- (3) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 238, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 238, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Hemmings).

SCRep. 594 Human Services and Public Housing on S.B. No. 741

The purpose of this measure is to appropriate moneys to Aloha United Way to coordinate and administer the Family Economic Self Sufficiency Program, which focuses primarily on increasing individual filing and state revenue from the federal Earned Income Tax Credit under the direction of the Department of Labor and Industrial Relations, Office of Community Services.

Aloha United Way and the Hawai'i Alliance for Community-Based Economic Development submitted testimony in support of this measure.

Your Committee finds that the Family Economic Self Sufficiency Program provides free and confidential tax preparation services to households eligible for the federal Earned Income Tax Credit. The Internal Revenue Service and the United States Government Accountability Office estimate that approximately twenty-five per cent of the eligible federal Earned Income Tax Credit population did not claim this tax credit. This equates to over twenty-seven thousand Hawaii households that may be eligible for the federal Earned Income Tax Credit, but did not claim it on their returns. This leaves approximately \$45,000,000 of federal moneys unclaimed by Hawaii residents.

In the 2005 tax year, the total federal Earned Income Tax Credit for the free tax preparation sites assisted by the Family Economic Self Sufficiency Program totaled approximately \$1,500,000. In recognition of the level of filings during this first year, the target number of filings through free tax preparation sites for the 2006 tax year has been increased to one thousand five hundred. This measure will help the Family Economic Self Sufficiency Program reach that target number.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 741 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Hemmings).

SCRep. 595 Human Services and Public Housing on S.B. No. 815

The purpose of this measure is to appropriate funds for a coordinator and operating expenses to support a statewide self-advocacy network for individuals with developmental disabilities.

The State Council on Developmental Disabilities, the Disability and Communication Access Board, the Center on Disability Studies, Family Voices of Hawai'i, Hawaii Centers for Independent Living, the Self-Advocacy Council, and twenty-seven individuals submitted testimony in support of this measure. The Department of Human Services submitted testimony in support of the intent of this measure.

According to the State Council on Developmental Disabilities, the appropriated sums of \$89,602 for fiscal year 2007-2008 and \$89,602 for fiscal year 2008-2009 are based on a 1.0 FTE coordinator position to support the network in the coordination of meetings, outreach, travel arrangements, and leadership training and educational events. The amount includes operating expenses for materials and supplies, printing and publications, utilities, communication, outreach, meetings, and stipends.

Your Committee finds that major systems changes are being initiated that are designed to promote self-determination and self-directed services and supports for individuals with developmental disabilities. Hawaii is at the forefront in acknowledging that individuals with developmental disabilities are capable of determining their personal goals and directing resources needed to accomplish those goals.

A self-advocacy network has begun to organize with a growing small group of self-advocates to increase knowledge, understanding, and awareness of their rights, develop leadership skills, and empower themselves to take control of their lives, and make their own decisions. Their mission is to raise the quality of life for persons with developmental disabilities through leadership, education, and full participation in society. This measure will support that mission by appropriating funds for a coordinator and operating expenses to support a statewide self-advocacy network for individuals with developmental disabilities.

It is your Committee's intent to support a statewide self-advocacy network for individuals with developmental disabilities. Your Committee has amended this measure by:

- (1) Designating the State Council on Developmental Disabilities as the appropriate agency to receive and administer the appropriated sums; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 815, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 815, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Hemmings).

SCRep. 596 Human Services and Public Housing on S.B. No. 1448

The purpose of this measure is to authorize the Hawaii Public Housing Authority's Board to set the salaries of the Executive Director and the Executive Assistant, subject to the approval of the Governor.

The Hawaii Public Housing Authority, the Department of Human Resources Development, and the Hawaii Family Forum submitted testimony in support of this measure.

Your Committee finds that the current salary of the Executive Director, as established by statute, is not to exceed eighty-five per cent of the salary of the Director of Human Resources Development, and the salary of the Executive Assistant is not to exceed ninety per cent of the Executive Director's salary. According to the Department of Human Services, a national survey of executive officer salary ranges for comparable public housing agencies shows that salaries in other jurisdictions are substantially higher than those currently allowed in this State. This measure will make the positions more competitive and likely to be filled.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1448 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Sakamoto).

SCRep. 597 Human Services and Public Housing on S.B. No. 1727

The purpose of this measure is to eliminate the cap on enrollment in the QUEST program and to make individuals at or below three hundred per cent of the federal poverty level eligible; to direct the Department of Human Services to apply for an amendment of the state waiver from the Centers for Medicare and Medicaid Services; and to appropriate funds for this purpose.

The Hawai'i Primary Care Association and the Healthcare Association of Hawaii submitted testimony in support of this measure. The Department of Human Services submitted testimony in support of the intent of this measure.

Your Committee received a statement from the Department of Human Services that this measure, if passed, would cost the State approximately \$304,216,614. The cost projection includes the Aged, Blind, and Disabled population. However, it does not include long-term care costs.

Your Committee finds that the current cap on enrollment in the QUEST program prevents many adults, especially non-pregnant women, who are income and asset eligible from enrolling in the program. These excluded but eligible adults are at high risk for not obtaining necessary primary and preventive care and necessary prescription drugs, and are more likely to incur or generate unnecessary emergency room costs because of their uninsured status.

It is your Committee's intent to expand enrollment in the QUEST program by eliminating the enrollment cap. Your Committee has amended this measure by:

- (1) Requiring the Department of Human Services to enroll all eligible individuals who are at or under one hundred fifty per cent of the federal poverty level instead of three hundred per cent of the federal poverty level; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1727, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1727, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Hemmings).

SCRep. 598 Human Services and Public Housing on S.B. No. 1731

The purpose of this measure is to appropriate moneys for the Bridge to Hope program to accommodate new federal Temporary Assistance for Needy Families program recipients who are students to pursue education activities beyond the new federal, two-year limit.

The University of Hawai'i System, Bridge to Hope, the Community Alliance on Prisons, Hawaii Women Work, the League of Women Voters of Hawaii, the National Association of Social Workers, the Hawaii State Commission on the Status of Women, and nineteen individuals submitted testimony in support of this measure. The Department of Human Services submitted testimony in support of the intent of this measure.

Your Committee finds that recent changes to the federal Temporary Assistance for Needy Families program rules and subsequent changes to the First-To-Work programs limit educational activities to two years of study leading to vocational or technical degrees in order to meet federal work requirements. However, the federal law has a grandfather provision for currently participating students that allows them to finish their education.

It is your Committee's intent to enable new First-To-Work students to continue their educational activities beyond the two-year federal limit by transferring them to the state-funded Bridge to Hope program. Your Committee has amended this measure by:

- (1) Expanding eligibility in the Bridge to Hope program by making the program available to:
 - (A) Qualifying heads of households receiving financial assistance and participating in the Temporary Assistance to Other Needy Families and First-to-Work programs, not just the Temporary Assistance for Needy Families program; and
 - (B) A parent, in general, not just a single parent;
- (2) Clarifying that:
 - (A) To receive assistance under the Bridge to Hope program, participants must be enrolled in an approved course of study such as vocational education; and
 - (B) The work requirements shall be consistent with academic success;
- (3) Making the appropriation for the Bridge to Hope program to accommodate new Temporary Assistance for Needy Families and new Temporary Assistance to Other Needy Families participants; and
- (4) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

Your Committee notes that these amendments to the measure may pose a title issue and requests the Committee on Ways and Means to consider increasing the funding for the Bridge to Hope program in the executive biennium budget to support the expansion of the program.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1731, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1731, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Hemmings).

SCRep. 599 Human Services and Public Housing on S.B. No. 999

The purpose of this measure is to appropriate funds for the operating costs of the Family Celebration Commission.

The Hawaii Family Forum and the Ohana Project submitted testimony in support of this measure.

House Concurrent Resolution No. 269 (2006), requested the Governor to designate and celebrate 2008 as the Year of the Family, and to establish a Family Celebration Commission to administer the celebration. The Family Celebration Commission is responsible for developing, planning, and coordinating various programs and activities throughout 2008 in celebration of the family. Your Committee finds that a celebration to honor the importance of family, and to sustain and nurture family life, is appropriate.

This measure will appropriate funds for the operating costs of the Family Celebration Commission.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 999 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Sakamoto).

SCRep. 600 (Majority) Human Services and Public Housing on S.B. No. 1114

The purpose of this measure is to require the Department of Human Services to directly reimburse sellers of over-the-counter Plan B emergency contraception to women who are recipients of Medicaid, without creating any expenses for recipients, who purchase the medication; and appropriates funds for this purpose.

The Hawaii State Commission on the Status of Women; Healthy Mothers, Healthy Babies Coalition of Hawai'i; and The Ohana Project submitted testimony in support of this measure. The Department of Human Services and one individual submitted testimony in opposition.

Your Committee finds that it is important to support a woman's ability to control her reproductive health and empower women to make carefully considered choices about family planning issues. As noted by the testifiers, timely access to emergency contraception helps decrease unintended pregnancy rates. By subsidizing the cost of emergency contraception, low-income women are given an opportunity to have greater decision-making over their reproductive health and choices.

It is your Committee's intent to support low-income women's access to emergency contraception. Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1114, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1114, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, 1 (Hemmings). Excused, 1 (Sakamoto).

SCRep. 601 Human Services and Public Housing on S.B. No. 1210

The purpose of this measure is to increase the authorization for special purpose revenue bonds under Act 296, Session Laws of Hawaii 1999; and to extend the repeal date of special purpose revenue bonds for Honolulu Neighborhood Housing Services, Inc. from June 30, 2008, to June 30, 2011.

Honolulu Neighborhood Housing Services submitted testimony in support of this measure.

Your Committee finds that this measure will continue to support Honolulu Neighborhood Housing Services, Inc. in the planning, design, and construction of a senior citizen lifecare retirement community.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1210 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, none.

SCRep. 602 Human Services and Public Housing on S.B. No. 1442

The purpose of this measure is to:

- (1) Increase the time limit for application for a higher education board allowance to provide former foster youth who are between the ages of twenty-two and twenty-six years of age on July 1, 2007, and already attending an institution of higher education, an opportunity to apply for a higher education board allowance within a year; and
- (2) Increases the maximum age for the benefit from twenty-one years of age to twenty-six years of age with a maximum benefit period of sixty months.

The Department of Human Services; Child Welfare Services; the Hawaii Foster Youth Coalition; the Hawaii Youth Services Network; Legal Aid Society of Hawaii; EPIC, Inc.; Hawaii Family Forum; and two individuals submitted testimony in support of this measure. Kapi'olani Child Protection Center submitted comments.

Your Committee finds that this measure will improve the educational prospects of former foster youth. As noted by the Legal Aid Society of Hawaii, at present there is a narrow window of opportunity for former foster youth to apply for a higher education allowance, which requires the former foster youth to have begun attending an accredited institution of higher learning within one school year after high school. However, upon turning eighteen years of age, many former foster youth leave with a desire for freedom and without realizing what benefits may be available to them. Increasing the time limit and the maximum age for the benefit will enable those former foster youth who did not attend an accredited institution of higher learning within one school year after high school to apply for the benefit and have a chance to become a better educated adult.

It is your Committee's intent to help former foster youth to successfully transition to independent adult status. Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1442, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1442, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Sakamoto).

SCRep. 603 Human Services and Public Housing on S.B. No. 1583

The purpose of this measure is to appropriate funds for homeless shelter programs on the island of Hawaii.

The Office of Hawaiian Affairs; the Hawaii County Mayor; the Hawaii County Office of Housing and Community Development; Faith Against Drugs, Inc.; Catholic Charities Hawai'i; the Office for Social Ministry; the Service Area Administrator of Hawaii County for the Department of Health, Adult Mental Health Division; and five individuals submitted testimony in support of this measure. In addition, your Committee received a petition with over six hundred signatures in support of this measure.

According to the Hawaii County Office of Housing and Community Development, federal, state, and county grants have been insufficient to enable operators in Hawaii County to properly address repairs and maintenance. Hawaii County has contributed additional resources to help repair and maintain that county's homeless facilities. However, despite the county's efforts, many of the homeless facilities remain overcrowded and in need of further repair. This measure will provide Hawaii County with additional funds to support the homeless shelter programs in that county.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1583 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Sakamoto).

SCRep. 604 Human Services and Public Housing on S.B. No. 1645

The purpose of this measure is to establish an Office of the Children's Ombudsman within the Office of the Ombudsman for administrative purposes, and appropriates funds for this purpose.

The Children's Rights Council submitted testimony in support of this measure. The Office of the Ombudsman submitted comments.

Your Committee finds that, at present, the Office of the Ombudsman is authorized under chapter 96, Hawaii Revised Statutes, to investigate complaints about the administrative acts of executive branch agencies in the state and county government. Complaints relating to child protective services, adolescent mental health services, child support, and public education are just a few examples of the types of complaints that are investigated by the Ombudsman that are related to the protection of children's rights.

The United States Ombudsman Association provides a Model Ombudsman Act for state governments that narrowly excludes judges based upon the existence of the system of appellate review of judicial decisions. However, the narrow exclusion contemplates that the Ombudsman would have jurisdiction to investigate administrative or ministerial acts by employees of the judicial branch, when those acts are peripheral to the adjudication itself.

It is your Committee's intent to expand the jurisdiction of the Office of the Ombudsman to enable the Ombudsman to investigate administrative acts by employees of the Judiciary as those acts pertain to child-related matters. The Ombudsman would not have jurisdiction to criticize or review the substantive content of any judicial order, decision, or opinion. Your Committee has amended this measure by:

- (1) Expanding the jurisdiction of the Office of the Ombudsman to include the Judiciary in complaints regarding child-related matters, except for judges;
- (2) Defining "child-related matters";
- (3) Amending the purpose of the appropriation for the expansion of the Ombudsman's responsibilities under this measure; and
- (4) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1645, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1645, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, none.

SCRep. 605 Human Services and Public Housing on S.B. No. 1715

The purpose of this measure is to appropriate funds for a grant to Seagull Schools for the construction of a childcare facility and a preschool in Ko Olina.

Seagull Schools submitted testimony in support of this measure.

Your Committee finds that Seagull Schools has become one of the State's largest childcare providers, serving approximately eight hundred thirty children of mixed socio-economic backgrounds. The school's child development programs are known for their exceptional ability to

provide quality care and early education at affordable rates that meet the needs of working parents. Besides having fees that are among the lowest in the State, the school also provides generous financial aid to low-income families for tuition assistance.

In 1999, Seagull Schools began working with the owners of the Ko Olina Resort to develop a childcare center and a preschool that would provide services to Waianae coast children and children of employees that work at the resort. A capital campaign was implemented and received funding from many sources, including a grant from the State of \$1,000,000, which was then used to architecturally design both centers and complete the construction of the Ewa Beach childcare center. However, additional funding is necessary for the construction of the educational facilities.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1715 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, none.

SCRep. 606 Human Services and Public Housing on S.B. No. 1400

The purpose of this measure is to require financial institutions and licensed escrow depositories to report suspected instances of financial abuse directed towards, targeting, or committed against an elder or a dependent adult to a local law enforcement agency.

The Department of Commerce and Consumer Affairs and one individual submitted testimony in support of this measure. Hawaii Financial Services Association and Hawaii Credit Union League submitted testimony in support of the intent of this measure. First Hawaiian Bank, and the Escrow Association of Hawaii submitted comments.

Your Committee finds that reported instances of financial abuse of elders and dependent adults have become increasingly widespread. State-regulated financial institutions can be instrumental in curtailing this disturbing trend by promptly reporting suspected incidents of financial abuse to local law enforcement agencies.

Your Committee has amended this measure by:

- (1) Removing licensed Hawaii escrow depositories from the reporting requirements of this measure, as escrow depositories are not included in the federal law's definition of financial institutions;
- (2) Adding language to provide immunity from liability for any person who makes a report under the provisions of this measure in good faith and with the reasonable belief that action is warranted; and
- (3) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1400, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1400, S.D. 1, and be referred to the Committees on Commerce, Consumer Protection, and Affordable Housing and Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Sakamoto).

SCRep. 607 Human Services and Public Housing on S.B. No. 1449

The purpose of this measure is to increase public safety.

Specifically this measure makes criminal trespass in the second degree applicable to public housing projects administered by the Hawaii Public Housing Authority.

The Department of the Attorney General, Hawaii Public Housing Authority, and City and County of Honolulu Police Department submitted testimony in support of this measure. The American Civil Liberties Union of Hawaii'i submitted testimony in opposition.

Your Committee finds that the Hawaii Public Housing Authority and local law enforcement must have a well-defined, supporting law that gives the police authority to place persons charged with simple trespass on public housing properties under arrest. This measure will help curb loitering, vandalism, and public drinking on public housing properties by making criminal trespass in the second degree applicable to public housing projects.

It is your Committee's intent to help provide public housing residents with a safe and decent living environment. Your Committee has amended this measure to provide guidelines and standards for issuing reasonable warnings or request to leave and to clarify that the authority does not extend to invited guests of residents. Your Committee has further amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1449, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1449, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 3. Ayes with Reservations, 1 (Ihara). Noes, none. Excused, 1 (Sakamoto).

SCRep. 608 Human Services and Public Housing on S.B. No. 1780

The purpose of this measure is to exempt recipients of social service payments from the scope of employment related laws.

Catholic Charities Hawai'i, Supporting Exceptional Citizens of Hawaii, the United Filipino Council of Hawaii, and two individuals submitted testimony in support of this measure. The State Council on Developmental Disabilities, the Hawaii Disability Rights Center, Responsive Caregivers of Hawaii, and two individuals submitted testimony in opposition to this measure. The Attorney General, the Department of Labor and Industrial Relations, the Department of Human Services, and Easter Seals Hawai'i submitted comments.

Your Committee finds that chapters 386, 392, and 393, Hawaii Revised Statutes, currently provide an exemption from the definition of "employer" under those chapters for domestic services, which includes certain attendant care and day care services performed by an individual in

the employ of a recipient of social service payments. It appears that the lack of a definition of the term "recipient of social service payments" has caused confusion and disparity in the application of these chapters.

It is your Committee's intent to try to accurately define the term "recipient of social service payments". Your Committee has amended this measure by:

- (1) Defining the term "recipient of social service payments" to include:
 - (A) A person who is an eligible recipient of social services such as attendant care and day care services;
 - (B) A corporation or private agency that contracts directly with the Department of Human Services to provide attendant care and day care authorized under the Social Security Act, as amended; and
 - (C) An independently licensed or certified adult foster home or care home provider who provides attendant care and day care authorized under the Social Security Act, as amended, to an eligible recipient of social services in the provider's place of residence;
- (2) Adding a severability clause, in consideration of concerns that were raised regarding possible conflicts with federal law; and
- (3) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

Your Committee notes that several testifiers raised concerns that this measure could violate federal law as it pertains to the amendments to the Hawaii Employment Security Law and the Prepaid Health Care Act.

Your Committee also notes that the inclusion of corporations or private agencies that contract directly with the Department of Human Services to provide attendant care and day care may have the unintended consequence of causing certain corporations or private agencies to stop providing benefits to some of their employees that they presently provide under chapters 386, 392, and 393, Hawaii Revised Statutes. Therefore, your Committee urges the Committee on Judiciary to examine how that paragraph of the definition can be modified to address this concern.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1780, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1780, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, none.

SCRep. 609 Human Services and Public Housing on S.B. No. 426

The purpose of this measure is to facilitate interpreter services for the deaf, hard-of-hearing, or deaf-blind.

Specifically, this measure makes an appropriation for a statewide interpreter referral service for public and private agencies and for persons who are deaf, hard-of-hearing, or deaf-blind.

The Alii Interpreting Service, LLC; Disability and Communication Access Board; Hawaii Center for Independent Living; Hawaii Registry of Interpreters for the Deaf; Hawaii Services on Deafness, and eight individuals submitted testimony support of this measure. The Department of Human Services submitted testimony in support of the intent of this measure.

Your Committee finds that there are approximately six thousand deaf people statewide who use American Sign Language as their preferred method of communication. State agencies are often asked to provide a sign language interpreter in order to make public services accessible to deaf, hard-of-hearing, and deaf-blind individuals. Since 1990, the number of requests for sign language interpreters has increased significantly and the provision of this service needs to be coordinated for both public and private agencies.

The Vocational Rehabilitation and Services for the Blind Division of the Department of Human Services has not had an increase in the annual appropriation for the interpreter referral program in over twenty years. The lack of funding has forced the Department of Human Services to limit the provision of services to state agencies on July 1, 2001.

This measure will provide the additional funds necessary to maintain interpreter referral services for both public and private agencies in order to achieve appropriate communication access for all citizens who are deaf, hard-of-hearing, or deaf-blind.

Your Committee amended the appropriation made in this measure from \$82,500 for fiscal year 2007-2008, and \$27,500 for fiscal year 2008-2009, to \$125,000, for each year of the 2007-2009 fiscal biennium. Your Committee further amended this measure to correct a typographical error.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 426, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.B. No. 426, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Sakamoto).

SCRep. 610 Human Services and Public Housing on S.B. No. 427

The purpose of this measure is to increase the state supplemental payments for certain domiciliary care and require a portion of the payment to be retained by the recipient for personal use.

The Department of Human Services, Mental Health America of Hawaii, and one individual submitted testimony in support of this measure. The National Association of Social Workers and fourteen individuals submitted testimony in support of the intent of this measure. The Hawaii Coalition of Care Home Administrators submitted testimony in opposition to this measure.

This measure will ensure a personal needs allowance for individuals living in nursing facilities and individuals living in domiciliary care, type I and type II, and community care foster family homes. The measure will also raise the personal needs allowance from \$30 to \$50 per month per person. Your Committee finds that this measure will substantially improve the quality of life for adult residential care home residents and ensure that a fair portion of the state supplemental payments are allocated for their unique personal needs. Some of the testifiers suggested that there be a cost of living allowance inflation rate. Your Committee defers to the Committee on Ways and Means to consider this issue.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 427, S.D. 1, and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Sakamoto).

SCRep. 611 (Joint/Majority) Human Services and Public Housing and Education on S.B. No. 1861

The purpose of this measure is to create a loan repayment assistance program for licensed attorneys who practice public interest law in Hawaii.

The Department of the Attorney General, the Dean of the William S. Richardson School of Law, American Civil Liberties Union of Hawai'i, the Legal Aid Society of Hawaii, the Hawaii Disability Rights Center, The League of Women Voters of Hawaii, and four individuals submitted testimony in support of this measure. The Domestic Violence Clearinghouse and Legal Hotline submitted comments.

Your Committees find that low salaries make it difficult for public interest nonprofit law firms to recruit and retain attorneys from the William S. Richardson School of Law. In the last five years on average, only one graduate went to work in a public interest law firm upon graduation. One of the most cited reasons for not being able to take a public interest job is the high cost of a legal education. This measure will establish a special fund to provide eligible public interest attorneys with loan repayment assistance.

Your Committees amended this measure to include government agencies as a public interest practice for the purpose of qualifying attorneys for the loan repayment program.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1861, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1861, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, 1 (Hemmings). Excused, 3 (Hee, Nishihara, Taniguchi).

SCRep. 612 (Joint) Human Services and Public Housing and Health on S.B. No. 1918

The purpose of this measure is to establish the Hawaii Children's Health Care Program as a temporary three-year pilot program to provide health care coverage to uninsured children.

The Hawaii Medical Service Association, the Hawai'i Primary Care Association, and the Hawaii Family Forum submitted testimony in support of this measure. The Department of Human Services and Family Voices of Hawai'i submitted testimony in support of the intent of this measure.

Your Committees find that there is a gap group of uninsured children in the State that is ineligible for any state or federal health care coverage. Your Committees further find that children who remain uninsured typically do not receive an appropriate level of medical care. The State has an opportunity to help provide health care coverage for children in the gap group through public-private partnerships. The cost of the premiums to insure children in the gap group can be split equally between the State and the partnering entity.

It is your Committees' intent to expand health care coverage for children in Hawaii. Your Committees have amended this measure by:

- (1) Providing continuous, quality health care services to uninsured newborn children between one and thirty-one days of age by establishing the Hawaii Infant Care Special Fund;
- (2) Providing health care coverage to certain children between thirty-one days to eighteen years old through a public-private partnership between the Department of Human Services and a managed care plan instead of a mutual benefit society;
- (3) Providing that, to qualify, the aforementioned children must have been ineligible during the six months the children were uninsured for any other state or federal health care coverage and are currently ineligible for any other state or federal health care coverage;
- (4) Providing access to medical care free-of-charge for certain children nineteen years of age or younger whose family income is at or below three hundred per cent of the federal poverty level;
- (5) Providing medical assistance under QUEST-Net at no charge to children nineteen years or younger whose family income is at or above two hundred fifty per cent and does not exceed three hundred per cent of the federal poverty level for Hawaii and who are otherwise eligible for QUEST-Net benefits;
- (6) Appropriating the following sums:
 - (A) \$500,000 to the Hawaii Infant Care Special Fund;
 - (B) \$1,000,000 to provide health care coverage to certain children between thirty-one days to eighteen years old pursuant to part I of this measure; and
 - (C) \$3,000,000 to provide QUEST-Net at no charge to certain children nineteen years or younger pursuant to part IV of this measure; and
- (7) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1918, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1918, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 613 (Joint) Human Services and Public Housing and Judiciary and Labor on S.B. No. 1120

The purpose of this measure is to require the State to provide state employees with child care facilities and services and permits the State to charge for the cost of the child care.

The Hawaii Government Employees Association and Good Beginnings Alliance submitted testimony in support of this measure. The Department of Labor and Industrial Relations submitted testimony in opposition.

Your Committees find that a changing workforce has contributed to a shortage of infant and child care resources in the State. In Hawaii, approximately seventy-seven thousand families with children under six years of age have parents in the labor force. It is well documented that quality child care is an effective tool in supporting working families and helping keep parents in the workforce. However, a lack of quality infant and child care can make it more difficult for parents to obtain employment, retain employment, and move into better jobs. Employer supported child care is a cost-effective way to control labor costs and enhance worker productivity.

It is your Committees' intent to encourage new strategies to try to deal with the increasing demand for child care in this State. Your Committees have amended this measure by:

- (1) Changing section 2 of the measure to permit the Department of Human Services to establish a state employee child care pilot program to provide state employees with child care facilities and services;
- (2) Requiring that the state employee child care pilot program:
 - (A) Make state facilities available for use as state employee child care facilities;
 - (B) Provide child care services to state employees during work hours at a cost that is commensurate with the average cost of child care facilities in the private sector; provided that private sector employees may also be permitted to enroll their children; and
 - (C) Comply with all applicable laws, rules, and certification requirements of the State;
- (3) Permitting the Department of Human Services to contract with a private organization pursuant to chapter 103F, Hawaii Revised Statutes, to administer the state employee child care pilot program;
- (4) Changing the expending agency of the appropriation from the Department of Labor and Industrial Relations to the Department of Human Services; and
- (5) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1120, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1120, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 1 (Sakamoto).

SCRep. 614 Human Services and Public Housing on S.B. No. 255

The purpose of this measure is to appropriate funds for early intervention services for eligible children with Down syndrome.

The Hawaii Down Syndrome Congress and eight individuals submitted testimony in support of this measure. The Department of Health, the Department of Education, and the Hawai'i Early Intervention Coordinating Council submitted testimony in opposition to this measure.

Your Committee finds that children with Down syndrome generally develop at a slower rate and have different patterns of development than typically developing children. The goal of early intervention services for children with Down syndrome is to maximize each child's developmental potential and improve long-term functional outcomes for the children and their families. Early intervention services provide developmentally appropriate activities to maximize a child's cognitive, communication, motor, self-help, and social-emotional growth until the child is ready for kindergarten.

It is your Committee's intent to support the provision of early intervention services for eligible children with Down syndrome. Your Committee has amended this measure by:

- (1) Requiring the Department of Education to:
 - (A) Design and implement an early intervention services pilot program for eligible children with Down syndrome; and
 - (B) Submit an interim report to the Legislature;
- (2) Requiring the Department of Health to assist the Department of Education, as necessary, including in the provision of sign language, oral communication, and visual cues to help children with Down syndrome develop expressive language;
- (3) Making the appropriation to the Department of Education for the purposes of this measure;
- (4) Repealing the measure on June 30, 2012; and
- (5) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 255, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 255, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Sakamoto).

SCRep. 615 Human Services and Public Housing on S.B. No. 1166

The purpose of this measure is to appropriate funds to educate the public about the Child Passenger Restraints Law and to help subsidize the cost of the child booster car seats for low-income families.

The Keiki Injury Prevention Coalition and the Occupational Therapy Association of Hawaii submitted testimony in support of this measure. The Department of Human Services submitted testimony in opposition.

Your Committee received a statement from the Keiki Injury Prevention Coalition that this measure, if passed, would cost the State approximately \$432,230 for both fiscal years 2007-2008 and 2008-2009 combined. The estimated budget includes the following expenses: \$35,000 for a director; \$30,720 for project staff; \$130,000 for booster seats for six thousand children; \$132,170 for the media campaign; \$62,400 for educators or technicians; \$10,400 for InfoLine; \$11,040 for the website; and \$20,500 for an administrative fee at five per cent for two years.

Your Committee finds, effective January 1, 2007, under state law, a child four years of age or older, but less than eight years of age, and under certain weight and height minimums, must be properly secured in a child safety seat or booster car seat.

While a child that is properly secured in a child safety seat or booster car seat is at a reduced risk of injury, the cost of purchasing booster car seats adversely impacts low-income families as they may not have sufficient funds to afford booster car seats. This measure will educate the public about the new law and increase the use of booster car seats.

It is the Committee's intent to help ensure the safety of child passengers. Your Committee has amended this measure by:

- (1) Requiring the Department of Health, instead of the Department of Human Services, to:
 - (A) Assist the Keiki Injury Prevention Coalition with the design and implementation of the subsidy program; and
 - (B) Expend the sums appropriated for the purposes of this measure;
- (2) Enabling the Keiki Injury Prevention Coalition to partner with agencies that provide services to low-income families to assist with disseminating information regarding the subsidy to the public and educating the public about the Child Passenger Restraints Law; and
- (3) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1166, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1166, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, none.

SCRep. 616 Human Services and Public Housing on S.B. No. 1450

The purpose of this measure is to broaden participation in the State Rent Supplement Program by removing the statutory limitation on the subsidy amount, which is currently \$160 per month, and to increase the income limits for participation from fifty per cent of area median income to ninety-five per cent of area median income.

The Hawaii Public Housing Authority, Catholic Charities Hawai'i, Hawaii Family Forum, and one individual submitted testimony in support of this measure.

Your Committee finds that the State Rent Supplement Program could assist a larger number of households in today's housing market if the statutory limitation on the subsidy amount is removed and the income limit for participation is increased to ninety-five per cent of the area median income. According to the Department of Human Services, this measure will increase the number of households eligible for rent supplement payments by approximately two hundred additional households.

It is your Committee's intent to allow the Hawaii Public Housing Authority to adjust the subsidy amount to reflect current market conditions. Your Committee has amended this measure by:

- (1) Allowing a person living in a transitional shelter who meets the requirements of section 356D-153, Hawaii Revised Statutes, to be considered a "qualified tenant" for purposes of the rent supplement; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1450, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1450, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Sakamoto).

SCRep. 617 Human Services and Public Housing on S.B. No. 1586

The purpose of this measure is to appropriate funds to establish a program in West Hawaii to provide rental housing for the homeless in transition.

The Office of Hawaiian Affairs, the Hawaii County Mayor; the Hawaii County Office of Housing and Community Development; Hawaii Family Forum; Catholic Charities Hawai'i; the Office for Social Ministry; Faith Against Drugs, Inc.; and five individuals submitted testimony in support of this measure. In addition, your Committee received a petition with over six hundred signatures in support of this measure.

According to the testimony submitted by the Hawaii County Mayor, the county received a parcel of land from a developer that it intends to use for a project called the West Hawaii Transitional Housing and Supportive Services for the Homeless project. The project would provide rental housing for individuals and families who are successfully transitioning through the homeless continuum.

In addition to providing rental housing, the project will provide participants with on-site case management, health and life skills training, employment training, and other necessary services. The goal is to provide fifty affordable rental units, four emergency units, office space, meeting rooms for case management and training, laundry facilities, and a common area or gathering place.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1586 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Sakamoto).

SCRep. 618 Health on S.B. No. 68

The purpose of this measure is to promote choice and autonomy by providing seniors with safe assisted living options.

The measure accomplishes this purpose by establishing safety and evacuation criteria for assisted living facilities that accept or retain individuals with physical, cognitive, or other impairment that would prevent them from safely evacuating the facility with minimum assistance. The measure requires that the criteria be implemented by July 1, 2008.

Your Committee received testimony in support of this measure from Department of Health, Roselani Place, and Maui Long Term Care Partnership.

Your Committee finds that the State's elderly population is growing to unprecedented heights as the baby boomers enter retirement. It is inevitable that some of these seniors will need assistance with their day-to-day activities, while maintaining their much deserved independence. However, many seniors do not require the level of care that is provided by skilled nursing facilities. Instead, safe assisted living arrangements are the most desired options for these individuals.

This measure is closely related to the concept of aging in place and encouraging the elderly to live in the least restrictive setting. These are laudable goals of a long-term care system. Assisted living facilities provide a combination of housing and personalized support services designed to respond to individual needs and to promote choice, responsibility, independence, privacy, dignity, and individuality. Your Committee believes this measure promotes the safety of assisted living facilities.

Your Committee has amended this measure to:

- (1) Clarify that the safety measures must allow the individual to safely evacuate the facility independently for self-preservation; and
- (2) Make technical, nonsubstantive amendments to correct a cross-reference citation.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 68, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 68, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 619 Judiciary and Labor on S.B. No. 1828

The purpose of this measure is to exempt existing and new employees of the Criminal Injuries Compensation Commission from civil service laws as established in Chapter 76 and to provide the new staff members the right to bargain collectively as established in Chapter 89.

Your Committee finds that this bill does not affect present Commission employees. The duties and responsibilities of the Commission are unique because of their dealings with crime victims. This bill will recognize the unique duties and responsibilities. Commission does not receive any general funds and is funded through special funds and a matching federal grant from the Victims of Crime Act Fund. In 1998, the Legislature established a crime victim compensation fee to provide a funding base for the Commission to become fiscally self sufficient. This bill will ensure that the Commission is adequately staffed.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1828 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Kokubun).

SCRep. 620 Economic Development and Taxation on S.B. No. 1199

The purpose of this measure is to establish a tax credit for taxpayer caregivers who care for qualified care recipients.

Testimony in support of this measure was received from the Policy Advisory Board for Elder Affairs, Hawaii Aging Advocates Coalition, and one individual. The Department of Taxation and the Tax Foundation of Hawaii submitted comments.

Your Committee finds that by 2020, the elderly and disabled population of Hawaii will constitute over one-fourth of the State's adult population. It is critical that policies are enacted to ease the burden for both the aging and their families.

Your Committee has received a revenue impact statement from the Department of Taxation (Department) that the impact is indeterminate because the tax credit is unspecified. However, in subsequent statement the Department projected a revenue loss of \$35,600,000 for fiscal year 2008 to fiscal year 2010, assuming the tax credit base of \$1,000.

In its methodology, the Department stated that a 2003 Hawaii Health Survey estimated there are 192,390 caregivers who provide regular care or assistance to those aged sixty years old or older. About twenty per cent of caregivers (38,478 caregivers) live in the same household with their elderly care recipients. Among caregivers and elderly living in the same household, seventy-two per cent of caregivers (27,704 caregivers) are related to the elderly. The methodology assumed all 27,704 caregivers qualify for the credit and each caregiver provides care to one elderly relative, and that there is only one caregiver per household. The methodology also assumed ten per cent of caregivers (19,239 caregivers) provide more than fifty per cent of financial support, but not live in the same household with the elderly.

While the specifics of this measure must still be resolved, your Committee believes it is an important first step in easing some of the financial burden of Hawaii's caregivers. It is the intent of your Committee to continue deliberation on this matter.

Your Committee has amended this measure by:

- (1) Capping the tax credit at \$1,000; and
- (2) Inserting an effective date of July 1, 2050, for the purposes of further discussion.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1199, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.B. No. 1199, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 621 Economic Development and Taxation on S.B. No. 1268

The purpose of this measure is to establish a college savings program tax credit.

Testimony in support of this measure was received from the University of Hawai'i System and the Hawaii Association of Independent Schools. The Department of Budget and Finance, the Department of Taxation, and the Tax Foundation of Hawaii submitted comments.

Your Committee finds that increasing options for financing a college education is important to the development of the highly skilled workforce necessary in emerging and innovative industries.

Your Committee received a revenue impact statement from the Department of Taxation (Department) that stated the projected revenue loss is \$6,300,000 for fiscal year 2010.

In its methodology, the Department stated that approximately 50,000 students were enrolled in fall 2005, at the University of Hawai'i, and it was assumed that twenty-five per cent of these students would have a parent or guardian who will contribute to the College Savings Program. The maximum credit amount was applied to this number to get the projected revenue loss.

Your Committee further finds that Section 529 of the Internal Revenue Code allows states to sponsor programs that allow contributions to qualifying educational tax-free accounts, and that Hawaii has a 529 Program.

Your Committee has heard, however, that Hawaii's 529 Program is not widely used. Your Committee also notes that there has been discussion of a tax credit, as opposed to a tax deduction, to accomplish a similar purpose.

It is the intent of your Committee to continue the discussion on the pros and cons of the various college savings options.

Your Committee has amended this measure accordingly, by:

- (1) Inserting an effective date of July 1, 2035, for the purposes of further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1268, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.B. No. 1268, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 622 (Majority) Economic Development and Taxation on S.B. No. 1285

The purpose of this measure is to exempt the sale of liquid fuels and alcohol fuels from the general excise tax (GET), and to increase the fuel tax 1 cent per gallon.

The Department of Taxation, Department of Transportation, and the Tax Foundation of Hawaii submitted comments.

Your Committee received a revenue impact statement from the Department of Taxation (Department) that an increase in the state fuel tax will increase revenue for the State Highway Fund by \$9,200,000 annually. The GET exemption for alcohol fuels will reduce the general fund revenue by \$100,000 annually.

In its methodology the Department stated that the GET exemption for alcohol fuel expired on December 31, 2006, but the Council on Revenues did not put the tax increase into the baseline projections for the general fund. The increase in fuel tax will increase revenues for the State Highway Fund by the following amounts, based on calendar year 2006 collections: gasoline, \$4,730,000; diesel oil (non-highway), \$1,320,000; aviation fuel, \$2,120,000; diesel oil (highway), \$1,000,000; all other, \$30,000, for a total of \$9,200,000.

It is the intent of your Committee to continue the legislative discussion on this measure.

Your Committee has amended this measure accordingly, by inserting an effective date of July 1, 2045, and making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1285, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.B. No. 1285, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Slom). Excused, 1 (English).

SCRep. 623 Economic Development and Taxation on S.B. No. 1919

The purpose of this measure is to provide a comprehensive set of asset building opportunities for Hawaii's low- and moderate-income families by establishing a self-sufficiency standard that will determine the assistance allowance.

Specifically, this measure:

- (1) Establishes a refundable state earned income tax credit (EITC);
- (2) Provides for financial education to TANF applicants and recipients;
- (3) Expands the provision of individual development accounts; and
- (4) Appropriates funds.

Testimony in support of this measure was received from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawai'i Alliance for Community Based Economic Development, Hawaii State Democratic Women's Caucus, Hawaii Women Work!, 3Point, Aloha United Way, the Asset Building Initiative of Hawaii, and two individuals. The Department of Business, Economic Development, and Tourism; Department of Human Services; Department of Taxation; and Tax Foundation of Hawaii submitted comments.

Your Committee finds that the asset building components of this measure provide a multi-faceted approach to helping Hawaii families achieve self-sufficiency. This is especially challenging given Hawaii's high cost of living, and your Committee is in strong support of the concepts in this measure.

Your Committee received a revenue impact statement from the Department of Taxation that the legislation will result in a loss of approximately \$24,000,000. The Department did not submit any further information or the methodology used to determine this revenue loss.

Your Committee also heard concerns regarding noncompliance with the federal EITC program, on which the program in this measure is based. However, these noncompliance rates – estimated at twenty-seven to thirty-two per cent -- are from a June 2003 Internal Revenue report, which is based on tax year 1999 returns.

Your Committee prefers not to make decisions based on outdated information, and has requested further clarification from the Department of Taxation. It is the intent of your Committee to continue the legislative deliberations on this measure until that information is received.

Your Committee has amended this measure accordingly, by:

- (1) Changing the EITC percentage to an unspecified amount; and
- (2) Inserting an effective date of July 1, 2030, for purposes of further discussion.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1919, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.B. No. 1919, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 624 (Majority) Economic Development and Taxation on S.B. No. 644

The purpose of this measure is to encourage and increase the use of renewable energy to protect the environment and reduce pollution. Specifically, this measure:

- (1) Requires the installation of solar devices for heating water in all new residential construction, beginning January 1, 2009; and
- (2) Expands the existing income tax credit for solar thermal energy systems installed in new homes and retrofitted in existing homes.

Your Committee received testimony in support of this measure from the Windward Ahupua'a Alliance and the Hawaii Association of Realtors. Hawaii Electric Company, The Gas Company, and the Land Use Research Foundation of Hawaii submitted testimony in opposition to this measure. The Department of Business, Economic Development, and Tourism; the Department of Taxation; Hawaii Solar Energy Association; and the Tax Foundation of Hawaii submitted comments on this measure.

Your Committee received a revenue impact statement from the Department of Taxation (Department) that stated this measure would result in a revenue loss of \$24,400,000 per year for fiscal year 2010 and thereafter.

In its methodology, the Department stated that based on 2004 data, total tax credit claims for solar device by individual taxpayers amounted to \$1,800,000. The average increase in credit limits for a solar device is thirty-seven per cent (forty-four per cent for a single-family unit and twenty-nine per cent for a multi-family unit). By applying the average increase of thirty-seven per cent to the current tax credit claims, the amount of tax credit will increase by \$700,000 annually. In 2005, the number of new single-family units was 6,937 and the number of new multi-family units was 2,769. The total tax credit claims for solar devices installed in new residential constructions would be approximately \$23,700,000 (\$22,500,000 for single-family units and \$1,200,000 for multi-family units).

Your Committee has heard a wide range of concerns regarding this measure, and acknowledges that many of the issues raised have not been responded to adequately in the bill. However, your Committee believes the concept of encouraging renewable energy has considerable merit and it is the intention of your Committee to support continued discussion.

Your Committee has amended this measure by:

- (1) Adding "or comparable renewable energy devices" in the findings and purpose and throughout section 2; and
- (2) Inserting an effective date of July 1, 2040, for the purposes of further discussion.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 644, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.B. No. 644, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Slo). Excused, 1 (English).

SCRep. 625 Economic Development and Taxation on S.B. No. 731

The purpose of this measure is to exempt power-generating facilities and electric cooperatives from the tax on liquid fuel.

Testimony in support of this measure was received from Kaua'i Island Utility Cooperative. The Department of Transportation, Department of Taxation, and Tax Foundation of Hawaii submitted comments.

Your Committee finds that this measure would clarify a question regarding the interpretation of language in chapter 243, Hawaii Revised Statutes, pertaining to which types of liquid fuels are subject to specific taxes.

Your Committee received a revenue impact statement from the Department of Taxation that stated the revenue loss to the State Highway Fund would be \$1,400,000 to \$1,700,000 in fiscal year 2008.

In its methodology, the Department stated the State's fuel tax for non-highway use of diesel oil was \$1,600,000 in fiscal year 2006. The counties did not tax this fuel. Assuming two per cent growth per year, the revenue cost for 2008 would be $\$1.62 \times 1.02 \times 1.02 = \$1,690,000$.

Your Committee is in support of this measure; provided that the savings realized by the power-generating facility are passed on to customers of the facility.

Your Committee has amended this measure by inserting an effective date of July 1, 2035, for the purposes of further discussion.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 731, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.B. No. 731, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 626 Economic Development and Taxation on S.B. No. 1917

The purpose of this measure is to expand housing opportunities for Hawaii residents by:

- (1) Extending the sunset date for the allocation of conveyance tax revenues to the Rental Housing Trust Fund;
- (2) Requiring the Hawaii Housing Finance and Development Corporation to create an affordable housing inventory registry; and
- (3) Appropriating funds for various homeless and housing programs and projects.

Testimony in support of this measure was received from the Hawaii Housing Finance and Development Corporation, Hawaii Public Housing Authority, City and County of Honolulu Department of Community Services, McCully-Moilili Neighborhood Board #8, Hawaii Family Forum, Catholic Charities Hawai'i, Partners in Care, Hawaii Association of REALTORS, and one individual. The Department of Taxation and the Tax Foundation of Hawaii submitted comments.

Your Committee finds that affordable housing is one of the top public concerns in Hawaii, and the problem is compounded by the spike in land and housing prices in recent years. This measure attempts to address the problem through a combination of direct appropriations and increasing the dedicated source of funding through the conveyance tax.

Your Committee received a revenue impact statement from the Department of Taxation (Department) that the general fund tax revenue would lose \$11,800,000 for fiscal years 2008 and 2009, and the Rental Housing Trust Fund would gain the same amounts. The Department also stated that in fiscal year 2006, conveyance tax collections were \$59,200,000.

Your Committee is strongly supportive of providing financing options for affordable housing, but believes the proposal to again raise the percentage of the conveyance tax earmarked for the Rental Housing Trust Fund merits further legislative deliberations.

Your Committee has amended this measure by making section 6, relating to the conveyance tax transfers, effective July 1, 2020, for purposes of further discussion. Your Committee has also made a technical, nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1917, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.B. No. 1917, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 627 (Joint) Public Safety and Human Services and Public Housing on S.B. No. 1444

The purpose of this measure is to clarify the purpose of committing youth to the Hawaii Youth Correctional Facility.

Specifically, this measure amends the purpose section of the Hawaii Youth Correctional Facility as codified in section 352-2.1(a) of the Hawaii Revised Statutes to substitute:

- (1) "Punishment" with "rehabilitation";
- (2) "Reintegrate" with "prepare for reentry"; and
- (3) "Children" with "youth".

Testimony in support of this measure was submitted by the Office of Youth Services, the American Civil Liberties Union of Hawai'i, and the Community Alliance on Prisons.

Your Committees find that the proposed changes to the statute are necessary to better reflect the purpose of youth correctional facilities and be consistent with terminology usage within the affected offices. Replacing "punishment" with "rehabilitation" will better reflect the programming and activities of the youth correctional facility, which include general education, vocational training, medical and mental health treatment, and substance abuse treatment. Replacing "reintegration" with "reentry," would provide consistency with the terminology used by the Office of Juvenile Justice and Delinquency Prevention. Replacing "children" with "youth" is necessary for accuracy as the term "youth" is commonly used to refer to children over the age of twelve, which is the age group considered for commitment to youth correctional facilities.

Your Committees further find that the term "incarceration" is loaded with connotations of guilt and punishment and should be replaced with the term "custody" to reflect an overall goal of rehabilitating the youth committed to the Hawaii Youth Correctional Facility and to prevent their return to correctional facilities in the future. A recent audit of the Hawaii Youth Correctional Facility by the Auditor of the State of Hawaii noted this confusion within the staff of the facility given the contradictory statutory mandate of punishment and reintegration. Among the many recommendations of the Auditor was a statutory change to the purpose of the Hawaii Youth Correctional Facility for the clarification of its role.

This measure was amended to substitute "custody" for "incarceration" in section 352-2.1(a), Hawaii Revised Statutes.

As affirmed by the records of votes of the members of your Committees on Public Safety and Human Services and Public Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1444, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1444, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, none.

SCRep. 628 Economic Development and Taxation on S.B. No. 994

The purpose of this measure is to allow the sale of cooling from seawater air conditioning district cooling systems to qualify for state enterprise zone benefits.

Testimony in support of this measure was received from Hawaii Energy Policy Forum and Honolulu Seawater Air Conditioning, LLC. The Department of Business, Economic Development, and Tourism and the Department of Taxation submitted comments.

Your Committee finds that the list for “qualified business” in a state enterprise zone already includes wind energy, and adding other alternative energy production would further promote the State’s goal of lessening its dependency on fossil fuels.

Your Committee received a revenue impact statement from the Department of Taxation (Department) that stated the revenue loss to the State would be approximately \$5,200,000 in the first year.

In its methodology, the Department stated that according to the “From Ocean Depths, Air Conditioning for the Tropics”, Environmental News Network, April 05, 2005, the proposed system would cost \$100,000,000. By applying the four per cent general excise tax (GET) rate, the amount of GET exemption would be \$4,000,000. The Department assumed the net profit to be twenty-five per cent of the cost, or \$25,000,000. By applying the six per cent average income tax rate, the amount of income tax would be \$1,500,000. The first year income tax credit (eighty per cent) amounted to \$1,200,000. The amount of employment security contributions was assumed to be one per cent of the net profit, and the premium tax rate is two and one-half per cent. The first year employment security contribution tax credit amounted to \$5,000. The total revenue loss is \$5.2 million (\$4,000,000 + \$1,200,000 + \$5,000).

Your Committee finds this measure is a positive step in meeting the State’s goals for energy self sufficiency, and it is the intent of your Committee to encourage continuing legislative discussions.

Your Committee has amended this measure by inserting an effective date of July 1, 2025, for the purposes of further discussion.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 994, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 994, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 629 Energy and Environment on S.B. No. 1702

The purpose of this measure is to ensure a cleaner and healthier environment for Hawaii by increasing the success rate of the deposit beverage container program.

The measure accomplishes this purpose by amending the deposit beverage container program to require dealers in high density areas and rural areas to operate redemption centers.

Your Committee received testimony in support of this measure from the Sierra Club, Hawai’i Chapter. The Department of Health submitted testimony in support of this measure with comments. Your Committee received testimony in opposition to this measure from the Governor’s Policy Office; the Hawaii Food Industry Association; Reynolds Recycling; the Retail Merchants of Hawaii; Safeway Inc.; and Aloha Glass Recycling, Inc.

Your Committee finds that the deposit beverage container program has proven to be an overwhelming success for Hawaii’s environment. Your Committee further finds that the success rates will only increase with redemption centers being open in high density and rural areas, extending hours of redemption centers operated in high density areas, and by enabling dealers to comply with the program by operating reverse vending machines.

Your Committee amended this measure by:

- (1) Clarifying that a dealer can subcontract with a certified redemption center to be operated on the dealer’s premises or within one thousand feet of the premises;
- (2) Requiring redemption centers to remain open at least thirty-five hours per week, of which not less than five hours shall be on a Saturday or Sunday and shall remain open until 7 p.m. on at least two weekdays; provided that the center is located in a high density population area as defined by the director in rules;
- (3) Allowing consumers to request the refund value be computed by container count for loads of two hundred containers or less;
- (4) Clarifying that properly operated and maintained reverse vending machines may be used by redemption centers and dealers to satisfy the redemption requirements; provided that the reverse vending machine is operational and accessible during normal business hours of the center or store where it is located; and
- (5) Clarifying that dealers as well as redemption centers may refuse to pay the refund on certain non-conforming containers as described in section 342G-116.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1702, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1702, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Trimble).

SCRep. 630 Ways and Means on S.B. No. 586

The purpose of this short form bill is to amend the laws relating to state funds.

Your Committee has amended this measure by inserting provisions that make an appropriation for staffing and operating expenses relating to the establishment of the Office of the Legislative Analyst.

Your Committee finds that the Office of the Legislative Analyst was created pursuant to Act 347, Session Laws of Hawaii 1990, codified as section 21F-6, Hawaii Revised Statutes. That position has never been filled.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 586, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 586, S.D. 1, and be recommitted to the Committee on Ways and Means, for further consideration.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 5 (English, Hooser, Menor, Hemmings, Whalen).

SCRep. 631 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Economic Development and Taxation on S.B. No. 1035

The purpose of this measure is to establish each November 20th as the Makahiki Commemoration Day.

There was no testimony submitted on this measure. Your Committees note that there are supporters of this measure on Rapa Nui.

Your Committees find that Makahiki was a significant time throughout Polynesia. The rising of the makalii, Pleiades, marks the beginning of the Makahiki season that covers four consecutive months. Conflict and war were set aside and unity and peace prevailed as the people paid tribute to the god Lono. To perpetuate the ancient wisdom of land conservation, abundance, unity, and peace during the four months of Makahiki, Polynesian regional governments celebrate the Makahiki season and have designated November 20th as the start of the Makahiki observance. Groups from Hawaii, Samoa, Tonga, New Zealand or Aotearoa, Easter Island or Rapa Nui, Wallis and Futuna, and the Marquesas Islands all gather in Tahiti to celebrate Matahiti Tau Auhune, a time of harvest.

It is your Committees' intent to support the establishment of each November 20th as the Makahiki Commemoration Day. Your Committees have amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Economic Development and Taxation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1035, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1035, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 2 (Ige, Tokuda).

SCRep. 632 Transportation and International Affairs on S.B. No. 1237

The purpose of this measure is to provide an option to turn off the audible reverse warning system on trucks for noise control purposes between the hours of 10:00 p.m. and 6:00 a.m.

This measure applies if the vehicle is:

- (1) Equipped with a rearview camera system in the rear that operates whenever the vehicle is reversing;
- (2) Equipped with flashing lights in the rear of the vehicle which are activated when a vehicle is reversing; or
- (3) Guided by a person, other than the driver of the vehicle, who is positioned behind the vehicle with a clear view of both the vehicle's rearward path and the vehicle's driver.

Your Committee received testimony in support of this measure from the Department of Transportation (DOT), Hawaii Transportation Association, McCully - Moiliili Neighborhood Board #8, Ala Moana/Kakaako Neighborhood Board, and two individuals. Testimony in opposition was received from the Honolulu Police Department.

Your Committee finds that one of the contributors to noise pollution is the loud beeping sound emitted by large vehicles when they are reversing. This is due to a state law that requires certain large vehicles to be equipped with an audible reverse warning system. This safety measure is meant to warn pedestrians and others in the back of a large vehicle that the vehicle is about to reverse. However, when these vehicles operate late at night or near hospitals or hotels noise pollution results.

The intent of your Committee is to protect and preserve the peace and quiet of communities by removing or reducing the causes of noise pollution, while preserving the safety of these communities provided by warnings activated by noise.

Your Committee has amended this measure on the recommendation of the DOT to delete reference to administrative rules.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1237, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1237, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Hooser, Taniguchi).

SCRep. 633 Transportation and International Affairs on S.B. No. 1287

The purpose of this measure is to repeal the requirement that motor carrier vehicles that include the trailers and pole trailers be inspected and certified once in twelve months and during the month in which the vehicle's certificate of registration is issued.

Your Committee received testimony in support of this measure from the Department of Transportation (DOT); Honolulu Department of Customer Services; Alexander & Baldwin, Inc.; Matson Navigation Company; Hawaii Transportation Association; and Horizon Lines, LLC.

Act 3, Session Laws of Hawaii 2005, enacted the provision which this measure would repeal. The justification at the time for requiring a safety inspection during the month in which the vehicle's certificate of motor vehicle registration is issued, was to spread out DOT's tremendous workload to inspect some 100,000 vehicles in the month of June, when the annual safety inspections expire on motor carrier vehicles. (Senate

Standing Committee Report No. 54, on SB No. 73, 2005) Testimony now indicates that the current law that requires motor carrier companies such as Matson Navigation and Horizon Lines to have their trailers and pole trailers inspected and certified once a year and in the same month in which the vehicle's certificate of registration is issued is logically burdensome. For example, Matson Navigation Company has 6,000 of these trailers and they are located in different locations and jurisdictions. Having them inspected in the same month in which the motor vehicle certificate of registration was issued is burdensome.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1287, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1287, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 634 Transportation and International Affairs on S.B. No. 1509

The purpose of this measure is to limit the use of the high occupancy vehicle lane to vehicles that carry a certain number of persons designated by the Director of Transportation as indicated on official signs or other traffic-control devices.

Your Committee received testimony in support of this measure from the Department of Transportation (DOT).

Your Committee finds that under current law, the DOT is unable to meet the changing needs of the motoring public in the operation of high occupancy vehicle lanes, and the changing traffic demands and traffic volumes. Your Committee believes that DOT should have the flexibility to change occupancy requirements of high occupancy vehicle lanes to meet changing traffic conditions.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of conforming the measure to preferred drafting conventions.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1509, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1509, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 635 Transportation and International Affairs on S.B. No. 1709

The purpose of this measure is to treat three-wheeled mopeds designed to carry a driver and a passenger seated side by side the same way as single driver mopeds except for the requirement that the driver sit astride and alone on the moped.

Testimony in support of this measure was received from Adventure Rentals, LLC and Shamrock Importers, LLC. Testimony in opposition was received from the Department of Transportation (DOT). Comments were received from the Honolulu Department of Customer Services.

The intent of this measure is to allow three-wheeled mopeds that are designed to carry a passenger on highways, streets, and roadways in the same way as single driver mopeds. Under existing law, two or three-wheeled mopeds are allowed to be driven on highways, streets, and roadways, and on bikeways when bicycle lanes and paths are provided. Testimony indicated that three-wheeled mopeds that are designed to carry a passenger are generally larger than single driver mopeds and present safety issues that may not be covered under existing laws that regulate single driver mopeds. Your Committee believes that these safety and related issues need further discussion and review.

Your Committee has amended this measure by changing the effective date to July 1, 2050, for the interested parties and the DOT to continue discussion on reaching a workable solution to the safety and related issues under the existing moped law.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1709, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1709, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 636 (Joint) Transportation and International Affairs and Energy and Environment on S.B. No. 523

The purpose of this measure is to require the Department of Transportation (DOT) to include biofuel storage and transmission infrastructure in all harbor improvement master plans.

Your Committees received testimony in support of this measure from the Department of Transportation (DOT).

Your Committees find that Hawaii's dependence on petroleum for about ninety per cent of its energy needs is more than any other state in the nation. This makes the State extremely vulnerable to any oil embargo, supply disruption, international market dysfunction, and many other factors beyond the control of the State. The use of biofuels would counteract the deleterious effects of a sudden shortage of petroleum fuels.

The intent of this measure is for the State to store enough biofuels to be used for the generation of power or heat. Your Committees consider biofuel storage and transmission to be the beginning of the process of weaning the State from dependence upon imported oil.

Your Committees have amended this measure by clarifying the permitted use of biofuel storage and transmission infrastructure on State harbor lands, to confer jurisdiction on the DOT, and to prohibit the manufacture or production of biofuels on State harbor land.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 523, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 523, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 3 (Ihara, Kokubun, Taniguchi).

SCRep. 637 Transportation and International Affairs on S.B. No. 1047

The purpose of this measure is to allow a driver who is at least eighteen years of age to obtain a commercial driver's license to drive in intrastate commerce.

Your Committee received testimony in support of this measure from the Hawaii Transportation Association. Testimony in opposition was received from the Department of Transportation and Honolulu Police Department.

Your Committee finds that there is a shortage of commercial drivers in Hawaii and the age requirement for commercial licenses makes recruiting younger individuals, such as high school seniors, difficult because they have to wait years to obtain a license.

The current age required to receive a commercial driver's license is twenty-one. This measure would increase the pool of qualified commercial drivers by lowering the age to eighteen. Your Committee is keenly aware that lowering the age may not solve the problem of the shortage of drivers, and may present highway safety concerns. The measure addresses these concerns by requiring compliance with federal regulations, limiting the type of commercial vehicle that can be operated, prohibiting the transportation of hazardous materials and school passengers and requiring drivers to have prior driving experience and a clean driving record.

In addition, your Committee believes that increasing the eligible pool of commercial drivers will increase demand for commercial driving schools and other instructional programs to enable the licensing of more commercial drivers. High school seniors would be more inclined to consider commercial driving as a career if the license eligibility age were eighteen.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1047 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 638 (Joint) Intergovernmental and Military Affairs, Transportation and International Affairs and Economic Development and Taxation on S.B. No. 1028

The purpose of this measure is to authorize the counties to regulate both guided and unguided commercial bicycle tour businesses on State and county highways.

Your Committees received testimony in support of this measure from the State of Hawaii, Department of Transportation; the Kula Community Association; the CKM Cultural Resources, LLC; the Kula Community Association Sub-Committee on Commercial Bicycle Tours; and one individual. Testimony in opposition to this measure was submitted by Maui Mountain Cruisers; Cruiser Phil's Volcano Riders; Maui Sunriders Bike Company; Maui Downhill Bicycle Tours; and Haleakala Bike Company.

Your Committees find that there have been many safety concerns expressed by the public regarding commercial bicycle tours. In certain areas of the State, the current volume of commercial bicycle tour operations, both guided and unguided, pose significant safety concerns for vehicles and bicycle traffic alike. The popularity of these tours has grown substantially over the years, as has the population in certain residential areas. This growth of sometimes competing interests has led to alleged incidents of volatile confrontations between commercial bicycle tour operators and residents, thereby exacerbating the safety issues raised by the public.

Your Committees further find that this measure addresses these concerns by permitting the council of any county in the State to adopt and provide for the enforcement of ordinances that will improve roadway safety where commercial bicycle tours are conducted. This measure is of particular significance in areas currently without laws or rules governing commercial bicycle tour operations on State and county highways.

As affirmed by the records of votes of the members of your Committees on Intergovernmental and Military Affairs and Transportation and International Affairs and Economic Development and Taxation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1028 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 5 (Ige, Taniguchi, Tsutsui, Hemmings, Slom).

SCRep. 639 Human Services and Public Housing on S.B. No. 424

The purpose of this measure is to amend the law relating to human services.

Your Committee has amended this measure by inserting language that amends section 346-68, Hawaii Revised Statutes, to expand the Bridge to Hope Program to enable heads of households receiving financial assistance and participating in the First-to-Work programs to pursue educational activities beyond the new two-year federal limit.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 424, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 424, S.D. 1, and be recommitted to your Committee on Human Services and Public Housing for further consideration.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Sakamoto, Hemmings).

SCRep. 640 Judiciary and Labor on S.B. No. 470

The purpose of this measure is a Short Form bill entitled Employment.

Your Committee recommends that the measure pass with amendments, for recommitment for further consideration.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 470, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 470, S.D. 1, and be recommitted to the Committee on Judiciary and Labor, for further consideration.

Signed by the Chair on behalf of the Committee. Ayes, 5. Ayes with Reservations, 1 (Gabbard). Noes, none. Excused, none.

SCRep. 641 Intergovernmental and Military Affairs on Gov. Msg. No. 271

Recommending that the Senate advise and consent to the nomination of the following:

ADJUTANT GENERAL AND DIRECTOR OF CIVIL DEFENSE

G.M. No. 271 Major General Robert G. F. Lee, for a term to expire 12-6-2010,

Your Committee reviewed the personal statement and resume submitted by the nominee, and finds Major General G. F. Lee to have the necessary qualifications to be nominated as the Adjutant General and Director of Civil Defense.

Your Committee received testimony in support of the nomination of Major General Robert G. F. Lee, from a United States Senator; the Commander of the 298th Regiment, Multifunctional Training Brigade, Regional Training Institute, Hawaii Army National Guard; the Commander of the Hawaii Air National Guard; the Director of the Office of Veterans Services; the Advisory Board on Veterans Services; the Department of Public Safety; the Hawaii Wing of the Civil Air Patrol; the Deputy Commanding General, Department of the Army, Headquarters, United States Army, Pacific; the Chairman of the Hawaii Commissioning Committee, Honolulu Council, Navy League of the United States; the United States Army Reserve Ambassador; the Reserve Officers Association, Department of Hawaii; the Chair of the Armed Services Committee; the Office of Hawaiian Affairs; the Honolulu Advertiser; McCabe, Hamilton & Renny Co., Ltd; Castle & Cook Hawaii; Bank of Hawaii; Maui Realty Company, Inc.; Go For Broke Association, 100th Battalion 442nd Infantry; The Estate of James Campbell; the Director of the Laborers-Employers Cooperation and Education Trust; the Chamber of Commerce of Hawaii; Healthcare Association of Hawaii; the Chair of the Aloha Chapter of the Military Officers Association of America; the President of the 100th Infantry Battalion Veterans; and nine individuals.

Your Committee received testimony in opposition to the nomination of Major General Robert G. F. Lee from one individual.

Your Committee finds that Major General Robert G. F. Lee was appointed the Adjutant General, State of Hawaii, Department of Defense, on January 1, 2003. His previous assignment was as Commanding General of the 9th Regional Support Command, U.S. Army Reserve – Pacific from February 8, 1999, until his appointment as Adjutant General. He is the Director of the State Civil Defense, providing direct support to the Office of Veterans Services, and is the Homeland Security Advisor to the Governor.

Your Committee further finds that in May 1971, General Lee, received his commission through ROTC at the University of Hawaii. Upon completion of the Air Defense Artillery Basic Course, he was assigned to the U.S. Army Reserve and served as a platoon leader in the 411th Engineer Battalion and the 322nd Civil Affairs Group. In 1972, General Lee was assigned to the 100th Battalion, 442nd Infantry, and served in successive assignments as mortar platoon leader, company commander, and battalion operations officer. In 1980, he served two years on active duty assigned to the 100th Battalion, 442nd Infantry as Assistant Air Operations Officer. In 1982, General Lee was reassigned as the Ground Liaison Officer in the Corps Operations Staff, IX Corps (Reinforcement). In 1988, he returned to the 100th Battalion, 442nd Infantry as its Commanding Officer. In 1991, following command, he served as Assistant Chief of Staff for Operations and Training, IX Corps (Reinforcement)/9th Army Reserve Command. In 1996, he was appointed as the Chief of Staff, 9th Army Reserve Command.

Your Committee further finds that General Lee's civilian career includes twenty-seven years of service overhauling nuclear submarines at Pearl Harbor Naval Shipyard with his final assignment as Superintendent of Nuclear Regional Maintenance for the Pacific Nuclear Submarine Fleet. He also served as the Pacific Area General Manager for Perot Systems Government Services.

Your Committee further finds that General Lee holds a Bachelor's degree in Mechanical Engineering and a Master's degree in Business Administration from the University of Hawaii. He is a licensed professional engineer in mechanical and nuclear engineering. His military education includes the Army War College, the Command and General Staff Officers Course, the Infantry Officer Advanced Course, and the Air Force Ground Operations School. General Lee has earned numerous awards and decorations including the Legion of Merit, the Meritorious Service Medal, the Army Commendation Medal, and the Army Achievement Medal.

Your Committee further finds that General Lee's intimate knowledge of both the challenges and possibilities facing the State Civil Defense make him an invaluable asset in maintaining Hawaii's key role in the security of the Pacific and ensuring economic prosperity. Based on consistently high performance by the National Guard, the United States Army and United States Air Force continue to include the Hawaii National Guard in their transformation plans. For example, the 154th Air Wing is still the largest and most complex air wing in the National Guard. Hawaii, unlike most states, has three flying units.

Your Committee further finds that the State Civil Defense has grown in size and responsibility. The Emergency Operations Center now operates twenty-four hours a day, seven days a week. This is a critical part of the National Incident Management System which unifies Federal, State, and local lines of government to manage hazards and incidents. Hawaii is also a member of the Emergency Management Assistance Compact which will improve Hawaii's response to large scale disasters. The State Civil Defense continues to prepare for other emergencies ranging from a nuclear dirty bomb to a flu pandemic and will continue to use funding from the Homeland Security to improve emergency preparedness and response for State Civil Defense agencies at the county level.

Your Committee further finds that the Department of Defense is an enduring team of the Hawaii Army National Guard, Hawaii Air National Guard, State Civil Defense, Office of Veterans Services, and the Youth Challenge Academy. The professionals that serve in these organizations are vital to the future of the State and nation as they serve in times of crisis and conflict. To this end, your Committee finds that General Lee's evidenced commitment to the ideals and values of honor, integrity, duty, respect, loyalty, selfless public service, and personal courage combined with his rich experience and heightened understanding of the multi-faceted components of these organizations make him the preeminent nominee to superbly lead the State, by fulfilling the duties and responsibilities of Adjutant General and Director of Civil Defense.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Hemmings).

SCRep. 642 Intergovernmental and Military Affairs on S.B. No. 646

The purpose of this measure is to establish civil penalties for property owners who fail to make reasonable efforts to repair properties left in a dangerous condition and authorize counties to place a lien on the property for costs incurred.

No testimony on this measure was submitted.

Your Committee finds that property owners who fail to make reasonable efforts to repair dangerous conditions on their properties present unnecessary risks to others. The presence of hazardous property conditions leave citizens at considerable risk of personal injury.

Your Committee further finds that in the years following hurricanes and natural disasters, some property owners remain uninsured or choose to use their insurance proceeds in a manner inconsistent with the intended purpose of repairing their dangerous structures.

The intent of your Committee is to establish penalties for property owners failing to make reasonable efforts to repair their dangerous properties.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 646 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Hemmings).

SCRep. 643 Intergovernmental and Military Affairs on S.B. No. 1818

The purpose of this measure is to exempt nonprofit corporations that are granted a concession or concession space by a county from the fifteen-year time limitation on the grant of county concessions or concession space if the council of the respective county approves a resolution that waives the limitation.

Testimony in support of this measure was submitted by the Office of the Mayor, County of Maui and the County Council, County of Maui.

Your Committee finds that it is important to provide the counties with more leverage in granting nonprofit entities with longer lease terms. Leases of greater than fifteen years are often necessary to help worthy nonprofit organizations secure grant funds and to perform capital improvements for programs that provide substantial community benefits.

To this end, your Committee amended this measure to further clarify the language regarding exempting nonprofit organizations from the fifteen-year limit on the grant of county concession or concession space.

It is the intent of your Committee to provide an exemption to nonprofit corporations from the fifteen-year limit on the grant of county concessions or concession space, providing each county with greater authority and discretion over the use and management of county property.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1818, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1818, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Hemmings).

SCRep. 644 Ways and Means on S.B. No. 1311

The purpose of this measure is to make more efficient the method of paying the comptroller and the deputy comptroller.

Specifically, this measure removes the requirement that checks for the payment of salaries to the comptroller and the deputy comptroller be signed by the Governor.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services.

Your Committee finds that the requirement for the Governor to sign the paychecks of the comptroller and the deputy comptroller is an internal control that is no longer necessary. The existing statutory requirement contained in section 40-53(b), Hawaii Revised Statutes, that directs all state employees (which will include the comptroller and deputy comptroller when this measure is enacted), to direct deposit their paychecks into an account in a financial institution for purposes of establishing a financial record, is a sufficient and adequate control.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1311 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, 4 (Chun Oakland, Hooser, Kim, Menor).

SCRep. 645 Ways and Means on S.B. No. 1523

The purpose of this measure is to streamline the collection of service charges for dishonored payments to the State.

This bill increases the service charge to a uniform flat fee for all dishonored payments made to the State, and authorizes collection agencies, in addition to the Attorney General, to collect the dishonored payment and service charge on behalf of the State. The bill also eliminates interest charges on the service charge for dishonored payments to the State.

Your Committee received testimony in support of this Judiciary package bill from the Judiciary.

Your Committee finds that an increased service charge has now become necessary to defray the increased costs of processing a dishonored payment and recollecting payment for the original amount owed and the service charge. Furthermore, standardization of the service charge for all dishonored payments will ease the administrative burdens of determining what form of payment was made and which service charge amount is applicable, as is being currently done. Also, deletion of the interest charge is desirable because the benefits of obtaining the relatively small interest amount is more than outweighed by the costs of monitoring, computing, and collecting that interest amount. Lastly, authorizing collection through a collection agency will provide an additional method of collection.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1523 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Chun Oakland, Menor).

SCRep. 646 Ways and Means on S.B. No. 1711

The purpose of this measure is to increase the salaries of deputies and first assistants of legislative service agencies from not more than eighty-seven per cent to not more than ninety-two per cent of the salary of the head of the agency.

The Office of the Auditor, Office of the Ombudsman, and the Legislative Reference Bureau submitted testimony in support of this measure.

Your Committee finds that this measure would create parity between deputies and first assistants in the legislative branch and their counterparts in the executive branch and also promote recruitment and retention of qualified employees.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1711 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Chun Oakland, Menor).

SCRep. 647 Intergovernmental and Military Affairs on Gov. Msg. No. 301

Recommending that the Senate advise and consent to the nomination of the following:

CIVIL DEFENSE ADVISORY COUNCIL

G.M. No. 301 GERALD L. COFFEE, for a term to expire 6-30-2011,

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Gerald L. Coffee to have the necessary qualifications to be nominated to the Civil Defense Advisory Council.

Your Committee received testimony in support of Gerald L. Coffee from the Director of Civil Defense, State Department of Defense. Mr. Coffee served in the United States Navy for twenty-eight years where he was shot down on a combat mission in Vietnam and was subsequently captured and spent seven years as a Prisoner of War. Since his retirement from active duty military service, he became a professional speaker sharing his message of faith, hope, and perspective with hundreds of America's major corporations and military associations. Mr. Coffee is a member of many military organizations, including the Honolulu Council of the Navy League, and the Military Officers Association of America. He also continues to actively support the Aloha Council of The Boy Scouts of America, The Salvation Army, The Nature Conservancy, and the Fellowship of Christian Athletes. He has served as the Chair of the State Civil Defense Advisory Council since 2003, where he continues to serve as a conduit for his community in Civil Defense matters. He has participated in numerous Civil Defense events and contributed his leadership and expertise to Civil Defense programs.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Tsutsui).

SCRep. 648 Intergovernmental and Military Affairs on Gov. Msg. Nos. 392, 393 and 394

Recommending that the Senate advise and consent to the nominations of the following:

ADVISORY BOARD ON VETERANS' SERVICES

G.M. No. 392 CYNTHIA L. STINE, for a term to expire 6-30-2011.;

G.M. No. 393 WILLIAM T. HONJIYO, for a term to expire 6-30-2011.; and

G.M. No. 394 GILBERT N. HOUGH, for a term to expire 6-30-2009

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Cynthia L. Stine, William T. Honjiyo, and Gilbert N. Hough to have the necessary qualifications to be nominated to the Advisory Board on Veterans' Services.

Your Committee received testimony in support of Cynthia L. Stine from the Office of Veterans' Services, State of Hawaii, Department of Defense. Ms. Stine served honorably in the United State Air Force for twenty years. Since retiring, she has worked as a sincere and tireless advocate for veterans in organizations including the American Legion, the Air Force Association, the Veterans of Foreign Wars and Disabled American Veterans. She currently serves as the Chair of the Advisory Board on Veterans' Services and has done an exceptional job taking a proactive approach to every issue and project the Advisory Board on Veterans' Services has undertaken. Her considerable knowledge of the issues and needs of veterans make Ms. Stine a valuable asset to the Advisory Board on Veterans' Services.

Your Committee received testimony in support of William T. Honjiyo from the Office of Veterans' Services, State of Hawaii, Department of Defense and from the Kauai Veterans Club. Mr. Honjiyo served honorably in the United States Army for twenty years retiring as a Lieutenant Colonel and completing two tours in Vietnam as a combat commander and staff officer. After his retirement, Mr. Honjiyo served as the President of the Kauai Veterans Council and played a significant role in keeping the veterans organizations on Kauai actively informed of veterans' events and issues. Mr. Honjiyo has done an excellent job over the past several months serving as the Kauai representative to the Advisory Board on Veterans' Services and brings a wealth of knowledge and commitment to the issues affecting veterans making him an important component of the Advisory Board on Veterans' Services.

Your Committee received testimony in support of Gilbert N. Hough from the Office of Veterans' Services, State of Hawaii, Department of Defense and from the Kauai Veterans Council. Mr. Hough served thirty years in the United State Navy as a Master Chief Petty Officer. He is a member of many military organizations including the Disabled American Veterans, the Veterans of Foreign Wars, the American Legion, the Fleet Reserve Association, and the Navy Crypto Veterans Association. Mr. Hough served as the Director for Veterans Employment and Training Services with the United States Department of Labor where he assisted veterans returning from deployments transitioning to the civilian work force. Mr. Hough has served as Vice Chair of the Advisory Board on Veterans' Services for the past several months, bringing not only his professional expertise, but an unrelenting commitment to serving this nation's veterans.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Tsutsui).

SCRep. 649 Intergovernmental and Military Affairs on Gov. Msg. Nos. 302 and 303

Recommending that the Senate advise and consent to the nominations of the following:

CIVIL RIGHTS COMMISSION

G.M. No. 302 CORAL WONG PIETSCH, for a term to expire 6-30-2011; and

G.M. No. 303 LISA ANN S. L. WONG, for a term to expire 6-30-2011

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Coral Wong Pietsch and Lisa Ann S. L. Wong to have the necessary qualifications to be nominated to the Civil Rights Commission.

Your Committee received testimony in support of Coral Wong Pietsch from the Department of Labor and Industrial Relations, State of Hawaii; the Hawaii Civil Rights Commission; the Hawaii Employers Council; and two individuals. Ms. Pietsch currently serves as the Senior Civilian Counsel for Headquarters, United States Army Pacific Command where she is responsible for civil and administrative law matters. She is also a member of the United State Army Reserves and is the first female General Officer in the two hundred twenty-eight year history of the United States Army Judge Advocate General Corps. Ms. Pietsch has served on the Hawaii Civil Rights Commission since 2003, and has been the Chair since 2004. Under her leadership, the Commission has focused its efforts on reduction of the length of time to investigate complaints, increased efficiency, and improvements in investigation, public education, and mediation. Her demonstrated commitment to the preservation of the civil rights of all individuals makes her a valuable asset to the Hawaii Civil Rights Commission.

Your Committee received testimony in support of Lisa Ann S. L. Wong from the Department of Labor and Industrial Relations, State of Hawaii; the Hawaii Civil Rights Commission; the Hawaii Employers Council; the Hawaii Convention Center; and three individuals. Ms. Wong has worked in the human resources field since 1976 and has a broad working knowledge of fair employment practices and laws from a business perspective, with experience in conducting internal investigations and preparing responses to complaints of discrimination. She has served as a Commissioner for the Hawaii Civil Rights Commission since 2003, making substantial contributions to discussions and deliberations. Ms. Wong brings a fresh, open-minded, and practical working knowledge to the Commission where she continues to serve as an essential component to the Hawaii Civil Rights Commission.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Tsutsui).

SCRep. 650 (Joint) Economic Development and Taxation and Ways and Means on S.B. No. 678

The purpose of this measure is to exempt from the general excise tax amounts received by the operator of the Hawaii Convention Center for reimbursement of costs or advances made pursuant to a contract with the Hawai'i Tourism Authority.

Written testimony in support of this measure was received from the Department of Taxation; Department of Business, Economic Development, and Tourism; and Hawai'i Tourism Authority. The Tax Foundation of Hawaii submitted written comments.

Your Committees received a fiscal impact statement from the Department of Taxation (Department) that the revenue loss would be approximately \$700,000. The Department did not submit a statement of methodology or information as to whether the loss was calculated as a one-time or annual amount.

Your Committees find that this measure will enable the use of the Hawaii Convention Center Special Fund for the operation and marketing of the Center and not to cover general excise tax liabilities of the operator.

As affirmed by the records of votes of the members of your Committees on Economic Development and Taxation and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 678, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, none. Excused, 5 (Ige, Menor, Tokuda, Hemmings, Whalen).

SCRep. 651 Economic Development and Taxation on S.B. No. 856

The purpose of this measure is to prohibit the construction or development of hotels or transient accommodations on the real property controlled by the Natural Energy Laboratory of Hawaii Authority.

The Natural Energy Laboratory of Hawaii Authority (NELHA) submitted comments on this measure.

Your Committee has heard that written guidelines established by NELHA in 1998 specifically prohibit residential and commercial hotel uses of any type. However, your Committee believes that the emphasis on self sufficiency for NELHA may have raised the concern that development of transient accommodations would be one means of achieving this self sufficiency.

Your Committee has amended this measure by inserting an effective date of July 1, 2030, for the purposes of further discussion.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 856, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 856, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Ige).

SCRep. 652 Tourism and Government Operations on S.B. No. 260

The purpose of this measure is to recognize September 21 of each year as "Peace Day."

Your Committee received testimony in support of this measure from the Retail Merchants of Hawaii; Buddhist Study Center; The League of Women Voters of Hawaii; Hawaii State Teachers Association; Jodo Mission of Hawaii; Wahiawa Lions Club, Inc.; Honpa Hongwanji Mission of Hawaii; Domestic Violence Clearinghouse and Legal Hotline; Junior Young Buddhist Association; and five individuals.

The intent of annually recognizing a Peace Day is to promote peace programs, improve international relations, and increase educational awareness of peace. This measure does not make Peace Day a holiday.

Peace Day has its origins in "The International Day of Peace" which was celebrated on September 21, 2006, in two hundred countries and 3,500 peace day events, including all one hundred ninety-two members of the United Nations. The purpose was to promote a global movement for a culture of peace. Especially in these dangerous and turbulent times, your Committee believes there is a need to consciously and actively focus on the goals of peace for all mankind. This measure would bring it to the consciousness of citizens of the State once a year.

As affirmed by the record of votes of the members of your Committee on Tourism and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 260 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Tsutsui).

SCRep. 653 Tourism and Government Operations on S.B. No. 247

The purpose of this Act is to designate the Asian Lunar New Year as a week of commemoration.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and one individual.

Your Committee finds that Hawaii embraces many different ethnic celebrations. Chinese New Year has become a part of island tradition. Designating an official state observance of the Asian Lunar New Year is a recognition of the richly diversified nature of the State's population. Your Committee notes that the week of commemoration would not be considered a state holiday.

Your Committee has amended this measure to make a technical, nonsubstantive amendment for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Tourism and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 247, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 247, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Tsutsui).

SCRep. 654 Tourism and Government Operations on S.B. No. 866

The purpose of this measure is to prohibit anyone who has served on the board of directors of the Hawaii Visitors and Convention Bureau (HVCB), a private entity, from serving on the board of the Hawaii Tourism Authority (HTA) for a two-year period immediately following service on the board of the HVCB.

Your Committee received testimony in support of this measure from the Hawaii Tourism Authority and one individual.

Your Committee finds that the *Special Master's Report to the Hawaii Tourism Authority on Recommendations Regarding The Hawaii Visitors and Convention Bureau*, dated December 31, 2003, by the Candon Consulting Group, LLC, recommended that the independence of the respective boards of directors of the HTA and the HVCB be preserved. There have been and are individuals who have served consecutively as directors of both the HTA board and the HVCB board and visa-versa. This situation invites questions about the arm's length nature of the relationship between these two boards and their respective organizations. If enough members of each board regularly switch from one to the other, the independence of each entity would diminish or disappear. Your Committee notes that the intent of this measure is already embodied in HTA's current policy.

Your Committee believes that because tourism marketing contracts are executed between the HTA and the HVCB through a process that is exempt from the State Procurement Code, it is necessary to establish safeguards such as the two-year board service moratorium to ensure propriety.

The intent of this measure is to ensure that the HTA and HVCB boards function independently from each other and that the relationship between the two boards remain at arm's length when the two entities transact tourism marketing contracts.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Tourism and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 866, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 866, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Tsutsui).

SCRep. 655 Judiciary and Labor on S.B. No. 966

The purpose of this measure is to amend article V, section 1, of the Constitution of the State of Hawaii to lower the age qualification for the office of governor and lieutenant governor from thirty years to twenty-five years. The age qualification for the office of lieutenant governor is automatically lowered to the same age qualification as the governor because of article V, section 2 of the Constitution.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, the League of Women Voters of Hawaii, Vote Outreach! Hawaii, and numerous concerned citizens.

Your Committee finds that this measure will encourage Hawaii's younger citizens to apply their skills, abilities, and accomplishments toward making a difference through the political process.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 966 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 656 Judiciary and Labor on S.B. No. 46

The purpose of this measure as received is to make technical revisions to law pertaining to public employees.

Your Committee received no testimony on this measure.

Your Committee previously heard S.B. No. 684, A Bill for an Act Relating to Uniform Information Practices, which proposed an amendment to the Uniform Information Practices Act (Modified), chapter 92F, Hawaii Revised Statutes (HRS), to require public disclosure of proposed compensation or compensation changes for administrative positions in the University of Hawaii System. At the hearing on S.B. No. 684, your Committee received testimony in support from the University of Hawaii Professional Assembly. The University of Hawaii opposed the measure. The Office of Information Practices offered comment.

The Office of Information Practices testified that a requirement to disclose information at a public meeting would more appropriately be placed in chapter 92, HRS, governing public meetings, or the substantive law governing the public agency, rather than the in chapter 92F, HRS, which pertains to records. Because the title of S.B. No. 864 would not encompass that revision, it was announced during decision-making on S.B. No. 864, that S.B. No. 46 would be amended to include the intended revisions in appropriate statutory sections.

Your Committee finds that certain employees of the University of Hawaii are the highest paid public employees in the State of Hawaii, and that meaningful public comment on the salaries and salary increases for excluded managerial and executive administrators in the University of Hawaii System is a matter of intense public interest and statewide concern.

Accordingly, your Committee has amended S.B. No. 46 by:

- (1) Deleting the amendment to section 76-11, HRS; and
- (2) Amending sections 89C-4, 92-5(a), 304A-1001, and 304A-1004, HRS, to require the Board of Regents to disclose proposed compensation or change in compensation for high level administrative positions in the University of Hawaii System.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 46, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 46, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 657 Judiciary and Labor on S.B. No. 1063

The purpose of this measure is to require the governor, in filling vacancies to the state senate, state house of representatives, and United States Senate, to select from a list of three prospective appointees nominated by the political party of the prior incumbent. This measure also requires prospective appointees to be registered members of nominating political parties at the time their names are submitted to the governor.

Your Committee received testimony in support of this measure from the Democratic Party of Hawaii, the O'ahu County Committee of the Democratic Party of Hawaii, and a concerned individual. The Governor testified in opposition to this measure.

Your Committee finds that a procedure that guarantees that vacancies are filled in a fair and timely manner is essential to the integrity of the legislative process.

Your Committee has amended this measure by restructuring the amendments to section 17-1, Hawaii Revised Statutes in section 2 of this bill by setting out new language in new subsections rather than incorporating by reference the new language in section 17-3(a), Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1063, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1063, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Gabbard). Noes, none. Excused, 1 (Inouye).

SCRep. 658 Judiciary and Labor on S.B. No. 1613

The purpose of this measure is to amend various provisions of the Hawaii Revised Statutes and the Session Laws of Hawaii pursuant to chapter 23G, Hawaii Revised Statutes, to correct errors, update references, clarify language, and delete obsolete or unnecessary language.

Your Committee received testimony in support of this measure from the Legislative Reference Bureau.

Your Committee finds that all of the statutory amendments proposed by the measure are of a purely technical nature and either contain no substantive changes to the law, or, if they have any substantive effect, are done simply to correct the types of errors noted in this report.

Your Committee finds the reasons for the respective technical amendments made in the bill are as follows:

Section 1. The amendment made by L 2006, c 45, §2 to section 6E-11(a), HRS, inadvertently omitted the existing phrase "controlled by the State or any of its political subdivisions," in the second sentence. Section 6E-11, HRS, should be amended to ratify the revisor's reinstatement of the omitted language, which is indicated by brackets.

Section 2. Section 36-27, HRS, was amended by Acts 75, 305, and 316 in 2006. The amendment made by L 2006, c 316, §4 inadvertently omitted the ending of the section, without which the section lacked substance. Section 36-27, HRS, should be amended by deleting the brackets around the referenced text at the ending of the section to ratify the revisor's insertion of the language.

In addition, section 36-27(16), HRS, refers to section 231-3.2, HRS, regarding the integrated tax information management systems special fund. Section 231-3.2, HRS, is being repealed as functus in section 21 of this bill. To conform to this repeal, section 36-27, HRS, should be amended to delete the reference to the integrated tax information management systems special fund.

Lastly, section 36-27(23), HRS, refers to the center for nursing special fund under "section [304A-2163]". Act 75 amended section 36-27(23), HRS, by changing the section number pertaining to the center for nursing special fund to the section number in the new chapter (304A) created by the Act. The revisor renumbered some of the sections of the new chapter and, accordingly, changed the section number in section 36-27(23), HRS, to make the proper reference. Section 36-27, HRS, should be amended by deleting the brackets around "section [304A-2163]" to ratify the revisor's insertion of the correct section number.

Section 3. Section 36-30(a), HRS, was amended by Acts 75, 305, and 316 in 2006. The amendment made by L 2006, c 316, §5 inadvertently omitted the ending of the section, without which the section lacked substance. Section 36-30(a), HRS, should be amended by deleting the brackets around the referenced text at the end of the section to ratify the revisor's insertion of the language.

In addition, section 36-30(a)(15), HRS, refers to section 231-3.2, HRS, regarding the integrated tax information management systems special fund. Section 231-3.2, HRS, is being repealed as functus in section 21 of this bill. To conform to this repeal, section 36-30(a), HRS, should be amended to delete the reference to the integrated tax information management systems special fund.

Lastly, section 36-30(a)(20), HRS, refers to the center for nursing special fund under "section [304A-2163]". Act 75 amended section 36-30(a)(20), HRS, by changing the section number pertaining to the center for nursing special fund to the section number in the new chapter (304A) created by the Act. The revisor renumbered some of the sections of the new chapter and, accordingly, changed the section number in section 36-30(a)(20), HRS, to make the proper reference. Section 36-30, HRS, should be amended by deleting the brackets around "section [304A-2163]" to ratify the revisor's insertion of the correct section number.

Section 4. Section 27-42, HRS, relating to the governor's special advisory council for technology development, is repealed as functus in section 20 of this bill.

To conform to this repeal, section 84-17(c), HRS, should be amended to delete the council reference.

Section 5. L 2006, c 183, amended chapter 132D, HRS, by, among other things, changing the term "special fireworks" to "display fireworks". Act 183 amended section 132D-16, HRS, to reflect the change to "display fireworks", but inadvertently retained the term "special fireworks" in the last paragraph of subsection (c).

Section 132D-16(c), HRS, should be amended by deleting the brackets around the word "display" to ratify the revisor's substitution of the word "display" for "special".

Section 6. L 2006, c 27, §1(2) amended section 134-2(e), HRS, by changing the reference to the "United States Department of the Treasury" to the "United States Department of Justice". Section 134-2(a), HRS, should also be amended to refer to the "United States Department of Justice". The Attorney General's justification sheet for Act 27 (SB 2263) notes that "the federal department with authority over firearms is no longer the Department of the Treasury, it is the Department of Justice".

In addition, in the last sentence of section 134-2(e), HRS, because the phrase "the applicant is not a citizen of the United States" appears twice, the latter phrase should be deleted as redundant.

Section 7. L 2006, c 27, §1(2) amended section 134-2(e), HRS, by changing the reference to the "United States Department of the Treasury" to the "United States Department of Justice". Subsections (c) and (d) of section 134-3, HRS, should also be amended to refer to the "United States Department of Justice". The Attorney General's justification sheet for Act 27 (SB 2263) notes that "the federal department with authority over firearms is no longer the Department of the Treasury, it is the Department of Justice".

Section 8. L 2006, c 27, §3 amended section 134-9(a), HRS, to require the county police chiefs to "perform an inquiry on an applicant [for a license to carry a firearm] by using the National Instant Criminal Background Check System, to include a check of the Immigration and Customs Enforcement databases, where the applicant is not a citizen of the United States, before any determination to grant a license is made." Senate Standing Committee Report No. 2410 stated that "an inquiry on the National Instant Criminal Background Check System [was intended to apply] to all the various licenses issued by county police chiefs". However, the language "to include a check of the Immigration and Customs Enforcement databases, where the applicant is not a citizen of the United States," may be read as requiring the check only for noncitizens.

Section 134-9(a), HRS, should be amended to delete the comma after "databases" to clarify that the inquiry applies to all applicants, citizens and noncitizens.

Section 9. L 2006, c 174, §1 created section 183-5, HRS, which provides for general administrative penalties for violations of chapter 183, HRS. Act 174, §5, amended section 195F-4(a)(2)(F), HRS, by providing that moneys in the forest stewardship fund collected from the "imposition of fines or penalties for violations of this chapter and chapters 185 and 195F or any rule adopted thereunder" shall be used for various enumerated activities. As a result of the amendment, section 195F-4(a)(2)(F), HRS, refers to chapter 195F twice ("this chapter" and "195F") but fails to refer to moneys from penalties collected under chapter 183, HRS (forest reserves, water development, zoning), including the general administrative penalties under section 183-5, HRS. Act 174, §4 amended section 183-16, HRS, to provide that moneys collected from fines or penalties for violations of chapter 183, 185, and 195F, HRS, are deposited in the forest stewardship fund.

In addition, Act 174 reformatted section 195F-4(a)(2), HRS, causing confusion as to whether clauses (i) to (iii) apply only to subparagraph (F) or to the entire paragraph (2).

Section 195F-4(a), HRS, should be amended to add a reference to the deposit of moneys from fines and penalties under chapter 183, HRS, delete the extra reference to chapter 195F, HRS, and reformat paragraph (2) to clarify that subclauses (i) to (iii) apply to the entire paragraph (2).

Section 10. L 2006, c 229, enacted chapter 485A, the Uniform Securities Act, to replace the Uniform Securities Act (Modified), chapter 485, effective July 1, 2008.

Section 211G-13(e), HRS, contains references to chapter 485 and should be amended to refer to chapter 485A, effective July 1, 2008.

Section 11. L 2006, c 110, §3 amended section 235-51(b), HRS, by more specifically deleting the December 31, 1998 and December 31, 2000 head of household tax income schedule and adding a new tax income schedule for taxable years beginning after December 31, 2006. In the process of doing so, a change occurred in the tax schedule for taxable years beginning after December 31, 2001. The specific part affected is for the following consecutive income ranges, “over \$12,000 but not over \$18,000”, and “over \$21,600 but not over \$24,000”, leaving a gap in the taxable income range for amounts in between those income ranges. It is noted that the “over \$21,600” amount appeared without the usual Ramseyer convention and formerly read “over \$18,000”. The “over \$21,600” amount should be restored back to “over \$18,000” to close the obvious gap in the income tax levels for the set period beginning after December 31, 2001 through December 31, 2006.

In addition, L 2006, c 110, §3 amended section 235-51(b), HRS, by providing that for taxable years beginning after December 31, 2006, if the taxable income is over \$28,800 but not over \$36,000, the tax shall be \$1,512 plus 7.20% of excess over \$28,000. The beginning dollar amount upon which to assess the 7.20% should be “\$28,800”.

Section 235-51(b), HRS, should be amended to reflect the correct dollar amounts.

Section 12. L 1990, c 184 authorized the counties to establish a general excise and use tax surcharge through, among other things, the enactment of sections 46-16.7, 235-16, 237-8.5, 238-2.5, and 248-2.5, HRS. The authorization for the surcharge was granted only if the counties adopted an ordinance before October 1, 1992, to take effect on January 1, 1993, and remain in effect for ten years through December 31, 2002. Since the counties were not successful in adopting an ordinance to establish the surcharge, sections 235-16, 237-8.5, 238-2.5, and 248-2.5, HRS, were subsequently repealed as functus by L 2003, c 135, and section 46-16.7, HRS, was repealed as functus by L 2006, c 38.

Section 235-110.7, HRS, as amended by L 1990, c 184, §§7, 8, and L 1992, c 235, §6, still contains language relating to this now-repealed surcharge authorization.

To conform, section 235-110.7, HRS, should be amended to delete, as functus, the language related to the authorization to establish the surcharge for the period from January 1, 1993, through December 31, 2002.

Section 13. L 2006, c 258, §2 enacted section 367D-8, HRS. The first sentence of section 367D-8, HRS, provides “The department of public safety and the office of youth services shall submit an annual report to the legislature no later than twenty days before the convening of each regular session...”. The last sentence provides “The first report shall be submitted no later than twenty days before the convening of the regular session of 2006.” Act 258 became effective on July 1, 2006. Therefore, the first report could not have been submitted “twenty days before the convening of the regular session of 2006.”

The last sentence of section 367D-8, HRS, relating to submission of the first report before the convening of the regular session of 2006 should be deleted as functus.

Section 14. L 2006, c 229, enacted chapter 485A, the Uniform Securities Act, to replace the Uniform Securities Act (Modified), chapter 485, effective July 1, 2008. Section 412:3-201(b)(6)(H) and (I), HRS, contains references to chapter 485 and should be amended to refer to chapter 485A, effective July 1, 2008.

Section 15. L 2006, c 229, enacted chapter 485A, the Uniform Securities Act, to replace the Uniform Securities Act (Modified), chapter 485, effective July 1, 2008. Section 412:3-202, HRS, contains references to chapter 485 and should be amended to refer to chapter 485A, effective July 1, 2008.

Section 16. L 2006, c 229, enacted chapter 485A, the Uniform Securities Act, to replace the Uniform Securities Act (Modified), chapter 485, effective July 1, 2008. Section 412:3-206, HRS, contains a reference to chapter 485 and should be amended to refer to chapter 485A, effective July 1, 2008.

Section 17. L 2006, c 229, enacted chapter 485A, the Uniform Securities Act, to replace the Uniform Securities Act (Modified), chapter 485, effective July 1, 2008. Section 417E-1, HRS, in the definition of “broker-dealer”, provides that “broker-dealer” means a “dealer” as defined in section 485-1.” The new chapter 485A, HRS, contains the definition of “broker-dealer” in section 485A-102, HRS. Section 417E-1, HRS, should be amended to conform the reference to the definition of “broker-dealer” in section 485A-102, HRS, effective July 1, 2008.

Section 18. L 2006, c 182, §1 enacted section 706-606.2, HRS. The sentence following paragraph (b) begins “With regard to any fire or monetary penalty that may be imposed...”. The revisor substituted the word “fine” for “fire” to correct this obvious error.

Section 706-606.2, HRS, should be amended by deleting the brackets around “fine” to ratify the revisor’s substitution. In addition, section 706-606.2, HRS, should be amended by adding subsection designations to conform to the style of the Hawaii Penal Code.

Section 19. L 2006, c 230, §29, amended section 707-711(1), HRS, by, among other things, amending paragraph (e) to provide that “For the purposes of this paragraph, “educational worker” means: any administrator, specialist, counselor, teacher, or employee of the department of education; a person who is a volunteer in a school program, activity, or function that is established, sanctioned, or approved by the department of education; or a person hired by the department of education on a contractual basis and engaged in carrying out an educational function.”

L 2006, c 298, §16, also amended section 707-711(1)(e), HRS, by adding “an employee of a charter school” to the definition of “educational worker”. In order to blend the amendments to the definition of “educational worker” made by Acts 230 and 298, the revisor added the word “or” between the phrases “employee of the department of education” and “an employee of a charter school”.

Section 707-711(1)(e), HRS, should be amended by deleting the brackets around the word “or” to ratify the revisor’s insertion of “or”.

Section 20. Section 27-42(g), HRS, states “This section is repealed on December 31, 2005”. Section 27-42, HRS, has not been amended to delete or extend this repeal and by operation of law, is repealed.

Section 27-42, HRS, should be formally repealed.

Section 21. L 1999, c 155, §1, enacted section 231-3.2, HRS, relating to the integrated tax information management systems special fund. Section 231-3.2(d), HRS, stated that the section “shall be repealed on July 1, 2004”. L 2004, c 115, §1, extended the repeal date to July 1, 2005.

L 1999, c 155, L 2004, c 115, and section 231-3.2, HRS, were not amended to extend the July 1, 2005 repeal date. Thus, section 231-3.2, HRS, is repealed by operation of law, and is functus. Section 231-3.2, HRS, should thus be formally repealed.

Section 22. L 1999, c 178, §9 enacted section 231-8.6, HRS, entitled the "Hawaii Internet Tax Freedom Act". Section 231-8.6(d), HRS, provides "[t]his section shall not apply to taxable years beginning after December 31, 2005".

L 1999, c 178 and section 231-8.6, HRS, were not amended to change the December 31, 2005 applicability date. Section 231-8.6, HRS, is functus and should be formally repealed.

Section 23. L 2000, c 195, §1 enacted section 235-110.4, HRS, relating to the hotel construction and remodeling tax credit. Section 235-110.4(e), HRS, provides "[t]he tax credit allowed under this section shall be available for taxable years beginning after December 31, 1998, and shall not be available for taxable years beginning after December 31, 2002". L 2001, Third Special Session, c 10, §2(3) extended the tax credit availability to December 31, 2005.

L 2000, c 195, L 2001, Third Special Session, c 10, and section 235-110.4, HRS, were not amended to extend the tax credit beyond December 31, 2005. Section 235-110.4, HRS, is functus and should be formally repealed.

Section 24. L 2001, Third Special Session, c 10, §1 enacted section 235-110.45, HRS, relating to the residential construction and remodeling tax credit. Section 235-110.45(e), HRS, provides "[t]he tax credit allowed under this section shall be available for taxable years beginning after December 31, 2000, and shall not be available for taxable years beginning after December 31, 2003". L 2002, c 174, §2 amended section 235-110.45, HRS, but did not amend section 235-110.45(e), HRS.

L 2001, Third Special Session, c 10, L 2002, c 174, and section 235-110.45, HRS, were not amended to extend the tax credit beyond December 31, 2003. Section 235-110.45, HRS, is functus and should be formally repealed.

Section 25. L 2001, c 293, §2 enacted section 235-110.92, HRS, relating to an income tax credit for the construction, repair, or reconstruction of drought mitigating water storage facilities. Section 235-110.92(e), HRS, provides "[t]he credit allowed under this section shall be available for taxable years beginning after December 31, 2000, and shall not be available for taxable years beginning after December 31, 2005".

L 2001, c 293, §2, and section 235-110.92, HRS, were not amended to extend the tax credit beyond December 31, 2005. Section 235-110.92, HRS, is functus and should be formally repealed.

Section 26. L 2001, c 221, §3 enacted section 237-29.65, HRS, which provided a general excise tax exemption for public Internet data centers. Section 237-29.65(c), HRS, provides "[t]his section shall apply to gross income or gross proceeds received after June 30, 2001, but not after December 31, 2005".

L 2001, c 221, §3, and section 237-29.65, HRS, were not amended to extend this general excise tax exemption beyond December 31, 2005. Section 237-29.65, HRS, is functus and should be formally repealed.

Section 27. L 2001, c 221, §3 enacted section 237-29.75, HRS, which provided a general excise tax exemption for the sale of a net operating loss by a qualified high technology business. The last sentence of section 237-29.75, HRS, provides "[t]his section shall be repealed on December 31, 2005".

L 2001, c 221, §3, and section 237-29.75, HRS, were not amended to extend this general excise tax exemption beyond December 31, 2005. Section 237-29.75, HRS, is functus and should be formally repealed.

Section 28. L 2001, c 221, §4 enacted section 239-13, HRS, which provided a public service company tax exemption for public Internet data centers. Section 239-13(c), HRS, provides "[t]his section shall apply to gross income received after June 30, 2001, but not after December 31, 2005".

L 2001, c 221, §4, and section 239-13, HRS, were not amended to extend the exemption beyond December 31, 2005. Section 239-13, HRS, is functus and should be formally repealed.

Section 29. The prefatory language of L 2006, c 184, §3 states that "Section 414-64, Hawaii Revised Statutes, is amended by amending subsections (b) and (d) to read as follows". However, subsections (b) and (c) of section 414-64, HRS, were the subsections amended.

The prefatory language of L 2006, c 184, §3 should be amended to state that "subsections (b) and (c)" of section 414-64, HRS, were amended.

Your Committee has amended section 32, the effective date section of this bill, to correctly reflect that sections 10, 14, 15, 16, and 17 of this bill should take effect on July 1, 2008, rather than January 1, 2008. The amendments to those sections replace the reference to chapter 485 with chapter 485A, the new Uniform Securities Act, which takes effect on July 1, 2008, pursuant to Act 229, Session Laws of Hawaii 2006.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1613, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1613, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 659 Judiciary and Labor on S.B. No. 1617

The purpose of this measure is to protect property owners by adding a new section to chapter 663, Hawaii Revised Statutes, Tort Actions, that limits the liability of an owner of an interest in real property toward a person who is injured or dies in the course of or as a result of committing, on the property owner's premises: murder in the first or second degree; attempted murder; any class A or class B felony enumerated in the Hawaii Penal Code (including attempt or conspiracy); any felony punishable by life imprisonment; any other felony in which the defendant inflicts great bodily injury on any person (other than an accomplice) or in which the defendant uses a firearm; or any felony in which the defendant personally uses a dangerous or deadly weapon.

Your Committee received testimony in support of this measure from Lessons in Firearms Education and numerous concerned individuals. The Attorney General and the Hawaii Rifle Association testified in support and suggested amendments.

Your Committee finds that further consideration is appropriate regarding the Attorney General's suggestions to expand "owner" to include tenants and other household members, and to delete the provision that confers the limitation on liability only defendant is convicted of the felony (or included felony or misdemeanor).

To permit further discussion, your Committee has amended this measure by changing its effective date to July 1, 2059.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1617, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1617, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 660 Judiciary and Labor on S.B. No. 58

The purpose of this measure is to exempt the executor and administrator of a deceased dentist's estate or the guardian or other authorized representative of an incapacitated dentist from the requirements of chapter 448, Dentistry, under certain circumstances.

Your Committee received testimony in support of this measure from the Board of Dental Examiners, the Hawaii Dental Association, and numerous concerned individuals.

Your Committee finds it prudent to remove regulatory requirements that unduly impede the orderly transition of a dental practice in the event that a dentist dies or becomes incapacitated.

Your Committee has amended this measure by:

- (1) Deleting the savings clause in section 2 as unnecessary because this bill does not impose new or additional penalties;
- (2) Changing the effective date to July 1, 2050 to promote further discussion; and
- (3) Making technical nonsubstantive revisions for clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 58, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 58, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 661 Judiciary and Labor on S.B. No. 1016

The purpose of this measure is to enact the Uniform Athlete Agents Act, which provides for regulation of sports agents through registration and required submission of background data, imposes contract terms on representation agreements to the benefit of student-athletes, and provides educational institutions a right to notice and a civil cause of action for damages if specific duties are breached.

Your Committee received testimony in support of this measure from the University of Hawai'i and the Hawaii Commission to Promote Uniform Legislation. The Department of Commerce and Consumer Affairs opposed this measure. The Department of Education supported the intent of this measure, but deferred to the Department of Commerce and Consumer Affairs.

Your Committee finds that in Hawaii, where sporting events provide such enjoyment, regulation of sports agents will benefit the entire community. Professional sports representation is a lucrative business. Misguided recruitment decisions may result in eligibility problems, and unscrupulous agents can harm educational institutions and student-athletes alike. This uniform legislation will enable various jurisdictions to obtain dependable information about agents' professional conduct in other states.

Your Committee has amended this measure by:

- (1) Modifying the phrase "the student-athlete shall inform the athletic director of the educational institution at which the student-athlete is enrolled that the student-athlete has entered into an agency contract" in subsection (b) of § -10, Notice to educational institution, by adding "or intends to enroll" after "is enrolled" for consistency with § -10(a); and
- (2) Adding to § -16, Civil penalties, a new sentence on deposit of penalties, for consistency with language in § -8, Fees and expenses, regarding deposits into the compliance resolution fund.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1016, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1016, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 662 Ways and Means on S.B. No. 823

The purpose of this measure is to expand the use of special purpose revenue bonds to include the infrastructure costs of low- and moderate-income housing projects.

Your Committee received comments in support of this measure from the County of Kauai Department of Water and the Hawaii Association of Realtors.

Your Committee finds that the infrastructure costs in a housing project can substantially increase the cost of individual units in a housing project.

This measure provides the means to allow the infrastructure costs in a low- and moderate-income housing project to be financed through special purpose revenue bonds to reduce the cost of such housing projects to ultimately address the housing shortage problem in the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 823, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Kim, Menor, Hemmings).

SCRep. 663 Ways and Means on S.B. No. 1253

The purpose of this measure is to provide quality health care in the State's community hospital system by enabling the Hawaii Health Systems Corporation to operate efficiently and autonomously.

Specifically, this measure exempts the Hawaii Health Systems Corporation from the State's Procurement Code (chapter 103D, Hawaii Revised Statutes). However, the measure encourages the Corporation to use the code where possible, provided that if the Corporation does use a provision of the code, the Corporation does not waive its exemption from any other provision of the code.

Your Committee received several comments in support of this measure from the Hawaii Health Systems Corporation. The State Procurement Office of the Department of Accounting and General Services submitted comments.

Your Committee believes that exemption from the Procurement Code will enable the Hawaii Health Systems Corporation to operate more efficiently and autonomously as envisioned by the Legislature.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1253 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 664 Ways and Means on S.B. No. 1712

The purpose of this measure is to establish a new regulatory program to oversee mixed martial arts contests.

Specifically, this measure:

- (1) Requires all persons involved in mixed martial arts contests, including contestants, promoters, managers, seconds, physicians, referees, and judges, to be licensed by the Director of Commerce and Consumer Affairs;
- (2) Provides for the revocation or suspension of any licenses issued;
- (3) Establishes limits on the number of rounds and the duration of rounds in each mixed martial arts contest;
- (5) Requires each mixed martial arts contest to have a permit to be held;
- (6) Establishes a fee for each mixed martial arts contest;
- (7) Requires the presence of at least two licensed physicians to be in attendance at each mixed martial arts contest;
- (8) Provides for the imposition of penalties for violation;
- (9) Repeals chapter 440D, Hawaii Revised Statutes, relating to no rules combat and similar contests; and
- (10) Makes an appropriation for the implementation and operation of the new mixed martial arts regulatory program.

Your Committee received comments from the Auditor in strong support of this measure. The Department of Commerce and Consumer Affairs, Professional and Vocational Licensing Division, offered its comments.

Your Committee notes that the number of contestants, spectators, and unregulated contests involving mixed martial arts has been steadily increasing in the State. This heavy contact sport has the potential to result in extensive harm to its contestants and needs to be regulated for the protection of the contestants, spectators, and the general public.

Your Committee has amended this measure by:

- (1) Specifying that the appropriation in this measure is for the implementation of the regulatory program and for the establishment of an unspecified number of staff positions; and
- (2) Changing the effective date of this measure to provide that sections 1 and 2 of this measure shall become effective on July 1, 2009; provided that section -6 of section 1 shall take effect upon approval and section 3 shall take effect on July 1, 2007.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1712, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1712, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Ayes with Reservations, 1 (Whalen). Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 665 Ways and Means on S.B. No. 1152

The purpose of this measure is to enhance the achievement of students through a smaller school environment.

More specifically, the measure establishes the framework and criteria for the Department of Education to implement smaller learning communities, including the creation of smaller schools or schools-within-schools.

The Department of Education and the Good Beginnings Alliance submitted comments on this measure. The Land Use Research Foundation of Hawaii submitted comments in opposition.

Your Committee finds that students in smaller schools are more successful academically than those in larger schools, have higher graduation rates, and are more likely to take advanced-level courses and to participate in extracurricular activities.

Your Committee further finds that although Hawaii has explored smaller learning communities in the past, the State has not been able to implement a system-wide smaller learning communities initiative.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion; and
- (2) Making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1152, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1152, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 666 Ways and Means on S.B. No. 1145

The purpose of this measure is to appropriate a grant to the Hawaii 3R's school repair and maintenance program. Additionally, the measure appropriates funds for a Hawaii 3R's program coordinator position within the Department of Education.

Comments in support of this measure were submitted by the Department of Education and the University of Hawaii.

Your Committee finds that Hawaii 3R's has saved the State money by completing repair and maintenance projects at public schools. The program generates savings for the State by leveraging state grant funds with federal funds, private donations, and volunteer programs from various community organizations and businesses.

Accordingly, your Committee recognizes that it is necessary to continue to provide funding for Hawaii 3R's to fund grants that cannot be funded through Hawaii 3R's other funding sources. Additionally, your Committee finds that funding the program coordinator position to coordinate public and private efforts to repair and maintain public schools will contribute to the continued success of the Hawaii 3R's program.

Your Committee has amended this measure by changing the amount of the appropriations to an unspecified sum to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1145, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1145, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 667 Ways and Means on S.B. No. 79

The purpose of this measure is to implement the recommendations relating to education made by the Interagency Working Group established pursuant to the Reinventing Education Act of 2004.

Specifically, this measure repeals the transfer of certain fiscal functions from the Department of Budget and Finance to the Department of Education.

Your Committee received comments in support of this measure from the Department of Budget and Finance and the Department of Education.

Your Committee finds that since the transfer of functions was amended in Act 225, Session Laws of Hawaii 2006, from July 1, 2006 to July 1, 2007, the Department of Budget and Finance has not transferred any materials or records to the Department of Education.

Accordingly, your Committee has amended this measure to remove all references in section 1 of the measure to the transfer of certain fiscal functions from the Department of Education back to the Department of Budget and Finance.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 79, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 79, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 668 Ways and Means on S.B. No. 1922

The purpose of this measure is to support Hawaii's creative media by:

- (1) Creating financial incentives for and appropriating funds to the Academy for Creative Media at the University of Hawaii to develop plans for a permanent facility in Hawaii;
- (2) Appropriating funds for a digital media incubator facility; and
- (3) Establishing and appropriating funds for the Music and Enterprise Learning Experience (MELE) program at the University of Hawaii-Honolulu Community College to develop the technical business skills required by Hawaii's music artists and music industry.

The Department of Business, Economic Development, and Tourism; National Defense Center of Excellence for Research in Ocean Sciences; Department of Taxation; University of Hawai'i at Manoa; Enterprise Honolulu; Aloha Agency; COJODA Productions LLC; Ho'ike Technology; Ho'akea Communications; Pacific Islanders in Communications; SEE/RESCUE Corporation; Searider Productions; five faculty members and thirty-three students of the Academy for Creative Media at the University of Hawai'i at Manoa; and seventeen individuals provided written testimony in support of this measure.

Your Committee finds that Hawaii's dynamic creative media sector is a significant contributor to the State's economy, in particular for the positive impact it is having on Hawaii's workforce and the creative options it offers for students.

Your Committee has amended this measure by:

- (1) Designating the University of Hawaii as the expending agency in section 4, relating to the Academy for Creative Media; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1922, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1922, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 669 Ways and Means on S.B. No. 1504

The purpose of this measure is to authorize the Department of Taxation, by rule adopted pursuant to chapter 91, Hawaii Revised Statutes, to require the electronic, telephonic, or optical filing of tax returns under certain conditions.

The Department of Taxation submitted written comments in support of this measure.

Your Committee finds that authorizing the Department of Taxation to require electronic, telephonic, or optical filing of tax returns under certain conditions should decrease the time it takes to process those tax returns and any applicable tax refunds.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1504, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1504, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 670 Ways and Means on S.B. No. 1066

The purpose of this measure is to require the Department of Agriculture to charge a fee for inspection, quarantine, and eradication services for invasive species.

The measure also establishes a Pest Inspection, Quarantine, and Eradication Fund to act as a receptacle for various sources of governmental funding with respect to inspection and quarantine treatment services.

Your Committee received comments in support from the Nature Conservancy, the Sierra Club, and two concerned citizens on this measure. The Department of Budget and Finance, Hawaii Automobile Dealers Association, Alexander and Baldwin Inc., Horizon Lines, the Hawaii Transportation Association, and the Hawaii Food Industry Association submitted comments opposing the measure.

The Chairperson of the Board of Agriculture, the Chairperson of the Board of Land and Natural Resources, and the Airlines Committee of Hawaii submitted comments.

Your Committee finds that the fight against invasive species is only good as the system that inspects and quarantines these pests upon their infiltration into the State. Currently, a major obstacle in the fight against invasive species is the cost of various governmental programs including programs that provide inspection and quarantine treatment services.

This measure addresses this obstacle by providing the means to raise funding levels by charging fees for inspection and quarantine treatment services at strategic points across the State. Also, the fee is assessed only on those persons who are most likely to be transporting invasive species into Hawaii's borders.

Your Committee has amended the measure by:

- (1) Changing the term "eradication" to "quarantine treatment" to more accurately describe the services performed; and
- (2) Making technical changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1066, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1066, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, 4 (English, Kim, Hemmings, Whalen).

SCRep. 671 Ways and Means on S.B. No. 651

The purpose of this measure is to require recycling receptacles to be housed in all state offices and buildings.

No comments were submitted.

Your Committee finds that recycling receptacles should be made available in all state office buildings for aluminum cans, glass bottles, plastic containers, white and colored paper, and newspaper. Further, the purchase and maintenance of the recycling receptacles should be included along with recycling pick-up in the recycling service contracts with the recycling companies.

Your Committee has amended this measure by:

- (1) Changing the effective date of this measure to July, 1 2015, to facilitate further discussion; and
- (2) Making technical non-substantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 651, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 651, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, 4 (English, Kim, Hemmings, Whalen).

SCRep. 672 Ways and Means on S.B. No. 1991

The purpose of this measure is to support the development of moderate income housing for our seniors in communities that also provide a continuum of health care services.

Specifically, this measure authorizes the issuance of special purpose revenue bonds not to exceed \$120,000,000 to assist the Craigsides Retirement Residence, a Hawaii non-for-profit corporation, in acquiring the land and the planning, design, and construction of the facility.

Comments in support of the measure were submitted by the President and Chief Executive Officer of Arcadia and Craigsides Retirement Residences and Hawaii Long-Term Care Association.

Your Committee finds that development of a retirement community that provides continuing health care for residents is a much needed option for seniors in Hawaii. Authorizing the issuance of special purpose revenue bonds to assist in the development of Craigsides Retirement Residence will help keep the project affordable for seniors who have moderate incomes.

Your Committee has amended this measure by making a technical nonsubstantive change for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1991, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1991, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 673 Ways and Means on S.B. No. 967

The purpose of this measure is to provide tax deductions to living organ and tissue donors to minimize the financial burdens associated with the donation.

Written comments in support of this measure was submitted by the Filipino Coalition for Solidarity; Hawai'i Coalition on Donation; National Federation of Filipino American Associations; National Kidney Foundation; Nursing, Advocates and Mentors, Inc.; Oahu Filipino Community Council; two members of the Organ Donation Center of Hawaii; Philippine Nurses Association-Hawaii; United Filipino Council of Hawaii; and two individuals. Written comments were submitted by the Department of Taxation, Asian American Network for Cancer Awareness Research and Training, and the Tax Foundation of Hawaii.

The measure enables organ donors to deduct up to \$10,000 in travel and lodging expenses and lost income or wages from their adjusted gross income.

Your Committee amended this measure to postpone the effective date to ensure further discussion. Technical, nonsubstantive changes have also been made for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 967, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 967, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Menor, Hemmings).

SCRep. 674 Ways and Means on S.B. No. 1210

The purpose of this measure is to benefit Hawaii's ever-growing senior population by helping to increase the number of continuing care senior retirement housing projects in the State.

Specifically, this measure increases the amount of special purpose revenue bonds authorized for issuance for the Honolulu Neighborhood Housing Services, Inc., from \$80,000,000, originally authorized in 1999, to \$160,000,000, and to extend the lapsing date for the issuance of the bonds to June 30, 2011.

Your Committee received comments in support of this measure from GMR LLC.

Your Committee has made technical nonsubstantive amendments for purposes of clarity and to conform to drafting conventions.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1210, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1210, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 675 Ways and Means on S.B. No. 732

The purpose of this measure is to hire lifeguards for the islands of Kauai and Maui in areas under the jurisdiction of the Department of Land and Natural Resources, subject to county matching funds.

Your Committee received comments in support of this measure from the Department of Land and Natural Resources and the County of Kauai Fire Department.

Your Committee finds that the islands of Kauai and Maui do not have lifeguards at state beach parks, Makena Beach and Ke'e Beach, respectively. This measure would ensure the safety of swimmers at these beaches for both visitors and residents alike.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 732, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 732, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 676 Ways and Means on S.B. No. 1833

The purpose of this measure is to strengthen the rights of employees under the state family leave law.

More specifically, the bill clarifies that only an employee has the option to substitute accrued paid leave, including vacation, personal, or family leave for any part of the four-week period allowed for family leave per year. The current law allows either the employer or employee to decide what type of leave to apply while the employee is out on family leave.

Your Committee received comments in support of the measure from the Hawaii Family Forum, Hawaii Government Employees Association, Hawaii State AFL-CIO, and the International Brotherhood of Electrical Workers Local Union 1260. The Chamber of Commerce of Hawaii, National Federation of Independent Businesses, and the Retail Merchants of Hawaii submitted comments in opposition. The Department of Labor and Industrial Relations submitted comments.

Your Committee finds that a growing number of employees need to take family leave to care for elderly family members and loved ones, which often necessitates substituting other types of leave, including vacation leave, when the amount of allowed family leave is depleted. Your Committee finds that employees should not be forced to exhaust their accrued vacation leave to care for a seriously ill family member. The manner of taking family leave is a decision for the employee.

Your Committee has amended this bill by:

- (1) Changing the effective date of July 1, 2050 to facilitate further discussion on this measure; and
- (2) Make technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1833, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1833, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 8. Ayes with Reservations, 1 (Whalen). Noes, none. Excused, 3 (Kim, Menor, Hemmings).

SCRep. 677 Ways and Means on S.B. No. 625

The purpose of this measure is to require the Judiciary to implement and administer a certification program and to appoint and use certified court interpreters for legal proceedings.

Your Committee received comments in support of the measure from: the Hawaii State Judiciary, Office on Equality and Access to the Courts, the Disability and Communication Access Board, the National Association of Judiciary Interpreters & Translators, the Hawaii Registry of Interpreters for the Deaf, the Centro Hispano de Hawaii, five faculty members of the Ilokano and Philippine Drama and Film Program, University of Hawaii, the Hawaii Interpreter Action Network, the Hawaii Newspaper Guild, and fourteen individuals. The Hawaii Civil Rights Commission submitted comments.

Your Committee finds that Hawaii is one of only three states that has not yet implemented a certified court interpreter program for the deaf, the hard-of-hearing, and the limited-English proficient. Currently, anyone can register as a court interpreter and there are no standards or minimum requirements established by statute or rule. Hawaii has a diverse population and many residents are not native English speakers. Consequently, there is great need for competent interpretation services, particularly where legal proceedings are concerned.

Your Committee finds that this measure will ensure that persons who are deaf, hard-of-hearing, or limited-English proficient will understand and be able to express themselves during court proceedings.

Your Committee has amended this measure by:

- (1) Changing the definition of "certified interpreter" by including American Sign Language interpreters who are otherwise certified by state or national organizations; and
- (2) Making technical nonsubstantive changes to conform to proper ramsyering conventions and for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 625, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 625, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Menor, Hemmings).

SCRep. 678 Ways and Means on S.B. No. 1950

The purpose of this measure is to ensure that the state and county governments are able to maintain a qualified, stable, and experienced workforce in the face of unprecedented low unemployment and an aging workforce.

Specifically, this measure authorizes the rehiring of state or county employees who have been retired for at least five consecutive calendar years without affecting the receipt of their retirement benefits and without accruing additional credit or benefits.

Your Committee received testimony in support of this measure from the Judiciary, the HGEA/AFSCME, State of Hawaii Organization of Police Officers, Honolulu Police Department, the Mayor and the Director of Human Resources of the County of Hawaii, and the Chairperson of the Maui County Council.

Your Committee finds that it is crucial for the state and county governments to continue to operate with a qualified and stable workforce. This measure will help to achieve that while contributing to further funding the Employees' Retirement System's unfunded liability.

Upon further consideration, your Committee has amended this measure by:

- (1) Changing the period that a retired employee must wait to return to government employment from at least five consecutive calendar years to an unspecified number of years;
- (2) Changing the effective date to July 1, 2040, for the purpose of facilitating further discussion; and
- (3) Making technical nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1950, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1950, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Kim, Menor, Hemmings).

SCRep. 679 Ways and Means on S.B. No. 1034

The purpose of this measure is to provide a specific exemption from the general excise and use taxes for fuel purchased from the foreign trade zone for consumption or use in air transportation.

The Department of Business, Economic Development, and Tourism; Hawaii Airlines; Aloha Airlines; the Transport Workers Union; the International Association of Machinists and Aerospace Workers; the Aircraft Service International Group; the Aloha Airlines Pilots' Union; the Hawaii Chapter of the March of Dimes; and the Chamber of Commerce of Hawaii submitted written comments in support of this measure. The Department of Taxation and the Tax Foundation of Hawaii submitted written comments.

Your Committee finds that purchase of fuel from Hawaii's Foreign Trade Zone should receive similar tax exemptions as purchases of all other products in the foreign trade zone. This measure will help in lowering fuel costs for Hawaii's airline industry.

Your Committee has amended this measure by changing the effective date from July 1, 2007, to July 1, 2050, to further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1034, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1034, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Menor, Hemmings).

SCRep. 680 Ways and Means on S.B. No. 679

The purpose of this measure is to establish procedures for the Governor to declare a tourism emergency and to establish a Tourism Emergency Trust Fund.

Specifically, this measure provides that, in the event that a statewide tourism emergency is declared, the Board of Directors of the Hawaii Tourism Authority would have the authority, to implement tourism emergency measures. In addition, a Tourism Emergency Trust Fund is created to be used exclusively to provide for the development and implementation of emergency measures to respond to and mitigate any adverse effects on the tourism industry that may result from a substantial interruption of Hawaii's commerce.

The Department of Business, Economic Development, and Tourism, Hawaii Tourism Authority, and the Hawaii Chamber of Commerce submitted comments in support of this measure.

Your Committee finds that a world conflict, terrorism, natural disaster, or disease outbreak can pose a substantial economic threat to Hawaii's tourism industry. Because tourism is the main economic driver in the State's economy, the effects of a tourism disruption would ripple across all of the main industries in the State. This measure would create a method to help mitigate the economic effects of a tourism emergency.

Your Committee further finds that the tourism emergency plan should also include providing emergency assistance to tourists who may be in Hawaii at the time of the emergency.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the measures implemented in response to a tourism emergency include providing emergency assistance to tourists in Hawaii during the emergency period;
- (2) Changing the date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 679, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 679, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 681 (Joint) Economic Development and Taxation and Ways and Means on S.B. No. 1221

The purpose of this measure is to establish the important agricultural lands (IAL) agricultural business tax credit.

Specifically, this measure establishes an agricultural business investment tax credit that:

- (1) Creates a nonrefundable tax credit that is equal to one hundred per cent of the aggregate investments made in a qualified agricultural business, including agricultural business investments made by the agricultural business itself;
- (2) Staggers the payment of the tax credit over a five-year period;
- (3) Provides a partial recapture if the investment is withdrawn or sold during that five-year period or if the business no longer qualifies as a qualified agricultural business; and

- (4) Caps the total credit to be generated in a particular tax year at \$2,500,000.

The Hawaii Farm Bureau; Maui County Farm Bureau; Hawaii Agricultural Research Center; Hawaii Crop Improvement Association; Alexander & Baldwin, Inc.; and Maui Land & Pineapple Company, Inc., submitted written comments in support of this measure. The Agribusiness Development Corporation, Department of Taxation, and Tax Foundation of Hawaii submitted written comments.

Your Committees received a fiscal impact statement from the Department of Taxation (Department) that the revenue loss to the State would be approximately \$27,800,000 annually.

In its methodology, the Department estimated qualifying inflation-adjusted farm expense totals at about \$70,600,000. It was assumed that one-half of farm land in Hawaii would qualify as IAL. In 2006, allocations from the Irrigation Repair and Maintenance Special Fund were approximately \$15,000,000; it is assumed that fifty per cent of this amount, or \$7,500,000, would be allocated to IAL related projects. Therefore, a one hundred per cent tax credit would result in a revenue loss of approximately \$27,800,000 ($\$70,600,000 \times 50\%$)-\$7,500,000).

Your Committees have considered the concerns of the Department of Taxation and continue to address these issues. Your Committees find that further legislative discussion is merited, given the important incentives that this measure would provide for Hawaii's agricultural economy.

Your Committees have amended this measure by:

- (1) Clarifying the percentage of qualified agricultural costs allowed in the year the costs were incurred and for four years after, with unspecified maximum amounts for each of the five years;
- (2) Changing the amount of the credit from one hundred per cent to an unspecified percentage;
- (3) Inserting unspecified effective dates; and
- (4) Making technical amendments for the purpose of clarity.

As affirmed by the records of votes of the members of your Committees on Economic Development and Taxation and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1221, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1221, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ayes, 10. Noes, none. Excused, 4 (Ige, Menor, Hemmings, Whalen).

SCRep. 682 Ways and Means on S.B. No. 835

The purpose of this measure is to appropriate funds to the University of Hawaii to enable the College of Tropical Agriculture and Human Resources to develop a long range plan for a food innovation and security center.

Your Committee received comments in support of the measure from the Hawaii Crop Improvement Association and Big Island Candies. The Chairperson of the Board of Agriculture and the College of Tropical Agriculture and Human Resources submitted comments.

Your Committee finds that establishing a food innovation and security center will assist in expanding diversified agriculture in this State. Specifically, such a center will help Hawaii's agricultural and value-added businesses produce commercially-viable products whose quality and value will offset the State's high costs of land, labor, water, and transportation.

Your Committee has amended this measure by changing the appropriation to an unspecified amount in order to promote continued discussion of the matter. Your Committee also made technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 835, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 835, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 683 Ways and Means on S.B. No. 1234

The purpose of this measure is to help remedy the poor health statistics of native Hawaiians in the State.

Specifically, this measure establishes a state designation of native Hawaiian health centers that follows the mandates provided for the federal Native Hawaiian Health Care Improvement Act. This measure also recognizes that, until such time as there is a sovereign Hawaiian nation recognized by the United States and the State of Hawaii, the Department of Health shall coordinate with Papa Ola Lokahi to oversee the implementation of state health programs resulting from the designation of native Hawaiian health centers.

Your Committee received comments in support of this measure from McKinley High School, Waianae Comprehensive Health Center, Native Hawaiian Traditional Healing, Archinoetics, SEE/RESCUE, Bendet, Fidell, Sakai & Lee, and one individual. Papa Ola Lokahi offered comments.

Your Committee believes that the establishment of a state designation of native Hawaiian health centers is necessary and will benefit the health of native Hawaiians in the State.

Upon further consideration, your Committee has amended this measure by:

- (1) Clarifying that there is no blood-quantum requirement for membership on the governing boards of any native Hawaiian health center in section 2 of the measure;
- (2) Deleting subsection (b) of the new section 321- , Hawaii Revised Statutes, as being redundant because federal law or regulation would preempt state rules; and
- (3) Inserting language in section 3 to acknowledge that health care is provided by agencies other than the Department of Health.

Your Committee also made technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1234, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1234, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 684 Commerce, Consumer Protection and Affordable Housing on S.B. No. 1421

The purpose of this measure is to create consistency between the osteopathy licensing law, in chapter 460, Hawaii Revised Statutes (HRS), and the licensing law for physicians of medicine and surgery, in chapter 453, HRS.

The Board of Medical Examiners submitted written comments in support of this measure.

Your Committee finds that the regulatory laws that govern doctors of osteopathy should parallel those of medical doctors, as the two professions have a similar scope of practice. Your Committee notes the testimony of the Board of Medical Examiners that it is of the opinion that the subject matter from chapter 453, HRS, as covered by this measure, should equally apply to osteopaths.

Your Committee has amended this measure to make technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1421, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1421, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Sakamoto).

SCRep. 685 Commerce, Consumer Protection and Affordable Housing on S.B. No. 55

The purpose of this measure is to repeal the provision in section 448-9.4, Hawaii Revised Statutes, allowing the passing of a regional examination, in lieu of the American Board of Dental Examiners (ADEX) examination, to meet the Board of Dental Examiner's examination requirements for licensing in the State.

Testimony in support of this measure was submitted by three individuals. The Board of Dental Examiners (Board) submitted testimony in opposition to this measure.

Your Committee finds that during the 2005 Regular Session, the Legislature made various amendments to the dental licensing laws and some confusion has arisen as to the examination requirements for dental licensing. This law will clarify that the ADEX examination, which, based upon the testimony of the Board, was approved in December 2005, is the examination that dentists seeking licensure must pass in order to meet the dental licensing requirements in this State.

Your Committee has amended this measure to change the effective date to July 1, 2010, in order to allow those who are already in the process of applying for licensure based upon their passing of a regional examination to complete that process under the current law.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 55, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 55, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 686 Commerce, Consumer Protection and Affordable Housing on S.B. No. 163

The purpose of this measure is to provide greater protection to consumers who engage the services of contractors.

Specifically, this measure:

- (1) Establishes a complaint database on contractors;
- (2) Authorizes the Contractors Licensing Board (Board) to award attorneys fees in proceedings for violations of chapter 444, Hawaii Revised Statutes (HRS);
- (3) Specifies that the responsible managing employee (RME) of a contracting entity is not exempt from the requirements of chapter 444, HRS;
- (4) Specifies that the RME of a contracting entity must meet certain requirements prior to being issued a license; and
- (5) Requires license revocation for a contractor's failure to properly supervise employees and subcontractors for gross negligence.

Testimony in support of this measure was submitted by an individual. The Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs submitted comments on this measure. The Contractors License Board opposed some sections in this measure. Testimony in opposition to this measure was received from the Subcontractors Association of Hawaii.

Your Committee finds that consumers need to be protected when entrusting their homes and property to contractors for construction or repairs. However, based upon the testimony submitted, the creation of a new database for contractors may be unnecessary at this time as the Department of Commerce and Consumer Affairs already has a complaints database in place for use by consumers.

Your Committee has amended this measure to address some of the concerns of the contractors by:

- (1) Removing the new language regarding the contractor database;
- (2) Removing the requirement that the Board shall revoke a license for certain violations of chapter 444, HRS, including the language requiring license revocation for a contractor's failure to properly supervise employees and subcontractors for gross negligence;
- (3) Deleting the increase in the amount that may be recovered per contract;
- (4) Changing the effective date to promote further discussion; and

- (5) Making technical, nonsubstantive changes for the purposes of clarity and style.

The intent of this measure, as amended, is to authorize the Board to implement reasonable attorneys fees for violations of chapter 444, HRS, and to specify that RMEs are subject to the requirements of chapter 444, HRS.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 163, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 163, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 687 (Majority) Commerce, Consumer Protection and Affordable Housing on S.B. No. 1003

The purpose of this measure is to modify the manner in which the membership of the Contractors Licensing Board (Board) is appointed by requiring that at least three members be appointed from a list of nominees submitted by the Speaker of the House of Representatives and at least three members be appointed from a list of nominees submitted by the President of the Senate.

Your Committee received testimony in support of this measure from the Hawaii Building and Construction Trades Council, the International Union of Elevator Constructors, the Sheet Metal Workers' International Association, the Plumbers and Pipefitters Local 675, and the Building Trade Council. The Contractors Licensing Board submitted testimony in opposition to this measure.

Your Committee finds that under existing law, all members of the Board are appointed by the Governor. Your Committee also finds that the construction industry in Hawaii has grown to become a more prominent industry in the State and this measure will lend diversity to the composition of the Board by allowing more than one governmental entity to be involved in the nomination process.

Your Committee has amended this measure by changing the effective date to promote further discussion, and by making technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1003, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1003, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Slom). Excused, 2 (Ihara, Sakamoto).

SCRep. 688 Commerce, Consumer Protection and Affordable Housing on S.B. No. 1697

The purpose of this measure is to amend the definition of "contractor" under the Contractor Repair Act.

Testimony in support of this measure was submitted by the Real Estate Commission, the Building Industry Association of Hawaii, and the Hawaii Association of Realtors. Comments were received from the Subcontractors Association of Hawaii.

Your Committee finds that this measure clarifies the definition of "contractor" to delete the reference to a person who sells a dwelling. Your Committee notes that the testimony from the Subcontractors Association of Hawaii raised the concern as to whether consumers who buy a home from an owner-builder would have protection under the Contractor Repair Act, as they are not specifically referenced in the definition of a "contractor".

Your Committee is in agreement that the original intent of the Contractor Repair Act was not to include the "selling a dwelling" in the definition of "contractor" but to include an owner-builder, as provided in section 444-2(7), Hawaii Revised Statutes, who shall not offer to sell or lease the subject building or structure within one year after construction is complete.

Your Committee, upon the recommendation of the Hawaii Association of Realtors, has amended this measure by adding a purpose section.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1697, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1697, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 689 (Majority) Commerce, Consumer Protection and Affordable Housing on S.B. No. 1010

The purpose of this measure is to remove private or governmental accounting experience as meeting the required professional experience for a license in public accountancy and to remove the requirement that a candidate have a baccalaureate degree in accounting prior to taking the certified public accountant (CPA) examination.

Your Committee received testimony in support of this measure from the Hawaii Association of Public Accountants and forty-seven individuals. Testimony in opposition to this measure was received by the Board of Public Accountancy of the Department of Commerce and Consumer Affairs, the State Auditor, the Department of Taxation, the Hawaii Society of Certified Public Accountants, and fifteen individuals. Comments were received from Horwath Kam & Company.

Your Committee finds that the public is better served when candidates for a CPA license are required to obtain their work experience in public accounting rather than through private or government experience. In addition, your Committee finds that allowing all candidates with a baccalaureate degree other than in accounting to take the CPA exam does not change the CPA licensing requirements, but simply allows those candidates to take the exam at an earlier date. This would open the accounting profession to a larger pool of potential CPAs. This measure will also benefit potential CPA candidates who attended a school that did not offer a baccalaureate degree in accounting, by allowing them to take the exam earlier and encouraging them to stay in the accounting field.

Your Committee has amended this measure by changing the effective date to allow section 1, relating to the professional experience requirements, to take effect on July 1, 2010, rather than upon approval. Your Committee finds that this amendment will allow those persons who are already in the processes of meeting the CPA experience requirements in private or government accounting or auditing work to complete these requirements and an opportunity to obtain their CPA license under the current law.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1010, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1010, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Slom). Excused, 2 (Ihara, Sakamoto).

SCRep. 690 (Majority) Commerce, Consumer Protection and Affordable Housing on S.B. No. 1248

The purpose of this measure is to require applicants for various types of electrical licensing to provide evidence of successful completion of an accredited academic or apprenticeship program covering the principles of electrical theory and the requirements of the National Electric Code, in addition to the current requirements under chapter 448E, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the International Brotherhood of Electrical Workers; the Hawaii Electricians Training Fund; K&H Electric, Inc.; MGM Electrical Services; the Electrical Contractor Association of Hawaii; Brilliant Ideas, Inc.; Ron's Electric, Inc.; the Hawaii Chapter of the American Society of Safety Engineers; and three individuals. Testimony in opposition to this measure was received from the Board of Electricians and Plumbers, the Plumbing and Mechanical Contractors Association of Hawaii, the Plumbers & Fitters United Association, and the Plumbers and Pipefitters Local 675.

Your Committee finds that providing the requirement for academic and apprenticeship training for applicants for various types of electrical licensing will ensure that those persons have the ability to satisfy the level of proficiency required to complete electrical work in a safe manner.

Your Committee has amended this measure by:

- (1) Clarifying that the new requirements for licensing are to complete an accredited academic program and a five-year apprentice program or have various levels of full-time experience, depending on the type of electrical licensing being sought;
- (2) Changing the effective date to promote further discussion; and
- (3) Providing that the new qualifying requirements for a supervising electrician, a supervising specialty electrician, and a supervising industrial electrician, shall not take effect until four years after the effective date of the measure.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1248, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1248, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Slom). Excused, 2 (Ihara, Sakamoto).

SCRep. 691 (Majority) Commerce, Consumer Protection and Affordable Housing on S.B. No. 1116

The purpose of this measure is to regulate the imposition of rental application fees by landlords.

Specifically, this measure requires landlords to inform prospective tenants of their right to dispute inaccurate tenant screening report information.

Your Committee received testimony in support of this measure from Legal Aid Society of Hawaii and one individual. The Hawaii Association of Realtors submitted testimony in opposition to this measure.

Your Committee finds that landlords frequently charge prospective tenants for the opportunity to apply for rental housing units. These fees are frequently not returned to unsuccessful applicants, which is a serious detriment to many low-income renters. Also, many tenants are unaware of their rights under the federal fair reporting laws that allow applicants to dispute inaccurate information in their credit reports. The intent of this measure is to require landlords to inform tenants of their right to dispute inaccurate credit information that may negatively impact their ability to be offered a rental unit.

Your Committee has amended this measure, upon the recommendation of the Legal Aid Society of Hawaii, by:

- (1) Specifying that the requirements of this measure shall not apply to landlords who rent three or less units;
- (2) Specifying that when the application fee is not refunded to the applicant, the landlord must provide a written explanation in sufficient detail explaining the reasons an applicant did not receive the unit; and
- (3) Making technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1116, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1116, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Slom). Excused, 1 (Ihara).

SCRep. 692 Commerce, Consumer Protection and Affordable Housing on S.B. No. 60

The purpose of this measure is to amend section 514E-5.5, Hawaii Revised Statutes (HRS), to require that disclosures clearly state that the operation of foreign time share plans is also exempt under chapter 514E, HRS. This measure also provides that failure to abide by the disclosure requirements shall result in the loss of the exemption.

Your Committee received testimony in support of this measure from the Time Share Administrator of the Department of Commerce and Consumer Affairs and Marriott International, Inc.

Your Committee finds that Act 278, Session Laws of Hawaii 2006 (Act 278), amended chapter 514E, HRS, by adding a new section that exempted the offering and purchase of foreign time share plans from the requirements of chapter 514E, HRS. Your Committee further finds that the intent of Act 278 was to exempt not only the offer or purchase of foreign time share plans from chapter 514E, HRS, but their operation as well. This measure also clarifies that a developer of foreign time share plans who fails to abide by the disclosure requirements in section 514E-5.5, HRS, will forfeit the exemption.

Your Committee has amended this measure to make technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 60, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 60, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Ihara).

SCRep. 693 Commerce, Consumer Protection and Affordable Housing on S.B. No. 1935

The purpose of this measure is to require the Department of Commerce and Consumer Affairs to regulate the check cashing industry through licensing requirements.

Your Committee received testimony in support of this measure from Financial Service Providers of Hawaii, Inc.; Legal Aid Society of Hawaii; and the Hawai'i Alliance for Community-Based Economic Development (HACBED). The Department of Commerce and Consumer Affairs and one individual provided comments on the measure.

Your Committee finds that deferred deposit transactions, or payday loans, are short-term loans that have the potential to trap consumers in a cycle of debt that does not allow them to build assets for their future. Hawaii is one of only four states that does not require a license to provide a payday loan. In 2005, the Office of the State Auditor conducted a sunrise analysis on the regulation of check cashing and deferred deposit agreements and recommended that chapter 480F, Hawaii Revised Statutes, be strengthened to be more consumer friendly.

Your Committee has amended this measure by:

- (1) Requiring registration, rather than licensing, of check cashers with the Department of Commerce and Consumer Affairs;
- (2) Raising the limit on the maximum amount of a deferred deposit transaction from twenty-five per cent to thirty per cent of a consumer's gross monthly income;
- (3) Including language to require the availability of an extended repayment plan after any consumer has entered into four or more consecutive transactions (back-to-back agreements within twenty-four hours of the payment of a previous transaction); provided that the customer requests the option within twenty-four hours of the last payment due date; and
- (4) Changing the effective date to July 1, 2050 to encourage more discussion on this matter.

The intent of this measure, as amended, is to take into consideration the concerns of both consumers and the industry regarding regulating check cashing and payday lending.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1935, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1935, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 694 Commerce, Consumer Protection and Affordable Housing on S.B. No. 1418

The purpose of this measure is to require mortgage rescue consultants to provide homeowners with a written contract specifying the services they are entitled to under the contract and to notify homeowners of the right to cancel at any time before the services are fully performed.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Legal Aid Society of Hawai'i, and one individual.

Your Committee finds that mortgage rescue consultants often prey upon homeowners who are in arrears of their mortgage payments or going through foreclosure proceedings. While mortgage rescue consultants offer help to distressed homeowners for a fee or some other type of consideration, the homeowners often get little or nothing in return and in the most egregious of cases, the homeowner loses the home to the mortgage rescue consultant.

The intent of this measure is to protect consumers from foreclosure scams by requiring mortgage rescue consultants to provide homeowners with a written contract specifying the services they are entitled to under the contract and to notify homeowners of the right to cancel any time before those services are fully performed.

Your Committee has amended this measure to make technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1418, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1418, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 695 (Majority) Commerce, Consumer Protection and Affordable Housing on S.B. No. 1419

The purpose of this measure is to protect Hawaii consumers from price gouging in the purchase of gasoline during periods of abnormal disruption of the marketplace caused by extraordinary adverse circumstances.

Specifically, this measure includes gasoline price gouging as an unfair or deceptive trade practice under section 480-2, Hawaii Revised Statutes.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs, the Hawaii Transportation Association, and one individual. The Western States Petroleum Association submitted testimony in opposition to this measure.

Your Committee finds that Hawaii's geographic isolation makes it vulnerable to high gasoline prices, especially during times of catastrophic world events and other disruptions to the marketplace. The intent of this measure is to ensure that Hawaii consumers are protected from price

gouging by making it an unfair or deceptive trade practice for any gasoline-related business to sell or offer to sell any gasoline product for an amount that represents an unconscionably excessive price during any abnormal disruption to the market, regardless of whether that disruption occurred in Hawaii or in other parts of the world.

Your Committee has amended this measure to make technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1419, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1419, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Slom). Excused, 2 (Ihara, Sakamoto).

SCRep. 696 Commerce, Consumer Protection and Affordable Housing on S.B. No. 1426

The purpose of this measure is to encourage the private development of safe rooms. Specifically, this measure amends the definition of "wind resistive devices" to include residential safe rooms within the meaning of section 431:22-104(b), Hawaii Revised Statutes (HRS) and makes safe rooms eligible for grants under section 431:22-104, HRS.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs, the State Department of Defense, and the Hawaii Lumber Products Association. Comments were submitted by the Structural Engineers Association of Hawaii.

Your Committee finds that during the Special Session of 2005, the State Department of Defense was tasked with developing design criteria for public shelter and residential safe rooms. Now that criteria have been developed, the intent of this measure is to encourage the private development of safe rooms by providing incentives through grants from the loss mitigation grant fund.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1426, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1426, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 697 Commerce, Consumer Protection and Affordable Housing on S.B. No. 49

The purpose of this measure is to allow the Board of Examiners in Naturopathy to authorize the administration of natural medicines by injections.

Specifically, this measure requires the Board of Examiners in Naturopathy to adopt a formulary and qualifications for administering natural medicines by injection, and to grant the authority to qualified naturopathic physicians. It also establishes a temporary advisory committee to recommend a formulary and qualifications.

Written comments in support of this measure were submitted by the Board of Examiners in Naturopathy. Written comments in opposition of this measure were submitted by the Hawaii Medical Association.

Your Committee finds that, currently, the Board of Examiners in Naturopathy is not authorized to allow naturopathic physicians to administer natural medicines by injection. However, the Board may authorize the diagnosis, treatment, and care of patients using natural methods or modalities and nature's remedies of the type taught in education and training at naturopathic medical colleges. Your Committee further finds that the Board contends that the administration of natural medicines by injection is within the scope and practice of naturopathy because, among other things, it is taught in naturopathy classes and naturopathy students are clinically trained in the use of injections in teaching clinics at naturopathic colleges.

This measure will extend the authority to administer natural medicines by injection to naturopathic physicians within the boundaries as established by a temporary advisory committee. Its recommendations to the Board of Examiners in Naturopathy will establish the formulary of natural medicines that naturopathic physicians may administer by injection and the qualifications needed before one may administer injections. The temporary advisory board shall be comprised of naturopathic physicians, a person licensed in medicine, and a person licensed as a pharmacist, all of whom your Committee believes are qualified and appropriate to address concerns with this authority before recommending the formulary and qualifications.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 49, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 698 (Majority) Commerce, Consumer Protection and Affordable Housing on S.B. No. 53

The purpose of this measure is to ensure that hospital and medical insurance policies providing benefits for mental illness and alcohol and drug dependence include coverage for marriage and family therapy services.

Written comments in support of this measure were submitted by the Hawai'i Psychological Association. Written comments on the measure were also submitted by the Department of Commerce and Consumer Affairs.

Your Committee finds that individuals who suffer from mental illnesses or alcohol and drug dependence do not suffer alone. Although they often receive support from their families, they and their families also must endure great pains and hardships as a result of the illnesses or addictions. Marriage and family therapy can provide necessary assistance to affected individuals, including counseling on the impact on family members from assessment or diagnosis through intervention or treatment, as appropriate. Currently, several states provide reimbursements for marriage and family therapy under their insurance laws. Your Committee determines that the provision of marriage and family therapy services will ensure the provision of a necessary form of treatment that will positively impact individuals and families dealing with mental illnesses or drug and alcohol addictions.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 53 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Slom). Excused, 2 (Ige, Sakamoto).

SCRep. 699 Commerce, Consumer Protection and Affordable Housing on S.B. No. 1674

The purpose of this measure is to allow medical practitioners in radiology licensed to practice in another state, to provide radiology services by telemedicine while in Hawaii to a patient who is located in the state in which the medical practitioner is licensed to practice radiology.

The measure also makes numerous technical, nonsubstantive amendments to the laws relating to the practice of medicine and surgery and radiologic technology.

The Board of Medical Examiners submitted comments on this measure.

Your Committee finds that this measure would enable radiologists to practice radiology via telecommunications to patients from this State to the state of licensure. Your Committee believes that radiologists should not be required to obtain Hawaii licensure if services are not being provided to patients in the State.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1674, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Sakamoto).

SCRep. 700 Commerce, Consumer Protection and Affordable Housing on S.B. No. 923

The purpose of this measure is to remove the December 31, 2007, sunset date of section 514B-146, Hawaii Revised Statutes (HRS), relating to delinquent condominium association maintenance fees.

Specifically, this measure removes the sunset date from Act 164, Sessions Laws of Hawaii (SLH) 2004, as amended by Act 93, SLH 2005, as amended by Act 273, SLH 2006.

Your Committee received testimony in support of this measure from the Real Estate Commission of the Department of Commerce and Consumer Affairs, the Hawaii Independent Condominium and Co-op Owners, the Hawaii Council of Associations of Apartment Owners, and the Hawaii Chapter of the Community Associations Institute. The Hawaii Bankers Association submitted comments on this measure.

Your Committee finds that section 514B-146, HRS, provides a reasonable and fair process to assist condominium associations with the problem of collecting unpaid maintenance fees from apartment owners. The intent of this measure is to remove the sunset date of December 31, 2007, in order to allow this section to continue to provide relief to condominium associations in collecting delinquent maintenance fees, especially in cases where an apartment owner is undergoing foreclosure proceedings.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 923 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 701 Commerce, Consumer Protection and Affordable Housing on S.B. No. 1017

The purpose of this measure is to expand access to zero interest housing loans to promote homeownership.

The measure accomplishes this purpose by removing the requirement that funds from the Hawaii Habitat for Humanity Association's zero interest revolving fund be used only on land leased from the State and by making technical amendments related to the repeal of chapter 201G, Hawaii Revised Statutes, by Act 180, Session Laws of Hawaii 2006.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs and Hawaii Habitat for Humanity. Comments on this measure were submitted by the Hawaii Housing Finance and Development Corporation.

Your Committee finds that Hawaii Habitat for Humanity provides a valuable service to the people of Hawaii by providing low-income families with safe and affordable self-help houses with zero interest loans. Hawaii Habitat for Humanity helps many low-income families achieve the goal of homeownership at a time when affordable housing in the State is out of reach for many families.

The intent of this measure is to ensure that Hawaii Habitat for Humanity Association's zero-interest revolving fund can continue to assist low-income families achieve homeownership in the State.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1017 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 702 Commerce, Consumer Protection and Affordable Housing on S.B. No. 1249

The purpose of this measure is to create a new category of liquor license for condominium hotels.

No written comments on this measure were submitted to your Committee.

Your Committee finds that the advent of the condominium hotel ownership and operating structure is a relatively new concept that has recently been gaining popularity in this State. While many former hotel operations have converted to a condominium hotel ownership and operating structure, this new structure has created an interpretation and application problem with respect to liquor licensing laws. Specifically, the restrictive nature of the definition of "premises" contained in the existing Class 12 hotel liquor licensing requirements would require that a

licensed liquor establishment be situated and operated on the hotel portion, not the condominium portion, of the condominium hotel. Such a restrictive interpretation could lead to the inconsistent application and enforcement of liquor licensing laws when trying to fit condominium hotels into the existing liquor licensing framework for hotels.

Your Committee finds that creating a new liquor licensing category to specifically address the unique ownership and operational structure of condominium hotels would promote the consistent interpretation and application of liquor licensing laws. Your Committee also finds that the establishment of a separate category for condominium hotel liquor licenses is necessary to provide adequate guidance to county liquor commissioners to ensure that the liquor licensing laws that govern the sale of liquor on such premises are uniformly interpreted and applied throughout a respective county's jurisdiction.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1249, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 703 Ways and Means on S.B. No. 1364

The purpose of this measure is to facilitate environmental cleanups. Specifically, this measure repeals the sunset date on the Hawaii Brownfields Cleanup Revolving Fund.

The Department of Health, the Office of Planning of the Department of Business, Economic Development, and Tourism, and one concerned individual submitted comments in support of this measure.

Your Committee finds that this measure will enable the State to continue to offer low-interest loans to eligible landowners and prospective purchasers of contaminated properties to clean up those properties. Repealing the sunset date will also ensure the continuation of federal funding for brownfields cleanup.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1364, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, 4 (English, Kim, Hemmings, Whalen).

SCRep. 704 Ways and Means on S.B. No. 1962

The purpose of this measure is to provide an income tax deduction to residential unit owner occupants for the installation of an automatic fire sprinkler system in an older condominium project between July 1, 2007, and June 30, 2012.

This measure limits the tax deduction to owner occupants for new installation of an automatic fire sprinkler system that serve an entire residential or mixed use condominium that was constructed before December 31, 1975.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations. Written comments in opposition was received from the Department of Taxation.

Your Committee believes that fire safety is an issue of major public concern, especially in older multi-family dwellings, such as condominiums.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1962, S.D. 2, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 705 Ways and Means on S.B. No. 600

The purpose of this measure is to exempt from state income taxation, one hundred per cent of the capital gains realized during taxable years 2008-2012, from a sale of the leased fee interest in condominium units to an association of apartment owners or residential cooperative corporations.

Your Committee received comments in support of this measure from the Hawaii Association of Realtors, Hawaii Independent Condominium & Cooperative Owners, and Monarch Properties, Inc. Written comments were received from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that in 2004, the City and County of Honolulu's Leasehold Task Group was charged with finding voluntary solutions that would allow apartment owner-occupants to acquire their leased-fee interest. One of the recommendations of the Task Group was for tax legislation that would motivate lessors to sell their leased-fee interest to lessee owner-occupants. Exempting the lessor's sale proceeds from the capital gains tax under state law is one such tax legislation that could motivate lessors to sell.

Your Committee believes that this measure would provide residential lessees with an opportunity to be fee simple homeowners in an increasingly expensive and competitive housing market, and it is the intent of your Committee to support this modest option. More importantly, exempting these sales from the State's capital gains tax could result in the voluntary conversion of leasehold to fee simple ownership for residential lessees throughout the State, preventing the anticipated displacement of many older residents whose leasehold terms will soon expire.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 600 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Menor, Hemmings).

SCRep. 706 Ways and Means on S.B. No. 898

The purpose of this measure is to require the Department of Taxation to report annually on qualified high technology businesses and related tax incentives to properly evaluate their effectiveness.

Your Committee received written comments in support of this measure from the High Technology Development Corporation and the Department of Taxation. Written comments were received from the Tax Foundation of Hawaii.

Your Committee finds that high technology tax credits can provide incentives vital to the continued growth of Hawaii's technology and innovation industries. However, in its 2005-2007 report, the Tax Review Commission stated that due to a lack of current data, definitive results could not be calculated for the high technology business investment tax credit, one of the credits currently offered by the State. While the information is being filed with the Department of Taxation, and could be made available to enable the Tax Review Commission to evaluate and report on the effectiveness of the high tech tax incentives, the lack of resources has made it difficult to collect the available data from the records of the Department of Taxation.

It is the intent of your Committee to provide for greater transparency and evaluation of high technology tax incentives as a means of ensuring that the credits meet their intended outcomes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 898, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Menor, Hemmings).

SCRep. 707 Ways and Means on S.B. No. 1497

The purpose of this measure is to bring Hawaii tax law into compliance with changes to the Internal Revenue Code, by amending section 235-2.3(a), Hawaii Revised Statutes, relating to conformance with the Internal Revenue Code, to replace the date December 31, 2005, with December 31, 2006.

Written comments in support of this measure were submitted by the Department of Taxation. Written comments on this measure were submitted by the Tax Foundation of Hawaii.

Your Committee finds that five federal laws enacted in 2006 would affect Hawaii tax law. Updating Hawaii's tax conformance law will diminish discrepancies with regard to the application of the new federal laws as they relate to Hawaii's tax laws.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1497, S.D. 2, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 708 Ways and Means on S.B. No. 1092

The purpose of this measure is to extend the lapse date for an appropriation out of the state educational facilities special fund.

Specifically, this measure allows the Department of Education until June 30, 2008 to spend the appropriated \$40,000,000 for public school repair and maintenance projects.

Your Committee received comments in support of this measure from the Department of Education.

Your Committee finds that the original bond fund appropriation was allotted in December of 2006 which left the Department only six months to encumber the funds.

This measure provides the Department with ample time to encumber the funds until the end of fiscal year 2007-2008.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1092 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 709 Ways and Means on S.B. No. 50

The purpose of this measure is to appropriate funds to guarantee the viability of the Hawaii AIDS clinical research program.

Your Committee received comments in support of this measure from two professors from the University of Hawaii at Manoa John A. Burns School of Medicine, the Life Foundation, the Maui AIDS Foundation, Hawaii Island HIV/AIDS Foundation, and two private citizens. The vice-president for Research and Graduate Education at the University of Hawaii at Manoa John A. Burns School of Medicine submitted comments.

Your Committee finds that the Hawaii clinical trials unit, as a part of the University of Hawaii John A. Burns School of Medicine, is a vital element in Hawaii's fight against HIV and AIDS. The unit ensures that Hawaii's unique ethnic groups are properly represented in national multi-state HIV and AIDS trials, provides necessary and essential care for the geographically removed people of Hawaii, and obtains funding for its vital projects. However, the National Institute of Health has given notice to the unit that it will no longer receive federal funds.

Your Committee finds that the continued existence of the Hawaii AIDS clinical trials unit is of utmost importance and if it would cease to exist, the fight against HIV and AIDS would be seriously compromised. Your Committee further finds that appropriating funds to the unit ensures that it can be maintained and be productive.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 50, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Menor, Hemmings).

SCRep. 710 Ways and Means on S.B. No. 1919

The purpose of this measure is to provide a comprehensive set of asset building opportunities for Hawaii's low- and moderate-income families by establishing a self-sufficiency standard that will determine a recipient's assistance allowance.

Specifically, this measure:

- (1) Establishes a refundable state earned income tax credit;
- (2) Provides for financial education to temporary assistance to needy families applicants and recipients;
- (3) Expands the provision of individual development accounts; and
- (4) Appropriates funds.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development and Tourism; Hawai'i Alliance for Community-Based Economic Development; Aloha United Way; Hawaii Government Employees Association; 3Point; and two individuals. Written comments were received from the Department of Taxation, Department of Human Services, and Tax Foundation of Hawaii.

Your Committee finds that the provisions of this measure present a unique and multi-faceted approach to helping Hawaii's low-income families to achieve self-sufficiency, but the extent of revenue losses is yet unclear. Your Committee believes that continuing legislative deliberations on this measure is necessary to more fully analyze and determine the merits of this unique, multi-faceted approach to helping Hawaii's families.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1919, S.D. 2, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 711 Ways and Means on S.B. No. 704

The purpose of this measure is to treat the gross income received by trusts whose sole beneficiary is blind, deaf, or totally disabled in the same way as the gross income received from business or other activities of individuals who are blind, deaf, or totally disabled or of business entities owned or operated by the blind, deaf, or totally disabled under the general excise tax law.

Your Committee received comments in support of this measure from one individual. Written comments were received from the Tax Foundation of Hawaii.

Your Committee finds that the income received by trusts whose sole beneficiaries are blind, deaf, or totally disabled, are currently taxed at the four or the four and one-half per cent rate under the general excise tax law, but should be taxed at the lower rate of one-half per cent in the same way as businesses owned or operated by the blind, deaf, or totally disabled.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 704 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Menor, Hemmings).

SCRep. 712 Ways and Means on S.B. No. 1454

The purpose of this measure is to rename the hospital and medical facilities special fund to the office of health care assurance special fund to reflect the current name of the Office of Health Care Assurance.

This measure also requires that all moneys collected by the Office of Health Care Assurance in the form of fees and fines be deposited into the fund and allows the moneys deposited to be used to offset the Office of Health Care Assurance's operational expenses.

No comments were submitted.

Your Committee finds that there is a need to rename the hospital and medical facilities special fund to reflect the change in the office's name to the Office of Health Care Assurance in 1998. Additionally, current uses of the moneys in this fund are limited to offsetting the office's educational program expenses. However, due to increased demands, operating expenses have increased. Your Committee further finds that this bill, allowing fees and fines to be deposited into the fund and allowing the moneys to be used for the Office of Health Care Assurance's operational expenses, will allow the Office of Health Care Assurance to continue to carry out its functions by offsetting operational costs, in lieu of annual general fund budget requests.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1454 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 713 Ways and Means on S.B. No. 1281

The purpose of this measure is to appropriate funds for fiscal year 2007-2008 salary increases and other cost adjustments for officers and employees of legislative agencies who are excluded from collective bargaining.

Your Committee received comments in support of this measure from the Office of the Auditor, the Legislative Reference Bureau, the Office of the Ombudsman, the Hawaii State Ethics Commission, and the Hawaii Government Employees Association, AFSCME, AFL-CIO.

Your Committee finds that this bill is a vehicle to provide funding for any salary increases that may be authorized for excluded employees in the legislative service agencies as the result of collective bargaining agreements. Your Committee finds it is necessary to keep this vehicle available during session while collective bargaining is ongoing.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1281 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Menor, Hemmings).

SCRep. 714 Ways and Means on S.B. No. 1007

The purpose of this measure is to treat licensed securities professionals who work on commission basis the same way as licensed insurance and real estate professionals under the general excise tax laws.

SunAmerica Securities, Inc., submitted written comments in support of this measure. The Tax Foundation of Hawaii submitted written comments.

Your Committee finds that licensed investment brokers and their licensed agents should be allowed to each pay the general excise tax on the portion of the commission that each receives instead of requiring each to pay on the entire commission amount.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1007, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1007, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Menor, Hemmings).

SCRep. 715 Ways and Means on S.B. No. 907

The purpose of this measure is to change the name of the Office of Space Industry to the Office of Aerospace Development.

This bill also clarifies the duties of the office and appropriates sums for various activities of the Office of Aerospace Development.

Comments in support of this measure were received from the Department of Business, Economic Development, and Tourism, the Chancellor and two members of the faculty and staff of the University of Hawaii at Hilo, Auburn University Space Research Institute, Colorado School of Mines Center for Space Resources, Enterprise Honolulu, Hawaii Island Economic Development Board, JAMSS America, Inc., Japan-United States Science, Technology, and Space Applications Program, NASA Ames Research Center Space Portal for Enterprise and Commerce, SpacePartnerships.com, a former Governor of the State of Hawaii, and one additional individual.

Your Committee finds that the Department of Business, Economic Development, and Tourism maintained an Office of Space Industry from 1988 through 1995. However, for the past twelve years the office has operated in an "ad hoc" manner to identify and promote aerospace related opportunities in Hawaii. The changes proposed in this measure would formalize and strengthen these activities and expand the Office's role in serving as a catalyst in the further development of aerospace opportunities for Hawaii.

It is the intent of your Committee to support the broader concepts of an Office of Aerospace Development and the promise of the Pacific International Space Center for Exploration Systems in particular. Your Committee believes that one of the most important outcomes of this measure should be enhanced workforce development opportunities and support for Hawaii's emerging industries.

Your Committee has amended this measure by:

- (1) Changing the sums to be appropriated to unspecified amounts to facilitate further discussion; and
- (2) Making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 907, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 907, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Menor, Hemmings).

SCRep. 716 Ways and Means on S.B. No. 1920

The purpose of this measure is to:

- (1) Recodify and rename existing motion picture, digital media, and film production tax provisions;
- (2) Increase the motion picture, digital media, and film production tax credits from fifteen and twenty per cent to twenty and twenty-five per cent, and increase reporting requirements; and
- (3) Repeal the Hawaii Television and Film Development Board, delete references to the Board from the Hawaii Television and Film Development Special Fund and elsewhere, and require the Department of Business, Economic Development, and Tourism to assume the responsibilities of the Board.

The Department of Business, Economic Development, and Tourism and one individual provided written testimony in support of this measure. The Department of Taxation, PacifiCap Group, Tax Foundation of Hawaii, and one individual submitted written comments.

Your Committee finds that this measure would consolidate related tax provisions, and the proposal has generated a number of comments regarding the outcomes of the proposed legislation. Your Committee further finds that the measure would benefit from additional legislative discussion.

Your Committee has amended this measure by making technical amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1920, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1920, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 717 Ways and Means on S.B. No. 1499

The purpose of this measure is to conform Hawaii tax law to federal tax law as it relates to tax administration and criminal tax enforcement.

The Department of Taxation submitted written comments in support of this measure. The Tax Foundation of Hawaii submitted written comments.

Your Committee finds that this measure will enhance tax compliance by conforming Hawaii's tax law to federal tax law, including by establishing penalties for persons who prepare tax returns that unrealistically understate tax liability and for the promotion of abusive tax shelters, and by criminalizing the wilful failure to collect and pay over taxes.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1499, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1499, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 718 Ways and Means on S.B. No. 1931

The purpose of this measure is to appropriate funds for an educational workforce working group under the Department of Business, Economic Development, and Tourism, to examine and address workforce and education issues and to submit a report to the legislature.

Furthermore, this measure requires separate reports from the Department of Education and the University of Hawaii on educational or workforce issues. Finally, this measure appropriates funds to the Department of Education to establish workforce development liaison and support staff positions.

Your Committee received comments in support of this measure from the Department of Business, Economic Development, and Tourism. The Department of Education submitted comments.

Your Committee finds that this measure is necessary for the State to be able to comprehensively and systematically address the workforce needs of this State, and to meet those needs through the public educational systems.

Your Committee has amended this measure by changing the effective date from July 1, 2007 to July 1, 2050 in order to promote continued discussion of the matter. Your Committee also made technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1931, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1931, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 719 Ways and Means on S.B. No. 76

The purpose of this measure is to require the Department of Education to develop a plan to provide temperature control systems that incorporate energy conservation initiatives, and other energy saving measures, in all public school facilities.

Comments in support of this measure was submitted by the Department of Education. Sopogy, Inc. submitted comments on this measure.

Your Committee finds that although Hawaii's tropical climate is ideal for outdoor recreational activities, it is not necessarily conducive to learning for public school students. Many of Hawaii's public schools are not equipped with air conditioning or other temperature reduction measures, which can make the classroom environments uncomfortable and even unbearable for students and teachers alike. Your Committee is committed to providing public school students with comfortable learning environments. Your Committee believes that creative and innovative methods for establishing suitable classroom environments for students may be utilized, including the use of alternative energy resources, incentives for energy consumption or cost reduction, alternative materials for buildings, and other energy efficient measures.

Your Committee has amended this measure by:

- (1) Changing the appropriation in section 3 to an unspecified amount to facilitate further discussion; and
- (2) Making technical non-substantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 76, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 76, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 720 Ways and Means on S.B. No. 80

The purpose of this measure is to increase the pool of qualified teachers available to teach in the schools in the State.

Specifically, this measure creates the Felix stipend revolving fund for the collection of stipend repayments for University of Hawaii students who have breached their contractual agreements under the Felix consent decree recruitment and retention program and provides funding for stipends for other students under the recruitment and retention program.

Your Committee received comments in support of this measure from the Department of Education and the University of Hawaii, College of Education. Comments in opposition were received from the Department of Budget and Finance.

Your Committee believes that this measure not only recovers moneys from those who have violated their stipend contracts but also makes use of moneys in the new fund for stipends to other students to enhance recruitment and retention of qualified teachers for the State's schools.

Your Committee has amended this measure by changing the effective date of this measure to July 1, 2040 to facilitate further discussion. Your Committee has also made technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 80, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 80, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 721 Ways and Means on S.B. No. 688

The purpose of this measure is to appropriate funds for the P-20 Initiative Program.

Your Committee received comments in support of the measure from the Department of Education and the Hawaii P-20 Initiative.

Your Committee finds that the Hawaii P-20 Initiative is a consortium of public and private educators, officials from the University of Hawaii and the Department of Education, and community leaders who work together to improve academic achievement in the State. The mission of the Initiative is to develop and initiate educational plans for the twenty-first century to promote lifelong learning for students from early childhood education to career and workforce preparation.

Your Committee has amended the measure by:

- (1) Changing the appropriation to an unspecified amount to facilitate further discussion on this matter; and
- (2) Making technical amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 688, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 688, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 722 Ways and Means on S.B. No. 1146

The purpose of this measure is to establish the Senator Hiram L. Fong scholarship program and the Senator Oren E. Long scholarship program at the University of Hawaii.

The Senator Hiram L. Fong Commission submitted comments in support of this measure. Comments on the measure were submitted by the Interim Associate Vice President for Student Affairs of the University of Hawaii, the Department of Education, and the Attorney General.

Your Committee finds that the proposals to establish these scholarship programs reflect the recommendations of the Senator Hiram L. Fong Commission, which was established by the Legislature in an earlier session.

Your Committee has amended this measure by changing the appropriation figures to unspecified amounts for the purposes of promoting continued discussion of the matter. Your Committee also made technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1146, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1146, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 723 Ways and Means on S.B. No. 597

The purpose of this measure is to authorize the issuance of special purpose revenue bonds for Sopogy, Inc.

Specifically, the measure assists Sopogy, Inc. with the planning, designing, construction, equipping, and operating of a solar farm power plant at the Natural Energy Laboratory of Hawaii Authority in Keahole, Hawaii.

Your Committee received comments in support of this measure from the Department of Business, Economic Development, and Tourism, Natural Energy Laboratory of Hawaii Authority, Hawaii Renewable Energy Alliance, and Hawaii Energy Policy Forum.

Your Committee finds that Sopogy, Inc. has experienced successes in the development of solar farm power plants to generate electricity. The Natural Energy Laboratory of Hawaii Authority in sun-baked Keahole, Hawaii, is an ideal location for the development of a solar farm power plant to demonstrate how electricity could be produced by using solar power systems in Hawaii. Sunlight provides a clean and renewable source of energy to produce thermal and electrical energy.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 597, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 597, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 724 Ways and Means on S.B. No. 31

The purpose of this measure is to provide monetary assistance to a deceased veteran's survivor or an interested party to transport the remains of the veteran to the Philippines for funeral and burial services.

More specifically, the bill provides for a maximum grant for a veteran who joined the New Filipino Scouts upon submittal of an unpaid, itemized invoice by a survivor or interested party.

Your Committee received comments in support of the measure from: the Office of Veteran Affairs; the State Advisory Board on Veterans Services; the Filipino Coalition for Solidarity; the Oahu Filipino Community Council; the Nursing, Advocates & Mentors, Inc.; the National Federation of Filipino American Associations, Region 12; the United Filipino Council of Hawaii; the Asian American Network for Cancer Awareness Research and Training; and the Philippine Nurses Association-Hawaii.

Your Committee finds that under current law, many deceased Filipino veterans' survivors and interested parties cannot afford to transfer the remains of the veteran to the Philippines. In addition, only some Filipino veterans are eligible for interment at state or federal veterans' cemeteries.

Your Committee finds that this bill resolves the issue by providing financial support in the form of a grant for veterans who joined the New Filipino Scouts, were United States citizens, and residents of Hawaii. In addition, only those survivors of veterans that are not eligible for interment in a state or federal veterans' cemetery are eligible for the grant. After enactment, survivors of these veterans and interested parties can provide the veterans with a proper burial in the Philippines.

Your Committee amended the bill to make technical, nonsubstantive changes for consistence, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 31, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 31, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 725 Ways and Means on S.B. No. 1526

The purpose of this measure is to correct inadvertent errors that prevents the unitary salary commission from setting the salaries of the Administrative Director of the Courts and the Deputy Administrative Director.

The Judiciary submitted comments in strong support of this measure.

Your Committee finds that due to inadvertent statutory errors that are not resolvable in a timely manner, the unitary salary commission does not have the authority, as intended, to set the salaries of the Administrative Director of the Courts and the Deputy Administrative Director.

This measure resolves this problem by linking the Administrative Director's salary to eighty per cent of the salary of the Chief Justice (whose salary is set by the unitary salary commission) and linking the Deputy Administrative Director's salary to ninety-five per cent of the salary of the Administrative Director.

Your Committee further finds that linking the Administrative Director of the Court's salary to the salary of the Chief Justice is consistent with the salary link between the Governor and the Administrative Director of the State.

Your Committee has amended the bill by:

- (1) Qualifying and prefacing the percentages of each salary with the phrase "not exceed" to provide flexibility in determining appropriate salaries for each position;
- (2) Changing the effective date to June 30, 2050 to facilitate further discussion on this matter; and
- (2) Making technical, nonsubstantive changes for purposes of consistency, style, and clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1526, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1526, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Kim, Menor, Hemmings).

SCRep. 726 Ways and Means on S.B. No. 1112

The purpose of this measure is to appropriate funds for the expansion of community-based gender-responsive programs for women and girls who are incarcerated at state correctional facilities.

Comments in support of this measure were submitted by the Community Alliance on Prisons, Drug Policy Forum of Hawaii, and a concerned private citizen.

Your Committee finds that women and girls have different pathways to crime than their male counterparts, resulting in the importance of gender-responsive programs that more effectively address their specific needs.

Your Committee also finds that successful programs for women offenders recognize that the majority of female offenders are victims of abuse and are more likely to be classified at minimum or community custody levels.

Your Committee has amended this measure by:

- (1) Deleting the amounts appropriated and inserting a blank amount to facilitate further discussion; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1112, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1112, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, 4 (English, Kim, Hemmings, Whalen).

SCRep. 727 Ways and Means on S.B. No. 1929

The purpose of this measure is to allow the Chief Procurement Officer to assess administrative fines for noncompliance with the Hawaii Public Procurement Code.

The measure further provides that the amount of the fine shall be set by rules adopted by the State Procurement Policy Board.

The State Procurement Office submitted comments in support of this measure. The Department of Accounting and General Services submitted comments on this measure.

Your Committee finds that the existing law is lacking in a provision for administrative fines for noncompliance with procurement laws. Although criminal penalties exist, there are no administrative sanctions for those whose actions fall short of criminal prosecution. The measure will help to ensure compliance with the procurement code.

Your Committee has amended this measure by:

- (1) Clarifying that an administrative fine may be levied against a person *after* the person has been found to have violated the procurement laws; and,
- (2) Making technical non-substantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1929, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1929, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 728 (Majority) Ways and Means on S.B. No. 750

The purpose of this measure is to ensure stricter compliance with Transient Accommodations Tax requirements from vacation rentals and bed and breakfast establishments by requiring the Department of Taxation to:

- (1) Review the forms and process for collecting the Transient Accommodations Tax from vacation rentals and bed and breakfast establishments and report revenues received from them;
- (2) Work with Hawaii Tourism Authority and counties to identify owners operating vacation rentals and bed and breakfast establishments and enforce transient accommodations tax compliance;
- (3) Share location information on transient accommodations taxpayers with counties; and
- (4) Clarify duties of the Hawaii Tourism Authority.

Testimony in support of this measure was submitted by the City and County of Honolulu, Department of Planning and Permitting; Chair of the Windward Democrats, Oahu County Committee, Democratic Party of Hawaii; Save Oahu's Neighborhood; and twenty-five individuals. Testimony in opposition to this measure was submitted by the Windward Ahupua'a Alliance; President of the BB-TVU Association of Oahu; and thirty-eight individuals. Comments on this measure were submitted by the Tax Foundation of Hawaii and the Department of Taxation.

In comments submitted by the Department of Taxation, the department advised that addresses utilized for audits are obtained from federal tax returns that, by federal law, cannot be shared. This does not speak to the provisions or intent of this bill. Currently, under section 237D-13(a)(10), Hawaii Revised Statutes, the counties have access to state transient accommodation tax returns, which is a state tax having nothing to do with federal returns. Your Committee finds that the transient accommodation tax returns contain taxpayer addresses that are not obtained from federal tax returns. Your Committee also finds that the Department of Taxation has many ways to meet the objectives of this bill without jeopardizing any federal tax returns or information.

Your Committee finds that the State needs a more effective reporting system with respect to Transient Accommodations Tax revenues collected from residential properties. Better reporting will enable the State to provide a more comprehensive tax system that is more equitable and cost-effective. To this end, this measure provides for improved enforcement measures to ensure that owners of vacation rentals and bed and breakfast establishments comply with the Transient Accommodations Tax law.

Your Committee has amended this measure to make technical, nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 750, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 750, S.D. 3.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, 1 (Chun Oakland). Excused, 2 (Menor, Hemmings).

SCRep. 729 Ways and Means on S.B. No. 1308

The purpose of this measure is to combine the aquaculture loan revolving fund into the agricultural loan revolving fund, create an aquaculture loan for new aquaculturists, increase loan limits for existing aquaculture loans, and expand eligibility for aquaculture loans.

Your Committee received comments in support of this measure from the Office of Hawaiian Affairs and the Hawaii Aquaculture Association. The Board of Agriculture submitted comments.

Your Committee finds that this measure will create parity between the aquaculture loan program and the agriculture loan program and provide increased administrative efficiency and flexibility to both programs.

Your Committee has amended this measure by:

- (1) Adding clarifying language regarding the types of "private lenders" from whom aquaculturists are unable to procure loans and thus qualifying themselves for loans from the state Department of Agriculture; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1308, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1308, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 730 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 851

The purpose of this measure is to preserve and protect historic and cultural sites by strongly encouraging developers of commercial or residential development projects in the Ko'olauloa District to maintain a minimum shoreline setback of seven hundred fifty feet.

Specifically, this measure requests any developers of commercial or residential development projects planned for the area makai of Kamehameha Highway between Kawela Stream and Marconi Road to:

- (1) Maintain a minimum shoreline setback of seven hundred fifty feet;
- (2) Conduct a comprehensive historic and cultural preservation assessment, pursuant to sections 6E-5.5, 6E-10, and 6E-43, Hawaii Revised Statutes; and
- (3) Comply with all other recommendations from the Oahu Burial Council, the State Historic Preservation Division, and other interested agencies of the Department of Land and Natural Resources.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs; the Sierra Club, Hawaii Chapter; Na Iwi Ola o He'eia-Kea; the Ko'olau Foundation; Hawaii's Thousand Friends; Keep the North Shore Country; the Kuli'ou'ou/Kalani Iki Neighborhood Board; the 'Ilio'ulaokalani Coalition; the Ko'olauloa Neighborhood Board; and one hundred eight individuals. Testimony in opposition to this measure was submitted by the Department of the Attorney General; the Kuilima Resort Company; Villa Management at Turtle Bay Resort, LLC; Ocean Villas at Turtle Bay Resort, and seven individuals. The Department of Land and Natural Resources submitted comments.

The protection and preservation of Hawaii's historic and cultural heritage is of paramount importance for the State, thus, the State Historic Preservation Program under the Department of Land and Natural Resources was established for the purpose of conserving Hawaii's unique heritage. Despite these efforts, commercial and residential development still poses a threat to cultural and historic sites across the State, such as the current proposed expansion of the Turtle Bay Resort on Oahu.

The proposed expansion plans at the Turtle Bay Resort has been a source of great controversy on numerous levels, including concerns relating to the potential environmental, societal, and economic consequences. There is also a great concern over the effect the expansion plans will have to the historic and cultural sites in the area, including the Kahuku habitation area, the Kawela Bay and Kahuku Point archeological areas, the Punahoolapa Marsh, and the ahupua'a of Opana, Hana Ka'oe, and Kahuku. Moreover, several Native Hawaiian burials sites and remains have been found and relocated since the development of the original and existing Turtle Bay Resort, and more are expected to be discovered when project construction commences.

Your Committee finds that preserving and protecting historic and cultural sites is important for future generations to enjoy, visit, and learn from these sites. Thus, strongly encouraging project developers to conduct a comprehensive historic and cultural preservation assessment and maintaining a minimum shoreline set back of seven hundred fifty feet in the Ko'olauloa district will provide further assurances that the historic and cultural sites in the area are protected and preserved.

Although there was overwhelming testimony in support of this measure, your Committee recognizes that the development plans for the Turtle Bay Resort have already been approved and the project developer is currently in the process of obtaining or has already obtained the necessary permits to complete the expansion plans. Your Committee further recognizes the strong legal concerns presented by the Department of the Attorney General, especially with respect to the Department's indication that this measure appears to single out one development in the Ko'olauloa District. Your Committee further finds that the language in this measure appears to be project-driven and that specific language referencing the developer and the project should be deleted from the measure.

Your Committee strongly believes that historic and cultural sites need to be preserved and protected, especially unmarked Native Hawaiian burial sites and remains, which have been discovered or are yet to be discovered along Hawaii's shoreline areas. Although your Committee would like to expand the scope of this measure to include a statewide shoreline setback program, your Committee is prevented from doing so due to the specific title of this measure. Your Committee further believes, however, that shoreline setback measures, emphasizing the importance of historic and cultural preservation assessments, and the protection and preservation of historic and cultural sites with respect to commercial or residential development plans is an important issue, and strongly encourages further discussion on these issues as this measure progresses through the legislative process.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the references made to Oaktree Capital Management, LLC, and Turtle Bay Resorts to broaden the focus from the resort hotel area to the Ko'olauloa area;
- (2) Deleting the references made to Marconi Road and Kawela Stream to broaden the focus from that particular area to the Ko'olauloa area;
- (3) Inserting an effective date of July 1, 2050, to ensure further discussion on this issue; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 851, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 851, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 2 (Tokuda, Slom). Noes, none. Excused, 1 (Fukunaga).

SCRep. 731 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 938

The purpose of this measure is to encourage Native Hawaiian homestead beneficiaries to participate and engage in the development of their Hawaiian homestead community by amending the Hawaiian Homes Commission Act of 1920, as amended, to require the Department of Hawaiian Home Lands to consult with trust beneficiaries prior to implementing any project that includes commercial development on Hawaiian Home Lands Trust properties.

Testimony in support of this measure was submitted by the State Council of Hawaiian Homestead Associations, the Council for Native Hawaiian Advancement, the Waianae Kai Hawaiian Homestead Association, and three individuals. The Department of Hawaiian Home Lands submitted comments.

Commercial development can be an important tool in the administration of the Hawaiian Home Lands Trust. Prior beneficiary consultation of any potential commercial development plans on Hawaiian Home Lands will better serve the community that the Trust was intentionally created to serve. The Department of Hawaiian Home Lands has implemented regularly scheduled meetings with the trust beneficiaries. However, written testimony indicates that these meetings tend to concentrate on homestead land operational issues or are informational sessions without the opportunity for input from the homestead residents and beneficiaries. Thus, your Committee finds that requiring the Department of Hawaiian Home Lands to consult the beneficiaries prior to engaging in any plans for commercial development on Hawaiian Home Lands will provide an increased opportunity for beneficiaries to actively engage in building their community, and creating spaces and opportunities for their community to perpetuate the Native Hawaiian culture, and live and work within or in close proximity to the Hawaiian Home Lands.

Your Committee has amended this measure by:

- (1) Adding language that declares any amendments made to the Hawaiian Homes Commission Act of 1920 be severable; and
- (2) Making technical, nonsubstantive amendments for the purposes of style and consistency.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to encourage Native Hawaiian homestead beneficiaries to participate and engage in the development of their Hawaiian homestead community.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 938, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 938, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 732 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1440

The purpose of this measure is to properly effectuate the purposes of the Hawaiian Homes Commission Act of 1920, as amended, by authorizing the Department of Hawaiian Home Lands to adopt administrative rules that will prescribe terms, conditions, and restrictions on the transfer of Hawaiian homestead leases.

Testimony in support of this measure was submitted by the Department of Hawaiian Home Lands and the State Council of Hawaiian Homestead Associations.

Section 208(5) of the Hawaiian Home Commission Act, 1920, as amended, describes the eligible class of Native Hawaiians to whom homestead lessees may transfer their lease interests. Hawaiian Home Land Trust beneficiaries and homestead residents have expressed numerous concerns regarding homestead lessees transferring their leases to other eligible beneficiaries for money. Your Committee finds that authorizing the Department of Hawaiian Home Lands to adopt administrative rules to establish lease conditions and restrictions will address this practice, and provide guidelines to prevent similar practices from occurring in the future. Your Committee further finds that beneficiary organizations and individuals should be afforded an opportunity to provide input in establishing an administrative framework of appropriate conditions or restrictions on homestead lease interest transfers.

Your Committee has amended this measure by adding language that declares that the amendments made by this measure to the Hawaiian Homes Commission Act of 1920 be severable.

Your Committee believes that this measure, as amended, will properly effectuate the purposes of the Hawaiian Homes Commission Act of 1920, as amended.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1440, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1440, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 733 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1639

The purpose of this measure is to preserve cultural and historic property and ensure the proper handling and treatment of historic burial sites by conforming the provisions relating to the treatment of inadvertently discovered Native Hawaiian burial sites to the treatment of previously discovered Native Hawaiian burial sites under chapter 6E, Hawaii Revised Statutes.

Specifically, this measure:

- (1) Amends sections 6E-43 and 6E-43.5, Hawaii Revised Statutes, to:
 - (A) Add inadvertently discovered Native Hawaiian burial sites for the appropriate Island Burial Council to determine whether preservation is warranted;
 - (B) Establish that the appropriate Island Burial Council will have ten days after referral by the Department of Land and Natural Resources to determine whether preservation is warranted of inadvertently discovered remains; and
 - (C) Delete references made to the Hawaiian organization, Hui Malama I Na Kupuna O Hawai'i Nei; and
- (2) Amends section 6E-43.6, Hawaii Revised Statutes, to:
 - (A) Extend the amount of time the Department of Land and Natural Resources and the appropriate medical examiner or coroner have to investigate and determine the proper treatment of multiple inadvertently discovered remains or the inadvertent discovery of a single skeleton; and
 - (B) Delete the provisions relating to the procedures and criteria established for the removal of inadvertently discovered remains.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs, the Society for Hawaiian Archeology, the Ko'olauloa Hawaiian Civic Club, and two individuals. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources.

The provisions under chapter 6E, Hawaii Revised Statutes, relating to burial sites, provide equity in respect, reverence, and treatment for unmarked burial sites found outside the boundaries of demarcated, dedicated, or identifiable cemetery boundaries. Recent inadvertent discoveries of burial sites during construction projects on Oahu include, the Keeaumoku Street Walmart, the Ko'olani luxury condominium, and the Ward Villages project. Timely and appropriate treatment of the inadvertent discovery of unmarked burial sites is necessary to avoid delays for landowners and developers, and provide relief for descendants who express concerns over having their ancestors' remains exposed and their identities unresolved for weeks. Currently, the jurisdiction over inadvertently discovered Native Hawaiian burial sites is under the Department of Land and Natural Resources. Your Committee finds that transferring the jurisdiction of these burial sites to the appropriate Island Burial Councils will more efficiently facilitate the process for the identification and treatment of inadvertently discovered Native Hawaiian burial sites.

The Society for Hawaiian Archeology indicated its concern over the jurisdiction of inadvertently discovered burial sites that were determined to be non-Hawaiian burial sites. Furthermore, the Society was concerned about deleting the requirement that the removal of remains be overseen by a qualified archaeologist. Your Committee notes that a qualified archaeologist who is trained in the proper identification of skeletal remains, ensures that the removal of burial remains is complete, properly identified and documented, and treated properly.

Furthermore, the Department of Land and Natural Resources indicated its concern with the provision that allows the Island Burial Councils ten days after a referral by the Department to make a determination of whether preservation of an inadvertently discovered burial site is warranted. Your Committee notes that the Island Burial Councils currently meet once-a-month, and a ten-day timeframe may cause undue burden on the Burial Councils, which also consist of volunteer council members who will need to take time off over their fulltime employment to attend Burial Council meetings.

Lastly, your Committee notes that references made to the Hawaiian organization, Hui Malama I Na Kupuna O Hawai'i Nei have been deleted throughout this measure. In the State Auditor's Report titled, *Investigation of the Department of Land and Natural Resources' Process for Developing Recommended Candidate Lists for Appointment to the Island Burial Councils* that was submitted to the Governor and Legislature on December 2004, the Auditor indicated that the naming of Hui Malama I Na Kupuna O Hawai'i Nei was the only Hawaiian organization named in law under the burial site provisions under chapter 6E, Hawaii Revised Statutes. The Auditor raised a concern that naming a single Hawaiian organization in statute infers authority and places an official imprimatur on the organization's behavior and practices. Thus, your Committee further finds that a single organization should not be named in statute.

Accordingly, your Committee has amended this measure by:

- (1) Extending the amount of time the appropriate Island Burial Council has to make a determination of whether preservation of an inadvertently discovered burial site is warranted from ten days to fifteen days;
- (2) Adding language to section 6E-43(b), Hawaii Revised Statutes, that indicates that the Department of Land and Natural Resources will be responsible for determining the treatment of the previously identified or inadvertently discovered burial site, if the appropriate Island Burial Council determines that the burial site is a non-Hawaiian burial site;
- (3) Adding clarifying language that the previously identified or inadvertently discovered burial sites referred to under section 6E-43, Hawaii Revised Statutes, are Native Hawaiian burial sites;
- (4) Reinstating the provision relating to the procedures and criteria established for the removal of inadvertently discovered remains under section 6E-43.6, Hawaii Revised Statutes, and deleting within that provision the reference made to the Hawaiian organization, Hui Malama I Na Kupuna O Hawai'i Nei, in accordance with the December 2004 Auditor's Report; and
- (5) Making technical, nonsubstantive amendments for the purposes of consistency and style.

Your Committee believes that this measure, as amended, fulfills its intent, which is to preserve cultural and historic property and ensure the proper handling and treatment of historic burial sites.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1639, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1639, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 734 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1816

The purpose of this measure is to protect and preserve the Kohala Historical Sites State Monument in Kohala for future generations to experience and enjoy by requiring the Department of Land and Natural Resources to consult with the Kahuna Nui of the Mo'okini Heiau prior to engaging in any improvements or alterations to the monument.

Specifically, this measure amends section 6E-38.5, Hawaii Revised Statutes, to codify language in the land deed that directs the State to consult with the Kahuna Nui of the Mo'okini Heiau on all matters that pertain to the three historic sites within the Mo'okini Complex area.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources; the Office of Hawaiian Affairs; Mo'okini Luakini, Inc. (the Kahuna Nui of the Mo'okini Heiau); and one individual.

Three historical sites are part of the Mo'okini Complex at the Kohala Historical Sites State Monument and includes the Mo'okini Heiau, the Kamehameha Birthsite, and the Kukuipahu Heiau. According to the genealogical chant of the Kahuna Nui of the Mo'okini Heiau, it is estimated that the Heiau was constructed in 480 A.D. Moreover, the Heiau is an artifact from prehistoric Hawaii that reflects the culture and construction capabilities of the Native Hawaiians over one thousand five hundred years ago. The Kamehameha Birthsite is where Kamehameha the Great received his blessings and birthrights in 1758 on the night of his birth. Thus, the Mo'okini Complex is an irreplaceable historical site and a major part of the Kohala Historical Sites State Monument.

The lands of the Mo'okini Complex are approximately 2,915 acres and were donated to the State by the Kohala Corporation in 1978. Included in the deed is a provision that states, prior to making any alterations or improvements within the Mo'okini Complex lands, the State "shall consult with the Kahuna Nui of the Mo'okini Heiau. . ." Furthermore, the Kahuna Nui of the Mo'okini Heiau indicated to your Committee that there have been attempts to make the Mo'okini Complex area a paid tourist destination, and the Kahuna Nui is concerned that routine tour groups will desecrate the unspoiled and culturally sacred lands of the Heiau and its surrounding areas.

Thus, your Committee finds that codifying the language in the land deed that directs the State to consult with the Kahuna Nui of the Mo'okini Heiau on all matters pertaining to the Mo'okini Complex area will fulfill the intent of this measure, which is to protect and preserve the Mo'okini Complex in Kohala for future generations to experience and enjoy.

Your Committee has amended this measure by inserting the proper diacritical marks for Mo'okini.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1816, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1816, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 735 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Intergovernmental and Military Affairs on S.B. No. 1219

The purpose of this measure is to protect the State's agricultural lands and ensure the affordability of these lands for future agricultural production by providing a one-time opportunity for the counties to petition the Land Use Commission to reclassify agricultural district lands with preexisting residential uses to allow for these dwellings to be a permissible use.

Testimony in support of this measure was submitted by the Department of Agriculture and the Land Use Research Foundation of Hawaii. Testimony in opposition to this measure was submitted by the Office of Planning, the Office of Hawaiian Affairs, Hawaii's Thousand Friends, and two individuals.

Under section 205-2, Hawaii Revised Statutes, the Land Use Commission is authorized to classify all land in the State into four major land use districts, which include urban, rural, agricultural, and conservation districts. Land classified within an agricultural district ensures that the land will be used for agricultural purposes and preserves the longevity of Hawaii's agricultural industry. Farm dwellings, which are defined as a single-family dwelling located on and used in connection with a farm under section 205-4.5(4), Hawaii Revised Statutes, are considered a permissible use in an agricultural district.

Your Committees find that there are certain dwellings situated on designated agricultural districts that do not meet the definition of a farm dwelling. Some of these residences are situated on land classified as agricultural districts, but the land no longer has any relation to agriculture. Reclassifying the land to allow these preexisting dwellings to be considered a permissible use will ensure that these agricultural districts will remain for any future agricultural purposes.

Your Committees have amended this measure by:

- (1) Clarifying that those dwellings, which do not meet the criteria for farm dwellings must be in existence prior to January 1, 2000, for the counties to petition the Land Use Commission for land reclassification;
- (2) Changing the effective date from taking effect upon its approval to January 1, 2009, to allow ample time for the Land Use Commission to implement the provisions and designate important agricultural lands under chapter 205, part III, Hawaii Revised Statutes;
- (3) Changing the sunset date from January 1, 2009, to January 1, 2010, to allow the counties one year to petition the Land Use Commission for land reclassification relating to preexisting residential uses on agricultural districts; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees believe that this measure, as amended, fulfills its intent to protect the State's agricultural lands and ensure the affordability of these lands for future agricultural production.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1219, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1219, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 3 (Fukunaga, Hee, Hemmings).

SCRep. 736 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Transportation and International Affairs on S.B. No. 768

The purpose of this measure is to increase effective enforcement of the laws and rules that protect and conserve the State's natural resources by designating Division of Conservation and Resources Enforcement vehicles as authorized emergency vehicles.

Specifically, this measure:

- (1) Amends section 291-31.5, Hawaii Revised Statutes, to allow Division of Conservation and Resources Enforcement vehicles to operate, affix, display, or possess a lamp, reflector, or illumination device that appears to be the color blue; and
- (2) Amends section 291C-1, Hawaii Revised Statutes, to include vehicles authorized pursuant to section 291-31.5, Hawaii Revised Statutes, under the definition for "authorized emergency vehicle."

Testimony in support of this measure was submitted by the Department of Land and Natural Resources, the Department of Public Safety, the Nature Conservancy, and ten individuals. Testimony in opposition to this measure was submitted by the Police Department, City and County of Honolulu and one individual.

The Department of Land and Natural Resources Division of Conservation and Resources Enforcement officers need the proper equipment to allow them to more effectively enforce the laws and rules that protect and conserve the State's natural resources. Several Division of

Conservation and Resources Enforcement officers testified to your Committees that there have been numerous situations where Division Enforcement officers have been involved in risky or dangerous circumstances while investigating possible violations of or enforcing conservation laws and rules.

Your Committees find that blue lights affixed to Division of Conservation and Resources Enforcement vehicles act as a deterrent when used during conspicuous patrols in state parks, hunting areas, forests, harbors, coastal areas, and other public recreational areas. The blue light is immediately identifiable as a color of authority, particularly during the night or during adverse weather conditions, and can enhance the Division's ability to respond to natural or manmade disasters, search and rescue, and wild land fires.

The Honolulu Police Department had concerns about the display of blue lights on vehicles from agencies other than police vehicles because of the public's association of blue lights with police vehicles. Your Committees note the suggestion made by the Honolulu Police Department to authorize the use of blue lights on Division of Conservation and Resources Enforcement vehicles only in a combination of blue and red to set these vehicles apart from Honolulu Police Department and other county police department vehicles.

Your Committees are also concerned that the language in this measure under section 1 may imply that the Chairperson of the Board of Land and Natural Resources may be able to authorize other Department vehicles to use and display blue lights other than Division of Conservation and Resources Enforcement vehicles. Thus, your Committees believe that the language needs to be amended to only apply to Division of Conservation and Resources Enforcement vehicles.

Accordingly, your Committees have amended this measure by:

- (1) Deleting the language under section 1 and replacing it with language that creates a new section under chapter 291, Hawaii Revised Statutes, which allows only the Division of Conservation and Resources Enforcement to affix and display a lamp, reflector, or illumination device that appears to be the colors blue and red; and
- (2) Deleting the reference to section 291-31.5, Hawaii Revised Statutes, under the definition for "authorized emergency vehicle" and replacing it with a reference to the new section under chapter 291, Hawaii Revised Statutes, in section 1 of this measure.

Your Committees believe that this measure, as amended, fulfills the intent of this measure, which is to increase effective enforcement of the laws and rules that protect and conserve the State's natural resources.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Transportation and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 768, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 768, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, none. Excused, 3 (Hooser, Taniguchi, Tsutsui).

SCRep. 737 Education on S.B. No. 98

The purpose of this measure is to repeal the transfer of public health nurses who supervise school health aides from the Department of Health to the Department of Education.

This measure also repeals the School Health Services Program from chapter 321, Hawaii Revised Statutes, and establishes a new program under the Department of Education, chapter 302A, Hawaii Revised Statutes.

Testimony in support of this measure was submitted by the Department of Education, the Department of Health, and sixteen individuals. Testimony in opposition of this measure was submitted by the Hawaii Government Employees Association and four individuals.

Your Committee finds that pursuant to Act 51, Session Laws of Hawaii 2004, as amended, the Department of Education was established as a separate jurisdiction within the State. Accordingly, the transfer of authority and personnel to the Department of Education, which included Public Health Nurse and School Health Aide positions from the Department of Health, was accomplished. Your Committee understands that the aforementioned transfer was intended to provide a coordinated school health services program within the Department of Education; however, concerns have arisen regarding problems associated with the transfer of Public Health Nurse positions, as well as the security of existing School Health Aide positions upon transfer to the Department of Education.

Your Committee further finds that the Departments of Health and Education have executed a Memorandum of Understanding that will allow Public Health Nurses who supervise School Health Aides to remain within the Department of Health while providing clinical supervision to the Department of Education's School Health Aides. Your Committee believes that maintaining the status quo with regard to the Public Health Nurse positions will provide a more efficient use of personnel and resources.

However, under the weighted student formula, the concern exists as to whether all existing School Health Aide positions will survive. Your Committee finds that these employees are concerned for their livelihood and the situation does not reveal what will ultimately happen to each of these employees. Therefore, your Committee determines that this measure should provide a means by which School Health Aides can be trained and educated to serve in other positions within the Department of Education, if necessary and appropriate.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the Department of Education to provide career pathways development and training opportunities for School Health Aides in the School Health Services field and other fields within the Department of Education to ensure the opportunity for continued employment with the Department of Education; and
- (2) Making technical, nonsubstantive changes for purposes of clarity and to reflect preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 98, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 98, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Ayes with Reservations, 1 (Taniguchi). Noes, none. Excused, 1 (Hee).

SCRep. 738 Ways and Means on S.B. No. 1837

The purpose of this measure is to establish certain requirements concerning condominium property management agreements.

Comments in support of this measure were submitted by the Hawaii Independent Condominium & Cooperative Owners. Marriott International, Inc. submitted comments opposing section 3 of the measure.

Your Committee finds that property management companies have an advantage over condominium associations because the property management companies dictate when property management agreements can be terminated. Property management companies require provisions in bylaws that remove authority to terminate the agreement from the board and require a qualified majority of unit owners to do so. Based on practical experience and the lack of statutory regulation, it is very difficult to terminate a property management agreement. In addition, your Committee finds that there is confusion about the extent of the definition of "unit owner" in terms of serving on the board, who can be charged for assisted living services, and specific rights of owners to participate in board meetings.

This measure resolves those issues by adding a statute governing property management agreements that requires the agreements to be in writing and the board's right to terminate the agreement. The bill clarifies the definition of unit owner by specifically excluding a time share owner, provides that only owners who actually receive assisted living services can be charged for the services, and reemphasizes an owner's right regarding board meetings.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1837, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 739 Ways and Means on S.B. No. 1717

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist public utilities with capital improvement projects for the benefit of the public health, safety, and general welfare.

Your Committee received comments in support of this measure from the Hawaiian Electric Company, Inc.

Your Committee finds that the proceeds of the sale of the special purpose revenue bonds authorized by this measure will be used for the construction of facilities that will benefit ninety-five per cent of Hawaii's population. This type of financing will be less expensive than other types of financing and will result in lower rates than other types of financing used to fund utility capital improvement projects.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1717, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 740 Ways and Means on S.B. No. 1409

The purpose of this measure is to set an annual maximum aggregate tax of \$200,000 on gross premiums to be paid by a captive insurance company.

Your Committee received comments from the Department of Commerce and Consumer Affairs, State Insurance Commissioner, in support of this measure. Your Committee also received comments on this measure from the Tax Foundation of Hawaii.

Your Committee notes that presently the annual premium tax paid by Hawaii captive insurance companies is based on a percentage of the total amount of premiums that are written. Putting a maximum cap on the annual premium taxes paid to the State will encourage more insurance companies to conduct more business in the State through Hawaii captive insurance companies.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1409 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 741 Ways and Means on S.B. No. 1848

The purpose of this measure is to provide additional funding to support public, educational, and governmental access channels of cable television in underserved areas of the State.

More specifically, the measure authorizes the Director of Commerce and Consumer Affairs to use moneys in the compliance resolution fund, after the operational expenses for the administration of cable television are met. Additionally, the measure clarifies that annual fees paid by cable operators may be used to support public, educational, or governmental access facilities, equipment, and operations for underserved areas.

The Department of Commerce and Consumer Affairs submitted comments on the measure.

Your Committee finds that, in 2003, the Department of Commerce and Consumer Affairs conducted a number of public meetings throughout the State relating to public, educational, and governmental access channels on cable television. The public comments identified a number of areas underserved by these required access channels. However, your Committee further finds that there are already uses planned for these compliance resolution funds to enhance the Institutional Network, which allows Hawaii state government and education to serve the public statewide. While acknowledging value of PEG access in underserved areas, the Committee recognizes that continued expansion of the Institutional Network is of critical importance to the entire State of Hawaii.

Accordingly, upon further consideration, your Committee has amended this bill to:

- (1) Clarify that the Department of Commerce and Consumer Affairs's use of moneys from the compliance resolution funds shall not negatively impact the development of the institutional network; and
- (2) Make technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1848, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1848, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 742 Ways and Means on S.B. No. 1402

The purpose of this measure is to appropriate funds out of the loss mitigation grant fund for the loss mitigation grant program.

Your Committee received supporting comments from the Department of Commerce and Consumer Affairs and the Hawaii Lumber Products Association. The Department of Defense deferred to the Department of Commerce and Consumer Affairs for comment and recommendations.

Your Committee finds that Act 5, Special Session, Session Laws of Hawaii 2005 appropriated \$2,000,000 for the loss mitigation grant program to provide grants for the installation of wind resistive devices for dwellings. The funds, however, have since lapsed due to the time consuming development of technical standards and program guidelines needed to administer the program.

This measure re-appropriates the lapsed funds under Act 5 to allow the grants to be awarded as intended under the loss mitigation grant program.

Your Committee has amended the measure by changing the appropriation to an unspecified amount.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1402, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1402, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 743 Ways and Means on S.B. No. 1934

The purpose of this measure is to require the Department of Taxation to allow an individual taxpayer to request that the taxpayer's refund be electronically deposited into more than one account at financial institutions.

Your Committee received written comments in support of this measure from the Hawai'i Alliance for Community-Based Economic Development and 3Point. Written comments in opposition was submitted by the Department of Taxation. Written comments were submitted from the Tax Foundation of Hawaii.

Your Committee finds that for many people, particularly lower income taxpayers, a tax refund is the only substantial amount of "discretionary" income they may receive in a year. Your Committee has heard of individuals who use the tax refund to pay down debt, access a mortgage assistance program, and make tuition payments – expenses that would not be "affordable" otherwise.

Income splitting is a standard asset management tool for the wealthy, allowing a person to split assets into separate pools for spending and for saving. This measure would provide a similar opportunity for a Hawaii taxpayer, without regard to income level, to split the financial asset that the tax refund represents.

Your Committee notes that both the federal government and California allow an individual's tax refund to be electronically deposited in more than one financial account. It is the intent of this measure to provide Hawaii residents with refund splitting options comparable to that provided by the federal government, which allows the refund to be split into a maximum of three accounts. Electronic deposit into separate financial accounts ensures that the refund is more likely to be reserved for extraordinary expenses.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1934, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 744 Ways and Means on S.B. No. 711

The purpose of this measure is to establish a ten-year statute of limitations on tax collections, and to clarify that the three-year statute of limitations on tax assessments for the general excise tax, use tax, and other period taxes begins at the filing of each periodic return.

Your Committee received written comments in support of this measure from The Hawaii Chamber of Commerce of Hawaii, Hawaii Society of Certified Public Accountants, and two individuals. Comments were received from the Tax Foundation of Hawaii. Written comments opposing this measure was submitted by the Department of Taxation.

Your Committee finds that under existing law, Hawaii has no statute of limitations on the collection of delinquent taxes, unlike the federal government, which has a ten-year statute of limitations.

With regard to the three-year statute of limitations on assessment of periodic returns, your Committee finds that the existing law is confusing, and leaves law abiding taxpayers vulnerable to misinterpretation of their responsibilities in filing. Your Committee believes clarification would be in the best interests of both taxpayers and the State in its efforts to administer Hawaii tax law in a judicious and efficient manner. The provisions in this measure will provide needed conformity with federal tax law, as well as ensure clarity for Hawaii taxpayers in meeting their tax obligations in a timely manner.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 711 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Fukunaga, Menor, Hemmings).

SCRep. 745 Ways and Means on S.B. No. 896

The purpose of this measure is to support the operations and programs of a state-operated technology incubator and innovation center in the Kakaako district of downtown Honolulu.

More specifically, this measure authorizes the High Technology Development Corporation to negotiate a lease agreement and guaranty for a period of ten years for approximately ninety-nine thousand square feet of laboratory and office space in a life sciences research complex in Kakaako. This measure also appropriates unspecified amounts for fiscal year 2007-2008 and fiscal year 2008-2009 for this purpose.

Your Committee received comments in support of this measure from the Department of Business, Economic Development, and Tourism, the High Technology Development Corporation, the Hawaii Community Development Authority, the University of Hawaii John A. Burns School of Medicine, the University of Hawaii Office of Technology Transfer and Economic Development, Ambient Micro, LLC, Applied Marine Solutions, Cardax Pharmaceuticals, Geo-Recovery Hawaii, Inc., Hawaii Science and Technology Council, Honolulu Seawater Air Conditioning, LLC, Kamehameha Schools, KUD International and Phase 3 Properties, Kuehnle AgroSystems, LLC, National Defense Center of Excellence for Research in Ocean Studies, Neptune Technologies, Inc., The Pacific Resource Partnership, Pacific Sun Energy Corporation, Quantum Leap Interactive, 21st Century Systems, Inc., and three private citizens. The Economic Development Alliance of Hawaii submitted comments.

Your Committee finds that there is a shortage of incubator and specialized laboratory space, particularly near the medical school, and that there is widespread support for the state-of-the-art facilities that would be provided through this measure. It is the intent of your Committee to continue legislative discussions on this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 896, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Menor, Hemmings).

SCRep. 746 Ways and Means on S.B. No. 1688

The purpose of this measure is to assist small, innovative dual use high technology companies to accelerate vital technology development and commercialization in Hawaii.

Specifically, this measure establishes a research and development follow-on funding program for Hawaii-based small businesses that received federal funding through the Hawaii Technology Development Venture or the National Defense Center of Excellence for Research in Ocean Sciences and appropriates an unspecified amount to the Hawaii Strategic Development Corporation, which is to administer the program. The specific allocations of moneys in the funding program for the Hawaii Technology Development Venture and the National Defense Center of Excellence for Research in Ocean Sciences for fiscal years 2007-2008 and 2008-2009 are also unspecified.

Your Committee received comments in support of this measure from National Defense Center of Excellence for Research In Ocean Sciences, Applied Marine Solutions, Oceanic Imaging Consultants, Inc., Ambient Micro, LLC, Technical Research Associates, Inc., Oceanit, Pipeline Communications and Technology, Inc., BDI maritime, Enterprise Honolulu, and numerous individuals. The Department of Business, Economic Development and Tourism, and the Hawaii Strategic Development Corporation offered comments.

Your Committee believes that establishing the research and development follow-on funding program is an important step in assisting these small, innovative, dual use technology companies in Hawaii to succeed and diversify the State's economy.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1688, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 747 Economic Development and Taxation on S.B. No. 870

The purpose of this measure is to establish and designate an archaeological data survey as an on-line database program of the State of Hawaii Museum of Natural and Cultural History.

Testimony in support of this measure was received from Bishop Museum. The Department of Land and Natural Resources, Office of Hawaiian Affairs, and Society for Hawaiian Archaeology submitted comments.

Your Committee finds that there is a wealth of archaeological material in Hawaii that could be made available on-line for the benefit of both cultural specialists and the general public. Your Committee has heard a number of concerns raised, however, regarding sources of data for the on-line database, access and confidentiality issues, and possible duplication of services.

Your Committee further finds that addressing the concerns before establishment of an on-line database is critical to its success. To this end, your Committee requested the parties involved to discuss and recommend amendments, which would resolve most, if not all the concerns. Your Committee thanks the organizations involved for doing so in a timely manner.

Your Committee notes that this measure, as amended, will focus first on data held by Bishop Museum for the on-line database. In essence, this will function somewhat as a "pilot project" and allow the database to be developed, evaluated, and refined by Bishop Museum before additional agencies and organizations contribute data.

Your Committee has amended this measure accordingly, by:

- (1) Specifying the types of materials to be included in the on-line database, beginning with the collections of Bishop Museum;
- (2) Authorizing the museum, in consultation with the Office of Hawaiian Affairs, to withhold from the database, either temporarily or permanently, information that may pose a threat to the protection of valuable archaeological sites and artifacts;
- (3) Making a technical amendment for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 870, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 870, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Ige).

SCRep. 748 Ways and Means on S.B. No. 1315

The purpose of this measure is to:

- (1) Make the Access Hawaii Committee permanent; and
- (2) Authorize the committee to provide oversight of the State's internet portal manager.

The Department of Commerce and Consumer Affairs, High Tech Development Corporation, and the State Procurement Office submitted comments in support. The Judiciary and the Office of Information Practices submitted comments.

Your Committee finds that the Internet plays an integral role in the government's responsibility to provide accessibility of government information and availability of its resources to the general public.

Your Committee recognizes the importance of a governing body to oversee the State's portal manager and its contractor to help ensure that the State's resources are utilized efficiently and effectively.

Your Committee has amended this measure by:

- (1) Requiring the committee to submit an annual report to the Governor and the Legislature; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1315, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1315, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 749 Ways and Means on S.B. No. 880

The purpose of this measure is to fund a temporary committee to establish the museum of Hawaiian music and dance. This measure provides the criteria to determine the appropriate type of institution that should be established, its location, and possible financing mechanisms, and requires an initial business plan for the museum of Hawaiian music and dance.

The Department of Business, Economic Development, and Tourism and the State Foundation on Culture and the Arts submitted comments in support. The Hawaii Tourism Authority and the Office of Hawaiian Affairs submitted comments.

Your Committee finds that a museum of Hawaiian music and dance would preserve and perpetuate the Hawaiian culture, as well as promote appreciation for various art forms for present and future generations. The committee would report its findings and recommendations to the Legislature before the 2008 regular session.

Your Committee has amended this bill by changing the effective date of the measure to July 1, 2007.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 880, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 880, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Menor, Hemmings).

SCRep. 750 Ways and Means on S.B. No. 148

The purpose of this measure is to satisfy the Hawaii State constitutional mandate requiring taxpayers to receive a tax credit or refund when the balance of the state general fund exceeds five per cent of general revenues for each of two successive fiscal years.

The measure accomplishes this purpose by providing a tax credit for each resident individual taxpayer, who files an individual income tax return for the taxable year 2007, and who is not claimed or is not eligible to be claimed as a dependent by another.

Your Committee received written comments in support of this measure from the Department of Taxation. The Tax Foundation of Hawaii submitted written comments on this measure.

Your Committee finds that providing a tax credit, as opposed to a refund, is the most efficient mechanism for satisfying the mandate of article VII, section 6 of the Constitution of the State of Hawaii.

Your Committee amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 148, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 148, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Menor, Hemmings).

SCRep. 751 Ways and Means on S.B. No. 1882

The purpose of this measure is to establish a food income tax credit in an unspecified amount.

Written comments supporting the intent of this measure were submitted by the Department of Taxation. Written comments on this measure were submitted by the Tax Foundation of Hawaii.

Your Committee finds that a food income tax credit should be established. However, proposals to exempt such transactions from the general excise tax should be weighed carefully. To this end, your Committee supports continued discussion on this issue.

Your Committee has amended this measure by making technical amendments for clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1882, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1882, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 752 Ways and Means on S.B. No. 100

The purpose of this measure is to help increase the number of licensed teachers in Hawaii by making it easier for the Hawaii Teacher Standards Board's to perform its duties efficiently.

More specifically, the measure:

- (1) Authorizes the Board to suspend its policies, rules, and standards in extenuating circumstances; and
- (2) Enables the Board to amend certain fees and charges related to the performance of its duties.

The Department of Education and the University of Hawaii submitted comments in support of this measure. The Hawaii Teachers Standards Board offered comments.

Your Committee finds that an independent governing body like the Hawaii Teachers Standards Board needs flexibility in its operations to license more than 12,000 teachers in the State, particularly with accommodating extenuating circumstances.

Your Committee further finds that this measure will enable the Board to act reasonably and responsibly when questions of license equivalence and revocation are considered.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 100, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 753 Ways and Means on S.B. No. 1214

The purpose of this measure is to authorize the issuance of special purpose revenue bonds for Le Jardin Academy.

Your Committee received comments in support of this measure from the Le Jardin Academy and the Hawaii Association of Independent Schools.

Your Committee finds that this measure will assist Le Jardin Academy with financing and refinancing the construction, improvement, and equipping of its educational facilities. Le Jardin Academy intends to construct a new administrative building and new classrooms that will include science laboratories to be used by both middle and high school students. A gymnasium and an arts center will also be constructed to benefit all students in pre-kindergarten through grade twelve.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1214 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 754 Ways and Means on S.B. No. 603

The purpose of this measure is to improve the public charter school system by clarifying the functions, duties, and roles of the charter school review panel and the Board of Education in the administration and operations of charter schools in the State.

Comments in support of this measure were submitted by the Hawaii Charter Schools Network, West Hawai'i Explorations Academy, Innovations Public Charter School, Halau Ku Mana Public Charter School, students and alumni of charter schools, and private citizens. The University of Hawaii College of Education and the Ho'okako'o Corporation supported the intent of this measure.

Comments in opposition to this measure were received from the Board of Education. The Kamehameha Schools offered comments on this measure.

Your Committee finds the charter schools provide choices for parents and students within the public school system while maintaining a system of accountability for student achievement. Charter schools encourage resourcefulness and develop innovative approaches to educational governance, financing, curricula, and teaching strategies.

This measure strengthens the charter schools system by:

- (1) Allowing a member of a public employees' collective bargaining unit to serve on the charter school review panel (Panel);
- (2) Providing that the Board of Education shall appoint members of the Panel; and providing that the Panel oversees and monitors charter schools, review, approve, or deny significant amendments to detailed implementation plans, review self-evaluation reports, and place charter schools on probation or revoke their charters;
- (3) Allowing local school boards to enter into long-term lease agreements;
- (4) Providing that the Panel shall be accountable to the charter schools and the general public, and increasing the number of members on the Panel;
- (5) Shifting funding for the Panel from the Board of Education to the charter school administrative office;
- (6) Authorizing the establishment of agency-sponsored charter schools and conversion charter schools;
- (7) Providing that the Executive Director shall be hired and may be terminated by the Panel, rather than the Board of Education;

- (8) Increasing the per-pupil allocations for charter schools and including an allocation for start-up charter schools to offset facility, infrastructure, and repair and maintenance costs; and
- (9) Providing an unspecified appropriation.

Your Committee has amended this measure by:

- (1) Removing changes that authorize the establishment of agency-sponsored charter schools and conversion charter schools;
- (2) Retaining the Board of Education's authority to establish the application process for charter schools;
- (3) Changing the effective date of the appropriation section to reflect the start of the fiscal year; and
- (4) Making technical nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 603, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 603, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 755 Ways and Means on S.B. No. 683

The purpose of this measure is to increase the financial support provided to families of underrepresented college student populations by the Running Start Program.

Specifically, this measure allows high school students in the Program to earn college credit for courses one hundred level and above and satisfy their high school graduation requirements. Moneys for the program will be appropriated out of the University of Hawaii scholarship and special assistance fund.

Comments in support of this measure were submitted by the University of Hawaii.

Your Committee finds that the Running Start Program, a joint program of the Department of Education and the University of Hawaii, helps to prepare high school students for college. Eligible high school students may enroll in qualified college-level courses and earn credits for high school graduation and college simultaneously. Running Start provides many students with the motivation, preparation, and opportunity to explore and pursue post-secondary education, which would otherwise be unavailable or unaffordable. Your Committee believes that additional funding is necessary to allow the Running Start Program to keep pace with increased participation in the program and interest in college entry.

Your Committee has amended this measure by:

- (1) Replacing the appropriations with unspecified blank amounts to facilitate further discussion; and
- (2) Making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 683, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 683, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 756 Ways and Means on S.B. No. 620

The purpose of this measure is to authorize the issuance of special purpose revenue bonds for Hawaii Preparatory Academy.

Your Committee received comments strongly supporting this measure from Hawaii Preparatory Academy and the Hawaii Association of Independent Schools.

Your Committee finds that the special purpose revenue bonds issued pursuant to this measure will allow the Hawaii Preparatory Academy to make substantial capital improvements to its lower and middle school facilities and its upper school dormitories to benefit the student body and the community at large.

Your Committee has amended the measure by making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 620, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 620, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 757 Ways and Means on S.B. No. 227

The purpose of this measure is to authorize the issuance of special purpose revenue bonds for Hanalani Schools.

Your Committee received comments supporting the measure from Hanalani Schools and the Hawaii Association of Independent Schools.

Your Committee finds that this measure will allow Hanalani Schools to construct three buildings, renovate and upgrade their facilities, and consolidate existing loans. Fund will be used to build an art center to display paintings, drawings, ceramics, textiles, and video productions, an early childhood facility to accommodate the needs of early childhood education, and a faculty housing project:

Your Committee has amended the measure by:

- (1) Adding language as a new section 4 to the bill that will allow for the pooling of bond issues and renumbering the remaining sections accordingly; and

(2) Amending the measure by making technical amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 227, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 227, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 758 Energy and Environment on S.B. No. 1462

The purpose of this measure is to repeal the law that requires persons to obtain a permit to transport petroleum contaminated soil.

Your Committee received testimony in support of this measure from the Department of Health (DOH). Comments were received from two individuals.

Your Committee finds that the DOH has seen a significant decrease in the number of releases and cleanups of petroleum contaminated soil. Since federal law required the cleanup of petroleum contaminated soil caused by underground storage tanks by 1998, there has been a dramatic decline in incidences of transportation of contaminated soil, particularly to remediation sites. Your Committee notes that the DOH has increased its oversight on the proper management and disposal of petroleum contaminated soil at both the site of generation and the site of disposal.

Therefore, the intent of this measure is to eliminate redundancy in the State's environmental protection law without threat to the public health, safety, and welfare.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1462 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 759 Energy and Environment on S.B. No. 992

The purpose of this measure is to require the Department of Business, Economic Development, and Tourism (DBEDT) to post on the department's website, a current list of applications for permits and licenses for hydroelectric projects in and around Hawaii waters.

Your Committee received testimony in support of this measure from DBEDT, World Business Academy, Honolulu Seawater Air Conditioning, LLC, and two individuals.

Under title 16, United States Code, section 797(f), the Federal Energy Regulatory Commission is required to provide notice of any preliminary permit applications for hydroelectric projects to any state or municipality likely to be affected by the application, and to publish notice once each week for four weeks in a daily or weekly newspaper published in any county the project is likely to affect. A preliminary permit is for the sole purpose of maintaining priority of application for a license and can last for up to three years (title 16, United States Code, section 798).

Your Committee finds that applications for development-related permits generally come to the public's attention by word-of-mouth. The intent of this measure is to provide additional public notice of the intent to develop renewable energy projects.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 992, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 992, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 760 (Joint/Majority) Energy and Environment and Economic Development and Taxation on S.B. No. 1793

The purpose of this measure is to clarify the method of selection of members of the Board of Directors (Board) of the Natural Energy Laboratory of Hawaii Authority (NELHA).

Specifically, this measure would:

- (1) Increase from eleven to thirteen, the number of members on the Board; and
- (2) Increase from three to five, the number of public members, with two of them selected from tenants of NELHA and three from the general public;

Your Committees received testimony in support of this measure from Kona Bay Marine Resources, Cyanotech, High Health Aquaculture Inc., and Hawaii Aquaculture Association. The State Attorney General and NELHA submitted comments.

Your Committees find that the tenants of NELHA provide much of the revenue necessary for the operation of NELHA facilities. NELHA tenants could therefore provide useful insight in Board decisions.

However, your Committees are concerned with the potential conflict of interest that may occur when adding tenants to the NELHA Board, particularly in situations where the Board is considering lease rent or water rate issues that directly impact tenants. Allowing tenant Board members to vote on such matters would create unnecessary ethical concerns that may detract from the Board's ability to operate efficiently.

In light of this concern, your Committees have amended this measure by:

- (1) Recusing the tenant members from voting on lease rent or water rate issues, to avoid conflicts of interest; and
- (2) Requiring a super majority vote of seven members to make decisions on lease rent or water rate issues, in recognition of the importance of these issues to the tenants.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Economic Development and Taxation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1793, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1793, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, 1 (Trimble). Excused, 1 (Ige).

SCRep. 761 Ways and Means on S.B. No. 1222

The purpose of this measure is to clarify that, to obtain the State income tax energy tax credit, all energy technology systems must be installed and placed in service in the State of Hawaii.

Written comments in support of this measure was submitted by the Department of Taxation. Plug Power Inc. and the Tax Foundation of Hawaii submitted written comments.

Your Committee amended this measure by changing the effective date so that the measure will apply prospectively, rather than retroactively to taxable years beginning after December 31, 2006.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1222, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1222, S.D. 3.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 762 Ways and Means on S.B. No. 1720

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist Jacoby Development, Inc., with the planning, designing, constructing, and equipping of, and the acquisition of lands for, a plasma municipal solid waste processing system on the island of Oahu.

Your Committee received comments in support of this measure from the Nanakuli Hawaiian Homestead Community Association and Geoplasma, LLC, and a private citizen. The Natural Energy Laboratory of Hawaii submitted comments.

Your Committee finds that disposal of municipal solid waste continues to be a problem with no single solution. While much of Oahu's waste is turned into electrical energy at the island's waste-to-energy plant, a large amount of waste and ash residue still goes into the Waimanalo Gulch landfill or the landfill in Nanakuli. Plasma arc technology can convert municipal solid waste into electricity and chemically and biologically inert slag that can be used in, for example, paving materials.

Your Committee has amended this measure by changing the effective date to July 1, 2070, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1720, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1720, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 9. Ayes with Reservations, 3 (English, Hooser, Tokuda). Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 763 Ways and Means on S.B. No. 153

The purpose of this measure is to appropriate moneys to the Department of Health to assess the structural integrity of all hospitals and nursing homes in Hawaii to determine their ability to withstand different types of natural disasters.

The Healthcare Association of Hawaii submitted comments in support of this measure. The Department of Defense, Hawaii Coalition of Care Home Administrators, and the Structural Engineers Association of Hawaii submitted comments.

Your Committee finds there is concern about whether nursing home facilities in the State are designed to withstand a major natural disaster. Because shelter capacity in the State is not sufficient to absorb a full evacuation of these facilities, it would be advisable for these facilities to have the capability to "shelter-in-place" their residents. To do this, however, the facilities need to be designed and constructed to withstand severe natural disasters and shelter their occupants. Although hospitals are generally more prepared for emergencies, they, too, deserve an evaluation of their ability to withstand a natural disaster. Accordingly, it is your Committee's intent to require the Department of Health to assess the structural integrity of nursing homes and hospitals in the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 153, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (English, Whalen).

SCRep. 764 Ways and Means on S.B. No. 1457

The purpose of this measure is to make an emergency general fund appropriation to the Department of Health for the State's obligations under the federal Medicaid title XIX programs.

Your Committee received comments in support of this measure from the State Council on Developmental Disabilities and Easter Seals. The Department of Health submitted comments.

Your Committee finds that emergency funding is needed to support current clients and to reasonably admit individuals into the program in order to fulfill court-ordered obligations.

Your Committee has amended this measure by specifying an appropriation figure of \$4,980,523 and by clarifying the language relating to the exceeding of the general fund expenditure ceiling.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1457, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1457, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 765 Ways and Means on S.B. No. 952

The purpose of this measure is to enable Kahuku Hospital to remain in operation and continue to serve the residents and visitors of the north shore of Oahu.

Specifically, this measure authorizes the Hawaii Health Systems Corporation to acquire Kahuku Hospital. Under this measure:

- (1) None of the liabilities of Kahuku Hospital will become liabilities of the Hawaii Health Systems Corporation;
- (2) The Hawaii Health Systems Corporation, at its discretion, may retain any or all medical and nonmedical employees of Kahuku Hospital and may adjust the levels of services provided by Kahuku hospital; and
- (3) Kahuku hospital shall be exempt from the public agency meetings and records law, the concessions on public property law, and the law requiring tax clearances for contractors.

This measure also makes appropriation of an unspecified amount.

Your Committee received comments in support of this measure from the Oahu Regional CEO of the Hawaii Health Systems Corporation, Healthcare Association of Hawaii, UPW, Hawaii Reserves, Inc., and twenty-nine individuals. The Department of Health and the Office of Information Practices offered comments.

Your Committee finds that this measure will enable Kahuku Hospital to continue its operations; preserve its hospital license; retain its certificate of need and critical access hospital designation; reorganize; and settle its debts.

Upon further consideration, your Committee has amended this measure by:

- (1) Adding a subsection (f) to the new section 323F- , Hawaii Revised Statutes, to exempt the purchases of goods and services by, or on behalf of, Kahuku hospital (chapter 103D, Hawaii Revised Statutes);
- (2) Clarifying that Kahuku Hospital is exempt from only part I of chapter 92, Hawaii Revised Statutes, relating to meetings, and not from the entire chapter; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 952, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 952, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (English, Whalen).

SCRep. 766 Ways and Means on S.B. No. 1282

The purpose of this measure is to address the critical shortage of mobile intensive care technicians and paramedics in Hawaii by:

- (1) Establishing the emergency medical technician training stipend program; and
- (2) Appropriating \$300,000 for stipends for ten students to attend a state-qualified mobile intensive care technician program.

Comments in support of the measure were received from American Medical Response, Kauai County Subarea Health Planning Council, a Maui EMS Advisory Committee facilitator, and eight concerned individuals.

Your Committee finds that the critical shortage of mobile intensive care technicians and paramedics will be even more acute, as an estimated two hundred fifty workers will be needed to fully staff Hawaii's emergency medical system in the next five years.

Your Committee further finds that the lack of training and training resources is especially critical on the neighbor islands.

Your Committee has amended this measure by changing the amount appropriated to an unspecified sum to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1282, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1282, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 767 Ways and Means on S.B. No. 1481

The purpose of this measure is to establish and fund a pilot program for screening, brief intervention, and referral to substance abuse treatment facilities for people who suffer injuries or trauma resulting from the use of alcohol or illegal substances.

Your Committee received comments in support of the bill from the Lieutenant Governor, the Department of Health, the University of Hawaii at Manoa John A. Burns school of medicine, Mothers Against Drunk Driving, and one private citizen.

Your Committee finds that medical personnel in emergency rooms often encounter people who have sustained injuries or trauma from the abuse of alcohol or illegal substances. At this time, there is no program established that properly seizes these opportunities to help the people who were injured.

Your Committee believes that it would benefit the injured people to receive screening, brief intervention, education, and, if necessary, a referral to an appropriate care or treatment facility as part of an emergency room visit.

Your Committee finds that establishing a pilot project, as recommended by the United States Department of Health and Human Services and as implemented in various other states, would be the most preferable way to address these issues. Your Committee further finds that similar programs are evidence-based, cost-effective, and have shown significant success in treating alcohol and illegal substances abusers receiving the services.

Your Committee amended the bill to:

- (1) Limit the initial duration of the pilot program to two years;
- (2) Clarify that the University of Hawaii at Manoa John A. Burns School of Medicine will establish and administer the pilot program;
- (3) Require the administering agency to submit a report to the Legislature and to make recommendations, including whether to continue the pilot program after the initial two-year period; and
- (4) Make technical nonsubstantive changes for purposes of clarity, style, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1481, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1481, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 768 Ways and Means on S.B. No. 51

The purpose of this measure is to ensure the health, safety, and welfare of individuals in the State who require the services of home care agencies.

Specifically, this measure requires the Department of Health to license home care agencies by adopting rules. This measure defines “home care agencies” and “home care services”. The measure is repealed on June 30, 2009.

Your Committee received comments in support of this measure from the Healthcare Association of Hawaii and Wilson Homecare.

Your Committee finds that the Department of Health should be given an opportunity to regulate home care agencies through licensing. However, the repeal of this measure in 2009 will not provide enough time for rules to be adopted and for the effects of the licensing program to be properly reviewed.

Accordingly, your Committee has amended this measure by changing the repeal date to June 30, 2012 in order to afford the Department of Health sufficient time to adopt rules and to properly review its actions. Your Committee has also made technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 51, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 51, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (English, Menor, Whalen).

SCRep. 769 Ways and Means on S.B. No. 971

The purpose of this measure is to extend the sunset date for special purpose revenue bonds issued to the Queen’s Health Systems.

Your Committee received comments in support of this measure from the Queen’s Medical Center and Healthcare Association of Hawaii.

This measure extends from June 30, 2008 to June 30, 2013, the authorization to issue special purpose revenue bonds that will finance the costs of construction, improvements, and equipment of health care facilities and enhance patient care by providing high quality health care services to the people of Hawaii.

Your Committee finds that section 39A-37, Hawaii Revised Statutes, prohibits authorizations of special purpose revenue bonds “for a period exceeding five years of its enactment.” This measure is extending the authorization until 2013--five years after the authorization lapses in 2008, but six years after enactment this year.

Accordingly, in order to address this issue, your Committee has amended this measure to change the effective date to June 29, 2008. Your Committee has also made technical amendments to correctly number the sections of the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 971, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 971, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 770 Ways and Means on S.B. No. 810

The purpose of this measure is to appropriate funds to establish a “totally integrated community” on the state-owned Waimano ridge lands.

More specifically, a Waimano ridge task force was established by the Department of Health and now funds are appropriated for operating expenses of the task force and to develop an updated comprehensive master plan for the area.

No written comments were submitted regarding this bill.

Your Committee finds that previous legislation requires the State to cooperate with the residents of the Waimano ridge area and to establish a “totally integrated community” master plan. Yet, because of an economic downturn, the master plan was never implemented.

Your Committee finds that appropriating funds for the Waimano ridge task force, to update the master plan and to adjust it to the changed circumstances, and to create one permanent, full-time Waimano ridge facilities manager position will accomplish the goal of establishing a totally-integrated, community friendly environment in the Waimano ridge area.

Your Committee amended the bill to make technical nonsubstantive changes for clarity, style, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 810, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 810, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (English, Whalen).

SCRep. 771 (Majority) Ways and Means on S.B. No. 1283

The purpose of this measure is to support the University of Hawaii John A. Burns School of Medicine with its operating expenses.

Specifically, this measure allows the twenty-eight per cent of tobacco settlement funds that are currently appropriated into the University revenue-undertakings fund to be used for the payment of annual operating expenses incurred by the new medical school facility of the University of Hawaii in addition to the payment of debt service. The effective date of this measure is July 1, 2020.

Your Committee received comments in support of this measure from the University of Hawaii John A. Burns School of Medicine. Comments in opposition were offered by the Department of Budget and Finance and Coalition for a Tobacco Free Hawaii.

Your Committee finds that this measure will materially assist the University of Hawaii School of Medicine to address operating expenses for its new facilities.

Your Committee has made technical amendments to properly format section 328L-2(b), Hawaii Revised Statutes, to comply with standard drafting convention.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1283, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1283, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, 1 (Hemmings). Excused, 1 (Whalen).

SCRep. 772 Ways and Means on S.B. No. 973

The purpose of this measure is to ensure that the community health care system remains financially viable in the face of growth in the populations of the uninsured and underinsured.

Specifically, this measure:

- (1) Establishes a process by which federally qualified health centers and rural health centers receive supplemental Medicaid payments;
- (2) Provides for prospective payment system rates to be adjusted for any adjustment in the scope of services; and
- (3) Appropriates an unspecified amount for federally qualified health centers and rural health centers to provide health care services to uninsured residents of Hawaii.

This measure takes effect on July 1, 2020.

Your Committee received comments in support of this measure from the Hawaii Primary Care Association, Executive Director and board members of West Hawaii Community Health Center, Community Clinic of Maui, Hamakua Health Center, Executive Director and Chairperson of the Board of Kalihi-Palama Health Center, Kokua Kalihi Valley, Executive Director and a board member of the Waikiki Health Center, and Healthcare Association of Hawaii. The Department of Health offered comments.

Your Committee believes that this measure will enable community health centers and rural health centers to continue to provide health care services to Hawaii's uninsured and underinsured.

Your Committee notes that the proposed amendments contained in this measure are not guaranteed to receive approval from the Centers for Medicare and Medicaid Services, and if provisions are determined to be inconsistent with the policy of the Centers for Medicare and Medicaid Services, they will not qualify for federal matching funds.

Your Committee has amended this measure by:

- (1) Inserting a provision at the end of section 3 to specify that the Department of Human Services shall not be required to reimburse services that do not qualify for Medicare matching funds or reimbursement; and
- (2) Making technical amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 973, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 973, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 773 Ways and Means on S.B. No. 11

The purpose of this measure is to exempt medical services, hospital charges, and rehabilitation services from the county surcharge on state tax.

The Mayor of the County of Hawaii, Healthcare Association of Hawaii, Hawaii Society of Clinical Oncology, and seven individuals provided written comments in support of this measure. The Hawaii Coalition of Care Home Administrators submitted written comments in opposition. The Department of Taxation and Tax Foundation of Hawaii provided written comments.

Your Committee finds that rising health care costs contribute to Hawaii's already high cost of living, and this measure would provide some relief for Hawaii residents struggling to balance payments for their medical needs against other necessities.

Your Committee has amended this measure by:

- (1) Clarifying that medical practitioners are physicians, osteopaths, and dentists; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 11, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 11, S.D. 3.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Menor, Hemmings, Whalen).

SCRep. 774 Ways and Means on S.B. No. 1450

The purpose of this measure is to increase participation in the state rent supplement program by removing the statutory ceiling on rent supplements for "qualified tenants", raising the statutory ceiling on income levels that determine "qualified tenants", and allowing persons living in transitional shelters to be "qualified tenants".

Your Committee received comments in support of the measure from the Office of Hawaiian Affairs. Comments were received from the Department of Human Services, Catholic Charities of Hawaii, and the Hawaii Family Forum.

Your Committee finds that this measure will authorize the Hawaii Public Housing Authority of the Department of Human Services to adjust the subsidy amounts in order to reflect current market conditions. This measure will increase housing accessibility and affordability for many needy households.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1450, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 775 Ways and Means on S.B. No. 1917

The purpose of this measure is to expand housing options for Hawaii residents by:

- (1) Extending the sunset date for the allocation of conveyance tax revenues to the Rental Housing Trust Fund;
- (2) Requiring the Hawaii Finance And Development Corporation to create an affordable housing inventory registry; and
- (3) Appropriating funds for various homeless and housing programs and projects.

The Department of Taxation, Hawaii Housing Finance and Development Corporation, Hawaii Public Housing Authority, Hawaii Association of REALTORS, Hawaii Family Forum, Roman Catholic Church in the State of Hawaii, Catholic Charities of Hawai'i, Partners in Care, and one individual provided written comments in support of this measure. The Tax Foundation of Hawaii submitted written comments.

Your Committee finds that this measure would provide a multi-faceted approach to developing additional affordable housing options for Hawaii residents, many of whom face evictions and homelessness in the face of escalating housing prices throughout the State.

Your Committee has amended this measure by:

- (1) Inserting an unspecified percentage for the portion of conveyance tax revenues to be paid into the Rental Housing Trust Fund;
- (2) Clarifying the effective dates of the Act; and
- (3) Making technical amendments for clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1917, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1917, S.D. 3.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 776 Ways and Means on S.B. No. 1916

The purpose of this measure is to strengthen support for family caregivers by:

- (1) Extending until June 30, 2008, the Joint Legislative Committee on Family Caregiving;
- (2) Requiring the Joint Legislative Committee on Family Caregiving to explore a paid family program under the state temporary disability insurance law;
- (3) Requiring the Executive Office on Aging to conduct a comprehensive assessment of the needs of care recipients and their family caregivers; and
- (4) Appropriating funds to expand the Kupuna Care program's in-home and access services and for the family caregiver support program.

Comments in support of this measure were received from the Policy Advisory Board for Elder Affairs, County of Hawaii Office of Aging, City and County of Honolulu's Department of Community Services, Maui County Office on Aging, Anuenue Hale, Inc., Catholic Charities Hawaii, Child and Family Services, Hale Makua Home Health and Foster Family Programs, Hawaii Aging Advocates Coalition, Hawai'i Alliance for Retired Americans, International Longshore and Warehouse Union Local 142, Kookia Council, National Multiple Sclerosis Society, Occupational Therapy Association of Hawaii, Project Dana, and twenty concerned individuals.

Your Committee finds that family caregiving will continue to be a critical component of the State's health and long-term care system, with more family caregivers providing services as Hawaii's older adult population increases at a significant rate.

Your Committee further finds that family caregivers are themselves at risk for physical, emotional, and financial problems. This measure will address these issues to assist family caregivers.

Your Committee has amended this measure by:

- (1) Changing the sum appropriated to an unspecified amount to facilitate further discussion on this measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1916, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1916, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 777 (Majority) Ways and Means on S.B. No. 1672

The purpose of this measure is to meet rising health care costs and ensure that Hawaii's residents have continued access to quality health care.

Specifically, this measure:

- (1) Establishes a process by which Medicaid fee-for-service individual provider reimbursement rates are increased annually for inflation;
- (2) Retroactively adjusts for inflation, payments made to providers of hospital outpatient services and other individual providers to account for the lack of a rate increase for the past five years and appropriates \$26,000,000 for this purpose; and
- (3) Appropriates an unspecified amount to increase the Medicaid fee schedule to one hundred per cent of the 2006 Medicare fee schedule.

Your Committee received comments in support of this measure from the Hawaii Primary Care Association. The Department of Human Services commented in opposition. The Healthcare Association of Hawaii and the Chamber of Commerce of Hawaii commented.

Upon further consideration, your Committee has amended this measure by:

- (1) Clarifying that rates of payment include outpatient hospital services but excludes emergency room services;
- (2) Clarifying that the term "provider" is more appropriate and thus substituting it for "practitioner" throughout the measure;
- (3) Clarifying that the inflation factor is based on the national index for providers of medical care;
- (4) Changing the appropriation amount of \$26,000,000 in section 4 to an unspecified amount;
- (5) Changing the effective date to July 1, 2015 to facilitate further discussion; and
- (6) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1672, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1672, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, 1 (Hemmings). Excused, 1 (Whalen).

SCRep. 778 Ways and Means on S.B. No. 1937

The purpose of this measure is to appropriate funds out of the federal temporary assistance for needy families program funds to the Department of Human Services for a micro-credit pilot program.

The measure also requires the Department to provide interim and final reports on the program.

Your Committee received comments on the measure from the Department of Human Services and the Hawaii Alliance for Community Based Economic Development.

Your Committee finds that micro-credit is the extension of small loans to low-income entrepreneurs who are otherwise unable to obtain loans in the traditional marketplace. Micro-credit has been demonstrated to be an effective means to lift the poor out of poverty.

Your Committee has amended this measure by changing the appropriation to an unspecified amount for the purposes of continued discussion of the matter. Your Committee has also made technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1937, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1937, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 779 Ways and Means on S.B. No. 427

The purpose of this measure is to increase the state supplemental payments for certain domiciliary care and require a portion of the payment to be retained by the recipient for personal use.

The Kokua Council, Healthcare Association of Hawaii, Policy Advisory Board for Elder Affairs, and one concerned individual submitted comments in support of this measure. The Department of Human Services and the Disability and Communication Access Board submitted comments on this measure.

Your Committee finds that this measure will provide a personal needs allowance for individuals living in nursing facilities and individuals living in domiciliary care, type I and type II, and community care foster family homes. The increase in the personal needs allowance from \$30 to \$50 per month per person will substantially improve the quality of life for adult residential care home residents and ensure that a fair portion of the state supplemental payments are allocated for their unique monthly personal needs.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 427, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 427, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 780 Ways and Means on S.B. No. 248

The purpose of this measure is to make an appropriation for the State Commission on Fatherhood.

Specifically, this appropriation will allow the commission to hire an executive director and staff.

Your Committee has received comments from the State Commission on Fatherhood, Hawaii Coalition for Dads, Children's Rights Council, and two individuals, all in support of this measure.

Your Committee finds that since its establishment in 2003, the Commission has served in an advisory capacity to state agencies in order to promote healthy family relationships between parents and children. Your Committee further finds that for the Commission to continue in its role and to complete a statewide analysis of service provisions to fathers and develop policy recommendations on best practices for serving fathers through state agencies, the commission must hire an executive director and staff.

Your Committee has amended this measure by:

- (1) Extending the repeal date of the State Commission on Fatherhood to June 30, 2009;
- (2) Changing the effective date of this measure to accommodate the extension of the repeal date; and
- (3) Making technical nonsubstantive changes for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 248, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 248, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 781 Ways and Means on S.B. No. 733

The purpose of this measure is to appropriate funds for the Office of Veteran Services to publish and distribute a quarterly newsletter that informs veterans of benefit changes and the availability of support services and programs.

This measure appropriates \$100,000 for fiscal year 2007-2008, and \$100,000 for fiscal year 2008-2009 to be expended by the Office of Veterans Services for the purposes of this Act.

Comments in support of this measure were submitted by the Office of Veterans Services and the State Advisory Board on Veterans Services.

Your Committee finds that it is important to provide timely and accurate information on services and benefits available to the many veterans who live in Hawaii. There are still thousands of veterans who remain unaware of their benefits. This newsletter will continue to make a significant impact in reaching and informing veterans on important issues regarding their benefits and available outreach services.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 733, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 782 Intergovernmental and Military Affairs on S.B. No. 755

The purpose of this measure is to provide standards for the selection of County Ethics Commissioners to ensure their impartiality and independence.

Testimony in support of this measure was received from The League of Women Voters of Hawaii.

Your Committee finds that in the interest of ensuring sufficient independence and impartiality, the selection process of the State Ethics Commissioners should serve as a model for the selection of County Ethics Commissioners. Each member of the State Ethics Commission is appointed by the Governor from a list of two persons nominated by the Judicial Council, and complies with Article XIV of the Constitution of the State of Hawaii, which provides that: "Ethics commissioners shall be selected in a manner which assures their independence and impartiality."

Your Committee further finds that, in contrast, members of the Honolulu Ethics Commission are appointed by the Mayor and confirmed by the Honolulu City Council, both of which are subject to oversight by the County Ethics Commission.

To remedy this perceived conflict of interest, this measure requires the counties to establish a selection process that ensures a minimal amount of involvement of persons who are to be subject to an ethics commission's oversight.

Your Committee has amended this measure to further clarify the selection process of County Ethics Commissioners by requiring each County Ethics Commissioner to be appointed from a list of nominees selected by an independent body and not subject to confirmation by the county legislative body.

The intent of your Committee is to create improved standards for the selection of County Ethics Commissioners that will allow them to fulfill their duties in an independent and impartial manner.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 755, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 755, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Hemmings).

SCRep. 783 Ways and Means on S.B. No. 1046

The purpose of this measure is to require the counties to deposit fees collected for issuing and replacing removable windshield placards, including temporary placards, for disabled drivers into the state general fund. In addition, the measure clarifies that a fee shall be paid to the issuing agency for replacement of removable windshield placards and identification cards.

The Department of Customer Services of the City and County of Honolulu, the Fire Chief of Kauai, and the Disability and Community Access Board submitted comments in support of the measure.

Your Committee finds that this measure clarifies the process of reimbursing counties for their costs in issuing removable windshield placards and temporary placards by requiring the fees charged to be deposited into the state general fund. This eliminates paperwork for the counties and allows for smoother reimbursement transactions.

Upon consideration, your Committee has amended this measure by:

- (1) Conforming references to the placards issued to disabled drivers to include the word "removable";
- (2) Clarifying that both a written statement and a completed application are required to request a replacement placard or identification; and
- (3) Changing the measure's effective date to July 1, 2007.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1046, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1046, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 784 Ways and Means on S.B. No. 795

The purpose of this measure is to require the Department of Accounting and General Services to establish and implement a statewide building code.

Specifically, the measure outlines the requirements and provisions to be contained in the code. The measure also appropriates \$500,000, for fiscal year 2007-2008, for the operations of the State Building Code Council, including technical assistance services, and training and administrative assistance, as required, to be expended by the Department of Accounting and General Services.

The Department of Accounting and General Services, the State Fire Council, the Kauai County Fire Department, the Structural Engineers Association of Hawaii, State Farm Insurance Companies, and the Hawaii State Council of the American Institute of Architects submitted comments in support of this measure. The Department of Defense submitted comments on this measure.

Your Committee finds that the State has traditionally allowed the individual counties to establish their own building codes. The counties have adopted various portions of the Uniform Building Code, but building codes differ from county to county. The status of the fragmented building requirements in Hawaii is of serious concern to those involved in building ownership, design, construction, and insurance. The adoption of a uniform set of statewide building codes applicable to one and two family dwellings, all other residential uses, commercial and industrial buildings, and state buildings would make it possible for building owners, designers, contractors, and code enforcers within the State to apply consistent standards. The health and safety considerations related to the codes are of statewide interest, especially relating to emergency disaster preparedness.

The intent of this measure is to require the Department of Accounting and General Services to establish and implement a statewide building code to provide for the implementation of consistent standards throughout the State of Hawaii.

Your Committee amended this measure by:

- (1) Funding the amount of the appropriation from the interest earned in the principal in the Hawaii hurricane relief fund;
- (2) Changing the amount of the appropriation in section 4 to an unspecified amount to facilitate further discussion; and
- (3) Making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 795, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 795, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 785 Ways and Means on S.B. No. 1518

The purpose of this measure is to increase the fees payable to a court-appointed counsel and a guardian ad litem in cases before a Family Court.

The Judiciary submitted comments in support of the measure. The Department of Budget and Finance submitted comments in opposition.

Your Committee finds that there is a significant disparity between the fees paid to an attorney in private practice representing a client in Family Court and the fees paid to a court-appointed attorney or a guardian ad litem. The best interest of children, who are the most vulnerable members of society, requires competent legal representation for children or indigent parents at risk of losing their children.

Your Committee finds that this measure to increase payments to court-appointed attorneys and guardians ad litem will help to ensure competent legal representation of children in the future by retaining experienced attorneys and attracting new attorneys for this complex and difficult legal work.

Your Committee has amended this bill to:

- (1) Reflect that the Judiciary shall continue to administer the payment and budget functions with respect to appointed counsel and guardian ad litem compensation instead of transferring those functions to the Department of Budget and Finance; and
- (2) Make technical nonsubstantive changes for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1518, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1518, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Kim, Menor, Hemmings).

SCRep. 786 Ways and Means on S.B. No. 677

The purpose of this measure is to increase witness fees.

More specifically, the bill increases the per diem fees paid to a witness from \$20 to \$55 per day. The bill also increases the daily fee for witnesses traveling from out of state from \$110 per twenty-four-hour period to \$160 for each day's attendance. This increase also applies to witnesses traveling from any island who are required to stay overnight to attend court proceedings.

The Hawaii Tourism Authority submitted comments in support of the measure. The Department of Budget and Finance offered comments.

Your Committee has amended the bill by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Inserting language that provides funding for fiscal year 2007-2008;
- (3) Changing the effective date to July 1, 2050; and
- (4) Making technical nonsubstantive changes for purposes of consistency and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 677, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 677, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Menor, Hemmings).

SCRep. 787 Ways and Means on S.B. No. 1484

The purpose of this measure is to authorize the Director of Public Safety to garnish a committed person's moneys to pay court-ordered crime victim compensation fees.

Furthermore, this measure prioritizes crime victim compensation fees as the third highest of five uses for garnished moneys. Also, this measure expands sources of moneys subject to garnishment to include judgments and settlements.

Your Committee received comments in support of this measure from the Crime Victim Compensation Commission.

Your Committee finds that the Director of Public Safety currently lacks statutory authority to garnish inmate wages for deposit into the crime victim compensation special fund. This measure will increase the revenues of the Crime Victim Compensation Commission, which will in turn enable the commission to serve more of Hawaii's violent crime victims.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1484 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, 4 (English, Kim, Hemmings, Whalen).

SCRep. 788 Ways and Means on S.B. No. 1491

The purpose of this measure is to strengthen enforcement of Hawaii's drug laws.

The bill permits the Director of Public Safety to use the controlled substance registration revolving fund to offset the cost of investigating violations of chapter 329, Hawaii Revised Statutes, the Uniform Controlled Substances Act, and to fund operation of the narcotics enforcement division's forensic drug laboratory facility.

No written comments were submitted.

Your Committee finds that it is appropriate to use the controlled substance registration revolving fund to offset the cost of regulating those who pay fees into the fund.

Your Committee intends that the fund not be used to offset the cost of investigations or operations of the forensic drug laboratory that relate to dangerous, harmful, and detrimental drug violations under the Penal Code. Other federal, state, and local resources are available for those purposes. Your Committee has amended this measure by adding a purpose section to make its intent clear.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1491, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1491, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, 4 (English, Kim, Hemmings, Whalen).

SCRep. 789 Ways and Means on S.B. No. 914

The purpose of this measure is to appropriate funds to improve the mental health care system for committed persons in state-operated correctional facilities.

Your Committee received comments supporting the measure from a concerned citizen.

This measure also requires the Department to report to the Legislature by November 1, 2007, with a detailed mental health plan that addresses the following:

- (1) An assessment of the Department's existing resources and staffing that is in place, additional resources and staffing needed to come up to standard, and the Department's needs to keep up with future demands;
- (2) The use of alternative services, such as the use of telemedicine to provide mental health services to incarcerated offenders;
- (3) The completion of a departmental training and policy manual;
- (4) An appropriate updated record keeping system;
- (5) An update on the feasibility study initiated by the Departments of Health and Public Safety regarding the expansion of the Hawaii State Hospital to include an offender wing to adequately treat mental health patients who are incarcerated; and
- (6) Any other suggestions or ideas to improve mental health services to incarcerated individuals and to comply with local, state, and federal laws and mandates.

Your Committee believes that this measure is necessary to improve the mental health care system for committed persons in state-operated correctional facilities.

Your Committee has amended this measure to change the \$500,000 appropriated amount to an unspecified amount for the purpose of facilitating further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 914, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 914, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, 4 (English, Kim, Hemmings, Whalen).

SCRep. 790 Ways and Means on S.B. No. 152

The purpose of this measure is to clarify the use of moneys in the state highway fund for bicycle lanes, paths, routes, and bikeways.

Specifically, this measure allocates two per cent of eligible federal highway funds and state highway funds to be used for bikeways. In addition, the Department of Transportation is required to consult with the bicycling community about bike-related issues, such as the location of bikeways.

ProActive Chiropractic, LLC, the Keala Hele Makalae Committee, the Sierra Club, and three private citizens submitted comments in support of the bill. Two members of the Hawaii Bicycling League submitted comments. The Department of Transportation submitted comments in opposition to the bill.

Your Committee finds that this measure will help to provide sufficient funds for bikeways and will involve the bicycling community in the decision making process.

Your Committee amended this measure to:

- (1) Provide more specificity as to groups among the bicycling community that shall be consulted; and
- (2) Change the effective date to July 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 152, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 152, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 791 Ways and Means on S.B. No. 1352

The purpose of this measure is to correct inadvertent drafting errors in Act 180, Session Laws of Hawaii 2006, that resulted in amendments to the repealed chapter 201G, Hawaii Revised Statutes.

Your Committee has received comments on this measure from the Chair and a member of the Maui County Council in support of this measure. Your Committee has also received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that this measure is a housekeeping measure that makes many nonsubstantive corrections to the Hawaii Revised Statutes due to drafting errors contained in Act 180, Session Laws of Hawaii 2006.

Your Committee has made technical nonsubstantive changes to this measure for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1352, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1352, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Kim, Menor, Hemmings).

SCRep. 792 Ways and Means on S.B. No. 1412

The purpose of this measure is to establish the Insurance Fraud Investigations Branch within the Insurance Division of the Department of Commerce and Consumer Affairs.

More specifically, the Insurance Fraud Investigations Branch would replace the existing Insurance Fraud Investigations Unit in order to prevent, investigate, and prosecute, both civilly and criminally, insurance fraud relating to all lines of insurance, except workers' compensation insurance.

This measure also establishes administrative, civil, and criminal penalties for insurance fraud and requires that fines and settlements resulting from successful fraud prosecutions be deposited into the Compliance Resolution Fund to help the Insurance Fraud Investigations Branch cover some of the costs of its operation.

Your Committee received comments in support of this measure from the Department of the Attorney General, the Department of Commerce and Consumer Affairs, the Hawaii Association of Health Plans, the Hawaii Insurers Council, the Hawaii Medical Service Association, and State Farm Insurance Companies. Comments in opposition were submitted by the Hawaii State AFL-CIO.

Your Committee finds that no line of insurance is immune to the problem of insurance fraud. Hawaii's insurance fraud law should be expanded to include all lines of insurance. This will help deter perpetrators of insurance fraud by demonstrating that no line of insurance will be a safe haven for those who commit insurance fraud.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "licensee";
- (2) Clarifying the state of mind necessary to incur administrative penalties; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1412, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1412, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 793 Ways and Means on S.B. No. 216

The purpose of this measure is to clarify the definition of "cost" as it pertains to the capital goods excise tax credit.

The measure accomplishes this purpose by:

- (1) Removing from the definition of "cost" the language regarding the actual invoice of the tangible personal property; and
- (2) Clarifying that the basis of depreciation when calculating cost is based on the value of the capital good that was subject to the general excise or use tax.

Your Committee received written comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that the administration of the capital goods excise tax credit will be more efficient by removing the invoice provision from the definition of "cost", and leaving the depreciable basis as the measure of the credit.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style, and by changing the effective date to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 216, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 216, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Menor, Hemmings).

SCRep. 794 Ways and Means on S.B. No. 1839

The purpose of this measure is to authorize the Department of Taxation to execute and provide a funding mechanism to pay for benefits-funded revenue generating initiatives provided by automated or enhanced tax system vendors when measurable increases in revenues resulting from the initiatives are collected by the State.

The income, general excise, and use tax revenues generated from these initiatives would be deposited in an Integrated Tax Services and Management Special Fund (Special Fund) established under this measure and used by the Department of Taxation to enhance its computer system and to streamline related operational procedures. The measure also establishes an unspecified expenditure ceiling for the Special Fund and lapses any revenues contained in the Special Fund that are in excess of an unspecified amount to the credit of the general fund.

The Department of Taxation submitted written comments supporting the intent of this measure. The Tax Foundation of Hawaii submitted written comments.

Your Committee amended this measure to protect the amendments to Section 237-31, Hawaii Revised Statutes, made in this measure from the sunset date established in Act 304, Session Laws of Hawaii 2006. Technical, nonsubstantive changes were also made for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1839, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1839, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 795 Ways and Means on S.B. No. 1840

The purpose of this measure is to:

- (1) Adopt amendments to Hawaii tax laws to implement the Streamlined Sales and Use Tax Agreement;
- (2) Appropriate unspecified funds to the Office of the Auditor for technical assistance and briefings; and
- (3) Establish a committee of legislative and public members and the Director of Taxation, or a representative thereof, to assist in carrying out the purposes of the Act.

The Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Retail Merchants of Hawaii; and Hawaii Association of REALTORS provided written comments in support of this measure. The Tax Foundation of Hawaii provided written comments.

Your Committee finds that the Streamlined Sales Tax Project (SSTP) is an effort created by state governments, with input from local governments and the private sector, to simplify and modernize sales and use tax collection and administration. The SSTP's proposals include tax law simplifications, more efficient administrative procedures, and emerging technologies to substantially reduce the burden of tax collection. The SSTP's proposals are focused on improving sales and use tax administration systems for all types of commerce. Forty-two states and the District of Columbia are involved in the SSTP.

Your Committee further finds that Hawaii has been a participating member of the SSTP since 2003, and that this measure is a culmination of the efforts by both government and the private sector to identify and resolve issues necessary for SSTP compliance.

Your Committee has amended this measure by making numerous technical amendments for the purposes of clarity, consistency, and style. Your Committee believes that the long time period before this measure takes effect will allow interested parties to further refine this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1840, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1840, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 10. Ayes with Reservations, 1 (Whalen). Noes, none. Excused, 1 (Hemmings).

SCRep. 796 Ways and Means on S.B. No. 608

The purpose of this measure is to appropriate funds to establish a statewide internet-based interactive, searchable database for workforce training.

The Department of Labor and Industrial Relations, the Department of Education, and the Hawaii P-20 Initiative submitted comments in support of the bill.

Your Committee finds that while information about training opportunities for Hawaii's workforce is currently available, it is greatly compartmentalized, dispersed, and incomplete.

Your Committee finds that the web-based database proposed by this measure will use simple and available technology to help resolve these issues. In addition, the database will provide an effective means of aligning training opportunities with skill-sets and competencies most needed by employers.

Your Committee has amended the bill to:

- (1) Require the database to be in service by January 1, 2009, rather than prior to the 2008 regular session of the Legislature;
- (2) Require status reports to the Legislature not later than twenty days before the convening of the regular sessions of 2008 and 2009; and
- (3) Include an appropriation for fiscal year 2008-2009 and change the appropriation to an unspecified amount to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 608, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 608, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 797 (Majority) Ways and Means on S.B. No. 1133

The purpose of this measure is to authorize the Department of Taxation to include information on experiential learning opportunities provided to public school students by taxpayers that receive certain technology related tax credits.

Prior to the decision making hearing, your Committee circulated a Proposed S.B. No. 1133, S.D. 3. The purpose of the Proposed S.B. No. 1133, S.D. 3 is to increase the rental motor vehicle and tour van surcharge tax by \$1 for each category of rental and tour vehicle.

The Tax Foundation of Hawaii provided written comments on the concept of the surcharge tax increase.

Your Committee finds that the proposed S.D. 3 version of this measure would ensure additional revenue for the State Highway Fund. Your Committee further finds that all rental vehicles should share in the increase, but that further discussion is necessary to determine the proportionate share of the increase for tour vehicles with larger seat capacities.

Your Committee has amended the Proposed S.B. No. 1133, S.D. 3, accordingly, by changing the increase for the two categories contained in the tour vehicle surcharge tax from \$1 to an unspecified amount.

Your Committee also requests that, should this measure be the subject of deliberations by a Conference Committee, that members representing the Committee on Commerce, Consumer Protection and Affordable Housing and the Committee on Transportation and International Affairs be included in the Conference Committee membership.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1133, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1133, S.D. 3.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, 1 (Hemmings). Excused, 1 (Whalen).

SCRep. 798 Ways and Means on S.B. No. 1969

The purpose of this measure is to broaden the scope of the tuition assistance provided to Hawaii national guard members attending the University of Hawaii.

Specifically, this measure allows any member, including commissioned and general officers, who is a student (including graduate studies) to qualify for tuition assistance if they are working toward a degree. The measure also appropriates funds for the increased tuition assistance.

Your Committee received comments in support of the measure from the Hawaii National Guard Enlisted Association, the Hawaii National Guard Association, and the National Guard Association of Hawaii Insurance Trust. The Department of Defense submitted comments.

Your Committee finds that this measure demonstrates the State's commitment and gratitude to national guard members who have bravely served our country. The tuition assistance provided under this measure will also serve as an incentive for recruitment purposes and improve the retention rate for enlisted national guard members.

Your Committee has amended the measure by changing the appropriation to an unspecified amount to facilitate further discussion on this matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1969, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1969, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 799 (Joint) Energy and Environment, Water, Land, Agriculture and Hawaiian Affairs and Intergovernmental and Military Affairs on S.B. No. 987

The purpose of this measure is to encourage the development of renewable energy projects and to reduce the State's dependency on fossil fuels.

The measure accomplishes this purpose by:

- (1) Amending the definition of "renewable energy producer" to include producers of thermal energy from renewable energy resources, including those who produce cooling from seawater air conditioning district cooling systems, so that they will be eligible for leases of public land; and
- (2) Allowing each county to grant, sell, or otherwise dispose of easements for chilled water and seawater distribution systems for renewable energy seawater air conditioning district cooling systems by negotiation without public auction.

Your Committees received testimony in support of this measure from Honolulu Seawater Air Conditioning, LLC. and Hawaii Science and Technology Council. The Department of Land and Natural Resources and the Hawaii Renewable Energy Alliance submitted testimony in support of the intent of this measure with comments.

Your Committees find that seawater air conditioning district cooling systems are just as important and beneficial as electricity generation from renewable resources. While this renewable energy technology does not generate electricity, it does provide substantial savings through the displacement of the electricity used to perform the same tasks.

In addition, seawater air conditioning district cooling systems require extensive easements. Obtaining these state and county easements are time-consuming and costly. Providing an expeditious and cost-effective means to obtain these necessary easements will further promote the use of renewable energy technologies.

Your Committees further find that, if a seawater air conditioning company ceases operations, then the control of the leased land shall revert back to the State or county.

Your Committees amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Water, Land, Agriculture, and Hawaiian Affairs and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 987, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 987, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 11. Noes, none. Excused, 1 (Fukunaga).

SCRep. 800 Ways and Means on S.B. No. 1947

The purpose of this measure is to make an emergency appropriation of \$10,000,000 out of the deposit beverage container deposit special fund for continued operation of the deposit beverage container program.

Your Committee finds that this measure provides sufficient moneys to meet the increased expenses of the deposit beverage container program by making an emergency appropriation. The Committee finds that expenses will exceed the appropriation ceiling because the number of deposit beverage containers sold will far exceed the estimates of two years ago. Increased container numbers, plus the current redemption rate of about sixty-eight per cent, have resulted in more deposits to refund and more redemption center handling fees. Refunds and handling fees may exceed

the \$52,000,000 spending ceiling of the deposit beverage container deposit special fund. There are sufficient moneys in the deposit beverage container deposit special fund to support the proposed appropriation increase.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1947, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1947, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 801 Ways and Means on S.B. No. 1228

The purpose of this measure is to establish a process to determine the most appropriate means of memorializing the World War II Japanese internment camp experience in Hawaii.

The Department of Land and Natural Resources and the Japanese Cultural Center of Hawaii submitted comments in support.

Your Committee finds that the internment of Japanese in Hawaii is less well known relative to the story of the mass forced removal and incarceration of Japanese Americans on the American west coast. Many Japanese immigrant community leaders were interned at camps at Sand Island and Honouliuli on Oahu, Haiku on Maui, Kalaheo on Kauai, and Kilauea on the island of Hawaii.

Your Committee further finds that the preservation and recognition of internment camp sites can serve as an educational tool in history, civil liberties, and racial stereotyping.

Your Committee further finds that federal funds to further research and preserve the Hawaii internment camp experience are available provided that the State of Hawaii provides matching funds.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1228, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 802 Ways and Means on S.B. No. 1428

The purpose of this measure is to increase the salary of the Director of the Office of Veterans Services to a maximum of seventy-four per cent of the salary of the Director of Human Resources and Development.

The Department of Defense and the Department of Human Resources and Development submitted comments in support of this measure.

Your Committee finds that Act 226, Session Laws of Hawaii 2005, provided salary increases to those positions that were not previously considered by the Salary Commission, including the Director of the Office of Veterans' Services. The position received a small increase, the first increase in fifteen years.

Your Committee further finds that the Director of the Office of Veterans Services is currently authorized to receive up to sixty-nine per cent of the salary of the Director of the Department of Human Resources Development, a compensation level that is not adequate, in light of the added responsibilities and the increase in veterans due to deployments of the Hawaii National Guard and Hawaii-based Reserves.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1428 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 803 Judiciary and Labor on S.B. No. 1675

The purpose of this measure is to remove training in an automated external defibrillator (AED) program administered by a physician as a prerequisite for relief from civil liability for a person who administers an AED, without remuneration or expectation of remuneration, in a good faith attempt to resuscitate a person in immediate danger of loss of life. This bill also changes "automatic" to "automated" throughout the statutory provisions.

Your Committee received testimony in support of this measure from a concerned individual. The American Heart Association submitted testimony in support of the intent of the bill.

Your Committee was informed that 2006 American Heart Association policy recommendations on Community Lay Rescuer AED Programs advised against conditioning liability protection on training and medical direction. Your Committee finds that this measure will enhance public access to lifesaving AED procedures.

Although section 1 of this bill amends section 453-2(b)(5), Hawaii Revised Statutes (HRS), to replace the word "automatic" with "automated" in several places, section 453-2(b)(5)(B) continues to contain an exception that applies to any person "who successfully completes training under an [automatic] automated external defibrillator program administered by a physician." As this measure advances, your Committee recommends that further consideration be given to whether section 453-2(b)(5) needs further revision to reflect the amendment to section 663-1.5(e), HRS, in section 2 of the bill that removes successful completion of training under an AED program administered by a physician as a prerequisite to relief from civil liability.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1675, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 804 Ways and Means on S.B. No. 1463

The purpose of this measure is to make an emergency appropriation to the Hawaii Health Systems Corporation.

More specifically, the bill raises the expenditure ceiling of the health systems special fund to provide sufficient funds to the corporation for operational costs.

Your Committee received comments in support of the bill from the Hawaii Health Systems Corporation.

Your Committee finds that the current special fund ceiling is not sufficient to cover the operating costs for fiscal year 2006-2007.

Your Committee finds that raising the expenditure ceiling of the health systems special will enable the Hawaii Health Systems Corporation to provide the levels of services necessary to meet community that have substantially increased beyond amounts anticipated and budgeted.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1463 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 805 Health on S.B. No. 1110

The purpose of this measure is to ensure that victims of sexual assault are fully informed regarding treatment and emergency contraception.

The measure accomplishes this goal by requiring all hospitals and public facilities to provide victims of sexual assault with information on emergency contraception and immediate access to emergency contraception when requested.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, the ACLU, Healthy Mothers Healthy Babies Coalition of Hawaii, Planned Parenthood of Hawaii, the League of Women Voters of Hawaii, the Community Alliance on Prisons, the American Association of University Women, the Democratic Party of Hawaii, and two individuals. The Planned Parenthood of Hawaii's Action Network and the Hawaii State Democratic Women's Caucus submitted testimony in support with a suggested amendment. Your Committee received testimony in opposition to this measure from the St. Francis Healthcare System of Hawaii, Pro-Family Hawaii, Hawaii Right to Life, and Hawaii Medical Center.

Your Committee finds that information on emergency contraception is an important part of treatment and counseling for victims of sexual assault. Allowing these victims to be fully informed of all medical options and treatments available to them will provide a level of protection for women, help to prevent unintended pregnancies, and provide sexual assault survivors with information that may prevent a further trauma of pregnancy.

Your Committee finds that the use of emergency contraception is approved by the federal Food and Drug Administration and is a safe and effective means of treating victims of sexual assault.

In addition, your Committee finds that emergency contraception is consistent with the Ethical and Religious Directives published by the United States Conference of Catholic Bishops. According to Ron Hamel, Ph.D. and senior director for The Catholic Health Association, it is morally permissible for Catholic Hospitals to offer sexually assaulted women with emergency contraception to prevent conception, i.e. fertilization, from occurring. However, the administration of these medications may occur only after "appropriate testing" and if "there is no evidence that conception has occurred." Because there is no way of ascertaining that conception has occurred as a result of a sexual assault, two approaches to testing have emerged.

First, the "pregnancy approach", which is most often followed by Catholic hospitals, tests only for pre-existing pregnancy to rule out the possibility of pregnancy before the sexual assault occurred. If the pregnancy test is negative, the woman is offered emergency contraception. If the pregnancy test is positive, she is not given the medication because she is already pregnant, and there is no chance of her becoming pregnant from the sexual assault.

Second, the "ovulation approach" tests for pre-existing pregnancy and utilizes empirical data from the woman as to whether her menstrual cycle may be at a point where ovulation may be present. Some believe that the presence of ovulation is an indication that conception might have occurred. This approach permits the administration of contraceptive medicines only when the pregnancy test is negative and the empirical data shows that she is not presently ovulating.

Your Committee further finds that the following thirty-four Catholic Hospitals in the United States are currently offering emergency contraception information and treatment to sexual assault victims:

Citrus Valley Medical Center-Queen of the Valley; Dominican Hospital; Mercy Medical Center-Redding; Mercy Medical Center-Merced; Mercy Medical Center-Shasta; Petaluma Valley Hospital; Saint Agnes Medical Center; Santa Rosa Memorial Hospital; St. Elizabeth Community Hospital; St. Francis Medical Center; Bon Secours Community Hospital; Kenmore Mercy Hospital; Mary Immaculate Hospital; Our Lady of Lourdes Memorial Hospital; Our Lady of Mercy Medical Center; Saint Vincent's Midtown Hospital; Seton Health System, Inc., St. Mary's Division; Sisters of Charity Hospital of Buffalo; St. Anthony Community Hospital; St. Joseph Hospital; St. Joseph's Hospital; St. Mary's Hospital at Amsterdam; St. Mary's Hospital at Brooklyn; St. Peter's Hospital; Providence Hospital; Holy Family Hospital; Lourdes Medical Center; Providence Everett Medical Center, Pacific; Providence St. Peter Hospital; St. John Medical Center; St. Joseph Hospital; St. Joseph Medical Center; and St. Mary Medical Center.

Your Committee has amended this measure by changing the effective date to "upon approval".

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1110, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1110, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 806 Health on S.B. No. 1117

The purpose of this measure is to ensure that teenagers are equipped with accurate information and knowledge to enable them to make informed decisions regarding their sexual health.

This measure accomplishes this purpose by requiring all entities that receive state funding for sexual health education purposes to provide medically accurate, factual information that is age-appropriate and that includes education on both abstinence and contraception for the prevention of pregnancy and sexually transmitted diseases, including HIV.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women; the ACLU; Healthy Mothers, Healthy Babies Coalition of Hawai'i; Planned Parenthood of Hawaii; the League of Women Voters of Hawaii; the Community Alliance on Prisons; the American Association of University Women; the Democratic Party of Hawai'i; Hawaii Youth Services Network; and four individuals. Your Committee received testimony in opposition to this measure from the Pro-Family Hawaii, Hawaii Right to Life, the Mary Jane Program of Catholic Charities Hawai'i, Hawaii Family Forum, the Try Wait! Program of Catholic Charities Hawaii, and five individuals. The Department of the Attorney General submitted comments on this measure.

Your Committee finds that providing teenagers with medically accurate, factual information that is age-appropriate and that includes education on both abstinence and contraception for the prevention of pregnancy and sexually transmitted diseases, including HIV, will reduce the number of unintended teenage pregnancies in Hawaii. In addition, empowering teenagers to make informed decisions is the most effective safeguard to the contraction of often life threatening sexually transmitted diseases.

Your Committee further finds that this measure is not intended to negatively impact those entities that receive state funding for non-sexual education programs.

Accordingly, your Committee amended this measure by clarifying that it only applies to entities that receive state funding for sexual health education.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1117, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1117, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 807 Health on S.B. No. 1750

The purpose of this measure is to protect children by ensuring that parents and caregivers are fully informed of the dangerous effects of Shaken Baby Syndrome.

This measure accomplishes this purpose by requiring hospitals and public health facilities to provide each parent of a newborn with written educational information on Shaken Baby Syndrome and prevention methods.

Your Committee received testimony in support of this measure from Prevent Child Abuse Hawaii, Healthy Mothers Healthy Babies Coalition of Hawaii, Kapi'olani Child-at-Risk Evaluation Program, the Department of Neurosurgery at Penn State Milton S. Hershey Medical Center, and three individuals. Your Committee received testimony in opposition to this measure from the Department Of Health and the Healthcare Association of Hawaii.

Your Committee finds that Shaken Baby Syndrome is a serious and preventable condition for which information is important for all parents and caregivers. However, your Committee finds that effective education comes in many forms and that Shaken Baby Syndrome is only one of many critical infant care issues that require education and prevention.

Your Committee amended this measure by removing the mandate, and providing instead that hospitals and public health facilities may provide the educational information in their discretion.

Your Committee further amended this measure by removing the reference to Prevent Child Abuse Hawaii and replaced it with "nonprofit organizations".

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1750, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1750, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 808 (Joint) Health and Human Services and Public Housing on S.B. No. 1176

The purpose of this measure is to ensure that infants or toddlers with disabilities have access to early intervention services through the age of seven.

The measure attempts to accomplish this purpose by amending Chapter 321, Hawaii Revised Statutes, to be in accordance with the federal mandate under Part C of the Individuals with Disabilities Education Improvement Act of 2004 pertaining to early intervention services for children from birth to three years of age.

Your Committees received testimony in support of this measure from Cure Autism Now Foundation, The Hawaii Down Syndrome Congress, and eleven individuals. Your Committees received testimony in opposition to this measure from the Department of Health, the State Council on Developmental Disabilities, Kapi'olani Child-at-risk Evaluation Program, and the Hawaii Early Intervention Coordinating Council. The Hawaii Family Support Institute submitted comments on this measure.

Your Committees find that the federal mandate under the Individuals with Disabilities Education Improvement Act of 2004 requires consistency in the state law. The Department of Health is responsible for ensuring that all children from birth to three years of age with a developmental delay, biological risk, or environmental risk and their families receive early intervention services.

Your Committees further find that this measure excludes children with environmental risks, which is not in accordance with the federal mandate. In addition, this measure includes several other provisions that are inconsistent with Part C of the Individuals with Disabilities Education Improvement Act of 2004 that would put the State in violation of the federal mandates.

Accordingly, your Committees have amended this measure by:

- (1) Replacing the term “self-help skills” with the term “adaptive development”;
- (2) Retaining toddlers and infants with special needs in the definition of “early intervention services”;
- (3) Replacing the term “family service” with “family support”;
- (4) Replacing the phrase “infant or toddler with a disability” with “infants and toddlers with special needs” and by making changes consistent with this amendment throughout the measure;
- (5) Retaining the definition of “infants and toddlers with special needs” to ensure that children with delayed development, biological risk, or environmental risk are not excluded;
- (6) Enabling parents of children with a disability aged three through five who are eligible for services under Part B of the Individuals with Disabilities Education Act and who previously received services under Part C to choose the continuation of early intervention services, which shall include an education component that promotes school readiness and incorporates pre-literacy, language, and numeracy skills, until such children enter, or are eligible under state law to enter elementary school; and
- (7) Changing the effective date to encourage further discussions.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1176, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1176, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 4 (Hooser, Menor, Hemmings, Whalen).

SCRep. 809 (Joint) Health, Public Safety and Judiciary and Labor on S.B. No. 905

The purpose of this measure is to improve the administration of the medical marijuana program.

The measure attempts to accomplish this purpose by removing the program from the Department of Public Safety and placing it in the Department of Health for administration purposes. The measure clarifies that “adequate supply” means seven plants and three usable ounces, extends the registration period, limits the role of the physician, and establishes a standing committee within the Department of Health to assess the list of applicable diseases that qualify under the program.

Your Committees received testimony in support of this measure from the Drug Policy Forum of Hawaii, NORML, The League of Women Voters of Hawaii, the ACLU, The Religion of Jesus Church, and ten individuals. Your Committees received testimony in opposition to this measure from the Department of Public Safety, the Department of Health, City and County of Honolulu Department of the Prosecuting Attorney, the County of Hawaii Police Department, and the Department of the Attorney General.

Your Committees find that the medical marijuana program needs to be improved to reduce any potential negative impacts on certifying physicians and qualifying patients. However, your Committees find that removing the program from the Department of Public Safety and placing it in the Department of Health will not cure the problems cited by patients regarding the administration of the program. Your Committees believe that it would in effect do the opposite of what is intended. Housing the program in the Department of Health will not reduce the level of oversight, but would add yet another layer of administrative procedures to the program, making it more cumbersome to the qualifying patients and physicians. The Department of Health would still be required to verify the physicians’ licensure and the patients’ valid use of the marijuana for medical use, both of which are functions that require the expertise that resides in the Narcotics Enforcement Division of the Department of Public Safety.

Your Committees see the merit of establishing a standing committee to periodically review and update the list of medical conditions that warrant the use of medical marijuana. However, the measure, as received by your Committees, require that patient representatives be included within the committee’s membership. Your Committees do not believe that the patients would add any empirical value to the committee’s discussions.

Your Committees further find that the current definition of “adequate supply” is open to broad misinterpretation. Deleting the reference to mature and immature plants and clarifying the definition will help to cure potential enforcement errors.

Your Committees have amended this measure by:

- (1) Deleting the proposed transfer of administration of the medical marijuana use program to the Department of Health and leaving it with the Department of Public Safety;
- (2) Removing the two patient representatives from the proposed standing committee;
- (3) Deleting the proposed extension on written certification validity that would have made the certification valid for two years and retaining the existing one year limit;
- (4) Removing the proposed immediacy language that allows a qualifying patient to immediately be permitted use of medical marijuana;
- (5) Requiring that the amount of marijuana possessed jointly by the patient and the primary caregiver not exceed the adequate supply;
- (6) Deleting the amendment that would have allowed a primary caregiver to have up to three qualifying patients and retaining the requirement that a primary caregiver only be responsible for one qualifying patient at any given time;
- (7) Increasing the registration certificate fee from \$25 to \$50;
- (8) Removing all language pertaining to the transfer of the program from the Department of Health to the Department of Public Safety;
- (9) Clarifying that a primary caregiver is someone other than another patient registered under the program and who has not been convicted of any federal or state law relating to any controlled substance and agrees to be responsible for growing the marijuana for the qualifying patient; and
- (10) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Health and Public Safety and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 905, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 905, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Ayes with Reservations, 1 (Sakamoto). Noes, none. Excused, 3 (Inouye, Menor, Whalen).

SCRep. 810 Ways and Means on S.B. No. 979

The purpose of this measure is to preserve and protect the lives our children and young adults by establishing a youth suicide early intervention and prevention program in Hawaii.

Comments in support of this measure were received from the Hawaii Psychological Association, Hawaii Suicide Prevention, Education, Awareness, Research Foundation, Suicide Prevention Steering Committee and Task Force, and a concerned individual. The Department of Education submitted comments.

Your Committee finds that youth suicide has increased nationally in the last decade and that Hawaii youth have reported the highest rates of suicidal ideation on survey questions pertaining to suicide and depression.

Your Committee also finds that many states have already developed comprehensive statewide strategies that seek to provide effective youth suicide early intervention and prevention services.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 979, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 811 Ways and Means on S.B. No. 1447

The purpose of this measure is to clarify the Legislature's intent to codify various provisions of Act 24, Session Laws of Hawaii 2006, into chapter 356D, Hawaii Revised Statutes.

Your Committee received comments in support of this measure from the Hawaii Public Housing Authority.

Your Committee has amended this measure by making technical amendments for the purposes of clarity and style and to correct a drafting error where an incorrect version of the Hawaii Revised Statutes was used.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1447, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1447, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 812 Ways and Means on S.B. No. 238

The purpose of this measure is to increase the reimbursement rate for Medicaid and QUEST psychiatric services according to county population, and to appropriate funds for the reimbursement rate increase.

Specifically, this measure increases the reimbursement rate for psychiatric services to an unspecified percentage of the Medicare fee schedule; provided that the reimbursement rate for counties with a population greater than two hundred thousand shall be an unspecified percentage of the Medicare fee schedule. This measure requires the Department of Human Services to make the appropriate adjustments to the rate of payment to health maintenance organizations and prepaid health plans, which are not required to increase reimbursement rates for psychiatric services until the Department makes such adjustments.

Your Committee received comments on this measure from the Department of Human Services and the Disability and Communication Access Board, Department of Health.

Your Committee finds that there is no mechanism by which health maintenance organizations and prepaid health plans are notified that adjustments have been made. Accordingly, your Committee has amended this measure by:

- (1) Adding a requirement that the Department of Human Services notify health maintenance organizations and prepaid health plans within one week of finalizing any rate adjustments; and
- (2) Requiring the Department of Human Services to submit annual reports to the Legislature regarding reimbursement rates and any adjustments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 238, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 238, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 813 Ways and Means on S.B. No. 1042

The purpose of this measure is to mitigate the sources of artificial light at airports, harbors, and highways to prevent interference with astronomical observations through the telescopes at Hawaii's astronomical observatories.

Specifically, this measure requires the Department of Transportation, to the extent that is practical, to comply with county ordinances and standards relating to outside lighting for all new installations at airports, harbors, and highways, provided that they do not conflict with federal safety regulations.

Your Committee received comments in support of this measure from the County Council of Maui and Institute of Astronomy of the University of Hawaii at Manoa. The Department of Transportation offered comments.

Your Committee believes that this measure will reduce sources of bright light at night that interfere with astronomical observations made through telescopes at various astronomical observatories in the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1042, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 814 Judiciary and Labor on S.B. No. 942

The purpose of this measure is to prohibit a candidate for public office from appearing in public service announcements paid for with state or public funds from the time of filing nomination papers until the time the person is no longer a candidate, unless the appearance is in response to an emergency or is part of the candidate's official duties.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii. The Campaign Spending Commission commented on this measure.

Your Committee finds that this measure will foster public trust in government. When public officials use radio or television time paid by public moneys, even for legitimate purposes, some members of the public discern a secondary purpose, that public moneys are being used to influence a nomination or election. This measure addresses that concern.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 942 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 815 Judiciary and Labor on S.B. No. 1550

The purpose of this measure is to move the date of the primary election from the second to last Saturday in September to the second Saturday in August.

Your Committee received testimony in support of this measure from the Office of Elections, the Office of the County Clerk of the County of Hawaii, the League of Women Voters of Hawaii, and several concerned individuals.

Your Committee finds it critical to increase the time between primary and general elections to afford elections personnel adequate time to prepare, print, and mail ballots, and to allow for ballot revisions when primary election results are challenged.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1550 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Inouye). Noes, none. Excused, 1 (Nishihara).

SCRep. 816 Ways and Means on S.B. No. 892

The purpose of this measure is to appropriate funds for fiscal biennium 2007-2009 to pay for the collective bargaining cost items relating to salary increases and other cost adjustments for officers and employees in collective bargaining units (2), (3), (4), (6), (8), (9), and (13), and their excluded counterparts.

Your Committee received comments in support of this measure from representatives of the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that this measure is necessary to fund the cost items in the anticipated arbitrated decision or settlement between the public employer and the exclusive representative of the bargaining units.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 892 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Menor, Hemmings).

SCRep. 817 Ways and Means on S.B. No. 1068

The purpose of this measure is to increase the amount of campaign expenditures that may be spent by candidates per voter for state and county elections who voluntarily agree to limit their campaign spending.

Hawai'i Clean Elections submitted written comments in support of this measure with reservations. The Kokua Council submitted written comments in opposition to this measure. The Campaign Spending Commission submitted written comments.

Your Committee finds that this measure strives to improve Hawaii's partial public funding system by:

- (1) Increasing expenditure limits for candidates who voluntarily agree to limit their campaign expenditures;
- (2) Permitting candidates for the Office of the Prosecuting Attorney to qualify for partial public financing; and
- (3) Increasing the matching funds available to candidates for certain public offices.

Your Committee believes that this measure will encourage more candidates to voluntarily limit their campaign expenditures and participate in the State's publicly funded election program.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1068, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 818 Ways and Means on S.B. No. 1390

The purpose of this measure is to appropriate funds for fiscal biennium 2007-2009 to pay for the collective bargaining cost items relating to salary increases and other cost adjustments for officers and employees in collective bargaining unit (11) and their excluded counterparts.

Your Committee received comments in support of the measure from the Hawaii Government Employees Association, AFSCME, and the Hawaii Fire Fighters Association, Local 1463.

Your Committee finds that this measure is a vehicle that must be kept alive in order to make the necessary appropriations for the salary increases and other cost adjustments.

Your Committee has amended this measure by making technical amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1390, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1390, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Kim, Menor, Hemmings).

SCRep. 819 Ways and Means on S.B. No. 1385

The purpose of this measure is to appropriate funds for fiscal biennium 2007-2009 to pay for the collective bargaining cost items relating to salary increases and other cost adjustments for officers and employees in collective bargaining unit (5) and their excluded counterparts.

Your Committee received comments in support of the measure from the Office of Collective Bargaining.

Your Committee finds that negotiations between the public employer and the exclusive bargaining representative of collective bargaining unit (5) are in progress, as the current contract period expires on June 30, 2007. This measure is a vehicle that must be kept alive in order to make the necessary appropriations in the event of a settlement.

Your Committee has amended this measure by making technical amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1385, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1385, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Kim, Menor, Hemmings).

SCRep. 820 Judiciary and Labor on S.B. No. 1339

The purpose of this measure is to amend the Rules of Evidence to allow individuals, corporations, and government entities to apologize to persons who have been harmed, without having their benevolent gestures or statements be used as evidence of negligence in a civil law suit.

Your Committee received testimony in support of this measure from the Attorney General. The Consumer Lawyers of Hawaii (CLH) opposed this measure. The Judiciary's Standing Committee on the Rules of Evidence (Standing Committee) testified in support of the intent, and proposed a revision.

CLH expressed concern that "apology" implies acknowledgment of fault, but "benevolent gesture" connotes good faith concern. The Standing Committee expressed concern that "apology" and "benevolent gesture" were not defined, and, mindful of S.B. No. 813 (2007) dealing with the admissibility of expressions of sympathy or benevolence by health care providers, urged your Committee to adopt a unified measure on this subject that applies equally to all persons and entities.

Your Committee finds that in circumstances where expression of sympathy may be key to healing feelings, this measure will encourage dispute resolution without litigation.

Your Committee has amended this measure by inserting the language proposed by the Standing Committee.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1339, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1339, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Kokubun).

SCRep. 821 Ways and Means on S.B. No. 1381

The purpose of this measure is to appropriate funds for fiscal biennium 2007-2009 to pay for the collective bargaining cost items relating to salary increases and other cost adjustments for officers and employees in collective bargaining unit (1) and their excluded counterparts.

Your Committee received comments in support of the measure from the Office of Collective Bargaining, the Judiciary, and the Hawaii Government Employees Association, AFSCME.

Your Committee finds that negotiations between the public employer and the exclusive bargaining representative of collective bargaining unit (1) are in progress, as the current contract period expires on June 30, 2007. This measure is a vehicle that must be kept alive in order to make the necessary appropriations in the event of a settlement.

Your Committee has amended this measure by including a provision to appropriate funds for the officers and employees of the Hawaii Health Systems Corporation who are the excluded counterparts of the officers and employees of the Hawaii Health Systems Corporation who are members of collective bargaining unit (1). Your Committee has also amended this measure by making numerous technical amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1381, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1381, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Kim, Menor, Hemmings).

SCRep. 822 Ways and Means on S.B. No. 1386

The purpose of this measure is to appropriate funds for fiscal biennium 2007-2009 to pay for the collective bargaining cost items relating to salary increases and other cost adjustments for officers and employees in collective bargaining unit (6) and their excluded counterparts.

Your Committee received comments in support of the measure from the Office of Collective Bargaining and representatives of the Hawaii Government Employees Association.

Your Committee finds that negotiations between the public employer and the exclusive bargaining representative of collective bargaining unit (6) are in progress, as the current contract period expires on June 30, 2007. This measure is a vehicle that must be kept alive in order to make the necessary appropriations in the event of a settlement.

Your Committee has amended this measure by making technical amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1386, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1386, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Kim, Menor, Hemmings).

SCRep. 823 Ways and Means on S.B. No. 610

The purpose of this measure is to appropriate funds to the Department of Education to settle pending class action lawsuits for retroactive salary adjustments brought against the department by part-time and substitute teachers.

Your Committee received comments in support of the measure from attorneys for the substitute teachers. Your Committee received comments in opposition of the measure from the Department of Education and the Attorney General.

Your Committee finds that this measure is intended to facilitate the resolution of the lawsuits and to restore goodwill and harmony between the teachers and the department.

Your Committee has amended this measure by changing the effective date to July 1, 2057, to facilitate further discussion on the matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 610, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 610, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 824 Ways and Means on S.B. No. 138

The purpose of this measure is to establish a sub-account within the state parks special fund into which fifty-five per cent of admission proceeds will be deposited to cover costs for operations, repair, and maintenance of the Diamond Head State Monument.

The Department of Land and Natural Resources, the Office of Hawaiian Affairs, and the Diamond Head Citizens Advisory Committee submitted comments in support of this measure.

Your Committee finds that the moneys generated through admission fees to the Diamond Head State Monument are currently used for maintenance of state parks and state parks programs statewide. Your Committee believes that this use of funds generated through admission fees to the Diamond Head State Monument do not suffice to ensure proper operation and maintenance of the monument.

Your Committee finds that this measure remedies the concerns by providing that fifty-five per cent of the moneys generated through admission fees at the Diamond Head State Monument will be used for operations, repair, and maintenance of the monument, thus guaranteeing its proper operation.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 138, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 825 Ways and Means on S.B. No. 1094

The purpose of this measure is to expand the legacy land program.

Specifically, this measure will allow the Board of Land and Natural Resources to:

- (1) Acquire interests in land having a value as a resource to the State through the establishment of agricultural easements; and
- (2) Use moneys in the land conservation fund for the payment of debt service related to the acquisition of interests in land having value as a resource to the State.

Your Committee received comments in support of this measure from the Department of Land and Natural Resources, the Department of Agriculture, and the Hawaii Agriculture Research Center.

Your Committee believes that this measure will give the Board of Land and Natural Resources more options and tools with which it can expand the legacy lands program and protect lands having value as a resource to the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1094 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 826 Ways and Means on S.B. No. 940

The purpose of this measure is to prohibit the Department of Hawaiian Home Lands from lowering allowable loan amounts to lessees unless beneficiaries of the trust have been consulted.

Your Committee received comments in support of the measure from the Council for Native Hawaiian Advancement, Hui Kakooaina Hoopulapula, the State Council of Hawaiian Homestead Associations, and one concerned individual. Comments in opposition were received from the Department of Hawaiian Home Lands.

Your Committee finds that this measure will greatly impact current and future homestead lessees by maximizing the amount of capital available to lessees of Hawaiian Home Lands. Specifically, your Committee finds that the Department of Hawaiian Home Lands recently lowered the loan-to-value ratio on mortgage loans under the Federal Housing Administration 247 program from ninety-five per cent to seventy-five per cent. In concrete terms, this means that on a home valued at \$150,000, the maximum loan amount available under the Federal Housing Administration 247 program dropped from \$142,500 to \$112,000.

Your Committee understands that the department made that decision in order to reduce potential losses to the trust in the event of a loan default. However, beneficiaries of the trust currently pay mortgage insurance fees into a reserve fund to cover such delinquent loans. It is in their best interest to have loan amounts maximized. Thus, the department's actions in lowering loan amounts available under the program without warning or discussion with the beneficiaries makes the department appear as if it is falling a little short of fully meeting its fiduciary responsibilities to these beneficiaries.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 940, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Ayes with Reservations, 1 (Whalen). Noes, none. Excused, 1 (Hemmings).

SCRep. 827 Ways and Means on S.B. No. 1361

The purpose of this measure is to authorize the Aloha Tower Development Corporation to undertake projects for Honolulu Harbor and adjacent lands that are under the jurisdiction of the Department of Transportation.

Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism, Chamber of Commerce of Hawaii, Hawaii Harbor Users Group, Alexander & Baldwin, Inc., National Defense Center of Excellence for Research in Ocean Sciences, and several individuals, all in support of this measure.

Your Committee finds that the vast majority of goods and merchandise consumed by residents of this State come through our commercial harbors, particularly Honolulu Harbor, all of which are under the jurisdiction of the Department of Transportation, Harbors Division. Honolulu Harbor is now in critical need of upgrading and expanding its facilities and infrastructure to continue to meet the growing demands of our expanding economy. It is of vital importance that substantial improvements be undertaken at Honolulu Harbor; however, the Harbors Division is preoccupied with the essential daily management and operations of the statewide commercial harbor system.

The Aloha Tower Development Corporation, a development-oriented entity with experience working in the Honolulu Harbor environ, is the ideal entity to assist the Harbors Division in undertaking development projects needed to upgrade and expand Honolulu Harbor. This measure will allow the Aloha Tower Development Corporation to undertake projects at Honolulu Harbor, yet provides that:

- (1) Authorization for funding and participation of the Aloha Tower Development Corporation in any project is subject to the approval of the Legislature on a project-by-project basis; and
- (2) The Department of Transportation shall retain fiscal management responsibilities for any project undertaken by the Aloha Tower Development Corporation in Honolulu Harbor.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1361, S.D. 1 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 828 Ways and Means on S.B. No. 939

The purpose of this measure is to establish the Hawaiian home lands community development fund, into which shall be deposited a percentage of all revenues from commercial developments on Hawaiian home lands.

Your Committee received comments in support of this measure from Hui Kakooaina Hoopulapula and Council for Native Hawaiian Advancement, two nonprofit organizations dedicated to the service of native Hawaiians. The Department of Hawaiian Home Lands submitted comments in opposition to this measure.

Your Committee finds that the percentage of the revenues to be deposited into this community development fund from revenues derived from commercial developments on Hawaiian home lands shall be determined by the Department of Hawaiian Home Lands, following consultation with Hawaiian home lands beneficiaries, and shall be expended for community and cultural programs in Hawaiian homestead communities, only after consultation with Hawaiian home lands beneficiaries.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 2050 to allow further discussion on this measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 939, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 939, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Ayes with Reservations, 1 (Whalen). Noes, none. Excused, 1 (Hemmings).

SCRep. 829 Ways and Means on S.B. No. 1030

The purpose of this measure is to require the Department of Land and Natural Resources to map and maintain confidential records for inadvertently discovered human skeletal remains and locations of reburial sites and human remains.

More specifically, the bill appropriates funds to the department to use global positioning devices for the proper location of burial sites and sites of reinterment and clarifies that the records are not confidential to lineal or cultural descendants.

The Office of Hawaiian Affairs and the Society for Hawaiian Archaeology submitted comments in support of the bill. The Department of Land and Natural Resources submitted comments.

Your Committee finds that under current law the Historic Preservation Division of the Department of Land and Natural Resources is tasked with the location and administration of native Hawaii burial sites. Your Committee further finds that the procedures currently in place do not guarantee the confidentiality and the accuracy of the information on burial sites.

Your Committee finds that using global positioning devices for locating burial and reinterment sites will provide the necessary accuracy. Furthermore, requiring that the information obtained remains confidential because a recordation of a burial site with the Bureau of Conveyances is no longer required and instead, the Department of Land and Natural Resources will establish and keep confidential the information relating to burial sites, except to lineal or cultural descendants.

Upon further consideration your Committee has amended the bill to make technical nonsubstantive amendments for purposes of clarity, style, and consistency and to change the appropriation amount to an unspecified sum to facilitate further discussion on this issue.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1030, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1030, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 830 Ways and Means on S.B. No. 1090

The purpose of this measure is to appropriate funds for the improvement of the trail system at the Diamond Head State Monument to ensure the safety and enjoyment of all visitors.

Your Committee received comments in support of the measure from the Department of Land and Natural Resources and the Diamond Head Citizens Advisory Committee.

Your Committee finds that the current condition of the trail system at the Diamond Head State Monument cannot provide safety for and accommodate all visitors properly. Your Committee further finds that appropriating funds to improve the trail system will provide for the safety of all visitors to the Diamond Head State Monument.

Your Committee amended the bill to change the effective date to July 1, 2007, and to make technical nonsubstantive changes for style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1090, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1090, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 831 Ways and Means on S.B. No. 837

The purpose of this measure is to promote and preserve the agricultural industry in the State.

Specifically, this measure:

- (1) Authorizes the Agribusiness Development Corporation to:
 - (A) Issue revenue bonds for the purchase of certain lands in Kunia, Oahu;
 - (B) Grant agricultural leases on the acquired lands with terms of not more than fifty-five years;
 - (C) Purchase, accept, and maintain permanent conservation easement; and
 - (D) Contract with a financial institution to provide lease management services, including the collection of lease rents and other moneys owed the corporation related to the lease of agricultural lands under the corporation's control; and
- (2) Makes an appropriation to be expended by the Agribusiness Development Corporation for the purchase of agricultural lands in Kunia, Oahu.

Your Committee received comments in support of this measure from the University of Hawaii at Manoa, College of Tropical Agriculture and Human Resources; City and County of Honolulu, Department of Planning and Permitting; Hawaii Agriculture Research Center; and Hawaii Crop Improvement Association. The Agribusiness Development Corporation submitted comments.

Your Committee finds that this measure will allow the Agribusiness Development Corporation to become more aggressive in its efforts to promote and preserve agricultural activities in central and west Oahu. It further gives the Agribusiness Development Corporation the ability to contract for lease management services, allowing it to concentrate on its mandate to promote and preserve agricultural industries in the State.

Your Committee amended this measure by:

- (1) Adding language directing the Revisor of Statutes to insert the appropriate number of this Act in section 4 of the bill in printing this Act; and
- (2) Making technical nonsubstantive changes for purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 837, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 837, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 832 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Ways and Means on S.B. No. 1877

The purpose of this measure is to establish incentives and protections for important agricultural lands pursuant to chapter 205, part III, Hawaii Revised Statutes, by exempting owners of land designated as important agricultural lands from paying real property taxes, and allowing landowners of important agricultural lands to provide dwelling units for farmers and employees who work on the land, and their families.

Specifically, this measure:

- (1) Exempts owners of real property designated as important agricultural lands from paying real property taxes, and makes an appropriation to the counties to offset any revenues lost as a result of exempting these landowners from real property taxation; and
- (2) Allows landowners to develop, construct, and maintain dwelling units for farmers, employees, and their families on lands designated as important agricultural lands; provided that the landowner complies with certain conditions.

Testimony in support of this measure was submitted by the Department of Agriculture; the Department of Business, Economic Development, and Tourism, Office of Planning; the Hawaii Farm Bureau Federation; Maui Land and Pineapple Company, Inc.; Alexander and Baldwin, Inc.; Hawaiian Commercial and Sugar Company; Kauai Coffee Company, Inc.; the Hawaii Association of REALTORS; and Castle and Cooke Hawai'i. Testimony in opposition to this measure was submitted by the Mayor, County of Hawaii; the Finance Department, County of Hawaii; the Department of Corporation Counsel, City and County of Honolulu; two Council Members, Maui County Council; and the Sierra Club. The Department of the Attorney General and the Tax Foundation of Hawaii submitted comments.

The Legislature enacted Act 183, Session Laws of Hawaii 2005, to establish standards, criteria, and mechanisms to identify important agricultural lands and implement the intent and purpose of Article XI, section 3, of the Hawaii State Constitution. However, incentive and protection programs must be established before the Land Use Commission can begin to designate lands as important agricultural lands. Your Committees find that exempting landowners from the real property taxation that is assessed from their important agricultural lands will provide an incentive for landowners to file with the Land Use Commission for an important agricultural land designation. Your Committees further find that allowing landowners to develop, construct, and maintain dwelling units for farmers and employees who farm or work on important agricultural lands will also provide landowners with an incentive to file for an important agricultural land designation, as well as promote diversified agricultural production.

Your Committees note from the concerns indicated in written testimony that providing a real property taxation exemption for important agricultural lands may pose a constitutional issue. Article VIII, section 3 of the State Constitution provides that all functions, powers, and duties relating to the power of real property taxation is exercised exclusively by the counties. However, your Committees strongly believe that an incentive relating to real property taxation is necessary to establish incentive programs for important agricultural lands.

Accordingly, your Committees have amended this measure by:

- (1) Deleting the real property tax exemption and appropriation provisions under part I of this measure and inserting language that establishes an important agricultural lands tax credit that:
 - (A) Provides a landowner of important agricultural land an income tax credit equal to one hundred per cent of the actual amount of county real property taxes paid by the taxpayer;
 - (B) Provides a maximum amount of \$10,000,000 for the total aggregate tax credits claimed for each taxable year;
 - (C) Requires the taxpayer claiming the credit to provide information on an annual basis to the Department of Agriculture that will enable a quantitative and qualitative assessment of the impact of the tax credit; and
 - (D) Requires the Department of Agriculture to determine on an annual basis if the important agricultural land subject to the tax credit is in productive agricultural use, based on a ten-year farm plan submitted to and approved by the Department;
- (2) Adding an additional provision under part II of this measure that requires the combined total of farmer and employee dwelling units and all appurtenances situated on land controlled by the farmer or the employee's employer to occupy no more than twenty per cent of the total land area of the important agricultural land to encourage agricultural production of the land, not residential uses;
- (3) Emphasizing under part II of this measure that the farmers and employees must actively and currently work on the designated important agricultural land upon which their dwelling unit is situated;
- (4) Changing the effective date of the entire measure to July 1, 2050, to ensure ongoing discussion on this matter;
- (5) Changing the effective date of the important agricultural lands tax credit from applying to taxable years beginning after December 31, 2006 to December 31, 2008, as lands will not be designated until proper incentive and protection programs are established and implemented, pursuant to section 9 of Act 183, Session Laws of Hawaii 2005; and
- (6) Making technical, nonsubstantive amendments for the purposes of style and consistency.

Your Committees believe that this measure, as amended, fulfills the intent of this measure, which is to establish incentives and protections for important agricultural lands.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1877, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1877, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ayes, 12. Noes, none. Excused, 2 (Hee, Whalen).

SCRep. 833 Ways and Means on S.B. No. 662

The purpose of this measure is to allow the Director of Finance to guarantee farm loans for farmers or land owners situated on land designated as important agricultural lands.

The measure also fulfills the constitutional requirement that incentives and protections be established with respect to important agricultural lands in the State.

Your Committee received comments in support of the measure from the Hawaii Farm Bureau and the Hawaii Crop Improvement Association. The Board of Agriculture, the Land Use Research Foundation of Hawaii, and Alexander and Baldwin Company submitted comments on the measure.

Your Committee finds that article XI, section 3, of the state constitution requires the State to promote agriculture and conserve productive important agricultural lands. Act 183, Session Laws of Hawaii 2005 established standards, criteria, and mechanisms to identify important agricultural lands to implement the intent and purpose of the state constitution. Act 183 also recognized that while the supply of lands suitable for agriculture is critical, the long-term viability of agriculture depends on other factors, including the availability of appropriate financing.

This measure addresses the critical component of financing by authorizing the director of finance to guarantee loans for farmers or land owners situated on land designated as important agricultural lands. However, although your Committee is aware that the measure purports to satisfy the incentive and protection requirements pursuant to Act 183, your Committee believes that a comprehensive set of incentives including financing, is needed. Accordingly, your Committee is inclined to study other issues (including agribusiness infrastructure, water availability, streamlining the regulatory process, and county participation) before making a final determination as to whether the requirements of Act 183 are satisfied.

Your Committee has amended the measure by:

- (1) Changing the administrator of the loan program from the Director of Finance to the Chairperson of the Board of Agriculture under chapter 155, Hawaii Revised Statutes, which is dedicated to agricultural loans;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on this matter; and
- (3) Making technical amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 662, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 662, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 834 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1236

The purpose of this measure is to protect and preserve the continued productivity and viability of the State's agricultural industry by requiring any reclassification of land to an urban or rural district designation that is contiguous to an agricultural district to contain a condition prohibiting nonagricultural development within one thousand feet of any parcel used for a farming operation.

Testimony in support of this measure was submitted by the Hawaii Farm Bureau Federation, the Maui County Farm Bureau, the Hawaii Agriculture Research Center, and the Lalamilo Farm Lots Association. Testimony in opposition to this measure was submitted by the Department of Planning and Permitting, City and County of Honolulu; the Hawaii Reserves, Inc.; and the Kuilima Resort Company. The Department of Agriculture and the Office of Planning of the Department of Business, Economic Development, and Tourism submitted comments.

Agricultural operations continue to be driven out as urbanization encroaches upon farm lands. Farmers are continually faced with complaints and harassment from surrounding neighbors, which ultimately causes these farmers to move their agricultural operations to another agricultural district, or stop their operations completely. Your Committee finds that any loss in agricultural productivity has a detrimental affect on the State's sustainable food productivity and economic activity. Providing measures to protect and preserve agricultural productivity will enable farmers to continue their agricultural operations despite the encroachment of urbanization.

Your Committee notes that establishing a buffer zone of one thousand feet between agricultural districts and urban or rural districts may be too cumbersome and problematic to implement and enforce. Furthermore, the Right to Farm Act under chapter 165, Hawaii Revised Statutes, already provides measures to prevent the declaration that a farming operation is a nuisance.

Accordingly, your Committee has amended this measure by replacing its contents with language that requires the Land Use Commission to include the Right to Farm Act under chapter 165, Hawaii Revised Statutes, as a condition to any reclassification of land to an urban or rural district designation that is contiguous to an agricultural district.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to protect and preserve the continued productivity and viability of the State's agricultural industry.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1236, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1236, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Hee).

SCRep. 835 Ways and Means on S.B. No. 1705

The purpose of this measure is to improve the management of the Molokai irrigation system.

More specifically, the bill changes the Molokai Irrigation System Advisory Board to a governing board, increases the number of members on the board, permits nomination of members from Molokai homestead stakeholder organizations, and establishes the Molokai irrigation special fund for maintenance of the irrigation system.

The County Council of Maui and a concerned individual submitted comments in support of the bill. The Board of Agriculture submitted comments in opposition to the bill. The Office of Information Practices and the Office of Hawaiian Affairs submitted comments on the bill.

Your Committee finds that currently the Molokai Irrigation System Advisory Board is too dependent on the Department of Agriculture and cannot make independent decisions about matters it is most qualified to render.

Your Committee further finds that this bill will provide a concrete remedy that will permit the board to address all measures necessary to maintain the functionality of the pivotal Molokai irrigation system.

The Committee amended the bill to:

- (1) Clarify sunshine law requirements regarding board meetings;
- (2) Change the effective date of the Act to July 1, 2050 to facilitate further discussion of the bill including the concerns raised by the Office of Hawaiian Affairs with respect to the autonomy of the board and whether there should be some transition built into the process before the advisory board achieves complete independence from the Department of the Agriculture; and
- (3) Make technical, nonsubstantive changes for style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1705, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1705, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 836 Ways and Means on S.B. No. 1853

The purpose of this measure is to establish a system of best management practices, called the aha moku council system, based on indigenous resource management practices of native Hawaiians based on moku or land divisions, that will foster understanding and practical use of the past practices, including native Hawaiian expertise, to ensure responsible stewardship and an awareness of the interconnectedness of forests, land, valleys, streams, fishponds, and sea.

Specifically, this measure establishes:

- (1) The aha moku council system advisory committee that shall:
 - (A) Explore and derive best management practices for the creation of an aha moku council system to provide input based upon the indigenous resource management practices in each moku;
 - (B) Establish an administrative structure for the creation of an aha moku council commission; and
 - (C) Establish goals and objectives for an aha moku council system to include benchmarks for long-range planning and sustainable objectives; and
- (2) Report to the Legislature twenty days prior to the convening of the Regular Session of 2008 and 2009 with an interim and final report on its findings, including proposed legislation, for the establishment of the aha moku council system.

Your Committee received comments in support of this measure from the State Council of Hawaiian Homestead Association, the Nature Conservancy of Hawaii, and a private citizen. The Department of Land and Natural Resources, Department of Education, and Office of Hawaiian Affairs offered comments.

Your Committee finds that native Hawaiians, through an aha moku council system, protected their environment and maintained a system of sustainability of the resources of Hawaii that they depended upon for thousands of years. Your Committee finds that this system should be revived.

Your Committee has amended this measure by:

- (1) Revising the process for choosing advisory committee members to include a list of nominees to be submitted by the Office of Hawaiian Affairs and the Department of Hawaiian Home Lands;
- (2) Including in the best practices considerations both natural and cultural resources;
- (3) Emphasizing that the aha moku system shall focus on the sustainability of the State's resources and not merely in the sustainable use of those resources;
- (4) Changing the amount appropriated to an unspecified sum to allow further discussion of this measure; and
- (5) Making technical nonsubstantive amendments for purposes for clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1853, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1853, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 837 Ways and Means on S.B. No. 933

The purpose of this measure is to provide an appraisal procedure for land acquired by the State that is determined to have value as a resource to the State.

Your Committee received testimony in support of this measure from the Nature Conservancy of Hawaii. The Department of Land and Natural Resources offered its comments.

Your Committee finds that this measure extends to the Board of Land and Natural Resources the right to accept appraisals of land prepared for nonprofits organizations under certain conditions. It further allows the Board of Land and Natural Resources to contract independent appraisers to set the purchase price of land to be acquired as land having value as a resource to the State. Further, it allows the Board of Land and Natural Resources to acquire the land at a price higher than the appraised price if the Attorney General determines the higher price is justified and within the range of market value.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 933, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 933, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 838 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 546

The purpose of this measure is to protect and preserve agricultural productivity and viability in agricultural districts by increasing the minimum lot size in the rural districts and strengthening agricultural land use policy by establishing a minimum lot size on agricultural districts.

Specifically, this measure:

- (1) Changes the minimum lot size from one-half acre to one acre in rural districts;
- (2) Establishes a minimum lot size of five acres in an agricultural district; and
- (3) Allows for the clustering of dwelling units in rural and agricultural districts as long as the maximum density limitation for each respective district is not diminished.

Testimony in support of this measure was submitted by the Sierra Club, Hawai'i Chapter; Hawaii's Thousand Friends; the Hawaii Association of Realtors; and two individuals. Testimony in opposition to this measure was submitted by the Department of Planning and Permitting, City and County of Honolulu. The Department of Agriculture; the Office of Planning, Department of Business, Economic Development, and Tourism; the Environmental Center, University of Hawaii; and two Council Members, Maui County Council submitted comments.

In the recent past, hundreds of acres of agricultural land have been converted into developments that feature homes without agricultural activity, agribusiness, or subsistence farming. The loss of these agricultural lands results in a loss of the State's ability to develop sustainable agricultural productivity that could increase food and fuel self-sufficiency for Hawaii residents. Furthermore, agricultural viability is threatened by increased agricultural land values and nuisance complaints regarding the agricultural activities of agricultural producers. Changes in land use laws can assist in creating a more viable rural district that can absorb development pressures that are currently directed at the agricultural districts.

Your Committee finds that redefining the rural districts and strengthening the land use policy for agricultural districts is needed to accommodate non-urban, non-agricultural activities and uses in rural areas, while directing these higher-value, non-agricultural uses away from agricultural lands in the agricultural districts.

It was indicated to your Committee in submitted testimony that a more comprehensive approach is needed to effectively achieve a more desirable land use pattern that provides long-term protection for the State's valued agricultural lands, and for rural communities and rural landscapes. Furthermore, there were strong concerns raised regarding how the proposed minimum lot size requirements would affect existing county zoning ordinances for rural and agricultural district lands.

Accordingly, your Committee has amended this measure by adding language that adopts a more comprehensive approach to land use planning for rural and agricultural districts that:

- (1) Amends section 205-2, Hawaii Revised Statutes, by:
 - (A) Retaining the proposed amendment to increase the minimum lot size from one-half acre to one acre in a rural district; and
 - (B) Adding additional criteria for the determination of a rural district;
- (2) Amends section 205-4.5, Hawaii Revised Statutes, by:
 - (A) Adding definitions for and providing references to agricultural activities, agribusiness, and subsistence farming; and
 - (B) Clarifying that the provisions under this section will not apply to the development of any land within an agricultural district that has not been approved by the respective county as of July 1, 2007;
- (3) Amends section 205-5, Hawaii Revised Statutes, by:
 - (A) Establishing a minimum lot size of five acres in an agricultural district;
 - (B) Adding provisions to include a range of uses that support rural economic activities, rural settlements, and open space as a permitted use within a rural district;
 - (C) Adding criteria for a rural village or service center within a rural district; and
 - (D) Conforming this section's minimum lot size in a rural district reference to the amendment made in section 205-2, Hawaii Revised Statutes, from one-half acre to one acre in a rural district;
- (4) Amends section 205-6, Hawaii Revised Statutes, to provide further clarity;

- (5) Adds a clause that the lawful use of land or buildings on the effective date of this measure may continue although the use does not conform to the requirements of this measure, unless the nonconforming use is expanded, changed or discontinued; and
- (6) Makes technical, nonsubstantive amendments for the purposes of style and consistency.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to protect and preserve agricultural productivity and viability in agricultural districts.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 546, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 546, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Hee).

SCRep. 839 Ways and Means on S.B. No. 1093

The purpose of this measure is to develop a community-based consensus for managing Hawaii's marine resources by appropriating funds for the creation of an ocean health consensus project.

Comments in support of this measure were submitted by the Center for Conservation Research and Training at the University of Hawaii and The Nature Conservancy. The Department of Land and Natural Resources and the John A. Burns School of Medicine submitted comments.

Your Committee finds twenty-five per cent of the fish species native to Hawaii are found nowhere else in the world. Scientists estimate that a number of native fish species have declined by more than seventy-five per cent over the past one hundred years. This is a loss that affects the livelihood of fishermen, Native Hawaiian culture and practices, and Hawaii's food supply. Due to Hawaii's geographic isolation, and the high number of fish species that are exclusive to Hawaii, it is crucial that the State's shore reef systems and fisheries achieve and maintain a level of self-sufficiency and sustainability.

Your Committee finds that a community-based consensus on the management of Hawaii's marine resources will provide valuable input and tools in the development of a plan to protect, preserve, and enhance the State's marine resources for the benefit of future generations. This may be accomplished by establishing cooperation among the various stakeholders who use Hawaii's marine resources for sustenance, recreation, and commercial production.

Your Committee has amended this measure by:

- (1) Replacing the amount of the appropriation in section 3 with an unspecified amount to facilitate further discussion; and
- (2) Making technical, non-substantive amendments for the purposes of style and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1093, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1093, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 840 Ways and Means on S.B. No. 639

The purpose of this measure is to prohibit the sale of plants designated as noxious weeds in Hawaii.

The measure also requires the Department of Agriculture to annually review and update its list of noxious weeds and appropriates funds therefor.

Your Committee received comments supporting the measure from the Nature Conservancy. The Department of Land and Natural Resources submitted comments supporting the intent of the measure and a concerned citizen submitted comments on the measure.

Your Committee finds that the introduction of new invasive plants into Hawaii adds to the growing number of invasive species that crowd out native plants and over propagate in certain areas of the State. Your Committee also finds that the State's noxious weed list has not been updated in fifteen years, which has allowed many new plant species with the potential for causing an infestation to enter Hawaii's borders. These plants have been sold by plant wholesalers and retail outlets and has potentially added to the number of invasive plants in the State.

This measure will ensure the timely monitoring and eradication of alien plants in the State to reduce or eliminate the harm caused by invasive plants.

Your Committee has amended the measure by making technical amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 639, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 639, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 841 Ways and Means on S.B. No. 718

The purpose of this measure is to support the floriculture industry in Hawaii by encouraging the purchase of flowers grown in Hawaii.

More specifically, this measure amends section 103D-1002, Hawaii Revised Statutes, to require the Department of Agriculture, with the assistance of the State Procurement Office, to develop a Hawaii floriculture product program, to encourage the purchase and use of Hawaii-grown flowers.

The Department of Agriculture submitted comments on this measure.

Your Committee finds that the purpose of this bill is compatible with the purpose of Senate Bill 715. The purpose of that measure is to promote Hawaii's agricultural industry by encouraging the purchase and use of Hawaii agricultural products.

More specifically, Senate Bill 715 adds a new section to chapter 103D, Hawaii Revised Statutes (Procurement Code), which would provide incentives for food operations of state correctional facilities and state hospitals and healthcare facilities to award contracts to the lowest responsible and responsive bidder with preferences given to agricultural products raised or grown in Hawaii.

Your Committee finds that state agencies should assist in promoting and maintaining Hawaii's agricultural and floricultural industries by taking steps necessary to contract for purchases of agricultural products raised or grown in Hawaii, where appropriate. Your Committee believes that establishing a floriculture product program and establishing a preference program within the State Procurement Code fulfills the intent of this measure.

Accordingly, your Committee has amended this measure by:

- (1) Inserting the contents of SB 715 into this measure;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion; and
- (3) Making technical nonsubstantive amendments for the purpose of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 718, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 718, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 842 (Majority) Tourism and Government Operations on S.B. No. 1823

The purpose of this measure is to revise the appointment provisions to the Board of Directors of the Hawaii Tourism Authority (Board).

Specifically, this measure would:

- (1) Reduce from twelve to two, the number of appointments by the Governor, with one of the two voting members having knowledge, experience, and expertise in the area of Hawaiian cultural practices;
- (2) Clarify that each of the four mayors would appoint one voting member, with the advice and consent of the Senate, each of the appointees to have knowledge, experience, and expertise in the area of visitor industry management, marketing, promotion, transportation, retail, entertainment, or visitor attractions;
- (3) Clarify that the President of the Senate and the Speaker of the House of Representatives have direct appointment authority by adoption of a concurrent resolution for three voting members each, with half of the members to have knowledge, experience, and expertise in the area of visitor industry management, marketing, promotion, transportation, retail, entertainment, or visitor attractions;
- (4) Provide for interim appointments; and
- (5) Provide for the transitional implementation of the appointments prescribed under this measure.

Your Committee received comments on this measure from the Hawai'i Hotel & Lodging Association. Testimony in opposition to the measure was received from the Department of Business, Economic Development, and Tourism.

Your Committee finds that the members of the Board should represent a cross section of gubernatorial, legislative, and county ideals of tourism industry representation. Existing law provides for all twelve appointments to be made by the Governor.

Your Committee further finds that Board members should possess knowledge, experience, and expertise in the area of visitor industry management, marketing, promotion, transportation, retail, entertainment, or visitor attractions, which is the bulk of the responsibility of the Board.

Your Committee is cognizant of the constitutional mandates of Article V, section 6 of the Hawaii State Constitution, which provides for the Governor's nomination to all boards and commissions, with the advice and consent of the Senate. However, your Committee believes that the provision applies only to a board or commission that is the head of a principal department of the state government, which does not include this Board.

Your Committee is also cognizant of section 26-34, Hawaii Revised Statutes, which requires the Governor to make appointments to boards and commissions with the advice and consent of the Senate. However, your Committee has amended this measure to accommodate this issue as a conforming technical amendment.

Your Committee nonetheless believes that this measure requires further discussion in the interest of improving on the composition of the Board.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Tourism and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1823, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1823, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, 1 (Trimble). Excused, 1 (Tsutsui).

SCRep. 843 (Joint/Majority) Tourism and Government Operations and Ways and Means on S.B. No. 1726

The purpose of this measure is to provide for the joint management of the entire state capitol building and grounds, including parking facilities, by the Department of Accounting and General Services (DAGS) in conjunction with the Joint Legislative Management Committee of the Legislature.

Your Committees received testimony in support of this measure from the Senate Sergeant-at-Arms. Testimony in opposition was received from DAGS.

Your Committees note that this measure does not strip DAGS of the responsibility to manage the capitol grounds, but requires DAGS to do so in conjunction with the Joint Legislative Management Committee. Your Committees believe that because most of the capitol is occupied by the Legislature, the Legislature should be consulted and have input into how the building and grounds are managed.

Your Committees are particularly concerned about the insufficient number of parking spaces for the public, the adequacy of the level of security by the Department of Public Safety, and a potential cutback in custodial services by DAGS. Your Committees request DAGS to work on resolving these concerns as this measure moves through the Legislature.

As affirmed by the records of votes of the members of your Committees on Tourism and Government Operations and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1726 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, 2 (Hemmings, Trimble). Excused, 3 (English, Tsutsui, Whalen).

SCRep. 844 Ways and Means on S.B. No. 586

The purpose of this measure is to appropriate funds for the staffing and operating expenses of the Office of the Legislative Analyst, which was established in 1990.

No written comments were submitted on this measure.

Your Committee finds that the Office of the Legislative Analyst was created through Act 347, Session Laws of Hawaii 1990, and codified as section 21F-6, Hawaii Revised Statutes.

Your Committee also finds that staffing this office will provide the Legislature with the necessary revenue and expenditure data and analysis from which economic and fiscal policies are developed.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 586, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Menor, Hemmings, Whalen).

SCRep. 845 Ways and Means on S.B. No. 1312

The purpose of this measure is to make an emergency appropriation for electricity payments statewide.

This bill appropriates \$626,000 for fiscal year 2006-2007 to pay the electricity bill incurred by state facilities statewide due to unanticipated increases in global oil prices.

Your Committee received comments in support of this measure from the Department of Accounting and General Services.

Your Committee has amended this bill, in accordance with section 9 of article VII of the Constitution of the State of Hawaii, to insert a new section 2 stating that the appropriation in this bill will cause the general fund expenditure ceiling to be exceeded by \$626,000 and by .012 per cent and that the appropriation is necessary to serve the public interest and to meet the needs provided for by this bill.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1312, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1312, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, 4 (Chun Oakland, Hooser, Kim, Menor).

SCRep. 846 Ways and Means on S.B. No. 1313

The purpose of this measure is to make emergency appropriations for the state risk management revolving fund for fiscal year 2006-2007.

Your Committee received comments in support of this measure from the Department of Accounting and General Services and the Hawaii Health Systems Corporation.

Your Committee finds that the increase in the fund's expenditure ceiling is due to unanticipated increases in property insurance premiums and property insurance deductibles that were therefore not included in the fiscal year 2006-2007 insurance allocation.

Your Committee has amended this measure by making several technical amendments for the purposes of clarity, including adding language relating to the general fund expenditure ceiling.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1313, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1313, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, 4 (Chun Oakland, Hooser, Kim, Menor).

SCRep. 847 Ways and Means on S.B. No. 1689

The purpose of this measure is to require the Department of Budget and Finance to establish a searchable website to report on all entities receiving state awards.

Your Committee received comments in support of the measure from the Hawaii Boaters Political Action Association. Comments in opposition were received from the Department of Budget and Finance.

Your Committee finds that with appropriate funding the Department of Budget and Finance will be able to develop the capability to provide public access to information on organizations receiving public funding.

Your Committee has amended this measure by appropriating an unspecified amount of funds to the Department of Budget and Finance to develop the searchable website and by changing the effective date to July 1, 2007. Your Committee has also made technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1689, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1689, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Menor, Hemmings, Whalen).

SCRep. 848 Ways and Means on S.B. No. 1372

The purpose of this measure is to allow state departments and agencies, in addition to the Department of Budget and Finance, to enter directly into financing agreements to finance the construction of facilities and the leasing or purchase of equipment.

Your Committee received comments in support of this measure from the Department of Budget and Finance.

Your Committee believes that allowing other departments and agencies to directly enter into finance agreements will increase efficiencies, while still requiring the Department of Budget and Finance to maintain oversight responsibilities on the use of financing agreements.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1372, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1372, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Chun Oakland, Menor).

SCRep. 849 Ways and Means on S.B. No. 1948

The purpose of this measure is to extend from June 30, 2007 to June 30, 2011 the lapse date for the authorization to issue special purpose revenue bonds to assist Hui `Enekinia Hawai`i, an industrial enterprise.

Your Committee received comments in support of the measure from Hui `Enekinia Hawai`i.

Your Committee finds that special purpose revenue bonds to assist Hui `Enekinia Hawai`i were originally authorized in 1993. The lapse date for the authorization of those bonds were subsequently extended to June 30, 2007.

Your Committee further finds that Hui `Enekinia Hawai`i is still engaged in the development of a cogeneration facility project that will sell the electric energy that it produces to electric utilities that serve the public, and will sell the thermal fluids that it produces to existing and planned manufacturing and processing entrepreneurs in the area. Your Committee finds it is in the public interest to encourage the development of such cogeneration facilities.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1948, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1948, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Menor, Hemmings, Whalen).

SCRep. 850 (Majority) Ways and Means on S.B. No. 1370

The purpose of this measure is to allow the Department of Budget and Finance to assess fixed fees incurred in connection with the issuance of special purpose revenue bonds to provide the project party in advance with proper notice about the fees.

The Department of Budget and Finance submitted supporting comments.

Currently, when issuing special purpose revenue bonds, the Department of Budget and Finance incurs costs, but cannot determine the actual expenses and bill the project party until the bonds have been issued. Occasionally, this leads to disputes by the project party about the amount of costs incurred by the Department of Budget and Finance.

Your Committee agrees that establishing a fee schedule by way of adopting administrative rules will permit the department to provide the project party with the specific amount of fees that will be assessed for issuing bonds for a specific project so that the project party has advance notice and can plan accordingly. It is your Committee's belief that this procedure will prevent disputes about costs almost entirely.

Your Committee has:

- (1) Amended the bill to conform to current statutory language; and
- (2) Made technical nonsubstantive changes for the purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1370, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1370, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, 1 (Hemmings). Excused, 2 (Chun Oakland, Menor).

SCRep. 851 Ways and Means on S.B. No. 1926

The purpose of this measure is to create a whistleblower protection act specifically applicable to public employees.

The measure also gives the Ombudsman responsibility over investigations and notices and appropriates funds to the Ombudsman to prescribe the required notices.

Your Committee received comments in support of this measure from the Hawaii Government Employees Association, the League of Women Voters of Hawaii, the ILWU Local 142, and a concerned citizen. The Ombudsman submitted comments on the measure.

Your Committee finds that this measure is a rational extension of the current Whistleblower's Protection Act and will promote the public interest by affording protections to persons within government who provide valuable internal criticism of the operation of government itself.

Your Committee has amended this measure by:

- (1) Changing the title of the new subpart to "Special Provisions Applicable to Only Public Employment" to more accurately reflect the contents;
- (2) Giving enforcement jurisdiction over the new subpart to the Department of Labor and Industrial Relations rather than to the Ombudsman, and appropriating funds to the Department of Labor and Industrial Relations rather than the Ombudsman;
- (3) Providing that jurisdiction will rest with the Department of the Attorney General if the Department of Labor and Industrial Relations is the public employer being complained of in the public employee's complaint.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1926, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1926, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Menor, Hemmings, Whalen).

SCRep. 852 Human Services and Public Housing on S.B. No. 249

The purpose of this measure is to make the State Commission on Fatherhood permanent by repealing the sunset date.

The State Commission on Fatherhood and the Children's Rights Council submitted testimony in support of this measure.

Your Committee finds that making the State Commission on Fatherhood permanent will enable it to continue to, among other things, develop and advocate for legislation that facilitates fathers' involvement in the lives of their children, report on the status of fatherhood issues in Hawaii, and provide information and resources to the public on effective fathering and parenting support services available to families, particularly fathers.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 249 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Hemmings).

SCRep. 853 Human Services and Public Housing on S.B. No. 1673

The purpose of this measure is to provide equal access to immunosuppressant medication for Medicaid patients with HIV, AIDS, or Hepatitis C, or who require immunosuppressives due to organ transplants, regardless of whether they are in the QUEST or Medicaid Fee-For-Service programs.

The Department of Human Services, the Hawaii Disability Rights Center, the American Liver Foundation, the Hepatitis Support Network of Hawaii, and one individual submitted testimony in support of this measure. The Hawaii Association of Health Plans submitted testimony in opposition. The Hawaii Medical Service Association submitted comments.

Your Committee finds that while the current law exempts physicians prescribing immunosuppressant medication from preauthorization procedures under Medicaid, an exclusion pertaining to QUEST medical plans restricts QUEST Medicaid recipients' access to immunosuppressant medication. This measure will provide equal access to immunosuppressant medication for Medicaid patients with HIV, AIDS, or Hepatitis C, or who require immunosuppressives due to organ transplants, regardless of whether they are in the QUEST or Medicaid Fee-For-Service programs.

It is your Committee's intent to support equal access to immunosuppressant medication for this population of QUEST Medicaid recipients. Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1673, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1673, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Hemmings).

SCRep. 854 (Joint) Human Services and Public Housing and Judiciary and Labor on S.B. No. 1441

The purpose of this measure is to require foster and adoptive parents to complete a child abuse and neglect clearance as a condition of approval in accordance with federal law.

The Department of Human Services, the Child Welfare Services State Advisory Council, Kokua 'Ohana Foster Care Program, and one individual submitted testimony in support of this measure.

Your Committees find that this measure will ensure the State is in compliance with the requirements of the federal Adam Walsh Child Protection and Safety Act of 2006. The measure requires that child abuse and neglect clearances are conducted for all adults living in a foster or adoptive home in every state the adult or family has resided in during the previous five years as a condition of approval. Your Committees further find that this measure will help ensure that child abusers do not evade detection by moving from one state to another.

Your Committees have amended this measure by:

- (1) Changing the effective date from July 1, 2007, to upon approval; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1441, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1441, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 3 (Nishihara, Sakamoto, Hemmings).

SCRep. 855 Commerce, Consumer Protection and Affordable Housing on S.B. No. 1805

The purpose of this measure is to establish licensure and licensure qualifications for genetic counselors under the Department of Health.

Specifically, this measure would prohibit a person from using the letters "L.G.C." in connection with the person's name or use any words or symbols indicating or tending to indicate that the person is a licensed genetic counselor, without first holding a license in Hawaii.

Your Committee received written comments in support of this measure from the March of Dimes, The Queen's Medical Center, and nine individuals.

Your Committee finds that genetic counselors are health professionals with specialized graduate degrees and experience in the areas of medical genetics and counseling. The American Board of Genetic Counseling is the national certification entity. Genetic counselors provide information and support to families who have members with birth defects or genetic disorders, and to families who may be at risk for a variety of inherited conditions. Genetic counselors translate scientific knowledge into practical information to help families make decisions concerning childbearing.

Your Committee believes that the licensure of genetic counselors will help protect the public from persons who are unauthorized or untrained to provide genetic counseling services.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1805, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 856 (Joint) Commerce, Consumer Protection and Affordable Housing and Judiciary and Labor on S.B. No. 230

The purpose of this measure is to require scrap dealers, when buying copper from an individual, to require the individual to present valid identification and be fingerprinted.

Testimony in support of this measure was submitted by the Department of the Prosecuting Attorney for the City and County of Honolulu, the Honolulu Police Department, Hawaiian Electric Company, and the Kuli'ou'ou/Kalani Iki Neighborhood Board #2. Testimony in opposition to this measure was submitted by Schnitzer Steel Hawaii Corporation; Okuda Metals, Inc.; and Reynolds Recycling. The Department of the Attorney General submitted comments on this measure.

Your Committees find that the recently higher prices for copper have resulted in a spate of copper theft across the State. Not only does the theft of copper cost taxpayers money for replacement and repair, it also causes major disruptions to public services and utilities.

Your Committees find that requiring scrap dealers to obtain certain information from sellers prior to purchasing copper, will deter scrap dealers from buying stolen copper and lessen the incentive for thieves to steal copper.

After full discussion on this measure, your Committees have amended this measure by:

- (1) Removing the fingerprinting requirements;
- (2) Requiring sellers of copper, in whole or in part, to provide a receipt or a notarized statement for the scrap metal upon offering the metal for sale to a scrap dealer;
- (3) Requiring the scrap dealer to refuse to accept any copper, in whole or in part, if the seller cannot comply with the requirements of paragraph (2) and to report the attempted sale to law enforcement authorities;
- (4) Exempting public utilities from the requirements of section 445-233, Hawaii Revised Statutes (HRS);
- (5) Adding a penalty for a violation of either sections 445-232, 445-233, or for any person who falsifies a statement required by section 445-233, HRS. The penalty includes a fine of \$100 for the first offense, \$500 for the second offense, and \$1,000 and the suspension of the scrap dealer license for a period of six months for the third offense; and
- (6) Changing the effective date for the purpose of promoting further discussion.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Affordable Housing and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 230, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 230, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, none. Excused, 2 (Ige, Kokubun).

SCRep. 857 (Joint) Commerce, Consumer Protection and Affordable Housing and Judiciary and Labor on S.B. No. 1803

The purpose of this measure is to enable small insurers, which occupy less than thirty per cent of the health insurance market, to provide the broadest health care coverage at the lowest possible rates by permitting different types of insurance to be combined into a single policy.

Your Committees received testimony in support of this measure from the Hawaii Management Alliance Association and the Hawaii Association of Realtors. Testimony in opposition to this measure was received from the Department of Commerce and Consumer Affairs and the Hawaii Medical Service Association.

Your Committees find that affordable health insurance is one of the State's most pressing concerns and that small insurers provide coverage to individuals, self-employed workers, and small business group plans that have one or few employees. Expanding coverage options will benefit

consumers and will increase competition in Hawaii. The intent of this measure is to provide consumers with greater choices in their health insurance provider by allowing small insurers to be able to combine different types of insurance into a single policy without violating tying arrangements that are prohibited under the Insurance Code.

Your Committees have amended this measure to promote further discussion by:

- (1) Removing section 1 of the measure;
- (2) Changing the requirements to allow those insurers that cover less than ten per cent of the health insurance market to offer combined insurance coverage under a single policy to small employee groups; and
- (3) Changing the effective date.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Affordable Housing and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1803, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1803, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, none. Excused, 2 (Ige, Kokubun).

SCRep. 858 (Joint) Commerce, Consumer Protection and Affordable Housing and Judiciary and Labor on S.B. No. 1400

The purpose of this measure is to require financial institutions to report suspected instances of financial abuse directed towards, targeting, or committed against elders or a dependent adult to a local law enforcement agency.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs, the Department of Human Services, the Hawaii Bankers Association, and two individuals. Comments on this measure were submitted by the Hawaii Financial Services Association and Finance Factors.

Your Committees find that reported instances of financial abuse of elders have become increasingly common and that state-regulated financial institutions can be instrumental in curtailing this disturbing upward trend by reporting suspected incidents of financial abuse.

Your Committees further find that the requirements placed upon financial institutions to report suspected financial abuse should not be unduly burdensome and that financial institutions should be protected from liability when a report of suspected financial abuse is made in good faith.

Therefore, your Committees have amended this measure by:

- (1) Providing a safe harbor provision for the financial institutions to protect them from litigation when filing a report of suspected abuse in good faith;
- (2) Clarifying that the trigger for reporting suspected abuse is a good faith belief;
- (3) Providing financial institutions with the option of reporting suspected financial abuse to the Department of Human Services, as well as any local law enforcement agency;
- (4) Changing the time period for reporting, in writing, suspected financial abuse from two days to five days;
- (5) Deleting the provisions related to dependent adults; and
- (6) Clarifying that the report is made by the financial institution and not by the officer or the employee.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Affordable Housing and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1400, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1400, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, none. Excused, 2 (Ige, Kokubun).

SCRep. 859 (Joint) Commerce, Consumer Protection and Affordable Housing and Judiciary and Labor on S.B. No. 1332

The purpose of this measure is to deter the theft of copper.

Specifically, the measure creates the criminal offense of theft of one pound or more of copper as a class C felony and adds new requirements for the sale of copper and the purchase of copper by scrap dealers.

Your Committees received testimony in support of this measure from State Attorney General, Honolulu Prosecuting Attorney, Honolulu Police Department, Maui Prosecuting Attorney, and Hawaiian Electric Company. Testimony in opposition was received from the Public Defender.

Your Committees find that the price of copper has risen due to the high market demand for construction materials. Your Committees note the recent rise in copper thefts has had a great impact on the general public with the dismantling of street light fixtures, transformers, and rain gutters. Scrap metal dealers are the prime intermediary for copper thieves who sell the contraband to the dealers.

This measure establishes specific disclosure requirements on persons seeking to sell copper and specific reporting requirements on scrap dealers purchasing the copper to assist law enforcement officials in identifying and prosecuting copper thieves. Your Committees believe that criminalizing copper theft and regulating scrap dealers, such as provided in this measure, will serve as effective tools in deterring future copper thefts.

Your Committees have amended this measure by changing the effective date to July 1, 2050, in the interests of continuing the discussion.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Affordable Housing and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1332, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1332, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, none. Excused, 2 (Ige, Kokubun).

SCRep. 860 Commerce, Consumer Protection and Affordable Housing on S.B. No. 170

The purpose of this measure is to allow captive insurance companies to be formed as limited liability companies, to clarify the minimum capital and surplus requirements, and increase the investment flexibility for pure captives.

Written comments in support of this measure were submitted by Willis Management (Hawaii) and one individual. The Department of Commerce and Consumer Affairs submitted written comments on this measure.

Your Committee finds that while Hawaii is the second largest captive insurance domicile in the United States, it is facing increasing competition from other states that have recognized the value of implementing captive insurance enabling regulations.

Your Committee further finds that the Hawaii Revised Statutes do not currently allow for the formation of captive insurance companies to form as limited liability corporations or limited liability companies, while other states do. This leaves Hawaii unable to compete with other captive domiciles for this type of business. This measure will help Hawaii to continue to be a leading captive insurance domicile by maintaining captive insurance companies already domiciled in Hawaii and attracting new captive insurance companies in the future.

Your Committee has amended this measure by:

- (1) Amending the definition of “affiliated entity” in section 431:19-101, Hawaii Revised Statutes (HRS), to clarify that, in the case of a pure captive insurance company, the affiliated entity risks insured by the pure captive insurance company are directly or indirectly controlled in some manner by the parent or an affiliate of the parent company of the pure captive insurance company;
- (2) Requires the Insurance Commissioner to designate the Captive Insurance Administrator as a Deputy Commissioner, with the approval of the Director of Commerce and Consumer Affairs;
- (3) Implementing various amendments to article 19 of chapter 431, HRS, to allow the formation of captive insurance companies as limited liability companies;
- (4) Changing how independent advisors are selected by allowing the Insurance Commissioner to use independent advisors and consultants to assist in the review and analysis of a specific application or business plan amendment in section 431:19-102(f), HRS;
- (5) Consolidating the minimum capital and surplus requirements and consolidating the minimum required capital and surplus for association captive insurance companies and risk retention captive insurance companies at \$500,000;
- (6) Eliminating the requirement in section 431:19-106(c), HRS, that there be no fewer than three incorporators of the captive;
- (7) Eliminating the requirement in section 431:19-106(g), HRS, that the board of directors or other governing body of the captive insurance company have a Hawaii resident director;
- (8) Revising the framework for regulation of investments of captive insurance companies, and in so doing, providing greater flexibility to captive insurance companies, other than class 3 risk retention captive insurance companies;

Requires that the captive insurance company’s reserves are invested pursuant to an approved strategic investment policy, or in the case of a class 3 risk retention captive insurance company or a captive without an approved strategic investment policy, in investments in accordance with article 6 of the Insurance Code;
- (9) Allowing the Insurance Commissioner to require a captive insurance company to file a complete disclosure of the identity, background, and experience of key individuals or staff involved with its investment activities and administration;
- (10) Requiring each captive insurance company, consistent with approval and record keeping requirements in article 6, to maintain in its principal office in Hawaii, a written record documenting its investment transactions and documents evidencing the authorization or approval of the investments by the captive insurance company’s governing body or its designated representative; and
- (11) Making other technical, nonsubstantive changes for purposes of style, clarity, and consistency.

Your Committee notes that these amendments were agreed upon by the Department of Commerce and Consumer Affairs and the Hawaii Captive Insurers’ Council.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 170, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 170, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 861 Commerce, Consumer Protection and Affordable Housing on S.B. No. 920

The purpose of this measure is to limit the use of condominium association member lists by requiring managing agents to obtain prior written consent from the board of directors of the condominium association, except to send meeting notices, association newsletters, and notices of proposed declaration and bylaw amendments.

Testimony in support of this measure was submitted by the Hawaii Independent Condominium and Cooperative Owners, and two individuals. The Real Estate Commission of the Department of Commerce and Consumer Affairs and the Hawaii Chapter of the Community Associations Institute submitted comments.

Your Committee finds that condominium association member lists are the property of the association and members’ information must be kept private. The intent of this measure is to stop managing agents from using condominium member lists without the prior written consent of the board of directors of the condominium association.

Your Committee has amended this measure to move the language limiting the use of condominium association member lists by managing agents from section 514B-154, Hawaii Revised Statutes (HRS), to section 514B-153, HRS, as section 514B-153 prescribes the requirements for association member lists, including handling procedures, and is the more appropriate section for this new requirement.

Your Committee has also amended this measure to:

- (1) Require a managing agent to receive prior written consent of the board of directors of the condominium association for any use of a member list, including political or commercial uses;
- (2) Clarify that the member list is the property of the association and that managing agents or resident managers may not use the information on the member list to create a separate list as a way to avoid the requirements of section 514B-153, HRS; and
- (3) Changing the effective date to promote further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 920, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 920, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 862 Commerce, Consumer Protection and Affordable Housing on S.B. No. 921

The purpose of this measure is to limit the costs that a condominium association may charge members for association records to reasonable cost.

This measure also clarifies that reasonable costs include administrative and duplicating costs.

Testimony in support of this measure was submitted by the Independent Condominium and Cooperative Owners and two individuals. The Hawaii Chapter of the Community Association Institute submitted comments.

Your Committee finds that costs for obtaining condominium association records can sometimes be excessive and this may prevent members from exercising their right to obtain copies of association records. The intent of this measure is to limit the costs of obtaining records to reasonable costs, making it easier and more affordable for members to obtain this information.

Your Committee has amended this measure by changing the maximum amount that a member may be charged from fifty cents to \$1 per page for administrative and duplicating costs and by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 921, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 921, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 863 Commerce, Consumer Protection and Affordable Housing on S.B. No. 1006

The purpose of this measure is to exempt bank holding companies; subsidiaries of a bank that have been granted approval by the federal government to invest in, own, or operate; exclusive agents of a bank, savings association, or credit union; and operating subsidiaries of a bank or credit union from the regulations that govern mortgage brokers and solicitors.

Your Committee received testimony in support of this measure from Central Pacific Bank and Central Pacific HomeLoans. First Hawaiian Bank submitted testimony in opposition to this measure. The Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs; the Regulated Industries Complaint Office of the Department of Commerce and Consumer Affairs; Primerica Financial Services Home Mortgages, Inc.; and the Hawaii Credit Union League submitted comments on this measure.

Your Committee finds that mortgage brokers and solicitors who work in a bank fall within the regulatory scheme of the Division of Financial Institutions. If a bank has a wholly owned subsidiary with mortgage brokers and solicitors, those brokers and solicitors fall with the regulatory scheme of both the Division of Financial Institutions and the Division of Professional and Vocational Licensing.

Your Committee further finds that the Division of Financial Institutions' regulatory scheme is more stringent, and therefore, your Committee has amended this measure to provide a narrow exemption for mortgage brokers and solicitors of a wholly owned bank subsidiary from the regulation of the Division of Professional and Vocational Licensing. In addition, your Committee has amended this measure to make technical, nonsubstantive changes for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1006, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1006, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 864 (Majority) Commerce, Consumer Protection and Affordable Housing on S.B. No. 1008

The purpose of this measure to amend chapter 431:10D, Hawaii Revised Statutes, to set forth standards and procedures for insurers and insurance producers relating to the purchase or exchange of annuity products.

Specifically, the major provisions of this measure:

- (1) Require an insurer or insurance producer, in recommending the purchase or exchange of an annuity, to have reasonable grounds for believing that the recommendation is suitable for the consumer based upon facts disclosed by the consumer as to the individual's investments, other insurance producers, and financial situation and needs;
- (2) Require that a reasonable effort be made to obtain information about a consumer's financial status, tax status, investment objectives and other information that should reasonably be considered prior to the purchase or exchange of an annuity based upon the recommendation of an insurer or insurance producer;
- (3) Provide guidance on when an insurer or insurance producer's recommendation will be considered reasonable under the circumstances actually known at the time of the recommendation;

- (4) Require an insurer to assure that there is a system in place to supervise recommendations to achieve compliance with the regulations; and
- (5) Make a sale to a consumer that violates the information requirements discussed above an unfair or deceptive trade practice in the business of insurance.

Your Committee received testimony in support of this measure from the American Council of Life Insurers and the National Association of Insurance and Financial Advisors. The Insurance Division of the Department of Commerce and Consumer Affairs (DCCA) and the Business Registration Division of the DCCA submitted testimony in opposition to this measure.

Your Committee finds that there is a need to protect consumers who purchase annuity products. This measure is based upon model legislation and the intent is to ensure that the insurance needs and financial objectives of consumers in transactions involving annuity products are appropriately and adequately addressed.

Your Committee has amended this measure by changing the effective date to promote further discussion. Your Committee has also amended this measure to make technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1008, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1008, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Slom). Excused, 2 (Ihara, Sakamoto).

SCRep. 865 Commerce, Consumer Protection and Affordable Housing on S.B. No. 1011

The purpose of this measure is to require motor vehicle manufacturers to allow registered owners, through a registered locksmith, to access information necessary to produce replacement vehicle keys.

Your Committee received testimony in support of this measure from the Property Casualty Insurers Association of America, AAA-Hawaii, AAA-California, Pacific Locksmiths, and five individuals. Testimony in opposition to this measure was submitted by the Motor Vehicle Industry Licensing Board, the Hawaii Automobile Dealers' Association, and the Alliance of Automobile Manufacturers.

Your Committee finds, based upon some of the testimony presented, that it has become increasingly common for motorists to undertake significant costs or to wait for prolonged periods of time in order to get replacement keys for their vehicles when the keys become lost, stolen, or damaged. Based upon testimony presented to your Committee, it appears that locksmiths are unable to fashion new keys without certain types of information, which sometimes requires the locksmith to dismantle parts of the vehicle to obtain it. If locksmiths are still unable to fashion a new key, motorists are sometimes required to wait until a new key can be sent from the mainland.

While your Committee notes the concerns raised by those in opposition that this measure bypasses the security measures the motor vehicle industry has implemented to safeguard the security of their products, your Committee finds that this measure should proceed in the legislative process to allow a continued dialog among the interested parties.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style, and by changing the effective date to promote further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1011, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1011, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 866 Commerce, Consumer Protection and Affordable Housing on S.B. No. 1410

The purpose of this measure is to modernize Hawaii's insurance laws, ease insurers' filing requirements, and bring Hawaii's insurance laws into conformity with the federal and national standards with regards to:

- (1) The federal Military Personnel Services Protection Act;
- (2) Long-term insurance care; and
- (3) The sharing of information with the insurance regulatory agencies of foreign countries.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and the Association of Insurance and Financial Advisors. Testimony in opposition to this measure was submitted by Hawaii Insurers Council and USAA. Comments were received from the American Council of Life Insurers (ACLI) and the Hawaii Medical Service Association.

Your Committee finds that this measure is a reflection of model standards developed by the National Association of Insurance Commissioners.

Your Committee, has deleted the section of this measure dealing with the Military Personnel Services Protection Act, and upon the recommendation of the ACLI, has amended this measure to make technical amendments and to add a new section to require training for producers of long-term care insurance. Your Committee has also amended this measure to delay the effective date to promote further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1410, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1410, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 867 Commerce, Consumer Protection and Affordable Housing on S.B. No. 1423

The purpose of this measure is to provide for additional protections for consumers of cemetery or funeral services.

This measure, among other things:

- (1) Adds a new section to chapter 442, Hawaii Revised Statutes, to establish procedures for the cancellation, termination, and refund of pre-need funeral and interment services contracts;
- (2) Requires a cemetery authority to file with the Department of Commerce and Consumer Affairs and maintain a map of every plot, crypt, or niche, and maintain an accurate record of the identity of each person buried or interred in the cemetery;
- (3) Ensures that contracts for pre-need interment of funeral services retain priority over liens and mortgages of a pre-need interment or funeral services authority if the authority's pre-need trusts are not fully funded;
- (4) Requires disclosure in clear and plain language of the terms of a pre-need funeral or interment services contract;
- (5) Clarifies the Director of Commerce and Consumer Affairs' authority to inspect the books, records, and papers of a cemetery or pre-need funeral or interment services authority; and
- (6) Increases the fine from \$1,000 to \$5,000 for violations of the chapter of law regulating cemetery or pre-need funeral or interment services authorities.

Your Committee received testimony in support of this measure from the Regulated Industries Complaint Office of the Department of Commerce and Consumer Affairs, the Funeral Consumers Alliance Hawaii, and Mililani Group, Inc. Comments were submitted by the Hawaii Funeral Directors Association and Ballard Mortuary, Inc.

Your Committee finds that this measure will materially advance and improve the level of consumer protection afforded Hawaii's cemetery and funeral services consumers by establishing procedures for the cancellation, termination, and refund of pre-funeral and pre-interment needs, as well as implementing other requirements related to the death care industry.

Your Committee has amended this measure by changing the effective date to July 1, 2050, in the interest of further discussion and by making a technical, nonsubstantive amendment for the purpose of style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1423, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1423, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 868 Commerce, Consumer Protection and Affordable Housing on S.B. No. 1654

The purpose of this measure is to establish a process for condominium dispute resolution for condominiums governed by chapter 514A, Hawaii Revised Statutes (HRS).

Specifically, this measure seeks to reenact section 28 of Act 164, Session Laws of Hawaii 2004 (Act 164), which created the Condominium Dispute Resolution Pilot Project within the Office of Administrative Hearings of the Department of Commerce and Consumer Affairs (Office of Administrative Hearings).

Your Committee received testimony in support of this measure from the Office of Administrative Hearings, the Hawaii Independent Condominium and Co-op Owners, and the Hawaii Chapter of the Community Associations Institute.

Your Committee finds that section 28 of Act 164, Session Laws of Hawaii 2004, created the Condominium Dispute Resolution Pilot Project within the Office of Administrative Hearings for condominiums created under chapter 514A, HRS. This pilot project was repealed on June 30, 2006.

Your Committee further finds that while a new condominium dispute resolution process has been established in chapter 514B, HRS, the process found in chapter 514B, HRS, does not apply to those condominiums still governed by chapter 514A, HRS. This measure seeks to recreate a similar dispute resolution process for those condominiums still governed by chapter 514A, HRS.

Your Committee has amended this measure, based partially upon the testimony of the Office of Administrative Hearings, by:

- (1) Adding a sunset date of June 30, 2009;
- (2) Allowing cases that were before the Office of Administrative Hearings under the Condominium Dispute Resolution Pilot Project, as created by Act 164, on June 30, 2006, to be reinstated and resolved under the provisions of this measure; and
- (3) Making technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1654, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1654, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 869 Commerce, Consumer Protection and Affordable Housing on S.B. No. 1704

The purpose of this measure is to make clarifying amendments to various provisions of the condominium law.

Specifically, this measure:

- (1) Clarifies that chapter 514A, Hawaii Revised Statutes (HRS) is one of the chapters for which disciplinary action may be taken against a real estate licensee;
- (2) Clarifies what is to be included in a developer's public report and how the report and any amendments must be delivered to a purchaser or prospective purchaser for binding sales contracts;
- (3) Reinstates the fidelity bond requirement for condominium association registration under chapter 514B, HRS; and

- (4) Provides the developer of a condominium property regime that is registered pursuant to chapter 514A, HRS, the option of registration and sale of the condominium project pursuant to chapter 514B, HRS.

Your Committee received testimony in support of this measure from the Real Estate Commission of the Department of Commerce and Consumer Affairs (Real Estate Commission), the Hawaii Chapter of the Community Associations Institute, and the Hawaii Council of Associations of Apartment Owners.

Your Committee finds that the changes made to the condominium law over the last few years have created various issues, especially for those condominiums that remain governed by chapter 514A, HRS, and that amendments are necessary to provide clarity in the law.

Your Committee has amended this measure to include the recommendations of the Real Estate Commission to:

- (1) Clarify that where a property regime was created, and not just registered, under chapter 514A, HRS, the developer has the option to register the project under chapter 514B, HRS;
- (2) Repeal section 26 of Act 164, Session Laws of Hawaii 2004 (Act 164), which repealed parts I, V, and VI of chapter 514A, HRS;
- (3) Reenact parts I, V, and VII, of chapter 514A, HRS, as amended;
- (4) Amend sections 514A-14.5 and 514A-108, HRS, to reflect the repeal of chapter 201G, HRS, and the enactment of chapter 201H, HRS; and
- (5) Change the effective date of the repeal of section 26 of Act 164 and the reenactment of parts I, V, and VII of chapter 514A, HRS, to June 30, 2007.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1704, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1704, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 870 Commerce, Consumer Protection and Affordable Housing on S.B. No. 1988

The purpose of this measure is to establish labeling requirements for honey not produced in Hawaii and to add definitions related to honey to chapter 147, Hawaii Revised Statutes (HRS).

Your Committee received testimony in support of this measure from the Hawaii Beekeepers' Association and one individual. Testimony in opposition to this measure was submitted by the Department of Health. Comments were received from the Department of Agriculture.

Your Committee finds the honey industry and the honey bees that produce Hawaii honey are a critical part of the agricultural production chain and that Hawaii honey needs to be protected and distinguished from honey that is imported to the State.

In addition, your Committee finds that unwary consumers should be protected from purchasing imported honey that does not disclose its true content or attempts to mislead consumers through its labeling.

The intent of this measure is to protect consumers by establishing labeling requirements for honey imported to and sold in the State.

Your Committee has amended this measure, based partially upon the recommendation of the Department of Agriculture, by:

- (1) Removing section 1 of the bill to clarify that the intent is the accuracy of labeling;
- (2) Removing the reference to the Department of Agriculture in determining whether honey has been adulterated within the meaning of section 328-9, HRS;
- (3) Removing country of origin labeling requirements and replacing the language with a requirement to disclose the percentage of Hawaii produced honey in each package;
- (4) Requiring the Department of Agriculture to work with interested parties to develop labeling requirements and procedures regarding the disclosure of the country of origin of honey sold in and imported to the State;
- (5) Changing the effective date to promote further discussion; and
- (6) Making technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1988, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1988, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 871 Judiciary and Labor on S.B. No. 1573

The purpose of this measure is to clarify that arson property damage over ten thousand square feet qualifies for special sentencing.

In addition, the measure also amends the misdemeanor offense of arson in the fourth degree to include recklessness to the state of mind requirement in the commission of arson.

Your Committee finds that the current law regarding arson states that the damage to the property must be exactly ten thousand square feet to qualify for special sentencing considerations. This bill would provide that the damage be ten thousand square feet or more.

Your Committee heard testimony in support of the bill from the Honolulu Prosecuting Attorney's Office and heard testimony against the bill from the Public Defender's Office. After further discussion, the Public Defender's Office withdrew its objection to the bill.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1573 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 872 Judiciary and Labor on S.B. No. 1520

The purpose of this measure is to eliminate the requirement that arrest citations contain an offender's full social security number and to authorize the verification of arrest citations and traffic crime complaints by declaration in accordance with the court rules.

Your Committee heard testimony from the Judiciary in support of the bill. There was no opposition to the bill.

Your Committee finds that court records are public records and the citation is a part of the court record. Requiring a full social security number in a public record facilitates identity theft. The elimination of the full social security number would eliminate the misuse of such information.

Your Committee further finds that allowing the use of declarations in lieu of affidavits for arrest citations and traffic crime complaints is consistent with current rules of court, and would not harm the offender's right to challenge the veracity of the officer. Use of declarations would allow for more timely processing of citations and complaints, and would save space on citation forms.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1520 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 873 Judiciary and Labor on S.B. No. 1337

The purpose of this measure is to facilitate the proving of civil contempt of court in the enforcement of an order compelling a parent to pay child support, medical support, or other remedial care for his or her child. The measure provides that proof that the parent was present in court at the time the order was pronounced or that parent was served with said order, and proof that the parent did not comply with said order, constitutes prima facie evidence of a civil contempt of court.

Testimony in support of this measure was received from one individual.

Presently, when a parent who is ordered to pay child support or provide other types of support for his or her child fails to do so, a party bringing a civil contempt of court action against the non-complying parent has the burden to prove that the non-complying parent has the ability to pay or provide the court-ordered support at the time of the civil contempt ruling. In *Murray v. Murray*, 60 Haw. 160, 587 P.2d 1220, the Hawaii Supreme Court found that the trial court did not make a specific finding that the parent was able to pay at the time of the contempt ruling. This has proven to be a difficult burden, as the information about the non-complying parent's ability to pay at a particular time is with the non-complying parent. This has made it difficult to pursue non-complying parents, even though there is a prior court order for child support.

This measure shifts the burden of proof on the non-complying parent after it is proven that prima facie evidence of a civil contempt where there is proof that the non-complying parent was present in court at the time the support order was pronounced or that the non-complying parent was served with said order, and proof that the non-complying parent did not comply with said order. It becomes the non-complying parent's burden to prove to the court that he or she is unable to pay or provide the court-ordered support.

The proposed statutory language is modeled after a California statute, which the United States Supreme Court held was valid in a civil contempt action. *Hicks v. Feiock*, 485 U.S. 624 (1988).

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1337 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 874 Judiciary and Labor on S.B. No. 1527

The purpose of this measure is to streamline and afford greater flexibility to the courts to determine the most efficient and effective procedures for selecting, qualifying, summoning, managing, and compensating prospective jurors.

Your Committee finds that the current procedures for the summoning, selection, and management of prospective jurors and jurors are uncompromising. The Judiciary, with its information management system has the opportunity to streamline this process, reduce costs, establish more efficient practices, and provide a more user-friendly experience for those summoned and selected for jury service.

This bill allows for the electronic methods for selecting, summoning, and managing grand jurors and jurors. It also provides for flexibility to determine the most effective and efficient process for selecting, summoning, and managing jurors. It also revises existing terms and language for clarity and consistency, deletes certain provisions that are no longer applicable, and amends statutory provisions for consistency with the language in the Americans with Disabilities Act.

Your Committee received testimony from the Judiciary in support of the bill. There was no testimony against the bill.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1527 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 875 Judiciary and Labor on S.B. No. 957

The purpose of this measure is to ensure that a violation under chapter 104, Hawaii Revised Statutes (HRS), is limited to a violation that occurs within a single contract, regardless of the close proximity in time of other violations on simultaneous projects.

Testimony in support of this measure was received from the Hawaii Building and Construction Trades Council, AFL-CIO, International Union of Elevator Constructors, Laborers' Union Local 368, Iron Workers, and one individual. Testimony in opposition was received from the Department of Labor and Industrial Relations (DLIR).

Your Committee is troubled with the DLIR's testimony as stated in the following: "For example, if a contractor failed to pay overtime on March 26, Kuhio Day, to laborers or mechanics on three projects, because the contractor's employees would rather work on that State holiday than take the day off, the Department would have to suspend the contractor from any State work for three years. Even if the contractor corrected the mistake within 20 days and paid back wages and penalties, the Department would still have to suspend the contractor." The fact that DLIR finds this example acceptable under chapter 104, HRS, proves why this measure is needed.

Your Committee finds that the State should enforce laws that are created to protect the worker and taking a cavalier attitude toward violations under chapter 104, HRS, should not be condoned.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 957 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 876 Judiciary and Labor on S.B. No. 1392

The purpose of this measure is to authorize enhanced civil and administrative penalties for securities violations, when the violations are directed toward, target, or are committed against seniors who are sixty-two years of age or older.

This measure authorizes civil and administrative penalties of up to \$50,000 for each violation.

Your Committee received testimony from the Attorney General's Office, the Commissioner of Securities of the Department of Commerce and Consumer Affairs, AARP Hawaii, and a private citizen in support of the bill. There was no opposition to the bill.

Your Committee finds that investment fraud against seniors is a growing concern in Hawaii. A recent statewide survey done by AARP Hawaii demonstrated the problem. This measure will allow the State to be proactive in deterring investment fraud against seniors.

Your Committee amended the bill to include a savings clause since new penalties were being added to the existing law.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1392, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1392, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 877 Judiciary and Labor on S.B. No. 1422

The purpose of this measure is to provide additional sanction for violations by mortgage brokers and solicitors against elders.

Your Committee received testimony in support of the bill from the Attorney General's Office and from the Department of Commerce and Consumer Affairs. There was no testimony in opposition.

Your Committee finds that complaints against mortgage brokers have been received concerning conduct harmful to elderly consumers and is concerned that such conduct, if undeterred, will increase. Reverse mortgages were being offered when not appropriate by unlicensed mortgage brokers with the assistance of a mortgage broker. The bill would provide for monetary sanctions in an amount not to exceed \$10,000 for each violation.

Your Committee amended the bill by adding a savings clause which is appropriate to preserve rights, remedies, or privileges of pending proceedings.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1422, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1422, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 878 Judiciary and Labor on S.B. No. 228

The purpose of this measure is to require minors who commit graffiti to remove their graffiti from the affected property and to perform community service to remove graffiti from other properties. The measure originally proposed a new penalty for property damage that involves graffiti by requiring the defendant to remove their graffiti from the affected property and to perform community service to remove graffiti from other properties.

Testimony in support of this measure was received from Department of Transportation, McCully – Moiliili Neighborhood Board #8 and a private citizen. Opposing testimony was received from the Office of the Public Defender.

Your Committee amended the bill by deleting section 1 because similar requirements are included in S.B. 676, S.D. 1 by amending section 708-823.5, Hawaii Revised Statutes. The bill was further amended by requiring (1) the minor, parents or legal guardians to pay for the cost of paint and materials and (2) the minor to perform a minimum of eighty hours of community service to remove graffiti from other properties.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 228, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 228, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Kokubun).

SCRep. 879 (Majority) Judiciary and Labor on S.B. No. 702

The purpose of this measure is to permit an owner of a pistol to use any ammunition magazine authorized for use with the pistol by the manufacturer of the pistol and to repeal the prohibition on magazines with a capacity in excess of ten rounds.

Your Committee received testimony from twenty-seven private citizens and from the Hawaii Rifle Association in support of repealing the prohibition of magazines in excess of ten rounds of ammunition. Representatives from the Honolulu Police Department and the Attorney General's Office testified against repealing the prohibition.

In light of this finding, your Committee amended the purpose of the bill to allow for the owner of a pistol to use any ammunition magazine with a capacity up to fifteen rounds.

Your Committee finds that repealing the ten round prohibition may result in handguns having a magazine capacity of up to thirty rounds on ammunition. In balancing the concern for public safety expressed by the law enforcement agencies and the ability of Hawaii gun sportsmen to compete in national and international competition, your Committee decided to raise the maximum limit of the magazine capacity to fifteen rounds.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 702, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 702, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Inouye). Excused, 1 (Kokubun).

SCRep. 880 Judiciary and Labor on S.B. No. 676

The purpose of this measure is to mandates certain penalties, including graffiti eradication, for persons convicted of aggravated criminal property damage. Holds persons legally accountable for a minor liable for aggravated criminal property damage committed by the minor.

Testimony in support of this measure was received from Department of Transportation, McCully – Moiliili Neighborhood Board #8 and a private citizen. Opposing testimony was received from the Office of the Public Defender.

Your committee finds that incidences of graffiti is escalating and permeating throughout our neighborhoods. This measure is an attempt to deal with repeat offenders and to hold them or their parents, in the case of minors, financially and physically responsible for their actions including eradicating their graffiti.

The measure was amended by deleting the proposed fines because the present fines for aggravated criminal property is a misdemeanor which carries higher fines up to \$2,000 and/or imprisonment for one year.

Your Committee also considered the proposed language in Senate Bill 1694. However, after consultation with a Major of the Honolulu Police Department, people committing the crime of graffiti are presently being charged under the present criminal property crimes so the proposed language is not needed.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 676, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 676, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Kokubun).

SCRep. 881 Judiciary and Labor on S.B. No. 1343

The purpose of this measure is to provide greater protections to victims of domestic violence who the court and the police are attempting to keep safe through family court domestic abuse protective orders and police orders upon family or household members to leave the premises.

Your Committee received testimony in support of the bill from the Attorney General's Office, the Prosecutor's Offices from Honolulu, Maui, and Hawaii, the Honolulu Police Department, the State of Hawaii Organization of Police Officers, the Domestic Violence Clearinghouse, and a private citizen/victim. The Public Defender's Office opposed the bill.

Your Committee amended the bill by removing references to murder by deleting sections 2 and 3 of the bill. Your Committee further amended the bill by removing reckless assault.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1343, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1343, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 882 Judiciary and Labor on S.B. No. 1113

The purpose of this measure is to adopt new procedures and to use technology and databases to improve the capacity of law enforcement agencies to locate and return missing persons.

The Attorney General, the Department of Public Safety, and the City and County of Honolulu Prosecuting Attorney submitted testimony in support of the intent of this measure. The City and County of Honolulu Police Department submitted testimony in opposition.

Your Committee finds that the State needs to incorporate and adopt rapid advances in technology and national databases to share information statewide to solve missing persons crimes. This measure authorizes law enforcement agencies to use sophisticated technology and databases to solve missing persons and other cases.

It is your Committee's intent to help protect Hawaii's residents and improve the State's existing procedures to locate missing persons. In recognition of the protocols currently used by the City and County of Honolulu Police Department, your Committee has amended this measure by:

- (1) Changing the definitions of "abduction", "high-risk missing person", "law enforcement agency", and "missing person";

- (2) Adding a definition for “help locate”;
- (3) Deleting:
 - (A) The definitions of “child abduction alert system”, “Code Adam alert”, and “person with a disability”;
 - (B) Certain circumstances under which a law enforcement agency is prohibited from refusing a missing person report;
 - (C) The subsection that encourages law enforcement agencies to distribute information that advises the public about how information is used to help locate or identify missing persons;
 - (D) The subsection that requires information relevant to the Federal Bureau of Investigation’s Violent Criminal Apprehension Program to be forwarded to the county police department;
 - (E) Certain criteria that a law enforcement agency must consider when determining whether an individual is an at-risk missing person;
 - (F) The subsection that requires county police departments to notify all law enforcement agencies of information that will aid in the prompt location and safe return of a high-risk person;
 - (G) The subsection that requires law enforcement agencies to provide for the prompt use of a Maile Amber alert or public dissemination of photographs in appropriate high-risk cases; and
 - (H) Part II of the measure regarding the mandatory reporting of certain violent crimes;
- (4) Adding a section that describes the circumstances under which law enforcement agencies shall “help locate” a person, time permitting;
- (5) Requiring law enforcement agencies to routinely review old missing persons case files;
- (6) Extending the time by which information must be entered into the National Crime Information Center database to two months;
- (7) Changing the effective date from upon approval to July 1, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

Your Committee notes the concern raised by the Attorney General that the provisions of this measure relating to the handling of unidentified human remains may conflict with the historic preservation burial site laws in sections 6E-43 through 6E-43.6, Hawaii Revised Statutes, and related administrative rules.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1113, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1113, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 883 Judiciary and Labor on S.B. No. 1961

The purpose of this measure is to require that bail bonding agents be licensed, to authorize that the Department of Commerce and Consumer Affairs to adopt rules for the process of obtaining a bail bonding agent license. This bill will also require the Department of the Attorney General to establish and maintain files regarding the criminal background checks for bail fugitive recovery personnel and will create a number of prohibited activities for bail bonding agents along with civil and criminal penalties.

Your Committee received testimony in support of the bill from David Hyatt, a member of the Bail Advisory Committee from Colorado. Your Committee received testimony in opposition from the Attorney General’s Office. Testimony from the State Insurance Commissioner took no position on the bill but indicated that bonding agents and bail fugitive recovery personnel should be regulated.

Your Committee amended the bill be deleting all references to bail fugitive recovery personnel since they are not currently being regulated and may require a sunrise study by the State Auditor is a precondition to licensure.

Your Committee further amended the bill by providing for licensing requirements for bail bond agents and by providing penalties for the prohibited activities of a licensed bail agent.

Your Committee further amended the bill by specifying procedures for the exoneration of bond liability by specifying enforcement procedures for compensated sureties.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1961, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1961, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 884 Judiciary and Labor on S.B. No. 56

The purpose of this measure is to allow dentists to claim an exemption from jury service.

Your Committee received testimony in support of this measure from the Hawaii Dental Association and numerous concerned individuals. The Judiciary submitted testimony in opposition and recommended a delayed effective date.

Jury service is a fundamental obligation of citizenship. Participation in the justice system promotes public confidence in the fairness of the Judiciary. Your Committee recognizes, however, that dentists must be available to serve their patients who may experience a dental emergency, especially in remote areas where general dentists perform services that specialists provide in more populated regions.

Accordingly, your Committee has amended this measure by allowing exemption from jury service to be claimed by actively practicing dentists who:

- (1) Are endodontists, oral surgeons, or periodontists; or
- (2) Reside on an island with a population under 500,000.

The Judiciary's request to delay the effective date to allow sufficient time for the change in the law because of the timing of the bidding and purchase process for revised juror questionnaire forms may be addressed as this measure proceeds through the legislative process.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 56, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 56, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 885 Judiciary and Labor on S.B. No. 1635

The purpose of this measure is to shorten the period grand juries and grand jury counsel must serve from one year to six months, to require grand jury counsel to be present at grand jury proceedings, and to require grand jury counsel to advise the grand jury whenever the counsel determines it to be appropriate.

Your Committee finds that the grand jury process is a vital component to the criminal justice system. It is one of the steps by which the criminal charges are brought forth into the criminal justice system. It is important that there be continued scrutiny of this very important step of the process. This bill will provide some revisions to the grand jury process.

There was no testimony presented at the hearing.

Your Committee amended the bill by changing the effective date to July, 2059.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1635, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1635, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 886 Judiciary and Labor on S.B. No. 961

The purpose of this measure is to provide that if evidence of an alleged victim's character for aggressiveness or violence is offered by an accused and admitted under Rule 404(a)(2) of the Hawaii Rules of Evidence, then evidence of the same trait of character of the accused offered by the prosecution may be admissible.

Your Committee received testimony in support of the bill from the Attorney General's Office, the Honolulu Prosecuting Attorney's Office, the Judiciary's Standing Committee on Evidence, and from a private citizen. The Public Defender's Office testified in opposition to the bill.

Your Committee finds that the Judiciary Standing Committee on the Rules of Evidence studied and approved a change in the rules of evidence to allow for the admission of the accused trait of character for aggressiveness under a limited circumstance. This bill seeks to permit a more balanced presentation of character evidence by providing the judge or a jury with a complete picture of the evidence.

Your Committee has made clarifying amendments to the bill by inserting the phrase "trait of" before "character" for consistency, and removing the words "for violence" and refer to only aggressiveness.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 961, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 961, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 887 Judiciary and Labor on S.B. No. 1334

The purpose of this measure is to provide a process for which convicted sex offenders who want to change their names may do so by more than a simple petition to the Lieutenant Governor.

Currently, a person may be able to change his or her name by a simple petition to the Lieutenant Governor's Office. There is no administrative hearing to test the validity of a petitioner's name change request. The office relies solely upon the information provided by the petitioner in determining which name changes are appropriate for processing.

Your Committee finds that recently, a number of convicted sex offenders with an ongoing obligation to register as sex offenders have petitioned to change their names, some of them while still incarcerated for their crime. It was pointed out that if a convicted sex offender changes his or her name, it will be extremely difficult to track that individual if that individual does not comply with the requirements of sex offender registration.

This bill provides that a convicted sex offender may change his or her name in one of several ways such as through a Family Court order, upon marriage, by order of a court in any other jurisdiction, or by order of a court in this jurisdiction that determines that it is in the interest of justice and that it will not adversely affect public safety.

Your Committee received testimonies in support of the bill from the Attorney General's Office and the Lieutenant Governor's Office. There was no testimony in opposition to this bill.

Your Committee amended the bill by changing the effective date to July, 2059.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1334, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1334, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 888 Judiciary and Labor on S.B. No. 784

The purpose of this measure is to clarify that when a minor's provisional vehicle license is revoked for violating the provisional licensing law, the minor need not provide proof of financial responsibility.

Your Committee received testimony in support of the bill from the licensing administrator of the City and County of Honolulu and from a representative from Mothers Against Drunk Driving. There was no opposition to the bill.

Your Committee finds that it was not the intent of the Legislature when enacting the graduated driver licensing law for provisional licensees to be subject to proof of financial responsibility requirements when they violated the basic provisions of the law that do not involve the actual operation of the vehicle. This bill will remove that requirement.

Your Committee amended the bill by more specifically referencing the subsection of the graduated driver licensing law that provides for the revocation of a driver's provisional license.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 784, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 784, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 889 Judiciary and Labor on S.B. No. 1642

The purpose of this measure is to amend sections 89-9(d), Hawaii Revised Statutes (H.R.S.) by clarifying that certain statutory actions shall not be used to invalidate collective bargaining agreements in effect on and after June 30, 2007, and such actions may be included in collective bargaining agreements.

Testimony in support of this measure was received from the Hawai'i State Teachers Association (HSTA) and the Hawaii Government Employees Association (HGEA).

Testimony opposing the measure was received from the Attorney General, Office of Collective Bargaining, Department of Human Resources Development, Department of Education, Judiciary, County of Maui Police Department and Department of Personnel Services and the County of Hawai'i Department of Human Resources.

In 2005, the Hawai'i Supreme Court ruled in United Public Workers, AFSCME, Local 646, AFL-CIO v. Hanneman, 106 Hawaii 359, 105 P.3d 236, that the Hawaii Labor Relations Board (HLRB) erred in concluding that the City and County of Honolulu's proposed transfer was subject to collective bargaining under Hawaii Revised Statutes, section 89-9(a), H.R.S. The facts of this case included a 1991 Memorandum of Agreement (MOA) between the United Public Workers (UPW) and the City and County of Honolulu (CCH) agreeing to the automated refuse collection system. In 1993, the same parties entered into another Memorandum of Agreement agreeing to no reduction of staff and that reassignment and transfer will be determined on the basis of seniority. (emphasis added) In 2001, the CCH gave UPW notice of its intent to unilaterally transfer thirteen manual collectors from the over-staffed Pearl City base yard to the understaffed base yard in Honolulu.

Under Section 89-9(d), H.R.S., “. . . the employer and the exclusive representative may negotiate procedures governing the promotion and transfer of employees to positions within a bargaining unit, procedures governing the suspension, demotion, discharge, or other disciplinary actions taken against employees, and procedures governing the layoff of employees; . . .” (emphasis added)

In interpreting the *Hanneman* case, one cannot disregard the two MOAs that determined the transfer of these employees. Therefore, the transfer was found to be in concert with these MOAs. The MOAs were allowed under section 89-9(d), H.R.S., and therefore, either party had the right to exercise their rights under these MOAs. Your Committee believes that the Hawaii Supreme Court was upholding the management rights as derived from the MOAs.

However, some have viewed the *Hanneman* case allowing management rights generally whether or not MOAs are involved. Your Committee finds that discussion needs to be continued and therefore is placing a delayed effective date in the measure. Nonsubstantive and technical changes have been made as recommended by the Legislative Reference Bureau.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1642, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1642, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 890 Judiciary and Labor on S.B. No. 1662

The purpose of this measure is to amend the definitions of “closing”, “covered establishment”, and “employer”. The measure also requires an employer to notify employees of divestiture within 60 days and imposes penalties for failure to notify employees of business closing.

Testimony in support of this measure was received from the ILWU and the Hawaii State ALF-CIO. Opposing testimony was received from the Department of Labor and Industrial Relations, the Chamber of Commerce of Hawaii and the Society for Human Resource Management - Hawaii Chapter.

The loss of a job means loss of income for the worker and the family. It also affects the loss of purchasing power of goods and services in our community. This domino effect hurts us all. Your Committee has amended the bill with a defective date so further discussion may continue and made minor non-substantive changes recommended by the LRB.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1662, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1662, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 891 Judiciary and Labor on S.B. No. 1060

The purpose of this measure is to amend the workers' compensation law, including limiting an employer's ability to terminate benefits, authorizing the recovery of attorney's fees and costs by the injured employee, specifying procedures for medical examinations by the employer's physician, establishing fines for violations, requiring the reporting of denials of claims and relevant information, and further restricting the Director of Labor and Industrial Relations' rulemaking authority.

Testimony in support of this measure was received from the Occupational Therapy Association of Hawaii; Hawaii State AFL-CIO; International Association of Rehabilitation Professionals; Hawaii Government Employees' Association (HGEA); Hawaii State Teachers Association (HSTA); Local 5; ILWU Local 142; Hawaii Chapter, American Physical Therapy Association; vocational rehabilitation counselors and two injured workers.

Testimony in opposition to this measure was received from the Hawaii Insurers' Council; Department of Human Resources Development; Department of Labor and Industrial Relations; Hawaii Employers Mutual Insurance Company (HEMIC); County of Hawai'i, Department of Human Resources; Brigham & Associates, Inc.; Chamber of Commerce of Hawaii; the Academy of Independent Medical Examiners of Hawaii; and one neurologist.

Comments were received from the Department of Commerce and Consumer Affairs (DCCA).

Your Committee supports the intent of this measure to ensure that injured workers receive necessary medical treatments in order to return them to their jobs in as nearly the same physical and mental condition prior to their injury. Without the necessary medical treatment injured workers will remain injured thereby creating an economic loss to the injured workers, their families, their employer and our community.

The measure has been amended by adopting language proposed by the DCCA in section 6, delaying the effective date and making nonsubstantive and technical changes suggested by the Legislative Reference Bureau.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1060, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1060, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 892 Ways and Means on S.B. No. 1408

The purpose of this measure is to clarify and improve existing law relating to insurance licensing.

Specifically, the bill:

- (1) Re-establishes a \$1,000 issuance fee and \$600 annual fees for all services for limited line motor vehicle rental company producer's licenses;
- (2) Provides that the place of business for licensed adjusters and independent bill reviewers is where the licensee principally conducts transactions;
- (3) Revises the education and examination exemption for persons who were previously licensed in another state to exempt only an applicant for a nonresident producer license who is licensed in another state or an applicant for a resident producer license who applies for a license within ninety days of cancellation of the applicant's previous out-of-state resident license; and
- (4) Repeals the current exemption from educational and examination requirements for license applicants who previously held an out-of-state license if the person applies for a resident producer license in the same line within ninety days of establishing legal residency in Hawaii.

The Insurance Commissioner of the Department of Commerce and Consumer Affairs submitted comments in support of the measure. The American Council of Life Insurers submitted comments opposing the measure.

Your Committee finds that Act 154, Session Laws of Hawaii 2006, an Insurance Division housekeeping measure, inadvertently failed to re-establish the licensing and service fees for limited line motor vehicle rental company producer's licenses. This measure corrects that oversight. In addition, your Committee finds that removing the requirement of having a place of business in the State for licensees who principally conduct business in other states will encourage those individuals to also conduct business in Hawaii.

Upon further consideration, your Committee has amended this measure by:

- (1) Deleting section 3 of the bill amending section 431:9A-109, Hawaii Revised Statutes, relating to exemptions from examination; and
- (2) Renumbering remaining sections accordingly.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1408, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1408, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 893 Ways and Means on S.B. No. 990

The purpose of this measure is to clarify and strengthen the Public Utilities Commission's authority under the Petroleum Industry Information and Reporting Act.

This measure further makes an appropriation into and out of the petroleum industry monitoring, analysis, and reporting special fund.

Your Committee received comments in support of this measure from the Public Utilities Commission.

Your Committee finds that the Public Utilities Commission has been granted extensive authority pursuant to chapters 486H and 486J, Hawaii Revised Statutes, to oversee the petroleum industry in order to provide true and effective transparency of the petroleum industry's pricing methods

and practices. Chapter 486J, Hawaii Revised Statutes, in particular, requires the Public Utilities Commission to gather vast amounts of data on every aspect of the petroleum industry's distribution and marketing practices, to analyze the data collected, and make the information available to the public.

Your Committee strongly favors allowing the Public Utilities Commission to exercise this grant of authority to protect Hawaii's petroleum consumers. The Public Utilities Commission should have the discretion to decide what financial data and records should be divulged by all the players in the petroleum industry, thus allowing the Public Utilities Commission to require maximum disclosure by the petroleum industry of all the information needed, without diminishing the legislative intent contained in title 26, Hawaii Revised Statutes, as it relates to the petroleum industry.

With respect to chapter 486B, Hawaii Revised Statutes, which defines and prohibits unfair trade practices by the petroleum industry, your Committee notes that, while the Attorney General may bring suits in equity to enjoin or restrain any person from engaging in any violations of the chapter, there is no department or agency responsible for overseeing that law.

Upon further consideration, your Committee has amended this measure by:

- (1) Adding a new section to chapter 486B, Hawaii Revised Statutes, requiring the Public Utilities Commission to refer to the Attorney General any violations of chapter 486B, Hawaii Revised Statutes, of which it becomes aware through the exercise of its duties, pursuant to chapters 486H and 486J, Hawaii Revised Statutes;
- (2) Amending section 486J-1, Hawaii Revised Statutes, by adding a new definition for "major fuel user" and amending the definitions of "distributor", "major marketer", "major oil producer", "major oil storer", and "major oil transporter";
- (3) Amending sections 486J-3 and 486J-4, Hawaii Revised Statutes, allowing the Public Utilities Commission to require and not simply request additional information pursuant to those sections; and
- (4) Making technical nonsubstantive changes for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 990, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 990, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 894 (Majority) Ways and Means on S.B. No. 1103

The purpose of this measure is to appropriate funds to allow Kukui Gardens, a privately owned affordable rental housing development, to remain an affordable housing development.

Specifically, the measure appropriates an unspecified sum to provide gap financing to be used as a subsidy toward the purchase of Kukui Gardens by a private entity interested in maintaining the development as an affordable housing development.

Written comments in support of this measure was submitted by Faith Action for Community Equity (FACE) and the FACE Housing Committee. The Hawaii Housing Finance and Development Corporation submitted written comments.

Your Committee amended this measure to provide that the State shall own the land, ensure that the land be used in perpetuity for affordable housing, and allow the State to contract with a private nonprofit organization to operate the existing facility and develop additional affordable housing rentals on the site.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1103, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1103, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, 1 (Hemmings). Excused, 1 (Whalen).

SCRep. 895 (Majority) Ways and Means on S.B. No. 686

The purpose of this measure is to require the Department of Education to report to the Legislature on various aspects regarding the establishment of a career ladder program for educational assistants.

Specifically, the measure requires the Department of Education to report on class levels and other career ladder enhancements, the number of affected individuals, and the cost impact of implementing a career ladder for educational assistants. This measure also appropriates funding for this purpose.

Written comments in support of this measure were submitted by the Superintendent of the Department of Education, the Hawaii Government Employees Association, Waialua Elementary School educators, and two individuals.

Your Committee finds that a career ladder program is a salary structure developed for educational assistants who meet the specific job requirements based on training, job performance, and years of experience as an educational assistant. The career ladder program recognizes training as a means to advance in salary. The goal of the career ladder program is to attract, retain, and reward quality educational assistants. With the reauthorization of the Individuals with Disabilities Education Act, and the requirements set forth in the No Child Left Behind Act, the Department of Education is responsible for the development of staff training programs and opportunities to meet these demands.

Your Committee believes that this measure will begin the process of determining the parameters of an educational assistant career ladder program and provide the Legislature with the information necessary to make prudent decisions on this issue.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 686, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, 1 (Hemmings). Excused, 1 (Whalen).

SCRep. 896 Ways and Means on S.B. No. 96

The purpose of this measure is to protect our children in public schools by expanding the category of individuals subject to a criminal history record check by the Department of Education as a condition of employment.

Specifically, this measure requires the Department of Education to conduct criminal history records checks on individuals who are seeking to serve as providers, subcontractors, or trainees from an institution of higher education in positions that places those individuals in close proximity to children. In addition, the bill authorizes the Department of Education to pass on the cost of a criminal history record check to those individuals who are subject to such checks as a condition of employment. Finally, the measure appropriates funds to the Department of Education for costs incurred in conducting criminal history record checks.

The Department of Education and the University of Hawaii College of Education submitted comments on the measure.

Your Committee finds that our children need to be provided with a safe and secure environment when they are at school for optimum learning conditions. While current law already requires that a number of Department of Education employees are subject to a criminal history record check as a condition of employment, this measure addresses additional categories of individuals who are seeking positions that place them in close proximity to students to add a new level of safety and security to our children's learning environment.

Upon further consideration, your Committee has amended this measure by:

- (1) Amending the definitions of "provider," "subcontractor," and "trainee from an institution of higher education" to clarify who is intended to be subject to a criminal history record check as a condition of employment;
- (2) Changing the sum appropriated to an unspecified amount to facilitate further discussion on the issue; and
- (3) Making technical nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 96, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 96, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 897 (Majority) Ways and Means on S.B. No. 1136

The purpose of this measure is to ensure adequate funding for public school students and to increase the efficiency of operations within school complex areas.

Specifically, this measure:

- (1) Appropriates funds for certain students in addition to weighted student formula allocations, including students in junior kindergarten classes with fifteen or fewer students, students in geographically isolated schools, students in multitrack schools, transient students, students in small schools, and non-English proficient students;
- (2) Authorizes complex area superintendents to allocate resources for complex level educational officers, teachers, and support staff; and
- (3) Appropriates funds for complex area superintendents to allocate resources among the schools within each complex area at a rate of \$30 per student.

Written comments in opposition of this measure were submitted by the Department of Education.

Your Committee finds that the weighted student formula was established pursuant to Act 51, Session Laws of Hawaii 2004, as amended, to provide equity in funding for public school students through the use of weighted cost factors. Although not yet fully implemented, partial implementation of the weighted student formula has raised concerns with funding deficiencies, particularly with respect to students displaying certain characteristics. While these characteristics are currently addressed within the weighted student formula calculations, schools with students presenting those characteristics require additional funding to ensure the provision of a quality education to all students.

Additionally, the management of individual schools has been greatly benefited through the establishment of complex area superintendents. Your Committee finds that their authority should be clarified to allow for the provision of specified support services to assist schools in carrying out their intended objectives.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the specific amounts appropriated for and clarifying that the appropriations made to the Department of Education for the augmentation of funds provided under the weighted student formula are for the following students:
 - (A) Students in geographically isolated schools;
 - (B) Students in multitrack schools;
 - (C) Transient students;
 - (D) Students in small schools; and
 - (E) Non-English proficient students;
- (2) Deleting the new section that specified the powers and duties of the complex area superintendents;
- (3) Reinstating the language that requires complex area superintendents to supervise the delivery of administrative and instructional support services in the complex areas;
- (4) Specifying that complex area superintendents are required to provide support to school administrators, school community councils, staff, and teachers;

- (5) Including an unspecified appropriation to the Department of Education for complex area superintendents to provide support to school administrators, school community councils, staff, and teachers; and
- (6) Including a separate appropriation for junior kindergarten classes with fifteen or fewer students; provided that underachieving schools and schools with a high percentage of students eligible for free or reduced price lunches shall be given priority.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1136, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1136, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, 1 (Hemmings). Excused, 1 (Whalen).

SCRep. 898 Ways and Means on S.B. No. 885

The purpose of this measure is to develop the agriculture and culinary arts industries by supporting and enhancing educational programs to grow a qualified workforce for those industries.

Specifically, this measure expands the Vocational Agriculture Education Program to include a landscaping component and establishes an Agricultural and Culinary Education Pilot Program that teaches students healthy eating habits and encourages jobs in agriculture and related fields as long-term career goals.

Written comments in support of this measure were submitted by the Department of Education, the University of Hawaii, and the Workforce Development Council.

Your Committee finds that the development of the agriculture and related industries is important to the sustainability of Hawaii and its residents. With the decline of certain staple farming industries of the past, such as the sugar and pineapple industries, the State must develop a broader vision for the agriculture industry and its role in Hawaii's future. This measure addresses the need to incorporate landscaping and culinary arts in the existing Agriculture Education Program. However, your Committee believes that the approach should be much more expansive and comprehensive to include other agriculture-related industries to grow a diversified and qualified workforce to meet Hawaii's present and future needs.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that the Department of Education's Agriculture Education Program shall encompass the fields of farming, diversified agriculture, landscaping, aquaculture, culinary arts, and related industries such as market development and science and technology;
- (2) Making the Agricultural and Culinary Education Program a permanent program;
- (3) Deleting the provision that required the Department of Agriculture to submit a report to the Legislature on the implementation of the Agriculture and Landscaping Education Program;
- (4) Deleting the provision that the Department of Agriculture, in conjunction with the Department of Education, should determine whether one or two separate programs are necessary to support the agriculture and landscaping industries;
- (5) Clarifying that the Department of Education shall consult with the Department of Agriculture and the University of Hawaii's College of Tropical Agriculture and Human Resources and College of Education in developing and implementing the Agriculture Education Program;
- (6) Requiring the Department of Education to report to the Legislature on the implementation of and requests for further funding for the Agriculture Education Program; and
- (7) Specifying that moneys appropriated for the support and maintenance of a comprehensive Agriculture Education Program shall be expended by the Department of Education.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 885, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 885, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 899 Ways and Means on S.B. No. 1614

The purpose of this measure is to improve recruitment and retention of licensed teachers in the Waianae complex schools.

Specifically, the measure appropriates funds to implement a pilot project in human resource management for the Waianae complex schools, including Waianae High School and its elementary and intermediate feeder schools.

The Department of Education, Hawaii Teacher Standards Board, and a community member of the Waianae High School Community Council submitted comments in support of the measure.

Your Committee finds that improving the quality of teachers for schools in the Waianae complex is an issue that needs urgent resolution. The inability to retain a qualified workforce denies our children the education they need and deserve. Only fifty-six per cent of teachers at Waianae High School are fully licensed by the State. To improve teacher quality, a multi-year federal Native Hawaiian Education Program grant was awarded to the Waianae High School Alumni Association to aid in establishing a new human resource management model for Waianae High School. Your Committee finds that this measure will allow additional implementation of the new human resource management model into all schools in the Waianae complex.

Upon consideration, your Committee has amended this measure by clarifying that the report to be submitted to the legislature by the Waianae complex schools will include teacher qualification data from all schools in the Waianae complex and that the appropriation is for the implementation of the human resource management model for all Waianae complex schools.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1614, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1614, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 900 Ways and Means on S.B. No. 1820

The purpose of this measure is to enhance the ability of the Department of Education to enter into financing agreements to construct new public schools.

The measure also establishes a separate budgetary account that is subject to legislative approval for the payment of lease-purchase agreements by the Department of Education.

Your Committee received comments from the Department of Education that concurred with the measure but with reservations. The Department of Accounting and General Services and the Department of Budget and Finance submitted comments in opposition to this measure.

Your Committee finds that the State's high growth rate and the continuous construction of new home developments have caused a severe overcrowding problem in Hawaii's public schools. The traditional method of utilizing general obligation bonds to build new schools appears to be inadequate and unable to satisfy the growing public school student population.

To address this problem, this measure enhances the ability of the Department of Education to partner with private developers through financing agreements to expedite the construction of new schools.

Your Committee has amended the measure by:

- (1) Adopting the recommendations of the Department of Education to:
 - (A) Seek the concurrence of the Department of Budget and Finance with respect to financing agreements; and
 - (B) Remove the authority of the Department of Accounting and General Services to approve financing agreements;
- (2) Changing the dollar ceiling for financing agreements not requiring the approval of the Director of Finance and the Attorney General from \$3,000,000 to an unspecified amount; and
- (3) Changing the effective date of the measure to July 1, 2050 to facilitate further discussion on this matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1820, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1820, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 901 (Majority) Ways and Means on S.B. No. 1143

The purpose of this measure is to implement educational reforms to benefit both public school students and teachers.

More specially, this measure:

- (1) Clarifies the method of electing teachers and certain elementary and middle school student representatives to school community councils;
- (2) Amends Act 51, Session Laws of Hawaii, the Reinventing Education Act, to clarify that the reduction of class size in kindergarten through grade two is necessary;
- (3) Appropriates funds to the Department of Education for the reduction of kindergarten and junior kindergarten class size; and
- (4) Appropriates funds to the Department of Education to establish new teacher advisor/peer assistance mentors at a target ratio of fifteen new teachers to one new advisor or mentor.

The Department of Education submitted comments in support of this measure. The Department of Budget and Finance submitted comments in opposition to this measure.

Your Committee finds that students receive more teacher attention and thus generally perform and learn better in smaller sized classes, particularly students in kindergarten through grade two. Similarly, new teachers benefit from the advice and assistance of teacher advisors and mentor, often resulting in improved teacher retention. Your Committee believes this measure will improve the learning environment for students and teacher, as well as provide needed clarification on the manner in which teachers and certain student representatives are selected for representation on school community councils.

Your Committee has amended this measure by:

- (1) Changing the student-teacher and teacher-advisor ratios in section 3 and 4, respectively, to unspecified ratios to facilitate further discussion on this measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1143, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1143, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, 1 (Hemmings). Excused, 1 (Whalen).

SCRep. 902 Ways and Means on S.B. No. 1154

The purpose of this measure is to provide additional flexibility to the Board of Regents, University of Hawaii, in financing and administering the University's capital projects.

Your Committee received comments in support of this measure from the University of Hawaii. Comments in opposition were received from the Department of Budget and Finance.

Your Committee finds that the University of Hawaii has demonstrated the capability and competence to use its bonding authority responsibly and in the best interests of the University of Hawaii and the State. Your Committee further finds that this measure will grant additional flexibility to the Board of Regents in the financing and administration of capital projects within the university's jurisdiction.

Upon further consideration, your Committee has amended this measure by specifying that the power of the Board of Regents to construct and maintain a university project and to issue revenue bonds for the construction or maintenance of a university project is subject to the approval of only the Legislature, and is not subject to the approval of the Governor. Your Committee has also amended this measure by making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1154, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1154, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 903 Ways and Means on S.B. No. 664

The purpose of this measure is to authorize the issuance of special purpose revenue bonds for the construction and improvement of Sacred Hearts Academy, a not-for-profit private sectarian school.

Hawaii Preparatory Academy and Hawaii Association of Independent Schools submitted comments in support of this measure.

Your Committee finds that Sacred Hearts Academy, a not-for-profit private sectarian school that encourages high educational standards and academic excellence, provides quality education to students and that special purpose revenue bonds do not divert funds from public schools.

Your Committee has amended this bill by making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 664, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 664, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 904 Ways and Means on S.B. No. 1718

The purpose of this measure is to support the development of renewable and efficient energy systems in the State.

Specifically, this measure authorizes the Department of Budget and Finance to issue special purpose revenue bonds to assist BlueEarth Maui Biofuels, LLC with the construction of a biodiesel refinery on Maui with primary production volumes designated as fuel for electrical generation.

Comments in support of this measure were submitted by the Department of Business, Economic Development and Tourism and Hawaiian Electric Company. The Department of Budget and Finance submitted comments.

Your Committee finds that this measure will help meet Hawaii's goals for energy efficiency and renewable energy use by reducing dependency on imported fossil fuels, providing biodiesel at competitive prices, and stimulating the local production of ethanol. The bill will also encourage local agricultural research, development, and cultivation of renewable energy feedstock crops.

Your Committee finds that the issuance of special purpose revenue bonds under this measure is in the public interest and for the public health, safety, and general welfare.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1718 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 905 Ways and Means on S.B. No. 871

The purpose of this measure is to promote re-use and recycling to reduce solid and liquid waste.

More specifically, the bill creates a pilot project to test food recycling in schools.

The Department of Education submitted comments on this measure.

Currently, in spite of recycling efforts, only a fraction of solid and liquid waste is recycled, particularly at state facilities and public schools, which are among the largest institutional generators of food waste in the State.

Your Committee finds that funding a pilot project to evaluate the feasibility of recycling in state facilities and public schools addresses the major concern about the landfills on all islands, all of which have nearly reached their maximum capacity.

Your Committee amended the bill to make technical, nonsubstantive changes for consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 871, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 871, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, 4 (English, Kim, Hemmings, Whalen).

SCRep. 906 Ways and Means on S.B. No. 1026

The purpose of this measure is to reduce the volume of waste entering the State's landfills and decrease litter.

Specifically, this measure amends the deposit beverage container program to require that the program accept bottles that have a capacity of up to sixty-eight fluid ounces. In addition, it requires redemption centers to remain open at least thirty-five hours a week, including at least five hours on Saturday and Sunday.

Reynolds Recycling submitted comments on this measure, while the Hawaii Food Industry Association submitted comments in opposition.

Your Committee has amended this measure by:

- (1) Requiring redemption centers to be open at least thirty-five hours Monday through Friday and at least five hours on weekends;
- (2) Deleting the requirement for redemption centers to remain open during evening hours, because many of the centers do not have access to electricity for lights;
- (3) Changing the effective date to July 1, 2007; and
- (4) Making technical non-substantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1026, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1026, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, 4 (English, Kim, Hemmings, Whalen).

SCRep. 907 (Joint/Majority) Water, Land, Agriculture and Hawaiian Affairs and Intergovernmental and Military Affairs on S.B. No. 642

The purpose of this measure is to clarify when a supplemental environmental impact statement is necessary.

Specifically, this measure requires the preparation of a supplemental environmental impact statement when one or more of the following events occur:

- (1) There are substantial changes proposed in a project;
- (2) Substantial changes occur with respect to circumstances under which a project is being undertaken; or
- (3) New information becomes available that was not known at the time the environmental impact statement was accepted.

Testimony in support of this measure was submitted by the Department of Health, the State of Hawaii Environmental Council, Keep the North Shore Country, Kuli'ou'ou/Kalani Iki Neighborhood Board, the Sierra Club, Hawaii Chapter, and one individual. Testimony in opposition to this measure was submitted by the Office of Corporation Counsel, County of Hawai'i; the Land Use Research Foundation of Hawaii; and the Kuilima Resort Company. The Department of the Attorney General submitted comments.

Your Committees find that communities need to know what environmental impacts developments will have. Furthermore, your Committees recognize that changes occurring in the community over the period of time that a long development is taking place can result in different impacts than those that were foreseen in the planning stages of the development. Your Committees also find that requiring supplemental environmental impact statements is not unduly burdensome on developers and are essential for getting the necessary information regarding the impacts on the environment and the community so that mitigation measures can be considered if necessary.

It was indicated to your Committees in written testimony that title 11, chapter 200, sections 26 to 29, Hawaii Administrative Rules, provides rules and procedures relating to supplemental environmental impact statements. Your Committees believe that the language of this measure should be amended to be similar to the administrative rules language relating to supplemental environmental impact statements to avoid confusion. It was also suggested in written testimony that the supplemental environmental impact statement should be valid for five years, and if the proposed action has not commenced within that time frame, the applicant of the supplemental environmental impact statement will need to prove to the approving agency the continued validity of the supplemental environmental impact statement. Lastly, it was suggested in written testimony that a supplemental environmental impact statement is warranted if a proposed action will substantively change an original environmental impact statement with a finding of no significant impact or an environmental impact statement exemption.

Your Committees circulated a proposed draft of this measure that adopted all of the foregoing suggested amendments for consideration, but for technical reasons, your Committees did not include these amendments. Nevertheless, your Committees believe that this measure merits further discussion and hopes to include these amendments at a later date as this measure proceeds through the legislative process.

Accordingly, your Committees have amended this measure by inserting an effective date of July 1, 2050, to ensure ongoing discussion on this issue.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 642, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 642, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ayes, 4. Noes, 1 (Slom). Excused, 3 (Fukunaga, Hee, Tsutsui).

SCRep. 908 Ways and Means on S.B. No. 993

The purpose of this measure is to authorize the issuance of special purpose revenue bonds in a total amount not to exceed \$20,000,000 to assist Honolulu Seawater Air Conditioning, LLC, in the design and development of a seawater air conditioning project on the island of Oahu.

Your Committee received comments from the Hawaii Renewable Energy Alliance, Hawaii Energy Policy Forum, Honolulu Seawater Air Conditioning, LLC, and KUD International, LLC in support of this measure.

Your Committee finds that the development of a deep seawater air conditioning facility and distribution system in downtown Honolulu is a major step in the development of a renewable energy system using the limitless resource of our deep state waters. Such a project could eliminate the need for up to 0.63 kilowatts of electricity generating capacity for each ton of cooling capacity. Further, this system will provide reduced and stable cooling costs and reduce the consumption of potable water and the use of toxic chemicals. Your Committee finds that this project is in the public interest and for the public health, safety, and general welfare.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 993, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 993, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 909 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1943

The purpose of this measure is to encourage further production and use of biofuels in Hawaii.

Specifically, this measure:

- (1) Establishes biofuels processing facilities as a permitted use in designated agricultural districts under chapter 205, Hawaii Revised Statutes; and
- (2) Establishes an energy feedstock program within the Department of Agriculture to encourage the production of energy feedstock in Hawaii, and requires that a baseline percentage of energy feedstock to be grown in the State be established to meet the State's energy requirements.

Testimony in support of this measure was submitted by the Department of Agriculture; the Department of Business, Economic Development, and Tourism; the College of Tropical Agriculture and Human Resources, University of Hawaii; the Hawaiian Electric Company; Maui Electric Company; Hawaii Electric Light Company; the Hawaii Farm Bureau Federation; the Maui County Farm Bureau; and Hawai'i BioEnergy.

Your Committee finds that Hawaii's dependence on petroleum for about ninety per cent of its energy needs is more than any other state in the nation. This makes the State extremely vulnerable to any oil embargo, supply disruption, international market dysfunction, and many other factors beyond the control of the State. Furthermore, the continued consumption of conventional petroleum fuel negatively impacts the environment. At the same time, Hawaii has among the most abundant renewable energy resources in the world, in the form of solar, geothermal, wind, biomass, and ocean energy assets. Your Committee further finds that increased energy efficiency and use of renewable energy resources would increase Hawaii's energy self-sufficiency, achieving broad societal benefits, including increased energy security, resistance to increases in oil prices, environmental sustainability, economic development, and job creation.

The Department of Agriculture and the Department of Business, Economic Development, and Tourism suggested to your Committee that amendments be made to this measure to further encourage the production of energy feedstock in Hawaii and establish a specific time period when a majority of energy feedstock has to be grown in the State to effectively meet its energy requirements.

Accordingly, your Committee has amended this measure by:

- (1) Adding a provision under section 205-4.5(a)(15), Hawaii Revised Statutes, that the biofuels processing facilities and appurtenances be compatible with other agricultural uses and cause a minimal adverse impact on the designated agricultural district;
- (2) Adding a provision under section 205-4.5(a)(15), Hawaii Revised Statutes, that the majority of the feedstock from biomass and oil crops be grown in the State, as determined by the Department of Agriculture, and to allow the importation of feedstock and biofuels to fuel those facilities for an initial and non-renewable three-year period;
- (3) Clarifying that the Department of Agriculture is permitted to perform other functions and activities to establish and implement an energy feedstock program, including monitoring the compliance provisions under section 205-4.5(a)(15), Hawaii Revised Statutes; and
- (4) Making technical, nonsubstantive amendments for the purposes of style and consistency.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to encourage further production and use of biofuels in Hawaii.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1943, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1943, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Hee).

SCRep. 910 Ways and Means on S.B. No. 1427

The purpose of this measure is to ensure adequate compensation for the Vice-Director of Civil Defense.

More specifically, the Director of Civil Defense will determine the salary of the Vice-Director in accordance with certain adequate federal or military pay tables.

The Department of Defense and the Department of Human Resources Development submitted comments in support of this bill.

Your Committee finds that the current payment structure as applicable to the position of Vice-Director of Civil Defense is not adequate given the duties and responsibilities associated with the position.

Your Committee finds that this measure permits the Director of Civil Defense to establish the Vice-Director's compensation in accordance with federal and military pay tables that are commensurate with the position and properly reflect the increased importance of the position, particularly since September 11, 2001.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1427, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 911 Ways and Means on S.B. No. 769

The purpose of this measure is to allow county Directors of Finance to invest county funds in commercial paper of bankers' acceptances with an A1/P1 rating.

Your Committee received comments in support of this measure from the Maui County Council and Central Pacific Bank.

Your Committee finds that this measure will:

- (1) Provide the counties with more options for their short-term investment portfolios and help to maximize their investment returns;
- (2) Require investments to possess A1/P1 ratings to ensure the financial integrity of such investments; and
- (3) Provide the counties with the same investment flexibility afforded to the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 769 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 912 Ways and Means on S.B. No. 1448

The purpose of this measure is to authorize the Board of Directors of the Hawaii Public Housing Authority to set the salaries of the Executive Director and the Executive Assistant, subject to the approval of the Governor.

Your Committee received comments in support of the bill from the Hawaii Public Housing Authority of the Department of Human Services and the Department of Human Resources Development.

Your Committee finds that under current law the salary of the Executive Director is up to eighty-five per cent of the salary of the Director of Human Resources Development and the salary of the Executive Assistant is up to ninety per cent of the salary of the Executive Director.

Your Committee further finds that a national survey of executive officers' salary ranges for comparable public housing agencies are substantially higher than the maximum salaries permitted under current law. In addition, the salaries are not commensurate with the responsibilities of the positions.

Your Committee finds that the bill resolves these issues by authorizing the Board of Directors of the Hawaii Public Housing Authority to set the salaries of the Executive Director and the Executive Assistant subject to the Governor's approval. This measure will ensure that qualified executives can be attracted and retained for those positions.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1448 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 913 (Majority) Ways and Means on S.B. No. 1442

The purpose of this measure is to expand the opportunity for former foster youth to pursue and complete post-secondary education.

Specifically, this measure:

- (1) Increases the length of time for former foster youth to apply for a higher education board allowance; and
- (2) Increases the maximum age for the benefit from twenty-one years of age to twenty-six years of age and increases the maximum benefit period from forty-eight to sixty months.

The Department of Human Services and the Hawaii Family Forum submitted comments in support of this measure.

Your Committee finds that this measure will enable more youth to take advantage of this benefit and complete a higher education. The results include an increase in employability and the ability to be a self-sufficient, contributing member of our community.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated to an unspecified sum to facilitate further discussion on this measure; and
- (2) Making a technical nonsubstantive change for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1442, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1442, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, 1 (Hemmings). Excused, 1 (Whalen).

SCRep. 914 Ways and Means on S.B. No. 1115

The purpose of this measure is to promote improved perinatal care.

The bill accomplishes this by continuing the funding appropriated last year for a pilot perinatal clinic in the community and case management in collaboration with the University of Hawaii John A. Burns Medical School to help women with a history of substance abuse.

The Department of Human Services and the University of Hawaii John A. Burns School of Medicine submitted comments on this measure.

Your Committee finds that providing perinatal care to pregnant women with a history of substance abuse is vital to ensure the health of the child and the mother. Your Committee further finds that this measure would provide much needed resources for a critical public health program. Your Committee further recognizes the offer by the Department of Human Services to coordinate with the medical school and assist in obtaining matching federal funds for this program.

After careful consideration, your Committee has amended this measure by changing the sum appropriated to an unspecified amount to facilitate further discussion on this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1115, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1115, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 915 Ways and Means on S.B. No. 970

The purpose of this measure is to improve health care in this State.

Specifically, this bill appropriates funds to the Department of Health to enable the Hawaii Primary Care Association to establish or expand community-based dental health clinics operated by federally-qualified health centers for the benefit of QUEST-eligible adults and children, individuals with developmental disabilities, and the uninsured.

Your Committee received comments in support of the measure from the State Council on Developmental Disabilities, the Kokua Council, the Waikiki Health Center, the Kalihi-Palama Health Center, the Molokai Community Health Center, the Hamakua Health Center, the Lutheran Medical Center, the executive director and board members of the West Hawaii Community Center, the Community Clinic of Maui, the Bay Clinic, Inc., and the Hawaii Primary Care Association.

Your Committee finds that federally-qualified health centers have the capability to serve the populations targeted by this measure. The centers are located in various communities, have minimal administrative costs, less bureaucratic protocols, and have access to dental care personnel under the community service licensure.

Your Committee has amended this measure by clarifying that the appropriation is being made to the Department of Health to establish or expand community-based dental health clinics operated by federally-qualified health centers. Your Committee also made a technical nonsubstantive amendment for the purpose of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 970, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 970, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 916 Ways and Means on S.B. No. 69

The purpose of this measure is to ensure the availability of comprehensive quality health care and alleviate the health care workforce shortage in Hawaii.

The measure accomplishes this purpose by appropriating funds to support the development and maintenance of a statewide comprehensive health care workforce map and database that assesses staffing needs.

Your Committee received comments in support of this measure from the Hawaii Medical Service Association and a physician. The Department of Health, the Department of Human Services, and the County of Hawaii submitted comments.

Your Committee finds that a severe shortage of health care workers exists in our State, especially on the neighbor islands. Your Committee further finds that data is essential to understanding our workforce needs. The state health planning and development agency and numerous other state agencies and professional organizations are part of a Workforce Hui that has long been in discussions about a database to help determine workforce supply needs. This bill is intended to acknowledge the work accomplished by the Workforce Hui and support those collaborative efforts by providing funding to develop and maintain a database for workforce needs analyses.

Your Committee has amended the measure by:

- (1) Adding language to section 1 that clarifies the bill's intent to support the Workforce Hui's efforts to compile a health care workforce supply database; and
- (2) Designating the state health planning and development agency as the expending agency for the appropriation.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 69, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 69, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (English, Whalen).

SCRep. 917 Ways and Means on S.B. No. 1629

The purpose of this measure is to authorize the Hawaii Health Systems Corporation to issue revenue bonds to construct and equip a new heart, brain, and spine center on the island of Maui.

The Hawaii Health Systems Corporation, the Maui Memorial Medical Center, the Healthcare Association of Hawaii, and eight private citizens submitted comments in support of the bill.

Your Committee finds that the Hawaii Health Systems Corporation does not have sufficient funds to build a new heart, brain, and spine center on the island of Maui. This measure would provide the necessary financing to expand cardiology and neurology services on Maui to provide residents and visitors state of the art health care in their own community.

Your Committee amended the bill to make technical nonsubstantive amendments for clarity, style, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1629, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1629, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 918 (Majority) Ways and Means on S.B. No. 1804

The purpose of this measure is to establish additional funding mechanisms for the trauma system special fund to provide quality health care to trauma patients by ensuring the viability of trauma centers in the State.

Specifically, the measure accomplishes this purpose by:

- (1) Establishing surcharges for traffic violations and various criminal convictions related to violence and drug use;
- (2) Establishing surcharges for violations that result in accidents involving death or bodily injury;
- (3) Specifying that the trauma system special fund includes, but is not limited to, trauma system surcharges and cigarette tax revenues;
- (4) Requiring the Department of Health to establish a methodology to calculate costs incurred by hospitals providing care to trauma patients in order to reimburse those hospitals from the special fund; and
- (5) Making appropriations to and out of the trauma system special fund.

Your Committee received comments in support of this measure from Healthcare Association of Hawaii, Queen's Medical Center, and Hawaii Pacific Health. The Department of Budget and Finance submitted comments on this measure.

Your Committee finds that trauma is one of the most serious public health problems we face. A comprehensive statewide trauma system built on public health principles can reduce death and disability from injuries. Therefore, your Committee finds that increasing the sources for revenue for the trauma system special fund is necessary to ensure the viability of the State's trauma system.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1804, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1804, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, 1 (Hemmings). Excused, 1 (Whalen).

SCRep. 919 Ways and Means on S.B. No. 820

The purpose of this measure is to continue the planning and implementation of services and residential alternatives for persons with developmental disabilities or mental retardation.

Comments in support of this measure were received from the Disability and Communication Access Board, Hawaii Disability Rights Center, and State Council on Developmental Disabilities.

Your Committee finds that people with developmental disabilities or mental retardation are allowed to choose where they live in the community, but that there is a lack of sufficient infrastructure to house them.

Your Committee finds that this measure will help that segment of the population to find residential alternatives so they may live in the least restrictive, individually appropriate environment.

Your Committee has amended this measure to clarify the type and number of reports the Legislature requires from the State Council on Developmental Disabilities and to require a report twenty days prior to the convening of the regular session of 2009.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 820, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 820, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (English, Whalen).

SCRep. 920 Ways and Means on S.B. No. 1585

The purpose of this measure is to prohibit private landowners of potential native Hawaiian historical sites from engaging in any action that might affect the sites without the prior approval of the Department of Land and Natural Resources.

Furthermore, this measure requires the landowner to preserve the land for ten years once the Department disapproves of the landowner's proposed action.

Your Committee received comments in support of the measure from the Office of Hawaiian Affairs and the County of Hawaii. Comments were received from the Department of Land and Natural Resources and the City and County of Honolulu.

Your Committee finds that this measure is necessary to offer the utmost protection to sites that have the potential of being native Hawaiian historical sites. Without this measure, much of the collective history and past of Hawaii, especially that of the native Hawaiian community, will be destroyed and obliterated on a daily basis.

Your Committee has amended this measure by:

- (1) Requiring the Department to notify the relevant county of any action taken by the Department in relation to the site;
- (2) Specifying that the Department's ten-year property use prohibition imposed on the land is subject to an administrative hearing;
- (3) Changing the effective date to July 1, 2050 to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1585, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1585, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Ayes with Reservations, 1 (Whalen). Noes, none. Excused, 1 (Hemmings).

SCRep. 921 Ways and Means on S.B. No. 1838

The purpose of this measure is to plan for future developments by the Hawaii Community Development Authority, particularly in the Kakaako community development district.

Specifically, this measure:

- (1) Establishes the Kakaako central small business district;
- (2) Requires the Hawaii Community Development Authority to confer and obtain consensus from real property owners and small businesses adjacent to a proposed public facility;
- (3) Requires the transfer of revenues collected from any assessments made and received between July 1, 2001, and June 30, 2005, to the Department of Education;
- (4) Requires modification of the Queen street realignment project to be in accordance with the Kakaako mauka plan and rule revisions to be adopted in 2007; and
- (5) Establishes a moratorium on any capital improvement project in the Kakaako central small business district relating to street improvements pending the adoption of the Kakaako mauka plan and rule revisions.

Your Committee has received comments from four landowner and business persons in Kakaako in support of this measure. The Hawaii Community Development Authority submitted comments in opposition to this measure. The Department of Education, principals of McKinley High School and Queen Kaahumanu School, and three landowners and business persons in Kakaako submitted comments.

Your Committee notes that earlier proposed plans for a street widening and improvement project planned by the Hawaii Community Development Authority for a portion of Queen Street between Ward Avenue and Kamakee Street raised the concerns of many of the small businesses on that stretch of Queen Street. The concern was with the loss of adjacent on-street parking and the proposed share of the assessments that would be charged to those small businesses for the street improvements that the small businesses were not in favor of in the first place.

Community meetings conducted by the Hawaii Community Development Authority with landowners and small businesses in the area led to changes to the Kakaako mauka plan and rule revision, both of which will impact those small businesses on Queen Street. The Kakaako mauka plan and the rule revisions will not be completed until mid-2007. This measure is in anticipation of those new changes.

Your Committee has amended this measure by:

- (1) Providing that dedications for public school facilities in any community development district shall be on a fair-share basis, as determined by the Department of Education, and that the terms of any dedication agreement shall be in writing between the department and any developer prior to any building permits being issued;
- (2) Requiring the Hawaii Community Development Authority to transfer all revenues from any dedication for public school facilities made pursuant to section 206E-12, Hawaii Revised Statutes, to the Department of Education;
- (3) Requiring the Hawaii Community Development Authority to transfer an unspecified amount of moneys from the Hawaii community development revolving fund to the Department of Education to be expended by the Department of Education for capital improvement projects for public schools directly adjoining or serving the Kakaako community development district; and
- (4) Requiring the Department of Education to report to the Legislature annually on the expenditure of the moneys transferred, until the amount has been fully expended;
- (5) Changing the effective date of this measure to allow further discussion on this measure; and
- (6) Making technical nonsubstantive changes for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1838, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1838, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 922 Ways and Means on S.B. No. 1307

The purpose of this measure is to support the longevity of a diversified agricultural industry in Hawaii by creating a dairy and egg farm revitalization and food security program.

Specifically, this measure:

- (1) Creates a livestock revitalization program to administer and disburse funds to qualified dairy, poultry, pork, and egg producers for up to fifty per cent of their feed costs; and

- (2) Appropriates moneys in each year of the fiscal biennium, for the Department of Agriculture to disburse funds to qualified producers of milk, pork, and poultry products for the costs of feed, and for the administrative costs of the revitalization program.

Comments in support of this measure were submitted by the Board of Agriculture, the College of Tropical Agriculture and Human Resources at the University of Hawaii, four members of the livestock or dairy industry, and one individual. Comments in opposition to this measure were submitted by one individual. The Hawaii Farm Bureau offered comments.

Hawaii's livestock industry faces numerous challenges. According to the Department of Agriculture, in 2006, locally produced eggs represented approximately thirty-three per cent of the total eggs sold in the State. Furthermore, approximately thirty to thirty-five per cent of the milk consumed in the State was locally produced. However, within this past year, two egg farms and one dairy farm have closed, and currently, a dairy farm and an egg farm are threatened with closure.

Your Committee finds that one of the challenges livestock farms face is the rising cost of feed for livestock. The decrease in operational local dairy, poultry, pork, and egg farms increases the State's reliance on the importation of food and threatens the State's food security. Thus, creating a livestock revitalization and food security program will financially assist dairy, poultry, and hog farmers with covering the cost of their feed requirements, enable them to remain in business, and continue to provide fresh milk, poultry products, and pork for local consumption.

Your Committee has amended this measure by:

- (1) Changing the minimum percentage below which a flock or herd will no longer qualify for the subsidy to an unspecified amount;
- (2) Changing the appropriation in section 3 to an unspecified amount to facilitate further discussion; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1307, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1307, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 923 Ways and Means on S.B. No. 1756

The purpose of this measure is to establish the state agricultural land protection program.

Specifically, this measure:

- (1) Establishes the agricultural land protection foundation;
- (2) Requires the foundation to adopt rules for the evaluation and selection of agricultural easements on important agricultural lands, as defined in chapter 205, Hawaii Revised Statutes;
- (3) Allows the foundation to acquire agricultural easements on important agricultural lands;
- (4) Restricts lands subject to an agricultural easement to agricultural uses; and
- (5) Establishes the agricultural land protection fund for the purchase of agricultural easements.

Your Committee received comments from the Department of Agriculture, Hawaii Farm Bureau Federation, and Hawaii Agriculture Research Center in support of this measure. The Hawaii Association of Realtors submitted comments.

Your Committee finds that this measure provides one of the incentives called for in section 205-46, Hawaii Revised Statutes, to encourage land owners to preserve and restrict important agricultural lands for agricultural purposes. This measure will ensure that agricultural lands remain affordable and protected for long-term agricultural use.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050 to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes for clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1756, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1756, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 924 Ways and Means on S.B. No. 1925

The purpose of this measure is to support and further the efforts in achieving a sustainable future for Hawaii by developing and establishing sustainable communities in the State.

The measure proposes to establish a new chapter within Title 13, Hawaii Revised Statutes, the purpose of which is to maintain and preserve a healthy quality of life and environment for Hawaii's future generations. The measure requires the State, in a combined effort with all state departments and agencies, to develop and maintain sustainable communities that will:

- (1) Generate at least fifty per cent of all of its energy requirements for the entire community under development, including but not limited to, residential homes and areas and services for and used by the entire community under development;
- (2) Implement a comprehensive recycling program that will enable the community to divert at least seventy-five per cent of its solid waste from the landfills;

- (3) Implement an extensive community wastewater recycling and treatment management system that would enable the community under development to treat and recycle all of its wastewater for landscaping water requirements onsite of the community and any agricultural water irrigation requirements offsite of the community;
- (4) Protect and preserve open space by designating at least fifty per cent of the entire tract of land for the residential community for open space; provided that:
 - (A) Open space shall not include areas designated for golf courses; and
 - (B) Open space shall include the shoreline, if the planned community abuts and includes shoreline space;
- (5) Promote and encourage visitation to any nearby cultural or historical sites, public beaches, shores, trails, and other outdoor recreational areas by not restricting public access to these areas; and
- (6) Provide affordable housing units by designating and reserving at least forty per cent of all of its residential units within the planned community for affordable housing units for residents to enable them to stay in Hawaii and provide shelter for their families.

The measure also provides that state-issued permits to develop such communities would be expedited and receive priority over the processing of permit applications for the development of nonsustainable community development projects.

Written testimony was not submitted to your Committee.

Hawaii is a unique and beautiful State that is largely dependent on the importation of fuel, food, and supplies to sustain its economy and communities. In 2005, the Legislature enacted Act 8, Special Session Laws of Hawaii 2005, to establish the Hawaii 2050 Sustainability Task Force. The interest in the concept of sustainability has grown through the efforts of the Task Force; state and county departments and agencies; branches of the United States military; local businesses and community groups; and community engagement programs and projects. Private industries and developers have introduced technology and concepts that can assist communities in their efforts to become more sustainable and independent with minimal detrimental effects to the environment and the economy.

Your Committee finds that sustainability has transformed from the conceptual stage to an actual lifestyle that can be achieved, but only through a comprehensive joint effort with the government and the community. Establishing and supporting the development of sustainable communities in the State fulfills the intent of this measure, which is to support and further the efforts in achieving a sustainable future for Hawaii.

Your Committee has amended this measure by:

- (1) Clarifying that a developer of a residential community of fifty or more residential units has a choice to comply with the sustainable community criteria established in this measure;
- (2) Clarifying that if the developer chooses to comply with the sustainable community criteria, the developer will be able to engage in the expedited permit process;
- (3) Adding language that describes the expedited permit process and the notice procedure the developer is required to follow to engage in the expedited permit process;
- (4) Clarifying the role of the Land Use Commission in assisting in providing a sustainable residential community that will designate at least fifty per cent of the entire tract of land for open space;
- (5) Clarifying that if any applicable permit-granting state department or agency takes longer than three hundred sixty days to issue a decision or permit for the sustainable community development plans, then the permit will be deemed approved;
- (6) Adding language that clarifies that the Energy Resources Coordinator is the Director of Business, Economic Development, and Tourism, as provided under section 196-3, Hawaii Revised Statutes;
- (7) Inserting an effective date of July 1, 2050, to encourage further discussion on this matter; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1925, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1925, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 925 Ways and Means on S.B. No. 1946

The purpose of this measure is to amend chapter 179D, Hawaii Revised Statutes, to ensure the safety of dams and reservoirs in the State.

Specifically, this measure:

- (1) Requires the owner of each dam to hold a valid certificate of approval to impound water;
- (2) Allows authorized personnel of the Department of Land and Natural Resources to enter upon any property, public or private, at reasonable times, without notice, to investigate the condition or operation of any dam;
- (3) Makes it unlawful to refuse entry to any authorized personnel of the Department of Land and Natural Resources to inspect a dam;
- (4) Grants the Department of Land and Natural Resources right to injunctive relief to enforce the provisions of chapter 179D, Hawaii Revised Statutes (dam safety law);
- (5) Allows the Department of Land and Natural Resources, in cases of emergency, to employ immediate remedial measures, at the cost of the owner of a dam, to protect persons and property;
- (6) Establishes the dam safety special fund to implement the dam safety program pursuant to chapter 179D, Hawaii Revised Statutes;

- (7) Allows liens to attach to property of the owner of a dam for the costs of any remedial measures undertaken by the Department of Land and Natural Resources;
- (8) Requires dams and reservoirs completed prior to the effective date of this measure to apply for certificate of approval to impound water;
- (9) Requires any dams or reservoirs under construction after the effective date of this measure to submit, for approval by the Department of Land and Natural Resources, plans and specifications for any dam construction, enlargement, repair, or removal, prior to commencing the work contemplated;
- (10) Requires the Department of Land and Natural Resources to submit annual reports to the Governor and Legislature relating to the dam safety program;
- (11) Establishes administrative penalties for the violation of chapter 179D, Hawaii Revised Statutes, or any rule, order, or condition adopted or issued pursuant to the chapter;
- (12) Makes it a class C felony for any person to negligently or knowingly violate chapter 179D, Hawaii Revised Statutes, or any rule, order, or condition adopted or issued pursuant to the chapter;
- (13) Makes other amendments to existing sections of chapter 179D, Hawaii Revised Statutes, for purposes of consistency with new provisions to the chapter; and
- (14) Makes an appropriation into and out of the dam safety special fund.

Your Committee received comments on this measure from the Attorney General, Department of Land and Natural Resources, Hawaii Farm Bureau Federation, and Alexander & Baldwin, Inc.

Most of the contents of this measure are the result of and are the recommendations contained in the *Report of the Independent Civil Investigation of the March 14, 2006, Breach of the Ka Loko Dam*, submitted by the Special Deputy Attorney General appointed to investigate the dam breach.

Your Committee shares the concerns relating to dam and reservoir safety that have arisen following the Ka Loko disaster, and the main purpose of this measure is to ensure that there are no further incidents of a dam or reservoir failure resulting in loss of life and property. Your Committee believes that many of the requirements of dam and reservoir owners contained in the measure, while adding additional burdens to those dam and reservoir owners, are necessary for that stated purpose.

Your Committee has amended this measure by:

- (1) Permitting a dam or reservoir owner to continue to impound water while in the process of applying for a certificate of approval to impound water, unless the Board of Land and Natural Resources determines that the dam or reservoir poses a danger to the health and safety of persons or property;
- (2) Allowing the Department of Land and Natural Resources to catalogue and maintain an inventory of all dams and reservoirs in the State without regard to chapter 91, Hawaii Revised Statutes (Administrative Procedure Act);
- (3) Repealing section 179D-5, Hawaii Revised Statutes, relating to unlawful conduct;
- (4) Extending the appropriation into and out of the dam safety special fund to fiscal year 2008-2009; and
- (5) Making the appropriation in this measure for an unspecified amount.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1946, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1946, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Menor, Hemmings, Whalen).

SCRep. 926 Ways and Means on S.B. No. 1380

The purpose of this measure is to enable the Board of Trustees of the Hawaii Employer-Union Health Benefits Trust Fund to adjust the base monthly contribution for the health benefit plans' rate structure.

Specifically, this measure requires the base monthly contribution to health benefit plans, if the Board of Trustees adopts a rate structure for plans other than self and family rates, to provide the equivalent underwriting cost of a cost-neutral adjustment to the base monthly contribution.

Your Committee received comments in support of this measure from the Department of Budget and Finance and the Employer-Union Health Benefits Trust Fund of the Department of Budget and Finance.

Your Committee finds that current health benefits plans are based on a two-tier structure with a cap (base monthly contribution) on self plans and a cap on family plans. The Board of Trustees of the Hawaii Employer-Union Health Benefits Trust Fund will utilize a three-tier rate structure so that the rates for retiree health benefits plans would correspond more to the size of a retiree's family--specifically, a two-party rather than a family rate. This measure will provide the Board of Trustees the power to adjust the base monthly contribution accordingly in a cost-neutral manner to reflect any such change.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1380 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Kim, Menor, Hemmings).

SCRep. 927 Ways and Means on S.B. No. 891

The purpose of this measure is to appropriate funds for fiscal biennium 2007-2009 to pay for the collective bargaining cost items relating to contributions to the Hawaii Employer-Union Health Benefits Trust Fund for officers and employees in collective bargaining units (2), (3), (4), (6), (8), (9), and (13), and their excluded counterparts.

Your Committee received comments in support of this measure from the Office of Collective Bargaining and the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that this measure is necessary to fund the premium costs associated with the anticipated agreement between the public employer and the exclusive representative of the bargaining units.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 891 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Menor, Hemmings).

SCRep. 928 Ways and Means on S.B. No. 1384

The purpose of this measure is to appropriate funds for fiscal biennium 2007-2009 to pay for the collective bargaining cost items relating to salary increases and other cost adjustments for officers and employees in collective bargaining unit (4) and their excluded counterparts.

Your Committee received comments in support of the measure from the Office of Collective Bargaining, the Judiciary, and the Hawaii Government Employees Association, AFSCME.

Your Committee finds that negotiations between the public employer and the exclusive bargaining representative of collective bargaining unit (4) are in progress, as the current contract period expires on June 30, 2007. This measure is a vehicle that must be kept alive in order to make the necessary appropriations in the event of a settlement.

Your Committee has amended this measure by including a provision to appropriate funds for the officers and employees of the Hawaii Health Systems Corporation who are the excluded counterparts of the officers and employees of the Hawaii Health Systems Corporation who are members of collective bargaining unit (4). Your Committee has also amended this measure by making numerous technical amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1384, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1384, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Kim, Menor, Hemmings).

SCRep. 929 Ways and Means on S.B. No. 1382

The purpose of this measure is to appropriate funds for fiscal biennium 2007-2009 to pay for the collective bargaining cost items relating to salary increases and other cost adjustments for officers and employees in collective bargaining unit (2) and their excluded counterparts.

Your Committee received comments in support of the measure from the Office of Collective Bargaining, the Judiciary, and the Hawaii Government Employees Association, AFSCME.

Your Committee finds that negotiations between the public employer and the exclusive bargaining representative of collective bargaining unit (2) are in progress, as the current contract period expires on June 30, 2007. This measure is a vehicle that must be kept alive in order to make the necessary appropriations in the event of a settlement.

Your Committee has amended this measure by including a provision to appropriate funds for the officers and employees of the Hawaii Health Systems Corporation who are the excluded counterparts of the officers and employees of the Hawaii Health Systems Corporation who are members of collective bargaining unit (2). Your Committee has also amended this measure by making numerous technical amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1382, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1382, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Kim, Menor, Hemmings).

SCRep. 930 Ways and Means on S.B. No. 1387

The purpose of this measure is to appropriate funds for fiscal biennium 2007-2009 to pay for the collective bargaining cost items relating to salary increases and other cost adjustments for members of bargaining unit (8) and their excluded counterparts.

Your Committee received comments in support of this measure from the Office of Collective Bargaining and representatives of the Hawaii Government Employees Association.

Your Committee finds that negotiations between the public employer and the exclusive bargaining representative are in progress, as the current contract period will expire on June 30, 2007. This measure is a vehicle that must be kept alive in order to make the necessary appropriations in the event of a settlement.

Your Committee has amended this measure by making technical amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1387, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1387, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Kim, Menor, Hemmings).

SCRep. 931 Ways and Means on S.B. No. 1383

The purpose of this measure is to appropriate funds for fiscal biennium 2007-2009 to pay for the collective bargaining cost items relating to salary increases and other cost adjustments for officers and employees in collective bargaining unit (3) and their excluded counterparts.

Your Committee received comments in support of the measure from the Office of Collective Bargaining, the Judiciary, and the Hawaii Government Employees Association, AFSCME.

Your Committee finds that negotiations between the public employer and the exclusive bargaining representative of collective bargaining unit (3) are in progress, as the current contract period expires on June 30, 2007. This measure is a vehicle that must be kept alive in order to make the necessary appropriations in the event of a settlement.

Your Committee has amended this measure by including a provision to appropriate funds for the officers and employees of the Hawaii Health Systems Corporation who are the excluded counterparts of the officers and employees of the Hawaii Health Systems Corporation who are members of collective bargaining unit (3). Your Committee has also amended this measure by making numerous technical amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1383, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1383, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Kim, Menor, Hemmings).

SCRep. 932 Ways and Means on S.B. No. 1928

The purpose of this measure is to authorize the Auditor to conduct investigations involving alleged waste, fraud, abuse, nonfeasance, or malfeasance in state government.

The bill also appropriates funds to establish an investigative unit to conduct the above-mentioned investigations.

The Office of the Auditor submitted comments in support of the bill.

Your Committee finds that, presently, there is no agency that performs independent investigations pertaining to alleged fraud, waste, abuse, nonfeasance, or malfeasance on behalf of the Legislature. The Department of the Attorney General usually acts on behalf of the executive branch when there is possible liability by or to the State.

Your Committee finds that establishing an investigative unit in the Office of the Auditor resolves this issue and will allow the Legislature to propose meaningful legislation as a result of such investigations. Moreover, investigations can only be authorized by the Legislature under certain circumstances, by statute, or by the Auditor with the President of the Senate and the Speaker of the House of Representatives concurring.

Your Committee amended the bill to change the appropriation to an unspecified amount and to make technical nonsubstantive changes for purposes of clarity, style, and conformity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1928, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1928, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Kim, Menor, Hemmings).

SCRep. 933 Ways and Means on S.B. No. 1106

The purpose of this measure is to appropriate funds to the Hawaii State Commission on the Status of Women for programming, travel, and office expenses.

The Hawaii State Commission on the Status of Women, Oahu VOICES, and one concerned individual submitted comments in support of this measure.

Your Committee finds that this appropriation would allow the Commission to fully fund its mission to ensure equality for women and be a catalyst for change through advocacy, education, collaboration, and program development.

Your Committee notes that section 2 of the bill describes several different programs as examples of the Commission's activities, and it is the overall intent of the bill for this appropriation to enable the Commission to provide support to these and other similar programs as the Commission deems fit.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated to an unspecified amount to facilitate further discussion on this measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1106, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1106, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Menor, Hemmings).

SCRep. 934 Ways and Means on S.B. No. 156

The purpose of this measure is to increase voter participation by authorizing a vote by mail system for all elections, upon a determination of economic and administrative feasibility by the Chief Election Officer, in consultation with the county clerks.

The Chief Election Officer of the Office of Elections, the League of Women Voters, and the Disability Communication Access Board submitted comments in support of this measure.

Your Committee finds that the National Census Bureau reported that in 2004 Hawaii had the lowest voter turnout in the nation, a disturbing distinction for our State. In contrast, there has been a noticeable increase in the number of absentee voters in recent elections. Other states that

have implemented voting by mail systems have seen an increase in voter participation. Your Committee believes that this measure will allow registered voters in Hawaii flexibility in determining a convenient time to cast their vote, which will result in a higher rate of voter participation.

Upon consideration, your Committee has amended this measure by:

- (1) Specifying a deadline of eighteen days before the elections for the county clerk to mail ballots outside of the State;
- (2) Adding language to provide that mailing and returning the ballots shall be at no cost to the voter to conform to absentee ballot requirements;
- (3) Specifying that ballots may be counted after noon on election day;
- (4) Requiring that, to be counted, a ballot be from a voter who has registered to vote in compliance with section 11-15, Hawaii Revised Statutes; and
- (5) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 156, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 156, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Menor, Hemmings).

SCRep. 935 Ways and Means on S.B. No. 1424

The purpose of this measure is to provide emergency appropriations for the Division of Consumer Advocacy, Department of Commerce and Consumer Affairs, to investigate the power outages that occurred on October 15, 2006, on the islands of Oahu, Maui, and Hawaii.

The Department of Consumer Affairs and the Public Utilities Commission submitted comments in support of this measure.

Your Committee finds that the Division of Consumer Advocacy's budget for fiscal year 2006-2007 was premised on the costs of consultant fees and representing the public in utility rate cases before the Public Utilities Commission. The investigation of the island-wide power outage was unexpected and beyond the Division's current budget and therefore requires this emergency appropriation.

Your Committee notes that the intent of this bill is to appropriate \$250,000 for the purpose of this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1424, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 936 Ways and Means on S.B. No. 323

The purpose of this measure is to remove the expenditure ceiling from the high technology special fund and to require that administrative and fiscal positions of the High Technology Development Corporation be funded from the general fund, and not the special fund.

Furthermore, this measure appropriates general funds for the administrative and fiscal positions of the High Technology Development Corporation and for the Hawaii small business innovation research grant program.

Your Committee received comments in support of this measure from the Office of Technology Transfer and Economic Development at the University of Hawaii, High Development Corporation, 21st Century Systems, Ambient Micro LLC, Applied Marine Solutions, Archinoetics LLC, Cardax Pharmaceuticals, Geo Recovery Hawaii Inc., Hawaii Aquaculture Association, Hawaii and Pacific Operations, Hawaii Science and Technology Council, High Health Aquaculture, Kuehne AgroSystems Company LLC., Neptune Technologies Inc., Oceanit, Pacific Sun Energy Corporation, Quantum Leap Interactive, SEE/RESCUE Corporation, Trex Hawaii LLC., and Umikoa Ranch. Your Committee received comments in opposition to this measure from the Department of Budget and Finance. The Economic Development Alliance of Hawaii submitted comments.

Your Committee finds that this measure is necessary to provide continued support for Hawaii's high technology businesses. Removing the expenditure ceiling from the special fund and requiring certain positions of the development corporation to be funded through general funds will increase the capability and resources of the development corporation in meeting the high technology needs of the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 323, S.D. 2, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Menor, Hemmings).

SCRep. 937 Ways and Means on S.B. No. 867

The purpose of this measure is to require the Department of Education to conduct a feasibility study on converting hard cover textbooks to electronic books, called e-books, for use in public schools.

The Department of Education submitted comments on the bill.

Your Committee finds that textbook shortages continue to be an issue for many Hawaii public schools. Providing updated textbooks to each student in the public school system would be prohibitively expensive.

Your Committee further finds that e-books used in public school classrooms may relieve this shortage at a much lower cost, provide a learning experience more tailored to the individual needs of students, and permit teachers to work more effectively with a wide range of students. However, since a switch from textbook to e-book is a substantial change, it is necessary to obtain sufficient information regarding this switch and its consequences.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 867, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 938 Ways and Means on S.B. No. 1203

The purpose of this measure is to establish a “cash and counseling” pilot program in Hawaii.

More specifically, the Department of Human Services would establish the program under which recipients of Medicaid personal care services or home- and community-based services receive a flexible monthly allowance and decide whom to hire and the services needed.

Your Committee received comments in support of the measure from the National Multiple Sclerosis Society and the Kokua Council. The Department of Human Services, the Hawaii Aging Advocates Coalition, and the Policy Advisory Board for Elder Affairs submitted comments.

Your Committee finds that under current law, there is a limited choice of programs available for the elderly for personal care services. The measure will allow recipients to choose a family member or friend, in lieu of an agency worker, to provide that personal care service, enabling these family members or friends to receive an offset to some of their financial sacrifices.

Your Committee finds that establishing this pilot program for recipients of Medicaid personal care services will promote independence, responsibility, and confidence in recipients and at the same time, recognize and support family caregivers and friends for their efforts.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1203 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 939 Ways and Means on S.B. No. 1170

The purpose of this measure is to appropriate or authorize temporary assistance for needy families funds for the Healthy Start Program, including Enhanced Healthy Start, to address budget shortfalls and implement recommended program improvements.

Specifically, the measure provides funds to hire a child development or clinical specialist and to complement provider training.

Catholic Charities Hawaii and Parents and Children Together submitted comments in support of this measure. The Department of Human Services, Hawaii Family Support Institute, and Maui Family Support Services submitted comments.

Your Committee finds that the Healthy Start Program has been a resource for Hawaii’s families by providing voluntary home visits to promote healthy child development and provide services to families identified as at risk for child abuse and neglect. The Enhanced Healthy Start Program was later established to serve entire families at threatened harm levels of risk, as well as infants and toddlers subject to abuse or neglect.

Your Committee further finds that an appropriation will allow the Healthy Start Program to make programmatic changes that will substantially increase its ability to make positive changes in the lives of many children and their families.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1170, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 940 Ways and Means on S.B. No. 1728

The purpose of this measure is to make an appropriation for a two-year demonstration project at the Waikiki Health Center and the West Hawaii Community Health Center for Hepatitis C testing, case management, and treatment.

Your Committee received comments in support of this measure from the Waikiki Health Center; Nursing, Advocates & Mentors, Inc.; Asian American Network for Cancer Awareness Research and Training; Filipino Coalition for Solidarity; Oahu Filipino Community Council; Philippine Nurses Association of Hawaii; United Filipino Council of Hawaii; Hepatitis Prevention, Education, Treatment & Support Network of Hawaii; Hep Cats Support Group Committee; and two individuals.

Your Committee finds that Hawaii has one of the highest rates of liver cancer in the United States due to the high rate of chronic viral hepatitis in our State. Over fourteen thousand individuals in Hawaii have been diagnosed with Hepatitis C. Part of the reason for this high prevalence is due to fact that many of our island residents are immigrants from the Philippines and other Pacific Island communities.

Your Committee further finds that, if not diagnosed at an early stage, treatment is very difficult, extremely expensive, and in many cases too late.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1728, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 941 Ways and Means on S.B. No. 1174

The purpose of this measure is to support the expansion of parent-child interaction programs at state correctional facilities.

Specifically, the bill appropriates funds to the Department of Public Safety to contract with community agencies to establish and implement parent-child interaction programs.

Your Committee received comments in support of the measure from: Child and Family Service, Community Alliance on Prisons, Keiki O Ka’Aina Family Learning Centers, Supporting Keiki of Incarcerated Parents (SKIP) Partnership, and four concerned individuals. One individual also submitted comments on this measure.

Your Committee finds that children of incarcerated parents suffer a multitude of negative consequences, including possible displacement from their home and separation from their primary or secondary caregiver. Children of incarcerated parents are also six times more likely to become criminal offenders themselves.

Your Committee further finds that parent-child interaction programs like SKIP strengthen families, reduce abuse and neglect of children of incarcerated parents, and decrease the rate of recidivism.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1174, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, 4 (English, Kim, Hemmings, Whalen).

SCRep. 942 Ways and Means on S.B. No. 331

The purpose of this bill is to help prevent identity theft by supporting efforts to protect a person's vital information and to develop more deterrents for identity theft.

More specifically, this measure appropriates funds to the Office of the Auditor for research and support services necessary to develop additional deterrents for identity theft, particularly those related to the compromise of electronic data and information.

Your Committee received comments in support of this measure from the Support Services Department of the Judiciary and Retail Merchants of Hawaii.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 331, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 331, S.D. 3.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Menor, Hemmings).

SCRep. 943 Ways and Means on S.B. No. 94

The purpose of this measure is to establish the food distribution program revolving fund.

More specifically, this measure establishes a revolving fund to accept administrative fees paid to the Department of Education by recipients of commodity foods under the National School Lunch Program. The Department of Education will expend funds from the revolving fund to offset the cost of warehousing commodity foods distributed under the National School Lunch Program.

Your Committee received comments in support of this measure from the Department of Education. The Department of Budget and Finance also submitted comments.

Your Committee finds that the Department of Education distributes commodity foods to public schools, private schools, and other state institutions that participate in the National School Lunch Program. The Department of Education paid in excess of \$1,200,000 to store commodity foods in warehouses in fiscal year 2006 but is prohibited from using federal funds to pay warehouse fees.

The revolving fund established under the measure, allows the Department of Education to use fees collected for, interest earned on, and other moneys associated with the food distribution program to support the continued operations of the food distribution program including payment for warehouse fees and allow the program to be self-sustaining.

Your Committee has amended this measure by:

- (1) Transferring the current funds for the warehousing and distribution of federal commodity foods to the food distribution program revolving fund; and
- (3) Making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 94, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 94, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 944 Ways and Means on S.B. No. 1156

The purpose of this measure is to extend the lapsing date of the appropriation made to the B plus scholarship program.

The measure also changes the program's eligibility criteria to include "a rigorous high school curriculum".

The Filipino Coalition for Solidarity, National Federation of Filipino American Associations Region 12, Nursing Advocates and Mentors, Inc., Philippine Nurses Association, United Filipino Council of Hawaii, University of Hawaii, and two individuals submitted comments in support. The Department of Education submitted comments.

Your Committee finds that the State's investment in higher education will help to reduce poverty and crime and increase social responsibility.

Your Committee further finds that making higher education affordable and accessible to qualified students ensures a competent and diverse workforce with the critical thinking skills necessary to keep Hawaii competitive in the global market.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount; and
- (2) Inserting language to ensure that the appropriations do not lapse until June 30, 2008, and June 30, 2009, respectively.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1156, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1156, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 945 Ways and Means on S.B. No. 1163

The purpose of this measure is to require a permanent plan for all foster youth fourteen and older.

The Department of Human Services offered comments on this measure.

Specifically, this measure requires the permanent plan to include an appropriate independent living program that provides foster youth with opportunities to learn basic life skills that will be needed when they become adults. This measure also appropriates unspecified amounts for the Department of Human Services for the independent living program.

Your Committee finds that this measure will provide foster youth the appropriate opportunities to learn basic life skills including money management and accessing information from various institutions in the community.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1163, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1163, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 946 Ways and Means on S.B. No. 1678

The purpose of this measure is to provide adequate reimbursement to health care providers in Hawaii.

Specifically, this measure requires that, beginning on January 1, 2008, each:

- (1) Participating medical services provider within the network of a mutual benefit society;
- (2) Licensed hospital or nursing facility, excluding emergency room services; and
- (3) Health maintenance organization,

shall be reimbursed for the provision of medical services to patients, regardless of whether a patient is a participant in a medicaid program, at a rate not less than one hundred per cent of the medicare reimbursement amount that is in effect for the current year and updated for each calendar year thereafter. This measure also provides a mechanism for annual adjustment of rates for inflation. Finally, this measure appropriates an unspecified amount to the Department of Human Services to cover increases in reimbursement payments.

Your Committee received comments in support of this measure from the Chamber of Commerce of Hawaii, the Healthcare Association of Hawaii, and Hawaii Pacific Health. Comments in opposition were received from the Hawaii Medical Services Association. The Department of Human Services offered comments.

Upon further consideration, your Committee has amended this measure by:

- (1) Clarifying, in section 2 creating a new section 346- , Hawaii Revised Statutes, that the reimbursement for each hospital or nursing facility licensed by the State shall be at a rate "not less than" one hundred ten per cent of the Medicare reimbursement amount, for the purpose of consistency with sections 1, 3, and 4;
- (2) Adding, throughout the measure, that reimbursements shall be "on all medicare codes" for the provision of medical services;
- (3) Adding a requirement for the Department of Human Services to report annually to the Legislature regarding adjustments to rates under the Medicaid fee schedule;
- (4) Changing the effective date to July 1, 2007, and thus also deleting the unnecessary provision that the appropriation made in section 6 shall take effect on July 1, 2007; and
- (5) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1678, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1678, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 947 Ways and Means on S.B. No. 917

The purpose of this measure is to direct the Department of Public Safety to develop a plan by January 1, 2008, to return to the State by July 1, 2009, all female prisoners incarcerated out-of-state and who are residents of this State.

Your Committee received comments on this measure from the Hawaii State Commission on the Status of Women, Community Alliance on Prisons, Hawaii Youth Services Network, and two individuals, all in support of this measure.

Your Committee is informed that one hundred seventy-four women who are residents of the State are incarcerated in prisons on the mainland due to the lack of adequate facilities in the State. This relocation not only affects the prisoners but, equally if not more importantly, it can have an adverse effect on any minor children of these women prisoners who are left behind in the State. Accordingly, because of this concern, the Department of Public Safety is directed to immediately develop a plan to return all female prisoners who are residents of the State of Hawaii to the State by July 1, 2009.

Your Committee has amended this measure by:

- (1) Requiring that the Department of Public Safety report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2008 on its plan to return to the State by July 1, 2009, all female prisoners who are residents of the State of Hawaii;

- (2) Incorporating into this measure the contents of Senate Bill No. 911, requiring that the Department of Public Safety undertake a study to identify three potential sites, two on the island of Oahu and one on a neighbor island, for the development of a new minimum security prison to hold a minimum of five hundred inmates and to include an intensive mandatory substance abuse treatment program;
- (3) Incorporating into this measure the contents of Senate Bill No. 916, S.D. 1, directing the Department of Public Safety to consider the feasibility of selling or leasing the Oahu Community Correctional Center site and using the proceeds of the sale or lease for the development of a new facility;
- (4) Incorporating into this measure the contents of Senate Bill No. 919, S.D. 1, requiring the mainland branch of the Department of Public Safety, Corrections Division, to submit quarterly reports about the conditions of each resident of the State of Hawaii who is incarcerated in a prison on the mainland under the Interstate Corrections Compact; and
- (5) Making technical nonsubstantive changes for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 917, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 917, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, 4 (English, Kim, Hemmings, Whalen).

SCRep. 948 Ways and Means on S.B. No. 1489

The purpose of this measure is to increase the resources of the Hawaii Paroling Authority. Specifically, the bill:

- (1) Converts two part-time member positions on the Hawaii Paroling Authority to full-time;
- (2) Authorizes the Governor to set the salary of the Chair and members of the Authority; and
- (3) Appropriates funds for salary increases, equipment, and supplies.

The Hawaii Paroling Authority and the Interim Director of the Department of Human Resources submitted comments in support of this measure.

Your Committee has amended this measure by:

- (1) Clarifying which executive salary commission report the governor shall use for guidance in setting the salaries;
- (2) Changing the amount appropriated to an unspecified amount to facilitate further discussion; and
- (3) Making a technical change to conform the text of section 353-63 to the printed version of the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1489, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1489, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, 4 (English, Kim, Hemmings, Whalen).

SCRep. 949 (Joint) Public Safety and Ways and Means on S.B. No. 959

The purpose of this measure is to address the warrant backlog problem in the State of Hawaii.

Testimony in support of the intent of this measure was submitted by the Department of Public Safety and the Office of the Public Defender. The Department of the Attorney General and the Department of the Prosecuting Attorney submitted testimony in support of section 2 (making an appropriation for additional sheriffs dedicated exclusively to the service and execution of warrants), and offered comments.

Your Committees find that the backlog in the service and execution of warrants is unacceptable. Your Committees further find that the joint task force requested and mandated to address the warrant backlog by the 2006 Legislature in Senate Concurrent Resolution No. 91, S.D. 1, and Act 308, Session Laws of Hawaii, respectively, has come up with several suggestions but has not supplied sufficient information regarding the needed resources and steps needed to put the task force suggestions into practice. Your Committees direct the joint task force to meet again in order to complete their recommendations and provide them to the Legislature in writing, including a timeline and budget suggestions, so that the Legislature can make better decisions about how to deal with the warrant backlog.

Your Committees note the validity of the concerns presented by the Department of the Prosecuting Attorney, in that placing the expiration dates in the Hawaii Revised Statutes may make offenders feel that complying with warrants are not necessary because, as long as there is a backlog, it is unlikely that the warrant would be executed before the expiration date. Your Committees further note that the Department of the Prosecuting Attorney is already in the habit of waiving the service and execution of warrants for minor offenses and believes this is best left to be a discretionary waiver rather than a statutory mandate.

Your Committees find that the Judiciary and the Department of Public Safety should work together to establish an automated centralized warrant management system that can be accessed by all law enforcement personnel. Your Committees further find that the Judiciary Information Management (JIMS) CourtConnect System under the Judiciary could be the proper system for the automated centralized warrant management system. However, some departments testified that the system has had technical and resource limitations. It is the intent of your Committees that the Judiciary and the Department of Public Safety consider the use of JIMS, with technical improvements and sufficient resources as a mechanism for the centralized warrant system.

Your Committees amended this measure to:

- (1) Exclude the codification of expiration dates for warrants in the Hawaii Revised Statutes;
- (2) To task the Judiciary and the Department of Public Safety with establishing an automated and centralized warrant management system that can be accessed by all law enforcement personnel;

- (3) To provide an appropriation in each year of the 2007-2009 fiscal biennium for the automated centralized warrant management system;
- (4) To provide an appropriation in each year of the 2007-2009 fiscal biennium to fund additional sheriff positions, including salaries and the purchase of necessary vehicles, dedicated to the exclusive purpose of the service and execution of warrants; and
- (5) To extend the effective date to provide for further discussion.

As affirmed by the records of votes of the members of your Committees on Public Safety and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 959, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 959, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ayes, 10. Ayes with Reservations, 1 (Tsutsui). Noes, none. Excused, 4 (Chun Oakland, English, Hooser, Whalen).

SCRep. 950 Ways and Means on S.B. No. 1048

The purpose of this measure is to warn motorists of construction on roadways that include the use of steel plates by posting appropriate warning signs.

Two officials of the Street Bikers United Hawaii submitted comments in support of the bill. The Department of Transportation submitted comments.

Your Committee finds that under current law there is no specific requirement to warn motorists of the use of steel plates at construction sites.

Your Committee finds that the bill establishes the statutory requirement to post warning signs if construction work is performed on public highways.

Your Committee amended the bill by:

- (1) Inserting a savings clause as section 3 and renumbering the remaining sections accordingly; and
- (2) Making technical nonsubstantive changes for clarity, style, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1048, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1048, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 951 Ways and Means on S.B. No. 1515

The purpose of this measure is to increase the amount of fine that may be imposed for a violation of the State's harbor laws or rules.

Specifically the measure increases the monetary ceiling for fines from \$10,000 to \$27,500.

The Department of Transportation submitted comments in support of the bill.

Your Committee finds that the fines currently imposed for violations of state harbor laws and rules are well below the amount federal and state agencies may impose on landowner's for violations of environmental regulations and are insufficient to function as a deterrent.

Your Committee amended the bill to make technical nonsubstantive changes for clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1515, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1515, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 952 Ways and Means on S.B. No. 1052

The purpose of this measure is to fulfill the state constitutional mandate to preserve the Hawaiian language.

Specifically, the measure:

- (1) Requires, rather than authorizes, the accurate use of Hawaiian names and language on new letterhead of state and county documents; and
- (2) Establishes the Hawaiian language interim task force to develop an implementation plan and identify a Hawaiian language authority to be consulted by government agencies in complying with this Act.

No written comments were submitted on the measure.

Your Committee finds that the Constitution of the State of Hawaii mandates the preservation and promotion of the Hawaiian language, one of the two official languages of the State. This measure recognizes that proper respect should be accorded to the language of the indigenous culture by promoting its use and mandating accuracy.

Upon consideration, your Committee has amended this measure by:

- (1) Clarifying that the Bishop Museum selects task force members to be appointed by the governor from a list of nominees received from each organization, the governor selects two native speaker members from nominees submitted by the President of the Senate and the Speaker of the House of Representatives, and all nine members are appointed by the Governor;
- (2) Changing the deadline for task force appointments and initial meeting to August 1, 2007;
- (3) Providing that the Hawaiian language interim task force shall terminate on July 1, 2008;

- (4) Changing the amount appropriated to an unspecified amount to facilitate further discussion on the measure;
- (5) Changing the effective date to July 1, 2007; and
- (6) Making technical nonsubstantive amendments for the purpose of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1052, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1052, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 5 (English, Hooser, Kim, Hemmings, Whalen).

SCRep. 953 Commerce, Consumer Protection and Affordable Housing on S.B. No. 188

The purpose of this measure is to amend the Small Business Regulatory Flexibility Act.

Specifically, this measure provides that a small business impact statement will be prepared and submitted to the Small Business Regulatory Review Board as early as practicable. This measure also requires that rules adopted that affect small businesses shall be reviewed every five years to determine whether they are still appropriate.

Additionally, this measure requires that a petition for regulatory review under section 201M-6, Hawaii Revised Statutes (HRS), and the list of rules adopted in the previous five years under section 201M-7, HRS, be sent to the Office of the Ombudsman.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; the Small Business Regulatory Review Board; and the Hawaii Business League. The Office of the Ombudsman submitted written comments on this measure.

Your Committee finds that the Small Business Regulatory Flexibility Act serves as a fair and equitable regulatory process. This Act has been particularly successful in reviewing rulemaking by public agencies that affects small businesses.

Your Committee notes the concerns raised by the Office of the Ombudsman as to the requirement that any petitions for regulatory review under section 201M-6, HRS, and the list of rules adopted in the previous five years under section 201M-7, HRS, be stored at the Office of the Ombudsman. The Ombudsman's concern is that the requirement is unnecessary and would not enhance the Office of the Ombudsman's ability to carry out its mandate.

In addition, the Office of the Ombudsman is concerned that it would become an official custodian of affected records and would have to establish a record keeping system and a means for providing public access in order to comply with chapter 92, HRS.

Your Committee further notes that the Ombudsman has requested that the requirement that the Office of the Ombudsman serve as a record depository be removed from this measure.

In order to promote further discussion, your Committee has amended this measure to change the effective date and to make technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 188, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 188, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Espero, Ihara).

SCRep. 954 Commerce, Consumer Protection and Affordable Housing on S.B. No. 713

The purpose of this measure is to establish certification and recertification procedures for nurse aides employed in state licensed or state certified health care settings and Medicare or Medicaid facilities.

Your Committee received written comments in support of this measure from the Department of Commerce and Consumer Affairs, the Hawaii Coalition of Care Home Administrators, the Healthcare Association of Hawaii, and the Hawaii Long Term Care Association. The Department of Health submitted written comments on this measure.

Your Committee finds that certifying and recertifying nurse aides who work in nursing facilities participating in Medicare and Medicaid programs and in other state licensed and certified health care settings will enable the Department of Commerce and Consumer Affairs, the Department of Human Services, and the Department of Health to monitor and evaluate the quality and competency of the nurse aides practicing in the State.

After full discussion on this measure, your Committee has amended this measure to:

- (1) Remove the requirement that all practicing nurse aides be certified and add language for the certification and recertification of nurse aides who work in nursing facilities that participate in Medicare and Medicaid programs and in other state licensed and certified health care settings;
- (2) Replace the definition of "findings" with a definition of "substantiated findings" in accordance with federal law;
- (3) Add a definition of "state licensed or state certified health care setting";
- (4) Prohibit any person from representing in any way that the person is a certified nurse aide without having first obtained certification;
- (5) Clarify that the maintenance requirements for recertification for Medicare or Medicaid facilities includes in-service training in a Medicare or Medicaid facility;
- (6) Clarify that the maintenance requirements for recertification for state licensed or state certified facilities includes a competency evaluation and employment in a state licensed or state certified health care setting;
- (7) Make other clarifying amendments; and

(8) Change the effective date to promote further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 713, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 713, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 955 (Joint) Commerce, Consumer Protection and Affordable Housing and Ways and Means on S.B. No. 816

The purpose of this measure is to provide affordable prescription medicines while maintaining high quality prescription drug therapies.

Specifically, this measure creates a comprehensive Hawaii State Pharmacy Assistance Program by consolidating both the Hawaii Rx Plus Program and the State Medicare Part D Pharmacy Assistance Program into a single program in order to receive approval from the federal Centers for Medicare and Medicaid Services as a federal qualified state pharmacy assistance program.

Your Committees received written comments in support of this measure from the Department of Human Services and the AARP.

Your Committees find that prescription drugs have become the most expensive component of health care, accounting for approximately two-thirds of health care costs. This is often an unmanageable financial burden, particularly for the elderly population.

Your Committees further find that on January 1, 2006, the state Medicare part D State Pharmacy Assistance Program was created. The State Medicare Part D Program covers the co-payments for Medicare and Medicaid dual eligible clients to ensure a smooth transition of prescription drug coverage from Medicaid to Medicare. In addition, the federal Medicare Modernization Act of 2005 also provides special relief for qualified state pharmacy assistance programs. This measure is the first step in qualifying for special relief under the Medicare Modernization Act of 2005.

Upon the recommendation of the Department of Human Services, your Committees amended this measure to add a new subsection to section 346-342, Hawaii Revised Statutes, to require drug manufacturers or labelers who sell prescription drugs in the State to enter into a rebate agreement with the Department of Human Services, as approved by the federal Centers for Medicare and Medicaid Services. Your Committees have also amended this measure to make technical and clarifying amendments provided by the Department of Human Services.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Affordable Housing and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 816, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 816, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ayes, 14. Noes, none. Excused, 3 (Hooser, Hemmings, Whalen).

SCRep. 956 Commerce, Consumer Protection and Affordable Housing on S.B. No. 12

The purpose of this measure is to re-enact health insurance rate regulation by prohibiting health insurance rates from being excessive, inadequate, or unfairly discriminatory.

This measure also requires that health care insurers submit rate filings for approval by the Department of Commerce and Consumer Affairs, establishes what type of information needs to be provided to enrollees with regard to rates, and establishes various penalties and appeal procedures.

The Hawaii State Teachers Association submitted written comments in support of this measure. The Hawaii Medical Service Association submitted written testimony in opposition of this measure. Written comments were submitted by the Department of Commerce and Consumer Affairs and the American Family Life Assurance Company of Columbus.

Act 74, Session Laws of Hawaii 2002 (Act 74), established a health insurance rate regulation law that ensured that health insurance rates were not excessive, inadequate, or unfairly discriminatory in a manner similar to the way that motor vehicle, workers' compensation, homeowners', and other property and casualty insurance lines are presently regulated. Pursuant to a sunset provision, Act 74 was repealed on June 30, 2006.

Your Committee finds that the intent of this measure is to re-enact the health insurance rate regulation law in order to protect Hawaii consumers from predatory and discriminatory pricing and to open the market for competition, therefore, providing Hawaii consumers with more choices for health insurance.

Your Committee has amended this measure to clarify that the definition of "managed care plan" or "plan" does not include specific disease or disability policies.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 12, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 12, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 957 Commerce, Consumer Protection and Affordable Housing on S.B. No. 667

The purpose of this measure is to provide individuals who graduated from an accredited mental health counselor program prior to July 1, 2007, with alternative methods for satisfying the practicum intern experience and post-graduate experience requirements necessary for licensure.

Written comments in support of this measure were submitted by the Department of Commerce and Consumer Affairs and one individual. Written comments in opposition of this measure were submitted by the Alliance for Professional Counselor Licensure.

Your Committee finds that, pursuant to Act 14, Session Laws of Hawaii 2006, the Legislature increased the requirements for licensure of mental health counselors. However, Act 14 created a gap group of individuals who would be prohibited from licensure under the new law. Your Committee further finds that the provision of alternative methods for licensure are appropriate to ensure that these individuals may satisfy the requirements necessary for licensure without compromising the essential qualifications determined by the Legislature.

This measure provides alternative methods for satisfying necessary requirements for licensure for individuals who graduated from an accredited mental health counseling program prior to July 1, 2007. However, your Committee determines that further clarification is necessary to ensure that a suitable amount of experience is completed before licensure is granted and the alternative methods provided are truly substitutes for and not additions to the existing requirements.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the method for satisfying the practicum intern experience requirement is an alternative method to that currently provided under the law;
- (2) Clarifying that the method for satisfying the post-graduate experience requirement for licensure is an alternative method to that currently provided under the law;
- (3) Specifying that under either method, at least three thousand hours of post-graduate experience is required for licensure; and
- (4) Amending the effective date to promote further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 667, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 667, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Sakamoto).

SCRep. 958 (Majority) Commerce, Consumer Protection and Affordable Housing on S.B. No. 1004

The purpose of this measure is to ensure that individuals living in rural areas of the State have access to appropriate mental health care services by authorizing appropriately trained and supervised psychologists to prescribe psychotropic medications for the treatment of mental illness.

Written comments in support of this measure were submitted by the American Psychological Association; the Hawai'i Psychological Association; the Hawai'i Primary Care Association; Waianae Coast Comprehensive Health Center; Moloka'i Community Health Center; the Board Members of the West Hawaii Community Health Center; Hamakua Health Center; Na Pu'uwai Native Hawaiian Health Care System; Community Clinic of Maui; Papa Ola Lokahi; Waikiki Health Center; Kokua Kalihi Valley; Ho'ola Lāhui Hawai'i; West Hawaii Community Health Center, Inc.; Mental Health America of Hawaii; and thirty-one individuals.

Written comments in opposition of this measure were submitted by the Board of Medical Examiners, the Hawaii Psychiatric Medical Association, the Hawai'i Society of Addiction Medicine, the Hawaii Medical Association, the National Alliance of Mental Illness, and fifty-three individuals.

Written comments were submitted by the Board of Psychologists.

Your Committee finds that there is limited access to mental health care treatment services for those living in the rural areas of the State.

Your Committee further finds that the delivery of comprehensive, accessible, and affordable mental health care may be enhanced by providing trained and supervised psychologists with limited prescriptive authority for the specific purpose of providing care in federally qualified health centers or other licensed health clinics located in federally designated medically underserved areas. This measure will address the urgent need for timely, appropriate, and cost-effective mental health and pharmacological services for qualified health centers that are most in need of psychologists with prescriptive authority.

Your Committee has amended this measure by deleting the definitions of "collaborative relationship" and "medical psychologist" since the context in which these terms are used make their defining unnecessary. Your Committee has also made technical, nonsubstantive changes for the purposes of style and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1004, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1004, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 3. Ayes with Reservations, 1 (Espero). Noes, 1 (Slom). Excused, 2 (Ige, Sakamoto).

SCRep. 959 Commerce, Consumer Protection and Affordable Housing on S.B. No. 1350

The purpose of this measure is to allow the Hawaii Housing Finance and Development Corporation to waive its shared appreciation equity and ten-year buyback restriction requirements for sustainable affordable leasehold projects and for immediate family members of the purchaser who would otherwise qualify under the rules.

Written comments in support of this measure were submitted by the Hawaii Housing Finance and Development Corporation (HHFDC) and Hawaii Reserves, Inc.

Your Committee finds that the law currently exempts certain individuals from the shared appreciation equity and ten-year buyback restrictions applicable to housing governed under chapter 201H, Hawaii Revised Statutes. However, the law does not address the sale or transfer of real property subject to sustainable affordable leases, under section 516-1, Hawaii Revised Statutes. Your Committee believes that the failure to exclude sustainable affordable leases will obstruct the expediency and intended purpose of developing sustainable affordable leases, which is to provide housing that is to continue as part of the affordable housing inventory. This measure addresses this deficiency in the law.

Additionally, this measure attempts to address those situations where immediate family members of the purchasers of affordable housing are forced to vacate the property upon the death of the purchaser under the shared appreciation equity and ten-year buyback provisions. Your Committee believes that the death of a purchaser should not require the eviction of immediate family members from the home, which could thereby exacerbate current homelessness problems. Instead, the purchaser should be required to designate an immediate family member, who would otherwise be qualified for purchase under the HHFDC rules, and who would be provided the right of first refusal to acquire the home upon death.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that to be exempt from the shared appreciation equity and ten-year buyback provisions, the purchaser must designate an immediate family member who would otherwise qualify for property acquisition under the HHFDC rules who would be offered the right of first refusal to the property; and
- (2) Including a definition for "immediate family member" to include any grandparent, parent, sibling, spouse, reciprocal beneficiary, or child of the purchaser.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1350, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1350, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Sakamoto).

SCRep. 960 Commerce, Consumer Protection and Affordable Housing on S.B. No. 1425

The purpose of this measure is to ensure an adequate supply of licensed contractors is available to perform necessary repairs and reconstruction work during a state of emergency or disaster by authorizing the Contractors License Board to issue emergency contractor licenses under certain circumstances and subject to certain qualifications.

Written comments in support of this measure were submitted by the Department of Defense and State Farm Insurance Companies. Written comments were submitted by the Contractors License Board and the Subcontractors Association of Hawaii.

Your Committee finds that the after effects of hurricanes Katrina and Rita demonstrated the effects of having a short supply of skilled and licensed contractors. Currently, if a natural disaster or other state of emergency were to arise in Hawaii, the demand for skilled and licensed contractors may exceed the actual supply. This might lead to people being scammed by unlicensed and unskilled individuals. The intent of this measure is to protect consumers by allowing out-of-state contractors, who are licensed in other jurisdictions and subject to other qualifications, to obtain emergency contractor licenses in order to perform necessary repair and reconstruction work during a state of emergency or disaster.

Your Committee has amended this measure to require that any applicant for an emergency contractor license must provide proof of workers' compensation insurance for work done in the State.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1425, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1425, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Sakamoto).

SCRep. 961 Ways and Means on S.B. No. 709

The purpose of this measure is to assist in the development and economic health of growth industries in the State.

Specifically, this measure requires the Department of Business, Economic Development, and Tourism to investigate, collect, analyze, and publish research and data to track economic progress of growth industries to supply economic information to policy makers, the public, and growth industries for use in setting policies, objectives, and goals. This measure also appropriates an unspecified amount to the Department of Business, Economic Development, and Tourism to improve the State's ability to measure the productivity of and progress toward achieving innovation in Hawaii's economy.

Your Committee received comments in support of this measure from the Department of Business, Economic Development, and Tourism. Comments in opposition were received from Archinoctics, LLC, Island News Technologies, LLC, Hawaii Venture Capital Association, and four individuals. Applied Marine Solutions, Archinoctics, LLC, and six individuals commented.

Your Committee believes that data need to be collected and analyzed in a comprehensive and coordinated manner to supply necessary information to policy makers, the public, and growth industries to make informed decisions to improve Hawaii's growth industries.

Your Committee has made technical nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 709, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 709, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Fukunaga, Menor, Hemmings).

SCRep. 962 Ways and Means on S.B. No. 897

The purpose of this measure is to appropriate general funds into the Hawaii 3Ts school technology laboratories fund to expend for project EAST programs statewide.

Your Committee received comments in support of the measure from the Department of Education, the Department of Business, Economic Development, and Tourism, the National Defense Center of Excellence for Research in Ocean Sciences, Ho'ike, and three concerned citizens. The High Technology Development Corporation offered comments.

Your Committee finds that Hawaii's continued prosperity and ability to preserve its quality of life and preferred lifestyle depend on the State's investment in human resources and innovation as the driver of economic development and as the State's response to the challenge of globalization. Your Committee further finds that part of this investment should be in programs that produce graduates from Hawaii's secondary education system with analytical and problem-solving skills that can only be nurtured through early exposure to the hard sciences, technology, engineering, and mathematics.

Your Committee has amended this measure by making a number of technical amendments to:

- (1) Specify in the operative provisions the purpose for the appropriation, which is to expand project EAST programs statewide;

- (2) Clarify the ratio of matching funds to grants by reference to the specific statutory requirements of the fund;
- (3) Clarify that the Economic Development Alliance of Hawaii has the lead in administering the fund; and
- (4) Change the appropriation to an unspecified amount for the purposes of continued discussion of the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 897, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 897, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Menor, Hemmings).

SCRep. 963 Ways and Means on S.B. No. 1131

The purpose of this measure is to enhance the Department of Education's ability to utilize technology to streamline its processes, provide data necessary to support students, and increase accountability and transparency within the Department of Education.

Specifically, this measure appropriates funds to support the Office of Information Technology Services for the continued implementation of student information systems, student support systems, additional program requirements, and infrastructure enhancement for fiscal years 2007-2008 and 2008-2009. This measure also creates a fee for service pilot program to provide assistance to schools based on a schedule of deliverables on hourly rates that shall be funded and staffed with an unspecified percentage of the \$4,221,956 appropriated for fiscal year 2007-2008 under section 1 of the measure.

Your Committee received comments in support of this measure from the Department of Education.

Your Committee believes that the amounts appropriated in this measure will enable the Department of Education to support an integrated comprehensive student support system, to implement and enhance the centralized student information system, a financial management system, and the associated network support services.

Your Committee has amended this measure to reflect the correct name of the Office of Information Technology Services by inserting the word "information" on page 1, line 17 of the measure. Further, the amounts appropriated were changed to unspecified amounts to facilitate further discussion. Your Committee has also made a technical nonsubstantive amendment for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1131, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1131, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 964 Ways and Means on S.B. No. 613

The purpose of this measure is to provide financial and other support for programs furthering early education.

More specifically, the bill requires the Department of Education to identify unused public school land and facilities for use by early childhood education programs, requires a maximum ratio of one teacher to ten students in certain schools, and appropriates funds.

The Department of Education submitted comments on the bill and the Hawaii Teacher Standards Board submitted comments in support of the bill.

Your Committee finds that early childhood education is instrumental for future development and success. It is important to accomplish the goals set out by the previously established Early Learning Education Task Force.

Your Committee finds that this bill takes into account the presented issues. Early childhood education can be best supported if the Department of Education identifies currently unused public school land and facilities and limits the student-to-teacher ratio to fifteen to one in underachieving schools and schools with a high percentage of students qualifying for free and reduced lunches. The limited funds for the latter goal will be allocated on a sliding scale based on the percentage of students at a school who qualify for free or reduced lunches, with schools having a higher percentage receiving proportionately more funds than schools with lower percentages.

Your Committee further finds that financial support for early childhood education inclusion programs and collaboration of public programs and private providers helps to ameliorate current concerns.

Your Committee has amended the bill to:

- (1) Delete the suggested establishment of the early education incentive program and all related provisions;
- (2) Change the student-to-teacher ratio requirement back from ten to one to fifteen to one;
- (3) Require the Department of Human Services, which already conducts inspections of early childhood education facilities, to report that information to the Department of Education thereby not duplicating the effort;
- (4) Require the Department of Education to report back to the Legislature with its findings and recommendations; and
- (5) Make technical nonsubstantive changes for purposes of clarity, style, and conformity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 613, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 613, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 965 Ways and Means on S.B. No. 691

The purpose of this measure is to require the Department of Education to provide suitable transportation to and from school and for educational field trips for all children in grades kindergarten to twelve and in special education classes.

The Hawaii School Bus Association submitted comments in support of this measure. The Department of Education submitted comments.

Your Committee finds that part of providing a proper education to public school students throughout the State includes the provision of safe, reliable, and consistent transportation to and from school and for educational excursions. Currently, the Department of Education provides transportation services to students living outside of Honolulu proper, with some exceptions, and those living beyond a mile away from school.

Many other students may not require transportation services because they live in areas that are serviced by the City and County of Honolulu bus system, are attending schools under a geographic exemption, or do not proceed directly home after school. Your Committee understands that requiring the Department of Education to provide transportation services to all public school students could be a costly endeavor and a major undertaking.

Your Committee is most concerned with ensuring that the current level of transportation services provided to students is not diminished or, if necessary, that such changes are not executed without input from interested parties, including parents. The establishment of a process to allow stakeholders to participate in changes to current policies and procedures will help to ensure that the transportation needs of the students are being met.

Your Committee has amended this bill by:

- (1) Changing the effective date to July 1, 2050 to facilitate further discussion; and
- (2) Making a technical nonsubstantive change for the purpose of style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 691, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 691, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (English, Tsutsui, Whalen).

SCRep. 966 Ways and Means on S.B. No. 1177

The purpose of this measure is to provide funds for the establishment of a Global Youth Center in Hawaii.

Specifically, this measure will allow the Global Youth Center to provide youth from around the world the opportunity to learn about and address major global issues. The Global Youth Center will be administered through the East-West Center, and will ensure that Hawaii students, particularly public school students, are provided with opportunities to participate in programs and activities to increase awareness of global issues and to address these issues through a variety of activities including meetings and forums.

Comments in support of this measure were submitted by the East-West Center and Redford-McCandless International. The Department of Business, Economic Development, and Tourism submitted comments on this measure.

Your Committee finds that education and awareness are the paths to world peace, sustainability, and productivity for future generations. The youth of the world must develop awareness of the important issues facing our global community and be equipped with the analytical tools to craft solutions. In response to the Millennium Youth People's Congress, held in Hawaii in 1999, the Legislature adopted House Concurrent Resolution No. 151, H.D. 1 (2005), which recognized the need for a Global Youth Center to provide a forum for youth to be educated on and address major global issues and further recognized the role that Hawaii should play in establishing such a center.

Your Committee finds that the creation of a Global Youth Center in Hawaii presents a unique opportunity for developing an international framework for youth from around the world to become actively engaged in shaping a better future for the international community. Hawaii's central location between Asia and the Americas, its cultural diversity, and shared languages provide an excellent forum for the Center's youth to address the needs and concerns of a multitude of diverse political, religious, economic, and socioeconomic views. Your Committee believes that the Global Youth Center will also provide Hawaii students, particularly public school students, opportunities to become more involved in international dialogue and interaction.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount to facilitate further discussion on this measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1177, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1177, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (English, Tsutsui, Whalen).

SCRep. 967 Ways and Means on S.B. No. 1779

The purpose of this measure is to create a task force to evaluate system responses to cases of child sexual assault and exploitation.

Your Committee received comments in support of the measure from the Department of Education and the Sex Abuse Treatment Center of the Kapiolani Medical Center for Women and Children. The Department of Human Services and the Children's Justice Centers of Hawaii (Judiciary) submitted comments on the bill.

Your Committee finds that there is a need to develop a coordinated organized system that can appropriately respond to cases of child sexual assault, exploitation, and associated crimes or issues.

Your Committee finds that convening a task force comprised of law enforcement and social service representatives from federal, state, and county agencies and private, charitable social agencies will assist in providing effective recommendations on system responses to cases of child sexual assault and exploitation.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1779 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 968 Judiciary and Labor on S.B. No. 1802

The purpose of this measure is to amend provisions on confidentiality of records in chapter 334, Hawaii Revised Statutes, Mental Health, Mental Illness, Drug Addiction, and Alcoholism, to authorize a health care provider to disclose information to another health care provider for the purpose of continued care or treatment.

Your Committee received testimony in support of this measure from Hawaii Pacific Health, the Hawaii Psychiatric Medical Association, the Health Association of Hawaii, Kaiser Permanente Hawaii, Phoenix Health Systems, and the Queens Medical Center. The Hawaii Association of Health Plans offered comments.

Your Committee finds that the language in this bill, patterned after Hawaii law that allows providers to transfer information on HIV/AIDS for purposes of continued care and treatment, will enable providers to share necessary and relevant medical information while respecting the patient's dignity and privacy.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1802 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 969 Judiciary and Labor on S.B. No. 675

The purpose of this measure is to propose a constitutional amendment to require the Tax Review Commission to meet every ten years instead of five years.

Your Committee received written comments in support of this measure from the Hawaii Government Employees Association. Written comments in opposition was received from the Department of Taxation. Written comments were received from the Tax Foundation of Hawaii.

Your Committee finds that a five-year interval for the tax review commission to meet, as required in the Hawaii constitution, is too short a time period to fully implement, measure, and analyze their recommendations. Your Committee believes that a ten-year time interval between the convening of a Tax Review Commission is more appropriate.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 675 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 970 Judiciary and Labor on S.B. No. 1346

The purpose of this measure is to restore the statutory provision allowing pre-sentence mental and medical examinations of defendants for the purposes of sentencing.

Your Committee received testimony in support of the bill from the Attorney General's Office and from the Honolulu Prosecutor's Office. The Public Defender's Office opposed the bill.

In 2005, the statutory provision was inadvertently repealed as part of the revisions to section 706-603 of the Hawaii Revised Statutes. This bill restores that provision and allows for the pre-sentence mental or medical examination of defendants as part of the Judiciary pre-sentence investigation process.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1346 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 971 Judiciary and Labor on S.B. No. 1053

The purpose of this measure is to prohibit a county to condemn and transfer private property to a private entity if that private entity expressed interest in purchasing the property for development, commercial purposes, or private use. Exceptions are provided for public utilities, irrigations systems, affordable housing, community developments, and development tracts.

Your Committee received testimony in support of this measure from the Hawaii Association of Realtors and a concerned citizen. The Department of Planning and Permitting of the City and County of Honolulu and the Office of the Corporation Counsel of the County of Hawai'i opposed this measure. The National Federation of Independent Businesses in Hawaii testified in support of the intent of the measure. The Department of the Corporation Counsel of the City and County of Honolulu offered comments and suggested revisions.

Your Committee finds that this measure addresses a concern about overbroad government authority to take property from one private owner and transfer it to another private entity under the guise of urban renewal or economic development.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1053, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Gabbard).

SCRep. 972 Judiciary and Labor on S.B. No. 1279

The purpose of this measure is to provide a property owner an avenue for judicial relief when the public purpose of a proposed condemnation is in question, and to provide a means for those whose property has been taken by eminent domain to repurchase the property if the property has not been used or ceases to be used for the public use stated in the instrument authorizing condemnation.

Your Committee received testimony in support of this measure from the Hawaii Association of Realtors and a concerned individual. The National Federation of Independent Businesses in Hawaii supported the intent of the measure. The Department of Transportation and the Corporation Counsel of the City and County of Honolulu testified in opposition.

Your Committee finds that the power of eminent domain should not be applied casually, for some unspecified future purpose, without due regard to the emotional upheaval suffered by those who lose their property. This measure addresses that concern.

Your Committee notes that in Stand. Com. Rep. No. 194, on this measure, the Committee on Water, Land, Agriculture, and Hawaiian Affairs expressed concerns that references to “condemnation resolution and other legislation or declaration authorizing the declaration” and the event that commences the sixty day notice requirement require further review and clarification. These matters remain to be addressed as this measure proceeds through the legislative process.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1279, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 973 Judiciary and Labor on S.B. No. 663

The purpose of this measure is to authorize administrative inspections of containers used to transport aquatic life, to repeal the probable cause requirement for searches, and to direct the Department of Land and Natural Resources to create an administrative inspection scheme to enable the department to determine compliance with the terms of a license; permit or registration relating to aquatic life.

Your Committee finds that the probable cause requirement has hindered the protection of Hawaii’s ocean resources such as coral, fishes, and other marine life, and that an inspection scheme for regulatory purposes will allow inspections of vessels, containers, coolers, carriers or vehicles owned by the licensee, permittee or registrant to determine compliance. Instances of smuggling of these resources from Hawaii’s ocean should be reduced by an inspection scheme.

Your Committee received testimony in support of this measure from the Ocean Law and Policy Institute and from several private citizens. There was no testimony opposing the bill.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 663, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 974 Judiciary and Labor on S.B. No. 470

The purpose of this measure is to provide for drug testing of public school employees, teachers, public library employees, and all elected officials of the State, counties, Board of Education, and Office of Hawaiian Affairs based on reasonable suspicion.

Your Committee finds that drug abuse is pervasive within our community and affects many occupations. Your Committee is very concerned about the welfare of our young people and the future of our State. Your Committee finds that teachers are role models for their students and should provide an example to emulate. Likewise, elected officials, because of their public profile and visibility should present a role model as leaders of the State. They also make decisions that impact the State and every citizen in the future.

Your Committee recognizes that many of the positions covered by this bill do not fall in the category of occupations that would allow for random drug testing by the State Constitution. Thus, your Committee finds that a reasonable approach to drug testing is the reasonable suspicion standard where testing may occur where there exist facts to suspect one is under the influence of drugs.

Your Committee received testimony from representatives of the Department of Education, Hawaii State Teachers Association, Hawaii Government Employees Association, and the Drug Policy Forum in opposition to the bill. However, upon further questioning, the representative from the Department of Education concurred that the schools should be drug free and the basic objection was that the Department is currently negotiating reasonable suspicion drug testing. In addition, all those in opposition concurred that there is a need for drug testing. Your Committee finds that the children of this State need to be the focus for the necessity of this bill.

Your Committee amended the bill by changing the effective date to July, 2059. The bill was also amended to provide that this Act will take effect if the Hawaii State Teachers Association and the State do not reach an agreement on drug testing in their contract negotiations.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 470, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 470, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Nishihara).

SCRep. 975 Judiciary and Labor on S.B. No. 1398

The purpose of this measure is to update and amend chapter 449, Hawaii Revised Statutes, governing escrow depositories.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Hawaii Escrow & Title, Inc., Integrity Escrow & Title, and Security Title Corporation opposed this measure. The Escrow Association of Hawaii and Guardian Escrow Services, Inc. offered comments. Title Guaranty Escrow Services provided comments and proposed an alternate draft.

Your Committee was informed that the Escrow Association of Hawaii and the Commissioner of Financial Institutions have been working together to develop comprehensive revisions to the Escrow Depository statute, and that further revisions may be proposed as this measure proceeds through the legislative process. Based on testimony presented, your Committee finds it prudent to increase the minimum net capital requirement for an escrow depository, set at \$50,000 in 1973, in light of the value of current real estate escrow transactions in Hawaii. An increase to \$500,000, however, would disproportionately burden smaller escrow companies. Moreover, it appears that an increase in errors and omissions insurance could enhance consumer protection.

Accordingly, your Committee has amended this measure by:

- (1) Increasing the \$50,000 tangible net worth or bond requirement in section 449-5.5, Hawaii Revised Statutes, to \$100,000, instead of \$500,000;
- (2) Amending section 449-12, Hawaii Revised Statutes, by increasing the \$100,000 errors and omissions insurance requirement to \$750,000; and
- (3) Changing the effective date to July 1, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1398, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1398, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 976 Judiciary and Labor on S.B. No. 1414

The purpose of this measure is to enhance the criminal penalties associated with individuals who commit insurance fraud by including felony insurance fraud as one of the felony violations that can increase the sentences of repeat felony offenders.

Your Committee received testimony in support of the bill from the Insurance Commissioner and the Attorney General's Office. The Public Defender opposed the bill.

Your Committee finds that while insurance is often perceived as a non-violent and victimless crime, the ramifications of insurance fraud affect everyone through higher insurance premiums.

Your Committee amended the bill by inserting "(b)(2)" after 432:1-106 on page 3, line 17 of the bill, to clarify that the enhanced sentencing provided under this measure only pertains to the class C felony identified in that section of law. Your Committee also changed the effective date of the bill to July 1, 2059.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1414, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1414, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 977 Judiciary and Labor on S.B. No. 813

The purpose of this measure is to render expressions of sympathy or benevolence made to a patient or to a member of a patient's family inadmissible as evidence of an admission of liability in civil proceedings against a health care provider, or in related arbitration proceedings.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Consumer Lawyers of Hawaii, the Hawaii Medical Association, the Healthcare Association of Hawaii, Kaiser Permanente, and the Queen's Medical Center. The Judiciary Standing Committee on the Rules of Evidence (Standing Committee) testified in support of the intent, but opposed the bill in its present form. The Hawaii Association of Health Plans offered comments.

Several testifiers preferred language in S.B. No. 3279 (2006) on grounds it would protect statements that might be construed as admissions of guilt:

"Rule Apologies; medical care. (a) In any civil action that is brought against a health care provider, as defined in section 671-1, or in any arbitration proceeding that relates to the civil action, any statement, affirmation, gesture, or conduct expressing apology, responsibility, liability, sympathy, commiseration, condolence, compassion, or a general sense of benevolence that:

- (1) Was made by a health care provider to the patient, a relative of the patient, the patient's survivors, or a health care decision maker for the patient; and*
- (2) Relates to the discomfort, pain, suffering, injury, or death of the patient as the result of the unanticipated outcome of medical care is inadmissible as evidence of an admission of liability or as evidence of an admission against interest."*

The Standing Committee, on the other hand, recommended one rule applicable to all tortfeasors, as in S.B. No. 1339 (2007) or H.B. No 1253 (2007), rather than a special rule for health care providers. Your Committee notes that S.B. No. 1339, S.D. 1 (2007) contains language proposed by the Standing Committee.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 2059, to allow continued discussion; and
- (2) Making a technical, nonsubstantive change for clarity.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 813, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 813, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 978 Judiciary and Labor on S.B. No. 17

The purpose of this measure is to prohibit government contracts under \$5,000,000 for design professional services to require the design professional to defend the State against all claims.

Your Committee received testimony in support of this measure from the Small Business Regulatory Review Board, the American Council of Engineering Companies, the American Institute of Architects Hawaii State Council, the Coalition of Hawaii Engineering and Architectural

Professionals, Consulting Structural Hawaii, Inc., Engineering Concepts, Inc., Engineering Solutions, Inc., Finance Insurance, Ltd., Kai Hawaii, Inc., the Limtiaco Consulting Group, Masa Fujioka & Associates, and Shimabukuro, Endo & Yoshizaki, Inc. The Corporation Counsel of the City and County of Honolulu opposed this measure. The Attorney General testified in opposition to this measure and proposed an amendment.

Your Committee finds that many design professionals are small business owners for whom the requirement to defend the State is unduly onerous. This bill allows contracts to require the design professional to indemnify the State and hold the State harmless.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 17, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 17, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 979 Judiciary and Labor on S.B. No. 1603

The purpose of this measure is to extend to June 30, 2010 the automatic repeal dates of Act 190, Session Laws of Hawaii (SLH) 1996, Relating to Public Land Liability, Act 170, SLH 2002, Relating to State and County Tort Liability, and Act 82, SLH 2003, Relating to Public Land Liability.

Act 190 established a process to develop legally adequate warnings at public beach parks. Act 170 provides liability protection for lifeguard services on the beach and in the ocean. Act 82 established a risk assessment group to review warning sign design and placement and to protect the State and counties from liability arising from recreational activities on public lands.

This measure also creates a task force to collect data and examine the effectiveness of Act 190, Act 170, and Act 82.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs and the Consumer Lawyers of Hawaii. The Attorney General, the Department of Land and Natural Resources, the Department of Labor and Industrial Relations State Fire Council, the Honolulu Fire Department, the County of Hawaii, the County of Kauai Fire Department, and a member of the County Council of the County of Maui testified in support of the measure with suggested amendments. The County of Hawaii, The County of Hawaii State Lifeguard Association supported the intent of the measure and suggested amendments. Proposed amendments generally related to whether the sunset provisions should be extended or repealed, and whether the task force should or should not be created.

Your Committee finds it to be in the best interest of the public to continue to provide state and county governments with protection from liability in cases involving public lands, including beach parks and other recreational areas.

Your Committee finds it appropriate to include in this measure S.B. No. 1641 (2007), a Bill for an Act Relating to Counties, another bill that involves government liability that your Committee heard on the same date. S.B. No. 1641 extends the statute of limitations for actions against a county for damage or injury from six months to two years.

Accordingly, your Committee has amended this measure by:

- (1) Retaining the substantive provisions of S.B. No. 1063 S.D. 1 as Part I;
- (2) Adding the substantive provisions of S.B. No. 1641 as a new Part II;
- (3) Including provisions that apply to Parts I and II in a new Part III;
- (4) Making technical, nonsubstantive revisions for clarity and style; and
- (5) Changing the effective date to June 29, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1603, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1603, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 980 Ways and Means on S.B. No. 1388

The purpose of this measure is to appropriate funds for fiscal biennium 2007-2009 to pay for the collective bargaining cost items relating to salary increases and other cost adjustments for officers and employees in collective bargaining unit (9) and their excluded counterparts.

Your Committee received comments in support of the measure from the Judiciary, and the Hawaii Government Employees Association, AFSCME.

Your Committee finds that this measure is a vehicle that must be kept alive in order to make the necessary appropriations upon the resolution of the bargaining process.

Your Committee has amended this measure by including a provision to appropriate funds for the officers and employees of the Hawaii Health Systems Corporation who are the excluded counterparts of the officers and employees of the Hawaii Health Systems Corporation who are members of collective bargaining unit (9). Your Committee has also amended this measure by making numerous technical amendments. Lastly, your Committee has changed the effective date to July 1, 2057 for the purposes of continued discussion of the matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1388, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1388, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Kim, Menor, Hemmings).

SCRep. 981 Ways and Means on S.B. No. 1389

The purpose of this measure is to appropriate funds for fiscal biennium 2007-2009 for salary increases and cost adjustments in the collective bargaining agreement for members of bargaining unit (9) and their excluded counterparts.

Your Committee received comments in support of this measure from the Judiciary and the Hawaii Government Employees Association, AFSCME.

Your Committee finds that this measure is a vehicle that must be kept alive in order to make the necessary appropriations upon resolution of the bargaining process.

Your Committee has amended this measure by including a provision to appropriate funds for the officers and employees of the Hawaii Health Systems Corporation who are the excluded counterparts of the officers and employees of the Hawaii Health Systems Corporation who are members of collective bargaining unit (10).

Your Committee has also amended this measure by making technical amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1389, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1389, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Kim, Menor, Hemmings).

SCRep. 982 Ways and Means on S.B. No. 1391

The purpose of this measure is to appropriate funds for fiscal biennium 2007-2009 to pay for the collective bargaining cost items relating to salary increases and other cost adjustments for officers and employees in collective bargaining unit (13) and their excluded counterparts.

Your Committee received comments in support of the measure from the Judiciary and the Hawaii Government Employees Association, AFSCME.

Your Committee finds that this measure is a vehicle that must be kept alive in order to make the necessary appropriations upon the resolution of the bargaining process.

Your Committee has amended this measure by including a provision to appropriate funds for the officers and employees of the Hawaii Health Systems Corporation who are the excluded counterparts of the officers and employees of the Hawaii Health Systems Corporation who are members of collective bargaining unit (13). Your Committee has also amended this measure by making numerous technical amendments. Lastly, your Committee has changed the effective date to July 1, 2057 for the purposes of continued discussion of the matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1391, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1391, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Kim, Menor, Hemmings).

SCRep. 983 Judiciary and Labor on S.B. No. 1342

The purpose of this measure is to clarify that an appeal to the Tax Appeal Court from a Board of Review decision, or the decision of an equivalent county administrative body, must be served on the Director of Taxation or County Real Property Assessment Division within thirty days of the date of the decision to properly confer jurisdiction over the appeal.

Testimony in support of this measure was received from the Department of Taxation, Department of the State Attorney General, and City and County of Honolulu – Department of Budget and Fiscal Services. Your Committee received no opposing testimony.

Your Committee has amended this measure by delaying the effective date to continue further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1342, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1342, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 984 Ways and Means on S.B. No. 1933

The purpose of this measure is to improve public education in the State, including enhancing academic and fiscal accountability in the department of education.

Specifically, this measure:

- (1) Enhances services and the procurement of learning materials at the school complex level;
- (2) Creates a business service center and an education service center to provide greater support to schools within each complex;
- (3) Supports complex area level professional development training of school community councils;
- (4) Allows schools to purchase business services to ensure best accounting and recordkeeping practices and adequate financial audit preparation;
- (5) Encourages schools to pool resources to achieve objectives in paragraphs (1) to (4);
- (6) Supports specialized high schools linked to Hawaii's workforce development needs;

- (7) Enhances the role of the University of Hawaii in educational research and policy development;
- (8) Creates an early childhood initiative; and
- (9) Improves science and mathematics programs.

Your Committee received supporting comments on this measure from the Governor, the Department of Education who supported parts 2, 3, and 5, the University of Hawaii, the Department of Business, Economic Development, and Tourism, the State Council on Developmental Disabilities, the Center on Disabilities Studies, and a representative from CTA Solutions.

Your Committee finds that recent reconfigurations and improvements to the public school educational system in the past few years have resulted in dramatic changes administratively and academically for administrators, teachers, parents, and especially students. As stakeholders in the educational system strive to improve the quality and delivery of education in the State, your Committee is ever aware of, and sensitive to, the objectives, aspirations, and the needs of the Department of Education and the community-at-large.

This measure represents another major step in the improvement of the public school educational system to address specific needs and objectives of stakeholders in the system.

Your Committee has amended the measure by incorporating relevant provisions of two similarly related bills into this measure, S.B. No. 97, Making an Appropriation for Science Education, and S.B. No. 1267, Relating to Mathematics Education. Your Committee will continue to review and study the proposals made in this measure during the course of the legislative session and has therefore retained or changed appropriations to unspecified amounts. Your Committee has also made technical amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1933, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1933, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 985 Ways and Means on S.B. No. 1676

The purpose of this measure is to authorize the Hawaii Health Systems Corporation to form its own domestic captive insurance company under a five-year pilot project to insure the corporation against medical malpractice and other liabilities.

Furthermore, this measure transfers general funds into the corporation's special fund in order to establish the captive insurance company.

Your Committee received comments in support of the measure from the Hawaii Health Systems Corporation.

Your Committee finds that the Hawaii Health Systems Corporation requires long-term stability in risk financing for insurance. A captive insurance company offers the flexibility to control losses, thereby effectuating savings and eliminating the uncertainty surrounding the insurance market.

Your Committee has amended this measure by:

- (1) Removing the sunset date of the measure and thereby making the captive insurance company authorization permanent and deleting references to a pilot project;
- (2) Including appropriations for fiscal year 2008-2009; and
- (3) Clarifying that the expending agency for the appropriations in both years of the fiscal biennium is the Hawaii Health Systems Corporation.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1676, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1676, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 986 Ways and Means on S.B. No. 1456

The purpose of this measure is to make an emergency appropriation to the Department of Health for the continued operation of the Adult Mental Health Division.

A mental health advocate and member of the federal government's Substance Abuse & Mental Health Services Administration's Subcommittee on Consumer/Survivor Issues for the National Advisory Council submitted comments in support of the bill.

Your Committee finds that the Adult Mental Health Division cannot fully comply with its obligations because of a lack of funding.

Your Committee has amended the bill to:

- (1) Change the amount of the emergency appropriation to \$7,542,043; and
- (2) Comply with the requirements of section 9 of article VII of the Constitution of the State of Hawaii, by inserting a new section 5 which states that the appropriation in this bill will cause the general fund expenditure ceiling to be exceeded by \$7,542,043, or an additional 0.141 per cent. As required by section 37-93, Hawaii Revised Statutes, the new section of this Act also sets forth the reasons for exceeding the general fund expenditure ceiling for fiscal year 2006-2007.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1456, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1456, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 987 Ways and Means on S.B. No. 1459

The purpose of this measure is to make an emergency appropriation to the Department of Health for early intervention services for children age zero to three years with a developmental delay or biological or environmental risk.

The Department of Health, State Council on Developmental Disabilities, Center on Disability Studies, and the Hawaii Chapter, American Physical Therapy Association submitted comments in support of this measure.

Your Committee finds that due to an increased number of children referred for early intervention services, the Department of Health has had to carry out its federal and state obligations by expanding its purchase-of-service programs, resulting in increased costs to evaluate and serve additional children as required.

Your Committee has amended this measure to:

- (1) Change the amount of the appropriation to \$4,419,644; and
- (2) Comply with the requirements of section 9 of article VII of the Constitution of the State of Hawaii, by inserting a new section 5 which states that the appropriation in this bill will cause the general fund expenditure ceiling to be exceeded by \$4,419,644, or an additional 0.082 per cent. As required by section 37-93, Hawaii Revised Statutes, the new section of this Act also sets forth the reasons for exceeding the general fund expenditure ceiling for fiscal year 2006-2007.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1459, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1459, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 988 Ways and Means on S.B. No. 1260

The purpose of this measure is to make an emergency appropriation to enable Kahuku Hospital to continue operating on the north shore of Oahu.

Specifically, this measure appropriates \$950,000 as a grant, pursuant to chapter 42F, Hawaii Revised Statutes, to Kahuku Hospital to enable it to continue operations; preserve its hospital license; retain its certificate of need and critical access hospital designation; reorganize; and settle its debts to allow Kahuku Hospital to be acquired by the Hawaii health systems corporation or become affiliated with the Hawaii health systems corporation.

Your Committee received comments in support of this measure from Kahuku Hospital, Hawaii Reserves, Inc., Brigham Young University at Hawaii, Polynesian Cultural Center, American Council of Life Insurers, Koolau Loa Neighborhood Board, and thirty-seven individuals.

Your Committee has amended this bill to comply with the requirements of section 9 of article VII of the Constitution of the State of Hawaii, by inserting a new section 4 which states that the appropriation in this bill will cause the general fund expenditure ceiling to be exceeded by \$950,000, or an additional 0.018 per cent. As required by section 37-93, Hawaii Revised Statutes, the new section of this Act also sets forth the reasons for exceeding the general fund expenditure ceiling for fiscal year 2006-2007.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1260, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1260, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 989 Ways and Means on S.B. No. 1182

The purpose of this measure is to assist social security recipients who reside in certain institutional care settings with personal expenditures.

Specifically, this measure establishes a needs allowance of \$50 monthly for residents of care homes and long-term care facilities, to be increased annually in an amount equal to the Social Security income benefit increase. This measure also exempts from the income tax law and the general excise tax the monthly needs allowance received indirectly by a facility operator on behalf of an individual resident of a qualified facility or directly by an individual resident of a qualified facility.

Your Committee received comments in support of this measure from the Department of Human Services, University of Hawaii School of Social Work, Maui County Office on Aging, National Association of Social Workers, Services for Seniors, and seventy-two individuals.

Your Committee believes that the establishment of a needs allowance indexed to future Social Security income benefit increases constitutes a significant step in assisting elderly residents residing in certain institutional care settings.

Your Committee has amended this measure by clarifying that the needs allowance may be spent on behalf of the client by the operator of the residence or facility in which the client resides. Your Committee has also made technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1182, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1182, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 990 Ways and Means on S.B. No. 1918

The purpose of this measure is to expand health care coverage for children in Hawaii.

Specifically, this measure will:

- (1) Provide continuous, quality health care services to uninsured newborn children between one and thirty-one days of age;
- (2) Provide health care coverage to certain children between thirty-one days to eighteen years old through a public-private partnership between the Department of Human Services and a managed care plan;
- (3) Provide access to free medical care for certain children nineteen years of age or younger whose family income is at or below three hundred per cent of the federal poverty level;
- (4) Provide medical assistance under QUEST-Net at no charge to children nineteen years or younger whose family income is at or above two hundred fifty per cent and does not exceed three hundred per cent of the federal poverty level for Hawaii and who are otherwise eligible for QUEST-Net benefits; and
- (5) Provide funding.

Hawaii Medical Services Association, Hawaii Pacific Health, and Hawaii Family Forum submitted comments in support of this measure. The Department of Budget and Finance submitted comments in opposition to this measure. The Attorney General, Hawaii Primary Care Association, and the Department of Human Services submitted comments on this measure.

Your Committee finds that there is a gap group of uninsured children in the State that is not eligible for any type of state or federal health care coverage. Your Committee further finds that children that remain uninsured typically do not receive an appropriate level of medical care. The State has an opportunity to help provide health care coverage for children in this gap group by creating partnerships with private health care insurers and equally dividing the costs of healthcare services.

Your Committee has concerns about language in the bill that requires the Department of Human Services to contract with a private health care provider to create a "dollar for dollar matching funds, public-private partnership" to provide health care services to children that require services exceeding the \$10,000 threshold. In addition, your Committee finds it unnecessary to create the Hawaii infant care special fund. Rather, your Committee finds it more efficient to fund the Hawaii infant care program through appropriations from the general fund.

It is your Committee's intent to expand health care coverage for children in Hawaii. Accordingly, your Committee has amended this measure by:

- (1) Replacing the Hawaii infant care special fund in section 2 with the Hawaii infant care program and funding this program with unspecified appropriations from the general fund;
- (2) Specifying the scope of services available to infants under the Hawaii infant care program as the same services available under QUEST;
- (3) Requiring the Department of Human Services, not the Department of Health, to reimburse providers for services under the Hawaii infant care program;
- (4) Removing previous sections 3 and 4, relating to the administration of special funds;
- (5) Adding language to section 3 that specifies that the Hawaii children's health care program is a three-year pilot program;
- (6) Adding language to section 3 that specifies that the Department of Human Services shall ensure that private organizations have the opportunity to participate in the Hawaii children's health care program, provided that they offer benefits equal to those available from a managed care plan licensed in the State;
- (7) Deleting section 8, which makes an appropriation to the Hawaii infant care special fund;
- (8) Changing the sums appropriated to unspecified amounts to facilitate further discussion on this measure;
- (9) Renumbering all remaining sections consecutively; and
- (10) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1918, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1918, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 991 Ways and Means on S.B. No. 1431

The purpose of this measure is to make an emergency appropriation for emergency relief operations throughout the State as a result of the October 15, 2006, Kiholo Bay earthquake disaster.

Specifically, this measure makes appropriations to:

- (1) Cover the costs of statewide response and recovery efforts to repair damaged public and private structures and transportation, utility, and irrigation infrastructure, including the cost of national guard personnel on state active duty;
- (2) Cover the required twenty-five per cent cost share for the Federal Emergency Management Agency's public assistance program;
- (3) Upgrade state and county warning systems;
- (4) Hire consultants to survey alternate sources of irrigation water and develop plans to protect sources and distribution of irrigation water on the island of Hawaii; and
- (5) Provide financial assistance to critical facilities, including public schools, hospitals, and nursing facilities for structural and non-structural mitigation projects.

Your Committee received comments in support of this measure from the state Judiciary, the Department of Education, the Department of Civil Defense, the Mayor of Hawaii county, and the Daughters of Hawaii.

Your Committee is in agreement that many of the residents of this State are in need of immediate financial assistance to remedy the devastation suffered due to the Kiholo Bay earthquake and that an immediate emergency appropriation to provide that financial aid is in the public interest and ensures the public's health, safety, and welfare.

Your Committee has amended this measure by:

- (1) Changing the source of funds for the Kiholo Bay earthquake disaster recovery projects, including the twenty-five per cent state cost share to be eligible for Federal Emergency Management Agency assistance, from the general fund to the emergency and budget reserve fund;
- (2) Requiring that any reimbursements the State receives from the Federal Emergency Management Agency be redeposited into the emergency and budget reserve fund; and
- (3) Complying with the requirements of section 9 of article VII of the Constitution of the State of Hawaii, by inserting a new section 7 which states that the appropriation in this bill will cause the general fund expenditure ceiling to be exceeded by \$900,000, or an additional 0.017 per cent. As required by section 37-93, Hawaii Revised Statutes, the new section of this Act also sets forth the reasons for exceeding the general fund expenditure ceiling for fiscal year 2006-2007.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1431, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1431, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 992 Ways and Means on S.B. No. 1500

The purpose of this measure is to make an emergency appropriation of \$4,500,000, for fiscal year 2006-2007 to the Department of Taxation to reimburse it for costs incurred in implementing and administering the county surcharge on the general excise tax, including the costs of the computer vendor.

Your Committee received comments in support of this measure from the Department of Taxation and the City and County of Honolulu Department of Budget and Fiscal Services.

Your Committee has amended this measure to:

- (1) Comply with the requirements of section 9 of article VII of the Constitution of the State of Hawaii, by inserting a new section 5 which states that the appropriation in this bill will cause the general fund expenditure ceiling to be exceeded by \$4,500,000, or an additional 0.084 per cent. As required by section 37-93, Hawaii Revised Statutes, the new section of this Act also sets forth the reasons for exceeding the general fund expenditure ceiling for fiscal year 2006-2007; and
- (2) Make technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1500, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1500, S.D. 3.

Signed by the Chair on behalf of the Committee. Ayes, 9. Ayes with Reservations, 1 (Whalen). Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 993 Ways and Means on S.B. No. 932

The purpose of this measure is to establish a comprehensive incarcerated offender reentry system to help adult offenders prepare for release and reintegration back into the community, including a full continuum of services accessible to the offender after release from incarceration.

More specifically, this measure:

- (1) Requires the Department of Public Safety to establish model programs, subject to funding by the Legislature, designed to reduce recidivism and promote successful reentry into the community;
- (2) Requires the Director of Human Services and the Director of Public Safety to establish policies and practices that address the needs of families in which a parent is incarcerated and requires the Director of Public Safety to conduct research on the impact of a parent's incarceration on the well-being of the offender's children;
- (3) Requires the Director of Labor and Industrial Relations to take steps to enhance the employability of ex-offenders and requires the Director of Public Safety, with the assistance of the Department of Taxation and the Department of Labor and Industrial Relations, to develop and propose tax incentives for hiring ex-offenders;
- (4) Requires the Director of Public Safety to return out-of-state inmates one year prior to their scheduled release in order to participate in the reentry system;
- (5) Permits the Director of Public Safety to establish a full-time reentry specialist position to ensure that offenders have access to reentry programming within all state facilities, monitor all state contracted reentry programs, and facilitate parent-child relationships in the context of correctional facility governance;
- (6) Establishes the Offender Reentry Programs and Services Stakeholders Committee, the purpose of which shall be to monitor and review reentry programs and make recommendations to the Department of Public Safety and the Legislature;
- (7) Authorizes the Director of Public Safety to award grants, in accordance with chapter 42F, for adult offender reentry demonstration projects that establish or improve the offender reentry system for which each adult offender in state correctional custody is provided an individualized reentry plan; and
- (8) Appropriates an unspecified amount of general funds for both fiscal years 2007-2008 and 2008-2009 to be expended by the Department of Public Safety for the planning, development, implementation, and expansion of the comprehensive reentry system.

Your Committee received comments in support of this measure from the American Civil Liberties Union of Hawaii, the Community Alliance on Prisons, the Drug Policy Forum of Hawaii, Maui Economic Opportunity, Inc., and a private citizen. The Attorney General submitted comments.

Your Committee finds that preparing incarcerated persons for reentry into the community is essential to their successful rehabilitation and for the prevention of recidivism. A system that ensures offenders exiting our prisons have acquired the skills and treatment necessary to reenter the community as law-abiding citizens will enhance public safety. Preparation for reentry must include not only educational programs, but also life skills development workshops, including budgeting, nutrition, exercise, substance abuse treatment, parenting, and job skills.

Your Committee further finds that a comprehensive reentry program will be cost-effective since the cost of incarceration greatly outweighs the cost of preparing incarcerated offenders to become productive members of society. Furthermore, research has shown that continuing treatment through a comprehensive reentry program as proposed by this measure is necessary to ensure that released offenders have the support they need to be successful.

Your Committee has amended this measure by incorporating the contents of S.B. No. 910, S.D. 1, S.B. No. 912, S.B. No. 913, S.D. 1, S.B. No. 672, and S.B. No. 855. Accordingly, the resulting omnibus bill now also:

- (1) Appropriates an unspecified amount of funds to establish a two year pilot day reporting center program in the Department of Public Safety. The day reporting center will be available to serve two hundred offenders with six months to one year remaining on their sentences. Offenders assigned to the day reporting center will live at home, but be required to report to the center for training, supervision, counseling, and other skills development programs as deemed necessary. The Director of Public Safety will be required to submit a written report on the pilot program to the Legislature prior to the start of the 2009 Regular Session;
- (2) Appropriates an unspecified amount of funds to expand the restorative circles pilot program to correctional facilities statewide. The restorative circles program is voluntary and only open to offenders who want to reconcile with their victims and victims who want to participate. The program brings the offender together with the victim with the guidance of an impartial, trained, and experienced community leader and the supporters of the offender and the victim. Each restorative circle lasts approximately three hours, with half the time devoted to reconciliation and the other half to developing a transition plan;
- (3) Permits the Hawaii Paroling Authority to parole committed persons to the county in the State where the committed person has the greatest family or community support, opportunities for employment, job training, education, treatment, and other social services. This will allow the Hawaii paroling authority to provide meaningful opportunities for offenders to reintegrate into society and demonstrate that they have the potential to function as law-abiding citizens;
- (4) Appropriates an unspecified amount of funds for a grant to the Maui Economic Opportunity, Inc., to expand reintegration programs for offenders exiting state correctional facilities and reduce the rate of recidivism. Maui Economic Opportunity, Inc., is a nationally recognized project that involves the offenders' families, community, and the cultural values of Native Hawaiians in providing a seamless continuum of care, training, and treatment. The program has dramatically and effectively reduced the recidivism rate of the offenders who successfully complete the program;
- (5) Appropriates an unspecified amount of funds for a cognitive restructuring and transition pilot program to be established at the Kulani Correctional Facility, Hawaii Community Correctional Center, and the Hale Nani Reintegration Center. Cognitive restructuring has proven to be an effective means for treating substance abuse and helping released offenders find and maintain employment.

Your Committee has also amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 932, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 932, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, 4 (English, Kim, Hemmings, Whalen).

SCRep. 994 Ways and Means on S.B. No. 1191

The purpose of this measure is to appropriate funds to the Department of Transportation to conduct a study to identify intersections where the time to cross the intersection is insufficient for elderly pedestrians, and to develop additional plans to make crosswalks and roadways safer.

Your Committee received written comments in support of this measure from the Department of Transportation, Department of Health, AARP Hawaii, Ke Ala Hele Makalae/Kauai Coastal Path, the Policy Advisory Board for Elder Affairs, and the Hawaii Bicycling League.

Your Committee finds that making Hawaii's roadways safer for pedestrians is consistent with Kamehameha's famous law, Ke Kanawai Mamalahoe, the law of the splintered paddle, now in Article IX of the State Constitution. Ke Kanawai Mamalahoe ensures every man, woman, and child is able to travel freely and in peace, with the right "to lie down to sleep by the roadside without fear of harm."

Your Committee amended this measure to allow the Department of Transportation in conjunction with nonprofit organizations and the counties to:

- (1) Take immediate action steps to make crosswalks and roadways safe; and
- (2) Conduct a statewide study to identify intersections where the time to cross the intersection is insufficient for elderly pedestrians, and to develop additional plans to make crosswalks and roadways safe.

Your Committee further amended this measure to provide unspecified appropriations in each year of the 2007-2009 fiscal biennium for traffic countdown timers, a public awareness campaign, and pilot safety measures such as pedestrian activated signals, the painting of advanced crosswalk markings, hand-carried signs and flags, enforcement of crosswalk laws for drivers and pedestrians, and to provide grants-in-aid to the counties for traffic countdown timers. The grants-in-aid are to be supported by a dollar-for-dollar match from the counties. Your Committee deleted the amount allotted for the statewide crosswalk safety and improvement study, leaving it unspecified for further discussion. Technical, nonsubstantive changes have also been made for the purposes of clarity and style.

It is your Committee's expectation that the Department of Transportation will work in collaboration with the AARP and the counties for the purposes of fulfilling this Act.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1191, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1191, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 995 Ways and Means on S.B. No. 1677

The purpose of this measure is to enhance traffic flow on the island of Maui by appropriating funds for the design of a Maui traffic control center.

Maui Land and Pineapple Company submitted comments in support of this measure. The Department of Transportation submitted comments in opposition to this measure.

Your Committee finds that traffic is routinely backlogged across Maui during morning and afternoon rush hours as a result of roadway maintenance, traffic accidents, or special events. A traffic control center on Maui would inform drivers about the roads, intersections, and possible delays along their route. This would improve traffic, reduce traffic congestion, maximize traffic flow, and enhance public safety.

Your Committee finds that an intelligent transportation system applies communications and information technology to provide solutions to traffic congestion and traffic control issues. A successful intelligent transportation system contains a traffic control center as a key component of the system.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the appropriation is for the development and implementation of an intelligent transportation system architectural plan on Maui, that includes a traffic control center; and
- (2) Making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1677, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1677, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 996 Ways and Means on S.B. No. 890

The purpose of this measure is to reduce the State's dependency on fossil fuels.

Specifically, this measure appropriates moneys to develop comprehensive agricultural management practices to facilitate the sustainable production of clean energy crops through the long-term enhancement of soil quality using ecologically sustainable means.

Comments in support of this measure were submitted by the University of Hawai'i System, Hawaiian Mahogany, Inc., Joule Junction, LLC, and Kauai County Farm Bureau.

Your Committee finds that this measure provides an opportunity to develop solutions to resolve Hawaii's dependence on fossil fuels for fertilizer and energy through the utilization of charcoal produced locally from biomass as a permanent soil additive. It is possible that through the production process of biomass-derived charcoal for soil nutrient enhancement purposes, positive net energy may be produced to satisfy community electrical needs while at the same time reduce carbon dioxide levels in the atmosphere. If no action is taken to reduce greenhouse emissions, the concentration of these gases in the atmosphere will negatively impact Hawaii's, as well as the rest of the world's, economy and ecosystems.

Concern over Hawaii's dependence on fossil fuels to satisfy its agriculture and energy needs has grown rapidly over the past few years. The State's dependence on fossil fuel is compounded by the fact that the Hawaiian Islands have heavily leached soils with very low nutrient content and almost no potassium or phosphorus available for potential uptake by vegetation or agricultural crops. Agricultural crop yields for use as food and clean energy feedstocks are strongly dependent on sufficient levels of available nutrients for plant uptake.

Unfortunately, American agriculture has become as dependent on the Middle East for fertilizer as the rest of American industry has become for energy. Farmers need safe energy, clean air, and quality soil and water in order to continue feeding our communities. Thousands of years ago, many agrarian cultures understood the value of enriching soil fertility with charcoal (carbon). Some of the greatest leaps forward in agricultural science have come from re-introducing the use of historical practices. Many of the answers for the future come from our past, and your Committee finds that this ancient technique of soil enrichment deserves further exploration.

Your Committee finds that this measure provides for the development of critical sustainable agriculture strategies and a training program to facilitate both food and energy production while reducing greenhouse gas levels and increasing state employment. This measure will support local farmers and provide for a potential alternative crop, thereby reducing Hawaii's dependence on off-island energy providers.

Accordingly, your Committee has amended this measure by:

- (1) Changing the amounts of the appropriations in sections 3 and 4 to unspecified amounts to facilitate further discussion; and,
- (2) Making technical nonsubstantive amendments for the purpose of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 890, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 890, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 997 Ways and Means on S.B. No. 1923

The purpose of this measure is to require the prior approval of the Legislature for the exchange of any public lands.

Specifically, this measure will require the prior legislative approval of the exchange of lands controlled by the Department of Land and Natural Resources and other departments, agencies, and entities, included but not limited to the Department of Agriculture, University of Hawaii, Hawaii Community Development Authority, and Aloha Tower Development Corporation.

Your Committee has received comments from the Department of Land and Natural Resources, Department of Transportation, and Hawaiian Homes Commission in opposition to this measure. The Attorney General submitted comments.

This measure will require the prior approval by two-thirds majority of each house of the Legislature of any proposed land exchanges of lands owned or controlled by state departments and agency for privately held lands. This measure will ensure that any land exchanges involving public lands will be for a public purpose and in the best interest of the State.

Your Committee notes that section 171-50, Hawaii Revised Statutes, deals with the exchange of public lands controlled by the Department of Land and Natural Resources and that the language contained in this measure may conflict with section 171-50, Hawaii Revised Statutes, particularly with subsection (c) that provides for the legislative disapproval of any land exchange proposed by the Department of Land and Natural Resources.

Accordingly, your Committee has amended this measure by changing its effective date to allow further discussion on this measure. Your Committee has further made technical nonsubstantive changes for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1923, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1923, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Ayes with Reservations, 1 (Whalen). Noes, none. Excused, 1 (Hemmings).

SCRep. 998 Ways and Means on S.B. No. 1924

The purpose of this measure is to require the prior approval of the Legislature for any sale of public lands.

Specifically, this measure will require the prior legislative approval of the sale of lands controlled by the Department of Land and Natural Resources, and other departments, agencies, and entities, including but not limited to the Department of Agriculture, University of Hawaii, Hawaii Community Development Corporation, and Aloha Tower Development.

Your Committee received comments in support of this measure from the State Council of Hawaiian Homestead Associations and a private citizen and comments in opposition to this measure from the Department of Land and Natural Resources, Department of Transportation, and Hawaii Housing Finance and Development Corporation. The Office of Hawaiian Affairs submitted comments.

This measure requires the prior approval by a two-thirds majority of each house of the Legislature for the sale of any public lands owned or controlled by any state department or agency. This measure will ensure that the sale of any public lands will be for a public purpose and in the best interest of the State.

Your Committee has amended this measure by:

- (1) Amending section 171-13, Hawaii Revised Statutes, relating to dispositions of public lands to reference the new section proposed by this measure;
- (2) Changing its effective date to allow further discussion on this measure; and
- (3) Making technical nonsubstantive changes for purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1924, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1924, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Ayes with Reservations, 1 (Whalen). Noes, none. Excused, 1 (Hemmings).

SCRep. 999 Ways and Means on S.B. No. 1644

The purpose of this measure is to mitigate the adverse effects of the March 2006, mudslides on the residents of Maunalaha, Oahu.

The measure accomplishes this purpose by:

- (1) Establishing a Maunalaha Infrastructure Development Special Fund and a Maunalaha Housing Revolving Fund to assist Maunalaha residents in rebuilding their homes; and
- (2) Authorizing the Department of Land and Natural Resources to transfer leases at Maunalaha, Oahu, in the event of damage due to adverse acts of nature that occurred between January 1 and April 1, 2006.

This measure also appropriates an unspecified amount for lease transfer costs for fiscal year 2007-2008, appropriates an unspecified amount to the Maunalaha Infrastructure Development Special Fund for fiscal year 2007-2008, and requires a report to the 2008 Legislature regarding any lease transfers made.

Written testimony in support of this measure was submitted by the Department of Land and Natural Resources, the Hawaii Housing Finance and Development Corporation, the Maunalaha Valley Community Association, and two individuals. Written testimony in opposition to this measure was submitted by the Department of Budget and Finance. The Tax Foundation of Hawaii submitted written comments.

Your Committee finds that in March 2006, record-breaking heavy rains on Oahu caused recurring mudslides in the Round Top-Tantalus area. Within a half an hour, an entire section of the hillside was gone – what was once a slope became a gorge in minutes. While many of the

immediate needs of the Maunaloa residents were met in the days and weeks following the flooding, the landslides created unstable conditions for some of the lessees, making repairs and rebuilding difficult, if not impossible.

Your Committee further finds that the lessees of Maunaloa Valley have resided there for many decades, and the leases executed under Act 225, Session Laws of Hawaii 1981, as amended by Act 40, Session Laws of Hawaii 1982, are intended to meet a moral obligation to provide long-term stability and land tenure for these families.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1644, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1644, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1000 Ways and Means on S.B. No. 162

The purpose of this measure is to exempt the funds received by Iolani Palace from statutory standards and conditions related to grants and subsidies.

Your Committee received comments in support of the measure from the Friends of Iolani Palace. Comments in opposition to the measure were received from the Department of Land and Natural Resources. The Office of Hawaiian Affairs submitted comments.

Your Committee has amended this measure by inserting the official designation of the Friends of Iolani Palace as the State of Hawaii Museum of Monarchy History and specifying that qualifying standards and conditions for grants and subsidies in chapter 42F, Hawaii Revised Statutes, do not apply to funds received by the State of Hawaii Museum of Monarchy History. Your Committee has also made technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 162, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 162, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 1001 Ways and Means on S.B. No. 1458

The purpose of this measure is to make an emergency appropriation to the Department of Health for emergency medical services for the fiscal period beginning July 1, 2006, and ending June 30, 2007.

The Department of Defense and the Healthcare Association of Hawaii submitted comments in support of this measure.

Your Committee finds that aeromedical services constitute a critical component of Hawaii's continuum of health care.

Your Committee further finds that this emergency appropriation is necessary to cover the reimbursement costs for aeromedical services that were previously provided by the United States Army, but are now being provided by the Hawaii Army National Guard.

Your Committee has amended this measure to:

- (1) Change the appropriation amount to \$439,684;
- (2) Comply with the requirements of section 9 of article VII of the Constitution of the State of Hawaii, by inserting a new section 5 which states that the appropriation in this bill will cause the general fund expenditure ceiling to be exceeded by \$439,684, or an additional 0.008 per cent. As required by section 37-93, Hawaii Revised Statutes, the new section of this Act also sets forth the reasons for exceeding the general fund expenditure ceiling for fiscal year 2006-2007.
- (3) Specify the additional amount and percentage by which the appropriation contained in this bill will exceed the expenditure ceiling for fiscal year 2006-2007.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1458, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1458, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 1002 Ways and Means on S.B. No. 1284

The purpose of this measure is to enable the Employees' Retirement System to become fully funded.

Specifically, effective 2008-2009, this measure increases employers' contributions to the Employees' Retirement System. This measure also authorizes the Board of Trustees of the Employees' Retirement System to set salary scale assumptions based upon recommendations from the actuary. Finally, this measure repeals the provision allowing the employer contribution rate to be reduced if the period required to amortize the unfunded actuarial liability falls below twenty-five years.

Your Committee received comments in support of this measure from the Department of Budget and Finance.

Your Committee finds that this measure will result in the Employees' Retirement System becoming fully funded based upon current benefits. However, if future legislatures grant additional benefits, which can include allowing earlier retirements, the amount of time to reach full funding will be changed.

Upon further consideration, your Committee has amended this measure by:

- (1) Adding a new section 1 explaining that the purpose of this measure is to establish a policy framework to enable the Employees' Retirement System to eventually eliminate its \$5,100,000,000 unfunded liability over a reasonable length of time of approximately

twenty-nine years while noting that the results depend on several factors, including stability in the level of benefits received by current and former employees and that if future legislatures grant additional benefits, (which includes earlier retirements) the time it will take for the Employees' Retirement System to become fully funded will be lengthened. The remaining sections of the bill are renumbered accordingly; and

- (2) Making technical nonsubstantive amendments for the purposes of consistency and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1284, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1284, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Kim, Menor, Hemmings).

SCRep. 1003 Judiciary and Labor on S.B. No. 1528

The purpose of this measure is to clarify that all traffic infractions under the statewide traffic code are treated as traffic violations and not criminal offenses.

Your Committee received testimony in support of this bill from the Judiciary. There was no opposition to this bill.

Your Committee finds that this bill would affirm what Hawai'i case law has held, that traffic infractions are not criminal in nature, and therefore should be treated under regulatory and not criminal proceedings.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1528 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1004 Judiciary and Labor on S.B. No. 946

The purpose of this measure is to allow a person whose driver's license has been revoked for life to reapply and be reissued a new driver's license.

Your Committee received testimony in support from Mothers Against Drunk Driving, the Public Defender's Office, and a private attorney. Testimony in opposition was received from the Honolulu Prosecutor's Office and the Honolulu Police Department. The Judiciary took no position on the bill.

This bill would allow for reinstatement of driving privileges after ten years has passed, with certification that the person is no longer in need of substance abuse treatment, and the person complies with specific application requirements.

Your Committee amended the measure by removing the provision for the reissuance of lifetime revocation. In light of the importance of driving in today's society, your Committee believes that a lifetime prohibition without an opportunity to ever drive again is too severe a penalty for the crime of driving under the influence of intoxicants. Your Committee also amended the effective date to July 1, 2007 since the Administrative Drivers License Revocation Office currently restores licenses routinely.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 946, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 946, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Gabbard). Noes, none. Excused, 1 (Inouye).

SCRep. 1005 Judiciary and Labor on S.B. No. 1161

The purpose of this measure is to require the Department of Human Services to provide a written report to the court, which the court must then provide to the parties two days prior to a hearing in a case where there are allegations of domestic abuse.

Your Committee received testimony in support of the bill from the Department of Human Services. The Judiciary and Legal Aid Society of Hawaii took no position on the bill but offered comments.

Your Committee finds that requiring the court to provide a report to the parties on the disposition on the referral forty eight hours prior to the hearing. Accordingly, your Committee amended the bill to provide that written or oral disposition be provided two days prior to the hearing if possible. Your Committee also amended the bill to provide that the report of the disposition be noted on the court order.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1161, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1161, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 1006 Judiciary and Labor on S.B. No. 1636

The purpose of this measure is to broaden the definition of "substance abuse on-site screening test" to include tests used for forensic testing as a workplace testing device and approved by the Director of Health.

This bill also provides that if there is no United States Food and Drug Administration (FDA) package insert, the screening test may be conducted in accordance with the package insert that accompanies the substance abuse test that is manufactured in a facility licensed by the FDA.

Your Committee received testimony in support of the bill from Ralph Inouye Co., Building Industry Association Hawaii, S & M Sakamoto, Inc., Kapolei Property Development LLC, Hawaii Carpenters Union, Local 745, and Hidano Construction, Inc. The Department of Health opposed the bill.

Your Committee took some of the recommendations of the Department of Health and amended the bill authorizing employers to drug test applicants and unions to drug test members and allowed for the manufacturers to apply to the Department of Health for interim approval while pursuing FDA approval.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1636, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1636, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1007 Judiciary and Labor on S.B. No. 1891

The purpose of this measure is to make a violation of chapter 171, Hawaii Revised Statutes, a petty misdemeanor.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and twelve private citizens.

Your Committee has amended this measure by:

- (1) Increasing the minimum fine for a first offense from \$100 to \$500;
- (2) Increasing the minimum fine for a second offense within five years of a previous conviction for the same offense from \$500 to \$1,000; and
- (3) Increasing the minimum fine for a third or subsequent offense within five years of a second conviction from \$1000 to \$2000.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1891, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1891, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Nishihara).

SCRep. 1008 Ways and Means on S.B. No. 1932

The purpose of this measure is to provide safe and well maintained educational facilities for students in our public schools and the University of Hawaii.

Specifically, the measure:

- (1) Appropriates general revenues and authorizes the issuance of general obligation bonds for repair and maintenance projects at the Department of Education and the University of Hawaii;
- (2) Appropriates funds for land and facilities for early childhood education programs;
- (3) Requires the Department of Education to prepare suitable empty classrooms to be used for early childhood education programs; and
- (4) Requires the Department of Education to inspect early childhood education facilities at least annually to ensure safe and clean facilities.

The University of Hawaii submitted comments in support of this measure and the Department of Education offered comments in support of Part I.

Your Committee finds that there is an estimated backlog of \$341,000,000 in repair and maintenance projects at the Department of Education and an estimated backlog of \$165,000,000 at the University of Hawaii.

Additionally, your Committee finds that there is a great need for additional early childhood education facilities and efforts should be made to meet the demand for early childhood education programs.

Your Committee has amended this measure by:

- (1) Requiring that the proceeds of bonds issued under section 3 of this bill be deposited into the state educational facilities special fund, and adding a new section to appropriate moneys out of the special fund for department of education repair and maintenance projects;
- (2) Requiring the Department of Human Services, which already conducts inspections of early childhood education facilities, to report that information to the Department of Education, thereby preventing duplicative inspection efforts.
- (3) Adding a severability clause to ensure the validity of other sections of the bill should any section be held invalid for any reason;
- (4) Changing the sums appropriated to unspecified amounts to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1932, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1932, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Hemmings).

SCRep. 1009 Ways and Means on S.B. No. 707

The purpose of this measure is to provide a new markets tax credit of one hundred per cent of the amount paid to a qualified community development entity located in Hawaii for a qualified equity investment, and to require the taxpayer to have received an allowance of credit under section 45D of the Internal Revenue Code, the federal new markets tax credit.

The Department of Taxation; Hawaii Science & Technology Council; Chun, Kerr, Dodd, Beaman & Wong; KUD International LLC and Phase 3 Properties; and the Tax Foundation of Hawaii provided written comments on this measure.

Your Committee finds that this measure would allow the State to benefit from the success of the federal new market tax credit program by leveraging the federal program infrastructure to channel investments towards economic development in Hawaii. In addition, it has the potential to attract capital from outside the State, to the benefit of local development activities.

Your Committee has amended this measure by:

- (1) Clarifying that the investment shall be made through a qualified community development entity that has received an allocation of credit under section 45D of the Internal Revenue Code; and
- (2) Making technical amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 707, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 707, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1010 Ways and Means on S.B. No. 1365

The purpose of this measure is to:

- (1) Require the Employees' Retirement System to have \$100,000,000 allocated for Hawaii venture capital investments, unless it is not prudent to do so; and
- (2) Appropriate funds to the University of Hawaii Office of Technology Transfer and Economic Development to enter into a partnership with a private sector entity.

The Employees' Retirement System (ERS), Economic Development Alliance of Hawaii, Applied Marine Solutions, Oceanit, and three individuals provided written comments on this measure.

Your Committee finds that increasing opportunities for Hawaii companies to attract venture capital is often critical to their survival and is certainly a strong contributing factor in successfully building a business. Your Committee has heard the concerns of the ERS, but believes that there is enough agreement by all parties on the importance of diversification and building economic sustainability in Hawaii.

Your Committee has amended this measure for the purposes of continuing the discussion between the Legislature and the ERS, by:

- (1) Requiring the ERS to consider Hawaii venture capital investment opportunities, unless it is not prudent to do so; and
- (2) Specifying that the ERS system shall allocate an undesignated percentage of funds for Hawaii venture capital investments, unless it is not prudent to do so.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1365, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1365, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1011 Ways and Means on S.B. No. 644

The purpose of this measure is to require the installation of solar energy or comparable renewable energy devices to heat water in the construction of every new residential single-family residence, condominium, and townhouse, beginning January 1 of an unspecified year.

This measure also increases the tax credit for the installation of solar thermal energy systems in residential properties.

Your Committee received written comments in support of this measure from the Hawaiian Electric Company; Sierra Club Hawai'i Chapter; ProActive Chiropractic, LLC; and four individuals. Written comments in opposition were received from The Gas Company and Hawaii Solar Energy Association. Written comments were received from the Department of Taxation; Department of Business, Economic Development, and Tourism; and the Tax Foundation of Hawaii.

Your Committee finds that solar energy or comparable renewable energy devices for heating water are a great cost saver for homeowners. The monthly savings in electricity expenses would significantly offset the cost of monthly mortgage payments. If every home has a solar energy or comparable renewable energy water heater, then the State's dependence on imported oil would likewise be significantly reduced over time.

Your Committee further finds that solar water heating is the best "clean" energy alternative for homes in Hawaii. Your Committee further finds that using fossil fuels to heat water is one of the most significant contributors to environmental pollution.

Your Committee believes that affordability is essential to the success of this measure. Although solar water heating makes housing more affordable over time, an incentive is needed to set this in motion, raise awareness, and reduce the initial costs of the device.

Your Committee has amended this measure to:

- (1) Expand the existing income tax credit for solar thermal devices installed in homes originally constructed prior to January 1, 2009;
- (2) Insert a date of January 1, 2009, when solar energy or comparable renewable energy devices are required to be installed in every new residential construction;
- (3) Provide that the tax credits for single family residential properties and multi-family residential properties shall be raised from the existing \$2,250 and \$350, respectively, to \$3,250 and \$450, respectively, beginning July 1, 2007, for residences originally constructed prior to January 1, 2009; and

(4) Changing the effective date to July 1, 2050, in the interests of furthering discussion.

Your Committee notes that under this measure, as amended, the solar thermal energy systems tax credit would no longer be in effect beginning January 1, 2009, for new residential construction. However, the same tax credit for commercial properties, wind-powered energy systems, and photovoltaic energy systems would remain in effect thereafter. This is consistent with the intent of this measure to convert all residential water heating systems to solar energy power by January 1, 2009. This measure represents the first logical step to promote universal energy conservation statewide by taking advantage of the State's perennially warm climate. Solar energy water heating has proven its feasibility, effectiveness, and utility.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 644, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 644, S.D. 3.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1012 Judiciary and Labor on S.B. No. 257

The purpose of this measure is to preclude controlled substances from being sold on the streets by preventing the improper prescribing and dispensing of pharmaceuticals in the State.

Your Committee received testimony in support of this measure from the Department of Public Safety, Longs Drugs, Board of Pharmacy and Kaiser Permanente.

Your Committee finds that pharmaceutical controlled substances are being fraudulently prescribed by practitioners through the Internet, telephone, and mail without a proper medical reason or examination.

Your Committee intends to accomplish the purpose of this measure by:

- (1) Enabling the Department of Public Safety to bring an administrative action against a controlled substance registrant for violations of Chapter 329, Hawaii Revised Statutes;
- (2) Adding the definition of "bona fide practitioner-patient relationship" to establish minimum guidelines that must be met prior the administering, prescribing, or dispensing of controlled substances;
- (3) Clarifying the requirements for oral prescriptions issued to a pharmacy and record keeping requirements for all controlled substances;
- (4) Clarifying that it is a violation of state law to pre-sign blank prescriptions to facilitate the fraudulent obtaining of controlled substances;
- (4) Clarifying that it is a violation of state law to facilitate the issuance or distribution of a written or oral prescriptions when the practitioner is not physically in the State; and
- (5) Enabling the Department of Public Safety to conduct administrative inspections of pharmacies and deleting the requirement for administrative inspection warrants.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 257, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 257, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1013 Human Services and Public Housing on S.B. No. 424

The purpose of this measure is to expand the Bridge to Hope program to enable heads of households who are receiving financial assistance and who are participating in the First-to-Work programs to pursue educational activities beyond the new two-year federal limit.

The University of Hawai'i System; the Hawaii State Commission on the Status of Women; Hawai'i Bridge to Hope; the National Association of Social Workers; Hawaii Women Work; American Association of University Women, Windward Branch; and twenty-three individuals, many of whom are current and former participants in the Bridge to Hope program, submitted testimony in support of this measure. The Department of Human Services submitted written comments.

Your Committee finds that recent changes to the federal Temporary Assistance for Needy Families program rules and subsequent changes to the First-To-Work programs limit educational activities to two years of study leading to vocational or technical degrees in order to meet federal work requirements. The federal law has a grandfather provision for current student participants that allows them to finish their education. However, new participants would be prohibited from pursuing baccalaureate education. Your Committee recognizes the significant impact that access to post-secondary education can have on economic self-sufficiency. A full range of educational activities maximizes participants' current benefits and increases their long-term ability to support themselves and their families.

According to the Department of Human Services' testimony, it is a requirement of the Bridge to Hope program that participants attend school on a full-time basis.

Your Committee has amended this measure by adding language to ensure that the participants are attending school on a full-time basis as defined by the post-secondary educational institution that they are attending.

It is your Committee's intent to enable new First-To-Work participants to continue their educational activities beyond the two-year federal limit by transferring them to the state-funded Bridge to Hope program.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 424, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 424, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hooser).

SCRep. 1014 Ways and Means on S.B. No. 798

The purpose of this measure is to create a one-time tax credit for victims of the October 15, 2006 earthquakes.

The Department of Defense, Department of Taxation, and Tax Foundation of Hawaii provided written comments on this measure.

Your Committee finds that this measure would provide some level of financial aid to victims of the 2006 earthquakes, as was provided by the Legislature in 2006 for flood victims. Your Committee notes the concern, however, that this measure does not include any deterrents to fraudulent claims.

In response, the Department of Defense referred to Act 110, Session Laws of Hawaii 2006, which does contain language that would require proof of damage and repair. Your Committee believes this will strengthen the measure, while still giving additional financial options for legitimate earthquake claims.

Your Committee has amended this measure, accordingly by:

- (1) Reducing the maximum tax credit per individual from \$35,000 to \$10,000; and
- (2) Requiring the taxpayer to sign a statement and provide information determined by the Department of Taxation as necessary to claim the credit under penalties of perjury.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 798, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 798, S.D. 3.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1015 Ways and Means on S.B. No. 1285

The purpose of this measure is to exempt the service stations from having to pay the four per cent general excise taxes on their gross sales of gasoline, and to increase the fuel tax on each gallon of gasoline that is distributed to businesses that use the fuel for its businesses and to the service stations for sale to the consumers.

Written comments supporting the intent of this measure were submitted by the Department of Taxation. The Tax Foundation of Hawaii submitted written comments.

Exempting the service stations from paying the four per cent general excise tax on each gallon of gasoline sold should reduce the overall cost of gasoline to the consumer. In addition, the one cent increase of the fuel tax on each gallon of fuel (including gasoline) distributed to service stations and other business enterprises that use the fuel will inject sorely needed revenue of approximately \$9.2 million annually into the state highway fund. At a time of increasing costs and demands for repair and maintenance of state highways, the state highway fund balance is projected to decline from \$91.9 million in the current fiscal year to \$5.2 million in 2013.

Your Committee notes that the state highway fund provides money critical to the repair and maintenance of state highways, and that the money in the fund can be used to match federal highway dollars in a twenty per cent to eighty per cent ratio. However, your Committee remains concerned that the state highway fund may be in for financial distress.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1285, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Ayes with Reservations, 2 (Menor, Whalen). Noes, none. Excused, 1 (Hemmings).

SCRep. 1016 Ways and Means on S.B. No. 1229

The purpose of this measure is to deter copper theft by requiring scrap dealers to include a thumbprint in the required identification statement of all persons redeeming copper and to establish a copper redemption database.

Your Committee received written comments in support of this measure from the Honolulu Prosecuting Attorney. Written comments in opposition were received from Reynolds Recycling. Written comments were received from the Department of Commerce and Consumer Affairs (DCCA).

Your Committee finds that the recent increase in prices for scrap metal such as copper has caused a spate of copper thefts in the State. Recent thefts are costing resident taxpayers, public utility companies, private companies, and state entities significant income to replace the copper that is stolen and to repair the damage caused by these thefts. As a result, copper theft has become a serious and rapidly growing crime.

This new type of theft has devastating effects on the entire community, not just utility companies, businesses, and government agencies. It causes phone outages, power outages, and rising construction costs. The cost of the stolen copper is often only a small percentage of the victims' loss. Criminal copper scavengers can cost a homeowner up to \$40,000 or more in damage to their home for copper that will net the criminal approximately \$1,000.

The intent of this measure is to deter copper theft by placing stricter restrictions on the acceptance of copper by scrap dealers.

Your Committee has amended this measure by:

- (1) Requiring scrap metal dealers to maintain a record of transactions in copper, similar to pawnbrokers for articles, on the recommendation of the DCCA, and to forthwith transmit by email or facsimile to the county police the police-approved form of the record of information on the copper transaction;
- (2) Deleting the copper redemption database, on recommendation of the DCCA, and deleting the appropriation to the DCCA accordingly;
- (3) Changing the effective date to upon approval; and

- (4) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1229, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1229, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1017 Ways and Means on S.B. No. 696

The purpose of this measure is to establish a process for determining and assessing school impact fees for financing new or expanding existing public schools or facilities when new residential subdivisions are contemplated.

Written comments on the measure were submitted by the Department of Education.

This measure is based upon proposed legislation submitted by the School Impact Fee Working Group, established pursuant to Act 246, Session Laws of Hawaii 2005, recommending a method for determining school impact fees within identified school impact districts. Your Committee finds that further clarification and refinement of the provisions of this measure are necessary to streamline the process for determining the amount of the school impact fees or the provision of land in lieu of payment of the fees.

Accordingly, your Committee has amended this measure by:

- (1) Including a provision that requires the amount of the fee in lieu to be increased from the date it was determined to the date of payment using the Engineering News-Record Construction Cost Index, or an equivalent index if that index is discontinued;
- (2) Altering the current calculations for determining the amount of land provided or fee in lieu paid;
- (3) Clarifying that the basis for determining school impact fees is on both new permanent classroom construction and new portable classroom construction;
- (4) Deleting the calculation for the current level of service for greenfield school impact areas;
- (5) Including new formulas for calculating the school impact fee per dwelling unit for single family detached and multi-family housing in each designated school impact district based upon school level;
- (6) Prohibiting the counties from issuing a residential building permit in a school impact district until written confirmation of payment of the school impact fee has been received from the Department of Education;
- (7) Allowing impact fee funds to be expended on portable buildings;
- (8) Specifying that if a fee in lieu is not expended within twenty years of the date of collection, the Department of Education shall refund a developer the amount of a fee in lieu paid and any interest accrued thereon calculated at the rate paid by the State on twenty-year bonds sold on the date closest to the date the fee in lieu was paid;
- (9) Changing the effective date of the Act to July 1, 2050, to facilitate further discussion on the measure; and
- (10) Making technical, nonsubstantive amendments for purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 696, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 696, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1018 Ways and Means on S.B. No. 988

The purpose of this measure is to reduce greenhouses gas emissions and raise public awareness of renewable energy.

Specifically, this measure establishes a photovoltaic rebate program to all grid-connected residential, community-center, and small business utility customers within electric service areas.

Written comments in support of this measure were submitted by the Department of Commerce and Consumer Affairs, Office of the Director, State of Hawaii; Chair of the Public Utilities Commission, Department of Budget and Finance, State of Hawaii; Energy Services Department, Hawaiian Electric Company; Proactive Chiropractic, LLC; Hawaii Solar Energy Association; Sierra Club Hawaii Chapter; ProVision Technologies, Inc.; Pacific Biodiesel; Hawaii PV Coalition; and eight individuals.

Your Committee finds that to ensure the preservation and protection of our environment and natural resources, it is necessary to foster a widespread use of sustainable energy resources and energy efficient technology and products. One type of renewable energy that should be used more widely is photovoltaic energy. However, the initial cost of installing photovoltaic energy systems is high.

Your Committee further finds that providing a rebate program for qualifying installations will help minimize the initial costs and encourage citizens and businesses to invest in photovoltaic energy systems.

Your Committee amended this measure by deleting the appropriation amount of \$10,000,000 leaving the appropriation amount blank for further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 988, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 988, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1019 (Majority) Ways and Means on S.B. No. 1792

The purpose of this measure is to affirm the State's commitment to provide quality health care for the people of the State.

More specifically, this measure would:

- (1) Establish a regional affiliate corporation of the Hawaii Health Systems Corporation for the Maui region, as a first step to more regional control for all regions of the Corporation, to be governed by a community-based regional board; and
- (2) Provide the necessary authority for regional affiliate corporations to accomplish the goal of community-based governance.

Your Committee received comments in support of this measure from the Chairperson of the County Council of Maui, various officials from Maui Memorial Medical Center, Maui Medical Group, two members of the Maui Region Management Advisory Group, Pioneer Inn, and two hundred ten individuals. Comments in opposition were received from various officials from the Hawaii Health Systems Corporation and its board of directors, Chairperson of the Public Health Management Advisory Committee, officials from the Kauai region and its board of directors, officials from the West Hawaii region, medical director of the Oahu region, Kau Hospital, Mahelona Medical Center, Kohala Hospital, Kauai Management Advisory Committee, East Hawaii Management Committee, and various individuals from the Mahelona Medical Center Charitable Foundation. The Department of Accounting and General Services, the State Procurement Office, the Office of Information Practices, HGEA/ASFCME, and one individual offered comments.

Upon further consideration, your Committee has amended this measure by:

- (1) Clarifying that the Hawaii Health Systems Corporation board and each regional affiliate corporation board shall be exempt from only the sunshine law with respect to meetings and not to the entire public agency meetings and records law;
- (2) Clarifying that no real property, including land, structures, and fixtures, or other physical assets, such as personal property, including furnishings, equipment, and inventory, of the Hawaii Health Systems Corporation shall be transferred to any regional affiliate corporation; provided that health systems financial assets and financial liabilities within the region shall be transferred to the regional affiliate corporation;
- (3) Clarifying that, upon the establishment of a regional affiliate corporation:
 - (A) The regional affiliate corporation shall assume custodial care of all real property, including land, structures, and fixtures, and any other physical assets, such as personal property, including furnishings, equipment, and inventory, of the Hawaii Health Systems Corporation within its region;
 - (B) No sale or encumbrance of any such real property or such other physical assets of the corporation shall be permitted without the mutual consent of the Hawaii Health Systems Corporation board and the appropriate regional board; and
 - (C) The Hawaii health systems corporation board shall enter into an agreement with a regional board to lease, at a nominal annual rent of \$1, any such real property or such other physical assets for use by the regional affiliate corporation;
- (4) Clarifying that each regional affiliate corporation shall be responsible for various powers and duties with respect to facilities, operations, and activities within its own region, as opposed to the Hawaii Health Systems Corporation's powers and duties on a corporate-wide level, as enumerated in section 323-7, Hawaii Revised Statutes;
- (5) Clarifying that the Hawaii Health Systems Corporation board and any regional affiliate corporation board shall hire their own attorneys to represent and defend a member in any civil action for which immunity is conferred, and deleting the power to call on the Attorney General for legal services as the Hawaii Health Systems Corporation requires;
- (6) Including the members of the Hawaii Health Systems Corporation board or any regional affiliate corporation as members immune from and indemnified for civil liability;
- (7) Specifying the amount that a regional affiliate corporation is authorized to issue in revenue bonds at up to and including \$100,000,000;
- (8) Clarifying that regional and facility budgets of regional affiliate corporations are to be consolidated into a corporation-wide budget for corporation-wide planning and appropriation requests;
- (9) Clarifying that the capital and strategic plans developed by regional affiliate corporations must be consistent with, and incorporated into, the overall corporation-wide plans;
- (10) Clarifying that a regional affiliate corporation has the power to purchase, lease, exchange, or otherwise acquire, in its own name, property other than property owned by the Hawaii Health Systems Corporation;
- (11) Clarifying that only the Hawaii Health Systems Corporation has the power to create captive insurance companies to benefit public health facilities and operations in all regions;
- (12) Clarifying that there is only one health systems special fund, but that a regional subaccount shall be established for each regional affiliate corporation within the special fund;
- (13) Clarifying that, upon request, a regional affiliate corporation may share its surplus or resources with a facility outside of its own region, subject to authorization by its regional board, to benefit the corporation-wide system of health care;
- (14) Clarifying that each regional affiliate corporation shall submit its annual budgets collaboratively with the Hawaii Health Systems Corporation to the legislature beginning in the 2009-2011 fiscal biennium;
- (15) Clarifying that each regional affiliate corporation is exempt from paying county assessments and state taxes of any kind;
- (16) Clarifying that only the rights, powers, functions, and operational authority, but not physical assets, of the Hawaii Health Systems Corporation are transferred to a regional affiliate corporation, and that physical assets are leased to a regional affiliate corporation;
- (17) Making conforming amendments related to the transfer of financial assets to and assumption of custodial control by a regional affiliate corporation;

- (18) Deleting the appropriation to support the transition from the Hawaii Health Systems Corporation to the Maui regional affiliate corporation;
- (19) Changing the effective date of the measure to July 1, 2007, and changing the effective date of section 2, which creates the Maui regional affiliate corporation, to July 1, 2008; and
- (20) Making technical nonsubstantive amendments for the purposes of consistency and clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1792, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1792, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Ayes with Reservations, 2 (Chun Oakland, Hooser). Noes, 1 (Hemmings). Excused, 1 (Whalen).

SCRep. 1020 Ways and Means on S.B. No. 1101

The purpose of this measure is to establish and appropriate moneys to the kokua na keiki special fund and to create a task force to coordinate resources for homeless children.

The Department of Education, the Legal Aid Society of Hawaii, and the Hawaii Family Forum of the Roman Catholic Church submitted comments in support. The Department of Budget and Finance submitted comments in opposition. The Office of the Attorney General submitted comments.

Your Committee finds that the number of homeless children has increased dramatically. Homelessness often affects children disproportionately, putting them at risk of developing poor health, exposure to sexual abuse or other violence, poor academic performance, and a lack of positive social interactions. Your Committee finds that a coordinated effort will help to ensure the safety, security, and well-being of these children.

Your Committee amended the bill to address the concerns raised by the Attorney General to:

- (1) Include standards that permit the Department of Human Services to award grants; and
- (2) Specify that the funds in the kokua na keiki special fund be used to hire a coordinator of services for homeless children.

Your Committee also amended this bill to:

- (1) Change the appropriations to unspecified amounts to facilitate further discussion; and
- (2) Change the repeal date for the Act to June 30, 2011, to provide sufficient time for the Department of Human Services to submit its final report.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1101, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1101, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1021 Ways and Means on S.B. No. 781

The purpose of this measure is to appropriate \$150,000 to develop a feasibility study for a Hawaii state fire and emergency training facility, and to appropriate moneys for a public education campaign on natural disaster preparedness.

Your Committee received comments in support of this measure from the State Fire Council, Kauai Fire Department, and Honolulu Fire Department.

Your Committee finds that fire fighters and other emergency first responders must be able to fully respond to natural and manmade disasters. The development of a Hawaii state fire and emergency training facility will help ensure that fire fighters and emergency first responders are able to meet the needs of the public in the case of such disaster.

In addition, your Committee finds that the creation of a public education campaign for natural disaster preparedness will help ensure the safety of residents in the event of a natural disaster.

Your Committee has amended this measure by:

- (1) Changing the appropriation in section 2 to an unspecified amount in order to promote continuing discussion; and
- (2) Making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 781, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 781, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Hemmings).

SCRep. 1022 Judiciary and Labor on S.B. No. 1158

The purpose of this measure is to create a citizen's family law advisory committee to be placed, for administrative purposes, in the Judiciary.

Your Committee received testimony in support of the bill from a representative of the National Association of Social Workers, Hawaii. Testimony from the Judiciary opposed the bill. Legal Aid Society of Hawaii provided comments and offered amendments to the bill.

Your Committee finds that this bill would create an ongoing process by which Judiciary personnel, Family Court professionals, related service providers, and the public can participate in and provide feedback about the Family Court and family law matters.

Your Committee amended the bill to allow for more effective and efficient input by the advisory committee. The amendments would allow input into administrative proceedings and into improving access to Family Court. It would also allow the advisory committee to hold hearings.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1158, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1158, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 1023 Judiciary and Labor on S.B. No. 1529

The purpose of this measure is to clarify the civil adjudication of civil traffic infractions.

Specifically, this measure:

- (1) Establishes that the district court may adjudicate civil traffic infractions charged against minors;
- (2) Applies the civil standard of proof for civil traffic infraction trials;
- (3) Remedies difficulties encountered by certain district courts in complying with concurrent scheduling requirements for civil and related criminal proceedings;
- (4) Protects a defendant's privilege against self-incrimination;
- (5) Promotes consistency in processing and adjudicating moving and non-moving civil traffic infractions; and
- (6) Permits the use of electronic citations.

Your Committee received testimony in support of this bill from the Judiciary and from Catrala-Hawaii.

Your Committee finds that this bill would provide clear, unambiguous, and consistent methods of processing traffic infractions in a more expedient and less burdensome manner, while ensuring protections against self-incrimination for defendants.

Your Committee amended the bill at the recommendation from the Judiciary and Catrala-Hawaii to remove the car rental companies and the U-drive companies from liability for the violations of their renters.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1529, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1529, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1024 Judiciary and Labor on S.B. No. 1780

The purpose of this measure is to exempt recipients of social service payments from the scope of employment under related state laws and define "recipients of social service payments" as it relates to chapters 383, 386, 392, and 393, Hawaii Revised Statutes.

The organizations affected by this measure manage the Social Security benefits for their Social Security - Supplemental Security Income (SSI) clients. These benefits include programs and services for SSI clients who are developmentally disabled. These programs and services may include residential habilitation, personal habilitation/habilitation, skilled nursing, and respite services.

In the late 1970's, parents of the developmentally disabled children asked the Legislature to establish programs and services to allow citizens with developmental disabilities to live in the least restrictive environment. This movement to deinstitutionalize the developmentally disabled recognized the various levels of disabilities within this group and from the highly challenged to those who can lead productive lives in the community with minimal assistance. Institutions like Waimano Home faded away and the future brought a new beginning for our developmentally disabled.

In the late-1980's, at the request of the State of Hawaii Departments of Health and Human Services, organizations contracted with the State to provide Medicaid Home and Community Based Waiver services for the developmentally disabled and continuing the State's commitment to these citizens to live in the least restrictive environments outside of a institution.

Home Care Providers not covered under the Hawaii Unemployment Insurance Laws.

In a May 3, 1990 Letter, the Department of Labor and Industrial Relations (DLIR) recognized that these organizations would not be covered under the Hawaii Unemployment Insurance Laws. The Department stated, "... concerning unemployment insurance coverage of 'home care providers' who care for handicapped or other individuals that cannot care for themselves and are cared for in the 'providers' private home. The provider's services would not be covered under the Hawaii Unemployment Insurance Laws."

Home Care Providers not covered under Hawaii Workers' Compensation and Temporary Disability Laws

On September 16, 1991, the DLIR recognized that "... 'home care providers' who are 'providers' in their private homes and are contracted through the State Department of Human Services ... are excluded from the term 'employment' as specified under Section 386-1, HRS, of the Workers' Compensation (WC) Law. ... The Temporary Disability Insurance (TDI) Law, under Section 392-5, HRS, contains an identical exclusion. Therefore, you are not required to provide TDI coverage to the 'home care providers'."

In August, 2006, the Director of Labor and Industrial Relations made a new determination that "home care providers" were not exempted from Unemployment, Workers' Compensation and Temporary Disability Laws even though Section 392-5(19), Hawaii Revised Statutes, recognized and stated:

"Domestic, which includes attendant care, and day care services authorized by the department of human services under the Social Security Act, as amended, performed by an individual in the employ of a recipient of social service payments;" (emphasis added)

This measure clarifies and reiterates the original determinations in 1990 and 1991 by the DLIR excluding home care services authorized by the Department of Human Services under the Social Security Act, as amended, performed by an individual in the employ of a recipient of social service payments from Hawai'i's Unemployment Insurance, Workers' Compensation and Temporary Disability Laws.

This measure also reminds the State of its rich history in supporting the developmentally disabled and the Legislature's continuing support to enable Hawai'i's developmentally disabled to lead rich and full productive lives in the least restrictive environment.

Testimony in support of this measure was received from numerous agencies such as Supporting Exceptional Citizens of Hawaii (SECOH); Home & Community Services of Hawaii, Inc., individually, and through Kobyashi, Sugita & Goda; United Filipino Council of Hawaii; Cable Adult Foster Home; Tapat Foster Home; Daligcon Expanded Care; Guerrero Foster Home; Febereo Foster Home; Bagasol DDD Home; Catholic Charities Hawaii; Gusman Adult Foster Home; Espiritu Foster Care Home; Dalmacio Adult Foster Home; Apostol Adult Care; E&R ARCH; Alonzo Adult Foster Home; Domingo Foster Home and ten private citizens.

Opposing testimony was received from the Department of Labor and Industrial Relations, State Attorney General, Easter Seals Hawaii, The Arc in Hawaii, Responsive Caregivers of Hawaii, and the State Council on Developmental Disabilities.

The home care providers in support of this measure stated that if they were not exempt under Section 89-5, Hawaii Revised Statutes, they would be forced to close their business.

Questions were raised stating that the federal laws, ERISA and FUTA, pre-empt states from expanding the present state statutes. It is the Committee's belief that this measure does not expand on the present exemptions but merely define the exemptions more specifically to continue the original intent by the Legislature more than ten years ago.

In addition, the organizations that are affected by the new DLIR ruling are conduits to manage and distribute the SSI benefits for the recipient's needs. In essence, it is the SSI recipient that dictates the type of home care needed and at times receives these services at their home. Therefore, another interpretation of this situation could treat the recipients of SSI benefits as "employers" and therefore subject to the above-mentioned state laws. Your Committee does not believe that Congress' intent in establishing SSI benefits would have included recognizing the SSI recipients as "employers". On the same basis, Congress would have also not intended that the organizations managing SSI benefits for the Department of Human Services and for the SSI recipient would ever be considered "employers".

Your Committee has amended the measure to include language proposed by a consortium composed of members from the State Council on Developmental Disabilities, SECOH, and Home & Community Services of Hawaii, Inc., through Kobyashi, Sugita & Goda. All references related to independently licensed or certified adult foster home or care home provider has been deleted. A delayed effective date and technical, nonsubstantive changes recommended by Legislative Reference Bureau have been made.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1780, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1780, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1025 **Ways and Means on S.B. No. 1612**

The purpose of this measure is to establish measurement and reduction procedures to reduce greenhouse gas emissions in the State.

Specifically, the measure:

- (1) Requires the Department of Health to adopt reporting and verification of statewide greenhouse gas emissions and to monitor and enforce compliance;
- (2) Requires adoption of a statewide greenhouse gas emissions limit equivalent to the statewide greenhouse gas emissions levels in 1990, to be achieved by 2020;
- (3) Requires the adoption of rules to achieve the maximum technologically feasible and cost-effective greenhouse gas emission reductions; and
- (4) Authorizes the adoption of market-based compliance mechanisms.

The Sierra Club, Hawai'i Chapter, Hawai'i Wildlife Fund, Honolulu Seawater Air Conditioning, and twenty-one individuals provided written comments in support of this measure. The Department of Health; Hawaiian Electric Company, Inc.; and Western States Petroleum Association provided written comments.

Your Committee finds that the proposed language in this measure is similar to California law, and that California is one of the states with the highest carbon dioxide emissions in the nation. Your Committee further finds that according to 2003 Environmental Protection Agency data, Hawaii ranks among the seven lowest states for emissions.

Your Committee strongly supports the reduction of greenhouse gas emissions, but believes the program in this measure may be premature, and may not be the most appropriate response for Hawaii. Your Committee agrees with the Department of Health that, as a first step, a 1997 report on greenhouse gas emissions estimates should be updated, and an inventory of emissions developed. With this information in hand, the State can develop programs specifically tailored to Hawaii in order to reduce greenhouse gas emissions in and around the islands.

Your Committee has amended this measure accordingly by:

- (1) Deleting the proposed new chapter on greenhouse gas reduction contained in section 2 of this measure and inserting language to require the Department of Health to conduct a thorough greenhouse gas emissions inventory of Hawaii sources and to update the past report prepared by the Department of Business, Economic Development, and Tourism and the Department of Health entitled "Inventory of Hawaii Greenhouse Gas Emissions Estimates for 1990", dated July 1997, with reports to the 2008 and 2009 Legislatures;
- (2) Specifying that the appropriation in section 3 is for two positions;

- (3) Making an appropriation to the Hawaii Energy Policy Forum at the University of Hawaii at Manoa to develop a plan with a timetable for implementation to reduce greenhouse emissions in Hawaii; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1612, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1612, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1026 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 1184

The purpose of this measure is to ensure that Hawaii's endangered adults are provided adequate protective services under the law.

Specifically, this measure amends the law relating to Adult Protective Services by:

- (1) Clarifying the purpose and persons to be protected;
- (2) Extending the protection to persons over age eighteen who meet the definition of "vulnerable adult";
- (3) Including a definition for the term "vulnerable adult";
- (4) Deleting the definition for "dependent adult" and replacing references thereto with the term "vulnerable adult"; and
- (5) Authorizing the Department of Human Services to investigate and the Family Court to have jurisdiction over a "vulnerable adult" who has been abused or is in imminent danger of abuse.

No testimony or written comments were submitted on this measure.

Your Committees find that the Adult Protective Services program of the Department of Human Services provides crisis intervention, investigation, and emergency services to dependent adults who are reported to be abused, neglected, or financially exploited by others or seriously endangered due to self-neglect. Your Committees further find that Hawaii's elderly population is the fastest growing segment in the State, which necessitates that the State works to ensure that these individuals are provided appropriate services and protection from incidences of abuse and neglect. However, it is not only the elderly who are in danger of abuse or neglect. Individuals also in danger are those whose ability to protect themselves is substantially impaired due to incapacity or physical, mental, or other disability. Your Committees determine that further clarification in the law is necessary to ensure that all individuals necessitating the receipt of protective services are provided such services in the most appropriate and timely manner possible.

Accordingly, your Committees have amended this measure by making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1184, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1184, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ayes, 10. Ayes with Reservations, 1 (Tsutsui). Noes, none. Excused, 6 (English, Inouye, Kim, Menor, Hemmings, Whalen).

SCRep. 1027 Ways and Means on S.B. No. 796

The purpose of this measure is to ensure that the State is prepared for natural disasters and other catastrophic occurrences.

Specifically, this measure:

- (1) Authorizes general obligation bonds to fund the installation of additional sirens to the State Civil Defense Warning System;
- (2) Permits the Governor to order the release of up to ten per cent of moneys appropriated from interest earnings in the Emergency and Budget Reserve Fund to provide assistance after a natural disaster;
- (3) Appropriates funds for:
 - (A) Emergency supply caches;
 - (B) The State Civil Defense Major Disaster Fund;
 - (C) Non-declared disaster activation and response; and
 - (D) The Ethnic Education Foundation of Hawaii to assist them in disseminating information in the event of a disaster.

The National Federation of Filipino American Associations; the Filipino Coalition for Solidarity; Nursing, Advocates and Mentors, Inc.; the Philippine Nurses Association-Hawaii; the Congress of Visayan Organizations; and one individual submitted written comments in support of this measure. The Department of Budget and Finance, and the Department of Defense submitted written comments.

Your Committee finds that while the State and private agencies have made great strides in becoming capable of responding to a tsunami or hurricane disaster, more resources are needed to upgrade equipment and decrease coverage gaps in the existing warning systems. Your Committee further finds that it is important to ensure that victims of natural disasters receive prompt emergency relief after a natural disaster. It is also imperative that statewide dissemination of information is provided in a format that is accessible and understandable by everyone.

Your Committee has amended this measure by:

- (1) Inserting language from S.B. No. 794, making an appropriation for the State Civil Defense Emergency Supply Program, to effectively equip emergency shelters in order to support special needs populations and to maintain the development of the emergency supply program;

- (2) Changing all of the appropriation amounts to blank amounts for purposes of further discussion;
- (3) Authorizing the Governor to provide grants of emergency assistance up to a blank dollar amount for a blank percentage of uninsured damages after a natural disaster;
- (4) Making clarifying technical amendments to section 328L-3(b), Hawaii Revised Statutes, to enable the Governor to order the release of up to ten per cent of moneys appropriated from interest earnings in the Emergency and Budget Reserve Fund for the purposes of paragraph (3); and
- (5) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 796, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 796, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1028 (Majority) Ways and Means on S.B. No. 1276

The purpose of this measure is to require the preparation of an environmental impact statement (EIS) for the expenditure of public funds for commercial harbor improvements to accommodate the Hawaii Superferry.

This measure also prevents Hawaii Superferry from commencing operations until mitigation measures recommended in the EIS are implemented by the Department of Transportation (DOT), and requires the DOT to assess reasonable costs incurred for the preparation of an EIS.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs; Cetacean Society International; Hawaii PV Coalition; Sierra Club, Hawaii'i Chapter; AANCArt; American Friends Service Committee; Maui Outdoor Circle; Maui Clean Air Coalition; Surfrider Foundation; Maui Coral Reef Network; Helping Hands Hawaii; Maui Individualized Learning Center; People for the Preservation of Kaua'i; and Patrice Pendarvis Studio; and ninety individuals. Written comments in opposition was received from the Department of the Attorney General; Department of Transportation; Conferencehub Corp.; Kaua'i Chamber of Commerce; Maui Chamber of Commerce; Maui County Farm Bureau; Coloriginals; Clear Channel Radio Hawaii; Hawaii Oceanic Technology, Inc.; Ocean Marine Insurance Agency, Inc.; Hawaii Superferry; Over the Top Events; Pacific Sport Events and Timing; Help-U-Sell Paradise Realty; Love to Travel Tours; and eighty-four individuals.

Your Committee finds that state commercial harbor improvements that require the expenditure of large amounts of governmental funds should comply with the environmental review process. Your Committee is concerned that new maritime activities that require substantial harbor improvements, such as the Hawaii Superferry, could have serious effects on vehicular traffic, transport of non-native species between islands, introduction of invasive plant and animal species, increased collisions with whales, and increased warehousing at the harbors, among other issues, all of which have economic and environmental consequences that come within the scope of issues to be reviewed under the environmental impact statement law.

In addition to environmental concerns, your Committee has serious concerns about harbor and traffic congestion. Harbors on Oahu, Maui, and Kauai are so congested that the viability of Hawaii's shipping industry is threatened unless harbor improvements and expansion are immediately undertaken. Operations like the Hawaii Superferry would add to the congestion.

However, the Attorney General raised significant constitutional and legal issues in lengthy comments on this measure and concluded that the "passage of this measure may subject the State to substantial (but presently unquantifiable) liability."

Thus, your Committee has amended this measure by:

- (1) Rewording the purpose section to clarify that the intent of the measure is to reassert the Legislature's intent when it enacted the environmental impact statement law that the Legislature intended for major commercial harbor improvement projects to be subject to an environmental impact statement;
- (2) Deleting all references to the Hawaii Superferry and replacing it with a generic reference to any business or entity that proposes to operate or operates vessels that carry passengers and their vehicles between Hawaii's islands that require major commercial harbor improvements; and
- (3) Defining "major commercial harbor improvements" as any commercial harbor improvement project that requires the expenditure of over \$1,000,000 of public funds.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1276, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1276, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 8. Ayes with Reservations, 4 (Baker, Chun Oakland, Fukunaga, Tokuda). Noes, 2 (Kim, Hemmings). Excused, 1 (Whalen).

SCRep. 1029 Ways and Means on S.B. No. 1438

The purpose of this measure is to establish a Fiftieth Anniversary of Statehood Commission (Commission).

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism (DBEDT).

The intent of this measure is to plan and coordinate the celebration of the fiftieth anniversary of Hawaii's admission to statehood in August 1959. Your Committee finds that Hawaii has benefited greatly from statehood, particularly the rights, privileges, and protections that statehood and citizenship under the United States provide.

Your Committee is cognizant of the comments concerning representation on the Commission, as expressed by DBEDT, and has endeavored to satisfy these concerns to the extent reasonable in bringing together a diverse citizen panel to plan for such an event.

Your Committee has amended this measure by:

- (1) Increasing the Commission membership to twenty-five persons, to be selected without regard to Senate confirmation;
- (2) Changing the selection of nominees by the President of the Senate, Speaker of the House of Representatives, and the Governor, to provide as follows:
 - (A) Six members to be selected by the President of the Senate, to represent various sectors including Hawaii's youth, academic community, labor, business, and cultural groups;
 - (B) Six members to be selected by the Speaker of the House of Representatives, to represent various sectors including labor, business, cultural groups, faith-based organizations, and youth;
 - (C) Five members to be selected by the Governor, including persons knowledgeable in the history of Hawaii and Hawaiian culture, event planning, and developing community partnerships;
- (3) Deleting the requirement that every member have some knowledge about the history and culture of Hawaii, and experience in event planning and in developing community partnership, on the basis that it is likely difficult to find such inherent experience to fill every position;
- (4) Clarifying that a vacancy is to be filled by the same selection authority as appointed the vacating member;
- (5) Providing for a quorum of fifteen members, with twelve members required for an affirmative vote;
- (6) Changing the appropriation amount to an unspecified sum; and
- (7) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1438, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1438, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1030 Ways and Means on Gov. Msg. No. 268

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR OF THE DEPARTMENT OF BUDGET AND FINANCE

G.M. No. 268 GEORGINA K. KAWAMURA, for a term to expire 12-6-2010

Your Committee reviewed the personal statement and resume submitted by the nominee and finds Georgina K. Kawamura to have the necessary qualifications to serve as the Director of Finance.

Your Committee received comments in support of the nomination of Ms. Kawamura as Director of Finance from Mr. Robert N. E. Piper, Deputy Director, Department of Budget and Finance and nine managers and senior staff members from the Department of Budget and Finance; Mr. David Shimabukuro, Administrator, Employees' Retirement System; Major General Robert G.F. Lee, Hawaii National Guard; Mr. Carlito P. Caliboso, Chairperson, Public Utilities Commission; the Board of Trustees, Office of Hawaiian Affairs; Mr. Larry Reifurth, Deputy Director, Department of Commerce and Consumer Affairs; Mr. Orlando "Dan" Davidson, Hawaii Housing Finance and Development Division; Mr. Jack Tonaki, State Public Defender; Mr. Jim Williams, Administrator, Hawaii Employer-Union Health Benefits Trust Fund; Mr. Brian Sekiguchi, Deputy Director, Airports Division, Department of Transportation; Ms. Charmaine Tavares, Mayor, County of Maui; Mr. Ronald D. Kouchi and Mr. Mel Rapozo, Council members, Kauai County Council, Mr. Peter Fithian, Airport Concessionaires; Mr. Colbert M. Matsumoto, Chairman and CEO, Island Insurance Companies; Mr. Randall J. Hee, President and CEO, Kauai Island Utility Cooperative; the State of Hawaii Organization of Police Officers; and Mr. Christopher Grandy, University of Hawaii.

Your Committee finds that, consistent with the exemplary comments received on her behalf, her four years as Director of Finance, and an extensive and impressive professional background in management and finance, Director Kawamura has also distinguished herself as an ex-officio member of the Board of Trustees of the Employees' Retirement System (ERS). The Administrator of the ERS testified that Director Kawamura "approached issues facing the ERS with a long-term perspective, which is important for the health of the ERS. She asks the right questions before making decisions, and more importantly has done what is in the best interest of the ERS members."

In a rare expression of support and respect, nine Department of Budget and Finance managers and senior staff members expressed their support for Director Kawamura and testified that "[s]he has a remarkable ability to absorb details of the operating and CIP budget and displays a thorough understanding of budgeting principles and practices. She has brought graciousness, composure, and level-headedness to the position, along with her sense of humor and energy. Ms. Kawamura has actively pushed and prodded both our staff and departmental staffs to develop better performance measures and to more fully integrate these measures into budget decision making and budget presentations. She has also led the charge in making the State's budget documents more understandable and 'user friendly.'" "[We have] observed first hand Mrs. Kawamura's genuine commitment, sensitivity, and concern for the well-being of her employees. In her first four years as Director of Finance, she has demonstrated through decision making and her interaction with employees an innate ability to balance equity and fairness with appreciation and compassion. She has made 'right' decisions when the choices are difficult ones and has earned our respect in the process."

Director Kawamura is also respected by the business community, as evidenced by comments submitted by the President of Kauai Island Utility Cooperative, who testified, "Mrs. Kawamura being open-minded and willing to listen to our concerns as the first electric cooperative in the State of Hawaii not only supported our endeavor, but also assisted KIUC with the proposed language. KIUC feels her efforts were above and beyond, and would like to recognize her as being instrumental in the successful passing of our legislation."

Director Kawamura is also admired and respected by many friends, such as Colbert Matsumoto who has remained loyal to her over the years because she is "a source of 'community pride,' that someone who grew up in the small community of Lanai could assume such an important public role. She distinguished herself and demonstrated her capacity to take on the weighty challenges of that position [as Director of Finance]."

Your Committee also finds that, while supporting her confirmation, Senators expressed concerns about delays in grants-in-aid being released to nonprofit organizations that provide valuable community services. Senators requested that Director Kawamura implement improved processes and technical assistance to departments to expedite the release of such funds. In addition, Senators requested the Department of Budget and Finance to compile comprehensive vacancy reports for all departments so that legislators can better understand various departments' labor needs. Director Kawamura expressed her willingness to work with the departments and your Committee to address these concerns.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Chun Oakland, Menor, Whalen).

SCRep. 1031 Education on S.C.R. No. 18

The purpose of this measure is to request the Department of Education to work with appropriate entities to extend the length of the school day for elementary and middle schools to accommodate increased physical education, art, and music requirements.

Testimony in support of this measure was submitted by the Department of Education and the Hawaii State Teachers Association.

Your Committee finds that children across the nation are demonstrating staggering rates of obesity, including Hawaii, where adolescent obesity rates have doubled over the past two decades. Your Committee further finds that a child's life is not only enhanced, but may also be prolonged and improved with the presence of routine physical exercise, as well as the exposure to the arts and music. This measure seeks to encourage the Department of Education to consider the merits of extending the school day for elementary and middle schools to accommodate time for physical education, arts, and music instruction. Your Committee believes that additional projects, competitions, and activities will also positively impact a student's overall health, success, and well-being and should be a part of the discussion in determining the propriety of extending the school day.

Accordingly, your Committee has amended this measure by expanding the scope of the types of requirements, activities, and programs that the Department of Education should consider in determining whether and the method by which to extend the school day for elementary and middle schools.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 18, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 18, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Hee).

SCRep. 1032 Intergovernmental and Military Affairs on S.R. No. 13

The purpose of this measure is to oppose the creation of a National Identification Card and the implementation of the Real ID Act of 2005.

Written testimony in support of this measure was submitted by the City and County of Honolulu, Department of Customer Services, Division of Motor Vehicles, Licensing and Permits Administration; County of Hawaii Police Department; American Civil Liberties Union of Hawaii; Na Loio, Immigrant Rights and Public Interest Legal Center; Americans for Democratic Action; The Hawaii Government Employees Association; and five individuals. Oral testimony in support of this measure was submitted by the Director of the State Civil Defense.

Your Committee finds that the State of Hawaii is proud of its long tradition of protecting civil rights and liberties of all of its residents, affirming the fundamental rights of all people and, in some circumstances, provides more expansive protections than are granted by the United States Constitution.

Your Committee further finds that the State of Hawaii denounces terrorism in all its forms and condemns all acts of terrorism by any entity, wherever the acts may occur. To this end, any new security measures to provide protection from terrorist attacks should be carefully designed to enhance public safety without infringing on the civil liberties and rights of citizens.

Your Committee further finds that Real ID Act of 2005, Public Law 109-13:

- (1) Creates a national identification card by mandating federal standards for state drivers' licenses and identification cards requiring states to share their motor vehicle databases;
- (2) Mandates the documents that states must require to issue drivers' licenses and requires states to place uniform information on every driver's license in a standard, machine-readable format;
- (3) Prohibits federal agencies and federally-regulated commercial aircrafts from accepting a driver's license or identification card issued by a state that has not fully complied with the Act;
- (4) Creates a costly unfunded mandate for the states;
- (5) Creates a database containing information on every American and makes it accessible to motor vehicle employees and law enforcement officials nationwide that can be used to gather and manage information on citizens;
- (6) Enables the creation of additional private sector databases that combine both transactional information and driver's license information gained from scanning the machine-readable information to be contained on every driver's license, which could create significant hardships on Americans attempting to verify their identities in order to utilize air travel, open bank accounts, or perform many other functions required to live in the United States;
- (7) Enables the crime of identity theft by making personal information of all Americans more accessible from more locations;
- (8) Contains onerous record verification and retention provisions that place unreasonable burdens on motor vehicle licensing and registration divisions and on third parties required to verify records;
- (9) Places enormous burdens on consumers seeking new drivers' licenses;

- (10) Places motor vehicle licensing and registration division staff on the front lines of immigration enforcement by forcing public employees to determine federal citizenship and immigration status; and
- (11) Passed as a rider to an emergency appropriations measure for military operations in Iraq and Afghanistan, which did not receive a hearing by any congressional committee or a vote solely on its merits.

Your Committee further finds that it opposes the institution of a National Identification Card and the implementation of the Real ID Act of 2005, particularly those provisions that:

- (1) Violate the rights and liberties granted under the Hawaii State Constitution or the United States Constitution, and the Bill of Rights; and
- (2) Create unfunded mandates for the State without any plan for financial subsidization for implementation.

Your Committee further finds that the Senate of the State of Hawaii supports the repeal of the Real ID Act of 2005, and urges the Hawaii Congressional delegation to support any legislation that calls for the repeal, amendment, or, at a minimum, the provision of proper funding for the implementation of the Real ID Act of 2005.

Your Committee amended this measure by clarifying language in the measure describing the creation of a public sector database and removing language concerning a provision contained in the Real ID Act of 2005 that no longer exists.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 13, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 13, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Hemmings).

SCRep. 1033 Intergovernmental and Military Affairs on S.C.R. No. 31

The purpose of this measure is to oppose the creation of a National Identification Card and the implementation of the Real ID Act of 2005.

Written testimony in support of this measure was submitted by the City and County of Honolulu, Department of Customer Services, Division of Motor Vehicles, Licensing and Permits Administration; County of Hawaii Police Department; American Civil Liberties Union of Hawaii; Na Loio, Immigrant Rights and Public Interest Legal Center; Americans for Democratic Action; The Hawaii Government Employees Association; and five individuals. Oral testimony in support of this measure was submitted by the Director of the State Civil Defense.

Your Committee finds that the State of Hawaii is proud of its long tradition of protecting civil rights and liberties of all of its residents, affirming the fundamental rights of all people and, in some circumstances, provides more expansive protections than are granted by the United States Constitution.

Your Committee further finds that the State of Hawaii denounces terrorism in all its forms and condemns all acts of terrorism by any entity, wherever the acts may occur. To this end, any new security measures to provide protection from terrorist attacks should be carefully designed to enhance public safety without infringing on the civil liberties and rights of citizens.

Your Committee further finds that Real ID Act of 2005, Public Law 109-13:

- (1) Creates a national identification card by mandating federal standards for state drivers' licenses and identification cards requiring states to share their motor vehicle databases;
- (2) Mandates the documents that states must require to issue drivers' licenses and requires states to place uniform information on every driver's license in a standard, machine-readable format;
- (3) Prohibits federal agencies and federally-regulated commercial aircrafts from accepting a driver's license or identification card issued by a state that has not fully complied with the Act;
- (4) Creates a costly unfunded mandate for the states;
- (5) Creates a database containing information on every American and makes it accessible to motor vehicle employees and law enforcement officials nationwide that can be used to gather and manage information on citizens;
- (6) Enables the creation of additional private sector databases that combine both transactional information and driver's license information gained from scanning the machine-readable information to be contained on every driver's license, which could create significant hardships on Americans attempting to verify their identities in order to utilize air travel, open bank accounts, or perform many other functions required to live in the United States;
- (7) Enables the crime of identity theft by making personal information of all Americans more accessible from more locations;
- (8) Contains onerous record verification and retention provisions that place unreasonable burdens on motor vehicle licensing and registration divisions and on third parties required to verify records;
- (9) Places enormous burdens on consumers seeking new drivers' licenses;
- (10) Places motor vehicle licensing and registration division staff on the front lines of immigration enforcement by forcing public employees to determine federal citizenship and immigration status; and
- (11) Passed as a rider to an emergency appropriations measure for military operations in Iraq and Afghanistan, which did not receive a hearing by any congressional committee or a vote solely on its merits.

Your Committee further finds that it opposes the institution of a National Identification Card and the implementation of the Real ID Act of 2005, particularly those provisions that:

- (1) Violate the rights and liberties granted under the Hawaii State Constitution or the United States Constitution, and the Bill of Rights; and
- (2) Create unfunded mandates for the State without any plan for financial subsidization for implementation.

Your Committee further finds that the Legislature of the State of Hawaii supports the repeal of the Real ID Act of 2005, and urges the Hawaii Congressional delegation to support any legislation that calls for the repeal, amendment, or, at a minimum, the provision of proper funding for the implementation of the Real ID Act of 2005.

Your Committee amended this measure by clarifying language in the measure describing the creation of a public sector database and removing language concerning a provision contained in the Real ID Act of 2005 that no longer exists.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 31, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 31, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Hemmings).

SCRep. 1034 Intergovernmental and Military Affairs on Gov. Msg. Nos. 493 and 494

Recommending that the Senate advise and consent to the nominations of the following:

ADVISORY BOARD ON VETERANS' SERVICES

G.M. No. 493 ANNE V. STEVENS, for a term to expire 6-30-2008; and

G.M. No. 494 PATRICIA ANN WIELAND, for a term to expire 6-30-2009

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Anne V. Stevens and Patricia Ann Wieland to have the necessary qualifications to be appointed to the Advisory Board on Veterans' Services.

Your Committee received testimony in support of Anne V. Stevens from the Director of the Office of Veterans Services, State of Hawaii, Department of Defense; The Mestizo Association; Pearl Harbor Visitor Center; and one individual. Ms. Stevens served for twelve years in the United States Coast Guard and received the United States Coast Guard Commendation Medal for her search and rescue work in Hawaii where she is credited with saving one hundred fifty-seven lives. Ms. Stevens also served as a former legislator in the State of Hawaii House of Representatives where she avidly served the people of Waikiki and Ala Moana. She worked as a sincere and tireless advocate for the homeless veterans that were recently evicted from Ala Moana Beach Park, providing them with important information on veterans' shelters and other services. Ms. Stevens brings a wealth of knowledge and commitment to the issues affecting veterans making her a key component to the Advisory Board on Veterans' Services.

Your Committee received testimony in support of Patricia Ann Wieland from the Director of the Office of Veterans Services, State of Hawaii, Department of Defense; Veterans Helping Veterans; and two individuals. Ms. Wieland honorably served in the United States Navy Reserve for twenty-one years. She currently works as the Coordinator for the Veterans' Affairs Volunteer Service at the Spark Matsunaga Medical Center where she provides diligent assistance to returning veterans regarding the procedures for filing their claims for veterans' benefits. Ms. Wieland's heightened understanding of the issues and needs of veterans make her a valuable asset to the Advisory Board on Veterans' Services.

As affirmed by the records of votes of the members of your Committee on Intergovernmental and Military Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Hemmings).

SCRep. 1035 Judiciary and Labor on H.B. No. 853

The purpose of this measure is to clarify that a prevailing wage law violation by a contractor on one project counts as one violation of chapter 104, Hawaii Revised Statutes (HRS), and that each prevailing wage law violation by the same contractor on one or more different projects will each count as another violation so that multiple prevailing wage law violations can occur on a single project or on multiple projects, even though the projects were all occurring at about the same time.

Testimony in support of this measure was received from the Hawaii Building and Construction Trades Council, Hawaii State AFL-CIO, International Union of Elevator Constructors, Laborers' Union Local 368, Iron Workers, Plumbers-Fitters Local 675 and one individual. Testimony in opposition was received from the Department of Labor and Industrial Relations, Building Industry Association, Healy Tibbitts Builders, Inc., King & Neel, Inc., Rons Construction Corporation, KAIKOR Construction Company, Inc., S&M Sakamoto, Inc., Koga Engineering & Construction, Inc., Hawaiian Dredging Construction Company, Royal Contracting Co., Ltd., Ralph S. Inouye Co., Ltd., General Contractor, A-1 A-Lectrician, Inc., and MEI Corp.

All testifiers agreed that no contractor should be allowed to skirt the prevailing wage law that is intended to protect the worker on the same or on different projects. Therefore, your Committee finds that amending the law to clarify that one violation on a single project will constitute the first violation and that further violations on the same or on another project by the same contractor will constitute the second, third, or more violations by the same contractor for purposes of enforcement and increased penalties. Thus, even if the contractor has more than one project that is subject to the prevailing wage law requirements, and violates the law on each project, even though the violation may occur on the same day, each violation will be counted as a separate violation and be used against the contractor as a repeat violator of the prevailing wage law for enforcement purposes.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, Your Committee is in accord with the intent and purpose of H.B. No. 853, H.D. 2, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Kokubun).

SCRep. 1036 Economic Development and Taxation on Gov. Msg. Nos. 306, 307, 308 and 309

Recommending that the Senate advise and consent to the nominations of the following:

COMMUNITY-BASED ECONOMIC DEVELOPMENT ADVISORY COUNCIL

- G.M. No. 306 ELAINE LOUISE HOGUE, for a term to expire 6-30-2011;
 G.M. No. 307 WAYNETTE HO-KWON, for a term to expire 6-30-2011;
 G.M. No. 308 ANNA K. RIBUCAN, for a term to expire 6-30-2011; and
 G.M. No. 309 ANNA MARIE P. SPRINGER, for a term to expire 6-30-2011

Upon review of the testimonies and statements submitted by the nominees, your Committee finds that Elaine Louise Hogue, Waynette Ho-Kwon, Anna K. Ribucan, and Anna Marie P. Springer have the necessary character, experience, and qualifications to serve on the Community-Based Economic Development Advisory Council.

Your Committee received testimony in support of Elaine Louise Hogue from the Department of Business, Economic Development, and Tourism.

Elaine Louise Hogue is Project Administrator for St. Anthony of Padua Church and School, where she is responsible for project, program, and long-term planning. Ms. Hogue also has extensive experience in grants administration, community development, and fundraising in both Hawaii's nonprofit and business sectors. She is a reappointment to the Council, and during her first four years over \$750,000 in grant funds were awarded to fifty-three communities statewide and four hundred twenty-four businesses were created or sustained by this assistance.

Your Committee received testimony in support of Waynette Ho-Kwon from the Department of Business, Economic Development, and Tourism.

Waynette Ho-Kwon is Director of the Lana'i Visitors Bureau, where her responsibilities include all aspects of promoting the island as a visitor and corporate destination. A graduate of Kapi'olani Community College, Ms. Ho-Kwon began her career in the visitor industry, and remains committed to the many related cultural events, including the Aloha Week festivals. She is a reappointment to the Council, where she is a strong advocate and liaison for the island of Lana'i.

Your Committee received testimony in support of Anna K. Ribucan from the Department of Business, Economic Development, and Tourism; United States Small Business Administration; County of Maui Office of Economic Development; and Maui Small Business Development Center.

Anna K. Ribucan is the Small Business Advocate for the County of Maui Office of Economic Development. In her work, Ms. Ribucan relies both on her extensive personal experience as a small business owner and as a corporate trainer and advocate for a broad range of Hawaii companies. She has served on the Council for one year, and her expertise with business plans, loan applications, and grant requests has proven a valuable asset in the Council's deliberations and decisions.

Your Committee received testimony in support of Anna Marie P. Springer from the Department of Business, Economic Development, and Tourism and American Savings Bank.

Anna Marie P. Springer is Senior Vice President, Community Liaison, American Savings Bank, where she has been a member of senior management since the mid 1980s. Her extensive career in Hawaii's financial industry earned her the Pacific Business News "Business Woman Advocate of the Year" in 2000, and the United States Small Business Administration "Women in Business Award" in 2001. She is active in a wide range of professional, civic, and community organizations, and brings a wealth of experience and expertise to her reappointment to the Council.

As affirmed by the records of votes of the members of your Committee on Economic Development and Taxation that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1037 Economic Development and Taxation on Gov. Msg. No. 350

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DIRECTORS OF THE HIGH TECHNOLOGY DEVELOPMENT CORPORATION

- G.M. No. 350 SHARON MARIE WONG, for a term to expire 6-30-2011

Upon review of the testimony and statement submitted by the nominee, your Committee finds that Sharon Marie Wong has the necessary character, experience, and qualifications to serve on the High Technology Development Corporation.

Your Committee received testimony in support of the nominee by the Department of Business, Economic Development, and Tourism; the High Technology Development Corporation; and one individual.

Sharon Marie Wong is President of IMS, Inc., an accounting and tax preparation firm she founded in 1974. A graduate of the New York Institute of Finance, Ms. Wong has also worked in the real estate industry in Hawaii. She is a member of numerous civic and business organizations, ranging from the Chamber of Commerce of Hawaii, Better Business Bureau of Hawaii, and the Hearing Committee for the Hawaii Disciplinary Board of the Hawaii Supreme Court.

Ms. Wong has served on the board of the High Technology Development Corporation since 2003, and is currently Second Vice-Chair. An active board member, she brings a practical, entrepreneurial approach and solid financial experience to all aspects of the deliberations of the High Technology Development Corporation.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1038 Economic Development and Taxation on Gov. Msg. Nos. 390 and 391

Recommending that the Senate advise and consent to the nominations of the following:

SMALL BUSINESS REGULATORY REVIEW BOARD

G.M. No. 390 BRUCE E. BUCKY, for a term to expire 6-30-2010; and

G.M. No. 391 PETER YUKIMURA, for a term to expire 6-30-2009

Upon review of the testimonies and statements submitted by the nominees, your Committee finds that Bruce E. Bucky and Peter Yukimura have the necessary character, experience, and qualifications to serve on the Small Business Regulatory Review Board.

Your Committee received testimony in support of Bruce E. Bucky from the Department of Business, Economic Development, and Tourism and the Small Business Regulatory Review Board.

Bruce E. Bucky is President and Chief Executive Officer of Hildgund Jewelry, a company he has owned since 2002. Prior to purchasing Hildgund Jewelry, Mr. Bucky served in various executive and sales offices with the company beginning in 1991. A graduate of the Gemological Institute of America, Mr. Bucky is currently Vice President of the Hawaii Jewelers Association. He is also active in civic and community organizations, including Hawaii Special Olympics and Habitat for Humanity.

Your Committee received testimony in support of Peter Yukimura from the Department of Business, Economic Development, and Tourism; Small Business Regulatory Review Board; First Hawaiian Bank Kauai Region; Central Pacific Bank, Better Brands; Fujita & Miura Public Relations, LLC; Meadow Gold Dairies; and Solid Concepts, Inc.

Peter Yukimura is currently President of three companies: Yukimura's, Inc.; Koa Trading Company; and M & K Distributors. A life-long resident of Kauai, he holds a Bachelor of Science degree in Business Administration from the University of Hawaii, and joined the family business in 1971. Mr. Yukimura served as a member of the Land Use Commission from 1997-2005, and is currently 2nd Vice Chair of the Board of Directors of Kauai Island Utility Cooperative. He is active in numerous business and civic organizations, including the Hawaii Employers Council, Kauai Chamber of Commerce, Kauai United Way, and Kauai Community College Foundation.

As affirmed by the records of votes of the members of your Committee on Economic Development and Taxation that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1039 Economic Development and Taxation on Gov. Msg. No. 423

Recommending that the Senate advise and consent to the nomination of the following:

KING KAMEHAMEHA CELEBRATION COMMISSION

G.M. No. 423 BENJAMIN J. YIM, for a term to expire 6-30-2011

Upon review of the testimony and statement submitted by the nominee, your Committee finds that Benjamin J. Yim has the necessary character, experience, and qualifications to serve on the King Kamehameha Celebration Commission.

Your Committee received testimony in support of the nominee by the Department of Accounting and General Services.

Benjamin J. Yim is a Customer Service Representative and a staff member of the Visual Department at Maui Divers of Hawaii, positions he has held for over fifteen years. In addition, Mr. Yim has extensive experience as a floral designer and has worked in various aspects of Hawaii's visitor industry for over twenty-five years. A graduate of Kaimuki High School and Honolulu Business College, Mr. Yim has also been a performer, host, and lei maker since the early 1980s for cultural events ranging from the Miss Hawaii Pageant to the Aloha Week festivities.

Mr. Yim represents the Kapahulu Music Club, and as a reappointment to the Commission he has been actively involved in chairing various committees and participating in all aspects of the Commission's work.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1040 Education on H.B. No. 21

The purpose of this measure is to clarify when testing for asbestos-containing materials is required at all public and charter school facilities under the Asbestos Hazard Emergency Response Act of 1986.

Testimony in support of this measure was submitted by the Department of Education, the Hawaii State Teachers Association, and the Hawaii Government Employees Association.

Your Committee finds that pursuant to Act 186, Session Laws of Hawaii (SLH) 2005, the Legislature required the Department of Education to take responsibility for ensuring that asbestos testing is conducted prior to the renovation or painting of school facilities. Your Committee further finds that Act 51, SLH 2005, requires the testing of both exterior and interior surfaces, if the surfaces have not previously been tested. However, under the Federal Asbestos Hazard Emergency Response Act of 1986, asbestos testing is only required on interior surfaces, including exterior hallways connecting buildings, porticos, and mechanical systems used to condition interior spaces, for all suspected asbestos-containing materials. Therefore, the law should be clarified to focus resources and efforts on testing those surfaces most likely to contain asbestos.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 21, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Hee).

SCRep. 1041 Education on H.B. No. 25

The purpose of this measure is to increase the number of qualified teachers in Hawaii by requiring the Hawaii Teacher Standards Board to pursue full teacher license reciprocity with all other states.

Testimony in support of this measure was submitted by the Department of Education and the Hawaii Teacher Standards Board. Testimony in opposition to this measure was submitted by the University of Hawaii and the Hawaii State Teachers Association.

Your Committee finds that Hawaii is currently experiencing a teacher shortage problem, which often seems to be exacerbated by the prescriptive requirements for teacher licensure in the State. The State must explore methods for developing, recruiting, and retaining qualified teachers from both within and outside of the State. Your Committee believes that there are many highly qualified teachers who are licensed outside of Hawaii and willing to teach within the State, but are unable to readily obtain a Hawaii teaching license.

Under existing law, the Hawaii Teacher Standards Board is required to pursue full teacher license reciprocity with the mid-Atlantic states, as well as with California, Colorado, Illinois, Michigan, New York, Oregon, and Washington. Your Committee believes that efforts to increase the teacher pool can be more fully realized through the Hawaii Teacher Standards Board's pursuit of full teacher license reciprocity with all states.

Your Committee recognizes the concerns that some or many of the other states may have standards for teacher licensure that are less than those necessary for licensure in Hawaii; however, each state would have to be examined on an individual basis to determine the appropriateness of licensure reciprocity. Additionally, the Hawaii Teacher Standards Board has indicated that it is currently in the process of adopting new administrative rules to allow a teacher with an out-of-state license who has undergone similar testing requirements to be automatically licensed in Hawaii. Your Committee believes that these new administrative rules would help to provide a larger qualified teacher applicant pool for Hawaii's schools.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the Hawaii Teacher Standards Board to adopt policies for the issuance of licenses to teachers with out-of-state licenses who have passed similar testing requirements to those required in Hawaii; provided that upon adoption, administrative rules for that purpose would supersede the statutory requirement; and
- (2) Requiring the Hawaii Teacher Standards Board to provide notification to the Chairs of the Senate Committee on Education and the House of Representatives Committee on Education of the adoption of administrative rules for out-of-state teacher licensure.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 25, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 25, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Hee).

SCRep. 1042 Intergovernmental and Military Affairs on S.R. No. 19

The purpose of this measure is to provide Federal veterans' benefits and services to World War II Filipino veterans.

Your Committee received testimony in support of this measure from the Philippine Nurses Association – Hawaii, Filipino Coalition for Solidarity, Congress of Visayan Organizations, Asian American Network for Cancer Awareness Research and Training – Hawaii, National Federation of Filipino American Associations, Oahu Filipino Community Council, Nursing Advocates and Mentors, Inc., and United Filipino Council of Hawaii.

Your Committee finds that members of the Philippine Commonwealth Armed Forces and the Special Philippine Scouts were drafted into the United States Armed Forces by the Military Order of July 26, 1941, and from 1941-1946, tens of thousands of Filipino soldiers risked their lives assisting the United States Armed Forces in its campaign to liberate the Philippines. To this end, it is the intent of your Committee to support the provision of Federal veterans' benefits and services to Filipino wartime veterans for their valiant service during World War II.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 19 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, none.

SCRep. 1043 Intergovernmental and Military Affairs on S.C.R. No. 39

The purpose of this measure is to provide Federal veterans' benefits and services to World War II Filipino veterans.

Your Committee received testimony in support of this measure from the Philippine Nurses Association – Hawaii, Filipino Coalition for Solidarity, Congress of Visayan Organizations, Asian American Network for Cancer Awareness Research and Training – Hawaii, National Federation of Filipino American Associations, Oahu Filipino Community Council, Nursing Advocates and Mentors, Inc., and United Filipino Council of Hawaii.

Your Committee finds that members of the Philippine Commonwealth Armed Forces and the Special Philippine Scouts were drafted into the United States Armed Forces by the Military Order of July 26, 1941, and from 1941-1946, tens of thousands of Filipino soldiers risked their lives assisting the United States Armed Forces in its campaign to liberate the Philippines. To this end, it is the intent of your Committee to support the provision of Federal veterans' benefits and services to Filipino wartime veterans for their valiant service during World War II.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 39 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, none.

SCRep. 1044 Intergovernmental and Military Affairs on S.R. No. 18

The purpose of this measure is to grant the priority issuance of visas to Filipino veterans' children with approved immigration petitions.

Your Committee received testimony in support of this measure from the United Filipino Council of Hawaii, Asian American Network for Cancer Awareness Research and Training – Hawaii, Philippine Nurses Association - Hawaii, Nursing Advocates and Mentors, Inc., Oahu Filipino Community Council, Congress of Visayan Organizations, Filipino Coalition for Solidarity, and the National Federation of Filipino American Associations, Region 12. Oral testimony was given by World War II Filipino-American Veterans Association - Hawaii.

Your Committee finds that members of the Philippine Commonwealth Armed Forces and the Special Philippine Scouts were drafted into the United States Armed Forces by the Military Order of July 26, 1941, and from 1941-1946, tens of thousands of Filipino soldiers risked their lives assisting the United States Armed Forces in its campaign to liberate the Philippines.

Your Committee further finds that the Immigration Act of 1990 awarded citizenship to each veteran, but unfairly excluded the veterans' dependants by requiring each veteran to submit an immigrant petition with supporting affidavits requesting that the veterans' dependants be permitted to live with the veteran. To this end, it is the intent of your Committee to support the granting of priority issuance of visas to veterans' children with approved immigration petitions in order for the veterans to be reunited with their family members.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 18 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, none.

SCRep. 1045 Intergovernmental and Military Affairs on S.C.R. No. 38

The purpose of this measure is to grant the priority issuance of visas to Filipino veterans' children with approved immigration petitions.

Your Committee received testimony in support of this measure from the United Filipino Council of Hawaii, Asian American Network for Cancer Awareness Research and Training – Hawaii, Philippine Nurses Association - Hawaii, Nursing Advocates and Mentors, Inc., Oahu Filipino Community Council, Congress of Visayan Organizations, Filipino Coalition for Solidarity, and the National Federation of Filipino American Associations, Region 12. Oral testimony was given by World War II Filipino-American Veterans Association - Hawaii.

Your Committee finds that members of the Philippine Commonwealth Armed Forces and the Special Philippine Scouts were drafted into the United States Armed Forces by the Military Order of July 26, 1941, and from 1941-1946, tens of thousands of Filipino soldiers risked their lives assisting the United States Armed Forces in its campaign to liberate the Philippines.

Your Committee further finds that the Immigration Act of 1990 awarded citizenship to each veteran, but unfairly excluded the veterans' dependants by requiring each veteran to submit an immigrant petition with supporting affidavits requesting that the veterans' dependants be permitted to live with the veteran. To this end, it is the intent of your Committee to support the granting of priority issuance of visas to veterans' children with approved immigration petitions in order for the veterans to be reunited with their family members.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 38 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, none.

SCRep. 1046 Intergovernmental and Military Affairs on S.C.R. No. 47

The purpose of this measure is to request that the President of the United States and the United States Congress support the Filipino Veterans Equity Act of 2007.

Your Committee did not receive testimony regarding this measure.

Your Committee finds that the Filipino Veterans Equity Act of 2007 would consider certain service in the organized military forces of the Government of the Commonwealth of the Philippines and the Philippine Scouts to have been on active service for the purposes of benefits under programs administered by the Secretary of Veterans' Affairs. To this end, your Committee finds that qualified Filipino veterans who courageously fought along side America's Armed Forces in the Philippines during World War II should receive veterans' benefits and, therefore, urges the President of the United States and the United States Congress to support the passage of the Filipino Veterans Act of 2007.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 47 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, none.

SCRep. 1047 Intergovernmental and Military Affairs on H.B. No. 831

The purpose of this measure is to fund transportation costs associated with transporting the body of a World War II New Filipino Scout to the Philippines who is not eligible for interment in state or federal veterans cemeteries by authorizing the Office of Veterans' Services, at the request of a deceased World War II New Filipino Scout's survivor or an interested party, to receive, review, and, as appropriate, approve requests for payments for:

- (1) Providing funeral and burial services for a New Filipino Scout who died after June 30, 1994; and
- (2) Transporting the remains of a New Filipino Scout to the Philippines.

Your Committee received testimony in support of this measure from the Office of Veterans Services, Philippine Nurses Association – Hawaii, Filipino Coalition for Solidarity, Congress of Visayan Organizations, Hawaii Asian American Network for Cancer Awareness Research and Training, Oahu Filipino Community Council, Nursing Advocates and Mentors, Inc., World War II Filipino-American Veterans - Hawaii, and one individual.

Your Committee finds that there are tremendous costs associated with the funeral, burial, and transportation services for Filipino veterans, and that many families and friends of Filipino veterans cannot afford to pay for these activities in advance. Your Committee also finds that, under existing law, although the survivor or interested party responsible for the funeral and transportation costs of a qualified Filipino veteran would be eligible to receive a burial grant from the Office of Veterans' Services to defray such costs, the responsible person must produce an itemized, paid invoice of the services rendered in order to receive reimbursement. Because of these financial constraints, the bodies of some deceased veterans

cannot be properly buried until the deceased veteran's survivor or interested parties raise the necessary funds to pay the mortuary for funeral and other related services.

Your Committee amended this measure by expanding the application of the measure to all World War II Filipino veterans who are not eligible for interment in a state or federal veterans cemetery so that they may receive a burial grant from the Office of Veterans' Services.

It is the intent of your Committee to require the Office of Veterans' Services, at the request of a survivor or interested party of a deceased World War II Filipino veteran, to make payments directly to a mortuary or crematory for funeral and burial services, and to transport the remains to the Philippines upon submission of an itemized unpaid invoice.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 831, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 831, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, none.

SCRep. 1048 Intergovernmental and Military Affairs on H.B. No. 613

The purpose of this measure is to change and clarify the composition of the Policy Advisory Board on Veterans' Services in order to reflect the changing regional demography of veterans in the State, particularly the increase of veterans residing in West Hawaii.

Specifically, this measure:

- (1) Increases the membership of the Board from seven to nine members;
- (2) Requires that, of the members:
 - (A) At least one member each shall reside in the county of Maui, county of Kauai, East Hawaii, and West Hawaii; and
 - (B) Four members shall reside in the City and County of Honolulu; and
- (3) Designates the Director for the Office of Veterans' Services as an ex-officio voting member of the Board.

Your Committee received testimony in support of this measure from the Director of the Office of Veterans' Services.

Your Committee finds that the number of veterans in the district of West Hawaii is increasing every year and in order to provide fair and necessary representation for these veterans, representation on the State Advisory Board on Veterans' Services should reflect this distinction. To this end, it is the intent of your Committee to ensure proper representation for all veterans that reside in the State by requiring a representative from West Hawaii to serve on the Advisory Board on Veterans' Services.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 613, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, none.

SCRep. 1049 Intergovernmental and Military Affairs on S.C.R. No. 41

The purpose of this measure is to condemn the proposed fee increase by the United States Citizenship and Immigration Services and request a halt on the fee increase for all naturalization applications.

Your Committee did not receive testimony regarding this measure.

Your Committee finds that our Nation's and State's newcomers are making valuable contributions to the social, cultural, and economic life of the United States of America and the State of Hawaii.

Your Committee further finds that the United States Citizenship and Immigration Services proposed a sixty-seven per cent fee increase to begin the naturalization process, raising the fee from \$400 to \$675. This proposed fee increase would place a nearly insurmountable barrier in the path of many legal permanent residents who seek to naturalize.

Your Committee further finds that the United States Citizenship and Immigration Services' proposed fee increase is contrary to the spirit of our Nation's and State's tradition of welcoming and integrating immigrants, and sends legal permanent residents the wrong message at a time when they are seeking to embrace U.S. citizenship. To this end, it is the intent of your Committee to:

- (1) Condemn the proposed fee increase;
- (2) Request a halt on the fee increase for all naturalization applications;
- (3) Request that the United States Citizenship and Immigration Services to provide President George W. Bush and the United States Congress with accurate information in order to ascertain the amount of federal appropriations needed for the United States Citizenship and Immigration Services to modernize its operations and enhance its naturalization services, without raising the naturalization fee; and
- (4) Request that President George W. Bush and the United States Congress provide appropriations to supplement fee revenues to cover costs of major United States Citizenship and Immigration Services' expenses.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 41 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, none.

SCRep. 1050 Intergovernmental and Military Affairs on S.C.R. No. 40

The purpose of this measure is to provide funding for planning, design, and construction of a new State Emergency Operating Center.

Your Committee received testimony in support of this measure from the Director of Civil Defense, State Department of Defense.

Your Committee finds that emergency management is one of the most important and critical functions of state government.

Your Committee further finds that it is the intent of the Legislature to expand and improve Hawaii's emergency management operations by supporting the construction of a new State Emergency Operating Center.

Your Committee further finds that the State Civil Defense received federal funding in the amount of \$1.5 million to plan and design the State Emergency Operating Center. As such, your Committee amended this measure and its title by removing the references to the planning and design of the State Emergency Operating Center. It is the intent of your Committee to support the approval of funding for the construction of the State Emergency Operating Center in order to enhance Hawaii's emergency management capabilities.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 40, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 40, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, none.

SCRep. 1051 (Majority) Intergovernmental and Military Affairs on H.B. No. 149

The purpose of this measure is to provide relief to victims of the October 15, 2006, earthquake by establishing a one-time, non-refundable earthquake tax credit.

Your Committee received testimony in support of this measure from the Director of Civil Defense, State Department of Defense. Your Committee received comments regarding this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that many of the victims of the October 15, 2006, earthquake did not have earthquake insurance and the earthquake assistance provided to victims by the Federal Emergency Management Agency was not a sufficient amount to offset the repair and replacement costs of damaged property, causing many victims to pay for repair and replacement costs out of their own pockets. Therefore, it is the intent of your Committee to provide a one-time, non-refundable tax credit to victims who have unreimbursed losses as a result of the October 15, 2006, earthquake.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 149, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, 1 (Hemmings). Excused, none.

SCRep. 1052 Intergovernmental and Military Affairs on H.B. No. 1414

The purpose of this measure is to make an emergency appropriation to the Department of Taxation to address unbudgeted expenses incurred by the Department in implementing the administration of the county surcharge on State General Excise Tax.

Specifically, this measure appropriates \$5,000,000 for fiscal year 2006-2007, to the Department of Taxation to address these expenses.

Your Committee received testimony in support of this measure from the Department of Taxation and the City and County of Honolulu.

Your Committee finds that pursuant to the requirements set forth in Article VII, Section 9, of the Constitution of the State of Hawaii, the Governor, in Governor's Message No. 240 to the Legislature, requested immediate consideration and passage of this measure by the Legislature, citing an existing critical funding shortage.

Your Committee further finds that this measure provides funding in order to:

- (1) Assure that the City and County of Honolulu's county surcharge on State General Excise Tax is not adversely impacted; and
- (2) Ensure the ability to obtain federal funding of the City and County of Honolulu's mass transit project.

The intent of your Committee is to reimburse the Department of Taxation for unbudgeted and unfunded costs incurred in implementing and administering the City and County of Honolulu surcharge on State General Excise Tax.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1414, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, none.

SCRep. 1053 Intergovernmental and Military Affairs on H.B. No. 421

The purpose of this measure is to allow the counties to invest moneys in certain short-term investment instruments such as commercial paper and bankers' acceptances.

Your Committee received testimony in support of this measure from the Mayor of the County of Maui, Maui County Council, County of Kauai Department of Finance, County of Maui Department of Finance, County of Hawaii Department of Finance, and Central Pacific Bank.

Your Committee finds that this measure expands the short-term investment options for county moneys to include A-1/P-1 rated commercial paper and bankers' acceptances, which will provide the counties with the option to choose the most advantageous method to invest their moneys while ensuring safety of principal. To this end, it is the intent of your Committee to provide the counties with more flexibility regarding management of their short-term investment portfolio in order to maximize investment returns.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 421, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, none.

SCRep. 1054 Intergovernmental and Military Affairs on H.B. No. 625

The purpose of this measure is to increase the State's preparedness for emergencies.

Specifically, this measure appropriates funds for the 2007-2008 fiscal year to the Department of Labor and Industrial Relations for a feasibility study for a Hawaii state emergency response training facility.

Testimony in support of this measure was submitted by the State Fire Council and the Honolulu Fire Department. Testimony in support of the intent of this measure was submitted by the state Department of Defense.

Your Committee finds that it is imperative that Hawaii's first responders, including the firefighters, law enforcement officers, conservation and resources enforcement officers, and others, are adequately trained and prepared to respond to natural and manmade disasters. Your Committee further finds that in order to be adequately prepared, Hawaii's emergency response agencies need a training center in the State to conduct trainings for a wide range of situations and safety related tasks.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 625, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, none.

SCRep. 1055 Intergovernmental and Military Affairs on S.R. No. 20

The purpose of this measure is to provide funding for planning, design, and construction of a new State Emergency Operating Center.

Your Committee received testimony in support of this measure from the Director of Civil Defense, State Department of Defense.

Your Committee finds that emergency management is one of the most important and critical functions of state government.

Your Committee further finds that it is the intent of the Legislature to expand and improve Hawaii's emergency management operations by supporting the construction of a new State Emergency Operating Center.

Your Committee further finds that the State Civil Defense received federal funding in the amount of \$1.5 million to plan and design the State Emergency Operating Center. As such, your Committee amended this measure and its title by removing the references to the planning and design of the State Emergency Operating Center. It is the intent of your Committee to support the approval of funding for the construction of the State Emergency Operating Center in order to enhance Hawaii's emergency management capabilities.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 20, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 20, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, none.

SCRep. 1056 Tourism and Government Operations on H.B. No. 570

The purpose of this measure is to exempt from the general excise tax amounts received by the operator of the Hawaii Convention Center for reimbursement of costs or advances made pursuant to a contract with the Hawaii Tourism Authority.

Your Committee received testimony in support of this measure from the Hawaii Tourism Authority; Department of Business, Economic Development, and Tourism; Department of Taxation, and The Chamber of Commerce of Hawaii. Comments were received from the Tax Foundation of Hawaii.

Existing law requires that the general excise tax be imposed upon amounts received from any source, unless exempted by statute. Thus, the operator of the Hawaii Convention Center, a private entity on contract with the Hawaii Tourism Authority, must pay the general excise tax for revenue it receives as part of its contract. The moneys are paid out of the Convention Center Enterprise Special Fund. Your Committee finds that the moneys paid in general excise taxes by the private contractor could otherwise be applied to the operation and marketing of the Hawaii Convention Center. The amount of general excise taxes paid in 2006 was \$700,000, according to testimony. This is a substantial sum of money that, in effect, amounts to taking money from one government source and putting it in another of the same kind.

The intent of this measure is to relieve the inequity of what amounts to the State taxing itself for its own operations. The situation is distinguishable from the situation wherein a private entity is contracted by the State for services that are not provided by the State.

Your Committee has amended this measure by:

- (1) Placing the tax exemption in section 237-24.75, Hawaii Revised Statutes, rather than in section 237-24.7, Hawaii Revised Statutes, as your Committee believes that the exemption is more appropriately situated there;
- (2) Changing the effective date from July 1, 2025, to upon approval; and
- (3) Making a technical, nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Tourism and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 570, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 570, H.D. 1, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Tsutsui).

SCRep. 1057 Tourism and Government Operations on H.B. No. 1277

The purpose of this measure is to repeal the attractions and educational facilities tax credit for the Ko Olina Resort and Marina and the Makaha Resort.

Testimony in opposition was received from the Department of Business, Economic Development, and Tourism; Department of Taxation; and Office of Planning. Comments were received from the Tax Foundation of Hawaii.

According to a *Honolulu Advertiser* article of January 18, 2007, the developer of the Ko Olina Resort and Marina revealed plans to cancel the building of an aquarium financed by tax credits, as enacted by Act 100, Session Laws of Hawaii 2003, codified as section 235-110.46, Hawaii Revised Statutes. Consequently, this measure would repeal the tax credit.

Your Committee finds that the Leeward Coast of Oahu has levels of poverty in excess of twenty per cent in each of the census tracts comprising this region. This condition has existed for over forty years despite the efforts of federal, state, and county programs to alleviate the suffering or reduce the numbers of individuals and families impacted.

Your Committee further finds that the development of Ko Olina and the continued strength of the State's visitor industry has expanded the need for affordable workforce housing and training to prepare for the State's future economic growth. Because of the success of Ko Olina, your Committee believes that the tax credits could be redesignated and used to serve and revive the Leeward Coast through affordable rental housing and visitor industry education and training opportunities within the region.

Accordingly, your Committee has amended this measure to add a Leeward Coast revitalization tax credit for affordable rental housing and educational and training facilities.

The intent of this measure, as amended, is to provide an economic stimulus to the development of the Leeward Coast, similar to the intent of Act 100, Session Laws of Hawaii 2003, which provided the Ko Olina Resort and Marina and Makaha Resort tax credit. Your Committee believes that, since the Ko Olina development has been established and plans for the aquarium have been abandoned, the revitalization of the Leeward Coast needs to be focused on affordable rental housing and educational and training projects, both of which would serve to revitalize the region and provide greater employment opportunities and a higher standard of living.

As affirmed by the record of votes of the members of your Committee on Tourism and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1277, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1277, H.D. 2, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 3. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, 1 (Tsutsui).

SCRep. 1058 Judiciary and Labor on Gov. Msg. No. 405

Recommending that the Senate consent to the nomination of the following:

INTERMEDIATE COURT OF APPEALS

G.M. No. 405 MARK E. RECKTENWALD, for a term of ten years

Your Committee finds that the nominee received an AB degree, magna cum laude with the highest honors in anthropology from Harvard University and a JD degree from the University of Chicago Law School. He was admitted to the Hawaii Bar in 1986 and clerked for the Chief United States District Judge Harold M. Fong for one year. In 1988-1991, the nominee worked at the law firm of Goodwill Anderson Quinn and Stifel as a litigation associate. The nominee then went to work at the United States Attorney's Office in Honolulu as a prosecutor in the criminal division from 1991-1997. In 1997, the nominee became a partner in the law firm of Marr Hipp Jones and Wang and specialized in labor and employment litigation. In 1999, the nominee went back to the United States Attorney's Office in Honolulu as an Assistant U.S. Attorney and served in both the civil and criminal divisions of that office until 2003. The nominee prosecuted wildlife crimes, fraud on financial institutions, tax fraud, investment scams, and other fraud cases. In the civil division, the nominee handled cases in which the government sought and negotiated settlements a number of health care fraud cases. The nominee became the Director of the Department of Commerce and Consumer Affairs in 2003 and is currently in that position.

Your Committee inquired of the Office of Disciplinary Counsel as to whether there were any grievances or complaints filed against the nominee and finds that there were no grievances or complaints filed with that office.

Your Committee finds that the Board of Directors of the Hawaii State Bar Association found the nominee to be highly qualified for the position of Chief Judge of the Intermediate Court of Appeals.

Your Committee received testimony in support, upon a request from your Committee for information on the nominee, from the Chief United States District Court Judge and three other United States District Court judges from the Hawaii District. Your Committee also received testimony in support of the nominee from the United States Attorney, the Attorney General, State of Hawaii Organization of Police Officers, the Hawaii Government Employees Association, Hawaii Medical Association, Hawaii Building and Construction Trades Council, Hawaii Financial Services Association, Kaunakapili Church, Big Island Toyota, First Hawaiian Bank, Hidano Construction, Laborers' Union Local 368, Hawaii State Teachers Association, Hawaiian Electric Company, Building Industry Association-Hawaii, Retail Merchants of Hawaii, Government Employees Insurance Company, Chamber of Commerce of Hawaii, 31 attorneys, and numerous citizens.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1059 (Majority) Judiciary and Labor on Gov. Msg. No. 404

Recommending that the Senate not consent to the nomination of the following:

CIRCUIT COURT OF THE FIRST CIRCUIT

G.M. No. 404 GLENN J. KIM, for a term of ten years

Your Committee finds that Glenn J. Kim received a B.A. and J.D. from the University of Hawaii, and an A.M. and Ph.D from Harvard University. He has been a Deputy Prosecuting Attorney for the City and County of Honolulu since 1993, and currently serves as a felony trial

attorney in Career Criminal and Domestic Violence Units, and Supervisor of the Domestic Violence Misdemeanor and Felony Units. He previously served as Law Clerk to Hawaii Supreme Court Chief Justice Ronald T.Y. Moon, Defender Intern at the Office of the Public Defender, State of Hawaii, Judicial Extern for Judge Alan C. Kay, U.S. District Court of the District of Hawaii, an Assistant Professor of English at the University of Hawaii and a Lecturer on History and Literature at Harvard University. During service with the U.S. Army in Vietnam, he was awarded the Bronze Star Medal. He has received numerous academic awards and honors, including the Carl K. Mirikitani Valedictory Prize for graduating first in his law school class.

The nominee is a member of the Hawaii State Bar Association (HSBA).

Your Committee received testimony in support of the nominee from the Attorney General, the Office of the Prosecuting Attorney, as well as other attorneys and individuals. Your Committee received testimony in opposition to the nominee. Your Committee also received oral testimony in opposition to the nominee from a former prosecutor subpoenaed to appear and testify under oath. The HSBA also submitted comments.

The Board of Directors of the HSBA found the nominee to be "qualified" for the position of Judge, Circuit Court of the First Circuit. The nominee was asked to submit a resume, respond to a questionnaire, and appear before the HSBA Board to answer questions. The criteria for judicial qualification ratings include integrity and diligence, legal knowledge and ability, professional experience, judicial temperament, financial responsibility, public service, and health. The HSBA President declined to describe how the HSBA Board found the nominee "qualified" rather than "highly qualified."

Testimony in support of the nominee described him as a top-notch courtroom litigator, who is intelligent, insightful, dedicated, compassionate, and committed to public service. Testimony in opposition to the nominee reflected a perception that the nominee was undermining, disrespectful, condescending and abusive in dealings with others, particularly subordinates who were women.

Your Committee finds that the people of Hawaii must have the utmost faith in the judicial system. In reaching this very difficult decision to reject the nomination, your Committee focused on the issue of judicial temperament. Among other character traits and according to HSBA guidelines, "judicial temperament" includes common sense, compassion, humility, temperance, open-mindedness, impartiality, patience, tact, understanding, freedom from bias, and commitment to equal justice under the law. In testimony before your Committee, the nominee "categorically denied" conduct alleged by his detractors, and insisted he had "never" engaged in the behavior they described. Your Committee is very concerned about the nominee's capacity to acknowledge and consider the views that differed from his own. Your Committee finds this to be most troubling. Moreover, your Committee was also very concerned about the zeal with which some of the nominee's supporters sought to discredit the voices of dissent.

As affirmed by the records of votes of the members of your Committee on Judiciary and Labor that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, recommends that the Senate not consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 2 (Inouye, Gabbard). Excused, none.

SCRep. 1060 Commerce, Consumer Protection and Affordable Housing on H.B. No. 92

The purpose of this measure is to promote the fair application of the general excise tax by allowing securities professionals to pay the general excise tax only on their respective share of commissions divided among a number of persons.

Your Committee received testimony in support of this measure from Brookstreet Securities Corporation; Linsco/Private Ledger Corp.; SunAmerica Securities, Inc.; the National Association of Insurance and Financial Advisors; and two individuals. The Department of Taxation and the Hawaii Tax Foundation submitted comments on this measure.

The Department of Taxation submitted testimony that the fiscal impact of this measure, if implemented immediately, would be a revenue loss of \$1,400,000 annually. The Department of Taxation did not provide the method in which it calculated the fiscal impact of this measure.

Testimony submitted by the National Association of Insurance and Financial Advisors testified that the fiscal impact of this measure would be a revenue loss of between \$400,000 and \$1,000,000 annually. The National Association of Insurance and Financial Advisors did not provide the method in which it calculated the fiscal impact of this measure.

Your Committee finds that where two or more securities professionals share compensation, each should only be required to pay taxes on their respective portions, rather than on the entire compensation.

The intent of this measure is to add securities professionals, such as brokers, dealers, salespersons, and investment advisors, to the list of persons in section 237-18, Hawaii Revised Statutes, who are only required to pay general excise tax on the portion of compensation they retain individually, rather than on the whole compensation received.

Your Committee has amended this measure to change the effective date to July 1, 2007.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 92, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 92, H.D. 1, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Ihara).

SCRep. 1061 (Majority) Commerce, Consumer Protection and Affordable Housing on H.B. No. 252

The purpose of this measure is to curb speculative residential homes sales by increasing the conveyance tax rates for sales of condominiums or single family residences where the purchaser is ineligible for a county homeowner's property tax exemption.

Your Committee received testimony in support of this measure from the Nature Conservancy of Hawaii, the Trust for Public Land, and the Sierra Club-Hawaii. Testimony in opposition to this measure was submitted by the Department of Taxation; the Hawaii Association of Realtors; the National Federation of Independent Business; Wyndham Vacation Ownership, Inc.; and one individual. The Hawaii Tax Foundation submitted comments.

The Department of Taxation testified that this measure would result in a revenue gain to the general fund of less than \$565,620. The Department of Taxation did not provide testimony as to the method used in determining the fiscal impact of this measure.

Your Committee finds that certain percentages of the conveyance tax are paid to the Land Conservation Fund, the Natural Area Reserve Fund, and the Rental Housing Trust Fund. This measure will increase the conveyance tax rate and create more revenue to support these recipients. In addition, since the conveyance tax increase would only apply to dwelling sales for which the purchaser is ineligible for a county homeowner's property tax exemption, the tax increase would help curb speculative investment in residential property, thereby potentially resulting in more stable and affordable dwelling prices.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 252, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 3. Ayes with Reservations, 1 (Espero). Noes, 1 (Slom). Excused, 2 (Ige, Ihara).

SCRep. 1062 (Majority) Commerce, Consumer Protection and Affordable Housing on H.B. No. 1002

The purpose of this measure is to reduce speculative investment in real property and increase affordable housing by establishing an anti-speculation capital gains tax, which is to be deposited into the Rental Housing Trust Fund.

Subject to certain exceptions, this measure creates a tax of sixty per cent of the capital gains tax owed if the real property is held by the seller for less than six months, thirty per cent of the capital gains tax owed if the real property is held by the seller for more than six months but less than twelve months, and fifteen per cent of the capital gains tax owed if the real property is held for more than twelve months and less than twenty-four months.

Your Committee received testimony in support of this measure from the Hawaii County Planning Department. The Department of Taxation, the Hawaii Association of Realtors, the National Federation of Independent Businesses, and two individuals submitted testimony in opposition. The Tax Foundation of Hawaii submitted comments.

The Department of Taxation did not provide testimony as to the fiscal impact of this measure.

Your Committee finds that the intent of this measure is to deter real estate speculation by creating an anti-speculation capital gains tax, which will be deposited into the Rental Housing Trust Fund to assist with increasing the inventory affordable rental housing in the State.

Your Committee has amended this measure by:

- (1) Changing the basis of the percentages of taxes owed from capital gains tax owed to a percentage of the actual capital gain;
- (2) Removing the inclusion of unimproved land from the types of properties subject to the anti-speculation capital gains tax;
- (3) Exempting the sale of residential property in which the owner has made a substantial investment in physical improvements and infrastructure;
- (4) Adding an exemption for residential property acquired from a decedent, as provided in section 1014(b) of the Internal Revenue Code;
- (5) Adding an exemption for the sale of unimproved land;
- (6) Changing the effective date to promote further discussion; and
- (7) Making technical, nonsubstantive changes for the purposes of clarity and to comply with preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1002, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1002, H.D. 2, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 3. Ayes with Reservations, 1 (Espero). Noes, 1 (Slom). Excused, 2 (Ige, Ihara).

SCRep. 1063 Commerce, Consumer Protection and Affordable Housing on H.B. No. 1096

The purpose of this measure is to assist low- and moderate-income taxpayers with purchasing a principal residence in sustainable affordable housing developments by providing qualified buyers with an income tax credit in an amount up to twenty per cent of the buyer's annual mortgage interest payment.

Your Committee received testimony in support of this measure from the Hawaii Association of Realtors and UniDev Hawaii, L.L.C. The Department of Taxation submitted testimony in opposition to this measure. The Tax Foundation of Hawaii submitted comments.

The Department of Taxation submitted testimony that the implementation of this measure would result in a revenue loss of approximately \$800,000. The Department of Taxation did not provide the method used to calculate the fiscal impact of this measure.

Your Committee recognizes that the State is undergoing a housing crisis and finds that the intent of this measure is to provide home ownership opportunities for low- and moderate-income taxpayers by establishing an income tax credit to lessen the financial burden of a mortgage.

Your Committee notes that UniDev Hawaii, L.L.C. has provided proposed amendments to this measure and on passing this measure out, your Committee asks that the Committee on Economic Development and Taxation consider the amendments proposed by UniDev Hawaii, L.L.C.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1096, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1096, H.D. 1, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 2 (Ige, Ihara).

SCRep. 1064 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 902

The purpose of this measure is to achieve long-term agricultural viability and use of important agricultural lands by creating an incentive for farmers to designate their lands as important agricultural lands.

Specifically, this measure:

- (1) Creates a nonrefundable tax credit that grants a one hundred per cent credit for qualified agricultural costs incurred in Hawaii during the taxable year;
- (2) Reduces the tax credit by the amount of funds received by an agricultural business during the taxable year from the Irrigation Repair and Maintenance Special Fund under section 167-24, Hawaii Revised Statutes;
- (3) Appropriates an unspecified amount to the Department of Taxation for the costs to administer the Important Agricultural Land Agricultural Business Tax Credit; and
- (4) Appropriates an unspecified amount to the Department of Agriculture for the costs to administer the Important Agricultural Land Agricultural Business Tax Credit.

Testimony in support of this measure was submitted by the Department of Agriculture; the Agribusiness Development Corporation; Alexander and Baldwin, Inc.; the Hawaiian Commercial and Sugar Company; the Kauai Coffee Company, Inc.; the Hawaii Farm Bureau Federation; the Maui County Farm Bureau; the Hawaiian Electric Company; the Maui Electric Company, Ltd.; the Hawaii Electric Light Company, Inc.; the Hawaii Agriculture Research Center; the Hawaii Crop Improvement Association; and the Land Use Research Foundation of Hawaii. Testimony in opposition to this measure was submitted by one individual. The Department of Taxation and the Tax Foundation of Hawaii submitted comments.

In 2005, the Legislature enacted Act 183, Session Laws of Hawaii 2005, to preserve and protect agricultural lands, promote diversified agriculture, increase agricultural self-sufficiency, and assure the availability of agriculturally suitable lands. Furthermore, the Legislature acknowledged that agricultural viability is a vital component of a diversified agricultural industry, and established a process to identify incentives to encourage farmers and landowners to designate their lands as important agricultural lands. Your Committee finds that establishing a tax credit incentive program for agricultural businesses on important agricultural lands will assist in enhancing the agricultural viability on important agricultural lands.

Of particular note, your Committee received a fiscal impact statement from the Department of Taxation that this measure, if passed, would result in a revenue loss to the State of approximately \$27,800,000. However, the fiscal impact statement submitted did not specify the methodology by which the fiscal impact was calculated or whether the stated amount was calculated as a one-time loss or on an annual basis.

The Department of Taxation indicated to your Committee that the tax credit should only be limited to costs associated with important agricultural lands. The only connection between the tax credit and important agricultural land is that more than fifty per cent of the land the agricultural business owns, leases, or uses is important agricultural land. Thus, a qualified taxpayer could claim a tax credit for costs associated with land that is not important agricultural land as long as more than fifty per cent of the agricultural business' land is important agricultural land. Your Committee believes this concern merits further discussion by the Committee on Economic Development and Taxation and the Committee on Ways and Means.

Accordingly, your Committee has amended this measure by:

- (1) Adopting similar language in S.B. No. 1221, S.D. 1, that also establishes an Important Agricultural Land Agricultural Business Tax Credit;
- (2) Adopting the suggestion made by Alexander and Baldwin, Inc. by deleting any references in this measure that may infer that the tax credit establishes sufficient incentives and protections to authorize the Land Use Commission to start designating lands as important agricultural lands pursuant to section 9, Act 183, Session Laws of Hawaii 2005;
- (3) Adopting the suggestions made by the Agribusiness Development Corporation by:
 - (A) Transferring the administrative responsibilities from the Agribusiness Development Corporation to the Department of Agriculture as the Development Corporation believes that the Department is better staffed and experienced to handle these tasks;
 - (B) Clarifying that the written statement that a taxpayer claiming the tax credit is required to submit to the Department of Agriculture will be certified by the Department; and
 - (C) Clarifying that agricultural processing facilities include facilities that treat, wash, handle, or package agricultural products;
- (4) Changing the effective date of this measure from July 1, 2020, to taxable years beginning after December 31, 2006, for the tax credit and July 1, 2007, for the appropriations to the Department of Taxation and the Department of Agriculture; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and style.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to achieve the long-term agricultural viability and use of important agricultural lands.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 902, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 902, H.D. 2, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Hee).

SCRep. 1065 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Transportation and International Affairs on H.B. No. 250

The purpose of this measure is to meet the critical demand for state harbor infrastructure projects, expansion, and upgrades by establishing a formal partnership between the Aloha Tower Development Corporation and the Department of Transportation that will allow the Aloha Tower Development Corporation to assist in selected harbor projects throughout the State.

Specifically, this measure amends chapter 206J, Hawaii Revised Statutes, by adding a new section that:

- (1) Allows the Aloha Tower Development Corporation to undertake projects for commercial harbors under the jurisdiction of the Department of Transportation;
- (2) Requires that any payments made by the Department of Transportation to the Aloha Tower Development Corporation for the Development Corporation's administrative and operational expenses are deposited into the Aloha Tower Fund, under a designated sub-account for the particular harbor project;
- (3) Subjects the Aloha Tower Development Corporation to legislative approval on a project-by-project basis for the funding of and participation in harbor projects; and
- (4) Requires the Aloha Tower Development Corporation to apply any revenues derived from commercial development projects in the area seaward of Nimitz Highway between Pier 4 and the Honolulu International Airport, subject to existing contractual and statutory commitments to the Department of Transportation, to defray the cost of harbor infrastructure improvements incurred within the State.

Testimony in support of this measure was submitted by the Department of Transportation; the Aloha Tower Development Corporation; Alexander and Baldwin, Inc.; Matson Navigation Company; the Hawaii Harbor Users Group; the Maritime Consultants of the Pacific; and the Chamber of Commerce of Hawaii.

The State imports approximately eighty per cent of all of its goods, and of that percentage, ninety-eight per cent of these goods arrive into Hawaii through the State's commercial harbor system. If the capacity of the state harbors is constrained, adverse statewide economic effects will be experienced, including a shortage of essential goods, delays in the delivery of goods, and an increase in costs.

Although the Department of Transportation and harbor users anticipated an increase in the overall volume of cargo processed through Hawaii's commercial harbor system, the actual growth in activity has occurred at a faster rate than projected, thus, requiring the State to accelerate its efforts in implementing projects to redevelop existing harbor facilities and provide expansion for harbor use. The Department of Transportation is unable to effectively meet this increased demand because its Harbors Division is focused primarily on the essential daily management and operations of the commercial harbor system rather than on development, and there is a lack in funding to support these costly improvement projects.

Your Committees find that a failure to resolve issues relating to the expansion of state commercial harbors will eventually limit the growth in the State's economy. Thus, permitting the Department of Transportation to establish a partnership with the Aloha Tower Development Corporation will enable the Department to more quickly expand the use of the State's commercial harbors and improve the infrastructure of the harbors.

Your Committees were concerned with the broad scope of this measure applying to all state harbors. Although your Committees recognize that the harbors on the neighbor islands are also in need of expansion and improvement, your Committees believe that it is a misnomer for the Aloha Tower Development Corporation to assist in projects other than projects for Honolulu Harbor.

Instead, your Committees request that the Department of Transportation develop an alternative recommendation for the necessary assistance in projects for other harbor facilities. Furthermore, your Committees request that the Department submit a report to the Legislature with a prioritized list of harbor facilities that are in most dire need of expansion or improvement, and provide the scope of the improvements envisioned with the estimated costs of these improvements.

Accordingly, your Committees have amended this measure by adopting similar language from S.B. No. 1361, S.D. 1, that:

- (1) Deletes section 1 of this measure and adds language from section 1 of S.B. No. 1361, S.D. 1;
- (2) Narrows the scope of the measure from including all commercial harbors to only Honolulu Harbor;
- (3) Clarifies that the authorization for funding and participation of the Aloha Tower Development Corporation in Honolulu Harbor projects are subject to legislative approval, subject to any terms, conditions, or limitations enacted by the Legislature; provided that the projects only apply to Honolulu Harbor;
- (4) Deletes references made to revenues derived from commercial development projects in the area seaward of Nimitz Highway between Pier 4 and the Honolulu International Airport to be used to defray improvement costs, and adds a reference to revenues derived from commercial development projects in the Aloha Tower project area;
- (5) Deletes the effective date of July 1, 2020, and adds language that makes this measure effective upon approval; and
- (6) Makes technical, nonsubstantive amendments for the purposes of style and consistency.

Your Committees believe that this measure, as amended, fulfills the intent of this measure, which is to meet the critical demand for state harbors use and expansion.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Transportation and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 250, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 250, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 4 (Hee, Hooser, Taniguchi, Tsutsui).

The purpose of this measure is to provide support to the Department of Education's Food Distribution Program through the establishment of a revolving fund, which would be sustained through revenues generated from administrative fees for services rendered by state contracted warehouses for the distribution of federal commodity foods to recipient agencies.

Testimony in support of this measure was submitted by the Department of Education. Testimony in opposition to this measure was submitted by the Department of Budget and Finance.

Your Committee finds that commodity foods are provided by the Department of Education to agencies, including public schools, private schools, and other state institutions, that participate in the National School Lunch Program. These commodity foods are stored in warehouses within the State. Currently, the Department of Education is prohibited from using federal funds for fees associated with state contracted warehouses for the storage of commodity foods. Your Committee determines that the costs associated with the warehouse charges are becoming increasingly large, thereby necessitating a means by which they can be paid separate from passing along the cost to the recipient agencies.

This measure establishes a revolving fund into which fees collected for, interest earned on, and other moneys associated with the Department of Education's Food Distribution Program may be deposited and utilized to allow the program to become self-sustaining. The Senate previously heard a Senate measure, Senate Bill No. 94, S.D. 1, similar to this measure and believes that its provisions are appropriate for achieving the intent of this measure.

Accordingly, your Committee has amended this measure by including the provisions of Senate Bill No. 94, S.D. 1, which make the following changes to this measure:

- (1) Appropriates the specific sum of \$2,000,000 for each fiscal year of the 2007-2009 biennium from the Food Distribution Program Revolving Fund;
- (2) Changes the effective date of the Act from July 1, 2020, to July 1, 2007; and
- (3) Makes technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 13, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 13, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 1067 Education on H.B. No. 18

The purpose of this measure is to authorize the Hawaii Teacher Standards Board to suspend its rules when extenuating circumstances require and to amend licensing-related fees and set or amend other charges related to the performance of its duties.

Testimony in support of this measure was submitted by the Department of Education, the University of Hawaii, the Hawaii State Teachers Association, and the Hawaii Teacher Standards Board.

Your Committee finds that the Legislature, pursuant to Act 312, Session Laws of Hawaii 2001, authorized the Hawaii Teacher Standards Board, among other things, to issue, renew, revoke, suspend, and reinstate teacher licenses in Hawaii. Your Committee further finds that the Hawaii Teacher Standards Board has represented that it has encountered great difficulty with respect to situations that arise that require the suspension of its rules in the interest of expeditious and effective operations. However, the law does not currently provide the Hawaii Teacher Standards Board with the authority to suspend its rules at any time, even if to do so would assist the Hawaii Teacher Standards Board in its ability to perform its duties.

This measure authorizes the Hawaii Teacher Standards Board greater authority over its operations by allowing it to suspend its rules and set and amend fees and charges related to its duties and functions. Your Committee believes that this measure will assist the Hawaii Teacher Standards Board in effectively and efficiently executing its duties and functions. Your Committee previously heard a Senate measure, Senate Bill No. 100, S.D. 1, which is similar to this measure and which addresses concerns raised by the Hawaii Teacher Standards Board regarding the applicability of chapter 92, Hawaii Revised Statutes.

Accordingly, your Committee has amended this measure by inserting the provisions of Senate Bill No. 100, S.D. 1, which change this measure as follows:

- (1) Allows the Hawaii Teacher Standards Board, in accordance with chapter 92, Hawaii Revised Statutes to:
 - (A) Temporarily suspend its rules; and
 - (B) Amend licensing related fees and set or amend other charges related to the performance of its duties; and
- (2) Changes the effective date to July 1, 2050, with a repeal date of July 1, 2009, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 18, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 18, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Chun Oakland, Hee, Nishihara).

SCRep. 1068 Economic Development and Taxation on H.B. No. 1411

The purpose of this measure is to amend Hawaii's income tax law to conform with changes to the Internal Revenue Code.

Testimony in support of this measure was received from the Department of Taxation (Department). The Tax Foundation of Hawaii submitted comments.

Your Committee received a fiscal impact statement from the Department that the measure will reduce income tax revenues at an annual rate of about \$1,500,000 in fiscal year 2008.

Your Committee notes the Tax Foundation's comments regarding the effective date of this measure, which is upon approval, but does not specify the applicable taxable year. Tax changes for Hawaii are usually adopted for a tax year to ensure compliance and simplicity. This year, however, there were five congressional income tax enactments, four of which contained a number of amendments and many retroactive and prospective effective dates.

In addition, your Committee recognizes that section 235-2.5(a)(3), Hawaii Revised Statutes, addresses retroactive provisions in federal public laws, recognizing that the retroactive dates in the federal Internal Revenue Code shall be operative. However, changes in federal laws in 2006 contained so many and varied effective dates that your Committee has ensured their adoption by placing language in the effective date to state clearly that those retroactive and prospective dates are operative for Hawaii. In addition, your Committee has made technical, nonsubstantive amendments to conform the measure to preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1411, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1411, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 1 (English).

SCRep. 1069 (Majority) Economic Development and Taxation on H.B. No. 1414

The purpose of this measure is to authorize an emergency appropriation for the costs incurred in administering the county surcharge on state general excise tax.

Testimony in support of this measure was submitted by the Department of Taxation (Department) and the City and County of Honolulu Department of Budget and Fiscal Services.

Your Committee previously heard S.B. No. 1500, which is a companion to this measure.

Your Committee has heard the concerns of the Department regarding additional anticipated expenditures, which would raise the emergency appropriation from the original request of \$4,500,000 to \$5,000,000. However, the Department has not submitted any information detailing these costs. Until that information is received, your Committee has amended this measure by:

- (1) Reducing the appropriation from \$5,000,000 to \$4,500,000; and
- (2) Changing the expenditure ceiling percentage from 0.093 to 0.084 to reflect the change.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1414, H.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as H.B. No. 1414, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Slom). Excused, none.

SCRep. 1070 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Intergovernmental and Military Affairs on H.B. No. 38

The purpose of this measure is to ensure the continued public safety at state and county recreational areas by repealing certain sunset dates of laws that provide the state and county governments with liability protection for public use of certain state and county recreational areas.

Specifically, this measure:

- (1) Repeals the sunset date of Act 190, Session Laws of Hawaii 1996; and
- (2) Repeals the sunset date of Act 170, Session Laws of Hawaii 2002.

Testimony in support of this measure was submitted by the Department of the Attorney General; the Department of Land and Natural Resources; the Mayor, County of Hawaii; the Mayor, County of Maui; the Department of the Corporation Counsel, City and County of Honolulu; the Department of the Corporation Counsel, County of Maui; the Honolulu Emergency Services Department, City and County of Honolulu; the Department of Parks and Recreation, County of Hawaii; the Hawaii Fire Department, County of Hawaii; the Kauai Fire Department, County of Kauai; the Hawaii State Association of Counties; the State Fire Council; the Honolulu Fire Department; the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; the Hawaiian Lifeguard Association; and one individual. Testimony in opposition to this measure was submitted by the Consumer Lawyers of Hawaii.

Millions of residents and visitors use Hawaii's public beaches and parks for recreational purposes on a yearly basis. Unfortunately, drownings and other serious injuries have occurred due to these recreational activities, which leave the counties and State with the task of dealing with any liability that may arise from the injuries and any resulting lawsuits.

In response to this problem, the Legislature enacted Act 190, Session Laws of Hawaii 1996, to establish a process by which a legally adequate warning system could be developed at public beach parks. As a result of Act 190, public warning signs were designed and made more uniform throughout the State. Furthermore, Act 190 also provided the State and counties with protection from potentially unlimited liability for incidents occurring in the ocean. In 2002, the Legislature enacted Act 170, Session Laws of Hawaii 2002, to provide liability protection for lifeguard services on the beach and in the ocean, except for gross negligence, wanton acts, or omissions. Act 170 created a climate in which lifeguard services could be provided by the counties with less fear of unlimited liability, thus, further ensuring public safety.

Your Committees find that liability protections can reduce the exposure of the state and county governments to substantial damages, and, as a result, can enable the state and county governments to keep recreational areas with potentially dangerous conditions open to the public. Furthermore, an effective warning sign system can promote public safety by informing users of the recreational areas of potentially dangerous conditions.

It was indicated to your Committees that Act 82, Session Laws of Hawaii 2003, was deleted from this measure. Act 82 established a risk assessment group to review the design and placement of warning signs to provide the State and counties protection from liability arising out of recreational activities on public lands. The sunset date of Act 82 is June 30, 2008.

Your Committees recognize, however, that the repeal dates under Act 190, Session Laws of Hawaii 1996, and Act 170, Session Laws of Hawaii 2003, have been extended under previous legislation. The Consumer Lawyers of Hawaii indicated to your Committees that sunset dates were written into all three Acts to allow for the opportunity to collect sufficient data to be presented to the Legislature so that its members could make a reasonable and informed decision as to whether these laws work and continue to work in the way that was intended by the Legislature. The Consumer Lawyers of Hawaii indicated that there is currently a lack of sufficient data that indicates the effectiveness and adequacy of these laws. Furthermore, with respect to the warning signs for public recreational areas, the warning signs have not been finalized and approved by the Board of Land and Natural Resources. Thus, your Committees further find that more time is needed to assess the adequacy and effectiveness of Act 190, Session Laws of Hawaii 1996; Act 170, Session Laws of Hawaii 2002; and Act 82, Session Laws of Hawaii 2003, before these laws become permanent.

Accordingly, your Committees have amended this measure by adopting language similar to the language in S.B. No. 1603, S.D. 1, to:

- (1) Add Act 83, Session Laws of Hawaii 2003, and extend its sunset date to June 30, 2010;
- (2) Extend the sunset date of Act 190, Session Laws of Hawaii 1996, to June 30, 2010;
- (3) Extend the sunset date of Act 170, Session Laws of Hawaii 2002, to June 30, 2010;
- (4) Create a task force to:
 - (A) Collect data on and examine the effectiveness of providing lifeguards conditional liability protection for lifeguard services at state beach parks;
 - (B) Collect data on and examine the effectiveness and adequacy of warning signs at public beach parks, and protecting the State and counties from unlimited liability with regard to activities in the ocean and at public beaches;
 - (C) Collect data on and examine the effectiveness and adequacy of warning signs at public recreational lands, and protecting the State and counties from unlimited liability arising out of recreational activities on public lands; and
 - (D) Submit a written report of its findings and recommendations, including any proposed legislation, to the Legislature prior to the 2008 Regular Session; and
- (5) Insert June 29, 2007, as the effective date of this measure; and
- (6) Make technical, nonsubstantive amendments for the purposes of consistency and style.

Your Committees believe this measure, as amended, fulfills the intent of this measure, which is to ensure the continued safety at state and county beaches and recreational areas.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 38, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 38, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 3 (Fukunaga, Hee, Hemmings).

SCRep. 1071 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 400

The purpose of this measure is to assist in the planning and implementing of a long range plan that will help Hawaii's agricultural industry achieve self-sufficiency during times of drought.

The measure accomplishes this purpose by appropriating funds for each county to adequately implement drought mitigation strategies and plans.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources; the Department of Agriculture; two Council Members, County of Maui; the Department of Water, County of Kauai; the Hawaii Farm Bureau Federation; the Maui County Farm Bureau; the Hawaii Agricultural Research Center; and the Hawaii Crop Improvement Association.

The effects of droughts can be devastating for Hawaii agricultural producers. Droughts can last for years and during that time, crop yields can fall dramatically and farms can close. In addition to agriculture and livestock industries, droughts affect water supply, commerce, the environment, and public health.

The Hawaii Drought Plan and the County Drought Mitigation Strategies identify and recommend the implementation of drought mitigation actions, subject to available funding. These drought mitigation strategies were developed in consultation with key stakeholders who participated as representative members on each respective local county drought committees. The county committees identified and prioritized projects to help reduce the impact of droughts in their communities. Your Committee finds that an appropriation of funds will signal the importance of these projects and assist in the implementation of the drought strategies and plans in each county.

Your Committee has amended this measure by:

- (1) Adding a new part to this measure and adopting the language in S.B. No. 1941, S.D. 1, that appropriates \$11,000,000 in general obligation bonds to be deposited into the Irrigation Repair and Maintenance Special Fund for repair and maintenance of irrigation systems in East Kaua'i, Waimanalo, Moloka'i, Upcountry Maui, Ka'u, Honomalino, Wahiawa, and other privately-owned irrigation systems on former sugarcane and pineapple plantation lands that have been converted to diversified agriculture;
- (2) Changing the effective date of this measure from July 1, 2020, to effective upon approval; and
- (3) Making technical, nonsubstantive changes for the purposes of style and consistency.

Your Committee believes that this measure, as amended, fulfills the purpose of this measure, which is to assist in the planning and implementing of a long range plan that will help Hawaii's agricultural industry.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 400, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 400, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hee).

SCRep. 1072 Energy and Environment on H.B. No. 506

The purpose of this measure is to minimize Hawaii's dependence on fossil fuels. This measure accomplishes this goal by extending the existing ethanol production facilities tax credit an additional five years to allow more market participants to construct qualifying facilities.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Alexander & Baldwin, Inc. The Department of Taxation and the Tax Foundation of Hawaii submitted comments on this measure.

Your Committee finds that Hawaii's future depends on energy independence. This measure is a step in that direction, protecting consumers from artificially high fuel prices and promoting alternative energy production.

Your Committee amended this measure by changing the effective date from July 1, 2020, to July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 506, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 506, H.D. 1, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 3. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 1073 Energy and Environment on H.B. No. 871

The purpose of this measure is to encourage the use of renewable energy to reduce Hawaii's dependence on fossil fuels.

The measure accomplishes this purpose by enabling Seawater Air Conditioning District Cooling Systems businesses to qualify under the State's enterprise zone program.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; the Department of Taxation; Honolulu Seawater Air Conditioning, LLC; the Hawaii Energy Policy Forum; the Hawaii Science and Technology Council; the Hawaii Renewable Energy Alliance; and the Environmental Center of the University of Hawaii at Manoa. The Tax Foundation of Hawaii submitted comments on this measure.

Your Committee finds that by enabling businesses that produce air conditioning from a seawater air conditioning district cooling system to be eligible for the enterprise zone program will further the State's goal of reducing the use of fossil fuels and dependence on foreign oil. The enterprise zone program attracts businesses such as this by providing tax incentives and bonds for relocation to the specified zone.

Your Committee amended this measure by changing the effective date from July 1, 2020, to July 1, 2025, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 871, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 871, H.D. 1, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 1074 Energy and Environment on H.B. No. 1289

The purpose of this measure is to ensure that the tax incentive created to promote the installation of renewable energy technology systems in Hawaii serves the intended goal of reducing Hawaii's dependence on fossil fuels.

This measure attempts to accomplish this goal by requiring that the renewable energy technology systems tax credit may only be claimed for systems that are installed in Hawaii.

Your Committee received testimony in support of this measure from Hawaii Renewable Energy Alliance and the Hawaii Energy Policy Forum. The Department of Taxation submitted testimony in support of the intent of this measure. The Tax Foundation of Hawaii submitted comments.

Your Committee finds that the original intent and purpose of the renewable energy technology systems tax credit was to protect Hawaii's environmental resources and to foster the State's independence from fossil fuels.

Your Committee amended this measure by adopting the Department of Taxation's recommendation to include the amendments made in S.B. No. 1222, S.D. 3, for clarification and which accomplishes the same goal as this measure.

Your Committee amended this measure by making technical, non-substantive changes for the purposes of consistency and style.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1289, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1289, H.D. 2, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 1075 (Joint) Economic Development and Taxation and Intergovernmental and Military Affairs on H.B. No. 1256

The purpose of this measure is to clarify that an appeal to the Tax Appeal Court from a Board of Review decision, or the decision of an equivalent county administrative body, must be served on the Director of Taxation or the county administrator of real property tax assessments within thirty days of the date of the final assessment to properly confer jurisdiction over the appeal.

Testimony in support of this measure was received from the Department of the Attorney General, Department of Taxation, and City and County of Honolulu Department of Budget and Fiscal Services.

Your Committees find that this measure is a companion to S.B. No. 1342, S.D. 2, heard previously by your Committees.

Your Committees have incorporated the recommendations made by the three departments in their testimonies and have amended this measure accordingly, by:

- (1) Changing all references to the “county administrator of real property tax assessments” to the “real property assessment division of the county involved”;
- (2) Adding a reference to the Director of Taxation in section 232-17, Hawaii Revised Statutes; and
- (3) Making a technical amendment to conform the measure to preferred drafting style.

As affirmed by the records of votes of the members of your Committees on Economic Development and Taxation and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1256, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1256, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 2 (English, Hemmings).

SCRep. 1076 Economic Development and Taxation on H.B. No. 567

The purpose of this measure is to require the Department of Accounting and General Services to conduct a study to determine the cost of developing an all-purpose motor sports facility on Oahu, including acquisition of land, construction, and costs of start-up, maintenance, and operation.

Testimony in support of the intent of this measure was received from the Department of Accounting and General Services (Department) and the Waikiki Neighborhood Board No. 9.

Your Committee has heard the Department’s concern that a study alone is likely to delay any solution to the increase in street racing incidents since the closure of Oahu’s previous racing facility.

Your Committee is in agreement with this, and the Department’s recommendation to consider a temporary facility, and has amended this measure accordingly, by:

- (1) Authorizing the Department to consider the temporary acquisition of adequate land for a short-term motor sports facility, which may be used until a permanent facility is completed; and
- (2) Adding an unspecified appropriation for this purpose.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 567, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 567, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1077 Economic Development and Taxation on H.B. No. 1630

The purpose of this measure is to appropriate funds into the Hawaii 3Ts School Technology Laboratories Fund to maintain the Project EAST program in existing schools and to expand the program to schools statewide.

Testimony in support of this measure was received from the Department of Business, Economic Development, and Tourism; High Technology Development Corporation; Economic Development Alliance of Hawaii; Maui Economic Development Board; Hawaii State Teachers Association, and Ho’ike Technology.

Your Committee previously heard and approved S.B. No. 897, which is a comparable measure.

Your Committee has heard that Project EAST students from Hawaii schools have just returned from a national competition, where they received numerous awards in a wide range of projects. Your Committee commends these students and remains strongly supportive of this measure and the educational and workforce development opportunities it provides for Hawaii’s public school students.

Your Committee has amended the appropriation language by:

- (1) Adding a section to appropriate funds out of the Hawaii 3Ts School Technology Laboratories Fund; and
- (2) Clarifying that the Economic Development Alliance of Hawaii is the expending agency, in accordance with section 302A-1314, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1630, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1630, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1078 (Joint) Human Services and Public Housing and Health on H.B. No. 208

The purpose of this measure is to appropriate the funds necessary, in addition to the Department of Health’s biennium budget request, for the continued maintenance and operation of developmental disabilities domiciliary homes and developmental disabilities apartment complexes.

The Department of Health, the State Council on Developmental Disabilities, the Disability and Communication Access Board, the Arc in Hawaii, and Responsive Caregivers of Hawaii submitted testimony in support of this measure.

Your Committees find that developmental disabilities residential services providers perform a vital service to the State. Current reimbursement rates for residential services have not kept pace with the cost of providing quality services and operating in a fiscally efficient manner. Numerous

developmental disabilities domiciliary homes have closed over the past several years as a result of operational deficits. The developmental disabilities population is in great need as they cannot live independently and need the services that an assisted living environment provides. In addition, many of the residents of developmental disabilities domiciliary homes and developmental disabilities apartment complexes are aging and require more costly care and services. Additional funding will maintain their community-based placement and avoid premature institutionalization.

Your Committees have amended this measure by changing the appropriation amount from an unspecified sum to \$1. Your Committees received a fiscal impact statement from the State Council on Developmental Disabilities that this measure, if passed, would cost the State approximately \$600,000 for fiscal year 2007-2008, and \$600,000 for fiscal year 2008-2009, in addition to the amount requested in the Department of Health's biennium budget, for the continued maintenance and operation of developmental disabilities domiciliary homes and developmental disabilities apartment complexes.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 208, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 208, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, none. Excused, 1 (Menor).

SCRep. 1079 (Joint) Human Services and Public Housing and Health on H.B. No. 55

The purpose of this measure is to establish a statewide Youth Suicide Early Intervention and Prevention Program, and to appropriate funds to the Department of Health to implement the program.

The Department of Education; the Hawai'i Psychological Association; Hawai'i Suicide Prevention, Education, Awareness, Research; and the Hawai'i Suicide Prevention Steering Committee and Task Force submitted testimony in support of this measure. The Department of Health submitted testimony in support of the intent of this measure.

Your Committees find that more children and young adults die from suicide each year than from cancer, heart disease, AIDS, birth defects, stroke, and chronic lung disease combined. In Hawaii, suicide is the second leading cause of death among persons who are age fifteen to twenty-four years old. Rates of youth suicide have been on the rise in the last decade among both females and males and among all ethnic groups. Early intervention and prevention strategies have been listed as a national health priority in dealing with rising rates of youth suicide. This measure will establish a Youth Suicide Early Intervention and Prevention Program for Hawaii.

Your Committees have amended this measure by:

- (1) Changing the appropriation amount from an unspecified sum to \$1; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 55, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 55, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, none. Excused, 1 (Menor).

SCRep. 1080 (Joint) Human Services and Public Housing and Health on H.B. No. 71

The purpose of this measure is to establish certification procedures for nurse aides employed in state-licensed or state-certified health care settings and Medicare or Medicaid facilities.

The Policy Advisory Board for Elder Affairs, the Hawaii Coalition of Care Home Administrators, the Hawaii Long Term Care Association, and the Healthcare Association of Hawaii submitted testimony in support of this measure. The Department of Health and the Department of Human Services submitted testimony in support of the intent of this measure. The Department of Commerce and Consumer Affairs submitted comments.

Your Committees find that certifying nurse aides who work in nursing facilities participating in Medicare and Medicaid programs and in other state-licensed and state-certified health care settings will enable the Department of Commerce and Consumer Affairs, the Department of Human Services, and the Department of Health to monitor and evaluate the quality and competency of the nurse aides practicing in the State.

According to the testimony, the Department of Commerce and Consumer Affairs, the Department of Health, the Department of Human Services, the Hawaii Coalition of Care Home Administrators, the Healthcare Association of Hawaii, and the Hawaii Long Term Care Association met with the Office of the Attorney General and the consensus of the parties is to focus on the substance of S.B. No. 713, S.D. 2, and incorporate some additional amendments thereto.

Upon further consideration, your Committees have amended this measure by:

- (1) Replacing all of its provisions with the provisions of S.B. No. 713, S.D. 2;
- (2) Changing the term "recertification examination" to "recertification process";
- (3) Including an annual performance review as a maintenance requirement;
- (4) Changing the phrase "state-licensed or state-certified facilities" to "state-licensed or state-certified health care settings";
- (5) Clarifying that the Director's role is with regard to the disciplining of certified nurse aides under section 457A-3(b), Hawaii Revised Statutes;
- (6) Changing the effective date from July 1, 2050, to upon approval; and
- (7) Making technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 71, H.D. 2, as amended herein, and recommend that it pass

Second Reading in the form attached hereto as H.B. No. 71, H.D. 2, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, none. Excused, 1 (Menor).

SCRep. 1081 (Joint) Human Services and Public Housing and Health on H.B. No. 325

The purpose of this measure is to expand coverage under Medicaid and QUEST to include comprehensive dental care coverage for eligible persons twenty-one years of age or older, appropriate funds to provide the additional coverage, and appropriate funds for hospital dentistry for the developmentally disabled in the County of Hawaii.

The State Council on Developmental Disabilities, the Disability and Communication Access Board, the Hawaii Psychiatric Medical Association, Kokua Council, the Hawai'i Primary Care Association, Ho'ōla Lāhui Hawai'i, the Arc in Hawaii, Full Life, Mobile Care Health Project, the Hawaii Island Dental Task Force, and three individuals submitted testimony in support of this measure. The Department of Health, the Department of Human Services, and the Hawaii Medical Service Association submitted testimony in support of the intent of this measure.

Your Committees find that current dental coverage for eligible recipients age twenty-one years and older does not include coverage for endodontic, root canals, crowns, elective procedures, or periodontal surgery. Since the adults in question are indigent, they cannot pay for any services that they may need if they are not covered benefits. Dentists, therefore, may not even start services if they cannot deliver full treatment for the patient or if they will not be paid for the care. An expansion of services would defray the greater costs that would otherwise likely occur from poor dental care.

Your Committees received testimony from the Department of Human Services that this measure, if passed, would cost the State approximately \$12,257,437 to provide comprehensive dental care coverage.

It is the Committees' intent to improve access to dental care for this population of Medicaid and QUEST recipients. Your Committees have amended this measure by:

- (1) Establishing a task force to assist in developing ways to recruit and retain dental care practitioners, licensed under chapters 447 and 448, Hawaii Revised Statutes, to support the provision of the expanded coverage;
- (2) Making the appropriations for fiscal year 2008-2009;
- (3) Changing the effective date from July 1, 2020, to July 1, 2008; provided that the section of the measure regarding the establishment of the aforementioned task force shall take effect upon its approval; and
- (4) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 325, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 325, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, none. Excused, 1 (Menor).

SCRep. 1082 Tourism and Government Operations on H.B. No. 1287

The purpose of this measure is to repeal the law on escheat process.

Your Committee received testimony in support of this measure from the Department of Budget and Finance.

Act 214, Session Laws of Hawaii 1996, enacted the escheat process law, codified as section 523A-3.5, Hawaii Revised Statutes, which is repealed by this measure. According to the Department of Budget and Finance, this section has never been implemented.

Your Committee finds that escheat is contradictory to the State's unclaimed property program which reunites owners of property with their unclaimed property. Your Committee further finds that the public is not harmed by this measure inasmuch as there would no longer be a time limit for filing claims.

As affirmed by the record of votes of the members of your Committee on Tourism and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1287, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, none.

SCRep. 1083 Tourism and Government Operations on H.B. No. 1352

The purpose of this measure is to establish a Fiftieth Anniversary of Statehood Commission (Commission).

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism (DBEDT). Comments were received from one individual.

The intent of this measure is to plan and coordinate the celebration of the fiftieth anniversary of Hawaii's admission to statehood in August 1959. Your Committee finds that Hawaii has benefited greatly from statehood, particularly the rights, privileges, and protections that statehood and citizenship under the United States provide.

Your Committee has amended this measure by:

- (1) Decreasing the Commission membership to twenty-three persons, to be selected without regard to Senate confirmation;
- (2) Changing the selection of nominees by the President of the Senate, Speaker of the House of Representatives, and the Governor, to provide as follows:
 - (A) Six members to be selected by the President of the Senate, to represent various sectors including Hawaii's youth, academic community, labor, business, and cultural groups;

- (B) Six members to be selected by the Speaker of the House of Representatives, to represent various sectors including labor, business, cultural groups, faith-based organizations, and youth;
- (C) Five members to be selected by the Governor, including persons knowledgeable in the history of Hawaii and Hawaiian culture, event planning, and developing community partnerships;
- (3) Providing for a quorum of fifteen members, and a required vote of thirteen members to make decisions; and
- (4) Clarifying that a vacancy is to be filled by the same selection authority as appointed the vacating member;
- (5) Changing the effective date to upon its approval; and
- (6) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Tourism and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1352, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1352, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, none.

SCRep. 1084 (Majority) Tourism and Government Operations on H.B. No. 1659

The purpose of this measure is to require that moneys received by a government body pursuant to a solicitation of funds by the body to cover costs and expenses of state-sponsored trips and other state-sponsored endeavors to generate business opportunities and goodwill, are required to be deposited into the general fund and disbursed by legislative appropriation.

Your Committee received testimony in opposition to this measure from the Department of Business, Economic Development, and Tourism (DBEDT); High Technology Development Corporation; and High Technology Innovation Corporation.

Your Committee finds that this measure is in response to “trade missions” and other promotional activities of the State that are financed mostly by private entities. Your Committee believes that such moneys should become a realization of the general fund, inasmuch as a state-sponsored activity was involved. In turn, these moneys should be expended pursuant to normal channels such as the legislative appropriation of public funds for justified purposes.

The intent of this measure is to allow more openness in the transaction of government business that involves private funding. This measure would remove the aura of suspicion associated with private entities using private moneys to finance what is essentially a governmental function. At the least, a private entity may reap the benefit in terms of future business opportunities as a result of the government-sponsored event. This arrangement raises the issue of ethical impropriety, however well-intended the donations or actions may have been, because potentially, only participating businesses would seem to gain benefits by the exposure as a member of a trade mission, for example.

Furthermore, your Committee was not informed in testimony as to what path the money takes from the private donors to the private organizers of the trade show. If it passes through DBEDT, your Committee believes that a specific accounting of the moneys should be made. Your Committee also believes that the State actually acts in a fiduciary capacity in these solicitations, which could impose liability on the State for a mishandling of moneys.

As affirmed by the record of votes of the members of your Committee on Tourism and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1659, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Trimble). Excused, none.

SCRep. 1085 (Majority) Tourism and Government Operations on H.B. No. 1767

The purpose of this measure is to establish a consultants’ competitive negotiation process for design-build contracts under the Hawaii Public Procurement Code.

Your Committee received testimony in support of this measure from the Hawaii Building and Construction Trades Council, AFL-CIO; International Union of Elevator Constructors; Plumbers and Pipefitters Local 675; and The Building Trades Council. Testimony in opposition was received from the Department of Accounting and General Services (DAGS); State Procurement Office (SPO); and Coalition of Hawaii Engineering and Architectural Professionals. Comments were received from AIA Hawaii State Council.

Your Committee believes that more study is necessary to determine whether this measure is necessary. Testimony of DAGS and SPO indicates that design-build solicitations can be made within the confines of existing law, though there is no specific provision. However, your Committee notes the persuasive testimony of supporters of this measure to the effect that greater efficiencies, economies, and value would be realized with design-build. Therefore, your Committee urges DAGS and SPO to adopt an administrative rule to provide for a design-build or best value procurement process, in order to clarify the current ambiguity and to increase awareness of design-build procurement among purchasing agencies.

Accordingly, your Committee has amended this measure by deleting its contents and inserting provisions from S.B. No. 1371, to exempt from the State’s Procurement Code Special Purpose Revenue Bonds (SPRBs) issued for not-for-profit private organizations in the development of low- and moderate-income housing, and for agricultural enterprises serving important agricultural lands. Your Committee finds that, with regard to the development of low- and moderate-income housing and the issuance of SPRBs for agricultural enterprises serving important agricultural lands, sometimes cumbersome restrictions of the Public Procurement Code may serve to thwart the intended purposes of those laws. In addition, since such transactions to not involve the expenditure of public funds, your Committee believes that subjecting these transactions to the Public Procurement Code is unnecessary, SPRBs are not well-suited for public procurement inasmuch as bond financing is not within the realm of a public procurement.

As affirmed by the record of votes of the members of your Committee on Tourism and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1767, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1767, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Trimble). Excused, none.

SCRep. 1086 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 260

The purpose of this measure is to provide an appraisal procedure for land acquired by the State that is determined to have value as a resource to the State.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources, the Office of Hawaiian Affairs, the Nature Conservancy, the Hawaii Agricultural Research Center, and the Trust for Public Land.

Your Committee finds that this measure extends to the Board of Land and Natural Resources the right to accept appraisals of land prepared for nonprofit organizations under certain conditions. It further allows the Board of Land and Natural Resources to contract with independent appraisers to set the purchase price of land to be acquired as land having value as a resource to the State. Further, it allows the Board of Land and Natural Resources to acquire the land at a price higher than the appraised price if the Attorney General determines the higher price is justified and within the range of market value.

It was indicated in submitted testimony that it is not part of the normal practice to purchase land above the appraised or market value, except under unusual circumstances, such as condemnation. The Department of Land and Natural Resources testified that federal programs and many nonprofit groups that the Department partners with do not allow purchases above market value on a normal basis.

Accordingly, your Committee has amended this measure by:

- (1) Deleting section 1 of this measure and replacing it with the substantially similar language in section 1 of S.B. No. 933, S.D. 1;
- (2) Prohibiting, rather than allowing, land to be purchased for a sum greater than the appraised value if the Attorney General determines that the higher value is justified and within the range of market value; provided that the prohibition does not apply to condemnation proceedings; and
- (3) Making technical, nonsubstantive amendments for the purposes of style and consistency.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to provide an appraisal procedure for land acquired by the State that is determined to have value as a resource to the State.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 260, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 260, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hee).

SCRep. 1087 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 402

The purpose of this measure is to authorize the use of the Land Conservation Fund for the acquisition of agricultural easements and for the payment of debt service on bonds issued for acquisitions using the fund.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources, the Department of Agriculture, the Hawaii Agriculture Research Center, and the Trust for Public Land.

Your Committee finds that this measure broadens the public purposes for which the Land Conservation Fund can be used and includes agricultural easements as an appropriate means to acquire interests in or rights to agricultural land. Allowing the purchase of agricultural conservation easements is a tool that may encourage more landowners to consider this program and keep important agricultural lands in production, rather than allowing them to be converted to suburban or high density areas.

Your Committee has amended this measure by:

- (1) Deleting the language under section 1 of this measure and adopting language under section 1 of S.B. No. 1094 that further clarifies that the fund shall be used for the acquisition of interests or rights in land having value as a resource to the State through the establishment of agricultural easements; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 402, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 402, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hee).

SCRep. 1088 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 692

The purpose of this measure is to support a diversified agricultural industry in Hawaii by extending the lapse date from June 30, 2007, to June 30, 2010, for special purpose revenue bonds authorized under Act 131, Session Laws of Hawaii 2004, to assist Aloun Farms in building an agricultural processing plant.

Testimony in support of this measure was submitted by the Hawaii Farm Bureau Federation, the Hawaii Agricultural Research Center, and Aloun Farms.

Aloun Farms is a family farm operation that consists of over a thousand acres of farmland in central Oahu, which was once used for sugar production. Your Committee finds that Aloun Farms is laying the foundation of diversifying Hawaii's agricultural industry by using the special purpose revenue bonds to build an agricultural processing facility and, upon completion of the facility, establish an educational farm tour program.

Your Committee has amended this measure by changing the effective date of this measure from June 29, 2007, to June 29, 2050, to promote further discussion.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 692, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 692, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Hee).

SCRep. 1089 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1639

The purpose of this measure is to achieve the long-term agricultural viability and use of important agricultural lands by creating an incentive for farmers to designate their lands as important agricultural lands.

Specifically, this measure:

- (1) Excludes rental income derived from qualifying agricultural leases on lands identified and designated as important agricultural lands from gross income, adjusted gross income, and taxable income;
- (2) Exempts rental income derived from qualifying agricultural leases on lands identified and designated as important agricultural lands from the general excise tax; and
- (3) Appropriates an unspecified amount for the Department of Agriculture to assess the impact the income tax exclusion of rental income derived from important agricultural lands provided for in this measure, and requires the Department to submit an annual report regarding the assessment.

Testimony in support of this measure was submitted by the Department of Agriculture. Testimony in opposition to this measure was submitted by one individual. The Department of Taxation and the Tax Foundation of Hawaii submitted comments.

In 2005, the Legislature enacted Act 183, Session Laws of Hawaii 2005, to preserve and protect agricultural lands, promote diversified agriculture, increase agricultural self-sufficiency, and assure the availability of agriculturally suitable lands. Furthermore, the Legislature acknowledged that agricultural viability is a vital component of a diversified agricultural industry, and established a process to identify incentives to encourage farmers and landowners to designate their lands as important agricultural lands. Your Committee finds that establishing a tax incentive program relating to important agricultural lands will assist in enhancing the agricultural viability on important agricultural lands.

Of particular note, your Committee received a fiscal impact statement from the Department of Taxation that this measure, if enacted, would result in an annual revenue loss to the State of \$376,000. However, the fiscal impact statement submitted did not specify the methodology by which the fiscal impact was calculated.

Your Committee has amended this measure by:

- (1) Deleting the amendment to section 237-24, Hawaii Revised Statutes, and adding language that amends section 237-24.75, Hawaii Revised Statutes, by including rental income derived from agricultural leases on important agricultural lands as an exemption from the general excise tax;
- (2) Adding language that makes:
 - (A) Section 1 of this measure applicable to taxable years beginning after December 31, 2008; and
 - (B) Section 2 of this measure effective on July 1, 2009, and applicable to gross income or gross proceeds received after June 30, 2009; and
- (3) Making technical, nonsubstantive amendments for the purposes of style and consistency.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to achieve the long-term agricultural viability and use of important agricultural lands.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1639, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1639, H.D. 2, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hee).

SCRep. 1090 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 718

The purpose of this measure is to require the Hawaii Community Development Authority to set aside the old ice chute and fuel dock operations building site at the Kewalo Basin Cove for use by the Kewalo Keiki Fishing Conservancy.

Specifically, this measure:

- (1) Requires the Hawaii Community Development Authority to set aside a portion of tax map key (first division) 2-1-058:41 and tax map key 2-1-058:116 for continued use by the Kewalo Keiki Fishing Conservancy; and
- (2) Requires the Hawaii Community Development Authority to proceed with any necessary environmental remediation at the site, using their existing funds that have been set aside for remediation purposes.

Testimony in support of this measure was submitted by the Kewalo Keiki Fishing Conservancy, the Kaka'ako Shoreline Park Plan, the Hawaii Near Shore Fishermen, and one hundred sixty-three individuals. Testimony in opposition to this measure was submitted by the Department of the Attorney General and the Hawaii Community Development Authority.

Your Committee finds that the Kewalo Keiki Fishing Conservancy is a unique fishing school at Kewalo Basin and was established due to an observation that many of Hawaii's children were disconnected from the marine environment and activities. The Conservancy focuses on reconnecting children with the land they live on and the water that surrounds their home. Since 2004, over five hundred children have visited the Conservancy and participated in its programs. The Conservancy advocates a tag and release fishery at the Kewalo Basin Cove, which consists of

bait fish, squid, herbivore fish, and predatory fish. The tag and release program provides children an opportunity to learn about fishing and marine life and to participate in sustainable practices. From 2004 to 2006, the Conservancy has tagged over seventeen thousand five hundred fish.

It was indicated to your Committee that the Hawaii Community Development Authority has health and safety concerns regarding setting aside tax map keys (first division) 2-1-058:41 and 2-1-058:116. The Development Authority has suggested an alternative site for the Kewalo Keiki Fishing Conservancy to use at the Kewalo Basin Net Shed area, which the Development Authority feels would allow better access and accommodations for the Conservancy. The Development Authority is concerned that the Conservancy's present location does not provide adequate facilities or infrastructure and is concerned that the site may have environmental ground contamination. Your Committee notes that the Department of Health did not submit testimony regarding this measure, and encourages the Department of Health to provide input relating to whether any health risks exist at the Conservancy site.

Furthermore, the Hawaii Community Development Authority indicated to your Committee that it presently does not have any funds set aside for any necessary environmental remediation work. Thus, your Committee further finds that the Development Authority will need funds to accomplish the requirements of this measure, if passed.

Accordingly, your Committee has amended this measure by:

- (1) Adding an appropriation section with an unspecified amount to the Hawaii Community Development Authority for any necessary remediation at tax map keys (first division) 2-1-058:41 and 2-1-058:116 for continued use by the Kewalo Keiki Fishing Conservancy;
- (2) Adding an effective date of July 1, 2050, to promote further discussion on this matter; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 718, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 718, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hee).

SCRep. 1091 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 507

The purpose of this measure is to effectively manage small boat harbors and consistently enforce state boating laws and regulations by prohibiting the Department of Land and Natural Resources from transferring the authority over the small boat harbors to the counties, unless expressly provided by statute.

Testimony in support of this measure was submitted by a Council Member, County of Maui; the Hawaii Government Employees Association, AFSCME, Local 152, AFL-CIO; the Ocean Tourism Coalition; the Hawaii Boaters Political Action Association; and two individuals. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources.

Your Committee finds that article V, section 6, of the State Constitution mandates that functions of the state government shall be allocated by law among its principal departments. Currently, the Department of Land and Natural Resources is responsible for the operation, administration, and maintenance of the small boat harbors. This authority was expressly provided by statute under section 200-3, Hawaii Revised Statutes. Although the Department of Land and Natural Resources may be contemplating transferring the small boat harbors to the counties, your Committee further finds that the Department may not do so without action by the Legislature, pursuant to article V, section 6, Hawaii State Constitution.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 507, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hee).

SCRep. 1092 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Transportation and International Affairs on H.B. No. 714

The purpose of this measure is to increase effective enforcement of the laws and rules that protect and conserve the State's natural resources by designating Division of Conservation and Resources Enforcement vehicles as authorized emergency vehicles.

Specifically, this measure:

- (1) Amends section 291-31.5, Hawaii Revised Statutes, to allow Division of Conservation and Resources Enforcement vehicles to operate, affix, display, or possess a lamp, reflector, or illumination device that appears to be the color blue and red; and
- (2) Amends section 291C-1, Hawaii Revised Statutes, to include vehicles authorized pursuant to section 291-31.5, Hawaii Revised Statutes, under the definition for "authorized emergency vehicle".

Testimony in support of this measure was submitted by the Department of Land and Natural Resources; the Honolulu Police Department, City and County of Honolulu; the Office of Hawaiian Affairs; the Nature Conservancy; and four individuals.

The Department of Land and Natural Resources Division of Conservation and Resources Enforcement officers need the proper equipment to allow them to more effectively enforce the laws and rules that protect and conserve the State's natural resources. Testimony submitted to your Committees indicated that there have been numerous situations where Division Enforcement officers have been involved in risky or dangerous circumstances while investigating possible violations of or enforcing conservation laws and rules.

Your Committees find that blue and red lights affixed to Division of Conservation and Resources Enforcement vehicles act as a deterrent when used during conspicuous patrols in state parks, hunting areas, forests, harbors, coastal areas, and other public recreational areas. Blue and red lights are immediately identifiable as a color of authority, particularly during the night or during adverse weather conditions, and can enhance the Division's ability to respond to natural or manmade disasters, search and rescue, and wild land fires.

Your Committees have amended this measure by:

- (1) Adopting language similar to the language in S.B. No. 768, S.D. 1, by deleting the language under section 1 and replacing it with language that creates a new section under chapter 291, Hawaii Revised Statutes, which allows only the Division of Conservation and Resources Enforcement to affix and display a lamp, reflector, or illumination device that appears to be the colors blue and red;
- (2) Deleting the reference to section 291-31.5, Hawaii Revised Statutes, under the definition for “authorized emergency vehicle” contained in section 291C-1, Hawaii Revised Statutes, and replacing it with a reference to the new section under chapter 291, Hawaii Revised Statutes, in section 1 of this measure; and
- (3) Making technical, nonsubstantive amendments for the purposes of style and consistency.

Your Committees believe that this measure, as amended, fulfills the intent of this measure, which is to increase effective enforcement of the laws and rules that protect and conserve the State’s natural resources.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Transportation and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 714, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 714, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 4 (Hee, Hooser, Taniguchi, Tsutsui).

SCRep. 1093 Transportation and International Affairs on H.B. No. 375

The purpose of this measure is to provide stricter penalties for violation of the law on pedestrians’ right of way in crosswalks, and the law on crossing at places other than a crosswalk.

Your Committee received testimony in support of this measure from the Governor, Department of Transportation, Honolulu Police Department, and AARP Hawaii. Comments were received from the Judiciary.

Act 73, Session Laws of Hawaii 2005, clarified the law on pedestrians’ right of way in crosswalks by requiring the driver of a vehicle to stop and yield the right of way to a pedestrian crossing the roadway on the same half of the road as the vehicle is traveling, or when the pedestrian is approaching so closely from the opposite half of the road so as to be in danger. However, your Committee finds that despite this amendment, pedestrian accidents continue to rise on Oahu. Ten pedestrians have been killed on Oahu roads in the first ten weeks of 2007, according to a *Honolulu Advertiser* article of March 11, 2007.

Your Committee further finds that additional statutory amendments are warranted to provide stricter penalties for drivers and pedestrians alike who violate the law. Other measures include public education, walk signal light timing, and traffic calming devices, which your Committee encourages the Department of Transportation to undertake administratively.

The intent of this measure is to reduce pedestrian accidents by providing a measure of deterrence in the form of stricter penalties. Although your Committee realizes that even deterrence is no substitute for safe driving and pedestrian vigilance, this measure is nonetheless necessary to protect the public safety and health.

Your Committee has amended this measure by:

- (1) Providing specific monetary penalties for the driver, as follows:
 - (A) For a first infraction, a fine of \$150;
 - (B) For a second infraction, a fine of \$300, and revocation of license and privilege to operate a vehicle for a period of ninety days; and
 - (C) For a third and subsequent infraction committed within two years of the date of a second infraction, a fine of \$1,000, and revocation of license and privilege to operate a vehicle for a period of one hundred eighty days; and
- (2) Providing a flat penalty of a \$100 fine for each violation by a pedestrian;
- (3) Decriminalizing the proposed language by inserting the term “infraction” for the term “conviction” and making similar amendments; and
- (4) Changing the effective date from January 1, 2112, to upon approval.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 375, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 375, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hooser, Inouye, Taniguchi).

SCRep. 1094 Transportation and International Affairs on H.B. No. 1159

The purpose of this measure is to establish an affirmative defense to driving without a driver’s license, that the driver was licensed in another jurisdiction.

Your Committee received testimony in support of this measure from the Honolulu Prosecuting Attorney; Honolulu Police Department; and Honolulu Department of Customer Services. Comments were received from the Judiciary.

In *State v. Matautia*, 81 Haw. 76 (1996), the Intermediate Court of Appeals ruled that in a case involving driving without a license, the State must prove that the defendant was unlicensed. As a practical matter, the decision required the State to prove, among other issues, that the defendant did not possess a valid driver’s license from another accepted jurisdiction. However, retrieving this information is very difficult because there is no available network that links the driver’s license databases for all accepted jurisdictions, including the United States or the provinces or states of Canada or Mexico. Thus, inquiries to all of the individual states or provinces must be conducted separately, and there is insufficient time and resources to send inquiries to all of these jurisdictions in each and every case involving driving without a license.

The inability of the State to prove that a motorist is not validly licensed in other jurisdictions has markedly raised the number of motorists found not guilty of driving without a license and adversely affects the State’s efforts to promote traffic safety on Hawaii’s roadways.

Your Committee has amended this measure on the recommendation of the Honolulu Prosecuting Attorney to add a statutory amendment that eliminates the reference to section 286-105, Hawaii Revised Statutes, relating to what persons are exempt from obtaining a Hawaii's drivers license, from the list of those persons who may operate a motor vehicle in the State without a Hawaii's drivers license to further facilitate the prosecution of these cases, and to clarify an effect of a reenactment of that statutory amendment from an earlier law. Your Committee has also made technical amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1159, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1159, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hooser, Inouye, Taniguchi).

SCRep. 1095 Transportation and International Affairs on H.B. No. 1608

The purpose of this measure is to create an emergency power for the Governor and the Director of Transportation to exercise upon a determination that a substantial endangerment to public health and safety is or will be caused by the temporary closure of, or the lack of access to, an area by a state highway, which requires immediate action.

Your Committee received testimony in support of this measure from the Department of Transportation; Lahaina Bypass.com; Maui Land & Pineapple Company, Inc.; and one individual. Comments were received from the State Procurement Office and the Consumer Lawyers of Hawaii.

Your Committee finds that severe incidents on the highways caused by traffic accidents and natural disasters have had a major impact on the provision of access for motorists to communities. The emergency power would allow the Governor or the Director of Transportation to designate the area to be a traffic emergency zone and allow the taking of any action that may be necessary, without public hearing in the interests of expediency, until access to the designated area has been established.

Your Committee has amended this measure by:

- (1) Providing the county mayors and county directors of transportation with the same emergency powers with regard to county highways and streets;
- (2) Adding a qualified immunity for a claim for negligence in the design, construction, repair, and correction of work performed; and
- (3) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1608, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1608, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hooser, Inouye, Taniguchi).

SCRep. 1096 Transportation and International Affairs on H.B. No. 1757

The purpose of this measure is to repeal the progressive fine and penalty structure for violation of commercial vehicle length and weight restrictions.

This measure also requires, rather than authorizes, the Department of Transportation to establish a system to allow violators of this law to mail in uncontested fine payments.

Your Committee received testimony in support of this measure from the Hawaii Transportation Association and U. Okada & Co., Ltd. Testimony in opposition was received from the Department of Transportation.

Your Committee finds that commercial drivers are burdened by repeated court appearances when in violation of the commercial vehicle weight restriction law. Time in court is time off the road. Time off the road is a delay in deliveries. Court appearances are necessary since the citing officer has no knowledge of whether a violation is the first, second, or third violation. Eliminating the graduated fine scale would facilitate the mail in system of paying the fines, as embodied in this law.

Your Committee notes that the current fines were enacted into law by Act 57, Session Laws of Hawaii 1989. Your Committee also notes that, although it is sensitive to the fact that commercial drivers are adversely impacted when spending time in court, your Committee believes that carrying overweight loads should not be occurring in the first place. Such actions place the driver as well as the public in danger and accelerates road quality deterioration.

Accordingly, to serve as a more meaningful deterrent to such violations, your Committee has amended this measure by doubling the amount of the existing fines, and changing the effective date from January 1, 2112, to July 1, 2007.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1757, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1757, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hooser, Inouye, Taniguchi).

SCRep. 1097 Transportation and International Affairs on H.B. No. 1609

The purpose of this measure is to exclude from the repair or maintenance of existing state roads and highways, to the extent the repair and maintenance is necessary to preserve or regain the integrity of the road or highway from damage caused by environmental impacts upon or beneath the road or highway, from the definition of "development" under the State's coastal zone management law.

Your Committee received testimony in support of this measure from the Department of Transportation, West Maui Taxpayers Association, General Contractors Association of Hawaii, and Lahaina Bypass Now. Testimony in opposition was received from Hawaii's Thousand Friends.

Your Committee finds that this measure would assist in expediting the State's ability to address urgent road work repair by protecting the road's integrity from the elements. The recent earthquake that damaged many roads on the island of Hawaii points out the susceptibility of roads to damage by natural forces, which need urgent and immediate repair. These repairs are to existing roads and highways, which should cause minimal harm to the environment. In most cases in special management areas, the original construction would have required a special management area permit. Your Committee believes that this measure will help expedite the necessary repair and maintenance of the State's existing roads and highways while minimizing any adverse impacts that the repair or maintenance action may cause.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1609, H.D. 1, and recommends that it pass Second Reading and be referred to the Committees on Intergovernmental and Military Affairs and Water, Land, Agriculture, and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hooser, Inouye, Taniguchi).

SCRep. 1098 Transportation and International Affairs on H.B. No. 1605

The purpose of this measure is to appropriate funds for the development and implementation of an intelligent transportation system architectural plan for Maui, which includes a Maui traffic control center.

Your Committee received testimony in support of this measure from the Department of Transportation; two Maui County Council Members; Lahaina Bypass.com; Maui Communicators; Sands of Kahana; West Maui Taxpayers Association; Ma'alaia Community Association; and two individuals.

Your Committee finds that an intelligent transportation system applies communications and information technology to provide solutions to congestion and traffic control issues. Such a system could use a variety of field devices, including traffic cameras, in partnership with a traffic control center via a single mode fiber-optic network to effectively alleviate traffic congestion in a geographic area.

Testimony from Maui indicates that traffic delays continue to intensify. Access to and from West Maui is disrupted every time there is a traffic accident on the Honoapiilani Highway between Pali and Puamana. Your Committee further finds that traffic should be rerouted to the former cane haul road in these instances, which would provide an open corridor for emergency vehicles and limit the disruption of traffic on the highway. Currently, access to West Maui is completely cut off when there is a fire or an accident. Your Committee believes that providing funds to develop and implement an intelligent transportation architectural plan and a traffic control center for Maui will help eliminate such future occurrences.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1605, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hooser, Inouye, Taniguchi).

SCRep. 1099 (Joint) Tourism and Government Operations and Intergovernmental and Military Affairs on H.B. No. 1018

The purpose of this measure is to create a new category of liquor license for condominium hotels.

Your Committees received testimony in support of this measure from the Hawaii County Department of Liquor Control; Hawai'i Hotel & Lodging Association, and Outrigger Enterprises, Inc.

Your Committees find that the advent of the condominium hotel ownership and operating structure is a relatively new concept that has recently been gaining in popularity in the State. While many former hotel operations have converted to a condominium hotel ownership and operating structure, this new structure has created an interpretation and application problem with respect to liquor licensing laws. Specifically, the restrictive nature of the definition of "premises" contained in the existing Class 12 hotel liquor licensing requirements would require that a licensed liquor establishment be situated and operated on the hotel portion, not the condominium portion, of the condominium hotel. Such a restrictive interpretation could lead to the inconsistent application and enforcement of liquor licensing laws when trying to fit condominium hotels into the existing liquor licensing framework for hotels.

Your Committees believe that creating a new liquor licensing category to specifically address the unique ownership and operational structure of condominium hotels would promote the consistent interpretation and application of liquor licensing laws. Your Committees also believe that the establishment of a separate category for condominium hotel liquor licenses is necessary to provide adequate guidance to county liquor commissioners to ensure that the liquor licensing laws that govern the sale of liquor on such premises are uniformly interpreted and applied throughout a respective county's jurisdiction.

Your Committees have amended this measure on recommendation of the four county liquor commissions and the hotel stakeholders, as presented in testimony by Outrigger Enterprises, Inc., that:

- (1) Clarifies the liquor license application process;
- (2) Clarifies the definition of "condominium hotel" by replacing the term "apartment" with "unit" and by stating that condominium hotels are hotels that may be a part of a condominium property regime established under chapter 514B, Hawaii Revised Statutes, that does not have guest rooms that are separate units, as defined in section 514B-3, Hawaii Revised Statutes;
- (3) Establishes a definition of "condominium hotel operator" as a person who operates a condominium hotel and is registered as such under section 467-30(b), Hawaii Revised Statutes;
- (4) Requires a condominium hotel operator to submit quarterly lists to the respective liquor commission on the units being utilized as part of the condominium hotel operation, maintain a current list of such units at the condominium hotel for inspection by liquor commission employees, and provide flexibility to the condominium hotel operator to substitute units within the condominium hotel for transient accommodation uses;
- (5) Adds a section to the measure that if a hotel liquor license holder applies to a liquor commission to change their license to a condominium hotel liquor license, the requested change shall require a public hearing; and
- (6) Makes technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Tourism and Government Operations and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1018, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1018, H.D. 2, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, 1 (Hemmings).

SCRep. 1100 (Joint) Tourism and Government Operations and Intergovernmental and Military Affairs on H.B. No. 575

The purpose of this measure is to establish procedures for the Governor to declare a tourism emergency and to establish a Tourism Emergency Trust Fund.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; and Hawaii Tourism Authority (HTA). Comments were received from the Tax Foundation of Hawaii.

Your Committees find that a real threat exists to Hawaii's tourism industry. These threats are different in many ways from a civil defense emergency. World conflict, terrorism, natural disaster, or an outbreak of disease can pose a real and substantial detrimental economic impact on the overall financial well-being of Hawaii's tourism industry, thereby causing an adverse ripple effect across the State's entire economy.

Under this measure, the initial determination of whether a tourism emergency exists would be made by the Board of Directors of the Hawaii Tourism Authority. Upon making a determination that an emergency exists, the board would then submit a request to the Governor to declare a tourism emergency.

The Tourism Emergency Trust Fund would be used exclusively to provide for the development and implementation of emergency measures to respond and mitigate to any adverse effects on the tourism industry resulting from world conflict, terrorism, natural disaster, or an outbreak of a disease that may result in a substantial interruption of commerce and adversely affect the welfare of the people of Hawaii. The fund would hold moneys derived from unused residual revenues after the required statutory percentage allocations into the Tourism Special Fund's subaccount for a safety and security budget are made.

The intent of this measure is to be proactive and prepared to protect Hawaii's vital economic engine--tourism. As such, this measure is a wise and prudent step toward meeting the challenges of any catastrophe that has the potential to devastate the State's tourist industry and derail the State's economy. However, it is not the intent of your Committees that this measure affect organized labor.

Your Committees have amended this measure by inserting an amended version of S.B. No. 679, S.D. 2, a substantially similar measure that:

- (1) Adds assistance to tourists during the emergency;
- (2) Adds that the tourism emergency response must not adversely affect organized labor;
- (3) Changes "statewide emergency" to "tourism emergency," on recommendation in testimony of the HTA to allow it to more easily respond to an emergency;
- (4) Clarifies that the HTA is required to develop and implement measures upon declaration of an emergency;
- (5) Changes the effective date to July 1, 2050; and
- (6) Makes technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Tourism and Government Operations and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 575, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 575, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 1 (Hemmings).

SCRep. 1101 Judiciary and Labor on H.B. No. 379

The purpose of this measure is to increase witness' daily fees from \$20 to \$55 and the per diem paid to witnesses who travel from out of state, and who travel inter-island and stay overnight, from \$110 to \$160 per day to attend court proceedings.

Your Committee received testimony from the Department of the Prosecuting Attorney and the Office of the Public Defender in support of this bill. The Department of Budget and Finance provided comments.

Your Committee amended the bill to change the effective date from January 1, 2050 to "upon approval".

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 379, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 379, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Kokubun).

SCRep. 1102 Judiciary and Labor on H.B. No. 453

The purpose of this measure is to ensure equality for women and girls in the state by appropriating funds to the Hawaii State Commission on the Status of Women for programming, travel and office expenses.

Your Committee received testimony in support of this measure from the Sex Abuse Treatment Center, the Kokua Council, the Commission on the Status of Women, VOICES, Community Alliance on Prisons, and the University of Hawai'i Women's Center.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 453, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Kokubun).

SCRep. 1103 Judiciary and Labor on H.B. No. 1211

The purpose of this measure is to increase fees for court-appointed counsel and guardian ad litem in Family Court civil cases.

The bill provides that fees for legal services be increased to \$90 an hour and for non-legal services to \$60 an hour.

Your Committee received testimony in support of the bill from the Judiciary. There was no opposition to the bill.

Your Committee amended the bill to make it effective upon approval.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1211, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1211, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Kokubun).

SCRep. 1104 Judiciary and Labor on H.B. No. 1493

The purpose of this measure is to exempt existing and new employees of the Criminal Injuries Compensation Commission from civil service laws as established in Chapter 76 and to provide the new staff members the right to bargain collectively as established in Chapter 89.

Your Committee finds that this bill does not affect present Commission employees. The duties and responsibilities of the Commission are unique because of their dealings with crime victims. This bill will recognize the unique duties and responsibilities. Commission does not receive any general funds and is funded through special funds and a matching federal grant from the Victims of Crime Act Fund. In 1998, the Legislature established a crime victim compensation fee to provide a funding base for the Commission to become fiscally self sufficient. This bill will ensure that the Commission is adequately staffed.

Your Committee received testimony in support of the bill from the Crime Victim Compensation Commission and did not receive any opposition to the bill.

Your Committee amended the bill by making it effective upon approval instead of July 1, 2112.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1493, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1493, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1105 Education on H.B. No. 14

The purpose of this measure is to repeal the transfer of duties and functions from the Department of Budget and Finance to the Department of Education pursuant to Act 51, Session Laws of Hawaii 2004, as amended (Act 51, as amended).

Testimony in support of this measure was submitted by the Department of Education and the Department of Budget and Finance.

Your Committee finds that pursuant to the Reinventing Education Act of 2004, Act 51, as amended, the Department of Education was established as a separate jurisdiction of the State. Therefore, the transfer of certain duties and functions from different departments to the Department of Education became necessary. Act 51, as amended, also established the Interagency Working Group, which was tasked with the responsibility of overseeing the transfers to the Department of Education. In its recent report to the Legislature, the Interagency Working Group recommended that the transfer of functions from the Department of Budget and Finance to the Department of Education be repealed.

Additionally, your Committee further finds that the Departments of Education and Budget and Finance have entered into a Memorandum of Understanding, which sets forth new procedures or requesting allotments for capital improvement projects, requirements for other fiscal matters including debt service calculations, employee benefit calculations, collective bargaining appropriation bills, and increasing the expenditure ceiling for federal funds for the Department of Education. Your Committee determines that given the current situation, the repeal of the transfer of duties and functions from the Department of Budget and Finance is appropriate.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of clarity and to reflect preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 14, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 14, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 1106 Education on H.B. No. 110

The purpose of this measure is to increase available student housing on or near University of Hawaii campuses by appropriating funds for the development thereof.

Testimony in support of this measure was submitted by the University of Hawaii.

Your Committee finds that University of Hawaii students encounter great difficulty when attempting to obtain on-campus or other university student housing. The lack of adequate student housing causes students to seek housing in the residential rental market, which is already in short supply. Many students may be forced to travel great distances to university campuses in order to maintain affordable housing. Your Committee further finds that the lack of adequate student housing for the University of Hawaii campuses not only adversely impacts the students, but also the community at large through increased traffic congestion and increased housing demands.

This measure appropriates funds to the University of Hawaii for the development of student housing through numerous means, which your Committee believes will positively affect the students, the University of Hawaii campuses, and the surrounding communities.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of clarity and to reflect preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 110, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 110, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hee, Nishihara, Taniguchi).

SCRep. 1107 Education on H.B. No. 1529

The purpose of this measure is to establish scholarship programs in honor of Senator Hiram L. Fong and Senator Oren E. Long for University of Hawaii students and appropriate funds therefor.

Testimony in support of this measure was submitted by the Department of Education, the University of Hawaii, and two individuals.

Your Committee finds that Senator Hiram L. Fong was a champion of civil rights, labor rights, and immigration reform. He was a respected legislator whose achievements are great in number and who espoused timeless philosophies. Your Committee further finds that Senator Oren E. Long was also a distinguished leader who devoted over forty years of his life to public service and worked successfully in collaboration with Senator Fong on many initiatives, including the establishment of the East-West Center.

Based upon recommendations from the Hiram L. Fong Commission, established under Act 117, Session Laws of Hawaii 2005, this measure establishes the Senator Hiram L. Fong Scholarship Program and the Senator Oren E. Long Scholarship Program at the University of Hawaii. Your Committee believes that the establishment of these scholarship programs are fitting tributes to these great leaders. Your Committee further determines that appropriations for each program should be in the amount of \$10,000, which will allow a scholarship to be awarded to each recipient in the amount of \$5,000 for each program.

Your Committee has amended this measure by changing its effective date to July 1, 2050, to facilitate further discussion on the matter.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1529, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1529, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hee, Nishihara, Taniguchi).

SCRep. 1108 Transportation and International Affairs on H.B. No. 356

The purpose of this measure is to create the offense of leaving a child unsupervised in a motor vehicle.

Your Committee received testimony in support of this measure from the Department of Human Services, Honolulu Prosecuting Attorney, Honolulu Police Department, and Kids In Cars.

This measure would apply to children under the age of nine who are left alone in a motor vehicle or with a minor under the age of fifteen.

Your Committee finds that leaving a child alone in a motor vehicle poses substantial risk of injury or death from suffocation in a hot parked vehicle and of unintentional kidnapping in the course of motor vehicle theft. Although parents mean well, the seemingly innocuous practice of leaving a child in a motor vehicle, even momentarily, to buy groceries or do banking can have disastrous consequences. While the car is parked and left unattended, thieves have been known to steal motor vehicles with the child still in the car. Incidences have also occurred where a parent forgets the child in the car, parks the car with the windows rolled up, and proceeds to work, leaving the child for the whole day.

As recently as March 17, 2007, a three-year-old child died after being left alone in a car for more than one and one-half hours while her father visited friends. Your Committee further finds that this tragedy should never have occurred.

Under existing law in section 709-904(2), Hawaii Revised Statutes, a person may be subject to prosecution for the misdemeanor offense of endangering the welfare of a minor in the second degree only if the person knowingly endangered the minor's physical or mental welfare by leaving the minor in the vehicle, thereby violating the legal duty of care or protection owed to the minor. The requirement for a knowing state of mind is difficult for the prosecution to prove a case against the driver. This measure would facilitate the prosecution of these types of cases.

This measure is intended to bring attention to parents and other persons charged with the care and responsibility of minors to never leave the child unattended in the car. The intent of this measure is not to criminalize the behavior, notwithstanding the usage of the terms "offense" and "conviction". Violation of this measure is intended to be a traffic violation subject to fine.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 356, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hooser, Inouye, Taniguchi).

SCRep. 1109 Transportation and International Affairs on H.B. No. 362

The purpose of this measure is to require the driver of a motor vehicle involved in an accident that results only in damage to the vehicle, to move the vehicle to a safe location off the roadway, including a shoulder lane or median, as close to the accident scene as possible.

This measure also clarifies that a driver is not liable or at fault for the accident for having removed the vehicle by sole reason of moving the vehicle.

Your Committee received testimony in support of this measure from the Honolulu Police Department.

Your Committee finds that motor vehicle accidents that do not result in bodily injuries could pose significant traffic hazards when vehicles are left on the roadway to await the arrival of police. The intent of this measure is to minimize that risk by requiring the drivers to remove their vehicles from the road but near enough to the accident scene.

Your Committee further finds that existing law is silent about the duties of a driver to move the vehicle to a safe location at the scene of an accident. According to the testimony of the Honolulu Police Department, drivers continue to feel compelled to refuse to move the vehicle even if it causes a traffic backup. This measure would clarify that the vehicle should be moved, and would serve as a device to educate the public on what to do with the vehicle at the scene of the accident.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 362, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hooser, Inouye, Taniguchi).

SCRep. 1110 Transportation and International Affairs on H.B. No. 1547

The purpose of this measure is to expand Hawaii's presence in the international arena.

Specifically, the measure:

- (1) Establishes a legislative protocol fund for international affairs;
- (2) Adds duties to the Office of International Affairs (Office) to facilitate international educational program links and to expand the scope of its functions to foster Hawaii's worldwide presence;
- (3) Appropriates funds for the Office to hire an executive director and administrative assistant, and for program operation and expenses; and
- (4) Appropriates funds to the University of Hawaii at Manoa to bring the Second International Symposium on Freeway and Tollway Operations to Hawaii in 2009, and to begin preliminary planning for the 2009 conference.

Your Committee received testimony in support of this measure from the Governor; Department of Business, Economic Development, and Tourism; Consulate General of Japan in Honolulu; Department of Education; University of Hawaii System; East-West Center; Center for Chinese Studies; Hawaii English Language Program at the University of Hawaii at Manoa; Center for Chinese Studies, University of Hawaii at Manoa; Hawaii Automobile Dealers Association; Honolulu Japanese Chamber of Commerce; Global Brain, Inc.; United Nations Association of the United States of America Hawaii Division; Hawaii Highway Users Alliance; Charley's Taxi; Economic Development Alliance; and eleven individuals.

Your Committee finds that realization of Hawaii's longstanding desire for economic diversification and sustainability turns on applying the State's high skilled resources to the creation and adoption of innovation across the economy.

Your Committee further finds that in order to advance Hawaii's global competitiveness through education, there needs to be coordination between the State, counties, and educational institutions, as well as private agencies engaged in international affairs. This measure would designate the Office of International Affairs as the central point for accountability serving as a portal of information and to leverage resources.

Your Committee has amended this measure by:

- (1) Deleting the appropriation for the Second International Symposium on Freeway and Tollway Operations;
- (2) Inserting an appropriation of \$60,000 for each year of the fiscal biennium for the Office operations;
- (3) Adding promotion of international sport events that benefit the State to the duties of the Office; and
- (4) Changing the effective date to July 1, 2007.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1547, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1547, H.D. 3, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Hooser, Taniguchi).

SCRep. 1111 Transportation and International Affairs on H.B. No. 497

The purpose of this measure is to require the expenditure of at least two per cent of eligible federal moneys in the State Highway Fund to establish bike paths and bike lanes in the State's Master Bicycling Plan.

This measure also requires the Department of Transportation (DOT) to include the bicycling community in a public involvement process to plan bikeways, and requires an allocation of highway maintenance funds to ensure the safety of bikeways.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii Bicycling League, Kauai PATH Committee, Sierra Club, Hawai'i Chapter, Democratic Party of Hawaii, and ten individuals. Testimony in opposition was received from the Department of Transportation.

Your Committee finds that bikeways are urgently needed to encourage commuters, particularly on Oahu, to take advantage of the opportunities Hawaii's ideal weather and gentle terrain provide for comfortable and healthy traveling via bicycle between home and workplace.

The intent of this measure is to increase the number of bike paths and bike lanes by ensuring a minimum allocation of funds for bicycling projects, as well as to increase the safety of bicyclers by including them in the planning stages of bikeways and increasing the maintenance of bikeways.

Your Committee has amended this measure by replacing its contents with S.B. No. 152, S.D. 2, a similar measure, with the addition of clarifying amendments made on mutual recommendation of the DOT and the Hawaii Bicycling League to:

- (1) Expend the funds to establish multi-use paths, bicycle paths, and bicycle lanes;
- (2) Install signage and safety devices along bikeways;
- (3) Require the DOT to include the public in determining the location of multi-use paths, bicycle paths, and bicycle lanes, and the installation of signage and safety devices along bikeways; and
- (4) Insert a definition for bicycle paths, bicycle lanes, and bikeways, which are as defined in section 291C-1, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 497, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 497, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hooser, Inouye, Taniguchi).

SCRep. 1112 Transportation and International Affairs on H.B. No. 806

The purpose of this measure is to require the Department of Transportation to conduct a pilot study to identify intersections where the time to cross the intersection is insufficient for elderly pedestrians, and to appropriate funds for the implementation of the pilot study.

Your Committee received testimony in support of this measure from the Governor; Department of Health; Department of Transportation (DOT); Maui County Office on Aging; Downtown Neighborhood Board No. 13; Kokua Council; Hawaii Bicycling League; AARP Hawaii; and three individuals.

Your Committee finds that Hawaii's elderly pedestrians should not have to rush to cross the street. Adequate time should be provided for elderly pedestrians to cross the street safely. A 2004 Elderly Pedestrian Integration Report prepared by SMS Research & Marketing Services, Inc. for the DOT indicated that there are approximately five hundred sixty pedestrian injuries in Hawaii each year, and that an average of twenty-eight pedestrians die each year after being struck by a car. Elderly pedestrians, age sixty-five and older, constituted the highest number of pedestrian fatalities when compared to all other age groups in Hawaii.

The intent of this measure is to protect pedestrians of all ages while they are in a crosswalk. Adjusting the timing of crosswalk signal indicators is the first step in this direction.

Your Committee amended this measure by replacing its contents with the provisions of S.B. No. 1191, S.D. 2. As amended, this measure, among other things, would:

- (1) Allow the DOT, in conjunction with nonprofit organizations and the counties, to:
 - (A) Take immediate action to make crosswalks and roadways safe; and
 - (B) Conduct a statewide study to identify intersections where the time to cross the intersection is insufficient for elderly pedestrians as well as other persons who may require additional time, and to develop additional plans to make crosswalks and roadways safe;
- (2) Provide an appropriation of \$1,000,000 in each year of the 2007-2009 fiscal biennium for traffic countdown timers, a public awareness campaign, and pilot safety measures such as pedestrian activated signals, the painting of advanced crosswalk markings, hand-carried signs and flags, enforcement of crosswalk laws for drivers and pedestrians, and to provide grants-in-aid to the counties for traffic countdown timers. The grants-in-aid are to be supported by a dollar-for-dollar match from the counties;
- (3) Provide an appropriation of \$1,000,000, for fiscal year 2007-2008 and the sum of \$2,000,000, for fiscal year 2008-2009, for the DOT to conduct a pilot study to identify state and county intersections where the time to cross the intersection is insufficient for elderly pedestrians, and clarify that the department may consult with the counties and nonprofit organizations as appropriate for purposes of the pilot study; and
- (4) Change the effective date from July 1, 2020, to July 1, 2007.

The intent of this amended measure is for the Department of Transportation to work in collaboration with the AARP and the counties for the purposes of fulfilling this Act.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 806, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 806, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hooser, Inouye, Taniguchi).

SCRep. 1113 Transportation and International Affairs on H.B. No. 1549

The purpose of this measure is to require the police department of each county to establish a multidisciplinary accident investigation team for the purpose of investigating major accidents on roadways in the county in a manner that limits the length of time road closures are necessary for the data collection phase of the investigation, and to make an appropriation therefor to each county.

Your Committee received testimony in support of this measure from the Department of Transportation; The International Christian Church and Bible School, Inc.; Charley's Taxi; PHT, Inc. dba Polynesian Hospitality; Hawaii Highway Users Alliance; one State Representative; and two individuals. Testimony in opposition was received from the Honolulu Police Department.

Your Committee finds that traffic accident management is of utmost public importance, especially when a fatality occurs. Although the evidence collected at traffic accident scenes may be crucial to determining the cause of the accident, these accident investigations proceed at a slower rate in Hawaii than in comparable metropolitan areas in the United States.

Prolonged closures of traffic lanes adversely affect the public and our economy because students cannot reach school and school activities or return home afterwards; employees cannot reach their place of work or attend meetings at remote locations; and businesses cannot receive or deliver products necessary to do business. These traffic jams also bode ill for the economy because tourists cannot expeditiously reach their

destinations and may leave Hawaii without feeling that they have been on vacation at all. Moreover, these prolonged investigative delays may result in secondary accidents that cause further delays.

The California Highway Patrol, the Oregon State Police, the Washington State Patrol, the Utah Highway Patrol, and the Arizona Department of Public Safety use what is known as a multidisciplinary accident investigation team system that employs digital photography and other equipment that has reduced the duration of lane and road closures. Multidisciplinary accident investigation teams use total station survey systems that employ laser technology to record specific reference points that are recorded in an on-board data collector. Total station survey systems significantly accelerate data collection, thereby minimizing the time the roadway is closed and reducing the exposure of officers and civilian personnel to the inherent hazards of traffic congestion caused by roadway closures. The data can then be downloaded into a computer-aided drawing program and printed in a large format.

Your Committee has amended this measure by changing the effective date to July 1, 2050, and making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1549, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1549, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Hooser, Taniguchi).

SCRep. 1114 Education on H.B. No. 428

The purpose of this measure is to increase the educational capital of the State and improve its capacity to meet the challenges of providing support services to the elderly, the poor, and the homeless through the appropriation of funds to support the operations of the Center on the Family at the University of Hawaii.

This measure also requires the University of Hawaii to report to the Legislature prior to the 2008 Regular Session on actions taken pursuant to this measure.

Testimony in support of this measure was submitted by the Office of Youth Services, the University of Hawaii, Read To Me International, Aloha United Way, Ka Hale Pomaika'i, Hawaii Women Work!, the Institute for Human Services, Inc., Project Dana, Healthy Mothers, Healthy Babies Coalition of Hawaii, Windward Homeless Coalition, Volunteer Resource Center of Hawaii, Save the FoodBasket, Inc., and ten individuals.

Your Committee finds that the Center on the Family at the University of Hawaii conducts research and activities that focus on the economic strain on families; family resilience; the healthy development of children; the consequences for children of parental childrearing beliefs and practices; and monitoring the well-being of families, children, and the aging in Hawaii. The Center's mission is to enhance interdisciplinary research, service, and education that supports and strengthens families. Your Committee further finds that the Center provides valuable data on the State's families, children, and elderly that assists government departments and agencies as well as nonprofit organizations in serving disadvantaged groups within the State.

Furthermore, your Committee believes that an appropriation of \$150,000 in each year of the 2007-2009 fiscal biennium would be appropriate to assist the Center in its operations, which will in turn assist service agencies and organizations in better serving the people of Hawaii.

Accordingly, your Committee has amended this measure by:

- (1) Extending the appropriation for the Center on the Family for both years of the 2007-2009 fiscal biennium; and
- (2) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 428, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 428, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hee, Nishihara, Taniguchi).

SCRep. 1115 Education on H.B. No. 767

The purpose of this measure is to increase the financial support provided to families of underrepresented college student populations by the Running Start Program and ensure participating students earn credit toward their high school and college degrees upon successful completion of qualifying University of Hawaii courses.

Testimony in support of this measure was submitted by the Department of Education, the University of Hawaii, the Hawaii State Teachers Association, and GEAR UP Hawaii.

Your Committee finds that the Running Start Program is a joint program of the University of Hawaii and the Department of Education. The program helps to prepare high school students of underrepresented populations for college entry by allowing eligible high school students to enroll in qualified university courses and earn credits for high school graduation and college simultaneously. Your Committee further finds that the Running Start program provides many students with the motivation, preparation, and opportunity to explore and pursue post-secondary education, which would otherwise be unavailable or unaffordable.

Since its establishment in 2002, the Running Start Program has provided scholarships totaling \$260,000 to eight hundred fifty low-income students in Hawaii and anticipates providing approximately 140 new scholarships each year. Your Committee believes that additional funding in the amount of \$50,000 each year is necessary to allow the Running Start Program to keep pace with increased participation in the program and interest in college entry.

Accordingly, your Committee has amended the measure by:

- (1) Clarifying that the appropriation of funds is intended to increase support for the families of low-income and underrepresented students;
- (2) Clarifying that the Department of Education shall provide guidance and credit toward high school graduation for the successful completion of one-hundred level University of Hawaii courses; and

- (3) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 767, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 767, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hee, Nishihara, Taniguchi).

SCRep. 1116 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1201

The purpose of this measure is to streamline the process for preparing the Office of Hawaiian Affairs's budget.

Specifically, this measure amends section 10-14.5, Hawaii Revised Statutes (HRS), by:

- (1) Allowing the Board of Trustees of the Office of Hawaiian Affairs to choose the best method of providing beneficiaries in each county with opportunities to participate in the preparation of each of its biennial and supplemental budgets; and
- (2) Clarifying the inference that face-to-face meetings do not need to be held in every county.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs and the State Council of Hawaiian Homestead Associations.

Under section 10-14.5, HRS, the Office of Hawaiian Affairs is required to provide opportunities for beneficiaries in every county to participate in the preparation of each biennium and supplemental budget of the Office of Hawaiian Affairs. The Office of Hawaiian Affairs indicated to your Committee that the existing language under section 10-14.5, HRS, creates an inference that face-to-face meetings are required to provide beneficiaries the opportunity to review the budget. Furthermore, it was indicated that these meetings can pose a time constraint on the Board of Trustees who must set-up and meet with interested beneficiaries from each county within a relatively short period of time before the budget is due to the Legislature. Your Committee finds that streamlining the process of the Office of Hawaiian Affairs to prepare its budget will assist in more efficiently accomplishing its beneficiary consultation within a short time frame.

However, your Committee expresses concerns about the current beneficiary consultation and participation process in the preparation of the Office of Hawaiian Affairs budget. Furthermore, your Committee expresses concerns that the alternative methods may discourage or may make it unfeasible for beneficiaries to participate in the preparation of the budget. Thus, your Committee has requested that the Office of Hawaiian Affairs provide further information about beneficiary participation and its efforts in gathering beneficiary input.

Accordingly, your Committee has amended this measure by:

- (1) Changing the effective date of this measure to July 1, 2020, to further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1201, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1201, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hee).

SCRep. 1117 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1353

The purpose of this measure is to improve opportunities for Native Hawaiian homestead beneficiaries and increase engagement in the development of their Hawaiian homestead community by amending the Hawaiian Homes Commission Act of 1920, as amended, by authorizing moneys from the Hawaiian Home Receipts Fund to be transferred and deposited into the Native Hawaiian Rehabilitation Fund.

Testimony in support of this measure was submitted by the Department of Hawaiian Home Lands, the Office of Hawaiian Affairs, the State Council of Hawaiian Homestead Associations, and one individual.

The Hawaiian Home Receipts Fund is a holding fund into which interest moneys from loans or investments received by the Department of Hawaiian Home Lands are deposited. The Native Hawaiian Rehabilitation Fund, on the other hand, receives thirty per cent of the state receipts derived from cultivated sugar lands and from water licenses. These funds are used for the rehabilitation of Native Hawaiians and their families and the Hawaiian homestead communities, including educational, economic, political, social, and cultural processes by which the general welfare and conditions of Native Hawaiians are improved and perpetuated. Furthermore, the Native Hawaiian Rehabilitation Fund is used to fund grants, scholarships, and other activities that benefit Native Hawaiians and Native Hawaiian community organizations.

Your Committee finds that with the reduction in sugar cultivation in the recent years, proceeds into this fund have been decreasing, and allowing moneys from the Hawaiian Home Receipts Fund to be transferred into the Native Hawaiian Rehabilitation Fund will provide an additional source of revenue that can be used to carry out the purposes of this fund.

Your Committee further finds that more needs to be done to encourage Native Hawaiian homestead beneficiaries to participate and engage in the development of their Hawaiian homestead community. Thus, your Committee believes that adding the contents of S.B. No. 938, S.D. 1; S.B. No. 939, S.D. 1; and S.B. No. 940, S.D. 1, would encourage Native Hawaiian homestead beneficiary participation.

Accordingly, your Committee has amended this measure by further amending the Hawaiian Homes Commission Act of 1920, as amended, by:

- (1) Designating the substantive provisions of the measure as received by your Committee as Part I;
- (2) Adding language from S.B. No. 938, S.D. 1, that requires the Department of Hawaiian Home Lands to consult with trust beneficiaries prior to implementing any project that includes commercial development on Hawaiian Home Lands Trust properties as Part II of this measure;

- (3) Adding language from S.B. No. 939, S.D. 1, that establishes a Hawaiian Home Lands Community Development Fund with revenue-sharing from commercial development projects to be used for community and cultural programming in Hawaiian homestead communities as Part III of this measure;
- (4) Adding language from S.B. No. 940, S.D. 1, that requires the Department of Hawaiian Home Lands to consult the trust beneficiaries prior to implementing any policies and agreements that will lower the allowable loan limits for mortgage products designed for Hawaiian Home Lands Trust properties as Part IV of this measure; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and style.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to improve opportunities for Native Hawaiian homestead beneficiaries and increase engagement in the development of their Hawaiian homestead community.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1353, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1353, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hee).

SCRep. 1118 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 119

The purpose of this measure is to support and encourage a diversified agricultural industry in Hawaii by allowing the Agribusiness Development Corporation to acquire agricultural water systems that provide water for the irrigation of agricultural lands.

Specifically, this measure:

- (1) Adds a new section to chapter 163D, Hawaii Revised Statutes, that allows the Agribusiness Development Corporation to acquire by grant, purchase, or gift an agricultural water system that provides water for the irrigation of agricultural lands, and exempts the conveyance of the water system from county subdivision requirements;
- (2) Amends section 163D-4, Hawaii Revised Statutes, to allow the Agribusiness Development Corporation to acquire property by gift; and
- (3) Amends section 484-3, Hawaii Revised Statutes, to exempt the Agribusiness Development Corporation from the registration and procedural requirements for subdivided lands under chapter 484, Hawaii Revised Statutes, when the Development Corporation acquires an agricultural water system.

Testimony in support of this measure was submitted by the Agribusiness Development Corporation, the Hawaii Agriculture Research Center, Kamehameha Schools, and Dole Food Company Hawai'i. Testimony in opposition to this measure was submitted by the Department of Planning and Permitting, City and County of Honolulu.

The purpose of the Agribusiness Development Corporation is to coordinate and administer programs to assist agricultural enterprises to facilitate the transition of agricultural infrastructure from plantation operations into other agricultural enterprises, and to provide the leadership for the development and financing of agricultural enterprises. The Agribusiness Development Corporation acquired the Waiahole Water System on Oahu from a former sugar company, and the ditch system continues to be a stable source of irrigation water to over five thousand acres of agricultural land to support diversified agriculture. Your Committee finds that further enabling the Agribusiness Development Corporation to acquire agricultural water systems will enable agricultural producers to continue their agricultural operations.

It was indicated in submitted testimony that the Agribusiness Development Corporation is currently taking Lake Wilson and the Wahiawa Dam on Oahu under consideration for ownership and management. Your Committee is concerned, however, that more discussion, planning, coordination, and involvement from the Department of Agriculture and the Department of Land and Natural Resources are needed before the Agribusiness Development Corporation can acquire this agricultural water system or other proposed systems. Furthermore, your Committee is concerned about any liability issues that may arise by the Agribusiness Development Corporation acquiring an agricultural water system by gift.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the new section added to chapter 163D, Hawaii Revised Statutes, that allows the Agribusiness Development Corporation to acquire by grant, purchase, or gift an agricultural water system that provides water for the irrigation of agricultural lands, and exempts the conveyance of the water system from county subdivision requirements;
- (2) Deleting the amendment to section 163D-4, Hawaii Revised Statutes, that allows the Agribusiness Development Corporation to acquire property by gift;
- (3) Adding an effective date of July 1, 2050, to promote further discussion on this matter; and
- (4) Making technical, nonsubstantive amendments for the purposes of style and consistency.

Your Committee believes that this measure, as amended, fulfills the purpose of this measure, which is to support and encourage a diversified agricultural industry in Hawaii.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 119, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 119, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hee).

SCRep. 1119 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 399

The purpose of this measure is to assist in the development of conservation plans by appropriating funds to the Hawaii Association of Conservation Districts for its operating expenses for all of its soil and water conservation districts.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources, the Department of Agriculture, the Hawaii Agriculture Research Center, the Hawaii Crop Improvement Association, the Hawaii Farm Bureau Federation, the Hawaii Association of

Conservation Districts, the Maui County Farm Bureau, the Kona Soil and Water Conservation District, the Mauna Kea Soil and Water Conservation District, the Hamakua Soil and Water Conservation District, the Windward Soil and Water Conservation District, and one individual.

The purpose of the Soil and Water Conservation District program is to educate, construct, maintain, and assist in the development of conservation plans to protect soil and water resources. Your Committee finds that the Hawaii Association of Conservation Districts is under funded to carryout the tremendous and important functions all sixteen of the Soil and Water Conservation Districts serve to the agricultural industry in Hawaii. An increase in funding will enable the Soil and Water Conservation Districts to each cover their existing operating expenses and additional costs associated with increased liability and regulatory requirements.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the blank appropriation amount and adding an appropriation amount of \$500,000; and
- (2) Changing the effective date of this measure from July 1, 2020, to July 1, 2007.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 399, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 399, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hee).

SCRep. 1120 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 337

The purpose of this measure is to promote Hawaii's diversified agricultural industry and protect its agricultural lands for long term agricultural activities by authorizing the Agribusiness Development Corporation to purchase and lease privately owned agricultural lands in Kunia and Ewa.

Specifically, this measure:

- (1) Authorizes the Agribusiness Development Corporation to issue revenue bonds to purchase privately owned agricultural lands in Kunia and Ewa;
- (2) Appropriates funds to the Agribusiness Development Corporation for the purchase of agricultural lands in Kunia and Ewa that are owned by private entities;
- (3) Enables the Agribusiness Development Corporation to contract with banks for lease management services; and
- (4) Allows the Agribusiness Development Corporation to lease the Kunia and Ewa agricultural lands under its control for up to fifty-five years.

Testimony in support of this measure was submitted by the College of Tropical Agriculture and Human Resources, University of Hawaii; the Agribusiness Development Corporation; the Department of Planning and Permitting, City and County of Honolulu; the Hawaii Farm Bureau Federation; the Hawaii Agriculture Research Center; and the Hawaii Crop Improvement Association.

Protecting agricultural lands is fundamental to Hawaii's future agricultural industry and sustainable food supply. Growing food locally improves Hawaii's food security, and conserves and protects green, open spaces. The agricultural lands in Kunia and Ewa are some of the best and most productive agricultural lands in the State, but it is also located in an area that has a great demand for residential and urban development.

Your Committee finds that enabling the Agribusiness Development Corporation to purchase agricultural lands in Kunia and Ewa, and then lease those lands for up to fifty-five years will ensure that these lands will remain for agricultural production. Your Committee believes that the purchase of strategic parcels of agricultural lands, such as the parcels in Kunia and Ewa, will ensure that these lands will remain in agriculture in perpetuity.

Your Committee has amended this measure by:

- (1) Adopting the suggestion made by the Hawaii Agriculture Research Center by adding the agricultural area north of Wahiawa and Schofield to the scope of this measure;
- (2) Changing the effective date of this measure from July 1, 2020, to July 1, 2007; and
- (3) Making technical, nonsubstantive amendments for the purposes of style and consistency.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to ensure that the agricultural lands in Central Oahu will remain for agricultural activities, and promote a viable and diversified agricultural industry in Hawaii.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 337, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 337, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hee).

SCRep. 1121 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 401

The purpose of this measure is to establish incentives and protections for important agricultural lands pursuant to chapter 205, part III, Hawaii Revised Statutes, by authorizing the Chairperson of the Board of Agriculture to guaranty loans relating to agricultural projects on important agricultural lands.

Specifically, this measure:

- (1) Allows the Chairperson of the Board of Agriculture to approve guaranty loans relating to agricultural projects on important agricultural lands;

- (2) Limits the guaranty loan to a maximum of ten years for operating costs and a maximum of twenty years for capital improvement costs, and limits the guaranty loan to be up to eighty-five per cent of the principal amount of the loan;
- (3) Authorizes the Chairperson of the Board of Agriculture to guaranty a qualified agriculture loan with a principal amount of up to \$2,500,000 with an aggregate liability cap for the State of \$40,000,000;
- (4) Requires the Director of Finance to maintain the responsibility for the reserve and funding of any defaults; and
- (5) Appropriates an unspecified amount for the Director of Finance to establish a loan guaranty reserve fund for the guaranty loan program.

Testimony in support of this measure was submitted by the Department of Agriculture; the Hawaii Farm Bureau Federation; the Maui County Farm Bureau; the Hawaiian Electric Company, Inc.; the Maui Electric Company, Ltd.; the Hawaii Electric Light Company, Inc.; the Hawaii Agriculture Research Center; Alexander and Baldwin, Inc.; the Hawaiian Commercial and Sugar Company; the Kauai Coffee Company, Inc.; the Hawaii Crop Improvement Association; and the Land Use Research Foundation. The Department of Budget and Finance submitted comments.

The Legislature enacted Act 183, Session Laws of Hawaii 2005, to establish standards, criteria, and mechanisms to identify important agricultural lands and implement the intent and purpose of Article XI, section 3, of the Hawaii State Constitution.

Financing is a critical component of the long-term viability of farmers to sustain their agricultural businesses. Your Committee finds that establishing a guaranty loan program for agricultural projects on designated important agricultural lands will provide better security for agricultural producers to meet their financial requirements and sustain their businesses. Although agriculture loans are often viewed as high risk ventures, your Committee believes that authorizing the Chairperson of the Board of Agriculture to guaranty agriculture loans for projects on designated important agricultural lands will provide commercial lenders the assurance that their loans will be backed by the State.

The Department of Agriculture and the Department of Budget and Finance indicated to your Committee that since the agricultural loan guaranty program is to be administered by the Department of Agriculture, the responsibility for the reserve and funding for the program should also be placed under the Department of Agriculture instead of the Department of Budget and Finance. Thus, the Department of Agriculture suggested amendments be made under the appropriation section of this measure to cite the Department of Agriculture as the expending agency and allow it to establish a sub-account within the Agricultural Revolving Fund to maintain a reserve fund for the agricultural guaranty loan program. Your Committee believes that this is an issue that merits further discussion by the Committee on Ways and Means.

Accordingly, your Committee has amended this measure by:

- (1) Adopting the suggestion made by Alexander and Baldwin, Inc. by deleting any references in this measure that may infer that the agricultural loan guaranty program establishes sufficient incentives and protections to authorize the Land Use Commission to start designating lands as important agricultural lands pursuant to section 9, Act 183, Session Laws of Hawaii 2005;
- (2) Changing the effective date of the measure from July 1, 2007, to July 1, 2050, to promote further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

Your Committee believes that this measure, as amended, fulfills the purpose of this measure, which is to establish incentives and protections for important agricultural lands pursuant to chapter 205, part III, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 401, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 401, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Hee).

SCRep. 1122 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 404

The purpose of this measure is to promote and sustain agricultural endeavors in the State.

Specifically, this measure appropriates funds to the Hawaii Farm Bureau Federation to conduct agricultural research and development.

Testimony in support of this measure was submitted by the Department of Agriculture; the College of Tropical Agriculture and Human Resources, University of Hawaii; the Hawaii Farm Bureau Federation; the Maui County Farm Bureau; the Hawaii Agriculture Research Center; the Hawaii Aquaculture Association; Alexander and Baldwin, Inc.; the Hawaiian Commercial and Sugar Company; the Kauai Coffee Company, Inc.; and the Hawaii Crop Improvement Association.

Agriculture research is essential to the success of diversified agriculture in Hawaii. The knowledge gained through research efforts helps producers boost their yields through informed choices about which crops and varieties to plant, when and where to plant them, how to protect them from pests, and how to optimize post-harvest quality. Agricultural research assists in increasing local food production, improving the State's food security, and assists Hawaii's producers to compete in local and export markets.

The Hawaii Farm Bureau Federation is a nonprofit organization that works to resolve the problems that many farmers, ranchers, and other agricultural producers face in Hawaii. The Bureau represents, protects, and advances the social, economic, and educational interests of Hawaii's agricultural sector. Your Committee finds that appropriating funds to the Hawaii Farm Bureau Federation will facilitate research that will support the continued expansion of diversified agriculture and help create new local, national, and international marketing opportunities for Hawaii agricultural goods.

It was indicated to your Committee in submitted testimony that Hawaii's agricultural research programs recently lost federal earmarks during the fiscal year 2006-2007, and an appropriation of \$2,000,000 to the Hawaii Farm Bureau Federation will increase the availability funds for which research programs can continue to compete for national grants until federal funding is restored. Your Committee believes that the appropriation amount should be increased to \$2,000,000, but emphasizes that the appropriation should only be for fiscal year 2007-2008, until federal earmarks are restored.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the blank appropriation amount for fiscal year 2007-2008, and adding the amount of \$2,000,000;

- (2) Deleting the blank appropriation amount for fiscal year 2008-2009;
- (3) Changing the effective date of this measure from July 1, 2020, to July 1, 2007; and
- (4) Making technical, nonsubstantive amendments for the purposes of style and consistency.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to promote and sustain agricultural endeavors in the State.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 404, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 404, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Hee).

SCRep. 1123 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1864

The purpose of this measure is to aid in the eradication of invasive species in Hawaii by providing government agencies and private entities limited liability immunity for injuries sustained by volunteers who are engaged in coqui frog eradication efforts.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources; the Department of Agriculture; the Mayor, County of Maui; and two individual.

The introduction of the coqui frog in Hawaii has resulted in a serious problem for residents and tourists. The infestation of coqui frogs has forced government agencies to enlist the help of volunteers to aid in the eradication efforts. During coqui frog eradication projects, volunteers are required to move through forested areas or areas dense in vegetation, which may create hazardous conditions for or has the potential of causing injury to these volunteers. Your Committee finds that providing government agencies and private entities with limited liability immunity from injuries sustained by volunteers who are engaged in coqui frog eradication efforts fulfills the intent of this measure, which is to further aid in the eradication of invasive species in Hawaii.

Your Committee has amended this measure by changing the effective date of this measure from January 1, 2112, to effective upon approval.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1864, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1864, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1124 Education on Gov. Msg. Nos. 426 and 427

Recommending that the Senate advise and consent to the nominations of the following:

HAWAII MEDICAL EDUCATION COUNCIL

G.M. No. 426 JAMES E. HASTINGS, MD, FACP, for a term to expire 6-30-2011; and

G.M. No. 427 ARTHUR A. USHIJIMA, for a term to expire 6-30-2011

Your Committee reviewed the personal histories and statements submitted by the nominees, and finds James E. Hastings MD, FACP, and Arthur A. Ushijima to have the necessary qualifications to be nominated to the Hawaii Medical Education Council.

Your Committee received testimony in support of James E. Hastings from the Healthcare Association of Hawaii and one individual.

Mr. Hastings served as the commander of three major U.S. Army medical centers during his career as a Brigadier General: Walter Reed Army Medical Center, Dwight David Eisenhower Army Medical Center, and Tripler Army Medical Center. He is also the former Associate Dean of the Uniformed Services University of the Health Sciences and Chair of the Department of Medicine of the John A. Burns School of Medicine from 1995 to 2002. He currently serves as the Director of the Spark M. Matsunaga Department of Veterans' Affairs Medical Center where he oversees healthcare provisions to federal beneficiaries. Mr. Hastings' appointment to the Hawaii Medical Education Council will allow him to utilize his considerable medical knowledge and administrative experience in order to make significant contributions to Hawaii's multifaceted health care system.

Your Committee received testimony in support of Arthur A. Ushijima from the Healthcare Association of Hawaii; Watanabe Ing & Komeiji, LLP; and one individual.

Mr. Ushijima has a longstanding career in the medical field, serving as a hospital administrator for thirty-three years and has actively worked to support both undergraduate and graduate medical education for over twenty-five years. He is currently the Chief Executive Officer of the Queen's Medical Center and has also worked as a hospital administrator in four different hospitals on the mainland in a variety of organizational settings. Mr. Ushijima's vast knowledge and experience in the medical field provide him with a heightened understanding of the complex health care issues in Hawaii, making him a valuable asset to Hawaii Medical Education Council.

As affirmed by the records of votes of the members of your Committee on Education that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Chun Oakland, Hee, Nishihara).

SCRep. 1125 Education on Gov. Msg. Nos. 437, 438 and 439

Recommending that the Senate advise and consent to the nominations of the following:

CENTER FOR NURSING ADVISORY BOARD

G.M. No. 437 KEVIN MULLIGAN, for a term to expire 6-30-2011;

G.M. No. 438 PENNYLYNN A. ONTAI, for a term to expire 6-30-2011; and

G.M. No. 439 VICKY K. POLAND, for a term to expire 6-30-2011

Upon review of background information submitted by the nominee, your Committee finds that Kevin Mulligan holds a Bachelor of Arts degree from Pitzer College, in Claremont, California, and a Master of Social Work degree and a Master of Education degree from the University of Hawaii at Manoa. He currently serves as a Union Agent for the Hawaii Government Employees Association and is being nominated for reappointment to the Center for Nursing Advisory Board for a second term as a representative of labor organizations. Mr. Mulligan's prior work experience includes service as a Personnel Officer, a Personnel Management Specialist, an Associate Consultant, a Legislative Aide, a Contract Specialist, and an Assistant Analyst.

Testimony in support of the Mr. Mulligan's nomination was submitted by the Hawaii Government Employees Association, the ILWU Local 142, and the Hawaii State Center for Nursing.

Upon review of background information submitted by the nominee, your Committee finds that Pennylynn A. Ontai holds an Associate of Science degree from Monterey Community College, in Monterey, California, and a Bachelor of Science degree in Nursing from California State University at Fresno. She currently serves as a Pediatric Homecare Registered Nurse (R.N.) with the Homecare Department of Castle Medical Center and is being nominated for reappointment to the Center for Nursing Advisory Board for a second term as a representative of community agencies or consumer groups with an interest in healthcare. Ms. Ontai's prior work experience includes service as an Adult Homecare R.N./Middle Manager, a Labor and Delivery Nursery R.N., a Medical/Surgical R.N., a Clinic R.N., and an Endoscopy R.N. She is actively involved in the community through her service as the President of the Mililani Basketball Association and the Parent Football Booster Association and as a member of the Central Oahu Lions Club, St. John Apostle and Evangelist Catholic Church Parish Council, the PTSA/PSA, and the National Association of Nurse Practitioners.

Testimony in support of Ms. Ontai's nomination was submitted by the Hawaii State Center for Nursing.

Upon review of background information submitted by the nominee, your Committee finds that Vicky Poland currently serves as a Critical Care R.N. in the Coronary Care Unit at Kuakini Medical Center and is being nominated for reappointment to the Center for Nursing Advisory Board for a second term as a representative of the Hawaii Nurses' Association, professional component. She was educated in New Zealand and passed the U.S. Board of Registered Nursing examinations for R.N.s in 1990. Ms. Poland's prior work experience includes service in hospitals in the Intensive Care Unit, Labor and Delivery, Orthopedics, Burns, Pediatric Plastic Surgery, Spinal Unit, and Medical Respiratory Ward. She is actively involved in the community through her membership on the Hawaii Nurses' Association Board of Directors and the Traffic Calming Project for the Newtown Estates Community Association, as a volunteer for the Hawaii Iron Man and Honolulu Marathon, and as a mentor for student nurses in programs throughout the State.

Testimony in support of Ms. Poland's nomination was submitted by the Hawaii State Center for Nursing and the Hawaii Nurses' Association.

Your Committee questioned the nominees regarding each nominee's desire to serve, perception of the role and responsibilities of membership, qualifications for membership, and goals for the nominee's term of service on the Center for Nursing Advisory Board. Your Committee believes that the nominees adequately responded to the Committee's inquiries and demonstrated adequate knowledge of and a commitment to work towards the goals of the Board, including addressing the current nursing shortage in Hawaii.

As affirmed by the records of votes of the members of your Committee on Education that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Chun Oakland, Hee, Nishihara).

SCRep. 1126 Judiciary and Labor on H.B. No. 1108

The purpose of this measure is to amend various provisions of the Hawaii Revised Statutes and the Session Laws of Hawaii pursuant to chapter 23G, Hawaii Revised Statutes, to correct errors, update references, clarify language, and delete obsolete or unnecessary language.

Your Committee finds that all of the statutory amendments proposed by the measure are of a purely technical nature and either contain no substantive changes to the law or, if they have any substantive effect, are done simply to correct the types of errors noted in the title of this bill.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1108, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Kokubun).

SCRep. 1127 Judiciary and Labor on H.B. No. 1393

The purpose of this measure is protect privacy by authorizing agencies to withhold from public disclosure individuals' home addresses in government records concerning contract hires and consultants and in certified payroll records on public works contracts.

Your Committee received testimony in support of this measure from the Office of Information Practices.

Your Committee finds that although home addresses are generally not required to be disclosed under the personal privacy exception of the chapter 92F, Hawaii Revised Statutes, the Uniform Information Practices Act (Modified), that exception is not available for certain categories of government documents. This measure extends to home addresses the same protection currently provided to individuals' social security numbers in payroll records on public works contracts and other government records concerning public hires and consultants.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1393, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Kokubun).

SCRep. 1128 Judiciary and Labor on H.B. No. 1158

The purpose of this measure is to clarify that arson property damage over ten thousand square feet qualifies for special sentencing.

In addition, the measure amends the misdemeanor offense of arson in the fourth degree to include recklessness to the state of mind requirement in the commission of arson.

Your Committee finds that the current law regarding arson states that the damage to the property must be exactly ten thousand square feet to qualify for special sentencing considerations. This bill provides that for special sentencing, the damage be ten thousand square feet or more.

Your Committee heard testimony in support of and against the bill, respectively, from the Honolulu Prosecuting Attorney's Office and the Public Defender's Office.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1158, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Kokubun).

SCRep. 1129 Transportation and International Affairs on H.B. No. 1427

The purpose of this measure is to change the minimum headlamp height requirement from twenty-four to twenty-two inches, and to delete the requirement that a license plate be attached no lower than twelve inches above the ground.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that some new vehicles are manufactured with headlamps that are less than twenty-four inches but not less than twenty-two inches above the road surface. Lowering the height requirement will legalize the operation of these new vehicles without compromising the required visibility at night. The twenty-two inch requirement is congruent with Federal Motor Vehicle Safety Standard 108, which supercedes state law.

Your Committee further finds that the height requirement for license plates is not necessary as long as the plates are clearly visible and reasonably clean as required by current law.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1427, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Hooser, Taniguchi).

SCRep. 1130 Transportation and International Affairs on H.B. No. 158

The purpose of this measure is to repeal the requirement that motor carrier vehicles that include the trailers and pole trailers be inspected and certified once in twelve months and during the month in which the vehicle's certificate of registration is issued.

Your Committee received testimony in support of this measure from the Department of Transportation (DOT); Honolulu Department of Customer Services; Alexander & Baldwin, Inc.; Matson Navigation Company; and Hawaii Transportation Association.

Act 3, Session Laws of Hawaii 2005, enacted the provision that this measure would repeal. The justification for requiring a safety inspection during the month in which the vehicle's certificate of motor vehicle registration is issued, was to spread out DOT's tremendous workload to inspect some 100,000 vehicles in the month of June, when the annual safety inspections expire on motor carrier vehicles. (Senate Standing Committee Report No. 54, on SB No. 73, 2005) Testimony now indicates that the existing law that requires motor carrier companies such as Matson Navigation and Horizon Lines to have their trailers and pole trailers inspected and certified once a year and in the same month in which the vehicle's certificate of registration is issued, has proven to be a logistical burden for the vehicle owners.

Your Committee has amended this measure by changing the effective date to upon approval, and making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 158, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 158, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hooser, Inouye, Taniguchi).

SCRep. 1131 Judiciary and Labor on H.B. No. 1253

The purpose of this measure is to make benevolent gestures inadmissible as evidence of an admission of liability in medical malpractice claims.

Your Committee received testimony in support of this measure from the Hawaii Medical Association, the Healthcare Association of Hawaii and Kaiser Permanente. The Attorney General opposed the bill in its present form. The Judiciary's Standing Committee on the Rules of Evidence and Consumer Lawyers of Hawaii provided comments.

Your Committee finds it appropriate to allow individuals and entities to express sympathy and condolence without the expression being used against the individual or entity to establish civil liability, even if the individual or entity is not a health care provider. Your Committee notes that a separate measure dealing with apologies by medical care providers, S.B. No. 813, S.D. 1, Relating to Medical Liability, is moving through the legislative process.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the provisions that confine the bill to civil actions against health care providers, and benevolent gestures made to a patient or patient's family; and

- (2) Inserting text from S.B. No. 1339, S.D. 1, to render evidence of statements or gestures that express sympathy, commiseration, or condolence regarding the consequences of an event in which a declarant participated inadmissible to prove liability for a claim growing out of the event, without requiring exclusion of apologies that acknowledge or imply fault.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1253, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1253, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1132 Judiciary and Labor on H.B. No. 389

The purpose of this measure is to prohibit a candidate for public office from appearing in public service announcements paid for with state or public funds from the time of filing nomination papers until the time the person is no longer a candidate, unless the appearance is in response to an emergency or is part of the candidate's official duties.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii. The Campaign Spending Commission commented on this measure.

Your Committee finds that this measure will promote fairness in the election process.

Your Committee has amended this measure by:

- (1) Changing the phrase "paid for with state or public funds" to "paid for with state, county or federal funds";
- (2) Expanding the exception for public service announcements "in response to" disasters or emergencies to include announcements "in anticipation of" those events;
- (3) Expanding the exception for appearances in broadcasts of "official state or county proceedings" to include official federal proceedings; and
- (4) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 389, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 389, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Kokubun).

SCRep. 1133 Judiciary and Labor on H.B. No. 1513

The purpose of this measure is to increase the range of fines for election fraud.

Currently, fines may be imposed in an amount "not less than \$100 nor more than \$1,000." This measure increases the range of fines to "not less than \$1,000 nor more than \$5,000."

Your Committee received testimony in support of this measure from the League of Women Voters and a concerned individual.

Your Committee finds increased fines appropriate for the conduct deemed election fraud under section 19-3, Hawaii Revised Statutes (HRS), such as threatening to inflict or inflicting injury, damage, or loss to induce or compel a person to vote or refrain from voting or to vote or refrain from voting for any particular person or party (section 19-3(4), HRS), or voting or attempting to vote in the name of another person, living or dead, or in a fictitious name (section 19-3(5), HRS).

Your Committee has amended this measure by:

- (1) Deleting obsolete words "in hard labor" from the phrase "imprisoned at hard labor not more than two years."; and
- (2) Changing the effective date from January 1, 2050, to upon approval.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1513, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1513, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Kokubun).

SCRep. 1134 Transportation and International Affairs on H.B. No. 1423

The purpose of this measure is to authorize the Director of Transportation to determine the minimum passenger requirements to use high occupancy vehicle lanes.

The measure also requires the Director of Transportation to indicate such minimum passenger requirements on official signs or other traffic-control devices.

Your Committee received testimony in support of this measure from the Department of Transportation (DOT).

Your Committee finds that under existing law, the DOT is unable to meet the changing needs of the motoring public in the operation of high occupancy vehicle lanes, and the changing traffic demands and traffic volumes. Your Committee believes that the DOT should have the flexibility to change occupancy requirements of high occupancy vehicle lanes to meet changing traffic conditions.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of style and conforming the measure to preferred drafting conventions.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1423, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1423, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Hooser, Taniguchi).

SCRep. 1135 Judiciary and Labor on H.B. No. 758

The purpose of this measure requires employers with fifty or more individuals to allow rest or meal periods for employees that work more than five consecutive hours, with certain exceptions. Repeals the exclusion of persons whose employment is governed by the federal Fair Labor Standards Act from the definition of "employee" under the State's wage and hour law.

Testimony in support of this measure was received from Local 5 Hawaii, Hawaii State AFL-CIO, O'ahu County Committee of the Democratic Party of Hawai'i, Hawaii Teamsters and Allied Workers, Local 996, ILWU Local 142, Covanta Energy Corporation thru Goodwill Anderson Quinn & Stifel, Hawaii State Teachers Association, Democratic Party of Hawaii, and a private citizen.

Opposing testimony was received from the Department of Labor and Industrial Relations, Hawaiian Electric Company, Society for Human Resource Management – Hawaii Chapter, National Federation of Independent Businesses in Hawaii (NFIB), Chamber of Commerce of Hawaii, Kaua'i Chamber of Commerce, Hawaii Island Chamber of Commerce and a private citizen.

The Oahu Transit Services, Inc. commented that meal breaks for their employees are negotiated through collective bargaining and therefore requested an exemption.

Your Committee has amended the measure by amending Section 387-13, Hawaii Revised Statutes, entitled "Rights of collective bargaining protected" by adding "rest or bona fide meal period under this chapter." This will expand present law that allows collective bargaining agreements to supersede the requirements under Chapter 387, Hawaii Revised Statutes. This amendment accommodates the request from the Oahu Transit Services, Inc. to allow meal breaks covered under collective bargaining agreements to supersede the requirements of Chapter 387. The amendment also applies to all employees covered by collective bargaining agreements.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 758, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 758, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Kokubun).

SCRep. 1136 Judiciary and Labor on H.B. No. 1294

The purpose of this measure is to provide an appropriate, cost-neutral adjustment of the base monthly contributions for retiree benefit plans, in the event the Employer-Union Trust Fund's (EUTF) Board of Trustees adopts a revised rate structure for its retiree benefit plans.

Testimony in support of this measure was received from the EUTF and Budget and Finance. The EUTF testified that at its recent Board meeting, the EUTF Trustees adopted a three tier (single, two-party, family) rate structure for all its active and retiree health benefit plans beginning July 1, 2007.

This measure will off lower rates for retiree health benefits plans to correspond more closely with the size of the retiree's family (e.g., retiree and spouse would have a two-part rate, instead of family rate).

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1294, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kokubun, Nishihara).

SCRep. 1137 Judiciary and Labor on H.B. No. 1567

The purpose of this measure appropriates funds for salary increases and makes other cost adjustments for state officers and employees from legislative agencies and who are excluded from collective bargaining.

Testimony in support was received from the State Ethics Commission, State Auditor, Ombudsman, American Federation of State, County and Municipal Employees, AFL-CIO (AFSCME), and Legislative Reference Bureau.

Your committee finds that this measure is necessary for these excluded employees in the event that their counterparts receive negotiated increases under collective bargaining.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1567, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Kokubun).

SCRep. 1138 Public Safety on H.B. No. 1400

The purpose of this measure is to allow State-employed adult corrections officers to purchase uniforms and uniform accessories from Correctional Industries.

Your Committee received testimony in support of this measure from the Department of Public Safety.

Your Committee finds that Correctional Industries uses inmates to assemble and manufacture adult correctional officer uniforms and that the Department of Public Safety is required to issue each newly recruited officer four sets of uniforms, and allow for the replacement of one uniform per year for each officer at the Department's expense. Your Committee further finds that it is important that adult correctional officers have more flexibility in the replacement of their uniforms. To this end, it is the intent of your Committee to allow correctional officers to purchase additional sets of approved uniforms and uniform accessories from Correctional Industries at their own expense.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1400, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, none.

SCRep. 1139 Public Safety on H.B. No. 1403

The purpose of this measure is to improve the operations and effectiveness of the Hawaii Paroling Authority by converting the two part-time positions on the Paroling Authority's panel to full-time positions and appropriating unspecified amounts of moneys for these positions.

Your Committee received testimony in support of this measure from the Hawaii Paroling Authority and the Department of Human Resources Development.

Your Committee finds that the Hawaii Paroling Authority's workload in the past thirty-six years has increased eight-fold due to the rise in incarceration rates. Despite the increased workload, the Hawaii Paroling Authority continues to be composed of one full-time and two part-time positions, which is the same number of positions allotted when it was created in 1976.

Your Committee further finds that the Hawaii Paroling Authority is experiencing severe difficulties in carrying out its responsibilities in assuring that the terms and conditions of parole are properly enforced with its current number of positions. As such, it is the intent of your Committee to convert the two part-time panel positions of the Hawaii Paroling Authority to full-time members in order to provide the Hawaii Paroling Authority with the personnel it needs to effectively and efficiently manage its current and future workloads.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1403, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, none.

SCRep. 1140 Public Safety on H.B. No. 1440

The purpose of this measure is to clarify the jurisdictional authority of the Office of the Ombudsman when investigating the contractual acts of any correctional facility with which the Department of Public Safety has contracted to hold individuals committed to the custody of the Director of Public Safety.

Your Committee received testimony in support of this measure from the American Civil Liberties Union, Community Alliance on Prisons, Mestizo Association, and ten individuals. Your Committee received testimony in opposition to this measure from the Department of Public Safety. Your Committee received comments on this measure from the Office of the Ombudsman.

Your Committee finds that it is vital for inmates of Hawaii currently held in mainland correctional institutions have access to an independent body in order to investigate contractual claims. Your Committee further finds that this measure serves as an important mechanism to clarify and broaden the Ombudsman's scope of authority and ensures that inmates from Hawaii are not left without essential tools to address grievances with mainland correctional institutions. Your Committee has left the appropriation amount in this measure unspecified for further discussion in the next Committee. It is the intent of your Committee to extend the scope of the Ombudsman's jurisdiction to mainland facilities in order to preserve and protect the health, safety, and the legal rights of Hawaii's inmates.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1440, H.D. 3, and recommends that it pass Second Reading and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Ayes with Reservations, 1 (Whalen). Noes, none. Excused, none.

SCRep. 1141 Judiciary and Labor on H.B. No. 1564

The purpose of this bill is to fund the Hawaii Employer-Union Health Benefits Trust Fund costs:

- (1) In the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (10); and
- (2) Authorized by Chapter 89C, Hawaii Revised Statutes, for state officers and employees who are excluded from collective bargaining.

Testimony in support was received from the American Federation of State, County and Municipal Employees, AFL-CIO (AFSCME), and the Office of Collective Bargaining supported the intent of this measure.

Although no sums have been appropriated or authorized from the sources of funding indicated in this measure, your Committee believes that a vehicle for funding this collective bargaining cost item should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representative for unit (10) will eventually produce a settlement.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1564, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1142 Judiciary and Labor on H.B. No. 1565

The purpose of this bill is to fund the Hawaii Employer-Union Health Benefits Trust Fund costs:

- (1) In the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (1); and
- (2) Authorized by Chapter 89C, Hawaii Revised Statutes, for state officers and employees in the executive branch who are excluded from collective bargaining.

The Office of Collective Bargaining supported the intent of the measure.

Although no sums have been appropriated or authorized from the sources of funding indicated in this measure, your Committee believes that a vehicle for funding this collective bargaining cost item should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representative for unit (1) will eventually produce a settlement.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1565, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1143 Judiciary and Labor on H.B. No. 1566

The purpose of this bill is to fund the Hawaii Employer-Union Health Benefits Trust Fund costs:

- (1) In the agreement negotiated with the exclusive bargaining representatives of collective bargaining units (2),(3),(4),(6),(8),(9), and (13); and
- (2) Authorized by Chapter 89C, Hawaii Revised Statutes, for state officers and employees who are excluded from collective bargaining.

Testimony in support was received from the American Federation of State, County and Municipal Employees, AFL-CIO (AFSCME), and the Office of Collective Bargaining supported the intent of the measure.

Although no sums have been appropriated or authorized from the sources of funding indicated in this measure, your Committee believes that a vehicle for funding this collective bargaining cost item should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representatives for units (2),(3),(4),(6),(8),(9), and (13) will eventually produce a settlement.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1566, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1144 Judiciary and Labor on H.B. No. 1568

The purpose of this bill is to fund:

- (1) All collective bargaining salary increases and cost items in the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (5); and
- (2) The salary increases and other cost adjustments authorized by Chapter 89C, Hawaii Revised Statutes, for state officers and employees who are excluded from collective bargaining.

The Hawaii State Teachers Association (HSTA) testified in support of this bill, and the Office of Collective Bargaining supported the intent of this measure.

Although no sums have been appropriated or authorized from the sources of funding indicated in this measure, your Committee believes that a vehicle for funding these collective bargaining cost items, including salary increases and other cost adjustments, should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representative for unit (5) will eventually produce a settlement.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1568, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1145 Judiciary and Labor on H.B. No. 1569

The purpose of this bill is to fund:

- (1) All collective bargaining salary increases and cost items in the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (10); and
- (2) The salary increases and other cost adjustments authorized by Chapter 89C, Hawaii Revised Statutes, for state officers and employees who are excluded from collective bargaining.

Testimony in support was received from the American Federation of State, County and Municipal Employees, AFL-CIO (AFSCME), and the Office of Collective Bargaining supported the intent of this measure.

Although no sums have been appropriated or authorized from the sources of funding indicated in this measure, your Committee believes that a vehicle for funding these collective bargaining cost items, including salary increases and other cost adjustments, should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representative for unit (10) will eventually produce a settlement.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1569, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1146 Judiciary and Labor on H.B. No. 1570

The purpose of this bill is to fund:

- (1) All collective bargaining salary increases and cost items, including contributions to the Hawaii Employer-Union Health Benefits Trust Fund, in the agreement negotiated with the exclusive bargaining representatives of collective bargaining unit (11); and
- (2) The salary increases and other cost adjustments authorized by Chapter 89C, Hawaii Revised Statutes, for state officers and employees who are excluded from collective bargaining.

The Hawaii Fire Fighters Association and the American Federation of State, County and Municipal Employees, AFL-CIO (AFSCME) testified in support of this bill. The Office of Collective Bargaining supported the intent of this measure.

Although no sums have been appropriated or authorized from the sources of funding indicated in this measure, your Committee believes that a vehicle for funding these collective bargaining cost items, including salary increases and other cost adjustments, should continue to advance in the Legislature.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1570, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1147 Judiciary and Labor on H.B. No. 1572

The purpose of this bill is to fund:

- (1) All collective bargaining salary increases and cost items in the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (1); and
- (2) The salary increases and other cost adjustments authorized by Chapter 89C, Hawaii Revised Statutes, for state officers and employees who are excluded from collective bargaining.

The Judiciary testified in support of this bill, and the Office of Collective Bargaining supported the intent of this measure.

Although no sums have been appropriated or authorized from the sources of funding indicated in this measure, your Committee believes that a vehicle for funding these collective bargaining cost items, including salary increases and other cost adjustments, should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representative for unit (1) will eventually produce a settlement.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1572, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1148 Judiciary and Labor on H.B. No. 1573

The purpose of this bill is to fund:

- (1) All collective bargaining salary increases and cost items in the agreement negotiated with the exclusive bargaining representatives of collective bargaining units (2),(3),(4),(6),(8),(9), and (13); and
- (2) The salary increases and other cost adjustments authorized by Chapter 89C, Hawaii Revised Statutes, for state officers and employees who are excluded from collective bargaining.

The Hawaii Government Employees Association (HGEA) and the American Federation of State, County and Municipal Employees, AFL-CIO (AFSCME) testified in support of this bill. The Office of Collective Bargaining supported the intent of this measure.

Although no sums have been appropriated or authorized from the sources of funding indicated in this measure, your Committee believes that a vehicle for funding these collective bargaining cost items, including salary increases and other cost adjustments, should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representatives for units (2),(3),(4),(6),(8),(9), and (13) will eventually produce a settlement.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1573, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1149 (Joint) Education and Health on H.B. No. 16

The purpose of this measure is to repeal the transfer of School Health Aides from the Department of Health to the Department of Education.

This measure also repeals the School Health Services Program from chapter 321, Hawaii Revised Statutes, and establishes a new program under the Department of Education, chapter 302A, Hawaii Revised Statutes.

Testimony in support of this measure was submitted by the Department of Education, the Department of Health, and the Department of Human Resources Management.

Your Committees find that Act 51, Session Laws of Hawaii 2004, as amended, established the Department of Education as a separate jurisdiction of the State. This new status necessitated the transfer of various functions, duties, and personnel from other departments to the Department of Education. Included within these transfers are School Health Aides and the Public Health Nurses who supervise them, effective July 1, 2007. Your Committees understand that these transfers were intended to provide a coordinated school health services program within the Department of Education; however, concerns have arisen regarding the security of existing supervising Public Health Nurse and School Health Aide positions within the Department of Education.

Your Committee on Education previously heard a similar measure, Senate Bill No. 98, S.D. 1, which also repeals the transfer of School Health Aides. The provisions of that measure require the repeal of the transfer of supervising Public Health Nurses based on the execution of a Memorandum of Understanding between the Departments of Health and Education that allows supervising Public Health Nurses to remain within the Department of Health while providing clinical supervision to the Department of Education's School Health Aides. That measure also addressed job security concerns for School Health Aides under the transfer by requiring the Department of Education to provide career pathways and development for those individuals. Your Committees believe that Senate Bill No. 98, S.D. 1, provides a more appropriate manner for utilizing the State's personnel and resources.

Accordingly, your Committees have amended this measure by inserting the provisions of Senate Bill No. 98, S.D. 1, which includes the following changes:

- (1) Requiring the Department of Education to provide career pathways development and training opportunities for School Health Aides in the School Health Services field and other fields within the Department of Education to ensure the opportunity for continued employment with the Department of Education;
- (2) Changing its effective date to June 29, 2007; and
- (3) Making technical, nonsubstantive changes for purposes of clarity and to reflect preferred drafting style.

As affirmed by the records of votes of the members of your Committees on Education and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 16, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 16, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 4 (Hee, Nishihara, Taniguchi, Whalen).

SCRep. 1150 (Joint) Education and Health on H.B. No. 136

The purpose of this measure is to appropriate funds for the Hawaii AIDS Clinical Research Program of the University of Hawaii John A. Burns Medical School.

Testimony in support of this measure was submitted by the University of Hawaii, Life Foundation, the GLEA Foundation, and twenty-two individuals.

Your Committees find that the Hawaii AIDS Clinical Research Program (HACRP) of the University of Hawaii John A. Burns School of Medicine is comprised of the Hawaii AIDS Clinical Trials Unit the NeuroAIDS Specialized Neuroscience Research Program, several specialized laboratories, a multi-specialty HIV-1 clinic, and other supporting programs. HACRP performs various functions with an emphasis on HIV- and AIDS-associated education, research, and service. Funding for the Hawaii AIDS Clinical Trials Unit, which provides basic infrastructure for the HACRP, has largely been sustained through federal funding. Recently, however, the National Institutes of Health has indicated that the HACRP will no longer be federally funded. This loss of funding will result in a potential deficit of \$21,000,000 in HIV-related grant funds.

Your Committees believe that assistance from the State is necessary to provide financial support for basic infrastructure for HACRP to ensure that it will continue to be viable and productive in advancing HIV and AIDS education and research in the State.

Your Committees have amended this measure by making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Education and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 136, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 136, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 4 (Hee, Nishihara, Taniguchi, Whalen).

SCRep. 1151 Judiciary and Labor on H.B. No. 1563

The purpose of this bill is to fund the Hawaii Employer-Union Health Benefits Trust Fund costs:

- (1) In the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (5); and
- (2) Authorized by Chapter 89C, Hawaii Revised Statutes, for state officers and employees who are excluded from collective bargaining.

The Office of Collective Bargaining and Hawaii State Teachers Association (HSTA) supported the intent of this measure.

Although no sums have been appropriated or authorized from the sources of funding indicated in this measure, your Committee believes that a vehicle for funding this collective bargaining cost item should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representative for unit (5) will eventually produce a settlement.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1563, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1152 Judiciary and Labor on H.B. No. 1291

The purpose of this measure is to clarify and conform existing statutes relating to the Employees' Retirement System (ERS) to current practices. Among other things, this measure:

- (1) Requires payment of interest to noncontributory members who have deductions erroneously made from their compensation;
- (2) Eliminates the eligibility of a foster child to receive death benefits of a member if the member dies in service;
- (3) Allows the ERS Board of Trustees (Board) to set the salary of the Chief Investment Officer in the same manner used to set the salary of the Administrator;

- (4) Requires contributions exceeding 75 percent of the statutory cap established for judges, legislative officers, and elected officials to be refunded when they leave service to comply with federal income tax laws;
- (5) Provides post retirement benefits to contributory and hybrid plan beneficiaries who select a monthly annuity instead of the lump sum balance;
- (6) Requires the claims for survivor benefits to be filed no later than three years from the date of the retirant's death;
- (7) Deletes the requirement that ordinary death benefits be computed in the same manner as ordinary disability benefits for deceased members with 10 years of service who are not eligible for retirement;
- (8) Allows the Board to adopt actuarial tables, factors, or assumptions at a duly noticed meeting;
- (9) Provides criteria for the conversion of noncontributory service to hybrid service once conversion is allowed; and
- (10) Allows hybrid plan members to retire at any time once their ordinary disability applications have been approved by the Board.

The Department of Budget and Finance, Board of Trustees of the Employees' Retirement System, and the Hawaii State Teachers Association supported this bill. The Employees' Retirement System (ERS) requested amendments to the bill to clarify statutory language and proposed changes.

Your Committee has amended this measure by complying with the ERS' request by amending Section 16 by amending the title and subparagraph (a) of Section 88-93, Hawaii Revised Statutes (HRS). The measure was further amended by technical nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1291, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1291, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1153 Education on H.B. No. 15

The purpose of this measure is to establish a Felix Stipend Special Fund for the collection of moneys received as repayments due to the breaches of contractual agreements between the Department of Education and students who received moneys pursuant to the Felix Consent Decree Recruitment and Retention Program.

This measure also appropriates funds from the Felix Stipend Special Fund for special education teaching programs.

Testimony in support of this measure was submitted by the Department of Education and the University of Hawaii. Testimony in opposition of this measure was submitted by the Department of Budget and Finance.

Your Committee finds that a Memorandum of Agreement (MOA) was executed between the Department of Education and the University of Hawaii during the 1999-2000 academic school year as a result of the Felix Consent Decree. The MOA authorized the provision of tuition assistance or stipends to qualified students in pursuit of bachelor degrees in education or master's degrees in special education. The award of stipends were predicated on a recipient's employment with the Department of Education as a special education teacher for three years, for a bachelor's degree student, and five years, for a master's degree student. Your Committee further finds that if a recipient fails to fulfill the teaching requirement for the specified durations, the recipient must repay a prorated amount of the tuition assistance received.

This measure establishes a special fund to collect the repayment moneys and requires such funds be used for special education teaching programs. However, your Committee believes that these funds would be more appropriately used and the aforementioned purpose better served by specifying that the funds shall be used for the provision of tuition assistance to students for the Department of Education's Felix Consent Decree Recruitment and Retention Program. Your Committee further believes that an appropriation from the special fund in the amount of \$50,000 is necessary to adequately fund the Felix Consent Decree Recruitment and Retention Program.

Accordingly, your Committee has amended this measure by:

- (1) Changing the name of the special fund from the Felix Stipend Special Fund to the Felix Stipend Program Special Fund;
- (2) Specifying that moneys from the Felix Stipend Program Special Fund be used to provide tuition assistance to students for the Felix Consent Decree Recruitment and Retention program, or any successor programs, and related costs;
- (3) Changing its effective date to July 1, 2007; and
- (4) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 15, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 15, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hee, Nishihara, Taniguchi).

SCRep. 1154 Education on H.B. No. 24

The purpose of this measure is to provide additional incentives to public school teachers who maintain their National Board Certification and work at schools that are in restructuring under the No Child Left Behind Act of 2001.

Testimony in support of this measure was submitted by the Governor's Policy Office, the Department of Education, the University of Hawaii, and the Hawaii State Teachers Association.

Your Committee finds that the No Child Left Behind Act of 2001, P.L. 107-110, requires schools to meet certain standards for accountability and provides flexibility and more choices for parents regarding their child's education. The mandates of the No Child Left Behind law require the

recruitment and retention of highly qualified teachers to meet the challenging needs of the students. Your Committee further finds that under existing law, teachers who maintain National Board for Professional Teaching Standards certification are provided with a \$5,000 bonus annually. This measure provides an additional bonus to national board certified teachers who also teach in schools that are being restructured under the No Child Left Behind law.

Upon further consideration, your Committee believes that with the shortage of qualified and licensed teachers throughout the State, further incentives should be provided to more teachers who maintain their certification and demonstrate excellence in teaching or work in other areas or schools presenting unique challenges to the Department of Education.

Accordingly, your Committee has amended this measure by increasing the number of teachers eligible for the additional bonus established by this measure by also including public school teachers who maintain their current National Board for Professional Teaching Standards certification and work at:

- (1) Schools with a high turnover rate, as determined by the Department of Education;
- (2) Schools that are not making adequate yearly progress, but are not in restructuring under the No Child Left Behind Act (Public Law 107-110); or
- (3) Hard-to-fill schools, as determined by the Department of Education;

provided that an additional bonus shall also be provided to not more than fifty additional teachers, based upon performance criteria established by the Superintendent of Education.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 24, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 24, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 1155 Education on H.B. No. 595

The purpose of this measure is to appropriate funds to the Department of Education's Office of Technology Services for the continued implementation of student information systems, student support systems, additional requirements, and infrastructure enhancements.

Testimony in support of this measure was submitted by the Department of Education.

Your Committee finds that the Department of Education needs to provide data to support students and increase accountability and transparency. Your Committee further finds that additional funding is necessary to ensure that this objective is accomplished and a comprehensive information technology system is established. Your Committee determines that funding in the amounts of \$6,328,946 for fiscal year 2007-2008 and \$5,269,974 for fiscal year 2008-2009 is necessary and proper for the provision of information technology services for public schools in the State.

Your Committee has amended this measure by clarifying that funds are being appropriated for:

- (1) An integrated comprehensive student support system, including the special education database;
- (2) Continued implementation and enhancements to the centralized student information system;
- (3) Improvements to the financial management system; and
- (4) The enhancement of the associated network support services, including the establishment of a service center to provide specialized information technology services as requested by schools on a reimbursable basis and that these funds be separately identified.

Your Committee also amended the measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 595, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 595, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hee, Nishihara, Taniguchi).

SCRep. 1156 Education on H.B. No. 777

The purpose of this measure is to recruit and retain qualified teachers for employment in hard-to fill positions in public schools through the appropriation of funds for the Hawaii Educator Loan Program.

Testimony in support of this measure was submitted by the University of Hawaii and the Hawaii State Teachers Association. Comments on the measure were also submitted by the Department of Education.

Your Committee finds that pursuant to Act 307, Session Laws of Hawaii 2001, the Legislature established the Hawaii Educator Loan Program. The program is administered by the University of Hawaii and was established as a tool for recruiting students to become educators and teach in hard-to-fill positions in public schools in the State. Your Committee further finds that the current teacher shortage problem has also highlighted the need for teachers in public schools located in rural areas throughout the State. Your Committee believes that the establishment of a similar loan forgiveness program within the Department of Education, geared towards filling positions in rural areas throughout the State, would greatly assist the Department of Education in its recruitment and retention efforts.

Additionally, your Committee recognizes that schedules for the reduction of loan repayment amounts for the Department of Education and the University of Hawaii loan forgiveness programs are also necessary to truly incentivize the programs.

Accordingly, your Committee has amended this measure by:

- (1) Including a new section that establishes the Educator Loan Forgiveness Program and Special Fund within the Department of Education for teachers who teach in the Hawaii public school system at schools located in rural areas;

- (2) Appropriating funds for the Educator Loan Forgiveness Program;
- (3) Changing the loan forgiveness schedule for the Hawaii Educator Loan Program to require twenty-five per cent of the total amount of the loan and interest to be waived every year for the sixth and seventh years of repayment that a loan recipient works in a hard-to-fill position; and
- (4) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 777, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 777, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hee, Nishihara, Taniguchi).

SCRep. 1157 Education on H.B. No. 1530

The purpose of this measure is to recruit and retain qualified teachers and educational assistants for employment in public schools located in rural areas and hard-to-fill positions through the establishment of loan and loan forgiveness programs.

This measure also establishes special funds for the loan and loan forgiveness programs.

Testimony in support of this measure was submitted by the Department of Education and the University of Hawaii. Testimony in opposition of this measure was submitted by the Department of Budget and Finance.

Your Committee finds that qualified teacher and educational assistant recruitment and retention for our public schools are of the utmost importance in providing quality education to our children. Your Committee further finds that economics often plays a major role in the recruitment and retention of qualified teachers and educational assistants in public schools, and the high cost of living in Hawaii only exacerbates the existing educator shortage problem. Positions in public schools in geographically isolated locations or hard-to-fill positions in densely populated locations present a particular challenge for the Department of Education. Your Committee believes that alternative incentives to increased salary are necessary to allow the Department of Education to be cost-effective while still ensuring our schools are staffed by qualified educators.

Your Committee recognizes that with several measures addressing this issue circulating through the Legislature this session, it is important to focus on educational assistants who are currently without a dedicated loan program or loan forgiveness program. Your Committee has heard a related measure regarding teachers and believes that inclusion of the loan forgiveness provisions relating to teachers is more appropriately included therein. Additionally, your Committee recognizes that a schedule for the reduction of loan repayment amounts is also necessary to truly incentivize this program and believes further clarification is necessary to accomplish that purpose.

Accordingly, your Committee has amended this measure by:

- (1) Removing references to a loan program or loan forgiveness program for teachers;
- (2) Establishing a loan forgiveness schedule for the educational assistant loan programs for the Department of Education and the University of Hawaii as follows:
 - (A) Ten per cent of the total amount of the loan and interest shall be waived every year for the first five years of repayment; and
 - (B) Twenty-five per cent of the total amount of the loan and interest shall be waived every year for the sixth and seventh years of repayment; and
- (3) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1530, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1530, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hee, Nishihara, Taniguchi).

SCRep. 1158 Energy and Environment on H.B. No. 1278

The purpose of this measure is to enable the State to continue to offer low-cost loans to assist eligible borrowers in the cleanup of contaminated properties.

Specifically, this measure repeals the sunset date of the Hawaii Brownfields Cleanup Revolving Loan Fund (Revolving Loan Fund) that was scheduled for repeal on June 30, 2007, pursuant to Act 173, Session Laws of Hawaii 2002. The Revolving Loan Fund assists eligible borrowers with the cleaning of contaminated sites in accordance with federal environmental and hazardous substances pollution guidelines.

Your Committee received testimony in support of this measure from the Department of Health and the Department of Business, Economic Development, and Tourism.

It is the intent of your Committee to permit the State to continue to offer low-cost loans to innocent landowners and prospective purchasers of contaminated properties which serves as an important component in encouraging abandoned properties to be put back into beneficial uses such as housing, commercial buildings, and open space.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1278, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 1159 Energy and Environment on H.B. No. 870

The purpose of this measure is to authorize the issuance of special purpose revenue bonds in a total amount not to exceed \$20,000,000 to assist Honolulu Seawater Air Conditioning, LLC, in the design and development of a seawater air conditioning project on the island of Oahu.

Your Committee received testimony in support of this measure from the Hawaii Renewable Energy Alliance, Hawaii Energy Policy Forum, Honolulu Seawater Air Conditioning, LLC, KUD International, LLC, and Hawaii Science & Technology Council in support of this measure.

Your Committee finds that the development of a deep seawater air conditioning facility and distribution system in downtown Honolulu is a major step in the development of a renewable energy system using the limitless resource of our deep state waters. Such a project could eliminate the need for up to 0.63 kilowatts of electricity generating capacity for each ton of cooling capacity. Further, this system will provide reduced and stable cooling costs and reduce the consumption of potable water and the use of toxic chemicals. Your Committee finds that this project is in the public interest and for the public health, safety, and general welfare.

Your Committee has amended this measure by:

- (1) Revising the listing of seawater air conditioning systems benefits;
- (2) Deleting reference to refunding special purpose revenue bonds for multi-purpose programs; and
- (3) Making technical nonsubstantive changes for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 870, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 870, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 1160 Energy and Environment on H.B. No. 334

The purpose of this measure is to authorize the issuance of \$10,000,000 in special purpose revenue bonds to assist Sopogy, Inc. with the planning, design, construction, equipping, and operation of a solar farm power plant at the Natural Energy Laboratory of Hawaii to produce electricity from solar power.

Testimony in support of this measure was submitted by the Department of Business, Economic Development, and Tourism; Sopogy, Inc.; Hawaii Renewable Energy Alliance; and Hawaii Energy Policy Forum. Comments were submitted by the Natural Energy Laboratory of Hawaii Authority.

Your Committee finds that the development of clean electricity from a renewable and abundant resource, the sun, at a price lower than the market price and independent from oil price fluctuations is in the best interest of the public. Sopogy, Inc. specializes in the development, manufacture, and distribution of its proprietary concentrated solar power systems that generate electricity. The construction of a solar farm power plant would demonstrate how electricity could be produced by using solar power systems.

Your Committee further finds that Sopogy, Inc. is an industrial enterprise, meeting the qualifications for special purpose revenue bond assistance. The special purpose revenue bonds authorized under this measure will provide low interest rate bond financing for the construction of a solar farm power plant.

The intent of your Committee is to authorize the issuance of \$10,000,000 in special purpose revenue bonds to assist Sopogy, Inc. with the planning, design, construction, equipping, and operation of a solar farm power plant, limited to the site of the Natural Energy Laboratory of Hawaii or other suitable sites to produce electricity from solar power.

Your Committee has amended this measure by inserting provisions of S.B. No. 597, S.D. 2, a similar measure that does not reference refunding special purpose revenue bonds for multi-project programs.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 334, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 334, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 1161 Energy and Environment on H.B. No. 1941

The purpose of this measure is to protect Hawaii's environment by appropriating funds for the inspection, quarantine, and eradication of invasive species.

Your Committee received testimony in support of this measure from the Department of Agriculture, Department of Land and Natural Resources, County Council of the County of Maui, Hawaii Agriculture Research Center, The Nature Conservancy, The Chamber of Commerce of Hawaii, Horizon Lines, LLC, Alexander & Baldwin, Inc., and the Hawaii Forest Industry Association. Comments on this measure were submitted by the Environmental Center at the University of Hawai'i at Manoa.

Your Committee amended this measure by changing the effective date to July 1, 2025, to encourage further discussion.

It is the intent of your Committee to enable the Department of Agriculture to address the inspection, quarantine, and eradication of invasive species concerns in order to continue to safeguard Hawaii's environment.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1941, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1941, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 1162 Energy and Environment on H.B. No. 1943

The purpose of this measure is to cover unanticipated expenses of the Deposit Beverage Container Program (Program).

Your Committee received testimony in support of this measure from the Department of Health.

Pursuant to the requirements set forth in Article VII, Section 9, of the Hawaii State Constitution, the Governor, in her Governor's Message No. 241 to the Legislature, requested immediate consideration and passage of this measure by the Legislature, citing an existing critical funding shortage.

This bill appropriates \$10,000,000 for fiscal year 2006-2007 from the Deposit Beverage Container Deposit Special Fund to be used to:

- (1) Reimburse deposit beverage container refund values;
- (2) Pay handling fees to redemption centers; and
- (3) Pay for operating costs of the Program for deposit beverage container activities.

The appropriation is to be expended by the Department of Health.

Your Committee finds that the emergency appropriation is necessary due to higher than anticipated deposit beverage container sales and redemptions have increased program costs.

It is the intent of your Committee to make an emergency appropriation to provide sufficient moneys to meet the increased expenses of the deposit beverage container program.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1943, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 1163 (Joint) Health and Human Services and Public Housing on H.B. No. 426

The purpose of this measure is to provide individuals receiving public assistance greater accessibility to psychotropic medications.

Specifically, this measure provides prescriptive authority under chapter 457, Hawaii Revised Statutes, to Advanced Practice Registered Nurses and repeals the sunset date to ensure continuous access to psychotropic medications for Medicaid fee-for-service and Medicaid QUEST plans.

Your Committees received testimony in support of this measure from the Department of Human Services, the Hawaii Psychiatric Medical Association, and six individuals. The Hawaii Medical Association submitted comments on this measure.

Your Committees find that Advanced Practice Registered Nurses are an integral part of the mental health care team, particularly in rural areas of the State where there is a critical shortage of psychiatrists accepting Medicaid patients. Enabling Advanced Practice Registered Nurses with prescriptive authority to prescribe psychotropic medications to Medicaid patients will help improve access to quality health care for Medicaid beneficiaries.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 426, H.D. 2, and recommend that it pass Second Reading and be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, none. Excused, 1 (Menor).

SCRep. 1164 (Joint) Health and Human Services and Public Housing on H.B. No. 1120

The purpose of this measure is to ensure quality dental health services to low-income adults and children, individuals with developmental disabilities, and the uninsured.

The measure accomplishes this purpose by appropriating funds to the Department of Health to contract with federally qualified health centers for community-based dental health clinics.

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities; the Disability and Communication Access Board; the Moloka'i Community Health Center; the West Hawaii Community Health Center, Inc.; the Community Clinic of Maui; Hawaii Primary Care Association; Kalihi-Palama Health Center; Waikiki Health Center; Hamakua Health Center; the Kokua Council; the Bay Clinic, Inc.; and one individual. The Arc in Hawaii submitted testimony in support of the intent of this measure. The Department of Health submitted testimony in opposition to this measure.

Your Committees find that more accessible dental health care services need to be available on all of the islands, particularly for persons with disabilities. Your Committees believe that including Medicaid fee-for-service eligible children and adults in this measure will ensure dental health services are provided to all eligible individuals in need, not just those with developmental disabilities.

Accordingly, your Committees amended this measure to include both QUEST and Medicaid fee-for-service eligible children and adults.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1120, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1120, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, none. Excused, 1 (Menor).

SCRep. 1165 (Joint) Health and Human Services and Public Housing on H.B. No. 531

The purpose of this measure is to amend the Early Intervention Services Law to be consistent with the reauthorized Individuals with Disabilities Education Act of 2004.

The Department of Education, the Hawaii Down Syndrome Congress, the Aloha Place, and thirteen individuals submitted testimony in support of this measure. The State Council on Developmental Disabilities, Rehabilitation Services at Kapi'olani Medical Center for Women & Children,

and Good Beginnings Alliance submitted testimony in support of the intent of this measure. The Department of Health submitted testimony in opposition to this measure.

Your Committees find that early intervention services are a vital part of facilitating optimum development in children with identified delays in the area of cognitive, motor, adaptive, social-emotional, and language development. The focus of early intervention is presently directed to children from birth to three years of age. According to the testimony, the lack of comparable services for children between three to five years of age has created a break in the continuum of family-centered, developmental services. This gap in services for children between three to five years of age is due, in part, to a lack of adequate resources and funding to provide on-going early intervention services in a natural environment.

Your Committees received a statement from the Department of Health that, depending on the projection, this measure, if passed, would cost the State as much as \$17,000 per child or a total amount of approximately \$17,000,000 per year. Several stakeholders testified in support of conducting a feasibility study first to ascertain, among other things, the cost and potential impact of a change to Hawaii's Early Intervention Section.

It is the intent of your Committees to support the possible expansion of Hawaii's Early Intervention Section to continue services for children three to five years of age.

Your Committees have amended this measure by:

- (1) Deleting all of its provisions;
- (2) Establishing a task force to study the feasibility of expanding Hawaii's Early Intervention Section to continue services for children three to five years of age;
- (3) Requiring the task force to submit a report to the Legislature no later than twenty days prior to the convening of the 2008 Regular Session;
- (3) Appropriating \$120,000 for fiscal year 2007-2008 for the purposes of this measure;
- (4) Changing the effective date from July 1, 2020, to July 1, 2007; and
- (5) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 531, H.D. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 531, H.D. 3, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 4 (Hooser, Menor, Sakamoto, Whalen).

SCRep. 1166 Health on H.B. No. 1377

The purpose of this measure is to enable the Hawaii Health Systems Corporation to provide quality health care and pay for operational costs that will exceed the current expenditure ceiling.

Specifically, this measure increases the expenditure ceiling on the Health Systems Special Fund and makes an emergency appropriation out of the special fund to the Hawaii Health Systems Corporation to pay for increased operational costs.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation.

Your Committee finds that health care costs have substantially increased beyond amounts anticipated in the Hawaii Health Systems Corporation's 2006-2007 budget. Your Committee further finds that this measure is not a request for an appropriation from the general fund. It raises the expenditure ceiling of the existing Health Systems Special Fund by \$41,000,000.

An expenditure ceiling increase of \$41,000,000 for the Health Systems Special Fund is required to pay for additional staff hired for the conversion of Kula, Hale Ho'ola Hamakua, and Samuel Mahelona Memorial Hospitals to critical access hospital status; for hospitalist programs at Hilo Medical Center, Maui Memorial Medical Center, and Kona Community Hospital; to operate the medical/surgical wing of Maui Memorial Medical Center; to staff imaging departments; to provide physicians for specialty coverage; and to help cover the increasing costs of providing quality healthcare.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1377, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 1167 Health on H.B. No. 1495

The purpose of this measure is to improve palliative care in Hawaii by providing an appropriation as a grant under chapter 42F, Hawaii Revised Statutes, to Kokua Mau for palliative care education and services.

Your Committee received testimony in support of this measure from Kaiser Permanente, Hawaii Medical Service Association, Hospice of Hilo, Hawaii Long Term Care Association, the Hawaii Family Forum, Kokua Mau, Hospice Hawaii, and seven individuals. The Healthcare Association of Hawaii submitted testimony in support of this measure with a recommended amendment.

The total funding needed for fiscal year 2007-2008 is \$270,000 and the total funding needed for fiscal year 2008-2009 is \$192,000.

Your Committee finds that palliative care services in the State need to be improved and expanded. Your Committee recognizes that palliative care is not an age specific service and that a comprehensive program addressing the needs of the community is imperative to improving end-of-life care in Hawaii.

Your Committee adopted the recommendation of the Healthcare Association of Hawaii and amended this measure by broadening the scope of the measure to enable any other skilled nursing facilities that choose to participate in the palliative care project with Kokua Mau.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1495, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1495, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 1168 Health on H.B. No. 1764

The purpose of this measure is to authorize the issuance of revenue bonds to assist Hawaii Health Systems Corporation (HHSC) or any of its regional subsidiary corporations.

Your Committee received testimony in support of this measure from HHSC, Healthcare Association of Hawaii, and Maui Memorial Medical Center. Comments were received from the Department of Budget and Finance.

Your Committee finds that significant public benefit will be realized through the planning, construction, improvement of, and purchase and replacement of equipment for the facilities of the HHSC or any of its regional subsidiary corporations that provide healthcare services and facilities for all residents. Your Committee finds that the issuance of revenue bonds is in the public interest and for the benefit of public health, safety, and welfare.

The proceeds of the bond sale under this measure would be applied to construction, improvement, and equipment for a new heart, brain, and spine center on Maui. Your Committee believes that the expansion of cardiology and neurology services at Maui Memorial Medical Center will have a tremendous positive impact on the health and wellness of all residents of Maui and the State, especially since there is a critical need on Maui to develop additional healthcare services, particularly cardiovascular and neurovascular services. Furthermore, the revenue generated by the proposed services would be a profitable service line so as to help defray the cost of the proposed center and other hospital services.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1764, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 1169 Health on H.B. No. 1373

The purpose of this measure is to ensure that children from birth to age three, with or at risk for developmental delays, receive early intervention services.

Specifically, this measure makes an emergency appropriation for early intervention services as mandated by Part C of the federal Individuals with Disabilities Education Improvement Act of 2004 and the Hawaii Early Intervention State Plan.

Your Committee received testimony in support of this measure from the Department of Health, the State Council on Developmental Disabilities, Easter Seals Hawaii, Imua Family Services, and American Physical Therapy Association Hawaii Chapter.

Your Committee finds that the Department of Health is responsible for ensuring that all infants and toddlers from birth to three years of age with a developmental, biological, or environmental risk and their families receive early intervention services. Your Committee further finds that this emergency appropriation is needed to provide for the increased costs associated with early intervention services that are required to be in natural environments and community-based settings.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1373, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 1170 Health on H.B. No. 211

The purpose of this measure is to extend the lapse date for special purpose revenue bonds issued to the Queen's Health Systems.

Your Committee received testimony in support of this measure from The Queen's Medical Center and Healthcare Association of Hawaii.

This measure extends from June 30, 2008, to June 30, 2013, the authorization to issue special purpose revenue bonds that will finance the costs of construction, improvements, and equipment of health care facilities and enhance patient care by providing high quality health care services to the people of Hawaii. The measure also extends for the same time period, the Department of Budget and Finance's authority to issue refunding special purpose revenue bonds.

Your Committee finds that section 39A-37, Hawaii Revised Statutes, prohibits authorizations of special purpose revenue bonds "for a period exceeding five years of its enactment." This measure is extending the authorization until 2013--five years after the authorization lapses in 2008.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 211, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 1171 Health on H.B. No. 1371

The purpose of this measure is to support individuals with developmental disabilities to live in the community.

Specifically, this measure makes an emergency appropriation for the Developmental Disabilities Division of the Department of Health (Division) to comply with the settlement agreement in *Hawaii Disability Rights Center v. State of Hawaii*, U.S. District Ct., Civil No. 03-00524, the Americans with Disabilities Act, and the 1999 Supreme Court decision in *Olmstead v. L.C. ex rel. Zimring*.

Your Committee received testimony in support of this measure from the Department of Health, the State Council on Developmental Disabilities, and Family Voices of Hawaii.

The additional funds are necessary to support the Division's existing clients and to reasonably admit individuals into the State's Medicaid title XIX program as required under federal law and federal court rulings.

Your Committee finds that this emergency appropriation will ensure that individuals with developmental disabilities who choose to live in the least restrictive community environment are provided home and community based services.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1371, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 1172 Health on H.B. No. 1370

The purpose of this measure is to ensure that adult mental health consumers are provided continuous services by making an emergency appropriation to the Department of Health for its Adult Mental Health Division.

Your Committee received testimony in support of this measure from the Department of Health, the Hawaii Psychiatric Medical Association, and one individual.

Your Committee finds that the number of adult mental health consumers that are eligible to receive services through the Department of Health have significantly increased. This increase is a result of United States v. State of Hawaii, et al. Civil Number 91-00137, a federal law suit that expanded the use of available services throughout the islands. Your Committee further finds that this emergency appropriation is necessary to ensure the availability of continuous adult mental health services in the State.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1370, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 1173 Health on H.B. No. 1372

The purpose of this measure is to ensure the rapid aeromedical evacuation of high risk patients from rural areas on Oahu to an advanced care medical center.

Specifically, this measure makes an emergency appropriation to cover costs for the fiscal year 2006-2007 costs associated with providing emergency aeromedical transportation services on Oahu.

Your Committee received testimony in support of this measure from the Department of Health, the State Department of Defense, and the Healthcare Association of Hawaii.

Your Committee finds that aeromedical services constitute a critical component of the continuum of health care. These services are currently being provided by an active-duty Army unit recently transferred to Hawaii from Alaska under an inter-agency agreement with the Hawaii Army National Guard.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1372, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 1174 Health on H.B. No. 1368

The purpose of this measure is to allow the Office of Health Care Assurance to offset operating costs and ensure the provision of quality health care to residents.

This measure endeavors to accomplish this purpose by renaming the Hospital and Medical Facilities Special Fund to be consistent with the Office of Health Care Assurance, allowing the deposit of administrative fines into the special fund, and permitting the use of the moneys collected to offset program expenses and for educational purposes.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that this measure will provide additional funding for the Office of Health Care Assurance to carry out its duties in lieu of annual budget requests. Your Committee further finds that naming the fund the "Office of Health Care Assurance Special Fund", though not necessary, will provide consistency with its purpose.

Your Committee amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1368, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1368, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 1175 Health on H.B. No. 1785

The purpose of this measure is to ensure that Hawaii's Emergency Medical Services have safe, reliable ambulances and equipment to provide quality emergency health care services to those in need.

The measure accomplishes this purpose by making an appropriation for the City and County of Honolulu to purchase seven ambulances and fifteen defibrillators.

Your Committee received testimony in support of this measure from the Honolulu Emergency Services Department of the City and County of Honolulu, the Hawaii Paramedic Association, and two individuals.

Your Committee finds that the Honolulu Emergency Services Department is in dire need of reliable emergency vehicles that will ensure the safety of the emergency medical service employees and patients, while providing quality health care services. This will additionally enable the City and County of Honolulu to be more prepared in the event of a large scale disaster.

Your Committee amended this measure by including an appropriation amount of \$1.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1785, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1785, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 1176 Health on H.B. No. 1907

The purpose of this measure is to provide housing and care options to the State's aging population.

Specifically, this measure authorizes the issuance of special purpose revenue bonds for the purpose of assisting the Craigsides Retirement Residence, a Hawaii nonprofit health care facility, with the purchase of land, planning, design, and construction of a senior housing community.

Testimony in support of this measure was submitted by the Hawaii Long Term Care Association, Arcadia Retirement Residence, and Craigsides Retirement Residence.

Craigsides Retirement Residence is a health care facility, providing a full continuum of care. The development proposes to provide one hundred seventy-one apartments with independent and assisted living options. It will also have a forty-bed full service nursing facility.

Your Committee finds that it is in the public interest to encourage the development of senior housing communities in the State of Hawaii. The authorization of the issuance of special purpose revenue bonds for the Craigsides Retirement Residence will help keep project costs down and, therefore make the residence more affordable to the State's seniors living with moderate incomes. Your Committee further finds that this facility is needed to meet the demands of the State's aging population.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1907, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 1177 Health on H.B. No. 962

The purpose of this measure is to increase the availability of kidney dialysis services in rural areas of the State.

The measure accomplishes this purpose by providing an appropriation as a chapter 42F, Hawaii Revised Statutes, grant to the St. Francis Healthcare Foundation to support the modified home care and community health demonstration project.

Your Committee received testimony in support of this measure from the National Kidney Foundation, the Office of Hawaiian Affairs, and the St. Francis Healthcare Foundation. The Department of Health submitted testimony in support of the overall concept of this measure.

Your Committee finds that the occurrence of chronic kidney disease has increased in recent years, especially in the native Hawaiian population. More than ten per cent of Hawaii residents suffer from this disease. Enabling residents of rural areas of the State to have easier access to preventative health care and dialysis treatment will greatly improve the quality of life for those suffering from chronic kidney disease.

Your Committee amended this measure by inserting an appropriation amount of \$1.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 962, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 962, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 1178 Judiciary and Labor on H.B. No. 600

The purpose of this measure is to require the Judiciary to implement a certification program for court interpreters and to appoint and use certified court interpreter in legal proceedings.

Your Committee received testimony in support of the bill from Hawaii Interpreter Action Network, Hawaii Newspaper Guild, Hawaii Interpreters of the Deaf, National Association of Judicial Interpreters and Translators, Faculty of the Ilokano and Philippine Drama and Film Program, Hispanic Center of Hawaii, Japan-American Society of Hawaii, Disability and Communication Access Board, Nursing Advocates and Mentors, Inc., Philippine Nurses Association-Hawaii, United Filipino Council of Hawaii, Filipino Coalition for Solidarity, Congress of Visayan Organizations, Asian American Network for Cancer Awareness Research and Training, Oahu Filipino Community Council, Hawaii Registry of Interpreters for the Deaf, the Public Defenders Office, and numerous individuals. The Judiciary testified against the bill. Many of the testimony in support indicated specifically that they preferred the Senate version.

Your Committee amended the bill to reflect the Senate version, which allowed the Judiciary to set up the program according to the court rules. Your Committee further amended the bill by requiring the Judiciary to set up the certification program.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 600, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 600, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1179 (Joint) Transportation and International Affairs and Judiciary and Labor on H.B. No. 34

The purpose of this measure is to require the Employees' Retirement System (ERS) to:

- (1) Identify and scrutinize companies having business operations in Sudan in which the ERS has direct or indirect holdings or could possibly have such holdings in the future; and
- (2) Require the ERS to follow specified notice procedures to warn such companies of a possible divestment of stock by the ERS, and ultimately to require the divestment if companies do not take corrective action to refrain from doing business in Sudan.

Your Committees received testimony in support of this measure from the Japanese American Citizens League; Hawaii Coalition for Darfur; Hawaii Catholic Conference; The League of Women Voters of Hawaii; University of Hawaii Professional Assembly; Hawaii Family Forum; Americans for Democratic Action; Hawaii Reserves, Inc.; Juniroa Productions Inc.; and seven individuals. Testimony in opposition was received from the Employees' Retirement System.

Your Committees find that genocide is currently occurring in the Darfur Region of Sudan. The United States, along with the international community and hundreds of humanitarian and faith based organizations, have all agreed that genocide is occurring in the Darfur region of Sudan. At present, approximately 400,000 people have been killed in the region, with another 2.5 million people being displaced from their homes despite calls from the international community that the Sudanese Government put an end to these atrocities.

To date, according to a *Honolulu Advertiser* article of March 19, 2007, seven states have adopted divestment strategies toward Sudan, and it has been estimated that twenty other states are considering new laws to that effect this year. Your Committee believes that placing economic pressure on the Sudanese Government by prohibiting the ERS from investing in companies that do business with Sudan is but one step that can be taken to remedy this tragic situation. This similar action was taken against the country of South Africa during the 1980s as a means of ending the policy of apartheid.

Testimony on this measure indicated that the stock portfolio value of the Employees' Retirement System actually increased greatly following a 1983 divestment in South Africa, pursuant to a legislative concurrent resolution to that effect.

Your Committees have amended this measure to make technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 34, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 34, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 4 (Hooser, Inouye, Kokubun, Taniguchi).

SCRep. 1180 (Joint) Transportation and International Affairs, Education and Energy and Environment on H.B. No. 869

The purpose of this measure is to make an appropriation for an energy efficiency transportation strategies study.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and the Hawaii Energy Policy Forum (Forum) at the University of Hawaii at Manoa.

Your Committees find transportation is responsible for an inordinate amount of fuel consumption, including fuel used in motor vehicles, busses, and jet planes. Your Committees further find that reducing the demand for fuel in transportation modalities would greatly reduce our dependence on oil.

Under this measure, the Forum, a part of the Social Sciences Public Policy Center at the University of Hawaii at Manoa, proposes to conduct a study on energy efficient transportation strategies in conjunction with the Department of Business, Economic Development, and Tourism. In 2005, the Forum adopted a comprehensive "10 Point Action Plan" which serves as a framework for meeting the State's preferred energy and vision goals. However, no current energy efficient strategy is in place for the transportation sector.

Your Committees have amended this measure by inserting provisions from S.B. No. 983, a similar measure, with the following changes:

- (1) Requiring a cost-benefit analysis of each energy efficient transportation strategy;
- (2) Appropriating an amount of \$50,000;
- (3) Inserting an effective date of July 1, 2007; and
- (4) Making technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Education and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 869, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 869, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 11. Noes, none. Excused, 5 (Chun Oakland, Hee, Ihara, Inouye, Taniguchi).

SCRep. 1181 (Joint) Transportation and International Affairs and Intergovernmental and Military Affairs on H.B. No. 155

The purpose of this measure is to lessen the amount of artificial light that contributes to the diminishing ability of the telescopes on Mauna Kea and Haleakala to conduct research.

Specifically, the measure requires the Department of Transportation, to the extent that it is practical, to comply with county ordinances and standards relating to outside lighting for all new installations at airports, harbors, and highways.

Your Committees received testimony in support of this measure from the Department of Transportation, University of Hawaii System, and two Maui Council Members.

Your Committees find that Hawaii is home to two of the world's premier astronomy observatories, Haleakala on Maui and Mauna Kea on Hawaii. Mauna Kea is considered the finest observing site in the world. One of the most critical needs for preserving the value of these sites is to reduce bright sources of light that penetrate the dark night sky. Recent nighttime images from the international space station revealed that some of the brightest sources of light on Maui and Hawaii are the airports and harbors on both islands. Astronomers on Mauna Kea are now detecting artificial light sources from urban areas that are diminishing the telescopes' ability to do research.

Your Committees note that this measure, as it was in its original form and it is currently, applies to all airports in the State and is not limited to Maui.

Your Committees have amended this measure by inserting provisions of S.B. No. 1042, S.D.1, a similar measure which deletes the requirement that airport runways be similarly lighted.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 155, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 155, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 2 (Hooser, Taniguchi).

SCRep. 1182 (Joint) Transportation and International Affairs and Intergovernmental and Military Affairs on H.B. No. 357

The purpose of this measure is to establish in the City and County of Honolulu, a two-year pilot project to test crosswalk safety enhancements and programs.

Your Committees received testimony in support of this measure from the Department of Transportation (DOT) and AARP Hawaii.

The DOT submitted testimony that, during the past four years (2003-2006), there were one hundred twenty-two pedestrian fatalities statewide. Of the one hundred twenty-two fatalities, eighty-four were in Honolulu. For the first ten weeks this year alone, there were ten pedestrian fatalities on Oahu.

Your Committees believe that exploring initiatives that may enhance pedestrian safety and consequently reduce injuries and fatalities is an important first step toward a uniform and effective long term traffic safety solution.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 357, H.D. 2, and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 2 (Hooser, Taniguchi).

SCRep. 1183 (Joint) Transportation and International Affairs and Intergovernmental and Military Affairs on H.B. No. 1092

The purpose of this measure is to make an appropriation for the purchase of back-up generators to ensure continuous electrical power at state airports and commercial harbors.

Your Committees received testimony in support of this measure from the Department of Transportation; State Department of Defense; Hawai'i Hotel & Lodging Association; Kobayashi Travel Service, Ltd.; Roberts Hawaii; Charley's Taxi; and one individual.

Your Committees find that emergency back-up generators are essential to ensure uninterrupted operations at state airports and commercial harbors by the provision of continuous electrical power as provided by back-up generators. These generators will enable the State to provide safe, efficient, and orderly airport and harbor services, without interruption during unforeseen power outages.

Your Committees have amended this measure by changing the means of financing from general revenues to general obligation bonds, inserting \$20,000,000 as the appropriated amount, and making the measure \$20,000,000 in general obligation bonds, effective July 1, 2007.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1092, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1092, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 2 (Hooser, Taniguchi).

SCRep. 1184 (Joint) Energy and Environment and Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 899

The purpose of this measure is to establish sustainable strategies that will reduce Hawaii's dependence on fossil fuels and reduce greenhouse gas emissions.

Specifically, this measure appropriates funds for the research, development, and implementation of a pilot project to demonstrate ecologically-sustainable strategies that will amend soil fertility for the production of clean energy feedstocks and food crops.

Your Committees received testimony in support of this measure from Joule Junction, LLC and four individuals. The University of Hawaii John A. Burns School of Medicine submitted testimony supporting the intent of this measure. Your Committees received testimony in opposition to this measure from the Respiratory and Environmental Disabilities Association of Hawaii and two individuals. Comments were submitted by Life of the Land and two individuals.

Your Committees find that using sustainable agricultural practices and technologies will contribute to the reduction of greenhouse gases that have a significant impact on global climate change. Your Committees further find that Hawaii is the perfect venue for this type of research and development due to the islands' unique biological and geological features.

Your Committees have amended this measure by changing the effective date from July 1, 2020, to July 1, 2007.

Your Committees further amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 899, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 899, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 3 (Fukunaga, Hee, Ihara).

SCRep. 1185 (Joint) Intergovernmental and Military Affairs and Transportation and International Affairs on H.B. No. 277

The purpose of this measure is to ensure fiscal accountability in the process for issuing parking placards for persons with disabilities by requiring the counties to deposit all fees collected for the issuance of temporary or replacement placards into the state general fund.

Your Committees received testimony in support of this measure from the Disability and Communication Access Board and the Department of Customer Services of the City and County of Honolulu. Your Committees received testimony in opposition to this measure from the County Council of the County of Maui.

It is the intent of your Committees to ensure financial responsibility by requiring the counties to deposit fees for temporary and replacement disabled parking removable windshield placards into the state general fund. Currently, the state reimburses the counties at a rate of \$12 per placard. This measure classifies that the moneys collected would be returned directly to the state and eliminates the paperwork required for requesting remittance, thus allowing for smoother quarterly transactions.

Your Committees changed the effective date to July 1, 2007, and made technical, nonsubstantive amendments to this measure for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Intergovernmental and Military Affairs and Transportation and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 277, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 277, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 2 (Hooser, Taniguchi).

SCRep. 1186 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1590

The purpose of this measure is to protect the property rights of real property owners by requiring that government entities possessing the power of eminent domain offer to resell any real property taken by eminent domain to the original property owner if the property taken is not used for the purpose for which it was condemned.

Testimony in support of this measure was submitted by Kamehameha Schools and the Hawaii Association of Realtors.

There are two constitutional requirements for the exercise of eminent domain. The property taken must be for a public purpose and the property owner is entitled to receive just compensation. There are many instances where condemned property sits idle for years until plans are realized. If the purported public purpose of the condemned property is never realized, the government may sell the property to the highest bidder, which is usually not the original owner of the condemned property.

Your Committee finds that condemnation actions should occur only when necessary and when a viable plan is in place for the condemned property. Despite being entitled to just compensation, owners of condemned property still incur financial and emotional stress from losing their property rights and being forced to relocate their homes or businesses. This stress is heightened when the condemned property sits idle for years because a viable plan for the property is not available, or when the condemned property is sold to someone else who placed the highest bid. Requiring a government entity after five years to offer the right of first refusal to the owner of the condemned for resale at the current appraised value, or condemnation price plus remediation or improvement costs if the property taken is not used for the purpose for which it was condemned will prevent condemned property from sitting idle.

Your Committee has amended this measure by deleting the contents of this measure and inserting the language of S.B. No. 1279, S.D. 1, which:

- (1) Amends chapter 46, Hawaii Revised Statutes, to include a new section that requires county agencies possessing the power of eminent domain to offer to resell any real property taken by eminent domain to the original property owner if the property taken is not used for the purpose for which it was condemned;
- (2) Amends chapter 101, Hawaii Revised Statutes, to include two new sections that:
 - (A) Allow a property owner or an individual with an interest in the property to be condemned to request a declaratory ruling to determine if the condemnation action by a government entity is for public use; and
 - (B) Require state government agencies possessing the power of eminent domain to offer to resell any real property taken by eminent domain to the original property owner if the property taken is not used for the purpose for which it was condemned;
- (3) Changes the effective date of this measure from July 1, 2112, to effective upon approval; and
- (4) Makes technical, nonsubstantive amendments for the purposes of clarity and style.

Your Committee believes that the amended measure will assist in leveling the playing field for real property owners and protect their real property interests, which fulfills the intent of this measure.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1590, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1590, H.D. 3, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1187 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1499

The purpose of this measure is to protect near shore and reef fisheries by authorizing the Department of Land and Natural Resources to conduct administrative inspections of bags and containers used to transport aquatic life.

Specifically, this measure amends section 187A-15, Hawaii Revised Statutes, by:

- (1) Authorizing Division of Conservation and Resources Enforcement officers to conduct administrative inspections of bags or containers that could be used to transport aquatic life;
- (2) Repealing the probable cause requirement to conduct examinations or searches of bags or containers that could be used to transport aquatic life; and
- (3) Directing the Department of Land and Natural Resources to create an administrative inspection scheme to enforce its aquatic rules.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources; the Office of Hawaiian Affairs; the Mayor, County of Maui; the Nature Conservancy; Mālama Hawai'i; Earthtrust; the Sierra Club, Hawai'i Chapter; the Greenpeace Foundation; the Ocean Law and Policy Institute of the Pacific Forum CSIS; the Hawaii Audubon Society; the Conservation Council for Hawai'i; and two individuals.

Hawaiian commercial and recreational marine life stocks are depleted, over-utilized, and in danger of irretrievable exhaustion. Although management tools have been enacted, fishery assessment depends on the voluntary cooperation of those who harvest these resources. While most fishers are willingly cooperative, increasing stock scarcity has led to conspicuous instances of obstruction of the efforts by Division of Conservation and Resources Enforcement officers to inspect catch.

Your Committee finds that the existing probable cause provision under section 187A-15, Hawaii Revised Statutes, does provide a degree of constitutional protection while at the same instance, may unduly hinder enforcement officers by preventing them from inspecting containers that may be used to transport fish and other aquatic life. Thus, this greatly weakens the effect of fisheries management measures, such as bag and size limits. While your Committee recognizes the seriousness of repealing the probable cause requirement from section 187A-15, Hawaii Revised Statutes, establishing an administrative inspection scheme will enable Division of Conservation and Resources Enforcement officers to better inspect and enforce the State's fishing laws.

Accordingly, your Committee has amended this measure by:

- (1) Adopting similar language from S.B. No. 663, S.D. 1, that:
 - (A) Adds fishing registrations along with fishing licenses and permits to conform better with the new federal fisheries regulations that mandate the registration of recreational saltwater anglers; and
 - (B) Adds provisions that require owners of fishing licenses, permits, or registrations to physically possess their paperwork when engaged in fishing activities, show their paperwork and allow for an inspection when asked by a Division of Conservation and Resources Enforcement officer, and agree to comply with all terms, conditions, laws, rules, and regulations applicable to the fishing license, permit, or registration;
- (2) Changing the effective date of this measure from July 1, 2050, to effective upon approval; and
- (3) Making technical, nonsubstantive provisions for the purposes of consistency and style.

Your Committee recognizes that repealing the probable cause requirement under section 187A-15, Hawaii Revised Statutes, may pose a constitutional issue. Your Committee believes that this issue merits further discussion by the Committee on Judiciary and Labor.

Your Committee believes that this measure, as amended, will provide a valuable tool for Division of Conservation and Resources Enforcement officers who are charged with enforcing the State's natural resource laws, and fulfills the intent of this measure, which is to protect near shore and reef fisheries.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1499, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1499, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1188 (Majority) Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1270

The purpose of this measure is to improve the government and public's abilities to make informed decisions on various public policy and operational issues relating to state planning by enhancing the ability of the Office of Planning to manage and coordinate a Statewide Geographic Information and Data Integration Program.

Specifically, this measure:

- (1) Creates a Statewide Geospatial Information and Data Integration Special Fund to assist in the operation and maintenance of the Statewide Geospatial Information and Data Integration Program;
- (2) Clarifies the role that the Office of Planning has in maintaining and coordinating a statewide enterprise geographic information system;

- (3) Appropriates an unspecified amount from the general fund to support the implementation of a geographic information system software enterprise license agreement;
- (4) Appropriates an unspecified amount from the general fund to be deposited into the Statewide Geospatial Information and Data Integration Special Fund; and
- (5) Appropriates an unspecified amount to allow the Office of Planning to expend moneys from the Statewide Geospatial Information and Data Integration Special Fund.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources; the Department of Agriculture; the Department of Health; the Office of Planning, Department of Business, Economic Development, and Tourism; the Mayor, County of Kauai; the Department of Planning and Permitting, City and County of Honolulu; and the Pacific Disaster Center.

The Office of Planning currently manages a statewide geographic information system that is used on a daily basis by a number of state agencies. The current geographic information system server provides state agencies open access to over one hundred fifty geospatial layers that are available on the State's central geographic information system database. This information is a helpful tool for state agencies to make informed decisions regarding policy making, long-term planning, operational issues, and emergency planning and response.

Your Committee finds that additional support is needed for the geographic information system to be updated and expanded so that the system can serve more agencies and the public. Providing funds to allow the Office of Planning to enter into a geographic information system software enterprise license agreement on behalf of all state agencies using geospatial technologies and data fulfills the intent of this measure, which is to improve the government and public's abilities to make informed decisions on various public policy and operational issues.

Your Committee has amended this measure by:

- (1) Adding a part II to this measure that inserts the language of S.B. No. 844, that appropriates an unspecified amount to the Office of the Auditor for the development of the Hawaii 2050 Sustainability Plan and supports the important efforts of the Hawaii 2050 Sustainability Task Force;
- (2) Changing the effective date of this measure to July 1, 2050; and
- (3) Making technical, nonsubstantive amendments for the purposes of style and consistency.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to improve the government and public's abilities to make informed decisions on various public policy and operational issues relating to state planning.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1270, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1270, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Slom). Excused, none.

SCRep. 1189 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1516

The purpose of this measure is to promote the maritime industry in Hawaii by appropriating funds for Honolulu Marine, Inc., to relocate the Kewalo Shipyard from Kewalo Basin to a proposed site at Keehi Lagoon.

Testimony in support of this measure was submitted by Honolulu Marine, Inc.; the Maritime Consultants of the Pacific; the Hawaii Boaters Political Action Association; and one individual. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources. The Hawaii Community Development Authority submitted comments.

The Kewalo Shipyard has been a fixture for the State's maritime industry for many years. Honolulu Marine, Inc., employs a shipyard staff of up to seventy personnel who are involved in the maintenance and repairs of various sized vessels. Due to development plans at its present location at Kewalo, the Shipyard needs to relocate its facilities. Your Committee finds that the Shipyard's proposed site at Keehi Lagoon is an unimproved and vacant lot, which will need additional funds to install port security infrastructure, grade and level the property, and construct a finger pier, sea retaining walls, and bulkheads.

Your Committee has amended this measure by replacing its contents with the provisions of S.B. No. 1242, S.D. 1, which appropriates an unspecified amount to assist Honolulu Marine, Inc. in relocating to Keehi Lagoon, including the costs to install port security infrastructure, to grade and level the property, and to construct a finger pier, sea retaining walls, and bulk heads. The appropriation will be expended by the Department of Transportation.

Although your Committee has concerns with the use of general funds to assist in the costs of the relocation of Honolulu Marine, Inc., it believes that the Committee on Ways and Means is the appropriate Committee to make a determination on whether general obligation bonds would be a more appropriate method of funding this project.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1516, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1516, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1190 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1948

The purpose of this measure is to preserve and sustain Native Hawaiian indigenous resources management practices by creating an Aha Moku Council System that will provide advisory assistance to the Department of Land and Natural Resources on all matters regarding the management of the State's natural resources.

Specifically, this measure adds a new chapter to title 12, Hawaii Revised Statutes, that:

- (1) Establishes an Aha Moku Commission to assist in the formation of regional Aha Moku Councils, which will serve in an advisory capacity on all matters regarding the management of the State's natural resources; and
- (2) Requires the Department of Land and Natural Resources to seek advisory assistance from the Aha Moku Councils in developing a comprehensive set of best practices for natural resources management.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources, the Office of Hawaiian Affairs, the Nature Conservancy, the Association of Hawaiian Civic Clubs, the Princess Ka'iulani Hawaiian Civic Club, the Pearl Harbor Hawaiian Civic Club, the Oahu Civic Club, and four individuals. Testimony in opposition to this measure was submitted by one individual.

Today, many Hawaiian communities are becoming revitalized by using the knowledge of cultural practitioners that has been passed down through kupuna and experienced farmers and fishers. This knowledge has allowed communities to engage in and enhance sustainability and self-sufficiency. Furthermore, many Hawaiian communities are interested in and willing to advise government agencies, organizations, and other interested groups in integrating traditional knowledge and ahupua'a management practices.

At the Ho'ohanohano I Na Kupuna Puwalu Series, all thirty-seven moku came together for the first time. The puwalu resulted in a unanimous consensus that a proactive approach is necessary to protect Hawaii's natural resources and ecosystems, and to sustain the traditional Native Hawaiian practices. Your Committee finds that developing an Aha Moku Council System that incorporates and represents all thirty-seven moku statewide will enable the development of a comprehensive set of best practices for natural resources management, which will reflect and sustain traditional Native Hawaiian practices.

Your Committee had concerns that the means and structure of the Council System and its administrative Aha Moku Council Commission were too broad and cumbersome to effectively achieve its objectives and carry out its purposes. Your Committee, however, recognizes that the traditional Native Hawaiian practices relating to resources management are becoming a dying art as the number of kupuna and Native Hawaiian practitioners are dwindling. Thus, your Committee strongly believes that these traditional practices and methods need to be preserved and sustained, but recognizes that there needs to be additional time allotted to coordinate and examine the structure and selection of members to the Aha Moku Councils and Commission to ensure that the Council System, upon its establishment, will successfully achieve its goals and objectives.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the language in sections 1 and 2 of this measure and replacing it with language from sections 1 and 2 from S.B. No. 1853, S.D. 1, that creates an Aha Moku Council System Advisory Committee to:
 - (A) Explore, examine, and derive the best practice models for the creation of an Aha Moku Council System and Aha Moku Council Commission;
 - (B) Explore best practice models to establish an administrative structure, including member criteria and selection, for the creation of an Aha Moku Council Commission to oversee an Aha Moku Council System;
 - (C) Establish goals and objectives for an Aha Moku Council Commission and Aha Moku Councils to accomplish, including benchmarks for long-term planning;
 - (D) Establish a feasible operational budget for an Aha Moku Council Commission; and
 - (E) Submit written reports of its findings and recommendations, including any legislation, to the Legislature prior to the convening of the 2008 and 2009 Regular Sessions;
- (2) Establishing a process for choosing advisory committee members to include a list of nominees to be submitted by the Office of Hawaiian Affairs and the Department of Hawaiian Home Lands;
- (3) Deleting the unspecified appropriation amount and replacing it with an appropriation of \$111,000 for each year of the 2007-2009 fiscal biennium for the administrative costs of the Aha Moku Council System Advisory Committee and for allowing each of the thirty-seven moku statewide to participate in the discussion on the creation of an Aha Moku Council System;
- (4) Changing the effective date of appropriation from July 1, 2020, to July 1, 2007; and
- (5) Making technical, nonsubstantive amendments for the purposes of style and clarity.

Your Committee believes that these amendments fulfill the intent of this measure, which is to preserve and sustain the Native Hawaiian indigenous resource management practices.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1948, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1948, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hee).

SCRep. 1191 Judiciary and Labor on H.B. No. 1248

The purpose of this measure is to limit the options available to convicted sex offenders when changing their names.

Currently, a person may be able to change his or her name by a simple petition to the Lieutenant Governor's Office. There is no administrative hearing to test the validity of a petitioner's name change request. The office relies solely upon the information provided by the petitioner in determining which name changes are appropriate for processing.

Your Committee finds that recently, a number of convicted sex offenders with an ongoing obligation to register as sex offenders have petitioned to change their names, some of them while still incarcerated for their crime. It was pointed out that if a convicted sex offender changes his or her name, it will be extremely difficult to track that individual if that individual does not comply with the requirements of sex offender registration.

This bill provides that a convicted sex offender may change his or her name in one of several ways such as through a Family Court order, upon marriage, by order of a court in any other jurisdiction, or by order of a court in this jurisdiction that determines that it is in the interest of justice and that it will not adversely affect public safety.

Your Committee received testimony in support of the bill from the Lieutenant Governor's Office and the Attorney General's Office. There was no testimony in opposition to the bill.

Your Committee amended the bill by changing the effective date from January 1, 2050, to be effective upon approval.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1248, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1248, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Kokubun).

SCRep. 1192 Transportation and International Affairs on H.B. No. 931

The purpose of this measure is to exempt three-wheeled mopeds designed to carry a driver and a passenger seated side by side from the operator and passenger restrictions placed on two-wheeled mopeds.

Testimony in support of this measure was received from Adventure Rentals, LLC and Shamrock Importers, LLC. Testimony in opposition was received from the Department of Transportation (DOT). Comments were received from the Honolulu Department of Customer Services.

The intent of this measure is to allow three-wheeled mopeds that are designed to carry a passenger on highways, streets, and roadways in the same way as two-wheeled mopeds. Under existing law, two or three-wheeled mopeds are allowed to be driven on highways, streets, and roadways, and on bikeways when bicycle lanes and paths are provided. Testimony indicated that three-wheeled mopeds that are designed to carry a passenger are generally larger than two-wheeled mopeds and present safety issues that may not be covered under existing laws that regulate two-wheeled mopeds.

Your Committee has amended this measure by inserting language that was mutually agreed upon by moped businesses and the DOT as follows:

- (1) To require liability and property damage insurance on three-wheeled mopeds; and
- (2) To restrict three-wheeled mopeds to roadways with speed limits of 35 mph or less.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 931, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 931, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hooser, Taniguchi, Gabbard).

SCRep. 1193 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1104

The purpose of this measure is to protect and preserve the Kohala Historical Sites State Monument in Kohala for future generations to experience and enjoy by requiring the Department of Land and Natural Resources to consult with the Kahuna Nui of the Mo'okini Heiau prior to engaging in any improvements or alterations to the monument.

Specifically, this measure amends section 6E-38.5, Hawaii Revised Statutes, to codify language in the land deed that directs the State to consult with the Kahuna Nui of the Mo'okini Heiau on all matters that pertain to the three historic sites within the Mo'okini Complex area.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources, the Office of Hawaiian Affairs, Kamehameha Schools, and the Mookini Luakini, Inc.

The lands of the Mo'okini Complex are approximately 2,915 acres and were donated to the State by the Kohala Corporation in 1978. Included in the deed is a provision that states, prior to making any alterations or improvements within the Mo'okini Complex lands, the State "shall consult with the Kahuna Nui of the Mo'okini Heiau. . ." Furthermore, the Kahuna Nui of the Mo'okini Heiau indicated to your Committee that there have been attempts to make the Mo'okini Complex area a paid tourist destination, and the Kahuna Nui is concerned that routine tour groups will desecrate the unspoiled and culturally sacred lands of the Heiau and its surrounding areas.

Thus, your Committee finds that codifying the language in the land deed that directs the State to consult with the Kahuna Nui of the Mo'okini Heiau on all matters pertaining to the Mo'okini Complex area will fulfill the intent of this measure, which is to protect and preserve the Mo'okini Complex in Kohala for future generations to experience and enjoy.

Your Committee has amended this measure by inserting the proper diacritical marks for Mo'okini.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1104, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1104, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1194 Judiciary and Labor on H.B. No. 1204

The purpose of this measure is to eliminate the requirement that arrest citations contain an offender's full social security number and to authorize the verification of arrest citations and traffic crime complaints by declaration in accordance with the court rules.

Your Committee heard testimony from the Judiciary in support of the bill. There was no opposition to the bill.

Your Committee finds that court records are public records and the citation is a part of the court record. Requiring a full social security number in a public record facilitates identity theft. The elimination of the full social security number would eliminate the misuse of such information.

Your Committee further finds that allowing the use of declarations in lieu of affidavits for arrest citations and traffic crime complaints is consistent with current rules of court, and would not harm the offender's right to challenge the veracity of the officer. In addition, the use of declarations would allow for more timely processing of citations and complaints, and would save space on citation forms.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1204, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Kokubun).

SCRep. 1195 Judiciary and Labor on H.B. No. 1081

The purpose of this measure is to strengthen the enforcement of the prevailing wage law by allowing a joint labor-management committee established pursuant to section 175a of the federal Labor Management Cooperation Act of 1978 (29 U.S.C. 175a), to initiate a civil action against employers who fail to pay the prevailing wage to its employees.

Your Committee received testimony in support of this measure from the Hawaii Carpenters Union and testimony in opposition from the Department of Labor and Industrial Relations ("DLIR"). The Hawaii Carpenters Union testified that the joint labor-management committee would provide a voice for workers who have suffered unfair wages but are unwilling to pursue any civil action on their own due to fear and lack of resources. The DLIR testified that the measure would provide unequal opportunities to both union and non-union parties and open the door for national labor-management committees to bring actions against all contractors in Hawaii.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1081, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Kokubun).

SCRep. 1196 (Joint) Intergovernmental and Military Affairs and Transportation and International Affairs on H.B. No. 1138

The purpose of this measure is to clarify that the responsibility of the County Fire Chief or designees does not extend to the inspection of state-owned airports.

Your Committees received testimony in support of this measure from the Department of Transportation and the Department of Labor and Industrial Relations.

Your Committees find that it is important to clarify the fire inspection responsibilities of the State and the various counties as they relate to state-owned airport facilities. As such, it is the intent of your Committees to require the State to uphold the responsibilities for fire and safety inspections at all state-owned airport facilities, thus eliminating the duplication of services and allowing the county fire departments to focus on county fire safety issues.

As affirmed by the records of votes of the members of your Committees on Intergovernmental and Military Affairs and Transportation and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1138, and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 2 (Hooser, Taniguchi).

SCRep. 1197 (Joint) Transportation and International Affairs and Intergovernmental and Military Affairs on H.B. No. 657

The purpose of this measure is to allow the State to waive the requirement for public auction of abandoned vehicles.

Waiver would be allowed if the vehicle is missing major components or is so materially damaged so as to render the vehicle inoperable, and if the registration period has expired.

Your Committees received testimony from the Department of Customer Services of the City and County of Honolulu and Windward Ahupua'a Alliance.

Your Committees find that waiving the public auction requirements under certain conditions will result in a more expeditious removal of abandoned vehicles from storage facilities and that this measure continues to preserve a motor vehicle owners rights by continuing to require public notice of the vehicle's disposal. Due to the number of abandoned vehicles removed from our islands' roads each day and the lengthy notice and public auction requirements currently established for the disposal of these vehicles, tow companies are experiencing shortages of valuable storage space.

According to testimony of the Licensing Administrator of the Department of Customer Services of the City and County of Honolulu, based upon experience, such vehicles are never sold at public auction due to the condition of these vehicles.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 657, H.D. 1, and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 2 (Hooser, Taniguchi).

SCRep. 1198 (Joint/Majority) Energy and Environment, Economic Development and Taxation and Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 646

The purpose of this measure is to promote clean energy technology.

Specifically, this measure makes an appropriation in the 2007-2008 fiscal year for a conference and festival on clean energy. The conference and festival is being planned and carried out by the Blue Planet Festival and Conference (Blue Planet), a public-private partnership that promotes sustainability and clean energy through education, technology, and musical entertainment. The appropriation is to be expended by the Department of Business, Economic Development, and Tourism.

Testimony in support of this measure was submitted by the Hawai'i Tourism Authority; two members of Blue Planet Festival and Conference; Hawaii Energy Policy Forum and its Energy Efficiency Working Group; Hawaii 5-0 Technology Services, Inc.; two members of Juniroa Productions Inc.; McCorriston Miller Mukai MacKinnon LLP; Windward Ahupua'a Alliance; and three individuals. The Department of Business, Economic Development, and Tourism submitted testimony in support of the intent of this measure.

Your Committees note that the Blue Planet Festival and Conference is to be a four day event, consisting of two days of educational lectures and workshops on clean energy and a two-day music festival. The conference and festival will be carried out using clean energy sources exclusively. The event is scheduled to take place in October, a month in which there is typically a decline in tourism numbers. Blue Planet anticipates bringing in approximately 15,000 attendees from outside of Hawaii, split equally between Japan and the mainland.

Your Committees understand the role of the Department of Business, Economic Development, and Tourism in this event to be one of oversight and support; expending the State-appropriated funds, and helping to facilitate cooperation with the event.

Your Committees note with some concern that Blue Planet is a new organization, having been organized in 2006, and its 501(c)(3) application is pending. However, the conference planners have a great deal of experience and expertise in organizing events with world-renowned artists. The music festival will bring world-class entertainers together with local musicians, the list of whom should be available in the next few months.

Your Committees find that this measure pertains to an important event meriting further discussion. Your Committees have requested from Blue Planet a detailed proposed budget, including salaries and other administrative costs, for review by the Committee on Ways and Means. Your Committees note that the event has already received \$50,000 under the Hawaii Tourism Authority's budget for marketing the event out-of-state. Given the benefits to tourism, good will in promoting clean energy technology, and the fact that Blue Planet plans to make this conference and festival a self-sufficient annual event, your Committees suggest that the Committee on Ways and Means consider an appropriation in the amount of \$500,000, to assist with the first of what is estimated to be a \$10,000,000 event.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Economic Development and Taxation and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 646, H.D. 2, and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Ayes with Reservations, 1 (Tokuda). Noes, 3 (Hee, Slom, Trimble). Excused, 1 (Ihara).

SCRep. 1199 Health on Gov. Msg. Nos. 366, 367, 368, 369, 370, 371 and 372

Recommending that the Senate advise and consent to the nominations of the following:

STATE COUNCIL ON MENTAL HEALTH

- G.M. No. 366 BELINDA A. ANDERSON, for a term to expire 6-30-2008;
- G.M. No. 367 PETER DEAN GONZALEZ, for a term to expire 6-30-2011;
- G.M. No. 368 DONNA DARLENE HANSEN, for a term to expire 6-30-2008;
- G.M. No. 369 RICHARD CHARLES JACKSON, for a term to expire 6-30-2010;
- G.M. No. 370 SANDRA JANE MIYOSHI, for a term to expire 6-30-2011;
- G.M. No. 371 JOY E. PATTERSON, for a term to expire 6-30-2011; and
- G.M. No. 372 G. NOELANI WILCOX, for a term to expire 6-30-2008

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the government functions related to mental health. Your Committee further finds that the nominees have been appointed based upon their credentials, integrity, and a desire to make Hawai'i better through their participation on the State Council on Mental Health to which they have been nominated.

Your Committee received testimony supporting the nomination of Belinda A. Anderson from the Department of Health. Ms. Anderson is employed with Ho'omau Ke Ola Drug Treatment Program in Waianae and is the mother of a child with a serious emotional and behavioral disorder. Her participation and insight will be a valuable asset to the State Council on Mental Health.

Your Committee received testimony supporting the nomination of Peter Dean Gonzalez from the Department of Health, Molokai Mental Health Services, a Maui County Council Member, Molokai Drop-In Center, and two individuals. Mr. Gonzalez is the current Vice President for the Maurice Thompson Drop-In Center and is living with a mental illness. Mr. Gonzalez's first hand knowledge of the issues mental health patients face on a daily basis and his advocacy on behalf of individuals with mental illness will significantly benefit the Council.

Your Committee received testimony supporting the nomination of Donna Darlene Hansen from the Department of Health and four individuals. Ms. Hansen is the mother of a son who has severe persistent mental illness. She is Vice-President of the Maui Service Area Board on Mental Health and Substance Abuse and a staunch advocate for individuals with mental illness. Ms. Hansen's knowledge, skills, and life experiences will enable her to be a valuable asset to the Council.

Your Committee received testimony supporting the nomination of Richard Charles Jackson from the Department of Health; the National Oceanic and Atmospheric Administration; CrimeStoppers Honolulu, Inc.; New Life Community Church; and the National Alliance on Mental Illness. Mr. Jackson graduated from Central Michigan University with a Bachelor of Arts degree in Journalism. He was awarded a bronze medal by the U.S. Department of Commerce for his diversity work and was honored in 2004 by the Oahu Area Service Board on Mental Health and Substance Abuse for writing a policy on diversity for the Board. Mr. Jackson is also a published author. His inspirational book, "Seasons of Hope", donates twenty-five per cent of its profits to the Hawaii Chapter of the National Alliance for the Mentally Ill. Mr. Jackson is the model of success for individuals living with a mental illness. His knowledge and insight will enable him to serve as an invaluable asset to the Council.

Your Committee received testimony supporting the nomination of Sandra Jane Miyoshi from the Department of Education and the Department of Health. Ms. Miyoshi is the Branch Administrator of homeless programs for the Hawaii Public Housing Authority. In this capacity, she also works closely with the Adult Mental Health Division to address the issues and needs of individuals with serious mental illness who are homeless.

Ms. Miyoshi's knowledge and experience will enable her to be a valuable asset to the Council. In addition, her service on the Council will fulfill the Federal Community Mental Health Block Grant mandate (P.L. 102-321) for the State Council on Mental Health composition and representation from the State Housing Authority.

Your Committee received testimony supporting the nomination of Joy E. Patterson from the Department of Health, the Vocational Rehabilitation and Services for the Blind, and four individuals. Ms. Patterson has been a Staff Specialist for Employment at the Department of Human Services, Vocational Rehabilitation and Services for the Blind Division since 1999. She has dedicated her life's work to public service and is aware of the issues facing individuals with multiple health challenges when functioning in the community setting. Ms. Patterson's service on the Council will be an invaluable asset. In addition, as a representative of the Vocational Rehabilitation and Services for the Blind Division, her service will fulfill the Federal Community Mental Health Block Grant mandate (P.L. 102-321) for the State Council on Mental Health composition and representation from the State Vocational Rehabilitation Agency.

Your Committee received testimony supporting the nomination of G. Noelani Wilcox from the Department of Health, the Adult Mental Health Division of the Department of Health, and four individuals. Ms. Wilcox received a Bachelor of Science degree in Nursing from the University of Hawaii, a certificate for Women's Health Care Nurse Practitioner from the University of California Harbor Medical Center, and a Master of Science in Nursing and Community Health from the University of Hawaii. She has twenty-five years of dedicated service and outstanding work experience in mental health and nursing in Hawaii. In addition, Ms. Wilcox is the mother of a child with mental illness. Her service on the Council will be an invaluable asset and will help to further the success and goals of the State Council on Mental Health.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 1200 Health on Gov. Msg. Nos. 326, 327 and 328

Recommending that the Senate advise and consent to the nominations of the following:

DISABILITY AND COMMUNICATION ACCESS BOARD

G.M. No. 326 RONALD KATSUMI AWA, for a term to expire 6-30-2011;

G.M. No. 327 PATRICIA MARILYN NIELSEN, for a term to expire 6-30-2011; and

G.M. No. 328 MARK T. OBATAKE, for a term to expire 6-30-2011

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Ronald Katsumi Awa, Patricia Marilyn Nielsen, and Mark T. Obatake, to have the necessary qualifications to be nominated to the Disability and Communication Access Board.

Your Committee received testimony in support of Ronald Katsumi Awa from the Executive Director of the Disability and Communication Access Board, Pacific Architects, Inc., and three individuals.

Mr. Awa holds a Bachelor's Degree in Fine Arts from the University of Hawaii and has been a Registered Professional Architect since 1977. He has thirty-five years experience in the field of architecture and spent the last twenty years in private practice. Mr. Awa was a member of the Architectural Access Committee for many years until its dissolution and merger into the current Disability and Communication Access Board. His significant architectural experience and his knowledge of the design requirements for facility accessibility as mandated by the Americans with Disabilities Act Accessibility Guidelines, make him a valuable asset to the Disability and Communication Access Board.

Your Committee received testimony in support of Patricia Marilyn Nielsen from the Executive Director of the Disability and Communication Access Board.

Your Committee notes that Ms. Nielsen is being nominated for reappointment to the Disability and Communication Access Board and that her initial appointment was in 2000 and, pursuant to section 26-34, Hawaii Revised Statutes, she will have served the combined maximum terms of service of eight consecutive years on the Board as of 2008. As such, it is not the intent of your Committee in recommending advise and consent on this nomination that the nominee serve for more than eight consecutive years in the capacity to which nominated. Ms. Nielsen is the Vice President of Oahu Transit Services, Paratransit Services and is responsible for paratransit services for the 13,000 eligible citizens with disabilities located on the island of Oahu. Ms. Nielsen is also disabled and has used a wheelchair for over forty-three years. She brings a heightened understanding of the issues affecting both consumers and service providers and is able to find sound fiscal and administrative solutions for program administration while remaining a strong advocate for persons with disabilities.

Your Committee received testimony in support of Mark T. Obatake from the Executive Director of the Disability and Communication Access Board and from one individual.

Mr. Obatake holds a Master's Degree in Social Work from the University of Hawaii and is also a wheelchair user. He has twenty-one years of professional experience working in the disability field and served as the former Executive Director for Hawaii Centers for Independent Living Statewide. Mr. Obatake's personal perspective on the issues affecting individuals with disabilities and his considerable professional experience provide him with keen insights regarding the development of policies relating to persons with disabilities in the State.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 1201 Public Safety on Gov. Msg. No. 440

Recommending that the Senate advise and consent to the nomination of the following:

HAWAII PAROLING AUTHORITY

G.M. No. 440 ROY W. REEBER, Ph.D., for a term to expire 6-30-2011

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Dr. Roy W. Reeber to have the necessary qualifications to be nominated to the Hawaii Paroling Authority.

Your Committee received testimony in support of Dr. Roy Reeber's nomination from the Department of Public Safety, two members and one administrator of the Hawaii Paroling Authority, and six individuals.

Dr. Reeber is currently serving his first term with the Authority, having been appointed on August 22, 2005. Dr. Reeber has a Doctorate in International Business Administration from Kennedy Western University, a Juris Doctorate from Southland University, a Masters of Science in Systems Management from the University of Southern California, a Master of Public Administration from the University Oklahoma, a Master of Business Administration from Pepperdine University, and a Bachelor of Science in Aerospace Engineering from the U.S. Naval Academy.

Dr. Reeber is a full-time faculty member at Hawaii Pacific University and an international business consultant. He has held several positions with GTE Hawaiian Telephone Company, including International/Federal Marketing Administrator, International Administrator, and various management positions.

Based on Dr. Reeber's qualifications, your Committee believes that Dr. Reeber will continue to be an asset for the Hawaii Paroling Authority.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Sakamoto).

SCRep. 1202 Public Safety on Gov. Msg. No. 488

Recommending that the Senate advise and consent to the nomination of the following:

WIRELESS ENHANCED 911 BOARD

G.M. No. 488 GORDON J. BRUCE, for a term to expire 6-30-2011

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Gordon J. Bruce to have the necessary qualifications to be nominated to the Wireless Enhanced 911 Board.

Your Committee received testimony in support of Mr. Bruce's nomination from the Department of Accounting and General Services; the Mayor of the City and County of Honolulu; the Department of Information Technology of the City and County of Honolulu; the Department of Planning and Permitting of the City and County of Honolulu; CGI Technologies and Solutions Inc.; Outrigger Enterprises, Inc.; Anatec Hawaii; Skywave Broadband; Hawaii Pacific Health; Hawaiian Telcom; T-Mobile USA, Inc.; and one individual.

Mr. Bruce is currently serving his first term on the Wireless Enhanced 911 Board, having been appointed on April 21, 2005. He has served as co-chair of the board. He has over thirty years of experience in the technology and telecommunications industry, including direct experience with Enhanced 911 deployment. Mr. Bruce has been a resident of Hawaii since 1979 and has extensive knowledge of the State's procurement process.

Mr. Bruce is the current Director/Chief Information Officer for the Department of Information Technology of the City and County of Honolulu. In this position, he is responsible for over one hundred technology systems, including payroll, public safety, human resources, voting, and motor vehicles. He is also a managing member and owner of GJB & Associates, LLC, which does strategic planning and consulting for a variety of local businesses.

Mr. Bruce's prior work experience includes serving as the Director of Administration and Information Services for The Estate of James Campbell, Director of Information Services and Manager/Senior Systems Programmer for The Queen's Medical Center, Computer Software Systems Specialist for Bank of Hawaii, and as a programmer and analyst for Corporation City of Toronto.

Mr. Bruce holds a Master of Business Administration with Honors from Hawaii Pacific University and completed the Small Business Management Program at the University of Hawaii; and the Computer Science Program at Ryerson Polytechnical Institute in Toronto, Canada. He is a Licensed Realtor Associate and a Certified Scuba Instructor.

His current community service experience includes serving on the board of directors of Seagull Schools, Inc.; a lecturer and instructor at the University of Hawaii at Manoa, Hawaii Pacific University, and the Japan American Institute of Management Science; a Co-founder of ThinkTech Hawaii; Co-chairperson of the Information Technology Council of the Hawaii Technology Trade Association; and a member of the Hawaii Technology Trade Association, the Fundraising Committee of St. Frances Medical Center, the Honolulu Board of Realtors, and the Fundraising Committee of the Domestic Violence Clearinghouse.

Mr. Bruce is a past-chair of the Alu Like Hawaii Computer Training Center and the Man With a Mission Foundation. He is a past-president of the Waimano Home Auxiliary/Kokua Mau Work Center; PCI Users Group and TIDMA Users Group of Dallas, Texas; and Travenol Users Interface of Chicago, Illinois. He is a former director of the Dolphin Institute and former member of Catholic Charities Services for the Elderly, both in Honolulu.

Your Committee believes Mr. Bruce's continued presence on the Wireless Enhanced 911 Board will prove beneficial for the State and its citizens.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Sakamoto).

SCRep. 1203 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. No. 272

Recommending that the Senate advise and consent to the nomination of the following:

CHAIRPERSON OF THE HAWAIIAN HOMES COMMISSION

G.M. No. 272 MICAH A. KANE, for a term to expire 12-31-2010

Your Committee reviewed the personal statement and resume submitted by the nominee, and finds Micah A. Kane to have the necessary qualifications to be nominated as the Chairperson of the Hawaiian Homes Commission.

Your Committee received testimony in support of the nomination of Micah A. Kane from the Attorney General; the Adjutant General and Director of Civil Defense; the Department of Hawaiian Home Lands; the University of Hawaii – West O'ahu; the Office of Hawaiian Affairs; a Council Member, City and County of Honolulu; Castle and Cooke Hawaii; the Pacific Indigenous Resource Management Institute; the Hawaii Forest Industry Association; the Native Hawaiian Chamber of Commerce; the Association of Hawaiian Civic Clubs; the Wai'anae Hawaiian Civic Club; the Queen Deborah Kapule Hawaiian Civic Club; the Princess Ka'iulani Hawaiian Civic Club; the Prince Kuhio Hawaiian Civic Club; the Pearl Harbor Hawaiian Civic Club; the Nanaikapono Hawaiian Civic Club; the Kuini Pi'olani Hawaiian Civic Club; the Kailua Hawaiian Civic Club; the Ho'olehua Hawaiian Civic Club; the Hawaiian Civic Club of Honolulu; the Hawaiian Civic Club of Hilo; the Ali'i Pauahi Hawaiian Civic Club; the Kapolei Hawaiian Civic Club (Ahahui Siwila Hawaii O Kapolei); God's Country Waimanalo; the State Council of Hawaiian Homestead Associations; the Waianae Kai Homestead Association; the Wai'anae Valley Homestead Community Association; the Waimanalo Hawaiian Homes Association; the Papakolea Community Association; the Kanihale Community Association of the Villages of Lai'opua; the Waiohuli Hawaiian Homesteaders Association, Inc.; the Waimea Hawaiian Homesteaders' Association, Inc.; the Nanakuli Hawaiian Homestead Community Association; the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; the United Public Workers, AFSCME Local 646, AFL-CIO; the Hawaii Carpenters Union; the Local Laborers' Union Local 368; the International Union of Painters and Allied Trades, District Council 50; the United Association of Plumbers and Fitters, Local 675; the Hawaii Operating Engineers Industry Stabilization Fund; the General Contractors Association of Hawaii; the Building Industry Association of Hawaii; the Hawaii Building and Construction Trades Council, AFL-CIO; and twenty-one individuals.

The Molokai Homestead Farmers Alliance, the Hoolehua Homesteaders Association, and the Hoolehua Homestead Agriculture Association submitted concerns regarding the nomination of Micah A. Kane. One individual submitted comments to your Committee.

Micah A. Kane was appointed as the Chairperson of the Hawaiian Homes Commission and Director of the Department of Hawaiian Home Lands in 2003. Previously, Mr. Kane was the Chairperson and Executive Director of the Hawaii Republican Party from 1999 to 2002 where he managed and carried out goals and objectives set forth by the Chairperson and the Executive Committee of the Party. As the Government Affairs Liaison for the Building Industry Association of Hawaii, from 1994 to 1999, he managed all government affairs activities at the federal, state, and county levels that pertained to the Hawaii construction industry. His service at the Building Industry Association of Hawaii provided Mr. Kane with a foundation to better understand the construction and development industry and establish key contacts in both the private construction labor community and development community, which would be valuable assets for the Hawaiian Homes Commission later on.

Mr. Kane is a graduate of Kamehameha Schools, received his Bachelor of Business Administration, Cum Laude, from Menlo College, and received his Master of Business Administration from the University of Hawaii at Manoa. He has extensive community involvement, including serving as a member on the Governor's Affordable Housing Task Force; on the Board of Directors of Education 1st Hawaii, Inc.; on the Kamehameha Schools Board of Advisors; and on the Board of Directors of the Konishiki Kids Foundation. Mr. Kane also has received numerous awards, such as the United Way – Spirit of Community Award, the Building Industry Association's Housing Advocate of the Year, a Football Induction into Menlo College Hall of Fame, and the Hawaii Institute for Public Affairs' Ho'oulu Leadership Award for Government.

Overwhelming testimony indicates that Mr. Kane has a passionate desire to serve the Native Hawaiian community and move the Hawaiian Home Lands Program forward. He is open to new ideas and because the concept of ohana is important to him, he has improved efforts to consult with the beneficiaries regarding regional plans and actions occurring on or affecting homestead lands. He has a genuine concern for the employees of the Department of Hawaiian Home Lands, has the courage to make tough decisions or support an unpopular position that he believes is right for the homestead community, and exudes self-confidence.

Your Committee finds that under Mr. Kane's leadership, the Department of Hawaiian Home Lands has been able to award a record number of leases to Native Hawaiians who are eligible to be beneficiaries of the Hawaiian Home Lands Trust. This achievement is remarkable in light of his short tenure. Under his leadership, the Department has awarded nearly six thousand leases as compared to seven thousand two hundred leases over the entire history of the Department. The acceleration of lease awards, development of new programs, and community outreach by the Department has repositioned the Hawaiian Home Lands Trust to be one of the largest residential developers in the State.

Your Committee further finds that Mr. Kane has developed new strategies that address the need for more affordable housing for the Native Hawaiian community. The Department has established a new program called the Home Ownership Assistance Program (HOAP) for the purpose of empowering beneficiaries to qualify and purchase or construct homes on homestead land. HOAP has already placed nearly one hundred families into homes and has successfully prepared nearly four hundred additional families who currently are waiting for their homes to be built. Future plans for the HOAP include employment training and opportunities and social services support.

Your Committee further finds that Mr. Kane is dedicated to accomplishing further goals for the Department and the Hawaiian homestead communities by settling more individual claims and lawsuits, which will allow the Department to mesh past issues with current successes. He wishes to address budgetary concerns, especially with respect to infrastructure development, further regional development plans and encourage further beneficiary consultation and inter-regional communication, and institutionalizing the HOAP to keep families on the land and in their homes.

Your Committee noted concerns indicated in submitted testimony regarding the management of the Molokai Irrigation System and protecting the water rights of the homestead residents that the irrigation system serves. Mr. Kane indicated a willingness to address this issue and develop solutions to improve the water system in cooperation with the appropriate agencies and with the advice from the affected beneficiaries. The Department of Hawaiian Home Lands is currently studying the system and he expects that the Department will be able to present a set of solutions for consideration in the near future.

To this end, your Committee further finds that Mr. Kane's evidenced commitment to the ideals and values of integrity, duty, respect, loyalty, and public service combined with his rich experience and heightened understanding of the multi-faceted components of the Native Hawaiian community make him the best nominee to fulfill the duties and responsibilities of Chairperson of the Hawaiian Homes Commission.

As affirmed by the records of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hee).

SCRep. 1204 Education on H.B. No. 429

The purpose of this measure is to assist nonprofit private schools that serve the general public through the authorization of the issuance of special purpose revenue bonds to assist Sacred Hearts Academy in financing and refinancing the planning, acquisition, construction, and improvement of its facilities.

Testimony in support of this measure was submitted by Sacred Hearts Academy and the Hawaii Association of Independent Schools.

Your Committee finds that pursuant to part VII, chapter 39A, Hawaii Revised Statutes, special purpose revenue bonds may be issued to assist not-for-profit private nonsectarian and sectarian elementary schools, secondary schools, colleges, and universities that serve the general public. This measure will allow Sacred Hearts Academy to finance the construction of several structures that will provide adequate facilities for school programs and enhance the education provided to its students without relying entirely on the monetary contributions of the school's alumni, friends, and other supporters and support the educational needs of the State's children.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 429, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Chun Oakland, Hee, Taniguchi).

SCRep. 1205 Education on H.B. No. 504

The purpose of this measure is to assist nonprofit private schools that serve the general public through the authorization of the issuance of special purpose revenue bonds to assist Le Jardin Academy in financing and refinancing the planning, acquisition, construction, and improvement of its facilities.

Testimony in support of this measure was submitted by Le Jardin Academy and the Hawaii Association of Independent Schools.

Your Committee finds that pursuant to part VII, chapter 39A, Hawaii Revised Statutes, special purpose revenue bonds may be issued to assist not-for-profit private nonsectarian and sectarian elementary schools, secondary schools, colleges, and universities that serve the general public. This measure will allow Le Jardin Academy to finance the construction of several facilities that will enable the school to expand its programs and increase the number of its students without relying entirely on the monetary contributions of the school's alumni, friends, and other supporters and support the educational needs of the State's children.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 504, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Chun Oakland, Hee, Taniguchi).

SCRep. 1206 Education on H.B. No. 581

The purpose of this measure is to assist nonprofit private schools that serve the general public through the authorization of the issuance of special purpose revenue bonds to assist Hanalani Schools in financing and refinancing the planning, acquisition, construction, and improvement of its facilities.

Testimony in support of this measure was submitted by Hanalani Schools and the Hawaii Association of Independent Schools.

Your Committee finds that pursuant to part VII, chapter 39A, Hawaii Revised Statutes, special purpose revenue bonds may be issued to assist not-for-profit private nonsectarian and sectarian elementary schools, secondary schools, colleges, and universities that serve the general public. This measure will allow Hanalani Schools to finance the renovation and upgrading of current facilities, construct three new facilities, and consolidate current loans without relying entirely on the monetary contributions of the school's alumni, friends, and other supporters and support the educational needs of the State's children.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 581, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Chun Oakland, Hee, Taniguchi).

SCRep. 1207 Education on H.B. No. 1014

The purpose of this measure is to support the education and professional development of teachers in the public schools, through funding and improvements to programs under the Department of Education and the University of Hawaii.

Specifically, this measure:

- (1) Changes the Performance Standards Review Commission membership and reporting schedule;
- (2) Clarifies the intended purpose of the Hawaii Educator Loan Program and amends the program's loan forgiveness incentive provisions; and
- (3) Appropriates funds to the University of Hawaii for various programs and objectives, including the Office of School Redesign, teacher education and professional development, the Master of Education in Teaching degree program, additional staff for the Hawaii Educational Policy Center, and the Hawaii Educator Loan Program.

Testimony in support of this measure was submitted by the Department of Education, the University of Hawaii, the Office of School Redesign of the University of Hawaii, the State Council on Developmental Disabilities, the Center on Disability Studies, the Hawaii Disability Rights Center, Leeward Community College, the Hawaii Educational Policy Center, and seven individuals.

Your Committee finds that the needs of schools and administrators have changed over the years, particularly with the advent of the Reinventing Act of 2001, Act 51, Session Laws of Hawaii 2004, as amended, and other federal mandates. Your Committee further finds that increased responsibilities of school administrators, including financial responsibilities, particularly with regard to the weighted student formula approach, requires the need for increased funding to provide greater autonomy within complex areas that will allow for the more efficient use of resources to increase professional development, particularly in the areas of performing arts education, physical education, and virtual education.

Your Committee finds that in Hawaii a critical teacher shortage currently jeopardizes the education of the students in the public school system. Recruitment and retention of qualified teachers also poses a real problem for the public schools. The State must focus on growing and developing a qualified teaching workforce through not only the continued professional development of educators but also teacher mentoring programs.

Additionally, your Committee determines that provisions of this measure regarding current statewide performance standards, the Performance Standards Review Commission, and reporting schedules; appropriations for the Hawaii Educational Policy Center; and appropriations for the University of Hawaii programs supporting teacher development have been previously addressed in other measures by this Committee. Therefore, they should be deleted from this measure to further focus the attention on issues relating to the provision of assistance in the education and professional development of teachers.

Accordingly, your Committee has amended this measure by:

- (1) Changing the language of the purpose section to focus on the need to provide funding for and emphasize the importance of professional development, particularly in the areas of visual and performing arts education, physical education, and virtual education;
- (2) Removing the appropriation of funds for various programs to increase the capacity of the University of Hawaii, College of Education, to educate qualified teachers, meet federal requirements for institutional support of disability studies, and expand teacher professional development and mentoring;
- (3) Removing changes to the statewide Performance Standards Review Commission composition, the requirement for the development of assessments, and reporting requirements;
- (4) Removing the appropriation for the Hawaii Educational Policy Center;
- (5) Removing amendments to the Hawaii Educator Loan Program that clarified the program's intended purpose and loan forgiveness eligibility requirements;
- (6) Including appropriations for each complex area to establish the capacity to coordinate and expand complex-level resources for professional development, alignment of curriculum, and mentoring in schools; provided that funds appropriated in this section shall be allocated to each complex area based on the per pupil enrollments in each complex area; provided further that a portion of the funds allocated to individual schools by complex areas shall be for professional development and support of curriculum in visual and performing arts education, physical education, and virtual learning materials and programs;
- (7) Removing the appropriation for the Hawaii Teacher Cadet Program; and
- (8) Clarifying that the appropriation for the induction teacher mentoring is for new teachers and teachers who are new to Hawaii and that induction mentors shall be recognized as educators who have demonstrated exemplary performance, have the opportunity to be induction teachers, have their participation be flexible, and have full return rights to their previous teaching positions.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1014, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1014, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Chun Oakland, Hee, Taniguchi).

SCRep. 1208 (Majority) Energy and Environment on H.B. No. 226

The purpose of this measure is to improve the environmental quality of the State by reducing greenhouse gas emissions.

Specifically, this measure establishes a greenhouse gas emissions reduction program in which the Department of Health is required to establish greenhouse gas emission limits and emission reduction standards to achieve the maximum technologically feasible and cost-effective reductions, regularly report and verify statewide greenhouse gas emissions, and monitor and enforce compliance. This measure authorizes the adoption of market based compliance mechanisms and requires the adoption of a statewide greenhouse gas emissions limit equivalent to the statewide levels in 1990 to be achieved by 2020.

Testimony in support of this measure was submitted by Sierra Club, Hawai'i Chapter; Honolulu Seawater Air Conditioning, LLC; Respiratory and Environmental Disabilities Association of Hawaii; the Conservation Council for Hawai'i; US Biodiesel Group, LLC; and twelve individuals. Covanta Energy submitted testimony in support of the intent of this measure. Testimony in opposition to this measure was submitted by the Department of Health; Hawaii Automobile Dealers' Association; Alliance of Automobile Manufacturers; and one individual. The Department of Business, Economic Development, and Tourism; Hawaiian Electric Company, Inc.; Life of the Land; Western States Petroleum Association; Hawaii Audubon Society; Windward Ahupua'a Alliance; and three individuals submitted comments.

Your Committee finds that, given our precious and finite resources, it is essential that Hawaii continue its tradition of environmental leadership by moving forward in efforts to reduce emissions of greenhouse gases. In doing so, Hawaii will not only serve as an example, but will also position the State's economy, technology centers, financial institutions, and businesses to benefit from national and international efforts to reduce emissions of greenhouse gases.

Your Committee amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 226, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 226, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, 1 (Trimble). Excused, 2 (Ihara, Kokubun).

SCRep. 1209 Energy and Environment on H.B. No. 1787

The purpose of this measure is to promote the application for energy efficiency performance contracts by state agencies.

Specifically, this measure:

- (1) Replaces the definition of "energy-savings performance contract" with "energy performance contract";
- (2) Extends the maximum term of energy performance contracts from fifteen to twenty years;
- (3) Clarifies the procurement and exemption processes; and
- (4) Allows the Comptroller, rather than the senior agency officer, to approve any alterations of energy performance contracting with the Director of Finance.

Testimony in support of this measure was submitted by the Department of Accounting and General Services and the Department of Business, Economic Development, and Tourism. Testimony supporting the intent of the measure was submitted by the Hawaii Energy Policy Forum.

Your Committee finds that the extension of time of energy performance contracts from fifteen to twenty years and extending the exemption process in the procurement code to state energy projects are important to promoting energy efficiency within the State. Your Committee further finds that it is important to include commissioning and retro-commissioning in the definition of energy performance contracts for state facilities. Commissioning and retro-commissioning are techniques performed to measure, implement, and monitor energy conserving design strategies and equipment to ensure the energy performance of a building.

This measure was amended to include commissioning and retro-commissioning in the definition of "energy performance contract" for the purposes of chapter 196, part II, Hawaii Revised Statutes, "Energy Efficiency in State Facilities." The measure was further amended to clarify the energy performance contracting process. Technical, nonsubstantive changes were also made for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1787, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1787, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 1210 Energy and Environment on H.B. No. 1924

The purpose of this measure is to protect the State from the harmful effects of the coqui frog.

Specifically, this measure makes an appropriation to eradicate and control the spread of the coqui frog statewide and to support the Coqui Frog Working Group Incident Action Plan.

Testimony in support of this measure was submitted by the mayor of the County of Maui; the Council Chair and a member of the Maui County Council; Hawaii Agriculture Research Center; Maui Outdoor Circle; and the Sierra Club, Hawai'i Chapter and Maui Group. The Department of Agriculture, Department of Land and Natural Resources, and the Nature Conservancy of Hawaii submitted testimony supporting the intent of the measure.

Your Committee finds that the invasion and establishment of the coqui frog in Hawaii is of major concern to its native species, environment, and to the quiet enjoyment of its residents. Your Committee further finds that the problem needs to be addressed in each county.

This measure was amended to conform to Senate Bill No. 1627, S.D. 1, which was significantly similar, and to designate the amount to be appropriated to the County of Kauai. As a result, the following changes have been made to this measure:

- (1) Appropriations were made to each county in the 2007-2008 fiscal year for grants-in-aid to be expended by the respective county in the following manner:
 - (A) Hawaii county in the amount of \$2,000,000;
 - (B) Maui county in the amount of \$750,000;
 - (C) Kauai county in the amount of \$300,000; and
 - (D) The City and County of Honolulu in an unspecified amount;
- (2) The effective date was changed to July 1, 2007; and
- (3) Various technical, nonsubstantive changes were made for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1924, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1924, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 1211 Health on H.B. No. 10

The purpose of this measure is to:

- (1) Require drug manufacturers or labelers to enter into rebate agreements with the State in order to participate in the Rx Plus Program;

- (2) Establish that, with regard to rebate agreements effective July 1, 2007, the Director of Human Services shall strive to obtain a rebate amount equal to or greater than similar price reductions for prescription drugs provided to the federal government; and
- (3) Require the Department of Human Services to provide health care providers information about the relative cost of drugs produced by manufacturers participating in rebate agreements.

Your Committee received testimony in support of this measure from the Policy Advisory Board for Elder Affairs, ILWU Local 142, National Multiple Sclerosis Society, AARP Hawaii, Hawai'i Alliance for Retired Americans, Child and Family Service, and two individuals. Testimony in opposition was received from the Department of Human Services (DHS) and the Pharmaceutical Research and Manufacturers Association of America.

Your Committee finds that requiring, rather than allowing (as in present law), drug manufacturers or labelers to make rebate payments to the State will result in lower prices than currently offered through the Rx Plus Program. It is not unusual for people on fixed incomes to spend less on food, utilities, and other necessities to pay for health care needs, particularly prescription drugs. People have been known to skip doses of medicines or delay filing prescriptions, or to completely forfeit using medications because the cost is beyond their means.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 10, and recommends that it pass Second Reading and be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 1212 Health on H.B. No. 528

The purpose of this measure is to enable minors without support to obtain medical care.

Your Committee received testimony in support of this measure from The Queen's Medical Center; Kaiser Permanente; Hawaii Family Forum; Healthy Mothers, Healthy Babies Coalition of Hawai'i; Hawaii Medical Association; Hawai'i Primary Care Association; Hale Kipa; Waikiki Health Center; Partners In Care; Volunteer Legal Services Hawai'i; Hawaii Youth Services Network; Ho'ola Lahui Hawai'i; and three individuals.

Your Committee finds this measure will allow the approximately one thousand youth living on their own to obtain needed medical care for acute illness or injury. This group of minors is very vulnerable and many of them are homeless, running away from abusive situations or drug addicted parents. Under existing law, these youths are unable to obtain medical care because physicians and clinics require parental consent for the treatment of minors because of concerns about liability.

Your Committee notes that the measure provides clear definitions and a clear explanation of the scope and nature of medical care to which the minor can consent to and under what circumstances.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 528, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 1213 (Joint/Majority) Health and Commerce, Consumer Protection and Affordable Housing on H.B. No. 56

The purpose of this measure is to ensure that all residents of Hawaii have health insurance coverage through a single payer health insurance system.

Specifically, this measure establishes that the Hawaii Health Commission shall be responsible for the development of a comprehensive health plan for the State. The Commission is to determine future capacity needs of health care providers, facilities, equipment, and support service providers.

Your Committees received testimony in support of this measure from Healthcare Association of Hawaii, the Kokua Council, the Hawaii Government Employees Association, the Political Action Committee for Elections of the National Association of Social Workers, and three individuals. The ILWU Local 42 and the Mayor of the County of Hawaii submitted testimony in support of the intent of this measure. Testimony in opposition was received from the Department of Commerce and Consumer Affairs, the Department of Budget and Finance, Hawaii Medical Service Association, and the Hawaii Medical Association.

Your Committees find that an increasing number of residents in the State are uninsured. With the escalating costs of health care, long-term care, insurance premiums, and prescription drugs, a solution needs to be implemented soon so that the most vulnerable populations are assured of quality health care now and in the future.

Your Committees have amended this measure by deleting the provisions regarding waivers and adopting rules.

Your Committees have further amended this measure by making technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 56, H.D. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 56, H.D. 3, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Ayes with Reservations, 1 (Baker). Noes, 1 (Slom). Excused, 3 (Ihara, Menor, Whalen).

SCRep. 1214 (Joint/Majority) Health and Commerce, Consumer Protection and Affordable Housing on H.B. No. 223

The purpose of this measure is to ensure the provision of quality health care services and the sustainability of Hawaii's medical services system.

Specifically, this measure establishes the Health Care Reinvestment Fund and the Health Insurance Support Special Fund to subsidize the costs of health care services. Specific proportions of the Health Care Reinvestment Fund are directed to the Trauma System Special Fund, subsidies for medical malpractice insurance, aeromedical evacuation services, rural emergency facilities, and workforce development for medically underserved areas of the State.

Your Committees received testimony in support of this measure from Hawaii Medical Service Association, Hawaii Pacific Health, Healthcare Association of Hawaii, and The Chamber of Commerce of Hawaii. Your Committees received testimony in opposition to this measure from the Department of Health, Department of Budget and Finance, and Hawaii Medical Association.

Your Committees find that Hawaii's trauma system, statewide aeromedical evacuation programs, and rural hospitals are essential components of the statewide emergency medical services system and are vulnerable to deterioration due to the limited funding support currently available to sustain them.

Accordingly, your Committees have amended this measure by including an appropriation from the general revenues to the Health Care Reinvestment Special Fund.

Your Committees have further amended this measure by making technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 223, H.D. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 223, H.D. 3, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, 1 (Slom). Excused, 3 (Ihara, Menor, Whalen).

SCRep. 1215 (Joint) Health, Education and Commerce, Consumer Protection and Affordable Housing on H.B. No. 367

The purpose of this measure is to reduce the prevalence of alcohol and drug abuse.

Specifically, this measure requires physicians to offer patients whom they believe abuse drugs or alcohol, to alcohol and drug abuse screening and counseling. This measure also establishes a pilot program within the emergency department of a major medical facility in Honolulu for screening, brief intervention, and referral to substance abuse treatment.

Your Committees received testimony in support of this measure from Coalition for a Tobacco Free Hawaii, University of Hawaii John A. Burns School of Medicine, Mothers Against Drunk Driving-Hawaii, Kahi Mohala, and one individual. The Office of the Lieutenant Governor and the Department of Health submitted testimony in support of this measure with comments. Your Committees received testimony in opposition to this measure from the Hawaii Medical Association. The Board of Medical Examiners submitted comments.

Your Committees find that screening, briefing, intervention, referral, and treatment of individuals who come into an emergency medical facility as a result of an alcohol or drug related incident, has been shown to significantly reduce alcohol and drug abuse recidivism and the destructive results it may cause.

Your Committees further find that supporting a pilot program will facilitate the reduction of further costs to the community, criminal behavior, and health care costs.

Accordingly, your Committees amended this measure by:

- (1) Removing the requirement of physicians to refer patients to screening and counseling services;
- (2) Clarifying that the pilot program shall be for two years, and at any other facility deemed proper by the administering agency;
- (3) Requiring the University of Hawaii John A. Burns School of Medicine to submit a report to the Legislature with its findings, recommendations, and any proposed legislation regarding the success and continuation of the pilot program;
- (4) Changing the effective date from July 1, 2020, to July 1, 2007; and
- (5) Making technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Education and Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 367, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 367, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 7 (Espero, Hee, Ihara, Menor, Nishihara, Gabbard, Whalen).

SCRep. 1216 (Joint) Health and Human Services and Public Housing on H.B. No. 1471

The purpose of this measure is to ensure the availability of quality health care services for individuals who are uninsured, underinsured, or Medicaid recipients.

Specifically, this measure:

- (1) Establishes procedures within the Department of Human Services for the reconciliation of payments to federally qualified health centers and rural health centers in the State;
- (2) Allows for adjustment of prospective payment system rates for any adjustment in scope of services furnished by federally qualified health centers or rural health centers;
- (3) Makes eligible for prospective payment system reimbursement certain services, including visits, provided by federally qualified health centers or rural health centers; and

- (4) Requires the Department of Health to provide certain resources to nonprofit, community-based healthcare providers for direct medical care for the uninsured, and appropriates funds for this purpose.

Your Committees received testimony in support of this measure from the Hawaii Primary Care Association, the Healthcare Association of Hawaii, Waikiki Health Center, West Hawaii Community Health Center, Inc., Molokai Community Health Center, Hamakua Health Center, Ho'ola Lahui Hawaii, Kalihi-Palama Health Center, Community Clinic of Maui, Waianae Coast Comprehensive Health Center, Kokua Kalihi Valley, and two individuals. The Department of Health and the Department of Human Services submitted comments on this measure.

Your Committees find that federally qualified health centers are the best system of community-based primary care for people who are uninsured, underinsured, or Medicaid recipients.

Your Committees amended this measure by:

- (1) Requiring that the implementation of the new sections added to chapter 346, Hawaii Revised Statutes, by this measure be subject to approval of the state plan by the Centers for Medicare and Medicaid Services;
- (2) Clarifying that the reconciliation pertains to managed care supplemental payments;
- (3) Changing the Department of Human Services review and rejection time line from ninety days to one hundred twenty days;
- (4) Requiring the Department of Human Services to repay the federal share of any overpayment within sixty days of the date of discovery of an overpayment;
- (5) Clarifying that an alternative supplemental managed care payment methodology that will make any federally qualified health center or rural health center whole as required under the Benefits Improvement and Protection Act, other than the one set forth in this section, may be implemented as long as the alternative payment methodology is consented to in writing by the federally qualified health center or rural health center to which the methodology applies;
- (6) Clarifying in section 346-C(3), Hawaii Revised Statutes, that prospective payment system rates may be adjusted for any projected adjusted rate that is proposed subject to mutual agreement by the Department of Human Services. The federally qualified health center or rural health center shall propose a projected adjusted rate, subject to mutual agreement with the Department of Human Services, within one hundred fifty days of the changes. The proposed projected adjusted rate shall be calculated based on a consolidated basis, where the federally qualified health center or rural health center takes all costs for the facility which would bring in both the costs included in the base rate as well as the changes in additional costs, as long as the federally qualified health center or rural health center has filed its baseline cost report based on total consolidated costs. A net change in the federally qualified health center's or rural health center's rate is calculated by subtracting the federally qualified health center's or rural health center's previously assigned prospective payment system rate from its projected adjusted rate. The Department of Human Services may disallow an unspecified percentage of the net change to account for a combination that includes both increases and decreases during the reporting period;
- (7) Requiring a cost report to cover the first full fiscal year, instead of the first two full fiscal years, that includes the change in scope of services;
- (8) Deleting the definition "health professional" and instead establishes the parameters of eligibility by defining "visit";
- (9) Allowing a federally qualified health center or rural health center that experienced a decrease in the scope of services submit a prospective payment system rate adjustment request to decrease its prospective payment system rate;
- (10) Including an appropriation in the amount of \$1,061,250 for each year of the 2007-2009 fiscal biennium for the Department of Human Services to implement the new prospective payment system;
- (11) Including an appropriation in the amount of \$2,000,000 for each year of the 2007-2009 fiscal biennium to the Department of Health for direct medical care to the uninsured;
- (12) Changing the effective date from July 1, 2020, to July 1, 2007; and
- (13) Making technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1471, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1471, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, none. Excused, 1 (Menor).

SCRep. 1217 (Joint) Intergovernmental and Military Affairs and Commerce, Consumer Protection and Affordable Housing on H.B. No. 1095

The purpose of this measure is to enhance the authority of the counties to develop affordable housing by clarifying their ability to issue revenue bonds to assist in the development of low- and moderate-income housing by nonprofit organizations or public instrumentalities.

Your Committees received testimony in support of this measure from the Mayor of the County of Hawaii, Office of Housing and Community Development of the County of Hawaii, UniDev Hawai'i, LLC, and the Executive Director of Housing Hawaii.

Your Committees find that it is important to clarify the counties' powers with respect to low- and moderate-income housing projects. As such, it is the intent of your Committees to entrust authority to the counties to undertake loan programs, which include loans to private nonprofit organizations or public instrumentalities, which will serve as a valuable tool in providing affordable housing for low- and moderate-income households.

As affirmed by the records of votes of the members of your Committees on Intergovernmental and Military Affairs and Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1095, H.D. 1, and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 1 (Ige).

SCRep. 1218 Intergovernmental and Military Affairs on H.B. No. 195

The purpose of this measure is to ensure public safety by appropriating funds to support the operations of the Hawaii Civil Air Patrol in its performance of vital local and national services, including disaster relief, search and rescue, homeland security, and medical emergency transport.

Your Committee received testimony in support of this measure from the Director of the State Civil Defense, the Commander of the Hawaii Civil Air Patrol, the Operations Commander of the Hawaii Civil Air Patrol, the Commander of the 66th Composite Squadron of the Hawaii Civil Air Patrol, the Law Office of Earle A. Partington, and three individuals.

Your Committee finds that the Hawaii Civil Air Patrol provides necessary disaster relief, search and rescue, homeland security, and medical emergency transport services to local and national organizations and plays a vital role in emergency and disaster relief efforts.

Your Committee further finds that the Hawaii Civil Air Patrol depends on State funding to defray its operational expenses. As such, it is the intent of your Committee to appropriate funding to the Hawaii Civil Air Patrol in order to help defray its operational expenses so the Hawaii Civil Air Patrol can continue its operations in support of the Hawaii Civil Defense system.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 195, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Tsutsui).

SCRep. 1219 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Commerce, Consumer Protection and Affordable Housing on H.B. No. 1283

The purpose of this measure is to ensure the availability of affordable housing in the Kakaako area by:

- (1) Allowing the Hawaii Community Development Authority (HCDA) to repurchase residential or redevelopment property at any time by deleting the ten year restriction; and
- (2) Allowing the HCDA to sell the fee simple interest in reserved housing units within the Kakaako Community Development District.

Testimony in support of this measure was submitted by the HCDA.

Your Committees find that allowing the HCDA to repurchase property at any time will provide the HCDA an additional tool to develop long-term projects. Your Committees further find that exempting the HCDA from the prohibitions under section 206E-31.5, Hawaii Revised Statutes, with respect to the Kakaako Community Development District will allow the HCDA to continue to sell its reserved housing units and provide further opportunity to offer affordable housing units.

Your Committees have amended this measure by adding an effective date of July 1, 2020, to encourage further discussion on this matter.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1283, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1283, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 3 (Espero, Hee, Ige).

SCRep. 1220 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1525

The purpose of this measure is to support a strong and continued livestock industry in Hawaii by appropriating funds for a grant to the West Maui Soil and Water Conservation District to establish a working group to develop a statewide plan for a sustainable livestock industry in Hawaii.

Testimony in support of this measure was submitted by the West Maui Soil and Water Conservation District, the Hawaii Farm Bureau Federation, the Maui Farm Bureau, and the Hawaii Agriculture Research Center.

The West Maui Soil and Water Conservation District is interested in establishing a working group that will assist and provide methods and alternatives for livestock producers to use that will allow them to continue their operations in Hawaii. The working group will assist in bringing together livestock producers, educators, technical assistance personnel, and agricultural agencies to develop a statewide plan for a sustainable livestock industry in Hawaii. Your Committee finds that the West Maui Soil and Water Conservation District has a long track record of accomplishing tasks and it is appropriate that it should spearhead the statewide efforts of the working group.

Your Committee has amended this measure by:

- (1) Indicating that the purpose of the working group will be to develop a statewide plan for a sustainable livestock industry in Hawaii;
- (2) Emphasizing that the efforts of the working group will be a statewide effort with the West Maui Soil and Water Conservation District spearheading this effort; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1525, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1525, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hee).

SCRep. 1221 (Majority) Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 652

The purpose of this measure is to ensure the safety and maintenance of dams and reservoirs by establishing a Dam Safety Special Fund for monitoring and enforcing the safety of dams and reservoirs throughout the State.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources; the Office of Hawaiian Affairs; the American Society of Civil Engineers, Hawaii Section; and the Dole Food Company Hawai'i.

The Kaloko Reservoir Dam collapsed on March 14, 2006, on the island of Kauai, resulting in the loss of seven lives, massive flooding, and extensive property damage. This tragic incident led to and generated concerns about the safety of Hawaii's dams and reservoirs, and questions regarding liability and the cause of this massive disaster.

In light of the Kaloko Dam tragedy, a report was submitted to the Legislature, which addressed the problems of the lack of maintenance and the absence of an emergency overflow at the Kaloko Dam. The report offered proposed amendments to chapter 179D, Hawaii Revised Statutes.

Your Committee finds that adopting the proposed legislation from the report relating to the creation of a dam safety special fund will enable the State to increase the effectiveness of its dam safety program under chapter 179D, Hawaii Revised Statutes. Your Committee further finds that H.B. No. 1905, H.D. 3, adopts the proposed legislation the report offered to strengthen the monitoring and enforcement measures that provide dam and reservoir safety throughout the State. Your Committee believes that the contents of this measure and H.B. No. 1905, H.D. 3, should be combined into one comprehensive package of safety and monitoring measures to ensure the safety and maintenance of dams and reservoirs. In light of this belief, earlier this session, your Committee created such a combined measure which culminated in S.B. No. 1946, S.D. 1.

Accordingly, your Committee has amended this measure by replacing its language with language from S.B. No. 1946, S.D. 1, which offers essentially the same comprehensive package of safety and monitoring measures for dams and reservoirs by:

- (1) Amending chapter 179D, Hawaii Revised Statutes, to enhance, broaden, balance, and clarify the provisions under chapter 179D; and
- (2) Adding a new part to chapter 179D, Hawaii Revised Statutes, which establishes a dam and reservoir safety program, including a Dam Safety Special Fund to carry out the purposes of the program.

Your Committee has further amended this measure by:

- (1) Clarifying that during the application process for a certificate of approval to impound, the owner of a dam or reservoir completed prior to the effective date of this measure may continue to impound water, unless it is determined by the Board of Land and Natural Resources that the dam or reservoir poses a high hazard risk;
- (2) Changing the blank appropriation amounts to be deposited into the Dam Safety Special Fund and expended by the Department of Land and Natural Resources to \$2,000,000;
- (3) Changing the effective date of this measure from July 1, 2050, to effective upon approval; provided that the appropriations for the purposes of the Dam Safety Special Fund are effective on July 1, 2007; and
- (4) Making technical, nonsubstantive amendments for the purposes of consistency and style.

Your Committee believes that this measure, as amended, further ensures and emphasizes the safety and maintenance of dams and reservoirs, which fulfills the intent of this measure.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 652, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 652, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Slom). Excused, none.

SCRep. 1222 Commerce, Consumer Protection and Affordable Housing on H.B. No. 373

The purpose of this measure is to deter the theft of copper.

Specifically, this measure adds new requirements for the sale of copper and the purchase of copper by scrap dealers such as:

- (1) Requiring sellers of copper to present a receipt or notarized statement verifying certain information;
- (2) Prohibiting a scrap dealer from purchasing copper if the seller cannot meet the requirements set forth in paragraph (1);
- (3) Requiring the scrap dealer to take a photograph of the copper being offered for sale and a photograph of the seller;
- (4) Requiring the scrap dealer to make a photocopy of the seller's identification; and
- (5) Requiring that the scrap dealer keep certain information on record so that law enforcement may examine that information.

In addition, this measure also provides for increased penalties for violations of certain requirements.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, the Honolulu Police Department, and Hawaiian Electric Company and its subsidiaries. Reynolds Recycling; Okuda Metal, Inc.; and Schnitzer Steel Hawaii Corp. submitted testimony in opposition to this measure.

Your Committee finds that the price of copper has risen due to the high market demand for construction materials. The recent rise in copper thefts has had a great impact on the general public with the dismantling of street light fixtures, transformers, and rain gutters. Scrap metal dealers are the prime intermediary for copper thieves who sell the contraband to the dealers.

Your Committee notes that the Department of the Attorney General; the Department of the Prosecuting Attorney for the City and County of Honolulu; the Honolulu Police Department; Reynolds Recycling; Schnitzer Steel Hawaii Corp.; and Okuda Metal, Inc. worked together to come to a compromise on the scope of this measure.

Based upon their agreement, your Committee has amended this measure by:

- (1) Clarifying that the new requirements provided in this measure apply only to copper;
- (2) Giving the scrap dealer the option of either making a copy of the seller's valid photo identification or taking a photograph of the seller;

- (3) Requiring the revocation of the scrap dealer's license for three or more violations of sections 445-232 and 445-233, Hawaii Revised Statutes (HRS), or falsifying a statement required by section 445-233, HRS, that occur within five years of the first offense; and
- (4) Including a sunset date of two years after the effective date of the measure.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 373, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 373, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 1223 Commerce, Consumer Protection and Affordable Housing on H.B. No. 1306

The purpose of this measure is to authorize enhanced civil and administrative penalties for securities violations, when the violations are directed toward, target, or are committed against seniors who are sixty-two years of age and older.

This measure authorizes civil and administrative penalties of up to \$50,000 for each violation.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, the Policy Advisory Board for Elder Affairs, and AARP-Hawaii.

Your Committee finds that investment fraud against seniors is a growing concern in Hawaii, as demonstrated in a recent statewide survey conducted by AARP Hawaii. This measure is directly responsive to these concerns, as it allows for greater civil and administrative penalties for violations of the State's securities laws when the violations are directed towards, target, or are committed against seniors. This measure will allow the State to be proactive in deterring investment fraud against seniors.

Your Committee has amended this measure by adding a savings clause and changing the effective date from January 1, 2112, to July 1, 2007.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1306, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1306, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Ihara).

SCRep. 1224 Commerce, Consumer Protection and Affordable Housing on H.B. No. 1328

The purpose of this measure is to amend the sentencing of repeat offender provisions in the penal code to include insurance fraud offenses found in chapters 386, 431, 432, and 432D, Hawaii Revised Statutes (HRS).

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and the Department of the Attorney General.

Your Committee finds that the intent of this measure is to enhance criminal penalties for persons who commit insurance fraud by including felony insurance fraud as one of the felony violations that can increase the sentence of a repeat offender.

Specifically, this measure includes workers' compensation, private health insurance, motor vehicle insurance, mutual benefit societies, and health maintenance organization fraud penalty statutes among the list of felonies that triggers the enhanced sentencing of repeat offenders in section 706-606.5, HRS.

Your Committee has amended this measure to make technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1328, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1328, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Ihara).

SCRep. 1225 Commerce, Consumer Protection and Affordable Housing on H.B. No. 1336

The purpose of this measure is to provide additional sanctions for violations by mortgage brokers and solicitors against elders.

Your Committee received testimony in support of this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs.

Your Committee finds that the Department of Commerce and Consumer Affairs has received numerous complaints against mortgage brokers for conduct harmful to elderly customers. There is concern that if left undeterred, this conduct will increase. The intent of this measure is to authorize sanctions for mortgage brokers and solicitors who violate chapter 454 or 436B, Hawaii Revised Statutes, when the violations include conduct that is directed towards, targets, or is committed against elders. Such a violation would result in a fine of up to \$10,000 for each violation that would be in addition to any other fine or penalty.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1336, and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 1226 Commerce, Consumer Protection and Affordable Housing on H.B. No. 1004

The purpose of this measure is to enhance the ability of the Division of Consumer Advocacy to carry out its duties and responsibilities.

Specifically, this measure:

- (1) Requires the Division of Consumer Advocacy to restructure its operations pursuant to its December 2006, report to the Legislature; and
- (2) Appropriates funds to meet the costs incurred as a result of the restructuring process.

Your Committee received testimony in support of this measure from the Division of Consumer Advocacy; the Public Utilities Commission; Hawaiian Electric Company, Inc. and its subsidiary utility companies; The Gas Company; the Hawaii Solar Energy Association; the Hawaii Energy Policy Forum; and the Retail Merchants of Hawaii.

Your Committee finds that by Act 143, Session Laws of Hawaii 2006 (Act 143), the Legislature recognized that there is a need for the Division of Consumer Advocacy (Division) to function more effectively and efficiently in light of changing regulatory conditions, duties, requirements, and advances in technology. Act 143 also mandated the Division to conduct a review of its organization and to propose any necessary legislation that will enable it to more effectively protect and represent the interests of consumers. This measure represents the Division's first step toward reaching the goals and objectives set forth in Act 143.

Your Committee notes the Division's request that specific amounts for funding and positions be inserted and asks that the Committee on Ways and Means look into this request.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1004, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 1227 Commerce, Consumer Protection and Affordable Housing on H.B. No. 1005

The purpose of this measure is to enhance the ability of the Public Utilities Commission to carry out its duties and responsibilities.

Specifically, this measure:

- (1) Requires the Public Utilities Commission to restructure its operations pursuant to its December 2006, report to the Legislature;
- (2) Appropriates funds to meet the costs incurred as a result of the restructuring process; and
- (3) Authorizes the Public Utilities Commission to consider the need for increased renewable energy use in exercising its authority and duties.

Your Committee received testimony in support of this measure from the Public Utilities Commission; the Division of Consumer Advocacy; The Gas Company; the Hawaii Energy Policy Forum; Hawaiian Electric Company and its subsidiaries; the Sierra Club Hawaii Chapter; and the Hawaii Solar Energy Association, Inc.

Your Committee finds that by Act 143, Session Laws of Hawaii 2006 (Act 143), the Legislature recognized that there is a need for the Public Utilities Commission to function more effectively and efficiently in light of changing regulatory conditions, duties, requirements, and advances in technology. Act 143 also mandated the Public Utilities Commission to conduct a review of its organization and to propose any necessary legislation that will enable it to more effectively protect and represent the interests of consumers. This measure represents the Public Utilities Commission's first step toward reaching the goals and objectives set forth in Act 143.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1005, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 1228 Commerce, Consumer Protection and Affordable Housing on H.B. No. 1323

The purpose of this measure is to establish a cap of \$200,000 on the annual premium tax paid by captive insurance companies licensed by the Department of Commerce and Consumer Affairs.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and one individual. The Tax Foundation of Hawaii submitted comments on this measure.

Your Committee finds this measure, which establishes a \$200,000 cap on the premium tax, will encourage the creation of more captive insurance companies in Hawaii and will make Hawaii's captive tax structure comparable to several other jurisdictions.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1323, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Ihara).

SCRep. 1229 Commerce, Consumer Protection and Affordable Housing on H.B. No. 1322

The purpose of this measure is to make various amendments to the existing law governing insurance licensing.

Specifically, this measure:

- (1) Re-establishes the limited line motor vehicle rental company producer's license fee at \$1,000, and the "all services" fee at \$600 per year;
- (2) Mandates that adjusters and independent bill reviewers' place of business be where the licensee principally conducts transactions under the license; and

- (3) Changes the exemption from the education and examination requirements for producers previously licensed for same lines of authority in another state by allowing receipt of resident producer license applications for the State within ninety days of cancellation of the applicant's out-of-state resident license.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Testimony in opposition to this measure was received from the American Council of Life Insurers.

Your Committee finds that re-establishing the issuance and all services fees applicable to limited line motor vehicle rental company producer's licensee and requiring adjusters and independent bill reviewers' place of business be located where the licensee principally conducts transactions under the license will improve the Department of Commerce and Consumer Affairs' operations.

Your Committee has amended this measure to remove the changes made to the exemption from the education and examination requirements for producers previously licensed for same lines of authority in another state. Your Committee has also amended the effective date to promote further discussion. Your Committee also made technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1322, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1322, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 1230 Commerce, Consumer Protection and Affordable Housing on H.B. No. 1334

The purpose of this measure is to provide the Department of Commerce and Consumer Affairs' Professional and Vocational Licensing Division (PVLVD) with the flexibility to offer licensing discounts in an expedited manner.

Specifically, this measure amends section 92-28, Hawaii Revised Statutes (HRS), by extending the authority of the PVLVD to decrease and increase fees to thirty additional licensing laws that fall under the purview of the PVLVD.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs' Professional and Vocational Licensing Division, the National Association of Social Workers, and the Occupational Therapists Association of Hawaii.

Your Committee finds that the intent of this Administration Package bill is to increase the types of licenses that can receive a discount from the PVLVD for renewing their licenses through the PVLVD's online renewal system and provide the PVLVD with greater flexibility in this regard.

Your Committee has amended this measure to make a technical amendment requested by the PVLVD to ensure that the amendments made to section 92-28, HRS, will be effective for the 2007-2008 fiscal year.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1334, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1334, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Ihara).

SCRep. 1231 Commerce, Consumer Protection and Affordable Housing on H.B. No. 1338

The purpose of this measure is to make an emergency appropriation of \$100,000 to allow the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs to investigate the power outages that occurred throughout the State following the October 15, 2006, earthquakes.

Your Committee received testimony in support of this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs and the Public Utilities Commission.

Your Committee finds that, following the power outages that occurred on the islands of Oahu, Maui, and Hawaii after the earthquakes of October 15, 2006, an investigation was opened by the Division of Consumer Advocacy to examine whether the electrical utilities that experienced island-wide power outages acted in a reasonable manner prior and subsequent to the outages. This measure will provide an emergency appropriation to the Division of Consumer Advocacy for the hiring of a consultant to investigate the power outages and will assist the Division of Consumer Advocacy in meeting its mandate to represent consumers' interests.

Your Committee has amended this measure to make technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1338, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1338, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Ihara).

SCRep. 1232 (Joint) Education and Economic Development and Taxation on H.B. No. 598

The purpose of this measure is to establish an Online Learning Task Force to develop a systematic plan to expand opportunities for online learning to enhance the learning experiences of students throughout the State.

Testimony in support of this measure was submitted by the Department of Education and one individual.

Your Committees find that the world today revolves around the use and knowledge of computers and other means of advanced technology. To be competitive in today's job market and today's world, one must be familiar and proficient with current technology, including the use of the Internet and the opportunities that it provides. Your Committees further find that the Internet provides the opportunity for students to participate in online learning and benefit from the many advantages that are unavailable in a conventional classroom learning environment. The Department of Education currently operates E-School or Electronic School, which is an online supplementary program run by the Advanced Technology Research Branch, Office of Curriculum, Instruction, and Student Support, that offers college preparatory courses for high school students statewide. E-schools are a rapidly growing field of education designed to meet the increasing demands of students, teachers, and parents.

This measure establishes an Online Learning Task Force to develop a plan for the expansion of online learning opportunities for students throughout the State. Your Committees believe that the establishment of a task force comprised of interested stakeholders and users will enable the expansion of the E-School program and online learning efforts throughout the State. However, your Committees also believe that projections of costs and means for realizing desired outcomes are necessary in achieving maximum success.

Accordingly, your Committees have amended this measure by:

- (1) Including the following as members on the task force:
 - (A) The Vice Chancellor for Students of the University of Hawaii at Manoa; and
 - (B) A representative from the Hawaii Educational Networking Consortium;
- (2) Requiring the task force's plan to address specific objectives and include cost projections and methods for achieving desired outcomes;
- (3) Removing the reference that exempts the expenditure of funds for the task force operations from Chapter 103D, Hawaii Revised Statutes; and
- (4) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Education and Economic Development and Taxation that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 598, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 598, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, none. Excused, 3 (Hee, Nishihara, Taniguchi).

SCRep. 1233 Education on H.B. No. 19

The purpose of this measure is to ensure the effective and efficient use of school facilities within the State by establishing a Facilities Alignment Commission to develop criteria and make recommendations for public schools to be constructed, expanded, consolidated, or closed.

Testimony in support of this measure was submitted by the Department of Budget and Finance and the Land Use Research Foundation of Hawaii. Testimony in opposition to this measure was submitted by the Department of Education.

Your Committee finds that shifts in demographics within regions of the State necessitate the expansion or construction of schools in areas of rapid population growth. Conversely, other areas support facilities that are currently being underutilized due to movement away from urban centers into the suburbs and require consolidation or closure. Your Committee further finds that decisions regarding which schools or areas are affected should be carefully examined, taking into consideration the many interests involved and the potential impacts on the students, the community, the Department of Education, and the State.

Your Committee believes that the dynamic of the current demographic shifts requires a comprehensive approach to determining where and when public schools should be constructed, expanded, consolidated, or even closed. This measure establishes a Facilities Alignment Commission to develop appropriate criteria and make recommendations for areas for new school construction or school expansion, consolidation, or closure. The Facilities Alignment Commission's work can help to revitalize school facilities within the State by more efficiently and effectively utilizing public resources. Your Committee, however, believes that in addition to the work of the Facilities Alignment Commission, the Board of Education should also monitor schools that may potentially become underutilized, thereby requiring action, and contemplate alternative uses for underutilized facilities apart from closure.

Additionally, your Committee finds that smaller learning communities provide great benefits to teachers, students, and parents, including allowing teachers to establish more personalized relationships with students, which in turn fosters increased academic success. The establishment of smaller learning communities as an alternative to school closures or consolidations is a positive policy that can allow existing schools and school facilities to be efficiently and effectively utilized. Your Committee determines that the establishment of specific criteria for smaller schools or schools-within-schools to satisfy the creation of smaller learning communities is also necessary to help to assure that smaller learning communities will provide a successful approach to high student achievement.

Finally, your Committee believes that public school land that is not being utilized should not be sold unless the land is without any potential for being used for educational purposes. This will ensure that redevelopment or alternative options will be considered and can be facilitated before public school lands are returned to the Department of Land and Natural Resources. In line with the foregoing philosophy, this measure should also require the Department of Education to identify unused public school facilities that may be used for early childhood education programs before considering school closures or consolidation.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the Board of Education to report to the Legislature on plans for underutilized facilities that includes:
 - (A) Schools earmarked for possible closure;
 - (B) A schools and facilities watch list; and
 - (C) Alternative potential uses for underutilized schools or facilities;
- (2) Appropriating funds for both years of the 2007-2008 fiscal biennium, to coincide with the Facilities Alignment Commission's duration of existence;
- (3) Including a new part in chapter 302A, Hawaii Revised Statutes, that will facilitate enhanced teaching environments through the establishment of smaller learning communities, by, among other things, requiring smaller schools or schools-within-schools to:
 - (A) Select and operate under a school specialty status, including magnet, academy, or other specialty;
 - (B) Develop personalized plans for each student; and
 - (C) Create and maintain portfolios for each student;

- (4) Including as a condition to selling state lands once used for school purposes, a finding that the land is without potential of being used for other educational purposes;
- (5) Requiring the Department of Education to give priority to early childhood education learning facilities over executing school closures or consolidations; and
- (6) Making technical, nonsubstantive changes for purposes of clarity and to reflect preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 19, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 19, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hee, Nishihara, Taniguchi).

SCRep. 1234 Education on H.B. No. 1528

The purpose of this measure is to encourage Hawaii residents to pursue post-secondary education through the provision of continuing funding for the B Plus Scholarship Program.

This measure also establishes additional scholarship eligibility criteria for the B Plus Scholarship Program.

Testimony in support of this measure was submitted by the Department of Education, the University of Hawaii, and GEAR UP Hawaii. Comments on the measure were also submitted by the Governor's Policy Office.

Your Committee finds that the Legislature established and appropriated funds for the B Plus Scholarship Program, pursuant to Act 57, Session Laws of Hawaii 2005. The purpose of the B Plus Scholarship Program is to promote higher learning among low-income populations through the provision of scholarships to eligible students. Subsequently, in 2006, the Legislature amended Act 57 to provide additional funding for the program and to clarify financial eligibility guidelines. Your Committee determines that the B Plus Scholarship Program has enjoyed great success, with the number of scholarships awarded continuing to increase. This measure provides the necessary funding to allow the program to continue, scholarships to be renewed, and new scholarships to be granted.

Your Committee further finds that the new world and local economies require a dedicated effort by the State to support innovation and technology and growing a qualified workforce to support these areas. Competition in the fields of science, technology, engineering, and mathematics has escalated throughout the world, and Hawaii needs to invest in the education and training of our students to ensure that they will succeed in the workforce. Resources must also be focused on other areas of workforce development where a need is identified and addressed by the University of Hawaii campuses. Thus, in order to continue to provide an attractive incentive to eligible high school students and build a qualified workforce in Hawaii, your Committee believes the eligibility criteria should be further refined and complemented.

Accordingly, your Committee has amended this measure by:

- (1) Requiring students enrolling or pursuing careers in the science, technology, engineering, and mathematics disciplines to be given higher priority for up to ten per cent of the total scholarships awarded;
- (2) Requiring priority to also be afforded to students who satisfy specific criteria established by a University of Hawaii campus for which priority of awards has been designated; and
- (3) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1528, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1528, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hee, Nishihara, Taniguchi).

SCRep. 1235 (Joint) Education and Judiciary and Labor on H.B. No. 1009

The purpose of this measure is to enable the State to fulfill its potential financial obligations to part-time and substitute public school teachers through the appropriation of funds for retroactive salary adjustments for part-time and substitute public school teachers in settlement of three pending class action lawsuits.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association, the Hawaii Carpenters Union, and Alston Hunt Floyd & Ing. Testimony in opposition of this measure was submitted by the Department of Education and the Department of the Attorney General.

Your Committees find that there are currently three pending class action lawsuits against the Department of Education, Garner v. Department of Education, Klitemick v. Hamamoto, and Kawashima v. Department of Education. Each of these lawsuits involves disputes between the Department of Education and substitute and part-time teachers regarding unpaid wages dating back to 1996. Your Committees further find that these lawsuits have negatively affected teacher morale and relations between teachers and the Department of Education. To the extent possible, the expeditious resolution of these matters will help to raise morale and restore goodwill between the parties involved, which will in turn greatly benefit public school students throughout the State. This measure appropriates funds for the settlement of the pending lawsuits with the Department of Education. Your Committees believe that this measure should continue to progress through the legislative session to provide the opportunity for evaluating and determining the most appropriate manner for obtaining resolution.

Accordingly, your Committees have amended this measure by changing its effective date to July 1, 2057, to facilitate further discussion on the matter.

As affirmed by the records of votes of the members of your Committees on Education and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1009, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1009, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 4 (Chun Oakland, Inouye, Kokubun, Sakamoto).

SCRep. 1236 (Joint/Majority) Energy and Environment and Transportation and International Affairs on H.B. No. 772

The purpose of this measure is to improve efforts to deal with and prevent damage by invasive species.

Specifically, this measure establishes a service fee for the inspection of pests in imports to the State; establishes the Pest Inspection, Quarantine, and Eradication Fund; and makes an appropriation out of the fund to pay for inspection program costs.

Testimony in support of this measure was submitted by the Mayor of Maui County; The Council Chair of the County of Maui; beach Road Invasive Coqui Squad; Hawai'i Forest Industry Association; The Nature Conservancy of Hawai'i; and the Sierra Club, Hawai'i Chapter. Testimony in support of the intent of this measure was submitted by the Department of Agriculture, the Department of Land and Natural Resources, and the Department of Transportation.

Testimony in opposition to this measure was submitted by the Department of Budget and Finance; The Chamber of Commerce of Hawaii; Alexander & Baldwin, Inc., and its subsidiary, Matson Navigation Company, Inc.; and Horizon Lines, LLC. Three individuals submitted comments.

Your Committees note with concern that the introduction and establishment of non-native species is one of the greatest threats to Hawaii's environment and is directly related to issues including the economy, public safety, and, sustainability. Your Committees find, therefore, that this is an important measure needing further consideration.

This measure was amended to reflect the amendments made to the Senate companion bill, Senate Bill No. 1066, S.D. 2, H.D. 1. These amendments are:

- (1) Changing "a person" in section 1, to "an importer of commercial shipments", for consistency with other sections of the Hawaii Revised Statutes; and
- (2) Adding additional funding sources for the Pest Inspection, Quarantine, and Eradication Fund in consideration of the fact that federal funds are not permanent, guaranteed, or sufficient.

Your Committee retained the delayed effective date to encourage further discussion of this measure.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Transportation and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 772, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 772, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, 1 (Trimble). Excused, 5 (Espero, Ihara, Kokubun, Taniguchi, Gabbard).

SCRep. 1237 Intergovernmental and Military Affairs on H.B. No. 1065

The purpose of this measure is to provide adequate funds for the care and maintenance of veterans' cemeteries statewide.

This measure also includes an appropriation for the purchase of casket liners to help remedy the soil problems at these cemeteries.

Your Committee received testimony in support of the measure from the state Department of Defense and the Office of Veterans Services.

Your Committee finds that Hawaii's veterans' cemeteries suffer from inadequate care and maintenance. As these cemeteries hold the remains of those who served their country in peace and wartime, it is incumbent upon the State to honor these veterans by maintaining these cemeteries at a level they deserve.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1065, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Tsutsui).

SCRep. 1238 Intergovernmental and Military Affairs on H.B. No. 1063

The purpose of this measure is to allow National Guard personnel on State Active Duty to deposit their paychecks by electronic transfer to their personal banking accounts.

Your Committee received testimony in support of this measure from the State Adjutant General and the Chamber of Commerce of Hawaii.

Your Committee, pursuant to the Governor's request, amended this measure by deleting its contents and inserting a request for emergency funding from the Governor to provide authorization to expend interdepartmental transfer funds for the Operation About Face Program which is a program that provides services to youths from age eleven to adulthood in the subject areas of English and mathematics, as well as teaching them valuable life skills.

Specifically, this measure increases the appropriation amount for fiscal year 2006-2007 from \$4,700,000 to \$7,900,000 in item I-20 of section 3 of Act 178, Session Laws of 2005, as amended by Act 160, Session Laws of Hawaii 2006.

It is the intent of your Committee to provide emergency funding, pursuant to the Governor's request, for the Operation About Face Program so that children of Hawaii's National Guard are provided with important services in order for them to become productive citizens.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1063, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1063, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Tsutsui).

SCRep. 1239 (Joint) Intergovernmental and Military Affairs and Health on H.B. No. 201

The purpose of this measure is to ensure that moneys and gifts received by the Hawaii Health Systems Corporation for the benefit of veterans are properly accounted for and expended.

Your Committees received testimony in support of this measure from the Director of the Office of Veterans Services. Your Committees received testimony in opposition to this measure from the Director of Budget and Finance and Hawaii Health Systems Corporation.

Your Committees find that this measure creates the Veterans' Home Account and the Veterans' Gift Account to be administered by the Hawaii Health Systems Corporation. The former account is to receive funds by executive departments, appropriations, certain gifts, and other payments for medical care and services provided to veterans in the state veterans' home, programs and services, solicitation of further funding, and public information programs. The latter account is to receive gifts of personal property for designated use by donors. These gifts may be sold or exchanged or used in-kind.

Your Committees further find that Hawaii Health Systems Corporation has full statutory authority to establish and manage accounts without legislative action. However, your Committees believe that more specific guidance is needed with regard to the receipt of gifts of personal property. As such, your Committees amended this measure by removing language establishing a Veterans' Home Account.

It is the intent of your Committees to create a Veterans' Gift Account to ensure that gifts received by the Hawaii Health Systems Corporation will be properly accounted for.

As affirmed by the records of votes of the members of your Committees on Intergovernmental and Military Affairs and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 201, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 201, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 1240 (Joint/Majority) Intergovernmental and Military Affairs and Health on H.B. No. 1452

The purpose of this measure is to protect the health and safety of Hawaii's residents and visitors by requiring the Department of Health to take soil, water, and air samples at unspecified distances along a perimeter within five hundred meters of all military bases at least once every three months to monitor the levels of depleted uranium contamination.

Your Committees received testimony in support of this measure from the Americans for Democratic Action; KAHEA, The Hawaiian-Environmental Alliance; Democratic Party of Maui; Sierra Club Hawaii's Chapter; American Friends Service Committee; CODEPINK Women for Peace; President of the 19-3 Democratic Party; President of Maui Peace Action; President of Malu 'Aina Center for Non-violent Education & Action; and thirty four individuals.

Testimony in opposition to this measure was submitted by the State Adjutant General and the Department of Health.

Your Committees find that depleted uranium has special toxic properties when used as weaponry and is considered to be chemically toxic by the Armed Forces Radiobiology Research Institute, the Army Environmental Policy Institute, the United Nations, and others and poses potential health risks to Hawaii's residents and visitors.

Your Committees further find that depleted uranium weaponry has been found at Schofield Barracks, making it the first priority among the military bases for testing. As such, your Committees have amended this measure to:

- (1) Remove the language in the measure requiring air, soil, and water sampling and testing for depleted uranium at all military bases and narrowing the scope of the soil sampling and testing to Schofield Barracks;
- (2) Add language requiring the Department of Health to coordinate with the University of Hawaii in order to arrange for the testing of the soil samples;
- (3) Add language requiring the Department of Health to coordinate with the United States Army in Hawaii regarding its continued monitoring and remediation of training areas and weapon ranges at Schofield Barracks; and
- (4) Make technical, nonsubstantive amendments for the purposes of style, clarity, and consistency.

It is the intent of your Committees is to protect the health and safety of Hawaii's residents and visitors by requiring the Department of Health to collect soil samples and conduct testing of the samples in order to assess the presence of depleted uranium at Schofield Barracks.

As affirmed by the records of votes of the members of your Committees on Intergovernmental and Military Affairs and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1452, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1452, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, 1 (Hemmings). Excused, 1 (Whalen).

SCRep. 1241 Health on H.B. No. 1456

The purpose of this measure is to increase and improve access to therapeutic and pharmacological mental health care in rural areas of the State by allowing appropriately trained psychologists practicing in licensed health care clinics within federally designated medically underserved areas or mental health professional shortage areas to prescribe a limited array of psychotropic medications.

Your Committee received testimony in support of this measure from the Hawaii Psychological Association, Mental Health America of Hawaii, Ho'ola Lahui Hawaii'i, Na Pu'uwai, and two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Psychiatric Medical Association, Hawaii Medical Association, and four individuals. Comments on this measure were submitted by the Department of Health and one individual.

Your Committee finds that individuals living in rural areas of the State need access to appropriate mental health care services.

Your Committee further finds that allowing appropriately licensed and trained psychologists to prescribe psychotropic medications will address the urgent need for timely, appropriate, and cost-effective mental health and pharmacological services for an underserved population. Federally

qualified health centers are most in need of psychologists with prescriptive authority and allowing psychologists who work at these health centers would achieve the largest impact for individuals in need of these services.

Your Committee further finds that the adequacy of training for psychologists and safety issues in prescribing psychotropic medications has been a recurring concern. However, your Committee notes that the former Clinical Training Director of the Department of Defense Psychopharmacology Demonstration Project reviewed the training and curriculum outlined in S.B. No. 1004, S.D. 2, and H.B. No. 1456, H.D. 2, and found it to be essentially equivalent to the instruction and relevant experiences provided to the students in the Psychopharmacology Demonstration Project.

In addition, the United States Navy and United States Air Force requirements for prescribing psychologists are equivalent to the requirements listed in this measure S.B. No. 1004, S.D. 2, and H.B. No. 1456, H.D. 2.

Your Committee further finds that including the requirement that the prescribing psychologist be under physician supervision establishes an additional layer of protection, ensuring that individuals in need of mental health services and psychotropic medication receive safe and qualified health care.

Your Committee amended this measure by deleting its contents and inserting the contents of S.B. No. 1004, S.D. 2, a similar measure that:

- (1) Removes the definition “collaborative relationship”;
- (2) Clarifies that a “prescribing mental health professional” is a medically trained and licensed physician or psychiatrist;
- (3) Removes “pharmaceutical” from the definition of “psychotropic medication”;
- (4) Removes the requirement that an accredited institution of higher learning be approved by the University of Hawaii John A. Burns School of Medicine or the Tripler Army Medical Center’s psychiatry residency program;
- (5) Raises the practicum experience requirement to include successful completion of twelve credit hours consisting of a supervised practicum of at least one year involving four hundred hours treating a diverse population of no fewer than one hundred patients with mental disorders;
- (6) Requires a licensed healthcare provider who is experienced in the provision of psychopharmacotherapy to supervise the practicum;
- (7) Requires the practicum to include at least two hours of weekly supervision by a supervisor who is not in the employ of the person being directed or supervised;
- (8) Requires employment by a federally qualified health center, removing the language allowing employment at a licensed health clinic in a medically underserved area or a mental health professional shortage area;
- (9) Removes the authority of a psychologist who holds a conditional or prescription certificate to order and review laboratory tests;
- (10) Removes the Board of Psychology from the approval process of independent peer review;
- (11) Requires a psychologist who holds a conditional or prescription certificate to maintain an ongoing collaborative relationship with the doctor of medicine who supervises the psychologist directly or by telecommunication;
- (12) Clarifies that a psychologist holding a conditional or prescription certificate is prohibited from administering or prescribing a narcotic; and
- (13) Changes the date the Hawaii State Health Planning and Development Agency is to report to the Legislature from 2011 to 2010.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1456, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1456, H.D. 2, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Menor). Noes, none. Excused, 1 (Whalen).

SCRep. 1242 (Joint) Health and Commerce, Consumer Protection and Affordable Housing on H.B. No. 1359

The purpose of this measure is to ensure affordable prescription medications for Hawaii’s uninsured, underinsured, low-income, elderly, and disabled residents.

Specifically, this measure creates a Hawaii State Pharmacy Assistance Program by merging the current State Pharmacy Assistance Program, which coordinates the Medicare Part D drug benefit and the Hawaii Rx Plus Program under a single comprehensive Hawaii State Pharmacy Assistance Program umbrella.

Your Committees received testimony in support of this measure from the Department of Health. The AARP submitted testimony supporting the intent of this measure. Hawaii Medical Service Association submitted comments.

Your Committees find that the escalating costs of prescription medications have resulted in our neediest residents being unable to afford their medications. Often these individuals are forced to choose between necessities of daily life and needed prescription medication. Your Committees further find that this measure will make prescription drugs more affordable for our communities, while augmenting State funding with drug manufacturer rebates.

Your Committees note that the Department of Human Services has recommended that the amount of \$50,000 should be appropriated to conduct the study on determining the cost of implementing various aspects of the Hawaii State Pharmacy Assistance Program.

Your Committees amended this measure by changing the effective date for the substantive provisions of the measure that establish the Hawaii State Pharmacy Assistance Program from July 1, 2020, to January 1, 2008, due to the fact the Medicare Part D plans will be implementing new rates as of January 2008, and to July 1, 2007, for the appropriation.

Your Committees further amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Health and Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1359, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1359, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 3 (Ihara, Menor, Whalen).

SCRep. 1243 Health on H.B. No. 1479

The purpose of this measure is to require, beginning September 1, 2007, all group health issuers to offer small group health plans to self-employed individuals who live, work, or reside in a group health issuer's service area.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Hawaii Association of Realtors; and Maui Chamber of Commerce. Comments were received from the Hawaii Medical Service Association and Kaiser Permanente.

Your Committee finds that existing law does not specifically provide for mandatory health insurance coverage for self-employed individuals such as sole proprietors. As a result, most health insurers do not provide a group policy to sole proprietors unless they become incorporated. Sole proprietors may not incorporate because of burdensome administrative formalities associated with incorporation. This means that many sole proprietors are subject to the pre-existing condition exclusions in individual policies and are subject to medical underwriting despite the fact that they are businesses just like any other business.

The intent of this measure is to provide parity for sole proprietorships by requiring group health issuers to offer group health insurance policies to the self-employed. This would put them on the same footing with corporations and other business entities in obtaining health insurance.

Your Committee is cognizant of the testimony to the effect that this measure may result in possible adverse actuarial consequences to small group underwriting by way of higher premiums. Nonetheless, your Committee believes this measure is necessary in the interests of promoting health in the population as a whole, inasmuch as sole proprietors represent a significant number of business owners in Hawaii.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of consistency and style and by changing the effective date to July 1, 2050.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1479, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1479, H.D. 2, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 1244 Health on H.B. No. 1721

The purpose of this measure is to establish a criminal offense of:

- (1) Assault in the second degree if the person intentionally and knowingly causes bodily injury to any emergency medical services personnel who is engaged in the performance of duty; and
- (2) Terroristic threatening in the first degree if the person commits terroristic threatening against any emergency medical services personnel.

Your Committee received testimony in support of this measure from the Healthcare Association of Hawaii and ten individuals.

Your Committee finds that emergency medical services personnel are at a heightened risk of personal injury or death from patients and others with whom they are in contact in the course of work. By the very nature of their job, they respond to people in distressful situations, including incidences of criminal violence, family disputes, and drunken brawls.

The intent of this measure is to protect emergency medical services personnel and to deter violence against them. Your Committee acknowledges that much of the violence promulgates from explosive situations involving agitated people who lack momentary self-control. However, your Committee believes that emergency medical personnel should be afforded the same protection as correctional workers and educational workers.

Your Committee has amended this measure to take effect upon its approval.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1721, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1721, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 1245 Health on H.B. No. 527

The purpose of this measure is to protect Hawaii's communities from the health risks posed by cigarettes by:

- (1) Prohibiting the sale of cigarettes from self-service displays; and
- (2) Changing the existing fine structure for illegal sales of tobacco made to minors through vending machines and mobile food vendors from up to \$1,000 per day of violation to one that would change for subsequent offenses.

Your Committee received testimony in support of this measure from the Department of the Attorney General and the Coalition for a Tobacco Free Hawaii. Your Committee received testimony in opposition to this measure from the American Heart Association.

Your Committee finds that this measure will pose an additional barrier to children gaining access to cigarettes. Your Committee further finds that this measure should be extended to all tobacco products sold in self-service displays.

Accordingly, your Committee amended this measure to include all tobacco products, not just cigarettes, in the definition of “self-service display”.

Your Committee further amended this measure by retaining the original fine structures as codified in chapter 328J-16, Hawaii Revised Statutes, which makes a violator subject to a fine of up to \$1,000 per day for each violation.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 527, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 527, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 1246 Health on H.B. No. 964

The purpose of this measure is to ensure the safety of workers by providing a cost effective detection and deterrence tool for drug testing and to keep job sites safe.

Specifically, this measure facilitates employment-related drug testing by:

- (1) Allowing the use of screening tests that may be used for forensic testing as a workplace testing device; and
- (2) Requiring employers using a screening test for pre-employment screening to administer the test in accordance with the manufacturer’s package insert, instead of the United States Food and Drug Administration insert.

Your Committee received testimony in support of this measure from the General Contractors Association of Hawaii and Emerald Bay Consulting, LLC. The Pacific Resource Partnership; Hawaii Carpenters Union; Ralph S. Inouye Co., Ltd.; Waiawa Ridge Development, LLC; Hawaiian Dredging Construction Company; Hidano Construction, Inc.; S & M Sakamoto, Inc.; the Building Industry Association of Hawaii; Castle & Cooke Homes Hawai’i, Inc.; Kapolei Property Development LLC; and Straub Doctors on Call submitted testimony in support of the intent of this measure with comments. Testimony in opposition was received from the Department of Health and Clinical Labs of Hawaii. The Diagnostic Laboratory Services, Inc. submitted comments on this measure.

Your Committee finds that drug abuse has become a major health and safety challenge facing Hawaii’s construction industry. Drug and alcohol impairment on job sites has overwhelmed Hawaii’s construction companies and results in accidents, poor artisanship, and higher workers’ compensation claims and premiums.

Your Committee has amended this measure by deleting its contents and inserting the language from S.B. No. 1636, S.D. 2, a similar measure that makes the following changes:

- (1) Clarifies that the testing device used must be manufactured in a facility licensed by the United States Food and Drug Administration (FDA);
- (2) Requires that test be administered according to the FDA package insert, or where there is no such FDA insert, then the package instruction accompanying the test kit;
- (3) Removes the requirement that an on-site pre-employment screening test must be approved by the Director of Health;
- (4) Authorizes pre-employment screening provided that employers are authorized to drug test applicants and unions are authorized to drug test members; and
- (5) Changes the effective date to July 1, 2055, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 964, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 964, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 1247 Health on H.B. No. 1260

The purpose of this measure is to allow the court to order a defendant to submit to a presentence mental or other medical examination.

Your Committee received testimony in support of this measure from the State Attorney General and Honolulu Prosecuting Attorney.

This measure restores the statutory provision allowing pre-sentence mental or medical examinations of defendants for the purposes of sentencing, which was inadvertently repealed by Act 112, Session Laws of Hawaii 2005 (Act 112), relating to biological evidence. Act 112 repealed the mental and medical examination provision in section 706-603, Hawaii Revised Statutes, which also contained provisions relating to deoxyribonucleic acid collection (DNA). Act 112 enacted a comprehensive statutory scheme for DNA collection and testing.

Your Committee believes that the court should continue to have the authority to order defendants to undergo a complete mental or medical examination prior to sentencing in order to determine the type of sentence to impose.

Your Committee has amended this measure to take effect upon its approval.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1260, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1260, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 1248 (Joint) Health and Education on H.B. No. 1477

The purpose of this measure is to increase access to primary health care services provided by family physicians or residents in the family medicine residency program at the University of Hawaii to medically underserved residents in rural areas of the State.

Specifically, this measure appropriates funds to support the development of a statewide rural training model by placing primary care physicians who are in their final years of training, in the underserved areas of this State.

Your Committees received testimony in support of this measure from the Department of Family Medicine and Community Health of the University of Hawaii John A. Burns School of Medicine, the Mayor of the County of Hawaii, Hawaii Primary Care Association, University of Hawaii John A. Burns School of Medicine, Hawaii Medical Service Association, Hilo Medical Center, Hawaii Health Systems Corporation, the Hawaii Quentin Burdick Rural Health Interdisciplinary Training Program, Maui Memorial Medical Center, and four individuals.

Your Committees find that presently, family medicine program residents spend two months in a federally-funded rural healthcare training demonstration project, initiated in Hilo in 2006, in which residents learn how to provide healthcare to medically underserved patients in rural areas as they rotate among private physician offices, emergency departments, and the community, providing outreach and education. It is anticipated that the Hilo rural health training program will be duplicated on Kauai. Additional training sites will be developed in conjunction with the health master planning process underway in Maui and with the hospital and community health center system on Kauai. As these sites are being developed, the curriculum can be structured so that family medicine residents have the opportunity to rotate to neighbor island sites other than Hilo.

Your Committees further find that this residency program is an integral component of the health care workforce development in rural areas of the State. It will provide opportunities to bring qualified health care professionals to rural areas that have been designated as medically underserved, health professional shortage areas.

Your Committees amended this measure by:

- (1) Clarifying that additional training sites will be developed in conjunction with the health master planning process underway in Maui and with the hospital and community health center system on Kauai; and
- (2) Including an appropriation in the amount of \$400,000 for the Hawaii Quentin Burdick Rural Health Interdisciplinary Training Program.

As affirmed by the records of votes of the members of your Committees on Health and Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1477, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1477, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 4 (Hee, Nishihara, Taniguchi, Whalen).

SCRep. 1249 Health on H.B. No. 212

The purpose of this measure is to ensure the availability of comprehensive quality health care and alleviate the health care workforce shortage in Hawaii.

Specifically, this measure appropriates funds to the Department of Health to support the development and maintenance of a statewide comprehensive health care workforce map and database that assesses health care workforce staffing needs and to develop a plan to ensure future health care workforce needs are met.

Your Committee received testimony in support of this measure from the Mayor of the County of Hawaii, Hawaii Medical Service Association, Hawaii Medical Association, Hawaii Pacific Health, Hawaii Disability Rights Center, and one individual. The Department of Health and the Department of Human Services submitted testimony in support of the intent of this measure.

The Mayor of the County of Hawaii included in his supporting testimony an appropriation request in the amount of \$500,000 for this important project.

Your Committee finds that a severe shortage of health care workers exists in our State, especially on the neighbor islands. Data is essential to understanding our workforce needs and to effectively reform the current health care crisis.

Your Committee further finds that the State Health Planning and Development Agency is currently working in collaboration with the University of Hawaii John A. Burns School of Medicine and numerous other state agencies and professional organizations that are part of a Workforce Hui that have been in discussions regarding a database to help determine workforce supply needs. This measure is intended to support those collaborative efforts by providing funding to develop and maintain a database for workforce needs analyses.

Accordingly, your Committee amended this measure by deleting its contents and inserting the contents of S.B. No. 69, S.D. 2, a similar measure that makes the following changes:

- (1) Includes language in section 1 that clarifies the intent to support the Workforce Hui's efforts to compile a health care workforce supply database;
- (2) Removes the Department of Health and designates the State Health Planning and Development Agency as the implementing and expending agency;
- (3) Removes the provision requiring the data collected to be accurate and secure and that data specific to any practitioner be disclosed only with the express written consent of the practitioner;
- (4) Removes the reporting requirement; and
- (5) Changes the effective date from July 1, 2020, to July 1, 2007.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 212, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 212, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 1250 Health on H.B. No. 843

The purpose of this measure is to enable Kahuku Hospital to remain in operation and continue to serve the residents and visitors of the north shore of Oahu.

The measure accomplishes this purpose by authorizing the Hawaii Health Systems Corporation to acquire Kahuku Hospital. This acquisition will enable the hospital to remain in operation, and retain its certificate of need and critical access hospital designation.

Your Committee received testimony in support of this measure from the Leahi Hospital, Hawaii Health Systems Corporation, Healthcare Association of Hawaii, United Public Workers, and Hawaii Medical Association. Your Committee received testimony from the State Procurement Office that was limited to opposing the proposed provision that would exempt Kahuku Hospital from the procurement requirements of chapters 103D and 103F, Hawaii Revised Statutes. The Office of Information Practices submitted comments.

Your Committee finds that Kahuku Hospital is in jeopardy of closing its doors as of June 30, 2007, if it cannot be acquired by Hawaii Health Systems Corporation as part of its Chapter 11 bankruptcy reorganization proceeding. Your Committee further finds that Kahuku Hospital is the only facility in the community offering emergency services and therefore, it is imperative to keep the hospital operating in order to serve the residents and visitors of the north shore of Oahu.

It is the intent of your Committee that this measure gives authorization, flexibility, and support for Hawaii Health Systems Corporation to acquire Kahuku Hospital and in no way mandates Hawaii Health Systems Corporation to acquire Kahuku Hospital.

If a voluntary acquisition takes place, your Committee intends for the transition to be based on sound management principles, basic community needs, and not to jeopardize the present support of other hospitals in the Hawaii Health Systems Corporation system. In addition, the Department of Health estimates that this acquisition will generate approximately \$3.9 million in transition costs; \$1 million for Hawaii Health Systems Corporation and \$2.9 million for Kahuku Hospital.

Further, it is the intent of your Committee to ensure the continuation of Kahuku Hospital's emergency services while encouraging the development of an alternative model of health care that utilizes federal funding and works in conjunction with community health centers.

Your Committee amended this measure by exempting the employees of Kahuku Hospital from chapters 76, 87A, 88, and 89, Hawaii Revised Statutes, so they will not be assimilated into the State government employment system.

Your Committee further amended this measure by inserting an appropriation amount of \$1.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 843, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 843, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 1251 (Majority) Energy and Environment on H.B. No. 791

The purpose of this measure is to require fuel distributors to provide gasoline that does not contain ethanol for those who wish to purchase non-ethanol fuel.

Specifically, this measure requires gasoline sold in the State prior to July 1, 2011, to have ethanol content by grade as follows:

- (1) Premium gasoline to contain no ethanol;
- (2) Mid-grade gasoline to contain up to ten per cent ethanol; and
- (3) Regular gasoline to contain at least ten per cent ethanol.

In addition, this measure requires that beginning July 1, 2011, all gasoline sold in the State for use in motor vehicles to contain ten per cent ethanol by volume, unless circumstances make the inclusion of ethanol unfeasible.

Your Committee received testimony in support of this measure from the Mayor of the County of Hawaii, the Hawaii Boaters Political Action Association, Hawaii Ocean Safety Team, and five individuals. One concerned citizen submitted testimony in support of the intent of this measure with recommended amendments. Your Committee received testimony in opposition to this measure from the Hawaii Energy Policy Forum, the Western States Petroleum Association, and two individuals. The Department of Business, Economic Development, and Tourism and Life of the Land submitted comments on this measure.

Your Committee finds that there is a need to provide non-ethanol gasoline for use in boats, small gasoline powered tools, and experimental and light-sport aircraft. Your Committee further finds that, while this measure will provide for those individuals in need of non-ethanol fuel, it also provides an important phase out provision to further the State's goal of energy independence.

Your Committee amended this measure by:

- (1) Clarifying in the purpose section that the State's existing ethanol content statute provides significant flexibility for the private sector to offer non-ethanol gasoline, yet the private sector has chosen not to make non-ethanol gasoline readily available;
- (2) Deleting all references to rulemaking procedures by the Director of the Department of Business, Economic Development, and Tourism; and
- (3) Changing the effective date to July 1, 2020, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 791, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 791, H.D. 1, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Trimble). Excused, 1 (Kokubun).

SCRep. 1252 Energy and Environment on H.B. No. 1641

The purpose of this measure is to require that distribution and use of restricted pesticides used for structural pest control services be limited to pest control operators licensed by the Department of Commerce and Consumer Affairs. This measure also defines “pest control operator”.

Your Committee received testimony in support of this measure from the Department of Agriculture (DOA) and Hawaii Pest Control Association.

Your Committee finds that it is important that providers of pest control services maintain professional licenses, as required by the State. Among the licensing requirements is the maintenance of liability insurance. Because of hazards to people or the environment, the use of designated pesticides should be limited to persons in full compliance with state licensing requirements.

The intent of this measure is to protect the environment, as well as the public health, safety, and welfare.

Your Committee has amended this measure on the recommendation of the Hawaii Pest Control Association to clarify the language for purposes of readability and understandability.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1641, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1641, H.D. 2, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 1253 (Majority) Energy and Environment on H.B. No. 1912

The purpose of this measure is to authorize the issuance of special purpose revenue bonds (SPRBs) to assist industrial enterprises, in this case BlueEarth Maui Biodiesel, LLC, a Hawaii Corporation.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Budget and Finance; BlueEarth Maui Biodiesel Project (BlueEarth); Maui Electric Company (MECO), Ltd.; Hawaiian Electric Company (HECO); and Hawaii Electric Light Company. Testimony in opposition was received from Life of the Land; Sierra Club Hawaii Chapter, Maui Group; Maui Tomorrow; Pacific Biodiesel; Sustainable Biodiesel Alliance; and twenty-six individuals.

The SPRBs under this measure would be applied to finance the planning, design, and construction of a biodiesel refinery with primary take-off designated as fuel for electrical generation.

Your Committee finds that Hawaii has a growing bioenergy industry to meet the goals of energy conservation. BlueEarth would produce biofuels to be purchased in most part by MECO for use as a generation fuel at its Ma'alaea power plant. The project will have the ability to use a variety of vegetable oil feedstocks (including soybean, canola, peanut, cottonseed, and sunflower oil from the Americas and various tropical oils from the Pacific Rim and Central and South America) to produce biodiesel.

According to testimony, HECO, through an unregulated subsidiary, will be an equity holder in the project. HECO has agreed that all of its net profits from the project will be contributed to a public/private, nonprofit biofuels trust to be chartered to enhance and stimulate the viability of a local biofuels crop industry.

Your Committee believes that biofuels are a key contributor to the portfolio of renewable energy resources needed to help the State decrease its dependence on imported oil.

Your Committee notes the substantial objections to this measure, based mainly on its effects to the environment stemming from a reliance on imported oils which are responsible for the destruction of rainforests, thus contributing to global warming and the loss of natural habitat. Your Committee finds that although these objections are well taken, this measure is a start in the right direction, considering the state of current technology. It is the hope of your Committee that a future time will see no reliance on imported oils, when the State can stimulate a biofuels crop industry sufficient to meet its biofuel processing needs.

Your Committee has amended this measure by changing the effective date to July 1, 2020.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1912, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1912, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 2. Ayes with Reservations, 1 (Trimble). Noes, 1 (Hooser). Excused, 2 (Ihara, Kokubun).

SCRep. 1254 Intergovernmental and Military Affairs on H.B. No. 1345

The purpose of this measure is to appropriate emergency funding for emergency relief operations statewide resulting from the October 15, 2006, Kiholo Bay Earthquake disaster.

Testimony in support of this measure was submitted by The Judiciary, State of Hawaii; Department of Accounting and General Services; Department of Human Services; Department of Land and Natural Resources; Department of Education; Director of the State Civil Defense; Mayor of the County of Hawaii; Daughters of Hawaii, and Vice President for Administration for the University of Hawai'i System.

Your Committee finds that pursuant to the requirements set forth in Article VII, Section 9, of the Hawaii State Constitution, the Governor, in Governor's Message No. 233 to the Legislature, requested immediate consideration and passage of this measure by the Legislature citing an existing critical funding shortage.

Specifically, this measure appropriates general funds to:

- (1) Cover operational expenses associated with the earthquake disaster recovery efforts in the amount of \$18,189,896 for fiscal year 2006-2007; and

- (2) Cover the twenty-five per cent non-federal cost share for earthquake disaster recovery projects eligible under the Federal Emergency Management Agency's public assistance program in the amount of \$5,810,104 for fiscal year 2006-2007.

Your Committee amended this measure by adding emergency appropriations to:

- (1) Broaden the scope of the appropriation of general funds, to include the emergency repair of the Kohala Ditch in North Kohala, including access roads, trails, and flume repairs between Honokane Nui intake and the Niulii Weir and for the repair and restoration of the Hulihe'e Palace located in Kailua-Kona;
- (2) Appropriate funds in the amount of \$635,000 for fiscal year 2006-2007, to cover costs of assessing and analyzing the structural integrity of building and repairing the damage to the District Court of the First Circuit, including the Judiciary's twenty-five per cent cost share under the Federal Emergency Management Agency's Public Assistance Program to cover its operational expenses associated with the October 15, 2006 Kiholo Bay earthquake;
- (3) Appropriate unspecified funds to ensure that the water irrigation sources in North Hawaii Island are sustained for the agricultural sector as follows:
 - (A) Hire consultants to:
 - (i) Investigate and survey alternate sources of irrigation water for the Island of Hawaii;
 - (ii) Develop and coordinate plans for public and private partnerships to improve and protect sources and distribution of irrigation water on the Island of Hawaii; and
 - (iii) Investigate and survey areas along Iilani Highways 31/37 impacted by rock slides at Manawainui Gulch, Alelele Bay, and Kalepa Bay; and
 - (B) Cover repair and recovery costs of rock slide scaling operations to include the protection of cultural resources that are not covered by the Federal Public Assistance Program; and
- (4) Make technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

It is the intent of your Committee to broaden the assistance in the repair of the vast amount of damage caused by the October 15, 2006, Kiholo Bay earthquake and improve Hawaii's readiness for future disasters.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1345, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1345, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Tsutsui).

SCRep. 1255 Judiciary and Labor on H.B. No. 1133

The purpose of this measure is to provide for voter registration at polling places on election day; provided the voter can prove residency in the precinct.

Your Committee received testimony in support of this measure from the Office of Elections, the American Civil Liberties Union of Hawaii, Demos, the League of Women Voters of Hawaii, and a concerned individual. The Office of the City Clerk of the City and County of Honolulu, the Office of the County Clerk of the County of Hawaii, and the Office of the County Clerk of the County of Kauai offered comments.

Your Committee finds that election day registration will increase voter participation, especially for voters who have recently moved and for new voters, including those who become motivated to vote during the period leading up to election when awareness of issues is heightened. This process, however, will place additional responsibilities on poll workers and other elections staff.

Your Committee notes that this measure has an effective date of January 1, 2050, to allow further discussion.

Your Committee has amended this measure by:

- (1) Requiring election day registrants to provide separate documentation to prove identity and residency;
- (2) Adding a valid United States passport as a document that can be used to prove identity;
- (3) Authorizing, in addition to utilizing a "bank statement" to show the voter's current home address, the use of other financial statements such as a credit union statement, credit card statement, or brokerage account statement; and
- (4) Making technical, nonsubstantive changes for clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1133, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1133, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1256 Judiciary and Labor on H.B. No. 1614

The purpose of this measure is to appropriate funds to the Attorney General's Nuisance Abatement Unit.

Your Committee finds that the Nuisance Abatement Unit consists of one deputy attorney general, one full-time investigator on Oahu, and a half-time investigator on the Big Island. This bill would authorize the funding for an additional one and a half investigator position and a clerk position.

Your Committee received testimony in support of the bill from the Attorney General's Office and from Jeannine Johnson, a private citizen.

Your Committee amended the bill by specifying the amount of \$150,000 and indicating the one and a half position and the clerk position. Your Committee also amended the bill to put a proviso that the hiring be delayed for three months and that the effective date be upon approval.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1614, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1614, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1257 Judiciary and Labor on H.B. No. 1231

The purpose of this measure is to appropriate funds to satisfy claims against the State for judgments, settlements, and miscellaneous payments. The appropriation request in the bill as received totals \$1,340,110.59 allocated among twenty-three claims.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Section 37-77.5, Hawaii Revised Statutes, claims against the State; remedial measures, required the Attorney General, no later than October 1, 1999, to develop and implement a procedure to advise client agencies on how to avoid future claims. The Attorney General must render advice on corrective action to eliminate or mitigate factors contributing to the State's negligence, and agencies, in turn, must heed the Attorney General's advice and implement policies and practices to avoid repetition of similar claims. Your Committee finds these measures inadequate and deserving of revision in future legislative sessions. More must be done to protect members of the public from being harmed by the negligent conduct of state employees. Recurrent problems involve design and maintenance of roadways, irregularities in the procurement process, and mistreatment of incarcerated individuals. Public officials must be held accountable when things go seriously awry. To this end, your Committee strongly recommends that the Attorney General and each executive department and agency take their roles and responsibilities in mitigating future claims against the State very seriously. Your Committee believes that if executive departments and agencies apply appropriate attention to such matters as inappropriate employee behavior and other actions contained in this measure, future claims against the State would certainly diminish.

Notwithstanding the foregoing, your Committee has amended this measure by:

- (1) Appropriating additional funds for two new claims that have been resolved, totaling \$78,960.19;
- (2) Designating the appropriation for Shipley v. State of Hawaii, Civil No. 05-00145, United States District Court, as a settlement, as opposed to a judgment; and
- (3) Making technical, nonsubstantive revisions for clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1231, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1231, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Kokubun).

SCRep. 1258 Judiciary and Labor on H.B. No. 751

The purpose of this measure clarifies the time period in which the department of labor and industrial relations may expend funds appropriated under Act 190, Session Laws of Hawaii 2006. The measure further clarifies restrictions on the use of funds and makes the effective date as of June 29, 2007.

Your Committee received testimony in support of this measure from the Workforce Development Council and the Workforce Investment Boards of the City and County of Honolulu, the County of Hawaii, the County of Maui, and the County of Kauai as well as the Department of Labor and Industrial Relations.

The measure has been amended by clarifying that the amount (not to exceed ten percent) allowed for administrative purposes will be used by the Department of Labor and Industrial Relations and not the counties.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 751, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 751, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1259 Commerce, Consumer Protection and Affordable Housing on H.B. No. 1311

The purpose of this measure is to amend and update chapter 489D, Hawaii Revised Statutes (HRS), governing the licensing and regulation of money transmitters, in order to address and remedy inadvertent errors or omissions in that chapter as originally enacted during the 2006 Regular Session.

This measure specifically adds foreign banks that are licensed under the laws of the United States or any other state to the list of financial institutions that are exempt from chapter 489D, HRS. Your Committee notes that the Commissioner of Financial Institutions indicated there is only one foreign bank, the Philippine National Bank, that is operating in this State.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. The Hawaii Financial Services Association provided comments on this measure.

Your Committee finds that this measure contains primarily housekeeping amendments that will enhance and strengthen the safe and secure operation of the money transmitter industry and protect the public interest.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1311, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 1260 Commerce, Consumer Protection and Affordable Housing on H.B. No. 1518

The purpose of this measure is to require the filing of a certificate of merit with any complaint filed against a design professional for the failure to meet the standard of care.

This measure also requires the filing of a preliminary expert opinion affidavit.

Your Committee received testimony in support of this measure from the American Council of Engineering Companies of Hawaii; the American Society of Civil Engineers; the Coalition of Hawaii Engineering and Architectural Professionals; Fukunaga & Associates, Inc.; Masa Fujioka & Associates; Cedric D.O. Chong & Associates, Incorporated; Bow Engineering & Development, Inc.; Shigemura, Lau, Sakanashi, Higuchi & Associates, Inc.; Engineering Concepts, Inc.; Austin Tsutsumi & Associates, Inc.; Consulting Structural Hawaii, Inc.; and Engineering Solutions, Inc. The Department of Accounting and General Services and the Hawaii Consumer Lawyers submitted testimony in opposition to this measure.

Your Committee finds that the intent of this measure is to reduce the number of frivolous lawsuits against design professionals by requiring a plaintiff or their attorney to hire a qualified professional to certify that the case being brought has merit and that there is evidence of errors, omissions, or negligence on the part of the defendant. Based upon the testimony presented, your Committee finds that the creation of a Design Claims Conciliation Panel might better assist in reducing the number of frivolous lawsuits against design professionals.

Therefore, your Committee has amended this measure to remove the requirements of a certificate of merit and a preliminary expert opinion affidavit and replace them with the creation of a Design Claims Conciliation Panel based, in part, upon the existing Medical Claims Conciliation Panel. Your Committee has also amended the effective date of this measure to promote further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1518, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1518, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 1261 (Majority) Commerce, Consumer Protection and Affordable Housing on H.B. No. 275

The purpose of this measure is to enact the Uniform Athlete Agents Act and to protect student-athletes and education institutions from potential harm caused by unscrupulous athlete agents.

Your Committee received testimony in support of this measure from the Department of Education, the University of Hawai'i, and the Commission to Promote Uniform Legislation. Testimony in opposition to this measure was submitted by the Department of Commerce and Consumer Affairs.

Your Committee notes that the Office of the State Auditor has conducted a sunrise analysis regarding regulating athlete agents as required by section 26H-6, Hawaii Revised Statutes, and pursuant to House Resolution No. 112, Senate Draft 1, of the 2006 Regular Session. Although the Office of the State Auditor concluded that regulation of athlete agents in Hawaii is unnecessary at this time, Hawaii is one of twelve states that does not have any type of law to regulate athlete agents and that the State should not wait until unscrupulous acts of athlete agents becomes a problem and causes significant damage to student athletes and educational institutions in the State.

Your Committee further notes that the National Collegiate Athletic Association requested assistance from the National Conference of Commissioners on Uniform State Laws to adopt uniform legislation to protect student athletes.

Your Committee has amended this measure to make technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 275, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 275, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Slom). Excused, 2 (Ige, Ihara).

SCRep. 1262 Commerce, Consumer Protection and Affordable Housing on H.B. No. 90

The purpose of this measure is to establish a framework by which the Insurance Commissioner can undertake market conduct examinations of various types of insurers' marketplace practices.

This measure adopts the National Conference of Insurance Legislators Market Conduct Surveillance Model in order to enhance the monitoring of the insurance marketplace, protect policyholders, and ensure compliance with the insurance code and other applicable regulations. This measure also appropriates funds to the Department of Commerce and Consumer Affairs to assist in carrying out the requirements set forth in the measure.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and the American Council of Life Insurers. The American Insurance Association submitted comments on this measure.

Your Committee finds that this measure creates a process and system to identify and attempt to remedy market conduct problems that have a substantial adverse impact on consumers, policyholders, and claimants. This measure also creates procedures to communicate and coordinate market conduct actions among other states through the National Association of Insurance Commissioners in order to create efficiency in the sharing of information and the coordination of analysis and examination efforts.

Your Committee has amended this measure, based upon the agreement between the American Council of Life Insurers and the American Insurance Association, by adding additional model language from the National Conference of Insurance Legislators with regard to the level of confidentiality and privilege afforded to insurance compliance self-evaluative audit documents and the confidentiality of data calls used for market analysis, market conduct, or other regulatory requests. Your Committee has also made technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 90, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 90, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 1263 (Majority) Commerce, Consumer Protection and Affordable Housing on H.B. No. 667

The purpose of this measure is to preserve existing affordable housing at the Kukui Garden rental housing complex.

Specifically, this measure:

- (1) Increases the bond ceiling as a possible financing solution to acquire the Kukui Gardens rental housing complex;
- (2) Appropriates funds to finance condemnation proceedings; and
- (3) Appropriates funds for the purchase of a property interest in either all or a portion of Kukui Gardens.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; EAH, Inc.; Housing Hawaii; Faith Action for Community Equity; the Kukui Gardens Association; and three individuals.

Your Committee finds that the Kukui Gardens rental housing complex has served the community for several decades and has provided affordable housing at reasonable rates for many local residents. As the affordable housing crisis continues to grow in the State, it is important that the Kukui Gardens rental housing complex remains affordable. However, the master lease that controls the Kukui Gardens rental housing complex is set to expire in a few years and the tenants are at risk of losing their rental homes or being pushed out into the streets if prices at the complex do not remain affordable. The intent of this measure is to provide a method by which the State can ensure that the Kukui Garden rental housing complex remains affordable for years to come.

Your Committee has amended this measure by:

- (1) Removing the increase in the bond ceiling as a possible financing solution to acquire the Kukui Gardens rental housing complex provided in Act 185, Session Laws of Hawaii 2004;
- (2) Removing language with regard to condemnation of Kukui Gardens;
- (3) Authorizing the issuance of general obligation bonds for the State to acquire a property interest in Kukui Gardens; and
- (4) Appropriating funds to acquire a property interest in Kukui Gardens.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 667, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 667, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Slom). Excused, 1 (Ige).

SCRep. 1264 (Joint) Commerce, Consumer Protection and Affordable Housing and Intergovernmental and Military Affairs on H.B. No. 1001

The purpose of this measure is to encourage the development of affordable housing by establishing an expedited review and approval process for eligible rental housing projects.

This measure also provides that if a county fails or refuses to take action on the proposed rental housing project, the Hawaii Housing Finance and Development Corporation may review and make a decision on the proposed rental housing project.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Partners in Care, Hawaii's Thousand Friends, Housing Hawaii, the Hawaii Association of Realtors, and one individual. Comments on this measure were submitted by the Hawaii Housing Finance and Development Corporation, the Department of Land and Natural Resources, the City and County of Honolulu Department of Planning and Permitting, the Windward Ahupua'a Alliance, the Land Use Research Foundation, the Sierra Club Hawai'i Chapter, and one individual.

Your Committees find that the lack of affordable housing continues to be one of the biggest problems facing the State. Creative ways to alleviate the severe lack of affordable housing must be explored.

Your Committees have amended this measure by:

- (1) Changing the definition of "eligible project" by:
 - (a) Blanking out the minimum number of units required to be affordable to families earning up to eighty per cent of the median income;
 - (b) Removing language relating to the number of units required to be affordable to families earning up to one hundred forty per cent of the median income;
 - (c) Removing the restriction of having an eligible project on ceded lands or on lands classified as rural; and
 - (d) Adding a requirement that the eligible property be developed and operated by a non-profit entity;
- (2) Changing the applicability of the measure from counties with at least 500,000 residents to counties with at least 750,000 residents;
- (3) Amending the time requirements for the county to submit a development's preliminary plans and specifications to the county council and the time in which a county must act on the application from forty-five days to ninety days;
- (4) Adding language to allow for an eligible project to be developed on ceded lands, subject to certain requirements;

- (5) Creating a temporary task force to conduct an inventory of affordable housing and provide certain information to the Legislature prior to the convening of the 2008 Regular Session;
- (6) Appropriating funds to the counties for the purpose of subsidizing the counties up to a blank per cent of the costs incurred by the counties due to the implementation of this measure;
- (7) Changing the effective date; and
- (8) Making technical, nonsubstantive changes for the purposes of clarity and style.

In adding language to allow for an eligible project to be developed on ceded land, subject to certain requirements, your Committees realize that there may be constitutional issues raised by this language and that is why your Committees have amended the effective date to encourage further discussion and to allow the Committee on Ways and Means to seek input from the appropriate entities on this issue.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Affordable Housing and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1001, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1001, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 3 (Ige, Sakamoto, Tsutsui).

SCRep. 1265 Commerce, Consumer Protection and Affordable Housing on H.B. No. 1866

The purpose of this measure is to provide for the regulation of mixed martial arts by the Department of Commerce and Consumer Affairs. This measure also prohibits no rules combat, extreme or ultimate fighting, and similar contests.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs (DCCA) and Icon Sport.

Your Committee finds that mixed martial arts events are one of the fastest growing sporting events in the country. In Hawaii, the events are currently permitted under an exemption from the prohibition against no rules combat, or extreme fighting, and without any type of regulations in place, there is the potential for fraudulent events which is detrimental to both participants in the sport and the general public.

During the 2006 Legislative Session, the Legislature passed Senate Concurrent Resolution No. 37, Senate Draft 1, to request the Office of the Auditor, pursuant to section 26H-6, Hawaii Revised Statutes, to evaluate proposals to regulate mixed martial arts events. Two options were proposed to the Office of the Auditor for regulating mixed martial arts. The first proposal was to create a Mixed Martial Arts Commission and the second proposal was to expand the jurisdiction of the Boxing Commission to include mixed martial arts.

In February 2007, the Office of the Auditor issued its report recommending a third alternative which, in part, suggested the creation of a regulatory program to be placed directly under the Director of Commerce and Consumer Affairs (Director).

Your Committee has amended this measure by:

- (1) Removing the assignment of an executive officer to carry out the Director's duties;
- (2) Revising the definition of "mixed martial arts contest" to clarify the requirement that some type of compensation be exchanged;
- (3) Adding a definition for "mixed martial arts event" to distinguish between a single contest and an event which may consist of more than one contest;
- (4) Adding directors to the list of entities precluded from licensure or subject to licensure revocation under certain circumstances;
- (5) Allowing the Director to make the determination as to assessing an applicant's fitness for licensure, either through an examination or evaluation process;
- (6) Allowing the Director to adopt rules regarding automatic medical suspensions;
- (7) Allowing the Director to adopt rules regarding eye and neurological examinations;
- (8) Allowing the Director to adopt rules regarding any licensure fees;
- (9) Requiring at least one physician to immediately examine a contestant when the contestant is knocked down or is severely injured during a contest and requiring that physician to file a medical report with the Director;
- (10) Eliminating the compensation requirement from the definition of "no rules combat, extreme or ultimate fighting, or similar contest";
- (11) Adding referees and judges to the list of those persons who may be exempt from examination or evaluation if they hold a valid license in another jurisdiction;
- (12) Requiring that promoters authorize the release of their criminal history record to the Director;
- (13) Appropriating \$130,000 for fiscal year 2007-2008, and appropriating \$205,000 for fiscal year 2008-2009, for the implementation and administrative costs to be incurred by the DCCA as a result of this measure being enacted;
- (14) Specifying that the sums appropriated by this measure may be used for the hiring of an administrative assistant, secretary, and clerks; and
- (15) Making technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1866, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1866, H.D. 3, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Ihara).

SCRep. 1266 Commerce, Consumer Protection and Affordable Housing on H.B. No. 1902

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist public utilities with capital improvement projects for the benefit of public health, safety, and general welfare.

Your Committee received testimony in support of this measure from Hawaiian Electric Company, Inc. (HECO); Maui Electric Company, Limited; and Hawaii Electric Light Company, Inc.

Your Committee finds that the proceeds of the sale of the special purpose revenue bonds authorized by this measure will be used for the construction of facilities that will benefit ninety-five per cent of Hawaii's population. According to HECO's testimony, this type of financing will benefit the taxpayer to the extent that it will be less expensive than other types of financing, which will result in lower rates than if other types of financing are used to fund these capital improvement projects.

Your Committee has amended this measure to make technical, nonsubstantive changes for the purpose of clarity, as requested by HECO.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1902, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1902, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Ihara).

SCRep. 1267 (Joint) Commerce, Consumer Protection and Affordable Housing and Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1072

The purpose of this measure is to increase the number of affordable housing units in Honolulu's urban core by creating the Kakaako Affordable Housing Development Program and Fund in the Kakaako Community Development District to provide subsidies and other types of assistance for the new construction, rehabilitation, acquisition, or preservation of certain types of multifamily housing units that are and remain affordable in perpetuity for people meeting certain income requirements.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, the Hawaii Community Development Authority, and Housing Hawaii. The Department of Budget and Finance submitted testimony in opposition to this measure.

Your Committees find that the State is facing a shortage of affordable housing and that Hawaii's low- to moderate-income families are experiencing difficulties entering the housing market. The intent of this measure is increase the number of affordable housing units, specifically in the Kakaako District.

Your Committees have amended this measure to remove the creation of the Kakaako Affordable Housing Development Fund and to only include an appropriation from the general funds of the State. Your Committees have also amended this measure to change the sunset date from five to three years.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Affordable Housing and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1072, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1072, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 3 (Espero, Hee, Ige).

SCRep. 1268 (Joint) Energy and Environment and Education on H.B. No. 1003

The purpose of this measure is to facilitate the growth of the alternative fuel industry in the State by:

- (1) Statutorily establishing the Hawaii Natural Energy Institute of the University of Hawaii at Manoa (Institute) and a funding mechanism for the development of renewable energy and end-use energy-efficient technologies, including those that ameliorate peak demand problems;
- (2) Establishing the Hawaii Biofuels Program within the Department of Business, Economic Development, and Tourism to manage the State's transition to energy self-sufficiency; and
- (3) Requiring the Department of Business, Economic Development, and Tourism to develop and prepare a bioenergy master plan.

Your Committees received testimony in support of this measure from Hawaiian Electric Company, Inc.; Hawaii Energy Policy Forum; Honolulu Seawater Air Conditioning, LLC; and ClearFuels Technology, Inc. The Hawaii Natural Energy Institute of the University of Hawaii at Manoa; the Hawaii Renewable Energy Alliance; and the Department of Business, Economic Development, and Tourism submitted testimony in support of this measure with comments. The Department of Health submitted testimony in opposition to a fiscal component of this measure. Your Committees received testimony in opposition to this measure from nine individuals. Life of the Land and one individual submitted comments.

Your Committees find that Hawaii's future environmental health and economic success depends on its implementation of renewable energy technologies. Your Committees believe that this measure will significantly stimulate the development of a renewable energy industry in Hawaii by optimally integrating renewable energy technologies and end-use energy efficiency technologies.

Your Committees have amended this measure by:

- (1) Clarifying that the Department of Business, Economic Development, and Tourism shall consult with representatives of the diverse stakeholder interests in developing the bioenergy master plan; and
- (2) Requiring the Department of Business, Economic Development, and Tourism to appoint the two-person panel of independent energy and environmental technical experts to study and report on the efficacy of the Energy Systems Development Special Fund's projects and activities.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1003, H.D. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1003, H.D. 3, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, 5 (Chun Oakland, Hee, Ihara, Kokubun, Taniguchi).

SCRep. 1269 Public Safety on H.B. No. 1399

The purpose of this measure is to clarify that inmates who participate in work, education, and vocational training programs are exempt from statutory employee benefits.

Testimony in support of this measure was submitted by the Department of Public Safety and the Department of Labor and Industrial Relations.

Your Committee finds that the Federal Unemployment Tax Act exempts inmates from statutory employee benefits such as unemployment benefits, but state law does not explicitly provide for a similar exemption. Your Committee further finds that if inmates are considered employees of the State, the cost of unemployment insurance and other statutorily created employee benefits could force the closure of important rehabilitative programs.

Your Committee amended this measure to correctly reflect existing language in the Hawaii Revised Statutes.

It is the intent of your Committee to specify that inmates involved in work, education, or vocational training programs are exempted from statutory employee benefits.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1399, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1399, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, none.

SCRep. 1270 Public Safety on H.B. No. 1

The purpose of this measure is to improve the process by which adult offenders reenter the community.

Specifically, this measure establishes a comprehensive offender reentry system, which:

- (1) Assists adult offenders with their reintegration back into the community;
- (2) Creates a reentry task force to examine ways to pool existing resources and funding streams to promote lower recidivism rates for returning prisoners and minimize the harmful effects of incarceration on families and communities; and
- (3) Makes an appropriation for the reentry system.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs; American Civil Liberties Union of Hawai'i; Community Alliance on Prisons; The Drug Policy Forum of Hawaii; Hawaii Substance Abuse Coalition; Hina Mauka; Maui Economic Opportunity, Inc.; Mestizo Association; Waimanalo Hawaiian Homes Association; and four individuals. The Department of Education, Department of Human Services; Department of Labor and Industrial Relations, Department of Public Safety, Hawaii Paroling Authority, and one individual submitted testimony supporting the intent of this measure. The Department of Taxation submitted testimony in opposition to the subsection requiring that the Department "develop and propose tax incentives for employers who hire individuals who were formerly incarcerated." The Department of the Attorney General submitted concerns.

Your Committee finds that preparing incarcerated persons for reentry into the community is essential to their successful rehabilitation and for the prevention of recidivism. A system that ensures offenders exiting our prisons have acquired the skills and treatment necessary to reenter the community as law-abiding citizens will enhance public safety. Preparation for reentry must include not only educational programs, but also life skills development workshops.

Your Committee further finds that a comprehensive reentry program will be cost-effective since the cost of incarceration greatly outweighs the cost of preparing incarcerated offenders to become productive members of society. Furthermore, research has shown that continuing treatment through a comprehensive reentry program as proposed by this measure is necessary to ensure that released offenders have the support they need to be successful.

This measure was amended to consolidate several bills pertaining to offender reentry, specifically: House Bill No. 5, H.D. 1; House Bill No. 624, H.D. 2; and House Bill No. 920, H.D. 1.

The original measure is now Part I of this amended measure. Your Committee amended Part I to conform to the language in the Senate companion bill, (Senate Bill No. 932, S.D. 2). By way of conforming to the Senate version, Part I of this measure has been amended to have the Department of Taxation serve with the Department of Labor and Industrial Relations in an advisory role to the Department of Public Safety to develop proposed tax incentives for employers who hire formerly incarcerated individuals; to delete the provisions establishing a Reentry Task Force, replacing it with a Stakeholders Committee; and to make numerous, nonsubstantive technical changes. This measure was further amended to delete the section pertaining to children of incarcerated parents since not all children of incarcerated parents are abused and neglected, nor are they all placed with Child Protective Services. Your Committee finds the provisions in the proposed section might have been over-inclusive, duplicative, and confusing with regard to existing provisions for reported cases of abuse and neglect overseen by the Department of Human Services.

By way of incorporating House Bill No. 5, H.D. 1, as Part III of this amended measure, your Committee amended this measure to provide an appropriation to expand the restorative circles pilot program to correctional facilities statewide. The program brings the offender together with the victim with the guidance of an impartial, trained, and experienced community leader and the supporters of the offender and the victim on a volunteer basis for reconciliation and transition planning. Your Committee chose to use the language in Part III of Senate Bill No. 932, S.D. 2, which had a few minor technical differences. This measure was further amended to reflect the current number of completed circles and to clarify

that the appropriation made in Part II is to be used for the continuation of existing restorative circles programs, as well as establishing additional programs at correctional facilities throughout the State.

By way of incorporating House Bill No. 624, H.D. 2, as Part IV of this amended measure, your Committee amended the measure to permit the Hawaii Paroling Authority to parole committed persons to the county in the State where the committed person has the greatest family or community support, opportunities for employment, job training, education, treatment, and other social services. This will allow the Hawaii Paroling Authority to provide meaningful opportunities for offenders to reintegrate into society and demonstrate that they have the potential to function as law-abiding citizens. Your Committee chose to use the substantially similar language of Part IV in Senate Bill No. 932, S.D. 2, which had technical, nonsubstantive differences.

By way of incorporating House Bill No. 920, H.D. 1, as Part VI of this amended measure, your Committee amended the measure to make an appropriation for a cognitive restructuring and transition pilot program to be established at the Kulani Correctional Facility, Hawaii Community Correctional Center, and the Hale Nani Reintegration Center. Your Committee chose to use the substantially similar language in Part VI of Senate Bill No. 932, S.D. 2, which had few minor technical, nonsubstantive differences.

Also by way of conforming to the language of Senate Bill No. 932, S.D. 2, this measure was further amended to:

- (1) Create a two-year pilot day reporting center administered by the Department of Public Safety and make an appropriation therefor; and
- (2) Make an appropriation to the Maui Economic Opportunity, Inc., in the 2007-2008 fiscal year as a grant pursuant to 42F, Hawaii Revised Statutes, for the development and maintenance of inmate reintegration programs.

Your Committee has also amended this measure by making other technical, nonsubstantive amendments for purposes of clarity and style. Your Committee retained the delayed effective date to ensure further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Sakamoto).

SCRep. 1271 (Joint) Human Services and Public Housing and Education on H.B. No. 1786

The purpose of this measure is to appropriate funds for the coordination and administration of the University of Hawaii's Bridge to Hope Program.

The University of Hawai'i System, the Bridge to Hope Program, the University of Hawai'i at Manoa Women's Center, and six individuals, who are former or current Bridge to Hope Program participants, submitted testimony in support of this measure.

Your Committees find that the Bridge to Hope Program is a nationally recognized model that supports post-secondary education as a means for welfare recipients to achieve life-long economic self-sufficiency. Through a partnership between the University of Hawaii and the Department of Human Services, the Bridge to Hope Program provides on-campus student employment opportunities so student welfare recipients can meet their requirements for paid employment.

By appropriating funds for the coordination and administration of the Bridge to Hope Program, this measure will help student welfare recipients gain employment, earnings, job skills, and employer references.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1786, H.D. 1, and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 5 (Hee, Ihara, Nishihara, Gabbard, Hemmings).

SCRep. 1272 Human Services and Public Housing on H.B. No. 1007

The purpose of this measure is to prohibit the Department of Human Services from considering moneys in escrow accounts established under the federal Housing and Urban Development Family Self-Sufficiency Program when determining eligibility for assistance or other benefits under chapter 346, Hawaii Revised Statutes.

The Hawai'i Alliance for Community-Based Economic Development submitted testimony in support of this measure.

Your Committee finds that economic stability does not arise solely from income. Financial assets, such as cash savings and home equity, are a critical component of economic security. Financial assets offer individuals a viable and hopeful future, stimulate development of human and other capital, and enhance the welfare of children. The Family Self-Sufficiency Program allows public housing residents and holders of federal Section 8 Homeownership Program rental vouchers to build savings in an escrow account to be used for the down payment on a home or other uses.

This measure supports homeownership by households receiving low-income housing assistance by exempting these Family Self-Sufficiency Program escrow accounts from asset tests used to determine eligibility for public benefit programs administered by the Department of Human Services.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1007, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Hemmings).

SCRep. 1273 Human Services and Public Housing on H.B. No. 928

The purpose of this measure is to appropriate funds to expand the federal Section 8 Homeownership Option Program and the federal Housing Choice Voucher Family Self-Sufficiency Program, and to exempt Family Self-Sufficiency Escrow Accounts from the asset test for public assistance.

The Hawai'i Alliance for Community-Based Economic Development submitted testimony in support of this measure. The Department of Human Services and the Hawaii Public Housing Authority submitted testimony in support of the intent of this measure.

Your Committee finds that economic stability does not arise solely from income. Financial assets, such as cash savings and home equity, are a critical component of economic security. Financial assets offer individuals a viable and hopeful future, stimulate development of human and other capital, and enhance the welfare of children.

The federal Section 8 Homeownership Option Program and the federal Housing Choice Voucher Family Self-Sufficiency Program provide unique opportunities for low- and moderate-income earners to save and pay for homeownership. The Section 8 Homeownership Option Program provides continued monthly homeownership assistance payments to qualified Section 8 Housing Choice Voucher Program participants to help reduce their monthly mortgage payments, as well as, pay for other monthly homeownership expenses in lieu of rental payments.

The Housing Choice Voucher Family Self-Sufficiency Program provides funds to public housing agencies to hire coordinators to help participating families set a plan for employment, education, and possibly homeownership. A baseline rent is established in the first year. As a family's income increases, the family continues to pay a percentage of its income toward rent, and the difference between its new rental payment and its baseline rent is deposited into an escrow account that can be applied towards the goals in the plan.

Your Committee further finds that this measure will help increase low- and moderate-income families' homeownership in Hawaii.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 928, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Ihara).

SCRep. 1274 Human Services and Public Housing on H.B. No. 817

The purpose of this measure is to appropriate funds for the Sage PLUS program to expand services to the neighbor islands and to support the program's operating costs.

The Department of Health submitted testimony in support of the intent of this measure. The Hawai'i Alliance for Retired Americans, Kokua Council, the National Multiple Sclerosis Society, and the International Longshore and Warehouse Union submitted testimony in support of this measure.

Your Committee finds that the Sage PLUS program provides assistance to people receiving Medicare and Medicaid benefits, as well as their families, caregivers, and people on the verge of retirement. This measure seeks to expand the Sage PLUS program and support its operating costs so that those in need can continue to benefit from what the program offers.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 817, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Ihara).

SCRep. 1275 Human Services and Public Housing on H.B. No. 320

The purpose of this measure is to appropriate funds to improve security measures at the Mayor Wright Homes public housing complex, including the contract hiring of at least three full-time security officers.

The Representative for the Twenty-eighth House District, the Hawaii Public Housing Authority, and six individuals submitted testimony in support of this measure.

Your Committee finds that recently, the Mayor Wright Homes public housing complex has experienced an increase in incidence of public drunkenness, excessive noise, and conflicts between neighbors. The public housing complex has even been the site of a shooting. This measure will help improve security measures at the public housing complex, including the contract hiring of three full-time security officers.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 320, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Ihara).

SCRep. 1276 (Joint/Majority) Human Services and Public Housing and Commerce, Consumer Protection and Affordable Housing on H.B. No. 469

The purpose of this measure is to prohibit discrimination against domestic violence victims in real property transactions, specifically housing discrimination.

Hawaii Women Work and the American Association of University Women submitted testimony in support of this measure with amendments. Hawai'i Women Lawyers, the Legal Aid Society of Hawai'i, and Hawai'i Civil Rights Commission submitted testimony in support of the intent of this measure with amendments. The Hawaii Council of Associations of Apartment Owners and one individual submitted testimony in opposition to this measure. The Hawaii Association of Realtors and the Hawaii State Commission on the Status of Women submitted comments.

Your Committees find that recent amendments to the federal Violence Against Women Act of 1998, expressly prohibit federally-funded public housing agencies from terminating a lease due to incidents or threats of domestic violence, dating violence, or stalking. Further, according to the testimony of the Legal Aid Society of Hawai'i, some courts have recognized that discrimination against victims of domestic violence is discrimination under the federal Fair Housing Act when it is based on gender stereotypes. This measure supports women who are trying to flee domestic violence. It creates a protected class for domestic violence victims so that they cannot be discriminated against in real property transactions.

There was concern expressed regarding whether this measure will impact a landlord's ability to lawfully enforce rules or to exercise existing remedies under the Residential Landlord-Tenant Code. It is your Committees' intent not to impact the Residential Landlord-Tenant Code nor any apartment, condominium, or house rules.

Your Committees have amended this measure by:

- (1) Under the definition of "victim of domestic violence":
 - (A) Deleting the requirement that the felony or misdemeanor crime of violence be committed within the past three years;
 - (B) Deleting the proviso regarding the circumstances under which a person shall not be considered a victim of domestic violence; and
 - (C) Adding language to include a person who has sought assistance for the domestic violence with a community resource, including a domestic violence agency, a minister, a therapist, or other social service agency;
- (2) Deleting the proposed section 515-3(14), Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 469, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 469, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Ayes with Reservations, 1 (Ige). Noes, 2 (Hemmings, Slom). Excused, 2 (Ihara, Sakamoto).

SCRep. 1277 Human Services and Public Housing on H.B. No. 1364

The purpose of this measure is to broaden participation in the State Rent Supplement Program by removing the statutory limitation on the subsidy amount, which is currently \$160 per month; to increase the income limits for participation to up to seventy per cent of area median income; and to include certain individuals and families on the program's wait list.

The Hawaii Public Housing Authority, Catholic Charities Hawai'i, Hawaii Family Forum, Partners in Care, Housing Hawaii, and one individual submitted testimony in support of this measure.

Your Committee finds that the State Rent Supplement Program could assist a larger number of households in today's housing market if the statutory limitation on the subsidy amount is removed and the income limit for participation is increased to ninety-five per cent of the area median income.

It is your Committee's intent to allow the Hawaii Public Housing Authority to adjust the subsidy amount to reflect current market conditions. Your Committee has amended this measure by:

- (1) Increasing the income limits for participation from fifty per cent of the area median income to ninety-five per cent of area median income;
- (2) Allowing a person living in a transitional shelter who meets the requirements of section 356D-153, Hawaii Revised Statutes, to be considered a "qualified tenant" for purposes of the rent supplement;
- (3) Changing the effective date from January 1, 2020, to January 1, 2008; and
- (4) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1364, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1364, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Hemmings).

SCRep. 1278 (Joint) Human Services and Public Housing and Intergovernmental and Military Affairs on H.B. No. 1361

The purpose of this measure is to correct chapter 356D, Hawaii Revised Statutes, relating to the Hawaii Public Housing Authority, to reflect the Legislature's intent to codify various acts into the chapter, and to make other necessary technical and housekeeping amendments.

The Hawaii Public Housing Authority and the Hawaii Community Development Authority submitted testimony in support of this measure.

Your Committees find that this measure makes necessary amendments to relevant sections of chapter 356D, Hawaii Revised Statutes, to ensure the codification of analogous amendments made in Act 24, Session Laws of Hawaii 2006.

Your Committees have amended this measure by:

- (1) Clarifying, in section 8 of the measure, that with regard to the former Barbers Point Naval Air Station, the Hawaii Public Housing Authority shall work with landowners and the local redevelopment authority on the use of barracks and other facilities located in the Kalaeloa Community Development District that are suitable for temporary emergency housing for homeless individuals and families; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1361, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1361, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 2 (Hooser, Ihara).

SCRep. 1279 Human Services and Public Housing on H.B. No. 1356

The purpose of this measure is to:

- (1) Increase the time limit for application for a higher education board allowance to provide former foster youth who are between the ages of twenty-two and twenty-six years of age on July 1, 2007, and already attending an institution of higher education, an opportunity to apply for a higher education board allowance within a year; and
- (2) Increase the maximum age for the benefit with a maximum benefit period of sixty months.

The Department of Human Services, the Hawaii Foster Youth Coalition, the Hawaii Youth Services Network, Legal Aid Society of Hawaii, Hawaii Family Forum, and eight individuals submitted testimony in support of this measure.

Your Committee finds that this measure will improve the educational prospects of former foster youth. As noted by the Legal Aid Society of Hawaii, at present there is a narrow window of opportunity for former foster youth to apply for a higher education allowance, which requires the former foster youth to have begun attending an accredited institution of higher learning within one school year after high school. However, upon turning eighteen years of age, many former foster youth leave with a desire for freedom and without realizing what benefits may be available to them. Increasing the time limit and the maximum age for the benefit will enable those former foster youth who did not attend an accredited institution of higher learning within one school year after high school to apply for the benefit and have a chance to become a better educated adult.

The Department of Human Services testified that this measure, if passed, would result in a revenue loss to the State of approximately \$287,247 for fiscal year 2007-2008, and approximately \$349,140 for fiscal year 2008-2009.

It is your Committee's intent to help former foster youth to successfully transition to independent adult status.

Your Committee has amended this measure by changing the effective date from July 1, 2020, to July 1, 2007.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1356, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1356, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Hemmings).

SCRep. 1280 Human Services and Public Housing on H.B. No. 1043

The purpose of this measure is to establish a task force to coordinate resources for homeless children, and to establish and appropriate funds to a special fund.

The Department of Education, Legal Aid Society of Hawaii, Hawaii Family Forum, the Hawaii Youth Services Network, the Institute for Human Services, and one individual submitted testimony in support of this measure. The Department of Budget and Finance and the Hawaii Public Housing Authority submitted testimony in support of the intent of this measure. Catholic Charities Hawai'i submitted comments.

Your Committee finds that children, particularly young children, are the most vulnerable during, and at times victimized by, homelessness. While many children develop some resiliency to their situation and are able to overcome the ravages of homelessness, the deficits of homelessness often lead to poor health, exposure to violence, poor academic performance, and a lack of positive social interactions. This measure will minimize the negative impact of homelessness on children by establishing a task force to coordinate resources to benefit children who are homeless.

It is the Committee's intent to try to reduce the risk and impact of homelessness on children.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style, including adding language to the effective date of July 1, 2020, to note that the entire measure shall be repealed on June 30, 2011; provided that sections 5 and 6 shall take effect on July 1, 2020. This will ensure that the task force and the special fund cease to exist on the same date.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1043, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1043, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Hemmings).

SCRep. 1281 (Joint) Human Services and Public Housing and Health on H.B. No. 1008

The purpose of this measure is to:

- (1) Create a three-year pilot program that requires the Department of Human Services to pay half of the health care premiums for coverage provided by a managed care plan for uninsured children who are thirty-one days to eighteen years of age and who are ineligible for other state or federal health care coverage;
- (2) Provide children of families whose income is at or below three hundred per cent of the federal poverty level with free medical care by expanding the State's QUEST-Net eligibility requirements;
- (3) Establish a Hawaii Infant Care Special Fund to provide health care to infants from birth to thirty-one days of age through a matching fund, public-private partnership with the Department of Health; and
- (4) Appropriate funds for the purposes of the measure.

The Hawaii Medical Service Association, the Hawai'i Primary Care Association, the Hawaii Family Forum, Hawaii Pacific Health, and Good Beginnings Alliance submitted testimony in support of this measure. The Department of Human Services submitted testimony in support of the intent of this measure. The Attorney General submitted comments.

Your Committees find that there is a gap group of uninsured children in the State that is ineligible for any state or federal health care coverage. Your Committees further find that children who remain uninsured typically do not receive an appropriate level of medical care. The State has an opportunity to help provide health care coverage for children in the gap group through public-private partnerships.

It is your Committees' intent to expand health care coverage for children in Hawaii. Your Committees have amended this measure by:

- (1) Deleting all of its provisions;
- (2) Inserting the provisions of S.B. No. 1918, S.D. 2;
- (3) Making changes to, among other things:
 - (A) Provide health care services to uninsured newborn children who are one, but not more than thirty days of age by establishing the Hawaii Infant Health Care Program as a temporary, three-year pilot program;
 - (B) Provide health care coverage to certain children who are at least thirty-one days, but less than nineteen years old through a public-private partnership between the Department of Human Services and one or more managed care plans;
 - (C) Provide that certain children shall be eligible for enrollment into the program without being subject to the six month uninsured requirement;
 - (D) Provide access to medical care free-of-charge for certain children less than nineteen years of age whose family income is at or below three hundred per cent of the federal poverty level;
 - (E) Provide medical assistance under QUEST-Net at no charge to children less than nineteen years of age whose family income is above two hundred fifty per cent and does not exceed three hundred per cent of the federal poverty level for Hawaii and who are otherwise eligible for QUEST-Net benefits;
 - (F) Ensure that the programs, and any reimbursements or premium payments made pursuant thereto, are subject to the appropriation of general funds; and
 - (G) Clarify that this measure is not intended to discourage employers from offering to pay, or from paying for, dependent coverage for their employees, or to supplant employer-sponsored dependent coverage plans;
- (4) Appropriating the following sums:
 - (A) \$250,000 for fiscal year 2007-2008, and \$500,000 for fiscal year 2008-2009, for the Hawaii Infant Health Care Program;
 - (B) \$535,500 for fiscal year 2007-2008, and \$1,071,000 for fiscal year 2008-2009, for the Hawaii Children's Health Care Program;
 - (C) \$109,310 for fiscal year 2007-2008, and \$218,620 for fiscal year 2008-2009, for free medical care for certain children less than nineteen years of age whose family income is at or below three hundred per cent of the federal poverty level;
 - (D) \$428,500 for fiscal year 2007-2008, and \$857,000 for fiscal year 2008-2009, to provide medical assistance under QUEST-Net at no charge to certain children who are less than nineteen years of age;
 - (E) \$77,760 for fiscal year 2007-2008, and the same sum for fiscal year 2008-2009, for three full-time equivalent permanent (3.00 FTE) Eligibility Worker I positions;
 - (F) \$100,000 for fiscal year 2007-2008 to, among other things, purchase computer equipment, office furniture, and other office supplies and equipment necessary to implement sections of the measure;
- (5) Making the measure effective upon July 1, 2007; provided that on June 30, 2010, it shall be repealed and section 346-59.4, Hawaii Revised Statutes, shall be reenacted in the form in which it read before the approval of this measure; and
- (6) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1008, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1008, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 4 (Hooser, Menor, Sakamoto, Whalen).

SCRep. 1282 Human Services and Public Housing on H.B. No. 833

The purpose of this measure is to exempt Medicaid waiver service from the scope of certain employment-related law.

Adult Foster Home Association; Catholic Charities Hawai'i; Supporting Exceptional Citizens of Hawaii; Home & Community Services of Hawaii, Inc.; Easter Seals Hawai'i; Philippine Nurses Association Hawaii; Congress of Visayan Organizations; the National Federation of Filipino American Associations; United Filipino Council of Hawaii; Filipino Coalition for Solidarity; Oahu Filipino Community Council; Nursing, Advocates & Mentors, Inc.; and forty-three individuals submitted testimony in support of this measure. The State Council on Developmental Disabilities and Responsive Caregivers of Hawaii submitted testimony in support of the intent of this measure. One individual submitted testimony in opposition to this measure. The Department of Labor and Industrial Relations, the Attorney General, and Aloha Habilitation Services submitted comments.

Your Committee finds that chapters 386, 392, and 393, Hawaii Revised Statutes (HRS), currently provide an exemption from the definition of "employer" under those chapters for domestic services, which includes certain attendant care and day care services performed by an individual in the employ of a recipient of social service payments. It appears that the lack of a definition of the term "recipient of social service payments" has caused confusion and disparity in the application of these chapters and chapter 383, HRS, amongst the home care community and threatens the provision of these critical services: services that enable many disabled individuals to remain in the community.

It is the intent of your Committee to attempt to create certainty and consistency in the application of these laws.

Your Committee has amended this measure by:

- (1) Replacing all of its provisions with the provisions of S.B. No. 1780, S.D. 2, which deals with the same subject matter;

- (2) Changing the amendment to section 383-7, HRS, to exclude the following service from the definition of employment:

Domestic service, which includes in-home and community-based services for persons with developmental disabilities and mental retardation under the Medicaid Home and Community-based Services Program pursuant to 42 Code of Federal Regulations sections 440.180 and 441.300, and 42 Code of Federal Regulations part 434, subpart A, as amended, including chore, personal assistance and habilitation, residential habilitation, supported employment, respite, and skilled nursing services, except for adult day health services, as the terms are defined by the Department of Human Services, performed by an individual under a contract between the individual and a recipient of social service payments, which shall be presumed to be an independent contractor relationship unless the Director can demonstrate that the individual is engaged in a common law employer-employee relationship with the recipient of social service payments or the recipient of social service payments elects in writing to employ the individual;
- (3) Amending sections 386-1, 392-5, and 393-5, HRS, to exclude the aforementioned service from the definition of employment under those sections, as well;
- (4) Adding more explanative language to the purpose section;
- (5) Changing the effective date from July 1, 2059 to upon approval; and
- (6) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 833, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 833, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 1283 Human Services and Public Housing on H.B. No. 1830

The purpose of this measure is to:

- (1) Provide immunity from prosecution to persons who leave an unharmed newborn at a hospital, fire station, or police station, or with emergency services personnel within seventy-two hours of the child's birth;
- (2) Provide immunity from liability to the hospital, fire station, police station, or personnel who receive the newborn;
- (3) Require that the person who leaves a newborn provide written information on the family medical history of the child; and
- (4) Require the personnel who receive the newborn to make a reasonable effort to obtain certain information regarding the child from the person leaving the child.

Parents and Children Together, the Hawaii Family Forum, the Representative of the Nineteenth District, and six individuals submitted testimony in support of this measure. The Department of Human Services submitted testimony in support of the intent of this measure. The Senior Policy Advisor to the Governor and two individuals submitted testimony in opposition to this measure.

Your Committee finds that the intent of a "safe-surrender" law is to focus on the health and safety of a child instead of a parent's liability for abandonment. The goal is to encourage a person who may be at risk of abandoning a child to do so at a suitable location, such as a hospital, fire station, or police station, or with the appropriate personnel at these facilities.

Concerns were raised regarding whether this measure is in an appropriate form to accomplish its intent, and whether additional amendments are necessary to prevent unintended consequences in other areas of the law.

It is your Committee's understanding that emergency medical services personnel are included in this measure under the definition of "emergency services personnel" pursuant to section 78-52, Hawaii Revised Statutes.

It is your Committee's intent to encourage further discussion of this measure. Your Committee has amended this measure by:

- (1) Deleting the amendment to section 709-902(3), Hawaii Revised Statutes, in section 3 of the measure that elevated the penalty for abandonment of a child to a class C felony; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1830, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1830, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 3. Ayes with Reservations, 1 (Ihara). Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 1284 (Joint/Majority) Human Services and Public Housing and Commerce, Consumer Protection and Affordable Housing on H.B. No. 436

The purpose of this measure is to require that Med-QUEST and Medicaid coverage include chiropractic care.

The Hawaii State Chiropractic Association and six individuals submitted testimony in support of this measure. The Department of Human Services and the Hawaii Medical Service Association submitted testimony in support of the intent of this measure. The Hawaii Medical Association submitted testimony in opposition of this measure.

Your Committees find that Med-QUEST and Medicaid recipients would benefit from chiropractic care to the same extent as others who have medical coverage for this service. According to the testimony, chiropractic care can help improve physical health by increasing functional capacity and preventing disabling conditions. Also, it was noted that more than twenty-five other states include chiropractic care in their Medicaid programs.

Your Committees note that the Department of Human Services provided a statement that the projected cost for chiropractic services for both the QUEST and Medicaid fee-for-service programs is \$4,230,995, which is based on twenty sessions per year, per person. Depending on whether the Department of Human Services receives approval from the federal Centers for Medicare and Medicaid Services, the federal share would be \$2,369,357 and \$1,861,638 in state general funds would be required. These figures include the cost of a necessary x-ray component, as well.

It is your Committees' intent to reduce long-term health care costs by providing chiropractic coverage that will help improve overall health and prevent disabling conditions that would otherwise be far more costly to treat. Your Committees have amended this measure by:

- (1) Requiring the Department of Human Services to pass funding on to Med-QUEST plans to implement the services;
- (2) Appropriating an unspecified sum for the provision of the chiropractic coverage;
- (3) Changing the effective date from July 1, 2020, to January 1, 2008; provided that the appropriation section shall take effect on July 1, 2007; and
- (4) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 436, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 436, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Ayes with Reservations, 1 (Slom). Noes, 1 (Hemmings). Excused, 2 (Ihara, Sakamoto).

SCRep. 1285 Human Services and Public Housing on H.B. No. 807

The purpose of this measure is to appropriate funds to expand the Kupuna Care Program's in-home and access services, and to provide expanded assistance and support to family caregivers.

The Long-Term Care Ombudsman, Kokua Council, the National Multiple Sclerosis Society, the Hawaii Disability Rights Center, and nine individuals submitted testimony in support of this measure with the proposed amendments. The Department of Health submitted testimony in support of the intent of this measure with the proposed amendments.

Your Committee received a statement from the Long-Term Care Ombudsman that this measure, if passed, would cost the State approximately \$311,628 for fiscal year 2007-2008, and \$236,628 for fiscal year 2008-2009.

Your Committee finds that the Executive Office on Aging's Long-Term Care Ombudsman Program is mandated by the United States Administration on Aging through the Older Americans Act. The Long-Term Care Ombudsman currently advocates for and protects the rights of residents of nursing homes, adult residential care homes, assisted living facilities, and other long-term care facilities. However, there is no statutory provision for the establishment of an Office of the Long-Term Care Ombudsman.

The program is staffed by the Long-Term Care Ombudsman, one Long-Term Care Ombudsman specialist, and one volunteer coordinator. The Long-Term Care Ombudsman Program serves over eight thousand residents in approximately seven hundred thirty-one licensed facilities statewide. The Long-Term Care Ombudsman Program needs to hire regional program specialists to better provide for residents of long term care facilities on the neighbor islands.

It is your Committee's intent to formally establish an Office of the Long-Term Care Ombudsman pursuant to the federal Older Americans Act, as amended. Your Committee has amended this measure by:

- (1) Deleting all of its provisions and replacing them with the contents of S.B. No. 1190, S.D. 1, to:
 - (A) Establish an Office of the Long-Term Care Ombudsman within the Executive Office on Aging; and
 - (B) Appropriate \$311,628 for fiscal year 2007-2008, and \$236,627 for fiscal year 2008-2009, for the Office of the Long-Term Care Ombudsman to hire additional staff and to support the operation and delivery of a regional Long-Term Care Ombudsman Program on the neighbor islands; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 807, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 807, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Hemmings).

SCRep. 1286 Human Services and Public Housing on H.B. No. 104

The purpose of this measure is to amend the law pertaining to the Medicaid fee schedule to require an annual adjustment for inflation; appropriate funds to retroactively adjust for inflation, payments made to Medicaid fee-for-service providers; and change the Medicaid fee schedule to a percentage of the 2006 Medicare fee schedule.

Hawaii Medical Service Association submitted testimony in support of the intent of this measure. Hawaii Health Systems Corporation, Hawaii Pacific Health, Hawaii Medical Association, Hawai'i Primary Care Association, Kaiser Permanente, the Healthcare Association of Hawaii, the Chamber of Commerce of Hawaii, and the Hawaii Chapter of the American Physical Therapy Association submitted testimony in support of this measure. The Department of Human Services submitted testimony in opposition.

Your Committee received a fiscal impact statement from the Department of Human Services that this measure, if passed, would cost the State \$17,562,794 for the Medicaid fee-for-service program for fiscal year 2008 and fiscal year 2009, based on increasing the Medicaid fee schedule to one hundred per cent of the 2006 Medicare fee schedule. Further, the cost of retroactive payments to providers for fiscal year 2006 and fiscal year 2007 would be \$10,737,357.

According to the testimony, the payment methodology for QUEST is different from that of the Medicaid fee-for-service program, and as such, an adjustment could cause unintended consequences to the operating systems of all QUEST plans in the State and possibly the Department of Human Services, as well.

Your Committee finds that inadequate payment and reimbursement from Medicaid have compromised access to medical care not only for the uninsured and those covered by Medicaid, but also for those individuals who have private employer-based health insurance. Hawaii's hospitals in particular have been detrimentally affected by the inadequacy of Medicaid reimbursements and payments that are far below cost.

It is your Committee's intent to try to address the need to meet rising health care costs and to ensure that Hawaii's residents have continued access to quality health care. Your Committee has amended this measure by:

- (1) Adding language to indicate that the amendments do not apply to QUEST medical plans;
- (2) Changing the term "practitioner" to "provider" and including outpatient hospital services to reflect the original intent of the measure;
- (3) Indicating that the rates of payment shall be one hundred per cent of the Medicare fee schedule for the current year;
- (4) Appropriating:
 - (A) \$9,800,000 for fiscal year 2007-2008 to adjust for inflation, payments made to Medicaid fee-for-service hospitals during fiscal biennium 2005-2007;
 - (B) \$8,800,000 for fiscal year 2007-2008 and the same sum for fiscal year 2008-2009 to pay for higher reimbursement costs attributable to increase in the Medicaid fee schedule; and
 - (C) \$8,000,000 for fiscal year 2007-2008 for the State's portion of the federal disproportionate share hospital allowance;
- (5) Changing the effective date from July 1, 2020, to July 1, 2007; and
- (6) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 104, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 104, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Ihara).

SCRep. 1287 Human Services and Public Housing on H.B. No. 1044

The purpose of this measure is to provide equal access to immunosuppressant medication for Medicaid patients with HIV, AIDS, or Hepatitis C, or who require immunosuppressives due to organ transplants, regardless of whether they are in the QUEST or Medicaid Fee-For-Service programs.

The Department of Human Services; the Hawaii Disability Rights Center; the Hepatitis Prevention, Education, Treatment & Support Network of Hawai'i; and two individuals submitted testimony in support of this measure. The Hawaii Association of Health Plans submitted testimony in opposition. The Hawaii Medical Service Association submitted comments.

Your Committee finds that while the current law exempts physicians prescribing immunosuppressant medication from preauthorization procedures under Medicaid, an exclusion pertaining to QUEST medical plans restricts QUEST Medicaid recipients' access to immunosuppressant medication. This measure will provide equal access to immunosuppressant medication for Medicaid patients with HIV, AIDS, or Hepatitis C, or who require immunosuppressives due to organ transplants, regardless of whether they are in the QUEST or Medicaid Fee-For-Service programs.

It is your Committee's intent to support equal access to immunosuppressant medication for this population of QUEST Medicaid recipients. Your Committee has amended this measure by:

- (1) Changing the effective date from upon its approval to January 1, 2008, to give all of the affected plans sufficient time to implement the proposed changes; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1044, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1044, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Hemmings).

SCRep. 1288 Human Services and Public Housing on H.B. No. 825

The purpose of this measure is to extend the Joint Legislative Committee on Family Caregiving to June 30, 2008; expand the focus of the committee to include exploring the possibility of a Paid Family Leave Program; and providing a broader definition for "family caregiver".

The Hawaii County Office of Aging, the City and County of Honolulu Department of Community Services, the Kauai County Offices of Community Assistance Agency on Elderly Affairs, the Maui County Executive on Aging, the Hawaii Aging Advocates Coalition, Kokua Council, Kokua Kalihi Valley Comprehensive Family Services, the National Multiple Sclerosis Society, the Alzheimer's Association, the Policy Advisory Board for Elder Affairs, Catholic Charities Hawai'i, the Hawai'i Alliance for Retired Americans, the Moiliili Community Center, Project Dana, AARP Hawaii, the International Longshore and Warehouse Union, and five individuals submitted testimony in support of this measure with proposed amendments. The Department of Health submitted testimony in support of the intent of this measure with proposed amendments.

Your Committee finds that, due to a shortage of care providers in Hawaii, family caregiving has become a critical element of our health and long-term care system. By 2020, more than one in four individuals is expected to be sixty years old or older. The need for personal care assistance due to physical, sensory, cognitive, and self-care disabilities increases with age. As Hawaii's population ages, many more families will

be providing higher levels of long-term care to frail and disabled older adults at home. A comprehensive public policy to strengthen support for family caregivers is essential.

The national Family Caregiver Support Program under the reauthorized Older Americans Act includes grandparents of grandchildren age eighteen years and younger, as well as grandchildren age nineteen years and older with physical or cognitive limitations. They experience similar support needs and costs of caregiving with family caregivers who provide unpaid, informal assistance to older adults with physical or cognitive disabilities. Therefore, your Committee finds that this population should be included in the definition of "family caregiver," as well.

It is the Committee's intent to strengthen the support of family caregivers. Your Committee has amended this measure by:

- (1) Amending the definition of "family caregiver" to mean:
 - (A) A person, including a non-relative such as a friend or neighbor, who provides unpaid, informal assistance to a person age sixty and older with physical or cognitive disabilities; and
 - (B) A grandparent who is a caregiver for a grandchild who is age eighteen years or younger or who is nineteen years of age or older with physical or cognitive limitations;
- (2) Requiring the Executive Office on Aging to conduct a comprehensive assessment of the needs of care recipients who are age sixty and older with physical or cognitive disabilities and the needs of their family caregivers;
- (3) Appropriating unspecified sums:
 - (A) For the Executive Office on Aging to conduct the aforementioned needs assessment and a comprehensive assessment of the issues facing, and the needs of, grandparents raising grandchildren in Hawaii;
 - (B) To expand the Kupuna Care Program's in-home and access services for qualified care recipients;
 - (C) To provide direct services to family caregivers;
 - (D) For the operation and delivery of the Sage PLUS Program on the neighbor islands; and for the recruitment, training, and sustaining of volunteers to augment the Sage PLUS Program staff, and for operating costs of the neighbor island Sage PLUS Program staff;
 - (E) To the Executive Office on Aging for the Caregiver's Resource Initiative Project, including the continuation of its efforts to coordinate a statewide system of family caregiver policies and support services; and
 - (F) To the Executive Office on Aging to provide analyses of two different approaches to helping family caregivers with their financial needs; and
- (4) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

Your Committee notes that while the appropriation amounts are unspecified, they recommend that the following be considered:

- (1) \$120,000 for fiscal year 2007-2008, for the Executive Office on Aging to conduct a comprehensive assessment of the needs of care recipients who are age sixty and older with physical or cognitive disabilities and the needs of their family caregivers;
- (2) \$24,000 for fiscal year 2007-2008, for the Executive Office on Aging to conduct an assessment of the needs of grandparents raising grandchildren in Hawaii;
- (3) \$750,000 for fiscal years 2007-2008 and 2008-2009, to expand the Kupuna Care Program's in-home and access services for qualified care recipients;
- (4) \$300,000 for fiscal years 2007-2008 and 2008-2009, to provide direct services to family caregivers;
- (5) \$104,000 for fiscal years 2007-2008 and 2008-2009, for the operation and delivery of the Sage PLUS Program on the neighbor islands;
- (6) \$64,500 for fiscal years 2007-2008 and 2008-2009, for the recruitment, training, and sustaining of volunteers to augment the Sage PLUS Program staff, and for operating costs of the neighbor island Sage PLUS Program staff;
- (7) \$80,000 for fiscal years 2007-2008 and 2008-2009, to the Executive Office on Aging for the Caregiver's Resource Initiative Project, including the continuation of its efforts to coordinate a statewide system of family caregiver policies and support services; and
- (8) \$80,000 for fiscal years 2007-2008 and 2008-2009, to the Executive Office on Aging to provide analyses of two different approaches to helping family caregivers with their financial needs.

Your Committee requests that the Committee on Ways and Means consider making the suggested appropriations for the Kupuna Care Program, the Executive Office on Aging for the Caregiver's Resource Initiative Project, and the Sage PLUS Program part of the base budget.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 825, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 825, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hooser).

SCRep. 1289 (Joint) Human Services and Public Housing, Commerce, Consumer Protection and Affordable Housing and Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 150

The purpose of this measure is to increase the share of the conveyance tax dedicated to the Rental Housing Trust Fund; and to appropriate funds to repair and renovate state public housing, provide outreach and support services to the homeless, operate emergency and transitional shelters, and for Shelter Plus Care grants.

The Hawaii Housing Finance and Development Corporation; the Hawaii Public Housing Authority; the City and County of Honolulu Department of Community Services; Catholic Charities Hawai'i; Hawaii Family Forum; Neighborhood Board No. 8, Housing and Homelessness

Committee; the Institute for Human Services Emergency Shelter; EAH Housing, Inc.; and four individuals submitted testimony in support of this measure. The Governor's Policy Office, the Department of Taxation, and the Land Use Research Foundation of Hawaii submitted testimony in support of the intent of this measure. The Representative of the 45th District of the State of Hawaii, the Mayor of the County of Hawaii, and the Tax Foundation of Hawaii submitted comments.

Your Committees find that the homeless and affordable housing crises continue to be two of the State's most significant and challenging social problems. Meaningful solutions to Hawaii's housing and homeless problems must be found. Several testifiers noted that the conveyance tax is a good source of revenues, with a sensible nexus, to facilitate the development of affordable rental housing, and opined that the percentage of the tax allocated to the Rental Housing Trust Fund should be increased to sixty-five per cent.

The Governor's Policy Office testified that special purpose revenue bonds that are issued to assist in the development of low- and moderate-income housing projects do not involve the expenditure of public funds. As such, the financing of these projects with special purpose revenue bonds should not be subject to the State's procurement code.

When questioned by your Committees, the Hawaii Housing Finance and Development Corporation opined that it has the administrative capacity to handle an increase in funding and to appropriately monitor existing inventory, as well as the development of new for-sale units and rental units.

It is the Committees' intent to improve access to shelter and support services for the homeless, and to improve and increase the available public housing and affordable housing inventory.

Upon further consideration, your Committees have amended this measure by:

- (1) Deleting all of its provisions and inserting the contents of S.B. No. 1917, S.D. 3, which has similar provisions and also:
 - (A) Requires the Hawaii Housing Finance and Development Corporation to create an affordable housing inventory registry;
 - (B) Authorizes the issuance of general obligation bonds for the construction of four thousand affordable housing units;
 - (C) Authorizes the issuance of general obligation bonds to the Hawaii Public Housing Authority for capital improvement projects, and for the repair and maintenance of elevators in public housing buildings; and
 - (D) Extends the sunset date for the allocation of the conveyance tax revenues to the Rental Housing Trust Fund to June 30, 2012;
- (2) Allocating sixty-five per cent of conveyance tax revenues to the Rental Housing Trust Fund;
- (3) Requiring the Hawaii Housing Finance and Development Corporation to report annually to the Legislature on expenditures from the Rental Housing Trust Fund;
- (4) Exempting special purpose revenue bonds that are issued to assist in the development of low- and moderate-income housing projects from the procurement code;
- (5) Appropriating an unspecified sum to provide matching funds for the United States Department of Housing and Urban Development Homeless Assistance Program, including Shelter Plus Care and other supportive housing programs. This will ensure that all homeless provider recipients of federal Supportive Housing Program funds have access to non-federal cash match resources; and
- (6) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

Your Committees note that while the appropriation amounts are blank, they recommend that the following be considered:

- (1) \$15,000,000 for homeless facilities, emergency shelters, and transitional shelters; and to provide matching funds for the United States Department of Housing and Urban Development Homeless Assistance Program, including Shelter Plus Care and other supportive housing programs;
- (2) \$8,000,000 to provider agencies that offer outreach or support services, or both, to unsheltered homeless, at-risk homeless, and individuals residing in homeless facilities;
- (3) \$50,000,000 to the Rental Housing Trust Fund for the planning, development, and construction of affordable housing;
- (4) \$50,000,000 to the Dwelling Unit Revolving Fund for the planning, development, and construction of four thousand affordable housing units. The Committees further recommend that the appropriation be made out of the general revenues as cash instead of issuing general obligation bonds;
- (5) \$40,000,000 in general obligation bonds to the Hawaii Public Housing Authority for capital improvement projects;
- (6) \$10,000,000 for the repair and maintenance of existing federal and state public housing buildings out of the general revenues as cash, instead of issuing general obligation bonds; and
- (7) \$15,000,000 for the repair and maintenance of elevators in existing federal and state public housing buildings.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Commerce, Consumer Protection, and Affordable Housing and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 150, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 150, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 10. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 3 (Espero, Fukunaga, Hooser).

SCRep. 1290 (Joint) Human Services and Public Housing and Public Safety on H.B. No. 457

The purpose of this measure is to appropriate funds for the expansion of parent-child interaction programs, such as the Strengthening Keiki of Incarcerated Parents Project, at state correctional facilities.

The SKIP Partnership, the Community Alliance on Prisons, Parents and Children Together, Child & Family Service, the Hawaii Youth Services Network, and six individuals submitted testimony in support of this measure. The Department of Public Safety submitted testimony in support of the intent of this measure.

Your Committees find that an increased focus needs to be placed on the children of incarcerated individuals to maintain a parent-child bond. Intervention is also needed with parent-child relationships in the non-incarcerated offender population. According to the testimony, studies have indicated that the strengthening of family relationships has a positive effect on recidivism. Studies have also shown that therapeutic involvement with families during incarceration builds better and stronger relationships between the incarcerated parent's children and the incarcerated parent once the parent is released.

It is your Committees' intent to support the continuation and expansion of parent-child interaction programs, such as the Strengthening Keiki of Incarcerated Parents Project, at state correctional facilities and at institutions servicing other offender populations to facilitate appropriate interactions and bonding between offender parents and their children.

Several testifiers stated a preference for the Senate version of this measure, S.B. No. 1174, S.D. 1. The Senate version of this measure includes provisions for:

- (1) Intervention with parent-child relationships in the non-incarcerated offender population;
- (2) More realistic data collection standards on the Department of Public Safety;
- (3) The confidentiality of the demographic data that is collected on the children of incarcerated parents; and
- (4) More flexibility to the Department of Public Safety for the use of the appropriated funds.

Therefore, your Committees have amended this measure by deleting all of its provisions and inserting the contents of S.B. No. 1174, S.D. 1.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Public Safety that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 457, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 457, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 3 (Hooser, Hemmings, Whalen).

SCRep. 1291 (Joint/Majority) Intergovernmental and Military Affairs and Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1950

The purpose of this measure is to amend chapter 201H, Hawaii Revised Statutes, housing development provisions to allow county councils to approve certain expedited government housing development projects with modifications, and to extend the county and Land Use Commission approval or disapproval window for these projects from forty-five days to a currently unspecified number of days.

The Maui County Council, the Vice Chair of the Maui County Council, and the Realtors Association of Maui, Inc. submitted testimony in support of this measure. The Hawaii Housing Finance and Development Corporation, the Office of Hawaiian Affairs, the Hawaii County Office of Housing and Community Development, the City and County of Honolulu Department of Community Services, the Kauai County Housing Agency Offices of Community Assistance, and the Land Use Research Foundation of Hawaii submitted testimony in opposition to this measure.

Your Committees find that this measure is intended to amend chapter 201H, Hawaii Revised Statutes, to include certain provisions that would permit the counties to approve certain types of housing projects with or without modification that were apparently left out when the State's Housing Law was recently recodified.

In addition, the measure would extend the time that a county legislative body has to approve a project and that the Land Use Commission has to approve a land use boundary change for the project. Numerous testifiers stated that the proposed extension of time would result in additional costs and actually serve as a disincentive to private developers of affordable housing.

It is your Committees' intent to encourage further discussion of this matter. Therefore, your Committees have amended this measure by:

- (1) Changing the effective date from upon its approval to July 1, 2020; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Intergovernmental and Military Affairs and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1950, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1950, H.D. 1, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing.

Signed by the Chairs on behalf of the Committees. Ayes, 4. Noes, 1 (Slom). Excused, 3 (Fukunaga, Hee, Hemmings).

SCRep. 1292 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1628

The purpose of this measure is to enhance consumer awareness regarding the origin of macadamias in food products.

Specifically, this measure requires macadamia nut package labeling to specify the percentage of nuts by weight grown in Hawaii and provides penalties for violations.

Testimony in support of this measure was submitted by the Department of Agriculture, the Office of Hawaiian Affairs, the Hawaii Farm Bureau, and the ILWU Local 142.

Your Committee finds that the macadamia nut industry is a vital component of Hawaii's economy and proper labeling is essential in securing and maintaining the competitiveness of Hawaiian macadamia nuts in the food industry. Your Committee further finds that clarifying the labeling requirements and penalties for violations will enhance the effectiveness of the labeling law in protecting the Hawaiian macadamia nut industry.

Your Committee also finds that it is important to ensure truth in labeling so consumers can make informed choices regarding their purchases.

This measure was amended to delay the effective date to ensure further discussion on this measure. Technical, nonsubstantive changes have also been made for the purposes of clarity, consistency, and grammatical accuracy.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1628, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1628, H.D. 1, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Hee).

SCRep. 1293 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 408

The purpose of this measure is to protect and preserve the continued productivity and viability of the State's agricultural industry by creating a buffer zone that prohibits industrial, commercial, or residential development within an unspecified number of feet from the property line of any parcel on which a bona fide farming operation has been in existence for at least an unspecified number of years prior to the development.

Testimony in support of this measure was submitted by the Department of Agriculture, the Hawaii Farm Bureau Federation, the Maui County Farm Bureau, the Hawaii Crop Improvement Association, the Hawaii Agriculture Research Center, and Hawaii's Thousand Friends. Testimony in opposition to this measure was submitted by the Department of Planning and Permitting, City and County of Honolulu; the Hawaii Island Chamber of Commerce; the Land Use Research Foundation of Hawaii; the Hawaii Association of Realtors; and the Kuilima Resort Company.

Agricultural operations continue to be driven out as urbanization encroaches upon farm lands. Farmers are continually faced with complaints and harassment from surrounding neighbors, which ultimately causes these farmers to move their agricultural operations to another agricultural district, or stop their operations completely. Your Committee finds that any loss in agricultural productivity has a detrimental affect on the State's sustainable food productivity and economic activity. Providing measures to protect and preserve agricultural productivity will enable farmers to continue their agricultural operations despite the encroachment of urbanization.

Your Committee notes that establishing a buffer zone that prohibits industrial, commercial, or residential development within an unspecified number of feet from a bona fide farming operation may be too cumbersome and problematic to implement and enforce. Furthermore, the Right to Farm Act under chapter 165, Hawaii Revised Statutes, already provides measures to prevent the declaration that a farming operation is a nuisance.

Your Committee has amended this measure by:

- (1) Replacing its contents with language from S.B. No. 1236, S.D. 1, that requires the Land Use Commission to include the Right to Farm Act under chapter 165, Hawaii Revised Statutes, as a condition to any reclassification of land to an urban or rural district designation that is contiguous to an agricultural district;
- (2) Changing the effective date of this measure from July 1, 2050, to effective upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of style and consistency.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to protect and preserve the continued productivity and viability of the State's agricultural industry.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 408, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 408, H.D. 2, S.D. 1, and be referred to the Committee on Intergovernmental and Military Affairs.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hee).

SCRep. 1294 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Education on H.B. No. 1615

The purpose of this measure is to promote the development of a viable, local shellfish aquaculture industry in Hawaii by appropriating funds to conduct a feasibility and cost study to determine the statutory and administrative rule changes, requirements for staffing, laboratory support, and research, and training and technical assistance needs to develop a shellfish aquaculture industry in Hawaii.

Testimony in support of this measure was submitted by the Department of Agriculture, Kona Bay Marine Resources, the Hawaii Aquaculture Association, the Oceanic Institute, and one individual.

Your Committees find that despite Hawaii having clean and high quality coastal waters, there is no local production of shellfish, except for hatchery and early lifestages that are sold to out-of-state producers for growth. An appropriation to the University of Hawaii to conduct a study on the feasibility and costs of developing a shellfish aquaculture industry in Hawaii will assist in diversifying Hawaii's aquaculture industry and overall agricultural industry.

Your Committees have amended this measure by:

- (1) Changing the blank appropriation amount to \$75,000 for the shellfish aquaculture industry feasibility and cost study;
- (2) Adding a part II that appropriates \$168,600 for the University of Hawaii Sea Grant College Program to conduct an `opih restoration program at the Natural Energy Laboratory of Hawaii in Keahole for the purposes of:
 - (A) Obtaining a current baseline population of Hawaii `opih throughout the islands for further management and stocking strategies; and
 - (B) Creating a hatchery-based `opih restocking program; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

Your Committees believe that this measure, as amended, fulfills the intent of this measure, which is to promote the development of a viable, local shellfish aquaculture industry in Hawaii.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1615, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1615, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 3 (Chun Oakland, Fukunaga, Sakamoto).

SCRep. 1295 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1114

The purpose of this measure is to provide the Agribusiness Development Corporation with more independence and ability to fully execute its powers by making extensive amendments to chapter 163D, Hawaii Revised Statutes.

Specifically, this measure:

- (1) Repeals certain powers and requirements of the Agribusiness Development Corporation, including:
 - (A) The requirement to develop the Agribusiness Development Plan;
 - (B) The requirements to use funds from the Hawaii Agricultural Development Revolving Fund for designated purposes; and
 - (C) The power to conduct research and marketing analysis and to develop market strategies;
- (2) Repeals the requirement that all agricultural development plans and project facility programs developed by the Corporation be approved by the Board of Agriculture;
- (3) Exempts the use of Agribusiness Development Corporation funds from the procurement code under chapter 103D, Hawaii Revised Statutes;
- (4) Exempts the Corporation from various provisions governing administrative supervision of boards and commissions with certain exceptions;
- (5) Requests the Governor to review the amendments made to chapter 163D, Hawaii Revised Statutes, and report to the Legislature on:
 - (A) Any necessary staffing, funding, and resources for the Corporation;
 - (B) How much of that staffing, funding, and resources can be reasonably provided through transfers with the Executive Branch; and
 - (C) Whether any public lands need to be withdrawn or set aside to allow the Corporation to carry out its purposes; and
- (6) Appropriates a blank amount to the Corporation for two FTE positions, including a special assistant and an engineer.

Testimony in support of this measure was submitted by the Hawaii Farm Bureau Federation, the Maui County Farm Bureau, the East Kauai Water Users' Cooperative, and one individual. Testimony in opposition to this measure was submitted by the Department of Agriculture, the Agribusiness Development Corporation, the Department of Accounting and General Services, the State Procurement Office, the Hawaii Agriculture Research Center, the Hawaii Crop Improvement Association, and three individuals. The Office of Hawaiian Affairs submitted comments.

The Agribusiness Development Corporation was established for the purposes of coordinating and administering programs to assist agricultural enterprises to facilitate the transition of agricultural infrastructure from plantation operations into other agricultural enterprises, to carry on the marketing analysis to direct agricultural industry evolution, and to provide the leadership for the development, financing, improvement, or enhancement of agricultural enterprises. Your Committee finds that the Corporation will play a larger role in supporting agricultural efforts as Hawaii's agricultural industry becomes more diversified, thus the Corporation will need more independence and ability to fully execute its powers.

Your Committee has amended this measure by:

- (1) Clarifying that the annual report the Corporation is required to submit before each Regular Session under section 163D-19, Hawaii Revised Statutes, be submitted directly to the Governor;
- (2) Reinstating the Corporation's power to carry out surveys, research, and investigations into various aspects of agricultural production in the national and international community under section 163D-4, Hawaii Revised Statutes, and adding demonstration projects;
- (3) Deleting language that exempts the use of Agribusiness Development Corporation funds from the procurement code under chapter 103D, Hawaii Revised Statutes;
- (4) Adding a part II to this measure that adds the language of S.B. No. 1705, S.D.1, that:
 - (A) Makes the Molokai Irrigation System Water Users Advisory Board a governing board, increases the number of members on the board, and allows nominations from Molokai homestead stakeholder organizations; and
 - (B) Establishes the Molokai Irrigation Special Fund for the purpose of repair and maintenance of the Molokai Irrigation System; and
- (5) Making technical, nonsubstantive amendments for the purposes of style and consistency.

Your Committee has concerns with the Governor determining how much necessary staffing, funding, and resources for the Corporation can be reasonably provided through transfers with the Executive Branch. Your Committee is concerned that these needs will be taken from the Department of Agriculture and transferred to the Corporation. Although this measure may cause the Corporation to need more staffing, funding, and resources, your Committee believes that these needs should not be at the expense of the Department of Agriculture. Your Committee further requests that the Governor provide a full assessment to the Legislature of all of the requirements and objectives the Corporation will need to accomplish to become a complete and independent division.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to provide the Agribusiness Development Corporation with more independence and ability to fully execute its powers.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1114, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1114, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hee).

SCRep. 1296 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1200

The purpose of this measure is to allow the Office of Hawaiian Affairs to continue to work for the betterment of the conditions of Native Hawaiians by appropriating funds to the Office of Hawaiian Affairs' fiscal biennium 2007-2009 budget.

Specifically, this measure requests an appropriation of funds for the Office of Hawaiian Affairs' operating budget and a capital improvements project for the construction of the Kakaako Culture Center and Office Building.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs; the Association of Hawaiian Civic Clubs; the Waimanalo Hawaiian Homes Association; the Partners-In-Development Foundation; the Native Hawaiian Legal Corporation; the Moanalua Gardens Foundation; the Princess Kaiulani Hawaiian Civic Club; the Living Nation; the Institute For Family Enrichment; ALU LIKE, Inc.; Catholic Charities Hawai'i; USTA Hawaii Pacific; the Turning Point for Families, Inc.; Hawaii Habitat for Humanity; Ho'omau Ke Ola; the Hawaiian Community Development Board; the Neighborhood Place of Puna; the Reverend Joel Hulu Mahoe Resource Center; Nā Pua No'eau; the Kamehameha Scholars Program; the Akaku Molokai Media Center; Ala Kuola; Munaleo, Inc.; the Lunalilo Home; the Maui Economic Opportunity, Inc.; one hundred seventy-four individuals; and petitions with a combined total of ninety-six signatures. The Hawaii Community Development Corporation submitted comments.

The Office of Hawaiian Affairs is requesting an appropriation of moneys from the general fund for the Office to provide social services to Office of Hawaiian Affairs beneficiaries, educational enrichment programs for Native Hawaiian children in grades kindergarten to twelfth, and legal services and legal representation to Office of Hawaiian Affairs beneficiaries for quiet title actions and assistance with ahupua'a and kuleana tenant rights. Your Committee finds that appropriating funds to the Office of Hawaiian Affairs will enable the Office to serve the purposes, which are mandated in the state constitution under chapter 10, Hawaii Revised Statutes.

Your Committee has amended this measure by amending the means of financing for the capital improvement project budget for a new three-story building that will serve as a cultural center and office building for the Office of Hawaiian Affairs by appropriating \$3,050,000 from general obligation bond funds for the 2007-2008 fiscal year for the design and planning of the cultural center and office. Your Committee also made technical, nonsubstantive amendments for the purposes of style and consistency.

Your Committee notes that the bill appropriates \$52,990,000 from trust funds for the 2008-2009 fiscal year for the construction of and equipment for the cultural center and office.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1200, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1200, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 1 (Hee).

SCRep. 1297 (Majority) Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1220

The purpose of this measure is to establish a special fund to collect revenues from the Seal of Quality program.

Specifically, this measure requires that all revenues from the Seal of Quality program, donations, and any appropriations made by the Legislature be deposited into this special fund. The deposited funds shall be used for costs relating to the program, including any promotional or advertising activities and materials.

The Seal of Quality program is established pursuant to section 148-61, Hawaii Revised Statutes, to promote and ensure high standards of quality for fresh and processed agricultural products produced in the State. The program generates revenues through licensing and promotional use fees.

Your Committee received testimony in support of this measure from the Department of Agriculture; the Hawaii Farm Bureau Federation; Hawaii Florists & Shippers Association; Green Point Nurseries, Inc.; the Hawaii Agriculture Research Center; Nalo Farms; Hamakua Springs Country Farms; the Kamaooha Foundation; the North Shore Cattle Company, LLC; Paradise Flower Farms; Kamiya Gold Inc.; Ali'i Kula Lavender; and Kona Pacific Farmers Cooperative.

Your Committee believes that this measure is a positive step in creating a self-reliant Seal of Quality program that provides recognizable value to those who participate in it.

Your Committee requests that the Committee on Ways and Means explore and, if feasible, implement an alternative method to disburse revenues from the Seal of Quality program other than through the establishment of a special fund. Your Committee has concerns that too many special funds already exist in the State treasury.

Your Committee has amended the bill by deleting the section that made an unspecified appropriation of the Seal of Quality Special Fund.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1220, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1220, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, 1 (Slom). Excused, 2 (Fukunaga, Hee).

SCRep. 1298 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1222

The purpose of this measure is to support agriculture and aquaculture in the State.

Specifically, this measure creates a new aquaculturists program similar to the new farmer program to help establish new aquaculture operations, increases the aquaculture loan limits for Class A & B loans to \$800,000, makes aquaculture loan credit denial requirements identical to those of the agricultural loan program, and combines the aquaculture and agriculture revolving and reserve funds to provide flexibility.

Testimony in support of this measure was submitted by the Department of Agriculture, Office of Hawaiian Affairs, Hawaii Agriculture Research Center, Hawaii Aquacultural Association, and the Hawaii Farm Bureau.

Your Committee finds that the aquaculture industry has undergone tremendous growth within the State. Your Committee notes the significant increase in costs associated with aquaculture including facilities, operating inputs, and transportation. Your Committee finds, therefore, that it is appropriate to raise the loan limit and to establish parity between the aquaculture and agriculture loan programs.

This measure was amended to conform to the language of Senate Bill No. 1308, S.D. 1, which has substantially similar language with the exception of:

- (1) An effective date of July 1, 2007; and
- (2) Various technical and grammatical differences.

Technical, nonsubstantive changes for the purposes of clarity and consistency were also made.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1222, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1222, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Hee).

SCRep. 1299 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1640

The purpose of this measure is to protect and support a viable and diversified agricultural industry in Hawaii by establishing a priority system for processing permit applications for air pollution controls for operators of agricultural processing facilities that process crops or livestock from an agribusiness where the majority of the lands the agribusiness owns or uses are identified and designated as important agricultural lands.

Testimony in support of this measure was submitted by the Department of Agriculture; the Hawaii Farm Bureau Federation; Alexander and Baldwin, Inc.; the Hawaiian Commercial and Sugar Company; the Kauai Coffee Company, Inc.; the Maui County Farm Bureau; and the Land Use Research Foundation of Hawaii. Testimony in opposition to this measure was submitted by the Sierra Club, Hawaii Chapter; and Hawaii's Thousand Friends. The Department of Health submitted comments.

Your Committee finds that establishing and implementing a procedure for the priority processing of air permit applications and renewals for agricultural processing facilities that process crops or livestock from an agribusiness owning or using important agricultural lands will provide an additional incentive for landowners to designate their lands as important agricultural lands pursuant to chapter 205, part III, Hawaii Revised Statutes. Your Committee notes that the priority processing of permit applications and renewals for agricultural processing facilities that process crops or livestock from agribusinesses on or using important agricultural lands should be extended to all applicable state departments and agencies that issue and renew permits for these types of facilities.

Accordingly, your Committee has amended this measure by deleting its contents and replacing it with language that amends chapters 205 and 321, Hawaii Revised Statutes, by requiring any state agency issuing permits that is subject to Title 13 or 19, Hawaii Revised Statutes, to establish and implement procedures to give priority processing of permit applications and renewals for agricultural processing facilities that process crops or livestock from an agribusiness that owns or uses lands that are identified and designated as important agricultural lands.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1640, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1640, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Hee).

SCRep. 1300 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1831

The purpose of this measure is to protect native species, the natural environment, public and private land and resources, and public health and safety by amending section 183D-4, Hawaii Revised Statutes, to require the Department of Land and Natural Resources to fence game management areas to prevent game mammals from encroaching on public and private land outside of the game management areas.

Testimony in support of this measure was submitted by the Nature Conservancy; the Sierra Club, Hawai'i Chapter; the Conservation Council for Hawai'i; and a private individual. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources, the Hawaii Forest Industry Association, and the Hawaii Rifle Association.

Feral mammals, including pigs, goats, sheep, deer, and wild cattle, are one of the biggest threats to the health of the State's native ecosystems and critical watershed areas. Although the hunting of these mammals is a popular sport for food and recreation, if left unmanaged, feral mammals can strip large areas of forest bare thereby contributing to erosion, runoff, damage to coastal areas and coral reefs, and impairing the natural absorptive function of watersheds. Your Committee finds that appropriate game management areas should include efforts to enhance hunting opportunities, but should also protect and effectively manage these areas to prevent game mammals from causing further damage to land outside of the management areas.

Your Committee recognizes, however, that requiring the Department of Land and Natural Resources to fence all game management areas may have insignificant results and may be too costly for the Department to accomplish. Thus, your Committee believes that an integrated game management and control plan is a more effective method of providing a better hunting experience while protecting public lands and private property.

Accordingly, your Committee has amended this measure by deleting its contents and replacing it with language that:

- (1) Requires the Department of Land and Natural Resources, Division of Forestry and Wildlife, to develop and produce mammal management and control plans for each island, beginning with the island of Oahu, which will include:

- (A) Game management objectives;
 - (B) Provisions to address all areas where game mammals are present to clearly define and map any areas appropriate for sustained-yield hunting;
 - (C) Information to educate the public on game mammal impacts to ensure skilled and effective participation in control activities and public outreach; and
 - (D) Information to educate and work with hunters who use the game mammal management areas to ensure skilled and effective participation in control activities; and
- (2) Strongly encourages the Division of Forestry and Wildlife to collaborate with and seek input from hunters who use the game management areas;
 - (3) Requires the Division of Forestry and Wildlife to periodically update each game management and control plan and provide opportunities for hunters to contribute input and any concerns with respect to the game management areas during the plan update process;
 - (4) Requires the Division of Forestry and Wildlife to submit a written report to the Legislature on an annual basis on the game management and control plans for each island; and
 - (5) Appropriates \$180,000 to the Division of Forestry and Wildlife to support and implement the research and planning for the game management and control plans.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to protect native species, the natural environment, public and private land and resources, and public health and safety.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1831, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1831, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 1 (Hee).

SCRep. 1301 (Joint) Tourism and Government Operations and Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 249

The purpose of this measure is to create a category of hunting license for a three-day period of hunting on a private or commercial shooting preserve.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Rifle Association, Palawai Outfitters, and Parker Ranch. Testimony in opposition was received from Animal Rights Hawaii, Animal Care Foundation, and one individual.

Your Committees find that hunting is a popular sport that has been underdeveloped in Hawaii. Hunting game animals is a well-recognized sport on the mainland and around the world. Nationwide, hunters are among the largest contributors of money and support toward the conservation and expansion of natural preserves and wildlife habitats.

The State's existing hunting license law does not permit a short-term license such as embodied in this measure. This measure would remove that impediment and enable visitors to the State to participate in hunting activities.

Your Committees have amended this measure by inserting the provisions of S.B. No. 695, S.D. 1, a similar measure which changes the fee to \$95 for a seven-day license to hunt on private or commercial shooting preserves, accompanied by a licensed hunting guide.

As affirmed by the records of votes of the members of your Committees on Tourism and Government Operations and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 249, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 249, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 2 (Fukunaga, Tsutsui).

SCRep. 1302 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Economic Development and Taxation on H.B. No. 1028

The purpose of this measure is to preserve and recognize the cultural significance of the Pi'ilani Trail by appropriating funds for the Department of Land and Natural Resources to reestablish and improve the Pi'ilani Trail.

Specifically, this measure:

- (1) Designates the Pi'ilani Trail as an important Hawaiian coastal cultural heritage corridor; and
- (2) Appropriates a blank amount for the Department of Land and Natural Resources to reestablish and improve the Pi'ilani Trail.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources and Lahaina Bypass Now. Testimony in opposition to this measure was submitted by the Office of Hawaiian Affairs.

Your Committees find and recognize the importance of walking trails and the cultural and historic significance that the Pi'ilani Trail on Maui holds. Started by King Pi'ilani in the fourteenth-century, it is the only ancient highway to encircle the coastline of any of the Hawaiian Islands. The Department of Land and Natural Resources indicated in its testimony, however, that developing and maintaining the trail to its full potential as a coastal cultural heritage corridor will be costly. Furthermore, the Department indicated that parts of the trail have been destroyed due to historic land uses and may be the route of current public highways in many locations.

Accordingly, your Committees have amended this measure by:

- (1) Deleting section 2 of this measure and adding language that:

- (A) Requests the Na Ala Hele program under the Department of Land and Natural Resources to conduct a feasibility and cost study of designating the Pi'ilani Trail as an important Hawaiian coastal heritage corridor and opening the trail for public use;
 - (B) Requests that the Na Ala Hele program use its own funds to conduct the study; and
 - (C) Requests the Na Ala Hele program to submit a written report to the Legislature; and
- (2) Changing the effective date of this measure from July 1, 2020, to July 1, 2007.

Your Committees believe that this measure, as amended, fulfills the intent of this measure, which is to preserve and recognize the cultural significance of the Pi'ilani Trail on Maui.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Economic Development and Taxation that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1028, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1028, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 2 (Espero, Hee).

SCRep. 1303 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1221

The purpose of this measure is to support the longevity of a diversified agricultural industry in Hawaii by creating a livestock revitalization and food security program.

Specifically, this measure:

- (1) Creates a livestock revitalization program to administer and disburse funds to qualified dairy, hog, poultry, and egg producers for up to fifty per cent of their feed costs; and
- (2) Appropriates an unspecified amount in each year of the fiscal biennium, for the Department of Agriculture to disburse funds to qualified producers of milk, pork, poultry, or eggs for the costs of feed, and for the administrative costs of the revitalization program.

Testimony in support of this measure was submitted by the Department of Agriculture; the College of Tropical Agriculture and Human Resources, University of Hawaii; the Hawaii Farm Bureau Federation; Nobriga's Ranch, Inc.; Ulehawa Farm, Inc.; the Hawaii Egg Producers Association; the Hawaii Teamsters and Allied Workers Local 996; and three individuals. Testimony in opposition to this measure was submitted by Animal Rights Hawai'i.

Your Committee finds that one of the challenges livestock farms face is the rising cost of feed for livestock. The decrease in operational local dairy, hog, poultry, and egg farms increases the State's reliance on the importation of food and threatens the State's food security. Thus, creating a livestock revitalization and food security program will financially assist farmers with covering the cost of their feed requirements, enable them to remain in business, and continue to provide fresh milk, pork, poultry, and eggs for local consumption.

Your Committee recognizes that the livestock industry also includes cattle for beef. Cattle ranchers emphasized to your Committee that they are also threatened with closure due to rising costs for feed, and expressed interest in being included in a livestock revitalization program.

Accordingly, your Committee has amended this measure by deleting the contents of this measure and inserting the language from S.B. No. 1307, S.D. 3, which also creates a livestock revitalization program to administer and disburse funds to qualified producers for up to fifty per cent of their feed costs, and appropriates an unspecified amount for the Department of Agriculture to disburse funds to qualified producers for the costs of feed, and for the administrative costs of the revitalization program, but expands the scope of the revitalization program to include cattle ranchers as qualified producers.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to support the longevity of a diversified agricultural industry in Hawaii.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1221, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1221, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Hee).

SCRep. 1304 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1848

The purpose of this measure is to ensure that laws and rules relating to aquatic resources incorporate community input and cultural and traditional practices.

The measure accomplishes this purpose by requiring the Department of Land and Natural Resources to allow opportunities for impacted communities to provide input prior to establishing prohibitions or limitations on fishing in public fishing areas.

Specifically, this measure:

- (1) Requires the Department of Land and Natural Resources, prior to establishing new prohibitions or limitations on fishing in public fishing areas by rule, to demonstrate a scientific-basis for the rule and to fully engage any impacted communities and user groups early in the policy-making phase by amending chapter 190, Hawaii Revised Statutes;
- (2) Establishes a Fishery Policy Advisory Task Force to review the current rulemaking process of the Department of Land and Natural Resources and to develop recommendations for changes and improvements; and
- (3) Appropriates funds for operations of the Fishery Policy Advisory Task Force.

Testimony in support of this measure was submitted by the Association of Hawaiian Civic Clubs, the Hawaii Boaters Political Action Association, the Hawaii Kai Boat Club, the Hawaii Nearshore Fishermen, the Island Shorecasters, the Kakaako Kasting Club, Nico's at Pier 38, eighty-three individuals, and a number of petitions with a combined total of eight hundred seventy-four signatures. Testimony in opposition to

this measure was submitted by the Department of Land and Natural Resources; the Office of Hawaiian Affairs; the Nature Conservancy; the Sierra Club, Hawaii Chapter; the Sierra Club, Hawaii Chapter, Maui Group; the Hawaii Audubon Society; Mālama Maunaloa; the Kailua Hawaiian Civic Club; the Limahuli Garden and Preserve of the National Tropical Botanical Garden; the Maui Coastal Land Trust; Mālama Hawai'i; KAHEA: The Hawaiian-Environmental Alliance; the Conservation Council for Hawai'i; the Ocean Law and Policy Institute of the Pacific Forum CSIS; the Community Conservation Network; the Environmental Defense; and one hundred fifty-seven individuals.

A number of communities that rely on Hawaii's aquatic resources are disenfranchised with the current administrative rulemaking process used to develop marine management policies. These impacted communities and user groups of public fishing areas indicated to your Committee that there are limited opportunities for community input and engagement during the rulemaking process. Thus, your Committee finds that community engagement is an essential element when enacting rules that have an effect on community lifestyle, livelihood, culture, and tradition.

Over the past several years, many local communities have expressed interest in assisting in managing and restoring Hawaii's near shore reefs and marine habitats, and have initiated discussions regarding management, enforcement, and monitoring of the marine resources surrounding their communities. The Miloli'i community-based effort established the Maka'i O Ke Kai program, which is a partnership in marine resource enforcement, education, outreach, monitoring, and surveillance between local community members and the Department of Land and Natural Resources. Your Committee finds that community-based programs, like the Maka'i O Ke Kai program, serve as vehicles for engaging local communities in the management of marine resources, and is a more appropriate approach to addressing community concerns regarding rules affecting fishing in public fishing areas.

Accordingly, your Committee has amended this measure by deleting the contents of this measure and replacing it with language that:

- (1) Adds a new part to chapter 188, Hawaii Revised Statutes, that establishes a Maka'i O Ke Kai program under the Department of Land and Natural Resources, Division of Aquatic Resources, which:
 - (A) Allows the Department to provide matching grants to any Maka'i O Ke Kai program to implement community-based marine management initiatives designed to restore, protect, sustainably manage, and apply traditional Hawaiian resource management to near shore reefs and marine habitats;
 - (B) Allows the Department and a Maka'i O Ke Kai program to partner with local communities to train volunteers on marine resource management, education, and enforcement;
 - (C) Provides guidelines and criteria for communities interested in establishing a Maka'i O Ke Kai project; and
 - (D) Establishes a Community-Based Marine Resource Management Advisory Committee to advise the Department of Land and Natural Resources on matters relating to community-based near shore resource management and fisheries rules with members representing Maka'i O Ke Kai projects, Native Hawaiian fishing practitioners, recreational fishers, the National Oceanic and Atmospheric Administration, and a marine scientist.
- (2) Appropriates \$50,000 for the Community-Based Marine Resource Management Advisory Committee to carry out its responsibilities;
- (3) Appropriates \$250,000 for the Maka'i O Ke Kai program; and
- (4) Makes technical, nonsubstantive amendments for the purposes of clarity and style.

Your Committee recognizes the overwhelming testimony in support of and opposition to this measure, and particularly notes the concerns indicated in testimony about the recently enacted lay gill net fishing rules. Your Committee urges the Department of Land and Natural Resources to provide opportunities for community input and engagement in amending these rules, especially with respect to fishing prohibitions of fish populations that are thriving in certain areas, such as the menpachi.

Your Committee believes that this measure, as amended, fulfills its intent, which is to ensure that laws and rules relating to marine resources incorporate community input and cultural practices.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1848, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1848, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hee).

SCRep. 1305 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1899

The purpose of this measure is to require the City and County of Honolulu to transfer to the State parcels of land that constitute the Kawai Nui Marsh.

Testimony in support of this measure was submitted by the City and County of Honolulu, Department of Facility Maintenance, the Environmental Center of the University of Hawaii at Manoa, the Office of Hawaiian Affairs, the Hawaii Audubon Society, Hawaii's Thousand Friends, and two individuals. Testimony in opposition of this measure was submitted by the Department of Land and Natural Resources, 'Ahaui Mālama I Ka Lōkahi, and the Windward Ahupua'a Alliance.

Your Committee finds that pursuant to Act 314, Session Laws of Hawaii 1990, the City and County of Honolulu was required to transfer specific parcels of land that constitute the Kawai Nui Marsh, of which both parties own portions, to the State. Your Committee further finds that since the enactment of Act 314, the parties have largely disputed their respective management responsibilities over the Kawai Nui Marsh, which has resulted in the delayed restoration and rehabilitation of the marsh placing the marsh in critical condition.

The existing law has caused a great deal of problems and confusion with regard to responsibilities over the marsh. Your Committee believes that clarity in the law is necessary to allow for the transfer of the appropriate lands, while also providing some degree of flexibility in the specific terms of the agreements of the parties involved to accomplish the transfer and ensure responsibilities, including the maintenance of the marsh, are clearly delineated. Your Committee recognizes that negotiations between the City and County of Honolulu and the State are ongoing and amendments should be made in the future to reflect these changes.

Accordingly, your Committee has amended this measure by:

- (1) Repealing Act 314, Session Laws of Hawaii 1990;
- (2) Requiring the transfer of the Kawai Nui Marsh, lot 3, as shown on Land Division Parcel Map File No. 18-3-3-13, from the City and County of Honolulu to the State, pursuant to a sub-agreement executed in compliance with the Local Cooperation Agreement executed between the City and County of Honolulu and the U.S. Department of the Army for construction of the Kawai Nui Marsh Flood Control Project, dated October 3, 1993, as amended by Amendment #1 dated March 10, 2004, and the Operation and Maintenance Manual for Kawai Nui Marsh Flood Protection Works, prepared by the United States Army Corps of Engineers;
- (3) Including language that provides that the State's responsibility over the Kawai Nui Marsh shall be subject to agreement by the City and County of Honolulu to remain responsible as the principal party to and responsible for the Local Cooperation Agreement, the Operation and Maintenance Manual for Kawai Nui Marsh Flood Protection Works, and all other matters provided for therein;
- (4) Clarifying that sums appropriated for the Department of Land and Natural Resources shall be to conduct or to contract for educational, ecological, cultural, and environmental services for Kawai Nui Marsh and its adjoining state areas;
- (5) Specifying that funds in the amount of \$500,000 for fiscal year 2007-2008 and \$420,000 for fiscal year 2008-2009 be appropriated for the Department of Land and Natural Resources to maintain the Kawai Nui Marsh or to contract with the City and County of Honolulu or any other public or private entity to maintain the Kawai Nui Marsh; and
- (6) Removing provisions that:
 - (A) Authorized the State and City and County of Honolulu from entering into an agreement for maintenance or operations of any part of Kawai Nui Marsh;
 - (B) Provided the State an easement in perpetuity over parcels identified in the Act for the purpose of permitting the Department of Land and Natural Resources to manage the economic, ecological, and cultural resources of the Kawai Nui Marsh in the event of a dispute between the State and the City and County of Honolulu; and
 - (C) Provided a savings clause regarding the validity of the Act or provisions thereof.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1899, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1899, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Vice Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Hee).

SCRep. 1306 (Joint) Education and Economic Development and Taxation on H.B. No. 1268

The purpose of this measure is to increase innovation in education by establishing programs designed to fill current workforce needs in the areas of science, technology, engineering, and math.

Specifically, this measure:

- (1) Establishes the Hawaii Excellence through Science and Technology (HiEST) Academy Program to increase preparedness for post-secondary education and the workforce and provides funding therefor;
- (2) Establishes the Fostering Inspiration and Relevance through Science and Technology (FIRST) Pre-academy Program and provides funding therefor;
- (3) Establishes the Robotics and Space Contextual Learning Program to develop science, technology, engineering, and math (STEM) skills and provides funding therefor;
- (4) Establishes the Business/Education Internship and Mentorship Program to increase opportunities for high school and college students to gain work experience and provides funding therefor;
- (5) Establishes the Research Experiences for Teachers (RET) Certificate Program and provides funding therefor;
- (6) Establishes a professional development program to provide practicing elementary, middle, and high school teachers of science and mathematics with opportunities to increase their knowledge and understanding in science, technology, engineering, and mathematics (STEM) subjects and provides funds for such professional development;
- (7) Appropriates funds for STEM stipends under the U.S. Department of Labor's Transition to Teaching Program;
- (8) Establishes the Eminent Scholars Program; and
- (9) Establishes the State Akamai Investment Matching Special Fund and appropriates moneys therefor.

Testimony in support of this measure was submitted by the Governor of Hawaii; the Department of Education; the Department of Business, Economic Development, and Tourism; the University of Hawaii; the Workforce Development Council; the Hawaii Association of Independent Schools; CTA Solutions; Benefit Capital Financial Services, Inc.; the High Technology Development Corporation; the Waimanalo Hawaiian Homes Association; the American Society of Civil Engineers; the Coalition of Hawaii Engineering and Architectural Professionals; Applied Marine Solutions; the Hawaii Crop Improvement Association; SEE/RESCUE Corporation; 3D Innovations, LLC; and seven individuals. Comments on the measure were also submitted by the Hawaii State Teachers Association.

Your Committees find that both education and workforce development are necessary in order for Hawaii to not only survive but also excel in today's economy. Concerted efforts must be made to educate and train our students for challenging careers in this global society where science, technology, engineering, and math (STEM) disciplines have become prominent. This measure addresses many aspects involved in developing a comprehensive approach to promoting the STEM disciplines, including establishing STEM academies, growing and fostering a STEM teaching workforce through the provision of stipends and scholarships, and providing additional work experience opportunities for students.

However, your Committees also understand that existing efforts to educate and grow a highly qualified and skilled workforce must also continue to be supported to meet all of the changing workforce needs of the State. Current efforts include the establishment of smaller learning

communities, including schools within schools and applied learning academies, as well as scholarship and other programs such as the B-Plus Scholarship Program and GEAR UP Hawaii, which present effective methods for addressing specific areas of student interest and workforce needs in the community. Your Committees believe that these and other programs should not be superseded by, but should instead be pursued in conjunction with, STEM-specific programs.

To support and enhance existing career academy programs, your Committees believe that a comprehensive Applied Learning High School Academy Program should be established to link the curriculum, including STEM subjects, of a particular school with the mission of a particular agency or University of Hawaii campus to support workforce development in Hawaii.

Accordingly, your Committees have amended this measure by:

- (1) Including a new part that establishes the Applied Learning High School Academy Program and appropriating funds therefor;
- (2) Codifying the Hawaii Excellence Through Science and Technology Academy Program, the Fostering Inspiration and Relevance Through Science and Technology Pre-academy Program, the Robotics and Space Contextual Learning Program, the Research Experiences for Teachers Program, and the Professional Development Program as a new part in chapter 302A, Hawaii Revised Statutes;
- (3) Altering the Hawaii Excellence Through Science and Technology Academy Program to be a component of the Applied Learning High School Academy Program;
- (4) Changing the Research Experiences for Teachers Certificate Program to the Research Experiences for Teachers Program and removing any references to licensing, certification, or step increases relating to certification under the program;
- (5) Specifying that the Fostering Inspiration and Relevance Through Science and Technology Pre-academy Program, the Robotics and Space Contextual Learning Program, and the Research Experiences for Teachers Program shall be administered by the College of Engineering of the University of Hawaii;
- (6) Clarifying that part of the mission of the Fostering Inspiration and Relevance Through Science and Technology Pre-academy Program, with respect to middle schools, shall be to prepare students, beginning in the sixth grade, for entry into the Hawaii Excellence Through Science and Technology Program;
- (7) Clarifying that one of the goals of the Fostering Inspiration and Relevance Through Science and Technology Pre-academy Program shall be to serve students between sixth and eighth grades with contextual learning experiences in science, technology, engineering, and math disciplines;
- (8) Clarifying that the appropriation for the Applied Learning High School Academy is for planning and start-up grants for the program;
- (9) Including an appropriation for the operations of Applied Learning High School Academies; provided that the funds shall be allocated on a per pupil basis;
- (10) Clarifying that the Department of Business, Economic Development, and Tourism shall coordinate with the Department of Education in the establishment and implementation of the business/education internship and mentorship program;
- (11) Removing the State Akamai Investment Matching Special Fund and the Eminent Scholars Program;
- (12) Changing the effective date of the measure from July 1, 2034, to July 1, 2007; and
- (13) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Education and Economic Development and Taxation that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1268, H.D. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1268, H.D. 3, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, none. Excused, 3 (Chun Oakland, Hee, Taniguchi).

SCRep. 1307 (Joint/Majority) Economic Development and Taxation and Education on H.B. No. 1670

The purpose of this measure is to establish the Ingenuity Company to facilitate the development of intellectual property, uphold high labor and environmental standards, and provide funds for instruction in the public schools that encourages innovation by Hawaii's students.

Testimony in support of this measure was received from the American Federation of Television and Radio Artists, International Federation of Professional and Technical Engineers AFL-CIO and CLC, Professional Inventors Alliance, Hawaii State AFL-CIO, Hawaii State Teachers Association, Hawaii Teamsters and Allied Workers Local 996, Unite Here! Local 5 Hawaii, Vivalog Technologies, and four individuals. The Department of Budget and Finance submitted testimony in opposition to this measure. The Department of Commerce and Consumer Affairs and the Department of Education submitted comments.

Your Committees find that the ingenuity company, which will be governed by a board of directors representing both the creators of intellectual property and educational or labor beneficiaries, provides an opportunity to focus the financial rewards of ingenuity on education and workforce development that will in turn lead to additional inventions and innovations. In this way, it will create a continuing incentive for seasoned inventors and for developing new talent in Hawaii.

Your Committees have amended this measure by:

- (1) Adding language to clarify the purpose of the Act;
- (2) Stating that the ingenuity company is a body corporate;
- (3) Requiring that any share of the profits distributed to labor union members shall be expended for training of workers or safety and health related practices;
- (4) Deleting the references to the Department of Commerce and Consumer Affairs in the reporting requirements;

- (5) Clarifying that the company shall be limited liability company within the meaning of chapter 428, Hawaii Revised Statutes (HRS), and not subject to the registration requirements of the Department of Commerce and Consumer Affairs;
- (6) Deleting the language regarding any conflict between the new chapter and chapter 428, HRS; and
- (7) Making technical amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development and Taxation and Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1670, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1670, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, 1 (Slom). Excused, 3 (Chun Oakland, Hee, Taniguchi).

SCRep. 1308 (Joint/Majority) Economic Development and Taxation and Energy and Environment on H.B. No. 200

The purpose of this measure is to:

- (1) Direct the Auditor to conduct a financial and management audit of the Natural Energy Laboratory of Hawaii Authority's (NELHA) deep seawater pumping system and establish a reasonable rate structure that includes consideration of NELHA's effect on the economy; and
- (2) Freeze rates until the audit is complete.

Testimony in support of this measure was received from the Natural Energy Laboratory of Hawaii Authority and the Hawaii Aquaculture Association.

Your Committees previously heard and approved S.B. No. 853, which is a substantially similar measure.

Your Committees have amended this measure to reflect the language in S.B. No. 853, by deleting the requirement that the Auditor consider the effect of NELHA on the local and state economy.

As affirmed by the records of votes of the members of your Committees on Economic Development and Taxation and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 200, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 200, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, 1 (Trimble). Excused, 2 (Ihara, Kokubun).

SCRep. 1309 (Joint) Economic Development and Taxation and Tourism and Government Operations on H.B. No. 1719

The purpose of this measure is to extend the current general excise tax exemption for condominium common expenses paid by managers and hotel employee expenses paid by hotel operators, to include expenses paid by submanagers and suboperators and to include employee expenses in timeshare projects.

Testimony in support of this measure was received from Outrigger Hotels and Wyndham Vacation Ownership, Inc. The Department of Taxation (Department) and the Tax Foundation of Hawaii submitted comments.

The Department stated in written testimony that the revenue impact for this measure would be a revenue loss of approximately \$1,500,000 each year. The Department did not submit the methodology used to determine this fiscal impact.

Your Committees find that changes in visitor accommodations, such as more timeshares, resort condos, or condominium-hotels, have led to differences in how these less traditional facilities are managed. This measure would extend equitable treatment to these newer forms of management and operations, which currently are in place for hotels under more traditional management.

As affirmed by the records of votes of the members of your Committees on Economic Development and Taxation and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1719, H.D. 1, and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 2 (English, Ige).

SCRep. 1310 (Joint) Economic Development and Taxation and Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1923

The purpose of this measure is to:

- (1) Provide that qualifying agricultural businesses shall remain eligible for tax incentives under the enterprise zone (EZ) program in the event of force majeure; and
- (2) Allow agricultural businesses to meet gross revenue requirements if they are unable to meet the full-time employment requirements of the EZ program.

Testimony in support of this measure was received from the Department of Agriculture; Department of Business, Economic Development, and Tourism; Office of Planning; County of Kauai Office of Economic Development; County of Hawaii Department of Research and Development; Hawaii Agriculture Research Center; Hawaii Farm Bureau; Maui County Farm Bureau; and Hawaii Crop Improvement Association. The Tax Foundation of Hawaii submitted comments on this measure.

Your Committees find that Hawaii's EZ program has very low participation by agricultural businesses. This measure would begin to address that by providing for additional flexibility in meeting EZ requirements for agricultural businesses, particularly in the case of major natural disasters.

Your Committees have amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making technical, nonsubstantive amendments to conform the measure to the preferred drafting style.

As affirmed by the records of votes of the members of your Committees on Economic Development and Taxation and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1923, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1923, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 2 (Espero, Hee).

SCRep. 1311 (Joint/Majority) Judiciary and Labor, Tourism and Government Operations and Intergovernmental and Military Affairs on H.B. No. 1561

The purpose of this measure is to establish labor representation procedures in developments in which the State or counties have an ongoing proprietary interest.

Testimony in support was received from Local 5 Hawaii, Hawaii State AFL-CIO, and Hawaii Teamsters and Allied Workers, Local 996. Opposing testimony was received from Department of Labor and Industrial Relations, Office of Collective Bargaining, Associated Builders and Contractors, Hawaii.

Concerns related to Special Purpose Revenue Bond Projects and the impact this measure may have on these types of projects were raised. Therefore, your Committee has amended this measure by excluding Special Purpose Revenue Bond projects. The Office of the Collective Bargaining stated that this measure was circumventing provisions in Chapter 89, Hawaii Revised Statutes. However, Chapter 89 pertains to public employees and therefore would not have any impact on or be affected by this measure.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Tourism and Government Operations and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1561, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1561, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs and Majority Leader on behalf of the Committees. Ayes, 6. Noes, 2 (Hemmings, Trimble). Excused, 1 (Kim).

SCRep. 1312 Judiciary and Labor on H.B. No. 162

The purpose of this measure is to authorize the Child Support Enforcement Agency to impose an annual fee of \$25 in those cases in which no public assistance has been paid to the custodial parent and at least \$500 has been collected from the absent parent.

Your Committee received testimony in support of this measure from the Attorney General and the Corporation Counsel for the City and County of Honolulu.

Your Committee notes that the fee proposed by this measure is necessary to comply with federal requirements imposed by the federal Deficit Reduction Act of 2005. Because of recent proposed rulemaking by the United States Department of Health and Human Services clarifying the requirements of the Deficit Reduction Act of 2005, your Committee has amended this measure to require that the fee be collected and expended in accordance with the requirements of federal Title IV-D.

Your Committee has also amended this measure to transfer the family support divisions of the City and County of Honolulu and the County of Hawaii whose functions, duties, responsibilities, and activities relate to child support enforcement to the Department of the Attorney General, effective October 1, 2007. These twenty-four positions, ten from the City and County of Honolulu and fourteen from the County of Hawaii, have long been funded by the State pursuant to contract. As amended, the bill will protect the transferred employees from loss of salary, benefits, and, where applicable, civil service status.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 162, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 162, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 1313 Judiciary and Labor on H.B. No. 859

The purpose of this measure is to allow collective bargaining agreements relating to public employees, in effect on or after July 1, 2007, to include certain permissible and certain required provisions, the contents of section 89-9, Hawaii Revised Statutes, notwithstanding.

Specifically, this measure directs collective bargaining agreements for public employees in effect on or after July 1, 2007, to:

- (1) Allow negotiated provisions relating to the procedures and criteria on promotions, transfers, assignments, demotions, layoffs, suspensions, terminations, discharge, or other disciplinary actions; and
- (2) Require negotiated provisions relating to the impact of transfers, assignments, and layoffs.

Your Committee received testimony in opposition to this measure from the Department of Human Services; the Hawaii State Judiciary; the Department of Human Resources, County of Hawaii; the Honolulu Fire Department, City and County of Honolulu; the Fire Department, County of Hawaii, and the Fire Department, County of Kauai.

Your Committee has amended this measure by deleting its contents and inserting in its place the contents of Senate Bill No. 1642, S.D.1, which has the effect of removing the mandatory requirement that negotiations relating to a collective bargaining agreement for public employees include negotiations over the impact of transfers, assignments, and layoffs.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 859, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 859, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 1314 Judiciary and Labor on H.B. No. 1292

The purpose of this bill is to protect the status of the Employees' Retirement System (ERS) as a tax-qualified retirement plan under the Internal Revenue Code. The bill accomplishes this purpose by:

- (1) Repealing provisions that allow elective officers to exercise an option to join the ERS at any time during their term of office;
- (2) Repealing provisions that allow elective officers and judges who have reached the 75 percent statutory cap on retirement benefits from terminating their ERS membership while remaining in office;
- (3) Requiring elective officers to exercise their one-time irrevocable option to join or not join the ERS when they are elected for the first time; and
- (4) Setting forth the circumstances under which retirants may return to service as elective officers without suspension of their retirement benefits.

The Department of Budget and Finance, Office of Hawaiian Affairs, Attorney General, Board of Trustees of the ERS, and the Hawaii State Teachers Association, testified in support of this bill.

Your committee notes that the bill allows retirants to serve as elective officers without suspension of their retirement benefits if:

- (1) They retired under section 88-73(d);
- (2) They have been retired at least twelve consecutive months; or
- (3) Their elective office is not the position from which they retired;

however, if the elective officer does not elect to continue to receive the elective officer's retirement benefits, the elective officer will be automatically re-enrolled in the ERS and will earn additional service credit and gain additional retirement benefits under provisions applicable to all other ERS retirants who return to service.

Your Committee finds that this bill is intended to repeal all provisions for optional membership in the ERS that are not permitted by the Internal Revenue Code, but that this bill is not intended to affect the rights of any ERS members or retirants except to the extent required to protect the ERS's status as a tax-qualified retirement plan.

After careful consideration, your committee amended this bill by revising the first sentence of subsection (b) of the new section added by section 1 of the bill to read as follows: "Unless the elective officer is already a member of the system, a former member with vested benefit rights, or a retirant, an elective officer shall make an election to become a member or not become a member no later than the later of the elective officer's taking office, or thirty days following the elective officer's election or appointment to office." The purpose of the revision is to clarify that the option to decide whether or not to become an ERS member applies only to those elective officers who are not already in the ERS as a member, a former member who has the right to a pension upon retirement, or a retirant.

"An elective officer includes but not limited to those persons elected to the county councils, Office of Hawaiian Affairs and the legislature." was added to clarify the term elective officer.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1292, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1292, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1315 Judiciary and Labor on H.B. No. 760

The purpose of this measure is to reduce from \$25,000 to \$5,000 the applicability threshold of service contract wage, hour, and working condition requirements. This measure provides certain exemptions for nonprofits; requires wages providing an annual income of at least the U.S. poverty guideline for Hawaii for a family of four and includes provisions enhancing employees' ability to organize.

Testimony in support of this measure was received from ILWU Local 142, Hawaii State Teachers Association, and the Hawaii State AFL-CIO. Opposing Testimony was received from the Department of Labor and Industrial Relations and the Arc in Hawaii. The Arc is sympathetic with the measure's intent but was wary of its affect on their organization which receives state funds for its operations.

Your Committee has amended this measure by excluding non-profit organizations, such as ARC, that qualify as community rehabilitation programs under Chapter 103D, Hawaii Revised Statutes (H.R.S) or under Chapter 103F, H.R.S.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 760, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 760, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1316 Judiciary and Labor on H.B. No. 1290

The purpose of this measure is to eliminate confusion and/or misinterpretations regarding which "beneficiaries" of an employee killed in the performance of duty or of a deceased retiree are eligible to become EUTF employee-beneficiaries including reciprocal beneficiaries.

Testimony in support of this measure was received from HGEA/AFSCME Local 152, AFL-CIO and one private citizen. ILWU Local 142 submitted testimony in support of the original intent. Opposing testimony was received from The Gay Lesbian, Bisexual and Transgendered Caucus of the Democratic Party; the GLEA Foundation and the Department of Department of Budget and Finance and the Hawaii Employer-Union Health Benefits Trust Fund.

Based on the testimony presented, your Committee finds that including reciprocal beneficiaries, although well intended, may have a negative impact on the fund. Until, the EUTF can analyze the impact of adding this new category may have on the EUTF, your Committee will not advance this proposal. The Committee has amended the bill to revert to the original provisions and added several amendments to prevent discrimination to

any present class of beneficiaries by diminishing their benefits and to provide protection to the EUTF beneficiaries against any breaches of fiduciary duty. These protections mirror the protections that EUTF imposed on the VEBA.

Your Committee further amended the bill by adding a provision that when there is a default in the selection of a plan, that the default would revert to the lowest bidder. This would provide savings for the member and EUTF.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1290, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1290, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Gabbard). Noes, none. Excused, 1 (Nishihara).

SCRep. 1317 Economic Development and Taxation on H.B. No. 1631

The purpose of this measure is to require qualified high technology businesses claiming the High Technology Business Investment or Research Tax Credit to file with the Department of Taxation an annual survey about employment positions in the State.

Testimony in support of this measure was received from the Department of Business, Economic Development, and Tourism. The Department of Taxation, Hawaii Science & Technology Council, Hawaii Aquaculture Association, Novasol, PacifiCap Group, and one individual submitted testimony in opposition. Enterprise Honolulu and the Tax Foundation of Hawaii submitted comments on this measure.

Your Committee previously heard and approved S.B. No. 898, S.D. 1, which is also a reporting measure.

Given the concerns expressed regarding this measure, your Committee has amended H.B. No. 1631, H.D. 2, by deleting its contents and inserting the language from S.B. No. 898, S.D. 1. As amended, this bill:

- (1) Requires the Department of Taxation to report annually on information collected from July 1, 2004, and thereafter on qualified high technology businesses and related tax incentives to properly evaluate their effectiveness; and
- (2) Appropriates unspecified amounts for the Department of Taxation to initiate and begin implementation.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1631, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1631, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (English, Espero).

SCRep. 1318 Economic Development and Taxation on H.B. No. 310

The purpose of this measure is to:

- (1) Establish a statewide Internet Access Task Force to study the feasibility of creating a statewide Internet access network; and
- (2) Require the Auditor to develop a plan for a high-speed Internet access system.

Testimony in support of this measure was received from the Department of Business, Economic Development, and Tourism; High Technology Development Corporation; and City and County of Honolulu Police Department. The Department of Accounting and General Services submitted comments on this measure.

Your Committee has also heard support for S.C.R. No. 62, which would have established a comparable task force with similar goals. Your Committee has incorporated concepts from S.C.R. No. 62 in this measure, and has amended it by:

- (1) Changing the name of the task force to the Hawaii Broadband Task Force;
- (2) Adding two representatives from county police departments or other first-responder agencies;
- (3) Requiring the task force to create a Hawaii statewide Internet access plan for the development of a high-speed, Internet broadband system, with assistance from the Auditor; and
- (4) Making technical, nonsubstantive amendments to conform the measure to the preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 310, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 310, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1319 Economic Development and Taxation on H.B. No. 1799

The purpose of this measure is to provide for a state earned income tax credit (EITC).

Testimony in support of this measure was received from the Department of Taxation; Hawai'i Alliance for Community Based Economic Development; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and 3Point. The Tax Foundation of Hawaii submitted comments on this measure.

Your Committee received a statement of fiscal impact from the Department of Taxation (Department) that the legislation would result in a revenue loss of approximately \$24,000,000 annually, assuming twenty per cent conformity to the federal EITC. The Department further noted that this estimate was based on a weighted sample of 2004 individual returns.

Your Committee previously heard and approved S.B. No. 1493, S.D. 1, Relating to Increasing the Standard Deduction for Individual Income Taxation.

Your Committee has amended this measure by deleting the contents of the bill and replacing its contents with the language from S.B. No. 1493, S.D. 1. As amended, this measure increases the Hawaii standard deduction rates by unspecified amounts.

Your Committee notes that this measure has an effective date of July 1, 2025, for the purposes of continued discussion.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1799, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1799, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1320 Economic Development and Taxation on H.B. No. 1735

The purpose of this Act is to establish a temporary Waiomina Centennial Celebration Commission, within the Office of the Governor, to have charge of all arrangements for the commemoration of the centennial anniversary of the Cheyenne Frontier Days Championship of 1908.

Your Committee received testimony in support of this measure from the Waimea Community Association and one individual.

Your Committee notes that the Hawaii ranching community has made significant and substantial contributions to Hawaii's economic and cultural vitality. Since the arrival of cattle and horses in 1793 and 1803, respectively, the multiethnic culture and proud heritage of the livestock industry has been, and will continue to be, a positive influence upon life in Hawaii.

In 1908, Eben Low, a Hawaii rancher, picked three of the best Hawaiian cowboy ropers, known as paniolo, that he could find and entered them in the Frontier Days Rodeo at Cheyenne, Wyoming ("Waiomina" in the Hawaiian language). They took first, third, and sixth places in steer roping, and the cowboy world on the continental United States was stunned.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to continue the discussion on its merits.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1735, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1735, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (English, Espero).

SCRep. 1321 Economic Development and Taxation on H.B. No. 1435

The purpose of this measure is to support the Honolulu Symphony's fundraising efforts by allowing pledges to be used to meet the matching requirements for the fiscal year 2006-2007 appropriation to the State of Hawaii Endowment Fund, with unexpended or unencumbered appropriated funds to lapse on June 30, 2009.

Testimony in support of this measure was received from the State Foundation on Culture and the Arts; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; ILWU Local 142; Honolulu Symphony; and ten individuals associated with, or supporters of the Honolulu Symphony.

Your Committee is strongly supportive of the Honolulu Symphony and its efforts to raise private matching funds for the state moneys appropriated in 2006.

Your Committee has amended this measure by clarifying what is considered as private funds, for the purposes of the matching requirement.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1435, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1435, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (English, Espero).

SCRep. 1322 Economic Development and Taxation on H.B. No. 338

The purpose of this measure is to:

- (1) Establish the Hawaii innovations partnership corporation to provide research and development grants and to invest in enterprises in advanced technology, life sciences, and renewable energy fields;
- (2) Improve the State's ability to measure productivity and growth of the economy;
- (3) Support the operations and programs of a State operated technology incubator and innovation center in Kakaako;
- (4) Establish a local incubator facility for digital media infrastructure for film and TV productions and interactive game development;
- (5) Establish a music industry program at Honolulu Community College (MELE); and
- (6) Provide funds that allow the University of Hawaii Office of Technology Transfer and Economic Development to enter into a partnership with a private sector entity.

Testimony in support of this measure was received from the Governor; the Department of Business, Economic Development, and Tourism; High Technology Development Corporation; University of Hawaii; Honolulu Community College; Enterprise Honolulu; Hawaii Science & Technology Council; Hawaii Venture Capital Association; and Kamehameha Schools. The Department of Budget and Finance submitted testimony in opposition. The Department of Accounting and General Services; State Procurement Office; Office of Information Practices; Tax Foundation of Hawaii; Mountain Apple Company; Honolulu Seawater Air Conditioning, LLC; and one individual submitted comments.

Your Committee previously heard and approved S.B. No. 1365, S.D. No. 1, further amended by the Committee on Ways and Means as S.B. No. 1365, S.D. 2.

Your Committee has amended this measure by deleting its contents and inserting the language contained in S.B. No. 1365, S.D. 2. As amended, this measure:

- (1) Requires the Employees' Retirement System, as of January 1, 2008, to give preference to Hawaii venture capital investments of equal risk and return to out-of-state investments and caps these investments at three per cent of system funds;
- (2) Appropriates funds to the University of Hawaii Office of Technology Transfer and Economic Development to enter into a partnership with a private sector entity; and
- (3) Takes effect on July 1, 2050.

Your Committee is very supportive of many of the components of this measure, particularly those for the advancement of digital media opportunities and the MELE program at Honolulu Community College. Your Committee notes that these initiatives are contained in other measures and Committee members will have additional opportunities to review and discuss them.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 338, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 338, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (English, Espero).

SCRep. 1323 Economic Development and Taxation on H.B. No. 317

The purpose of this measure is to:

- (1) Exempt from the general excise tax amounts that a client company pays to a professional employment organization that will be expended to pay the wages, salaries, payroll taxes, and benefits of the employees hired by a client company; and
- (2) Provide that the exemption shall not apply if the professional employment organization has received written notification of any violations or has failed to pay withholding for any employee taxes.

Your Committee received testimony in opposition to this measure from Altres, Inc., and one individual. The Tax Foundation of Hawaii submitted comments.

Your Committee received a statement of revenue impact from the Department of Taxation that the annual revenue loss would be \$600,000, and that the methodology for this loss was based on actual case settlements.

Your Committee finds that this legislation would lend clarity to the administration of and the compliance with the general excise tax law for both the Department of Taxation and taxpayers.

Your Committee has amended this measure by:

- (1) Adding the tax exemption amendments language to section 237-24.75, rather than section 237-24.7, Hawaii Revised Statutes;
- (2) Deleting the provision related to written notification by any union or the Department of Labor and Industrial Relations of any violation; and
- (3) Making technical amendments to conform this measure to the preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 317, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 317, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1324 Economic Development and Taxation on H.B. No. 312

The purpose of this measure is to make an appropriation to the Department of Business, Economic Development, and Tourism for the Hawaii Community-Based Economic Development Technical and Financial Assistance Program (Program).

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Office of Planning; Office of Hawaiian Affairs; Maui Office of Economic Development; Kauai Office of Economic Development; Kaua'i Community College; National Kidney Foundation; Hawai'i Alliance for Community-Based Economic Development; Hawai'i Small Business Development Center; Garden Island Resource Conservation & Development, Inc.; Kaua'i Planning & Action Alliance, Inc.; The Arc of Kauai; Empower Oahu; Wai'anae Coast Coalition; Kona Pacific Farmers Cooperative; and three individuals.

Your Committee finds that the business community, nonprofit organizations, and other entrepreneurs require a functional, service-oriented agency that is readily available to provide business counseling, financial backing, and general support to foster real community-based economic development of the various products and services demonstrating and embracing Hawaii's diversified economy. The Program was established for this purpose by Act 111, Session Laws of Hawaii (SLH) 1990, codified as chapter 210D, Hawaii Revised Statutes (HRS), which states in part in section 210D-1, HRS, that "[i]t is in the best interest of the State to bring about a diversification of opportunities in all aspects of life for the residents and communities of the State. Community-based enterprises play an important part in providing a diversification of opportunities for Hawaii's residents and communities."

Your Committee finds that this measure is in keeping with the State's stated commitment under Act 211, SLH 1990.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to continue the discussion in its merits.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 312, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 312, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (English, Espero).

SCRep. 1325 Economic Development and Taxation on H.B. No. 1083

The purpose of this measure is to:

- (1) Authorize the High Technology Development Corporation to negotiate a ten-year lease to construct the Asia Pacific International Research Center for High Technology in Kakaako; and
- (2) Appropriate an unspecified amount for this purpose.

Testimony in support of this measure was received from the High Technology Development Corporation; Hawaii Community Development Authority; University of Hawaii, John A. Burns School of Medicine; the Office of Technology Transfer and Economic Development; Hawaii Science and Technology Council; The Pacific Resource Partnership; Kamehameha Schools; KUD International and Phase 3 Properties; Cardax Pharmaceuticals, Inc.; and Honolulu Seawater Air Conditioning, LLC.

Your Committee is supportive of the development of incubator and specialized laboratory space, particularly near the medical school. Your Committee members are concerned, however, about potential costs to the State related to the ten-year lease guaranty and a potentially large-scale financial commitment.

Your Committee previously heard and approved S.B. No. 896, S.D. 1, which is a substantially similar measure. Your Committee has amended this measure to incorporate provisions of S.B. No. 896, S.D. 1, by:

- (1) Substituting the language in sections 1 and 2 with the language in sections 1 and 2 of S.B. No 896, S.D. 1, which:
 - (A) Replaces all references to the named developers of the complex with the generic term “developers”;
 - (B) Replaces all references to the “Asia Pacific International Research Center” with “life sciences research complex”; and
 - (C) Clarifies that the State’s portion would be for a “high technology incubator and innovation center” in Kakaako; and
- (2) Deleting section 3, which details issues to be considered in the negotiations; and
- (3) Changing the lease agreement from ten years to five years throughout.

Your Committee has also inserted an effective date of July 1, 2050, for the purposes of furthering discussion.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1083, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1083, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Ayes with Reservations, 2 (Ige, Slom). Noes, none. Excused, none.

SCRep. 1326 Judiciary and Labor on H.B. No. 861

The purpose of this measure is to require that the Department of Labor and Industrial Relations be the responsible agency for ensuring compliance with Hawaii’s prevailing wage law for public work projects not directly caused by a governmental contracting agency and require the issuance of special purpose revenue bonds for these projects be reported to the Department of Labor and Industrial Relations.

Your Committee received testimony in support of the bill from the International Brotherhood of Electrical Workers Local 1186 and from the Hawaii State AFL-CIO. Testimony in opposition to the bill was received from Hawaiian Electric Company and the Department of Labor and Industrial Relations.

Your Committee amended the bill where a project party enters into a project agreement involving special purpose revenue bonds and the project party has a collective bargaining agreement with a bona fide labor union, the terms of the collective bargaining agreement and associated provisions shall be deemed the prevailing wages. Your Committee also made some technical non-substantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 861, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 861, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1327 Judiciary and Labor on H.B. No. 989

The purpose of this measure is to allow public employees to donate accumulated sick leave credits, in addition to vacation credits, to assist other employees who are on extended leave because of serious personal illness or injury.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, the United Public Workers, and a concerned individual. The Department of Health, Department of Human Resources Development, Department of Human Resources of the City & County of Honolulu, and Department of Human Resources of the County of Hawaii submitted testimony in opposition to this measure. The Judiciary offered comments in support of the intent but expressing concerns.

Your Committee finds it appropriate to authorize one employee to donate a portion of the employee’s accumulated sick leave to another employee, as a humane and compassionate act, to alleviate the stress and hardship occasioned by a serious illness or injury.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 989, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1328 Judiciary and Labor on H.B. No. 1746

The purpose of this measure by the House of Representatives is to extend the sunset date of Act 245, SLH 2005, to 2013. The measure also requires employee organizations that establish VEBA trusts to report to the legislature after two full years of implementation and annually thereafter.

Testimony in support of this measure was received from the Hawaii State Teachers Association, Hawaii State Teachers Association – Retired and numerous teachers. Opposing testimony was received from the Attorney General and the HGEA - Retirees.

Moreover, the Hawaii Employer-Union Health Trust Fund (EUTF) testified against the measure because it asserts that VEBA has cost the EUTF actives over 4% or approximately 8.5 million dollars.

The Hawaii State Teachers' Association (HSTA) stated that VEBA has saved money for its teachers and have also provided new benefits that have been adopted by the EUTF. HSTA further asserts that the extension will provide a truer picture of the savings of the VEBA plan established in March, 2006. HSTA also stated that having another health plan provides competition in prices and benefits that help all public employees.

Your Committee has amended this measure by changing the proposed extension of the repeal of Section 8 of Act 245, Session Laws of Hawaii 2005 from 2013 to 2009. Your Committee also amended this measure by limiting VEBA to only those plans that began in March, 2006.

The following concerns were raised by:

1. the Attorney General that the bill in its present form would create a legal ambiguity whether there will be a thorough evaluation of the costs and benefits of a VEBA trust compared to the Hawaii Employer-Union Health Benefits trust Fund as provided for in section 1 of Act 245, 2005 Session Laws of Hawaii;
2. the HGEA – Retirees that the loss of HSTA retirees would have a negative impact on the remaining EUTF retirees' cost for health benefits; and
3. the Hawaii Employer-Union Health Trust Fund also testified in writing that the HSTA VEBA has resulted in an increase to the actives of over 4% or approximately 8.5 million dollars.

Further discussion with the House of Representatives is necessary regarding this measure and moving it forward would achieve this end.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1746, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1746, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kokubun, Nishihara).

SCRep. 1329 Judiciary and Labor on H.B. No. 1500

The purpose of this measure is to raise the maximum weekly unemployment benefit to 80% of the average weekly wage. The measure changes the employer's contribution rates for the fiscal year 2007-2008 to 65% of amount and thereafter to 75% of the amount and reduces the adequate reserve fund amount after 2007.

Testimony opposing this bill was received from the Department of Labor and Industrial Relations, ILWU Local 142, The BIA-Hawaii, the Attorney General, the Society for Human Resource Management- Hawaii Chapter, the Chamber of Commerce of Hawaii, NFIB, and Hidano Construction. The Hawaii State AFL-CIO provided comments.

Your Committee requested that the employers, unions and state agencies work on proposed language that will meet each of their needs. Proposed language was submitted by this consortium.

The measure was amended by adopting the proposed language that amended the bill by the following:

- (1) lowered the percentage for the maximum weekly benefit from eighty percent to seventy-five percent;
- (2) increased the offset from \$50 to \$150,
- (3) provided relief for employers to their contributions by lowering the adequate reserve fund from 18 months to 12 months and the amount of contributions; and
- (4) requires the Department of Labor and Industrial Relations to provide a study to the Legislature on the effects of the temporary increase in benefits, lowering the adequate reserve from 18 months to 12 months, make recommendations to the legislature, provide historical data and economic analysis from 1970 to the present on the fund.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1500, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1500, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 1330 Judiciary and Labor on H.B. No. 1212

The purpose of this measure is to provide the judiciary budget for the 2007-2009 biennium.

Testimony in support of this measure was received by the Judiciary, MADD-Hawaii and the Maui County Library Association.

Your Committee has reviewed the information obtained from the Judiciary and has amended this measure accordingly.

The measure was amended by the following highlights:

- (1) Added \$27,500,000 for the construction of the new Kapolei Judiciary Complex and to complete the original purchase of land.
- (2) Added six Juvenile Detention Worker I positions for the Juvenile Detention Home to comply with current collective bargaining provisions.
- (3) Provided funds for Project Hope to purchase three "pupilometers" for drug testing and converted temporary positions to permanent positions.
- (4) Provided \$100,000 each for the drug courts on Maui and Oahu to combat substance abuse.
- (5) Provided funds for Na Loio, Volunteer Legal Services Hawaii, Legal Aid Society, Hawaii Family Law Clinic, Catholic Charities, Parents and Children Together and the Children's Alliance of Hawaii to continue their services to immigrants, indigents and abused children and their families.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1212, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1212, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 1331 Economic Development and Taxation on H.B. No. 92

The purpose of this measure is to promote the fair application of the general excise tax (GET) by allowing securities professionals to pay the general excise tax only on their respective share of commissions divided among a number of persons.

Your Committee received testimony in support of this measure from the National Association of Insurance and Financial Advisors; Brookstreet Securities Corporation; Linsco/Private Ledger Corp.; and one individual. The Department of Taxation (Department) and the Hawaii Tax Foundation submitted comments on this measure.

The Department submitted testimony that the fiscal impact of this measure would be a revenue loss of \$1,400,000 annually. In its methodology, the Department stated that data on GET collected on non-insurance commissions was used to make the estimates, with adjustments made to remove real estate and other commissions.

Your Committee finds that where two or more securities professionals share compensation, each should only be required to pay taxes on their respective portions, rather than on the entire compensation. This measure would address a long-standing inequity in Hawaii tax law.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 92, H.D. 1, S.D. 1, and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (English, Espero).

SCRep. 1332 Commerce, Consumer Protection and Affordable Housing on H.B. No. 272

The purpose of this measure is to allow captive insurance companies to be formed as limited liability companies, to clarify the minimum capital and surplus requirements, and increase the investment flexibility for pure captives.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Willis Management (Hawaii), and one individual.

Your Committee finds that while Hawaii is the second largest captive insurance domicile in the United States, it is facing increasing competition from other states that have recognized the value of implementing captive insurance enabling regulations.

Your Committee further finds that the Hawaii Revised Statutes do not currently allow for the formation of captive insurance companies to form as limited liability companies, while other states do. This leaves Hawaii unable to compete with other captive domiciles for this type of business. This measure will help Hawaii to continue to be a leading captive insurance domicile by maintaining captive insurance companies already domiciled in Hawaii and attracting new captive insurance companies in the future.

Your Committee has amended this measure by:

- (1) Clarifying that the captive investment requirements found in section 431:19-110, Hawaii Revised Statutes, do not apply to class 3 risk retention captive insurance companies;
- (2) Inserting new language to require the captive insurance administrator, who is currently appointed by the Insurance Commissioner and approved by the Director of Commerce and Consumer Affairs, to also be designated as a deputy commissioner; and
- (3) Making other technical, nonsubstantive changes for purposes of clarity and style.

Your Committee notes that these amendments were agreed upon by the Department of Commerce and Consumer Affairs and the Hawaii Captive Insurers' Council.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 272, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 272, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Ihara).

SCRep. 1333 (Joint) Intergovernmental and Military Affairs, Transportation and International Affairs and Economic Development and Taxation on H.B. No. 349

The purpose of this measure is to authorize the counties to regulate both guided and unguided bicycle tour businesses on state and county highways.

Your Committees received testimony in support of this measure from the Department of Transportation, the Mayor of the County of Maui, and the Kula Community Association's Sub-Committee on Commercial Bicycle Tours. Testimony in opposition to this measure was submitted by the Small Business Regulatory Review Board and Cruiser Phil's Volcano Riders.

Your Committees find that there have been many safety concerns expressed by the public regarding commercial bicycle tours. In certain areas of the State, the current volume of commercial bicycle tour operations, both guided and unguided, pose significant safety concerns for vehicles and bicycle traffic alike. The popularity of these tours has grown substantially over the years, as has the population in certain residential areas. This growth of sometimes competing interests has led to alleged incidents of volatile confrontations between commercial bicycle tour operators and residents, thereby exacerbating the safety issues raised by the public.

Your Committees further find that this measure addresses these concerns by permitting the council of any county in the State to adopt and provide for the enforcement of ordinances that will improve roadway safety where commercial bicycle tours are conducted. This measure is of particular significance in areas currently without laws or rules governing commercial bicycle tour operations on state and county highways.

Your Committees amended this measure by changing the effective date in order to foster further discussion and by requiring that bicycle tours beginning from federal or state parks and into state highways follow federal regulations in order to provide consistency in the regulations governing both guided and unguided bicycle tour businesses.

It is the intent of your Committees to provide the counties with the authority to regulate both guided and unguided bicycle tour businesses on State and county highways in accordance with Federal guidelines in order to improve safety conditions for both bicyclists and motorists in the State.

As affirmed by the records of votes of the members of your Committees on Intergovernmental and Military Affairs and Transportation and International Affairs and Economic Development and Taxation that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 349, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 349, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 2 (Hooser, Taniguchi).

SCRep. 1334 Intergovernmental and Military Affairs on H.B. No. 1756

The purpose of this measure is to authorize the counties to exempt nonprofit corporations from the fifteen year limit on the grant of county concessions or concession space.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Maui and the County Council of the County of Maui.

Your Committee finds that the Maui County Council's Parks and Economic Development Committee recently conducted lengthy deliberations regarding problems associated with the existing fifteen-year limit on county leases to nonprofit organizations and found that limited leases often prohibit worthy nonprofit organizations from securing grants that are needed to fund capital improvement projects.

As such, it is the intent of your Committee to assist nonprofit organizations to secure grant funds and perform capital improvements for programs that provide substantial community benefits by authorizing counties to exempt nonprofit corporations from the fifteen-year limit on the grant of county concessions or concession space.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1756, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Tsutsui).

SCRep. 1335 Ways and Means on H.B. No. 1672

The purpose of this measure is to authorize increases to the salaries of legislative service agency deputies and first assistants.

Specifically, the measure authorizes the increase of the maximum allowable salaries of the deputies and first assistants of the Offices of the Auditor, Ombudsman, and the Legislative Reference Bureau from eighty-seven to ninety-two per cent of the salaries of their respective agency heads.

Your Committee received testimony in support of the measure from the Office of the Auditor, the Office of the Ombudsman, and the Legislative Reference Bureau.

Your Committee finds that, generally, Act 225, Session Laws of Hawaii 2005 made the salaries of legislative agency heads comparable to executive department heads. The salaries for deputies and first assistants, however, were not comparable, and the law allowed executive department deputies to command more pay than their legislative agency counterparts.

This measure remedies this problem by providing equity to legislative agency deputies and first assistants by increasing their allowable salaries to equal those of their executive agency counterparts. The measure will also assist legislative agencies with recruitment and job retention efforts and will more accurately compensate legislative agency deputies and first assistants for the duties and responsibilities that they perform.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1672, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Fukunaga, Menor, Whalen).

SCRep. 1336 Ways and Means on H.B. No. 1226

The purpose of this measure is to provide emergency funding for electricity payments for facilities managed by the Department of Accounting and General Services statewide.

Specifically, the measure appropriates \$626,000 for fiscal year 2006-2007, to be expended by the Department of Accounting and General Services.

Testimony in support of this measure was submitted by the Department of Accounting and General Services.

Your Committee finds that world oil prices have fluctuated at unpredictable levels and have directly contributed to this funding shortfall. Your Committee further finds that without an emergency appropriation for electricity costs, the State would have to defer payment and would incur late payment interest charges.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1226, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 3 (Fukunaga, Menor, Whalen).

SCRep. 1337 Transportation and International Affairs on Gov. Msg. No. 279

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR OF THE DEPARTMENT OF TRANSPORTATION

G.M. No. 279 BARRY A. FUKUNAGA, for a term to expire 12-6-2010

Your Committee received testimony in support of the nominee from the Harbors Division of the Department of Transportation; Airport Division of the Department of Transportation; Department of Defense; Aloha Tower Development Corporation; United Public Workers; Airport Concessionaires Committee; American Society of Civil Engineers; Hawai'i Ship Agents Association; Aloha Cargo Transport; Hawai'i Transportation Association; Hawai'i Superferry; Horizon Lines; Coalition of Hawai'i Engineering & Architectural Professionals; kya design group; Young Brothers; McCabe, Hamilton & Renny Co., Ltd.; PLA Incorporated; Hawaiian Dredging Construction Company; Hawai'i Public Policy Advocates, LLC; KFC Airport, Inc.; Matson Navigation Company; Hawai'i Bicycling League; Hawai'i Ship Agents Association; Maui County Farm Bureau; Hawai'i Farm Bureau; Imperium Hawai'i; Hawai'i Stevedores, Inc.; Watanabe Ing & Kawashima; Airlines Committee of Hawai'i; Aloha Airlines; Cement and Concrete Products Industry of Hawai'i; Hawai'i Firefighters Association; a State Representative; and seven individuals.

Barry Fukunaga is currently serving as an interim appointment as the Director of the Department of Transportation, effective January 5, 2007. From September 2004 to January 2007, he served as the Deputy Director, Harbors Division, Department of Transportation, where he managed Hawai'i's commercial harbors system, comprised of ten commercial harbors located on O'ahu, Kaua'i, Maui, Moloka'i, Lana'i, and Hawai'i.

Previously, Mr. Fukunaga served as the Director of the Department of Enterprise Services for the City and County of Honolulu, where he administered and managed the Neal S. Blaisdell Center, Waikiki Shell, Honolulu Zoo, and various golf courses. Prior to that, he served as Deputy Director of the Honolulu Department of Environmental Services, where he was responsible for wastewater treatment facilities, solid refuse collection, and disposal functions, and other programs.

In addition, Mr. Fukunaga has served in various capacities in the past twenty-five years with the Department of Transportation as airports manager, airports operations manager, and airports services supervisor. He received a Masters' Degree in Public Administration and a Bachelor's Degree in Business Administration from the University of Hawai'i. Mr. Fukunaga is a former U.S. Air Force pilot.

Although not educated or trained in the technical field of engineering, Mr. Fukunaga has effectively involved himself in managerial roles dealing with engineering work, as well as planning, design, and construction activities associated with capital improvement projects. Exerting a great degree of effort throughout his government career, he has acquainted and familiarized himself with technical issues from the standpoint of becoming a better, more effective manager. He has the knowledge, awareness, and understanding of capital improvement project requirements. More particularly, your Committee was satisfied with Mr. Fukunaga's long-range master plans for highways, harbors, and airports.

Your Committee notes the nominee's testimony that he will focus on the implementation of improvements that have been long sought but subject to continuing delay. There are major highway projects underway to address and alleviate congestion. There is a major modernization program to upgrade airport terminal facilities. The Department of Transportation (DOT) has begun the process of relocating tenants for the development of the new container terminal at Honolulu Harbor and will be pursuing improvements at Kahului, Kawaihae, and Hilo Harbors, by finalizing the major planning and the initial development stages for improvements. This will set the stage for completion by subsequent administrations of the major initiatives.

More specifically, with regard to the Hawai'i Superferry, Mr. Fukunaga stated that, as the DOT is currently undertaking an environmental impact statement (EIS) process for the Kahului Harbor master plan, which includes Hawai'i Superferry. With regard to his decision that an EIS was not required for the Hawai'i Superferry two years ago, he stated that he based his decision on the facts and information he had before him and consulted with others in the DOT, including the then director, to arrive at a mutually agreed upon decision.

Mr. Fukunaga also plans to establish an environmental planning unit in the DOT to guide major DOT projects in order to facilitate greater environmental considerations into planning and construction of projects.

With regard to his autonomy, Mr. Fukunaga stated that he would not relinquish his decision-making authority to the Governor, but in case of a difference of opinion, the Governor makes the ultimate decision. Nonetheless, he assured your Committee that he would explain his views to the Governor and would rely upon his deputies in the DOT to make recommendations in any decision.

Mr. Fukunaga's guiding vision as Director of Transportation is to recognize a sense of urgency in the way the DOT does its work; to be open and communicative to the public concerning DOT projects; to deliver DOT projects sooner and to do them well; to strive for excellence in the work of the DOT; and to give professional support to DOT employees.

Your Committee believes that the nominee's vast experience in all aspects of transportation; his managerial experience and education; unanimous support from testifiers; ready responses to legislators inquiries; and provision of complete information to the Legislature, qualifies him to be the Director of Transportation.

attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Hooser, Taniguchi).

SCRep. 1338 (Majority) Economic Development and Taxation on H.B. No. 252

The purpose of this measure is to increase conveyance tax rates for sales of condominiums or single-family residences where the purchaser is ineligible for a county homeowner's property tax exemption.

Testimony in support of this measure was received from The Nature Conservancy, Sierra Club Hawai'i Chapter, and one individual. The Department of Taxation, National Federation of Independent Businesses, Hawaii Association of REALTORS, and Wyndham Vacation Ownership, Inc., submitted testimony in opposition. The Tax Foundation of Hawaii submitted comments on this measure.

The measure proposes to raise the conveyance tax as follows:

- (1) For properties valued at less than \$600,000, from fifteen cents to thirty-five cents per \$100;
- (2) For properties valued at \$600,000 but less than \$1,000,000, from twenty-five cents to forty cents per \$100,000; and
- (3) For properties valued at more than \$1,000,000, from thirty-five cents to seventy cents per \$100.

The Department of Taxation submitted a revenue impact statement that the revenue gain to the general fund is estimated to be less than \$566,000, and noted that the following distributions are made to the conveyance tax related funds:

- Rental Housing Trust Fund: \$1,800,000
- Land Conservation Fund: \$377,000
- Natural Area Reserve Fund: \$943,000

Your Committee has heard a number of concerns as to the effectiveness of this measure in curbing speculative sales and the particular impact this measure will have for homes selling for less than \$1,000,000. Sales of homes in the under \$1,000,000 range are far less likely to be “speculative” in nature, given Hawaii housing prices, and including them is unlikely to address the problem of affordable housing.

Your Committee has amended this measure accordingly, by deleting the proposals to raise the tax amounts for properties with a value of less than \$1,000,000.

Your Committee notes that this measure already has an effective date of July 1, 2034, which will allow for further discussion on this measure.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 252, H.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as H.B. No. 252, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Ige). Noes, 1 (Slom). Excused, none.

SCRep. 1339 Economic Development and Taxation on H.B. No. 902

The purpose of this measure is to establish the important agricultural land (IAL) agricultural business tax credit.

Testimony in support of this measure was received from the Department of Agriculture; Agribusiness Development Corporation; Hawaii Farm Bureau; Hawaii Agriculture Research Center; Land Use Research Foundation of Hawaii; Alexander & Baldwin, Inc.; Hawaii Crop Improvement Association; and Hawaiian Electric Company, Inc. One individual submitted testimony in opposition. The Department of Taxation (Department) and Tax Foundation of Hawaii submitted comments on this measure.

The Department submitted a fiscal impact statement that the revenue loss to the State would be approximately \$27,800,000 annually. In its methodology, the Department stated that qualifying inflation-adjusted farm expenses totals about \$70,600,000, based on 2002 Bureau of Census data, and estimated that one-half of farm land would qualify as IAL. In 2006, allocations from the Irrigation Repair and Maintenance Special Fund were approximately \$15,000,000, and an estimated fifty per cent of that would be designated as IAL. (\$35,300,000 - \$7,500,000 = \$27,800,000).

Your Committee previously heard and approved S.B. No 1221, S.D. 2, a comparable measure that established the tax credit over a five-year period.

Your Committee has amended this measure accordingly, by staggering the percentage of costs claimable under the tax credit over a five-year period as follows:

- (1) Fifty per cent of qualified agricultural costs up to an unspecified maximum dollar amount in the first year;
- (2) Twenty per cent of qualified agricultural costs up to an unspecified maximum dollar amount in the second year; and
- (3) Ten per cent of qualified agricultural costs up to an unspecified maximum dollar amount in the third, fourth, and fifth years.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 902, H.D. 2, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as H.B. No. 902, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1340 Economic Development and Taxation on H.B. No. 1289

The purpose of this measure is to:

- (1) Clarify that all energy technology systems must be installed and placed in service in the State of Hawaii to obtain the State’s income tax energy tax credit; and
- (2) Amend tax credits applicable to shareholder pro rata shares in S corporations.

Testimony in support of this measure was received from the Department of Taxation, Hawaii Energy Policy Forum, and Hawaii Renewable Energy Alliance. The Tax Foundation of Hawaii submitted comments.

Your Committee received a fiscal impact statement from the Department of Taxation that the revenue gain would be approximately \$29,000.

Your Committee has amended this measure by changing the effective date from upon approval to July 1, 2007, for systems installed after June 30, 2007.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1289, H.D. 2, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as H.B. No. 1289, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1341 Economic Development and Taxation on H.B. No. 1639

The purpose of this measure is to:

- (1) Exclude rental income derived from agricultural leases on important agricultural lands (IAL) from gross and adjusted gross income, and taxable income for income tax purposes, under certain conditions; and
- (2) Exempt rental income derived from agricultural leases on important agricultural lands from the general excise tax law, under certain conditions.

Testimony in support of this measure was received from the Department of Agriculture, Department of Taxation, Hawaii Farm Bureau, Land Use Research Foundation of Hawaii, and Alexander & Baldwin, Inc. The Tax Foundation of Hawaii submitted comments on this measure.

S.B. No. 1877, S.D. 2, which is also an IAL tax credit measure, was previously heard and approved by the Senate. In order to consider all options, your Committee has amended this measure by adding the language from S.B. No. 1877, S.D. 2. As amended, this measure:

- (1) In part II, establishes a reimbursable real property income tax credit for one hundred per cent of the actual amount of real property tax paid by taxpayers real property tax assessed on lands designated as important agricultural lands; and
- (2) In part III, provides farmer and employee housing on lands designated as important agricultural lands.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1639, H.D. 2, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as H.B. No. 1639, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (English, Espero).

SCRep. 1342 Economic Development and Taxation on H.B. No. 506

The purpose of this measure is to extend the tax credit for qualified ethanol production facilities for five years from January 1, 2012, to January 1, 2017.

Testimony in support of this measure was received from the Department of Business, Economic Development, and Tourism and Alexander & Baldwin, Inc. The Department of Taxation (Department) and the Tax Foundation of Hawaii submitted comments on this measure.

Your Committee received a revenue impact statement from the Department that the projected average revenue loss for fiscal year 2012 through fiscal year 2017 is less than \$11,000 annually. In their methodology, the Department stated that the total amount claimed in 2004 was \$8,078, and inflation rates were applied to determine these projections. The Department also stated that should additional ethanol production facilities be developed, the revenue loss would increase. Your Committee has not heard, however, that any additional facilities have moved beyond the "possible" stage.

Your Committee notes that the effective date of this measure is July 1, 2050, which will allow for continuing discussion as additional information may become available.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 506, H.D. 1, S.D. 1, and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1343 Economic Development and Taxation on H.B. No. 149

The purpose of this measure is to create a one-time tax credit for victims of the October 15, 2006, earthquakes.

The Department of Defense and the Department of Taxation (Department) submitted comments on this measure.

Your Committee has reviewed a number of concerns raised by the Department, particularly the issue of taxpayers who would not be able to claim the credit because they were unable to repair or replace the damaged property. Your Committee agrees with this concern and has addressed it in the amended measure.

Your Committee has amended this measure by:

- (1) Clarifying that a qualifying taxpayer may claim a credit equal to either a percentage of the repair costs, or a percentage of the loss, under certain conditions;
- (2) Restricting the credit to residential structures located in the County of Hawaii;
- (3) Ensuring that the taxpayer may not claim a credit under both provisions, repair costs or loss incurred;
- (4) Establishing a process to determine loss, as determined by a qualified appraiser;
- (5) Clarifying that any excess of the tax credit over liability may be carried forward until exhausted; and
- (6) Changing the end of the applicable period for the tax credit from before January 1, 2007, to before January 1, 2009.

Your Committee received a statement of revenue impact from the Department that based on these amendments, the measure could cost \$15,000,000, with seventy per cent of the cost occurring in the first year. In its methodology, the Department estimated that the earthquake has caused \$200,000,000 in damages. Based on preliminary reports, it is estimate that ten per cent of the total damage was to homes. It is assumed that homeowners recouped twenty-five per cent of damages from insurance. Thus, the estimated legitimate residential claims are estimated to be about \$15,000,000 if the credit were set at one hundred per cent of damages.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 149, H.D. 2, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as H.B. No. 149, H.D. 2, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1344 Economic Development and Taxation on H.B. No. 1096

The purpose of this measure is to assist low- and moderate-income home buyers by providing a state income tax credit up to twenty per cent of the annual mortgage interest paid per year.

Testimony in support of this measure was received from the Hawai'i Alliance for Community Based Economic Development and the Hawaii Association of REALTORS. The Department of Taxation; UniDev Hawai'i, LLC, and the Tax Foundation of Hawaii submitted comments on this measure.

Your Committee has heard a number of concerns raised about the provisions of this measure, but Committee members believe it merits continuing dialogue.

Your Committee has amended this measure by:

- (1) Deleting all references to "certificate credit rate" throughout;
- (2) Deleting the specific percentage and maximum dollar amount for the tax credit and leaving the percentage and dollar amount unspecified;
- (3) Specifying that the residence shall become the principal residence of the mortgagor within one year;
- (4) Deleting the requirement that each person who issues a state mortgage certificate shall file a report;
- (5) Directing the Hawaii Housing Finance and Development Corporation to administer and enforce the state mortgage certificate and certify eligibility; and
- (6) Inserting an effective date of July 1, 2050, for the purposes of continuing legislative discussions.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1096, H.D. 1, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as H.B. No. 1096, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 3. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 2 (English, Espero).

SCRep. 1345 Economic Development and Taxation on H.B. No. 1277

The purpose of this measure is to revitalize the Leeward coast by:

- (1) Establishing a \$75,000,000 income tax credit for affordable rental housing and educational and training facilities constructed on the leeward coast of Oahu; and
- (2) Repealing the unused \$75,000,000 Ko Olina Resort and Marina and Makaha Resort tax credit.

Testimony in support of the intent of this measure was received from the Department of Business, Economic Development, and Tourism; Department of Taxation; Office of Planning; and Ko Olina Resort and Marina. The Tax Foundation of Hawaii submitted comments on this measure.

Your Committee is in strong support of expanding the economic and housing opportunities for residents of the Leeward coast, and believes that a range of options should be considered before final decisions are made.

Your Committee has amended this measure by:

- (1) Adding commercial projects and specifying what shall be included in the qualified costs for commercial projects;
- (2) Changing the maximum dollar limit for the three tax credit project categories to unspecified amounts;
- (3) Changing the definition of "Leeward coast" to encompass unspecified state senatorial districts, with first preference for qualified projects on lands owned by the Department of Hawaiian Home Lands;
- (4) Providing that the Act shall apply to taxable years beginning after December 31, 2050, for the purposes of further discussion; and
- (5) Making technical amendments for the purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1277, H.D. 2, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as H.B. No. 1277, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1346 Education on Gov. Msg. No. 463

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DIRECTORS OF THE RESEARCH CORPORATION OF THE UNIVERSITY OF HAWAII

G.M. No. 463 JOELLE SEGAWA KANE, for a term to expire 6-30-2011

Upon review of background information submitted by the nominee, your Committee finds that Joelle Segawa Kane holds a Bachelor of Arts degree in Political Science from the University of Washington and a Juris Doctor degree from the William S. Richardson School of Law. She is a partner in the law firm of Henderson Gallager & Kane and is being nominated for reappointment to the Board of Directors of the Research

Corporation of the University of Hawaii. Ms. Kane's prior work experience includes the practice of law in the areas of civil litigation, insurance defense and coverage, personal injury, no-fault insurance law, casualty liability, bad faith, premises liability, and construction defects, as well as service as a law clerk for a Circuit Court judge and as a legislative aide. She is also a member of Sisters Offering Support, the William S. Richardson School of Law Alumni Association, the American Bar Association, the Hawaii State Bar Association, Hawaii Women Lawyers, the Native Hawaiian Bar Association, the Iolani School Alumni Association, Daughters of Hawaii, and Delta Theta Phi.

Testimony in support of the nominee was submitted by the Hawaii Government Employees Association, the State Council of Hawaiian Homestead Associations, the Waimanalo Hawaiian Homes Association, and ten individuals.

Your Committee questioned the nominee regarding the nominee's desire to serve, perception of the role and responsibilities of membership, qualifications for membership, and goals for the nominee's term of service on the Board of Directors of the Research Corporation of the University of Hawaii. Your Committee believes that the nominee adequately responded to the Committee's inquiries and demonstrated adequate knowledge of and a commitment to work towards the goals of the Research Corporation of the University of Hawaii.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Hee, Tokuda).

SCRep. 1347 Education on Gov. Msg. No. 498

Recommending that the Senate advise and consent to the nomination of the following:

HAWAII TEACHER STANDARDS BOARD

G.M. No. 498 CAROL E. SEIELSTAD, for a term to expire 6-30-2010

Upon review of background information submitted by the nominee, your Committee finds that Carol E. Seielstad holds an Artium Baccalaureus degree, with honors, from the University of California at Berkeley and Master's Equivalent degree from McGill University in Montreal, Quebec. She has also earned her fifth year teaching credential from the College of Notre Dame in Belmont, California and has completed certification under Project R.I.S.E. Ms. Seielstad currently serves as a special education teacher at Hanalani and Kapaa Elementary Schools and is being nominated for reappointment to the Hawaii Teacher Standards Board. She has also served as a special education teacher for preschool students, a resource coordinator/resource teacher, a reading specialist, a kindergarten teacher, and as a Peace Corps volunteer teacher. Ms. Seielstad is a National Board Certified Teacher who is also a member of many professional and community organizations.

Testimony in support of this nominee was submitted by the Hawaii State Teachers Association and two individuals.

Your Committee questioned the nominee regarding the nominee's desire to serve, perception of the role and responsibilities of membership, qualifications for membership, and goals for the nominee's term of service on the Hawaii Teacher Standards Board. Your Committee believes that the nominee adequately responded to the Committee's inquiries and demonstrated adequate knowledge of and a commitment to work towards the goals of the Board, including addressing the teacher shortage problem in Hawaii.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Hee, Tokuda).

SCRep. 1348 Intergovernmental and Military Affairs on S.R. No. 21

The purpose of this measure is to condemn the proposed fee increase by the United States Citizenship and Immigration Services and request a halt on the fee increase for all naturalization applications.

Your Committee did not receive testimony regarding this measure.

Your Committee finds that our Nation's and State's newcomers are making valuable contributions to the social, cultural, and economic life of the United States of America and the State of Hawaii.

Your Committee further finds that the United States Citizenship and Immigration Services proposed a sixty-seven per cent fee increase to begin the naturalization process, raising the fee from \$400 to \$675. This proposed fee increase would place a significant financial barrier in the path of many legal permanent residents who seek to naturalize.

Your Committee further finds that the United States Citizenship and Immigration Services' proposed fee increase is contrary to the spirit of our Nation's and State's tradition of welcoming and integrating immigrants, and sends legal permanent residents the wrong message at a time when they are seeking to embrace U.S. citizenship. To this end, it is the intent of your Committee to:

- (1) Condemn the proposed fee increase;
- (2) Request a halt on the fee increase for all naturalization applications;
- (3) Request that the United States Citizenship and Immigration Services provide President George W. Bush and the United States Congress with accurate information in order to ascertain the amount of federal appropriations needed for the United States Citizenship and Immigration Services to modernize its operations and enhance its naturalization services, without raising the naturalization fee; and
- (4) Request that President George W. Bush and the United States Congress provide appropriations to supplement fee revenues to cover costs of major United States Citizenship and Immigration Services' expenses.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 21 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Tsutsui).

SCRep. 1349 (Joint) Intergovernmental and Military Affairs and Health on S.R. No. 34

The purpose of this measure is to request that the State Civil Defense designate a lead staff person to address the disaster preparedness needs of individuals with disabilities and special health needs.

Your Committees received testimony in support of this measure from the Director of Civil Defense of the State Department of Defense, State Council on Developmental Disabilities, Disability and Communication Access Board, Center on Disability Studies, Hawaii Disability Rights Center, and five individuals.

Your Committees find that given the recent disasters, such as hurricanes Katrina and Rita of 2005, and more recently, the earthquakes affecting Hawaii, the needs of individuals with disabilities and other special health needs became more apparent as a part of the overall community emergency preparedness.

Your Committees further find that it is important to expand and improve Hawaii's emergency management operations by supporting the equipping of emergency shelters and designating a statewide coordinator to address and plan for specific and specialized needs of individuals with disabilities and special health needs. To this end, it is the intent of your Committees to:

- (1) Request that a lead staff person address the disaster preparedness needs of individuals with disabilities and special health needs; and
- (2) Request that the State Department of Defense report the designation of its lead staff person to address the disaster preparedness needs of individuals with disabilities and special health needs to the Legislature no later than twenty days prior to the convening of the 2008 Regular Session.

As affirmed by the records of votes of the members of your Committees on Intergovernmental and Military Affairs and Health that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 34 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 1 (Whalen).

SCRep. 1350 (Joint) Intergovernmental and Military Affairs and Health on S.C.R. No. 58

The purpose of this measure is to request that the State Civil Defense designate a lead staff person to address the disaster preparedness needs of individuals with disabilities and special health needs.

Your Committees received testimony in support of this measure from the Director of Civil Defense of the State Department of Defense, State Council on Developmental Disabilities, Disability and Communication Access Board, Center on Disability Studies, Hawaii Disability Rights Center, and five individuals.

Your Committees find that given the recent disasters, such as hurricanes Katrina and Rita of 2005, and more recently, the earthquakes affecting Hawaii, the needs of individuals with disabilities and other special health needs became more apparent as a part of the overall community emergency preparedness.

Your Committees further find that it is important to expand and improve Hawaii's emergency management operations by supporting the equipping of emergency shelters and designating a statewide coordinator to address and plan for specific and specialized needs of individuals with disabilities and special health needs. To this end, it is the intent of your Committees to:

- (1) Request that a lead staff person address the disaster preparedness needs of individuals with disabilities and special health needs; and
- (2) Request that the State Department of Defense report the designation of its lead staff person to address the disaster preparedness needs of individuals with disabilities and special health needs to the Legislature no later than twenty days prior to the convening of the 2008 Regular Session.

As affirmed by the records of votes of the members of your Committees on Intergovernmental and Military Affairs and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 58 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 1 (Whalen).

SCRep. 1351 (Joint) Transportation and International Affairs and Intergovernmental and Military Affairs on S.R. No. 12

The purpose of this measure is to request the State Department of Transportation and the Department of Transportation Services of the City and County of Honolulu to cooperate and coordinate efforts to harmonize pedestrian walk signal lights and traffic stop lights with pedestrian's right of way in the crosswalk law.

Your Committees received testimony in support of this measure from the Department of Transportation and Disability and Communication Access Board.

The recent spate of pedestrian fatalities arising from traffic accidents has aroused public concern over the safety of streets and roads, particularly for elderly citizens who generally need more time to complete crossing the street. The State and the City and County of Honolulu need to cooperate and coordinate the timing of traffic signals, as well as the timing of pedestrian walk signals in order to enhance pedestrian safety. Pedestrian walk signal lights and traffic stop lights should allow sufficient time for all pedestrians, particularly the elderly, to complete their crossing in a crosswalk.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 12 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 2 (Hooser, Taniguchi).

SCRep. 1352 (Joint) Transportation and International Affairs and Intergovernmental and Military Affairs on S.C.R. No. 30

The purpose of this measure is to request the State Department of Transportation and the Department of Transportation Services of the City and County of Honolulu to cooperate and coordinate efforts to harmonize pedestrian walk signal lights and traffic stop lights with pedestrian's right of way in the crosswalk law.

Your Committees received testimony in support of this measure from the Department of Transportation and Disability and Communication Access Board.

The recent spate of pedestrian fatalities arising from traffic accidents has aroused public concern over the safety of streets and roads, particularly for elderly citizens who generally need more time to complete crossing the street. The State and the City and County of Honolulu need to cooperate and coordinate the timing of traffic signals, as well as the timing of pedestrian walk signals in order to enhance pedestrian safety. Pedestrian walk signal lights and traffic stop lights should allow sufficient time for all pedestrians, particularly the elderly, to complete their crossing in a crosswalk.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 30 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 2 (Hooser, Taniguchi).

SCRep. 1353 (Joint) Public Safety and Human Services and Public Housing on H.B. No. 1358

The purpose of this measure is to clarify the purpose of the Hawaii Youth Correctional Facilities.

Specifically, the measure changes the purpose of the Hawaii Youth Correctional Facility from a place where a youth is punished to one where the youth is rehabilitated.

The Attorney General, the Department of Human Services Office of Youth Services, the Community Alliance on Prisons, the American Civil Liberties Union of Hawai'i, and the Hawaii Youth Services Network submitted testimony in support of this measure.

According to the testimony, this measure is consistent with best practices in juvenile corrections and will assist staff to carry out the modern purposes of a youth correctional facility, which is to rehabilitate and prepare youth for reentry into the community.

Your Committees find that the change in language marks a change in philosophy that will help guide the protocols that are applied at the Hawaii Youth Correctional Facilities.

It is your Committees' intent to help ensure that youth receive the services they need for successful and productive reentry into the community. According to the Attorney General, a technical, corresponding amendment is necessary to section 571-48(1)(A), Hawaii Revised Statutes. Therefore, your Committees have amended this measure by:

- (1) Amending section 571-48(1)(A), Hawaii Revised Statutes, to replace the term "incarceration" with the term "custody"; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Public Safety and Human Services and Public Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1358, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1358, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 3 (Hooser, Hemmings, Whalen).

SCRep. 1354 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. No. 266

Recommending that the Senate advise and consent to the nomination of the following:

CHAIRPERSON OF THE BOARD OF AGRICULTURE

G.M. No. 266 SANDRA LEE KUNIMOTO, for a term to expire 12-31-2010

Your Committee reviewed the personal statement and resume submitted by the nominee, and finds Sandra Lee Kunimoto to have the necessary qualifications to be nominated as the Chairperson of the Board of Agriculture.

Your Committee received testimony in support of the nomination of Sandra Lee Kunimoto from the Department of Defense; the Agribusiness Development Corporation; the Nature Conservancy; the Hawaii Farm Bureau Federation; the Maui County Farm Bureau; the Hawaii Association of Conservation Districts; the Hawaii Agriculture Research Center; the Hawaii Crop Improvement Association; the Hawaii Coffee Association; Maui Pineapple Company, Ltd.; the Hawaii Aquaculture Association; the Hawaii Cattlemen's Council, Inc.; Mycogen Seeds; Green Point Nurseries; the Hawaii Egg Producers Association; the Lalamilo Farm Lots Association; the Hawaii Forest Industry Association; the Molokai Irrigation System Water Users Advisory Board; the Hawaii Papaya Industry Association; the Waimanalo Agricultural Association; the Trust for Public Land; and thirty-eight individuals.

Sandra Lee Kunimoto was appointed as the Chairperson of the Board of Agriculture in 2003. Previously, Ms. Kunimoto was the Administrator of the Business Development and Marketing Division at the Department of Business, Economic Development, and Tourism from 2001 to 2002 where she oversaw three areas, including investment and business analysis, service trade, and product trade, and served as the Acting Director of the Department during the Administration transition in December 2002. As the Director of Marketing and Business Development for the Hawaii Agriculture Research Center, from 1995 to 2001, she developed an emerging business segment for the center for the purpose of attracting new businesses into the State, and was part of a collaborated effort to build a multi-industry coalition to work with government agencies and advance the agricultural sector. All together, Ms. Kunimoto has twenty-five years of professional experience in agriculture and its related fields, which has allowed her to blend her knowledge of agriculture with the business of agriculture.

Ms. Kunimoto received her Bachelor of Science in the Biology of Natural Resources from the University of California at Berkeley and her Master of Business Administration from the University of Hawaii at Manoa. She later completed a professional internship at CI Foods Systems Co., Ltd. in Tokyo, Japan through the Japan-America Institute of Management Science, which provided her valuable insights and experience in expanding the global marketplace and the opportunities and challenges this expansion imposes on Hawaii's agricultural industry.

Overwhelming testimony indicates that Ms. Kunimoto has dedicated her career and life to the advancement and expansion of Hawaii's agricultural industry and is a committed and driven advocate for agriculture. Her management style consists of inclusiveness, cooperation, and

respect and she has built valuable partnerships within and outside of the Department of Agriculture that have resulted in many cooperative projects, such as the protection of important agricultural lands, agricultural-related biosecurity initiatives, emergency and disaster response, farm labor assistance, financial assistance for farmers, marketing alliances, and animal quarantine initiatives.

Your Committee finds that under Ms. Kunimoto's tenure as the Chairperson of the Board of Agriculture, the Department of Agriculture has made comprehensive amendments to the State's animal quarantine rules, has established and implemented a state biosecurity program and a seal of quality program, has begun to address agri-terrorism concerns, and has effectively responded and provided assistance to agricultural producers affected by the floods and earthquake in 2006. After the spring floods and the October 15, 2006, earthquake, Ms. Kunimoto was a visible and reassuring presence for the affected farmers as the Department of Agriculture was diligently working on solutions to address their concerns.

Your Committee further finds that Ms. Kunimoto is dedicated to accomplishing further goals for the Department of Agriculture. First, she hopes to develop additional initiatives to ensure the future continued use and viability of agricultural lands through the identification and designation of important agricultural lands. It is vital to relieve the pressures of and provide incentives for residential developers who are using agricultural lands for residential purposes to build elsewhere, such as on rural or mixed-use districts, and keep agricultural districts for agricultural purposes only. Secondly, she firmly believes in providing further opportunities for community engagement to promote agriculture and ensure a future workforce for the agricultural industry, especially when many farmers are beginning to retire without any interested individuals to succeed them and continue their farming operations. Lastly, she is committed to strengthening the Department's biosecurity program, which she believes requires ongoing discussion and guidance.

Your Committee recognizes and notes concerns with the current management and operational status of the irrigation systems statewide, especially with respect to the Molokai Irrigation System. Ms. Kunimoto believes further discussion and community input and engagement are necessary to effectively tackle repair and maintenance and user fee issues. She fully recognizes the concerns the water users have with respect to the Molokai Irrigation System and is currently working with the Department of Hawaiian Home Lands in that department's regional planning study, which is expected to be completed soon. Your Committee urges the Department of Agriculture to consider the issues relating to the Molokai Irrigation System as a top priority in order to achieve an adequate level of satisfaction with the system users.

To this end, your Committee further finds that Ms. Kunimoto's evidenced commitment to the ideals and values of integrity, duty, respect, loyalty, and public service combined with her rich experience and heightened understanding of the multi-faceted components of the agricultural industry make her the best nominee to fulfill the duties and responsibilities of Chairperson of the Board of Agriculture.

As affirmed by the records of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1355 Education on H.B. No. 17

The purpose of this measure is to provide continuity in funding for schools by requiring the Committee on Weights of the Department of Education to meet biennially and make recommendations for changes to the weighted student formula.

Testimony in support of this measure was submitted by the Department of Education. Testimony in opposition of this measure was submitted by the Hawaii State Teachers Association.

Your Committee finds that pursuant to Act 51, Session Laws of Hawaii 2004, as amended, the weighted student formula was established to provide equity in funding for public school students by utilizing weighted cost factors. Act 51, as amended, also established the Committee on Weights to recommend student characteristics, assign weights to those characteristics, and establish an allocation formula for the Board of Education to consider and adopt. Since its implementation, it has become apparent that the weighted student formula requires changes to ensure that public school students with certain characteristics will not suffer funding deficiencies.

Currently, the Committee on Weights is required to meet annually and submit recommended changes to the weighted student formula to the Board of Education not less than annually. Your Committee understands the concern that schools require some degree of assurance as to the level of funding they will receive on an annual basis. However, your Committee also believes that, particularly in the early stages of the implementation of the weighted student formula, it is prudent for the Committee on Weights to continue to meet annually, although recommendations for changes may not be necessary every year. Additionally, your Committee believes that it is important for the Committee on Weights to provide rationale and reasoning for any findings and recommendations made, including suggested changes to the weighted student formula and its components, as well as information on costs and impacts of proposed changes in order to allow the Board of Education, the Department of Education, the public schools, and policy makers to better understand and analyze those recommendations to determine their propriety and effectiveness.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the change that required the Committee on Weights to meet biennially;
- (2) Requiring the Committee on Weights to provide the Board of Education and the Legislature with:
 - (A) Rationale for any findings and recommendations made, including changes to the weighted student formula and weighted student formula characteristics or weights for those characteristics; and
 - (B) The effects and costs associated with any recommended changes; and
- (3) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 17, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 17, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hee, Nishihara, Taniguchi).

SCRep. 1356 Judiciary and Labor on H.B. No. 987

The purpose of this measure is to clarify the types of acts, for which a police officer is being prosecuted or sued, that would entitle the officer to be represented by legal counsel provided by the county.

The bill provides for three actions that would be “acts done in the performance of the officer’s duty as a police officer” to qualify for legal counsel. The three actions are:

- (1) Any action while in a duty status or while on duty;
- (2) Any action performed while off duty and effecting an arrest or any other police duty; and
- (3) Any action performed while on special duty status.

Your Committee received testimony in support of the bill from the State Organization of Police Officers. The Corporation Counsel testified against the bill.

Your Committee amended the bill by:

1. Adding a fourth action of “under the color of law”;
2. Requiring a recommendation from the corporation counsel or county attorney within seven days of the Police Commission’s request; and
3. Changing the effective date to “upon approval” from January 1, 2050.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 987, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 987, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1357 Judiciary and Labor on H.B. No. 1153

The purpose of this measure is to discourage the illegal use of chemicals used to manufacture controlled substances by providing that the following are subject to seizure and forfeiture:

- (1) All aircraft, vehicles, vessels, or other conveyances used to transport or facilitate the transport of these chemicals; and
- (2) (a) All moneys, securities, and other things of value given in exchange for these chemicals;
- (b) All proceeds traceable to such an exchange; and
- (c) All moneys, negotiable instruments, and securities,

which are used or intended to be used to facilitate: the unlawful manufacture of any controlled substance, or the furnishing of any of these chemicals with the knowledge or intent that the recipient of any such chemicals will use them to unlawfully manufacture any controlled substance.

Your Committee received testimony in support of the bill from the Department of Public Safety and the Honolulu Prosecutor’s Office.

Your Committee amended the bill by changing the effective date to July 1, 2060.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1153, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1153, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Nishihara).

SCRep. 1358 Water, Land, Agriculture and Hawaiian Affairs on S.C.R. No. 24

The purpose of this measure is to seek legislative approval for the authorization of a grant of a term, non-exclusive easement for a dive site for commercial submarine tours on portions of State-owned submerged lands in Lahaina, Maui.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources and the Department of the Attorney General.

Atlantis Submarines Hawaii, LLC operates a forty-eight passenger submarine in the Twin Peaks area that consists of four natural reefs. Atlantis sunk, with approval from the Board of Land and Natural Resources, the replica whaling ship Carthaginian to create an artificial reef approximately three thousand one hundred feet offshore of Paumana Beach Park and approximately one hundred and one-fourth miles south of Lahaina Harbor. Studies have shown that artificial reefs alleviate pressure on existing natural reef systems from overuse, promote reef and fish biomass, and provide educational opportunities to study the increase of reef and fish biomass over time.

Your Committee finds that under section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources is required to seek prior approval of the Governor and prior authorization of the Legislature by concurrent resolution to issue a non-exclusive easement for state-owned submerged lands. This measure will provide the required prior legislative approval for an easement for a dive site for commercial submarine tours on portions of State-owned submerged lands in Lahaina, Maui.

Your Committee has amended this measure by:

- (1) Adding the President and Chief Executive Officer of Atlantis Submarines Hawaii, LLC to the list of recipients to receive a certified copy of this measure; and
- (2) Requesting that the Department of Land and Natural Resources submit a written report to the Legislature on the appraised value of the portion of the state-owned submerged lands the non-exclusive easement will cover, and the compensation for the easement.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 24, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 24, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 1359 Water, Land, Agriculture and Hawaiian Affairs on S.C.R. No. 176

The purpose of this measure is to obtain a baseline fiscal and management status of the Molokai Irrigation System by requesting the Auditor to perform a financial and management audit of the Department of Agriculture's operation of the Molokai Irrigation System.

Specifically, this measure requests that the Auditor determine:

- (1) The total annual revenues generated from users and the total annual costs of operation and maintenance of the irrigation system for the past three years;
- (2) The anticipated major costs for upkeep and any anticipated costs for capital improvements of the irrigation system over the next three years;
- (3) How funds generated from the users of the irrigation system are being diverted by the Department of Agriculture to subsidize other irrigation systems throughout the State; and
- (4) What measures may be implemented to improve the physical facilities and reduce user costs; and

submit a written report to the Legislature prior to the convening of the 2008 Regular Session.

Testimony in opposition to this measure was submitted by the Department of Agriculture.

The Molokai Irrigation System is the largest irrigation system operated by the Department of Agriculture. The irrigation system extends twenty-five miles, delivers 1.2 billion gallons of water annually, and serves three thousand one hundred sixty acres of land. The revenues and expenses for all irrigation systems, including the Molokai Irrigation System, are deposited into and paid out of a single revolving fund, the Irrigation Revolving Fund, established under section 167-22, Hawaii Revised Statutes.

Your Committee finds that a portion of the revenues generated by the Molokai Irrigation System may be diverted by the Department of Agriculture through the Irrigation Revolving Fund to subsidize other irrigation systems throughout the State. Terminating this diversion could result in lower fees and rates for the users of the irrigation system and additional funds for repairs and improvements of the irrigation system. Thus, a financial and management audit of the Molokai Irrigation System will provide a valuable baseline status of the current fiscal operations and management of the irrigation system.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 176 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 1360 Economic Development and Taxation on Gov. Msg. No. 435

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DIRECTORS OF THE NATURAL ENERGY LABORATORY OF HAWAII AUTHORITY

G.M. No. 435 JOHN H. DELONG, for a term to expire 6-30-2011

Upon review of the testimonies and the statement submitted by the nominee, your Committee finds that John H. DeLong has the necessary character, experience, and qualifications to serve on the Board of Directors of the Natural Energy Laboratory of Hawaii Authority.

Testimony in support of the nominee was received from the Department of Business, Economic Development, and Tourism; the Natural Energy Laboratory of Hawaii Authority, the current Chair and a former member of its Board of Directors; Maritime Consultants of the Pacific, and one individual.

John H. DeLong is President of Hawaiian Cement and West Hawaii Concrete, a position he has held since 2005. He is responsible for overall management of two construction materials companies with combined revenues of over \$180,000,000 and more than three hundred employees. This is his second term with the company, where he served in executive positions from 1992 to 2000. Mr. DeLong holds a Bachelor of Science in Chemical Engineering from the University of Utah, and a Masters in Business Administration from the University of Hawaii. Mr. DeLong filled a vacancy on the Board created by the retirement of a previous director, and he is currently Vice-Chair and head of the Finance Committee. His experience will be particularly important as the Authority continues its quest for self-sufficiency in the face of rapidly rising costs and other challenges.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1361 Economic Development and Taxation on Gov. Msg. Nos. 474 and 520

Recommending that the Senate advise and consent to the nominations of the following:

HAWAII HISTORIC PLACES REVIEW BOARD

G.M. No. 474 NAOMI CLARKE LOSCH, for a term to expire 6-30-2010; and

G.M. No. 520 JOYCE NAOMI CHINEN, Ph.D., for a term to expire 6-30-2011

Upon review of the testimonies and the statements submitted by the nominees, your Committee finds that Naomi Clarke Losch and Joyce Naomi Chinen have the necessary character, experience, and qualifications to serve on the Hawai'i Historic Places Review Board.

Testimony in support of Naomi Clarke Losch was received from the Department of Land and Natural Resources and two individuals.

Naomi Clarke Losch is both the Chair and an Associate Professor of Hawaiian in the Department of Hawaiian and Indo-Pacific Languages and Literatures. She has taught in the University of Hawai'i system for thirty-seven years and is a graduate of the University, with a B.A. in Anthropology and a M.A. in Pacific Island Studies. Before joining the faculty at Leeward Community College, Ms. Losch worked as an Assistant in Anthropology in the Anthropology Department at Bernice Pauahi Bishop Museum for several years, and her work in the ethnological collection has proven invaluable in her field of Hawaiian language and culture. In addition to her academic work, Ms. Losch is currently a Trustee of the Native Hawaiian Culture and Arts Program at Bishop Museum; Assistant Editor of *Ka Ho'oilina*, the *Legacy*, *Journal of Hawaiian Language*; and has served as a member of the Hawai'i Historic Places Review Board since 2002.

Testimony in support of Joyce Naomi Chinen, Ph.D., was received from the Department of Land and Natural Resources.

Joyce Naomi Chinen, Ph.D., is Professor of Sociology, Division of Social Sciences, University of Hawai'i, West Oahu, and a Full Cooperative Graduate Faculty, Department of Sociology, University of Hawai'i at Manoa. Dr. Chinen holds a Doctorate in Sociology, as well as Masters and undergraduate degrees from the University of Hawai'i. She has been a faculty member in the University of Hawai'i system since 1974, and has published an extensive body of academic papers and other scholarly materials. Dr. Chinen has also received numerous awards during her academic career, and served on a wide range of faculty committees. She is a member of the American Sociological Association, Sociologists for Women in Society, and Hawaii Sociological Association, among other professional organizations. In addition, Dr. Chinen is active in community service organizations and has served on the Hawai'i Historic Places Review Board since 2003. She previously served two terms on the Board in the 1990s.

As affirmed by the records of votes of the members of your Committee on Economic Development and Taxation that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1362 Health on Gov. Msg. Nos. 343, 344, 345 and 417

Recommending that the Senate advise and consent to the nominations of the following:

HEALTH PLANNING COUNCIL, HONOLULU SUBAREA

G.M. No. 343 EMMET WHITE, for a term to expire 6-30-2011;

HEALTH PLANNING COUNCIL, TRI-ISLE SUBAREA

G.M. No. 344 GLENN SOICHI IZAWA, for a term to expire 6-30-2011;

G.M. No. 345 ELAINE JULIA SLAVINSKY, for a term to expire 6-30-2011; and

HEALTH PLANNING COUNCIL, HAWAII COUNTY SUBAREA

G.M. No. 417 THOMAS O. BROWN, for a term to expire 6-30-2011

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Emmet White, Glenn Soichi Izawa, Elaine Julia Slavinsky, and Thomas O. Brown to have the necessary qualifications to be nominated to the Health Planning Council for their respective subareas.

Your Committee received testimony in support of Emmet White's nomination for the Honolulu Subarea from the Department of Health, Cades Schutte LLP, the Hawaii long term Care Association, Sisters of the Sacred Hearts, and one individual.

Mr. White holds a Juris Doctor degree from the College of William and Mary School of Law and a Bachelor of Arts degree from Lafayette College. He practiced as an attorney in Hawaii for over twenty years. Mr. White has been the president and chief executive officer of Arcadia Retirement Residence since 1995. He is a retired Colonel with the United States Army Reserve. Mr. White's community service includes several positions of leadership with the Central Union Church of Honolulu, and serving as a member and past chair of the board of directors of the Hawaii Long Term Care Association. Your Committee finds that Mr. White's experience and knowledge in the areas of long term care, senior health care, and end of life care are valuable to the Honolulu Subarea Health Planning Council, and that he should be reappointed for a second term.

Your Committee received testimony in support of Glenn Soichi Izawa's nomination for the Tri-Isle Subarea from the Department of Health, Moloka'i General Hospital, and one individual.

Mr. Izawa holds a Bachelor of Arts degree in Psychology and a Masters degree in Social Work from the University of Hawaii. He has been a social worker for the State Adult Mental Health Division for over thirty years. Prior to that, he served in the United States Army. Mr. Izawa is the board chair of the Molokai Health Foundation and the Molokai Community Service Council. He is a member of the Selective Service Board and the National Association of Social Workers, Hawaii Chapter. Mr. Izawa is currently serving a first term on the Subarea Council, and served on the Council in the 1980s. Your Committee finds that Mr. Izawa's experience and knowledge is an asset to the Council and that he should be reappointed for a second term as a provider representative.

Your Committee received testimony in support of Elaine Julia Slavinsky's nomination for the Tri-Isle Subarea from the Department of Health.

Ms. Slavinsky has a Masters degree in Public Health and a Masters degree in Education from the University of Hawaii, a Bachelor of Arts degree in Political Science from the University of Massachusetts, and an Associate degree in Nursing from Massachusetts Bay Community College. She is the Maui program coordinator for the Alzheimer's Association. Her past work experience includes serving as the clinical director for Hospice Maui, the director of nursing for Maui Memorial Medical Center, and in various positions in several hospitals and health centers in Hawaii. She is a member of the Hawaii Nurses Association, Hawaii Public Health Association, American Association of Nurse Executives - Hawaii Chapter, Hospice and Palliative Nurses Association, and the American Association of Hypnotherapists. Your Committee notes that Ms.

Slavinsky has a great deal of experience in community service and has held office in several organizations. She is currently serving her first term on the Tri-Isle Subarea Health Planning Council and has recently taken on the position of chair. Your Committee finds that Ms. Slavinsky's experience, knowledge, and leadership are assets to the Council and that she should be reappointed as a provider representative for a second term.

Your Committee received testimony in support of Thomas O. Brown's nomination for the Hawaii County Subarea from the Department of Health.

Mr. Brown is a graduate of the University of Hawaii at Hilo. He is the Transit Administrator for the County of Hawaii Mass Transit Agency, for which he has worked since 1980. He is a member of the Rotary Club of Hilo, of which he is a past president, and the Aloha Exchange Club. His knowledge of the Hawaii County transit system and understanding of its impact on the health system has been a real asset to the Council during his first term. Your Committee finds that he should be reappointed as a business representative for a second term.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 1363 Health on Gov. Msg. Nos. 361, 362, 363, 364 and 365

Recommending that the Senate advise and consent to the nominations of the following:

MENTAL HEALTH AND SUBSTANCE ABUSE, HAWAII SERVICE AREA BOARD

G.M. No. 361 ANDREW DAVID BISSET, Ph.D., M.D., for a term to expire 6-30-2010;

MENTAL HEALTH AND SUBSTANCE ABUSE, KAUAI SERVICE AREA BOARD

G.M. No. 362 JANA HERKES, for a term to expire 6-30-2011;

G.M. No. 363 MARY ANN MORISHIGE, for a term to expire 6-30-2011;

MENTAL HEALTH AND SUBSTANCE ABUSE, MAUI SERVICE AREA BOARD

G.M. No. 364 VIRGINIA RUTH SHAW, Ph.D., for a term to expire 6-30-2011;

G.M. No. 365 PHIL E. KAY, for a term to expire 6-30-2011;

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Dr. Andrew David Bisset, Jana Herkes, Mary Ann Morishige, Virginia Ruth Shaw, and Phil E. Kay, to have the necessary qualifications to be nominated to the Mental Health and Substance Abuse Service Area Board of their respective areas.

Your Committee received testimony in support of Dr. Andrew David Bisset's nomination for the Hawaii Service Area Board from the Department of Health; the Mental Health and Substance Abuse, Hawaii Service Area Board; and two members of Department of Veterans Affairs.

Dr. Bisset has nearly twenty years of experience in psychiatry, most notably in the treatment of post-traumatic stress disorder and war related disorders at the Veterans Administration and Regional Office Center in Hilo, where he has worked since 1994. He is the Director of Behavioral Health and one of the developers of the Lokahi Treatment Centers, which provide substance abuse treatment at several sites on the island of Hawaii. Dr. Bisset concluded his residency in psychiatry at the Medical College of Georgia, Augusta; received his Medical Doctorate from the Universidad Autonoma de Guadalajara, Mexico; and his Bachelor of Arts in Chemistry from Oxford University, England. Dr. Bisset has served on several committees, the most relevant of which is his service on the Augusta, Georgia Mayor's Task Force on Alcoholism and Drug Addiction from 1989-1992. He has numerous presentations and publications on topics relating to substance abuse and mental health. Your Committee finds Dr. Bisset has already shown to be a valuable contributor since his interim appointment and that his continued service as a provider representative would be an asset to the Board.

Your Committee received testimony in support of Jana Herkes' nomination for the Kauai Service Area Board from the Department of Health, Kauai Community Health Center, National Alliance on Mental Illness in Hawaii (NAMI), and two individuals.

Ms. Herkes is a graduate of Punahou School and the University of California at Berkeley, where she received a Bachelors of Arts in Psychology. She is a reservationist with Jack Harter Helicopters and worked with Sweet Wind Bookstore and the Kauai Economic Development Board. She is a member of NAMI Oahu and the Kauai Jail Diversion Committee, and a volunteer with the Adult Day Care Program. Her personal experience with her dual diagnosis son has given the Board a valuable perspective of the mental health service system. Your Committee finds Ms. Herkes to have been a valuable contributor as a stakeholder representative in her first term on the Kauai Service Area Board and that her continued service would be an asset to the Board.

Your Committee received testimony in support of Mary Ann Morishige's nomination for the Kauai Service Area Board from the Department of Health, and two individuals with the Kauai Community Health Center.

Miss Morishige has a Bachelor of Arts in Mathematics from Western Michigan University. She is a retired Bridges Education and Support Group facilitator, in which she assisted mentally ill consumers in recovering from their illnesses. Her community service includes serving as the senior member and sergeant-at-arms of the Lihue Neighborhood Center and volunteering with the RSVP Seniors Volunteer Program. She has dealt with her schizophrenia for over ten years and has successfully left group care to live on her own. Her contributions and responsible nature have served the Board well in her first term. Your Committee finds that her reappointment to a consumer position on the Board would be in the public interest.

Your Committee received testimony in support of Dr. Virginia Ruth Shaw's nomination for the Maui Service Area Board from the Department of Health and the Maui Service Area Board on Mental Health and Substance Abuse.

Dr. Shaw received a Doctorate of Clinical Psychology from the University of Southern Mississippi, a Master of Arts in Clinical-Community Psychology from Wichita State University, and her Bachelor of Arts in Psychology and Sociology from Kansas Wesleyan University. She has specialized training in the Mandt System, and Disaster Mental Health Services. Dr. Shaw is a member of numerous prestigious organizations and

has served in several positions of leadership. Your Committee notes she has received numerous honors and awards and has made numerous paper and seminar presentations. Your Committee finds that Dr. Shaw's knowledge, skills, and expertise are an asset to the Board and recommends that she be reappointed for a second term as a provider representative.

Your Committee received testimony in support of Phil E. Kay's nomination for the Maui Service Area Board from the Department of Health, Maui Service Area Board on Mental Health and Substance Abuse, and one individual.

Mr. Kay is a retired investigator with the Equal Employment Opportunities Commission. He is a board member of the Molokai Aquaculture Alliance and a manager of the Kikai Drop-in Center. Mr. Kay has a Bachelors' of Arts in Social Sciences and was a reservist with the United States Navy. Your Committee finds that his reappointment to a consumer position on the Board would be in the public interest. Your Committee finds that his familiarity with advocacy and his motivation to confront the stigma and prejudice associated with mental illness are important to the Board and recommend that he be confirmed for a second term.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 1364 Judiciary and Labor on Gov. Msg. Nos. 315, 316 and 462

Recommending that the Senate advise and consent to the nominations of the following:

DEFENDER COUNCIL

G.M. No. 315 JULIE KAI BARRETO, for a term to expire 6-30-2011.;

G.M. No. 316 MICHELLE L. DREWYER, for a term to expire 6-30-2011.; and

G.M. No. 462 MICHAEL KAIPOLEIMANU SOONG, for a term to expire 6-30-2011

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the government functions related to the Defender Council. Your Committee further finds that the nominees have been appointed based upon their credentials, integrity, and a desire to make Hawaii better through their participation on the Defender Council to which they have been nominated.

Your Committee received testimony in support of all three nominees from the Public Defender, John Tonaki. There was no opposition to the nominees.

As affirmed by the records of votes of the members of your Committee on Judiciary and Labor that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Kokubun).

SCRep. 1365 Judiciary and Labor on Gov. Msg. No. 424

Recommending that the Senate advise and consent to the nomination of the following:

HAWAII LABOR RELATIONS BOARD

G.M. No. 424 JAMES BURTON NICHOLSON, for a term to expire 6-30-2012

Upon review of the statement submitted by the nominee, your Committee finds that the nominee will work with compassion and commitment to assist in administering the government functions related to the Hawaii Labor Relations Board as its chairman. Your Committee finds that the nominee graduated from St. Louis High School and was an all star athlete in basketball and football. He then went to Michigan State University where he excelled in football and upon graduating played professional football in the National Football League for eight years. The nominee then returned to Hawaii and entered the University of Hawaii's Richardson School of Law. Upon graduating from law school, the nominee worked at the Hawaii Employers Council. The nominee represented both the employer and the union during his career in labor law. He then became an arbitrator in resolving disputes between management and labor. His integrity and fairness earned him the respect of both management and labor.

Your Committee received testimony in support of the nominee from the Attorney General's Office, the Department of Labor and Industrial Relations, the State of Hawaii Organization of Police Officers, the Hawaii Firefighters Association Local 1463, United Public Workers, Hawaii Electric Company, Sause Brother Inc., Iron Workers Stabilization Fund, Iron Workers Union Local 625, First Hawaiian Bank, Hawaii Teamsters and Allied Workers Local 996, ILWU Local 142, Business Diagnostics, Hawaii Government Employees Association, International Union of Painters and Allied Trades, Weyerhaeuser, 5 attorneys, retired judge Patrick Yim, and several private citizens.

As affirmed by the records of votes of the members of your Committee on Judiciary and Labor that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Kokubun).

SCRep. 1366 Judiciary and Labor on Gov. Msg. No. 495

Recommending that the Senate advise and consent to the nomination of the following:

COMMISSION TO PROMOTE UNIFORM LEGISLATION

G.M. No. 495 KEN HIDESHI TAKAYAMA, for a term to expire 6-30-2011

Upon review of the application, resume, and letter of the nominee, and testimony, your Committee finds Ken H. Takayama eminently qualified for reappointment to the Commission to Promote Uniform Legislation, on which he has served since 1995.

Ken H. Takayama received a J.D. degree from the University of California School of Law (Boalt Hall), and an A.B. in Political Science from Occidental College where he graduated Cum Laude and as a member of Phi Beta Kappa.

Mr. Takayama joined the State of Hawaii Legislative Reference Bureau as a staff attorney in 1979, became Assistant Director for Research in 1986, and since 2003 has served as its Acting Director. Mr. Takayama's numerous publications include the Hawaii Legislative Drafting Manual, 8th and 9th Editions, and the Hawaii Administrative Rules Drafting Manual, 1st and 2nd Editions.

In addition to his duties at the Legislative Reference Bureau, Mr. Takayama has also served as Staff Judge Advocate for the State Headquarters of the Hawaii Army National Guard, most recently holding the rank of Colonel in the U.S. Army Judge Advocate General's Corps.

All of the commissioners on the Commission on Uniform State Laws also serve as commissioners to the National Conference of Commissioners on Uniform State Laws (NCCUSL), an entity dedicated to developing proposed legislation on subjects inappropriate for Congressional action, but for which uniformity among states is desirable. Reappointment to the Commission on Uniform State Laws will enable Mr. Takayama to continue his important contributions to the NCCUSL, including his ongoing participation in the Drafting Committee for the proposed Uniform Misuse of Genetic Information in Insurance and Employment Act.

Your Committee received testimony in support of the nominee from the Attorney General and from four attorneys who also serve on the Commission to Promote Uniform Legislation. The testimony describes him as a conscientious, dedicated, skilled, intelligent, attorney with a tremendous amount of experience in the preparation and review of legislation.

Based on the nominee's qualifications and experience, your Committee finds that Mr. Takayama possesses the attributes necessary to serve on the Commission to Promote Uniform Legislation.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Kokubun).

SCRep. 1367 (Joint) Economic Development and Taxation and Ways and Means on Gov. Msg. No. 278

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR OF THE DEPARTMENT OF TAXATION

G.M. No. 278 KURT K. KAWAFUCHI, for a term to expire 12-6-2010

Upon review of the testimony and statement submitted by the nominee, your Committees find that Kurt K. Kawafuchi has the necessary character, experience, and qualifications to serve as the Director of Taxation.

Your Committees received testimony in support of Kurt K. Kawafuchi from the Department of Defense; Department of Human Resources Development; Tax Executives Institute, Inc.; Tax Committee of the Hawaii Society of Certified Public Accountants; Hawaii Association of Public Accountants; Hawaii Society of Enrolled Agents; Hawaii State Bar Association Tax Section, and its Probate and Planning Section; Hawaii State Teachers Association; Hawaii Science and Technology Council; Hawaii Venture Capital Association; Hawaii Association of REALTORS; Retail Merchants of Hawaii; Building Industry Association of Hawaii (BIA-Hawaii); Subcontractors Association of Hawaii; and the Chinese Chamber of Commerce of Hawaii. Twelve current and former employees of Mr. Kawafuchi submitted testimony in support of his nomination; along with forty-four tax practitioners, including certified public accountants, attorneys, and others; and an additional two dozen business people, colleagues, and friends.

Kurt K. Kawafuchi has served as Director of Taxation since February 2003, and is responsible for all aspects of tax administration, including audits, collections, criminal tax investigations, legislation, administrative guidance, operations, taxpayer services, and research and planning. Prior to this, Mr. Kawafuchi was Supervisor, Tax Division, State of Hawaii Department of the Attorney General from 1999 to 2003; a tax attorney with Goodwill Anderson Quinn & Stifel from 1994 to 1999; and with Damon Key Bocken Leon & Kupchak from 1992 to 1994. He also served as Trial Attorney, United States Department of Justice, Tax Division, Washington, D.C., from 1986 to 1992.

A graduate of the University of Redlands, Mr. Kawafuchi holds a LL.M. in Taxation from Georgetown University Law Center, and a J.D. and M.B.A. from Santa Clara University. He is licensed to practice as an attorney and as a certified public accountant in both Hawaii and California, and is a Certified Specialist in Taxation Law in California.

In a lengthy written statement, Mr. Kawafuchi responded to questions from your Committees on a range of tax-related issues. He stressed his commitment to a Department that is efficient, service-oriented, and fair to taxpayers and practitioners, and outlined Department efficiencies to meet this commitment. He discussed his qualifications, his experiences during his first term, and his goals for the future. Mr. Kawafuchi also cited the work of the employees of the Department and outlined his response to the need for increased staffing.

Your Committees received testimony in strong support of Mr. Kawafuchi's professional qualifications from dozens of Hawaii tax practitioners. They stressed his commitment, his integrity, and his willingness to work with them in implementing new or revised tax law provisions. Your Committees also heard many favorable comments from former and current employees about his role as a mentor, educator, and "cheerleader" for staff working in a stressful environment with an often unhappy public.

While your Committees may not always agree with Mr. Kawafuchi on tax policy implementation, Committee members commend him for his accessibility and his commitment to the collaborative process of crafting tax laws for the benefit of Hawaii taxpayers.

Your Committees do agree with the comment of one testifier, that Kurt Kawafuchi "exemplifies the concept of public service" in his role as Director of Taxation.

As affirmed by the records of votes of the members of your Committees on Economic Development and Taxation and Ways and Means that are attached to this report, your Committees, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommend that the Senate advise and consent to the nomination.

Signed by the Chairs on behalf of the Committees. Ayes, 10. Noes, none. Excused, 4 (Hooser, Ige, Kim, Whalen).

SCRep. 1368 Judiciary and Labor on H.B. No. 1157

The purpose of this measure is to delete an obsolete reference in the law pertaining to the offense of promoting a dangerous drug in the second degree.

Your Committee finds that the Legislature repealed Section 712-1240.6 with Act 230 of 2006. However, inadvertently, reference to that section was not deleted from Section 712-1242. This bill rectifies the oversight.

Your Committee received testimony in support of the bill from the Honolulu Prosecutor's Office. There was no opposition to the bill.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1157, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Nishihara).

SCRep. 1369 Public Safety on Gov. Msg. No. 314

Recommending that the Senate advise and consent to the nomination of the following:

CRIME VICTIM COMPENSATION COMMISSION

G.M. No. 314 LISA ANN ASCHENBRENNER DUNN, for a term to expire 6-30-2011

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Lisa Ann Aschenbrenner Dunn to have the necessary qualifications to be nominated to the Crime Victim Compensation Commission.

Your Committee received testimony in support of Lisa Ann Aschenbrenner Dunn's nomination from the Department of Public Safety, the Crime Victim Compensation Commission, and one individual.

Ms. Dunn has a Master of Social Work degree with a concentration in social development from the University of Hawaii, and a Bachelor of Arts degree in Political Science and Sociology from Humboldt State University.

Ms. Dunn is a project coordinator and social worker for the Hawaii and American Samoa Anti-Trafficking Services of the Salvation Army, adjunct instructor at Hawaii Pacific University, and an adjunct practicum instructor at the School of Social Work of the University of Hawaii. She is currently serving on the State Council for Interstate Adult Offender Supervision, representing victims groups; the Hawaii State Coalition Against Domestic Violence; and Partners in Care, for which she has served as interim chair of the Organizational Development Committee since December 2005. She is also currently serving her first term on the Crime Victim Compensation Commission.

Her previous work experience includes serving as a program director of Child and Family Services, director of operations of Waikiki Health Services, consultant for Mothers Against Drunk Driving, coordinator of the Hawaii State Coalition Against Domestic Violence, volunteer program director of the Hawaiian Humane Society, and administrative assistant for the United Cerebral Palsy Association of Hawaii.

Her prior community service experience includes serving as a PFA Volunteer Chairperson for LaPietra, Hawaii School for Girls; board member of AIDS Community Care Team and The Baby Hui, Inc.; board member and past president of Sunshine School; consultant for Fairness for Abused Women; volunteer monitor for The Hawaii State Planning Council on Developmental Disabilities; Oahu Planning Committee Member of the First Lady's Outstanding Volunteer of the Year Awards; and member of the Hawaii State Coalition Against Domestic Violence.

Your Committee finds that given Ms. Dunn's extensive experience, training, and leadership in restorative justice, her continued service on the Crime Victim Compensation Commission would be of great benefit to the State.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, none.

SCRep. 1370 (Majority) Public Safety on Gov. Msg. No. 277

Recommending that the Senate not advise and consent to the nomination of the following:

DIRECTOR OF THE DEPARTMENT OF PUBLIC SAFETY

G.M. No. 277 IWALANI D. WHITE, for a term to expire 12-6-2010

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, Iwalani D. White, in consideration of her nomination for the position of Director of Public Safety.

Your Committee finds Ms. White's professional experience to include serving as the Interim Director of the Department of Public Safety, the First Prosecuting Attorney and Deputy Prosecuting Attorney with the Department of the Prosecuting Attorney, District Family Judge of the First Circuit, and an instructor at the University of Hawaii School of Social Work. She has a Juris Doctorate from the William S. Richardson School of Law, University of Hawaii, and a Bachelor of Arts in Sociology from the University of Hawaii. She was admitted to the Hawaii State Bar in October 1981.

Your Committee finds that Ms. White is a member of the Board of Bar Examiners; the Hawaii State Bar Association, of which she is a former member of the Board of Directors; and the Friends of the Judiciary History Center, of which she is the current President and a former board

member. She is a former member of the Domestic Violence Working Group; the Queen Liliuokalani Children's Center, of which she is a former director; the Juvenile Justice Information Center; Gender and Fairness Committee; and the Hawaii Literacy Executive Committee.

Your Committee received testimony in support of Iwalani White's nomination from the Department of the Attorney General and its Crime Prevention and Justice Assistance Division; the State Department of Defense; Office of Hawaiian Affairs; the Department of the Prosecuting Attorney; the Hawaii Paroling Authority; the Crime Victim Compensation Commission; Momilani Elementary School; the Representatives for the Fourth and Forty-eighth Districts of the State House of Representatives; the Office of the Prosecuting Attorney for the County of Hawaii; the Office of the Prosecuting Attorney for the City and County of Honolulu; the City Councilmember representing the Fourth District of the City and County of Honolulu; Iron Workers Local Union 625's Stabilization Fund; Maui Economic Opportunity, Inc.; The Sex Abuse Treatment Center; Tihati Productions, Ltd.; and United Public Workers, AFSCME, Local 646, AFL-CIO; and seventy-three individuals. Testimony in opposition of her nomination was submitted by Pacific Rim Weddings, and sixty-five individuals, nine of whom testified pursuant to subpoena. Your Committee received comments from three individuals.

Your Committee has concerns with the nomination of Ms. White for Director of the Public Safety due to her communication skills, decision making, failure to follow procedures, and lack of experience in the corrections industry. In reaching the difficult decision to reject the nominee, your Committee focused on the nominee's decision making and communication skills, rather than the departmental accomplishments under the nominee's seven months as interim director.

Your Committee heard testimony from individuals who hold or have held positions of various rank within the Department of Public Safety that Ms. White shows a lack of communication skills and questionable decision making ability. Nine of these individuals testified under oath pursuant to subpoena. Examples of poor communication skills include a failure to meet with and communicate the nominee's vision to the wardens and mental health staff; whether or how to move forward with the plans for Maui Community Correctional Center; and the bases and resolutions, or lack thereof, of personnel investigations, both criminal and administrative.

Your Committee notes the effect internal investigations have on staff morale and ability to function properly. Your Committee finds that such investigations should be done swiftly, with as little inference as possible and with timely communication of the results of the investigation. Your Committee heard testimony from several individuals who had been or currently were under investigation claiming that they had no or insufficient knowledge as to why they were under investigation, the status of the investigation, and whether or not they had been exonerated. In fact, the nominee testified that no letter of exoneration had been issued to one individual because she no longer worked with the Department. Ms. White further testified that she was considering shredding a document that documented that individual's exoneration, pursuant to what Ms. White thought was proper policy.

Your Committee received testimony regarding an investigation relating to equipment at Women's Community Correctional Center in which the nominee violated a collective bargaining agreement against the advice of senior staff. In cases of administrative investigations, employees are to be given notice, including the specific reasons for being placed on leave of absence without pay, pending investigation and the available facts supporting the investigation. Ms. White chose not to give the required notice due to the criminal investigation. Your Committee learned that the criminal investigation was found to have no basis within two days; however, the individuals under investigation have yet to receive the required information relating to the administrative investigation and information that they have been exonerated of criminal wrongdoing. Your Committee is also concerned with the nominee's use of "Leave Without Pay Pending Investigation" in this case given the fact that these individuals were quickly cleared of criminal suspicion and that less severe alternatives, including transfer, were immediately available for use by the nominee while conducting the investigations. Furthermore, a decision to possibly spend over \$25,000 to hire an outside investigator to complete an administrative investigation is troublesome, considering the fact that the Department is capable of completing the investigation with internal affairs staff.

Your Committee finds that investigations into personnel wrongdoing are important to the credibility and sustainability of the Department of Public Safety; however, given that these investigations can put careers in jeopardy and disrupt the Department's staffing structure, they must be handled with the utmost care. Based on these two examples, and others given by testifiers both under and not under oath, your Committee finds Ms. White has not properly handled personnel investigations.

Your Committee heard testimony relating to decisions that were hastily made with incomplete information on the part of the nominee. One example is the nominee's changes to the complaint reporting procedures that interfered with the chain of command and other policies within the Department of Public Safety that has resulted in confusion amongst the staff. Ms. White testified that she recently formed a committee to rewrite the new policy; however, your Committee is concerned that such important procedures were not properly reviewed and tested before implementation.

Your Committee also heard testimony regarding the nominee's questioning of senior staff decision making that was done in compliance with the Department's policies and procedures, such as the transfer of an inmate by the Corrections Division Administrator. Your Committee is further concerned with the nominee's decision to ban the Mental Health Branch Administrator from entire facilities and from communicating with mental health staff, where it seems clear that other options were readily available. Although your Committee acknowledges the Mental Health Branch Administrator is under administrative investigation, your Committee finds the Mental Health Administrator needs access to the facilities in which her subordinates work in order to properly supervise them and to adequately carry out the mental health reform plan so as to avoid further federal court actions. Ironically, a mental health inmate at the facility from which the Mental Health Administrator is banned recently committed suicide.

Your Committee notes with great concern that the Department of Public Safety is under scrutiny by the federal government concerning the mental health care of inmates and that communication relating to improvement planning and prioritization is vital to avoid further lawsuits. These skills are also necessary to deal with other challenges facing the Department, including overcrowding and a high rate of recidivism. It is crucial, therefore, that the Director of Public Safety is able to effectively communicate the Department's vision and goals, as well as lead with the confidence of the staff.

Your Committee finds that the nominee has created an environment of fear, distrust, uncertainty, and low morale in certain segments of the Department. Her lack of communication with key staff and management, inability to articulate goals and objectives on certain initiatives, mistreatment of employees, weak team building skills, use of investigative powers, and a series of questionable decisions have generated a wave of discontent and opposition within the Department of Public Safety.

Given Ms. White's demonstrated weakness in these key areas, your Committee believes she is not the right individual for the position of Director of Public Safety.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee not qualified for the position to which nominated and recommends that the Senate does not advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Whalen). Excused, none.

SCRep. 1371 Economic Development and Taxation on S.C.R. No. 115

The purpose of this measure is to enable both the Department of Taxation and tax practitioners to correctly assist taxpayers, by codifying outdated provisions of the Internal Revenue Code in section 235-110.7, Hawaii Revised Statutes.

The Department of Taxation (Department) and one individual submitted testimony in support of this measure.

Your Committee finds that this measure will address a recommendation made in Part II, Section K, Item 1, of the Report of the 2001-2003 Tax Review Commission: Overhaul and Update the Capital Goods Excise Tax Credit.

Your Committee has heard that the Department may request that the proposed legislation be included in the Department's bill package for 2008, but that the Governor makes the final decision on inclusion. Therefore, your Committee has amended this measure to request that the Department submit proposed legislation directly to the Legislature for introduction in the Regular Session of 2008.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 115, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 115, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1372 (Joint) Intergovernmental and Military Affairs and Transportation and International Affairs on S.C.R. No. 109

The purpose of this measure is to request that the United States Congress create a replacement for the outdated Fast Track Trade Authority system.

Your Committees received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committees find that despite the indisputable fact that international trade agreements have a far-reaching impact on state and local laws, federal government trade negotiators have not respected states' rights by failing to ensure the states' prior informed consent before binding them to conform state law and authority to trade agreement requirements.

Your Committees further find that the Fast Track Trade Authority, which was established by President Richard Nixon when trade agreements were limited to traditional matters such as tariffs and quotas, is now woefully outdated and inappropriate given the diverse range of nontrade issues now included in trade agreements that broadly affect federal and state nontrade regulatory authority.

Your Committees further find that the Fast Track Trade Authority eliminates vital checks and balances established in the United States Constitution by broadly delegating Congress' exclusive Constitutional authority to set the terms of trade to the Executive Branch, empowering it to negotiate broad-ranging trade agreements and to sign them before Congress votes on the agreements.

To this end, it is the intent of your Committees to request that the United States Congress create a replacement for the outdated Fast Track Trade Authority by ensuring the prior informed consent of state legislatures before states are bound to the nontariff terms of any trade agreement that affects state regulatory authority, to make certain that the United States Trade Representative respects the decisions made by states.

Your Committees have amended the measure for purposes of clarity.

As affirmed by the records of votes of the members of your Committees on Intergovernmental and Military Affairs and Transportation and International Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 109, as amended herein, and recommend that it be referred to the Committee on Judiciary and Labor, in the form attached hereto as S.C.R. No. 109, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 3 (Hooser, Taniguchi, Hemmings).

SCRep. 1373 (Joint) Intergovernmental and Military Affairs and Transportation and International Affairs on S.R. No. 66

The purpose of this measure is to request that the United States Congress create a replacement for the outdated Fast Track Trade Authority system.

Your Committees received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committees find that despite the indisputable fact that international trade agreements have a far-reaching impact on state and local laws, federal government trade negotiators have not respected states' rights by failing to ensure the states' prior informed consent before binding them to conform state law and authority to trade agreement requirements.

Your Committees further find that the Fast Track Trade Authority, which was established by President Richard Nixon when trade agreements were limited to traditional matters such as tariffs and quotas, is now woefully outdated and inappropriate given the diverse range of nontrade issues now included in trade agreements that broadly affect federal and state nontrade regulatory authority.

Your Committees further find that the Fast Track Trade Authority eliminates vital checks and balances established in the United States Constitution by broadly delegating Congress' exclusive Constitutional authority to set the terms of trade to the Executive Branch, empowering it to negotiate broad-ranging trade agreements and to sign them before Congress votes on the agreements.

To this end, it is the intent of your Committees to request that the United States Congress create a replacement for the outdated Fast Track Trade Authority by ensuring the prior informed consent of state legislatures before states are bound to the nontariff terms of any trade agreement that affects state regulatory authority, to make certain that the United States Trade Representative respects the decisions made by states.

Your Committees have amended the measure for purposes of clarity.

As affirmed by the records of votes of the members of your Committees on Intergovernmental and Military Affairs and Transportation and International Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 66, as amended herein, and recommend that it be referred to the Committee on Judiciary and Labor, in the form attached hereto as S.R. No. 66, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 3 (Hooser, Taniguchi, Hemmings).

SCRep. 1374 Judiciary and Labor on S.C.R. No. 178

The purpose of this measure is to request the Legislative Auditor to conduct a study on the impact of Voluntary Employees' Beneficiary Association Trusts on public employees and employers and to provide a basis for the Legislature to decide whether to extend Act 245, Session Laws of Hawaii 2005.

The measure requests the Auditor to conduct a comprehensive study on the impact of Act 245, Session Laws of Hawaii 2005 on:

- (1) Hawaii State Teachers Association members and retirees;
- (2) Members and retirees of other bargaining units who have remained with the Hawaii Employer-Union Health Benefits Trust Fund;
- (3) Public employers;
- (4) The operations and finances of the Hawaii Employer-Union Health Benefits Trust Fund;
- (5) Public employees who would be ineligible to join a Voluntary Employees' Beneficiary Association Trust due to their lack of membership in a public sector union; and
- (6) Any other persons or areas that may be identified by the Auditor.

The Auditor is requested to conduct the study on both a historical and prospective basis, including what would be the future financial viability of the Hawaii Employer-Union Health Benefits Trust Fund if Act 245, Session Laws of Hawaii, were to become permanent and more unions were to establish Voluntary Employees' Beneficiary Association Trusts.

Finally, the Auditor is requested to study the impact of Voluntary Employees' Beneficiary Association Trusts on compliance with Governmental Accounting Standards Board Statement Numbers 43 and 45 and the possibility of employers pre-funding retiree health benefit costs.

Testimony in support of this measure was received from the Director of Budget and Finance, the Administrator of the Hawaii Employer-Union Health Benefits Trust Fund (EUTF) and the Director of Budget and Fiscal Services of the City and County of Honolulu (County). The Board of the EUTF voted unanimously to seek passage of this resolution.

The County requested that the measure be expanded to include the impact on GASB 45 financial reporting requirements on Other Post-Employment Benefits (OPEB) for the State and the counties as such impact is unknown. This concern is addressed in this measure.

Your Committee recognizes that House Bill 1746, SD1 extends the repeal date of Act 245, SLH 2005 and has been referred to your Committee on Ways and Means. However, the information that is requested in this measure will be helpful for the Legislature in future deliberations on requests that impact the EUTF.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 178 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kokubun, Nishihara).

SCRep. 1375 Transportation and International Affairs on S.C.R. No. 6

The purpose of this measure is to request the President of the Senate and the Speaker of the House of Representatives to convene a task force to recommend a process to create a Citizen Road Watch program.

Your Committee received testimony in support of this measure from the Department of Transportation and Oahu Metropolitan Planning Organization.

The task force would be composed of one member of the Senate appointed by the President of the Senate; one member of the House of Representatives appointed by the Speaker of the House; one representative of the Department of Transportation; the City and County of Honolulu Prosecuting Attorney or the Prosecuting Attorney's designee; the Public Defender or the Public Defender's designee; one representative of the City and County of Honolulu Police Department; one representative of the Oahu Metropolitan Planning Organization; one representative of the Oahu Neighborhood Boards appointed by the President of the Senate; and one representative of the Oahu Neighborhood Boards appointed by the Speaker of the House. The task force would report to the 2009 Legislature.

Your Committee is informed that there is a similar Road Watch program in Richmond Hill, California, gives residents an opportunity to report aggressive and unsafe driving in their neighborhoods to the police through the use of Citizen Report forms. This information assists the police in identifying unsafe driving acts or "hot spots" that are traffic problem areas, particularly speeding. This measure engages local residents in changing driving behavior on their neighborhood streets.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 6 and recommends that it be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hooser, Taniguchi, Tsutsui).

SCRep. 1376 Transportation and International Affairs on S.C.R. No. 98

The purpose of this measure is to request the Auditor to conduct a performance audit of the traffic safety function of the Department of Transportation (DOT) to determine how traffic safety information is collected and used, and to make recommendations on improving the traffic safety functions of the DOT.

No testimony was received by your Committee.

It is the obligation of the State to provide for highway and pedestrian safety to the greatest possible extent for the health and well-being of all the State's residents and visitors. Section 26-19, Hawaii Revised Statutes, provides that the DOT has the responsibility to plan, develop, promote, and coordinate various transportation management programs, which includes traffic safety. The DOT should be collecting traffic safety information, including but not limited to, traffic accident location, frequency, and severity; pedestrian accident frequency and location; speed limit violations; and traffic signal light timing.

The State's worsening transportation problems are imposing substantial costs on the State's residents and businesses. The frequency and severity of traffic accidents and pedestrian accidents cause public concern over whether the State can do more to prevent accidents. As such, your Committee believes this audit is necessary.

Your Committee has amended this measure by adding a reference to the DOT's current handling of access to traffic accident information.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 98, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 98, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hooser, Taniguchi, Tsutsui).

SCRep. 1377 Commerce, Consumer Protection and Affordable Housing on S.C.R. No. 35

The purpose of this measure is to request a sunrise review on the registration of providers of debt-management services.

Your Committee received testimony in support of this measure from the Commission to Promote Uniform Legislation and Legal Aid Society of Hawai'i.

Your Committee finds that the use of debt-management services by consumers is increasing and these services have been criticized for attempting to steer debtors away from bankruptcy when bankruptcy might be more advantageous and less costly to the debtor. Concern has been raised as to whether some type of regulation or registration requirement should apply to providers of debt-management services.

During the 2007 Regular Session, S.B. No. 159 was introduced and sought to prohibit persons from holding themselves out as providers of debt-management services unless they are registered with the Department of Commerce and Consumer Affairs.

This measure, in compliance with section 26H-6, Hawaii Revised Statutes, requests the Auditor to perform a sunrise review on the registration of providers of debt-management services with the Director of Commerce and Consumer Affairs as provided in S.B. No. 159.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 35 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Espero, Ige).

SCRep. 1378 Commerce, Consumer Protection and Affordable Housing on S.C.R. No. 75

The purpose of this measure is to request the Auditor to perform a sunrise analysis of the regulation of destination clubs and those who market them.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and the Destination Club Association. ARDA-Hawaii submitted comments on this measure.

Your Committee finds that over the past few years, a new luxury vacation option, called destination clubs, has emerged. These destination clubs offer members a unique way to gain access to a private club's portfolio of fully furnished, luxury residences that provide five-star services and amenities.

Your Committee notes that the destination club industry provides numerous economic benefits for the State and infuses capital into the state economy. However, currently, there are no specific regulatory statutes governing destination clubs.

Your Committee also notes that during 2006, the Department of Commerce and Consumer Affairs created a working group, which included members of the destination club and timeshare industries, to discuss the creation of a regulatory scheme for destination clubs.

During the 2007 Regular Session, S.B. No. 697 was introduced, the purpose of which was to regulate destination clubs and those who market them. This measure, in compliance with section 26H-6, Hawaii Revised Statutes, requests the Auditor to conduct a sunrise review to determine if some type of regulation of destination clubs and those who market them are necessary.

Your Committee has amended this measure to add language to authorize the Auditor to contact those parties, including the Department of Commerce and Consumer Affairs and ARDA-Hawaii, who were involved with the initial meetings regarding the regulation of destination clubs.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 75, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 75, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Espero, Ige).

SCRep. 1379 Commerce, Consumer Protection and Affordable Housing on S.C.R. No. 127

The purpose of this measure is to request the Auditor to conduct a sunrise review of the regulation of bail bonding agents and the bail bond industry.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that the bail bond industry and bail bonding agents provide an extraordinarily valuable service to both law enforcement and accused persons.

Your Committee further recognizes that to protect against abuses in the bail bond industry, several states have enacted laws regulating the conduct of persons who apprehend bail fugitives. However, Hawaii currently has no laws regulating the conduct of persons who apprehend bail fugitives in the State.

During the Regular Session of 2007, S.B. No. 1961 was introduced and proposed the regulation of bail bonding agents and the bail bond industry.

In compliance with section 26H-6, Hawaii Revised Statutes, this measure requests the Auditor to conduct a sunrise review of the proposed regulations in S.B. No. 1961.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 127 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Espero, Ige).

SCRep. 1380 Commerce, Consumer Protection and Affordable Housing on S.C.R. No. 160

The purpose of this measure is to request a sunrise review of the regulation of entities governed by chapter 514B, Hawaii Revised Statutes (HRS), and the enforcement of policies relating to condominiums in the State through the creation of a condominium commission.

Your Committee received testimony in support of this measure from the Hawaii Council of Association of Apartment Owners, the Hawaii Independent Condominium and Co-op Owners, and six individuals. The Real Estate Commission provided comments on this measure.

Your Committee finds that condominium owners face many important issues and that, with the changes made to the condominium law over the last few years, clarity needs to be provided and there must be a method to ensure that the current condominium law is being executed properly.

Your Committee also finds that section 1 of S.B. No. 1837, introduced during the 2007 Regular Session, proposed the creation of a condominium commission to oversee the implementation and regulation of chapter 514B, HRS, and to develop, implement, and enforce policies relating to condominiums in the State. This measure, in compliance with section 26H-6, HRS, requests the Auditor to conduct a sunrise review on the regulation of entities governed by chapter 514B, HRS, as well as the creation of a condominium commission, as proposed in section 1 of S.B. No. 1837.

Your Committee notes that a concern was raised as to the duplicative costs that may arise if a condominium commission is created, as there is already an existing Real Estate Commission that is tasked with addressing condominium issues. Your Committee notes that although this concern may be valid, it may be premature as this measure merely requests the Auditor to conduct a sunrise review.

Your Committee has amended the title and text of this measure, on the recommendation of the Real Estate Commission, to include chapter 514A, Hawaii Revised Statutes, in the sunrise review to be conducted by the Auditor.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 160, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 160, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Espero, Ige).

SCRep. 1381 Health on S.C.R. No. 209

The purpose of this measure is to reduce the number of preventable deaths and injuries that occur in hospitals due to inadequate monitoring of patient respiration and blood pressure rates.

Specifically, this measure requests the Auditor to study the social and financial impact of mandatory health insurance coverage for use of the LG1 Intelligent Medical Vigilance System.

Your Committee received testimony in support of this measure from Hoana Medical, Inc. and Hawaii Health Systems Corporation.

Your Committee finds that innovative monitoring technology, such as the LG1 Intelligent Medical Vigilance System, which is designed to alert hospital staff of any abnormalities or changes to a patient's respiration rate, heart rate, or mobility will help to ensure that quality health care is provided in a time efficient manner. The current shortage of hospital nurses in conjunction with the time sensitive issues resulting from abnormal respiration and heart rates and unattended bed exits of patients, creates opportunities for preventable deaths and injuries.

Your Committee further finds that the LG1 Intelligent Medical Vigilance System will provide hospital staff with tools necessary to provide patients with early intervention health care. As a result, health care costs will be lowered without compromising quality health care and the working conditions of the already overburdened nursing and medical staff will be enhanced.

Your Committee further finds that when mandating health insurance coverage for specific health services, specific diseases, or certain providers of health care services as part of an individual or group health insurance policy, section 23-51, Hawaii Revised Statutes, requires a concurrent resolution to be adopted requesting an Auditor's impact assessment report.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 209 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 1382 Health on S.C.R. No. 211

The purpose of this measure is to improve patient safety and reduce other possible negative outcomes of medical care.

Specifically, this measure requests the Legislative Reference Bureau to study legislation and existing laws from other states relating to reducing negative medical outcomes.

Testimony in support of this measure was submitted by the Consumer Lawyers of Hawaii and the Hawaii Medical Association. The Legislative Reference Bureau submitted comments.

Your Committee finds that patient safety is of the utmost importance. Your Committee further finds that an examination of legislation of other States targeted at reducing negative medical outcomes could help the efforts of local health care stakeholders to continue improvements in patient safety measures in Hawaii.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 211 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 1383 Health on S.R. No. 135

The purpose of this measure is to reduce the number of preventable deaths and injuries that occur in hospitals due to inadequate monitoring of patient respiration and blood pressure rates.

Specifically, this measure requests the Auditor to study the social and financial impact of mandatory health insurance coverage for use of the LG1 Intelligent Medical Vigilance System.

Your Committee received testimony in support of this measure from Hoana Medical, Inc. and Hawaii Health Systems Corporation.

Your Committee finds that innovative monitoring technology, such as the LG1 Intelligent Medical Vigilance System, which is designed to alert hospital staff of any abnormalities or changes to a patient's respiration rate, heart rate, or mobility will help to ensure that quality health care is provided in a time efficient manner. The current shortage of hospital nurses in conjunction with the time sensitive issues resulting from abnormal respiration and heart rates and unattended bed exits of patients, creates opportunities for preventable deaths and injuries.

Your Committee further finds that the LG1 Intelligent Medical Vigilance System will provide hospital staff with tools necessary to provide patients with early intervention health care. As a result, health care costs will be lowered without compromising quality health care and the working conditions of the already overburdened nursing and medical staff will be enhanced.

Your Committee further finds that when mandating health insurance coverage for specific health services, specific diseases, or certain providers of health care services as part of an individual or group health insurance policy, section 23-51, Hawaii Revised Statutes, requires a concurrent resolution to be adopted requesting an Auditor's impact assessment report.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 135 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 1384 (Joint) Education and Transportation and International Affairs on S.C.R. No. 66

The purpose of this measure is to make post-secondary education more accessible by requesting the Board of Regents of the University of Hawaii to charge resident tuition to all Pacific Island students, including those from islands that support degree-granting public institutions of higher education.

Testimony in opposition of this measure was submitted by the University of Hawaii.

Your Committees find that until recently, students from Pacific Islands that have historical ties to the United States benefited from being charged resident tuition. However, the policy was changed and now requires students from Pacific Islands that have historical ties to the United States and do not have their own degree-granting public higher education institution to pay non-resident tuition in the amount of one hundred fifty per cent of the resident tuition amount. Your Committees further find that although these affected students are paying a reduced non-resident tuition rate, many come from lower-income families or communities whose per capita incomes do not equal to their American counterparts who must also pay non-resident tuition rates.

Your Committees believe that because these Pacific Islander students do not significantly impact the revenues of the University of Hawaii, and due to the long-standing relationship between Hawaii and these island jurisdictions, the University of Hawaii should reinstate its policy of allowing these students to pay resident tuition rates; provided that the rate is offered on a needs-based basis. This change will facilitate a greater number of Pacific Islander students receiving post-secondary education, improve ties between the jurisdictions, and develop highly-educated and highly qualified individuals for the workforce in Hawaii and throughout the Pacific.

Accordingly, your Committees have amended this measure by:

- (1) Changing its language to accurately reflect the current tuition rates charged to Pacific Island students, based upon testimony provided by the University of Hawaii; and
- (2) Requesting the Board of Regents of the University of Hawaii to charge resident tuition to Pacific Island students; provided that the rate is offered on a needs-based basis and changing the language of the measure, including its title, to reflect this request.

As affirmed by the records of votes of the members of your Committees on Education and Transportation and International Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 66, as amended herein, and recommend that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 66, S.D. 1.

Signed by the Chair and the President on behalf of the Committees. Ayes, 7. Noes, none. Excused, 5 (Hee, Hooser, Nishihara, Taniguchi, Tsutsui).

SCRep. 1385 Education on S.C.R. No. 224

The purpose of this measure is to improve services to Pacific Islanders by requesting the Center for Pacific Island Studies at the University of Hawaii at Manoa to establish a task force to identify and address the needs of Pacific Islanders in Hawaii.

Testimony in support of this measure was submitted by the University of Hawaii.

Your Committee finds that the Center for Pacific Island Studies of the University of Hawaii at Manoa is a Congressionally-recognized national resource center for the study of the Pacific Islands. The Center largely serves the Pacific and its residents by providing the active exchange of knowledge on the region. Your Committee further finds that as a result of the State's geographic location, Hawaii supports a large percentage of Pacific Islander residents throughout the State and must work toward identifying their needs and providing appropriate services therefor. Your Committee believes that the convening of a task force to study and provide recommendations for meeting the needs of the Pacific Islander community, including individuals from Micronesia, in Hawaii is necessary to properly care for members of this community and that the Center for Pacific Island Studies is the appropriate body to consider these issues.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that the task force's purview includes studying the needs of individuals from Micronesia in Hawaii; and
- (2) Removing language that related to numbers for the Pacific Islander population in Hawaii because those numbers also include Native Hawaiians and are thereby erroneous.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 224, as amended herein, and recommends that it be referred to the Committee on Transportation and International Affairs, in the form attached hereto as S.C.R. No. 224, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hee, Nishihara, Taniguchi).

SCRep. 1386 Education on S.R. No. 147

The purpose of this measure is to improve services to Pacific Islanders by requesting the Center for Pacific Island Studies at the University of Hawaii at Manoa to establish a task force to identify and address the needs of Pacific Islanders in Hawaii.

Testimony in support of this measure was submitted by the University of Hawaii.

Your Committee finds that the Center for Pacific Island Studies of the University of Hawaii at Manoa is a Congressionally-recognized national resource center for the study of the Pacific Islands. The Center largely serves the Pacific and its residents by providing the active exchange of knowledge on the region. Your Committee further finds that as a result of the State's geographic location, Hawaii supports a large percentage of Pacific Islander residents throughout the State and must work toward identifying their needs and providing appropriate services therefor. Your Committee believes that the convening of a task force to study and provide recommendations for meeting the needs of the Pacific Islander community, including individuals from Micronesia, in Hawaii is necessary to properly care for members of this community and that the Center for Pacific Island Studies is the appropriate body to consider these issues.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that the task force's purview includes studying the needs of individuals from Micronesia in Hawaii; and
- (2) Removing language that related to numbers for the Pacific Islander population in Hawaii because those numbers also include Native Hawaiians and are thereby erroneous.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 147, as amended herein, and recommends that it be referred to the Committee on Transportation and International Affairs, in the form attached hereto as S.R. No. 147, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Hee, Nishihara, Taniguchi).

SCRep. 1387 Water, Land, Agriculture and Hawaiian Affairs on S.C.R. No. 25

The purpose of this measure is to seek prior legislative approval for the Board of Land and Natural Resources to issue a term, non-exclusive surface easement for encroachments on state-owned submerged lands in Kahaluu, North Kona.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources and the Department of the Attorney General.

According to certain Hawaii Supreme Court cases regarding shoreline boundaries, it was held that foundation pilings were installed on state-owned submerged lands during the construction of the original Keauhou Beach Hotel in Kahaluu, North Kona. The Board of Land and Natural Resources granted a term, non-exclusive surface easement for the encroachment to Island Holidays, Ltd. in 1969. Since then, the easement has been assigned to various entities, and most recently to KBH, Inc., a subsidiary of Bishop Holdings, Inc., which is the for-profit development arm of Kamehameha Schools. KBH, Inc. is seeking to simultaneously cancel the original easement and enter into a new, term, non-exclusive surface easement for sixty-five years from the Board of Land and Natural Resources to run concurrently with the sixty-five year ground lease KBH, Inc. is in negotiations to attain from Kamehameha Schools for the fast land portion of the property the hotel sits on.

Your Committee finds that under section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources is required to seek prior approval of the Governor and prior authorization of the Legislature by concurrent resolution to issue an easement for state-owned submerged lands. This measure will fulfill this requirement and allow the Board of Land and Natural Resources to issue a term, non-exclusive surface easement to KBH, Inc.

Your Committee recognizes that negotiations are still in progress and requests that the Department of Land and Natural Resources communicate with the Senate President and the Speaker of the House of Representatives as negotiations proceed.

Your Committee has amended this measure by:

- (1) Requesting that the Department of Land and Natural Resources submit a written report to the Legislature on the appraised value of the portion of State-owned submerged lands the non-exclusive easement will cover, and the compensation for the easement; and
- (2) Making technical, nonsubstantive amendments for the purposes of consistency and style.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 25, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 25, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 1388 Water, Land, Agriculture and Hawaiian Affairs on S.C.R. No. 152

The purpose of this measure is to encourage the Office of Hawaiian Affairs and the Executive Branch to negotiate a settlement of all outstanding claims regarding income and proceeds from the public land trust.

Specifically, this measure:

- (1) Encourages the Office of Hawaiian Affairs and the Executive Branch to continue their negotiations to develop a settlement of all outstanding claims regarding income and proceeds from the public land trust; and
- (2) Requests that upon reaching a settlement, the Office of Hawaiian Affairs and the Executive Branch include in the settlement report:
 - (A) The legal foundation for the State's obligation to allocate a pro rata portion of the income and proceeds from the public land trust to the Office of Hawaiian Affairs;
 - (B) A narrative history and summarized chronology of the efforts to implement and satisfy this obligation; and
 - (C) The proposed key elements of the settlement; and

submit the report to the Legislature prior to the 2008 Regular Session.

Testimony in support of this measure was submitted by the Department of the Attorney General and the Office of Hawaiian Affairs.

Under article XII, section 6 of the State Constitution, the Board of Trustees of the Office of Hawaiian Affairs is required to manage and administer the income and proceeds from a pro rata portion of the public land trust, which contains certain ceded lands returned to Hawaii pursuant to the Admissions Act. For many years, determining the pro rata share of the income and proceeds has been the subject of debate, controversy, legislation, and litigation.

Act 178, Session Laws of Hawaii 2006, was a significant step forward in resolving the Office of Hawaiian Affairs' claims to the income and proceeds of the public land trust. Act 178 established a pro rata portion of the public land trust to the Office of Hawaiian Affairs at \$15,100,000 annually beginning with fiscal year 2005-2006, until further action is taken by the Legislature, and appropriated the sum of \$17,500,000 to the Office of Hawaiian Affairs for amounts received from the use of public trust lands that the Legislature determined were underpaid between July 1, 2001, and June 30, 2005.

The members of the Executive Branch and the Office of Hawaiian Affairs have regularly continued negotiations for the purposes of developing a permanent solution for implementing the requirements of article XII, section 6 of the State Constitution, and settling all claims to income and proceeds from the public land trust. This measure encourages the continuance of further discussion on these matters so that a settlement can finally be reached after years of controversy and litigation.

The Office of Hawaiian Affairs and the Department of the Attorney General indicated to your Committee that they are confident that a settlement will be reached in the near future. Although your Committee recognizes the confidential nature of the ongoing negotiations, it encourages the Office of Hawaiian Affairs to brief the Senate President and the Speaker of the House of Representatives if any potential settlements are reached so that appropriate plans can be made for state budgetary purposes for the next fiscal year.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 152 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 1389 Water, Land, Agriculture and Hawaiian Affairs on S.R. No. 105

The purpose of this measure is to encourage the Office of Hawaiian Affairs and the Executive Branch to negotiate a settlement of all outstanding claims regarding income and proceeds from the public land trust.

Specifically, this measure:

- (1) Encourages the Office of Hawaiian Affairs and the Executive Branch to continue their negotiations to develop a settlement of all outstanding claims regarding income and proceeds from the public land trust; and
- (2) Requests that upon reaching a settlement, the Office of Hawaiian Affairs and the Executive Branch include in the settlement report:
 - (A) The legal foundation for the State's obligation to allocate a pro rata portion of the income and proceeds from the public land trust to the Office of Hawaiian Affairs;
 - (B) A narrative history and summarized chronology of the efforts to implement and satisfy this obligation; and
 - (C) The proposed key elements of the settlement; and

submit the report to the Legislature prior to the 2008 Regular Session.

Testimony in support of this measure was submitted by the Department of the Attorney General and the Office of Hawaiian Affairs.

Under article XII, section 6 of the State Constitution, the Board of Trustees of the Office of Hawaiian Affairs is required to manage and administer the income and proceeds from a pro rata portion of the public land trust, which contains certain ceded lands returned to Hawaii pursuant to the Admissions Act. For many years, determining the pro rata share of the income and proceeds has been the subject of debate, controversy, legislation, and litigation.

Act 178, Session Laws of Hawaii 2006, was a significant step forward in resolving the Office of Hawaiian Affairs' claims to the income and proceeds of the public land trust. Act 178 established a pro rata portion of the public land trust to the Office of Hawaiian Affairs at \$15,100,000 annually beginning with fiscal year 2005-2006, until further action is taken by the Legislature, and appropriated the sum of \$17,500,000 to the Office of Hawaiian Affairs for amounts received from the use of public trust lands that the Legislature determined were underpaid between July 1, 2001, and June 30, 2005.

The members of the Executive Branch and the Office of Hawaiian Affairs have regularly continued negotiations for the purposes of developing a permanent solution for implementing the requirements of article XII, section 6 of the State Constitution, and settling all claims to income and proceeds from the public land trust. This measure encourages the continuance of further discussion on these matters so that a settlement can finally be reached after years of controversy and litigation.

The Office of Hawaiian Affairs and the Department of the Attorney General indicated to your Committee that they are confident that a settlement will be reached in the near future. Although your Committee recognizes the confidential nature of the ongoing negotiations, it encourages the Office of Hawaiian Affairs to brief the Senate President and the Speaker of the House of Representatives if any potential settlements are reached so that appropriate plans can be made for state budgetary purposes for the next fiscal year.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 105 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 1390 (Joint) Human Services and Public Housing and Judiciary and Labor on S.C.R. No. 9

The purpose of this measure is to request the Office of the Auditor to assess the Family Court's handling of domestic violence matters in the First Circuit Family Court.

Oahu VOICES and five individuals submitted testimony in support of this measure. The Judiciary submitted comments.

According to the Judiciary, a system presently exists, pursuant to chapter 586, Hawaii Revised Statutes, whereby petitions for domestic abuse protective orders are heard on a separate docket. However, during the course of interim hearings convened by the Committees on Human Services of the Senate and the House of Representatives, it was recommended that an analysis be conducted of Hawaii's current procedures for addressing child custody matters involving domestic violence to determine whether Hawaii's state court system is following best practices in that area. This measure will help determine, among other things, whether the establishment of a separate domestic violence court would better serve the needs of the community.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Judiciary and Labor that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 9 and recommend that it be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 3 (Inouye, Sakamoto, Hemmings).

SCRep. 1391 (Joint) Human Services and Public Housing and Judiciary and Labor on S.C.R. No. 11

The purpose of this measure is to request the Legislative Reference Bureau to study custody evaluator training models that are applied in other jurisdictions.

The National Association of Social Workers and two individuals submitted testimony in support of this measure. The Legislative Reference Bureau submitted comments.

During the interim, the Committees on Human Services of the Senate and the House convened a task force to examine issues pertaining to the Hawaii Family Court. Due to time constraints, the task force was unable to fully explore the issue of training and oversight of custody evaluators in both the Hawaii Family Court and in other jurisdictions. Task force members are interested in how other jurisdictions address training and oversight of custody evaluators. This measure will assist task force members in determining whether to recommend action to improve custody evaluation in the Hawaii Family Court.

Your Committees note the suggestions raised by the National Association of Social Workers that the Legislative Reference Bureau also review training models, custody evaluator qualifications, oversight of the process of selecting custody evaluators, as well as the actual process of how custody evaluators are selected.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Judiciary and Labor that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 11 and recommend that it be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 3 (Inouye, Sakamoto, Hemmings).

SCRep. 1392 (Joint) Human Services and Public Housing and Judiciary and Labor on S.C.R. No. 12

The purpose of this measure is to request the Legislative Reference Bureau to study joint or shared physical and legal custody presumptions in family law as enacted and applied by other jurisdictions.

Two individuals submitted testimony in support of this measure. The Legislative Reference Bureau, Oahu VOICES, and two individuals submitted comments.

During the interim, the Committees on Human Services of the Senate and the House convened a task force to examine issues pertaining to the Hawaii Family Court. Due to time constraints, the task force was unable to fully explore the issue of whether, in a divorce proceeding, a

rebuttable presumption should exist that states that parents should share equally in the parenting of the child. Task force members are interested in how other states address the issue before determining whether a similar rebuttable presumption should be established in Hawaii Family Court. This measure will assist the task force in its deliberations.

Your Committees have amended this measure, based on the Legislative Reference Bureau's testimony, by:

- (1) Deleting the request that the study include a review and comparison of other countries' statutes relating to joint or shared physical and legal custody presumptions; and
- (2) Deleting the request that the study include a review of data regarding joint physical and joint legal custody requests in Hawaii Family Court actions.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Judiciary and Labor that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 12, as amended herein, recommend that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 12, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 3 (Inouye, Sakamoto, Hemmings).

SCRep. 1393 Human Services and Public Housing on S.C.R. No. 16

The purpose of this measure is to further study the outstanding recommendations of the four committees that were formed by the SCR 52 Task Force relating to Family Court Models, Family Court Sunshine and Accountability, Temporary Restraining Orders, and the Best Interests of the Child.

The National Association of Social Workers, Volunteer Legal Services Hawai'i, and two individuals submitted testimony in support of this measure. VOICES submitted comments.

Your Committee finds that the four committees formed by the SCR 52 Task Force had productive discussions and made good recommendations regarding how to make the Family Court more accessible to the public and responsive to the needs of participants. However, given the scope and complexity of the committees' endeavors, more time and participation is necessary to properly explore unresolved issues and outstanding committee recommendations. This measure will enable the SCR 52 Task Force to build on the research and results that it accomplished so far.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 16 and recommends that it be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Sakamoto, Hemmings).

SCRep. 1394 Human Services and Public Housing on S.C.R. No. 20

The purpose of this measure is to recognize that children of this State are entitled to certain rights and urging lawmakers to respect children's rights when enacting legislation related to children.

Volunteer Legal Services Hawai'i and one individual submitted testimony in support of this measure.

Your Committee finds that it is important to be cognizant of the rights of children when enacting laws and establishing policies that will impact their lives and futures. The Legislature and the Governor should advocate for and take appropriate measures to protect children's rights, to help meet children's basic needs, and to expand children's opportunities to reach their potential.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 20 and recommends that it be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Sakamoto, Hemmings).

SCRep. 1395 Human Services and Public Housing on S.C.R. No. 71

The purpose of this measure is to establish a Legislative Interim Task Force to study and make recommendations regarding the creation of Universal Children's Savings Accounts.

The Hawai'i Alliance for Community-Based Economic Development and 3Point submitted testimony in support of this measure.

Your Committee finds that a Universal Children's Savings Account is a restricted account that is established at a child's birth and that can be used for the child's education, homeownership, retirement, or other stated purpose. As noted by the Hawai'i Alliance for Community-Based Economic Development, the initial deposit, with compounding interest and additional deposits from Earned Income Tax Credit refunds, Child Tax Credits, and other sources would provide a significant foundation for children in Hawaii, particularly those with no other assets.

This measure will establish a task force to study and make recommendations regarding the creation of Universal Children's Savings Accounts for children in Hawaii.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 71 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hemmings).

SCRep. 1396 Human Services and Public Housing on S.C.R. No. 81

The purpose of this measure is to request the Auditor to conduct a financial and program audit of Hawaii's Independent Living Center.

The Disability and Communication Access Board, the Statewide Independent Living Council of Hawaii, the Deaf & Hard-of-Hearing Advisory Board, Access Aloha, and thirteen individuals submitted testimony in support of this measure. One individual submitted testimony in support of the intent of this measure. Hawaii's Centers for Independent Living submitted comments.

Hawaii's Centers for Independent Living is a consumer-controlled, community-based, cross-disability, nonprofit agency that was established to maximize the independence of individuals with disabilities and promote their integration into the mainstream of American society. The agency receives significant federal and state funds to provide services to individuals with disabilities for these purposes. Questions and concerns have been raised by the community regarding whether the Hawaii Centers for Independent Living is fulfilling its mission and whether its Board of Directors is meeting its fiduciary responsibilities. This measure requests the Auditor to conduct a financial and program audit of the Hawaii Centers for Independent Living and to submit a report to the Legislature.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 81 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hemmings).

SCRep. 1397 Human Services and Public Housing on S.C.R. No. 142

The purpose of this measure is to request the Legislative Reference Bureau to study other states' adult protective services and compare them to Hawaii's adult protective services.

The National Association of Social Workers submitted testimony in support of this measure. The Legislative Reference Bureau submitted comments.

In Hawaii, adult protective services provides crisis intervention, investigation, and emergency services to dependent adults who are reported to be abused, neglected, or financially exploited by others or seriously endangered due to self-neglect. Concerns have been raised by stakeholders and others in the community regarding whether the strict criteria under Hawaii's Adult Protective Services Law prevents the Department of Human Services from investigating reports for those who are most in need of services.

As noted by the National Association of Social Workers, questions exist regarding what population is most in need of services and how, if at all, the State's Adult Protective Services Law should be amended to provide services to that population. Also, questions remain regarding at what point the State should intervene and offer services. This measure will provide information regarding how other states implement their adult protective services and offer Hawaii a point of comparison in determining whether and how to expand its adult protective services.

Your Committee has amended this measure by:

- (1) Adding two additional clauses regarding the estimated increase in Hawaii's older adult population;
- (2) Deleting the request that the Legislative Reference Bureau discuss the consequences of any expansion of services or changes to adult protective services laws in the various states to make the study more manageable; and
- (3) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 142, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 142, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hemmings).

SCRep. 1398 Human Services and Public Housing on S.R. No. 96

The purpose of this measure is to request the Legislative Reference Bureau to study other states' adult protective services and compare them to Hawaii's adult protective services.

The National Association of Social Workers submitted testimony in support of this measure. The Legislative Reference Bureau submitted comments.

In Hawaii, adult protective services provides crisis intervention, investigation, and emergency services to dependent adults who are reported to be abused, neglected, or financially exploited by others or seriously endangered due to self-neglect. Concerns have been raised by stakeholders and others in the community regarding whether the strict criteria under Hawaii's Adult Protective Services Law prevents the Department of Human Services from investigating reports for those who are most in need of services.

As noted by the National Association of Social Workers, questions exist regarding what population is most in need of services and how, if at all, the State's Adult Protective Services Law should be amended to provide services to that population. Also, questions remain regarding at what point the State should intervene and offer services. This measure will provide information regarding how other states implement their adult protective services and offer Hawaii a point of comparison in determining whether and how to expand its adult protective services.

Your Committee has amended this measure by:

- (1) Adding two additional clauses regarding the estimated increase in Hawaii's older adult population;
- (2) Deleting the request that the Legislative Reference Bureau discuss the consequences of any expansion of services or changes to adult protective services laws in the various states to make the study more manageable; and
- (3) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 96, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.R. No. 96, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hemmings).

SCRep. 1399 Human Services and Public Housing on S.C.R. No. 213

The purpose of this measure is to request the Governor to fund breast cancer and cervical cancer screening for low-income women in Hawaii.

The University of Hawai'i System submitted testimony in support of this measure. The Department of Health submitted testimony in support of the intent of this measure.

The Hawaii Breast and Cervical Cancer Control Program was established in the Department of Health in 1997, and provides access to screening for populations disproportionately affected by cervical cancer, namely Native Hawaiian, Filipino and Pacific Island women, and women with no medical coverage. The Committee finds that decreasing federal funding for this program will likely lead to fewer routine screenings for those women who truly need the assistance. This measure requests the Governor to establish a program to provide coverage for cancer screening for women fifty to sixty-four years of age who are low-income or who lack or have insufficient health insurance.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 213 and recommends that it be referred to the Committee on Health.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hemmings).

SCRep. 1400 Human Services and Public Housing on S.R. No. 137

The purpose of this measure is to request the Governor to fund breast cancer and cervical cancer screening for low-income women in Hawaii.

The University of Hawai'i System submitted testimony in support of this measure. The Department of Health submitted testimony in support of the intent of this measure.

The Hawaii Breast and Cervical Cancer Control Program was established in the Department of Health in 1997, and provides access to screening for populations disproportionately affected by cervical cancer, namely Native Hawaiian, Filipino and Pacific Island women, and women with no medical coverage. The Committee finds that decreasing federal funding for this program will likely lead to fewer routine screenings for those women who truly need the assistance. This measure requests the Governor to establish a program to provide coverage for cancer screening for women fifty to sixty-four years of age who are low-income or who lack or have insufficient health insurance.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 137 and recommends that it be referred to the Committee on Health.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hemmings).

SCRep. 1401 Human Services and Public Housing on S.C.R. No. 48

The purpose of this measure is to request that the Auditor conduct a financial and program audit of the Hawaii Disability Rights Center.

Opportunities for the Retarded, Inc.; the Arc in Hawaii, Helemano Plantation; and twenty individuals submitted testimony in support of this measure. The State Council on Developmental Disabilities; the University of Hawaii at Manoa, Center on Disability Studies; the Hawaii Disability Rights Center; Mental Health America of Hawaii, Family Voices of Hawai'i; PDMI-Care; and twenty-eight individuals submitted testimony in opposition to this measure. Six individuals submitted comments.

The Hawaii Disability Rights Center has a specific role and responsibilities pursuant to the Developmentally Disabled Assistance and Bill of Rights Act of 2000. It is charged with supporting, protecting, and advocating for the human, civil, and legal rights of Hawaii's estimated 180,000 people with disabilities. By federal and state requirements, the Hawaii Disability Rights Center is subject to an annual external financial audit, site reviews by the federal government, as well as site reviews by peer organizations from other states.

The Hawaii Disabilities Rights Center has access to records of any individual with a disability, to the extent required by federal law and as further provided in section 333F-8.5, Hawaii Revised Statutes. However, providers of services to individuals with disabilities may be uncertain as to their obligation to disclose patient records to an entity such as the Hawaii Disability Rights Center.

Your Committee finds that it would be beneficial to have information that clarifies the relationship between the laws mandating access to the records of an individual to a protection and advocacy agency and the laws protecting the privacy of that individual.

Your Committee has amended this measure by:

- (1) Urging the parties to the litigation between the Hawaii Disability Rights Center and Opportunities for the Retarded, Inc. to amicably settle their pending litigation;
- (2) Requesting the Hawaii Disability Rights Center to submit a report to the Legislature and the Attorney General that includes:
 - (A) An outline of the federal authority that grants the Hawaii Disability Rights Center access to facilities serving individuals with disabilities, individuals with disabilities, and the records of the individuals with disabilities;
 - (B) With the concurrence of the federal Administration on Developmental Disabilities, an analysis of the inter-relationship between the aforementioned federal authority and the laws protecting the privacy of individuals and their records; and
 - (C) A statement of its policies and procedures regarding the manner in which it conducts investigations of allegations of abuse or neglect of an individual with a disability, including how, when, and under what circumstances, the investigations are undertaken;
- (3) Amending the title of the measure to reflect its change in purpose; and
- (4) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 48, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 48, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hemmings).

SCRep. 1402 Human Services and Public Housing on S.C.R. No. 99

The purpose of this measure is to request that the Auditor conduct a program and financial audit of the Honolulu Community Action Program.

Two individuals submitted testimony in support of this measure. The Honolulu Community Action Program submitted comments.

The Honolulu Community Action Program is a private, nonprofit corporation that serves low-income and disadvantaged individuals. It is primarily funded by federal, state, and county grants. Your Committee finds that it is appropriate to audit the Honolulu Community Action Program to ensure its compliance with contracts to provide services for the State, the effectiveness and efficiency of the programs that it administers for the State pursuant to those contracts, and its expenditure of the 2006 year grants.

Your Committee has amended this measure by:

- (1) Limiting the audit to state-funded programs, beginning in fiscal year 2005; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 99, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 99, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hemmings).

SCRep. 1403 Human Services and Public Housing on S.C.R. No. 143

The purpose of this measure is to request the Legislative Reference Bureau to study respite care.

AARP Hawaii and the National Multiple Sclerosis Society submitted testimony in support of this measure. The State Council on Developmental Disabilities and Family Voices submitted testimony in support of the intent of this measure. The Legislative Reference Bureau submitted comments.

Family caregivers provide an invaluable service and economic benefit to care recipients and State taxpayers. Sustainable family caregiving depends on meeting a family caregiver's own needs for support and respite care. The basic objective of respite care is to provide a family caregiver with temporary relief from the responsibilities of caring for a care recipient so that the family caregiver can attend to other personal and professional obligations. This measure will help further the development of a comprehensive, long-term care delivery system by studying the provision of respite care in other states.

The State Council on Developmental Disabilities requested that the focus of the study be expanded to include additional family caregivers to help the State Council on Developmental Disabilities prepare for other federal grants, such as those pursuant to the Lifespan Respite Care Act of 2006.

Your Committee has amended this measure by:

- (1) Expanding the focus of the study to include family caregivers who provide care to:
 - (A) Their children with special health care needs;
 - (B) Adult family members, or other individuals, aged sixty years or older with a disability; or
 - (C) Chronically ill adults;
- (2) Requesting the Department of Human Services, instead of the Legislative Reference Bureau, to provide an inventory of the respite services provided in Hawaii;
- (3) Providing that the inventory of the respite services should include a description of each program, eligibility criteria, quality and safety monitoring procedures, and evaluation and quality improvement processes;
- (4) Amending the title of the measure to reflect the inclusion of the Department of Human Services' reporting requirement; and
- (5) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 143, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 143, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hemmings).

SCRep. 1404 Human Services and Public Housing on S.R. No. 97

The purpose of this measure is to request the Legislative Reference Bureau to study respite care.

AARP Hawaii and the National Multiple Sclerosis Society submitted testimony in support of this measure. The State Council on Developmental Disabilities and Family Voices submitted testimony in support of the intent of this measure. The Legislative Reference Bureau submitted comments.

Family caregivers provide an invaluable service and economic benefit to care recipients and State taxpayers. Sustainable family caregiving depends on meeting a family caregiver's own needs for support and respite care. The basic objective of respite care is to provide a family caregiver with temporary relief from the responsibilities of caring for a care recipient so that the family caregiver can attend to other personal and professional obligations. This measure will help further the development of a comprehensive, long-term care delivery system by studying the provision of respite care in other states.

The State Council on Developmental Disabilities requested that the focus of the study be expanded to include additional family caregivers to help the State Council on Developmental Disabilities prepare for other federal grants, such as those pursuant to the Lifespan Respite Care Act of 2006.

Your Committee has amended this measure by:

- (1) Expanding the focus of the study to include family caregivers who provide care to:
 - (A) Their children with special health care needs;
 - (B) Adult family members, or other individuals, aged sixty years or older with a disability; or
 - (C) Chronically ill adults;
- (2) Requesting the Department of Human Services, instead of the Legislative Reference Bureau, to provide an inventory of the respite services provided in Hawaii;
- (3) Providing that the inventory of the respite services should include a description of each program, eligibility criteria, quality and safety monitoring procedures, and evaluation and quality improvement processes;
- (4) Amending the title of the measure to reflect the inclusion of the Department of Human Services' reporting requirement; and
- (5) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 97, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.R. No. 97, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hemmings).

SCRep. 1405 Human Services and Public Housing on S.C.R. No. 144

The purpose of this measure is to request the Legislative Reference Bureau to study the implementation of the Cash and Counseling Program in other states.

Kokua Council submitted testimony in support of this measure. The Legislative Reference Bureau submitted comments.

Cash and Counseling is a national program whereby recipients of Medicaid personal care services or home- and community-based services receive a flexible monthly allowance and decide who to hire and what services they want to receive. The program's innovative approach enables participants to direct and manage their personal assistance services according to their own specific needs. This measure will help determine whether and how a similar program should be established here in Hawaii.

Your Committee has amended this measure by:

- (1) Requesting the Department of Human Services to report to the Legislature regarding what impact a Cash and Counseling program would have on Medicaid and adult services programs in Hawaii, instead;
- (2) Deleting the provision regarding research of the possible use of a similar approach for individuals who are not Medicaid recipients;
- (3) Amending the title of the measure to reflect the change in agency responsible for the report; and
- (4) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 144, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 144, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hemmings).

SCRep. 1406 Human Services and Public Housing on S.R. No. 98

The purpose of this measure is to request the Legislative Reference Bureau to study the implementation of the Cash and Counseling Program in other states.

Kokua Council submitted testimony in support of this measure. The Legislative Reference Bureau submitted comments.

Cash and Counseling is a national program whereby recipients of Medicaid personal care services or home- and community-based services receive a flexible monthly allowance and decide who to hire and what services they want to receive. The program's innovative approach enables participants to direct and manage their personal assistance services according to their own specific needs. This measure will help determine whether and how a similar program should be established here in Hawaii.

Your Committee has amended this measure by:

- (1) Requesting the Department of Human Services to report to the Legislature regarding what impact a Cash and Counseling program would have on Medicaid and adult services programs in Hawaii, instead;
- (2) Deleting the provision regarding research of the possible use of a similar approach for individuals who are not Medicaid recipients;
- (3) Amending the title of the measure to reflect the change in agency responsible for the report; and
- (4) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 98, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.R. No. 98, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hemmings).

SCRep. 1407 Human Services and Public Housing on S.C.R. No. 147

The purpose of this measure is to request the Auditor to conduct a financial audit of the Hawaii Public Housing Authority.

One individual submitted testimony in support of this measure. The Hawaii Public Housing Authority submitted comments.

The Hawaii Public Housing Authority is responsible for the management of federal and state public housing funds. The Hawaii Public Housing Authority is also responsible for the development and operation of public housing projects, homeless assistance, the State Rent Supplement Program, and the Section 8 Housing Choice Voucher Program. Your Committee finds that it is appropriate to ensure the Hawaii Public Housing Authority's proper and effective use and management of funds.

Your Committee has amended this measure by:

- (1) Changing the focus of the measure from having the Auditor conduct a financial audit to having the Hawaii Public Housing Authority submit a report of its project spending to the Legislature and the Auditor;
- (2) Requesting that the report include:
 - (A) A list of all of the current projects for the development of public housing;
 - (B) A list of all of the projects for the development of public housing that were completed within the past two years;
 - (C) The amount and source or sources of funding for each of the projects;
 - (D) A list of all of the contracts for each project;
 - (E) A detailed description of how funding was expended or will be expended for each project; and
 - (F) A timeline for the completion of each project;
- (3) Amending the title of the measure to reflect the change in purpose; and
- (4) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 147, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 147, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hemmings).

SCRep. 1408 Human Services and Public Housing on S.R. No. 100

The purpose of this measure is to request the Auditor to conduct a financial audit of the Hawaii Public Housing Authority.

One individual submitted testimony in support of this measure. The Hawaii Public Housing Authority submitted comments.

The Hawaii Public Housing Authority is responsible for the management of federal and state public housing funds. The Hawaii Public Housing Authority is also responsible for the development and operation of public housing projects, homeless assistance, the State Rent Supplement Program, and the Section 8 Housing Choice Voucher Program. Your Committee finds that it is appropriate to ensure the Hawaii Public Housing Authority's proper and effective use and management of funds.

Your Committee has amended this measure by:

- (1) Changing the focus of the measure from having the Auditor conduct a financial audit to having the Hawaii Public Housing Authority submit a report of its project spending to the Legislature and the Auditor;
- (2) Requesting that the report include:
 - (A) A list of all of the current projects for the development of public housing;
 - (B) A list of all of the projects for the development of public housing that were completed within the past two years;
 - (C) The amount and source or sources of funding for each of the projects;
 - (D) A list of all of the contracts for each project;
 - (E) A detailed description of how funding was expended or will be expended for each project; and
 - (F) A timeline for the completion of each project;
- (3) Amending the title of the measure to reflect the change in purpose; and
- (4) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 100, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.R. No. 100, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Hemmings).

SCRep. 1409 (Joint) Education and Water, Land, Agriculture and Hawaiian Affairs on S.C.R. No. 74

The purpose of this measure is to request the Auditor to conduct a financial and program audit of the Hawaiian Studies Program of the Department of Education.

Testimony in support of this measure was submitted by the Department of Education, the Hawaii State Teachers Association, the Kūali'i Native Hawaiian Advisory Council of the University of Hawaii at Manoa, the Kamakākūokalani Center for Hawaiian Studies, Ka Lei Papahi o Kahuhihewa, and thirteen individuals.

Your Committees find that the Department of Education established a Hawaiian Studies Program pursuant to Article X, Section 4, of the Hawaii State Constitution. The purpose of this program is to foster an understanding and appreciation of the Hawaiian culture, history, language, values, and practices in public schools students in grades kindergarten through six. Your Committees further find that the program is currently outdated and needs modification to ensure proper funding and allocation of resources, as well as effective instruction in Hawaiian studies, including teaching the proper respect for kupuna and makua. This measure requests a financial and program audit of the Department of Education's Hawaii Studies Program. Your Committees believe that a financial, program, and management audit will shed light on and help resolve current budgetary and management issues associated with the program.

Accordingly, your Committees have amended this measure by:

- (1) Including a request for a management audit by the Auditor; and
- (2) Making technical, nonsubstantive changes to the title and text of the measure for purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Education and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 74, as amended herein, and recommend that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 74, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 2 (Fukunaga, Kokubun).

SCRep. 1410 Education on S.C.R. No. 56

The purpose of this measure is to seek resolution to the teacher shortage problem in Hawaii by requesting the Department of Education to report on the retention and change in assignment of teachers within the Department of Education.

Testimony in support of this measure was submitted by the Department of Education, the Hawaii State Teachers Association, and one individual. Comments on the measure were submitted by the Hawaii Teacher Standards Board.

Your Committee finds that Hawaii is plagued by a teacher shortage problem. The Department of Education must explore methods for recruiting and retaining qualified teachers to support our public school system. Your Committee further finds that in order to resolve the problem, it is important to ascertain the nature and scope of the problem so as to craft meaningful strategies that maximize current resources and efforts. In 2000, the Hawaii Educational Policy Center conducted a study on the teacher retention problem and, although informative, the study provided only a glimpse of the entire picture and now contains outdated information. Your Committee believes that a comprehensive report is necessary to assist the Department of Education, the Legislature, and other interested parties in finding ways to effectively address the current problem.

However, based on testimony provided, your Committee determines that the Hawaii Educational Policy Center, as an objective agency that is independent from the Department of Education, is the appropriate body to prepare the report, which should also be expanded to provide additional information.

Accordingly, your Committee has amended this measure by:

- (1) Requesting the Hawaii Educational Policy Center to prepare a report on the effectiveness of the current status of teacher preparation and mentoring induction programs; and
- (2) Including in the report the following:
 - (A) Data on demographics on teacher characteristics and school characteristics; and
 - (B) Department of Education policies relating to teacher transfers, Department of Education reports to the United States Department of Education on addressing the No Child Left Behind law requirements, collective bargaining relating to teacher transfers and seniority, and descriptions of Institutions of Higher Education programs and related costs for preparing teaches, including accreditation reports and reviews.

Your Committee has also amended the title of the measure to reflect the change of agency requested to conduct the report.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 56, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 56, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Chun Oakland, Hee).

SCRep. 1411 Education on S.R. No. 32

The purpose of this measure is to seek resolution to the teacher shortage problem in Hawaii by requesting the Department of Education to report on the retention and change in assignment of teachers within the Department of Education.

Testimony in support of this measure was submitted by the Department of Education, the Hawaii State Teachers Association, and one individual. Comments on the measure were submitted by the Hawaii Teacher Standards Board.

Your Committee finds that Hawaii is plagued by a teacher shortage problem. The Department of Education must explore methods for recruiting and retaining qualified teachers to support our public school system. Your Committee further finds that in order to resolve the problem, it is important to ascertain the nature and scope of the problem so as to craft meaningful strategies that maximize current resources and efforts. In 2000, the Hawaii Educational Policy Center conducted a study on the teacher retention problem and, although informative, the study provided

only a glimpse of the entire picture and now contains outdated information. Your Committee believes that a comprehensive report is necessary to assist the Department of Education, the Legislature, and other interested parties in finding ways to effectively address the current problem.

However, based on testimony provided, your Committee determines that the Hawaii Educational Policy Center, as an objective agency that is independent from the Department of Education, is the appropriate body to prepare the report, which should also be expanded to provide additional information.

Accordingly, your Committee has amended this measure by:

- (1) Requesting the Hawaii Educational Policy Center to prepare a report on the effectiveness of the current status of teacher preparation and mentoring induction programs; and
- (2) Including in the report the following:
 - (A) Data on demographics on teacher characteristics and school characteristics; and
 - (B) Department of Education policies relating to teacher transfers, Department of Education reports to the United States Department of Education on addressing the No Child Left Behind law requirements, collective bargaining relating to teacher transfers and seniority, and descriptions of Institutions of Higher Education programs and related costs for preparing teaches, including accreditation reports and reviews.

Your Committee has also amended the title of the measure to reflect the change of agency requested to conduct the report.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 32, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 32, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Chun Oakland, Hee).

SCRep. 1412 (Joint/Majority) Education and Water, Land, Agriculture and Hawaiian Affairs on S.C.R. No. 95

The purpose of this measure is to ensure the preservation of Hawaiian taro varieties by requesting the College of Tropical Agriculture and Human Resources at the University of Hawaii and the Hawaii Agriculture Research Center to refrain from activities involving genetic modification of Hawaiian taro varieties in the State, including any type of research that would significantly impact Hawaiian taro varieties.

Testimony in support of this measure was submitted by the Kualii Native Hawaiian Advisory Council of the University of Hawaii at Manoa and the Kamakakuokalani Center for Hawaiian Studies. Testimony in opposition of this measure was submitted by the University of Hawaii, the College of Tropical Agriculture and Human Resources of the University of Hawaii, the Hawaii Science & Technology Council, the Hawaii Crop Improvement Association, Tropical Hawaiian Products, and the Hawaii Agriculture Research Center. The Department of Agriculture submitted comments.

Your Committees find that the advent of biotechnology and genetic modification of foods offer exciting prospects for future challenges by providing for enhanced taste and quality, reduced maturation time, increased nutrients, improved resistance to diseases and pests, and yielding new products and growing techniques. However, with these new technologies also come potential known and unknown risks, including issues regarding food security, health impacts, ethics, and intellectual property rights. Your Committees further find that concern has arisen, particularly in the Native Hawaiian community, regarding the use of these technologies on the kalo, also known as the taro, plant. The life of kanaka maoli, the indigenous Hawaiian people, is linked closely with kalo, which is believed to have the greatest life force of all foods.

Your Committees find that preservation of kalo, including all Hawaiian varieties, is an issue of great concern, and efforts must be made to ensure that genetic strains of native taro species not be destroyed, largely out of respect for the cultural foundation kalo holds for Native Hawaiians, their culture, and their religious practices. Your Committees understand that protecting kalo against potential diseases and pests is also necessary to preserve kalo as well as other crops and food products in the State. Your Committees wish to strike a cautious balance between the interests involved through requesting the cessation of genetic modification of Hawaiian taro varieties, while allowing for continued discussions to occur to reach an appropriate long-term resolution of this problem. Additionally, testimony provided indicated that the former practice involving research or genetic modification activities associated with non-Hawaiian taro varieties was conducted in controlled environments, a practice that your Committees would like future research or activities to follow to prevent any inadvertent cross-pollination with Hawaiian taro varieties.

Accordingly, your Committees have amended this measure by:

- (1) Specifying that research or activities involving the genetic modification of non-Hawaiian taro varieties continue; provided that such activities are conducted at isolated and secure sites or laboratories to ensure the prevention of cross-pollination with traditional Hawaiian taro varieties;
- (2) Encouraging the continuation of ongoing discussions between the College of Tropical Agriculture and Human Resources and the Hawaiian community regarding the propriety of research or genetic modification of traditional Hawaiian taro varieties;
- (3) Including a reporting requirement for the College of Tropical Agriculture and Human Resources to the Legislature; and
- (4) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Education and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 95, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 95, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Ayes with Reservations, 1 (Fukunaga). Noes, 1 (Slom). Excused, 2 (Kokubun, Taniguchi).

SCRep. 1413 Education on S.C.R. No. 78

The purpose of this measure is to increase student achievement by requesting the Department of Education to develop a comprehensive plan for programs that provide for high achieving students.

Comments on this measure were submitted by the Department of Education.

Your Committee finds that although the Department of Education must address the educational needs of all public school students throughout the State, the needs of high achieving students should not be overlooked. Despite the many state and federal mandates to assist remedial or other students, students experiencing high academic achievement should be afforded every opportunity to continue to excel and advance their educational careers. Your Committee further finds that many public, but not all, high schools support gifted and talented programs that serve a small number of high achieving students. Testimony presented by the Department of Education indicates that ongoing efforts to expand and continue to provide opportunities for gifted and talented students, through comprehensive or specialized programs or smaller-scale initiatives, are being pursued.

This measure is intended to help increase the current number of students in gifted and talented programs by developing a plan for improving current efforts and providing increased opportunities for high achieving students. Based upon the representations of the Department of Education, your Committee believes that it is appropriate for the Department of Education to report to the Legislature on its current efforts as well as develop future plans and information on the implementation of those plans for achieving a twenty per cent enrollment of students in high achievement programs or courses.

Accordingly, your Committee has amended this measure by

- (1) Requesting the Department of Education to report on current initiatives that provide for high achieving students and to develop a plan and provide information on implementation of the plan for future areas of improvement, including establishing outcomes, strategies, measures, and timelines, with the goal of twenty per cent of public school students enrolling in gifted and talented programs, honors classes, advanced placement courses, International Baccalaureate programs, or other similar programs designed to provide rigorous and challenging curricula;
- (2) Requesting the Department of Education to make available via the Internet information for parents and students on gifted and talented programs and courses and information on current initiatives for high achieving students; and
- (3) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 78, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 78, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 1414 Education on S.R. No. 45

The purpose of this measure is to increase student achievement by requesting the Department of Education to develop a comprehensive plan for programs that provide for high achieving students.

Comments on this measure were submitted by the Department of Education.

Your Committee finds that although the Department of Education must address the educational needs of all public school students throughout the State, the needs of high achieving students should not be overlooked. Despite the many state and federal mandates to assist remedial or other students, students experiencing high academic achievement should be afforded every opportunity to continue to excel and advance their educational careers. Your Committee further finds that many public, but not all, high schools support gifted and talented programs that serve a small number of high achieving students. Testimony presented by the Department of Education indicates that ongoing efforts to expand and continue to provide opportunities for gifted and talented students, through comprehensive or specialized programs or smaller-scale initiatives, are being pursued.

This measure is intended to help increase the current number of students in gifted and talented programs by developing a plan for improving current efforts and providing increased opportunities for high achieving students. Based upon the representations of the Department of Education, your Committee believes that it is appropriate for the Department of Education to report to the Legislature on its current efforts as well as develop future plans and information on the implementation of those plans for achieving a twenty per cent enrollment of students in high achievement programs or courses.

Accordingly, your Committee has amended this measure by

- (1) Requesting the Department of Education to report on current initiatives that provide for high achieving students and to develop a plan and provide information on implementation of the plan for future areas of improvement, including establishing outcomes, strategies, measures, and timelines, with the goal of twenty per cent of public school students enrolling in gifted and talented programs, honors classes, advanced placement courses, International Baccalaureate programs, or other similar programs designed to provide rigorous and challenging curricula;
- (2) Requesting the Department of Education to make available via the Internet information for parents and students on gifted and talented programs and courses and information on current initiatives for high achieving students; and
- (3) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 45, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 45, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 1415 Education on S.C.R. No. 67

The purpose of this measure is to support the pursuit of higher education by Hawaii students by requesting the P-20 Council and the University of Hawaii to report on early college awareness programs for elementary and middle school students.

Testimony in support of this measure was submitted by the University of Hawaii at Manoa, the Hawaii P-20 Initiative, the Hawaii State Teachers Association, the Oahu Filipino Community Council, the United Filipino Community Council, and the Filipino Coalition for Solidarity.

Your Committee finds that the development of an educated and highly-qualified workforce in Hawaii is predicated upon the preparation and education of our youth. The availability and support for programs that encourage post-secondary education is vital to growing a workforce to meet the evolving future needs of the State. Your Committee further finds that the State must explore methods for providing exposure to and opportunities for pursuing post-secondary education programs, particularly for younger students from low-income and underrepresented communities.

Your Committee finds that the University of Hawaii system currently supports many early college awareness programs that can benefit the young students in the State. However, the current programs must be evaluated and continuing efforts must be made to ensure that middle and elementary school students are afforded every opportunity to participate in early college education programs. Your Committee determines that the Hawaii P-20 Council, sponsored by the University of Hawaii, the Department of Education, and Good Beginnings Alliance, is an organization that is dedicated to implementing learning achievement in Hawaii and can provide valuable guidance to the Legislature on methods for improving and expanding current early college awareness programs.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 67 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 1416 Education on S.C.R. No. 166

The purpose of this measure is to request that the Department of Education establish a temporary location for the Manoa Public Library to accommodate the community and students during the library's two-year closure.

Testimony in support of this measure was submitted by the Department of Education.

Your Committee finds that the Manoa Public Library provides much needed resources to the community and its temporary closure may cause hardships to the neighborhood, including the students of Noelani Elementary School and Manoa Elementary School. The establishment of temporary facilities for the two-year closure, which may be accomplished through the provision of two portable classrooms at Noelani Elementary School, will allow the Manoa Public Library to continue to service all members of the community.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 166 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 1417 Education on S.C.R. No. 79

The purpose of this measure is to improve efficiency within the University of Hawaii system by requesting the University of Hawaii to report on the linking of funding for individual campuses with performance goals.

Comments on this measure were submitted by the University of Hawaii.

Your Committee finds that the Legislature takes great interest in the efficiency of operations within the University of Hawaii system. The State dedicates vast amounts of funding to the University of Hawaii system and needs assurances that the educational priorities of the system are properly aligned with funding methodologies and tied to tangible performance goals. Your Committee believes that a report by the University of Hawaii on the link between funding and performance goals will assist the Legislature in ensuring that funding is appropriately prioritized and made consistent with performance objectives.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 79 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 1418 Education on S.R. No. 46

The purpose of this measure is to improve efficiency within the University of Hawaii system by requesting the University of Hawaii to report on the linking of funding for individual campuses with performance goals.

Comments on this measure were submitted by the University of Hawaii.

Your Committee finds that the Legislature takes great interest in the efficiency of operations within the University of Hawaii system. The State dedicates vast amounts of funding to the University of Hawaii system and needs assurances that the educational priorities of the system are properly aligned with funding methodologies and tied to tangible performance goals. Your Committee believes that a report by the University of Hawaii on the link between funding and performance goals will assist the Legislature in ensuring that funding is appropriately prioritized and made consistent with performance objectives.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 46 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 1419 Education on S.C.R. No. 73

The purpose of this measure is to improve faculty recruitment and retention by requesting the University of Hawaii to submit a report on information regarding salaries of the faculty and administrators of the University of Hawaii at Manoa.

Testimony in support of this measure was submitted by the University of Hawaii Professional Assembly and four individuals. Testimony in opposition of this measure was submitted by the University of Hawaii at Manoa.

Your Committee finds that the University of Hawaii is the State's only public university. In order to establish and maintain its position as a premier institution, the recruitment and retention of highly-qualified and highly-credentialed faculty is of the utmost importance to the university's existence, accomplishments, and student achievement. Faculty salaries should be established and adjusted based on a merit system, although indications that inequities in salaries currently persist and require attention. Your Committee further finds that the issue is of particular importance within the University of Hawaii, Manoa campus. Information regarding the current salaries of the faculty and administrators at the University of Hawaii at Manoa is necessary to shed light on the current state of the salaries, the reasoning for possible inequities, and to address any problems therewith.

Your Committee recognizes the concerns raised by the University of Hawaii at Manoa concerning privacy issues, particularly with regard to denials of salary adjustment requests. Accordingly, your Committee has amended this measure by:

- (1) Removing from the list of information requested to be included in the report by the University of Hawaii at Manoa:
 - (A) Decisions on requests made for salary adjustments; and
 - (B) Actions taken and recommendations made to address complaints of salary inequities; and
- (2) Making technical, nonsubstantive changes to the title and text of the measure for purposes of clarity and to reflect preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 73, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 73, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 1420 (Joint) Human Services and Public Housing and Intergovernmental and Military Affairs on S.C.R. No. 23

The purpose of this measure is to request each county to examine its current zoning laws, building codes, and subdivision requirements and eliminate encumbrances to family caregiving and aging in place.

AARP Hawaii submitted testimony in support of this measure.

Your Committees find that in 2000, individuals age sixty and older represented seventeen per cent of Hawaii's total population. It is estimated that this group will represent twenty-five per cent of Hawaii's total population by the year 2020. The vast majority of Hawaii's older residents prefer to age in place in lieu of costly institutionalized care elsewhere. Local communities must be prepared to accommodate the aging population and support their ability to age in place in their homes and communities. This measure requests the counties to examine their current zoning laws, building codes, and subdivision requirements so that encumbrances to family caregiving and aging in place can be eliminated.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 23 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 2 (Sakamoto, Hemmings).

SCRep. 1421 (Joint) Human Services and Public Housing and Intergovernmental and Military Affairs on S.C.R. No. 69

The purpose of this measure is to urge the United States Department of Housing and Urban Development to remove designated buildings at Kalihi Valley Homes from a schedule for demolition.

Kalihi Valley Neighborhood Board No. 16 and one individual submitted testimony in support of this measure.

According to the Hawaii Homeless Point-in-Time Study of 2003, of the estimated 6,029 homeless individuals in Hawaii, approximately 4,107 are unsheltered. This is indicative of the limited number of shelter spaces available in the State. Kalihi Valley contains the State's two largest public housing projects, one of which is Kalihi Valley Homes. Kalihi Valley Homes was opened in 1953, and seventy-two of its units are currently scheduled for demolition by the United States Department of Housing and Urban Development to create more open space at the site.

According to the testimony of the Kalihi Valley Neighborhood Board No. 16, the buildings are intact and in relatively good condition, and therefore suitable for renovation. Furthermore, there are apparently still residents in these buildings. Your Committees find that these units should be renovated in lieu of demolition, as it would replenish the public housing inventory faster than rebuilding elsewhere and prevent further evictions.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 69 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 2 (Sakamoto, Hemmings).

SCRep. 1422 (Joint) Human Services and Public Housing and Intergovernmental and Military Affairs on S.R. No. 42

The purpose of this measure is to urge the United States Department of Housing and Urban Development to remove designated buildings at Kalihi Valley Homes from a schedule for demolition.

Kalihi Valley Neighborhood Board No. 16 and one individual submitted testimony in support of this measure.

According to the Hawaii Homeless Point-in-Time Study of 2003, of the estimated 6,029 homeless individuals in Hawaii, approximately 4,107 are unsheltered. This is indicative of the limited number of shelter spaces available in the State. Kalihi Valley contains the State's two largest public housing projects, one of which is Kalihi Valley Homes. Kalihi Valley Homes was opened in 1953, and seventy-two of its units are currently scheduled for demolition by the United States Department of Housing and Urban Development to create more open space at the site.

According to the testimony of the Kalihi Valley Neighborhood Board No. 16, the buildings are intact and in relatively good condition, and therefore suitable for renovation. Furthermore, there are apparently still residents in these buildings. Your Committees find that these units

should be renovated in lieu of demolition, as it would replenish the public housing inventory faster than rebuilding elsewhere and prevent further evictions.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 42 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 2 (Sakamoto, Hemmings).

SCRep. 1423 (Joint) Human Services and Public Housing and Judiciary and Labor on S.C.R. No. 10

The purpose of this measure is to request the Judiciary to implement a pilot Family Court Parenting Plan Model Program in the First Circuit Family Court.

The Judiciary and Oahu VOICES submitted comments.

During interim hearings convened by the Committees on Human Services of the Senate and the House of Representatives, it was recommended that a process, known as the Family Court Parenting Plan Model, should exist to assist parents to develop a parenting plan without and prior to Family Court intervention. Further recommendations were made by a group of interested stakeholders regarding how this model should be implemented. However, it was agreed that the model should be implemented as a pilot program first so that it can be evaluated and modified before determining whether to implement it on a statewide, mandatory basis.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Judiciary and Labor that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 10 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 3 (Inouye, Sakamoto, Hemmings).

SCRep. 1424 Human Services and Public Housing on S.C.R. No. 21

The purpose of this measure is to urge the childcare and eldercare communities to acknowledge the unique circumstances of grandparents raising grandchildren by supporting policies and services that are conducive to that familial relationship.

The Department of Health; the Office of Hawaiian Affairs; the Na Tutu, Grandparents Raising Grandchildren; and one individual submitted testimony in support of this measure.

According to the testimony, it is estimated that more than fourteen thousand grandparents are primary caregivers for their grandchildren in Hawaii. The reasons that grandparents assume responsibility for their grandchildren often reflect broader social issues such as divorce, substance abuse, incarceration, mental illness, and neglect or abuse of the grandchildren. The challenges and responsibilities of raising grandchildren often place substantial financial and emotional stress on grandparents. This measure recognizes the contribution that grandparents make to the lives of their grandchildren and to the community by assuming these responsibilities and encourages supportive policies and services to help them in these demanding roles.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 21 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Sakamoto, Hemmings).

SCRep. 1425 Human Services and Public Housing on S.R. No. 9

The purpose of this measure is to urge the childcare and eldercare communities to acknowledge the unique circumstances of grandparents raising grandchildren by supporting policies and services that are conducive to that familial relationship.

The Office of Hawaiian Affairs; the Na Tutu, Grandparents Raising Grandchildren; and one individual submitted testimony in support of this measure.

According to the testimony, it is estimated that more than fourteen thousand grandparents are the primary caregivers for their grandchildren in Hawaii. The reasons that grandparents assume responsibility for their grandchildren often reflect broader social issues such as divorce, substance abuse, incarceration, mental illness, and neglect or abuse of the grandchildren. The challenges and responsibilities of raising grandchildren often place substantial financial and emotional stress on grandparents. This measure recognizes the contribution that grandparents make to the lives of their grandchildren and to the community by assuming these responsibilities and encourages supportive policies and services to help them in these demanding roles.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 9 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Sakamoto, Hemmings).

SCRep. 1426 Human Services and Public Housing on H.C.R. No. 25

The purpose of this measure is to urge the childcare and eldercare communities to acknowledge the unique circumstances of grandparents raising grandchildren by supporting policies and services that are conducive to that familial relationship.

One individual submitted testimony in support of this measure.

It is estimated that more than fourteen thousand grandparents are primary caregivers for their grandchildren in Hawaii. The reasons that grandparents assume responsibility for their grandchildren often reflect broader social issues such as divorce, substance abuse, incarceration, mental illness, and neglect or abuse of the grandchildren. The challenges and responsibilities of raising grandchildren often place substantial financial and emotional stress on grandparents. This measure recognizes the contribution that grandparents make to the lives of their grandchildren and to the community by assuming these responsibilities and encourages supportive policies and services to help them in these demanding roles.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 25, and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Sakamoto, Hemmings).

SCRep. 1427 Water, Land, Agriculture and Hawaiian Affairs on S.C.R. No. 3

The purpose of this measure is to protect and promote Hawaii's agricultural export market by requesting the Department of Agriculture to study the effectiveness of vapor heat treatment for neutralizing fruit flies on fruits and vegetables for interstate retail distribution, and submit a written report of its findings and recommendations to the Legislature.

Testimony in support of this measure was submitted by the Department of Agriculture.

Vapor heat treatment is primarily used for fruits and vegetables that are hosts for fruit flies, and is an approved treatment of Hawaii grown vegetables and fruits intended for mainland retail distribution. Your Committee finds that although further study of the effectiveness of vapor heat treatment will assist in promoting Hawaii's agricultural export market, this type of study is already within the purview of the Department of Agriculture's responsibilities.

Accordingly, your Committee has amended this measure by deleting its contents and inserting similar language from S.B. No. 561, S.D. 1, that requests the Public Utilities Commission to study the rate structures of private entities that furnish water used for agricultural purposes. Your Committee finds that the rate structures and fees for the use of water from privately-owned water sources for agricultural purposes in an area zoned for agricultural use may differ among each privately-owned water source. A uniform rate and fee structure that is comparable to the water rate structure used by the board of water supply of each respective county will allow farmers to continue to maintain agricultural production in Hawaii.

Specifically, this measure, as amended, requests that the Public Utilities Commission study the rate and fee structures of private entities statewide that furnish water used for agricultural purposes in areas zoned for agricultural use, and further requests that the Public Utilities Commission:

- (1) Perform an inventory of all privately-owned water systems statewide that are used for agricultural purposes;
- (2) Examine and distinguish water rate and fee structures of privately-owned water systems used for agricultural purposes, established by local county boards of water supply, and for residential purposes; and
- (3) Seek input, collaboration, and guidance from the Department of Agriculture, the College of Tropical Agriculture and Human Resources at the University of Hawaii, the Hawaii Farm Bureau Federation, and each county board of water supply; and

submit a written report to the Legislature of its findings and recommendations before the convening of the 2008 Regular Session.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 3, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 3, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 1428 Water, Land, Agriculture and Hawaiian Affairs on S.C.R. No. 206

The purpose of this measure is to protect taro grown in Hawaii from lethal insects and diseases that can cause widespread agricultural and financial losses for taro farmers by requesting that the Department of Agriculture develop a taro security and purity research program.

Specifically, this measure requests the Department of Agriculture to collaborate with taro growers and various Native Hawaiian groups to develop a program that will:

- (1) Allow the Department's Biosecurity Program to protect crops in Hawaii by inspecting foreign crops upon entrance to the State;
- (2) Allow alternative forms of research on taro other than genetic modification;
- (3) Provide public outreach, engagement, and education on taro research and protection to increase public participation and confidence; and
- (4) Request that the Alomae/Bobone virus disease complex and taro beetles be designated as actionable pests to prevent entry into Hawaii; and

submit a written report to the Legislature of its findings and recommendations prior to the 2008 Regular Session.

Testimony in support of this measure was submitted by the Department of Agriculture; the University of Hawaii; the College of Tropical Agriculture and Human Resources, University of Hawaii; the Hawaii Farm Bureau Federation; the Maui County Farm Bureau; the Hawaii Crop Improvement Association; Tropical Hawaiian Products; and the Hawaii Science and Technology Council.

Invasive species pose constant challenges to Hawaii's agricultural industry as well as the environment, and the ongoing arrival of new invasive species is unpredictable and can have far-reaching effects. Taro is prone to the effects of invasive species, particularly plant diseases, including the Alomae/Bobone virus disease complex, and insects, such as taro beetles. Scientific methods of protecting taro from invasive species, such as genetic modification, have faced tremendous resistance and opposition because taro is sacred to the Native Hawaiians and is an integral part of the Native Hawaiian culture.

Your Committee finds that as the debate ensues on genetically modified taro, there are still many lethal insects and diseases of taro that occur in the Pacific that can cause widespread agriculture and financial losses for taro farmers in Hawaii. Your Committee believes that by requesting the Department of Agriculture to collaborate with taro growers and various native Hawaiian groups to develop a taro security and purity research program will ensure that taro can be protected from natural attack, engage the public, and increase public confidence in biotechnology.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 206 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 1429 Water, Land, Agriculture and Hawaiian Affairs on S.C.R. No. 192

The purpose of this measure is to ensure the longevity and viability of the livestock industry in Hawaii by requesting the Department of Agriculture to convene a task force to develop long-term solutions to effectively protect the livestock industry.

Specifically, this measure requests that the Department of Agriculture establish a task force to:

- (1) Examine the current policies, procedures, and operations of livestock farms in Hawaii;
- (2) Explore and identify best practices and any other available options to develop long-term solutions to effectively protect the livestock industry in Hawaii; and
- (3) Establish findings, and identify and recommend solutions to issues involving satisfying livestock feed requirements.

Testimony in support of this measure was submitted by the Department of Agriculture; the College of Tropical Agriculture and Human Resources, University of Hawaii; the Hawaii Egg Producers Association; Horizon Lines, LLC; and Hawaii Teamsters and Allied Workers, Local 996.

Your Committee finds that the cost of feeding livestock in Hawaii is significantly higher than on the mainland and this higher cost threatens local livestock producers with closure. Hawaii relies heavily on overseas shipping for a majority of its food and products for food production; thus, if local livestock producers go out of business, the State will become even more dependent on imported foods and will lose the option of buying perishable goods, such as beef, milk, eggs, poultry, and pork, at their freshest. Your Committee recognizes that S.B. No. 1307 and H.B. No. 1221, which both establish a livestock revitalization program introduced during the 2007 Regular Session, will only provide a short-term solution to one of the many issues that the livestock industry in Hawaii faces. Thus, your Committee believes that the establishment of a task force to develop long-term solutions will assist in ensuring the longevity and viability of the Hawaii's livestock industry.

Your Committee further recognizes that the transportation costs for livestock feed is not the only factor that is responsible for high feed costs. It was indicated to your Committee that the ethanol fuel industry has also contributed to the rise in cost for corn; thus, it is important for the task force to explore and identify all contributing factors to the high cost of feed. Your Committee encourages the Department of Agriculture to also collaborate with the Department of Transportation and other transportation sectors to provide a broader assessment of the challenges that the livestock industry in Hawaii faces.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 192 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 1430 Water, Land, Agriculture and Hawaiian Affairs on S.R. No. 122

The purpose of this measure is to ensure the longevity and viability of the livestock industry in Hawaii by requesting the Department of Agriculture to convene a task force to develop long-term solutions to effectively protect the livestock industry.

Specifically, this measure requests that the Department of Agriculture establish a task force to:

- (1) Examine the current policies, procedures, and operations of livestock farms in Hawaii;
- (2) Explore and identify best practices and any other available options to develop long-term solutions to effectively protect the livestock industry in Hawaii; and
- (3) Establish findings, and identify and recommend solutions to issues involving satisfying livestock feed requirements.

Testimony in support of this measure was submitted by the Department of Agriculture; the College of Tropical Agriculture and Human Resources, University of Hawaii; the Hawaii Egg Producers Association; Horizon Lines, LLC; and Hawaii Teamsters and Allied Workers, Local 996.

Your Committee finds that the cost of feeding livestock in Hawaii is significantly higher than on the mainland and this higher cost threatens local livestock producers with closure. Hawaii relies heavily on overseas shipping for a majority of its food and products for food production; thus, if local livestock producers go out of business, the State will become even more dependent on imported foods and will lose the option of buying perishable goods, such as beef, milk, eggs, poultry, and pork, at their freshest. Your Committee recognizes that S.B. No. 1307 and H.B. No. 1221, which both establish a livestock revitalization program introduced during the 2007 Regular Session, will only provide a short-term solution to one of the many issues that the livestock industry in Hawaii faces. Thus, your Committee believes that the establishment of a task force to develop long-term solutions will assist in ensuring the longevity and viability of the Hawaii's livestock industry.

Your Committee further recognizes that the transportation costs for livestock feed is not the only factor that is responsible for high feed costs. It was indicated to your Committee that the ethanol fuel industry has also contributed to the rise in cost for corn; thus, it is important for the task force to explore and identify all contributing factors to the high cost of feed. Your Committee encourages the Department of Agriculture to also collaborate with the Department of Transportation and other transportation sectors to provide a broader assessment of the challenges that the livestock industry in Hawaii faces.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 122 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 1431 Economic Development and Taxation on Gov. Msg. No. 524

Recommending that the Senate advise and consent to the nomination of the following:

KING KAMEHAMEHA CELEBRATION COMMISSION

G.M. No. 524 CAROLEE K. ARICAYOS, for a term to expire 6-30-2011

Upon review of the testimony and statement submitted by the nominee, your Committee finds that Carolee K. Aricayos has the necessary character, experience, and qualifications to serve on the King Kamehameha Celebration Commission.

Your Committee received testimony in support of the nominee from the Department of Accounting and General Services.

Carolee K. Aricayos, a lifelong resident of the Island of Maui, is a Kumu Hula, Pa`u rider, and teacher in Hawaiian arts. She also served as Curator for Hale Kahiko, a Hawaiian village museum located in Lahaina, Maui, where she shared her knowledge of Hawaiian culture and native plants used for cooking and healing. Mrs. Aricayos is active in her community and her church, and currently is the Maui representative to King Kamehameha Celebration Commission. As a reappointment to the Commission, she has been actively involved in participating in all aspects of the Commission's work.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1432 Economic Development and Taxation on Gov. Msg. Nos. 481, 482 and 499

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF TAXATION REVIEW

G.M. No. 481 ALBERT WARREN STIGLMEIER, 4TH TAXATION DISTRICT (KAUAI) for a term to expire 6-30-2011;

G.M. No. 482 MANOJ P. SAMARANAYAKE, CPA, 1ST TAXATION DISTRICT (OAHU) for a term to expire 6-30-2011; and

G.M. No. 499 CAROL P. WEIR, 3RD TAXATION DISTRICT (HAWAII) for a term to expire 6-30-2011;

Upon review of the testimonies and the statements submitted by the nominees, your Committee finds that Albert Warren Stiglmeier, Manoj P. Samaranayake, and Carol P. Weir have the necessary character, experience, and qualifications to serve on the Board of Taxation Review for their respective taxation districts.

Testimony in support of Albert Warren Stiglmeier was received from the Department of Taxation.

Albert Warren Stiglmeier is a practicing Certified Public Accountant and has owned his practice on Kauai since 1972. He is a member of the Hawaii Society of Certified Public Accountants and the American Institute of Certified Public Accountants, and an active board member for several community organizations. He holds a Bachelor of Science in Accounting from California State College. As a current member of the Board of Taxation Review, Mr. Stiglmeier has attended all hearings as well as the Office of Information Practice's Sunshine Law Workshop in 2004.

Testimony in support of Manoj P. Samaranayake was received from the Department of Taxation and two individuals.

Manoj P. Samaranayake is a Senior Tax Manager with Accuity, LLP (formerly PricewaterhouseCoopers, LLP). He is a Certified Public Accountant and a member of the Hawaii Society of Certified Public Accountants. Mr. Samaranayake's credentials include a Master in Business Administration and a Bachelor of Business Administration in Management and Accounting from the University of Hawai'i at Manoa. He is involved in community organizations, including the American Liver Foundation. A reappointee, Mr. Samaranayake has been an active member of the Board of Taxation Review for the 1st Taxation District.

Testimony in support of Carol P. Weir was received from the Department of Taxation.

Carol P. Weir has been in private practice with the firm of Herbert Nakayama, CPA, in Hilo for nineteen years. Ms. Weir is a Certified Public Accountant and her credentials include a Master in Science in Accounting from the University of Wisconsin-Madison and a Bachelor of Arts in Anthropology from Wheaton College. Ms. Weir is also active in her community, presently serving as treasurer for Christ Lutheran Church. Since first joining the Board of Taxation Review for the 3rd Taxation District, Ms. Weir has attended all of the hearings.

As affirmed by the records of votes of the members of your Committee on Economic Development and Taxation that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1433 Health on Gov. Msg. No. 329

Recommending that the Senate advise and consent to the nomination of the following:

POLICY ADVISORY BOARD FOR ELDER AFFAIRS

G.M. No. 329 DANIEL J. VARGAS, for a term to expire 6-30-2011

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Daniel J. Vargas to have the necessary qualifications to be nominated for a second term to the Policy Advisory Board for Elder Affairs.

Your Committee received testimony in support of Daniel J. Vargas' nomination from the Department of Health.

Your Committee finds that Mr. Vargas has a great deal of experience with drug and alcohol inpatient and outpatient rehabilitation programs, gained in his work with Teen Challenge Hawaii, Crossroads Hawaii, and the prison system and parole boards. He also worked as the president and director of Beth Israel Jewish Ministries International for over twenty years. He is a graduate of Bethany Bible College, Hebrew College of the Bible. Mr. Vargas is the state coordinator for the National Day of Prayer and the Governor's Prayer Team.

Mr. Vargas has served as chair of the Policy Advisory Board for Elder Affairs since September 2006, and has served on the recognition and awards committee and the legislative committee. Your Committee finds that his sincere regard for the needs of the elderly and their care givers and his experience in advocacy are assets to the Board. Therefore, your Committee recommends Mr. Vargas be confirmed for reappointment.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 1434 Health on Gov. Msg. No. 342

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF HEALTH

G.M. No. 342 PAULA A.Y. ARCENA, for a term to expire 6-30-2011

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Paula A.Y. Arcena to have the necessary qualifications to be nominated for a second term to the Board of Health.

Your Committee received testimony in support of Paula A.Y. Arcena's nomination from the Department of Health; Hawaii Association of Health Plans; two representatives of the Hawaii Health Systems Corporation; Hawaii Medical Association; Healthcare Association of Hawaii; and the Healthy Mothers, Healthy Babies Coalition of Hawai'i.

Your Committee finds that Ms. Arcena is the executive director of the Hawaii Medical Association. Prior to serving in that capacity, Ms. Arcena was the Director of Legislative and Government Affairs and the Hawaii Medical Political Action Committee of the Association. She has worked as a senior advisor to a Councilmember of the City and County of Honolulu; vice president of SMS Research and Consulting Services; Project Director of Community Resources, Inc.; and as a paralegal. She holds a Bachelor of Arts in American Culture from the University of Michigan. Ms. Arcena is a member of the board of directors of Mountain-Pacific Quality Health Foundation, Medical Underwriters of California, and the Aloha Society of Medical Society Executives. She is a member of the Patient Bill of Rights Task Force of the Department of Commerce and Consumer Affairs and of the American Association of Medical Society Executives.

Your Committee finds that Ms. Arcena's extensive knowledge of the Hawaii medical system and experience with developing policy positions relating to health care are a great asset to the Board of Health and she should be confirmed for reappointment for a second term.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 1435 Health on Gov. Msg. Nos. 346 and 347

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF DIRECTORS OF THE HAWAI'I HEALTH SYSTEMS CORPORATION

G.M. No. 346 ANDREW DON M.D., for a term to expire 6-30-2011; and

G.M. No. 347 ROSANNE C. HARRIGAN Ed.D., for a term to expire 6-30-2011;

Your Committee reviewed the resumes, and statements submitted by the nominees, and finds Andrew Don, M.D., and Rosanne C. Harrigan, Ed.D., to have the necessary qualifications to be nominated to the Board of Directors of the Hawai'i Health Systems Corporation (HHSC).

Your Committee received testimony in support of Andrew Don, M.D., from the Hawaii Health Systems Corporation and Hawaii Medical Association.

Dr. Don is a Maui resident and has been in private practice in Wailuku since 1973. As a sitting member on the HHSC Board of Directors, Dr. Don has proven himself to be a tremendous asset to the State in his Board governance role of the State's healthcare safety-net system. As a member of the HHSC Board of Directors, he has served to ensure the viability and sustainability of healthcare services provided by the twelve healthcare facilities throughout the five HHSC regions. He has been involved in public service capacities in the Maui community and is exceptionally committed to quality improvement activities for the healthcare safety-net system of facilities. His medical expertise, healthcare knowledge, and community compassion make him a valuable component to the Board of Directors of the Hawai'i Health Systems Corporation.

Your Committee received testimony in support of Roseanne C. Harrigan, Ed.D., from the Hawaii Health Systems Corporation and Hawaii Medical Association.

Dr. Harrigan, who is also a sitting member on the HHSC Board of Directors, is an outstanding nominee who has proven herself to be a tremendous asset to the State in her Board governance role of the State's healthcare safety-net system. Dr. Harrigan's extensive educational, clinical and healthcare management expertise will provide a visionary perspective and leadership that is needed for the HHSC Board of Directors. In her role as an HHSC Board member, she will contribute the highest level of professional expertise and commitment and help ensure that the most prudent governance and decision-making is made with regard to the State authorized system of community hospitals.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 1436 Ways and Means on H.B. No. 1902

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist public utilities that provide electricity.

This measure assists the utilities with capital improvement projects that are used to provide electrical energy that serves the public health, safety, and general welfare.

Comments in support of this measure were submitted by the Hawaiian Electric Company, the Maui Electric Company, Limited, and the Hawaii Electric Light Company, Inc.

Your Committee finds that proceeds from the sale of the special purpose revenue bonds will be used to finance multi-project capital improvement construction programs that will serve approximately ninety-five per cent of the State's population. Your Committee further finds that the construction of generating units on Oahu funded by the sale of bonds will also be capable of running on biofuel.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1902, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Chun Oakland, Menor).

SCRep. 1437 Ways and Means on H.B. No. 92

The purpose of this measure is to promote the fair application of the general excise tax by allowing securities professionals to pay the general excise tax only on their respective share of commissions divided among a number of persons.

Your Committee received written testimony in support of this measure from the Department of Taxation, the National Association of Insurance and Financial Advisors, Brookstreet Securities Corporation, Linsco/Private Ledger Corp., and one individual. The Tax Foundation of Hawaii submitted written comments on this measure.

Your Committee finds that where two or more securities professionals share compensation, each should be required to pay taxes only on their respective portions, rather than on the entire compensation. This measure would correct an inequity in current Hawaii tax law.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 92, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Chun Oakland, Menor).

SCRep. 1438 Ways and Means on H.B. No. 14

The purpose of this measure is to refine the Reinventing Education Act of 2004 with respect to the interdepartmental duties of the Departments of Budget and Finance and Education.

Your Committee received comments in support of this measure from the Department of Education and the Department of Budget and Finance.

Your Committee finds that the Interagency Working Group established under Act 51, Session Laws of Hawaii 2004, the "Reinventing Education Act of 2004", has recommended the repeal of the transfer of certain functions from the Department of Budget and Finance to the Department of Education specified in Act 51, as amended.

The Interagency Working Group recommended that certain fiscal functions should remain with the Department of Budget and Finance because the Departments of Education and Budget and Finance have improved interdepartmental fiscal processes and have also signed a memorandum of understanding that sets forth new procedures and requirements.

This measure adopts the recommendation of the Interagency Working Group and amends Act 51 accordingly.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 14, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1439 (Majority) Ways and Means on H.B. No. 13

The purpose of this measure is to create a revolving fund for the collection and distribution of generated revenue to support the administration and operation of the Department of Education's Food Distribution Program.

Specifically, the fund, which is limited to \$2,000,000, would generate revenues through the collection of administrative fees from recipient agencies for the distribution of federal commodity foods. This bill also makes an appropriation out of the fund of \$2,000,000 in fiscal year 2007-2008 and fiscal year 2008-2009 for the payment of services provided by state contracted warehouses for the distribution of federal commodity foods to recipient agencies under the Department of Education Food Distribution Program.

Comments in support of this measure were submitted by the Department of Education. The Department of Budget and Finance submitted comments in opposition to this measure.

Your Committee finds that commodity foods to be distributed by the Department of Education through the National School Lunch Program are stored in warehouses within the State. The Department of Education is prohibited from using federal funds for fees associated with state-contracted warehouses for the storage of these foods. Increasing costs associated with the warehouse charges have necessitated a means by which those costs may be paid separate from passing along the cost to the recipient agencies.

Accordingly, your Committee finds that the establishment of a revolving fund into which fees collected for, interest earned on, and other moneys associated with the Department of Education's Food Distribution Program may be deposited and utilized to allow the program to become self-sustaining.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 13, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, 1 (Hemmings). Excused, 1 (Whalen).

SCRep. 1440 Ways and Means on H.B. No. 429

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist Sacred Hearts Academy.

Specifically, the bill authorizes special purpose revenue bonds in a total amount not to exceed \$10,000,000 to assist Sacred Hearts Academy with financing construction and improvements of its facilities.

Sacred Hearts Academy submitted comments in support of the measure.

Your Committee finds that the issuance of special purpose revenue bonds will provide assistance to Sacred Hearts Academy to finance construction of various structures, including a performing arts building, and a modern multi-purpose student center.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 429, H.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1441 Ways and Means on H.B. No. 334

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist Sopogy, Inc.

The bonds, in the amount of \$10,000,000, will be used by Sopogy, Inc., to construct a solar farm power plant at the Natural Energy Laboratory of Hawaii Authority or other suitable site.

Your Committee received comments supporting the measure from the Department of Business, Economic Development and Tourism, the University of Hawaii's Hawaii Energy Policy Forum, and the Hawaii Renewable Energy Alliance.

Your Committee finds that Sopogy, Inc., specializes in the development, manufacture, and distribution of its proprietary concentrated solar power systems. The construction of a solar farm power plant by Sopogy, Inc. at the Natural Energy Laboratory of Hawaii Authority on the island of Hawaii, would demonstrate how electricity could be produced by using solar power systems.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 334, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1442 Ways and Means on H.B. No. 870

The purpose of this measure is to support the development of renewable, efficient energy systems in the State.

Specifically, the measure authorizes the issuance of special purpose revenue bonds in a total amount not to exceed \$20,000,000 to assist Honolulu Seawater Air Conditioning, LLC in the design and construction of a seawater air conditioning district cooling facility and chilled water distribution system in Honolulu using cold, deep seawater as the primary cooling source.

The Hawaii Energy Policy Forum of the University of Hawaii, the Hawaii Renewable Energy Alliance, the Hawaii Science & Technology Council, and Honolulu Seawater Air Conditioning, LLC submitted comments in support of this measure.

Your Committee finds that the development of a chilled water distribution system using seawater is not only economically feasible, but it would also offer operating, maintenance, financial, and environmental benefits. Using our virtually unlimited state waters as the primary cooling source, this measure would provide a significant milestone in developing renewable energy in the State and reducing our reliance on imported oil.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 870, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1443 Ways and Means on H.B. No. 899

The purpose of this measure is to finance a pilot project to develop ecologically-sustainable strategies to amend soil fertility for the production of clean energy feedstocks and food crops.

Your Committee received comments supporting the measure from Joule Junction, LLC and an individual. The University of Hawaii John A. Burns School of Medicine provided comments.

Your Committee finds that agricultural crop yields for use as food and clean energy feedstocks are strongly dependent on sufficient levels of available nutrients for plant uptake. Thus, a major determinant to a successful and sustainable agricultural venture in Hawaii is an adequate and sustainable fertilizer regime.

The use of biomass-derived charcoal as a tropical soil additive has been verified by modern science and used for agricultural purposes since ancient times. The production of biomass-derived charcoal for soil nutrient enhancement may satisfy community electrical needs while at the same time reduce carbon dioxide levels in the atmosphere. This process has the potential to not only assist in reducing Hawaii's dependence on petroleum-based products, but also decrease the need for fertilizer used in crop production. Comprehensive agricultural management strategies would not only lead to long-term economic stability of Hawaii's agrarian-based industries, but also reduce levels of contaminated sediments in statewide waterways and surrounding ocean waters, as well as reduce greenhouse gases and global warming.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 899, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1444 (Majority) Ways and Means on H.B. No. 506

The purpose of this measure is to minimize Hawaii's dependence on fossil fuels by extending the existing ethanol production facilities tax credit an additional five years to allow more market participants to construct qualifying facilities.

Your Committee received written testimony in support of this measure from the Department of Business, Economic Development, and Tourism; the Department of Taxation; and Alexander & Baldwin, Inc. The Tax Foundation of Hawaii submitted written comments on this measure.

Your Committee finds that this measure will encourage the continued development of alternative energy sources, and contribute to the State's goal of reducing dependence on expensive imported fuels.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 506, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, 1 (Hemmings). Excused, 2 (Chun Oakland, Menor).

SCRep. 1445 Ways and Means on H.B. No. 1411

The purpose of this measure is to amend Hawaii's income tax law to conform with changes to the Internal Revenue Code.

The Department of Taxation submitted written testimony in support of this measure. The Tax Foundation of Hawaii submitted written comments on the measure.

Your Committee finds that this annual conformity legislation is necessary to ensure that Hawaii tax law conforms with appropriate federal tax law.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1411, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kim, Whalen).

SCRep. 1446 (Majority) Ways and Means on H.B. No. 1414

The purpose of this measure is to authorize an emergency appropriation of \$4,500,000 for the costs incurred in administering the county surcharge on the state general excise tax.

The Department of Taxation submitted written testimony in support of this measure.

Your Committee finds that this emergency appropriation is necessary to address unbudgeted expenses incurred by the Department of Taxation in implementing the administration of the county surcharge provided under section 46-16.8, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1414, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, 1 (Hemmings). Excused, 1 (Whalen).

SCRep. 1447 Ways and Means on H.B. No. 831

The purpose of this measure is to fund costs associated with transporting the remains of Filipino World War II veterans to the Philippines for burial.

Specifically, this measure:

- (1) Appropriates moneys for a burial grant program that will pay directly to mortuaries and crematories the costs of funeral and burial services for deceased Filipino World War II veterans and costs for transporting their remains to the Philippines;
- (2) Requires payments to be made upon the submission of a contract for services and an itemized unpaid invoice;
- (3) Limits the total amount to be paid for funeral, burial, and transportation expenses to an unspecified sum; and
- (4) Limits eligibility for this program to Filipino World War II veterans who are not eligible for interment in a state or federal veterans cemetery under the Veterans Benefits and Health Care Improvement Act of 2000.

The Department of Defense submitted comments on this measure.

Your Committee finds that there are high costs associated with transporting Filipino World War II veterans to the Philippines for funeral and burial. Under current law, the survivor or interested party responsible for the funeral and transportation costs of a qualified veteran would be eligible to receive a burial grant from the Office of Veterans' Services to defray these costs. However, the responsible person must produce an itemized, paid invoice of the services rendered in order to receive reimbursement. Many families and friends of these veterans cannot afford to pay for these activities in advance. As a result, the bodies of some deceased Filipino World War II veterans cannot be properly buried until the deceased veteran's survivor or interested parties raise the necessary funds to pay the mortuary for funeral and other related services. Your Committee finds that this grant program would allow Filipino World War II veterans greater access to a program that would allow their families and friends to honor their wishes to be buried in the Philippines.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 831, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1448 Ways and Means on H.B. No. 1120

The purpose of this measure is to ensure access to dental health care by Hawaii's underserved population.

More specifically, this measure appropriates funds to establish or expand community-based dental health clinics operated by federally-qualified health care centers to serve this underserved population, which includes low-income persons, the uninsured, those living in rural areas who are

less likely to have access to dental care, and others who are at higher risk for poor oral health. This measure will also increase the capacity of community health care centers to train dental health personnel.

Comments in support of this measure were submitted by the State Council on Developmental Disabilities, the Disability and Communications Access Board, the Community Clinic of Maui, the Bay Clinic, Inc., the Hamakua Health Center, the Ho'ola Lahui, the Hawaii Primary Care Association, the Kalihi-Palama Health Center, the Lutheran Medical Center, the Molokai Ohana Health Care, Inc., the Waikiki Health Center, and the West Hawaii Community Health Center, Inc.

Your Committee finds that Hawaii has one of the worst rates of dental and oral diseases in the nation, with children in Hawaii between the ages of five to nine having tooth decay at more than double the national rate. Your Committee also finds that community health centers, particularly in rural areas, are a natural point of access for Hawaii's underserved to receive dental health care. This measure will increase the availability of dental care statewide for a population that is currently underserved.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1120, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1449 Ways and Means on H.B. No. 1368

The purpose of this measure is to allow the Office of Health Care Assurance to offset its operating costs and to ensure the provision of quality health care to residents of the State.

Specifically, this measure changes the name of the hospital and medical facilities special fund to the Office of Health Care Assurance special fund and allows the Office to use moneys in the special fund to offset its operating expenses, in addition to offsetting its educational program expenses. This measure also increases annual authorized expenditures from the special fund from \$230,000 to \$300,000. In addition, this measure directs various licensure fees and all administrative penalties to be deposited into the special fund. Fines collected for violations relating to adult residential care homes are to be deposited into the special fund rather than into the general fund.

No comments were submitted on this measure.

Your Committee finds that this measure will provide additional funding for the Office of Health Care Assurance to carry out its duties in lieu of annual budget requests.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1368, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1450 Ways and Means on H.B. No. 1007

The purpose of this measure is to assist households that receive low-income housing assistance to achieve homeownership.

The bill promotes this goal by exempting households' family self-sufficiency escrow accounts from asset tests used to determine eligibility for public benefit programs administered by the Department of Human Services.

Your Committee received comments in support of this measure from the Department of Human Services and the Hawaii Alliance for Community-Based Economic Development.

Your Committee finds that the requirement for the Department of Human Services to disregard moneys within an escrow account established under the family self-sufficiency program of the United States Department of Housing and Urban Development when determining eligibility for assistance or other benefits will assist low-income households with down payments on their own homes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1007, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1451 Ways and Means on H.B. No. 1364

The purpose of this measure is to broaden the eligibility standards for the state Rent Supplement Program.

Specifically, the measure:

- (1) Removes statutory limitations on rent subsidy amounts;
- (2) Increases program income participation limits from fifty per cent to ninety-five per cent of area median income; and
- (3) Allows certain individuals and families living in transitional shelters to be placed on the program's wait list.

Your Committee received comments in support of this measure from the Hawaii Public Housing Authority, the Hawaii Family Forum and Roman Catholic Church, and Partners in Care.

Your Committee finds that this measure will ensure that an estimated one hundred fifty households will become eligible for the state Rent Supplement Program. The measure will also provide assistance to "gap group" families, as well as keep those families already receiving assistance from being terminated because of increased incomes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1364, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Hooser, Menor).

SCRep. 1452 Ways and Means on H.B. No. 1400

The purpose of this measure is to allow the Correctional Industries Program of the Department of Public Safety to sell uniforms and uniform accessories to adult corrections officers employed by the State of Hawaii.

Your Committee finds that in accordance with the United Public Workers Unit 10 collective bargaining agreement, adult corrections officers are responsible for twenty-five per cent of the cost of replacing uniforms and uniform accessories issued by the State.

This measure will allow the Correctional Industries Program to collect payments for uniforms and uniform accessories directly from adult corrections officers.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1400, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1453 Ways and Means on H.B. No. 692

The purpose of this measure is to extend the authorization for the issuance of refunding special purpose revenue bonds and date of the lapsing of the special purpose revenue bonds issued to Aloun Farms.

Your Committee received comments in support of the measure from Aloun Farms.

Your Committee finds that Aloun Farms initially intended to use the special purpose revenue bonds to acquire land from the James Campbell Estate to build a processing facility for an agriculture educational farm tour program. Since the land acquisition did not materialize, Aloun Farms now intends to use the proceeds of the special purpose revenue bonds to secure a long-term headquarters and to build a state-of-the-art facility to process locally grown produce.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 692, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1454 Ways and Means on H.B. No. 1334

The purpose of this measure is to authorize the Department of Commerce and Consumer Affairs to increase or decrease the statutorily assessed fees of certain professions and occupations licensed or regulated by the Department in an expeditious manner.

Your Committee received comments in support of the measure from the Department of Commerce and Consumer Affairs and the Occupational Therapy Association of Hawaii.

Your Committee finds that the Department of Commerce and Consumer Affairs is authorized under section 92-28, Hawaii Revised Statutes (state service fees), to increase or decrease on an expedited basis, a variety of fees related to professional and vocational licensing and some other programs for the purpose of maintaining a reasonable relation between the revenues from the fees and the value of service provided. This measure adds approximately two-dozen programs to that list.

Your Committee finds that this measure will enable the Department to maintain a reasonable relation between the revenues derived from the fees and the cost of services rendered, comparability among fees imposed by the State, and other purposes deemed necessary and reasonable.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1334, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Chun Oakland, Menor).

SCRep. 1455 Ways and Means on H.B. No. 1014

The purpose of this measure is to promote the professional development of teachers.

Specifically, this bill appropriates funds to the Department of Education for professional development, alignment of curriculum, mentoring, and induction teacher mentoring that focuses on new teachers and teachers who are new to Hawaii.

No comments were submitted on this measure.

Your Committee finds that professional development for existing teachers, new teachers, and teachers new to Hawaii is a key component in creating a highly qualified and highly effective teaching pool in Hawaii.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1014, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1456 Ways and Means on H.B. No. 504

The purpose of this measure is to assist Le Jardin Academy in financing the construction of a new administrative building, new classrooms that will include science laboratories, a gymnasium, and an arts center.

Specifically, this measure authorizes the Department of Budget and Finance, with the approval of the Governor, to issue special purpose revenue bonds in the total amount not to exceed \$25,000,000, in one or more series, to assist Le Jardin Academy in the planning, acquisition, construction, and improvement of the new facilities.

Your Committee received comments in support of this measure from Le Jardin Academy.

Your Committee finds that pursuant to part VII, chapter 39A, Hawaii Revised Statutes, special purpose revenue bonds may be issued to assist not-for-profit private nonsectarian and sectarian elementary schools, secondary schools, colleges, and universities that serve the general public. This measure will allow Le Jardin Academy to finance the construction of several facilities that will enable the school to expand its programs and

increase the number of its students without relying entirely on the monetary contributions of the school's alumni, friends, and other supporters and to support the educational needs of the State's children.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 504, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1457 Ways and Means on H.B. No. 338

The purpose of this measure is to require the Employees' Retirement System to consider Hawaii venture capital investment opportunities whenever evaluating venture capital investments as appropriate vehicles in which to invest the funds of the system.

Furthermore, this measure appropriates funds to the Department of Business, Economic Development, and Tourism for a public-private university research commercialization partnership.

Your Committee received comments in support of the measure from the Department of Business, Economic Development, and Tourism, the President of Hawaii Strategic Development Corporation, NovaSol, Oceanit, Pipeline Communications and Technology, Inc., International Venture Fund, Global Brain, Inc., 3D Innovations, Hawaii Science and Technology Council, Telehealthconnections, and concerned citizens. Your Committee received comments from the Employees' Retirement System, Cardax Pharmaceuticals, Pacific LightNet, and several individuals. Comments in opposition were received from a concerned citizen.

Your Committee finds that the State's favorable economic climate presents a golden opportunity for the State to invest in its future. This future is based on human resources and innovation capacity as manifested in Hawaii venture capital investments in the commercial development of research efforts.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 338, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, 4 (Kim, Menor, Tokuda, Whalen).

SCRep. 1458 Ways and Means on H.B. No. 1361

The purpose of this measure is to make housekeeping amendments to chapter 356D, Hawaii Revised Statutes, relating to the Hawaii Public Housing Authority.

Your Committee received comments in support of this measure from the Hawaii Public Housing Authority and the Hawaii Community Development Authority.

Your Committee finds that on July 1, 2006, the Housing and Community Development Corporation of Hawaii under chapter 201G, Hawaii Revised Statutes, was divided into two agencies: the Hawaii Housing Finance and Development Corporation under chapter 201H, Hawaii Revised Statutes, and the Hawaii Public Housing Authority under chapter 356D, Hawaii Revised Statutes. Not all applicable provisions of chapter 201G, however, were codified in chapter 356D, as intended by the Legislature.

This measure corrects this oversight to provide the version of chapter 356D that was intended by the Legislature.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1361, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Menor).

SCRep. 1459 Ways and Means on H.B. No. 1907

The purpose of this measure is to authorize the issuance of special purpose revenue bonds for Craigside Retirement Residence.

Specifically, the bill assists the Craigside Retirement Residence with the construction of a senior housing community.

Your Committee received comments in support of the measure from the Hawaii Long Term Care Association.

Your Committee finds that the Craigside Retirement Residence constitutes a health care facility under part II, chapter 39A, Hawaii Revised Statutes, and the financing thereof is assistance to a health care facility.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1907, H.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1460 Ways and Means on H.B. No. 421

The purpose of this measure is to authorize the counties to make short-term investments of county moneys in A-1/P-1 rated commercial paper and bankers' acceptances.

Your Committee received comments in support of the measure from the Mayor of Maui County, a Maui County councilmember, and Central Pacific Bank.

Your Committee finds that this measure will broaden the range of opportunities available to the counties for short-term investment of available excess funds, and will afford the counties the same investment opportunities as that available to the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 421, H.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1461 Ways and Means on H.B. No. 1294

The purpose of this measure is to require the Board of Trustees of the Employer-Union Health Benefits Trust Fund to adjust the base monthly contribution for retiree health benefit plans in accordance with a change in the rate structure.

Specifically, this measure authorizes the Board of Trustees to change the rate structure to provide for other than self and family rates. However, the measure then requires the Board of Trustees to accordingly adjust the base monthly contributions to maintain the same underwriting cost as that incurred under the rate structure that provide for self and family rates.

Your Committee received comments in support of the measure from the Employer-Union Health Benefits Trust Fund and the Department of Budget and Finance.

Your Committee finds that this measure will accommodate the three tier rate structure that has recently been adopted by the Board of Trustees. The present rate structure in the law is comprised of two tiers, one for single rates and one for family rates. This measure will change the present law so that it will accommodate a third tier for two-party rates. Your Committee further finds that this measure will align employer and retiree contributions more closely with the size of a retiree's family, and is cost neutral.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1294, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1462 Ways and Means on H.B. No. 1287

The purpose of this measure is to repeal section 523A-3.5, Hawaii Revised Statutes, which requires that unclaimed property permanently escheat to the State after being held for a period of two to six years.

Your Committee received no comments on this measure.

Your Committee finds that section 523A-3.5, Hawaii Revised Statutes, was enacted in 1996. However, the law has never been enforced because, according to the Department of Budget and Finance, it conflicts with the State's Unclaimed Property Program. Under that program, the State serves as the custodian of unclaimed property in perpetuity, thereby allowing the rightful property owners to claim their property without time constraints.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1287, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Whalen).

SCRep. 1463 Ways and Means on H.B. No. 1353

The purpose of this measure is to increase opportunities for native Hawaiian beneficiaries of the Hawaiian Homes Commission Act, 1920, as amended.

More specifically, the measure:

- (1) Authorizes the transfer of moneys from the Hawaiian home receipts fund into the native Hawaiian rehabilitation fund;
- (2) Requires the Department of Hawaiian Home Lands to consult with trust beneficiaries in developing homestead projects and commercial and multipurpose projects and in connection with certain loan conditions that may result in lower allowable loan amounts; and
- (3) Establishes the Hawaiian home lands community development fund to be funded by a percentage of revenues from commercial development of Hawaiian home lands and to be expended for community and cultural programming in Hawaiian homestead communities.

The Office of Hawaiian Affairs submitted comments in support of this measure.

Your Committee recognizes that the state constitution requires thirty per cent of state receipts from sugarcane lands and water licenses to be deposited into the Native Hawaiian rehabilitation fund to improve the general welfare and conditions of native Hawaiians. Because of the decline in sugar production, revenues available for the Native Hawaiian rehabilitation fund have correspondingly declined. Your Committee finds that authorizing funds from the Hawaiian home receipts fund to be transferred into the Native Hawaiian rehabilitation fund will provide additional revenues to improve conditions for the beneficiaries of the Hawaiian Homes Commission Act. Similarly, the Hawaiian Home lands community development fund established by this measure provides another source of revenue available to provide community and cultural programming to benefit Hawaiian homestead communities.

Your Committee further finds that requiring the Department of Hawaiian Home Lands to consult with trust beneficiaries on certain undertakings will not only encourage native Hawaiians to engage in the development of Hawaiian homestead communities, including the commercial development of Hawaiian home lands, but also will provide an opportunity for their voices and opinions to be heard on a variety of issues central to their well-being.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1353, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Menor).

SCRep. 1464 Economic Development and Taxation on S.C.R. No. 65

The purpose of this measure is to honor John Papa ʻŪi, a leading citizen of the Hawaiian kingdom during the nineteenth century.

Testimony in support of this measure was received from one individual.

Your Committee finds that John Papa ʻŪi was trained from earliest childhood for a life of service to the high chiefs. He served as a companion and personal attendant to King Kamehameha II; as a general superintendent of Oahu schools and influential member in the court of Kamehameha

III; as a member of the Treasury Board, Privy Council, and the Board of Land Commissioners. John Papa ʻĪʻĪ represented the House of Nobles in the drafting of the Constitution, and he served from 1846 to 1864 as an Associate Justice of the Supreme Court of Hawaii.

Your Committee supports the recognition of John Papa ʻĪʻĪ for his many contributions to the government, culture and people of Hawaii.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 65 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1465 Economic Development and Taxation on S.R. No. 39

The purpose of this measure is to honor John Papa ʻĪʻĪ, a leading citizen of the Hawaiian kingdom during the nineteenth century.

Testimony in support of this measure was received from one individual.

Your Committee finds that John Papa ʻĪʻĪ was trained from earliest childhood for a life of service to the high chiefs. He served as a companion and personal attendant to King Kamehameha II; as a general superintendent of Oahu schools and influential member in the court of Kamehameha III; as a member of the Treasury Board, Privy Council, and the Board of Land Commissioners. John Papa ʻĪʻĪ represented the House of Nobles in the drafting of the Constitution, and he served from 1846 to 1864 as an Associate Justice of the Supreme Court of Hawaii.

Your Committee supports the recognition of John Papa ʻĪʻĪ for his many contributions to the government, culture and people of Hawaii.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 39 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1466 Tourism and Government Operations on S.C.R. No. 60

The purpose of this measure is to request the Hawaii Tourism Authority to encourage the use of the proper name of a popular destination – Mokoliʻi Islet and discourage the use and publication of the name “Chinaman’s Hat”.

Your Committee received testimony in support of this measure from the Hawaii Tourism Authority (HTA).

The name Mokoliʻi, on the other hand, comes from part of the Pele legend: After Pele traveled across the Islands and finally made her home on the Island of Hawaii, she still wandered in her dreams as a spirit. During one of these travels, she found a handsome prince, Lohiʻau, on Kauaʻi and wanted to meet him. She asked each of her sisters to go to Kauaʻi and bring him back, but they refused, foreseeing the dangers of the trip. Finally the youngest of the girls, Hiʻiaka, agreed. On Oʻahu, as Hiʻiaka followed the trail on the shore of Kaneʻohe Bay, she was confronted by a moʻo, a large dragon-like creature. Using her supernatural power, Hiʻiaka killed the moʻo, cut off his tail, and threw it into the ocean, where it became an island called Mokoliʻi, or “little dragon”.
