THE
NINTH LEGISLATURE
STATE OF HAWAII
REGULAR SESSION OF 1977
JOURNAL OF THE SENATE

FIRST DAY

Wednesday, January 19, 1977

In accordance with the provisions of Section 11 of Article III of the Constitution of the State of Hawaii, the Senate of the Ninth Legislature of the State of Hawaii, Regular Session of 1977, was called to order at 10:00 o'clock a.m., Wednesday, January 19, 1977, by the Honorable John T. Ushijima, President of the Senate.

At this time, the President appointed Senators Ching, Taira and Henderson to escort the Reverend David Kaapu of Haili Church, Hilo, Hawaii, to the dais for invocation.

The Committee of three escorted Reverend Kaapu to the dais and was discharged with thanks.

The Divine Blessing was then invoked by Reverend Kaapu.

A message from the Governor (Gov. Msg. No. 1), submitting the Certification of Election of W. Buddy Soares, representing the Seventh Senatorial District to serve for a term of two years, which began on the 2nd day of November, 1976, was read by the Clerk and was placed on file.

The Certificate reads as follows:

"STATE OF HAWAII

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Hawaii to be affixed.

DONE at the State Capitol, in Honolulu, this 5th day of January, 1977.

/s/ Nelson K. Doi

NELSON K. DOI

Senator Taira moved that a Committee of three Senators be appointed by the President as a Committee on Credentials, seconded by Senator Anderson and carried.

The President then appointed Senators Kawasaki, Chairman, O'Connor and Anderson as members of the Committee.

At 10:08 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 10:24 o'clock a.m.

SPECIAL COMMITTEE REPORT

Senator Kawasaki, for the Committee on Credentials, presented a report (Spec. Com. Rep. No. 1) which was read by the Clerk as follows:

"The Honorable John T. Ushijima
President of the Senate
The Ninth State Legislature
State Capitol
Honolulu, Hawaii 96813

S I R :

Your Committee on Credentials begs leave to report that it has examined the Certificate of Election of W. BUDDY SOARES and finds that he has been legally elected and fully qualified to sit as a member of the Senate of the Ninth Legislature of the State of Hawaii.

Respectfully submitted,

Duke Kawasaki, Chairman

D. G. Anderson"

Senator Kawasaki moved that Special Committee Report No. 1 be adopted, seconded by Senator Anderson and carried.

The Committee was thereupon discharged with thanks.

Senator Taira moved that a Committee of three be appointed to escort Justice Thomas Ogata to the dais to administer the oath, seconded by Senator Yee and carried.

The President then appointed Senators Ching, Taira and Henderson to serve as members of the Committee.

The President also appointed Senators Saiki and Anderson to escort Senator Soares to the floor of the Chambers.

Justice Ogata then administered the oath of office to Senator Soares.

The Committees were then discharged with thanks.

The President then congratulated Senator Soares on his election as a member of the Senate.

Senator Soares then addressed the members of the Senate as follows:

"Mr. President, last year at this same time, I was sworn in to fill the vacancy left by my colleague Senator Fred Rohlfing, and I have spent one year with the Senators, many of them my old colleagues, many of them my colleagues, and all of them very dear friends and fellow workers. I have just gone through a very tiring election and I received the mandate of my Seventh Senatorial District to represent them to the best of my ability.

I, at this time, take up this challenge and ask God to give me the strength and the guidance to be a good, honest and dedicated Senator.

Thank you very much."

At this time, the Roll was called showing all Senators present.

The President then addressed the members of the Senate and guests as follows:

"Governor Ariyoshi, Lieutenant Governor Doi, Justice Ogata, Mayor Malapit, other distinguished elected public officials, my fellow Senators, distinguished guests, ladies and gentlemen:

'A new spirit, a new commitment, a new America!'

On this theme, a new national administration will take office tomorrow.

It is a theme that invokes no partisanship; it serves as a timely reminder to us all to approach our own duties with a fresh commitment.

It is therefore, appropriate that our Ninth State Legislature convenes on the eve of the impending change in our Nation's capital.

For the change offers us reason for the hope and optimism that, indeed, 'a new spirit, a new commitment' is upon us. We eagerly look forward to a new period of progress; we fully expect Hawaii to share in such progress, for we hold common objectives:

-- a domestic program targeted toward generating jobs for all who are able and willing to work.

-- to convert welfare checks and unemployment checks into paychecks.

-- economic, social, and educational standards based on the concept of equal opportunity and justice for all.

-- timely policy decisions to strengthen private industry's role as a partner in progress.

We are hopeful, for instance, that the Carter Administration will take prompt action to establish a more just policy to stabilize the domestic sugar market.

In Hawaii especially, the existing policy has caused serious troubles for our most important agricultural industry. Our sugar growers cannot long endure current marketing conditions, and if remedial steps are not taken soon, there will be serious economic distress throughout our State. For government, it will mean severe revenue losses and the prospect of drastic budgetary restrictions.

Nevertheless, we are encouraged by the early signals from the new administration. We are particularly pleased to note the accord reached with Congress for early action on the economic front.

For our part, mindful of our sovereignty and our responsibility to shape our own destiny, we are prepared to push forward with the Senate Majority Program, continuing to build upon legislation developed in the past two sessions. In the next few days, we will present the full dimensions of our 1977 program, and I will forego any detailed forecast of our plans at this time.

It should be noted, however, that

the context within which our program has been designed is our continuing concern over the state of our economy.

As with the rest of the Nation, a high rate of unemployment has troubled us for many months. This must be effectively curbed if we are to inspire genuine hope and confidence among our people.

In past sessions, we have enacted our own programs of public service employment to match counterpart federal programs for creating new jobs. There has been good public acceptance of these efforts.

But government alone cannot become a major hiring hall. Under our system, the broadest opportunities are generated in the private sector.

To stimulate the economy and to encourage new ventures and new business expansion -- by small and large businesses -- we propose incentive measures to promote employment.

One approach suggested is to grant tax credits on general excise tax liability -- with 'sunset' provisions -- to employers who hire new workers from the registered unemployment lists or from those surviving on public assistance grants.

Other tax incentives are possible, including limited exemption from higher property tax valuations for new capital improvements for business expansion.

Also worthy of consideration is the establishment of an Economic Development Commission to process low-interest loans for new businesses.

Existing legislation can also be polished up for current application. One example is the existing authority to issue State and county economic development bonds. Such bonds do not affect the State's debt limit and can be an attractive investment to the public because of their tax-free nature.

These are some of the tools that can be developed to stimulate greater activity in the private sector and thus promote new employment. Coupled with ongoing and prospective federal and State public service programs, we can begin to make meaningful impact on our economy and reduce unemployment measurably.

Another subject worthy of our most serious attention is energy. The fuel shortage of 1974 made us

all acutely conscious of our vulnerability in being so totally dependent on imported fossil fuels. It won't be long before world demands on energy resources take on renewed international dimensions.

It behooves us now to accelerate development programs for alternative sources of energy in Hawaii.

Last year, little-noted but important steps were taken to make the public more aware of the need to reduce our dependency on conventional systems. We amended our tax laws by extending credits and exemptions to encourage wider domestic and commercial use of solar energy devices and the installation of alternate energy improvements.

Considering the long-term savings to the consuming public, further incentives may well be worth considering to promote popular acceptance of solar heating systems in our Islands.

We should also move forward with greater determination in applied research projects for industrial-scale production of power, harnessing the wind, sun, sea, and geothermal energy potentials that are natural to our year-round environment.

While a measure of prudent selectivity is necessary, neither should we be overly cautious simply because of costs. Ultimately, successful development of alternate sources of energy will mean a greater degree of self-reliance in the future and will safeguard our people against international economic pressures that are certain to come.

In our desire to become more self-reliant, we have legislated programs to encourage development of a stronger and more diversified agricultural base. It is heartening to note that private industry has declared intentions for new agricultural investments on Kauai.

We commend the Administration for its role in promoting such plans; we urge appropriate agencies to be equally zealous in implementing those programs we have enacted for a more aggressive marketing program and for opening up agricultural parks.

In considering the executive budget recommendations, we are mindful of the Administration's desire to maintain a posture of fiscal integrity. The Senate shares this concern, and we will review all budget proposals carefully, scrutinizing all programs to insure that they are indeed serving the public's needs.

Admittedly, these are difficult times.

Nevertheless, the public expectation is geared to positive and constructive programs in the months ahead.

With due regard for current financial constraints, a measure of boldness and decisiveness is necessary to support the public's expectations.

Given the creativity and imagination with which we have developed many successful programs in the past, we can fashion innovative means of insuring progress despite such financial constraints as we may face today.

One thing is clear: we cannot stand still and expect the future to take care of itself. We must be willing to take some risks to strengthen our economic foundations.

In accepting our constitutional responsibility to set public policy, we seek the Administration's cooperation in implementing those policies adopted by the Legislature.

In weighing the many issues that will come before us in the weeks ahead, we welcome the Administration's input toward developing a workable program of progress for Hawaii.

The Senate and the Administration are committed to the attainment of common objectives, and there is no reason why we cannot be partners and work in concert in drafting the means by which such goals can be more effectively and speedily reached.

As in the past, we also welcome the constructive suggestions of all components of our community, for it is only by putting our best ideas together that the most meaningful solutions can be found for the advancement of our society.

Finally, I believe it fair to remind those organizations representing our loyal and dedicated public employees that the obligation to join in 'a new commitment' applies to everyone. We are thus hopeful that new collective bargaining agreements to be negotiated will be reached in such a spirit.

To be sure, the tasks ahead of us will not be easy. There are no simple solutions. They will require the best in all of us to resolve. But we have faced many past challenges and endured through more difficult times. We have done so by working together -- majority and minority.

Today, we are strengthened by a renewed sense of hope and optimism,

with 'a new spirit, a new commitment.'

Let us get on, then, to our duties in this spirit, for the sake of Hawaii and all her people.

Mahalo!"

Senator Yee, in response to the President's remarks, stated as follows:

"Mr. President, I have a few comments regarding your speech today and I agree that this is a very significant day for all of us and particularly for your party which faces tremendous challenges locally as well as nationally.

Your party controls the President of the United States, the United States Congress, our four congressional delegates, the mayors and councils of all of our islands, the Governor, Lieutenant Governor and both houses of this Legislature.

There should no longer be any excuses or 'passing of the buck' for any failure of programs. This is your responsibility and I don't envy you this awesome duty. We Republicans however will cooperate as we have done in the past.

Our State today is still beset by many of the same problems which were evident when our party came into power more than two decades ago.

The continuing problems of leasehold reform, increase in crime, housing shortages, faulty education and full employment still remain.

Of particular concern to me at this time is the threat to constitutional right to hold property. This right is now being challenged by moral and social values.

Today, the people of Hawaii are among the highest taxed in the nation. Our school system has graduated students who cannot adequately read and write.

Our University of Hawaii budget is being cut while we are wasting our money on the West Oahu campus.

As you have pointed out, our vital sugar industry is threatened. Our construction industry shows a high of 40% unemployment and our options for diversification in economy are not bright.

Most severe of all, this Legislature has abdicated much of its authority to the Executive branch of government and the Judiciary.

Mr. President, we Republicans know all of these problems that you

face and we offer you our continued support.

Thank you."

At 10:42 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:07 o'clock a.m.

Senator Yamasaki, on a point of personal privilege, then stated that on behalf of Senator Takitani and himself, he was proud to announce that the group who just performed was the Sing Out Maui group.

The President then announced

that Senator Soares will serve as a member of the Committees on Ecology, Environment and Recreation, Economic Development, Human Resources, Transportation and Ways and Means.

Senator Taira then expressed thanks and appreciation from the members of the Senate to the group from Tihati's Polynesian Revue and Sing Out Maui for their performance today.

At this time, the following introductions were made to the members of the Senate:

Senator Ching introduced Mr. and Mrs. Donald L. Moers and Dr. and Mrs. Harvey S. Fenster, of Washington, D.C., and Mr. and Mrs. Eugene Axelrod, of Honolulu.

Senator Yee introduced 56 second and third grade students from Ala Wai School, together with their teachers, Ms. Molly Hamanaka, Ms. Patsy Hirata and Ms. Jean Matsusaka.

The Vice President then introduced the following State of Hawaii Organization of Police Officers (SHOPO) Legislative Committee members: Mr. Rags Scanlan, Chairman; Ms. Bertha Nahoopii, Mr. Ralf Oide, Mr. Dennis Ginden and Mr. Paul Akana, City and County of Honolulu representatives; Mr. Mitch Kanehailua and Mr. Johnny Kai, County of Hawaii representatives; Mr. LeRoy Rocha, County of Maui representative; and Mr. Leon Gonzalez and Mr. Take Yamashiro, County of Kauai representatives.

SENATE RESOLUTION

At this time, Senator Yee rose to request that a resolution, regarding the confirmation of Griffin B. Bell as Attorney General of the United States, be read and acted upon before adjourning. He stated that while he realized the Majority party had not yet had an opportunity to review the resolution, time was of the essence, as the United States Senate would take action on the confirmation on Monday, January 24, 1977. He added that several members of the U.S. Senate had requested that the matter of the appointment be deferred until that date.

At 11:38 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:40 o'clock a.m.

A resolution (S.R. No. 1), entitled: "SENATE RESOLUTION REQUESTING THAT MEMBERS OF HAWAII'S CONGRESSIONAL DELEGATION VOTE AGAINST AND USE THEIR INFLUENCE TO PERSUADE OTHERS TO VOTE AGAINST THE CONFIRMATION OF GRIFFIN B. BELL AS ATTORNEY GENERAL OF THE UNITED STATES", was jointly offered by Senators Yee, Anderson, Soares, Henderson, George and Leopold, and was read by the Clerk.

The Vice President ordered that S.R. No. 1 be accepted.

At this time, Senator Yee moved that S.R. No. 1 be adopted, seconded by Senator Anderson.

The Vice President ruled the motion out of order.

At this time, Senator Anderson rose to say, "I think the Rules of the Senate provide that any time a resolution is introduced, it can be acted upon without being referred to committee. This is not in violation of any rule of the Senate". He then requested a parliamentary ruling.

The Vice President stated that as "this is not an ordinary resolution, it will require a proper committee hearing". He then ruled the former speaker's remarks out of order.

Senator O'Connor then rose to say that the remarks of the Minority Floor Leader were "out of order as the Rules of the Senate state that a committee must act on a resolution".

Senator Leopold moved to appeal the ruling of the Chair, regarding the acceptance of S.R. No. 1, seconded by Senator Anderson.

The Vice President then stated that the question before the Body was "Shall the decision of the President stand?", and Roll Call having been requested, the motion was put by the Chair and carried on the following showing of Ayes and Noes:

Ayes, 14. Noes, 6 (Anderson, George, Henderson, Leopold, Soares and Yee). Excused, 5 (Hulten,

Saiki, Ushijima, Yamasaki and Yim).

At 11:45 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:50 o'clock a.m.

At this time, Senator Anderson, on a point of information, rose to state:

"Mr. President, the Rules of the Senate, under Resolutions; Motions, very clearly say: 'After a motion is stated or read by the President, it shall be deemed to be in the possession of the Senate, and shall be disposed of by vote of the Senate'.

I think every Senator here, Mr. President, is entitled to have his resolution read, heard, and either passed or killed...and because a resolution is not tasteful to some members, it's a bad precedence to arbitrarily bury it because you don't want to face up to it."

The Vice President replied as follows:

"You are assuming that the Majority party wants, as you put it, to 'arbitrarily bury it'. The Minority party knows very well that this is not an ordinary congratulatory resolution. It affects the appointment of a man to high office, and should be heard in committee...the committee's recommendation should then come back to the floor of the Senate for dialogue and debate. The Chair's ruling is very much in keeping with what is appropriate for this particular type of resolution."

Senator Anderson again rose to state:

"Mr. President, I concur with you 100%. The only problem is that Monday is the deadline for his name to go before the entire Congress--and you are going to refer this to committee. By the time this gets to our committee for recommendation, the man will be appointed or rejected--without the State Senate reflecting its view. So, in fact, what you have done is endorse this candidate."

Senator O'Connor then rose on a point of personal privilege to say, "There is debate going on now concerning a matter which this Body has already disposed of. The Rules of this Body have been read incorrectly in that debate...furthermore, it is time to stop this and move on to the business of the day".

Senator R. Wong also rose on a point of personal privilege, stating that "the Rules also state that the President of the Senate has the right to make referrals if he thinks a matter is substantive. The Rules clearly indicate that, Mr. President. That is your power".

Senator Ching then rose on a point of personal privilege to state:

"Mr. President, if the Minority were really sincere about this resolution, they could have presented it earlier and, with the concurrence of the Majority, we could have had a proper hearing in time for the subject hearing on Monday. But to pop this on the Majority at this late hour, without even an attempt to discuss it prior to this...I think it is pure shibai on the part of the Minority.

We are trying to keep some semblance of order in this Body--we will not be railroaded by the actions of one or two on the Minority side."

Senator Yee also rose on a point of personal privilege to state:

"Mr. President, the reason, as I mentioned earlier, for this hurried action, was because the United States Senate did not confirm Mr. Bell yesterday. The U.S. Senators opposed to him have been given an opportunity to prepare their arguments so that they will be better prepared on Monday when the confirmation comes up. If Mr. Bell had been confirmed yesterday, this resolution would not have been prepared--it would have been for naught. There is still question in the minds of some members of the U.S. Senate because of his background...this is why we tried to rush it, with your deference and indulgence.

I certainly see the need for a committee hearing on this matter, but the question is a matter of time. They are five hours ahead of us, and before we could have a committee meeting, the entire action may be moot.

It is not a shibai action. We feel very strongly about this.

The Senate Majority, in 1970, voted for a similar resolution against the nomination of G. Harold Carswell. The title used here this morning is almost exactly the same title that the Majority used in 1970, so I am not being out of turn. I have been in compliance with the Senate procedures

of the past."

The Vice President then replied that "because of the seriousness of the end results of this resolution, the ruling of the Chair stands. I might suggest that the Minority immediately wire a signed petition to our delegation in Washington, D.C., to at least let the Senate Minority position be known".

At this time, Senator Anderson rose to inquire if the Majority Leader would yield to a question, to which Senator Ching answered in the affirmative.

Senator Anderson then stated, "Based on the importance of the resolution, Mr. President, and the arguments posed by the Majority Leader, the Minority will be very happy to come back tonight...allowing the Majority time to go over this very important resolution in depth and detail".

Senator Ching answered, "As I've stated earlier, if the Minority were serious about the question, it could have been worked out way in advance. But when they pop the resolution on the floor just prior to the motion for adjournment, you know it is pure shibai".

The Vice President then stated that the Chair's ruling was sustained.

By unanimous consent, S.R. No. 1 was referred to the Committee on Judiciary.

ADJOURNMENT

At 11:59 o'clock a.m., on motion by Senator Taira, seconded by Senator Anderson and carried, the Senate adjourned until 11:30 o'clock a.m., Monday, January 24, 1977.

FOURTH DAY

Monday, January 24, 1977

The Senate of the Ninth Legislature of the State of Hawaii, Regular Session of 1977, convened at 11:30 o'clock a.m., with the President in the Chair.

The President announced that he had read and approved the Journal of the Third Day.

The President made the following re-referrals of Messages from the Governor that were received on Monday, January 24, 1977:

Gov. Msg. Referred to:

No. 13 Jointly to the Committee on Health and the Committee on Ecology, Environment and Recreation

No. 41 Jointly to the Committee on Transportation and the Committee on Ecology, Environment and Recreation

STANDING COMMITTEE REPORT

Senator Yamasaki, for the Committee on Legislative Management, presented a report (Stand. Com. Rep. No. 1), informing the Senate that Senate Concurrent Resolution No. 1 and Senate Resolution Nos. 1 to 3 have been printed and are ready for distribution.

On motion by Senator Yamasaki, seconded by Senator Henderson and carried, the report of the Committee was adopted.

At this time, the President extended congratulations to Senator O'Connor on the occasion of his birthday.

At 10:56 o'clock a.m., the Senate stood in recess subject to the call of the Chair to meet in joint session with the House of Representatives in accordance with House Concurrent Resolution No. 1.

JOINT SESSION

The Joint Session of the Senate and the House of Representatives was called to order at 11:07 o'clock a.m., by the Honorable James Wakatsuki, Speaker of the House of Representatives.

At this time, the Speaker introduced the following to the members of the Joint Session: the First Lady of Hawaii, Mrs. George R. Ariyoshi, who was presented with a lei by Representative Peters on behalf of the Senate and the House of Representatives; Lt. Governor Nelson K. Doi; and Chief Justice William S. Richardson.

The Speaker then appointed the Committee from the Senate, composed of Senators Kawasaki, Ching, Taira, Anderson and Yee, and the Committee from the House, composed of Representatives Kihano, Kondo, Yuen, Ajifu and Stanley, to escort the Honorable George R. Ariyoshi, Governor of the State of Hawaii, to the dais.

Representative Stanley presented Governor Ariyoshi with a lei on behalf of the Senate and the House of Representatives.

The Speaker then presented the Governor of the State of Hawaii, the Honorable George R. Ariyoshi.

Governor Ariyoshi then addressed the Joint Session as follows:

"While I was waiting for the session to convene here this morning, I was escorted to the office of the Clerk where I saw some of the old photographs going back to the Second Legislature of the State of Hawaii; I had a chance to reminisce a little bit. And as I stand here before you this morning, looking out, I must confess that many of you have changed considerably over the years.

Mr. Speaker, Mr. President, Mr. Chief Justice, Mr. Lieutenant Governor, members of the State Legislature, very distinguished ladies and gentlemen and my fellow Hawaiians:

I am indeed very happy to be here this morning to discuss the state of our State and to give my assessment of where we are now and where we are going in this new year - a year that although only twenty-five days old has seen a new national administration come to office in Washington carrying hope and promise for our nation.

I have just returned from the inauguration of Jimmy Carter as our 39th President, full of hope and expectation for the months that lie ahead.

Twelve months ago, I stood before you in this chamber and enumerated some of our hopes and our dreams for Hawaii. At the same time, I offered a catalogue of some of our problems and our shortcomings.

I am glad to report today that a significant number of our hopes and our dreams are coming to pass. I am not happy to report that some of our problems and our shortcomings remain, in some cases aggravated since we last met.

By almost unanimous agreement, our number one problem area as we begin 1977 is the economy, our heartbreakingly high unemployment rate and the lack of tax revenues to allow us to fund all the programs that you and I would like to see come to fruition.

Our economy was our number one problem a year ago, and despite extensive and persistent efforts, I must candidly acknowledge we have made precious little headway,

at least statistically.

Our efforts to maintain and stimulate the economy in the past year have been many and varied.

They range from SCET and CETA programs to tourism promotion; from major capital improvement projects to new farmer loans; from marine research to low-interest loans and subsidies to private employers who hire unemployed and underemployed individuals; from unemployment insurance to a product promotion program; from providing support to the local military commands in their pursuit of a more realistic construction budget to water development programs.

In other words, we have been all over the lot in guiding, prodding and shaping our economy.

State bond issuances have increased markedly over previous years and represent a substantial investment in our economy. By way of illustration, bond issuances in 1975-76 were \$225 million, compared to \$125 million the year before and \$110 million the year before that. In two years, we have doubled the annual figure.

CIP spending correspondingly has been on the rise as we attempt to stimulate a construction industry that has dragged our economy deeper and deeper into unemployment.

We intend to continue borrowing money on a prudent basis to put into construction projects to create jobs.

But as the President of the Senate and the Speaker of the House observed here last week, government cannot do it all.

As President Ushijima said, 'The government alone cannot become a major hiring hall.' And Speaker Wakatsuki noted, 'I am under no illusion that our State Government alone can dramatically reverse the present economic and unemployment trend.'

I agree with both the President and the Speaker. In our form of society, the ultimate and enduring solutions must be found in the private sector, and it is up to us to give direction, to give support, and at times, to give guidance in this area.

Government and private business must work together for the common good. In the past, particularly in times of stress, I feel there has been too little communication between these two basic elements of our society. With that deficiency in mind, I convened

last September the Hawaii State Conference on Employment.

The conclusions reached at this conference were neither startling nor unexpected, but they did give a thorough insight into some of our problems.

One of the recommendations coming from the conference was that government must explore methods of improving the coordination of job placement services and must encourage the listing of all job openings with the State Employment Service.

I am disturbed, for instance, that during a period of high unemployment, many job vacancies in the private sector in our State are not listed with the State agency which is designed to get employers and the employees together.

I am disturbed, too, just as many of you must be, when I read stories that the Federal Government has to bring in auto mechanics from a foreign country to work in a State with our unemployment rate. I am convinced that in this case, there are extenuating circumstances, but that cannot make those in the unemployment lines feel any better.

I feel that it is absolutely essential that Hawaii's jobs be reserved for Hawaii's residents and I intend to address myself to this area in the months to come.

Toward that end, I am going to ask for help from our leading business establishments and labor unions in the very near future. I might add that the offer to assist the State came from management and labor representatives during meetings with them at which the plight of the construction industry was being discussed.

I am also very confident that you members of the Legislature, in this session, will address yourselves creatively and effectively to this problem. We all know there are no easy solutions. But working together, you and I, and with the added dimensions of business and labor, we will bring to bear all our forces to seek solutions and answers.

Another area of very, very deep concern to us all is the crisis in the sugar industry.

With the death of the Sugar Act in Congress in 1974, forces were set in motion that sent prices on

a dizzy roller coaster ride, first to the heights and then down to the depths.

In 1974, prices soared outlandishly and unrealistically in grocery stores around the country. Our sugar producers were reaping profits that they themselves admitted were excessive and that they knew could not last. They didn't for long.

Suddenly, as foreign sugar entered the market because of the absence of effective quota restraints, the prices began to drop, plunging in less than 24 months from \$1,200 a ton to \$180 a ton, which was far below production costs.

Obviously, no industry, particularly one that has to make growing commitments several years in advance of harvest, can long endure such fluctuations and such depressed prices.

Immediate action is needed and I am confident that help is on the way.

We have testified before the U. S. International Trade Commission, and we have had supportive resolutions adopted by the Governors' Conference, by State Agriculture Directors' Conference, and by the American Farm Bureau.

We have a new Carter Administration sympathetic to our plight, and a new Secretary of Agriculture who, in a recent meeting in Washington, expressed strong concern for our sugar industry.

Another concern that I have is the unjustifiably negative image Hawaii has in certain areas of the investment market.

In a recent article in Forbes Magazine, Hawaii was rated as the poorest State - number 50 out of 50 - in which to invest.

Many of us feel that the article was unfair and untrue in certain respects, resulting in some erroneous conclusion. But however we feel, the article, I fear, does represent a widespread misunderstanding.

We need to take countermeasures.

We need to tell the story of Hawaii, and tell it more effectively, and we need to demonstrate in deeds, as well as words, that Hawaii is in truth an attractive investment market.

I am calling upon the Legislature, and upon our business and labor communities again to join me in this effort. It is important for the future of this State.

It comes as no secret, that we do not have all the money that we need to fund all the programs that we want.

Some have suggested that we raise taxes, or impose new taxes, to alleviate our financial problems.

I am definitely opposed to that except in the area of transportation.

I feel that our citizens already are heavily enough burdened and should not be called upon to provide more money.

This financial crunch is not just the Governor's problem or the Legislature's problem. It is everyone's problem.

That means, therefore, that it is incumbent upon all of us to make the best possible use of the monies that we do have available, to further efficiency, and to establish priorities on programs. I ask for the cooperation and the understanding of everyone, from those of you in the Legislature, to the members of our public employment unions, to the public at large, I want to stress the public at large because no matter what we attempt to do, it is the demand for services by the public that results in the mushrooming of and the growing obligations of government.

I would like to also take a minute to explain what might appear to be a certain contradiction in my fiscal policies.

On the one hand, we are being very hard-nosed on operating expenses, making every division of government and every agency justify their expenditures.

On the other hand, we are borrowing substantial sums of money for capital improvements in this State.

Actually, there is no contradiction. The money we spend on day-to-day operations is for direct and immediate benefits for our present day citizens. It is, therefore, appropriate that only revenues that are currently available be expended for operating purposes. Capital improvement projects, on the other hand, will be available for the benefit of present and future citizens. Thus, there is basis to prudently borrow funds to finance capital projects with the repayment cost being absorbed by present and future beneficiaries.

We are a young State and as such have a need for many new facilities. If we can provide these facilities

now, we are not only creating needed jobs but also constructing needed facilities at a much lower cost. That, to me, is a desirable course to pursue and I plan to continue this fiscal policy in 1977.

This year, our society faces, as possibly never before, basic and fundamental challenges to established land uses and control, ranging in scope and diversity from Waiahole-Waikane Valley, to Kahala to Kilauea.

The issues are complex, the answers will not come easily, and the decisions that are made will have a profound impact on this State for years to come. We must try and do everything possible to find the solutions to these problems.

The vexing leasehold problem needs to be continually reviewed and evaluated within the framework of reasonable balancing of equities of both sides.

Long and expensive litigation does not seem to be the answer. By the recent enactment of leasehold reform legislation, we seem to be coming to a reasonable consensus of accommodation in resolving this problem by good faith negotiation. This Administration will assist with persuasion and cooperation, and the force of law, if necessary, to effectuate conversion from leasehold to fee ownership.

To this point, I have dwelled on some of our problems and some of our inadequacies. We have our share of them. But at the same time, since I last reported to you, our State Government has had many good days, moving ahead impressively on a broad front.

I will not dwell on the accomplishments here today, but reports being submitted to you by my cabinet officers will give a more detailed look at the progress we have made.

These include the acquisition of irreplaceable acres of lands for parks and improvements to others, cheaper telecommunication rates, a full-time PUC, welfare reform, a successful campaign for the retention of the Federal Cost of Living Allowance for a majority of Federal workers in Hawaii, a Hawaiian Home Lands building program, an improved tsunami warning system, significant improvements in our schools, establishment of an affirmative action office, and many, many more.

And now, just briefly, I would like to share with you still another side of the equation - our hopes, our plans and, in some cases, our dreams for this beautiful land of ours.

For the first time last year, Hawaii's visitor total exceeded three million persons. This is a significant milestone for our economy.

Recent studies and reports, including the findings of my Economic Advisory Task Force, have indicated that the careful expansion of the tourist industry promises the greatest potential for more employment and economic stability. If tourism continues to flourish, there will be a commensurate increase in related benefits to our community.

Therefore, I cannot emphasize too strongly the importance of this industry to our State and the need to protect it from any damaging influences.

In another area, the diversification of our economy, including agriculture, occupies a prime priority with me. We need to diversify in many areas but agriculture offers our most immediate hope.

I want to see us develop a diversification of agriculture that in years to come will enable our State not only to be more self-sufficient in many of the farm products we now import but also to develop export potential in a number of commodities. As I met, on my recent appearance in Washington, with some of my colleagues from the other states, and as they talked to me about the terrible weather problems that they were facing this year, crops being eliminated, it brought to me the concern that we ought to have in Hawaii of trying to produce more and more of the things that we consume and to export more of the things that we can produce.

No one wants or expects diversified agriculture to replace the two main agricultural pursuits of our State - sugar and pineapple. It is not an either/or situation, but rather in addition to. We have only begun to contemplate our potential in diversified agriculture, let alone realize it.

I also foresee a tremendous economic future in Hawaii's aquaculture industry, where we will grow prawns and clams and oysters much as today's farmers raise pigs and cattle, and market them throughout the world.

During my first two years in office, I have put great emphasis on the development in Hawaii of alternate energy resources - renewable energy resources.

Last spring, a geothermal well was drilled in the Puna district of the Big Island, reaching a depth of more than 6,000 feet. It turned out to be one of the hottest in the United States, and if present indications hold up, this one well will be capable of producing 10 per cent of the Big Island's electrical needs - a startling figure and an exciting prospect for all our islands where scientists feel that geothermal potential exists.

Imagine for a moment what abundant and cheap power would mean to these islands. On the Big Island, for instance, there are miles and miles of seaside lava lands, unfit for any kind of agriculture. But with cheap power, ponds could be scooped out, rich water from the sea could be pumped in, and an aquaculture industry could flourish where now there is only jagged lava.

With our abundant sunshine and reliable tradewinds, Hawaii offers great potential in solar and wind energy as well. I truly feel that Hawaii can take the lead among the States in striving for renewable energy resources.

Movie and television shows for national showing continue to increase with resulting exposure for Hawaii and a boost for our economy.

Forestry offers hope for a new industry within our State and my Administration is pursuing these possibilities.

I envision an International Trade Center in Hawaii where goods from the world would be offered for sale to our residents and visitors, but more importantly where our State becomes the logistic, information, finance and contact point for this trade.

I believe also that the time has come for us to consider the feasibility of Major League sports teams occupying our Major League sports stadium. To that end, I am going to name a Governor's Committee on Major Leagues to consider its feasibility and to actively pursue such franchises as may be deemed desirable. The competition will be sharp but I am convinced that we offer an unbeatable combination of climate, glamour and facilities.

There are many more plans and dreams for Hawaii. I have enumerated just a few.

We have looked at our problems, we have looked at our dreams, now let me focus on some of the legislation which I will be proposing. Although

I am submitting for your consideration a wide-ranging portfolio of legislation, my presentation to you today will be very brief. You will be hearing more from us as the session continues.

As you are already aware, we will propose legislation this session to provide limited protection to public investors in industrial loan companies.

The legislation will call for an industry-financed insurance program, guaranteeing individual deposits up to \$10,000.

We feel that this legislation is vital to preserve the integrity, vitality and public confidence in a financial industry in which the public has invested \$450 million, or about 13 per cent of the total public savings in all financial institutions in this State.

A special message on this proposal will accompany the legislation.

We have recently completed a statewide housing study whose objectives were to address housing problems, trends, and future housing needs.

Not surprisingly, the study finds that adequate and affordable housing continues to be out of reach for too many of our people - particularly the young and the old.

However, it also indicates that the public sector objectives, identified six years ago in a similar study, have been met and surpassed.

The study suggests a continuing commitment to and improvements on our housing delivery system. It also recommends specific program activities that might be implemented. We are prepared to make several proposals to you shortly in this regard.

In the area of Hawaiian Home Lands, we are going to offer you legislation that will overhaul the present Act, providing for a consolidation of funds and accounts for the Department, increasing the allowable interest rates on the loan fund, and lowering the percentage of Hawaiian blood needed for successors and transferees of Homestead land from 50 per cent to 25 per cent.

We will submit a proposal to lower the development costs of agricultural park projects by exempting them from existing zoning and subdivision standards. This proposal provides for county input and approval in order that a project will have the

concurrence of both the State and the County.

We are going to submit 'sunset' legislation that will call for the periodic in-depth review of numerous licensing laws now on the books. It will also provide for the automatic repeal of licensing laws which cannot be satisfactorily justified.

We are going to offer an anti-litter bill in this session which I believe, if enacted, will be a turning point in our fight against the despoilment of our environment.

I am convinced that the legislation will provide us with the vehicle for a cleaner Hawaii. But, at the same time, we need to launch a massive anti-litter educational campaign. Laws can go only so far in reducing litter. We must also instill a 'Clean Hawaii' ethic among our people and our visitors, and make it an anti-social act, as well as an unlawful one, to litter.

Another important piece of legislation we are sending to you is a proposal to authorize the implementation of a Hawaii Coastal Zone Management program.

Citizen committees from all the islands, as well as Federal, State, and County agency representatives, have worked diligently during the past year and a half to explore coastal resources, problems, and issues; they have studied alternative arrangements for better management, policies to protect and wisely use coastal resources, and the necessary legal authorizations to achieve coastal zone management objectives. I am proposing that the legal boundaries as designated in the legislation be limited and should not encompass the entire State.

The legislation is being sent to you for action this session prior to submitting it to the U. S. Secretary of Commerce for approval. Such approval will make Hawaii eligible for Federal grants to implement this important program.

There are several plans and studies that we either will submit to you this session or give you progress reports on.

As you may recall, we have been preparing a regional plan for Windward Oahu during the past year. The report will be completed shortly and will contain policy recommendations to guide urban and rural settlement patterns for the Windward side.

The study also explores preliminary options for State regional planning policies and should serve as a prototype

document for other areas throughout the State. I want to add here that our efforts in the preparation of this plan is our desire to get a preferred future on the Windward area. The Windward coast happens to be the last relatively undeveloped coast on this Island. We are beginning to feel that we ought to get the kind of Windward coast that we prefer rather than a coast that is going to be developed valley by valley because we didn't take the time to make the plans for the entire Windward area. Hence, the development of this policy.

We have submitted to you a progress report on the Hawaii State Plan. As you know, the enabling legislation calls for the final product to be submitted to you in 1978.

The report contains draft goals, objectives and policy statements which address statewide concerns and more specifically, the needs and aspirations of our people. We are looking forward to working with you in refining the plan which, once adopted, will serve as the primary policy document for this State.

The Department of Planning and Economic Development is in the process of developing a 10-year master plan for the growth of the tourist industry in Hawaii. A progress report will be submitted to you shortly and the final product will be ready for presentation during the 1978 session.

I have previously mentioned the importance of aquaculture and you will receive an interim report which will bring you up to date on potential sites, on permit procedures and the kinds of support facilities needed to make this economic potential a reality. I want to add that I am extremely pleased with some of the work that I see coming out of the Legislature in this area.

The time I spent in Washington last week convinced me more than ever that our State Government needs to build an even closer working relationship with the Federal Government and with our Congressional delegation.

With this in mind, I am very seriously considering filling the position of Federal Coordinator for this State. The Coordinator, if filled, would be headquartered in Washington and would be responsible for keeping a close watch on programs affecting Hawaii.

In these days of tight finances, we must make sure that we receive all of the benefits that we are entitled to in the way of Federal funding for construction projects and for other programs of benefit to our citizens.

This has been a quick run through of some of the legislation and materials that we plan to submit to you this session. It by no means is complete. As I said, you will be hearing many more details of our legislative package as the session continues.

And now, I would like to discuss with you what I consider to be Hawaii's single most important issue - our future. To my thinking, there is no subject of more transcending importance.

I realize that I am not unique in expressing my concern about our future. Many of our best thinkers have addressed themselves to it in a variety of ways in recent years. Thousands of words have been written about it, hundreds of meetings have been held on it, and many studies have been made of it.

The conclusions have been many and varied, but they can be distilled into one principal concern: If we are not careful, over-population, over-building and over-development will destroy the Hawaii that we know.

Until now, our concern for the future of these Islands has been expressed mostly in words.

From this day forward, the concern of my Administration is going to be expressed in action, involving you members of this Legislature and continuing into the Congress of the United States and undoubtedly into the courts of this nation.

The problem of excessive population seems to be central to nearly every problem in our State.

Too many people means too few jobs and too much competition for them; too many people means too little land for agriculture and parks and scenic vistas; too many people means too much crime and too much erosion of possibly our single most important commodity, the Aloha Spirit; too many people means too much pressure on all our governmental and private institutions.

In short, too many people can spell disaster for this State.

Hawaii is a national treasure, but it is a very fragile treasure, one which can be easily destroyed by over-population and excessive demands on its resources.

There is no reason why we must endure what an uncontrolled and an unregulated future holds for us. We must shape our own future, not have it thrust upon us by forces over which we have little or no control.

I am of the belief that we truly can and must be the masters of our own destiny, rather than the victims.

What I am going to propose here today may sound radical to some, and unworkable to others. But I am convinced that we need bold and innovative ideas and actions now if we are to achieve what we must achieve.

The course I am charting for this Administration and this State is not an easy one. It will require years of effort. At times the programs I am proposing will put this State in direct confrontation with the present laws of this land and possibly even the Constitution of the United States.

But I have every confidence of eventual success. I am ready this day to join the fight, with whatever forces may oppose us, for the survival of our Hawaii.

I am sure that our program will become a landmark effort amongst the States, that it will attract national attention, and I hope will obtain the support of other States facing similar problems.

I have not embarked on this program lightly or with the expectation that it will be easy. There will be long and protracted legal challenges. There will be long and sometimes discouraging works in the Congress. Without question we will receive setbacks along the way.

But succeed we will. Succeed we must.

For years now, we have been standing helplessly on the sidelines whenever the question of in-migration from the rest of the United States or immigration from the rest of the world has been mentioned.

We are going to stand on the sidelines no longer. At least I'm not.

I intend to propose:

1. Federal legislation that will achieve a more equitable distribution of immigrant amongst our States.

2. Federal assistance programs for those States with a disproportionate number of immigrants in relationship to total population.

3. A Constitutional amendment permitting States to establish residency requirements for new arrivals for publicly supported programs such as welfare assistance, public employment, housing and many more.

I want to emphasize that I am not trying to separate families, and I am not trying to shut out all immigration to Hawaii.

It has been immigration, the blending together of people of various ethnic backgrounds and cultures, that has set Hawaii apart from all the other States and made it a beacon for the world in areas of human dignity, opportunity and justice.

We must continue our immigration - whether it be from the mainland or foreign countries - because it has been and continues to be our life blood and our source of uniqueness. But at the same time we must be given the tools to manage our future and shape it for the benefit of our present residents.

I would hope some of our sister states such as California, New York and Florida which attract a large number of migrants would join us in this effort.

I feel that other steps can and must be taken with respect to our needs.

We need to discourage the continued concentration of population on Oahu by providing the right kinds of housing, jobs and economy for our Neighbor Islanders and their offsprings. Unless I be misunderstood here, I want to reiterate that I'm not talking about lock, stock and barrel moving large numbers of people from Oahu to the Neighbor Islands. What I am talking about is the opportunity for a person who grows up on the Neighbor Islands to begin to feel that they have a right and they have a chance to live on the Neighbor Islands. It hurts me very much when I hear a young person saying that they are moving to Hawaii, or have moved to Oahu, not because they wanted to but because they felt there were no job opportunities on each of the Neighbor Islands. This is what we are talking about when we speak of the equal opportunities that we now have for education, health services, social services, and we ought to have for employment opportunities also.

We must direct and encourage compact urban growth patterns to preserve existing open space, conservation areas and

agricultural lands for the future.

None of what I have just said should be construed to mean that this Administration is anti-growth or that we intend to put clamps on economic expansion that will have a chilling effect on our economy.

I feel the result of what I am proposing here today will have just the opposite effect.

If we truly become masters of our future, as regards population control, population and density regulation, and a slowdown in the draining away of our public assistance money, I feel we will have created a climate in this State that will attract expansion capital and cause businesses to move ahead with far greater confidence in the future than they now have.

I fully realize that our economy cannot stagnate as a result of the policies I have outlined today. I fully realize, too, that there is a thin line to be walked between selective growth and no growth. Selective growth is essential. No growth is intolerable.

I have to believe that a well-run State, on top of its future and in control of its destiny, in an infinitely more attractive investment market than one which is buffeted about by economic and social forces over which it has no control.

If we have no say over who comes here and in what numbers, we might as well abandon any thoughts of a Hawaiian tomorrow. Of course, Hawaii will continue to exist, and will still be called Hawaii, but it will have ceased to be the Hawaii that we know.

So it is imperative that we move now, boldly and decisively along the course that I have outlined. I am convinced it is not yet too late. But I am convinced also that we cannot tarry, we cannot allow ourselves to be bogged down in endless discussions leading nowhere. We must begin now the admittedly long struggle to become masters of our own destiny.

I do not promise early or easy success. But I do promise that we will devote great energy and total dedication to the program that I have spelled out today. I feel that we have no other choice.

I want our people to speak to us on this very vital issue. I think our people need to become involved

in decisions that will affect them so profoundly in the future.

And certainly I need your help and your wise counsel. I think we share a common dream for Hawaii, a dream of programmed expansion and a better life for all.

To do this, we must be masters of our fate. Then, we can forge ahead, with the confidence of success that is so essential to achieving the dream all of us have for our beloved Hawaii.

This, then, brings us to the end of this report on the state of the State, the third that I have delivered to this Legislature.

Despite our problems, some of them very vexing, some very frustrating, some very heartbreaking, we - you and I - have compiled an enviable record.

We have moved this State forward on the guidelines of the goodness of man and of opportunities and justice for all.

We have made many decisions, most of them right, I feel, but some of them wrong. We have not eliminated all of our problems and probably never will. There always will be problems to tax our courage and our determination to move this State forward along prudent paths, to reject the simple and the expedient solutions, in favor of what will be best for our people in the years to come.

We have come so far, my friends, in such a short time that sometimes we lose sight of our progress and tend too much to dwell on our problems. Problems we have. Of that there can be no doubt.

But none of them are unsolvable. Working together, we will arrive at the solutions. Of that, I have no doubt.

The first two years of this Administration have been a time of planning and programming, laying the foundation for a new structure.

We have a solid structure abuilding, and I anticipate and predict considerable progress in many areas as we start 1977.

I am deeply appreciative of your help, your guidance and your cooperation in the past two years. I look forward to working with you in the years to come as we move rapidly, but with sure steps, toward a better Hawaii.

Aloha and Mahalo."

President Ushijima then rose and stated:

"Thank you, Mr. Governor, for your fine message. Admittedly, the problems facing Hawaii are many, grave, varied and very complex. They can be solved only by working together - the executive and the legislative branch. You have offered the cooperation of the executive branch and we offer the cooperation from the legislative branch to solve all of these problems for a better Hawaii.

Again, thank you, Mr. Governor."

At 11:54 o'clock a.m., the President declared the Joint Session adjourned.

The Senate reconvened at 12:05 o'clock p.m.

ADJOURNMENT

At 12:06 o'clock p.m., on motion by Senator Taira, seconded by Senator Anderson and carried, the Senate adjourned until 11:30 o'clock a.m., Wednesday, January 26, 1977.

SIXTH DAY

Wednesday, January 26, 1977

The Senate of the Ninth Legislature of the State of Hawaii, Regular Session of 1977, convened at 11:30 o'clock a.m., with the President in the Chair.

The Divine Blessing was invoked by Reverend Olin Pendleton of Kokokahi Church, after which the Roll was called showing all Senators present, with the exception of Senator Leopold who was excused.

The President announced that he had read and approved the Journal of the Fifth Day.

At this time, the following introductions were made to the members of the Senate:

Senator Saiki introduced Dr. Phillip Sirotkin, recently appointed Executive Director of Western Interstate Commission on Higher Education (WICHE), from Boulder, Colorado, who is in Hawaii to participate in WICHE Day. Accompanying him was Mr. John Connell, Chairman, Hawaii WICHE.

- "Mr. President, imitation, I am told, is the sincerest form of flattery. I therefore rise to acknowledge the flattering actions of the Attorney General in preparing Senate Bill No. 94 for your introduction, Mr. President.
- Now when I read this bill yesterday, Mr. President, I had no difficulty identifying an old friend, Senate Bill No. 3000, which I introduced on February 25th of the last session. The title is the same; the language is nearly identical, and the substance is easily recognizable. Only a new tacked-on section distinguishes it from the original.
- The referral is to the same Committee, Mr. President, your Committee on Economic Development, where I hope it will receive a warmer welcome than the Minority measure which died there, unheard, unhonored and unsung.
- Now I think we are all aware that new emphasis is being placed on recycling. It is a very fashionable and patriotic activity. I therefore express my appreciation to the Majority for its efforts to recycle Minority measures.
- Thank you very much."
- The President then stated that the measure is an administrative one and that it was introduced by request.

THIRD READING

Standing Committee Report No. 8 (H.B. No. 3, H.D. 1):

Senator R. Wong moved that Stand. Com. Rep. No. 8 be adopted and H.B. No. 3, H.D. 1, having been read throughout, pass Third Reading, seconded by Senator Yamasaki.

At this time, Senator Leopold rose to speak against the measure:

"Mr. President, I cannot support this measure, knowing as I do the arbitrary, inequitable and, in certain instances, unconstitutional way that staffing allotments are decided upon by the Majority.

I have felt very strongly about this matter for some time. As a member of the House, I filed suit in Federal court, challenging what, I thought, was an unconstitutional way that funds were allotted to the members of the House at that time. The court did have the effect of granting Minority members \$75.00 a day for their staff during sessions, as opposed to the \$32.00 a day they had been receiving.

I won't belabor the point, but just point to two examples to indicate my case. The first is that, as a Senate Republican, I receive less money for my staff during the legislative session than my House Republican colleagues-- and I represent three-and-a-half to four times as many people.

The second point is that while in

the Senate everyone on the Majority side of the fence, except yourself, Mr. President, is a committee chairman and thereby could justify additional staff... in the House, there are sixteen Democrats who are not chairmen and still receive more money for their staffs than the Republicans.

I believe this is unconstitutional and would like the Clerk to record my vote as No on this bill."

Senator R. Wong then rose to speak in favor of the measure:

"Mr. President, under this bill, very briefly, the Senate is appropriated \$1.5 million and the House of Representatives \$1.9 million. These amounts represent a five percent increase over last year's appropriations. In light of inflation and the rising costs of equipment and supplies, personnel and other expenses supplied to all members of the Senate, I believe this increase is a modest and reasonable one.

Also, Mr. President, this bill appropriates \$912,000 for the Legislative Auditor, \$150,000 for special studies, \$87,000 for the State Ethics Commission, \$620,000 for the Legislative Reference Bureau, \$429,000 for the Revisor of Statutes and \$277,000 for the Ombudsman. These appropriations are necessary to enable these agencies to continue their work in their usual exemplary manner during the coming fiscal year.

I should like to call the attention of the members of this honorable Body to the fact that the appropriation to the Revisor of Statutes includes a \$220,000 appropriation to augment prior appropriations to pay for the personnel, printing and other costs involved in re-publishing the Hawaii Revised Statutes. Inclusion of this amount in the bill now before us-- rather than via a separate measure-- will help expedite the re-publication process, make the new volumes available sooner and, hopefully, effectuate some kind of cost savings.

Mr. President, the Ways and Means Committee has reviewed the provisions of this bill thoroughly. We have heard the budget testimonies of the legislative support agencies. We have held two public hearings on this bill for input. For the information of the members of this honorable Body, we have received no testimony against this bill.

Therefore, Mr. President, I urge all the members of this honorable Body to vote in favor of this bill."

The motion was put by the Chair

and carried, and Stand. Com. Rep. No. 8 was adopted and H.B. No. 3, H.D. 1, entitled: "A BILL FOR AN ACT MAKING APPROPRIATIONS TO PROVIDE FOR THE EXPENSES OF THE LEGISLATURE, THE LEGISLATIVE AUDITOR, THE LEGISLATIVE REFERENCE BUREAU, AND THE OMBUDSMAN", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 20. Noes, 2 (George and Leopold). Excused, 3 (Saiki, Soares and Yee).

ADJOURNMENT

At 11:50 o'clock a.m., on motion by Senator Taira, seconded by Senator Anderson and carried, the Senate adjourned until 11:30 o'clock a.m., Friday, February 4, 1977.

THIRTEENTH DAY

Friday, February 4, 1977

The Senate of the Ninth Legislature of the State of Hawaii, Regular Session of 1977, convened at 11:30 o'clock a.m., with the President in the Chair.

The Divine Blessing was invoked by Mr. Sanford Hashimoto of Kapahulu Bible Church, after which the Roll was called showing all Senators present, with the exception of Senators Saiki, R. Wong and Yee, who were excused.

The President announced that he had read and approved the Journal of the Twelfth Day.

At this time, the following introductions were made to the members of the Senate:

Senator King introduced a group of twenty Seniors from St. Louis High School, with their teacher, Mr. Rod Santos.

Senator Kuroda then introduced the Honorable Frank Barnett, the Governor of American Samoa and Brigadier General Edwin Black (Ret.), Director of Industrial Development, American Samoa, with offices here in Honolulu. These two men have just returned from the Pacific Islands Development Commission (PIDC) meeting which was held in Guam.

Senators George and Young presented leis to Governor Barnett and General Black, respectively. The President then requested the Senators to escort Governor Barnett to the dais where he addressed the members of the Senate as follows:

"Mr. President and members of the Senate.

Thank you very much and I'd like to very simply say that it is a very great pleasure to be here. When I was serving as Lt. Governor, I had the good fortune to sit beside your Lt. Governor at some of our national conferences. More recently, I had the good fortune to sit beside your Governor at our Western Governor's meeting. I have had the additional good fortune to be treated well by Senator Yim, Senator Kuroda and Andrew Gerakis since being here in Honolulu. I look forward to working with all of you--seeing more of all of you in the future.

I think the only message I would

bring is that during my trip, I also visited Korea, Japan, Taiwan and Manila. While there I spoke to fishing fleet owners and operators in all of those countries with the idea of trying to develop a more viable fishing industry in our area. I think the most significant thought that I have come up with from this whole trip is that in dealing with all of these countries (and we had eleven nations and territories represented at our PIDC meeting, for instance), that there is a sense of nationalism or a sense of individual pride that overwhelms good judgment in many cases. I noted that many people are just interested in 'Is it good for me alone', and 'If it is not good for my country or my company, I don't want any part of it.'

The thing that is most pleasing is the attitude that the State of Hawaii and this Body has shown in this regard. I take the very simple position that if it is good for Hawaii, up to a certain point, it is good for Samoa. And, up to a certain point, if it is good for Samoa, I think it will also be good for Hawaii. I think you believe the same way. It is good to be back home with people who think the same way I do.

Thank you very much. Again, it is a great pleasure to be here with you this morning."

the thought expressed that the Senate's position continued to be the same-- in support of West Oahu.

No. 437 Committee on Judiciary

No. 438 Committee on Education, then to the Committee on Ways and Means

The article is correct, as far as it went and the statement quoted is basically correct, but it was a quirk in timing that led to no questions being raised about continued commitment to West Oahu.

No. 439 Committee on Health, then to the Committee on Ways and Means

No. 440 Committee on Transportation, then to the Committee on Ways and Means

What happened was the Committee met at 9:00 a.m. and at 11:30, we still had not gotten to West Oahu, the two and a half hours being filled with very depressing news about severe cutbacks that the community colleges were being forced to make because of no money--this at a time when we have 18 million dollars CIP projected down the road for West Oahu and at a time at which they were spending over \$6,000 to advertise their courses.

No. 441 Committee on Economic Development, then to the Committee on Ways and Means

No. 442 Committee on Education, then to the Committee on Ways and Means

At 11:30 a.m., a phone call indicated that there wasn't a quorum to begin the session unless some of us went down, so we did.

No. 443 Committee on Transportation, then to the Committee on Ways and Means

No. 444 Committee on Education, then to the Committee on Ways and Means

Ten minutes later when I went back up, the hearing was over so that those of us who went down to the session, did not get to ask questions about West Oahu.

"Mr. President, in yesterday's Honolulu Star-Bulletin, I was quoted as being concerned about a potential loss of State tax revenues of \$100 million a year if the sugar industry should fail.

That, Mr. President, was a misstatement on my part, and I want to take this opportunity to set the record straight.

In 1975, the sugar industry paid about \$10.4 million in direct State taxes and \$2.2 million in real property taxes. When I mentioned the \$100 million figure, I was unconsciously

thinking about the total annual earnings of the 9,000 sugar workers in the State.

Mr. President, I want to thank you for allowing me to clarify this point."

ADJOURNMENT

No. 549 Committee on Military
and Civil Defense, then to the
Committee on Higher Education

At 11:40 o'clock a.m., on motion
by Senator Taira, seconded by Senator
Anderson and carried, the Senate
adjourned until 11:30 o'clock a.m.,
Friday, February 11, 1977.

EIGHTEENTH DAY

Friday, February 11, 1977

The Senate of the Ninth Legislature of the State of Hawaii, Regular Session of 1977, convened at 11:30 o'clock a.m., with the President in the Chair.

The Divine Blessing was invoked by Father Patrick H. Freitas of the St. John Vianney Church, after which the Roll was called showing all Senators present.

The President announced that he had read and approved the Journal of the Seventeenth Day.

At this time, Senator O'Connor introduced to the members of the Senate the Honorable Cecil Heftel, recently elected United States Senator, State of Hawaii, stating that he did so "with a great deal of Aloha and pride".

The President appointed Senator O'Connor to escort Congressman Heftel to the rostrum, where he was presented with a red carnation lei by Senator King.

The President then stated:

"It certainly is our pleasure to welcome you to the Senate Chambers this morning. This is the first time for you to address the members of the Senate, and we know that you have a message to convey to us. Welcome, again."

Congressman Heftel addressed the members of the Senate as follows:

"Mr. President, Honorable Members of the Senate:

This is a very interesting and sensitive moment, because I have been in office but a month and this is my first time to address our State Senate.

You gain a feeling for the legislative process, which can only be explained after you have been a part of the process . . . and it is evident, in just a short month, that the best thing Hawaii's representatives in Congress can do for the people of Hawaii is to work together--work together with each other, with you, and with our House of Representatives.

Hawaii is a small state in terms of people, and a long way from Washington in terms of miles . . . and no one or two individuals, acting as individuals, are going to provide the legislative needs for Hawaii in Washington, just as no one or two individuals will provide

our needs in our own Hawaii Legislature.

Personally, I am looking forward to our first meeting on Tuesday as a delegation with the Governor, with this Body, with the House of Representatives, with the City Administration, and then with the administrations of each of our Neighbor Islands.

Hawaii is very much one State. Someone was saying something about how do you represent one half of the State versus the other, in terms of interests. I said, 'The only thing I know is that if I only feed the top half of my body, I'm going to die. I think we have to look at Hawaii the same way. This is one integral unit. Whatever happens anywhere within it affects all of us'.

As far as personal awareness of the legislative process is concerned, it feels good after fifty to be a freshman--to be learning again, to be reminded of how much I didn't learn, and how much there still is to learn.

I hope that, as time passes, our delegation of four in Washington, working with our leadership in Hawaii, can make positive, sensible decisions, and find how best to express our needs to the new Administration in Washington . . . how to resolve our problems so that when we ask for solutions, we are not in conflict with each other.

And then, so you may all smile with me . . . and some of you will smile more than others . . . one of the first bills that came to Congress upon my arrival was a judgment of the Pay Commission that the wages of those in Federal office and Federal appointed offices should be increased. I could only sit there and say, 'What an interesting irony for me, personally'.

Also, I am learning a compassion for those who suddenly realize you are working with a group, and have to think in terms of that group--that you can't just act or think as an individual. I am quickly learning how to best operate as a part of a group trying to do that which is best for Hawaii.

Normally, when you work together in a legislative body, when you work together in a delegation representing a state, you do the best possible job for the people. As time passes, we'll have a number of problems. I hope we find proposals that we can agree upon together, so that we can find the best solution for everyone--not

perfect solutions, but the best solutions available.

My thanks to you, Mr. President, for inviting me, and to you, Members of the Senate, for joining with me. I hope we will have much dialogue with the passing of time. Mahalo."

At this time, the following introductions were made to the members of the Senate:

Senator Ching introduced student observers from Wheeler Intermediate School.

Senator Yee introduced 90 third grade students from Ala Wai School, accompanied by their teachers, Ms. Joanne Liu, Ms. Mary Ann Ane and Ms. Ruth Izawa, and a parent, Mrs. Yamada.

Senator Chong introduced Mrs. Maxine Ting Ting Hong Kingston, author of "The Woman Warrior: Memoirs of a Girlhood Among Ghosts". He then presented her with a red carnation lei and a certified copy of Senate Resolution No. 168, which was adopted on Thursday, February 10, 1977.

At 11:46 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:47 o'clock a.m.

At this time, Senator Young introduced to the members of the Senate 31 sixth grade students from Mililani Uka Elementary School, accompanied by their teacher, Mrs. Elsie Tanaka, and a student observer, Mr. Gilbert Hara.

At this time, Senator Chong rose and stated as follows:

"Mr. President, I rise on a point of personal privilege.

Last Saturday's issue of the Star

Bulletin printed a letter which referred to a public hearing which was held last week on the marijuana issue. It erroneously implied that this Honorable Body had financed these four mainland experts who had flown in to testify on the decriminalization of marijuana.

I would just like the record to be very clear that there was no State tax money at all. In fact those four people were financed by the National Organization for the Reform of Marijuana Laws. In addition to that, we had several testimonies which were against the bill, so contrary to some of the more dramatic news reports saying that it was weighted on one side, in natural fact it was a well-balanced public hearing just as the others on the same issue have been for the past three years.

Thank you, Mr. President."

RE-REFERRAL OF A SENATE BILL

The President made the following re-referral of a Senate Bill that was introduced on Friday, February 18, 1977:

Senate Bill Referred to:

No. 798 Committee on Judiciary

THIRD READING

Senate Bill No. 83:

Senator Nishimura requested that S.B. No. 83, entitled: "A BILL FOR AN ACT RELATING TO SMALL CLAIMS", be referred to the Committee on Ways and Means, and the President, noting that there was no objection, so ordered.

At this time, Senator King rose on a point of personal privilege to speak as follows:

"Mr. President, I learned yesterday that there are statements being made about me that I consider damaging. The statement was made by the president of the AIA (American Institute of Architects, Hawaii Society), and I heard about it through an engineer to whom he made this statement.

The statement arose in connection with Senate Bill No. 521, which I introduced on February 7, generally referred to as the 'AE Selection Bill'. What it does is deal with the selection of architects and engineers to whom State contracts are awarded.

The purpose of the bill is to take politics out of the awarding of contracts. There is substantial feeling in the architectural community, and some in the engineering community, that

politics seems to be a part of the process. The bill is based on the Federal procedure, where the whole thing is put in the open to let a little sunshine into the process to try to de-politicize it. I don't think you can completely, but the purpose of the bill is to do so as much as possible.

The statement that was made by the president of the AIA to the engineer who let us know about it, was that, although I had introduced the bill and had been telling people I strongly supported it, I had said to the Chairman of the Judiciary Committee that I would like to have him keep the bill in Committee. I would never do that, Mr. President... introduce a bill, urge its support, and then on my own ask the Chairman to keep it in Committee.

As soon as I learned about it, I called the president of the AIA to ask where he got this statement. He said it was made by their legislative liaison with CILO at a board meeting of the AIA the night before. I then asked him whether he would give me the name of that person so I could check with him and see where he got it. He gave me their liaison's name.

I called the legislative liaison, and he said that he had been told by a member who was at the hearing that, at the hearing, I had asked Mr. Murakami whether this matter could be handled administratively, that Mr. Murakami had said yes, and that I therefore said, 'That's good, we don't need the bill--that's one less bill for us to worry about'. The liaison was rather upset that the president of the AIA had changed his remarks in passing. I asked whether he would give me the name of the person who made this report at the hearing. He said that he would rather not, but would ask the party to call me, if he would.

The party didn't call me back...the AIA legislative liaison did, and apologized for the whole thing. He said that he had misunderstood. What had really happened was that the party who told it to him said that the person making these remarks at the hearing was not me, because I wasn't even there...I'm not a member of the Judiciary Committee... but it was the Senator from the Fourth District. I have never been confused before, I think, with the Honorable Senator from the Fourth District, but in this particular event I was.

I don't think that attempting to do this in one forum will erase something that has been said in another, but I did want to make this comment to

erase any feeling that I don't support Senate Bill No. 521.

Mr. President, I'd like to just mention that I have here a survey, which I was going to give privately to the Chairman of the Judiciary Committee to do with as he saw fit...but I'd like to just mention it, since this has happened on the floor of the Senate.

The Hawaii Society of Professional Engineers made a survey of their members. The first question on the survey was, 'Have any individuals from the following governments or their agencies ever approached you for a consideration?'...the word they used was 'consideration'. The answers reflect...very poorly...on the feeling that those people who responded have in terms of Honolulu and the State. Yes, they have been approached for a consideration, said thirty-five people about Honolulu, and thirty-one people about the State, out of the forty-nine. The yeses were very good in terms of the Federal and military--only four said yes for the Federal and two for the military.

The fourth question...I won't go into the second and third questions, although I can for any member who would like to see this...the fourth question is, 'How much influence do you believe that these considerations play in securing contracts?' Significant. Twenty said yes for Honolulu, twelve said yes for the State. For the Federal and military, none...eighteen for the Federal and twenty for the military.

I was told also by engineers and architects that it was very difficult for them to appear at the hearing because Mr. Murakami of DAGS was testifying against the bill, and to appear testifying in support of it might mean that they would jeopardize, in their view anyway, the reality of their acquiring further contracts in the State.

Thank you, Mr. President."

Senator Ching also rose on a point of personal privilege to respond:

"Mr. President, I am one of two Fourth District Senators who sits on the Judiciary Committee. I am sorry that my colleague is not here to also make the statement that I am going to make.

As to my colleague from the Sixth Senatorial District's comments on her bill...I just want to say that I was at the hearing the morning it was held. I don't recall discussing this bill in any way with anyone--either

before the hearing or after."

Senator King then replied:

"Mr. President, may I just comment on that. What I was told was that the Senator...and I think maybe the party misheard King for Ching...I was told that the question was asked at the hearing...not that anyone had spoken to the Chairman privately before or after...but at the open hearing, the question was legitimately asked of the head of DAGS as to whether or not this matter could be worked out administratively. He said yes and the questioner said, 'Well, then, we don't need the bill'. I think this was a legitimate question and a legitimate conclusion based on the answer.

The whole thing just got distorted in being reported to three parties before it got to the head of the AIA. I think there was no malice intended in any of these. It was like the game that children sometimes play, where you sit in a line and whisper something to the next person--by the time it gets to the end of the line, it's something different.

Thank you, Mr. President."

RE-REFERRAL OF
SENATE BILLS

The President made the following re-referral of a Senate Bill which had been introduced on Thursday, February 17, 1977:

Senate Bill Referred to:

No. 744 Committee on Economic Development, then to the Committee on Housing and Hawaiian Homes

The President made the following re-referral of a Senate Bill which had been introduced on Tuesday, February 22, 1977:

Senate Bill Referred to:

No. 917 Committee on Government Operations and Efficiency, then to the Committee on Economic Development

At this time, Senator R. Wong rose on a point of personal privilege and stated as follows:

"Mr. President, I rise on a point of personal privilege.

I understand that last night the Board of Education reaffirmed its decision to proceed with the Makiki Library. Mr. President, it is not my intent to criticize this project which the residents of Makiki want and which the Legislature has supported by providing CIP funds.

What I want to bring out is that this case demonstrates the need for the State to develop clear-cut standards and priorities for the establishment of new library branches. The problems of priorities and their implementation is one of the key issues in the whole Makiki Library controversy.

Otherwise, Mr. President, I am afraid that in the future, new libraries may be established in a haphazard

manner.

I hope, Mr. President, that the way in which the Makiki Library was started will not become a precedence.

Thank you very much."

At 11:45 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:46 o'clock a.m.

Senator King then rose on a point of personal privilege and remarked as follows:

"Mr. President, I would like to add a happy P.S. to my statements yesterday about the misstatements that were made about me in connection with the Architect Engineers Selection Act.

Yesterday afternoon, the AIA CIO representative stopped by with a single red rose and a note saying 'a small peace offering'. He also brought in a copy of the memorandum from the President of the AIA to the Executive Board members saying that the statements that had been attributed to me at the Board meeting could not possibly have been made by me because I wasn't at the hearings, and requesting that the minutes be amended.

Thank you, Mr. President."

Senator Hara then commented as follows:

"Mr. President, I rise just to clarify one position about the subject matter that was discussed a little earlier in reference to the Makiki Library. I want to assure you and this body that your Committee on Education will take a long, hard look at this matter and will be reporting back its findings very shortly."

Senator Anderson then rose on a point of personal privilege and stated as follows:

"Mr. President, the budgets have been designated to the various committees for review with a request or a mandate by the Chairman of the Committee on Ways and Means for a 3% cut across the board. Many of the committees are not making these decisions and the committees are not taking a long, hard look.

It seems that many of the committee chairmen and staff are taking it upon themselves to make these mandates

or 3% cuts across the boards in areas where they, and not the committee, happen to feel are important. I'm not talking of just Republicans, but Republicans and Democrats, and I would ask that if we are going to cut the Governor's budget by a 3% cut that all of us be informed of where this 3% might be spent.

Is it going to be saved, or is it going to be a surplus? Is it going to be used for establishing policies for libraries or anything else?

I think it is very important and incumbent on all of you as your responsibility, that if you're going to cut the budget, be it education, higher education, health, or anything else, that you be apprised of what's being cut. Is it being cut across the board in all departments, in all segments of the budget? Where will this 40 some-odd million dollars be spent after it is saved?

Thank you."

Senator R. Wong then responded as follows:

"Mr. President, I would like to respond to the remarks made by the Minority Floor Leader.

I think if my colleagues will take a look at the financial plan as proposed in the budget document, they will note that we will end up the fiscal year with a \$6.1 million deficit. Beginning from this point, Mr. President, the budget does not contain items which have to be considered by the Legislature. As an example, collective bargaining-- what the cost implications are; various adjustments to be made to health services for people; the State SCETA program, for which a bill has been introduced to have the program continued at a cost of \$23 million.

I want to assure the Minority Floor Leader, that the cuts were very difficult in arriving at in most committees and I'm sure the chairmen are having second thoughts.

However, Mr. President, I think your Committee on Ways and Means is charged with the responsibility to balance the budget and also to provide the people of this State with the necessary programs that the Legislature feels is necessary to stimulate the economy and to get Hawaii back on track."

Senator Anderson then stated as follows:

"Mr. President, I meant no criticism to the Chairman of Ways and Means and if he accepted it that way I apologize.

What I was saying was that the committees that are being asked to make the cuts are not involving the entire committee. Now if we're cutting committees back--Education, by 13 or 14 million dollars; Judiciary, 3 or 4 million dollars, etc.--then we, as committee members, ought to be aware of where these cuts are coming from. Also there ought to be some assurance that if you're going to cut back education and money badly needed at the University of Hawaii, or to DOE for education, then we ought to have some estimation or some idea where the monies are going to be spent.

If we will have an option of \$40 million for new programs or new dream ideas or new social commitments versus funding at the University and the existing students, or the Department of Education, I think the members of the various committees should be apprised of that responsibility at this point.

Thank you."

Senator Kawasaki then commented:

"Mr. President, to the best of my knowledge, I do recall that in the daily sessions here that each committee chairman has made announcements about budget hearings in their respective committees. Now, if the Senators are too busy to attend some of these committee hearings, then I think it is not the fault of the committee chairmen."

Senator Nishimura then stated:

"Mr. President, I'd like to request that if any Minority members of the Judiciary Committee have any complaints concerning the way the Judiciary Committee is functioning that they make their complaints directly, clearly and not obliquely."

At 11:44 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:47 o'clock a.m.

At this time, Senator Yee introduced to the members of the Senate Mrs. Alma Langer and her daughter, Mrs. Ralph Duran, from Minnesota.

Senator Kuroda then introduced 31 fifth and sixth grade students from Hilo Union Elementary School, accompanied by their teachers, Mr. Miyashiro, Mrs. Ells, Mr. Kuhagura, Mrs. Lau and Mr. Fujimoto.

At this time, Senator Ching rose to speak on a point of personal privilege as follows:

"Mr. President,

This morning's newspaper published the reaction of certain members of the Board of Education to a resolution which I and twenty-one other members of this Body have co-sponsored. . . the article casts dispersion on not only myself but also on the others who co-signed.

Senate Resolution No. 297 pertains to the Board of Education's recent actions on the proposed Makiki Branch Library.

It seems to me, Mr. President, that the reaction of those Board members quoted in the article reflects an attitude bordering upon arrogance.

Certainly, it demonstrates a total lack of understanding of the constitutional foundations of our State government.

In effect, it has been said that the Legislature has no right to look into this matter and that it is the sole prerogative of the Board of Education to establish branch libraries wherever and whenever the Board felt moved to do so.

This, Mr. President, is the very point of the resolution my colleagues and I have introduced.

By law and by practice, the development of our library system is incorporated in the Executive budget. The ultimate policy decision, however, rests with the Legislature.

It is, therefore, clearly not only our right but our responsibility to seek information on the basis for any unilateral action that the Board may have taken.

Mr. President, I find the rather cavalier attitude of certain Board members quite disturbing. The resolution does not demand any appearances; no one has suggested issuing subpoenas.

We are not asking anyone to explain his or her vote on the issue.

There is nothing 'presumptuous' about the resolution.

All we are trying to do is to determine the rationale, if there is one, for the Board's extraordinary decision in seeking to establish a new library through an independent process of its own making.

How does the Board propose to finance this project?

Where will the funds come from for renovations to the structure proposed to house the library?

Where will the necessary equipment come from?

Where are the finances for resources to be stocked in the library?

What are the sources to pay for trained personnel to service the library?

These are all legitimate questions for the Legislature to ask.

Mr. President, I think most of us here are familiar with the genesis of this issue. We know the political motivations that gave rise to it in the first place.

Our primary concern is that the State library system be developed and administered in an orderly manner.

If the Makiki Library does fit into the orderly scheme of the Department's program, then its proponents should have no difficulty in convincing us of its justification.

I think, however, that this morning's article has only served to strengthen convictions of something else--that it's time to return to an appointed School Board.

Finally, Mr. President, I have been called many things in my political life, and am somewhat inured to unusual characterizations.

For the benefit of those unfamiliar with Chinese history, it should be noted that the Ching Dynasty saw its demise many centuries ago. And while it may be flattering, the Ching clan can hardly be described as an empire--least of all with me as Emperor.

Thank you, Mr. President."

Senator King replied, "In connection with the previous speaker's final remarks about 'we all know the genesis of this project', I think the Representatives and Senators in the District were responsible for the genesis of this project, as well as the desires of the people. Money for the project was put into

the budget adopted by the entire State Legislature".

Senator Taira then rose to speak on a point of personal privilege as follows:

"Mr. President, it seems that when one is down and out with the flu, he gets strange publicity in the newspapers.

First of all, I'd like to advise my colleagues and the public at-large that I am not a landlord. If owning a one-bedroom condominium in Makaha, together with owning your own home, makes me a landlord...then I am a landlord.

Secondly, I see in this morning's paper that I was one of those who failed to sign the resolution that Senator Ching referred to. It seems to be inferred that I was not in accord with the intent of the resolution. Mr. President, I am happy to report to you and to this Body, that this morning I went to the Clerk's office and signed the original of the resolution.

Thank you."

No. 79 Committee on Economic Development, then to the Committee on Ways and Means

The President made the following re-referral of Senate Bills that had been introduced on Wednesday, February 23, 1977:

Senate Bill Referred to:

No. 1196 Committee on Economic Development, then to the Committee on Ways and Means

No. 1219 Committee on Human Resources, then to the Committee on Ways and Means

THIRD READING

Senate Bill No. 147:

On motion by Senator Taira, seconded by Senator Takitani and carried, S.B. No. 147, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC UTILITIES", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

At this time, Senator Ching rose and commended the members of the Senate and all staff members for meeting the deadline set for moving all Senate Bills to their last committee.

Senator Anderson rose on a point of information and remarked as follows:

"Mr. President, it's obvious from the number of appropriations bills coming into the Committee on Ways and Means that some of us didn't get notified of the number of millions of dollars we now have to spend."

Senator R. Wong responded that a meeting will be held this evening to discuss the revenue sharing bill and other matters, and that the results of that meeting will be made known to members of the Senate.

Senator Kawasaki then rose on a point of personal privilege and noted his concern over the fact that members of the Senate do not voice their feelings pertaining to some of the legislation when they come up for Second Reading that carry appropriations which are not quite justifiable. He added that many feel that these measures

will not be reported out from the Ways and Means Committee. He continued, "I think that the Chairman of the Ways and Means Committee is subjected to enough pressure. He is the bad guy to enough people in the State here and I think it is awfully unfair for us not to examine the justification of some of these appropriation bills, and then vote according to our conscience. We should save pressure from being put on needlessly on the Chairman of the Ways and Means Committee and his Committee members."

Senator Ching then stated as follows:

"Mr. President, in response to the point that was just raised, I know that there are more measures with appropriations that were not moved out of the respective committees. MISCELLANEOUS COMMUNICATIONS

The following communications

(Misc. Com. Nos. 5 and 6) were read by the Clerk and were disposed of as follows:

A communication from the Honorable Cecil Heftel, Member of U.S. Congress, (Misc. Com. No. 5), acknowledging receipt of Senate Resolution No. 152 (1977), was placed on file.

A communication from the Secretary of the State of Arkansas, (Misc. Com. No. 6), transmitting a House Joint Resolution to make application to the Congress of the United States for the calling of a convention for proposing an amendment to the Constitution of the United States to provide that every human being subject to the jurisdiction of the United States or any state shall be deemed to be a person from the moment of conception or fertilization, and entitled to the right to life guaranteed in the United States Constitution, which had been adopted by the Arkansas General Assembly, was placed on file.

At 11:50 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12:35 o'clock p.m.

At this time, Senator Kawasaki moved that the Senate recall Senate Bill No. 184 from the Senate Committee on Judiciary, seconded by Senator Anderson.

Senator Kawasaki then stated as follows:

"Mr. President, the Senate operates on a basis of some Rules--very logical, rational Rules, to conduct our course of business in order to expedite fairly and efficiently, public matters and public issues brought before it.

Senate Rule #48 reads, 'All bills introduced in the Senate shall be deemed the property of the Senate and under its control, unless they shall become law...' This language in my judgment very clearly points out to the fact that once a bill is introduced here, it belongs to the Senate as a whole. It does not belong to any single member of the Senate. No man is the sole proprietor of that bill--neither the sponsor of that bill, the introducer of that bill, nor the chairman of the committee to which it has been referred.

We find today that we have to vote on a rule which was very wisely provided

for by the framers of the Constitution of the State of Hawaii. Article III, Section 13, provides that if any bill which is referred to a committee, languishes in that committee after 20 legislative days, it can be recalled from that committee out onto the floor of the Senate. This is exactly what we are doing today.

I had wished that we did not have to resort to this procedure which, incidentally, is not a new precedent. On the 27th day of the 1968 session, the Senate recalled a bill from the Ways and Means Committee, so we are not setting a new precedent.

Mr. President, it seems to me as a matter consonant with sound public interest and sound public procedure that we have to adhere to the principle set in Rule #48, that a bill introduced on the floor no longer belongs to a single person. It is now the property of the Senate as a whole.

I'd like to quote Senate Rule #22 which states '(1) Whenever any matter shall be referred to a committee, it shall be the duty of the committee to make diligent inquiry into all of the facts and circumstances connected with this matter. If necessary, witnesses shall be summoned and subpoenaed and examined under oath; documents and records shall be searched or subpoenaed, and everything shall be done to bring all the facts pertaining to said matter before the Senate.'

Mr. President, we'd like to do this. We'd like to adhere to this principle by bringing this issue, Senate Bill No. 184, before this Senate for its deliberation. The Senate Committee on Judiciary has had this bill for 31 legislative days. According to the time schedule that we have designed for ourselves in moving bills to the House of Representatives, we find that we do not have much time left. As a matter of fact, if we are to consider this bill adequately and then debate it on Third Reading, we may have to move today and this is my reason for moving this motion today.

Now we have tried to the best of our ability to have the Senate Judiciary Committee have a discussion on this bill because this is not an ordinary bill. This is a bill in which perhaps for the first time more people in the public sector are emotionally involved. They are concerned about its passage or its nonpassage. Much public interest has been engendered by the proponents and the opponents of mandatory capital punishment.

The bill that we have introduced, Senate Bill No. 184, is a bill to provide non-mandatory, I repeat, non-mandatory capital punishment and I think it is in the public interest for us not to resort to what is known around here as Senatorial courtesy, where we're going to hurt the feelings of a member of the Body here who is a Chairman of a committee, because we force a bill out of his committee, with the concurrence of the majority of his committee members. When we resort to this, I think we're saying to the public, 'We no longer represent you. A single committee chairman can decide whether he's going to consider a bill, report it out or not, regardless of what the public posture is on this particular bill.' This is what I'd like to avoid.

You know, the public sector has been rather turned off about politicians generally. We've acquired a sort of a tarnished image around here, doing things in secret, doing things very arbitrarily without much public input. I don't think the posture we have assumed up to now and the posture that the Chairman of the Committee wants to assume in holding this bill very arbitrarily in his Committee is going to add to public confidence in the legislative process.

In my judgment, if the majority of the members in this Body want this bill discussed and possibly vote it into enactment, the least we can do is to bring this bill out for a public discussion, so that the public can see that we sincerely tried to judge the merits or demerits, if you will, of this particular bill, and then vote our conscience.

What I'm trying to do today is to give this Body, the majority members of whom express their desire of the enactment of this bill, the chance at least to discuss this bill. This is what the motion intends.

I could go on for two hours possibly to talk about the merits about the bill, but this would not be relevant to the motion on hand. I do want to say that in the public interest, I ask you members to vote in favor of this motion to recall a bill that has languished in the committee for 31 legislative days.

Thank you."

Senator Yee then rose to speak in favor of the motion as follows:

"Mr. President, I rise to speak in behalf of the seven Senate Republicans.

Several weeks ago, we took a position that any major bill of importance to the public must be heard, must be discussed publicly and be put to a vote. When we took this position, we realized that we were not committing all seven Republicans to vote either for or against the bill.

In this particular bill of concern with us this afternoon, we have two Senators who oppose the bill, and they are Senators Mary George and John Leopold.

They will vote against the bill if it came on the floor, but they support the position that we have taken all along that this matter of great concern must be aired publicly. The public is entitled to know which way the members of this Body vote, whether it is in favor or against. I do hope that we have sufficient votes here this morning to have this bill passed.

This vote that we are taking is not in derogation to the Chairman of the Judiciary Committee. We will stand and be free and ready to vote again on any measure of public importance.

Thank you."

Senator Nishimura then rose and stated as follows:

"Mr. President, the movant from the Fifth District today has demonstrated again that his primary concern and maybe only concern, is passing a capital punishment bill whether or not the facts clearly justify that action. He implies that my only concern in this Ninth Legislature is preventing the passage of a capital punishment bill.

I am unequivocally opposed to capital punishment based on the facts, but that is not my only concern in this session. The Judiciary Committee cannot be concerned only with one issue such as capital punishment as the Senator from the Fifth District would like to see. We have to review and have reviewed in depth, the Budget of the Judiciary and other programs of the Executive Budget within the purview of the Committee. In view of the present fiscal situation of the State, there can be no doubt that detailed review and consideration of the budget is of utmost importance.

We are looking at medical malpractice, and medical practitioners would probably feel that that was the most important function of the Judiciary

Committee.

We are considering the problems of the industrial loan industry. Investors of THC Financial, the industrial loan companies and other finance-related companies probably view that as the most important legislation before the Judiciary Committee.

We are looking into problems related to the construction industry. Employment is down and the construction industry probably feels that matters related to construction are the most important legislation before the Judiciary Committee.

We are considering crime control bills. In that regard, capital punishment should not be considered as a crime control measure because it merely relates to sentencing.

I could go on but I believe that this is sufficient to show that the Committee on Judiciary is considering many important issues that have a significant impact on the people of the State.

In short, we must proceed and go forward because we have important legislation to consider. We should not dwell on one measure like capital punishment especially when there has been no affirmative showing that capital punishment is a deterrent to crime and no assurance that an innocent man will not be executed.

We are not however standing still in this area, as I have directed my staff to prepare correspondence to my counterparts in the legislatures in the other forty-nine states asking whether capital punishment has been a deterrent to crime in their state and whether they have adopted a procedure to insure that an innocent man is not executed.

In summary, this State has many problems, and I believe that we should direct our energies to meeting those problems rather than discussing for an inordinate time, a bill whose merits, I feel, are questionable. The best interests of the State and the Senate, in my opinion, will not be served by having continued discussion on this matter.

I feel further, Mr. President, that the motion, if it is acted on favorably will establish a dangerous precedent. I feel it is wrong and it should not be voted on by the required number of votes.

Thank you."

Senator Ching rose on a point of information and questioned if his understanding was correct that under the provisions of the Constitution under which the motion is made that a 1/3 vote of the members to which the Senate is entitled to is all that is required for the motion to carry.

The President answered that Senator Ching's understanding was correct.

Senator Ching then queried if the bill in question had been in the possession of the Committee on Judiciary for the required twenty legislative days.

At 12: 50 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12: 52 o'clock p.m., and the Clerk reported that Senate Bill No. 184 had been in the Committee on Judiciary for 31 legislative days.

Senator Kawasaki rose and remarked as follows:

"Mr. President, I want to briefly respond to the statement made by the distinguished Senator from the Seventh District.

I think he is being rather presumptuous to assume that I am wholly preoccupied with the passage of the Death Penalty Bill. This is not so. If this were so, I would not have introduced many, literally dozens of bills and resolutions of which I am greatly concerned. Had this statement that he made been true, I would not have participated vigorously in some of the bills in the Judiciary Committee, some of which he supports and which I concurred in. Therefore,

I think that this statement has to be corrected."

The motion to recall Senate Bill No. 184, entitled: "A BILL FOR AN ACT RELATING TO CAPITAL CRIMES", from the Committee on Judiciary was put by the Chair, and Roll Call having been requested, carried on the following showing of Ayes and Noes, in accordance with Article III, Section 13, of the Constitution of the State of Hawaii:

Ayes, 11. Noes, 13 (Chong, Hara, King, Kuroda, Nishimura, O'Connor, Toyofuku, F. Wong, R. Wong, Yamasaki, Yim, Young and Ushijima). Excused, 1 (Takitani).

At 12: 54 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12: 55 o'clock p.m.

The President appointed the Vice-Chairman of the Committee on Judiciary, Senator O'Connor, as Chairman of the Committee of the Whole to consider Senate Bill No. 184 which is before the Senate.

Senator O'Connor then announced that the Committee of the Whole on Senate Bill No. 184 will hold a public hearing on Monday evening, March 14, at 7: 00 p.m., in this Chamber, and added that decision-making on the bill will follow at the end of all the testimony.

ADJOURNMENT

At 12: 59 o'clock p.m., on motion by Senator Taira, seconded by Senator Anderson and carried, the Senate adjourned until 11: 30 o'clock a.m., Monday, March 14, 1977.

ORDER OF THE DAY

RE-REFERRAL OF A HOUSE BILL

The President made the following re-referral of a House Bill that was received on Thursday, March 10, 1977:

House Bill	Referred to:
No. 929, H.D. 1	Committee on Consumer Protection, then to the Committee on Judiciary

At 11:46 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12:02 o'clock p.m.

At this time, Senator Leopold rose on a point of personal privilege to speak as follows:

"Mr. President,

On January 26, I introduced Senate Bill No. 167, which was referred to the Senate Committee on Economic Development. It has been thirty-two legislative days since the introduction of that measure.

On February 22, a hearing was held on the bill, where it received wide support. As a matter of fact, the next morning's headline, I believe, said: 'Bureau to Assist Filming is a Must Senate is Told'.

Well, in spite of the testimony in support of the measure... in spite of the fact that you, Mr. President, in your opening day remarks, and the Governor, in his State of the State address, stressed the importance

of reaching out aggressively and broadening our economic base... the Chairman of the Senate Committee on Economic Development, a Senator for whom I have a great deal of personal admiration, has apparently decided not to report this measure out of his Committee.

I'd like to read into the record two things. One, the Purpose clause of the bill and second, a letter. The Purpose clause of the bill states as follows: 'The Legislature recognizes the importance...'

At this time, Senator Ching, rising on a point of order, requested that the former speaker state his personal privilege.

The President then directed Senator Leopold to confine his remarks to the point of personal privilege.

Senator Leopold stated that "as the arbitrary deadline for the movement of bills from this house to the other house is fast approaching, I would like to make a plea for a measure which I feel is of great importance to the people of the State".

Senator Ching replied that "under the guidelines sent out by the chairmen, this does not fall into the category of personal privilege".

Senator Yee then rose to state, "The point of personal privilege is that a bill is being 'iceboxed'. Because he feels very strongly about it, he would like to make a statement on the floor for the record".

Senator Ching then asked to renew his point of order.

The President stated, "I have to agree with the Majority Leader. The question of personal privilege is rather limited, in accordance with the memo I sent out on February 28, 1977".

At 12:05 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12:08 o'clock p.m.

At this time, the President again directed Senator Leopold to confine his remarks to the point of personal privilege.

Senator Leopold continued as follows:

"Thank you, Mr. President. As I was stating, I felt that the bill was of such merit that it should have been reported favorably out of the Senate

Committee on Economic Development.

After the hearing, I sent a letter, dated February 24, 1977, to the Chairman of the Senate Committee on Economic Development. I'd like to read that letter for the record:

'Following up the public hearing testimony on Senate Bill No. 167, Relating to Media Production, I would like to respectfully request that you either report this measure favorably out of the Senate Economic Development Committee or, alternatively, that you put the guts of Senate Bill No. 167 into Senate Bill No. 55, the short form bill which you introduced, and report this measure out of Committee.'

Copies of the letter were sent to the Republican members of the Senate Committee on Economic Development.

I still have not received a reply to this letter of February 24. When I approached the Chairman of the Committee, he said that he had received my letter, but the Committee would not be moving the bill. He added that he had sent me a letter on the subject. Well, I've never received that letter.

I feel very strongly, as I indicated earlier, that both you, Mr. President, and the Governor of the State have expressed an interest in expanding the economic base of our State. We have to aggressively go out and--by deeds, not rhetoric--take steps to bring in the millions of dollars of revenue and provide jobs that could be provided by this measure.

We heard in the testimony of the Committee that the permit system called for in the bill is something that is needed. Right now, we have a hodge podge situation, where movie producers have to jump around from one agency to another. There is a great deal of confusion and lack of coordination.

Senate Bill No. 167, by the way, Mr. President, is part of the Senate Republican economic development package. I know that the Republican members support this bill.

I feel very strongly that this should be reported out of Committee."

Senator Leopold then stated, "I would like to ask the Chairman of the Senate Economic Development Committee why he did not respond to my letter and, secondly, why he has not reported this measure out of his Committee".

At this time, Senator O'Connor rose on a point of order to state:

"Mr. President, this last speaker, who rose on a point of personal privilege, has now twisted the procedure of this Body to a point where we are now engaging in diatribe and debate on the floor of the Senate when there is no such procedure allowed.

I would rise on a point of order and ask that the President rule on the point--the point being that the question, as posed by the last speaker, is out of order and should not be asked nor answered."

The President ruled that the previous speaker's question to the Chairman of the Committee on Economic Development was out of order.

Senator Leopold then moved that Senate Bill No. 167 be recalled from the Committee on Economic Development, seconded by Senator Yee.

At this time, Senator F. Wong rose to speak against the motion as follows:

"Mr. President,

Senate Bill No. 167 was referred to your Committees on Economic Development and Ways and Means.

At the public hearing, the State of Hawaii indicated that the bill was unnecessary and would be costly to administer. Yes, there was overwhelming testimony in favor of a system, as described by the Senator across the aisle. However, the public testimony was in the form of many generalities.

Those of us who are working on a system to cut down the red tape in the bureaucracy that we live in, know that adding another layer of bureaucracy is not going to help us.

Your Committee on Economic Development, in its letter to the Chairman of the Ways and Means Committee, recognized the problems and the potential for this industry. As a result of the budget cuts...we cut more than three percent from many of the State agencies under the jurisdiction of your Committee...with the savings realized, an additional appropriation was made to the Department of Planning and Economic Development for media production. We feel that by doing it in this manner, by incorporating it into the operating budget, the potentials of this industry can best be realized.

Mr. President, we have treated the Republican measure in our Committee

with the same fairness as the Majority package bill, also in our Committee. Neither bill was reported out. Both were treated fairly.

The State is committed to some production, and the best way that commitment can be expressed is in the Executive Budget."

At 12:16 o'clock p.m. the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12:24 o'clock p.m.

The motion to recall S.B. No. 167, entitled: "A BILL FOR AN ACT RELATING TO MEDIA PRODUCTION", from the Committee on Economic Development was put by the Chair and, Roll Call having been requested, carried on the following showing of Ayes and Noes, in accordance with Article III, Section 13, of the Constitution of the State of Hawaii:

Ayes, 9. Noes, 15 (Ching, Hara, Hulten, Kawasaki, Kuroda, O'Connor, Taira, Takitani, Toyofuku, Ushijima, F. Wong, R. Wong, Yamasaki, Yim and Young). Excused, 1 (Anderson).

At 12:29 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12:31 o'clock p.m.

Senator O'Connor moved that Senate Bill No. 167 be tabled, seconded by Senator Kawasaki.

The President then ruled the motion undebatable.

The motion to table S.B. No. 167, entitled: "A BILL FOR AN ACT RELATING TO MEDIA PRODUCTION", was put by the Chair and, Roll Call having been requested, carried on the following showing of Ayes and Noes:

Ayes, 14. Noes, 10 (Chong, George, Henderson, King, Leopold, Nishimura, Saiki, Soares, Yee and Yim). Excused, 1 (Anderson).

At 12:34 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12:35 o'clock p.m.

Senator Nishimura moved that Senate Bill Nos. 283, 285, 370, 392, 397, 398, 400, 402, 408, 554, 557 and 559 be recalled from the Committee on

Judiciary, seconded by Senator Chong.

At this time, Senator Nishimura rose to speak as follows:

"Mr. President,

From time to time, this Chamber has echoed with periodic grumbling and bellyaching that I, as Chairman of the Judiciary Committee, have 'iceboxed' or discriminated against meritorious bills introduced by the Minority members of this Body.

Mr. President, in reviewing the three hundred plus bills referred to the Judiciary Committee, I have discovered that in addition to Senate Bill No. 184, which is scheduled for hearing by the Committee of the Whole this evening, there are other bills of equal import and far reaching consequences . . . including some bills considered by the Minority members as their main thrust this legislative session . . . which your Judiciary Committee has not had time to schedule for hearing or act on within the time schedule established by leadership.

Therefore, Mr. President, I urge that Senate Bill No. 400, introduced by Senator Anderson; Senate Bill No. 398, introduced by Senator George; Senate Bill Nos. 283, 285, 370, 397 and 408, introduced by Senator Henderson; and Senate Bill Nos. 392, 554, 557, 559 and 402, introduced by Senator Yee be recalled from your Judiciary Committee and be considered by the Committee of the Whole this evening, as time permits, following an appropriate motion to waive the 48-hour notice requirement."

Senator Yee then rose to state, "We are very delighted with the number of bills that are being brought on the floor for hearing and action. I certainly endorse the comments of the previous speaker".

At 12:39 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12:42 o'clock p.m.

At this time, Senator R. Wong rose to speak against the motion as follows:

"Mr. President,

I can understand why certain pet bills have been kept locked up in other standing committees, but my particular Committee, Mr. President, has bills-- probably the most introduced in the State Senate--which deal with money.

Many of those bills will not see the light of day, whether they are Republican or Democratic measures.

The simple explanation is that these bills cost money, and we just don't have the money to cover all of them. Therefore, it is the job of my Committee to screen off those bills which we think are costly.

There are many measures in the Ways and Means Committee, which deal with monies benefiting certain special interest groups within the State, that we have attempted to keep back in Committee. If this motion is allowed to pass, then these bills can now become the property of this Body.

I think, Mr. President, what we are doing here shows that the Senate is now in almost total disorganization."

The motion to recall the following measures:

S.B. No. 283, entitled: "A BILL FOR AN ACT RELATING TO CORPORATIONS";

S.B. No. 285, entitled: "A BILL FOR AN ACT RELATING TO MISCELLANEOUS RIGHTS OF THE PEOPLE";

S.B. No. 370, entitled: "A BILL FOR AN ACT RELATING TO YOUTH SHELTER CARE";

S.B. No. 559, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAII PENAL CODE",

from the Committee on Judiciary was put by the Chair and, Roll Call having been requested, carried on the following showing of Ayes and Noes, in accordance with Article III, Section 13, of the Constitution of the State of Hawaii:

Ayes, 9. Noes, 15 (Ching, Hara, Hulten, Kawasaki, Kuroda, O'Connor, Taira, Takitani, Toyofuku, Ushijima, F. Wong, R. Wong, Yamasaki, Yim and Young). Excused, 1 (Anderson).

S.B. No. 559, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAII PENAL CODE",

The motion to table S.B. No. 393, entitled: "A BILL FOR AN ACT RELATING TO BEVERAGE CONTAINERS", was put by the Chair and, Roll Call having been requested, carried on the following showing of Ayes and Noes:

Ayes, 14. Noes, 10 (Chong, George, Henderson, King, Leopold, Nishimura, Saiki, Soares, Yee and Yim). Excused, 1 (Anderson).

I therefore claim that the motion is completely out of order".

"Mr. President, as a matter of legislative philosophy...this bill is saying that no matter what a County Charter provides... and the County Charter is adopted by a vote of the people of the county...the State may move in and override it.

The State should not move in and wipe out any section or amendment of a County Charter.

I therefore urge that we vote against this bill."

The motion was put by the Chair and carried, and S.B. No. 1299, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC OFFICERS AND EMPLOYEES", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Toyofuku moved that S.B.

No. 1350, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Young.

At this time, Senator O'Connor rose to speak in favor of the measure as follows:

"Mr. President, this bill adopts a residency requirement of one year for State and county employees. I feel there is compelling State interest in this area.

We have one of the largest unemployment records in the United States today in this State, and yet the State and counties are required to hire people who have just arrived from other states. This certainly does not benefit our local situation.

In addition, we have a University which is graduating, each year, hundreds of people in various job categories. Some of these categories mandate employment in government jobs, by the very way we set up our University. These people are not able to gain employment with our State and county governments... essentially, we are educating people for export.

I find these to be overwhelmingly compelling reasons why this bill should pass. I urge a vote of Aye for this residency requirement."

Senator Anderson then rose to speak against the measure:

"Mr. President, this bill was heard at some length in the Ways and Means Committee and the Human Resources Committee. Testimony from Mr. Botelho, who is in charge of the State Department of Personnel, admitted that the number of people from off our shores...immigrants from the West Coast...California...from the Philippines...from elsewhere outside the United States...are not a problem for public employment. They are only a fraction of a percent of the people who apply for jobs with our State and county governments.

I think it is wrong to close our doors in public government to talent that may come from across the seas.

We are all a minority in this State, and it is sometimes difficult to understand minority arguments...but if we can get talent from the Far East or anywhere else in the world, to come to Hawaii and enhance the Aloha spirit, enhance our education, it is extremely healthy.

It's somewhat paternalistic to believe that we are going to close our doors.

I might add, also, that the prior Administration, for many years, from this very podium, in his State of the State addresses, invited everyone from everywhere to come to Hawaii. And, now, to introduce a bill by the Administration to put on public record that we are against such migrations, I think, is poor legislation.

The people coming into the State are going into the private sector... that's where they are taking jobs from our people... they are not coming into government.

I urge a No vote on this."

At 11: 53 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11: 54 o'clock a.m.

At this time, Senator Nishimura rose to say that while he found himself in agreement with both of the previous speakers, "the tips are being pushed over to the side of my colleague from the Seventh Senatorial District... I am going to vote Aye".

Senator O'Connor then rose to say, "In brief response to the Minority Floor Leader... with an eight percent unemployment rate, I feel that the compelling State interest exists if but one of our residents is deprived of a State or county job".

At this time, Senator Soares rose to speak in opposition to the measure:

"Mr. President, I believe that these eight employees, who have been on a temporary basis for eight years, should take the examination, be placed on the eligibility list and selected therefrom to retain full employment.

I happen to know some of the people on the Elections staff, and I think they are very competent and able...but I don't like the precedence we are setting, continually to exempt from civil service, people who should be taking the exam along with everyone else.

I will be voting No on this bill."

Senator Kawasaki also rose to speak against the measure:

"Mr. President, I also have some objections to this bill. I understand that the initial request from the Lieutenant Governor's office was to cover only four employees under civil service. I don't know how the mixup took place, but the entire staff is now being covered. I don't think that was the desire of the Lieutenant Governor's office.

Until this is clarified, I will vote against the bill."

"Mr. President, I rise to speak against the bill, not because every year that goes by I get closer to sixty-five myself, but because we are wiping out the possibility of very capable individuals being able to continue in their positions.

Even if we do accept this philosophy, I'm not quite sure why judges should then be exempt.

I urge a No vote on this measure."

Senator Chong also rose to speak against the measure:

"Mr. President, the Human Resources Committee held hearings on this measure before passing it on to Ways and Means.

One of the major arguments was that the bill would make available more employment opportunities for the young people of our State without unduly penalizing employees approaching retirement. In actual fact, it was pointed out that this is not so. The number of job openings created by forcing people to retire is small.

A recent article in Fortune magazine indicated that due to the shift and structure of our country, more and more people are living more and more productive lives. It will contribute substantially to our Social Security payments, adding an additional burden on our taxpayers, if we do not encourage people of older age to continue leading productive lives.

I urge my fellow Senators to vote against this bill."

Senate Bill No. 184, S.D. 1:

Senator O'Connor moved that S.B. No. 184, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Taira.

At this time, Senator Nishimura rose to speak against the measure as follows:

"Mr. President,

During the past two days, this Chamber has been the setting for an example of democracy at work--a free and open discussion of common concern. The discussion at times has bordered on the hysterical. We have heard irrational conclusions tinged with a philosophy reminiscent of mankind's darkest ages. There has also been present the spirit of the new Hawaii, the rationale and deep felt passion of men and women unwilling to once again bind the citizens of this State to the shackles of yesterday.

The arguments set forth by those favoring and those opposing this measure have been documented, and I sincerely hope that my colleagues in this Chamber have studied, most carefully, the evidentiary body of this testimony.

I do not think it will benefit us much for me to retrace, step by step, the road we have traveled to this meeting place today. I will, therefore, briefly summarize our beliefs and conclusions.

'Deterrence' has been the argument most commonly and most often used by those who would restore the death penalty. Deterrence is, at best, an abstract philosophy and remains that--a philosophy, until supported by fact.

But what do the facts point out?

The answer is simple and irrefutable: Capital crimes do not decrease because of the presence of capital punishment.

The cry for vengeance increases...yes! But not the incident of capital crime.

As the technology and refinement of mass communications has increased--particularly in the area of television--so has our involvement in the events of the day.

Murder--by its very nature--is the perfect subject for documentation and discussion. Lurid images and sensational details make high drama. Rationale, it appears, does not.

We all become involved when a sensational capital crime occurs. How often during these times have you heard the expressions: 'They should kill the buga'...or 'They should feed the guy to the sharks'...or some other colorful phrase?

Is this deterrence talking...or merely vengeance? And isn't vengeance, really, a simple return to barbarity? The victim of a capital crime can never be restored to life. The legalized

'capital crime' of execution merely adds to the barbarity of the original offense.

The noted American attorney, Clarence Darrow, who spent a lifetime in opposition to capital punishment, said it all when he commented:

'There is nothing in the history of the world that ever cheapened human life like our first great war; next to that, the indiscriminate killing of men by the State.'

And there is another facet of this entire issue which does not seem to carry the same import with the proponents of this bill as it does with us who oppose it. This is the execution of the innocent.

Man is not infallible, and neither is the judicial process.

This is not a tennis match we're talking about, where the winner jumps over the net to greet his opponent. There's no leap involved after that cyanide drops. The outcome is irreversible.

The wrongfully convicted can be restored to society--impaired though their lives may be--when error has been corrected. But the pellets of death negate any chance of justice restored. The language of law becomes somewhat meaningless when it is viewed through a cloud of gas.

Are we to say here today that the men and women of Hawaii, who sit in judgment of their fellow citizens, are somehow more astute...more learned...more correct than others in our sister states throughout the union? I don't think so.

The National Council on Crime and Delinquency has said: 'One of the gravest charges against the use of the death penalty is that it makes execution of the innocent inevitable'.

Can we afford to take this chance--all under the guise of 'justice'?

Mr. President, I am proud to be a citizen of the Aloha State and proud to be a member of this Senate. I take pride in knowing that the Legislature of the State of Hawaii is rated so highly by the National Conference on State Legislature.

We have been responsible for some of the most progressive legislation in this nation, legislation which had as its foundation the protection, welfare and common good of all citizens.

Our Land Use Law was the first in the nation. We were the first state to ratify the Twenty-Seventh Amendment to the Constitution of the United States, the so-called 'Equal Rights for Women Amendment'. We have led the way in social legislation, labor/management relations, and many, many other areas of mutual concern. And the author of this bill, ironically, was a strong proponent of many of our progressive legislation. Mr. President, why then this bill?'

In 1957, there were only six states in the union which had abolished the death penalty. The Territory of Hawaii, that year, two years before statehood, joined them. It was a momentous decision, arrived at through careful study. What, may I ask, has happened in the twenty years since that day, to make the legalized killing of our citizens a topic for serious consideration?

It seems, Mr. President, that hysteria has gripped the land.

Many people have been brainwashed and confused into thinking that the death penalty will reduce murders, rapes, robbery, beatings, dishonesty, cheating, the malicious destruction of property and a whole host of criminal activities. They have somehow equated the death penalty with the elimination of all crimes. Statistics and facts show otherwise. States that have capital punishment have not experienced a reduction in murders and rapes and other violent and brutal crimes. Capital punishment is not the answer.

In the waves of confusion and hysteria and vengeance, the proponents of Senate Bill No. 184 are mooring our hopes in the wrong setting.

The proper setting, the possible answer may be in the Correctional Master Plan. A new system with dual purposes of corrections: Protecting the public while providing offenders with the opportunities to become law abiding and productive citizens. We are deeply into the process of implementing this Plan. We have committed ourselves by allocating \$25 million and already new structures are rising in place of the old.

Our present laws, which provide for life imprisonment without possibility of parole in the murder of a police officer in the performance of his duties, the murder of a witness in a murder prosecution, in the case of a murder by a hired killer, and the murder of a person by a convict, are adequate.

Mr. President, we have every hope

that Hawaii will again be at the forefront of the nation in the area of corrections. We should not, Mr. President, sacrifice innocence and compassion on the altar of vengeance and hysteria until we have given the future a chance to catch up with us.

One of the most unforgettable moments in all of our lives was the day that Neil Armstrong's voice came back to us from the moon: 'One small step for man...one giant step for mankind'.

The passage of Senate Bill No. 184 will insure that Hawaii, also, will take a giant step. Only this time it will be backward.

Thank you, Mr. President."

Senator O'Connor then rose to speak in favor of the measure:

"Mr. President,

I rise as Chairman of the Committee of the Whole to explain some modifications which have been made to the bill which is presented today, and to speak in favor of the bill as modified.

The bill as proposed has been reworked, so that two crimes are set forth--capital murder and non-capital murder. This has been done to conform the bill, as originally drafted, to the form of our Penal Code.

Incident to those two crimes, the drafter's concept that a separate hearing by jury or judge shall be held to determine sentencing, and that a death sentence shall automatically be appealed to the Hawaii Supreme Court, have been retained.

All of the safeguards of the original bill have been retained, so that insofar as is humanly possible, the review of the death penalty shall be as complete and thorough as our system allows to prevent any injustice being done.

In essence, however, the bill conforms to the intent and format of the original measure.

I urge all to vote in favor of it."

Senator Nishimura rose on a point of information to inquire if the Chairman of the Committee of the Whole would yield to a question, to which Senator O'Connor answered in the affirmative.

Senator Nishimura then asked, "Is there an appropriation in the bill to construct a facility to house a gas chamber?"

Senator O'Connor answered, "There is no information before the Committee of the Whole that a new facility would need to be constructed for this purpose".

Senator Nishimura continued, "There was testimony to the effect that there might be a cost...as much as \$2 million to \$4 million to construct such a facility. Was that testimony taken into consideration?"

Senator O'Connor replied, "Yes, that testimony was taken into consideration. However, it was a sheer guess on the part of the person testifying. There was no testimony concerning the type of construction required...whether or not it could be done in a room presently existing. There was some attempt to compare the intent of this bill with the 'highfangled' construction they have in California."

Senator Nishimura continued, "Then, Mr. Chairman, is it my understanding that the \$25 million now allocated for the Correctional Master Plan for the construction of new prison facilities is adequate, and there are plans for the construction of a gas chamber?"

Senator O'Connor answered, "I cannot answer...no testimony was taken by the Committee along those lines".

Senator Nishimura then stated as follows:

"Mr. President, as Chairman of the Judiciary Committee, I have heard quite a bit of testimony concerning the Correctional Master Plan and the implementation thereof.

It is my understanding that there is no appropriation, no plan, no money for the construction of a facility to house a gas chamber."

Senator O'Connor then rose to state, "Speaking very briefly to that point, Mr. President. I feel that had the Department of Social Services and Health planned for a gas chamber before this bill was passed, it would have been highly presumptuous on their part".

At 1:04 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 2:37 o'clock p.m.

Senator King moved that action on S.B. No. 184, S.D. 1, be deferred to the end of the evening session calendar, seconded by Senator Chong.

The President then ruled the motion undebatable.

The motion to defer action on S.B. No. 184, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO CAPITAL CRIMES", to the end of the evening session calendar was put by the Chair and failed to carry on a voice vote.

At this time, Senator King rose to state that she intended to speak in opposition to Senate Bill No. 184, S.D. 1, and, also, that she intended to keep the floor. She then proceeded to read from the following:

- (1) The Crime of Punishment by Karl Menninger, M.D., The Viking Press, 1966;
- (2) Thinking About Crime by James Q. Wilson, Basic Books, Inc., 1975;
- (3) "Speech by Portia Speaking of Shylock", Merchant of Venice by William Shakespeare.
- (4) "Psychiatric Reflections on the Death Penalty" by Louis Jolyon West, M.D., Department of Psychiatry, University of California School of Medicine, Los Angeles, presented at the 1974 Annual Meeting of the American Orthopsychiatric Association in San Francisco (revised); and
- (5) A list of thirty-five states which have, or have reinstated, the death penalty, submitted by the Honorable Duke T. Kawasaki.

Senator King then stated, "I will now yield the floor to Senator Chong".

Senator Ching rose on a point of order, stating that it was not permissible for the former speaker to yield the floor.

The President then ruled that Senator King had lost the floor.

Senator Ching moved that the previous question be moved, seconded by Senator Toyofuku.

The President then ruled the motion undebatable.

At 5:49 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 5:57 o'clock p.m.

The motion was put by the Chair and carried, and, Roll Call having been requested, the previous question was moved by not less than two-thirds

vote of all the members to which the Senate is entitled, on the following showing of Ayes and Noes:

Ayes, 18. Noes, 7 (Chong, George, King, Leopold, Nishimura, R. Wong and Young).

At this time, Senator Chong rose to speak against the measure as follows:

"Mr. President, this bill would provide that in the case of public works projects, if someone brings a lawsuit which delays the project, and they lose, they would have to pay the State all of the construction and other costs which resulted from the delay.

What this means is that if anyone is stupid enough to sue the State for putting TH-3 through Halawa Valley and they lose, the State takes their house, their car, their life savings and any other piece of property they may own.

This is an incredibly vicious attitude for the State to take towards those who would dare to interfere with the State's CIP projects.

Worse than that, this bill could be unconstitutional. The terrible cost involved would chill people from bringing deserved suits, as well as screen out the frivolous ones. It is irrational under the due process clause, it places an impermissible burden upon one's right to his day in court, it discriminates against all but millionaires.

If the State tried to apply this statute to a lawsuit brought under a Federal law, such as the National Environmental Policy Act that TH-3/Moanalua Valley was stopped under, the courts would knock it out pretty quick. Under the supremacy clause, the State simply has no right to burden a citizen's Federal statutory rights in this manner.

I am shocked by this bill, and urge my fellow Senators to vote No."

Senate Bill No. 320:

Senator Nishimura moved that S.B. No. 320, having been read throughout, pass Third Reading, seconded by Senator O'Connor.

At this time, Senator Chong rose to speak in opposition to the measure as follows:

"Mr. President,

This bill provides a new statute of limitations for environmental lawsuits. Statutes of limitation, of course, are necessary to ensure that the courts don't get bogged down with cases that go on forever and forever. They should be clearly written, however, so that the people bringing the lawsuits will know when their deadlines are.

Senate Bill No. 320 is very confusing. The time period begins to run after the appropriate government official gives the final approval, which is

required by the environmental law. I suppose that makes sense if there is a 'final approval'. What happens if the officials, agencies, developers, and everyone else decide that the project in question isn't subject to the environmental laws at all, and so, no final approval is needed? If I disagree, when do I bring the lawsuit? Chapter 343, the Environmental Impact Statement Law, says 180 days after the agency decides to start the project. Is that still good?

Senate Bill No. 320 gives us one statute of limitations for 'procedural' violations and another statute of limitations for 'substantive' violations. What are procedural and substantive violations?

Suppose a developer decides that his project isn't subject to the environmental laws, and does nothing. Is that failure to comply with the procedures of the environmental laws, or failure to prepare substantive environmental impact statements?

There are at least nine environmental lawsuits presently hung up in the Supreme Court on one technical point or another. Each case requires a couple hundred pages worth of briefs, and hundreds of hours of work for the attorneys, judges and law clerks--just to decide some picayune minor issue. The Supreme Court has never decided any environmental case on its merits because it has had to fight its way through all sorts of technicalities.

Why add to the mess? Why not just provide the same statute of limitations for procedural and substantive violations?

Senate Bill No. 320 doesn't list the laws it applies to--it just says 'environmental laws'. Once again, we are throwing the question to the courts to waste more time on, deciding whether building permits, fishing regulations, and so on, are environmental laws.

What is so hard about listing the laws that the bill applies to?

The worse part of this bill is Section B, which says that some not-rich citizens' group only has ninety days, but a rich person can have all the time he likes to bring a lawsuit, so long as he can convince the judge he had good reasons not to sue earlier. Why have one law for the rich and another law for the poor?

And why leave the statute of limitations open-ended for people who can put up one-fourth the cost of construction? That can lead to the environmental laws being used mainly by big companies trying to derail each other's projects, by bringing environmental lawsuits,

a few years down the line, for the cost of a one quarter construction bond. That is surely not what the law was intended to do.

I urge my colleagues to vote against this bill."

Standing Committee Report No. 440 (S.B. No. 107):

Senator R. Wong moved that Stand. Com. Rep. No. 440 and S.B. No. 107, entitled: "A BILL FOR AN ACT RELATING TO THE COMPENSATION OF CERTAIN PERSONS UNDER THE CRIMINAL INJURIES COMPENSATION ACT AND PROVIDING APPROPRIATIONS THEREFOR", be recommitted to the Committee on Ways and Means, and the President, noting that there was no objection, so ordered.

Standing Committee Report No. 442 (S.B. No. 747):

Senator R. Wong moved that Stand. Com. Rep. No. 442 be adopted and S.B. No. 747, having been read throughout, pass Third Reading, seconded by Senator Yamasaki.

At this time, Senator Kawasaki rose to speak as follows:

"Mr. President, I am at a loss as to how to vote on this bill, particularly since I could not get a satisfactory answer as to the reason for the seemingly grammatical change in the statutes, from the term 'Farm Loans' to 'Agricultural Loans'.

Are we trying to qualify certain projects that do not presently qualify under the 'Farm Loans' category?

I would like a clarification on that point."

By unanimous consent, action on Stand. Com. Rep. No. 442 and S.B. No. 747 was deferred to the end of the calendar.

Standing Committee Report No. 447 (S.B. No. 62, S.D. 3):

Senator R. Wong moved that Stand. Com. Rep. No. 447 be adopted and S.B. No. 62, S.D. 3, having been read throughout,

pass Third Reading, seconded by Senator Yamasaki.

At this time, Senator King rose to speak against the measure as follows:

"Mr. President, the purpose of this bill is to provide major tax incentives for the construction of new hotels, resorts, commercial and industrial buildings. It is true, it does grant major tax incentives...but it bothers me that at a time when the State is in dire need of revenues and the University system is bleeding, we pick on one particular segment of our economy and give them this kind of a tax boost.

The bill is actually addressed to the tourist industry and the construction industry.

We do need construction...earlier I voted for a bill that would give substantial tax breaks to the renovation of existing hotels...but to give this kind of tax break to resorts, at a time when we don't know what our tourism plan is going to be, seems to me precipitous.

The bill also provides that the resort hotels shall be exempt from county development plan designations, county zoning regulations, environmental assessments, impact statement requirements and coastal zone management requirements.

Mr. President, I urge a No vote on this bill."

Senator Kawasaki also rose to speak against the measure:

"Mr. President, literally, the former speaker took the words out of my mouth.

I don't know that the hotel industry is having such a hard time that they need to have special tax exemptions.

What bothers me more than that is, we are providing these exemptions and benefits to commercial and industrial areas. I just wonder whether or not we are opening up a Pandora's box...businessmen from other categories may come to us and demand similar concessions.

I agree with the previous speaker--some of her concerns are perfectly legitimate. I, also, urge my colleagues to vote No on this bill."

Senator O'Connor then rose to speak as follows:

"Mr. President, I am voting Aye on this bill. I feel that the economic situation of the State today merits wide experimentation in the economic area.

However, I, too, am very concerned about this particular endeavor. My reservations extend from watching the Orchid Isle Hotel in Hilo, which was indelibly linked with our Retirement System, flounder back and forth--to the lack of benefit to the Retirement System. We are now bidding in the entire State treasury, the same situation the Retirement System was in.

I hope against hope that this economic 'shot in the arm' will work, and not be the detriment of our overall economy."

Senator Kawasaki rose on a point of information to inquire if the introducer of the measure would yield to a question, to which Senator F. Wong answered in the affirmative.

Senator Kawasaki then asked, "I understand that as condominium complexes are built, the apartments themselves would not enjoy these benefits. However, would commercial areas that are part of a condominium complex enjoy the tax exemption?"

Senator F. Wong answered, "If a condominium complex contains a commercial condominium, it does not qualify...the condominium at Discovery Bay is an example".

Senator R. Wong then rose to speak in favor of the measure:

"Mr. President, it must be said at this point that the measures that we have before us tonight are probably the most innovative type of suggestions being made to alleviate the problem of jobs and, also, the question of development and red tape in government.

As you know, Mr. President, during the interim, under your direction, we did have hearings based on the red tape in government.

I think Senate Bill No. 62 addresses itself to the problem. Hopefully, we won't have to come back next year and make drastic amendments.

I believe that the Chairman of your Committee on Economic Development should be congratulated for coming out with a most imaginative and innovative program to attract investment capital to the State of Hawaii and, secondly, to create the necessary jobs for our often maligned construction industry.

Therefore, Mr. President, I urge the members of this Body to vote in favor of this measure."

The motion was put by the Chair and carried, and Stand. Com. Rep. No.

447 was adopted and S.B. No. 62, S.D. 3, entitled: "A BILL FOR AN ACT RELATING TO ECONOMIC DEVELOPMENT", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

At this time, Senator Kawasaki rose to speak against the measure:

"Mr. President, I am a little concerned about the powers this bill allows a county administration.

If a county administrator were opposed to a particular developer, or a particular subdivision in a particular area, he could use his powers, under this bill, to prohibit the development.

I am of the opinion that this bill gives the county administrations too much power, and I urge its defeat."

The motion was put by the Chair and carried, and Stand. Com. Rep. No. 480 was adopted and S.B. At this time, Senator Saiki rose to speak against the measure:

"Mr. President, this measure as written could cast a cloud of doubt as to whether a physician can give an emergency blood transfusion or perform emergency surgery without the specific consent of the next of kin or legal guardian when the patient himself is unable to speak.

As long as no specific language is included, the physician's traditional action of giving immediate medical care may be questioned if he did not seek the court's permission to act.

I know the introducer's intent, and I think the intent is commendable. However, as legislators very often disagree, I have found that attorneys also very often disagree. I have received contradictory legal opinions as to what this measure really does.

I am not willing to take the risk that any person brought into a hospital unconscious, whose next of kin cannot be contacted, may have his life jeopardized because of unclear language in the law.

I must ask you, my fellow colleagues, to vote this measure down."

Senator O'Connor then rose to speak in favor of the measure:

"Mr. President, the key words in this bill are 'the court shall have jurisdiction'. This is purely a jurisdictional action which allows the court to render orders.

As there is no such section in our statutory law today, certain judges have been 'scared' to enter orders for people, such as the Jehovah's Witnesses, who refuse blood transfusions and then are rendered unconscious. In such a circumstance, the doctor proceeds at his own peril in giving the transfusion.

I have been a party to taking a circuit court judge to the operating room of one of our local hospitals to convene court there, so that he could render an order to allow the doctor to give such a transfusion... only to have the judge, afterwards, ask me what his statutory authority was. Of course, there is none today.

I can see where a doctor would not understand the words 'shall have jurisdiction', and have some difficulty in understanding what exactly this means in terms of the law.

I urge all to vote for this bill."

The motion was put by the Chair and carried, and Stand. Com. Rep. No. 498 was adopted and S.B. No. 1280, entitled: "A BILL FOR AN ACT RELATING

Senator Nishimura moved that Stand. Com. Rep. No. 514 be adopted and S.B. No. 1251, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator O'Connor.

At this time, Senator Chong rose to speak against the measure as follows:

"Mr. President,

The bill seeks to carve out yet another exception to the public meetings doctrine of the Sunshine Law, by allowing an agency to close its deliberations to the public in case it is investigating a unit of the State or county governments and taking testimony which may possibly affect the 'safety of civil rights of individuals'.

Recently, governmental agencies have been conducting investigations into controversial matters and, understand-

ably, some individuals may have been concerned about the effect their testimony might have on their careers or business dealings.

But this exception is so broad that, coupled with the subpoena powers that many governmental agencies already have, Senate Bill No. 1251 will have the effect of investing numerous civil investigative agencies with the awesome powers of a criminal grand jury, and with none of the safeguards applicable to the criminal process.

The infamous 'Star Chamber' of medieval England, the secretive and inquisitorial investigative body of the Court of Equity, has long been discredited as an institution of Anglo-American government. In the case of investigations into serious felonies--crimes against the state and people--perhaps such secrecy is justified.

But shall we empower agencies, uncontrolled by any judicial or court structural restraint, who are already capable of conducting 'fishing expeditions', the right to conduct such investigations out of the sight and scrutiny of the public and the media, whenever the issues which investigate become controversial?

A person has a right to confront his accusers. A person has the right to the safeguards imposed upon his accusers by our judicial system. And, more importantly, the public has a right to know and view the workings of a democratic government. It has the right to be free from secret investigating bodies which Senate Bill No. 1251 would make possible.

I urge this Honorable Body to vote down this bill."

Senator George also rose to speak against the measure:

"Mr. President, quite apart from the concerns of my distinguished colleague who preceded me, this is a further erosion of the Sunshine principals, to which we are all dedicated.

It is, quite specifically, an amendment of the Charter of the City and County of Honolulu, which specifies two occasions under which the members of the City Council can retreat into privacy--one is to consult with their attorneys and the other is to discuss matters of personnel. They cannot, according to their Charter, close the doors to the public under any other circumstances.

I urge my colleagues in this Body to refrain from tampering with the Charter of the City and County of Honolulu, which was adopted by an overwhelming majority vote of the citizens of this County."

The motion was put by the Chair and carried, and Stand. Com. Rep. No. 514 was adopted and S.B. No. 1251, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC AGENCY MEETINGS AND RECORDS", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

MATTERS DEFERRED FROM EARLIER ON THE CALENDAR

Senate Bill No. 140, S.D. 1:

On motion by Senator Toyofuku, seconded by Senator Young and carried, S.B. No. 140, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC EMPLOYMENT", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Senate Bill No. 112:

Senator R. Wong moved that S.B. No. 112, having been read throughout, pass Third Reading, seconded by Senator Yamasaki.

At this time, Senator King rose to speak against the measure as follows:

"Mr. President, it seems to me that this is a very worrisome thing to do.

This allows the Retirement System of the State to invest in insurance company contracts. Very frequently, insurance companies loan their money out to hotels--and we know what a

risky business that is. Awhile back, the Retirement System funds seemed to be in dire straits because of the activities of the stock market.

I am not sure that it's a good idea to take Retirement System money, upon which so many people are depending, and allow it to be invested in insurance company contracts."

The motion was put by the Chair and carried, and S.B. No. 112, entitled: "A BILL FOR AN ACT RELATING TO INVESTMENTS OF RETIREMENT SYSTEM FUNDS IN INSURANCE COMPANY CONTRACTS", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Noes, 2 (King and O'Connor).

Standing Committee Report No. 442 (S.B. No. 747):

At this time, Senator Kawasaki rose to speak as follows:

"Mr. President, no one has yet been able to give me an explanation for the reason for this change of language. I'm just afraid that perhaps, under the appellation 'Agricultural Loans', we might pass on, in the future, projects similar to the Kohala Task Force, without actually realizing it.

Until someone from the Department of Agriculture can very clearly give us some rationale for this change, I am compelled to vote No."

The motion was put by the Chair and carried, and Stand. Com. Rep. No. 442 was adopted and S.B. No. 747, entitled: "A BILL FOR AN ACT RELATING TO FARM LOANS AND AMENDING CHAPTER 155, HAWAII REVISED STATUTES", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, 1 (Kawasaki).

Standing Committee Report No. 448 (S.B. No. 491, S.D. 3):

Senator R. Wong moved that Stand. Com. Rep. No. 448 be adopted and S.B. No. 491, S.D. 3, having been read throughout, pass Third Reading, seconded by Senator Yamasaki.

At this time, Senator King rose to speak against the measure as follows:

"Mr. President, I would like to express my concern. What the bill does is empower the Department of Planning and Economic Development to provide mortgage insurance for part of the mortgage loans in financing

the construction of new hotels.

This would mean, Mr. President, that, at any given moment, the State would not really know what kind of a financial position it was in. If several of the hotels, for which DPED guaranteed part of the mortgage insurance, failed, we would find ourselves in difficulty.

I also find myself a bit bothered by the thrust of this. The Committee report again cites the fact that the visitor industry, which this bill is directed to stimulate, is the largest generator of civilian jobs. This may be true, but Ways and Means heard testimony by Mr. Gordon Frazier, Chief of the Research and Statistics Office of the Department of Labor, who pointed out that jobs in the hotel industry do not grow proportionately with the growth of visitors or with the growth of rooms.

In 1973 to 1974, when the daily census of visitors increased 7% and the number of hotel rooms increased 2.5%, hotel employment increased only 1.3%. The following year, visitors went up 4.3% and rooms 7.6%, but hotel employment was minus 1%."

Senator Nishimura then rose to speak as follows:

"Mr. President, I rise to speak more in protest than in opposition to this bill.

This bill means that the Department of Planning and Economic Development will provide mortgage insurance to developers to assist them in the financing of new hotels, commercial and industrial buildings. That's all good and fine.

But as many of you know, earlier this Session, I tried to help THC Financial Corporation depositors by introducing Senate Bill No. 176, which attempted to get them into the Thrift Guarantee Loan program. That failed. In trying to assist them further, I had a bill drafted which would provide them with loans guaranteed by the State. The Committee report, which was circulated, stated:

"This bill provides that the Director of Regulatory Agencies may guarantee the principal of any loan made by any private lending institution to any eligible borrower, in an amount not greater than fifty percent of the amount estimated by the courts to be paid by the eligible borrower. If the amount has not been fixed by the court, the Director of Regulatory Agencies shall determine such amount, taking into consideration all information on file

with the court."

In other words, Mr. President, what I had attempted to do was to provide that the State would guarantee up to fifty percent of the amounts THC depositors had 'stuck' in the bankruptcy court. I saw little risk as far as the State was concerned, and was very disappointed that I could not get the necessary support to help the THC depositors.

It's one thing to help developers... I think it's good that we help those who are in need of capital support... but, by the same token, I think it's incumbent on us not to forget the plight of human beings."

Senator Kawasaki rose to speak against the measure:

"Mr. President, the two previous speakers did echo my sentiments, but, more importantly, I feel that the Department of Planning and Economic Development has no business getting involved in guaranteeing mortgage insurance.

They've got enough to do in trying to expand our economic base, and I think this is a little beyond their scope of activity. We shouldn't tolerate that.

For that reason, I am going to vote against this bill."

Senator O'Connor also rose to speak against the measure:

"Mr. President, the basic concept is one that I oppose. In the event of default of one of these mortgages, the State has no priority, it has an obligation. And yet we find, in reading the bill carefully, that there isn't even an absolute requirement that the mortgage lender or the defaulted borrower notify the State, so that the State can protect itself if there is a default and a foreclosure sale.

Under those circumstances, the State would have absolutely no ability to protect itself, but would still stand liable to pay twenty percent.

I find that awfully tough to accept, and therefore I am going to vote against the bill."

Senator Chong also rose to speak against the measure:

"Mr. President, I just don't like it. Here we are being told that we are in the fifth and worse year of austerity budget, under which we are being forced to cut back on our State programs--hospitals, schools, needed construction and services for our people.

Now we are being asked, under Senate Bill No. 491, to provide what amounts to a handout to one industry. If we're going to provide financial assistance to the hotel industry, let's do it by loan--not by this outright gift."

Senator R. Wong then rose to speak in favor of the measure:

"Mr. President, when you look at the economic package proposed by the Committee on Economic Development . . . which was scrutinized very carefully by your Ways and Means Committee, where we had full discussion . . . you will find that all of the bills tie into the economic straits of the economy of Hawaii.

With reference to the mortgage loan portion of the bill, I feel that it would be incumbent upon the Department of Planning and Economic Development not to just 'willy-nilly' pass out money for the sake of encouraging the growth of tourism.

I would suspect that the Director of Planning and Economic Development, before lending mortgage money to any particular resort developer, would first meet with the approval of the Governor and legislative leaders.

I have confidence in the Governor and I have confidence in the Director of Planning and Economic Development. I also have a lot of confidence in the members of this Honorable Body.

Therefore, I urge the members of this Body to vote Aye."

The motion was put by the Chair and carried, and Stand. Com. Rep. No. 448 was adopted and S.B. No. 491, S.D. 3, entitled: "A BILL FOR AN ACT RELATING TO ECONOMIC DEVELOPMENT", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

House Bill No. 1221:

By unanimous consent, action on H.B. No. 1221, entitled: "A BILL FOR AN ACT RELATING TO MARINE CONSERVATION", was deferred until Monday, March 28, 1977.

At this time, Senator Chong introduced to the members of the Senate Mrs. E.C. Ching, part-owner of Lauhala Sportswear, Inc.

Senator Yee then introduced Mrs. Melanie Helm, from Molokai, the mother of Mr. George Helm, and Mrs. Emma DeFries.

At this time, Senator Yee rose on a point of personal privilege to speak as follows:

"Mr. President, Mrs. Melanie Helm has been quite disturbed about trying to find her son, George, as well as Kimo Mitchell.

Last week, she called my home, but, unfortunately, I had just left for work. My wife advised her to get in touch with Governor Ariyoshi, as he is a very sympathetic person. Melanie did get in touch with him.

The Governor was able to arrange for a helicopter to take her boys to the

Island of Kahoolawe to search for George and Kimo. Unfortunately, the trip was very brief, only two or three hours at the most. They were not able to make a thorough search of the island.

Melanie came into town this week. Again, she called upon me, as a friend, to help them get two days to search the Island of Kahoolawe. They want to rest their minds...are their sons still alive or are they really gone?

I contacted Captain Caffrey of the Coast Guard. He was very sympathetic to the cause, and contacted Captain Crockett of the Navy. At the request of Mrs. Helm, I also talked to Captain Crockett. They were to report back to me, but to this date have not been able to come up with an affirmative answer.

In the meantime, Scott Shirai, of Channel 2, has been making a documentary film on Kahoolawe. While editing the film yesterday morning, someone noticed two people in the water. They looked very closely and saw two unidentified persons swimming in the water about fifty yards from shore, on the northwest portion of the island. I'm happy to say that, this morning, Captain Crockett went down to Channel 2 to view the film and has confirmed that two persons can be seen in the water...this only goes to show that our request before the Navy is a reasonable one.

We don't know if they are the Helm boy and the Mitchell boy, but we are making every effort to get permission from the Navy to grant the wishes of the parents of these two young men.

In behalf of the Helm and Mitchell families, I do hope the Navy will grant their last wish."

At this time, Senator Nishimura, Chairman of the Committee on Judiciary, requested a waiver of the 48-hour notice of a Public Hearing on the following measures:

H.B. No. 168, H.D. 1, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO INTAKE SERVICE CENTERS";

H.B. No. 171, H.D. 1, entitled: "A BILL FOR AN ACT RELATING TO ELECTIONS";

H.B. No. 269, entitled: "A BILL FOR AN ACT RELATING TO ANNULMENT, DIVORCE, AND SEPARATION";

H.B. No. 678, H.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE CONTRACTORS RECOVERY FUND";

H.B. No. 680, H.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE CONTRACTORS LICENSE LAW AND THE CONTRACTORS RECOVERY FUND";

H.B. No. 1284, H.D. 1, entitled: "A BILL FOR AN ACT RELATING TO HORIZONTAL PROPERTY REGIMES";

H.B. No. 1305, entitled: "A BILL FOR AN ACT RELATING TO EVIDENCE OF SEXUAL CONDUCT";

H.B. No. 1436, H.D. 1, entitled: "A BILL FOR AN ACT RELATING TO ELECTION CAMPAIGN CONTRIBUTIONS AND EXPENDITURES";

MATTERS DEFERRED FROM EARLIER IN THE CALENDAR

Standing Committee Report No. 763 (H.B. No. 28, H.D. 2, S.D. 1):

On motion by Senator R. Wong, seconded by Senator Yamasaki and carried, Stand. Com. Rep. No. 763 was adopted and H.B. No. 28, H.D. 2, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO A CONSTITUTIONAL CONVENTION", passed Second Reading and was placed on the calendar for Third Reading on Tuesday, March 29, 1977.

In accordance with Article III, Section 16, of the Constitution of the State of Hawaii, the 24-hour notice was given on H.B. No. 28, H.D. 2, S.D. 1.

Standing Committee Report No. 780 (H.B. No. 892, H.D. 1, S.D. 1):

Senator R. Wong moved that Stand. Com. Rep. No. 780 be adopted and that H.B. No. 892, H.D. 1, S.D. 1, pass Second Reading and be placed on the calendar for Third Reading, seconded by Senator Yamasaki.

Senator Soares then offered the following amendment to H.B. No. 892, H.D. 1, S.D. 1:

"Amend Part III, relating to program appropriations for the University of Hawaii by adding a proviso to read as follows:

'Section 45A. All program appropriations intended for the University of Hawaii West Oahu College are hereby deleted and no funds herein appropriated shall be diverted

and used to operate or carry on the said West Oahu College.'"

Senator Soares moved that the amendment be adopted, seconded by Senator Leopold.

Senator Soares then rose to speak for the amendment as follows:

"Mr. President, this amendment is necessary if the State of Hawaii is going to maintain its financial integrity and provide leadership to the rest of the people of Hawaii concerning our budgetary process.

The amendment is also essential if we are going to maintain a quality system of higher education for more than 43,000 students in the University of Hawaii system.

Not passing this amendment is tantamount to telling Hawaii's taxpayers that this Body is more concerned with present political needs than it is in the future needs of thousands of students.

The unpleasant fact of life that we are called on to face is that the West Oahu Campus is not needed. It cannot be justified and the people of Hawaii cannot afford to pay for it now or in the future.

In the words of the late Governor John A. Burns, 'West Oahu College is plainly a political move which has no right or reason of existence, really.'

Before he died last year, Governor Burns emphatically stated that the West Oahu College was in no way justified. He attributed the push for the West Oahu College to regional politics seeking votes in the Leeward and Central Oahu areas.

But there are many other reasons for us as State Senators responsible for the public funds which have been spent and which will be spent on this boondoggle to vote in favor of the amendment.

I have before me a copy of testimony presented before the Ninth Legislature which categorically states why it is not in the best interests of our State to continue with this project:

1. There is no demonstrated need for West Oahu College as originally conceived and planned either at present or in the foreseeable future. Future enrollment projections have been revised downward.

2. Should West Oahu College be

allowed to continue its development, it will be a financial burden to the University and the State.

3. West Oahu College should not become a reality: planning toward that end should cease.

4. A reasonable alternative should be sought which would provide for higher educational needs that may exist in certain areas of the State not now being served by the present University system.

There are a number of other alternatives which have been proposed by responsible legislators and others who view our State's budget from an overall view rather than from narrow tunnel vision.

The first step in implementing the alternatives will be to halt funding for West Oahu operating funds once and for all.

This will serve as the important signal to delete millions more from the CIP budget and more millions to pay for the debt service.

All of us here today, in our hearts, recognize and know that this project is not needed. It is unreasonable. It is unfair. It is financially irresponsible.

Rather than admit this, however, we continue to take the easy route-- that is spending the taxpayer's money.

Rather than be responsible and take this step, we fear to say 'no' to a small group of voters or refuse some of our regional colleagues.

It's difficult in politics to say 'no' to anyone. The easy way is to say 'yes' even if we know the statement is financially irresponsible. I, for one, can no longer do this when it means serious curtailment to the education of thousands and thousands of our other students.

I urge you to join me in saying 'no' to the West Oahu Campus and vote 'yes' with me on this amendment.

Thank you."

Senator Kuroda then spoke against the amendment as follows:

"Mr. President, I had no intention to speak up, however, the last speaker made some insinuation with regards to political motives and I think that's a very dangerous accusation to make.

I think that we have permitted the University of Hawaii Manoa Campus to become a concrete jungle and the attempt to purchase St. Francis High School grounds further indicated, an attempt to make Manoa a greater jungle.

In 1964, when a study was first initiated to review the needs of higher education in the Central and Leeward areas, this was done with the idea of protecting the needs of all the students of Hawaii.

Mr. President, I urge all my colleagues to vote against this amendment."

At 5:53 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 5:55 o'clock p.m.

Senator R. Wong moved to lay the amendment on the table, seconded by Senator O'Connor.

The motion was put by the Chair and Roll Call having been requested, carried on the following showing of Ayes and Noes:

Ayes, 15. Noes, 9 (Anderson, Chong, George, Henderson, King, Leopold, Saiki, Soares and Yee). Excused, 1 (Kawasaki).

Senator Soares then offered the following amendment to H.B. No. 892, H.D. 1, S.D. 1:

"Amend Part III, relating to program appropriations for the University of Hawaii by adding a proviso to read as follows:

'Section 45B. The University of Hawaii Law School and the John A. Burns Medical School shall be phased out and discontinued and the entering classes of September 1977 of both schools shall be the last students to be admitted. No funds herein appropriated for the University of Hawaii shall be diverted or used to operate or carry on the said law school or medical school beyond the completion of training of all students already enrolled or to be enrolled in September 1977.'

Senator Soares moved that the amendment be adopted, seconded by Senator Leopold.

"Part V, Supplemental Appropriations, Section _____, on page 52 is amended by adding a new appropriation to Formal Education to read as follows:

"To provide additional funds for instructional services at the University of Hawaii systemwide - \$1.8 million." "

Senator Leopold moved that the amendment be adopted, seconded by Senator Yee.

Senator R. Wong moved to lay the amendment on the table, seconded by Senator O'Connor.

The motion was put by the Chair and Roll Call having been requested, carried on the following showing of Ayes and Noes:

Ayes, 17. Noes, 7 (Chong, Henderson, King, Leopold, Nishimura, Saiki and Soares). Excused, 1 (Kawasaki).

Senator Leopold then moved to take away the recent amendment from the table, seconded by Senator Soares.

At 6:00 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 6:04 o'clock p.m.

Senator Leopold rose and stated that he would like to speak in favor of the motion to remove the amendment from the table.

The President ruled him out of order as the motion is not debatable.

Senator Leopold stated that it was his understanding that a motion to table a measure is not debatable but a motion to remove from a table is debatable.

At 6:05 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 6:06 o'clock p.m.

The motion to take away the amendment from the table was put by the Chair and Roll Call having been requested, failed to carry on the following showing of Ayes and Noes:

Ayes, 10. Noes, 14 (Ching, Hara, Hulten, Kuroda, O'Connor, Taira, Takitani, Toyofuku, F. Wong, R. Wong, Yamasaki, Yim, Young and Ushijima). Excused, 1 (Kawasaki).

Senator Saiki then offered the following amendment to H.B. No. 892, H.D. 1, S.D. 1:

"Section 1. H.B. No. 892, H.D. 1, S.D. 1, is amended by deleting Section 29, relating to school-by-school allocation of funds, in its entirety and renumbering Sections 30 through 81."

The Senate reconvened at 6:10 o'clock p.m.

The motion to table H.B. No. 892, H.D. 1, S.D. 1 was put by the Chair, and Roll Call having been requested, failed to carry on the following showing of Ayes and Noes:

Ayes, 7. Noes, 17 (Ching, Chong, Hara, Hulten, King, Kuroda, Nishimura, O'Connor, Taira, Takitani, Toyofuku, F. Wong, R. Wong, Yamasaki, Yim, Young and Ushijima). Excused, 1 (Kawasaki).

Senator Anderson then spoke against the passage of H.B. No. 892, H.D. 1, S.D. 1, as follows:

"Mr. President, I rise to speak against this measure. I have witnessed for the first time in my fourteen years, several acts of trying to get away

from voting on controversial issues that most of you should be quite ashamed of. These amendments have merit. I don't think the cost that is contained in this budget for the Law School and the Medical School, taking out West Oahu Campus, talking to the point of budgeting school-by-school where the Board of Education and the Superintendent of Education himself are not in favor of it...I find it very irresponsible that a Body, supposedly..."

Senator O'Connor rose on a point of order and stated as follows:

"Mr. President. Point of order. The speaker is speaking on actions taken by this Body which were not debatable and is not speaking to the bill itself. I would ask the Chair to limit the speaker's talk and debate to the measure before us."

Senator Anderson then continued,

"Mr. President, all the points I speak to are subject matters in this bill that need discussion. I rise to speak against this bill and against all of the issues we have discussed thus far or have not discussed thus far."

This contains budgeting for West Oahu Campus. It also contains a \$25,000 study for a four-year campus on Maui, another boondoggle that's going to come up to haunt us in three or four years.

I think we've seen the University, the Community Colleges and West Oahu Campus all run out of money.

This budget also contains a proposal for the concept, evidently arrived at by the House, in school-by-school budgeting, and I'd like to show the inconsistencies of this. The committee report on page 10, second paragraph under Regular Instruction, 'For the purpose of stimulating interest and discussion on this concept, your Committee has provided for display of the appropriations under EDN 105 (Regular Instruction) on a school-by-school basis. This was done to illustrate how funds appropriated under this program are intended to be allocated among the schools of the State.'

I might say that when you go to the provisions on page 13 of the bill, it doesn't say that it is intended for discussion. It's not here for the sake of someone referring to it. It says, 'Section 29. Provided, that from the amounts appropriated

for EDN 105, the following amounts are allocated and shall be expended for regular instruction in the following schools.'

Mr. President, we have a new Superintendent of Education who came on board last year and we, majority and minority, have given him every support to try to curtail and harness the Department of Education. Just one year later when he has demonstrated some administrative ability to harness this department, we come in by trying to appropriate from 200 and some odd schools on a piecemeal basis.

I think the Board of Education in their remarks were very clear about it. There were no public hearings, they weren't discussed or considered. The Governor, the Board of Education and the Superintendent are opposed to it. A few minutes ago, you denied discussion on the amendments. Yet in the very committee report before us, you say encourage and stimulate interest and discussion.

You don't encourage discussion, gentlemen and ladies, you're trying to hamper it. This far-reaching type of concept should have been full blown in public hearing. It should have been discussed in detail on how it's going to affect the child or how the teacher may participate in the evaluation and accountability.

This entire budget, Mr. President, is no more than a continuation of the type of budgets we've passed here for the last four or five years.

Nowhere in this budget does it take to the question of the \$28 or \$30 million that collective bargaining is going to cost us this year. Nowhere do we think about or hold ourselves accountable to the tremendous deficit that is facing us. We've got programs in here that are pet projects to every legislator in this hall, including myself--not based on need or merit but because you were able to get the majority of the Ways and Means Committee.

By passing this budget, Mr. President, we will again give to the Governor a carte blanche as we've appropriated and authorized more money than we have and the only place the Governor will find \$25 or \$28 million for collective bargaining is by coming back into the budget and cutting your pet programs. Then during the year, you're all going to yell and scream because the Governor didn't implement, begin to initiate and foster your pet

program.

The time has come where you cut a budget realistically; you hold departments accountable, and you fund only enough dollars based on what you've got coming in. The day is coming where you will be accountable for your actions--be it the West Oahu Campus, a new Maui four-year campus, more collective bargaining, \$90,000 for language programs, \$100,000 for seed corn, or the Malaekahana Bay for myself.

We all better realize that this State and its limited base, with its high unemployment, is in trouble and we better start passing budgets that are more meaningful and stop talking in the back halls and private offices of how we should have done this or should have done that.

I'm sorry to see the majority party not consider amendments to this bill today. I think amendments pertaining to various sections were in order. I think amendments to this bill in many other areas are in order. I think full blown discussion of this budget is long, long overdue. I think some serious interim work by the various sub-committees is long overdue.

I hope most of you are around someday when we've got to really evaluate this budget and report it out seriously. I hope the press, the media and the people of this State are aware of your actions today in tabling motions for amendments, thus stifling dialogue and conversation.

I request my colleagues to vote 'no'. I think this bill ought to go back to committee and be looked at more seriously."

Senator R. Wong then rose to speak in favor of the measure as follows:

"Mr. President, I am almost overwhelmed by the rhetoric expressed by the Honorable Minority Leader.

Mr. President, it has been a long road that we have travelled and many of us have been criticized publically for taking postures here at the Legislature to insure that we have a balanced budget. I challenge any Republican; I challenge the Minority Floor Leader and Minority Leader to go through this budget and to tell me with the amount of monies that are available, based on a projected revenue estimate, that we cannot fund the programs as proposed in the Senate version of the budget.

Mr. President, it's been a long time since I've heard rhetoric of this nature about fiscal responsibility and I think contrary to common belief, last year we made the first attempt to control our general obligation bond debt service and we tried in conference to keep it to \$150 million. I think we accomplished that purpose.

This year, Mr. President, I know that the Governor came in for an over-fiscal policy involving general obligation bonds on CIP, that the measures combined together approximated \$160 million over the next biennium. Our debt service in 1972, which goes to the payment of interest and principal, was \$42.5 million. By the end of the next fiscal year, we will be up to \$108 million in debt service alone, and this, Mr. President, must come off the top.

I think we discussed this last year, and this year, for the first time in our discussions in Ways and Means, I was most satisfied to find out that we have adopted what is considered to be a reasonable economic projection for the next biennium and that we have followed almost to the letter, the projections made by the revenue estimating committee, which is made up of various experts throughout this State.

Now in relation to the budget, Mr. President, the Committee on Ways and Means discussed the policy of West Oahu, the Medical School and the Law School. I think there is no one in this Body who feels more strongly than I that we should not have gotten into the Medical School, and my record in the House proves it when I voted against it. Then when it came to the Senate in 1975, I tried to delete it out of the budget and the same people who are today pronouncing an elimination of the Medical School were totally opposed in 1975. I think, personally, many of the motions made was to pacify the University.

I think it takes 'guts', Mr. President, to say 'no', because we have other needs in this State, outside of education.

Getting back to West Oahu and the Medical School and the Law School, we had a four-hour meeting which covered a period of two days, here with the University of Hawaii. At that time, the President of the University in dialogue with the committee members of Ways and Means, sat together, not to talk about \$10, \$25, \$50, but to talk about an idea. That idea was that the University would have to take a very serious look at selective

excellence.

At that meeting where we spent about two hours in discussion, we told the President in no uncertain terms that we were unhappy with what was happening at the University. We were unhappy because the students had indicated to us that the University Campus, instead of being an open, green-faced campus, was turning into nothing but a concrete jungle. We also told him that we must look at the University and that the University cannot be all things to all people.

Mr. President, in his arriving at some kind of selective excellence, we told him why not the University be known as the best tropical agricultural college in the world? Or the best aquaculture college in the world? Or the best Asian studies college in the whole world? Or the oceanographic capital of the whole Pacific?

Mr. President, as I look at the budget and the things that were brought up today, I cannot help but feel that the Minority Leader, in his sincerity to maintain some kind of fiscal controls over the State, might be overlooking one factor, that the programs contained in the budget can fit and will fit in the fiscal plan as discussed with the minority members in attendance.

The figures were flashed on the board. It was not just something picked out of the air. Everyone had input and everyone was asked to contribute their share towards the building of a Senate program so that we could move that program into the House.

Mr. President, I can go on with other programs here but I think the members of this Honorable Body have to know that your Committee on Ways and Means has tried to take up the challenge of keeping expenses here in the State at a minimum, and, it is possible to 'cut government'.

Mr. President, fiscal responsibility means that when you have a certain amount of money and you can fit your program, people programs, in this allotment, then you have a balanced budget. This is what we are sending to the House of Representatives.

I am sure, Mr. President, that by the time the conference is over, and I know the Senate position as mandated by the members of Ways and Means, that we will go into that conference with a top and a bottom, with fiscal responsibility as the major

concern in our discussions with the House. If the indication of support was true on Wednesday as it was on Sunday evening, I can assure you when we come out of the conference committee, we will have a balanced budget.

Therefore, Mr. President, I urge the members of this Honorable Body to vote in favor of this measure."

Senator Soares, in opposition to the measure, stated as follows:

"Mr. President, I rise to speak against this bill and in so doing would like to comment on a few statements made by the Ways and Means Committee Chairman, whom I know and have worked very closely with.

My stand on the Medical School, the Law School and the West Oahu Campus, Mr. President, was mailed to him by way of a letter about a month ago. I have discussed this problem of the budget in committee and I have faced the members in dialogue throughout the night, on the need to continue to fund the program that we cannot afford, the need to stay with something we cannot stay with no matter how we try to juggle the figures. All along I have made my statements and my stand as clear as crystal.

I might at this time indicate that unfortunately the great blue carpet of these halls did not have me here in 1975 to add a little color to this place.

Mr. President, I am very dismayed at the fact that when we try to make an amendment on the floor of the Senate dealing with a known subject, we cannot enlist one another and play the ball game like it is. I know how to lose, Mr. President, I've done it for years, but I don't like the idea of not even calling the play before this Body gets it shot down. If we cannot allow each member of this Body to speak his piece, to call it like it is, for or against the budget, or for or against the bill, is pretty bad when we cannot stand it..."

The President then requested that Senator Soares confine his remarks for or against the bill and not at what transpired earlier.

Senator Soares continued, "I'm speaking against the bill because it seems to me that when you make your feelings known and you decide to express your concern in committee against the bill, then you let the majority know that you plan to offer an amendment

or two against the bill on the floor, that the amendment cannot even be heard or discussed on the floor where it is supposed to be discussed and voted on. The least we can do is to vote them down with a little glory. Thank you, Mr. President."

Senator Saiki then spoke against the measure, as follows:

"Mr. President, in speaking against House Bill No. 892, H.D. 1, S.D. 1, I am not going to necessarily address myself to balancing the budget or unbalancing the budget, whatever you're trying to do with it, but I know what you are trying to do with it. You are changing the concept of school budgeting through this document that we have before us.

As a member of your Education Committee, Mr. President, I feel very resentful that this matter was never even discussed in committee. This concept truly will cripple our school system. It is not agreed to by the Superintendent of Schools, nor by the Board of Education, and I don't think that the general public has had an opportunity to really have input to this concept.

What we are doing is politicizing our schools and subjecting their funding to legislative whims and on a biennial basis at that. This certainly doesn't provide the stability that is so needed in our school system.

As you my colleagues know, I have been a long-time critic of the unclear lines of authority and fragmented responsibilities concerned with the DOE. I have on many occasions urged the Board of Education and the Department of Education to decentralize the administrative controls to allow greater flexibility and innovation and control at the grass roots level, but, my fellow Senators, what I read in this bill is not the way to do this.

I believe that if you don't like the system then, for heaven's sake, change it, but don't circumvent it by piecemeal, irresponsible legislation which subjects our children to the times and tides of politics.

Other states are now grappling with the problem of equal funding to ensure equal educational opportunities. We already have a state-wide funding approach. What this concept will do is to set us back.

We have all been together for many years, my colleagues, and you remember those days when

we had line item budgeting for the schools, then we went to lump sum budgeting, then we went to program budgeting. We are now back to looking at line items again in individual schools.

We are creating 225 political entities, each to compete for its own appropriation. Does this mean then that the larger schools or the schools where the parents have more political clout will get a larger share of the funding? Does this mean that the smaller schools or the schools that are politically unpopular will be discriminated against?

Every school will be vulnerable to the political whims and the political times and tides and I truly believe, Mr. President, that this is not the way to budget for our school system.

I am sorry that my amendment could not even be considered. I am forced to vote against this bill and I ask you all to join me."

Senator O'Connor, in speaking for the bill, commented as follows:

"Mr. President, the reason I rise to speak for this bill is that the previous speaker, my distinguished colleague from the Seventh District, and the House Minority Leader, are evidently reading from the section of the bill on the school budgeting differently than I am reading it.

As I understand our present budgeting system for EDN 105, which is the regular education section of the school budget, today we lump sum budget this amount to the Department of Education and it is allocated by the Department of Education to the various schools in specific amounts with the Superintendent of Education retaining the ability to shift funds and positions between the various schools, to equalize educational abilities and educational requirements as he sees fit in our system.

If my distinguished minority colleagues would have read all the way through Section 29, which deals with this approach, they would have found that the first sentence in Section 29 mandates the allocation of certain amounts of monies and positions to various schools. But then on page 23, language is contained in that very section which simply continues the present practice of lump sum budget. It states very specifically that 'the Superintendent is authorized to transfer funds and personnel positions within the school-by-school allocations listed above; '.

Therefore, I believe that the committee report as drafted, which outlines this approach, simply is an illustration and the bill as drafted, which appropriates an EDN 105, one lump sum of money and which states specifically that the Superintendent has the ability to transfer funds and personnel at his desire, simply continues the system of appropriation which we are today using in this area.

The allocations contained in this provision, Section 29, are simply there for illustration purposes and the Chairman of the Education Committee has made this very plain, and has outlined this position in this plain, simple language to the Ways and Means. Therefore, I would suggest that if anyone would vote against this bill because it contains anything similar to that in the House Bill on school-by-school budgeting, simply hasn't read Section 29 throughout as they should have.

In very brief comment on an earlier statement by the Minority Floor Leader concerning collective bargaining, I would find it reprehensible, Mr. President, to put in this bill any amount of money which would go to collective bargaining in this year when we do not have before us a negotiated contract nor is there the likelihood that we will have a negotiated contract from any unit before this body before the end of the session.

If we put an amount of money in this budget for collective bargaining at this time, all that would represent would be a target for one side or the other to shoot at in their collective bargaining, thereby completely impairing the system of collective bargaining which we have established for our public employees in the State.

Mr. President, I would urge all to vote for this measure."

Senator Anderson then inquired if the Chairman of the Committee on Ways and Means would yield to a question, to which Senator R. Wong replied in the affirmative.

Senator Anderson then asked if the budget is school-by-school or is it a lump sum appropriation.

Senator Hara then asked if he could respond and Senator Anderson agreed.

Senator Hara then responded as follows:

"Mr. President, EDN 105 is total lump sum but the proviso is added

here on the school-by-school basis, so that the department can understand the basis in which these lump sums of money for the regular education in terms of its allocation schedule, and so it is displayed for that purpose.

Mr. President, from the tone of discussion that has been going on, I believe that you are reading into this discussion, the display and the budget that was sent over from the House.

I'd like to have you really look at the Senate display as presented here and you will find that the central salary account is well preserved and all of the manpower reflected in the 'A' account are all preserved again in the central salary account. What we have done in the Senate is to ask the Auditor's Office and their staff to assist us with working with the Department to get the displays school-by-school, so we know the amounts of money that are going into the 'B' and 'C' accounts as the Executive Budget presented it to us.

We have nothing here, nothing, in terms of dollars and cents reflected in what they call 'Special Need Category'. We don't have a red penny allotted and much of the references and inferences that has been placed in our discussion this afternoon apparently expresses this concern.

Our Ways and Means accountant, after careful scrutiny, came about with a final budget for our Department of Education that did not allow us this luxury, and therefore we took EDN 105 and re-allotted into slots by schools so we can better understand how much money in 'A', 'B' and 'C' accounts are being spent in the schools.

We also said that the Superintendent is to cast a plan, a guideline, policy of expenditures, to the respective principals. The principals in turn, in consultation with the teachers, parents and students, formulate a spending program to be submitted back to the District Superintendent and the Superintendent of the State for their approval before one cent is to be spent.

There is no political influence in here. There is none of that sort simply because the lump sum integrity in terms of the total EDN 105 is kept intact and that is the Senate position, Mr. President. I can say that it is a combination of both school-by-school and lump sum in terms of our efforts."

Senator Anderson then queried if

the Superintendent of Education would have the authority to transfer amounts of money, to which Senator Hara replied that he would have this authority.

Senator Anderson then asked if the Superintendent would have the authority to transfer under the proviso to transfer funds from the schools.

Senator Hara answered, "Yes, whenever there is a movement of students and there is a decline in enrollment, the Superintendent does have the authority to move positions and the dollars that go with the students to the new school. He has that flexibility."

Senator Anderson questioned as to when the determination for these dollars would be made.

Senator Hara replied, "This is quarterly type. We are not disturbing any fiscal arrangements. The budget is to be cast, the spending plan, by the various schools. We are asking that they be submitted by May 12th or 15th to the Department to formulate a biennium budget of their annual spending program."

Senator Anderson then asked, "Is this not somewhat out of order to move into such a basically potentially new way to funding without full dialogue and discussion by the people that are going to be affected?"

Senator Hara answered, "Mr. President, your Committee on Education did have prior discussions with the Superintendent's office in the formative stage when the matter was being discussed in the House as to the possible effect the school-by-school budget may have on the Department.

I'd like to state at this time, Mr. President, that after discussions and having dialogue with the Superintendent, he did discuss some of his areas of concern that are expressed in the House budget. We in the Senate corrected that.

We didn't have a meeting throughout the session because of the pressure of time. Prior to meeting the deadline of the Ways and Means Committee, I circulated to every member of my Committee a memo asking them to submit any requests or points of concern to the Committee on Education so if there was a desire or indication on a point which we would receive from the committee members...if it was that important to hold any hearings

on any given subject matter, then we would consider it.

I believe that I sent a copy of the school-by-school budget display to the members and I did not, Mr. President, receive any comments back. As a matter of fact, Mr. President, at one meeting when I submitted this display to the committee members, there was a request from one of the minority members that they be given a few extra days to take a look at the display and possibly come back to the committee with their comments. I obliged. I granted all this opportunity. So if there is any cutting off of any input from my members, there was no such intent on the Chair's part or on the part of my staff.

We sent written memos out and I, orally, personally, asked each of them to please submit their area of concern to be forwarded to the Committee on Ways and Means.

As far as having a full-fledged public hearing, I believe the House did have a public hearing on this matter. We did have a loose discussion, loose simply because it was an informal discussion with the Department, at one of our regular meetings. It was decided at that time that we would postpone further discussion. But, there was no intent on the part of your committee to cut anything off."

Senator Anderson responded, "Mr. President, I didn't mean to imply that input wasn't asked for. For such a major area to appear in a monetary or financial budget is really questionable as far as procedure is concerned. I'm sure that there is going to be enough discussion now on the subject that a compromise of some sort will be worked out in conference. I would only hope that everytime somebody, whether they be in the Superintendent's Office or here, turns a page, we don't end up with a different position to add further chaos and confusion in the Department of Education.

On another point, I would like to very quickly say that it was never my intention to say that 'x' number of dollars, be it \$25 or \$28 million, for collective bargaining be laid and singled out. I'm sure my learned colleague knows me and my experience in Ways and Means that I am not that amateurish.

Earlier, the Chairman of the Committee on Ways and Means spoke on behalf of the balanced budget and revenue

projections and I will say that next year I think the revenue projections by people like Mr. Hillendahl, Mr. Bennion, the Governor's Tax Advisory Committee and a few others, are recommending a 10.1 and 10.3 thereafter. I think the Ways and Means staff on the current figures, as of today, were at 6.8 and things don't look as good today as they did last month or the month before.

Unemployment in construction is still there; sugar is still in trouble; our whole economy is still in question. Asking our economy to jump from a 6.8 or 7% where we are now to 10.1, and with approximately \$28 million for collective bargaining, this brings the figure to about \$35 to \$40 million that will be needed very shortly and this is not in the budget."

Senator R. Wong then commented, "Mr. President, just a point of clarification to the Minority Leader. The amount of \$34 million that is provided for in the budget is there because it's a matter of law. If there is no approved contracts here at the Legislature, the Legislature must provide increments."

The motion was put by the Chair and carried, and Stand. Com. Rep. No. 780 was adopted and, Roll Call

having been requested, H.B. No. 892, H.D. 1, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE BUDGET", passed Second Reading and was placed on the calendar for Third Reading on Tuesday, March 29, 1977, on the following showing of Ayes and Noes:

At this time, Senator Kawasaki rose to speak against the measure as follows:

"Mr. President, I understand that the reason the Lieutenant Governor's office requested that four people in Elections be put on civil service is because they have been working there for many years and are proven employees of competent abilities. The House version added another four, making a total of eight positions under civil service.

As Chairman of the Government Operations and Efficiency Committee, I find that one of the problems we have in trying to make State government operations more efficient, is that many times agencies and departments are locked in with people of average abilities or dubious attitudes regarding their work...we lock them in by tenuring these people.

I think we do the same here, when we tenure eight people in the Lieutenant Governor's office under civil service.

I would like to adhere to the original request to put four people on civil service, giving the agency flexibility to remove four positions or find new people, if they see fit to do so in the future.

For this reason, I have to vote No on this bill."

Senator R. Wong then rose to speak in favor of the measure:

"Mr. President, in answer to my distinguished colleague from the Fifth Senatorial District, we have been in contact with the Lieutenant Governor relative to the concerns raised by the members of this Honorable Body.

I spoke with him two nights ago, and he indicated to me that his feelings weren't that strong. However, he did feel that his present personnel is a very competent team...some of them have been in Elections about eight years and some three or four

years.

It was his feeling that he could buy the justification of making these people permanent employees...and, possibly, take this out of the realm of politics.

Therefore, I urge the members of this Body to vote in favor of the measure."

The motion was put by the Chair and carried, and Stand. Com. Rep. No. 740 was adopted and H.B. No. 512, H.D. 1, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO ELECTION EMPLOYEES", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

At 5:55 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 5:57 o'clock p.m.

Senator Soares moved that the amendment be adopted, seconded by Senator Anderson.

At this time, Senator Soares rose to speak as follows:

"Mr. President, this amendment amends all prior appropriations affecting the West Oahu College. I illustrated in my speech last night about the unnecessary program. I hereby ask all members to vote for the amendment."

The motion to adopt the amendment was put by the Chair and, Roll Call having been requested, failed to carry on the following showing of Ayes and Noes:

At this time, Senator Kawasaki rose to speak on the measure as follows:

"Mr. President, while I am voting Aye on House Bill No. 12, H.D. 2, S.D. 1, I think the fact that we have such a large list of lapsed funds and programs, indicates that perhaps we, in the Legislature, are a little too cavalier about our responsibility of examining budget and program implementation requests.

The fact that these many programs, with these huge amounts of monies, have lapsed, simply indicates to me that the State government was well able to get by without these expenditures and without these programs being implemented."

Senator Chong then rose to speak as follows:

"Mr. President, I would like to

support the former speaker's statements and, also, to commend the Senate Ways and Means Committee for cleaning up potential wastage of tax money.

I voted No on the amendment, even though I was in favor of some of the things in it...because to pass the amendment would have effectively killed this very important bill which, in the long run, will save the taxpayers of the State a lot of money."

Senator Anderson then rose on a point of clarification:

"Mr. President, supporting the amendment would in no way have killed the bill. Supporting the amendment would have included into the bill various programs, totalling some \$8 or \$9 million, previously appropriated for only seventy-six students."

Senator R. Wong moved that H.B. No. 28, H.D. 2, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Yamasaki.

At this time, Senator Leopold rose to speak as follows:

"Mr. President, I had hoped that the election of delegates to this Convention would take place in 1977, not 1978.

I am also concerned about Section 6 of the bill, which states that the amendments proposed by the Convention shall be submitted to the electorate at the General Election in 1978, unless the Convention determines otherwise. It is my hope that the Convention will determine otherwise, so that amendments can be ratified in a special election and reforms, that many of us have been seeking, will take effect at the time of the election.

I would like the Clerk to register my vote as No."

Senator Kawasaki then rose to speak as follows:

"Mr. President, I would like to enter into the record some comments I hope will be taken very seriously by the House and Senate conferees for this Con-Con bill.

I would like very much for the conferees to consider the bill as it emerged from the Committee on Judiciary--specifically, that the number of delegates be limited to fifty-three.

I had the privilege of serving in the 1968 Constitutional Convention. It was my observation that the number of delegates was a little too large and unwieldy. I found, many times, that delegates did not attend sessions and

that, literally, only three dozen or so people, out of eighty-six, worked hard in committees to propose amendments to the Constitution.

I would like to remind the conferees, whoever they are going to be...and I assume the Chairman of Ways and Means will be the Chairman of the conferees from the Senate...that the constitutional convention that considered the document which is an insurance to all freedom loving peoples of this world, had only sixty-five delegates, representing thirteen states. They did their work expeditiously. As a matter of fact, when the Constitution of the United States of America was adopted in September 1798, only forty of the delegates were present to sign it. The document has withstood the test of time for almost two centuries...one hundred and ninety years to be exact...with only twenty-six amendments as of this year.

I don't think we can justify one hundred and two delegates to amend a few sections of our State Constitution.

The difference in cost to the taxpayers, between the fifty-three recommended by the Judiciary Committee and the one hundred and two now recommended, would be over a quarter of a million dollars in salaries alone.

In this day and age, when we are talking about saving money to provide human services, I think it behooves the members of the Senate to go into conference with a position of advocating fifty-three delegates who should do their work expeditiously--thereby, saving the taxpayers a quarter of a million dollars.

I am voting Aye, with an admonition to the conferees."

The motion was put by the Chair and carried, and H.B. No. 28, H.D. 2, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO A CONSTITUTIONAL CONVENTION", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Nishimura moved that Stand. Com. Rep. No. 765 be adopted and H.B. No. 168, H.D. 1, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator O'Connor.

At this time, Senator O'Connor rose to speak as follows:

"Mr. President, the Intake Service Center is still a creature floating in the air, and where it should land still needs to be resolved.

This bill does not place the Intake Service Center, an integral part of our corrections system, into any part of the corrections system, but retains it in the Governor's Office.

Essentially, the Intake Service Center Advisory Board is being isolated to a board which will do basically nothing in the future. The Board originally was established to nominate to the Governor, the Director of the Intake Service Center. Today, under the amendments in this bill, the Governor will appoint the Director without the advice of the Intake Service Center Advisory Board, and that Director will then operate the overall system.

I am going to vote for this bill, because I believe the placement of the Intake Service Center people is properly under civil service.

However, I would urge all in the future to remember that the Intake Service Center still needs to be placed somewhere within our correctional system. This is something which is still left dangling."

The motion was put by the Chair and carried, and Stand. Com. Rep. No. 765 was adopted and H.B. No. 168, H.D. 1, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO INTAKE SERVICE CENTERS", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

House Bill No. 1284, H.D. 1, S.D. 1:

On motion by Senator Nishimura,

seconded by Senator O'Connor and carried, H.B. No. 1284, H.D. 1, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO HORIZONTAL PROPERTY REGIMES", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

House Bill No. 122, H.D. 1, S.D. 2:

On motion by Senator F. Wong, seconded by Senator Hara and carried, H.B. No. 122, H.D. 1, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO COASTAL ZONE MANAGEMENT", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

House Bill No. 892, H.D. 1, S.D. 1:

Senator R. Wong moved that H.B. No. 892, H.D. 1, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Yamasaki.

The motion was put by the Chair and carried, and before the vote was announced, Senator O'Connor rose on a point of clarification:

"Mr. President, I understand that anyone who votes No on a bill--and that bill later goes to conference--may not be a member of the Conference Committee. Is that correct?"

The President answered, "That has been the rule".

Senator Anderson rose to state:

"Mr. President, that has not been the rule. The record will reflect that members have been conferees whether they voted Aye or No. They have never been denied that privilege."

Senator O'Connor then requested a ruling of the Chair:

"Mr. President, that has been the rule of this Body ever since I became a member, and we have always abided by it. People who vote No on bills have not been members of the Conference Committee, as they cannot sustain the Senate position.

Since this is the budget, I would like to request a ruling of the Chair before the vote is announced."

The President then stated, "The Chair is not prepared to make a ruling at this time. Research will be made as to what has been done in the past".

Senator Soares then rose to state, "I would like to respond to my colleague from the Third Senatorial District".

Senator Ching then rose on a point of order to state:

"Mr. President, I think all of this is not according to the rules. The vote has been taken and it has not been announced.

May we have the vote announced, please, so that other matters can be taken up."

The President then directed the Clerk to announce the vote.

The Clerk announced that H.B. No. 892, H.D. 1, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE BUDGET", having been read throughout, passed Third Reading by not less than two-thirds vote of all the members to which the Senate is entitled, on the following showing of Ayes and Noes:

Ayes, 18. Noes, 7 (Anderson, George, Henderson, Leopold, Saiki, Soares and Yee).

House Bill No. 817, H.D. 1, S.D. 1:

Senator Toyofuku moved that H.B. No. 817, H.D. 1, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Young.

At this time, Senator King rose on a point of information to inquire if the Chairman of the Committee on Human Resources would yield to a question, to which Senator Toyofuku answered in the affirmative.

Senator King then stated, "The language on Page 4 of the bill is a little confusing to me. It says: 'Election by the employees in the unit involved, and certification by the board of such resulting employee organization shall not be required.' Will the employees be permitted to vote on the merger itself?"

Senator Toyofuku replied, "It is my understanding that the by-laws of each unit of union organizations provide that the membership shall vote on the measure".

The motion was put by the Chair and carried, and H.B. No. 817, H.D. 1, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO COLLECTIVE BARGAINING IN THE PUBLIC SECTOR AND AMENDING CHAPTER 89, HAWAII REVISED STATUTES", having been read throughout, passed Third Reading on the following showing

of Ayes and Noes:

Ayes, 25. Noes, none.

At this time, Senator Anderson rose on a point of personal privilege to speak as follows:

"Mr. President,

I've been in discussions all day long with both Minority and Majority members, concerning the self-imposed deadline that the House and Senate leaderships have agreed to.

It's evidently caused all kinds of problems in moving legislation in a timely manner between the two bodies because of, one, the workload... I understand the House has been in session right around the clock since 10:00 o'clock this morning... understand-ably they are tired... and I understand the debate has been lengthy.

The number of bills that we have before us today are certainly complex--in number, in topic, in substance. But, I find it very discouraging when one house works to introduce extremely important legislation, and the other house, somewhat arbitrarily, bottles it up and doesn't keep it in position for conference and further discussion.

For instance, we went through pains to move the capital punishment bill out of this Body... it strained relationships between many of us. There was a full blown public hearing, which I was very proud to participate in-- I thought this was democracy really in action. Then the bill goes over to the House and gets bottled up because of the feelings of one committee chairman. This is highly unfair to the bill and to the public--the proponents and the opponents, really.

I notice that the renter's tax credit, an \$8 million package that would benefit people who are paying rent in this State, got bottled up in the House committee, arbitrarily, without any further hearings.

The child care services tax deduction bill got bottled up.

Probably one of the most important bills in this day of unemployment-- the economic package that came out of our Economic Development Committee-- has not even moved into position to be discussed further in conference. We are in a position now to ask them to move it out as it is written--Senate version or nothing.

Now, I've heard terms all day long... the

bill is tied to personalities... the bill is tied to one industry... the bill is too heavy.

It's really unfortunate that when unemployment is running rampant in our town, the badly needed stimulus is denied even a conference committee... and the Senate sits in disgust.

I'm not saying it should be passed. I'm not saying it should be forced out of the House. But, the bill should be kept in position to be discussed in length and depth with the budget and other bills related to our economy.

We were elected to solve people problems. We were elected to pass legislation that will keep our economy strong and healthy. And to have personalities, committees, pettiness, politics, or partisanship bottle up bills arbitrarily is really, really unfair.

It will be awfully hard to convince the thousands of people who are unemployed-- who might go to work if an economic package were passed-- that we are not going to put them to work this year because we have a self-imposed deadline between the House and Senate that says we can't consider legislation amended after today. The public pays us for sixty days of work. They could care less about our self-imposed deadlines!

If these measures mean solving problems for the community, if they mean people going to work, if they mean new innovative ideas, then it is incumbent on us to pass them, to experiment... and hope to heaven that people will be put back to work.

How am I going to tell some guy who is unemployed, and trying to pay a mortgage on his house and keep his kids in school, that an economic package, that might have put him back to work in the construction industry, died because we have a self-imposed deadline, or because some committee chairman, or policy committee, decided to kill it this Session because it's too heavy. I personally find that very hard to defend as a politician, as a Senator from my district. I don't think any of you could defend it either.

I've heard some say that because the Chairman of the Economic Development Committee is too close to that particular industry, they are suspicious. Well, if we can't come before this Body, Mr. President, and introduce legislation in our field, in our strength, what do we come for? I wouldn't be much good to this Body if I were to try and initiate legislation in a field where

I have no expertise. I come to participate in the areas where I have strengths, as you all have strengths.

You are supposed to help, to participate, to initiate legislation in your particular field. That's a representative form of government. You are supposed to be the specialist, because you are knowledgeable in your field.

We are supposed to keep you honest... there's a check and balance... we are supposed to make sure that one of our group doesn't run away, legislating and introducing legislation for his own special interest group. That's our responsibility.

But to deny legislation because it comes from someone who is in a particular field, is extremely unfair.

This Session, the House of Representatives--because of their factions, fighting and feuding, and new members, or wherever you want to put the blame--has been very, very unfair to this community. I've heard that it's because there are so many new members in the House, and they can't comprehend these heavy bills. Well, that's understandable, but next year will be election year--and that means they won't want to confront these major bills because they are too controversial. The following year there will be a new group of green legislators in the House and in the Senate. The only people getting shortchanged is the public.

I would ask that the Senate leadership continue tonight and tomorrow morning, if necessary, to try and get some of the major legislation in position. It's not our desire to ram legislation down anyone's throat. All we're asking for is a day in court. We're asking for the opportunity to convince our counterparts across the hall that some of these bills have merit, that they are an opportunity to put people back to work.

I'm sure I speak for the Minority when I say that we are willing to go along with extending the deadline if important legislation, for the sake of the public, will emerge from this legislative Body.

Thank you, Mr. President."

Senator Ching then rose to speak as follows:

"Mr. President, I would like to respond to the eloquent Minority Floor Leader. Efforts have been made, starting yesterday, along the lines he has suggested.

I think the key to this whole problem is that the deadlines are self-imposed--and whatever is self-imposed can be self-changed.

The offer has already been made that, with the agreement of the two parties to the contract, any deadline we have made can be extended. This message has been passed over to the other body."

Senator R. Wong then rose to speak as follows:

"Mr. President,

I was going to sit here very quietly, but may I respond to the oratory of the Minority Floor Leader.

I find it difficult, Mr. President, to understand the rationale that's been developed on this economic package. I've heard throughout the course of the day a kind of personal link-up between the Chairman of the Economic Development Committee and some members of the Senate in terms of hotel development. Mr. President, I want this Honorable Body to know that in our deliberations in Ways and Means, we did not consider who or what was involved in the industry. Our primary concern was how can we, by some innovative means, put people back to work.

On that basis, Mr. President, I own no hotels, I'm not in the process of planning a hotel, I have not discussed resort development with any developer, and I have not even taken a look at some of the places being suggested for possible hotel development.

My involvement, Mr. President, was a very simple one. I felt that the SCETA program, in terms of a cost benefit factor, was not getting the kind of results expected for an expenditure of \$12 million.

In addition to that, Mr. President, I met with all of the construction unions throughout the State. Most of you know that I've spent a good part of my life with the labor movement, and it concerns me, when I go down to the carpenter's union, the laborer's union, the electrical worker's union, the roofer's union, to find that approximately thirty-five to forty percent of the people who have been employed in the construction industry for the past fifteen to twenty years, are sitting on the bench, trying their best to meet payments and the cost of everyday living.

Mr. President, you know and I know that one of the greatest problems

facing this State is unemployment, pressured by other economic conditions... for example, the fate of sugar, the fate of pineapple, and the fate of military spending, our three out of four basic economic profits in the State.

I want it to be known here and now, Mr. President, that the support of this measure is not based on any personal benefit to me, or the Majority, or even the great number of Senators seated in this Honorable Body.

I hope, Mr. President, that the House will consider our offer, and in their wisdom grant us the opportunity to take this measure to a Conference

Committee to have it resolved one way or another.

Mr. President, in all honesty, I want to again commend the Minority Floor Leader for speaking out on the issue...that our approach to solving our great problem of unemployment in the State should be totally non-partisan."

House Bill No. 1247:

Senator Yee, on behalf of Senator Leopold who was absent, requested that action on H.B. No. 1247 be deferred until Monday, April 4, 1977. The President noted that this measure has been on the agenda for a few days and that it was necessary that this bill pass Third Reading at this time. Therefore, he denied the request for a one-day deferral.

Senator F. Wong moved that H.B. No. 1247, having been read throughout, pass Third Reading, seconded by Senator Hara.

Senator King then rose to speak against the measure as follows:

"Mr. President, usually when

a matter is before the courts, we defer action. We say it is before the courts and therefore we shouldn't be taking action.

The intent of this bill is actually to nullify a court decision that was entered by Judge Norito Kawakami in December of last year. At that time, it was a summary judgment for injunctive relief. The court stated very specifically in that judgment that milk prices under the Milk Control Act, Hawaii Revised Statutes, Chapter 157, must be established pursuant to orders rendered only after contested case proceedings and not pursuant to rule-making proceedings.

The language of the court is very clear. When we adjust milk prices, something of vital interest to all consumers of the State, we should do it pursuant to orders rendered only after contested case proceedings and not pursuant to rule-making proceedings. The specific intent of this bill is to say that they shall be done according to rule-making proceedings.

Mr. President, this means that the witnesses then cannot be cross-examined as to their evidences and it seems to me that in something as vital as the price of milk that affects all the consumers of this State, we should certainly protect them to this extent.

I therefore urge members of this Body to vote against this bill which will nullify the excellent judgment entered by the courts."

The motion was put by the Chair and carried and H.B. No. 1247, entitled: "A BILL FOR AN ACT RELATING TO MILK CONTROL", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

ADJOURNMENT

FIFTY-FOURTH DAY

Wednesday, April 6, 1977

The Senate of the Ninth Legislature of the State of Hawaii, Regular Session of 1977, convened at 11:30 o'clock a.m., with the President in the Chair.

The Divine Blessing was invoked by Reverend Kenneth Ashitomi of the Honolulu Holiness Church, after which the Roll was called showing all Senators present.

The President announced that he had read and approved the Journal of the Fifty-Third Day.

At this time, the following introductions were made to the members of the Senate:

Senator Anderson introduced 35 senior citizens from Hui O'Kahala, together with Mr. Dave Hashimoto, Coordinator.

Senator Ching introduced students representing the YMCA Youth Legislature as follows: Mr. Edward A. Taketa, Youth Governor, Waiakea; Mr. Colin K. Watanabe, House Speaker, Waiakea; Miss Amy S. Reheard, House Clerk, West Oahu; Mr. Karl T. Tao, House Sergeant-at-Arms, Waiakea; Mr. Randy K. Yamashita, House Attorney, Waiakea; Mr. Peter Kubota, Waiakea; and Mr. Phillip Hidalgo, Central.

Senator Kawasaki introduced Mr. Warren Toyama, President, Hawaii Federation of the Blind, and Mrs. James Omvig.

Senator Kawasaki then introduced Mr. James Omvig, stating as follows:

"Mr. President, Mr. James Omvig is Assistant to the Director, National Federation of the Blind. He is from Des Moines, Iowa.

Although Mr. Omvig became blind as a teenager, he attended Drake University, acquired a law degree from Loyola, in Chicago, and worked with the National Labor Relations Board. Since September, 1976, he has been Assistant Director of Training and Development, Iowa Commission for the Blind. He is also Assistant to the President, National Federation of the Blind, a position he holds without compensation.

This gentleman is an inspiration to the visually handicapped. He is like our own Terrance Tom who, as you know, was a blind youth who worked very diligently in the public schools, acquired his law degree

from the University of Hawaii, and then worked in the Public Prosecutor's office.

I was one of a group of legislators invited to the Tenth Annual Banquet of the Hawaii Federation of the Blind. I've had the privilege of listening to eloquent orators... Adlai Stevenson, John Kennedy, Hubert Humphrey... I was very impressed with the inspiring and timely message Mr. Omvig delivered to the visually handicapped of our State, many of whom feel that their handicap is beyond anything they can handle."

The President then directed Senator Kawasaki to escort Mr. James Omvig to the rostrum.

The President welcomed Mr. Omvig as follows:

"Mr. Omvig, being an old Iowa boy myself... having spent four years at Grinnell, which is only about sixty miles from Des Moines... it is my personal pleasure to welcome you to the Senate of the State of Hawaii.

I know you have a message to convey to the members of the Senate and the people of Hawaii."

Mr. James Omvig then addressed the members of the Senate as follows:

"Mr. President, Members of the Senate,

It certainly is a signal honor for me, an Iowan, to be welcomed to Hawaii and to speak before this Honorable Body.

Let me capsulize something of what I said the other night to the blind of Hawaii and the many legislators who were there.

I believe that an idea can be a powerful thing, and it can be a powerful thing whether for good or for bad. So far as those of us who are blind in America have been concerned, the powerful idea about blindness has been destructive, not constructive. We have been saddled with the concept that if we are blind, we are helpless.

The powerful new concept, which has been put forth by the National Federation of the Blind, and which is carried on here in Hawaii by Warren Toyama and others like him, is that we who are blind are ordinary people. We are capable human beings. If

we have the right kind of training and if we have real opportunity, then blindness literally can be reduced to the level of a physical nuisance. So far as I'm concerned, my blindness is no more than a nuisance, or inconvenience.

I see blindness, though, and the problems connected with blindness, in a different light. And here, again, is where an idea can be a powerful thing. So far as Mr. Toyama and I, and others like us, are concerned, those of us who are blind constitute a minority group. The problem which is connected with our blindness is not due to the physical facts of blindness, but rather it is due to what we have thought... what we as blind people have believed... what society has believed about us. We have thought that we could not achieve. Society has thought that we could not achieve. Therefore, we have not achieved.

The concepts now being put forward by the National Federation of the Blind are purely to the contrary. We now know that we are a minority group. We have a social problem which can be solved. We want to live in the world. We want to participate in the world. And, in fact, we will live in the world, we will participate in the world.

The National Federation of the Blind is not an organization or agency speaking for the blind. The National Federation of the Blind is the blind speaking for the blind, in our common voice.

Let me just end with these two things. I think, in the past, anyone who criticized someone serving blind people would be regarded as some kind of troublemaker, a radical, a rabblrouser, because it was almost sacrosanct to serve the blind. Everybody wants to serve the blind. But we are now at a point in the history of the United States where we who are blind recognize that sometimes the services provided to us have not been constructive-- rather, they have been of that destructive idea.

We now would put forward the constructive approach that we can and will speak for ourselves. That we can participate. That will necessarily mean that we, as blind people, will sometimes criticize the very agencies, which have been created by the government of the United States and the various state governments, that provide services to us. But I think we should not regard that as a bad thing. We should regard that as a good and constructive thing, since, as the consumers of services,

we should have the right to have some say as to what kind of services those services will be.

Let me simply close with this. Those of us of the National Federation of the Blind who recognize our new concepts, are willing to dream. We are willing to work hard toward first class citizenship and toward equality in our society. We are willing to put forward effort.

What it comes down to, I suppose, is simply this: Rather than be given a quarter, we would like the opportunity to earn a dollar.

Aloha."

"Mr. President, at the risk of being labeled a 'male chauvinist'... which I admit I am... I think this resolution will impose an undue hardship on the personnel of the public broadcasting station, Channel 11.

In effect, this resolution is asking them to censor their program material as to whether or not it is sex biased-- without any guidelines to follow.

There is more involved here than we realize... as Mr. Scrooge, of Dickens' Christmas Carol, would say, 'This is a humbug resolution'.

I would like to have this resolution, if possible, held in abeyance until next session. We can then clarify very clearly what we want to establish as a standard for the Channel 11 staff to follow.

For this reason, I would ask the members of this Senate to vote No."

Senator Chong then rose to speak in favor of the resolution:

"Mr. President, all this resolution does is establish a policy, so that the public broadcasting people can begin to look at their programming more thoughtfully.

It is a well known fact that certain

terms, which have been used unconsciously, tend to denigrate and make women, or men, subconsciously feel inferior. This does not make for a healthy population, especially when such terms affect the young people of our State.

I really don't think it would be too much of a bother for the people at KHET to look at this area and develop some policies for us."

MISCELLANEOUS COMMUNICATIONS

The following communications (Misc. Com. Nos. 18 and 19) were read by the Clerk and were disposed of as follows:

A communication from the Honorable Spark Matsunaga, United States Senator (Misc. Com. No. 18), acknowledging receipt of Senate Resolution No. 251 (1977), was placed on file.

A communication from the World Tae Kwon Do Federation, (Misc. Com. No. 19), acknowledging receipt of and expressing appreciation for Senate Resolution No. 226 (1977), was placed on file.

At this time, Senator R. Wong, rose on a point of personal privilege and stated as follows:

"Mr. President, it has been brought to my attention that there are some concerns here in the Legislature relative to when we will be going into conference and I'd like to clarify that point.

As you know, the conferees on the part of the Senate relative to the budget and the CIP were named this past Monday and, on Tuesday, I instructed my staff to meet with the House Finance staff to work out the details of the work sheets before we can really begin to work out in conference.

The budget that arrived here from the House was strictly the Governor's budget, and, as you know, through much furor and much painstaking work by your Committee on Ways and Means, we cut that budget by 3%. My understanding is that now the House is having some difficulty in reconciling those cuts and in view of the new revenue projections that were announced publicly today, they will take some time before their work sheets will be ready for the Conference Committee.

In addition to that, Mr. President, I'd like to allay some of the fears or rumors that have been passed through this Capitol with reference to the holding up of certain House Bills as hostages. From today's agenda, one will note that the Ways and Means Committee and other committees in the Senate have moved House Bills. As a matter of record, I believe the Senate Ways and Means Committee has moved twelve House Bills to the floor of the Senate for action probably on Monday or the following day.

Secondly, Mr. President, I would like to clarify the House's position relative to going into conference. I received a communication from the Honorable Jack Suwa, Chairman of the Committee on Finance on March 28th. In that memorandum, Mr. President, the Honorable Jack Suwa pointed out that when the conferees have been named twenty-four hours after the disagreeing vote of the amendments to the bill, it would be at least 96 hours before we could schedule any kind of conference. If this be true, and we met yesterday, we would not be meeting in conference until next week Monday.

I want to make that point very evident because, Mr. President, the media has decided to take an issue, which isn't an issue, and if they care to share with me the comments of this memorandum, I'd be most happy to meet with them

after the session.

Thank you very much."

Mr. President, I want to assure the members of this honorable body that we are not playing games. The committees have been told. At the present time, the committee chairmen are working on conference committees and, per your instructions, we will finish on the Sixtieth Day.

At 12:08 o'clock p.m., on motion by Senator Taira, seconded by Senator Anderson and carried, the Senate adjourned until 11:30 o'clock a.m., Monday, April 11, 1977.

At this time, Senator R. Wong rose on a point of personal privilege and stated as follows:

"Mr. President, this evening an article appeared in the Honolulu Star Bulletin which made reference to the Senate's position in the conference committee meeting held last evening.

Mr. President, I take exception to that article because I think it's

a very bias type of reporting. I was very much surprised at the kind of information that was conveyed to the general public by the media by Mr. Gregg Kakesako, who is the staff writer for the Star Bulletin here at the Capitol.

The gist of the article, Mr. President, pointed out to the fact that the Senate was favoring developers and hotel resort developers.

Mr. President, as you have known through the past session and through much agony in this honorable body, I have never been a real advocate of the hotel industry. Contrary to that, I have tried unsuccessfully to push a tourist tax through the legislature for the past ten years. My feeling in this matter is that the primary purpose of the 'push' in the conference committee deals with economic stimulation for this State and the providing of jobs as the number one priority of your Senate. If one were to read the article this evening, one would come away with the impression that the purpose of the Senate was to help hotel owners and developers and the contractors in general in this State.

To the first, I would say that I am not a developer and I am not pro-hotel development in the State.

Secondly, with reference to the construction, yes, I am a supporter of the construction industry because today at least 35% of our total construction laboring force is without work. I think the series of bills, Mr. President, as presented by our colleague, the Honorable Francis Wong, Chairman of the Committee on Economic Development represents an innovative idea for solving the number one problem for the State of Hawaii, which is unemployment.

Mr. President, I am very saddened that in our deliberations in the conference committee, the House did not even take the time to position these measures for a full and lengthy discussion which would result in the passage of these measures in the House.

I want to state for the record, Mr. President, that in its proposal to the House last evening, your Committee on Ways and Means did not intend that the primary purpose was to put money in the pockets of developers and to show that we were not interested at all in the matter of unemployment in the State.

Mr. President, the article does not mention that with the passage

of some of the measures contained in this economic package, that a single job would be created. I think this is a disservice to the citizens of the State and to the members of this honorable body.

Mr. President, I take serious objection to this article. Again I mention, that it is totally bias and totally unobjective, in terms of solving the problems of this State, and, pursuant to your message to this honorable

body on opening day, the major concern of the State today is unemployment.

Thank you very much, Mr. President."

It has really been my honor to have been able to serve the State and our country for these past thirty-five years. Believe me, it has been a labor of love.

Certainly, this service has been made more pleasant by the support of the National Body, our Legislature and State Administration have given us, and to the great people that have served with me through these many years in the National Guard.

This service that I have given certainly would not have been possible without the support and understanding of my family, and I acknowledge the presence of my wife here today,

who sat behind me all these years.

Thank you."

"Mr. President, I would like to clarify one aspect of the bill. In reading quickly through the bill, some of the members of this Body have not correctly 'grabbed' the tax amount which is levied as a weight tax in this matter.

The tax amount reads, '0.45 cents a pound'. That is 45 one-hundredth cent a pound and is not 45¢ a pound as some people might tend to misinterpret on a quick reading of the bill. The decimal placed before the 4 is accurate and indicates that it is 45 one-hundredth per cent a pound."

MATTERS DEFERRED FROM EARLIER ON THE CALENDAR

Standing Committee Report No. 815 (Gov. Msg. Nos. 162 and 163):

Senator King moved that Stand. Com. Rep. No. 815 be received and placed on file, seconded by Senator Hulten and carried.

Senator King then moved that the Senate advise and consent to the nominations of Ruth Aline Gay and Dr. Edward Shallenberger to the Animal Species Advisory Commission, seconded by Senator Hulten.

Senator King then rose to speak for the nominations as follows:

"Mr. Speaker, I rise to speak in support of the motion. I rise dismayed that I have to take the time of this body today to speak on behalf of the nominations before us.

One of the appointments is Dr. Ruth Gay, a researcher of plant physiology at the University of Hawaii and an instructor in botany.

The other is the appointment of Dr. Edward Shallenberger, Vice President and Director of Park Operations at Sea Life.

These two nominations have been deferred now for three days. The Senator who has been requesting the deferral and soliciting votes against the nominations has said he has nothing against the two individuals involved; that it has nothing to do with their merits or with them personally. He says that he is seeking a balance on the commission; that he doesn't want it dominated by 'pure

environmentalist' scientists; that he wants more on the commission who support aquaculture.

Dr. Shallenberger, of course, right now is working closely on aquaculture with the Oceanic Institute so I'm not sure what the problem is there. I'm not sure either just what a 'pure environmentalist' is. I tend to be leery of labels anyway--pure environmentalists, developer, politician, whatever. Labels, of course, are always much easier to deal with than individuals, but I think we owe people the fundamental respect due them to treat them as individuals, not categorize them.

This session, among the nominees sent to our Committee were two appointees to the Environmental Quality Commission which, coincidentally, we heard the same day as Dr. Shallenberger's and Dr. Gay's nomination. I suppose these other two nominees you could brand as 'developers'. One was President of Lone Star Hawaii, President of Island Construction, Vice President of Lear-Seigler, Hawaiian Properties Division. The other, now in real estate, was formerly sales manager for Kaiser Hawaii Kai Development Company. We duly noted that but we didn't categorize them.

We didn't take a broad brush and smear them with a label of our choosing, and then because they had that label, hang them. We looked at them as individuals, reported them out free and clear just as the committee reported out free and clear the nominations of Dr. Gay and Dr. Shallenberger. And when you look at people as individuals, Mr. President, you see differences.

Yesterday, just coincidentally, I received a copy of the latest minutes of the Animal Species Advisory Commission, and I found differences recorded in the minutes--differences between Dr. Ziegler and Dr. Gay. Individuals are different. (I won't take the time of this body to quote the minutes.)

I said I'm leery of labels--to the extent, however, Mr. President, that there is a group called environmentalists, and I'd like to say just a sentence about them.

First, I think anyone living in Hawaii can't help but be an environmentalist.

Second, there is something, it seems to me, strikingly and refreshingly different about this group from most of the people who come to see us, testify before us.

Like all of you, a lot of people come

to see me, call me, write me about something they want. Much of the time what they want, I like, often am enthusiastic about and would like to help implement. But it is, and this is no negative comment, it is mostly something that will help them, economically.

One group that doesn't ask something of personal economic benefit are the environmentalists. They come from all walks of life... computer analysts at Straub, housewife, whatever. They have their family and working lives but they give of their time and of themselves, not for their personal economic benefit, but for what they believe will be to the long range pleasure and satisfaction of all of us, including those of us yet to be. Agree with them or not, let's give them that.

To return to the nominations before us, the Legislature, in setting up the Animal Species Advisory Commission specified, 'The Commission shall consist of 11 members to be appointed by the Governor. Six of the members shall be scientists in the fields of botany, mammalogy, ichthyology, entomology, ornithology and invertebrate zoology.'

There is a reason for that. What we wanted on the Advisory Commission was a balance and so we specified all these different fields related to the purposes of the Commission.

Mr. President, when we put scientists on a commission, we don't want rubber stamps. Rubber stamps are a dime a dozen. We want from these scientists their very best judgment. We want them to use their collective specialized knowledge to help the State make the wisest decisions we can, both short and long range. We want them to help us consider aspects we might not have, and they would be derelict in their professional integrity and in their sworn responsibility to the State if they did otherwise.

It seems to me, Mr. President, that what's happening here is we're making token hostages of two qualified people. Token hostages to shoot down--to try to gain some other end.

It's true, that as Senators, we can vote up or down anybody we choose, for any reason we choose, but what the Senate of the State of Hawaii is, is up to us; depends on what we do and how we do it. What people feel about their government, we help determine by what we do;

why we do it.

The nominations of Dr. Edward Shallenberger and Dr. Ruth Gay are before us. Two individuals, respected in their fields, eminently qualified under the statutes, against whom no one says they have anything. After due notice, we had a public hearing and public decision-making. The committee report with signatures free and clear lies before us, part of the public record of the Senate.

I had been asked if I would recommit this matter. Of course I would have if there had been good cause, one involving the merits of the individuals themselves, but, no one says there is. The only way then that I would have recommitted it was if the individuals themselves had said that they would prefer it that way.

Tuesday afternoon at 6:30 p.m., I met with Dr. Shallenberger and Dr. Gay in my office and explained the situation to them. I told them they might well be voted down on the floor and mentioned to them the alternative of recommitment. Their immediate unwavering response, 'We'd rather have it out in the open. We'd rather have it out in the open then quietly pulled back into committee without it ever being clear why; the reason shrouded over the epitaph, "Mr. President, I recommit."'

If we want to change the statute to call for other qualifications, Mr. President, let's change the statute. Because the nominations of these two eminently qualified people happen to come when they did, let's not shoot them down--token hostages!

Thank you, Mr. President."

Senator Yim rose to speak in opposition thereto as follows:

"Mr. President, I rise to speak against the reappointment of Ruth Gay and the appointment of Dr. Shallenberger to the Animal Species Advisory Commission.

Mr. President, the Animal Species Advisory Commission was established by law within the Department of Land and Natural Resources to serve in an advisory capacity to the Fish and Game Division. The Commission is composed of eleven members, six of whom must be scientists with a specific expertise.

I am deeply concerned about the composition of this Commission because of the serious effect it might have on our emerging aquaculture industry.

As you well know, this 1977 Legislature has been in full support of aquaculture development. At present, only one member of the Commission has shown an inclination to encourage aquaculture in this State. The other five may be termed, as I personally classify them to be, 'environmentalists' in the purest sense.

On May 28, 1976, the Animal Species Advisory Commission held a meeting with eight of the eleven members present. At that meeting, one of the persons under consideration for confirmation, Ruth Gay, introduced a resolution, seconded by Alan Ziegler, opposing Senate Resolution No. 257. Senate Resolution No. 257 was adopted by this honorable body during the 1976 Legislative session, requesting the Federal government to consider allowing only commercial fishing within the northwest Hawaiian waters. The vote on Ruth Gay's resolution was five in favor and three opposed. All five members of the Commission who voted in favor are what I consider to be 'pure environmentalists.'

In addition, the Animal Species Advisory Commission's voting record reveals frequent opposition to introduction of exotic species into this State. When one considers that the Tahitian and Malaysian prawns, as well as sugar and pineapple were once exotic species, one can readily appreciate the potential danger these individuals pose to our economy. The Malaysian prawns, as developed by Takuji Fujimura, traces its origin back to the two original parents. Therefore, there is an obvious need to improve the genetic strain. To do this, we must import prawns from Australia, Taiwan, and the Philippines.

In a few weeks, Kahuku Farms will be selling oysters on the local market. Continued success of this achievement depends upon Kahuku Farm's ability to import oysters and clams from outside the State.

In the Aquaculture Development Plan under consideration this session, there are provisions for research on the marine salt water shrimp. In two years, it could be a major breakthrough, with world-wide impact and that is, the breeding of salt water shrimps under laboratory conditions. But to accomplish this, we must import shrimps from all over the world for experimental purposes. If we allow the environmentalists to go unchallenged, then these importations might not be possible. If this be so, we should then forget about developing an aquaculture industry

in Hawaii.

I oppose the confirmation of Ruth Gay and Dr. Shallenberger not because of their lack of integrity, character, or the necessary experience, but I oppose them because they are closely allied to what I call the 'pure environmentalists.' I oppose them simply on the grounds of equity, fairness, and balance.

On the Animal Species Advisory Commission, three of the six scientists so noted by law, should be persons who favor aquaculture development. This State is blessed with a great number of scientists with impeccable credentials who have encouraged aquaculture and demonstrated a strong concern for preserving the environment.

Mr. President, in summary, I merely want to present the need for a variety of opinions to be expressed in the Animal Species Advisory Commission. Simply put, I am only asking for equity and balance in the Commission.

For these reasons, Mr. President, I will vote against the confirmation of Ruth Gay and Dr. Edward Shallenberger.

Thank you."

Senator Kuroda then rose to speak against the confirmations as follows:

"Mr. President, in speaking against the confirmations, I share the concerns of the previous speaker about the future economic development of the State--namely, aquaculture.

Like the two previous speakers, I don't think we're taking action on these people on the basis of the person, the merit.

In 1972, I was a member of the Senate Judiciary Committee. At that time, there was a bill to eliminate this very special Commission that we are now discussing. I happen to be the swing vote on the Judiciary Committee. My vote would have decided whether this Commission would remain or would be abolished--although, one could not predict how the votes would have come out on the floor of the Senate.

At that time, I felt that there was a need for people to talk and discuss things rather than just merely eliminate this Commission.

It happens to be the same kind of concern today as in 1972. The purists are, in this case, the scientists

vs. the hunters.

After the session in 1972, I followed up my concern and attended the meetings of this Commission. I have followed up with personal discussions and correspondences and I found that these attitudes expressed by the scientists left no room for the hunters to express their concerns.

This experience then has remained with me and when the Senator from the Fifth District shared his concern with me, he called my attention to the fact that we face a difficult time today and if these people on the commissions, although advisory, are going to affect the economic growth of Hawaii, then I think that we need to re-evaluate these people who occupy very important commissions.

Thank you."

Senator King then stated, "Mr. President, just for the record, I'd like to say that I'm staunchly in support of an expanding aquaculture industry for the State and that the environmentalists I know are all enthusiastic supporters of an aquaculture industry for the State."

Senator King then asked if the Senator from the Fifth District would yield to a question, to which Senator Yim replied that he would.

Senator King then queried if the Senator had ever spoken about his views to Dr. Shallenberger.

Senator Yim answered as follows: "No, but I would be much happier if such names as Dr. Colin Nash, Dr. Stephen Smith, Dr. Spencer Malecha and Dr. Robert May--any of those combinations--would be excellent representation for the State as far as aquaculture is concerned."

Senator King then added, "The answer is No. Thank you, Mr. President."

At this time, Senator Ching rose on a point of personal privilege and stated as follows:

"Mr. President, I would like to clarify a statement that has been running through the radio stations, and perhaps in the newspaper, as to what the Senate's position is regarding a possible extension.

Mr. President, I think I speak for all the members of the Senate Majority Leadership and Senator Richard Wong who has met with us on this very point.

With the impending collective bargaining package that may come

down this afternoon, the word is out that the Senate wants to have an extension. We have discussed the matter, Mr. President, and we have not taken a position one way or the other on it as yet.

I think it is premature for us to make any statements to this effect. We want to see when the package arrives and how we will handle it; after that, it is problematical.

We hope that we can resolve the problem with the Body across the way and the Governor, but we have not asked for an extension. We do not feel that an extension is absolutely necessary because mechanically, it can be handled.

However, there are other extenuating circumstances and these have to be taken into consideration before we decide as to what we are going to do in the days to come.

Thank you."

Senator R. Wong then rose on a point of personal privilege and remarked as follows:

"Mr. President, in line with the remarks of the Majority Leader, I would like to say that in terms of the budget, the Senate is prepared to conclude its business and adjourn sine die tomorrow.

This is how it can be done, Mr. President:

First, with the Senate budget now in the House and the combined House/Senate adjustments in revenues and the 1976-77 expenditures, we have a balanced financial plan with a surplus of \$21 million; and

Second, this surplus should be adequate to meet the costs of the collective bargaining package expected to be submitted tonight. We can deck the collective bargaining bill tonight for the 24-hour lay-over.

If the House is serious about going home tomorrow, I presume they are prepared to accept this proposal. However, Mr. President, I hope they realize that this precludes an opportunity for public hearing and input on the collective bargaining package.

If this is what they want to do, Mr. President, so be it.

Thank you."

At 12:31 o'clock p.m., the Senate stood in recess until 8:00 o'clock p.m. this evening.

EVENING SESSION

The Senate reconvened at 8:25 o'clock p.m., with all Senators present except Senators Ching and Nishimura, who were excused.

Senator Takitani, for the majority of the Committee on Higher Education, presented a report (Stand. Com. Rep. No. 1152), recommending that Senate Resolution No. 410, as amended in S.D. 1, be adopted.

Senator Takitani moved that the report of the majority of the Committee be adopted and that S.R. No. 410, S.D. 1, be adopted, seconded by Senator O'Connor.

Senator Chong then rose to speak against the resolution as follows:

"Mr. President, I rise to speak against this resolution specifically calling for a study of the tenure system at the University of Hawaii.

At the hearing held on this yesterday, it was pointed out that not a single University in the entire country has abolished, or does not have, a tenure system.

The mere fact that this resolution calls for this Committee to look into this system would severely affect the morale of the University of Hawaii faculty. It would affect the quality of applicants that you would have at our University and, it would, in general, create a terrible situation on campus, especially among the faculty and ultimately for the students.

I urge all Senators to vote against this resolution."

Senator Kawasaki then stated as follows:

"Mr. President, I did not intend speaking on this particular resolution, but I think the statements made by the previous speaker are just preposterous!

As I recall some years ago, it was threatened that there might be a mass exodus and I said 'be my guest'. Now if there is any member of the faculty at the University of Hawaii who feels very insecure because we are asking for a legitimate study of the tenure system at the University, then I repeat my invitation, 'be my guest'.

I know there are many brilliant young scholars, intellectuals, who can become capable faculty members and who are interested in serving at the University of Hawaii.

Mr. President, my staff compiled the breakdown of the number of jobs over at the University that pay in excess of \$30 thousand a year in compensation. We found that there are 548 positions paying over \$30 thousand a year. With this 4.2% increase in compensation contemplated by the collective bargaining contracts just agreed to, this brings that figure up higher.

I compared the compensation of the faculty at the University of Hawaii with some leading colleges in the nation, and I must say I can well understand why people who want to serve on the faculties of universities find job positions at the University of Hawaii very much to their liking.

I don't particularly worry about the unrest that we are going to create at the University of Hawaii by a call for a study of the tenure system.

I think this was long overdue.

I think that this condition where over 80% of the faculty are tenured at the University of Hawaii is quite an unusual situation in the nation, and this resolution is justified.

As I said, if anyone is uneasy about the permanency of their job because of a study that is required, then, 'be my guest. Feel free to leave.'

Thank you."

Senator O'Connor then remarked as follows:

"Mr. President, I did not intend to speak on this either until the earlier speaker had something to say.

I would encourage everyone to vote in favor of this resolution.

I am informed that today, 60% of the faculty at the University of Hawaii voted in favor of ratifying a contract, which in fact abrogate tenure for a considerable percentage of people at the University. If such be the case, then certainly we should study this matter in the interim since tenure is in fact a tenuous situation, at best, at the University.

Thank you, Mr. President."

The motion was put by the Chair and carried and the report of the majority of the Committee was adopted and Roll Call having been requested, S.R. "Mr. President, this is a substantial watering down of our park dedication statute.

The deletion of the term 'physical facilities' means that the counties would no longer be able to require the developer to grass over the site or put in drainage facilities. It seems to me that the original intent of the Legislature was that if the developer dedicates a site, he should, at the least, put in improvements, to the extent of grassing over.

Also, Mr. President, at the present time, if it is determined by the Department of Parks and Recreation that dedication is in the best interest of the people, the counties can request dedication for a public park. By replacing the term 'may' with 'shall' in Section 46-6(c), they would no longer be able to do this--it would simply remain private."

"Mr. President, last year, when

For example, no background information on the nominee was submitted to the members of the Judiciary Committee, which is something that should be done for all nominees to major boards and commissions.

Our present system allows political considerations to play too large a part in the selection of judges. The nominee before us bears witness to this.

Mr. President, I happen to like the nominee personally, and I hope he will take full advantage of this rare opportunity for personal growth and public service to our community. Although I feel that others were more qualified to be a circuit court judge and more deserving of this opportunity, I am prepared to give the nominee a chance to prove himself. Senator Nishimura moved that

Conf. Com. Rep. No. 38 be adopted and that H.B. No. 1698, H.D. 1, S.D. 1, C.D. 1, having been read throughout, pass Final Reading, seconded by Senator Taira.

At 11:38 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:39 o'clock p.m.

Senator George rose to speak against the motion as follows:

"Mr. President, I was a member of your Conference Committee, and I don't think I have ever seen a measure reach this floor for or after conference, with such a lukewarm proposal.

Mr. President, when you look at the report, you will notice that of the eight conferees on the part of the Senate, two members signed 'with reservations' and three of them signed 'I do not concur.'

I think the reason for this somewhat less than enthusiastic reception is probably spelled out fairly well in the Minority Report on the Conference Committee which was submitted by Senator Leopold and me, and I will not take the time of the Body at this time to go over once again the several points that are made in that report. But, I would like to say something about the tepid endorsement and the reasons for it.

You will all remember that when the measure originally passed the Senate, it was unanimously decided by this Body that there would no longer be free no-fault insurance for welfare recipients in this State.

We all know that Hawaii is the only State of the fifty that provides free automobile insurance to its welfare clients. This extravagance is, I think, a further signal of our extreme generosity to our welfare recipients. We are already notable as the State with the highest monthly total in grants to welfare families. That figure is now calculated at \$497.00 a month.

Mr. President, among the matters discussed by your conferees were a number of alternatives to providing free insurance, subsidized by the other drivers in this State. One of these was the alternative that welfare recipients themselves might share in the cost of the insurance

which they need in order for them to drive. This was rejected by the other conferees.

It was also proposed that it might be possible to redistribute the burden of no-fault insurance by spreading it, so to speak, among all the taxpayers of this State rather than asking other motorists to carry it. This was also rejected.

The feeling was expressed a number of times that welfare recipients whose transportation needs could be met by public transportation should not be permitted to qualify for free no-fault insurance payments. This also was rejected.

I am inclined to believe that the reason why the Senate conferees were willing to capitulate on their original position--that there should no longer be free insurance for welfare recipients--is that somehow the illusion was fostered that open rating would vanish if we were to pass the measure in the Senate version.

I think all of us should take a look at the original no-fault insurance bill which provides that open rating will continue until September 1, 1978, no matter what we do tonight. This will provide us with ample opportunity to preserve the concept of open rating by action in the next session.

Open rating was endorsed in the Senate version of the bill. It was endorsed in the House version of the bill and there is no reason to believe that it will not pass next year, if it is presented on its own merits.

Mr. President, I urge my colleagues to vote against the measure that is reported out so unenthusiastically in Conference Committee Report No. 38, on House Bill No. 1698, H.D. 1, S.D. 1, C.D. 1.

Thank you."

Senator Chong spoke in opposition to the measure as follows:

"Mr. President, this bill borders on being a 'shibai'. It does nothing to get at the basic question of reform. The original Senate version was an initial attempt to provide relief to the private sector which is bearing the full burden of the cost for welfare recipients.

The House version on the other hand was a status quo measure. No serious attempt was made to

shift the burden from the private sector to the public sector. It is a continuation of the questionable practice of automatically forcing the private sector to provide free automobile insurance to welfare recipients.

The responsibility of this Body is to protect the public interest. This interest is served best by providing no-fault insurance for those who cannot afford it and who demonstrate a need for an automobile. To leave the funding of such coverage to the private sector means that the cost will be passed on to the insurance-paying motorist who will in effect be forced to pay a disproportionate burden of the cost of no-fault insurance coverage for welfare recipients.

The public interest would be more fairly served by spreading out this cost over the public at large by funding such needed coverage out of the general funds of the State.

I urge my colleagues to vote against this status quo measure, which does nothing to change the existing situation.

Thank you, Mr. President."

Senator Nishimura spoke in favor of the measure as follows:

"Mr. President, your Conference Committee on this bill spent three days trying to convince the House conferees that the Senate's position should prevail. However, we could not convince them, and, as a result, we were faced with a dilemma. This dilemma was to either accept the House position which would sustain the status quo or come out with no bill which would still sustain the status quo.

We have before us, Mr. President, a bill that is basically a consumer protection bill. It is good for the consumers. It has provisions that adequately protect them. It protects the insurance companies to a certain extent so that they will not be required to increase premium rates and thereby cause consumers to pay more.

Now, we have heard quite a bit about free insurance for welfare recipients. I don't know about the rest of the people here but one of the reasons I buy automobile insurance is to protect me, myself, so that in case I should be negligent and hurt another person, then my insurance company will pay that person for the injuries which I, through my

negligence, caused him.

Now, in a case of a welfare recipient, he has no money. If he should be negligent and cause injury to another person, how does he pay? He has no money. In my case, if I had no insurance, my personal assets might be liable. In the case of a welfare recipient, if he is liable and if he has no insurance, what is there to protect the injured party? Nothing. So what actually is taking place is that when the welfare recipient is given free insurance, then the consumer--the driver on the other side--is getting protection.

In other words, we provide free coverage for the welfare recipient because of self-interest of the other driver, for the self-protection of the other driver. This is the essence of automobile insurance. This is the one reason why perhaps the House did not buy the Senate's position.

What we have here then is something that is good for the consumer, and I would appreciate it if anyone here can tell me that what we have before us is bad for the consumer.

Thank you."

The motion was put by the Chair and carried, and Conf. Com. Rep. No. 38 was adopted and H.B. No. 1698, H.D. 1, S.D. 1, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAII MOTOR VEHICLE ACCIDENT REPARATIONS ACT", having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

Ayes, 15. Noes, 9 (Anderson, Chong, George, Kawasaki, Kuroda, Leopold, Saiki, Soares and Yim). Excused, 1 (Yee).

MATTER DEFERRED
FROM APRIL 19, 1977

Conference Committee Report No. 51 (H.B. No. 892, H.D. 1, S.D. 1, C.D. 1):

Senator R. Wong moved that Conf. Com. Rep. No. 51 be adopted and that H.B. No. 892, H.D. 1, S.D. 1, C.D. 1, having been read throughout, pass Final Reading, seconded by Senator Yamasaki.

Senator O'Connor then rose to speak against the measure as follows:

"Mr. President, as a member of your Conference Committee on House Bill No. 892, H.D. 1, S.D. 1, I can report to this Body that your Conference Committee worked many long hours and, in fact, went for three days over this past weekend without sleep, meeting around the

clock, in an attempt to reach agreement on the measure.

In the late hours of Monday of this week, we believed that an agreement had been reached on all particulars and the bill was turned over to staff members to complete final drafting. The final drafting of this bill was done in the House Finance Committee and the document was delivered to us first thing on Tuesday morning.

In reviewing that document, we discovered that there were some items in Part III of the document under the proviso section which appeared to be in contradiction with the agreements reached over the weekend. More in particular, Section 21 of that Part III on page 13, stated a proviso containing certain treatments under the Medicaid program which had not been agreed to during the conference. More in particular, one of those treatments, was the inclusion of chiropractic treatment in Medicaid which has been an issue long debated in this Body for over ten years and had not been, in any way, debated during the conference, nor was suggested at any time as being part of this particular measure.

There is another proviso, in Section 25, page 15, having to do with HMSA. During this conference, it was agreed, as a conference item, that the Medicaid care in Hawaii and the Medicaid program would continue to be done on a contractual basis with HMSA because the State of Hawaii today does not have the capability of handling that Medicaid program, particularly, the billing and the work with the individual health care provided.

With that agreement in mind, we also agreed with the conferees that a proviso would be included requiring that HMSA report certain matters to the Legislature. That agreement was contained in Section 30.

Section 25 has a proviso which would impose upon HMSA certain unusual and extraneous burdens which they are not today capable of performing. These include such things as reporting food stamps, income maintenance, public housing areas, ethnic compositions, and recipients involved in automobile related cases--all at no cost to the State, but at an additional cost burden to HMSA.

Those of us in conference knew, Mr. President, that the HMSA contract with the State comes up for renegotiation in July of this year. If the proviso contained in Section 25, page 15,

of this bill were to pass, then that would have to be included by the State in the contract given to HMSA in July. We know that HMSA cannot accept such a contract. HMSA, being the only provider in the State capable of running the Medicaid program at this time, would therefore be unable to contract with us in July of this year. Therefore, through the back door, we would have adopted, by this proviso to which no one agreed, what we distinctly agreed to across the bargaining table, namely, that HMSA would continue with this program.

In addition to those provisos mentioned, there are other provisos included in the bill, Sections 26 and 27, on a microwave and communication system that would run the cost of this State to millions of dollars.

Another area is in Section 9, page 8, concerning the staffing for the OMPO, which was never discussed, and, in addition, certain provisions concerning the school-by-school educational program, where the agreement that we believed we had was that the appropriations for EDN 105 were to be made directly to the Superintendent rather than to the individual schools. This is to relieve the political pressure from all in adopting such a program.

Because we believe strongly, Mr. President, that the adoption of these provisos will cost the State unwanted millions of dollars in forthcoming years, particularly, if we lose the contractual ability with HMSA to handle the Medicaid program and have to do it ourselves, and if we put in this microwave communication system.

We therefore believe that these provisions in this budget are of such consequence and having been adopted in such a manner that the budget should be voted down.

Therefore, I urge all members to vote No on this measure.

Thank you, Mr. President."

Senator Anderson spoke in opposition to the measure as follows:

"Mr. President, as a member of the Conference Committee, I confirm what my colleague said in all aspects and all provisos.

It has probably been one of the most difficult conferences we've had in a long time, Mr. President, and it is probably no wonder that

there is some confusion in the end.

Your conferees in the Senate had to sit for untold hours and listen to committee chairmen on the House conferences aside because of their Rule of prior concurrence. We had to sit there for hours listening to philosophy and their approach and we sat there very patiently, Mr. President.

We discussed in every depth and detail the points of contention the Senator mentioned. At no time were some of these matters even discussed or mentioned--at no time over the hour or more that the so-called sub-committee chairmen discussed the bills before the conferees.

In the past, we have always left the budget 99-9/10% closed, and the typing of it and the formalities and the routines have never been questioned before. We have always been able to leave the conference after many hours believing that what we agreed to, every period and semi-colon and every paragraph, was in fact going to be intact and that any change was really a typographical error or an honest mistake.

There are just too many mistakes in this committee report. There are just too many errors in this one.

I'd like the record to show that last night we sat here till midnight trying to deal with the House and the House Leadership. The Republicans even offered to stretch the Rules of the Senate to every degree to allow the bill to be corrected as to the typographical aspect so that the measure could be clocked on our desks for the 24-hour rule, even though we were not in session.

I want the record to show that we offered to deal and meet with the House under any condition so that we wouldn't have to go into 'killing' this budget today on the floor, thus, I'm sure, causing the people of the State additional expenses in another extension.

Every offer, every indication was turned down by the House Leadership and the House conferees.

I think the Senators made every attempt to be fair and to resolve this quietly and fairly. At no time did we indicate, at no time did we charge, that it was done maliciously or deliberately.

We are willing to say everybody

was tired after four days of no sleep, day and night. We are willing to say that in the confusion, the late hours, anything could have happened. We did make every effort to resolve this quietly and the House rejected us.

I think this bill should be voted down.

Thank you."

The motion to adopt Conf. Com. Rep. No. 51 and to pass H.B. No. 892, H.D. 1, S.D. 1, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE BUDGET", having been read throughout, on Final Reading, was put by the Chair and failed to carry on the following showing of Ayes and Noes:

Ayes, none. Noes, 23 (Anderson, Ching, Chong, George, Hara, Henderson, Hulten, Kawasaki, King, Kuroda, Leopold, Nishimura, O'Connor, Saiki, Soares, Taira, Takitani, Toyofuku, R. Wong, Yamasaki, Yim, Young and Ushijima). Excused, 2 (F. Wong and Yee).

At 10: 35 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 10: 37 o'clock a.m.

The President announced that in accordance with the action taken by the Senate relative to House Bill No. 892, H.D. 1, S.D. 1, C.D. 1, he was requesting a conference on this matter with the House Leadership and therefore appointed Senators Ching, Kawasaki, O'Connor, Taira, Toyofuku and R. Wong to accompany him at this conference.

At 10: 38 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 10: 58 o'clock a.m.

STATEMENT OF OBJECTIONS
TO SENATE BILL NO. 258

Honorable Members
Ninth Legislature
State of Hawaii

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning herewith Senate Bill No. 258, entitled: 'A Bill for an Act Relating to Bikeways and the Operation of Bicycles.'

The purpose of this bill is to clarify the rights and duties of a motorist in relation to bicyclists and to improve the flow of traffic on roadways.

Senate Bill No. 258 is basically the same as House Bill No. 999 which I intend to sign into law. However, Senate Bill No. 258 has certain defects that are not found in House Bill No. 999. I note, for example, that the title of Senate Bill No. 258 relates to bikeways and the operation of bicycles. Section 1 of the bill, however, relates to inattention to driving, a subject that is not reflected in the title of the bill, and, therefore, is constitutionally suspect. Moreover, House Bill No. 999, by repealing Section 265-63, Hawaii Revised Statutes, relating to driving on sidewalks, clarifies the law, since Section 291C-123, Hawaii Revised Statutes, which is being amended by both Senate Bill No. 258 and House Bill No. 999, also relates to driving on sidewalks. Senate Bill No. 258, however, makes no

mention of Section 265-63 and, therefore, approval of Senate Bill No. 258 would raise questions as to whether Section 291C-123 or Section 265-63 would apply.

For the foregoing reasons, I am returning Senate Bill No. 258 without my approval.

"STATE OF HAWAII

June 4, 1977

STATEMENT OF OBJECTIONS
TO SENATE BILL NO. 1305

Honorable Members
Ninth Legislature
State of Hawaii

Pursuant to Section 17, Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 1305, entitled 'A Bill for an Act Relating to a Renter's Income Tax Credit.'

The primary purpose of the bill is to provide a tax credit of \$20 per exemption to each qualified low and moderate income renter. The bill will permit persons sixty-five years or older to claim double credits.

As introduced, the bill contained an effective date to be applicable for tax years commencing after December 31, 1976. At the time of its adoption, however, the December 31, 1976 effective date was deleted. Because of this deletion, there arises an ambiguity as to whether or not the renter's credits may be claimed for earlier tax years. This ambiguity has been resolved by the enactment of Senate Bill No. 3, Ninth State Legislature, Special Session, 1977. Senate Bill No. 3 has restored the effective date of December 31, 1976.

In light of the passage of Senate Bill No. 3, which contains the identical provisions proposed by Senate Bill No. 1305 but which contains the further provision that the bill shall become applicable for tax years commencing after December 31, 1976, it would be more appropriate to adopt Senate Bill No. 3 and thereby to avoid a potential ambiguity in the administration of our tax laws.

For the foregoing reasons, I am returning Senate Bill No. 1305 without my approval.

Respectfully,

STATEMENT OF OBJECTIONS
TO SENATE BILL NO. 247

Honorable Members

State of Hawaii

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning herewith Senate Bill No. 247, entitled, 'A Bill for an Act Relating to Abandoned Vessels'.

The purposes of this bill are (1) to provide for the deposit into the boating special fund of the proceeds from the sale of abandoned vessels; (2) to provide for the disposition of excess revenues therefrom; and (3) to provide for a lien against the owners and claimants of ownership interests in the vessel in the event of a deficiency.

Although the first purpose of this bill has merit, I find the provisions for disposition of excess revenues and for a lien in the event of a deficiency

to be objectionable.

With reference to the disposition of excess proceeds, the present law requires payment thereof only to the owner although priority is given to a lien holder. Under this bill, however, the Department of Transportation will have to adjudicate conflicting claims of not only the owner and lien holder, but also of creditors of the owner. To delegate the power to adjudicate conflicting claims to an administrative agency may violate the doctrine of separation of powers.

The provision for a lien in the event of a deficiency also poses due process problems since a lien is given not only against the owner but also against anyone claiming an ownership interest in the vessel without an adequate hearing. In addition thereto, it appears that the lien provision would be ineffective since the property against which the lien attaches is not designated.

For the foregoing reasons, I am returning Senate Bill No. 247 without my approval.

"STATE OF HAWAII EXECUTIVE CHAMBERS

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 517

Honorable Members
Ninth Legislature
State of Hawaii

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning herewith Senate Bill No. 517, entitled 'A Bill for an Act Relating to Franchises.'

This bill amends the Hawaii Franchise Investment Law which was enacted in 1974. The amendments seek to clarify Hawaii's law and to conform it with the laws of other states.

Clarification of ambiguities in the existing Franchise Investment Law is certainly desirable. However, Senate Bill No. 517 in certain respects decreases the protection presently afforded to franchisees. For example, certain acts which are deemed unfair, or deceptive practices or unfair methods of competition are grounds for private actions between the parties. Under the bill, however, such practices are no longer grounds for private actions. Instead, the Director of Regulatory Agencies is simply authorized to prohibit registration of the franchise from becoming effective, if the franchise contains provisions permitting such unfair practices. Such prohibition by the Director would not be as effective as a private action for damages. Moreover, courts presently have the discretion to award treble damages. This bill eliminates that provision on treble damages, thus further lessening the protection to franchisees. Also, the existing law requires franchise brokers and selling agents to be registered, whereas Senate Bill No. 517 would only require that such brokers and salesmen be identified. A registration procedure would provide

better protection to purchasers because registrations can be revoked.

I believe the changes proposed by Senate Bill No. 517 will weaken our Franchise Investment Law to the detriment of prospective franchise purchasers.

For the foregoing reasons, I am returning Senate Bill No. 517 without my approval.

Honorable Members

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning herewith Senate Bill No. 533, entitled, 'A Bill for an Act Relating to Motor-Driven Bicycles.'

The purpose of this bill is to establish a new category of vehicle, the 'motor-driven bicycle', and to regulate its use.

Although the objective of the bill is desirable, it appears that this bill will create confusion because of conflicts and ambiguities. For example, a 'motor-driven bicycle' is defined as a type of 'bicycle' with a motor but the definition of 'bicycle' is amended to exclude those with motors. Thus, a 'motor-driven bicycle' may be held to be a 'motor vehicle' and not a 'bicycle', thereby restricting a 'motor-driven bicycle' to only a limited use of bicycle lanes and paths, a result which I do not believe was intended. It is also noted that this bill continues the requirement that safety helmets be worn, while S.B. No. 244, which awaits my approval, has removed that requirement, except for those under 18 years of age. Further, there appears to be a conflict as to whether a license is required to operate a motor-driven bicycle or whether a permit is sufficient for such operation.

For the foregoing reasons, I am returning Senate Bill No. 533 without my approval.

"STATE OF HAWAII

June 6, 1977

STATEMENT OF OBJECTIONS
TO HOUSE BILL NO. 1531

Honorable Members
Ninth Legislature
State of Hawaii

Pursuant to Section 17, Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 1531, entitled, 'A Bill for an Act Relating to the Assessment of Real Property.'

The bill proposes to amend the Hawaii Real Property Tax Law by providing that buildings shall be valued and assessed by using current average basic replacement cost figures and that where the replacement cost method is not applicable the assessor may use any other method in the valuation of buildings.

Under the existing provisions of

HRS Section 246-10, the fair market value of buildings is to be ascertained by the replacement cost method. The cost factors used by the Director must reflect the prevailing market costs on the assessment date, consequently, the additional requirement that current cost figures be used is redundant.

Furthermore, the provision allowing the assessor to use other methods in the valuation of buildings is objectionable because it will, in effect, compel the assessor to use the income method of valuation in his appraisal of income producing properties. The assessor will be required to use the income method because it is the most appropriate and is the preferred method for ascertaining the fair market value of income producing properties such as hotels, apartments, commercial and rental properties. Should this occur, the Department of Taxation will be faced with insurmountable problems and complexities. It will require the Department to audit books and records to ascertain the validity of the income represented by these businesses. For some of these businesses, the assessor has no access to the books and records because these records are kept on the mainland. Moreover, the income of an on-going enterprise is greatly influenced and affected by the managerial skill and personnel of the establishment. Too, seasonal fluctuations such as exist in the hotel industry make it extremely difficult for the assessor to ascertain a realistic income stream. Uncertainty of the market further complicates the problem of selecting the proper capitalization rate to be applied in the appraisal.

The present procedure of ascertaining fair market value of buildings by the replacement cost method presents a reasonable degree of accurateness, is easily applied and generally results in uniform and equal assessments. Assessments made thereunder have been reviewed by our Tax Appeal Court and the assessments have been affirmed. Under the circumstances, there appears no justifiable reason to change the present method of assessing and valuing buildings.

For the foregoing reasons, I am returning House Bill No. 1531 without my approval.

State of Hawaii

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning herewith Senate Bill No. 239, entitled, 'A Bill for an Act Relating to the Professional and Research Staff of Hawaii Public Employment Relations Board.'

The purpose of Senate Bill No. 239 is to make the professional and research staff of the Hawaii Public Employment Relations Board (HPERB) removable only for cause, although exempt from civil service.

Under existing law, the individuals constituting the professional and research staff of HPERB are appointed by the Board and are exempt from chapters 76 and 77, Hawaii Revised Statutes. In other words, those

individuals are non-civil service employees serving at the pleasure of the Board.

I have no objection to the granting of 'tenure' to the foregoing staff personnel to assure the development of expertise in this highly specialized area of labor law. However, I find no necessity to create a separate class of employees who would be exempt from civil service but who can be removed only for cause. I believe the objective of this bill can be accomplished by simply converting the professional and research staff to civil service status. Moreover, inclusion of such staff personnel in the civil service system would be in keeping with the merit system and would enable future personnel actions to be taken in conformance with merit principles.

For the foregoing reasons, I am returning Senate Bill No. 239 without my approval.

Gov. Msg. No. 508 returning Senate Bill No. 251 without his approval, together with his statement of objections relating to the measure which reads as follows:

"STATE OF HAWAII
EXECUTIVE CHAMBERS

June 9, 1977

STATEMENT OF OBJECTIONS
TO SENATE BILL NO. 251

Honorable Members
Ninth Legislature
State of Hawaii

Pursuant to Section 17, Article III of the Constitution of the State of Hawaii, I am returning herewith Senate Bill No. 251, entitled, 'A Bill for an Act Relating to Motor Vehicles.'

The purpose of this bill is to exempt stored vehicles from county vehicular taxes and to provide a procedure to determine the amount of tax due for the periods prior and subsequent to storage. In addition, this bill makes it a misdemeanor to present a false certificate of storage in an attempt to avoid the payment of taxes due.

I do not find the purpose and intent of Senate Bill No. 251 to be objectionable. However, I have serious reservations about Senate Bill No. 251 because of certain ambiguities contained therein.

The bill amends Section 249-5, Hawaii Revised Statutes, which exempts stored vehicles from the county vehicular tax. Under existing provisions, if a certificate of storage is presented to the treasurer after December 31 of the year in which the vehicle is registered for license plates and tag but before March 31 of the year immediately following, with the current tax unpaid, then the unpaid tax for three months of the current year shall be paid in full upon presentation of the certificate. The amendment to Section 249-5 proposed by Senate Bill No. 251 provides in part:

'If the certificate is presented to the treasurer within the period:

(1) December 31 of the year in which the vehicle is registered for license plates and tag; and before

(2) March 31 of the year immediately following:

and the tax for the year immediately following is unpaid and the person is seeking to register the vehicle for the current year, the person shall pay the tax due and unpaid for the period prior to storage due for the year in which the vehicle was stored;'

The amendment covers the period from December 31 of the year in which the vehicle is registered to March 31 of the following year, which is not quite identical to the period specified under existing law, and requires payment of the tax due and unpaid for the period prior to storage when the person seeks to register the vehicle for the current year, rather than when the storage certificate is presented.

Moreover, under the amendment, it is not at all clear whether only the current year is being referred to or whether the year beyond the current year would also be involved. Further, it is difficult to visualize a situation where taxes would be 'due and unpaid for the period prior to storage due for the year in which the vehicle was stored,' other than the period from December 31 of the year in which the vehicle is registered to March 31 of the year immediately following.

A further question may arise because the amendment proposed by Senate Bill No. 251 also provides that the person registering the vehicle shall pay, in addition to the tax due for the year in which the vehicle was stored, 'the tax due for the fraction of the current year in which the person is registering the vehicle.' It is noted that Section 249-3, Hawaii Revised Statutes, already provides for the payment of taxes for fractional periods of a year. However, Section 249-3 applies to situations where vehicles removed from storage are not subject to unpaid taxes, whereas under the amendment it is assumed that there might be taxes due and unpaid for the period prior to storage. Based upon the latter assumption and if Section 249-3 is not applicable because of the existence of unpaid taxes, there would be a question as to how the tax due for the fraction of the current year is to be determined.

I believe that the ambiguities noted above will create problems for the counties in the administration of the motor vehicle registration program.

For the foregoing reasons, I am returning Senate Bill No. 251 without my approval.

STATEMENT OF OBJECTIONS
TO SENATE BILL NO. 731

Honorable Members
Ninth Legislature
State of Hawaii

Pursuant to Section 17 of Article III of the Constitution of the State

of Hawaii, I am returning herewith Senate Bill No. 731, entitled, 'A Bill for an Act Relating to Conveyances.'

The purposes of this bill are (1) to increase efficiency in the search of land titles, (2) to reduce the cost of title searches through increased efficiency, and (3) to provide for a uniform, statewide method of record search based on a parcel identifier system.

The bill proposes to amend Chapter 501, relating to Land Court registration and Chapter 502, relating to the Bureau of Conveyances, Hawaii Revised Statutes, by adding a new section to each chapter requiring that any deed or other document presented for registration shall contain or have endorsed thereon the tax map key last assigned by the State Department of Taxation.

Senate Standing Committee Report No. 530 and House Standing Committee Report No. 863, make it clear that the tax map key is for identification purposes only and that it is not to serve as the legal description of the parcel of land described in the deed or other document.

The purposes of the bill as it proposes to amend Chapter 502, Hawaii Revised Statutes, relating to the Bureau of Conveyances, has merit. However, Senate Bill No. 731, in amending Chapter 501, Hawaii Revised Statutes, relating to Land Court registration, has the following effect: (1) places an unreasonable burden on the Land Court to determine and verify at the time of filing a document that the proper tax map key is used, and (2) substantially increases the possible liability of the State of Hawaii resulting from any error, omission, mistake or misdescription of the property, since the Land Court on behalf of the State of Hawaii acts as guarantor of the title of the property described in said deed or other document.

For the foregoing reasons, I am returning Senate Bill No. 731 without my approval.

Gov. Msg. No. 510 returning Senate Bill No. 1209 without his approval, together with his statement of objections relating to the measure which reads as follows:

"STATE OF HAWAII
EXECUTIVE CHAMBERS

June 9, 1977

STATEMENT OF OBJECTIONS
TO SENATE BILL NO. 1209

Honorable Members
Ninth Legislature
State of Hawaii

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning herewith Senate Bill No. 1209, entitled, 'A Bill for an Act Relating to Aquaculture.'

The purpose of this bill is to establish a program to stimulate and coordinate the development and growth of aquaculture into a major industry in Hawaii. Although I believe that the intent of this bill to stimulate and coordinate the development and growth of aquaculture has merit, it appears that this bill did not pass three readings in the Senate as required by Section 16 of Article III of the Constitution of the State of Hawaii and, therefore, pursuant to that section, cannot become law.

As introduced, Senate Bill No. 1209

was titled, 'A Bill for an Act Relating to the Definition of Aquaculture.' The purpose of the bill was 'to place aquaculture on an equal basis with agriculture' and, accordingly, aquaculture was 'to be defined, for the purpose of, but not limited to, permit and legal requirements and loans and taxation, to be co-equal to agriculture.'

After Senate Bill No. 1209 in its original form had passed first reading in the Senate, the title and the body of the bill were amended. The title was amended to broaden its scope to aquaculture in general, 'A Bill for an Act Relating to Aquaculture.' Subsequent amendments to the body of the bill have materially broadened the subject matter of the original bill and have gone far beyond merely defining 'aquaculture.'

Because these subsequent amendments to the body of the bill are clearly beyond the limited scope of the original title and would not have been constitutionally permissible under Section 15 of Article III of the Constitution of the State of Hawaii without the broader title, I believe that the change of the bill's title is material. The changes in the body and the title of the bill resulted in a new bill that materially differed from the bill originally introduced and, therefore, the new bill should have independently met the three-reading requirement of Section 16 of Article III of the Constitution of the State of Hawaii, which it did not.

Because of the constitutional objection, I believe that this bill cannot become law and I am herewith returning this bill.

I wish to point out, however, that the coordination and planning for the development of aquaculture will continue, notwithstanding my objection to this bill. With the moneys appropriated by Act 226, Session Laws of Hawaii 1976, specifically, paragraph (3) of section 4, the Department of Planning and Economic Development began to develop an aquaculture master plan for the State. An interim report on the aquaculture planning program was provided to the Legislature during the 1977 Regular Session and the aquaculture plan is scheduled for completion by June 30, 1977. Furthermore, House Bill No. 7 of the 1977 First Special Session, which properly passed both house of the Legislature, will enable the Director of Planning and Economic Development to begin seeking federal funding of aquaculture activities in Hawaii, to coordinate aquaculture development projects, and to undertake other activities to develop an aquaculture industry

in this State. A written report on the actions taken will be submitted to the Legislature by January 18, 1978, as required by House Bill No. 7.

TO SENATE BILL NO. 51

Honorable Members

State of Hawaii

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning herewith Senate Bill No. 51, entitled, 'A Bill for an Act Relating to Energy Conservation.'

The purpose of Senate Bill No. 51 is to effectuate the conservation of fuel and water by requiring the use of water flow control devices. To carry out such purpose each county is mandated to adopt appropriate ordinances to require that 'each new structure using water shall include water flow control devices to restrict and reduce the flow of water in showers and faucets.' It is anticipated that water flow control devices will reduce the amount of electricity and gas consumed in the production of hot water, in addition to limiting the amount of water used.

I strongly support the purpose of Senate Bill No. 51. However, certain concerns have been expressed by the Honorable Frank F. Fasi, Mayor of the City and County of Honolulu, about the piecemeal adoption of regulations by the counties and the desirability of having all counties adopt uniform regulations on water flow control devices. It appears that the International Conference of Building Officials (ICBO), the model code group which sponsors the Uniform Building Code, is presently working on a Model Energy Conservation Code. In view thereof Mayor Fasi has recommended that completion of the work of the ICBO be awaited and that the counties be permitted to adopt the energy conservation regulations to be developed by the ICBO.

Inasmuch as this bill mandates the counties to amend their ordinances, I am deferring to Mayor Fasi's request.

For the foregoing reasons, I am returning Senate Bill No. 51 without my approval.

Honorable Members

State of Hawaii

Pursuant to Section 17, Article III of the Constitution of the State of Hawaii, I am returning herewith Senate Bill No. 237, entitled, 'A Bill for an Act Relating to Collective Bargaining.'

The purpose of Senate Bill No. 237 is to provide for the resolution of any impasse in collective bargaining negotiations involving firemen by means of a whole-package final-offer arbitration.

The bill essentially sets up an arbitration procedure to be followed, if an impasse occurs. The arbitrator is to select the most reasonable of the final offers submitted by the

parties and the decision of the arbitrator is final and binding; provided that by mutual agreement the parties may at any time modify the decision. Agreements reached pursuant to the decision of an arbitrator shall not be subject to ratification by the membership. Furthermore, employees covered by this arbitration procedure voluntarily relinquish their right to strike.

I find Senate Bill No. 237 objectionable in several respects:

(1) Under the procedures which have been provided by Senate Bill No. 237, in almost every instance, an out-of-state arbitrator will be chosen. That is the way the bill has been designed. I question whether such a result would be desirable, since out-of-state arbitrators might be ill-equipped to apply portions of the criteria established by the bill, having obtained their expertise under different circumstances and conditions than those prevailing in Hawaii. I also question the propriety of using an arbitrator, who makes a decision, packs his bag and goes home to wherever he came from and need not have to live in the community which is affected by his decision.

(2) I also note that the final-offer package could pose legal problems, if such package should contain non-negotiable items, since the bill does not in any way address this issue.

For the foregoing reasons, I am returning Senate Bill No. 237 without my approval.

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning herewith House Bill No. 113, entitled, 'A Bill for an Act Relating to the Land Use Commission.'

The purpose of House Bill No. 113 is to require the Land Use Commission to provide upon request public awareness and public education programs relating to the Commission's quasi-judicial procedures for reclassification of land and to require the Commission to assist the general public in the process of boundary amendments.

As originally introduced, House Bill No. 113 provided that such programs shall be made available at regular intervals. The bill was subsequently amended to provide that the Land Use Commission upon request shall conduct and provide such programs.

I fully support the purpose of providing informational programs to the general public. However, I am deeply concerned that requiring the Commission upon request to conduct and provide such programs

would impose too great an administrative burden on the Commission and will prevent the effective and efficient administration of the Commission's substantive duties. I believe that better over-all performance on the part of the Commission can be obtained, if the matter of providing informational programs to the public is left to the discretion of the Commission.

For the foregoing reasons, I am returning House Bill No. 113 without my approval.

"STATE OF HAWAII

June 9, 1977

STATEMENT OF OBJECTIONS
TO HOUSE BILL NO. 998

Honorable Members
Ninth Legislature
State of Hawaii

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning herewith House Bill No. 998, entitled, 'A Bill for an Act Relating to Bikeways and the Operation of Bicycles.'

The purpose of this bill is to provide for definitions of facilities for bicycles and to clarify certain laws regarding their use.

However, it is my belief that the bill does not accomplish its objective. I note, for example, that section 1 of the bill adds four new definitions to Section 291C-1, Hawaii Revised Statutes, the fourth of which defines 'bikeway' and attempts to include the other three by stating, 'It includes all of the above terms.' However, Section 291C-1 is an alphabetical listing of terms defined and, when 'bikeway' is inserted alphabetically in the section, the term will include 'Alley', 'Arterial street', 'Authorized emergency vehicle' and 'Bicycle'. It is apparent that this was not intended. An equally absurd result will occur, if the new definitions are added at the end of the section.

It is also noted that section 2 of the bill amends Section 291C-38(b), Hawaii Revised Statutes, to provide for the use of white lines to separate bicycle lanes from vehicular traffic lanes moving in the same direction. However, Section 291C-38(b)(1) already provides that white lines shall be used to separate lanes of traffic flowing in the same direction. In addition, this section also adds a new item to Section 291C-38(c) to provide that a solid white line is to be used to designate a bicycle lane. However, a solid white line is already used (1) to indicate the edge of a traffic lane where travel in the same direction is permitted on both sides of the line (Section 291C-38(c)(3)); and (2) to indicate the right edge of pavement (Section 291C-38(c)(4)). I believe the use of white lines for so many different purposes will only create confusion and detract from traffic safety.

Section 4 of the bill amends Section 291C-145(c), Hawaii Revised Statutes,

and refers to bicycle lanes as being 'adjacent to the roadway'. This is inconsistent with the definition of 'bicycle lane' which is defined as a 'portion of any roadway'. Furthermore, this section appears to mandate that the counties prohibit the use of motorized bicycles on bicycle lanes and bicycle paths, a result I do not believe was intended.

Because of the inconsistencies and ambiguities, it appears that the bill, if permitted to become law, will cause much confusion. Moreover, it is noted that the violation of any of the provisions of Chapter 291C, Hawaii Revised Statutes, is a misdemeanor, but there will be difficulties in the implementation and enforcement of the law due to the possible constitutional problems that could arise.

For the foregoing reasons, I am returning House Bill No. 998 without my approval.

STATEMENT OF OBJECTIONS
TO HOUSE BILL NO. 1173

Honorable Members

State of Hawaii

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning herewith House Bill No. 1173, entitled, 'A Bill for an Act Relating to Hawaiian Homes Commission Act, 1920, as amended.'

The purposes of this bill are (1) to consolidate certain funds which are administered by the Department of Hawaiian Homes Lands by function and source; (2) to standardize terms; (3) to add two new funds as depositories for interest charges and borrowed money; (4) to define parameters for use of various funds; and (5) to increase the amount of the loans made by private lenders that the Department may guarantee.

In addition, the bill contains a provision which would increase the aggregate amount of the receipts from State sugar cane leases and water licenses (called 'Additional Receipts') to be set apart to the Department of Hawaiian Homes Lands from \$5,000,000 to \$7,500,000. The existing ceiling of \$5,000,000 has been reached. This increase in the Additional Receipts ceiling would thus constitute a continuing or standing appropriation of approximately \$600,000 a year for the next several years until the aggregate of the sums so set apart to the Department equals the amount of the increase, that is, \$2,500,000.

Because of the appropriation, the passage of House Bill No. 1173 on final reading before the general appropriations bill was in contravention of the State constitutional provision that no 'appropriation bill. . . shall be passed on final reading until. . . the general appropriations bill, shall

have been transmitted to the governor.'

Although the bill has merit, for the foregoing reason I am returning House Bill No. 1173 without my approval.

Unless submitted to the Senate, such questions shall be decided without debate by the presiding officer, subject to an appeal to the Senate. Laying such appeal on the table shall be held as sustaining the ruling of the presiding officer.

(2) Any question of order may be submitted to the Senate for its decision.

Rule 68. Debate: General Limitation

The President shall then call upon all voting in the negative of the question to vote "No." The President shall then announce the result to the Senate.

(3) If any member shall doubt the result, as announced, the President shall again state the question and call upon the members to vote by rising in their places, and they shall remain standing until counted, and the result shall be again announced.

(4) The method of voting by ballot shall be as customary. The President shall appoint one or more tellers, or direct the Messengers to collect the ballots, which shall be counted by the Clerk, and the results announced by the President. Each member, when called, shall vote in a clear loud voice, "Aye," if voting in the affirmative, or "No" if voting in the negative. The Clerk shall record each vote and such record shall become a part of the Journal of the Senate. The President shall announce the results as above set forth.

(6) With the unanimous consent of the Senate, the President may direct the Clerk to record an "Aye" vote for each member of the Senate. If there is no objection, the Clerk shall so record the vote. If there is objection, the President shall ask for the names of the members voting "No" and order the Clerk to record no votes for them.

Rule 70. Voting: Rights of Members

(1) No member shall, on any account, refrain from voting unless excused by the President. A member may vote "Kanalua" the first time his name is called by the Clerk on any vote, but if he votes "Kanalua" on the next call of his name, his vote shall be recorded as "Aye."

(2) The President may excuse a member who has a monetary interest in the question, or whose right to a seat in the Senate will be affected by the question, or whose official conduct is involved in the question. If a member thinks he or she may have such a personal interest in the question, the member shall rise and disclose the interest to the President. The President then shall rule whether the member has a conflict of interest. If so, the member shall be excused from voting.

(3) Whenever the Ayes and Noes are called, no one, without unanimous consent, shall be permitted to explain his vote.

For the punishment of any person not a member, the provisions of Section 19, Article III, of the Constitution shall govern.

Rule 78. Decorum: Recording of Debate Called to Order

If a legislative matter which affects a member's interests arises before the member has made a disclosure to the Ethics Commission and the President, the member shall orally disclose his or her interest to the Senate before voting. The member then shall immediately make the written disclosure required by law and the Rules of the Senate.

Any member who has filed a disclosure as required by this Rule need not make a further oral disclosure on the Senate floor of any interest so filed.

All disclosures filed with the President shall be available for examination by the public.

Rule 82. Violating Confidence

If any matter covered in Rule 33 or 34 shall be disclosed by any Senator, he shall be liable to censure, or, by a two-thirds vote, to suspension or expulsion from the Senate. If an officer or other person authorized to hear such matter shall disclose the same, such officer shall be dismissed and such other person shall be liable to punishment for contempt comparable to the punishment provided for by Section 19, Article III, of the Constitution and in the manner as therein prescribed.

PART X. QUESTIONS TO STATE OFFICERS

APPENDIXCONSTITUTIONAL PROVISIONS RELATIVE TO
PROCEDURES IN THE EVENT OF VETO

ARTICLE III

Sec. 17. Every bill which shall have passed the Legislature shall be certified by the presiding officers and clerks of both houses and shall thereupon be presented to the Governor. If he approves it, he shall sign it and it shall become law. If the Governor does not approve such bill, he may return it, with his objections to the Legislature. He may veto any specific item or items in any bill which appropriates money for specific purposes by striking out or reducing the same; but he shall veto other bills, if at all, only as a whole.

The Governor shall have ten days to consider bills presented to him ten or more days before the adjournment of the Legislature sine die, and if any such bill is neither signed nor returned by the Governor within that time, it shall become law in like manner as if he had signed it.

The Governor shall have forty-five days, after the adjournment of the Legislature sine die, to consider bills presented to him less than ten days before such adjournment, or presented after adjournment, and any such bill shall become law on the forty-fifth day unless the Governor by proclamation shall have given ten days' notice to the Legislature that he plans to return such bill with his objections on that day. The Legislature may convene at or before noon on the forty-fifth day in special session, without call, for the sole purpose of acting upon any such bill returned by the Governor. In case the Legislature shall fail to so convene, such bill shall not become law. Any such bill may be amended to meet the Governor's objections and, if so amended and passed, only one reading being required in each house for such passage, it shall be presented again to the Governor, but shall become law only if he shall sign it within ten days after presentation.

In computing the number of days designated in this section, the following days shall be excluded: Saturdays, Sundays, holidays, and any days in which the Legislature is in recess prior to its adjournment as provided in Section 11.

Sec. 18. Upon the receipt of a veto message from the Governor, each house shall enter the same at large upon its Journal and proceed to reconsider the vetoed bill, or the item or items vetoed, and again vote upon such bill, or such item or items, by ayes and noes, which shall be entered upon its Journal. If after such reconsideration such bill, or such item or items, shall be approved by a two-thirds vote of all members to which each house is entitled, the same shall become law.
