The Committee of three escorted Reverend DuFresne to the dais and was discharged with thanks.

The Divine Blessing was then invoked by Reverend DuFresne.

MESSAGE FROM THE GOVERNOR

A message from the Governor (Gov. Msg. No. 1), informing the Senate that he has appointed the Honorable W. Buddy Soares as Senator from the Seventh Senatorial District to fill the vacancy in the membership of the Senate created by the resignation of State Senator Frederick W. Rohlfling on October 31, 1975, was read by the Clerk and placed on file.

The appointing document reads as follows:

Senator Taira moved that a Committee of three Senators be appointed by the President as a Committee on Credentials,

seconded by Senator Anderson and carried.

The President then appointed Senators Nishimura, Chairman, O'Connor and Anderson as members of the Committee.

At 10:07 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 10:25 o'clock a.m.

SPECIAL COMMITTEE REPORT

Senator Nishimura, for the Committee on Credentials, presented a report (Spec. Com. Rep. No. 1) which was read by the Clerk as follows:

"The Honorable John T. Ushijima
President of the Senate
The Eighth State Legislature
Regular Session of 1976
State Capitol
Honolulu, Hawaii 96813

Sir:

Your Committee on Credentials begs to report that it has examined the Letter of Appointment of Honorable W. Rohlfing for the Eighth Legislature of the State of Hawaii, Regular Session of 1976.

Respectfully submitted,

Donald S. Nishimura, Chairman
Dennis O'Connor
D.G. Anderson"

Senator Nishimura moved that Special Committee Report No. 1 be adopted, seconded by Senator Anderson and carried.

The Committee was thereupon discharged with thanks.

Senator Taira moved that a Committee of three Senators be appointed to escort Chief Justice William Richardson to the dais to administer the oath, seconded by Senator Yee and carried.

The President then appointed Senators Ching, Taira and Yee to serve as members of the Committee.

The President also appointed Senators Saiki and Anderson to escort Senator Soares to the floor of the Chambers.

Chief Justice Richardson then

administered the oath of office to Senator Soares.

The Committees were then discharged with thanks.

At this time, the Roll was called showing all Senators present.

Senator Taira then rose to congratulate Senator Soares on his appointment and welcomed him to the Senate.

Senator Anderson then spoke for the members of the minority in congratulating Senator Soares and welcoming him as a member of the Senate.

Senator Soares then addressed the members of the Senate expressing thanks to Governor Ariyoshi for the appointment and noting that he is looking forward to working diligently with the committee chairmen in carrying out the responsibilities of a State Senator. He added that as he had always done as a member of the House of Representatives, he will do his very best to cooperate when necessary, and to object when necessary.

At 10:32 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:10 o'clock a.m.

The President then addressed the members of the Senate and guests as follows:

"Governor Ariyoshi, Mrs. Ariyoshi, Lieutenant Governor Doi, Chief Justice Richardson, United States Senator Fong, Mayor Matayoshi, Mayor Malapit, other distinguished elected public officials, my fellow Senators, distinguished guests, ladies and gentlemen:

A year ago, we assembled here to begin the first session of Hawaii's Eighth State Legislature. It was, for all of us, an auspicious moment. For me, it was doubly meaningful in becoming the presiding officer of this body for the first time.

It has been my privilege to serve in this Legislature continuously since we became a State sixteen years ago. Yet, the excitement and enthusiasm that pervades our annual opening day ceremonies have never ceased to impress me. To be sure, the colorful traditions that characterize our openings are indeed unique to Hawaii's Legislature. To dispense

with them would be a genuine loss to our special Island way of life.

Yet, there is a deeper meaning in the time-honored process we begin today; a significance that rises above the festivities and the ceremonial trappings that are customarily attendant to the convening of a new legislative session.

In some measure, each of us can draw fresh inspiration in the knowledge that our presence here and the purpose for which we are gathered represent the most enduring qualities of our democratic system. Whatever its imperfections, the marvel of our system of representative government is that it continues to work.

In this bicentennial year of our country's founding, I find it singularly appropriate that we pause to consider the source of our durability and why it is possible for us to continue to govern ourselves and to determine our own destinies through political institutions that have stood the test of time.

In reflecting on this thought, I am reminded that we meet at the foot of Punchbowl, the Hill of Sacrifice, where lies the most inspirational political leader Hawaii is likely to know for many, many years. The late Governor Burns remains a shining example of democratic leadership, and he continues to inspire us as we meet to discharge our sworn duties to the people of this State.

Thus, it is timely to remind ourselves that when we convened twelve months ago, we acknowledged the beginning of a new Administration. We recognized the need to establish a new relationship with a new Governor and his new cabinet.

It was indeed proper that, during our first session, a mood of patience and understanding characterized the general temperament of this body and its members. Generous allowances were made during a period of grace, so to speak, in a desire to understand each other better.

Such obligatory period can now be regarded as ended, and it is entirely proper for us to begin expecting clearer responses, a sharper sense of purpose and direction, as we review the Executive's recommendations in this second session.

The goals presented in the Executive's State-of-the-State message last year

were timely indeed and, for the most part, we concur with the expressed objectives. What we seek now are clearer ideas on the means by which the Administration expects to achieve such goals. We can rightfully expect, from the Administration, new, imaginative and innovative ideas formulated on the basis of a year's experience in administering the day-to-day affairs of our government. If none is forthcoming, we are obligated to move ahead on our own initiative.

If we are to fulfill our own responsibilities in shaping State policy, we must press on with constructive programs for improved education, consumer protection, public safety, transportation, a full-employment economy founded on clear goals in the direction of our economic development, environmental programs, both physical and social.

We of the Senate majority have a legislative program of our own, the outlines of which are documented in our majority program, drafted over the interim months since the last session. Specific legislation to implement this program will be offered in the days to come.

We welcome the constructive suggestions and counsel of all interested parties, as well as the public at large, in our forthcoming deliberations. It is only by assimilating data and information from all available sources that we can arrive at decisions that will best meet the current and future needs of all the people of this State.

Yet, one thing is clear. We must be decisive. Whatever the risk, it is time for action.

Among the many important considerations to which we will address ourselves in the coming days and weeks are:

A review of the Board of Education as it is presently constituted and apportioned. Legitimate questions of imbalanced representation have been raised by those geographical entities not directly represented on the board.

If an elected board of manageable proportions cannot be apportioned as a consequence of our insular geography, then it may be timely to reinstate an appointed school board. Perhaps an entirely new system should be devised instead. Consideration should even be given to gubernatorial appointment of the Superintendent of Education. Certainly, we can take the initiative

in adopting appropriate statutory provisions to establish a more effective system of citizen representation in school affairs. Concurrently, we can propose the necessary constitutional amendments subject to ratification by the electorate this fall.

We are concerned, too, over recent incidents of campus violence and the wanton and deliberate destruction of school property. A safe educational environment is essential both for our students and our teachers. Accordingly, the Department of Education's safety and security program will be given close scrutiny.

Special attention should also be focused on State and County programs of public service jobs. How effective have these programs been? How can they be expanded? It might be well to consider, for instance, the application of public service employment in education.

There is widespread public concern over the achievement levels of our students in basic educational goals--in reading, writing, and comprehension. It seems clear that there has been abundant attention and funding given to the development of optional systems to teach these skills, as well as other disciplines. Perhaps the large numbers of unemployed teachers awaiting full-time assignment can be deployed in special public service jobs to provide extra classroom attention to students. With imaginative planning and with the cooperation of the teachers' union, there is no reason why this cannot be done without imbalancing the regularly budgeted level of teacher employment.

In our criminal justice program, there has been considerable concern expressed over delays in establishing new maximum security facilities at Halawa. A crash program may be in order here, so that our correctional program personnel may have greater flexibility in accelerating changes and improvements in other areas, pursuant to the guidelines adopted in the State's Correctional Master Plan.

We intend also to continue close examination of our programs at the University of Hawaii. Many are still dissatisfied with imprecise answers received so far as to the productivity levels of university personnel. We recognize the value of research, however esoteric or pure it may be. But we are also mindful that accommodation must be made for immediate community needs as well,

if the university is to meet its total statewide responsibilities.

In consumer protection, we are especially concerned with the regulation of those industries whose products and services bear directly on the average citizen's cost of living. Reports submitted to us have pointed out some of the weaknesses and problems inherent in the Public Utilities Commission as presently structured.

This may be one activity that should be immediately strengthened on the basis of a 'clear and present need,' rather than to await the final recommendations of the Government Reorganization Commission, which only recently began its deliberations. If stronger staffing is required, perhaps now is the time to establish a full-time P.U.C. to insure more comprehensive examination of commission-regulated businesses, so that the consumer's interest can be adequately protected.

Mindful of the problems that have arisen in other jurisdictions and of our responsibilities to insure adequate medical care for the average citizen, we will focus close attention on proposals to stabilize medical malpractice coverage.

Refinements in our established no-fault auto insurance law are in order, too, particularly with respect to those provisions covering motorists dependent on public welfare assistance.

Foremost among our concerns is the economy of our State. If a full employment economy is our goal, we need clear guidelines on how best we can reach this goal.

Unemployment projections in our construction industry are distressing, to say the least. As a related matter, it may be timely to accelerate joint State-county plans to undertake the Kakaako Redevelopment Project. While this is primarily a local responsibility, the area involved and the job to be done is of a scope and magnitude that deserves special interest by the State.

And if agriculture is to be accepted as a basic industry and to be expanded, let us take the most effective steps now to do this.

We have authorized initiatives in the past to shore up the weakened foundations of our agricultural industries on our Neighbor Islands. We are dismayed that some ventures supported by the State have foundered so badly. We are pleased that others

have enjoyed a measure of success and show promise for the future. We are hopeful that firm Executive leadership will be exercised to salvage those projects at Kohala that are basically sound.

If mistakes were made, let us pinpoint the causes of those failures. Let us learn from these experiences, but let us not be timid in trying anew merely because of past errors.

In all these considerations; our approach will be, as always, cooperative in spirit, conciliatory in temperament and committed to excellence in all that we undertake.

We would prefer to act in concert with the Executive branch, recognizing the values of eclectic selection where different options are available. Nevertheless, it must be made clear that this body is prepared to take its own initiatives, for we firmly believe the time is at hand for decisive action.

There has been an abundance of planning, of deployment of various and sundry task forces, of studies and reports.

And it is inevitable that some will continue to remind us that the times remain uncertain and the future too clouded to chart a clear course.

But an uncertain tomorrow does not mean we should remain insecure in our judgments. No one on this earth has yet developed a fool-proof crystal ball.

Judgments and decisions must be made, and we must be bold enough to make them.

When this nation was founded two hundred years ago, men moved decisively and took action to bring about those changes they desired in the condition of their lives.

In this Bicentennial year, it is indeed timely that action be our own theme for the session we begin today.

Finally, I wish to again acknowledge the continued counsel and valued contributions of our minority members. Our overall output in the past has reflected accommodation of their thoughts, as well as their cooperation in placing the higher good of our State above petty partisan considerations. I am indeed grateful to the minority leadership and members for their demonstrated desire to work together in harmony

with the majority without sacrificing their integrity as the 'loyal opposition.'

I also take this occasion to extend a special welcome to our new member from the Seventh District, the Honorable Buddy Soares. In welcoming Senator Soares, I find it only fair to caution him about a commonly held expectation: While the Senate is constituted of less than half the membership of the House, it does not mean that we carry as much clout; on the contrary, it only means we have twice as much work to do.

But you won't be alone in bearing the burden. We all have much work ahead of us. It is my full expectation that upon adjournment, we will all share pride in a genuinely productive and meaningful session of good work.

Let us, then, get on with it.

Thank you."

Senator Yee then responded by stating that the Republican members of the Senate offer their cooperation and input into good legislation. He stated that they will be firm in their philosophies regarding financial matters, economic planning, and crime and justice. He added that should there be any surplus monies available, it should be used for cash appropriations in construction projects, reduction of our present debt and even used to assist in the unemployment area.

Senator Ching, in response to the President's remarks, stated that he had rarely heard a clearer statement of legislative intent ever made at the outset of a session. He added that the majority members have a solid program to present and consider during this session and noted that it is incumbent upon the members to put together their best efforts which will result in a most productive session.

The President then announced that Senator Soares will serve as a member of the Committees on Ecology, Environment and Recreation, Economic Development, Human Resources, Transportation and Ways and Means.

Senator Ching then expressed thanks and appreciation to Zulu, the Council on Hawaiian Heritage, Reycards, Hui O'Hana, Tokyo Joe, Dick Jensen and the Surfers for contributing their talent gratis.

JOINT SESSION

The Joint Session of the Senate and
the House of Representatives was
called to order at 11:04 o'clock a.m.
by the Honorable James Wakatsuki,
Speaker of the House of Representatives.

At this time, the Speaker introduced
to the members of the Eighth Legislature

Mrs. George Ariyoshi, who was presented
with a white carnation lei by Representative

The Speaker then introduced to
the members of the Eighth Legislature

At this time, the Speaker appointed

of Senators Ching, Taira and Yee,
and the Committee from the House,,
composed of Representatives Ushijima,
Kimura, Stanley and Poepoe to escort
Governor George R. Ariyoshi to the
dais. Governor Ariyoshi was presented
with a red carnation lei by Representative
Stanley.

The Speaker then presented the
Governor of the State of Hawaii, the
Honorable George R. Ariyoshi.

Governor Ariyoshi addressed the
Joint Session as follows:

"Mr. Speaker, Mr. President,
Mr. Lieutenant Governor, Members
of the Eighth State Legislature,
distinguished ladies and gentlemen:

I am sincerely grateful for this
opportunity to address you today
in joint session and I thank you for
your warm expression of Aloha.
As a former legislator, I recognize
and I appreciate the difficulties and
challenges which are yours and I
extend to you my best wishes for
a productive and meaningful session.

In this year of our Bicentennial,
a great faith must grow in us--faith
in God, in our country, and in ourselves.
We must hold a great hope for global,
national and personal peace and prosper-
ity. We must declare again our
resolute fidelity to the spirit of Aloha
and we must rededicate ourselves
to that sincere righteousness in govern-
ment and in our private lives which,
our State motto tells us, 'perpetuates
the life of the land'. And we must
pursue, with unremitting diligence,
the goal of excellence in all our
endeavors.

When I appeared before you just
twelve months ago, I expressed some

of our fundamental hopes and aspirations, our broad objectives and policies and our basic concerns over the future of our beloved State of Hawaii. We were a new Administration and therefore we did not pretend to know all of the answers to the many problems facing us.

The months since then have been a period of assessment--thoughtful deliberation on the needs, the hopes, and the aspirations of our people and how best to meet them.

Let me briefly share with you some of the results of our assessment.

We all know that in the years which preceded Statehood, Hawaii was predominantly a rural, agriculturally oriented society. We were small in size and number, and we had little need for concern over events in other parts of the world. But the onset of World War II and the years which followed have greatly changed this State. We have more industry, more visitors and more people than we ever thought possible. We have built super highways, tourist destination areas, massive airports, modern schools, parks, a community college system, homes, stores and hundreds of other facilities designed to meet the needs of a new and burgeoning population.

Our people have told us that they generally like Hawaii as it is today. It is a good place to live. It is a good place to raise a family. They enjoy having visitors share with them the overwhelming beauty of our land. They are confident about their future and the basic soundness of our economy.

But they are also apprehensive. They have concerns. They have problems. These are some of the things that they have said to us:

What is wrong with a society when 8.3 percent of our people cannot find meaningful work?

What kind of a State have we built when we devote large amounts of our government resources to education, yet some of our children leave school unable to read?

What kind of State is this that can be so economically devastated by forces over which we have no control?

What kind of people are we to have lost faith in our government, its elected officials, and the civil servants who conduct our business?

What kind of society are we when our health needs are threatened because our medical practitioners can no longer treat us?

What kind of a State is this when our prisons neither rehabilitate offenders nor protect the innocent, and our children are afraid to go to school?

What kind of people are we when we permit those less fortunate than ourselves to suffer from hunger, illness, or lack purpose in their lives?

What kind of society have we built when a middle income wage earner is unable to buy his own home?

These expressions of concerns from our people have indicated to us that they want this State Administration to set its priorities around jobs, a government open and responsive to the needs of its citizens, personal safety, the diversification of our economy, the basics in education, help for the less fortunate, and housing.

Knowing this, we are now prepared to present to you our directions and our programs for the conduct of our State government.

Some of these programs are already underway; some have been planned and are ready to begin; some, because of their complexities, are still in the planning stage; some require your support by enabling legislation and the commitment of resources; but all are identified and ready to be actively promoted and pursued. Let me share them with you.

Unemployment

I am appalled at the rate of unemployment amongst our people. To cope with this problem, the following program of action is being undertaken:

1. I have directed my Administration to accelerate the processing and release of authorized capital improvement project funds in order to get government construction projects underway just as quickly as possible.

2. I have authorized an acceleration of essential repairs and maintenance work for public buildings which will assist in creating more job opportunities in the construction industry. A total of \$6.9 million has been released for school repair and maintenance. I am also asking for an additional \$2 million for much needed improvements to our public facilities.

3. I am submitting legislation to continue, through the use of unexpended funds, the program which this Legislature began in 1975, which has provided government jobs to 700 unemployed persons.
4. I have implemented a corps of civilian workers, through which the unemployed were hired, to work in various State park areas under the auspices of the Department of Land and Natural Resources.
5. I have authorized the Director of Labor and Industrial Relations to negotiate an interest-free loan with the Federal government to replenish the Unemployment Compensation Trust Fund and to assure the continuation of benefits to all eligible recipients. This is a short-term solution. For the long term, I am proposing legislation which will insure the future solvency of the Trust Fund, provide for more equitable employer contribution rates and permit us to repay the federal loan.

6. I am proposing legislation which will provide benefits only to those claimants who are involuntarily unemployed through no fault of their own; which will render ineligible any claimant who leaves work on his own volition and without good cause.

Those are the major features of our action program to help resolve the current unemployment problem. It will not bear full results immediately, since some of the activities will require your assistance; however, it is designed to get the State moving in the direction of relief for our labor force.

On the other hand, I do not believe that this is a problem for which the public sector should bear sole responsibility. Our business community has an enormous stake in the overall health of our economy, and I call upon them to undertake a concerted program of action to assist our people in their time of need.

An Open and Responsive Government

We are committed to the advancement of a philosophy which protects and promotes the rights and interests of our people as consumers and responds to them as the valued citizens that they are. We believe in the protection of the consumers in the market place and the efficient and the responsive delivery of government services.

Since I last addressed you, a number of steps have been taken in this

direction.

1. We have established within the Department of Regulatory Agencies a specialized office to focus on consumer problems and expedite consumer complaints in industries regulated by the State.

2. We have sought with some success and will continue to press for the elimination of the high discriminatory rates that our Hawaiian Telephone consumers now pay for long distance calls to the Mainland. We can, and we must, eliminate this discrimination without otherwise unduly burdening Hawaii's consumers.

3. We are now implementing the law, passed by you during the last session, which provides for the regulation of automobile repair dealers in the interests of the consumer public.

4. The Office of Consumer Protection has established a new outreach program to help consumers in outlying areas.

5. Based on authority given by you during the past session, the Office of Consumer Protection is now promulgating substantive rules dealing with misleading advertising.

Much more remains to be done. In this Session, we will ask that you enact legislation to significantly improve and to strengthen the regulation of our most essential industries--energy, communications and transportation.

These utilities will warrant our special attention because they are presently experiencing substantive changes brought about largely by conditions beyond their control--notably the severe shortage of capital and the spiraling cost of energy. Qualified and expert regulation therefore is essential.

Accordingly, we ask that you establish a full-time PUC--Public Utilities Commission. We also ask that you make an additional commitment of State resources to strengthen the regulatory process.

We will present for your consideration a major piece of legislation to deal with the current complex crisis in the field of medical malpractice insurance. A number of intricate and interrelated issues are involved in this question. I urge you to consider them thoughtfully and thoroughly.

We will, in this Session, request appropriations to achieve a much higher degree of equity and uniformity

in the real property assessment program; to develop a statewide integrated tax accounting system; and to computerize the general excise tax, the use tax and withholding tax programs. This, we believe, will improve our productivity, lower our costs, and result ultimately in savings to the taxpayer.

This year, as in the past, there will be a substantial package of bills for your consideration relating to the protection of the citizens in the market place. These measures attempt to clarify our consumer protection laws so as to improve our operations or include areas not previously covered. We hope that you will, as you have in the past, support such changes.

Let me state also that it is my conviction that the question of the calling of a Constitutional Convention should be put to the people on the ballot of 1976. I urge your positive action on this matter.

I want the people of this State to know that I have told my cabinet officers and their program managers that this Administration is dedicated to making government and its activities open to public view and scrutiny, and responsive to the needs of its citizens. I will insist on that posture throughout.

Personal Safety

In many parts of our nation today, law abiding citizens fear for their personal safety. Hawaii's people have only lately been faced with this problem, but we have learned that it is a matter of growing concern.

I am disturbed by the fact that the present efforts of various agencies from the Federal, State and County governments have not been as effective as might be desired in combating organized crime in Hawaii.

I am taking the position, therefore, that we should inquire into the situation and seek ways which will facilitate a more coordinated approach in the matter. I have asked the Lieutenant Governor to assist me in this task.

Infinitely more worrisome to all of us is the safety and the security of our children in our schools. For seven hours a day, 176 days a year, the school is the living environment of our children. We cannot, therefore, tolerate a situation in which the fear of physical harm or the destruction of school property

endangers that environment and its educational purpose.

The fact of the matter is that our public schools are faced with an increasingly serious problem of anti-social behavior which disrupts and, on occasion, destroys the educational atmosphere. Property losses have soared, but more importantly and of greater concern to me is the increased incidence of hijacking, gang fights, assaults, threats and serious bodily injury which have occurred in recent years.

The Department of Education is continuing its efforts to stem the tide through its ongoing programs of alienation counseling and student activities. In addition, we have utilized three temporary State programs to supplement their efforts. The State and federal temporary employment programs have provided personnel for campus supervision and counseling. We also have instituted the School Security Patrol Pilot Project, which is designed to curb disruptive behavior.

To further these efforts, we are asking you to provide funds to increase school security in the form of alarms and patrols, and to provide crisis intervention training for teachers such as will enable them to identify potential problems and deal with them before they become major disturbances. I most urgently request your favorable action on these items.

In this area of concern for personal safety, we must also address ourselves to the question of the adequacy and appropriateness of the treatment programs for juvenile and adult offenders. Our policy is to remove offenders from ready contact with our citizens when necessary, and to develop modern correctional programs to rehabilitate them and to seek their return to productive community life.

It is a known fact that most of Hawaii's prisons and jails were constructed in an era when isolation of offenders in order to protect society was the only purpose to be served. Later attempts to provide rehabilitative programs in such facilities have met with varying and less than satisfactory degrees of success.

It is therefore urgent, if we are to reduce the incidence of prison violence and meet the objective of public safety, that adequate funds be provided immediately so that construction of the correctional facilities called for in our Master Plan can begin without further delay. I am,

therefore, recommending your immediate passage of an Administration measure which will permit the Department of Social Services and Housing to proceed.

We will require approximately \$10 million in State capital improvement funds. An Intake Service Center/Community Correctional Center will be located in each county of the State. This will replace the existing county jails. The present Halawa Jail will be remodeled and expanded to become the high security facility for the State, while the present Hawaii State Prison will be largely demolished and replaced by a multi-building Intake Service Center/Community Correctional Facility for Oahu. This Administration is committed to the construction of these facilities. Hawaii State Prison, and all that it represents, must go--and soon.

We are transmitting to you legislation which we hope will further contribute to peace and order in our public places. This legislation would require that persons convicted of a crime due to mental illness shall, before release, be subjected to a mental examination and hearing to determine whether they should be discharged back into the community. I urge your favorable action on this proposal also.

The Economy

During 1975, our Administration emphasized the broad goal of greater independence for Hawaii in two basic areas: energy and agriculture. We have made important gains in understanding how precariously we live in terms of our dependence on imported petroleum. We have joined with the Federal government in trying to make every citizen aware of this basic problem and of the need for conservation of energy. At the same time, we have moved toward developing alternate energy resources. We have been fully aware that this is a long-range program, and that progress will be painfully slow in light of the complex economics involved.

We are looking into the potential for the development of what energy specialists call 'energy plantations' which would grow crops for fueling electrical generating systems. Solid waste products offer other energy potentials. A State waste recycling center is in operation on Sand Island. Our State Task Force on Solid Waste Energy Resources reports that the municipal wastes on Oahu alone could replace 1,000 barrels of fuel oil per

day. I am pleased that our sugar plantations on the Big Island are burning tons of bagasse to produce electricity and make better use of a once wasted resource, a resource which once was a pollutant.

Kauai's Mt. Waialeale is the object of intensive study now by our Department of Land and Natural Resources. We seek to determine how this enormous energy reserve can be wisely developed. Your cooperation last year in funding this study could eventually result in a large hydroelectric dam, beautiful new lakes and parks, and an inexhaustible power supply for the Garden Island, with a concomitant decrease in its need for costly petroleum.

In our supplemental budget request, we are asking you to fund the support facilities--roads, utilities, shelter, and fences--for the Hawaii Natural Energy Laboratory at Ke-Ahole Point on Hawaii. Ke-Ahole is an ideal location for conducting our essential scientific energy studies and testing.

Let me also share with you the fact that the National Strategic Petroleum Reserve Storage Plan, which was being developed by the Congress, would have been of little benefit to Hawaii because it limited such oil storage to the Mainland. We worked swiftly and, with welcomed help from our Congressional delegation, we convinced Congress of Hawaii's unique supply vulnerability. I am pleased to report that last month, Congress passed the Energy Policy and Conservation Act with a provision for Hawaii to have its own Strategic Petroleum Reserve Storage. This is important in protecting us from oil embargo-type crises. Additionally, it may bring millions of dollars to Hawaii in construction funds.

Energy is a fundamental need for Hawaii and, with your help, our Administration's energy work will continue.

No less fundamental and critical to our future is our work in agriculture, where diversification, stability and expansion are our goals. These goals in no way conflict with or detract from our continuing dedication to the importance of our basic agricultural enterprises of sugar and pineapple.

Many of our present farming ventures are highly profitable. But we need many more. We need to raise more beef, more chickens, more hogs, more fresh fruits, vegetables, flowers and foliage. We need more modern slaughterhouses and processing plants,

and much bolder marketing. We need to consume more of our island products, and less of imports. We need to sell more and more of our farm products overseas.

An Agricultural Development Plan is currently in the making and will, upon completion, be integrated into our State Policy Plan. I do not intend to present to the people of this State a static, inflexible plan for agriculture. Rather, I intend that it will be one that incorporates alternative means for the implementation of programs to achieve our desired agricultural goals.

One of these goals is the preservation of agricultural land, not only for agricultural development today but also to preserve significant land use options for our children and their children. We know that, in ancient Hawaii, the Kapu system regulated land use, and did so on the basis of sound ecology. There was a sense of 'stewardship' in regard to landholding in those days which still influences us.

But the pressures to urbanize agricultural lands throughout the State continue to mount because of speculation in land.

I believe that the time has come to meet this issue squarely and head-on. The farm land in our State is rapidly appreciating to a point far beyond its value for agricultural use. We must, therefore, regard our agricultural lands as a limited resource, not as a replaceable commodity. This can only be done by eliminating investment opportunities in agricultural land for other than agriculturally beneficial purposes.

To this end, I am now in the process of seeking a means of accomplishment. We are absolutely serious about preserving agricultural land. I do not intend to see our farmers forced to give up their land piece by piece, bit by bit, valley by valley, because the real loss, in the larger context, will be the people of Hawaii, and their children.

On Kauai, at Kilauea, speculators have driven the paper value of the former Kilauea sugar lands up from one to thirty million dollars. A plan, with careful consideration, is being developed to keep Kilauea in agriculture for the preservation of the lands and the desired lifestyle of the community. If these efforts fail, we intend to go to court to condemn the leasehold interest of

those lands.

If necessary, we are also prepared to go to court to prevent the subdivision of agricultural lands for residential purposes at Mokuleia or Waiahole/Waikane, or any other place. The issue here is not the size of the lots after subdivision--it is the intent of the subdivision. Will the subdivision promote agricultural activity, or will it result in residential use under the guise of agriculture? Will it frustrate the intent of our Land Use laws?

In addition to the preservation of agricultural lands, we have taken steps forward in agricultural development. The most significant of these is the development of agricultural parks. In various phases of planning and development are agricultural parks in Pahoia in Puna, Hawaii; Kahei in North Kohala, Hawaii; and Kilauea on Kauai. Studies are currently being conducted for more agricultural parks in other areas.

We are grappling with other problems facing the farmers--problems such as product marketability, water supply and transportation. We refer to this as an agri-business. I believe we have made great inroads in these areas and we are achieving the necessary spirit of working together with the county governments and private industry. It is worthy of our best efforts.

Now, I know that Kohala is much on your mind as I reiterate my long-standing espousal of diversified agriculture. There are many who call the work of our Task Force there a failure. I call it a long-range effort and experience in which we have not yet been successful. Our difficulties there will not lessen our determination to increase our agricultural enterprises. Kohala is a lesson to us that the goals we seek will be extremely difficult to achieve...I think those of us who are leaders within our State must tackle not only the problems which are easy to solve--we must take on the problems that are indeed difficult to solve; the problems that the private sector is unable to cope with. We went into Kohala to save an island community and a Hawaiian way of life. We do not intend to abandon that commitment. But we do intend to learn from our experiences.

To me, Kohala is important--not only in providing employment opportunities for the people of Kohala, but Kohala is important to our entire State. When we speak, for example, about

the need for us to produce more beef...and we only produce 40 percent of the beef that we consume... we are not going to make it. The ranchers and the Parker Ranch aren't going to make it unless we have another slaughterhouse on this island and in this State. Hence, I place a great deal of importance on what is happening in Kohala with Hawaii Biogenics... that we may have another slaughterhouse; a place where our independent ranchers can take their cattle to have them fattened before slaughter.

In aquaculture and forestry, we have also made significant gains. Thanks to legislative appropriations of several years ago, Hawaii today is the leader in the successful scientific production of millions of juvenile Malaysian prawns, which are now used to stock many island commercial prawn ponds. Catfish, oysters and possibly mullet also show great promise. We will soon send to you a new report on Hawaii's aquaculture which provides an objective appraisal of our progress in this exciting food field.

We also know that we can grow many trees more quickly and in greater abundance than most places in the world. What we must devise is a vigorous program of forestry which will allow a commercial timber industry to develop and, at the same time, permit the forests to serve as watersheds. I would take you back to the years around 1957 or 1958, when the then Territorial Legislature, in their wisdom, decided on a tree-planting program, and planted many eucalyptus trees on the Big Island, some of which are being harvested today for wood chips by firms within our State.

These are potentials that our Administration is working on now, and you will hear much more of them in the months ahead. The report of the Governor's Economic Advisory Task Force gave us many insights in this and other areas, and we are grateful for their advice and assistance.

Let me turn now to the question of Kakaako--a large area of 600 acres of prime urban properties lying between Waikiki and downtown Honolulu. It is an area which can be utilized far more efficiently and beneficially by our people. Its proper development can help to relieve the pressures for residential development on our agricultural

lands.

Our Department of Planning and Economic Development has completed, not a plan for this area, but a practical manual, the Kakaako Urban Design Demonstration Study, to show to our civic leaders what can be done to make Kakaako beautiful. It is this Administration's intent to assist in getting the development of Kakaako moving. Kakaako's time has come.

Comprehensive, long-range statewide planning is always a difficult subject, but that is only because modern life itself is difficult and complex. In your own planning mandates to this Administration, you have given us much needed policy direction on which to build. Our Administration is reciprocating with a cohesive program of planning and action which continues to demonstrate the State planning leadership for which Hawaii is recognized and honored nationally. Our major work is the Hawaii State Plan, which is to be the Master Plan, or primary planning and policy document of the State of Hawaii. You will soon receive the first-year interim report on this project as mandated by your Session last year.

Long-range tourism planning has been recognized by us all as necessary. Again, your own earnest concern is evident in your past legislation. We are asking for staffing for a State tourism coordination office and for the development of a ten-year controlled growth policy plan for tourism. We have received an excellent report from our Tourism Planning Advisory Committee, whose work is a vital first step in deciding the future course of this billion dollar industry, an industry which is so important to the economy of our State.

In this respect, Waikiki is all-important. It is the heart of our tourism industry, representing many millions in public and private investments. We have consistently pressed for its improvement. We have made available State funds, State expertise and State cooperation. I am very pleased to report progress here, particularly with the generous response of the City Council.

We are asking for your funding support in the development of a moviemaking and television production industry in our State. It offers its own economic impetus to Hawaii, as well as an impact on our visitor industry through the mass advertising of our beautiful State.

Last year, I stated our commitment to the development of programs to better utilize our marine resources and to teach us to live better in our ocean environment. Continued progress is being made in the establishment of an ocean energy laboratory at Keahole Point; in the assessment of the resources of offshore sand, coral, mineral, and living resources in the Archipelago; and in the evaluation of our potential for underwater parks and ocean recreation.

Closely allied to our economic viability is our transportation planning and capital improvement programs which involve massive expenditures and long-range commitments. The immediate fate of Oahu's TH-3 highway project rests with the Federal Appeals Court. But there is a pressing need to complete our interstate highway system and to provide a third trans-Koolau route, thereby alleviating the serious traffic stresses on our other highways.

A separate but related issue is the question of what kind of future we want for Windward Oahu. I have a feeling that too often the TH-3 is confused with this question of what should take place in Windward Oahu. To me, growth in Windward Oahu, the only relatively undeveloped coastal zone remaining on Oahu, is going to come whether we have TH-3 or not, unless we decide on a whole regional plan--not Waiahole/Waikane by itself--to get what we want. We are working toward an integrated Windward Oahu Regional Plan. I have given instructions that I want a great deal of citizen input, in order that we may realize a future preferred by the people of Oahu for the Windward coast.

No transportation project operates in isolation. We recognize that an integrated mass transit system state-wide, linking all of our island communities with planes, the new jet foils and other surface vessels, buses, cars and trucks, and smoothly linked roads and highways, is one of the most basic needs of a unified State. I am sure that you know that since 1956, there have been some 25 or so separate studies concerning an inter-island ferry system. Our Administration is confident that the present updating and consideration of all data and arguments will give us the 'right' answer to our inter-island transportation system soon.

At your request, we have just had completed a study of transportation funding and responsibilities. It addresses, among other things,

the imminent deficit in our highway fund. And it presents a bold new approach for us to consider in the funding of transportation programs--that of providing for our transportation needs from the general revenues of our State rather than from user charges. While some of us may have reservations about use of general funds in this area...I place myself in this category...I urge that we keep our minds and options open as we review this study which will be presented to you shortly.

Let me also emphasize that we are seeking to enhance our economic relationships with our Asian and Pacific neighbors, by aggressively and personally establishing the kinds of contacts which will enhance our standing in their eyes as a good place and a good people to do business with. This is an area of international trade in which I have a great deal of confidence that our State is destined to move towards.

Education

In the field of education, I have become increasingly aware of the concerns expressed by parents, legislators and educators themselves regarding the decline in standardized test scores--particularly those in reading as achieved by our children. I wonder whether we have not unwittingly contributed to this phenomenon by filling too many of our education hours with non-basic subjects at the expense of the fundamentals of reading, writing and mathematics. I challenge our educational leaders therefore with the task of reevaluating their programs and their priorities to assure our students of the basic skills and competencies that they will need to face life's challenges.

The way in which our public school system is governed is a fundamental question. It determines how clearly the public is able to ascertain where the responsibilities and accountability for accomplishments in our schools lie.

The responsibility for public education in Hawaii is currently shared by the Legislature, the Executive and the Board of Education. Uncertainty, confusion, and conflict regarding our respective responsibilities and accountability can, and have resulted in the past.

While I personally favor an elected Board of Education, I believe it appropriate that this Legislature address itself to the question of

governance of the public education system.

In order that students obtain greater benefits from our educational system, we must give greater flexibility to school administrators so they can better cope with local conditions. Bigness brings red tape and bureaucratic constrictions which stifle the enthusiasm of even the best educators. Unless I be misunderstood here, I am not speaking of an effort to try to do away with the one-uniform, one-statewide school system that we have...it is a good system, providing equal educational opportunities to all of our children wherever they come from. What I am talking about is that we must be mindful of the shackles we place on teachers and principals. We must seek to give them our confidence and trust through simpler procedures and greater authority and flexibility at the school level within a centralized school system...we must seek to give a greater degree of flexibility, so that principals working with teachers can have a sense of importance again. They should be involved in developing programs. They need to have a sense of accomplishment beyond that of transmitting information to the classroom. I hope that we can address ourselves to this problem and attempt to give a greater degree of flexibility at the school level.

In our higher education programs, there are three issues which need our immediate attention: West Oahu College, the law school and improved athletic facilities.

It is the intent of this Administration to make higher education at the baccalaureate degree level more accessible to the citizens of this State. It is difficult in some instances to determine the most efficient method of providing educational services to those that need them.

To me, West Oahu College's present program represents an innovative approach which has now become a reality by offering instruction to an anticipated 150 students in classrooms at Mililani, Pearl City, and Campbell High Schools...I understand from this morning's paper that the figure may be off a little bit. The Department of Education facilities are now being utilized for the delivery of higher education on weekends and after school hours on weekdays.

While I am committed to providing undergraduate instruction in the West Oahu area... I personally happen to feel that some youngsters who

go to the University, to the Manoa campus, don't get the best possible education because it is too impersonal--some of our youngsters need a smaller setting...that's my commitment to the young people in our community, that we have another setting outside of the Manoa campus to provide this educational opportunity...however, while I feel very strongly about this, I am personally not yet convinced that building a new physical plant at this time is in the public interest.

To me, there are a number of possible alternatives that need further exploration prior to making a commitment of such magnitude...including what we have just started very recently--the utilization of some of our classroom facilities. I see the possibility of providing community college instruction in the outlying areas also--an outreach program...and maybe looking at the possibility of freeing some of the present facilities at Leeward for the use of four-year college opportunities.

What I am saying to you is, I believe there are some new innovations that have come into the picture, and I think that it is truly important for us to really assess what has taken place recently.

The new School of Law at the University of Hawaii reflects our commitment to provide the opportunity for the citizens of this State to develop vocational competency commensurate with their abilities and their desires. I am concerned about the ability of this new school to meet national accreditation standards relating to physical facilities. To insure that accreditation is not endangered in the immediate future, I have requested of you \$725,000 in capital improvement project funds for the renovation of the interim School of Law facilities. Funds have also been requested for the planning of permanent facilities in a location above the new parking structure in the quarry area of the Manoa campus.

And, finally, in this area of education, my capital improvements project budget includes \$9.7 million of Phase I of the new physical education facilities on the Manoa campus, that we estimate will cost a total of \$28.9 million in all three phases. These new facilities will adequately provide for the health and physical education instructional program, the intramural sports program, the recreation and free time activities for men as well as women, and for community activities. This is consistent also with our new Division I status in intercollegiate competition.

The Aged

Every society is judged by how it cares for its aged, its disabled, its afflicted and its poor. It is intolerable that in our affluent society, there are many who suffer--often in silence and alone--out of sight and out of mind. We must remember them and help them. We do this through many government programs, often with tremendous assistance from generous volunteer citizens who share a practical compassion for those in need.

I do not believe that the needs of our State's elderly citizens have been adequately met in the past. I ask you to join with me in making sure that for those of our State who are in their 'autumn' years, life is made richer and more meaningful.

In our supplemental budget request, we have asked for \$650,000 to continue the congregate dining, the tuition free education, and outreach services for the elderly. We also ask for favorable consideration of legislation, which is also pending, which calls for the establishment of an Executive Office on Aging to be located in the Governor's Office.

Developmentally Disabled

Numerous programs have been initiated and operated by public and private agencies, and we are now ready to implement our plan to more adequately provide for the developmentally disabled. It calls primarily for the expansion of community based services, and for the strengthening of programs for the prevention and early detection of developmental disabilities. In addition, Waimano Training School and Hospital will be improved. Operating funds amounting to \$1.26 million, and a capital investment of \$738,000 to implement these activities are being requested in the supplemental appropriations bill.

Welfare

I firmly support our welfare system for those who have need for such assistance; however, I just as firmly object to giving money to those who are not qualified.

In recent years, we have become aware of the fact that, due to staff shortages, welfare payment errors have occurred and payments have gone to persons not eligible for such assistance. Moreover, we are penalized by the Federal government for such inefficiency. We are asking in our budget for sufficient funds and positions to fully

monitor our welfare payment system.

Immigration

Immigration is a federal question and basically a federal problem, but it is the states that get most affected by what the Federal government does. Hawaii, amongst all 50 states, is the state which is more greatly impacted than any other state, and so we have been asking the Federal government to assume greater responsibilities for the programs designed to help immigrants in the transition. So far, we haven't gotten very much response.

In the meantime, I urge your support of legislation, which is currently pending in the Legislature, that puts financial responsibility on sponsors who in the future sign affidavits of support for immigrants.

Housing

Providing home ownership opportunities for low and moderate income families is, and continues to be, a high priority item of this Administration. The task of providing adequate housing for our people has been a complex and a very difficult one. Like any complex mechanism, the process of repeated 'fine tuning' must be an integral and ongoing part of the program. It is for this reason, I requested a review of our State's housing program; a report detailing those refinements will be transmitted shortly to you for your review.

Let me state now, however, that it is our intent that the State Housing Program will, under our Administration, assume more of an assertive role than it has in the past. We are particularly interested in pressing for quality as well as quantity in our housing supply. Moreover, in order to facilitate better coordination of our housing delivery system, it is my intention to fill the position of Special Assistant for Housing in my office very soon.

We are also undertaking a program to build in excess of 800 homes on our Hawaiian Homes lands. This should help our island people very significantly. We are also submitting legislation which would reduce the ancestry requirements for designated successors of Hawaiian Homes lands from 50 percent to 25 percent, in order to provide an incentive for the homesteaders to conscientiously maintain and upgrade their homes and property. We are not talking about dropping the standards generally,

in allowing people with less than 50 percent to come onto the property. We are talking about making it possible for a person, once qualifying, with less than 50 percent Hawaiian blood and the children of qualified homesteaders to continue on the premises. We hope that this will bring much needed debate and discussion to a problem which has been too long ignored. I recall, going back to the years when I was a freshman legislator, 1955 session, when this matter was first brought up. I think it is timely for us to consider again whether we should go this route.

Financial Integrity and Government Efficiency

Over these many years since Statehood, Hawaii has been blessed with a healthy economy and it continues to grow. Although government expenditure increases can be currently accommodated by the revenue generated by the existing tax structure and by carryover funds, I am concerned that, like so many other states, the long-run fiscal prospects for us could be one of imbalance, if not properly managed. I have taken a stance therefore that our fiscal policy shall be one which will not require general fund tax increases. I believe that with restraint in spending and borrowing, we can accomplish this goal. I ask for your understanding in its accomplishment.

Collective bargaining for public employees has been a new and positive force in Hawaii. The law has provided a means for all employees covered by collective bargaining agreements to participate in decisions on wages and working conditions. But it has excluded certain employees, chiefly in middle management, who should be accorded proper recognition as part of the management team. I am submitting legislation to accomplish this.

Let me also recognize the work now being done by our Government Reorganization Commission. They have a tremendously important service to render, and we are committed to cooperate and assist them with the full resources at our disposal.

Parks

Finally, let me just share with you our plans for extensive park development in our State. I believe that we should pursue a policy of acquiring extensive lands in our State such as will assure their preservation in perpetuity for the recreational

enjoyment of our people. For this, too, we will need funding authorization from you. We plan to develop the Diamond Head State Park and parks in North Kohala, Kaiaka Point, Wainapapapa and Waimano Gulch. We also want planning monies for possible park developments at Queen's Beach and Sacred Falls. We also intend to acquire as much as possible land at Malaekahana. We ask for your authorization of funds as requested in the supplemental budget so that these recreational areas can be made available to our people.

I have spent this morning a good deal of time, perhaps more time than I should have taken, outlining to you the major goals and programs of our Administration. There are numerous other programs just as worthy which time simply does not allow me to mention. Suffice to say that you will be hearing more about them.

We intend to move ahead in a cautious, considered, business-like fashion. We will not make promises that we cannot fulfill; we will not seek headlines at the expense of solid performance; we will stand on our record, all of us, and our accomplishments will speak for us.

In this task which lies ahead, we ask you to share the burdens with us--all of the people of our State. We want to attain our objectives in partnership with you, members of the Legislature, with our business leaders, our labor leaders and the people of Hawaii. Let us dedicate ourselves to working together with a common resolve and a unified sense of purpose such as will make our State, our beloved Hawaii, the kind of State that we want it to be.

This is my commitment to you.

This program is my commitment to our people.

Most importantly, this program is my commitment to our children who shall inherit this beautiful and bountiful earth that we call Hawaii.

Aloha and Mahalo."

The President of the Senate, the Honorable John Ushijima, then rose to speak as follows:

"Mr. Governor, you have identified some of the problems which are of great concern to the people of the State of Hawaii and to this Legislature. We sail in the same sea and we are

charted on the same course. We agree with you that implementation is necessary, and action to solve these problems is paramount. We offer you our cooperation to solve these problems for a great Hawaii.

Thank you very much, again."

At 12:05 o'clock p.m., the President declared the Joint Session adjourned.

The Senate reconvened at 12:11 o'clock p.m.

"Mr. President,

I want to introduce an individual who has been the very fortunate recipient of untiring efforts on the part of people at the University campus, the community at large, and members of the Senate.

Mr. Chen Yu-Hsi, as you know, was imprisoned in Taiwan with a 5-year sentence--primarily for having read certain books while a student at the University of Hawaii.

In 1970, the Senate adopted S.C.R. No. 54, requesting clemency. Chen Yu-Hsi was granted amnesty on October 1, 1971, by the late President Chiang Kai-Chek. However, there was a restriction that he not leave Taiwan. We then adopted S.R. No. 178, in 1973, requesting that the Government of the Republic of China allow Chen Yu-Hsi to return to the University of Hawaii to complete his studies. In 1974, S.R. No. 16 was adopted, again requesting that he be allowed to return to the University of Hawaii.

Since that time, the many supporters of Mr. Chen Yu-Hsi never ceased to request that he be returned to the Islands.

Happily, as you have read in the papers, he recently was able to return to the University of Hawaii.

We are happy to say that, in a humanitarian cause like this, you do get results if you just keep at it."

Senator Kawasaki then introduced to the members of the Senate Mr. John Reinecke, a strong supporter of Mr. Chen Yu-Hsi.

At this time, Senator Kawasaki introduced to the members of the Senate Mr. Chen Yu-Hsi.

The President then stated that it was his privilege to welcome Mr. Yu-Hsi back to the State of Hawaii.

Mr. Chen Yu-Hsi then addressed the members of the Senate as follows:

"Mr. President, Honorable Members of the Senate:

First of all, I would like to thank Senator Kawasaki for inviting me here to meet the honorable members of the Senate this morning.

Today is the Chinese New Year's Eve. It reminds me of the Chinese New Year holiday five years ago, when my father was allowed to visit me inside the prison in Taiwan. The first thing he brought me as a New Year's present, was that the State Legislature of Hawaii had passed a resolution requesting clemency and amnesty for me. This was indeed the most exciting and encouraging news for me during the long period of my adversity.

I feel very grateful to the State Legislature of Hawaii for its humanitarian acts on my behalf, as nine months later, in the fall of 1971, I was pardoned and released from prison.

When I returned home, I saw a copy of the resolution bearing the signatures of Senator Kawasaki, Senator Anderson, Senator Ariyoshi and several others... in looking back, I am particularly impressed by the fact that our present Governor was among the supporters of the 1970 resolution on my behalf. Later, I saw other resolutions, requesting that the Republic of China grant me a passport so that I could come back to Hawaii and resume my studies at the University of Hawaii. Those who introduced and worked on the resolutions include President Ushijima and a great number of Senators and Representatives, to whom I feel very much indebted.

The humanitarian efforts, which the State Legislature of Hawaii has taken on my behalf, proved to be most influential and effective in securing my early release from prison. My friends and relatives, as well as myself, particularly appreciate these actions, not only because of the contribution made to my personal welfare and freedom, but also because it is a present of good will, an act of love, compassion and aloha of the people of Hawaii.

If my life has undergone a dark period, it has been brightened by your aloha spirit, which has not only helped restore my freedom, but also has enabled me to come back here to continue my studies at the University of Hawaii. I cherish

this aloha spirit, as I cherish my new found freedom.

I wish to take this opportunity to express my thanks and appreciation to the State Legislature and the people of Hawaii.

Thank you very much."

At 11:46 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:50 o'clock a.m.

The President made the following re-referral of a bill that was introduced on Tuesday, February 3, 1976:

Senate Bill Referred to:

No. 2043-76 Committee on Ways and Means

THIRD READING

Senate Bill No. 1893-76, S.D. 1:

Senator R. Wong moved that S.B. No. 1893-76, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Yamasaki.

At this time, Senator Wong rose to speak as follows:

"Mr. President,

I rise to speak in favor of this bill, S.B. No. 1893-76, S.D. 1.

This bill provides for the expenses of the Legislature and the legislative-support agencies. I would like to take this opportunity, Mr. President, to point out some of the highlights of this bill.

It provides \$1.4 million for the expenses of the Senate and \$1.8 million for the expenses of the House. These amounts represent a 10% increase over the amounts appropriated last year. This 10% increase is necessary to cope with the increased costs for equipment, supplies, staff services and other expenses of the Legislature.

Mr. President, if I may refresh the memories of my colleagues in this honorable Body, last year we increased the appropriations for the Senate and the House in order to improve our technical capabilities and strengthen the role of the Legislative branch of government. This is paying off. We in the Legislature are now engaged in more interim studies and development of programs and policies, and are now more able to monitor the implementation of these programs and policies by the Administration.

The funds provided by this bill will enable the Legislature to continue this self-strengthening process.

With respect to the legislative-support agencies--the Legislative Auditor, the State Ethics Commission, the Legislative Reference Bureau, the Revisor of Statutes and the Ombudsman--this bill provides sufficient funds to meet their needs during fiscal year 1976-77.

We have also provided \$5,000 for the operations of the Legislative Information Office, which provides the public with timely information on hearings, status of bills and other matters relating to the Legislature. It is our hope that this Office will help encourage public knowledge of and input into the legislative process.

We have disallowed a request from the Revisor of Statutes for funds for the replacement of Volume IV of the Hawaii Revised Statutes. This matter will be considered separately in enabling legislation.

Mr. President, I believe that the various amounts appropriated by this bill are reasonable and justifiable. Therefore, I urge all of my colleagues in the Senate to vote in favor of this bill.

Thank you."

The motion was put by the Chair and carried, and S.B. No. 1893-76, S.D. 1, entitled: "A BILL FOR AN ACT MAKING APPROPRIATIONS TO PROVIDE THE EXPENSES OF THE LEGISLATURE, THE LEGISLATIVE AUDITOR, THE LEGISLATIVE REFERENCE BUREAU, THE OMBUDSMAN", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

At 12: 30 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12: 32 o'clock p.m.

RE-REFERRAL OF SENATE BILLS

The President then made the following re-referral of a bill that had been introduced in the Regular Session of 1975:

Senate Bill Referred to:

- No. 486 Committee on Economic
Development, then to the Committee
on Ways and Means

At this time, Senator Leopold offered the following amendment to the Rules of the Senate of the Eighth and Ninth Legislatures of the State of Hawaii:

"1. Rule 20. Meetings of Committees. Paragraph 4 shall read as follows:

'The meetings of the conference

committee shall be conducted as agreed upon by the members of the conference committee subject to the provisions of rule 22(5). It shall be the position of the Senate that conference committee meetings and decision-making sessions shall be public. Public notice of conference committee meetings shall be given to the extent practicable.'

2. Rule 22. Committees: Factfinding and Content of Reports. Add new paragraph (5) to read as follows:

'(5) The authority of a conference committee shall be limited solely to resolving differences between the House and the Senate versions of a bill or resolution. Accordingly, a conference committee shall not:

(a) Amend those provisions of a bill or resolution which are identical in both the Senate and House versions of the bill or resolution; provided, however, such identical provisions may be amended to conform to all other provisions of the bill or resolution; and

(b) Amend a bill or resolution by inserting into the bill or resolution any unrelated or new subject; provided that the above provisions shall not apply to the General Appropriations, Supplemental Appropriations and the General Public Improvements bill; provided, further that any increases to the salaries, pension or retirement benefits for any elected or appointed officer of the State or County shall be considered by separate bill other than the aforesaid Appropriations and Public Improvement bills or any bill ratifying collective bargaining agreements.'"

Senator Leopold moved that the amendment be adopted, seconded by Senator Saiki.

Senator Leopold then rose and spoke for the motion as follows:

"Mr. President, the Rules amendment which is proposed here deals with matters which a Conference Committee can rightly consider. It is not my purpose this morning to dredge up old water out of the well regarding the disastrous experience with the pay and pension bills of the last session. My purpose here is to insure that in the spirit of open government, a spirit which has been recognized by the majority in the House, that such occurrences are not a part of our deliberations in the future.

While my personal feeling is that

this rule change is more or less a limited attempt to provide this kind of reform, my own feeling is that the Conference Committee, which is in effect a third house, is not in the best interest of the State and a unicameral legislature is needed to correct that. But in the meantime, I feel it is important that pay and pension bills--bills which increase the salary, pension and retirement benefits for elected and appointed officers of the State or counties, be considered on their own merit as separate measures and not be piggy-backed to other measures."

At 11:45 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:49 o'clock a.m.

Senator O'Connor then inquired if the movant would yield to a question, to which Senator Leopold replied in the affirmative.

Senator O'Connor then queried:

"Since the proposed Rule #22 sets up specific rules for a Conference Committee, I wonder if the movant would show us in the Rule where a Conference Committee may disagree entirely with the other Body and withdraw from Conference."

Senator Leopold replied as follows:

"Mr. President, the proposed Rule amendment makes certain exceptions to bring up new matters and these exceptions are the General Appropriations, Supplementary Appropriations and the CIP bills with the proviso, of course, that salary increases, pension increases, and retirement increases shall be by separate vehicle. So with regard to the General Appropriations, Supplementary Appropriations and the CIP measures, new matter can be brought up at that time."

Senator O'Connor then stated:

"Thank you. Mr. President, the answer given by the movant to the question which I just propounded to illustrates fully that it would be irrational to attempt to have one or two separate rules which attempt to prescribe the conduct of a Conference Committee. If we're going to prescribe the conduct of a Conference Committee, it must be in such fashion that there is no question as to what the Conference Committee can or cannot do. An attempt to simply impose one or two rules without going through the

entire gamut would so severely restrict a Conference Committee, we'd never get anything out of conference.

For these reasons, Mr. President, I would urge my colleagues to vote against the proposed amendments."

The motion was put by the Chair, and Roll Call vote having been requested, failed to pass on the following showing of Ayes and Noes:

Ayes, 6. Noes, 15 (Ching, Hara, Hulten, Kawasaki, Kuroda, Nishimura, O'Connor, Taira, Takitani, Toyofuku, F. Wong, R. Wong, Yim, Young and Ushijima). Excused, 4 (Chong, Henderson, King and Yamasaki).

Senator Leopold then offered the following amendment to Rule No. 16 of the Rules of the Senate of the Eighth and Ninth Legislatures of the State of Hawaii:

"Rule 16. Standing Committees: General Responsibility. First paragraph shall read as follows:

"It shall be the duty of each standing committee to conduct systematic review of those portions of the State budget, program and financial plans, and variance reports dealing with, and to consider all laws, bills, resolutions, petitions, reports and other matters relating to, those programs over which the committee has responsibility. In considering bills and resolutions, each standing committee shall consider, where practicable, all bills and resolutions with the same subject matter which have been referred to the standing committee at the time of consideration of any one bill or resolution. Each standing committee shall give each bill equal consideration in determining which bill on a particular subject matter shall be reported by the committee."

Senator Leopold moved that the amendment be adopted, seconded by Senator Saiki.

Senator Leopold then stated as follows:

"Mr. President, this Rule basically seeks one simple thing--it seeks equality in the treatment of your Minority Members. The sought-after amendment does not require committee chairmen to report out Republican bills. It merely begs for equal consideration in determining the merits of each bill regardless of sponsorship.

For the record, Mr. President, there were 170 Senate Republican

bills introduced into this Body last year and not one of them was reported out of committee. Of course, we are very grateful for the kindness given to us to hear our measures in committee, but as you know, the full gamut of the legislative process is that it involves the passage of legislation is to bring such legislation out of committee. Of course, we are grateful for the passage of ceremonial resolutions but these, of course, do not reach to the heart of the matter and that is, bringing Republican bills of merit out of committee.

Last summer for my own information, I conducted a survey of those States which have a similar proportion of Democrat Majority Senators to Minority Republican Senators. For example, the states of Alaska, Connecticut, Massachusetts and Oregon all have seven Republican Minority Senators just as we do. In two states, there was minority legislation to come out and pass both houses of those legislative bodies. Of course, the State of Hawaii had a percentage of 0.0%, which relates to the percentage of Senate-sponsored bills reported out and passing.

As you know, Mr. President, I submitted this survey to you during the interim and I pointed out that I would hope that we would be treated differently in this session. It is very important, Mr. President, that your Republican Senators, while of course, we are going to be cooperative Senators, that we be treated as first class legislative citizens. My view is that in its refusal to allow Republican bills of merit to pass, the Senate Majority leadership is clearly out of touch with present day thinking.

More and more people today are independents who strongly dislike the kind of narrow, wasteful, partisan thinking which rejects minority legislation out of hand, regardless of its merit."

Senator Kawasaki then asked if the movant would yield to a question and Senator Leopold replied that he would.

Senator Kawasaki then said:

"Mr. President, it is quite interesting to note from the sheet circulated to us this morning the percentage of minority-introduced bills that passed eleven states and I am wondering if there are any statistics available regarding the other thirty-nine states."

Senator Leopold answered:

"Mr. President, these particular states were selected because they have a similar proportion of majority Democrat Senators to minority Republican Senators. Many of the remaining states are in control of the Republican Party and therefore, were not selected for the purposes of this survey."

Senator Kawasaki then requested that statistics regarding those states controlled by Republicans be compiled and submitted to each Senator so that proper assessment of such data can be made.

Senator Leopold replied that the request will be complied with and added that he was "confident that Hawaii would still remain the only state to treat minority legislation so shabbily."

Senator Richard Wong then rose and stated as follows:

"Mr. President, I would like to make a point relative to the statistics provided us by the movant. I noticed that all of these states ranked below Hawaii in terms of efficiency, the kind of legislation passed, so if it is indicative of what the movant is saying, Hawaii ranks above all of these eleven states."

Senator Leopold in response thereto, stated:

"Mr. President, I'd like to point out in response to the recent statement that the same publication which pointed out Hawaii's high rank also pointed out the need for Hawaii, as well as the other states in the same category, to treat minority legislation fairly and this was one of the central recommendations made by the publications cited by the previous speaker."

Senator Yim, speaking against the motion, stated as follows:

"Mr. President, it is not true-- false, to say that not one of the Senate Republican bills passed during the last session. As a matter of fact, Mr. President, every Senate Republican capital improvement project bill passed last session and some of them are presently being implemented by a Democratic Governor even before he implemented many of the Democrat capital improvement projects which were passed last session.

Further, Mr. President, any Senator, Republican or Democrat, may amend any bill on the floor of this Chamber

and get their ideas known, considered, debated and voted upon.

Mr. President, it is about time that this childish, juvenile tradition as to who introduced which bill first and therefore ought to take precedence over a bill with a higher number, should be re-examined. In the last analysis, in the most cherished parliamentary tradition, the will of the majority is the final judge.

Thank you."

Senator Nishimura then spoke against the motion as follows:

"Mr. President, since we're talking about statistics in reference to the motion on the floor, I should like to report to the members of this Body, that last year the Judiciary Committee received 340 Senate Bills, of which 32 were Republican measures. Of the 308 Democrat bills, we were able to hear 177 of them. Of the 32 Republican bills, two of them were heard and these two were introduced by the movant."

Senator Yee, in reply thereto, stated as follows:

"Mr. President, in reply to the comments made by the Senator from the Fifth District, I would like to say that the movant's purpose here is not a frivolous or a childish activity as he seems to indicate. It is a sincere dedicated belief that he would like to have his ideas, his philosophies, his beliefs with greater input in the committee hearings.

I believe that what he is asking is not unreasonable of you and all we're asking is that you give our bills an opportunity to be heard and that the chairman of the respective committees do not have to report our bills out. We give you that great prerogative. You can ice-box all our bills, but all we ask is that you at least listen to the merit of our bills. I'm sure that is not childish.

Thank you."

Senator Anderson then rose and remarked as follows:

"Mr. President, in supporting the previous speaker and referring to the remarks made about childish comments and remarks and partisan nonsense, I really think some of you ought to look into the mirror across the hall, because that is

exactly what the movant was talking about.

The time for this childish, partisan, irresponsible and ridiculous approach to a responsible approach to government should be put aside.

I guess some of you are still punishing Republicans for what happened fifty years ago when it was very common to put a Democrat desk out on the lanai, ignoring you and not letting you participate at all--and that was equally as wrong. I think what we are trying to say here is that we get an equal amount of income and revenue and taxpayers to pay our salary.

I think we represent a majority of our community. We bring to this hall a philosophy, a point of view, an approach to problems and I think a need to participate.

Now all the statistics in the world and all the figures will not change the 'gut-level feeling' we are talking about.

I don't care if two bills were heard, or 200 were heard, none passed. None passed last year, none passed the year before and none passed for the thirteen years I have been around here, because you are extremely partisan.

For some reason and I don't know what it is, you are afraid of us. Six or seven Senators across the hall and you're afraid to pass a Republican measure. God help you if you're that afraid. How can you put your minds and your sincerity to test, and solve the people's problems?

Now I'd like to say right here and now, I believed the opening statements of the President for the last two years. I heard you on 'Cross-Fire' when you summed up the session, and I thought after the fiasco of last year, we were going to make an honest effort to uphold and back up our image throughout the entire state--legislators alike. The President of this Senate, a Democrat, said the time has come to re-evaluate and to look into it.

In discussions with the Majority Leader and the Majority Floor Leader yesterday in reference to the letter received by the Minority, it indicated a compromise--leaving it to each individual Senator whether he should hear every bill regardless of the sponsor.

Okay, that's all we've got. We're

going to trust you. Some of you are still going to play games. Some of you are going to grow up and be responsible and try, but I'm saying here and now that if any chairman gets down to the nitty-gritty partisanship and pettiness, then I'm going to hold him accountable one way or another as this session progresses. If I have to call bills to the floor, if I have to have our members put in minority committee reports, if I have to here publicly on the floor, name you one by one, so that the press will have the responsibility of printing it--so help me, God, I'm going to."

The motion was put by the Chair,

and Roll Call vote having been requested, failed to pass on the following showing of Ayes and Noes:

Ayes, 6. Noes, 15 (Ching, Hara, Hulten, Kawasaki, Kuroda, Nishimura, O'Connor, Taira, Takitani, Toyofuku, F. Wong, R. Wong, Yim, Young and Ushijima). Excused, 4 (Chong, Henderson, King and Yamasaki).

RE-REFERRAL OF SENATE BILLS

The President then made the following re-referral of Senate bills that were introduced on Friday, February 6, 1976:

Senate Bills Referred to:

- No. 2133-76 Committee on Education, then to the Committee on Ways and Means
- No. 2156-76 Committee on Education, then to the Committee on Ways and Means

RE-REFERRAL OF A SENATE RESOLUTION

The President then made the following re-referral of a Senate resolution that had been offered on Thursday, February 5, 1976:

Senate Resolution Referred to:

- No. 127 Committee on Health

At this time, Senator King rose and stated as follows:

"Mr. President, I noticed on the re-referral, Senate Bill 2156, having to do with Iolani Palace Museum, which was rightfully referred to our Committee, has been re-referred to Education.

This morning at 9:57 a.m., someone came to pick up the bill from our office after, I understand, the re-referral sheet had already been printed.

I say this particular bill rightfully belongs to our Committee, Mr. President, because the description of our Committee specifically says that the Committee's scope shall be those programs relating to historic sites, development and protection. Iolani Palace, Mr. President, is a historical site, both on the national list and the Hawaii State list, so I'd like to ask for your reconsideration of this re-referral that was made this morning."

The President answered:

"Senator King, that request had been referred to my office. I have studied the matter. I've discussed the matter with the Chairman of the Education Committee under whose

jurisdiction culture and arts is delegated by the Senate Rules, and it is my contention that the referral is going to stand as it is."

Senator King then said:

"Mr. President, culture and the arts, I agree with you, does fall on to the Committee on Education and such things as the State Foundation on Culture and the Arts rightfully belongs there, but I understand that referrals are made on the basis of committee description. The description of our Committee specifically refers to historical sites, development and protection, and this is certainly what the Iolani Palace and the Iolani Palace program is.

Senator O'Connor introduced the bill yesterday and was courteous enough to send me a copy yesterday morning, because he felt, I guess, that it would come under the purview of our Committee. I was discussing with one of the Republican Senators this morning her concern about this particular thing because it had always come to our Committee. So I'd like to respectfully request that you re-refer this in accordance with the description of our Committee's jurisdiction."

At 11:50 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:53 o'clock a.m.

The President then stated:

"As I stated earlier, the President's Office has studied this matter and the re-referral as set forth in the Order of the Day stands as it is."

Senator King continued:

"Mr. President, I wonder if you would mind just giving me your reason then, because it seems to me that the committee description is very clear."

Senator Hara then rose and remarked as follows:

"Mr. President, may I respond to the question that is posed to the President, my good Senator, and that is, this was a request on the part of the Education Committee. After reviewing the bill that was being circulated, it was the feeling that this is educational, and Education Committee province. Then we made this request to the President's office,

asking that in the future, all matters pertaining to culture and the arts be referred to the Committee as assigned, as printed and agreed to by the Rules of the Senate.

Basing it on this, we did bring this matter up to the President's attention and we'd like to have the good lady Senator agree with us at this point and let it go by.

Mr. President, please be assured that if there is any concern on the part of the lady Senator in reference to this bill, we'll be very happy to accept her suggestions, ideas and certainly if the Committee sees fit, we will insert it within our Committee's recommendations to this honorable Body.

Thank you."

Senator King then responded:

"Mr. President, I really enjoy being agreeable and I would like to be but I think the Senate Rules are an important thing and it is my understanding that referrals are made according to the specific scope of the committee.

I absolutely agree with the Senator from the Big Island that all matters of culture and the arts by right go to his Committee by committee definition. However, the committee definition in terms of this particular matter, historical sites, development and protection, is very clear and therefore, Mr. President, I would appreciate if you would just maybe say a word about the reason."

The President said that he had set forth his reasons, and added that if the Senator disagreed with the ruling of the Chair, she should make the proper motion.

Senator King asked what would be the proper motion and the President answered that she could appeal the ruling of the Chair.

Senator King then queried if that would be allowed on referrals, and the President replied that any order made by the Chair is subject to the order of the Senate.

Senator King then stated:

"Mr. President, your reason, as I understand it, was that you were requested to make the change. I don't know on what basis you made it, that is all I'm asking...Does that mean, Mr. President, that

you're not going to give the basis for your change?"

The President answered:

"Senator King, I don't have to. I've set forth my basis already. You were in the office this morning and everything was explained to you."

Senator King then remarked:

"I wasn't in the office this morning. I tried to reach you and your Administrative Aide and said that I would like to talk to you before the session."

The President then stated:

"The ruling stands as it is. If you want to appeal the ruling of the Chair, go right ahead."

At this time, Senator R. Wong rose on a point of personal privilege and stated as follows:

"Mr. President, I rise on a point of personal privilege.

On January 30th, I rose on the floor of this honorable Body to comment on S.B. No. 1972-76 making an emergency \$10.2 million appropriation for the planning and construction of correctional facilities. At that time, Mr. President, I expressed the hope that this bill will be carefully considered in context with the correctional programs which are supposed to be provided in these facilities.

Now I note that the House Finance Committee held a hearing yesterday on the House companion bill. At that hearing, representatives of

three community groups interested in the correctional field--the John Howard Association, the Hawaii Council on Crime and Delinquency and the Hawaii Correctional Association--expressed reservations about the Administration's rush to build correctional facilities. These groups testified along the lines that I raised earlier, Mr. President, that we should look at the corrections program needs, not just at the facilities.

Mr. President, I hope that the Governor of this State is getting the message.

Thank you."

Senator Nishimura then rose and remarked as follows:

"Mr. President, I rise to speak on a point of personal privilege.

In further comments, I should like to inform the members of this Body that this morning the Judiciary Committee held extensive hearings on the correctional master plan and the request from the Governor for emergency appropriations.

We are going to continue to look at the problem and we will, we hope, come up with a reasoned decision on this matter.

Thank you."

THIRD READING

Senate Bill No. 1771-76:

Senator Nishimura moved that S.B. No. 1771-76, having been read throughout, pass Third Reading, seconded by

Senator O'Connor.

At this time, Senator Nishimura rose to speak in favor of the bill as follows:

"Mr. President,

The bill before us this morning submits the question: Shall there be a Convention to propose a revision of, or amendments to, the Constitution to the electorate at the General Election of 1976?

By enacting this bill, we will be submitting that question to the electorate prior to the time mandated by the Constitution. Our Constitution provides that the Lieutenant Governor shall certify the question to be voted at the first general election following the expiration of 10 years since the last time the question was submitted to the electorate. But the Legislature may submit the question to the voters before the 10-year period.

I feel that the time is appropriate to let the electorate decide whether we should have a Constitutional Convention, so that proposed constitutional amendments relating to initiative, referendum and recall; limitation of the term of the governor; a full time Legislature; a unicameral Legislature, and others, may be taken up at one time and considered in relation to the other parts of the Constitution.

The response of the electorate will give the members of this Legislature some guidance as to how their constituency and the majority of the people of this State feel about constitutional changes. I, for one, welcome that guidance.

If the electorate answers in the affirmative, we should be considering at the next legislative session, questions relating to the number of delegates, the time

of their election and the time of the Convention.

I should like to note, Mr. President, that at the time this bill was being considered in Committee, the question was raised whether it would not be more appropriate to adopt a concurrent resolution to request the Lieutenant Governor to submit the question to the electorate. In this regard, we wish to note that a concurrent resolution is an expression of the sense of the Legislature and would not legally mandate the Lieutenant Governor to submit the question to the voters.

Although we have no reason to believe that the Lieutenant Governor would not abide by the request of the Legislature... and, in fact, I believe that he wholeheartedly supports the immediate convening of a Constitutional Convention... we want to avoid any possible legal entanglement. Therefore, your Committee on Judiciary reported out S.B. No. 1771-76.

I urge a favorable vote on this bill.

Thank you."

The motion was put by the Chair and carried, and S.B. No. 1771-76, entitled: "A BILL FOR AN ACT RELATING TO A CONSTITUTIONAL CONVENTION", having been read throughout, passed Third Reading by not less than two-thirds vote of all the members to which the Senate is entitled, on the following showing of Ayes and Noes:

Ayes, 23. Noes, none. Excused, 2 (Takitani and Young).

Senator R. Wong then spoke for the passage of the bill as follows:

"Mr. President, this bill is a housekeeping measure which affects the City and County of Honolulu and the County of Hawaii.

It seems that in the Charter revision in 1973, the Special Assessment Improvement section in the Ordinance was changed to the language which said 'as provided by law'. There is no present law on the books. With the passage of this bill, the County can proceed, according to our bond counsel and the City bond counsel, in clearing a legal cloud which has been created by this slight error in the Charter revision.

Therefore, Mr. President, I ask the members to support this measure."

The motion was put by the Chair and carried, and Stand. Com. Rep. No. 31-76 was adopted and S.B. No. 1191, entitled: "A BILL FOR AN ACT RELATING TO IMPROVEMENTS BY ASSESSMENT AND THE FINANCING THEREOF", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Yesterday, a hearing was held in the Transportation Committee and the Chairman of that Committee discussed the contents of the final draft of that report. Senator Leopold then contacted the Legislative Auditor's Office and was informed that it was the practice that no one member, other than the Speaker of the House of Representatives and the President of the Senate, would receive a copy of the final draft until all copies have been distributed to the members of the Legislature. ORDER OF THE DAY

RE-REFERRAL OF SENATE BILLS

The President made the following re-referral of a bill that was introduced in the Regular Session of 1975:

Senate Bill Referred to:

No. 1092 Committee on Human Resources,
 then to the Committee on Ways and
 Means

The President made the following re-referral of bills that were introduced on Monday, January 26, 1976:

Senate Bills Referred to:

No. 1750-76 Committee on Ecology,
 Environment and Recreation,
 then to the Committee on Transporta-
 tion, then to the Committee on Ways
 and Means

No. 1760-76 Committee on Housing
 and Hawaiian Homes, then to the
 Committee on Ways and Means

The President made the following re-referral of a bill that was introduced on Thursday, February 19, 1976:

Senate Bill Referred to:

No. 2399-76 Committee on Intergovern-
 mental Relations, then to the Committee
 on Judiciary

At this time, Senator King rose to speak on the matter of referrals, stating that last Session all bills and resolutions concerning the conservation district and the Land Use Commission were referred to both the Committee on Ecology, Environment and Recreation and the Committee on Economic Development. This Session, however, while the resolutions have been referred to her Committee, the bills have been referred only to the Committee on Economic Development. She then said, "I would like to ask not that the Committee on Economic Development be bypassed, but that we also be included".

Senator F. Wong responded that last year's referrals were made with his consent after consultation. However, this year, he feels it is "necessary to maintain consistency in the Senate, which requires a strict interpretation of the Senate Rules". He added that he is in agreement with the President's referrals.

The President then stated that he had received a letter from Senator King, regarding this matter, which he referred to Senator F. Wong. As he was notified that no accommodations were made between the two Senators, the President's referrals therefore stand as originally made.

Senator King again rose to state that "the referral of bills should not be made on the basis of individuals, but in adherence to the Rules". She noted that the Committee on Economic Development should receive those bills relating to such matters as tourism, product promotion, agriculture, and land and water resources, whereas the Committee on Ecology, Environment and Recreation is concerned with environmental quality control. She then stated that "the President's referrals last Session were correct, as the bills fell within the purview of the two Committees". She asked that this Session's bills be referred, under the Senate Rules, not only to the Committee on Economic Development but also to the Committee on Ecology, Environment and Recreation.

Senator Anderson then rose to say that he was "puzzled" as to the referral of S.B. No. 2013-76, relating to the acquisition of park and mini park lands, to the Committee on Economic Development. He stated that as the bill "pertains strictly to the City and

County and recreation, and nowhere do I find in the Rules this purview coming under the Committee on Economic Development; perhaps it should have gone only to the Committee on Ecology, Environment and Recreation and bypassed the Committee on Economic Development".

At 11:55 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12:31 o'clock p.m.

Senator King moved to appeal the ruling of the Chair regarding the referral of Senate Bills, seconded by Senator Chong.

At this time, Senator King rose to again state that during this Session, all resolutions regarding the conservation district and the Land Use Commission have been referred to the Committee on Ecology, Environment and Recreation, as well as the Committee on Economic Development, but the bills relating to the same subject area have gone only to the Committee on Economic Development.

She stated that "the subject matter of land is of crucial importance in terms of the kind of environment we have". She also expressed concern that several bills relating to outdoor recreation were not referred to her Committee. She then stated, "Based on your past practice and correct referrals, Mr. President, and your referrals this Session of the resolutions dealing with these two subject areas correctly, I would like to appeal your ruling of the specific bills I have mentioned".

Roll Call having been requested, the motion was put by the Chair and failed to carry on the the following showing of Ayes and Noes:

Ayes, 8. Noes, 17 (Ching, Hara, Henderson, Hulten, Kawasaki, Kuroda, Nishimura, O'Connor, Taira, Takitani, Toyofuku, F. Wong, R. Wong, Yamasaki, Yee, Young and Ushijima).

ORDER OF THE DAY

RE-REFERRAL OF SENATE BILLS

The President made the following re-referral of bills that were introduced on Tuesday, February 24, 1976:

Senate Bills	Referred to:
No. 2552-76 and Means	Committee on Ways and Means
No. 2555-76 and Means	Committee on Ways and Means

THIRD READING

Senate Bill No. 243, S.D. 1:

Senator Kuroda moved that S.B. No. 243, S.D. 1, pass Third Reading, seconded by Senator Yamasaki.

Senator Kuroda then spoke for the passage of the bill as follows:

"Mr. President, the purpose of this bill is to amend our income tax law, removing what I believe is a discriminatory clause in our laws.

I am certain that in the Special Session of 1957, some eighteen years ago, there was a need to include a clause in our tax laws which afforded Hawaii residents sixty-five years and older, a tax exemption on all income which was derived from out of State. This was referred to as the 'Kaiser amendment'. (This law allows any person sixty-five years or older to take up residence in our State and enjoy all of the benefits without paying a dime of tax on their retirement income from wherever, as long as it is from out of State.)

Yet, our own Kamaaina residents, when they reach the golden age of retirement must continue to pay income taxes on their locally earned retirement pensions.

This bill changes the law, removing this language. After the first of July of this year, persons becoming residents of Hawaii will be required

to pay income taxes on their income, regardless of source.

I urge my fellow Senators to vote Yes on this bill.

Thank you."

The motion was put by the Chair and carried, and S.B. No. 243, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE PAYMENT OF INCOME TAXES", having been read throughout, passed Third Reading on the following showing of Ayes and Noes.

I'd support perhaps a reasonable number of additional clerks but I think that almost doubling of the number of law clerks is not something that I can quite agree to at this time.

Secondly, I don't notice any abundance of candidates interested in the position of a Supreme Court Justice, so I don't know that anybody is willing to take the job because of additional work required."

MATTERS DEFERRED
FROM MARCH 9, 1976

Standing Committee Report No.

347-76 (S.R. No. 95):

By unanimous consent, action on Stand. Com. Rep. No. 347-76 and S.R. No. 95 was deferred to the end of the calendar.

At 11:45 o'clock a.m., the Senate stood in recess, subject to the call of the Chair.

The Senate reconvened at 12:15 o'clock p.m.

At this time, the President introduced to the members of the Senate Senator Jack Gordon from the Florida State Legislature. Senator Gordon is the Chairman of the Ways and Means Committee.

Standing Committee Report No. 348-76 (S.C.R. No. 24):

Senator King moved that Stand. Com. Rep. No. 348-76 be adopted and that S.C.R. No. 24 be adopted, seconded by Senator Yim.

Senator Kuroda then moved that Stand. Com. Rep. No. 348-76 be received and placed on file, seconded by Senator Yim and carried.

Senator Kuroda moved that S.C.R. No. 24 be adopted, seconded by Senator Yim.

Senator Kuroda then offered the following amendment to S.C.R. No. 24:

"1. Amend the concurrent resolution by deleting the word 'and' after the semicolon in the tenth 'WHEREAS' clause on page 1 and inserting in lieu thereof the words 'now, therefore';

2. Delete the first 'WHEREAS' clause on page 2 in its entirety;

3. Add the word 'Legislature' after the word 'State' on line 7 on page 2; and

4. Delete the first 'BE IT FURTHER RESOLVED' clause on page 2 in its entirety."

Senator Kuroda moved that the amendment be adopted, seconded by Senator Yim.

Senator Anderson asked if Senator Kuroda would yield to a question to which Senator Kuroda replied in the affirmative.

Senator Anderson then queried if his understanding was correct that with the removal of the last "Be it further resolved" clause, the resolution

does not mandate the Board of Land and Natural Resources to implement the intent of the resolution.

Senator Kuroda answered that "the absence of that clause does not in any way imply that we don't expect the Land and Natural Resources to execute whatever the State Legislature's policy is. The attempt here is to establish a legislative intent, whether purchase in the future is going to be done through the budget or other means like the CIP. What we are saying is that the intent of the Legislature is to establish a policy."

Senator Anderson then proceeded to speak against the amendment emphasizing his feelings that this is contradictory and that he felt that with the exclusion of that clause, "we're telling the Department not to listen to the policy making Legislature as laid out by Constitution."

Senator Ching then spoke for the adoption of the amendment noting that he felt there is a power back of legislative intent and that pressure can be applied on the departments to implement it by placing funds in the CIP budget.

The motion to adopt the amendment to S.C.R. No. 24 was put by the Chair and carried.

Senator Yim then moved that S.C.R. No. 24, as amended in S.D. 1, be adopted, seconded by Senator Kuroda.

Senator Yim then spoke for the motion as follows:

"Mr. President, I rise to speak in favor of this resolution, as amended.

The resolution calls for an expression by this honorable Body to declare as a State legislative policy that the former site of Salt Lake be reserved as a park for public enjoyment.

Within a few years, the Salt Lake population will exceed 25,000. Already it is over three times greater than the population of Molokai. It exceeds half the population of Kauai, is one third that of Maui, as well as being one quarter that of the island of Hawaii.

Salt Lake has the highest density of any area in this entire State, even greater than that of Waikiki. Yet, there is not a single park site in the entire area. No wonder that the residents of Salt Lake are complaining and frustrated. As a matter of fact, they should be screaming.

Mr. President, it has been a long

established policy of this island State to be concerned about open space. In this session, we continue to act on our concerns by considering appropriations to purchase such prime park sites as Malaekahana, Queen's Beach, Rainbow Bay and the Makua-Kaena Point areas. Further, in the past few years, the State has purchased the old stadium in McCully for park use, and matched City funds in purchasing the HSPA property in Makiki. All these commitments run into many millions of dollars, and are all for the good. I have supported such actions, and will continue to do so.

Therefore, Mr. President, I submit that we Legislators have already set the precedence for the State to purchase open space and other lands for park use, even though the City and County of Honolulu has that responsibility. In the case of Salt Lake, the City has completely failed to meet the needs of the people by not providing for at least one park, and this resolution is but the last resort that the people can turn to for help. We as Legislators cannot afford to close our eyes to such an injustice.

I recognize that if the State steps in, certain individuals, innocent bystanders, may suffer economic inconvenience. However, the needs to rectify the wrongs of the City for allowing such development to occur, without providing for recreational needs, outweighs the inconvenience to the few. To those individuals, may I offer my sympathies.

In conclusion, Mr. President, we Senators have been reminded many times over, including a prayer said this morning, 'to put the people first'. So on behalf of all the people of the Salt Lake area, I appeal to the Senators here to kokua and pass this resolution, as amended.

Thank you, Mr. President."

The motion was put by the Chair and carried, and S.C.R. No. 24, S.D. 1, entitled: "SENATE CONCURRENT RESOLUTION ESTABLISHING THAT SALT LAKE BE PRESERVED FOR PARK USE", was adopted.

MATTER DEFERRED FROM EARLIER IN THE CALENDAR

Standing Committee Report No. 347-76 (S.R. No. 95):

Senator King moved that Stand.

Com. Rep. No. 347-76 be adopted and that S.R. No. 95 be adopted, seconded by Senator Yim.

Senator Kuroda then moved that Stand. Com. Rep. No. 347-76 be received and placed on file, seconded by Senator Yim and carried.

Senator Kuroda moved that S.R. No. 95 be adopted, seconded by Senator Yim.

Senator Kuroda then offered the following amendment to S.R. No. 95:

"1. Amend the resolution by deleting the word 'and' after the semicolon in the tenth 'WHEREAS' clause on page 1 and inserting in lieu thereof the words 'now, therefore';

2. Delete the first 'WHEREAS' clause on page 2 in its entirety;

3. Add the word 'Legislature' after the word 'State' on line 7 on page 2; and

4. Delete the first 'BE IT FURTHER RESOLVED' clause on page 2 in its entirety."

Senator Kuroda moved that the amendment be adopted, seconded by Senator Yim and carried.

Senator Kuroda then moved that S.R. No. 95, as amended in S.D. 1, be adopted, seconded by Senator Yim.

Senator Kuroda spoke for the motion as follows:

"Mr. President, I rise to speak in support of Senate Resolution No. 95, as amended. These statements I make apply to Senate Concurrent Resolution No. 24, as amended; however, I choose to make these statements, at this time.

It is with mixed emotions that I rise to speak in favor of this resolution which deal with the not-so-bright future of what was once one of the most awesome natural features of our State, Salt Lake.

This is a copy of Senate Bill No. 1831-72, which I introduced, along with two of the three other Senators of the Fourth District, four years ago, when Salt Lake could truly be called a lake. This bill asked the State to purchase this irreplaceable property in order to preserve it for the use and benefit of all of our people.

As the resolution indicates, Senate Bill No. 1831-72 was regrettably, not enacted and the fate of Salt Lake was left to bulldozers.

Much of the destruction to considerable parts of Salt Lake is irreversible; however, this measure, Senate Resolution 95, provides some hope for those who still believe that this region should be retained for and by the citizens of Hawaii.

I strongly urge my colleagues to adopt this resolution.

Thank you, Mr. President."

The motion was put by the Chair and carried, and S.R. No. 95, S.D. 1, entitled: "SENATE RESOLUTION ESTABLISHING THAT SALT LAKE BE PRESERVED FOR PARK USE", was adopted.

Senator Anderson questioned if the Majority Leader would yield to a question to which Senator Ching replied that he would.

Senator Anderson then asked if it was the rule of the Senate that decision-making hearings be scheduled routinely by the various committee chairmen.

The President answered in the affirmative.

Senator Anderson then stated that he was concerned that several committee chairmen have been circulating committee reports without calling a decision-making hearing and he thought it might be deviating from the Rules.

Senator Ching stated that his point is well taken.

Senator Hulten stated that he did not see anything in the Rules which require a decision-making meeting, but that the Rules did state that in the event there is a decision-making meeting, that adequate notice be given.

Senator Anderson agreed and added that discussion was had that decision-making hearings would be part of the legislative open-door, sunshine process but mention of this was not included in the Rules.

Senator Ching then said that it is the prerogative of the committee chairman and each one acts differently from the other.

The President then assured Senator Anderson that he would ask all committee chairmen to comply with his request.

At 11:55 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:58 o'clock a.m.

MATTER DEFERRED FROM EARLIER ON THE CALENDAR

Senate Bill No. 2326-76, S.D. 1:

Senator Toyofuku moved that S.B. No. 2326-76, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Taira.

At this time, Senator Yamasaki rose to speak against the bill as follows:

"Mr. President,

Section 1 of the bill proposes to amend the definition of a 'week of employment', so that at least 20 hours of work per week would be required in order to qualify for benefits.

I oppose this proposal because it punishes and discriminates against persons who are unable to locate full time employment. There are many persons, especially during high unemployment periods or economic depressions, who are part-time or casual workers, not by choice but because there are insufficient full time jobs available. By accepting the proposal in Section 1, the Legislature would be disqualifying people who

are most in need of unemployment insurance benefits and, also, deserving of such benefits.

I further oppose the proposal of Section 1 because a 20-hour work week requirement could easily be manipulated by employers to deprive workers of benefits. I am told that 19 hours of work are now being offered many workers, because 20 hours would cover them under the Prepaid Health Care Law and the Temporary Disability Insurance Law.

The proposal would only result in more unemployment by lessening work opportunity and reducing the take-home pay of employees. It would also discourage persons from seeking less than full time employment.

Section 2 of the bill proposes to disqualify a person who voluntarily quits a job, is discharged, or refuses to accept suitable work from receiving benefits until he finds new employment.

This would banish a worker from the ranks of the work force for purposes of unemployment compensation, just because an employer may have forced him to quit or may have discharged him. It would make him an outcast from the work force for unemployment compensation purposes because he may have refused an offered job which someone else thinks is suitable... especially in cases when referral is made to a job which is actually not suitable.

It would also punish workers for acts which may be perfectly justified, especially those workers whose work attendance and behavior on the job have been stable.

It would force these workers to seek welfare aid when they should be recipients of unemployment insurance.

I see this section as a means of shifting the burden upon the general taxpayer as a whole, rather than keeping it with the employer, as in the present law. This will eliminate the motive for employers to keep jobs attractive for employees.

During this period of high unemployment, the highest in 24 years, it is unrealistic to expect that requalification would be a simple matter for most workers. The proposed requirements would only tend to create a new group of welfare clients. It would also tend to deprive unemployed persons of self-respect and humiliate them, contrary to a primary purpose of

the law.

Mr. President, I appreciate the concern expressed by employer groups to reduce abuses in unemployment compensation, but in so doing, we are, in effect, hurting the workers who want to be attached to the labor work force.

Therefore, Mr. President, I urge that a No vote be cast on this bill by the members of this Body.

Thank you."

Senator Toyofuku then rose to state that he is "equally opposed to employer abuses, as well as abuses by employees", and that he will "apprise the Chairman of the House Committee on Labor and Public Employment to look into this particular area of concern". He then urged the members of the Senate to support the bill.

Senator Kawasaki rose to speak as follows:

"Mr. President, I am in favor of this bill.

I appreciate the statistics quoted by the first speaker. I believe that we've got to consider very seriously the fact that never in the last 24 years have we had such a high rate of unemployment. We all share his concern about the unemployment situation.

I hope this concern will be carried over to when we are asked, almost carte blanche, to approve some employee raises... categories of employees that may not be able to justify their raises. Without a doubt, it will come the last two nights of the Session.

Let us consider the first speaker's statements very seriously."

Senator Anderson then rose to speak in favor of the bill as follows:

"Mr. President,

This is not an anti-labor bill-- in no way. It is not really a pro-management bill. It increases management participation from 3% to 3.5%. I think the employers in the State, who have long been trying for reform, are willing to absorb, or pass on, or increase their participation, if they can be assured or promised that corrections at the top will take place.

The 20-hour question, brought up by the first speaker... and the

possible manipulation... is not valid. We asked the Director of Labor and Industrial Relations, at the particular hearing on this bill, how many complaints, letters, or even telephone calls, over the last couple of years, had he received as to employers hiring for 19 hours, instead of 20, to miss paying one of the many programs that we have. Not one... he hasn't received a complaint, a letter, or a phone call about any employer in the State trying to cut the 20 hours down to 19 hours... I really don't think it is valid... and I will say the Committee spent a lengthy part of their hearing on this question. It was thoroughly heard out.

The first speaker mentioned that we're going to create a new welfare group.

A 'good cause', as I remember the Director of Labor and Industrial Relations, is to be a good cause. I could still quit a job, under this bill, because the traveling time is too far or my wife is ill--some legitimate good cause--and qualify for unemployment compensation. It's not going to disqualify automatically every person quitting a job. If a person is fired or discharged because his hand is caught in the cookie jar... today, he waits his two or eight weeks and gets his unemployment compensation... this bill would say 'no' because of that kind of 'good cause'--you're not eligible. I think that's really fair.

The unions, one and all, testified against this bill--the entire bill--it was a 'bad' bill--and they wanted no part of it. Had they come before the Committee on Human Resources and singled out the 20 hours, or any section that was going to affect their membership, I am confident the Chairman and the Committee members would have listened and responded to them. But it was all or nothing--they didn't want anything.

I believe that this Committee, knowing its makeup, would have responded to legitimate participation, legitimate concerns. I guess the feeling was the votes were there to kill it, and they wouldn't participate in bringing out a bill that was agreeable to both labor and management.

One more thing I'd like to clarify is the burden of the employer versus the taxpayer. If anybody thinks the employer absorbs the unemployment compensation, he's living in another world. Every single cost given to any employer is ultimately passed on to the taxpayer. No employer absorbs

2.5%, or 3% or 3.5%. It's part of his costs... and when it gets to a certain figure, it is passed on to the consumer--whether you're at the grocery store or buying a newspaper.

You are asking in this bill for people like myself, small businessmen and large, to pay for the high unemployment... the contractors, the electricians, the ditch diggers, the white collar, the blue collar. And I say fine, I'll accept this responsibility as a social obligation, because I think the legitimately unemployed need compensation. They need those dollars to pay the kids' tuition, the car, the house mortgage.

However, the responsibility is only on the private sector. We didn't touch the agriculture, the sugar and pine, people, who are self-employed. I think the burden of social obligation in this time of high unemployment should be shared by all businessmen in the State. Also, I say the State ought to pay its fair share, Mr. President. We've exempted the agricultural workers who have their self-insured program, and we've exempted the State. I don't think that is fair.

If we in the business community and the public, the taxpayer, are willing to absorb and accept this burden in this time of need, then I think it should be borne by all of us and not just a segment.

It's a good bill. If there are any bad parts--and I don't think there are--they will be caught in the conference committee, as you all well know. This bill was heard, it was discussed--every aspect, every section--and everybody had his day in court.

It's the first real positive step we've made in a long time to correct what should have been done a long time ago.

I urge its passage.

Thank you."

The motion was put by the Chair and carried, and S.B. No. 2326-76, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO EMPLOYMENT SECURITY", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 17. Noes, 7 (King, Kuroda, Nishimura, R. Wong, Yamasaki, Yim and Young). Excused, 1 (Takitani).

Senator Kawasaki then spoke against the motion as follows:

"Mr. President, in speaking against the bill, I am very much concerned about the fashion in which we very arbitrarily raise the compensation for different positions, after we have had a wholesale pay increase last year.

I feel that the ultimate compensation of \$37,500 is higher than what we accorded a full-time department head two years ago, and I'm not quite convinced on the argument that we can't get a good man to remain in this position because the compensation of \$25,000 is too low.

I note that in July of this year, that position goes from \$25,000 to \$32,500, which is a \$7,500 raise and in July, 1977, it's going to be \$37,500. I think we're going a little overboard in handing out positions that pay over \$35,000 a year. I don't know that this position cannot be filled by a person who considers \$25,000, with the annual increments and with all of the fringe benefits, adequate compensation.

Mr. President, I am voting no on this."

Senator Taira, in speaking for the bill, noted that an oversight was made last year when the bill was passed to increase the salaries of the members of the Executive Branch of the government and the Judiciary, and this bill rectifies that error.

The motion was put by the Chair and carried, and Stand. Com. Rep. No. 407-76 was adopted and S.B. No. 2830-76, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE OFFICE OF REVISOR OF STATUTES", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator R. Wong moved that Stand. Com. Rep. No. 413-76 be adopted and that S.B. No. 2797-76, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Yamasaki.

Senator R. Wong then spoke for the bill as follows:

"Mr. President, this bill will extend the lapsing date on the State's appropriation for Waikiki improvements to June 30, 1977. It will allow the City and County of Honolulu one additional year to expend the remaining funds of approximately \$8 million. These funds are now scheduled to lapse on June 30, 1976.

Mr. President, I believe that the Waikiki improvements issue is a special case that merits our approval of this limited extension. Disagreements between the State and the County over the expenditure of the funds have delayed the improvements in the past. These disagreements appear to be resolved. The health of Waikiki is a matter of statewide importance and the proposed improvements should be started without additional delay. Passage of this bill will reflect the Senate's concern for the upgrading of Waikiki and our basic tourist destination area.

I feel the Legislature should maintain the flexibility to consider extending lapsing dates in special situations like the Waikiki improvements. However, Mr. President, I feel it would be an unwise and dangerous policy to routinely extend or delete the lapsing dates on prior appropriation items. Such action would defeat the purpose of the original lapsing provisions. It would be a more prudent general policy to allow old appropriations to lapse and then consider individual projects for reappropriation based on a re-evaluation of their merits.

Waikiki is a special case, Mr. President. Therefore, I urge the members of this honorable Body to approve this measure.

Thank you."

The motion was put by the Chair and carried, and Stand. Com. Rep. No. 413-76 was adopted and S.B. No. 2797-76, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO IMPROVEMENTS AT WAIKIKI, OAHU", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, none. Excused, 1 (F. Wong).

At 12:06 o'clock p.m., the Senate stood in recess, subject to the call of the Chair.

The Senate reconvened at 12:08 o'clock p.m.

Senate Bill No. 2406-76, S.D. 1:

Senator R. Wong moved that S.B. No. 2406-76, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Yamasaki.

Senator R. Wong then spoke in favor of the bill as follows:

"Mr. President, I speak in favor of Senate Bill No. 2406-76, S.D. 1.

First of all, let me observe that the so-called 'tourist tax' must be one of the most studied questions in the Legislature. It has been studied by consultants, explored session after session by legislative committees, examined and discussed by the travel industry and citizen groups, and publicly debated. It is a question which has occupied an important place in legislative deliberations ever since I can remember. Few questions have been so thoroughly discussed.

There is no reason why the question needs to be deferred any longer, and certainly, Mr. President, there is no need for still another consultant study.

Part of the problem why it has taken us so long to come to this point, where a bill is on the floor of the Senate, is because previously, we seemed to be tackling the wrong issue. The issue is not whether tourists are paying their way for the benefits they receive as visitors. And certainly, the issue is not whether tourists should be taxed higher so that residents can be taxed lower. Yet, discussion in the past has turned on these points, and they have led the Legislature, the industry, and the public up various paths.

The bill we are considering crystallizes the real issue. The issue is this: how can we keep viable and attractive the tourist plant which is so vital to the economy of Hawaii; and how should we acquire and apply the resources to keep Hawaii an attractive place for visitors as well as residents?

The bill before us faces that issue squarely. This is made clear through the key features of this bill.

The purpose of this bill is to increase the general excise tax on transient accommodations from four percent to eight percent, but it is the apportionment which is important.

Fifty percent of the funds collected shall be paid into a transient accommodations special fund.

Of the amount in the special fund, forty percent shall be used for projects and improvements in tourist destination areas. Sixty percent shall be used for the acquisition of land for the creation or expansion of beach parks, the acquisition of beachfront properties, and access to beach properties.

Through this apportionment, the tourist, as well as the resident, will share in the benefits to be received.

We have also provided, Mr. President, for a large voice by the travel industry in advising how funds should be expended in tourist destination areas. A nine-member committee chosen from the tourist industry, including at least one member from each county, will provide this advice.

At the same time, Mr. President, we assure accountability for the funds raised under this measure by having all projects go through the normal appropriations process.

The impact on the individual visitor will be nominal. For the tourist who pays \$25 for a hotel room, he will be paying \$1 more in taxes, but his contribution will go a long way towards making the attractions of Hawaii even more amenable, pleasant, and enjoyable.

In summary, Mr. President, the bill before us is fair to tourists; it is fair to the travel industry; it is fair to residents; and most of all, it is in the best interest of Hawaii.

Therefore, I urge my colleagues to vote for this important measure."

Senator Ching then asked if the Chairman of the Committee on Ways

and Means would yield to a question, to which Senator R. Wong replied that he would.

Senator Ching then queried that referral was made to 50% of the funds collected and he asked if it was 50% of the full 8%, or on the additional 4%.

Senator R. Wong answered that it was 50% of the 8%.

At 12:12 o'clock p.m., the Senate stood in recess, subject to the call of the Chair.

The Senate reconvened at 12:15 o'clock p.m.

Senator O'Connor then rose to speak against the measure as follows:

"Mr. President, I rise to speak against this bill.

Being in the throes of working with several special funds in the transportation area, I am opposed to creating additional special funds in the tax revenue structure of our State. I am not opposed to a tourist tax as such, if reasonably levied, and the funds from which would go into the general fund of the State.

We need the revenues from a tourist tax and we should impose a tourist tax, and those funds should be used generally in this State to handle our revenue problem. If we impose a tourist tax, then there should be a lessening of a tax burden upon the residents of the State somewhere else to offset that tax.

This creation of a special fund again places in our tax and revenue structure something akin to the highway, airport and harbor funds which we are wrestling with today. In addition, this bill provides that in five years, the revenue will be cut off from this special fund placing us in a situation where bonds which might be utilized to acquire the benefits which are outlined in the bill, would be without a revenue source at that time to continue their debt servicing. Then, of course, those bonds would then have to be picked up by the general fund.

If we're going to have a tourist tax, we should have one, Mr. President, and it should not be a tax which creates a special fund of this nature which lies in the future in a vague and ambiguous situation.

I would further point out that this

tax increase is imposed in two sections of our present taxation structure, both in 237-13 and 237-16, and yet the special fund is created only from 50% of the tax revenues which are acquired under 237-16 (b) (2).

I find it difficult, Mr. President, under the circumstances of the drafting of this bill, to see how the differentiation is going to be made from taxes on service business under which certain hotels might fall and taxes on retailing, under which other hotels might fall, as the fund is only created from 50% of the acquisition of monies on the additional 4% under taxes on retailing.

Thank you."

Senator Yee, in speaking against the bill, stated that since there is a surplus of approximately \$83 million, he felt this is an inappropriate time to impose a tax on the travel industry. He added that he appreciated the comments made by the Chairman of the Committee on Ways and Means and stated that the Republican Party favors a tax on the travel industry on a broad base, but they feel this is not the right time.

The motion was put by the Chair and carried, and S.B. No. 2406-76, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE TAXATION OF TRANSIENT ACCOMMODATIONS", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 15. Noes, 9 (Ching, George, Hara, Henderson, O'Connor, Saiki,

Soares, Taira and Yee). Excused, 1 (F. Wong).

Standing Committee Report No. 415-76 (S.B. No. 2745-76, S.D. 1):

MATTER DEFERRED FROM EARLIER ON THE CALENDAR

Senate Resolution No. 336:

Senator Taira moved that action on S.R. No. 336 be deferred until Thursday, March 18, 1976, seconded by Senator Anderson.

At this time, Senator Anderson rose to stress adherence to the Senate Rules as follows:

"Mr. President, the Senate Rules do not give a committee chairman or committee the prerogative to deny this Body the right to vote on certain bills.

The Rules say that all matters referred to a committee shall be reported... the facts on why it was held, why it was killed, what the public hearings brought forth--pro and con.

A lot of you are at fault in this area. You have locked up bills because you personally don't like them. You haven't called public hearings on some of the issues, even though certain segments of the community feel very strongly one way or another. The public is entitled to come and testify, pro and con, no matter how

controversial an issue may be.

We ought to be men and women enough to stand up and say Aye or No on an issue, no matter how controversial or emotional it may be.

It is not right that a few deny the majority the opportunity to discuss or debate the problems in our community.

Thank you, Mr. President."

Senator Kawasaki then rose to speak as follows:

"Mr. President, I rise to commend the illustrious Minority Floor Leader. He has earned great respect from me over the 10 years I have been privileged to know him.

I wholeheartedly concur with him.

Seven members of the 12-member Senate Committee on Judiciary signed the Committee report to report this bill out of Committee. As a matter of fact, after listening to testimony, pro and con, nine members have strongly felt that capital punishment is needed-- primarily in the category of the hired contract killer.

I want to thank those who voted for reconsideration this morning for their support. We can honestly say that we expended every effort to enact legislation that is badly needed to save human lives.

The reason I take such a strong stand on this is because I feel that with enactment of this bill, there is every possibility--based on statistics given by the Department of Social Services and the Police Department-- that we may save a few lives, lives that may be lost at the hands of contract killers.

I am sorry that the majority vote doesn't prevail because of some technical rule we have in the Senate Rules.

I hope that those who are against the measure can live with their consciences if they read in the papers that a convicted murderer on parole commits murder a second time. I hope you will keep this in mind."

The motion was put by the Chair and carried, and action on S.R. No. 336, entitled: "SENATE RESOLUTION RECALLING SENATE BILL NO. 2403-76 FROM THE COMMITTEE ON JUDICIARY", was deferred until Thursday, March 18, 1976.

At 5:45 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 5:49 o'clock p.m.

Senator O'Connor moved that H.B. No. 1499, H.D. 1, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Ching.

Senator Chong then spoke against the bill as follows:

"Mr. President, I rise to speak against this measure.

We seem to have spent a lot of time and effort on the subject of recreational boating, and apparently without an honest understanding of the activity, without an honest understanding of the people of this State who freely elect to take part in this activity, and without an honest understanding of the small boat harbors in this State.

The Senate Transportation Committee agreed to wait for the management audit of the recreational boating program. I congratulate the Auditor for a job well done.

Now, I am somewhat disappointed that this bill doesn't reflect more of the Auditor's findings and recommendations.

The report pointed out rather definitely

that the Department of Transportation is not sufficiently organized to do justice to the boating program, that it does not offer a comprehensive, programmatic approach to boating, that there is no provision for coordinating and integrating the various elements of a boating program.

The report pointed out that there is no real plan or strategy for recreational boating. No one is really in charge of a boating program. Important and basic policy decisions go unresolved or are handled on a piecemeal basis.

Mr. President, the Auditor's report gives us better ways to avoid continued piecemeal planning than to leave this program in the clutches of those who have created the piecemeal problems.

The bill does take steps to clarify legislative intent regarding a boating program in general, and the purpose and use of small boat harbors. It does finally set policy and allow living aboard. It does call for a new department devoted to administering small boat harbors and a comprehensive boating program.

But we must realize that this new department remains within the Department of Transportation Harbors Division.

This is most regrettable. It is the least desirable alternative according to an audit we have waited eighteen months to receive, but have had only ten days to study.

I think it is time that Hawaii began administering and managing a good boating program for the children and adults of this State who want to learn about the sea and learn to respect it. There should be money spent for adequate facilities and responsible management and services for all boating. It would be to our credit.

Mr. President, I hope that this bill will be worked over thoroughly when it gets to the House.

Thank you."

Senator Leopold, speaking against the measure, stated as follows:

"Mr. President, while the stated purpose of the measure before us is to effect a more efficient and responsive administration of our small boat harbors, the bill in fact fails to do this because it continues to allow the small boating program to be under the jurisdiction of the Small Boat Harbors Division.

The recently released management audit of the recreational boating program has totally discredited the Harbors Division and the administration of the Department of Transportation in its handling of the small boating program. Moreover, the audit points out that there is no small boating program; no one is really in charge of recreational boating as a program; and no one in the Harbors Division or the entire Department of Transportation is currently capable of making basic policy decisions for boating on any sound basis. Yet unbelievably, the bill before us proposes to administer the State small boating program by creating a separate small boating department under the jurisdiction of the very same Harbors Division.

The Legislative Auditor has recommended that the entire outdoor recreation program including the recreational boating program be transferred to the counties, but suggests that if the outdoor recreation program is to be maintained at the State level, the recreational boating program should be transferred to the Department of Land and Natural Resources.

The Auditor stated that an internal reorganization of the Department of Transportation to better administer the small boating program, such as proposed by the bill, is unacceptable because 'the continued housing of the recreational boating program within the Department of Transportation is bound to work to the detriment of recreational boating'.

Lines 3 through 8 on page 3 of the bill seek to establish a live-aboard quota at the Ala Wai and Keehi Boat Harbors, but the language in this section is not clear as to whether it is 25% of the total berths at each of the two harbors or 25% of the total berths at both harbors. In either case the 25% quota is an arbitrary limit which is not consistent with present live-aboard statistics. For example, in a sworn court deposition dated February 13, 1976 by Captain James B. McCormack, the Oahu District Manager of the Harbors Division, it is stated that the live-aboard percentage at the Ala Wai Harbor is 33%.

The bill seeks to establish mooring fees prior to obtaining a permit and it is certainly fair that live-aboards should pay a multiple of the fee charged the recreational boat owner. However, the language of the bill is not clear or certain, as it should be, in establishing proper fee assessment rates. Moreover, the committee report accompanying

the bill states that live-aboards shall pay a tax set by the Harbors Division based on the value of submerged land under the mooring while the language in the bill states that live-aboards shall be taxed on the use of submerged land.

It has always been my understanding, Mr. President, that it is the legislative, not the executive, branch of government that has the prerogative to establish taxation policy. I believe this section of the bill is unconstitutional because it delegates taxing power reserved for the Legislature to an administrative agency in violation of Article VI, Section 1 of our State Constitution. This section states 'the power of taxation shall never be surrendered, suspended or contracted away.' I intend to write to the Attorney General to ask for a formal opinion on the constitutionality of this section of the bill.

It should be noted that the bill proposes to entrust this taxation policy to the Harbors Division, which has been summarily criticized by our Legislative Auditor for indecision and inefficiency. Furthermore, the language of the bill seems to require that a property tax as well as mooring fees must be paid prior to the issuance of a permit-- an unusual situation to say the least.

It is clear, Mr. President, that Senate Draft 1 of House Bill No. 1499 has been drafted hastily. It is riddled with inequities and constitutional problems. If enacted in its present form, this measure will undoubtedly be challenged in court."

Senator O'Connor spoke in favor of the measure as follows:

"Mr. President, a year ago your Committee on Transportation took under its consideration, the small boat harbor problems of this State. In the time since then, we have met with various people representing the boaters, the present administration and have requested and received an Auditor's report on the recreational boating program.

The bill before us represents the outgrowth of all of that concerted effort. Much of the contents of the bill comes from the people who are involved specifically with this program, more specifically, those people who use the small boat harbors as live-aboards and as recreational boaters.

The vice that has occurred in our small boat harbors has occurred

because we have allowed derelicts and old hulls to be moored in those harbors and to be used as live-aboards. This bill will eradicate from our small boat harbors, all vessels which are not recreational in purpose and use. Specifically, it will require that there be periodic inspections of the vessels to make sure that they can go to sea and that they are not being used simply as house boats.

There has been a problem in the Harbors Division regarding the small boat program because no one in the Division has been specifically in charge of that program. This was brought to light by the management audit of the recreational boating program. This bill provides for a reorganization of the Harbors Division of the Department of Transportation, requiring that there be a person in charge of that program and that there be a structure under that person to run the recreational boating program.

Should this fail, then this body at a future time can take adequate steps in order to protect the small boat program and perhaps shift it to some other organization.

However, the Harbors Division is uniquely fitted today by expertise and constant coordination and work with the Coast Guard and other Federal agencies to run the recreational boating program.

As to the fees that will be charged the people who utilize our small boat harbors, these fees must be in total the amount necessary to run the entire program. At the request of those people who have been and will be allowed to live aboard boats in the small boat harbors, the fee which they will pay will be in the form of a tax because they will then be able to deduct that tax as a property tax on their income tax returns. This taxation power by way of fees is not unlike any of the other taxes which we utilize in this State and shall be utilized by the Department of Transportation to insure that there is equitable payment for utilization of the harbors by the various people who do use them.

Mr. President, this bill corrects many of the inequities presently existing in our small boat harbors and I would urge all members of this Body to vote for it.

Thank you."

ORDER OF THE DAY

RE-REFERRAL OF A HOUSE BILL

The President made the following re-referral of a House Bill that was received earlier in the day:

House Bill	Referred to:
No. 3113-76	Committee on Ways and Means

THIRD READING

Standing Committee Report No. 485-76 (S.B. No. 2923-76, S.D. 1):

Senator Hara moved that Stand. Com. Rep. No. 485-76 be adopted and that S.B. No. 2923-76, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Yim.

Senator Chong then spoke against the motion as follows:

"Mr. President, this bill would repeal the section of law which automatically sets aside 1% of the original cost of any State building for the acquisition of works of art. I would prefer that

the original intent of Section 103-8 of the Hawaii Revised Statutes be maintained and that funds continue to be automatically and mandatorily set aside for art works for the State buildings.

I'm generally against special funds but in this case, because of the extreme importance of culture and the arts in the daily lives of all of us, I believe that it is correct to set policy for money to be automatically set aside for this purpose.

Mr. President, I urge members of this honorable Body to vote no on this bill."

Senator Leopold then spoke against this bill as follows:

"Mr. President, the 1% law should not be repealed. If it is, there would be no guarantee that the Legislature would ever appropriate money for art. Repeal of the existing law would cast the Legislature into the role of art critic, a role for which it is not well suited. It would reduce, if not eliminate, the public's opportunity to appreciate beautiful works of art in our new government buildings.

Equally important, this bill would reduce our patronism of local artists and decrease the number of artists who would be able to live and produce in Hawaii. This would reduce the availability of private as well as public art.

If the supporters of this bill are dissatisfied with the Director of the Foundation or with the way in which pieces of art are selected, or with the Foundation's \$1 million surplus, these concerns can be dealt with by modifying the system rather than eliminating it.

For instance, I favor the continued funding of 1% but it may be advisable to reduce this figure to 1/2% temporarily to see if this is adequate to supply our buildings with art.

Another reform could be changing the selection procedure so that there could be a more broad base decision-making process. With all of this controversy over 1% and the \$1 million surplus, we have overlooked the fact that the State Comptroller already has the authority to limit the amount of art money spent on public buildings, as he feels, to spend less than 1% on particular buildings.

Along with this, we have overlooked

the fact that the Foundation has not spent 1% on every building. The Foundation has demonstrated its maturity and fiscal responsibility by spending less than 1% in many cases.

Mr. President, the proposed bill, if enacted, would substantially reduce public contact with art and seriously erode our support of local art community."

Senator Hara, in speaking for the bill, stated as follows:

"Mr. President, I'd like to urge this honorable Body to pass this bill, for what this bill does is bring about accountability back in terms of funding accordingly and its practice of reporting year round activity back to this honorable Body.

This bill, Mr. President, repeals the 1% that has been automatically going into this fund from the CIP fund. The last finding of your Committee indicated that we would have approximately \$2.1 million available for further expending in the work of arts and commissions to be granted. They would also present to us an approximate budgetary spending plan of \$790,000 that they expect to spend in the coming 1976-77 fiscal year, and \$1.032 million for 1977-78.

What this bill does in these respective items, Mr. President, is that the \$2 million items will be left as is for the Foundation to continue to expend and carry on to function just as it has done in the past. We do hope the Foundation would look at this fund under this bill, in its granting of commissions and the purchasing of art work that they will be reporting back to this Body at the next budget cycle through the Administration's budget.

What we in essence have done is repeal the special fund practices and went back to the general fund practices as my good colleague across the way pointed out this morning.

If this bill is enacted, the Foundation will be asked to submit amounts required for the commissions and art work acquisition in the next budget cycle to the Governor to be inserted in his budget and submitted to the Legislature. For this, I believe would be one way we will be insuring the continued existence of the Foundation of the Culture and the Arts.

Incidentally, I'd like to say that some of the opposition's comments regarding the concern about the selection practices is well taken

and I will see to it that as we review their budget throughout the next two years, we will be mindful of their selection practices.

Thank you."

Senator Kawasaki then spoke in favor of the bill as follows:

"The opponents of this bill would have you believe that we are in the process of completely eliminating the Foundation of the Culture and the Arts and nothing could be more erroneous and false. I agree with my colleague on my right here that we have adequate funds to carry on the program of art object acquisition for several years.

At the time when we enacted this bill with good reason, we were lacking art objects on the premises of some of the new building structures being constructed by the State. Now, some eight years later, we have acquired a sizeable collection of art objects. Since 1967 up until today, we find that building costs have escalated immensely."

Senator Kawasaki went on to cite the costs of the various State buildings recently constructed and then continued,

"My point here is that 1% set aside for the acquisition of art objects is a tremendous amount at a time that we could well use that money. We already have \$2 million accumulated in the fund that will last us about five years, and the amount of money set aside on this 1% law that we have, could well be used for the human, social needs that we are not meeting today.

I would like to think that perhaps in consonance with the intent of this bill right now to do away with this 1% set aside, that perhaps a portion of this 1% be set aside to improve the quality of transmission programs on Channel 11, our KHET, educational television station.

Mr. President, I urge everyone to vote for this bill.

Thank you."

Senator Anderson spoke against the bill as follows:

"Mr. President, all people are entitled to appreciate the culture and the arts, the hangings in the various State buildings, the landscaping and sculpture around the City. Years ago we noted that we were lacking

the art work and we recognized the need for it and now we're lacking the appreciation for it.

In discussions in committee, the funding would be wiped out completely and I did not note any support for cutting it from 1% to 1/2%.

The funding of it, Mr. President, falls under the CIP which is part of the program where a building is projected and anticipated revenue is part of the actual construction. When it comes to us next year before the Governor or thereafter, it is going to come under the general fund. Now if we were to pick between art work versus a collective bargaining contract or a health plan or something for government employees, I don't have to tell you where you're going to go.

A couple of days ago, we passed a Waikiki bill and the argument that the Chairman at that time gave was the importance of establishing the two areas--the parks that we need so desperately and the importance of Waikiki areas and the tourist destination areas.

The Committee report notes an unallocated amount of \$2 million and I think that figure is closer to \$1.3 million. There is \$2 million that may be available someday if the projects are let, but today on the books, ready to be spent, is only \$1.3 million and they have been spending about \$700,000 a year in these art works and sculptures throughout the State.

Every argument given was explored at the hearings and your Committee Chairman and members sat for over two hours the other day with some of the people on the Commission and various other people from the Administration, and every single argument that was given was proven to be false.

There is accountability in this program today, Mr. President, as there is in any other department.

I read in the paper that the Chairman in the other house is going to kill this bill and it is a fitting end for a lousy bill."

Senator Hara then rose to clarify some points made and noted that as of this date, there is a potential available amount of \$2.1 million if the remaining projects are allotted and construction is begun. He added that the amount available today for use by the Foundation is \$1.3 million.

Senator King stated that she is against the bill and that all of the points she had planned to raise had already been given. She added how much pleasure the tapestry in the Chambers has given to the members of the Senate and visitors to the capitol and emphasized that if the State can put millions of dollars into concrete, they can set aside 1% for art work such as the tapestry.

The motion to adopt Stand. Com. Rep. No. 485-76 and to pass S.B. No. 2923-76, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO CULTURE AND THE ARTS", having been read throughout, on Third Reading was put by the Chair and failed to carry on the following showing of Ayes and Noes:

House Bill No. 1994-76, S.D. 1:

Senator R. Wong moved that H.B. No. 1994-76, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Yamasaki.

Senator R. Wong then spoke for the passage of the bill as follows:

"Mr. President, for the information of the members of this honorable Body, this bill and the two following bills listed on the calendar, S.B. No. 1874-76, S.D. 1 and S.B. No. 2274-76, S.D. 1, represents a total package aimed at resolving some of the problems

in the real property tax area.

Mr. President, during the last interim and also during the early part of this session, the Ways and Means Committee held extensive hearings on the real property tax question. We learned about many of the problems and inequities in the assessment program and about how these have led to financial difficulties to many homeowners, particularly the elderly and those on fixed incomes.

In reviewing the supplemental budget request of the Tax Department, we are considering ways to beef up the department so as to update and strengthen the assessment program. This should go a long way towards correcting many of the administrative problems and inequities.

The three bills now before us are intended to provide real property tax relief to homeowners and other landowners and also to pinpoint more accurately the unit of government responsible for our real property tax levels.

House Bill No. 1994-76, S.D. 1, provides for changing the homeowner's exemption to \$12,000 from the current \$8,000. This increased exemption is especially valuable to our older homeowners since those over 60 receive a multiple of 2 for a \$24,000 exemption and those over 70 receive a multiple 2.5 for a \$30,000 exemption.

In addition to the homeowners exemption being provided in H.B. No. 1994-76, S.D. 1, the second bill in our package, S.B. No. 1874-76, S.D. 1, provides additional relief not only to homeowners but to all property owners by setting a statutory assessment ratio of 60% of fair market value. This is 10% below the current official 70% level. While many parcels of land are actually under-assessed at this time, the Tax Department proposes to reassess all parcels in the State this year and to bring them all up to an equal level. S.B. No. 1874-76, S.D. 1, will fix that level at 60% thus reducing the increased potential tax liability of property owners in the State as their properties get reassessed.

Mr. President, the final bill in this package is a version of the so-called 'Florida Law'. Beginning with the 1977-78 fiscal period, this bill will provide that when a county wants to raise its real property tax revenue from the previous year, it will have to go through a public hearing process

to formally raise its rates. Heretofore, the counties have held their rates constant or have even lowered them while relying on increasing property values to bring them more revenues. Thus, the counties were able to disclaim responsibility for the rising real property tax levels while the State which administers and collects the tax received all the blame and criticism. The purpose of S.B. No. 2274-76, S.D. 1, is to clearly and publicly identify the counties as the units of government responsible for setting real property tax levels and for receiving the proceeds therefrom. This will result in greater public knowledge and understanding.

Mr. President, I believe this three-bill package is a reasonable and responsible one. It provides tax relief to homeowners and other property owners and it clarifies governmental responsibility.

Mr. President, I urge all the members of this honorable Body to vote in favor of this bill and the subsequent two bills.

Thank you."

The motion was put by the Chair and carried, and H.B. No. 1994-76, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE REAL PROPERTY HOME EXEMPTION", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

MATTERS DEFERRED FROM
EARLIER ON THE CALENDAR

Senate Bill No. 2501-76, S.D. 2:

Senator Kuroda moved that S.B. No. 2501-76, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator O'Connor.

Senator Kuroda then rose to speak

for the bill as follows:

"Mr. President, I rise to speak in support of this measure in explanation that this is an anti-burglary bill and not a secondhand dealers bill.

The purpose of this bill is to clean up and strengthen two sections of the Hawaii Revised Statutes which relate to secondhand dealers. It will not put any coin collectors, stamp collectors, antique dealers or any other secondhand dealers out of a job.

There is existing in our statutes, a secondhand dealer law since 1905 and in the attempt by interested members of our community to deal with the non-ferrous metals being taken away from construction sites and also where the Board of Water Supply has experienced a loss of large quantities of copper, the interested parties have requested that the secondhand dealer law be amended and this is what we have attempted to do. In the course of events, the secondhand dealers who were not aware that this law existed, all of a sudden became aware that a bill existed to regulate them and this is in error and I want to assure these concerned people that this will not put them out of a job.

I would like to call the members' attention to page 2, line 23 of the bill which reads, 'or any other location the articles are kept'. This statement is of great concern to secondhand dealers and we have an agreement with members of the House that this is going to be deleted from this bill when it moves over there.

There is another section that secondhand dealers have found objectionable--a statement that is already in the existing law. This is on page 3, line 15, which relates to minors, and there is consideration for this statement to be removed from the law.

Mr. President, I urge all members to vote for this bill."

Senator Anderson speaking against the bill, stated as follows:

"Mr. President, I rise to speak against this bill because it is not as the good Senator claims it is.

This bill covers secondhand dealers in Section 445-171. For instance, Anderson's Camera House is not a secondhand dealer. It is a retail

store, but they do sell and trade used cameras as does every television store in the State, also the radio shops, furniture, appliance and jewelry stores. Even used car dealers aren't exempt from this law.

Now the statement that this has been on the books for a long time may be true as it pertains to secondhand dealers. The changes as proposed by this bill in the section on fees and conditions will mean that every person who sells or buys a secondhand camera will in fact now have to go and get a license under this particular law.

If I'm a secondhand dealer, trading and buying in the secondhand category, that's fine and what the Senator said is true. But this bill will impose on every single person in this State in business, buying or selling a particular camera, car, piece of jewelry or antique, coins or stamps to obtain a license.

Mr. President, I don't think it was the intention of the Chairman of the Committee on Consumer Protection to include all these people."

The motion was put by the Chair and carried, and S.B. No. 2501-76, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO SECONDHAND DEALERS", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

The President made the following re-referral of a House Bill that was received on Thursday, March 18, 1976:

House Bill Referred to:

No. 2919-76, H.D. 1 Committee on Ways and Means

THIRD READING

House Bill No. 3106-76:

On motion by Senator Toyofuku, seconded by Senator Young and carried, H.B. No. 3106-76, entitled: "A BILL FOR AN ACT RELATING TO OFFICE OF MANPOWER PLANNING ADMINISTRATOR", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

House Bill No. 2812-76, H.D. 1, S.D. 1:

On motion by Senator Toyofuku, seconded by Senator Young and carried, H.B. No. 2812-76, H.D. 1, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO EXEMPTION FROM MINIMUM WAGE LAW", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 22. Noes, 3 (Nishimura, R. Wong and Yamasaki).

The Senate reconvened at 11:45 o'clock a.m.

At this time, Senator Yee rose on a point of personal privilege and stated as follows:

"Mr. President, I'm usually very sympathetic to newspapers and reporters, but yesterday evening when I opened the newspaper, I felt very irritated when I saw on the front page of the Star Bulletin, this picture relating to the death penalty poll that the Star Bulletin had conducted.

I'm aware that the newspaper is against the death penalty but by the same token, there are other members

of the community who feel differently, and as the poll indicated, there was a ratio of three to one in favor of returning the death penalty in the State of Hawaii.

My complaint and my concern is when the Star Bulletin puts on the front page this very disgraceful picture to indicate how the people feel about the death penalty. I call it repugnant journalism.

They're permitting their emotions to take the place of the factual news and I think they should be called up on it. I want this to be on record in the Legislature that a number of us feel that this is unfair newswriting by the paper.

Thank you."

Senator Kawasaki then rose on a point of personal privilege and remarked as follows:

"Mr. President, I, too, wish to comment relative to the concerns just expressed by the Senator from the Sixth Senatorial District.

Knowing the extent of the controversy involved in this particular issue, the evening paper could have rendered a great public service had they conducted the poll much earlier during the session and then come out with the results even before we had the discussion on the subject here.

I noted also that in the issue which carried the blanks for the poll for people to indicate their preference, the adjoining pages were just full of anti-death penalty sentiments expressed--a very one-sided picture on the day that the poll was going into the homes of the readers.

I think that this kind of biased attempts to influence the population hadn't quite succeeded in this particular issue."

ADJOURNMENT

At 11:50 o'clock a.m., on motion by Senator Taira, seconded by Senator Anderson and carried, the Senate adjourned until 11:00 o'clock a.m., on Thursday, March 25, 1976.

"It is indeed a pleasure to come to Hawaii. Because I was a sailor at the age of 17 and once the Secretary of the Navy, Hawaii will always be a second home for me.

I am here on a trip embracing a swing through the Pacific. People are surprised sometimes to learn there is just as much enthusiasm for the Bicentennial west of the Pacific, and indeed in the Pacific, as in any of the original thirteen colonies.

Today, I will be working with the Chairman of the Bicentennial Commission and Executive Director. This evening, I will be meeting with the members of the Commission.

I can tell you unequivocally, the program the Bicentennial Commission has adopted for the State of Hawaii, with the support given by the Senate, the House and the Governor, will

equal anything to be found elsewhere in the United States.

I congratulate the citizens of Hawaii.

And if I may fall back on an old political adage that we in the East use: 'As goes the presidential election, so goes the Nation'...as goes the Bicentennial in the great State of Hawaii, so goes the success of the Bicentennial nationwide.

Thank you."

RE-REFERRAL OF A HOUSE BILL

The President made the following re-referral of a House Bill that was received on Wednesday, March 17, 1976:

House Bill	Referred to:
No. 2170-76	Committee on Human Resources

At this time, Senator Toyofuku rose on a point of personal privilege to speak as follows:

"Mr. President,

On Friday, in the ILWU newspaper, the voice of the ILWU, there appeared two articles entitled: 'Hard-Won Workers' Rights are in Jeopardy' and 'Senate Betrays Hawaii's Workers'. Both were written by Shoji Okazaki, a lobbyist for ILWU.

The manner of reporting, Mr. President, is highly irresponsible and smacks of yellow journalism. I consider both articles to be a personal affront to me, and an insult to the integrity and intelligence of all twenty-five members of the Senate. Furthermore, Mr. President, it insults the intelligence of the reader and the members of the ILWU.

The writer will lead everyone to believe that S.B. No. 2326-76, S.D. 1, the unemployment bill, will 'punish' all employees and destroy the employment security of every employed and unemployed worker in our community.

This writer would lead everyone to believe that the Governor of the State, the Director of the Department of Labor, the Senate, and all of the employers who suggested this bill, are totally irresponsible in attacking the workers in our community. Some people may wonder who's right and who's wrong.

The Governor, the Director, and

the Senate have demonstrated their integrity and their ability to carry out their responsibilities. What about the writer? Has he demonstrated or displayed responsibility to this community of ours?

Mr. President, let us examine the nature of these charges.

The writer uses terms such as 'to punish', 'to discriminate', 'to betray', 'to banish'...mind you, Mr. President, 'to banish', 'to betray'...to use such words as 'overkill', 'dismayed by the Administration bill', 'contrary to the basic purpose of the law'.

These words, Mr. President, are used to incite, to foment, to instigate. This is insincere language to connote that we are monsters from another world, here to clobber the workers of the State.

I believe that the writer is misguided and does not understand the true intent of the bill. He, therefore, in turn has misguided his membership, who are truly his employers. Because he is misguided, he chooses this means to portray us as monsters and himself as a poor, innocent and insulted person.

I submit here that S.B. No. 2326-76, S.D. 1, is not an anti-labor bill. This is an anti-abuse, anti-fraud bill. The Unemployment Insurance Compensation program is a labor-oriented program. It is designed to provide temporary relief to a worker in need of subsistence and assistance from his government and his community. This is not a welfare or a handout program.

Those who choose to abuse the generosity of our government and our community must be put down and disqualified. This bill does not seriously weaken employment security, but, rather, strengthens it. The person who is unemployed but actively seeking employment, would be insured of assistance in the future from the program.

S.B. No. 2326-76, S.D. 1, does not punish and discriminate against persons who are unable to find further employment. Mr. President, the Senate has passed a bill to provide \$20 million to assist those who are unemployed through no fault of their own.

We have transmitted our thoughts to Congress on the Food Stamp and Welfare programs, designed to assist those on welfare through no fault

of their own. There are other programs designed to assist those who are unemployed, and this Senate has demonstrated its support for such programs.

Section I of the bill, the re-definition of a work week, is a desirable provision, and I might add, Mr. President, a reasonable one. The section would not 'punish' nor 'penalize' those who truly and earnestly are seeking employment, nor does it 'punish' those who are unemployed through no fault of their own.

This section would merely establish a standard in determining what is full time and what is part-time.

These are standards used in Prepaid Health and Temporary Disability Insurance and, I believe, this appears in union contracts also. This section does not hurt the most needy as they would lead us to believe. I repeat, Mr. President, this is not a welfare bill. We have welfare programs for the needy, and we have the State unemployment programs to assist the needy.

If the intent of the writer is to perpetuate abuses, to support the continuity of efforts at ripping off the government, then I can understand his position. However, there are responsible people in his organization--responsible to our community and our people. Therefore, I'm certain that he does not reflect the sentiments of the members of his organization.

Mr. President, I consider these articles cheap shots at my colleagues and me, and I want to impress upon our community that I will not tolerate such actions.

Last year, the same writer did the same thing. Only it was after the Session closed. He condemned certain members of the Senate, because we would not pass the bill to force employers to provide TDI coverage automatically to their union members. This year, the same bill, including one on Prepaid Health, was passed by the House and is presently in your Committee on Human Resources.

Both existing TDI and Prepaid Health laws have exempt coverage for persons covered under the Collective Bargaining Agreement, and this is rightfully so. When these programs were enacted, they chose to be exempted. However, now they try to enter through the back door.

Both bills have been killed in my Committee because these are negotiable items, and can be attained through negotiations over the table. Mr. President, your Committee on Human Resources has taken a stance that government should not interfere nor meddle in the collective bargaining process. Therefore, all bills pertaining to negotiable items are automatically set aside.

I think you can understand the reasons for my anger, Mr. President. I think you can also understand the qualities and character of the writer.

I might add that all of the employee-oriented benefit programs came out of your Committee on Human Resources, such as improvements and expansion of our Worker's Compensation program, our Prepaid Health and TDI programs. These all originated in the Senate Human Resources Committee.

Today we have one of the most progressive employee benefit programs in the entire country.

The thing that irks me, Mr. President, is that the Senate was never singled out nor credited for our efforts. Instead, the writer says ugly things about the Senate because he has misunderstood and overreacted to a bill.

One time, I can forgive and forget--the second time, I cannot.

Mr. President and fellow colleagues, thank you for your indulgence. Thank you for bearing with me while I vent my rage."

At this time, Senator R. Wong rose to speak in favor of the bill as follows:

"Mr. President,

This bill, the supplemental appropriations bill of 1976, is intended to provide supplemental appropriations for the 1975-77 fiscal biennium.

Your Committee on Ways and Means has put in considerable time, thought and effort in the preparation of this bill.

It is not a perfect bill, since no budget bill can be a perfect document. It does not provide a panacea for all the State's problems. It does, however, reflect a lot of hard choices and compromises among various alternatives and priorities. It is a fair, reasonable and balanced budget bill. All subject matter committees in the Senate, as well as all individual members of the Senate, had the opportunity for input into this bill. I think it is fair to say that this bill epitomizes the feelings and concerns of the Senate with respect to the programs and needs of the State.

Mr. President, please permit me to highlight some of the main features of this bill:

1. It provides \$19.1 million in supplemental appropriations to various State agencies and programs.
2. It provides \$12.0 million for various programs and activities deemed worthy of support by the Senate.
3. It complements some \$42.1 million already appropriated by the Senate in other Senate bills--including \$20 million each for emergency employment, repair and maintenance of State properties.
4. It authorizes \$136 million in regular General Obligation Bonds for various CIP projects. This is well within our self-imposed limit of \$150 million and is a reflection of our deep concern over the State's growing debt and debt service costs.

We believe a policy of fiscal restraint, in terms of borrowing, is in order so that we can avoid the financial problems of jurisdictions like New York City, where they got too deep into debt.

This bill is not a complete or final document. I fully expect further give-and-take with the House over this bill and the various Senate and House appropriation bills when we go into conference with the House. I am confident that a meaningful legislative program, in terms of funding various programs and activities, will emerge from conference.

This bill now before us, and the other Senate appropriation bills, will provide us, the members of the Senate, with a solid budgetary base from which to proceed.

It is now time for us to begin. The busy part of the legislative session is now ahead.

I urge all members of this honorable Body to vote in favor of this bill.

Thank you."

No. 2100-76, H.D. 1, S.D. 1, entitled: "A BILL FOR AN ACT MAKING APPROPRIATIONS FOR THE FISCAL BIENNIUM JULY 1, 1975, TO JUNE 30, 1977, AND AUTHORIZING THE ISSUANCE OF BONDS", having been read throughout, passed Third Reading by not less than two-thirds vote of all the members to which the Senate is entitled, on the following showing of Ayes and Noes:

At this time, Senator Leopold rose to speak as follows:

"Mr. President, I am going to vote for this bill. It is long overdue in this Legislature. The Chairman of your Committee on Public Utilities is to be commended for putting together the compromise.

However, I cannot let this bill go without some comments. I hope that some of the things I am concerned about will be corrected in conference.

The compromise, which was necessary to effect passage of this bill, is going to cost the taxpayer dearly.

This bill creates liaison officers in the neighboring counties. I've stated in Committee that I do not believe these positions are warranted by the workload.

Also, I feel that the salaries of the commissioners are inordinately high. We should be able to attract competent people to serve on this Commission at lesser salaries.

I am concerned about a section in the bill that allows the chairman alone to hire and fire a chief administrator and an attorney, to fix their compensation and state their powers and duties. I feel that the three full time commissioners should have this responsibility--it should not be the sole responsibility of the chairman.

I am also very much concerned about the effective date of this bill, which is June 1, 1976. This is somewhat unusual, as the beginning of the fiscal year is July 1. What this means, Mr. President, is that a commissioner will serve for perhaps ten months without being confirmed by this Body. This effective date makes a mockery of our confirmation powers.

Since we are going to pay these commissioners such high salaries--\$42,500 for the chairman and ninety-five percent of that for the other two--and they will have such great powers, and since this is the first time we are going to make a full time body of a commission, I feel that we should scrutinize these people carefully before they go on board.

If this bill does pass with the June 1 effective date, I hope the Governor will submit names for confirmation to this current Session, so that we can act upon them before they begin service."

Senator Kawasaki then rose to speak as follows:

"I, too, want entered into the pages of the Senate Journal my objections.

First of all, I have definite reservations about the compensation for the commissioners, which is approximately \$42,500.

Also, I am concerned about the tenure of six years. I feel the tenure should be only four years, so that if we should appoint a man who is mediocre, we won't have to contend with him for six years.

While I vote for this bill, I hope the conference committee will consider these objections."

Senator Taira then rose to speak in favor of the bill as follows:

"Mr. President, I think it only proper there be some response on my part.

First of all, with respect to the liaison officers on each of the neighbor islands, I think we should realize that they will serve as an arm of the Commission. They will respond to complaints, assemble testimony for Public Utilities Commission related matters and, if necessary, hold informal hearings on uncomplicated matters.

Let us all remember that we are a State comprised of island communities. It is only fair that this Commission have an office on each of the neighbor islands to respond to complaints which may arise from these communities.

Insofar as the effective date of June 1, 1976, is concerned, I think we all felt that because of the many complicated situations prevalent in the field of public utilities, as pointed out by the Legislative Auditor, it is necessary to have an early effective date so that a full time Commission, with the proper staff and full resources, can begin to make corrections as soon as possible.

The salaries of the Commission members, I feel, is a matter of viewpoint. We felt that people who are to be Commission members should be highly qualified, and to draw people who are qualified, we need to have salaries that will be commensurate with the responsibilities assigned to them.

With these brief remarks, I would urge this Body to vote for this bill."

The motion was put by the Chair

At this time, Senator Kawasaki rose to speak as follows:

"Mr. President, I am concerned about the practices we have been indulging in ever since the enactment of the Collective Bargaining Law.

I had always assumed that the Collective Bargaining Law mandates us to examine each contract carefully. However, we have almost come to the point where we automatically ratify contracts--and to ratify eleven contracts in one piece of legislation, I think, denotes a stance of irresponsibility.

We've been much too lax in this area, indicating a lack of concern for the fiscal affairs of our State.

At a time when unemployment is at its worse in twenty-seven years of our history...at a time when 34,000 people who want to work don't have work...at a time when we don't seem to be providing any meaningful tax relief for those in the

non-government sector, in the private sector...at a time when national recession seems to be the order of the day, with no hopeful improvement signs on the horizon... we should examine these contracts more closely."

Senator Anderson then rose to speak as follows:

"I somewhat agree with the good Senator, but I would ask that he direct his comments to some of the committee chairman, his colleagues.

We do have a responsibility. We do not have to carte blanche accept, or ratify automatically, these contracts. We do have the authority to reject cost items or the entire package if it doesn't fit into the total economic picture of the State."

Senator Kawasaki rose again in response:

"My comments were not particularly addressed to the Minority party. For several years, I have made these comments time and again to my own colleagues. I have made it very plain to them that I consider some of their past actions irresponsible."

The motion was put by the Chair and carried, and H.B. No. 2987-76, H.D. 1, S.D. 1, entitled: "A BILL FOR AN ACT MAKING APPROPRIATIONS FOR COLLECTIVE BARGAINING COST ITEMS AND FOR SALARY ADJUSTMENTS OF EMPLOYEES EXCLUDED FROM CERTAIN BARGAINING UNITS", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator O'Connor.

At this time, Senator O'Connor rose
to speak as follows:

"I want to put this honorable Body
on notice that this evening we have
voted on four or five changes to
the Horizontal Property Regimes
Act.

This Act, Mr. President, was originally
intended to be a highly technical,
legal vehicle for placing certain
lands in the horizontal property
regimes. It is becoming tonight,
through our actions, a consumer protection
section of the law. Anyone trying
to use it in its technical sense will
have extreme difficulty.

I urge each member of this Body
to watch every change made henceforth
to the Horizontal Property Regimes
Act. Eventually, we will need to review
this whole matter... the consumer
protection aspects should be put into
a separate code or chapter... so
that the initial intent of the law can
still be accomplished."

The motion was put by the Chair

Senator Nishimura moved that H.B. No. 2782-76, H.D. 1, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator O'Connor.

At this time, Senator Chong rose to speak as follows:

"While I will vote Aye on this bill, I would like the record to show that I am very concerned that the limitations to campaign contributions was not included. The recent Supreme Court ruling, which unfortunately allowed the sky to be the limit for campaign expenditures, nevertheless did allow a cap on campaign contributions.

However, as a whole, because we will require substantial disclosure of expenditures, I feel this bill is sufficient to protect the public interest."

The motion was put by the Chair and carried, and H.B. No. 2782-76, H.D. 1, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO CAMPAIGN CONTRIBUTIONS AND EXPENDITURES", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

MATTERS DEFERRED FROM EARLIER ON THE CALENDAR

Standing Committee Report No. 602-76

(H.B. No. 2210-76, H.D. 1, S.D. 2):

By unanimous consent, Stand. Com. Rep. No. 602-76 and H.B. No. 2210-76, H.D. 1, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO THE CONSERVATION, MANAGEMENT AND PROTECTION OF ENDANGERED OR THREATENED SPECIES OF WILDLIFE OR PLANTS", were recommitted to the Committee on Judiciary.

Standing Committee Report No. 607-76 (H.B. No. 3208-76, H.D. 2, S.D. 2):

By unanimous consent, Stand. Com. Rep. No. 607-76 and H.B. No. 3208-76, H.D. 2, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO EMINENT DOMAIN", were recommitted to the Committee on Judiciary.

House Bill No. 2135-76, H.D. 1, S.D. 1:

Senator Nishimura moved that H.B. No. 2135-76, H.D. 1, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator O'Connor.

At this time, Senator Leopold rose to speak against the measure as follows:

"I oppose this bill because it doesn't give our election administrators and county clerks sufficient time to conduct elections in a safe manner... I say safe because the Federal Voting Rights Amendment of last year now requires multi-lingual ballots to be printed. This is English-Filipino-Chinese ballots on Oahu and English-Filipino-Japanese ballots on the neighbor islands. Our county clerks are already under a great deal of pressure to get the ballots out on time.

I have learned from our Clerk in the City and County of Honolulu, that nearly 500 citizens on this island have been disenfranchised because they were not able to return their absentee ballots to the Clerk in time for the General Election. This is a serious problem.

Mr. President, I hope the Senate Managers will stick to their guns and maintain a breathing spell between our Primary and General Elections. I fear there may be a serious, chaotic situation in the conducting of our election process if not enough time is allowed--the very minimum needed is six weeks.

The Senate, in past years, has

taken this position, only to give in to the House position in conference.

There are other objectionable sections to this bill, such as the section dealing with indigent candidates... the word "indigent" is not defined. The filing fee for an indigent candidate will be waived if he gets one-half of one percent of the registered voter in his district to sign his nomination papers. For example, if an indigent person in my district wants to run for office, it would require 300 names on a filing petition.

I think if we are going to really help indigent candidates, those who are less affluent, to run for office, we should make substantive reforms to our election laws, and not simply token expressions of our concern.

I oppose this bill, Mr. President, primarily because we must protect our election process and give our election officials the time they need."

Senator Nishimura then rose to speak in favor of the bill as follows:

"Mr. President, it is my understanding there is a Minority Report on House Bill No. 2135-76, H.D. 1, S.D. 1. Let me say that I fully appreciate the concerns expressed by the Minority members of the Committee on Judiciary for refining and improving our election laws.

Each of us is here as a consequence of the election process, which is a cornerstone of our democratic society and of the representative form of government which has endured in our country from the time of our Founding Fathers to this, our Bicentennial year.

The bill we have reported out is, in our view, a reasonable set of amendments to existing law. The changes made, by and large, are accommodations arrived at to provide greater latitude to our election administrators--both at the State and County levels.

Such accommodation has been recommended because of a larger electorate and the growing complexity of conducting elections on a fair and equitable basis.

At the same time, we recognize that modern technology, notably the use of computerized lists and improved voting systems, has lessened the time constraints faced by election administrators, despite the constant rise in the number of voters.

Let me, then, address the major points raised by the Minority in their report.

First, it is contended that our recommendation to move the Primary Election date up one week is inadequate. The Minority says that even two weeks is insufficient. What it would take to satisfy the Minority is an unknown quantity, inasmuch as no recommendation of their own is offered.

It is further noted, Mr. President, that even with the extra week we have added between the Primary and the General, Hawaii would still have the last Primary in the nation. Mr. President, just what is wrong with having the last Primary in the nation?

Mr. President, it has frequently been observed that the problem with those states having early primaries is that there is too long a period of electioneering and campaign politicking before the General Election is held. I believe we are wise in having a shorter campaign period leading up to our General Election.

The extra week we have provided was not included in the House version of the bill before us. We are hopeful that the House will accept the change we have made. Certainly, it is a reasonable accommodation of the two extra weeks that had been recommended by election administrators who testified before your Committee on Judiciary.

If it is later demonstrated that additional time is needed to prepare for the General Election, such change can be made at a subsequent Session.

If it is the Minority's concern, Mr. President, that more time is needed to heal political wounds that might be generated in Primary Election campaigns, let me observe that this has hardly been a liability to the Minority party in Hawaii.

On the contrary, it is the Majority party that has traditionally featured spirited contests in our primaries. The Minority has generally drawn up virtually uncontested slates, enjoying the privilege of campaigning for the General Election well before Majority party nominations are made.

Witness the situation this year. One Minority candidate has a clear field for nomination for the seat to be vacated in the United States Senate by our senior Senator from Hawaii. The Majority, on the other

hand, has two avowed candidates who will be fighting for our party's nomination for this office.

Or take the office of Mayor of Honolulu. The incumbent Majority member will not have a free ride for the nomination, while the Minority is still searching for a candidate.

Mr. President, I might further note that primaries are not really elections at all--not, at least, in the sense of the General Election. Primaries are held for the purpose of political parties nominating their candidates to stand for election against nominees of other parties. As a matter of fact, in many other jurisdictions, nominations are made at party conventions, open only to registered, card-carrying members of the party.

Secondly, as to the Minority's desire to extend the deadline for filing nomination papers from forty-five to sixty days before a Primary Election, we should be mindful, Mr. President, of a paramount concern in any election: In our democratic system, it is only proper that we provide as much time as possible for all qualified candidates to seek public office. This opportunity should be kept open as long as is practicable.

While the time constraints faced by election administrators can be appreciated, we should bear in mind the fact that elections are held for citizens to vote and to make their choices of public officeholders. Elections are not held for the convenience of those who conduct them.

A third point the Minority makes is that we have inserted an amendment to require clerks to waive filing fees for indigents 'only to comply with a recent U.S. Supreme Court decision'.

Mr. President, I believe it is incumbent upon us to effect changes in compliance with the decisions of the Supreme Court. If this represents only a token change, as alleged by the Minority, it is difficult to understand the extent of the changes they would recommend.

During the days that we worked on this bill, Mr. President, not one suggestion was made by the Minority as to what else might be done for indigent candidates to further the intent of the Court's decision.

Mr. President, the draft of H.B. No. 2135-76, H.D. 1, S.D. 1, that we have presented for approval by this Body contains a reasonable

set of amendments to improve our election laws at this time.

If wholesale and more drastic changes are to be made, they should be considered within the context of even broader questions as to the ultimate purpose of elections under our system of government.

Mr. President, I can detect no significant basis for partisan views on the legislation before us. I, therefore, urge approval by this Body.

Thank you."

Senator Yee then rose in response:

"I feel a little chagrined at what the previous speaker has said. He diverted from the main issues and talked about the Republican Party and the Democrat Party. I feel he deserves a rebuttal.

At one time, the Republican Party was in control of politics in Hawaii. What was done in the past is regretful. We apologize for it.

Unfortunately, what was bad in the past is being practiced by the Majority party today.

Here in this Hall, we talk about a two-party system--but we are not given an opportunity to present Republican bills on the floor for passage...yet, there is no question that the Minority party contributes a tremendous amount of input, whether bills are Democrat or Republican.

The Majority party also has the luxury of extravagance--and your extravagance is leading the State into bankruptcy...fortunately, your present Chairman of the Committee on Ways and Means is concerned about the great spending of this State.

All of this has happened since the Majority party gained control twenty to thirty years ago.

I say let's work together in spirit, and accomplish what's good for the people.

I feel the first speaker was justified in making his remarks."

Senator O'Connor then rose in response:

"Until the Minority Leader hit on the word 'extravagance', I was going along with him beautifully.

I am reminded of the days when the Minority Leader and I went to school here in Hawaii. There was only one English standard high school--today we are blessed with twenty or thirty English standard high schools. There was only one English standard elementary school--today we are blessed with scores of them.

If extravagance makes this State powerful and rich in learning, Mr. President, then I am for that kind of extravagance."

The motion was put by the Chair and carried, and H.B. No. 2135-76, H.D. 1, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO ELECTIONS", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

At this time, Senator Anderson rose to speak against the measure as follows:

"This bill sounds very good in title. I suppose the farmers could believe it is going to be a far reaching bill to help coordinate the agricultural activities of the State.

However, Mr. President, if you stop and give it some thought, an Agricultural Coordinator working out of the Governor's Office is going to clash with the Department of Agriculture.

If the Director of Agriculture is not doing the job, then we ought to replace him or find him a strong deputy who can act as Agricultural Coordinator--but to have two people trying to do the same job can do nothing but play havoc with our agricultural industry.

This position belongs in the Department of Agriculture."

The motion was put by the Chair and carried, and Stand. Com. Rep. No. 658-76 was adopted and H.B. No. 83, H.D. 1, S.D. 3, entitled: "A BILL FOR AN ACT RELATING TO IMPROVING THE ORGANIZATION AND COORDINATION OF AGRICULTURAL PROGRAMS AND PROGRAMS RELATED TO AGRICULTURE", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Nishimura moved that H.B. No. 2700-76, H.D. 2, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator O'Connor.

At this time, Senator Saiki rose to speak as follows:

"Mr. President,

I rise to speak tonight in favor of this medical malpractice bill--but I do so with some very, very grave concerns.

There is no doubt in my mind that unless we have legislation this Session to stabilize the rising cost of malpractice insurance, we shall have upon us very shortly the crisis in health care which has taken place in other states across the nation.

Already we have seen some of the warning signs that the crisis has reached Hawaii: The closing of Leeward Hospital on Oahu in January; the cutback of services by the Hawaii Emergency Physicians Service; and desperate pleas for assistance from physicians on the Big Island and on Maui.

For those who say that we do not as yet have a crisis in Hawaii, must we wait until the one and only insurance company which sells malpractice insurance pulls out of Hawaii? My fellow Senators, I will guarantee you that within twenty-four hours after that occurs, we shall have a major crisis on our hands.

Other warning signs are already present. We have seen huge increases in the costs of medical malpractice premiums, ranging from two hundred to three hundred per cent in a single year. In Hawaii today, some surgeons are paying nearly \$12,000 for insurance. The total amount of money that private hospitals and doctors, excluding the Kaiser health system, are paying

in malpractice premiums is at a rate of approximately \$5 million.

In more basic terms, Mr. President, this means that a hospital patient is forced to pay an extra \$5.00 per day on his hospital bill for malpractice insurance in Hawaii.

In recognition of the growing malpractice problem in Hawaii, this State Legislature last year passed a Joint Underwriting Act, setting up a State system for providing malpractice insurance. But this was not all. During the interim, the State Administration established a task force consisting of representatives of the medical, legal and insurance communities, union representatives and health consumers, who worked many months to develop a consensus bill with a comprehensive approach to the medical malpractice question.

They attempted to seek solutions to:

1. Stabilize the insurance situation by reintroducing some principles of predictability and spreading of risk;
2. Decrease the cost and improve the efficiency of the legal system;
3. Impose appropriate controls and sanctions on health care providers; and
4. Provide outlets for patient grievances.

Theirs was a total and integrated approach designed to compensate the injured and stabilize cost.

The Senate draft now before us does attempt to meet some of the important objectives cited in the intent and purpose of the original bill. It does this by creating a compensation fund and by putting restraints and limitations on the insurance and medical communities.

It fails, however, to put these same important restraints on the legal community. Indeed, in some cases, restraints which are placed on others are actually removed from the attorneys.

In so removing or weakening these restrictions, my fellow Senators and Mr. President, I submit that the malpractice bill now before us has been drastically changed, and may not necessarily be in the best interest of the public which will still have to foot the bill for increased

malpractice insurance premiums.

As a prime example, Mr. President, I refer to the rise in contingency fees in this Senate draft, as compared to the original bill which would have tried to bring these runaway costs under control.

Under provisions of the original bill, the task force made a recommendation that the contingency fee allowed an attorney should be on a sliding scale based on a percentage of the award.

If a malpractice award of \$100,000 were made to an injured party under the task force bill, the attorney would have received \$26,500. According to the Senate draft before us, of the same \$100,000 award, the attorney could receive up to \$40,000.

It is not what the attorney takes home that I am concerned about, it is what is left for the injured patient, who the jury thought would receive due and just compensation.

Mr. President, if we are to be able to more accurately predict the risks and the cost of medical malpractice in this State, we must have a reporting mechanism which mandates all three segments of the community--the medical, the legal and the insurance carriers--to provide the necessary information to our Insurance Commissioner.

Curiously, Mr. President, the present draft requires disclosure of this important information by the the insurance companies and the medical community, while eliminating the reporting requirement for the attorneys.

The question of client-professional relationship interference, used as the reason to delete the attorneys, applies equally to the medical community.

It is necessary for all of the groups involved to make every effort to participate in an ongoing reporting program.

Mr. President, without going any further into detail in expressing my concerns for other areas of the bill, I would like to refer you to the Minority Report which lies on your desk.

It includes, among others, my concerns on the need to strengthen the section on informed consent, a reexamination of the statute of limitations involving minors, and the reinstatement of the doctrine of res ipsa loquitur.

It is my sincere hope in expressing

my feelings tonight, that the ultimate decision group, which will be the Conference Committee, will take these concerns to heart and restore the segments of the bill I have discussed in order to preserve the integrity of the measure.

I have trust and faith in the sincerity of my fellow Legislators. I hope I am not being too much of an optimist when I say that I will keep on hoping that they can, with an unbiased approach, review the measure before us--always keeping in mind that a comprehensive and total approach must be taken if we are to truly address ourselves to the problem at hand.

Thank you."

Senator Nishimura rose to state, "I feel the amendments made by the Senate Committee on Judiciary improve on the House Bill before us and I urge favorable passage".

Senator O'Connor then rose to state it is his hope "the attorney malpractice will be added in conference, so that we can have a decent, worthwhile, well-rounded professional malpractice bill".

The motion was put by the Chair and carried, and H.B. No. 2700-76, H.D. 2, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO MEDICAL PROFESSIONAL LIABILITY", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Senate Bill No. 79, S.D. 1, H.D. 1:

On motion by Senator Nishimura, seconded by Senator O'Connor and carried, the Senate disagreed to the amendments proposed by the House of Representatives to S.B. No. 79, S.D. 1, and requested a conference on the subject matter thereof.

In accordance therewith, the President appointed Senators Nishimura, Chairman, O'Connor, F. Wong, Hara and Leopold as Managers on the part of the Senate at such conference.

House Bill No. 2169-76, H.D. 1, S.D. 1:

On motion by Senator Chong, seconded by Senator Nishimura and carried, H.B. No. 2169-76,

H.D. 1, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO SMOKING IN PUBLIC PLACES", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 14. Noes, 11 (Ching, Hara, Hulten, Kawasaki, O'Connor, Saiki, Soares, Taira, Takitani, Toyofuku and Yamasaki).

RECONSIDERATION OF ACTION TAKEN EARLIER

Senate Bill No. 1830-76, H.D. 1:

Senator Toyofuku moved that the Senate reconsider its action on S.B. No. 1830-76, H.D. 1, seconded by Senator Young and carried.

On motion by Senator Toyofuku, seconded by Senator Young and carried, the Senate disagreed to the amendments proposed by the House of Representatives to S.B. No. 1830-76 and requested a conference on the subject matter thereof.

The President announced that Managers on the part of the Senate at such conference would be appointed at a later date.

At this time, Senator Anderson rose on a point of personal privilege to speak as follows:

"Mr. President, I asked the Legislative Auditor to put together some facts for me, and he has advised as follows: 'In response to your March 22, 1976, request, we have calculated the cost of twenty-five audit reports and three special studies completed by our office since 1970. The total cost is \$1,920,358. Not included in this figure are such support expenditures as general clerical support, office supplies and similar expenditures'.

We have spent an average of \$70,000 each on these audits, and almost every one of them has torn your departments apart, literally. The audit on the State Foundation on Culture and the Arts is no exception."

Senator Kawasaki rose in response:

"I am as much against research costs as the Senator across the aisle, but I have a great respect for the quality of work that comes from the Legislative Auditor's office . . . and I must remind the Minority Floor Leader that he has voted many times for programs and recommendations outlined in the Legislative Auditor's reports

of the past.

If this kind of expenditure is necessary for us to continuously improve the operation of government, then it is worth it."

Senator Anderson then rose to state:

"You will find, if you do your homework, that we have not, in fact, carried out the comments and constructive criticism of the Legislative Auditor regarding the various departments. If I were a Democrat, Mr. President, I would close up the Legislative Auditor's office tomorrow, because it is proving to be very embarrassing to the Democrat Administration.

I might add that of the four major criticisms in the Auditor's report on the State Foundation on Culture and the Arts, three are against other agencies.

Mr. President, we offered in Committee to amend the bill to provide accountability, to provide the closing down of the Foundation on Culture and the Arts, the flexibility--but we did not have that choice. It had come to the point to vote for the bill or kill it.

We stand ready to assist and participate in closing the door a little bit to provide better accountability, but we still believe the Culture and Arts is a good program. It can be salvaged. It can be a meaningful program in this State.

We hope to come back next year and work with you to provide the accountability and to help make it a meaningful and workable bill."

Senator Kawasaki again rose to say:

"One short response. The Minority Floor Leader said we have not implemented or followed the recommendations made in the Auditor's reports. I want to remind him that tonight we voted on the public utilities bill, which contained many of the recommendations enumerated by the Legislative Auditor's report."

RE-REFERRAL OF A HOUSE BILL

The President made the following re-referral of a House Bill that was received on Tuesday, March 16, 1976:

House Bill	Referred to:
No. 2895-76, H.D. 1	Committee on Ways and Means

At this time, Senator Anderson rose on a point of information to inquire if the Majority Leader would yield to a question, to which Senator Ching answered in the affirmative.

Senator Anderson then asked if the Senate would strictly adhere to the amended Senate timetable, which indicates that March 30, 1976, is the deadline for passage on Third Reading all House Bills with Senate drafts and for receiving from the House all Senate Bills with House drafts.

Senator Ching replied that this was the joint agreement of the House and Senate leadership, and it was their intent to live up to the schedule at the present time.

MATTER DEFERRED
FROM EARLIER ON THE CALENDAR

Standing Committee Report No. 688-76 (S.C.R. No. 44):

Senator F. Wong moved that Stand. Com. Rep. No. 688-76 be adopted and S.C.R. No. 44 be adopted, seconded by Senator Hara.

At this time, Senator Anderson rose to speak against the resolution:

"Mr. President, I am sorry this resolution did not go to the Committee on Military and Civil Defense.

It's a very popular resolution...and being a part Hawaiian, I'll probably feel the wrath of this...but I think it is an overreaction.

I believe in the ultimate return of Kahoolawe to the State, but the Legislature is being asked to put the Navy in an awkward position. They have their need for the island, and it can probably be phased out on an incremental basis. I am sure they can work with the Mayor of the County of Maui.

I cannot support this resolution. I don't think it is a responsible measure."

The motion was put by the Chair and carried, and Stand. Com. Rep. No. 688-76 was adopted and, Roll Call having been requested, S.C.R. No. 44, entitled: "SENATE CONCURRENT RESOLUTION REQUESTING THE UNITED STATES GOVERNMENT TO RESTORE AND RETURN THE ISLAND OF KAHOO LAWE TO THE STATE OF HAWAII", was adopted on the following showing of Ayes and Noes:

Ayes, 24. Noes, 1 (Anderson).

RECONSIDERATION OF ACTION TAKEN

Senate Bill No. 1998-76, H.D. 1:

Senator Nishimura moved that the Senate reconsider its action on S.B. No. 1998-76, H.D. 1, seconded by Senator O'Connor and carried.

On motion by Senator Nishimura, seconded by Senator O'Connor and carried, the Senate disagreed to the amendments proposed by the House to S.B. No. 1998-76, and requested a conference on the subject matter thereof.

In accordance therewith, the President appointed Senators Nishimura, Chairman, O'Connor and George as Managers on the part of the Senate at such conference.

At this time, Senator Hulten rose on a point of personal privilege and stated as follows:

"Mr. President, I understand that there was a telecast on Channel 9 last evening in connection with the

Hawaiian Inter-Island Ferry System. I did not happen to view that telecast but I have been informed that in conjunction with it, a statement was made possibly attributed to me that I had said that I had a 10% interest in this proposal for a privately operated inter-island ferry system as a finder's fee. I would like to clarify for the record just exactly what my position is in regard to this inter-island ferry system.

As you know, we passed legislation in 1963 and again in 1965 which I was very instrumental in, which established a state-owned and operated ferry system under the Department of Transportation and we had at that time, authorized the expenditure of some \$14 million in revenue bonds for the financing of the system. There arose some opposition in the community because of the fact that this would be a publicly operated ferry system.

The inference was--in fact, it was explicitly stated by those opposing, that they would have no objection if there were a privately operated ferry system. I spoke to the then Governor Burns and he also indicated that the proper route to go probably would be a privately operated system and he asked me to explore that.

We did, and in 1967, there was incorporated the Hawaiian Inter-Island Ferry System. The purpose of it was to provide an inter-island ferry between these islands.

This was to be financed basically through the maritime administration program where 87-1/2% of the cost of these vessels would be on the basis of an insured mortgage from the maritime administration. The balance of the equity would be raised by the operators of this system.

I then proceeded to try to sell stock locally, to the local community here, so that the system would be owned locally. It would be a privately, locally-owned system, similar to the way Aloha Airlines financed their operation. We needed about a million and a half and we were able to raise only \$900,000. Since this amount wasn't sufficient, we then proceeded to refund the monies collected. We then had to seek private investors from outside sources to try to put it together.

In the meantime, the Hawaiian Inter-Island Ferry System, Ltd. had expended approximately \$500,000. We had obtained actual working plans

for the construction of the vessels, paid for those and financed all of the necessary paper work and everything that had to go through to get this approved by the maritime administration and by the local Public Utilities Commission and so forth. So there was an investment of about \$500,000 by Hawaiian Inter-Island Ferry System.

In trying to find private investors, we contacted Stanley McDonald of McDonald-Halliday Enterprises, who were the operators of the Princess Cruise Lines, and they said that they would be interested in trying to both raise the equity money and also in operating the vessel. The proposal that was presented to the Legislature the other evening was their proposal and basically what it requested was that they are putting up three and a half million dollars in cash themselves. Maritime administration was insuring the 87-1/2%.

There was an additional \$12 million required in this equity portion and they had financing arranged through the financial institutions, but the financial institutions wanted some assurance from the State that they would support this system and asked if they would underwrite or guarantee the \$12 million loan. This basically is the proposal before us.

Now as far as my own personal involvement is concerned with Hawaiian Inter-Island Ferry System, I had invested about \$50,000 of the \$500,000 towards these plans, etc. and I indicated to those who asked me at the time, this would basically be... what happens is Hawaiian Inter-Island Ferry System would be taken over by this group that is providing the equity money and would receive a 10% interest in the operating group and my interest in that 10% interest would be 1%. In other words, what the \$50,000 was, was 1% of the venture.

I indicated to everybody that I was not concerned. My whole point of this was not as a money-making venture for myself but to get an inter-island ferry system and I'd be perfectly willing to donate this 1% to the State or to charity or to anybody who wants it, but I personally would not be involved in this. As I said, the primary purpose here is to provide a very necessary service to the people of this State and this is my involvement.

I intend to check with the Channel 9 TV station to find out just exactly what was said and if any further clarification is needed, I will be prepared to do this on Monday.

Thank you very much."

Senator Kuroda then rose on a point of personal privilege and remarked as follows:

"Mr. President, in the recent days, my name has been mentioned in both daily newspapers with regards to a bill that is now in the House. It is Senate Bill No. 1992-76 which has to do with the redistricting of the congressional district.

I think that it should be accurately reported that I did not agree with the Senate version that went out because I voted no, as it affects the voting people of the district which I represent. However, I have supported the position that the Senate has sent out.

It appears that there is some implication that I had something to do with what's happening in the House. The only question I was asked was 'where do you live' and I told them where I live.

As to what the House does with the bill is their business and as to what the Republicans want to do with that is their business, but I think it's improper for my name to be dragged into it as having a shady part in the activity and I believe that when the bill comes back, as it has, that the Senate will take some corrective action.

Thank you."

Senator Anderson, on a point of personal privilege, also, stated as follows:

"Mr. President, I hesitate to speak on the subject but I think we'd better clarify a little bit further, the language regarding the ferry system because for some reason, a lot of us are being interviewed this morning by the press who evidently picked up something.

I'd like to state for the record that the Republican members of the Ways and Means Committee had no participation and no input in the language change of the ferry in the particular budget this year.

We disagree with it. We were hoping to pick it up in the conference. We question whether you can use CIP money for what appears to be an operating subsidy. We question whether we can commit legislatures for \$20 million down the road--legislatures that have not yet been adjourned, and I think that is illegal.

We did not, as I say, participate in the language change that appears and if this should get blown out of proportion, I'd like it very clear it is not on this side of the aisle."

Senator R. Wong, on a point of personal privilege, and in response to the foregoing, stated as follows:

"Mr. President, it has been my policy during the brief time that I have been here that we never touch certain language changes which are based in CIP appropriations because it deals with specific districts and the amount of CIP monies that are apportioned to the Senators to spend. With reference to the broader pictures which have statewide categories, the budget bill was presented to all members of the Ways and Means Committee in terms of a breakdown in every category and, based on findings of what I felt was correct, we made these changes, Mr. President. That bill was in full view of the twenty-five members of the Senate, twenty-four hours before passage.

I want to emphasize that the foregoing speaker is correct that they may have overlooked that particular provision but it is in the bill. I agree with him in principle that any CIP appropriations are not to be used for operating expenses and I will make that clear in conference. I am sure when we come out, there will be changes to the language, if it is so noted that this appears to be the case with reference to the State ferry system.

I want to make it very clear to the members of this Body, that it was never our intent to favor any one particular individual and the Senator from the Third District and myself have not been in contact relative to this particular matter. We have discussed it. I don't think it is any secret in this Senate that this particular Senator has pushed all these years for a ferry system between the islands and I don't think any Senator here disagrees with that.

Mr. President, I want to make it very clear that in conference we will take a very, very good look at the language one more time. Thank you, Mr. President."

A concurrent resolution (S.C.R. No. 101), entitled: "SENATE CONCURRENT RESOLUTION RELATING TO THE STATE PLAN", was jointly offered by Senators F. Wong and King.

By unanimous consent, S.C.R. No. 101 was jointly referred to the Committee on Economic Development, then to the Committee on Ecology, Environment and Recreation.

A concurrent resolution (S.C.R. No. 102), entitled: "SENATE CONCURRENT RESOLUTION MEMORIALIZING THE LATE GOVERNOR JOHN A. BURNS", was jointly offered by Senators Ushijima, Ching, Yamasaki, Takitani, Taira, Hulten, Kawasaki, Kuroda, Yim, King, Young, Toyofuku, Hara, Chong, Nishimura, O'Connor, Yee, Henderson, Leopold, Anderson, George, Saiki, Soares, R. Wong and F. Wong.

Senator Taira moved that S.C.R. No. 102 be adopted, seconded by Senator Anderson.

At this time, Senator Taira rose to speak as follows:

"Mr. President, on this day a year ago, we lost a great leader... I would say the greatest leader of our times. It was a sad day of mourning throughout Hawaii.

For many of us in this Body, as well as for many of our colleagues across the Hall, the passing of Governor Burns also represented a deep personal loss. We respected him. We admired him. We loved him. That so many held him in such deep affection was the mark of his influence among us.

Certainly, his achievement in bringing Statehood to Hawaii as our last Delegate to Congress was an accomplishment that in itself ranks among the most prominent in the history of Hawaii.

Yet, there was more, much more in his lifetime of service in behalf of the people of our Islands.

During his three terms as Governor, far-reaching changes were made in our social, economic, political, educational, and other institutions of our society. Few will deny that the imprint of his Administration will be indelibly impressed upon every aspect of our lives for many years to come.

Yet, it was characteristic of Governor Burns and his quiet style of leadership that he never took personal credit for the progress he influenced.

Perhaps, Mr. President, one of his greatest achievements was the harmony and spirit of cooperation that he generated between the Executive and the Legislative branches of government. While he fully respected the doctrine of separation of powers, Governor Burns opened up dialogue between our respective branches of government.

Through his leadership, the constitutional gulf between the Executive and the Legislature was quietly bridged so that, together, we were able to develop those many new programs instituted during his Administration.

Mr. President, I remember, too, that in his final address before the Legislature--weakened though he was by the illness to which he finally succumbed--Governor Burns called upon all of us to continue... to continue dreaming that impossible dream that he left as a legacy to all Hawaii.

Throughout his life, Governor Burns conducted himself--as he treated all with whom he came in contact--with dignity. He holds a special place in our hearts, and his memory remains an inspiration and a shining example for all of us.

Mr. President, I believe it very, very appropriate that a standing vote be taken on the resolution before us. Before calling for the vote, I will yield to the Minority Leader."

Senator Yee then rose to speak:

"Mr. President, I, too, rise in great reverence for the man we are honoring this morning.

I served with him during his three terms as Governor, and found him to be a friendly, warm and kind person. He had the island people at heart--he never shunned anyone.

A great concern many of us had when he was first elected Governor, was whether he would be too liberal or too pro-labor--but he brought consensus between labor and business, and the community benefited.

I would like, at this time, with the participation of the Minority, to pay tribute to the late Governor John A. Burns."

The motion was put by the Chair and carried by a rising vote, and S.R. No. 102 was adopted.

A moment of silence in memory of the late Governor John A. Burns was then observed by the members of the Senate.

A concurrent resolution (S.C.R. Senator Anderson then asked if the Senate is still adhering to the legislative timetable as set up by the Senate and House leadership.

Senator R. Wong answered as follows:

"Mr. President, we have until midnight today to decide that.

I released the Senators on the Ways and Means Committee over the weekend, telling them that there will not be a conference. I wish to state for the record that there was an informal meeting with the House and we presented to them the Senate position based on various measures. To this day, we have not received a response from the House."

Senator Anderson then rose on a point of personal privilege and stated as follows:

"Mr. President, it seems that the conference committee chairmen, or the Managers, for some reason have obtained this prerogative again where the committee members sit and wait for hours while the two chairmen are in locked offices and doors trying to get their own points of view in, ignoring the conference committee members... and I'm not speaking of just the Ways and Means Committee. I'm just wondering if the opposition party and the media are going to have a chance to sit in and listen to the debate, pro and con."

Senator R. Wong then responded as follows:

"Mr. President, there is no deal behind closed doors. The position paper that was offered the Speaker and the Chairman of the House Finance Committee was a position arrived at by the Ways and Means Committee and it not only includes the tourist tax, but also the Florida Law, the 60% assessments and other related matters which the Senate deems important as part of the Majority Program.

Also, Mr. President, I would like to point out that there will not be a conference committee meeting where the press and the media are not invited. They are welcome to come. I make that statement for the record that when the conferees do meet, the meeting will be open to the people and the press.

Thank you, Mr. President."

At 11:55 o'clock a.m., the Senate stood in recess until 7:00 o'clock p.m. tonight.

At this time, Senator King rose to speak as follows:

"Mr. President, I hold the humpback whale in high affection and esteem. Over the years, I have watched them with much pleasure when they are spouting offshore on their periodic visits here. And I am certainly in total support of the international movement to save the humpback whale.

However, I rise to speak against this resolution.

In the first place, the humpback whale is not indigenous to Hawaii. We have equally appealing indigenous animals, such as the monk seal, for example, that could be adopted for a State symbol.

It's actually a relative newcomer to Hawaii, having only arrived about a hundred years ago... the whalers in Lahaina did not hunt the humpback whale. Not only is this whale a newcomer, but, in a sense, a tourist rather than a resident, as it only comes to the islands periodically to appear offshore... and it certainly is a wonder to behold.

The people who are involved in the international movement to save the whale, testified that they supported the resolution because they wanted a symbol for their cause. I am not sure the State should adopt this mammal for a cause.

For these reasons, Mr. President, I would urge that we vote against this resolution."

Senator F. Wong then rose in support of the resolution, stating that "while the humpback whale is not indigenous to the State of Hawaii, it has been coming here far longer than any of us has lived on this earth. I consider it a kamaaina".

"Mr. President, again the Legislature is on the verge of failing to give our election administrators an opportunity to handle elections properly. They have pleaded with us year, after year, after year, to give them the necessary time to prevent a catastrophe which must surely come if we don't take appropriate action.

As I pointed out earlier in this Body, the Federal amendments to the Voting Rights Act require multi-lingual ballots, placing an additional burden on our election administrators.

There is a provision in this conference draft that our candidates are to be listed in alphabetical order on the ballot. A long-standing discrimination and unconstitutional provision in our law is finally being removed. However, it is a bone being thrown to those looking for real election reform."

Senator F. Wong then spoke against the measure as follows:

"Mr. President, in speaking against the bill, I do so with a great deal of trepidation because it is in a sense voting against motherhood and apple pie. The reason for this position, Mr. President, is because the bill as I read it and as interpreted to me by the Attorney General, is clearly discriminatory. However, the heart of the bill is contained on page 4.

The present law states that any lease enjoys the benefits of being modified or having restrictions eliminated in order to secure financing. The bill as contained in conference draft one, limits those rights to only intensive agriculture and special livestock leases. This excludes, Mr. President, nine other categories of leases that now enjoy that exemption or that modification. Those include pasture leases, commercial timber use leases, quarry leases, mining leases, recreational use leases, watershed leases, residential leases, commercial and industrial leases, hotel, apartment and motel leases, resort leases and unclassified leases. To deny this exemption, Mr. President, is clearly discriminatory. Unfortunately, this matter could not have been resolved in conference in an equitable way.

In rising to speak against it and

voting against it today, Mr. President, I do so to indicate to the members of this Body that corrective legislation is needed to bring about an equitable solution in 1977 and I trust that this matter will be given high priority by the next Legislature."

Senator Kawasaki then spoke against the bill as follows:

"Mr. President, I'm a little concerned about the language of the bill which empowers the Board of Land and Natural Resources to cancel what is today an existing lease.

Let's just assume that a person has a 20-year lease with one or two years remaining. He applies to the Land Board and is able to effectuate a cancellation of his present lease, thereby enjoying another 35 years of additional lease under the State Leasing Agreements, for a total number of 55 years.

It just seems to me that when a person has the privilege of having 20 years of lease privileges then he should vie for the extension of the lease for another 35 years with any other person who may be interested in a similar lease in a similar land owned by the State. It gives me the impression that this is privileged legislation.

If we have certain problems with people who want to obtain mortgages, I think the language could be so perfected that we give some consideration to these people, providing they are going to continue an enterprise of great value to the State and in the judgment of the Board of Land and Natural Resources, it is justified--but a blanket language that almost assures that a present lessee can get another 35 years over anyone else who may be interested in such a piece of land, I think is very privileged legislation. For that reason, I have to vote against it."

The motion was put by the Chair and carried and Conf. Com. Rep. No. 20-76 was adopted and S.B. No. 1577, S.D. 1, H.D. 2, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC LANDS", having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

Ayes, 20. Noes, 4 (Kawasaki, Soares, F. Wong and Yee). Excused, 1 (R. Wong).

Conference Committee Report No. 22-76 (S.B. No. 2294-76, S.D.

2, H.D. 2, C.D. 1):

Senator Chong moved that Conf. Com. Rep. No. 22-76 be adopted and that S.B. No. 2294-76, S.D. 2, H.D. 2, C.D. 1, having been read throughout, pass Final Reading, seconded by Senator Takitani.

Senator Chong then spoke for the measure as follows:

"Mr. President, I rise to speak for this bill. By way of background, this honorable Body passed Senate Resolution No. 44 at the last session, authorizing your Senate Health Committee to monitor the new national health planning and resources development act, also known as PL 93-641, which in effect created throughout the United States, a new health planning structure. We are one of the first states in the United States to pass enabling legislation.

Your Senate Health Committee held several interim hearings and informational meetings on this issue and we came back early in January of this session to include and expand the concept of the new national legislation to include and to make into legislation, the citizen's participation.

This bill establishes the concept of sub-area grass roots health planning councils throughout the State of Hawaii. The national legislation was silent with regard to the details on this, so we decided to make it part of the State law. It is our intent that this will be a permanent vehicle for citizens' input, a permanent vehicle into the health planning process.

The establishment of these sub-area health planning councils is consistent with the intent of the health resources and development act of last year to assure the greatest amount of public participation in health planning. As established, sub-area health planning councils gather the viewpoints of citizens and recommend and review plans with respect to health planning in each area. The bill also makes sure that the recommendations of the sub-area councils are considered by the overall agencies responsible for planning health care and services.

I'd like to add, Mr. President, that the Congress of the United States authorized approximately one billion dollars to carry out this new Federal Act which consolidates all comprehensive health planning, regional medical programs and Hill-Burton authorities. Hawaii should be eligible to therefore qualify for considerable amounts of money.

The control of the new State Health Planning Agency and the sub-area councils will be people who will be appointed by the Governor, and your Committee made sure that it would be with the advise and consent of the Senate."

By unanimous consent, action on Conf. Com. Rep. No. 22-76 and S.B. No. 2294-76, S.D. 2, H.D. 2, C.D. 1, was deferred to the end of the calendar.

Conference Committee Report No.

34-76 (H.B. No. 3196-76, H.D. 2, S.D. 1, C.D. 1):

Senator Nishimura moved that Conf. Com. Rep. No. 34-76 be adopted and that H.B. No. 3196-76, H.D. 2, S.D. 1, C.D. 1, having been read throughout, pass Final Reading, seconded by Senator O'Connor.

Senator O'Connor then spoke for the measure as follows:

"Mr. President, I rise to speak in favor of the bill.

Too long in Hawaii we have had offenses committed with firearms for which the penalty has not been as severe as it should be.

Too long have we gone in a situation where firearms are used by the criminal element in our community in a rampant situation without really having any restrictions in their use.

Too long have we had organized crime killings in this State discovered and yet no proper sanction for the killer once it has been determined that he used firearms in his crime.

Mr. President, the people of our State have reached a point based upon the findings of your various committees in this area that they demand legislation of this nature. This legislation would establish mandatory minimum sentences for crimes committed with firearms. This is a new approach in this State--a new approach to our prior sentencing law and a new approach of handling citizens of this nature.

I believe that this is a bill which the citizens of Hawaii want and it is a bill which will insure that in the future, when crimes are committed with firearms, those people who perpetrate such crimes will be punished severely and be placed in a situation where others in the community should know not to use firearms in any circumstance and nonetheless in the commission of crimes.

I urge all to vote for this measure."

Senator Kawasaki, in speaking for the bill, stated as follows:

"Mr. President, I would like to urge a unanimous vote on this bill but I want to, in one of these rare instances, give due credit to the Chairman of the House Judiciary Committee and to the members of the House. This is one of Representative Stanley Roehrig's pet bills and ideas.

Another is on the agenda today in Conference Committee Report No. 39-76 on House Bill No. 2932-76, H.D. 2, S.D. 1, C.D. 1.

Consonant with the previous speaker's views, I think this is a step in the right direction in providing for this community some effective, fair law, and I would hope that we can get a unanimous vote on both of these bills."

The motion was put by the Chair and carried and Conf. Com. Rep. No. 34-76 was adopted and H.B. No. 3196-76, H.D. 2, S.D. 1, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE USE OF FIREARMS IN CERTAIN OFFENSES", having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

FINAL READING

Conference Committee Report No.

36-76 (S.B. No. 1758-76, S.D. 2, H.D. 2, C.D. 1):

By unanimous consent, action on Conf. Com. Rep. No. 36-76 and S.B. No. 1758-76, S.D. 2, H.D. 2, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO HOUSING", was deferred until Thursday, April 15, 1976.

Conference Committee Report No. 37-76 (H.B. No. 2253-76, H.D. 1, S.D. 1, C.D. 1):

By unanimous consent, action on Conf. Com. Rep. No. 37-76 and H.B. No. 2253-76, H.D. 1, S.D. 1, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO RESIDENTIAL LEASEHOLDS", was deferred until Thursday, April 15, 1976.

Conference Committee Report No. 38-76 (H.B. No. 1499, H.D. 1, S.D. 1, C.D. 2):

Senator O'Connor moved that Conf. Com. Rep. No. 38-76 be adopted and that H.B. No. 1499, H.D. 1, S.D. 1, C.D. 2, having been read throughout, pass Final Reading, seconded by Senator Ching.

Senator Leopold then spoke against the measure as follows:

"Mr. President, when this bill went into conference, I stated on the floor that it had constitutional problems and the Attorney General confirmed my fears about an unconstitutional provision within the measure. Unfortunately, rather than keeping the measure clean of constitutional problems in the conference draft, they have replaced one unconstitutional provision with another, and I speak specifically to the section regarding non-residents.

This bill purports to charge non-resident differentials for moorage fees and for application fees. The language is unclear as to the amount of the fee the non-resident will be paying for an application. It just states no less than \$100. I know the House preferred that the fee be \$1,000 for a non-resident, and while it's perhaps in vogue to attack these non-residents, I think it's very discriminatory and will give us a national 'black-eye' in the boating community around the world.

Relating to some of the provisions that are still in the bill from the Senate Draft that I spoke of earlier, I'm very much concerned about the provision in the bill which allows

this small boating program to be continued to be administered by a division which has shown itself incapable of administering the program properly, and this of course, was cited by the Legislative Auditor in its recent legislative audit to the Legislature.

I am very dissatisfied with this measure. I still think it contains constitutional problems. It's reduced what I thought was an equitable percentage for live-aboards at the Ala Wai and Keehi Lagoon Harbors and I'm very disturbed that they reduced this to 15% rather than 25%. Basically I'm very unhappy about the bill. I think it treats the people who live on these harbors in a discriminatory manner and I urge the members to vote against it."

Senator O'Connor then spoke in favor of the bill as follows:

"Mr. President, if the charge to a non-resident is higher than the charge to a resident in any circumstance, then we best go back and review all of our practices in this State in many, many respects, and not the least of which is our statutory requirement for non-resident tuition at our University.

Every state, Mr. President, does this and if it is unconstitutional, I have yet to see a case anywhere which prohibits a State from making such a charge. When the taxpayers of the State provide a benefit to the citizens of the State, then it is only wise for that State to charge non-citizens who are non-taxpayers a larger sum to use that facility.

This bill, Mr. President, is a bill which will provide direction to the Department of Transportation where no direction has existed to this time. This is a bill which will provide one organization which is charged with the management and growth and development of our small boat harbors where no such organization has existed to this time. I will admit that that organization still remains in the Department of Transportation, but that department is uniquely suited to handle this problem, where other divisions of this government are not.

The bill, Mr. President, is in toto a bill long needed in this jurisdiction and I would ask all members of this Body to vote for it."

Senator Leopold then remarked as follows:

"Mr. President, I don't believe that the former speaker's analogy to the University differential is accurate and pertinent to this case because in the case of a University differential, the non-resident is receiving a service, but merely to pay at least \$100 for an application fee when there is no service provided, I think is much different than providing a service by way of an education to your non-resident in the University system.

One final quote that I'd like to leave in the minds of the members of this Body regarding the housing of this program within the Harbors Division, is a quote from the legislative audit, 'the continued housing of the recreational boating program within the Department of Transportation is bound to work to the detriment of recreational boating'."

The motion was put by the Chair and carried and Conf. Com. Rep. No. 38-76 was adopted and H.B. No. 1499, H.D. 1, S.D. 1, C.D. 2, entitled: "A BILL FOR AN ACT RELATING TO SMALL BOAT HARBORS", having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

Ayes, 19. Noes, 5 (Anderson, Chong, King, Leopold and Yee). Excused, 1 (R. Wong).

Conference Committee Report No. 39-76 (H.B. No. 2932-76, H.D. 2, S.D. 1, C.D. 2):

Senator Nishimura moved that Conf. Com. Rep. No. 39-76 be adopted and H.B. No. 2932-76, H.D. 2, S.D. 1, C.D. 2, having been read throughout, pass Final Reading, seconded by Senator O'Connor.

Senator Kawasaki then spoke for the bill as follows:

"Mr. President, I'd like to make one short comment here. I would hope with the passage of this bill and ultimate enactment into law, that there is a clear message to the criminal elements in this State, and particularly the organized professional criminal element, that meantime, the Legislature will not be intimidated by the growth of organized criminal activity and we would do everything possible to bring safety to the City and County of Honolulu and the State of Hawaii.

Thank you."

The motion was put by the Chair

ORDER OF THE DAY

MATTERS DEFERRED FROM APRIL 14, 1976

Standing Committee Report No. 1027-76 (S.C.R. No. 109):

By unanimous consent, action on Stand. Com. Rep. No. 1027-76 and S.C.R. No. 109 was deferred to the end of the calendar.

Conference Committee Report No. 9-76 (S.B. No. 1786-76, S.D. 1,

H.D. 1, C.D. 1):

Senator Nishimura moved that the Senate reconsider its action on Conf. Com. Rep. No. 9-76 and S.B. No. 1786-76, S.D. 1, H.D. 1, C.D. 1, seconded by Senator O'Connor and carried.

Senator Nishimura then moved that Conf. Com. Rep. No. 9-76 and S.B. No. 1786-76, S.D. 1, H.D. 1, C.D. 1, be recommitted to the Committee on Conference, seconded by Senator O'Connor.

At this time, Senator Nishimura rose to speak as follows:

"Mr. President, the House draft would permit those who have testified in the prosecution of an action brought by the Office of Consumer Protection, to obtain restitution of any money they may have lost.

The Conference draft amended this to provide that a written complaint must be filed with Consumer Protection in order to receive restitution.

The conferees have agreed that the House draft version is a more appropriate vehicle to take care of the problem."

Senator Yee then rose on a point of information to inquire if the Chairman of the Committee on Judiciary would yield to a question, to which Senator Nishimura answered in the affirmative.

Senator Yee then asked if it would now be necessary that a judgment be filed by the court before restitution could be made.

Senator Nishimura replied that "the bill would require that people receiving restitution must actually testify in the case. Previously, the mere filing of a written complaint would have been sufficient to permit restitution".

The motion was put by the Chair and carried, and Conf. Com. Rep. No. 9-76 and S.B. No. 1786-76, S.D. 1, H.D. 1, C.D. 1, were recommitted to the Committee on Conference.

Senator O'Connor then moved that H.C.R. No. 19, H.D. 1, S.D. 1, be adopted, seconded by Senator Ching.

At this time, Senator Soares rose on a point of information to inquire if the Chairman of the Committee on Transportation would yield to a question, to which Senator O'Connor answered in the affirmative.

Senator Soares then requested clarification of a clause on Page 2 of the resolution, which states "the plans for this project include a feasibility study of all existing proposals which have been made to the Department of Transportation for the private operation or construction of an interisland ferry system".

Senator O'Connor replied that "as a result of certain legislation passed by this Body last Session, certain construction and operating plans have been submitted to the Department of Transportation regarding a ferry system. This clause simply asks the Department, in making the feasibility study, to utilize those plans and clarify them as necessary for report to the Legislature next Session".

Senator Soares then requested clarification of another clause on Page 2 of the resolution, which states "the Department of Transportation shall include all existing carriers engaged or planning to be engaged in an interisland freight or passenger service in the pilot project". He asked if the airline carriers would also be included in this pilot project, as they are engaged in interisland freight and passenger service.

Senator O'Connor replied, "I would certainly hope that if a pilot project of this nature is planned, the airlines will not be left out, as they are a vital segment in the interisland link".

Senator Soares then stated that "on the basis that the airline carriers will be included, I shall ask all to vote in favor of this resolution".

Senator Yee rose to speak as follows:

"Mr. President, I again stand to oppose the motion adopting the State ferry system.

I would like to read from The Interisland

Ferry Issue by the Chamber of Commerce of Hawaii. I think it is very appropriate that we give some thought to this well documented book.

I quote: 'Since the only cargo the proposed ferry would carry would be that which rolled on and off aboard a truck or trailer, this would eliminate large bulk items like pineapple, sand and fertilizer, and it would obviously eliminate palletized cargo. In addition, noxious cargo cannot be carried on a vessel that also carries passengers.

What would be left would be largely agricultural truck crops--which have been the main cargo envisioned by ferry proponents for the last twenty years.

Here we get to the basic concept of a "marine highway"--a truck farmer who grows his vegetables, fruits, and melons loads them on his truck and drives down the highway to the market.

This concept overlooks a large number of realities.

First, a farmer on the Big Island or on Kauai would have to be down at the docks in time to catch the 7:30 a.m. daily departure.

He and his truck or trailer rig would arrive in Honolulu in the evening from the Big Island or Maui and would have to find a place to stay overnight for delivery the next day. On the third day he would return home, getting back to the Big Island or Kauai after midnight. His cost (in addition to the ferry charge) would include three days of his own time and three days of his truck time--plus his own cost of room and board for two nights. Further, he would pay a round-trip fare for himself and his truck in order to move his produce one way.

Under the above schedule, if a truck farmer made two trips to the market per week (each trip taking three days) and took Sunday off, he would have no time at all to raise his crops.'

Thank you."

Senator Soares then rose to state, "I stand corrected. My statement should have been to vote against the resolution".

The motion was put by the Chair and carried, and, Roll Call having been requested, H.C.R. No. 19, H.D. 1,

He then reviewed the personal history of the nominee, which he stated was made available to him by the Governor's Office, noting that his work experience has been in the field of politics.

Senator Leopold continued by stating that "the personal history of those being nominated to important boards and commissions should be made available in the files of every committee member, as it is otherwise impossible to review their qualifications in depth". He added that "it is unfortunate that these important positions don't come to us until the waning hours of the Session--our busiest time". We are not twenty-five rubber stamps--we have our own judgments".

He added, "We are talking about a lay board, which should take into account all points of view. The Senate reconvened at 11:56 o'clock a.m.

At this time, Senator Nishimura rose to speak as follows:

"Mr. President, as Chairman of the Committee on Judiciary, I would like to apologize for bringing down these names so late in the Session.

Unfortunately, we have a very busy Committee. Those who have watched the agenda for the past few days, will have noted the number of bills

and conference drafts we have acted on. Throughout this Session, we held hearings practically every day-- and we were able to hear only 25% of the bills and resolutions referred to the Committee on Judiciary. We tried our best to act as responsibly as we could in the time that we had.

The people nominated to these boards and commissions are not being nominated to pork positions. They are being nominated to positions of important responsibility.

I resent very much, Mr. President, the insinuation made on this floor that the Committee on Judiciary is rubber stamping these outstanding, eminently qualified nominees.

We have bent over backwards during the Session to accommodate the Minority to give them full opportunity to question witnesses. We have, as much as possible, held full and open public meetings.

I am presently satisfied that these nominees are qualified, and urge favorable votes."

At this time, Senator Chong rose to speak in favor of the measure as follows:

"Mr. President, this bill amends Act 198, Session Laws of Hawaii, 1975, which created an independent Developmental Disabilities Council with commission status in the Office of the Governor to effectively monitor, evaluate and plan for services to the developmentally disabled.

The major amendments relate to the following points:

1. The Developmental Disabilities Council is placed in the Department of Health, instead of the Governor's Office, for administrative purposes only. In addition, your Committee on Health has mandated the Council to advise and submit reports not only to the Governor, the Legislature and the Department of Health, but also to all department heads concerned with services to the developmentally disabled.
2. The definition of developmental disability is broadened to conform with Federal guidelines.
3. Most importantly, your Senate Committee on Health made a number of changes to the House draft relating to the duties and powers of the Council. For example, your Committee restored to the Council the responsibility to 'monitor the decentralization of Waimano Training School and Hospital by insuring that each resident transferred from Waimano has an individualized program at least equal to that which he or she might be expected to receive at Waimano'. This a major responsibility that would be difficult to overemphasize.

Mr. President, I feel this Body can justly be proud of the work that has been done recently in the area of planning for services to the developmentally disabled. Both your Ways and Means and Health Committees have done all possible to improve services in this much needed area.

In the past we have turned our eyes away from the unpleasant realities of mental and physical handicaps. We were sincerely benevolent in our paternalism toward the disadvantaged,

but we have increasingly come to realize that the pattern of services which treat people as unable to care for themselves runs the risk of becoming a self-fulfilling prophecy. The handicapped person may, in fact, become literally incompetent by virtue of society's failure to provide the benefits available to 'normal' people. We have thought that it was cheaper and better to legislate the handicapped out of participation in society and normal living patterns.

We now know that it was neither cheaper nor better to institutionalize the majority of the developmentally disabled.

At this point in history we are embarking upon a new era in the treatment of handicapped persons, particularly those suffering from mental retardation.

Your Committee studied these matters during the 1975 Interim, and followed closely the planning of the Developmental Disabilities Council and the Department of Health.

During the 1976 Interim, your Committee on Health intends to delve into the most difficult steps ahead as we attempt to:

1. Develop individualized treatment plans for each institutionalized person;
2. Encourage the growth of community-based services and group homes; and
3. Evaluate steps being taken to insure the logical and orderly progression of persons leaving Waimano.

To insure the success of de-institutionalization, we will have to plan carefully, evaluate carefully and oversee carefully. Your Committee on Health intends to accept a portion of this responsibility during the Interim.

I urge all members of this honorable Body to vote for this Conference draft."

The motion was put by the Chair and carried, and Conf. Com. Rep. No. 23-76 was adopted and H.B. No. 3248-76, H.D. 1, S.D. 1, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO AMENDMENTS TO THE DEVELOPMENTAL DISABILITIES LAW", having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Conference Committee Report No. 31-76 (S.B. No. 2709-76, S.D. 2, H.D. 1, C.D. 1):

Senator Chong moved that Conf. Com. Rep. No. 31-76 be adopted and S.B. No. 2709-76, S.D. 2, H.D. 1, C.D. 1, having been read throughout, pass Final Reading, seconded by Senator Nishimura.

At this time, Senator Chong rose to speak in favor of the measure as follows:

"Mr. President, I hesitate to speak, because this is a piece of legislation that is impossible to summarize and difficult, at this point, to judge.

The most critical portions of the bill deal with the establishment of procedures for the involuntary commitment and eventual discharge of persons considered to be suffering from substance abuse or mental illness.

Mr. President, your Committee on Health began consideration of the issues involved following an Interim hearing to explore the implications for Hawaii of the recent Supreme Court ruling on issues relating to the legal status of the mentally ill and right to treatment.

In June, 1975, in the case of Donaldson vs. O'Connor, the Supreme Court found that 'involuntary commitment to a mental hospital, like the involuntary confinement of an individual for any reason, is a deprivation of liberty which the State cannot accomplish without due process of law'.

The Court further supported a constitutional right to treatment. 'To deprive any citizen of his or her liberty upon the altruistic theory that the confinement is for humane therapeutic reasons and then fail to provide adequate treatment, violates the very fundamentals of due process.'

The conclusion must be that with respect to individuals who are not physically dangerous, a state may not confine that person except for the purpose of providing treatment beyond custodial care.

Subsequently, on February 24, 1976...right in the middle of this Session, Mr. President...Judge King ruled certain sections of the Hawaii Revised Statutes, as written and applied, to be in violation of the due process clause of the Fourteenth Amendment.

Your Committee further found that

recent State and Federal court decisions have:

1. Required clarification of procedures relating to involuntary civil commitment, where there has been no violation of the law;
2. Supported the right to treatment, as opposed to merely providing custodial care; and
3. Given the State the responsibility of providing a continuum of treatment facilities running from more to less restrictive, thereby providing civil commitment to the least restrictive alternative.

The courts have found that the criteria for involuntary civil commitment must be based upon dangerousness to others, self or property. In such cases where no crime has been committed, a decision must be made regarding the likelihood of dangerousness. Given the present state of the art (or science) of psychiatry, it is quite generally admitted that 'dangerousness' is extremely difficult to predict. Therefore, all those who have been considering proposed legislation in this area, have continually found themselves impaled on the horns of a dilemma balancing the constitutional rights of individuals and the protection of society from those deemed to be potentially dangerous--in the face of not being very good at predicting dangerousness.

Mr. President, this is just one of the difficult issues that we have had to struggle with in this legislation.

For the record, let me briefly enumerate just some of the major dilemmas:

1. There is a question regarding those persons who may initiate the action for an exparte order, directing a police officer or other suitable individual to take the person into custody and deliver him to the nearest facility for examination and treatment. Mr. President, the present draft would allow certain professional people and 'any State or County employee in the course of his employment' to initiate such court order. The judge may issue the order on the basis of a telephone conversation, perhaps in the middle of the night. Under certain circumstances, a person might be held involuntarily up to fourteen days. I feel that this provision will have to be more thoroughly evaluated as we gain experience under this bill.

2. Regarding commitment of minors to psychiatric facilities, the proposed legislation assumes that all minors under the age of fifteen are 'voluntary' admissions. This may be an entirely unwarranted assumption. Testimony was presented that all minors being committed to a psychiatric facility ought to be appointed an independent spokesman and given this added protection because of the seriousness of a child being committed to a psychiatric facility during the formative years of his life. The Family Court recommended that the age of twelve be used. We feel this area will require further investigation.

3. Another concern, Mr. President, is in regard to the goal of providing commitment facilities less restrictive than hospitalization. The recent decision of Dixon vs. Weinberger stated that the government must establish a continuum of treatment facilities running from more to less restrictive. The bill before us allows for hospitalization when no less restrictive alternative exists, but as we look toward making decisions regarding accreditation of the State Hospital at Kaneohe, we must concern ourselves with such decisions as Dixon vs. Weinberger and Donaldson vs. O'Connor.

4. There are a number of other questions, Mr. President, regarding this bill, but I will mention just one more to indicate the kinds of problems or potential problems associated with such legislation. I refer to questions relating to dangerousness, the use of medication in treatment and the resulting determinations as to when confinement is no longer necessary.

There is still a great deal of work that will need to be done in subsequent sessions in this area of mental health and the law. However, Mr. President, we are satisfied that the most urgent needs for legislation and procedures providing due process and the protection of liberties have been met by Senate Bill No. 2709-76, S.D. 2, H.D. 1, C.D. 1.

It is essential that this bill pass this Session because, at the present time, there are no enforceable procedures for involuntary commitment, and no involuntary admissions are being processed, even by the State Hospital, beyond forty-eight hours.

Mr. President, my own staff has had to try and help a constituent in

a situation which appeared to be dangerous. The family was presented with the following options by those providing mental health services:

1. Commit the person for forty-eight hours and run the risk that he will be even more dangerous and angry when released;
2. Press criminal charges against a member of their own family; or
3. Wait until this bill passes and procedures are established, and pray that nothing serious happens in the meantime.

In Senate Bill No. 2709-76, S.D. 2, H.D. 1, C.D. 1, the burden for involuntary commitment has been shifted from the physician to the courts; procedures have been worked out in detail for the orderly processing of such cases.

Under the direction of Judge King's decision in the case of Suzuki vs. Quisenberry, we have shifted from the medical model to the legal model in civil commitment cases. Judge King presented sound reasons for this shift.

However, Mr. President, I must suggest that this is a shifting of the emphasis and problems from one foot to another. It remains to be seen whether we have created more problems than we have solved.

I must emphasize, Mr. President, how important it will be to monitor and evaluate the impact of this legislation during the Interim.

I urge all members to vote for this Conference draft."

At this time, Senator Young rose to speak in favor of the measure as follows:

"Mr. President, this bill would establish the Hawaii Community Development Authority, a State agency responsible for planning, coordinating, and implementing the redevelopment and renewal of areas of our State deemed appropriate for such activity by the Legislature.

Mr. President, I have long been concerned that our policies and programs have not addressed a key issue: How can we, in these rapidly changing times, assure our children of having good communities to live in? How can we have reasonably priced, high quality housing for all of our people, but, at the same time, ensure that residents have adequate parks and playgrounds, efficient transportation facilities, nearby shopping, services and employment opportunities, and all other aspects of a good community.

Building good communities requires the cooperation of numerous State and County agencies, and the private sector--although sometimes it seems as though each acts from its own, narrow perspective of how best to meet its own special needs.

There have been those who fear that the Hawaii Community Development Authority will become a 'super agency', trampling over boundaries between State and County land use jurisdiction. We have considered these issues carefully, and have so structured this bill to maintain the strictest fiscal and program accountability.

Part II of this bill designates the Kakaako area of Honolulu as the first community development district. We can see for ourselves the exciting potential of Kakaako to become a "new town" in the city, bringing together home, work, and play in a manner we have not yet accomplished elsewhere.

If we can help to make Kakaako a model for urban neighborhoods in Hawaii, we may find answers to some of the issues that have troubled us: How to save our precious agricultural lands and how to build for our future without destroying our heritage of natural beauty.

It is with great pride, Mr. President, that I salute the conferees, including the members of our Committee on Housing and Hawaiian Homes, who have worked so diligently to bring this bill to us today.

Mr. President, this bill is not an end, but rather it is a beginning. All must work together, seeing it through the many challenges that lie ahead.

It is with pride and humility that I ask this Body to take the first step."

Senator O'Connor also rose to speak in favor of the bill, explaining that "the power of condemnation has been limited to the acquisition of property for public facilities".

Senator O'Connor moved that Conf. Com. Rep. No. 24-76 be adopted and S.B. No. 79, S.D. 1, H.D. 1, C.D. 1, having been read throughout, pass Final Reading, seconded by Senator Nishimura.

At this time, Senator O'Connor rose to speak in favor of the measure as follows:

"Mr. President, every two or three sessions we have before this Legislature sweeping changes in certain sections of the law, initiated either by organizations having to do with the betterment of laws or by study groups in the community. In the past, we have had such changes as the Hawaii Penal Code and the Uniform Commercial Code, as well as others.

Today we have before us a Uniform Probate Code.

Study on this Code began in 1962, and took nearly eight years of work by distinguished lawyers and other experts before there was finally drafted, in 1969, a form of the Uniform Probate Code.

The Code has endorsements from a wide range of people. At this time, twelve states have adopted some form of it.

In Hawaii, the Code was turned over to a committee of the Judicial Council for study in 1970 and 1971; this committee reported in 1973. Its chairman, to whom we owe a great debt, was the Honorable Kazuhisa Abe. The reporter was Mr. Carroll S. Taylor... Mr. Taylor worked with us this legislative session on the document which is before us today.

The Probate Code, as we see it before us... a thick and voluminous document... has to do primarily with how estates, property and other assets pass at death.

Article II, Intestate Succession, and Article III, Probate of Wills and Administration, are the heart and soul of this matter.

In Article II, the law of Hawaii has generally been retained as far as intestate succession and wills are concerned.

One problem we have in Hawaii is our property descent. Throughout this Code, it has been necessary to make certain amendments to the uniformity of the Code in order to insure that our law and method of property descent remains the same as it has been over the last 100 years.

Also in Article II, this Code would adopt certain allowances for the remaining spouse and children of the deceased, which are not presently existent in Hawaii law. They would include a homestead allowance, exemptions from taxation and a family allowance.

In addition, the Code would allow a method of signing a will which would insure that wills receive rapid and quick probate in the future, despite the fact that witnesses to those wills may have died in the interim.

Article III, the probate procedure section, has been modified somewhat to fit our unique Hawaii property climate.

There has been adopted an informal probate method for estates up to \$30,000,

which would require the filing of a very simple petition, as well as a closing document filed in court to insure that we have a chain of intestate succession in this State. This has proven necessary in our complicated land title problems.

The small estate section of the law, which has proven so useful to people in small, almost indigent, situations, has been increased from \$3,000 to \$10,000 of total estate worth. This will cut down on the cost of probating estates for people in that category measurably, as they will essentially need no aid in having their estates probated.

In the informal probate method, we had testimony before the Committee that if this method were used in estates of less than \$30,000, the cost of probate would be cut in half or even less. We anticipate that no attorneys would be required for informal probate; therefore, there would be no need for an attorney's fee in that type of case. Simple forms are mandated by this bill, which will be prepared by the Probate Court Registrar and available to all for use at court.

Formal probate would be mandated in estates over \$30,000, as we anticipate that most of the land transfers of the State will take place in this category.

In addition, of course, there is a need to insure that the personal representatives, executors and administrators comply with certain safeguards for beneficiaries when estates become large enough so that those safeguards should be mandated.

In addition to those Articles regarding intestate succession, intestacy and probate procedures... which, by the way, would become effective under this law on July 1, 1977, allowing another complete review of this area and another legislative session to make any necessary technical changes before the Act actually has to be complied with... there are three other sections of the law having to do with guardianships, multiple-party bank accounts and trusts. In these areas, we are writing brand new law for Hawaii.

The section on guardianships is extremely important because it ties hand and glove with the mental health bill passed earlier in this Body-- the procedures in the guardianship section of the Probate Code are the same procedures which will be used in the Mental Health Act. The sub-

committee which met on the measure, reviewed at length Judge Sam King's decision on mental health, and incorporated the safeguards necessary to protect minors and those who are mentally incompetent.

We have never had in this State a law regarding multiple-party bank accounts. Banks and people placing money in banks for distribution at death have pretty much established their own law. Article VI of this bill establishes new law which has been carefully looked at by our banking community and others. The handling of these multiple-party accounts will be enhanced tremendously.

In Article VII, we are adopting new law as to trusts. Prior to this time, as I am sure many members of this Body are aware, it has been impossible for beneficiaries of trusts to have any sort of claim in court which they could pursue as to the management of those trusts. This law will allow trust beneficiaries to have accounting and other claims in court from the trustees of trusts and from a consumer protection standpoint. Benefits for beneficiaries are outlined in detail. This will establish for them aids which they have never had in Hawaii.

In addition, trusts which spring to life at death will be registered in the circuit court of each jurisdiction. Those trusts will therefore be under the jurisdiction of the court for all matters, thereby having before the court all trusts which act as probate documents outside of the actual probate matter.

Mr. President, in this Session of the Legislature, there have been approximately 120 Committee hours put in on this bill. In addition, the Judicial Council, committees of the Bar Association and many, many individuals have donated time and effort to bring this bill before us.

I would suggest that it is an excellent sweeping change in the Probate Code--one which has been long overdue in the State of Hawaii.

I would ask all members of the Body to vote Aye on this measure.

Thank you."

Senator Nishimura also rose to speak in favor of the measure:

"Mr. President, the bill before us is a monumental and outstanding piece of legislation that has been years

in the making.

Earlier in the Session, the Chairman of the House Judiciary Committee approached me and asked if we could meet to study and review the Probate Code that was in the House.

Because of Senator O'Connor's expertise and knowledge of the bill, I asked him to chair a sub-committee to represent the Senate Judiciary Committee, composed of himself, Senator Ching and Senator Saiki, and work with the House Judiciary Committee in redrafting the bill.

They spent many long hours. . . I know that Senator O'Connor met almost daily with the House Judiciary Chairman. . . and they made a very intensive review of the proposed bill.

For the excellent accomplishment and the hard work, I would like to extend my personal thanks to the sub-committee and, especially, to Senator O'Connor for a job well done."

Senator Leopold also rose to speak on the measure:

"Mr. President, I, too, would like to commend the Vice Chairman of your Committee on Judiciary. I want to thank him for helping me to reach a better understanding of the Probate Code.

I would like to comment on the Code and the bill itself.

Even though, in my judgment, the proposed new Probate Code does not provide the full measure of probate reform, it is nevertheless a positive, constructive effort to simplify, speed up, modernize and reduce the case of probate.

It is my judgment, which I expressed in Conference, that any size estate should be able to be probated without court supervision so long as the heirs agree. At the very least, I feel the estates that are probated under the unsupervised system should have a ceiling of no less than \$60,000, which is the exemption for Federal and State taxes. There is no magic or logic to the \$30,000 ceiling contained in the bill, except that it merely increases the number of estates eligible for informal proceedings than would have been eligible under the \$25,000 ceiling provided in the House draft.

Another provision in the bill with which I disagree, is a requirement that an individual must be a resident

of Hawaii in order to serve as a personal representative. 'Personal representative' is the new proposed name for executor. I believe that the court can require adequate safeguards for Hawaii residents prior to approving appointment of a non-resident personal representative.

Present law assumes that the average person cannot handle his or her own probate affairs. With the \$30,000 limit, the new Probate Code will mean that no longer will citizens be required, in effect, to pay a legal tax amounting to hundreds of thousands of dollars for a service that can be performed without an attorney. It is much more likely that the services of a bookkeeper will be required under the informal probate section of the new Code. This, of course, depends upon the simplicity of the standard forms the courts are required to print prior to July 1, 1977, the effective date of the key Article III of the bill.

Whether or not the new Probate Code is a victory for the individual citizen, depends in no small measure upon the success of the refinements to the informal probate procedures.

Although I have reservations, I believe that the Conference draft does put us on the road to probate reform."

The motion was put by the Chair and carried, and Conf. Com. Rep. No. 24-76 was adopted and S.B. No. 79, S.D. 1, H.D. 1, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE UNIFORM PROBATE CODE", having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

"Mr. President, I am going to vote in favor of this bill because I understand the dilemma of the Police Department, the Motor Vehicle Insurance Division and the district courts.

However, the penalty for violating the no-fault insurance law is severe-- it includes impounding the car and stripping off the license plates.

I would hope this penalty can be reduced."

Senator George then rose to speak:

"Mr. President, if to err is human, I am aptly proving my humanity.

I signed this measure free and clear. It was later pointed out to me that the punishment is disproportionate to the crime. As the Vice Chairman of the Committee on Judiciary stated, it is very heavy indeed. The penalty applies not only to the car and driver, but also to the owner of the car, who may be an unwitting victim.

I am going to vote against the measure, even though it is well meant."

Ayes, 12. Noes, 13 (Anderson, Ching, George, Henderson, Hulten, Kawasaki, King, Leopold, O'Connor, Saiki, Soares, Toyofuku and Yee).

Standing Committee Report No. 1075-76 (S.C.R. No. 63):

Senator Nishimura moved that Stand. Com. Rep. No. 1075-76 be received and placed on file, seconded by Senator O'Connor and carried.

Senator Nishimura then moved that S.C.R. No. 63 be adopted, seconded by Senator O'Connor.

At this time, Senator Nishimura rose to speak in favor of the measure as follows:

"Mr. President, earlier today this Body adopted H.C.R. No. 57, H.D. 1, requesting Congress 'to enact legislation to compensate the aborigine or native Hawaiians, deemed entitled thereto, for damages suffered by them as a result of the annexation of the Hawaiian Islands to the United States of America'.

We are now considering S.C.R. No. 63, requesting Congress 'to enact legislation to compensate the aborigine or native Hawaiians and the members and descendants of the Hawaiian Royal Family for damages suffered by them at the time of the Annexation of the Hawaiian Islands to the United States of America'.

We just defeated S.C.R. No. 109, requesting Congress 'to consider seriously the claims of descendants of the Kamehameha, Lunalilo, and Kalakaua royal families for compensation and indemnification for the losses they have suffered by their loss of the Crown Lands of Hawaii when the Hawaiian Islands were annexed to the United States of America'.

Mr. President, I see no reason why the rich should be denied equal protection of the law. Royalty does not deserve less consideration by this Body than the poor or the middle class.

These resolutions should be considered objectively, without prejudice or bias. We, the Senate, should prove to the people of Hawaii that we are not discriminatory...we do not care what color robes you wear, if you have any robes...we do not care what medals you wear, if you have any medals...we do not care what party you belong to...we act to apply the laws to everyone equally, considerately and reasonably."

Senator Yee then rose to state: "I supported H.C.R. No. 57, H.D. 1, requesting reparation for the native Hawaiians. However, I voted against S.C.R. No. 109 as it refers only to the royal families. I intend to vote for S.C.R. No. 63 as reparation is being requested for both commoners and royal families".

Senator Hulten rose on a point of information to inquire if the Chairman of the Committee on Judiciary would yield to a question, to which Senator Nishimura answered in the affirmative.

Senator Hulten then asked why it was necessary to specifically mention the members of the royal family, since they are aboriginal or native Hawaiians and would be automatically included.

Senator Nishimura replied that "at the time of the Great Mahele, there were differentiations as to how the Crown Lands were divided".

Senator Anderson rose to state that "we do not oppose the intent

of this resolution, but it's become a rather confused issue. Even the Hawaiian community is splintered in two and three different ways. This is a Federal decision, not a State decision. Therefore, we feel it wise to stay out of this controversy and let it be resolved by the U.S. Congress".

At 8:30 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 8:38 o'clock p.m.

At this time, Senator O'Connor rose to speak in favor of the measure, stating that "while I opposed the prior resolution requesting compensation for the former royal families, I will support this resolution as all people of Hawaiian blood are treated equally, be they commoners or alii".

Roll Call having been requested, the motion to adopt S.C.R. No. 63, entitled: "SENATE CONCURRENT RESOLUTION REQUESTING THE U.S. CONGRESS TO ENACT LEGISLATION TO COMPENSATE OR TO MAKE REPARATION TO HAWAIIANS FOR DAMAGES SUFFERED BY THEM AT THE TIME OF ANNEXATION", was put by the Chair and carried on the following showing of Ayes and Noes:

SENATE RESOLUTION

A resolution (S.R. No. 468), entitled:

"SENATE RESOLUTION EXTENDING BEST WISHES AND ALOHA TO STOCKHOLDERS AND MEMBERS OF THE BOARD OF DIRECTORS OF PAN AMERICAN WORLD AIRWAYS ON THE OCCASION OF THEIR ANNUAL STOCKHOLDERS MEETING", was jointly offered by Senators F. Wong, Ushijima, King, Chong, Yim, Hulten, Yamasaki, Ching, Soares, Taira, Takitani, R. Wong, Young, Saiki, George, Toyofuku, Henderson, Leopold, Yee and Kuroda.

On motion by Senator F. Wong, seconded by Senator Taira and carried, S.R. No. 468 was adopted.

At this time, the President addressed the members of the Senate as follows:

"When we convened last January, we committed ourselves to a program of action: A program focused on our economic needs--to reinforce the strong points of our economy and to invigorate its weaker elements--to provide better opportunities for our citizens, to insure broader protection to the consuming public, and to reaffirm the enduring principles and high ideals that inspire our Bicentennial celebration.

In an earnest desire to fulfill our sworn obligations, we looked forward to a very productive and meaningful session of legislative endeavor.

Reviewing the body of legislation we will have approved before the final gavel falls, we can take more than a measure of pride in the constructive programs we have developed for the public we serve.

The individual taxpayer has been uppermost in our minds, and the increase we have approved in the homeowner exemption from real property taxes reflects our concern to relieve this burden at the family level. The fifty per cent increase enacted can substantially offset rises in assessments.

Coupled with new legislation to make the assessment procedure more equitable in the future, the homeowner is assured of better protection against drastic property tax increase.

We have also included legislation to stabilize medical malpractice insurance coverage. This law is vital for the continued health care services required by the public.

Legislation for prepaid legal services is another example of consumer-oriented laws that we have approved.

So, too, is the Uniform Probate Code.

A full time Public Utilities Commission is also part of our program to better protect the consumer's interests.

The record of productivity this Session also includes legislation to establish a full time Parole Board Chairman and funds to improve our correctional facilities. Both are necessary steps for the effective implementation of the State's Correctional Master Plan.

The Interim Tourism Policy we have adopted is yet another example of important legislation we have considered in looking toward Hawaii's future. Personnel and funds have also been authorized for an Office of Tourism to develop a 10-year growth plan and to coordinate the State's interests in this vital industry.

Related to our concerns for the orderly development of our visitor industry is the resolution we have agreed upon, seeking a realistic set of recommendations on additional levies that may be imposed for the long-term benefit of the industry as well as the residents of this State.

At the Session's outset, we proposed a wide-ranging set of measures designed to stimulate and encourage the development of diversified agriculture in Hawaii. Important elements of this package have been adopted, including funds set aside for new agricultural parks, for commodity development, for the Young Farmer program, for a Farm Fair and a farmers' market, as well as additional financing for the State Farm Loan program.

Urban needs have also merited our attention, as is reflected in legislation to provide a unified basis for the redevelopment of Kakaako. If Kakaako's time has indeed come, the Legislature has responded by providing an instrument for the effective restructuring of this important district in the heart of our capital city.

Our housing package also includes funds for new facilities to shelter our elderly so they can enjoy their twilight years in greater comfort. We have also amended Act 105 so that the State's ongoing housing program can be more effectively implemented.

Underlying the total scope of our deliberations has been our genuine concerns over the State's economy.

We have, therefore, approved reforms in the Unemployment Insurance program to bring the fund to solvency and to curb flagrant abuses of the Unemployment Insurance program. The interests of sincere job seekers can be protected if the Department of Labor earnestly enforces the new law with appropriate rules and regulations.

But more important is the positive economic revitalization program we have approved. An additional \$12 million has been authorized to continue the program of public service jobs initiated under earlier authority. The imaginative and innovative use of these funds can lead to a greater degree of effectiveness in ongoing programs as well as to assist public service employees in finding permanent employment for themselves.

The \$15 million we have approved for an accelerated repair and maintenance program in public works can provide an important stimulus to our economy, particularly to the construction industry, which has suffered severe disruptions from recessionary conditions over which we have had little control. The total of \$30 million earmarked for cash financed capital improvements will generate further economic spin-off.

The foregoing are but some of the highlights of this Session's record of productivity.

To be sure, all of us would have preferred getting more done. But considering the limits of the Session and the need for due deliberation on far reaching proposals, what we have accomplished this year represents a solid record of achievement.

The tools for continued progress and the orderly development of our society have been honed in for this Legislature. We look now to the Administration to use these instruments in a timely and effective manner so that the needs of Hawaii's people will be met.

Finally, let me take this opportunity to express my personal gratitude to all of the committee chairmen of this Body, their members, and to the leadership of both the Majority and the Minority. You have labored long, you have labored hard, you have labored with a genuine sense of purpose.

This Session's record is for all

to share. It is a job well done.

Mahalo to each and every one of you."

Senator Yee then rose to make the following remarks:

"Mr. President, I had sincerely hoped I would not have to say this--but I am quite disappointed in this year's Session.

The Session began with great expectations, but towards the end it fizzled. It ran out of drive and leadership.

I believe that the two-day extension would not have been necessary if petty feelings and views had not interfered with the overall legislative process.

With a few exceptions, I cannot really see anything major that has been accomplished these past four months. Those few significant measures, such as reform of the unemployment system, medical malpractice insurance, a new Hawaii Probate Code, and leasehold reform are all measures that have been sitting in these halls for years--a number of them are the result of Republican creativity and initiation.

I hope that in future sessions, the Majority not only hears Republican bills and resolutions, but reports them out on the floor for vote on their own merits.

The people of Hawaii today are still looking for fairness, openness, leadership and accomplishment from the Legislature."

Senator R. Wong rose to speak as follows:

"Mr. President, this has been a long and arduous Session for all of us, but I believe it has been a most productive one. Much has been accomplished in terms of significant legislation.

Mr. President, please allow me to take this opportunity to comment briefly on some of the major actions taken by your Committee on Ways and Means.

1. We worked out in Conference with the House, a supplemental budget of \$24.1 million to meet the needs of the various State programs during fiscal year 1976-77.

2. We provided some \$13.8

million for various programs and activities deemed worthy by the Legislature.

3. We reported out a number of specific appropriation bills, totalling \$48.5 million, which are addressed to some specific areas of concern--primarily, Mr. President, \$15 million for repair and maintenance projects to help stimulate the construction and building trades sector, \$12 million for the continuation of the State employment program to provide emergency jobs, \$2.3 million for increased medical payment levels for welfare patients.

4. We provided \$13.1 million to fund the collective bargaining contracts for public employees which were negotiated this year.

5. We improved the tax credit system by increasing the credits for the lowest income people and by raising the maximum adjusted gross income level to \$20,000. Along with this, Mr. President, we provided for people over 65 to qualify for personal exemption multiples for the tax credit.

6. Most significant, Mr. President, is in the area of real property taxes. We raised the homeowners exemption from \$8,000 to \$12,000 and set a statutory real property tax assessment level at sixty per cent of fair market value. These actions will help provide relief to homeowners from rising real property taxes.

7. As part of the Senate's total real property tax package, we also sent to the House a bill establishing the so-called 'Florida Law', which will pinpoint responsibility and accountability in the setting of real property tax rates with the counties.

8. With respect to the CIP, Mr. President, we provided for a net total of \$157 million in general obligation bond authorizations and for nearly \$30 million in cash for CIP projects. This is in line with the Senate's position on the need to exercise fiscal restraint in terms of the State's debt commitments. The infusion of the \$30 million cash will also help stimulate the construction industry, where unemployment is currently at a record high level.

Mr. President, I would like to take this opportunity to thank the members of your Committee on Ways

and Means for all the time and effort they devoted to developing this package of legislation.

I personally appreciate the steadfast support they gave to the Senate position and to me as their spokesman during the long and frequently difficult Conference with the House.

Mr. President, I believe we in the Senate--and the Legislature as a whole--came out with a good final package. The bills which came out of Conference are before us tonight for final vote.

I urge all members of this honorable Body to vote in the affirmative."

Senator R. Wong then continued as follows:

"Mr. President, I would like the Journal to reflect the following changes in the budget, H.B. No. 2100-76, H.D. 1, S.D. 1, C.D. 1:

1. Page III-1, Section 4A: With respect to the appropriation for the Tourism Program (PED 113), \$72,459, five positions, the intent is to provide the Director of Planning and Economic Development the funds and positions necessary to do research, planning, coordinate the various tourist functions within government and private industry, and any other tourist-related activities as provided by law; and

2. Page VA-6: With respect to the grants-in-aid to various alcoholism programs, the \$11,000 appropriation to the Youth Outreach House, Kauai, should correctly be designated as being to the Substance Abuse Control Program, Kauai County."

Senator Kawasaki then rose to speak as follows:

"Mr. President, I served my first term as a Senator in the 1967 Legislature. It took seventeen days to organize, but it has been described by the media as outstanding in terms of landmark legislation. All subsequent Sessions have seemed pale in comparison. This Session is no exception.

I notice tonight a lack of enthusiasm and joviality, which is usually found on closing night. Perhaps this is an indication that we are not quite satisfied with what we accomplished in this Session.

I am disappointed that we did so little for a large segment of our population, some 640,000 people in the middle income bracket, who

are non-government workers. We gave them little relief from the high cost of living and the high cost of government. We gave them little relief in terms of tax rebates, in terms of encouraging and implementing programs that would bring about more efficient and economical government operations. Instead, we created high powered jobs with salaries of \$37,500 and \$42,000.

We failed to pass a resolution introduced by the House of Representatives, requesting a legislative audit of the University of Hawaii's tenure system. I was appalled to hear the reasons for failure to get a majority vote on the committee report.

I am very concerned that we, again, failed to examine each bargaining agreement... there were eleven contracts this year... carefully to see if the increases were justified and if the State taxpayers could afford them. As I have said in prior years, some contracts may justify pay increases, but others may be of dubious merit. I feel that we are rubber stamping these agreements.

Many worthy programs will be implemented and funded with this appropriations bill.

Conversely, approximately \$2 million, in my lay calculation, is being allocated for programs that are questionable.

The worst of these appropriations is, I feel, the \$805,000 to fund a Kohala Task Force project. The argument is that since we spent \$2 million trying to save Hawaii Biogenics, let's put in another \$805,000--it might be a viable project.

Don't let it be said that, as Chairman of the Committee on Government Operations and Efficiency, I did not warn the Legislature that this money is going down the drain. I hope I am wrong--if I am, I will apologize. But I feel this is a waste of the taxpayers' money.

I regret to say that I will have to vote against the appropriations bill, as I cannot, in good conscience, vote for some of the items included in the measure. I wish to make my position very clear."

Senator F. Wong rose in response:

"Mr. President, I would like to respond very briefly to the comments made by the distinguished Senator from the Fifth Senatorial District regarding the Kohala project.

I don't think anyone here is more concerned than I am that the funds for Kohala--since they are funds from the public treasury--will be used to the best possible public interest.

I think it important that this Body know some facts which are relevant in this situation.

Our conversations with the receiver last week, indicated that his reorganizational plans should be put to the court for approval within the next five or six weeks.

Furthermore, there is no intention on the part of the receiver to use any of the funds for Biogenics as long as Biogenics is in receivership. In addition, the use of these funds after they are out of the receivership would require the approval of the new stockholders of Biogenics.

Mr. President, in the past I have been very critical of the Kohala Task Force... and I think we will continue to scrutinize its affairs carefully. However, I am satisfied that the funds being appropriated this time will not be used in any way for the Biogenics project as long as it is in receivership."

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning herewith Senate Bill No. 1758-76, entitled, 'A Bill for an Act Relating to Housing'.

House Bill No. 2147-76 as Act 234, entitled: "RELATING TO LOANS INSURED BY THE DEPARTMENT OF AGRICULTURE";

The purpose of this bill is to make improvements in various aspects of the housing development program conducted by the Hawaii Housing Authority under Chapters 356, 359 and 359G, Hawaii Revised Statutes.

Senate Bill No. 2267-76 as Act 235, entitled: "RELATING TO THE ESTABLISHMENT OF DEVELOPMENTAL RATES FOR FACILITIES USED BY GENERAL AVIATION ACTIVITIES";

Although the purpose and intent of this bill have merit, I find the following item to be objectionable:

House Bill No. 2300-76 as Act 236, entitled: "RELATING TO PUBLIC ASSISTANCE";

Section 4, Part 7 of Senate Bill No. 1758-76 amends Chapter 359G-7, HRS, to read:

House Bill No. 2473-76 as Act 237, entitled: "RELATING TO A STAGGERED SYSTEM OF MOTOR VEHICLE REGISTRATION";

'Sec. 359G-7 (Financing. The director of finance is hereby authorized to issue both general) Bond financing. (a) General obligation bonds and short term project notes of the State in the aggregate amount not to exceed (\$60,000,000,) \$125,000,000 may be authorized for the (purposes of) dwelling unit revolving fund under this Chapter.'

House Bill No. 2698-76 as Act 238, entitled: "RELATING TO PARKING TICKETS";

This section of the bill appropriates \$125,000,000 for the purposes of the Act 105 Housing Program, Session Laws of Hawaii 1970, by authorizing the issuance of bonds in that amount.

House Bill No. 2894-76 as Act 239, entitled: "RELATING TO HORIZONTAL PROPERTY REGIMES";
and

This appropriation would cause the bond authorization to exceed the amount of the State's indebtedness set forth in Article VI, Section 3 of the State Constitution.

House Bill No. 2987-76 as Act 240, entitled: "MAKING APPROPRIATIONS FOR COLLECTIVE BARGAINING COST ITEMS AND FOR SALARY ADJUSTMENTS OF EMPLOYEES EXCLUDED FROM CERTAIN BARGAINING UNITS".

Gov. Msg. No. 493 informing the Senate that on June 15, 1976, he signed the following bills into law:

Moreover, I understand that the appropriation or authorization in Section 4, Part 7, of the bill was intended to be the same amount presently

House Bill No. 2878-76 as Act 241, entitled: "RELATING TO STATE INSURANCE ADMINISTRATION";

appropriated for the purposes of Act 105.

Section 4, Part 7, of this bill would increase the appropriation to \$145,000,000 as \$20,000,000 have been appropriated by Act 195, Session Laws of Hawaii 1975, for the purposes of Act 105.

Because of the constitutional objection of the duplication of \$20,000,000, I am returning this bill with my objection to Section 4, Part 7. This action does not reduce the current level of support for the Dwelling Unit Revolving Fund because the additional \$20,000,000 authorization in Act 195, Session Laws of Hawaii 1975, continues to remain in effect.

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 1793-76, entitled 'A Bill for an Act Relating to General Prohibition Against Water Pollution.'

The purpose of Senate Bill No. 1793-76 is to amend HRS Chapter 342, relating to environmental quality, to insure that the State's National Pollutant and Discharge Elimination System (NPDES) permit program would not be jeopardized.

I am advised, however, that the breadth of the definition of 'pollutant' under Senate Bill No. 1793-76 present serious enforcement problems for the Department of Health. I also understand that clarification of Chapter 342, as it relates to water pollution, is important but that an amendment is not immediately required. In view thereof, I feel that this bill should not be approved at the present time but that a further study of Chapter 342 should be made to clarify the problem areas in question. It is anticipated that a revised proposal will be submitted to the legislature next year which will minimize the enforcement problems that could arise under Senate Bill No. 1793-76.

For the foregoing reasons, I am

returning Senate Bill No. 1793-76 without my approval.

"STATE OF HAWAII

STATEMENT OF OBJECTIONS
TO SENATE BILL NO. 1850-76

Honorable Members
Eighth Legislature
State of Hawaii

Pursuant to Section 17, Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 1850-76, entitled 'A Bill for an Act Relating to Income Tax.'

The primary purpose of the bill is to define the term, 'without regard to source,' which is frequently used in the income tax law to ascertain the taxability or non-taxability of income. The term had inadvertently been omitted from the definitions incorporated in Hawaii Revised Statutes, Chapter 235, the Hawaii Income Tax Law, during the 1973 Legislative Session. This bill seeks to reinstate the definition as part of Hawaii's income tax law.

However, during the 1976 session of the Legislature a bill containing identical provisions (H.B. No. 2237-76) was also introduced in the House of Representatives. The House bill was later amended by enlarging its scope to include a provision to increase the excise tax credits allowed to those in the lower income group and to double the credits that senior citizens may claim. House Bill No. 2237-76, therefore, contains the identical provisions proposed by S.B. No. 1850-76 but in addition contains a further amendment to increase the allowance of excise tax credits to certain taxpayers.

Since I Have already signed into law House Bill No. 2237-76, which contains the identical provisions proposed by Senate Bill No. 1850-76, together with certain other provisions to increase the allowance of excise tax credits, Senate Bill No. 1850-76 is not necessary and approval thereof would serve no useful purpose.

For the foregoing reasons, I am returning S.B. No. 1850-76 without my approval.

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning herewith Senate Bill No. 2827-76 entitled, 'A Bill for an Act Making an Appropriation for Repair and Maintenance of State Properties and Facilities.'

The purpose of this bill is to appropriate funds for the repair and maintenance of State-owned or controlled properties.

Although the purpose and intent are merited, I find that a certain item in Senate Bill No. 2827-76 is unnecessary and will serve no useful purpose.

The item which I find objectionable is Section 2 of the bill which appropriates the sum of \$15,000,000. Section 3 of the bill shows that of that sum, \$10,554,242 is to be expended by

the Department of Accounting and General Services. Section 3 further provides that of that sum, \$315,000 is to be expended for construction, furniture, furnishings and equipment for office space for the Ombudsman and Legislative Auditor.

Item K-21 (page IVA-52), Section 88A, House Bill No. 2100-76, includes funds for construction, furniture, furnishings and equipment for the offices of the Ombudsman and Legislative Auditor.

Thus, the amount of \$315,000 in Senate Bill No. 2827-76 will constitute a duplicate appropriation.

Therefore, I am returning Senate Bill No. 2827-76 with my objections to the duplicated portion of the \$15,000,000 appropriated in Section 2 of this bill.

Gov. Msg. No. 498 transmitting his statement of objections to House Bill No. 513 which he has returned to the House without his approval and which reads as follows:

"STATE OF HAWAII
EXECUTIVE CHAMBERS

June 9, 1976

STATEMENT OF OBJECTIONS
TO HOUSE BILL NO. 513

Honorable Members
Eighth Legislature
State of Hawaii

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 513, entitled 'A Bill for an Act Relating to Rules Adopted Under the Administrative Procedure Act.'

House Bill No. 513 requires all state and county agencies to file copies of any rule adopted pursuant to Chapter 91, Hawaii Revised Statutes, with the Legislative Reference Bureau in addition to filing with the Lieutenant Governor. The Legislative Reference Bureau is to review all such rules to determine if any rule might be in violation of the substantive law under which it was adopted and to submit a report of its findings at each regular session of the Legislature. An appropriation of \$30,000 is provided to meet the cost of additional staff, to consist of at least one full-time, experienced attorney, assisted by a second attorney.

According to Senate Standing Committee Report No. 660-76, there is a concern that '(i)f the executive branch adopts rules contrary to statute, it usurps the policy-making function of the legislature' but that 'if the legislature is not informed of such usurpation, remedial action cannot be taken.'

However, it is my opinion that House Bill No. 513 would only result in costly and time consuming duplication of effort. Presently, all rules are reviewed by the Attorney General prior to approval by the Governor. Moreover, all state and county rules are filed with the Lieutenant Governor and with the clerk of the county, respectively, and in addition, the county clerks are required to file certified copies of county rules with the Lieutenant Governor.

The additional filing of all state and county rules with the Legislative Reference Bureau does not seem to fill any particular need, other than to facilitate the review of such rules by the Legislative Reference Bureau to determine whether such rules are in violation of the enabling statutes. However, the review of rules to determine legality will only duplicate the work of the Attorney General. Moreover, any difference of opinion between the Attorney General and the Legislative Reference Bureau would only create an undesirable situation without offering any real solution. Therefore, it would be more desirable to have those directly affected by the rules raise such issues through appropriate administrative and judicial proceedings. This latter method of having rules reviewed would expedite the resolution of any question and provide for finality of interpretation which would not be obtained in any review by the Legislative Reference Bureau. In this connection, it is noted that if a rule is beyond the scope of the enabling statute, the rule is of no legal effect. If the rule is invalid and of no legal effect, then obviously there can be no usurpation of the policy-making function of the Legislature.

For the foregoing reasons, I am returning House Bill No. 513 without my approval.

STATEMENT OF OBJECTIONS
TO HOUSE BILL NO. 1413

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 1413, entitled 'A Bill for an Act Relating to Fees and Actions for Recovery of Loss of Land.'

The bill seeks to (1) clarify the wording of Section 501-211, Hawaii Revised Statutes, by expressly indicating that the fee to be paid for protection against loss or damage in proceedings to register land, shall be based upon the last property tax assessment before the filing of the decree; and (2) to limit recovery

of a person who sustains a loss to the value of the land upon which the fee is paid.

I am in accord that the interests of the State should be protected in Land Court proceedings. On the other hand, because land values have increased in the past and will probably continue to do so in the future, limiting recovery against the Land Court Assurance Fund would mean that purchasers of registered land would be inadequately protected. Moreover, the ambiguous wording of the amendment to Section 501-212 does raise certain questions relating to rights of landowners to seek recovery against the Land Court Assurance Fund. I feel very strongly that the integrity of our Land Court system should be maintained and that any uncertainty or confusion regarding the rights of owners of registered land should be avoided.

For the foregoing reasons, I am returning House Bill No. 1413 without my approval.

Gov. Msg. No. 500 transmitting his statement of objections to House Bill No. 1810 which he has returned to the House without his approval and which reads as follows:

"STATE OF HAWAII
EXECUTIVE CHAMBERS

June 9, 1976

STATEMENT OF OBJECTIONS
TO HOUSE BILL NO. 1810

Honorable Members
Eighth Legislature
State of Hawaii

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 1810, entitled 'A Bill for an Act Relating to Preferences for Hawaii Services.'

The purpose of House Bill No. 1810 is to help local businesses to compete against mainland firms by requiring government agencies to give a 15 per cent preference to Hawaii companies furnishing non-professional services to the State in similar fashion to the present law providing preference for Hawaii products. Hawaii services is defined as services performed by a business that is wholly owned by Hawaii residents or a corporation that is incorporated in this State and all of whose directors, officers and employees are residents of this State.

However, there appear to be many questions regarding the necessity for, and the legality of, House Bill No. 1810. More specifically, the following concerns have been expressed:

(1) It has been suggested that the restrictions proposed by the bill might be construed as a barrier to interstate commerce and thus violative of the commerce clause of the federal constitution.

(2) Inasmuch as the bill requires all employees of qualifying corporation to be State residents, it may cause companies to discriminate against

non-residents in employment, thus raising equal protection problems. Recent cases decided by the United States Supreme Court and other federal and state courts have whittled down the instances where residence requirements are permissible. In 1972, our own Hawaii Supreme Court held that Hawaii's durational residence requirement for public employment violates the equal protection clause of the United States Constitution. York v. State, 53 Haw. 557 (1972).

(3) The 15 per cent preference being afforded to Hawaii services under the bill is much higher than the 3, 5 or 10 per cent preference allowed Hawaii products; there does not seem to be any rationale for this distinction.

(4) Enforcement of the bill poses a real problem. There is no way that government agencies can really ascertain that all the officers, directors or employees of a corporation are Hawaii residents. Thus, an unsuccessful bidder could always challenge an award on the basis that some employee of the successful bidder was not a Hawaii resident.

(5) The State will not necessarily profit, from an economic standpoint, by enactment of this bill. Business performing services within the State, whether they are local or mainland, must pay a general excise tax on all business conducted within the State. Furthermore, mainland companies, as a practical matter, hire local employees to perform non-professional services, since it would be uneconomical to transfer mainland employees in lower classifications because of travel costs, relocation allowances, etc. These local employees, though working for a mainland company, must pay the Hawaii income tax.

(6) Under a preferential bidding system, local suppliers will have a tendency to bid close to 15 per cent above the figure that they feel mainland suppliers of services will bid. Moreover, mainland suppliers may eventually be discouraged from bidding because of the advantage granted to local companies, thus lessening competition among bidders on public contracts to the detriment of our taxpayers.

I believe that the disadvantages to this State that might result from House Bill No. 1810 far outweigh the advantages that might accrue.

For the foregoing reasons, I am returning House Bill No. 1810 without my approval.

Respectfully,

"STATE OF HAWAII

STATEMENT OF OBJECTIONS
TO HOUSE BILL NO. 2087-76

Honorable Members

State of Hawaii

Pursuant to Section 17 of Article

III of the Constitution of the State of Hawaii, I am returning herewith without my approval, House Bill No. 2087-76, entitled 'A Bill for an Act Relating to Expenditure of Public Money and Public Contracts.'

House Bill No. 2087-76 limits the preference for Hawaii products that may be claimed by bidders to those public works or repair and maintenance contracts in which the value of the Hawaii product is 51 per cent or more of the total bid price. Also, when the contracting officer estimates that the value of the Hawaii products will not exceed 40 per cent of the estimated bid price, he may waive all Hawaii product preference procedures. The effect of this bill is that the preference based on Hawaii products will be limited to contracts where there would be a substantial use of the products.

When the Legislature first enacted the Preference for Hawaii Products law in 1963, it was felt that the law was needed to stimulate local industry, encourage local manufacturers to expand to new lines, and to attract others to establish new businesses in the State. (Senate Standing Committee Report No. 335, House Standing Committee Report No. 1025.) The need to encourage the development, growth and well-being of local industries is still of vital concern today. Furthermore, by giving preference to Hawaii products without regard to the extent of their use, it would be possible to retain public funds within the local economy to provide employment opportunities which are so urgently needed.

For the foregoing reasons, I am returning House Bill No. 2087-76 without my approval.

Gov. Msg. No. 502 transmitting his statement of objections to House Bill No. 2100-76 which he has returned to the House without his approval and which reads as follows:

"STATE OF HAWAII
EXECUTIVE CHAMBERS

June 9, 1976

STATEMENT OF OBJECTIONS
TO HOUSE BILL NO. 2100-76

Honorable Members
Eighth Legislature
State of Hawaii

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning herewith House Bill No. 2100-76, entitled, 'A Bill for an Act Making Appropriations for the Fiscal Biennium July 1, 1975, to June 30, 1977, and Authorizing the Issuance of Bonds.'

The purposes of this bill are to appropriate funds for operating expenditures of the various departments and agencies in the Executive Branch for the 1975-1977 fiscal biennium, for other government programs, and for capital investment projects.

Although the purpose and intent have merit, I find that certain items in House Bill No. 2100-76 are unnecessary and would serve no useful purpose

since identical appropriation measures were approved by the 1976 Legislature. The duplicated items in House Bill No. 2100-76 are:

1. Section 88B, page IVA-53:

'Law School Facilities, UH Manoa Plans, construction and equipment for interim Law School facilities and for facilities for programs displaced by the Law School at the University of Hawaii, Manoa Campus. This Appropriation shall supplement prior appropriations for the development of Law School Facilities authorized by Act 218, SLH 1974, and Act 195, SLH 1975.'	838,000
---	---------

House Bill No. 2895-76 (Act 28/76) authorizes an identical sum of \$838,000 from general obligation bond fund sources for Law School facilities.

2. Section 3, Page II-14, item
no. 28 (SOC 231):

	Fiscal Year <u>1976-1977</u>
DSSH-Professional Health Services Operating	(10,360,165A) <u>12,718,165A</u> (8,098,906N) <u>9,840,906N</u>
	Total Biennium <u>1975-1977</u>

DSSH-Professional Health Services Operating	(19,801,152A) <u>22,159,152A</u> (15,445,759N) <u>17,187,759N</u>
---	--

The amount of \$12,718,165A includes \$2,300,000 for health care services under the public assistance program. The amount of \$2,300,000 duplicates the appropriation of an identical sum for the identical purpose made by Senate Bill No. 2121-76.

Because of the duplications, I am returning House Bill No. 2100-76 with my objections to those two items.

Respectfully,

/s/ George R. Ariyoshi

STATEMENT OF OBJECTIONS

Honorable Members
Eighth Legislature
State of Hawaii

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 2554-76, entitled 'A Bill for an Act Relating to Classes of Insurance Coverage.'

The purpose of House Bill No. 2554-76 is to clarify the term 'insurer' as used in Chapter 431, Hawaii Revised Statutes, to include all those persons making contracts of insurance in each of the classes of insurance enumerated in Section 431-5. It is claimed that under the present wording there is some ambiguity as to who would be included within the definition of insurer.

However, the present definition of insurer has been in effect for over twenty years and during that period it does not appear that those regulating the industry have had any difficulty in working with the present definition of insurer. Accordingly, there seems to be no necessity to modify the existing language of the definition, since no ambiguity really exists.

For the foregoing reasons, I am returning House Bill No. 2554-76 without my approval.

Gov. Msg. No. 504 transmitting his statement of objections to House Bill No. 2678-76 which he has returned to the House without his approval and which reads as follows:

"STATE OF HAWAII
EXECUTIVE CHAMBERS

June 9, 1976

STATEMENT OF OBJECTIONS
TO HOUSE BILL NO. 2678-76

Honorable Members
Eighth Legislature
State of Hawaii

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 2678-76, entitled 'A Bill for an Act Relating to Life Insurance.'

The purpose of House Bill No. 2678-76 is to require that when the age of the insured is used in determining a life insurance premium, the insurer shall use the age of the applicant as of his last birthday.

Existing law is silent on that subject and the industry practice has been to use the applicant's age based upon either his nearest birthday or his last birthday for the purpose of determining life insurance premiums. House Bill No. 2678-76 seeks to establish a uniform method in arriving at the applicant's age for use in determining life insurance premiums so as to avoid confusion on the part of insureds and to eliminate possible discrimination against them.

The objective of uniformity sought by House Bill No. 2678-76 has merit. However, the requirement of uniformity

has applicability only to policies issued in Hawaii and not to policies issued in other jurisdictions. That being the case, life insurance companies must establish a new and separate program only for Hawaii, necessitating many costly administrative changes. Those additional costs must eventually be borne by the policyholders of this State.

Moreover, House Bill No. 2678-76 will take effect on January 1, 1977, if approved. It is my understanding that conformance to the requirements of this bill will require such changes as reprinting of policy forms, revising of premium rate books and restructuring of data processing systems and will cause substantial administrative disruption within the industry because of the limited time within which such changes must be accomplished.

I believe that the disadvantages of administrative disruptions within the industry and the high costs resulting therefrom outweigh any advantage of uniformity that might accrue under House Bill No. 2678-76.

For the foregoing reasons, I am returning House Bill No. 2678-76 without my approval.

Respectfully,

Gov. Msg. No. 505 transmitting his statement of objections to House Bill No. 2984-76 which he has returned to the House without his approval and which reads as follows:

"STATE OF HAWAII
EXECUTIVE CHAMBERS

June 9, 1976

STATEMENT OF OBJECTIONS
TO HOUSE BILL NO. 2984-76

Honorable Members
Eighth Legislature
State of Hawaii

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 2984-76, entitled 'A Bill for an Act Relating to Horizontal Property Regimes.'

House Bill No. 2984-76 seeks to amend the Horizontal Property Act (Chapter 514, H.R.S.) in matters relating to (1) satisfaction or release of blanket mortgages and other blanket liens affecting condominium apartments; (2) refund of purchasers' funds due to changes in building plans of a condominium project; and (3) cancellation rights of purchasers relating to issuance and delivery of final public reports of the condominium project.

Under existing law, prior to the first conveyance of any condominium unit in a project, a developer must either pay and satisfy all blanket mortgages and liens affecting all condominium units in the project, or he must obtain a partial release of the apartment being conveyed and its common interests from the blanket mortgages and liens. If a condominium project is being sold by way of agreements of sale, the developer in order to meet this satisfaction or release requirement, would normally

take the units in his own name and obtain individual mortgages on each of the units being offered for sale. Prior to selling to a buyer on an agreement of sale, he will then have the unit partially released from the blanket mortgages and liens. In this way the only encumbrance the buyer must satisfy is the individual mortgage on his unit in order to get title free and clear.

Under this bill, the developer would be relieved from any obligation to secure partial releases from the blanket mortgages and liens for each unit prior to entering into an agreement of sale. Thus, there will be no guarantee that a purchaser, upon payment in full under the agreement of sale, will secure his deed or lease free and clear of the blanket mortgages and liens, if the developer defaults or does not satisfy the blanket mortgages or other liens.

I sincerely appreciate the concerns and anxieties of the real estate industry regarding the present real estate market situation which finds many condominium apartment units unsold. Moreover, the lack of mortgage loan money has caused many prospective purchasers to purchase units only on agreements of sale. For most of these people who purchase condominium units on agreements of sale, however, such purchases constitute a major lifetime investment and the failure to get free and clear title upon full payment under the agreement of sale because of the developer's default could prove disastrous to these people. Although this latter occurrence may be just a remote possibility, I cannot in good conscience expose the people of this State to such risks.

For the foregoing reasons, I am returning House Bill No. 2984-76 without my approval.

Respectfully,

/s/ George R. Ariyoshi

(2) Whenever the Senate is ready to vote on any question, the President shall rise, and after stating the question, shall request all those in favor of the affirmative of the question to vote "Aye." The President shall then call upon all voting in the negative of the question to vote "No." The President shall then announce the result to the Senate.

(3) If any member shall doubt the result, as announced, the President shall again state the question and call upon the members to vote by rising in their places, and they shall remain standing until counted, and the result shall be again announced.

(4) The method of voting by ballot shall be as customary. The President shall appoint one or more tellers, or direct the Messengers to collect the ballots, which shall be counted by the Clerk, and the results announced by the President. If there is objection, the President shall ask for the names of the members voting "No" and order the Clerk to record no votes for them.

Rule 70. Voting: Rights of Members

(1) No member shall, on any account, refrain from voting unless excused by the President. A member may vote "Kanalua" the first time his name is called by the Clerk on any vote, but if he votes "Kanalua" on the next call of his name, his vote shall be recorded as "Aye."

(2) The President may excuse a member who has a monetary interest in the question, or whose right to a seat in the Senate will be affected by the question, or whose official conduct is involved in the question. If a member thinks he or she may have such a personal interest in the question, the member shall rise and disclose the interest to the President. The President then shall rule whether the member has a conflict of interest. If so, the member shall be excused from voting.

(3) Whenever the Ayes and Noes are called, no one, without unanimous consent, shall be permitted to explain his vote.

Rule 71. Punishment of Members

The Senate may punish a member for misconduct, disorderly behavior or neglect of duty by censure, or upon a two-thirds vote of all the members of the Senate, by suspension or expulsion of such member.

The President may appoint a special committee to investigate, hear and report upon the conduct of any member charged by the Senate for misconduct, disorderly behavior or neglect of duty. Any member so charged by the Senate shall be informed in writing of the specific charge or charges made against him and have opportunity to present evidence and be heard in his own defense. Following its investigation and hearing the special committee shall file its report with the President setting forth its findings and recommendations.

In the event the committee recommends censure, suspension, or expulsion, the President shall present the report of the committee to the Senate for its consideration and decision. The Senate may by a majority vote censure a member or, upon a two-thirds vote of all the members of the Senate, suspend or expel a member.

Rule 72. Decorum: Transgression of Rules

Each member shall file with the Ethics Commission any change in his or her financial interests, and each member shall file with the President a copy of all disclosures made to the Ethics Commission.

If a legislative matter which affects a member's interests arises before the member has made a disclosure to the Ethics Commission and the President, the member shall orally disclose his or her interest to the Senate before voting. The member then shall immediately make the written disclosure required by law and the Rules of the Senate.

Any member who has filed a disclosure as required by this Rule need not make a further oral disclosure on the Senate floor of any interest so filed.

All disclosures filed with the President shall be available for examination by the public.

APPENDIX

CONSTITUTIONAL PROVISIONS RELATIVE TO
PROCEDURES IN THE EVENT OF VETO

ARTICLE III

Sec. 17. Every bill which shall have passed the Legislature shall be certified by the presiding officers and clerks of both houses and shall thereupon be presented to the Governor. If he approves it, he shall sign it and it shall become law. If the Governor does not approve such bill, he may return it, with his objections to the Legislature. He may veto any specific item or items in any bill which appropriates money for specific purposes by striking out or reducing the same; but he shall veto other bills, if at all, only as a whole.

The Governor shall have ten days to consider bills presented to him ten or more days before the adjournment of the Legislature sine die, and if any such bill is neither signed nor returned by the Governor within that time, it shall become law in like manner as if he had signed it.

The Governor shall have forty-five days, after the adjournment of the Legislature sine die, to consider bills presented to him less than ten days before such adjournment, or presented after adjournment, and any such bill shall become law on the forty-fifth day unless the Governor by proclamation shall have given ten days' notice to the Legislature that he plans to return such bill with his objections on that day. The Legislature may convene at or before noon on the forty-fifth day in special session, without call, for the sole purpose of acting upon any such bill returned by the Governor. In case the Legislature shall fail to so convene, such bill shall not become law. Any such bill may be amended to meet the Governor's objections and, if so amended and passed, only one reading being required in each house for such passage, it shall be presented again to the Governor, but shall become law only if he shall sign it within ten days after presentation.

In computing the number of days designated in this section, the following days shall be excluded: Saturdays, Sundays, holidays, and any days in which the Legislature is in recess prior to its adjournment as provided in Section 11.

Sec. 18. Upon the receipt of a veto message from the Governor, each house shall enter the same at large upon its Journal and proceed to reconsider the vetoed bill, or the item or items vetoed, and again vote upon such bill, or such item or items, by ayes and noes, which shall be entered upon its Journal. If after such reconsideration such bill, or such item or items, shall be approved by a two-thirds vote of all members to which each house is entitled, the same shall become law.
