

EIGHTH DAY

Friday, January 26, 1990

The Senate of the Fifteenth Legislature of the State of Hawaii, Regular Session of 1990, convened at 11:35 o'clock a.m. with the President in the Chair.

The Divine Blessing was invoked by Sister Angela Faustina of the Sisters of St. Joseph of Corondelet, after which the Roll was called showing all Senators present with the exception of Senator Crozier who was excused.

The President announced that he had read and approved the Journal of the Seventh Day.

The following introductions were made to the members of the Senate:

Senator Holt introduced Mr. Jimmy Lota, former Punahou School football and basketball star, who was sitting in the gallery.

Senator McCartney introduced Mr. Joe Charles of Kahaluu, "a very good friend who works for the Boy Scouts of America Aloha Council, lobbying for a gang prevention program sponsored by the Aloha Council."

MESSAGES FROM THE GOVERNOR

The following messages from the Governor (Gov. Msg. Nos. 82 and 83) were read by the Clerk and were placed on file:

Gov. Msg. No. 82, transmitting the 1989 Report to the Governor for fiscal year ending June 30, 1989, from the Department of Transportation.

Gov. Msg. No. 83, transmitting the 1989 Annual Report of the High Technology Development Corporation, pursuant to Act 152, SLH 1983.

INTRODUCTION OF SENATE BILLS

On motion by Senator Blair, seconded by Senator Reed and carried, the following bills passed First Reading by title and were placed on the calendar for further consideration on Monday, January 29, 1990:

Senate Bill

No. 3430 "A BILL FOR AN ACT MAKING AN APPROPRIATION FOR A BY-PASS ROAD IN WAIMEA, ISLAND OF HAWAII."

Introduced by: Senator Solomon.

No. 3431 "A BILL FOR AN ACT RELATING TO THE CENTRAL OAHU YOUTH SERVICES ASSOCIATION."

Introduced by: Senator Hagino.

No. 3432 "A BILL FOR AN ACT RELATING TO COURT OFFICERS."

Introduced by: Senator Reed.

No. 3433 "A BILL FOR AN ACT RELATING TO REAL ESTATE BROKERS AND SALESPERSONS."

Introduced by: Senator Blair, by request.

At 11:41 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:44 o'clock a.m.

ORDER OF THE DAY

STANDING COMMITTEE REPORT
and
THIRD READING

Stand. Com. Rep. No. 1901 (S.B. No. 2330, S.D. 1):

Senators B. Kobayashi and Yamasaki, for the Committee on Education and the Committee on Ways and Means, presented a joint report (Stand. Com. Rep. No. 1901) recommending that S.B. No. 2330, S.D. 1, pass Third Reading.

Senator B. Kobayashi moved that Stand. Com. Rep. No. 1901 be adopted and S.B. No. 2330, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Yamasaki.

Senator George rose to speak in favor of the bill, with certain reservations, as follows:

"The four-month test of A+ is described as a 'pilot program.'

"Serious changes in our activities are usually tested out on a small scale. We pick a sample and see how the innovation works, then implement the full-on change on the basis of what we learn from the trial. We may make significant changes on the basis of the small-scale trial. Or, if the pilot shows it isn't effective, we forget that solution and go back to the drawing board.

"It's like working in a laboratory, or with a small control group, before you go public with a new medicine or a new food or any new product.

"A+ presents a real deviation from this process.

"It will put in place statewide a major new program -- variously described as educational or custodial -- which will seriously affect private-sector efforts to handle the problem of after-school child care. I gather it will probably wipe out the useful program undertaken by Maui County.

"I have reservations, Mr. President, about the almost irreversible character of this trial of the A+ project, as well as about the tardy involvement of the Legislature in its implementation.

"I am reminded, Mr. President, of what the Red Queen said to Alice -- 'Sentence first; verdict afterward.'

"In a way, Mr. President, I will vote 'aye' on this bill with my fingers crossed. I want A+ to work -- but wish we had a little more time in the laboratory."

Senator B. Kobayashi rose to speak in support of the measure and said:

"Mr. President, the A+ program is a pilot program which, undoubtedly, will have some problems. It is however a major breakthrough and will afford statewide participation in an after school care program that is of high quality. It is a program that will put Hawaii in the forefront of the nation in providing an educational-enriched supervisory and care program throughout the state. This first time achievement in the nation will be watched by many individuals.

"We have been heartened by support and inquiries from various states in our nation as well as the Children's Television Network which has indicated that they would be willing to support the A+ program by allowing A+ to use some of their copyrighted TV programs for viewing by the children.

"This program is indeed a pilot and we need to work in several areas when we commence with the September 1990 version. These areas include who is eligible to the program; it includes whether parts of this program should be let out by contract or voucher; it includes an additional set of interactions with private providers, some of whom have either changed their location, have merged with A+, have been displaced to other locations, have discontinued their program, or continued their program with fewer numbers of participants. A note of clarification on this point.

"The Maui County program for parks and recreation will continue. It will continue in an abbreviated form and the Department of Education through the district superintendent on Maui has made efforts to offer sites within DOE schools for the Maui County program. There will be some program sites in DOE schools and some programs on county park property.

"I think this program should be looked upon as an initial attempt to deal with a massive problem that is one part social services and one part educational. It is in fact the hybrid nature of this program that makes it difficult for some people to really understand. It seems, from my perspective, that support for this program has in a sense been more uniform amongst the child care and social services sector than the educational sector. This is, of course, ironic because the responsibility of this program has been placed upon the Department of Education and the Department of Education itself accepted the program somewhat reluctantly, especially at the start. It is now a full partner in the program and sees it as an opportunity to shoulder certain educational and extra-curricular activities, too many of which have been forced upon the Department of Education. The department hopes that in the future the A+ program can be looked upon as an adjunct to that school system. In the meanwhile, however, it is being treated as a supplemental program.

"I would urge that if members have any concerns which have not yet been addressed that we would be very willing to work with you in trying to resolve those concerns. For instance, I had attempted to develop a proposal that would extend A+ to include a very small number of students in a pilot project within a pilot project in a selected number of schools so that those currently not eligible could participate in the A+ program. Attempts to develop that idea could not be developed as quickly as our time schedule currently allows.

"I did receive a very thoughtful review of certain concerns from the YMCA. But neither the YMCA nor any other group presented me with any specific proposals for the modification of the A+ program. These discussions with the YMCA and other organizations will continue.

"For the information of members, the A+ program will allow many other programs to continue in spite of the fact that the A+ program has taken away clients from a large number of programs. There were originally only about four private profit-making programs in the state operating on school grounds. All four of these programs will continue in one form or another.

"I hope that we will be able to resolve more of the issues A+ has raised when we consider the September 1990 program, later on during the session. And, as I

said, I welcome your participation and ideas in developing those.

"As to the bill itself, I should note that there are only two small amendments that have been made. One in which the word 'shall' was changed to 'may' with regard to assessing students with a \$5.00 late-pickup fee. This was an inadvertent mistake which the lieutenant governor's office had originally not caught. They had intended that the program site directors be given the flexibility in assessing this \$5.00 late charge. The other amendment was to include the spending ceiling increase language without which this bill would be a defective bill.

"The bill also takes a particular tack in including \$5.6 million appropriated out of general funds. This \$5.6 million includes approximately \$4 million which would be in effect a state subsidy. The rest of the monies come from the fees and the federal lunch contribution or the snack contribution that the state will receive and eventually put into its general fund.

"We took this approach of appropriating monies from the general fund as opposed to accepting other language which have been presented to us by the lieutenant governor's office which would change a proviso section in the current budget to allow use of excess federal impact funds. The reason for that rests with a very important issue which the Legislature has not yet resolved and that is, what is the power of the Legislature versus the administration in spending millions of dollars of monies which have not yet been appropriated through the formal process of Legislature approval. Specifically, if we had allowed the other version to go through to allow the excess federal impact monies to be used to fund A+, the administration would have had as much as \$11 million to spend for A+. It could decide on its own, whether it spent \$5.6 million or \$5.7 million or even more. By capping the amount the administration is able to fund, we have in the short term addressed the issue of how much the Legislature would allow the administration to fund and, secondly, at least, sends a message to the administration that the Legislature feels that it cannot relinquish entirely to the administration the 'power of the purse.'

"Indeed, as you folks may know, even if the Legislature wanted to relinquish the 'power of the purse' to the administration we could not do that under our constitutional form of government with the separation of powers between three branches. So we have at least sidestepped the issue for now but I'd like to caution members that in the future we may again have to address this issue of standing up to protect the Legislature's 'power of the purse' in light of possibilities of end runs by the administration.

"With that note, I urge members to support this bill and ask that you continue with your attempts to seek solutions to some of the problems that have been uncovered by A+. Thank you."

Senator Chang spoke on the measure as follows:

"Mr. President, I rise to express my concern about the continued viability of programs offered by private non-profit organizations; specifically, those programs of the Metropolitan YMCA of Honolulu.

"I have discussed this matter with the chairman of the Ways and Means Committee and the chairman of the Education Committee and have been assured that they are monitoring the situation.

"As you know, Mr. President, the Metropolitan YMCA was a pioneering institution in providing after school

child care. Despite the fact that half of their programs will be terminated by the initiation of the state program, the YMCA has continued to support the establishment of the A+ program, believing that it meets a substantial public need. The YMCA has contributed to the development of policies and procedures for the A+ program because of their substantial experience in this area.

"I would like to commend the YMCA for supporting the program, both in spirit and in deed, despite its effect on their programs and I would like to join the YMCA in supporting the passage of this bill. Thank you."

Senator George then rose to ask if the chairman of the Education Committee would yield to a question. The President posed the question to the chairman, and the chairman having answered in the affirmative, Senator George asked:

"Mr. President, I respect and applaud the chairman's concern for legislative prerogative in this and in other areas. I am wondering how this can be worked into some sort of legislative evaluation of the experience of the pilot project, which will go through the current school year. I understand that a permanent version of the A+ project is, I gather, supposed to begin in September. Where is the opportunity for legislative input, based on the experience and the lessons that we will learn from the pilot, if we will move in September of this year into a permanent one? We won't be meeting again until 1991 unless the chairman has some hope or expectation of asking for the convening of a special session to evaluate the pilot."

Senator B. Kobayashi answered as follows:

"Mr. President, we will have at least two months of experience before we pass the final version of the September program. During that time I think we will learn at least a few things. Specifically and most importantly, in the next several weeks we will learn who will enroll in the A+ program. That by itself is a bit of a mystery. Getting some information about the characteristics of the participants in the A+ program will allow us to look upon which gaps might be filled."

"The procedural aspects of the A+ program in terms of how the registration, how the payments schedules and how the aspects of room cleaning, et cetera, will probably also be sufficiently under our belts so that we could have an evaluation of whether those aspects had been taken care of."

"As you know, there are monies in the A+ program to support extra clerical help in school offices, to support extra custodial services for after school cleaning hours. We have, in addition, however, other problems that we would have to deal with with regard to satisfaction of program, satisfaction of quality of staff used in the program, and those we may or may not have an opportunity to fully evaluate in this short period between now and end of this session."

Senator McCartney also spoke in support of the measure and remarked:

"Mr. President, I rise to speak enthusiastically in favor of this bill. First of all, I would like to commend Lieutenant Governor Cayetano for being a bold leader, taking a risk and coming out and putting the program on the table. We would be debating the issue today, were it not for his leadership in taking that risk. I would like to thank him for that."

"Also, I would be remiss if I did not thank my colleague, our Majority Floor Leader, for raising an

important constitutional question. I thank you, Senator Blair, for doing that because we may not be voting on this bill today were it not for you."

"I support the A+ program. I think it's a very good, progressive program that addresses a lot of concerns in the community. It is a historic, landmark piece of legislation. The first of its kind in the nation. We can be proud and should recognize that here today -- that we are making history."

"I agree with the chairman of the Education Committee and echo his concerns about the need to refine the pilot program before it becomes a permanent program. I also echo his concerns about opening up the program, addressing the concerns of private providers, because I do think there is a place for true partnership with private providers and the public in this program."

"I would also like to see something done, if we can address it, on the issue of private school students. I think we are going to be working hard this session to do it."

"The point I want to make, Mr. President, is that I want to see A+ work too. I think we all do. The children and the families that this program is designed to service are going to benefit and will really make good use of it. A+ is something we can all be proud of. Thank you."

Senator Tungpalan added her support to the measure and said:

"Mr. President, one of the unique features of the A+ program is the flexibility that is being built into it, according to the superintendent of education, yesterday, in our hearing in Ways and Means. He said that, in effect, parents, teachers, students and legislators will have a chance to review the program in progress and therefore will have that opportunity to promote and really see it progress and evolve into the kind of program that we need to care for the many kids who right now go home to empty, unsheltered places."

"I am told that there are something like 30,000 latchkey children out there who need this program but 19,000 applied and of that about 85% qualified. There is indeed much that needs to be done to improve the program so as to enable all latchkey students to attend the A+ program, but there is no way to do it unless we begin it and I'm sure that we are on the road to success, at least in meeting the needs of those children enrolled in the A+ program."

"I give my full support to the program and I urge everyone to do likewise. Thank you."

Senator McMurdo also supported the measure and said:

"Mr. President, any help that we can give to prevent latchkey children ending up in dangerous situations or especially in preventing any kind of drug abuse, I think, is worth it. I do feel that with all of the legalities of this issue, one thing we must keep our eye on is the fact that we are trying to protect our children and, I think, first and foremost that is what A+ is designed to do. Thank you."

Senator Holt requested a conflict of interest ruling by the Chair because his three sons may eventually participate in the A+ program. The Chair ruled that Senator Holt was not in conflict.

Senator Tungpalan also requested a conflict ruling by the Chair because her son is enrolled in the A+ program.

The Chair ruled that Senator Tungpalan was not in conflict.

Senator Blair, in support of the measure, said:

"Mr. President, I want to thank you, the speaker of the House and the governor for achieving the compromise with respect to the difference of opinion between myself and the lieutenant governor. Thank you very much."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 1901 was adopted and S.B. No. 2330, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO A PILOT AFTER-SCHOOL PROGRAM IN THE PUBLIC SCHOOLS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, none. Excused, 1 (Crozier).

RE-REFERRAL OF SENATE BILLS

The President re-referred the following Senate bills that were introduced:

- | Senate Bill | Referred to: |
|-------------|--|
| No. 3083 | Committee on Higher Education, then
to the Committee on Ways and Means |
| No. 3089 | Jointly to the Committee on Business
Development and Pacific Relations and the Committee on
Tourism, Recreation and Planning, and then to the
Committee on Ways and Means |
| No. 3242 | Committee on Human Services, then
to the Committee on Judiciary |

Senator Koki then rose to speak on a point of personal privilege as follows:

"Mr. President, on the surface the 2.0 rule to participate in sports and other extra-curricular activities may have some merit; however, I have had much complaint about the way it is being implemented.

"Extra-curricular activities, particularly athletics, have always been a good program to occupy the physically strong and active students who may otherwise get into mischief because of too much idle time.

"I am happy that some athletes respond positively by studying harder because of this rule. However, I am also concerned about the students who either cannot or may not be sufficiently motivated to attain this standard. They are the very ones who may benefit most from the teamwork, discipline, and self-esteem that results from a good athletic program. I have seen too many youngsters in the boys' home or prison who could have been helped by some intervention program. In my opinion, athletics may be one of the best types of intervention program going -- not only for students who do poorly, but for those who do well academically. Coaches stress a drug and alcohol-free lifestyle, and keeping out of trouble and gangs.

"I have been assured by the Board of Education curriculum chairman that they will work hard to amend the rule so that athletics can be a benefit to all students, including those who may have problems academically.

"I urge the Board of Education to recognize the temptations many of our youngsters face when they are not doing well in school and have a lot of free time. I am sure they realize that these students will not be tempted to study during their free time.

"With the assurance of the Board's curriculum chairman that the value of sports and extra-curricular activities for the academically poor student will be of great concern, I request the chairman of the Education Committee to withdraw S.B. 2243 to allow the Board of Education to rectify the problem internally. Thank you."

Senator B. Kobayashi responded:

"Mr. President, given the remarks of the previous speaker, I would like to announce that Senate Bill 2243, relating to public schools, more specifically to the 2.0

requirement for participation in extra curricular activities, scheduled on our agenda for Monday, January 29th, 3:00 p.m., will be deleted from the agenda. Thank you."

The Chair then re-referred Senate Bill Nos. 2328 and 2329 as follows:

"Members of the Senate, S.B. No. 2328 and S.B. No. 2329 are collective bargaining bills dealing with the University of Hawaii faculty. The governor has requested immediate passage of these bills. In order to expedite immediate passage of the bills, the chairman of Labor and Employment Committee has offered to waive the referral to his committee. Therefore, said measures, S.B. No. 2328 and S.B. No. 2329, are hereby re-referred to the Committee on Ways and Means."
