Now, I was a hospice chaplain. Some of my assignments were to go to OCCC and to visit terminally ill patients who need to be incarcerated.

"In hospices, sometimes we had patients that would graduate from hospice. Meaning they got healthy enough where their prognosis wasn't six months to death. So, let's say we let somebody out of prison, it's possible for them to get healthy again. That means we could be potentially letting out rapists and murderers back into the streets if they get healthy again. So, this is a soft on crime bill that I'm voting no on."

"In support with a brief comment. Thank you. Madam Speaker, this bill is about modernizing the way we fund the University of Hawai'i. Today, UH operates under a highly fragmented line-item budgeting structure that is far more prescriptive than most public university systems across the country. Hawai'i is very unique in how tightly we allocate higher education funding. That structure was designed for oversight. And of course, oversight remains important. But in an environment where universities must respond quickly to enrollment shifts, research opportunities, and workforce demands, rigidity can become a barrier.

"HB 2519, HD 1 provides measured flexibility, not unchecked autonomy. It maintains constitutional guardrails and transparency while giving UH the ability to strategically plan and operate more effectively. This bill does not remove accountability. It strengthens our ability to demand results while giving our university the tools to deliver them. If we expect UH to compete,

innovate, and serve our students at the highest level, we must give it a structure built for today, not one designed for decades past. Thank you."

Representative Shimizu rose to speak in support of the measure with reservations, stating:

"Thank you, Madam Speaker. With reservations and a brief comment. I understand the well intention of this bill, and I don't disagree that we need to be sustainable. Just in conversation with lei makers, it is difficult to get locally sourced flowers for their volume of business. So, I would just caution that we allow the market to dictate their actions as they're financially able to. Thank you."

Representative Gedeon rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Cochran rose to speak in support of the measure, stating:

"Thank you, Speaker. I stand in strong support. As a personal lei maker myself, I'm able to collect flowers just on my own personal level. And I would hope that this will prompt us to not have to bring in outside imported flowers, because orchid island of Hawai'i should be growing the orchids, and so Hawaiian tropical flowers should be prominent and growing everywhere here as they're tropical and we're in the tropics. So, I hope this will prompt us to utilize our agricultural lands in this manner to start growing our beautiful floral plants. So, that's my reason for strong support. Thank you."

Representative Pierick rose to speak in opposition to the measure, stating:

"Thank you, in opposition. Okay, so this bill would basically use hard-earned taxpayer dollars to pay off people's electric bills. That's one way to, for some people, reduce the cost of electricity. But I believe a better approach is for all of us to work together to reduce the cost of electricity for everybody. And that can include getting rid of the 2045 mandate to convert our state to 100% renewable energy. It's really an unattainable goal. And if we instead switch to diverse energy, firm energy, and nuclear power, we can reduce the cost of electricity. So, I'm voting no."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. Okay, so this bill would ban conversion therapy for people from 25 years old and younger. So, everybody in our gallery, it's currently illegal for counselors to say, you know what, you weren't born a homosexual, everybody's born heterosexual, but you choose to have a lifestyle other than heterosexuality. This bill would expand that from 18 years old to 25 years old. That's not good.

"If God already said that you are fearfully and wonderfully made, he did a good job. If he said in Genesis 1, I made you male and female. This bill says counselors can't say that, basically, to their clients. They can't try to convert a member of the LGBT community back to heterosexual or cisgender.

"Government should not police private conversations between a counselor and their patient. This bill gives government control over family and personal matters. I'm voting no."

Representative Tam rose to speak in support of the measure, stating:

"Thank you, Madam Speaker. In support. I just want to clarify that conversion therapy is already illegal in the state since 2018. Counselors shouldn't be practicing conversion therapy right now anyway. But what this bill does is put in protections for victims of conversion therapy who have fallen to these deceptive practices in case of a pending court case before the Supreme Court, if the courts choose to reverse many other states' conversion therapy ban laws."

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Madam Speaker. In strong support. Can I adopt the words of the Tourism chair as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Pierick rose to speak in opposition to the measure, stating:

"Thank you, in opposition. Okay, in the NIFLA v. Becerra 2018 Supreme Court case, it held that the government generally cannot force private conversations to communicate state-mandated messages because doing so violates the First Amendment's protection of free speech. This bill opens the door to lawsuits and professional discipline with vague definitions for change, reduce, and discourage. The Supreme Court right now has, I believe, six out of nine of the members lean conservative. So, it's unlikely that this court case will be overturned. So, this bill is basically hoping to become an act to become like a trigger bill. If that Supreme Court case gets overturned, then the advocates of this bill are hoping that it further prohibits conversion therapy. This is a bad idea. I'm voting no."

Representative Tam rose to respond, stating:

"Thank you, Madam Speaker. Still in support. Just want to clarify that the courts have given us the ability to regulate deceptive practices."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ilagan rose to speak in support of the measure, stating:

"Thank you, Madam Speaker. I stand in strong support for HB 20 with comments. HB 20 is a subsidy bill. It subsidize low-income families with a gross income at or below 80% AMI in lava zones one and two. For Hawai'i County, that is a single or two-person household at about \$60,000 to \$70,000 annually. This means a family can pull a mortgage up to \$400,000 and buy a home in lava zones one and two, where the median home sale price is around \$350,000. That is factoring in a homeowner's insurance of \$1,000 a year.

"Did you know, Madam Speaker, these were 2018 figures pre-lava eruption that the U.S. average for homeowners insurance is around \$2,500 a year, which is over \$200 a month for a home valued at \$300,000. Now, these low-income families after 2018 post-lava eruption on the high end are paying \$8,000 a year. Which means their monthly premiums is up to \$700 a month.

"All these numbers may seem confusing, and doing the math can be difficult. But Madam Speaker, imagine yourself in these families' shoes. Imagine working hard to finally buy a home, and then after a disaster, facing premiums that jump suddenly and put your home at risk. To face these issues after a disaster is devastating. Low-income families are asking for relief at a time where their homeowner premiums have gone up eight times their original amount.

"We must have compassion for these low-income families who have no place for lava zones one and two to build a home. On top of that, they are families who are at below 80% AMI, who are an even more vulnerable part of the population. They are a minority on the Big Island because insurance companies has discriminated against them to their geography. They are a minority due to their income, not being able to make enough, and being designated as low-income families. We are known to be a body who helps minorities. So let us help this demographic, this minority of minorities, in a time when they need the help the most. Madam Speaker, we should be by their side, helping them stay in their homes."

Representative Muraoka rose to speak in opposition to the measure, stating:

"Madam Speaker, may I have the words of the previous speaker adopted as my own. In opposition. But my opposition doesn't go against what was just said, my opposition goes against what could be coming. I agree, we need affordable places for our low-income families to call their own. However, when you buy a house, they let you know that it could be in an inundation zone. It could be in a lava zone. And I feel that if we do allow this, it could potentially be so harmful because now it becomes an investor's dream. So, our low-income families who finally had a place to call their own will eventually be pushed out by rich investors, possibly rich out-of-state investors. That is the reason for my opposition," and the Chair "so ordered." (By reference only.)

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Madam Speaker. In strong support with a brief comment. For many local families, living and buying in lava zones one and two is not a luxury choice. These are areas that are some of the only remaining affordable places in Hawai'i Island and in the state to buy property. These are families who are doing everything they can in order to stay in Hawai'i rather than being forced to leave to the continent. These are teachers, healthcare workers, *kūpuna*, working families who are simply trying to get by and remain rooted in their communities.

"Since 2018, as the representative from Puna had mentioned, and over the last couple of years, my office, and well, really two of us, because there are only two of us who represent areas that have lava zones one and two in our communities, have experienced extreme numbers of calls and emails from constituents who are facing skyrocketing insurance costs. These are premiums that were once around \$700 to maybe \$1,000 a year, that have now ballooned to over \$8,000 annually. For families that are already living on the margin and in tight budget conditions, that's unsustainable. I have had community members call and beg for support just so they can stay here in Hawai'i.

"And we have to remember that without property insurance, families cannot obtain or keep a mortgage. This isn't just an insurance issue. This is a housing stability issue. Because like it or not, people live in these zones already. This measure is carefully and narrowly crafted. It applies only to low-income residents who live in their homes, and if you read that bill, then you know that that's already in there. It also ensures that investment properties do not qualify. This bill is about protecting people who live in these communities currently, and this is not about speculation and not about profit.

"I also want to remind folks on this floor that every single year, millions of people come to Hawai'i to see the volcano. They come to Hawai'i, they visit Hawai'i Volcanoes National Park. Annually there is about more than 10,000 visitors per day that come to visit and experience the natural wonder of the volcano. Those visitations generate approximately half a billion dollars a year in annual visitor revenue. Surely, it is just and reasonable for us to support the vulnerable residents who live in this community.

"This bill is about fairness, it's about housing stability, it is about ensuring that local families have a fighting chance to stay here in Hawai'i, and that's all we're asking for support for."

Representative Muraoka rose, stating:

"Madam Speaker, I'm actually changing to reservations if what the previous speaker said is actually true and it does only protect our low-income families. She is correct, I didn't read the bill in its entirety as I've been pretty busy as everybody else is. So, I will go reservations and look into this bill. Thank you."

Representative Shimizu rose to speak in support of the measure with reservations, stating:

"Thank you, Madam Speaker. With reservations. I'd like to *mahalo* and acknowledge the speaker from Kalapana and from Ka'ū. I appreciate their insights and their relevant firsthand sharing that changed my initial vote from a no to a reservations. I need to learn more about this bill and be able to support it fully. But I want to *mahalo* the, again, the words of the representatives from Hawai'i Island. Thank you, Madam Speaker."

This bill repeals the salary cap for the state librarian, so who knows how much they'll get paid after this bill, if it becomes a law. I'm voting no."

"The rates in the current version are blanked out. The introduced version had rates which would lead to significant decreases in conveyance tax rates. For most homes, the vast, vast majority of homes, under \$2 million, the median priced home in Hawai'i would see a significant reduction in conveyance taxes. Most of the revenue raised in the introduced version of the bill would come from high value, non-owner-occupied homes. And again, that funding would go to the Department of Hawaiian Home Lands, and a portion of that would go towards infrastructure. Thank you, Madam Speaker."

"Madam Speaker, in support. May I please adopt the words of our Housing chair and brief comment.
