Economic Development & Technology on H.B. No. 1405

The purpose of this measure is to establish specific deadlines within the facilitated application process to obtain a permit and require the Department of Business, Economic Development, and Tourism to establish certain resources and processes to help streamline permit applications.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Charter Communications; Hawaiian Telcom; Hawaii Food Industry Association; NFIB Hawaii Chapter; Hawai'i Association of REALTORS; Hawai'i Island Chamber of Commerce; Grassroot Institute of Hawaii; Chamber of Commerce Hawaii; Hawaii Operating Engineers Industry Stabilization Fund Political Action Committee; Housing Hawai'i's Future; and five individuals.

Your Committee finds that certain land or water use activities or construction projects that require state or county permits are required, in the case of state agencies, and are encouraged, in the case of county agencies, to use the facilitated application process under the Department of Business, Economic Development, and Tourism. Your Committee further finds that the facilitated application process can subject applicants to long waiting periods, delaying housing, industrial, and commercial projects. This measure addresses this issue by establishing specific deadlines within the facilitated application process and requiring the Department of Business, Economic Development, and Tourism to establish certain resources for streamlining applications.

Your Committee has amended this measure by:

- (1) Allowing applicants for at least one state and one county permit to request the facilitated application process;
- (2) Adding an annual reporting requirement for the Department of Business, Economic Development, and Tourism on the status of the facilitated application process;
- (3) Changing the number of positions established to an unspecified number;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$125,000 and one full-time equivalent (1.0 FTE) position.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1405, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1405, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Tam).

SCRep. 494 Economic Development & Technology on H.B. No. 1406

The purpose of this measure is to establish the Intergovernmental Task Force for Permit Simplification within the Department of Business, Economic Development, and Tourism to identify actions taken, challenges encountered, and legislative measures necessary to facilitate, expedite, and coordinate state and intergovernmental development permit processes.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; Public Utilities Commission; Hawaiian Telcom; Hawaii Food Industry Association; NFIB Hawaii Chapter; Hawai'i Association of REALTORS; Hawai'i Island Chamber of Commerce; Chamber of Commerce Hawaii; Charter Communications; Housing Hawai'i's Future; and five individuals.

Your Committee finds that there is a need to simplify and expedite the permitting process in the State in order to reduce delays and create a more predictable environment for investment and growth. This measure addresses this need by establishing the Intergovernmental Task Force for Permit Simplification to facilitate, expedite, and coordinate state and intergovernmental development permit processes.

Your Committee has amended this measure by:

- (1) Establishing the task force within the House of Representatives instead of the Department of Business, Economic Development, and Tourism, and deleting the reporting requirement to the Legislature;

- (2) Adding an additional member to the task force to serve as chair;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$125,000.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1406, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1406, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Tam).

SCRep. 495 Economic Development & Technology on H.B. No. 1407

The purpose of this measure is to require the Department of Business, Economic Development, and Tourism to establish a Chamber of Commerce Grant Program.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; one member of the Kaua'i County Council; Hawaii Food Industry Association; NFIB, Hawaii Chapter; Hawai'i Island Chamber of Commerce; Chamber of Commerce Hawaii; Hawai'i Farm Bureau; Charter Communications; Kapolei Chamber of Commerce; Japanese Chamber of Commerce & Industry of Hawaii; Maui Chamber of Commerce; and five individuals.

Your Committee finds that there is a need to bolster business innovation and economic development in the State. Your Committee further finds chambers of commerce, with their vast networks of small businesses, are well positioned to support new entrepreneurs in the State. Your Committee believes that this measure will help encourage economic development in the State by establishing the Chamber of Commerce Grant Program to provide qualifying chambers of commerce with grants for developing and cultivating entrepreneurs, with a focus on mentoring, workshops, and skill development.

Your Committee has amended this measure by:

- (1) Clarifying that the program is a competitive grant program and that certain standards and conditions under chapter 42F, Hawaii Revised Statutes, do not apply to funds received under the program;
- (2) Requiring applicants to provide proof that they have raised at least one-fifth of the grant amount requested, to be used for the same purposes as a grant awarded through the program and, upon receipt of grant funds, provide a \$1 match for every \$5 of grant funds received;
- (3) Adding an appropriation for an unspecified sum;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1407, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1407, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Tam).

SCRep. 496 Economic Development & Technology on H.B. No. 454

The purpose of this measure is to promote economic recovery and diversification by:

- (1) Establishing state goals for economic growth fueled by innovation and technology;
- (2) Appropriating funds to the Hawaii Technology Development Corporation to support programs that address those goals; and
- (3) Requiring the Hawaii Technology Development Corporation to submit annual reports over three years to the Legislature.

Your Committee received testimony in support of this measure from Hawai'i Technology Development Corporation; Ten Tomorrow; Hawaii Fish Company Inc.; Watanabe Floral, Inc.; HNu Photonics; HI-Spectral, LLC; Hawaii Biotech, Inc.; Ai.Fish; Makai Ocean Engineering; The Art Source Inc.; Oceanit; Raiz Tortillas; Simonpietri Enterprises LLC; Ba-le Inc.; Normal Robotics; PacMar Technologies; Purple Mai'a Foundation; Blue Startups; Chamber of Commerce Hawaii; Hawai'i Farm Bureau; Holomua Collaborative; Hawai'i Small Business Development Center; Hawai'i Island Chamber of Commerce; Imua Onipa'a; Maui Chamber of Commerce; Hawaii Food Industry Association; and three individuals.

Your Committee finds that to ensure the long-term stability of Hawaii's economy, there is a need to support economic diversification efforts that promote innovation. This measure addresses this need by establishing state goals for economic growth and diversification and appropriating funds to the Hawaii Technology Development Corporation to support programs that address those goals.

Your Committee has amended this measure by:

- (1) Adding a goal to address economic diversification through import replacement; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 454, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 454, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 497 Economic Development & Technology on H.B. No. 457

The purpose of this measure is to require state and local law enforcement agencies to notify an individual of their rights when in Hawaii law enforcement agency custody before any interview with Immigration and Customs Enforcement on matters regarding immigration violations.

Your Committee received testimony in support of this measure from the Office of the Public Defender; one member of the Hawai'i County Council; one member of the Honolulu City Council; IATSE Local 665; UNITE HERE Local 5; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawai'i Coalition for Immigrant Rights; Indivisible Hawaii; The Legal Clinic; League of Women Voters of Hawaii; HCANSpeaks!; Fujiwara & Rosenbaum, LLC; Hawaii Friends of Civil Rights; COFACAN; Oahu Filipino Community Council; Filipino Chamber of Commerce; Roots Reborn; Hawai'i Democratic Party; Hawaii State AFL-CIO; Catholic Charities Hawai'i; Democratic Party of Hawai'i Education Caucus; A.L.O.H.A. Latinos; Hawai'i Workers Center; Imua Alliance; and numerous individuals. Your Committee received testimony in opposition to this measure from Hawaiian Islands Republican Women and numerous individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that it is essential to ensure that all residents, regardless of immigration status, are provided appropriate due process and civil rights protections. This measure addresses this need by requiring state and local law enforcement agencies to notify an individual of their rights when in the agency's custody before any interview with Immigration and Customs Enforcement on matters regarding immigration violations.

Your Committee has amended this measure by:

- (1) Requiring accommodations to be made for law enforcement agencies to provide written consent forms to individuals who speak languages for which the Office of Language Access cannot provide translations;
- (2) Adding a provision to exclude the public disclosure of demographic information that is reasonably likely to identify an individual to whom Immigration and Customs Enforcement has been provided access; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 457, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 457, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 498 Economic Development & Technology on H.B. No. 476

The purpose of this measure is to increase the capital gains tax rate for individuals, estates, and trusts to nine percent and the alternative capital gains tax rate for corporations to five percent.

Your Committee received testimony in support of this measure from IATSE Local 665; Hawaii Appleseed Center for Law & Economic Justice; Hawaii State AFL-CIO; Education Caucus of the Democratic Party of Hawai'i; and one individual. Your Committee received testimony in opposition to this measure from the Grassroot Institute of Hawaii; Hawai'i Association of REALTORS; and six individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that eighty percent of all long-term capital gains in the State are earned by the wealthiest group of taxpayers, who have incomes greater than \$400,000, exacerbating the State's income inequality. This measure addresses this issue by increasing the capital gains tax rate to nine percent and the alternative capital gains tax for corporations to five percent.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee notes, as a reference for potential fiscal impact of this measure, estimates made in 2021 of revenue that would be generated by the same capital gains tax rate increases proposed by this measure are as follows:

- (1) \$53,700,000 for fiscal year 2025;
- (2) \$55,500,000 for fiscal year 2026; and
- (3) \$57,000,000 for fiscal year 2027.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 476, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 476, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Matsumoto). Noes, none. Excused, none.

SCRep. 499 Economic Development & Technology on H.B. No. 577

The purpose of this measure is to authorize a tax credit for five years for businesses that pay the public transportation costs of employees.

Your Committee received testimony in support of this measure from Retail Merchants of Hawaii and two individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that increased public transportation use will lead to reduced traffic congestion, greenhouse gas emissions, and wear on roads and infrastructure. This measure seeks to increase public transportation usage by authorizing a tax credit for businesses that pay the public transportation costs of employees.

Your Committee has amended this measure by:

- (1) Changing the amount of the tax credit to an unspecified percentage; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

Your Committee notes the suggestion raised in the Department of Taxation's testimony to offer the tax credit at a rate of less than one hundred percent of the amount spent by the employer to purchase employees' fares or passes, in order to limit the potential for abuse and waste.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 577, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 577, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 500 Economic Development & Technology on H.B. No. 949

The purpose of this measure is to:

- (1) Clarify that a partner or member that is a partnership or limited liability company that has been allocated a Low-Income Housing Tax Credit may either further allocate the credit or transfer, sell, or assign all or a portion of the credit to any taxpayer; and
- (2) Extend the sunset date of Act 129, Session Laws of Hawaii 2016, relating to the Low-Income Housing Tax Credit.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and Chamber of Commerce Hawaii. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that there is an urgent need to increase the availability of low-income housing in the State and encourage the development of these projects. Your Committee further finds that the Low-Income Housing Tax Credit should be amended to make the credit more accessible to investors and encourage greater private sector participation in affordable housing projects. This measure addresses this need by allowing partnerships and limited liability companies to transfer, sell, or assign credits to any person and extending the sunset date for the Low-Income Housing Tax Credit to 2032.

Your Committee has amended this measure by:

- (1) Clarifying that a partner or member may allocate the credit or transfer, sell, or assign the credit to any person;
- (2) Clarifying that the transferee must have received the transfer or assignment of the tax credit prior to the date a tax return claiming the tax credit is filed;
- (3) Requiring the transferor to notify the Department of Taxation, in a manner prescribed by the Department, of the transfer, sale, or assignment at least thirty days prior to the transferee claiming the tax credits;
- (4) Specifying that it shall apply to taxable years beginning after December 31, 2025; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 949, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 949, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 501 Economic Development & Technology on H.B. No. 303

The purpose of this measure is to:

- (1) Expand the definitions of "preceptor" and "volunteer-based supervised clinical training rotation" to improve accessibility for providers to receive income tax credits for acting as preceptors, including removing "primary care" from the criteria to qualify as a preceptor;
- (2) Add dietitians, physician assistants, and social workers to the list of preceptors and eligible students;
- (3) Expand eligibility for the tax credit to include accredited residency programs that require preceptor support; and
- (4) Add the Director of Health and residency programs with eligible students to the Preceptor Credit Assurance Committee.

Your Committee received testimony in support of this measure from the Department of Health; Hawaii Health Systems Corporation Corporate Board of Directors; University of Hawai'i System; John A. Burns School of Medicine; University of Hawai'i School of Nursing and Dental Hygiene; Thompson School of Social Work and Public Health; University of Hawai'i Hilo Daniel K. Inouye College of Pharmacy and School of Nursing; Hawai'i State Center for Nursing; Healthcare Association of Hawaii; Hawai'i Primary Care Association; Hawai'i Affiliate of the American College of Nurse-Midwives; Hawai'i Pacific Health; Hawaii State Chiropractic Association; Hawai'i Academy of Physician Assistants; The Queen's Health Systems; Hawaii Pharmacists Association; Hawai'i Association of Professional Nurses; and four individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the Healthcare Preceptor Income Tax Credit is intended to incentivize volunteer preceptors to offer instruction, training, and supervision to students and residents. Your Committee further finds that eligibility for the tax credit is restrictive, with many classes of health care providers excluded. This measure addresses this issue by expanding eligibility for the tax credit.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 303, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 303, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 502 Energy & Environmental Protection on H.B. No. 242

The purpose of this measure is to establish a working group within the Hawaii State Energy Office to examine how to maximize the recycling and reuse of electric vehicle batteries and recommend electric vehicle battery management practices.

Your Committee received testimony in support of this measure from the Department of Health; Hawaii State Energy Office; County of Hawai'i Department of Environmental Management; Sierra Club of Hawai'i; Hawaii Electric Vehicle Association; Climate Protectors Hawai'i; Coalition Earth; Redwood Materials; Alliance for Automotive Innovation; and four individuals. Your Committee received comments on this measure from Radius Recycling.

Your Committee finds that electric vehicle usage in the State has grown dramatically, with a twenty-three percent increase in the number of registered electric vehicles from October 2023 to October 2024. Your Committee further finds that as electric vehicle usage increases, more electric vehicle batteries will enter the waste stream, necessitating proper recycling and disposal practices. This measure addresses this need by establishing a working group to examine how to maximize the recycling and reuse of electric vehicle batteries and recommend electric vehicle battery management practices.

Your Committee has amended this measure by:

- (1) Adding a representative from the Hawaii Natural Energy Institute to the working group;
- (2) Clarifying that the working group will include a representative from the battery energy storage industry;

- (3) Adding a representative from a company specializing in the recycling of electric vehicle batteries to the individuals invited to serve as members of the working group;
- (4) Changing the deadline for the report to the Legislature to twenty days prior to the convening of the Regular Session of 2027;
- (5) Clarifying that the report to the Legislature shall include an analysis of the reuse of electric vehicle batteries as potential stationary energy storage systems;
- (6) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (7) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 242, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 242, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 503 Energy & Environmental Protection on H.B. No. 344

The purpose of this measure is to:

- (1) Require the design of all new state building construction where parking is to be included to provide that at least twenty-five percent of parking stalls be electric vehicle charger-ready;
- (2) Require the Hawaii State Energy Office to conduct a survey and identify certain high-priority state facilities that include parking to be retrofitted to include electric vehicle charging infrastructure;
- (3) Establish a goal of the State to retrofit state facilities to be electric vehicle charger-ready; and
- (4) Appropriate funds to the Department of Accounting and General Services to assess the costs of, and install, retrofits and electric vehicle charging systems at high-priority state facilities.

Your Committee received testimony in support of this measure from the Department of Transportation; Department of Accounting and General Services; Hawaii State Energy Office; Oahu Metropolitan Planning Organization; Hawaiian Electric; Ulupono Initiative; Climate Protectors Hawai'i; 350Hawaii.org; Coalition Earth; Green Party of Hawai'i; Environmental Caucus of the Democratic Party of Hawai'i; Kauai Climate Action Coalition; RERides EV, LLC; Alliance for Automotive Innovation; and numerous individuals.

Your Committee finds that electric vehicle usage has greatly increased in recent years, with electric vehicles accounting for fifteen percent of all new car sales in 2024. Your Committee further finds that the State must support the transition to electric vehicles by ensuring that adequate charging infrastructure is available. This measure addresses this need by establishing certain requirements and goals for state facilities to provide electric vehicle charging infrastructure.

Your Committee has amended this measure by:

- (1) Changing the start date on which all new state building construction must meet certain electric vehicle charging requirements to July 1, 2026;
- (2) Changing the appropriation to an unspecified amount and removing the appropriation for fiscal year 2025-2026;
- (3) Changing the expending entity to the Hawaii State Energy Office;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$300,000 for fiscal year 2026-2027 to assess the costs of, and install, retrofits and electric vehicle charging systems at high-priority state facilities.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 344, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 344, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 504 Energy & Environmental Protection on H.B. No. 733

The purpose of this measure is to:

- (1) Remove the loophole that allows property owners to electrify fewer spaces than required if they fulfill the requirement in aggregate across different parking lots; and
- (2) Provide the counties the clear authority to regulate electric vehicle charging systems on parking lots with fewer than one hundred stalls.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office; Hawai'i Energy; Hawaii Electric Vehicle Association; Ulupono Initiative; Climate Protectors Hawai'i; 350Hawaii.org; and one individual. Your Committee received testimony in opposition to this measure from Retail Merchants of Hawaii.

Your Committee finds that in order for the State to effectively transition to increased electric vehicle usage, there is a need for a widespread and reliable network of charging infrastructure. Your Committee further finds that Act 75, Session Laws of Hawaii 2021, was intended to expedite the rollout of electric vehicle charging infrastructure by providing the counties enforcement authority over charging and maintenance requirements. However, a loophole exists in which owners of multiple properties are allowed to provide charging infrastructure on fewer spaces than required in an individual parking lot if the number of charging stations is met in aggregate. This measure addresses this issue by removing the loophole and providing counties the authority to regulate electric vehicle charging systems on parking lots with fewer than one hundred stalls.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 733, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 733, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 505 Energy & Environmental Protection on H.B. No. 1017

The purpose of this measure is to repeal the Greenhouse Gas Sequestration Task Force.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; and Office of Planning and Sustainable Development.

Your Committee finds that the Greenhouse Gas Sequestration Task Force was created in 2018 in order to address greenhouse gas emissions in the State. The Task Force was appropriated \$150,000 for research purposes, which was used to initiate three contracts with experts in soil science, farming best practices, and nature-based carbon sequestration. Since then, the Task Force has not been appropriated further funding and lacks the staff to manage research contracts. Accordingly, this measure repeals the Greenhouse Gas Sequestration Task Force.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1017, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1017, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 506 Energy & Environmental Protection on H.B. No. 1022

The purpose of this measure is to:

- (1) Include the promotion of critical infrastructure protection and emergency management, response, and recovery in the Energy Data Collection Program; and
- (2) Add the Hawaii Emergency Management Agency and Office of Homeland Security to the list of agencies that may examine the energy industry information statements.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Law Enforcement; Hawai'i Emergency Management Agency; and Hawaii State Energy Office.

Your Committee finds that the energy sector is vital for emergency preparedness, particularly in regard to emergency communication systems and powering backups during natural disasters. Your Committee further finds that policies on energy data could be adjusted to better ensure that critical infrastructure protection and emergency management are prioritized and that certain agencies are able to examine energy industry information. This measure addresses this need by including the promotion of critical infrastructure protection and emergency management, response, and recovery in the Energy Data Collection Program and adding the Hawaii Emergency Management Agency and Office of Homeland Security to the list of agencies that may examine the energy industry information statements.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1022, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1022, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 507 Transportation on H.B. No. 1164

The purpose of this measure is to restore the Highway Revenue Bond authorization for the Department of Transportation for highway capital improvement projects authorized in Act 164, Session Laws of Hawaii 2023, as amended by Act 230, Session Laws of Hawaii 2024.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that this bill will ensure the Department of Transportation can issue highway revenue bonds to fund highway capital improvement projects.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to work with the Department of Transportation and Department of Budget and Finance on this matter.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1164, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1164, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 508 Transportation on H.B. No. 537

The purpose of this measure is to require all operators and passengers of two-wheeled motorized vehicles to wear safety helmets with securely fastened chin straps when on highways, streets, roadways, or any other public property in the State.

Your Committee received testimony in support of this measure from the Department of Transportation; AAA Hawai'i; and Advocates for Highway and Auto Safety. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that despite advancements in vehicle safety, operators and passengers of two-wheeled motorized vehicles remain particularly vulnerable to severe injuries and fatalities due to their lack of protective barriers. Existing laws do not adequately address this heightened risk, leading to preventable deaths and life-altering head injuries. Your Committee further finds that studies consistently demonstrate the effectiveness of helmets in reducing fatalities and preventing head injuries.

Your Committee notes that a blanket helmet requirement affecting multiple two-wheeled motorized vehicles may not be necessary. Your Committee does, however, recognize the importance of requiring helmets for motorcycles.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have required all operators and passengers of two-wheeled motorized vehicles to wear certain safety helmets and all associated language, while maintaining:
 - (A) Language that repeals the exception for when a person is not required to wear a safety helmet when operating a moped or motor scooter leased from a rental company;
 - (B) The helmet requirement for operators and passengers of motorcycles; and
 - (C) Language that prohibits the rental or leasing of an electric foot scooter to a person unless they wear a safety helmet;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 537, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 537, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 509 Culture & Arts on H.B. No. 1025

The purpose of this measure is to:

- (1) Designate the Center for Cultural and Technical Interchange Between East and West, Inc., as the State of Hawaii Center for Cultural and Technical Interchange Between East and West, Inc. (East-West Center);
- (2) Exempt general revenues of the State of Hawaii received by the East-West Center from the requirements of chapter 42F, Hawaii Revised Statutes; and
- (3) Establish criteria the East-West Center must meet to receive state funds.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; East-West Center; and Hawai'i Friends of Civil Rights. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that in 1960, federal law authorized the establishment of a center in Hawaii for cultural and technical interchange between the East and West. In 1975, the Legislature established an educational non-profit public corporation through Act 82, Session Laws of Hawaii 1975 (Act 82) that would come to be known as the East-West Center. Act 82 specified the purposes of the East-West Center, which included, among other things, the promotion of better relations and understanding between the United States and the nations of the East.

Your Committee further finds that since its establishment, the East-West Center has made a profound impact on the State's communities by hosting international scholars, conducting research on critical regional issues, and facilitating dialogue among leaders from various sectors, which has attracted global attention and enhanced the State's reputation as a hub for international engagement. Your Committee also finds that the East-West Center has served as a diplomatic resource for the State, United States, and Asia-Pacific region and fills a vital role in promoting better relations between the United States and nations of Asia and the Pacific.

Your Committee believes that the East-West Center has served and continues to serve a public purpose and that granting authorization to the East-West Center to receive appropriations of state general revenues, exempt from the requirements of chapter 42F, Hawaii Revised Statutes, complies with the public purpose requirement of Article VII, section 4, of the Hawaii State Constitution.

Your Committee has amended this measure accordingly by:

- (1) Inserting legislative findings in the preamble that the East-West Center serves a public purpose and that granting authorization to the East-West Center to receive appropriations of state general revenues, exempt from the requirements of chapter 42F, Hawaii Revised Statutes, complies with the public purpose requirement of Article VII, section 4, of the Hawaii State Constitution;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Culture & Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1025, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1025, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Kong, Reyes Oda).

SCRep. 510 Health/Human Services & Homelessness on H.B. No. 1462

The purpose of this measure is to expand the Crisis Intervention and Diversion Services Program to include at least two sites on the island of Oahu, including one program in west Oahu.

Your Committees received testimony in support of this measure from the Department of Law Enforcement; Department of Health; Hawaii Substance Abuse Coalition; Community Alliance on Prisons; Waianae Coast Comprehensive Health Center; and two individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that Act 86, Session Laws of Hawaii 2024, established a Crisis Intervention and Diversion Services Program within the Department of Health to expand existing services and divert those with mental health issues to appropriate health care services. Your Committees further find that homelessness is a significant issue on Oahu, with a noticeable presence of unsheltered individuals, some of whom suffer from issues relating to drugs, alcohol,

or mental illness. Your Committees believe that establishing additional crisis intervention sites on Oahu will create vital access points for diverting individuals with mental health and substance use disorders away from the criminal justice system and toward appropriate health care services.

Your Committees have amended this measure by:

- (1) Requiring the Department of Health to establish a site on Oahu in an area that has been affected by a disproportionate number of individuals with mental health conditions, substance use disorders, and homelessness, rather than in a specific zip code;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committees respectfully request your Committee on Finance, should it deliberate on this measure, to consider adding in an appropriation for the Department of Health to support the opening of an additional crisis intervention site. Your Committees note that the existing crisis intervention site in Iwilei has a budgeted operational cost of \$4,288,000 for fiscal year 2025, not inclusive of startup costs. Your Committees also note that the actual cost for the second site may vary significantly based on the location and community need of the new site.

As affirmed by the records of votes of the members of your Committees on Health and Human Services & Homelessness that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1462, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1462, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 9. Noes, none. Excused, none.

Human Services & Homelessness: Ayes, 9. Noes, none. Excused, none.

SCRep. 511 Health/Human Services & Homelessness on H.B. No. 700

The purpose of this measure is to:

- (1) Require all health care providers who accept Medicare to provide a cognitive assessment as part of the Medicare Part B annual wellness visit for Medicare beneficiaries sixty-five years of age or older, with certain exceptions;
- (2) Require all health care providers to submit certain information to the Executive Office on Aging relating to cognitive assessments; and
- (3) Require the Executive Office on Aging to report de-identified aggregated data to the Legislature on annual basis and appropriate funds for this purpose.

Your Committees received testimony in support of this measure from the State Health Planning and Development Agency; State Council on Developmental Disabilities; Policy Advisory Board for Elder Affairs; Hawai'i Primary Care Association; Hawaii Disability Rights Center; Alzheimer's Association - Hawaii; AARP Hawai'i; Hawai'i Public Health Association; Hawaii Parkinson Association; and numerous individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Health; Executive Office on Aging; and Healthcare Association of Hawaii.

Your Committees find that Alzheimer's disease is one of the top ten leading causes of death in the United States, with ninety percent of cases occurring in individuals aged sixty-five or older. Your Committees further find that early detection and diagnosis of Alzheimer's disease and other dementias enables timely intervention, better care planning, and access to treatments that can slow the disease's progression. Your Committees note that Medicare beneficiaries who have opted to take Part B coverage already receive an annual cognitive assessment as part of their supplemental coverage. Your Committees believe that offering cognitive assessment tests as a standard part of the health care plan for an individual sixty-five years or older is a crucial part of the State's strategic plan to address Alzheimer's disease and related dementias. However, your Committees recognize that, due to the potential magnitude of this bill, it is more prudent at this time to establish a pilot program rather than require immediate implementation of these requirements, which will allow the Executive Office on Aging to best determine what would be needed for a statewide rollout.

Your Committees have amended this measure by:

- (1) Establishing a Cognitive Assessments for Medicare Beneficiaries Pilot Program within the Executive Office on Aging, rather than statutorily requiring all health care providers to provide cognitive assessments for Medicare Part B beneficiaries;
- (2) Requiring the Executive Office on Aging to collaborate with a health care system for purposes of the pilot program, including identifying health care providers to participate in the program and offer and conduct cognitive assessments to Medicare Part B beneficiaries;
- (3) Permitting, rather than requiring, participating health care providers to report certain data to the Executive Office on Aging;
- (4) Requiring the Executive Office on Aging to secure the transmission and storage of information reported as part of the pilot program rather than requiring the Office to adopt rules for this purpose;
- (5) Changing the effective date to January 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committees respectfully request your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$150,000.

As affirmed by the records of votes of the members of your Committees on Health and Human Services & Homelessness that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 700, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 700, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 9. Noes, none. Excused, none.

Human Services & Homelessness: Ayes, 9. Noes, none. Excused, none.

SCRep. 512 Health on H.B. No. 1004

The purpose of this measure is to update the State's advance health care directive laws by adopting the Uniform Health-Care Decisions Act (2023) in amended form.

Your Committee received testimony in support of this measure from the Office of the Governor; Department of Attorney General; State Council on Developmental Disabilities; State of Hawai'i Commission to Promote Uniform Legislation; and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Disability Rights Center and two individuals. Your Committee received comments on this measure from the Hawaii Health Systems Corporation Corporate Board of Directors.

Your Committee finds that the Uniform Law Commission approved and recommended the Uniform Health-Care Decisions Act (2023) for enactment in all states. Your Committee further finds that although the State's existing laws address advance directives broadly, the Uniform Health-Care Decisions Act (2023) provides a more comprehensive framework for a variety of advance directives, including advance mental health care directives. Your Committee believes that adopting the Uniform Health Care Decisions Act (2023) in amended form will simplify the process to execute an advance health care directive.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1004, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1004, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 513 Health on H.B. No. 1379

The purpose of this measure is to exempt foreign medical graduates from the State's medical licensure residency requirements, under certain circumstances.

Your Committee received testimony in support of this measure from the State Health Planning and Development Agency; Philippine Medical Association of Hawai'i; Mel A. Ona, M.D., Inc., dba Ohana Gastroenterology; MDX Hawaii; World Education Services; and five individuals. Your Committee received comments on this measure from the Hawaii Medical Board; Hawai'i Pacific Health; Hawaii Medical Association; and one individual.

Your Committee finds that the State faces a significant physician shortage, particularly in primary care and specialty fields. Your Committee further finds that some foreign medical graduates are unable to become licensed in the State, even if they practice in a high demand specialty, because they did not complete a residency that meets the requirements of the State's existing licensure laws. Your Committee believes that allowing foreign medical graduates who have received training comparable to that of American or Canadian medical school graduates will create an alternative pathway to licensure while maintaining high quality and safety standards.

Your Committee has amended this measure by:

- (1) Requiring foreign medical graduates to be graduates of schools listed in the World Directory of Medical Schools;
- (2) Requiring foreign medical graduates to demonstrate a proficiency in the English language;
- (3) Amending the types of training a foreign medical graduate may substitute in lieu of one year of residency training;
- (4) Requiring foreign medical graduates to pass the United States Medical Licensing Examination;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1379, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1379, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 514 Health on H.B. No. 1112

The purpose of this measure is to establish and appropriate funds for a Hepatitis Prevention Program within the Department of Health.

Your Committee received testimony in support of this measure from the Department of Health; Hep Free Hawaii; Hawai'i Health & Harm Reduction Center; and numerous individuals. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that hepatitis B and C viral infections are associated with earlier deaths and higher death rates in the State. Your Committee further finds that existing strategies such as universal hepatitis screening and immunization; culturally-based care coordination; and safe and effective treatments, such as the hepatitis C cure, can be used to eliminate hepatitis B and C in Hawaii. Your Committee believes that providing funding and establishing positions to address hepatitis B and C, as proposed by this measure, will allow the State to scale up its existing work for the prevention and treatment of hepatitis B and C in Hawaii. Your Committee notes that funding the Department of Health's efforts now is important as the current threats to federal public health funding endanger the Department's existing hepatitis elimination efforts.

Your Committee has amended this measure by:

- (1) Clarifying that the Hepatitis Prevention Program is for the prevention of hepatitis B and hepatitis C;
- (2) Changing the number of positions to an unspecified number;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$545,000 and the establishment of five full-time equivalent (5.0 FTE) positions.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1112, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1112, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 515 Health on H.B. No. 951

The purpose of this measure is to allow a patient to be prescribed a three-day supply of opiates via telehealth if the patient has been seen in-person by a health care provider in the same medical group as the prescribing physician.

Your Committee received testimony in support of this measure from Kaiser Permanente Hawai'i; Aloha Green Apothecary; and ATA Action.

Your Committee finds that existing law requires a patient to first establish a physician-patient relationship with their prescribing physician via an in-person consultation before the patient can be prescribed opioids via telehealth. Your Committee further finds that there are times when a patient requires immediate pain relief, but the patient's primary provider may be unavailable to write an opioid prescription for the patient. This measure is intended to allow patients to receive immediate pain relief even when their regular provider is unavailable while still ensuring appropriate and safe pain management and minimizing the risk of misuse and addiction.

Your Committee has amended this measure by:

- (1) Requiring the patient to have been seen in-person by a physician, rather than a health care provider;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 951, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 951, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Garcia). Noes, none. Excused, none.

SCRep. 516 Health on H.B. No. 1115

The purpose of this measure is to establish the Universal Immunization Purchase Special Fund to finance the distribution of immunizations to qualifying health care providers free of charge.

Your Committee received testimony in support of this measure from the Department of Health; American Academy of Pediatrics, Hawai'i Chapter; Hawai'i Public Health Institute; Children's Doctors L.L.C.; and numerous individuals. Your Committee received testimony in opposition to this measure from the Biotechnology Innovation Organization; Fathers and Mothers for Children Kauai Chapter; and numerous individuals. Your Committee received comments on this measure from the Tax Foundation of Hawai'i.

Your Committee finds that "Universal Purchase" programs are programs that enable states to leverage bulk purchasing and federal immunization programs to establish a streamlined procurement, oversight, and distribution system for all recommended vaccines for children and adults. Your Committee further finds that the purchase of immunizations is done by the State and private health care providers or health systems. This practice requires private health care providers to take on considerable costs, as they must pay for their immunizations up front in addition to costs incurred for securing and storing the immunizations. Your Committee believes that establishing a Universal Immunization Funding Program in Hawaii will reduce the financial and administrative burden borne by private health care providers and systems and lower incidences of immunization-preventable diseases by increasing access to immunizations.

Your Committee has amended this measure by:

- (1) Amending the definition of "immunization";
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation of between \$2,800,000 and \$3,600,000 and an additional one-time appropriation of \$934,000 for fiscal year 2025-2026 for startup costs for the Universal Immunization Funding Program.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1115, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1115, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, 2 (Alcos, Garcia). Excused, none.

SCRep. 517 Human Services & Homelessness on H.B. No. 1100

The purpose of this measure is to:

- (1) Update the name of the Neighbor Islands Blind and Visually Impaired Service Pilot Program by replacing the term "visually impaired" with the term "low vision"; and
- (2) Clarify the Pilot Program's implementation timeframes.

Your Committee received testimony in support of this measure from the Department of Human Services; National Federation of the Blind of Hawaii; and three individuals.

Your Committee finds that access to essential services for blind and low vision residents, particularly on the neighbor islands, remains limited. Act 253, Session Laws of Hawaii 2023, established the Neighbor Islands Blind and Visually Impaired Service Pilot Program to bridge the gaps in services for blind and low vision residents across the State, particularly focusing on those living on the neighbor islands. This measure allows the Pilot Program to continue its efforts to empower blind and low vision individuals to live more independently and participate fully in their communities.

Your Committee notes that an appropriation may be needed for the staff, contracting services, and equipment necessary to implement the Neighbor Islands Blind and Low Vision Service Pilot Program.

Your Committee has amended this measure by:

- (1) Replacing references to "visually impaired" with the term "low vision" in the preamble of Act 253, Session Laws of Hawaii 2023;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and

(3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1100, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1100, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 518 Human Services & Homelessness on H.B. No. 384

The purpose of this measure is to:

- (1) Increase the penalty for promoting minor-produced sexual images to a felony if the person is more than three years older than the minor;
- (2) Extend the probationary term for felony obscenity offenses;
- (3) Toll the statute of limitations for obscenity offenses during a victim's minority; and
- (4) Require sex offender registration for felony obscenity offenses involving minors.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney for the City and County of Honolulu; Honolulu Police Department; Hawai'i Children's Action Network Speaks!; and two individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that the rise of digital platforms has increased the prevalence of the distribution of minor-produced explicit images, creating an urgent need for stronger legal deterrents. Often, predators posing as peers manipulate minors into sending compromising images, then use threats to demand further images or other forms of compliance. Existing laws inadequately address these cases, particularly when no financial extortion is involved. By increasing penalties and protections for minors, this measure emphasizes accountability and discourages the exploitation of minors in online spaces.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 384, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 384, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 519 Human Services & Homelessness on H.B. No. 703

The purpose of this measure is to extend the sunset date for the State Rent Supplement Program for Kupuna to June 30, 2028.

Your Committee received testimony in support of this measure from the Executive Office on Aging; Kūpuna Caucus of the Democratic Party of Hawai'i; Catholic Charities Hawai'i; AARP Hawai'i; and Democratic Party of Hawai'i.

Your Committee finds that Hawaii's aging population faces an increasing risk of homelessness due to rising rental costs and limited financial resources. Many kupuna rely on fixed incomes, such as Social Security, and are forced to make difficult financial choices that can negatively impact their overall well-being. Without stable housing, they may experience worsened physical and mental health, creating additional strain on health care and social services. This measure addresses these concerns by extending the sunset date for the State Rent Supplement Program for Kupuna, ensuring continued support for eligible seniors at risk of homelessness.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 703, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 703, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 520 Human Services & Homelessness on H.B. No. 689

The purpose of this measure is to establish safe harbor protections for survivors of sexual exploitation who seek medical or law enforcement assistance.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Honolulu Police Department; Imua Alliance; and three individuals.

Your Committee finds that sex trafficking is a pervasive crime that preys on society's most vulnerable, including minors and historically marginalized communities. Survivors of sexual exploitation often face immense barriers to seeking help, including fear of prosecution, social stigma, and prolonged trauma. This measure addresses these issues by establishing safe harbor protections for survivors who seek medical or law enforcement assistance, ensuring they are not criminalized for their own exploitation.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 689, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 689, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 521 Human Services & Homelessness on H.B. No. 1283

The purpose of this measure is to:

- (1) Establish an exemption from mediation in paternity proceedings where there are allegations of domestic abuse; and
- (2) Clarify the exemption from mediation in divorce proceedings as it relates to domestic abuse.

Your Committee received testimony in support of this measure from the Judiciary; Hawai'i State Coalition Against Domestic Violence; Hawai'i Children's Action Network Speaks!; and three individuals.

Your Committee finds that the legal system plays a critical role in ensuring that survivors of domestic violence are not further harmed during legal proceedings, particularly in paternity and custody cases. Without proper safeguards, mediation can become another avenue for an abuser to exert control, creating additional emotional and psychological distress for survivors. This measure addresses these concerns by establishing an exemption from mediation in paternity proceedings where there are allegations of domestic abuse while also clarifying similar exemptions in divorce cases, ensuring that legal proceedings do not become a tool for further abuse.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1283, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1283, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 522 Human Services & Homelessness on H.B. No. 963

The purpose of this measure is to establish strict liability for crimes against elders with respect to the attendant circumstance that the victim was sixty years of age or older.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney for the City and County of Honolulu; AARP Hawai'i; and three individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that elderly individuals are particularly vulnerable to violent crimes due to physical, cognitive, and social factors. Under existing law, assault against a person aged sixty or older is subject to enhanced penalties, but prosecutors must prove that the offender "knew or should have known" the victim's age. This requirement often hinders prosecution, as many assaults on elders involve random acts of violence where intent regarding age is difficult to establish. By strengthening protections for elders, this measure ensures that perpetrators are held accountable for the actual harm they inflict and further reinforces the State's commitment to safeguarding its elderly population.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 963, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 963, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 523 Human Services & Homelessness on H.B. No. 244

The purpose of this measure is to appropriate funds for the Department of Human Services to collaborate with community-based organizations to address the need for social services in the State.

Your Committee received testimony in support of this measure from the Hawai'i Youth Services Network; Hawaii Substance Abuse Coalition; Share Your Mana; Community Alliance on Prisons; Hina Mauka; Hawai'i Children's Action Network Speaks!; Hawai'i True Cost Coalition; Aloha United Way; Catholic Charities Hawai'i; Child & Family Service; Epic 'Ohana; Goodwill Hawaii; Hawai'i Health & Harm Reduction Center; The Institute for Human Services, Inc.; Lanakila Pacific; The Meditation Center of the Pacific, Inc.; Maui Economic Opportunity, Inc.; Partners in Development Foundation; Responsive Caregivers of Hawaii; Samaritan Counseling Center Hawaii; YMCA of Honolulu; Parents And Children Together; YWCA Kaua'i; Adult Friends for Youth; AlohaCare; Hawai'i Foodbank; Hawai'i State Coalition Against Domestic Violence; and two individuals. Your Committee received comments on this measure from the Department of Human Services and one individual.

Your Committee finds that vulnerable populations in Hawaii, including individuals experiencing homelessness, children, and those in need of mental health or social services, face increasing challenges due to rising service demands and stagnant government contract funding. Community-based organizations play a critical role in delivering these essential services, yet many struggle with inadequate funding that fails to cover full program costs. Without increased support from the State, these organizations may be forced to reduce services or cease operations. This measure provides increased funding to the Department of Human Services to strengthen partnerships with community-based organizations, ensuring continued access to vital programs that support the well-being and stability of Hawaii's most vulnerable residents.

Your Committee has amended this measure by:

- (1) Inserting language to ensure equitable distribution of allocated funds to the various divisions within the Department of Human Services with contracted community-based organizations;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$21,294,990 for child protective services (HMS 301); \$205,985 for adult protective and community care services (HMS 601); \$1,513,789 for vocational rehabilitation (HMS 802); \$3,034,623 for homeless services (HMS 224); \$1,023,620 for general support for child care (HMS 302); \$10,652,886 for general support for self-sufficiency (HMS 903); \$1,358,859 for general support for health care payments (HMS 902); and \$2,317,212 for in-community youth programs (HMS 501).

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 244, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 244, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Garcia). Noes, none. Excused, none.

SCRep. 524 Human Services & Homelessness on H.B. No. 613

The purpose of this measure is to appropriate funds to the Department of Human Services to provide emergency shelter and services to unaccompanied homeless youth.

Your Committee received testimony in support of this measure from the Statewide Office on Homelessness and Housing Solutions; Office of the Public Defender; Office of Youth Services; Pride at Work – Hawai‘i; Stonewall Caucus of the Democratic Party of Hawai‘i; Hawaii Substance Abuse Coalition; Hawai‘i State LGBTQ+ Commission; Democratic Party of Hawai‘i; Residential Youth Services & Empowerment; O‘ahu Youth Action Board; Opportunity for Youth Action Hawai‘i; Hawai‘i Health & Harm Reduction Center; Hawai‘i Youth Services Network; and three individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that Hawaii is facing a growing crisis of youth homelessness, with one in ten young adults and one in thirty adolescents experiencing homelessness without a parent or guardian each year. Homeless youth are highly vulnerable to serious risks, including lack of basic needs, mental health challenges, substance use, and physical victimization. Despite the urgent need, outreach and shelter services remain limited and addressing these gaps requires expanding access to safe shelter through programs like the Safe Spaces for Youth Pilot Program, which is set to end on June 30, 2025. Your Committee finds that it is important to make the Safe Spaces for Youth Program permanent, thereby ensuring continued access to safe housing, mental health treatment, and supportive services for vulnerable youth across the State.

Your Committee has amended this measure by:

- (1) Inserting language to make the Safe Spaces for Youth Pilot Program a permanent program within the Office of Youth Services;
- (2) Replacing the appropriation to provide emergency shelter and services to unaccompanied homeless youth throughout the State with an appropriation to fund the permanent Safe Spaces for Youth Program within the Office of Youth Services;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider:

- (1) An appropriation amount of \$841,016 for fiscal year 2025-2026 and \$871,016 for fiscal year 2026-2027; and
- (2) An effective date of June 29, 2025, for all but the appropriation section in this measure, to avoid any unnecessary gaps between the repeal of the Safe Spaces for Youth Pilot Program and the establishment of the program as a permanent program.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 613, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 613, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, 2 (Alcos, Garcia). Excused, none.

SCRep. 525 Consumer Protection & Commerce on H.B. No. 480

The purpose of this measure is to streamline the approval process for functional capacity exams to ensure automatic approval of such exams when requested by the attending physician for an injured employee under certain conditions.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Department of Human Resources Development; Hawaii Insurers Council; and Hawaii Medical Association. Your Committee received testimony in opposition to this measure from the Office of the Mayor of the County of Maui. Your Committee received comments on this measure from one individual.

Your Committee finds that a functional capacity exam is a set of tests that are used to identify the patient's physical skills, functional capabilities, activity endurance, and work tolerances, typically administered by a trained and licensed provider, such as an occupational therapist or physical therapist. Employers understand well the importance of prompt evaluation as the functional capacity exam informs the clinical care team of possible diagnoses, treatments, and recovery. Additionally, the functional capacity exam provides an objective assessment that assists with future job modifications and the safe gradual transition back to work, decreasing risks for reinjury or long-term disability. This measure provides a reasonable step to decrease unnecessary and harmful delays for patients by eliminating employer permission for functional capacity exams in certain circumstances.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 480, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 526 Consumer Protection & Commerce on H.B. No. 139

The purpose of this measure is to require insurers, mutual benefit societies, and health maintenance organizations to provide coverage for standard fertility preservation services for policies, contracts, plans, and agreements issued or renewed after December 31, 2025.

Your Committee received testimony in support of this measure from the Leukemia & Lymphoma Society; American Cancer Society Cancer Action Network; Hawaii Society of Clinical Oncology; FORCE: Facing Our Risk of Cancer Empowered; Fertility Institute of Hawaii; Advanced Reproductive Medicine and Gynecology of Hawaii, Inc.; Hawaii Association of Health Plans; Hawaii Medical Service Association; and five individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Office of the Auditor.

Your Committee finds that some cancer treatments can cause iatrogenic infertility when chemotherapy, radiation, and surgery damage reproductive cells, reproductive organs, or endocrine functioning. These treatments can also adversely impact the ability to carry a pregnancy. Although patients facing iatrogenic infertility have recognized, effective options for preserving fertility, the high cost of these procedures and the narrow window to obtain services means these

procedures are unattainable for many people. This measure assists in the offsetting of those costs by mandating coverage for standard fertility preservation services.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 139, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 139, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 527 Consumer Protection & Commerce on H.B. No. 47

The purpose of this measure is to:

- (1) Authorize the Division of Animal Industry of the Department of Agriculture to adopt, amend, and repeal rules to develop an assessment and approval process to import and move aquatic livestock in the State; and
- (2) Require and appropriate funds for the Division of Animal Industry to develop that process through a biological aquatic risk-based framework.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Invasive Species Council; Agribusiness Development Corporation; Hawai'i Food+ Policy; Kowa Premium Foods Hawaii Corporation – Big Island Abalone; Hawaii Aquaculture and Aquaponics Association; Hawai'i Farm Bureau; Kohala Mountain Fish Company; Hawai'i Farmers Union; and two individuals.

Your Committee finds that the State is home to some of the most unique and biodiverse marine ecosystems in the world. However, these ecosystems are highly sensitive to external influences, including the introduction of non-native aquatic species. Without a robust and comprehensive approval process, there is a significant risk of introducing invasive species, pathogens, or other harmful elements that could disrupt native habitats and harm local fisheries. This measure provides authority for the development of a comprehensive assessment and approval process to protect the environment and resources.

Your Committee has amended this measure by:

- (1) Specifying that the development of the biological aquatic risk-based framework is to be under the direction and oversight of the State Aquaculture Veterinarian; and
- (2) Specifying that aquatic animal import permits valid on the effective date of the measure and that were vetted in public hearing and approved by the Plant and Animal Committee and the Board of Agriculture shall be carried over to the Division of Animal Industry and remain in force.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 47, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 47, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 528 Consumer Protection & Commerce on H.B. No. 470

The purpose of this measure is to:

- (1) Increase penalties for violations of leaf blower and weed whacker restrictions;
- (2) Repeal the exemption for government entities from leaf blower restrictions; and
- (3) Beginning July 1, 2028, prohibit the sale of leaf blowers, string trimmers, and weed whackers rated by their manufacturers at greater than sixty-five weighted decibels when measured at a distance of fifty feet.

Your Committee received testimony in support of this measure from seven individuals. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii. Your Committee received comments on this measure from the Department of Education and Department of Health.

Your Committee finds that chronic noise pollution causes a wide variety of adverse health effects, including hearing damage, sleep disturbance, stress, anxiety, depression, impaired cognitive function, and increased cardiovascular effects. The operation of loud leaf blowers, string trimmers, and weed whackers creates a nuisance in many of the State's communities and can detract from the quality of life for residents. This measure therefore regulates the future sale of this equipment after a reasonable period of adjustment, which will reduce nuisance and harm to public health and well-being.

Your Committee has amended this measure by:

- (1) Specifying that the prohibition applies to leaf blowers, string trimmers, and weed whackers that do not meet the ANSI B-175.2 class 1 rating, rather than those rated by the manufacturers at greater than sixty-five weighted decibels;
- (2) Restoring the exemption for government entities from the leaf blower restrictions;
- (3) Beginning July 1, 2028, prohibiting government entities from purchasing leaf blowers, string trimmers, and weed whackers that do not meet the ANSI B-175.2 class 1 rating; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 470, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs in the form attached hereto as H.B. No. 470, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 1 (Kong). Excused, none.

SCRep. 529 Consumer Protection & Commerce on H.B. No. 72

The purpose of this measure is to:

- (1) Require, beginning January 1, 2026, that:
 - (A) Pharmacy technicians be registered with the Board of Pharmacy; and

- (B) Pharmacies only employ registered pharmacy technicians to perform pharmacy technician duties;
- (2) Impose a duty on pharmacists-in-charge to report violations conducted by registered pharmacy technicians; and
- (3) Specify that supervising registered pharmacists are responsible for the actions of registered pharmacy technicians and pharmacy interns.

Your Committee received testimony in support of this measure from the University of Hawai‘i at Hilo; Hawaii Pharmacists Association; Walgreen Co.; KTA Pharmacy; Moloka‘i Drugs, Inc.; and seven individuals. Your Committee received comments on this measure from the Board of Pharmacy.

Your Committee finds that pharmacy technicians play an essential role in supporting pharmacists and ensuring the safe and efficient delivery of medications. Under the supervision of a pharmacist in the community setting, pharmacy technicians can fill and dispense medications, process insurance claims, and with additional training, administer vaccinations. In the hospital setting, pharmacy technicians are relied upon to support the compounding of intravenous medications and to stock medication cabinet and other medication delivery systems.

Your Committee further finds that Hawaii is the only state in the nation without an active and managed registry of practicing pharmacy technicians. This lack of oversight presents challenges in ensuring consistent training, competency, and accountability within the pharmacy technician workforce. As such, your Committee finds that the regulation of pharmacy technicians is reasonably necessary to protect the health, safety, and welfare of the consumers of this State.

Accordingly, your Committee has amended this measure by:

- (1) Specifically exempting this measure from the requirements for a sunrise analysis by the Office of the Auditor; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 72, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 72, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 530 Consumer Protection & Commerce on H.B. No. 1054

The purpose of this measure is to require, for certain professions, the Director of Commerce and Consumer Affairs and licensing boards to automatically revoke and refuse to renew, restore, or reinstate the professional licenses, registrations, or certifications of registered sex offenders.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Board of Physical Therapy; Board of Dentistry; Board of Massage Therapy; Board of Chiropractic; Hawaii Medical Board; Board of Speech Pathology and Audiology; and Honolulu Police Department. Your Committee received comments on this measure from the Board of Psychology; Board of Naturopathic Medicine; Board of Optometry; Board of Barbering and Cosmetology; Board of Nursing; and Board of Acupuncture.

Your Committee finds that under existing law, persons subject to administrative disciplinary actions are afforded a notice and an opportunity for a hearing. However, in instances where the person of interest has been convicted of a sexual offense, the delay in imposing a disciplinary action, including the revocation of a professional license, registration, or certification, places the public at serious risk. This measure promotes consumer protection by requiring the Director of Commerce and Consumer Affairs and certain licensing boards to automatically revoke and refuse to renew, restore, and reinstate the professional licenses, registrations, or certifications of registered sex offenders.

Your Committee has amended this measure by:

- (1) Clarifying that the authority to automatically revoke or deny an application to renew, restore, or reinstate applies to persons who are currently required to register as a sex offender pursuant to the requirements of the sex offender registration laws;
- (2) Clarifying that the Director of Commerce and Consumer Affairs or the licensing board, as appropriate, shall not restore, renew, or reinstate a license, registration, or certification in the case where:
 - (A) The person has been required to register as a sex offender; and
 - (B) The victim of the covered offense was a patient or client, or a former patient or client, if the relationship was terminated primarily for the purpose of committing the covered offense;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1054, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1054, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Iwamoto). Noes, none. Excused, 2 (Kong, Lowen).

SCRep. 531 Health on H.B. No. 715

The purpose of this measure is to:

- (1) Require the Department of Health to issue a certificate of stillbirth upon request of the parent or parents named on a fetal death certificate issued in a case of a stillbirth; and
- (2) Appropriate funds for the Department of Health to modify the fetal death reporting system, certificate ordering system, and retaining of personnel necessary to implement this measure.

Your Committee received testimony in support of this measure from the Association of Hawaiian Civic Clubs; Elizabeth Kahanu Hawaiian Civic Club; Moku o Manokalanipō, The Kaua‘i Council of the Association of Hawaiian Civic Clubs; and two individuals. Your Committee received comments on this measure from the Department of Health and Planned Parenthood Alliance Advocates - Hawai‘i.

Your Committee finds that the loss of a baby due to stillbirth remains a sad reality for many families and can take a serious toll on a family's health and well-being. A certificate acknowledging a stillbirth can be a meaningful part of the grieving and healing process.

Your Committee has heard the concerns raised in testimony by the Department of Health, that this measure creates a new vital record that may conflict with existing statutes and may create unintended consequences relating to reproductive health and access to abortions. Your Committee appreciates these concerns and believes that an appropriate alternative would be to authorize the Department of Health to issue a commemorative certificate, which has no legal standing and would not conflict with the United States Standard of Certificates of Birth, Death, and Fetal Death.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its substantive contents requiring the issuance of certificates of stillbirth and appropriating funds, and inserting language that:
 - (A) Authorizes the Department of Health to issue commemorative certificates of stillbirth, subject to certain conditions;
 - (B) Establishes an unspecified amount of fees for commemorative certificates of stillbirth, to be deposited into the Vital Statistics Improvement Special Fund;
 - (C) Specifies that a commemorative certificate of stillbirth shall not be prima facie evidence of facts and has no valid legal standing as a bona fide government record and requires a disclaimer on the back of the commemorative certificate indicating the same; and
 - (D) Amends the purpose of the Vital Statistics Improvement Special Fund to accept fees remitted from issuance of commemorative certificates of stillbirth;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 715, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 715, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 532 Health on H.B. No. 1118

The purpose of this measure is to prohibit new non-medical immunization exemptions for school-aged children, while preserving existing non-medical exemptions granted for the 2024-2025 school year.

Your Committee received testimony in support of this measure from the Department of Health; Hawai'i State Council on Developmental Disabilities; American Academy of Pediatrics, Hawai'i Chapter; Hawai'i Pacific Health; Hawai'i Public Health Institute; American Atheists; and numerous individuals. Your Committee received testimony in opposition to this measure from one member of the Kauai County Council; Hawaiian Islands Republican Women; Hawaii For Informed Consent; Yeshua Nation of Amnesty Coalition; Hawaii Federation of Republican Women; Christian Science Committee on Publication for Hawaii; National Vaccine Information Center; Say His Name Foundation; Hawaii Christian Coalition; Ka Ohana O Na Pua; Libertarian Party of Hawaii; and numerous individuals. Your Committee received comments on this measure from the Department of the Attorney General and Department of Education.

Your Committee finds that school entry immunization requirements have been shown to be effective in improving immunization coverage rates, thereby reducing disease incidence. High immunization rates are important at schools to protect medically fragile children, especially children who are unable to be immunized and must rely on their vaccinated peers to prevent the introduction of vaccine preventable diseases in schools.

Your Committee further finds that decreasing immunization coverage due to non-medical exemptions increases the risk for vaccine-preventable disease outbreaks that can be fatal to children. For the 2015–2016 school year in the State, the rate of non-medical immunization exemption was 2.5 percent. The rate of non-medical immunization exemption more than doubled to 5.3 percent for the 2023–2024 school year. The rate of non-medical exemptions varied by school with fifty-five of the three hundred eighty-two schools that reported for school year 2023-2024 having a non-medical immunization exemption rate greater than ten percent.

Your Committee believes that since the health and safety of the State's children are paramount, there is a compelling state interest in protecting the public against deadly diseases, especially considering an increasing trend in non-medical immunity exemptions, while honoring certain non-medical exemptions that previously have been approved. This measure will minimize exemptions from school immunization requirements to improve the health and safety of school-aged children in the State.

Your Committee has amended this measure by:

- (1) Clarifying that, for purposes of the state law relating to communicable diseases, a person may object in writing on the grounds that immunization conflicts with the person's bona fide religious tenets and practices;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1118, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1118, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Olds). Noes, 2 (Alcos, Garcia). Excused, none.

SCRep. 533 Labor on H.B. No. 989

The purpose of this measure is to:

- (1) Update the requirements for plans filed with the Registrar's Office;
- (2) Require the filing fees to conform with fee schedules adopted in Hawaii Administrative Rules; and
- (3) Authorize the Department of Accounting and General Services to approve the format of plans and drawing scales.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services and one individual.

Your Committee finds that the State's filing and approval process for plans to develop land can be inefficient, costly, and wasteful. Your Committee also finds that when a plan is deemed to be unsatisfactory from which copies cannot be made, submission of certified copies and certification letters are required which further delay the filing of plans and creates unnecessary paper waste. Your Committee believes that this measure increases the efficiency of filing plans

by updating the required materials on which plans can be drawn on and streamlining the approval process to the Department of Accounting and General Services.

Your Committee has amended this measure by:

- (1) Clarifying that filing fees are pursuant to rules adopted by the Department of Accounting and General Services;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 989, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 989, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 534 Labor on H.B. No. 90

The purpose of this measure is to:

- (1) Amend payroll requirements for public officers and employees by requiring them to be paid pursuant to a predicted payroll schedule, rather than an after-the-fact payroll schedule; and
- (2) Appropriate funds to the Department of Accounting and General Services to establish positions to process and perform tasks related to payroll processing and for costs to convert employees to predicted payroll schedules.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and United Public Workers, AFSCME Local 646, AFL-CIO. Your Committee received comments on this measure from the Department of Accounting and General Services.

Your Committee finds that changing payroll requirements for public officers and employees from after-the-fact to a predicted payroll schedule holds the State and counties accountable to pay their employees in a timely manner. Your Committee also finds it is a priority for the State to be a responsible employer and maintain the integrity of the payment process for its employees. Your Committee believes that this measure improves payroll schedules to ensure public officers and employees are paid in a timely manner.

Your Committee has amended this measure accordingly by:

- (1) Extending the implementation dates by one year, to provide adequate time for the Department of Accounting and General Services to implement the conversion to predicted payroll schedules;
- (2) Clarifying that the appropriations for the costs of converting employees to predicted payroll schedules are for fiscal years 2025-2026 and 2026-2027;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$172,000,000 for fiscal years 2025-2026 and 2026-2027 for the Department of Accounting and General Services to implement this change.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 90, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 90, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 535 Labor on H.B. No. 1388

The purpose of this measure is to:

- (1) Establish an additional category of retirants who may be employed without re-enrollment in the Employees' Retirement System and without loss or interruption of benefits for positions that are recognized by the Department of Law Enforcement or Department of the Attorney General as labor shortage or difficult-to-fill positions; and
- (2) Require the Director of Human Resources of the appropriate state jurisdiction to include details on the employment of retirants as investigators in the annual report to the Legislature.

Your Committee received testimony in support of this measure from the Department of the Attorney General and Department of Law Enforcement. Your Committee received comments on this measure from the Employees' Retirement System.

Your Committee finds that the public sector of the State is experiencing a labor shortage and has instituted various methods to fill vacancies with qualified candidates. Your Committee believes that retirants are valuable and experienced candidates that can be used to fill investigator vacancies in the Department of Law Enforcement and Department of the Attorney General.

Your Committee has amended this measure accordingly by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1388, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1388, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 536 Labor on H.B. No. 841

The purpose of this measure is to:

- (1) Repeal statutory language prohibiting retirants from being rehired in teacher shortage areas or hard-to-fill positions within twelve calendar months of leaving employment with the State or a county;
- (2) Prohibit rehired retirants from receiving additional employment benefits; and
- (3) Require the Department of Education to establish procedures to identify teacher shortage areas and hard-to-fill positions.

Your Committee received testimony in support of this measure from the Hawai'i State Teachers Association. Your Committee received testimony in opposition to this measure from the Department of the Attorney General. Your Committee received comments on this measure from the Department of Education and Employees' Retirement System.

Your Committee finds that the State is experiencing a labor shortage and has instituted various methods to fill vacancies with qualified candidates. Your Committee also finds that a successful method is to hire qualified and experienced retirees for certain positions. Your Committee believes that this measure incentivizes retirees to return to the workforce by ensuring their retirement benefits are not disrupted or lost while they occupy certain positions in the Department of Education.

Your Committee has amended this measure accordingly by:

- (1) Changing the waiting period that retirants may be rehired from twelve calendar months of leaving employment with the State or a county to six calendar months; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 841, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 841, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 537 Labor on H.B. No. 214

The purpose of this measure is to:

- (1) Establish an additional category of retirants who may be employed without re-enrollment in the Employees' Retirement System and without loss or interruption of retirement benefits for positions that are recognized by the Department of Education or Department of the Attorney General as a labor shortage or difficult-to-fill position; and
- (2) Require the Director of Human Resources of the appropriate state jurisdiction to include details on the employment of retirants as school resource officers or investigators in their annual report to the Legislature.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of Education; and Department of Law Enforcement.

Your Committee finds that the State is experiencing a labor shortage and has instituted various methods to fill vacancies with qualified candidates. Your Committee also finds that a successful method is to hire qualified and experienced retirees for certain positions. Your Committee believes that this measure incentivizes retirees to return to work by ensuring their retirement benefits are not disrupted or lost while they occupy certain labor shortage or difficult-to-fill positions.

Your Committee has amended this measure accordingly by:

- (1) Changing the host department for school resource officers to the Department of Law Enforcement;
- (2) Changing the break in service period for retirees covered by this measure from twelve months to six months; and
- (3) Changing the defective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 214, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 214, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 538 Labor on H.B. No. 1152

The purpose of this measure is to permanently exempt the following positions from civil service:

- (1) The software developer supervisor in the Department of Taxation; and
- (2) The data privacy officer and tax business analysts in the Office of the Director of Taxation.

Your Committee received testimony in support of this measure from the Department of Taxation. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the Department of Taxation is working to modernize the State's tax filing system. Your Committee also finds that the Department of Taxation is seeking to join the Internal Revenue Service Direct File Program in 2026 and reduce reliance on third-party vendor services to implement complex system changes. Your Committee further finds that the software developer supervisor position is hard to retain in the State's employment because the private sector provides highly competitive offers for that type of position. Your Committee believes that this measure will support the efforts of the Department of Taxation to modernize the State's tax filing system by exempting these positions from civil service, which will help to attract specialized and experienced candidates.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1152, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1152, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 539 Labor on H.B. No. 477

The purpose of this measure is to:

- (1) Repeal the statutory definitions of "registered for work" or "registration for work";
- (2) Repeal the statutory requirement to post work availability online;
- (3) Amend eligibility qualifications for certain unemployment benefits;
- (4) Beginning April 1, 2027, permit electronic notification of determinations or redeterminations of unemployment claims; and
- (5) Remove language that limits an individual's ability to change a previously elected withholding status only once during a benefit year.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations.

Your Committee finds that the State's unemployment system as it relates to certain requirements is inefficient and limiting for individuals who are already facing difficult circumstances. Your Committee also finds that modernizing the system can greatly improve the communication between the Department of Labor and Industrial Relations and unemployed individuals who are using the system for unemployment benefits. Your Committee believes that this measure supports unemployed individuals by expanding the qualifications to receive certain unemployment benefits and improves the system including electronic methods of notification.

Your Committee has amended this measure by:

- (1) Retaining the statutory definitions of "registered for work" or "registration for work";
- (2) Repealing the statutory provision which allows employers to combine accounts to be constituted as a single employer's account as it relates to contribution rates;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 477, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 477, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 540 Labor on H.B. No. 880

The purpose of this measure is to:

- (1) Require the Department of Human Resources Development to reclassify certain positions within the Early Childhood Services unit of the Department of Health Early Intervention Section; and
- (2) Appropriate funds for the reclassification of certain positions and establishment of Mental Health Specialist positions within the Early Childhood Services Unit of the Department of Health Early Intervention section.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning; Department of Health; Hawai'i Early Intervention Coordinating Council; Early Childhood Action Strategy; Commit to Keiki; Association for Infant Mental Health in Hawai'i; and five individuals. Your Committee received comments on this measure from the Department of Human Resources Development.

Your Committee finds that the State faces a critical shortage of certain early intervention specialists which negatively impacts the amount of developmental support the State can provide to infants under the age of three who exhibit developmental or learning delays. Your Committee believes that this measure addresses the shortage of early intervention employees that can provide early intervention services by appropriating funds to establish new positions within the Early Childhood Services Unit of the Department of Health.

Your Committee has amended this measure by:

- (1) Removing language that would require the Department of Human Resources Development to reclassify certain positions; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 880, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 880, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 541 Labor on H.B. No. 874

The purpose of this measure is to:

- (1) Require a parent or legal guardian of a minor in theatrical employment to establish a trust account for the minor with an independent third-party trustee;
- (2) Require the employer of a minor in theatrical employment to deposit at least 15 percent of the minor's gross earnings into the trust account until the child becomes an adult; and
- (3) Clarify that theatrical employment, as used in the State's child labor law, includes gainful employment as a social media influencer.

Your Committee received testimony in support of this measure from the Hawaii State AFL-CIO; SAG-AFTRA Hawai'i Local; Pride at Work-Hawai'i; and two individuals. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that a child in theatrical employment deserves financial protection for their earnings. Your Committee also finds that establishing a mandatory trust account for the child's earnings provides financial protection and limits the possibility for wage theft. Your Committee recognizes the intent of including social media influencers under the State's child labor law, however your Committee does not believe that there are sufficient regulations in place to enforce the requirements under this measure, as it relates to social media influencers.

Your Committee has amended this measure by:

- (1) Removing language that would include social media influencers under the definition of "theatrical employment" in the State's Child Labor Law; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 874, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Consumer Protection & Commerce in the form attached hereto as H.B. No. 874, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 542 Labor on H.B. No. 161

The purpose of this measure is to:

- (1) Repeal statutory prohibition on certain employees that are exempt from civil service law from grieving a suspension or discharge; and
- (2) Adds language to allow any employee who is a member of an appropriate bargaining unit to grieve a suspension or discharge.

Your Committee received testimony in support of this measure from the United Public Workers, AFSCME Local 646, AFL-CIO; Hawaii State AFL-CIO; Pride at Work-Hawai'i; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and one individual. Your Committee received testimony in opposition to this measure from the Department of Human Resources Development. Your Committee received comments on this measure from the Department of Human Resources Development of the City and County of Honolulu.

Your Committee finds that there has been a substantial increase in exempt employees in the State. Your Committee also finds that under existing law, employees exempt from civil service law are classified as "at will" and do not have the right to file a grievance for a suspension or discharge. Your Committee believes that this measure supports the State's commitment to fair labor practices by providing a large portion of the State's workforce the right to grieve a suspension or discharge.

Your Committee has amended this measure by:

- (1) Adding specific language to include exempt employees not covered by a collective bargaining agreement; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 161, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 161, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 543 Labor on H.B. No. 1172

The purpose of this measure is to:

- (1) Include the Department of Taxation in the list of state agencies sharing data through the statewide longitudinal data system; and
- (2) Authorize the Department of Taxation to share certain wage data with the University of Hawaii and other state agencies.

Your Committee received testimony in support of this measure from the Department of Taxation; University of Hawai'i System; and Hawai'i P-20 Partnerships for Education. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the State's current workforce data is incomplete without the data from the Department of Taxation. Your Committee also finds that educational institutions, such as the University of Hawaii, use workforce data to determine post-graduate outcomes and labor market trends in the State. Your Committee believes that this measure will support educational institutions in conducting more accurate and comprehensive analyses of post-graduate outcomes, which can provide further insight on programs to improve educational and workforce outcomes.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1172, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 544 Labor on H.B. No. 1059

The purpose of this measure convert the Emergency Management Specialist series positions at level V and higher in the Hawaii Emergency Management Agency from civil service status to exempt status.

Your Committee received testimony in support of this measure from the Department of Defense and Hawai'i Emergency Management Agency. Your Committee received testimony in opposition to this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and one individual.

Your Committee finds that incentives commonly used to attract qualified candidates for civil service positions, such as pay differentials, have not succeeded in filling the vacancies within the Hawaii Emergency Management Agency. Your Committee also finds that the Hawaii Emergency Management Agency identified nine crucial positions that need to be filled, of which only one position was filled within the last two years. Your Committee believes that this measure can address the vacancies in the Hawaii Emergency Management Agency by exempting certain positions from civil service status.

Your Committee would like to note, however, its concern in how the conversion to exempt status for these positions will negatively impact the job security of the individual who filled one of those vacant positions and would like to further work with the Hawaii Emergency Management Agency to maintain that individual's civil service status.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1059, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 545 Public Safety on H.B. No. 596

The purpose of this measure is to clarify the types of events that constitute disasters and emergencies for the purposes of emergency management.

Your Committee received testimony in support of this measure from the Grassroot Institute of Hawaii and one individual. Your Committee received testimony in opposition to this measure from the Hawai'i Emergency Management Agency.

Your Committee finds that this measure establishes a clearer statutory definition of the events that constitute an "emergency" or "disaster", which would limit the potential for executive overreach via emergency orders and restore the constitutional balance of powers.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 596, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 596, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 1 (Woodson).

SCRep. 546 Public Safety on H.B. No. 673

The purpose of this measure is to:

- (1) Prohibit the Governor or a mayor from suspending requests for certain public records or vital records or statistics during a state of emergency;
- (2) Limit the authority of the Governor or a mayor to suspend laws during states of emergency; and
- (3) Allow the Legislature and county councils to terminate, by an affirmative two-thirds vote, a state of emergency, in whole or in part, issued by the Governor or a mayor, respectively.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii; Grassroot Institute of Hawaii; and one individual. Your Committee received testimony in opposition to this measure from the Hawai'i Emergency Management Agency. Your Committee received comments on this measure from the Department of Human Services and Office of Information Practices.

Your Committee finds that this measure clarifies state and county emergency management authority, supports effective and adaptable emergency responses, and maintains accountability and checks and balances within the framework of the Hawaii State Constitution.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 673, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 673, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 1 (Woodson).

SCRep. 547 Public Safety on H.B. No. 1096

The purpose of this measure is to repeal the statutorily established tenant selection preferences for disabled veterans and spouses of deceased veterans in the State Low-Income Housing Program.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority.

Your Committee finds that because tenant selection preferences for the State Low-income Housing Program are currently codified in statute, it can be difficult for the Hawaii Public Housing Authority to adjust policies in response to evolving housing needs. Your Committee further finds that this measure does not eliminate housing assistance for veterans or their spouses but rather modernizes how preferences are managed, ensuring greater flexibility and responsiveness in addressing housing needs statewide.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1096, H.D. 1, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 3 (Ichiyama, Poepoe, Woodson).

SCRep. 548 Transportation on H.B. No. 1154

The purpose of this measure is to, beginning September 30, 2025, require the Director of Transportation to propose to the Governor an adjustment to the amount transferred from the State Highway Fund, Airport Revenue Fund, and Harbor Special Fund by:

- (1) Limiting the deduction to five percent of all receipts and deposits into the funds or \$5,000,000, whichever is less; and
- (2) Creating a process to deduct additional amounts based on the Consumer Price Index.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that a set percentage is deducted from the State Highway Fund, Airport Revenue Fund, and Harbor Special Fund, but there is no way to know in advance how much will be available to pay for central service expenses. This measure provides certainty by setting an amount that will be deducted from each fund while also addressing increases in the cost of government services due to inflation by allowing for additional deductions from each fund based on the Consumer Price Index.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1154, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1154, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Cochran, Pierick).

SCRep. 549 Transportation on H.B. No. 1162

The purpose of this measure is to prohibit the issuance of a motorcycle instruction permit unless the person successfully completes a basic motorcycle rider course approved by the Department of Transportation.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that between 2019 and 2023, there were one hundred twenty-three motorcycle fatalities on Hawaii's roadways, with sixty-three of those victims driving without a motorcycle license. This measure ensures the safety motorcycle operators and other users of roads by ensuring motorcycle operators are adequately trained before operating a motorcycle on public roads.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1162, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1162, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 550 Transportation on H.B. No. 1387

The purpose of this measure is to lower the blood alcohol concentration threshold for driving while under the influence of an intoxicant.

Your Committee received testimony in support of this measure from the Office of the Governor; Department of Transportation; Department of Health; one member of the Hawai'i County Council; Hawai'i Police Department; Department of the Prosecuting Attorney for the City and County of Honolulu; Office of the Prosecuting Attorney of the County of Hawai'i; Hawaii Substance Abuse Coalition; AAA Hawai'i; Hina Mauka; Mothers Against Drunk Driving; ProArts Playhouse Maui; Lokahi Treatment Centers; Hawai'i Alcohol Policy Alliance; Mala Hanai Pua LLC; Advocates for Highway & Auto Safety; Coalition for a Drug-Free Hawaii; Hawai'i Bicycling League; SparksInitiatives; Pure Jiu-Jitsu; and numerous individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender. Your Committee received comments on this measure from the National Transportation Safety Board.

Your Committee finds that between 2012 and 2021, there were three hundred fifty-four fatalities involving a driver with a blood alcohol concentration of greater than 0.08 in Hawaii. Your Committee further finds that although existing law makes it an offense to operate a vehicle with a blood alcohol concentration of 0.08 or higher, impairment begins much earlier at a blood alcohol concentration of 0.05. A driver with a blood alcohol concentration of 0.05 can experience lowered alertness, reduced coordination, impaired judgement, and difficulty tracking movements. Your Committee further finds that in 2019, Utah lowered its blood alcohol concentration limit to 0.05 and found a fatal crash rate reduction of 19.8 percent in the first year after the new lower rate was put into place. Your Committee believes that reducing the threshold for blood alcohol concentration will save lives and improve the safety of the State's roadways.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1387, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1387, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 551 Transportation on H.B. No. 387

The purpose of this measure is to amend the offense of negligent injury in the first degree to include bodily injury to another person by operation of a vehicle in a negligent manner while under the influence of alcohol or drugs.

Your Committee received testimony in support of this measure from the Department of Transportation; Department of the Prosecuting Attorney of the City and County of Honolulu; Office of the Prosecuting Attorney of the County of Hawai'i; and Office of the Prosecuting Attorney of the County of Kaua'i. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that impaired driving continues to pose a significant threat to public safety, often resulting in serious injuries or fatalities. Despite existing laws, cases where bodily injury occurs due to negligent operation while under the influence of an intoxicant require stronger deterrence and accountability. This measure addresses this issue by expanding the offense of negligent injury in the first degree to include bodily injury caused by impaired or negligent driving.

Your Committee notes the concerns and suggestions raised in written testimony from the Office of the Public Defender and respectfully requests your Committee on Judiciary & Hawaiian Affairs, should it deliberate on this measure, to consider the suggestions of the Office of the Public Defender.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 387, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 387, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 552 Transportation on H.B. No. 1286

The purpose of this measure is to prohibit pedestrians from walking along the roadway of an interstate highway, auxiliary interstate highway, or certain state highways, except while conducting authorized first responder duties or highway maintenance duties.

Your Committee received testimony in support of this measure from the Department of Transportation and one individual. Your Committee received comments on this measure from Ulupono Initiative.

Your Committee finds that pedestrian safety is a growing concern where high-speed traffic and limited pedestrian infrastructure pose significant risks. Incidents involving pedestrians on highways have led to severe injuries and fatalities, highlighting the need for stricter regulations to protect public safety. This measure will reduce potential accidents and enhance road safety for vehicles and pedestrians on the State's roads.

Your Committee notes the concerns raised in written testimony by Ulupono Initiative that this measure could disproportionately impact communities that rely on vital, sidewalk-less routes found throughout the State. Your Committee will continue to work with pertinent stakeholders to guarantee the safety of the public while also ensuring that these communities are not negatively impacted by this measure.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1286, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1286, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Evslin). Noes, none. Excused, 1 (Cochran).

SCRep. 553 Consumer Protection & Commerce/Judiciary & Hawaiian Affairs on H.B. No. 756

The purpose of this measure is to:

- (1) Prohibit the sale, offer for sale, or possession with the intent to sell or offer for sale, of all flavored nicotine products and nicotine product flavor enhancers, including products with menthol;
- (2) Prohibit the mislabeling of e-liquid products as nicotine-free;
- (3) Authorize the Department of Health to appoint, commission, or contract for services of third-party inspectors to enforce the prohibitions; and
- (4) Establish positions and appropriate funds for those positions.

Your Committees received testimony in support of this measure from the Department of the Attorney General; Department of Health; Hawaii State Council on Developmental Disabilities; Hina Mauka; Hawaii Substance Abuse Coalition; Coalition for a Tobacco-Free Hawai'i Youth Council; Hawaii COPD Coalition; Hawai'i Public Health Association; Campaign for Tobacco-Free Kids; Tobacco-Free Kids Action Fund; Hawai'i – American Nurses Association; Hawai'i Youth Services Network; Hawai'i State Teachers Association; Coalition for a Tobacco-Free Hawai'i; Hawaii Dental Association; Hawaii Primary Care Association; University of Hawaii Student Health Advisory Council; Hawaii Association of Independent Schools; Hawai'i Health & Harm Reduction Center; Kaiser Permanente Hawai'i; American Lung Association; and numerous individuals. Your Committees received testimony in opposition to this measure from the Retain Merchants of Hawaii; ABC Stores; Japan Tobacco International U.S.A., Inc.; Americans for Tax Reform; Marukin Market; Hawaii Smokers Alliance; BMA Mart; Cigarettes and Things; Ewa Pantry; Cigar Association of America, Inc.; China Town Liquor; Wawa Market; R&K Grocery and Liquor; Kainehe Liquor; Kilani Market; S&K Wholesale; Nonstop Convenience; Kona Liquor Store; and five individuals. Your Committees received comments on this measure from Maui Youth and Family Services – Adolescent Treatment Team.

Your Committees find that the vaping crisis in the State has evolved and expanded to all adolescence age groups. Current use of e-cigarettes among high school youth is at 13.2 percent, while middle school e-cigarette use is at 10.3 percent. Furthermore, middle school e-cigarette use rose in several key indicators, including experimentation or ever use (12.8 percent to 16.9 percent), daily use (1.2 percent to 2 percent), and frequent use (1.8 percent to 2.7 percent).

Your Committees further find that an expansive catalog of flavors is one of the main reasons why the use of tobacco products and electronic smoking devices by youth continues to rise. Electronic smoking devices and flavored tobacco products have been glamorized and promoted in a manner to appeal to youth, using flavors like candy, fruit, Maui mango, and shaka strawberry. The majority of youth who use electronic smoking devices report using a flavored product. This measure seeks to address the youth tobacco and vaping crisis by prohibiting the sale and distribution of flavored tobacco products and mislabeling of e-liquid products and provides the Department of Health with the administrative authority needed to enforce this ban.

Your Committees have amended this measure by:

- (1) Clarifying that the disposal of electronic smoking devices and e-liquids as hazardous waste is done in accordance with rules adopted by the Department of Health pursuant to its authority to regulate the disposal of hazardous waste in the State;
- (2) Amending a cross reference to prevent the delegation of final decision-making authority to a contracted inspector; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committees respectfully request your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$1,000,000, two full-time equivalent (2.0 FTE) program specialist positions, and one full-time equivalent (1.0 FTE) hearings officer position.

As affirmed by the records of votes of the members of your Committees on Consumer Protection & Commerce and Judiciary & Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 756, H.D. 1, as amended herein, and recommend that it be referred to your Committee on Finance, in the form attached hereto as H.B. No. 756, H.D. 2.

Signed by the Chairs on behalf of the Committees.

Consumer Protection & Commerce: Ayes, 6. Noes, none. Excused, 4 (Ichiyama, Iwamoto, Kong, Lowen).

Judiciary & Hawaiian Affairs: Ayes, 6; Ayes with Reservations (Shimizu). Noes, none. Excused, 5 (Belatti, Cochran, Hashem, Kahaloa, Perruso).

SCRep. 554 Consumer Protection & Commerce on H.B. No. 467

The purpose of this measure is to:

- (1) Prohibit sellers of foreclosed homes in a nonjudicial foreclosure from bundling properties at a public sale for sale to a single buyer and require each foreclosed home to be sold separately; and
- (2) Allow tenants, families, state and county government, affordable housing nonprofits, and community land trusts forty-five days to match or beat the best public sale bid to buy the property.

Your Committee received testimony in support of this measure from Lāhainā Strong; Lahaina Community Land Trust; Hawaii Workers Center; Maui Housing Hui; and numerous individuals.

Your Committee finds that the devastating Maui wildfires on August 8, 2023, was one of the worst natural disasters in the State's history. Your Committee further finds that as the foreclosure moratorium comes to an end, there are concerns Maui residents will face a wave of foreclosures that threatens their housing stability. To address these concerns, this measure prohibits the mass purchasing of foreclosed properties and allows certain entities to match or beat a public sale bid.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 467, H.D. 1, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 555 Consumer Protection & Commerce on H.B. No. 624

The purpose of this measure is to establish the School Psychologists Working Group within the Department of Education to recommend actionable steps or propose legislation to the Legislature on an immediate pathway to licensure for school psychologists in 2026.

Your Committee received testimony in support of this measure from the Department of Education; Board of Psychology; Hawai'i Primary Care Association; Hawai'i Association of School Psychologists; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and nine individuals. Your Committee received comments on this measure from the Hawai'i Psychological Association.

Your Committee finds that school psychologists are uniquely qualified professionals who provide a comprehensive range of learning, mental, and behavioral health services in schools. Importantly, school psychologists are not interchangeable with other psychologists, as they possess a specific set of knowledge and skills that are tailored to educational settings. It is for this reason that school psychology is a recognized specialty of psychology by the American Psychological Association (APA); the APA's Model Licensure Act maintains the importance of a distinct license/certification for school psychologists separate and apart from other psychology professionals.

Your Committee further finds that Hawaii is the only state in the United States that has not established credentialing requirements for the practice of school psychology and use of the title "School Psychologist". This measure will allow the Legislature to gather further information to determine the most appropriate form of regulation for persons who practice school psychology.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 624, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 556 Consumer Protection & Commerce on H.B. No. 815

The purpose of this measure is to require health benefits plans established by the Board of Trustees of the Employer-Union Health Benefits Trust Fund to meet or exceed the requirements of the Prepaid Health Care Act.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawaii State AFL-CIO; and United Public Workers, AFSCME Local 646, AFL-CIO. Your Committee received testimony in opposition to this measure from the Department of Budget and Finance.

Your Committee finds that persons should have access to affordable health care options. However, for public employees under the Employer-Union Health Benefits Trust Fund, a significant portion of their compensation goes toward medical premiums – approximately forty percent. In comparison, private-sector employees are covered by the Prepaid Health Care Act, which caps employee contributions at 1.5 percent of the employee's compensation. This measure subjects plans under the Employer-Union Health Benefits Trust Fund to the requirements under the Prepaid Health Care Act.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 815, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 557 Consumer Protection & Commerce on H.B. No. 978

The purpose of this measure is to allow the Public Utilities Commission to appoint a receiver to take temporary action necessary to assure continued service or to bring the service up to appropriate regulatory standards when a regulated investor-owned electric utility is failing, or there is an imminent threat of the utility failing.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committee received comments on this measure from the Public Utilities Commission and Hawai'i Gas.

Your Committee finds that electric service is critical for daily life for every person in the State. The permanent loss of electricity, such as in the event of a complete company collapse, could endanger everything from public safety infrastructure to personal health equipment.

Your Committee further finds that utility receivership is a critical tool for protecting utility customers in only the most extreme circumstances, such as a complete company collapse. Under a receivership, an appointed person is authorized to take temporary action necessary to assure continued adequate utility services. However, under existing law, the Public Utilities Commission is only authorized to appoint a receiver for a water or sewer utility, not an electric utility. This measure authorizes the Public Utilities Commission to appoint a receiver for electric utilities in the most extreme circumstances.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 978, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 558 Consumer Protection & Commerce on H.B. No. 712

The purpose of this measure is to preserve the integrity of the federal 340B Drug Pricing Program by prohibiting drug manufacturers from denying, restricting, or prohibiting the acquisition, shipping, or delivery of a 340B drug to a pharmacy under contract with any 340B covered entity in the State.

Your Committee received testimony in support of this measure from the State Health Planning and Development Agency; Hawai'i Pacific Health; Hawaii Primary Care Association; Healthcare Association of Hawaii; Hawai'i Island Community Health Center; The Queen's Health Systems; Hawai'i Health & Harm Reduction Center; Waianae Coast Comprehensive Health Center; AlohaCare; and two individuals. Your Committee received testimony in opposition to this measure from the Pharmaceutical Research and Manufacturers of America and Biotechnology Innovation Organization. Your Committee received comments on this measure from the Department of Health; Department of Commerce and Consumer Affairs; Alliance for Safe Biologic Medicines; Biomarker Collaborative; Coalition of Hematology & Oncology Practices; Exon20 Group; H.E.A.L.S. of the South; Hispanic Business Alliance; International Cancer Advocacy Network; Lupus and Allied Diseases Association, Inc.; MET Crusaders; National Infusion Center Association; Neuropathy Action Foundation; and PDL1 Amplified.

Your Committee finds that section 340B of the Public Health Service Act requires pharmaceutical manufacturers participating in Medicaid to sell outpatient drugs at discounted prices to health care organizations that care for many uninsured and low-income patients. These organizations include federal grantee organizations and several types of hospitals, including critical access hospitals, sole community hospitals, rural referral centers, and public and nonprofit disproportionate share hospitals that serve low-income and indigent populations.

Your Committee further finds that the 340B drug pricing program is critical to Hawaii's public health and health care systems. For example, Hawaii's Federally Qualified Health Centers, the largest of which attends to over forty thousand lives, rely on 340B savings for patients and organization to continue providing quality services due to less-than-market reimbursement. This measure preserves the 340B Drug Pricing Program in the State.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 712, H.D. 1, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 559 Economic Development & Technology on H.B. No. 450

The purpose of this measure is to:

- (1) Transfer the State Foundation on Culture and the Arts and the King Kamehameha Celebration Commission from the Department of Accounting and General Services to the Department of Business, Economic Development, and Tourism;
- (2) Transfer the authority held by the Comptroller over the Works of Art Special Fund to the Director of Business, Economic Development, and Tourism; and
- (3) Appropriate funds to assist with the transfer.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Accounting and General Services; State Foundation on Culture and the Arts; and one individual.

Your Committee finds that the arts and culture sector is a vital component of the State's creative economy and tourism industry and a means of honoring and celebrating the State's history and host culture. Your Committee further finds that by changing the administrative placement of the State Foundation on Culture and the Arts and King Kamehameha Celebration Commission to the Department of Business, Economic Development, and Tourism, this measure will allow these agencies to be better supported by a department that is already engaged in support for the arts and culture through its creative industries and economic development endeavors.

Your Committee has amended this measure by:

- (1) Adding an appropriation for an administrator position within the State Foundation on Culture and the Arts;
- (2) Changing the effective date to July 1, 2026; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that there should be no reduction in the State Foundation on Culture and the Arts' funding as a result of the transition to the Department of Business, Economic Development, and Tourism as this is simply a budget neutral administrative transfer between government bodies.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 450, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 450, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Todd, Matsumoto).

SCRep. 560 Economic Development & Technology on H.B. No. 774

The purpose of this measure is to establish the Food and Product Innovation Network within the Agribusiness Development Corporation.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Agriculture; University of Hawai'i; Agribusiness Development Corporation; Ulupono Initiative; Hawaii Food Industry Association; Chamber of Commerce Hawaii; Hawai'i Forest Industry Association; Local Food Coalition; Hawai'i Farm Bureau; Maui Chamber of Commerce; and Hawaii Fish Company Inc.

Your Committee finds that establishing a network of open-access food and value-added product development facilities would encourage economic development and diversification. This measure addresses this need by establishing the Food and Product Innovation Network to help businesses develop locally made, world-class products and provide access to a diverse suite of manufacturing equipment and industry expertise.

Your Committee has amended this measure by replacing the Department of Education Food and Product Innovation Center in Kekaha, Kauai with future facilities to be developed on lands owned by the Agribusiness Development Corporation in Kekaha, Kauai; a to-be-determined location on Hawaii island; and additional facilities on Maui and Molokai as partner members of the Food and Product Innovation Network.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 774, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 774, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Todd, Matsumoto).

SCRep. 561 Education on H.B. No. 901

The purpose of this measure is to authorize public charter schools to appeal directly to the Board of Education on matters that materially affect the school's operation, governance, or funding.

Your Committee received testimony in support of this measure from Wai'alaie Elementary Public Charter School; Hawaii Public Charter Schools Network; Hawaii Academy of Arts & Science Public Charter School; and one individual. Your Committee received comments on this measure from the Department of the Attorney General; Board of Education; and State Public Charter School Commission.

Your Committee finds that this measure creates a vital avenue of recourse for charter schools faced with adverse actions or decisions made by charter school authorizers that impact their operations.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 901, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 901, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 562 Education on H.B. No. 904

The purpose of this measure is to repeal the requirement for the Board of Education to annually report to the Legislature, Governor, and the public on public charter schools.

Your Committee received testimony in support of this measure from the Board of Education. Your Committee received testimony in opposition to this measure from Wai'alaie Elementary Public Charter School; Hawaii Public Charter Schools Network; and one individual.

Your Committee finds that the State Public Charter School Commission is required to submit a comprehensive annual report to the Legislature that details the items the Board of Education is also required to report on. Your Committee further finds that this measure will eliminate duplicative reporting requirements between the State Public Charter School Commission and Board of Education.

Your Committee has amended this measure by:

- (1) Inserting a preamble;
- (2) Changing the effective date to July 1, 3000; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 904, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 904, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 563 Education on H.B. No. 241

The purpose of this measure is to require the Department of Human Services to establish a Child Care Classroom Contracts Pilot Program to contract directly with child care center providers in licensed infant and toddler child care centers and group child care centers that meet certain criteria.

Your Committee received testimony in support of this measure from the Department of Human Services; Early Learning Board; American Association of University Women of Hawaii; Hawai'i State Coalition Against Domestic Violence; Early Childhood Action Strategy; Hawai'i Children's Action Network Speaks!; and seven individuals. Your Committee received testimony in support of the intent of this measure from the Executive Office on Early Learning.

Your Committee finds that the State is facing a severe child care shortage, with licensed and regulated child care settings having the capacity to serve fewer than twenty percent of children from birth to age five. This leaves families across Hawaii with a lack of options for safe and reliable child care. Your Committee believes that this measure will increase access to early learning for Hawaii's children through a pilot program that will contract directly with child care center providers in licensed infant and toddler child care centers and group child care centers to add additional child care services options for families.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 241, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 564 Education on H.B. No. 424

The purpose of this measure is to:

- (1) Require the Department of Education to provide free breakfast and lunch to students enrolled in a Department of Education school who meet certain requirements, beginning with the 2025-2026 school year; and
- (2) Appropriate funds for the total plate costs associated with providing the free school breakfasts and lunches.

Your Committee received testimony in support of this measure from the Hawai'i Youth Services Network; Democratic Party of Hawai'i Education Caucus; Hawaii Food Industry Association; Democratic Party of Hawai'i; Hawai'i Public Health Institute; Hawai'i Food Bank; Hawaii Appleseed Center for Law & Economic Justice; and four individuals. Your Committee received testimony in support of the intent of this measure from the Department of Education and AlohaCare. Your Committee received comments on this measure from the Hawai'i State Teachers Association.

Your Committee finds that students who are hungry or malnourished are likely to face difficulties with concentration and academic performance. Your Committee believes that providing free school meals can help ensure that students have equal opportunities to succeed academically regardless of their socioeconomic status.

Your Committee has amended this measure by:

- (1) Specifying that the price for school meals shall be set by the Department of Education to ensure that monies received from the sale of the meals shall be no more than one-quarter of the cost of preparing meals; and
- (2) Changing the effective date to July 1, 3000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 424, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 424, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 565 Education on H.B. No. 757

The purpose of this measure is to require the Department of Education to provide free breakfast and lunch to all students enrolled in a Department school beginning with the 2025-2026 school year.

Your Committee received testimony in support of this measure from the Office of the Mayor of Maui County; one member of the Hawai'i County Council; Maui County Department of Agriculture; Department of Research and Development of the County of Hawai'i; Hawai'i Youth Services Network; Malama Kaua'i; American Association of University Women of Hawai'i; Green Party of Hawai'i; Hawai'i Indivisible Hawai'i Working Families Team; Hawai'i Alliance for Progressive Action; Hawai'i State Teachers Association; Democratic Party of Hawai'i Education Caucus; Hawai'i Children's Action Network Speaks!; Faith Action for Community Equity; Save Medicaid Hawaii; Hawaii Food Industry Association; Hawai'i Food+ Policy; Hawai'i Public Health Institute; Catholic Charities Hawai'i; Early Childhood Action Strategy; Hawai'i Foodbank; Maui Food Bank; Chamber of Sustainable Commerce; AlohaCare; Hawaii Appleseed Center for Law & Economic Justice; Hawai'i Hunger Action Network; Light of the Whirl Health Care LLC; HawaiiKidsCAN; and numerous individuals. Your Committee received testimony in support of the intent of this measure from the Department of Education. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that food-insecure students are at higher risk of stress, depression, and chronic illness, all of which undermine their ability to focus, engage in the classroom, and reach their full academic potential. Your Committee further finds that the existing income eligibility threshold for free school meals, which requires a family of four to earn less than \$47,000 annually, is far too low, as around \$110,000 is needed to cover basic living costs in Hawaii.

Your Committee also finds that universal free school meal programs improve educational outcomes. Your Committee notes that eight states have adopted free school meals, with research showing that access to free meals can increase test scores at a rate equivalent to six additional weeks of school. This measure will provide universal free school breakfasts and lunches to students in public schools under the Department of Education to ensure each student's wellness through receiving a meal in school.

Your Committee has amended this measure by changing the effective date to July 1, 3000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 757, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 757, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 566 Education on H.B. No. 1075

The purpose of this measure is to reduce the minimum revenue requirement from the sale of school meals from one-half to one-quarter of the cost of preparing the school meals.

Your Committee received testimony in support of this measure from the Department of Education; Hawai'i State Teachers Association; Democratic Party of Hawai'i Education Caucus; Democratic Party of Hawai'i; Hawai'i Children's Action Network Speaks!; Hawai'i Public Health Institute; Healthy Eating, Active Living Coalition; and Hawai'i Food Bank. Your Committee received comments on this measure from the Hawaii Appleseed Center for Law & Economic Justice.

Your Committee finds that access to nutritious meals is essential for students' academic success and overall well-being. However, the increasing cost of school meals places an undue burden on families, leading to reduced student participation in school meal programs. This measure will reduce the required meal cost offset collection and will make school meals in Department of Education schools more affordable.

Your Committee has amended this measure by:

- (1) Specifying that the price for school meals shall be set by the Department of Education to ensure that monies received from the sale of the meals shall be no more than one-quarter of the cost of preparing meals;

- (2) Changing the effective date to July 1, 3000; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1075, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1075, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 567 Education on H.B. No. 1293

The purpose of this measure is to temporarily:

- (1) Exempt certain Department of Education purchases of local edible produce and packaged food products that are less than an unspecified amount from the electronic procurement system requirement;
- (2) Require at least three written quotes for certain Department of Education purchases of local edible produce and packaged food products; and
- (3) Require no less than two written quotes for certain purchases of local edible produce and packaged food products for certain schools in rural communities.

Your Committee received testimony in support of this measure from the Department of Education; Ulupono Initiative; Hawai'i Farm Bureau; Hawai'i Public Health Institute; and numerous individuals. Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that the Department of Education is mandated to provide at least thirty percent locally sourced foods to Hawaii's public schools by 2030. Your Committee further finds that adjusting the Department of Education's small purchase procurement capacity will provide an additional tool to procure fresh products from local farmers and ranchers and assist the Department in fulfilling its mandate to provide locally sourced foods for Hawaii's public schools.

Your Committee has amended this measure by:

- (1) Specifying that Department of Education purchases of local edible produce and packaged food products that are less than \$100,000 are exempt from the electronic procurement system requirement;
- (2) Requiring no less than three written quotes for Department of Education purchases of local edible produce and packaged food products of \$15,000 to less than \$25,000;
- (3) Require no less than two written quotes for purchases of local edible produce and packaged food products of \$5,000 to less than \$15,000 for schools in rural communities;
- (4) Changing the effective date to July 1, 3000; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1293, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1293, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 568 Education on H.B. No. 288

The purpose of this measure is to:

- (1) Authorize the use of motorcoaches, small buses, and vans for school bus services, provided certain conditions are met;
- (2) Authorize the Department of Education to create a staggered school start time program to mitigate the school bus driver shortage and increase the availability of student transportation for the 2025-2026 school year; and
- (3) Appropriate funds to the Department of Education:
 - (A) For the purchase of motorcoaches, small buses, and vans for school bus drivers; and
 - (B) To incentivize obtaining a commercial driver's license to increase the number of persons eligible to become school bus drivers.

Your Committee received testimony in support of this measure from the Democratic Party of Hawai'i Education Caucus; Hawai'i Children's Action Network Speaks!; Hawai'i Appleseed Center for Law & Economic Justice; Oahu Metropolitan Planning Organization; and five individuals. Your Committee received comments on this measure from the Department of Education and Department of the Attorney General.

Your Committee finds that the State is facing a severe bus driver shortage, resulting in the elimination of nearly eighty bus routes across the State. In response, the Governor issued an emergency proclamation to temporarily relax rules around the types of vehicles that can be used to safely transport students to and from school and around required driver certifications. Your Committee believes that codifying the Governor's emergency proclamation will allow for greater flexibility of school buses services and provide access for all students. Your Committee further finds that establishing a staggered school hours program will help mitigate the school bus driver shortage.

Your Committee has amended this measure by:

- (1) Authorizing the Department of Education to institute a staggered school hours program, rather than a staggered school start time program, in public schools to help make school bus services more available to students;
- (2) Changing the effective date to July 1, 3000; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 288, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 288, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 569 Education on H.B. No. 1500

The purpose of this measure is to repeal the authority of the Department of Education to set the price for school meals.

Your Committee received testimony in support of this measure from the Democratic Party of Hawai'i Education Caucus; Hawai'i Children's Action Network Speaks!; Hawai'i Public Health Institute; Health Eating, Active Living Coalition; Hawaii Appleseed Center for Law & Economic Justice; and one individual. Your Committee received comments on this measure from the Department of Education and Department of the Attorney General.

Your Committee finds that repealing the Department of Education's authority to set the price for school meals will expand access to nutritious meals, helping students receive the nourishment they need to grow, learn, and thrive.

Your Committee has amended this measure by:

- (1) Restoring the statutory provisions requiring the Department of Education, by rule, to provide a lower rate or free meals to children based on their economic need;
- (2) Changing the effective date to July 1, 3000; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1500, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1500, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 570 Education on H.B. No. 683

The purpose of this measure is to establish and appropriate funds for student transportation coordinators for each county to strengthen student transportation services across the State.

Your Committee received testimony in support of this measure from the Hawai'i State Teachers Association; Democratic Party of Hawai'i Education Caucus; Hawai'i Children's Action Network Speaks!; Ulupono Initiative; Oahu Metropolitan Planning Organization; and two individuals. Your Committee received testimony in support of the intent of this measure from the Department of Education.

Your Committee finds that school bus service provided by the Department of Education is essential for getting students to and from school, particularly for students who lack other transportation options or face hardship in obtaining school transportation services due to economic difficulty. However, chronic bus driver shortages have led to the cancellation or consolidation of many school bus routes, reducing transportation options for families across the State. Your Committee believes that establishing a student transportation coordinator in each county will improve student transportation services and ensure students arrive at school on time to learn.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount; and
- (2) Changing the effective date to July 1, 3000.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$400,000 for the establishment of four full-time equivalent permanent student transportation coordinator positions.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 683, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 683, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 571 Higher Education/Education on H.B. No. 707

The purpose of this measure is to:

- (1) Establish a state income tax deduction for contributions made to Hawaii 529 accounts through the College Savings Program; and
- (2) Opt into the amendments of the Internal Revenue Code that authorize 529 benefits to be used for K-12 educational expenses as authorized by federal law.

Your Committees received testimony in support of this measure from the Hawai'i State Council on Developmental Disabilities and seven individuals. Your Committees received comments on this measure from the Department of Taxation; Department of Budget and Finance; and Tax Foundation of Hawaii.

Your Committees find that the HI529 Hawaii's College Savings Program assists and encourages families in Hawaii to save and invest funds for future higher education expenses. Your Committees further find that the investment income earned under the Program is exempt from federal and state taxes; provided that the funds are used for qualified higher education expenses.

Your Committees note that the federal Tax Cuts and Jobs Act of 2017 expanded 529 plan benefits to include K-12 educational expenses. This measure will conform state law to these specific changes made to the Internal Revenue Code and strengthen Hawaii's 529 college savings program.

Your Committees note that establishing a state income tax deduction for accounts under the Hawaii Achieving A Better Life Experience Savings Program, which provides for individual savings accounts for individuals with a disability and their families to save private funds to support the individuals, will also promote greater financial security and educational opportunities within the disability community.

Your Committees have accordingly amended this measure by:

- (1) Including accounts through the Hawaii Achieving A Better Life Experience Savings Program under the state income tax deduction established by this measure;

- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Higher Education and Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 707, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 707, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 10. Noes, none. Excused, 1 (Kila).

Education: Ayes, 10. Noes, none. Excused, 1 (Kila).

SCRep. 572 Health on H.B. No. 905

The purpose of this measure is to appropriate funds to:

- (1) Purchase an advanced life support ambulance and related equipment to be based in the Central Maui area of the County of Maui; and
- (2) Increase the predictability and stability of available air ambulance services for all islands in the State.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; one member of the Maui County Council; and one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that in the County of Maui there are a total of nine ambulances to serve the entire county, with one unit each in East Maui, Kahului, and Wailuku and two units each in South Maui, West Maui, and Upcountry Maui. Your Committee further finds that as the result of significant population growth, the Central Maui region would benefit from the addition of an advanced life support ambulance, which will help reduce death and disability among residents and visitors by providing timely responses to 911 calls.

Your Committee notes the Department of Health's recommendation in their written testimony before your Committee suggesting consideration of alternative service models such as mobile integrated health or community paramedicine programs, which are designed to address emergency and non-emergency needs at a potentially lower cost that could ensure the long-term sustainability and efficiency of emergency medical services, particularly in underserved areas.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$1,750,000 for the increase of available air ambulance services.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 905, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 905, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Marten, Takenouchi, Alcos, Garcia).

SCRep. 573 Health on H.B. No. 245

The purpose of this measure is to require the Department of Education, in collaboration with the Department of Health and State Public Charter School Commission, to:

- (1) Conduct a study on the current practices of managing heat exposure in state public and charter schools to protect students' health during outdoor activities; and
- (2) Develop a plan if the current practices are insufficient in managing heat exposure.

Your Committee received testimony in support of this measure from the Department of Education; State Council on Developmental Disabilities; Hawai'i Public Health Association; Hawai'i Children's Action Network Speaks!; Hawai'i Climate Change and Health Working Group; and five individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that rising air temperatures and Hawaii's high average relative humidity pose a significant challenge to human thermoregulation, particularly for individuals exercising outdoors where high humidity reduces the efficacy of the body's ability to cool itself through sweating. Your Committee further finds that the dangers of exertional heat illness are particularly high for children, who have reduced thermoregulation capabilities and slower heat acclimatization compared to adults. Your Committee believes that creating data-driven state guidelines for managing heat during outdoor activities is a vital step in protecting Hawaii's children from the dangers of heat exposure.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 245, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 574 Health on H.B. No. 903

The purpose of this measure is to:

- (1) Authorize schools to maintain a stock supply of bronchodilators to be administered under certain conditions;
- (2) Authorize certain employees of a school and Department of Education personnel to administer certain medication in emergency situations, under certain conditions; and
- (3) Amend prescription drug labeling requirements to include certain information related to a school, if applicable.

Your Committee received testimony in support of this measure from the Department of Health; Department of Education; Hawai'i State Center for Nursing; Hawai'i Association of Professional Nurses; Hawai'i Primary Care Association; Hawai'i Public Health Association; Hawai'i Children's Action Network Speaks!; Hawai'i-American Nurses Association; AlohaCare; American Lung Association; and three individuals. Your Committee received comments on this measure from the Department of the Attorney General and Hawaii Association for Justice.

Your Committee finds that asthma is one of the most common conditions affecting children in Hawaii. Your Committee further finds that the timely access to bronchodilators can be life-saving during an asthma episode. Your Committee believes that ensuring rapid access to life-saving medications, such as bronchodilators, will strengthen school health services and protect the health of Hawaii's children.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 903, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 575 Health on H.B. No. 1233

The purpose of this measure is to ensure the health, safety, and welfare of the citizens of the State by requiring the counties to:

- (1) Regulate the permitting, construction, and maintenance of retention and detention ponds, including establishing safety standards for retention and detention ponds; and
- (2) Conduct a survey of existing retention and detention ponds statewide and provide a report to the Legislature.

Your Committee received testimony in support of this measure from the Keiki Injury Prevention Coalition; Hawaiian Lifeguard Association; and eight individuals. Your Committee received testimony in opposition to this measure from the Department of Facility Maintenance of the City and County of Honolulu and one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that drowning is the number one cause of death for children between the ages of one and fifteen in the State. Your Committee further finds that retention and detention ponds, while essential for stormwater management, pose serious risks to public health and safety due to their potential for sudden water level changes and deep standing water. Improperly maintained and unregulated retention and detention ponds are particularly dangerous for young children, who are unaware of the risks they pose. Your Committee believes that regulating the construction and permitting of retention and detention ponds, including the establishment of minimum safety standards, is necessary to ensure the health and safety of residents and visitors.

Your Committee notes the testimony from the Department of the Attorney General, which states that this measure requires the counties to administer a new regulatory program for retention and detention ponds, but does not contain an appropriation to the counties for this purpose. Such cost sharing is a requirement under Article VIII, section 5 of the Hawaii State Constitution.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an appropriation as a grant-in-aid to the counties for an unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1233, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 1233, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Alcos, Garcia). Noes, none. Excused, none.

SCRep. 576 Health on H.B. No. 799

The purpose of this measure is to support the provision of care by clarifying certain provisions relating to physician practices at organized ambulatory health care facilities.

Your Committee received testimony in support of this measure from the Hawai'i Association of Professional Nurses; Community First Hawaii; Hawaii Medical Service Association; Aloha Surgical Center; and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from Healthcare Association of Hawaii and Hawaii Association of Health Plans.

Your Committee finds that the State continues to experience a significant health care worker shortage, particularly on the neighbor islands. Your Committee further finds that some Oahu-based physicians schedule rotations on the neighbor islands to coordinate care, address gaps in needed services, and reduce the need for neighbor island residents to travel to receive care. This care is often provided in out-patient settings at organized ambulatory health care facilities, which allow providers from other areas to provide health care services to medically underserved residents. Your Committee believes that clarifying the requirements for physicians providing services at these facilities, particularly with respect to hospital privileges and patient transfers, will ensure patients on the neighbor islands receive timely access to health care.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 799, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 799, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 577 Health on H.B. No. 952

The purpose of this measure is to establish a Parkinson's Disease Research Collection Database within the Department of Health.

Your Committee received testimony in support of this measure from the Hawai'i Family Caregiver Coalition; Speech, Swallowing, & Voice Specialists of Hawaii; Hawai'i Parkinson Association; The Michael J. Fox Foundation for Parkinson's Research; Hawai'i Speech-Language-Hearing Association; Parkinson's Foundation; The Queen's Health Systems; and numerous individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that Parkinson's disease is a neurodegenerative disease that affects approximately one million people in the United States. There is no cure or treatment to stop or reverse the progression of the disease. Your Committee further finds that collecting critical research data is the first step to better understanding Parkinson's disease, particularly with respect to estimating the incidence and prevalence of Parkinson's disease across various population

groups. Your Committee believes that establishing a data collection database on the incidences of Parkinson's disease in the State will greatly assist public health agencies in identifying trends across various population groups and help improve provider education, improve understanding of the disease, and assess treatment effectiveness over time.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 952, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 952, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 578 Education on H.B. No. 861

The purpose of this measure is to:

- (1) Designate student transportation as critical infrastructure and a critical service for Hawaii's public education system;
- (2) Require school bus contracts to include minimum standards, performance metrics, and accountability requirements to ensure the reliability and efficiency of student transportation services; and
- (3) Require school bus contracts to include proactive planning and oversight mechanisms to prevent service disruptions and enhance contractor accountability.

Your Committee received testimony in support of this measure from the Department of Transportation; Hawai'i State Teachers Association; Democratic Party of Hawai'i Education Caucus; Oahu Metropolitan Planning Organization; Hawai'i Children's Action Network Speaks!; and five individuals. Your Committee received testimony in support of the intent of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that reliable student transportation is a critical component of ensuring equitable access to education for all students in the State. Your Committee notes that in recent years, disruptions in school bus services have severely impacted families and communities, leaving students stranded and unable to attend school consistently.

Your Committee further finds that while the Department of Education includes performance metrics, penalties, and some contingency planning in its contracts with student transportation providers, these provisions are largely reactive and fail to address systemic issues. Your Committee believes that proactive measures, including robust contingency planning, stricter accountability mechanisms, and clear performance standards are necessary to prevent future cancellations, ensure consistent service, and restore public trust in the State's school transportation system.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 861, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 861, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 579 Education on H.B. No. 862

The purpose of this measure is to authorize the use of motorcoaches, small buses, and vans for school bus services if certain conditions are met.

Your Committee received testimony in support of this measure from the Department of Transportation; State Council on Developmental Disabilities; Hawaii Self-Advocacy Advisory Council; Hawai'i State Teachers Association; Democratic Party of Hawai'i Education Caucus; Oahu Metropolitan Planning Organization; Hawai'i Children's Action Network Speaks!; and four individuals. Your Committee received testimony in opposition to this measure from Soderholm Bus and Mobility. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that the availability of school bus services is essential to student attendance, particularly for families who live in rural and remote areas, as well as students who come from socioeconomically disadvantaged communities. Currently, there is a nationwide shortage of school bus drivers. This shortage is forcing the suspension or partial suspension of school bus services across the State.

Your Committee further finds that, to address the shortage of school bus drivers in Hawaii, the Governor issued an emergency proclamation in August 2024 to allow the Department of Transportation to grant exemptions for the use of vehicles other than school buses to transport students. Specifically, this and subsequent related emergency proclamations allow for the transport of students using vehicles other than school vehicles by drivers possessing a commercial driver's license with an endorsement authorizing the driving of vehicles carrying passengers. Your Committee believes that making this exemption permanent will help alleviate the lack of school bus drivers in the State.

Your Committee has amended this measure by changing the effective date to July 1, 3000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 862, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 862, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 580 Education on H.B. No. 619

The purpose of this measure is to require the Board of Education to adopt and enact a policy by the 2026-2027 school year directing Department of Education schools to incorporate financial literacy education in the school's curriculum.

Your Committee received testimony in support of this measure from Housing Hawai'i's Future; Visa, Inc.; Chamber of Commerce Hawaii; HawaiiKidsCAN; and eight individuals. Your Committee received testimony in support of the intent of this measure from the Department of Education. Your Committee received comments on this measure from the Board of Education.

Your Committee finds that financial education is a lifelong learning process that empowers individuals to plan for their futures; however, not all students are receiving the financial education needed to succeed later in their lives. Your Committee further finds that a lack of financial literacy can hinder an individual's ability to achieve financial prosperity and stability. This measure ensures the teaching of financial literacy in Department of Education schools, thereby helping prepare students for financial independence through the development of fiscal responsibility and financial management skills.

Your Committee recognizes the efforts to pass measures regarding the incorporation of financial literacy in Department of Education schools, which dates back to 2003, with a resolution requesting the establishment of a Public Financial Education and Asset-Building Task Force, being adopted in 2008.

Your Committee has amended this measure by:

- (1) Amending the preamble to declare that the incorporation of financial literacy education in the curriculum of Department of Education schools is of statewide importance and impact; and
- (2) Changing the effective date to July 1, 3000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 619, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 619, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 581 Education on H.B. No. 1343

The purpose of this measure is to require the Board of Education to adopt a policy that bans the use of phones and related devices by students during school hours.

Your Committee received testimony in support of this measure from the Hawai'i State Teachers Association and numerous individuals. Your Committee received testimony in support of the intent of this measure from the Board of Education. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that cellphone use in schools can be detrimental to student achievement and wellbeing. Research has shown that allowing cellphones in the classroom affects student focus and engagement, leading to decreased academic performance on tests and adversely impacting students' long-term learning retention.

Your Committee further finds that there is a growing number of states that are banning or restricting cellphone use in schools, with at least nineteen states having passed laws or enacted policies that ban or restrict students' use of cellphones in schools statewide or recommending that local districts enact bans or restrictive policies. Your Committee believes that banning the use of cellphones and related devices, including smart watches, earbuds, AirPods, Bluetooth connected headphones, and smart glasses, by students in schools will increase student productivity and improve academic achievement.

Your Committee has amended this measure by:

- (1) Amending the preamble to:
 - (A) Declare that the banning of cell phones and related devices by students during school hours is a matter of statewide concern; and
 - (B) Include smart glasses in the list of devices that would be considered to be banned under a Board of Education policy;
- (2) Changing the effective date to July 1, 3000; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1343, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1343, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 582 Housing on H.B. No. 421

The purpose of this measure is to:

- (1) Repeal the leasing restriction on owner-builders who obtain an owner-builder exemption to act as their own contractor and who build or improve residential or farm buildings or structures on property they own or lease and do not offer the buildings or structures for sale; and
- (2) Require an owner or a lessee to provide signed written notice that the residential structure for lease or sublease was built or improved by an individual who is not a licensed contractor.

Your Committee received testimony in support of this measure from the Hawai'i Association of REALTORS and Grassroot Institute of Hawaii. Your Committee received testimony in opposition to this measure from the Contractors License Board and Contractors Association of Kaua'i. Your Committee received comments on this measure from the Regulated Industries Complaints Office.

Your Committee finds that under existing law, an owner-builder who has an owner-builder permit to act as their own general contractor cannot sell or lease, or offer to sell or lease, a structure that was built under an owner-builder exemption until one year after completion. Your Committee further finds that Hawaii is one of only seven states in the country that imposes this type of restriction. The existing restriction on leasing means that property owners who could offer units in Hawaii's rental market are unable to do so during this one-year period. This measure will complement many of the strategies now being used to ease the State's housing shortage by eliminating this lease restriction.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 421, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 421, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 583 Housing on H.B. No. 525

The purpose of this measure is to:

- (1) Clarify that dwelling units under the Rent-to-Own Program shall be units that are for sale in fee simple or leasehold on state or county land under a lease with an initial term of no less than ninety-nine years; and
- (2) Increase the time the sales price under the Rent-to-Own Program must remain fixed from five years to ten years.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and three individuals.

Your Committee finds that developing innovative homeownership pathways for residents is crucial in addressing the State's ongoing housing shortage. Your Committee further finds the Rent-to-Own Program managed by the Hawaii Housing Finance and Development Corporation offers an alternative route to homeownership for lower-income households. Under this program, a portion of the rent paid goes toward the eventual purchase of a home, thereby allowing renters to build equity over time. This measure enables more individuals and families to transition into homeownership by expanding the types of eligible units under the Rent-to-Own Program.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 525, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 525, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 584 Housing on H.B. No. 576

The purpose of this measure is to exempt transfers of Hawaiian Home Lands from the real property transfer restrictions under housing development programs of the Hawaii Housing Finance and Development Corporation.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and Hawaii Housing Finance and Development Corporation.

Your Committee finds that under existing law, projects under the Department of Hawaiian Home Lands using a program under the Hawaii Housing Finance and Development Corporation are subject to transfer restrictions, such as buyback and shared appreciation restrictions. However, your Committee further finds that these restrictions may conflict with the objectives and requirements of Department of Hawaiian Home Lands programs, as housing on Hawaiian Home Lands is governed by the Hawaiian Homes Commission Act, 1920. This measure therefore clarifies that transfers of Hawaiian Home Lands are exempt from Hawaii Housing Finance and Development Corporation requirements.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 576, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 576, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 585 Housing on H.B. No. 416

The purpose of this measure is to exempt state-financed housing developments from the requirement to obtain approval from the applicable county council.

Your Committee received testimony in support of this measure from the Hawaii Appleseed Center for Law & Economic Justice; Housing Hawai'i's Future; Grassroot Institute of Hawaii; and Maui Chamber of Commerce. Your Committee received testimony in opposition to this measure from the Department of Planning and Permitting of the City and County of Honolulu; Lāhainā Strong; LIMBY Hawai'i; and three individuals. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation and Office of Planning and Sustainable Development.

Your Committee finds that Hawaii's housing regulations are the strictest in the country and the need for streamlining the process to develop affordable housing is at an all-time high. Your Committee further finds that only twenty percent of residents can afford the median home sale price, while over fifty percent of renters are cost-burdened, spending more than thirty percent of their income on housing. State-financed projects undergo rigorous review by the Hawaii Housing Finance and Development Corporation and requiring county council approval may create redundancy that results in delays. This measure will remove administrative barriers while preserving essential oversight and ensuring that critical health, safety, and affordability standards are upheld.

Your Committee has amended this measure by:

- (1) Specifying that projects that received a financing commitment from the State within the urban land use district are exempt for approval by a county legislative body;
- (2) Authorizing a county planning director to reject a permit application within thirty days of receiving the preliminary plans and specifications for reasons related to a lack of infrastructure for a project within a urban land use district that received a financing commitment from the State;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and

- (4) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 416, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 416, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Grandinetti). Excused, 2 (Cochran, Kila).

SCRep. 586 Housing on H.B. No. 243

The purpose of this measure is to:

- (1) Require the Public Utilities Commission to establish a streamlined grid-ready home interconnection process; and
- (2) Require the Hawaii Electricity Reliability Administrator to submit a report to the Legislature on the streamlined grid-ready home interconnection process.

Your Committee received testimony in support of this measure from Tesla; Green Party of Hawai'i; Hawaii Electric Vehicle Association; Kauai Climate Action Coalition; Sunrun Inc.; 350Hawaii.org; Hawaii Solar Energy Association; Climate Protectors Hawaii; Credence Projects LLC; Photonworks Engineering; Alternate Energy Hawaii; Alternate Energy Hawaii Inc.; Inter-Island Solar Supply; LIMBY Hawai'i; and numerous individuals. Your Committee received testimony in opposition to this measure from Hawaiian Electric; Kaua'i Island Utility Cooperative; and International Brotherhood of Electrical Workers Local 1260. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Public Utilities Commission.

Your Committee finds that grid-ready homes represent a low-cost, high-impact solution to expedite the deployment of advanced distributed energy resources, such as paired solar and energy storage, electric vehicle charging, and vehicle-to-grid technologies. By reducing interconnection bottlenecks and costly infrastructure upgrades, this measure enables customers to install grid-interactive clean energy technologies rapidly and affordably.

Your Committee has amended this measure by:

- (1) Specifying that the streamlined grid-ready home interconnection process for grid-tied renewable energy and storage systems is for investor-owned electric utility companies;
- (2) Expanding the scope of the grid-ready home interconnection process to include electric vehicle charging;
- (3) Removing the cost-sharing fee requirement under the streamlined grid-ready home interconnection process;
- (4) Clarifying that the service upgrades are to be paid by the distributed energy resources asset owner;
- (5) Requiring that a rule or order for the streamlined grid-ready home interconnection process for grid-tied renewable energy generation and storage systems establishes a process to approve or certify licensed electricians; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 243, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 243, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 2 (Muraoka, Pierick). Excused, 1 (Cochran).

SCRep. 587 Housing on H.B. No. 350

The purpose of this measure is to expand the types of water heater systems required for the issuance of a building permit for new single-family dwellings to include ENERGY STAR certified heat pump water heaters.

Your Committee received testimony in support of this measure from the Hawai'i State Energy Office; Hawai'i Association of REALTORS; and Hawai'i Energy. Your Committee received comments on this measure from the Inter-Island Solar Supply and Hawaii Solar Energy Association.

Your Committee finds that the rising cost of living has made it increasingly difficult for homeowners to manage utility expenses, particularly in new residential construction. Many new homes continue to be built without energy-efficient water heating systems, which increases the overall cost of homeownership and contributes to the State's energy consumption. ENERGY STAR certified heat pump water heaters are highly energy efficient and have the potential to provide grid support and cost savings, with even greater benefits in the future. This measure will help lessen the financial burden associated with homeownership by reducing the cost of utilities by requiring more energy efficient systems to be installed in new construction.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 350, H.D. 1, and recommends that it be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 588 Housing on H.B. No. 346

The purpose of this measure is to expand the existing Electric Vehicle Charging System Rebate Program to provide rebates for the installation of eligible electric vehicle-ready parking stalls in new construction of affordable housing.

Your Committee received testimony in support of this measure from the Office of Planning and Sustainable Development; Hawai'i State Energy Office; Hawai'i Climate Change Mitigation & Adaptation Commission; Public Utilities Commission; Oahu Metropolitan Planning Organization; Office of Economic Development of the County of Kaua'i; Office of Climate Change, Sustainability and Resiliency of the City and County of Honolulu; Ulupono Initiative; Hawaiian Electric; Hawaii Electric Vehicle Association; Hawai'i Energy; Kauai Climate Action Coalition; Coalition Earth; 350Hawaii.org; Citizens' Climate Lobby Hawai'i; Alliance for Automotive Innovation; Climate Protectors Hawai'i; and numerous individuals. Your Committee received comments on this measure from the Disability and Communication Access Board.

Your Committee finds that the inclusion of electric vehicle-ready parking stalls in a new affordable housing project is a forward-thinking initiative that aligns with the State's clean energy goals and ensures equitable access to emerging technologies. Designing electric vehicle-ready parking stalls in affordable

housing developments is a practical, cost-effective, and equitable strategy to support clean energy. This measure will ensure that affordable housing developments are prepared for the future while enabling residents to actively participate in the clean energy transition.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 346, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 2 (Muraoka, Pierick). Excused, 1 (Cochran).

SCRep. 589 Water & Land/Energy & Environmental Protection on H.B. No. 85

The purpose of this measure is to remove the annual \$5,100,000 cap on the amount of conveyance tax revenues to be paid into the Land Conservation Fund.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; one member of the Hawai'i County Council; Kua'āina Ulu 'Auamo; Makahanaloa Fishing Association; Hawai'i Land Trust; Hawai'i Farmers Union; and numerous individuals. Your Committees received comments on this measure from the Hawai'i Association of REALTORS and Tax Foundation of Hawaii.

Your Committees find that the Land Conservation Fund was established by Act 156, Session Laws of Hawaii 2005, to create permanent, adequate funding for land conservation. Your Committees further find that the Land Conservation Fund serves a key function in protecting and preserving Hawaii's natural resources by providing funding for the acquisition of lands that are critical to watershed protection, agricultural production, habitation conservation, and cultural preservation. However, your Committees find that there is value in establishing a set maximum cap on the amount of conveyance tax revenue to be transferred into the Land Conservation Fund each fiscal year.

Accordingly, your Committees have amended this measure by:

- (1) Changing the conveyance tax revenues to be transferred into the Land Conservation Fund to an unspecified percentage;
- (2) Restoring the existing statutory maximum monetary cap on the amount of conveyance tax revenues to be transferred into the Land Conservation Fund and changing that amount to an unspecified amount;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion;
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Water & Land and Energy & Environmental Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 85, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 85, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chairs on behalf of the Committees.

Water & Land: Ayes, 9. Noes, none. Excused, 1 (Woodson).

Energy & Environmental Protection: Ayes, 4. Noes, none. Excused, 2 (Quinlan, Ward).

SCRep. 590 Water & Land on H.B. No. 734

The purpose of this measure is to require and appropriate funds for the Department of Health, in consultation with various agencies and professionals, to review rules and practices and propose changes that have the potential to make wastewater systems and cesspool upgrades more affordable without compromising water quality.

Your Committee received testimony in support of this measure from the Department of Health; Department of Hawaiian Home Lands; Hawai'i Reef and Ocean Coalition; The Nature Conservancy, Hawai'i and Palmyra; WAI: Wastewater Alternatives & Innovations; Environmental Caucus of the Democratic Party of Hawai'i; and three individuals.

Your Committee finds that cesspools in the State pose a significant threat to both the environment and public health. This measure aims to explore ways to make cesspool upgrades or conversions more affordable, all while tackling cesspool-related pollution and ensuring water quality is not compromised.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 734, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 591 Water & Land on H.B. No. 1495

The purpose of this measure is to:

- (1) Establish and appropriate funds for the Keauhou Aquifer System Monitoring Pilot Project within the Department of Land and Natural Resources; and
- (2) Appropriate funds for the installation of two monitoring wells in the Keauhou Aquifer System.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawaii Housing Finance and Development Corporation; Natural Energy Laboratory of Hawaii Authority; Department of Water Supply of the County of Hawai'i; Chamber of Commerce Hawaii; Kona-Kohala Chamber of Commerce; and two individuals.

Your Committee finds that the Keauhou Aquifer System is a critical water source that supports local communities, ecosystems, and cultural traditions. However, the system faces significant challenges from rising water demand and potential overuse. Recognizing the importance of safeguarding these vital water resources, your Committee believes this measure will address these concerns by establishing a Keauhou Aquifer System Monitoring Pilot Project and allocating funds for the installation of two monitoring wells.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider the estimated cost of at least \$3,000,000 per monitoring well.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1495, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 592 Water & Land on H.B. No. 1008

The purpose of this measure is to:

- (1) Require the Department of Land and Natural Resources to determine the effect of any proposed state affordable housing project on historic property, aviation artifacts, or burial sites within ninety days of a request for determination; and
- (2) Base the historic review requirements on the project area's known or likely density of historic, cultural, and archaeological resources or previous identification of no significant historic properties through an archaeological inventory survey.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; Maui Chamber of Commerce; NAIOP Hawaii; and Hawai'i Association of REALTORS. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that delays and backlogs in historic preservation reviews hinder the timely development of affordable housing and contribute to rising costs. This measure accelerates the construction of affordable housing units and reduces expenses by establishing a separate historic review process specifically for certain proposed state affordable housing projects.

Your Committee has amended this measure by:

- (1) Removing the requirement for an archaeological inventory survey to have been previously reviewed and accepted by the Department of Land and Natural Resources for a proposed project to proceed under an archaeological monitoring program in a moderately sensitive area; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1008, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs in the form attached hereto as H.B. No. 1008, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Belatti, Iwamoto). Noes, none. Excused, none.

SCRep. 593 Water & Land on H.B. No. 969

The purpose of this measure is to prohibit the construction, modification, or expansion of any waste or disposal facility on land that is near or above a significant aquifer, as determined by the Department of Health.

Your Committee received testimony in support of this measure from the Honolulu Board of Water Supply; International Brotherhood of Electrical Workers Local 1260; Sierra Club of Hawai'i; Hawai'i Farm Bureau; North Shore Chamber of Commerce; Environmental Caucus of the Democratic Party of Hawai'i; Hawaii Reef and Ocean Coalition; Chamber of Sustainable Commerce; Free Access Coalition; Association of Hawaiian Civic Clubs; Kupuna for the Moopuna; and numerous individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of Health; Department of Environmental Services of the City and County of Honolulu; Hawai'i Environmental Change Agents-Solid Waste Reduction Task Force; Energy Justice Network; and three individuals.

Your Committee finds that although waste and disposal facilities are necessary, their location should be carefully considered to prevent harm to the public health and environment as there is a serious risk of harmful leachate seeping into the ground on which the facilities sit. This is particularly dangerous if the waste or disposal facility is situated atop a freshwater aquifer, as leachate infiltration can introduce harmful pollutants into drinking water and agricultural irrigation systems. Your Committee believes that prohibiting the construction, modification, or expansion of waste and disposal facilities on land that is above a significant aquifer, as proposed by this measure, will enable the State to fulfill its role as the primary guardian of public trust resources, including fresh water.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 969, H.D. 1, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 594 Water & Land on H.B. No. 800

The purpose of this measure is to:

- (1) Provide for the transfer of certain parcels in the Liliha Civic Center area and Iwilei Fire Station area from various state agencies to the City and County of Honolulu;
- (2) Provide for the transfer of the parcel of land on which Alii Place is sited from the City and County of Honolulu to the State;
- (3) Repeal the sunset provision of Act 45, Session Laws of Hawaii 2024, which allows the counties to share in the burden of facilitating the development, construction, financing, refinancing, or other provision of mixed-use developments, including low- and moderate-income housing projects, and issue county bonds for this purpose;
- (4) Require the City and County of Honolulu to accept the properties transferred in satisfaction of all amounts owed by Hawaii Housing Finance and Development Corporation under the Kapolei roadways, drainage, and sewer settlement; and
- (5) Exempt the lands transferred to the Department of Land and Natural Resources from the definition of public lands for purposes of chapter 171, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Accounting and General Services; and Hawaii Housing Finance and Development Corporation. Your Committee received testimony in opposition to this measure from the Office of the Mayor of the City and County of Honolulu. Your Committee received comments on this measure from the Association of Unit Owners of Senior Residence at Iwilei.

Your Committee finds that this measure will help address the State's pressing need for office space by creating an opportunity for state agencies to secure long-term office spaces, reducing government reliance on private commercial office space.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 800, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 800, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Belatti, Souza). Noes, none. Excused, 1 (Woodson).

SCRep. 595 Water & Land on H.B. No. 511

The purpose of this measure is to provide that a survey of the land that is to be set aside shall not be a condition precedent to the setting aside of public lands to any department or agency of the State.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawaii Cattlemen's Council, Inc.; Boteilho Hawaii Enterprises Inc.; SC Ranch Co. Inc.; TiLeaf Group; and one individual.

Your Committee finds that requiring land surveys before setting aside public lands between state departments causes unnecessary delays and administrative burdens, hinders efficient land use, and increases costs. This measure eliminates the survey requirement as a condition precedent, streamlining the process to expedite land transfers, such as pending transfers pursuant to Act 90, Session Laws of Hawaii 2003, and helps conserve government resources.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 511, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 511, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 596 Water & Land on H.B. No. 798

The purpose of this measure is to clarify the exemptions to the prohibition on discharging any wastewater or raw sewage into state waters after December 31, 2026, by:

- (1) Removing the exemption for treatment plants that produce clean energy; and
- (2) Exempting treatment plants with a treatment capacity under a certain amount.

Your Committee received testimony in support of this measure from the Department of Health; Hawaii Housing Finance and Development Corporation; and Office of the Mayor of the County of Maui.

Your Committee finds that this measure will allow the County of Maui to move forward with its plans for the Waikapu Wastewater Treatment Plan and allow for the development of affordable housing.

Your Committee has amended this measure by clarifying that the prohibition against discharging wastewater or raw sewage applies strictly to treatment plants, not any person, including a public body.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 798, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs in the form attached hereto as H.B. No. 798, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Belatti, Souza). Noes, 2 (Iwamoto, Shimizu). Excused, none.

SCRep. 597 Judiciary & Hawaiian Affairs on H.B. No. 166

The purpose of this measure is to:

- (1) Declare that the State has a duty to defend professionally licensed or certified state employees from civil actions when the employee's actions were within the scope of employment and were not grossly negligent or wanton, as long as the employee is cooperating with the State's defense;
- (2) Clarify that professionally licensed or certified state employees may employ their own attorneys at their own expense;
- (3) Require the Attorney General to work with the professionally licensed or certified state employee to amicably transfer representation to the successor counsel chosen by the employee if the State declines to defend the employee from a civil action on certain grounds; and
- (4) Require the Attorney General to file a confidential motion to withdraw as counsel if the Attorney General and professionally licensed or certified state employee cannot amicably transfer representation to the successor counsel.

Your Committee received testimony in support of this measure from the Hawaii Association for Justice; Hawaii State AFL-CIO; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that this measure would further strengthen the legal protections for governmental employees when exercising their professional judgment, which will enable the State to attract and retain qualified employees who may otherwise fear that they would be held personally and financially liable.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 166, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 166, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 598 Water & Land on H.B. No. 879

The purpose of this measure is to:

- (1) Increase the maximum grant amount for the Cesspool Compliance Pilot Grant Project; and
- (2) Appropriate funds for the Cesspool Compliance Pilot Grant Project.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Department of Health; Hawai'i Reef and Ocean Coalition; Hawai'i Association of REALTORS; WAI: Wastewater Alternatives & Innovations; and three individuals.

Your Committee finds that all cesspools in the State must be upgraded or converted to a wastewater system by 2050. Your Committee further finds that while grants to assist low- and moderate-income property owners in their cesspool upgrades or conversions were authorized by Act 153, Session Laws of Hawaii 2022, these grants may not be sufficient to cover the full cost of an upgrade or conversion. Your Committee believes that authorizing additional funds and increasing the maximum amount of the grant allowed will enable the State to reach its policy goals and better protect the State's waters.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider making the program a loan program, rather than a grant program, and to consider establishing need-based qualifications for applicants.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 879, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 599 Water & Land on H.B. No. 379

The purpose of this measure is to require newly installed or modified individual wastewater systems that are near the shoreline, or likely to pollute groundwater, to include denitrification capacity.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; one member of the Kaua'i County Council; two members of the Hawai'i County Council; Center for Global Discovery and Conservation Science; Puako for Reefs; Kauhakō 'Ohana Association; Hawai'i Reef and Ocean Coalition; Hawai'i Ocean Legislative Task Force; WAI: Wastewater Alternatives & Innovations; The Nature Conservancy, Hawai'i and Palmyra; Water Quality Consulting, Inc.; Hawai'i State Association of Counties; and numerous individuals. Your Committee received comments on this measure from the Department of Health and Hawai'i Association of REALTORS.

Your Committee finds that clean nearshore waters are vital to public health and the health of nearshore reefs and associate fisheries. Your Committee further finds that when excess nutrients such as nitrogen enter nearshore waters from wastewater systems, they can stimulate the growth of algae, which can smother coral. Requiring newly installed or modified individual wastewater systems to include denitrification capacity, as proposed by this measure, will likely reduce the amount of pollutants entering Hawai'i's nearshore waters, ensuring future generations can reap the benefits of healthy and resilient coral reef ecosystems.

Your Committee has amended this measure by:

- (1) Deleting the requirement that individual wastewater systems located at or below one thousand five hundred feet above sea level and subject to certain soil and substrate conditions have denitrification capacity; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 379, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Consumer Protection & Commerce in the form attached hereto as H.B. No. 379, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Iwamoto). Noes, none. Excused, none.

SCRep. 600 Water & Land on H.B. No. 738

The purpose of this measure is to:

- (1) Create a process for expediting the review of majority residential mixed-use transit-oriented development or residential transit-oriented development on certain parcels within county-designated transit-oriented development zones that have a low risk of affecting historically significant resources;
- (2) Further empower lead agencies, including county agencies, to make determinations on the potential effects of a project;
- (3) Create a ninety-day or thirty-day limit, as applicable, for the Department of Land and Natural Resources to concur or not concur with project effect determinations; and
- (4) Ensure that projects with written concurrence are exempt from further review unless there is a significant change to the project.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawaii Housing Finance and Development Corporation; Holomua Collaborative; Hawai'i YIMBY; Grassroot Institute of Hawaii; Oahu Metropolitan Planning Organization; NAIOP Hawaii; Hawai'i Association of REALTORS; and two individuals. Your Committee received comments on this measure from the Office of Hawaiian Affairs; Hawai'i Community Development Authority; and Department of Planning and Permitting of the City and County of Honolulu.

Your Committee finds that the historic preservation review process is necessary to preserve Hawaii's cultural resources, including historic properties and burial sites. Your Committee further finds that expediting the historic review process for transit-oriented development projects located in areas that have previously been surveyed and found to pose a low risk to historically significant resources will allow the State to address the ongoing housing crisis while still ensuring vital elements of the State's heritage are protected and preserved.

Your Committee has amended this measure by:

- (1) Establishing a notice and reporting requirement if a change in the project's physical scope or project area or if additional historic properties or aviation artifacts are discovered in the project area after the initial written concurrence is issued;
- (2) Providing for the treatment of burial sites inadvertently discovered after the initial written concurrence is issued; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 738, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs in the form attached hereto as H.B. No. 738, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Iwamoto). Noes, none. Excused, none.

SCRep. 601 Water & Land on H.B. No. 1138

The purpose of this measure is to authorize the Board of Land and Natural Resources to adopt rules, including interim rules, regarding commercial and recreational use of water sports equipment.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from the Maui Wingfoiling and Windsurfing Facebook Page; Boss Frog's Dive and Surf; Ocean Tourism Coalition; and numerous individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that new water sports equipment is often developed using new and emerging ocean recreation technologies, but the Department of Land and Natural Resources does not have the ability to quickly regulate these new types of equipment if they pose a threat to the health and safety of the public or the State's natural resources. Your Committee further finds that under existing law, agencies may issue emergency rules to address matters that present an imminent peril to the public health and safety or to natural resources without prior notice or hearing. However, these emergency rules may only be in effect for one hundred twenty days without renewal. Your Committee believes that extending the period for which an emergency rule may be in effect specifically for the regulation of commercial and recreational water sports equipment will grant the Department of Land and Natural Resources the flexibility necessary to address any threats to the public safety or natural resources posed by new and emergent ocean recreation technologies.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language granting the Board of Land and Natural Resources the authority to issue interim rules for a twenty-four month period;
- (2) Inserting language authorizing the Board of Land and Natural Resources to issue emergency rules to be in effect for a three hundred sixty-five day period without renewal for the regulation of commercial and recreational water sports equipment;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1138, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1138, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Iwamoto, Shimizu). Noes, none. Excused, 1 (Woodson).

SCRep. 602 Water & Land on H.B. No. 830

The purpose of this measure is to require the Department of Land and Natural Resources, through the State Historic Preservation Division and subject to approval from the appropriate island burial council, to contract its review of proposed state projects, projects on privately owned historic property, and projects involving entitlements for use that may affect historic properties to third-party consultants if the Department will not be able to complete its review within sixty days.

Your Committee received testimony in support of this measure from the Hawai'i Association of REALTORS; Grassroot Institute of Hawaii; NAIOP Hawaii; and one individual. Your Committee received testimony in opposition to this measure from the Historic Hawai'i Foundation. Your Committee received comments on this measure from the Department of Land and Natural Resources; Maui Chamber of Commerce; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the process for preserving historical sites needs to improve in efficiency of review and decision-making. However, your Committee also recognizes that relying on third-party consultants could be challenging for the Department of Land and Natural Resources, especially if the State Historic Preservation Division is responsible for covering the costs related to contracting these external experts.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 830, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Belatti, Shimizu). Noes, 1 (Iwamoto). Excused, none.

SCRep. 603 Energy & Environmental Protection/Agriculture & Food Systems on H.B. No. 1365

The purpose of this measure is to appropriate funds to the Department of Agriculture for the preparation of an environmental impact statement to drill non-potable water wells on individual parcels at Panaewa Agricultural Park and Panaewa farm lots.

Your Committees received testimony in support of this measure from the Hawai'i Farm Bureau; Hawai'i Farmers Union; Hawai'i Food+ Policy; Hawaii Floriculture and Nursery Association; and three individuals. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that access to affordable and reliable irrigation water is essential for agricultural viability. This measure provides resources for preparation of an environmental impact statement to drill non-potable water wells on individual parcels at Panaewa Agricultural Park and Panaewa farm lots, enhancing irrigation water access in the region.

Your Committees have amended this measure by:

- (1) Clarifying that the appropriation is for a Non-Potable Water Wells Pilot Program; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Energy & Environmental Protection and Agriculture & Food Systems that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1365, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1365, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chairs on behalf of the Committees.

Energy & Environmental Protection: Ayes, 5. Noes, none. Excused, 1 (Ward).
 Agriculture & Food Systems: Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 604 Energy & Environmental Protection on H.B. No. 751

The purpose of this measure is to:

- (1) Establish statewide goals for solid waste reduction and organic waste diversion; and
- (2) Require each county to incorporate into its next integrated solid waste management plan revision a plan to divert certain organic waste generated within the county in alignment with established state benchmarks.

Your Committee received testimony in support of this measure from Hawai'i Farmers Union; Hawai'i Reef and Ocean Coalition; Climate Protectors Hawai'i; and two individuals. Your Committee received testimony in opposition to this measure from the Office of the Mayor of the County of Maui and Department of Environmental Management of the County of Hawai'i. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that the Aloha+ Challenge established the goal to reduce by seventy percent the solid waste stream prior to disposal by 2030 through source reduction, recycling, bioconversion, and landfill diversion methods for organic waste. In order to help the State meet this goal, this measure establishes statewide benchmarks for solid waste reduction and organic waste diversion and requires the counties to incorporate these benchmarks into their integrated solid waste management plans.

Your Committee has amended this measure by:

- (1) Clarifying that organic waste generators are required to divert material to any Department of Health approved facility;
- (2) Changing the deadline for Tier 1 organic waste generators to January 1, 2027;
- (3) Changing the deadline by which all organic wastes are banned from landfills and co-generation plants to January 1, 2040;
- (4) Adding a definition for "compostable";
- (5) Including compostable food packing and removing food-soiled paper from the definition of "organic waste";
- (6) Changing the deadlines for the goals to reduce the solid waste stream prior to disposal by forty and seventy percent to January 1, 2027, and January 1, 2035, respectively;
- (7) Removing organic waste landfill diversion from the methods specified for the reduction of the solid waste stream prior to disposal;
- (8) Clarifying that the State's goal is to eliminate organic waste stream disposal via incineration, waste-to-energy, or landfill by 2040 and removing interim deadlines;
- (9) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that the benchmarks for organic waste generators are mandatory requirements and not reduction targets. Your Committee further notes that ensuring compliance with these benchmarks can be simplified by requiring haulers and processing facilities to report diversion rates, rather than mandating that each organic waste generator report tonnages. Your Committee also notes that further amendments may be needed to ensure that organic waste generators are authorized to use certain waste diversion methods, such as through food donation and turning organic waste into animal feed.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 751, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 751, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
 Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 605 Energy & Environmental Protection on H.B. No. 787

The purpose of this measure is to require the Hawaii Climate Change Mitigation and Adaptation Commission, with support from the Department of Land and Natural Resources, to study the feasibility of implementing a "buy clean" state policy and program, including an analysis of best practices and standards informed by scientific evidence.

Your Committee received testimony in support of this measure from the State Procurement Office; Hawai'i Climate Change Mitigation & Adaptation Commission; Climate Protectors Hawai'i; and Coalition Earth. Your Committee received comments on this measure from the Office of Planning and Sustainable Development.

Your Committee finds that upstream industrial greenhouse gas emissions from the lifecycle of construction materials are an untapped area for decarbonization. Your Committee further finds that numerous states have addressed these sources of emissions by adopting "buy clean" initiatives, which require environmental product declarations for materials used in the construction of capital public projects and direct state agencies to prioritize bids that use materials with the lowest environmental impact. This measure requires the Hawaii Climate Change Mitigation and Adaptation Commission to study the feasibility of implementing a "buy clean" program in the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests the Hawaii Climate Change Mitigation and Adaptation Commission and State Procurement Office to collaborate on suggested amendments for this measure.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 787, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 787, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
 Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 606 Energy & Environmental Protection on H.B. No. 1019

The purpose of this measure is to:

- (1) Expand the Hawaii Renewable Hydrogen Program to include identification of likely pumped storage hydropower locations, or sites for other long duration clean energy storage technologies, and promotion of their development and rename it as the Hawaii Renewable Hydrogen and Long Duration Clean Energy Storage Program;
- (2) Expand the use of the Hydrogen Investment Special Fund to include seed capital and venture capital investments for the Hawaii Renewable Hydrogen and Long Duration Clean Energy Storage Program; and
- (3) Appropriate funds for the Hawaii Renewable Hydrogen and Long Duration Clean Energy Storage Program.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii State Energy Office; Hawai'i Center for Advanced Transportation Technologies; Hawai'i Gas; and one individual.

Your Committee finds that the State must ensure that it has the ability to store locally produced clean energy in the event that there are disruptions to the supply and availability of imported energy commodities. This measure addresses this need by expanding the Hawaii Renewable Hydrogen Program to include identification of likely pumped storage hydropower locations or sites for other clean energy storage technologies and providing seed capital and investments for the Hawaii Renewable Hydrogen and Long Duration Clean Energy Storage Program.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$3,500,000 for the Hawaii Renewable Hydrogen and Long Duration Clean Energy Storage Program.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1019, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1019, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 607 Energy & Environmental Protection/Water & Land on H.B. No. 661

The purpose of this measure is to permit, except in certain circumstances, a previously authorized activity challenged as being subject to environmental review to continue while the applicable agency conducts an environmental assessment, prepares an environmental impact statement, or determines whether the activity is exempt.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Office of Planning and Sustainable Development; Ocean Tourism Coalition; Holo Holo Charters; Captain Andy's Sailing Adventures; Fair Wind Cruises; Kona Sunrise Charters; Ka'anapali Beach Resort Association; Sailing Maui Inc.; Sea Paradise Scuba Inc.; Sea Quest Hawaii; Sail Maui; Body Glove Hawaii; Calypso Charters; OUTRIGGER Ka'anapali Beach Resort; Teralani Sailing; OUTRIGGER Hospitality Group; Absolute Charters Inc.; Maui Hotel and Lodging Association; Jack's Diving Locker; Maui Brewing Co.; Blue Dolphin Charters, Ltd.; Maui Chamber of Commerce; Explore Kauai Scuba, LLC; Sailing Shippo LTD; Activities & Attractions Association of Hawaii, Inc.; and numerous individuals. Your Committees received testimony in opposition to this measure from the Office of Hawaiian Affairs; Earthjustice; Sierra Club of Hawai'i; Green Party of Hawai'i; Free Access Coalition; Kupuna for the Moopuna; League of Women Voters of Hawaii; and numerous individuals. Your Committees received comments on this measure from one individual.

Your Committees find that recent court decisions have broadened the types of actions that necessitate environmental review. Your Committees further find that this expansion subjects law-abiding operations, including commercial boating and recreational activities, to environmental review, causing disruptions to many businesses. This measure addresses this issue by allowing, except in certain circumstances, a previously authorized activity to continue while the applicable agency or applicant conducts an environmental assessment, prepares an environmental impact statement, or determines whether the activity is exempt.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committees note that there are still significant issues with this measure as written and that continued collaboration with various stakeholders will be necessary to make amendments to this measure as it moves forward.

As affirmed by the records of votes of the members of your Committees on Energy & Environmental Protection and Water & Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 661, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 661, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.

Energy & Environmental Protection: Ayes, 5; Ayes with Reservations (Perruso). Noes, none. Excused, 1 (Ward).

Water & Land: Ayes, 7; Ayes with Reservations (Belatti, Shimizu, Souza). Noes, 2 (Iwamoto, Poepoe). Excused, 1 (Woodson).

SCRep. 608 Higher Education on H.B. No. 531

The purpose of this measure is to authorize the issuance of special number plates to recognize the University of Hawaii Cancer Center.

Your Committee received testimony in support of this measure from the University of Hawai'i Cancer Center; American Cancer Society Cancer Action Network; and two individuals.

Your Committee finds that the introduction of a University of Hawaii Cancer Center special license plate will provide the public with a meaningful way to show their support for cancer research and treatment in the State. Your Committee further finds that the funds raised through the special license plate program

will help sustain and expand the Center's ability to provide state-of-the-art research and patient care, bringing direct benefits to the local workforce, healthcare industry, and economy.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 531, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Sayama).

SCRep. 609 Higher Education on H.B. No. 736

The purpose of this measure is to establish and appropriate funds for a three-year New Wastewater System Technology Testing Pilot Program within the University of Hawaii Water Resources Research Center (Center).

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Department of Health; University of Hawai'i Water Resources Research Center; Climate Change Mitigation and Adaptation Commission; Hawai'i Reef and Ocean Coalition; Water Quality Consulting, Inc.; Environmental Caucus of the Democratic Party of Hawai'i; Wastewater Alternatives & Innovations; and six individuals.

Your Committee finds that new wastewater technologies and management solutions are being introduced that may improve public health and the environment, especially the protection of fragile coral reefs, and are more affordable than some traditional individual wastewater systems. Technologies that are reaching a commercial scale for the first time include solutions for individual homes, multi-unit dwellings, apartment buildings, and entire communities. At the neighborhood or municipal scale, these technologies could effectively treat sewage from entire communities for lower costs than existing technology now employed in Hawaii.

Your Committee further finds that these new technologies need to be tested in order to be certified by the Department of Health for use in the State. Your Committee notes that the University of Hawaii Water Resources Research Center has experience in such testing; however, the Center would need funding for a full-time coordinator, administrative efforts and infrastructure, and equipment costs for testing and analyses. This measure will establish a pilot program that will provide the Center with the resources it needs to test new wastewater system technologies to facilitate the technologies' certification for use in Hawaii.

Your Committee notes that the cost estimate provided by the Center in its testimony is \$745,325 for the three-year period of the New Wastewater System Technology Testing Pilot Program.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 736, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Sayama).

SCRep. 610 Higher Education on H.B. No. 1185

The purpose of this measure is to establish and appropriate funds for a working group within the University of Hawaii at Manoa College of Tropical Agriculture and Human Resilience to study and report on how best to grow plants and develop plant-based building materials in Hawaii.

Your Committee received testimony in support of this measure from 350Hawaii.org; Hawai'i Farm Bureau; Hawai'i Reef and Ocean Coalition; and Climate Protectors Hawai'i.

Your Committee finds that establishing a working group to conduct a study on growing plants that could be used for building materials in Hawaii will explore how best to develop a home-grown building materials industry and the creation of agricultural and green jobs in the State. Your Committee further finds that the knowledge and expertise offered by the University of Hawaii at Manoa College of Tropical Agriculture and Human Resilience will help support the working group in conducting such a study.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1185, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 1185, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Sayama).

SCRep. 611 Higher Education on H.B. No. 1300

The purpose of this measure is to appropriate funds to the University of Hawaii Cancer Center to conduct a multiethnic cohort study focusing on the social determinants of health, lifestyles, environmental exposures, and resilience factors of Native Hawaiians, Pacific Islanders, and Filipinos, including an analysis of the health effects and risks of individuals living in close proximity to landfills in Nanakuli, Oahu.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; University of Hawai'i Cancer Center; University of Hawai'i at Mānoa John A. Burns School of Medicine; The Queen's Health Systems; American Cancer Society Cancer Action Network; Ironworkers Stabilization Fund; Leukemia & Lymphoma Society; and seven individuals.

Your Committee finds that the appropriation made by this measure will fund vital resources needed by the University of Hawaii Cancer Center to help initiate a long-term study that will provide critical data to improve the cancer disparities and promote health equity in populations that experience high rates for many common cancers and continue to be understudied and underserved.

Your Committee notes that the cost to conduct the multiethnic cohort study as required by this measure is estimated to be \$500,000 for fiscal year 2025-2026 and \$500,000 for fiscal year 2026-2027.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1300, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Sayama).

SCRep. 612 Higher Education on H.B. No. 1337

The purpose of this measure is to require the University of Hawaii at Manoa College of Tropical Agriculture and Human Resilience (CTAHR) to establish an Endemic Plant Seed Bank Pilot Program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; University of Hawai'i at Manoa College of Tropical Agriculture and Human Resilience; Hawai'i Farm Bureau; Big Island Invasive Species Committee; and one individual.

Your Committee finds that CTAHR currently has a small seed production program focused exclusively on agriculturally important crop varieties. Your Committee further finds that CTAHR has the land and expertise to produce the endemic plant seeds through the Endemic Plant Seed Bank Pilot Program as required by this measure. Your Committee believes that the Endemic Plant Seed Bank Pilot Program is an important initiative that will preserve and promote the planting of plant species that are endemic to the State.

Your Committee notes that CTAHR estimates the cost to start the Endemic Plant Seed Bank Pilot Program will be approximately \$6,000,000.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1337, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Sayama).

SCRep. 613 Higher Education on H.B. No. 1352

The purpose of this measure is to appropriate funds for the University of Hawaii I Hoa Na Moololo Program.

Your Committee received testimony in support of this measure from the University of Hawai'i at Mānoa Hawai'inuiākea School of Hawaiian Knowledge and four individuals.

Your Committee finds that the University of Hawaii I Hoa Na Moololo Program is a project developed by University of Hawaii Associate Professor Kahikina de Silva in 2021 to create a quarterly children's magazine for Kula Kaiapuni Hawaiian language immersion and charter school students from grades 2 through 6 on Oahu. Your Committee further finds that the I Hoa Na Moololo Program provides an efficient and cost effective way to sustain and strengthen 'Ōlelo Hawaii and meet the needs of Hawaiian language communities. This measure will provide funding for additional resources for I Hoa Na Moololo Program to continue its work in advancing the education of 'Ōlelo Hawaii.

Your Committee has amended this measure by:

- (1) Allowing for the use of the funds appropriated for the University of Hawaii I Hoa Na Moololo Program to include the hiring of a graduate assistant, hiring of undergraduate writers, and acquiring a new website domain;
- (2) Changing the amount appropriated to an unspecified amount; and
- (3) Changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$179,378 for the University of Hawaii I Hoa Na Moololo Program.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1352, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1352, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Sayama).

SCRep. 614 Consumer Protection & Commerce on H.B. No. 1161

The purpose of this measure is to:

- (1) Beginning July 1, 2028, authorize counties to impose a county mileage-based road usage charge for electric vehicles;
- (2) Clarify the collection and disposition of funds from the state and county mileage-based road usage charges, including the establishment of a State Mileage-Based Road Usage Charge Subaccount;
- (3) Clarify the rate for the state mileage-based road usage charge in the event the odometer information is missing, incomplete, or incorrect;
- (4) Subject motor scooters to motor vehicle insurance requirements;
- (5) Specify that rental motor vehicle companies may visibly pass to the consumer the costs of the state and county mileage-based road usage charges; and
- (6) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Transportation; Hawai'i State Energy Office; Department of Customer Services of the City and County of Honolulu; Office of the Mayor of the County of Kaua'i; one member of the Hawai'i County Council; two members of the Maui County Council; Ulupono Initiative; Oahu Metropolitan Planning Organization; and one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs; Hawaii Electric Vehicle Association; Tax Foundation of Hawaii; Alliance for Automotive Innovation; and Hawaii Food Industry Association.

Your Committee finds that the increasing popularity of electric vehicles has presented opportunities and challenges for Hawaii's transportation infrastructure. The State's fuel tax revenue, which funds necessary road maintenance and infrastructure, is declining as more of the State's residents adopt electric vehicles. To address the loss of fuel tax revenue, Act 222, Session Laws of Hawaii 2023, enacted a mileage-based road usage charge on electric vehicles to establish a fair and sustainable means of funding for the maintenance and improvement of roadways owned and maintained by the State. Your Committee further finds that the counties are facing a similar decline in county fuel tax revenue, leading to a shortfall in funding for the maintenance of county road infrastructure. This measure is intended to establish a mileage-based road usage charge on the county level to ensure that county roads and bridges are safe and accessible as Hawaii begins transitioning to a fair and sustainable source of transportation funding.

Your Committee also finds that plug-in hybrid electric vehicles, like electric vehicles, contribute to the declining fuel tax revenue since plug-in hybrid electric vehicles operate with minimal fuel consumption. Consequently, your Committee believes that plug-in hybrid electric vehicles should be subject to the state mileage-based road usage charge sooner than 2033, when the Department of Transportation is tasked with submitting a plan for transitioning all passenger vehicles and light-duty trucks to the state mileage-based road usage charge.

Accordingly, your Committee has amended this measure by:

- (1) Extending the authorization for county mileage-based road usage charges to plug-in hybrid electric vehicles;
- (2) Defining "plug-in hybrid electric vehicle";
- (3) Clarifying that the county mileage-based road usage charge is to be paid each year following an electric vehicle's or a plug-in hybrid electric vehicle's most recent inspection, rather than registration;
- (4) Deleting the creation of the State Mileage-Based Road Usage Charge Subaccount;
- (5) Beginning July 1, 2026, extending the state mileage-based road usage charge to plug-in hybrid electric vehicles;
- (6) Deleting language that subjected motor scooters to the State's motor vehicle insurance requirements; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1161, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 1161, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 1 (Pierick). Excused, none.

SCRep. 615 Judiciary & Hawaiian Affairs on H.B. No. 595

The purpose of this measure is to establish the right of a person to record law enforcement activities and a private right of action for any violation of the right to record law enforcement activities.

Your Committee received testimony in support of this measure from the Office of the Public Defender; League of Women Voters of Hawaii; Drug Policy Forum of Hawaii; and two individuals.

Your Committee finds that this measure codifies the constitutional right to record police activity, as recognized by the Hawaii Supreme Court in *State v. Russo*, 141 Haw. 181 (2017). This measure would also promote police accountability by creating a statutory right of action.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 595, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 595, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 616 Judiciary & Hawaiian Affairs on H.B. No. 550

The purpose of this measure is to:

- (1) Allow video recordings made by law enforcement agencies who are using, controlling, or operating unmanned aerial vehicles to establish probable cause for arrests under the Fireworks Control Law if the unmanned aerial vehicle is recording directly above a public park, street, sidewalk, easement, or any public property and the act leading to the arrest is committed on a public street, sidewalk, or other public property; and
- (2) Appropriate funds to the Department of Law Enforcement for the purchase of unmanned aerial vehicles to monitor the use of illegal fireworks.

Your Committee received testimony in support of this measure from the Honolulu Police Department; Hawaiian Humane Society; and numerous individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender; Libertarian Party of Hawaii; and four individuals.

Your Committee finds that this measure will allow law enforcement to use drone footage as evidence of fireworks violations on public property. This will allow for better enforcement of fireworks violations and deter the use of illegal fireworks in the State.

Your Committee has amended this measure by:

- (1) Clarifying when probable cause may be established by recordings made by unmanned aerial vehicles for acts committed on public property;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 550, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 550, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Shimizu). Noes, none. Excused, 1 (Garcia).

SCRep. 617 Judiciary & Hawaiian Affairs on H.B. No. 740

The purpose of this measure is to establish the Accessory Dwelling Unit Financing and Deed Restriction Program to allocate funds to the counties to provide grants to eligible homeowners or homebuyers to finance construction costs, development costs, and non-reoccurring closing costs associated with the construction of an accessory dwelling unit and purchase deed restrictions on such property.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; one member of the Maui County Council; Office of Housing and Community Development of the County of Hawai'i; Catholic Charities Hawai'i; Hawai'i YIMBY; Hawaii Appleseed Center for Law & Economic Justice; Holomua Collaborative; Hawai'i Community Foundation; Title Guaranty Hawaii; Hawai'i Gas; Mana Up; HPM Building Supply; aio; Tori Richard, Ltd; Housing Hawai'i's Future; Chamber of Commerce Hawaii; Maui Chamber of Commerce; and one individual. Your Committee received comments on this measure from the Department of the Attorney General; Department of Taxation; Hawai'i Association of REALTORS; and Tax Foundation of Hawaii.

Your Committee finds that this measure offers an effective solution to increase housing supply, especially in residential areas with available space for additional dwellings. Your Committee further finds that the Department of the Attorney General testified that the measure does not appear to contain legally sufficient standards for the award of such grants involving public money as required by the Hawaii State Constitution.

Accordingly, your Committee has amended this measure by:

- (1) Inserting appropriate standards for grant awards;
- (2) Clarifying the exemption from conveyance taxes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that the Department of Taxation is requesting that the conveyance tax exemption take effect on January 1, 2026, to allow for form and instruction changes necessary to implement the proposed exemption.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 740, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 740, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Shimizu). Noes, none. Excused, 1 (Garcia).

SCRep. 618 Judiciary & Hawaiian Affairs on H.B. No. 126

The purpose of this measure is to make the State's property forfeiture process more just by:

- (1) Increasing transparency and accountability surrounding property forfeiture;
- (2) Clarifying which property is subject to forfeiture;
- (3) Amending the authorized disposition of forfeited property and the proceeds thereof; and
- (4) Repealing language that requires the Hawaii Omnibus Criminal Forfeiture Act to be construed liberally.

Your Committee received testimony in support of this measure from the Office of the Public Defender; Community Alliance on Prisons; Grassroot Institute of Hawaii; and Drug Policy Forum of Hawaii. Your Committee received testimony in opposition to this measure from the Honolulu Police Department. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the State's existing property forfeiture process requires reform to ensure greater fairness, transparency, and accountability. This measure clarifies the types of property subject to forfeiture, adjusts the disposition of forfeited assets, mandates public record-keeping, and removes provisions that allowed for overly broad interpretations of the law.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 126, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 126, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Garcia, Shimizu). Noes, none. Excused, 1 (Cochran).

SCRep. 619 Judiciary & Hawaiian Affairs on H.B. No. 29

The purpose of this measure is to authorize the counties to implement additional enforcement mechanisms, including the use of power of sale, to address severe public nuisances that remain unmitigated after the exhaustion of all other existing remedies.

Your Committee received testimony in support of this measure from four individuals. Your Committee received testimony in opposition to this measure from four individuals. Your Committee received comments on this measure from the Hawaii Bankers Association and Grassroot Institute of Hawaii.

Your Committee finds that authorizing the counties to collect on liens filed on properties through a non-judicial foreclosure process provides some leverage over property owners to comply or lose their property. If a property owner fails to comply and the property is foreclosed upon, this measure would enable the property to be put to productive use, allow liens attached to the property to be satisfied, and stop the accrual of additional debt on the property. This measure addresses the need of the counties to bring closure to pending civil fines imposed on property owners who are in violation of nuisance laws, ordinances, or rules.

Your Committee has amended this measure by:

- (1) Clarifying that if a county utilizes its authority of power of sale, such authority must be exercised pursuant to the state law on foreclosures; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 29, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 29, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Shimizu). Noes, 1 (Garcia). Excused, 1 (Cochran).

SCRep. 620 Judiciary & Hawaiian Affairs on H.B. No. 472

The purpose of this measure is to:

- (1) Require digitized identification cards to be accepted as a valid form of identification, under certain conditions; and
- (2) Authorize state and county law enforcement agencies to accept a digitized identification card as proof of a person's identity.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that in August 2024, the Department of Transportation implemented Mobile Driver's License, which permits residents to add their driver's license or identification to an Apple digital wallet that allows users to present the digital or mobile form of their credential to verify, to the extent permitted by federal and state laws, identity and eligibility with the Transportation Security Administration instead of presenting a physical state-issued credential. This measure would build upon this effort by enabling digitized identification cards to be accepted as a valid form of identification in the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 472, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 472, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, 2 (Garcia, Shimizu). Excused, 1 (Cochran).

SCRep. 621 Judiciary & Hawaiian Affairs on H.B. No. 662

The purpose of this measure is to:

- (1) Repeal the exemption for the expenditure of a candidate's own funds under the definition of contribution;
- (2) Make contributions by the candidate's immediate family subject to contribution limits; and
- (3) Amend the loan amount that a candidate or candidate committee may receive from the candidate's own funds or immediate family.

Your Committee received testimony in support of this measure from the Free Access Coalition and numerous individuals. Your Committee received testimony in opposition to this measure from the Campaign Spending Commission. Your Committee received comments on this measure from one individual.

Your Committee finds that the Campaign Spending Commission testified that it has concerns regarding the constitutionality of subjecting a candidate's use of the candidate's own funds to contribution and loan limits. Your Committee further finds that the Department of the Attorney General echoed these concerns but stated that limitations could be placed on a candidate's immediate family members.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have:
 - (A) Repealed the exemption for the expenditure of a candidate's own funds under the definition of contribution; and
 - (B) Amended the loan amount that a candidate or candidate committee may receive from the candidate's own funds;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 662, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 662, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 622 Judiciary & Hawaiian Affairs on H.B. No. 280

The purpose of this measure is to permanently establish and appropriate funds for the Community Outreach Court as a division of the District Court of the First Circuit.

Your Committee received testimony in support of this measure from the Judiciary; Office of the Public Defender; Hawai'i Health & Harm Reduction Center; and Hawaii Substance Abuse Coalition. Your Committee received comments on this measure from the Department of the Attorney General and Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that since its inception, the Community Court Outreach Project has held several court sessions across Oahu. Through these sessions, the Community Court Outreach Project has addressed more than ten thousand cases, recalled more than nine hundred bench warrants, lifted more than seven thousand driver license stoppers, and assisted more than six hundred participants with social services or referrals. This measure would further support the Community Court Outreach Project and provide much needed resources and funding to assist the Court's clients and operations.

Your Committee has amended this measure by:

- (1) Providing that the Community Outreach Court may only hear and dispose of cases involving nonviolent, nonfelony offenses under laws of the State and ordinances of the City and County of Honolulu determined to be appropriate by the Department of the Prosecuting Attorney of the City and County of Honolulu;
- (2) Amending the process for the prosecuting attorney to select participants into the Community Outreach Court and enter into plea agreement negotiations;
- (3) Authorizing the Judiciary, pursuant to its appropriation for the operations of the Community Outreach Court, to enter into intergovernmental agreements or memorandums of understanding with any agency of the State or the City and County of Honolulu for the purpose of collaboration, cooperation, coordination, combination of resources, funding distribution, or the administration of Community Outreach Court; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 280, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 280, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 623 Judiciary & Hawaiian Affairs on H.B. No. 900

The purpose of this measure is to establish and appropriate funds for a working group to improve family court processes, including access to legal representation for youth in the child welfare system.

Your Committee received testimony in support of this measure from the Judiciary; Department of Human Services; Office of Wellness and Resilience; Hawaii Coalition for Child Protective Reform; National Center for Youth Law; HCANSpeaks!; HI H.O.P.E.S.; and five individuals.

Your Committee finds that this measure promotes collaboration with the judicial and legal system, partners, and lived-experience experts to continue to better outcomes for children, youth, families, and communities. Your Committee believes that it would be beneficial for a representative of the Department of Human Services Child Welfare Services Branch to participate in the working group.

Your Committee has amended this measure by:

- (1) Requiring the working group to include a representative of the Department of Human Services Child Welfare Services Branch;
- (2) Extending the deadline for the report by the working group to 2027;
- (3) Specifying that the appropriation may be used for members of the working group to make site visits and to assist with the report drafting; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 900, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 900, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 624 Judiciary & Hawaiian Affairs on H.B. No. 727

The purpose of this measure is to establish a three-year women's court pilot program in the Second, Third, and Fifth Circuits of the Judiciary to acknowledge the distinct pathways that lead women into the criminal justice system and address their individualized needs. Specifically, this measure:

- (1) Requires the pilot program to implement trauma-informed and evidence-based practices, employ gender-responsive programming, collaborate with stakeholders, and provide services to women in the court system with the goal of diverting participants from incarceration, supporting their success in the community, and reducing recidivism;
- (2) Appropriates funds to the Judiciary for equipment; mental health, substance abuse treatment, and other services; and the establishment of seven temporary positions for the pilot program; and
- (3) Requires the Judiciary to submit annual reports on the pilot program throughout its duration.

Your Committee received testimony in support of this measure from the Department of Health; Judiciary; Office of the Public Defender; Office of the Prosecuting Attorney of the County of Kaua'i; Department of the Prosecuting Attorney of the County of Maui; Community Alliance on Prisons; Hawaii Substance Abuse Coalition; League of Women Voters of Hawaii; American Civil Liberties Union of Hawai'i; and two individuals.

Your Committee finds that research has shown that gender-responsive approaches result in far better outcomes for women who face unique barriers to success after incarceration. Women offenders are more likely to be primary caregivers for young children, have lower educational attainment, lack stable work history, and experience economic or social marginalization. This measure seeks to address these barriers and improve outcomes for women offenders.

Your Committee has amended this measure by:

- (1) Deleting language that would have established a three-year women's court pilot program in the Third Circuit of the Judiciary and instead requiring the Third Circuit of the Judiciary and Big Island Drug Court to study and submit a report on establishing a women's court pilot program in the Third Circuit;
- (2) Changing the number of temporary staff positions established in the Judiciary to an unspecified amount;
- (3) Inserting an appropriation for the Department of Health for the women's court pilot program, including the establishment of positions;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider establishing seven temporary positions in the Judiciary and an appropriation amount of \$801,802 to the Department of Health, including:

- (1) \$145,000 for one full-time equivalent (1.0 FTE) temporary clinical psychologist position;
- (2) \$76,788 for one full-time equivalent (1.0 FTE) temporary social worker/human services professional IV position; and
- (3) \$45,216 for one full-time equivalent (1.0 FTE) temporary social services assistant V position,

to be placed in the Department of Health.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 727, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 727, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 625 Judiciary & Hawaiian Affairs on H.B. No. 304

The purpose of this measure is to require that the Hawaiian version of a law be held binding if the law in question was originally drafted in Hawaiian and then translated into English.

Your Committee received testimony in support of this measure from the Judiciary and two individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that in 2007, the United Nations adopted the United Nations Declaration on the Rights of Indigenous Peoples and this measure would contribute to the growing international movement for the protection of the rights of the world's indigenous peoples.

Your Committee has amended this measure by:

- (1) Specifying that the Hawaiian version of a law shall be binding if the law has not been later amended, codified, recodified, or reenacted in English;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 304, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 304, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Todd).

SCRep. 626 Judiciary & Hawaiian Affairs on H.B. No. 1362

The purpose of this measure is to appropriate funds to the Department of Hawaiian Home Lands to expand the sewer network and lines within and throughout the Keaukaha homestead.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Office of the Mayor of the County of Hawai'i; and four individuals.

Your Committee finds that this measure is vital to the Keaukaha homestead community and would help protect the environment surrounding Hawaiian home lands in East Hawaii. The appropriated funds would allow the Department of Hawaiian Home Lands to obtain the survey and inspections of the infrastructure needed to expand and make necessary upgrades to the century-old homestead.

Your Committee has amended this measure by:

- (1) Clarifying the preamble;
- (2) Changing the appropriation to an unspecified amount; and
- (3) Changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$8,000,000.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1362, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1362, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Todd).

SCRep. 627 Judiciary & Hawaiian Affairs on H.B. No. 278

The purpose of this measure is to require:

- (1) County police departments and police oversight agencies to collect and report certain data regarding police stops, uses of force, and complaints to the Crime Prevention and Justice Assistance Division of the Department of the Attorney General; and
- (2) The Crime Prevention and Justice Assistance Division of the Department of the Attorney General to collect and publish incident-level information and an annual report on the data collected.

Your Committee received testimony in support of this measure from the Office of the Public Defender; Hawai'i Appleseed Center for Law & Economic Justice; ACLU Hawai'i; Policing Project; Center for Policing Equity; Drug Policy Forum of Hawaii; National Police Accountability Project; and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Police Department; Maui Police Department; State of Hawaii Organization of Police Officers; and one individual. Your Committee received comments on this measure from the Department of the Attorney General and Honolulu Police Department.

Your Committee finds that this data will help inform administrative decision-making regarding police practices, augment deliberations by police commissions, support academic analyses of the operation of the State's criminal legal system, and provide the public with a clearer picture of how each department is fulfilling its stated mission and values.

Your Committee has amended this measure by:

- (1) Clarifying the information that must be included in the report on police stops related to electric guns and vehicle stops;
- (2) Requiring that the reports on use of force incidents and complaints use the nearest cross street or block number to avoid revealing specific residential addresses that are associated with the persons involved;
- (3) Prohibiting county police departments and police oversight agencies from disclosing unique personal identifying information about persons stopped, whom use of force was directed against, or who submitted the complaint or are the complainant;
- (4) Deleting language that would have made a county police department's or police oversight agency's eligibility to receive any state law enforcement funding or state-administered federal grant contingent upon the annual certification that the department or agency complied with the police data requirements;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that the National Highway Traffic Safety Administration administers a grant program under Section 1906 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act to encourage states to maintain and allow public inspection of statistical information on the race and ethnicity of the driver for all motor vehicle stops made on public roads. The grant program, which was reauthorized through the Infrastructure Investment and Jobs Act in November 2021, may be a possible source of funding for this measure.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 278, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 278, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Shimizu). Noes, 1 (Garcia). Excused, 1 (Cochran).

SCRep. 628 Judiciary & Hawaiian Affairs on H.B. No. 1457

The purpose of this measure is to:

- (1) Authorize the Hawaiian Homes Commission to designate tax increment districts that may utilize tax increment financing; and
- (2) Require a county council to adopt a tax increment financing plan and ordinance establishing the tax increment district.

Your Committee received comments on this measure from the Department of the Attorney General; Department of Hawaiian Home Lands; and Tax Foundation of Hawaii.

Your Committee finds that the counties have the exclusive authority to exercise all functions, powers, and duties relating to the taxation of real property under the Hawaii State Constitution. Your Committee further finds that the Department of the Attorney General testified that this measure may interfere with the counties' assessment and collection of tax increments, potentially infringing on their exclusive constitutional authority over real property taxation.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have authorized the Hawaiian Homes Commission to designate tax increment districts and required the county council to adopt a tax increment financing plan and ordinance establishing the tax increment district;
- (2) Authorizing the Department of Hawaiian Home Lands to apply to the counties for tax increment financing;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider the concerns raised by the Department of the Attorney General as it relates to real property taxation.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1457, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1457, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, 1 (Garcia). Excused, 2 (Cochran, Todd).

SCRep. 629 Judiciary & Hawaiian Affairs on H.B. No. 1483

The purpose of this measure is to:

- (1) Establish an adjudication system and procedures to process fireworks infractions;
- (2) Amend and establish various definitions and penalties for fireworks offenses, including establishing heightened penalties under certain circumstances;
- (3) Establish various criminal offenses and penalties related to fireworks or articles pyrotechnics; and
- (4) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Law Enforcement; Department of the Attorney General; Honolulu Police Department; Hawaiian Humane Society; Animal Interfaith Alliance in Britain; and numerous individuals. Your Committee received testimony in opposition to this measure from Hawaii Pyrotechnics and Explosives LLC; Libertarian Party of Hawaii; and three individuals.

Your Committee finds that it has been difficult for state and county agencies to enforce or prosecute illegal fireworks cases in the State due to challenges with gathering evidence, meeting the high burden of proof necessary for convictions, and stringent definitions. This measure would largely address the concerns raised by prosecutors and provide greater clarity and efficiency for law enforcement, prosecutors, and the courts.

Your Committee has amended this measure by:

- (1) Amending the offense of general fireworks or articles pyrotechnic prohibitions in the second degree to:
 - (A) Include throwing, catapulting, or otherwise manually propelling ignited aerial devices, articles pyrotechnics, consumer fireworks, or display fireworks; and
 - (B) Clarify when the state of mind requirement is not applicable;
- (2) Clarifying the definitions of "aerial device", "consumer fireworks", and "fireworks";
- (3) Clarifying the weight thresholds for certain penalties for fireworks offenses;
- (4) Restoring the authority of law enforcement officers to conduct inspections to verify compliance with fireworks laws;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1483, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1483, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Cochran). Noes, 1 (Shimizu). Excused, 1 (Garcia).

SCRep. 630 Judiciary & Hawaiian Affairs on H.B. No. 129

The purpose of this measure is to:

- (1) Prohibit the assessment of any fees, fines, or court costs against a person who is adjudicated for an offense committed while the person was a minor under the age of eighteen, or against the person's parent or guardian;
- (2) Limit court-ordered community service for a minor to no more than seventy-two hours; and
- (3) Repeal certain penalties imposed on parents, guardians, or other persons associated with unaccompanied children in streets and unmarried minors in dance halls.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Office of the Public Defender; Community Alliance on Prisons; ACLU Hawai'i; 'Ekalu Mea Nui; Nā 'Ōpio Waiwai; Opportunity for Youth Action Hawai'i; Debt Free Justice Hawai'i; Drug Policy Forum of Hawaii; CARES; and one individual. Your Committee received comments on this measure from the Judiciary; Department of Education; and Department of the Attorney General.

Your Committee finds that the imposition of fees, fines, and costs on young people and their families can have wide-ranging consequences, none of which serves the purposes of rehabilitating, deterring, or punishing delinquent youth. Your Committee further finds that these monetary assessments have a disproportionate impact on families of color and can even lead to recidivism and escalating crime. This measure would follow the lead of other states by eliminating the economic burden of monetary assessments for Hawaii's youth and families.

Your Committee has amended this measure by:

- (1) Providing that if a minor is given community service for a violation of highway safety laws, the community service shall be limited to no more than seventy-two hours and not interfere with the minor's school or work commitments; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 129, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 129, H.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, 1 (Garcia). Excused, 1 (Cochran).

SCRep. 631 Water & Land on H.B. No. 735

The purpose of this measure is to allow an individual wastewater system to serve up to five bedrooms, regardless of the number of dwelling units or accessory units, whether attached or detached, with certain exceptions.

Your Committee received testimony in support of this measure from one member of the Kaua'i County Council; Grassroot Institute of Hawaii; Hanalei Initiative; and two individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that this measure would provide smaller-scale builders more flexibility in constructing housing to meet the needs of local residents, conform to individual lot configurations, and comply with county zoning rules.

Your Committee has amended this measure by:

- (1) Clarifying that the provisions of this measure also apply to dwellings; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 735, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 735, H.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, none.

SCRep. 632 Agriculture & Food Systems on H.B. No. 783

The purpose of this measure is to authorize the Director of Finance to issue general obligation bonds and appropriate funds to finance capital improvement projects for irrigation systems in the State.

Your Committee received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Local Food Coalition; Hawai'i Farm Bureau; Land Use Research Foundation of Hawaii; Larry Jefts Farms, LLC; Maui County Farm Bureau; Hawaii Cattlemen's Council; Hawaii Crop Improvement Association; Molokai Irrigation System User Advisory Board; Molokai Farm Bureau; and three individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Food+ Policy.

Your Committee finds that a reliable irrigation system is essential for sustaining Hawaii's agricultural industry, ensuring farmers and ranchers have consistent access to water for food production, livestock management, and long-term sustainability. Aging infrastructure and deferred maintenance have led to inefficiencies, water loss, and increased costs for agricultural producers. By authorizing funding for irrigation system improvements, this measure supports food security, economic stability, and the State's goal of increasing agricultural self-sufficiency.

Your Committee has amended this measure by:

- (1) Inserting unspecified allocation amounts for specific irrigation system improvements throughout the State;
- (2) Converting the means of financing from the Irrigation System Revolving Fund to the general fund for certain positions in the Department of Agriculture;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$2,400,000 for fiscal year 2025-2026 and \$4,100,000 for fiscal year 2026-2027 for Waimea irrigation system improvements; \$15,000,000 for Waiahole irrigation system improvements; \$12,000,000 for Molokai irrigation system improvements; \$20,000,000 for East Maui irrigation system improvements; \$8,000,000 for Kohala ditch system improvements; \$18,000,000 for Upcountry Maui irrigation system improvements; \$12,000,000 for East Kauai irrigation system improvements; \$9,000,000 for Kokee irrigation system improvements; \$14,000,000 for Kekaha irrigation system improvements; \$15,000,000 for Wahiawa irrigation system improvements; and \$800,000 for fiscal year 2025-2026 and \$1,000,000 for fiscal year 2026-2027 for agricultural infrastructure improvements statewide.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 783, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 783, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 633 Agriculture & Food Systems on H.B. No. 1427

The purpose of this measure is to appropriate funds to the Department of Health and Department of Agriculture to prevent, monitor, and respond to avian influenza in the State.

Your Committee received testimony in support of this measure from the Department of Health; Department of Land and Natural Resources; Department of Agriculture; State Health Planning and Development Agency; Villa Rose/Waialua Eggs; Hawai'i Farm Bureau; Hawaii Food Industry Association; Kapapala Ranch; Hawaii Veterinary Medical Association; Hawaii Cattlemen's Council; Carol Kwan Consulting, LLC; and three individuals. Your Committee received testimony in opposition to this measure from four individuals.

Your Committee finds that avian influenza, or bird flu, poses a significant threat to Hawaii's agriculture, public health, and unique ecosystems. The recent detection of H5N1 in backyard poultry and wastewater across the State underscores the urgent need for enhanced monitoring and biosecurity measures. While the current risk to humans is considered low, the virus has infected farm workers in other states, and its potential to mutate and spread more easily remains a serious concern. This measure addresses these risks by appropriating funds to the Department of Health and the Department of Agriculture to strengthen surveillance, response efforts, and public education on avian influenza. By investing in proactive monitoring, biosecurity protocols, and public awareness, this measure helps safeguard local farms, protect food production, and minimize the potential for widespread transmission.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$293,000 for the Department of Agriculture and between \$3,300,000 and \$4,700,000, depending on the availability of federal funds, for the Department of Health.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1427, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 634 Agriculture & Food Systems on H.B. No. 685

The purpose of this measure is to authorize the issuance of general obligation bonds and appropriate funds for the Agribusiness Development Corporation to purchase a land parcel in Kau on the County of Hawaii for agricultural development.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation; Hawai'i Farm Bureau; Synergistic Hawai'i Agriculture Council; Island Harvest; United Ka'u Farmers Cooperative; Ka'u Ocean Vista Coffee Estate; and one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that Kau has long been a cornerstone of Hawaii's agricultural heritage, transitioning from large-scale sugar plantations to a diverse range of farming enterprises, including coffee, macadamia nuts, fruit, vegetables, and livestock. Despite its agricultural potential, the region has often been overlooked for state farming initiatives, limiting opportunities for local farmers. This measure addresses that disparity by authorizing the acquisition of agricultural land in Kau to strengthen local farming operations, promote sustainability, and enhance food security.

Your Committee has amended this measure by:

- (1) Changing the bond issuance and appropriation to an unspecified amount;
- (2) Indicating the name of the owner of the land to be acquired by the Agribusiness Development Corporation;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$2,931,960.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 685, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 685, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 635 Agriculture & Food Systems on H.B. No. 1417

The purpose of this measure is to create an exclusion from income tax for the first \$50,000 of gross income earned by farmers.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Kānalani Ohana Farm; Hawai'i Food+ Policy; and nine individuals. Your Committee received comments on this measure from the Department of Taxation; Department of the Attorney General; and Tax Foundation of Hawaii.

Your Committee finds that Hawaii's farming population is aging, with twice as many farmers over seventy-five as under thirty-five, and nearly eighty percent of farms generating less than \$25,000 annually. High operational costs make it difficult for new farmers to sustain viable businesses. This measure provides a state income tax exclusion on the first \$50,000 of gross income earned from farming, allowing farmers to reinvest in operations, expand production, and adopt sustainable practices.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "farm products";
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1417, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1417, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 636 Agriculture & Food Systems on H.B. No. 1237

The purpose of this measure is to appropriate funds to the Department of Agriculture for agricultural biosecurity and the prevention, detection, and control of invasive species in Maui County.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Invasive Species Council; Hawai'i Farm Bureau; Coordinating Group on Alien Pest Species; Carol Kwan Consulting, LLC; and Maui Chamber of Commerce. Your Committee received comments on this measure from the University of Hawai'i System.

Your Committee finds that the absence of state agricultural inspectors and quarantine facilities on Molokai and Lanai leaves these islands highly vulnerable to the introduction and spread of invasive species. With high-risk pathways such as imported plants, mulch, and used farm equipment, invasive pests like little fire ants and coconut rhinoceros beetles pose a serious threat to local agriculture, ecosystems, and cultural resources. This measure addresses these vulnerabilities by appropriating funds to establish necessary biosecurity infrastructure in Maui County, including inspections, invasive species committees, and control measures.

Your Committee has amended this measure by:

- (1) Changing the appropriations and allocations to unspecified amounts;
- (2) Specifying that the appropriation for the Department of Agriculture to prevent and control little fire ant and coconut rhinoceros beetle infestations in Maui County includes the hiring of general professionals for biosecurity efforts, rather than Plant Quarantine Inspector I positions on Molokai and Lanai;
- (3) Clarifying that the appropriated funds to combat the spread of coqui frogs in Maui County shall be allocated to the University of Hawaii Pacific Cooperative Studies Unit, rather than directly to the Maui Invasive Species Committee;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$3,000,000 for the Department of Agriculture to prevent and control little fire ant and coconut rhinoceros beetle infestations in Maui County; and \$2,250,000 to combat the spread of coqui frogs in Maui County, including \$2,000,000 to the University of Hawaii Pacific Cooperative Studies Unit for the Maui Invasive Species Committee or its Molokai subcommittees and \$250,000 to establish a Lanai Invasive Species Committee.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1237, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1237, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 637 Agriculture & Food Systems on H.B. No. 775

The purpose of this measure is to appropriate funds to the Department of Agriculture for permanent positions in agricultural biosecurity established by Act 231, Session Laws of Hawaii 2024.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Invasive Species Council; Hawai'i Farm Bureau; Coordinating Group on Alien Pest Species; Land Use Research Foundation of Hawaii; Larry Jefts Farms, LLC; Hawaii Cattlemen's Council; Hawaii Floriculture and Nursery Association; East Oahu County Farm Bureau; Maui County Farm Bureau; Carol Kwan Consulting, LLC; and five individuals.

Your Committee finds that invasive species pose a persistent and escalating threat to Hawaii's agriculture, environment, and economy. Act 231, Session Laws of Hawaii 2024, marked a significant step in strengthening the State's biosecurity infrastructure by increasing funding for essential programs and authorizing the hiring of forty-four essential positions within the Department of Agriculture. However, to ensure long-term effectiveness, these programs and positions must be made permanent. This measure addresses that need, ensuring that Hawaii remains resilient against invasive species.

Your Committee has amended this measure by:

- (1) Inserting language to include unspecified amounts of funding for the following biosecurity programs within the Department of Agriculture: Risk Assessment, Pest Management Systems Approach, Brown Tree Snake Rapid Response, Pest Diagnostics, Coconut Rhinoceros Beetle Response, Green Waste, Compost Reimbursement, Public Awareness Campaign, Little Fire Ants Response, Coqui Frog Response, Invasive Species Outreach, Tech Upgrades, Import Replacement Fund, Biosecurity Facility Planning, Rose-Ringed Parakeet, and Two-Lined Spittlebug;
- (2) Inserting an appropriation amount to support the program and necessary personnel;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 775, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 775, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 638 Agriculture & Food Systems on H.B. No. 319

The purpose of this measure is to:

- (1) Exempt from the crime of cruelty to animals in the second degree the extermination of insects, vermin, and pests, and the extermination of feral chickens on private property by the property owner, under certain conditions; and
- (2) Require the Department of Agriculture to adopt rules concerning the humane extermination of insects, vermin, pests, and feral chickens.

Your Committee received testimony in support of this measure from one member of the Honolulu City Council and four individuals. Your Committee received testimony in opposition to this measure from Animal Rights Hawai'i and two individuals. Your Committee received comments on this measure from the Department of Agriculture and Department of the Attorney General.

Your Committee finds that managing insects, vermin, invasive pests, and feral chickens is a growing concern for property owners across the State, as these animals can cause property damage, disrupt ecosystems, and pose public health risks. However, existing laws regarding animal cruelty are ambiguous around the extermination of these species, leading to challenges in effective pest control. This measure addresses these issues by exempting the extermination of insects, vermin, pests, and feral chickens from the crime of cruelty to animals in the second degree as long as the extermination follows standard and acceptable pest control practices and rules adopted by the Department of Agriculture. By clarifying legal parameters and establishing humane guidelines, this measure balances the need for effective pest management with ethical treatment considerations.

Your Committee has amended this measure by:

- (1) Moving the exemptions from the crime of cruelty to animals in the second degree related to the extermination of insects, vermin, pests, and feral chickens to section 711-1109(2), Hawaii Revised Statutes, and specifying the conditions under which the exemptions apply, rather than requiring the Department of Agriculture to adopt rules to establish those conditions;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 319, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 319, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 639 Agriculture & Food Systems on H.B. No. 984

The purpose of this measure is to:

- (1) Lower and fix the state agricultural loan program's interest rates, increase loan limits, and reduce the required number of credit denials;
- (2) Establish a program for a secured line of credit and create a new loan initiative to encourage larger scale agriculture for import replacement and crops grown for farm to state programs; and
- (3) Appropriate funds into and out of the Agricultural Loan Revolving Fund to meet the anticipated increase in loan demand and to accommodate the increased loan limits.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Research and Development of the County of Hawai'i; Ulupono Initiative; Hawai'i Farm Bureau; Hawai'i Farmers Union; Hawaii Cattlemen's Council; and Hawai'i Food+ Policy. Your Committee received comments on this measure from one individual.

Your Committee finds that Hawaii's farmers and ranchers face significant challenges in securing affordable capital to cover rising costs related to land, water, labor, and infrastructure. Access to financing is often a major barrier to expanding agricultural operations and increasing local food production. By providing farmers with the necessary financial tools, this measure promotes agricultural expansion, strengthens local food security, and ensures the long-term viability of Hawaii's farming industry.

Your Committee has amended this measure by:

- (1) Clarifying language in the preamble related to small and mid-sized farms being essential to Hawaii's food security, economic resilience, and self-sufficiency;
- (2) Including food hubs as an eligible entity for Class E loans;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 984, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 984, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 640 Agriculture & Food Systems on H.B. No. 858

The purpose of this measure is to:

- (1) Require the Department of Agriculture to revitalize and enhance the Agricultural Statistics Program to collect data on local agricultural interests; and
- (2) Appropriate funds for program expenses and certain positions.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Research and Development, County of Hawai'i; Ulupono Initiative; Hawai'i Farm Bureau; Hawaii Floriculture and Nursery Association; and Hawai'i Food+ Policy. Your Committee received comments on this measure from the University of Hawai'i System and Office of Information Practices.

Your Committee finds that accurate and timely agricultural data is essential for supporting Hawaii's farmers, strengthening the local food system, and guiding strategic decision-making for policymakers. By improving data collection, analysis, and reporting, this measure will support agricultural producers in optimizing operations, expanding market reach, and increasing food security.

Your Committee notes that the University of Hawaii College of Tropical Agriculture and Human Resilience increased its capacity in agricultural economics with the hiring of two new agricultural economists last year, with an additional food and agricultural marketing faculty currently under recruitment.

Your Committee has amended this measure by:

- (1) Clarifying provisions related to the exemption of certain data and information collected from public disclosure, under certain conditions;
- (2) Changing the appropriation and allocation amounts to unspecified amounts;
- (3) Changing the number of authorized positions to unspecified numbers;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$880,000, including \$170,000 for the establishment of two full-time equivalent (2.0 FTE) agricultural economist positions; \$280,000 for the establishment of four full-time equivalent (4.0 FTE) research statistician positions; \$130,000 for the establishment of secured office space, equipment, the development of electronic data collection systems, and program expenses throughout the State; and \$300,000 for contracted specialty surveys to be conducted by third-party entities focusing on critical agricultural data needs.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 858, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 858, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 641 Agriculture & Food Systems on H.B. No. 48

The purpose of this measure is to:

- (1) Clarify the labeling and advertising requirements for coffee that is grown and processed in the State; and
- (2) Make necessary distinctions between the definitions of "geographic origin" and "regional origin".

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; and Hawai'i Food+ Policy.

Your Committee finds that Hawaii-grown and Hawaii-processed coffee is a cornerstone of the State's agricultural economy. However, misleading labeling practices have allowed coffee blends containing only a small percentage of locally grown and processed beans to be marketed in ways that confuse consumers and devalue authentic Hawaii coffee. By enhancing consumer protection and preserving the integrity of Hawaii's premium coffee brands, this measure safeguards local farmers' livelihoods, reinforces consumer trust, and supports the long-term sustainability of the State's coffee industry.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider adding an appropriation of \$65,000 for one full-time equivalent (1.0 FTE) Measurement Standards Inspector V position to support and restore enforcement capability for all labeling regulations for Hawaii products.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 48, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 48, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 642 Agriculture & Food Systems on H.B. No. 1497

The purpose of this measure is to:

- (1) Require and appropriate funds for the Department of Agriculture to develop an online reporting tool to document applications of restricted use pesticides; and
- (2) Appropriate funds to convert temporary Environmental Health Specialist III positions into permanent positions.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Reef and Ocean Coalition; Hawai'i Alliance for Progressive Action; and one individual. Your Committee received comments on this measure from the Hawaii Crop Improvement Association.

Your Committee finds that accurate and efficient reporting of restricted use pesticide applications is essential for ensuring regulatory compliance and protecting public health and the environment. While existing laws require users to submit annual reports on restricted use pesticide usage, the Department of Agriculture has faced challenges in fully implementing an online reporting system due to staffing instability. This measure addresses these issues by establishing and appropriating funds for a permanent online reporting system, ensuring users have a streamlined and consistent method for submitting data. Additionally, converting temporary positions to permanent status will provide stability within the Department's Pesticides Branch, allowing for proper outreach and education to facilitate full implementation of the reporting tool.

Your Committee notes the suggestion to require restricted use pesticide usage to be reported in consistent units of measurement.

Your Committee has amended this measure by:

- (1) Changing the number of authorized positions to unspecified numbers;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider converting two full-time equivalent (2.0 FTE) temporary Environmental Health Specialist III positions into two full-time equivalent (2.0 FTE) permanent Environmental Health Specialist III positions.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1497, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1497, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 643 Agriculture & Food Systems on H.B. No. 299

The purpose of this measure is to appropriate funds for the Native Resources and Fire Protection Program and Hawaii Invasive Species Council to continue to control and eradicate invasive species in the State.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Health; Department of Agriculture; Hawaii Invasive Species Council; Hawai'i Farm Bureau; Climate Change and Health Working Group; Sierra Club of Hawai'i; Coordinating Group on Alien Pest Species; The Outdoor Circle; Kua'āina Ulu 'Auamo; Hawai'i Reef and Ocean Coalition; O'ahu Invasive Species Committee; Green Party of Hawai'i; Kauai Invasive Species Committee; Carol Kwan Consulting, LLC; and numerous individuals.

Your Committee finds that invasive species pose a significant threat to Hawaii's ecosystems, agriculture, public health, and economy. The Hawaii Invasive Species Council plays a critical role in coordinating efforts across state, federal, and private entities to prevent, control, and eradicate harmful species such as the little fire ant, coqui frog, and fungi that cause rapid ohia death. Despite its essential work, the Hawaii Invasive Species Council's funding has remained stagnant while the demand for resources has grown, limiting its ability to fully address emerging threats. By supporting the Hawaii Invasive Species Council, this measure ensures a proactive and coordinated response to invasive species, protecting Hawaii's biodiversity, food security, and public health.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 299, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 644 Agriculture & Food Systems on H.B. No. 1013

The purpose of this measure is to:

- (1) Establish an Important Agricultural Lands incentive to provide alternative means to develop housing for farmers and farm employees;
- (2) Authorize a landowner or lessee of Important Agricultural Lands to apply to a county for a permit allowing the landowner or lessee to develop, construct, and maintain farm cluster housing;
- (3) Require each county to enact ordinances to allow farm cluster housing on Important Agricultural Lands;
- (4) Establish requirements for farm cluster housing; and
- (5) Repeal existing requirements for farm dwellings and employee housing on Important Agricultural Lands.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; Office of Planning & Sustainable Development; Hawai'i Farm Bureau; 'Āina Design Corp; and Hawai'i Food+ Policy. Your Committee received comments on this measure from the Land Use Commission; Kunia Village Title Holding Corporation; and one individual.

Your Committee finds that the lack of affordable and accessible housing for farmers and farm employees remains a significant barrier to expanding Hawaii's agricultural industry and increasing local food production. While Act 233, Session Laws of Hawaii 2008, provided an incentive for farm dwellings and employee housing on Important Agricultural Lands, concerns have arisen regarding unclear restrictions and the need for better-aligned housing solutions. By balancing the need for affordable farmworker housing with the preservation of Hawaii's most productive agricultural lands, this measure strengthens agricultural viability, promotes food security, and provides long-term stability for farmers and their families.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1013, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Perruso, Ward).

SCRep. 645 Agriculture & Food Systems on H.B. No. 1294

The purpose of this measure is to require and appropriate funds for the Department of Agriculture to establish an Agricultural Workforce Housing Working Group to address the shortage and challenges of agricultural workforce housing.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Hawaii Housing Finance and Development Corporation; Office of Planning and Sustainable Development; Agribusiness Development Corporation; Hawai'i Farm Bureau; Kanalani Ohana Farm; Hawai'i Farmers Union; and Hawai'i Food+ Policy. Your Committee received comments on this measure from the Department of Agriculture and Land Use Commission.

Your Committee finds that Hawaii's agricultural industry is facing a severe workforce housing shortage, making it increasingly difficult for farmers and farmworkers to secure affordable housing near their worksites. The lack of accessible housing contributes to long commutes, increased operational costs, and worker shortages, ultimately threatening the sustainability of the State's agricultural sector. This measure addresses these challenges by establishing the Agricultural Workforce Housing Working Group, tasked with exploring policies and recommending solutions to provide farmworker housing while ensuring agricultural lands are protected from non-agricultural residential uses.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1294, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 646 Agriculture & Food Systems on H.B. No. 222

The purpose of this measure is to amend the definition of "employee" in Hawaii's wage and hour law by excluding individuals who are primarily engaged in the range production of livestock.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that under Hawaii's existing wage and hour law, which includes, among other things, minimum wage and overtime requirements, the definition of "employee" already excludes any individual employed in agriculture for any workweek in which the employer of the individual employs less than twenty employees. Your Committee further finds that livestock production employees have unique needs and tasks that vary widely from day to day and therefore require more flexibility than is currently provided under the wage and hour law, including under the existing exemption for certain agricultural employees. This measure would grant that additional flexibility by exempting from the requirements of the wage and hour law employees of livestock producer employers for any workweek in which the employer employs twenty or more employees.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 222, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Perruso). Excused, 1 (Ward).

SCRep. 647 Agriculture & Food Systems on H.B. No. 915

The purpose of this measure is to:

- (1) Authorize the Board of Agriculture to investigate and survey the availability of non-potable water;
- (2) Authorize the Commission on Water Resource Management to require the use of dual line water supply systems in new residential and mixed-used developments located in designated water management areas; and
- (3) Include residential and mixed-use developments in irrigation projects under certain conditions.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Department of Health. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that Hawaii's growing population and increasing development place significant pressure on the State's limited water resources, making conservation efforts critical for long-term sustainability. This measure takes a proactive approach to water management by authorizing the Board of Agriculture to investigate and survey the availability of non-potable water, allowing for better resource planning. Additionally, this measure empowers the Commission on Water Resource Management to require dual line water supply systems in new residential and mixed-use developments within designated water management areas, enhancing water conservation efforts while maintaining public health and safety for Hawaii's water resources.

Your Committee notes the concerns regarding whether the Department of Agriculture or the counties are better suited to provide irrigation services to certain residential and mixed-use developments with dual line water supply systems.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 915, H.D. 1, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 648 Agriculture & Food Systems on H.B. No. 365

The purpose of this measure is to prohibit the farming of certain non-wild-caught octopuses for human consumption.

Your Committee received testimony in support of this measure from Animal Rights Hawai'i; Animal Legal Defense Fund; Animal Rights Initiative; Hawai'i Reef and Ocean Coalition; and nine individuals. Your Committee received testimony in opposition to this measure from the National Aquaculture Association; Hawaii Aquaculture and Aquaponics Association; and two individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources and Department of Agriculture.

Your Committee finds that octopus farming presents significant risks to marine ecosystems, commercial fisheries, and animal welfare. Farmed octopuses are known to carry multiple pathogens, including parasites and bacterial infections, which can spread to wild marine species, disrupting the food web and amplifying disease transmission. In addition to these ecological concerns, octopus farming has raised ethical issues due to the species' advanced cognitive abilities. This measure addresses these concerns by prohibiting the farming of certain non-wild-caught octopuses for human consumption, ensuring the protection of marine biodiversity and promoting the ethical treatment of marine life.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 365, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 365, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 649 Agriculture & Food Systems on H.B. No. 92

The purpose of this measure is to include agricultural businesses as a qualified high technology business to receive tax credits for certain research activities.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation; Hawaii Crop Improvement Association; and Corteva Agriscience. Your Committee received comments on this measure from the Department of the Attorney General and Tax Foundation of Hawaii.

Your Committee finds that Hawaii's agricultural industry faces increasing challenges, including climate change impacts, rising production costs, and the need to meet growing consumer demand. To support innovation and sustainability in the sector, this measure expands the State's research and development tax credit by including agricultural businesses as qualified high technology businesses, allowing them to benefit from tax incentives for research activities. By

incentivizing investment in agricultural research and development, this measure further fosters the development of advanced farming technologies and strengthens Hawaii's economy, ultimately enhancing food security and economic resilience.

Your Committee has amended this measure by:

- (1) Clarifying the definitions for "qualified high technology business" and "small business";
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider that the provisions of this measure should apply to taxable years beginning after December 31, 2025.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 92, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 92, H.D. 2, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Perruso). Noes, none. Excused, 1 (Ward).

SCRep. 650 Human Services & Homelessness on H.B. No. 943

The purpose of this measure is to:

- (1) Expand existing crisis intervention programs by implementing a homeless triage and treatment center program for homeless individuals and individuals at risk of being homeless, and who have substance abuse issues or mental illness, within the Alcohol and Drug Abuse Division in the Department of Health; and
- (2) Appropriate funds to the Department of Health to implement the program.

Your Committee received testimony in support of this measure from the Statewide Office on Homelessness & Housing Solutions; Department of Health; Office of the Public Defender; Waikiki Health; The Institute for Human Services, Inc.; Hawai'i Health & Harm Reduction Center; and six individuals. Your Committee received comments on this measure from the Hawaii Substance Abuse Coalition.

Your Committee finds that Hawaii has one of the highest per capita rates of homelessness in the nation, with a significant portion of the homeless population experiencing chronic homelessness, mental illness, substance use disorders, and other disabling conditions. Many of these individuals frequently rely on emergency medical services, costing the State's health care system millions of dollars each year. Despite the efforts of existing crisis intervention programs, a major gap remains in the State's behavioral health care system for homeless individuals in need of immediate intervention. This measure establishes a homeless triage and treatment center program within the Department of Health's Alcohol and Drug Abuse Division to expand these critical services statewide.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$5,400,000, which includes the costs for facility acquisition and renovation.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 943, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 943, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 651 Human Services & Homelessness on H.B. No. 640

The purpose of this measure is to:

- (1) Require the Office of the Ombudsman to publish a quarterly report on its website that identifies the number and nature of complaints that it receives regarding the Child Welfare Services Branch of the Department of Human Services; and
- (2) Require the Child Welfare Services Branch to provide notification to certain parties that complaints can also be filed with the Office of the Ombudsman.

Your Committee received testimony in support of this measure from the Hawaii Coalition for Child Protective Reform. Your Committee received comments on this measure from the Department of Human Services; Office of the Ombudsman; and one individual.

Your Committee finds that Hawaii's child welfare system plays a crucial role in protecting children and supporting families, yet concerns remain regarding its responsiveness and transparency. Families navigating the system often struggle to voice their grievances or seek resolution when issues arise. This measure addresses these challenges by strengthening oversight and accountability through the Office of the Ombudsman, ensuring that complaints regarding the Child Welfare Services Branch are independently reviewed and properly addressed.

Your Committee has amended this measure by:

- (1) Specifying that the Office of the Ombudsman publish an annual, rather than quarterly, report on its website;
- (2) Clarifying that the Child Welfare Services Branch shall be required to notify birth families, children in foster care, and resource caregivers that they can file a complaint with the Office of the Ombudsman; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 640, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 640, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 652 Human Services & Homelessness on H.B. No. 549

The purpose of this measure is to establish and appropriate funds for an Early Learning Apprenticeship Grant Program, to be administered by the University of Hawaii, to assist publicly- or privately-run early learning program service providers participating in state- and federally-approved early learning apprenticeship programs.

Your Committee received testimony in support of this measure from the Department of Human Services; Office of Hawaiian Affairs; University of Hawai'i System; Early Learning Board; Executive Office on Early Learning; Department of Community Services of the City and County of Honolulu; American Association of University Women of Hawaii; Keiki O Ka 'Āina Family Learning Centers; Early Childhood Action Strategy; Hawai'i Children's Action Network Speaks!; Commit to Keiki; and numerous individuals.

Your Committee finds that access to high-quality early learning programs is essential for fostering childhood development, supporting working families, and strengthening Hawaii's workforce. However, the early learning sector faces a critical shortage of qualified professionals due to challenges in recruitment, retention, and fair compensation. This measure addresses these issues by establishing an Early Learning Apprenticeship Grant Program, which will provide financial assistance to early learning service providers participating in state- and federally-approved apprenticeship programs. By incentivizing participation in these programs, this measure ensures a well-trained workforce, expands access to early learning opportunities, and promotes economic stability for educators and families.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 549, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 549, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 653 Economic Development & Technology on H.B. No. 1498

The purpose of this measure is to:

- (1) Increase the Motion Picture, Digital Media, and Film Production Income Tax Credit for qualified productions that utilize qualified production facilities located within the State;
- (2) Change the cap amount and aggregate cap amount of the Motion Picture, Digital Media, and Film Production Income Tax Credit to unspecified amounts; and
- (3) Exempt from the General Excise Tax amounts received by a motion picture project employer from a client equal to amounts that are disbursed by the motion picture project employer for employee wages, salaries, payroll taxes, insurance premiums, and employment benefits.

Your Committee received testimony in support of this measure from the University of Hawai'i; Honolulu Film Office of the City and County of Honolulu; SAG-AFTRA; IATSE Local 665; Motion Picture Association, Inc.; Island Film Group; Hawaii State AFL-CIO; Kapolei Chamber of Commerce; Maui Chamber of Commerce; Hawaii Media Inc.; and numerous individuals. Your Committee received comments on this measure from the Department of Taxation; Department of Business, Economic Development, and Tourism; and Tax Foundation of Hawaii.

Your Committee finds that the film, television, and digital media production industry is an asset to the State's economy that should be further leveraged to promote economic growth and job creation. This measure addresses this need by increasing the aggregate cap on the Motion Picture, Digital Media, and Film Production Income Tax Credit and the cap per qualified production and exempting certain expenses related to employee compensation and payments to loan-out companies from the General Excise Tax.

Your Committee has amended this measure by:

- (1) Including production, as defined in the Motion Picture, Digital Media, and Film Production Income Tax Credit law, as a form of manufacturing for the purposes of imposing the lower 0.5 General Excise Tax rate on productions, and repealing the provision in the definition of "qualified production costs" that limited the term to mean costs incurred that are subject to the highest General Excise Tax rate;
- (2) Including payments to loan-out companies in the exemptions from the General Excise Tax;
- (3) Changing the effective date for the provisions establishing General Excise Tax exemptions to January 1, 2026; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1498, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1498, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Todd, Matsumoto).

SCRep. 654 Economic Development & Technology on H.B. No. 976

The purpose of this measure is to advance Hawaii's commitment to reducing greenhouse gas emissions by:

- (1) Establishing a temporary Sustainable Aviation Fuel Import Income Tax Credit; and
- (2) Amending the Renewable Fuels Production Tax Credit by:
 - (A) Increasing the tax credit rate;
 - (B) Repealing the cap on claimable credits per taxpayer per taxable year and increasing the cap on total claimable credits for all eligible taxpayers per calendar year;
 - (C) Specifying that the credit may be claimed for fuels that meet certain lifecycle greenhouse gas emissions and product transportation emissions;
 - (D) Adding credit values for low lifecycle emissions renewable fuels and sustainable aviation fuels produced;
 - (E) Allowing a taxpayer who previously claimed a credit to claim another credit for taxable years beginning after December 31, 2024;
 - (F) Amending the credit period to be for a maximum period of ten consecutive years, beginning from the effective date of this Act; and

(G) Amending the required information in the certified statement for the credit.

Your Committee received testimony in support of this measure from the Department of Transportation; Coalition Earth; Pono Pacific; Hawai'i Renewable Fuels Coalition; Hawai'i Farm Bureau; Airlines for America; Biotechnology Innovation organization; Twelve Benefit Corporation; Par Hawaii; Aloha Carbon; Pacific Biodiesel; Japan Airlines; and Hawaiian Electric. Your Committee received testimony in opposition to this measure from the Environmental Caucus of the Democratic Party of Hawai'i; Kauai Climate Action Coalition; Energy Justice Network; and numerous individuals. Your Committee received comments on this measure from the Department of Taxation; Hawaii State Energy Office; Office of Planning and Sustainable Development; Tax Foundation of Hawaii; Simonpietri Enterprises; Hawaii Environmental Change Agents, Solid Waste Reduction Task Force; and one individual.

Your Committee finds that the State is committed to reducing greenhouse gas emissions and transitioning to a decarbonized economy. Your Committee further finds that increasing the use and production of renewable fuels will spur investment in the local economy and support job growth while providing substantial environmental benefits.

Your Committee has amended this measure by:

- (1) Removing the temporary Sustainable Aviation Fuel Import Income Tax Credit;
- (2) Reinstating the \$20,000,000 aggregate cap on Renewable Fuels Production Tax Credits claimable by all eligible taxpayers per taxable year and removing the incremental increases of this cap per calendar year;
- (3) Including biogas or renewable natural gas, gaseous carbon dioxide, and renewable or zero carbon energy resources in the definition of "renewable feedstocks";
- (4) Clarifying that fuels must meet the lifecycle greenhouse gas emissions reduction threshold to be considered "renewable fuels";
- (5) Removing the qualification that liquid fuel must be derived from biomass resources, waste streams, renewable or zero carbon energy sources, or gaseous carbon oxides to meet the definition of "sustainable aviation fuel"; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Economic Development & Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 976, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 976, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Todd, Matsumoto).

SCRep. 655 Economic Development & Technology/Tourism on H.B. No. 1077

The purpose of this measure is to:

- (1) Authorize the Department of Defense to fund projects that strengthen the State's resiliency against climate change;
- (2) Require the Department of Defense to convene a selection committee to review and recommend projects for Climate Mitigation and Resiliency Special Fund allocation;
- (3) Establish the Climate Mitigation and Resiliency Special Fund;
- (4) Establish the Economic Development and Revitalization Special Fund;
- (5) Increase the Transient Accommodations Tax and allocate a portion of the tax to the two newly established special funds; and
- (6) Appropriate funds into and out of the special funds.

Your Committees received testimony in support of this measure from the Office of the Governor; Office of the Governor Recovery and Resiliency Unit; Hawai'i Climate Advisory Team; Department of Business, Economic Development, and Tourism; Department of Land and Natural Resources; Hawaii Emergency Management Agency; Hawaii Green Infrastructure Authority; Hawaii State Energy Office; Hawai'i Climate Change Mitigation and Adaptation Commission; Office of Planning and Sustainable Development; Kua'āina Ulu 'Auamo; Coalition Earth; Climate Protectors Hawai'i; Hawai'i Ocean Legislative Task Force; Care for 'Āina Now Coalition; The Nature Conservancy Hawai'i and Palmyra; Pacific Whale Foundation; Hawai'i Workforce Funders Collaborative; Hawai'i Lodging & Tourism Association; and five individuals. Your Committees received testimony in opposition to this measure from the Kohala Coast Resort Association; Libertarian Party of Hawaii; Grassroot Institute of Hawaii; Maui Chamber of Commerce; and seven individuals. Your Committees received comments on this measure from the Department of the Attorney General; Department of Taxation; and Tax Foundation of Hawaii.

Your Committees find that the State must increase its funding for efforts that address the impacts of climate change and contribute to economic development and revitalization. Your Committees recognize that designating allocations to the general fund for these purposes may be a more appropriate funding mechanism.

Accordingly, your Committees have amended this measure by:

- (1) Deleting the contents of the measure except for the provisions increasing the Transient Accommodations Tax;
- (2) Allocating portions of the revenue from the Transient Accommodations Tax to the General Fund, instead of the special funds, to be earmarked for projects addressing climate change impacts and advancing economic development and revitalization; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Economic Development & Technology and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1077, H.D. 1, as amended herein, and recommend that it be referred to your Committee on Finance, in the form attached hereto as H.B. No. 1077, H.D. 2.

Signed by the Chairs on behalf of the Committees.

Economic Development & Technology: Ayes, 4. Noes, none. Excused, 3 (Holt, Todd, Matsumoto).

Tourism: Ayes, 4. Noes, none. Excused, 3 (Holt, Todd, Matsumoto).

SCRep. 656 Labor on H.B. No. 1221

The purpose of this measure is to require a bidder for certain public works contracts to utilize apprentices if they received a bidding advantage and were awarded the contract for being a party to an apprenticeship agreement registered with the Department of Labor and Industrial Relations.

Your Committee received testimony in support of this measure from the State Procurement Office; Department of Accounting and General Services; and Goodfellow Bros. Your Committee received testimony in opposition to this measure from the General Contractors Association of Hawaii and International Brotherhood of Electrical Workers Local 1260.

Your Committee finds that a well-trained workforce is essential for Hawaii's economic growth and the successful construction of public buildings, infrastructure, and other development projects. Apprenticeship programs help individuals gain their best knowledge of a particular trade, especially if those individuals can take the knowledge they learn and apply their knowledge and skills in public works construction. Your Committee also finds that under existing law, the bid preference for bidders when the bidder is a party to an apprenticeship agreement registered with the Department of Labor and Industrial Relations bidder, does not require the bidder to utilize those apprentices, and therefore bidders can hire subcontractors to complete the work for the public works contract. Your Committee also finds that the apprentices in registered programs with the State are losing out on opportunities to get hands-on experience on the State's own projects which is not what the Hawaii Apprenticeship Law was intended to do. Your Committee believes that requiring bidders and their subcontractors for public works construction who take advantage of the bidding incentive under existing law to actually use apprentices for the contracted work is not only fairer but also ensures that quality workers will help maintain a supply of skilled labor, support workforce development, and enhance the outcomes of public works construction.

Your Committee has amended this measure by:

- (1) Inserting legislative findings to clarify that the intent of this measure is to further provide an incentive for bidders to host apprentices who are in registered apprenticeship programs with the Department of Labor and Industrial Relations;
- (2) Clarifying that the requirements under this measure also apply to the bidder's subcontractors and provide for a five percent bid preference;
- (3) Inserting language to allow contractors to be found in default of the contract award;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1221, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1221, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Kapela, Reyes Oda).

SCRep. 657 Labor on H.B. No. 1144

The purpose of this measure is to authorize the Department of Land and Natural Resources to employ civil service and non-civil service professionals and technical staff in its State Historic Preservation Program.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs and Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the State Historic Preservation Program is faced with high vacancy rates for professional and technical staff. Your Committee recognizes that exempting certain positions from civil service status is a great incentive to attract qualified candidates, retain staff, and offer competitive wages.

Your Committee has amended this measure by:

- (1) Clarifying that professional and technical staff are exempt from civil service; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1144, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 1144, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 658 Labor on H.B. No. 1424

The purpose of this measure is to prohibit the transfer of funds appropriated for the purposes of filling vacancies to operating expenses.

Your Committee received testimony in support of this measure from the Grassroot Institute of Hawaii. Your Committee received comments on this measure from the Department of Human Services and Department of Accounting and General Services.

Your Committee finds that the Legislature appropriates millions of dollars for the purposes of filling vacant positions throughout the State. Your Committee also finds that funds allotted to departments and agencies are sometimes transferred within the department or agency to cover operating expenses instead of filling vacant positions. Your Committee believes that this measure ensures funds appropriated by the Legislature to fill vacant positions are used for their intended purpose by prohibiting the transfer of these funds for operating expenses and vice versa.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1424, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1424, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 659 Labor on H.B. No. 1298

The purpose of this measure is to:

- (1) Require the Hawaii Housing Finance and Development Corporation to establish a Government Employee Housing Revolving Fund Program and Government Employee Ninety-Nine Year Leasehold Rent-to-Own Program; and
- (2) Establish the Government Employee Housing Revolving Fund.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; United Public Workers, AFSCME Local 646, AFL-CIO; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Maui Chamber of Commerce; and one individual. Your Committee received comments on this measure from the Department of the Attorney General and Tax Foundation of Hawaii.

Your Committee finds that the State's high cost-of-living contributes to unaffordable housing prices and makes it difficult for residents to save money to own a home. Your Committee also finds that many government employees do not earn enough wages to own property, especially when they have families to provide for. Your Committee believes that this measure can provide a path toward home ownership for government employees, and possibly attract candidates to apply for government jobs.

Your Committee has amended this measure by:

- (1) Inserting grant standards as recommended by the Department of the Attorney General to comply with the requirements for awarding grants of public money in article VII, section 4 of the Hawaii State Constitution; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1298, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 1298, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 660 Labor on H.B. No. 741

The purpose of this measure is to exempt certain projects funded by the Affordable Homeownership Revolving Fund from prevailing wages provisions.

Your Committee received testimony in support of this measure from Hawaii Housing Finance and Development Corporation; Hawaii Habitat for Humanity Association; Maui Chamber of Commerce; Habitat for Humanity Hawaii Island, Inc.; and Hawai'i Community Lending. Your Committee received testimony in opposition to this measure from the Pacific Resource Partnership; Hawaii Regional Council of Carpenters; and one individual.

Your Committee finds that the Affordable Homeownership Revolving Fund has limited resources to afford the costs associated with the construction of affordable homes and meet prevailing wages requirements. Your Committee recognizes that prevailing wages requirements ensure that workers are fairly compensated however, your Committee finds that it is important to encourage affordable housing development for residents.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 741, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Lee). Noes, none. Excused, 2 (Kapela, Reyes Oda).

SCRep. 661 Energy & Environmental Protection on H.B. No. 505

The purpose of this measure is to:

- (1) Establish a Red Hill Water Alliance Initiative (WAI) policy coordinator to coordinate WAI initiatives across state and county agencies and appropriate federal entities; and
- (2) Create the Red Hill Remediation Special Fund.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; University of Hawai'i System; Honolulu Board of Water Supply; Shimanchu Wai Protector; Hui Malama Pono Hawai'i; Environmental Caucus of the Democratic Party of Hawai'i; United Methodist Church, Hawai'i District; Coalition Earth; and numerous individuals. Your Committee received comments on this measure from the Department of Budget and Finance and one individual.

Your Committee finds that the Red Hill Bulk Fuel Storage Facility continues to pose a serious environmental and public health threat, particularly after the 2021 fuel spill that directly affected ninety-three thousand individuals served by the Navy's potable water system. The Red Hill Water Alliance Initiative (WAI), which was formed in 2023 to address the aftermath and remediation of the site, has provided crucial recommendations for action. This measure adopts recommendations of the Red Hill WAI, establishing a Red Hill Water Alliance Initiative policy coordinator and the Red Hill Remediation Special Fund, which will give state and county officials a clear understanding of the WAI, its mission, expectations, objectives and reporting requirements.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 505, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Quinlan, Ward).

SCRep. 662 Energy & Environmental Protection on H.B. No. 1421

The purpose of this measure is to establish and appropriate funds for a Cesspool Conversion On-Bill Financing Program to provide low-interest loans to eligible homeowners for the upgrade, conversion, or connection of cesspools.

Your Committee received testimony in support of this measure from the Hawai'i Climate Change Mitigation and Adaptation Commission; Hawaii Green Infrastructure Authority; Environmental Caucus of the Democratic Party of Hawai'i; Hawai'i Reef and Ocean Coalition; Coral Reef Coalition; Public Access to SunScreens Coalition; WAI: Wastewater Alternatives & Innovations; Hawai'i Wai Ola; and five individuals. Your Committee received comments on this measure from the Department of Budget and Finance; Department of Health; State Procurement Office; and The Nature Conservancy.

Your Committee finds that all cesspools, with certain exemptions, are required to be upgraded or converted to Director of Health-approved wastewater systems or connected to sewerage systems by January 1, 2050. Your Committee further finds that the upfront costs of cesspool conversions are a barrier that prevents many cesspool owners from abiding by the conversion requirements. This measure addresses this issue by establishing a Cesspool Conversion On-Bill Financing Program to provide low-interest loans to eligible homeowners for the upgrade, conversion, or connection of cesspools.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1421, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1421, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ward).

SCRep. 663 Energy & Environmental Protection on H.B. No. 810

The purpose of this measure is to establish a private right of action for any person aggrieved by a violation of the Federal Aviation Act and existing federal laws to bring a civil action against the owner or operator of the helicopter in violation and collect damages and litigation costs.

Your Committee received testimony in opposition to this measure from Jack Harter Helicopters. Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that helicopter noise pollution is a significant issue impacting residents and communities in Hawaii, often creating disturbances that affect quality of life. This measure classifies helicopters as a public nuisance due to noise pollution and establishes a private right of action for individuals affected by violations of federal aviation laws, thereby empowering citizens to seek remedies for noise pollution relating to helicopters.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 810, H.D. 1, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Kusch). Noes, none. Excused, 2 (Quinlan, Ward).

SCRep. 664 Energy & Environmental Protection on H.B. No. 348

The purpose of this measure is to prohibit lodging establishments from providing personal care products in small plastic containers within sleeping room accommodations, any space within sleeping room accommodations, or bathrooms used by the public or guests.

Your Committee received testimony in support of this measure from Surfrider Foundation, Hawai'i Region; Hawai'i Reef and Ocean Coalition; Climate Protectors Hawai'i; and five individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of Health; Starn O'Toole Marcus & Fisher; and Maui Chamber of Commerce.

Your Committee finds that single-use plastic containers in lodging establishments contribute significantly to plastic pollution and environmental degradation in the State. This measure supports the State's goals of promoting sustainable tourism and reducing waste by prohibiting lodging establishments from providing personal care products in small plastic containers within certain sleeping and bathroom accommodations.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 348, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Quinlan, Ward).

SCRep. 665 Energy & Environmental Protection/Water & Land on H.B. No. 1367

The purpose of this measure is to authorize the issuance of general obligation bonds and appropriate funds to the Honolulu Board of Water Supply for the planning, design, and construction of two monitoring wells.

Your Committees received testimony in support of this measure from the Board of Water Supply of the City and County of Honolulu; Environmental Caucus of the Democratic Party of Hawai'i; Hawai'i Reef and Ocean Coalition; and three individuals.

Your Committees find that it is estimated that the Red Hill bulk fuel storage facility, located above Oahu's sole-source groundwater aquifer, has released between 644,000 and 1,940,000 gallons of fuel during its eighty years of operation. Your Committees further find that contaminants from the facility can migrate to various well sources managed by the Honolulu Board of Water Supply and present a serious risk to Oahu's groundwater resources. This measure authorizes the issuance of general obligation bonds and appropriates funds to the Honolulu Board of Water Supply to install monitoring wells, which will provide critical data to assess contamination risks and guide efforts to protect Oahu's drinking water.

Your Committees have amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the maximum number of monitoring wells to be funded from two to six;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committees respectfully request your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$20,000,000.

As affirmed by the records of votes of the members of your Committees on Energy & Environmental Protection and Water & Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1367, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1367, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chairs on behalf of the Committees.

Energy & Environmental Protection: Ayes, 5. Noes, none. Excused, 1 (Ward).

Water & Land: Ayes, 9. Noes, none. Excused, 1 (Woodson).

SCRep. 666 Energy & Environmental Protection/Water & Land on H.B. No. 1404

The purpose of this measure is to appropriate funds to create residential sewer connection and cesspool closure subsidy pilot programs to assist with sewer projects nearing implementation in Ewa Beach, Oahu and Keaukaha, Hawaii.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands; Department of Land and Natural Resources; Department of Health; Hawai'i Reef and Ocean Coalition; and three individuals.

Your Committees find that every cesspool in the State, excluding those granted certain exemptions, must be upgraded or converted to a Director of Health-approved wastewater system or connected to a sewerage system by January 1, 2050. Your Committees further find that in some areas that currently have

cesspools, counties are planning to install new wastewater infrastructure to connect homes to county sewers. Your Committees believe that the State should support these initiatives and offer a subsidy to homeowners for their portion of the sewer lateral connections to help offset costs. This measure addresses this need by appropriating funds to create residential sewer connection and cesspool closure subsidy pilot programs to assist with sewer projects nearing implementation.

Your Committees have amended this measure by:

- (1) Changing the appropriations to an unspecified amount and deleting the appropriations for fiscal year 2026-2027;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committees respectfully request your Committee on Finance, should it deliberate on this measure, to consider appropriation amounts of:

- (1) \$12,000,000 for the City and County of Honolulu to establish a Residential Sewer Connection and Cesspool Closure Subsidy Pilot Program; and
- (2) \$6,000,000 for the County of Hawaii to establish a Residential Sewer Connection and Cesspool Closure Subsidy Pilot Program.

As affirmed by the records of votes of the members of your Committees on Energy & Environmental Protection and Water & Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1404, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1404, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chairs on behalf of the Committees.

Energy & Environmental Protection: Ayes, 5. Noes, none. Excused, 1 (Ward).

Water & Land: Ayes, 8. Noes, 1 (Iwamoto). Excused, 1 (Woodson).

SCRep. 667 Human Services & Homelessness on H.B. No. 359

The purpose of this measure is to amend the covered offender registration laws to:

- (1) Include offenders who, while acting in a professional capacity, commit either the offense of sexual assault in the fourth degree or sexual assault in the second degree against a minor who is at least sixteen years old; and
- (2) Require public disclosure for covered offenses that are committed against minors, regardless of whether the conviction was for a first-time misdemeanor offense.

Your Committee received testimony in support of this measure from the Crime Victim Compensation Commission; Honolulu Police Department; and The Sex Abuse Treatment Center. Your Committee received testimony in opposition to this measure from the Office of the Public Defender. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that sex offenders pose a significant threat to public safety due to high rates of recidivism, and existing registration laws contain gaps that allow certain offenders to evade public detection. Under existing law, individuals in positions of trust, such as teachers, coaches, or religious leaders, who commit sexual assault in the fourth degree against a minor at least sixteen years old are not required to publicly disclose their sex offender registration information. This measure addresses this loophole, strengthens protections for minors, and prevents individuals in positions of authority from continuing to exploit vulnerable youth.

Your Committee has amended this measure by:

- (1) Clarifying that a person who is required to report every year under the covered offender registration requirements shall report each year during the thirty-day period following the offender's birthday, rather than from the offender's actual date of birth;
- (2) Clarifying how the added offenses established by this measure will be tiered for purposes of seeking termination of registration requirements;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 359, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 359, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 668 Human Services & Homelessness on H.B. No. 383

The purpose of this measure is to:

- (1) Reinstate mandatory minimum jail sentences for successive violations of the same order for protection;
- (2) Remove the distinction between domestic and non-domestic violations of an order for protection; and
- (3) Eliminate the court's ability to suspend mandatory minimum sentences.

Your Committee received testimony in support of this measure from the Honolulu Police Department; County of Hawai'i, Office of the Prosecuting Attorney; Department of the Prosecuting Attorney for the City and County of Honolulu; Hawai'i State Coalition Against Domestic Violence; Domestic Violence Action Center; and two individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that protective orders are essential tools in preventing further harm to individuals facing threats or violence. However, repeated violations of these orders demonstrate a pattern of disregard for the consequences of the violation and an escalation on behalf of the abusive partner, which highlights the need for stronger enforcement measures. Currently, inconsistencies in sentencing for violations of temporary restraining orders and protective orders undermine their effectiveness, allowing abusers to disregard court mandates with minimal consequences. This measure ensures that all court-issued protections carry the same level of accountability and reinforces the seriousness of protective orders, deterring future violations and providing victims with greater assurance of safety.

Your Committee has amended this measure by:

- (1) Clarifying that a conviction of a temporary restraining order issued under the same judicial case number as the order for protection shall be treated as a second or subsequent violation of an order for protection;

- (2) Reinstating statutory language that authorizes the court to suspend mandatory minimum sentences under certain conditions;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 383, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 383, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 669 Tourism/Water & Land on H.B. No. 504

The purpose of this measure is to increase the transient accommodations tax to establish a source of revenue for environmental stewardship, to be implemented through additional funding to the Department of Land and Natural Resources.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Hawai'i Climate Change Mitigation and Adaptation Commission; Kua'āina Ulu 'Auamo; Malama Maunaloa; Care for 'Āina Now Coalition; Makahanaloa Fishing Association; Resources Legacy Fund; Hawai'i Land Trust; Hawai'i Ocean Legislative Task Force; Hawai'i Reef and Ocean Coalition; Climate Protectors Hawai'i; Mālama Learning Center; Mālama Pūpūkea-Waimea; Council for Native Hawaiian Advancement; The Nature Conservancy - Hawai'i and Palmyra; Sustainable Coastlines Hawai'i; Kupu; Ho'ōla Farms; and numerous individuals. Your Committees received testimony in opposition to this measure from the Kohala Coast Resort Association; Grassroot Institute of Hawaii; Maui Chamber of Commerce; and numerous individuals. Your Committees received comments on this measure from the Department of Taxation; Hawai'i Tourism Authority; and Tax Foundation of Hawaii.

Your Committees find that a modest, reasonable increase in the transient accommodations tax can generate sorely needed funding to support the restoration of the State's valuable natural resources, help prevent and respond to the climate crisis, and leave a strengthened environmental legacy for future generations.

Your Committees have amended this measure by:

- (1) Having the new rates for the transient accommodations tax take effect on January 1, 2027;
- (2) Having the tax per night on each furnishing of a transient accommodation in exchange for points, miles, or other amounts provided through a membership, loyalty, or rewards program take effect on January 1, 2027;
- (3) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Tourism and Water & Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 504, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 504, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chairs on behalf of the Committees.

Tourism: Ayes, 4. Noes, none. Excused, 3 (Holt, Hussey, Matsumoto).

Water & Land: Ayes, 8; Ayes with Reservations (Shimizu). Noes, none. Excused, 2 (Belatti, Woodson).

SCRep. 670 Consumer Protection & Commerce on H.B. No. 1179

The purpose of this measure is to:

- (1) Provide a statutory framework for the licensure of rural emergency hospitals at the state level; and
- (2) Provide for the continuation of Medicaid policy protections for hospitals transitioning to a rural emergency hospital designation.

Your Committee received testimony in support of this measure from the Department of Health; Hawaii Health Systems Corporation Corporate Board of Directors; Healthcare Association of Hawaii; and Maui Health System. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that there is a growing crisis of rural hospital closures nationwide. Since 2010, over one hundred fifty rural hospitals have closed, drastically reducing access to essential health care services for communities in need.

Your Committee further finds that to address this crisis, Congress created the Rural Emergency Hospital designation in section 125 of the Consolidated Appropriations Act of 2021. The Rural Emergency Hospital designation was designed to provide a lifeline to these critical facilities by allowing existing Critical Access Hospitals and small rural hospitals to convert their operations to this new financial model, which seeks to support the continuation of emergency and outpatient services without the financial strain of maintaining inpatient care. To fully take advantage of this new designation, state law is necessary to license the facilities at the state level. This measure allows these facilities to shift to a model of health care that will allow them to stay financially viable.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1179, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 3 (Matayoshi, Lowen, Tam).

SCRep. 671 Consumer Protection & Commerce on H.B. No. 250

The purpose of this measure is to:

- (1) Examine prior authorization practices in the State by requiring utilization review entities to report certain data to the State Health Planning and Development Agency;
- (2) Establish timelines for the approval of prior authorization requests to reduce delays for urgent and non-urgent health care services; and
- (3) Establish the Health Care Appropriateness and Necessity Working Group to make recommendations to improve and expedite the prior authorization process.

Your Committee received testimony in support of this measure from the Department of Health; State Health Planning and Development Agency; Hawai'i Association of Professional Nurses; Hawaii Academy of Family Physicians; 'Ahahui o nā Kauka; Hawaii Medical Association; Mohala Health LLC; American

College of Obstetricians and Gynecologists, Hawaii Section; East Hawaii Independent Physicians Association; and three individuals. Your Committee received testimony in opposition to this measure from the Hawaii Medical Service Association. Your Committee received comments on this measure from the Hawaii Association of Health Plans.

Your Committee finds that prior authorization is a health plan cost control process that requires physicians, other health care professionals, and hospitals to obtain advance approval from a health plan before a specific service to a patient to qualify for payment or coverage. Your Committee further finds that prior authorization imposes unnecessary delays in treatment. For example, in one survey, eighty-three percent of requests are subsequently overturned by the health plan. This measure streamlines and increases transparency of the prior authorization process.

Your Committee has amended this measure by:

- (1) Extending the deadline, from twenty-four hours to fourteen days, by which a health care facility or health care professional is required to submit requested information before the facility or professional would be required to submit a new prior authorization request to a utilization review entity;
- (2) Amending the composition of the Health Care Appropriateness and Necessity Working Group; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 250, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 250, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 672 Consumer Protection & Commerce on H.B. No. 1325

The purpose of this measure is to require developers of affordable housing projects under the Hawaii Housing Finance and Development Corporation to assist certain tenants who are subject to displacement or eviction by the proposed project by:

- (1) Granting certain persons displaced or evicted by the proposed affordable housing project the right of first refusal of a comparable unit in the housing project at an affordable rate or establish a fund to provide relocation benefits and offer assistance to the tenants;
- (2) Providing information, either directly or through a contracted service, on how to obtain assistance and exercise the right of first refusal; and
- (3) Establishing procedures to maintain communication with displaced and evicted tenants.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Tagnawa for Maui; Hawai'i YIMBY; Democratic Party of Hawai'i; Adult Friends for Youth; Hui Malama Pono Hawai'i; Hawaii Appleseed Center for Law & Economic Justice; Lāhainā Strong; Medical Legal Partnership for Children in Hawai'i; Hawai'i Workers Center; Maui Housing Hui; Parents And Children Together; and numerous individuals.

Your Committee finds that the creation of new affordable housing units is an important aspect of the State's efforts to address the existing housing crisis in Hawaii. However, the creation of new affordable housing units through the redevelopment of existing housing displaces and dislocates those tenants. This measure specifies a clear procedure for developers to follow when redeveloping areas on which existing tenants reside.

Your Committee has amended this measure by:

- (1) Specifying consequences for a developer's failure to comply with the requirements of this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1325, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs in the form attached hereto as H.B. No. 1325, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 673 Consumer Protection & Commerce on H.B. No. 557

The purpose of this measure is to:

- (1) Update the State's laws on telehealth services to conform with federal Medicare regulations;
- (2) Require the Insurance Commissioner to report to the Legislature on reimbursements claimed in the previous year for certain telehealth services; and
- (3) Repeal the sunset date of Act 107, Session Laws of Hawaii 2023.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; State Health Planning and Development Agency; AARP Hawai'i; Hawaii Substance Abuse Coalition; Hina Mauka; Hawai'i Primary Care Association; American Cancer Society Cancer Action Network; Hawai'i Mental Health Coalition; AlohaCare; Alzheimer's Association - Hawaii Chapter; and Waianae Coast Comprehensive Health Center. Your Committee received testimony in opposition to this measure from the Hawaii Medical Service Association. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs; Department of Health; Department of Human Services; University of Hawai'i System; Hawai'i Pacific Health; Healthcare Association of Hawaii; Hawaii Medical Association; The Queen's Health Systems; Hawaii Association of Health Plans; and ATA Action.

Your Committee finds that the use and expansion of telehealth services and technology in the State have been recognized as a way to increase access and reduce delays to health care, particularly in rural areas of the State. Due to the COVID-19 pandemic, telehealth became essential as the health care system and patients adjusted to the new realities, and as a result, the United States Centers for Medicare and Medicaid Services authorized, among other changes, reimbursement for audio-only telehealth services.

Your Committee further finds that this measure is intended to conform telehealth definitions under state law to be consistent with recent federal guidance. However, your Committee notes that there are currently numerous uncertainties regarding federal health care policy, including how the federal government may interpret reimbursement guidelines for audio-only telehealth services. Given the lack of certainty surrounding federal policies in this area, your Committee believes that attempting to conform state law to federal regulations may be premature at this point.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the provisions that would have codified updates to the State's laws on telehealth services to conform with federal Medicare regulations and required the Insurance Commissioner to report certain reimbursement information to the Legislature;
- (2) Extending the sunset date of Act 107, Session Laws of Hawaii 2023, to December 31, 2026; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 557, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 557, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 674 Consumer Protection & Commerce on H.B. No. 1047

The purpose of this measure is to require Hawaii financial institutions and licensed mortgage servicers to pay interest on insurance proceeds held in escrow for the benefit of consumers and specify that a fee cannot be charged to the borrower in connection with the maintenance or disbursement of insurance proceeds received by the Hawaii financial institution or mortgage servicer.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committee received testimony in opposition to this measure from the Mortgage Bankers Association of Hawaii. Your Committee received comments on this measure from the Hawaii Bankers Association and Hawaii Credit Union League.

Your Committee finds that, in the event of a natural disaster that damages a home, the insurance proceeds will generally be made to the mortgage lender (or servicer) and the borrower. This is due to the contractual provision within a mortgage where lenders require that they are named in the homeowner's policy and that they are a party to any insurance proceeds related to the structure. Since the lender has a financial interest in the property, this arrangement ensures that necessary repairs are made.

Your Committee further finds that, depending on the circumstances, lenders may also put the money in an escrow account and pay for the repairs as work is completed. However, lenders are not required to pay interest on these accounts if either the agreement or law requires it. This is the situation many residents find themselves after the 2023 Maui wildfires. While local banks have been offering interest on the insurance proceeds pending the rebuilding process, consumers with out-of-state mortgage servicers and banks have not been offered the same because existing law does not require insurance proceeds to be held in interest-bearing accounts. This measure will increase consumer protection in cases of damage or destruction by requiring all licensed mortgage servicers and Hawaii financial institutions to contact the consumer and provide the consumer with an option of putting the insurance proceeds in interest-bearing accounts.

Your Committee has amended this measure by:

- (1) Specifying that the provisions with respect to Hawaii financial institutions only apply in the event of a state of emergency declared by the Governor;
- (2) Deleting language that specified that the escrow accounts maintained by Hawaii financial institutions and mortgage servicers generate interest at a rate that is no less than the national rate for money market accounts;
- (3) Deleting language that prohibited Hawaii financial institutions and mortgage servicers from charging a fee for the maintenance or disbursement of insurance proceeds; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1047, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1047, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 675 Consumer Protection & Commerce on H.B. No. 807

The purpose of this measure is to provide condominium associations with financing options by:

- (1) Establishing the Condominium Loan Program to provide low-cost financing, or refinance previously obtained loans, for maintenance or repair projects; and
- (2) Establishing the Condominium Loan Loss Reserves Program to incentivize private lenders into providing loans at competitive rates and terms.

Your Committee received testimony in support of this measure from the Hawaii Green Infrastructure Authority; Hawaii Bankers Association; and three individuals. Your Committee received comments on this measure from the Department of Budget and Finance and one individual.

Your Committee finds that, due to issues in the global insurance industry and recent increases in catastrophic weather events around the world, there have been unprecedented insurance premium rate increases for condominium associations. Many of these condominium associations are also seeing the increased insurance premiums due to the aging buildings that make up the condominium projects and the associated repairs and maintenance issues, which are often significant. This measure provides two avenues for condominium associations to receive funding for much needed insurance and repairs.

Your Committee has amended this measure by:

- (1) Clarify that the financial institutions that may participate in the Condominium Loan Loss Reserves Program are community development financial institutions;
- (2) Amending the criteria for determining a condominium association's eligibility for the programs to be a condominium association that:
 - (A) Has received at least one letter from a financial institution declining its eligibility for a loan to address maintenance or insurance coverage issues; and
 - (B) Has obtained full replacement insurance coverage or intends to do so as a condition of any financing received; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 807, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 807, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 676 Consumer Protection & Commerce on H.B. No. 496

The purpose of this measure is to:

- (1) Establish labeling requirements for māmaki tea by restricting the use of certain words on a consumer package unless one hundred percent of the tea or leaves were grown in the State; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Hawai'i Food+ Policy; and Hawai'i Farmers Union.

Your Committee finds that māmaki is a shrub endemic to Hawaii and is a common host plant for caterpillars of the Kamehameha butterfly, the official state insect. Your Committee further finds that the māmaki tea industry is fairly new and would benefit from protections against deceptive or misleading labels. This measure establishes labeling requirements and provides resources to the Department of Agriculture to ensure that māmaki tea is provided with the same protections afforded to other valuable agricultural crops like coffee and macadamia nuts.

Your Committee has amended this measure by:

- (1) Changing the position count from unspecified to one full-time equivalent (1.0 FTE) Measurement Standards Inspector V position; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 496, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 496, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 677 Consumer Protection & Commerce on H.B. No. 463

The purpose of this measure is to:

- (1) Require the immediate sealing of court records for eviction proceedings if the final resolution does not result in a judgment for possession in favor of the landlord or the parties agree to seal the records;
- (2) Allow for the sealing of eviction records upon the motion of a residential tenant in certain circumstances; and
- (3) Prohibit discrimination in real property transactions based on the actual knowledge or belief that a person has a sealed eviction record.

Your Committee received testimony in support of this measure from Lāhainā Strong; Medical-Legal Partnership for Children in Hawai'i; Hawaii Appleseed Center for Law & Economic Justice; Hawai'i Workers Center; Maui Housing Hui; and four individuals. Your Committee received testimony in opposition to this measure from the Public First Law Center. Your Committee received comments on this measure from the Judiciary and Hawai'i Association of REALTORS.

Your Committee finds that without stable housing, persons struggle to maintain employment or a child's education, and it may affect their health. Your Committee further finds that landlords use the existence of eviction proceedings against prospective tenants, regardless of the outcome of those proceedings, including when the tenant prevails or the landlord dismisses the action. This measure promotes stable housing by requiring or allowing the sealing of eviction records in certain circumstances and prohibiting discrimination against persons who have sealed eviction records.

Your Committee notes the suggestion raised in testimony by the Public First Law Center that, rather than sealing eviction court records, an eviction case should instead be disassociated from the name of the tenant, which would continue to allow the public to freely access public court records while still protecting tenants who may have had baseless complaints filed against them. However, your Committee notes that additional testimony will be needed to determine if disassociating eviction cases from a tenant's name would be practical or feasible.

Your Committee has amended this measure by:

- (1) Requiring the courts to make a good faith and diligent effort to seal all court records within a reasonable time, rather than immediately; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 463, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs in the form attached hereto as H.B. No. 463, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Kong). Noes, 1 (Pierick). Excused, none.

SCRep. 678 Consumer Protection & Commerce on H.B. No. 914

The purpose of this measure is to:

- (1) Require the Public Utilities Commission to establish an automatic adjustment mechanism, including a water carrier inflation cost index automatic adjustment mechanism; and
- (2) Authorize the Public Utilities Commission to waive or exempt a water carrier from the Hawaii Water Carrier Act.

Your Committee received testimony in support of this measure from the Department of Transportation; Matson Navigation Company, Inc.; and Hawai'i Harbors Users Group. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs; Department of Agriculture; and Public Utilities Commission.

Your Committee finds that water carriers engage in the transportation of persons or property by water. These carriers play a crucial role in sustaining each island's economy and community by, among other things, moving essential goods between islands.

Your Committee further finds that water carriers are not immune from existing inflationary pressures. While cargo volumes for these carriers have stagnated, the costs of operation have increased, leading to an ongoing struggle to establish and maintain financial sustainability. This is further exacerbated by the regulatory lag to address increasing costs. This measure authorizes the Public Utilities Commission to develop a mechanism that will flexibly address the increasing costs of these much-needed carriers.

Your Committee notes that there currently is a docket regarding an automatic adjustment mechanism under consideration by the Public Utilities Commission and that this measure may not be necessary.

Your Committee has amended this measure by:

- (1) Authorizing, rather than requiring, the Public Utilities Commission to establish automatic adjustment mechanisms;
- (2) Removing the reference to the Gross Domestic Product Price Index and inserting an unspecified index; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider alternative indexes other than the national Gross Domestic Product Price Index to tie to the automatic adjustment mechanism provided for in this measure.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 914, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 914, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 679 Consumer Protection & Commerce on H.B. No. 1316

The purpose of this measure is to require the registration and numbering of rental vessels before they are provided or offered to the public for transiting the navigable waters of a state park.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from Bring Me A Kayak.

Your Committee finds that the commercial operation of rental kayaks and stand-up paddleboards allow visitors to experience the state parks in a unique manner by enjoying the scenic views and nature. However, the increased commercial activity often leads to extensive disruptions in state parks caused by human activity, including litter and overcrowding. While permitted vendors ensure that the use of rental kayaks and stand-up paddleboards are operated safely and in accordance with the Department of Land and Natural Resources' rules, this measure provides another mechanism for the Department to adequately protect the natural resources of state parks.

Your Committee has amended this measure by:

- (1) Specifying that the fees for the initial registration, annual renewal registration, and ancillary decals for rental vessels shall be deposited in the State Parks Special Fund; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1316, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 1316, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 1 (Pierick). Excused, none.

SCRep. 680 Culture & Arts on H.B. No. 547

The purpose of this measure is to:

- (1) Establish and appropriate funds into a Spay and Neuter Special Fund to reduce pet overpopulation and the reproduction of free-roaming cats; and
- (2) Establish various revenue and fundraising sources for the Spay and Neuter Special Fund.

Your Committee received testimony in support of this measure from the Hawaiian Humane Society; Neighborhood Cats; Animal Interfaith Alliance in Britain; Hawai'i Reef and Ocean Coalition; Humane Society of the United States; Cat Friends; Big Island Invasive Species Committee; and numerous individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Taxation; Department of the Attorney General; Department of Land and Natural Resources; Department of Budget and Finance; and Tax Foundation of Hawaii.

Your Committee finds that the spaying and neutering of free-roaming animals is a popular method used to reduce the free-roaming animal population. Your Committee recognizes that this measure provides a useful strategy to preserve the State's unique biodiversity and protect its wildlife.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider which department would be the most appropriate to administer the Spay and Neuter Special Fund and lead the efforts of the Advisory Committee in establishing eligibility criteria and procedures for disbursements from the special fund.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Culture & Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 547, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 547, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Reyes Oda).

SCRep. 681 Culture & Arts on H.B. No. 1378

The purpose of this measure is to:

- (1) Establish the Performing Arts Grants Program, under the State Foundation on Culture and the Arts' existing grant program, to support performing arts in the State;
- (2) Clarify the scope of responsibilities of the State Foundation on Culture and the Arts to include the coordination, planning, promotion, marketing, and execution of performing arts events; and
- (3) Appropriate funds to provide grants under the Performing Arts Grants Program.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts; Maui Pops Orchestra Inc; IONA Contemporary Dance Theatre; Castle Performing Arts Learning Center; Prince Dance Company; Hawaii Theatre Center; Hawai'i Arts Alliance; and numerous individuals. Your Committee received comments on this measure from the Department of the Attorney General and Department of Business, Economic Development, and Tourism.

Your Committee finds that the mission of the State Foundation on Culture and the Arts is to promote, perpetuate, preserve, and encourage culture and the arts as central to the quality of life and people of the State. One of the Foundation's strategic priorities includes increasing public accessibility to arts and culture. Your Committee also finds that the performing arts represent various mediums that express creativity through singing, dancing, theatre, and musical performances. Your Committee believes that this measure enables the performing arts to continue to provide the State's residents and visitors with creative, educational, and aesthetic performances that tell meaningful stories and provide engaging experiences.

Your Committee has amended this measure by:

- (1) Establishing a Performing Arts Grants Special Fund and specifying its purpose;
- (2) Inserting grant standards as recommended by the Department of the Attorney General to comply with the requirements for awarding grants of public money in article VII, section 4, of the Hawaii State Constitution;
- (3) Removing language as it relates to the Works of Art Special Fund;
- (4) Changing the appropriations to an unspecified amount;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$1,000,000.

As affirmed by the record of votes of the members of your Committee on Culture & Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1378, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1378, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Reyes Oda).

SCRep. 682 Culture & Arts on H.B. No. 925

The purpose of this measure is to require the Comptroller to establish a separate Arts Fees Account within the Works of Art Special Fund to be funded by one percent of all ticket sales from concerts held at state venues.

Your Committee received testimony in support of this measure from the State Foundation of Culture and Arts. Your Committee received comments on this measure from the Department of the Attorney General and Department of Budget and Finance.

Your Committee finds that it is important to expand access to arts and culture across the State to help bring joy and inspiration to all people. Your Committee finds that the performing arts have long been underfunded and often rely on community efforts for support. Your Committee believes that this measure can support performing arts through a mechanism similar to the existing percent-for-art law but not based on a percentage of bond-financed appropriations for capital improvement projects.

Your Committee has amended this measure by:

- (1) Inserting legislative findings to clarify that the intent of this measure is to expand access to vital arts and culture opportunities across the State;
- (2) Establishing a separate Performing Arts Special Fund, rather than the Arts Fees Account within the Works of Art Special Fund, for collections of the one percent of ticket sales from concerts held at state venues, and adding a definition for the term "concerts";
- (3) Authorizing the State Foundation on Culture and the Arts to expend monies from the Performing Arts Special Fund for the coordination, planning, promotion, marketing, and execution of performing arts events and defining the term "performing arts"; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Culture & Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 925, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 925, H.D. 2, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Reyes Oda).

SCRep. 683 Human Services & Homelessness on H.B. No. 320

The purpose of this measure is to:

- (1) Allow qualified adults, including adults with a disability, mentally ill adults, and adults sixty-five years of age or older, to enter into supported decision-making agreements with one or members of a supportive community; and
- (2) Specify the terms of a supported decision-making agreement, including access to personal information and agreement requirements.

Your Committee received testimony in support of this measure from the Executive Office on Aging; State Council on Developmental Disabilities; Disability and Communication Access Board; Hawaii Self-Advocacy Advisory Council; Hawaii Disability Rights Center; Full Life; and five individuals. Your

Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Health; Department of Human Services; Department of the Attorney General; and Guardianship Conservatorship Working Group.

Your Committee finds that many individuals with disabilities, mental illness, or aging-related challenges require support in decision-making, yet existing legal frameworks often place them under restrictive guardianship, stripping them of autonomy and basic rights. This measure addresses these concerns by allowing qualified adults to enter into supported decision-making agreements, enabling them to make informed choices with the guidance of trusted supporters and ensuring that individuals can direct their own lives with dignity and self-determination.

Your Committee has amended this measure by:

- (1) Defining "personal information";
- (2) Disqualifying certain persons from entering into a supported decision-making agreement as a member of a supportive community;
- (3) Requiring express written consent from the qualified adult for certain medical information and education records protected under federal privacy laws;
- (4) Clarifying the types of information a member of the supportive community must keep confidential after assisting a qualified adult to access, collect, or obtain the information;
- (5) Clarifying the minimum requirements of a supported decision-making agreement;
- (6) Clarifying provisions related to the automatic termination of a supported decision-making agreement;
- (7) Specifying that a supported decision-making agreement, or the execution of a supported decision-making agreement, shall not be used as evidence of incapacity or incompetency of a qualified adult and shall not preclude an adult with a functional impairment from acting independently of the agreement;
- (8) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 320, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 320, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 684 Judiciary & Hawaiian Affairs on H.B. No. 1002

The purpose of this measure is to:

- (1) Extend the term of the Oversight Coordinator of the Hawaii Correctional System Oversight Commission, beginning July 1, 2025; and
- (2) Clarify that the Oversight Coordinator has the general authority to inspect agencies and correctional facilities without notice.

Your Committee received testimony in support of this measure from the Hawaii Correctional System Oversight Commission; Community Alliance on Prisons; American Civil Liberties Union of Hawai'i; and three individuals. Your Committee received comments on this measure from the Department of Corrections and Rehabilitation and one individual.

Your Committee finds that extending the term of the Oversight Coordinator will better enable the Oversight Coordinator to make significant progress and see initiatives through to completion. Your Committee further finds that providing the Oversight Coordinator with access to information and correctional facilities is essential for ensuring transparency, accountability, and the protection of staff and individuals in custody.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1002, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 685 Judiciary & Hawaiian Affairs on H.B. No. 1358

The purpose of this measure is to appropriate funds to the Office of Hawaiian Affairs for the hiring of necessary staff and the purchase of equipment and professional services on behalf of the Public Land Trust Working Group.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Office of Hawaiian Affairs; Pilina Center for Wellbeing; Ali'i Pauahi Hawaiian Civic Club; ACLU Hawai'i; and numerous individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaii Sovereignty Studies and one individual.

Your Committee finds that the Public Lands Trust Working Group (Working Group) was established pursuant to Act 226, Session Laws of Hawaii 2022, to account for all ceded lands in the public land trust inventory and income and proceeds from the public land trust to determine the pro rata share of income and proceeds from the Public Land Trust due annually to the Office of Hawaiian Affairs. Your Committee further finds that the Working Group has determined that information in the Public Land Trust Information System (PLTIS) developed and maintained by the Department of Land and Natural Resources is based in part on self-reporting of revenues by state agencies and counties. Your Committee notes that there has not been a third-party independent audit, review, or evaluation of the thoroughness or accuracy of the PLTIS, including existing reporting practices and determinations of what lands should be included or excluded from the PLTIS database. This measure will appropriate funds for a third-party review of the PLTIS to support the Working Group in accurately determining the pro rata share of income and proceeds due to the Office of Hawaiian Affairs.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$1,000,000.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1358, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 1358, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 686 Judiciary & Hawaiian Affairs on H.B. No. 990

The purpose of this measure is to satisfy several claims against the State, its officers, or its employees.

Your Committee received testimony in support of this measure from the Department of Transportation; Department of the Attorney General; and Department of Budget and Finance.

Your Committee finds that the Department of the Attorney General testified that it has advised its client agencies on how to avoid claims such as those included in this measure.

Your Committee has amended this measure by:

- (1) Appropriating:
 - (A) \$111,733.08 in general funds for a claim by Mark Lloyd;
 - (B) \$152,665.39 in general funds for a claim by Maui Kupono Builders, LLC;
 - (C) \$28,500 in general funds for a settlement in the case of Billy Peter v. Anne E. Lopez;
 - (D) \$275,000 in general funds for a settlement in the case of James Sean Shields v. State of Hawaii;
 - (E) \$330,000 in general funds for a settlement in the case of B.R., M.A., and F.R. v. State of Hawaii;
 - (F) \$100,000 in general funds for a settlement in the case of Child Evangelism Fellowship of Hawaii, Inc. v. Hawaii State Department of Education;
 - (G) \$1,750,000 in general funds for a settlement in the case of Brenda Persinger, Individually and as a Personal Representative of the Estate of Michael Ambrose, Deceased v. State of Hawaii, Department of Education;
 - (H) \$75,000 in general funds for a settlement in the case of Jake Ferreira v. State of Hawaii, Department of Education; and
 - (I) \$750,000 in general funds for a settlement in the case of Cresencia Espejo v. State of Hawaii;
- (2) Inserting expenditure ceiling language;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 990, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 990, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 687 Judiciary & Hawaiian Affairs on H.B. No. 677

The purpose of this measure is to require the Department of Corrections and Rehabilitation to:

- (1) In collaboration with various agencies and upon request of the inmates, assist inmates in obtaining their civil identification card, birth certificate, social security card, and other relevant identification necessary for successful reentry into society, as soon as practicable, but no later than one year before the inmate's parole or release date; and
- (2) Initiate the process of obtaining identifying documents for inmates released to work furlough, extended furlough, or community placement programs, by providing the forms necessary for the inmate to obtain civil identification cards and other identifying documents to the inmate as soon as practicable, but no later than ninety days before the inmate's release date.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Department of Corrections and Rehabilitation; Hawaii Correctional System Oversight Commission; Waikiki Health; Community Alliance on Prisons; Opportunity for Youth Action Hawai'i; and five individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the Department of Corrections and Rehabilitation has made progress in collaborating with agencies, including the counties and Social Security Administration, and facilitating access to identification documents. However, significant gaps remain in informing individuals in custody about available assistance, prioritizing support for those within one year of release, adhering to prescribed timelines, and providing forms in the individual's primary language. This measure will improve the timeliness in which individuals in custody are informed of and receive departmental assistance in obtaining applicable identification documents.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 677, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 688 Judiciary & Hawaiian Affairs on H.B. No. 1001

The purpose of this measure is to establish, and appropriate funds to, the Maui Wildfires Settlement Trust Fund to pay eligible claims pursuant to the Maui wildfires settlement agreements.

Your Committee received testimony in support of this measure from the Department of the Attorney General and one member of the Maui County Council. Your Committee received comments on this measure from Tax Foundation of Hawaii.

Your Committee finds that this measure establishes the Maui Wildfires Settlement Trust Fund to provide timely and fair compensation to victims of the devastating Maui wildfires of August 8, 2023. The Trust Fund is designed to settle claims related to property damage, personal injury, emotional distress, and economic loss, with contributions from the State and other entities like Maui County and utility companies. The goal is to offer an alternative to lengthy litigation, expedite compensation, and ease the burden on the judicial system, while fostering community recovery. The State will contribute \$807,500,000 for fiscal biennium 2025-2027 to the Trust Fund, which will be managed by the Attorney General, with regular legislative oversight to ensure transparency and efficient use of the funds.

Your Committee has amended this measure by:

- (1) Changing the appropriation to unspecified amounts;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$400,000,000 for fiscal year 2025-2026 and \$407,500,000 for fiscal year 2026-2027.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1001, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1001, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 689 Judiciary & Hawaiian Affairs on H.B. No. 648

The purpose of this measure is to establish a two-year pilot program in the Probate Court and Family Court of the First Circuit to fund certain guardianship- and conservatorship-related court resources in situations where the respondent does not have sufficient funds to pay for one or more of the resources and the court has deemed the resource or resources beneficial.

Your Committee received testimony in support of this measure from the Judiciary; Executive Office on Aging; AARP Hawaii; Hawaii Disability Rights Center; and four individuals. Your Committee received comments on this measure from the Office of the Public Guardian and State Council on Developmental Disabilities.

Your Committee finds that many respondents in guardianship and conservatorship cases cannot afford necessary legal and evaluative services. This measure promotes enhanced equity and procedural fairness in the guardianship and conservatorship system by ensuring that vulnerable individuals, such as those with disabilities, have access to proper representation and assessments.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified amounts;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider the following appropriation amounts:

- (1) \$100,000 for the provision of guardianship- and conservatorship-related court resources in the Probate Court of the First Circuit as part of the pilot program; and
- (2) \$100,000 for the provision of guardianship- and conservatorship-related court resources in the Family Court of the First Circuit as part of the pilot program.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 648, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 648, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 690 Judiciary & Hawaiian Affairs on H.B. No. 1045

The purpose of this measure is to make emergency appropriations for fiscal year 2024-2025 to the Department of Accounting and General Services and the Judiciary for payroll and fringe benefits of affected Department of Law Enforcement personnel.

Your Committee received testimony in support of this measure from the Judiciary; Department of Budget and Finance; and Department of Law Enforcement.

Your Committee finds that the Legislature received a letter from the Governor on February 10, 2025, recommending the immediate passage of this measure pursuant to article VII, section 9, of the Hawaii State Constitution. Your Committee further finds that this measure will provide the necessary funding for fringe benefits for sheriffs in the Department of Law Enforcement.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider the following appropriation amounts:

- (1) \$2,489,509 for the interdepartmental transfer from the Department of Accounting and General Services to the Department of Law Enforcement; and
- (2) \$4,673,616 for the interdepartmental transfer from the Judiciary to the Department of Law Enforcement.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1045, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1045, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 691 Judiciary & Hawaiian Affairs on H.B. No. 1064

The purpose of this measure is to:

- (1) Effectuate the recommendations of the "Phase 3" Forward-Looking Report by Fire Safety Research Institute on the August 2023 Maui wildfires and further clarify the role of the State Fire Marshal; and
- (2) Appropriate funds for the operations of the Office of the State Fire Marshal.

Your Committee received testimony in support of this measure from the Department of Defense; Department of Labor and Industrial Relations; Hawai'i Climate Advisory Team; Hawaii Insurers Council; Hawaiian Electric; Lāhainā Strong; Kamehameha Schools; and numerous individuals. Your Committee received comments on this measure from the Department of Land Natural Resources and Hawai'i Wildfire Management Organization.

Your Committee finds that recent devastating wildfires in Hawaii, like those experienced in Maui, clearly demonstrate that wildfires are an escalating threat to the State. This measure would clarify the role of the State Fire Marshal and facilitate unity of effort with the State Fire Council, thereby increasing the readiness and resilience of the State against fire-related disasters.

Your Committee has amended this measure by:

- (1) Deleting language that would have established the Office of the State Fire Marshal in the Department of Defense and instead temporarily establishing the Office in the Office of the Governor;
- (2) Deleting language that would have required the State Fire Council to appoint the State Fire Marshal and instead requiring the Governor to appoint the State Fire Marshal from a list of three names submitted by the State Fire Council;
- (3) Requiring the Office of the State Fire Marshal to oversee the development and maintenance of a comprehensive statewide wildfire hazard map;
- (4) Specifying how often the county fire chiefs must:
 - (A) Make compilations and statistical investigations of all fires occurring in their respective counties; and
 - (B) Supervise and make or cause to be made thorough inspection records of all property that might constitute a fire hazard within their respective county;
- (5) Requiring the county fire chiefs to transmit to the State Fire Marshal the records and statistical investigations of all fires occurring in their respective counties and inspection records of property that might constitute a fire hazard within their respective county;
- (6) Requiring the State Fire Marshal, instead of the county fire chiefs, to inspect all state facilities at least once a year;
- (7) Deleting language that would have transferred the State Fire Council from the Department of Labor and Industrial Relations to the Department of Defense;
- (8) Making the State Fire Marshal a member of the State Fire Council; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1064, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 1064, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 692 Judiciary & Hawaiian Affairs on H.B. No. 992

The purpose of this measure is to:

- (1) Revise registration, fee, reporting, and enforcement requirements for charitable fundraising platforms and platform charities that solicit funds from the public; and
- (2) Remove duplication of registration, fee, and reporting requirements for charitable fundraising platforms and platform charities.

Your Committee received testimony in support of this measure from the Department of the Attorney General. Your Committee received comments on this measure from GoFundMe.

Your Committee finds that this measure clarifies and updates Hawaii's law related to the solicitation of funds from the public by revising registration, reporting, fees, and other regulatory requirements for charitable fundraising platforms and platform charities.

Your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 992, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 992, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, 2 (Garcia, Shimizu). Excused, 1 (Cochran).

SCRep. 693 Judiciary & Hawaiian Affairs on H.B. No. 739

The purpose of this measure is to establish and fund the Kamaaina Homes Program as an investment in the future of Hawaii and keep local working families in the State by securing a dedicated housing supply specifically for locals.

Your Committee received testimony in support of this measure from the Department of Transportation; Office of Hawaiian Affairs; Hawaii Housing Finance and Development Corporation; Kaua'i County Housing Agency; AARP Hawai'i; Hawai'i YIMBY; Hawaii Appleseed Center for Law & Economic Justice; Housing Hawai'i's Future; Hawai'i Children's Action Network Speaks!; Council for Native Hawaiian Advancement; Holomua Collaborative; Hawai'i Community Foundation; Title Guaranty of Hawai'i; HPM Building Supply; Hawai'i Gas; Mana Up; Tori Richard, Ltd.; aio Family of Companies; Sunshine Topping; Hawai'i State Youth Commission; Maui Chamber of Commerce; Aloha United Way and the ALICE Initiative; Chamber of Commerce Hawaii; Techmana LLC; Kobayashi Group; and numerous individuals. Your Committee received comments on this measure from the Department of Taxation; Tax Foundation of Hawaii; and Hawai'i Association of REALTORS.

Your Committee finds that the average price of a home in the State has now surpassed \$800,000. Since 1984, existing home prices have increased by one hundred fifty-five percent, while the median household income has risen only twenty-four percent.

Your Committee further finds that voluntary deed restrictions have proven effective in preventing speculative real estate practices that drive up housing costs. This measure strengthens the stability of a community by allowing residents to place voluntary deed restrictions to provide secure housing for residents.

Your Committee has amended this measure by:

- (1) Amending its purpose section;
- (2) Clarifying the eligible occupants of a property with a deed restriction in place under the Kamaaina Homes Program;
- (3) Clarifying available remedies if a property with a deed restriction is sold and has been occupied in a noncompliant manner;
- (4) Specifying that any financial remedy owed or collected is deposited into the Dwelling Unit Revolving Fund;
- (5) Clarifying the exemption from conveyance taxes; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 739, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 739, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Garcia). Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 694 Judiciary & Hawaiian Affairs on H.B. No. 1007

The purpose of this measure is to streamline transit-oriented development infrastructure improvements by making Chapter 206E, Part X, Hawaii Revised Statutes, relating to transient-oriented development infrastructure improvements, a program under the Hawaii Community Development Authority, rather than districts to be overseen by a board.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Office of Planning and Sustainable Development; Hawai'i Community Development Authority; Oahu Metropolitan Planning Organization; and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that, as transit-oriented development infrastructure improvement districts have not been constituted since its establishment pursuant to Act 184, Session Laws of Hawaii 2022, repealing the transit-oriented infrastructure improvement districts and boards and reconstituting them as a program under the Hawaii Community Development Authority will allow for a more streamlined transit-oriented development infrastructure improvements.

Your Committee has amended this measure by:

- (1) Authorizing, rather than requiring, program areas to include all parcels of land of which any portion is located within certain transit-oriented development zones or transit stations;
- (2) Clarifying that the Hawaii Community Development Authority may establish and administer transit-oriented development infrastructure improvement program areas;
- (3) Deleting language that would have allowed the Hawaii Community Development Authority to acquire property already devoted to a public use; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1007, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 1007, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 695 Judiciary & Hawaiian Affairs on H.B. No. 1174

The purpose of this measure is to:

- (1) Allow for the interest earned on payments under protest in the litigated claims fund to be paid in nontaxation cases if the claimant prevails; and
- (2) Establish a procedure for the disposition of monies and refiling of actions when a payment under protest suit is filed prematurely.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the Hawaii Supreme Court ruled that if a taxpayer sues for a refund of payment under protest before an agency has decided whether the money is owed, the appeal should be dismissed. This may result in the agency keeping payments under protest without the opportunity for judicial review on the issue. This measure introduces procedural safeguards to ensure the courts can address the merits of such disputes.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1174, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1174, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 696 Judiciary & Hawaiian Affairs on H.B. No. 1183

The purpose of this measure is to include certain law enforcement administrators and employees of the Department of Law Enforcement as class A members of the pension and retirement systems and provides guidance for the computation of retirement benefits similar to police officers.

Your Committee received testimony in support of this measure from the Department of Human Resources Development and Department of Law Enforcement. Your Committee received comments on this measure from the Department of Budget and Finance; and Employees' Retirement System.

Your Committee finds that this measure acknowledges the critical role of Department of Law Enforcement personnel by providing them with retirement benefits commensurate with their law enforcement duties and responsibilities, similar to those currently afforded to county police officers. This measure establishes appropriate contribution rates and provides clear guidance for the computation of retirement benefits for Department of Law Enforcement administrators and employees.

Your Committee has amended this measure by:

- (1) Inserting a preamble to note the purposes of the measure, which are notwithstanding the moratorium on benefit enhancements;
- (2) Deleting language that would have amended the definition of "law enforcement investigations staff investigators";
- (3) Deleting the term "department of law enforcement investigators" throughout the measure and replacing it with the defined term "law enforcement investigations staff investigators", where appropriate;
- (4) Amending the percentage of compensation that the Director of Law Enforcement, deputy directors of the Department of Law Enforcement, the Sheriff, and Sheriff Division investigators must contribute to the annuity savings fund;
- (5) Clarifying the language regarding years of credited service for the Director of Law Enforcement, deputy directors of the Department of Law Enforcement, the Sheriff, and Sheriff Division investigators as it relates to the allowance on service retirement;
- (6) Specifically establishing the employer contributions for normal cost and accrued liability for the Director of Law Enforcement, deputy directors of the Department of Law Enforcement, law enforcement investigations staff investigators, the Sheriff, and Sheriff Division investigators; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1183, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 1183, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 697 Judiciary & Hawaiian Affairs on H.B. No. 664

The purpose of this measure is to:

- (1) Establish the Office of Gun Violence Prevention to conduct community outreach on gun violence prevention, develop and administer a Gun Violence Prevention Grant Program, and develop and administer a gun violence resource bank; and
- (2) Establish the Gun Violence Prevention Special Fund and appropriate funds into and out of the special fund.

Your Committee received testimony in support of this measure from the Department of Law Enforcement; Brady Campaign to Prevent Gun Violence; Giffords; COFACAN; Everytown for Gun Safety; Moms Demand Action for Gun Sense in America Hawai'i Chapter; Students Demand Action for Gun Sense in America; and numerous individuals. Your Committee received testimony in opposition to this measure from nine individuals. Your Committee received comments on this measure from the Department of the Attorney General; Department of Budget and Finance; and one individual.

Your Committee finds that creating a specific office for gun violence prevention will allow the State to develop targeted, strategic initiatives and policies that are focused solely on reducing gun violence.

Your Committee has amended this measure by:

- (1) Establishing standards for the distribution of funds as grants under the Gun Violence Prevention Grant Program;
- (2) Specifying that funds in the Gun Violence Prevention Special Fund shall be used for the awarding of grants to organizations to conduct community-based gun violence intervention initiatives;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$1,044,926 for appropriate staffing and to operate the Office of Gun Violence Prevention.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 664, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 664, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, 2 (Garcia, Shimizu). Excused, 1 (Cochran).

SCRep. 698 Judiciary & Hawaiian Affairs on H.B. No. 958

The purpose of this measure is to:

- (1) Require all bicycles equipped with motors to be operated only with all wheels on the ground at all times, with certain exceptions;
- (2) Prohibit certain actions while operating a bicycle equipped with a motor;
- (3) Prohibit the operation of high-speed electric devices in certain locations;
- (4) Require manufacturers and distributors to apply a label to electric bicycles;
- (5) Require distributors to place a sign at or near the point of sale regarding electric bicycles;
- (6) Define "electric bicycle" in place of "low-speed electric bicycle";
- (7) Define "electric micro mobility device" and requires the same regulations as electric foot scooters to apply to electric micro mobility devices;
- (8) Prohibit a person under the age of fifteen from operating a class 3 bicycle;
- (9) Prohibit a person from riding a class 3 electric bicycle on a sidewalk;
- (10) Authorize a person to ride a class 1 or class 2 electric bicycle on a sidewalk at a speed not exceeding ten miles per hour;

- (11) Prohibit a person from operating a bicycle or electric foot scooter under the age of eighteen without a helmet;
- (12) Repeal the requirement that moped drivers use bicycle lanes; and
- (13) Substitute the word "motor drive cycle" with the word "motor scooter".

Your Committee received testimony in support of this measure from the Department of Transportation; Department of Transportation Services of the City and County of Honolulu; and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that this measure aims to enhance safety by clarifying electric bicycle definitions, setting age restrictions, regulating sidewalk use, and requiring helmet use for minors.

Your Committee has amended this measure by:

- (1) Specifying that no person under the age of sixteen shall operate a class 3 electric bicycle; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 958, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 958, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Garcia). Noes, none. Excused, 1 (Cochran).

SCRep. 699 Judiciary & Hawaiian Affairs on H.B. No. 228

The purpose of this measure is to:

- (1) Authorize the counties to adopt rules for the use of electronic license plates;
- (2) Prohibit the use of license plate flipping devices; and
- (3) Prohibit intentionally obscuring a license plate with a cover or shield.

Your Committee received testimony in support of this measure from the Department of Transportation and one individual.

Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of Customer Services of the City and County of Honolulu.

Your Committee finds that the prohibitions on license plate flipping devices and intentionally obscuring a license plate through the use of a cover or shield will facilitate highway safety enforcement efforts, including automated enforcement efforts such as the red-light safety program and speed safety cameras.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 228, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 700 Judiciary & Hawaiian Affairs on H.B. No. 604

The purpose of this measure is to increase transient accommodations tax rates by one percent, beginning on January 1, 2026, and deposit the increased revenues into the Hawaiian Home General Loan Fund established under the Hawaiian Homes Commission Act, 1920, as amended.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands. Your Committee received testimony in opposition to this measure from Kohala Coast Resort Association; Grassroot Institute of Hawaii; and one individual. Your Committee received comments on this measure from the Department of Taxation; Hawai'i Tourism Authority; and Tax Foundation of Hawaii.

Your Committee finds that this measure provides an opportunity and means by which the State can fulfill its trust obligations under the Hawaiian Homes Commission Act, 1929, as amended, and the Hawaii State Constitution by providing another source of funding to the Department of Hawaiian Home Lands to reduce its extensive applicant waiting list.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 604, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Shimizu). Noes, 1 (Garcia). Excused, 1 (Cochran).

SCRep. 701 Judiciary & Hawaiian Affairs on H.B. No. 508

The purpose of this measure is to amend Act 67, Session Laws of Hawaii 2023, to:

- (1) Appropriate funds for the Illegal Fireworks Task Force for fiscal year 2025-2026 and 2026-2027; and
- (2) Extend the sunset date to June 30, 2030.

Your Committee received testimony in support of this measure from the Department of Transportation; Department of Law Enforcement; Honolulu Police Department; Hawaiian Humane Society; and numerous individuals. Your Committee received testimony in opposition to this measure from the Libertarian Party of Hawaii and three individuals.

Your Committee finds that the results of the Illegal Fireworks Task Force over the past two years demonstrate the need for sustained funding and administrative support.

Your Committee has amended this measure by:

- (1) Clarifying the appropriation language;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 508, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 508, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Garcia). Noes, none. Excused, 1 (Cochran).

SCRep. 702 Transportation on H.B. No. 1163

The purpose of this measure is to authorize the issuance of a limited-term non-domiciled commercial learner's permit and limited-term commercial driver's license for applicants who are unable to provide proof of citizenship or lawful permanent residency status.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that in 2024, the Federal Motor Carrier Safety Administration notified the State that it was not compliant with licensing requirements by issuing full-term commercial learner's permits and commercial driver's licenses to applicants who are citizens of the Freely Associated States. This measure allows the State to comply with Federal Motor Carrier Safety Administration licensing requirements as well as allow other foreign citizens who are unable to provide proof of citizenship or lawful permanent residency the opportunity to obtain a limited-term commercial learner's permit and commercial driver's license in Hawaii.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1163, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1163, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Cochran, Evslin, Kitagawa).

SCRep. 703 Transportation on H.B. No. 1166

The purpose of this measure is to appropriate funds out of the State Highway Fund for deposit into and expend out of the Automated Speed Enforcement Systems Program Special Fund.

Your Committee received testimony in support of this measure from the Department of Transportation; Department of Law Enforcement; Oahu Metropolitan Planning Organization; and two individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the Automated Speed Enforcement Systems Program was established to improve the enforcement of speeding laws and reduce speed-related motor vehicle fatalities and injuries.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified amounts;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1166, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1166, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Cochran, Evslin, Kitagawa).

SCRep. 704 Transportation on H.B. No. 1231

The purpose of this measure is to:

- (1) Require the State to prioritize the installation of photo red light imaging detector systems in school zones if the State establishes a photo red light imaging detector system; and
- (2) Require proceeds of fines collected for disregarding a steady red signal pursuant to a photo red light imaging detector system installed in a school zone to be deposited into the Safe Routes to School Program Special Fund.

Your Committee received testimony in support of this measure from the Department of Transportation; Hawai'i Bicycling League; Ulupono Initiative; Hawaii Appleseed Center for Law & Economic Justice; Oahu Metropolitan Planning Organization; and three individuals. Your Committee received comments on this measure from the Judiciary and one individual.

Your Committee finds that by prioritizing the installation of these photo red light imaging detector systems in school zones and dedicating the resulting revenue to student safety initiatives, this measure strengthens efforts to protect children traveling to and from school.

Your Committee notes that a special fund is required under existing law to be self-sustaining and not meant to generate revenue. Your Committee will continue to work with pertinent stakeholders regarding this issue as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Clarifying that an unspecified percentage of fines collected under this measure may be deposited into the Safe Routes to School Program Special Fund and inserting an unspecified maximum amount that may be deposited in the Special Fund each year;
- (2) Authorizing, rather than requiring, priority to be given to installing photo red light imaging detector systems in school zones;
- (3) Requiring the Department of Transportation to consult with the Department of Education in determining which school zones to install a photo red light imaging detector system;

- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1231, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1231, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Cochran, Evslin, Kitagawa).

SCRep. 705 Transportation on H.B. No. 334

The purpose of this measure is to authorize the Department of Law Enforcement to establish traffic cameras and issue citations by mail for certain violations of traffic-related laws.

Your Committee received testimony in support of this measure from the Department of Law Enforcement; Oahu Metropolitan Planning Organization; and one individual. Your Committee received testimony in opposition to this measure from the Policing Project; ACLU of Hawai'i; and one individual. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that traffic violations continue to pose significant safety risks across the State and the use of traffic cameras has proven effective in other jurisdictions for improving compliance with traffic laws and reducing collisions. However, your Committee notes that there are existing programs that already accomplish the intent of this measure.

Your Committee acknowledges the critical importance of safeguarding state and county property utilized in the regulation and enforcement of traffic safety laws due to the vital role in maintaining public safety and ensuring the effective functioning of traffic management systems.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have authorized the Department of Law Enforcement to establish and implement any traffic camera, issue traffic citations, and provide motorists with educational and informational materials;
- (2) Amending the definition of "traffic camera" to include any camera owned and operated by a state or county agency;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 334, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 334, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Cochran, Evslin, Kitagawa).

SCRep. 706 Transportation on H.B. No. 235

The purpose of this measure is to require the Department of Transportation to expand the use of photo red light imaging detector systems and automated speed enforcement systems to locations on the North Shore of Oahu.

Your Committee received testimony in support of this measure from the Department of Transportation; Department of Law Enforcement; Oahu Metropolitan Planning Organization; and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that evidence from the use of photo red light imaging detector systems has shown a reduction in collisions and that automated speed enforcement systems are expected to yield similar safety benefits. This measure expands the utilization of these traffic safety systems to the North Shore of Oahu, where residents and visitors are impacted by speeding and red-light violations.

Your Committee notes the concerns raised in written testimony by the Judiciary that the expansion of the Photo Red Light Imaging Detector System Program and Automated Speed Enforcement System Program and its effect on existing workloads of the Judiciary. Your Committee will continue to work with the Judiciary to ensure that the expansion of these programs do not overload their capacity to efficiently process citations from these programs.

Your Committee has amended this measure by:

- (1) Requiring the Department of Transportation to seek input from the Judiciary, in addition to the surrounding community, when selecting locations in the North Shore;
- (2) Specifying that this measure shall take effect one year after its approval to allow counties sufficient time to educate the public and adjust their systems accordingly;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an effective date of July 1, 2026.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 235, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 235, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Cochran, Evslin, Kitagawa).

SCRep. 707 Transportation on H.B. No. 1471

The purpose of this measure is to:

- (1) Require and appropriate funds for the Department of Transportation to install traffic actuated signals, including leading pedestrian interval and accessible pedestrian signals and detectors; and

(2) Impose an additional fee of \$5 for a certificate of registration for a motor vehicle, to be deposited into the Safe Routes to School Program Special Fund.

Your Committee received testimony in support of this measure from one member of the Kaua'i County Council; People for Active Transportation Hawaii; Hawaii Self-Advocacy Advisory Council; Hawaii Appleseed Center for Law & Economic Justice; Hawai'i Bicycling League; Ulupono Initiative; Oahu Metropolitan Planning Organization; Hawai'i Public Health Institute; and numerous individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Health and Department of Customer Services of the City and County of Honolulu.

Your Committee finds a particularly high number of pedestrian injuries occur at signalized intersections, where conflicts with turning vehicles are common. This measure addresses these safety concerns by requiring the installation of leading pedestrian interval signals and accessible pedestrian signals and detectors, which have been shown to reduce pedestrian-vehicle collisions by increasing pedestrian visibility and reinforcing their right-of-way.

Your Committee further notes that the Department of Transportation is currently working on installing traffic actuated signals, including pedestrian interval and accessible pedestrian signals and detectors throughout the State and that this provision may not be necessary.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language related to the installation of traffic actuated signals, including leading pedestrian interval and accessible pedestrian signals and detectors, and the appropriation;
- (2) Changing the additional fee for a certificate of registration to an unspecified amount;
- (3) Deleting language that would have required the Department of Transportation to use the Safe Routes to School Program Special Fund to match any federal funds received for costs related to sidewalk and other infrastructure planning, development, and construction;
- (4) Specifying that this measure shall take effect one year after its approval to allow counties sufficient time to educate the public and adjust their systems accordingly;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an additional fee for a certificate of registration in an amount of \$5 and an effective date of July 1, 2026.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1471, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1471, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Cochran, Evslin, Kitagawa).

SCRep. 708 Transportation on H.B. No. 1260

The purpose of this measure is to:

- (1) Require each county, in collaboration with the Department of Transportation, to establish a Summer Streets Pilot Program that temporarily closes vehicular traffic and repurposes roads for pedestrian and cyclist uses;
- (2) Require each county to submit an initial proposal to the Director of Transportation; and
- (3) Appropriate funds for the Summer Streets Pilot Program.

Your Committee received testimony in support of this measure from the Department of Transportation; Department of Health; three members of the Hawai'i County Council; People for Active Transportation Hawaii; Hawai'i Bicycling League; Oahu Metropolitan Planning Organization; Hawaii Appleseed Center for Law & Economic Justice; Cycle On Hawaii; Kauai Path, Inc.; Hawai'i Public Health Institute; Keiki Injury Prevention Coalition; Maui Bicycling League; and numerous individuals.

Your Committee finds that enhancing public spaces through innovative urban planning initiatives can significantly contribute to the health, sustainability, and cohesion of communities across Hawaii. This measure seeks to temporarily repurpose streets for pedestrian and cyclist use, outdoor activities, and cultural engagement for more vibrant, accessible, and sustainable public spaces in Hawaii.

Your Committee has amended this measure by:

- (1) Clarifying the reporting requirements of the Department of Transportation;
- (2) Defining "county" as a county of the State with a population of two hundred fifty thousand or less, except the County of Kalawao;
- (3) Changing the appropriation to an unspecified amount;
- (4) Inserting a sunset date of June 30, 2027;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$1,000,000.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1260, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1260, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, 1 (Pierick). Excused, 3 (Cochran, Evslin, Kitagawa).

SCRep. 709 Water & Land on H.B. No. 1423

The purpose of this measure is to preserve the quiet recreational character of Hanalei Bay and protect the safety of residents and visitors who use the bay for water activities by restricting the size of vessels permitted to enter Hanalei Bay and requiring the Board of Land and Natural Resources to define the boundaries of Hanalei Bay by rule.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Kaua'i; one member of the Kaua'i County Council; Hanalei-Wainiha-Hā'ena Community Association; and Hanalei Watershed Hui. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that in recent years, several large vessels have moored in Hanalei Bay, greatly disrupting the quiet enjoyment of the waters by other residents and visitors and posing a health and safety risk to those partaking in ocean activities in Hanalei Bay. Your Committee further finds that although Hanalei Bay has designated recreational mooring available on a seasonal basis, it cannot safely accommodate large vessels. Your Committee believes that clearly prohibiting these large vessels from entering Hanalei Bay will protect the health and safety of all users of Hanalei Bay.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1423, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1423, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 2 (Poepoe, Woodson).

SCRep. 710 Water & Land on H.B. No. 743

The purpose of this measure is to require the Office of Planning and Sustainable Development to develop a model that assesses the fiscal impact of land use development projects and regional infrastructure investments.

Your Committee received testimony in support of this measure from the Hawai'i Appleseed Center for Law & Economic Justice; Housing Hawai'i's Future; and three individuals. Your Committee received comments on this measure from the Department of Taxation and Office of Planning and Sustainable Development.

Your Committee finds that fiscal impact modeling is a means of analyzing the long-term financial effects of land use decisions on government revenues and expenditures. Your Committee further finds that a fiscal impact assessment tool could be used by the counties or state agencies to evaluate whether development proposals or regional land use patterns positively contribute to the ongoing operational, maintenance, and replacement costs of public infrastructure, facilities, and services required to support development.

Your Committee has amended this measure by:

- (1) Authorizing a designee of the Director of Taxation to serve in place of the Director as a member of the steering committee to advise on the development of the model;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 743, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 743, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 2 (Poepoe, Woodson).

SCRep. 711 Water & Land on H.B. No. 1410

The purpose of this measure is to:

- (1) Establish the Supportive Housing Special Fund;
- (2) Restructure the conveyance tax to a marginal rate system and adjust the tax for multifamily properties to reflect value on a per-unit basis;
- (3) Allocate a portion of conveyance tax revenues to the Supportive Housing Special Fund; and
- (4) Allocate a portion of conveyance tax revenues to the Dwelling Unit Revolving Fund to fund infrastructure programs in county-designated transit-oriented development areas that meet minimum standards of transit-supportive density.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Hawai'i State Council on Developmental Disabilities; Office of Planning and Sustainable Development; one member of the Hawai'i County Council; Hawai'i Appleseed Center for Law & Economic Justice; Catholic Charities Hawai'i; Hawai'i Children's Action Network Speaks!; The Nature Conservancy Hawai'i and Palmyra; and two individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS and Land Use Research Foundation of Hawaii. Your Committee received comments on this measure from the Department of Land and Natural Resources; Department of Taxation; Tax Foundation of Hawaii; Grassroot Institute of Hawaii; and one individual.

Your Committee finds that the State's affordable housing crisis is exacerbated by inadequate infrastructure funding and a lack of stable financing, particularly for supportive housing. Your Committee further finds that encouraging transit-oriented development will help the State achieve its climate and energy goals by promoting the creation of sustainable, walkable communities that reduce reliance on cars, lower carbon emissions, and support local businesses. By restructuring the conveyance tax to a marginal rate system and increasing rates on high-value non-owner-occupied homes, as proposed by this measure, the State will be able to generate dedicated revenue for affordable and supportive housing projects that are vital to the community.

Your Committee has amended this measure by:

- (1) Making agriculturally zoned lands with a residential dwelling unit for which the purchaser is ineligible for a county homeowner's real property tax exemption subject to the non-owner occupied conveyance tax rates; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1410, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 1410, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Iwamoto). Noes, none. Excused, 2 (Poepoe, Woodson).

SCRep. 712 Water & Land on H.B. No. 1087

The purpose of this measure is to allow the Department of Hawaiian Home Lands to review the effect of any proposed project on historic properties or burial sites for lands under its jurisdiction, except in certain cases.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and Office of Hawaiian Affairs. Your Committee received testimony in opposition to this measure from the Historic Hawai'i Foundation. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that historic preservation review is necessary to ensure the preservation of the State's historical and cultural heritage. Your Committee further finds that because of the high volume of requests and specialized knowledge needed to conduct a historic preservation review, the review process can often delay the completion of development projects. Allowing the Department of Hawaiian Home Lands to assume responsibility for conducting historical preservation reviews on lands under its jurisdiction, as proposed by this measure, will streamline the historic preservation review process and ensure the timely review of projects proposed on lands under the Department of Hawaiian Home Lands' jurisdiction.

Your Committee further finds that the island burial councils, responsible for overseeing the preservation of burial sites, are currently established within the Department of Land and Natural Resources. Your Committee believes the Office of Hawaiian Affairs would be a more appropriate agency to house and support the island burial councils.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the Department of Hawaiian Home Lands to consult with the appropriate island burial council if the proposed project impacts a burial site or if a burial site is inadvertently discovered;
- (2) Transferring the administrative placement of the island burial councils from the Department of Land and Natural Resources to the Office of Hawaiian Affairs;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1087, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1087, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Shimizu). Noes, none. Excused, 2 (Poepoe, Woodson).

SCRep. 713 Water & Land on H.B. No. 1318

The purpose of this measure is to:

- (1) Remove from the definition of "public lands" lands set aside by the Governor to the counties for the purpose of affordable housing; and
- (2) Specify that lands set aside by the Governor to the counties for affordable housing require legislative approval for the sale or gift of the lands.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Kaua'i County Housing Agency; and two individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources and Office of Hawaiian Affairs.

Your Committee finds that the State is facing an ongoing housing crisis. Your Committee further finds that although the Governor set aside cooperatively identified state-owned residential parcels to the counties for the purpose of developing affordable housing, the counties have been unable to productively develop these parcels as existing statutes require the counties to seek the Board of Land and Natural Resources' approval for many actions relating to these lands, including leases, mortgages, easements, and rights of entry. Your Committee believes that removing these lands from the definition of "public lands" will reduce procedural burdens while also ensuring that valuable state lands may be productively utilized for the development of much needed affordable housing.

Your Committee has amended this measure by requiring lands set aside by the Governor to the counties for the development of affordable housing to be managed by the counties pursuant to the same public trust fiduciary duties and obligations of the Board of Land and Natural Resources.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1318, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 1318, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 2 (Poepoe, Woodson).

SCRep. 714 Water & Land on H.B. No. 1323

The purpose of this measure is to require the Department of Agriculture, upon approval of the Board of Agriculture, rather than mutual agreement and approval of the Board of Agriculture and Board of Land and Natural Resources, to accept the transfer of and manage certain qualifying non-agricultural park lands.

Your Committee received testimony in support of this measure from the Land Use Research Foundation of Hawaii; Boteilho Hawaii Enterprises Inc.; Hawaii Aquaculture and Aquaponics Association; Hawaii Floriculture and Nursery Association; Hawaii Cattlemen's Council; Larry Jeffs Farms, LLC; Hawai'i Farm Bureau; SC Ranch Company, Inc.; Nobriga Ranch; Hawaii Forest Industry Association; Kealia Ranch; Kapāpala Ranch; and numerous individuals. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that Act 90, Session Laws of Hawaii 2003 (Act 90), required the Department of Land and Natural Resources to transfer certain non-agricultural park lands from the Department of Land and Natural Resources to the Department of Agriculture. However, the transfer of these lands has been stalled for more than two decades, resulting in uncertainty for the farmers and ranchers with long-term land leases for these lands. Your Committee further finds that Act 139, Session Laws of Hawaii 2021, established a working group to address the delay in the transfer of lands required by Act 90. A key finding

of the working group was that lands under the Department of Land and Natural Resources that are used for the primary and substantial management objective of agricultural production should be transferred to the Department of Agriculture. This measure is intended to facilitate the transfer of these lands to the Department of Agriculture to ensure lands primarily used for farming and ranching are managed by the appropriate agency.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1323, H.D. 1, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Iwamoto). Noes, none. Excused, 2 (Poepoe, Woodson).

SCRep. 715 Water & Land on H.B. No. 1409

The purpose of this measure is to:

- (1) Amend the funding priorities of the Rental Housing Revolving Fund to incentivize development in areas that satisfy transit-supportive density requirements;
- (2) Allocate a minimum percentage of the Rental Housing Revolving Fund for certain mixed-income rental housing projects;
- (3) Require the Transit-Oriented Development Infrastructure Improvement District Board to consider the infrastructure needs of transit-supportive density requirements; and
- (4) Require the strategic plan developed by the Hawaii Interagency Council for transit-oriented development to delineate county-designated transit-oriented development areas for each county.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Office of Planning and Sustainable Development; Holomua Collaborative; Hawai'i Appleseed Center for Law & Economic Justice; Hawai'i YIMBY; Oahu Metropolitan Planning Organization; Grassroot Institute of Hawaii; Housing Hawai'i's Future; and numerous individuals. Your Committee received comments on this measure from the Department of Planning and Permitting of the City and County of Honolulu.

Your Committee finds that transit-oriented development districts present a critical opportunity for efficient land use by promoting higher-density development near public transit infrastructure. Your Committee further finds that the underutilization of land in transit-oriented development districts is partially due to restrictive development standards. Your Committee believes that promoting the development of high-density developments, and particularly affordable housing, near transit hubs will ensure the economic and environmental benefits of the State's investments in county-designated transit-oriented development districts are fully utilized.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1409, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 2 (Poepoe, Woodson).

SCRep. 716 Water & Land on H.B. No. 966

The purpose of this measure is to establish statewide, uniform standards to promote agricultural tourism activities in the State by:

- (1) Creating agricultural tourism activity requirements that are applicable to all counties that have adopted an agricultural tourism ordinance;
- (2) Requiring agricultural tourism activities to be registered by the county planning department; and
- (3) Requiring agricultural tourism activities to coexist with agricultural activity on a farming operation and providing for the termination of agricultural tourism activities upon the cessation of the agricultural activity.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation; Maui Chamber of Commerce; Heavenly Hawaiian Farms; Hawaii Food+ Policy; Hawai'i Farm Bureau; Grassroot Institute of Hawaii; Mahina Farms Maui; and five individuals. Your Committee received comments on this measure from the Department of Agriculture; Office of Planning and Sustainable Development; Hawai'i Tourism Authority; Hawaii Cattlemen's Council, Inc.; and Kualoa Ranch.

Your Committee finds that the addition of agricultural tourism activities is rapidly becoming an essential part of the business model for many farms and ranches. Your Committee further finds that existing regulation for agricultural tourism activities across the State is disjointed, as each county currently has its own agricultural tourism activity permitting process, standards, procedures, and definitions. Your Committee believes that establishing uniform, statewide standards for agricultural tourism activities will allow Hawai'i's agricultural producers to tap into a critical revenue stream while still ensuring agricultural lands are used primarily for agricultural purposes.

Your Committee notes the concerns raised by the Department of Agriculture and Hawai'i Farm Bureau in their written testimony regarding the need to ensure there are no unintended consequences of the changes proposed by this measure and that there is sufficient oversight related to agricultural operations and land use. Your Committee respectfully requests your Committee on Judiciary & Hawaiian Affairs, should it deliberate on this measure, to consider whether this measure should revert back to the version as introduced.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 966, H.D. 1, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 2 (Poepoe, Woodson).

SCRep. 717 Water & Land on H.B. No. 528

The purpose of this measure is to exempt state and county lands leased after July 1, 2025, for an initial period of no less than ninety-nine years from residential leasehold and residential leasehold condominium and cooperative housing corporation requirements.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that exempting leased state and county lands with an initial lease period of at least ninety-nine years from existing residential leasehold requirements will enable the State to more effectively manage its lands.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 528, H.D. 1, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Belatti, Souza). Noes, 1 (Iwamoto). Excused, 2 (Poepoe, Woodson).

SCRep. 718 Water & Land on H.B. No. 1359

The purpose of this measure is to address flooding in residential areas by establishing a grant program to improve drainage systems, support mitigation measures, and provide resources for local communities and homeowners.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that assisting homeowners with the cost of maintaining drainageways on their private lands will reduce the likelihood of devastating flood damage to homes and communities after severe weather events.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1359, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1359, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Belatti, Shimizu, Souza). Noes, 1 (Iwamoto). Excused, 2 (Poepoe, Woodson).

SCRep. 719 Judiciary & Hawaiian Affairs on H.B. No. 1449

The purpose of this measure is to:

- (1) Authorize the Department of Agriculture to adopt rules and establish administrative penalties to enforce the Plant Care Component Program; and
- (2) Appropriate funds for the Plant Care Component Program and certain positions.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Invasive Species Council; Hawai'i Farm Bureau; and Carol Kwan Consulting LLC.

Your Committee finds that it is critically important to prevent destructive invasive species from entering the State. Your Committee further finds that Act 197, Session Laws of Hawaii 2024 (Act 197), took a critical step in the more stringent regulation of plant components. This measure adds critical support to Act 197 by authorizing penalties for violations related to the plant care components law and establishing positions.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Agriculture shall adopt, amend, and repeal rules concerning plant care components; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$471,168 for:

- (1) One full-time equivalent (1.0 FTE) permanent civil service plant quarantine inspector IV position; and
- (2) Seven full-time equivalent (7.0 FTE) permanent civil service plant quarantine inspector III positions.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1449, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 1449, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 720 Judiciary & Hawaiian Affairs on H.B. No. 498

The purpose of this measure is to:

- (1) Establish the Hawaii Agricultural Crimes Council (Council);
- (2) Require the Department of Agriculture to collaborate with and support the Council;
- (3) Establish the Agricultural Enforcement Special Fund; and
- (4) Provide dedicated funding for the Council's establishment and continued operations.

Your Committee received testimony in support of this measure from the Department of Law Enforcement; Department of Agriculture; Hawai'i Farm Bureau; and Hawaii Food+ Policy. Your Committee received comments on this measure from the Department of the Attorney General and Department of Budget and Finance.

Your Committee finds that agricultural crime is a persistent and growing problem for agricultural communities. By creating the Hawaii Agricultural Crimes Council and expanding the role of the Department of Agriculture, this measure fosters collaboration, strengthens enforcement, and enhances the safety and security of Hawaii's farmers and ranchers.

Your Committee has amended this measure by:

- (1) Exempting the appointment of the Executive Director of the Hawaii Agricultural Crimes Council from the provisions of chapter 89, Hawaii Revised Statutes, which relates to collective bargaining in public employment, rather than chapter 84, Hawaii Revised Statutes, which relates to standards of conduct;
- (2) Allowing investigators appointed and commissioned by the Council to carry firearms;
- (3) Specifying the duties and responsibilities of investigators appointed by the Council;

- (4) Requiring every state and county officer charged with the enforcement of laws and ordinances to assist in the enforcement of title 11, Hawaii Revised Statutes; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 498, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 498, H.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 721 Judiciary & Hawaiian Affairs on H.B. No. 1307

The purpose of this measure is to provide follow-up funding for the next steps in the investigation, exploration, and identification of geothermal resources on Hawaiian home lands.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Ulupono Initiative; Sustainable Energy Hawai'i; Hawaiian Electric; and four individuals. Your Committee received testimony in opposition to this measure from Malu 'Aina; Chamber of Sustainable Commerce; and numerous individuals.

Your Committee finds that Act 205, Session Laws of Hawaii 2022 (Act 205), provided start-up funding for the investigation, exploration, and identification of geothermal resources on Hawaiian home lands. This measure would continue the progress made by Act 205 by appropriating funds for geophysical data and hiring consultants to assist the Department of Hawaiian Home Lands to navigate the intricacies of geothermal development.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1307, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 1307, H.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8; Ayes with Reservations (Perruso, Shimizu). Noes, 1 (Garcia). Excused, 2 (Cochran, Hashem).

SCRep. 722 Judiciary & Hawaiian Affairs on H.B. No. 307

The purpose of this measure is to authorize the issuance of special number plates to recognize restoration and preservation efforts on Kaho'olawe Island by the Protect Kaho'olawe 'Ohana, Kaho'olawe Island Reserve Commission, and other community members.

Your Committee received testimony in support of this measure from the Kaho'olawe Island Reserve Commission; Kua'āina Ulu 'Auamo; The Spoehr Foundation; Protect Kaho'olawe 'Ohana; and numerous individuals.

Your Committee finds that this measure will recognize the importance of Kaho'olawe Island and the Island's history through special number plates. Your Committee further finds that the funds raised for the provision of these special number plates will support the continuing efforts of restoration and preservation of Kaho'olawe Island.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 307, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Garcia).

SCRep. 723 Judiciary & Hawaiian Affairs on H.B. No. 501

The purpose of this measure is to:

- (1) Establish the Agricultural Enforcement Program within the Department of Law Enforcement;
- (2) Establish the Agricultural Enforcement Special Fund; and
- (3) Appropriate funds for and establish positions within the Agricultural Enforcement Program.

Your Committee received testimony in support of this measure from the Department of Law Enforcement; Hawaii Cattlemen's Council, Inc.; Hawai'i Food+Policy; Hawai'i Farm Bureau; and Hawai'i Farmers Union United. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the establishment of the Agricultural Enforcement Program will increase protections for agricultural communities and builds upon the Department of Law Enforcement's collaboration with stakeholders in local agriculture to address agricultural crimes effectively. The proposed Agricultural Enforcement Program will be able to deploy specialized law enforcement positions across the State to prevent, investigate, and combat agricultural theft and related crimes, thereby preserving Hawaii's agricultural sector and ensuring the security of local food production infrastructure.

Your Committee has amended this measure by:

- (1) Clarifying that Agricultural Enforcement Special Fund expenditures relating to:
 - (A) Maintenance functions shall be authorized and deemed necessary by the Director of Law Enforcement, rather than the Board of Agriculture; and
 - (B) Funding for consultants or contractual hires related to certain matters shall be determined by the Director of Law Enforcement, rather than the Board of Agriculture; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 501, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 501, H.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10; Ayes with Reservations (Shimizu). Noes, none. Excused, 1 (Garcia).

SCRep. 724 Judiciary & Hawaiian Affairs on H.B. No. 560

The purpose of this measure is to appropriate funds to the Judiciary for services contracted with community-based organizations that deliver essential services, streamline judicial processes, and support the Judiciary's capacity to effectively meet the needs of vulnerable households.

Your Committee received testimony in support of this measure from the Judiciary; Hawai'i Youth Services Network; Ku'ikahi Mediation; Hawai'i Health & Harm Reduction Center; Hawai'i Children's Action Network Speaks!; Hawaii Substance Abuse Coalition; Catholic Charities Hawai'i; The Legal Clinic; Volunteer Legal Services Hawai'i; Parents and Children Together; Hawai'i True Cost Coalition; Maui Economic Opportunity, Inc.; EPIC 'Ohana; Aloha United Way; Child & Family Service; Hawai'i Youth Services Network; The Institute for Human Services, Inc.; The Mediation Center of the Pacific, Inc.; Partners In Development Foundation; Responsive Caregivers of Hawaii; Samaritan Counseling Center Hawaii; YMCA of Honolulu; Legal Aid Society of Hawai'i; Hawai'i State Coalition Against Domestic Violence; YWCA; Community Alliance on Prisons; and three individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that community-based organizations play a vital role in delivering essential services that strengthen access to justice, including legal aid, mediation, case management, and behavioral interventions. This measure will provide increased funding for the Judiciary for services contracted with community-based organizations that will assist low-income and vulnerable residents in navigating the legal process and avoiding long-term consequences that result without representation or assistance.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 560, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 560, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Belatti, Cochran, Todd).

SCRep. 725 Judiciary & Hawaiian Affairs on H.B. No. 610

The purpose of this measure is to establish and appropriate funds for a Cold Case Investigation Unit within the Department of the Attorney General to assist federal, state, county, and tribal law enforcement, and other cold case units, in investigating unsolved homicide, missing person, and other cases that have a nexus to the State.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Office of Hawaiian Affairs; and one individual.

Your Committee finds that the State has hundreds of unsolved murders, including some cases more than forty years old. According to the nonprofit organization Project: Cold Case, the State reported 2,182 homicides between 1965 and 2023, and 728 of those cases remain unsolved. Your Committee further finds that, while each county in Hawaii has a cold case unit, additional resources and personnel may be needed to assist with the investigation of decades-old crimes. Coordination of efforts and sharing of information among federal, state, county, tribal, and other agencies is also valuable in resolving unsolved cases. Your Committee believes that the establishment of a Cold Case Investigation Unit will provide the necessary resources, personnel, and coordination between agencies to help bring closure to many of the State's unsolved crimes.

Your Committee has amended this measure by:

- (1) Deleting language which would have:
 - (A) Required the Cold Case Investigation Unit to prioritize unsolved cases involving an Indigenous victim; and
 - (B) Prohibited the Cold Case Investigation Unit from assisting with an active criminal investigation;
- (2) Adding a definition of "cold case";
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 610, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 610, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Garcia). Noes, none. Excused, 2 (Belatti, Cochran).

SCRep. 726 Judiciary & Hawaiian Affairs on H.B. No. 438

The purpose of this measure is to establish the Due Process in Immigration Proceedings Program within the Judiciary to provide legal representation to individuals in immigration-related proceedings in immigration court.

Your Committee received testimony in support of this measure from one member of the Hawai'i County Council; Oahu Filipino Community Council; League of Women Voters of Hawaii; Hawai'i Friends of Civil Rights; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; ACLU of Hawai'i; The Legal Clinic; William S. Richardson School of Law Refugee & Immigration Law Clinic Advisory Committee; Imua Alliance; Democratic Party of Hawai'i Education Caucus; UNITE HERE Local 5; Hawaii State AFL-CIO; and numerous individuals. Your Committee received testimony in opposition to this measure from Free Citizens of Maunaloa; Hawaiian Islands Republican Women; and numerous individuals. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that many individuals in the State may be facing deportation or other immigration-related proceedings in the coming years in a complex and costly process. Often, these individuals do not have the resources, legal training, or language skills to properly respond in these proceedings. Your Committee further finds that the establishment of a Due Process in Immigration Proceedings program will provide immigrants who are residents of the State with the needed support to navigate the complex legal issues in immigration-related proceedings.

Your Committee has amended this measure by:

- (1) Clarifying that entities contracted to implement the Due Process in Immigration Proceedings Program shall partner with entities capable of training and educating law students and legal practitioners, in addition to the University of Hawaii at Manoa William S. Richardson School of Law, to provide legal representation to individuals in immigration-related proceedings;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and

(3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 438, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 438, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Shimizu). Noes, 1 (Garcia). Excused, 2 (Belatti, Cochran).

SCRep. 727 Judiciary & Hawaiian Affairs on H.B. No. 1247

The purpose of this measure is to provide immediate judicial review of orders fixing minimum terms of imprisonment.

Your Committee received testimony in support of this measure from the Office of the Public Defender. Your Committee received testimony in opposition to this measure from the Judiciary and Department of the Prosecuting Attorney of the City and County of Honolulu. Your Committee received comments on this measure from the Hawaii Paroling Authority.

Your Committee finds that the Judiciary raised several concerns regarding the provisions of the measure, as it amounted to an automatic review of all Hawaii Paroling Authority minimum term decisions. The Judiciary provided an alternative suggestion to alleviate its concerns and ensure the overall purpose of this measure, which is to confer the right to counsel for a judicial review of the minimum term proceedings.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have required a sentencing court to maintain records of criminal proceedings that lead to incarceration for ninety days after the issuance of a decision;
- (2) Deleting language that would have provided for the immediate judicial review of orders fixing minimum terms of imprisonment and instead inserting language that:
 - (A) Requires prisoners to continue to be represented by counsel in any petition challenging minimum term proceedings;
 - (B) Requires the Supreme Court to establish rules regarding the form and content of the petition challenging minimum term proceedings, the parties, and hearings on the motion, and the referral to the public defender where necessary; and
 - (C) Establishes grounds for challenging a minimum term order;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that the Judiciary has requested an effective date of June 30, 2026, to permit the Judiciary time to promulgate rules to effectuate the provisions of this measure.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1247, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1247, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Shimizu). Noes, 1 (Garcia). Excused, 3 (Belatti, Cochran, Todd).

SCRep. 728 Judiciary & Hawaiian Affairs on H.B. No. 1088

The purpose of this measure is to exempt housing developed by the Department of Hawaiian Home Lands from school impact fees.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and School Facilities Authority. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Department of Education and Tax Foundation of Hawaii.

Your Committee finds that this measure will allow more affordable housing for native Hawaiian beneficiaries to be developed by the Department of Hawaiian Home Lands without facing additional fees that come from school impact fees.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1088, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Shimizu). Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 729 Judiciary & Hawaiian Affairs on H.B. No. 1086

The purpose of this measure is to exempt any development of homestead lots or housing for the Department of Hawaiian Home Lands from general excise and use taxes.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that existing law allows affordable housing projects undertaken by the counties and the Hawaii Housing Finance and Development Corporation to be exempt from the general excise and use taxes. However, there is no similar exemption for housing built by the Department of Hawaiian Home Lands. This measure establishes an exemption from the general excise and use taxes for development of homestead lots by the Department of Hawaiian Home Lands.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1086, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 730 Judiciary & Hawaiian Affairs on H.B. No. 393

The purpose of this measure is to appropriate funds as a grant-in-aid to the Department of the Prosecuting Attorney of the City and County of Honolulu for the Career Criminal Prosecution Unit.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu and one individual.

Your Committee finds that the Career Criminal Prosecution Unit was created because a disproportionate amount of serious crimes are committed against the public by a relatively small number of individuals who are multiple and repeat felony offenders. This measure will help support the prosecution of these career criminals.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$747,267 for fiscal year 2025-2026.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 393, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 393, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Belatti, Cochran).

SCRep. 731 Judiciary & Hawaiian Affairs on H.B. No. 1408

The purpose of this measure is to allow the Department of Hawaiian Home Lands to utilize the Dwelling Unit Revolving Fund as collateral when the Department acts as an eligible borrower for a loan agreement under section 184A of the federal Housing and Community Development Act of 1992, as amended.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and Hawaii Housing Finance and Development Corporation.

Your Committee finds that Congress established the Section 184A Native Hawaiian Housing Loan Guarantee Program in 2000 in order to provide access to sources of private financing on Hawaiian home lands. Under that program, the Department of Hawaiian Home Lands is an eligible borrower and can use these funds to develop rental housing or to build single-family homes. Once the housing is developed, the native Hawaiian who is eligible to purchase the home can either assume the Section 184A loan or secure other financing to purchase the home.

Your Committee further finds, however, that the Hawaiian Homes Commission Act of 1920, limits what can be utilized as collateral to secure loans made by government agencies or private lending institutions to the Department. This measure authorizes the use of the Dwelling Unit Revolving Fund to allow the Department to secure private funding to develop rental housing or build single-family homes.

Your Committee notes that the Department of Hawaiian Home Lands should provide your Committee on Finance with a legal opinion on if the phrase "notwithstanding the Hawaiian Homes Commission Act of 1920, as amended", should be retained in this measure.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1408, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 732 Judiciary & Hawaiian Affairs on H.B. No. 606

The purpose of this measure is to:

- (1) Extend the sunset date of the Act 279 Special Fund to June 30, 2028;
- (2) Deposit funds into the Act 279 Special Fund and appropriate funds out of the Special Fund for the Department of Hawaiian Home Lands to address its waitlist; and
- (3) Require the Department of Hawaiian Home Lands to submit a strategic plan to the Legislature detailing the anticipated uses of the funds.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Malu 'Aina; Council for Native Hawaiian Advancement; Kupa'a Lāhui Alliance; and numerous individuals.

Your Committee finds that Act 279, Session Laws of Hawaii 2022 (Act 279), appropriated \$600,000,000 to the Department of Hawaiian Home Lands to provide a multi-pronged approach to reducing its applicant waitlist. Your Committee further finds that Act 125, Session Laws of Hawaii 2024 (Act 125), moved the unexpended and unencumbered funds to a special fund so that the Department of Hawaiian Home Lands could continue the progress made by Act 279. Act 125 is set to sunset on June 30, 2026. This measure extends the sunset date of the Act 279 Special Fund to allow for the Department to take full use of the monies appropriated by Act 279.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an effective date of January 1, 2026.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 606, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 733 Judiciary & Hawaiian Affairs on H.B. No. 175

The purpose of this measure is to:

- (1) Require owners or lessees of real property to maintain their property and establish penalties for failure to do so;

- (2) Require the Department of Agriculture to establish rules for the enforcement and collection of fines for violations relating to the proliferation of invasive species; and
- (3) Require the Office of the State Fire Marshal to adopt rules for the enforcement and collection of fines for violations relating to the prevention of wildfires and other public safety hazards.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Lāhainā Strong; Maui Chamber of Commerce; and numerous individuals. Your Committee received comments on this measure from the Building Owners and Managers Association – Hawai‘i and one individual.

Your Committee finds that approximately one-quarter of land in the State is covered in flammable invasive grasses and shrubs, which puts the State at higher risk of wildfire than sixteen western states. Your Committee further finds that approximately 94.4 percent of residences in the State are vulnerable to wildfires because their communities are within or adjacent to invasive or flammable grasses. This measure addresses these concerns by requiring land owners to maintain their property or be subject to penalties.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 175, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 734 Judiciary & Hawaiian Affairs on H.B. No. 394

The purpose of this measure is to appropriate funds as a grant-in-aid to the Department of the Prosecuting Attorney of the City and County of Honolulu for the Victim Witness Assistance Program.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that the funding provided by this measure will help guide victims, witnesses, and surviving family members through the criminal justice system.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$736,785 for fiscal year 2025-2026.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 394, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 394, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Belatti, Cochran).

SCRep. 735 Judiciary & Hawaiian Affairs on H.B. No. 806

The purpose of this measure is to appropriate funds for the Department of Law Enforcement to conduct sting operations on Oahu to enforce fireworks ordinances or laws.

Your Committee received testimony in support of this measure from the Department of Law Enforcement; Honolulu Police Department; Kuli‘ou‘ou-Kalani Iki Neighborhood Board; Pearl City Neighborhood Board No. 21; and five individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that targeted sting operations on Oahu will enhance the Department of Law Enforcement's ability to enforce fireworks laws and further protect local communities. However, the sting operations are resource-intensive and require specialized personnel, equipment, and coordinated efforts. Your Committee believes that providing funds to conduct sting operations will support the Department of Law Enforcement's enforcement capabilities and serve as a deterrent to individuals who violate fireworks laws.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 806, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Belatti, Cochran).

SCRep. 736 Judiciary & Hawaiian Affairs on H.B. No. 329

The purpose of this measure is to:

- (1) Clarify that the School Facilities Authority is responsible for certain development, planning, and construction projects for prekindergarten, preschool, and child care facilities, as well as workforce housing;
- (2) Authorize the School Facilities Authority to develop workforce housing for teachers on land not owned by the Department of Education;
- (3) Allow the School Facilities Authority to use the Department of Education for certain recruitment and hiring responsibilities; and
- (4) Allow the School Facilities Authority to partner with public and private development agencies to develop prekindergarten facilities.

Your Committee received testimony in support of this measure from the School Facilities Authority and Hawai‘i Children's Action Network Speaks!. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance; Department of Education; Department of the Attorney General; Office of Information Practice; and Department of Community Services of the City and County of Honolulu.

Your Committee finds that the statutory authority delegated to the School Facilities Authority could be carried out with greater efficiency if amendments were made. This measure clarifies the responsibilities of the School Facilities Authority to better carry out its statutory duties and responsibilities.

Your Committee has amended this measure by:

- (1) Deleting language that would have specified certain responsibilities of the School Facilities Authority under chapter 302L, Hawaii Revised Statutes;
- (2) Clarifying that the School Facilities Authority is responsible for projects related to:
 - (A) Certain facilities for prekindergarten, preschool, child care, and early learning programs;
 - (B) Workforce housing; and
 - (C) Any public school development, planning, and construction assigned by the Legislature, Governor, or Board of Education; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 329, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 329, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 737 Judiciary & Hawaiian Affairs on H.B. No. 1433

The purpose of this measure is to:

- (1) For a one-year pilot period beginning on February 5, 2026:
 - (A) Extend the period for a notice of termination of a rental agreement;
 - (B) Require landlords to engage in mediation and delay filing an action for summary possession if a tenant schedules or attempts to schedule mediation; and
 - (C) Requires landlords to provide specific information in the ten calendar-day notice to tenants; and
- (2) Appropriate funds for the Judiciary to contract for mediation services.

Your Committee received testimony in support of this measure from the Judiciary; Mediation Center of the Pacific; Ku'ikahi Mediation; Kauai Economic Opportunity Incorporated; Legal Aid Society of Hawai'i; and numerous individuals. Your Committee received comments on this measure from the Hawai'i Association of REALTORS.

Your Committee finds that many people in the State continue to face challenges paying their rent due to the ever-increasing costs of housing. In an effort to reduce evictions and facilitate mediation, the Legislature enacted Act 57, Session Laws of Hawaii 2021 (Act 57), which modified notice requirements for residential summary possession proceedings, mandated pre-filing mediation, and made funding available for pre-filing mediation services and rent relief through subsidies. Your Committee believes that Act 57 was successful in avoiding evictions, thereby keeping people in homes and ensuring landlords received their rent payments. Despite its success, Act 57 ended on August 6, 2022. Your Committee believes the success of Act 57 merits the continuation of a similar eviction mediation program.

Your Committee has amended this measure by:

- (1) Changing the number of days required for a landlord to file an action for summary possession from twenty to thirty days following the tenant's receipt of the ten-day-calendar notice; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1433, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 1433, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Garcia). Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 738 Judiciary & Hawaiian Affairs on H.B. No. 616

The purpose of this measure is to provide increased protection for educational workers by requiring the Department of Education and state public charter schools to take certain steps to better address the harassment of educational workers.

Your Committee received testimony in support of this measure from the United Public Workers, AFSCME Local 646, AFL-CIO; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and nine individuals. Your Committee received comments on this measure from the Department of the Attorney General and Department of Education.

Your Committee finds that the many instances of harassment inflicted on educational workers warrants the establishment of procedures to safeguard the health and safety of educational workers. Your Committee also finds that safe schools are fundamental to creating and fostering an optimal learning and working environment. School safety is linked to improved student performance and school outcomes. This measure recognizes the necessity of safeguarding educational workers to enable optimal delivery of educational services to students and families and maintaining a safe learning and working environment.

Your Committee has amended this measure by:

- (1) Clarifying that educational workers included in bargaining units must negotiate leaves of absence pursuant to certain negotiation processes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 616, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 616, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 739 Judiciary & Hawaiian Affairs on H.B. No. 427

The purpose of this measure is to:

- (1) Rename the Department of Agriculture to the "Department of Agriculture and Biosecurity";
- (2) Rename the Board of Agriculture to the "Board of Agriculture and Biosecurity";
- (3) Establish and appropriate funds for a Deputy Director of Biosecurity;
- (4) Change references to the plant and animal declaration form to the "biosecurity form";
- (5) Authorize and specify conditions under which the Department of Agriculture and Biosecurity may declare a biosecurity emergency, during which the Department and Governor may take certain actions to prevent the establishment or spread of pests and prohibited or restricted organisms;
- (6) Broaden the objectives and general actions of the Biosecurity Program; and
- (7) Appropriate funds for positions for the Department of Agriculture and Biosecurity.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Invasive Species Council; one member of the Kaua'i County Council; Hawaii Food+ Policy; Hawai'i Farm Bureau; and Larry Jeffs Farms, LLC. Your Committee received testimony in opposition to this measure from Carol Kwan Consulting LLC. Your Committee received comments on this measure from the Department of Land and Natural Resources; Coordinating Group on Alien Pest Species; O'ahu Invasive Species Committee; and Matson Navigation Company, Inc.

Your Committee finds that Acts 197 and 231, Session Laws of Hawaii 2024, bolstered agriculture biosecurity in the State under the jurisdiction of the Department of Agriculture. Your Committee further finds that given the Department of Agriculture's growing presence in protecting the State from invasive species, that it is appropriate for the name of the Department change to reflect its growing priorities. This measure, among other things, renames the Department and Board of Agriculture to the Department of Agriculture and Biosecurity and Board of Agriculture and Biosecurity, respectively.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 427, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 427, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Garcia). Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 740 Judiciary & Hawaiian Affairs on H.B. No. 745

The purpose of this measure is to:

- (1) Beginning on the date the International Code Council 2024 suite of published codes is adopted as the Hawaii State Building Code, makes the most recent Hawaii state building codes adopted by the State Building Code Council supersede all existing county building codes and thereafter allows counties to amend the Hawaii State Building Code as it applies within their jurisdiction; and
- (2) Repeals the counties' authority to adopt, amend, and update the Hawaii state building codes for their respective county building codes.

Your Committee received testimony in support of this measure from the Hawaii Fire Department; Grassroot Institute of Hawaii; Hawai'i YIMBY; Hawaii State Council and Legislative Advocacy Committee of the American Institute of Architects; and one individual. Your Committee received testimony in opposition to this measure from the International Brotherhood of Electrical Workers Local Union 1260 and Plumbing & Mechanical Contractors Association of Hawaii. Your Committee received comments on this measure from the Department of Accounting and General Services; Department of Public Works of the County of Hawai'i; and Department of Planning and Permitting of the City and County of Honolulu.

Your Committee finds that under the existing staggered system, counties must adopt and amend building codes independently, creating inconsistencies, administrative delays, and higher costs for builders and emergency responders. These inefficiencies can lead to permitting backlogs, increased construction costs, and a lack of uniform safety standards. This measure streamlines the code adoption process, which should eliminate inefficiencies.

Your Committee notes that the written testimony of the Department of Accounting and General Services was submitted at the hearing. As such, your Committee was not able to give it proper consideration prior to decision making. Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider the late testimony submitted by the Department of Accounting and General Services.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 745, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Belatti, Perruso, Takayama, Garcia, Shimizu). Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 741 Judiciary & Hawaiian Affairs on H.B. No. 108

The purpose of this measure is to allow the direct shipment of beer and distilled spirits by certain liquor licensees.

Your Committee received testimony in support of this measure from one member of the Kaua'i County Council; Lanikai Brewing Co.; Maui Brewing Co.; Koloa Rum; Brewers Association; Howzit Brewing; Kauai Beer Company; Beer Lab Hawaii; and Ola Brew Co. Your Committee received testimony in opposition to this measure from Hawaii Liquor Wholesalers Association and Hawaii Food Industry Association. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that existing state law limits direct shipping of alcoholic beverages to wineries, prohibiting non-winery manufacturers from shipping beer and distilled spirits to consumers. Your Committee further finds that allowing direct business-to-consumer shipping will support local breweries and distilleries, facilitate commerce and generate revenue within the State, and expand market access to Hawaii products outside the State.

Your Committee has amended this measure by:

- (1) Amending the procedure for obtaining a direct beer or distilled spirits shipper permit; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 108, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 108, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 742 Judiciary & Hawaiian Affairs on H.B. No. 306

The purpose of this measure is to:

- (1) Ensure that all violators of the State Water Code are held accountable for their violations by adding a minimum penalty and amending the maximum penalty, with scheduled incremental increases, per violation of the State Water Code and clarifying what constitutes a separate offense; and
- (2) Require the Commission on Water Resource Management to consider certain factors when imposing penalties.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawai'i Alliance for Progressive Action; Ulupono Initiative; Kauai Climate Action Coalition; and numerous individuals. Your Committee received comments on this measure from the Land Use Research Foundation of Hawaii.

Your Committee finds that this measure will better enable the Department of Land and Natural Resources and Commission on Water Resource Management to protect the precious water resources of Hawaii by amending and clarifying the penalty structure for violators of the State Water Code.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider requiring the fine to be no less than \$50 and no more than \$25,000 per violation, with the maximum fine increasing to:

- (1) \$30,000 beginning January 1, 2030;
- (2) \$40,000 beginning January 1, 2035;
- (3) \$55,000 beginning January 1, 2040; and
- (4) \$75,000 beginning January 1, 2045.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 306, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 306, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 743 Judiciary & Hawaiian Affairs on H.B. No. 642

The purpose of this measure is to require all state agencies proposing, adopting, amending, or repealing a rule to make the full text of the rules of the agency available on the website of the Office of the Lieutenant Governor in a digitally accessible and searchable format.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii; Grassroot Institute of Hawaii; Public First Law Center; ACLU Hawaii; and two individuals. Your Committee received comments on this measure from the Office of the Lieutenant Governor.

Your Committee finds that this measure will promote transparency and make it easier for the public to access government rules and participate in the rulemaking process.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee notes that the Office of the Lieutenant Governor has requested that the effective date be changed to January 1, 2026, to allow state agencies the opportunity to coordinate with the Office of the Lieutenant Governor.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 642, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 642, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 744 Judiciary & Hawaiian Affairs on H.B. No. 686

The purpose of this measure is to:

- (1) Define "community outreach board" to mean a board established to serve in a community advisory capacity under a county commission or a county department;
- (2) Include community outreach boards in existing provisions of the Sunshine Law that relate to neighborhood boards; and
- (3) Authorize neighborhood board and community outreach board members to organize meetings or presentations related to official board business statewide.

Your Committee received testimony in support of this measure from the Kona Community Development Plan Action Committee; South Kohala Community Development Plan Action Committee; Ka'u Community Development Plan Action Committee; and five individuals. Your Committee received comments on this measure from the Office of Information Practices and Public First Law Center.

Your Committee finds that boards created for community outreach, like the Hawaii County Community Development Plan Action Committees, act as intermediaries between residents and government leaders to address local concerns, share information, and collaborate on solutions. However, these boards are not specific to one neighborhood, making it unclear whether they qualify as "neighborhood boards" under the special provisions of Hawaii's Sunshine Law. Ensuring open access to these community outreach boards is crucial for fostering thriving communities across the State.

Your Committee has amended this measure by:

- (1) Amending the preamble;
- (2) Amending the definition of "community outreach board" to delete any reference to county commissions;
- (3) Deleting language that would have allowed neighborhood boards and community outreach boards to organize meetings or presentations related to official board business statewide;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and

(5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 686, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 686, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 745 Judiciary & Hawaiian Affairs on H.B. No. 1150

The purpose of this measure is to suspend the statute of limitations on certain collection activities during the period an assessment is pending on appeal before the Taxation Board of Review or Tax Appeal Court.

Your Committee received testimony in support of this measure from the Department of Taxation. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this measure ensures that the State has the opportunity to collect taxes once the appeal process is concluded, regardless of the duration of the appeal. Without this suspension, taxpayers could potentially delay or avoid tax payments by prolonging the appeal process, which could harm the State's revenue system and disrupt the fairness of tax enforcement. This measure helps maintain the integrity of tax collections while protecting the taxpayer's right to a fair review process.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1150, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1150, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 746 Judiciary & Hawaiian Affairs on H.B. No. 322

The purpose of this measure is to:

- (1) Authorize state agencies to implement automatic voter registration if designated by the Office of Elections; and
- (2) Require eligible applicants for instruction permits, provisional licenses, driver's licenses, and identification cards to be automatically registered or preregistered to vote unless the applicants opt out.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities; League of Women Voters of Hawaii; Democratic Party of Hawai'i Education Caucus; Common Cause Hawaii; Our Hawai'i; Hawai'i Alliance for Progressive Action; Greenpeace Hawaii; Kauai Women's Caucus; and numerous individuals. Your Committee received testimony in opposition to this measure from numerous individuals. Your Committee received comments on this measure from the Office of Elections; Department of Human Services; Department of Customer Services of the City and County of Honolulu; and Call2Recycle, Inc.

Your Committee finds that voter registration should be convenient, secure, and beneficial to both new voters and administrators. This measure will improve election system efficiency and security, while making it easier for eligible applicants to register to vote.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 322, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 1 (Garcia). Excused, 1 (Cochran).

SCRep. 747 Judiciary & Hawaiian Affairs on H.B. No. 380

The purpose of this measure is to repeal existing laws that:

- (1) Declare the sale of cigarettes, tobacco products, and electronic smoking devices a statewide concern; and
- (2) Preempt all local ordinances and regulations that regulate the sale of cigarettes, tobacco products, and electronic smoking devices.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of Health; two members of the Kaua'i County Council; one member of the Hawai'i County Council; Hawai'i State Association of Counties; Hawaii COPD Coalition; Hawai'i Primary Care Association; Hawaii Substance Abuse Coalition; Hawai'i Public Health Association; American Cancer Society Cancer Action Network; Friends of Kamalani & Lydgate Park; Lokahi Treatment Centers; Mala Hanai Pua LLC; Coalition for a Tobacco-Free Hawai'i; Hawaii Association of Independent Schools; Hamakua Health Center Inc.; Tobacco-Free Kids Action Fund; Hawaii Dental Association; Hawai'i Public Health Institute; AlohaCare; Hawai'i Health & Harm Reduction Center; and numerous individuals. Your Committee received testimony in opposition to this measure from Retail Merchants of Hawaii; BMA Mart; Discount Smoke Shop Hawaii; Bionic Petroleum; No. 1 Store; China Town Liquor; Wawa Market; R&K Liquor; Marukin Market; Cigarettes & Things; Hawaii Smokers Alliance; Cigar Association of America, Inc.; Americans for Tax Reform; S&K Wholesale; Kilani Market; and six individuals. Your Committee received comments on this measure from Tax Foundation and ABC Stores.

Your Committee finds that innovative, community-based solutions are needed to address tobacco-related disparities across the State. Your Committee further finds that Hawaii's local communities have been historically successful in adopting strong, innovative public health and tobacco control policies that changed social norms across the State.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 380, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Garcia). Noes, none. Excused, 1 (Cochran).

SCRep. 748 Judiciary & Hawaiian Affairs on H.B. No. 594

The purpose of this measure is to:

- (1) Require hotelkeepers to provide adequate notice of service disruptions to guests and third-party vendors under certain conditions; and
- (2) Allow for recovery of damages by injured consumers.

Your Committee received testimony in support of this measure from the Hawaii State AFL-CIO and UNITE HERE Local 5. Your Committee received testimony in opposition to this measure from the Kohala Coast Resort Association.

Your Committee finds travelers staying in hotels are often vulnerable to service disruptions that they may not be aware of at the time of booking. To protect travelers and maintain the vitality of the tourism sector, your Committee believes that it is essential for hotels to notify guests of potential disruptions and allow them to cancel reservations without penalty.

Your Committee has amended this measure by:

- (1) Amending the circumstances under which a guest may terminate any remaining period of a reservation, booking, or agreement for the use of a room or hotel service without being assessed a fee, penalty, or other charge or forfeiting certain deposits;
- (2) Amending the amount of damages that a hotelkeeper must pay to an injured consumer;
- (3) Deleting language that would have established a private right of action by an injured consumer;
- (4) Clarifying that the term "guest" includes hotel service users; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 594, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Consumer Protection & Commerce in the form attached hereto as H.B. No. 594, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Shimizu). Noes, none. Excused, 1 (Cochran).

SCRep. 749 Judiciary & Hawaiian Affairs on H.B. No. 655

The purpose of this measure is to limit the required payment of certain unpaid motor vehicle taxes and fees and accompanying financial penalties to those incurred during the most recent five consecutive years of delinquency.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Department of Transportation. Your Committee received comments on this measure from Tax Foundation of Hawaii.

Your Committee finds that establishing limitations on the payment of unpaid motor vehicle taxes, fees, and penalties will reduce the financial burden on residents with long-term delinquent vehicle taxes. This measure will also alleviate the administrative burden on government agencies attempting to collect old debts.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 655, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 1 (Shimizu). Excused, 1 (Cochran).

SCRep. 750 Judiciary & Hawaiian Affairs on H.B. No. 697

The purpose of this measure is to:

- (1) Allow authorized employees of the Department of Transportation and Department of Law Enforcement to inspect and provide a certificate of certain evidence for speed limit violations obtained by automated speed enforcement systems; and
- (2) Appropriate funds to the Department of Transportation to establish and implement the Automated Speed Enforcement Systems Program.

Your Committee received testimony in support of this measure from the Department of Transportation and Oahu Metropolitan Planning Organization. Your Committee received testimony in opposition to this measure from three individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the Department of Transportation is actively working to expand the Automated Speed Enforcement Systems Program. This measure will support the expansion of the Program, enable more effective enforcement and implementation, and alleviate potential staffing challenges within county police departments, which are currently the only authorized entity responsible for inspecting and certifying speed limit violations obtained through the Program.

Your Committee has amended this measure by:

- (1) Allowing authorized employees of the Department of Transportation and Department of Law Enforcement to review and verify the validity of the clear and unobstructed photographic, digital, or other visual image of the license plate of the motor vehicle before mailing the summons or citation for a traffic infraction; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 697, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 697, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 1 (Garcia). Excused, 1 (Cochran).

SCRep. 751 Education/Economic Development & Technology on H.B. No. 714

The purpose of this measure is to appropriate funds to support educational programs that expand the State's health care workforce.

Your Committees received testimony in support of this measure from the Department of Education; Department of Business, Economic Development, and Tourism; Office of Hawaiian Affairs; Hawaii Health Systems Corporation; State Council on Developmental Disabilities; Hawai'i State Center for Nursing; The Queen's Health Systems; Hawai'i Pacific Health; Hilo Benioff Medical Center; Healthcare Association of Hawaii; Hawaii Substance Abuse Coalition; Liberty Dialysis Hawaii; Hawaii Medical Association; Hawai'i Primary Care Association; AlohaCare; and one individual. Your Committees received testimony in support of the intent of this measure from the University of Hawai'i System.

Your Committees find that the needs of the rapidly aging population in the State are contributing to increased demand for workers throughout the health care field. Your Committees further find that public high school health care workforce certificate programs are designed to provide students with the training and skills necessary to enter health care positions immediately after graduation. This measure supports health care training, especially for the State's public high school students, to help meet Hawaii's long-term health care workforce needs.

As affirmed by the records of votes of the members of your Committees on Education and Economic Development & Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 714, H.D. 1, and recommend that it be referred to your Committee on Finance.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 11. Noes, none. Excused, none.

Economic Development & Technology: Ayes, 6. Noes, none. Excused, 1 (Matsumoto).

SCRep. 752 Education on H.B. No. 864

The purpose of this measure is to allow newly graduated former students to be eligible for the State's workers' compensation coverage during the summer following their high school graduation while participating in work-based learning programs sponsored by the Department of Education.

Your Committee received testimony in support of this measure from the Department of Education; Maui Chamber of Commerce; Lou's Quality Home Health Care Services, LLC; Advanced Care Training, LLC; and two individuals.

Your Committee finds that, to support new high school graduates as they transition to their post-secondary plans, the Department of Education offers work-based learning opportunities, including industry-led summer training and internships, as an extension of the Department's Career and Technical Education program of study. However, without workers' compensation coverage for new high school graduates, employers and organizations may be hesitant to host young adults as interns. Your Committee believes that extending workers' compensation coverage for new high school graduates participating in Department-approved paid or unpaid work-based learning experiences in the public or private sector will prepare these graduates for the current and emerging workforce in the State.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 864, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Muraoka).

SCRep. 753 Education on H.B. No. 1066

The purpose of this measure is to:

- (1) Add the Head Start State Collaboration Office Director as an ex officio, non-voting member of the Early Learning Board; and
- (2) Require the Early Learning Board to invite the President of the Head Start Association of Hawaii, or the President's designee, to serve as an ex officio, non-voting member of the Board.

Your Committee received testimony in support of this measure from the Early Learning Board and Executive Office on Early Learning.

Your Committee finds that the federal Head Start Act directs the governor of an applicable state to designate or establish a council to serve as the State Advisory Council on Early Childhood Education and Care pursuant to section 642B of the Head Start Act. Members of the State Advisory Council on Early Childhood Education and Care include the State Director of the Head Start Collaboration Office and a representative from the Head Start agencies located in the State.

Your Committee further finds that the State Advisory Council in Hawaii is the Early Learning Board. This measure will align state law with the federal Head Start Act by requiring the Early Learning Board to invite the President of the Head Start Association of Hawaii or the President's designee as an ex officio, non-voting member of the Board.

Your Committee has amended this measure by changing the effective date to July 1, 3000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1066, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1066, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Muraoka).

SCRep. 754 Education on H.B. No. 89

The purpose of this measure is to establish and appropriate funds for the Teacher Housing Assistance Program to provide housing vouchers to certain eligible teachers who are employed at a hard-to-fill school.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; one member of the Kaua'i County Council; Hawai'i State Teachers Association; and numerous individuals. Your Committee received comments on this measure from the Department of the Attorney General; Department of Education; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the State is experiencing a severe shortage of qualified teachers. Your Committee further finds that high cost of living and lack of affordable housing are major contributing factors to the teacher shortage. Your Committee believes that providing housing vouchers to qualifying teachers will alleviate the financial burden on teachers in obtaining housing.

Your Committee has amended this measure by:

- (1) Establishing procedures for the repayment of voucher funds by a teacher if the teacher is unable to fulfill the requirements of the Teacher Housing Assistance Program;

- (2) Clarifying the eligibility requirements for participation in the Teacher Housing Assistance Program to:
 - (A) Include teachers who have taught at a public charter school for at least one year prior to applying for the Program; and
 - (B) Require teachers to commit to teach at a hard-to-staff school, rather than a hard-to-fill school, as determined by the Department of Education; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 89, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 89, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Muraoka).

SCRep. 755 Education on H.B. No. 1437

The purpose of this measure is to establish a general excise tax exemption on the gross proceeds or gross income received from sales of commodities or services that benefit nonprofit schools.

Your Committee received testimony in support of this measure from the Hawaii Association of Independent Schools; Le Jardin Academy; Kauai Christian Academy; Sacred Hearts Academy; Cavalry Chapel Christian School; Hongwanji Mission School; Montessori Community School; Hawaii Baptist Academy; Hanalani Schools; Holy Nativity School; Waimea Country School; 'Iolani School; and two individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that establishing a general excise tax exemption on the gross proceeds or gross income received from sales of commodities or services that benefit nonprofit schools will ensure that more resources remain within the educational community, ultimately benefiting students, teachers, and programs that enrich learning. Your Committee further finds that alleviating financial burdens associated with fundraising efforts will support nonprofit schools continue their missions of preparing future generations for success.

Your Committee has amended this measure by:

- (1) Clarifying that the nonprofit school be registered with the Department of Taxation;
- (2) Clarifying that the school-sponsored student activity group be a nonprofit school-sponsored activity group; and
- (3) Changing the effective date to January 1, 3000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1437, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1437, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Muraoka).

SCRep. 756 Education on H.B. No. 1065

The purpose of this measure is to require stipend funds repaid by a stipend recipient under the Hawaii Early Childhood Educator Stipend Program to be deposited into the Early Learning Special Fund.

Your Committee received testimony in support of this measure from the Early Learning Board and Executive Office on Early Learning.

Your Committee finds that Act 210, Session Laws of Hawaii 2021, mandated the abolishment and repeal of the Early Childhood Educator Special Fund. This measure will redirect the funds that would have been deposited into the Early Childhood Educator Special Fund into the Early Learning Special Fund.

Your Committee has amended this measure by changing the effective date to July 1, 3000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1065, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1065, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Muraoka).

SCRep. 757 Education on H.B. No. 1234

The purpose of this measure is to:

- (1) Require the Department of Education to establish a standards-based Water Safety Education Pilot Program; and
- (2) Appropriate funds for the establishment of the standards-based Water Safety Education Pilot Program.

Your Committee received testimony in support of this measure from the Department of Parks and Recreation of the County of Hawai'i; Waikiki Neighborhood Board; Keiki Injury Prevention Coalition; Hawaiian Lifeguard Association; Hawaii Water Safety Coalition; Outrigger Duke Kahanamoku Foundation; Alex & Duke De Rego Foundation; and nine individuals. Your Committee received testimony in support of the intent of this measure from the Department of Education.

Your Committee finds that drowning is the leading cause of death for children aged one to fifteen in Hawaii and disproportionately affects the cause of death for individuals under the age of twenty-five. This preventable tragedy represents a significant public health concern and underscores the urgent need for action to address water safety in the State.

Your Committee further finds that evidence-based approaches demonstrate that drowning is preventable. This measure establishes a standards-based Water Safety Education Pilot Program within the Department of Education as a first step to expanding access to swimming lessons and water safety education that will protect Hawaii's youth and reduce drowning incidents statewide.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1234, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1234, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Muraoka).

SCRep. 758 Education on H.B. No. 133

The purpose of this measure is to appropriate funds to the Department of Education to support the establishment of surfing as an interscholastic sport.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Kaua'i; one member of the Kaua'i County Council; Outrigger Duke Kahanamoku Foundation; Hawaii Water Safety Coalition; Hawaiian Lifeguard Association; and numerous individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that, in recognition of surfing as a part of the State's history and its long-standing cultural roots in Hawaii, surfing was sanctioned by the Department of Education and approved by the Board of Education as a high school sport in 2016. However, only one of five local athletic leagues have sponsored surfing. This measure appropriates funds to support surfing as an interscholastic sport to provide opportunities for students to pursue competitive surfing in the future.

Your Committee has amended this measure by changing the effective date to July 1, 3000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 133, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 133, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Muraoka).

SCRep. 759 Education on H.B. No. 867

The purpose of this measure is to:

- (1) Require, by June 30, 2030, all playgrounds located in state parks and on public school grounds to have a minimal set of accessible recreational playground equipment; and
- (2) Appropriate funds to the Department of Land and Natural Resources and Department of Education to purchase and install accessible recreational playground equipment.

Your Committee received testimony in support of this measure from the Hawai'i State Council on Developmental Disabilities; Disability and Communication Access Board; Hawaii Disability Rights Center; and three individuals. Your Committee received comments on this measure from the Department of Education; Department of Budget and Finance; and Department of Land and Natural Resources' Division of State Parks.

Your Committee finds that the lack of disability-compatible equipment in Department of Education playgrounds and state parks and playgrounds can have a negative impact on physically disabled youth in Hawaii. Your Committee further finds that installing accessible recreational playground equipment in playgrounds will enhance the inclusion of physically disabled youth in important socialization activities.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 867, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Muraoka).

SCRep. 760 Housing on H.B. No. 826

The purpose of this measure is to authorize, until June 30, 2035, a county planning commission, by special permit, to allow land uses exclusively providing residential housing for long-term rental or workforce fee simple ownership in an agricultural district, under certain conditions.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Land Use Commission; one member of the Hawai'i County Council; one member of the Maui County Council; one member of the Kaua'i County Council; Grassroot Institute of Hawaii; and one individual. Your Committee received testimony in opposition to this measure from LIMBY Hawai'i and two individuals. Your Committee received comments on this measure from the Office of Planning and Sustainable Development and Sierra Club of Hawai'i.

Your Committee finds that Hawaii faces a severe housing shortage, particularly in long-term rentals and workforce fee simple housing. Existing land use and development processes present significant barriers, contributing to delays in much-needed housing projects. This measure allows county planning commissions to approve affordable housing projects on lands already designated for residential use, which will eliminate unnecessary state-level hurdles while maintaining environmental protections and local control over land use decisions.

Your Committee notes its intent to have the Hawaii Housing Finance and Development Corporation define "affordable", "long-term rental", and "agricultural workforce housing" through their rulemaking authority, rather than statutorily defining those terms.

Your Committee has amended this measure by:

- (1) Expanding the land uses that may be permitted by a county planning commission under this measure to include agricultural workforce housing;
- (2) Clarifying that project areas needed to have been identified in a county's comprehensive general plan adopted no earlier than 2005, rather than within twenty years of the application filing;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 826, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 826, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 761 Housing on H.B. No. 252

The purpose of this measure is to require managing agents for residential condominium properties over seventy-five feet in height to have commercial property management experience.

Your Committee received testimony in support of this measure from the Hawai'i Association of REALTORS and three individuals. Your Committee received testimony in opposition to this measure from the Hawaii Legislative Action Committee of the Community Associations Institute and eight individuals. Your Committee received comments on this measure from the Real Estate Commission; Hawaii Council of Community Associations; and two individuals.

Your Committee finds that residential high-rise condominium properties have complex operational, safety, and financial management needs similar to commercial buildings. Additionally, these condominiums may also lease available space to other commercial businesses. Volunteer condominium board members rely on managing agents to navigate these challenges effectively. This measure seeks to ensure that high-rise condominium properties are managed efficiently and responsibly by requiring managing agents to have commercial property management experience.

However, your Committee notes the various concerns raised in testimony, particularly about what qualifies as "experience" for managing agents and whether they should be required to obtain a professional license or an equivalent educational accreditation. Additional concerns were raised about the differences between managing residential and commercial properties and whether experience in one area is sufficient for the other. Your Committee appreciates these concerns but believes that this dialogue should be continued by your Committee on Consumer Protection & Commerce, where matters of condominium governance and management are more appropriately addressed. Your Committee therefore respectfully requests your Committee on Consumer Protection & Commerce, should it deliberate on this measure, to address these concerns and determine the most preferred approach as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 252, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 252, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 762 Housing on H.B. No. 367

The purpose of this measure is to allow for building permit exemptions for certain kinds of activities, including agricultural structures and maintenance activities.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau and Grassroot Institute of Hawaii. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the existing building permit requirements for minor repairs, interior remodeling, and certain uninhabited structures in the State can cause unnecessary delays and administrative burdens for property owners and developers. Many maintenance activities and small-scale projects, such as routine repairs or the installation of accessory structures, pose minimal risk and do not warrant an extensive permitting process. This measure is intended to streamline the process for property owners while ensuring compliance with safety and floodplain management standards by creating certain exemptions from building permit requirements. However, your Committee notes the concerns raised in testimony by the Department of Land and Natural Resources that certain exemptions proposed by this measure may be inconsistent with the National Flood Insurance Program, which may have unintended consequences.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that certain activities are exempt from obtaining any county permit, rather than only a county building permit, when located in areas outside of a special management area;
- (2) Requiring an owner or occupier who intends to perform any interior remodeling work on an existing structure to submit written notification to the appropriate county agency;
- (3) Specifying that the authority granted under this measure shall not be construed to exempt any new or existing buildings, structures, related appurtenances, or other work from underlying zoning requirements;
- (4) Changing the effective date to January 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 367, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 367, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 763 Housing on H.B. No. 422

The purpose of this measure is to repeal School Impact Fees and transfer unencumbered balances of the School Impact Fee Subaccount to the School Facilities Special Fund.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Hawaii Public Housing Authority; Office of Housing of the City and County of Honolulu; Libertarian Party of Hawaii; Hawaii Appleseed Center for Law & Economic Justice; Grassroot Institute of Hawaii; Hawai'i YIMBY; and numerous individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of Education; School Facilities Authority; Tax Foundation of Hawaii; and LIMBY Hawai'i.

Your Committee finds that school impact fees were established to address the impact of new residential developments on the surrounding community and potential increase of students in that community. Your Committee notes that between 2007 and 2018, the Department of Education collected slightly more than \$5,300,000, far under the \$80,000,000 or more needed to build one new school. Rather than being used to help support schools, school impact fees have

only added additional costs to housing developments, which in some cases resulted in a housing project becoming financially untenable. Your Committee believes that the State must reduce the cost of housing to address the housing crisis and develop more affordable housing for Hawaii's residents.

Your Committee has amended this measure by:

- (1) Abolishing certain fair share contribution accounts within the Donations - Facilities Trust under the Department of Education and lapsing any unencumbered balances to the School Facilities Special Fund;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 422, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 422, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 764 Housing on H.B. No. 1188

The purpose of this measure is to:

- (1) Establish a Teacher Workforce Housing Stipend Program to support teacher retention at public and charter schools classified as hard-to-staff; and
- (2) Amend the purpose and uses of the Teachers' Housing Revolving Fund.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Democratic Party of Hawai'i; Democratic Party of Hawai'i Education Caucus; and one individual. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that the State's high cost of living and limited affordable housing options have made it increasingly difficult for teachers to live in the communities where they work. This housing insecurity is a major contributing factor in high teacher turnover rates and increased reliance on emergency hires, which creates a disruption in the education provided to students. Your Committee believes that establishing a Teacher Workforce Housing Stipend Program will help alleviate housing-related financial pressures, thereby stabilizing the teaching workforce, and ensuring that students in hard-to-staff communities have access to consistent, high-quality education.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1188, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 1188, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Cochran).

SCRep. 765 Housing on H.B. No. 431

The purpose of this measure is to:

- (1) Appropriate funds for the Kauhale Initiative;
- (2) Establish and appropriate funds into and out of the Supportive Housing Special Fund; and
- (3) Appropriate funds to assist the Statewide Office of Homelessness and Housing Solutions to implement the Kauhale Initiative.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness; Department of Human Services; State Council on Developmental Disabilities; Hawaii Housing Finance and Development Corporation; Office of Hawaiian Affairs; Office of Housing of the City and County of Honolulu; Office of Housing and Community Development of the County of Hawai'i; Hawaii Substance Abuse Coalition; Hawai'i Health & Harm Reduction Center; Democratic Party of Hawai'i; Catholic Charities Hawai'i; Kūpuna Caucus of the Democratic Party of Hawai'i; The Institute for Human Services, Inc.; Hawai'i State Youth Commission; Hawai'i Community Foundation; Hawaii Appleseed Center for Law & Economic Justice; Maui Chamber of Commerce; Pacific Housing Assistance Corporation; and four individuals. Your Committee received comments on this measure from the Department of Budget and Finance and State Procurement Office.

Your Committee finds that Hawaii faces a severe housing crisis, with a critical shortage of affordable and supportive housing options for homeless individuals and those at risk of homelessness. Despite ongoing efforts, the State continues to experience rising homelessness and insufficient long-term housing solutions to meet the growing demand. This measure is essential to strengthen the State's capacity to work with developers in creating additional housing, ensuring more sustainable and permanent solutions to address housing insecurity and promote community stability.

Your Committee has amended this measure by:

- (1) Expanding the authorized uses of funds appropriated for the Kauhale Initiative;
- (2) Authorizing funds appropriated for the Kauhale Initiative to be used for the Ohana Zones Pilot Program established under Act 209, Session Laws of Hawaii 2018;
- (3) Requiring at least two bidders for any kauhale project estimated to be over \$1,000,000 if appropriated funds are used to contract for the procurement of building services and projects related to the Kauhale Initiative;
- (4) Deleting the unspecified appropriation to the Statewide Office on Homelessness and Housing Solutions to implement the Kauhale Initiative; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 431, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 431, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Kila). Noes, 1 (Muraoka). Excused, 1 (Cochran).

SCRep. 766 Energy & Environmental Protection on H.B. No. 256

The purpose of this measure is to require an owner or operator of a waste-to-energy facility to comply with certain United States Environmental Protection Agency regulations as they existed on December 31, 2024.

Your Committee received testimony in support of this measure from the Department of Environmental Services of the City and County of Honolulu; Environmental Caucus of the Democratic Party of Hawai'i; Climate Protectors Hawai'i; Reworld; and two individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Health and two individuals.

Your Committee finds that the State must ensure that environmental standards governing the operations of waste-to-energy facilities are upheld regardless of any potential backsliding on existing emission limits that may be proposed by the United States Environmental Protection Agency.

Your Committee has amended this measure by:

- (1) Clarifying that owners or operators of waste-to-energy facilities must comply with certain regulations for emission limitations as they existed on December 31, 2024, unless emission limitations are made more stringent;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 256, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 256, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Quinlan, Ward).

SCRep. 767 Energy & Environmental Protection on H.B. No. 332

The purpose of this measure is to:

- (1) Expand the Electronic Device Recycling and Recovery Act to include the collection and recycling of certain lithium-ion batteries; and
- (2) Require manufacturers of lithium-ion batteries to recycle or arrange for the recycling of lithium-ion batteries sold in the State, and ensure the safe collection, storage, transportation, and recycling of batteries.

Your Committee received testimony in support of this measure from the Hawai'i Climate Change Mitigation and Adaptation Commission; Department of Environmental Management of the County of Hawai'i; Product Stewardship Institute; and three individuals. Your Committee received testimony in opposition to this measure from Retail Merchants of Hawaii; Consumer Healthcare Products Association; Consumer Technology Association; The Rechargeable Battery Association; Mr. K's Recycle and Redemption Center, Inc.; and two individuals. Your Committee received comments on this measure from the Department of Health; Hawaii State Energy Office; and Hawaii Food Industry Association.

Your Committee finds that the improper disposal of lithium-ion batteries poses safety and environmental risks. However, your Committee finds that this measure, as drafted, may be premature and recognizes the need to further assess recycling methods for certain types of lithium-ion batteries in order to implement effective policies that would address the environmental harm associated with improper disposal.

Therefore, your Committee has amended this measure by:

- (1) Deleting its contents, except the preamble, and inserting language establishing a Lithium-ion Battery Recycling Working Group to assess recycling methods for small and medium format lithium-ion batteries;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that although this measure does not contain an appropriation, the Department of Health has identified the need for an appropriation of \$75,000 for the working group, to potentially be appropriated from the Deposit Beverage Container Deposit Special Fund.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 332, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 332, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Quinlan, Ward).

SCRep. 768 Energy & Environmental Protection on H.B. No. 975

The purpose of this measure is to:

- (1) Permanently establish the Hawaii Carbon Smart Land Management Assistance Program; and
- (2) Appropriate funds to support the program.

Your Committee received testimony in support of this measure from the Office of Planning and Sustainable Development; Hawai'i Climate Change Mitigation and Adaptation Commission; Hawai'i Forest Industry Association; 350Hawaii.org; Climate Protectors Hawai'i; Waiehu Land LLC; Mililani Agricultural Park LLC; and two individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the Hawaii Carbon Smart Land Management Assistance Pilot Program has received a high degree of engagement from local farmers, ranchers, foresters, and other stakeholders. The program has shown promise in promoting sustainable land management, increasing carbon sequestration, supporting regenerative agriculture, and bolstering climate resilience. This measure permanently establishes the program and provides necessary funding to ensure its continued success.

Your Committee has amended this measure by:

- (1) Prohibiting program participants from using compensation provided under the program for the purposes of carbon offsetting initiatives;
- (2) Changing the appropriation to an unspecified amount;
- (3) Changing the number of positions established to an unspecified number;

- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$2,000,000 and one full-time equivalent (1.0 FTE) permanent position.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 975, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 975, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Quinlan, Ward).

SCRep. 769 Energy & Environmental Protection on H.B. No. 974

The purpose of this measure is to:

- (1) Authorize the State to enter into step-in agreements for payment obligations arising under certain power purchase agreements;
- (2) Establish the Power Purchase Costs Trust Fund;
- (3) Establish that revenues from on-bill charges for power purchase agreements and accompanying reserves shall be held in trust by the State, and that independent power producers shall hold a beneficial interest in the revenue and reserve to the extent of the amounts owed under the covered power purchase agreements; and
- (4) Permit the Department of Budget and Finance to contract with an electric utility to serve as an agent of the Department for the purposes of billing, collection, and management in the service of performing step-in agreements.

Your Committee received testimony in support of this measure from the Public Utilities Commission; Ulupono Initiative; Ameresco; Hawaiian Electric; Plus Power; Hawaii Clean Power Alliance; AES Hawai'i; Clearway Energy Group LLC; and Longroad Energy. Your Committee received comments on this measure from the Department of the Attorney General; Department of Commerce and Consumer Affairs; and Department of Budget and Finance.

Your Committee finds that this measure addresses the challenge of ensuring reliable, affordable clean energy by securing payments to independent power producers even if an electric utility faces financial difficulties. By requiring the Department of Budget and Finance to enter into step-in agreements, the measure guarantees that renewable energy projects continue without disruption, safeguarding energy reliability.

Your Committee has amended this measure by:

- (1) Adding definitions for "reserve fees" and "revenue";
- (2) Clarifying that the Department of Budget and Finance, not the State, will enter into step-in agreements;
- (3) Clarifying that the Department of Budget and Finance's payment obligation under a step-in agreement is limited to revenues from power purchase charges and reserve fees collected in connection with covered power purchase agreements;
- (4) Clarifying that step-in agreements do not pledge the full faith and credit of the State or any other monies of the State;
- (5) Clarifying that upon termination of a step-in agreement, the Department of Budget and Finance has no obligation to the electric utility or obligee upon a default by the electric utility;
- (6) Allowing the electric utility, following a default of a covered power purchase agreement and any payment by the Department of Budget and Finance, to resume payments for power purchase costs owed by it through agreement with all obligees of its covered power purchase agreements, rather than in its sole discretion;
- (7) Allowing the electric utility to file monthly rate adjustments with the Public Utilities Commission to establish or adjust power purchase charges to recover applicable taxes, government fees, and administrative costs of the Department of Budget and Finance;
- (8) Establishing the Power Purchase Costs Trust Fund outside, rather than within, the state treasury;
- (9) Requiring the Public Utilities Commission to authorize reserve fees proposed by an electric utility by August 1, 2025;
- (10) Requiring the Department of Budget and Finance to maintain a separate reserve account within the Power Purchase Costs Trust Fund to accept and account for revenues from reserve fees and requiring the electric utility to deposit all revenues collected from reserve fees into the account;
- (11) Requiring all monies remaining in the Power Purchase Costs Trust Fund to be returned to customers through a rate credit if the step-in agreement terminates;
- (12) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (13) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee recognizes the testimony from the Department of Commerce and Consumer Affairs, which indicates that a reserve in the amount currently specified in this measure may not be constitutionally required and notes that provisions regarding the reserve have not been removed as it is unclear whether the intended purpose of the measure would be served without inclusion of the reserve.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 974, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 974, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Quinlan, Ward).

SCRep. 770 Public Safety on H.B. No. 1296

The purpose of this measure is to establish timely notice and reporting requirements to the Legislature by the Governor regarding the transfer of appropriations to the Major Disaster Fund.

Your Committee received testimony in opposition to this measure from the Hawai'i Emergency Management Agency. Your Committee received comments on this measure from the Office of the Governor and Department of Budget and Finance.

Your Committee finds that full transparency and accountability require a complete accounting of all appropriations transferred and deposited into the Major Disaster Fund, as well as all reimbursements of Federal Emergency Management Agency funds received by the Fund. Your Committee further finds that assessing the effects to departments of the transfers made from various appropriations is vital to ensuring that programs from which funding was transferred remain effective.

Your Committee has amended this measure by:

- (1) Decreasing to 21 days the time by which the Administrator of the Hawaii Emergency Management Agency must report to the Legislature after any allotment or transfer by the Governor or the expenditure of any Major Disaster Fund monies;
- (2) Requiring the reporting of transfers of monies to or from the Major Disaster Fund;
- (3) Further clarifying the types of information to be included in the report to the Legislature regarding the Major Disaster Fund;
- (4) Requiring the Department of Budget and Finance to report to the Legislature concerning interest earned on federal reimbursement monies;
- (5) Changing its effective date to June 30, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1296, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1296, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 3 (Hashem, Morikawa, Woodson).

SCRep. 771 Public Safety on H.B. No. 433

The purpose of this measure is to appropriate funds to the Department of Corrections and Rehabilitation for reentry services to connect offenders with community-based services.

Your Committee received testimony in support of this measure from the Hawaii Correctional System Oversight Commission; Office of the Public Defender; Chamber of Commerce Hawaii; Hawaii Substance Abuse Coalition; Community Alliance on Prisons; and two individuals. Your Committee received comments on this measure from the Department of Corrections and Rehabilitation and ACLU Hawaii.

Your Committee finds that sustained funding for offender reentry services is critical to the public safety of all communities across the State because success in transitioning offenders and supporting their re-entry and re-integration into society reduces the cycle of recidivism.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider appropriations of \$4,000,000 for fiscal year 2025-2026 and fiscal year 2026-2027 for reentry services to connect offenders with community-based services.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 433, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 433, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 3 (Ichiyama, Morikawa, Woodson).

SCRep. 772 Public Safety on H.B. No. 1060

The purpose of this measure is to:

- (1) Establish the Community Readiness Centers Program to be implemented and administered by the Hawaii Emergency Management Agency;
- (2) Establish the Community Readiness Centers Special Fund for the implementation and administration of the Community Readiness Centers Program;
- (3) Rename the Environmental Response, Energy, and Food Security Tax to the Environmental Response, Energy, Food Security, and Resilience Tax; and
- (4) Allocate portions of the Environmental Response, Energy, Food Security, and Resilience Tax into the Community Readiness Centers Special Fund.

Your Committee received testimony in support of this measure from the Department of Defense and Hawai'i Emergency Management Agency. Your Committee received comments on this measure from the Department of Taxation; Hawai'i Climate Advisory Team; and Tax Foundation of Hawaii.

Your Committee finds that as natural disasters become more frequent, it is critical to have centralized locations where communities across the State can access essential support and health and medical services during and after emergencies.

Your Committee has amended this measure by:

- (1) Changing the amount of the tax on each barrel or fractional part of a barrel of petroleum product that is not aviation fuel to be deposited into the Community Readiness Centers Special Fund to an unspecified amount;
- (2) Changing the percentage of the tax on each one million British thermal units of certain fossil fuels to be deposited into the Community Readiness Centers Special Fund to an unspecified amount;
- (3) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1060, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1060, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Iwamoto). Noes, 1 (Shimizu). Excused, 3 (Hashem, Morikawa, Woodson).

SCRep. 773 Public Safety on H.B. No. 1330

The purpose of this measure is to authorize the issuance of general obligation bonds to make critical capital improvements for the replacement and relocation of the Oahu Community Correctional Center.

Your Committee received testimony in opposition to this measure from Imua Alliance; ACLU Hawaii; and Reimagining Public Safety in Hawai'i Coalition. Your Committee received comments on this measure from the Department of Corrections and Rehabilitation; Department of Accounting and General Services; and Community Alliance on Prisons.

Your Committee finds that Oahu Community Correctional Center urgently needs to be replaced and relocated.

Your Committee further finds that the process of relocating the Oahu Community Correctional Center to Halawa has moved forward with the Department of Accounting and General Services now at the point of developing and issuing the request for qualification for the project. Your Committee also notes that replacing the current Oahu Community Correctional Center will help the State provide much needed re-entry and re-integration services to incarcerated individuals.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider authorizing \$30,000,000 in general obligation bonds for the replacement and relocation of the Oahu Community Correctional Center.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1330, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1330, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Iwamoto). Excused, 3 (Ichiyama, Morikawa, Woodson).

SCRep. 774 Higher Education on H.B. No. 970

The purpose of this measure is to authorize chiropractic students to engage in clinical practice as part of their college instruction if directly supervised by a licensed chiropractor.

Your Committee received testimony in support of this measure from the Hawaii State Chiropractic Association and numerous individuals. Your Committee received comments on this measure from the Hawaii Board of Chiropractic.

Your Committee finds that allowing students to apply the knowledge and skills they have learned in the classroom in real-world settings through clinical practice will allow these students to gain additional essential skills that they will need after graduation.

Your Committee notes that the Hawaii Board of Chiropractic requested in its testimony to defer implementation of this measure until July 2027 to allow sufficient time for the Board to promulgate rules that set out the requirements for students enrolled in a qualified chiropractic college to engage in clinical practice as part of their college instruction under the direct supervision of a qualified licensed chiropractor.

Your Committee has amended this measure by:

- (1) Clarifying that students enrolled in a qualified chiropractic college are authorized to engage in clinical practice as part of their college instruction if directly supervised by a qualified licensed chiropractor;
- (2) Requiring the Hawaii Board of Chiropractic to adopt rules to:
 - (A) Specify the requirements for a qualified chiropractic college;
 - (B) Specify the requirements for a student enrolled in a qualified chiropractic college to engage in clinical practice under the direct supervision of a qualified licensed chiropractor; and
 - (C) Define clinical practice;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 970, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 970, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Sayama).

SCRep. 775 Higher Education on H.B. No. 1494

The purpose of this measure is to:

- (1) Lapse appropriations of general obligation bond funds previously authorized for the planning, design, and construction of a stadium in Halawa by the Stadium Authority;
- (2) Authorize the issuance of general obligation bonds for a new or upgraded stadium;
- (3) Rename the Stadium Authority and Stadium Development District as the Halawa Redevelopment Authority and Halawa Redevelopment District, respectively;
- (4) Authorize the Halawa Development Authority to sell the naming rights to a stadium located within the Halawa Development District and operated by the Authority; and

- (5) Permit the display of the name of an entity that has purchased naming rights to a stadium operated by the Halawa Redevelopment Authority on the exterior of the stadium.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed H.D. 2, which reverts to the contents of this measure as it was introduced. The proposed H.D. 2:

- (1) Lapses appropriations of general obligation bond funds previously authorized for the planning, design, and construction of a stadium in Halawa by the Stadium Authority;
- (2) Authorizes the issuance of general obligation bonds for the upgrade of the stadium on the University of Hawaii at Manoa campus; and
- (3) Renames the Stadium Authority and Stadium Development District as the Halawa Redevelopment Authority and Halawa Redevelopment District, respectively.

Your Committee received testimony in support of the proposed H.D. 2 from one individual. Your Committee received testimony in opposition to the proposed H.D. 2 from the Department of Business, Economic Development, and Tourism; Stadium Authority; and General Contractors Association of Hawaii. Your Committee received comments on the proposed H.D. 2 from the University of Hawai'i System.

Your Committee finds that the proposed H.D. 2 will allow for the upgrade of the stadium located at the University of Hawaii Manoa campus, in the event that the New Aloha Stadium and Entertainment District project is not able to be completed. Your Committee further finds that the proposed H.D. 2 protects the interests of the University of Hawaii's football program in its quest to remain compliant with NCAA stadium seating requirements.

Your Committee has amended this measure by adopting the proposed H.D. 2.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1494, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 1494, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Olds). Noes, none. Excused, 1 (Sayama).

SCRep. 776 Consumer Protection & Commerce/Judiciary & Hawaiian Affairs on H.B. No. 982

The purpose of this measure is to:

- (1) Establish the Wildfire Recovery Fund, body politic tasked with administratively settling claims for economic damages resulting from catastrophic wildfires and allow public utilities to make contributions to the Wildfire Recovery Fund; and
- (2) Authorize electric utilities to recover their contributions through securitization.

Your Committees received testimony in support of this measure from the International Brotherhood of Electrical Workers Local 1260; Land Use Research Foundation of Hawaii; Sustainable Energy Hawai'i; Chamber of Commerce Hawaii; Kaua'i Island Utility Cooperative; Ulupono Initiative; Hawai'i Island Chamber of Commerce; Kapolei Chamber of Commerce; Hawai'i Climate Advisory Team; Hawaii Cattlemen's Council, Inc.; Clearway Energy Group; Plus Power; Par Hawaii; Japanese Chamber of Commerce & Industry of Hawai'i; Life of the Land; AES Hawai'i; Retail Merchants of Hawaii; International Union of Painters and Allied Trades, District Council 50; Plumbers & Fitters UA Local 675; International Association of Heat & Frost Insulators & Allied Workers Local 132; Hawaii Teamsters Local 996; and three individuals. Your Committees received testimony in opposition to this measure from the National Association of Mutual Insurance Companies; Hawaii Association for Justice; Hawaii Regional Council of Carpenters; and one individual. Your Committees received comments on this measure from the Office of the Governor; Department of Commerce and Consumer Affairs; Department of the Attorney General; Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs; Public Utilities Commission; Hawai'i Farm Bureau; Mālama Learning Center; Kaala Farm; Hawaiian Electric; Charter Communications; Pacific Resource Partnership; Hawaii Building & Construction Trades Council; and numerous individuals.

Your Committees find that as wildfire risk has increased in a warming climate, it would be prudent to develop a streamlined process to quickly offer settlement payments for property damages after a catastrophic wildfire, without the need for a lengthy and uncertain litigation process. This measure establishes the Wildfire Recovery Fund, which is modeled after the One Ohana Fund, to ensure the timely compensation for persons who suffered property damage come a catastrophic wildfire. While the measure provides a timely process for compensation, claimants retain the option of rejecting an offer and pursuing their own compensation.

Your Committees further find that securitization could help reduce debt related to wildfire exposures. Securitization allows for the issuance of debt secured by a non-by-passable charge to the customer's bill, which allows the electric utility to fully recover its costs at a lower interest rate for customers. This measure will serve the public interest by establishing a mechanism to provide efficient compensation for property damage resulting from a future catastrophic wildfire allegedly caused by a regulated utility, while also protecting the financial integrity of Hawaii's regulated utilities.

Your Committees have amended this measure by:

- (1) Specifying that the Wildfire Recovery Fund is a trust fund;
- (2) Specifying that the Executive Director of the Wildfire Recovery Fund may establish the investment policies of the fund;
- (3) Clarifying that, of the \$505,000,000 in initial contributions funded by shareholders of investor-owned electric utilities, \$5,000,000 is to be used for:
 - (A) Funding the salaries of the Executive Director and other personnel within the Wildfire Recovery Fund; and
 - (B) Contracting consultants to assist the Public Utilities Commission with determining whether a contributor acted prudently,
 and that any remaining balance of the \$5,000,000 in 2035 is to be transferred to the Wildfire Recovery Fund;
- (4) Specifying that investment earnings associated with payments made to the Wildfire Recovery Fund that were recovered in regulated rates from customers shall be annually refunded to the customers in the form of a credit on their ratepayer accounts;
- (5) Specifying that claimants have no less than four years from the covered catastrophic wildfire to file a claim, and the Executive Director may establish a deadline beyond the four year-period for filing a claim;
- (6) Clarifying that the circuit court's authority to equitably apply the aggregate liability limit applies to all civil claims for qualifying damages;
- (7) Specifying that the limitation on claims relating to indemnity or contribution only applies to agreements entered into on or after the operation date;

- (8) Authorizing the Public Utilities Commission, as a condition of a financing order, to prohibit any increase in compensation, including any bonuses, for the electric utility's officers for a period of time determined by the Commission, with any increase in violation of that condition to be seized and deposited into the Wildfire Recovery Fund; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Consumer Protection & Commerce and Judiciary & Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 982, H.D. 1, as amended herein, and recommend that it be referred to your Committee on Finance, in the form attached hereto as H.B. No. 982, H.D. 2.

Signed by the Chairs on behalf of the Committees.

Consumer Protection & Commerce: Ayes, 9; Ayes with Reservations (Iwamoto). Noes, none. Excused, 1 (Pierick).

Judiciary & Hawaiian Affairs: Ayes, 7. Noes, none. Excused, 4 (Cochran, Hashem, Garcia, Shimizu).

SCRep. 777 Consumer Protection & Commerce on H.B. No. 226

The purpose of this measure is to:

- (1) Prohibit a person from installing, mounting, adhering, affixing, or using any sun screening device in conjunction with the glazing material of a motor vehicle with mirrored, metallic, red, yellow, amber, or blue tint;
- (2) Require all drivers and passengers of motor vehicles with applied tint to roll down their windows when stopped by a law enforcement officer at a traffic stop;
- (3) Lower the minimum light transmittance levels for sun screening devices on certain motor vehicles;
- (4) Exempt side windows to the rear of the driver and rear windows on sedans from sun screening device requirements; and
- (5) Increase the minimum and maximum fines for violating sun screening device requirements.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received testimony in opposition to this measure from the Hawai'i County Police Department; Honolulu Police Department; and one individual.

Your Committee finds that window tinting can improve a vehicle's energy efficiency by reducing the amount of heat that enters the vehicle, which in turn reduces the need for excessive air conditioning. However, your Committee finds that window tinting poses a safety risk to law enforcement officers, as window tinting compromises the officer's ability to see within the vehicle. This measure takes a dual approach by allowing tinting with lower light transmittance levels while simultaneously requiring persons to roll down their windows when stopped by a law enforcement officer.

Your Committee notes that concerns were raised during the public hearing that the measure is ambiguous with respect to when persons are required to fully roll down their windows during traffic stops. Your Committee further notes that there are concerns on determining the appropriate penalty for a person's failure to fully roll down their window. Your Committee respectfully requests your Committee on Judiciary & Hawaiian Affairs, should it deliberate on this measure, to give due consideration to these issues.

Your Committee has amended this measure by:

- (1) Clarifying that drivers and passengers of motor vehicles with applied tint shall fully roll down their windows when stopped by a law enforcement officer at a traffic stop; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 226, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs in the form attached hereto as H.B. No. 226, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Iwamoto). Noes, none. Excused, 3 (Matayoshi, Lowen, Tam).

SCRep. 778 Consumer Protection & Commerce on H.B. No. 818

The purpose of this measure is to revitalize Waiakea Peninsula by:

- (1) Establishing the Waiakea Peninsula Community Development District within the Hawaii Community Development Authority;
- (2) Specifying the powers and duties of the Hawaii Community Development Authority as it relates to the new development district; and
- (3) Establishing the Waiakea Community Development District Special Fund.

Your Committee received testimony in support of this measure from the Hawaii Community Development Authority; two members of the Hawai'i County Council; and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance; Department of the Attorney General; and Department of Land and Natural Resources.

Your Committee finds that this measure would help revitalize the Waiakea peninsula, which forms part of the premier tourism district of the east side of Hawaii Island. Many of the properties in the Waiakea peninsula are in disrepair or obsolete. Your Committee further finds that the establishment of a community development district in the Hilo area will permit the Hawaii Community Development Authority to conduct long-range planning for the district and facilitate development through community input and adoption of proper zoning rules.

Your Committee has amended this measure by:

- (1) Specifying that revenues, income, and receipts derived from leases are paid to the agency that owns or manages the property;
- (2) Including the Chairperson of the Board of Land and Natural Resources for purposes of the determining quorum and majority for matters affecting the Waiakea Peninsula Community Development District by the Hawaii Community Development Authority; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 818, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 818, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 1 (Pierick).

SCRep. 779 Consumer Protection & Commerce on H.B. No. 750

The purpose of this measure is to:

- (1) Require the Department of Health to conduct a statewide needs assessment to determine what will be needed to reduce waste generation, increase reuse, improve recycling collection services, and expand local processing of materials through an extended producer responsibility program for packaging materials and paper products;
- (2) Establish an advisory council to review the draft needs assessment and propose recommendations;
- (3) Require the Department of Health to hold a public hearing on the draft needs assessment and submit the needs assessment to the Legislature by December 31, 2028; and
- (4) Appropriate funds for the needs assessment.

Your Committee received testimony in support of this measure from the Hawai'i Climate Change Mitigation and Adaptation Commission; Hawaii Environmental Change Agents Solid Waste Reduction Taskforce; and one individual. Your Committee received comments on this measure from the American Forest & Paper Association and Hawaii Food Industry Association.

Your Committee finds that much of the plastic waste that is disposed of in landfills results in the release of methane and carbon dioxide. According to the most recent Inventory Report developed by the Environmental Protection Agency, United States landfills released an estimated 122,600,000 metric tons of carbon dioxide equivalent of methane into the atmosphere in 2021. This represents 16.9 percent of the total anthropogenic methane emissions across all sectors in the country. Your Committee further finds that materials consumption contributes directly to climate change because it requires energy to mine, extract, harvest, process, and transport raw materials and more energy to manufacture, transport, and dispose of waste products. This measure will help Hawaii address the full impact of materials on the State's communities and set out a transformative vision for its waste management system.

Your Committee has amended this measure by:

- (1) Clarifying authorized uses of the Deposit Beverage Container Deposit Special Fund to include evaluating and promoting recyclable market development activities;
- (2) Amending the appropriation by:
 - (A) Changing the means of financing from general funds to the Deposit Beverage Container Deposit Special Fund;
 - (B) Changing the appropriation to an unspecified amount for only the fiscal year of 2025-2026; and
 - (C) Specifying when the appropriation shall lapse;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$1,000,000.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 750, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 750, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 780 Consumer Protection & Commerce on H.B. No. 339

The purpose of this measure is to:

- (1) Require the Public Utilities Commission to consider or impose certain conditions of approval on any order approving, in whole or in part, an application for the proposed acquisition, merger, or consolidation of an electric utility company by an acquiring entity;
- (2) Prohibit acquiring entities from proposing or supporting amendments that may have a material adverse effect on renewable portfolio standards or the existing performance-based regulation framework or terminating any existing and valid power purchase agreement between the electric utility company and an independent power producer, with certain conditions;
- (3) Establish a process to ensure that when an electric utility is subject to an application for a proposed acquisition, merger, or consolidation by a potential acquiring entity that is an investor-owned utility and seeks approval of the application from the Public Utilities Commission, the electric utility shall demonstrate that it solicited bids from potential acquiring entities that operate under non-investor-owned utilities ownership models; and
- (4) Require the electric utility to submit acceptable bids concurrently with an application by a potential acquiring entity that is an investor-owned utility.

Your Committee received testimony in support of this measure from the International Brotherhood of Electrical Workers Local 1260 and Ulupono Initiative. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs; Public Utilities Commission; and Life of the Land.

Your Committee finds that the State has established several goals to transition the State from fossil fuels to renewable energy, including the renewable portfolio standards and performance-based regulation frameworks. However, the potential for mergers or acquisitions involving investor-owned utilities poses a risk of backsliding or undermining these advancements to the detriment of utility customers. This measure allows the Public Utilities Commission to impose conditions on an acquiring entity with respect to the goals.

Your Committee has amended this measure by:

- (1) Removing the conditions that prohibited an acquiring entity, through December 31, 2040, from proposing or supporting any change or amendment that may have a material adverse effect on existing renewable portfolio standards;
- (2) Removing the conditions that prohibited an acquiring entity from proposing or supporting the termination of any existing performance-based regulation framework for the electric utility or making changes or amendments that may have a material adverse effect on such framework;
- (3) Authorizing the issuance of reimbursable general obligation bonds in the sum of \$1,000,000,000 for the acquisition of Hawaiian Electric Industries to convert it to a publicly owned utility;

- (4) Authorizing the establishment of a non-bypassable electric utility conversion charge, collections of which are to be deposited into the newly established Electric Utility Conversion Special Fund and used to recover the debt service on the reimbursable general obligation bonds;
- (5) Appropriate funds out of Electric Utility Conversion Special Fund to acquire Hawaiian Electric Industries and convert it to a publicly owned utility and to reimburse the state general fund for payment of debt service on the reimbursable general obligation bonds; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 339, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 339, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Iwamoto). Noes, none. Excused, 1 (Pierick).

SCRep. 781 Consumer Protection & Commerce on H.B. No. 338

The purpose of this measure is to specify that adjustments required to compensate for certain unavoidable increases in financing costs, if proven by a producer of nonfossil fuel generated electricity by clear and convincing evidence, are mechanisms for reasonable and appropriate incremental adjustments that the Public Utilities Commission may include in the rate payable to the producer.

Your Committee received testimony in support of this measure from the Hawai'i State Energy Office; Public Utilities Commission; Hawaii Clean Power Alliance; Longroad Energy; AES Hawai'i; and Ameresco. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Hawaiian Electric.

Your Committee finds that Hawaii's energy project developers are facing a dynamic situation regarding interest rates, exacerbated by the 2023 Maui wildfires. The relatively long project development, approval, and construction timelines of energy projects also contribute to difficulty in maintaining static terms for financing. This measure will support the ability of independent power producers to successfully finance their projects and enter into agreements with Hawaii's electric utilities, which will ensure the financial viability of renewable energy projects and help the State achieve its renewable energy goals.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 338, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 1 (Pierick).

SCRep. 782 Consumer Protection & Commerce on H.B. No. 1467

The purpose of this measure is to:

- (1) Establish the Strengthen Hawaii Homes Program within the Department of Business, Economic Development, and Tourism to administer grants to retrofit residential properties to improve their resilience to disasters and reduce potential insurance liabilities; and
- (2) Establish the Strengthen Hawaii Homes Program Special Fund and appropriate funds out of the special fund for the Strengthen Hawaii Homes Program.

Your Committee received testimony in support of this measure from the Hawai'i Emergency Management Agency; Hawaii Green Infrastructure Authority; Office of Planning and Sustainable Development; Hawai'i Climate Advisory Team; Hawai'i Workforce Funders Collaborative; Hawai'i Association of REALTORS; and AARP Hawai'i. Your Committee received comments on this measure from the Department of Budget and Finance and Office of Information Practices.

Your Committee finds that most homes in the State were built before hurricane protections were required and are highly vulnerable to wind and water damage. The lack of wind-resistant homes is one of Hawaii's greatest vulnerabilities when it comes to hurricanes, which are expected to become more frequent and severe due to climate change. Your Committee further finds that retrofitting homes for greater wind resilience and rising flood waters can materially increase the safety of residents and reduce expected losses in the event of a hurricane or other natural disaster. This measure therefore establishes a grant program to help Hawaii residents improve the resilience of their homes in the event of a natural disaster, which will help mitigate property losses, save lives, and minimize disruption and displacement in the State's communities.

Your Committee has amended this measure by:

- (1) Deleting language making documents, materials, and other information submitted to the Department of Business, Economic Development, and Tourism in support of a grant application exempt from disclosure, subpoena, discovery, or admissibility as evidence in a private civil action;
- (2) Deleting the Strengthen Hawaii Homes Program Special Fund and changing the associated appropriation into an unspecified appropriation from general funds; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider whether funds dispersed under the Strengthen Homes Hawaii Program should be provided as grants or low-interest loans.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1467, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 1467, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 1 (Pierick).

SCRep. 783 Consumer Protection & Commerce on H.B. No. 490

The purpose of this measure is to require the Insurance Commissioner to:

- (1) Develop comprehensive standards and requirements for condominium associations, developers, and groups of condominium associations and developers, to obtain property insurance through self-insurance and mutual insurance;
- (2) Examine and evaluate the feasibility of implementing guaranteed buyback programs and investment-based protection funds for condominiums; and
- (3) Submit findings and recommendations, including any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2026.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that the availability of condominium building master insurance policy and unit owner insurance policy options within the condominium insurance marketplace was shrinking, even before the August 2023 Maui wildfire event. For condominium building master insurance policies, insurers have increased deductible amounts from what used to be between \$10,000 to \$25,000 per unit, per occurrence, to as much as \$250,000. Furthermore, insurance premiums for hurricane insurance policies have recently risen so high that three hundred seventy-five to three hundred ninety buildings have opted to renew their hurricane insurance policies with less than one hundred percent hurricane coverage. This measure is intended to have the Insurance Commissioner evaluate available alternatives to address this crisis.

Your Committee has amended this measure by:

- (1) Deleting language that required the Insurance Commissioner to:
 - (A) Develop comprehensive standards and requirements for condominium associations and developers to obtain property insurance; and
 - (B) Examine and evaluate the feasibility of implementing guaranteed buyback programs and investment-based protection funds for condominiums;
- (2) Specifying that the Insurance Commissioner is required to study the feasibility of the mutual insurance model for condominium associations, including condominium associations in the State joining mutual insurance companies that are located in another state of the United States;
- (3) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 490, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 490, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 3 (Matayoshi, Lowen, Tam).

SCRep. 784 Consumer Protection & Commerce on H.B. No. 97

The purpose of this measure is to establish a new regulatory framework for the sale of travel insurance in the State.

Your Committee received testimony in support of this measure from Crum & Forster; AGA Service Company; United States Travel Insurance Association; and American Property Casualty Insurance Association. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that travel insurance is a type of insurance for risk associated with traveling, such as loss of luggage, trip cancellation, and delays. Travel insurance gives consumers peace of mind when booking a trip well in advance of departure by enabling travelers to be reimbursed for part of or all their expenses should an undesirable event occur that prompts cancellation or interruption of their trip.

Your Committee further finds that a comprehensive and uniform regulatory regime for the sale of travel insurance will greatly benefit consumers by creating a level playing field for the travel insurance market and establishing standard protections and requirements for the sale of travel insurance. Your Committee also finds that this measure closely tracks the Travel Insurance Model Act adopted by the National Council of Insurance Legislators and National Association of Insurance Commissioners and which, as of January 2024, has been adopted by thirty-five states. This measure is intended to clarify and standardize the application of the State's existing insurance laws to the unique aspects of travel insurance.

Your Committee has amended this measure by:

- (1) Deleting from the definition of "eligible group" any automobile or truck rental or leasing company covering a group of individuals;
- (2) Specifying that licensed managing general agents and licensed insurance producers with property and casualty lines of authority are authorized to sell travel insurance;
- (3) Clarifying that persons who direct or control a limited lines travel insurance producer's insurance operations shall comply with the fingerprinting requirements applicable to insurance producers in the resident state of the limited lines travel insurance producer;
- (4) Deleting language that specified the provisions of this measure control over other provisions of the Insurance Code if it conflicted with the provisions of the Insurance Code relating to unfair methods of competition and unfair and deceptive acts and practices;
- (5) Replacing language that specified that coverage for sickness, accident, disability, or death occurring during travel, or incidental limited property and casualty benefits, may be filed under accident and health line of insurance or inland marine line of insurance, with language that specifies repatriation of remains shall be filed under an accident and health or sickness line of insurance; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 97, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 97, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Iwamoto). Noes, none. Excused, 3 (Matayoshi, Lowen, Tam).

SCRep. 785 Consumer Protection & Commerce on H.B. No. 534

The purpose of this measure is to prohibit the sale of processed ahi in retail establishments in the State without a label that states the country where the ahi was landed.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawaii Longline Association; Hawai'i Farm Bureau; Fishing Tales with Mike Sakamoto; Hawai'i Farmers Union; Chamber of Commerce Hawaii; and ten individuals. Your Committee received comments on this measure from the Department of Agriculture and three individuals.

Your Committee finds that the State is known for its high-quality ahi, which are caught under strict fishery management standards. However, ahi poke sold at retail establishments is dominated by previously frozen, carbon monoxide treated fish that is imported from foreign sources. This causes confusion to the

consumer, who, as a result of deceptive advertising tactics such as "freshly made," and "locally prepared," are misled into believing the product is fresh or locally caught. This measure provides a mechanism by which consumers may be assured of the ahi's origin.

Your Committee has amended this measure by:

- (1) Moving the provisions of this measure under the enforcement purview of the Department of the Attorney General and the Office of Consumer Protection;
- (2) Specifying that the labeling requirements apply to any raw ahi product that is an ingredient in a processed food item, not to processed ahi;
- (3) Clarifying that the retail establishments subject to this labeling requirement are establishments that:
 - (A) Are licensed under the Perishable Agricultural Commodities Act of 1930; and
 - (B) Purchase over \$230,000 of fresh or frozen produce per calendar year; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 534, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 534, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 786 Consumer Protection & Commerce on H.B. No. 1291

The purpose of this measure is to:

- (1) Extend the offense of false labeling of Hawaii-grown coffee to include roasted coffee; and
- (2) Impose a mandatory \$10,000 fine for each separate offense of false labeling of Hawaii-grown roasted coffee.

Your Committee received testimony in support of this measure from the Department of Agriculture; Heavenly Hawaiian Farms; Synergistic Hawai'i Agriculture Council; Hawaii Coffee Growers Association; Hawaii Coffee Association; Hawai'i Farm Bureau; Smithfarms; Ohana Martin Farms; Kona Coffee Farmers Association; Hawai'i Farmers Union; Huahua Farm; and three individuals.

Your Committee finds that fraudulent representations as to a coffee's geographic origin diminish the value of that geographic identifier by harming its reputation. Your Committee further finds that the existing criminal offense of false labeling of Hawaii-grown coffee only applies to green coffee, cherry coffee, or parchment coffee. This measure would expand that offense to roasted coffee and further protect the geographic identifier of Hawaii-grown coffee.

Your Committee has amended this measure by:

- (1) Deleting language establishing a mandatory fine for anyone convicted of false labeling of Hawaii-grown coffee; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1291, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs in the form attached hereto as H.B. No. 1291, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 3 (Matayoshi, Lowen, Tam).

SCRep. 787 Consumer Protection & Commerce on H.B. No. 420

The purpose of this measure is to:

- (1) Clarify the statute of repose to make it clear that it applies to contract, tort, and statutory claims, fraudulent concealment is not a defense with respect to the repose period, and require a violation of a building code to be material to be actionable;
- (2) Clarify the required contents of a notice of claim of construction defect served on a contractor;
- (3) Amend the process and time frame for a claimant to accept a contractor's offer to settle or inspect and authorize the contractor to proceed with repairs;
- (4) Limit the amount a claimant can recover if the claimant rejects a contractor's reasonable proposal for inspection or a reasonable offer to remedy; and
- (5) Clarify the consequences of rejecting an offer of settlement.

Your Committee received testimony in support of this measure from the International Union of Operating Engineers Local 3; Hawai'i Regional Council of Carpenters; General Contractors Association of Hawaii; Holomua Collaborative; Hawaii Laborers & Employers Cooperation and Education Trust; Chamber of Commerce Hawaii; Mutual Housing Association of Hawai'i, Inc.; Malachi Cleaning, Inc.; Hawai'i Association of REALTORS; R. M. Towill Corporation; Paradigm Construction LLC; A-Plus Seamless Rain Gutters, Inc.; Z Contractors Inc.; KY International Inc.; Stanford Carr Development, LLC; Newport Pacific Cabinets, Inc.; Hawaii Operating Engineers Industry Stabilization Fund Political Action Committee; Building Industry Association of Hawaii; Hawai'i YIMBY; Sinclair Drywall, Inc.; Island Flooring; Castle & Cooke Homes Hawaii, Inc.; Tru-Door Hawaii; Vinyl Tech and Masonry, Inc.; Hawaii Fence Builders; Kapolei Chamber of Commerce; Gentry Homes, Ltd.; Housing Hawai'i's Future; D.R. Horton Hawaii; Commercial Sheetmetal Co., Inc.; Haseko Development, Inc.; Pacific Resource Partnership; and numerous individuals. Your Committee received testimony in opposition to this measure from LippSmith LLP; Palehua Townhouse Association; Kasdan Turner Thomson Booth, LLC; AARP Hawai'i; and six individuals.

Your Committee finds that the lack of affordable housing in Hawaii has led to a crisis of increasing homelessness and migration of residents to the continental United States. Your Committee further finds the rising costs of insurance for developers and improvers of real property have contributed to the increased cost of housing and are a direct result of litigation for construction defects. This measure will deter broad and frivolous claims by requiring evidence of the defect and limiting recovery if an offer is unreasonably rejected.

Your Committee has amended this measure by:

- (1) Deleting language that barred the defense of fraudulent concealment;
- (2) Specifying that, if a plaintiff invokes the doctrine of fraudulent concealment to toll the limitation and the plaintiff fails to plead with particularity the claim of fraudulent concealment, then the plaintiff is liable for the costs incurred by the defendant, including attorneys' fees and costs directly related to responding to the claim; and

(3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 420, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs in the form attached hereto as H.B. No. 420, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, 2 (Iwamoto, Pierick). Excused, 3 (Matayoshi, Lowen, Tam).

SCRep. 788 Consumer Protection & Commerce on H.B. No. 755

The purpose of this measure is to:

- (1) By January 1, 2028, require the Department of Labor and Industrial Relations to establish and administer a Family and Medical Leave Program and begin collecting payroll contributions to finance payment of benefits; and
- (2) By January 1, 2029, require the Department to start receiving claims and paying benefits under the Program.

Your Committee received testimony in support of this measure from the Executive Office on Aging; Hawai'i State Commission on the Status of Women; one member of the Hawai'i County Council; Pride at Work – Hawai'i; Healthy Eating Active Living Coalition; Indivisible Hawaii; Hawai'i Family Caregiver Coalition; Aloha United Way; ALICE Initiative; Early Childhood Action Strategy; AARP Hawai'i; Imua Alliance; Democratic Party of Hawai'i Education Caucus; AAUW of Hawaii; Young Democrats of Hawai'i; Hawai'i State Coalition Against Domestic Violence; Hawai'i State LGBTQ+ Commission; Hawai'i Section of the American College of Obstetricians and Gynecologists; Catholic Charities Hawai'i; ACLU of Hawai'i; Hawai'i Children's Action Network Speaks!; Hawai'i Alliance of Nonprofit Organizations; AlohaCare; Leukemia & Lymphoma Society; Hawai'i Women Lawyers; Papa Ola Lokahi; and numerous individuals. Your Committee received testimony in opposition to this measure from the United Public Workers, AFSCME Local 646, AFL-CIO; Hawai'i Restaurant Association; Retail Merchants of Hawaii; Tiki's Grill & Bar; Hawaii Energy Marketers Association; Grassroot Institute of Hawaii; NFIB Hawaii Chapter; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; IL Gelato Hawaii; Society of Human Resource Management – Hawaii; Chamber of Commerce Hawaii; Gytaku Restaurants; and one individual. Your Committee received comments on this measure from the Department of Human Resources Development; Department of Budget and Finance; Department of Labor and Industrial Relations; Hawaii Food Industry Association; and Kapolei Chamber of Commerce.

Your Committee finds that the United States is the only developed country that does not provide national paid family leave. Your Committee further finds that thirteen states and the District of Columbia have passed paid family leave laws, and the states with paid family leave have seen significant health, social, and economic benefits. Many of the State's working families do not have adequate amounts of paid leave, which causes financial hardship and increased dependency on public assistance during times of illness or caregiving. This measure will provide working families with family and medical leave benefits, which can help workers retain employment while caring for family and help businesses retain key employees and remain competitive.

Your Committee has amended this measure by:

- (1) Deleting language that repealed the definitions of "child," "course of conduct," and "electronic communications" for purposes of laws relating to reasonable accommodations in the workplace for an employee who is a victim of domestic or sexual violence; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 755, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 755, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Kong). Excused, 3 (Matayoshi, Lowen, Tam).

SCRep. 789 Judiciary & Hawaiian Affairs on H.B. No. 1496

The purpose of this measure is to:

- (1) Establish the position of Ka Papahana Kaiapuni program complex area superintendent;
- (2) Require that at least one at-large member of the Board of Education be a Hawaiian educator, practitioner, or scholar of Hawaiian studies or the Hawaiian language;
- (3) Clarify the purpose and objective of the Hawaiian Language Medium Education Program; and
- (4) Appropriate funds for the establishment of:
 - (A) The Ka Papahana Kaiapuni program complex area superintendent; and
 - (B) A secretary position to support the Ka Papahana Kaiapuni program complex area superintendent.

Your Committee received testimony in support of this measure from the Department of Education; Office of Hawaiian Affairs; 'Aha Pūnana Leo; Ke Kula Kaiapuni o Maui ma Pa'ia; Ke Kula 'o Samuel M. Kamakau Laboratory Public Charter School; Ke Kula 'O Nāwahīkalanī'ōpu'u Iki Laboratory Public Charter School; 'Aha Kauleo; Nā Leo Kāko'o o Maui, Inc.; and numerous individuals. Your Committee received comments on this measure from the Board of Education.

Your Committee finds that this measure will strengthen the State's commitment to 'Ōlelo Hawaii as an official language of the State and ensure the success of the Ka Papahana Kaiapuni education program.

Your Committee has amended this measure by:

- (1) Clarifying that at least one at-large member of the board should be a proficient Hawaiian speaking educator, practitioner, or scholar of Hawaiian studies or the Hawaiian language;
- (2) Clarifying that the Ka Papahana Kaiapuni program complex area superintendent should be proficient in speaking Hawaiian; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1496, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 1496, H.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 790 Judiciary & Hawaiian Affairs on H.B. No. 1376

The purpose of this measure is to require the Director of Corrections and Rehabilitation to:

- (1) Beginning July 1, 2028, reduce the number of committed felons incarcerated at private, out-of-state correctional institutions by twenty-five percent;
- (2) Beginning July 1, 2030, reduce the number of committed felons incarcerated at private, out-of-state correctional institutions by fifty percent; and
- (3) Submit annual reports to the Legislature on its actions and progress to meet the requirements of this measure.

Your Committee received testimony in support of this measure from the Office of the Public Defender; ACLU of Hawai'i; Imua Alliance; Community Alliance on Prisons; Hawai'i Friends of Restorative Justice; and three individuals. Your Committee received testimony in opposition to this measure from the Department of Corrections and Rehabilitation.

Your Committee finds that the gradual reduction of reliance on private, out-of-state prisons will increase accountability, provide greater control over correctional practices, and keep inmates close their families and communities, which will improve their post-release outcomes.

Your Committee has amended this measure by:

- (1) Clarifying that the term "private, out-of-state correctional institutions" includes correctional institutions outside the State operated for profit; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1376, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 1376, H.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9; Ayes with Reservations (Shimizu). Noes, 1 (Garcia). Excused, 1 (Cochran).

SCRep. 791 Judiciary & Hawaiian Affairs on H.B. No. 1308

The purpose of this measure is to allow for the regulation of sports wagering by the Department of Commerce and Consumer Affairs and to specify that sports wagering and fantasy sports contests do not constitute gambling.

Your Committee received testimony in support of this measure from BetMGM; DraftKings; Sports Betting Alliance; and five individuals. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs; Department of the Attorney General; Department of the Prosecuting Attorney of the City and County of Honolulu; Hawaii Family Forum; Boyd Gaming; and numerous individuals. Your Committee received comments on this measure from the Department of Taxation; Department of Budget and Finance; Office of Information Practices; and National Council on Problem Gambling.

Your Committee finds that establishing a legal framework for sports betting in the State can offer several potential benefits, both economically and socially. One key advantage is the reduction of illegal gambling and associated criminal activities, such as illegal game rooms and money laundering. Your Committee believes that offering a legitimate, safe, regulated alternative for sports betting may curb the illegal gambling network in the State, thereby improving public safety overall.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "sports wagering supplier";
- (2) Requiring the Department of Commerce and Consumer Affairs to adopt rules to effectuate the purposes of regulated sports wagering;
- (3) Clarifying when the Department of Commerce and Consumer Affairs may deny a license, reprimand any licensee, or suspend or revoke a license;
- (4) Clarifying the requirements and procedures related to temporary sports wagering operator and sports wagering supplier licenses;
- (5) Amending the penalties for unlicensed sports wagering;
- (6) Specifically authorizing the Department of Commerce and Consumer Affairs to conduct criminal history record checks on applicants and licensees for regulated sports wagering; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider and address the comments raised by the Department of Taxation relating to the collection and enforcement of tax revenues and implementation date of this measure.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1308, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.B. No. 1308, H.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6; Ayes with Reservations (Belatti, Hashem). Noes, 4 (Perruso, Takayama, Garcia, Shimizu). Excused, 1 (Cochran).

SCRep. 792 Health on H.B. No. 1334

The purpose of this measure is to exempt the donation of wild game, including wild game meat products, to charitable, religious, or nonprofit organizations for the purpose of feeding needy individuals from certain laws regarding the inspection and transportation of meat.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; one member of the Maui County Council; Maui Wild Game Management to Feed the Hungry; Hawaii Food Industry Association; Maui Food Bank; Hawai'i FoodBank; Hawaii Cattlemen's Council, Inc.; Hawai'i Farm Bureau; Maui Adaptation Project; Maui Chamber of Commerce; Ulupalakua Ranch; and nine individuals.

Your Committee finds that food security is a growing crisis in Hawaii, with nearly one in three households struggling to access adequate food. Your Committee further finds that wild game, including the invasive axis deer, presents a nutritious, sustainable, and high-protein source of food that can be used to expand food access for needy individuals. Your Committee believes that aligning the State's food inspection laws with the Federal Meat Inspection Act,

which exempts wild game meat from mandatory federal inspection when donated to charitable organizations, will significantly increase food access to those in need.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1334, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs in the form attached hereto as H.B. No. 1334, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 793 Health on H.B. No. 1431

The purpose of this measure is to:

- (1) Establish an Oral Health Task Force to review information and data on the status of oral health in the State and make recommendations to improve the State's oral health infrastructure; and
- (2) Appropriate funds to help facilitate the work of the oral health task force.

Your Committee received testimony in support of this measure from the Department of Health; State Health Planning and Development Agency; University of Hawai'i System; Hawaii Dental Association; AlohaCare; and one individual. Your Committee received comments on this measure from the Department of Human Services Office of Information Practices.

Your Committee finds that Hawaii's oral health program is not meeting the needs of its residents. Your Committee further finds that although the Department of Health operates five small dental clinics that serve individuals who are elderly, blind, intellectually or developmentally disabled, or suffering from a mental illness, all five clinics are located in the City and County of Honolulu, making access to oral health care more difficult for individuals in rural areas and on the neighbor islands. Your Committee believes that establishing an Oral Health Task Force, as proposed by this measure, will provide the State with valuable insight, including identifying key elements and additional staff resources that are necessary to rebuild Hawaii's oral health infrastructure.

Your Committee notes testimony received from the Department of Health which stated that a permanent full-time equivalent position may be unnecessary as the Governor's executive budget includes a request to reestablish the Department of Health's Oral Health Program, which would include establishing two permanent full-time equivalent positions.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified amounts;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$200,000 for the Family Health Services Division of the Department of Health to contract with a consultant to facilitate the work of the Oral Health Task Force and an appropriation amount of \$79,872 to establish one permanent full-time equivalent Program Specialist V position, if the position is needed.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1431, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1431, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 794 Health/Consumer Protection & Commerce on H.B. No. 1194

The purpose of this measure is to:

- (1) Make midwife regulatory laws permanent;
- (2) Clarify the scope of practice of midwifery and establish licensure requirements for certified midwives and certified professional midwives, including continuing education requirements;
- (3) Grant prescriptive authority to certified midwives and amend the list of approved legend drugs that may be administered;
- (4) Establish peer review and data submission requirements;
- (5) Clarify exemptions from licensure and grounds for refusal to renew, reinstate, or restore licenses; and
- (6) Clarify medical record availability and retention requirements for the purposes of medical torts.

Your Committees received testimony in support of this measure from Zen Den Midwifery; Hawaii Medical Association; Healthcare Association of Hawaii; Midwives Alliance of Hawai'i; American College of Obstetricians and Gynecologists – Hawai'i Section; Early Childhood Action Strategy; Banyan Birth; Uncle Bens LLC; Hawaii Chapter of the American Academy of Pediatrics; and numerous individuals. Your Committees received testimony in opposition to this measure from one member of the Maui County Council; Hawai'i Home Birth Collective; Hawai'i Affiliate of the American College of Nurse-Midwives; Libertarian Party of Hawaii; More Than Maternity LLC; Malama Na Pua o Haumea; 'Ōhi'a Midwifery & Wellness Midwives; Birth Believers; Center for Reproductive Rights; Aoki Birthing Care; SHINE Sisterhood Initiative; Pacific Birth Collective; North American Registry of Midwives; Pihana ka 'Ikena; Lāhainā Strong; Democratic Party of Hawai'i; Physio Wellness LLC; Maui Midwifery; Chamber of Sustainable Commerce; Native Hawaiian Legal Corporation; ACLU Hawai'i; Mothering Justice; Hale Kealaula, LLC; and numerous individuals. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs; Hawai'i State Center for Nursing; Papa Ola Lokahi; and American Society of Radiologic Technologists.

Your Committees find that midwives are maternal health care providers whose services play a critical role in maternal health outcomes, particularly among pregnant individuals who wish to have a home birth. Your Committees further find that pregnancy and childbirth create an inherent risk to the health, safety, and welfare of the birthing parent and the newborn.

Your Committees also find that, per the Hawaii Regulatory Licensing Reform Act, the State is required to regulate professions or vocations where the health, safety, or welfare of the consumer may be jeopardized by the nature of the service offered by the provider. Recognizing the potential for harm to public health and safety posed by the unregulated practice of midwifery, the Legislature passed Act 32, Session Laws of Hawaii 2019, which established a regulatory

framework for the practice of midwifery that was subsequently codified as chapter 457J, Hawaii Revised Statutes. These regulations are set to sunset on June 30, 2025, unless the Legislature takes action to continue the regulation of midwives.

Your Committees additionally find that, as part of its sunset analysis, and reported in Auditor's Summary Report No. 25-03 (2025), the Auditor found that the practice of midwifery posed a clear and significant potential harm to the health and safety of the public and that the State's policies regarding the regulation of certain types of professions support the continued regulation of midwives. Accordingly, your Committees believe that the continued regulation of the practice of midwifery is necessary to protect the health and safety of expectant parents and newborns in Hawaii.

Your Committees have amended this measure by:

- (1) Adding a preamble;
- (2) Clarifying the scope of practice of midwifery as a certified midwife and as a certified professional midwife;
- (3) Clarifying that transfer of care protocols for midwives include transferring a client to an appropriate health care facility to address the client's health care needs if the midwife determines that a client requires care outside of the midwife's scope of practice;
- (4) Clarifying the types of cases that are subject to peer review;
- (5) Deleting language requiring the Department of Commerce and Consumer Affairs to verify compliance with the peer review and data collection requirements established by this measure beginning June 30, 2029;
- (6) Deleting language requiring practitioners acting as traditional Hawaiian healers engaged in traditional practices to provide a disclosure form to their clients;
- (7) Adding a definition for "accredited birth facility";
- (8) Deleting the definition for "community birth";
- (9) Deleting language specifying the types of traditional Hawaiian healing practices that do not fall under the definition of "practice of midwifery";
- (10) Restoring existing statutory language that states the licensure requirements for midwives shall not apply to Certified Nurse Midwives and persons who are licensed and performing work within the scope of practice or duties of the person's profession that overlaps with the practice of midwifery;
- (11) Clarifying that persons providing traditional Hawaiian healing practices as either a traditional Hawaiian healer under Article XII, Section 7 of the Hawaii State Constitution or a person recognized as a traditional Hawaiian healer by any kupuna council convened by Papa Ola Lokahi are exempt from the requirements of chapter 457J, Hawaii Revised Statutes;
- (12) Requiring a current certification in cardiopulmonary resuscitation and neonatal resuscitation for an adult and infant/child that includes a hands-on skill component as a requirement for initial licensure and license renewal;
- (13) Clarifying that a midwifery educational program for licensure of a certified professional midwife may be accredited by either the Midwifery Education Accreditation Council or another nationally recognized accrediting agency approved by the United States Department of Education;
- (14) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (15) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Health and Consumer Protection & Commerce that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1194, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1194, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 7; Ayes with Reservations (Amato, Olds). Noes, 2 (Alcos, Garcia). Excused, none.

Consumer Protection & Commerce: Ayes, 8; Ayes with Reservations (Kong). Noes, 1 (Iwamoto). Excused, 1 (Pierick).

SCRep. 795 Judiciary & Hawaiian Affairs on H.B. No. 132

The purpose of this measure is to amend Act 62, Session Laws of Hawaii 2024, to expand the Department of the Attorney General pilot project for a state-initiated expungement process of arrest records concerning promoting a detrimental drug in the third degree to include the possession of any schedule V substance in any amount.

Your Committee received testimony in support of this measure from the Hawaii Correctional System Oversight Commission; Office of the Public Defender; Community Alliance on Prisons; Aloha Green Apothecary; Last Prisoner Project; League of Women Voters of Hawaii; ACLU of Hawai'i; and two individuals.

Your Committee finds that expanding eligibility for expungement under the pilot project will provide greater relief for individuals arrested for possessing small amounts of schedule V substances. This will promote fairness, reduce the stigma associated with certain criminal records, and improve individuals' chances of reintegration into society.

Your Committee has amended this measure by:

- (1) Making additional conforming amendments to Act 62, Session Laws of Hawaii 2024, to include the possession of any schedule V substance in any amount under the pilot project; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 132, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 132, H.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 796 Judiciary & Hawaiian Affairs on H.B. No. 145

The purpose of this measure is to authorize the Hawaii Criminal Justice Data Center to transmit all expungement orders to the Judiciary to effectuate the purposes of Act 159, Session Laws of Hawaii 2023.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Office of the Public Defender; Community Alliance on Prisons; League of Women Voters of Hawaii; ACLU of Hawai‘i; and two individuals. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that Act 159, Session Laws of Hawaii 2023 (Act 159), mandates the automatic sealing or removal of arrest or case information from the Judiciary's publicly accessible databases for individuals with expungement orders, effective by July 1, 2025. However, your Committee finds that the court is currently unable to implement Act 159 because the Hawaii Criminal Justice Data Center lacks the legal authority to release the expungement orders to the Judiciary. This measure would enable the Criminal Justice Data Center and Judiciary to fulfill the mandate under Act 159.

Your Committee has amended this measure by:

- (1) Clarifying that the expungement orders transmitted by the Criminal Justice Data Center to the Judiciary must have a court case number;
- (2) Clarifying the circumstances under which the Judiciary must seal or otherwise remove judiciary files and other information pertaining to the applicable arrest or case of any person for whom an expungement order has been entered and transmitted to the court; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 145, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 145, H.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Cochran, Hashem).

SCRep. 797 Education on H.B. No. 622

The purpose of this measure is to change the due date of the Department of Education's annual computer science legislative report from June 30 to twenty days prior to the start of each regular session of the Legislature.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that the Department of Education is responsible for submitting an annual computer science legislative report every year by June 30th. However, the June 30th reporting due date is too tight of a submission time to include quarter four computer science data from schools. This measure will delay the due date for the Department of Education's computer science legislative report to the end of the calendar year to allow the Department sufficient time to provide more data and a more complete computer science report to the Legislature and public.

Your Committee has amended this measure by changing the effective date to July 1, 3000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 622, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 622, H.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Muraoka).

SCRep. 798 Judiciary & Hawaiian Affairs on H.B. No. 111

The purpose of this measure is to support survivors of sexual exploitation and sex trafficking by:

- (1) Authorizing civil claims to be made against a person, business, business owner, or business operator that profits from sexual exploitation or sex trafficking; and
- (2) Extending the statute of limitations for civil claims related to sexual exploitation or sex trafficking to ten years.

Your Committee received testimony in support of this measure from Imua Alliance and five individuals.

Your Committee finds that this measure will provide victims of sexual exploitation or sex trafficking with an avenue for recourse and hold accountable those businesses, business owners, and business operators that profit from sexual exploitation or sex trafficking.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 111 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Cochran, Kahaloa, Garcia, Shimizu).

SCRep. 799 Judiciary & Hawaiian Affairs on H.B. No. 1175

The purpose of this measure is to:

- (1) Repeal language specifying that an appeal from the Tax Appeal Court be filed with the Tax Appeal Court; and
- (2) Allow an appeal from the Tax Appeal Court to be filed within thirty days of entry of a final judgment.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that existing law relating to the appeal procedures by the Tax Appeal Court is outdated and no longer aligns with the appeal procedures adopted by the Judiciary, creating inconsistencies in the tax appeal process. Your Committee further finds that *Alford v. City and County of Honolulu*, 109 Hawaii 14, 122 P.3d 809 (2005), raised concerns about appellate jurisdiction when a dispositive order is later merged into a final judgement, potentially leading to procedural confusion regarding the timing of appeals. This measure resolves these issues by updating statutory provisions to conform with judicial procedures.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1175 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Cochran, Kahaloa, Garcia, Shimizu).

SCRep. 800 Judiciary & Hawaiian Affairs on H.B. No. 998

The purpose of this measure is to clarify that the omission of certain information or any error in a citation does not constitute ground for dismissal of a charge or for reversal of a conviction, if the omission or error did not prejudice the defendant.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of the Prosecuting Attorney of the City and County of Honolulu; State of Hawaii Organization of Police Officers; and one individual.

Your Committee finds that existing law requires certain information to be included in citations issued in lieu of arrest, including a Social Security number and a residence address. However, in practice, law enforcement officers frequently encounter individuals who are unable or unwilling to provide this information, which has led to dismissals of citations based on technical omissions. This measure clarifies that the absence of certain unavailable information or minor citation errors should not automatically result in dismissal or reversal of a conviction if the defendant is not prejudiced.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 998 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 801 Judiciary & Hawaiian Affairs on H.B. No. 995

The purpose of this measure is to amend the annual reporting requirements imposed on the Department of the Attorney General and the chief of police of each county regarding licenses to carry firearms.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Honolulu Police Department; and one individual. Your Committee received testimony in opposition to this measure from four individuals.

Your Committee finds that the statutory deadlines for reporting firearm license data place undue constraints on the Department of the Attorney General and county police departments. Under existing law, the Department of the Attorney General must publish its annual report by April 1, but county police departments are required to submit their data by February 1, limiting the time available for aggregation and review. This measure extends the county police departments' reporting deadline to March 31 and removes the April 1 publication deadline, ensuring more accurate and comprehensive reporting and allowing the Department to complete its responsibilities within existing resources.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 995 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 802 Judiciary & Hawaiian Affairs on H.B. No. 131

The purpose of this measure is to allow agencies to disclose government records to researchers for certain research purposes.

Your Committee received testimony in support of this measure from the Department of Health; Office of Information Practices; League of Women Voters of Hawaii; Public First Law Center; Grassroot Institute of Hawaii; Hawai'i Data Collaborative; and two individuals. Your Committee received testimony in opposition to this measure from the University of Hawai'i System and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources and Department of Human Services.

Your Committee finds that under existing law, the Office of Information Practices is required to adopt rules setting forth uniform standards for disclosure of records for research purposes. However, there is no statutory authorization of research requests for the Office of Information Practices to implement by means of rules. The substantive law instead sets a general "any person" standard for record disclosure, which prohibits an agency from disclosing a record to some members of the public but withhold it from others. This measure provides clarity in the situation in which agencies may disclose information to researchers without waiving their ability to withhold the information from the general public.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 131 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Cochran, Hashem, Todd).

SCRep. 803 Judiciary & Hawaiian Affairs on H.B. No. 369

The purpose of this measure is to require excess contributions of more than \$100 in cash, in the aggregate, from a single person during an election period to a candidate, candidate committee, or noncandidate committee to escheat to the Hawaii Election Campaign Fund if not returned to the contributor within thirty days.

Your Committee received testimony in support of this measure from the Campaign Spending Commission.

Your Committee finds that candidates, candidate committees, and noncandidate committees are prohibited from accepting a contribution of more than \$100 in cash, in aggregate, from a single person during each election period. This measure ensures that contributions in excess of \$100 are returned to the contributor within thirty days and, if not returned within thirty days, are deposited into the Hawaii Election Campaign Fund.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 369 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Cochran).

SCRep. 804 Judiciary & Hawaiian Affairs on H.B. No. 386

The purpose of this measure is to conform fentanyl to the possession offense thresholds for methamphetamine, heroin, morphine, and cocaine.

Your Committee received testimony in support of this measure from the Honolulu Police Department; Department of the Prosecuting Attorney of the City and County of Honolulu; and Office of the Prosecuting Attorney of the County of Hawai'i.

Your Committee finds that in recent years, fentanyl has emerged as a serious public health threat and law enforcement challenge. In 2022, synthetic opioids, primarily illicit fentanyl, represented more than two-thirds of drug overdose deaths nationwide. The State has not been immune to this threat as there have

been incidents throughout the State, including: the seizure of enough fentanyl in Hawaii County in 2024 to kill one-fifth of the State's population; the conviction of a Maui person for selling fentanyl-laced pills that caused an overdose death; and first responders being dispatched to Thomas Square on Oahu five times in one month for reported fentanyl overdoses. This measure conforms the criminal penalties for possession of fentanyl to that of other common street drugs, such as methamphetamine, heroin, and cocaine.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 386 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.
