THE
EIGHTEENTH LEGISLATURE
STATE OF HAWAII
REGULAR SESSION OF 1996
JOURNAL OF THE SENATE

FIRST DAY

Wednesday, January 17, 1996

In accordance with the provisions of Section 10 of Article III of the Constitution of the State of Hawaii, the Senate of the Eighteenth Legislature of the State of Hawaii, Regular Session of 1996, was called to order at 10:00 o'clock a.m., by the Honorable Norman Mizuguchi, President of the Senate.

At this time, the members of the Senate and guests rose to sing the National Anthem and "Hawaii Pono" led by Ms. Nalani Choy, Ms. Lehua Kalima and Ms. Angela Morales of "Na Leo Pilimehana."

The Divine Blessing was then invoked by the Reverend Alan Urasaki of the Aiea Hongwanji Buddhist Temple, who was escorted to the dais by Senators Fukunaga, McCartney and Anderson.

The President then directed the Senate Clerk to call the Roll. The Clerk called the Roll showing all Senators present.

At this time, the President addressed the members of the Senate and guests as follows:

"Governor Cayetano, Lieutenant Governor Hirono, U.S. Senator Akaka, Congressman Abercrombie, Congresswoman Mink, Mayor Harris, Mayor Yamashiro, Mayor Lingle, Mayor Kusaka, future leaders of Hawaii, student representatives of the Hawaii State YMCA, distinguished guests from here and abroad, members of the Senate, people of Hawaii:

"Aloha and welcome to your home! It's good to be back.

"All of us can draw hope and inspiration from this chamber and from this capitol, once judged by a nationwide study to be the most open and accessible capitol among all the states in the Union. We will keep it this way.

"As we begin our work and address the people's business, the State's budget crisis will continue to command much of our attention. We are faced with two overriding financial issues. First, we must do whatever is necessary to keep expenditures in line with revenues. Second, we must look beyond the current crisis, take actions to set our financial house in order, and thereby lay the foundation for a stronger financial future.

"The budget crisis developed -- not just because revenues failed to increase as expected -- but because state spending exceeded current revenues for a number of years. Large sums of general fund reserves were used to balance the budget and to fund capital investment projects. A once healthy general fund surplus has dwindled to a dangerously low level.

"There is a simple but important lesson to be learned here. In good times we must set aside and safeguard

funds for the bad times that may be ahead. I propose that we apply this lesson by formally establishing a budget stabilization fund, better known as a rainy day fund, into which a good portion of any future surplus will automatically be deposited. The use of the rainy day fund would be subject to legislative appropriations for emergencies and certain specific purposes. The fund would conserve our resources, smooth out boom or bust cycles, and strengthen the State's position in the national financial markets.

"Other financial and budgetary improvements should be made, and these involve the essence of legislative authority -- the power to make appropriations, the 'power of the purse.' Over the years, the Legislature has allowed its power to be eroded through various provisions.

"One appropriation provision especially needs to be reconsidered. That is the provision which provides the administration with wide discretion to substitute general fund cash for capital improvements whenever bond financing is specified in the appropriation acts. In the recent past, hundreds of millions in general fund cash were used for capital improvements, which has certainly diminished the Legislature's capacity to fund the operating budget.

"Another aspect of capital improvements is that the Legislature must regain control of the capital improvements program. Today, there are hundreds of projects which have been authorized and are still on the books. No one can give us the whole picture of which projects are definitely going to be constructed, which projects are temporarily shelved, and which projects will never see the light of day.

"I recommend that we bring the capital improvements program back to reality. We will request the agencies to review all of their continuing appropriations, identify those that can be canceled, and submit updated timetables and justifications for those projects that are still needed.

"By taking these actions, we will strengthen the Legislature's authority, motivate better planning and implementation by state agencies, and enhance public accountability.

"We can do more. Hard times require sacrifices by all branches of government. Unfortunately, budget cuts loom largest for the executive branch. The legislative branch is the smallest branch. Still, it is the Legislature which has the power of the purse, and it is only fair that it should lead by example. I thank the members of the Senate for their rejection of the salary increase recommended by the Commission on Legislative Salary. I am now asking for your support in reducing the forthcoming appropriation to defray the expenses of the Senate.

"Hard times also severely restrict our ability to deal effectively with both old and emerging issues. However, at least one issue is so urgent, so needy of a solution, that it cannot be ignored. That issue is long-term care.

"We all know the conditions and circumstances which comprise the problem. Long-term care is priced out of the reach for all but the affluent. Most people needing long-term care have no option except to apply for Medicaid, which requires people to be poor before they can obtain care. Insurance is limited and expensive. No help is forthcoming from the federal level. Indeed, all signs point to a squeeze in Medicaid funding, with grave consequences for long-term care.

"The disabled, the infirm, the elderly -- the most vulnerable members of our communities -- deserve better than the prospect of economic insecurity and personal indignity. Many of you believe this. Many of you know how enormous the problem is for family and friends. That is why Family Hope -- a comprehensive program for long-term care -- was developed.

"The Legislature reluctantly placed Family Hope on the backburner, finding it too expensive to implement as a full-blown system. But we should not abandon it altogether. I propose that we arrange for funding sources which would not burden businesses or the general population. One possible source would be the earmarking of revenues from alcohol, tobacco and fireworks sales or a new source, such as shipboard gaming. I also propose that we first focus on those elements of long-term care which are less costly. These would include day care, home health care, and respite care. For the time being, we would postpone institutional care. Essentially, I am proposing a strategy of getting started, of doing now what is possible, instead of waiting for the complete solution at some distant time.

"I do not intend today to recite the whole litany of program issues deserving of your consideration, but I must address education. A quality public education system continues to be our most enduring -- yet elusive -- goal.

"Numerous schools are in various stages of implementing the concept of school-community based management. However, each school will eventually have to confront the problem and reality that its success is dependent on being able to plan for and control the use of its own school funds. A school cannot thrive under the Department of Education's system of funneling and controlling funds from the top down.

"The way to empower individual schools is to establish a system for school-by-school budgeting. Under school funding formulas, let each school plan and budget for the specific use of its resources, and provide each school with the widest possible latitude in implementing its budgets. This system must be supported by requiring DOE to make it easy for schools to procure and obtain resources and keep paperwork to a minimum. I will ask our Education Committee to develop a system of school-by-school budgeting for the next biennium.

"I will also ask the Education Committee to consider a program to put back on track those problem students who face expulsion from school and who are then greatly at risk of being lost to society. The program would offer incentives to private businesses to place these at-risk young people in useful and gainful employment while they complete their education through the G.E.D. adult education program. Through effective intervention, we can prevent future criminal behavior and help these young people to become law abiding and productive citizens.

"Our large unfinished business is auto insurance reform. While the Legislature passed a bill which we believe would have greatly reduced premiums, it was vetoed, and we must try again. The Committee on

Consumer Protection will tackle the issue with public hearings right away, and the Senate will seek to reach agreement with the House and the administration on reforms to replace the present expensive system, which simply does not work in the public's interest.

"As with auto insurance, we will be looking for alternatives to those state programs that do not work and have not achieved the results expected. In these hard economic times, we will especially scrutinize those programs which are supposed to stimulate economic development. The bottom line is the creation of jobs, and programs that do not achieve this result will be redesigned, reduced or eliminated.

"In four short years, we will enter the 21st century. It can be a future of opportunity if we have the foresight to make adequate preparation and plans. My vision for Hawaii is that we will make a long-term commitment to human resources development, including the extensive upgrading of our educational institutions and job training centers, so that our people can develop to their potential and live rich, full lives.

"I suggest that we make plans for the convening of a Commission on Hawaii in the 21st Century to be comprised of scholars and business and labor leaders. The Commission would have the initial responsibility of planning and carrying out a series of activities similar to the impressive scope of the Commission on the Year 2000, which was so productive and challenging back in 1970. At the top of the Commission's agenda would be jobs and their creation in the new information age.

"Also looking to the future and the great potential of our ocean resources and opportunities, I propose that we convene an international ocean summit involving technologists and potential corporate investors. This ocean conference would focus on real projects for financing. In 1992, Hawaii hosted a blue-ribbon panel called 'Ocean Resources 2000.' The result was a national strategic plan for the ocean and recommendations for a number of ocean projects for the country. We should now move toward selecting what projects would be best for Hawaii and the Pacific.

"This morning I started my remarks with the unhappy observation that we must set our financial house in order. I have ended them with a somewhat more hopeful look at the future.

"I cannot say with complete assurance that this is the year when pessimism will be replaced by optimism. But I can tell you that our outlook is positive, that our agenda is full and challenging, and that our resolve to succeed is great.

"Senators, let us begin! Thank you."

Senator Liu, Minority Leader of the Senate, then responded as follows:

"Mr. President, thank you for recognizing me. Greetings to you and to all those assembled here this morning; to those who may be watching, and most importantly, to those who are truly listening.

"Mr. President, these are very serious times indeed. We know that unemployment in the counties of Kauai (9.5 percent), Maui (6.7 percent), and Hawaii (8.6 percent) are way above the national average (5.4 percent) and lower unemployment on Oahu only masks the extent of underemployment in this state. The year 1995 ended as a record year for bankruptcies (for the fifth year in a row); foreclosures were up 27 percent; and evictions were at an all-time high.

"And although some economists have said that our current problems may appear worse than they are because we have been used to higher than normal growth rates, this patronizing analysis assumes that everyone was getting rich back then, when in fact, then as now, working people -- the middle class -- were living pay check to pay check, and that has not changed. The cost-of-living differential between here and the Mainland has not dropped appreciably. I challenge anyone to explain to a family of four, with mom and dad working, that they should be thankful that instead of 39 percent, it now only costs 34 percent more to live in Hawaii than it does on the Mainland.

"Mr. President, the price of paradise has not improved for Hawaii's people, and coupled with a limping economy, it should be no surprise that consumer and small business confidence is low. And that rightfully translates into a lack of public confidence in what goes on here, across the rotunda and on almost every level of this building. Because as bad as things may be today, January 17, 1996, they are not very different from the conditions on May 1, 1995, when this body passed a budget that the head of finances for the State characterized just last week, as one which was in balance, oh perhaps for as long as 24 hours.

"On that day on the Senate floor, I warned that we had 'a budget that balances for the moment.' I said that 'it does not anticipate ... further slowing of revenues And it is a budget which relies on sucking another \$130 million out of the private sector economy to pay for ... big government ... which ... will only make it more difficult for most people to make ends meet and (more difficult to) support the private sector which needs those dollars free of any detours through government just to maintain the meager growth rate which exists right now.'

"But my words and all of the signs of economic hemorrhaging were effectively ignored, and instead of recognizing reality, a budget bigger, bigger than the last one, became law. This was a budget built on increased tax collections ... a budget built on failure, and thus itself doomed to fail.

"This is why, as serious as these times are, Mr. President, the public out there finds it hard to take us seriously.

"They ask how anyone in the Legislature can be serious about raising taxes.

"They ask how lawmakers can be serious about defending the 'high three' pension bonus to legislators picked for executive or judicial appointments.

"And they ask in all seriousness, how it is that Hawaii is on the verge of being the first in the nation to permit marriage between persons of the same sex without the ability to address that issue through the ballot box.

"They ask such questions, Mr. President, and in hearing very little to engage the mind or inspire the heart, I fear that for every person still listening, three, four, or more have given up caring altogether.

"Voting patterns show that Hawaii ranks at the bottom of people eligible to vote who took part in the 1994 elections. With every passing election, a smaller and smaller minority of people select the political leadership in our state.

"This is not the politics of blame, Mr. President, as some might charge. I am talking about political responsibility and leadership. People in Hawaii know

that Republicans have been consistent and clear in our support for smaller government; for helping small business; and cutting taxes and insurance costs which will lead to more money in the family budget and less money for the state budget.

"But it is less clear where the majority party stands ... some days sounding like Republicans, albeit without much conviction; and on others, sounding like throwbacks to the days of the 'Great Society' and its formulas for more taxes, and more of the same in government spending.

"This has confused, and added to those believing that it matters not what our state government does, since it cannot seem to chart a course; and therefore, institutions like the courts and external factors like the Japanese yen, California economy, Washington, D.C., or military branch relocations control our futures. This lack of direction leads people to the attitude that maybe elected state officials don't count ... to a sense that we will forever be reactive and scrambling to catch up.

"But, Mr. President, thank goodness that there are sources of power outside of these walls. I see that power in the voters on the Big Island, ready to create a new body politic in that county in November.

"There are nonprofit organizations like Kauai's Habitat for Humanity, that operate on principles based on entrepreneurship and community.

"And then there are the small businesses of Hawaii -- the Ron and Judy Kimura's (Hawaii International Movers); the Bill and Joyce Edwards' (The System Center); the Wayne and Jean Fukuda's (Something Special); the Desmond and Jo Byrne's (Honolulu Information Service), who have, despite great odds, provided jobs, services and products for Hawaii's people.

"These groups and individuals have survived in spite of, despite of and independent of the heavy hand of government. As much as has been within their power, they have seized the reins of their own destiny.

"So it is for these other 'sources of power' out there, Mr. President, rooted in the real world, and the thousands of others like them that I and other Republicans here will be relentless in trying to break the shackles of a plantation approach to government that is moribund, suffocating, and condemning Hawaii's future to that of a backwater of broken dreams and tired tales of what might have been.

"Ominously, darkly, Churchill, in commenting on his government's inertia and inaction, in 1935, said:

'When the situation was manageable it was neglected, and now that it is thoroughly out of hand, we apply too late remedies which then might have effected a cure. There is nothing new in this story ... want of foresight, unwillingness to act when action would be simple and effective, lack of clear thinking, confusion of counsel, until the emergency comes, until self-preservation strikes its jarring gong -- these are the features which constitute the endless repetition of history.'

"If these words ring true, then surely, Mr. President, it is time for us to change.

"And although I hold out little hope for such change, for all our sakes, prove me wrong in 1996, so that we may avoid history's repetition for our beloved Hawaii ... so that we may prepare, instead, to be at the forefront of opportunity and innovation in time for the beginning of the next millennium.

"Thank you, Mr. President."

At 10:40 o'clock a.m., the Senate stood in recess subject to the call of the Chair. At this time, the members of the Senate and their guests were entertained by "Na Leo Piliamehana," "The Brothers Cazimero" and Leinaala Heine.

The Senate reconvened at 11:23 o'clock a.m.

At this time, Senator Holt introduced and welcomed the leaders of the following Native American Indian tribes: the Oneida Tribe of Wisconsin, the Manshantucket Pequot Nation of Connecticut, the St. Croix Chippewa Nation of Wisconsin, the Narraganset Nation of Rhode Island, and the Nunamiut Eskimos of Akaktuvuk, Alaska. All of the guests were presented Senate certificates and leis by various Senators.

At 11:51 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:56 o'clock a.m.

Senator Anderson rose on a point of personal privilege and stated:

"Mr. President, I rise on a point of personal privilege.

"Mr. President, it's unusual but I have written some comments that I would like to incorporate into the Journal. As you know I normally don't do that, but I would like to make a few comments and primarily the written comments because I didn't want to forget anything. I normally don't write everything down when I speak.

"Mr. President, I have listened, watched and read what all of you had to say about how we are going to move toward economic security. There is not one of us here today who has served at least four years in government service that can blame one or the other for the condition that our State is in today. We are all to blame.

"Mr. President, we have to help the State move forward not only by decreasing government but to take the lead, and I mean the Senate, in getting jobs for our people. I have heard that the ball is in the House of Representatives' court as far as gambling. This is not true. There is only one bill, Mr. President, and that is for shipboard gambling that is in that court. This particular bill has given us a fair idea of the many jobs that could be generated both on land and sea. It gives us an idea of how it would be beneficial to our tourist industry and a segment of our community. But we have to have serious hearings on horse racing for the Big Island and how that could create a whole new industry. I believe that it would not only provide jobs at a race track but it would (because of the available lands) create new jobs for people who would breed animals on the Big Island. This also means the building of homes; stables and such. It would help create a better situation for our diversified agriculture, in the area of feed and other commodities that could be used. This would also help the people who are used to working on the plantations and the economy could be stimulated in many other ways with proper public hearings.

"The lottery, Mr. President, has been on-going for many years, but I believe poorly studied and very poor public hearings held that would provide those that are pro or con on whether it will really provide the jobs and provide the dollars that would help our economy. We haven't given proper hearings for the lottery like putting it in the evenings so we can go out, not the House of Representatives, but us -- the Senators. They look to us to lead, and if we're not going to lead, then we're going to become followers. But we have to go out into the community and find out if in reality there are going to be jobs. Is it going to give us the dollars that will help our economy? We have to look at all of these things, Mr. President.

"We have been working on improving trade in the Pacific, but, Mr. President, Washington -- the people in Congress -- are not only interested in the Pacific as we are, they are also looking at amending antiquated types of legislation that could help Hawaii. They are looking at the possibility of repealing all or part of the Jones Act. I personally believe that the Jones Act has prevented us from competitive freight rates. And I also believe that we have lost the initiative to be competitive. We have to move, Mr. President, and not wait to see if Congress is going to repeal all or part of this Act. We have to move to upgrade our harbors that generate \$27 million a year and that is now. If shipping is improved it will not only bring costs down for businesses but it will help the consumer in the area of purchasing of goods, which will also, Mr. President, as I have mentioned in other bills, help our diversified agriculture industry. Last, but very important, it will provide more jobs for our people who have worked, and are now working, and those who would like to work in the harbors.

"Mr. President, with these things that I have mentioned, we will move our economy in the area of tourism, construction, diversified agriculture, new entrepreneurs, and harbors, but more importantly, it would help the overall economy because there will be new dollars that will be flowing through the system which will move our State forward.

"So I ask you, with all the other bills that we have, consider these things because the people of our State are looking to us to lead, and not to follow. Thank you very much, Mr. President."

Senator Holt also rose on a point of personal privilege and stated:

"Mr. President, I'd like to rise on a point of personal privilege.

"Mr. President, I have distributed to all the members a couple of newspaper articles and a sheet on the chronology of events relating to H.B. No. 1927, H.D. 1, S.D. 1. I would just like to state for the record to clarify what happened last session, but more so to alert the committee chairmen who receive bills from the House that they amend and the House passes out without going to conference and without amending it, that this is what might happen to you as has happened to me in an article written by Richard Borreca. He states that the bill that we passed, which amended a House bill, provides the Business Registration Division of DCCA the authorization to set a commercial value on some information that is being used for commercial purposes in the private sector.

"We amended the bill in committee and I have it all here in this chronology. The question was asked of the Division Director. He provided us with a memo from the Attorney General. In that memo from the Attorney General was a draft of legislation that they felt was necessary for authorization. It was discussed in that hearing. We had open public decision-making in that hearing. The bill was then passed out of committee on a roll call vote. It came down to the Senate where we passed it out of here and over to the House. And as you see on the second page of the chronology of events, the House disagreed with the Senate amendments. They appointed conferees on this particular bill, and they have the names of the conferees. So apparently the House did know that there was an amendment made by the Senate. However, come May 1, 1995, they reconsidered their action on the disagreement and moved to agree to the Senate amendments and all 51 members of the House voted for the bill.

"In essence, Mr. President, the article that was written this past Monday accuses me of pushing bills through without public hearings and not allowing people to testify. I think, Mr. President, there are a lot of bills in this process that we pass from one house to the other where the other body does not amend the amended bill that comes back, and it is moved out in agreement. Those have not brought anywhere near the attention that this particular bill does. And I just hope, for clarification purposes, that this body understands what happened, despite the article, and that all chairmen recognize that the process which we go by in this body is that if something illegal was done, it should be taken to the right authorities. But in this particular case what we did was perfectly legal. It was not done in a rush. The bill sat in the House for many, many days. And I don't think it's deserving of the kind of comments that we received publicly.

"Thank you."

REFERRAL OF SENATE CONCURRENT RESOLUTION

The President made the following committee assignment of a concurrent resolution that was offered on Friday, January 19, 1996:

Senate Concurrent Resolution	Referred to:
------------------------------------	--------------

No. 1	Jointly to the Committee on Communications and Public Utilities and the Committee on Consumer Protection
-------	--

At 9:43 o'clock a.m., on motion by Senator Ihara, seconded by Senator Liu and carried, the Senate stood in recess subject to the call of the Chair to meet in Joint Session with the House of Representatives, in accordance with House Concurrent Resolution No. 2, to receive the Governor's state of the state address.

JOINT SESSION

The Joint Session of the Senate and the House of Representatives of the Eighteenth Legislature of the State of Hawaii, Regular Session of 1996, was called to order at 10:09 o'clock a.m. by the Honorable Joseph Souki, Speaker of the House of Representatives.

At this time, the Speaker welcomed and introduced the following distinguished guests to the members of the Eighteenth Legislature:

Ms. Samantha Cayetano, daughter of Governor Cayetano;

The Honorable Mazie Hirono, Lieutenant Governor of Hawaii. She was presented leis by Senator Les Ihara, Jr., and Representative Dennis Arakaki;

The Honorable Ronald T.Y. Moon, Chief Justice, Hawaii State Supreme Court. He was presented a lei by Senator Malama Solomon;

The Honorable Jeremy Harris, Mayor of the City and County of Honolulu, and Mrs. Harris;

The Honorable Stephen Yamashiro, Mayor of the County of Hawaii;

The Honorable Keiko Bonk-Abramson, Hawaii County Council Chair;

The Honorable Ron Kouchi, Kauai County Council Chair; and

Major General Jan Wepster, Deputy Commander, Army National Guard, USARPAC.

The Speaker then appointed Senators Rosalyn Baker, Mike McCartney and Michael Liu, on behalf of the Senate, and Representatives Paul Oshiro, Tom Okamura and Gene Ward, on behalf of the House of Representatives, to escort the Honorable Benjamin J. Cayetano, Governor of the State of Hawaii, to the rostrum.

Senator Donna Ikeda and Representative Annelle Amaral presented Governor Cayetano with maile and ilima leis.

The Speaker then presented to the members of the Eighteenth Legislature and guests the Honorable Benjamin J. Cayetano, Governor of the State of Hawaii.

The Governor addressed the Joint Session as follows:

"Thank you very much, Mr. Speaker. I was wondering if Earl Anzai is here. Some of you may have noticed his new hair style. I just wanted to say that the rumor that we are shipping him off to Texas is untrue. (Laughter.)

"Good morning and aloha!

"Mr. President, Mr. Speaker, members of the State Legislature, Lt. Governor Hirono, Chief Justice Moon, Mayor Harris, Mayor Yamashiro, members of the City and County Councils, members of the Consular Corps, our friends from the military, honored guests, my fellow citizens:

"Before I begin my second State of the State address, I want to thank my family, my friends, my cabinet, my hardworking cabinet, for the support they gave me over the past year. They were there when I needed them and I will never forget it. In my first State of the State address, I focused almost entirely on the State's budget crisis. This morning, I ask for your indulgence as my address will be a bit longer than last year's. I intend to cover a bit more.

"My administration took office in the midst of the longest economic slump in Hawaii's history. We found ourselves facing the worst fiscal crisis in our State's history.

"After only 45 days in office, we were forced to take action, and we did. First, we cut spending. I gave education the highest priority. The Department of Education was cut only 3.1 percent, the University of Hawaii 8.9 percent, while most other departments experienced cuts ranging from 10 to 22 percent.

"Second, fourteen programs were eliminated and many others were downsized.

"Third, we abolished nearly 1,200 jobs, including 600 warm bodies.

"It was not easy. It was painful. It had to be done, and we did it. Today, there are 2,750 fewer employees in the Executive Branch of the State government than there were one year ago.

"State spending has fallen for the first time in years. Today, the State spends less than it did in 1993.

"We have made good progress toward restructuring. I want to give you some examples.

- The Department of Accounting and General Services has cut the average building time for a classroom by one-third. We think we can do better with your help.
 - The Department of Health, with Transportation and Land and Natural Resources, developed a team approach to permit approvals. In four months, they cleared up a \$400 million backlog in federal Clean Water permits for construction. One of these projects was the \$78 million Ford Island Causeway. Two weeks ago, ground for this project was broken.
 - We cut sick leave and overtime abuse at the prisons, and at Halawa alone, we saved \$1 million in overtime costs.
 - Our Tax Department has been innovative, streamlining the filing process with a one-page individual income tax form. Tax information is now on the Internet. Electronic filing of a tax return is now being developed.
 - Our libraries -- also innovative. Using technology, our libraries have increased by more than seven times the newspapers and magazines local readers can access. There are some wonderful stories at the library. It tells you a little bit about what the human spirit can do when called upon. The Kailua Library, for example, used the innovative self-directed work team approach. This is the approach where the janitor will help the person at the counter, and the person at the counter will help the janitor when time permits. And using that approach, with less people, the Kailua Library increased its reader output from one thousand to two thousand books a day. Today, library hours have been restored to what they were before the fiscal crisis.
 - We have also just implemented a pilot program to put all State bid notices, requests for proposals, and other legal notices on the Internet. When fully implemented, it will save the taxpayers millions of dollars in newspaper advertising costs.
- "Now, let me turn to our current efforts to deal with the budget crisis.
- We propose to consolidate or eliminate State boards, commissions and other bodies which we believe are unnecessary or outmoded.
 - We propose to abolish the Hawaii Labor Relations Board, the old HPERB, the Board of Human Services, the Fisheries Coordinating Council, and other outmoded bodies.
 - We propose to abolish the State Office of Planning and the Office of Children and Youth, moving their necessary functions to appropriate departments.
 - We propose to phase out the Land Court.
 - We propose a single Office of Housing. This will consolidate the Hawaii Housing Authority, the Housing Finance Development Corporation, and the Rental Housing Trust Fund.
 - We propose that the Hawaii Labor and Industrial Relation Appeals Board be restructured so that each

member of the three-member panel can hear cases singularly. This is to reduce their backlog of cases.

- We propose to reform our Civil Service System.

"No other event demonstrated the need for reform more than the recent layoffs of 600 State employees last year. The specter of mostly young and oftentimes excellent State workers being dumped solely on the basis of seniority could be defended, I suppose, thirty years ago when the individual worker had few legal rights to defend him or herself from ruthless employers. Then, seniority was a useful and much needed right. It makes little sense for us today to let this practice continue.

"If we want to make government better, we must reform the Civil Service System to include merit along with seniority as a factor in determining an employee's rights. In this connection, I am truly pleased to know that the Hawaii State Teachers Association and the University of Hawaii Professional Assembly have publicly expressed their support for a merit-based system. To the unions, I say, we are ready and willing to work with you and the Legislature in considering these reforms.

"I cannot tell you today that our fiscal crisis is over. But we are in a better position than we were one year ago. Working together, I think we will do better again next year. We have submitted our financial plan. It has been carefully constructed. If you disagree with our recommendations, we are open to your ideas.

"But in order to avoid massive layoffs, you must replace spending cuts or revenue increases, dollar for dollar. For example, our proposal to save \$47 million through a one-time payroll lag has been criticized. That \$47 million represents approximately 1,300 State jobs.

"We will join and we applaud both the House and Senate in your effort to establish a 'rainy day' fund. This is something that is long overdue and we're happy to join you. We have a constitutional duty to balance the budget. Working together, I know we can do it.

"Let me now turn to discuss some of the priorities of my administration.

"Our ability to fulfill our dreams and meet our responsibilities -- for social services, to protect the environment, to offer each child a quality education -- are all tied in to the strength of our economy. That is why restoring economic momentum is my top priority. I will be releasing a report entitled, Restoring Hawaii's Economic Momentum, prepared by Dr. Seiji Naya. This report covers comprehensively our economic development plan. I urge you to read it because my address today, although extensive, will not be able to cover everything.

"State government cannot spend itself into early recovery. That is a lesson that we have learned. Our hope for economic recovery must come from the private sector. It is the private sector which must be the primary stimulus to the economy, providing jobs and income to our people.

"There are some good signs. Presently, tourism seems to be rebounding. Japanese visitors are returning in greater numbers. And the economic recovery on the mainland should give us yet another boost.

"But much more must be done. Our challenge is to adjust government policies to allow the private sector to recapture its momentum. The first major change is one of attitude toward business. The State government must be a facilitator for the economy and not just a regulator. This requires a major change in the historical 'us against

them' attitude. Government, business, and labor must develop a new attitude of partnership and cooperation. We have begun that process.

"Let me talk about some of our industries.

"Construction. To help the construction industry, we have increased our efficiency in processing permits. In some areas, we have reduced delays for public building projects by at least one-third. These reforms have allowed me to release nearly \$600 million in State capital improvements for schools and other infrastructure by the end of this fiscal year. These reforms will also reduce project costs in the private sector and provide more jobs.

"Housing. We will redefine our housing policy to get the State out of the business of competing with the private sector. The State's main housing responsibility must be to increase rental housing and shelter for the disadvantaged, those whose housing needs are not being met by the private sector.

"In addition to restructuring our housing policy, we will provide incentives to private developers to build rental housing in joint developments with counties, mutual housing associations and non-profit organizations. And we will end the State's well-intended but failed so-called 60-40 affordable housing rule and leave it to the counties to negotiate such details with each developer.

"Workers' Compensation. We will press our efforts to bring down the cost of workers' compensation. We propose setting up a non-profit domestic mutual insurance company, owned and run by the business now in the assigned risk pool. This concept has been successfully used in other states to lower the cost of workers' compensation. We believe it can work in Hawaii.

"Automobile Insurance. One of the hot topics last year, I hope it's not too hot this year. Changes in our workers' compensation medical fee schedule are already reducing automobile insurance premiums. Recently, AIG, a major automobile insurance company, announced it would reduce premiums by 25 percent. We have our own proposal, and I hope to work with Senator Holt and Representative Menor in developing a package that's agreed to by everyone. We will propose automobile insurance reform that preserves the right of injured persons to seek just redress while reducing premiums by 35 to 40 percent.

"Telecommunications. Hawaii cannot be a major player in the global economy without first-rate telecommunications. When I took office one year ago, Hawaii had one wire-based telecommunications company. It was a monopoly. You (Representative Herkes I believe it was, and I want to congratulate him) introduced a bill to start the process of deregulation. We agreed and we supported that. You passed that bill, and today, one year later, Hawaii has three wire-based and three wireless telecommunications companies. As a result, our local banks have financed approximately \$1 billion -- we think it's more -- but \$1 billion for telecommunications infrastructure development.

"Next year, we expect to have a choice of telephone carriers and potentially experience 30 percent lower consumer costs. Within three years, we expect to have complete statewide telecommunications service with satellite and fiber-optic links across the Pacific to Asia. This will give Hawaii the capability of being part of the global economy and becoming a major player in the Asia-Pacific region. All of this was accomplished without spending one State dollar. We, the Executive Branch and you the Legislature, did it by simply changing our State

law to free up competition. It's a great example of what we can do even when we do not have money.

"Export of Goods and Service. Last month, two dozen small Hawaii companies were able to sell nearly \$1 million worth of made-in-Hawaii products in just two hours through the cable telemarketer QVC. The QVC officials said it was the most successful sale of products ever. This experience tells us that there is a high demand for made-in-Hawaii products on the mainland United States. We will help market these products.

"But even more promising for Hawaii products and Hawaii's professional services is the huge and rapidly growing Asia-Pacific market. We talk about this a lot, but few truly understand its magnitude and potential. Let's talk about the biggest nation and that economy -- China. 1.2 billion people, huge Guangdong Province. I had never heard of Guangdong Province until last year, believe it or not. That Province alone has 71 million people -- more than France or Italy or England. And yet, most of us know more about France, Italy and England than we do about Guangdong Province. It has been estimated that China needs to spend \$800 billion over the next decade to build an infrastructure to support a developed economy.

"China is a huge market but it is only a part of the Asian-Pacific market. American companies are there. Motorola, for example, expects that one-half to two-thirds of its future business will be from this market alone. We in Hawaii need to prepare ourselves to find our niches in this huge Asia-Pacific market, and we can do it for our products and for our professional people, and we are already there.

"GTE Hawaiian Telephone, Hawaiian Electric, Bank of Hawaii are already doing business in the Philippines. Our architects, our engineers, our resort developers are being solicited to help develop infrastructure in several provinces in China. Our people are doing things all over the world and we in government don't know too much about it. Well, we need to help them. To encourage our local firms to go after this business, to expand the opportunities in the Asia-Pacific market, we are introducing legislation which we hope you will support to eliminate the general excise tax for certain exporters of professional services.

"Let's take the private sector investment. We need private sector creativity and investment if we are to increase our capacity for future growth. The State simply does not have the resources or the ability to do it all alone. We must create the appropriate business climate to make this happen.

"Therefore, we intend to come to you to change the Enterprise Zone law, to enhance the Enterprise Zone program by modifying the restrictive rules to create high-value jobs in knowledge-based industries such as health care and technology.

"Tourism. Of course, the engine that drives our economy is tourism, and we must continue to assist the private sector to market Hawaii as a world-class destination resort. In this connection, the State's \$350 million investment in the Convention Center will play a critical role in attracting professional and business visitors. It will fix Hawaii as a world-class business destination beyond the turn of the century. More importantly, it will provide a vast array of benefits, including more jobs, investment, and trade. As Governor, I will take every step to ensure that the Convention Center will open on time, as planned.

"Honolulu's waterfront from Kewalo Basin to Keehi Lagoon has long been acknowledged as Oahu's premier untapped asset. Progress by past administrations has been made on the waterfront, including the Aloha Tower Marketplace and the Kakaako Waterfront Park. I want to see the day when Hawaii's people can walk from end to end along the waterfront. As they stroll along, they would pass green grass with tree-shaded benches, glistening beaches, and inviting shops and restaurants. At Honolulu Harbor, they could stop to watch a bustling commercial harbor. Adjoining the Kakaako Waterfront, they could visit a world-class aquarium. At Keehi Lagoon, they would see a water sports center with world championships in kayaking, sculling and canoeing. Development of Honolulu's waterfront is an important part of our efforts to restore economic momentum and we would like you to support us.

"Health Care. I believe Hawaii can be the health care center of the Pacific. As you know, we recently hosted the Mayo Clinic in an effort to get them to establish a presence in Hawaii. We will continue our efforts to develop a health industry which services the people of Hawaii and the Pacific Rim. But the private sector is already ahead of us and we must help them. Private hospitals such as Straub, Queens and Kuakini have already launched similar initiatives. They understand what the market is like out there. Straub, for example, has brought in the world renowned Joslin Diabetes Center of Boston. We will support their efforts and we will launch our own initiatives.

"Science and Technology. Another promising area of economic growth for the State of Hawaii. Many don't realize it but we already have substantial assets:

- The leading center for astronomy in the Northern Hemisphere is on Mauna Kea.
- The most powerful super computer in the U.S. for imaging is at the Maui High Performance Computing Center.
- The Pacific Missile Range Facility on Kauai is the most advanced high-tech center in the world for surface, air, and underwater naval training.
- The University of Hawaii houses one of the leading ocean research programs in the world.
- Next month, we will dedicate the Pacific Disaster Center in Kihei. It will be the first link in a world network of disaster centers.

"We must build on these assets to develop high-tech programs and businesses. To develop a strategy for the best use of our resources, I am forming a Governor's Task Force on Science and Technology, and I have asked Lt. Governor Hirono to chair that task force.

"Kapolei, the Second City. I am committed to making the Second City of Kapolei a vibrant center to live, to work, to learn. The development of Kapolei will improve the quality of life for all Oahu residents. Housing in Kapolei is affordable and will continue to be affordable. When jobs go to Kapolei, traffic congestion in Honolulu will be reduced and people will be able to live close to where they work.

"The University of Hawaii at West Oahu is an integral part of the dream of Kapolei. As you know, we recently completed a land exchange agreement with the Campbell Estate for a site in Kapolei. In exchange for 58 acres at the Hawaii Raceway Park, the State will receive 950 acres for the new campus. This exchange will make it possible for the State to build the West Oahu campus without

draining funding from other UH campuses. West Oahu will serve not only the people of Leeward/Central Oahu -- the fastest growing area in the State -- but our entire State and the people of the Pacific Rim. With your approval of the land exchange and with your approval of the funding mechanism that we will be submitting to you, we will build this campus without any general fund appropriation.

"Let me turn now to the neighbor islands.

"Clearly in our push for economic development, we recognize the overriding importance of our neighbor islands. I have begun discussions with the mayors of the counties to deal with important issues which affect their respective counties. We are taking steps to ease the pain of structural dislocations caused by the phase-out of sugar and pineapple, and to encourage the transition to new economic bases. We are encouraging investment in forestry, diversified agriculture and cultivation of energy-producing crops, and perhaps the building, by the private sector, of a minimum security prison on the Big Island. Already, several private firms have expressed interest not only in commercial forestry, but also in building the prison. And I am engaged with Mayor Yamashiro in discussing these matters to the fullest and finding out ways in which the State and the County of Hawaii can work together.

"While I am on the business of prisons, let me digress for a minute. It is not in my prepared text. But we (and I know you are concerned about prisons) will expand the facilities at Waiawa. We will put people who have drug addiction problems in Waiawa, expanding the current program from 37 people to 200. Mayor Harris of the City and County of Honolulu graciously offered to help us build this facility and, Mr. Mayor, I accept your offer.

"One last thought on the neighbor islands, and there are so many issues which affect the neighbor islands, of course, but we know that we need to promote tourism -- the visitor industry -- on the neighbor islands, and we will do all we can to help by building airport facilities which will allow direct international flights to those islands, and we will work with the counties in doing this.

"Environment. Let me now touch briefly on other important issues -- the environment. When I got elected, I appointed a member of the Sierra Club to head the Department of Land and Natural Resources. Everybody was a little worried ... he turned out okay. He has convinced me that part of our challenge is to protect our natural resources, our endangered species, our land and water. The other is to manage and improve renewable resources -- our forests, oceans, parks and beaches -- for the long-term access, enjoyment and public benefit.

"He has developed, and I agree and I support this project, a 'string of pearls,' a state park system with at least one major wilderness park on each island -- Na Pali on Kauai, Kaena and Ka Iwi on Oahu, Makena on Maui, and the Kona Coast on the Big Island. We ask for your support in making this string of pearls state park system a reality.

"Welfare Reform. One of the most troubling issues that has faced us, a very difficult and complex issue, is welfare reform. We will submit to you a welfare reform package that insists on individual and family responsibility and that provides opportunities to build self-reliance and self-sufficiency. Last year, we instituted a work requirement for the Aid to Families with Dependent Children (AFDC) Program. It generated some controversy. We had no choice because the dollars were scarce. But as a result of this program, the number of those employed has increased more than four times, and the number of those who have

gotten off AFDC is twice what it was last year. It seems to me that we are on the right tract.

"Last year, we also began a new Public-Private Employment Partnership that asks private sector employers to participate with the State in expanding job training programs. We will build on this effort which provides employers with motivated workers who can, with some help, exit the welfare rolls.

"Hawaiian Home Lands. A tragedy a few days ago on Kauai focused on the Department of Hawaiian Homes. Let me state that as Governor I believe that it is important that we do everything we can to provide native Hawaiians with homestead lots and lands. Last year we proposed, and you agreed, a \$600 million settlement of the Hawaiian Home Lands claims. This means that for each of the next 20 years, the Department of Hawaiian Home Lands will receive \$30 million to develop their lands for the Hawaiian people. In order to speed up the process even further, we propose making available lands in Hawaii Finance and Development Corporation projects in Kapolei, Leialii, Lahama and Kealakehe in Kailua-Kona to the Department of Hawaiian Home Lands. The good thing about this proposal is that we accomplished two things: First, we provided land with infrastructure to a department which is hungry for such land, which has a waiting list that is too long. Second, we addressed the problem of the \$30 million a year payment. We feel that this is very, very promising and we hope that when we come down with our package to make these transitions, you will support us.

"Education. Education has always been my highest priority. Our young people are our future. And we should do all we can to provide them with quality education. For that reason, with the authority that I have vested in me, I spared the public schools from any budget cuts. In my version of the budget, I did not cut one cent from the \$631 million school instructional budget. The cuts were supposed to come out of administration.

"A few years ago, I chaired the Legislature's Task Force on Educational Governance. The Task Force made many recommendations. The Legislature adopted some of them when it passed the Education Omnibus Bill three sessions ago. The thrust of the Task Force's work and the Education Omnibus Bill was to give the Department of Education and the public schools greater autonomy. That has been done. Two years ago, you gave the DOE lump-sum budgeting. Since then, more schools have established School Community Based Management Councils, involving parents and community members in individual school decision-making.

"Now is the time to give our educators some space, to give them the opportunity to implement some of the reforms we have established, to let them teach without us -- you and me -- burdening them with new laws and new demands. Over and over again, I hear from teachers that they are unable to keep up with the laws and the rules and regulations that we crank out of this particular building. So, let's give them some space. Let's hold them accountable; let's see what the results are. But in the meantime, let's do all that we can to provide them with the resources that they need to do the job.

"Building a better future is not simply about economic survival. It is also about fulfilling our most cherished dreams and aspirations for our children while being compassionate to those who need our help.

"Not a day goes by that I do not ask myself, 'How can Hawaii fulfill its destiny and reach its full potential?'

"Hawaii is a wonderful place. We have so much to offer others. Not just scenery and climate, but a rich diversity of people and cultures. The Aloha Spirit. Unique skills, knowledge and experience that come from our unusual location and history.

"Most people now understand that we live in a fast-changing global economy. We cannot let Hawaii get lost in the shuffle. In order for Hawaii to take its rightful place, Hawaii's economy must be strong and our people prepared. That means we must diversify and grow.

"In the forceful words of Robert Reich, President Clinton's Secretary of Labor, in his book, The Work of Nations, the value of a nation can be measured in the skill of its workforce. And so the State and so the individual. This means that our people must be made relevant to our economy during this period of highly charged change.

"How will we do this? In four distinct, yet interlinked, ways.

"First, we must create the proper technological infrastructure to eliminate the disadvantage of distance that we face. Last year, we took a giant step in eliminating that disadvantage.

"Second, we must help our young people acquire the skills, the knowledge and the attitudes that enable them to compete on a global basis. We must support education.

"Third, we must create a positive business climate. Not just lip service to that idea, but an environment in which our government -- and let me say that again -- our government is a facilitator, not an obstacle to healthy business growth.

"Fourth, and most importantly, we need to believe in ourselves again. We need to believe that we can go out into the world and accomplish anything we set out to do. We need to believe that -- given the proper tools, including education -- our children can go anywhere they want, compete with anyone -- and win. We need to believe that we can achieve all that we dream of right here in Hawaii Nei. I believe this economic downturn is coming to an end, but the Hawaii that emerges when it does end will not be the one we remember from the 1970s or 1980s.

"Good fortune will not simply fall on us as it has in the past. We are going to have to face the problems that confront us, make tough decisions, and push forward aggressively for what we believe is right.

"We will all be judged, all of us here this morning, by what we accomplish together in the next few months and years.

"I do believe that times are getting better. I believe that the economy will improve. Certainly, I am going to do everything in my power to do so.

"I truly believe, however, that if we all work together and we set aside our personal agendas, our egos, that we can turn this crisis, this very, very serious fiscal crisis, the worst crisis in our State's history, into a great opportunity to build a better Hawaii.

"Thank you very much and aloha."

Senate President Mizuguchi then rose and stated:

"Thank you, Governor, for your thoughts.

"The Legislature appreciates your insight on the issues we face in putting our fiscal house in order and laying the foundation for a stronger financial future.

"The House and Senate stand ready to work with your administration on the budget, executive branch reorganization and economic initiatives.

"We want to assure you that our doors will be open to you for consultation and discussion on matters of mutual concern. Let us both move forward with optimism and resolve.

"Having no further business, I hereby declare the Joint Session of the Eighteenth Legislature adjourned."

At 10:52 o'clock a.m., President Mizuguchi declared the Joint Session adjourned.

REFERRAL OF SENATE CONCURRENT RESOLUTIONS

The President made the following committee assignments of concurrent resolutions that were offered on Wednesday, January 24, 1996:

- | | |
|------------------------------------|--|
| Senate
Concurrent
Resolution | Referred to: |
| No. 7 | Jointly to the Committee on Planning, Land and Water Use Management and the Committee on Hawaiian Affairs, then to the Committee on Ways and Means |
| No. 8 | Committee on Transportation and Government Affairs, then to the Committee on Ways and Means |
| No. 9 | Committee on Transportation and Government Affairs |

RE-REFERRAL OF SENATE BILLS

The President re-referred the following Senate bills that were introduced:

- | | |
|-------------|--|
| Senate Bill | Referred to: |
| No. 2055 | Committee on Consumer Protection, then to the Committee on Ways and Means |
| No. 2085 | Jointly to the Committee on Health and the Committee on Transportation and Government Affairs, then to the Committee on Ways and Means |
| No. 2086 | Jointly to the Committee on Ecology and Environmental Protection and the Committee on Transportation and Government Affairs, then to the Committee on Ways and Means |
| No. 2102 | Jointly to the Committee on Judiciary and the Committee on Consumer Protection, then to the Committee on Ways and Means |
| No. 2103 | Committee on Judiciary, then to the Committee on Ways and Means |
| No. 2106 | Jointly to the Committee on Hawaiian Affairs and the Committee on Judiciary, then to the Committee on Ways and Means |

Senator Matsuura rose on a point of personal privilege and stated:

"Mr. President, may I be allowed to speak on a point of personal privilege?"

"My point is on the referral of bills. We all know that the public or the common person out on the street rarely knows what goes on in this capitol building. We being elected officials, they depend on us to do things right. I am referring to a single bill to illustrate my point. The legislation is gambling.

"If you were to look at the Senate Rules, you would find that the subject matter in terms of gambling should really be referred to the Committee on Judiciary. However, this bill is being referred to the Committee on Tourism and the Committee on Ways and Means. If you were to ask a number of lawyers -- just at random, a hundred lawyers -- to read our Rules, you would find that gambling should have been referred to the Committee on Judiciary, and not to Tourism.

"The reason I cite this example is because our institution has always been challenged for integrity and honesty. And I, as part of the Senate, have to answer to these kinds of questions, and I am not going to cover up to show my ignorance. If Tourism is the correct committee to refer the bill, then I would think the House would do the same thing, but you will notice that the House always refers bills such as gambling to the Committee on Judiciary and to their Finance Committee, which is the correct referral.

"The reason I cite this is because it is in the Senate Rules where certain bills are supposed to be referred. I can understand if the leadership really wants the gambling bill passed and there are Senators like myself and maybe Senator Matsunaga and others who oppose the gambling bill in the Judiciary Committee, the President can take us off the Committee on Judiciary and replace us. That's all within the prerogative of the leadership because you have 13 votes. You can even change the committee chairmanship if you want to. The thing that I want to stress is that when we make an exception to the Senate Rules, the exception then becomes the rule, then anything will be allowed. I don't think that it will be an easy task

for us to explain to the public why the Senate Rules are being changed. There is a lot of time left in the session so that referrals can be made properly.

"I wanted to express my concerns because if we are to circumvent the Senate Rules and send bills to wherever leadership wants to, I think that our integrity is going to be tarnished. I don't want this body to be tarnished in any way because, as you all know, this is an election year. Thank you very much."

The President then responded:

"In speaking about the Rules, I think that every chairperson has the prerogative to ask for a reconsideration of the Chair's initial referral. I have not heard from the Judiciary Committee chair, so the initial referral stands as is."

Senator Solomon also rose on a point of personal privilege and said:

"Mr. President, I rise on a point of personal privilege.

"This is in regard to the previous speaker's remarks, Mr. President. For the record, I want to be sure that the previous speaker is not impugning the integrity of the Tourism Committee. I take great offense to that. I'm hoping that he's speaking in general terms and not insinuating that the Tourism Committee has no ability to review a bill, such as gambling, and make decisions that would be in the best interest of Hawaii.

"So as the vice-chairman of the Tourism Committee I take great offense and I'd like to give an opportunity to the previous speaker to clear the record, being that all of these remarks are part of our Journal.

"Thank you very much, Mr. President."

Senator Matsuura rose again and said:

"This has nothing to do with the Tourism Committee. I think my comments were strictly based on the Senate Rules and what's in there -- how bills are referred and what are the subject areas that each of the committees are responsible for. It has nothing to do with the chairman of the Tourism Committee or its members. My comments are strictly based on what I perceive to be the proper referral. That's my only concern."

Senator Solomon rose again and stated:

"Thank you, Mr. President, with those remarks I feel relieved and I would just like to thank the previous speaker. I am hoping, Mr. President, that you will take the previous speaker's remarks into consideration. Thank you very much."

The Chair then remarked:

"Is that relief going to remain for the next fifty-five days?" (Laughter.)

Senator Solomon answered:

"It depends on what the other subject matters are, Mr. President." (More laughter.)

Senator Fernandes Salling, rising on a point of personal privilege, added her remarks as follows:

"Mr. President, I would like for you to hear the Transportation and Government Affairs Committee's view on that issue that was raised by Senator Matsuura. Very briefly, last year the bill was introduced. At that time,

we reviewed it as to whether or not shipboard gambling should also be referred to Transportation and Government Affairs because it does concern uses in our harbors. We made the determination that it should go to Tourism because it was being considered as part of a package of events to offer tourists. That's how we viewed it. Therefore, I did not make a request for any kind of referral. Of course, that does not necessarily mean that the committee cannot consider what impact it may have on harbors at the proper time.

"Mr. President, I'm sorry I did not mention this was a point of personal privilege in leading up to an announcement. Thank you."

Senator Grauly then rose on a point of personal privilege and stated:

"Mr. President, I feel that I have to rise on a point of personal privilege in light of the previous comments.

"I think that it is incumbent upon me to rise because a member of my committee is unhappy with my ability to comply with the Rules. And I think that I need to state for the record that there are many bills of which many committees feel that they have jurisdiction. Just today, I know that there were some disagreements between chairs as to whether a particular bill should have been referred to this committee, that committee, or wherever. But I think there is a process that is in place, and there is an appeal process for the chairs that are unhappy. And I want to assure Senator Matsuura that despite the fact that the gambling bill may have gone to the Tourism Committee, it is my perception and my view that the bill really has more to do with tourism and economic development than with judiciary. And for that reason I abided by the decision of the Chair.

"But there is a process in place and it is important for all of us to abide by that process. If we are unhappy with the Chair's ruling, there is a process for that as well. I am not aggrieved and I do not feel aggrieved by the referral of that particular bill and I have, I think, carried out my responsibilities as Judiciary chair in conformity with the Rules and abided by the decision that the Chair has made with regard to the referral on that particular bill. Thank you, Mr. President."

ORDER OF THE DAY

THIRD READING

S.B. No. 2013, S.D. 1:

Senator Iwase moved that S.B. No. 2013, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Ige.

At 12:00 o'clock noon, the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12:01 o'clock p.m.

Senator McCartney rose to speak in favor of the measure as follows:

"Mr. President, I rise to speak in favor of this bill with some reservations and concerns which I would like to put on the record.

"First of all, I would like to commend the chairperson for holding a number of hearings throughout the interim to get information about the Water Code. It is my personal belief that the committee has worked very hard and the chairman has been very diligent to look at the issue. It is a very difficult public policy issue to deal with because many of us believe that water is a public natural resource that needs to be preserved and protected for the people of Hawaii, and no one entity owns the water. But the people of Hawaii and the government are entrusted to protect that water on their behalf. So I would like to make a few comments on some of the portions of the bill.

"Section 1, item (b) -- the reconfiguration of the commission. Mr. President, I think this is a very good provision. There are a number of potential conflicts that have taken place in the current Water Commission. It is very awkward and difficult when the Chairman of the Department of Land and Natural Resources is also Chairman of the Water Resources Commission, when the Department of Land and Natural Resources is a petitioner in the same case. I think that causes a number of awkward situations. It may not be a direct conflict but it is definitely a perceived conflict and I would like to commend the chairman for addressing that.

"I think there is another need that still needs to be addressed. That need is to create a process or policy to determine how the State takes a position. In the present contested case involving the Waihole water situation, my feeling is, how can the State take a position for one side in that case? My feeling is that the State should be an advocate to protect the rights and interests of everybody and be a mediator in the process, rather than to take a particular side and to be a petitioner in the case. I think we need to come up with and take a look at a process on who has a right to say that this is the State's position. Maybe the administration has the right to say it's the administration's or governor's position, but I'm not so sure that the administration actually speaks for the State.

"The second concern that I have is, what is the impact of this bill on the current contested case hearing? In the committee report it says that it does not, and I thank the chairman for explicitly stating that. However, if this bill is voted upon, the current bill says that it takes effect

upon approval. The contested case hearing may not end until April, so it may have an effect. I had a discussion with the chairman so he will take that into consideration, and I appreciate that.

"Under Section 5, the deletion of line 14, and the phrase is 'but not be limited to'. Will this limit or restrict traditional or customary rights of ahupua'a tenants? I think that's the question the commission needs to take a look at and deliberate on if the bill moves through the House. I'd like to ask if they will consider that -- just to insure that we are not taking away rights that are presently there today.

"Under Section 3, it talks about the county water use and development plans, the county water project plans, the county resource protection plans, and the water quality plans. It says the current county or commission shall consider and incorporate, and it lists a number of items that it shall consider and incorporate. The concern is, is this limiting or creating a priority or hierarchy, not taking into account other things like stream restoration and protecting the environment.

"I know the chairman is working diligently; he's looking at all the different sides and I wanted to put this on record and ask that as this bill moves forward, that those concerns are looked at and are evaluated. Thank you very much."

Senator Anderson rose and stated:

"Mr. President, I rise to speak on this issue.

"As a member of the committee, I just want to say that we are not looking at just that one area of water -- Windward vs. Leeward, or whatever. We are looking at irrigation water, drinking water, and how it pertains to the State in general. In fact, I'm also, because I'm on the Windward side, going to try to put some people together to look at the farmers, and not just one entity, but the farmers on our side.

"As a member of that particular committee, I think we have to look at irrigation water, drinking water, how it affects the State, how much we are going to be able to develop, and where we are going to be able to develop. I think that the chairman has expressed desires for us to be especially interested in the State problems and not just one side.

"Thank you."

The motion was put by the Chair and carried, and S.B. No. 2013, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE WATER CODE," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Ayes, 25. Noes, none.

S.B. No. 2010:

On motion by Senator Iwase, seconded by Senator Ige and carried, S.B. No. 2010, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC LANDS," having been

ORDER OF THE DAY

THIRD READING

Stand. Com. Rep. No. 1607 (S.B. No. 2001, S.D. 2):

By unanimous consent, action on Stand. Com. Rep. No. 1607 and S.B. No. 2001, S.D. 2, was deferred to the end of the calendar.

S.B. No. 1810, S.D. 1:

Senator Kanno moved that S.B. No. 1810, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Ikeda.

Senator Kanno rose to speak in support of the measure as follows:

"Mr. President, S.B. No. 1810 is a measure that reforms the way that legislative pensions are calculated. It is an important bill that is going to look at providing fairness and equity to the system. I would like to ask my colleagues to vote 'aye' on this measure.

"Thank you."

Senator Ikeda rose to speak in support of the measure as follows:

"Mr. President, I rise to speak in favor of this measure.

"Mr. President, many have asserted that the potential to obtain a 'high-three' position places an undue influence on elective officials to cater to the executive branch in order to pad one's retirement. While we should strive to remove appearances of impropriety, it is the intent of this measure to create equity in retirement compensation for public employees and that the conferment of retirement benefits would be blind in application.

"The justification for utilizing the bifurcated process set forth in the bill in calculating retirement benefits for elective officials or judges is to ensure that a member with such service is compensated on the basis of the member's years of service in each capacity.

"Mr. President, I would like to call your attention to the position that the Governor took on this bill reported in yesterday's Honolulu Advertiser and Star Bulletin, and his subsequent recanting of his position in today's Advertiser. And I do this because I believe that this clarification is extremely important.

"The Governor has gone on record saying that he opposes the bill because, 'The bill should be fair and applied prospectively,' and, 'You have people in the retirement system. They've been collecting their retirement. You can't go back and divest them of their retirement rights.'

"Mr. President, I would like to point out that the bill does not affect the rights of any person collecting retirement benefits from the Employees' Retirement System, nor does it affect the vested rights of any active member of the Employees' Retirement System. What this

bill does is affect the retirement benefits of those active members of the Employees' Retirement System who have credited service as an elective official or as a judge.

"I would also like to point out, Mr. President, that the amended bill that was passed unanimously by your Committees on Agriculture, Labor and Employment and Ways and Means, shares many similarities with the Administration's bill with respect to the calculation of retirement benefits. Given this, I have many doubts as to the charges of the bill's unconstitutionality.

"I also believe that the Governor has done a disservice to former elective officials who have assumed positions in the executive and judicial branches through the appointment process. By stating that he and the Lt. Governor 'earned their high-three' because they were elected into office casts a shadow of cronyism over these officials and fails to take into account any of those persons' contributions to our State in those subsequent capacities. There should be no difference whether public service is rendered in an elected or appointed capacity. The popular vote should not be construed as a mandate for increased benefits.

"Mr. President, the public has demanded fairness and equity in the State's retirement system. With this bill, we have answered their call.

"Thank you, Mr. President."

Senator Holt rose to speak in favor of the measure as follows:

"Mr. President, I rise to speak in support of this bill. Before proceeding, Mr. President, I would like to commend both chairs, Senator Ikeda and Senator Kanno, for their hard work and perseverance in bringing this important public issue out of committee and to this floor for action by this body. Also, I would like to commend leadership and in particular you, Mr. President, for your sensitivity and support on this delicate matter of public interest.

"Mr. President, this bill is consistent with your opening day remarks when you stated, 'We must lead by example.' This bill is the third Senate policy recommendation where we act responsibly and 'lead by example.' Earlier this session, in recognition of the budget shortfall, we agreed not to increase salaries, and also agreed to cut our own Senate budget by 5 percent. In essence, we used the budget axe on our own house first. And now, Mr. President, this bill before us is yet another means by which this body is standing up and saying to the people we represent, 'The Senate will lead by example.'

"Mr. President, passing this high-three bill today, on only the tenth day of the session and at least four weeks before first crossover, is a clear statement that this body is able and willing to bite the bullet ... no matter how small, no matter how large.

"I urge all my colleagues to vote 'aye' in support of this very, very important matter of statewide concern. Thank you."

Senator Liu rose to speak in support of the bill and stated:

"Mr. President, I rise also to speak in favor of this bill and I do so with pleasure to be able to agree, finally perhaps after over a year with the two chairs of this committee which dealt with this measure. I'd also like to say that notwithstanding whatever the Governor said or did not say or may have said, that if an attorney

general's opinion comes down which does indicate that there is some constitutional flaw -- one, that we recognize it would be only an opinion -- and secondly, if there is real substance to it, that we also have the courage, because we have the time if the opinion comes down soon enough, to work on a constitutional proposal to change the Constitution, if need be. Thank you very much, Mr. President."

The motion was put by the Chair and carried, S.B. No. 1810, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE PUBLIC EMPLOYEES RETIREMENT SYSTEM," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, none. Excused, 1 (Anderson).

RE-REFERRAL OF SENATE BILLS

The President re-referred the following Senate bills that were introduced:

Senate Bills Referred to:

No. 2542 Committee on Planning, Land and Water Use Management

No. 2703 Jointly to the Committee on Communications and Public Utilities and the Committee on Consumer Protection, then to the Committee on Ways and Means

No. 2775 Jointly to the Committee on Communications and Public Utilities and the Committee on Consumer Protection, then to the Committee on Ways and Means

No. 3041 Jointly to the Committee on Communications and Public Utilities and the Committee on Consumer Protection, then to the Committee on Ways and Means

No. 3051 Committee on Consumer Protection, then to the Committee on Ways and Means

No. 3177 Committee on Tourism and Recreation

MATTER DEFERRED FROM EARLIER ON THE CALENDAR

THIRD READING

Stand. Com. Rep. No. 1607 (S.B. No. 2001, S.D. 2):

Senator Ikeda moved that Stand. Com. Rep. No. 1607 be adopted and S.B. No. 2001, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Baker.

Senator Matsuura rose to speak on the measure as follows:

"Mr. President, I will be voting 'yes', but with some reservation.

"If this bill was the final bill before sending it over to the Governor, my vote would be 'no.' Permit me to explain my reservation -- in all my years in the State Legislature, my contention and rule has been that we pass good bills to the other house. I have always been opposed to sending bills that were defective, even if there was some strategy which may be used as a leverage to counter-leverage the House position. I've always objected to those unknown strategies. Whenever we send good

bills to the other house, we will not have that bill coming back and haunting us later.

"There is enough time right now to change the bill to address the concerns about some of the items in this bill. The Senate body appears to favor a few changes because that's the position we as a body will have to defend when we go to conference on this bill. It will be difficult to defend a position that is not right. So I'll be voting 'aye' but with reservations.

"Thank you."

Senator Tam rose in support of the measure as follows:

"Mr. President, I vote with reservations in favor of this bill. The legislative process is just beginning on this bill. Furthermore, unfortunately, the 60-day legislative session makes it very difficult to really pass a conclusive bill in the Senate. I know that this bill will have amendments in conference.

"Thank you."

Senator Ige rose in support of the measure and said:

"Mr. President, I just would like to rise in support of the bill with some reservations. My concern really, again, leads to language that would much better protect the interests of the consumer and insure that any benefits to the law and any savings that the insurance companies may get, really be passed on to the consumer.

"Thank you."

Senator Grauly then rose to speak against the measure and stated:

"Mr. President, I rise to speak against this bill.

"Mr. President, this bill is fundamentally unfair. We have all been taught that those who carelessly or recklessly damage property or injure others should be held responsible for the consequences of their conduct. We learned when we were children that if we spilled something, then we should clean it up. If we broke a neighbor's window, we should be responsible for repairing it. If we hurt someone through our carelessness, we should be responsible for the consequences of our carelessness -- that the wrongdoer should pay for the damage that results, not the innocent victim.

"Our laws have always reflected this fundamental value. Our criminal laws punish the thief, not the victim; the murderer, not the murdered. Our business law holds the person who breaks a contract responsible for the resulting loss, not the innocent party to the broken contract. Our civil law holds the manufacturer of a defective car responsible, not the unfortunate person hurt by the defect.

"Yet this bill turns that fundamental principal of fairness upside down, and lets the reckless driver off the hook by depriving the victim of the right to hold reckless drivers responsible for injuries caused by their reckless driving. In essence, we punish the injured victim for the conduct of the reckless driver. We remove accountability from the privilege of driving; we remove responsibility from the obligation to drive safely. We remove fairness -- by placing the consequences of reckless driving on the innocent victims, rather than the reckless driver.

"Under this bill, if a retired grandmother was struck in a crosswalk by a reckless driver, had less than \$250,000 in medical bills, but broke her hip and had to spend the rest of her life in a wheelchair, she would not be able to

recover a single penny for her crippling injury. The reckless driver could not be held accountable to her.

"Under this bill, if a housewife suffered permanent brain damage because of a careless driver, did not exhaust her no-fault benefits because she had no wage loss, and her medical bills were less than \$250,000, she could not recover a single penny for the permanent brain damage. The careless driver would not be responsible to her.

"Under this bill, if a child is crippled by a reckless driver and could never run and play with other children again, the child would have no rights against the reckless driver -- not even if the child could never play basketball again, could never play football, never play soccer, never go on a hike. The reckless driver would never be held responsible; never taught to drive carefully, never be concerned that he could be held accountable to those he hurt.

"This bill takes rights away from responsible citizens and protects the irresponsible; punishes careful drivers and rewards reckless drivers; makes good drivers pay for bad drivers.

"I urge my colleagues to vote 'no.' Thank you."

The motion was put by the Chair and carried. Stand. Com. Rep. No. 1607 was adopted and S.B. No. 2001, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO MOTOR VEHICLE INSURANCE," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 20. Noes, 4 (Fernandes Salling, Grauly, Matsunaga, Taniguchi). Excused, 1 (Anderson).

Senator Levin rose on a point of personal privilege and stated:

"Mr. President, I rise to speak on a point of personal privilege.

"Mr. President, today marks a sad day in Hawaii's history, and it seems to me that it should not pass without being noted by the Senate. I do not suggest that it is 'a day that will live in infamy,' and it would be frivolous to ask that we adjourn with a moment of silence as we do to mark a death, but in a sense something is dying today, not dramatically, but rather a death by a thousand cuts. Today marks the beginning of the shredding of Hawaii's safety net for the poor.

"Simply put, February 1, 1996 is the day that the State of Hawaii no longer will provide coverage for adult dental care under Quest, what we used to call Medicaid. Medicaid is part of the safety net we, as a community; we, as 'The Health State'; we as believers in the Democratic ideal that government can be a positive force in the lives of our people, helping those who need a safety net; established to help the less fortunate, and is a guarantee that all Americans will receive some minimum amount of health care, no matter how poor they may be. Exactly what should be included in that minimum is subject to debate, but Hawaii has always taken the position that we should cover a broad range of services, and we traditionally have taken advantage of most of the optional coverages available to our people under Medicaid, including adult dental care.

"Today, in the shadow of budget deficits, we begin to shred the safety net. I cannot fault those who have made this choice; in fact I praise them because I know that their motives are good and they are trying to make the best of the bad cards they have been dealt. I also thank

my colleagues, including Senator Ikeda, Senator Baker, Senator Matsuura, and others, who have struggled to find other solutions and who are still trying to find a better way. But so far we have not succeeded, the rule stands, people will be hurt, short-term savings take precedence over long-term costs, and our economy takes an immediate loss of \$6-million in reduced federal funding.

"Do I have a better solution? I suppose not. But at least we need to be aware of what we are doing. Historic moments should not pass unnoticed even if they are noticed with regret and sadness."

ORDER OF THE DAY

THIRD READING

H.B. No. 1, H.D. 1:

Senator Ikeda moved that H.B. No. 1, H.D. 1, having been read throughout, pass Third Reading, seconded by Senator Baker.

Senator Ikeda rose to speak in support of the measure as follows:

"Mr. President, I rise to speak in favor of this bill

"Mr. President, on opening day you remarked that hard times require sacrifices by all branches of government. I could not agree with you more wholeheartedly. If we are to find savings of \$200 million, particularly without affecting those who are the neediest and least fortunate, we must exercise careful restraint in our legislative spending. We have the power of the purse. And in your words, Mr. President, 'it is only fair that we lead by example.'

"Mr. President, we have before us the legislative budget bill. In recommending its passage, I believe the public will be ill-served if we did not recognize the hardship being experienced by the government and private sectors alike. Although we are by far the smallest branch of government, representing less than 1 percent of the State's budget, I believe we were elected to provide responsive leadership in discharging our fiscal responsibilities. Accordingly, your Committee on Ways and Means has recommended reducing the Senate's portion of the legislative budget bill by 5 percent, or a little over \$253,000. Unfortunately, the House is not in

accord. It has, nevertheless, agreed to freeze its portion of the budget at current fiscal year levels.

"No policy is convincing as leadership by example. That is what the Senate undertakes in this bill; that is what we expect to achieve in the course of this session.

"Thank you, Mr. President."

Senator Baker also rose in support of the measure and stated:

"Mr. President, I rise also to speak in support of this measure.

"Today we have before us the bill to fund legislative operations. By tradition and necessity, this is the first bill we pass each session. It does not normally attract much public attention except when there is disagreement between the House and the Senate and the passage of this measure is prolonged. This year historical precedents no longer hold true.

"Mr. President, in response to your call to do more with less in these hard economic times, we are recommending that the Senate reduce its share of the legislative appropriation by 5 percent.

"This is not a large amount relative to the overall State budget -- the legislature's appropriation is by far the smallest -- but it does signal the Senate's intent to economize and to make sacrifices in the face of continuing budget shortfalls. There can be, Mr. President, no better way for us to lead, than by example.

"Our action also serves notice that we need to pay more attention to cost-effective management of our legislative resources. Our computer system, for instance, needs an overhaul if we are to continue to serve the foreseeable needs of the public and lawmakers alike. It will require resources in the short term, but generate savings through greater productivity and efficiency over the long haul.

"In brief, Mr. President, the challenge is for us to make do with less, to work smarter, to be innovative without losing accessibility, to automate support functions where feasible, and perhaps, even change the way in which the Senate conducts its business.

"We have entered into an era of dynamic political change, coupled by difficult economic times. We began last session by rejecting the salary increase recommended by the Commission on Legislative Salary. We moved the 'High 3' retirement reform bill to the House earlier last week. Let us today continue the momentum for responsive political leadership by passing House Bill No. 1.

"Mr. President, the task is before us. Let us proceed without delay. Mahalo."

The motion was put by the Chair and carried, and H.B. No. 1, H.D. 1, entitled: "A BILL FOR AN ACT MAKING APPROPRIATIONS TO PROVIDE FOR THE EXPENSES OF THE LEGISLATURE, THE LEGISLATIVE AUDITOR, THE LEGISLATIVE REFERENCE BUREAU, AND THE OMBUDSMAN," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Noes, none. Excused, 2 (Solomon, Tam).

No. 2542 Jointly to the Committee on Planning, Land and Water Use Management and the Committee on Housing

No. 2859 Committee on Human Services, then to the Committee on Ways and Means

At this time, Senator Fukunaga, for the Committee on Communications and Public Utilities, requested a waiver of the 72-hour Notice of a Public Hearing on the following bills: S.B. No. 640, S.B. No. 641, S.B. No. 646, S.B. No. 2754, S.B. No. 2798, S.B. No. 3055 and S.B. No. 3268; and the Chair granted the waiver.

Senator Anderson rose on a point of personal privilege
and stated:

"Mr. President, I'm a little confused so I'd like to
stand on a point of personal privilege.

"Mr. President, I think we all received the
communication on the report on contractors' licensing.
What I am confused about is, as I started to read this
they were saying that they were given a short period of
time, yet they were able to give this report. When I look
at this, who is a contractor? So I looked at a definition
they have in Section 444-1, HRS: '...any person who by
oneself or through others offers to undertake, or holds
oneself out as being able to undertake, or does undertake
to alter, add to, subtract from, improve, enhance, or
beautify any realty or construct, alter, repair' It goes
on and on, Mr. President. Now, I looked in the
Webster's Dictionary because I'm not very bright at
times, and it says: 'Contractor ... one that contracts to
perform work or provide supplies; one that contracts to
erect buildings; something (as a muscle) that contracts or
shortens.' I know we don't use the muscle, so I would
have added in there demolition.

"What I am wondering is, are we here to make sure
that these laws are going to be put out for the public,
where we understand as individuals, or are we going to
start giving people the HRS so that they will know exactly
what the law is, how it pertains to them and if they can
abide by that, well and good; and if they can't, they'll
have to change. That's what I'd like to know.

"Thank you very much, Mr. President."

RE-REFERRAL OF SENATE BILLS

The Chair re-referred the following Senate bills that were introduced:

Senate Bill	Referred to:
No. 659, S.D. 1	Committee on Ecology and Environmental Protection, then to the Committee on Judiciary
No. 2067, S.D. 1	Committee on Higher Education, Culture, and Arts, then to the Committee on Ways and Means
No. 2074, S.D. 1	Committee on Transportation and Government Affairs, then to the Committee on Ways and Means

Senator Solomon rose on a point of personal privilege as follows:

"Mr. President, I rise on a point of personal privilege to alert this body in regard to a dramatic and vital piece of legislation now in committee. I refer to S.B. No. 662 having to do with economic development, now before Chairman Matsunaga's committee scheduled for hearing tomorrow. This bill provides for the creation of renaissance zones and is patterned after one of the most innovative steps yet to be taken in the area of economic development. In this case by the Michigan State Senate in passing a bill that would abolish all state and local income and property taxes in specified areas singled out for economic development.

"My district, as you know Mr. President, has areas in which more than 10 percent of workers are unemployed. Such level of unemployment represents true misery and anxiety. Hawaii as a state ranks at the bottom of many indices in terms of economic development. Specifically, we are the lowest in the nation in terms of economic growth; we are the lowest in the nation in terms of job creation. It is no coincidence, Mr. President, that at the same time we are also the lowest in the nation in terms of the availability of tax and financial incentives.

"This bill, patterned after the Michigan senate bill, is a welcomed tool to revitalize the most depressed areas of our State. This bill may be the key to such revitalization. We as a nation have unsuccessfully tried social spending for more than two decades. Senator Edward Kennedy last week announced that the Senate Democrats would outline the first of a series of economic development initiatives they plan to offer in the senate this spring and spoke in favor of the use of tax and financial incentives to encourage companies in their job creation activities.

"I recommend this initiative for favorable consideration when that legislation reaches the floor and suggest that there is no matter of higher priority before this year's legislature than bills such as this which have to do with fighting the economic malais which beset our State at this time. Thank you, Mr. President."

Senator Anderson rose on a point of personal privilege and stated:

"Mr. President, I stand on a point of personal privilege.

"I thoroughly agree with the former speaker that we have to look at bills that are going to help this economy, but I'd like to share something with you. On Thursday, I had heard about four days prior that I had an uncle that had lung cancer and I stopped by to see him on Thursday. He had lost a lot of weight, and I told him that I had heard that he was fooling around saying that he was sick and I wanted to know what was going on. He asked if I would come back and give you a message. He was with the Pearl Harbor Shipyard here but he moved up to Los Angeles. He had frequently gone to Las Vegas and even after he retired and came home he had gone up to Vegas. And at that time I told him I had stopped by to see him because we were going to have a hearing on gambling. And he said, if anything else Whitney, would you please go back and vote for shipboard gambling, because I don't think I can go back to Vegas. On Friday morning, about six o'clock, I received a call that he passed away at two o'clock in the morning.

"What bothered me was that I had gone to the hearings and I had read over the weekend and after a lot of research, Mr. President, my staff was able to find a way that we could do (after 20 years) a referendum whereby the people of this state would be able on an advisory capacity, not binding, to tell us if they were for or against any form of gambling. And we've denied them that, as we've always denied any type of referendum. I don't think that the people are being trusted by the very people that they've elected, and that really bothers me because you all feel that it's all right for them to elect you but you don't want to give them the chance of a referendum to say how they honestly feel about an issue, and then come back and decide that they're right or wrong with information that we've gathered. And if you vote against them, you can tell them -- I vote against this because or I'm voting for this because....

"Anyway, Mr. President, that has been something that's frustrated me and I think that it's time that if we're going to allow the people of this State some kind of input, an advisory referendum is not a bad idea.

"Thank you very much for listening."

Senator Baker also rose on a point of personal privilege and stated:

"Mr. President, I rise on a point of personal privilege.

"Mr. President, former Honolulu Advertiser Editor George Chaplin took the Legislature to task this weekend over the issue of legalized gambling.

"He said legislative leadership is dreaming, facing an illusion: that Hawaii's appeal is a composite of sun, surf and scenery, and that we should focus on beauty and people.

"Let me say for the record, Mr. President, that I think Mr. Chaplin, among others, missed last Tuesday's hostage-taking wake-up call.

"I am talking about the 'illusion' of thousands of working-class men and women who are ill-equipped for today's employment market. The downturn in the economy has only served to exacerbate their limited job opportunities and plummeting income levels.

"Mr. President, we are not contemplating an illusion. We are facing up to the reality of hard times and a growing gap between the rich and the poor.

"Ironically, the very helping organizations and programs that normally might offset the dilemma of people in need of help are the first to feel the cut of the budget ax.

"It is precisely this one-dimensional weakness of a Hawaii economy heavily dependent on tourism that erodes opportunity, creates hardship and undermines revenues.

"Far from dismissing legal gaming as disruptive to the tourism economy, we should explore it as a real-world answer to the fundamental problem of creating new jobs.

"The alternative is public and private layoffs, budget-balancing on the backs of the poor and a growing sense of powerlessness over our most basic affairs.

"Illusion?"

"No, Mr. President, I don't think so. This is hard-edged reality, and it will test our talents to the utmost. The vitality of island society is at stake. Thank you."

Senator Matsuura also rose on a point of personal privilege and said:

"Mr. President, may I speak on a point of personal privilege?"

"Mr. President, I think the Committee on Human Services has been given perhaps the most difficult task of being at the point of a lot of the short-falls in the state budget. If you look at the editorials, Letters to the Editor, etc., the focus is on welfare reform. The Human Services Committee, with four strong samurai, have taken a shellacking every Monday, Wednesday and Friday from welfare recipients. I have to admit that when one takes this kind of wacking, it's very hard and it's very disheartening because what they are saying is correct. We may be saving a penny now, but we will pay dearly later.

"I went to see a movie yesterday and I recommend that all of you go to see this movie entitled 'Mr. Holland's Opus.' I think it will give you a ray of hope looking at that movie. Recently, the Judiciary chairman took us to the prison for a visit. When the question was asked, how many of you are here because of drugs, all the hands went up. Drugs are out of control! I sit in the Judiciary hearings listening to the shortage of prison space, and I see the cutbacks. It takes two years to help people who are on drugs. Our committee is cutting treatment time to

six months. I know it's the wrong decision, but what can we do? We just don't have the funds.

"My committee may be labeled as the bad people because of the major hard decisions we made in cutting back. We didn't want the Ways and Means Committee getting the same shellacking after us.

"Mr. President, when I looked at that movie and I looked for a solution, there was only one solution. And if I had but one wish, somehow -- I don't know how we would do it and I don't know how we could get the community to react and back us up -- we must target the drug dealers, those guys who are making money bringing in the drugs and distributing it to those who are really sick. If we can target them and get the community to go after those kinds of guys and somehow get enough pressure to catch those guys, we can at least ask them or even beg them to stop their activities for two years to give us a chance to survive financially. I look at long-term care and everywhere I turn I can see nothing but bankruptcy for the State. But the thing that is going to help the State the most is if we can curb the distribution of drugs.

"I guess in making this speech this morning I'm just asking the public for help. I don't care who the drug distributors are, just tell them to please help us -- stop doing it for two years. Give all of us a chance to recover financially, because if not, if they continue on with their drug activities, they're going to lead us to bankruptcy. I'm asking, begging that if you're going to continue, then I'm assuming that you have no mercy, and if we ever catch you guys, we will have no mercy on you also.

"Thank you."

Senator Holt, rising on a point of personal privilege, then said:

"Mr. President, I rise on a point of personal privilege.

"Mr. President, I was going to comment on the cartoon in our newspapers, but I defer to the Majority Leader to explain that game you were playing with the Speaker of the House.

"I do have one thing to say -- it's a pretty historic day for me to stand up here and say something good about a subject that I've been very critical about. This past weekend, there was an article in the newspaper, a very positive article, and the subject of that article was none other than one of our own who's been working here in the Senate for many years, someone that we've gotten to know real well. The article that was written about Ben Villafior was something special to me and, I'm sure, special to you. At this time I'd like to have the body acknowledge the subject of the wonderful article that the newspaper wrote." (Mr. Villafior stepped forward to be recognized.)

At this time, Ben Villafior, Sergeant-at-Arms of the Senate, was called to the podium for the following presentation by President Mizuguchi:

"Members of the Senate, not only has our Sergeant-at-Arms made the headlines in the Sunday Advertiser -- a very nice, warm and personal story about his life and the service that he has given to the Senate -- but as most of you know, he also conducts an aerobics class. He takes full charge of that class and keeps our staff healthy and in fit form for their work here in the Senate. I think some of the Senators need to enroll in this class because I noticed that Senators Holt, Anderson and Ihara are out on sick leave. Ben, maybe what you need to do is to get some of the Senators to join your aerobics class.

"The members of Ben's aerobics class made him a T-shirt and today I am presenting it to him on behalf of all of those who participate in his class. Ben, would you please come up and accept this T-shirt. It says: 'Sports Legend, the Original Superstar, Boxercise with Ben, Five-time World Champion.' How about a nice hand for our Sergeant-at-Arms."

The President then made the presentation to Ben Villafior on behalf of the aerobics class.

ORDER OF THE DAY

RE-REFERRAL OF SENATE BILLS

The Chair re-referred the following Senate bills that were introduced:

Senate Bill	Referred to:
No. 2522	Jointly to the Committee on Health and the Committee on Ways and Means
No. 2523	Jointly to the Committee on Health and the Committee on Ways and Means
No. 2688	Jointly to the Committee on Agriculture, Labor, and Employment and the Committee on Ways and Means
No. 2779	Jointly to the Committee on Health and the Committee on Ways and Means
No. 3151	Jointly to the Committee on Hawaiian Affairs and the Committee on Economic Development

At this time, Senator Kanno, chairman of the Committee on Agriculture, Labor, and Employment, requested a waiver of the 72-hour Notice of a Public Hearing on S.B. No. 2688, and the Chair granted the waiver.

Senator Chumbley, chairman of the Committee on Education, also requested a waiver of the 72-hour Notice of a Public Hearing pursuant to Senate Rule 20 on S.B. No. 2087, and the Chair granted the waiver.

Senator Ikeda rose on a point of personal privilege as follows:

"Mr. President, I rise on a point of personal privilege.

"Mr. President, as you know, I transmitted a letter to the Department of Education regarding their continued reluctance to provide detailed and timely responses to your Committee on Ways and Means. While the words of the letter were harsh, I felt compelled to speak out against what is clearly unacceptable practices.

"We are in a time of unprecedented fiscal austerity. The budget reductions imposed to date are staggering. We simply do not have the time to play 'cat and mouse' with the State budget.

"Mr. President, we have and we will make very difficult decisions. The impacts on people's lives and jobs are real. Your committee needs to do an exhaustive review of all State finances, and seeing as how education accounts for one out of every three general fund dollars, we must have accountability from the Department of Education.

"Your committee has never asserted that education in our State is over-funded. In fact, the request to the DOE that my letter addresses was an attempt to ascertain just where the shortfalls in our educational system were. The department's response, however, was both arrogant and ambiguous.

"Specifically, the following question was put to the department: 'What are the department's plans for dealing with the recurring shortfall?' The department offered the following response: 'Compulsory education requires that the department provide educational services for all students ages 6 to 18, special education 3 to 20. DOE has exhausted all internal cost-savings adjustments and needs to begin cutting instructional programs in EDN 100 unless additional funds are appropriated.'

"Mr. President, this is budgeting by ultimatum, and your committee will not stand for it.

"I would also like to add that we are not the only party which has met such intransigence when it comes to information regarding the education budget. I would like to insert into the Journal a copy of a recent correspondence between KGMB and the department concerning the difficulty it had in receiving information. I think you will see that this is not isolated behavior we are dealing with.

"Mr. President, your committee will not appropriate blindly. We know that our State and our children have real needs, but we are precluded from any effective decision-making when information is not provided. Mr. President, your committee wants -- no, your committee demands that moneys for education, just as with moneys for any other State purpose, be accounted for.

"Thank you, Mr. President."

The Chair having so ordered, the insertion of the correspondence between KGMB and the Department of Education is identified as Attachment "A."

Senator Chumbley also rose on a point of personal privilege and said:

"Mr. President, I rise on a point of personal privilege.

"Mr. President, your Committee on Education fully agrees with the previous speaker, the chairman of the Ways and Means Committee; in fact, echoes many of her same concerns. The DOE has been less than forthright and timely in providing your Committee on Education with similar requests. In fact, I want to caution the department on some of the strong-arm messages that are coming out of the budget office to the various schools by threatening to cut from EDN 100 -- the classroom, Mr. President.

"This body took a very strong position in the last session on providing funds for the classroom and we will continue to do so and we also want to urge the Department of Education not to play games with the classroom dollars.

"Thank you."

Senator Solomon then rose on a point of personal privilege and said:

"Mr. President, I am also rising on a point of personal privilege.

"Mr. President, I speak in support of the remarks of the previous speakers. I can remember the days when we argued on the floor the legislation which gave the department flexibility to have more control of their own funds, i.e., trying to make the education budget what was in those days called 'less political'.

"Mr. President, it is to my dismay and I think very discouraging to your members as we go through this procedure and we're not getting any kind of response. I just want to remind this body that what we give, we can take away. And I strongly recommend that perhaps we should revisit that whole issue on flexibility. Furthermore, to revisit the issue of whether we should go back to line item budgeting as opposed to lump sum.

"I have fervently argued against flexibility and lump sum, because I felt that the schools that were situated closer to the Central Office were the schools that would benefit the most, and the schools that were on the

neighbor islands would be the ones that would be hit the most negatively in terms of many of these programs. I receive many phone calls to this effect. It brings to mind a very, very small, what I call 'manini' appropriation that meant so much to so many. The DOE had sponsored a physical fitness event with our Stadium Authority and we were informed this morning that this no longer is happening. It is just an \$8,000 appropriation in which all the elementary school children were bussed to the stadium. Evidently this was a program that was strongly supported by the community because many parents attended. They would have push-up and sit-up contests and at the end everybody would receive a physical fitness certificate and it greatly encouraged good health to our young children.

"These are the kinds of programs that are being targeted for cutting from the budget. We're not informed of these cuts, Mr. President, unless we get a phone call from our constituency being that your committee does not see these appropriations like we used to before now that we're giving everything in lump sum.

"So I would urge this body, Mr. President, let's be courageous; let's try to turn the tide; let's try to return education back to the people where it rightfully belongs. Let's revisit these issues of flexibility and lump sum. I know politically that it might be a tough decision, but we're entitled to change our minds if the circumstances warrant and I think the circumstances do at this point in time.

"Thank you, Mr. President."

Senator Matsuura, rising on a point of personal privilege, then stated:

"Mr. President, may I speak on a point of personal privilege?

"This morning I received a letter from Mrs. Taring in India. She had an audience with His Holiness the Dalai Lama of Tibet. The Dalai Lama had requested that she thank all of us for the very warm reception extended to him when he visited the Senate chambers. He wanted to express his thank you. Mrs. Taring also expressed her appreciation because we did give her a certificate of recognition.

"Some of you may not know Mrs. Taring, but if you read the children's book I have written entitled 'Angels Masquerading on Earth,' Mrs. Taring is featured as one of the angels. She is a remarkable woman. She's the woman who took care of all the refugee children when China invaded Tibet. Families had to leave Tibet and many parents were killed by the Chinese soldiers; she took care of all the children. She was the highest ranking woman in Tibet. I helped teach at her refugee school. She had just two sets of clothes: one she wore and one she washed. In her letter she said it's been 36 years since they left Tibet and her one wish is to go back to Tibet. I promised her that I would introduce a resolution asking the Government of China to at least let the Tibetans go back to their country. I didn't realize that it's been 36 years but it's a long time to be away from your homeland.

"Thank you very much, Mr. President."

Senator Solomon rose again on a point of personal privilege as follows:

"Mr. President, this is also on a point of personal privilege.

"Mr. President, every year it has been my honor to deliver your Valentine message from the women of the Senate. So here it goes, Mr. President:

'Roses are red, violets are blue; mahalo for your flowers graciously set in a golden pot, too; but on to the serious moments of the day; we are working hard on all your bills, so do not dismay; we are counting on you to pull us through; so we will sign off for now, and I repeat, for now as Your True Blue; how long that lasts, will depend on you.' (Laughter.)

"Thank you."

The President responded:

"Thank you very much.

"The Chair extends a Happy Valentine's Day to all the staff and the Senators ... and the press also."

ADJOURNMENT

At 12:21 o'clock p.m., on motion by Senator Ihara, seconded by Senator Liu and carried, the Senate adjourned until 11:30 o'clock a.m., Thursday, February 15, 1996.

ATTACHMENT "A"

December 7, 1995

Dr. Herman Aizawa
 Superintendent of Education
 HAWAII STATE DEPARTMENT
 OF EDUCATION
 P.O. Box 2360
 Honolulu, HI 96804

DEC 14 10 04 AM '95

Dear Dr. Aizawa:

I am writing to inform you about a situation involving one of your employees, Mr. Greg Knudsen.

On December 3, 1995 our reporter, Bob Loy, submitted the enclosed routine written request for information to Mr. Knudsen and the Department of Education (D.O.E.). Mr. Loy's request was for one copy of the "School Status and Improvement Report—School Year 1994-1995" for each of the state's high schools. This is a 3-page public document that in some, if not all cases, is mailed to the homes of students served by the schools.

On December 5 Mr. Loy telephoned Mr. Knudsen who acknowledged receiving the request. Mr. Knudsen informed Mr. Loy that the request involved a massive amount of documents that had not yet been assembled. He further stated that if or when he was able to compile the information, he would make the information available for review, but he would not provide copies as requested. Mr. Knudsen stated that his department no longer had the staff to comply with such requests.

Mr. Loy reminded Mr. Knudsen that he is required to fulfill the request under Chapter 92F of the Hawaii Revised Statutes—The Uniform Information Practices Act (UIPA) and that KGMB would be pleased to pay for photocopying at the costs prescribed in the UIPA. Mr. Loy then stated that if Mr. Knudsen did not comply that KGMB would seek the intervention of the State Office of Information Practices to compel the D.O.E. to abide by the provisions of the UIPA. Mr. Knudsen responded that he was not going to "waste his time" for "some fishing expedition" but that he might be more inclined to comply with the request if Mr. Loy disclosed why he wanted the information. He further stated that he was not Mr. Loy's "gofer."

We believe Mr. Knudsen's behavior in this matter reveals a deliberate attempt to restrict access to public information and violates the UIPA. According to the observations and direct experience of our staff, this incident is part of a pattern of Mr. Knudsen failing to carry out what we believe are the responsibilities of his job to provide information to the public, including journalists. There is no telling how many members of the community, who are less likely to understand and demand their rights under the UIPA, have been deterred from their legitimate requests by Mr. Knudsen's unlawful control of the gateway to public information.

Dr. Herman Aizawa

I am certain that you are aware that Mr. Knudsen is the husband of D.O.E. board member Karen Knudsen. We believe that relationship creates a conflict of interest preventing Mr. Knudsen from carrying out the responsibilities of his job, as exhibited in this and other incidents. Mr. Knudsen knows Mr. Loy is an investigative reporter and that any news stories produced as a result of his research might reflect poorly on the policies and actions of the D.O.E. and the State Board of Education, including his own wife.

We do not believe Chapter 92F allows Mr. Knudsen the discretion to base his level of compliance with provisions of the UIPA on the motive of individuals making lawful requests for information. As long as Mr. Knudsen remains in his position, and his wife remains as a board member or otherwise involved in D.O.E. activities, Mr. Knudsen's conflict will continue. This means the public will continue receiving information about the D.O.E.'s activities after Mr. Knudsen has determined whether the reason for requests for information meet his personal criteria.

We, therefore, ask you--as a service to the people of the State of Hawaii--to intervene in this matter and remove Mr. Knudsen from any position giving him authority to control access to D.O.E. information.

Thank you for your immediate attention to this serious matter.

Sincerely,

DON ROCKWELL
News Director

ORDER OF THE DAY

THIRD READING

S.B. No. 2325:

On motion by Senator Graulty, seconded by Senator Chumbley and carried, S.B. No. 2325, entitled: "A BILL FOR AN ACT RELATING TO AMMUNITION," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

S.B. No. 2714:

On motion by Senator Matsuura, seconded by Senator Graulty and carried, S.B. No. 2714, entitled: "A BILL

FOR AN ACT RELATING TO CERTIFICATION OF CHILD PLACING ORGANIZATIONS, CHILD CARING INSTITUTIONS, AND FOSTER BOARDING HOMES," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, none. Excused, 1 (McCartney).

Stand. Com. Rep. No. 1700 (S.B. No. 2304, S.D. 1):

Senator Ikeda moved that Stand. Com. Rep. No. 1700 be adopted and S.B. No. 2304, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Baker.

Senator Ikeda rose in support of the measure and stated:

"Mr. President, I rise to speak in favor of this bill.

"Mr. President, in your speech on opening day, you had said that tough times call for tough choices. With the passage of this bill, I feel that the Senate is dismissing the prevailing political winds and doing what is right and responsible for the people of Hawaii.

"I took no joy in passing this bill from my committee. I have seen the faces of those receiving general assistance, and I am fully aware of the ramifications of our committee's decision. But, Mr. President, I feel that this measure is the best opportunity available to provide some meaningful relief to those in need.

"Were we to fund general assistance at the levels of benefits currently for all recipients, we would need over \$8 million this year, and \$22 million for next year. This would represent a growth of 50 percent in this program alone. We simply cannot sustain the status quo.

"Knowing this, we sought to provide full assistance to those in greatest need. With this measure, Mr. President, families with children will still receive full benefits under the program. Without this measure, the levels of everyone's benefits would be cut across the board, and benefits for all would run out before the year's end. This was the decision your committee was faced with.

"The legislature has been assailed, especially by those in the lofty chairs of the Honolulu Advertiser's editorial board, as being cold and unflinching in our decisions. Rather than offer up genuine alternatives, they provide simplistic cliches and make nebulous references to 'cutting obsolete pre-Statehood programs.' Eight million here, twenty-two million there, it's just a matter of cutting somewhere else.

"Where would you like us to cut I ask? Over the past three years the University of Hawaii is facing almost \$45 million in budget cuts, the Department of Business Economic Development and Tourism has had its budget reduced by almost \$20 million; the Department of Health has had its budget slashed by more than \$37 million. Even the Department of Education has had its budget cut by almost \$25 million.

"My response to these voices is that my door is always open. If you have specific reductions to bring to the table, obsolete pre-Statehood programs, the committee will welcome your suggestions wholeheartedly. Mr. President, I fear, however, that this is only the beginning of a barrage of second guessing and armchair quarterbacking. We cannot, however, be drawn into hollow debates. We must continue to press forward and do what is right and not what is comfortable. The well-being of our State demands it.

"I therefore ask my colleagues to support this measure. Thank you, Mr. President."

Senator Levin rose in opposition to the measure as follows:

"Mr. President, I rise to speak in opposition to this bill.

"I do so understanding the difficult choices that we face and with great respect for the decisions that have been made by the committees in bringing this bill to the floor. Nevertheless, I cannot help but feel that we need to do more with respect to protecting the safety net that we have provided for our people, proudly provided for our people, over the past many years.

"I have some statistics that I requested from the Department of Human Services as to the people who are on general assistance, and I thought I would like to share them with my colleagues. These are statistics based, I gather, on a one-month survey, so they may vary from month to month, but I assume that they are fairly accurate over a broad period of time.

"Fifty-two percent of the people on general assistance are born in Hawaii; they are not newcomers to the State. Ninety-two percent have lived in Hawaii at least two years before applying for assistance; so the image that we have sometimes, of people getting off the plane and going down to the Welfare Office, applies to very few of these individuals. Forty percent of all general assistance recipients are on welfare less than one year; so this is not a permanent situation for many people. Seventy-eight percent are on general assistance for less than two years; so more than three-quarters are on less than two years. Thirteen percent of the general assistance cases have some earned income, meaning that these individuals or these families are trying to make a go of it, but they cannot earn enough to get out of poverty, to keep their families intact or to be able to pay for a roof over their heads.

"There were about 13,600 recipients of general assistance in July of 1995, the month that these statistics came from. Eighteen hundred of those individuals were under the age of five. A thousand were between the ages of six and twelve. Another 345 were between the ages of 13 and 17. So what this measure will do will be to knock off 3,145 children from the general assistance rolls, either if they have already received six months' worth of assistance or when they do get to that six months figure. And of the balance of the 13,000, there were another 975 adults at the other end of the spectrum who are over the age of 55. And of course we know that general assistance is for individuals who are disabled, so we are talking about people who are over the age of 55 and who are disabled -- 975 such people will be taken off our rolls.

"I'd like to read an excerpt from a column that appeared in the New York Times by one of its columnists. The columnist had been in Africa, and upon returning to the United States was thinking about the comparisons. None of this relates specifically to Hawaii but he's referring to the United States. He says:

'We have something so special compared with almost every country in the world, but if we want to preserve it we have to pay for it. I don't know exactly where the budget compromises should come and there is certainly truth to the argument that to preserve our social safety nets, they have to be reformed and probably reduced in scope,' but we do need to do something.

'They don't worry about big government in Liberia. They don't worry about government at all -- thanks to the gangs and war lords who rule most of the land.

Employers don't have to fret at all about pesky workers' safety rules in Angola, let alone services for the handicapped. The 70,000 Angolans who have had limbs blown off by land mines during 25 years of civil war seem to make do just fine on their own. You see them limping around the streets of Luanda, hustling for food and using tree limbs as a substitute for the human variety. They sure looked happy to me. And in Rwanda and Burundi no one is asked to pay for Head Start, unemployment insurance, Medicaid, national service, or student loan programs. Instead they just have a brutal competition for scarce land, energy and water.'

[It's too bad that some people] 'never go on congressional junkets' (he's referring again to the national legislature). 'Too bad. They might want to come to Africa and glimpse what happens to countries where there is no sense of community, no sense that people owe their government anything; no sense that anyone is responsible for anyone else, and where everyone, rich or poor, is left to the tender mercies of the global marketplace.'

"The bill we have before us is meant to deal with the current crisis that we have, and I do not deny that there is a crisis. As this columnist has said, I don't know exactly where the budget compromises should come, and I think that the point made by the Ways and Means chair is absolutely valid. Those of us who would like to see this program funded should come up with alternatives and I don't have them. But the fact is that, hopefully, this is a temporary crisis. Hopefully we will come out of it, next year or the year after. This bill is not a temporary measure. There is no drop-dead clause. This bill will limit general assistance forever, unless and until we choose to change our statutes to repeal the six month limitation. I think that's unfortunate, and I think that what we apparently feel we must do, if we must do it, is also unfortunate.

"Thank you."

Senator Matsuura rose in support of the measure and said:

"Mr. President, as chair of Human Services, it's been always very difficult to make cuts in welfare benefits like this, especially when we have been very generous as a state. Once you give the benefits, it's very hard to take back. I just want to make a few comments on the other side of the coin so you don't feel so bad.

"There are two types of programs that deal primarily with these physically handicapped and mentally handicapped. There's the federally funded program, funded 100 percent by federal funds, that's called SSI. Those that are physically handicapped, mentally handicapped, they are already taken care of by the SSI program. They're all enrolled in the SSI program. The Department of Human Services with the assistance of Legal Aid are trying to get people on general assistance to SSI. Those who are in the so-called waiting period in which they most likely would be enrolled in the SSI, we have another fund that takes care of them financially. Once they are enrolled in the SSI program the federal government pays back to the state all the monies that we have already given to that individual. We are not neglecting the people who are handicapped. Believe me, I'm the last one that would want to cut the benefits from those who deserve to be helped because they truly need the help.

"The State of Hawaii is one of 22 states that have this general assistance program. General assistance funds are 100 percent state funded. No federal funds are involved.

I don't know what the other 28 states do to take care of their physically and mentally handicapped people who don't qualify for SSI. If we had the monies, I think we would continue with our generous benefits. However, because we are short of funds, we have to cut back.

"If you look at this bill you will find that some of the beneficiaries have been eliminated. The children who are being cared for by mothers, fathers, and 'hanai' parents qualify. They are the ones that qualify for benefits. We have eliminated grandfather, grandmother, brother, sister, step-father, step-mother, uncle, aunt, first cousin, nephew and niece from the definition of caregivers. In other words, we are cutting down the people who are entitled to general assistance. We are not being heartless. It's just the financial situation in which we find ourselves in. And as I said, we are taking care of the children. The children and single parents are taken care of by another welfare program called the AFDC, which is funded half by the federal government and half by the state. I don't want you to feel that we are hurting the people who are poor and in need of help.

"I'll be voting 'aye' on this bill and if it was really unfair, I would be voting 'no', in fact, this bill wouldn't have come out of my committee. So I urge all of you to vote 'aye' on this measure. Thank you."

Senator Liu rose to speak in favor of the measure as follows:

"Mr. President, I rise to speak in favor of this bill, but also to point out that in sections of this bill we have revisited this issue because of a ruling by the court -- frankly, a ruling which I think is indicative of rulings lately by various segments of the court, not just the circuit level, but also at higher levels that go much further than need be, I believe, than is required by reading of the law. I truly believe that the Legislature had the discretion last year to make distinctions as they felt was necessary in this area and that what we simply have here, to a large degree, is unnecessary meddling in legislative affairs, in setting policy, rather than interpreting the law as it should be.

"Thank you, Mr. President."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 1700 was adopted and S.B. No. 2304, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO GENERAL ASSISTANCE," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Noes, 1 (Levin). Excused, 1 (McCartney).

RE-REFERRAL OF SENATE BILLS

The Chair re-referred the following Senate bills that were introduced:

Senate Bill	Referred to:
No. 2112	Jointly to the Committee on Consumer Protection and the Committee on Ways and Means
No. 3244	Jointly to the Committee on Consumer Protection and the Committee on Ways and Means

Senator Solomon rose on a point of personal privilege as follows:

"Mr. President, I rise on a point of personal privilege.

"Mr. President and members of the Senate, I rise today on a point of personal privilege because I recently

received a letter from the U.S. Attorney, District of Hawaii, inviting me to attend a panel discussion on the impact of legalized gambling on Hawaii, sponsored by the U.S. Attorney's office and the Honolulu Police Department at which workshop at least five mainland speakers were scheduled to appear. I assume that the expenses of this scheduled panel discussion are to be defrayed by the sponsors including the travel expenses of those mainland speakers. Last year after the U.S. Attorney for the District of Hawaii on more than one occasion in his official position sought to influence our debate on the legalization of gambling by appearances before the Legislature and by way of press releases relative to the subject, I contacted the Honorable Janet Reno to determine whether in fact the federal government had a policy in regard to the legalization of gambling in the various states and was informed by her that, no, in fact the U.S. Government did not have such a policy and that the U.S. Attorneys were not authorized to speak on that subject in an attempt to influence legislation in the various states. We are engaged in a new legislative session and the practices of the U.S. Attorney for the District of Hawaii continue unabated in this regard.

"Mr. President, regardless of what one's position is on the issue of legalization of gambling in Hawaii there is no justification for the involvement of the federal government in attempting to influence the deliberation of this body on a matter of purely local concern. We must be eternally vigilant to protect the sovereignty of the States as guaranteed by the Tenth Amendment. Mr. President, I intend to again contact Attorney General Reno to insure that this type of interference is terminated.

"Additionally, Mr. President, I request that this body refer the subject of Mr. Alm's activities to the State Ethics Commission to determine whether he has complied with the provisions of Chapter 97, having to do with the registration of lobbyists, and if he has not, that proper action be taken pursuant to the penalties section of that Chapter.

"Thank you, Mr. President."

Senator Anderson rose on a point of personal privilege and said:

"Mr. President, I stand on a point of personal privilege.

"I'd like to have Senator Solomon's comments put into the Journal as though they were my own, and I'd like to add that I believe the people that come in to testify have a very direct concern or input of the committees that they've gone to in both houses. And that was one of the reasons that I thought if they are going to influence the votes of the individuals as far as the Senate and the House of Representatives, then in fact, we should have an advisory type of referendum which we do have that opportunity to have.

"But over and above that, I asked Mr. Alm before if he, in fact, is taking care of the job that he was put in office for and is watching all of the drugs that are coming into this state and taking care of the real necessity of his particular job, and I don't think that he is doing that, Mr. President. So I do thoroughly agree with the Senator from Hawaii. And I thank you very much."

Senator Aki moved that S.B. No. 2665, having been read throughout, pass Third Reading, seconded by Senator Graulty.

Senator Solomon rose to inquire if the chair of the Hawaiian Affairs Committee would yield to a question. The Chair posed the question and Senator Aki having answered in the affirmative, Senator Solomon then asked:

"Just out of curiosity, Mr. Chairman, (I apologize because I did miss the caucus) can we do this if these people are elected to office; i.e., can we kind of control and tell them what they can or cannot include in their agenda?"

Senator Aki responded:

"Mr. President, I'll be glad to answer that question.

"This body enacted legislation to create OHA and therefore we do have that authority. But more than that, I just wanted to explain what this bill does. Basically, this bill allows greater access to members on the board to bring matters that are important in their view for resolution on the board level. Presently there is a lot of rancor on the part of the members of the board, and this bill addresses that problem. It does not take away the responsibility or the prerogative of the chairman of the board.

"What this bill does, specifically, is it allows the trustee to first go before the committee to address their problems

and if that trustee cannot resolve the problems at that level, then that person has the ability to bring that matter to the attention of the entire board. The committee felt that this was a reasonable solution to the problems that are internal in nature, at the present time.

"And with that, I hope I have answered the concern raised by the Senator from the Big Island."

Senator Solomon then stated:

"Thank you, Mr. President. I'd like to thank the chairman of Hawaiian Affairs.

"Mr. President, just for the record, I will be supporting the chairman because of his explanation, but I just don't want to be setting a precedent here where the Legislature is asked to interfere whenever there is controversy among members, especially in cases where members are elected such as the Board of Education. I don't want to see a bill in front of us next session which states what the board can or cannot put on their agenda. And I'm hoping that this doesn't have a spill-over effect where community groups tell the Legislature what it can discuss or cannot discuss.

"I guess the bottom line is I just don't appreciate disgruntled persons, who are part of the organizations, coming to the Legislature and asking us to interfere with their business simply because they cannot get their agendas aired. These are just some of my personal concerns.

"Thank you, Mr. President."

Senator Iwase added his comments as follows:

"Mr. President, I'd like to echo the comments of the Senator from the Big Island.

"I'm going to support the bill with the greatest reluctance in order to move the bill along for the purpose of discussion, but I am, like the Senator from the Big Island, deeply concerned about us intruding ourselves into the operations of independently elected administrative agencies. If they have difficulty dealing with the issues, one would hope that they would learn as the fights go along, or as peace comes, how to solve problems without rancor. And I don't think us getting involved with this agency or any other agency is going to be fruitful to the process of an agency developing some maturity as it deals with issues.

"I'm going to support it with the greatest reluctance. Thank you."

The motion was put by the Chair and carried, and S.B. No. 2665, entitled: "A BILL FOR AN ACT RELATING TO HAWAIIAN AFFAIRS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, none. Excused, 1 (McCartney).

At 11:49 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:52 o'clock a.m.

S.B. No. 2003, S.D. 1:

Senator Iwase moved that S.B. No. 2003, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Bunda.

Senator Liu rose to speak against the measure as follows:

"Mr. President, at the risk of eliciting response from the chairman of the esteemed key subject matter of this committee, I rise to speak in opposition to this measure.

"Mr. President, this bill comes before us with the intention of assisting and promoting family child care operations within the state. I posit to you, Mr. President, that instead, we will be further creating a climate of cynicism regarding the question of how far will government go in the area of infringing upon private property rights and privacy.

"Instead of promoting child care, I think we will be promoting, through this bill, greater confusion as to how certain forms of real estate which are owned by private property owners should be managed. Instead of promoting child care, we are going to be promoting certain kinds of discrimination with regard to how we treat similar kinds of dwelling units based on this bill. Instead of promoting child care, I believe we will only drive up the cost of housing.

"This bill goes beyond, and at the same time less than, what it has been promoted to accomplish. It has been described as a bill that will open up single-family dwellings to family child care operations. It will, but only to a degree. It will also leave out thousands, thousands of single-family dwellings which are owned as condominium property regimes.

"There is a misconception out there in the public and the media that condominium property regimes equate to buildings, high rises, or townhouse units. But that's not the case. Condominium property regime is merely a form of ownership and it can take the form of a single-family dwelling, of a shack, of a farmhouse, as well as multi-family structures, so that those thousands of single-family dwellings, which are in fact owned as condominium property regimes today in the State of Hawaii, will be exempted from this mandate. And similar types of structures which are on subdivision lots will not. There's going to be a problem of enforcement. There's going to be a concern as to what qualifies and what does not. And we're going to be back here next year trying to answer those questions, and the year after that to clarify those issues and probably the year after that.

"Furthermore, this bill makes no distinction between the requirement of the mandate encapsulated here between multi-family dwelling structures which are rentals, which are used purely as rentals, versus those which are for home purchases and owner occupants. And it makes no distinction between the ownership. That means the state, through HHA which operates and owns many multi-family structures which are used solely for rentals, will be required to allow family child care operations in their buildings regardless of what the current law or current rental agreements state. There is no exemption ... no exemption. And we have no idea of what that will do to the cost of insurance, both to individuals who might own those kinds of buildings as well as the state.

"In fact, we may be incenting current owners of multi-family structures which hold their property as rentals to convert their property to for-purchase ownership, which will only exacerbate the rental housing squeeze which still

exists in many parts of the island, and will only drive up the cost of housing, ultimately.

"The whole question of liability insurance and the cost thereof has been left open and again that will add up to the cost of housing.

"Mr. President, well-intentioned or not, this is a flawed bill and I would hope that after today it goes no further.

"Thank you, Mr. President."

The motion was then put by the Chair and carried, S.B. No. 2003, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO FAMILY CHILD CARE," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Noes, 1 (Liu). Excused, 1 (Fukunaga).

S.B. No. 3151, S.D. 1:

Senator Aki moved that S.B. No. 3151, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Matsunaga.

Senator Bunda rose in support of the measure and stated:

"Mr. President, I rise to speak in support of this bill.

"Mr. President, as we approach the beginning of a new millennium, this bill brings before you an historic opportunity to help create a new Hawaii; a vision of Hawaii as the Asian-Pacific offshore domicile of choice for financial services and intellectual property; taking full advantage of our strategic location at the gateway between the east and west.

"This is a new vision, a historic opportunity to create a Hawaiian Nation Trading Region, a win-win proposition for the State and the Hawaiian sovereignty movement. This opportunity would broaden Hawaii's role in the global market place, particularly the Asian-Pacific market; provide a vehicle for the Hawaiian sovereignty groups to potentially resolve their land claims; and serve as a foundation for creating an attractive economic development area to benefit the nation of Hawaii, the Hawaiian people and the State.

"Bermuda and the Cayman Islands have exploited their location between the United States and Europe. The Cayman Islands has experienced phenomenal growth due to their flexible, tax-free offshore financial services environment. There is over \$1 billion invested in Cayman-sited mutual funds.

"Similarly, in Bermuda, international business now generates more foreign exchange earnings than tourism. There are over 8,000 international companies registered in Bermuda, over 40 percent have been added within the last five years. Over 62 percent of the 3500 captive insurance companies worldwide reside in Bermuda. In terms of the insurance industry as a whole, Bermuda is now the largest reinsurance and general insurance domicile after London and New York. Bermuda is also the largest domicile in the world for mutual funds. These experiences illustrate that the opportunity for a properly structured and supported Hawaiian Nation Trading Region could be very attractive to the State of Hawaii and Hawaiian sovereignty groups.

"The Asian-Pacific market is twice the size of Europe and the United States. The economies in the region are growing at three times the pace of the rest of the world. Hawaii's strategic location at the gateway between the

east and west has long been hailed as an enormous opportunity to exploit the tremendous growth in the Asian-Pacific region. Sadly many today reflect upon this as a missed opportunity. The Hawaiian Nation Trading Region, as described in this bill, reopens this window of opportunity; presuming we will find a way to work together to take advantage of it.

"Farmers used to complain about oil in their fields; that same oil now fuels our industrial economy (that oil was a gold mine). Some in Hawaii have complained about the Hawaiian Sovereignty movement; I submit to you that we need to stop viewing this effort as a threat and instead look at it as an opportunity. I challenge our Legislature to move forward with this bill and tell our Governor that we are sitting on a gold mine and don't even recognize it.

"The time has come. The time has come to help create a new future for Hawaii. The time is right. The time is right to set aside our differences and find a way to make this vision reality. If the Berlin Wall can come down and East and West Germany can set aside their differences, then surely the State of Hawaii and the Native Hawaiian sovereignty leaders can find a way to create a new Hawaiian Nation that will help bring economic prosperity to all of Hawaii.

"This bill requests that a delegation of governmental officials meet with Hawaiian sovereignty leaders as co-equals to explore the potential a Hawaiian Nation Trading Region would offer the State of Hawaii and the native Hawaiian people. Mr. President, recently various sovereignty groups have met with me and are interested in pursuing this measure. Numerous issues must still be resolved to make this effort successful. However, fundamentally, the Hawaiian Nation Trading Region needs the freedom a new nation offers in constructing attractive business and taxation laws and the stability of the United States to be successful. If actively and cooperatively pursued, I believe this opportunity could be a win-win proposition for all parties.

"I submit to you that passing this bill will be a giant step forward in encouraging the appropriate parties to pursue this opportunity. In and of itself, the bill commits nobody to anything; however, the outcome and vision the Hawaiian Nation Trading Region offers is too good to overlook.

"We are at the dawn of a new era ... the time has come ... the time is right ... the next millennium awaits us. We can either make history or be history. Let's work to shape our own future, before someone else does it for us."

Senator Solomon rose in support of the measure as follows:

"Mr. President, I'll be supporting this bill with reservations.

"Mr. President, I want to thank my colleague for his remarks and thank him for the vision that he has for the Hawaiian Nation. I think the vision is an excellent one and I'm sure this could happen for us in the future.

"The problem, Mr. President, is that we have the present administration, the Cayetano administration, blocking the funding for the plebiscite. As you know, Mr. President, it's impossible to implement and facilitate a bill such as this if the Hawaiian people do not have an opportunity to vote and determine who these leaders would be. The problem I have, Mr. President, is that we're dealing with all of these various groups and most of their leadership is self-appointed by a membership within

their own lahui, within their own groupings. And I feel that if the Hawaiian people are to move forward, we must be able to establish some kind of democratic forum in which those that are conservative, liberal, whether left, right, or however it might be, will have an opportunity to come together and be able to decide for themselves as to what they envision the new Hawaiian Nation will be. This opportunity has been taken away by the present administration who is short-sighted in understanding what the problem is.

"Mr. President, you were here when the committee worked very, very hard, and very, very diligently, both in the House and Senate, to come up with a very reasonable package that would allow the Hawaiian people to convene, whether it be in a convention, a puwala, a forum, or whatever they so decided on how they would like to conduct their business to provide themselves an opportunity to elect the leadership that would be able to make these decisions.

"So with that, Mr. President, I just would like to remind my colleagues that although I feel this is an excellent bill, I think it's premature. I think that it can come to fruition only after the present administration releases the funding so the Hawaiian people can carry on with their business.

"Also as a note, Mr. President, there is nothing prohibiting the Department of Hawaiian Home Lands from implementing this program if they so desire. It is in the statutes that the Federal Government has no business or no jurisdiction over the Department of Hawaiian Home Lands. Our pilikia, Mr. President, is quite simple -- we have a state administration, the Cayetano administration, whose attorney general is intervening in matters that belong to the Department of Hawaiian Home Lands. So I would suggest to the introducer of this bill, as well as to the Hawaiian Affairs Committee, that once this bill goes through the process, they should perhaps look at other alternatives. Perhaps they could look at empowering the Department of Hawaiian Home Lands to pursue this because it's an excellent economic opportunity for the Hawaiian people.

"Thank you very much."

The motion was then put by the Chair and carried, S.B. No. 3151, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO A HAWAIIAN NATION TRADING REGION," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

At 9:36 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 9:38 o'clock a.m.

S.B. No. 2446, S.D. 1:

Senator Chumbley moved that S.B. No. 2446, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Kawamoto.

Senator Chumbley rose to speak in support of the measure as follows:

"Mr. President, due to the vision and hard work of my forerunners, Senators Ige and McCartney, we have a clear direction for our public education system. Nationwide, the traditional approach in education was to create policies that put a priority on maintaining the current education system. The emerging trend is to put a priority on supporting improved student learning. The support

for improved student learning, in Hawaii, has been to create a policy environment that promotes decentralized management with shared decision making at all levels. We know that 'one size' does not fit all. We know that 'sameness' is not 'fairness.' School/Community-Based Management allows for every school to custom-make their educational program to fit the unique needs of their community.

"We no longer want to regulate, dictate and direct to the schools. We want to encourage, support, and collaborate with the schools. The challenge has been that we find that what we want for the schools is different than what the Department of Education wants. We are often told by the Department of Education that their intent is for the best interest of the schools but we only need to look at the situation with the increased appropriation for repair and maintenance that is not reaching the schools. In the past, we were always blamed for not funding education but we don't deserve sole blame. It is evident that we, as legislators, need to protect the schools.

"Senate Bill 2446 furthers the direction of promoting support and local autonomy for the schools. We have taken the current policies and placed them into a state education policy framework. Specifically, this measure organizes the education statutes to group together policies affecting students, personnel, system structure, financial structure, and facilities.

"This framework creates coherence in the education code and can serve as a guide to future legislators who are responsible for developing education policy. Also by grouping the statutes within this framework, fragmentation amongst policies became evident. This is the beginning of eliminating policies that are outdated or not aligned with the direction to provide support and autonomy to the schools.

"Education governance has become a focus of many states. We are one of five states to be revamping our education code. And we are the only state to have created a framework that coherently organizes the education code and is principle-driven.

"Mr. President, I hope that I can count on you and my colleagues to support this important measure. Thank you."

The motion was then put by the Chair and carried, S.B. No. 2446, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE RECODIFICATION OF THE EDUCATION STATUTES," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Stand. Com. Rep. No. 1977 (S.B. No. 2487, S.D. 1):

On motion by Senator Gaulty, seconded by Senator McCartney and carried, Stand. Com. Rep. No. 1977 was adopted and S.B. No. 2487, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE OMBUDSMAN," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, 1 (Ikeda).

S.B. No. 2456:

Senator Holt moved that S.B. No. 2456, having been read throughout, pass Third Reading, seconded by Senator Ihara.

Senator Matsuura rose in opposition to the measure and said:

"Mr. President, I rise to speak against this measure.

"One of my concerns is that this bill will now allow the advanced practice registered nurses to practice and treat mental health, alcohol patients and also those that are affected with drug abuse. My concern is that we have passed legislation to give the advanced practice registered nurses the power to prescribe drugs. My concern is that these nurses do not have the privilege of admitting patients into the hospital. Who will care for these patients when they go into the hospital.

"I think that in the present situation where the advanced practice registered nurses treat these mental health, alcohol and drug people as a team with at least one physician supervising, I think is a better procedure and I think it will contain medical costs.

"So in that respect, Mr. President, I'll be voting 'no' on this measure. Thank you."

Senator Holt responded as follows:

"Mr. President, in response to the previous speaker's remarks, the issue of the advanced practice registered nurses prescribing controlled substances, particularly methadone, has been raised by physicians. To clarify for the members here, the advanced practice registered nurse formulary adopted by the Board of Medical Examiners in September of 1995 does not include controlled substances.

"Thank you."

Senator Baker rose and stated:

"Mr. President, I have some prepared remarks in support of this measure I'd like to have inserted into the Journal."

The Chair having so ordered, Senator Baker's remarks read as follows:

"Mr. President, I rise to speak in support of S.B. 2456 relating to insurance benefits.

"The purpose of this bill is to allow insurance coverage for the treatment of alcohol and drug abuse under HRS 431M by advanced practice registered nurses in the State.

"Under current law, third party billing only covers alcohol and drug abuse services provided by licensed physicians or psychologists. However, there is a lack of qualified individuals to provide these services in many of the rural areas on the neighbor islands -- areas most in need of alcohol and drug abuse rehabilitation. The unfortunate result is that many people must delay or forego treatment simply because they cannot schedule

appointments with health care professionals covered under current insurance law.

"Through this bill, Mr. President, advanced practice registered nurse would be added to the list of qualified health care providers that can be covered under insurance benefits for alcohol and drug abuse treatment. These nurses, who meet the highest standards of medical instruction as set forth in HRS 321-193, will be able to fill the void in many rural areas throughout the State and ensure that treatment is readily available and reimbursable by their insurance carrier.

"I sincerely believe, Mr. President, that S.B. 2465 is consistent with our continued commitment to providing the citizens of our State with the best possible access to quality health care services.

"I urge all of my colleagues to vote in favor of this very important measure.

"Thank you, Mr. President."

The motion was then put by the Chair and carried, S.B. No. 2456, entitled: "A BILL FOR AN ACT RELATING TO INSURANCE BENEFITS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Holt moved that S.B. No. 2739, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Ihara.

Senator Anderson rose in support of the measure and stated:

"Mr. President, I'm going to be voting for this, but I do have some reservations.

"The gift certificates are going to be extended for two years and there are restaurants and grocery stores now that are giving out certificates and they're on more or less a price increase that is determined by the marketplace, and their cost is a lot different than a fixed cost for clothing stores, etc., so for that reason, I do have some reservations and I'll try to work on them.

"Thank you very much."

The motion was then put by the Chair and carried, S.B. No. 2739, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO GIFT CERTIFICATES," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Gaulty moved that Stand. Com. Rep. No. 2014 be adopted and S.B. No. 2985, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator McCartney.

Senator Fernandes Salling rose to inquire if the chair of the Judiciary Committee would yield to a question. The Chair posed the question and Senator Gaulty answered:

"Yes I will, Mr. President."

Senator Fernandes Salling inquired:

"I believe, Senator, this bill makes what ADLRO stated were housekeeping corrections. However, as was mentioned, TGA did delete Saturdays from the computation of time on page 3 and it reflected the intent of the committee when we originally worked on the bill. This was brought to your committee's attention and will the committee be going into conference and also looking at deleting Saturday, which as I understand it amended the bill to add back in Saturdays?"

Senator Gaulty responded:

"The response, Senator, is that we are checking on the Rules of Court to determine whether the Rules of Court is consistent throughout the Judiciary. At this point, we are not able to respond to you, but we will be taking a look at that in conference."

Senator Fernandes Salling then stated:

"I might just point out, Senator, that this is admin revocation and so as I understand it the Rules of Court should not apply in administrative matters, especially with respect to this specific piece of legislation. I can see Rules of Court applying to all other kinds of courts and systems in the Judiciary but I have a question whether or not it should apply or the committee should use it as a way to decide whether or not to add back in Saturday, which I might mention again was deleted by the original committee, TGA, when we heard the bill."

Senator Gaulty responded:

"We'll be happy to take a look at it in conference, but it's our understanding that the Administrative Revocations Office is not open on Saturdays as it is not open on Sundays and holidays. We will have to take a look at that."

Senator Fernandes Salling interjected:

"But for the computation of time, Senator, I believe that was what the committee, when we initially worked on Admin Rev, was concerned about for the computation of the time with respect to loss of license."

Senator Gaulty responded

"We'll take a look at that, Senator."

Senator Fernandes Salling then said:

"Okay, thank you."

The motion was then put by the Chair and carried, Stand. Com. Rep. No. 2014 was adopted and S.B. No. 2985, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO THE ADMINISTRATIVE REVOCATION OF DRIVER'S LICENSE," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Stand. Com. Rep. No. 2015 (S.B. No. 3079, S.D. 1):

On motion by Senator Matsunaga, seconded by Senator Levin and carried, Stand. Com. Rep. No. 2015 was adopted and S.B. No. 3079, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO EMPLOYEE STOCK OWNERSHIP PROGRAMS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

S.B. No. 3083, S.D. 1:

Senator Tam moved that S.B. No. 3083, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Aki.

Senator Tam rose and stated:

"Mr. President and fellow colleagues, in the committee report there is an error in the last paragraph. Instead of 500 tons it should be 100 tons. Thank you."

The motion was then put by the Chair and carried, S.B. No. 3083, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO AIR POLLUTION CONTROL," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Noes, 2 (Fernandes Salling, Ige).

Stand. Com. Rep. No. 2034 (S.B. No. 3248, S.D. 2):

On motion by Senator Iwase, seconded by Senator Ige and carried, Stand. Com. Rep. No. 2034 was adopted and S.B. No. 3248, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO OCEAN RECREATION MANAGEMENT," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Stand. Com. Rep. No. 2040 (S.B. No. 2898):

By unanimous consent, Stand. Com. Rep. No. 2040 and S.B. No. 2898, entitled: "A BILL FOR AN ACT RELATING TO HIGHWAY SAFETY," were recommitted to the Committee on Judiciary.

Stand. Com. Rep. No. 2045 (S.B. No. 608, S.D. 2):

Senator Iwase moved that Stand. Com. Rep. No. 2045 be adopted and S.B. No. 608, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Ikeda.

Senator Matsuura rose in opposition to the measure and said:

"Mr. President, I will be voting 'no' on this measure.

"I don't like to send over to the House a bill that is defective. This bill appears to be a good bill. There is a land exchange between Campbell Estate land and the state. I don't know why Campbell Estate is giving in to the state because when the appraisal on their land is higher, the state doesn't have to pay Campbell Estate any money. However, if it is in the reverse, if the state land is appraised higher, Campbell Estate has to pay the state the difference.

"Now, the objection that I have is in Section 4, 'This Act shall take effect in the year 2525 and shall be repealed on June 30, 1997.' Now if there is something wrong with the bill, I want to know what it is because looking at the bill it looks like it's a good bill. Why not make it a good bill and send it over to the House instead of putting these defects which I have always objected to in my 16 years here in the Legislature. When I send a bill over, I want it to be clean and perfect, unless there is a reason for the defect.

"Unless somebody can explain to me why this defect, I will be voting 'no.' Thank you."

Senator Ikeda responded as follows:

"Mr. President, I rise to speak in favor of this bill.

"Despite what the previous speaker said, it's a well known fact that when we want bills to go directly to conference we leave things blank or we put mistakes in them to assure that they won't pass. In this instance, it may be a good bill -- we're not sure.

"This bill would provide for land exchange between the state's 183 acres and a similar number of acreage owned by Campbell Estate. On the surface it appears to be all right, but there's a lot of information and a lot of questions that couldn't be answered by the parties. That being the case, it's only prudent for us to take this action. Rather than hold the bill and stop the land exchange, we are moving it forward for further discussion, but we anticipate having answers to these questions because I don't believe, Mr. President, that any one of us wants to buy a pig in a poke.

"Thank you."

Senator Matsuura then rose to inquire if the chair of the Ways and Means Committee would yield to a question. The President posed the question, and Senator Ikeda having answered in the affirmative, Senator Matsuura inquired:

"You mentioned that there are many reasons. Can you give me just one reason? I want to vote 'aye' on this bill. Just one reason, that's all I need. I will change my vote."

Senator Ikeda responded:

"Mr. President, I'm not out to buy votes. I think people need to vote their conscience. And in this case, the Senator from the Big Island is free to do so. As far as I am concerned, one of the questions I asked at the hearing was, Has a geological study been done on the lands that we are accepting in exchange? The answer was 'no.' We have no idea what lies beneath the land. We don't know its commercial value. We don't know whether or not buildings can be put on them easily. We have no idea and I don't believe that we should accept blindly. I want answers to my questions and I think this is the only prudent way to proceed.

"Thank you."

Senator Iwase then rose and said:

"Thank you, Mr. President. Hi, Senator Matsuura, I'm here to answer your question and get your vote."

The Chair interjected:

"Senator Iwase, are you speaking in favor of the bill?"

Senator Iwase responded:

"Oh yes, very much so or else I wouldn't have risen.

"In response to your question, at the hearing there was a question raised about where exactly the land that would be exchanged to the state, or given to the state, should be. There are issues of flood control, for example. There is a tax map key that is cited in the bill. This tax map key encompasses the area that is designated to be given to the state. However, as we heard at the hearing, the possibility does exist because of the cited tax map key,

that a land could be within the tax map key that is not presently designated for the exchange, could instead be given to the state, which may give us a better configuration -- nearer to the highway, a better control over flood control projects. And I think that should be discussed further with Campbell Estate and the state administration. And that's one example that I would like to pose to the Senator from the Big Island.

"And with respect to the year 2525, that was chosen because that is a title of a song and it's a good song. Thank you."

Senator Matsuura then rose and stated:

"Mr. President, you've got my 'aye' vote on this bill. At least the Senator from Mililani gave me one good reason, because if the state doesn't know what land is being exchanged, that's a good reason. However, just one comment -- as far as I am concerned, I'd rather build the university on flat land than on top of a hill -- just ask Kamehameha High School all the problems associated with building a campus on a hill. Thank you."

The motion was then put by the Chair and carried, Stand. Com. Rep. No. 2045 was adopted and S.B. No. 608, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC LANDS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

S.B. No. 3118, S.D. 1:

On motion by Senator Kanno, seconded by Senator Taniguchi and carried, S.B. No. 3118, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO APPROPRIATE BARGAINING UNITS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 20. Noes, 5 (Fukunaga, Ige, Levin, Liu, Matsuura).

Stand. Com. Rep. No. 2054 (S.B. No. 2718):

On motion by Senator Grauly, seconded by Senator McCartney and carried, Stand. Com. Rep. No. 2054 was adopted and S.B. No. 2718, entitled: "A BILL FOR AN ACT RELATING TO FOSTER PARENTS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

At 9:58 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 9:59 o'clock a.m.

S.B. No. 2871, S.D. 1:

By unanimous consent, S.B. No. 2871, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO CANDIDATE NOMINATION PAPERS," was recommitted to the Committee on Judiciary.

Stand. Com. Rep. No. 2058 (S.B. No. 2897, S.D. 1):

On motion by Senator Grauly, seconded by Senator McCartney and carried, Stand. Com. Rep. No. 2058 was adopted and S.B. No. 2897, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE ADJUDICATION OF VEHICULAR TRAFFIC VIOLATIONS AT PUBLIC

AIRPORTS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

S.B. No. 2125, S.D. 1:

Senator Holt moved that S.B. No. 2125, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Ihara.

Senator Fernandes Salling rose and asked:

"Would the chairman of CON yield to some questions?"

The President posed the question to the chair and Senator Holt having answered in the affirmative, Senator Fernandes Salling inquired:

"Mr. Chairman, we've seen this bill before, by the way, which has usually come to TGA. Anyway, this bill has been amended to say that if you are enrolled in an approved course, approved by the DOT (and they have basically one person who approves those courses ... the DOT, State DOT), or if you are enrolled in any branch of the Armed Services of the United States, then you will be allowed, if you pass these courses after enrollment, to purchase or to obtain liability insurance. Does this mean, Mr. Chairman, that for those, and there are quite a few especially on the neighbor islands, that can't afford the fee (which runs as high as \$175 and more) for the DOT course, does this mean that these people will not be able to purchase liability insurance because they were not enrolled in that course or with the military course?"

Senator Holt answered:

"In answer to your question, DOT approves motor safety foundation accredited courses throughout the state. And all we are doing here is allowing for the military sponsored courses, which are motor safety foundation accredited as well, to be used by those motorcycle people. It does not preclude anyone from continuing to take those courses that are provided currently and approved by the DOT."

Senator Fernandes Salling continued:

"As I read it in the bill itself, if you want liability coverage for your motorcycle, besides obtaining a valid motorcycle or motor scooter license, you will have to obtain a learner's permit and be enrolled in or pass a motorcycle education course approved by the DOT which means, that one person, that MSF approved course. So as I read it, Mr. Chairman, and I want to bring this to your attention because if this is in fact what we are doing, we are very much penalizing those motorcycle owners who want to purchase insurance but now by law we are mandating that in addition to a license, they have to be enrolled in a DOT approved course and, you do add in a course that is offered by any branch of the Armed Services of the United States. But I wonder how many of those are offered on the neighbor islands. I know we have problems offering and I am wondering and questioning how many of the DOT courses by MSF do we offer on the neighbor islands and, in addition to that, how many of the courses offered by the Armed Services do we have available?"

Senator Holt responded:

"The purpose of the bill, as we drafted it, was to broaden the opportunities for people to get insurance. And in the current law everything has to be approved by the Department of Transportation. You are correct. We are broadening the law to allow those courses that are

provided by the military in any branch of the Armed Services to meet the requirements for insurance. And those courses are relatively inexpensive and practically free in most cases. This bill was to address that problem because the DOT was running everything through the department. Now you can go out and take a course provided by any branch of the Armed Services that is certified to meet those requirements.

"Thank you."

Senator Fernandes Salling then stated:

"Thank you. Mr. President, I rise to speak against the bill. Thank you, Senator, for answering those questions.

"We've seen this bill the last two years and basically what it's doing is it will impose a hardship on those people who drive motorcycles or would like to, in that it does state in the bill itself (and it's just a one page bill for members who want to read it) that in order to obtain liability insurance coverage, they must have 'enrolled in or passed a motorcycle education course approved by the DOT. That is basically one person who runs these courses and most of them are run here in Honolulu and the frequency and the number of courses available are not all that great, and the charges are awfully high. And yes, it does try and help some people by, as the Senator said, allowing those who want insurance to take a course that's offered by the Armed Services of the United States, but again one has no idea how many of these courses are offered on all of the islands. And to mandate that they be enrolled in a course approved by the DOT, basically this one person at a certain fee (which is going to be higher) and not know how many other courses are available out there through the military and on each island, and how many courses that can accommodate the numbers of people requesting, they now have to pass these motorcycle education courses. And that's fine, but do we have enough in the military, which we are assuming will be at a lower cost, to take care of the numbers of people that want to be sure that they can obtain liability insurance?"

"This person who has been in charge of the DOT program has been in the Legislature for many years, coming back to us, wanting to see this bill passed. It was a way to increase the fees that people have to pay and by mandating that they be enrolled and that they pass, perhaps limits the number of people that are driving. And the fear that I have is that because of the cost and because we have no idea right now how many courses are available to the military, you may have people out there that are just forced, as they are with automobile insurance, to say 'I don't have the money to take the course to get enrolled and I'll have to just find a way to get liability insurance.' But now that I'm talking about it, there would be no way for them to do it unless they show proof that they took this course. Therefore, the fear is that they would be driving without insurance.

"I don't think that is the policy we want to encourage here. We already have that problem, for various reasons, with automobile insurance. We surely don't need to encourage people to drive without insurance who own motorcycles, not when we have a system that works. And now we have one person, essentially, who's coming in and saying, but if they want liability insurance, they have to take my course or maybe another course by the military and they have to pass the course.

"For those reasons, I urge my fellow Senators to please think about this and to vote 'no' on this bill. And I do know that Senator Holt will be taking it up in conference having heard our concerns. I don't think he owns a motorcycle, but I know that he is concerned about motorcyclists. Thank you."

Senator Holt then inquired:

"Mr. President, will the previous speaker yield to a question?"

The Chair posed the question and Senator Fernandes Salling answered:

"I don't drive a motorcycle, but, yes."

Senator Holt inquired:

"Is it your feeling that the one person in the Department of Transportation is the motivating force behind this amendment? Is that how I understand it?"

Senator Fernandes Salling answered:

"In the past, that is what I had seen when the bill had come before our committee because there is basically just one key person that will certify others and has been in the business for quite a long time."

Senator Holt further inquired:

"That's your concern?"

Senator Fernandes Salling responded:

"Well, it's the fact that the bill is now saying, if you want liability insurance, you've got to be enrolled in this course unless you can get one through the military. I have no idea how many are available out there to take care of their requests (the military, that is). But you have to be enrolled in this course and then the question was always there and we did (through taking testimony) get information that, yes, the fees were going to go up substantially for the DOT approved course."

Senator Holt then stated:

"This bill doesn't do anything but allow for the military approved motorcycle foundation courses to be used to qualify for insurance. And for your information, the DOT person you talk about came in and opposed this bill. Thank you."

Senator Fernandes Salling responded:

"Just a quick rebuttal, Mr. President. In the bill, as I read it, the underlined portion, I believe, is new material and the underlined portion does state ... You're correct, Senator, 'enrolled in or passed' the course ... no, no, 'enrolled in' it does state, 'enrolled in or passed a motorcycle education course approved by the department of transportation or,' and a new section underlined 'any branch of the armed services.' So it does, it does require that they be enrolled in. That's the new portion of the bill -- 'enrolled in' this motorcycle education course approved by the DOT. We're talking about one person, and I'm not sure if the person who came in and opposed it from the DOT was the DOT division, Mr. Hoffstead or Halstead, or the person that is actually offering the courses, who is not a DOT employee."

The motion was then put by the Chair and carried, S.B. No. 2125, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO MOTORCYCLE INSURANCE," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Noes, 2 (Fernandes Salling, Solomon).

Stand. Com. Rep. No. 2065 (S.B. No. 2280, S.D. 2):

On motion by Senator Holt, seconded by Senator Ihara and carried, Stand. Com. Rep. No. 2065 was adopted and S.B. No. 2280, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO CIGARETTE SALES BY MOBILE FOOD VENDORS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

The Chair ruled that Senator Liu was not in conflict.

Senator Holt moved that S.B. No. 3159, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Ihara.

Senator Liu rose to request a ruling from the Chair on a possible conflict of interest and the Chair ruled that Senator Liu was not in conflict.

Senator Solomon rose in support of the measure and stated:

"Mr. President, I just want to register that I will be voting for this bill with reservations. It's no secret about all of my concerns. This bill has been around the Legislature for many years. I think that the chairman of the Committee has done an excellent job in terms of putting up the proper fire walls, etc., but I just get kanalua on allowing institutions to be able to sell insurance, especially insurance dealing with home insurance and property insurance when you have to go to those institutions for mortgages or loans.

"Thank you very much, Mr. President."

Senator Tam then requested a ruling from the Chair as follows:

"Mr. President, I would like to register a possible conflict of interest. I sell insurance."

The Chair ruled that Senator Tam was not in conflict.

The motion was then put by the Chair and carried, S.B. No. 3159, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO INSURANCE, ANNUITIES AND SECURITIES ACTIVITIES OF BANKS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

S.B. No. 2380, S.D. 1:

Senator Chumbley moved that S.B. No. 2380, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Grauly.

Senator Kanno rose to speak against the measure and stated:

"Mr. President, I rise to speak in opposition to this bill.

"The story has been told a number of times in the movies (Dangerous Minds, Stand and Deliver) of students who have been given up on by the system and in comes a teacher who is able to make a difference in these students' lives. My fear with this bill is that we're giving up on these students. According to this bill, with agreement from the principal, parent and student, children over the age of 16 will no longer be required to attend public schools.

"I think our schools have changed in recent years. Students learn in different ways. I think we now acknowledge that each student is unique and special, and our schools are having a hard time keeping school interesting, meeting the needs of each and every student. My dream is that one day our schools will meet the needs of each and every student; will support each and every student in helping them to reach the goals that they pursue. I think long gone is the time when a teacher gets

up in front of the classroom and teaches all students in the same way. The demands on teachers are great. Teachers no longer are just educators, rather, they have become parents, disciplinarians, social workers, nurses. They have to fill many roles and our schools are no longer the disciplined classrooms that they once were.

"Our mandatory age of 18 right now is the glue that keeps our system in place. By changing the age and lowering the age from 18 to 16 is going to throw off the balance that is currently there. My fear is that more and more students will be enticed to elect to leave school.

"When I was growing up and going through the public school system in Waipahu, my parents were always there for me supporting me -- my father an electrician, my mother a secretary. Both of them had traditional jobs and they both returned home at about five o'clock, so they were home for me every night, supporting me through school, supporting me as I grew up. And I think, as well, my teachers played a major role in my life. They were very supportive of me throughout the whole process.

"Today, parents are hardly there for our young people. And that is why we now have the A+ program. In my community of Ewa Beach many students return home and their parents are working all hours of the day and night. Many have to hold a number of part-time jobs. So many of our students don't have parents at home with them in the household supporting them.

"I think this bill may be worthy to be considered with other measures to create alternative programs. However, this bill does not include alternative programs in it. All it says is that students upon reaching the age of 16 will no longer have to attend school. I don't believe that there are jobs out in our communities for 16-year-olds to go out and get. They would be competing with the welfare recipients that we are requiring to go to work right now. Remedial programs in our community colleges are being reduced. Community colleges do not accept students who are not high school graduates, or who do not have a diploma equivalent. They do accept students on an early admit basis or basically honor students -- students who want to take calculus classes that are not available to them in their high schools.

"I think our education system was set up to provide equal opportunity for all. My fear is that we are, by this bill, saying that students who are difficult, students who are troublesome, students who are unruly, don't deserve our time and commitment any longer. As I said earlier, a change like this needs to come with other programs -- alternatives for these youths. The Department of Education has opposed this bill -- addressing the concern, saying that unsupervised children should not be released without a program of direction into the community at large. The Police Department is opposed to this bill as well.

"I urge my colleagues to vote 'no' on this measure. Thank you."

Senator Kawamoto also rose in opposition to the measure and said:

"Mr. President, I rise to correct a perception on my position on this bill. Before I do so, I'd like to thank the Judiciary chair and the Education chair for their hard effort and their major efforts on this bill.

"Mr. President, I rise to speak in opposition to S.B. No. 2380, S.D. 1.

"Mr. President, simply put, my reason for opposing S.B. No. 2380, S.D. 1, is that it does not provide for an alternative education program for the 16 year olds that we release from compulsory education.

"My opposition to the bill in turn has been construed by many, including the press, as though I outright oppose dropping the compulsory age from 18 to 16.

"Not so. As a member of the Leeward School Advisory Council for 4 to 5 years, I've urged the lowering of the school age from 18 to 16. The clear proof is S.B. No. 3073, which I introduced this year, and which provides for alternative schools or classes for the alienated or at-risk students. And, I was willing to amend said bill of mine to allow the DOE to beef up its adult education program and to utilize our DOE's existing and already functioning community schools, with this storefront program, to provide options that are both practical and meaningful for the alienated youth.

"Hopefully, my no vote today will lead to a final bill that takes care of the alienated youth in another educational environment that will be a permanent win-win situation for all instead of a band-aid approach of solving what I agree is a very serious problem. We are not a throw-away society, Mr. President. We are a society that believes in the opportunity for a second chance.

"Thank you, Mr. President."

Senator Iwase rose in support of the measure as follows:

"Mr. President, I will be voting yes on this bill with reservations.

"For a lot of the reasons discussed by the Senator from Waipahu, I do hope that as we move forward with this bill and as it is discussed throughout the remainder of this session that we look towards whatever department it might be providing alternative educational programs or alternative programs for children and students who are unable, at this time, to live in a normal educational environment. He alluded to the Store Front School -- it's a good program; I hope we have other programs like that. But these students need to be helped, so I will be voting with reservations.

"Thank you, Mr. President."

Senator Taniguchi also rose in support of the measure and stated:

"Mr. President, I too rise to speak in support of this bill with reservations.

"My dad was a counselor at Kaimuki High School for many years and we discussed this issue a number of times. I believe the issues that Senator Kanno has raised are very important, and hopefully as this bill progresses, we can address some of those issues.

"Thank you."

Senator Matsuura rose to speak in favor of the measure and said:

"Mr. President, I rise in support of this bill.

"Since I'm the oldest member of this body, I still remember during the war years, right after Pearl Harbor, we were given an option whether to go to school or pick string beans. All the boys volunteered to pick beans. We would have worked for free just to get out of class. I do not berate the importance of education. We all want the

kids to attend school. There are many programs that are geared for students that are slow learners. Like the mango, some mature early and ripen early and there are some that are late bloomers, they ripen very late. Those of you who eat mangoes know that the late mangoes are usually sweeter.

"There is hope and opportunity for students to continue their education at any time. Look at people like David Murdock, who owns Castle and Cook, and Dr. Stanford Ovshinsky. They all were 8th grade dropouts, every one of them. Now, I'm not saying that because they succeeded that we should go down to age 16. The problem the Department of Education faces, and I am speaking because I have talked to the various principals and looked at the testimony of various principals, is that there are a very small group of students who really don't want to go to school. They're coming to school and disturbing the rest of the students who really want to learn. I remember, going back to my youth, there was one boy, my classmate, who really wanted to be a fisherman and he never wanted to come to school so he always came late. He's a rich man today.

"Now, what I'm saying is that there are some students who just don't want to go to school, and the parents know it, the student knows it, the teacher knows it, the principal knows it. It is these kinds of students that this bill is addressing. There are many alternative school programs. Everybody wants to help these kids go to school. I'm one of the products. I didn't know how to read or write until the fifth grade. I didn't want to get bounced out but they were going to flunk me one grade. What I'm saying is that this bill is addressing a very small group of students, and remember that the people who are at the line -- the teachers, the principals, the parents, and the students -- all have to agree and approve the proposal. No parents are going to want their kids to come out of school unless it is best for their child. They all want them to be in school. And believe me, the Department of Education has programs to take care of these alienated kids.

"This bill is only to allow the students who really don't want to go to school and with the approval of the principal, the parent and the student, the student will be allowed to withdraw from the school. The school doors are never shut. When the time is right, they can always come back to school and get their high school diploma.

"Thank you."

Senator McCartney, rising in support of the measure, then said:

"Mr. President, I rise to speak in support of this bill.

"There have been a lot of good remarks on the floor and I think the bottom line is that everybody in the Senate cares about the children of Hawaii and that we're discussing what is the best way to educate those students and to give them the best opportunity in the future.

"I'd just like to commend the two chairs of the Judiciary and the Education Committees for hearing hours of testimony, hearing from principals and students and from the department personnel. This is not an easy decision. I think the bottom line is we can spend a lot of money and create alternative programs, but what's so important is that the student must assume responsibility to participate in order to benefit from these programs. And there are five points that I'd like to cover that came out very clearly in the hearings.

(1) It's not the DOE's responsibility only. It's the students' responsibility and the parents'

responsibility to take that personal responsibility to learn. The government and DOE can't be all things to all people.

- (2) This bill addresses just 2 percent of the students who cause disruption in the schools, who don't fit in. And it's to make sure that the learning environment for the other 98 percent is a good learning environment.
- (3) Mr. President, you can't force learning. The school must be a place where you want to be, not a place you're forced to be. This bill helps to create that and it helps to create a positive learning environment.
- (4) Mr. President, we're not giving up on those who don't fit in. However, the first step to learn must be taken by those students. They must take the first step to learn. And then we step in to help them.
- (5) Mr. President, the bill is a tool. This doesn't say a student can just go in and say 'I don't want to be in school.' It is a tool that principals and parents can use to call in the parent and to discuss with the parent the situation that is taking place. And only upon agreement by the parent and the principal will the student be allowed to leave school. And so it enforces and supports parental responsibility.

"This bill is a change from current policy where the system was responsible for everything. It shifts that to say, parents and students, you are equally responsible for the education of that child.

"Thank you."

Senator Tam also rose in support of the bill as follows:

"Mr. President, I speak in favor of the bill.

"Mr. President, my only words essentially are that this bill is a positive note in terms of a bill which allows alternative programs for 16 and above outside of the traditional schools, through other community programs.

"Let me give you a personal note from my experience. My grandfather, whom I didn't know, passed away the same year I was born in 1953, had quit school and lo and behold he became the owner of Wong's auto shop which exists today. It's going through a second generation right now. My grandfather, in fact, was sent to Boys' Home because he was a so-called bad boy. But he built an occupation whereby he was the first one within the Liliha area, Stillman Lane, to have hot water within the neighborhood.

"Thank you."

Senator Solomon rose to speak against the measure and stated:

"Mr. President, I'm speaking against this bill.

"Mr. President, again, I am appreciative of the remarks of my colleagues.

"Mr. President, I think this is a regressive piece of legislation. It's a sad state of affairs in our country when 33 states require children to attend school until the age of 16 years; eight states and the District of Columbia require children to attend school until the age of 17; and only nine states, including the State of Hawaii, require our students to attend school until the age of 18. Mr. President, if I had my way, I'd make them stay until they

are 22 or 23 so that they, in fact, can compete in a global age.

"Mr. President, I feel that this bill works against our Democratic Party principles; a party that has a proud heritage of helping and encouraging those that are economically disadvantaged; a party that has a proud heritage of helping those who cannot provide opportunity to provide those opportunities, Mr. President.

"I can speak from experience as a Hawaiian educator, that maybe most of the 2 percent of the kids who are problems, are of Hawaiian ancestry. And in most instances, many of them would do better if they were just put in a different school environment. This bill would take away that prerogative. On the Big Island we worked out a situation where sometimes kids that didn't work well at Honokaa School were transferred to Waiakea and miraculously they were able to turn themselves around because of the new environment. All of these kinds of situations, Mr. President, are real in the real world. And we, by passing a bill such as this, would be turning our backs on these kids, these young adults. I feel, Mr. President, that this is regressive legislation and I think that our state will regret it once it's passed.

"Thank you, Mr. President."

Senator Chumbley then rose in support of the measure and stated:

"Mr. President, I speak in strong support for the measure.

"Mr. President, I want to acknowledge the comments of my colleagues as eloquent and compassionate and I want them to understand that this is not creating a throw-away of our children in this state, Mr. President. In fact, there are many, many programs that are currently available for those children who do not perform in a traditional school and belong in an alternative program.

"Nationwide the average is 16-1/2 years. I think our nation is full of wisdom on this issue. This state, by going to a compulsory age of 16, is not thinking anything less of our children. How do we deal with and how do we force those individuals who are unwilling to participate in our public school system? How do we deal with the disinterested parents who cannot even compel their children to stay in school? How do we as legislators provide the programs for those children who do not function in that environment?

"Well I can assure you, and I've heard the word alternative programs come up many times today, that there are multiple programs, not only within the Department of Education, but within the Human Services, Office of Youth Services; within the Family Courts of the Judiciary; within the DOE alone, the CSAP program, the Comprehensive School Alienation Program, which includes programs like Store Front, like Olomana School; other private programs like the National Guard Youth Challenge, the Employment Training Opportunity Centers with the University of Hawaii Community College divisions, and the Adult and Community Education programs, Mr. President.

"In the 1973-75 biennium, we appropriated only \$800,000 to those programs. Last year in the biennium budget the Legislature appropriated over \$11 million for those programs. There are programs available, colleagues. Senate Bill No. 2222 also creates an opportunity for those who do not want to be involved in the traditional classroom setting to go into the adult and community education program as an alternative and

moves \$3,000 per student. So we are providing even greater resources to the alternative programs.

"The most important thing about the bill is that the students themselves cannot make that decision. A previous speaker acknowledged that it takes the principal, it takes the parent and the student to agree in writing. There's nothing which would preclude the student from coming back to our public school system after being out for a period of time and realizing what the real world is like. Further, it takes 17 months before the bill goes into effect, Mr. President. That is more than ample time for planning.

"I think my colleagues need to hear the voices of those in the field -- the teachers, the principals, those who are having problems with this area. And I'm going to end my comments with a few words from a piece of testimony that was very moving, Mr. President. This is from a principal at a high school in our public school system:

"We spend countless hours tracking students who fail to attend classes, often encountering parents who tell us that they cannot control their children's behavior. Our counselors spend great amounts of time preparing petitions for Family Courts for these students. Months later, if we succeed in obtaining a hearing, the truant student may be ordered to return to school. Often they do not have much regard for this order and we must go through the process of taking them back to the courts again and again. Each time we go to court, the counselor and sometimes additional staff members must sit in the waiting room of the Family Court for hours. There are almost no effective consequences imposed upon chronic truants or their parents. The students who are in school needing the support of their counselors suffer the greatest consequences as they are denied services while staff members are making what are often futile pursuits after students who do not want to be in school. Those of us on the front lines with troubled students and families have been greatly frustrated by the barriers of our legal system which seem to make a mockery of the existing compulsory school attendance law and effectively enable chronic truants to remain out of school."

"I urge my colleagues to support this measure. Thank you, Mr. President."

Senator Anderson also rose in support of the measure and stated:

"Mr. President, I'd like to speak in favor of the bill. I wasn't planning on standing but the Senator from Hilo did mention the Democratic Party and education.

"I went to school many years ago when it was not under the Democratic Party, but however, we did have a book rental fee and we did provide books for all students which we don't have today. We also had discipline in our classes which we don't have today. If we damaged our books, we paid for them. We don't do that today.

"The problems that we have today in school are that the children are very undisciplined; they do not attend; they disrupt; they stay on campus and make sure that others are sometimes terrorized. And I think that it's about time that we looked at the overall and gave the principals and the teachers some kind of method to get rid of those that really do not want to go to school. And this bill does not say they cannot come back. They can go back to school if they so desire.

"And believe it or not, I was not the best of students when I went to school. But when we went to school, if you were going to be disciplined, they normally did it at a

time when you were going to have a holiday, or it was going to be Christmas vacation. And that's the time when they would call your parents and say, this person happens to be disruptive; he is not doing well; and you were punished during those holidays. We don't do that today. And both of my parents worked as many of you do today. So I am for this bill and I think that the chairman has made many changes and he listened and I do appreciate it very much.

"Thank you very much, Mr. President."

Senator Fernandes Salling then rose and said:

"Mr. President, what I've been hearing today from fellow colleagues is the problem as was highlighted by the previous speaker. And I guess the answer is: All right, teachers can't handle them; why? -- I don't know. There are discipline problems -- yes. Sometimes, I've been in a school and I've seen that. I think you ...

The Chair interjected:

"Senator, are you speaking for or against this bill?"

Senator Fernandes Salling responded:

"Against the bill. (Chair: "Please proceed.") And I can say that I would have to point a finger at the teacher for not disciplining the class and the students. And is the answer to just get rid of the students because they are so disruptive? Perhaps you can do what they did to me one year when I was disruptive in high school chemistry class. They put my chair outside the door and made me sit there. That worked. I thought twice about being disruptive again. But I do have these remarks that I will proceed to state.

"Let me begin by apologizing publicly to any of my colleagues who may have felt in Majority caucus yesterday that I was trying to question anyone's commitment to public education for our young people. Far be it for me to do so. In my defense, I was shocked that this august body, with its traditions, with the kind of ground breaking actions it is ready to take in other areas, would consider sending this kind of message out to our young people who are on the borderline today. My staff got on the phone with Dr. Aizawa yesterday afternoon, and we were surprised to find that he estimates that there are no more than five or six students in each of our secondary schools around the state who would be allowed to drop out based on this new legislation. Now, I think we have to ask ourselves, why are we making such a fundamental policy change if the number of 'problem students' is so small? And are we in danger of shooting ourselves in the foot here? Won't this action be exploited by those who would love to paint all elected officials as a selfish elite who send their children to exclusive schools, and would rather pay themselves high pensions than find ways to keep our social safety net intact? Can't we come up with some new approaches for these young people for whom our society made a basic commitment very early on following Statehood? Young kids like this are calling out to us. They're saying, 'Help, I don't have parents who can give me the motivation to succeed in life.' They're crying out, 'Help, my school doesn't have programs and opportunities which are meaningful and promising to me.' They're begging, 'Please help me find direction and value in my life. Help me, I need a place to fit in this place called Hawaii. This place which you Senators call the envy of the world.'

"Finally, fellow colleagues and friends, I want to put my money where my mouth is and promise to buy for anyone who votes against this bill, a copy of Hedrick Smith's best-selling, Rethinking America. The section on

public education was very exciting to read, and I'm thankful the book was recommended to me and I found time to go through it during the interim last year. Chapter 6 is particularly exciting. What they did was to redefine the 3-R's in American high school education: (1) to rethink the basic focus of education; (2) raise the expectations for all students, even in problem areas like Harlem; (3) restructure the school in terms of size, standards and priorities. Central to this rethinking are ideas such as empowering teachers to run the school; close relationships among teachers, among students and families; and respect for the fundamental humanity and rights of students.

"I promise each of my colleagues, if you will amend this bill to set up a commission or a task force to look at the problems which brought about this bill, (and I don't minimize the problems which our public schools are facing with discipline and parental apathy) I promise I will serve on that task force and devote my time and energy to finding the kinds of answers which the schools need to help these problem students. They're crying out to us, ladies and gentlemen. I can't believe that we are so poor in resources and strength of will that it is really necessary for us to answer them in this way. Thank you."

Senator Kanno, again rising in opposition to the measure, then said:

"Mr. President, I have additional comments in opposition to the bill that I would like to speak on.

"The chair of the Education Committee said that the bill doesn't take effect for 17 months and in that period we will be working on programs. I guess my fear is that there is no money to create new programs. There is no opportunity that is going to be coming to us in the next 17 months.

"I also want to address concerns about parents' and students' responsibilities. I think from the students' point of view, yes, maybe our principal is giving up hope on us; and yes, maybe our parents are being fed up and giving up hope on the child as well; and maybe yes, the child has given up hope on him or herself. What I ask this body to do is for us to be the one last hope and not give up on the child involved.

"The Senator from Hilo mentioned that this affects a very small group and in some situations, maybe only one student in a class. And I would strongly disagree. I'm aware of one high school with a student population of 1800 students where 800 students were in trouble for truancy with at least five unexcused absences. I do part-time work with the Boys and Girls Club in Ewa Beach and participate with the Honolulu Police Department in a program that they run called Akamai, which handles teen runaways, and after a teen has returned home they are required to come with their parents to a 4-hour Saturday program. When I work with the students, the question that I pose to them to get a read on how they feel about our public school system is, What percentage of the students do you feel go to school only because they have to? And the read that we get from these students is in the range of 90 to 99 percent. And granted, this is a select group of students, but I would encourage all of the members here to pose that question to the high school students in their districts and ask those students what percentage of our high school students in the State of Hawaii are attending school only because they have to, and you'd be surprised at the kind of response that you'd get.

"Our schools are not keeping our students interested. Students are there because they are required to be there.

We are not talking about 2 percent of the students that are going to be affected by this bill. Alternative programs that are in place are not sufficient to meet the needs, and yet they are the only hope for these students that by participating in alternative programs that may involve their parents' involvement or agreement represents a ray of hope that for one student out there, they may see the light and realize the importance of a high school diploma and stick it out and figure out a way to get either a high school diploma or an equivalent.

"As I said earlier, the balance in our high schools is very delicate. By implementing a measure like this we're going to be throwing off that balance and creating an enticement for students to say, 'I don't want to be here, and all I need to do is get my principal and my parent to agree and I'm free.' And what do we have for them? This bill does not provide for additional funding. This bill does not provide for additional programs. All this bill does is set free 16 to 18 year olds out on the streets with nothing to do.

"Thank you."

Senator Matsuura rose again and said:

"Whenever my name is mentioned on the floor, you can expect a response.

"When this bill came up for hearing, it initiated a program. The principals of Farrington and Kahuku came to testify and one of the things that came out of this bill was a pilot project. I felt that the Department of Human Services was operating on its own without any coordination with the Department of Education. Many of these students that we are talking about are usually recipients of some welfare program. It's time that we find a way to at least encourage these students to do better. There might be some programs within the Human Services Department and the Department of Education that would encourage them; give them hope.

"It is true that many of these kids that are coming from welfare families have no self-image. Lot of their problems have to do with the home environment. We have now initiated a program at Farrington where a social worker from DHS, is actually going to stay at the school, work at the school and be part of the educational system. None of us, believe me, want to abandon these students. The social worker that is going to be stationed at Farrington High School is not going to punish the kids. On the contrary, we're trying to bring the parents in at the school because these kids have troubles and a lot of the problems stem from the home. So we're saying, bring the parents to the school and with the help of the teachers and the principal, find a way to reward them -- reward them for coming to school. I taught at the Community College; I had kids from Molokai and I used to tell these kids from Molokai, 'I'll give you a B, an automatic B, and you don't have to take any exam, just come and sit in my class. Just sit in my class and it's an automatic B.' Some of these kids have done very well, later in life.

"You have to find something or do something to instill inspiration and enthusiasm to learn. That's what's missing. Most of these things go back to the family. I know many of you read to your grandchildren, your young children. That's where it begins -- some positive direction at home. But for some, it's better for them to stay out of school and then they'll mature, whether they find a job pumping gas or whatever it may be. They'll eventually learn that education is the union card for job opportunity. Some of these kids, after they go into the Army or something, they will turn for the better. Look into the crowd here on the Senate floor. I know who the

bad students were, and I'm one of them. McCartney is laughing; he's another.

"Mr. President, I'm in favor of this bill. Thank you."

The motion was then put by the Chair and carried, S.B. No. 2380, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO COMPULSORY SCHOOL ATTENDANCE," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 20. Noes, 5 (Fernandes Salling, Kanno, Kawamoto, Levin, Solomon).

At 10:55 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:05 o'clock a.m.

Stand. Com. Rep. No. 2101 (S.B. No. 686, S.D. 2):

Senator Grauly moved that Stand. Com. Rep. No. 2101 be adopted and S.B. No. 686, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator McCartney.

Senator Solomon rose in opposition to the measure and stated:

"Mr. President, I rise to speak against this bill.

"Mr. President, it has been proposed that the appointment of the Attorney General of Hawaii be controlled, at least in part, by the Judicial Selection Commission. I must ask whether any of those proposing this radical mission have read or considered the basic provisions of our constitution. If they did, did they care what strictures that document places on us as lawmakers? Article V has to do specifically with the executive branch and establishes that the attorney general shall be nominated by and with the advice and consent of the Senate, appointed by the governor. It does not say appointed by the governor from a list of nominees selected by the Judicial Selection Commission. In fact, as a matter of constitutional law, it could not.

"The Judicial Selection Commission is provided for not in Article V but in Article VI, having to do with the Judiciary for the express purpose of either nominating or appointing judges. It is a part of the judiciary branch. It is not a part of the executive branch. What has happened, Mr. President, to the separation of powers in Hawaii. We cannot properly have the judiciary telling the executive branch who its chief law enforcement officer is to be, that same officer who will be called upon to represent the executive in matters before the judicial branch.

"Mr. President, I know time is short and the workload is heavy during our legislative session, but surely we cannot pass this fatuous proposal. Thank you, Mr. President."

Senator Liu also rose in opposition to the measure and stated:

"Mr. President, I rise to speak against this measure.

"First, Mr. President, let me say that I agree wholeheartedly with the comments of the previous speaker. I think she is absolutely right that we do have a fundamental flaw with this bill in regard to the separation of powers and conflicts of interest.

"Furthermore, Mr. President, and I think it would be supported by the comments of the prior speaker also that the history of the Judicial Selection Commission, at least in the year and a half that I have been in the State Senate, has been less than responsive to requests by the committees of this august body for information. They have refused in the past (I can recall last year) to attend hearings of the Executive and Judicial Appointments Committee just to provide us information. For some reason, they disdained coming down here to discuss those kinds of issues, which brings me to a key point why I have real problems even if we did not have a separation of powers issue, and that is, one of accountability. Who knows who is on the Judicial Selection Commission except a few of us here and even fewer out there in the public. Are they elected? No. Are they appointed? Yes, by some interesting formula out there in some statute in the HRS. But if they make a mistake, if they submit bad names, mediocre names, etc., for the attorney general, who's going to call them on it. Are they going to be dismissed? Are they going to be accountable? I don't think so, Mr. President.

"I would be in favor of this bill even if it did provide a real choice to the voter. But I do not believe that this bill provides a real choice to the voters. It takes a system which we think needs fixing and presents the voters with, I think, a worse choice. So rather than moving in that direction, I think we should have stayed on track. And if we were going to provide a choice in the form of a proposed constitutional amendment asking the voters if they want an elected attorney general, I personally think that they would have approved. But again that would be for the forces to debate that issue within the community.

"Forty-three states do have an elected attorney general. We don't, but let the voters decide. I'm not going to say that here it necessarily would have been the best or something which would be an improvement, but that would be a clear choice.

"And because of that, Mr. President, I hope we defeat this measure rather than have another symbol, or potential symbol, of a broken promise to the voters of the state by having this before them this November.

"Thank you very much, Mr. President."

Senator Iwase, rising in opposition, then stated:

"Mr. President, I would also like to rise to speak in opposition to the bill.

"Mr. President, the present system of appointing the attorney general at least provides, as was pointed out by the Senator from the Big Island, at least some balance in the selection of the attorney general. And I believe also that the Senate is involved if there is a removal of the attorney general which will not be true under the present bill.

"If there is a need to discuss the issue of the independence of the attorney general, then the proposals that have called for or have been based on that have dealt basically with the call for an elected attorney general. This proposal provides neither for balance in the selection of the attorney general and input with the attorney general nor does it, I believe, enhance the independence of the attorney general. I'm looking at the committee report and I really see no justification or no compelling need for making this change. If we were going to make a change, I believe we should have gone forward with an elected attorney general amendment.

"Thank you."

Senator Grauly rose in support of the measure as follows:

"Mr. President, I rise to speak in favor of this bill.

"Mr. President, your Committee on Judiciary had some interim hearings on this issue, and we did in fact start out with the proposition that an elected attorney general would serve the public interest best. However, as we heard more (we heard from previous attorney generals, Wayne Minami, Ron Amamiya, previous Attorney General Robert Marks, as well as the current attorney general), it became very clear to us that by having an elected attorney general we would raise the level of political disputatiousness in the community without the corresponding improvement in the quality and the competency of the individual who has been elected to serve. It was for this reason that the committee looked long and hard at the concept of having the Judicial Selection Commission provide a list to the governor for his selection.

"The interest that needs to be served is independent, competent attorneys and encouraging more independent, competent attorneys to volunteer for public service by putting their names in for possible selection as attorney general.

"Mr. President, at the present time the attorney general is viewed as a member of the cabinet, a member of the executive branch, and many of the Senators have felt, particularly in the recent past, that the opinions of the attorney general are slanted in a way that best serves the executive branch. And I think that this is one way, by making this particular individual much more independent of the executive branch, not making this person a member of the cabinet, that we can perhaps have more independent opinions from that particular office.

"And for these reasons, Mr. President, I urge my colleagues to vote 'aye.'"

Senator Fernandes Salling rose to inquire if the chair of the Judiciary Committee would yield to a question. The President posed the question and Senator Grauly having answered in the affirmative, Senator Fernandes Salling inquired:

"What is the purpose and intent of the formation of the Judicial Selection Commission?"

Senator Grauly responded:

"The Judicial Selection Commission was merely picked because they have the

Senator Fernandes Salling interjected:

"No, no, no, not under your bill, but I mean why do we have a Judicial Selection Commission?"

Senator Grauly answered:

"The purpose of the commission is to prepare a list of nominees to the governor and to the chief justice for the selection of judges."

Senator Fernandes Salling responded: "Of judges."

Senator Grauly responded:

"Yes. In this particular instance we are borrowing the commission for the purpose of sifting through those

Senator Fernandes Salling interjected: "Borrowing?"

Senator Gaulty answered: "Yes."

Senator Fernandes Salling continued:

"And you don't think that may violate the Constitution, with respect to the purpose for which we formed the the Judicial Selection Commission, that it be used -- borrowed, in your words -- to now select or come up with names for the selection of the attorney general?"

Senator Gaulty answered:

"No, I do not. The reason why is the suggestion itself was made by the Legislative Reference Bureau when we held the interim hearings on the issue of how we can best come up with an attorney general that is independent, as I said. And that was the suggestion that came from the Legislative Reference Bureau. As I mentioned, Senator ...

Senator Fernandes Salling interjected:

"Was there more than one suggestion from LRB of how to handle this problem?"

Senator Gaulty responded:

"This was suggested as the preferred method of selecting an attorney general if we were interested in an attorney general that was more independent."

Senator Fernandes Salling continued:

"Fine. Were there any others? Could you tell us about the other suggestions by LRB?"

Senator Gaulty answered:

"No, that was the primary suggestion by the LRB."

Senator Fernandes Salling further inquired:

"Okay, but ... will it require, then, a constitutional amendment to change the purpose for which the Judicial Selection Commission was formed?"

Senator Gaulty answered:

"The bill provides for a constitutional amendment to amend the way in which the attorney general is selected."

Senator Fernandes Salling continued:

"Short of doing that and getting involved with the Judicial Selection Commission coming up with a list, can't we maybe form another commission then, just to simply deal with names for selecting or putting before the governor, attorneys who might be qualified for AG, rather than getting into this sticky"

Senator Gaulty interjected:

"That's entirely possible, Senator. We looked at the judicial council; we looked at other commissions and we felt that the Judicial Selection Commission was perhaps the best way. But we are certainly open to other ways of selecting the attorney general other than the Judicial Selection Commission."

Senator Fernandes Salling continued:

"What I was suggesting was not one that's already existing that deals basically, essentially, primarily with judges, but organizing a new commission. The problem was trying to get names before the governor in an objective manner."

Senator Gaulty interjected:

"We can continue to work on that concept."

Senator Fernandes Salling inquired:

"Is that something that you will maybe consider, hopefully, in conference?"

Senator Gaulty answered: "Sure, yes."

The motion was then put by the Chair and carried, Stand. Com. Rep. No. 2101 was adopted and S.B. No. 686, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO THE ATTORNEY GENERAL," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 18. Noes, 7 (Anderson, Bunda, Fernandes Salling, Ikeda, Iwase, Liu, Solomon).

S.B. No. 2888, S.D. 1:

On motion by Senator Gaulty, seconded by Senator McCartney and carried, S.B. No. 2888, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE RELEASE OF PRETRIAL INMATES," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Noes, 2 (Anderson, Liu).

Stand. Com. Rep. No. 2110 (S.B. No. 2546, S.D. 2):

Senator Gaulty moved that Stand. Com. Rep. No. 2110 be adopted and S.B. No. 2546, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator McCartney.

Senator Levin rose in support of the measure and stated:

"Mr. President, I rise to speak in favor of this bill, with reservation.

"I very strongly believe that we should be cutting back on the use of tobacco and that we should be trying our very best to get tobacco out of the hands of minors. However, I cannot support a mandatory fine of \$2,500 for a first offense. I think that is too harsh and hopefully this bill will be further amended as it works its way through the system. Thank you."

Senator Anderson also rose in favor of the measure and said:

"Mr. President, I also have reservations and for the same reasons. I think that we should stop selling cigarettes to minors, however, a \$2,500 fine ... I was also going to stand on the mobile food vendors. It's the same type of a fine, \$2,500 for a first offense and you have to be at least 18 years of age or over.

"I have raised a grandson who recently reached the age of 18 and who does not smoke, but he's been shaving since he was 16. And if you have a young person over 200 pounds, shaving, looking like they are out of high school and working, and they happen to go down to buy a pack of cigarettes and unintentionally somebody sells it to them because they do not have an ID on them, they will be fined \$2,500 for a first offense. And I believe that's pretty harsh for a first offender. So for that reason I will be voting with reservations."

The motion was then put by the Chair and carried, Stand. Com. Rep. No. 2110 was adopted and S.B. No. 2546, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO CIGARETTE SALES TO MINORS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Ikeda moved that Stand. Com. Rep. No. 2135 be adopted and S.B. No. 2208, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Baker.

Senator Liu rose in opposition to the measure as follows:

"Mr. President, I will be voting against this bill not because I'm opposed to measures that attempt to make more expedient the expenditures from the special school construction fund, but because I'd like to send a strong message to both the administration and the DOE that if they want to come in advocating the creation of new positions, they should really have a very strong case before them.

"There are five new positions which came under the original bill. I think more direction and needed direction was provided by the Ways and Means chair which was a positive move. But we found, during the hearings on this bill, both entities arguing as to which should have jurisdiction over these five individuals. They both had different views as to what these project managers would do. And until we have a clear picture of these positions, those who are advocates have to be better prepared.

"Thank you, Mr. President."

The motion was then put by the Chair and carried, Stand. Com. Rep. No. 2135 was adopted and S.B. No. 2208, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO SCHOOL CONSTRUCTION PROJECTS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

No. 2209, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAII STATE PUBLIC LIBRARY SYSTEM," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Stand. Com. Rep. No. 2167 (S.B. No. 2402, S.D. 1):

Senator Ikeda moved that Stand. Com. Rep. No. 2167 be adopted and S.B. No. 2402, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Baker.

Senator Matsuura rose to speak in support of the measure and said:

"Mr. President, I rise to speak in favor of this bill.

"This bill provides certain enterprises with tax exempt bonds to hospitals, power generators, etc., with this special purpose revenue bonds. This is a win-win bill. Every state has a certain quota and getting a bill like this passed helps the people who are involved in energy generation. The people who buy these bonds don't pay federal or state taxes on the interest that they earn.

"One of the reasons why I am standing is that Hawaiian Electric also had a special purpose revenue bond for them, but that bill never made it. Hawaiian Electric, as far as I can recall, has always used it. We have given this kind of special purpose revenue bonds to many companies; many of them have never used them. Hawaiian Electric is one company that I know that has always used it to benefit all of the electrical rate payers.

"People like to invest in these kinds of bonds because they don't have to pay taxes on their interest.

"The savings that Hawaiian Electric gets because of the low cost of their bonds is passed on to the ratepayers. So it is really a win-win situation. If hospitals or power generators come in for these special purpose revenue bonds, we should help them, because this is one way to help these companies to lower their cost of providing their services. I am asking for your support on this measure, but also I hope that there will be a means to help Hawaiian Electric with their special purpose revenue bonds.

"Thank you."

The motion was then put by the Chair and carried, Stand. Com. Rep. No. 2167 was adopted and S.B. No. 2402, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE AUTHORIZATION OF SPECIAL PURPOSE REVENUE BONDS FOR ENERGY DEVELOPMENT," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Stand. Com. Rep. No. 2175 (S.B. No. 2108, S.D. 1):

Senator Ikeda moved that Stand. Com. Rep. No. 2175 be adopted and S.B. No. 2108, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Baker.

Senator Ikeda rose to speak in favor of the measure as follows:

"Mr. President, I rise to speak in favor of S.B. No. 2108, S.D. 1, Relating to Rules. This is yet one more effort to regain a degree of oversight over the executive branch. Too often we have worked hard to create laws only to have them undermined in their execution. The use of administrative rules has often twisted, and in some instances contravened, legislative intent. With this bill, a review and approval process can be implemented whereby the legislature can ensure that the laws it passes on behalf of the people are followed as intended. Thank you."

The motion was then put by the Chair and carried, Stand. Com. Rep. No. 2175 was adopted and S.B. No. 2108, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO RULES," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Ikeda moved that Stand. Com. Rep. No. 2179 be adopted and S.B. No. 2824, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Baker.

Senator Matsuura rose to speak against the measure as follows:

"Mr. President, I rise in opposition to this bill.

"The reason why I am going to speak against this bill is because all the other states who have adopted the model procurement code, all have not included public finance and bond underwriting, public finance and bond investment banking into the definition of professional services which exempt them from the bidding process. There are reasons behind that.

"When I was chairing the Senate Investigating Committee, we were looking into bond financing, etc., and I know why the other states who have adopted the model procurement code did not include in the definition of professional services any of these categories. I think that the procurement code would survive the test of time. However, changing the definition of professional services will create problems in the future because I have already seen the beginning of it.

"Thank you."

The motion was then put by the Chair and carried, Stand. Com. Rep. No. 2179 was adopted and S.B. No. 2824, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO PROCUREMENT," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Stand. Com. Rep. No. 2200 (S.B. No. 2261, S.D. 2):

On motion by Senator Ikeda, seconded by Senator Baker and carried, Stand. Com. Rep. No. 2200 was adopted and S.B. No. 2261, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO MINORS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Ikeda moved that Stand. Com. Rep. No. 2256 be adopted and S.B. No. 3194, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Baker.

Senator Matsuura rose in opposition to the measure and stated:

"Mr. President, I hate to be rising and voting 'no' on a lot of these bills but there is a reason why I'm going to vote 'no' on this measure.

"The tourist industry is the engine that drives our economy at the present time. If you are in business and you are making money, you don't withhold money from your business, you put money in. And that's one of the

reasons why I'm voting 'no'. I think the tourist industry is one of the industries that needs the infusion of capital so that they can attract more tourists to Hawaii. I think that depriving the tourist industry of some of this assistance will ultimately hurt our state economy. So with that, Mr. President, I will be voting 'no' on this measure."

The motion was then put by the Chair and carried, Stand. Com. Rep. No. 2256 was adopted and S.B. No. 3194, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO HAWAII VISITORS BUREAU," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, 1 (Liu).

S.B. No. 2270, S.D. 1:

Senator Ikeda moved that S.B. No. 2270, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Baker.

Senator Ikeda rose in support of the measure and stated:

"Mr. President, I rise to speak in favor of S.B. No. 2770, S.D. 1, Relating to State Funds. The purpose of this bill is to bring back more fiscal accountability to the State by creating a mechanism by which special funds can undergo a rigorous review for appropriateness and relevance.

"Mr. President, the primary intent of the bill is not to repeal funds, but rather to scrutinize them. While the more familiar funds, such as the Education Facilities and the Stadium Funds undergo regular review as part of the budget process, the remainder of the budget is strewn with a host of smaller funds. These funds while relatively small in their individual balances, represent a substantial sum in the aggregate.

"I introduced S.B. No. 2270 so that these moneys might more effectively be monitored. First, this measure would expand the criteria by which the Legislative Auditor evaluates special funds, and require that a recommendation be submitted as to whether the fund should be repealed. This review would be required of all special funds every five years.

"Second, this measure identifies special funds to be repealed upon a predetermined time frame. For funds slated for repeal, the Auditor would be required to submit

a report to the legislature in the year of the proposed repeal. All moneys lapsed by these repeals would revert to the general fund.

"Mr. President, as special funds account for fully half of the State's operating moneys, this review is long overdue. I ask for your support and the support of my colleagues as we try to reestablish fiscal responsibility over our State's finances."

The motion was then put by the Chair and carried, S.B. No. 2270, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO STATE FUNDS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

S.B. No. 2552, S.D. 1:

Senator Ikeda moved that S.B. No. 2552, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Baker.

Senator Matsunaga rose in opposition to the measure and stated:

"Mr. President, I rise in opposition to this bill.

"Mr. President, my remarks are specifically directed to the provisions regarding the abolishment of the Department of Business, Economic Development and Tourism. First, let me state that I commend the Ways and Means Committee for its creative and bold initiatives to attempt to craft a budget that is fiscally responsible. I do recognize that horizontal cuts in the budget eventually must give way to vertical cuts.

"Nonetheless, I must oppose this measure for three simple reasons: (1) It will hurt our economy; (2) It will not save much money; and (3) It has not received the full benefit of public scrutiny.

"This bill will hurt our economy in several ways. First, what is DBEDT's mission and what has it done? And that's a fair question. DBEDT works to support business, create jobs, and improve Hawaii's standard of living through diversifying the economy, expanding existing business, and attracting new economic activity. What has it done for Hawaii lately?

"It has attained, for Hawaii, designation as the only statewide regional center authority by the Immigration and Naturalization Service. This has already brought in approximately \$20 million of foreign investment into our state.

"It initiated and helped establish the film industry in Hawaii, a \$45 million industry. DBEDT's film office processes 700 film permits annually.

"It initiated and nurtured the aquaculture development program, which has subsequently transferred to DLNR. (Our aquaculture industry is a \$29 million industry.)

"It helped establish the Pacific Telecommunications Conference, which is headquartered in Hawaii and has contributed greatly to our rapidly growing telecommunications industry, which is a \$1 billion industry.

"It has been a leader in our renewable energy development, which is so crucial to minimizing our dependence on imported oil. In fact, DBEDT's Energy Division will save UH Hilo \$500,000 a year through its energy retrofits.

"These are just some of the industries DBEDT has helped foster. DBEDT has also helped some specific Hawaii companies. It has helped PRC Environmental Management obtain a \$10 million contract in the Philippines. It has helped 20 mostly small businesses sell \$800,000 of goods on QVC in a two-hour time period. Its loan programs have helped such diverse interests as disaster relief on the Island of Kauai, high tech venture capital firms and fishing vessels. Its Business Action Center has been a tremendous help to new and small businesses in guiding them through what many call Hawaii's bureaucratic maze. This program has serviced more than 100,000 people and businesses in the last five years.

"Certainly, I'm not asserting that DBEDT has not made mistakes. It has; but, it clearly has had many successes. To dismantle it and to scatter its factions sends the wrong message -- that economic development is not a priority. In addition, monies forthcoming from federal sources in the areas of energy conservation, recycling and market development, and technology-related research could be terminated in the approximate amount of \$10-15 million. This loss of federal funds, this negative message and this dismantling of DBEDT will certainly not restore Hawaii's economic momentum.

"Dismantling DBEDT and scattering its functions will not result in significant cost savings because most of its functions and positions would just be transferred to other agencies. And, Mr. President, to date, no such estimate of cost savings has been provided.

"Finally, this bill would have benefited greatly from the scrutiny of a public hearing in the subject matter committee. If such a hearing were held, I don't think that the mistake would have been made of moving the capital loan, state enterprise zone, community based economic development, and other programs to the Department of Commerce and Consumer Affairs. We would have heard testimony to the effect that the DCCA is a regulatory agency with little time or inclination to study, propose and implement changes to help businesses compete in the changing domestic and world economies.

"I also do not think that the mistake would have been made of moving the high technology functions to the University of Hawaii. We would have realized that UH is an educational and research institution, not primarily focused on economic development applications.

"Mr. President, I do not think that an issue so important as the abolishment of DBEDT should be undertaken without an adequate study of these issues raised. For these reasons, I ask my colleagues to vote 'no.'

"Thank you."

Senator Matsuura also rose to speak against the measure as follows:

"Mr. President, I also rise in opposition to this bill. Would you put the remarks of the previous speaker as mine also. I have a very long speech and I don't want to repeat some of the things that the previous speaker has already mentioned so I want to just put my speech into the Journal. However, there are a few points that I want to make.

"The previous speaker left out OTEC and of course, without DBEDT, OTEC would not have become a reality. If one looked into the future of the world, OTEC is going to make a major contribution in energy generation and food production. It's just ahead of its time.

"The other state agencies, unfortunately, are slanted more toward regulatory. DEBT is one department that at least has the mission of initiating economic development. I used to chair this committee and I know exactly what they have accomplished and that is all in my speech here.

"But the thing that is perhaps making me rise to oppose this bill is the way this bill came about. You cannot make such a major overhaul as eliminating an entire department (DBEDT) by passing a bill (I think it was a short form bill but I may be mistaken here) without the proper referral to the subject matter committee, and this bill mainly affects Economic Development! This bill never came to the Committee on Economic Development. Had this bill come, at least we would have had the input of a lot of people to show the pluses and the minuses. Believe me, I know the minuses, like the previous speaker mentioned. But the pluses outweigh the minuses by a long, long margin. And for that reason, Mr. President, because I don't think this bill had the proper referral to the subject matter committee, I oppose this bill, plus the other items that the previous speaker has mentioned.

"Thank you, Mr. President."

The Chair having so ordered, Senator Matsuura's insert reads as follows:

"DBEDT is primarily a central staff agency established to assist the statewide responsibilities of the Governor and the Legislature. Its tasks include periodic assessment of Hawaii's natural resources (e.g. land, ocean and climatic assets), external influences (e.g. current U.S. and Asian economic conditions and U.S. legislation and executive actions affecting the State), human resources (e.g. demography and level of competence to compete in current and foreseeable economic environment). It also includes central staff assistance in planning, development and promotion of the total resources of the State for the maximum benefit by and for its general population.

"It is important to point out that DBEDT is not engaged primarily in regulatory functions. Experience has indicated that agencies which must spend a lot of time and energy of its staff in regulating the actions of people and organizations (e.g. DLNR, DCCA and PUC) have little time or inclination to study, propose and implement changes which help position Hawaii to better compete in the changing domestic and world economies.

"It is also important to point out that DBEDT is not primarily structured to serve as an advocacy agency for certain special programs or interest groups (e.g. HHL, DLIR, DOA). Experience has indicated that such agencies have constituent pressures which tend to give less weight to undertaking things which benefit a larger community but which incur some disadvantage to the constituency.

"Over the years the DBEDT and its predecessor organization, the Department of Planning and Economic Development (DPED), have staffed the agency with people who are highly competent to serve as central staff to the Governor and the Legislature. The critical mass of people in the Department who have this degree of competence and inclination is important to offset any effort on the part of pressure groups to employ the forces of government to do their bidding.

"Some of the contributions of the DPED and DBEDT during the past two decades are as follows:

1. Initiated and helped establish the Film Industry promotion and permitting coordination program.

2. Produced a study of the Windward Oahu region with the framework of a comprehensive State plan which resulted in the preservation of the Waiohole-Waikane farm community, also alleviating a potential violent confrontation involving the use of limited resources in the region.
3. Initiated and nurtured the aquaculture development program which was subsequently transferred to DLNR.
4. Initiated and staffed the first conference of American Governors of Hawaii, Samoa, Marianas and the Trust Territories, resulting in the establishment and headquartering in Honolulu of the Pacific Islands Development Corporation (PIDC).
5. Adapted for and promoted in Hawaii the various national programs for energy assessment and conservation.
6. Assumed leadership in the State for planning, development and promotion of alternate energy programs and projects as noted below:
 - a. Established a demonstration geothermal plant in Pohoiki, Puna, Hawaii, largely with federal funds, leading to construction of a commercial geothermal plant which serves to keep funds within the State which otherwise would be used to purchase oil from out-of-state sources.
 - b. Initiated and coordinated a three-way partnership involving State, Lockheed and Dillingham Corporation for the construction and demonstration of the first successful real-world close circuit system of the Ocean Thermal Energy Conversion (OTEC).
 - c. Coordinated the establishment of the Natural Energy Laboratory of Hawaii (NELH) in Kona, Hawaii, which houses the continuing OTEC research program and various Ocean based aquacultural projects.
 - d. Explored, demonstrated and promoted various indigenous sources for energy production such as biomass, solar heaters, windmills, etc.
7. Initiated, promoted and coordinated the Aloha Tower Project as a means of securing a higher return for the valuable State property located in and near piers 8, 9 and 10.
8. Participated with private and quasi-public telecommunication interest groups and specialists in establishing the Pacific Telecommunications Conference (PTC) which is headquartered in Hawaii and has been an increasingly important contributing organization in the telecommunications industry.
9. Undertook coordination and support of the Kakaako redevelopment project (through the Hawaii Community Development Authority) which was initiated by the Legislature in line with its perception that the effort to restore the district by the City and County of Honolulu was tardy and inadequate.
10. Produced the 'High Technology Strategic Plan,' the 'Hawaii High Technology Development Plan' and initiated the State government's 'Economic Planning Information System' to assist Hawaii to enter, and benefit from being actively involved in, certain aspects of technologic based activities in the nation and the world community.
11. Championed the legislative enactment and follow-up of the comprehensive State Plan and getting the diverse interest groups and the public to discuss and agree on certain directions which the State should be heading through the process of developing functional plans on e.g. Natural Resources, Energy, Education, Tourism, Health, Welfare, Transportation, etc. The process which encourages reasoned discussion among diverse interest groups based on facts bearing on the functional areas of vital importance to the people of the State is likely to yield better long term results for the general public than emotion based demonstrations and pressures imposed on the decision makers.

"It may also be appropriate to advise that the direction and emphasis taken by the previous administration to have the DBEDT achieve short term results (for election purpose) at the expense of solid, long-term benefit to the people of Hawaii, should not be given undue weight in evaluating the efficacy of DBEDT. There are many very able and dedicated individuals in the organization who will provide innovative, well reasoned solutions to Statewide problems and concerns. They are also capable of rendering exemplary follow-up services to implement the decisions of the Legislature and the Executive."

Senator Ikeda rose in support of the measure and stated:

"Mr. President, I rise to speak in favor of Senate Bill 2552.

"We are facing a time of unprecedented fiscal austerity. While there have been times in the past where money has been 'tight,' the situation that faces us today does not represent a lull. This is something that is unfortunately reoccurring and we cannot act on the assumption that time will bring us full circle to the tremendous growth of the late 1980s. Our problems are not cyclical, but rather structural. We have to do more than adjust, we have to reconfigure.

"The simple fact is that government cannot sustain itself. Over the past 10 years, government has grown and services have piled one atop the other, and we are left with a bureaucracy that is unwieldy and often inattentive. While this growth was mostly the product of good intention, it has led to a government that is increasingly out of touch with fiscal reality. Mr. President, our wake up call is here.

"The administration has chastised our bills as ill-thought and reflexive, but I would like to take a moment to look at how our fiscal situation has been managed to date. I would counter that we have seen a government managed by crisis, where reflex has reigned.

"In addressing the shortfalls we face, the administration, despite its protestations to the contrary, has adopted a policy of percentage, across-the-board, reductions. After developing a set of rather nebulous criteria, departments have been assessed budget reduction targets to meet.

"This route is troubling for two reasons. First, the practice encourages diminishing all services evenly rather than facilitating serious prioritization. Rather than doing a few things well, we are faced with a bureaucracy that must provide a host of services on a shoestring. A more disturbing result of this policy is the delegation of budgetary authority to the departments. Departments have been handed a tremendous amount of power that should rest with the administration. What has resulted is the revealing of mini-fiefdoms where 'outsiders' such as

purchase-of-service providers have borne the brunt of the budget ax.

"What we have is a ship of state which is floundering with no clear direction and no semblance of a guide with which to right itself. Percentage reductions have belied our Democratic heritage as our safety net of services have been eroded, and all the while, the empires of the budget remain stalwart. Clearly we cannot continue this way.

"The question now becomes what are our goals. First, we must cut government vertically, making the tough choices between what we must provide and what we should provide. Second, we must let the private sector do what it does best. We must not delude ourselves into thinking that government knows what is best for business. Finally, we must retain our commitment to the society which we serve. Hawaii's long tradition of caring should not be remembered fondly, but rather enjoined and taken up proudly.

"Both Senate Bills 2552 and 3232 promote prudent and necessary reform. While DBEDT does provide a number of valuable services to business, the rationale for maintaining an entire department becomes increasingly out of synch in these times. What we have proposed is the creation of an Office of Economic Development within the Office of the Governor to oversee State efforts towards these ends and to administer our arguments with HVB. It is our hope that through such an arrangement we can respond to rather than direct the private sector.

"The Department of Human Resources is another department which even the Governor has admitted is not in line with a streamlined government. Because the bulk of its functions fall within general administration, we feel that the Department of Accounting and General Services can absorb its functions with minimal impact on the operations of government.

"Finally, both measures move, rather than eliminate, the Office of State Planning. The Governor has proposed eliminating OSP, and when you do this, the first thing to go is effective planning. Your Committee on Ways and Means knows the value of long range planning, and knows that some provision must be made to help government adapt to these rapidly changing times.

"Mr. President, these bills do the right thing at the right time. In tandem with the budget they reduce the size of government, maintain services where appropriate, and allow us to preserve services in those areas of greatest need. I urge you and all the members of the Senate to embrace this measure. During the hearing, the Governor's Administrative Assistant asked if we were ready to bite the bullet. Mr. President, the bullet is here and our teeth are clenched.

"In response to the remarks made by the previous speakers, I would like to point out that where DBEDT is concerned, a conservative estimate of savings in general fund monies would be \$4.5 million, and this is very conservative because additional savings would come after further review. These are not easy times. These are hard decisions to make and no matter where we determine that we need to abolish something or do away with something, there will always be a constituency that will come forward to say 'yes, you need to cut government, but not here because it will affect me.' We've tried to be objective in the way that we've approached this very hard and difficult task, Mr. President, and I can only say that this is a necessity, it must be done, and I ask for your support."

The motion was then put by the Chair and carried, S.B. No. 2552, S.D. 1, entitled: "A BILL FOR AN ACT

RELATING TO STATE DEPARTMENTS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 22. Noes, 3 (Ige, Matsunaga, Matsuura).

S.B. No. 3135, S.D. 1:

On motion by Senator Ikeda, seconded by Senator Baker and carried, S.B. No. 3135, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO BUDGET REDUCTIONS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, 1 (Liu).

S.B. No. 3113, S.D. 1:

Senator Gaulty moved that S.B. No. 3113, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator McCartney.

Senator Gaulty rose in support of the measure and stated:

"Mr. President, I rise to speak in support of this bill.

"Mr. President, your Committee on Judiciary heard extensive testimony on the issue of same-sex marriages. There was conflicting testimony on whether Baehr vs. Miike is a civil rights case.

"Constitutional law scholars tell us that 'civil rights' are those rights that individuals have in relationship to their government. For more than 50 years, the United States Supreme Court has recognized that marriage is a basic civil right. It said so as far back as 1942 in a case called Skinner vs. Oklahoma. It said so again 20 years ago in Zablocki vs. Redhail, a case involving a statute passed by the Wisconsin Legislature. There was no doubt in the minds of the members of the Judiciary Committee, and there should be no doubt in any Senator's mind, that the issue before us is one of civil rights.

"My fellow Senators, ours is a culturally diverse and pluralistic society. It is a society that is in fact -- the envy of the world. It is our strength -- it is who we are. Our collective experience has sensitized us to civil rights and its great importance in our lives. Despite the equal protection clause in the U.S. Constitution, some of Hawaii's citizens were unfortunately taken against their will to internment camps at the beginning of World War II, while others were displaced from their homes or discharged from military service solely on the basis of their ancestry.

"Our state has had a rich history in the field of civil rights. We were the first state in the nation to pass the equal rights amendment for women in our country. Our anti-discrimination laws are enforced by one of the most vigorous mechanisms of any state in the nation through our Civil Rights Commission. We became one of the leading states in the nation when in 1991 we passed a law prohibiting discrimination in employment on the basis of sexual orientation.

"Our rich history, our tradition for tolerance of other's rights and our collective sensitivity to civil rights has been severely challenged and tested by the Hawaii Supreme Court in Baehr vs. Miike. Perhaps if I and four other Senators were on the Supreme Court, we would have decided that case differently. But that is neither here nor there.

"What is here is that the Supreme Court as the interpreter of our State Constitution has interpreted the equal protection clause to mean that unless the State can provide a 'compelling state interest' to justify the discrimination in our laws against persons of the same gender in the trial which will begin this July, they will find in favor of the Baehr plaintiffs.

"Two constitutional law professors have told us that they can find no 'compelling state interest' and that losing the case is a virtual certainty. I am convinced that this is so.

"I believe that this bill will satisfy the equal protection clause of our Constitution and moot out Baehr vs. Miike. It is the way out of the legal minefield we now find ourselves in.

"The bill is not perfect, Mr. President. As we heard yesterday in our caucus, the amendment to Chapter 368 is susceptible to differing interpretations. But the intent is that the registered domestic partner of the parent of a child not gain any parental rights to the child except through adoption and that he or she not be entitled to the legal rights, duties and responsibilities of the natural father or mother, unless those legal rights, duties and responsibilities have been terminated by a court or surrendered by the natural father or mother.

"To quote from the findings section of the bill, Section 1:

'The legislature finds that the law on marriage is restricted to those personal relationships between couples of the opposite gender. While the legislature believes that a marriage can exist only between a man and a woman, that such a marriage is the most beneficial to the social and family structure, and that the institution of marriage is traditionally thought of as a special relationship which exists between members of the opposite gender, the legislature believes that other forms of personal relationships exist and can be recognized in a way which does not infringe on those long-standing and traditional concepts of marriage.'

"Your Judiciary Committee members have been made fully aware that many of our churches and religious groups have condemned same-gender relationships. There is specific language in the bill allowing any church or religious group not to solemnize a domestic partnership if that relationship is not recognized by its ideology or religious beliefs. Likewise, the constitutional principle of the separation of church and state prevents religious ideology and beliefs from being enforced through our state institutions, such as the Department of Health.

"Mr. President, I hope the members of the Senate will share in the Committee's view that passing this bill would be consistent with our standing as the diverse, tolerant and pluralistic society we are. I urge the members to vote 'aye.'"

Senator Matsuura rose in opposition to the measure and said:

"Mr. President, I rise in opposition to this bill.

"Before I make my statement, I am one member of the Judiciary Committee that has opposed this bill, but I have to admit that I am very, very proud to be a member of the Judiciary Committee. Any person who takes this measure when 70 percent of the people are against it must really believe in themselves and believe in what they're doing. And I'm telling you and the rest of this body and the public that I'm very proud of the chairman and all the members of this committee.

"Let me tell you a story which happened in 1953. I was going to Camp Gordon in Augusta, Georgia. This was my first time trip to the South. There was another person from Hawaii, a Hawaiian, on the train. He looked very dark. We got off the train and went to catch a taxi to the bus station. The problem that we faced was that the taxi that came had a black driver and the black driver really had a problem. I could pass as a white or colored, but my Hawaiian friend, he was really dark. The taxi driver said that if he took a white passenger, he would lose his license. The taxi driver went to get a conductor to come out to determine whether we were colored or white. When the conductor came out, he asked my friend what kind of blood he had and my friend said he had white man's blood. He was asked to explain. My friend made a comment that the conductor didn't appreciate. He said, "My ancestors ate Captain Cook." The conductor got a little upset and said that we were white so we had to wait for a taxi with a white driver. We got delayed because of that and we missed our bus connection.

"In the Greyhound bus going to camp, I naturally didn't sit way in the back where all the blacks sat, I sat nearer to the front, and of course nobody wanted to sit next to me. The only person who came to sit next to me was a big guy. He used to play tackle at some big university in the South. We became friends. As we passed the cotton fields he said, 'That's the crop that ruined the South.' He told me that the Blacks should be treated on an equal basis, etc. I asked him one simple question. He was a history teacher at a high school. I asked him, "What you just told me, do you teach it in your class?" He said, 'No way.' He said that if he taught that the Blacks were all equal, he would lose his job. I made a comment saying that I had no respect for anybody who believes what is right and doesn't teach it. He never spoke to me for the rest of the trip.

"Let me give you some background on this issue because I sat in on every hearing relating to same-sex marriage.

"This issue came up in the United States Supreme Court and the justices ruled that this was not a civil rights issue. In the State of Minnesota, 24 years ago, this challenge was also brought up -- same-sex marriage as a civil rights issue -- and the Minnesota Supreme Court denied that this was a civil rights issue. It was again brought up in the State of Washington (the State of Washington has the same kind of constitution as we do) and again the same-sex marriage as a civil right was defeated.

"They have now come to Hawaii. The State of Hawaii is the most progressive when it comes to civil rights issues. You cannot discriminate for jobs or housing, even if the person is a lesbian. That's against the law in Hawaii.

"When the State Constitution was written, it is true that this issue was brought up. At that time it was not to mean that the same sex could get married. What the previous speaker mentioned is true. The persons who really put us into a corner was some of the justices of the State Supreme Court. You can't blame them because the Judicial Selection Committee selected these people; the governor appointed them and we as a body confirmed them, and I'm one of them that voted 'aye.' Three justices made a decision that really puts us in a bind because, as the previous speaker said, if we as the Legislature don't do anything, the State is going to lose because the State must show compelling reasons why same-sex marriage should not be granted. The State's chance of winning this case is zero. Why? The lawyers

are saying because of the standard. The compelling reason is the highest standard and because of this high standard, the State doesn't stand a chance. Why didn't they put a lower standard? They're saying because it involves sex discrimination it has to be at the highest standard. If we don't do anything, same-sex marriage will be legal in Hawaii.

"One of the solutions is a constitutional amendment. The reason why I am in favor of a constitutional amendment is because we can settle this issue for the rest of the United States. Right now all the other states are passing laws not to recognize Hawaii's laws. If we had a constitutional amendment pass, theoretically the gay rights can take that issue to the United States Supreme Court on the basis that the State of Hawaii is denying or taking away their rights. They have every right to go to the United States Supreme Court to challenge our vote on the amendment. Let the Supreme Court of the United States settle this issue once and for all.

"It is true, we are in a box. We have to make a decision one way or the other. The chairman is saying that the passage of this bill will lessen the chance of their winning in the State Supreme Court. I don't agree with that. I think that whatever we do, we are going to have problems. We pass domestic partnership, we're going to have problems. The only solution, as far as I am concerned, is to settle this by letting the people speak. Let the Constitution be voted on, up or down, and if the same-sex people lose in the vote, let them appeal to the United States Supreme Court. If the State loses, then same-sex marriage will become legal in Hawaii because we cannot take our case to the United States Supreme Court. When you give rights to people, it's hard for the State to bring the case up to the United States Supreme Court.

"I oppose this bill, but believe me, I have the greatest respect for my colleagues who sit on the Judiciary Committee. This cannot be an election issue. Believe me, it takes guts, it takes courage to vote against the wishes of 73 percent of the people of Hawaii. You have my respect.

"Thank you."

Senator Anderson rose in opposition to the measure and stated:

"Mr. President, I am going to vote against this bill and I will list my reasons for doing so, but first, I would like to comment on the tenor of some of the testimony.

"As a part-Hawaiian, I have been offended by the repeated statements of proponents of this measure concerning 'traditional Hawaiian tolerance.' Mr. President, my staff did some research for me and we have a whole chapter on Hawaiian matrimony. It was done by the Kingdom of Hawaii and it was first written into law in 1840. It's a few pages and it tells you who you can marry and who you cannot marry; it is very explicit on matrimony. There was no such thing as 'Hawaiian tolerance' when it came to matrimony.

"On this particular bill, Mr. President, there are over 300 sections of the HRS that can be affected. Some may be insignificant, but many should concern us: i.e., Public Employees Health Fund, Public Employee Pension and Retirement System, Public Lands, Tax Laws, Social Services and Housing, Criminal Injuries Compensation, Veterans' Rights and Benefits, Workers' Compensation, Extended Health Insurance, Life Insurance, Uniform Probate, Rules of Evidence, Hawaiian Homes, just to mention a few. In this time of severe budgetary

restraints, I think that we should look at some of those things.

"A further concern is whether or not the State is pursuing the strongest possible case in support of our present law. Has the State considered existing case law such as the 1979 Supreme Court decision in *State vs. Rivera*, which is annotated in reference to Article I, Section 5, of the State Constitution? In that opinion the court held, 'The fundamental legal principle underlying the era ... is that the law must deal with particular attributes of individuals ... a classification based on a physical characteristic unique to one sex is not an impermissible under - or over - inclusive classification because the differentiation is based on the unique presence of a physical characteristic in one sex and not based on an averaging of a trait which exists in both sexes'

"Mr. President, has the State utilized the question of 'legislative intent'? Nothing in the proceedings of the 1978 Con-Con indicates any intention that this amendment applied to the question of marriage. To the contrary -- when the question was put to include 'sexual orientation' in the amendment, it was rejected on the basis that it would create an additional protected class.

"My final objection to this bill is based on the separation of powers and the increasing surrender of legislative power and responsibility to the judiciary and the executive on both the state and federal level.

"Let us demonstrate by defeating this bill that this is still a government for the people. Thank you very much and I hope my colleagues vote 'no.'"

Senator Iwase also rose in opposition to the measure as follows:

"Mr. President, I rise to speak in opposition to this bill.

"The question of same-sex marriage has been with us for three long years. There has been much testimony and much emotional debate and I'm sure the members of the Judiciary Committee understand that full well; they had to go through again, emotional debate.

"Let me start by reiterating what I said on the floor of the Senate in 1993 -- that this Legislature has labored to address economic discrimination against individuals because of their sexual orientation. We enacted measures prohibiting discrimination which barred homosexuals from economic benefits which they deserved. We prohibited, for example, discrimination in housing and employment.

"At no time, however, did we believe that the people of this State, speaking through their constitution, required same-sex marriage or domestic partnerships in order to address economic discrimination.

"We are here today with this bill on domestic partnerships not because the people of this State require it or desire it, but because we seek to avoid the adverse consequences of an erroneous ruling rendered by two justices of the Hawaii Supreme Court. They misread our Constitution, and with their decision, they legislated social policy in derogation of the constitutional principle of separation of powers. And in so doing, this court has set off a firestorm of controversy.

"The real constitutional question is not whether we must address economic discrimination against homosexuals, for we had already committed ourselves to doing so.

"The real and singular constitutional issue posed by Bachr vs. Miike is why the Hawaii Supreme Court trampled upon the doctrine of separation of powers. And our task, as a legislative body, is to rectify this unwarranted intrusion by the court into the legislative arena. A domestic partnership bill drafted to avoid an errant court action will not do so. A Constitutional Amendment, in effect overruling the court, will.

"While I agree that the court plays an important role in interpreting our constitution, the ultimate decision-maker is the people of this State. The constitution is, after all, the people's document. But while the average person out there may not know all of the fancy words in this document or what each article of the Constitution says, they know what their Constitution means -- and they have spoken. In one recent poll, 71 percent opposed same-sex marriage.

"Even if our Constitution allowed our Court to make policy, the Court should have the public hearing process that the Legislature must follow in deliberating on policy questions. If it did, the Court would probably have some ability to establish social policy. But the Court does not and because of that, it is unable to, and should therefore refrain from making policy. Sadly, two justices acted otherwise.

"It is unfortunate that these two justices failed to heed the caution of the great United States Supreme Court Justice Hugo Black who said:

'The responsibility of this Court...is to construe and enforce the Constitution and laws of the land as they are and not to legislate social policy on the basis of our own personal inclinations.'

"Mr. President, for 43 years, Article I, Section 5, of the Hawaii Constitution was never interpreted to require same-sex marriage because the people of this State never intended such a construction.

"Today we are faced with the Court's strained and erroneous reading of the Constitution, and we should give the people of this State, by way of a Constitutional Amendment, the opportunity and the right to reiterate to our Supreme Court what the law of the land is of the State of Hawaii -- that traditional marriage is legal.

"This bill falls far short of providing our people any opportunity to express their collective wisdom. And for that reason, Mr. President, I will be voting 'NO.'"

Senator Solomon rose in opposition to the measure and stated:

"Mr. President, I rise to speak against this bill.

"Mr. President, this bill has taken us right through the looking glass to join Alice in Wonderland as Humpty Dumpty said to Alice, 'Words mean just what I choose them to mean neither more nor less.' Mr. President, this is a bill relating to marriage no matter how they label it. In fact, the bill itself, in Section 2, states that domestic partnership is a form of marriage. This is -- dare I say it -- not only a marriage bill but a marriage bill effectively amending our marriage statute to authorize same-sex marriage in Hawaii.

"Article III, Section 14, of our State Constitution sets out that each law shall embrace but one subject which shall be expressed in its title. The subject of this bill is marriage, it is not expressed in its title and the bill is unconstitutional, therefore. The effect of this bill is to repeal the substance of Chapter 517, our marriage statute. If this bill were to be enacted, any two unrelated person

over 18 years of age, regardless of sex, may enter into a marital relationship without the burden of taking a health exam, obtaining a license or having the union solemnized. Two people -- whether male and female, male and male, female and female -- may merely sign a contract and file it with the Director of Health and voila(!) they're married. Mr. President, have we finally lost our minds? We have truly difficult issues in Hawaii which we are not addressing yet and we, through deception and sleight of hand, make this attempt to radically amend our marriage statute by trying to sneak through this mislabeled bill. What are we doing about job creation? What are we doing about the growing gap between the very rich and the very poor in our State? What are we doing to ensure corporations' responsibility to their employees, the State and its environment? -- nothing. We've spent the better part of the last three sessions wasting our time on issues that do not solve our basic problems.

"I'm personally satisfied that the Hawaii Supreme Court was wrong in holding that the denial of the issuance of a marriage license to persons of the same sex may violate the Equal Protection Clause of our State Constitution. It is clear to me that we do in fact have a 'compelling state interest' in limiting marriages in Hawaii to two persons of the opposite sex. It is important to me that marriages contracted by persons in Hawaii and performed here be fully recognized throughout the United States. A majority of the other states have indicated an intent to declare marriages entered into in Hawaii or elsewhere between persons of the same sex to be invalid within those state's borders. I am today introducing a resolution to that effect setting out that the State has a compelling state interest that marriages performed in Hawaii be recognized in all the states and that the State Supreme Court and the Attorney General be so notified by this Legislature. If our Supreme Court is befuddled, is it the problem of this Legislature? Let the U.S. Supreme Court decide whether the courts in Hawaii can amend our marriage statutes by judicial rulings. But let us get down to the business that we are here for -- let's do something to improve the economic lot of our constituents -- ease their real anxieties and get people back to work at jobs paying decent wages and let's quit trying to fool people with semantics.

"Thank you, Mr. President."

Senator Tam rose to speak in support of the measure and stated:

"Mr. President, I stand to speak in favor of S.B. No. 3113, S.D. 1.

"Mr. President, it's very clear to me and to all of us and especially to the audience that we, the Legislature and the Senate, are not in favor of same-sex marriage. Let me make this very clear to those who are here today that we are trying to find legislation so that the courts will not legalize same-sex marriage. I ask that the words of Senator Grauly be recorded as my own.

"This bill, unfortunately, has become a very emotional issue and misunderstanding. The waves must be calm to really objectively evaluate the bill. This bill is not, not a bill to make same-sex marriage legal. This is a domestic partnership bill. The requirement of a valid, a valid domestic partnership written contract is that it be and I quote from the bill: 'Neither be married nor a member of a domestic partnership.' This bill allows people to have economic and tax benefits.

"It is unfortunate that we are being held hostage by the court system. This bill may not be perfect at this time. We need to keep this bill alive so that we have more time to iron out the details.

"Thank you. By the way, we have until the end of April, so please keep that in mind. Thank you."

Senator Levin also rose to support the measure as follows:

"Mr. President, I rise to speak in favor of the bill.

"I share some of the concerns raised by my colleagues, especially with respect to the legal reasoning in the case of Baehr vs Lewin. But to say that the Supreme Court trampled on the separation of powers, I don't think is correct. It would be the same as saying that the U.S. Supreme Court trampled on the separation of powers when it said in Brown vs. Board of Education that segregated schools were unconstitutional. Or, when that same court said it was unconstitutional to prohibit marriages between two people of different races. Those cases are not ancient history. One or both of them occurred during the lifetime of most of us.

"But at any rate, as the Judiciary chair has said, and I think his statement was an excellent one, it is a moot point. We have the opinion. We either deal with it or we bury our heads in the sand. This bill is not a matrimony bill. In fact, it may head off what most people fear, which is same-sex marriages.

"Although it should not be relevant, polls were mentioned, so let me comment on them. The polls indicate that the public opposes same-sex marriage. The public does not oppose giving rights to people who are homosexual. And that is what this bill does.

"I would suggest again, if you oppose same-sex marriage, as I believe the Judiciary chair does, I would suggest that we follow the course that he has laid out and support this bill. Thank you."

Senator Anderson then stated:

"Mr. President, may I request a Roll Call vote?"

At 12:24 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12:25 o'clock p.m.

Senator Holt, rising to speak against the measure, then stated:

"Mr. President, I rise to speak in opposition to this bill.

"Mr. President, every member of this body knows why this bill is before us today and I would like to have the articulate remarks of the good Senator from Mililani, relating to the Hawaii Supreme Court's position on gay and lesbian marriages, inserted into the Journal as my own.

"Mr. President, with all due respect to the chair and members of the Judiciary Committee for their work on this bill, I cannot agree with certain provisions of this bill which will, if passed, provide the Supreme Court with no choice but to force the State of Hawaii and all of its residents to honor gay and lesbian marriages.

"Mr. President, this is a bad bill. Instead of passing legislation that will prevent the courts from forcing Hawaii to honor gay and lesbian marriages, we are passing legislation that will make it absolutely certain the State will fail in its attempt to stop the court from ruling this summer that Hawaii has no compelling interest to deny gay and lesbian couples a marriage license.

"Mr. President, this bill will not make the lawsuits 'moot' as the so-called experts have testified. Remember, that burden of proof falls to the State in August when it argues in Circuit Court why it shouldn't allow homosexual marriages. This bill makes two major changes to existing law that will increase that burden.

"On page 12, line 19, Section 368-1, relating to the Civil Rights Commission, is amended so that domestic partnerships (which is defined in the bill as the relationship that persons of the same gender may have with one another, like gays or lesbians) are now included in the definition of marital status. As such, domestic partnerships are of or pertaining to marriage. Mr. President, by providing marital status to domestic partnerships, this body is providing the court with all the ammunition it needs to permit gay and lesbian marriages.

"Secondly, on page 13, Section 5, existing law is amended to provide marital status to domestic partnerships in the area of divorce. Not only do we include domestic partnerships in Title 31, 'Family,' and in Chapter 580, relating to annulment, divorce, and separation, this bill puts domestic partnerships on equal footing with marriage as it relates to Family Court jurisdiction in matters of divorce.

"Mr. President, this is not just a bill establishing a domestic partnership law. This bill amends existing law in significant fashion. If passed, we are providing the courts with a compelling interest to sanction gay and lesbian marriages.

"I urge all my colleagues to read the bill before you, in particular the amendments on pages 12 and 13, and ask yourself why we need to amend the definition of marital status or the provisions relating to divorce. These provisions are not subject to interpretation. Rather, these provisions send a clear message to the courts that the Legislature intends to give domestic partnerships marital status, or in other words, the Legislature intends to honor gay and lesbian marriages.

"I urge all my colleagues to vote in opposition to this bill. Thank you."

Senator Ikeda rose to speak against the bill and said:

"Mr. President, I rise to speak in opposition to S.B. No. 3113, S.D. 1, Relating to Domestic Partnerships, and I do so with all due respect to the chair and members of the Judiciary Committee.

"What this bill does is far from what we had envisioned when the concept was first put forward. It was my understanding, at least, that the concept of domestic partnership would be more concerned with the rights of property rather than of marriage. It was my hope that we could create a mechanism where individuals could arrange to share their duly earned benefits with the designee of their choice. While this arrangement could apply to same-sex relationships, the intent was inclusive of family members and other non-traditional family arrangements such as the Ha'nai family. The emphasis was to be more contractual than emotional.

"What we have before us, however, is marriage with another name. This is not contractual, but rather sanctioning, and rather than prevent same-sex marriages, will make them possible. Therefore Mr. President, I will vote against this bill, and in doing so, may I also request that the remarks of my colleagues from Mililani, West Hawaii, and Kalihi be incorporated into the Journal as my own. Thank you."

The Chair so ordered.

The motion was then put by the Chair and carried, S.B. No. 3113, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO DOMESTIC PARTNERSHIPS," having been read throughout, and Roll Call vote having been requested, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 14. Noes, 11 (Aki, Anderson, Bunda, Holt, Ikeda, Iwase, Kawamoto, Liu, Matsuura, Solomon, Tanaka).

MATTER DEFERRED FROM EARLIER ON THE CALENDAR

Stand. Com. Rep. No. 2183 (S.B. No. 3232, S.D. 2):

Senator Ikeda moved that Stand. Com. Rep. No. 2183 be adopted and S.B. No. 3232, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Baker.

Senator Ikeda rose in support of the measure as follows:

"Mr. President, today marks a significant turning point for Hawaii government. Though we address many measures today, ranging from the tame to the controversial, two measures stand out in that they depart sharply with recent practice.

"While debates have raged on a number of issues, one issue is the axis upon which this session must turn. Our State has serious budgetary issues to resolve. Though the Governor has been sincere in his efforts to reduce spending, his efforts have often been aimed at reduction in the aggregate. Some consolidation has occurred, but this has realized little in the way of true cost savings. The fact of the matter is that we must face the budget as a structural problem, and not whittle away our resources to the point of ineffectiveness.

"The time has come to make substantive vertical cuts to the State's budget. There is a dire need to determine the role of government and to prioritize the services government provides within these new parameters. With this bill, we have done just that.

"Mr. President, many will argue on behalf of DBEDT, but the fact remains that most of what the department does is best left to the private sector. Here lies the true catalyst to economic development. The role of government should be to create climate and not markets. We have neither the expertise nor the resources to do this effectively.

"As for the Department of Human Resources Development, I admire the work of staff there as they wrangle with an employment system that is antiquated and cumbersome. Their functions, however, do not warrant a separate department in these tight times. By transferring the functions of DHRD to the Department of Accounting and General Services, we can strip away some of the bureaucracy, and put personnel functions closer to those dealing with payroll and fiscal administration.

"Mr. President, this bill represents true downsizing, and systemic reductions aimed at realizing continuing savings. The people have asked for planned reduction to the size of government, and this reorganization is a first major step to that end. I urge your support in the passage of Senate Bill 3232."

Senator Matsunaga rose in opposition and stated:

"Mr. President, for the reasons earlier enunciated on Senate Bill 2552, I am opposed to this measure also. Thank you."

The motion was then put by the Chair and carried, Stand. Com. Rep. No. 2183 was adopted and S.B. No. 3232, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO STATE GOVERNMENT," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 22. Noes, 3 (Ige, Matsunaga, Matsuura).

Senator Matsuura rose on a point of personal privilege as follows:

"Mr. President, may I speak on a point of personal privilege?

"Thank you, Mr. President. One bill that I had hoped to vote on today did not make it to the floor. This bill was held in the Senate Transportation Committee. This bill has to do with implied consent for people who are suspected of driving under the influence of drugs. Right now people who are driving erratically can be stopped by a police officer, brought to the police station and asked to take the breath-o-lizer test to show the alcohol content in their body. Some of these people who are brought in and tested register almost zero in terms of the alcohol content in their body. These people who are driving erratically with zero alcohol readings are usually on drugs. But there's no way in which the police can test these people for illegal drugs in their body. We all know that illegal drugs are totally out of control. A lot of people are being killed by people who are on drugs.

"If we want these people who are on drugs off the road, then we must have an implied consent law just like alcohol has -- implied consent in which testing for drugs can also be done. Testing for illegal drugs is very simple, just a urine sample will do, no blood, just a urine sample. They can test for all of the illegal drugs that will impair a driver. We desperately need this kind of legislation. I had hoped that it would be one of the bills that we voted on today, but it wasn't. However, there is time left in the session and I hope that before this session is over that such a bill will make it to this floor so at least I can vote 'aye' on that bill. There are too many accidents today ... too many people who are on drugs causing those accidents. And those that are on drugs should not be driving on our highways. They're just as bad, if not worst, as the guys who are drunk drivers.

"Thank you."

The President then made the following observation:

"The Chair would like to thank all the Senators for their hard work in bringing all the bills to the floor for Third Reading. We had a very lively debate today and we appreciate all your participation."

Senator Anderson rose on a point of personal privilege as follows:

"Mr. President, I stand on a point of personal privilege.

"Mr. President, yesterday we had a symposium that was attended by about 50 people throughout the community. They were retail merchants; they were cattlemen; they were a diverse group, and we had a lot of publicity as far as the television media went. What bothered me, Mr. President, was that we spent a lot of time the other day on things such as same-sex marriages and things that are happening in this state, but the economy is not one of them. And that meeting yesterday was because we had asked for a study of the Federal Maritime Regulatory Scheme because it cost each household approximately \$2,000 per annum and neither press picked it up. About two-thirds of your household cost on food is taken up because of the cost of goods that come into this state are regulated by federal shipping laws. If you are a renter and you are paying roughly \$600 a month, that's three month's rent that's being considered. I thought it was an important part because 97 percent of all goods that come into Hawaii come in through our harbors. We are an island state. We should be doing a study and looking at what the federal shipping laws are costing us and why it's costing us that. And that didn't happen.

"Now the Star-Bulletin did print something that came from the Associated Press, but there was nothing in the Advertiser and nothing written by the Star-Bulletin. And it's important because it's the economy that we're looking at. That's what we're here for -- to help our constituents. So I would wish that we would all look at what's beneficial for all of us -- each and every one of us -- and how we are going to work for the constituency of this state.

"Thank you very much for your time and I wish my colleagues a very good day. Mahalo, Mr. President."

Senator Solomon also rose on a point of personal privilege and stated:

"Mr. President, I also rise on a point of personal privilege.

"First, Mr. President, I would like to thank my colleague who just gave his remarks for his support of the letter to the editor in the paper regarding our parimutuel bill. Thank you very much for supporting the neighbor islands for parimutuel activities.

"Mr. President, there's an editorial that appeared in today's Honolulu Advertiser which says 'Hostage cases; Sign of social disintegration?' Although, Mr. President, I think that the editorial is appropriate, I would like to add that while the editorial ends as: 'Clearly we are not doing enough. What will curtailing public assistance programs for families that are unraveling? What will our "revolving door" penal system be for repeat offenders? What will failure to fund drug treatment programs do for career criminals from dysfunctional families who regularly fry their brains with "ice"? A Hawaii that gets a handle on these problems is a Hawaii that won't have to worry about social disintegration.'

"I just would like to add for the record, Mr. President, that these hostage cases are not only a sign of social disintegration, but also a sign of economic disintegration. We have an obligation to look at: What are we doing about job creation? What are we doing about the growing gap between the very rich and the very poor in our state? What are we doing to insure corporations' responsibilities to their employees, the state and the environment?"

"Mr. President, we spent the first part of this Legislature dealing with the many, many issues that confront our economy and the social impacts, but I feel now we have to shift gears and start to focus for the last part of our session on economic development, job creation, deal with the problems of the budget and come up with programs that touch people's lives that we are able to provide those kinds of services so that we no longer have to have these kinds of editorials in our newspapers.

"With this, Mr. President, I'm hoping that your committees will start to work in unity to come up with a package that makes sense for our Hawaii. Thank you."

The Chair commented:

"Thank you, Senator. Your point is well taken."

Senator Matsuura, rising on a point of personal privilege, then said:

"Mr. President, I also would like to rise on a point of personal privilege.

"Since we're talking about doom and gloom this morning, I might as well add to it. I don't think that many of us realize the cost implication of taking care of our senior citizens. The elderly care is going to become such a financial burden for all of us that unless we prepare now, those costs are going to start hitting us from next year. We need these facilities to be built now. Believe me, I know. I chair the Human Services Committee. This is not a warning. This is a promise. It's going to happen. Unless we build these facilities and get those long-term care people out of the hospitals and nursing care homes, we're going to be in financial problems. All of us who have grandparents that need this kind of help, we're going to bankrupt them.

"We need economic development. We had this kind of opportunity and we still do. Telecommunications has always been the focal point of the Economic Development Committee. We could have opened up the telecommunication industry long ago. We missed the window of opportunity, but the window is still open. Telecommunications is one area in which the State of Hawaii has a great advantage. We terminated the telecommunications satellite launching project -- that's understandable. Geothermal has always been a big factor in alternative energy self sufficiency. There was a lot of opposition, but we still survived and we are still pushing to generate more electricity by geothermal energy.

"I have pushed for a large water line from Hilo to Waimea, Kona, etc. We sit on an ocean of fresh water in Hilo. If we can move that water over the Saddle and ring the water lines around Mauna Kea and Mauna Loa, you will see economic development that would be mind-boggling. Once you provide water to all of these arid lands, the future of Hawaii is secured. Water is the future for Hawaii. Thank God we have the water resource.

"We have missed a lot of opportunities, but the worst is yet to come. My program area takes care of people on drugs. Ice is totally out of control in Hawaii. I know it and the police confirm it. We have to move on this problem come hell or high water.

"You are going to be seeing a resolution to get Midway Island to become a drug treatment island. I don't care what it's going to take, but I'm going to try to make it happen. They already have the facilities built there. I'm going to introduce another resolution to take one of those mothballed ships or a ship that's going to be mothballed and take it to Midway to provide staff quarters. We have to take some radical steps and believe me what you have heard today is true. We're in trouble and we have to take some calculated chances now. We have to go for broke. Thank you."

**ORDER OF THE DAY
ADVISE AND CONSENT**

Stand. Com. Rep. No. 2269 (Gov. Msg. No. 114):

By unanimous consent, action on Stand. Com. Rep. No. 2269 and Gov. Msg. No. 114 was deferred to the end of the calendar.

Stand. Com. Rep. No. 2270 (Gov. Msg. No. 115):

Senator Solomon moved that Stand. Com. Rep. No. 2270 be received and placed on file, seconded by Senator Bunda and carried.

Senator Solomon then moved that the Senate advise and consent to the nomination of MARILYN MATSUNAGA as State Administrator, State Health Planning and Development Agency, term to expire June 30, 1999, seconded by Senator Bunda.

Senator Solomon rose in support of the nominee and said:

"Mr. President, I am speaking in support of Gov. Msg. No. 115.

"Marilyn has nine years of public service with the State of Hawaii including positions with the Department of Health, Department of Human Services, and the Office of the Governor. In these positions, she has developed skills as a project manager and administrator as well as considerable knowledge about the health care industry.

"Your Committee finds that testimony submitted in support of the nominee indicates that Ms. Matsunaga is known for her ability to frame critical issues within a framework of policy and amidst conflicting views among a diverse group, due to her knowledge, integrity, and strength of character. Testimony further indicates that since serving as acting administrator, Marilyn has shown flexibility and understanding in working with the subarea councils to streamline processes and reduce expenses while at the same time assuring representation in policy development and decision-making. Also, she has addressed the issues and concerns of the health care industry and the community with insight and fairness through forging public and private partnerships.

"During the Committee's inquiry, she indicated her intention to serve as a strong advocate for health care cost containment in her role as administrator of this agency.

"With all of this, Mr. President, your Committee after full consideration of her background, character, experience and qualifications, recommends to this body that she be confirmed by the Senate."

The motion was put by the Chair and carried on the following showing of Ayes and Noes:

Ayes, 23. Noes, none. Excused, 2 (Anderson, Holt).

At this time, Senator Solomon introduced Ms. Matsunaga, who was seated in the gallery. (Ms. Matsunaga rose to be recognized.)

Stand. Com. Rep. No. 2271 (Gov. Msg. No. 123):

Senator Solomon moved that Stand. Com. Rep. No. 2271 be received and placed on file, seconded by Senator Bunda and carried.

Senator Solomon then moved that the Senate advise and consent to the nominations of GERVACIO BUENCONSEJO, EDWIN T. GINOZA, PETER C. MORTON, SHARON T. NAKAGAWA, DANFORD I. SAKAI, CHERYL M. SHINTANI and TWYLLA-DAWN STEER to the Hawaii Teacher Standards Board, terms to expire June 30, 1998, seconded by Senator Bunda.

Senator Solomon rose in support of the nominations and stated:

"Mr. President, I am speaking in support of Gov. Msg. No. 123.

"Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees are volunteers, Mr. President, willing to serve without compensation, and will work with compassion and commitment to assist in undertaking the functions of the Hawaii Teacher Standards Board.

"Your Committee diligently questioned the nominees about their vision for the Hawaii Teacher Standards Board and believes that the nominees adequately responded to the Committee's inquiries, and based upon the nominees' statements, your Committee further finds that the nominees are committed to enhancing the professional development and morale of teachers through their participation on the Board.

"Your Committee, after full consideration of their background, character, experience, and qualifications has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to these nominations."

The motion was put by the Chair and carried on the following showing of Ayes and Noes:

Ayes, 23. Noes, none. Excused, 2 (Anderson, Holt).

Senator Solomon then introduced Mr. Buenconsejo and Mr. Sakai, who were seated in the gallery. (Both gentlemen rose to be recognized.)

Senator Solomon then moved that the Senate advise and consent to the nominations to the Land Use Commission of the following:

MERLE A.K. KELAI, term to expire June 30, 1998; and

HERBERT S.K. KAOPUA SR., term to expire June 30, 2000,

seconded by Senator Bunda.

Senator Solomon, rising in support of the nominee, then said:

"Mr. President, I am speaking in support of Gov. Msg. No. 124.

"Mr. President, your Committee finds that the testimony submitted in support of Merle A.K. Kelai indicates that he is a person of integrity and character, who also possesses the knowledge necessary to make informed decisions regarding land use issues. Your Committee further finds that testimony submitted in support of Herbert S.K. Kaopua, Sr., indicates that he is committed to public service and the community and brings with him experience, wisdom, and strict ethical standards that will assist him in making land use decisions based upon what is fair, right, and in the best interests of the overall community.

"Your Committee diligently questioned the nominees regarding their visions and priorities for their tenure on the Land Use Board. Your Committee specifically questioned the nominees about possible conflicts of interest regarding their affiliation with special interests that represent land developers and the construction industry. The nominees indicated that they would recuse themselves from any land use decision in which there was concern about a conflict of interest. Your Committee further questioned the nominees about their interests in native Hawaiian and ceded lands issues. The nominees acknowledged that as native Hawaiians and Hawaiians, they were interested in and would give fair consideration to those issues in their decision-making.

"Based upon this, Mr. President, your Committee after full consideration of the background, character, experience, and qualifications of the nominees, finds the nominees to be qualified for the positions to which they are nominated and recommends the advise and consent to the nominations."

Senator Kawamoto rose in support of Mr. Kaopua and said:

"Mr. President, I rise to speak on behalf of Mr. Kaopua.

"I've known Mr. Kaopua for a while. In regard to his love for the aina and regards to his great quality of leadership that we will now have in our government, I believe we are very fortunate to have a person like Mr. Kaopua with his high caliber, on the Land Use Commission.

"I urge all my colleagues to vote 'aye.' Thank you."

The motion was put by the Chair and carried on the following showing of Ayes and Noes:

Ayes, 23. Noes, none. Excused, 2 (Anderson, Holt).

Stand. Com. Rep. No. 2273 (Gov. Msg. No. 125):

Senator Solomon moved that Stand. Com. Rep. No. 2273 be received and placed on file, seconded by Senator Bunda and carried.

Senator Solomon then moved that the Senate advise and consent to the nomination of EDWARD THOMPSON "SKIPPA" DIAZ to the Stadium Authority, term to expire June 30, 1997, seconded by Senator Bunda.

Senator Solomon rose in support of the nomination and stated:

"Mr. President, I am speaking in support of Gov. Msg. No. 125.

"The nominee is a volunteer, Mr. President, willing to serve without compensation, and will work with compassion and commitment to assist in the undertaking of the various responsibilities of the Stadium Authority. Your Committee further finds that the nominee has been appointed based upon his credentials, integrity, and a desire to make Hawaii better through his participation on the Stadium Authority. In his personal statement to the Committee, Skippa indicated that he believes that the Aloha Stadium can serve as a venue for various forms of family entertainment such as cultural events that will benefit residents and visitors alike.

"Your Committee further finds that working with professional athletes from Hawaii through the 'Sports Yes, Drugs No' program, Skippa helps Hawaii's youth to develop their self-esteem, sense of achievement, and community pride. Your Committee further believes that Skippa is a 'keiki o ka aina' who exemplifies the Aloha Spirit through his active sharing of these values with his students. Testimony in support of the nominee indicated that Skippa possesses the character, compassion, consciousness, courage, and determination that will benefit the Stadium Authority.

"After full consideration of the background, character, experience, and qualifications, we find the nominee to be qualified for this position and recommend that the Senate advise and consent to the nomination."

Senator McCartney also rose in support of the nominee as follows:

"Mr. President, I rise to speak in favor of the nominee.

"First of all, I'd like to thank the chairperson of the committee who did the work to nominate this individual, for her fine work. And also in the confirmation process, sometimes information comes out, your whole life becomes exposed and I'd like to share one additional piece of information that I found out about the individual the other day. I was listening to the radio one night and it turns out that he's not only a great football player but he has age group butterfly swimming records that still exist. He was a great swimmer during his high school days, and he still holds some of those age group butterfly records.

"What I wanted to say about the nominee is that every time you see him you can see his heart; that he is a person of great character and integrity; and he is a role model with the kids and he builds character in them. I think he's the kind of individual that we want in our public schools who really cares about students and puts them first and has been a role model to build that character and integrity in his players and students and believes that education and athletics go hand in hand. And I think he will be an excellent addition to the Stadium Authority where he can help continue to make it a place that all of Hawaii can be proud of.

"Thank you, Mr. President."

Senator Kawamoto rose to speak in favor of the nominee and said:

"Mr. President, I rise to speak in support of confirming Mr. Edward Thompson 'Skippa' Diaz.

"It is a great honor for me to have the opportunity to say a few words on behalf of an outstanding constituent such as Mr. Diaz. Needless to say, we have heard and

read or known of the great good that Mr. Diaz has done for young people, especially at Farrington High School in many different sports.

"It is with great honor that I recommend to my colleagues that we confirm this nominee. Thank you very much."

Senator Grauly, also rising in support, then stated:

"Mr. President, I too rise in support of the nominee.

"Mr. President, the kids at Farrington are truly fortunate to have Skippa Diaz as a member of the faculty. I don't think there is anybody at Farrington that cares more deeply about the kids than Skippa.

"I must apologize, though, the other day I was told that he was in my Judiciary Committee hearing and I didn't even recognize him. So what we have before us, Mr. President, is the leaner but even kinder Skippa Diaz and I urge his approval. Thank you."

The motion was put by the Chair and carried on the following showing of Ayes and Noes:

Ayes, 23. Noes, none. Excused, 2 (Anderson, Holt).

Senator Solomon then introduced Mr. Diaz, who was seated in the gallery with family and friends. (Mr. Diaz rose to be recognized.)

Stand. Com. Rep. No. 2274 (Gov. Msg. No. 126):

Senator Solomon moved that Stand. Com. Rep. No. 2274 be received and placed on file, seconded by Senator Bunda and carried.

Senator Solomon then moved that the Senate advise and consent to the nomination of ROGELIO EVANGELISTA to the Advisory Board on Veterans Services, terms to expire June 30, 1996 and June 30, 2000, seconded by Senator Bunda.

Senator Solomon rose in support of the nominee and said:

"Mr. President, I rise in support of Gov. Msg. No. 126.

"Your Committee diligently questioned the nominee and your Committee finds that the nominee understands the importance of providing services to the veteran population in Hawaii and recognizes that veterans are important symbols of patriotism within our communities and our State.

"With that, Mr. President, and after full consideration of the background, character, experience and qualifications, we recommend that the Senate advise and consent to this nomination."

The motion was put by the Chair and carried on the following showing of Ayes and Noes:

Ayes, 23. Noes, none. Excused, 2 (Anderson, Holt).

**MATTER DEFERRED FROM
EARLIER ON THE CALENDAR**

Stand. Com. Rep. No. 2269 (Gov. Msg. No. 114):

Senator Solomon moved that Stand. Com. Rep. No. 2269 be received and placed on file, seconded by Senator Bunda and carried.

Senator Solomon then moved that the Senate advise and consent to the nomination of SAM CALLEJO as Comptroller, term to expire December 7, 1998, seconded by Senator Bunda.

Senator Solomon again rose in support of the nomination and stated:

"Mr. President, I rise in support of Gov. Msg. No. 114.

"Mr. President, Mr. Callejo -- Sam, as we all know him -- is known as an individual with a strong sense of self-discipline and commitment to excellence in fulfilling his responsibilities and has demonstrated his ability to be an effective administrator.

"Your Committee members diligently questioned the nominee regarding his administrative qualifications, his visions, and his priorities as the State Comptroller. Your Committee further questioned Mr. Callejo about the charges of ethical violations during his tenure as Deputy Managing Director for the City and County of Honolulu, and he indicated that the city's Ethics Commission found that there has been no ethics violations. Mr. Callejo further indicated that he is aware of the state ethics laws and his responsibility as Comptroller to keep political activities separate from his administrative functions. Your Committee further questioned Mr. Callejo about the recent overpayments to state employees for accumulated sick leave, to which he responded that a new tracking system is being implemented to prevent this problem in the future.

"Based upon this discussion, your Committee believes that this nominee adequately responded to the Committee's inquiries, and after full consideration of the background, character, experience, and qualifications, we find the nominee to be qualified for this position and recommends that the Senate advise and consent to the nomination."

Senator Kawamoto also rose in support of the nominee as follows:

"Mr. President, I rise to speak in support of confirming Mr. Sam Callejo.

"I'd like to say that I've known Mr. Callejo for a long time and I always said, when he was in the City, he was the best Department of Public Works director the City has ever seen. Now we have him as the Comptroller and he will insure that all the developers and all the contractors are accountable for all the state projects that we have. And therefore, Mr. President, I urge all my colleagues to support Mr. Sam Callejo."

Senator McCartney rose in support of the nominee and said:

"Mr. President, I too would like to briefly rise to speak in favor of the nominee.

"I've had the opportunity to work with Mr. Callejo on various community issues on the Windward side and happen to know that he is very active in supporting many causes for the youth in our community. He is a board of director of the KEY project in my community. He has worked hard to raise funds and to make sure that the disadvantaged youth in our community have the necessary services to meet their needs.

"But more importantly, I think Sam is a man of integrity. When you ask him a question, he gives you a straight answer. It may not be what you always want to

hear but it's a straight answer, and I think that's the kind of person we need in that job.

"The other thing is that I believe he's committed to public service and I think that there's no question that he could find employment outside in the private sector but he is a true public servant. He is committed to doing what's right for Hawaii and its people and I urge my colleagues to support his nomination. Thank you."

The motion was put by the Chair and carried on the following showing of Ayes and Noes:

Ayes, 23. Noes, none. Excused, 2 (Anderson, Holt).

Senator Solomon then introduced Mr. Callejo, who was seated in the gallery with his family, friends and supporters. (Mr. Callejo rose to be recognized.)

Senate Concurrent Resolution Referred to:

No. 57 Jointly to the Committee on Consumer Protection and the Committee on Transportation and Government Affairs

No. 66 Jointly to the Committee on Education and the Committee on Communications and Public Utilities

Senator Anderson rose on a point of personal privilege as follows:

"Mr. President, may I stand on a point of personal privilege?

"Mr. President, I did read this morning's paper and I was a little disillusioned. It seems that the convention center has put a number of construction people to work and the administration did it. But whenever anything goes wrong where we don't have repair and maintenance programs done, it's the fault of the Legislature.

"And I was wondering because I've been reading what the DOE said about moneys that they were holding back. I did look at the University of Hawaii -- \$68 million in repair and maintenance that they are not putting through. We're going to be in trouble. The schools look bad; the University is run down. And now we're looking at building another university. But if they're going to hold

back money for repair and maintenance, then how are we going to attract new people. Why should we, the Legislature, take on that responsibility of not putting our people back to work in the construction industry where it's badly needed.

"Thank you so very much."

ORDER OF THE DAY**RE-REFERRAL OF HOUSE BILLS**

The Chair re-referred the following House bills that were received:

House Bill Referred to:

No. 3391, H.D. 1 Jointly to the Committee on Consumer Protection and the Committee on Ways and Means

No. 3819, H.D. 2 Committee on Consumer Protection, then to the Committee on Ways and Means

Senator Baker rose on a point of personal privilege and stated:

"Mr. President, I rise on a point of personal privilege.

"Mr. President, today we anticipate hearing from the Council on Revenues with their latest revenue projections for the remainder of the year and for the next. But unless something quite dramatic has happened, even though we've seen a slight rise in tourism in this last quarter, I'm afraid that the headline in this afternoon's paper is probably going to be reflected in the Council's report. The headline reads: 'Isle economy weakest in the nation.' A survey shows that Hawaii will have the poorest growth of any state. And as you go on down through the article, the survey notes that our economy's performance is very, very weak, but toward year's end will start to creep toward recovery.

"Despite those improvements, we will rank last among the 50 states for employment growth and 49th for gross state product growth in the period from 1994 to 1999. These numbers don't bode well for our State budget. I think it serves as a call to all of us, as we have noted earlier on this floor, what we all need to be focusing on is the economy.

"Mr. President, I know your chair of Ways and Means and her committee will be very diligent in their deliberations on the budget we have just received from the House. The money committee is up to the challenge. But I would ask all committee chairs to very meticulously scrutinize the bills that remain in your committees and pass out those that are going to work with WAM and help provide for economic development and economic activity to get our State economy moving again. Unless we address those fundamental issues, all else pales.

"Thank you, Mr. President."

Senator Anderson also rose on a point of personal privilege and said:

"Mr. President, I rise on a point of personal privilege.

"I quite agree that the economy should and is the first thing that the whole community and the whole state is worried about. However, in the Star-Bulletin they have, 'Same-sex arguments touch on Holocaust.' I stood on this floor and went down to the courts to listen to what was going to happen. And we have an AG who says the holocaust is something that he feels is a civil rights thing and he is not going to in any way be intolerant. They're supposed to represent us, and they're not even bringing in any witnesses. They're going to use Mr. Foley's expert witnesses. Now this is the group of attorneys that represent us!

"I did say that as a Hawaiian it bothered me because they were putting down that Hawaiians were tolerant. And I went and got this book yesterday on 'Stolen Kingdom.' We were a sovereign nation and in 1840 we had laws and it was recognized -- not European laws or laws of the United States, but Hawaiian laws. And they said that there was nothing in the courts yesterday that had any relevance to tolerance and we had those laws.

"When it came to the idea that they are going to have to represent us and there had to be a compelling interest,

I then told them we had 300 HRS sections that are going to be put on a possible cost to all of us. And I mentioned, I think, about ten or twelve including public employees' pensions and retirement, public lands and taxes. I think that's a compelling interest. And yet people said, don't intervene, that we had no right; that as legislators, we have other means and other methods to get involved.

"I don't believe now and I didn't believe it yesterday that the Attorney General is representing us. And I believe that this is not like any other law where you're looking at a 50-50 proposition where 50 percent are for and 50 percent are against. This happens to be 80-20 or 90-10, and I'm asking everybody here to at least consider the constitutional amendment because that's the only way that we're going to allow the people a chance to vote the way they see fit and obtain what they want. They're not asking you to use all of the information that you have collected and represent them. They're saying they no longer trust us in this particular issue. They want a voice. So I personally went down and I signed the papers and I will intervene because it is a very, very important issue, and I think that all of us here have to understand that it is a people's issue.

"Thank you very much."

Senator Holt rose on a point of information and said:

"Mr. President, for the members information, we had a bill that we referred, H.B. No. 3391, H.D. 1, 'Relating to Motor Vehicles,' which is the House auto insurance reform bill. And just for your information, in the last two years we have seen about six proposals to reform the out-of-control auto insurance system -- one by the Senate, which we all know about; three by the administration, they started with gas plus and they moved last year to the shifting of prepaid to the employers with a recovery threshold, and then this year they had a proposal to unbundle the medical options and then with an offset; and two by the House, one last year which was a choice bill and which was shelved this year and the House simply threw a tort measure in, which we will be hearing tomorrow morning.

"This issue is something that I would like to make note of for the record that the Senate is serious. We fully have it positioned; we're not jumping all over the place trying to find ways to reform the system; and we think we should do it this session. Thank you."

RE-REFERRAL OF SENATE RESOLUTION

Senate Resolution Referred to:

No. 115 Committee on Human Services

At this time, Senator Kanno, chairman of the Committee on Agriculture, Labor, and Employment, requested a waiver of the 72-hour Notice of a Public Hearing on H.B. No. 2514, H.B. No. 3432 and H.B. No. 3433, and the Chair granted the waiver.

Senator Solomon rose on a point of personal privilege and stated:

"Mr. President, I'd like to rise on a point of personal privilege.

"Mr. President, there was an article that appeared in today's paper, 'Makua eviction notices posted; 60 families have few housing options.' And as the article continues, it says that 'The response to state officials from many of the campers was: Been there, done that, asked for help -- and came up empty.'

"'I don't have many options left -- I don't have any options left,' a woman who identified herself a Lokahi Maluhia said, studying the eviction notice as state officials moved on down the beach.'

"Mr. President, this is a real sad state of affairs. Although I am not condemning DLNR for the action they took, because they themselves really had no other option and the eviction notices were served, but the problem that I have and the pilikia that I have with all of this is that, why aren't there options, Mr. President? What is our present administration doing about all of this? How many persons have been living there for months and months? How many persons living there are of Hawaiian ancestry? The Department of Hawaiian Home Lands could possibly come up with an alternative for them.

"This is an option that is real; options such as this make sense for these people. In my manao I wonder where that poor woman is going with her six-month old baby?

"Mr. President, your committees in the Senate have tried to wrestle with the reality of the homeless, and it's unfortunate that we cannot come up with options for these kinds of persons that really need help. These persons got a list of state agencies that are available to help them. I'm hoping that these agencies would really assist them so their cries for help will be answered and Hawaii can become what our state motto has been, 'Ua mau ke ea o ka aina i ka pono -- The life of the land is perpetuated in righteousness.'

"And, Mr. President, with that I'd like to ask if you could, perhaps, write letters to the proper departments and ask if they're coming up with solutions for these persons so there would be no need for people to wander around and live in places like Kapiolani Park, Aala Park or wherever else. I want to state that I went to visit that camp in Makua and saw families living there, not just individuals -- these are families that have made this their home, their life. I would appreciate, Mr. President, if you could express the urgency of this problem to the administration, from the Senate, so that we can come up with alternatives and assist these persons. And maybe the headlines will read next week that we found places for these people to live on until we can help them get back on their feet and get going with their lives.

"Thank you."

House Bill	Referred to:
No. 3153, H.D. 2	Committee on Judiciary

No. 3572, H.D. 1	Committee on Judiciary

RE-REFERRAL OF HOUSE BILLS

The Chair re-referred the following House bills that were received:

House Bill	Referred to:
No. 2746, H.D. 1	Jointly to the Committee on Hawaiian Affairs and the Committee on Judiciary, then to the Committee on Ways and Means
No. 3299, H.D. 1	Jointly to the Committee on Agriculture, Labor, and Employment and the Committee on Economic Development, then to the Committee on Ways and Means
No. 3496, H.D. 1	Committee on Judiciary, then to the Committee on Ways and Means

Senator Anderson rose on a point of personal privilege as follows:

"Mr. President, I stand on a point of personal privilege.

"Mr. President, this morning's paper said, 'Budget hits wall in Council,' and it's asking Mayor Jeremy Harris to take a stand on the firefighters' pay. And in here it says that we're trying to give every opportunity to the mayor to be involved to decline or accept. It also says that all four counties and the Legislature have to approve that pay raise.

"I read Letters to the Editor, and it said 'Fire Fighters feel tricked.' Now I'm not too sure, Mr. President, but if I remember correctly, the firefighters were one of the first to go into a binding arbitration. Under that, they had to live or die with whatever happened. And according to this, they were able to ask the governor for a 1.5 and everything was rejected. Then they went into binding arbitration and got a 7.2 percent wage increase.

"I think our integrity is really at stake here. We asked them to go into a binding arbitration and now we're

saying we can't afford it, so now you go back to the table. I don't know what a binding arbitration is if it doesn't mean that we are going to be held responsible. And I think that it's terrible and I don't mean this as a point for politics or anything else. I think it's our integrity and I think it's our responsibility. So I would hope that we at the Legislature really look at that. It's a very important part and I think the council really has a responsibility to pay for that, rather than say 'reject' or 'accept.' To me, that's not binding.

"Mr. President, may I request that the 'Letter to the Editor' from Francis Kennedy, Jr., be inserted into the Journal? Thank you very much."

The Chair having so ordered, the "Letter to the Editor" is Attachment "A" to the Journal of this day.

At 11:56 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:57 o'clock a.m.

ADJOURNMENT

At 11:59 o'clock a.m., on motion by Senator Ihara, seconded by Senator Liu and carried, the Senate adjourned until 11:30 o'clock a.m., Friday, March 15, 1996.

Fire Fighters feel tricked

Employers' stubbornness brought big wage hike

The governor and the mayors of the four counties (the employers) have deliberately blocked efforts by an arbitration panel to make a decision it believed to be fair and equitable in our recent contract negotiations.

The employers have not accepted responsibility for the consequences. Instead, they have dishonored themselves and have shamelessly placed this responsibility on the shoulders of the Legislature and the county councils.

If the employers have their way, the legislative bodies will disapprove the final and binding decision (a two-year, 7.2 percent wage hike) and take the blame for making a mockery of the collective bargaining/arbitration process.

There is already an insidious public relations effort to

characterize this final and binding arbitration award as a mere "recommendation." It is not a recommendation. It is legally final and binding on both parties, not just on the Fire Fighters.

The chairman of the arbitration panel made extraordinary efforts to persuade the employers to grant the panel authority to choose something other than the union's final offer on wages. At one point, he even recommended a very modest 1 percent plus 1.5 percent wage increase settlement package.

In a Feb. 21 letter to chief negotiator Manabu Kimura, the chairman of the panel advised that . . . "the majority of the panel does not believe the employers have provided sufficient evidence to establish an inability to pay, which is a prerequisite to a zero wage offer. The employers' position in refusing to grant the panel flexibility leaves the panel little option. . ."

On March 1, the decision and award said: "If the panel had the

authority, it would have selected a modified wage increase as more appropriate. But since the employers have refused to extend that authority to the panel, the only alternative is to accept the union's proposal as it was made with respect to wages."

It has been suggested that after the councils "just say no" to this arbitration decision, we will simply have to return to the bargaining table. For what? To apologize? We have a final and binding arbitration award. That's final.

The public is entitled to an explanation from the employers for this refusal to allow the arbitration panel to make a more reasonable decision.

- No. 3636 Jointly to the Committee on Judiciary and the Committee on Agriculture, Labor, and Employment, then to the Committee on Ways and Means

RECONSIDERATION OF ACTION TAKEN

Stand. Com. Rep. No. 833 (H.B. No. 1559):

Senator Levin moved that the Senate reconsider its action taken on March 21, 1995, on Stand. Com. Rep. No. 833 and H.B. No. 1559, seconded by Senator Kanno.

Senator Levin explained:

"Mr. President, this is a broad-titled bill relating to health care. We intend to use it as a vehicle to deal with the issue of hospital autonomy. The present bill that we have refers to hospital corporations. We're not sure we want to go that route. If this motion passes, the hearing on this bill will be held on Monday, March 18."

The motion to reconsider the action was put by the Chair and carried.

On motion by Senator Levin, seconded by Senator Kanno and carried, H.B. No. 1559, entitled: "A BILL FOR AN ACT RELATING TO HEALTH CARE," was recommitted to the Committee on Health.

Senator Aki rose on a point of personal privilege as follows:

"Mr. President, I want to rise on a point of personal privilege.

"There is an article in this morning's paper which deals with the issue of sovereignty. I really think that this is a very good article and I wanted to ask the members of the Senate for their approval to put this article into the Journal today.

"I won't read it because I think all of us can look at it later, but I'd like to thank the individual, Robert Keli'icho'omalu, whom I don't know but he comes from

Kaimu, Puna. And he wrote a very good article which I think is very timely and very to the point on the issue of sovereignty.

"So, if I may ask, Mr. President, can this article be included in today's Journal?"

The Chair responded:

"Certainly, your request is granted."

The article reads as follows:

"The Honolulu Advertiser
Friday, March 15, 1996

Plebiscite would create new agency, not nation

The Hawaii Sovereignty Elections Council has almost succeeded in finalizing the overthrow of 1893. The federal apology bill recognized that the Hawaiians never abrogated sovereignty by 'referendum or plebiscite.'

The state government rushed to enact legislation stealing the sovereignty process. The Native Hawaiian Vote being foisted upon an unaware electorate legitimizes the state theft: A 'no' vote relinquishes all future claims; a 'yes' vote creates a new state agency with no resources, land base or autonomy. So, you are 'damned if you do, damned if you don't.' The only vote here is a voided ballot or no vote at all.

Do not support the Hawaii Sovereignty Elections Council or the plebiscite Native Hawaiian Vote. Do not legitimize the state-controlled-sovereignty facade.

Millions have been spent registering, promoting and controlling the future of the kanaka maoli. Now the evils of gambling taint the process with the lure of untold riches. To the 'Boys' Club' in Honolulu I say, 'Shame on you!' Let the Hawaiians form a new nation, not a new state agency. Imua kakaou!

ROBERT KELI'IHO'OMAI
Kaimu, Puna"

Senator Ikeda rose on a point of personal privilege as follows:

"Mr. President, I would like to rise on a point of personal privilege.

"Mr. President, I'd like to comment on the very long editorial that was in this morning's Advertiser, entitled 'No-fault woes' -- 'Let's return to the basics'. It's a rather interesting dissertation and if I may quote from it, it makes a recommendation regarding what the Legislature should do on this subject. And I quote:

'Make existing medical insurance, with its safeguards and buying power, the primary recourse for those injured in vehicle accidents.

'One critical point, however: Resulting savings on car insurance premiums must not be shifted to employers who pay the bulk of most health insurance premiums today. Drivers who save on auto premiums should pick up whatever costs shift to their health policies.

'Using the health insurance system as a base, a simple auto insurance system can be built.'

"Mr. President, it sounds very simple; it sounds very logical. I think what this body needs to be aware of, however, is that we do have a communication from the Director of the Department of Labor and Industrial Relations. An inquiry was made about ERISA and the potential impact of medical cost due to shifting coverage of automobile accidents to the Prepaid Health Care Act. As you know, this state has an exemption from ERISA in order to sustain the Prepaid Health Care Act. The Prepaid Health Care Act has been very effective in terms of providing health care coverage for the majority of the people of our state.

"The Director writes: 'Our current ERISA exemption requires that we do not substantially change our laws. The courts have also applied the standard to nonstatutory administrative changes. This change may therefore be considered a substantive change. The impact on PHC, meaning prepaid health care, premiums is another issue to be considered. We have heard quotes from 3 percent to 10 percent increases in premiums. Because employers will be required to pay a portion of this increase in insurance premiums, they may challenge this shifting in coverage as a substantive change.'

"My point, Mr. President, is that while it seems reasonable, it's extremely complicated because we will be risking what we have enjoyed for a number of years, namely, prepaid health care coverage for the majority of the citizens of this state. But, Mr. President, your committees will be looking at alternatives as we draft this law, hopefully to produce the same kinds of results.

"Thank you, Mr. President."

ORDER OF THE DAY

RE-REFERRAL OF HOUSE BILL

The Chair re-referred the following House bill that was received:

House Bill Referred to:
 No. 582, H.D. 1 Committee on Ways and Means

RE-REFERRAL OF SENATE CONCURRENT RESOLUTION

The Chair re-referred the following Senate concurrent resolution that was offered:

Senate
 Concurrent
 Resolution Referred to:
 No. 114 Committee on Consumer Protection,
 then to the Committee on Judiciary

RE-REFERRAL OF SENATE RESOLUTION

The Chair re-referred the following Senate resolution that was offered:

Senate
 Resolution Referred to:
 No. 86 Committee on Consumer Protection,
 then to the Committee on Judiciary

Senator Fernandes Salling, chair of the Committee on Transportation and Government Affairs, requested a waiver of the 72-hour Notice of a Public Hearing pursuant to Senate Rule 20 on H.B. No. 3383, and the Chair granted the waiver.

Senator Kanno, chairman of the Committee on Agriculture, Labor, and Employment, also requested a waiver of the 72-hour Notice of a Public Hearing on H.B. No. 3470 and H.B. No. 3525, and the Chair granted the waiver.

Senator Matsuura rose on a point of personal privilege and stated:

"Mr. President, we talk about the Department of Human Services having a \$350 million budget. It appears like a lot of money to take care of the welfare people. I just want to let the body know that there are a lot of things that are being initiated and I just want to report just one good thing.

"One of the things that the Human Services initiated this year is a project called 'Good Start Project.' It was an initiative between the Human Services Department and the private sector. The private sector, in this case, is the Hawaii Restaurant Association. What they do is, whenever there is a position opened in the restaurant, they contact DHS; DHS then contacts some of their staff and finds a possible person that can fill the job. They have already placed 16 people into jobs.

"We have a tendency to look at people on welfare as they just don't want to work; that is not altogether true. Those that really want to work, all they need is an opportunity for a job. Thank you."

Senator Bunda also rose on a point of personal privilege and stated:

"Mr. President, I speak on a point of personal privilege.

"Mr. President, I'd like to comment on the Makua Beach situation and the Governor's comments in the Advertiser and the Star-Bulletin.

"First, I'd like to commend the Governor for showing compassion for the children at Makua by extending the eviction date to June 15th. And by extending that date, the children might be able to finish this school year at their present school. He and I share the same concern for the well-being of the children who have no control over their predicament. However, Mr. President, the Governor's decision to evict the people at Makua creates a crisis with many inter-related and complex problems. To address only one issue -- that issue being the disruption of a child's school year -- simply ignores the fact that the child's performance is dependant on the stability of the child's home.

"The Governor does not address the fundamental problem: 'Where will these people go?'

"As OHA Trustee DeSoto testified this past Tuesday in our Housing Committee, she stated that 'It is tragic that the state decided that ready access to Makua Beach "by all members of the public" is more important than working with the people who live there to resolve the problems that forced them to live in a public beach park.... The answer is not going to be found in forcing these people off the beach. They will just move to another public property somewhere else. And when the new residential site comes to the attention of the State, the residents will be forced to move again.' Mr. President,

my feeling is most of them would probably just come back.

"Yes, I recognize that Makua has health and safety problems. However, eviction is only a knee-jerk reaction to a problem that the state has allowed to fester for many, many years. The Governor attempts to only band-aid a highly emotional and controversial issue.

"Mr. President, we should recognize that eviction on this day, June 15th, does not resolve the fundamental problem -- 'Where will these people go?' Chairman of DLNR Michael Wilson stated at our hearing also that the administration would do what the Legislature recommended. The Senate Committee on Housing, together with Senator Solomon and Senator Aki, decided that the next step should be a meeting with the Governor. And the purpose of that meeting would be to discuss alternatives for a settlement -- a long-term solution.

"Participation by community agencies and district residents is essential to finding the long-term solution. They are more knowledgeable and in tune with the needs and issues of the Makua people. They have provided and will continue to provide assistance to the people of Makua. In addition, the Makua Community Council has indicated to us in the hearing that they will take responsibility in transitioning people out to jobs and to homes.

"Mr. President, as of yet, Chairman Wilson has not set the meeting we requested. And I don't know why and I can't understand why this is taking so long. This has been a couple of days ago, now. We called the Governor several times but to no avail -- still, no response.

"We feel that we can accomplish looking at alternatives without the need to pass out a Senate resolution. And the bottom line is -- the decision resides with the Governor, and he knows how we feel.

"Our state is in a fragile economic situation and many of our residents live one paycheck away from being homeless. The plight of the Makua residents reveals only the tip of an iceberg. We must humanely assess this situation which ultimately affects everyone who lives in our state.

"I believe we can all achieve a win-win solution to this very complex issue. We must be honest, and we must be willing to consider unconventional and creative solutions.

"Thank you, Mr. President."

The Chair thanked Senator Bunda for his remarks.

Senator Aki, rising on a point of personal privilege, then said:

"Mr. President, I also rise on a point of personal privilege.

"First of all, I'd like to ask that the remarks of the chair of the Housing Committee be incorporated as my own. (The Chair so ordered.)

"Secondly, I'd like to thank the chair and the committee for having the public hearing on Tuesday at which time residents in the area presented testimony which was very, very eloquent and very heart-warming. And I think it demonstrated the true feelings and problems of the area. It's just sad that this hearing was not publicized or attended by the news media because I think had they been there, there would have been a lot more information coming out through the news media.

"I also want to thank the Governor for extending the deadline because now it gives us more time to address the problem. I think what the Governor has done has shown that he does have compassion and is very concerned about the problem and he has demonstrated leadership in that area. But more needs to be done.

"I also want to really commend the people, the Makua Beach people, who came to the hearing on Tuesday and presented their testimony. And as I said, I think had more of us heard testimony, you would have learned much more.

"Mr. President, what I really want to say at this point is that we in government have failed and we can see the results of our failure in what's happening at Makua Beach, what's happening on Kauai as far as the Kahale incident, the Miranda incident which happened just last month. And I suspect, Mr. President, that many, many more incidents of this nature will happen in the future if we in government do not address the problems of our state.

"And finally, Mr. President, I think we all recognize that we in government owe it to the people of Makua and to the people of this state to do better, and that is why we are here. And that is why I am asking that the resolution that was submitted be considered in the future and I think it should be passed because only then will we really have a chance to address the problems that are at hand.

"Thank you very much."

Senator Holt then rose on a point of personal privilege as follows:

"Mr. President, I rise on a point of personal privilege.

"I'd like to ask that the remarks of the two previous speakers be included as though they were my own. (The Chair so ordered.)

"Would the chairman of the Housing Committee please yield to a question?"

The President posed the question to the chair of the Housing Committee, and Senator Bunda having answered in the affirmative, Senator Holt continued:

"It's not the question you expect me to ask. Mr. Chairman, isn't it true that during the hearing on Tuesday a request was made by you to the Director of DLNR to request the Governor to meet with the members of the committee regarding this issue?"

Senator Bunda answered:

"Yes, that is true."

Senator Holt continued to inquire:

"Have you received an answer from the director yet as to when that meeting will take place?"

Senator Bunda responded:

"As of this date -- as of this moment -- we have not received any calls either from the chairman of the DLNR or the governor's office itself. We have called several times; we have called more than three times and have asked that office to call us back so that we, the committee, and also interested members, can have a meeting with the Governor, but to date we have not received any calls to that."

Senator Holt questioned:

"Was it your understanding that the people that were there at the meeting, who were in attendance when you made the recommendation to defer the resolution, understood that it was done so with the understanding that we would have the meeting with the Governor?"

Senator Bunda replied:

"Yes, it was. It was very clear."

Senator Holt continued:

"So we're still waiting for the Governor to get back to you."

Senator Bunda responded:

"Yes we are; we are still waiting."

Senator Holt inquired:

"Is there any reason why he hasn't called?"

Senator Bunda answered:

"I have no idea, Senator Holt."

Senator Holt then said: "Thank you."

Senator Solomon also rose on a point of personal privilege and stated:

"Mr. President, I am also rising on a point of personal privilege, and in support of all of the remarks that were made.

"Mr. President, I am hoping that the Governor will get the message. It is a sad state of affairs, Mr. President, that we have to use the word 'hope.' I think that the chairmen handled this very sensitive, volatile issue with diplomacy and with commitment. And I want to remind this body that we've been through a lot of trials and tribulations when it came to the resettlement of persons, especially those persons of Hawaiian ancestry. We had Sand Island and Kalama Valley. We went through a convention center situation where we had a riot down here in the rotunda. Mr. President, for the life of me, I cannot understand why is it that when they go and displace persons of Hawaiian ancestry, they bring the dogs, the swat team and the guns. This hurts, Mr. President.

"I just remembered, Mr. President, and you can correct me if I am wrong or anyone in this body can correct me, when the Philippines had a hurricane, our Governor raised money and I think he sent them a check. I don't know how much it was. Maybe Senator Grauly could tell me. I know the Senator was part of that delegation that submitted our good will, our Aloha, to those persons there in the Philippines. I remember when Kobe had an earthquake, Mr. President. We had resolutions in this illustrious body. We opened our arms to these people -- come to Hawaii to recuperate while the city is being rebuilt. We even lowered our hotel rates. We asked the airlines to put more flights on line. This is the kind of Aloha that we showed the world.

"And in a situation such as this when our own people are crying for help, where is the Aloha? This situation has been here for five to six years; it did not happen just yesterday. The Governor will not even give your Committee on Housing a meeting? Mr. President, maybe we better send the Governor a copy of the Aloha Spirit law that we have dedicated and committed ourselves to in conducting our business in this great state ... Aloha that

talks about compassion; Aloha that talks about kokua and helping; Aloha that talks about humility; Aloha that talks about modesty.

"I'm asking you, Mr. President, to assist our committees for that meeting with the Governor and request that it comes in a timely manner. And I'm hoping that June 15th was not selected because we are no longer in session. Mr. President, it bothers me that I have these kinds of thoughts, these kinds of mana'o.

"And with that, Mr. President, I'd like to thank again all of the committees that have been working very hard on these kinds of issues. And it's not only the homeless. We have the same situation with our chairwoman in Ways and Means who has to deal with welfare and other pressing issues. And I'm thinking to myself that if the Governor can't even accommodate a committee chairman's request for a meeting, we're definitely in a sad state of affairs.

"Thank you, Mr. President."

Senator Fernandes Salling, rising on a point of personal privilege, then said:

"Mr. President, I too wish to rise on a point of personal privilege.

"Although I am not a member of the Housing Committee, I have been listening and watching with great interest what has been happening here with respect to Makua. I do believe that those Senators who spoke on behalf of those residents would also go to bat and have gone to bat for all of the homeless people in this state when that has been brought to their attention. We have to acknowledge that the statistics show that the Hawaiians are at the lower end of the spectrum in terms of money to survive in their own state. And so if it appears that we seem a bit more emotional about their plight, it's because of that and they need that extra help because they just don't have the money.

"I'd like to add my plea, along with those of the previous speakers, to the Governor to please set up a meeting as soon as possible, before the session ends, to take a look at the issue of what are we going to do; where are we going to place these people. That's the issue. It's not just allowing them to live there until the 15th of June, but it's something more permanent.

"And many of us here forget because we get so caught up with bills before our committees and we believe this is what is more important. And I do it myself -- I'm guilty of it also. The really important things that are happening is exactly what we see at Makua, with people, with children. Let's not lose sight of that because we want to move these bills and we have deadlines to meet. What's more important is for the Legislature working with the administration to address those problems to do with the people. Thank you."

Senator Anderson rose to speak on a point of personal privilege and said:

"Mr. President, I stand on a point of personal privilege. I'd like to have all of the comments put in the Journal as my own. (The Chair so ordered.)

"What I'm really happy about is that it's finally dawned on everyone that it's better to have dialogue so each and every one of us understands how the other feels and where they're coming from, rather than all of you in that room fighting amongst yourselves and we don't know exactly how you feel or how we can help. It does take a bill and that's what's not being adhered to is that there

was a bill to help. But the only way each and every one of you is going to help is by understanding how the other one feels and why they feel that way; and how you can become involved. And I think it's important because it adds numbers, and numbers is what this game is all about.

"So I'm very pleased to see people standing up and not saying, I can't say anything because that person is of the same party or that person happens to be the chair. It's an issue that affects all of us. And it may not affect a person as far as you can see, but that person may be married or have a cousin, or whatever, that lives in that district or is part-Hawaiian, or is involved.

"So, for that reason, Mr. President, I'm glad to see that we're all at least discussing and having dialogue that is so badly needed in this Senate.

"Thank you very much."

Senator Matsuura rose again on a point of personal privilege to state:

"Mr. President, I also rise on a point of personal privilege.

"Of all the committees that I have chaired in my years here at the Legislature, chairing the Human Services Committee has been the roughest. There are so many needs out there; it's hard to explain. I don't know of any person who knows what a disadvantaged or the poor goes through than Ah Quon McElrath. That person not only represents the heart and soul of the people who are poor, but she has the knowledge of what these people's lives are about. She has that ohana spirit to encompass them and try and extend the helping hand. Yes, I get shellacking from her, but she is one person that no matter what she says to me, I listen, because she is speaking from the heart. Ah Quon had the ear of Governor Burns. Governor Burns was perhaps the champion of taking care of the poor.

"The other champion was Senator Mamoru Yamasaki. Ah Quon and Mamoru had a very close tie. Senator Yamasaki always took care of the poor first. He was like that.

"I can't say that we're irresponsible because we are in a financial strait. I wish there were monies. I wish we could really take care of the poor and be responsible, but I know that the chair of Ways and Means is doing everything possible to make sure that we provide some safety net for some of these unfortunate people.

"This is only the tip of an iceberg. Those of you who really want to learn about the programs in Human Services should chair that committee to understand what the poor people go through. I commend the people who are speaking on this issue because, truly, some of these poor people really have no alternative. I don't know what the solution is. That's what's frustrating me. I have no solution. I told you about the restaurant people. That's just the tip of the iceberg. Maybe we could have done something more. If all our patronage jobs were put out to the people on welfare, we could have taken care of maybe 50 or 60 people -- at least put them on a wage; give them a chance. I put one of my patronage to a welfare recipient. She is working perfectly.

"I don't know what the solution is. If you have solutions to some of these problems that we face today, please let me know. I'm willing to try anything.

"Thank you very much."

Senator Holt then added:

"Just on a closing point relating to the earlier issue of Makua.

"It's pretty ironic that the chair of Housing, Senator Bunda, whom the Governor expects to support his major reform of consolidating all the housing functions in the state under one housing agency, cannot even return the Housing chair's phone call. Thank you."

Senator Grauly rose on a point of personal privilege and said:

"Mr. President, may I just rise on a point of personal privilege?

"Mr. President, I don't want to detract from the well-stated and deeply felt concerns expressed by my colleagues on the issue at hand. I did want to respond to the Senator from Kohala who asked how much the Governor brought to the Philippines for the hurricane victims there. He brought a check for \$270,000, of which \$240,000 came from the Weinberg Foundation and the other monies came from private businesses in our state. But I was there when he presented the check and I just wanted to, for the sake of the information that's been requested of me, provide that information.

"Thank you."

Senator Baker rose on a point of personal privilege and stated:

"Mr. President, I'd like to rise on a point of personal privilege.

"Mr. President, after seeing this morning's Advertiser editorial entitled, "High-three", I feel compelled to rise to set the record straight. The Senate has been unfairly and unjustly maligned. The editorial writer criticizes legislators, in general, for their so-called arrogance at continuing the pension-padding, and then criticizes the Senate, in particular, for the so-called 'feeble "high-five" entry.'

"Mr. President, I'm not thin-skinned, nor are any of my colleagues, and we certainly don't mind being criticized if it's deserved. However, I must admonish the Advertiser editorial writer to get the facts straight! The Senate took the initiative this session to eliminate the legislative 'high-three' retirement benefit early in the session, Mr. President. On February 1st, the tenth legislative day of our session, to be exact, the Senate passed on third reading a bill to eliminate such a benefit. It was then transmitted to the House for their consideration, and it was the House that amended it to become a 'high-five' idea. It was not the Senate that attempted to monkey-around with it. The Senate did, in fact, pass a measure to eliminate the 'high three.'

"Once again, Mr. President, I think it's important that when reporting items, coming from this body or elsewhere, that our papers manage to get the facts straight.

"Thank you, Mr. President."

Senator Baker rose in support of the measure as follows:

"Mr. President, I rise to speak in support of this measure.

"Mr. President, it seems very unusual that we would need a bill to accomplish the purpose of this measure. This bill would ensure that non-patient spouses may stay with their patient spouses at their Kalaupapa homes and not have to go top-side or leave Kalaupapa when their patient spouse is absent from the settlement for treatment or other business. Unfortunately, a measure very similar to this one was passed by both houses last year, only to be vetoed erroneously by the Governor.

"For a very small number of patients that still call Kalaupapa home, a measure like this is very important. And I ask all of my colleagues to continue to support the patients there, by passing this measure.

"Thank you, Mr. President."

Senator Anderson rose on a point of personal privilege and stated:

"Mr. President, I rise on a point of personal privilege.

"Mr. President, I want you to look at the Advertiser for Tuesday. It has, 'State runs short on jobless pay'. I think what bothers me more than anything else is that last year we had workers' comp, unemployment, automobile insurance ... we went over the gamut looking at reforms and we asked the state, Where do you stand on these particular items? Are you going to be able to meet your needs, because, indeed, we are all in trouble -- private enterprise and the state. The state didn't seem to think they had a problem at that time, and yet in the Advertiser it says:

'State Labor Director Lorraine Akiba told lawmakers yesterday that her department has already exceeded, by \$2 million, its annual allotment from the Legislature for unemployment benefits for state workers.

'To cover its costs, the department had to take money out of the trust fund into which private employers pay.'

And we pay into that fund for our employees.

"I think what bothers me more is when we stand on this floor and we're trying to help the economy and we say, let's look at horse racing which will help; let's look at shipboard gaming. And they say, what kind of message are we sending to our youth. And yet, the next statement says, 'Which law do we choose to break? We're going to violate that. Now what kind of message does that send out to our children -- that it's all right to either break this law or that law. I don't think that's a very fair way to look at it -- when we try to help the economy, we have to look at our children.

"Also, it bothers me that we've been getting letters from different unions and they're asking us not to hear the workers' compensation bill; that they don't need it at this time. Last year, they realized that we were all in trouble; that workers and businesses together had to solve problems. This year they act like there's no problem at all -- we have lots of money; we don't have to take care of this. If they would start looking at the number of businesses that are going out of business, they would realize that they're going to have to look at every law that we have that will help our economy.

"I ask you, ladies and gentlemen and my fellow colleagues, look at what we're doing. I don't think that it's fair to say that we have to set an example for our children and yet we break the very laws that we make.

"Thank you very much."

RE-REFERRAL OF SENATE RESOLUTION

The Chair re-referred the following Senate resolution that was offered:

Senate Resolution Referred to:

No. 230 Committee on Judiciary

Senator Anderson rose on a point of personal privilege as follows:

"Mr. President, I stand on a point of personal privilege.

"Mr. President, it's not very often that I apologize for things that I have said, but I would like to apologize to the chairman of the Transportation and Government Affairs Committee, and the committee, for some, I guess, emotional remarks that I made yesterday. I don't apologize because I was fighting for what I believed in as far as jobs and the economy, but I should not have let myself get emotionally involved against a particular company. So for that, I thank you very much for your patience that you had with me yesterday, and I do apologize for that.

"Thank you so much."

Senator Fukunaga, chair of the Committee on Communications and Public Utilities, requested a waiver of the 72-hour Notice of a Public Hearing on S.C.R. No. 208 and S.R. No. 161.

Senator Fukunaga explained:

"Mr. President, these resolutions were previously scheduled for decision-making yesterday afternoon but we ran a little overtime on our original time, so we would like to hear them this afternoon and conduct decision-making."

The Chair granted the waiver.

Senator Ige, chairman of the Committee on Higher Education, Culture, and Arts, also requested a waiver of the required hours of Notice of a Public Hearing on S.C.R. No. 172 and S.R. No. 136.

Senator Ige explained:

"Mr. President, this deals with requesting the Board of Regents to consider development of an education and research center at Hawaii Natural Energy Laboratory. We did have a hearing and decision-making on Wednesday but we received some late testimony, so we would like to reconsider action this afternoon."

The Chair granted the waiver.

Senator Bunda rose on a point of personal privilege and stated:

"Mr. President, I rise on a point of personal privilege.

"Mr. President, I'd like to provide you and this body with an update on the Makua Beach situation. As most of you have read, the Governor finally met with Senator Solomon and myself. Mr. President, the Governor, however, still intends to evict the people at Makua by June 15th. However, I can report that it is our understanding that the Governor has committed to assembling a task force to work with the residents of Makua prior to the eviction date.

"Mr. President, it is also our understanding that this task force will bring together the different agencies and community agencies to find solutions which the Makua residents face. I've asked for specific plans on the task force to be given to this body and myself. The provider groups will be going out to Makua next week to look at the immediate needs, such as water, toilets, trash pick-up and telephone, and I understand that these things will be taken care of.

"But, Mr. President, based on this commitment, we are holding the Governor to his word. We have decided to defer on passing a resolution because we all know that the Senate's resolution would not really have an effect on the eviction date, which is pretty imminent, on June 15th. I'd like to say that we realize that by not passing out this resolution, the residents of Makua may feel somewhat betrayed by the system that they came to for help. But I'd like to reassure them that their efforts are really not in vain; that we are still working towards a win-win situation; and in hearing the reso, it did something. We were listening to the people and they were talking about how the eviction would have an impact on the children. So the Governor learned about that, and that's the reason why he thought twice about it and he moved the eviction date from April 15th to June 15th.

"But at this point, Mr. President, I'd like to state that only the Governor can take action to resolve the situation, and the residents of Makua have our word that we will be

holding the Governor to his word to insure that he really walks the talk.

"Thank you, Mr. President."

Senator Holt also rose on a point of personal privilege and said:

"Mr. President, I rise on a point of personal privilege.

"Mr. President, on behalf of you, Senator Ikeda and the rest of this body, I'd like to extend our appreciation to the Governor for his prompt response to the letter sent him regarding auto insurance reform. Since receipt of the Governor's letter, your Committees on Consumer Protection and Ways and Means have been working late hours to address his biggest concern -- developing a reform proposal that will result in a significant rate reduction of 25 to 35 percent -- guaranteed.

"Mr. President, as I publicly stated earlier, we had crunched the numbers to achieve a rate reduction of 25 to 35 percent that could be actuarially supported. I am pleased to report, Mr. President, that we have developed a reform measure that will accomplish this and, in addition, provide more benefits to the consumer. Your committees are working on detailed language for a draft proposal to be available for the committee, this body and the general public on Monday. And we have scheduled a hearing on this proposal for Tuesday, April 2, at 6:30 p.m.

"Mr. President, we strongly believe that our plan is actuarially sound and addresses the Governor's key concerns. Further, Mr. President, the Senate's proposal will provide assurance that there will be no cost shift to employers. The Insurance Commissioner can implement a 25 to 35 percent rate reduction by October 1, 1996. And Pat Cabalse of Kau and others like Senator Levin who live in rural areas and drive 'rural' vehicles can purchase auto insurance for just over \$30 a month; be covered for 99 percent of all accidents, and be able to sue for intentional criminal conduct and if they are catastrophically injured.

"Mr. President, I look forward to Tuesday's hearing. I remain firmly committed to work with the Governor and the House to produce an auto reform measure this session. Thank you."

At 12:07 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12:08 o'clock p.m.

Senator Solomon rose on a point of personal privilege and said:

"Mr. President, I rise on a point of personal privilege.

"Mr. President, last week the Star-Bulletin reported that the Governor has accused Dan Mollway, executive director of the State Ethics Commission, of making improper public comments in a letter to the paper regarding the proposed appointment of Joe Blanco, the Governor's executive assistant, to the Board of Regents of the University. Clearly, Mr. Mollway's comments were not improper. What was improper were the statements of the Star-Bulletin editor Diane Chang, who wrote that the State Ethics Commission had cleared the Blanco appointment of an ethical conflict. This quite simply was a misstatement of fact. The Ethics Commission has nothing to do with the Blanco appointment. The Ethics Commission has jurisdiction under Chapter 84 over the enforcement and administration of the Code of Ethics adopted by the Constitutional Convention. That Code of Ethics, as it is concerned with conflicts of interest, deals only with business and financial conflicts.

"Mr. Mollway's letter to the Star-Bulletin was an attempt to correct Ms. Chang's misstatement. Although the mischief maker here is Ms. Chang, the Governor's reaction to the very reasonable letter of Mr. Mollway was highly unfortunate.

"Public objection to the Blanco appointment does not derive from any ethical consideration, but from differing philosophies of government. Those persons who value a university insulated from public tampering will naturally be concerned with the prospect of the Governor's executive assistant serving on the University's governing board.

"And, Mr. President, as a follow-up I did include and give to each Senator a letter that was written to the Governor that was transmitted to his office from the Honolulu Star-Bulletin.

"Thank you."

Senator Kawamoto also rose on a point of personal privilege and said:

"Mr. President, I rise on a point of personal privilege.

ORDER OF THE DAY

MATTER DEFERRED FROM TUESDAY, APRIL 2, 1996

THIRD READING

H.B. No. 3331:

On motion by Senator Kanno, seconded by Senator Taniguchi and carried, H.B. No. 3331, entitled: "A BILL FOR AN ACT RELATING TO AGRICULTURE," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

At 11:57 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12:04 o'clock p.m.

Senator Ikeda, chair of the Committee on Ways and Means, requested a waiver of the 48-hour Notice of a Public Hearing on the following House bills: H.B. No. 3421, H.B. No. 3602, H.B. No. 3603 and H.B. No. 3153; and the Chair granted the waiver.

At 12:07 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12:11 o'clock p.m.

Senator Ikeda, for the committee on Ways and Means, again requested a waiver of the required hours of Notice of a Public Hearing on S.C.R. No. 16, and the Chair granted the waiver.

Senator Holt rose on a point of personal privilege and said:

"Mr. President, I rise on a point of personal privilege.

"Mr. President, last night your joint Committees on Consumer Protection and Ways and Means spent several hours listening to testimony on H.B. No. 2286, H.D. 1, S.D. 1, proposed, and then deferred decision-making on the bill until tomorrow at 2:00 p.m. because Ways and Means had at least 50 bills or so to have decision-making on, and we could have some time to refine language to address a couple of issues that came up relating to the Senate's auto insurance reform proposal.

"Mr. President, I was very surprised to find that the Advertiser covered our hearing and still managed to publish an article that wants the consumers of this state to believe that the Senate bill is stuck in potholes: 'Senate no-fault reform bill runs into potholes' on concerns that were raised at the hearing. Mr. President, the only potholes I know of are those manufactured by supporters of the status quo who want to keep our auto insurance premiums the second highest in the nation. These pothole manufacturers do not want reform; they do not want savings; they do not want more for less, and certainly do not want the consumers to know the facts.

"Mr. President, when this body could not decide on a preferred site for a convention center several years ago, there was no mention of potholes, despite the fact that we had no position on the issue. Perhaps it was because the manufacturers of potholes really wanted the convention center and were willing to say nothing and let us move the process forward, even though we were in the biggest pothole that ever existed in this body. And thanks to Senator Ikeda, Senator Aki, Senator McCartney, and others in this body, the State will fill the pothole on Kapiolani and Atkinson with an attractive Hawaiian style convention center that will take this economy into the 21st century.

"Mr. President, I'm not an attorney; I'm not tied to any insurance company; I am not a postal worker from Mililani heading the good drivers' coalition. Mr. President, I am a Senator from Kalihi; I'm a Hawaiian; I'm a single parent with the custody of three boys -- I'm a proud member of this fine institution.

"Mr. President, I know there will be many more potholes manufactured as we work toward auto insurance reform this session. I only hope, Mr. President, that the manufacturers of these potholes do not have their shovels and leave those shovels in the path of a better society for their children and ours too.

"Thank you, Mr. President."

ADJOURNMENT

At 12:14 o'clock p.m., on motion by Senator Ihara, seconded by Senator Liu and carried, the Senate adjourned until 11:30 o'clock a.m., Thursday, April 4, 1996.

At 9:48 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 9:49 o'clock a.m.

The motion was put by the Chair and carried.

Senator Grafty moved that H.B. No. 3347, having been read throughout, pass Third Reading, seconded by Senator McCartney.

Senator Grafty then offered an amendment (Floor Amendment No. 1 - See EXHIBIT "A") to H.B. No. 3347.

Senator Grafty moved that Floor Amendment No. 1 be adopted, seconded by Senator McCartney.

Senator Anderson rose and stated:

"Mr. President, I'd like to speak on this particular amendment to the bill.

"I'm going to vote for the bill, but I have some reservations concerning the method that we're using. I presently sit on both Consumer Protection and Judiciary. I've been following the newspapers; I've gone to my meetings. In this particular meeting, what bothers me is that it's okay for the majority party, the Democrats, to make up their mind in a closed room and make amendments to a bill that I know nothing about. However, when our chairman from Consumer Protection called a meeting, the people who had nothing in front of

them -- Senator Ige and Senator Ihara -- objected because they were not informed any more than I was. But I am a Republican and that's okay.

"I think, procedurally, you folks have the audacity to say that you are a reformed group and that it's okay for you to break rules, amend bills the way that you want to. I went to my committee hearings; it was a licensing bill. It was a correct bill for that committee. I sent, on April 2nd, a letter to every member of the Judiciary. I had spoken to the chairman the night before. I said we killed a constitutional amendment, a Senate constitutional amendment, which three of us opposed. The House sends over a constitutional amendment, which was held, and the chairman said he could take the heat. But let me tell you, he can take the heat but the heat was on the other Senators, every one of you here. And what bothers me is that I sent an amendment that some of us had worked on because we were concerned that the public had a right to vote for a constitutional amendment. No matter how they voted, they had that right.

"My staff hunted for a referendum and there was a referendum -- an advisory referendum -- that we could have used, which is not binding. And it was last used in 1939, but that was turned down by the majority party. The reformed group did not think that the people had a right to vote. All of a sudden, they say now we see that there is some, some point that the Senator in the ... I cannot even think of his committee now, I'm so angry! But it bothers me that all of a sudden it's more for control, and if I were the Speaker of the House that had agreed to the process, I would turn down this bill. The governor would have a chance to turn down the bill. I personally would rather go with the bill that we passed out of committee. That was proper.

"To go behind closed doors and then turn around and say, 'Here's a bill; here is a way to do this. The Consumer Protection chairman was wrong; I should have this.' Then do not let Consumer Protection, Mr. President, have control over any licensing bill; give it to Judiciary. But if the procedure is that he was supposed to have it, then it was a fair bill.

"And I have fought procedures ... let me tell you ... since I was in the House for 14 years and I didn't take a leadership role this year because of the procedures that I believed in, Mr. President. And I went to you for those procedures because I believed it was wrong, so I took nothing. I said, 'Forget it; I don't even want any part of the leadership. I would just be a Senator.' And that's procedures, ladies and gentlemen.

"So I'm going to vote for this bill, but I wanted to let you know how I felt about reform that you talk about and the people's rights, when all it is, really, is game playing and power for certain individuals.

"Thank you very much for listening."

Senator Matsuura rose in support and said:

"Mr. President, I'll be voting 'yes' on this amendment.

"One thing I have learned from my mother while growing up in Waiialua is that when you're guilty, you admit your guilt and apologize. I am part of the Democratic Party and we do owe an apology. No use trying to lie about it or make excuses. I'm just saying that yes, maybe we were improper and we apologize to the Republican Party.

"However, this amendment is good and I urge all the members to vote for it. Thank you."

Senator Matsunaga rose in support and stated:

"Mr. President, I rise in support of this measure.

"I will be voting 'yes' on this measure, but very reluctantly, Mr. President. I say very reluctantly because: (1) this bill is very unconstitutional; and (2) this bill will not do what it is intended to do with this amendment. It provides no additional compelling State interest.

"But I will be voting 'yes': (1) because it is defective -- the effective date is 3001, so it must come back to this body before it becomes law; and (2) so that I can participate in the Conference Committee.

"Thank you, Mr. President."

Senator Kanno, rising in support, then said:

"Mr. President, I would just like to note that I will be voting 'yes' but with reservations."

Senator Holt rose in support of the amendment and stated:

"Mr. President, I'm speaking in support of the amendment.

"This bill basically reaffirms what the Legislature had previously decided in stating that 'The legislature finds that the relationship of marriage between a man and a woman and culminating in the formation of a family, is a traditional social institution which forms the fundamental basis of our society.' It merely reaffirms that traditional relationship.

"Thank you."

Senator Iwase rose in support as follows:

"Mr. President, I rise to speak in support of the amendment.

"Mr. President, this amendment adds a simple and eloquent provision to our marriage statutes and will bring this issue, hopefully, to an end -- a mission we embarked upon in 1994 when we passed Act 217 which stated that the Legislature supported traditional marriage. We asked the court two years ago to defer decision-making so that the Legislature could act.

"When the original bill, which was discussed somewhat in the press over the last couple of days, was surfaced in the Consumer Protection Committee, the Legislature was faced with the prospect that a domestic partnership bill was dead and a constitutional amendment was dead. In short, after two years of asking the courts to wait, the Legislature acted without any results, which left us in a very difficult position, and which left us with no option to effectuate what we said we wanted to have happen two years ago -- that compelling reasons exist for traditional marriage; and secondly, that the court intruded and violated the separation of powers doctrine. This amendment attempts to address that.

"I want to thank the chairman of the Judiciary Committee for moving this amendment forward. But I want to especially commend the chairman of the Consumer Protection Committee, the Senator from Alewa Heights, for his leadership, for his courage, and for his willingness to move forward with a bill which does what we said we wanted to do two years ago -- in short, he lived up to the words we spoke two years ago.

"Thank you, Mr. President."

Senator Gaulty rose to speak in support of the amendment and said:

"Mr. President, I rise to speak in support of the amendment.

"Mr. President, as the previous speakers have indicated, this bill is consistent with what we passed two years ago in Act 217, clarifying that marriage is for a man and a woman. This amendment will also make very clear the Senate position on the issue of same-sex marriages, which is that marriage is for a man and a woman, but as we passed in S.B. 3113, we recognize that there are other committed long-term relationships that deserve legal recognition and deserve benefits under the law. There is nothing at all inconsistent with the previous positions that this Senate has taken by enacting this amendment and I would urge all my colleagues to vote 'aye.' Thank you."

Senator McCartney rose in support as follows:

"Mr. President, I'd like to rise and speak in support of the amendment.

"First of all, I'd like to thank the chairman of the Consumer Protection Committee and the chairman of the Judiciary Committee for working very hard, for dialoguing, discussing, and ultimately coming out to do what's right for the people and to do what's right for this institution, and we can move forward.

"Mr. President, what this bill does is simply reinstate what most of Hawaii thought was the obvious before the Supreme Court ruled a few years ago. And this bill just clarifies what all of us thought marriage as an institution was in Hawaii.

"And now, Mr. President, as we vote on this bill and we move forward, it is my hope, because there are so many other issues facing this State -- our economy, jobs, where we're moving in the future, Hawaiian sovereignty, education -- that we move forward and face those important issues in the last days of our session so that we can get the people's work done. This is an important bill, but there are many other important bills and issues that we need to work on and I, for one, am happy that we have resolved this and that we are taking a vote on this issue on the floor today.

"Thank you."

Senator Baker then stated:

"Mr. President, I voted with reservations in 1994 and I will be doing so again. I have some prepared remarks I would like to have inserted into the Journal. Thank you."

The Chair having so ordered, Senator Baker's remarks read as follows:

"Mr. President, I rise to speak in favor of this bill, but with deep reservations.

"Mr. President, I continue to be bothered by the process in which this issue has made its way to the floor today. Yes, we have made the necessary nips and tucks to give the appearance that the subject of the amendment before us was brought here on legitimate terms. We have corrected the committee jurisdictional concern. That notwithstanding, Mr. President, I feel compelled to remind my colleagues that this body has rules under which it operates. These rules were adopted by this body to ensure the greatest possible public access to the legislative process and to preserve the integrity of the

work that we do. It is my sincere hope that this body, by its future actions, will continue to uphold the spirit of open government. If there is to be merit to an idea, let it be developed and advanced through the regular procedures we have in place.

"The procedural concerns aside, I find some of the language in this bill personally offensive as it begs the procreation rationale for marriage. As I see it, this bill goes on to discount many of the marriages that exist today. Mr. President, I am married, but have no children. I take exception to the suggestion by this bill that my marriage, and those of many others, is somewhat less of a marriage because we choose not to have children.

"Families take all sorts of forms. They should all be celebrated. However, this bill seems to harken back to the age of Ozzie and Harriet which is long since gone. I find its narrow focus as disturbing as I did in 1994 when a similar measure was before the Senate.

"Finally, for those who are under the mistaken belief that this bill is a prelude to a constitutional amendment ... be assured that it is not. The Senate's position remains one of support for a domestic partnership statute and I look forward to continuing that discussion in the near future.

"Mr. President, we need to be vigilant about discrimination at every turn. Over the last thirty years, the State of Hawai'i has set an example for the rest of the nation in rising above various forms of discrimination in our society. This is indeed a proud distinction for our State. But it concerns me, Mr. President, that our State may be shifting away from this tradition of fairness, open-mindedness and acceptance, and lapsing into a mindset of irrational fear and close-mindedness. I urge my colleagues to proceed with extreme caution as we continue discussions on this very volatile and sensitive matter.

"Thank you, Mr. President."

Senator Liu rose to speak in favor of the amendment as follows:

"Mr. President, I rise to speak in favor of this amendment.

"I do believe that this amendment, should it be adopted in our Hawaii Revised Statutes, will, in fact, further support an argument that there is a compelling State reason for us to only legalize marriage between members of the opposite sex. Furthermore, unfortunately, despite the number of pressing problems which face our State, this issue will still be with us. I think the public is well educated, at this point in time, that unfortunately our Supreme Court still appears to be intent on over-stepping its bounds and that for us to truly deal with this issue, we still must consider a constitutional amendment before the end of this session, and as we all know, there are still mechanisms for that to happen.

"Thank you, Mr. President."

Senator Taniguchi rose in support and stated:

"Mr. President, I also rise to speak in favor of the amendment.

"I, too, would like to congratulate the chairman of the Consumer Protection Committee for his work on this measure. In his discussions with me and other members yesterday, he stated that this is an attempt also to help support the Senate's position on domestic partnerships.

And so, to that extent, I'm happy that we're proceeding with this measure.

"Thank you."

Senator Levin rose in support as follows:

"Mr. President, I rise to speak in favor of the measure with reservations; the same reservations as I expressed two years ago concerning H.B. No. 2312, S.D. 1. Thank you."

Senator Anderson rose again and stated:

"Mr. President, I rise to speak on this amendment once again, if I may, not really as a rebuttal but a question, if I may?"

"I have read over the amendment and I read over the original bill that we did the other night, and I can't find too much difference. In fact, it looks pretty close to exactly the same thing. The thing that bothers me is that I said I knew nothing about it but I did receive a copy the same night as everybody else did. And I think Senator Iwase made it very clear that evening that this bill had nothing to do with a constitutional amendment. It had nothing to do with a domestic partnership, and it had nothing to do with any economic benefits. What it did is simply state that in order to get a license for marriage it had to be between a man and a woman, and anyone that was voting against it that night was voting against those principles. And I don't think it's changed.

"So those that have reservations and those that were opposed that night still makes me wonder why do we bother doing this. If you really don't believe in what we're doing, then do the constitutional amendment and give the people a chance to vote the way they have asked us to vote because it is a people's choice, I think, and not 76 people or 25 Senators.

"Thank you very much."

Senator Holt rose again and stated:

"Mr. President, I'd just like to thank the chairman of Judiciary for taking time from his family gathering on Sunday to come down to the Capitol to spend a few hours with me to talk about this issue and learn about why the Consumer Protection Committee felt it was important to move forward on this issue. Thank you."

The motion to adopt the amendment was put by the Chair and carried.

Senator Kanno rose to speak against the measure as follows:

"Mr. President, I rise to speak in opposition to this measure.

"Mr. President, this measure was previously considered in a Senate bill form and for similar reasons that I previously opposed that measure, I oppose this one.

"At a hearing a few weeks ago, the Legislature received testimony from Mr. Claudio Suyat who has a number of years of experience working within our system. And part of his testimony was that if the difficulty in dealing with troubled kids is that our school administrators and teachers are taken out of the schools and classrooms and are required to go through the court system and that part of the difficulty is the time that it takes, then rather than releasing 16-year-olds out into the streets, maybe we should focus our attention on addressing the real problem -- which is the requirement that takes vice-principals and principals out of schools and into the courtrooms over students' cases. I think that there are a matter of changes to this bill that can be sought that will lessen the impacts.

"Once again, I want to restate my concern that we're giving up on these kids, that we are going to have 16- to 18-year-olds out on the streets with nothing to do. The

bill doesn't provide any requirement of any sort that the child is in an alternative program; rather, these youths will be out on the street, at home watching television, and possibly getting into trouble.

"I urge my colleagues to vote 'no.' Thank you."

Senator Iwase rose in support of the measure and stated:

"Mr. President, I rise to speak in support of the bill with reservations.

"As the previous speaker noted, we had a Senate bill. I would like to incorporate my comments with respect to that bill as applied to this bill. I have talked to the chairman of the Education Committee and I am hopeful that he will be able to work out some sort of agreement in conference to deal with those students who are deemed to be problem students.

"Thank you, Mr. President."

The motion was then put by the Chair and carried, H.B. No. 2515, H.D. 1, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO COMPULSORY SCHOOL ATTENDANCE," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, none. Excused, 1 (Kawamoto).

At 10:10 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 10:22 o'clock a.m.

H.B. No. 3968, H.D. 2, S.D. 1:

Senator Kanno moved that H.B. No. 3968, H.D. 2, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Ikeda.

Senator Matsuura rose in support of the measure as follows:

"Mr. President, I'll be voting 'aye' on this bill, but I do want to make a few comments.

"This bill reminds me of a previous legislation that both houses passed many years ago and that was a state-funded workmen's comp bill. I got involved in that primarily because at that time the insurance industry wanted to get out of the workmen's comp business. One of the alternatives was to form a state-funded workmen's comp program. This program has some similarities to the state-funded workmen's comp bill, except that in this instance, there are no state funds involved. It is restricted to the assigned risk population. The state-funded program was like any other private insurance company. There was an initial request of \$20 million to get the state-funded program started, but that money was never appropriated.

"The reason why I am interested in pushing for the state-funded insurance and in this bill is that this is one way in which we as legislators who form policies will get data that would be accurate. We will find out what it is that make the rates of workmen's comp in Hawaii the highest in the United States and do something about it.

"The reason why I am speaking is that in this bill, we're restricting the market only to the assigned risk people and we are asking nothing from the State. The probability of something like this succeeding is poor. When we passed the state-funded workman's comp bill, they said we will fail because we will not have the required capitalization to sustain the program. It is true, initially when you collect premiums you're not going to pay out benefits right away so you are going to have some money, but I still remember the insurance industry saying, you're going to fail.

"But the reason why I supported the state funded program was for one reason only, which was that the president of the California state fund told me, 'Senator, just do it because when you folks start the state-funded workmen's comp, you will learn a lot about the insurance industry. You will know what is causing those high premiums, and then you can react to the abuses that have been taking place and are still taking place today.'

"This bill that we're passing now has similarities to the state-funded program. We may go bankrupt on this, but we will learn what it is that makes our workmen's comp premium so high in the United States. I hope after learning what makes it so high that we will have the common sense to address those problems and stop those abuses that are now taking place.

"Thank you."

The motion was then put by the Chair and carried, H.B. No. 3968, H.D. 2, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO WORKERS' COMPENSATION INSURANCE," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

H.B. No. 3512, H.D. 2, S.D. 1:

Senator Kanno moved that H.B. No. 3512, H.D. 2, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Ikeda.

Senator Liu rose in support of the measure and said:

"Mr. President, I rise to speak in favor of this bill.

"Just simply stated -- is this all there is? Thank you, Mr. President."

Senator Anderson then stated:

"Mr. President, would you have Senator Liu's remarks placed in the Journal as though they were my own. Thank you."

The motion was then put by the Chair and carried, H.B. No. 3512, H.D. 2, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO WORKERS' COMPENSATION," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Stand. Com. Rep. No. 2638 (H.B. No. 388, H.D. 1, S.D. 2):

Senator Tam moved that Stand. Com. Rep. No. 2638 be adopted and H.B. No. 388, H.D. 1, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Aki.

Senator Liu rose in opposition as follows:

"Mr. President, I rise to speak against this measure.

"Mr. President, I do so very reluctantly because I do understand that the intent behind that section of the bill dealing with ambient air quality and pollution control out in Campbell Industrial Park is certainly well-founded. However, I am particularly concerned about the language that is used, especially in the enabling section, the last section, Section 12 of the bill, which I believe gives very little flexibility to the State, to the Department of Health, in administering the law. It states that there will be a change and that a change will be required by any operation out there in the Industrial Park that has equipment, or has been in operation prior to 1972; and if it can be found through a study which is going to be conducted over the next year and a half, that that operator is 'a cause or contributor to any degradation of the area's ambient air quality below acceptable departmental standards.' You don't have to be a major cause; you don't have to be a major contributor; you don't have to be found to be a part of the degradation as set by any kind of standard. It merely states that if the department finds that you are a contributor in any amount or involved in the degradation of ambient air quality, in any amount, then ladies and gentlemen, you will have to incur the cost of using the best available technology as of July 1997, to revamp your whole system, your whole operation.

"I think that's unfair. I think there should have been, and hopefully if this goes to conference, I hope that there will be moves to include some acceptable standards that if the study finds certain operators above those standards or have broken those standards, in those instances, fine, some changes would be required. Under the sweeping language in this bill before us today, there is no flexibility allowed to the department or the State.

"Thank you, Mr. President."

Senator Tam rose in support of the measure as follows:

"Mr. President, I wish to speak in favor of H.B. No. 388, H.D. 1, S.D. 1, a bill, 'Relating to Environmental Quality.'

"The emphasis of this bill is to 'provide for a safe "breathing environment."' Breathing is the essence of human existence.

"This bill directs the Department of Health to continue its air quality studies now going on at Campbell Industrial Park to consider the impact of peak emissions from covered sources on the ambient air quality and risks to public health, and to determine whether emissions from facilities with emission equipment that is grandfathered from current Clean Air Act guidelines ("grandfathered sources") are causing or contributing to any air quality or health problems. By the way, fellow colleagues and for the public, the measuring standards to be utilized by Department of Health are the federal standards.

"Secondly, this bill, subject to a departmental finding that grandfathered sources are causing or contributing to air quality or health problems, amends air pollution control laws to establish a ten-year pilot program to

improve the environmental quality of the Campbell Industrial Park area by requiring the reduction of air pollutant emissions from grandfathered sources, and requiring grandfathered sources to assess the need for the upgrade of their emission control equipment to meet 1997 best achievable control technology standards at the time of permit renewal, to be phased in over a ten-year period and allow the sources to amortize the costs of compliance over that period of time.

"In regards to my colleague's statement, keep in mind that the best available technology is the language currently in the law as it is today, in fact, in the federal law, for that matter.

"This bill is a result of businesses' reluctance to voluntarily eliminate dangerous emissions into the Campbell Park community, which not only consists of businesses, but residences, single-family homes. I recall, as an example, Barbers Point Elementary School. Students were rushed to the hospital and in that case at that time, Chevron USA denied all claims. Even until today, they are not willing to pay for those emergency hospital bills unless there is a release, a total release of any liability from those students, faculty members, and the school.

"Businesses are now willing to discuss their willingness to review and update its emission equipment. In the case of Chevron USA, I received a call and they are willing to talk now. In fact, the former regional manager was called back to the mainland home office of Chevron and put in the 'ice box,' so to speak. He is considered lucky not to have lost his job. Now, the new regional manager says that they are willing to take care of any emission problems according to what the needs are.

"Thank you very much."

Senator Chumbley rose in support and said:

"Mr. President, could you order the clerk to mark my 'aye' vote with reservations. I am concerned that this is an extreme hardship on businesses and will create a tremendous burden on the consumers. I vote 'aye, with reservations' in the hope that the chairman will allow me to participate in the conference committee.

"Thank you."

The Chair so ordered.

Senator Levin then said:

"Mr. President, I share the concerns voiced by Senator Chumbley and Senator Liu, and ask that their remarks be inserted as though they were Senator Anderson's." (Laughter.)

Senator Solomon rose and stated:

"Mr. President, I would just like to note that my vote is also with reservation.

"And I'd like to ask the chairman a question."

The President posed the question to the chairman of the Committee on Ecology and Environmental Protection and Senator Tam, having answered in the affirmative, Senator Solomon inquired:

"Does this have any impact on agricultural burning on the neighbor islands?"

Senator Tam answered:

"No, it doesn't. It's only the Campbell Industrial Park area."

Senator Ige then stated:

"Mr. President, I would just like to note my reservations on this measure as well."

The Chair so ordered.

Senator Anderson rose and said:

"Mr. President, I would like to have Senator Levin's remarks also included as my own."

The Chair so ordered.

The motion was then put by the Chair and carried, Stand. Com. Rep. No. 2638 was adopted and H.B. No. 388, H.D. 1, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO ENVIRONMENTAL QUALITY," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

"The bill is extremely important to my district and many others' districts. The problem is that there is an amendment to the bill that has impact that will really hurt people on all the neighbor islands. We want this bill to pass and we want it to move forward, but we do hope that in conference the amendment that was inserted can be corrected.

"Thank you."

Senator Ikeda rose in support of the measure as follows:

"Mr. President, I rise to speak in favor of H.B. No. 3341, H.D. 2, S.D. 2. This bill will provide for the implementation of an after-the-fact payroll system and make the State system more in line with that of the private sector while providing much needed infusion of funds into the state general fund.

"Earlier in this session, your Committee brought to light several instances of salary overpayments that resulted from the State calculating its payroll on a before-the-fact basis. The administration had noted the systemic flaws in the system and noted that the bill before you would rectify this end. To this point I am in concurrence with the administration's proposal. I felt at the time, however, that this was a matter of management rights rather than legislation, and that the implementation of a payroll lag should be more appropriately a point of negotiation between employer and employee.

"Seeing that the implementation would require statutory revision, however, it was the aim of your Committee to mitigate the impact of a payroll lag so that employees would not suffer undue hardship. Your Committee wanted to make sure that rents and mortgages were paid,

and that families weren't left hanging at the end of the month.

"To this end, your Committee has amended the bill to ensure that the implementation of the payroll lag is over two years instead of one. This would cut in half the number of lagged days, days where pay is deferred, for state employees. Discussions with the Department of Accounting and General Services have indicated that this would allow for implementation while still realizing \$47 million to the state general fund for next year.

"Mr. President, this bill makes sound fiscal and business sense. I urge you to vote in favor of H.B. No. 3341.

"Thank you."

The motion was then put by the Chair and carried, Stand. Com. Rep. No. 2694 was adopted and H.B. No. 3341, H.D. 2, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO SALARY PAY PERIODS OF PUBLIC OFFICERS AND EMPLOYEES," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Noes, 2 (Anderson, Liu).

At 10:42 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 10:53 o'clock a.m.

Stand. Com. Rep. No. 2699 (H.B. No. 3711, S.D. 2):

Senator Ikeda moved that Stand. Com. Rep. No. 2699 be adopted and H.B. No. 3711, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Baker.

Senator Ikeda requested a ruling from the Chair as follows:

"Mr. President, I would like to request a conflict ruling. I do work for an insurance company. They will be paying more taxes if this bill passes, however."

The Chair ruled that Senator Ikeda was not in conflict.

Senator Tam also requested a ruling as follows:

"I too work for an insurance company."

The Chair also ruled that Senator Tam was not in conflict.

Senator Bunda then requested a ruling of the Chair and the Chair ruled that Senator Bunda was not in conflict.

The motion was then put by the Chair and carried, Stand. Com. Rep. No. 2699 was adopted and H.B. No. 3711, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO INSURANCE," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Stand. Com. Rep. No. 2703 (H.B. No. 3421, H.D. 2, S.D. 2):

On motion by Senator Ikeda, seconded by Senator Baker and carried, Stand. Com. Rep. No. 2703 was adopted and H.B. No. 3421, H.D. 2, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO CABLE COMMUNICATIONS," having been read throughout,

passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Stand. Com. Rep. No. 2704 (H.B. No. 3964, H.D. 1, S.D. 2):

By unanimous consent, action on Stand. Com. Rep. No. 2704 and H.B. No. 3964, H.D. 1, S.D. 2, was deferred to the end of the calendar.

Senator Ikeda moved that Stand. Com. Rep. No. 2715 be adopted and H.B. No. 1559, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Baker.

Senator Liu rose in support of the measure as follows:

"Mr. President, I rise to speak in favor of this bill.

"Mr. President, the portion of the bill that I'm speaking in favor of, and hopefully I'm not trampling on the grounds of our friends from the neighbor island of Maui, is that section which encourages and, I think, provides statutory support for the negotiations and discussions going on between members of the Hana community and the Department of Health in regards to that hospital there. I think what they are showing is leadership on the issue of privatization. I believe that with the right energy they will be able to show that it can be done, and that, in fact, this body and the body across the way, as well as the administration, can and should be much more pro-active in this area.

"Thank you, Mr. President."

The motion was then put by the Chair and carried, Stand. Com. Rep. No. 2715 was adopted and H.B. No. 1559, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO HEALTH CARE," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Stand. Com. Rep. No. 2719 (H.B. No. 1716, H.D. 1, S.D. 1):

Senator Ikeda moved that Stand. Com. Rep. No. 2719 be adopted and H.B. No. 1716, H.D. 1, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Baker.

Senator Ikeda rose in support of the measure and stated:

"Mr. President, I rise to speak in favor of this bill. You can call it relating to UH parking or relating to Senator Iwase's heart condition -- whichever you prefer. (Laughter.)

"Of all the issues this session, I would never have guessed that the start time for the University of Hawaii would put me in the center of a firestorm. The TAT ... maybe, the DOE ... probably, but something as innocuous as the UH and traffic? Who'd have figured.

"Seriously, the University of Hawaii has sustained one of the greatest shares of budget cuts from the administration, and your Committee felt it incumbent to develop mechanisms by which the University could do more than survive. It is every intention of your Committee to see the University develop into a premier

institution and lead the Pacific Rim in higher education. While your Committee has found the drive and commitment on the part of faculty, staff, and administrators, the University has lacked the fiscal wherewithal to do anything more than muddle through this fiscal crisis.

"This bill attempts to assist the University in finding resources to help it regain its forward momentum. Through the provisions of this bill, the University will have the ability to assess its special and revolving funds and to use these assessments to offset operating costs. This power of assessment should carry the University until fiscal year 1998 when the Legislature will revisit the University's general fund base and provide it a solid funding foundation from which to grow.

"To my colleagues from Mililani and Waipahu ... yes Randy, there is a West Oahu. This bill is the vehicle by which the development of UH West Oahu can proceed. The measure approves the land exchange with the Campbell Estate and creates the University of West Oahu Special fund and exempts it from legislative controls. This measure will ensure that the development of the University goes forward, but it also makes sure that the project is not initiated prematurely. By setting back the timeline, the University should have the time, and the funds, to do it right.

"Alas, finally the parking and traffic provisions. Mr. President, it was the intent of your Committee to highlight some of the traffic problems encountered because of the University, and to open the dialogue towards alleviating some of these problems. This is what is known as position in the legislative process, and should the protestations of my colleagues rise too high, I will gladly defer to their wishes.

"Traffic aside, I hope that the members of the Senate can join me in voting for this bill. Thank you."

At 10:58 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 10:59 o'clock a.m.

Senator Taniguchi rose in support and stated:

"Mr. President, I will be voting 'aye' on this bill with reservations. I continue to have certain concerns about the funding mechanism for a West Oahu Campus at this time. And I was hoping it was an April Fool's joke, but I guess not.

"Thank you."

Senator Ige added his support as follows:

"Mr. President, I rise to speak in support of this measure.

"I just wanted to thank the chairman of Ways and Means. It's clear that with this measure and the provisions of the budget, the University will definitely be better off, that the next fiscal year will actually be a year where they can begin to move forward again. And I do have some reservations concerning the starting time, but I'm thinking that a reasonable compromise will be achieved on those issues.

"Thank you."

Senator Matsuura, rising in support, then stated:

"Mr. President, I rise to speak in support of the bill.

"I read the newspaper editorial about the starting time in trying to improve on the traffic congestion, and I looked at the chairman of Higher Ed. He's one of the top brains in this body; someday he's going to work out a system whereby all the movie theaters around the State are going to have the lectures telecommunicated to these theaters in the hope that people who live in Waianae can go to the theater in Waianae, those in Hawaii Kai can go to the theaters in Hawaii Kai. I've already talked to Consolidated and they are interested because they don't use the theaters in the morning. Most of the theaters have parking. All we have to do is to telecommunicate those lectures to those movie theaters. The theaters can make money by selling hot dogs, popcorn, or whatever. I'm relying on the chairman of the Higher Education with his brains to make this a reality. Lectures can originate from Harvard, M.I.T., Cal Tech, etc.

"Thank you very much."

Senator Kawamoto rose to speak in favor of the bill and said:

"Mr. President, I rise in support of this bill.

"Mr. President, I'd like to thank the chairmen of the three committees -- Higher Ed, Ways and Means, and Planning (as I was writing it down, I realized that they are the three I's of these committees -- Iwase, Ige and Ikeda) for their efforts in bringing this bill to this floor. And I'd like to thank my colleagues in these committees for looking at this as a plan in which to help the State of Hawaii provide a capital improvement that's going to help the growing population out in the leeward side. A special thanks to Senator Ikeda for insisting that they add five more years for the start time, giving us a little breathing room and I thank all my colleagues, and I urge my colleagues to vote 'aye' on this bill.

"Thank you."

Senator Solomon rose in support as follows:

"Mr. President, I'll be voting in support.

"Just for the record, Mr. President, when this issue came up in the Ways and Means Committee, the neighbor island Senators expressed concerns on the impact of the financial situation of the State and the development of this new campus would have on the campuses of the neighbor islands. And Mr. President, a concern was also expressed on the fact that we did not receive any kind of communication in support of the West Oahu project from the Board of Regents and we felt that it was incumbent for the Board of Regents to actively get involved. As you know, we have given the BOR tremendous flexibility through legislation and they should more or less determine the priorities relating to campus development.

"Mr. President, the Ways and Means Committee did receive a memorandum of understanding ... I don't know if it was written but at least it was presented orally ... that the further development of the West Oahu Campus will not have any impact on the master plans or in the development of the University system on the neighbor islands. I think that should be noted.

"Thank you."

The motion was then put by the Chair and carried, Stand. Com. Rep. No. 2719 was adopted and H.B. No. 1716, H.D. 1, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE UNIVERSITY OF HAWAII," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Stand. Com. Rep. No. 2721 (H.B. No. 3583, H.D. 2, S.D. 2):

On motion by Senator Ikeda, seconded by Senator Baker and carried, Stand. Com. Rep. No. 2721 was adopted and H.B. No. 3583, H.D. 2, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO THE UNIVERSITY OF HAWAII," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Stand. Com. Rep. No. 2722 (H.B. No. 3833, H.D. 1, S.D. 2):

On motion by Senator Ikeda, seconded by Senator Baker and carried, Stand. Com. Rep. No. 2722 was adopted and H.B. No. 3833, H.D. 1, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO STATE SERVICE FEES," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Stand. Com. Rep. No. 2728 (H.B. No. 2599, S.D. 2):

Senator Ikeda moved that Stand. Com. Rep. No. 2728 be adopted and H.B. No. 2599, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Baker.

Senator Anderson rose in opposition to the measure as follows:

"Mr. President, I'll be voting against this measure primarily because when it came into Judiciary, I did say or I stated at that time that OIS really had no track record and right now we're giving them all of the responsibility for the youth. I did say that they were ... with a track record that goes way back and it wasn't that great, so now we are putting all the responsibilities on them, and we're going to fund them more. And I'm not sure if that's the way we really want to go. For that reason I will be voting 'no' on this particular measure.

"Thank you."

The motion was then put by the Chair and carried, Stand. Com. Rep. No. 2728 was adopted and H.B. No. 2599, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO YOUTH," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 21. Noes, 4 (Ige, Matsuura, Anderson, Liu).

Stand. Com. Rep. No. 2734 (H.B. No. 3429, H.D. 1, S.D. 1):

By unanimous consent, Stand. Com. Rep. No. 2734 and H.B. No. 3429, H.D. 1, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO UNCLAIMED PROPERTY," were recommitted to the Committee on Ways and Means.

Stand. Com. Rep. No. 2744 (H.B. No. 3579, H.D. 2, S.D. 2):

On motion by Senator Ikeda, seconded by Senator Baker and carried, Stand. Com. Rep. No. 2744 was adopted and H.B. No. 3579, H.D. 2, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO THE ESTABLISHMENT OF A TRANSPORTATION

IMPROVEMENT REVOLVING FUND," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Stand. Com. Rep. No. 2745 (H.B. No. 3618, H.D. 2, S.D. 1):

On motion by Senator Ikeda, seconded by Senator Baker and carried, Stand. Com. Rep. No. 2745 was adopted and H.B. No. 3618, H.D. 2, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO ADMINISTRATIVE RULES," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, 1 (Liu).

H.B. No. 582, H.D. 1, S.D. 1:

Senator Ikeda moved that H.B. No. 582, H.D. 1, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Baker.

Senator Ikeda rose in support of the measure as follows:

"Mr. President, I rise to speak in favor of this bill. This measure would cap the county share of the transient accommodation tax at \$70 million, and fund the Hawaii Visitors Bureau solely through TAT revenue.

"Mr. President, this bill would provide a dedicated funding source for the HVB that is tied directly to the industry it serves. Currently, the State is devoting \$23 million in general funds for tourism promotion, and this is money that could be used in much better ways. Your Committee feels that with the passage of this bill, there will be sufficient revenues to preserve the remaining tax credits.

"The counties have testified against this bill, stating that the loss in revenue will force them to raise property taxes. Mr. President, on this point I raise two issues. First, each of the counties is currently funding capital improvement projects with cash rather than through bonds. By rededicating some of the funding sources for capital improvement projects, the counties could go a long way in offsetting any lost TAT revenue.

"Second, the threat of taxes stirs public emotion, but have the counties seriously revisited their spending priorities? Before the Senate is a budget of unprecedented downsizing and reduction. Through restructuring, creativity, and plain old belt tightening, the Senate has managed to reduce its expenses by 5 percent across the board. Considering the multiple fixed costs the State must pay, this is a budget of extreme austerity.

"One of the realizations that the State has made is that many of the entitlements taken for granted in the past must end now. General assistance payments have been capped at a year. The Department of Education no longer operates with a blank check. And it is only fitting that the counties realize that unlimited revenues through the TAT must come to a close.

"Mr. President, as we go into conference with the House, we must remember the premises on which our financial plan is based -- responsibilities, progress, and priorities. This bill is an integral component of our philosophy and I urge your support. Thank you."

Senator Anderson rose to speak in favor of the bill and said:

"Mr. President, I'll be voting for the bill, but I do have some reservations.

"I think that the counties do have a problem right now, but what bothers me more than anything else is that with all the bills that I've seen and everything that we've been discussing so far, there's nothing on any economic development. We're not helping the economy one bit. And yet, when we had some bills on gambling, everybody looked at it as gambling rather than as an economic development and that would have been horse racing. I remember very, very clearly that Mayor Jeremy Harris came out and said, 'We have always supported lotteries.' And when I ran I said I would be here to testify in favor of enabling legislation for the counties. The counties need funding, but they've got to find a means of funding. And that's why it bothers me that they were never here to testify.

"Another point that I have is that years ago I put in a bill for a room tax. And then I voted against it two years later when the majority party put it through because the counties did not get a portion at that time that was going to take care of scenic areas and areas that were going to be utilized by the tourists. And that bothered me, so after putting in a bill for it, I voted against the bill, because we forgot that.

"The counties have never done, I think, the job that they should in trying to make sure that they have an economic balance. And for that reason I do have reservations about taking money away from them but I believe that they themselves are going to have to start looking at funding their programs and not saying we're not going to raise property taxes; we're not going to do this; and only come here for grants and aids.

"So I do thank the chairman of WAM for looking at the needs of the State because we do need the money also. I think the counties are going to have to start fighting very, very hard for what they have to be responsible for.

"Thank you very much."

Senator Kanno then added:

"Mr. President, I'll be voting 'aye' with reservations."

The motion was then put by the Chair and carried, H.B. No. 582, H.D. 1, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO TOURISM," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, 1 (Liu).

H.B. No. 3300, S.D. 1:

On motion by Senator Ikeda, seconded by Senator Baker and carried, H.B. No. 3300, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE OFFICE OF HAWAIIAN AFFAIRS BUDGET," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

H.B. No. 3382, H.D. 1, S.D. 1:

Senator Ikeda moved that H.B. No. 3382, H.D. 1, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Baker.

Senator Liu rose in support of the measure and stated:

"Mr. President, I rise to speak in favor of this bill but with very serious reservations.

"Mr. President, this bill does a number of things, most directly declaring excesses in various funds and transferring millions, hundreds of millions of dollars into the general fund. Now in the macro-perspective of what we are doing we'll see that in our state budget the Senate, on paper, I think looks a lot better than what the administration and what the House put forward. However, part of the plan includes the shifting of some of these funds which are not identified and some of the large segments of funds which are identified. I hope that every member of this body, before the end of the session, understands the implications of what goes on here. You may agree or you may disagree with those implications, but they are major. Specifically, in the area of housing, essentially what is done by transferring these funds from the rental assistance revolving fund, from the dwelling unit revolving fund, an unspecified amount from the homes revolving fund, and a million dollars from the rental housing trust fund, what we are doing by this, ladies and gentlemen, is eliminating any kind of involvement of the State in housing construction, period, not just for purchase, but for rental housing also.

"Now, I am an advocate of the change in focus in regards to removing the State from construction of homes for the for-purchase market. But until we make some fundamental changes in regards to land use classification and zoning, and other kinds of fundamental changes to our laws regarding land use, rental housing is going to be very, very difficult for the private sector to move into by itself. Partnerships with the private sector are important. And the funds which are identified here as excess to be moved into the general fund would appear, would appear, to remove that impetus which could result in rental housing for which a need still exists in various communities throughout the State.

"Now we can hope that with these funds, once in the general fund, that there will still be a priority, and that the possibility to redirect those funds for rental housing will be there, but it's going to take a tremendous change on the part of the administration to have that happen. And it's going to take even more leadership than they have now in that area to make that happen once those funds get removed from the revolving funds which are right here identified.

"Now there wasn't a lot of discussion on this in committee. There was very little discussion on this in the subject matter area committee, but I'll just chalk that up for now to the rush of time in the legislative process. So hopefully, Mr. President, on this issue in regards to housing and on others, very close scrutiny as to what the policy implications are will be forthcoming.

"Thank you."

Senator Ikeda rose in support of the measure as follows:

"Mr. President, I rise to speak in favor of this bill.

"As you know, the session isn't over. Things will change as we progress, but specifically to address the concerns expressed by the previous speaker regarding the funds that he mentioned, these amounts were identified by the department as unencumbered cash and that's why they're in this bill.

"Thank you."

Senator Liu responded:

"Mr. President, not to prolong the discussion, but although those funds may have been identified as unencumbered in the legal sense in regards to the plans for both HFDC and HHA projected out into the next fiscal year and beyond, I do believe that they did have plans for those funds and have been in discussion with various nonprofit as well as for-profit developers, as well as the counties, for use of those funds for various projects.

"Thank you, Mr. President."

The motion was then put by the Chair and carried, H.B. No. 3382, H.D. 1, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO STATE FINANCES," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

H.B. No. 3650, H.D. 1, S.D. 1:

On motion by Senator Ikeda, seconded by Senator Baker and carried, H.B. No. 3650, H.D. 1, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE JUDICIARY," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

H.B. No. 2800, H.D. 1, S.D. 1:

Senator Ikeda moved that H.B. No. 2800, H.D. 1, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Baker.

Senator Ikeda rose in support of the measure and stated:

"Mr. President, I rise to speak in support of H.B. No. 2800, H.D. 1, S.D. 1, the State Budget.

"In October of last year, the Council on Revenues had revised its estimates downward for the fourth time. The State faced a projected deficit of over \$143 million. The administration in December had presented a budget to the legislature that provided for a \$60 million ending balance for next year, but the balance projected for fiscal year 1998 was a dismal \$1.5 million. Revenues tipped up slightly in March, but still the overall fiscal picture was lackluster.

"We are now at the point where the Senate will pass its budget to the House for conference. Mr. President, your Committee is putting forward a budget that reduces spending by over \$175 million in general funds and eliminating over 1400 permanent positions. This is a budget of unprecedented austerity, yet it is a budget that recognizes our obligations to the citizens of Hawaii. It is a budget of responsibility, of priorities, and of beginnings.

"This budget recognizes our responsibility to control State spending. Through making programs, such as those for loans in DBED, self sufficient, we are saving taxpayer money while retaining working capital for small business. Likewise, changing the revenue stream for the HVB will allow us to retain tax credits for the poor and middle class. Realistic contributions to employee benefit systems will also save the State millions annually. And by taking long-term vacancies off the books, your Committee has identified over \$4 million in savings. These are a few of the steps your Committee has taken to bring the size of government back in line.

"But while we must manage costs, we must not abandon our priorities. Mr. President, education, for all of Hawaii, has continued to be the highest priority for the Senate.

"For the Department of Education, your Committee has provided over \$6.5 million for the workload increases associated with classroom instruction. Funds have been provided to shore up the A+ after-school program so that our children will have safe and supervised after-school care.

"Your Committee has also provided \$4.4 million for the requirements of the Felix-Cayetano consent decree that will help the State move towards a 'seamless' system of care for mental health services. Finally, funds for school repair and maintenance, some of which has disappeared within the DOE budget, have been restored to a full \$8,000 per school.

"This budget also provides for greater oversight of the resources for the classroom. Through the creation of a new program ID, EDN 101, school-level personnel will be budgeted separately from the discretionary moneys for the schools. While these people serve the school level, the State and District control the funding and assignment of these individuals. By placing them in a separate program ID, the legislature, the governor, and most importantly, the public, will begin to see how much money goes directly to the schools.

"Education does not stop with high school, and your Committee felt it imperative to continue its support for the University of Hawaii. Your Committee has negated the need for the Governor to restrict an additional \$14 million from the UH budget. Through House Bill 1716 your Committee has provided new ways for the University to effectively use its existing funds, while maintaining the promises of Act 161, which will restore the general fund base to the University. With greater resources and flexibility, the UH can continue its march towards the leadership of higher education for the Pacific Rim.

"Finally, Mr. President, this is a budget of beginnings. While we have conducted an extensive review of the State's programs and functions, our work is by no means finished. We must continue to restructure government in a meaningful way. Necessary programs must be maintained and nurtured while those obsolete functions must be set aside for the future. Earlier this year, your Committee put forward Senate Bill 2552, and has started a serious dialog with the administration with the aim of effectively consolidating and downsizing government. While the timetable has been pushed back by the administration, the process moves forward, and next year we can continue to make the government more responsive and responsible to the people.

"Mr. President, I would like to thank all of my colleagues who have shown me so much support in this very difficult year. I believe that your Committee has put forward a fiscal package that the Senate can be proud of, and a budget that is the centerpiece of that package. I urge you all to join in support of our efforts and to vote in favor of this bill

"Thank you."

Senator Matsuura rose in support of the measure and said:

"Mr. President, I'm going to vote 'aye' and I'll be speaking in favor of this bill but with reservations.

"One of the criticisms that I got was that we spent too much time on same-sex marriage, and we didn't devote much time to economic development.

"One reason why I am speaking with reservation on the budget is that I want to point out one item in the CIP projects. It's called Piihonua Reservoir and Transmission Lines, Hawaii. Two sessions ago the water transmission line for Pohakuloa was in the budget. It was appropriated by both bodies. It was in the budget and the monies were ready to be released. The amount was \$1.5 million. At that time the budget director contacted me and told me that they were going to release the money, and the paperwork was complete for the release of the money. The project at that time was a culmination of years of work to make a dream come true. We completed the preliminary engineering study. We had done the cost-benefit ratio that was required by the federal government. We had done the EIS's. You name it; we completed it. There was only one segment of the engineering work to be completed before the project was to be turned over to the federal government for the construction cost. The State had done its share. The last budget item was \$1.5 million to complete the last segment of what was required of the state. Unfortunately, the monies was deleted from the budget at the last minute to fund the Piihonua Reservoir and Transmission Line. The Pohakuloa project would have taken care of Hawaii's economic development because of its tremendous economic impact.

"As you know, in Hilo we get 10 to 15 billion gallons of daily rainfall ... I repeat, daily average rainfall. We also have geothermal energy to move the water. We have vast lands that can grow any of the temperate crops. The only thing lacking was water. That was why the Pohakuloa water transmission project is so important.

"We have also found out since then that we can break dormancy for flowering temperate fruit crops, such as cherries, at the root level by using the cold water. Once the water from Hilo comes over the Saddle, there will be a head and one can bring the fresh water into the deep ocean water and get it cold. The pressure of the ocean water will pump the water back to sea level. We can use the water to irrigate the temperate fruit crops. We can control the flowering. Once we can control flowering, we can market any fruit throughout the year. When cherries get out of production in Oregon, we can flower our cherry trees so that we will have cherries all over the United States all year round.

"Coffee is another good example. This is another project that we're working on. One of the major problems in the production of coffee is the harvesting cost. The berries mature at different times. If we can control the flowering of the temperate fruit crop, let's try and see if we can flower the coffee plant all at the same time. If we can flower all the coffee trees at one time, the berries are going to mature at the same time, so instead of picking the berries once a week, you just go and strip the branch of all the mature beans. That will cut the cost of harvesting tremendously.

"Now, the reason for saying all of these things is to inform you of the missed economic development projects. These would have brought the State of Hawaii into economic prominence. We can grow any of the temperate fruit crops in Hawaii. Hawaii has all the natural resources to get a major fruit industry started in Hawaii.

"At that time when that money was removed from the budget, that \$1.5 million was used to fund a project called Piihonua Reservoir and Transmission Line. That was where the money went. All the years of work and money that we had spent went right down the drain. When I saw the budget document and saw the Piihonua project

again with the same amount yesterday, I checked. All the work that we had done and monies that had been spent, I figured the Piipihoua project was a priority item. I found out they haven't spent one penny of it. And now I see this project back in the books for \$1.1. We have lost perhaps the momentum for a great project. These are the things that would have made Hawaii grow.

"Perhaps the Pohakuloa Water Transmission Line Project was terminated because of my role in the Senate Investigation Committee. Whatever the reason, it was a mistake. That's the reason why I am voting 'aye' but with reservation because I just want to point out and put in the Journal, for historical purposes, what happened. Some day somebody will read this.

"Thank you."

Senator Liu rose in support of the measure as follows:

"Mr. President, I rise to speak in favor of this bill.

"I do have some caution, however, as we move forward to the end of the session. My caution is that as the chairperson of Ways and Means indicated, we do need to go much further in re-prioritizing and restructuring than we have, even up until this point. And perhaps we even have to move faster than what has been implied.

"Looking at some major trends around the world and in our own nation, we see that even under the best scenario the national growth rate will maybe be around 2 percent, depending on what happens in the money centers it may even be as low as 1 percent growth for the year. Japan is staggering under its current problem in trying to decide on how to deal with the \$350 billion bailout of its bank situation, and another \$458 billion debt problem in regards to its railway system, which will last over at least the next year-and-a-half to two years. Its unemployment, at least by Japan's standards, are at an all-time high. And they are led by a government which clearly, at least by current polls, does not have the confidence that it would need to be bold and creative.

"All this does not portend well, Mr. President, for our major industry in this State, and it shows. The latest numbers for our leading economic indicators for January were down. Now you know the economists who have built those models always have tried to find in the last few months the silver lining in the dark clouds. And I give them credit for it. The bottom line is the numbers don't look good. We also see in our own unemployment figures in the private sector -- manufacturing, service industries, etc. outside of government -- that our job base is eroding. And again as has been pointed out by the majority leader and by others, we still currently get national reports that put us at the bottom of growth so they recommend that people don't invest in our state. Those are the obstacles we have to deal with.

"Now, the plus side is that the budget as it exists right now, the Senate version, I have to say is better than what the House put forward and what the administration put forward. Our numbers indicate that for operating and investment we do, in fact, spend less than what we appropriated last year. Amazingly, the Governor and the House spent more. We're in the negative; they're in the positive. This goes the same for our operating budget. This goes the same for our CIP budget. This goes the same for our general fund budget. We are in the negative, and when they are in the negative, we have larger negatives than they do, which is needed. We face tough times. But before we pat ourselves too much on the back, let's understand that even our negatives are not terribly big when we look at what the baseline is -- the appropriations act from last year.

"For operating and investment together, yes we're in the negative, but by only 1.2 percent. For operating alone, yes we do better than the Governor and the House, but our percentage is a negative of only .95 percent. For CIP, yes we're in the negative, but by only 5.3 percent. And for general funds, yes we're in the negative, but by only 6.7 percent.

"Now, Mr. President, if you spoke to any CFO of any large corporation, by national standards or by even our local standards, those percentages that I read off are not terribly impressive. Now, they too have fixed costs. We have fixed costs. But when the private sector is talking about the need to down-size and take care of expenses, they start out with 10, 15, and 20 percent reductions. We are not near that yet, Mr. President, so I would hope that this session and next session and the session after that, the Senate can continue to provide leadership, but even stronger leadership than it has currently done, so that we can be stronger for the future.

"Thank you, Mr. President."

The motion was then put by the Chair and carried, H.B. No. 2800, H.D. 1, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE BUDGET," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

At 11:37 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:45 o'clock a.m.

MATTER DEFERRED FROM EARLIER ON THE CALENDAR

Stand. Com. Rep. No. 2704 (H.B. No. 3964, H.D. 1, S.D. 2):

Senator Fukunaga moved that Stand. Com. Rep. No. 2704 be received and placed on file, seconded by Senator Chumbley.

Senator Anderson rose and stated:

"Mr. President, I'd like to vote for the bill, but I'd like to find out if I can ask the chairman a question, please."

At 11:46 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:47 o'clock a.m.

The motion was put by the Chair and carried.

Senator Fukunaga moved that H.B. No. 3964, H.D. 1, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Chumbley.

Senator Fukunaga then offered an amendment (Floor Amendment No. 2 - See EXHIBIT "B") to H.B. No. 3964, H.D. 1, S.D. 2.

Senator Fukunaga rose and said:

"At this time, Mr. President, by way of clarification, these provisions were inadvertently dropped out of a bill which was otherwise adopted in the Ways and Means Committee and we are proposing to reinsert these provisions."

Senator Fukunaga then moved that Floor Amendment No. 2 be adopted, seconded by Senator Chumbley.

Senator Anderson rose and said:

"I'm going to vote for the amendment and the whole bit, but it says, 'Notice of all invitations for bids' will be faxed, computerized, and the whole bit. When we had discussions this year, we were told that we were losing a lot of business through the military because of the upgraded types of communications. We have people who might live in Texas who could bid on jobs or on materials from the military, drop ship them here, and though they'd have no business here, no ground personnel or anything, they could drop ship and pay no taxes. I wanted to know, through this means, would it then mean that not only the military, but locally, statewide, we would be opening up the type of communications where our local people could be losing more business? Because I am trying to work with the military to see if we could discontinue that type of communication."

Senator Fukunaga responded:

"Certainly, I will be happy to respond to that question. With respect to the federal government's new procurement standards, all federal agencies are required to conduct their procurement electronically, and I believe the Department of Defense for the State of Hawaii has already shifted over to this new form of electronic procurement bid communications.

"With respect to the State, however, all this provision does is to say that the State may allow for bid and procurement information to be provided electronically. It does not mandate that this be done, and certainly the State Procurement Office is working very closely with local bidders and vendors to insure that everyone has adequate preparation and training before moving forward.

"I might also add that the State Procurement Office has conducted a very successful pilot program in which they have begun to put bid information on line electronically and have received very favorable responses from a number of Hawaii businesses. They are very satisfied with the way in which the State is proceeding to work with them in helping to train them and moving forward."

Senator Anderson further inquired:

"I'm asking if this is on an internet type of communication, could not a person on the Mainland (because of the Internet they can pick up our news, for instance, because they are on E-Mail or the Internet or whatever they call it) could they possibly do this with our procurement laws -- go in where they could bid on our local jobs?"

Senator Fukunaga answered:

"Certainly, that would always be possible. However, I believe that one of the things that the State Procurement Office is currently doing is trying to make sure that the bid requirements will also provide for special conditions to be met. And where local businesses may have the edge over out-of-state businesses in providing direct services, those businesses would be in a far stronger, competitive position."

Senator Anderson then said:

"Thank you very much."

The motion to adopt the amendment was put by the Chair and carried.

By unanimous consent, H.B. No. 3964, H.D. 1, S.D. 3, entitled: "A BILL FOR AN ACT RELATING TO STATE GOVERNMENT," was placed on the calendar for Third Reading on Thursday, April 11, 1996.

RE-REFERRAL OF SENATE RESOLUTION

The Chair re-referred the following Senate resolution that was offered:

Senate
Resolution Referred to:

No. 201 Jointly to the Committee on
Transportation and Government Affairs and the
Committee on Ways and Means

Senator Tam rose on a point of personal privilege and said:

"Mr. President, I wish to speak on the basis of personal privilege.

"I wish to comment on this Saturday, April 6, 1996, Honolulu Advertiser and Honolulu Star-Bulletin articles in reference to the proposed legislative changes to the 'high three' pension system. The articles stated that I may be considering retirement if the pension system changes. The articles are in error. What happened is, I was asked by a reporter to comment about Representative Calvin Say's serious consideration to retire. My response was that, if I put myself in his shoes and since I have two children of my own, I can understand his consideration to retire, especially since he has two jobs. I am not considering retiring.

"Constituents have called me to continue my position as their State Senator. I consider the stories humorous. My wife and I read the articles and both agree that I am too young to retire, especially since I do not have any white hair yet.

"I come from a family of workaholics. My father at my age, 43, had four jobs and currently I have five jobs. But now at 67 he has only two jobs. Thank you."

Senator Fukunaga, chair of the Committee on Communications and Public Utilities, requested a waiver of the 72-hour Notice of a Public Hearing on S.C.R. No. 286 and S.R. No. 227, and the Chair granted the waiver.

At 11:56 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:58 o'clock a.m.

Senator Anderson rose on a point of personal privilege and stated:

"Mr. President, may I stand on a point of personal privilege?"

"Mr. President, when I started this morning I may have sounded like I was against legislative reform and those who looked for reform, and that's not quite true. In fact, I consider them very much my friends. I've supported them and liked them for many years. But I would hope that you folks would look at something in the majority party which binds our hands. I've listened to each of the chairmen say that we're going to have meetings. No chairman is allowed to even pass an amendment unless that amendment has a majority or a quorum. And that's why our bills stack up, because the chairman cannot pass those amendments without a quorum. Consequently, it has hampered our legislative packaging of good legislation, I believe.

"Years back, I used to be able to get a committee report and yes there were times that people say that the chairman was able to bend arms, but either he or she at least gave me something to read and I could vote up or down or with reservation. I was never afraid or ashamed to vote in public. I'm not now, but I am ashamed when I walk into a room and there's two of us and there's 23 of you, but even you have a hard time making all of your committees. But when you can walk into a room and have a bunch of bills stacked up and you don't even know what the amendments are, and vote 'aye,' I have a problem with that.

"And you may all laugh at me because I WR. In fact there's a joke that Anderson has more reservations than John Dominis. (Laughter.) But let me tell you, I do this in all sincerity. I think that the chairmen are doing a good job, and I don't want to see them hampered, and I don't think that we can go ahead and legislate any type of ethics. We've tried. I've watched the campaign spending, and all of a sudden a person gets on television and says 'Oh, I didn't know; this never happened in my campaign.' There's no way we can go ahead and legislate ethics. It's within us.

"So, I do wish that you would look at that in the future and maybe we can somehow or another change some of the reforms that we have and find another means for us to be very up forward with the public. Thank you very much."

ADJOURNMENT

At 12:07 o'clock p.m., on motion by Senator Ihara, seconded by Senator Liu and carried, the Senate adjourned until 11:30 o'clock a.m., Wednesday, April 10, 1996.

Senate Resolution	Referred to:
No. 208	Committee on Ways and Means

Senator Kanno, chairman of the Committee on Agriculture, Labor and Employment, requested a waiver of the 72-hour Notice of a Public Hearing on S.C.R. No. 36 and S.R. No. 25, and the Chair granted the waiver.

Senator Grauly, chairman of the Committee on Judiciary, requested a waiver of the 48-hour Notice of a Public Hearing on S.C.R. No. 111, S.C.R. No. 285, S.R. No. 83 and S.R. No. 226, and the Chair granted the waiver.

Senator Solomon rose on a point of personal privilege as follows:

"Mr. President, an announcement, as well as a point of personal privilege.

"I had announced during the caucus, when we took up the Hawaiian sovereignty bill, that we would be meeting at the Kaumakapili Church this evening to bring the Hawaiian groups together to come up with a consensus. We have postponed the meeting and the reason for it is that the Office of Hawaiian Affairs, as well as, the Hawaiian Elections Council, feel they need time to consult with their members.

"The rally that you hear outside, I guess, is not in support of the Hawaiian vote. Rather than have them demonstrate at Kaumakapili Church, which I felt was inappropriate, I suggested that they come to the Capitol because this is where these kinds of activity should take place.

"So I just want to put you on notice that the different factions within the Hawaiian community, in fact, have not come to an agreement and we are hoping by April 25th, which is the deadline for the bills to go into conference, that we will have the opportunity to sit down and hammer out an agreement for all the groups to come together. I did communicate to them that the job of the legislature and the role of a legislator is to try to bring all special interest groups together. And as far as I am concerned, the Office of Hawaiian Affairs is a special interest group; Ka Lahui is a special interest group; and so are the other 200 Hawaiian organizations, or maybe there are 600 of them now that have registered as either a non-profit organization or other categories. They all represent their own perspectives. And I say again that the job of the legislature is to try to bring these groups together and see if, in fact, we can come up with a compromise solution so that they can start to move forward.

"I'm still hoping that organizations, including the Hawaiian trusts, such as the Bishop Estate, Queen Liliuokalani, Queen Emma Foundation, Lunalilo, can

participate. I've contacted all the Hawaiian trusts and asked them to participate because, if you will recall, when we first put this legislation together in 1991, the Hawaiian trusts were involved in the ideology and putting the concept together.

"So with that, Mr. President, I just would like to notify you and the rest of my colleagues, that we are still waiting for the Hawaiian groups to decide when they can come together for a meeting. We still intend to have our meeting at Kaumakapili to see if we can come up with a consensus.

"Thank you very much."

The Chair then remarked:

"The Chair thanks you, Senator Solomon, along with Senator Holt and Senator Aki for your leadership in this area."

Senator McCartney also rose on a point of personal privilege and stated:

"Mr. President, I would just like to echo that and thank the Senator from Kohala for her leadership. It's a tough issue and being on the Hawaiian Affairs Committee, being the vice chair, it's not an easy subject to deal with. Self determination is something that all of us in this state need to take a serious look at because it is going to be a subject of our times. And I was really pleased with the way the Senator from Kohala handled the situation, and the Ways and Means Committee brought the people to the table. I believe she said things that many of us couldn't have and she brought them together. And I commend you for that, for your courage and your leadership. Hopefully, at the end of conference something very good will come of it. So thank you very much."

Senator Holt added:

"Mr. President, I'd like to echo the comments made by the Senator from Kohala. She's done an excellent job in trying to bring this issue and resolve it amongst all the parties involved.

"On a point of personal privilege, Mr. President, anybody who knows football, knows that if you're coaching and trying to develop a system and you have a left-handed quarterback, you have to understand that that person writes left-handed, he eats left-handed, sleeps left-handed; he drinks left-handed, kicks left-handed, throws left-handed, and runs left-handed. And a person like Steve Young, when he wants to look good, and when I want to look good, I always roll to my left, not to my right. Thank you." (Laughter.)

Senator Holt, chairman of the Committee on Consumer Protection, then requested a waiver of the 72-hour Notice of a Public Hearing on S.C.R. No. 57, S.C.R. No. 149, S.R. No. 44 and S.R. No. 116, and the Chair granted the waiver.

THIRD READING

H.B. No. 3347, S.D. 1:

Senator Grauly moved that H.B. No. 3347, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator McCartney.

Senator Matsunaga rose to speak on the measure and stated:

"For the reasons I articulated on Tuesday, I will be voting 'aye' with reservations on this measure."

Senator Kanno added:

"Mr. President, I will be voting 'aye' with reservation."

Senator Holt rose in support of the measure and stated:

"Mr. President, I rise to speak in support of this bill.

"As you are aware, Mr. President, the issues with regard to the subject matter of this bill have been debated in the Legislature and in the public for a number of years. The major difference now, however, is the fact that the courts will essentially decide the matter for us if we adjourn without taking any action.

"I firmly believe, Mr. President, that it will be irresponsible for the entire Legislature to knowingly defer a final resolution of this or any other important public policy matter, which are properly determined by statute, to the courts. In attempting to address this issue, the House has proposed a constitutional amendment defining marriage. In contrast, the Senate has proposed enabling legislation for domestic partnerships. Both measures, however, appear to have failed to earn any support in the opposite houses of the Legislature.

"In our attempt to address this matter, Mr. President, we have lost sight of our basic responsibility to uphold and defend the intent and purpose of our existing laws regarding marriage. Very simply, Mr. President, this is precisely what the Supreme Court has asked us to do in their ruling that the state must show a compelling state interest as a basis for its laws regulating marriage. I believe that the bill before us accomplishes this. It reiterates the original intent and purpose of the law by amending Chapter 572 by adding a purpose clause.

"In addition, it would add a severability clause to Chapter 572 which would effectively sever any provision or application of any provision in this chapter if such a provision or application is found to be invalid by the courts.

"For these reasons, Mr. President, I urge my colleagues to carefully consider the bill's content and merit and join me in voting in support of this measure. Thank you."

Senator Taniguchi then added:

"Mr. President, reservations for me also."

The motion was then put by the Chair and carried, H.B. No. 3347, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO INTERPRETATION OF STATUTES," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Noes, none. Excused, 2 (Ikeda, Fukunaga).

Senator Anderson rose on a point of personal privilege as follows:

"Mr. President, I'd like to stand on a point of personal privilege or point of information. I'm not sure which.

"In this evening's paper, and it more or less has to do with the bill which we just passed, it says 'Senate kills bill to ban same-sex unions,' and it says that we double-referred it to another committee.

"Now, it's my understanding, and I want to thank the President and the two chairs, but it's my understanding that in the past, the reason we held this up is that we had a Senate bill and there was no sense in hearing the House bill or the House version. But now that it's gone to two committees, the other committee has not heard the bill. So I would think you did that so the bill would be heard. And if I'm wrong, then maybe the paper is right or maybe the paper has got the wrong information. So, I'm not sure what we're trying to do on the re-referral. Does that then mean that since the other committee had not heard it, we are going to hear that particular bill from the House or is it that we did purposely icebox the bill.

"I'm not sure whether it was on a point of personal privilege or information that I stood. Thank you very much, Mr. President."

RECONSIDERATION OF ACTION TAKEN

H.B. No. 3964, H.D. 1, S.D. 3:

Senator Baker moved that the Senate reconsider its action taken on April 9, 1996, to adopt Floor Amendment No. 2, seconded by Senator Chumbley.

Senator Baker explained as follows:

"Thank you, Mr. President. Members, when we adopted this amendment, there were technical drafting errors in the version of the bill used. In order to move the measure forward and have all the issues addressed by this bill considered in conference, we need to undo the floor amendment that we passed. May I assure my colleagues that the chair who offered the amendment is in accord with this action. I request that we proceed to reconsider our action and then move for final passage on the bill as it was originally decked.

"Thank you, Mr. President."

The motion to reconsider the action was put by the Chair and carried.

On motion by Senator Baker, seconded by senator Chumbley and carried, H.B. No. 3964, H.D. 1, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO STATE GOVERNMENT," having been read throughout, passed

Senator Matsuura rose on a point of personal privilege as follows:

"Mr. President, I rise on a point of personal privilege.

"Yesterday, when the Senator from Kohala spoke about a rally that was taking place outside I really didn't know what was happening. I didn't know what the rally was about until I went upstairs and I saw the former Senate president giving a speech. The reason was primarily that the OHA budget was being cut.

"I've been involved in drafting a lot of legislation here. Ocean leasing is an example. I can remember the discussion where the Hawaiian rights were being taken away. I said, 'No, you can't do that. Those rights are inherent and they must be retained.' Geothermal was another example; mineral rights, same thing. Twenty percent of the revenues should go to the Hawaiian people. Water code was another that I was involved in drafting. The same thing happened trying to keep the rights of the Hawaiian people intact.

"I heard about the bill that was being introduced in the House this session. It would defer payment to OHA for three years. I don't know whether it was for 3 years or 5 years. I went to the person who introduced that bill in the House. I said, 'What's the purpose? Do you want to start a revolution? If your intent is to unite the Hawaiian people, terrific! I agree with that strategy. That bill didn't make it out of the House. Instead they sent over another bill that the rally was all about yesterday.

"Mr. President, I've been here long enough and if one looks at the history of the Hawaiian people one will understand the reason for the rally. Take a look at all the Hawaiian Homes lands that they have. Just take away the infrastructure of the water distribution system and those lands would be worth nothing. They were given the worse land by congress at the time of annexation. It was wrong! Are we going to balance the budget at the expense of the Hawaiian people? I'm against it! I want this body and the whole world to know that there's at least one Japanese who's going to stand with the Hawaiians on this issue. We must honor our commitment to the Hawaiian people.

"Thank you."

Senator Solomon also rose on a point of personal privilege and said:

"Mr. President, I'm also rising on a point of personal privilege.

"I'd like to thank my fellow Senator from the Big Island for his remarks. I think that they are appropriate in terms of the struggles of the Hawaiian people and I just want to reiterate that the Senate has taken a very strong position on this matter and is against changing the basis for calculating revenues from ceded lands, so, thank you very much for your support on that."

Conf. Com. Rep. No. 52 (S.B. No. 3091, H.D. 1, C.D. 1):

By unanimous consent, action on Conf. Com. Rep. No. 52 and S.B. No. 3091, H.D. 1, C.D. 1, entitled: "A BILL FOR AN ACT PROPOSING AN AMENDMENT TO ARTICLE VII, SECTION 11, OF THE CONSTITUTION OF THE STATE OF HAWAII," was deferred until Monday, April 29, 1996.

Senator Liu rose on a point of order as follows:

"Point of order, Mr. President.

"Thank you Mr. President. I rise on a point of order because it does appear to me to be appropriate to request the presiding officer of this body to provide a ruling on a matter regarding a bill which is in possession of this body and which, according to Masons, in a more general fashion, is appropriate for such request when constitutional or statutory issues arise. The example given in Masons being a question as to say whether a bill, by law, requires three readings before passage. Similarly then, Mr. President, my question pertains to the effect of rule 51 and Article III, Section 12, of the State Constitution that provides for recall of a bill. That rule, very simply stated, is: 'Twenty days after a bill has been referred to a committee, the same may be recalled from such committee by the affirmative vote of one third of the members of the Senate.'

"But I read in the papers, Mr. President, what appears that you have taken the position, and the leadership, that the 20 days tolls upon a re-referral, an exception to what I believe is contrary to a clear and simple reading of Rule 51 and the State Constitution, that is that such recall can be made after referral to a committee, a committee, which in the case of H.B. 2366, H.D. 1, did occur back in March. Those 20 days having elapsed, Mr. President, my question, then, is whether or not Rule 51 and the State Constitution on that bill does not apply in the sense that the 20 day clock has expired or not expired. And if your ruling is that the 20 day clock begins anew on a re-referral, I would say that this essentially eviscerates the Constitutional right of recall to nothingness and should not be accepted. So I ask for a ruling from the Chair."

The Chair responded:

"Your latter assumption is correct. I have ruled that because of new findings, the Committee on Health has jurisdiction over this bill, so the matter has been re-referred to the Committee on Judiciary, jointly with the Committee on Health."

Senator Liu stated:

"Then, Mr. President, I appeal the ruling of the Chair."

Senator Anderson seconded the motion.

The Chair then said:

"It has been moved and seconded. There has been an appeal of the ruling of the Chair. At this juncture, an 'aye' vote will sustain the ruling of the Chair, a 'no' vote will not. Mr. Clerk, call the roll."

Senator Matsuura then requested a recess.

At 11:29 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12:04 o'clock p.m.

Senator Liu then stated:

"Mr. President, I speak in support of overturning the ruling of the Chair because I think the language in our rule, in our State Constitution and in subsequent Attorney General's Opinions are clear on what the language means. The Constitution talks about 20 days after a bill has been referred to a committee. Our rule talks about 20 days after a bill has been referred to a committee. In 1976, an Attorney General's Opinion to the then Honorables Blair and Cobb, indicated that, 'Because a recall of a bill is specifically provided for by the Constitution and is not merely a rule of the Legislature, we do not believe that the right to recall a bill from a committee can be nullified by other rules of procedure of the Legislature.'

"Mr. President, to support an interpretation such as has been made in this body today, would be to nullify, by rule and interpretation thereof, the right to recall the bill as put out by our State Constitution. It would provide to one individual, the presiding officer of this body who has the right of referral, the only individual who has the right of referral, the only officer of this house who has the right of referral of a bill, it places in that person, the power to negate this Constitutional provision as it relates to bills. This is an issue that goes beyond a single bill; this is an issue that goes beyond a single subject; this is an issue that goes to the very heart of openness and of integrity of the legislative process.

"I ask you, Mr. President, and my colleagues, to reconsider, to reconsider the ruling which has been taken here, and to please, to please think about what we want to stand for in terms of openness and democracy. I hope that we will move forward and not support the ruling on Rule 51. Thank you, Mr. President."

Senator Baker then rose to state:

"Mr. President, I rise to speak on this matter.

"Mr. President and colleagues, the issue before us is one of procedure. It is whether the President has the right, under our rules, to refer and re-refer bills and who then has a right to object to a re-referral. I refer my colleagues to Rule 45, Referral to Committee. It is the President, by our rules, who makes referrals and re-referrals. It is the committee chairs involved who have the right to make a complaint or ask for a reconsideration if they feel that they were aggrieved. I would note for all of my colleagues that neither chair in question has indicated any grievement.

"I would also note that an ancillary issue the minority leader attempts to raise for this floor is simply hypothetical. There is no such move on the floor. There is no proper motion. There is no proper action on which to base any other interpretation of the question before us than one of procedure. And since it is procedural and it is in keeping with Rule 45 of our Rules, I ask all of my colleagues to vote to sustain the ruling of the President.

"Thank you."

Senator Liu responded:

"Mr. President, I rise in rebuttal.

"This is more than just a procedural issue in the hypothetical. It is a proper question. We did receive a ruling from the Chair from which an appeal has been taken. We are looking at an issue of substantive

importance to not only this subject matter and this Legislature, but this body. We did look and there was a lot spoken about rules and what they meant just about a week and a half ago. I'm concerned about how certain rules were being used or not used. In here, on this issue regarding a re-referral, nary a word about how that power, I believe, has been misused by this body. It was never the intent of Rule 45. It was never the intent that that rule be used to negate the right of recall of a bill.

"Again, the ruling as has been made today by the Chair, I believe, is improper and should be overturned."

Senator Anderson rose to state:

"Mr. President, I'd like to speak against the Rule of the Senate.

"I'd just like to remind my colleagues that it may be Rule 45 that you can refer a bill, but it most certainly does not mean that you can icebox a bill on Rule 51. That's what I spoke on last week, if you will remember. I said that jokingly. What the newspapers had said was that the President and the others were iceboxing a particular bill, and that's what the measure is and that's what it was. And I jokingly said, 'I know that the chairman from the Judiciary had stated numerous times that since we had heard the Senate bill on the constitutional amendment, there was no sense in hearing the House version.' I also said that I had worked with others and we had come up with an amendment to that amendment of the Constitution, and that was not heard. So that when this body received another referral to the Committee on Health, that then meant that that committee had not heard the bill and we would most certainly hear it. Some responded, if I were you I would not hold my breath.

"Now I don't think that something as serious as we are doing right now was meant to be funny. I think that the people and the community have spoken out. I think we have given everybody ample time to read the Constitution and to read the rules, because it's nothing that's just willy nilly. It wasn't done without thought and without research. And you should have been prepared because there are a lot of Senators here who I'm sure feel the same way that we do ... that they don't like to have a bill boxed into a committee and they have no way to get around that. That's not what the Constitution was for, nor do I believe that's what our Senate Rules were for.

"So, I ask my colleagues to reconsider, because once we set a precedent like this, then any president can go ahead and icebox a bill and make sure that we have no way to call it out of committee.

"Thank you very much."

The Chair then said:

"There has been an appeal on the ruling of the Chair. A 'yes' vote or an 'aye' vote will sustain the ruling"

Senator Anderson interjected:

"Mr. President, may I ask for a roll call vote?"

Senator Holt then inquired:

"Mr. President, it is my understanding, from the Majority Leader, that this issue before us, the vote before us is on Rule 45. Is that correct?"

The President replied:

"That is correct."

Senator Liu stated:

"Mr. President, my specific request in my asking for a ruling of the Chair was on Rule 51 and you ruled on my request regarding rule 51. I believe you can check the Journal. So I would disagree and object, and if I have to, make another appeal if the ruling is that this vote is on Rule 45."

The Chair asserted:

"It is on Rule 45."

Senator Baker then said:

"Mr. President, with regard to the items before this body, the only ruling that the President could have made is on Rule 45 because there is no motion or any other substantive or procedural item, only hypotheticals, before this body at this time. Thank you, Mr. President."

Senator Liu rose and stated:

"Mr. President, I would bring your attention to ... point of order.

"I would point you to Mason, Section 61, and I would further point to Section 241, When Point of Order May Be Raised. Section 1 of Section 241 clearly indicates from its discussion there that items that are within the control of this body are subject to points of order and questions while not only to procedure of rules, but they also relate to violation of Constitutional statutes.

"So again, Mr. President, not wanting to prolong this unnecessarily, but I will if I have to, I would ask that the question be restated so that it incorporates Rule 51."

The Chair responded:

"Your motion is out of order. We are voting on Rule 45. Mr. Clerk, call the Roll."

Senator Liu interjected:

"Mr. President Point of order."

The President stated:

"You are out of order, Senator Liu."

The motion was then put by the Chair and, Roll Call Vote having been requested, denied on the following showing of Ayes and Noes:

Ayes, 21. Noes, none. Excused, 4 (Aki, Anderson, Iwase, Liu).

The President then stated:

"The ruling of the Chair has been sustained."

Senator Liu rose again on a point of order and said:

"Mr. President, point of order.

"If we could not have a fair fight on the question that I did pose, then at this point, Mr. President, I do move to recall H.B. 2366, H.D. 1, from committee, based on Rule 51."

Senator Anderson seconded the motion.

The Chair denied the motion as follows:

"Your motion is out of order. There are not enough votes to sustain that motion. You are out of order."

Senator Anderson interjected:

"I ask for a roll call on that."

The Chair stated:

"You are out of order."

Senator Anderson then rose on a point of personal privilege as follows:

"I'd like to stand on a point of personal privilege.

"The other day, Mr. President, we were speaking on the OHA budget and Senator Matsuura stood up and pointed out some problems that he was having. I've been going over the OHA budget and the management audit on the Office of Hawaiian Affairs and the auditor said that we should have these not in a special fund, and I think that is fair. It also says in here that we do not derive any funds from Duty Free and others from the airport. And yet on Saturday evening, I believe it was, it said that we are going to have Mr. Owen Miyamoto retire, but we're going to hire him for another year as a consultant. Now, I don't know if that's in the budget. I don't know why after 30-something years we do not have somebody to take over that.

"But I think that OHA deserves to have us look at their budget; where we're getting their funds. We also don't have any funds coming from Sand Island and other areas. So if I were my colleagues, I would question this very, very diligently to find out why Hawaiians have to pay for the problems that we're having today when they offered, offered to sit down with the administration and work out any problems that we're having with the economy. They were willing to do their share.

"So for that reason, I'd like to bring it to your attention to not only read the audit of Hawaiian Affairs but also read the Office of Hawaiian Affairs' questions and answers responsive to legislative briefing because I think it's very informative and it's one that would answer some of the questions on why we should not take away 80 percent of their funding. And I sure as hell don't expect someone to sit down and say look at this; now we're only going to take 30 percent away from them; because I think that too is irresponsible.

"Thank you very much for listening."

At 12:20 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12:21 o'clock p.m.

Senator Matsuura also rose on a point of personal privilege and stated:

"Mr. President, I would like to speak on a point of personal privilege.

"Mr. President, I have been here for 16 years now, and what has just transpired this morning gives me great concern. I can understand why the minority leader walked out. He had no reason to walk out but we gave him the reason to walk out. As a Democrat, as the controlling body here, I think that what he was requesting was very fair. And I, for one, had a very hard time voting on these issues, Mr. President. He was asking for a ruling on Rule 51. They know it, you know it and I know it. He wanted to know whether or not that 20 days started all over again after the second referral. That was

the question. We gave him the ammunition to attack all of us. We look like hell to the public out there. The public is not going to understand what's happening over here.

"If Senate Rule 51 was the issue, we vote on Rule 51. What's wrong with that? Up or down. We all have our reasons why we vote one way or the other. There's nothing wrong in voting for a constitutional amendment or voting against the constitutional amendment -- believe me. Everybody has a vote and they vote on their conscience. However, what we just did I wish the newspapers and the television don't come to interview me because I don't want to answer any questions about what just happened. I'm just going to tell the truth ... I cannot lie. What the Minority Leader is asking for is very proper. Let him make the request again. Let him make the proper motion. We vote up or down -- it doesn't matter.

"Mr. President, I don't expect you to be Mr. Perfect. You are going to make mistakes in making decisions like that because you have to think on your feet at the podium. If the decision was wrong, whether you counted the 20 days after the second referral, that's all right. The public will understand that. Nobody's perfect. However, I think that the Republicans are now upset. They are going to come back tomorrow and the public will be on their side because the public understands what they're trying to do. We're digging our grave deeper and deeper, it's time that we stopped, and it's time to be fair. I think it is time that we vote our conscience -- one way or the other. That's why we were elected and put over here.

"Thank you, Mr. President."

Senator Tam rose on a point of personal privilege as follows:

"Mr. President, good morning. I stand for the purpose of personal privilege.

"In reference to the April 4, 1996 Star-Bulletin article questioning your committee's environmental protection legislation on air quality control at Campbell Industrial Park through H.B. No. 388, I have a letter from Dr. Bruce Anderson, Deputy Director for Environmental Health, clarifying his views.

'Dear Senator Tam:

I want to take this opportunity to clear up any ambiguity which may exist as a result of my comments in a recent newspaper article regarding the imposition of Best Available Control Technology requirements to all facilities at the Campbell Industrial Park.

Let me state at the outset that as advocates for the environment, the Department of Health certainly supports and applauds the efforts you have undertaken to address the issues of air quality and public health in the region surrounding Campbell Industrial Park. We have been increasingly concerned that residential development in this area will lead to further conflicts in land use between the existing industrial facilities and the influx of new residents. Additionally, in light of some recent episodes which occurred at the Park, the Department is undertaking an effort to identify services of pollutants which are causing nearby residents to experience discomfort or illness.

The Department feels that its ongoing studies and monitoring of the air quality in the area are very much

in line with the intent expressed in your legislation and that was the thrust of my remarks in the newspaper. I think we all agree that it is essential that we comprehensively study and analyze the air quality data for this region so that we may ensure that appropriate steps are taken to protect the health of the adjacent residents.

Please be assured that the Department of Health appreciates your leadership and commitment in this area to taking effective, appropriate action and look forward to working with you so that we may finalize a bill this session which will insure that the health and welfare of the community are well protected.'

"I wish to also inform everyone that I met with Chevron U.S.A.'s new regional manager for the State of Hawaii. Chevron declares that it wants to be a part of Hawaii and they plan to remain in Hawaii, and Chevron has agreed to pay all emergency hospital bills due to its release of excessive air emission without any of conditions it imposed upon claimants previously. Thank you."

Senator Matsuura, chairman of the Committee on Human Services, requested a waiver of the required hours of Notice of a Public Hearing on H.C.R. No. 5, H.C.R. No. 61, H.C.R. No. 84 and H.C.R. No.157, and the Chair granted the waiver.

Senator Ige, chairman of the Committee on Higher Education, Culture, and Arts, requested a waiver of the 72-hour Notice of a Public Hearing on H.C.R. No. 276 and H.C.R. No. 112, and the Chair granted the waiver.

Senator Aki, chairman of the Committee on Hawaiian Affairs, also requested a waiver of the 72-hour Notice of a Public Hearing on H.C.R. No. 220 and H.C.R. No. 289, and the Chair granted the waiver.

ORDER OF THE DAY

RE-REFERRAL OF HOUSE CONCURRENT RESOLUTIONS

The President re-referred the following House concurrent resolutions that were received:

House
Concurrent
Resolution

Referred to:

No. 220 Jointly to the Committee on Hawaiian Affairs and the Committee on Higher Education, Culture, and Arts

No. 289, H.D. 2 Jointly to the Committee on Hawaiian Affairs and the Committee on Judiciary

Senator Anderson rose on a point of personal privilege as follows:

"Mr. President, I rise on a point of personal privilege.

"Mr. President, I have an article from this morning's paper that states from the Majority Leader and I take exception to a couple of statements. One of them was, it says that 'Baker said the Democratic leadership decided to send the bill back to its original committee to remove any cloud over the process.' We fought a process because we believe that Article 51 in the Constitution was wrong ... not wrong, but that we were looking at it wrong, and the process was being circumvented. So that was the reason that we fought. It wasn't for anything else other than the process and there was a cloud because the Constitution was not being adhered to.

"Also it says, 'Senate Majority Leader Roz Baker said she doesn't think so. "Quite frankly, those guys don't have the votes."' Now we didn't do anything for votes. There's only two of us, the Minority Leader and myself. I don't think that we are naive enough to think that we have the votes, but 'those guys' ... now, those guys, I don't know which Senators they're talking about. That's kind of unclear. (Laughter.) So that's where I take exception to something like that.

"But while I'm up, Mr. President, and it's very seldom that I stand on this floor, as you well know. (Laughter.) I think that we have a Senator that's rather innovative and creative and I normally don't stick up for the Democratic Party Senators and say how great they are, but I think Senator Holt, if anybody here, should have objections to the way the news media has treated him. I think Senator Holt should object to cartoons and articles that he is more or less a self-serving type of person. Now you may disagree or agree with Senator Holt or any bill that any of us put in. Each one of us has put in bills because somebody has asked for it; there's a need for it, and you stick with that bill. And I think that Senator

Holt, when I first met him in the House of Representatives, was one of the most creative people that I've seen. He represented his district very well. They wanted cock-fighting and he put in a bill and I told some people in cruelty to animals, and my Minority Leader came up and she said, 'Did you vote for Representative Holt's bill. Did you sign it?' I said, 'Of course, it was cruelty to animals.' So what he did was he left out the cock, and we would have had legalized cock-fighting. And I thought that was creative, innovative. I never held that against him.

"And that's what we have over here. You either have to work and try to work for the constituents that you have, the best way you know how. And I think we've all forgotten that. So when we disagree with somebody, we get angry. And I don't want you to be angry. I want you to be creative and innovative.

"I thank you so very much for your time, Mr. President."

RE-REFERRAL OF HOUSE CONCURRENT RESOLUTION

The President re-referred the following House concurrent resolution that was received:

House Concurrent Resolution	Referred to:
No. 259	Committee on Economic Development

At 12:14 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12:17 o'clock p.m.

Senator Anderson rose on a point of personal privilege as follows:

"Mr. President, I'd like to stand on a point of personal privilege.

"I received an article from Pacific Business News. The other day I mentioned that I saw on television that Mr. Miyamoto was going to retire. And this is an article that says, 'Following Mr. Miyamoto's retirement he's stepping into a \$72,000 a year job.' But then it goes on to say that he can also collect retirement, plus he can get his civil service pay. But it says that before retiring Miyamoto's salary could have been as high as \$88,620. It could have been. They said that that was because of his long civil service record. But it says, 'Miyamoto declined to comment on his retirement and hiring as a consultant saying that his contract precludes him from any discussion along his new position.'

"Now, every one of us has to go through the Ethics Committee telling them what we owe, where we're going to have any income coming in. And this is public funds, and the people who sent this to me were wondering how come you have a person who is receiving public funds and yet there's no disclosure. And that's why I said the other day, is that going to come out of any OHA funds or are we going to be paying for it some way or another. Because if it's private, I could understand it. But this is public funds. We have every right to know what kind of contract and it has to be disclosed if you're going to be spending public funds.

"And I would have hoped that our newspapers would have printed something, but I found nothing. And so, since I received this from a constituent, I guess, I thought that I would ask on the floor if anybody from the news media wanted to check into it. I think the public has the right to know and should know.

"Thank you very much, Mr. President."

Senator Tam also rose on a point of personal privilege and said:

"Mr. President, I stand for personal privilege.

"Mr. President, I have a letter from Chevron USA informing their Hawaii retirees that there is communication between Chevron USA, namely J. B. Riley, the new regional manager of Chevron USA in Hawaii, with myself and the state, in essence, correcting in terms of misunderstanding from Mr. David Young who notified the retirees that there was no communication. Mr. David Young apologizes to this body, and there is open dialogue between Mr. Riley and myself.

"So we hope to come out with a very positive bill to take care of the community's emission problems out in the Campbell Industrial Park area.

"Mr. President, I failed to mention that I would like to submit this letter from Mr. Riley into the Journal.

"Thank you."

The Chair having so ordered, the letter from Mr. Riley is identified as Attachment "A" to the Journal of this day.

Senator Kanno, chairman of the Committee on Agriculture, Labor, and Employment, requested a waiver of the required hours of Notice of a Public Hearing on H.C.R. No. 63, and the Chair granted the waiver.

Senator Holt, rising on a point of personal privilege, then said:

"Mr President, I rise on a point of personal privilege.

"Mr. President, yesterday we began our conference committee on auto insurance reform and as the conference committee members noted, the opposite house is still

insistent on keeping their shift to prepaid health as part of their plan which is really the only significant savings in the House position. And the Senate has consistently stayed with the position that that could affect our ERISA exemption.

"We did indicate to the House that there was an Attorney General's Opinion. The Insurance Commissioner did ask two questions. Were there any and all amendments to Chapter 393, HRS, the Hawaii Prepaid Health Act? The Health Care Act could prompt a challenge to Hawaii's exemption from the Employee Retirement Income Security Act. The second question was, if the Legislature were to make prepaid health care primary automobile health coverage and because of the possible subsequent rise in health care premium costs, the Legislature provides that the additional percentage cost increase be passed on to employees, would Hawaii's ERISA exemption be jeopardized? In both instances, the Attorney General answered in the affirmative.

"And we just want this body to know that we stand on our position that any shift to prepared health would affect our exemption, and we just hope that the opposite House will take note of this and not keep their position that they have now.

"Thank you."

Senator Solomon then inquired:

"Would the chairman of Consumer Protection yield to a question?"

The President posed the question and Senator Holt having answered in the affirmative, Senator Solomon then asked:

"In our negotiations with the House, Mr. Chairman, were we able to include a provision so that we can allow drivers, if they do own their own vehicles and if they so desire, to opt out? Are they going to be given that prerogative?"

Senator Holt answered:

"Currently, we have not arrived at that issue yet. We are still in preliminary discussions on areas where we can find agreement. We haven't gotten on to the bigger policy issues which is the one that you raised right now and we expect to do so shortly."

Senator Solomon then said:

"Thank you. I would appreciate it if you would keep us apprised on this matter because you do know that it's a very critical issue to us. We'd appreciate any kind of communication. Thank you."

Dear Chevron Hawaii Retirees:

I am sorry I have been unable to introduce myself and personally meet with all of you at one of your regular meetings, but I promise I will make a full report on our new, restructured marketing program in Hawaii in the near future.

I understand that Public Affairs Manager, Dave Young, spoke at your meeting earlier this week and transmitted a letter outlining our company's position on HB 388 SD2 — a bill which caused us great concern.

I appreciate your interest in this issue, and its potential impact on our company.

I am pleased to be able to advise you that Chevron management in Hawaii has opened a dialogue with Senator Rod Tam, Chairman of the Senate's Environmental Protection Committee. The Senator has assured us that it was never his intent to pass discriminatory legislation, and that he is willing to work with the company to find an equitable solution to assure environmental quality in the Kapolei/Campbell community. Dave failed to notify you that we had begun this dialogue, and therefore you may disregard Dave's earlier letter and be assured that no further action is necessary unless you hear from us again.

I believe that Senator Tam's intentions are sincere and that he can be trusted to work out a fair solution — balancing the needs of the community with the concerns of the businesses at Campbell Industrial Park.

After personally taking Senator Tam on a tour of our refinery, and allowing him to ask candid questions of our plant operators, I am sure he understands that it is our intention to be a good neighbor in the community.

The Senator has also suggested that we should conduct an ongoing discussion on community concerns — which I have personally agreed to undertake.

With this new understanding, I believe we can conclude this issue in the final weeks of the legislative session with a satisfactory result for all interested parties. Again, thank you for your interest in our legislative affairs.

Sincerely,

J. B. RILEY

RE-REFERRAL OF HOUSE CONCURRENT RESOLUTION

The President re-referred the following House concurrent resolution that was offered:

House
Concurrent
Resolution

Referred to:

No. 42, H.D. 1 Committee on Agriculture, Labor, and Employment

Senator Kanno, chairman of the Committee on Agriculture, Labor, and Employment, requested a waiver of the required hours of Notice of a Public Hearing on H.C.R. No. 42, and the Chair granted the waiver.

Senator Anderson rose on a point of personal privilege as follows:

"Mr. President, I rise on a point of personal privilege.

"Mr. President, yesterday we had a bill that everybody is saying, 'I wish this thing would go away and never come back. We have to move on.' But it was a bill pertaining to licensing or statutory rules, and in this morning's paper it said that that particular same-sex is still alive.

"What bothers me is that I had once said on this floor that because of the news media, I could probably call somebody an SOB and it would never be written up. And that's factual because I had a fax like everybody else and I called this person but they had a recorder on so I left a message and she called me back. She said, 'I'd like to

know exactly where you stand, Senator Anderson, because I understand that you're for this particular bill.' And I said, 'No, I'm not.' And she said, 'We were just down at the ball park for Senator Norman Mizuguchi and Senator Grauly and said the constitutional amendment bill is dead and that's where you want it to be.' And I said, 'That's not factual. It's not true. This is where the bill lies and this is what's happening.'

"And I think what happens is the news media plays up whatever they want to, so everybody thinks that the constitutional amendment is dead. Everybody thinks that same-sex marriage is going through. And we're losing sight of economic benefits. We're losing sight of how the administration and others are raising ... raising, every dollar that they can through administration rules and other means. This is one of the worst, I would say, times that the news media is playing games and we're all being blamed. And I sure as hell don't like it.

"People out there are saying in a four-letter word, but they could use worse, that we're full of it. That's why we have brown eyes and I said I want you to know that some of us have blue. And they said you guys are about a quart shy. And I think that's the worst thing that could ever happen to us -- that the community, in general, has lost faith in their Legislators. And they've lost faith in government. They have lost faith in the judicial system. And for that reason, I wanted to stand on this floor today to let everybody know that everything that we have is still alive -- alive, kicking, and it can move, let me tell you. So anybody up in the gallery, any one of you from the news media, do your job; make sure that if you're going to quote, quote us properly. If you're going to draw cartoons, I would hope that you draw them for the right reason, not for anybody being out there for themselves because they are doing it for a reason, but for the good of the people.

"And I want everybody to also know that my chairman from Judiciary ... I have never once said that that gentleman has not been open and has not given us, any of us, a chance to say what we want in committee. I think he has been one of the most open chairmen.

"I have fought in conference committees for what I believe is there. It doesn't mean it's going to pass. As a minority, as I once told the majority leader, I understand we have two votes, but there's other votes out there -- important votes. And we're going to have to execute those votes because the process and this institution have been circumvented, the worst that I have ever seen. I've been here a few years. I'm not that old, but I've been here a few years.

"Thank you very much for listening."

Senator Grauly also rose on a point of personal privilege and said:

"Mr. President, may I rise on a point of personal privilege?"

"Mr. President, I just wanted to thank the previous speaker for his kind words. I've tried to be as open as I could possibly be to all the members of the committee whether they be majority or minority members. And I think our deliberations have been fair and open, and I just wanted to thank the Senator for his kind words."

Senator Matsuura rose on a point of personal privilege as follows:

"Mr. President, I just want to stand on a point of personal privilege.

"We have a tendency to focus primarily on this same-sex marriage issue, but today, there was an amendment that we tried to put in a bill which was killed. We, as legislators, will have to use our common sense. I'm going to give the background of this specific amendment that we tried to insert in conference.

"All of you know the drug commonly known as ice is totally out of control. And in one of the Judiciary hearings a few weeks ago, the subject of controlling ice and the effect that it has on the public was brought out. And one of the questions that I asked was, why is it that ... who's bringing them in? And the comment that the person made was that ice is made in Hawaii. They bring in the ingredients to Hawaii. He mentioned that there were three basic ingredients: ephedrine, acetone, and iodine. Iodine and acetone -- one can pick them up over the counter -- you can't control it, but the ephedrine you can. The way to do it is to put it into the category of controlled substance. Today, they're bringing ephedrine in through mail order. With these ingredients, one can make ice in a kitchen.

"It is common sense, logical, that we stop the importation of ephedrine. We would all be in favor of that. However, that was not so. The House argument was that the House didn't have a hearing on it.

"We can't wait till next year as the House says we should. How many people are going to get hurt within that one year that we're going to wait. I say let's stop the importation now! I also mentioned about DUI in terms of people on drugs driving. There is a simple urine test that should be incorporate in our laws now. There's a lot of people who are on drugs driving. We should have passed the implied consent law for drug testing this session. It has been held up in the Senate Transportation Committee for two years now. It is wrong!

"These are what I consider as common sense bills. It makes common sense to pass these kinds of legislation. I'm venting my frustration because some day I'm going to write this common sense law. Until then we have to try to pass some of these bills that really make common sense.

"Thank you."

Senator Liu rose on a point of inquiry as follows:

"Will the chairman of the Judiciary Committee be willing to yield to three questions?"

The Chair posed the question and Senator Grauly having answered in the affirmative, Senator Liu continued:

"I would like to ask the chairman whether or not in submitting the Senate's position on H.B. No. 3347 yesterday, whether or not he included the exact language which was contained in H.B. No. 2524, S.D. 1."

Senator Grauly answered: "The answer is no, Mr. President."

Senator Liu continued to inquire:

"Thank you. I'd also like to ask whether or not he believes the House proposed C.D. 1 to H.B. 3347 is worth meeting over again in his jurisdiction."

Senator Grauly then said:

"Would you repeat the question, I didn't get it."

Senator Liu continued:

"Whether or not in reviewing now the House proposed C.D. 1 to H.B. 3347, whether or not you can inform us as to your sense as to your desire to meet again on that bill."

Senator Grafty answered:

"The House has taken the position as reported in this morning's paper that they will not return to the table unless the Senate is willing to seriously discuss the proposed constitutional amendment. As also indicated in the papers, I am seeking the assistance of the Senate Majority Attorney on the constitutionality of the proposal that the House has given us. And after I get the reading from the Majority Attorney, I hope to share it with the members of my Conference Committee and formulate a position to go back into conference with, if that be the desire of the Conference Committee members."

Senator Liu further inquired:

"Thank you. And my last question, Mr. Chairman, is whether or not you intend, at this point in time, to hold any kind of decision-making on H.B. 2366, H.D. 1, in time for final reading?"

Senator Grafty responded:

"The position of the Judiciary Committee has been, H.B. 2366 does not have the necessary support from the committee to pass on to the floor of the Senate. That is the position that we took on decking deadline and our position remains the same."

Senator Liu then rose on a point of personal privilege as follows:

"Mr. President, I rise to speak on a point of personal privilege.

"Mr. President, I would like to relay to you that I'm now being contacted by various news media across the country, radio stations mainly, on this issue regarding same-sex marriage and what is happening here in the Hawaii State Senate. I've declined most of those invitations. The last one I did accept was in the State of Alaska, mainly because the invitation came by way of a personal friend who really urged me to take part.

"I'd rather not be on the airwaves in other states or even this state on this issue because I would wish that we have the chance this summer, this fall, to have whatever stories that are written on Hawaii talk about how we are improving as a place to invest money in, how we are a wonderful place to take a vacation to, how a change in our business climate is occurring. But I can guarantee you, Mr. President, that with the information provided here today on this floor regarding this issue, and with the uncertainty and the time clock running as to what will happen, that we are guaranteeing ourselves that the result will be that Hawaii will, yes, be in the headlines this summer across the country but we will be associated with the issue of same-sex marriage. I can guarantee you that if we proceed along the course upon which it appears that we are, on this issue, and that there could be no action, then this will be a cutting edge issue for the campaigns, not only in Hawaii, but for Congress and the Presidency.

"So I would ask you, Mr. President, that as we wind down, that as you have on other issues this session, for instance workers' comp, that you exercise leadership that will provide us with a chance to come with a clean decision on this issue.

"Thank you, Mr. President."

RECONSIDERATION OF ACTION TAKEN

S.B. No. 2144, H.D. 2:

Senator Iwase moved that the Senate reconsider its action taken on April 12, 1996, in disagreeing to the amendments proposed by the House to S.B. No. 2144, seconded by Senator Tanaka and carried.

Senator Iwase then moved that the Senate agree to the amendments proposed by the House to S.B. No. 2144, seconded by Senator Tanaka.

Senator Iwase then explained:

"Mr. President, this bill relates to conservation easements. Amendments were made by the House at the request of the Department. They appear to be appropriate."

The motion was put by the Chair and carried, the Senate agreed to the amendments proposed by the House to S.B. No. 2144 and S.B. No. 2144, H.D. 2, entitled: "A BILL FOR AN ACT RELATING TO CONSERVATION EASEMENTS," was placed on the calendar for Final Reading on Wednesday, April 24, 1996.

Senator Solomon rose on a point of personal privilege and stated:

"Mr. President, I rise on a point of personal privilege.

"Mr. President, as you know, your Committee on Executive and Judicial Appointments will be taking up the matter of Mr. Joseph Blanco this coming Thursday. I was very much surprised ... well I'll just say I was kind of shocked when I turned on the news and there was Regent Lily Yao making remarks such as, 'The Regents will not stand for any kind of interference. The Regents will not stand for the Judicial and Executive Appointments Committee telling them what to do.'

"Mr. President, I would like to set for the record that your committee never asked the Regents to get involved. Your committee never made that proposal. As a matter of fact, that proposal came from Mr. Blanco who is the chairman of the Board of Regents and was backed by Mr. Dan Ishii who serves as its secretary. As a matter of fact, Mr. President, I have letters that I would like to quote and read. This is dated April 19th from the University of Hawaii Board of Regents, signed by Mr. Ishii and he says:

'While the Board did not indicate one way or another whether the Board would reconsider the reelection of Mr. Blanco as the chair, the Board did reaffirm its authority to elect its officers without external interference.'

"I take great offense to this last remark. Furthermore, Mr. President, I would like to read to my colleagues the opening remarks of Mr. Blanco. He says here: 'To further public confidence in government, it became clear that the University needs to better inform the public about its standards of integrity that the Regents and the U.H. administration subscribe to. At this meeting today I am asking the board to determine how best to demonstrate that we can and have dealt with conflicts or potential conflicts of interest. After all, a competent board can scarcely be recruited from persons entirely free from potential conflicts of interest.' The chairman goes on to say, Mr. President, 'Should the regents as a body choose to provide guidance by developing a conflicts of interest policy, which clearly articulates the university community's views and which prescribes the process by which the board deals with potential conflicts of its members on both financial and personal matters, I would welcome it and adhere to it to the fullest. In doing so, we further public confidence in the university and government, and we would set a new standard on the subject that other boards would likely benefit from.' And at that juncture, Mr. President, he goes on to recuse himself as the chairman, since they're dealing with his situation, and appoints Regent Yao to represent him.

"Mr. President and fellow colleagues, I demand a retraction from the chairman as well as Regent Yao and also from Mr. Ishii. And if I don't get that retraction, Mr. President, I hereby put you and my colleagues on notice that Mr. Blanco will remain deferred.

"Thank you very much, Mr. President."

Senator Liu then said:

"Mr. President, I rise for the purpose of wishing to make a couple of inquiries to the Senator from the Sixteenth District, the chairman of the Judiciary Committee, if he would yield."

The President posed the question to Senator Grauly, and Senator Grauly having answered in the affirmative, Senator Liu then continued with his first question:

"Thank you, Mr. President; thank you, Senator. I've had some time now to contemplate your response to one of my inquiries yesterday regarding the status of H.B. 2366, H.D. 1, and I can only come to the conclusion that from your comments yesterday, the current status of that bill is really a reflection of the wishes of a majority of the members of your committee, and that if a majority of the members of your committee desire to have, shall we say for example, a decision-making hearing on that bill, that it will be the chairman's position, based on his answer yesterday, that he would in fact hold such a meeting, regardless perhaps of his own position on the issue. Is that a fair statement?"

Senator Grauly answered:

"That is correct."

Senator Liu continued:

"Thank you, and one more question, if I may. Thank you, Mr. President. I notice (I received a copy from my colleague here who is a member of your committee) that you have scheduled two meetings with those who are purported and I guess some who have the titles of being

constitutional lawyers, and I was wondering whether or not the chair of Judiciary attempted to reach other scholars in the community -- for instance, former Associate Justice of the State Supreme Court, Frank Padgett -- for the purposes of these meetings to perhaps give a different point of view on the issue."

Senator Grauly responded:

"Senator, we contacted as many as we could last night and if Justice Padgett is willing to address the issue, we would be more than happy to accommodate him.

"We had solicited, as you know from the memo, the advice from Justice Nakamura, but he was unwilling to participate. I have asked the Professor of Constitutional Law at the University of Hawaii, John Van Dyke, to brief the committee this evening. And by the way, I wanted to make sure that all the Senators would know that they are welcome to participate at this evening's informational briefing, as well as the one that I have scheduled for tomorrow morning at 9:00 a.m. with Evan Shirley, whom I'm sure you know, Senator, is one of our foremost practitioners in constitutional law. They both indicated that they are willing to look at H.B. 2366 and give the committee their views. But if Justice Padgett is amenable, I'd be more than happy to contact him, or even better still, maybe you can contact him for me and invite him to brief the committee as well."

Senator Liu then stated:

"I appreciate the answer, Mr. President, and I believe the Senator understands my concern would be that both of the gentlemen who will be appearing, I think their views on the issue from the legal standpoint are fairly well known, and I'm happy to hear that the chairman of the Judiciary Committee is open to entertain views from others who may be as well-grounded in constitutional law to have a fair hearing of their views at these meetings. I appreciate that, Mr. Chairman, and perhaps we can communicate afterwards."

Senator Grauly then responded:

"May I just rebut? I do not know what Mr. Shirley's views are. My invitation to him last night was only to look at H.B. 2366 and give us his reading. I don't know what you mean when you say his views are well known. He has never been involved in the issue of same-sex marriage from the time that Baehr vs Miike was rendered by the Supreme Court. I do not know what his views are. I did not ask him what his views were. I have not met with him ahead of time and I wanted to make sure that you were aware of that.

"With regard to Professor Van Dyke, Professor Van Dyke is the constitutional law professor at the University, the same law school that you and I attended. You know the level of his knowledge in constitutional law. He represents the Legislature in the matter pending before the courts on the constitutional amendments that we had passed out two years ago. I understand the hearing is tomorrow, but I don't think it's fair to say that in some way Professor Van Dyke has a bias with regard to H.B. 2366. I have not heard his views on the matter. I am soliciting his views as the Professor of Constitutional Law at the University of Hawaii Law School.

"With that, Mr. President, I hope I responded to the Senator's questions."

Senator Liu added:

"I appreciate the answer, Mr. President. In response, I will not question the integrity of the Senator regarding his

views or regarding his intent in requesting the attendance of Mr. Shirley. However, I will say that with all due respect to the position that Mr. Van Dyke holds, I would personally say that I disagree with his views on this issue as a matter for the record.

"Thank you very much."

Senator Holt then inquired:

"Mr. President, will the chairman of Judiciary yield to a question."

The Chair posed the question and Senator Grauly responded:

"Yes I will, Mr. President."

Senator Holt continued:

"Mr. Chairman, is it true that H.B. 3347 ... is that the correct number? The interpretation of statutes bill."

Senator Grauly interjected:

"I believe that is the correct number. That is the bill presently in conference."

Senator Holt then inquired:

"Presently in conference? What's the status of that bill, Mr. Chairman?"

Senator Grauly responded:

"I'm waiting for a memo from the Senate majority attorney, Mr. Wada, and once I get that memo which I hope to receive sometime this afternoon, I'll be sharing it with the members of the conference committee."

Senator Holt further inquired:

"What is the relationship between H.B. 3347 not being the subject of your meetings with the constitutional attorneys, yet H.B. 2366 will be the subject?"

Senator Grauly replied:

"Only because I had asked Mr. Wada yesterday afternoon, as I explained to Senator Liu when he asked me the question, to give us an opinion. I don't have any problem asking any of these two gentlemen to also give an opinion as to the language that the House is proposing in H.B. 3347. Again, it's a matter that I had asked Mr. Wada yesterday and he came first in time. But if that be the pleasure of the members of the Judiciary Committee, I would be very happy to add the additional assignment that they look at H.B. 3347.

"The other part of my response, Senator, is that Professor Van Dyke has already been quoted in the newspaper -- I believe in yesterday's Star-Bulletin -- as giving an opinion on that particular proposal from the House, and I did not really want to mix the two. I believe that the important inquiry for the committee at this point is whether H.B. 2366 is going to be able to do what the proponents of that bill think it's going to do."

Senator Holt questioned:

"And if in the eyes of your members, or the majority of the members of your committee, they feel that H.B. 2366 will address the issues, is it your intent to move the bill out of committee?"

Senator Grauly answered:

"I can't say that right now. I would want to meet with the members of the committee before I make any kind of public announcement with regard to that."

Senator Holt continued:

"But that is the purpose of the meeting -- to make that determination?"

Senator Grauly answered:

"Right. And if we make that determination first"

Senator Holt interjected:

"And if the determination is made in the affirmative that it does address the issue legally, then it will be the position of the committee to move the bill out of committee?"

Senator Grauly replied:

"I can't say that until I ask the members."

Senator Holt asked:

"Then what is the purpose of the meeting?"

Senator Grauly answered:

"To find out whether it is an appropriate vehicle. It may not do what people think it's going to do. And I think that's what I want to inquire into."

Senator Holt then said:

"Thank you, Mr. Chairman."

Senator Solomon then inquired:

"Would you yield to a question, Mr. President?"

The Chair having answered in the affirmative, Senator Solomon continued:

"Thank you. I have the understanding, Mr. President, that the Governor has requested that you appoint someone from the Senate to represent the Senate in some kind of a negotiation that the Governor is putting together regarding the OHA revenue issues. Is that true, Mr. President?"

The Chair responded:

"I believe that the Governor is having a meeting with one trustee from the Office of Hawaiian Affairs, Frenchy DeSoto, and he has asked both the Speaker and myself to send a representative from each body to a meeting in his office."

Senator Solomon continued to inquire:

"And Mr. President, do you know what the agenda of the meeting is? What is the purpose of the meeting?"

The Chair answered:

"I have no details about the agenda for that particular meeting. I was just called by the Governor informing me of a meeting."

Senator Solomon then asked:

"Mr. President, I'd like to ask if you would yield to another question? (Chair: "Certainly.") Thank you.

"It's my understanding, Mr. President, that on the Senate side, the bill on OHA and revenues was killed. Is that true, Mr. President?"

The Chair answered: "That is correct."

Senator Solomon continued:

"So, is there some other kind of agenda, Mr. President, that perhaps we on this floor do not know about? I mean is there going to be a re-awakening of that bill insofar as the Senate is concerned in terms of our position?"

The Chair responded:

"The Senate is not in support of the House position to reduce funds for OHA and until I am otherwise alerted by the members of the Senate, that is the Senate position. We are against the reduction of funds for OHA."

Senator Solomon then stated:

"Thank you very much, Mr. President, for reconfirming that position. Mr. President, may I continue on a point of personal privilege?"

"Just to remind my colleagues here on the floor, I don't know if you realize this but when Governor Cayetano, then Senator Cayetano, was chairman of the Ways and Means Committee, it was his very actions, Mr. President, that defined the definition of revenues as it referred to the Office of Hawaiian Affairs. And I think it is quite ironic at this point in time, now that he is governor, he's questioning his own piece of legislation.

"The rally that is going on today is for that very purpose of the revenues of OHA. I am hoping that each and every one of you will stand firm on the position of the Senate as stated by the President. We negotiated this; it took us over a period of ten years and it really was through a lot of blood, sweat and tears.

"And I think the biggest 'give' that was given by the Hawaiians, was that the Hawaiians gave up their rights to appraise these properties and settled instead on an estimate in terms of revenue. And I have discussed this with our President, being that I was very much a part of these negotiations since I first became part of this honorable body. And I communicated to the President that if the House wants to consider all negotiations null and void, and if they want the Hawaiians to go back to the bargaining table, then I think everything should be put back on the table for consideration. Senator Yamasaki, who at that time guided us through this process emphasized to my colleagues at that time that this was a very serious, serious matter.

"So I don't know what the House is thinking. I don't know what their agenda may be, but I'm hoping -- I'm hoping -- that they will see their way clear to leave alone what has been done in good faith, and carry on with the commitments that we have made.

"Thank you, Mr. President."

Senator Anderson rose on a point of information as follows:

"Mr. President, on a point of information, if I may, for the previous speaker.

"I was going over the audit of the airport and under that audit it said for management cancelled bids, etc., there was \$102 million wasted on airports. So I just wanted to bring it to your attention that that alone, if we

were getting any revenues, that's ten years that they could have been paying OHA from those funds. So if you would read the audit, I think it would enlighten you to find out that that's wasted money -- \$102 million.

"If you need the page number or whatever, please call my office and I'll gladly share it. Thank you."

Senator McCartney rose on a point of personal privilege and said:

"Mr. President, I'd like to rise on a point of personal privilege just to comment on the same-sex marriage issue and what is going on right now.

"I know it's a sensitive issue and the body is divided on this. There's a lot of dialogue and debate. The committee has a division on this. But the point that I wanted to let everybody know about is that our chairman, despite his personal position and the committee members' personal positions, has been open and fair. The committee is openly and actively dialoguing those two bills, H.B. 3347 and H.B. 2366. And we are doing our soul-searching. We are doing our debate and dialogue internally, and I just want to assure the members of the Senate that we are doing the best we can to represent this entire body and the people of Hawaii. And in a few days we will have a decision as a committee on what direction we take. I think that can guide the course of action of what other people choose or choose not to do.

"I just wanted to assure the members of the Senate that the chairman is being very fair and very open, and we have complete communication and dialogue with him despite what our positions are on this issue.

"Thank you."

Senator Holt then rose and stated:

"Mr. President, just to follow up on the previous speaker's comment, I'm glad to see that the chair is being open and fair with the members of his committee. I would just hope that the chair would be open and fair with the rest of the members of the Senate.

"Thank you."

**"EXECUTIVE CHAMBERS
HONOLULU**

April 23, 1996

**STATEMENT OF OBJECTIONS TO HOUSE BILL NO.
2601**

Honorable Members
Eighteenth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 2601, entitled, 'A Bill for an Act Relating to Jurors.'

The purpose of this bill is to allow individuals to volunteer to serve as jurors. The list of volunteers is intended to be used with other lists to supplement the voter registration lists used as the sources of names for the master list of prospective jurors.

However, the concept of volunteering for jury duty conflicts with the fundamental notion of the random selection of citizens to serve as jurors. The random selection of jurors protects against the influence of individuals or groups who have an interest in the outcome of cases and should be preserved.

For the foregoing reasons, I am returning House Bill No. 2601 without my approval.

Respectfully,

/s/ Benjamin J. Cayetano
BENJAMIN J. CAYETANO
Governor of Hawaii"

RELATING TO CONSERVATION EASEMENTS," having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, none. Excused, 1 (Ikeda).

Senator Grauly rose on a point of personal privilege as follows:

"Mr. President, I just wanted to report to the body that the Committee on Judiciary has held informational briefings, that we have had three speakers come before the committee and that we have opened our proceedings to all the Senators. Some of the Senators have been able to join and participate and listen to the various experts. I just wanted to summarize what each individual had to say, and also indicate the committee's direction on the important matter of same-sex marriages in our state as a result of the decision by the Supreme Court in Baehr vs Miike.

"Our first speaker last night was Professor Van Dyke who has been a professor of constitutional law for 27 years, 20 years of which were at the U.H. Law School. With regard to the specific question of the constitutionality of H.B. 2366, H.D. 1, he indicated that 2366 was 'an odd response,' and did not address discrimination. It defines marriage. If enacted it would be irrelevant to the case because it does not address the compelling state interest that needs to be shown to justify the discrimination that the court has found.

"He indicated that the fact that they do not call these relationships marriage will not eliminate the problem and that the bill did not come to grips with the discrimination that needs to be remedied. He also opined that the bill may be violative of the United States Constitution, although he had put the percentage in response to one of the Senators' questions at between a 40 to 60 percent chance that it was violative of the United States Constitution, as well.

"He also indicated and spoke at length about many of the procedural difficulties if such a bill were to be passed now because of the ten day notice requirement and so on, and there are many technical problems and obstacles that need to be overcome, which are not insurmountable but nevertheless are there.

"This morning we heard from Evan Shirley, the foremost practitioner in constitutional law in our state, and who has handled 150 constitutional law cases here in our state. And he indicated that with regard to H.B. 2366, that the Hawaii Supreme Court had already rejected the argument that marriage by definition was between man and woman as 'circular and unpersuasive' and 'tortured sophistry.' And so we, in his view, were not adding anything more to what we already said in Act 217 which we passed two years ago. He did not believe that the problem was a matter of fixing labels, but rather there is a need to correct discrimination against a protected class of individuals.

"He indicated very clearly, in my view, that the citizens of Hawaii are the ultimate constitutional authority and there shouldn't be any question about that, and that as we have seen in various cases before, when it comes to the United States Constitution, that we have the 11th, 14th, 16th and 26th Amendments which were enacted as a result of the people speaking.

"He indicated also that unfortunately there are a lot of cases involving constitutional amendments that many legislative bodies pass that, upon review by the courts, are deemed to be violative of the Constitution. He indicated that 2366 was multiply inconsistent -- that it

was inconsistent with Article 1, Section 3, which is the Equal Rights Amendment. It is inconsistent with Article 1, Section 5, the Equal Protection clause of the Hawaii Constitution, and inconsistent with the freedom of religion clause under Article 1, Section 4, of our State Constitution.

"We also heard later this morning from retired Associate Justice Frank Padgett who has been a practitioner since 1949 and became a Supreme Court Justice in 1982. And he indicated that he saw the case *Baehr vs Miike* in very narrow terms that it had to do with marriage licenses, and that the matter of rights is not what the case is about; that that is probably a new case that needs to be determined at some later point. However, with regard to marriage licenses he believes: (1) that Act 217 that we passed two years ago should resolve the matter; however, it was good to elevate it to a constitutional level to make very sure. And he also indicated that he believes that there is a compelling state interest which is procreation to justify the discrimination against gays and lesbians in our community. I might add that his statements have been laid on the members' desks but that is the opinion of Justice Padgett.

"I'd like to, on behalf of all of us here, thank those who have come forward on very short notice to give us the benefit of their knowledge in this area."

Senator Solomon also rose on a point of personal privilege and said:

"Mr. President, on a point of personal privilege.

"Mr. President, I received a letter from Daniel Ishii, secretary of the Board of Regents, and I would just like to read a portion of it for the benefit of my colleagues who are not part of your Committee on Executive and Judicial Appointments because I did circulate the letter to the members. It says:

"Dear Senator Solomon:

I want to acknowledge that the facts are that Regent Blanco suggested and you and the Senate Executive and Judicial Appointments Committee concurred that he, Regent Blanco, would ask the Board of Regents to consider amending their rules, bylaws, or policies, as appropriate, to include adequate provisions to address potential conflicts of interest, or the appearance of a conflict in the event that any individual regent who holds another state government position is elected as chairperson of the board. The letter should not have even inferred that the Senate Committee on Executive and Judicial Appointments had mandated the University of Hawaii Board of Regents to take any formal action, since in actuality the committee went out of its way to leave all appropriate actions to the board.

I've submitted the phrase "Actions proposed by Regent Blanco" to the Senate Committee on Executive and Judicial Appointments as it pertains to his reappointment to the University of Hawaii's Board of Regents in the revised letter which accurately describes the events as they occurred. Please disregard the transmittal letter of April 19th and substitute this in its place and the revised letter of the same date. I apologize for the error."

"With this, Mr. President, your Committee on Executive and Judicial Appointments will be re-scheduling deferred matters, such as Mr. Blanco, for Thursday at 6:00 o'clock.

"Thank you."

Senator Liu then said:

"Mr. President, I wonder if the chairman from the Judiciary Committee would yield to a question."

Senator Grauly being excused, Senator Liu continued:

"Well, that's unfortunate, but perhaps his vice-chairman will yield to a question."

The Chair posed the question and Senator McCartney replied:

"I'll yield to a question, if I can answer it."

Senator Liu continued:

"I appreciate that.

"Based upon the comments of the chairman, and if you can, do you believe that it is the intent of the committee to, as it moves, look more closely at H.B. 3347. Is that an indication that it has rejected the provisions, totally, of H.B. 2366, H.D. 1?"

Senator McCartney responded:

"Excuse me. Do we reject 2366 and now we're looking at ...?"

Senator Liu restated his query:

"Is this an indication that H.B. 2366, per the committee or per the chairman or per whoever, is now off the table so far as the Judiciary Committee is concerned?"

Senator McCartney replied:

"Is 2366 off the table? We are talking in the committee about preparing a counter-proposal to the House using their vehicle which is 3347 and it is a constitutional amendment using the House's language."

Senator Liu asked:

"Using the House's language?"

Senator McCartney answered:

"Yes, working off that, yes. The House's constitutional amendment language."

Senator Liu further inquired:

"And lacking an ability to come to agreement on that, if that occurs, is there any contemplation of looking at, again, H.B. 2366, H.D. 1, and the language in that bill?"

Senator McCartney replied:

"I think there will always be contemplation on that. Yes."

Senator Liu said:

"Thank you."

Senator McCartney added:

"I'm speaking from my perspective on where I think the issue is going -- just to clarify as the vice-chair."

Senator Liu then stated:

"Well, perhaps, Mr. President, I may ask a question then of another member of the committee since as we heard yesterday and the day before, this is primarily an issue which is a collective committee decision, so perhaps the Senator from Maui who is on that committee might yield to a question as to whether or not he would confirm that. Would you yield to a question."

Senator Chumbley responded:

"Would you restate your question, please."

Senator Liu restated his question as follows:

"To restate the question then, or to confirm as has been stated by the vice-chairman of the committee, in the event that there is not an agreement on H.B. 3347, H.D. 1, that language regarding H.B. 2366, H.D. 1, is still in play."

Senator Chumbley replied:

"I can't speak for the chair, but as you well know, Senator, H.B. 2366 is still before the committee."

Senator Liu then said:

"Mr. President, I wonder if I may request a short 5-minute recess."

At 12:02 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12:10 o'clock p.m.

MESSAGES FROM THE GOVERNOR

The following messages from the Governor (Gov. Msg. Nos. 337 to 340) were read by the Clerk and were placed on file:

Gov. Msg. No. 337, dated April 22, 1996, transmitting a report of unbudgeted positions in fiscal year 1996 covering the Department of Land and Natural Resources, Department of Human Resources Development and the Division of Community Hospitals of the Department of Health, pursuant to Act 218, Section 194, SLH 1995.

Gov. Msg. No. 338, dated April 16, 1996, transmitting a letter expressing his concerns about recent inquiries from the Office of the Inspector General of the United States Department of Transportation to determine whether the State's current practice of using the airport revenue fund to make payments to the Office of Hawaiian Affairs (OHA) violates federal law.

"EXECUTIVE CHAMBERS
HONOLULU

April 24, 1996

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 2421

Honorable Members
Eighteenth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2421, entitled, 'A Bill for an Act Relating to the Hawaiian Homes Commission Act, 1920, as Amended.'

The purpose of this bill is to allow the Department of Hawaiian Home Lands to use either an open bid or public auction process, in addition to the existing sealed bid process, in the general leasing of land to native Hawaiians.

However, the public auction process is expected to result in leases with lower lease rents, because the process will enable native Hawaiians and Hawaiian organizations to be aware of other bid amounts and to bid only as high as needed to counter opposing bids. Since there has been

no study of the impact of this bill on the revenues of the Department of Hawaiian Home Lands, I am concerned about the potential loss of revenues to the department.

For the foregoing reason, I am returning Senate Bill No. 2421 without my approval.

Respectfully,

/s/ Benjamin J. Cayetano
BENJAMIN J. CAYETANO
Governor of Hawaii"; and

"EXECUTIVE CHAMBERS
HONOLULU

April 24, 1996

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 3205

Honorable Members
Eighteenth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 3205, entitled, 'A Bill for an Act Relating to Office Machine and Oil Products Dealerships.' The purpose of this bill is to expand chapter 481G, Hawaii Revised Statutes, which protects office machine dealers from arbitrary termination of dealership contracts, to include dealers of oil products. Manufacturers of motor fuel are exempted.

However, the supporters of this bill did not present any substantial evidence to the Legislature either of (1) abuse of oil product dealers by their distributors; (2) the inadequacy of remedies under the existing Hawaii Revised Statutes, such as section 480-2 (unfair competition) and chapter 482E (franchise investment law), or under the Hawaii common law (actions for breach of contract, unfair competition, unjust enrichment); (3) the impact of this bill on business in Hawaii; or (4) the impact on the budget, including the impact of implementing and enforcing this bill.

I believe that special statutory protections that supersede existing contractual arrangements should be based on substantial evidence of abuse that has occurred. In view of the uncertainty of the impact of this bill on the business climate in Hawaii, the uncertainty of its impact on the budget, the current budget crisis, and the need for some reliable indication that new legislation be cost effective and not aggravate the budget crisis, I believe that enactment of this bill is premature at this time.

For the foregoing reasons, I am returning Senate Bill No. 3205 without my approval.

Respectfully,

/s/ Benjamin J. Cayetano
BENJAMIN J. CAYETANO
Governor of Hawaii"

"Mr. President, am I correct in understanding that there is an agreement between the Senate and the House that H.B. 2366 is a measure that does have fiscal impact?"

The Chair responded:

"You're talking about the bill relating to the interpretation of statutes?"

Senator Liu answered:

"No, I'm talking about H.B. 2366, H.D. 1."

At 9:35 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 9:37 o'clock p.m.

Senator Liu continued:

"I'll rephrase my question. My question then, in regard to H.B. 2366, H.D. 1, it is my understanding that should Rule 51 and/or Article III, Section 12, be attempted in regard to that bill, that the option will still be available through tomorrow."

The Chair replied:

"That is correct because the Senate has not amended that bill."

Senator Liu then said:

"Thank you, Mr. President."

Senator Anderson also rose on a point of information and said:

"Mr. President, on a point of information.

"I'm not an attorney and I don't really understand all of the ramifications of what we're doing with Rule 51 and Article so and so and I don't think a lot of the public knows. We're talking about 2366 as a constitutional amendment. My understanding is that it's still viable and as long as we don't amend it and it's still part of the Senate rules that we could, if need be, pull that tomorrow and it would still be a bill that could be looked upon legally. Is that my understanding of this?"

The Chair responded:

"That's our understanding, you are correct."

Senator Anderson continued:

"Just as long as I understand that it's still going to be a legal procedure and it's not going to be all of a sudden 'Gee, we ran out of time, we should have done this two days ago.

"Thank you."

RECALL OF HOUSE BILL 2366

Senator Holt moved to recall H.B. No. 2366, H.D. 1, entitled: "PROPOSING AN AMENDMENT TO THE CONSTITUTION OF THE STATE OF HAWAII DEFINING MARRIAGE IN THE STATE OF HAWAII," from the Committee on Judiciary, seconded by Senator Liu.

The President stated:

"The Chair will provide for limited debate to allow the movant to state the reason for the motion to recall."

Senator Holt then explained:

"Mr. President, the purpose of this motion is to provide every member of this body with the opportunity to vote on H.B. 2366, H.D. 1, proposing an amendment to the

Constitution of the State of Hawaii defining marriage in the State of Hawaii."

The Chair then said:

"Senator Grauly, I will allow you to respond."

Senator Grauly responded:

"Thank you, Mr. President. Mr. President, I rise to speak against the motion.

"This body has found, and for years has maintained, an effective manner to conduct its business. The motion does great harm to the institution and the manner in which it conducts its business. From this day forward, deadlines mean nothing; committees mean nothing; agreements with the other body mean nothing.

"Your Committee on Judiciary has heard many hours of testimony over the last three years on measures similar to the one that may be before us. We have deliberated fully. We have conducted our business openly and fairly. I realize some Senators disagree with the committee's decision, but it's not because the committee has not done its business in the appropriate manner.

"I would urge my colleagues to vote 'no.'"

Senator Holt added:

"Mr. President, a brief response just to remind this body that several years ago when I was chairman of the Executive Appointments Committee, a nominee to the Supreme Court of the State of Hawaii was recalled from your Committee on Executive Appointments. So the action today is not precedent setting. Thank you."

The motion to recall H.B. No. 2366, H.D. 1, from the Committee on Judiciary was then put by the Chair and carried by Roll Call vote on the following showing of Ayes and Noes:

Ayes, 9. Noes, 16 (Baker, Chumbley, Fernandes Salling, Fukunaga, Grauly, Ige, Ihara, Kanno, Kawamoto, Levin, Matsunaga, Matsuura, McCartney, Mizuguchi, Tam, Taniguchi).

The Chair then made the following observation:

"House Bill 2366, H.D. 1, is recalled and is accordingly in possession of the body."

Senator Baker then moved that H.B. No. 2366, H.D. 1, pass Second Reading and be placed on the calendar for Third Reading, seconded by Senator Ihara.

The Chair stated:

"We will provide for limited discussion. I normally don't allow discussion, but for an important matter such as this, I will allow for limited discussion before we take a vote."

Senator Liu rose in support of the motion as follows:

"Mr. President, I rise to speak in favor of this motion.

"Mr. President, this is an issue of great concern to the State of Hawaii and to our country. We have a chance to put this bill into a position whereby the people of this state can have a chance to amend their constitution -- their constitution -- to set the parameters concerning an issue which they, and I think most of the members on this floor, believe is proper and just, to be part of our constitution that has to do with the issue of marriage. We

don't know what the results will be should this matter reach the ballot. That will be up to the people of this state, as it should be.

"I hope that my fellow colleagues will vote with me in favor of this motion.

"Thank you, Mr. President."

Senator Grauly rose to speak against the measure and stated:

"Mr. President, on March 1, 1996, the House passed H.B. 2366, H.D. 1. Our legal experts, Professor Jon Van Dyke in particular, have told us that H.B. 2366 is an 'odd response'; it does not address the discrimination found by the court; it would be irrelevant to the case Baehr v. Miike; the fact that gays cannot call it marriage does not eliminate the problem; it does not come to grips with the discrimination that needs to be remedied; that there's also a solid chance, Mr. President, that it violates the United States Constitution.

"Another constitutional law expert, Evan Shirley, testified that H.B. 2366 violates Article I, Section 3, the equal rights clause; Article I, Section 5, the equal protection clause; and Article I, Section 4, the freedom of religion clause.

"Mr. President, I urge all my colleagues not to support this measure."

Senator Iwase rose in support of the measure and said:

"Mr. President, I rise to speak in support of this measure.

"Mr. President, we have debated this issue for three years now and I think it's important tonight that we go back to the beginning when the Legislature first responded to the case of Baehr v. Miike because I think in the three years that have elapsed, we have somewhat meandered away from what we sought to do. So, I would like to read briefly from the purpose clause of Act 217 which we enacted in 1994. It says:

'The legislature finds that Hawaii's marriage licensing laws were originally and are presently intended to apply only to male-female couples, not same-sex couples. This determination is one of policy. Any change in these laws must come from either the legislature or a constitutional convention, not the judiciary. The Hawaii supreme court's recent plurality opinion in Baehr v. Lewin, ..., effaces the recognized tradition of marriage in this State, and in so doing, impermissibly negates the constitutionally mandated role of the legislature as a co-equal, coordinate branch of government.'

"House bill 2366 will present the question to the people of this State and give them the opportunity to define again for the Supreme Court and for the people of Hawaii what the definition of marriage is. This is a rather simple question. And we have, throughout this session, gone on a roller coaster ride, going up and down, going through verbal gymnastics, trying to decide what we're going to do or to phrase how we are going to do it.

"The amendment is straight-forward. It says to the court what we said in Act 217 with respect to whether or not an amendment like this is effective. I would merely allude to the testimony of Justice Frank Padgett before the Judiciary Committee. Admittedly it was on another bill, but it was nonetheless a constitutional amendment which would define marriage as a union between man and woman. And Justice Padgett says that the amendment

would ban the relief sought. He was talking about H.B. 3347, C.D. 1.

"Mr. President, the constitution is the people's document. And I think there is great rage out there that the document was misinterpreted. There is a feeling among the people that there would be fundamental changes to this society of ours which they did not intend; that it's a decision made by two justices of the supreme court; that they ought to be given an opportunity to speak their minds. That is all this bill does. And I would hope that my colleagues would support this measure to give the people a chance to speak. To vote otherwise would be to deny the people the right to express their collective wisdom.

"Thank you."

Senator Holt added his support of the measure as follows:

"Mr. President, speaking in support of the bill.

"Mr. President, I'm fortunate to have custody of my three boys. Mr. President, my vote in support of this bill is a vote for their future to grow up and live in a society mindful of the traditional institution of marriage between a man and a woman, culminating in a family.

"Thank you very much."

Senator Graulty rose and stated:

"Mr. President, the fundamental difference between those who support this measure and those who oppose it is that those who oppose it believe that the court's decision in Baehr v. Miike was a correct one, and that the discrimination the court found needs to be addressed and remedied. The issue is one of fairness. Gay and lesbian people are important members of our community and we reaffirm, as they asked, that they be treated fairly. We appreciate that for many people marriage is a traditional and even sacred concept which has always been and should continue to be limited to opposite sex couples.

"Mr. President, the issue is one of civil rights, of fairness, of equality. Your Committee on Judiciary has supported those concepts throughout our deliberations on the issue of same-sex marriages. I ask my colleagues' support."

Senator Chumbley rose in opposition as follows:

"Mr. President, I rise in opposition to the motion.

"Mr. President, a previous speaker had said that the people are being denied the opportunity to decide. I'd like to draw our members' attention to the fact that there is still an open conference on H.B. 3347, C.D. 1, with a constitutional amendment proposed to the House by the Senate Conference Committee, Mr. President. If the House simply agrees to our Senate proposal, the people of the State of Hawaii will be given the opportunity to vote on this issue.

"Thank you."

Senator Iwase responded as follows:

"Mr. President, I'd like to briefly respond to the comments made by the Senator from Moanalua, the chairman of the Judiciary Committee, regarding the views of those who support this amendment and the question of the constitutional issue.

"Again, I want to take us back to 1994 because those of us who voted to support the recall are not speaking in a vacuum. I would just like to quote from the Legislature's findings. This is Act 217 passed by the Judiciary Committee in the Senate, House and the Legislature:

'Viewed from this context, it is apparent that Section 572-1, Hawaii Revised Statutes, and all of Hawaii's marriage licensing statutes, do not deny equal protection of the laws under Article I, Section 5 of the Hawaii Constitution. There simply is no class of individuals under that section that have been discriminated against in relation to another group of similarly situated individuals. Because all men and all women are treated alike by Section 572-1, there is no sex- (i.e., gender-) based classification.'

"Mr. President, I stand here tonight in support of the words that we voted on -- the majority -- in 1994. Thank you."

Senator Anderson rose in support and stated:

"Mr. President, I speak in favor of the motion, primarily because the chairman said that it should be left up to the courts, and that bothers me because we're supposed to be the policy makers. We didn't do anything. Supposedly there is a C.D. 1 that's hanging around and we know that's not going to pass because nothing is going to happen on that one. So it's going to run the clock and we'll have to wait another year.

"But more than anything else, Mr. President, when I had these three gentlemen in my office, their concerns were economic; their concerns were that their wills would be broken, and they said I didn't understand minorities. I went to the chairman to find out if there was something that we could do in a section to take care of their problems, rather than try to change the laws that we have. And as a minority, to those three people that came in, I told them that Bernice Pauahi Bishop's will was broken. I took offense to that because they themselves may have wanted her land. They were in favor of that particular measure. Now they want to have other measures and change other laws. I think what we should look at is what particular laws these people want for economic benefit and it's not something that we can change overnight to say that we're going to have same-sex marriages, domestic relationships, or whatever other types of legislation we're looking at.

"The constitutional amendment belongs to the people. They have the right to vote to make sure who is going to be looked upon as a married couple. For that reason, I would hope the people have a chance to vote for the constitutional amendment. Thank you."

The motion was put by the Chair and H.B. No. 2366, H.D. 1, entitled: "PROPOSING AN AMENDMENT TO THE CONSTITUTION OF THE STATE OF HAWAII DEFINING MARRIAGE IN THE STATE OF HAWAII," failed to pass Second Reading, by Roll Call vote, on the following showing of Ayes and Noes:

Ayes, 10. Noes, 15 (Baker, Chumbley, Fernandes Salling, Fukunaga, Graulty, Ige, Ihara, Kanno, Levin, Matsunaga, Matsuura, McCartney, Mizuguchi, Tam, Taniguchi).

Senator Baker then moved that H.B. No. 2366, H.D. 1, be laid on the table, seconded by Senator Ihara.

The motion to lay H.B. No. 2366, H.D. 1, on the table was then put by the Chair and carried by Roll Call vote on the following showing of Ayes and Noes:

Ayes, 15. Noes, 10 (Aki, Anderson, Bunda, Holt, Ikeda, Iwase, Kawamoto, Liu, Solomon, Tanaka).

Senator Fernandes Salling, chair of the Committee on Transportation and Government Affairs, requested a waiver of the required hours of Notice of a Public Hearing on S.R. No. 104, and the President granted the waiver.

At 11:31 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:32 o'clock p.m.

"EXECUTIVE CHAMBERS

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 2535

Honorable Members
Eighteenth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2535, entitled 'A Bill for an Act Relating to Individual Wastewater Systems.'

The purpose of this bill is to require the Department of Health to review the rules, procedures, and variance criteria specified in sections 342D-5 to 342D-7, Hawaii Revised Statutes, relating to the requirements for upgrading from cesspools to individual wastewater systems in areas zoned for rural or agricultural uses and to report its findings and recommendations to the Legislature before the regular session of 1997.

However, enactment of this bill is unnecessary. Senate Resolution No. 148, adopted by the Senate on April 4, 1996, and Senate Concurrent Resolution No. 188, adopted by the Legislature on April 22, 1996, requested the Department of Health to review the same requirements and to report to the Legislature, the Department does not need the enactment of this bill to review the requirements, and the Department, in fact, already has begun evaluating existing rules regarding wastewater systems.

For the foregoing reasons, I am returning Senate Bill No. 2535 without my approval.

Respectfully,

/s/ Benjamin J. Cayetano
BENJAMIN J. CAYETANO
Governor of Hawaii"

STANDING COMMITTEE REPORTS

Senator Tam, for the Committee on Ecology and Environmental Protection, presented a report (Stand. Com. Rep. No. 2964) recommending that S.R. No. 20, as amended in S.D. 1, be adopted.

On motion by Senator Tam, seconded by Senator Aki and carried, the report of the Committee was adopted and S.R. No. 20, S.D. 1, entitled: "SENATE RESOLUTION REQUESTING THE DEPARTMENT OF HEALTH TO IMPLEMENT A FIELD CITATION PROGRAM TO ASSIST WITH THE ENFORCEMENT OF ENVIRONMENTAL LAWS," was adopted.

Senator Tam, for the Committee on Ecology and Environmental Protection, presented a report (Stand. Com. Rep. No. 2965) recommending that S.R. No. 60, as amended in S.D. 1, be adopted.

Senator Tam moved that Stand. Com. Rep. No. 2965 and S.R. No. 60, S.D. 1, be adopted, seconded by Senator Aki.

Senator Tam rose in support of the resolution as follows:

"Mr. President, members, I rise to speak proudly in support of S.R. No. 60, S.D. 1, and urge all my colleagues to support it.

"This resolution provides a final opportunity for the Senate to go on record during this 1996 legislative session expressing its commitment to the people of Hawaii in support of the right of clean air for all. As you know, one of the centerpieces of my tenure this session as the chair of the Committee on Ecology and Environmental Protection has been an attempt to craft legislation which would address the needs of those residing in the vicinity of the Campbell Industrial Park. These people live in the region of the state with the most polluted air and have suffered through several recent incidents at the local refineries which required the evacuation of schools and hospitalization of children.

"I sought to create legislation which would have required the upgrade of outmoded equipment at these refineries, so that they would be forced to clean up their operations and make the air cleaner and healthier for all to breathe. I advanced this proposal twice this session: in S.B. No. 3083, S.D. 1, and in H.B. No. 388, H.D. 1, S.D. 1. And I am proud to stand here and that all my colleagues in the Senate for the fact that on both occasions the Senate gave support to this legislation. Although the House of Representatives failed to act on these legislative proposals, the effort will continue and this resolution once again provides the Senate with an opportunity to demonstrate its concern for and commitment to the people of that region.

"In relationship to S.R. 60, S.D. 1, it is to foster the development of environmental goals for the state to be implemented by the Department of Health. This will enable them to focus their resources so that they will have a clear plan of action based on well thought out priorities.

"One of those goals which has already been developed is the need to protect air quality. This resolution will contribute to the furtherance of one of the most important environmental goals in the area of our state most in need of improvement of its air quality. This resolution acknowledges the commitment of the refineries to upgrade their equipment in the event the air quality should severely deteriorate; it requests all facilities at Campbell Industrial Park to upgrade their old equipment so that they will emit less air pollution; and it requests the Department of Health and the local Emergency Planning Committees to work more closely with and be more responsive to the needs of the local community.

"The occurrence of these events will significantly improve the lives of these citizens, and we, as Legislators, demonstrate our finest form when we can say that we have truly helped those among us who are in the most need.

"Thank you again for all your support."

The motion was put by the Chair and carried, the report of the Committee was adopted and S.R. No. 60, S.D. 1, entitled: "SENATE RESOLUTION REQUESTING ALL GRANDFATHERED FACILITIES AT CAMPBELL INDUSTRIAL PARK TO UPGRADE THEIR EQUIPMENT TO MEET FEDERAL AND STATE CLEAN AIR ACT STANDARDS AT THIS TIME," was adopted.

Senator Baker also rose in support of the nomination and stated:

"Mr. President, I rise to speak in strong support of Mr. Douglas Ige's nomination to the District Family Court, Second Circuit, for the County of Maui.

"Mr. Ige has been a respected member of Hawaii's legal community for many years. He has held many important and impressive positions including deputy

prosecuting attorney and district per diem judge. His experience as a special deputy attorney general representing the Maui units of Child Protective Services and Mental Health make him ideally suited for his new responsibilities.

"In addition to his many legal accomplishments, Mr. Ige has offered his time to many community organizations, including serving as a board of director member of the Maui Youth and Family Services and a member of the Maui Child Care Committee and the American Cancer Society.

"Mr. President and colleagues, I'm confident that Mr. Ige's education, legal background and dedication to public service make him an outstanding choice as a District Court Judge. The people of Maui can be assured that Mr. Ige will bring a wealth of knowledge of the law. He will be fair and has the integrity and temperament to the judicial system that it requires.

"For these reasons and others, Mr. President, I'm pleased to support this nomination for confirmation. Thank you."

The motion was put by the Chair and carried on the following showing of Ayes and Noes:

Ayes, 24. Noes, none. Excused, 1 (Holt).

Stand. Com. Rep. No. 2952 (Gov. Msg. No. 200):

Senator Solomon moved that Stand. Com. Rep. No. 2952 be received and placed on file, seconded by Senator Holt and carried.

Senator Solomon rose in support of the nominee and said:

"Mr. President, upon review of the statements submitted by the nominee, your committee finds that the aforementioned nominee is a volunteer, willing to serve without compensation and will work with compassion and commitment to assist in administering various functions of the University of Hawaii. Your committee further finds that the nominee has been appointed based upon his professional credentials, integrity, and a desire to make Hawaii better through his participation on the Board of Regents of the University of Hawaii.

"Mr. Clyde T. Kodani is a civil engineer consultant who has been active in the community as well as professional organizations."

The motion was put by the Chair and carried on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Senator Solomon then moved that the Senate advise and consent to the nomination of JOSEPH F. BLANCO to the Board of Regents, University of Hawaii, term to expire June 30, 2000, seconded by senator Holt.

Senator Solomon rose in support of the nominee and said:

"Mr. President, upon review of the statements submitted by the nominee, your committee finds that the aforementioned nominee is a volunteer, willing to serve without compensation and will work with compassion and commitment to assist in administering various functions of the University of Hawaii. Your committee further finds that the nominee has been appointed based upon his professional credentials, integrity, and a desire to make Hawaii better through his participation on the Board of Regents of the University of Hawaii.

"Mr. Joseph F. Blanco is an executive assistant to the Governor of the State of Hawaii and serves as the chairperson on the University of Hawaii Board of Regents, and has been an active member of the community as well as professional organizations.

"Your committee has been concerned about the appearance of a conflict between Mr. Blanco's position as an executive assistant to the Governor and his reappointment to the Board of Regents and continuing serving as the chairperson. The Attorney General, however, has defined incompatibility as the physical impossibility of discharging the duties of two offices simultaneously, or, where there is an inherent inconsistency in the functions of the two offices that one person, in every instance, cannot discharge the duties of each. Your committee further finds that the Attorney General has concluded that the two positions are not inherently incompatible based on current facts regarding Mr. Blanco's duties and responsibilities as executive assistant to the Governor and as a University of Hawaii regent.

"Despite your committee's concern over the potential public perception that an incompatibility may exist, your committee is placing its trust in the Board of Regents and the President of the University of Hawaii to always act in the best interest of the university. Your committee, therefore, places the Board of Regents and the administration on notice that it holds them to their promises of fiduciary responsibility.

"Your committee diligently questioned this nominee who appeared before the committee about his role on this board and recommends that the Senate advise and consent to the nomination."

Senator Levin rose in opposition to the nomination and said:

"Mr. President, I rise with some reluctance, but I feel it is necessary to do so.

"With all due respect, and I really do appreciate the work done by the Executive Appointments Committee and the chair of the committee, I must respectfully rise and cast a vote in opposition to the nomination of Mr. Blanco -- not against him personally by any means, since I believe Mr. Blanco to be an excellent person who would be an excellent regent, but against his nomination. It seems to me that if we are going to have independent boards or commissions, it is not appropriate for a person to serve at the same time on a board or a commission as well as on the governor's staff. It is for that reason only, not in any way questioning Mr. Blanco's credentials, that I vote 'No.' It seems to me that conflict of interest is one thing; appearance of conflict is virtually as important. So is the appearance of lack of independence, and that causes me to cast a 'no' vote with respect to Mr. Blanco.

"Thank you."

Senator Grauity rose in support of the nominee and stated:

"Mr. President, I rise to speak in support of the nomination.

"Mr. President, this appointment of Mr. Blanco has brought into very clear focus a different kind of conflict of interest than those that we have seen before. What we have been used to seeing are resolutions of conflict of interest with regard to one's private business when one is asked to serve in government. What we have in Mr. Blanco's case is an individual who serves in two government positions and that's what made it difficult for your Committee on Judicial and Executive Appointments to deliberate. I believe we had four hearings on the matter as we struggled with what is a very new issue for the committee.

"We are guided by the fact that Section 78-5 (a) of our Hawaii Revised Statutes which was passed over 30 years ago does speak to the issue, and it says:

'Any prohibition in any law against the holding of outside employment or dual public office, employment, or position by a state or county officer or employee shall not bar the appointment of the public officer or employee to membership on a commission or board unless service on the commission or board would be inconsistent or incompatible with or would tend to interfere with the duties and responsibilities of the other office, employment or position held by the officer or employee.'

"Mr. President, this body has in the last 30 years confirmed nominations of those individuals who are members of or served the state in one capacity or another, but are being asked to serve in another capacity as a member of a board or commission. And the key, as the chairman has said, is whether the duties of the two positions are incompatible and incompatibility is determined by the facts. We had before us Mr. Charles Toguchi, the administrative director to the Governor, and he assured the committee that Mr. Blanco's duties as special assistant would not involve anything to do with the University of Hawaii. And it was for that reason that the committee felt that there was no incompatibility between him serving as special assistant to the Governor, as well as serving as a member of the Board of Regents.

"The perception problem, I think is there. It's generated by the media, by Common Cause, and others who feel that there is a perception problem. But the reality problem is what we're dealing with and the reality problem is that these positions are not incompatible and I think Mr. Blanco should be confirmed as a member of the Board of Regents. I urge all my colleagues to vote 'aye.'"

Senator Liu added his remarks in favor of the nomination as follows:

"Mr. President, I rise to speak reluctantly in favor of this appointment.

"I think both previous speakers raised the kind of issues which the committee had to deal with and they are not easy issues. I'm going to vote in favor of this nomination and hope that the message will reach loud and clear upstairs that being sensitive to issues of conflict, to appearances of conflict, as well as to substance, is very important. I also think that in the future, this administration will have to be, and should be, much more careful in how it accepts responsibility or attempts to pass off responsibility for the success or failure of the University to others. I think much too often I've heard it said both by members of the administration as well as members of the public that, well, whatever pitfalls that

occur at the University, you really can't blame the Governor because the Board of Regents makes the calls.

"So, I think this session, more than ever, shows that the administration will have to share in the success or the failure, as well as this body, of the University in the next few years. Mr. Blanco is clearly part of the administration and although we would hope that, in particular cases, there will not be conflicts depending on the issues that he works on, it is also clear that he is appointed because he shares some basic views about education and the University with the administration, perhaps more so than the other appointees, because of his role. And as such, the administration for the future, I believe, should not be cast by the media and others as merely indirect participants in the area of higher education.

"The other issue which brings this to the fore this session is West Oahu College, clearly an initiative by the administration ahead of the Board of Regents. So, together with this nomination and with the issue regarding West Oahu College, I think this administration has put itself on record as being responsible -- as responsible as the other players in regard to higher education -- and should be held accountable for the success or failure of that institution for the future.

"Thank you, Mr. President."

Senator Holt rose in support of the nominee and said:

"Mr. President, I speak in support of this nominee.

"During the hearing, Mr. President, Mr. Blanco presented a letter which indicated that we should place our trust in the U.H. administration and in the University Board of Regents in making this decision.

"In supporting the chairman's recommendation to move this nominee out of committee, I told Mr. Blanco that I took his words to heart, that I will trust the U.H. administration through President Mortimer, and I will trust the U.H. Board of Regents through Mr. Dan Ishii to make certain that Mr. Blanco is wearing the Governor's hat only or the Board of Regents' hat only, and insure that he never wears the Governor's hat and the Board of Regents' hat at the same time.

"Thank you."

The motion was put by the Chair and carried on the following showing of Ayes and Noes:

Ayes, 24. Noes, 1 (Levin).

At 10:41 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 10:50 o'clock a.m.

FINAL READING

Conf. Com. Rep. No. 106 (H.B. No. 2800, H.D. 1, S.D. 1, C.D. 1):

Senator Ikeda moved that Conf. Com. Rep. No. 106 be adopted and H.B. No. 2800, H.D. 1, S.D. 1, C.D. 1, having been read throughout, pass Final Reading, seconded by Senator Baker.

Senator Ikeda rose in support of the measure as follows:

"Mr. President, I rise to speak in support of H.B. 2800, H.D. 1, the State Budget. Mr. President, this budget marks the culmination of an arduous and trying

session. It marks opportunities seized and opportunities missed. It is a mirror of two approaches to government reform.

"This year the Senate put forward a number of proposals that were, to say the least, controversial. The Senate took the lead in calling for the true downsizing of government through the elimination and consolidation of state departments. Though our proposal was ultimately rejected by the House and the administration, our efforts have opened serious discussion on downsizing, and the Governor will be returning next session with solid proposals to that end.

"In children's mental health we called for the consolidation and coordination of services under a single managed care agency, which would lead to more efficient and consistent care for our youth in need. While this proposal, though supported by the director of health and the administration, was not adopted, again the discussion has been initiated to revamp this terribly troubled system.

"The Senate also put forward a proposal to increase and subsequently decrease the TAT, cap the counties share at an acceptable level of funding, and insure a steady source of revenue for the Hawaii Visitors Bureau. This measure too, met its end in the eleventh hour, and in the process all parties concerned may have missed a very big opportunity.

"This year the Senate went the extra mile in addressing the budget shortfall. We were innovative and intent on producing a fiscal situation that is responsible and forward-looking. While our proposals have met with resistance, our efforts have indeed shifted the paradigm, and the status quo now must be moved aside. While not our initial proposal, this budget represents the first tentative steps towards dramatic change.

"What this budget does is cut over \$140 million from the current fiscal year and over \$170 million from the next fiscal year. With cumulative reductions of over \$300 million over the biennium, this budget puts the brakes on the long-standing practice of living beyond our means.

"It is not, however, a budget that forsakes priorities. In public safety we made sure that the department maintained the necessary resources to preserve, and indeed expand, programs to help keep our prison populations manageable while keeping our streets safe.

"In education, this budget provides funds for classroom teachers and equipment that were not requested in the administration's budget. While the department has often asserted the contrary, this budget is yet one more testament to the legislature's commitment to an educational system that is effective and accountable.

"Mr. President, while this budget does reflect our commitment to the state's basic needs, I must caution that it is only a beginning. We have opened the door to meaningful change and now we must pass through. The decisions will be difficult, and the calls will be tough, but the Senate has shown that it can and will answer the call.

"With this, Mr. President, I would like to thank my colleagues for their support and courage during these difficult times. I ask that you join me in support of this budget, and I look forward to next year as we again take to righting the ship of state. Thank you."

Senator Liu rose in support of the measure and said:

"This year, Mr. President, I stand to speak in favor of this bill, although not without some reservations. It should be expected, I guess, from the Minority leader.

"I'm glad that the chair of the Ways and Means Committee is cautious in her review of this document, and I think relatively honest in indicating that there is still a long way to go for the future. But I also say that I think Republicans can declare victory in the war -- the overall war of ideas -- as to whether or not the government should continue to grow or whether or not the government has to stop growing, become smaller and more efficient.

"There seems to be a consensus. And true, the Senate took a tougher position than the House on this issue, but, Mr. President, it's also true that the Democratic Party leads in both chambers as well as in the executive branch. I believe that there has to be a greater exercise of consensus in leadership so that we can move forward, rather than just sideways.

"To put things in perspective, when you look at the numbers in terms of the overall operating dollars, we shaved less than one percent off of last year's budget when we look at fiscal year 1997 -- less than one percent. And for general funds, the figure is 5.3 percent -- not terribly impressive. It is a very small step in the right direction, as has been stated, but should also be a sign to the public that there needs to be a much clearer idea of how we go about making these changes.

"The budget is perhaps the most important document that we can pass and use as a mirror, as a canvass, as to what we want to do and what we see for the future. Well, after these last two years, Mr. President, unfortunately the mirror is still cloudy and the canvass is essentially bare. So let us all hope that we can do better in thinking, over the interim, and for those of us who come back next year, a greater resolve to hold to our positions and move toward a government that is more efficient, less costly, and in fact, be a vision that we can bring forward to the people of Hawaii.

"Thank you, Mr. President."

Senator Kawamoto rose in support of the measure and said:

"Mr. President, I rise to speak in favor of S.B. No. 2800, the State Budget.

"Mr. President, in these austere times, difficult decisions had to be made in the Ways and Means Committee and our committee made those tough decisions. I am most proud, as a member of the Ways and Means Committee and Vice Chair of Education, that we were able to keep our promise to keep education of our young people as our number one priority. We addressed and funded the requests by the Department for work load increase. These additional funds were not addressed by both the Governor's or the House' budget. We are addressing the increasing of the young people in our system.

"I would like to thank Senator Ikeda and her staff for a job well done. I urge all my colleagues to vote 'aye' on this budget."

Senator Matsuura then rose and said:

"Mr. President, I'll be voting 'aye', but with reservations. Thank you."

Senator Fernandes Salling also rose and said:

"Mr. President, would you please note that I will be voting 'aye' with reservations also."

The motion was put by the Chair and carried, Conf. Com. Rep. No. 106 was adopted and H.B. No. 2800, H.D. 1, S.D. 1, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE BUDGET," having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Senator Ikeda then rose and said:

"Mr. President, may I be permitted to make a late introduction?"

"Senator Kawamoto is correct. We owe a great deal of thanks to the staff, and I am extremely proud of them. I would like to call their names and ask them to stand and be recognized. You can hold your applause to the end.

"Our fiscal coordinator is Mr. Clay Springer; Luis Salaveria, our budget supervisor; Mark Buflo, JoAnn Chang, Patricia Chin, Pono Chong, Allison Goo, Jayna Kim, Sandford Low, Lane Otsu, Patrick Shon, Mika Unno, Richard Yuen. The bill research section: Terrence Aratani, Naomi Chinen, Malia Manol, Mary Yonamine, Vickie Sobe, Jane Takara, Margaret Terakawa, Beverly Wong, and Anne Williams. These people worked for the last month, day and night, and weekends, and I just hope that their families recognize them when they are finally able to take a break." (The staff of the Ways and Means Committee rose to be recognized.)

Senator Baker having requested that her remarks in support of this measure be inserted into the Journal and the Chair having so ordered, her remarks read as follows:

"Mr. President, I rise to speak in favor of this measure.

"Mr. President, this bill before us has been a long time coming.

"Senate Bill 865, C.D. 1, provides the state and counties with limited liability at beach parks and ocean recreation areas. It is important to note that while we are limiting the liability incurred by government, we are not abdicating our responsibility to the public at-large. Rather, this bill acknowledges that there are forces and conditions in nature which are beyond the control of mere mortals, and, yes, even government.

"Government does have a responsibility to do all it can to preserve the safety of ocean users. However, we also have a responsibility to the people of this state to protect their tax dollars from being siphoned off by seekers of deep pockets.

"Through this bill, the state and counties will continue to warn beachgoers of dangerous shorebreaks, strong currents or other known hazards. In fact, I believe that our warning system will be dramatically improved through new signage that better informs and prepares people for the inherent dangers of our oceans.

"I am confident that the system established by this bill will increase public safety, reduce ocean-relating accidents and injury, and protect the state and counties from unlimited liability.

"Thank you, Mr. President."

Conf. Com. Rep. No. 18 (H.B. No. 3862, H.D. 2, S.D. 1, C.D. 1):

Senator Chumbley moved that Conf. Com. Rep. No. 18 be adopted and H.B. No. 3862, H.D. 2, S.D. 1, C.D. 1, having been read throughout, pass Final Reading, seconded by Senator Grauly.

Senator Chumbley rose in support of the measure and said:

"Mr. President, in 1995 you authorized a Judiciary Subcommittee to look at school security and discipline issues. This body came out with a bill which was sent to the Governor and which was vetoed. When we came back this session we wanted to continue to address and, in fact, have struggled with this issue for several years now. Mr. President and members, it's time that the Legislature sends a very clear and a very strong message to every school, every student, and every parent that drugs will not be tolerated in our public schools, and that we will not tolerate dangerous weapons in our schools.

"Principals and teachers will now have a clear public policy statement which to enforce. This measure will allow the principal to suspend, with the superintendent's consent, those students which have been adjudicated under Chapter 19, Due Process, from attendance at school for up to 92 days. That's one-half of the year. Eighty-four percent of the teachers and 78 percent of the parents surveyed in a national survey have said that a zero tolerance package will in fact result in higher student achievement.

"This, Mr. President, will give our schools a chance to address some of the drugs, alcohol and discipline problems that they have struggled with and it will result in higher student achievement. I ask all of my colleagues to please support this measure.

"Thank you."

Senator Tam rose in support of the measure and stated:

"Mr. President, I rise in support of S.B. No. 2998, S.D. 1, H.D. 1, C.D. 1, Relating to Environmental Protection.

"This bill requires three objectives:

1. Requires the Department of Health to study and review state and federal environmental laws to ensure their continued force, effectiveness and consistency. It requires the department to report their findings and conclusions to the 1997 Legislature.
2. Directs the department to establish environmental goals and objectives with input from the regulated community and the general public.
3. Requires the department to review the goals and objectives every two years and report back to the Legislature immediately following the completion of the review.

"I wish to thank my colleagues, businesses, environmentalists, and state, federal and county officials for their positive insight and participation in this landmark legislation, especially the part to establish environmental goals and objectives for the State of Hawaii. Having future goals and objectives will establish an united direction to manage and protect our environment in a manner that ensures the health, safety and welfare of our citizens of this state, and preserves our limited natural resources for future generations.

"Furthermore, having common and united goals and objectives will help the State Legislature, the state

administration, the counties and the federal government to properly budget its limited resources in the environmental areas of land, water and air.

"Mr. President, your Committee on Ecology and Environmental Protection accomplished a long, outstanding problem in two legislative sessions. Mr. President, on a personal note, I thank you for asking me to take on the committee. At first, I'll admit I didn't want the committee, but you challenged me, with no money, to do something for the environment. The problem was getting all environmental parties to have common and united goals and objectives. In the next Legislative Session of 1997, we will have an easier time in budgeting in the area of environmental protection and the dollars will be more accountable.

"Thank you very much."

The motion was put by the Chair and carried, Conf. Com. Rep. No. 58 was adopted and S.B. No. 2998, S.D. 1, H.D. 2, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO ENVIRONMENTAL PROTECTION," having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

Conf. Com. Rep. No. 64 (S.B. No. 2446, S.D. 1, H.D. 1, C.D. 1):

Senator Chumbley moved that Conf. Com. Rep. No. 64 be adopted and S.B. No. 2446, S.D. 1, H.D. 1, C.D. 1, having been read throughout, pass Final Reading, seconded by Senator Kawamoto.

Senator Chumbley, speaking in favor of the measure, then said:

"Mr. President, I rise in support of this measure.

"Mr. President, this will result in the culmination of a two-year effort in which the Legislature set forth an interim study group to look at the education statutes and to bring those existing statutes into a framework that is more coherent and one that will start to set forth an enabling environment versus a compliance and mandatory type environment for our schools. This clearly puts students first in the reorganization and redesign of our

public school system. Further, I need to acknowledge all the work that was done by that study group.

"Mr. President, there is a handful of states across the nation that has undertaken this effort and some of the states had been ordered to do it by their supreme courts. Hawaii State is doing it from principal driven effort. I think that all of us here in the state can be very proud of this effort and it will be looked upon by many other states as a way to clean up education law.

"I ask for all of my colleagues to please support this measure. Thank you."

The motion was put by the Chair and carried, Conf. Com. Rep. No. 64 was adopted and S.B. No. 2446, S.D. 1, H.D. 1, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE RECODIFICATION OF THE EDUCATION STATUTES," having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Conf. Com. Rep. No. 66 (S.B. No. 2380, S.D. 1, H.D. 2, C.D. 1):

Senator Chumbley moved that Conf. Com. Rep. No. 66 be adopted and S.B. No. 2380, S.D. 1, H.D. 2, C.D. 1, having been read throughout, pass Final Reading, seconded by Senator Graulty.

Senator Chumbley rose to support the measure as follows:

"Mr. President, I rise also in support of this measure.

"Colleagues, we have a lot of good education bills this year and we have a package of legislation that all of us can be very proud of. There were a lot of controversial issues this year and compulsory education was one of those. I think that this conference draft, C.D. 1, comes up with a very good compromise. We are not lowering compulsory education from age 18 to 16.

"With this measure, we are creating one more exemption under the existing law which would allow the principal to expel, under certain circumstances, students who are continually disruptive or chronically truant. Once those individuals have been identified as a problem, and before the principal takes action, he is mandated to develop an alternative education plan in consultation with the parents, with the teacher, with the student, and that alternative education plan will then be put forth for the child. If the parent does not agree to that alternative plan, then, and only then, does the education of that child become the responsibility of the parent, and no longer the State of Hawaii.

"Mr. President, I want to acknowledge the work of the Judiciary chair on this effort and all the Conference Committee. I think we have come up with a middle ground compromise position that will, as part of a package, deal with some of the discipline problems that we have in our schools and create a much better environment for learning.

"I ask for everyone's support of this measure. Thank you."

Senator Kawamoto rose to speak in favor of the measure and stated:

"Mr. President, I rise to speak in favor of S.B. No. 2380.

"Mr. President, as you know, I fought against this bill in the subject matter committee and on the floor, expressing my community's concerns of having alternative education for this major social change. Today, I would like to thank the chair of the Education Committee, Senator Chumbley, and the chair of the Judiciary Committee, Senator Graulty, for providing for an alternative education plan in this bill for those students who may leave the traditional education system. I now urge all my colleagues to vote 'aye' on this bill."

Senator Kanno rose in support of the measure and stated:

"Mr. President, I rise to speak in favor of this measure.

"I'd like to start by expressing my appreciation to the chair of the Education Committee and the chair of the Judiciary Committee as well as all of the conferees on this measure. I think the discussion brought forward on this measure is a testament to the legislative process and something that we can all be proud of.

"I think this measure brought attention to the growing number of students whose needs are not being met by our traditional school system. I think we are coming to realize that not all of our students are going on to a college education and following a traditional path, but rather we need to be here to support those students who are going to be seeking alternatives in pursuing their education. And I think this measure is a strong step forward in addressing those needs.

"The fact that it requires parents to work together with school administrators in addressing the needs of these non-traditional students, I think, is a strong step in bringing the parent into the school, into discussion with the principal and the child, as well as to addressing the responsibility issue of the parents involved.

"This, together with another measure, H.B. 3138, which mandates the transfer of funds from the regular instructional program to the adult community education program for high school students who are diverted from our traditional high schools, makes a strong step for these students, and I ask that my colleagues continue to look at this area of need in our community. This is an area that is going to be the continuing focus and attention, and once again I want to extend my appreciation to those conferees involved. Thank you."

The motion was put by the Chair and carried, Conf. Com. Rep. No. 66 was adopted and S.B. No. 2380, S.D. 1, H.D. 2, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO COMPULSORY SCHOOL ATTENDANCE," having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Conf. Com. Rep. No. 68 (S.B. No. 2724, S.D. 1, H.D. 1, C.D. 1):

Senator Holt moved that Conf. Com. Rep. No. 68 be adopted and S.B. No. 2724, S.D. 1, H.D. 1, C.D. 1, having been read throughout, pass Final Reading, seconded by Senator Iwase.

Senator Liu requested a ruling of the Chair as follows:

"Mr. President, I would like to have it reflected in the record that I will be favoring both this bill and the next bill on the agenda and that I do work for a financial

institution. However, neither bill does apply to the institution I work for."

The Chair ruled that Senator Liu was not in conflict.

The motion was put by the Chair and carried, Conf. Com. Rep. No. 68 was adopted and S.B. No. 2724, S.D. 1, H.D. 1, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE CODE OF FINANCIAL INSTITUTIONS," having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Conf. Com. Rep. No. 69 (S.B. No. 3159, S.D. 1, H.D. 1, C.D. 1):

Senator Holt moved that Conf. Com. Rep. No. 69 be adopted and S.B. No. 3159, S.D. 1, H.D. 1, C.D. 1, having been read throughout, pass Final Reading, seconded by Senator Iwase.

Senator Tam rose and stated:

"Mr. President, I may have a possible conflict of interest. I sell life insurance and am employed by Metropolitan Life Insurance Company."

The Chair ruled that Senator Tam was not in conflict."

Senator Tam continued:

"Mr. President, I wish to register my 'no' vote for reasons which I will insert into the Journal. Thank you."

The Chair having so ordered, Senator Tam's remarks read as follows:

"Mr. President, I wish to register a 'no' vote on objections from independent insurance agencies.

"The objections are:

1. Since the banks provide a mortgage or business loan, they have an implied financial sledge hammer over the borrower. The borrower will feel that since the bank is providing/allowing them the loan for their home or business, they had better let the bank provide the insurance, even if they can or may obtain insurance coverages from some other entity at a lower cost and or have broader coverages.
2. Banks are unlike independent commission agents to help and advise and explain to their individual clients regarding the insurance required and/or that which will benefit the customer. The public will just be another number to the bank instead of a person who deserves better personal service.
3. This bill will also cause many independent agencies to close and their employees to be out of a job in their profession. Closing will not only increase unemployment but also decrease state and county taxes. There will be less need for office rental, and landlords income will be reduced. Suppliers who sell service and supplies to the independent agents will cease, thus have a ripple effect, as more and more insurance transactions will be done from the mainland via computer."

Senator Ikeda also asked for a ruling from the Chair and said:

"I need a conflict ruling. I too work for an insurance company."

The Chair responded:

"No conflict; you may cast a vote."

Senator Bunda also rose on a conflict of interest ruling from the Chair as follows:

"Mr. President, a conflict ruling please."

The Chair ruled that Senator Bunda was not in conflict.

The motion was put by the Chair and carried, Conf. Com. Rep. No. 69 was adopted and S.B. No. 3159, S.D. 1, H.D. 1, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO INSURANCE, ANNUITIES AND SECURITIES ACTIVITIES OF BANKS," having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, 1 (Tam).

Conf. Com. Rep. No. 73 (S.B. No. 2326, S.D. 1, H.D. 1, C.D. 1):

Senator Grauly moved that Conf. Com. Rep. No. 73 be adopted and S.B. No. 2326, S.D. 1, H.D. 1, C.D. 1, having been read throughout, pass Final Reading, seconded by Senator Chumbley.

Senator Baker rose in support of the measure and stated:

"Mr. President, I rise in strong support of this measure.

"Mr. President, this bill is very important for women who find themselves confronted with domestic violence when there may be firearms in the home and in need of temporary restraining orders. I would like to thank the Judiciary chair as well as all of the conferees for moving this bill forward. It will make the homes safer for women.

"Thank you."

Senator Anderson rose to speak against the measure as follows:

"Mr. President, I'll be voting against this and I'd like to express a few words on the reasons why.

"Mr. President, when we were in conference committee we asked the Police Department for some information on most of those spouse abuse cases they had recently with firearms. Those people did not own their firearms. This is strictly a firearms control bill.

"Some people may not know it, but I have a rather loud voice, and if I got into an argument with my wife at home and a neighbor called and said there's a domestic problem going on over there and it had nothing to do with guns, they could come into my home and seize whatever firearms I had, only because someone said there's a domestic problem there or that police officer had reasonable grounds to believe that there was a domestic problem with these firearms.

"I think it is a poor day that we will allow someone to come into your home and, for no reason at all, take away your belongings when it has nothing to do with a domestic problem. I do believe that everybody has a right to protection. I asked the people if there are any laws on the books now that prohibit them from turning in their spouse's weapon because one lady said that she gave her weapon to the neighbor because they were fearful. If

they are fearful of any type of domestic relationship that has firearms available in the home, they can turn it in to the police department. There is nothing that will prohibit that.

"I don't think we should be making laws that allow the police department to come into our homes for no reason at all just because someone calls up and says that there is going to be a domestic problem there.

"Thank you very much, Mr. President."

The motion was put by the Chair and carried, Conf. Com. Rep. No. 73 was adopted and S.B. No. 2326, S.D. 1, H.D. 1, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO DOMESTIC VIOLENCE," having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, 1 (Anderson).

Conf. Com. Rep. No. 75 (S.B. No. 2548, S.D. 1, H.D. 2, C.D. 1):

Senator Grauly moved that Conf. Com. Rep. No. 75 be adopted and S.B. No. 2548, S.D. 1, H.D. 2, C.D. 1, having been read throughout, pass Final Reading, seconded by Senator Iwase.

Senator Anderson rose in opposition to the measure and stated:

"Mr. President, I would like to speak against this bill also.

"Mr. President, this bill more or less says that we in government can tell people to let others go across our property and that we're going to get some liability. It is so very limited that it's a shame we would say that you would have to allow people on your property and then we don't cover them with full liability. It's a very limited liability. It is not, I think, within our jurisdiction to tell people who we will and will not allow on our property, and therefore I will be voting 'no.'"

The motion was put by the Chair and carried, Conf. Com. Rep. No. 75 was adopted and S.B. No. 2548, S.D. 1, H.D. 2, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO LANDOWNERS' LIABILITY," having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, 1 (Anderson).

Conf. Com. Rep. No. 77 (S.B. No. 2993, S.D. 1, H.D. 1, C.D. 1):

Senator Grauly moved that Conf. Com. Rep. No. 77 be adopted and S.B. No. 2993, S.D. 1, H.D. 1, C.D. 1, having been read throughout, pass Final Reading, seconded by Senator Matsunaga.

Senator Grauly rose in support of the measure and said:

"Mr. President, I rise to speak in support of this bill.

"Your Committee on Judiciary believes that this bill will be a great step forward in the area of probate. It will significantly reduce the time, complexity and expense of probate proceedings; it will free judiciary personnel from routine paperwork in the vast majority of probates in which there are no disputes. As the Chief Justice noted in his transmittal of the proposed legislation to the Legislature, 'Probate will no longer be a time-consuming, cumbersome process that Hawaii citizens dread to the

point that they spend hundreds and thousands of dollars creating trusts and rearranging title in order to avoid. At the same time, this bill provides ready access to a judge in the event either that a dispute arises during the course of a probate or that the interested parties desire judicial supervision. Thus, the probate courts will become like the rest of our courts -- places in which to turn to resolve disputes.'

"This bill also favorably impacts areas other than probate procedure. It creates a meaningful system for protection of the interests of surviving spouses, giving them the same sorts of rights to marital assets when the marriage ends by death as they are entitled to when the marriage ends by divorce; it preserves intact Hawaii's enlightened and well-thought-out 'ohana adoption' statute adopted by the Legislature in 1992; it establishes comprehensive rules for the interpretation and construction of wills and trusts which are not precisely written.

"In sum, it is a bill which enhances judicial efficiency, while preserving consumer choice in providing significant time and cost savings for consumers of our state faced with probate.

"Thank you, Mr. President. I urge all my colleagues to vote 'aye.'"

The motion was put by the Chair and carried, Conf. Com. Rep. No. 77 was adopted and S.B. No. 2993, S.D. 1, H.D. 1, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO UNIFORM PROBATE CODE," having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, none. Excused, 1 (Iwase).

Senator Grauly moved that S.B. No. 2416, S.D. 1, H.D. 2, having been read throughout, pass Final Reading, seconded by Senator McCartney.

Senator Matsuura rose in support of the measure and said:

"Mr. President, I'm going to be voting in favor of this bill, but there are a few comments that I would like to make.

"The Senate wanted to amend this bill by putting ephedrine as one of the controlled substances. The reason why the Senate wanted to put ephedrine as a controlled substance was that ephedrine is one of the main ingredients to make the drug 'ice.'

"We all know that 'ice' is totally out of control in Hawaii, and one of the reasons why ice is totally out of control is because they've been making it in homes. You can make it in your kitchen but you need three basic ingredients to make 'ice.' One is acetone; the other one is iodine; and the third is ephedrine. You can't stop people from buying acetone because that's an over-the-counter product, and so is iodine. But ephedrine, we can stop its import into the state by making it a controlled substance. Right now, they're bringing ephedrine in through the mail order.

"If ephedrine was classified as a controlled substance, then we can stop the flow of ephedrine into the state. The Drug Enforcement Agency loved the proposed amendment, including the pharmacists, etc., yet the Huse members wouldn't agree with the proposed amendment because they didn't have a hearing on it. I'm not going to say who is right and who is wrong, but sometimes we better use common sense. Next year we'll make ephedrine a controlled substance and hopefully we'll stop the import of ephedrine. Maybe then we can stop the proliferation of the use of 'ice' in Hawaii.

"Believe me, ice is totally out of control. Ask any police officer, the parents of kids who are on ice, they'll tell you the tragedy. We should have included ephedrine as a controlled substance this year.

"Thank you."

Senator Anderson rose and said:

"Mr. President, could you put me down with reservations for the same reason as Senator Matsuura. We did talk to the chairman of the Health Committee in the House and he would not include it this year."

The motion was put by the Chair and carried, the Senate agreed to the amendments proposed by the House to S.B. No. 2416, S.D. 1, and S.B. Conf. Com. Rep. No. 74 (S.B. No. 2381, S.D. 1, H.D. 1, C.D. 1):

Senator Levin then rose and stated:

"Mr. President, I would like to insert some remarks against this bill into the Journal."

The Chair so ordered. Senator Levin's remarks read as follows:

"The goal of S.B. 2381, C.D. 1, is laudable. No one can argue with the desirability of preventing custodial interference. However, I believe there may be 'unintended consequences' resulting from this bill, and for that reason I must oppose it.

"The scenario I fear is as follows. Suppose Jane Doe's marriage is having problems, and she decides to take the children and return to her family home in California. Husband John then goes to his attorney for some advice. He may be pleasantly surprised to learn from his attorney that his wife may just have committed a felony under Hawaii law. 'In the absence of a court order', she has 'intentionally' 'taken' the children and 'removed them from the state'. Has she done so 'with intent to deprive her husband of his right to custody?' Perhaps not, but I cannot say that with certainty. And we are talking about a felony offense. I would want to be certain before approving such legislation.

"Suppose wife Jane sees an attorney before leaving. The attorney must advise her that she cannot be protected completely unless she first obtains a court order. That can take time. Suppose Ms. Doe is desperate to leave because her husband has threatened or beaten her. It does not matter, since she can only avoid the effects of this Act by establishing 'good cause', defined as 'necessary to protect the minor from immediate bodily injury'.

"To further complicate the matter, suppose Ms. Doe informs her attorney that she is leaving on the midnight plane, regardless of the possible consequences. What, then, is the ethical obligation of the attorney? Depending on what Ms. Doe says, does the attorney have an obligation to inform appropriate authorities, to prevent the commission of a felony? I believe the Disciplinary Rules of the Court would require some action.

"My interpretation of this bill may be in error, or police and prosecutors may take a more relaxed approach to its enforcement than I am anticipating. But until my concerns have been definitely addressed, I cannot vote for this measure."

The motion was put by the Chair and carried, Conf. Com. Rep. No. 74 was adopted and S.B. No. 2381, S.D. 1, H.D. 1, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO MISSING CHILDREN," having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

Senator Kanno rose in support of the measure and stated:

"Mr. President, I rise to speak in support of this bill.

"Mr. President, my comments are mainly geared at some of the media coverage on this bill and I think there is a lot of confusion by the people providing news coverage on this matter. I think the Legislators involved are very concerned about the impact on public employees that this measure would implement. And just to explain, what this bill provides for is the starting of a payroll lag to commence on January 1, 1997. So that provides for about the next seven months' time for public employees to prepare for the implementation of a payroll lag.

"Now, the payroll lag will be implemented over a period of approximately nine months. It would be done gradually, beginning in the month of January 1997, beginning with the first pay period which would go from January 1 through January 15. Normally, public employees under our current system get paid on January

15, the last day of the pay period. The implementation of the lag means that they would instead be paid one day later on January 16 for that pay period. For the second pay period which goes from January 16 through January 31, they would be paid late two days. For the pay period in the first half of February from February 1 to February 15, their paycheck would be three days later, so they would be receiving that on February 18. And that would continue and that transition period will go all the way through September 30, when finally, for the pay period that goes from September 1 through September 15, they would be receiving their paycheck on September 30.

"The other part of the bill, because of the Legislators' concerns about the impact on public employees, is to provide that the Department of Human Resources Development shall establish a program to assist public employees who experience financial hardship due to this act. And I think we are very concerned about the perception that public employees are being greatly hurt by legislation being considered this year. We did decide not to implement the mandatory furlough bill.

"This measure, in addition to providing \$47 million toward our bottom line in fiscal '97, also addresses another serious matter that the administration has not been able to handle -- and that has to do with salary overpayments. In order for our current system to work, in order for that employee to receive a paycheck on January 15, the final day of the pay period, the time sheets and time cards are being submitted days in advance. So by implementing the payroll lag, we will be addressing two problems at the same time. One being, helping our bottom line with \$47 million and secondly, the salary overpayment problem which had been running into the millions of dollars.

"I urge my colleagues to vote 'yes' on this measure. Thank you."

Senator Anderson rose in opposition to the measure and said:

"Mr. President, I'd like to say a few words, if I may.

"I'd like to vote 'no' on this particular matter, and I don't want to point any fingers but I will say that we are the ones who caused it. We did set up a new program, hired new personnel. It was through our own fault that we are where we are today. And now we're asking everybody to take this pay lag. And I realize that most of us are saying, well, at least we're not laying off people. And I don't think that's where everybody is coming from.

"I think what we have to look at is where do we cut and how do we cut. Do we get rid of whole departments, move administration? Just what are we going to do that's going to be fiscally responsible? We didn't do that so everybody is going to have to take the jerk, and we're not in there ourselves as far as I remember. And I think that's one of the things that the community looked at. If you are going to have a payroll lag for the employees, they wanted us to also take the same type of lag in our paychecks.

"So for that reason, I will be voting 'no.'"

Senator Ikeda rose in support of the measure as follows:

"Mr. President, I rise to speak in favor of this measure.

"I don't think that any of us are really particularly happy about having to pass this bill, but it does do two things. First of all, it addresses the problem that we have with the overpayments and the fact that there are a few

million dollars that have been overpaid and we are having a difficult time collecting them. Secondly, it does, by way of passing this bill, produce about \$47 million, and that \$47 million will go a long way towards helping us to make selective cuts in personnel.

"I don't believe that we should fool anybody and say that these cuts aren't going to be made. They are made in this budget and they will continue to be made, but without this kind of a bill you can anticipate a RIF similar to the one that we saw occur last year during the interim. And I don't think any one of us, if we had our choice, would say that's a good way to proceed. Thank you."

Senator Anderson responded:

"May I respond, Mr. President? I thoroughly agree with the chairwoman that nobody feels very happy about this. However, when we were in committee we asked different department heads why did this happen? How did you happen to overpay? How come there was delayed payments on sick leave? Where did this all start? And they didn't come up with good answers. They weren't justifying the problems that we have today. And I think that's what we were supposed to have done is gotten to the bottom of this. And when I said that we needed good surgery, what we did is we had programs that we should have gotten rid of that should have never started in the first place that were not working. And we turned around and we said what we're going to do instead of putting this to death is we'll go ahead and amputate and just feed it a little bit more. That's the problem that we're having.

"We haven't looked at good fiscal, responsible types of programs that should not be funded because they're not good. We should get rid of some of the departments that are not functioning properly. What we do is every time we try to get rid of people, we keep the top echelon and we remove secretaries and clerks and the whole bit because people come down. If a person isn't functioning as a supervisor or administrator, then that's the one that should go, and then we'll save some bucks -- big bucks. If we don't function, the people have the right to throw us out. That's the same thing that we have to look at. If it's not functioning, dump it. Thank you very much."

Senator Ikeda then responded:

"Mr. President, I couldn't agree more with my colleague across the aisle. I think that we have made an attempt to reorganize and downsize government and consolidate departments. As I said earlier in my speech on the budget, the momentum has started. The administration will have to come in with some recommendations next year.

"I would like to just say that we are open to any specific suggestions that the good Senator may have and we would welcome his recommendations as to programs and departments that aren't working.

"Thank you."

FINAL READING

Conf. Com. Rep. No. 51 (S.B. No. 2211, S.D. 2, H.D. 2, C.D. 1):

Senator Ikeda moved that Conf. Com. Rep. No. 51 be adopted and S.B. No. 2211, S.D. 2, H.D. 2, C.D. 1, having been read throughout, pass Final Reading, seconded by Senator Baker.

Senator Kanno rose in support of the measure and said:

"Mr. President, I rise to speak in support of this measure.

"Mr. President, I wanted to point out how important this bill would be for construction of school facilities all across the state. This bill calls for a constitutional amendment which would be done this coming year to provide that funds for school construction projects would not lapse at three years. I'm sure we are all familiar with the need of school facilities, especially at the intermediate and high school levels, because we are badly in need of a new intermediate school, being Kapolei Intermediate School, and we are also badly in need of Kapolei High School being built. And I'm aware that there are a number of other projects throughout the state also in line.

"With an intermediate school costing over \$30 million today and a high school costing over \$70 million to build, and with our annual \$90 million appropriation for school construction projects, we would be hard pressed to meet the needs of these particular areas, not to mention the buildings, the cafeterias, the office buildings, the gyms and other facilities that are also needed.

"So I ask the members to please take a close look at this measure and if they see fit, to please advise their constituencies that this will be on the ballot. It will be an important measure for us in meeting the school construction needs of the future. It provides that we will be able to enter into long-term leases, lease purchase arrangements, qualified design build contracts, and other agreements that would allow for the provision of public school facilities.

"We do really need to look at new ways of getting our schools built. There are developers out there who are willing to cooperate and help us build our schools, and we need to be looking at these kinds of ways to meet these needs.

"I urge my colleagues to vote 'aye.' Thank you."

Senator Anderson added his remarks as follows:

"Mr. President, I'm for the bill but I do have some reservations.

"I agree with the chairman that if anything, the construction industry needs a boost. But we keep saying, not only for new school projects but repair and maintenance and everything else, that we can't put it out all at one time because we don't have enough contractors out there. I think there's a whole bunch of contractors that are out of work. They need to have the jobs. If we have the money, let's fund the projects and make sure that they move forward. That would certainly help our economy. And I don't think that it should be only certain contractors that get certain jobs. Make sure that everybody gets a little piece of the pie. That would certainly help our industry and will certainly help our economy.

"Thank you, Mr. President."

Senator Liu rose to speak against the measure and stated:

"Mr. President, I rise to speak in opposition to this measure.

"Mr. President, I did serve on the Conference Committee and I can say that the chairman of the Committee on Health worked very hard, I think, in attempting to represent very firmly and steadfast the views of many members of this body in regards to the community hospital system. But after reviewing the final product and after seeing, I guess, the overall theme that seemed to support the approach that this body took and I think to some degree the body across the way, I just cannot find myself to support the bill because I think it goes in the opposite direction from which we should be going.

"Some have said that this bill will help the system become 'more independent.' Some have even used the phrase 'privatize.' I would argue most vehemently that this bill does nothing to help privatization. It does very little to help greater independence, if that is what some people want in regards to this hospital system. In fact, it does things which will make it more difficult to have more options and have more creative ways of looking at how to best run this system.

"The bill is very up front in indicating that this new Hawaii Health System Corporation will be an instrument and agency of this state. It's almost an oxymoron to indicate that this is an independent 'agency of the state.' It's still going to be a part of the State of Hawaii.

"The Legislature can insert itself to take a look at the kind of services that is being offered and whenever there is a disagreement as to what is a substantial reduction or elimination of direct patient care services. Well, that will require the approval of the Legislature and the Legislature, on its own, may intervene when there are concerns or questions. And I think many times there will be questions over interpretation of the kinds of services being made available.

"More problematic on an operational standpoint, this bill indicates that the new board cannot assign or lease, hypothecate or sell ... really, it can't do anything in regards to its assets; and in regards to using its assets in a way that will allow it to actually leverage itself out of dependency from the state, which I think some people here have said should be a goal.

"This bill creates a new civil service system for hospital employees. I have no idea how that is going to aid changes in the future. And if we have problems with the current contracts that we have with our unions there, I don't really see how creating a new system is going to change that very much.

"I'm wondering why the administration or others haven't been more creative in the last year-and-a-half in revisiting this long-term issue of how to look at the hospital systems, despite the various task forces, etc., that have been formed. We're not looking at empowering the employees. Maybe we should put out an RFP to the private sector, but allow employees to have a stock ownership in the new entity.

"These are the kind of ideas which I think should have been put forward, but have not been. I think, unfortunately, what we have here is a bill that will, rather than make it easier to manage this system in the years to come during the transition over to this new board and new corporation which will still be an instrument or an agency of the state, things are going to be worse.

"So, with that, Mr. President, I urge us to perhaps reconsider the action we are moving toward, and I urge others to vote against this bill. Thank you."

Senator Baker rose in support of the measure and stated:

"Mr. President, I rise to speak in favor of this measure.

"Mr. President and colleagues, S.B. 2522, C.D. 1, is but one of the many important initiatives this body has put forward as part of our commitment to making government more efficient and responsive to the people of this state. I clearly take an opposite view from the previous speaker.

"Specifically, this bill restructures the current bureaucracy-laden community hospital administration system by fashioning it into a public corporation, the Hawai'i Health Systems Corporation. This new body, consisting of healthcare providers and stakeholders within the community hospital system, is being established to give more autonomy to our community hospitals so that they may better serve and provide for the medical needs of the people of this state.

"Mr. President, most of the community hospitals are on the neighbor islands and, for the most part, represent the only long-term or acute care facilities available to the residents there. For many years our communities have clamored for autonomy -- for the opportunity to have our community hospitals run more like the private sector and to be freed from the crushing bureaucracy in the Department of Health. This bill is a milestone because it moves clearly in that direction. The hospitals now have a structure in place that will enable them to focus on their primary mission ... which is quality health care.

"Through this new corporation, the community hospitals will have the opportunity to manage their own resources and be accountable for their own fiscal integrity. I believe in the long run that this will provide cost savings to the taxpayers in this state and, more importantly, for those of us who have no other options, it will allow us to access better health care service throughout our communities.

"Hawai'i is often recognized for its outstanding health care delivery system that is the envy of our nation. The Hawai'i Health System Corporation is yet another example of how this state is structuring its institutions to, in this instance, enable our community hospitals to be in a position to provide affordable, quality health care for the residents of this state that must depend on this system.

"I urge my colleagues to vote in favor of this measure. Thank you."

Senator Fernandes Salling then inquired:

"Mr. President, would the chair of Health yield to a question?"

The President posed the question to Senator Levin and Senator Levin having answered in the affirmative, Senator Fernandes Salling continued:

"Maybe I've missed something in the bill and you can point it out to me, but on page 5, we've set up a corporation board consisting of eleven members and it seems to be fairly set out in terms of their representation -- one member from the city and county of Oahu, one from Kauai, one from Maui, one from the eastern section of Hawaii, one from the western section of Hawaii, and five members at-large. Now, in looking further on page 20 and 21, this is where the question comes in, Mr. President, because I'm confused. Now, I see that we have regional management advisory committees and this advisory committee will consist of nine members. The management advisory committee ... and it just states the east Hawaii region, and maybe somewhere else in the bill it sets out how it is to be handled from Oahu, Maui and Kauai, and that would be my question. And I hope that it is in the bill, but it only addresses the Big Island. It states that the East Hawaii Region (and this is regional, not corporate -- now there are two separate issues here), the regional committee shall have three members who reside in the Kau district, three members ... in the Hamakua/North Hilo districts, three members ... in the South Hilo/Puna districts. The West Hawaii region shall have not less than three members who reside in the North Kohala / South Kohala district."

"Would the chair please explain to me if somewhere else in the bill we have spelled out that, with respect to the regional committees, we have the membership stated specifically as you have for the Big Island, stated for on the regional for Oahu, Kauai and Maui."

Senator Levin responded:

"Mr. President, I should have specified that I would yield to a question of 20 words or less, but be that as it may, I would point out to the Senator from Kauai that on page 20 it talks about a management advisory committee for each region, so each of the five regions will have a management advisory committee made up of nine members. I consulted with or sent communications to all the neighbor island Legislators, including the Senator from Kauai, asking them if they wanted to have any special designation with respect to residency of the members on their islands' advisory committee. The response I got back from Maui was that they did not need any special designation; I did not hear from Kauai; and from my colleagues on the Big Island, I did get responses and I tried to accommodate the request from West Hawaii.

"So the short answer to the inquiry is that there will be a management advisory committee for the Island of Kauai made up of nine residents of the Island of Kauai but with no other specific designation. With respect to East Hawaii and West Hawaii, we have specified where the members should reside."

Senator Fernandes Salling continued to inquire:

"Would the chair please continue to yield to a few more questions? (Senator Levin: "I will.") For obvious reasons I'm sure you know why you did not hear from the Senator from Kauai. But how is it going to be handled, then, for Maui and Kauai who decided not to spell it out in the bill. Who's going to choose? How is it going to be handled?"

Senator Levin replied:

"The chief executive officer (on page 20, line 10) will be making the appointments to the advisory committees."

Senator Fernandes Salling continued:

"And that is from each respective island?"

Senator Levin answered:

"Yes, there will be five management advisory committees, one for each region, for Kauai ..."

Senator Fernandes Salling interjected:

"The chief executive officer is not ..."

Senator Levin responded:

"The chief executive officer of the corporation."

Senator Fernandes Salling continued:

"You don't have one for each island, do you? You're talking about the head guy, and he will decide how it's going to be handled and who will be picked, and which portions of the islands will be represented. Is that correct?"

Senator Levin answered:

"The chief executive officer will be appointing the members of the advisory committees, Mr. President."

Senator Fernandes Salling inquired:

"So what I just asked you, is that correct?"

Senator Levin replied:

"I believe that is correct."

Senator Fernandes Salling further inquired:

"So would your advice be then, for those of us who did not designate specifically in the bill as the Big Island did, once the chief executive officer is selected, consult with them and inform and advise them that we would like to see it handled in the same manner, perhaps, as it was on the Big Island. Would that be your best advice?"

Senator Levin answered:

"With respect to the corporate board, you need to approach the Governor and try to get as much and the best representation from Kauai as possible. With respect to the management advisory committees, it would be the chief executive officer. And if in the next session the Island of Kauai wants to somehow designate how the committee members will be chosen other than this, I am sure that whoever will be chair of the Health Committee would be receptive to that. I certainly would be."

Senator Fernandes Salling then said:

"I certainly hope so, if you were certainly the chair of the Health Committee, which I certainly hope you will be."

"Thank you, Mr. President."

Senator Kawamoto rose to support the measure as follows:

"Mr. President, I rise to speak in favor of H.B. 3138, Relating to Adult Education.

"I would like to thank the subject Chair, Senator Chumbley, for listening to you on opening day, and to many of us who said we needed to beef up adult ed to prepare for the social change in our comp ed bill. We need to look at adult ed as one of many alternative education programs and to be treated as such and not as a step child as is presently being done by the DOE.

"I hope this bill will make the Department of Education revisit the adult ed programs in light of our comp ed bill and the recent change in policy of the Community Colleges to drop remedial english and math courses. I

urge my fellow colleagues to vote 'aye' on this bill. Thank you."

Senator Chumbley rose and stated:

"Mr. President, I have some written remarks I'd like to have inserted into the Journal."

The Chair having so ordered, Senator Chumbley's remarks read as follows:

"Mr. President, I rise in support of this measure.

"Mr. President, this bill is just one of twenty-three measures that your Committee on Education has brought forth for final legislative consideration. This package of initiatives is something that all members can be very proud of, Mr. President, for they will have a very positive impact on public schools through-out our state.

"The first section of this bill will enable all schools to retain profits arising from student entrepreneurial activities.

"The second section develops a process in which businesses or individuals can receive a tax deduction to promote charitable contributions of educational technology equipment and services to our public schools. This will clearly assist the state in getting technology into the schools at a much faster pace by creating new partnerships with business.

"The last part of this bill will provide a place within the adult and community education programs for the at-risk-students who do no function well within the traditional high school environment. Further, it requires the DOE to move money to support the at-risk-students who are now in alternative programs. And finally, it allows the DOE to charge tuition to adults who require remedial courses prior to entry into our community college system.

"I ask all of my colleagues to support this important measure."

The motion was put by the Chair and carried, Conf. Com. Rep. No. 131 was adopted and H.B. No. 3138, H.D. 1, S.D. 2, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO EDUCATION," having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Conf. Com. Rep. No. 132 (H.B. No. 1716, H.D. 1, S.D. 1, C.D. 1):

Senator Ikeda moved that Conf. Com. Rep. No. 132 be adopted and H.B. No. 1716, H.D. 1, S.D. 1, C.D. 1, having been read throughout, pass Final Reading, seconded by Senator Ige.

Senator Kawamoto, rising in support of the measure, then stated:

"Mr. President, I rise to speak in favor of H.B. 1716, Relating to UH/West Oahu.

"First of all, Mr. President, I would like to thank the Governor and his staff for the plan to make a dream for so many for so long, 20 years, come true. I would like to thank the chairs of Higher Ed, Planning, Ways and Means, and Housing. Senators Ige, Iwase, Ikeda and Bunda, respectively, for allowing this bill along with S.B. No. 608 and H.B. No. 3970 to pass through their committees to make West Oahu University a reality. I

would also like to thank the James Campbell Estate for being flexible in allowing changes in the original agreement to allow additional time to begin construction.

"I would very much like to also thank my colleagues in the Senate and our counterparts in the House for your vision, your patients, and your help in bringing this project much closer to reality. Having said all that, I assure you, Mr. President and honorable colleagues, that the new campus at spacious Kapolei will truly be a tribute to this Legislature and one that we can all be proud of.

"Some day as we reminisce and look back at this session, we can all take pride that we played a part in developing this world class campus as an institution of higher education for our young people. Mr. President, I urge all my colleagues to vote 'aye' on this bill. Thank you."

Senator Taniguchi rose and stated:

"Mr. President, regretfully I will be voting against this bill and I request that my comments be inserted into the Journal."

The Chair having so ordered, Senator Taniguchi's remarks read as follows:

"Mr. President, I rise to speak in opposition to H.B. No. 1716, H.D. 1, S.D. 1, C.D. 1. In doing so, I would first like to state that I am supportive of the land exchange portion of this bill. What I oppose is the establishment of a special fund.

"In these times when the Legislature and Executive are making significant cuts to the University of Hawaii system's monetary support, and substantial increases to student tuition costs are being made by the Board of Regents, it seems odd that we are embarking on a path to lock ourselves into making major expenditures on a new four-year university campus through a special fund.

"For anyone who believes that we are somehow funding this new campus without significantly affecting our state budget, I ask that you look at the facts. We are already spending \$64.4 million to repay the Airport Special Fund for funds used to acquire the Hawaii Raceway Park property -- the land now being exchanged with the Campbell Estate. Construction costs and operating funds for a new campus will be in the hundreds of millions of dollars. This will certainly greatly impair this Legislature's ability to fund other good and worthy programs in the future.

"Secondly, I do not understand why we need a special fund for a particular campus. It is a bad precedent and sends a message to other segments of the University system -- which have long waited for funding for their own facilities or programs -- that this project will leapfrog them. I believe that this is a matter of fairness, and that the West Oahu campus must wait its turn like everyone else.

"Because of my past and continued support for higher education for the people of Hawaii, it is with regret that I must vote against H.B. No. 1716, C.D. 1. Thank you, Mr. President."

Senator Kanno rose in support of the measure as follows:

"Mr. President, I rise to speak in favor of this measure.

"Earlier in the session there was discussion about traffic in regards to the University of Hawaii at Manoa campus,

and I think the bill before us presents a tremendous opportunity for our whole community. I think that there's always been a concern about access to the University of Hawaii at Manoa, and particularly with the communities of Filipino and Hawaiian ancestry. These communities are greatly under-represented at the Manoa campus. Whatever the reason is that certain communities may or may not have access or may have barriers towards succeeding at Manoa, we hope that with the prospect of a new university campus on the scale of U.H. West Oahu, we'll resolve some of those issues.

"I think this also goes to address some of the struggle that we've been having with growth and development on the Island of Oahu. Every community meeting that I go to, our freeway off ramps and our traffic situation is brought up. And I think as we look to the Kapolei area as our second city, and we look at resources and facilities such as U.H. West Oahu, I think there is hope that we are going to be able to go into the future with a well planned community.

"I urge my colleagues to vote 'aye.' Thank you."

Senator Chumbley then said:

"Mr. President, please ask the clerk to mark my 'aye' vote with reservations. I am concerned about the fiscal impact to the neighbor islands' community college system in the future, as a result of this."

Senator Fernandes Salling added:

"Mr. President, for the same reasons stated previously, will you please ask the Clerk to mark my vote 'aye, with reservations.'"

Senator Matsuura said:

"Mr. President, please mark my vote 'aye, with reservations' also."

The motion was put by the Chair and carried, Conf. Com. Rep. No. 132 was adopted and H.B. No. 1716, H.D. 1, S.D. 1, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE UNIVERSITY OF HAWAII," having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, 1 (Taniguchi).

Conf. Com. Rep. No. 134 (H.B. No. 3773, H.D. 1, S.D. 1, C.D. 1):

Senator Ikeda moved that Conf. Com. Rep. No. 134 be adopted and H.B. No. 3773, H.D. 1, S.D. 1, C.D. 1, having been read throughout, pass Final Reading, seconded by Senator Baker.

Senator Bunda then rose and said:

"Mr. President, please note that I will be voting 'aye, with reservations.'"

Senator Aki rose in opposition to the measure and stated:

"Mr. President, I rise to speak against H.B. 3773, C.D. 1. I have comments here against this bill and I would like to have it inserted into the Journal."

The Chair having so ordered, Senator Aki's remarks are as follows:

"Mr. President, I rise to speak against H.B. 3773, C.D. 1.

"I have grave concerns over the process. The process establishing the Sovereignty Election Council has divided our Hawaiian community and created confusion. I believe that the process will continue to divide our community, bring on legal challenges, and may, in fact, hinder those who are working to create a Hawaiian nation.

"I also have concerns about the timing of the election, which is scheduled later this year.

"There is much frustration, confusion, mistrust and anger in our community. Under these circumstances, I think this vote is unfair to our Hawaiian community. We don't need to ask whether it wants to form a Hawaiian nation. That question has already been answered -- first, by the United States government in the form of the apology resolution passed two years ago, also, the people of this state have indicated many times their strong support of giving the Hawaiian people their rights, privileges and land.

"The task before us and especially the leaders of the Hawaiian organizations is to provide leadership and to develop legislation that will bring our community together.

"We are not doing that by passing this bill.

"I will vote against this bill."

The motion was put by the Chair and carried, Conf. Com. Rep. No. 134 was adopted and H.B. No. 3773, H.D. 1, S.D. 1, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAIIAN SOVEREIGNTY ELECTIONS COUNCIL," having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

No. 3964, H.D. 1, S.D. 2, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO STATE GOVERNMENT," having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

EMPLOYMENT," having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Conf. Com. Rep. No. 148 (S.B. No. 2819, S.D. 2, H.D. 1, C.D. 1):

Senator Ikeda moved that Conf. Com. Rep. No. 148 be adopted and S.B. No. 2819, S.D. 2, H.D. 1, C.D. 1, having been read throughout, pass Final Reading, seconded by Senator Bunda.

Senator Fernandes Salling rose to speak against the measure and said:

"Mr. President and respected colleagues, I rise in opposition to this bill. I cannot in good conscience vote in favor of this measure before us, although I wish to make it clear that I don't expect this body to vote down the measure at this time, given the kind of legislative and budgetary emergency which would result from its failure.

"As chair of the Transportation and Government Affairs Committee, it's my duty to publicly make it clear that this measure which transfers \$19 million from the highway special fund to the general fund will result in a statewide fuel tax increase of not less than 9 cents per gallon by July 1, 1999. For the following reasons, I must go on record at this time in opposition to such a fuel tax increase:

1. This method of financing state programs and projects doesn't deal with the real problem -- the overall size of our state budget.
2. The premise of the highway special fund is that users pay the cost to operate the program. This \$19 million is being transferred to be used for non-highway purposes.
3. While it is true that there are currently substantial surplus monies in the highway fund, this excess amount is definitely needed to offset future expenditures. The transfer of these funds now will result in a shortage of funds in the future.
4. Moreover, this administration has previously transferred \$10 million from the highways fund during the fall of last year.
5. This transfer of funds will increase fuel taxes to a minimum of now 25 cents on a dollar for every automobile user, trucking company, highway user and farmer, and will also increase the cost of shipping by truck, all goods sold to every consumer in this state.
6. Last but not least, this is a tax increase plain and simple. It is something this Legislature had gone on record promising not to do this year. The fact that it will not affect our pocketbooks until 1999 doesn't change the harsh reality that this measure will raise Hawaii's taxes."

Senator Ikeda rose in support of the measure as follows:

"Mr. President, I rise to speak in favor of this bill.

"Mr. President, this was an administration proposal which initially would have called for the taking of approximately \$21 million. Over time and knowing the subject matter chair's concerns, I requested, and so did the Finance Committee in the House, clean information, reliable figures, and this is what we received from the

Department of Transportation as well as from the Department of Budget and Finance. Yes, it will result in a 9 cents per gallon increase in the year 2000. However, there will be an increase in the year 2000 to the gasoline tax regardless of whether we take this money now or not. The fact is that this fund was designed in that fashion, it's a flat rate. It does not have a percentage growth to even cover inflation, so at various periods in time it requires an increase.

"I have here a letter from Mr. Kazu Hayashida and I would like to read this:

'Attached is the final Highway Division Financial Summary dated 4/23/96 which reflects a \$19 million transfer to the general fund. Our previous estimate showed a 17.250 million transfer, but we have since revised our financial summary to further include a reduction in our debt service in fiscal '96 and a 10 percent reduction in our special maintenance program from fiscal '98 through the year 2002. These adjustments may result in reductions in our capital improvement and special maintenance programs and have been discussed with the Department of Budget and Finance. The overall operations and safety of the highways program will not be affected. Under this scenario the Highway Fund would require an approximate increase of 9 cents in taxes in the fiscal year 2000 to remain solvent.'

"Mr. President, we've scaled it down to the point where both departments have agreed that the impact of taking these funds will be minimal and this is what we have proposed to put before this body."

Senator Fernandes Salling rose again and said:

"Mr. President, very briefly. I think that we need to remind people in this body that there's an administration budget with administration proposals, which is then given to the Legislature and it is up to us to decide what to do -- whether or not to agree or not to agree, and in this case, whether or not to increase taxes for the benefit of the people of this state.

"I don't want to belabor this anymore. We've gone over it in caucus. We've had a lot of time with spread sheets and information, but I felt that it's very important that we realize that we can't blame the administration. The Legislature had their chance to work on the budget and to come up with ways to cut, and I cannot support this bill which cuts and transfers \$19 million from the highway fund and places it into the general fund."

Senator Ikeda then added:

"Mr. President, it's never easy to do these things. The alternative would be to find monies elsewhere -- and we have looked; we have tried to cut in other areas.

"I have a proposal to make. I have asked that several bills be put to the end of this afternoon's calendar. These are bills that I have looked at and they contain general fund appropriations. They are important to people, no doubt; they will affect people, no doubt; but they are not life and death. I am prepared, Mr. President, if it is the wish of this body, to recommit these bills. It would save the state a few million dollars and we may be able to rework the numbers in this take."

The motion was put by the Chair and carried, Conf. Com. Rep. No. 148 was adopted and S.B. No. 2819, S.D. 2, H.D. 1, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO STATE FINANCES," having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

Senator Ikeda moved that Conf. Com. Rep. No. 153 be adopted and S.B. No. 2941, S.D. 2, H.D. 2, C.D. 1, having been read throughout, pass Final Reading, seconded by Senator Kanno.

Senator Liu rose in opposition to the measure and stated:

"Mr. President, I rise to speak against this measure, not really because of the substance in it regarding commercial fisheries, but just as a way to highlight that within this bill we are creating another special fund. In this session, I count that we have created, at a minimum, eleven new special funds of one kind or another, either revolving, trust, or special funds. We have consolidated a few -- three, it appears. But just as a sign that hopefully we can do better next session and looking even more carefully at this area, I shall be voting 'no.' Thank you."

The motion was put by the Chair and carried, Conf. Com. Rep. No. 153 was adopted and S.B. No. 2941, S.D. 2, H.D. 2, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO A COMMERCIAL FISHERIES SPECIAL FUND," having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

Senator Liu rose in support of the measure as follows:

"Mr. President, I rise to speak in favor of this motion, but also to point out that, unfortunately, this may not be enough. By increasing the guarantee ceiling for the Department of Hawaiian Home Lands by \$29 million, we may only be dealing with a very short-term immediate situation. The auditor pointed out last year that as of June 1993 the Department of Hawaiian Home Lands, at least in her opinion, had already exceeded the guarantee authority by \$5.8 million.

"Since that time, and currently as I speak, there are probably I'd say 500 to 600 homes in various stages of construction on Hawaiian Home Lands. One of the largest turn-key operations in its history is now being built on the Waianae Coast; that in and of itself has around 260, 270 homes. What that means is that in all

likelihood the \$29 million increase in the guarantee limit has probably been reached, perhaps we're even over that at this point and time.

"More ominously, again, in the opinion of the auditor, the commitments which could ensue from the Department of Hawaiian Home Lands agreements with the Veterans Administration and the Office of Hawaiian Affairs might exceed \$180 million. If you take the administration's own promises of building 4,000 homes on Hawaiian Home Lands by 1998, then conservatively you are looking at the need for \$200 million at the low end and maybe as much as \$400 million on the high end for mortgage financing. The issue here is that most of those mortgages will need some kind of insurance and some kind of guarantee. And most of that guarantee amount is going to have to come from the Department of Hawaiian Home Lands.

"So I would hope that next session, the administration provides assistance to the Department of Hawaiian Home Lands and comes down with a bill with a more realistic guarantee increase or some other kind of new mechanism for financing, because the committee report is absolutely correct -- financial institutions cannot ... because of their own regulatory concerns of having to lend in a prudent, safe and sound fashion. They will have a difficult time working with the department without recourse to some source of funds or some source of insurance.

"So this is a positive step, but again I would hope that the administration understands that if it is to fulfill its promise to build those 4,000 homes by the end of 1998, more will need to be done so that there can be the kind of private sector and public sector cooperation in this area to build more Hawaiian Home Lands homes.

"Thank you, Mr. President."

"Mr. President, I'll be voting 'no' on this measure. What this bill does is that it includes public finance bond underwriting and public finance bond investment banking as professional services. This means that both of these services can go on the non-bid process. I don't know of any other state that includes these services as professional services in their procurement codes. This is one area that procurement abuses are already taking place. Allowing these services on a non-bid process is asking for problems. I'm voting against it.

Senator Solomon rose on a point of personal privilege as follows:

"Mr. President, I rise on a point of personal privilege.

"Mr. President, on behalf of myself, Senator Whitney Anderson, Senator Milton Holt, Senator Randall Iwase, Senator Michael Liu, Senator James Aki, Senator Robert Bunda, Senator Donna Ikeda, Senator Cal Kawamoto, and Senator Joe Tanaka, we will be submitting a letter to Attorney General Bronster which reads:

'It is the position of the undersigned Hawaii State Senators that the trial court in the referenced matter was correct in refusing to issue marriage licenses to couples of the same sex. We also concur with the court in the case of Dean vs District of Columbia, Ct. App. No. 92-CV-737(1995), which concluded unanimously that it is impossible for two persons of the same sex to marry and it cannot be a denial of equal protection to refuse to allow such persons to marry quoting from Black's Law Dictionary and Webster's Dictionary, both defining marriage as the union of two members of the opposite sex. This letter requests that you forthwith file a motion pursuant to Article 2, the Hawaii Rules of Evidence, relating to judicial notice particularly Rule 201 and Rule 202 to compel the trial court in the referenced matter to take judicial notice of (a) the definition of the word "marriage" in particular editions of the most popular dictionaries of the English language and (b) the language of the Statutes of those States of the United States which define the word "marriage".

Cognizant as we are that the Hawaii Supreme Court in reviewing the referenced matter did not hold that the refusal to issue licenses to couples of the same sex amounted to denial of the equal protection clause of the Hawaii Constitution stating merely that a Statute "gives rise to the question whether the applicant couples have been denied equal protection".

We believe that the trial court having noticed the requested facts can properly find that there is and can be, consonant with the meaning of the word "marriage" no such thing as marriage between couples of the same sex and that Hawaii as a member state of the Republic has a compelling interest that our Statutes not be subject to the absurd and irrational definitions urged by the plaintiffs in Baehr vs Miike.'

"Thank you."

Senator Matsuura rose on a point of personal privilege and said:

"Mr. President, I rise on a point of personal privilege.

"I am going to speak in regards to the subject of same-sex marriage. Sometime in the future somebody is going to want to know what happened in the Legislature because this issue has worldwide implications. I have not seen in the newspapers, or anywhere else, an accurate documentation of what occurred. Therefore, I am going to put it into the Senate Journal so that somebody in the future can read it to have some idea as to what happened, because I was there. I'm going to give my personal opinion as to what happened. Others who disagree with me can give their side of the story.

"The first court challenge relating to same-sex marriage came in the State of Minnesota. The Supreme Court of the State of Minnesota turned it down, saying that same-sex marriage was not a civil rights issue, and that was 24 years ago. This same issue came up 12 years later in the

State of Washington. The State of Washington and the State of Hawaii have about the same state constitution. The Supreme Court of the State of Washington also turned it down. This issue was then brought up in Hawaii. You all have some ideas as to what happened and why. Our supreme court in 1993 ruled that our marriage laws discriminated against gay and lesbian couples and that unless the state can show a 'compelling state interest' to justify the discrimination, the court will order the Department of Health to issue marriage licenses to same-sex couples.

"For those of you who are not lawyers, the courts have different standards. The highest standard in the civil court case is 'beyond reasonable doubt'; that's the highest. In a constitutional case the highest standard is 'compelling reason,' followed by the 'intermediate level,' and the lowest level is the 'rational basis.' The lawyers tell us that at the standard that the supreme court gave to the circuit court that at the 'compelling reason' level, the state has no chance of winning. The state is going to lose 100 percent. Had the supreme court justices put it at the 'intermediate level,' then the state wins at the probability level of 100 percent. Unfortunately, we don't have much choice -- either change the constitution or think of some other alternative. The problem started at the supreme court and we are faced with finding a solution.

"Now, with that background, let me go back to two measures that surfaced this session. The first one, which you are very familiar, was H.B. 2366. This was the constitutional amendment bill. To some of us, H.B. 2366 was the answer -- put that issue on the ballot and let the public decide. Who's going to go against what the public wants. The judiciary, the supreme court will all have to abide by what the public wants. That appeared to be a simple answer to a complicated problem.

"However, two things stood in the way of going the constitutional amendment route. One of them was that the state might win on the issue of the marriage license, but it did not answer the question regarding the civil right issues regarding discrimination against gay and lesbian couples.

"I have to commend my colleagues on the Senate Judiciary Committee because they took a lot of pressure. Believe me, they took a lot of pressure. I had one person come into my office and he just couldn't understand Senator Matsunaga's position on this issue. He was attacking Senator Matsunaga because he's been very consistent, from last year and this year, very consistent! In his eyes, I was the good guy because I was for the constitutional amendment. However, I had to tell him that he had to understand people like Matsunaga, Grauly, etc.

"I said let me give you an illustration. I went down to the State of Georgia in 1953, I said just imagine ... there's a church in Georgia. The minister is a Caucasian, a white man, and he happened to marry a black person and a white woman. If this happened in 1953, the town would be totally out of control. They would catch the couple and the minister. And let's imagine that Senator Matsunaga is a deacon of that church. I can tell you for a fact that this crowd would have hung the white minister, the black man and the white woman, and there would be a fourth man hanging from a tree and that would be the deacon, Matsunaga, because Matsunaga is going to help the three. That's how firmly Senator Matsunaga believes that this issue is a civil rights issue. Not many people would be willing to give up their lives for a noble cause.

"The concerns regarding the civil rights issue and the equal protection clause of our state constitution had to be

addressed and H.B. 2366 did not address those concerns. Therefore, when it came to voting on H.B. 2366 in the Senate Judiciary Committee, it didn't have the votes to pass out of the committee because it didn't satisfy the so-called civil rights issues. You all know that on Thursday, H.B. 2366 had only 12 votes on the floor. You know it; I know it, because I was one of the 12. To put the constitutional amendment on the ballot, we had to have two-thirds vote in both the House and the Senate. The House had the two-thirds vote. We had to have at least 17 votes in the Senate -- we didn't even have 13 votes to pass the bill. We had to look at another vehicle or alternative.

"And so surfaced H.B. 3347 whose title was about the interpretation of state statutes. The contents of H.B. 3347 was changed. It had a complete metamorphosis and it became a same-sex marriage bill. Now, I'm going to concentrate only on H.B. 3347 and what happened on the last two days before final decking because this is important. I want the public to know what really happened on Thursday and Friday. On Thursday, H.B. 3347 had three conference drafts. I'm going to read the sections that are important. All three conference drafts had the same language in the beginning, which read:

'A provision in a statute which provides for the issuance of marriage licenses solely to couples of the opposite sex shall be interpreted as consistent with all of the rights protected by this Constitution;'

"The first Senate conference draft added:

'... provided that the State shall allow couples of the same sex to register as life partners, and incur substantially similar obligations and receive substantially similar benefits as provided by law to married couples, except that parental rights and responsibilities may be conferred to the same sex partner of a natural parent only through legal proceedings.'

"A lot of people looked at that and said 'domestic partnership.' The House members said, no, they can't go with that draft. So the House came back with a second draft. This is still on Thursday. The same beginning was put in:

'A provision in a statute which provides for the issuance of marriage licenses solely to couples of the opposite sex shall be interpreted as consistent with all of the rights protected by this Constitution; provided, however, that nothing in this section shall be interpreted as restricting the power of the legislature to enact laws for the benefit of unmarried couples.'

"This House language gave the Senate members problems because the issue of civil rights was not addressed. The House draft was rejected by the Senate conferees.

"The third and last draft was a Senate proposal. This was the final draft. It was signed by all the committee members and the chairman of the Judiciary Committee. Mr. President, this is Senator Grauly's speech prior to giving the House members the Senate conference draft. I wish Senator Grauly would read this -- you would think that Martin Luther King was speaking -- but if he's not going to read it then I want it to be inserted in the Journal because it is a powerful, powerful speech, and I am very proud of it. When he read this statement, I thought to myself ... man, I'm looking at the future leader of Hawaii.

'Chairman Tom and Members of the Conference:

Good Evening. The Senate would like to respond to your latest proposed C.D. 1 to H.B. 3347, H.D. 1.

The 14th Amendment to the United States Constitution somewhat concisely provides that a State may not "deny to any person within its jurisdiction the equal protection of the laws". This is what we as Americans believe. This is what we as a nation will protect. This is what our laws will uphold and our lawmakers must maintain.

The counterpart provision in our Hawaii Constitution goes even farther. Article I, Section 5 of our Constitution states:

"No person shall be deprived of life, liberty or property without due process of law, nor be denied the equal protection of the laws, nor be denied the enjoyment of the person's civil rights, or be discriminated in the exercise thereof because of race, religion, sex or ancestry."

Ours is a state with a tremendous history in civil rights, of which we can be justifiably proud. Ours was the first state in the nation to ratify the Equal Rights Amendment. The 1991 Legislature, of which you were a member, Chairman Tom, was one of the first legislatures in the nation to make "sexual orientation" a protected class by prohibiting discrimination in housing and employment on the basis of one's sexual orientation.

The forced internment of Japanese-Americans during World War II has given all of us a tremendous sensitivity to civil rights. In a place where everyone is a minority -- different than any other place on earth -- civil rights is what distinguishes us and defines us as a people. It is who we are. It is who we are proud to be.

What then in the House position thus far in response to the Supreme Court's decision in Baehr vs. Miike?

On March 1, 1996 you passed H.B. 2366, H.D. 1 -- a constitutional amendment defining marriage as "the legal association reserved exclusively for the lawful union of a man and a woman".

Constitutional law expert Professor Jon Van Dyke has advised us that H.B. 2366 is "an odd response" to Baehr Vs. Miike -- that it would be irrelevant to the case -- the fact that gays cannot enter into a marriage does not eliminate the problem -- that the problem is discrimination, not just the label attached -- that the bill does not come to grips with the discrimination that needs to be remedied -- that there is a solid chance that the bill violates the U.S. Constitution.

Another constitutional expert, our foremost practitioner in constitutional law, Attorney Evan Shirley, has told us that he believes the bill is inconsistent with Article I, Section 3 (the Equal Rights Clause); Article I, Section 5 (the Equal Protection Clause); and Article I, Section 4 (Freedom of Religion clause).

Unfortunately, sad to say, in strongly espousing H.B. 2366 even to this late date, certain religious groups have made it very difficult for the Senate to move forward and avoid the result of having the court mandate same sex marriages, which both the House and Senate oppose. It is possible that those who dislike gay and lesbian people the most may be most responsible for the issuance of same-sex marriage licenses. That would be a supreme irony.

Chairman Tom, this is an unusual role for the legislature, for you and me and our respective committees. We have had to carry this burden for the

last three years. But we are being called upon on this divisive issue to lead, not follow. To have the courage of our convictions. To be not just smart, but wise.

Chairman Tom, I want to give you a new proposed C.D. 1. It is our LAST proposed C.D. 1. It calls for a constitutional amendment which we believe all the people of Hawaii should vote on. It asks the people the following question:

"Shall a provision in a statute which provides for the issuance of marriage licenses solely to couples of the opposite sex be interpreted as consistent with all of the rights protected by Article I, Section 5 of the constitution, provided that governmental benefits and obligations will be allocated to all on an equal basis?"

I have already drafted the Conference Committee Report -- already signed by the Senators. Deck it if you choose.

I have a second Conference Committee Report -- also already signed by the Senators. It is Senator Holt's language, verbatim. At the very least, deck this one!

Thank you very much.'

"This last Senate conference draft was given to the House conferees on Friday evening. They had plenty of time to study it. I am going to read the proposed language two times: 'A provision in a statute which provides for the issuance of marriage licenses solely to couples of the opposite sex shall be interpreted as consistent with all of the rights protected by this Constitution;'. That's what 70 percent of the people of Hawaii wanted. Now, the sentence that followed: 'provided that governmental benefits and obligations will be allocated to all on an equal basis.' I repeat, 'provided that governmental benefits and obligations will be allocated to all on an equal basis.' This simple sentence fulfills the requirements of the court of law.

"A person asked me, 'What did you give the gays and the lesbians?' And I said, I'll be very honest with you; we gave them what they already have, nothing more and nothing less, with one exception -- marriage is between a man and a woman. In the State of Hawaii one cannot discriminate for jobs or for housing because of sexual identity. Had the House conferees accepted the final Senate proposal, we would have had the required two-thirds vote in both houses and the constitutional amendment would have been on the ballot this November. That would have accomplished the goal that we all wanted. It would put the constitutional amendment on the ballot and the supreme court would have been satisfied because all the people of Hawaii would have the same governmental benefits and obligations on an equal basis. That's addressing the civil rights issue! When I think of the huge number of people that were praying at that hour of conference and we let the bill die is truly a failure that we must all bear.

"I hope that people who read this history will find an answer as to why this bill died. The last Senate conference draft was the answer that everybody in the State of Hawaii wanted. This provided equal rights to everybody -- blind, deaf, whatever, handicapped, disabled. This was it! The only thing I could tell those who called me crying was that all things will work together for good to them that love God. That's the only assurance we have from God. I hope that the public understands that we really tried our level best to pass something that would put this issue on the ballot which would be fair and right for all the people of Hawaii, including the gays and the lesbians.

"Some say wait till election. I can only ask the people of Hawaii that if you're going to target anybody, target me because I was the responsible person. Believe me. I talked to Justice Padgett late Thursday night and asked him if there was anything wrong with the last Senate proposal and he said he couldn't see anything wrong. That was our solution and yet we all failed. If they're going to target some of these members of the Judiciary, they will be making a second big mistake. It will be an unfortunate mistake because I have to admit that in all my 16 years as a Legislator, I've never been more proud of the members of the Senate Judiciary Committee, and that includes the Republican member. (Laughter.)

"So with that, Mr. President, when people evaluate what happened in this Legislature, they will have a better understanding of what happened. I'm not altogether too proud of our accomplishments. However, I'm very proud of the work of the Senate Judiciary Committee and I commend not only the Judiciary chairman but the staff that worked so hard. I can only say mahalo from the people of Hawaii.

"Thank you very much."

Senator Kawamoto rose on a point of personal privilege as follows:

"Mr. President, I rise on a point of personal privilege.

"Mr. President, as the media claim and some of our learned colleagues from the minority party have claimed, we as a body have done little to enhance our state economy this past session. I beg to differ, Mr. President. We initiated a bill, which at the last minute was deemed flawed by the Attorney General. In her opinion, the bill's title contained two subjects. Again through her wisdom, Senator Ikeda, Ways and Means chair, took a House bill with the proper title, "Public Contracts", and inserted our bill as an S.D. 2 to H.B. 3789. Because the House agreed with our amendment in its entirety, action is being taken in the other house today and not here. This amendment provides for a 15 percent break at bidding time for our local contractors. This would mean more jobs for our local construction industry and keeping the millions of dollars spent on Hawaii's public works projects here at home, in the state, to be circulated among our people. In turn, it will enhance our local business and state economy as our people buy the houses, the cars, food, entertainment and others. Potentially, this could be big if the procurement people adhere to this bidding guidance.

"I promise today to be the watchdog for these major public works projects to insure that our local construction industry gets its major share.

"Thank you, Mr. President."

Senator Gaulty also rose on a point of personal privilege and said:

"Mr. President, I rise on a point of personal privilege.

"Mr. President, I just wanted to take this opportunity to thank several individuals in the community who came and assisted the Judiciary Committee on the same-sex marriage issue, particularly during the last days of our deliberations.

"First, I'd like to thank Professor Jon Van Dyke, Professor of Constitutional Law at U.H., who, despite the fact that he was preparing for an important case which he subsequently won a couple of days later, took the time to

meet with us and to brief us on the important points of constitutional law.

"Secondly, I'd like to thank Evan Shirley who is the foremost practitioner in constitutional law in our state, who dropped what he was doing and came to the assistance of the committee and assisted us as we prepared one of the drafts in conference.

"Third, I'd like to thank Justice Frank Padgett who stayed over despite the fact that he was going to go home to Maui one evening but stayed over just so that he could assist the committee the following morning with our deliberations.

"Mr. President, I also want to especially thank the members of the committee who have listened to all of the testimony, who have tried to understand the constitution. I think we as a body, particularly as a committee, have learned a great deal about the constitution and what it means as a result of our deliberations. And I think this can only happen when you have open-minded individuals who are willing to listen to the testimony, listen to the experts. I want to particularly thank my vice-chair, Senator McCartney. Without him I don't think I would have made it through this session, but he was a tremendous inspiration to me and a tremendous support. I thank you very much, Mike.

"And lastly, Mr. President, I'd like to ask that the position of the Senate in final conference with the House be included in the Journal, if possible. Thank you, Mr. President."

The Chair having so ordered, the inclusion of the Senate's position in final conference is identified as Attachments "A" and "B" to the Journal of this day.

Senator Baker then rose and said:

"Mr. President, there was a very important measure before this body today that was on consent calendar and consequently no one spoke in favor of it, so I would ask that my remarks in support of Conf. Com. Rep. No. 98, the beach liability bill, be inserted in the Journal at the appropriate place."

The Chair so ordered.

Senator Tam rose on a point of personal privilege and said:

"Mr. President, on a point of personal privilege.

"On behalf of myself and my colleagues, there's one group of people we forgot to thank and that is our staff -- the people who work long hours away from their families -- and we deeply thank you for all the hours you worked throughout this session.

"Thank you."

Senator Ikeda also rose on a point of personal privilege and stated:

"Mr. President, I rise on a point of personal privilege.

"Mr. President, I am in receipt of a press release from the Democratic Party of Hawaii in which its chairman, Richard Port, issued a statement expressing his disappointment and concern that the Hawaii State Legislature has failed to address several important issues of concern to the members of the Democratic Party and to the citizens of Hawaii. This is a quote:

'I am disappointed that the Hawaii State Legislature failed to resolve Hawaii's auto insurance problem, fund the highly successful Hawaiian Language Immersion Program, and reform the current unpopular pension plan for elected officials. The members of the Democratic Party, in their State Convention Platform, Resolutions, and Grassroots conferences, have indicated that our elected officials need to address these issues.

'Moreover, I am concerned by the extent of the cuts in general assistance and the deep cuts in the Hawaii Civil Rights Commission budget. Democrats are always troubled when the most vulnerable members of our society are disproportionately affected by a down turn in the economy and when discrimination cannot be quickly dealt with in our community.

'Finally, I am particularly disappointed in the manner in which Senator Donna Ikeda and Senator Milton Holt have been conducting the affairs of their respective committees. Many of the problems this Legislature has had can be traced directly to their doors.

'I hope the Legislature will extend the session and complete their unfinished work.'

"Mr. President, I think some clarification is in order and that's the reason why I am standing on a point of personal privilege. First of all, Mr. President, Mr. Port talks about cuts to the Hawaii Civil Rights Commission budget. I think you should know that the administration took those cuts to the budget as well as the cuts made to general assistance during the interim. The Senate's position was to not adopt the cuts imposed by the Governor and let him continue to restrict funds through the end of this fiscal year. That action could have given the Governor the flexibility to release restricted funds if the need arose. The House insisted on taking the cuts and we finally agreed.

"On the high-three -- the Senate passed a very comprehensive and tough bill, as you know, Mr. President. The House proposal was high-five which was unacceptable because it would have negatively impacted on the retirement of civil servants while lifting the 75 percent cap on retirement benefits for judges and elected officials. This would have potentially increased, rather than reduced our retirement benefits. The Senate left another proposed conference draft on the table -- one which we felt was workable and met the objections of the Attorney General -- we never received a response from the House.

"The Hawaiian Immersion Program was not expanded, but its basic funding is in the Education budget. Mr. President, if we had the resources, we would have funded the expansion. But under the circumstances, we set as our priority funding workload increases for the schools. Mr. President, I would have loved to have been able to give the money for these programs. The problem is that we cannot give what we don't have.

"I am disappointed and hurt by Mr. Port's personal attack. It is totally unjustified."

Senator Iwase, rising on a point of personal privilege, then said:

"Mr. President, I rise on a point of personal privilege.

"I had not intended to speak today; I think we have gone through enough of a difficult session -- all of us. But I am rather disturbed by the press release from the chairman of the Democratic Party and I want to state why.

"Mr. President, we are, I believe that we are, a society in transition. We have traveled fifty years down the road of the 'New Deal.' Today many of the New Deal programs have been exhausted. The middle class has shrunk. The programs that were funded by government, the philosophy of government, are changing. We are at a fork in the road. There's a poem by Robert Frost about the road not taken, and how taking the road not taken, it has made all the difference. We are at that fork in the road, and we have to make a lot of choices because we are at that fork in the road -- about our philosophy of government, about who we are, about where our society is heading, about the kind of visions we have to have. These choices are very difficult to make and we have had to make them. In the five years that I have been here, they have been very difficult.

"As Democrats, our base -- our base -- is the blue collar. We have supported social nets. We do support welfare. We are for civil rights. But today in Hawaii, 1995, with a diminished revenue base, with a constricted economy, we have to cut. In making these choices, we make mistakes, but it seems in the past five years instead of trying to solve problems, instead of dealing with the issues as politicians and members of parties, as a public, we have been contented, because we have not quickly solved the problems, to blame each other, to finger-point, to look at other people and say, it's your fault.

"Well, Mr. President, we are not going to solve a single problem in this state; we will not solve a single problem in this nation; we are not going to solve a single problem in this world so long as we believe that the problem lies with somebody else, and that when a mistake is made, it is somebody else's faulty -- that it is not the government's fault; it is not the Legislature's fault; it is not the Senate's fault.

"Mr. President, I am disappointed by this because it represents to me the kind of thinking that prohibits us from solving problems. And if the Democratic Party falls because of this kind of memo, it's going to fall because of the weight of its own ignorance. Mr. President, I'm not going to be a party to that, and I hope none of us here are. Whether you are for or against Milton Holt, for or against Donna Ikeda, for or against Rey Grauly, we have had disagreements, but by golly we've got to walk out of here as members of one body and be proud of the work we did, accept the responsibility for what we did and not take this kind of trash.

"Thank you, Mr. President."

Senator Anderson also rose on a point of personal privilege as follows:

"Mr. President, I stand on a point of personal privilege.

"Mr. President, I had a few notes and I was going to make a different speech until Mr. Port sent this, then all hell breaks loose as usual. (Laughter.)

"I said the other day that it's very seldom that I stand up here and defend anybody; it's much easier to tear apart people. But I've known Senator Ikeda and Senator Holt for a good number of years, and if I disagree with them that's because of an issue; it's the same with Senator Grauly or anybody else. I've always said I've never held anybody personally responsible for anything. We have differences -- that's it. When we walk out of here, I'm your friend -- but I'm still from the opposite party.

"When you have a man send down that he is disappointed in the Hawaii Legislature because of the

automobile insurance, that there was a problem ... from day-one we knew there were problems as soon as the Senate said we had a position, the House had a position and so did the Governor. We weren't going to end up with a damned thing and if we were it was going to be so watered down that it wouldn't have worked anyway. And if you didn't know that, then you haven't been around in a long time.

"The rest of these unpopular things like the high-three, I think that was one of the committees that I saw Mr. Port at and some of the other watch-dogs. And I told them personally, when I ran and I turned down the high-three, I didn't see any of you coming out and slapping me on the back saying, 'Good job, Whitney.' They didn't support me. They didn't much give a darn. So why didn't these watch-dogs come out when there were such things as a real workers' comp reform, unemployment funds that were being spent, fireman's binding contracts, the Hawaiian trust fund being lowered by \$13 million, the same-sex or domestic relationships? Where were they for the people, coming out and saying we're for or against it? Not one of the watch-dogs came out. We fought individually. We did what we thought was right or wrong. I don't remember reading too much in the papers from any of these groups. I even brought one group together and said we did a floor speech on this; was it going to come out in the papers or the news media or television? But where were you folks to fight for workers' comp? Where were you for unemployment when they spent over a million dollars? We didn't come out and do that with our watch-dog.

"So all we have, ladies and gentlemen, is each other. That's very factual. We may disagree. I think it's a shame when any party can turn around and say don't support this individual because he or she has not backed the party. They happen to like somebody that they work with every day. I once told my minority floor leader, when he first ran, that I couldn't support him because I was supporting another individual, and he was hurt. And I said, 'Listen, when we're on that floor, I depend on that person for my help in passing a bill or killing a bill or amending a bill. That's why I can't support you at this time.' When he ran he wasn't very happy with me, but when we went to a Republican Convention I told an individual 'I can't support you; you may be a cousin but you moved into this guy's district and I'm supporting him because we've always had a good relationship for amending and helping with bills.'

"So, whether you like Whitney Anderson, Milton Holt, or Donna Ikeda, it doesn't really matter. But if you can work with us and we happen to be a fair person, then they might be running a jackass on the outside that might belong to your party, but that doesn't make any difference. So I am disappointed in your Democratic Party leadership. I've been there at the Republican leadership so I know when a person writes against somebody, but I do blame us. I do blame us for all of the problems that we have not really gone along with and taken care of.

"I was going to speak on this workman's comp bill that we have, 3512. It's watered down so bad because in one of these sections here it takes out and repeals reasonable. Well, this is for guidelines and frequency of treatments and reasonable utilization of health care and services. And then they took out from line 11 through line 22. That took out everything.

"Those are our problems. We watered down everything. We don't know exactly how it's going to affect those people out there. If businesses go down, there is no labor. But what happens is that you get hung up on the idea that the labor unions are for this or

against it and you forget what's happening to our economy. And that's what we did. We spent I don't know how much time on same-sex. It wasn't even supposed to be here. When it first came up, I don't care what the judge says back here, Judge Matsuura, but I've had attorney general's opinions one year that said you can't do this because it's anti-trust and the very next year, the same attorney general said that's a good bill -- the same bill, same attorney general. So I disagree with all of attorney parts of this.

"Anyway, ladies and gentlemen, I really wanted to say I'm glad the Governor appointed me. I've enjoyed working with you guys for two years. (Laughter.) And you knew that, didn't you. (More laughter.) Anyway, thank you very much, Mr. President and my fellow colleagues."

Senator Holt rose on a point of personal privilege and stated:

"Mr. President, I rise on a point of personal privilege.

"Again, in response to the chairman of the Democratic Party's press conference earlier today. I won't refer to his name because I have difficulty understanding why he is in that position.

"Mr. President, there hasn't been a whole lot of explanation in the press regarding what happened to the auto insurance bill. Your conferees are well aware of what happened. They went through it with me. Everything was out in the open, not behind doors. In fact, all the meetings that I had were in Representative Menor's office, not in my office.

"Essentially, what happened yesterday was that we were at a point where the Senate had accommodated the House so much that we even listed the points of accommodation from where we were when we passed that bill over to the House. And I'll just go quickly through it for you. We had agreed with the House to include a mandatory premium reduction of 25 to 35 percent which would be immediate and actuarially defensible. We agreed with the House on their amnesty provisions for currently uninsured motorists. We agreed with the House on penalty provisions for fraud violations. We agreed with the House on penalty provisions for denial of no fault benefits by insurers. We even increased the damages to treble damages. We included penalty provisions for attorneys and insurers engaging in unfair and deceptive acts, with the House.

"Also, we have agreed with language for intervention by the Insurance Commissioner to adjust rates. We went along with the House adding provisions to allow group insurance plans. We included mandatory bodily injury at 15 per person and 30,000. We didn't have that in the Senate version going across. We repealed peer review which was an earlier Senate position. And going into yesterday we felt we could come down, and we made a significant concession -- we went from \$250,000 on the mandatory minimum medical coverage to \$100,000.

"We met at about 8:00 o'clock or so last evening and came in with a suggestion by one of my conferees to beef up our bill by adding another penalty provision for insurers who did not pay out their claims. We added a \$5,000 penalty to our bill and the House responded: 'Is that all?' And we said, well, yes. We've pretty much gone as far as we could, we couldn't make anymore concessions without without giving away the rate reductions that we had proposed in the bill. But in the concept of trying to come out with an agreement, we asked them to please come back in half an hour. And we

broke with an agreement that the House would come back in half an hour.

"We returned at 8:45 and waited. My staff called Representative Menor twice, three time -- no response. The conferees from the House started showing up -- Representative Herkes, Representative Yamane and even one of the co-chairs showed up -- Chair Tom. And about 9:30, the indication was that Representative Menor was busy in his office and couldn't make it down. So what the Senate proposed at that time was another proposal, since the other chair of the committee was there, was to send a C.D. 1 over the table which changed our mandatory premium reduction from 25 to 35 percent, making it a 35 percent mandatory reduction -- a minimum of.

"Then we came back into session. The word was given to us that Representative Menor wanted to meet at 11:00 and as you know, we had other issues in here to debate and we didn't get out of here until 11:15 or 11:30. We went to the conference room and waited for the House to come back into conference. At about 10 minutes to 12:00, a couple of the members from the House were there, but the Speaker walked in, sat next to me, and asked me if that's all that the Senate was going to give to the House. And I said we couldn't give anymore concessions and he indicated that the bill was dead.

"So, it is with that understanding, and I hope clarification, that the people in the community and people in this body, and especially the chairman of the Democratic Party, take a look at the facts and try to understand the facts, and give the people in this body who have a responsibility to deal with difficult issues the time and room necessary to do so without jumping to conclusions. I believe we negotiated in good faith. We had time to even make a few more counter-proposals, but no one wanted to come back to the table.

"With that, Mr. President, I'd like to leave it. I don't want to leave this session on that kind of a note, and I'm not so sure that this note that I'm going to leave on is any better, but I feel compelled to make some statements at this point. May I, Mr. President?

"Mr. President, we started this session faced with many problems, and we made promises to the people to address them -- budget crisis, lagging state economy, economic development, same-sex marriage, no-fault automobile insurance reform, 'high-three' reform.

"Based on my past experience, the Legislature has traditionally addressed major issues in one of three ways:

1. Either avoid or postpone them until the next session -- no-fault, convention center, and same-sex;
2. 'Band-aid' the problem by reacting to the symptoms rather than the cure -- smoking, gun control versus crime control; or
3. We address the problem directly and fix it -- autonomy for the University, build an arena for the University, build a park in Kakaako and the waterfront.

"In general, the Legislature's record on addressing the problems of this state has been mixed. This year, however, we are on the verge of adjourning without a decision on every major issue. And I go back to the list -- budget crisis, lagging state economy, economic development, same-sex marriage, no-fault automobile insurance reform, 'high-three' reform. As far as I am concerned, we have failed to meet the basic needs of the people of this state in our role as elected leaders and

policy makers. More importantly, we have also dishonored the public trust that was granted to us upon our election to office. If we adjourn with this record, we do not deserve to be returned to office. This is the message that I have heard from the people, and it will be a major factor in their decision on who to support in the upcoming elections.

"All of the members of the House and half of the Senate are up for re-election this year. This is definitely not the kind of record that I would think any incumbent would want to run on.

"While I do not exactly know the exact reasons for our failure, I strongly believe that it is deeply rooted in our lack of vision and strong leaders within the Legislature and the lack of direction from the chairman of the Democratic Party. Given this environment, I am truly ashamed to admit that important decisions were based on political considerations, rather than our constituency.

"Although I cannot speak for every member, I do know that we all make personal sacrifices for the good of the whole. Speaking for myself, I have endured the breakup of my marriage, the loss of precious time with my three sons during their formative years from age three to five which can never be recovered, and the constant and abusive attacks from the media. My family and I have endured all of this and we have no regrets, because we truly believe that the people of this state have benefitted at our expense.

"I am going to list a few examples, Mr. President, as far as benefits to the state, because I endured over the years:

Today we have voted on a bill to allow the University to retain 100 percent of its indirect overhead revenues;

Act 51, as reflected in today's Governor's Message, would allow the Board of Regents to grant four-year baccalaureate degrees to our students at the community colleges;

We have university autonomy, moved out in 1984;

We've constructed a Marine Education and Training Center -- the best in the nation;

We've constructed the Automotive Technology Facility at Honolulu Community College -- the best in the nation;

We have a brand new School of Architecture at the University of Hawaii;

We're building a new convention center;

Even the renovation of the Neil Blaisdell Center (just in case you folks don't know) -- that \$13 million provision was in the International Market Place Convention Center bill;

We increased funding for neighbor island tourism programs;

We eliminated 'pyramiding and gross up' on the TAT to protect our visitor industry;

Kakaako Waterfront Park and Aloha Tower Development are realities;

Keeki Lagoon Park and the Canoe Racing Facility -- the community loves that;

We've expanded Sand Island State Park and even acquired Heeia Kea wetlands;

We incorporated 'social impact' in the mandatory five-year boundary review two years ago;

The hunter education program, which is one of the top in the nation right now; we also created the Wildlife Revolving Fund (all these things the state has benefited from);

Natural Area Partnership Program;

Forest Stewardship Program;

We have earmarked 25 percent of the conveyance tax into the Natural Area Reserve Fund for the above two programs;

We regulated 'thrill craft' and enforcement provisions for marine conservation districts;

We provided prescriptive authority for APRNS (advanced practice registered nurses);

And we even passed the used car 'Lemon Law' for the protection of the consumer.

"In closing, I just would like to thank all of my colleagues who joined me in the past in making sure that the business of the people was accomplished upon adjournment. This year, however, I would like to state for the record, Mr. President, that we have failed to accomplish this and we have failed once again to restore the public's confidence in state government.

"Thank you."

Senate President Mizuguchi delivered his closing remarks as follows:

"I have been a member of the State Legislature for 22 years.

"I have been a member of the Senate for 18 years.

"In all that time, the Legislature has rarely been so challenged as in the session now at an end. The unhappy influence of a poorly performing economy has overshadowed much of what we did, while complex, difficult and emotional issues preoccupied us.

"With much effort, we maintained the cohesiveness of the Senate. All parties were heard, all interests represented.

"The price paid for participation was high. This was a session of missed opportunities.

"When all is said and done, however, it will be clear that we have worked hard and produced results that will improve various state programs.

"In addition, we have invested time and energy into complex issues, the better to reach resolution in the future.

"As always, much remains to be done, and the accomplishments of the next legislative session will be rooted in our actions today.

"Moreover, we have gone very far in the direction of budget cuts, and we must seriously ask ourselves whether the social structure in which we take pride can sustain further restrictions. As we contemplate the next session,

it may well be that we should entertain low-impact, high yield revenue enhancements.

"I have served three years as President of the Senate, and I am proud that each of those sessions ended on time.

"My leadership has been open. Every member has been free to voice his or her conscience, and we have maintained a common purpose throughout.

"Each of you has had the greatest latitude to exercise independent judgement and discretion. In turn, you have demonstrated tolerance, wisdom beyond your years and an abiding respect for this esteemed institution.

"For those of you who are at mid-term, I wish you well.

"For those running for re-election, I wish you good luck.

"It has been an honor and a privilege to serve you.

"Thank you very much."

At this time, the Chair appointed Senators Baker, Ihara and Liu to inform the House of Representatives that the Senate is ready to adjourn, Sine Die.

At 4:30 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 4:54 o'clock p.m.

Senator Anderson then rose and said:

"Mr. President, I would like to request that we adjourn in the name of a fellow colleague, Emilio Alcon, a former Vice Speaker and a friend. Thank you."

ADJOURNMENT

Senator Ihara moved that the Senate of the Eighteenth Legislature of the State of Hawaii, Regular Session of 1996, adjourn Sine Die, on a moment of silence in memory of the late Representative Emilio Alcon, seconded by Senator Liu and carried.

At 4:55 o'clock p.m., the President rapped his gavel and declared the Senate of the Eighteenth Legislature of the State of Hawaii, Regular Session of 1996, adjourned Sine Die.

Chairman Tom and Members of the Conference:

Good Evening. The Senate would like to respond to your latest proposed C.D. 1 to H.B. 3347, H.D. 1.

The 14th Amendment to the United States Constitution somewhat concisely provides that a State may not "deny to any person within its jurisdiction the equal protection of the laws". This is what we as Americans believe. This is what we as a nation will protect. This is what our laws will uphold and our lawmakers must maintain.

The counterpart provision in our Hawaii Constitution goes even farther. Article I, Section 5 of our Constitution states:

No person shall be deprived of life, liberty or property without due process of law, nor be denied the equal protection of the laws, nor be denied the enjoyment of the person's civil rights, or be discriminated in the exercise thereof because of race, religion, sex or ancestry.

Ours is a state with a tremendous history in civil rights, of which we can be justifiably proud. Ours was the first state in the nation to ratify the Equal Rights Amendment. The 1991 Legislature, of which you were a member, Chairman Tom, was one of the first legislatures in the nation to make "sexual orientation" a protected class by prohibiting discrimination in housing and employment on the basis of one's sexual orientation.

The forced internment of Japanese-Americans during World War II has given all of us a tremendous sensitivity to civil rights. In a place where everyone is a minority -- different than any other place on earth -- civil rights is what distinguishes us and defines us as a people. It is who we are. It is who we are proud to be.

What then in the House position thus far in response to the Supreme Court's decision in Baehr vs. Miike?

On March 1, 1996 you passed H.B. 2366, H.D. 1 -- a constitutional amendment defining marriage as "the legal association reserved exclusively for the lawful union of a man and a woman".

Constitutional law expert Professor Jon Van Dyke has advised us that H.B. 2366 is "an odd response" to Baehr Vs. Miike -- that it would be irrelevant to the case -- the fact that gays cannot enter into a marriage does not eliminate the problem -- that the problem is discrimination, not just the label attached -- that the bill does not come to grips with the discrimination that needs to be remedied -- that there is a solid chance that the bill violates the U.S. Constitution.

Another constitutional expert, our foremost practitioner in constitutional law, Attorney Evan Shirley, has told us that he believes the bill is inconsistent with Article I, Section 3 (the Equal Rights Clause); Article I, Section 5 (the Equal Protection Clause); and Article I, Section 4 (Freedom of Religion clause).

Unfortunately, sad to say, in strongly espousing H.B. 2366 even to this late date, certain religious groups have made it very difficult for the Senate to move forward and avoid the result of having the court mandate same sex marriages, which both the House and Senate oppose. It is possible that those who dislike gay and lesbian people the most may be most responsible for the issuance of same-sex marriage licenses. That would be a supreme irony.

Chairman Tom, this is an unusual role for the legislature, for you and me and our respective committees. We have had to carry this burden for the last three years. But we are being called upon on this divisive issue to lead, not follow. To have the courage of our convictions. To be not just smart, but wise.

Chairman Tom, I want to give you a new proposed C.D. 1. It is our LAST proposed C.D. 1. It calls for a constitutional amendment which we believe all the people of Hawaii should vote on. It asks the people the following question:

Shall a provision in a statute which provides for the issuance of marriage licenses solely to couples of the opposite sex be interpreted as consistent with all of the rights protected by Article I, Section 5 of the constitution, provided that governmental benefits and obligations will be allocated to all on an equal basis?

I have already drafted the Conference Committee Report -- already signed by the Senators. Deck it if you choose.

I have a second Conference Committee Report -- also already signed by the Senators. It is Senator Holt's language, verbatim. At the very least, deck this one!

Thank you very much.

S.D. 1
C.D. 1
PROP-3

A BILL FOR AN ACT

RELATING TO INTERPRETATION OF STATUTES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. Findings and purpose. The legislature finds
2 that the question of the issuance of marriage licenses to couples
3 of the opposite sex and to couples of the same sex is a policy
4 question that should be decided by the legislature and then
5 presented to the electorate. The legislature further finds that
6 it seeks to avoid gender-based discrimination relating to
7 government privileges to same sex couples by providing them with
8 the same economic obligations and substantially similar other
9 obligations and the same economic benefits and substantially
10 similar other benefits as provided by law to married couples.
11 The legislature further finds that the State has a strong
12 governmental interest in the institution and regulation of
13 marriage and in the question of full faith and credit to be
14 extended to persons married in the State of Hawaii.

15 The purpose of this Act is to propose an amendment to the
16 Constitution of the State of Hawaii in order to interpret a
17 provision in a statute which provides for the issuance of
18 marriage licenses solely to couples of the opposite sex.
19 Provided that governmental benefits and obligations will be

1 allocated to all on an equal basis, a statutory provision which
2 provides for the issuance of marriage licenses solely to couples
3 of the opposite sex shall be interpreted as consistent with
4 Article I, section 5 of this Constitution.

5 SECTION 2. The Constitution of the State of Hawaii is
6 amended by adding a new section to be appropriately designated
7 and to read as follows:

8 "INTERPRETATION OF MARRIAGE STATUTES

9 Section 23. A provision in a statute which provides for the
10 issuance of marriage licenses solely to couples of the opposite
11 sex shall be interpreted as consistent with all of the rights
12 protected by this Constitution; provided that governmental
13 benefits and obligations will be allocated to all on an equal
14 basis."

15 SECTION 3. The question to be printed on the ballot shall
16 be as follows:

17 "Shall a provision in a statute which provides for the
18 issuance of marriage licenses solely to couples of the opposite
19 sex be interpreted as consistent with all of the rights protected
20 by Article I, section 5 of this Constitution, provided that
21 governmental benefits and obligations will be allocated to all on
22 an equal basis?"

23 SECTION 4. New constitutional material is underscored.

"EXECUTIVE CHAMBERS

June 17, 1996

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 2662

Honorable Members
Eighteenth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2662, entitled 'A Bill for an Act Relating to the Developmentally Disabled.'

The purpose of Senate Bill No. 2662 is to ensure that individuals with developmental disabilities who will be transitioning into the community from Waimano Training School and Hospital (WTSH) will continue to receive funding for community-based services. Specifically, the bill provides that when an individual leaves WTSH, the funds needed to allow the individual to receive community-based services are required to follow that individual when he or she moves into the community.

Although the intent of this bill is to help individuals with developmental disabilities, there are a number of problems with the bill. If the provision requiring funds to follow developmentally disabled individuals is construed to require the Department of Health to fund community-based services for these individuals, the provision may create a conflict with section 333F-13, Hawaii Revised Statutes, which was recently amended by the Legislature to require parents, guardians of the property, or other persons responsible for the support of any persons receiving developmental disability services, to pay for the care and treatment of that individual. The bill also contains potentially conflicting formulas on how the Department of Health is to arrive at the amount of funds required to follow the developmentally disabled individual into the community. Finally, Act 189, Session Laws of Hawaii 1995, has existing safeguards to ensure that community-based services will be available for former WTSH residents.

For the foregoing reasons, I am returning Senate Bill No. 2662 without my approval.

Respectfully,

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 3079, entitled 'A Bill for an Act Relating to Employee Stock Ownership Programs.'

The purpose of Senate Bill No. 3079 is to require the Department of Business, Economic Development, and Tourism ("DBEDT") to establish a program to support and encourage expanded opportunities for employee ownership and participation in Hawaii businesses.

Under section 201-2, Hawaii Revised Statutes, DBEDT is generally authorized to "stimulate through research and demonstration projects those industrial and economic development efforts which offer the most immediate promise of expanding the economy of the State." The employee ownership and participation program described in this bill may be implemented through DBEDT's general statutory authority.

STATEMENT OF OBJECTIONS TO SENATE BILL NO.
3154

Honorable Members
Eighteenth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 3154, entitled 'A Bill for an Act Relating to the State Policy Concerning the Utilization of Volunteer Services.'

The purpose of Senate Bill No. 3154 is to encourage greater employer participation in school-to-work activities by providing workers' compensation coverage for students in work-based learning situations who are not paid wages directly by private employers.

This bill does not accomplish its purpose, and in the process, it unwisely creates potential liability for the State under the State Tort Liability Act. The bill attempts to encourage greater employer participation by providing employers with liability protection. To do this, the bill makes the unremunerated student intern a volunteer under chapter 90, Hawaii Revised Statutes. This was done apparently in an effort to provide the employer with protection from personal injury liability pursuant to section 386-5, Hawaii Revised Statutes, a portion of the State's Workers' Compensation Law. That section makes the rights and remedies afforded employees under that chapter "exclusive" of "all other liability of the employer to the employee." However, the unremunerated student intern is not an employee under the Workers' Compensation Law. Therefore, no legal protection will be provided the participating employers. Further, volunteers are employees of the State for purposes of the State Tort Liability Act. As a result, the tort of the unremunerated student intern will, in most cases, be the tort of the State of Hawaii. This bill therefore creates potential liabilities for the State under circumstances in which the State does not have actual control and supervision of the interns.

For the foregoing reasons, I am returning Senate Bill No. 3154 without my approval.

STATEMENT OF OBJECTIONS TO SENATE BILL NO.
3165

Honorable Members
Eighteenth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 3165, entitled 'A Bill for an Act Relating to Health Care Data Discovery.'

The purpose of this bill is to allow information relating to medical treatment to be communicated to data collection organizations for the purpose of analyzing aggregate treatment outcomes, trends, and costs, or public reporting, without making the information subject to discovery or admission into evidence in any civil or administrative proceeding involving the health care provider submitting the information or the organization collecting the data. The bill also provides that the "[i]nformation, documents, or records made in the regular course of business by a physician, health care professional, hospital, or other health care organization, or other medical care provider shall be discoverable and admissible as evidence in any civil or administrative proceeding."

I believe that the actual purpose of the bill was to immunize from discovery or admission into evidence any health care data submitted to a data collection organization, but at the same time, to prevent the mere submission of the health care data from being used to shield the source material from discovery. However, as passed, the bill amends section 622-59, Hawaii Revised Statutes, to mandate that records made in the regular course of business by health care providers be discoverable and admissible as evidence without exception or qualification. I believe that this provision conflicts with established confidentiality statutes.

For example, the physician-patient privilege found in Rule 504(b), Hawaii Rules of Evidence, provides that a patient may refuse to disclose and prevent others from disclosing confidential communications made for the purpose of diagnosis or treatment. Taken literally, Senate Bill No. 3165 would make such confidential information contained in medical records "made in the regular course

of business...discoverable and admissible in evidence." This was not the intended result of the bill.

Furthermore, Section 6 of Article I of the State Constitution provides in part, "The right of the people to privacy is recognized and shall not be infringed without the showing of compelling state interest." This constitutional right to privacy extends to certain highly personal and intimate affairs of people's lives, and may prohibit disclosure of information contained in medical, financial, or employment records. By making records maintained by medical care providers discoverable and admissible in evidence, this bill conflicts with the constitutional right to privacy. Again, this was not the intended result of this bill.

For the foregoing reason, I am returning Senate Bill No. 3165 without my approval.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 1736, entitled 'A Bill for an Act Relating to Parent-Community Networking Centers.'

The purpose of House Bill No. 1736 is to establish parent-community networking centers within the Department of Education and to identify the goals and objectives of that program.

This bill is unnecessary. Such centers have been in operation without formal statutory basis. The Department of Education should be allowed to develop such centers as needs arise. Further, there is no reason why the goals and purposes envisioned under this bill cannot be achieved by entities such as the parent-teacher-student associations at each school.

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 2539

Honorable Members
 Eighteenth Legislature
 State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 2539, entitled 'A Bill for an

Act Relating to the Authorization of Special Purpose Revenue Bonds for Energy Development.'

The purpose of House Bill No. 2539 is to authorize the Department of Budget and Finance to issue special purpose revenue bonds in a total amount not to exceed \$50,000,000 for the purpose of assisting Encogen Hawaii, L.P., or a partnership in which Encogen Hawaii, L.P., is a partner, to establish a cogeneration power plant and related facilities.

While House Bill No. 2539 only expressly authorizes the issuance of special purpose revenue bonds, an authorization to issue bonds has long been considered to include an implied appropriation. Accordingly, House Bill No. 2539 is considered to be an appropriations bill subject to Section 9 of Article VII of the Constitution of the State of Hawaii, which prohibits the passage of an appropriations bill, except for bills to cover the expenses of the Legislature or recommended by the Governor for immediate passage, prior to the passage and transmittal to the Governor of the supplemental appropriations bill. House Bill No. 2539 is not a bill to cover the expenses of the Legislature nor a bill recommended by the Governor for immediate passage, but it was passed on April 26, 1996, prior to the passage and transmittal on April 29, 1996, of House Bill No. 2800, the supplemental appropriations bill. Consequently, I believe that House Bill No. 2539 violates the order of passage requirement of Section 9 of Article VII of the State Constitution and cannot validly become law.

For the foregoing reason, I am returning House Bill No. 2539 without my approval. I wish to remind the Legislature that last year it violated the same order of passage requirement of Section 9 of Article VII of the State Constitution. The constitutional violation forced me to veto thirty-three bills and required the Legislature to convene in special session in June 1995 to pass replacement bills.

STATEMENT OF OBJECTIONS TO HOUSE BILL NO.
2644

Honorable Members
Eighteenth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 2644, entitled 'A Bill for an Act Relating to Pension and Retirement Systems.'

The purposes of House Bill No. 2644 are to repeal the provision in section 88-107, Hawaii Revised Statutes, that accelerates liquidation of the unfunded benefit obligations of the Employees' Retirement System by the State and counties, and to authorize the Employees' Retirement System to retain attorneys.

In 1994, the Legislature amended section 88-107 to accelerate liquidation of the unfunded benefit obligations of the Employees' Retirement System by the State and counties. The purpose of the amendment was to address the unfunded pension benefit obligation that in 1994 grew from \$1.6 billion to \$1.8 billion.

Section 2 of Article XVI of the State Constitution provides that "[m]embership in any employees' retirement system of the State or any political subdivision thereof shall be a contractual relationship, the accrued benefits of which shall not be diminished or impaired." This provision establishes a contractual relationship between the employee and the retirement system and provides that retirement benefits that have accrued cannot be diminished or impaired. Failure to liquidate the unfunded pension obligations creates an inappropriate level of risk to the beneficiaries of the Employees' Retirement System and, therefore, raises questions as to the constitutional validity of this bill.

The Department of the Attorney General provides legal services to state government agencies on the legal subject matter areas that are applicable to government agencies. Because of the growing complexity of the law, government agencies typically cannot be served by a single lawyer. The Attorney General has established procedures for the review of work by supervisors and, when appropriate, by committees of specialists in various areas of law. In addition, procedures have been established for handling conflicting positions by maintaining a separation of personnel involved in opposing representations. The Attorney General has been attempting to accommodate the needs of the government agencies, while reducing the cost of expensive contracts with private attorneys and developing and retaining expertise within the department to ensure long-term consistency and continuity in the provision of legal services.

The Employees' Retirement System funds a full-time deputy attorney general position that is assigned to advise the System. I believe that the System and the State of Hawaii will best be served by that full-time deputy attorney general providing legal services under the review procedures established by the Attorney General. In the event the System has special needs that cannot be met by

the Attorney General, the Attorney General already has statutory authority to hire outside counsel.

For the foregoing reasons, I am returning House Bill No. 2644 without my approval.

Honorable Members

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 3096, entitled 'A Bill for an Act Relating to the Return of Merchandise.'

The purpose of House Bill No. 3096 is to clarify the law relating to the return of merchandise by replacing the existing refunds and exchanges statute with a new section that addresses the return of merchandise issue as it relates to current industry practices.

However, this bill significantly undermines the interests of consumers by: (1) arbitrarily reducing the time period to obtain a refund or exchange from sixty to forty-five days and (2) allowing merchants who do not require proof of purchase for a refund or exchange to only pay the current selling price or most recent sale price, not the original purchase price. In addition, this bill increases ambiguity in the law and makes enforcement more

difficult by adding a definition of "unsuitable for resale" that appears to conflict with or make redundant other parts of the new section.

For the foregoing reasons, I am returning House Bill No. 3096 without my approval.

STATEMENT OF OBJECTIONS TO HOUSE BILL NO.
3138

Honorable Members
Eighteenth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 3138, entitled 'A Bill for an Act Relating to Education.'

The purpose of House Bill No. 3138 is to improve and enhance the public education system. Among other things, this bill provides an unlimited deduction for charitable contributions of educational technology equipment and services made to public educational institutions.

While House Bill No. 3138 promotes charitable contributions of educational technology equipment and services to our schools and university system, I believe that this bill raises significant problems in the efficient administration of our state tax laws.

In particular, under this bill, schools accepting contributions must certify in writing the value of the contributions. I believe it would be unduly burdensome to place this responsibility on our public educational institution personnel. Given the rapid pace of technological change, up-to-date technical expertise would be necessary to accurately appraise the fair market value of contributions made to our schools. I believe that reliance on donor provided valuations, in the absence of independent appraisals, may cause an overstatement in the valuation of such contributions and consequently, result in a loss of tax revenues to the State.

In addition, this bill permits a charitable deduction to be taken for services provided to public educational institutions for educational technology. I believe that this provision will cause problems for the public educational institution personnel who will be responsible for trying to ascertain the value of such services and may lead to potential abuse of this provision.

For the foregoing reasons, I am returning House Bill No. 3138 without my approval.

Respectfully,

/s/ Benjamin J. Cayetano

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 3382

Honorable Members
 Eighteenth Legislature
 State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 3382, entitled 'A Bill for an Act Relating to State Finances.'

The purpose of House Bill No. 3382 is to require state and county agencies to pay interest on overdue bills at a rate equal to the prime rate plus two percent, up to a maximum of twelve percent a year. In addition, this bill repeals section 37-53, Hawaii Revised Statutes, which permits executive departments to transfer excess moneys from their special funds to the general fund.

The provision in this bill regarding the payment of interest on overdue bills in this bill is identical to a provision contained in Senate Bill No. 2819, which was also passed by the Legislature. Since I intend to approve Senate Bill No. 2819, there is no necessity to also approve this bill.

In addition, the repeal of section 37-53, which permits executive departments to transfer excess moneys in their departments' special funds to the general fund, reduces the State's flexibility in addressing change fiscal conditions. Since the State must accomplish its budgeted objectives within the limitations of available revenues, the repeal of section 37-53 reduces the options available to the State to address changing fiscal conditions.

For the foregoing reasons, I am returning House Bill No. 3382 without my approval.

STATEMENT OF OBJECTIONS TO HOUSE BILL NO.
3401

Honorable Members
Eighteenth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 3401, entitled 'A Bill for an Act Relating to the Insurance Code.'

The purpose of House Bill No. 3401 is to make technical corrections to certain provisions of the Insurance Code. Pursuant to section 431:1-100, Hawaii Revised Statutes, chapter 431 of the Hawaii Revised Statutes is known as the Insurance Code. However, section 4 of the bill amends the powers, duties, and functions of the Hawaii Hurricane Relief Fund that are contained in chapter 431P, Hawaii Revised Statutes. Section 14 of Article III of the State Constitution provides that "[e]ach law shall embrace but one subject, which shall be expressed in its title." The subject of the bill as expressed in its title is limited to the Insurance Code and does not include the Hawaii Hurricane Relief Fund. Since the subject matter of section 4 of the bill is not within the scope of the title, section 4 of the bill violates Section 14 of Article III of the State Constitution.

Additionally, section 3 of the bill amends section 431:16-155, Hawaii Revised Statutes, by deleting the requirement that the Insurance Commissioner approve the insurer's plan for recoupment of an assessment made by the Property and Liability Insurance Guaranty Association. In the past, the Commissioner has encountered difficulties with the plan for recoupment, because some insurers have recovered amounts in excess of a proper recoupment. The amendment in section 3 of the bill results in a significant and unreasonable diminution of the Commissioner's control over the recoupment process.

For the foregoing reasons, I am returning House Bill No. 3401 without my approval.

STATEMENT OF OBJECTIONS TO HOUSE BILL NO.
3602

Honorable Members
Eighteenth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 3602, entitled 'A Bill for an Act Relating to Housing.'

The purposes of House Bill No. 3602 are to exempt the Maunaloa subdivision from all state and county subdivision and housing development standards and to require the Office of Hawaiian Affairs to report to the Legislature on the status of this self-help project.

However, the stated premise of this bill is that the residents have been unable to finance the upgrading or rebuilding of their homes due to substandard infrastructure. Exempting this subdivision from development standards would not enhance the residents' access to financing, because financial institutions are unlikely to assume the credit risk for an area lacking adequate infrastructure and governmental review and permitting.

Furthermore, this bill exempts an undefined area for an unlimited period from all state and county subdivision and housing standards. Such an exemption adversely affects the government's ability to ensure the health and safety of residents. There is inadequate access for firefighting and other emergency vehicles, and the availability of adequate water service, sewage disposal, drainage facilities, and other utilities is unknown. Our communities should assure that residents have the minimum requirements to ensure the health, safety and welfare of the residents. Under this bill, one cannot be assured that conditions harmful or dangerous may not result.

For the foregoing reasons, I am returning House Bill No. 3602 without my approval.

Honorable Members
Eighteenth Legislature

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 3618, entitled 'A Bill for an Act Relating to Administrative Rules.'

House Bill No. 3618 provides authority for the review of executive agency administrative rules by the Joint Legislative Management Committee established under chapter 21E, Hawaii Revised Statutes.

Chapter 91, Hawaii Revised Statutes, provides procedures for adoption, amendment, or repeal of administrative rules, which include public notice and hearings for the purpose of giving the public the opportunity to submit data, views, or arguments regarding the rules prior to adoption, amendment or repeal. Furthermore, any interested person has the ability to petition an agency to adopt, amend, or repeal administrative rules, to seek a judicial declaratory judgment from a circuit court as to the validity of an agency rule, and to petition an agency for a declaratory ruling as to the applicability of any statutory provision of any rule or order of an agency. Because adequate safeguards and sufficient means for public input in the current process for adopting rules, as well as avenues for review and challenge of administrative rules, already exist, the additional review proposed by this bill is unnecessary.

For the foregoing reasons, I am returning House Bill No. 3618 without my approval.

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 3964

Honorable Members
Eighteenth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 3964, entitled 'A Bill for an Act Relating to State Government.'

The purpose of House Bill No. 3964 is to streamline the operations of state government by: authorizing notice of invitations for bids through electronic media; limiting the types of projects for which the Housing Finance and Development Corporation may issue certifications to qualified persons or firms for exemption from general excise taxes; authorizing filing of tax documents by electronic, telephonic, or optical means; providing for assessments and service charges for electronic funds transfers to the State; and establishing penalties for failure to remit taxes after electing to remit them by electronic funds transfer.

The purpose of the general excise tax exemption for housing developments of the Housing Development and Finance Corporation ("HFDC") is to achieve cost savings to assure the economic feasibility in the development of a housing project which would encourage and enable the production of as many lower cost housing units as possible. The repeal of the general excise tax exemption will have a significant adverse impact on the feasibility and affordability of housing projects with lower cost housing units. In these times of economic uncertainty it is important to have as many incentives to build affordable housing as possible.

In addition, Section 14 of Article III of the State Constitution provides in part that "[e]ach law shall embrace but one subject, which shall be expressed in its title." The purpose of this requirement is to prevent

hodgepodge legislation, to prevent surprise or fraud upon the legislature by means of provisions in bills of which titles give no intimation, and to apprise people of proposed matters of legislation. Although this bill technically satisfies the requirements of Section 14 of Article III of the State Constitution because all of the sections in the bill relate to some aspect of government, nevertheless, because of the variety of specific topics addressed by this bill, an argument can be made that the title gives inadequate notice to the public about the various amendments made by this bill.

For the foregoing reasons, I am returning House Bill No. 3964 without my approval.

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 3724

Honorable Members
Eighteenth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 3724, entitled 'A Bill for an Act Relating to the Kaho'olawe Island Reserve Commission.'

The purpose of House Bill No. 3724 is to authorize the Kaho'olawe Island Reserve Commission to employ or retain its own attorney, rather than be provided legal services by the Department of the Attorney General.

The Department of the Attorney General provides legal services to state government agencies in the legal subject matter areas that are applicable to government agencies. Because of the growing complexity of the law, government agencies typically cannot be served by a single lawyer. The Attorney General has established procedures for the review of work by supervisors and, when appropriate, by committees of specialists in various areas of law. In addition, procedures have been established for handling conflicting positions by maintaining a separation of personnel involved in opposing representations. The Attorney General has been attempting to accommodate the needs of the government agencies, while reducing the cost of expensive contracts with private attorneys and developing and retaining expertise within the department to ensure long-term consistency and continuity in the provision of legal services.

The Kaho'olawe Island Reserve Commission has agreed to fund a full-time deputy attorney general position that will be assigned to advise the Commission. In March, I approved the Attorney General's request to establish that deputy attorney general position and the Attorney General is in the process of formally establishing the position and filling it. I believe that the Commission and the State of Hawaii will best be served by that full-time deputy attorney general providing legal services under the review procedures established by the Attorney General.

For the foregoing reasons, I am returning House Bill No. 3724 without my approval.

STATEMENT OF OBJECTIONS TO SENATE BILL NO.
2087

Honorable Members
Eighteenth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2087, entitled 'A Bill for an Act Relating to Public Schools.'

This bill provides that the State of Hawaii is the responsible employer for purposes of workers' compensation coverage of a student participating in a vocational student internship program sponsored by the University of Hawaii and limits the workers' compensation coverage to those students who are paid wages directly by the private employers who are participating in the vocational internship programs sponsored by either the University of Hawaii or the Department of Education. This bill also exempts public schools from chapter 103D, Hawaii Revised Statutes, for purchases of goods or services or construction costs that are less than \$5,000. These procurements shall not be artificially divided or parceled so as to defeat the purpose and intent of chapter 103D, Hawaii Revised Statutes.

If the vocational student intern is paid wages just as any other employee of the private employer, I question why the vocational student intern must be deemed to be an employee of the State for workers' compensation coverage. Furthermore, the added cost to the State of providing workers' compensation coverage for vocational student interns of the University of Hawaii is unknown and the impact on the work force of the expansion of vocational student internship programs is also unknown.

Section 103D-305, Hawaii Revised Statutes, already provides that small purchases (less than \$10,000 for supplies or services and less than \$25,000 for construction) may be made in accordance with rules adopted by the Procurement Policy Office. Sections 3-122-74 through 3-122-74, Hawaii Administrative Rules, require that three price quotes be solicited for expenditures of at least \$1,000 but less than \$10,000 for goods and services, and for expenditures of \$4,000 or

more but less than \$25,000 for construction. The effect of this bill is to exempt the Department of Education from the requirement of obtaining price quotes designed to foster competition in the small purchase context. The exemption of the Department of Education compromises the integrity of the process that was designed to ensure fair and equitable treatment of all persons who deal with the State's procurement system.

For the foregoing reasons, I am returning Senate Bill No. 2087 without my approval.

STATEMENT OF OBJECTIONS TO SENATE BILL NO.
2152

Honorable Members
Eighteenth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2152, entitled 'A Bill for an Act Relating to Employee Benefit Plans.'

The purpose of Senate Bill No. 2152 is to authorize the Department of Education and the University of Hawaii to make payments to custodial accounts established on behalf of their employees pursuant to section 403(b)(7) of the Internal Revenue Code of 1986, which allows employees of educational institutions, hospitals, and religious organizations to invest in tax-sheltered annuities and other investment vehicles.

Both the Department of Education and the University of Hawaii lack the expertise to select investment companies such as mutual fund companies. Although the bill includes a provision indemnifying the State, the Department of Education, and the University of Hawaii for liabilities resulting from the performance of any investment product purchased on behalf of their employees, of concern is the absence of reasonable safeguards to ensure that investment companies are qualified and monitored. An additional concern is that the Department of Education and the University of Hawaii lack the expertise and personnel resources to properly implement and administer this bill's proposed program and no additional funds were appropriated for the administration of the program.

Finally, 403(b) pension plans have stringent rules which, if not followed, could result in the loss of status and tax advantages and in severe tax consequences to the organization. Recently, such pension plans have come under scrutiny by the Internal Revenue Service. Many colleges and universities have been subjected to Internal Revenue Service examination, with one university having been assessed \$80,000,000 in penalties and back taxes. Given the lack of personnel and expertise to implement and administer such a program and the severe tax consequences that could result from less than perfect administration, I believe that the Department of Education and the University of Hawaii are not ready to undertake such a venture at this time.

For the foregoing reasons, I am returning Senate Bill No. 2152 without my approval.

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 2549

Honorable Members
Eighteenth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 2549, entitled 'A Bill for an Act Relating to the State Planning Council on Developmental Disabilities.'

The purpose of this bill is to amend chapter 333E, Hawaii Revised Statutes, (1) to prohibit the Department of Health from interfering with the functions of the State Planning Council on Developmental Disabilities; (2) to require the council to monitor, evaluate, and comment upon the deinstitutionalization plans for Waimano Training School and Hospital; (3) to require the council to submit annually to the Legislature and the Governor an analysis of any budget requests that affect individuals with developmental disabilities; and (4) to substitute the phrase "individuals with developmental disabilities" for the phrase "the developmentally disabled" wherever it occurs in chapter 333E.

However, federal law already requires that the designated state agency provide assurances that it and other state offices "will not interfere with systemic change, capacity building, and advocacy activities, budget, personnel, State plan development, or plan implementation of the State Developmental Disabilities Council." Developmental Disabilities Assistance and Bill of Rights Act Amendments of 1994, Pub. L. No. 103-230, §122(c)(5)(M). There is not compelling reason to enact these federal requirements into state law. With respect to the other amendments that require the council to monitor, evaluate, and comment upon deinstitutionalization plans for Waimano Training School and Hospital and require the council to submit annual analyses of budget requests affecting individuals with developmental disabilities, the bill mandates that the council perform specific tasks that are already within its broad powers. Nothing prevents the council from performing these functions under existing law. Consequently, this bill is unnecessary.

For the foregoing reasons, I am returning House Bill No. 2549 without my approval.

Respectfully,

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 2809, entitled 'A Bill for an Act Relating to Culture.'

The purpose of House Bill No. 2809 is to require the Department of Education to assess user fees for the use of school facilities. In particular, this bill requires that the Department of Education establish separate rates for special and unique facilities such as the Pearl City Cultural Center.

Section 14 of Article III of the State Constitution requires that the subject of a bill be expressed in its title. The subject of this bill is the assessment of user fees at Department of Education facilities. This is a fiscal matter and is inconsistent with the subject expressed in the title of this bill, "culture." Consequently, I believe that this bill violates the subject-title requirement of Section 14 of Article III of the State Constitution and cannot validly become law.

In addition, I believe that this bill is not necessary because the Department of Education's current fee schedule adequately addresses the various uses of its facilities, including facilities such as the Pearl City Cultural Center. Accordingly, I believe this measure is not needed.

For the foregoing reasons, I am returning House Bill No. 2809 without my approval.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 2897, entitled 'A Bill for an Act Relating to Education.'

The purposes of this bill are to require the Department of Education to submit annual expenditure reports by location and function as part of its annual status report to the Governor and the Legislature and to require certification of dental health for school-aged children entering public or private school for the first time.

Although the two purposes of this bill appear to be within the subject expressed in its title, "education," and do not make this bill constitutionally invalid, I believe that the two purposes of this bill are sufficiently different that the inclusion of both in the same bill was inappropriate. Furthermore, this bill imposes another mandatory requirement on parents. I believe that matters such as medical and dental health care should be left to parents to provide and government should encourage the provision of such care through the education of the parents and not by enactment of laws imposing mandatory requirements.

For the foregoing reasons, I am returning House Bill No. 2897 without my approval.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 3409, entitled 'A Bill for an Act Relating to Consumer Protection.'

The Office of Disciplinary Counsel has indicated that absent express statutory or judicial authority, attorneys in the Office of Consumer Protection risk violating the Supreme Court's Rules of Professional Conduct if their investigators use undercover techniques in civil investigations.

Many government agencies, including the Department of the Attorney General, are authorized by statute to conduct investigations in civil matters to protect the public and the use of undercover operations is a necessary and integral part of these efforts and a proper exercise of the State's police powers. By expressly authorizing one government agency to use undercover techniques, this bill may be used to suggest that other agencies lack such authority and, thus, may be detrimental to the State's efforts to protect consumers.

For the foregoing reasons, I am returning House Bill No. 3409 without my approval.

Gov. Msg. No. 363, dated June 19, 1996, transmitting his statement of objections to an appropriation line item in House Bill No. 2800 which he has returned to the House of Representatives without his approval and which reads as follows:

"EXECUTIVE CHAMBERS
HONOLULU

June 19, 1996

STATEMENT OF OBJECTIONS TO HOUSE BILL NO.
2800

Honorable Members
Eighteenth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 2800, entitled 'A Bill for an Act Relating to the State Budget.'

The purpose of House Bill No. 2800 is to provide supplemental appropriations to the Executive Branch by amending Act 218, Session Laws of Hawaii 1995 (the General Appropriations Act of 1995), and other appropriations and authorizations for the 1995-1997 fiscal biennium. While the bill as a whole has merit, I object to the \$300,000 portion of the special fund appropriation for the transportation, communications, and utilities budget program (budget program identifier BUF 901), item J-6 of section 3 of Act 218, Session Laws of Hawaii 1995, as amended by section 3 of House Bill No. 2800, that is for hiring a private consultant to review the issue of the overhauling versus undergrounding of utility lines.

While the study has merit, the proviso in section 80.1 of Act 218, as added by paragraph (41) of section 4 of

this bill, states that the Office of the Auditor shall select the consultant, determine the scope and requirements of the contract, and administer the contract. Appropriation of moneys to the Public Utilities Commission, an executive branch agency, but conditioning the expenditure of those moneys on the selection, determination, and administration decisions of the Office of the Auditor, a legislative branch agency, appears to violate the doctrine of separation of powers. Consequently, I have reduced by \$300,000 the appropriation of \$5,529,993 for BUF 901 for fiscal year 1996-1997, item J-6 of section 3 of this bill (on page 57), to \$5,229,993, and correspondingly reduced the \$300,000 specified in the proviso added by paragraph (41) of section 4 of this bill (page 91) to \$0.

In addition, certain provisions of this bill do not appear to deal with its subject as expressed in its title. Section 14 of Article III of the State Constitution requires a subject-title correlation, and provisos that attempt to repeal or modify existing statutes, or are unrelated to an appropriation in a general or supplemental appropriations act, violate this requirement. Some examples of provisos in section 4 of this bill that are unrelated to an appropriation include those contained in paragraph (9) on page 78, requiring the Department of Health to comply with mandates by the United States Department of Justice relating to the Hawaii State Hospital; paragraph (12) on page 79, requiring the Department of Health to work to expedite execution of the federal grant for the Hawaii ohana project and to provide all available resources necessary to facilitate the expenditure of grant moneys paragraph (19) on page 81, authorizing the Department of Human Services to transfer funds among programs "as needed"; paragraph (21) on page 81, requiring the health care payments budget program to conduct a study on various drug therapies in treatment of patients in the Med-QUEST program; paragraph (28) on page 84, prohibiting the Department of Education from reducing funds from existing programs to fund programs and initiatives not specifically authorized by the Legislature; paragraph (34) on page 86, permitting the Department of Education to transfer allocated resources; paragraph (35) on page 87, requiring the Department of Education, the Department of Human Services, and the Department of Health to develop and implement interagency working agreements regarding services provided to children, to develop methods to pursue federal reimbursements for such services, and to submit reports to the Legislature; and paragraph (36) on page 89, requiring the Office of the Auditor to perform a management audit of all noninstructional positions at the University of Hawaii, Manoa.

Provisos in section 4 of this bill that are invalid because they conflict with or attempt to repeal general law include the provisos contained in paragraph (8) on page 78 and paragraph (11) on page 79, which appear to be attempts to amend section 37-36 and 37-37, Hawaii Revised Statutes, which give the Governor flexibility in budget execution (furthermore, these paragraphs appear to be inoperative since no moneys appropriated for fiscal year 1996-1997 have been restricted--the only restrictions imposed were on appropriations for fiscal year 1995-1996 in furtherance of statutory budget execution authority); paragraph (28) on page 84, which appears to amend section 37-37(a), Hawaii Revised Statutes; and paragraph (42) on page 93, which appears to amend section 37-71(f), Hawaii Revised Statutes, by limiting the contingency to "emergencies" rather than permitting the contingency fund to be used for "unexpected or unforeseen needs," which is within the ordinary meaning of the word "contingency." However, these provisions of this bill do not appear to be subject to a line item veto.

For the foregoing reasons, I am returning House Bill No. 2800 only with the reduction in appropriations set

forth above totaling \$300,000 for fiscal year 1996-1997 for operating purposes.

Respectfully,

RE: Delivery of Lists of Parcels Identified as Hawaiian Home Lands

Dear Mr. Hoof:

Enclosed with this letter you will find lists of parcels of land identified as Hawaiian Home Lands by the Hawaiian Homes Commission (hereinafter referred to as "data"). This data includes, for most parcels, the relevant tax map keys and grant numbers. Along with the hard copies of the data there is also included a computer disk containing the data. Enclosed also is a copy of a letter dated April 27, 1995, from Kali Watson, chairperson of Hawaii Homes Commission, to Representative Dennis A. Arakaki, Co-chair of the House Conference Committee on H.B. No. 1828, covering transmittal of the data.

The data was originally required to be deposited in the Hawaii Archives in connection with the provisions of Section 5 of House Bill No. 1828, H.D. 2, S.D. 1, C.D. 1, (hereinafter referred to as "H.B. No. 1828") and its accompanying Conference Committee Report No. 114, as adopted at the Regular Session of 1995 of the Hawaii State Legislature.

Conference Committee Report No. 114 described the need for public access to the data in the third paragraph on page 4 of the report, as follows:

"To this end, the Legislature has caused a complete printed copy of this information, along with a copy of the department's letter [dated April 27, 1995], to be deposited with the department as well as the State Archives in order to ensure that public access."

The official text of Conference Committee Report No. 114 may be found at pages 1007-1009 of the 1995 House Journal, Regular Session of 1995, Eighteenth State Legislature.

House Bill No. 10-S was approved by the Governor as Act 14 of the Eighteenth State Legislature, Special Session 1995.

Rule 39. Order of Business: Special

The Senate, by previous motion, may direct that any matter named shall be made a special order of business and that such special order shall take precedence of all business after the fourth order, or that it shall take any other position lower down on the calendar.

Rule 40. Order of Business: Committee Reports and Gubernatorial Messages

Reports from Conference or Joint Committees, and from the Leadership Committee on Legislative Management, shall be in order at all times after the second order of business, and, upon motion, messages from the Governor or from the House of Representatives may be received at any time. Without unanimous consent, however, such messages or reports shall not be in order for discussion when received, but shall be placed on the calendar as unfinished business.

Rule 41. Order of Business: Order of the Day

After the first seven orders of business set forth in Rule 38, it shall be in order, pending consideration thereof, to move that the Senate proceed to dispose of the unfinished business or to the Order of the Day. If such motion be decided in the affirmative, such consideration shall immediately be taken up.

Rule 42. Order of Business: Unfinished Business

The unfinished business in which the Senate was engaged at the time of the last adjournment shall have the preference in the Order of the Day. Until the former is disposed of, no motion for any other business shall be received without special leave of the Senate.

Rule 43. Order of Business: Questions on Priority

All questions relating to the priority of business to be acted upon shall be decided without debate.

PART V. BILLS; RESOLUTIONS

Rule 44. Bills: Introduction

Any bill may be introduced on the report of the committee or by any member, except appropriation bills subject to the next paragraph and except short form bills which may only be introduced by the majority party leader or the minority party leader after appropriate consultation with committee chairs and other members of the Senate.

The Executive Budget, Judiciary Budget, Legislative Budget, General Appropriations Bill, Supplemental Appropriations Bill, Office of Hawaiian Affairs Budget, and bills for criminal injuries compensation, for claims against the State and for funding of collective bargaining agreements may be introduced only by the President. Each member may introduce only one bill appropriating money for capital improvements projects in the member's district. The majority party leader and the minority party leader shall develop a policy governing introduction by individual members of bills intended to appropriate money or to authorize the issuance of state bonds.

All bills shall be introduced under the order of resolutions.

Bills which shall carry over from a regular session in an odd-numbered year to the next regular session shall retain the numbers assigned to them. The Clerk shall keep a record of the status of all bills in possession of the Senate at the end of the odd-numbered year session and shall publish the record of the status of all such bills prior to the convening of the next regular session.

Every bill introduced or reported out of any committee, which amends an existing section or subsection of the Hawaii Revised Statutes or Session Laws of Hawaii, shall set forth the section or subsection in full, and the matter to be deleted shall be enclosed in brackets and any new matter added to the section or subsection shall be underscored. However, a Supplemental Appropriations Bill need not conform to this rule, nor an amending bill where the intent and effect of the amending bill can be clearly identified and understood without repeating the entire section or subsection, in which case only the paragraphs, subparagraphs, clauses or items to be amended need be set forth as the President may allow. The President may allow additional exceptions to this rule.

Rule 45. Bills: Referral to Committee

(1) Upon introduction all bills shall be numbered by the Clerk in numerical sequence, shall bear an identification as a Senate Bill, and shall pass first reading.

(2) Each such bill shall be referred by the President to one or more appropriate Leadership or Standing Committees for consideration.

(3) Any referral may be reconsidered by the President upon written request of any chair who is aggrieved by the referral made within forty-eight hours of the referral. The President shall decide the request for reconsideration within a reasonable time. The President's decision on a request for reconsideration may be appealed by any chair aggrieved by that decision to the Leadership Committee. No request for reconsideration or appeal shall be considered if the timing of the request would have the effect of killing a bill or resolution.

(4) Each Leadership and Standing Committee shall consider the bills referred to it as expeditiously as may be possible.

Rule 46. Bills: Required Readings

No bill shall pass the Senate unless it shall have passed three readings in the Senate on separate days. The President shall give notice in each instance whether it be the first, second or third reading.

Rule 47. Bills: First Reading

(1) The first reading of a bill shall be for information. If opposition be made to it, the question shall be: "Shall this bill be rejected?" which question may be debated. But no one shall speak more than once upon such question, except the introducer of the bill, who may close the debate.

(2) If the question to reject be negative, the bill shall go to its second reading without question.

Rule 48. Bills: Second Reading

A bill upon its second reading may be read by its title only. It then shall be subject to a motion to commit. If it is not referred to a Leadership Committee, Standing Committee, or Special Committee, but is ordered to be considered in Committee of the Whole, a day for such consideration shall be determined by the chair of such committee. When the bill is reported from committee it shall take its place in the order of business for future consideration.

Rule 49. Bills: Third Reading

(1) No bill shall pass third or final reading in the Senate unless printed copies of the bill in the form to be passed have been made available to the members of the Senate for at least 48 hours. Form to be passed means the form in which a bill is to be (a) passed on third reading in the Senate, (b) concurred to by the Senate after amendments have been made by the House, or (c) passed by the Senate after a Conference Committee has agreed upon it.

(2) A bill on its third or final reading may be read by its title only, and the President then shall ask the Senate: "Shall this bill pass its third reading?" or "Shall this bill pass its final reading?" as the case may be. Upon the final passage of any bill, the Ayes and Noes shall be called. Such passage shall require the affirmative vote of a majority of all the members of the Senate and the Ayes and Noes shall be entered on the Journal.

Rule 50. Bills: Property of Senate

All bills introduced in the Senate shall be deemed the property of the Senate and under its control unless they shall become law, subject however to the right of the House of Representatives to amend or to refuse to agree with the bills.

Any bill pending at the final adjournment of a regular session in an odd-numbered year shall carry over with the same status to the next regular session; provided that if such bill shall have passed third reading in the Senate in an odd-numbered session, it shall pass at least one reading in the Senate in the next regular session upon its return to the Senate from the House.

Rule 51. Bills: Recall from Committee

Twenty days after a bill has been referred to a committee, the same may be recalled from such committee by the affirmative vote of one-third of the members of the Senate.

Rule 52. Matters Tabled

When a bill or resolution or other matter has been laid upon the table, it shall not thereafter be taken from the table and be considered or restored to a place upon the calendar of the Senate without the consent of a majority.

Rule 53. Bills: Amendments

(1) All amendments proposed to any bill shall be in writing, unless otherwise ordered by the Senate, and shall be sent to the Clerk's desk to be filed with the bill.

(2) No floor amendment to a bill shall be voted upon unless a copy of the amendment, together with a copy of the complete bill in a form that incorporates the floor amendment, shall have been presented to the Clerk no later than 9:00 o'clock a.m. on the day of the session at which the amendment is to be offered. The Clerk shall prepare and distribute copies of the floor amendment to each member of the Senate present.

(3) A floor amendment shall be deemed pending only after its proponent has been recognized by the President and its adoption has been properly moved and seconded.

(4) A floor amendment that relates to a different subject, is intended to accomplish a different purpose, incorporates any other bill pending before the Senate, or would alter the nature of the bill as reported, is not germane and shall not be considered by the Senate.

(5) An amendment to a floor amendment that is not germane to both the floor amendment and the bill as reported shall not be considered by the Senate.

Rule 54. Bills: Certification

When a bill is passed it shall be certified by the Clerk who shall note the day of its passage at the bottom of the last page of the bill.

Rule 55. Bills: Received from House of Representatives

Whenever a bill which has finally passed the House of Representatives shall be certified to the Senate for its action, such bill shall be read three times before final passage, in accordance with the provision of the rules for the passage of bills introduced in the Senate.

Rule 56. Bills: Transmittal to House of Representatives

When a bill originating in the Senate shall have passed its third reading, or when a bill originating in the House which has been received from the House shall have been amended, or when a carry-over bill from an odd-numbered year originating in the House passes its third reading in the Senate in an even-numbered year session, such bill or such amended bill shall immediately be certified by the President and Clerk and sent to the House of Representatives for its consideration.

Rule 57. Bills: Correction of Errors

When a bill has passed both the Senate and the House of Representatives and an error in it is discovered prior to its having received the approval of the Governor, the bill may be returned by Concurrent Resolution to the house last considering the bill for proper correction.

Rule 58. Bills: Order of Consideration

(1) The Clerk shall send bills that have passed first reading to be printed immediately. When they have been printed and circulated to the members of the Senate, the President shall refer them to the various committees. When the committees have considered them and reported on them, the committees shall return them to the Clerk, and the Clerk shall place them in the Second Reading File. The Senate shall consider them in the order in which they appear in the Second Reading File.

(2) The Clerk shall arrange bills that have passed second reading in the order of their passage on second reading, regardless of the date of their reference to committee or the date of the committee report on them. The Clerk shall place them on the Third Reading File in the order in which they passed second reading and the Senate shall consider them on third reading in that same order. However, if the third reading of a bill is set for some particular date, that bill shall be removed from the Third Reading File.

Rule 59. Bills: Special Order of Consideration

All bills and other matters set for consideration on particular dates, shall be arranged in the order of the several votes making such assignments. A list shall be made of such special orders, and when the time for consideration arrives, such bills and other matters shall be considered in the order of assignment. If an adjournment shall be had before all of such special orders are disposed of, the remainder shall go over and come under the head of unfinished business on the following day, unless otherwise ordered.

PART VI. RESOLUTIONS; MOTIONS

Rule 60. Resolutions and Motions: Form

All resolutions shall be typewritten, dated and signed by the introducer, otherwise they shall not be considered. The Senate shall not introduce any congratulatory, commemorative or memorial resolution but shall express the sentiment contained in such resolutions by means of a suitable certificate. Motions and amendments may be verbal but shall be reduced to writing if requested by the President, and shall be read from the desk if so ordered.

Rule 61. Motions: Second Required

No motion shall be received and considered by the Senate until the motion is seconded.

Rule 62. Motions: Disposition

After a motion is stated or read by the President, it shall be deemed to be in the possession of the Senate, and shall be disposed of by vote of the Senate; however, it may be withdrawn by the movant at any time before an amendment has been adopted or before the decision on the motion if not amended.

Rule 63. Motions Applicable to Pending Matters

Whenever any bill or resolution or other matter shall be under discussion, the only motions relative thereto shall be:

- (1) To lay upon the table,
- (2) To postpone to a certain time,
- (3) To postpone indefinitely,
- (4) To commit, and
- (5) To amend,

which motions shall have precedence in the order named.

The first two motions shall be decided without debate and shall be put as soon as made.

When any of the motions shall be decided in the negative, they shall not be revived the same day relative to the main question under discussion. If all are negative as aforesaid, the only remaining question shall be as to the adoption of the bill, resolution or other main question.

Rule 64. Matters Postponed Indefinitely

When a question is postponed indefinitely, the question shall not be acted upon again during the session in which it was introduced.

Rule 65. Motion for Previous Question

The object of the motion for the previous question is to cut off debate. It shall always be in order. It shall require a three-fifths vote to carry it.

Whenever the motion shall be carried, the author of the resolution or introducer of the bill under discussion shall be permitted to close the debate, after which the main question, subject to Rule 63, shall be put. The author or introducer may delegate to another such right to close.

Rule 66. Motion for Reconsideration

(1) When a motion has been once made and carried in the affirmative or negative, it shall not be in order for any member who voted in the minority to move for a reconsideration thereof; but any member who voted with the majority may move to reconsider it on the same or the succeeding day of session, or, with the consent of the Senate, on any subsequent day and such motion shall take precedence of all other questions, except a motion to adjourn.

(2) When a motion for reconsideration has been decided by vote, that vote shall not be reconsidered.

(3) When a bill or resolution or other matter upon which a vote has been taken shall have gone out of the possession of the Senate, and shall have been transmitted to the House of Representatives, a motion to reconsider shall be deemed to include a request to the House to return the same. If not complied with by the House, then the vote on the motion to reconsider shall be set aside. If such motion shall pass, the Clerk shall promptly communicate to the House the request for return of the matter to be reconsidered.

PART VII. PETITIONS AND COMMUNICATIONS**Rule 67. Petitions, Memorials, and Miscellaneous Communications**

(1) Any person may petition the Senate. Petitions and other memorials, except as provided in Rule 60, shall be in writing, signed by the petitioner.

(2) All petitions, memorials and other papers addressed to the Senate or to the President and members shall be presented to the Senate by the Clerk.

(3) A brief statement of the contents of such petitions, memorials or other papers shall be made orally by the Clerk.

(4) Every such petition, memorial or other paper shall be ordered filed or referred to a committee, as of course, by the President, unless such action is objected to by a member at the time such petition, memorial or other paper is presented.

(5) No such petition, memorial or other paper shall be debated on the day it is presented, except with the consent of the Senate.

PART VIII. ORDER; DEBATE; VOTING

Rule 68. Questions of Order

(1) A question of order may be raised at any stage of the proceedings, except during the calling of the roll when the Ayes and Noes are called for. Unless submitted to the Senate, such questions shall be decided without debate by the presiding officer, subject to an appeal to the Senate. Laying such appeal on the table shall be held as sustaining the ruling of the presiding officer.

(2) Any question of order may be submitted to the Senate for its decision.

Rule 69. Debate: General Limitation

No member shall speak more than twice, unless such member be the movant of the matter pending, in which case such member shall not be permitted to speak in reply until every member choosing to speak shall have spoken.

Rule 70. Voting: Methods

There shall be five methods of ascertaining the decision of the Senate upon any matter.

(1) First, by voice or raising of hands; Second, by rising; Third, by ballot; Fourth, by call of the roll of the members and a record of the Clerk of the vote of each; and Fifth, by unanimous consent.

(2) Whenever the Senate is ready to vote on any question, the President shall rise, and after stating the question, shall request all those in favor of the affirmative of the question to vote "Aye." The President then shall call upon all voting in the negative of the question to vote "No." The President then shall announce the result to the Senate.

(3) If any member shall doubt the result, as announced, the President again shall state the question and call upon the members to vote by rising in their places, and they shall remain standing until counted, and the result again shall be announced.

(4) The method of voting by ballot shall be as customary. The President shall appoint one or more tellers, or direct the Messengers to collect the ballots, which shall be counted by the Clerk. On motion, the Senate may vote upon any question by ballot.

(5) Whenever one-fifth of the members present shall request, the Clerk shall call the roll of the members of the Senate. Each member, when called, shall vote in a clear loud voice, "Aye," if voting in the affirmative, or "No," if voting in the negative. The Clerk shall record each vote and such record shall become a part of the Journal of the Senate. The President shall announce the results as above set forth.

(6) With the unanimous consent of the Senate, the President may direct the Clerk to record an "Aye" vote for each member of the Senate. If there is no objection, the Clerk shall so record the vote. If there is objection, the President shall ask for the names of the members voting "No" and order the Clerk to record no votes for them.

Rule 71. Voting: Rights of Members

(1) No member, on any account, shall refrain from voting unless excused by the President. A member may vote "Kanalua" the first time the member's name is called by the Clerk on any vote, but if the member votes "Kanalua" on the next call of the member's name, the member's vote shall be recorded as "Aye."

(2) The President may excuse a member who has a monetary interest in the question, or whose right to a seat in the Senate will be affected by the question, or whose official conduct is involved in the question. If a member thinks there may be a personal interest in the question, the member shall rise and disclose the interest to the President. The President then shall rule whether the member has a conflict of interest. If so, the member shall be excused from voting.

(3) Whenever the Ayes and Noes are called, no one, without unanimous consent, shall be permitted to explain a vote.

(4) After the announcement by the President of the result, no one shall be allowed to vote or to change a vote.

PART IX. DECORUM; DISCLOSURES; PEER REVIEW; PUNISHMENT**Rule 72. Misconduct; Procedure; Peer Review**

No member of the Senate shall be subject to a charge for misconduct, disorderly behavior, or neglect of duty unless the person making the charge shall have first given notice of the charge to the President and to the member being charged.

Upon receipt of the charge, the President shall attempt to resolve the matter in an administrative proceeding between the person making the charge or through whom the charge is being made and the member being charged. If the matter cannot be resolved administratively, the President may appoint a Special Committee to be chaired by the Vice-President or such other member as the President may designate to investigate, hear and report upon the conduct of the member charged for misconduct, disorderly behavior or neglect of duty. Any member so charged shall be informed in writing of the specific charge or charges made against the member and have opportunity to present evidence and be heard in the member's own defense before the Special Committee. Following its investigation and hearing, the Special Committee shall file its report with the President setting forth its findings and recommendations.

If the committee recommends dismissal of the charge or charges, the President may dismiss the charges without further hearing, or the President may present the report of the committee to the Senate for its consideration. The Senate, by a majority vote, may dismiss the charge or charges against the member without a hearing.

If there is no dismissal of the charge or charges, or if the committee recommends censure, suspension or expulsion, the President shall present the report of the committee to the Senate for its consideration and decision. The member who is charged, shall be informed in writing of the presentation of the charge or charges of the committee report to the Senate and be given an opportunity to be heard in the member's own defense. The Senate, by a majority vote, may dismiss the charge or charges without a hearing, or with notice and an opportunity to be heard in the member's own defense, censure a member or, upon a two-thirds vote of all the members of the Senate, suspend or expel a member.

At any stage of the charge against a member, the member shall have a right to be represented by a person or persons of the member's own choosing.

Rule 73. Decorum: Transgression of Rules

If any member transgresses the rules of the Senate, the President, or any member, may call such member to order, and, when so called to order, the member immediately shall sit down. The President then shall decide the question of order without debate, subject to an appeal to the Senate.

The President may call for the sense of the Senate on any question of order.

Rule 74. Decorum: Address

When any member is about to speak, such member shall rise from the member's seat and address all remarks to the President. While speaking, the member shall confine all remarks to the question under debate, shall refer to other Senators by title only (e.g., "Senator from the _____ District"; "The Chair of the Committee on _____"; "The Majority Leader,") and not by name and shall avoid personalities.

Rule 75. Decorum: Person Called to Order While Speaking

No person shall sit at the desk of the President or Clerk, except by permission of the President, nor shall any person, other than a member, officer or permitted employee or person, sit in the main Senate floor area during any of the sessions of the Senate.

Rule 77. Decorum: Conduct in Session

When the President is putting any question or addressing the Senate, no one shall walk out of the room or across the floor. When a member is speaking, no one shall entertain a private discourse, nor shall anyone pass between the member speaking and the Chair.

Rule 78. Decorum: Disorderly Conduct in Session

If, during any session of the Senate, any member should behave in a disorderly manner the President shall order the member to be seated and preserve the peace. If such member then shall persist in disorderly conduct, the President shall order the Sergeant-at-Arms to remove the member from the Senate and the member shall not be permitted to take a seat during the remainder of that day's session, except upon satisfactory pledge given to the Senate for future good behavior.

For the punishment of any person not a member, the provisions of Article III, Section 18 of the Constitution shall govern.

Rule 79. Decorum: Recording of Debate Called to Order

If any Senator is called to order for words spoken in debate, upon the member's demand or on that of any other Senator, the words objected to shall be taken down in writing and noted by the Clerk, and, if required, shall be read for the information of the Senate.

Rule 80. Decorum: Smoking

No member or other officer shall smoke within the Senate Chamber during any of the meetings of the Senate.

Rule 81. Decorum: Solicitation Prohibited

An officer or employee of the Senate shall not solicit subscriptions, for any purpose, from any other officer or employee thereof, nor from any Senator. Nor shall any person be permitted to solicit or receive subscriptions or contributions for any purpose on the floor or in the lobby of the Senate or in any Senate office.

Rule 82. Disclosures

Each member shall file with the Ethics Commission of the State of Hawaii, a disclosure of the member's private financial interests, as prescribed by law. Each member shall file with the Ethics Commission any change in such financial interests.

If a legislative matter which affects a member's interests arises before the member has made a disclosure to the Ethics Commission, the member shall disclose orally such interest to the Senate before voting. The member then shall immediately make the written disclosure required by law and the Rules of the Senate.

Any member who has filed a disclosure as required by this Rule need not make a further oral disclosure on the Senate floor of any interest so filed.

Rule 83. Violating Confidence

If any matter covered in Rule 35 or 36 shall be disclosed by any Senator, the Senator shall be liable to censure, or, by a two-thirds vote, to suspension or expulsion from the Senate. If an officer or other person authorized to hear such matter shall disclose the matter, such officer shall be dismissed and such other person shall be liable to punishment for contempt comparable to the punishment provided for by Article III, Section 18 of the Constitution and in the manner as therein prescribed.

PART X. QUESTIONS TO STATE OFFICERS

Rule 84. Questions to State Officers

Any member of the Senate may ask any question of any state officer relating to the officer's respective department by reducing such questions to writing, over the member's signature, reading the same before the Senate, and furnishing the officer with a copy of such written question. Any officer questioned shall reply to such question upon the following day, unless the Senate shall grant a definite extension of time for replying.

PART XI. AMENDMENT, SUSPENSION AND INTERPRETATION OF RULES

Rule 85. Amendments; Suspension; Violations

- (1) No rule of the Senate shall be amended or rescinded nor shall any new rule be adopted, without one day's notice of such change. Any such action shall require a majority vote of the members of the Senate.
- (2) Any rule may be suspended for a particular purpose upon a majority vote of the members of the Senate.
- (3) Any violation of these Rules shall be referred to the President for appropriate action.

Rule 86. Parliamentary Procedure

Mason's Manual of Legislative Procedures, 1989 edition, where not inconsistent with the Rules and practices of the Senate, shall govern.
