**THE
TWENTY-FOURTH LEGISLATURE
STATE OF HAWAI'I
REGULAR SESSION OF 2007
JOURNAL OF THE SENATE**

FIRST DAY

Wednesday, January 17, 2007

In accordance with the provisions of Section 10 of Article III of the Constitution of the State of Hawai'i, the Senate of the Twenty-Fourth Legislature of the State of Hawai'i, Regular Session of 2007, was called to order at 10:05 o'clock a.m., by the Honorable Lorraine R. Inouye, Temporary Chair of the Senate.

At this time, the members of the Senate and guests rose to sing the National Anthem and "Hawai'i Pono'i" led by Na Leo.

The Divine Blessing was then invoked by the Reverend Robert Nakata, Kahalu'u United Methodist Church.

Nominations now being in order for a temporary clerk, Senator Kim nominated Carol Taniguchi, seconded by Senator Chun Oakland.

Senator Baker moved that the nominations be closed, seconded by Senator Tokuda and carried.

The Chair declared Carol Taniguchi as Temporary Clerk of the Senate.

Senator Hee then moved that a committee of three Senators be appointed by the Chair as a Committee on Credentials to examine the certificates of election of the newly elected members of the Senate and to submit a report of its findings to the Senate, seconded by Senator Hooser and carried.

The Chair thereupon appointed Senators Baker, Ige and Whalen to serve on such committee.

At 10:14 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 10:16 o'clock a.m.

The Chair called upon Chief Justice Ronald T.Y. Moon of the Hawai‘i State Supreme Court to the rostrum to administer the oath of office to the newly elected members of the Senate.

Chief Justice Moon administered the oath of office to the newly elected members of the Senate who were standing at their respective desks.

The Roll was then called by the Temporary Clerk showing all Senators present.

Nominations for officers of the Senate being next in order, Senator Kokubun placed in nomination the name of Senator Colleen Hanabusa for President of the Senate, seconded by Senator Hee.

The ballot having been so cast, Senator Colleen Hanabusa was declared unanimously elected President of the Senate of the Twenty-Fourth Legislature of the State of Hawai‘i, Regular Session of 2007.

The Chair then appointed Senators Kim and Hemmings to escort the President to the rostrum and the President addressed the members of the Senate and guests as follows:

“Governor Lingle, Lt. Governor and Mrs. Aiona, Chief Justice Moon, Mayor Baptiste, Mayor and Mrs. Kim, Mayor Tavares, Former Governor and Mrs. Ariyoshi, Former Governor and Mrs. Waihee, Former Governor and Mrs. Cayetano, esteemed colleagues, honored guests, ladies and gentlemen:

“Aloha.

“I am honored – and humbled – to speak to you today.

“I stand before you, the fourth generation of a family who has benefited from the support of a community that has had so little . . . and shared so much. I speak to you about Waianae – our home, and a very special place to my family and me . . . a place whose name calls forth so many different images for each of you . . . a place that many of us, despite our community pride, were once ashamed to admit we were from . . . a place whose generosity and forgiveness has sometimes caused it to be taken advantage of . . . a place that in too many cases has become a dumping ground for much of this island.

“The Waianae that I love is a beautiful place with miles of beaches and deep blue sea, lined with my favorite tree – the kiawe, with its toughness and special beauty. And it is a place that I proudly say shaped who I am today.

“I mention Waianae because of what it represents – a community with its own unique character; a community of great heart, with a people who have come to appreciate what others have missed. To be from Waianae is to acknowledge our challenges, celebrate our strengths, and share our hopes. In those ways, Waianae is a reflection of our state – representing the challenges and contrasts that are now Hawai‘i . . . challenges, contrasts, hopes.

“Hawai‘i has seen phenomenal economic growth since the strain that came in the wake of 9-11. State revenues climbed over 45 percent from fiscal year 2002 to 2006. Hawai‘i’s growth for 2005 is said to be ninth in the nation. Our unions report that no one is on their benches because everyone who wants a job is working. Our state enjoys the lowest unemployment rate in the nation, at 2.3 percent.

“But for almost one in ten of our working population, the price of paradise is holding multiple jobs. The average national wage for 2005 was \$46,675. In Hawai‘i, it was \$36,355. Our average wage ranks 26th in the nation.

“Construction booms and we continue to add more houses to neighborhoods across our state, yet our homeless population has doubled since 1999. According to recent reports, the total number of homeless in Hawai‘i on any given day is probably over 6,000 individuals, including a growing, devastating number of children. Some reports show our rents doubling from 2001 until today. The number of hidden homeless – those staying with family or friends because they simply cannot afford a place to live – is estimated to be nearing 230,000. The population at risk of becoming homeless is nearly 190,000.

“Last week, a report was published based on data compiled two years ago, and this report awarded Hawai‘i the dubious distinction of ranking fourth in the nation as to percentage of population that is homeless. The Czar of Hawai‘i’s homeless project expressed surprise that we are not number one. If current 2007 data were used – shamefully – we certainly may be number one. And we know where the largest population of homeless is – they are on the Waianae Coast.

“And yet, on the Waianae Coast alone you will find five ‘birds of paradise’ – construction cranes, which represent about one billion dollars of economic impact.

“How is it possible with such economic growth that so many of us wonder if we will be able to pay our mortgages next month? How is it possible that with so much housing, so many are homeless?

“These are among the challenges of moving Hawai‘i forward in the 21st century. We want a vibrant economy, but we want to control growth. We want more housing, but we want to preserve our open space. We want to share this special place, but we want it to be first a place for our families.

“These contrasts mean that it is only when we can clearly understand what the people of this State want that we the elected officials, their representatives, can legislate for them now and into the future.

“We as a state have relied upon imports to sustain us. We have experienced the closure of large agricultural entities, representing not only the loss of jobs but of a lifestyle, an economic engine and a promise of open space.

“We felt the consumer’s displeasure with the gas cap law. I believe the consumers felt as they did because it punctuated our uncertainty and our helplessness in a dangerous dependence on

fossil fuels and the perceived control the oil companies have upon our lives.

“We always face the challenges of education. Each year more people believe that no matter what we as government do, we just miss the point. Too many remain convinced that we don't – can't – get it right.

“We in the Senate believe that to meet these challenges of the future, we must plan for it in a comprehensive manner. Our resources are finite, and once depleted are gone forever. Two years ago the Senate Majority adopted as our policy, the concept of Sustainability. In 2005, a law was passed that established the Sustainability Task Force of 2050.

“I know that many are saying, ‘This is just the politically correct word of the week. You lawmakers are going to do studies and come up with plans and charts and binders that you can put on a shelf and ignore.’ You think it is the same old shibai – that your representatives are going to be satisfied with a PowerPoint and a pat on the back.

“The truth is, if you, our constituents and the communities we represent, join us in collectively defining and creating a sustainable Hawai'i, we can, we will, we must make this happen. We must define what is sustainability! This has to be a collective effort on all of our parts. We must all participate. We are all responsible to achieve a Sustainable Hawai'i.

“As the Legislature:

- We must address issues of meeting our daily needs while eliminating our reliance on imports and fossil fuels. We can no longer avoid difficult discussions about energy and renewable resources.
- We must address land use and the obvious conflict between housing and agriculture and open spaces.
- We must address healthcare and how we provide and pay for it into the future. We must ask the difficult questions to understand how the crisis at Kahuku Hospital came to be; and more importantly, how do we provide essential life and safety services to our rural areas and Neighbor Islands. As Mayor Kim pointed out to me yesterday – there is a crisis on the Big Island. They desperately need more physicians.
- We must address a healthy economy. One that recognizes that our State's long-term survival lies with a diversified economy.
- Most importantly, we must address how we present a future that gives hope for those who identify with our working families, our middle class – and feel that we are losing the fight to close that divide between the haves and the have-nots.

“We as policy makers must build upon our State's obvious strengths.

- Hawai'i is blessed with a perfect climate and a tolerant, multi-cultural society that combine to make our lifestyle the envy of the world. We must protect this.
- Hawai'i is a natural for certain academic studies, such as astronomy, medical research and biotechnology. We must foster this.

“But we cannot be blind to our challenges.

- We are an isolated island state. Our economic opportunities are limited by geography. We cannot realistically expect to manufacture in the traditional sense.
- Our prime industry, tourism, depends on the preservation of our environment. We, as the current stewards of the islands have a moral obligation to protect the aina. More importantly, we must honor our host culture – which this industry relies upon – but we take for granted.
- We must ensure that the military and federal government, construction industry, and small business remain a vital part of our future.

“Our journey to a sustainable Hawai'i will be neither short nor simple. But there are actions that we can take immediately towards that end. We must concentrate on the children. For among our most important duties must be to define the Hawai'i that they would want to be a part of in 2050.

“Education is key, and to achieve excellence our students must want to learn. To meet our commitment to excellence, we must provide the physical and technological infrastructure to support education. Among the priorities for this Senate, you will find early childhood facilities, continued attention to the repair and maintenance of schools, climate control using alternative and preferably renewable energy. Tied to this is a measurement of accountability. To do this, we will make the measurement standards of No Child Left Behind relevant to Hawai'i and further empower the School Community Councils with increasing funding responsibilities and the authority to meet the unique needs of each school community. Senator Norman Sakamoto will lead this part of our journey.

“The health of our children is critical. The Senate will pass a bill to provide healthcare coverage for **all** children in Hawai'i. It will address family care giving, the ability of working people to build assets and reach economic stability.

“We will address our housing needs. To do so, we must recognize that housing has so many facets from homelessness, transitional housing and to that which is affordable. Senators Suzanne Chun Oakland and Brian Taniguchi will tackle this challenge.

“I learned an important lesson about 15 years ago. My niece, Nicole, who is sitting up there, was in Kindergarten and she first learned about recycling and how soda cans should not be thrown away. She drove her parents crazy because she monitored her family on soda cans. A five-year-old who would not let a soda can hit the rubbish can.

“The lesson was simple. We need to start with the children because they seem to comprehend issues of what is fundamentally correct a lot better than the rest of us. They do not gripe about what is convenient; they simply look upon it as what is right.

“The challenge to the Sustainability Task Force is to look to the youth to be our messengers and monitors. Challenge the utilities such as Hawaiian Electric and create programs that focus on challenging behavior, changing the behavior and rewarding the young for being responsible. Give incentives to schools when the students assist in conservation measures.

“Another challenge to the Task Force is to be bold and define our sustainable community in its ultimate form. We should look at what the military is doing and how their communities

must have 30 percent of their energy generated on site. They are planning to do this through solar and photovoltaic systems. Why aren't we? Why don't we say at least 50 percent? The time has come for us to look at land use planning as a tool for setting these kinds of criteria. We must reward the kinds of development that we believe serve our future. Make each community dispose of its own opala; have true affordable housing components; require water to be recycled and open space to be preserved. In exchange, a developer's time to process applications should be substantially reduced.

"Senator Russell Kokubun tells me he is up to leading us in this challenge.

"But the major factor of any child's future is just that: the promise of a future in this State – their State.

"I have had next to my computer screen for the past four years, the graduation picture of a young man named Nick Smith. He graduated from Waianae High School and his picture serves as a constant reminder that I must do all I can to complete my promise to him and others.

"Nick Smith, Sam Kapoi, Solomon Alfapada and Chad Brown – I call them my Searider kids. I watched them grow in that program and I am now awaiting their graduation this year from the Art Institute in Santa Monica, California in video and film production.

"The success of the Searider Productions at Waianae High School has far exceeded even my dreams. It teaches us that the proper combination of teachers, administration, raw talent, facilities, and, most importantly, a sense of hope and pride, creates students who can be the best, not only in this State but in the nation. Who would have thought that the kids from Waianae could win an Emmy for their work? Today, the high school students of Searider Productions are recognized as so accomplished that when they enter Olelo's Youth Exchange video competition, they must compete on the university level.

"I would like you to meet the face of Searider Productions. Yes, she has other teachers who work along side her, and we owe them all a deep and lasting gratitude. But she is the girl from Waianae who came home and put her heart and soul into helping these kids dream big dreams, and become the best they can be.

"She is Candy Suiso. Candy, please rise. (Ms. Suiso rose to be recognized.)

"Candy and I have talked about what is next. What do the Nick Smiths have as a future in Hawai'i? We decided that we really need one of them to be the next George Lucas and bring a whole media industry home to Hawai'i.

"Well, Hawai'i's answer to George Lucas has found Candy and the Seariders and he remains committed to them. He is Chris Lee, best known as the former head of Columbia-Tristar Pictures and Executive Producer of Superman Returns. Chris is not from Waianae, but he shares the same heart and wants to bring Superman Returns II and his other projects to Hawai'i. He reflects on how we have lost many opportunities, such as the production of the Steven Spielberg/Tom Hanks mini series, Band of Brothers. One reason is that while we have relied so much on the natural beauty of our islands, we have not benefited from the talent of our students. We need both to build this new industry.

"I would like to introduce Chris Lee. (Mr. Lee rose to be recognized.)

"In my discussions with Chris, it is evident that an education system that believes all students must go on to college is no longer relevant. We need to look at our students' unique talents and develop those job opportunities that will sustain them into the future.

"Chris has called upon us to embrace what he calls 'learning from Waianae' and look at what Candy Suiso has done with the Searider Productions program.

"His vision, and one that is shared by Senator Carol Fukunaga, Senator David Ige and myself, is that Hawai'i needs to position itself as a **Creative Media Digital Hub**.

"The Academy for Creative Media is established, and programs like Searider Productions have demonstrated the transformational power of multi-media literacy to engage our most at risk students. Hawai'i can provide the digital education center for the Pacific. But we need to find it a permanent home.

"In government, the same question follows every good idea: how do we pay for it? We will call upon the private sector to assist us, and we will count on an individual who has been there for the Seariders and the Waianae Coast. What many do not know is that when Searider Productions' media center first opened, Ko 'Olina Charities funded the purchase of all of their video equipment. It has continued as a big supporter through the Ko 'Olina Training Fund, providing scholarships for many of the graduates of the Leeward Coast, including the Searider Kids.

"I have asked Jeff Stone to permit us to redirect and reallocate the Ko 'Olina Aquarium Tax Credit to this end. What many are not aware of is that *not a penny* of the Tax Credit has been taken. This is because the true value of the Tax Credit was that when it became law, it made a statement to the world that Hawai'i was committed to supporting that region, the West side of O'ahu, to ensure its success. The controversy surrounding the tax credit put Ko 'Olina on the map. So much so that soon after its passage, Ihilani – its only hotel in Ko 'Olina at that time – its spa, its lagoons and its sunset were voted the best in Hawai'i. Ko 'Olina became a household word and the rest is history.

"Let us not forget that it was there to kick start and sustain the economy for the West side of O'ahu.

"This same impact can be made for this new industry or any other industry – one that will bring back the Nick Smiths and keep in Hawai'i the talents of the Chris Lees – and provide Candy Suiso and her fellow teachers the opportunity to say, there is a job for you after you graduate. Senator Carol Fukunaga will shepherd the permanent home for the Academy for Creative Media and the necessary infrastructure for this industry, along with projects to encourage the development and success of targeted industries based upon technology and sciences.

"I would like to see the tax credit redirected and continue to support the West side. However, it is up to this Legislature, along with the Governor, to make this decision.

"Still, there remains a part of the Ko 'Olina Tax Credit that I believed in, and that was the development of a training hotel that will allow Hawai'i to become known for its great managers. It would encourage hotels around the world to look to us for our skills – our natural skills in hospitality. This will help build the middle class. I could not imagine why Hawai'i does not lead the way in this industry for the world. After all, what people want is what is naturally here – the people and the generosity we all have gained from our host culture.

“Senator Donna Mercado Kim – whose advocacy for the tourism industry is unrivaled – will lead our efforts to define and redirect this tax credit.

“This is an exciting 24th Legislature for us in the Senate. We have heard the concerns of our constituents, and have the opportunity to provide the leadership that will address their most pressing questions. The questions are: Will my grandchildren grow up in Hawai‘i? What kind of Hawai‘i will they inherit? Would we recognize it?

“The Hawai‘i that we will work to preserve is one that our children can choose to live in, and not have to leave because of the lack of opportunities. We will be the Hawai‘i that they would want to raise their children in.

“It is a Hawai‘i which is built on respect . . . one that balances our diverse interests . . . one that acknowledges that only with respect for the people, the land and the environment will we have balance.

“Sustainability is not just another buzz word for this Legislature. We ask you to dare us. Challenge us. Hold us to our commitment. And then join us. Share your stories, your hopes and your energies. Together, we will make sustainability a reality, and not just the political word of the week.

“Together, we will sustain our children by providing the health care they need. We will sustain our students by providing the quality education that is their future and ours. We will sustain our families by providing safe, affordable places to live. We will sustain our economy, and our environment, and our tomorrows.

“This is our place – our Hawai‘i, our home, our very soul. This is our promise – a promise to our people and our state. A promise for generations to come, who will look back at our time and say, what we have is because of what they did for us.

“Mahalo and Aloha.”

Senator Hemmings, Minority Leader of the Senate, then responded as follows:

“Before we start, how about Tadd Fujikawa – do we have something to be proud of here in Hawai‘i. I hope we can all put smiles on our faces, because the convening of this Legislature means we control our destiny. We’re living in a free country where the future is ours to make.

“Madam President, you’ve outlined some of our challenges.

“I’d like to say greetings to Governor Lingle, Lieutenant Governor and Mrs. Aiona, members of the Judicial Branch of government, Hawai‘i’s distinguished Mayors, leaders of the Office of Hawaiian Affairs, distinguished guests, Madame President, colleagues, and the people who are making all of this possible – the people for whom we work – the citizens of Hawai‘i:

“Aloha.

“As we convene this 24th Legislature, the reality is that many of our current challenges are generations old. The good Governor George Ariyoshi in his state of the State speech in 1979 stated that there is a great need to ‘improve our economic climate in Hawai‘i.’

“In his opening day speech on January 21, 1987, Senator Dicky Wong said that he fully expected a lot of devotion to be

directed to ‘the concerns of business and the improvement of Hawai‘i’s business climate.’ He went on and stated ‘upgrading our educational system is a major priority.’ That was 1987. Our response to the daunting tasks before us cannot and must not be ‘business as usual.’

“In November of 2006, the people of the State of Hawai‘i gave Governor Lingle, her cabinet and administration a historic and unprecedented mandate. This Session, we will be performing our constitutional duty of advise and consent concerning her nominees to the cabinet. This Honorable Body must provide advise and consent based on merit and performance – NOT politics and personalities. With that in mind, I am sure the Governor’s nominees will receive the blessing of this Senate.

“Senate Republicans believe we should focus this Session on three initiatives – the Family, the Economy, and the Environment.

“The foundation of great societies has never resided in its armies, interest groups, government, business institutions. The foundation of healthy and vibrant nations exists within families.

“We have created a package of legislation that will care for our aging seniors and the most vulnerable amongst us – the sick, the poor and the hungry – thereby strengthening Hawai‘i’s families. For the convenience of the word du jour, we are not abandoning our quest to eliminate the regressive tax on food and medical care. It’s still needed.

“We believe that the projected tax surplus is just that – it’s a surplus. We are calling for a substantial rebate of the tax surplus to be distributed to each man, woman, and child in the state; not the token \$1. Price gouging at the gas pump by government must cease. That is why we are joining the Governor in calling for a continued waiver of the excise tax on gasoline. This would reduce gas costs a projected 11 cents a gallon, immediately.

“Continued commitment to community safety and protecting our families from the criminal element is most important. To the credit of the Legislature and under the Judiciary Committee leadership of you, Madam President, we passed legislation that will put three-time violent offenders in prison. It’s no secret that consequences, in the form of mandatory penalties, deter crime. We would like to continue our commitment to community safety by establishing mandatory minimum sentences for crimes committed against children and families.

“Government does not make a good parent. The reinstatement of parental rights and responsibilities is crucial to a healthy state. Incredibly, in Hawai‘i, if a mother is assaulted, a much loved and anticipated unborn child can be battered and even murdered without consequence. We will introduce legislation to correct this injustice and provide safeguards for the abused and those at risk in our society. These bills will surely strengthen families.

“We believe that charter schools are part of the success story the state so desperately needs in the realm of education. With that in mind, we are providing legislation that will create a charter school for autistic children. This will be beneficial to families with autistic children and more cost-effective for the public education system.

“I harkened back to our predecessors’ efforts to diversify our economy. The sad business headline of the January 9th *Honolulu Advertiser* stated that a Hawai‘i based business had decided to open a \$220 million polysilicon production plant in Idaho. We must eliminate state government induced red tape,

time, money, and taxes that year in and year out chase business and our youngest and brightest away from our Hawai'i.

"We have drafted legislation that will create maritime and space launch and technology enterprise zones. These enterprise zones will provide for streamlined permitting and tax credits for revenue-producing businesses. It's no secret that our island state has less recreational mooring space than most other states in the nation, incredibly, including those states that are landlocked.

"The southeast flank of the Big Island remains the most ideal place in the world for equatorial and polar launches. The Big Island should be our planet's gateway to the stars.

"Though space industries were proposed years ago, the will and leadership were lacking at the time to make it happen. Maritime and space industries are opportunities that are long overdue. Madam President, I think we have the will and the leadership to make it happen now. Let's make our small boat harbors vibrant and launch Hawai'i into the 21st century with space industries.

"Government owned and/or sanctioned monopolies have created havoc in our economy. At the national level, the monopolistic Social Security System is a prime example of spending more and receiving less, or maybe not even receiving anything at all from a government program. Social Security would be called a Ponzi Scheme if operated by the private sector.

"Here in Hawai'i we have similar monopolies that are problematic, such as the approximate two-and-a-half billion dollar Department of Education monopoly of our tax dollars. This year we have a chance to eliminate a process that protects another state monopoly. As we have done for years, the Senate Republicans will support legislation to eliminate the conflict of interest Certificate of Need process for medical care and hospitals.

"My family – my beautiful wife, Lydia, and my children and grandchildren – paddled canoes out to the Mokuluas off Lanikai on Christmas day. From the small beach, we looked across the tranquil ocean at O'ahu. Once again, we were reminded of our true blessings – our natural resources and the beauty of these islands we call Hawai'i.

"This past year I was proud to work with Governor Lingle and President Bush in creating the world's largest marine sanctuary. The President designated the Northwest Hawaiian Island Archipelago as a National Monument. Long term management and protection of our state resources in Hawai'i must start now.

"The ancient Hawaiians in their wisdom did not view the ocean as an alien environment. This could be the reason why they were wise enough to recognize ocean waves not as a threat or peril, but as a source of pleasure. How smart they were to be the first to surf – ride waves for pleasure. They also extended their ahupua'a system of land use to the furthest reaches of their near-shore ocean.

"For years now, we have been struggling with legislation to address user conflicts and commercial exploitation of our ocean resources in a piecemeal manner. It is time to implement legislation to institute a state ocean commission to zone all state waters and preempt the problems of the future. For the record, this will not preempt county home rule as the ocean waters are all within state jurisdiction.

"There is a growing concern in the resident community in Hawai'i about the carrying capacity of our vibrant tourist industry. Recent polls indicated that approximately 80 percent of our citizens agree that 7.5 million tourists a year are enough. Problems range from user conflicts in our natural areas to excessive property tax increases in residential neighborhoods due to illegal transient accommodations. These things cause much consternation and concern with our neighbors and friends.

"We are introducing legislation that will stabilize the number of visitor accommodations from hotel rooms to bed and breakfast operations statewide. Each visitor accommodation will have to have a license with a finite number of licenses being issued.

"Because of the laws of supply and demand, this will be, believe it or not, a win-win for everybody. A stabilized number of rooms will become more economically productive for the industry. Stabilizing the number of visitors in the state at any given time will be beneficial to our lifestyles and help conserve our natural resources.

"Energy independence is so important economically, environmentally and geopolitically. Last Session's energy package was a good starting point. Now we have a tough decision to make. Do we build an ethanol-based economy which would be labor, land and environmentally intensive? Most visionaries see the world's ground transportation in the future being propelled by hydrogen.

"Senate Republicans want to expedite Hawai'i into a hydrogen economy. The private sector is producing hydrogen cars but the only service station currently available in Hawai'i is located on a military base. We propose legislation to create at least four public service stations the will service hydrogen vehicles. There is no doubt that Hawai'i's abundant renewable energies, such as wind, solar, ocean and geothermal, can be utilized to produce hydrogen in an environmentally friendly economy. The reason I am so sure about this concept is because hydrogen is already being effectively utilized in Iceland.

"It is my prayer that some day 20, 30 or more years from now, future leaders are not once again calling for energy independence, a diversified economy, better education and all the other solutions that should have been instituted long ago. I would suggest that leadership includes the courage to be bold, possess the wisdom to be innovative, and has the vision to lead. It is our hope, your Senate Republicans, Madam President, that this Senate does not surrender our future to 'business as usual' or the loudest protestor. I know this Senate can seize the day. The future is ours to make.

"Thank you."

"I'd like to really commend everyone who was involved in helping to prepare in getting this manual together so we can adopt it on the Floor this morning. I think that this is monumental. The fact is that I don't think the Senate has ever had an administrative manual in the past.

"I certainly want to thank the good Senator from Pearl City and the good Senator from Palolo. Together we worked on the manual. We want to thank the Clerk's Office, the SMA Office for working with us in putting this together, and of course our Leadership and your leadership, Madam President, in putting all of this together.

"Hopefully, this document will put more transparency in how we do things. It will give assurances to each member and to our staffs as to what are the responsibilities and what are the benefits that we get as Senator and as staff of this Body.

"So members, I hope all of you will vote in support of this measure. Thank you."

The Speaker then presented to the members of the Twenty-Fourth Legislature and guests the Honorable Linda Lingle, Governor of the State of Hawaii.

The Honorable Linda Lingle, Governor of the State of Hawaii, addressed the Legislature assembled in Joint Session as follows:

"Madam President, Mr. Speaker, Lt. Governor and Mrs. Aiona, Members of the Legislature, Chief Justice Moon and members of the State Supreme Court, Chair Apoliona, Cabinet members, mayors, military leaders, members of the Counselor Corps, distinguished guests, and to all the people of Hawaii, good morning and aloha.

"It is a great honor to address once again, a joint gathering of the State House and Senate, as well as all the people of Hawaii, to share with you my honest assessment of where we stand, paint a vision for the future, and outline the steps I think we should take to get there.

"It is important for us to have a concrete understanding of where we want to go. Without this common vision, it will be too easy to get off track and stumble on our pathway to the future. I believe there is a broad public consensus about where we should be heading and I believe this consensus has grown stronger over time.

"We all want a higher standard of living for ourselves and our children, and we want to preserve everything that makes Hawaii unique, especially our cultural and natural resources, and our sense of ohana.

"We want Hawaii's young people to have first-rate educational opportunities. We want affordable housing, state-of-the-art healthcare that is accessible to all, and good paying jobs. But we still want to be able to go fishing at the pier or catch a wave after work, and want the time to talk story with our families and friends.

"To achieve this vision, we have to change our economy from one based on land development, to one fueled by innovation

and new ideas generated by our universities and a highly-trained work force.

“Some think it is unrealistic to change our decades-long reliance on land development as the foundation of our economy. Some think it is easier to keep doing what we have been doing. They think it is too hard to change. But hard or not, change will happen.

“The question for us to answer is, ‘Will we just let change happen to us in the coming years, or will we create the change we want to see, so that future generations are able to live a good life in Hawaii?’

“One of my guests today is part of that next generation. He captured our imagination here at home and around the world just days ago when he made the cut and then went on to finish tied for 20th among the pros at the Sony Open. Please say hello to Tadd Fujikawa, his parents Lori and Doug, and his grandparents and his great grandma. (The Fujikawa family rose to be recognized.)

“The fundamental change in our economy I have been describing will require the Legislature, my Administration, the county governments, our schools and universities, businesses and others to share this vision and to work together to make it happen.

“Our \$732 million budget surplus can enable us to dramatically reshape our destiny if we make wise choices. Over the last 15 years, the world has been profoundly changed by the development of the internet and other technologies that make it easier for people to communicate with each other and to shift capital around the world.

“People from different countries can work together on the same project in real time. An engineer in India collaborating with a software programmer in California and a banker in China. A person dressed in shorts and slippers can shake the political world with a blog that he writes from his *lanai*.

“States used to be economically strong because it had access to natural resources or sat at the crossroads of railroads, rivers, or other lanes of commerce. Those things will still be important in the coming years, but there are rapidly being eclipsed by the significance of human potential.

“The reality is that the future economic fortunes of our State will be determined by the capabilities and creativity of our people, and by their ability to work and communicate effectively with others around the world.

“No one is better suited than the citizens of Hawaii to work with people from diverse backgrounds in a global economy that will be focused on the Asia-Pacific Region. This is our arena and this is our era.

“But we can’t wait for the world to come to us. We must seize the moment or it will pass us by. Before outlining the four principles I believe we must follow in order to achieve success in the global information based economy, let me first offer my definition of success. Simply put, success means producing a constantly rising standard of living for all Hawaii’s people by using fewer natural resources, including land, and, to do this, while preserving those aspects of life that make our island home so special.

“The four principles that should underlie our future efforts and decisions are simple, but not easy to achieve. If followed, I believe it will lead to a long-term success.

“First, we need to insure that our workforce has the skills and knowledge required to compete effectively in the 21st century.

“Second, we must create an environment in which innovation, entrepreneurship, and risk taking are encouraged, nurtured and rewarded.

“Third, we need to enable all our citizens, regardless of their economic circumstances, to be fully involved in the digital revelation that is sweeping the world.

“Fourth, we must insure that the basic needs of our citizens, including housing and healthcare are met, and that our cultural and natural resources are protected and enhanced.

“First among the principles, is providing the education and training our citizens need to compete with the best and the brightest from around the world, because that is, above all, what it will take for us to succeed. Educator, Mary Jean LeTendre said it best when she observed, ‘America’s future walks through the front door of our schools everyday.’ I would borrow her quote and add to it, ‘Hawaii’s future walks through the front doors of our schools and universities each day.’

“Our workforce development plan emphasizes the teaching of science, technology, engineering and math skills. These skills are known collectively as STEM.

“I recently returned from New Hampshire where I participated in the annual kick-off for an extra-curricular teenage robotics program that teaches STEM skills known as the first robotics competition. I spent three days there as a guest of FIRST founder and one of America’s most imaginative and best-known inventors, Dean Kamen, who last year was inducted into the National Inventors Hall of Fame.

“Dean is a passionate advocate for teaching America’s students STEM skills through first robotic competitions that combine the excitement of sports with science and technology to create what he calls a unique varsity sport for the mind. Hawaii currently has four FIRST Robotics teams – Waiakea, Punahou, McKinley, and Waialua High Schools.

“Some of the FIRST students are with us today. Please welcome students from McKinley High School and their teacher, Osa Tui, and FIRST Waialua High School students and their teacher, Glenn Lee. (The students and teachers rose to be recognized.)

“During my visit to New Hampshire, FIRST’s lead sponsor, NASA, committed \$1,000,000 over the next three years to fund up to 20 Hawaii Robotics teams, as well as a regional competition next March here in Honolulu.

“The students you just recognized, their teachers and the entire Hawaii robotics community are very excited about the regional competition. We are grateful for their participation and leadership to bring this important opportunity to other students all across the State.

“NASA Program Executive for Solar System Exploration, Dave Lavery, explained NASA’s support for FIRST this way: He said, ‘On an individual, personal level, FIRST is having a real impact on the lives of these students and helping them realize what they are capable of. On a national level, we are creating new engineers who will drive the entire future economic engine of the country.’

“Well, I believe whether or not students become engineers or scientists, mastering STEM skills will equip them to contribute

in significant ways to a sustainable economy based on innovation.

“Earlier this month, I unveiled a series of specific actions we can take together to make this vision a reality. They include:

Providing students in grades 6-9 with enhanced opportunities to develop STEM skills through hands-on, project-based learning.

Establishing high school STEM academies taught with the help of University of Hawaii community college instructors where students will earn both high school and college credits.

“And for students who successfully complete the STEM curriculum, I am proposing we fund undergraduate scholarships at the University of Hawaii or any other local college or technical school of their choice.

“Whether students study STEM subjects or other fields of study, we need to increase the incentives for parents to save for their children’s education. I am proposing that we expand the current State sponsored college savings account plan so that parents can reduce their taxable income by \$20,000 per year and use that money to pay for tuition at any Hawaii college, university or technical school.

“Those parts of the world that are thriving in the global economy have several common characteristics, including being anchored by strong universities that produce graduates who excel in science, engineering, and math.

“These universities attract talented people who develop new ideas which can be commercially developed in the surrounding community creating the high-paying jobs that we all seek.

“We already have a higher education anchor here in the University of Hawaii, but its potential for driving the economy has barely been tapped. I am proposing that we revamp the way the University transforms research ideas into viable businesses, and I am proposing that we provide funding that, if matched by the private sector, will support three new endowed professorships at UH in STEM disciplines.

“But higher education alone is no longer sufficient to guarantee a prosperous future. In today’s world, education cannot stop when someone graduates from school. The rapid pace of changing technology in all fields requires companies and their employees to seek frequent upgrade training in order to keep up.

“I am proposing a program for portable, ‘Life Long Learning Accounts’ to enable employees to set aside pre-tax dollars matched by tax-free employer contributions to pay for skills training and education programs.

“Additionally, I believe it is time to recognize that workforce development fundamentally is part of economic development and should be located in the Department of Business and Economic Development rather than in the Department of Labor.

“The second principle is that innovation, entrepreneurship and risk taking need to be encouraged, nurtured, and rewarded.

“Innovation and risk taking are part of our cultural DNA. The Polynesian voyagers were among the foremost innovators and risk takers of their time, from developing and implementing new transportation technologies to their use of the stars as navigation devices.

“The immigrants who arrived later were also risk-takers, and they too had to innovate to get ahead in life.

“It is not enough for us to encourage today’s citizens and businesses to innovate and think big ideas – we in government have to be willing to do the same. In that spirit, I am following up on Speaker Say’s proposal from last year and proposing to establish a \$100 million Hawaii Innovation Fund.

“I am proposing that the State Employee’s Retirement System invest \$100 million in this professionally managed Fund to finance promising high technology and creative industry companies as an affirmation of our belief in Hawaii’s innovative capabilities.

“Too often in recent years, we have seen small high-tech companies reach the edge of profitability only to move elsewhere when they cannot get the funding they need to grow.

“The ERS at \$10.5 billion is the State’s largest institutional investor and can play a major role in spurring new companies that create high paying jobs here at home, while earning good returns for its beneficiaries. These newly created companies, including those focused on life sciences, will need quality incubator facilities, including wet lab space in order to succeed. We are proposing to meet this need by partnering with Kamehameha Schools which is planning to build the Asia-Pacific Research Center near the Medical School in Kakaako. The State’s High Technology Development Corporation would become the Center’s master lessee.

“Another way we can spur new industries, including renewable energy research and development, is for the State to purchase the 500-acre land holding that the Navy is on the verge of selling in Kalaehoa. After reviewing the land use and ownership patterns on Oahu, we have identified Kalaehoa as the best place to achieve positive economic growth for the Leeward Coast, while repositioning our economy to one based on innovation. When ownership of this land is coupled with HCDA’s zoning authority, opportunities for workforce housing, innovative technologies and job creation, and other government initiatives can be more readily pursued.

“My staff has had some discussions with the Navy about this proposal and I have had conversations with senior Navy officials, as well. I have also had a brief conversation with U.S. Senator Daniel Inouye about this proposal, and a follow-up conversation with his senior staff about how the Senator can help us achieve our vision for a new economic future for West Oahu. I have been encouraged by these initial conversations and will be talking further with both the Senator and the Navy in the days and weeks ahead.

“Two other ‘Big Idea’ innovations I want to discuss with you today are a ‘Digital Media Center’ and ‘MELE,’ which stands for Music Enterprise Learning Experience.

“As you know, we have spent millions of tax dollars building and renovating the Diamond Head Studio, granting tax credits for both film and television productions, and funding the Academy of Creative Media Program at UH. After all that spending, we remain pretty much just a back-lot for Hollywood and other media industry centers.

“Hawaii’s film and television productions, as well as interactive game development and digital design, are all exciting growth industry areas that could flourish here with the development of local incubator facility that provides a cohesive and integrated site with digital media infrastructure.

"In addition to providing a collaborative learning environment for students, faculty, and professionals, this facility will serve as an incubator for digital media businesses and a research and development lab for the creation of intellectual property.

"I think one of the most exciting pieces of our Innovation Initiative is MELE, a partnership with Honolulu Community College to build a training program and facility for the development of Hawaii's music industry. While Hawaii has an unusually high concentration of raw musical talent, we have never fully developed a broad support infrastructure needed to create an industry.

"HCC is developing a partnership with Nashville's Belmont University, one of the premier music and entertainment education programs in the nation. HCC proposes that MELE be developed around three strands – artistic creativity, entertainment business expertise, and technical production skills. Belmont University will help jump-start the process by collaborating on joint use of their curriculum, technical facility and equipment specifications, training of local faculty, and dual credit for course offerings in Hawaii.

"HCC students will be able to pursue their bachelor's and master's degrees at Belmont University in Nashville, with internships there, as well as in Los Angeles and New York. This development model is based on 40 years of industry experience in Nashville, a music center that has created a \$5 billion industry in country music. Nashville's success is based on having both a distinctive music and a unique culture. Hawaii possesses its own distinctive music and one of the world's most unique cultures.

"For a modest \$2.7 million investment, Honolulu Community College would be on its way to creating a true music industry for Hawaii that could also become a production magnet for the growing music industry throughout Asia.

"The third principle we need to adopt is the notion that it is important for all of our citizens to be able to take full advantage of the benefits offered by the digital revolution.

"Pulitzer Prize winning author, Thomas Friedman, in his most recent book, *The World Is Flat*, notes that the internet has leveled the global economic playing field. As a result, opportunities that were once available only to a select few, are available now to anyone, anywhere, with the access to participate in this new borderless society.

"While high-speed broadband access is not the kind of infrastructure we're used to planning for, and connectivity isn't as necessary as food, shelter, clothing, or health care, it is absolutely critical that all the people in Hawaii have affordable internet access in order to participate fully in the 21st century global economy.

"High-speed internet access should not be restricted to those who can afford an expensive broadband connection, nor should out citizens or visitors have to be tethered to a desk in order to communicate across the globe. Municipalities across the country are moving to establish wireless internet access, and the City and County of Honolulu has announced a pilot project in Chinatown.

"We need a coordinated approach to ensure that digital democracy becomes a reality in Hawaii, because those without connectivity are falling further and further behind in this new, inter-connected world. My Administration will work with the counties and the private sector to establish affordable, wireless internet access everywhere it is feasible by 2010.

"We will begin by establishing wireless service at public libraries across the State, followed by other State buildings, most notably schools. If we succeed, Hawaii students will be able to digitally access the best physics instructor in the nation, or watch an art lesson by a renowned painter anywhere in the world.

"These are ambitious goals, and achieving them will require focus and commitment at the highest levels of State government. That is why I am proposing the creation of a Chief Information Technology Officer position to guide this effort.

"The fourth principle recognizes that giving citizens the tools they need to compete in the 21st century economy, increasing their STEM skills, and achieving economic success, will be a fool's choice if we lose the Hawaii that we all cherish. Nor will we have succeeded if our citizens' most fundamental needs are unmet and the cost of living rises to a level that forces them to leave Hawaii.

"The recent shame we felt reading about our homeless problem on the front page of the *Wall Street Journal* and in the *New York Times* is an uncomfortable reminder that we can't take our eye off the ball in our efforts to help thousands of our fellow citizens regain their self-sufficiency. I want to thank the members of the Legislature for supporting my issuance of an emergency proclamation last year that allowed us to move quickly to address this crisis, and for your ongoing financial support of these efforts.

"I also want to thank the many community organizations, churches, temples, businesses, government agencies and individuals for being such an important part of the solution. And I want to give special recognition to my Chief of Staff Bob Awana, Comptroller Russ Saito, and Executive Assistant to the Chairman of the Hawaiian Homes Commission, Kaulana Park for working well outside of their job descriptions on this multi-faceted challenge.

"Together we have made a lot of progress addressing the homeless situation over the last few months. We've opened and emergency shelter in Kakaako, another in Waipahu, and a transitional shelter in Kalaeloa during the past few months. And our largest transitional housing project to date is set to open across from the Waianae Civic Center by the end of next month.

"But successfully opening emergency and transitional housing alone will not solve the housing problem. To do this, we must generate many more affordable rental and for-sale housing projects. I am calling for an immediate deposit of \$50 million in cash into the Rental Housing Trust Fund, \$50 million for the Dwelling Unit Revolving Fund, and another \$50 million to repair and renovate public housing projects across the State. This money, when leveraged with private funds can result in the development of thousands of additional affordable rental units, as well as, for-sale units.

"Finally, we can attack the problem by funding infrastructure that will open up lands for affordable housing that otherwise would have remained unused. One such opportunity exists in Kona, where for an expenditure of \$14.4 million dollars to develop a water system, we can create a true partnership between the State's Housing Finance and Development Corporation and the Department of Hawaiian Home Lands to build over 2,600 more affordable homes and rental units.

"These are bold steps, and represent a significant commitment of our State's resources. But they are steps that we must take if we wish to erase the stain of homelessness from our

community and ensure that the American dream of home ownership remains alive for our families.

“Housing is a fundamental need of all our citizens. Another is affordable, high-quality and accessible health care.

“We were recently rated the fourth healthiest state in the nation. And while that is a great distinction, the paradox is that our own health care system is itself in nearly critical condition. The signs are all around us from the decision of Kahuku Hospital to close its doors, to a lack of emergency room physicians at our major trauma center, to a lack of certain specialists, especially on the neighbor islands.

“This problem is most about the bottom line. High costs and low reimbursements are driving hospitals out of business and physicians out of the practice of medicine. We must act now or there might not be an emergency room physician or other medical specialists available when our loved ones need them most.

“I am offering several specific health care proposals. First, I am renewing the call for sensible medical malpractice reform based on the California model. This proposal ensures that plaintiffs can recover for their actual damages, while putting reasonable limits on so-called non-economic damages. This bill has previously been stalled in Committee, while more hospitals threaten to close, and more doctors leave. We can’t afford to wait any longer. We must not let anyone hold up this bill.

“I am asking you to make reasonable medical malpractice reform a priority this Session.

“Second, we must revamp the Certificate of Need process, which is used to determine whether a hospital or other medical facility can be built. Just last year, this process resulted in the denial of a request to build a privately-funded state-of-the-art hospital on Maui, a facility that was supported by the majority of Maui citizens. We must revise this process so that local communities have the final say in determining which new medical facilities and services to support on their islands.

“And let us join together with our Congressional delegation to work at the national level to increase Medicare rates, the basis for most payments to doctors and hospitals.

“I am also proposing that we pass a ‘Good Samaritan’ law that exempts from lawsuits those doctors who provide medical treatment without compensation except in cases of gross negligence.

“I also ask you to reinstate the Insurance Commissioner’s authority to disapprove rates that are excessive, inadequate or unfairly discriminatory. This is the same authority he has to review rates for other lines of insurance.

“Finally, we need to make sure that health insurance is affordable by eliminating tax barriers that have kept competition out of the marketplace and by enabling sole proprietors to obtain the same rates as larger companies.

“A lack of nurses is another health care system deficiency that needs to be addressed. We are requesting more funding for the University of Hawaii School of Nursing to increase the number of graduates. And we want to create a nursing specialty in geriatrics to prepare for our increasing aging population.

“Many of these initiatives for housing and healthcare focus on affordability, ensuring that our citizens can afford to live in Hawaii. The most direct and immediate way government can address affordability, is by lowering the tax burden on its

citizens. I am proposing a substantial, but prudent, \$346 million tax relief package. Passage of this package will show people all across the State that the Legislature really does understand the struggle they face to meet day-to-day expenses, while at the same time saving for their child’s education and their own retirement.

“Because the State Constitution requires us to give all taxpayers a refund this year, I have left enough room in my budget for a \$100 per person tax refund for those filers with less than \$100,000 in income and \$25 per person for the small minority of residents whose income exceeds \$100,000. Besides a one-time refund, we need to give our residents long-overdue, permanent tax relief.

“First, we need to fix an insidious tax problem that affects everyone and causes your taxes to go up without you even knowing it. Because tax brackets, personal exemptions and standard deductions are not adjusted for inflation, their value diminishes over time, so you end up paying a bigger sale of your income each year in taxes. I am proposing the Tax Payer Protection Act of 2007 that will require the Director of Taxation annually to adjust these three factors.

“It is also time for us to take the first step to eliminate the tax on food that families eat at home. I am proposing that we exempt 11 different foods from the general excise tax, including milk, eggs, cereal, and baby formula – foods recognized by the USDA as healthy and basic to a child’s diet. This will save the people of Hawaii an estimated \$40 million per year.

“To give extra tax relief to families, I am proposing the ‘Ohana Tax Reduction Act’ of 2007. This new law will provide an additional \$1,000 exemption for children under 19 years old and more than double allowable dependent care expenses for families caring for young children, aging parents, or both.

“I am also asking you to pass other permanent tax relief, including raising the standard deduction to 75 percent of the federal level, reinstating the blended gasoline excise tax exemption, and eliminating the taxes and fees on vehicles owned by members of our National Guard and Reserves.

“We are honored today by the presence of soldiers from Charlie Company, First Battalion, 207th Aviation Regiment and their families. The 75 members of the 207th will leave in a few months and will be the last major Guard unit to be deployed to Iraq. Please stand and be recognized. (The soldiers and their family members rose to be recognized.)

“I will be presenting to you later today a legislative package that is robust in its attempts to deal with our State’s ongoing challenges, including preserving agricultural land through incentives and by addressing the issue of fake farms, upgrading our harbors, airports and highways, improving pedestrian safety and lowering crime, expanding consumer protection, increasing renewable energy usage, insuring food security by helping poultry and dairy farmers remain in business and protecting our environment.

“A lot of time and effort has been spent by the staff in our departments to develop the 219 proposals I will send you later today. Out of respect for them and the public and in the spirit of collaboration, I ask that you give each of these bills a fair hearing.

“I would be remiss if I didn’t pause for a moment to recognize the incredible contributions our State government employees have made during my first few years as Governor. From creating the Next Step shelter in only six days, to working around the clock to clear the landslide at the Pali Tunnels, to

removing rock slides by hand so that Big Island farmers could get their water they needed to survive after the October earthquake last year, to flying supplies to isolated Kaupo on Maui after that same earthquake. To the men and women of our State government work force, I recognize your dedication to the public, and I am personally grateful for your hard work and contribution to the success we have achieved.

“And contrary to public comments by some observers over the last few weeks, my budget recognizes your performance and anticipates fair wage increases.

“As we look into the future, we have a fundamental choice to make. Are we just going to tread water and hope we can somehow sustain our standard of living by doing the same things we have done in the past? Or are we going to be true to the heritage of innovation left to us by our ancestors and embrace the new global economy by making certain our citizens have the education and training we need to compete with anyone, anywhere, anytime.

“I want to lead us down the path of innovation because it is the path of hope and opportunity.

“I recently read the following in a book on leadership. It said, ‘Ships in harbor are safe, but that’s not what ships are made for.’ The same can be said of governments. It is safe for government to cling to what has been done in the past and hope for the best, but that’s not what governments were formed for.

“The people have elected us to leave the harbor, to take to the open seas of new ideas, and to make certain that the Hawaii they know and love will be a place they and their children can afford to live in for generations to come.

“I have tried to outline for you today a shared vision of what our Hawaii of the future can look like. It is a Hawaii in which our location in the Pacific and our cultural diversity will be significant advantages as we compete with the rest of the world. It is a Hawaii in which prosperity will be created more through the power of renovation and new ideas and less through the development of land and overuse of our natural resources.

“And most important, it is a Hawaii that will still be the Hawaii we all love – a place of unsurpassed natural beauty that cares for those in need. A place that honors its rich multicultural heritage and a way of life that is unique in all the world.

“Let us work together this Session to refine this vision and to agree on the steps that we need to take to achieve it.

“The new global economy is a wave crashing on our shores. We can ride it or we can be swept away by it. Please make a choice with me to ride this wave.

“The future begins today. Mahalo and God bless you all.”

Senate President Colleen Hanabusa then rose and stated:

“Thank you, Governor Lingle. I am certain that this 24th Legislature is ready to work together for the benefit of the people of the State of Hawaii.

“I now declare this Joint Session adjourned.”

At 10:57 o’clock a.m., President Hanabusa declared the Joint Session adjourned.

At 9:22 o'clock a.m., on motion by Senator Ige, seconded by Senator Whalen and carried, the Senate stood in recess subject to the call of the Chair to meet in Joint Session with the House of Representatives, in accordance with Senate Concurrent Resolution No. 1, to receive the Chief Justice's State of the Judiciary Address.

JOINT SESSION

The Joint Session of the Senate and the House of Representatives of the Twenty-Fourth Legislature of the State of Hawaii, Regular Session of 2007, was called to order at 10:02 o'clock a.m. by the Honorable Colleen Hanabusa, President of the Senate.

At this time, Senate President Hanabusa welcomed and introduced the following distinguished guests to the members of the Twenty-Fourth Legislature:

The Honorable Linda Lingle, Governor of the State of Hawaii. She was presented a lei by Representative Kirk Caldwell;

The Honorable James R. Aiona, Jr., Lieutenant Governor of the State of Hawaii, and Mrs. Vivian Aiona. They were presented leis by Senator Rosalyn Baker and Representative Joseph Souki;

Mrs. Stella Moon, wife of Chief Justice Moon. She was presented a lei by Representative Ryan Yamane;

Mrs. Mary Han and Mr. Joseph Han, mother and stepfather of Chief Justice Moon. They were presented leis by Senator Suzanne Chun Oakland and Representative Marcus Oshiro;

Ms. Julie Moon, daughter of Chief Justice Moon. She was presented a lei by Senator Russell Kokubun;

Mr. Edward Kubo, Jr., U.S. Attorney;

The Honorable George Ariyoshi, former Governor of the State of Hawaii;

The Honorable Shigeo Iwatani, Consul General of Japan, and Mrs. Yuko Iwatani;

The Honorable Dong Yern Kim, Deputy Consul General of South Korea;

The Honorable Irene Natividad, Deputy Consul General of the Philippines;

Director General Philip Wang;

Chief Boisse Correa, City and County of Honolulu Police Department; and

Chief Thomas Phillips, Maui County Police Department.

The President then appointed Senators Clayton Hee, Brian Taniguchi and Fred Hemmings, on behalf of the Senate, and Representatives Tommy Waters, Blake Oshiro and Lynn Finnegan, on behalf of the House of Representatives, to escort the Honorable Ronald T.Y. Moon, Chief Justice of the Hawaii Supreme Court, to the rostrum.

Senator Jill Tokuda and Representative Jon Riki Karamatsu presented Chief Justice Moon with maile and ilima leis.

Senate President Hanabusa then presented the Honorable Ronald T.Y. Moon, Chief Justice of the Hawaii Supreme Court, to the members of the Twenty-Fourth Legislature.

The Chief Justice addressed the Joint Session as follows:

“President Hanabusa; Speaker Say; Governor Lingle; Lieutenant Governor and Mrs. Aiona; distinguished members of the Twenty-Fourth Legislature; fellow judges; Judiciary and

other state employees; state cabinet members; judges of the federal bench; members of local and federal law enforcement; former Chief Justice of the State of Washington, Richard Guy; former State Chief Justice of the State of Hawaii, William Richardson; my fellow members of the Royal Order of King Kamehameha the First, members of the Hawaiian Royal Societies, other special guests, family, friends, and fellow citizens: Aloha, good morning, ahnyoung hashimnika! That last greeting was at the request of my mother.

“I am privileged and honored to have this opportunity to address this Joint Session of the Hawai‘i State Legislature and extend my sincere appreciation for your kind invitation to speak about the state of the Judiciary. I extend congratulations to Governor Lingle and Lieutenant Governor Aiona on their successful bid for a second term of office and thank them, again, for allowing me the honor of administering their oaths of office last month. I also extend a special aloha to the new Legislators whom I had the pleasure and honor of swearing-in last week and thank you for joining us in service to the people of Hawai‘i. We, in the judiciary, look forward to working with all of you. There is no doubt that we – that is, all three branches of government – are well aware that we share in the quest for fairness, justice, and good government as we work both collaboratively and separately to serve the people of Hawai‘i. And speaking of awareness, I am reminded of the vampire bat that came flapping in from the night covered in fresh blood and parked himself on the roof of the cave to get some sleep. Pretty soon, all the other bats smelled the blood and began hassling him about where he got it. He told them to go away and let him sleep, but they persisted until he finally gave in.

“‘Okay, follow me,’ he said and flew out of the cave with hundreds of bats behind him. Down through a valley they went, across a river, and into a forest of trees. Finally, he slowed down and the other bats excitedly milled around him.

“‘Now, do you see that humongous tree over there?’ he asked.

“‘Yes, yes, yes!!!’ the bats all screamed in a frenzy.

“‘Good!’ said the first bat, ‘because I sure didn’t.’ (Laughter.)

“Ladies and gentlemen, the state of the Judiciary remains sound due in large part to the efforts of our hard-working employees and volunteers. I, therefore, take this opportunity to publicly thank each and every one of our judges, administrators, and other Judiciary employees for their continuing commitment, dedication, and outstanding work in helping to promote the effective, efficient, and fair administration of justice. To the many volunteers who give unselfishly of their time and talents to help our overburdened staff, as well as to those who serve on the many Judiciary commissions and committees, we extend a big ‘mahalo’ for your service. Would you please help me to acknowledge these dedicated Judiciary employees and volunteers, many of whom are here today, by giving them a round of applause?

“As I stated earlier, the state of the Judiciary remains sound; however, I continue to be concerned about the perception of many that our justice system is not functioning as it should and that some of our citizens, therefore, feel they need to take matters into their own hands to fix it. I am, of course, not opposed to our citizens taking a greater interest in public service. In fact, I firmly believe that we need to find ways to better motivate our citizens to more actively participate in government and in such civic matters as voting and jury service. However, I am concerned about some of the initiatives that appeared in other state ballots in the most recent elections –

some of which were proposed and promoted as a way to fix our justice system. For example: The citizens of South Dakota voted on a radical judicial constitutional amendment, entitled Judicial Accountability Initiative Law – commonly referred to as ‘JAIL for Judges’ – that proposed, among other things, the creation of a new grand jury that would allow citizens to sue judges for decisions they did not like. Although the amendment did not pass, the fact that it was even proposed underscores fundamental misunderstandings of the duties of legislators and judges and how judges are held accountable.

“Legislators, as you well know, enact laws in accordance with what they understand to be the popular will and in the public interest. Judges, however, apply the law that is the result of longstanding common law traditions and legislative processes to the evidence in individual cases; judges do so even when the loudest voices at the time may have other conceptions about what the law or result should be in a particular case. In short, a judge’s first and foremost duty is to fairly and impartially apply the constitution and the law to the facts of the case. A judge’s personal feelings about what the law ‘should be’ has no place in his or her deliberations. The determination of such broad policy matters as to what the law should be is your kuleana, and you are in a much better position to make that assessment than is a judge hearing the evidence in an individual case.

“Nevertheless, as evinced by initiatives like South Dakota’s JAIL for Judges, an alarming number of our citizens continue to believe that the role of the courts is to bend to the whims of the press or, at least, those who have the money to mount advertising campaigns and get press attention. Thus, when some of our citizens disagree with a judge’s decision because it is not in conformity with what they perceive as the ‘popular will,’ they often cry out for reforms, like the election of judges. Indeed, rumor has it that this Legislature may be asked to consider proposals calling for the election of judges. And, although such a proposal is not ‘new,’ it seems rather ironic since many other jurisdictions are attempting to repeal the election process in their respective states because of the effect judicial elections have on preserving a fair and impartial justice system. Under an elective system for judges, there is the constant threat that an unpopular decision would result in the loss of popular votes – a consideration that has no place in a judge’s decision-making process. And, sadly, judges in elective jurisdictions who have adhered to the high standards of fair and impartial judicial decision-making have paid the ultimate price at the polls – that is, they have lost their jobs. But, a decision that is made fairly, impartially, and in accordance with the constitution and the law – even though unpopular – is, in the words of the late United States Supreme Court Chief Justice William Rehnquist, one of the crown jewels of our democracy. Those who favor electing judges often do because they believe judges are not held accountable for their actions or decisions. They are wrong.

“Hawai’i judges are held accountable in more ways than any other public officer. First, each judge’s legal decision is subject to review and reversal by Hawai’i’s appellate courts and, depending on the issues, by the United States Supreme Court. Each judge’s performance, demeanor, and competence are subject to review and sanction by the Commission on Judicial Conduct, which may recommend a judge’s removal from office. A judge seeking retention is also subject to review and sanction by the Judicial Selection Commission, which may – and does – refuse to retain judges. In addition, the supreme court’s Rule 19 committee administers the Judicial Performance Evaluation program under which each judge’s performance is evaluated one or more times during the judge’s term of office. A Judicial Performance Review Panel – composed of a retired judge, a retired attorney, and a member of our lay community –

discusses the evaluation results with the judge so that the judge may improve his or her performance for the benefit of the public. In addition, the Hawai’i State Bar Association conducts its own judicial evaluation program and provides the results of its surveys to our judges.

“Judges are, to the best of my knowledge, the only public officers in Hawai’i whose decisions, performance, competence, and demeanor are subject to probing, professional, and systematic scrutiny. In short, judges are held accountable by mechanisms that assure accountability, without undermining the impartiality of our courts. Fair and impartial courts provide the balance that is essential to the workings of our government and not only makes our democracy the envy of many of our foreign neighbors, but ensures equal access to justice for all. Undermining the impartiality of the courts jeopardizes the very access our citizens expect. Indeed, without access to the courts, there can be no justice for our citizenry.

“The public’s assessment of how well the courts are helping our citizenry also affects the public’s perception of the Judiciary. As you know, substance abuse, mental illness, and other social problems are the underlying causes of many of the crimes in our community. Acknowledging that the greater majority of offenders who experience these problems will ultimately return to our communities, we have been effectively addressing some of these problems by combining court supervision with treatment and other alternatives to incarceration. These ‘problem-solving’ courts utilize practices that are referred to as intermediate sanctions. Over the past five years, the judiciary has achieved great success and learned important lessons regarding the effective use of intermediate sanctions through our adult drug court programs, which are operational statewide. We have expanded the philosophy to our family drug court programs on O’ahu and Maui, as well as juvenile drug courts on O’ahu and Kaua’i.

“In a recent 306-page evaluation report written under contract by the National Center for State Courts, the Center found that Hawai’i is satisfactorily meeting nearly all of the key components, strategies, and characteristics for adult, juvenile, and family drug court programs. In commenting on the Judiciary’s on-going efforts to develop and implement drug court performance standards, the Center report states, ‘These measures place Hawai’i far in advance of many states[.]’ Indeed, your support of our drug court initiatives – for which we are truly grateful – have allowed Hawai’i’s drug courts to do well and garner national respect and attention.

“In 2004, the Judiciary initiated ‘Girls Court’ in the Family Court of the First Circuit – one of the first courts in the United States to build a full range of gender-specific programming for female juvenile offenders. The program incorporates practices to help girls get back on a positive development track and to avoid future delinquent behavior. Last month, we celebrated the journey of nine more young women and their families who successfully completed the Girls Court program. We also celebrated the ongoing journey of two ‘alumni,’ who had completed the program in the previous year and continued their relationship with the program in order to help those who followed them. The goal of Girls Court is to empower and build on each girls’ strengths, focusing on developing the skills necessary to make positive choices in their lives, that will stop them from becoming, for example, involved in the criminal justice system as adult women, or from becoming victims of domestic violence or defendants in the child protective service system later in their lives. By all accounts, thus far, Girls Court is garnering positive and encouraging results. For example, the Girls Court Program has reduced recidivism by 47 percent, runaways by 60 percent, and arrests by nearly 63 percent. Ladies and gentlemen, please join me in acknowledging Girls

Court Presiding Judge Karen Radius, the Girls Court staff, and some of their clients, with their parents, who are here in the gallery.

“Also in 2004, the Judiciary launched a pilot program designed to reduce probation violations by drug offenders and others at high risk of re-offending. This high-intensity supervision program – called Hawaii’s Opportunity Probation with Enforcement, or HOPE – received a major vote of confidence in the form of a 1.2 million dollar appropriation from the 2005 Legislature, which we truly appreciate. First Circuit Judge Steven Alm is responsible for bringing the concept of the HOPE Program to the Judiciary, which we believe is the first and only such program in the nation. This past September, representatives from the National Institute of Justice visited our Judiciary to learn more about this unique, innovative program. More recently, on December 8, 2006, both chambers of Congress passed a federal bill authored by Congressman Adam Schiff of California that calls for frequent, mandatory drug testing for chronic drug offenders and includes immediate sanctions for violators. The measure, which has been sent to the President to be signed into law, was modeled after the Hawai‘i Judiciary’s HOPE Program, of which Congressman Schiff said: ‘This approach is currently finding great success in Honolulu, Hawai‘i, where previous drug tests turned up 21.9 percent positive and 10 percent missed appointments altogether. With this program in place, the positive drug tests dropped to 3.8 percent and the missed appointments rate dropped to 1.3 percent.’

“Our probation office, like those across the country, is overwhelmed and severely under-resourced. As a result, probationers who violate their terms of probation – including continued drug use – often receive no more than a verbal warning from their probation officers. Continued violations, however, do eventually result in revocation of probation and incarceration, thus compounding our crowded prison situation and increasing costs to the state. Notwithstanding their already heavy workload, our probation officers have demonstrated their commitment to helping probationers succeed by working collaboratively with Judge Alm and other major players in the HOPE Program, such as the prosecutors and public defenders. Such collaboration and teamwork has been the catalyst to the effectiveness of one of the major components of the HOPE Program, which is its pattern of swift, predictable, and immediate sanctions – typically resulting in several days in jail – for each detected violation, such as drug use or missed appointments with a probation officer. Originally under the watchful eye of Judge Alm, selected-probationers – since August of last year – are now being admitted to the HOPE Program and supervised by each of our nine criminal judges handling felony cases.

“As is evident from the programs that focus on juveniles and their families, the Judiciary adheres to the proposition that ‘the state of the family determines the state of our society.’ Family courts throughout the nation have been likened to hospital emergency rooms – and ours is no exception. People who come to family court are usually in crises and often at their worst. On a daily basis, our family court judges deal with every family situation imaginable.

“Children, sometimes as young as eleven, following arrest, are brought to family court for making poor choices. Our judges must decide if they should be sent to the Hawai‘i Youth Correctional Facility, referred to a treatment program, or released back into the community. What does a judge do when parents of a 14-year-old runaway girl, who is pregnant, addicted to ice, and in love with her pimp, look to the judge for ‘the answer’?

“Parents, too, are brought to family court for harming their children, and our judges must decide whether to terminate their parental rights. What is a judge to do when an infant has been severely injured, but no one can say for sure if either parent did it?

“Our family court judges are routinely asked to play the role of Solomon in deciding which parent will be awarded physical custody of children. Such decisions inevitably alter forever the lives of the children and the parents. What does a judge do when a divorcing parent receives a better opportunity on the mainland and wishes to take the child out-of-state, but the other parent wants the child to remain in Hawai‘i?

“These are just a few of the gut-wrenching decisions that our family court judges must not only make on a daily basis, but must do expeditiously because of their crowded dockets. On any given morning – I repeat, just the morning, with another calendar of cases in the afternoon – a family court judge has 10 to 15 child protective service cases on the calendar. Another judge might have a morning calendar of 12 to 15 restraining order cases. Still another judge is hearing a divorce case, involving child custody and property division issues, that must be completed by the end of the day because the judge has another trial – on another case – the very next day, AND still another new case the day after that. The high volume of cases in the family court places extreme pressures upon our judges – and, undoubtedly, creates a great deal of internal stress – as they strive to make the right decision in the best interest of the children.

“Adding to this stark reality is the fact that family court users, as well as our family court judges and staff, are subjected to crowded physical conditions, creating unnecessary tension and heightened security concerns. The waiting area for court users on the second floor of the First Circuit court building – on any given day of the week – makes the waiting area of a hospital emergency room seem like an oasis. People are packed together; you can definitely feel the emotions and hostility in the room; and the noise level might lead you to think you’re in a train station rather than a courthouse. And, once the parties enter the courtroom, things aren’t much better as parties are literally just a few feet away from each other and no more than five to six feet away from the judge. It is not uncommon to have 12 to 15 people on a case in a courtroom that was designed to accommodate no more than six to eight people. Such conditions are, to say the least, untenable.

“We are, therefore, deeply grateful for the giant step you took toward improving the situation in family court when you originally authorized \$95 million during the 2005 Legislative Session to build the Kapolei Court Complex. On behalf of the many children, families, and the myriad of other family court users in our community that desperately need the help of our family court, we thank you for supporting our efforts to provide improved services to your constituents. We must now, however, move forward and ensure that the facility is not only large enough, but that we secure an adequate number of judges in order to better meet the needs of family court users, as well as to avoid ‘burning out’ our current judges as a result of the extreme stress and high volume of cases.

“As you know, since your original appropriation in 2005, construction costs – following Hurricane Katrina – have risen substantially, resulting in our having to significantly scale-down our original design. Nevertheless, we remained confident that the facilities would still be able to accommodate a full range of judicial services for the Ewa region. However, since then, the cost of construction – statewide – has continued to increase, thereby requiring additional reductions to the facilities.

"In light of the increased construction costs, I reluctantly approved the redesign of the new juvenile detention facility. Rather than the 78 beds originally planned, the scaled-down detention facility will have a total of 66 beds. Moreover, in order to stay within the amount of the original appropriation, two of the twelve non-jury courtrooms in the Kapolei court building will have to remain unfinished and unusable. In addition, the original plan for one jury courtroom, associated jury deliberation room, and secure holding cells will necessarily have to wait, unless an additional appropriation is made this Session. The loss of these courtrooms and related facilities will seriously impact family court functions, postpone the closure of the Waianae District Court, which is currently housed in leased space, and delay providing a fuller range of court functions at Kapolei. Without an additional appropriation this Session, the acquisition of other critical design elements will also be delayed. Indeed, any delay in the construction and/or completion of any aspect of the facilities will lead to increased costs. Consequently, the Judiciary respectfully asks for your support and consideration of an additional appropriation of \$15.5 million this Session in order that the Kapolei Court Complex, slated for completion in 2010, will open with a full complement of courtrooms and a safer, although slightly smaller, juvenile detention facility. We also respectfully request your help in ensuring the sustainability of our current family court judges by providing them with assistance in the form of two additional family court judges.

"The parties in family-related disputes and our Family Court judges are only part of the equation in family court. The attorneys appointed by the court also play a critical role in representing parents in cases involving the termination of parental rights. In these cases, one of society's most important privileges – that of being a parent – is at stake. Parents involved in these termination cases often qualify for court-appointed attorneys because a majority of them are economically disadvantaged.

"Guardians ad litem, appointed by the court to represent the children in these cases also play a critical role – perhaps the most critical role because these guardians often become 'ohana' to the children with whom they interact. They respond to a child's telephone call for help at all hours of the day; they facilitate therapeutic placements; and, as importantly, they listen. A five-year-old girl, who was being adopted by her grandmother after the mother's parental rights had been terminated, was asked by the presiding judge, 'Who is that man standing next to you?' The child looked up at her court-appointed guardian ad litem, then looked back at the judge and said, 'He is my guardian angel!'

"For the past 20 years, court-appointed attorneys have been protecting the rights of parents – and guardians ad litem have been protecting the well-being of children – at \$40.00 an hour for work performed outside of court and \$60.00 for in-court time – which is significantly less than any other type of attorney-work in the State.

"We certainly appreciate the fact that, in 2005, you saw fit to raise the hourly rate for attorneys defending indigent criminal defendants, which became effective on July 1, 2006. As you recognized when considering and passing the 2005 legislation, the courts were finding it difficult to secure competent attorneys to accept court appointments, which created serious concerns among those who prosecute and those who defend indigent criminal defendants, such as increased cases on appeal and cases of ineffective assistance of counsel. I submit that considerations similar to those which prompted you to increase the hourly rate to \$90 for the attorneys representing indigent criminal defendants are applicable here. Thus, on behalf of the parents and especially the children involved in these termination

cases, the Judiciary respectfully requests your support and consideration of hourly fee increases for court-appointed attorneys and guardians ad litem in these parental rights cases.

"Ladies and gentlemen – my focus this morning has been primarily on our family court and the related issues regarding Kapolei, additional judges, and increased pay for attorneys and guardians ad litem in parental rights termination cases because the Judiciary is convinced that one of our state's greatest challenges is to provide our children a safe, loving, and nurturing environment in which they can flourish and grow into productive and law-abiding citizens, many of whom will become tomorrow's leaders. They certainly deserve no less. They – along with the rest of our citizenry – also deserve to have a justice system that is fair, impartial, and free of any undue influences.

"In an interview shortly before her retirement, Justice Sandra Day O'Connor said: 'The Framers [of our Constitution] understood quite well that, without judges who could enforce the Constitutional rights and guarantees without fear of retaliation, the Constitution would be meaningless. . . . The many calls for retaliation against judges for rulings in particular cases run directly counter to the concept of the Framers of the Constitution.'

"Given the current environment, with its various citizen-initiated initiatives aimed at the judicial decision-making process, our challenge – as judges, lawyers, and lawmakers – is to maintain the integrity of the third branch of government and to protect the courts from pressures – political or otherwise – that may affect, or be perceived as affecting, the decisions of the court. Whether our decisions are correct must be dictated by the law that applies equally to everyone and not by popular concerns of the moment that have not passed through legislative scrutiny. Generally, in any given case, the 'winner' will be happy, and the 'loser,' including those sympathetic to their cause, will not. Ultimately, however, it is the rule of law – equally and equitably applied – that we Americans choose to help us resolve our differences and to ensure civic order. In that regard, the Judiciary remains committed to the constitution and the rule of law and to rendering fair and impartial decisions, based upon the facts and the applicable law.

"On behalf of the dedicated employees of the Judiciary, we pledge our continued support and look forward to working collaboratively with each of you. Thank you for having me."

Speaker Say then rose and stated:

"Thank you, Chief Justice Moon. The Legislature looks forward to working with you this Session. We are cognizant that the judiciary is a branch of state government coequal with the legislative and executive branches, and we respect that status. We also respect you and the other justices, judges, and employees of the judiciary. This respect, as well as the goodwill between us, will surely lead to legislation that promotes the public good.

"Thank you, again. This Session is adjourned."

THIRD READING

S.B. No. 638, S.D. 1:

Senator Baker moved that S.B. No. 638, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Kim rose in support of the measure and said:

"Madam President, I rise in support of the legislative budget.

"Madam President, I agree with today's Star Bulletin's editorial that 'Isle lawmakers need to rein in expenses.' That's exactly what I tried to do last year and my actions will substantiate this, Madam President. Too bad the Star Bulletin didn't at that time write an editorial or they didn't write one for the budget in 2005 when it was a 16.4 percent increase, and last year when the budget proposal was for an 18 percent increase. Both years were far greater than this year's 11.9 percent.

"The proposed 18 percent increase last year was not justified at the time since we received no specifics to that increase. I tried to scrutinize the budget then. I emphasize the word 'tried' because I had to write ten memos to the Clerk requesting information and two OIP requests for assistance in receiving budget information from the Clerk's Office and I still had trouble getting the pertinent information. I stood on this very Floor in this very same spot and repeatedly asked for those numbers. And despite that, we managed to cut the budget from 18 percent to 12.4 percent, that which we could justify at the time. Our new Clerk, who started in December, is still reviewing the expenditures, Madam President, and working on understanding the past practices of the administration of the Senate budget.

"This year's budget reflects uncertainties in the expenditures from the previous budget, the lack of planning for our future needs, and unanticipated expenses for the printing of the constitutional amendments and the vacation payouts. It also reflects the adoption of the Senate's first ever administrative and financial manual. In order to detail in writing for the public and for the Senators, policies involving everything from salaries to procurement, ethic codes to travel allowances, postage and copying policies to financial reporting, these costs must be reflected in the budget whether or not this budget will utilize it.

"In responding to calls for more openness and transparency, we also need accuracy. And while I agree with the Star Bulletin's call to rein in expenses, the numbers they used to make their point is muddy, at best. It appears they double counted the \$5.4 million appropriation for the Auditor's revolving funds. Let me also point out more glaring inaccuracies. In the editorial this morning, the statement is made that a 42 percent budget boost from last year's allocation to this year sounds excessive. Madam President, the fact is the record reflects that should S.B. No. 638, S.D. 1, pass as is, there would be a 19.49 percent increase in the overall legislative budget.

"Another statement: 'The Legislature is poised to approve itself a \$38.8 million budget for the current session, an \$11.5

million jump from 2006.' The fact is the record reflects that S.B. No. 638, S.D. 1, is proposing an overall budget increase of \$33 million. This would result in an increase of \$5.4 million, a 19.49 percent increase.

"And finally, the editorial states: 'That still drops more than \$6 million into lawmakers' pockets.' The fact is S.B. No. 638, S.D. 1, increases the 2007 budget for the Senate by \$817,000 which approximates to 11.89 percent.

"Madam President, I certainly look forward to a correction by the Star Bulletin in Monday's editorial and I hope that their veteran legislative reporter will get the accurate information and report it correctly.

"Thank you."

Senator Bunda rose in support with reservations as follows:

"Madam President, I rise in support of the budget with reservations.

"First, Madam Chair, there are still many unanswered questions regarding this proposed budget. There have been only vague public explanations for the inflated budget, generalities that indicate the increase is slush for budget decisions to be made down the road, and was the very thing so adamantly denounced in the past.

"In addition to the million dollar increase we are about to approve today, Madam President, the December budget showed a carryover balance of \$1.8 million at the start of 2007. The proposed increase may or may not be warranted, but at this point, who knows. The rather insistent demand last year for transparency has gone from a roar to a whisper.

"Second, I'd like to set the record straight, Madam President; this Body delayed passage of the 2006 operating budget over a counterproductive internal squabble . . . and it's that simple. Now, the arbitrary reductions have been restored and then some.

"My 'yes' vote on this budget, Madam President, is a vote of confidence in your ability to avoid such confrontations in the future and to put public concerns ahead of personal agendas. To that end, Madam President, I encourage you to open up the budget to public scrutiny.

"I recall tuning in to Hawaii Public Radio listening to you, Madam President, prior to opening day. You and the members of the new team announced that transparency would be the hallmark of your leadership. I trust you will strive to replace the vagueness of this budget with more accurate information in the future.

"Madam President, as you may already know, after a congressional campaign of your own, that both the Clerk of the United States House of Representatives and the Secretary of the Senate regularly publishes information on staff salaries. It has provided a healthy amount of transparency to how Congress spends its taxpayer dollars. We should extend that same courtesy on all expenditures to our own constituents here at home, Madam President. If we do not provide it, we will have failed in our obligation to the voters of Hawaii. At the very least, they demand and they deserve to know how their hard-earned money is being spent.

"Thank you, Madam President."

Senator Slom rose in opposition to the measure and said:

"Madam President, I rise in opposition to S.B. No. 638, S.D. 1.

"I don't take this lightly and it has nothing to do with the personalities or a new team or old team. I, unlike the previous speaker, am not as concerned as vagueness. I think everything is pretty much spelled out and we can discuss that.

"What I am concerned about, and Madam President has heard this speech year, after year, after year, I'm concerned about the total amount of money that we are expending to operate the Legislature and the legislative agencies. Now, we can spend a great deal of time justifying why we spend this amount and that amount and all of that. If you take the individual items within S.B. No. 638, you come out with a total of \$39,003,099. Now, there can be discussion about the Legislative Auditor's amount and some of the new responsibilities that she has and the transfer from funds and all of that, but the bottom line is it's an awful lot of money. The bottom line is not how much the percentage increase has been, but in fact we have a percentage increase and that this percentage increase is greater than almost everyone's family income increase in this community.

"I always make the point every year that what is the bill that we pass first? It is the bill to pay ourselves and our government agencies first. This year, January 1st, our taxpayers in this community and across the state awoke to even higher burdens attacking their standard of living. We all know about the immediate 11 cent per gallon tax on gasoline because this Legislature last year failed to extend the exemption for ethanol. We all know about the 12½ percent increase in the general excise tax on everything that we consume, everything that we buy, every service living or dead that we have to pay for – the largest single tax increase in the history of Hawaii. And then we can talk about sewer increases, and water increases, and electric increases, and real property tax increases, and all of the other things, the motor vehicle registration fees, all of the things that a family has to pay for here. We go to our neighborhood restaurants, Zippy's or wherever we go, and we see that the prices have already climbed there.

"What I'm suggesting is we should be setting the example and we shouldn't be arguing that it's 'only' a 14 percent increase or 'only' an 18 percent increase. We should not have an increase. We should find ways to decrease the cost of government. We should live within the means of the taxpayers that have to pay for everything that we do.

"There are a couple of specifics, Madam President, that I'm particularly concerned about. We always talk about computers. I stood on this very Floor just a couple of years ago with a colleague of mine when all Legislators were given brand new, state-of-the-art, upgraded computers. I have never seen one of those computers on this Senate Floor. Of course, I didn't use mine and my colleague didn't use his because we gave them back to the Senate President at the time. And now we're talking about buying brand new computers for our Legislators. I know for a fact that there are many small business owners who would love to have the opportunity to buy new computers or even used ones, or used furniture, and yet we spend and spend and spend. And then I've gone over the 1,995 bills introduced in the Senate alone and we have new proposals for more taxes and more cost.

"So Madam President, I know that there was an attempt to live within our means and to have a budget that reflects the growing activity and responsibilities of what we're doing, but what I'm saying is maybe we have to take a look at some of those responsibilities and take a look at them in terms of the ability of those people that are paying for this. We're not paying for this – the taxpayers are paying for it.

“And oh yes, the idea that we have gotten an automatic salary increase, again, a couple of colleagues and I railed against this years ago. The honest thing to do would be to put the salary increases upfront, in front of the Senate, in front of the House, in front of the public, and then vote it up or down. But we don’t get to do that. We don’t have to do that because the salary increases have already been mandated by this salary review commission.

“So Madam President, it’s not a question of individual items, or individual departments, or individual statistics. It is a question of we how see the trend, and the trend is definitely to up the cost of government, and then to follow that we have calls to increase the tax burden for our individual citizens to pay for this. I think it’s time that we make a stand and we say we are going to be the role models, we are going to show fiscal discipline, we are going to say that sometimes you have to say no and reduce the cost. And that is why, reluctantly, I will be voting against this budget.

“Thank you, Madam President.”

Senator Hemmings rose in opposition and said:

“Madam President, my comments are against the passage of this legislation, S.B. No. 638.

“I first of all want to apologize to the public employees and the workers of the Senate and the House and the other agencies attached to the legislative budget. They’re good workers and I’ve always said they do an excellent job. I think we are indeed the most cost effective branch of government, but I have to make a difficult choice between making my points by voting against this budget or being accused of delaying their pay raise. I’m quite certain my ‘no’ vote is not going to delay their pay raise.

“Last year in the debate on the budget, a word that was used quite frequently was duplicity. I’d like to read from the Journal last year so we can get some relevance to this budget. One of the leaders in the Majority Party stood on this Floor and said, ‘It’s because the Senate has decided, after looking at all these figures, that we can operate with that reduction and we do not want to take any more than is necessary.’ Well, last year the budget was increased rather decreased in Ways and Means by about \$300,000-plus. This was the fiscal austerity that the previous comments were about.

“Another leader you might be familiar with said, ‘So you want to talk about duplicity. The bottom line is we’re cutting the budget and we’re trying to be responsible in making sure that the budget is lean enough and yet we’re standing up and cutting it. That’s why we’re cutting it.’ Those are the quotes of another leader of the Senate.

“The duplicity is that last year we cut 300-and-some-odd-thousand-dollars off our \$6.8 million budget. And the very people who were so self-righteously defending fiscal austerity last year are adding a million dollars to the budget this year. The last time I looked up duplicity in the dictionary, one of the meanings was saying one thing and doing another.

“Transparency was a word that was brought up in the debates last year. I won’t go over what the Journal said about them, but transparency was one of the goals the proponent last year of the cut was very proud of the transparency. Well, I agree. I agree with the proponent of this budget last year on transparency and agree this year. Madam Chairman, where is it? We never saw it. Madam Chairman, what are the salaries of the Majority Party workers? I think we all believe in pay equity – equal

work for equal pay. We understand, and I’d like to ask, maybe when I’m finished speaking, if the proponent of this budget can yield to the question, ‘What do your staff make?’ I understand Senate research people in your office make close to what the Governor of the State of Hawaii makes. I’ll guarantee you that our staff doesn’t make two-thirds of that and we had to let someone go in order to accommodate paying our people a livable salary.

“But the point is transparency. Do I have to go to the OIP and ask them to find out what your salaries are of your people? Do the taxpayers of Hawaii who are paying for all of this, do they have the right to know what people are getting paid? I think OIP would agree. So I’m making a formal request, Madam President. I would like to know what the salaries of your staff are.

“The other thing too is partisanship. I try desperately . . . I’m a local boy who grew up here in Hawaii and I love this state just as much as anyone else does. I chose a very difficult path, politically, to be a member of a minority party because I didn’t like the way things were done here. But yet, every year in my opening day speech, Madam President, and with my colleagues, I try desperately to find common ground to work in a non-partisan manner and find ways that we can get things done for the betterment of the people that send us here.

“Just for your interest, so you know this, when someone calls my office, I don’t ask them if they’re a Democrat or Republican. If they want something done and they voted in my district or they’re a member of my district, I try to help them, and that’s the way it should be.

“We want to know why you have two staff members full year and we get only one. I would suggest that it’s partisanship. I would further suggest, Madam President, in no way am I personalizing this. I realize you have a Caucus full of very headstrong, independent-thinking people and some of them are more partisan than others, but you have to live with what you got as all of us do. But the point is that all year we have the same constituency requirements that you do. We have the same people that call us and ask for our help and we have one-half the ability to do so because of your partisan staffing policies.

“I want to preempt the lame excuse that I think will come up – well, we’re the Majority Party and we have committees, and we have committee chairmen, and we have vice chairmen, and we have meetings and things we do off session. Well, that’s not true. We all know that this whole system is run by committee chairs and I would suggest that the vice chairs, during off session, if there is a meeting or special committee hearing, that the vice chairs really don’t take the lead or do much work on it. But you’ll stand up and say otherwise. I would also note that all of you don’t have chairs and vice chairs. And more importantly, our hardworking, underpaid staff did some research and there are many committees that don’t have any hearings at all during off session. Curiously enough, it’s usually an election year. I’ve got the information here, Madam President.

“My point is the extra position that you have that gives you a decided advantage is being used politically and in a partisan manner. The reason you have extra staff is not because of your workload. The reason you have it is partisanship.

“So I’m voting ‘no’ against this budget in hopes that we can come to some sort of partnership in the future where these things are discussed with the Majority and Minority before decisions are made so that I don’t have to get up and point out these inequities and duplicity in this budget. I know I’m not going to change anybody’s mind on the vote because that

decision was made in your caucus room before I even got to the Floor today. But I do appreciate the point to speak out on our frustration and our desire to work in a more fair and bipartisan manner in affairs of this nature and also like to echo the comments of my colleague from Hawaii Kai that fiscal austerity should not be a partisan thing and be solely determined by who's trying to be leader of the State Senate.

"Thank you, Madam President."

Senator Hooser rose in support of the measure as follows:

"Madam President, I rise in support of this measure.

"Madam President, I'll keep my remarks brief. I think we need to put aside the rhetoric and cut to the real heart of the matter. This is my fifth budget that I've worked on and I have to say, Madam President, it's a testament to you and the entire Senate and Leadership team and members that in my experience in the five budgets, five years, this is the most transparent process in the budget that I've experienced. It is the most comprehensive and transparent rules-making process and with the addition to the administrative manual spelling out the policies, we have taken great steps forward to open the process up to have fair and open information so everybody knows what the rules are and what the information is.

"I believe this is a good budget, and with all due respect to some of the prior speakers, we had a full and complete discussion at the committee level. The Minority Leader asked many of the same questions, if not most of these questions, at that hearing and the answers by the Vice President, in my understanding, were full and complete so at the end of that committee hearing, there was a unanimous vote of all members in support of the budget. And that was a unanimous vote including the Minority Leader and Minority Floor Leader.

"The reality of the environment we work in means we have to have the proper technological tools. We have to have computers that are efficient. We have to reward our staff we have to recruit. There was some mention of duplicity. I believe it's the pot calling the kettle black to say I support the raises but I'm going to vote against the budget . . . the raises for staff members that is.

"The bottom line is this is a good budget. It was done in a reasonable professional process. It was an open process. It was done thoughtfully. Questions were asked by Minority members and others and those questions were answered. The information is public. Just like every year, it will be fully audited and made available to the public. It's a good budget. I want to thank the Senate Vice President and others, and staff members who worked so hard on this budget and I encourage my colleagues to vote in support.

"Thank you."

Senator Trimble rose in favor of the measure and said:

"I rise reluctantly, very reluctantly, to speak in favor of this bill.

"It's about three things – travel, training, and technology. I think it was the good reverend or a good reverend from Moanalua with some interest in education who told me a couple years ago that if you don't continue to learn, someday you're going to wake up having all the skills that you need to succeed in a world that no longer exists.

"I would like to say that since you are giving us the opportunity for travel and training and improving our

technology, we should take full advantage of it. I would also like to compliment everyone on this Floor, because in the hopper are a whole series of bills that are trying to improve the way that we are dealing with our problems today, and I encourage you, colleagues, to try and let as many of those good ideas filter to the top through the rest of this 60-day Session.

"Thank you, Madam President."

Senator Slom rose and said:

"Madam President, may I request a Roll Call vote."

The Chair so ordered.

Senator Kim rose and said:

"Madam President, just one point of information. I believe the information requested on salaries and anything else on the budget is available by request from the Clerk. Thank you."

The motion was put by the Chair and carried, S.B. No. 638, S.D. 1, entitled: "A BILL FOR AN ACT MAKING APPROPRIATIONS TO PROVIDE FOR THE EXPENSES OF THE LEGISLATURE, THE AUDITOR, THE LEGISLATIVE REFERENCE BUREAU, AND THE OMBUDSMAN," having been read throughout, and Roll Call vote having been requested, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Ayes with Reservations, 4 (Bunda, Gabbard, Inouye, Trimble). Noes, 2 (Hemmings, Slom).

At 12:38 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12:39 o'clock p.m.

Senator Ige, Chair of the Committee on Health, requested a waiver of the notice requirement pursuant to Senate Rule 21 for S.B. No. 1260.

Senator Ige noted:

"Madam President, the reason for the waiver is that we've already scheduled and noticed a hearing on a measure dealing with Kahuku Hospital for Monday afternoon and we thought that if we could add this bill to that agenda, then the residents of Kahuku would not have to visit the Capitol twice to express their concerns."

The Chair then granted the waiver.

ADJOURNMENT

At 12:40 o'clock p.m., on motion by Senator Ige, seconded by Senator Whalen and carried, the Senate adjourned until 11:30 o'clock a.m., Monday, January 29, 2007.

ADJOURNMENT

TENTH DAY

Thursday, February 1, 2007

The Senate of the Twenty-Fourth Legislature of the State of Hawai'i, Regular Session of 2007, convened at 11:34 o'clock a.m. with the President in the Chair.

The Divine Blessing was invoked by Captain James Danner, Chaplain, U.S. Pacific Fleet and Pacific Area Command, after which the Roll was called showing all Senators present with the exception of Senators Bunda and Inouye who were excused.

The President announced that she had read and approved the Journal of the Ninth Day.

Senators Hemmings and Tsutsui introduced Admiral William J. Fallon and his wife Mary Fallon in recognition of their dedication, commitment and service to their country and for their outstanding contributions to Hawaii's military community and to the people of Hawaii during the Admiral's tour as Commander of the U.S. Pacific Command.

At this time, the President invited Admiral Fallon to the podium to address the members of the Senate.

Admiral Fallon addressed the members of the Senate as follows:

"Madam President, Distinguished Members of the Senate:

"It's a very, very special occasion for us to be here, and I recognize and thank you for this very unique opportunity to say a few words to you. Fred, I didn't know you were so eloquent; now I know why you are in politics. Thank you very much for the very kind and personal words.

"I didn't prepare a speech. I've got a lot of thoughts in my head. I have no doubt that the tasks in front of us are immense, and I have, I think, a good understanding of the consequences in many directions of the actions that await us in the future.

"I will tell you that Mary and I will certainly miss our time in Hawaii. In fact I will confess that just a few weeks ago, before any of this even came about, we were contemplating the fact that we had been here for almost two years and how rapidly the time had passed, and if we were lucky we might be able to have another year to enjoy and then we were going to have to figure out what we're going to do with our lives for the future. We discussed how much we enjoy this beautiful State and the time we've spent here. It's certainly physically attractive, and the sense and sights of the State are unlike any place in the world, but the real special aspect of Hawaii is you, the people.

"Now, I'm an old guy, and Mary will tell you much older than she; but we agree that we've never been anyplace – and we have been in a lot of locations in this world – we've never been anyplace that has welcomed us as warmly and that day by day, week by week that shows by action what the true meaning of 'aloha' and 'ohana' really are. You are here; you live here, many of you have been born here, and I suspect, like many other things in life, we kind of get used to the environment that we are comfortable in. But it's different here; it really is. And I think it takes an outsider, a couple of haoles to drop in here and to experience this to fully appreciate it. So we want to thank you for that.

"We don't know how fast we may have to leave. I had a phone call this morning from Washington that said they would like to do this in an orderly manner. They intend to announce a

nominee to succeed me very quickly; then they would like to be able to do a formal turnover. But I was told to not count on it, have my bags packed, and if the Senate confirms my nomination, I may have to leave immediately.

"Of course you know the reason for that – because the activities in the Middle East are tragic for sure; the consequences in all directions are immense; and the nation has asked for a new approach. The President has asked for a new approach, different leadership, and I'm going to, in Navy parlance, answer the bell to do whatever I can do to try and help the situation. The consequences are immense.

"Another observation that Mary and I have made since we've been in your midst is the very, very special way in which you have taken care of our military members in this State – those who live here, those who are based here, and particularly their families. And I have remarked on this to people throughout our country that it is very, very special the way that you take care of people. And it gives these men and women who are serving us, particularly those in the combat zones, immense satisfaction and comfort to know that when they are gone, you are taking care of their families in a way that is really, really unique and special and reflects immensely on your kindness and attention and caring. So, on behalf of all of our men and women in uniform, I want to thank you for that.

"I would also invite you, as leaders of this State, to continue to do the best you can to help folks in this State. I believe that it's a very special responsibility to those who are positioned as leaders – elected officials, appointed officials. We have a tremendous responsibility. People put their trust and confidence in us; they expect us to do things that are the right thing to do. It may not be what everybody wants, but we try to do the things that are best.

"I want to thank you for what you do day by day and encourage you to continue. And by example, to those young people – many in the gallery today – that they can see the benefits of our system of government. Because since I've been in the Pacific, I've had an opportunity to visit many, many countries, and they are not the same – far from it in many places. The extent to which we can, by our example and actions, demonstrate the value of our system of government, I believe will have tremendous impact on the future of the world and mankind. So it often takes different approaches at different times. We each do our part.

"Again, thank you for what you do. And with profound gratitude, Mary and I will – sometime soon we expect – take our leave. But we certainly look forward to coming back very soon, very often. And I have an anchor somewhere in my back pocket that I'm going to be able to reach for, hopefully one day soon, and throw it down, and we'd be delighted to do that here if that's possible. So, thank you, Madam President, again for this wonderful opportunity. I thank each and every one of you for your support."

At 11:59 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12:05 o'clock p.m.

STANDING COMMITTEE REPORT

Senator Hee, for the Committee on Judiciary and Labor, presented a report (Stand. Com. Rep. No. 5) recommending that the Senate consent to the nomination of KEITH E. Com. No. 1.

In accordance with Senate Rule 37(6), action on Stand. Com. Rep. No. 5 and Jud. Com. No. 1 was deferred until Friday, February 2, 2007.

The Chair re-referred the following Senate bills that were introduced:

Senate Bill	Referred to:
No. 598	Jointly to the Committee on Energy and Environment and the Committee on Water, Land, Agriculture and Hawaiian Affairs, then to the Committee on Economic Development and Taxation, then to the Committee on Ways and Means
No. 647	Jointly to the Committee on Energy and Environment and the Committee on Water, Land, Agriculture and Hawaiian Affairs, then to the Committee on Economic Development and Taxation, then to the Committee on Ways and Means
No. 883	Jointly to the Committee on Tourism and Government Operations and the Committee on Intergovernmental and Military Affairs, then to the Committee on Economic Development and Taxation, then to the Committee on Ways and Means

No. 1791	Committee on Health, then to the Committee on Ways and Means
No. 1885	Committee on Energy and Environment, then to the Committee on Commerce, Consumer Protection and Affordable Housing
No. 1950	Committee on Judiciary and Labor, then to the Committee on Ways and Means

Senator Kim rose on a point of personal privilege as follows:

“Madam President, I rise on a point of personal privilege.

“Madam President, interestingly enough, yesterday the House passed S.B. No. 638, S.D. 1, making appropriations for the Legislature, and I rise because it’s interesting to learn that as they went through their budget, last year they had over \$3 million in carryover and at the end of this year, they had over \$4 million in carryover. And why is this important? Well, it’s important because if you recall last year, members, the House said they couldn’t make payroll. The fact that we delayed the budget one day because we had concerns about our expenditures, the House Clerk said that they could not make payroll.

“Now, we knew at the time because the Finance Chairman at that time had told us and assured us that they had enough money to carry them over, and for some reason they declared they could not make payroll and they didn’t have the money to make payroll, and yet we find out today that they had \$3 million.

“So, you know, Madam President, the fact that the Minority Leader would jump to the occasion to use that to accuse me for delaying the budget, accuse me for exercising our fiscal responsibility over our legislative budget, to blame me for the fact why the House staff did not get paid when in fact this was a political ploy and he allowed himself to be manipulated by the House.

“Thank you, Madam President.”

Senator Hemmings rose and said:

“Madam President, I rise on a point of personal privilege, also.

“Madam President, I’d like to extend my apologies to the previous speaker.”

Senator Hee rose on a point of personal privilege as follows:

“Madam President, I rise on a point of personal privilege.

“Madam President, yesterday, as much as I’m a firm believer in the separation of church and state, a young man, a young Hawaiian man named ‘Ainoa Nani’ole gave a prayer in Hawaiian. It was a very moving prayer for those who may have understood it. Nonetheless, the Hawaiian will be entered into the record of the Journal of the Senate.

“Colleagues, I rise because yesterday there was a Senate bill we heard. My good friend Sam Slom and I were part of that august occasion. I rise to thank the Chair of Tourism and the Chair of Water, Land, Agriculture and Hawaiian Affairs for hearing S.B. No. 1052. What the Senate bill proposes is that the state conform to the correct spelling of Hawaiian words, evidently a daunting task to the attorney general who testified of the concern of the attorney general that Hawaiian words may be misspelled and therefore a cause of action may result in an appeal, which implies, of course, that legal documents in English are never misspelled, and that when they are misspelled, they end up on appeal. And then the governor’s administrator of DAGS testified about the inconvenience of converting technical computer equipment and hardware to conform with the correct spelling of the land, of the first nation, of these islands.

“Isn’t it interesting, Madam President, that your name, Hanabusa, is merely an English phonetic representation of a Japanese name and that the newest member, Tokuda, is the same. But we’ll never know if it’s To’kuda or Toku’da. And the reason is because without the benefit of the Chairman of Tourism, I would never have learned ‘soosen no okagede wareware wa iki te iru no dá’ – ‘dá’ is accented, because upon giving a speech last month, my good friend to my left said, ‘No forget, when you come to the da, it’s dá.’ So, what does that mean – soosen no okagede wareware wa iki te iru no dá? We look to the eldest for knowledge and enlightenment.

“Someday, lawmakers will get it and maybe this year the Senate will lead, because all of us will benefit as sons and daughters of these fair islands when the first language of these islands is properly spelled. We owe the ancestors nothing less. The diacritical marks allow those of us who may not be familiar

with the language of the ancestors the proper way to honor the words iruno'da. After all, we owe them that much.

"I recall several years ago, a friend of mine called me. His name is Wayne Kekina and many of you may know him as one of the few successful Hawaiian lawyers in town. He asked me to visit his father, Clarence, who I knew only as Mister, at St. Francis Hospice, so I went. And if you knew his dad, he's like his son, and he said that he was going to St. Francis Hospice because he intended to end his life. And so, in the course of the days that followed, I had great opportunity to speak to Clarence Kekina, and on one occasion he said to me, for no apparent reason, 'My name is Keakini not Kekina.' I asked him, 'How is it that Keakini became Kekina?' Whether it's true or not, he said, 'Some haole guy in the government was too lazy to make it right for my grandfather, so from that day forward, we became known as Kekina.'

"His granddaughter, Tana Kekina, is a lawyer with the prosecutor's office. She grew up on the mainland with her sister Cory. She was hapai at the time. And she came to me one day for no apparent reason and she said to me, for no apparent reason, 'What shall I name my child?' And I said, 'Name your child Keakini.' And in typical American thinking, she immediately responded, 'What does that mean?' And I said to her, 'What does Tana mean? What does Ruben mean?' her husband. 'What does Clarence mean?' her grandfather. 'Keakini means that is your name. You need not know anything more.' So she said to me, 'If the child is a girl or if the child is a boy, would that make a difference?' And my response was, 'Keakini is your name.' She named that child Keakini. That name shall live. That is the gift of Clarence Kekina.

"My colleague on my left has a new granddaughter. Her name is Vāve'a Lilinoe Keiko Ta'ati. I know it because he told me. And I know it because the diacritical marks told me it's Vāve'a not Vavea; it's Ta'ati not Taati. If we honor those who we love, we do it with respect and with the proper articulation that they are entitled.

"There are some here who are not Hawaiian whose children are Hawaiian. All of us here owe it to our children – Hawaiian and otherwise – to honor them by honoring the ancestors of this land. I hope as we move forward with S.B. No. 1052 that the Chairs of those Committees who deferred the action will consider these remarks. And isn't it ironic that the introducer of this Hawaiian language bill is named English.

"Mahalo."

Senator English rose on a point of personal privilege and said:

"Madam President, I rise on a point of personal privilege.

"I would like to first of all thank the previous speaker for articulating, I think, some pent-up feelings of many Hawaiians, of many people in this State. But just to be clear, S.B. No. 1052 would require the state to use the correct spelling of Hawaiian in our documents.

"It's very interesting what the attorney general said because currently we're misspelling the Hawaiian words without the diacriticals. The okina in Hawaiian is the thirteenth letter of the Hawaiian alphabet. So that means that if what the attorney general said at the hearing, that they're worried that it may give rise to legal action if the word is misspelled, every time they spell the word Hawai'i in a legal document without the okina, they're misspelling the word. We really would like to sit down and talk with the deputy attorney general that wrote this opinion

because the opposite of it is probably more true than the point that he was trying to make.

"Members, this is a very important bill and I'd like to ask all of you to support this because, like any language, the Hawaiian language has a Lexicon Committee. We have a written autography and the language is being standardized, and part of it is standardizing the spelling.

"We in the State of Hawai'i should be the first to use the correct spelling, and that's all that this bill is asking. And frankly, I can say that if the issue is the machines, hey, if we run Macintosh, we would all be there because the system already accepts Hawaiian as an international language and you just switch it to Hawaiian and the two diacritical marks are there. One is a little okina and the other one is the elongation over the vowels.

"Let me tell you other languages that depend on diacriticals – French, Spanish, a whole bunch of others. You don't see the French saying, 'We can't do it because we can't put the diacriticals in,' the Spanish because they can't put it in. It's an easy task. Why do they make it more difficult than it is?

"So I really ask for your support and I want to thank the previous speaker and the Chair of the Water, Land, Agriculture and Hawaiian Affairs Committee for hearing the bill. Thank you."

ORDER OF THE DAY

ADVISE AND CONSENT

Stand. Com. Rep. No. 5 (Jud. Com. No. 1):

Senator Hee moved that Stand. Com. Rep. No. 5 be received and placed on file, seconded by Senator Kokubun and carried.

Senator Hee then moved that the Senate consent to the nomination of KEITH E. TANAKA to the office of Judge, District Court of the Second Circuit, for a term of six years, in accordance with the provisions of Article VI, Section 3, of the Hawaii State Constitution, seconded by Senator Kokubun.

Senator Hee rose in support of the nominee and said:

“Madam President, I rise to support the nomination of Keith Tanaka to a position on the District Court of Maui. However, before doing so, I would like to make a few comments with regard to the process and then with regard to Mr. Tanaka himself.

“Members, before you is an action item to advise and consent on Keith Tanaka. It is an action which I will support. However, having said that, I would like to detail for the members what the Committee on Judiciary and Labor went through in reaching its conclusion, and I would like to point out areas that I believe need to be improved so that future nominations before this Body can be done with, frankly, more transparency. It may take a little while, but I would like to detail the effort that the Committee went through.

“Before I begin, let me compliment the members of the Committee who participated.

“Members, it has always been a sensitive area for some of us, and I will speak for me in particular, with the nomination process, particularly with the Judicial Selection Commission. There is a question on the selection questionnaire and I will read it so that you understand what the JSC is asking. Under professional responsibility, section F, question 1 says, ‘Have you ever been admonished or disciplined for a breach of the code of professional responsibilities, professional misconduct, or professional negligence?’ In this particular case, the nominee answered no. Question 5 of the same professional responsibility asks, ‘Has your behavior or conduct ever been criticized or have you been admonished in a written decision by any court?’ In this particular case, the nominee said no.

“These are very important questions, particularly if – and this is not the first time that this has occurred – the nominee says no, because the fact of the matter is, and the Committee in its deliberations asked the question, that is it reasonable that if you had answered in the affirmative, that the Commission may not have recommended you as one of the six to the appointing authority? In this case, the appointing authority is the Chief Justice because it’s a District Court nomination. In the case of the Circuit Court and the Intermediate Court of Appeals and the Supreme Court, the appointing authority, obviously, as it has been, is the Governor. I say this because there is on the Governor’s desk two judicial vacancies – one for the Intermediate Court of Appeals’ Chief Judge James Burns, and one for Circuit Court Judge Waldorf – and there will be four others.

“In this particular case before us, the nominee was selected by the Chief Justice and sent to the Committee on Judiciary and Labor. Unlike in the past, and with the support of the new Senate President, we conferred and we went further and we asked the Office of Disciplinary Counsel for any record involving the nominee. This is important because it sets a standard for all future lawyers who wish to be considered to the Circuit Court or the Intermediate Court of Appeals. And as you know, because the Governor made her list public, there are several lawyers who wish to be considered for the two vacant positions.

“Initially, the Office of Disciplinary Counsel said no, and the nominee, Mr. Tanaka, wrote to the Disciplinary Counsel and asked them to release the information. They declined. He appeared before the Disciplinary Counsel personally, and they declined again. The President was prepared on Opening Day to issue a subpoena. The chief attorney for the Committee on Judiciary and Labor prevailed upon the Chief Justice to

intervene. The Chief Justice sent a letter to the Office of Disciplinary Counsel and they acceded.

“I am confident, with the support of the President, that had the ODC continued to decline the effort, this matter would have been adjudicated in a court of law. Unfortunately, such adjudication may have exceeded the 30 days in which the Legislature is mandated to act, and although he may have been automatically approved, he may have been approved under a cloud, and no one wants to be approved under those circumstances. And to that extent, I wish to advise the members here that one of the issues the Committee will take is a con amendment that there is no automatic approval. It would be an automatic disapproval to light the fire under all of us here and those outside of these Chambers to move quickly and with full transparency.

“Members, this here is the record of Mr. Tanaka by the Office of Disciplinary Counsel. Let me state unequivocally that whatever matters were brought before the ODC involving Mr. Tanaka were dismissed, but it is important for this Body to understand what those matters may have been. They were not circulated to anyone and if you wish a copy, we will redact the names involved and we will provide you a copy.

“Under the professional code of responsibility in the Hawaii Rules of Court, it says under Rule 1.7, ‘Conflict of Interest. This problem arises when a lawyer is asked to represent two or more clients who may have differing interests, whether such interests be conflicting, inconsistent, diverse, or otherwise discordant. A lawyer should never represent in litigation, multiple clients with differing interests, and there are few situations in which he would be justified in representing in litigation, multiple clients. For this reason, it is preferable that he refuse the employment initially.’ I read this because Mr. Tanaka was put in a very difficult situation before Judge Raffetto.

“In this particular case, on July 28, 2003, 17 people associated with a cockfighting organization were indicted for racketeering, promoting gambling in the first degree, and cruelty to animals. On August 14, 2003, Judge Raffetto appointed Mr. Tanaka to represent the defendant and 10 others. Judge Raffetto, in my opinion, was incorrect in asking Mr. Tanaka to represent more than one client for the reasons I just read from the code of professional responsibility. In fairness to Mr. Tanaka, he said quite candidly to me privately in my office, ‘How could I tell a judge no? I make my living in front of the judge. How could I tell him no?’ That is a sad reality because in fact it’s a reasonable question, and one wonders how many other lawyers are put to the same question?

“So, Mr. Tanaka was asked to represent the defendant and 10 others. On July 12 to July 14, 2004, a jury trial for the first defendant was held. The defendant, whom Mr. Tanaka represented, was found guilty by a jury. On July 23rd, the defendant changed lawyers and filed a motion for a new trial. So, the defendant was found guilty. He was found guilty for racketeering, promoting gambling in the first degree and cruelty to animals. In fact, the defendant was the person who weighed a chicken and was not involved in the cockfight itself.

“A new trial was denied on December 9th, and on December 14th the defendant was sentenced to ten years for racketeering, five years for promoting gambling, and one year for cruelty to animals, of which the sentences were to be concurrently served. However, on May 17th, represented by a new lawyer, the Intermediate Court of Appeals reversed the conviction of the defendant, and in its ruling it said, ‘Defendant argues that the circuit court abused its discretion in denying his motion for a new trial,’ and the ICA says, ‘We agree. Trial counsel failed to

investigate a number of defense witnesses, reflecting counsel's lack of skill, judgment, or diligence. Trial counsel's joint representation of codefendants was a relationship giving rise to a conflict of interest between defense counsel and his clients.' And finally, 'The relationship adversely affected defense counsel's performance. The client did not consent to the relationship and all or a combination of the foregoing reasons is sufficient for a new trial.'

"This is important for the Senate to know. This is more important for the Judicial Selection Commission to know. So the question arises, Why didn't the Selection Commission know? Because from my point of view, it's a breach of duty conducted by the Judicial Selection Commission. If the Commission knew and decided to move forward, that's another matter. The fact is the Commission did not know and did not make an effort to find out. That is unforgivable.

"The defendant was granted a new trial and engaged the services of a third lawyer. The defendant pled to the same charges that he was found guilty of – racketeering, promoting gambling, and cruelty to animals. He pled, evidently, as far as I'm concerned, with the consent of the prosecutor, because upon pleading to the same counts that he was convicted of, the judge, the same judge who gave him ten years, gave him probation. The judge, an honorable man he may be, is part of the problem, and the judge should be held accountable to the problem.

"As such, next week Tuesday, February 6, your Committee will have two matters before the Committee in a hearing – one is that judges, S.B. No. 945, financially disclose their interest as federal judges are required; and secondly, S.B. No. 1954, that a full disclosure of the discipline of judges be made public. I believe, in this particular case, Judge Raffetto was never brought before the Commission on Judicial Conduct. We will never know until such laws become mandated.

"Let me say, members, that in your committee report on page two, I encourage you to read paragraph two, because to the extent that we may have differing opinions on each subsequent nominee, in particular, and let me be frank, with the Governor's choices, I want the record to show that the Committee on Judiciary and Labor has laid out standards which it intends to follow so any comment to the extent that no one knew, I hope, is minimized.

"In the case of Mr. Tanaka, let me say this, everyone who testified, testified in his favor. This is important to me because most of those who testified were public defenders. Others who testified included criminal defense attorneys and a prosecutor, and that's important. It was also important, in my opinion, that former Speaker of the House, Joe Souki, wanted to allow his testimony in support of the nominee as well.

"Mr. Tanaka has spent his career representing indigent criminal defendants. After graduating from law school, he was a public defender on Maui. In his own words he says, quote, 'My life has been dedicated to helping people. I have always dealt with the disadvantaged. As a public defender for six years, I represented indigent criminal defendants in all courts on O'ahu and Maui, Moloka'i and Lana'i.'

"Mr. Tanaka also says about the Dutro case, and this is the case that I've been referring to, 'I want to say this, with 20/20 hindsight, I now see things as I should have done differently. In agreeing to the court's request that I represent multiple defendants in the case, I should have gone beyond assuring just myself that there was no conflict and that the defendants were fine with my representation of all of them. I should have gotten written waivers of any potential conflict and made them part of

the record.' Mr. Tanaka is absolutely correct, because if he had gotten written waivers and if he had filed a motion for separate trials instead of asking by an oral request, which was granted by Raffetto, when the case went to the Intermediate Court of Appeals on appeal, the written record would have followed the case regardless of the fact that he was discharged as the attorney for the defendant. The Intermediate Court of Appeals would have known that Mr. Tanaka, in writing, asked for a waiver. The Intermediate Court of Appeals would have known that Mr. Tanaka filed a motion for separate trials. In fact, he did that, but he did that by oral request. The Intermediate Court of Appeals not having the benefit of knowing in writing what had transpired, had no other choice to make the conclusions it did and remand it for retrial, thereby casting a cloud on the professional conduct of Mr. Tanaka.

"I think all of us, as we move forward, learn by this experience. It's my hope that the Senate will hold these standards to anyone and everyone as they come before us so that a standard of expectation is fully understood by all of us here.

"The Hawaii State Bar Association rated Mr. Tanaka highly qualified. I disagree. He is qualified, but a highly qualified lawyer would have done as he said – he would have gotten it in writing. A highly qualified lawyer would have done as he said, filed a written motion for separate trials. That is what a highly qualified lawyer would have done, in my opinion. I believe the Bar Association in rating him highly qualified has done a disservice to the members of the Bar.

"The Bar Association also sent out, by electronic survey to its members, input on Mr. Tanaka. In deference to the Bar, I believe that does a disservice to the nominee, because how could it reasonably be expected that every member of the Bar would know what I have disclosed on this Floor this morning? By polling the members of the Bar without the benefit of knowing this kind of information makes the nominee a popularity contest as opposed to one who seeks the integrity of the nominee's credentials.

"The District Court is the people's court. It is where most of the cases are adjudicated. It is the court where people, as opposed to criminals who commit offenses of felonies A, B and C are conducted. In that regard, Mr. Tanaka will do an absolute superb job as a man of the people.

"Mr. Tanaka said in response to a question that I posed to him, that if you became judge, how would you change things for the better? And without blinking an eye, he said to me, 'I would never put an attorney in the situation that I was placed in.' He is thinking as a judge because of the experience. Having heard that from Mr. Tanaka, I am absolutely certain that had he disclosed the information, he is certainly someone who is qualified to serve on any court because he recognizes the difficulties that lawyers are placed upon, particularly in representing indigent clients. That is why I believe Mr. Tanaka merits the vote of confidence by all of us here on the Floor.

"Madam President, I would urge all members to vote 'aye' in confirming Mr. Keith Tanaka as a District Court Judge for the Second Circuit. Thank you."

Senator Baker rose in support of the nominee and said:

"Madam President, I rise to speak in support of the nominee.

"Madam President, I believe I speak also for my two Maui colleagues when I offer our unequivocal support for the confirmation of Keith Tanaka to the District Court, Second Circuit, which is the court in Maui.

“Keith is not a native son of Maui but he chose to move there after he came to teach in Hana and in East Maui and fell in love with our island. He returned after his law school graduation to be a public defender there to take up the cause for indigent individuals who may have transgressed and needed a voice before the law, and he’s done it admirably. He also brings that set of skills to the bench, and too often, I think, we don’t have that perspective in the judicial ranks. It’s usually the prosecutor’s end.

“I know that because of his family background, the work that he’s done with his exceptional son who is a student at Baldwin High School, that he’s going to have the compassion, the judicial temperament, and the concern of any defendant that comes before him. He’s ably suited, I believe, to be a judge in the people’s court and I urge all my colleagues to support this nomination.

“Thank you.”

Senator Gabbard rose in support of the nominee as follows:

“Madam President, I rise to speak in favor of the nominee on behalf of the Minority.

“Mr. Tanaka has had a distinguished career as a defense attorney and is known for his integrity and upstanding character, and I’m confident that he will make an outstanding District Court Judge.

“Thank you, Madam President.”

The motion was put by the Chair and carried on the following showing of Ayes and Noes:

Ayes, 23. Noes, none. Excused, 2 (Bunda, Inouye).

At this time, Senator Hee introduced Judge Tanaka and his family to the members of the Senate.

At 12:25 o’clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12:29 o’clock p.m.

STANDING COMMITTEE REPORT

Senator Baker, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 10) recommending that S.B. No. 139, S.D. 1, pass Third Reading.

By unanimous consent, action on Stand. Com. Rep. No. 10 and S.B. No. 139, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO CIGARETTE TAX," was deferred until Wednesday, February 7, 2007.

ORDER OF THE DAY

THIRD READING

S.B. No. 6:

Senator Kokubun moved that S.B. No. 6, having been read throughout, pass Third Reading, seconded by Senator Tokuda.

Senator Hee rose in support of the measure as follows:

"Madam President, I rise to speak in support of the bill.

"Briefly, I want to thank the Chairman of the Water, Land, Agriculture and Hawaiian Affairs Committee for not only introducing the bill but moving it quickly. Although it's not as I personally would like to see it – frankly, I would like to see a ten-year moratorium on all opihi consumption, retail and otherwise – I think it strikes a good balance of – what was that word – sustainability.

"Thank you."

Senator English rose in support of the measure and said:

"Madam President, I rise in support of the bill.

"I want to thank the Water, Land, Agriculture and Hawaiian Affairs Committee for trying to address the issue of Ni'ihau. In the committee report on page two, they're trying to fold it under the protections of PASH, and I think that may work.

"If you remember last year, we had an exemption for Ni'ihau and I think that the Committee is trying to address it in here. That's why I can support the bill.

"Thank you."

Senator Slom rose in opposition to the measure and said:

"Madam President, I rise in opposition to the bill.

"I sat through the hearings and also remember the debate last year and my concerns are basically threefold. One is that we really don't have a handle on the inventory and that's been asked for. It's been testified to that there is an inventory ongoing but I think it's premature until we have actual data because we're kind of flying blind on this issue. Secondly, there was talk about the exemption for Ni'ihau last year and I thought that was very clear. Putting the discussion about the PASH decision in the committee report this year I don't think really supports the exemption or the clarity that we need in a bill. Thirdly, there was an attempt to amend the bill by changing the size of the opihi and that was not adopted in this measure, so there still is significant economic impact, particularly for small businesses in this state.

"So, for those reasons, I'll be voting against the bill at this time. Thank you, Madam President."

The motion was put by the Chair and carried, S.B. No. 6, entitled: "A BILL FOR AN ACT RELATING TO OPIHI," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 22. Noes, 1 (Slom). Excused, 2 (Bunda, Ihara).

RE-REFERRAL OF SENATE BILLS

The Chair re-referred the following Senate bills that were introduced:

- | | |
|-------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Senate Bill | Referred to: |
| No. 1100 | Jointly to the Committee on Human Services and Public Housing, the Committee on Health and the Committee on Commerce, Consumer Protection and Affordable Housing, then to the Committee on Ways and Means |
| No. 1569 | Committee on Transportation and International Affairs, then to the Committee on Judiciary and Labor |
| No. 1800 | Jointly to the Committee on Transportation and International Affairs and the Committee on Judiciary and Labor, then to the Committee on Ways and Means |

Senator Kokubun, Chair of the Committee on Water, Land, Agriculture and Hawaiian Affairs, requested a waiver of the notice requirement pursuant to Senate Rule 21 for the following Senate Bills:

- S.B. No. 1219;
- S.B. No. 1532;
- S.B. No. 1544;
- S.B. No. 1596; and
- S.B. No. 1603,

and the Chair granted the waiver.

Senator Hee rose on a point of personal privilege as follows:

"May I rise on a point of personal privilege with your permission, Madam President?"

"Let me say that when you read this morning's lead editorial in the Star-Bulletin, 'Nominees to bench should fully disclose,' it is a follow-up, I guess, of Friday's lead editorial 'Full disclosure expected of judicial nominees.' I want to make a few comments and observations on the editorial.

"The first is that, and it really isn't the most important comment but I suppose we should correct the error, and that is that the editors of the Star-Bulletin in error had said that Mr. Tanaka had been reversed after he had been victorious at trial. In fact what happened is his client was found guilty of racketeering, gambling, and cruelty to animals and that his client discharged him and hired Peter Van Esser on an appeal after Judge Raffetto sentenced him to ten years. Van Esser successfully argued before the Intermediate Court of Appeals, which then remanded the case back to Circuit Court where Mr. Dutro discharged Peter Van Esser and hired Myles Breiner, at which time Mr. Dutro pled to the same counts and was given probation. So, this is just a matter of correcting an inadvertent error by the editors.

“The heart of the opinion, which I would like to comment really has not so much to do with the nominee, who I believe will be a good judge, but really with the process, which is what the editorial on Friday and the editorial this afternoon speaks to.

“Jeff Portnoy has been referred to and quoted in both Friday and today’s editorial as saying that Tanaka had disclosed the indiscretion that he left off originally with the Judicial Selection Commission, and that in Portnoy’s own words, Tanaka was involved in a quote, ‘Very complicated scenario,’ end quote. This scenario wasn’t complicated at all – the guy was found guilty, his lawyer was discharged, another lawyer was hired, and so on and so forth. That is not complicated. What became complicated is that the lawyer did not secure written waivers by each client waiving their conflict of interest, and the lawyer did not file a motion before the judge for separate trials. As a result, when the case went up before the Intermediate Court of Appeals, there was no written record that in fact what Mr. Tanaka had done orally could not be confirmed in writing. That is not complicated. That’s fundamental law 101.

“Portnoy makes it complicated and therein lies the problem, because Portnoy is correct. Mr. Tanaka, for whatever reason, disclosed the indiscretion before the Hawaii State Bar Association. The problem to me is the Hawaii State Bar Association, being notified of the indiscretion, continued to rank him highly qualified. And as I said on Friday, I disagree. A highly qualified lawyer would have secured a written waiver of conflict from multiple clients, and a highly qualified lawyer would have filed a motion before Judge Raffetto as opposed to an oral request. That is what a highly qualified lawyer would have done.

“The Bar, by insisting that the standard of conduct by Mr. Tanaka merits highly qualified, in fact lowers the standard for all lawyers, and all lawyers should be offended because it is reasonable for laypeople, like most of us on the Floor, to expect that a highly qualified lawyer would behave in a manner dictated by the preamble of the Hawaii Rules of Court and the Canons of Ethics prescribed to each lawyer before that lawyer becomes a professional.

“The other part that troubles me about the editorial this afternoon is this, and I’ll read it so that there’s no misunderstanding, ‘Hee says he wants people “to understand that the notice has been given and the expectation has been established” that disclosure of past adversity is expected of judicial nominees.’ That is accurate. And in fact, earlier in the editorial they say that ‘Senate Judiciary Chairman Clayton Hee is right in warning judicial nominees to disclose their past problems in the confirmation process. Failure to make such disclosures should result in extra scrutiny before candidates are confirmed.’ So I agree, and frankly, I thank the Star-Bulletin for recognizing that.

“This part I find a bit troublesome, they say that, ‘That policy can expect to continue for as long as Hee is judiciary chairman and a Republican resides in Washington Place.’ In 1988, as the Chairman of Judiciary, the Senate, which this opinion correctly articulates, was involved in a very difficult nomination. The nomination involved someone who failed to report contempt of court proceedings, content of court admonishments and criticisms against him, and more seriously, a Rule 11 against him by a federal judge. He did not disclose that and he was taken to task. The Governor was a Democrat. That should not be lost in the discussion here. Mr. Tanaka was appointed by the Chief Justice. The Chief Justice has a history as a member of the Republican Party, who was appointed Chief Justice by a Democrat Governor. It had nothing to do with seeing which political party or affiliation the appointing authority was then and is at this time.

“I hope, and I will rely on the members of the Judiciary Committee and indeed all of you here, that if the criticism or the process as we go about with subsequent nominees may appear to be unfair, that you will call it to my attention or the members of the Committee. But clearly, the fact that this Governor is a Republican is not new to the fact that I have criticized appointments made by Democrat Governors in the past. While I would hope that I could be better about it now than I was 20 years ago, I would hope that the standard would remain the same and that disclosure would be fully made before the Senate.

“Thank you.”

Senator Hemmings rose on a point of personal privilege and said:

“Madam President, I rise on a point of personal privilege.

“I’d like to remind this Body that in recent years, the last four most specifically, I believe a number of laws and a number of appointment processes, including the nomination of the Board of Regents, have been changed for the sole purpose of partisan politics. Things that were done for 30 or 40 years by Democrats all of a sudden became out of style and needed to be changed. So I beg to differ with the previous speaker.

“Thank you.”

Senator Hee rose again on a point of personal privilege and said:

“Madam President, I rise to agree with the previous speaker.

“I want to agree to the extent that he is right – some policies have changed. And in the case of a constitutional amendment that was put before the people, the people spoke loud and clear and decided that a new method of appointing board of regents was overwhelmingly, despite the odds, passed.

“Thank you.”

ORDER OF THE DAY

THIRD READING

Stand. Com. Rep. No. 10 (S.B. No. 139, S.D. 1):

Senator Baker moved that Stand. Com. Rep. No. 10 be adopted and S.B. No. 139, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Slom rose in opposition to the measure and said:

"Madam President, I rise in opposition to this bill.

"As you know, I voted against the increase in tax last year and one of the things that I said was that we're not really talking about people's health. We're talking about money and we're talking about taxation, and this bill, I think, was further proof of that. It was done in a very haphazard way. It was done erroneously, and even though the error was called to the attention of this Body, the bill had still passed, was signed into law, and my understanding is that the tax director was still

collecting on a per cigarette basis, as the Legislature in fact did intend but did not clearly define within the bill itself.

"I think for all bills we should be much more careful in terms of how we draft the bill, what we say, what we do so that our intent is very clear.

"Thank you, Madam President."

Senator Baker rose in support and stated:

"Madam President, I rise in support of this measure.

"I was surprised by the good Senator from Hawaii Kai's remarks since he voted for this measure in Committee, referring it to Ways and Means.

"As Chair of the Senate Health Committee last year, it was my responsibility to shepherd this bill through its process, and I apologize to my colleagues that with so many hands working on this particular measure, we did inadvertently leave out some language that the Revisor of Statutes corrected but we also need to provide these technical corrections so that future administrations and future tax directors will know exactly and very precisely what the Legislature intended.

"Although one could argue that since our collection for cigarette tax is on a per cigarette basis, there really wasn't need to include that particular phrase making it even more redundant. But nevertheless, this measure does correct some technical errors that the attorney general and others had pointed out to us after the measure was adopted.

"I appreciate my colleagues' indulgence and support and ask you to move this measure forward to the House. Thank you."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 10 was adopted and S.B. No. 139, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO CIGARETTE TAX," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 22. Noes, 2 (Slom, Trimble). Excused, 1 (Bunda).

Senator Espero, Vice Chair of the Committee on Economic Development and Taxation, requested a waiver of the notice requirement pursuant to Senate Rule 21 for S.B. No. 1500.

Senator Espero noted:

"Madam President, the bill is being added to a previously scheduled hearing and the notice was filed in the Clerk's Office this morning. Thank you."

The Chair then granted the waiver.

Ayes, 24. Noes, none. Excused, 1 (Bunda).

S.B. No. 840:

On motion by Senator Kokubun, seconded by Senator Tokuda and carried, S.B. No. 840, entitled: "A BILL FOR AN ACT RELATING TO KIKALA-KEOKEA," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, none. Excused, 1 (Bunda).

S.B. No. 950:

On motion by Senator Kokubun, seconded by Senator Tokuda and carried, S.B. No. 950, entitled: "A BILL FOR AN ACT RELATING TO TARO," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, none. Excused, 1 (Bunda).

S.B. No. 958, S.D. 1:

Senator Kokubun moved that S.B. No. 958, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Tokuda.

Senator Kokubun rose to speak in favor of the measure and said:

"Madam President, I stand in favor of S.B. No. 958, S.D. 1.

"Madam President, if you recall, we had similar measures that we addressed in Session last year. I rose in opposition to those matters at that time primarily because the Legislature had acted to establish a working taskforce with the Hawaii Farm Bureau Federation to look into coexistence, as it was named at that time. The idea was that the farm bureau would convene a meeting of farmers of different cultivation techniques, whether they were organic, whether they were traditional methods of farming or scientific methods. Essentially, the idea was to try

to gain some sort of consensus around the issue of the use of genetically modified organisms.

“Although the draft report has been submitted to the Department of Agriculture, it has yet to come out in its final form. However, I was able to see a copy of the draft report and it appears that there was some progress made by this coexistence working group, and in fact there was general agreement on three best management practices. So I think the coexistence discussion, although not complete and probably still in need of refinement, has gone a long way in terms of just bringing the different sorts of practitioners of agriculture to the same table to discuss in fact where there might be some common ground.

“Because that process has begun and because I’m very hopeful and optimistic that they can continue their discussion, I am changing my position, in a sense, with respect to this particular bill. I think when we heard discussion about this bill, which specifically addresses a moratorium on any genetically modified research on taro, the difference for me at this point in time really came about because of the input from the farming community and because of the input particularly from Native Hawaiian cultural practitioners. It was clear to me, and made even clearer, that taro signifies a very, very important and significant part of the heritage for Native Hawaiians. I’m sure there are others here who have better expertise in this area, with respect to kalo being a direct relative, if you will, for the beginning, the genesis of Native Hawaiian people.

“So, for me, kalo represents a significant component of that cultural heritage, and for that reason, I agreed to approve this moratorium for ten years. It’s not something that will go on forever, but I think the fact that there was a request for a moratorium for ten years really recognizes the significance of kalo to the Native Hawaiian people. And for that reason, Madam President, I’m asking my colleagues to support this measure.

“Thank you.”

Senator Whalen rose to oppose the measure as follows:

“Madam President, I rise in opposition to the bill.

“I believe this bill is unconstitutional based on the very speech that the good Chairman of Water, Land just gave. We’re not supposed to enact any law that respects the establishment of a religion, and the bill, in and of itself, clearly identifies this bill as pertaining to protect the spiritual religious beliefs of certain Hawaiian people.

“Whether it’s the host culture or not, we’re still bound by our federal constitution not to pass any bills respecting the establishment of religion, and since this bill is clearly intended to prevent scientific research based on a religion, I believe it’s unconstitutional and I’ll be voting ‘no.’”

Senator Inouye rose in opposition and said:

“Madam President, I will be voting ‘no’ as well on this measure, S.B. No. 958, S.D. 1. I have remarks I’d like to submit into the Journal.

“I do agree, though, that we certainly need to recognize the importance of kalo. Our wish is to at least separate the Chinese taro from this measure, then research can be continued by the University of Hawaii. Since we will not be doing that, Madam President, I will be voting ‘no’ and I have further remarks I’ll insert into the Journal.

“Thank you.”

The Chair having so ordered, Senator Inouye’s remarks read as follows:

“Dear Senator Lorraine Inouye,

I am one of your constituents who lives in Pepeekeo. Earlier, I sent you the update of my research to improve disease resistance of Chinese taro through genetic engineering (GE). This update can be downloaded at the following URL: <http://www.ctahr.hawaii.edu/gmo/documents/Update-GE-Dec14-06.pdf>.

I am attaching my written testimony against SB958. I believe that it is possible to have a win-win situation here. Co-existence of both GE Chinese taro and Hawaiian taro varieties is possible, because: a) Chinese taro rarely flowers under the environmental conditions of Hawaii; and b) Hawaiian taro varieties rarely produce viable seed in Hawaii. There is an extremely low risk of movement of transgenes from GE Chinese taro to Hawaiian taro varieties.

Please step up and be a leader in this issue. Yes, the anti-GMO group might have collected 800 signatures against GMO taro. However, how many of these people have really thought through the consequences of passing such a bill? You are a Senator and need to look at the long-term view not just the short-term fears.

Genetic engineering technology might be the only way to save taro in Hawaii if the deadly Alomae-Bobone viral complex ever reaches Hawaii from the Solomon islands or Cook islands. A 10-year moratorium will put an end to my research to improve disease resistance of Chinese taro through genetic engineering. Such a bill might discourage scientists from working on taro at all even when the 10-year moratorium ends, because they will be afraid that the extremist native Hawaiians might object to their research. I have talked to a lot of native Hawaiians, and they do not agree with the views of the extremists - they just want lots of poi on their table at a reasonable price and of good quality.

Best wishes,
Susan C. Miyasaka

Senate Bill: 958

Name: My name is Dr. Susan Miyasaka and I am testifying today as a private citizen. I am an Agronomist at the University of Hawaii’s College of Tropical Agriculture & Human Resources. I am the lead scientist in a research project to increase disease resistance of Chinese taro through genetic engineering (GE).

Position: AGAINST.

Why are we doing this research on GE Chinese taro? To improve the disease resistance and yield of Chinese taro. In ancient Hawaiian times, taro yields averaged 48,000 pounds per acre. In 2005, average yields were 11,000 pounds per acre; this is a reduction of 78%. Taro yields in Hawaii were at an all-time low in 2005 (since 1946 when records began). This decrease is partly due to diseases such as pocket rot and leaf blight.

What is our research progress on GE Chinese taro? We have inserted disease resistance genes into the Chinese taro variety Bun long. Recently, we found in tissue culture that one GE Chinese taro line with the wheat oxalate oxidase gene was able to completely stop the spread of *Phytophthora* leaf blight.

Reasons to vote against the bill:

1. There is a risk if this bill passes, that the taro industry could die off in Hawaii due to pests and diseases. It has taken us over 6 years to produce several GE Chinese taro lines that appear to have increased disease resistance against Phytophthora leaf blight. To place a moratorium on growing GE Chinese taro lines in the laboratory, greenhouse, and field would end our ability to find out whether this new biotechnology could increase disease resistance. If a moratorium had been passed against genetic engineering of papaya 15 years ago, today the papaya industry in Hawaii probably would be dead.

New pests and diseases enter Hawaii all the time. It may just be a matter of time before the Alomae-Bobone viral complex found in the Solomon Islands reaches Hawaii. Hawaiian taro varieties were tested in the Solomon Islands and all were killed by this viral complex. The insect vector required to transmit this viral complex is found in Hawaii. Imagine what would it do to our taro production. It would be foolish to throw away any potential tools that could help to improve taro production in Hawaii.

2. There is little risk of movement of transgenes from GE Chinese taro lines to traditional Hawaiian taro varieties. Chinese taro Bun long rarely flowers under the environmental conditions in Hawaii. Hawaiian taro varieties rarely produce seed that can develop into whole plants, because specialized pollinators are not found here. In order for transgenes to move from GE Chinese taro to Hawaiian taro varieties, Chinese taro would need to flower and produce healthy pollen (rare event), then the pollen would need to move via wind or insects to a female flower in a Hawaiian taro variety, then seed capable of growing into whole plants would need to develop (rare event). In order to produce conventional crosses of taro, breeders must hand-pollinate Hawaiian taro varieties to produce seed capable of growing into whole plants.

3. There is little risk that traditional Hawaiian taro varieties will lose their genetic purity due to GE Chinese taro. Traditional Hawaiian taro varieties are maintained through vegetative propagation ('hulis'). It is easy to distinguish taro produced from seed (very tiny) from those propagated vegetatively from 'hulis'. If seedlings are not desired, they easily could be pulled out to prevent confusion with traditional taro varieties.

4. There is little risk that GE Chinese taro in Hawaii will cause loss of biodiversity in taro. Genetic diversity is defined as the variation in genes within a species, in other words the greater the variation in genes, the greater the biodiversity. The center of origin for taro is thought to be in the Indo-Malaya peninsula and this area probably contains the greatest biodiversity of taro. The taro varieties brought here by the ancient Hawaiians come from a very narrow genetic base with little diversity.

5. There is little risk of food safety problems or increased allergic reactions if GE Chinese taro is commercialized. The federal government requires extensive testing that would identify and eliminate problems prior to commercialization. I am not an expert in food safety of GE crops; I defer to the experts. 'It is the position of the American Dietetic Association that agricultural and food biotechnology techniques can enhance the quality, safety, nutritional value, and variety of food available for human consumption and increase the efficiency of food production, food processing, food distribution, and environmental and waste management. The American Dietetic Association encourages the government, food manufacturers, food commodity groups, and qualified food and nutrition experts to work together to inform consumers about this new technology and encourage the availability of these products in the marketplace.'

Based on scientific evidence, I believe that it is possible to have a win-win situation here. Allow me to continue my research on promising, disease resistant lines of GE Chinese taro in the laboratory, greenhouse, and contained fields. Such research will NOT adversely affect the genetic purity of Hawaiian taro varieties.

Think about the downward trend in taro yield over the past 60+ years. **Ask yourself, will there be taro for future generations to enjoy?**

Please vote against S.B. No. 958."

Senator Hemmings rose to speak against the measure and stated:

"Madam President, I rise to speak against this legislation.

"It defies logic for many ways, but one that's extremely important is that obviously the technology of science nowadays can do much to enhance the value of taro and crops that are going to benefit human kind, including the very cultural group that says it wants protection. That's number one.

"Number two, this ten-year moratorium flies in the face of logic because I believe that the same principles that we're being asked to vote on today to vote in favor of it would be applied ten years from now.

"It doesn't make sense. It's not good for the host culture or for the people of Hawaii. It's not good for the world. GMOs find better ways to produce food that we can all consume so we can survive, and I would suggest the best thing to do is vote this down on the Floor.

"Thank you, Madam President."

Senator Espero rose to speak in opposition as follows:

"Madam President, I will also be voting 'no' on this measure.

"I understand the sensitivity of this issue and the needs of the Hawaiian community to look at taro. However, I believe that the bill is too broad. The ten-year period is too long. And if you look at those who did testify in support of this measure – UH, the Papaya Association Industry, the coffee growers, and many other industries – I feel that if this bill were to be amended to read something to the effect that traditional Hawaiian taro varieties of the species colocasia esculenta, then I believe I'd be able to support it.

"Thank you."

Senator Hooser rose in support of the measure and said:

"Madam President, I rise in support of this bill.

"This bill, as many members recall, was on the Floor last year and I spoke in support then. I'm not sitting on the Committee so I wasn't part of the Committee process, but I did read the committee report and some of the testimony, and I believe it reflects much of the same discussion that occurred last year. Some would try to frame this issue as an anti-GMO bill or an anti-science bill, but I see it as a pro-farmer bill, a pro-Hawaiian bill, and a bill that supports what the people who eat the product want.

"I think the fundamental question here is, Who is entitled to make the decision about the food that we eat? Is it the people that eat the food, in this case, the taro? The primary population

of people who consume taro would be Native Hawaiians. I enjoy a little bit of poi myself, but I think it's primarily the Native Hawaiian population, and they have come out in droves supporting this bill.

"Who grows taro? The farmers. The farmers, from all the testimony I could read and from my experience in the past, the farmers in this case are united. They support this bill and they don't want to risk the contamination that is possible by the inadvertent introduction, if you would, of GMO varieties.

"The farmers are supporting this bill, the consumers are supporting this bill, and the people whose culture is most closely tied to this plant are supporting this bill. So I ask myself, Who's entitled to make the decision? Is it the Native Hawaiian people? Is it the consumers? Is it the farmers? Or is it industry or some scientist in a room somewhere experimenting with the crop? I've come to the conclusion that, fundamentally, the people who are entitled to make this decision are the farmers, Native Hawaiians, and the people who consume the product.

"I encourage my colleagues to vote in support. Thank you, Madam President."

Senator Sakamoto rose in support with reservations and stated:

"Madam President, I rise in support with reservations.

"Hearing the arguments on both sides, certainly the farmers' opinions and cultural practices are very, very important, but so is research. And at this point, I hope the discussion continues, and should the bill not end up in this form, I hope there are improvements to be made.

"Thank you."

Senator Slom rose to oppose the measure as follows:

"Madam President, I rise in opposition to the bill.

"I sat through all of the testimony. I heard all of the arguments and there's a couple things that I think that we may be overlooking or assuming. First of all, no one is questioning the importance of taro, not at all. That's not an issue here. Number two, it's interesting to me that while this is being argued as not an anti-GMO bill, in fact that really is the basis of this legislation. We can talk about cultural sensitivity. We can talk about spirituality and all that, but the fact of the matter is, as was brought up in testimony, the diseases, the eradication of different crops, including taro, are very real.

"The question, I think, before the House is, if you have a problem with the crop, by the time the problem is identified, if you don't have a plan B, if you haven't had testing, if you haven't had research, you will lose that crop. We are all aware, even those of us like me who are not very akamai about flora and fauna, what's happened to the wiliwili trees around our community here when you see dead, brown stalks all around you. And because we did not have something that we could do, it was not a question of saying, well let's start the research now and find out, the damage is already done.

"The other point is, no one is forcing anyone to do anything with the modified crop. The fear that was expressed during the testimony was that the modified crops could contaminate other crops or other taro and force people to use the GMOs. That may be a risk. There's no question about it, but this is not a bill or not an activity where you're saying that a scientist in a locked room or a group of people are going to make a decision

and then everyone else has to follow that decision. That's not the basis for this.

"The fact that we would have a ten-year moratorium, particularly on testing, is amazing to me, particularly when apparently we're going to allow real avian bird flu into this state, into Manoa, into the University of Hawaii, which carries a great many more dangers and is a policy that I think we should question; yet we're going to test things like that but we won't test crops and food products that we wish to preserve and save.

"So, in any case, I don't see the positive nature of this bill, but I see a lot of negatives and I'll be voting against it. Thank you, Madam President."

Senator Menor rose in favor with reservations and said:

"Madam President, I just wanted the record to reflect the fact that I'll be voting in favor of this measure but with strong reservations."

The Chair so ordered.

Senator Hee rose to support the measure and stated:

"Madam President, as the author of the bill, I rise in strong support of the measure.

"A lot of the discussion really is at the heart of this bill and I want to recognize those who have commented on their positions for and against the bill because it really drives the dichotomy behind the bill – of profits, having others tell others what's best for them. For me, I recall the discussion of the farmers. A lot of what some of the previous speakers in opposition to this bill have said has merit, because it's true – we have problems in some of our agriculture industry. The example of wiliwili was brought up. Bunchy top in bananas is a problem. Science can, to some degree, address these problems. Science can, as we know, cause more problems. The rats, the mongoose, African snails, toads, coqui frogs . . . some have come in to solve other problems and caused more problems.

"This bill attempts to address a different approach to solving problems. It is an approach that asks to take preventative measures as opposed to a scientific resolution. For example, many Hawaiians have heart disease, diabetes, hypertension (high blood pressure) and science has addressed it with a pill – Lipitor or any other magic pill. In fact, some of our colleagues here may be taking Lipitor. I'm not one of those, because if we look to the elders, we don't see Spam eaters as opposed to fish, taro and dark greens. There are other ways to address the problems than a magic pill developed by an elitist scientist hidden away in an ivory tower. Don't eat the yolk of the egg – it has a lot of cholesterol – if you have high cholesterol. On the other hand, if you wish to have high cholesterol, eat all the yolks.

"The farmers who look at loliloli or pocket rot and leaf blight have suggested a different way to approach the problem, and that way is through feeding the aina – putting back nutrients into the soil, the aina, that which feeds you . . . ai'ana, aina. To a non-speaker, aina is land. To a Hawaiian, aina is that which feeds you – ai'ana, aina. So it's a different approach to a non-indigene. The problem might be solved by throwing fertilizer pellets at it. To a farmer in Kalihiwai named Chris Kobayashi, who is not Hawaiian, the problem is solved by letting the lo'i rest by putting back into the aina the organic nutrients, as opposed to a packet of Lipitor.

"It's a fundamental difference on approaching a product that happens to be culturally significant but is also a product that is

grown everywhere in the tropics throughout the world, but for a group of indigenous people, like others throughout the world, as rice is to other cultures, is significant.

“Interestingly enough, Ramon de la Pena, a member of the board of regents, one of the foremost experts on taro, when asked during his confirmation last year, did he support the genetic modification of taro, he said, ‘No,’ interestingly enough.

“So while no one could argue, I suppose, that science could solve the problems of the world, similarly, no one could argue that science has caused a lot of the problems. Whether it’s for profit, or expediency, or immediacy, who’s to say? What we do know is that when Cook came in 1778, in his journal he said, ‘The fields were verdant green with taro to support a population of 400,000 people.’ That much we know, and I think we can conclude that Lipitor was not available to that population of 400,000 indigenes.

“So I will support this bill and would ask you for a Roll Call vote. Thank you.”

Senator Hemmings rose in rebuttal and said:

“Madam President, I rise in rebuttal.

“I cannot sit idly by and allow everything that comes to this Floor to turn into racism or class envy. And I cannot allow politically correct history revision to permeate this discussion without rebuttal.

“I’d like to remind us all that some of the elitists and those in the ivory towers that aspersions have been cast upon on this Floor are the very people who through science have rid the world of polio, something I had and my family suffered from. These same elitist scientists and quote, unquote, ‘for profit’ people have eliminated tuberculosis from much of the world. Cancer and other diseases that are afflicting human kind are being relieved by these elitists in their ivory towers. I might further suggest that many of these people are doing these things not for profit but for human purposes.

“I, too, know a little bit about Hawaiian history and I do know that the life expectancy of a Hawaiian in the time of Kamehameha was considerably less, as is the life expectancy of all human kind just a hundred years ago was considerably less than it is now. Why? Because of science, because good men and women, regardless of their race or how much money they’re making, worked hard to make it so.

“This bill, as the previous speaker from Hawaii Kai mentioned, does not say we don’t have a choice. If you’ve got arteriosclerosis or heart disease, you don’t have to take Lipitor. This bill simply gives science the opportunity to give us choices, not take them away.

“Madam President, I don’t want to go through this Session having to stand up to rebut comments made on race or money or class envy. Let’s stick with the issues and argue the merits of the bill based on what it’s doing for the people – all the people – that we took the oath to protect and make the laws for.

“Thank you, Madam President.”

Senator Ige rose and said:

“Madam President, I’d just like to note my support with reservations.”

The Chair so ordered.

The motion was put by the Chair and carried, S.B. No. 958, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO GENETICALLY MODIFIED ORGANISMS,” having been read throughout, and Roll Call having been requested, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 16. Ayes with Reservations, 8 (Fukunaga, Gabbard, Ige, Kim, Menor, Nishihara, Sakamoto, Tsutsui). Noes, 8 (Baker, Espero, Hemmings, Inouye, Slom, Taniguchi, Trimble, Whalen). Excused, 1 (Bunda).

S.B. No. 1531, S.D. 1:

Senator Kokubun moved that S.B. No. 1531, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Tokuda.

Senator Whalen rose in opposition to the measure and stated:

“Madam President, I rise in opposition to the bill.

“I’m really concerned about the direction this Body is headed with the importance we’re putting on religious practices. This bill right in its findings says it’s of critical importance to Native Hawaiians for the preservation of their religious practices.

“We do have a constitutional obligation to stay neutral at the very least. Here in the previous bill we banned a certain scientific practice based on religious beliefs and now we’re changing the way we select people to this panel based on religious preferences. I think we’re definitely heading in the wrong direction if we continue to go down this road.

“Again, based on our constitutional obligation, I’ll be voting ‘no.’”

Senator Kokubun rose in support and said:

“Madam President, I stand in support of S.B. No. 1531, S.D. 1.

“Madam President, my good colleague from the west side of the Big Island I think is mistaken in terms of the reference to advocating for religious preference here. Essentially, the language just says that a member of the Coastal Zone Advisory Council should have substantial experience and expertise in traditional Native Hawaiian coastal and ocean usage and practices. I don’t see any reference to specific religious practices. So it’s respect to the resource management practices that are required here.

“Thank you, Madam President.”

Senator Whalen rose again as follows:

“Madam President, just briefly to point out to the Chairman, still speaking in opposition.

“On the first page of the bill, you’ll find what I quoted from right there.”

The motion was put by the Chair and carried, S.B. No. 1531, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO COASTAL ZONE MANAGEMENT,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

MESSAGE FROM THE GOVERNOR

Gov. Msg. No. 402, dated February 12, 2007, transmitting her statement of objections to Senate Bill No. 638 which she has returned to the Senate without her approval and which reads as follows:

"EXECUTIVE CHAMBERS
HONOLULU

February 12, 2007

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 638

Honorable Members
Twenty-Fourth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 638, entitled 'A Bill for an Act Making Appropriations to Provide for the Expenses of the Legislature, the Auditor, the Legislative Reference Bureau, and the Ombudsman.'

This bill appropriates moneys for session and nonsession expenses of both houses of the Legislature for the period up to and including June 30, 2008, including but not limited to, the 2007 regular session, and pre-session expenses and the expenses of any committee or committees established during the interim between the 2007 and 2008 regular sessions; for the expenses of the Legislative Auditor, the State Ethics Commission, the Legislative Reference Bureau, and the Office of the Ombudsman for fiscal year 2007-2008; and for defraying expenses of the legislative information system and the legislative broadcast program.

The general fund expenditure ceiling for fiscal year 2006-2007 was exceeded by Act 246, Session Laws of Hawaii 2006.

A portion of the moneys appropriated by this bill is for fiscal year 2006-2007. Section 9 of Article VII of the State Constitution provides in part: 'No appropriations in excess of [the general fund expenditure] ceiling shall be authorized during any legislative session unless the legislature shall, by a two-thirds vote of the members to which each house of the legislature is entitled, set forth the dollar amount and the rate by which the ceiling will be exceeded and the reasons therefore.' This bill does not contain the legislative declaration required by Section 9 of Article VII of the State Constitution, and is therefore invalid.

For the foregoing reason, I am returning Senate Bill No. 638 without my approval.

Respectfully,

/s/ Linda Lingle
LINDA LINGLE
Governor of Hawai'i,"

was read by the Clerk and was placed on file.

"Another example when we headed down this road and we ended up getting bit in the rear from it was when we changed our U.S. Constitution to allow the U.S. Senators to be elected

by popular vote. Since 1913, we've seen the federal government explode and reach all proportions, totally dwarfing state's rights – giving what many would call unfunded mandates to let the states control our educational systems. You name it – 'No Child Left Behind' is an example of what's caused great concern to many states.

“Going down this road, I think, would be another example of missing the boat and missing the vision that our forefathers had for this country and how to keep us truly all equal.”

ORDER OF THE DAY

THIRD READING

S.B. No. 605, S.D. 1:

On motion by Senator Sakamoto, seconded by Senator Tokuda and carried, S.B. No. 605, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO TEACHER LICENSING," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, none. Excused, 1 (Hooser).

S.B. No. 155, S.D. 1:

On motion by Senator Hee, seconded by Senator Kokubun and carried, S.B. No. 155, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO SEX OFFENDERS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, none. Excused, 1 (Hooser).

S.B. No. 959, S.D. 1:

Senator Hee moved that S.B. No. 959, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Kokubun.

Senator Trimble rose in opposition and said:

"Madam President, I rise to state the two reasons why I'll be voting 'no' on S.B. No. 959.

"Colleagues, I think this bill sends the wrong signal to all other state agencies, and all other departments, and all other government employees who take their mandated duties to heart and get the job done. By passing this, in a sense we're rewarding failure.

"The second reason for opposing this bill is that there have been concerns in the past and there remain concerns in our community that somehow our legal system is selectively enforced.

"So for those two reasons, I'll be voting against this bill. Thank you, Madam President."

At 11:56 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12:25 o'clock p.m.

At this time, Senator Hee moved that S.B. No. 959, S.D. 1, be recommitted to the Committee on Judiciary and Labor, seconded by Senator Kokubun.

Senator Hee noted:

"Madam President, I would like to offer an explanation.

"This bill is an effort to address the concerns articulated by law enforcement on the backlog. As the committee report properly states, this bill is an agreed to version of the prosecutor, the Hawaii Paroling Authority, the attorney general's office, the public defender's office and is an effort to address traffic violations because of the situation where it was estimated that 50 percent of the 74,000 outstanding bench warrants probably can be extinguished by the number of people presently incarcerated and the inability of the proper law enforcement agencies, for any number of reasons, to do so.

"Thank you."

The motion was then put by the Chair and carried, S.B. No. 959, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO CRIMINAL PROCEDURE," was recommitted to the Committee on Judiciary and Labor.

S.B. No. 945:

On motion by Senator Hee, seconded by Senator Kokubun and carried, S.B. No. 945, entitled: "A BILL FOR AN ACT RELATING TO ETHICS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 22. Noes, none. Excused, 3 (Bunda, Hooser, Taniguchi).

H.B. No. 1073:

Senator Baker moved that H.B. No. 1073, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Slom rose on a point of information and said:

"Madam President, I rise on a point of information.

"I understand that this is a House bill. I also understand that there was no testimony offered during this bill, but it's my understanding that what this bill seeks to do is already the law in terms of part-time seasonal employees not being eligible for the employee's retirement system. So, I guess I'm rising to ask

if someone can confirm that that is correct, and number two, why in fact then we would need this bill.

“Thank you.”

Senator Baker rose to respond as follows:

“Madam President, in response to the query from the good Senator from Hawaii Kai, the reading of the law that was provided to the Committee on Ways and Means as well as to the Senate Leadership was that due to a quirk in the measure that was adopted previously, our employees, when we changed the contributory rules for the ERS, would have been swept in to membership in the ERS. They could have gotten their money back but it seemed to us to make little sense to take it out of a paycheck only to give it back since many employees work only a session and do not remain as state employees. It created more paperwork and more other issues, and so that’s the reason for this measure.

“Thank you.”

Senator Slom replied:

“Thank you for the explanation, Madam President.”

The motion was put by the Chair and carried, H.B. No. 1073, entitled: “A BILL FOR AN ACT RELATING TO THE EMPLOYEES’ RETIREMENT SYSTEM,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 22. Noes, none. Excused, 3 (Bunda, Hooser, Taniguchi).

ADJOURNMENT

At 12:31 o’clock p.m., on motion by Senator Ige, seconded by Senator Whalen and carried, the Senate adjourned until 11:30 o’clock a.m., Friday, February 16, 2007.

ORDER OF THE DAY

THIRD READING

S.B. No. 14, S.D. 1:

Senator Sakamoto moved that S.B. No. 14, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Tokuda.

Senator Trimble rose in opposition to the measure as follows:

“Madam President, I stand in opposition to S.B. No. 14 as it is currently written.

“Colleagues, a year ago I stood and had a rather civilized conversation with the former Chair of Higher Education about this bill. There are also several of us in this Chamber that are alumni of the University of Hawaii, and I’m proud to consider myself one of those. If you read the bill carefully and you strip

everything away, you ask, ‘what is this bill going to accomplish.’ When I did that, my conclusion was that it would tend to have a board of regents that was a status quo board of regents – one that tended to keep the university going but not dramatically improve or change the character and function of the university or its level of accomplishment.

“The second thing I note is that in looking at the selection committee and the way they are selected, how are we to know that the members of the committee are able to distinguish the difference between a Ronald Rewald or an Alan Greenspan?”

“In the committee report it details what the board of regents, the candidates for being on the board of regents would know, but it doesn’t say that those on the selection committee would be able to distinguish whether the individual before them had these characteristics.

“And finally, it truly is impossible to take politics out of stuff, and I don’t think we really want to keep politics out of it. We are all popularly elected Senators of a district and we ran advocating change. Quite frankly, I think that we want to have the best of politics in the selection of our board of regents because we want a board of regents that is not the status quo, but a proactive one, because it is necessary to have positive change if the University of Hawaii is going to improve.

“And lastly, read the language of the committee report, which is very lengthy, and of the bill, because it is rich in material. It has so much there that Will Rogers could keep people entertained for several weeks.

“Thank you.”

Senator Gabbard rose to speak in opposition and said:

“Madam President, I rise in opposition to S.B. No. 14, S.D. 1.

“The Legislature, as we know, has the duty to follow the will of the people and have the board of regents be selected from a pool of candidates proposed by a candidate advisory council. However, I cannot support the current language of the bill because it goes against what the accrediting organizations and the university itself say are best practices for the continued growth and development of the University of Hawaii.

“Thank you.”

Senator Sakamoto rose in support of the measure as follows:

“Madam President, I rise in support of the measure.

“Madam President, over the past few years, concerns have been raised regarding appointments to the University of Hawaii Board of Regents. In particular, we have heard concerns regarding conflicts of interest and issues with sitting regents. There have been hints of appointments being made for political payback instead of vision and advocacy. Seats on the Board of Regents have become political plums, instead of positions focused on elevating our State University system to great heights. It seems that the main qualification for a position on the board is what you have done for a political insider, and not what you will do for the future of our university.

“And yet we have done all we can, where we can, to support our university. One example is the greater autonomy that has been granted to the UH system over the years, to where now the University of Hawaii has the ability to increase tuition rates.

“We have come to a greater awareness of the connection of the university to our workforce. We recognize that the economic well-being of our state and our Asia Pacific neighbors will be greatly affected by the ability of this Board of Regents to fuel the energy of inspiration, prioritize the proposals created with much determination, and reward the streams of perspiration.

“Your elected officials of this Legislature want the University of Hawaii to excel, thrive and soar.

“Based on those concerns, and after much deliberation, the people of Hawaii were asked to consider amending the state constitution to allow an advisory council to assist in naming the members of the Board of Regents. The council would present to the Governor a list of nominees qualified to help navigate our fleet from inspiration through perspiration and to greater acclamation.

“The proposal was the subject of a great deal of public debate. The current chair of the Board of Regents took the lead in defending the present structure. The exchange of ideas was vigorous, and both sides honed their messages and presented their positions clearly and professionally.

“But in the end, the people chose change, not the status quo. The people chose change.

“The voters said ‘Yes!’ But the question remained: What would the new council look like?

“We attempted to answer this question last Session. The Legislature did pass S.B. No. 1256 in 2006. The Governor vetoed that measure, saying it was premature. The measure was reintroduced this year based on the voters saying, ‘Yes, we want change.’

“We want to respect and honor the voters’ choice and we indeed have no other option. We have a responsibility to bring life to the express wishes of Hawaii’s voters. The constitution was amended to change the process, and we have an obligation to act as agents for that change.

“Your Committee on Education provided an opportunity for all to present concerns to us regarding the bill before us today, S.B. No. 14.

“When the administration did not present written testimony at the hearing on this bill, we contacted the governor’s educational point person, her senior policy advisor, and we asked for the Governor’s input on S.B. No. 14. Instead, we received comments on S.B. No. 617, a bill submitted that would state that the Governor should choose the council and the Governor should appoint its chair. It was clear that they felt the Governor’s wish to maintain control superseded the people’s unequivocal call to remove politics from the equation. They denied the need for change, ignored the call for change, and fought our efforts to bring about change.

“The Governor’s bill, S.B. No. 1517, and the University’s and, I assume, Board of Regent’s bill, S.B. No. 617, both called for appointments of the council members and the chair by the Governor. In essence, the Governor’s proposal would replace one hand-picked board with another. It would allow a committee of surrogates to do for the Governor what the public has said she should not be able to do for herself. The public has called for real change. We cannot in good conscience allow the formality of a council of surrogates to stand in for the reality of a council of outstanding individuals who share a commitment to rising above partisan politics and provincial concerns. The

public has called for real change, and this measure will deliver real change.

“In the process, comments have been made about who the members of the council are and how are they appointed. The Governor would have an appointment, the Senate President an appointment, the Speaker of the House an appointment, and that’s fairly traditional. Also, a member would represent the alumni and I’m sure people would not object to the alumni having a voice in the institution. A member would be appointed by the chairperson of the Association of Emeritus Regents, and that’s very difficult to say why shouldn’t the former regents have a voice in appointing someone to the council.

“Two positions have been questioned, appointment by the All-Campus Council of Faculty Senate Chairs and appointment by the Executive Council of the University of Hawaii Student Caucus. Faculty and students, I’m sure, want their university to excel. There’s no reason why not.

“But based on some of the concerns perhaps of fear that some of the politics might be too close, we amended the bill to say that those associations through their council and through their chairperson or co-chair cannot appoint themselves or cannot appoint someone who has been seated for five years to take away from the fear that the current people on those councils perhaps might try to steer the policy. So we’ve amended the bill to address the concerns.

“One of the former speaker’s comments talked about the Association of Governing Boards of Universities earlier on in the debate regarding shall there be this council, their president, Mr. Ingram, sent a letter saying, ‘The Association of Governing Boards of Universities and Colleges, the AGB, applauds your intention to strengthen the selection process for the University of Hawaii Board of Regents through the proposed amendment to the State of Hawaii Constitution embodied in S.B. No. 3125, S.D. 2, accompanying bills, S.B. No. 2716.’ Those are not these bills, but it concludes to say, ‘contains the necessary elements of an effective screening and nominating panel.’ I think I personally trust these organizations or components thereof to choose the best people for the panel.

“People may have concerns or fears, but in essence, the bottom line, Madam President, is the people have said they want change. This measure will address the change and we believe address it very responsibly.

“Thank you.”

Senator Hemmings rose in opposition to the measure and said:

“Madam President, I rise to speak against this legislation, S.B. No. 14.

“The diabolical cleverness of what is going on in the last four years astounds me. But it does not surprise me, because after 30 or 40 years of one-party rule, we’re now seeing people that have elected a new governor for the very word we use, change, and change is what we got, are now standing up and using the words du jour that I enjoy, status quo and change.

“This bill is a change, Madam President and colleagues. This bill changes the system to the way it was – where a handful of political interest and special interest groups, one of which is paid by the taxpayers of Hawaii in collective bargaining every year, regains control of the University of Hawaii. Politics? Yes, it is politics. Previous governors appointed the board of regents with no problem with the advise and consent and most of the time, from this Body, with the

blessing of this Body and the Legislature. And yes they were political appointees and yes they were party loyalists to the previous administrations, and so be it.

“And I will agree that some of the appointments to the board of regents by this Governor have been party loyalists, but I don’t think that’s all they’ve been. What they’ve been in addition, what their prior predecessors were not, was they were capable, objective people. Now, how can I make that judgment? It’s very easy – by the results.

“The previous board of regents prior to this board, appointed by then Governor, gave us Evan Dobelle. You want to ask the Senate Vice President about Evan Dobelle? She did an absolutely wonderful report of how that board of regents bypassed their own selection process to put in a crony of a downtown businessman to head the University of Hawaii, a guy who came into office at the university while this state was suffering, while we were cutting money from human services programs, and spent a million dollars refurbishing his house – even \$500 for a birdcage.

“So you want to talk about politics, let’s do it. Yes, this bill is a change. It’s changing the status quo of the governor and the board of regents and all they’ve done. Measure this university by its success under the leadership of this board of regents who had the guts to fire a Ron Rewald type president, Evan Dobelle, as urged by some good objective leaders on this Floor. This board of regents has put in a man of great stature nationally to run the University of Hawaii. UH is a university I can now be proud of because of the leadership of this Governor and the people she selected not based on politics but on their performance.

“I’m almost crying rather than laughing when people stand up and say we want to get rid of the politics and change the status quo back to what it used to be, and that’s what this bill does. And if you had a conscience and you were really interested in the University of Hawaii, you’d vote ‘no’ on this bill.

“Thank you, Madam President.”

Senator Trimble rose in rebuttal and said:

“Madam President, I rise in brief rebuttal.

“The Chair of the Education Committee stood and asserted that there were rumors of political payback, there were rumors of political favoritism during the last ten years. I cannot speak about the last ten years, but I can speak about the two years that I served on the Higher Education Committee, and during those two years, I don’t think that there was a single person that this Legislature confirmed about whom that accusation could be made. So perhaps if we’re assigning blame, it is because of the times and of the circumstances where we as Senators did not do our job in the confirmation process.

“Thank you, Madam President.”

The motion was put by the Chair and carried, S.B. No. 14, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO THE UNIVERSITY OF HAWAII,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 17. Noes, 4 (Gabbard, Hemmings, Slom, Trimble). Excused, 4 (Bunda, Hooser, Nishihara, Whalen).

Senator Sakamoto moved that S.B. No. 1147, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Tokuda.

Senator Trimble rose in opposition to the measure and said:

"Madam President, I rise in opposition to S.B. No. 1147.

"Yes, it is broken. We all admit the DOE is not working the way it should, but you don't improve a bureaucracy by expanding it and that's what this bill does. It creates another body, another group and puts it within DOE to fix a problem that should be able to be fixed without increasing the size of the bureaucracy.

"Thank you."

Senator Sakamoto rose to speak on the measure and said:

"Madam President, just to clear up a point, perhaps there's some concern over the Department of Education. The teacher standards board . . ."

The Chair interjected:

"Senator, for what purpose do you rise?"

Senator Sakamoto responded:

"I speak in support of the measure.

"The teacher standards board is tasked to administer tests, oversee requirements, and determine which teachers can be licensed as opposed to the Department of Education. I believe with our shortage of 1,500 teachers, we can get exemplary teachers that have been award winners in other states and this committee could help assist in the process to get highly qualified teachers via mechanisms of other state or national awards.

"So I ask our members to support the measure."

The motion was put by the Chair and carried, S.B. No. 1147, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO TEACHING LICENSURE," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 20. Noes, 3 (Gabbard, Slom, Trimble). Excused, 2 (Hemmings, Menor).

S.B. No. 948, S.D. 1:

Senator Hee moved that S.B. No. 948, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Kokubun.

Senator Slom rose in opposition to the measure and said:

"Madam President, I rise in opposition to this proposal.

"In the committee report, the Committee states that reducing the amount of nominees who would, quote, 'minimize the politicization of the appointment process and would allow for the most qualified to be selected,' unquote. First of all, one can argue back and forth whether or not we're talking about politicization of the process, but by reducing the number to a finite number of three and forcing the Governor or the Chief Justice to make a decision among those three really excludes a number of attorneys and highly qualified individuals who should be taken into the process. I think the attorney general made this remark. We've heard this statement before, regarding attorneys, and so I don't think we're either improving the situation or depoliticizing it by reducing it to three.

"Thank you."

Senator Hee rose to speak in favor of the measure as follows:

"Madam President, I rise to speak in favor of the matter before the Senate Floor.

"Members, I would ask that you folks support this measure. This is a measure that is wholly supported by the American Judicature Society who's the ethical watchdog of judicial systems nationwide. They have said time and again that by lowering the number by the Judicial Selection Commission, you raise the quality and in fact you depoliticize the system because the JSC, the Judicial Selection Commission, must review and recommend a lesser number so the fringe players would more likely not be included as they may at this time.

"This is a measure that was first introduced by me in 1987 when the governor was a Democrat. And I couldn't care less because this is about improving the system and the process, regardless of what political party affiliation may or may not be presiding on the fifth floor.

"The American Judicature Society was proudly represented by its president, Larry Okinaga, some years ago, and it was

Larry that called me. Many of you know Larry, who restated what the Committee on Judiciary, your Committee, is recommending today.

"So I hope that the members will consider this as an effort to raise the quality of nominees for the consideration by the Governor, regardless of political party affiliation.

"Thank you."

Senator Slom rose in rebuttal and said:

"Just a very brief rebuttal.

"First of all, I didn't see any testimony in support this year this time for this bill, number one. Number two, I think that many of the fine qualified individuals that would be considered if the numbers were larger might object to being referred to as fringe candidates. And finally, if the objective is to reduce the numbers and thereby reducing choice, we could only have to go as far as the educational system in Hawaii to find out that we reduce that like no other state to only one school board and we see what that lack of choice and what that number has done in terms of the quality of education.

"Thank you, Madam President."

The motion was put by the Chair and carried, S.B. No. 948, S.D. 1, entitled: "A BILL FOR AN ACT PROPOSING AN AMENDMENT TO THE HAWAII CONSTITUTION TO REDUCE THE NUMBER OF NOMINEES FOR JUDICIAL VACANCIES," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 21. Noes, 2 (Slom, Trimble). Excused, 2 (Hemmings, Menor).

S.B. No. 1665:

Senator Hee moved that S.B. No. 1665, having been read throughout, pass Third Reading, seconded by Senator Kokubun.

Senator Espero rose in support of the measure as follows:

"Madam President, I'd like to rise in support of this measure.

"There was an article in the newspaper recently which addressed a study that showed a connection between animal cruelty and future serial killers. So colleagues, I believe we are definitely taking a step in the right direction as we look at those who injure animals and abuse animals and could possibly transfer that violence to our society in the future.

"The irony in this measure I'd like to point out is that there is also a section, Section 5, which addresses and acknowledges the danger of having an animal ride in the back of a pickup truck in a non-secured carrier and untethered. I'm hoping maybe this will shed light on the fact that we also allow human beings to ride in the back of pickup trucks who are over 12 years old who are unsecured. Over the past few years, we have had many individuals killed and die after being thrown from a pickup truck.

"So I support this measure and hopefully we can look at other ways to provide safety for not only animals, but for ourselves. Thank you."

The motion was put by the Chair and carried, S.B. No. 1665, entitled: "A BILL FOR AN ACT RELATING TO ANIMALS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Noes, none. Excused, 2 (Hemmings, Menor).

S.B. No. 1954, S.D. 1:

Senator Hee moved that S.B. No. 1954, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Kokubun.

Senator Trimble rose in opposition to the measure and stated:

“Madam President, I rise in opposition to S.B. No. 1954.

“Colleagues, on this particular issue, we’re shooting in the dark – that is because we do not know what the court system is doing in terms of judicial discipline. If we are to make good law, then we have to know what is the current practice and what is considered, nationwide, best practices. And to do that, the appropriate process would be to ask somebody – like people from the UH Law School – to examine the current practices in the court system and then make recommendations to this Body for an effective law.

“Thank you.”

Senator Hee rose to support the measure and said:

“Madam President, I rise in support.

“For the very reasons the previous speaker articulated is the reason that we’re passing this bill. Presently, judges and justices are reviewed when disciplinary issues arise on the Commission on Judicial Discipline, a group of people picked by the Chief Justice. No one in the public knows what happens whether or not justices or judges are sanctioned, admonished, or criticized by the Commission on Judicial Discipline.

“This bill will require that any sanctions, admonishments, or disciplinary actions taken be made public to everyone so that the public has the confidence of those who preside over others in judgment. That’s specifically and precisely the reason for this measure.

“Thank you.”

Senator Trimble rose again and said:

“Madam President, I rise with brief comments.

“My concern is that when the process becomes totally open, what might happen is that there is less discipline done of the judicial system or judges because it is made public.

“Thank you.”

The motion was put by the Chair and carried, S.B. No. 1954, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO JUSTICES AND JUDGES,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 22. Noes, 1 (Trimble). Excused, 2 (Hemmings, Menor).

S.B. No. 1957, S.D. 1:

On motion by Senator Hee, seconded by Senator Kokubun and carried, S.B. No. 1957, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO CODE OF ETHICS,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Noes, none. Excused, 2 (Hemmings, Menor).

S.B. No. 68, S.D. 1:

On motion by Senator Ige, seconded by Senator Fukunaga and carried, S.B. No. 68, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO HEALTH,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Noes, none. Excused, 2 (Hemmings, Menor).

ORDER OF THE DAY

THIRD READING

S.B. No. 1444, S.D. 1:

Senator Espero moved that S.B. No. 1444, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Chun Oakland.

Senator Slom rose in opposition to the measure as follows:

"Madam President, I rise in opposition to this bill.

"At first glance, this would seem to be just an innocuous bill and just a couple of word changes and all of that. In fact, one of my colleagues and I were having a discussion just a few minutes ago about words, that words have consequences. The fact that this bill is going to take out the word 'punishment' and replace it with 'rehabilitation,' and 'reintegrate' with 'prepare for reentry,' and 'children' with 'youth' doesn't disturb me as much as the idea of the punishment part.

"I think we've seen in the last couple of years that this Legislative Body and the community certainly supports rehabilitation where rehabilitation is warranted, where it's wanted, where it's participated in. We've also seen examples like our deputy sheriff that was murdered a couple of weeks ago by someone who had been given rehabilitation, even after having a number of crimes that had been committed previously.

"I think that what this bill does is take us farther away from the idea that if there is a law that we have passed and we expect to enforce it, then there should be some consequences. And just by softening the words, or changing the context, or trying to make everybody feel better doesn't solve our societal problems.

"So I think it's serious enough when we try to change these words that somebody has to speak out about it, and I may seem old fashioned, but I think that even Mr. Dostoevski didn't write a novel called Crime and Rehabilitation.

"Thank you, Madam President."

"Madam President, I stand in opposition to S.B. No. 1709.

"Our highways are already crowded. I don't think that we need to pass a bill that will allow the number of vehicles to be

increased. We have people from all over the world that learned to drive all over the world that are participating on our crowded highways and this confusion of different driving styles leads to increased congestion. I don't think that we need to help increase this by passing this bill.

"What this bill does is it makes it easier or more attractive to people that do not have driver's licenses that are not familiar with our crowded conditions or different driving styles to participate and have a good time driving back and forth between Waikiki and our most popular visitor destinations. To go from a two-wheeled to a three-wheeled vehicle and suggest that it is appropriate in a bikeway I think will contribute to the hazardous conditions already that exist on our highways.

"For this reason, I think it is a bad move to pass this bill. Thank you."

S.B. No. 1047:

Senator Trimble rose in opposition as follows:

"Madam President, I rise in opposition to S.B. No. 1047.

"Colleagues, just a couple years ago, we passed a graduated licensing system. I think it is inappropriate and in conflict with the intentions that we just had to lower the driver age in this bill, which this bill would permit. Thank you."

Senator Ihara requested his vote be cast "aye, with reservations," and the Chair so ordered.

Senator Inouye rose to speak in support of the nominee and said:

“Madam President, I rise to speak in support of Gov. Msg. No. 271, Major General Robert G.F. Lee, for consideration and confirmation as Adjutant General and Director of Civil Defense.

“Major General Lee received his commission through the ROTC at the University of Hawaii, where he also received his BS in Mechanical Engineering and an MBA.

“In March 2003, General Lee was promoted to major general, the highest rank attainable in the Hawaii National Guard. As major general, he plays a vital role in homeland security and responding to natural disasters in Hawaii. Major General Lee now serves as the Homeland Security Advisor to the Governor, Director of the State Civil Defense, and Adjutant General for the State of Hawaii Department of Defense in charge of the Army and Air National Guard.

“During his hearing before the IGM Committee last week, Major General Lee received considerable testimony in support of his nomination. He was described as ‘an inspirational leader with great vision and compassion.’ Another wrote, ‘His command of the Hawaii National Guard has been extraordinary.’

“I am convinced that General Lee is the most qualified and suitable person to continue serving as Adjutant General and Director of Civil Defense. I urge my colleagues to join me in voting to advise and consent to his nomination.

“Thank you, Madam President.”

Senator Gabbard rose in support of the nomination as follows:

“Madam President, I rise in strong support of the reconfirmation of Major General Robert Lee.

“General Lee has shown great leadership during the last four years in overseeing the deployment and safe return of Hawaii’s National Guard troops in Iraq and Afghanistan and in responding to natural disasters in our State.

“I’ve got a very personal reason to support General Lee in that he helped bring my daughter, the former Representative Tulsi Gabbard Tamayo, and her comrades in the 29th Brigade home safely.

“Thank you, Madam President.”

Senator Hemmings rose to speak in favor of the nomination and stated:

“Madam President, I rise to speak in favor of the nominee.

“Before I do so, I want to acknowledge the Chairman of the Intergovernmental and Military Affairs Committee for conducting an expeditious hearing on this nominee and also for making decisions based on ability and performance and not on extraneous information or hearsay. I would like to also remember, for the purposes of this nominee, that this department was once in the backwaters of state government, but now with the homeland security being such a big issue and in the wake of the recent earthquake, we realize the importance of the civil defense and this position.

“In addressing the qualifications of General Lee, I’d like the record to reflect that this is a man who is most qualified and an honorable man, and I think we’re served well by advise and consent today in confirming his re-nomination.

“Thank you, Madam President.”

THIRD READING

MATTER DEFERRED FROM THURSDAY, MARCH 1, 2007

S.B. No. 1702, S.D. 1:

Senator Menor moved that S.B. No. 1702, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Hooser.

Senator Menor then offered the following amendment (Floor Amendment No. 1) to S.B. No. 1702, S.D. 1:

SECTION 1. Senate Bill No. 1702, S.D. 1, is amended by amending Section 1 to read as follows:

“SECTION 1. Section 342G-113, Hawaii Revised Statutes, is amended by amending subsection (b) to read as follows:

- “(b) Subsection (a) shall not apply to any dealer:
- ~~[(1) Who is located in a high density population area as defined by the director in rules, and within two miles of a certified redemption center that is operated independently of a dealer;~~
- ~~[(2) Who is located in a rural area as defined by rule;~~
- ~~[(3) (1) Who subcontracts with a certified redemption center to be operated on the dealer’s premises[?] or within one thousand feet of the premises; except that dealers who are located within the same shopping center may share a coordinated redemption center on the premises of the shopping center that is not located on either dealer’s premises or within one thousand feet of either dealer; provided that the coordinated redemption center is located within the premises of the shopping center.~~
- ~~[(4) (2) Whose sales of deposit beverage containers are only via vending machines;~~
- ~~[(5) (3) Whose place of business is less than [five] ten thousand square feet of interior space;~~
- ~~[(6) (4) Who can demonstrate physical or financial hardship, or both, based on specific criteria established by rule; or~~
- ~~[(7) (5) Who meets other criteria established by the director.~~

~~[Notwithstanding paragraphs (1) and (2), the] The director may allow the placement of redemption centers at greater than prescribed distances to accommodate geographical features while ensuring adequate consumer convenience.”~~

SECTION 2. Senate Bill No. 1702, S.D. 1, is amended by amending page 3, line 19 to page 4, line 2, to read as follows:

- “(5) Remain open at least thirty-five hours per week, of which not less than five hours shall be on a Saturday or Sunday; provided that the center is located in a high density population area as defined by the director in rules; and”

SECTION 3. Section 2 of Senate Bill No. 1702, S.D. 1, is amended by deleting the quote at the end of subsection (g) and adding a new subsection (h) to section 342G-114, Hawaii Revised Statutes, to read as follows:

“(h) The department shall encourage the facilitation of agreements between shopping center managers or owners, store owners, and dealers to establish redemption centers.”

SECTION 4. Senate Bill No. 1702, S.D. 1, is amended by amending Section 6 to read as follows:

“SECTION 6. This Act shall take effect on July 1, 2020.”

Senator Menor moved that Floor Amendment No. 1 be adopted, seconded by Senator Hooser.

Senator Menor rose in support of the floor amendment as follows:

“Madam President, I would respectfully ask my colleagues to vote in favor of this floor amendment because it would improve an important pro-environment bill.

“There are four key provisions in this floor amendment. The first provision would give retailers that do not wish to set up

redemption areas in their stores the option to subcontract with the recycling company or other entity to operate a redemption center on the premises of the shopping center in which the retailers are located even if the redemption center is located more than 1,000 feet from the retailer’s premises. I’d like to note that this kind of arrangement has been working quite well in the community of Mililani, which I represent, where a certified redemption facility has been operating in the parking lot of the Mililani Town Center and providing redemption services to customers who have been very satisfied that they’ve been able to redeem near where they shop.

“The second key provision would exempt retailers whose place of business is less than 10,000 square feet of interior space. This would address the concerns of several of my colleagues about exempting the smaller ‘mom and pop stores which means that the redemption requirements would apply only to ‘big box’ retailers and the big food chains.

“The third key provision would require the Department of Health to encourage the facilitation of agreements between shopping center managers or owners, store owners, and dealers to establish redemption centers. This provision would further assist retailers that conduct business in a shopping center and who want to consolidate their redemption functions by setting up a redemption facility in the parking lot of a shopping center or in an accessible area in a shopping mall. We’ve also inserted a delayed effective date to encourage further discussion.

“Madam President, these amendments together with the other provisions of S.B. No. 1702, S.D. 1, would bring our bottle law into line with the laws of other states. It should be emphasized that most of the other states that have bottle laws require retailers to participate in the redemption process and they’ve been able to achieve redemption rates that are higher than what we’ve been able to achieve here in Hawaii. In my mind, if the retailers on the mainland can participate in redemption, I believe that many of the retailers in Hawaii should be able to do the same. There’s no justifiable reason why large retailers in Hawaii should be given preferential treatment and exempted from participating in a program that’s designed to encourage the recycling of beverage containers that they put in the hands of consumers.

“I’d also like to point out that if retailers are unable, for whatever reason, to participate in redemption, the current law allows a retailer to obtain an exemption from the Department of Health if they can demonstrate physical or financial hardship, or both, based on criteria established by the Department of Health.

“I’d also like to point out that the administration supports a measure to require retailers to accept redemptions. In fact, last Session and this Session they introduced legislation that would accomplish that objective.

“Finally, Madam President, although our deposit beverage container law has generally been working, it can and should be improved. According to the Sierra Club, at least one quarter of a billion beverage containers in Hawaii are not being recycled annually and are winding up in the waste stream. Clearly, more needs to be done to encourage and to increase recycling efforts in Hawaii. In that regard, this floor amendment, along with the other provisions of S.B. No. 1702, S.D. 1, would go a long way to achieving this objective.

“Accordingly, I respectfully ask my colleagues to support this floor amendment so it can be positioned for a final vote on Thursday. Thank you.”

Senator Slom rose to speak against the floor amendment and stated:

“Madam President, I rise in opposition to the amendment.

“While I applaud the good Senator’s efforts to mitigate the problems caused for the smallest of businesses, this still is a problem that causes problems for businesses in our state and adds additional costs which eventually are passed on to all consumers. This bill and this law have been flawed from the very beginning. The arguments, of course, were that we’re going to take massive amounts of bottles and cans out of the waste stream, out of the areas particularly in your district, Madam President. We have no evidence to indicate that in fact there has been a sizable reduction in the amount of bottles and cans going into the landfill.

“What we do have is a tax which has taken a great deal of money from individuals. We see that the subsidies have been paid to recyclers, and recyclers turned around then and cheated little boys and little girls from the actual count of cans and bottles that they returned, opting instead to weigh the amounts and provide a far lesser amount.

“We also see that the State has been the real winner in all of this, sitting on approximately still yet \$24 to \$25 million in moneys from this tax program. While the good Senator talks about other states, independent research will tell you that there is no other state, no other state in the Union, that has a recycling program like ours where the state actually benefits in a financial way and which the desired results are not quantifiable.

“So, I think that while this may have been an effort of good faith and an effort in good direction, if you have to force people to do things, then there’s something wrong with the law, there’s something wrong with the policy, and that’s what’s wrong with this amendment.

“Thank you, Madam President.”

The motion to adopt Floor Amendment No. 1 was put by the Chair and carried.

By unanimous consent, S.B. No. 1702, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO THE DEPOSIT BEVERAGE CONTAINER PROGRAM,” was placed on the calendar for Third Reading on Thursday, March 8, 2007.

THIRD READING

S.B. No. 1689, S.D. 1:

Senator Baker moved that S.B. No. 1689, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Trimble then offered the following amendment (Floor Amendment No. 2) to S.B. No. 1689, S.D. 1:

SECTION 1. Senate Bill 1689, Senate Draft 1, section 1 is amended as follows:

1. By amending the definition of “state award” to read:

““State award”:

- (1) Means state financial assistance and expenditures that:
 - (A) Include grants, subgrants, loans, awards, cooperative agreements, and other forms of financial assistance;
 - (B) Include contracts, subcontracts, purchase orders, task orders, and delivery orders;
 - (C) Include tax credits allowed by sections 235-110.51, 235-110.9, and 235-110.91;

- (2) Does not include individual transactions below \$25,000; and
- (3) Before October 1, 2009, does not include credit card transactions.”

Senator Trimble moved that Floor Amendment No. 2 be adopted, seconded by Senator Slom.

Senator Trimble rose in support of the floor amendment and said:

“Madam President, I wish to thank the good Senator from Kaimuki for offering S.B. No. 1689. I think it’s long overdue and well deserved. The people have a right to know and have convenient access to where their money is going, where the state is spending its money. This bill provides that information.

“The amendment offered is merely that of a clarification and amplification that the information to be disclosed to the public also was intended to include that of tax forgiveness or tax credits under things like Act 221 and 225. Essentially what we are saying is there is no difference between the state spending money and the state giving tax forgiveness in the form of tax credits.

“I wish to further encourage my colleagues to vote for this measure by assuring them that my risings will be very judicious should this measure pass. Thank you.” (Laughter.)

The motion to adopt Floor Amendment No. 2 was put by the Chair and failed to carry.

The motion to pass S.B. No. 1689, S.D. 1, on Third Reading was then put by the Chair and carried, S.B. No. 1689, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO STATE FUNDS,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Hee then offered the following amendment (Floor Amendment No. 3) to S.B. No. 96, S.D. 2:

SECTION 1. To add a new section to SB No. 96, S.D. 2 to read as follows:

“SECTION 1. Chapter 302A, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§302A- Employees of the department and teacher trainees in any public school; reasonable suspicion testing; employee assistance. (a) The department, including the Hawaii state public library system, shall develop procedures for reasonable suspicion testing to obtain verifiable information regarding use of controlled substances under chapter 329, by persons who are employed in any position, including teacher trainees, that places them in close proximity to children. These procedures shall comply with chapter 329B.

Information obtained pursuant to this subsection shall be used exclusively by the employer for the purpose of determining whether a person is suitable for working in close proximity to children.

An employee who refuses to submit to drug testing under this subsection shall be placed on mandatory administrative leave of thirty days.

(b) If the test results under subsection (a) are positive, the employer may impose the following sanctions:

- (1) Refuse to issue a teaching or other educational certificate;
- (2) Revoke the teaching or other educational certificate;
- (3) Refuse to allow or continue to allow participation in teacher training;
- (4) Terminate the employment of any employee or deny employment to an applicant; or
- (5) Impose other administrative sanctions, including but not limited to, administrative leave.

if the employer finds by reason of the nature and circumstances of the use of controlled substances that the person poses a risk to the health, safety, or well-being of children, or otherwise negatively influences children by setting a detrimental example. Sanctions under this subsection may occur only after appropriate investigation and notification to the employee of the results and planned action, and after the employee is given an opportunity to meet and rebut the finding. Nothing in this subsection shall abrogate any applicable appeal rights under chapter 76 or 89, or administrative rule of the department.

(c) In addition to the sanctions under subsection (b), the department, by adoption of rules pursuant to chapter 91, shall provide for substance abuse assessment, treatment, and counseling, and referral to the employee assistance program under subsection (e) if suitable, if the department determines to retain the employee; provided that evidence of clinical discharge from substance abuse treatment or substance abuse counseling shall be a prerequisite to continued employment.

(d) Notwithstanding any other law to the contrary, for purposes of this section, the department need not conduct investigations, notifications, or hearings under this section in accordance with chapter 91.

(e) This section shall not apply to volunteers or other non-remunerated personnel providing support services at individual schools or any employee subject to a substance abuse testing policy under a valid collective bargaining agreement.”

Section 2. Sections 1 to 6 are renumbered as Sections 2-7, respectively.

Senator Hee moved that Floor Amendment No. 3 be adopted, seconded by Senator Kokubun.

Senator Hee rose in favor of the floor amendment as follows:

“Madam President, it’s no secret today that drugs are pervasive and have reached everywhere in society, not the least of which is in the Department of Education. Recently, at least in the recent past, four teachers have either been accused or have pled guilty to having an involvement with drugs.

“The HSTA has come under strict scrutiny by the public, and in fact, in recent media reports, they have been very critical of the teachers union for being truculent as opposed to being proactive when it comes to drug testing by teachers. As a result of the criticism, on Wednesday, February 28, 2007, Roger Takabayashi, the President of the Hawaii State Teachers Association, in a letter to the Editor, entitled: ‘HSTA for Test when Drug Use is Suspected,’ said in part, ‘For the record, HSTA has long been a strong supporter of drug-free schools. We believe no employee should come to school under the influence of drugs or alcohol. . . . Our proposal would drug test teachers when a supervisor has reasonable suspicion a teacher may be under the influence of drugs and provide rehabilitation for offenders – and there are harsh penalties for teachers who fail to cooperate.’

“The Honolulu Advertiser said recently, ‘Drug abuse within the school environment can’t be tolerated. That much is clear. . . . Whenever there’s a disturbing development – such as the latest report of a public school teacher arrested for a drug

offense – public pressure mounts for a crackdown to prevent this from happening again. And who could be surprised by that reaction? Protecting our children must be our top priority. Public employees working with children have a responsibility to serve as role models; drug use runs counter to that role. Drug use also diminishes employees’ ability to perform their duties. . . . To postpone adopting a new strategy any longer would be intolerable. If those entrusted with the schooling of our children won’t address the matter themselves, the public will be forced to address it for them as a last resort.’

“Members and colleagues, Senate floor amendment no. 3 does just that. In keeping with the comments of the President of HSTA, this amendment does not call for random drug testing, but rather reasonable suspicion. Members, I urge a ‘yes’ vote on this amendment.

“Thank you, Madam President.”

Senator Ige then offered the following amendment (Floor Amendment No. 7) to S.B. No. 1276, S.D. 2:

SECTION 1. Senate Bill No. 1276, S.D. 2, is amended by amending Section 1 to read as follows:

“SECTION 1. The legislature finds that the request for new commercial activity transporting passengers and their vehicles to utilize already crowded harbors has caused concern about the impact of such activity on other harbor users and the surrounding community. Increased traffic congestion, spread of invasive species, and threats to migrating humpback whales are indicative of concerns raised. The legislature further finds that there is confusion and ambiguity regarding the requirements for an environmental impact statement under chapter 343, Hawaii Revised Statutes. The legislature also finds that all major state commercial harbor improvements should comply with the environmental review process. The legislature further finds that the department of transportation may have abused its discretion in determining that the expenditure of substantial public funds for improvements to commercial harbors throughout the State to accommodate the operation of vessels that carry passengers and their vehicles between Hawaii’s islands did not require an environmental review pursuant to chapter 343, Hawaii Revised Statutes.

The legislature is concerned that any mitigating measures that may be contained in an environmental impact statement may not be implemented in the operation of vessels that carry passengers and their vehicles between Hawaii’s islands that require commercial harbor improvements.

The purpose of this Act is to:

- (1) Confirm the intent of the requirements imposed under chapter 343, Hawaii Revised Statutes, regarding when the need for an environmental impact statement is to be triggered with respect to major commercial harbor improvements undertaken to accommodate the operation of vessels that carry passengers and their vehicles between Hawaii’s islands;

- (2) Require the preparation of an environmental impact statement pursuant to chapter 343, Hawaii Revised Statutes, for major improvements being made to commercial harbors in the State that require the expenditure of public funds to accommodate the operation of vessels that carry passengers and their vehicles between Hawaii’s islands; and

- (3) Require that the department of transportation implement any mitigating measures that may be recommended in the environmental impact statement and, to the extent necessary, amend its agreement with any business or entity operating or proposing to operate vessels that carry passengers and their vehicles between Hawaii’s islands and for which the operation thereof requires major commercial harbor improvements to require that the business or entity implement any recommended mitigative measure in its operations.”

SECTION 2. Senate Bill No. 1276, S.D. 2, is amended by deleting Sections 4 and 5.

SECTION 3. Senate Bill No. 1276, S.D. 2, is amended by adding a new section to read as follows:

“SECTION 4. The department of transportation shall pay for an environmental impact statement under section 2 of this Act out of its existing funds.”

SECTION 4. Senate Bill No. 1276, S.D. 2, is amended by renumbering Section 6 as Section 5 and amending it to read as follows:

“SECTION 5. This Act shall take effect on July 1, 2007.”

Senator Ige moved that Floor Amendment No. 7 be adopted, seconded by Senator Sakamoto.

Senator Ige rose in support of the floor amendment as follows:

“Madam President, this floor amendment simply changes the requirements for an EIS in regards to the Superferry. First, the amendment would ensure that the Superferry would be able to proceed with current plans to launch this summer. Second, the amendment puts the onus on the Department of Transportation to conduct environmental impact statements. It’s clear from testimony presented to the Committees that there are environmental concerns that must be addressed. The third thing the amendment does is it instructs the department to work with any providers to mitigate any concerns that are raised during the environmental impact statements.

“So, I think that this is a good floor amendment that creates a ‘win/win’ situation for all of us in this community.”

Senator Slom rose in opposition to the floor amendment and stated:

“Madam President, I rise in opposition to the amendment.

“We applaud the authors of the amendment for having some movement in this direction regarding the Superferry, but I’m not convinced that what we’re doing is, as the previous speaker said, going to ensure that the Superferry is able to begin operations July 1st as scheduled, as planned, and as the vast majority of people in this State want.

“I think that what we’ve simply done is to move the environmental impact statement requirement from the Superferry to the Department of Transportation Harbors Division. Have there been problems and are there problems

with the Harbors Division, Department of Transportation? You bet. Are there legitimate concerns on each of the islands, including this island, regarding traffic and invasive species and other considerations? You bet. But, is the imposition of an environmental impact statement against this new mode of transportation really the answer to possibly 30 years or 40 years of included neglect and also inaction and inactivity from the department?

“My belief is that by shifting and keeping a responsibility for an EIS and in fact strengthening it, because you’re talking about, in the amendment, mitigating factors, that in fact you’re going to be inviting law suits, and going to be inviting opportunities for those who are opposed not only to the Superferry, but also to changes in transportation that will unite our islands and our State. You’re giving them the opportunity to further litigation and to delay or to stop this project. And while the Department of Transportation and the Harbors Division have specific responsibilities and they need to address those responsibilities, I think that again it’s basically just a shift in strategy in terms of trying to delay this project.

“I also believe that those people that oppose not only the Superferry but also they’ve opposed other developments and other transportation alternatives, didn’t suddenly come to the conclusion – well, okay, let’s let the Superferry go; let’s forget about all of our complaints, and all of our protests, and all of our rallies, and all of our petitions, and all of our emails, and let it go and just put the onus on the Department of Transportation. As long as we have lawyers, as long as we have law suits, as long as we have individuals and organizations that have told us repeatedly they are committed to stopping this alternative form of transportation, then I don’t think it’s important enough to say we have made the change to the Department of Transportation, and therefore I oppose this amendment.

“Thank you.”

Senator Espero rose in support with reservations and said:

“Madam President, I’d like to rise in support of this measure with reservations.

“I believe, Madam President, that this issue is important enough to continue the discussion and dialogue and to move over to the House to see what further amendments or changes they may suggest. This is a controversial issue for many individuals. However, we are looking at a mode of transportation which I believe will be highly used by residents and businesses throughout this state.

“I am concerned about some of the liability issues and future lawsuits which may occur, but I do feel that this is a measure which should continue and not be stopped at this time. Thank you, Madam President.”

President Hanabusa then called for the vote.

Senator Ihara rose and said:

“Madam President, could we have a brief recess please.”

Senator Whalen interjected:

“Point of order. You can’t call recess in the middle of a vote.”

Senator Ihara then said:

“Well, I actually called for it earlier but she didn’t . . .”

Senator Whalen interjected again:

“Point of order. You weren’t acknowledged, so you’re not allowed to speak until you are. Come on ‘Mr. Rules,’ you know that.”

The motion to adopt Floor Amendment No. 7 was put by the Chair and carried.

At 11:38 o’clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:47 o’clock a.m.

Senator Ige then moved that Stand. Com. Rep. No. 1028 be received and placed on file, seconded by Senator Sakamoto and carried.

By unanimous consent, S.B. No. 1276, S.D. 3, entitled: “A BILL FOR AN ACT RELATING TO THE ENVIRONMENT,” was placed on the calendar for Third Reading on Thursday, March 8, 2007.

Senator Fukunaga requested her remarks be inserted into the Journal, and the Chair having so ordered, Senator Fukunaga's remarks read as follows:

"Madame President, I rise to speak in favor of S.B. No. 907, S.D. 2, Relating to Aerospace Development.

"The purpose of this bill is to enhance Hawaii's competitive role in aerospace development – both nationally and globally – through a reorganization of the largely inactive Office of Space Industry, under DBEDT. The new Office of Aerospace Development will have expanded powers and duties to:

- Identify and promote opportunities for expanding and diversifying aerospace-related industries, including a Pacific international center for space exploration systems to support space exploration and settlement.
- Assist the University of Hawaii, local companies, research institutions, and other interested organizations in establishing partnerships with corporate, government, and university entities that can promote and enhance the State's aerospace industry.
- Leverage aerospace and related technological capabilities in the academic, public, and private sectors to enhance the State's ability to procure both federal and private funds.
- Promote innovative education and workforce development programs in Hawaii's aerospace industry.

- Monitor national and global trends in the aerospace industry and recommend programs and policies that can support aerospace industry development statewide.

“DBEDT maintained an Office of Space Industry from 1988-1995; however, for the past twelve years, it has operated in an ‘ad hoc’ manner to develop aerospace-related opportunities in Hawaii. Expanding the Office’s role will strengthen the State’s ability to serve as a catalyst in development of new aerospace opportunities for Hawaii, particularly the promise of the Pacific International Space Center for Exploration Systems (PISCES).

“This bill will also enhance workforce development opportunities and support for Hawaii’s emerging industries. Hawaii has many fine educational programs, from the middle school and high school level, multidisciplinary Project EAST, to the cutting-edge work being done at the University of Hawaii. Creating jobs to keep Hawaii students in Hawaii is critical to the successful diversification of the State’s economic opportunities.

“The funding proposed in SB 907, SD2 illustrates the Senate Majority’s economic diversification themes of (a) building on programs with a proven track record – such as the small-scale satellite, robotics and other projects undertaken jointly by UH College of Engineering and SOEST, or the success of Art Kimura’s Space Camp program, (b) leveraging federal funding through NASA AMES program and related ventures, and (c) capitalizing on long-standing Asia-Pacific relationships like the Japan-US Science, Technology and Space Application Program (JUSTSAP). Building upon these relationships at a time when Hawaii could become a leader in robotics for space exploration and training, advanced remote sensing and astronaut training makes good sense.

“For the foregoing reasons, Madame President, I urge my colleagues to vote in favor of S.B. No. 907, S.D. 2.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 715 was adopted and S.B. No. 907, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO AEROSPACE DEVELOPMENT,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

“Madam President, colleagues, I speak in favor of S.B. No. 31, S.D. 1.

“During W.W. II, the U.S. was locked in a desperate series of battles against a powerful and ruthless adversary, the Imperial Army of Japan. In the Philippines, the Filipino population was subjugated and suppressed by an enemy that trampled upon human rights.

“The U.S. government, upon cessation of the war, provided through agreements certain rights and benefits to those who fought on the side of the United States. Our government delineated four groups of Philippine veterans. The latter of the four, the New Philippine Scouts, served from October 6, 1945 to June 30, 1947.

“After the war, a number of them who were not prior U.S. citizens came to reside in Hawaii and became naturalized citizens. It is this group of veterans, who were entitled to receive a burial grant from the Office of Veterans’ Services, which this bill addresses. This is to rectify the financial constraints imposed by a rule which required the veteran’s survivor or interested party to produce an itemized paid invoice showing specific services rendered on behalf of the deceased veteran. This has caused the situation where deceased veterans were not properly buried until survivors or other interested parties raised the necessary funds for funeral, burial and subsequent transportation back to the Philippines.

“This bill hopes to bring closure by providing burial grant funds for these deceased veterans. It is the right thing to do. I ask for your support for this bill.”

Senator Fukunaga requested her remarks be inserted into the Journal, and the Chair having so ordered, Senator Fukunaga's remarks read as follows:

"Madame President, I rise to speak in favor of S.B. No. 1688, S.D.1, Relating to Economic Development.

"The purpose of this bill is to provide support for Hawaii's high technology sector by establishing a research and development follow-on funding program for Hawaii-based small businesses that received federal funding through the Hawaii Technology Development Venture (HTDV) or the National Defense Center of Excellence for Research in Ocean Sciences (CEROS).

"Small business dual use technology companies in Hawaii are vital to a 21st century diversified economy in Hawaii. They work to advance innovative concepts and new approaches to technology while fully leveraging existing facilities and infrastructure in Hawaii. Small, innovative high technology companies are providing critical new technology for the United States Department of Defense and are creating sustainable job growth in living wage jobs in Hawaii.

"And they are succeeding. Since 1989, 63 Hawaii companies have won 262 Small Business Innovation Research (SBIR) grant program awards, bringing nearly \$60,000,000 in Phase I and Phase II funds to Hawaii. In addition, more than \$58,000,000 in Phase III SBIR commercialization contracts has been awarded to Hawaii companies. For every state dollar invested in the program, Hawaii companies attracted nearly \$15 in federal SBIR grant funds or nearly \$30 for every state dollar invested when phase III funds are included.

"The R&D follow-on funding program in this bill would:

- Provide accelerated economic development in the fields of science and engineering of defense related dual use technology by providing follow-on funding to successful R&D projects for technology development, transition, and commercialization.
- Provide capital to sustain high growth new venture company infrastructure development to assist the enterprise toward commercial success.
- Promote high quality, high income job opportunities for Hawaii's residents and graduates of Hawaii's educational institutions, and reverse the brain drain by allowing talented scientists and engineers to return home to living wage jobs in Hawaii. For example, what that means in real dollars is a \$57,000 median wage for 13,800 high-tech jobs in 2005 (*source: DBEDT, Hawaii's Technology Sector: 2001 - 2005 Report*) — many of which are in businesses with either direct or indirect ties to dual use technology applications.
- Keep the high technology companies in Hawaii by limiting the need to seek out-of-state venture capital, which dilutes local ownership.

"Finally, and most importantly, an investment of state matching funds demonstrates a commitment to maximize the \$1.45 billion dollars' worth of federal dual use infrastructure invested in Hawaii between FY 03 to FY 07 (*source: data compiled by Office of Senator Daniel Inouye, U.S. Senate*). By adding a state funding component, we enhance the capabilities of Hawaii-based small businesses to compete successfully in

high technology R&D related to current and future United States Departments of the Navy and of Defense needs.

"In essence, the state matching funds are the equivalent of 'workforce development' for Hawaii dual use businesses. The follow-on funding, to be administered by the Hawaii Strategic Development Corporation, builds on the successes of two federally funded programs – HTDV and CEROS. Both of these programs solicit proposals through annual competitive solicitations, which are evaluated by an expert panel for technical merit, innovation, and value according to criteria published in the solicitations."

"Madam President, colleagues, I speak in support of S.B. No. 676, S.D. 1.

"We are all aware of the visual blight that infests our communities when individuals commit acts of graffiti along our highways, buildings, and roadways. The public at large has been incensed by those wanton acts caused by those who show no regard for the aina and their communities.

"This bill mandates penalties that carry fines of up to \$2,000 in addition upon a conviction of a first offense of aggravated criminal property damage to a sentence of 80 hours of community service to be spent eradicating graffiti damage, with the costs thereof borne by the offender. Upon a second conviction, it goes up to a 160 hours. If the offender is a minor, then his/her parents or guardian are financially and physically responsible for the eradication of the graffiti.

"If we ever hope to reduce the incidents of graffiti upon our community landscape, it will require the efforts of an entire society. Placing responsibility back upon parents or guardians

for their minor's actions will reestablish the connection required for a civil society.

"Thank you, and I ask that you vote in favor of this bill."

Senator Kim requested her remarks be inserted into the Journal, and the Chair having so ordered, Senator Kim's remarks read as follows:

"Madam President, I stand in support of this measure.

"The State in HRS 342G-3 had set a goal to reduce the solid waste stream to our landfills by 50 percent by January 1, 2000,

which it has clearly not met. In 2003 I spoke on a similar measure to mandate wet waste recycling for all State Facilities. In that floor speech I cited that the City and County of Honolulu, despite having a mandatory food waste recycling requirement in 2001, only diverted 47,000 tons out of 134,500 tons of food waste generated. In 2005, the City and County reported that it generated about 134,503 tons of wet waste and only diverted 32,447 tons away from our currently overfilled landfills. This measure as drafted could be the first step in significantly diverting a substantial amount of wet waste that is generated in our State by our public school system. Although this measure is only a pilot project for one or more of the Oahu school complexes, it will provide valuable data on how much food waste our schools generate. It will also give us more specific numbers on the cost to recycle wet waste at our DOE schools. I have previously stated this and will again, that our schools generate a significant amount of food waste Statewide. They should be actively recycling and teaching our students about our finite resources and the tremendous social value of recycling.”

"Madam President, colleagues, I speak in favor of S.B. No. 17, S.D. 2.

"This bill seeks to provide relief to small business owners that are professional architects, landscape architects, engineers, and surveyors from the requirement to defend the State in

contracts under \$5 million when the action is not the result of negligence, errors or omissions on their part. It was pointed out in testimony that the contract wording with the State, which required them to defend the State against claims, including those they had a marginal or net even a direct cause. This forced many to reject those jobs because the burden to indemnify the State proved to be too great, reducing the pool of applicable bidders.

"It was also pointed out that the University of Hawaii, the Department of Education, and the City and County of Honolulu did not require such language in their contracts.

"In recognition of seeking equity and fairness, I ask for your support of this bill."

THIRD READING

MATTERS DEFERRED FROM FRIDAY, MARCH 2, 2007

Ayes, 25. Noes, none.

S.B. No. 646:

Senator Inouye moved that S.B. No. 646, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Trimble rose in opposition and said:

"Madam President, I rise in opposition to S.B. No. 646.

"Colleagues, no testimony was offered in favor or in opposition to this bill. How can we, as a Body, create law without testimony and without discussion? I think it is a bad precedent and it also leads me to wonder whether it is a broadly based felt need or a law intended to take care of one situation.

"Thank you."

Senator Hooser rose to support the measure as follows:

"Madam President, I rise in support of this measure.

"I'd like to point out for the record that the bill has been introduced in past Legislative Sessions and testimony in support has come in. This bill arises after damages from hurricanes in my community that resulted in hotels staying vacant year, after year, after year, after the owners spent their insurance proceeds and left the properties in a dangerous condition. It addresses an important need in the community. It is not a mandate, but merely authorizes the counties to deal with those issues in an appropriate fashion.

"Thank you."

Senator Sakamoto rose in support of the measure with reservations and said:

“Madam President, I rise in support with reservations.

“The measure is worthy for keeping the public safe when properties are troubled or unsafe. I believe sometimes the remedy can be keeping the property safe, even though the owner may not be able to in as timely a manner as some would hope, to either demolish the building or take care of the conditions. Hopefully, as the bill goes forward, there will be remedies other than placing a lien on the property when the property is deemed unsafe.”

The motion was put by the Chair and carried, S.B. No. 646, entitled: “A BILL FOR AN ACT RELATING TO PROPERTY LEFT IN A DANGEROUS CONDITION,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Ayes with Reservations, 1 (Sakamoto). Noes, 2 (Ihara, Trimble).

S.B. No. 1711:

Senator Baker moved that S.B. No. 1711, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Trimble rose in opposition as follows:

“Madam President, I rise in opposition to this bill.

“As I read the bill, it’s not an equity issue but a pay increase, and it’s a pay increase that’s fixed to a percentage. The committee report said that we’re patterning it after what happens in the executive branch, and quite frankly, the executive branch process is done by commission and not set as fixed percentages, so I oppose this measure.

“Thank you.”

Senator Baker rose to speak in support of the measure and said:

“Madam President, I rise in support of this measure.

“As the heads of all of the legislative service agencies indicated, this measure definitely will bring them in line with their executive branch counterparts and it’s important that we be competitive so that we can recruit and retain the finest, and that’s what this measure aims to do.

“I urge my colleagues to support it. Thank you.”

The motion was put by the Chair and carried, S.B. No. 1711, entitled: “A BILL FOR AN ACT RELATING TO LEGISLATIVE SERVICE AGENCIES,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Noes, 2 (Slom, Trimble).

S.B. No. 260:

On motion by Senator Nishihara, seconded by Senator Kim and carried, S.B. No. 260, entitled: “A BILL FOR AN ACT RELATING TO HOLIDAYS,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Noes, 2 (Hemmings, Slom).

S.B. No. 966:

Senator Hee moved that S.B. No. 966, having been read throughout, pass Third Reading, seconded by Senator Kokubun.

Senator Trimble rose to speak in opposition and said:

“Madam President, I rise in opposition to this measure.

“Colleagues, it is my set of experience that in order to be elected governor and lieutenant governor, the current age is appropriate. What we expect from somebody that runs and is elected governor is the ability to experience life and develop connections that will aid them in the execution of these duties. I question whether a person at the age of 25 will have developed this set of experience and developed these connections to be able to do a good job.

“Thank you.”

Senator Hee rose to support the measure as follows:

“Madam President, this constitutional amendment . . .”

The President interjected:

“Senator Hee, for what purpose do you rise?”

Senator Hee responded:

“In support.

“Madam President, this constitutional amendment speaks to the age when one can run for the House, one can run for the Senate. Surely, if you can run for this august body, one would think that you could run for governor.

“Thank you.”

The motion was put by the Chair and carried, S.B. No. 966, entitled: “A BILL FOR AN ACT PROPOSING AN AMENDMENT TO ARTICLE V, SECTION 1, OF THE HAWAII CONSTITUTION, TO CHANGE THE AGE QUALIFICATION FOR THE OFFICES OF GOVERNOR AND LIEUTENANT GOVERNOR FROM THE AGE OF THIRTY YEARS TO THE AGE OF TWENTY-FIVE YEARS,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, 1 (Trimble).

Stand. Com. Rep. No. 663 (S.B. No. 1253):

BILL FOR AN ACT RELATING TO HAWAII HEALTH SYSTEMS CORPORATION CONTRACTS,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Taniguchi moved that Stand. Com. Rep. No. 697 be adopted and S.B. No. 49, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Ige.

Senator Trimble rose to speak in opposition to the measure and stated:

“Madam President, I stand in opposition to S.B. No. 49.

“Colleagues, there is nothing more unnatural than injection. Thank you.” (Laughter.)

The motion was put by the Chair and carried, Stand. Com. Rep. No. 697 was adopted and S.B. No. 49, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO NATUROPATHY,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Noes, 2 (Slom, Trimble).

Stand. Com. Rep. No. 698 (S.B. No. 53):

Senator Taniguchi moved that Stand. Com. Rep. No. 698 be adopted and S.B. No. 53, having been read throughout, pass Third Reading, seconded by Senator Ige.

Senator Slom rose to speak in opposition and said:

“Madam President, I rise in opposition to this bill.

“I remember when the marriage and family therapists first came and wanted recognition and licensure. There was no talk about money or anything else and now we’re mandating coverage on medical insurance and we’re talking about reimbursements by the State.

“So, for those reasons, I’m voting ‘no.’”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 698 was adopted and S.B. No. 53, entitled: “A BILL FOR AN ACT RELATING TO MARRIAGE AND FAMILY THERAPISTS,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 21. Noes, 4 (Hemmings, Slom, Trimble, Whalen).

Stand. Com. Rep. No. 704 (S.B. No. 1962, S.D. 2):

Senator Baker moved that Stand. Com. Rep. No. 704 be adopted and S.B. No. 1962, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Trimble rose in opposition as follows:

“Madam President, I rise in opposition to S.B. No. 1962.

“Colleagues, this is an important measure, and perhaps with some changes, it’s something we could all support. It has to do with sprinkler systems in condominiums. If you buy a condominium that has a sprinkler system in it, the value of the sprinkler system is included in the price you pay for it. If we

are going to offer tax credits to help the owners out to install a sprinkler system, then we will be providing them a benefit at the expense of other taxpayers who pay taxes. I can support the bill if this tax credit is reclaimed upon the sale of the property.

“If you would consider, you know, amending it as the bill goes forward, I would be happy to support it when it comes back to this Chamber. Thank you.”

Senator Fukunaga rose to support the measure and said:

“Madam President, I rise to speak in support of this measure.

“The current version of this bill is designed to address fire safety and to make it easier for those buildings that were constructed before 1975 to adopt sprinkler system changes for greater public safety. In the prior Committees, the deduction was narrowed so it would apply to those buildings that are most in need of this upgrade.

“Thank you very much.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 704 was adopted and S.B. No. 1962, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO TAXATION,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Noes, 2 (Slom, Trimble).

Stand. Com. Rep. No. 708 (S.B. No. 1092):

On motion by Senator Baker, seconded by Senator Tsutsui and carried, Stand. Com. Rep. No. 708 was adopted and S.B. No. 1092, entitled: “A BILL FOR AN ACT RELATING TO EDUCATION,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Stand. Com. Rep. No. 709 (S.B. No. 50, S.D. 1):

Senator Baker moved that Stand. Com. Rep. No. 709 be adopted and S.B. No. 50, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Trimble rose to speak in opposition and stated:

“Madam President, I rise in opposition to S.B. No. 50.

“Colleagues, let’s seek common ground. Let us grant each other that everything that the UH medical school does is extremely important. I have no opposition with that. I note that this is to support medical research. Again, that is very important. I have no problem with that.

“My problem arises when federal funds dry up. Are we, as a state, going to come in and fund the continuation of every project that the medical school gets when the federal funds come to an end? I have a problem with that because the justification for the medical school and its related research facilities is its ability to get federal research money, and this money is supposed to benefit not only the medical school, but the surrounding community.

“If we vote ‘yes’ on this bill, then we will be setting the precedent that every time federal funds dry up for a UH medical school research project, it is a moral obligation of the State of Hawaii to step in and continue the funding.

“Thank you.”

Senator Ige rose in support and said:

“Madam President, I rise to speak in support of this measure.

“I would like to note for the record that, in this case the program was given one month’s notice that the federal government was cutting funds from this program. Subsequent to that, the University has found fit to extend funding to this program for another three and then six months so that we can take a look.

“I would also like to note that the University of Hawaii is doing an exhaustive look at all of the research dollars that they receive from the federal government that would be subject to reduction and making an assessment about those programs that are most fit to be continued and those that would be stopped.

“So, this is sort of an emergency measure that allows us to proceed with this program as we examine what the impact of federal dollars would be. Thank you.”

Senator Baker rose to speak in support of the measure and stated:

“Madam President, I rise in support of this measure, partially because this measure is so important to the unique community that is Hawaii. It’s not just another federal research program. It provides cutting edge medical technology and research, especially for Asian Pacific Islanders who are living with HIV and AIDS.

“This particular research project has provided over 35 percent of all of the Asian Pacific Islander research patients in the United States, and the benefit of this research, with its focus on Asian Pacific Islanders, helps not only our residents here but many others throughout the Pacific Basin.

“This is very important research and one that because of the shortsightedness of the federal government, we shouldn’t allow to fall by the wayside. Thank you.”

Senator Trimble rose and said:

“Madam President, I rise to offer a comment.

“My office received one call in support of this measure. I talked to the person involved, and that person said that if this program ceases, they will have to go back to California.

“Thank you.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 709 was adopted and S.B. No. 50, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO AIDS RESEARCH,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, 1 (Trimble).

Stand. Com. Rep. No. 710 (S.B. No. 1919, S.D. 2):

Senator Baker moved that Stand. Com. Rep. No. 710 be adopted and S.B. No. 1919, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Slom rose to speak in opposition to the measure as follows:

“Madam President, I rise in opposition to the bill.

“Initially, I supported the intent of the bill, which is to help low and moderate income individuals through various means under the umbrella of asset building, which is one of the, I guess, key buzz words or buzz terms this session – asset building, it means different things to different people. What it doesn’t mean, though, is that middle income taxpayers have choices in their own asset building. We again rely on government to manipulate income, manipulate tax rates, and so forth.

“The cornerstone of this particular bill and this particular draft is expanded EIC for so-called low income people. However, the percentage is not specified in the bill because there’s a lot of discussion about it and there is a defective date. So, while there is an intent to do well, the intent is not clear and not specified. I would like to see, if we really want to help in asset building and we really want to help all of our people, including the upper moderate and lower middle income and however you describe people, allow them to have more choices, more tax reduction, more spending reductions by this Legislative Body, so that there’s not more demands on their income.

“And so I think, unfortunately what this bill does is to redistribute income for a certain group of people demographically identified by the Legislature, but doesn’t do anything for the overall reduction and asset building of the vast majority of people in this State.

“Thank you.”

Senator Hooser rose in support of the measure as follows:

“Madam President, I rise in support of this measure.

“Madam President, colleagues, this is a good bill. Asset building is long overdue, and as the previous speaker spoke, the earned income tax credit is indeed an important cornerstone of this effort.

“I’d like to state for the record that 30 percent of the people who live in our State – 30 percent of the people – cannot survive and pay their basic bills without some kind of support either from families or government. One in five households in Hawaii have zero or negative net worth – the sixth worst ranking among states. One in four households would not have enough assets to subsist at the poverty level for three months if their income were disrupted, and 69 percent of the jobs in Hawaii – 69 percent of the jobs – don’t pay a living wage, making it difficult for many families to make ends meet, let alone pay off debt, build savings, start businesses, or pursue the ‘American Dream’ of buying a home.

“As a society, we continue to look for ways to provide that 30 percent with a hand up, not just a handout. The earned income tax credit is a powerful tool to help our working people move out of poverty. The Hawaii EITC simply piggybacks on the federal EITC by providing low income working families a refund equal to a blank amount at this point. The number discussed has been from 5 to 20 percent of their federal EITC return even if they don’t owe state income tax.

“The EITC is a way to ‘make work pay’ by providing low and moderate income working families a credit on their earned income. It rewards work. It provides meaningful tax relief for those who need it most. The earned income tax credit has won long standing bipartisan support and was first established by Republican President Gerald Ford in 1975. President Reagan expanded the program, calling the EITC ‘the best anti-poverty, the best pro-family, and the best job creation measure to come out of Congress.’ Presidents George Bush, Sr., and Bill Clinton

also expanded the federal EITC. The state version will be a supplement to this proven federal program and follows 21 other states that have already implemented similar measures.

“I have many other comments I’d like to submit for the record, but I’ll conclude now by encouraging my colleagues to vote in support. Thank you.”

The Chair having so ordered, Senator Hooser’s additional comments are identified as ATTACHMENTS A, B, and C to the Journal of this day.

Senator Slom rose in rebuttal and said:

“Madam President, just a few brief rebuttal remarks for the good Senator from the Garden Island.

“It always makes me smile when our good friends across the aisle quote a Republican President, particularly Ronald Reagan. I would suggest that President Reagan would be rolling in his grave if he were to look at the EIC program today and how it operates. In fact, that was one of the criticisms of the program – that as much as 32 percent of the people enrolled in the federal program are in noncompliance. It’s a problem that has been recognized by the Internal Revenue Service.

“As far as the other statistics that were offered, I can’t argue with most of them except to say, what is the cause of people having a more difficult time in this State? Does it have anything to do with the fact that we’re the second highest taxed state in the nation and that we continue to increase taxes, regulations, and fees on our population? Well, maybe it will all work out. Maybe pretty soon all of us will be in the lower moderate income or lower, lower income bracket, and then we can all take care of this. But then that begs the question – who will be working and who will be able to afford to pay all of the taxes, all of the government subsidies, all of the government regulatory programs?”

“Thank you, Madam President.”

Senator Hooser rose in rebuttal as follows:

“Madam President, a brief rebuttal if I may.

“The good Senator was accurate when he said that the IRS found that a percent or 34 percent error by claimants with EITC, but I have to point out that was a 1982 statistic. Since then, many, many measures have been taken to improve that statistic. Both in 1997 and in 2001, the Economic Growth and Tax Relief Reconciliation Act of Congress implemented significant changes, which alleviated many of these concerns. In tax year 2004, the IRS implemented new tests to improve accuracy and oversight and the GAO Office stated their tests proceeded smoothly and largely as planned. For the first time ever in 2004, the program was taken off, or de-listed, as a problem by the National Taxpayers Advocate Organization, and confirmed by the IRS’s 2005 report to Congress.

“So, there were some problems back in 1982, but this is the year 2007. Those problems have been addressed, and we need to move forward with this issue. Thank you.”

Senator Slom rose and said:

“Madam President . . .”

President Hanabusa interjected:

“Senator Slom, you have already spoken twice on the measure so you’re in violation of Senate Rule 69.”

Senator Slom continued:

“Oh, I was just going to clarify something that the good Senator said that is included in the committee report.”

The President stated:

“Senator Slom, Senate Rule 69, you’re out of order.”

Senator Slom commented:

“Okay, well, I would urge everybody to read page 2 of the report. It’s the year 2003. Thank you, Madam President.”

Senator Trimble rose in opposition to the measure as follows:

“Madam President, I rise in opposition to this measure.

“We are one of the few states in the United States where we actually have people that don’t owe federal income tax that pay State of Hawaii income taxes. So, if we’re worried about the burden of those lower income people in Hawaii, the first place to start, if we’re looking at the federal model, is to increase the standard deduction and the personal exemptions.

“It is strange that we keep expanding tax credits for those that owe lots of money and then we feel that we have to do the same for those at the lower end of the economic spectrum. At the end of the day, when you figure out all the tax credits we’ve given, where’s this money coming from? It’s coming in the form of higher taxes. The place to start is not to collect the tax money to begin with by increasing standard deductions and personal exemptions, then we would not be bribing people with their own money.”

Senator Bunda requested his vote be cast “aye, with reservations,” and the Chair so ordered.

The motion was put by the Chair and carried, Stand. Com. Rep. No. 710 was adopted and S.B. No. 1919, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO ASSET BUILDING,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Ayes with Reservations, 1 (Bunda). Noes, 2 (Slom, Trimble).

Stand. Com. Rep. No. 711 (S.B. No. 704):

Senator Baker moved that Stand. Com. Rep. No. 711 be adopted and S.B. No. 704, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Trimble rose in opposition to the measure as follows:

“Madam President, I stand in opposition to S.B. No. 704.

“Perhaps I’m the only member present that can stand and talk freely on this issue. Colleagues, what this issue does is it extends preferential tax treatment to those people that are blind or disabled to that which is a trust for the blind or disabled. My problem is that we should not assume that because of some person’s physical characteristics, that they have less capacity than the rest of us, and if there is a test, it should be a needs test and there should be a cap. Whether that cap be \$100,000 or \$10 million, there should be a cap.

“Thank you.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 711 was adopted and S.B. No. 704, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, 1 (Trimble).

Stand. Com. Rep. No. 713 (S.B. No. 1281):

On motion by Senator Baker, seconded by Senator Tsutsui and carried, Stand. Com. Rep. No. 713 was adopted and S.B. No. 1281, entitled: "A BILL FOR AN ACT RELATING TO STATE OFFICERS AND EMPLOYEES EXCLUDED FROM COLLECTIVE BARGAINING AND MAKING APPROPRIATIONS AND OTHER ADJUSTMENTS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Noes, 2 (Slom, Trimble).

THIRD READING

S.B. No. 1818, S.D. 1:

Senator Inouye moved that S.B. No. 1818, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Trimble rose to speak in opposition and said:

"Madam President, I rise in opposition to this measure.

"Colleagues, the justification was that because of the amount of money that needed to be spent for capital improvements, that a longer time for the concession needed to be approved. That argument could be made for for-profit entities as well as not-for-profit entities.

"Secondly, the one that this bill was introduced and testified in favor of it was only one of the four counties. If it was a broadly felt need, we should have had testimony in favor of it from all four counties. So, this leads me to believe that it may be for the benefit of one party on one island which happens to be a nonprofit.

"I don't think this is the way we should change law. Thank you."

Senator Baker rose in support of the measure as follows:

"Madam President, I rise in support of this measure.

"While it's true that the County of Maui requested this measure, it is also true that there are impacts in other areas, particularly when you're dealing with historic buildings. The particular building in question is Iao Theater which is owned by the county and for which the county would like to be able to provide a long-term lease to a nonprofit who could then seek funding to repair and maintain it and return it to its former glory. But because of our concession law, the County of Maui is not able to enter into a long-term lease.

"I suspect that there are other situations in the other counties that, were this exemption to be granted, would be able to take care of some of their historic buildings through a lease to an appropriate nonprofit to make sure that we preserve parts of our heritage without the burden falling on the taxpayers.

"I believe this is a good measure and ask my colleagues to move it forward. Thank you."

Senator Trimble rose and said:

"Madam President, I rise to change my vote from a 'no' to a 'WR.' Thank you."

The motion was put by the Chair and carried, S.B. No. 1818, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO COUNTY CONCESSIONS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

"It's within the purview of the power of this Legislature to address the appointment process for state offices. I believe it's unconstitutional to do so for the United States Senate, therefore this bill will be deemed unconstitutional if tested by law.

"Thank you, Madam President."

Senator Trimble rose to oppose the measure as follows:

"Madam President, I stand in opposition to a portion of S.B. No. 1922."

President Hanabusa interjected:

"No, with reservations, please proceed." (Laughter.)

Senator Trimble continued:

"The dollar amount that is appropriated I can find because I see how much it's going to cost. I'm only troubled by the section that will extend the tax credit to the Creative Media Center."

Senator Fukunaga rose in support and said:

"Madam President, I rise in support of this measure.

"I have comments in support of S.B. No. 1922 that I'd like to have inserted into the Journal. Thank you."

The Chair having so ordered, Senator Fukunaga's remarks read as follows:

"Madame President, I rise to speak in favor of S.B. No. 1922, S.D. 2, Relating to Creative Media.

"The purpose of this bill is to provide financial incentives and appropriate funds to grow Hawaii's creative media industry. It would:

- Demonstrate the legislature's commitment to the University of Hawaii's Academy for Creative Media (ACM) by authorizing the use of applicable tax credits, and appropriating funds to plan, design, construct, and equip a permanent facility for ACM.
- Authorize DBEDT, in coordination with the University of Hawaii, to oversee the leasing, operating, and maintenance of a digital media incubator facility, for lease to a mix of anchor tenants, virtual tenants, and project-based tenants.
- Establish a music and enterprise learning experience (MELE) program at Honolulu Community College to develop the artistic creativity, entertainment business expertise, and technical production skills required by Hawaii's music artists and music industry. The program will collaborate with Belmont University of Nashville, Tennessee, on the joint use of Belmont's curriculum, technical facilities and equipment specifications, training, dual credit course offerings, and will also offer internships in some of the most varied music environments in the world.

"The Academy for Creative Media is the fastest growing new program at the University of Hawaii. Spring 2007 enrollment includes 176 students (with 60 majors) who fill 275 seats in 20 of the 32 new courses in film production, screenwriting, indigenous filmmaking, computer animation, critical studies, and video game design. In three short years, more than 350 original short films and video games have been written, directed, and produced by students that reflect their unique diversity and backgrounds. Over 48 student films were screened at film festivals from Atlanta to Shanghai, including well-attended screenings at the Hawaii International Film Festival between 2004-2006.

"ACM's founder, Hawaii-born Chris Lee has been responsible for raising and funding all of ACM's operating expenses outside of faculty salaries and basic office overhead – hardware, software, computers, cameras, sound equipment, editing equipment, etc. Over \$1,481,000 in private, foundation, federal and other innovation grants have been raised to support ACM programs since 2004.

"Why should Hawaii commit to building a creative media industry? Not only do creative media jobs offer higher-paying wages and more exciting career opportunities than our state's traditional service industry jobs. Today, it's because a rare combination of circumstances has arisen, allowing Hawaii to be competitive with wealthier, more well-established regions: modern technology (e.g., availability and access to high-speed broadband), Hawaii residents' innate story-telling skills, our island state's wholesome lifestyle, and the fact that the Asia-Pacific region is not only an emerging world-class producer of digital media entertainment products, but also potentially one of its largest consumers.

"If Hawaii fails to capitalize on its creative media assets today, other states, and other regions – like New Zealand, Singapore, Korea, China and Canada – will soon overtake us in establishing themselves as the new center for global creative media collaboration.

"As has been so eloquently stated by Chris Lee:

'Now that the Academy for Creative Media is established, and programs like Searider Productions have demonstrated the transformational power of multi-media literacy to engage

our most at risk students, the DOE and UH really need to embrace and support educational opportunities in this area.

'Hawaii needs to become the crossroads of the Pacific for Digital Education and the New Entertainment Industry. Let Hollywood be Hollywood, but let Hawaii's natural constituency with the countries of the pacific rim and the rising tide of global popular culture in all its forms of video games, animation, and indigenous film be our advantage.' (December 2006)"

The motion was put by the Chair and carried, Stand. Com. Rep. No. 668 was adopted and S.B. No. 1922, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO CREATIVE MEDIA," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Baker moved that Stand. Com. Rep. No. 670 be adopted and S.B. No. 1066, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Slom rose to speak against the measure and stated:

"Madam President, I will vote 'no' on the bill not because I don't want the invasive species to be taken care of but I think this is an overlapping of charges and funds and fees right now, and this adds additional fees.

"Thank you."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 670 was adopted and S.B. No. 1066, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO INVASIVE SPECIES," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Trimble rose in opposition as follows:

"Madam President, I stand in opposition to S.B. No. 967.

"All the things we do here are good, by definition. I'm concerned more by the process in which we decide what things should receive tax credits and what things receive tax deductions. In this particular case, nobody is against organ donation. But I think that perhaps there are times when we take a comprehensive holistic look at the amount of deductions we wish to give to an already complex tax form and ask somebody like the LRB or the Legislative Auditor to give us a list of

things that we can review on a comprehensive basis instead of doing it one at a time.

"So, I ask you to consider that before you vote. Thank you."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 673 was adopted and S.B. No. 967, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO HEALTH," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

"Madam President, I stand in opposition to S.B. No. 625 in its current form.

"When we propose a change, it's important to us to note or to at least understand how much this proposed change is going to cost. No figures were provided.

"The second thing is that we, as a society, need to start looking at how we can promote commonality and a common language. Thank you."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 677 was adopted and S.B. No. 625, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO COURT INTERPRETERS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Stand. Com. Rep. No. 679 (S.B. No. 1034, S.D. 2):

Senator Baker moved that Stand. Com. Rep. No. 679 be adopted and S.B. No. 1034, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Trimble rose in opposition as follows:

"Madam President, I stand in opposition to S.B. No. 1034.

"Colleagues, this is the second time in two years that I get to address this issue, so let me try it from a slightly different position. Instead of trying to change chapter 212, which deals with foreign trade zones, on something that deals with excise taxes, we should make that change to what section it more appropriately applies, and that is chapter 237.

"Interisland local airlines buy their fuel or have their fuel delivered from Hawaii Fueling Facilities Corporation. Hawaii Fueling Facilities Corporation became part of the foreign trade

zone system in the 1990's. If they suddenly lost their foreign trade zone status, what change would we observe? We would observe that foreign aircraft on qualifying foreign flights bought or used foreign or bonded fuel to which general excise taxes were not subject and customs duties were not paid. If we looked at airlines, other airlines flying between Hawaii and the U.S. mainland, we would find that they were using duty paid fuel for which they could apply for a drawback after it was consumed and they were not paying general excise tax to the State of Hawaii because the fuel was consumed outside the State of Hawaii. We would notice, though, that local airlines flying between the islands not only were using duty paid fuel, but they were paying State of Hawaii excise taxes.

"The issue is not foreign trade zones; the issue is where they are flying. Is it within the State or is it outside of the State? It is not a foreign trade zone issue. If we, as a Body, were to encourage and say yes, it is because they purchase it from a foreign trade zone, what this Body would be doing is encouraging the use of foreign trade zone status to avoid the payment of general excise taxes.

"Quite frankly, this is a policy that every governor up to now has opposed. It has opposed the use of foreign trade zone status to avoid the payment of general excise taxes, and I assure you, based upon 27 years of experience in state government, there are many firms out there that have tried in the past to use foreign trade zone status as a loophole, and if we pass this bill in its present form, we may find over time that our tax base is being diluted.

"Thank you."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 679 was adopted and S.B. No. 1034, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Taniguchi moved that S.B. No. 1003, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Ige.

Senator Slom rose to oppose the measure as follows:

"Madam President, I rise in opposition to this bill.

"This is another one of those bills that tends to erode the powers of the executive, which in and of itself is not necessarily a bad thing if you're going to replace that with something positive or beneficial.

"First of all, there were no complaints that the general contractors licensing board was failing in its duty of protecting individuals or that there was a lack of remedies. It just seems that again this an opportunity for the Legislature to exert its power by taking the power of appointment away from the Governor and letting the Speaker of the House and President of the Senate make the appointments to the board in the name of diversity. I don't know how diversity is going to be served or guaranteed by this.

"As I say, normally I'll look at a bill and see if there is a problem and if there are people that are complaining about it, and if there is an existing agency and it doesn't do the job, then I'm not concerned that it's the Governor or anyone else that's

making those appointments if they're not done correctly. In this case, there have been no allegations to substantiate that.

"Thank you."

Senator Ihara rose in support with reservations and said:

"Madam President, excuse me, I stand in support of this bill with reservations.

"I have concerns about possible legislative intrusion in an executive regulatory function that raises a separation of powers issue.

"Thank you."

Senator Slom rose in opposition as follows:

"Madam President, I rise in opposition to this bill.

"The testimony was very interesting and compelling on both sides of this issue. It's always fun to see professionals battling against one another and this is another example of that. Certain CPAs were for the bill, certain CPAs were opposed to the bill.

"A couple of things came out about this – the provision to not require a baccalaureate college degree in the field of accounting I think is a good move and one that everyone seemed to support. I think the sticking point was the experience – whether or not a CPA was required to have experience in public accounting and would not have experience that would count in either academic areas or in government areas or anyone else. And as I said, we had a lot of testimony back and forth, but for the lay observer it would look like this a turf war between two warring groups and I wish that we can get this settled and resolved in favor of the public.

"In the meantime, because of this schism, I will vote 'no.'"

Senator Menor requested his vote be cast "aye, with reservations," and the Chair so ordered.

The motion was put by the Chair and carried, S.B. No. 1010, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO CERTIFIED PUBLIC ACCOUNTANTS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

S.B. No. 1419, S.D. 1:

Senator Taniguchi moved that S.B. No. 1419, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Ige.

Senator Slom rose in opposition to the measure as follows:

"Madam President, I rise in opposition to this bill.

"We already have on the books, laws preventing taking advantage of consumers during unusual times – times of crisis, times of disaster and all of that. This is aimed specifically at gasoline dealers. The terms that are used in the bill are 'abnormal disruption' and 'unconscionably excessive profits,' and it's very difficult and very subjective to determine each one of those, what they are so that we clearly know what they are.

"We also do know, however, that during emergencies and during disruptions when lines of distribution are disrupted, it makes for a very difficult situation for all commodities whether we're talking about water, or we're talking about milk, or we're talking about gasoline, and I think it's unfair and unjust to single out gasoline dealers on this bill.

"Thank you."

The motion was put by the Chair and carried, S.B. No. 1419, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO GASOLINE PRICE GOUGING," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Trimble rose to speak against the measure and said:

"Madam President, I stand in opposition to S.B. No. 1920.

"Colleagues, here again we have another tax credit and each year we seem to come back and increase the level or size of this tax credit. This year I think we're going to 25 percent. When will the tax credit be enough? So I urge you to seriously consider tax credits or the increase whether they are that good for our society and who winds up paying for them.

"Thank you."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 716 was adopted and S.B. No. 1920, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Baker moved that Stand. Com. Rep. No. 727 be adopted and S.B. No. 1929, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Sakamoto rose in support with reservations as follows:

"Madam President, please note my support with reservations."

The Chair so ordered.

The motion was put by the Chair and carried, Stand. Com. Rep. No. 727 was adopted and S.B. No. 1929, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC PROCUREMENT," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 22. Ayes with Reservations, 1 (Sakamoto). Noes, none. Excused, 3 (Bunda, Hee, Whalen).

Stand. Com. Rep. No. 728 (S.B. No. 750, S.D. 3):

Senator Baker moved that Stand. Com. Rep. No. 728 be adopted and S.B. No. 750, S.D. 3, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Slom rose to speak in opposition and stated:

"Madam President, I rise in opposition to this bill.

"I think that unlicensed and unresponsive vacation rentals are a problem in our state and in many communities, but I think that what this bill does is use a broad brush against all alternative vacation properties, and I think it's a disservice to those vacation properties that have been operating within the law, have paid their taxes, have met zoning requirements, and everything else.

“So, I think we need more discussion on this, but for the time being, I’ll be voting ‘no.’ Thank you.”

Senator Gabbard rose with reservations and said:

“Madam President, I rise to speak in support of S.B. No. 750, with reservations.

“Colleagues, we do need to get a handle on the problem of the proliferation of illegal vacation rentals which are oftentimes either second or third homes for mainland investors who charge upwards of \$2,000 a night, but at the same time I do think there’s a place for ‘mom and pop’ B&Bs which help struggling families get by. And personally, I think it would be nice to have a community-based tourism where local families are able to bring tourists into their homes. I don’t think it’s these community-based B&Bs that are bothering people. I think it’s the luxury illegal vacation rentals that are driving property values through the roof.

“So, I’m hopeful that we can look at amendments before and if this legislation becomes law. Thank you, Madam President.”

Senator Trimble rose to speak with reservations and said:

“Madam President, I rise to take the middle ground which is ‘with reservations.’

“Colleagues, part of the reason for the opposition to this measure is that the city passed an ordinance but they chose not to enforce their ordinance consistently over time. And so, we had good people in this community that thought the ordinance was never going to be enforced, so with that sense, they went out and bought property which they turned to vacation rentals and now they find that the city was serious about an ordinance they chose not to enforce five, six, ten years ago, and now we have some good people who are facing bad consequences.

“Thank you.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 728 was adopted and S.B. No. 750, S.D. 3, entitled: “A BILL FOR AN ACT RELATING TO TRANSIENT ACCOMMODATIONS TAX,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

S.B. No. 851, S.D. 1:

Senator Kokubun moved that S.B. No. 851, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Tokuda.

Senator Slom rose to oppose the measure and stated:

“Madam President, I rise in opposition to this bill.

“I realize that this bill is a work in progress and the Committee has made several amendments to the bill, because initially the bill was a blatant, anti-Turtle Bay bill, specifically. The bill now has expanded its focus and I think it certainly is something that we should look at, but I am troubled by the 750-foot setback. As testimony showed, there are other areas of the world where in fact they have setbacks of 100 feet, 150 feet, 200 feet, but 750 feet is, I think, excessive and really does cut into development and property rights.

“So I think we need to have a lot more discussion, but as the bill stands now, I’ll be voting ‘no.’ Thank you.”

Senator Kokubun rose in support of the measure as follows:

“Madam President, I stand in conditional support of this measure. (Laughter.) I do stand in support although it is conditioned on a number of factors.

“Colleagues, I think, just for a little historical perspective, the Legislature has been dealing with shoreline certification for a number of years now, and I think that’s an issue that has raised concerns of residents here in this State as well as Legislators, and it’s something that I think we’ve been able to address to a limited degree. As you recall, part of the problem with that was that the definition for shoreline certification at this point is a vegetation line. In fact, there were landowners who were planting vegetation along the shoreline, irrigating them, and thus creating a little bit more space for themselves. But I think we saw through that ruse and provided that there would not be that acknowledgement on the shoreline.

“Now we come to another issue which is the shoreline setback, which is what this bill attempts to address, and I agree with the previous speaker that 750 feet, there’s really no magic in that number. I think the issue, though, is that shoreline setback is a critical issue primarily for the open space but also to address what may be important historic and cultural sites within that setback area. This bill has been complicated by those matters.

“There are burial sites as was alluded to in Koolauloa that need to be looked at, although I will tell you that I think as it stands now in our law, with respect to burial sites, we do have some provisions. It just seems that the application of our burial site laws seems to be inconsistent. This was a good example for this particular project because initially, I believe it was in 2005, there was a letter issued by the Historic Preservation Division of DLNR that essentially gave the approval for the development of these lands subject to inadvertent discovery, etc. However, then in 2006, another letter was issued again by the Historic Preservation Division of DLNR that said, ‘Oh no, we think that we have evidence of burial sites, therefore, there should be a complete redoing of the project plans based on this projected discovery of sites.’ The inconsistency of that, I think, has led to a number of concerns, the least of which comes from the community.

“I think as the drafter of this bill, I will admit to all of you that I think this measure could have been done in a much better way. Again, as my good friend from Hawaii Kai has indicated, this was a very project-specific bit of legislation, and I think in that regard it is inappropriate so we tried to broaden the application of it, but given the title of the bill, we were really limited.

“In my opinion, colleagues, the shoreline setback issue really does need to be addressed on a statewide basis, so with that, we did propose some amendments. We took out any sort of reference to the Turtle Bay Resort development itself. We opened it up to the entire Koolauloa region, and we also deflected the date so that we could have the bill move forward for more discussion. I think ultimately, if we approve this measure, this will allow further discussion on this very important issue, and notwithstanding the flaws that are present, I would ask and urge all my colleagues to support this measure so we can have more discussion.

“Thank you, Madam President.”

Senator Hee rose to speak in support and said:

“Madam President, I rise in support of this measure.

“I want to thank the Chairman of the Committee because the previous two speakers are absolutely correct. This bill is a work in progress. I’m not sure who wanted the bill introduced, but clearly there were a lot of reasons that the bill was asked to be put in, not the least of which is the future of the North Shore, and, whether we like it or not, the planned development at Kawela Bay.

“As the Chairman held a hearing on this bill, it became clear that there appears to be a relationship on the shoreline setback with a letter written by the Historic Preservation Office Director to the consultant to Oaktree Development wherein she stated that all five hotels at Kawela Bay are situated where bones have been discovered and that 3,000 units for the complete development would be situated in areas not unlike the Kapalua Hotel, the Ritz Carlton Hotel, where bones were discovered. The concern here is a relevant concern, because like the Kapalua Ritz Carlton, the Oaktree Development has entitlements. Kapalua Ritz Carlton had its building permits in place when the discovery of bones occurred. And as a result of the discovery, the Hotel, the Kapalua Ritz Carlton, moved back off of the shoreline so as not to disturb the bones.

“I find it interesting that today we’re discussing this matter where if you read this mornings paper, the person who took things from Kanupa Cave passed away on the eve of him going to jail. And I only raise that issue because during the hearing there was some discussion about the importance of the presence of the ancestors and the iwi of the ancestors. So, is it a coincidence or is it something more that when we find ourselves, as human beings, to have problems and confrontations that affect us or our family, that we look to a higher calling to respond to our time of need? Is it that responsibility of this Legislature, as it was 20 years ago when I was here and responded to the Ritz Carlton situation, that a new chapter is beginning and that is the future of the State of Hawaii?

“So, in that regard, I commend the Chairman because he took this to its edge, he tried to broaden this issue to look at a more sustainable future, if you will, in dealing with access to the shoreline. Because, all of us here, if we look to the next two generations, we wonder aloud what kind of Hawaii will we be leaving for the children of our children. That is why this is a good bill. It is not perfect, it was not meant to be perfect, it could not have been perfect.

“On the other hand, many of the people in Koolauloa have responded in saying, ‘Does the setback mean we cannot have affordable housing within the 750-foot setback?’ If there is one message, as their Senator, I want to make it absolutely clear that the bill does not mandate, the bill does not compel, the bill does not restrict. In fact, the bill, to show that it’s a work in progress, says ‘strongly encourages that developers will consider a shoreline setback of 750 feet’ to show the imperfection of a body of work that is in progress.

“I want to commend the members of the Water Land Committee and its Chairman for trying to take an issue and send it forward. Will it pass at the end of the day? Personally, I have my reservations. Does that make this issue any less valid as we look to the future? My answer is it does not. So I hope that my colleagues will be patient with this bill and allow it to go forward, and I hope that the residents of Koolauloa will understand that this bill does not restrict, compel, or otherwise mandate that nothing shall be built within the 750-foot shoreline.

“Thank you very much.”

Senator Taniguchi rose and said:

“Madam President, would you note my support with reservations?”

The Chair so ordered.

The motion was put by the Chair and carried, S.B. No. 851, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO SHORELINE SETBACKS AND HISTORIC AND CULTURAL SITES IN THE DISTRICT OF KOOLAULOA,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 22. Ayes with Reservations, 1 (Taniguchi). Noes, 2 (Kim, Slom). Excused, 1 (Bunda).

S.B. No. 938, S.D. 1:

On motion by Senator Kokubun, seconded by Senator Tokuda and carried, S.B. No. 938, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO THE HAWAIIAN HOMES COMMISSION ACT,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Noes, 1 (Hemmings). Excused, 1 (Bunda).

S.B. No. 1219, S.D. 1:

Senator Kokubun moved that S.B. No. 1219, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Inouye.

Senator Kokubun rose to support the measure and stated:

“Madam President, I stand in support of the measure.

“Madam President, I know that this bill also is somewhat troubling to some of my colleagues, and I acknowledge that. This really is attempting to correct a direction of a ship that was off course, frankly, and that had to do with development of residential use on agricultural land. I think we’ve all been wrestling with this issue over a number of years now, but I think for me, what’s important is that . . . and I speak primarily about the Big Island, because I know that the situation on the other islands and the other counties are different, but particularly with respect to what has occurred on the Big Island, there are a number of residential homes that have been developed on agricultural land. Whether that was appropriate, inappropriate, legal, illegal, I think that is the situation as it is today.

“I think government really needs to take some of that responsibility with respect to why we’re so unclear in terms of how residences could be developed on agricultural land, and I mean government in all of its manifestations here in the State of Hawaii.

“So, I think this bill really attempts to correct some of the past wrong decisions that were made with respect to agricultural lands and many people unknowingly committed these actions and this simply attempts to provide them with some comfort so that they feel that they are comfortable moving forward. I think we have some bills in place, legislation that we’ve already adopted, that is looking at agricultural lands, the important agricultural lands as well as the rural district, and for those reasons, the amendments to this measure really made the implementation date 2009, after the important agricultural lands

have been designated, and then there was a one-year window for the counties to assess which residences they felt would be appropriately designated or reclassified.

“So, those were the amendments that we made. Hopefully, we’ve targeted the right residences with those amendments, but again I do acknowledge the fact that in every county it’s a very different scenario.

“Thank you, Madam President.”

Senators Kim and Ige requested their votes be cast “aye, with reservations,” and the Chair so ordered.

No. 1717, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO THE ISSUANCE OF SPECIAL PURPOSE REVENUE BONDS TO ASSIST UTILITIES SERVING THE GENERAL PUBLIC,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, none. Excused, 1 (Bunda).

Stand. Com. Rep. No. 744 (S.B. No. 711):

Senator Baker moved that Stand. Com. Rep. No. 744 be adopted and S.B. No. 711, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Gabbard rose in opposition to the measure as follows:

“Madam President, I rise in opposition to S.B. No. 711.

“This bill seemingly has good intentions in conforming Hawaii’s tax laws with the IRS by having a 10-year statute of limitation on delinquent taxes, however, I cannot support this measure because it could cost our state up to \$40 million each year in delinquent taxes that are now being collected.

“I also oppose this bill on principle because it is unfair that some people, tax scofflaws, would evade paying taxes while the vast majority of us abide by the rules and pay our fair share.

“Mahalo.”

Senator Fukunaga rose in support and said:

“Madam President, I rise to speak in support of this measure.

“I would direct the members’ attention to the committee reports for this measure – Stand. Com. Rep. No. 264 and Stand. Com. Rep. No. 744 – both take strong issue with the Department of Taxation’s calculation of the loss of revenues calculation. We believe that, with the Department’s moves to upgrade its computer systems and to align with the federal IRS requirements, that we would not be seeing those kinds of large revenue losses.

“We believe it makes a lot of sense to conform to the federal IRS with respect to the 10-year statute of limitations; and for those reasons, I urge my colleagues to vote in support of this measure.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 744 was adopted and S.B. No. 711, entitled: “A BILL FOR AN ACT RELATING TO TAXATION,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Baker moved that Stand. Com. Rep. No. 745 be adopted and S.B. No. 896, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Trimble rose in opposition and said:

“Madam President, I rise in opposition to S.B. No. 896.

“I rise in opposition because there is no dollar amount given. Colleagues, this provides that the High Tech Development Corporation will rent approximately 100,000 square feet of a yet-to-be-built building in Kakaako for a period of 10 years.

“My issue is that to what extent are we committing the taxpayers of the State of Hawaii for this incubator center? To what extent are rents going to be below market? What is the price tag? Is it 10 million, is it 20 million, or could it be as high as 40 million? I think there should be some clarity on the cost issues before we vote on this.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 745 was adopted and S.B. No. 896, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO HIGH TECHNOLOGY,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 21. Noes, 2 (Slom, Trimble). Excused, 2 (Bunda, Hee).

Stand. Com. Rep. No. 750 (S.B. No. 148, S.D. 2):

Senator Baker moved that Stand. Com. Rep. No. 750 be adopted and S.B. No. 148, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Slom rose in opposition to the measure and said:

“Madam President, I rise in opposition to this bill.

“I do not think that this bill meets the constitutional mandate for a refund. I think there’s a big difference between a tax credit and a refund. A tax credit will not apply to all people. They’ll have to file for the tax credit. The bill still does not talk about a specific amount, and I think that the public is seeing that we’re dragging our feet in returning money as we are supposed to constitutionally. This bill does not do the job.

“Thank you.”

Senator Trimble rose to speak in opposition as follows:

“Madam President, I rise in opposition to the bill, but for different reasons.

“Colleagues, our shortfall, our current shortfall for the Employees’ Retirement System is \$5.1 billion. For the last three years, we have not experienced a surplus in anything more than an accounting sense because of the liabilities of the state in terms of our unfunded liabilities to the Employees’ Retirement System, failure to have a reserve for the health benefits that at least the retirees of our system feel that they deserve, for the prisons that we have yet to build, for the investments we have not made in our harbor system. We cannot look the taxpayer in the eye and say that we have done, spent, built, maintained all of the things that we are required to do, and therefore, I don’t think it is appropriate to return money with all these unfunded liabilities lists to be paid for.

“Thank you.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 750 was adopted and S.B. No. 148, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO INCOME TAX CREDIT,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 21. Noes, 3 (Hemmings, Slom, Trimble). Excused, 1 (Hee).

Stand. Com. Rep. No. 751 (S.B. No. 1882, S.D. 2):

Senator Baker moved that Stand. Com. Rep. No. 751 be adopted and S.B. No. 1882, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Slom rose to oppose the measure and said:

“Madam President, I rise in opposition to this bill.

“For decades now we’ve talked about exempting food, the very basic of basic necessities, from the general excise tax, and what we’ve done is just made the tax more intolerable by raising it another 12½ percent January 1st.

“The Committee Report says that any discussion about exempting food should be reviewed very carefully. Well, as I said, we’ve reviewed it very carefully for many, many decades now. People on both sides of the aisle have said that they support the exemption of food, as they do medical expenses and even low-income rents from general excise tax, and yet we have not been able to accomplish this.

“The bill also talks about now establishing this food tax credit. I know my colleagues remember when in fact we did have a food tax credit. It was created and then it was abolished. The only fair and honest approach to asset building and to helping low-income people is to exempt food from general excise tax.

“Thank you.”

Senator Fukunaga rose to support the measure as follows:

“Madam President, I rise to speak in support of this measure.

“For members’ edification, a little bit of history: the food tax credit (which we first adopted in 1987) was cut in half in 1995

and repealed by Act 157, Session Laws of Hawaii 1998, during the lean times when prior administrations determined that we could no longer afford it. The food tax credit had one of the broadest bases in the state’s efforts to assist low-income and needy families.

“I would note for the record that, according to the 2004 tax credit data, there were a total of 1,023,724 qualified exemptions. Given the availability of this type of credit, the amount of recipients that would be benefited would be a very substantial number, and the revenue cost for such a credit would be in the range of a little bit over \$30 million. We believe that this type of credit goes a long way towards trying to help those who need it the most; and for those reasons, I would urge my colleagues to vote ‘yes.’

“Thank you.”

Senator Hemmings rose to speak against the measure and said:

“Madam President, I rise to speak against this legislation.

“This bill most assuredly will not help the people that need it the most, because the people that need it the most will not be filing tax returns. They are the poor that are on the beach that don’t even have a roof over their heads, much less the income and the wherewithal to file a tax return. They’re the street people who buy food and don’t file tax returns. What sense does it make to collect money with the intent of giving it back to the most needy?

“I’ll repeat what I’ve said before and what bears repeating every time people stand up and compassionately represent that they’re representing the little person on this Floor. I’ll remind the Majority Party that we have the most regressive tax system in the nation. The lowest 20 percent of our wage earners pay the highest proportion of their income in taxes, and yet there are some in this Body that would represent themselves as the compassionate ones while collecting money from the poor and then dealing it back to them and say they’re doing them a favor.

“Tax credits are regressive and do not help the people we proclaim that we are trying to help the most. Let’s be honest with those who need the help and not collect the tax in the first place. It’s unconscionable, and we’re one of the only states in the nation that collects taxes on food from people who are hungry. The honest thing to do is cut the tax completely.

“I’ll be voting ‘no,’ because this bill is basically a ‘shibai.’ Thank you.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 751 was adopted and S.B. No. 1882, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO TAXATION,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 22. Noes, 2 (Hemmings, Slom). Excused, 1 (Hee).

Stand. Com. Rep. No. 752 (S.B. No. 100, S.D. 1):

Senator Baker moved that Stand. Com. Rep. No. 752 be adopted and S.B. No. 100, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Trimble rose to speak in opposition and said:

“Madam President, I rise to speak against S.B. No. 100.

“Colleagues, this is a wonderful bill. What it does is that it tries to change how we do from one, a law, and one of rule, to one of extenuating circumstance.

“If we pass this bill, there will always be questions of why exceptions were given. Was it who you knew? I suggest if we’re going to do this, then why don’t we just give every Senator two wildcards that they can use at their discretion. It would simplify the process.

“Thank you.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 752 was adopted and S.B. No. 100, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO EDUCATION,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Noes, 1 (Trimble). Excused, 1 (Hee).

Senator Baker moved that Stand. Com. Rep. No. 762 be adopted and S.B. No. 1720, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senators English, Tsutsui, Tokuda, Kim, Nishihara and Hooser requested their votes be cast “aye, with reservations,” and the Chair so ordered.

Senator Baker moved that Stand. Com. Rep. No. 773 be adopted and S.B. No. 11, S.D. 3, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Slom rose in opposition as follows:

“Madam President, I rise in opposition to this bill.

“Isn’t this interesting that we have a bill here to exempt the general excise tax on medical services, health care, but it’s only the surcharge portion – only 0.5. So we’re going to continue to charge people the 4 percent on many of these services that are not exempted already instead of making a broad-based decision and saying all health care costs should be exempt from this nefarious general excise tax.

“Thank you.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 773 was adopted and S.B. No. 11, S.D. 3, entitled: “A BILL FOR AN ACT RELATING TO EXCISE TAX ON HEALTH CARE,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Stand. Com. Rep. No. 774 (S.B. No. 1450, S.D. 1):

Senator Baker moved that Stand. Com. Rep. No. 774 be adopted and S.B. No. 1450, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Trimble rose to oppose the measure and said:

“Madam President, I rise in opposition to this measure.

“Colleagues, when we increase the amount of money here, we are not going to increase the rental stock. We are not making it more available. All we’re doing is increasing the revenue that landlords receive. If you consider who pays the taxes and where the burden of taxation falls the heaviest, it is on the working poor and the middleclass. So, we here, by passing this bill, are making what is essentially a transfer payment from the working poor and the middle class, to people that own apartments.

“The second effect that this will have is because of the nature of the rent supplemental program, it will tend to have conversions of housing units from ones that are occupied by families, to ones that are occupied by single members. I don’t think that is a desirable consequence.

“Thank you.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 774 was adopted and S.B. No. 1450, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO THE STATE RENT SUPPLEMENT PROGRAM,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Baker moved that Stand. Com. Rep. No. 777 be adopted and S.B. No. 1672, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Slom rose to speak against the measure and said:

“Madam President, I rise in opposition to this bill.

“I think that there certainly should be an adjustment to the Medicaid fee schedule, however, I think that what’s proposed in

this bill is too costly. There is a retroactive feature which is going to cost \$26 million, but the full cost of the program is not discussed and then there will be an annual inflation adjustment. As the good Senator from Waikiki/Downtown has said previously, and we've talked about this for years, we really should know what the total costs are before we mortgage the lives of our children further.

"Thank you."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 777 was adopted and S.B. No. 1672, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO HEALTH," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Trimble rose in opposition and stated:

"Madam President, I rise in opposition to S.B. No. 1937.

"Colleagues, this is not Bangladesh. The Department of Human Services is not DBEDT. And lastly, we have many programs where money and assistance is involved already without passing this piece of legislation. It is not necessary, and it is, perhaps, when you compare the cost of administration to the cost of the benefits being received, not an efficient way to proceed.

"Thank you."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 778 was adopted and S.B. No. 1937, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO SOCIAL SERVICES," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Trimble rose to oppose the measure and said:

"Madam President, I stand in opposition to this measure.

"Colleagues, it is important. It must be, because there are two different bills that do this purpose that we will be discussing today. And in addition to that, the \$50 that would be provided is already in the administration budget. So, I'm voting against it not because it's important, but perhaps we could conserve paper and vote on only those issues where there's one bill in support.

"Thank you."

Senator Baker rose to speak in support of the measure as follows:

"Madam President, I rise in support of this measure.

"I understand the Senator from Waikiki's confusion. This Senator had the same confusion, however, there are two different categories of individuals that need to have their personal needs allowance either established for them or raised. And yes, it's wonderful that it's in the administration budget, but it's a statutory provision that needed to be changed and that's why there are two bills, and given the title, it was impossible to combine them. But, I appreciate the remarks of the good Senator from Waikiki.

"Thank you."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 779 was adopted and S.B. No. 427, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO HUMAN SERVICES," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Trimble rose to speak against the measure as follows:

"Madam President, I again rise in opposition to this measure.

"Colleagues, when I rose last year, it only was for \$50,000 for a newsletter, now it's for \$100,000. I agree that appropriating money is important, but can't we do it through the normal budgetary process instead of separating little things out every once in awhile so we can write nice things in our own newsletter?"

"Thank you."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 781 was adopted and S.B. No. 733, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO VETERANS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Slom rose to oppose the measure as follows:

"Madam President, I rise in opposition to this bill.

"I like bicycles. I support bicycle paths. I own a bicycle. I know how to peddle my way around, but the idea of mandating 2 percent of funds to go to bicycling I think is an excessive amount. It destroys flexibility and choice and it's not wise fiscal policy.

"In addition to that, we've seen the highway fund raided. We have another bill coming up that's going to raise the gasoline tax to put money into the highway fund. So, in one hand we're trying to put money in, the other hand we're trying to take money out.

“So, I support the bicycles, but not the 2 percent inflexible rate. Thank you.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 790 was adopted and S.B. No. 152, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO TRANSPORTATION,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Baker moved that Stand. Com. Rep. No. 795 be adopted and S.B. No. 1840, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Slom rose to speak against the measure and said:

“Madam President, I rise in opposition to this bill.

“I have some good friends that support this bill. Unfortunately, this bill is not a streamlining bill. This bill is a new tax; it’s an increase tax; it’s a backdoor tax on the Internet. We’ve been talking about and discussing this bill for three years now. It was sold to us as an opportunity to get lost revenues, but what really it is, is an opportunity to go after all of us who use the Internet for purchases and so forth. And it also is a way of getting around the federal requirements that the states do not have the ability to tax between borders.

“Initially, we were told that everybody was going to get together voluntarily and sing ‘Kumbaya’ and pass this compact. But as the years have gone on, we found that there are more sticking points. A number of states that initially supported the concept do not support the concept. Other states have found out how difficult it is when you have multiple purchases in multiple states.

“The bottom line, though, is it’s not going to do much for the consumers, in fact, it’s going to be an anti-consumer bill and it is going to add to the burden that we’ve been talking about all day for the low- and moderate-income and the homeless and so forth.”

Senator Fukunaga rose in support as follows:

“Madam President, I have prepared remarks which I would like to circulate to the members. But in lieu of meeting the

prior speaker’s arguments point by point, I have materials from the Streamlined Sales Tax Governing Board, as well as the Council on State Taxation, and from the National Conference of State Legislatures responding to most of the arguments that the prior speaker has made.

“Finally, with respect to his point that a number of states are disbanding the effort or are no longer interested in participating, I would like to point out that on March 1, 2007, Governor Mike Beebe signed four bills designed to bring Arkansas into full conformity with the Streamlined Sales and Use Tax Agreement, thereby boosting the number of participating states.

“For all of these reasons, I urge my colleagues to vote in support of this measure. Thank you.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 795 was adopted and S.B. No. 1840, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO TAXATION,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Stand. Com. Rep. No. 797 (S.B. No. 1133, S.D. 3):

Senator Baker moved that Stand. Com. Rep. No. 797 be adopted and S.B. No. 1133, S.D. 3, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Slom rose in opposition as follows:

“Madam President, I rise in opposition to this bill.

“This is the rental car surcharge. It was originally \$2 per day. It was bumped up to \$3 per day with the understanding that that would only be temporary. Now this bill would remove the temporary situation and the \$3 amount would stay in effect.

“People don’t understand that when we talk about rental cars, that local residents rent about 30 percent of the total. They use them for vacations, they use them for emergencies, they use them for all kinds of family purposes, but this represents yet another tax, another fee, another increase. And the fact that when we pass something and we say, ‘Oh, but it’s only going to be for a specific number of years and then it’s going to sunset because then the job will be done,’ and then we turn around and renege on that – shame on us.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 797 was adopted and S.B. No. 1133, S.D. 3, entitled: “A BILL FOR AN ACT RELATING TO TAXATION,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Trimble rose to oppose the measure and said:

“Madam President, I stand in opposition to S.B. No 1969.

“Colleagues, here again we are carving society up into little groups, and every group in society that we could carve up is a deserving group. However, the sole criteria that makes sense is providing assistance based upon financial need. This does not have a financial needs test. If you don’t draw the line someplace, then why are you going to decide that the widows or the wives or the children of veterans weren’t as equally deserving in terms of tuition assistance?”

“I think that we ought to go back and have a simple criteria and that criteria is needs based. Thank you.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 798 was adopted and S.B. No. 1969, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO TUITION ASSISTANCE,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Slom rose in opposition to the measure and said:

“Madam President, I rise in opposition to this bill.

“An emergency appropriation for this tax measure, for this failed beverage container program – come on, give me a break! The state is already sitting on \$24 million-plus that they’ve extracted from the consumers of this state, and now they’re talking about they need more money to administer the bill, to hire more people, to take care of the growing success of this beverage tax. The only successful thing is that more and more people are being separated from their money.

“This is an atrocious bill, it’s an atrocious program. We need the Legislative Auditor to audit this program and the people that are making money off consumers in the name of recycling. A very strong ‘no’ is urged.

“Thank you.”

Senator Baker rose to speak in favor of the measure and said:

“Madam President, I rise in support of this administration bill.

“I would just note for my colleagues that this is an expenditure ceiling increase so that the monies that are in the fund can go back to the people that have been processing, collecting, and administering the fund.

“Thank you, Madam President.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 800 was adopted and S.B. Senator Slom rose to speak in opposition and said:

“Madam President, I rise in opposition to this bill.

“Now, I know that it is not politically popular to rise and speak against a bill like this, but having sat through the hearings, I think it is incumbent that I do so. And the reason is, first of all, I know the bill explains this as the internment experience in Hawaii, and that certainly is a lot different from some of the experiences that American and Allied soldiers and war prisoners experienced during World War II. But the real problem that I have in this bill as the evidence suggested in the testimony, the sponsors of the bill are not even sure where the internment camps were. They don’t know exactly what it’s going to cost to do a memorial. They’re not sure of what the memorial would look like or what kind of facility it would be.

“I do not object to the idea of having a war memorial, but I think that we need much more information, and to rush into this without this very basic of information, I think is irresponsible of us. Thank you.”

Senator Espero rose in support of the measure as follows:

“Madam President, I’d like to rise in support of this measure.

“This measure addresses one of the most saddest chapters in the history of the United States of America – and that is the internment of Americans of Japanese ancestry during World War II. This follows, also, action take by our federal government to memorialize and recognize these locations throughout the United States of America.

“One area that was in the federal legislation was the Kunia Camp in the Kunia region near Royal Kunia. The exact location, as the Senator from Hawaii Kai did state, is not known. However, they have a general idea where it is located, and this land is currently up for sale. This is an area which should be purchased by the state and we should definitely memorialize this sad chapter in our history.

“We are looking also at providing matching funds so that we may tap into the federal legislation which appropriates millions of dollars for four sites. Thank you, Madam President.”

"Madam President, I rise in support with reservations.

"I know health education is very important and I think some entities are good proponents in one manner, other entities are good proponents in another manner, and perhaps some can do both. But I believe just as peanut butter in a jar is good on one hand and jelly in a jar is good on the other hand, that demanding all peanut butter and jelly to come out like Goober's, combined in a bottle, doesn't make it better.

"I believe we can have accurate information by advocates on one hand and advocates on another hand as long as the school system or the entity that embraces an umbrella over the entities can see that both sides of the matter are fairly addressed.

"Thank you, Madam President."

Senator Kokubun requested his vote be cast "aye, with reservations," and the Chair so ordered.

Senator Slom rose in opposition as follows:

"Madam President, I rise in opposition to this bill.

"The reason for my opposition is that there is a case pending against the state, and I think that it would be premature for the Legislature to make a determination and an appropriation. I think that we're going to see that substitute teachers are going to receive an amount, but I think that this interferes with the legal process. Thank you."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 823 was adopted and S.B. No. 610, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO CLAIMS AGAINST THE STATE," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Trimble rose to oppose the measure as follows:

“Madam President, I rise in opposition to this measure.

“At the present moment, we do not know whether we’re talking about an asset or a liability. Before we convey a transfer, we at least ought to have the information in front of us as to what the revenue is, what the expenditures are, what are the upcoming liabilities in terms of capital expenses, and then the various interested parties could make a more rational decision as to whether this is desirable or not.

“Thank you.”

Senator Kokubun rose in support as follows:

“Madam President, I stand in support of this bill.

“Madam President, the Moloka‘i Irrigation System is a tremendous asset to the State of Hawai‘i. There can be no mistake about that. In fact, for the Island of Moloka‘i, this is probably the most important infrastructure piece for the future of agriculture on Moloka‘i.

“I would urge all my colleagues to support this measure. Thank you.”

Senator English rose to support the measure and said:

“Madam President, I rise in support of the measure.

“Members, I introduced this measure because the Moloka‘i Irrigation System is indeed one of the most important state assets on Moloka‘i, and it’s very important for the operations of the island. I ask your support of this because many of the people on Moloka‘i wish to have greater control of their own asset. We know that this irrigation system brings in more money than is expended for them, and they simply want to be able to have a say in how that money is allocated for their operations on the island.

“I ask your support of this measure. Thank you.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 835 was adopted and S.B. No. 1705, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO THE MOLOKAI IRRIGATION SYSTEM,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Trimble rose in opposition to the measure and said:

“Madam President, I rise in opposition to S.B. No. 933.

“This is an extremely interesting bill. Our intentions may be wonderful here, but how it is used in the future is beyond belief. Here we have a situation where we can buy land at more than it is appraised for. Believe me, when you’re ready to buy land under those terms, please come see me.

“Thank you.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 837 was adopted and S.B. No. 933, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO LAND ACQUISITIONS,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Trimble rose to oppose the measure and stated:

“Madam President, I rise in opposition to this measure.

“I take exception to the committee report which says that Murray Towill of the Hawaii Hotel and Hospitality Association just offered comments. And so that you can decide for yourself whether the mild-mannered Murray Towill is in support or in opposition, I want you to hear his words: ‘We are unsure of the reasons for the change in the way the membership of the Hawaii Tourism Authority are appointed. We believe that the present system of appointment has worked well. S.B. No. 1823 creates a system where there are seven appointing authorities – Governor, Senate President, House Speaker, and four county Mayors. With the multitude of appointing authorities, it is unclear who will ensure that at least six of the public members will have the necessary visitor industry experience.’

“This is a terribly flawed measure. I suggest that if we cannot recommit it, at least vote ‘no’ against it and we can take it up in another year. Thank you.”

Senator Inouye requested her vote be cast “aye, with reservations,” and the Chair so ordered.

The motion was put by the Chair and carried, S.B. No. 1823, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO THE HAWAII TOURISM AUTHORITY,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Slom rose in opposition and said:

“Madam President, I rise in opposition to this bill.

“This is our annual bill of who’s going to control the State Capitol. This bill leaves part of the control with DAGS but also adds the Joint Legislative Management Committee. I think we experimented several years ago where we had joint committee chairs in the Senate. That didn’t work too well then. Anytime you have divided responsibility, that doesn’t work too well.

“The argument is made – well, the Legislature occupies the Capitol building, most of it, so the Legislature should be consulted, and certainly that is true. And I don’t recall a time when the Legislature, whether it was consulted or not, did not offer its opinions as to how to change things and make the process better, but I don’t think that this bill is on its way. However, I am keeping an open mind and my vote will change if somebody from the Legislative Management Committee can tell me and, more importantly, show me how they’re going to fix these damn elevators in this building.

“Thank you, Madam President.”

Senator Trimble rose to speak against the measure as follows:

“Madam President, I rise in opposition, or partial opposition, to this measure.

“The previous speaker probably missed the most important – perhaps we should consider joint and shared responsibility, but to make it really clear, you know, we should have division of authority. If the Legislature, in its wisdom, would see to the clearing of the ponds on both sides of its algae, successfully, maybe that would be the litmus test for them taking control of this building.

“Thank you.”

Senator Ige rose and said:

“Madam President, to our colleague from Hawaii Kai, I would just suggest that the solution to the elevators is to use the stairs. It always works and never crashes.” (Laughter.)

Senator Nishihara rose to speak in favor of the measure as follows:

“Madam President, I speak in favor of S.B. No. 1726.

“The bill recognizes the reality that three-fourths of this building is occupied by the Legislature. However, the management is not joint, or should I say, out of joint. This is not a turf battle as some may believe, but asks that DAGS works in conjunction with the Joint Legislative Management Committee of the Legislature. As an example, the State Judiciary does manage its own facility, as does other departments.

“This bill hopes to open a cooperative dialogue between DAGS and the users of this singularly important facility. There are issues that can best be addressed if there is such cooperation.

“I ask for your support. Thank you.”

The motion was put by the Chair and carried, S.B. No. 1726, entitled: “A BILL FOR AN ACT RELATING TO THE STATE CAPITOL,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

“Colleagues, is there any area that we do not wish to expand our authority into? This does truly represent the expansion of bureaucracy, but in this case, the bureaucracy is us. Thank you.”

Senator Taniguchi rose and said:

“Madam President, I just want to note my support with reservations.”

The Chair so ordered.

Senator Slom rose in opposition as follows:

“Madam President, briefly, I stand in opposition to this bill.

“The position and the Office of Legislative Analyst was created, I think, like 17 years ago. We’ve gotten by without this office this long. The question is, What could another office and another agency do to provide us with more economic data, more information that we don’t have already or that we don’t get either from our excellent Ways and Means staff, from our Majority and Minority Offices, from the Office of the Legislative Reference Bureau, and other agencies? I don’t think the question is that we need more information, and I don’t think the question is that we need another office, and staff, and money, and all of that. I think the answer is that we need to act on some of the past studies we’ve had and on some of the past data that has been presented to us.

“Thank you.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 844 was adopted and S.B. No. 586, S.D. 1, entitled:

“I rise on two grounds. First, this was not heard before the Energy Committee and I think it's appropriate that the Energy Committee hear this SPRB. Second, my memory is somewhat clouded about what occurred in 1993, but what I remember from the newspaper is that the cogeneration unit in question is coal fired. The attitudes of society have changed in the last few years about the desirability of the use of coal in the generation of electricity. So, if your attitude has changed since 1993, maybe it is appropriate that before we approve this SPRB that we give the members of this Body a chance to weigh in on the change in the way in which this electricity would be generated.

“Thank you.”

The motion was put by the Chair and carried, S.B. No. 1948, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO THE ISSUANCE OF SPECIAL PURPOSE REVENUE BONDS FOR PROJECTS ON THE ISLAND OF HAWAII,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Baker moved that S.B. No. 1926, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Trimble rose to speak against the measure and stated:

“Madam President, I rise in opposition to this measure.

“Unfortunately, colleagues, there are only two people here that have ever served working for the executive branch of government. Let me assure you that the level of discontent is sometimes high and if given the opportunity to complain about waste in government before somebody was disciplined, I'm sure they would, because government, by definition, is inefficient. That is one of the grounds of being a whistleblower. Governments do not, as a whole, operate efficiently. Governments as a whole have an incentive to consume all resources that are available to them. They spend money fully, not efficiently.

“So, before we pass a well-intentioned whistleblower law, we should recognize that it is only going to encourage our government employees to complain and to whistle-blow if they ever assumed that their supervisor might seek to take disciplinary action against them.

“It is not a good bill. Its intentions are fine, but its impact is going to be terrible. Thank you.”

The motion was put by the Chair and carried, S.B. No. 1926, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO WHISTLEBLOWERS' PROTECTION,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

S.B. No. 249:

Senator Chun Oakland moved that S.B. No. 249, having been read throughout, pass Third Reading, seconded by Senator Ihara.

Senator Trimble rose in opposition as follows:

“Madam President, I rise not in opposition to fatherhood, but to this measure, which seeks to make the Commission on Fatherhood permanent.

“All the commissions we have are good commissions or we as a Legislative Body would not approve them. Unfortunately, we keep adding commissions and new commissions each year and the list goes on. Will we ever reach a time when we evaluate when we have enough commissions and perhaps we should combine the Commission on Fatherhood with the Commission on Motherhood.

“Thank you.”

The motion was put by the Chair and carried, S.B. No. 249, entitled: “A BILL FOR AN ACT RELATING TO THE COMMISSION ON FATHERHOOD,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Trimble rose to speak in opposition to the measure and stated:

“Madam President, I rise again in opposition.

“Again, we're creating another licensed class of experts. I think it is appropriate that we use some other authority other than whim as to decide when there's another group that needs to be certified, regulated, and classified. Thank you.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 855 was adopted and S.B. No. 1805, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO GENETIC COUNSELORS,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

“Madam President, okay, I’ll say the three speeches all at one time. I stand in opposition.

“We are dealing, in this case, with copper. What’s wrong with silver and gold? If we are trying to defer and we are trying to have a deterrent to crime, the most important deterrent to crime we could have is the certainty of being arrested, after that, the certainty of being convicted. It is not the penalty that deters crime.

“What has happened in the last few weeks is that we finally got some arrests of people that were stealing copper and turning it in to recyclers. The media has reported the arrests, so what we can anticipate is that now the community knows that the people that steal copper are going to be getting arrested for stealing copper. The problem, to a large extent, has already gotten taken care of.

“What we need to do when we pass legislation is not do a knee jerk reaction based upon what is in the media. What we ought to look at is how we can deter crime going forward and that is to ensure that our laws are consistently enforced and that those that perpetrate crimes are arrested for them quickly.

“Thank you.”

“Madam President, I rise in opposition to this bill.

“As testimony before the Commerce and Consumer Protection Committee showed, the Insurance Commissioner and the Securities Division had meaningful amendments which were not incorporated in the S.D. 1 of this bill and their position was that the sale of these annuities was ambiguous at best and there needed to be clarification. The clarification has not been made and actually the bill may do more harm than good.

“Thank you.”

Senator Slom rose to speak against the measure and said:

“Madam President, I rise in opposition to this bill as well.

“There is a problem today with new car owners, and that is the cost of the keys has skyrocketed and the ability to make copies of keys is limited and costly. In the old days we went to Longs and the key shop or even F.W. Woolworth and we got three keys for a dollar. Now you’ll pay \$75 or \$100 because they are so-called ‘smart’ keys with chips in them and computerized. The problem is that the manufacturers have codes for these keys and most of the manufacturers do not keep the codes locally or make them easily accessible to either the purchasers of the automobiles or to locksmiths.

“Normally, a person, when they buy a new car, will get two keys and they may get an extra two keys, and that’s sufficient. But for the person who has recently been locked out of their car and had difficulty in getting another key and had to wait for the manufacturer, it’s been a long and arduous process. So, what this legislation seeks to do is to force the manufacturers to share their key codes with locksmiths.

“There are several problems with this bill. One is that we’re talking about privacy, we’re talking about confidentiality, we’re talking about ID theft, we’re talking about some problems that have arisen with locksmiths themselves and the availability of this information. Now, there should be an easier way for consumers and purchasers to get even these most expensive keys and the codes, and a number of the manufacturers are working on that.

“This bill is patterned after a piece of legislation passed in California last year. A gentleman that was instrumental in passing that legislation came before our CPH Committee. I asked him several questions. I said, ‘How is the bill working so far? What’s your experience been?’ Well, even though the bill was passed in 2006, it does not become effective until 2008. So, in fact they have no experience with it. But, we do know that these issues, very real issues of privacy and cost, continue. Meanwhile, spurred on perhaps by that legislation in California, nationally, the manufacturers have taken steps to ensure that the key codes are much more available, much quicker all across the country, including Hawaii.

“But again, it gets down to a basic responsibility for a car owner, and that is the car owner: (1) should make additional keys; (2) should know where those keys are; and (3) take care of them. The other part of this puzzle is that if you buy that car and sell that car a month later, it becomes a used car, and the bill does not cover used cars.

“So, I think that we need to have a lot more information before we pass this bill, and at least in the State of California, which is the only state to pass such legislation, let’s see what

happens when their bill actually becomes effective next year and what kind of experiences they have.

“Thank you.”

“Colleagues, over the last few years, one of the joys of being a Senate member is the opportunity to visit our district courts and our circuit courts and, in particular, our family courts. I found it interesting because there are a whole bunch of people out there of our gender that typically pay child support without even determining whether indeed there is a DNA relationship, and the State of Hawaii and whoever enforces the rules against the ‘deadbeat dads’ are really enforcing it against the naïve and the ‘deadbeat boobs’ because paternity is not rigorously determined.

“The other thing I’ve discovered is that many of the people that get into trouble with the law are not bad people, they are just marginally getting along. And so to assume, because somebody doesn’t show up, that they’re in contempt of court, I think is not understanding the general population of people out there that fit into this particular circumstance.

“So, I ask you to consider carefully the laws that you are making. Thank you”

The motion was put by the Chair and carried, S.B. No. 1337, entitled: “A BILL FOR AN ACT RELATING TO CONTEMPT OF COURT,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

“Madam President, I rise in opposition to this measure.

“What this bill purports to do is protect those that have diminished capacity, and I at least think that some of you should think that diminished capacity does not begin at the age of 62. Yes, elders have been targeted, but not because they’re elder. It is because they have more money and usually it takes a while to get that money.

“If we’re really interested in applying the right kind of penalties, we should have enhanced penalties for those that seek to commit crimes against the members of our society that have money, then we would be targeting the law to minimize the activity that we’re seeking to diminish. It’s not about being elderly, it is about having money. And so, let’s not make a law where we think just because you are 62, that you have diminished capacity.

“On last year’s ballot, there was a measure that would remove the retirement age for our state judges. If I remember correctly, the age limit we were trying to raise was somewhat above this level of 62.

“Thank you, Madam President.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 876 was adopted and S.B. “Again, we are trying to reduce the amount of graffiti. We do not do that by allowing the graffiti to remain up so that if a person is caught, he has 60 days to paint it over. Studies have shown that if you want to reduce graffiti, you paint over it immediately; you do not leave it up. If you pass this law and people are tempted to leave the graffiti up until such time as the perpetrator is caught and given the 60-day opportunity to paint it over, what in fact you will be doing is helping to encourage the spread of graffiti, not the control thereof.

“Thank you.”

The motion was put by the Chair and carried, S.B. No. 228, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO

“Colleagues, this is a measure where there was no one from Hawaii that spoke against it. The only testimony was provided from somebody, I guess you would call him foreign because they were not from the State of Hawaii but they weren’t alien; they were just from Colorado. We had one person to testify. He was from Colorado. Based on his testimony, I don’t think it’s sufficient reason to enact this law.

“Thank you.”

The motion was put by the Chair and carried, S.B. No. 1961, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO BAIL,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Trimble rose to speak against the measure as follows:

“Madam President, I rise in opposition to S.B. No. 56.

Colleagues, this is the second time in two years I’ve gotten to speak against this. Actually, last year I spoke against the bill that this year we’re trying to amend. Last year when I got up and spoke, I said that people have, the citizens have a constitutional right for unfettered representation from their elected State Legislature. So, you in your wisdom took my comments to heart and said that no elected official would be required to serve on jury duty whenever the Legislature – us – was in Session, ignoring the fact that there were other elected officials in this world other than us.

“What we should do is ask somebody, like the Legislative Reference Bureau, to do a study in terms of who should serve on juries, take their advice instead of every year, ala carte, whoever came to us and complained change who serves on a jury duty based upon the person that came to our office and complained. This is not the way to make good law and to have what we do respected by the public.

“Thank you.”

Senator Hee moved that S.B. No. 1642, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Kokubun.

Senator Slom rose in opposition to the measure and stated:

“Madam President, I rise in opposition to this bill.

“This bill essentially would remove and eliminate all management rights in contracts and basically make employees co-employers so that they could regulate themselves in all cases. Management is responsible for the decisions they make or for decisions they don’t make. Bills like this actually take away their responsibility for decision making but still leave them with the accountability and liability. It’s a bad bill and it does not do anything to help employees or labor in general.”

Senator Sakamoto rose in support with reservations as follows:

“Madam President, I rise in support with reservations.

“I agree with the concerns about management rights and am also concerned about the Judiciary making decisions that perhaps change the way laws should be.”

Senators Ige and Gabbard requested their votes be cast “aye, with reservations,” and the Chair so ordered.

The motion was put by the Chair and carried, S.B. No. 1642, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO LABOR,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

“Again, this is another bill where negotiations are in progress right now and we’re using the force of government and the Legislature to interfere with those negotiations and also to commit untold resources to subsidizing or purchasing parts of or all of Kukui Gardens. We should allow the negotiations to go forward and to be completed first, and then if necessary, we can take action.

“Aloha.”

“Madam President, I rise in opposition to this bill.

“There has been quite an amount of discussion and controversy involving accountability and transparency of the Department of Education, and this bill would remove even the slimmest of the existing transparency by creating a separate and independent budgetary account. I think that there may be

constitutional problems with doing this, but there certainly are fiscal problems, and as Legislators, we should not support this.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 900 was adopted and S.B. No. 1820, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO THE DEPARTMENT OF EDUCATION,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Baker moved that Stand. Com. Rep. No. 902 be adopted and S.B. No. 1154, S.D. 2, seconded by Senator Tsutsui.

Senator Slom rose to oppose the measure as follows:

“Madam President, I rise in opposition to this bill.

“Now, wait a minute, I’m confused. I thought earlier the whole idea was we were going to have joint management and joint control, but this bill seems to take away the power of the Executive and give it to the Legislature for approval for the Board of Regents and University of Hawaii projects, and the university is opposed to this. So, we’re even taking away the power from the University of Hawaii to have the autonomy that we granted them years ago.

“What this bill does is, I think, give us a recipe for delaying projects, certainly to interfere with efficiency and certainly with autonomy, and I urge members to oppose it.”

Senator Sakamoto rose to support the measure and stated:

“Madam President, I rise in support and with a clarification to the previous speaker.

“This measure is what Mr. Todo and the university wants. There were concerns raised by budget and finance and the attorney general. One of the concerns raised was will this bill have the Legislature giving away legislative authority over certain issues.

“There still are concerns with the bill. It has a defective date, and I think valid concerns we’ll consider if indeed this bill were to survive until the end of Session.”

Senator Hee rose in support and said:

“Madam President, I rise to support this bill.

“This bill has so much hair on it that it really needs a barber, and it needs a barber with a cane knife, not a scissors. The previous speaker is absolutely correct. Anytime Mr. Todo supports an issue that involves the university, you know that it gives away things as opposed to taking away things. So, I have asked the previous speaker if I can participate with him and carry one end of the cane knife while he carries the other, and we will take it and cut it to pieces.

“Thank you.”

“We have a problem in Hawaii in terms of voter turnout – low voter turnout. I don’t think we’re going to solve the problem by making it easier for people to get a hold of ballots and for the chain of command to be weakened. I don’t think it’s a question so much of making it easier to vote as it is to making sure that our policies of voting and our issues are clear. We’ve made a first step now – we’re going to have a new Chief Elections Officer. After 25 years, I think that’s going to be a very positive step. Mail-in ballots, however, I think is problematical.”

"It's a tough bill to be either for or against. We certainly have a real problem with health insurance and with rates. We've had the rate regulation previously. I don't think that the problem is solvable by rate regulation. Our problems are caused by having the only Prepaid Health Care Act – a legislative act – of its kind in the nation, number one, and a lack of competition and an environment that fosters insurance competition, number two.

"So, the rates are symptomatic of a larger cause and just being able to have the government regulate the rates in a greater fashion and more government intervention is not going to solve the root cause of our health care problem.

"Thank you."

"The Tax Review Commissions have served us well. They are volunteers, they do a good job, they make a critical analysis of our tax system and individual taxes. Because we propose tax increases on an annual basis, because taxes and their application change, I think it is imperative that we continue to have the Tax Review Commission meet every five years. I'd be even happier if we adopted more of their recommendations.

"Thank you."

"We certainly need eminent domain protections, particularly since the U.S. Supreme Court *Kelo* case. Most states, in fact, have reacted or have been proactive in this area and it looked for a while that we were going to do the right thing, too. But, there is an exemption in this bill, and the exemption in this bill has to do with the City and County of Honolulu mass transit project.

"The reason there's an exemption is because the City and County of Honolulu is going to be coming after residential properties. Whether we're talking about the initial route or the subsequent routes that are planned, the City is going to come after private residential properties and private governmental or, I should say, commercial properties for use by the government, not only in terms of use for stations, but also for private commercial activities. So, it will be the same thing, taking private property for use for other private users who come through the City and County of Honolulu.

"I think this is a bad precedent. We should have a good bill that protects property rights and keeps the government hands off private property for other selected private property developers. Thank you."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 971 was adopted and S.B. No. 1053, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO EMINENT DOMAIN," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

"The original appropriation amount was \$4.5 million to the State of Hawaii. The State of Hawaii is already getting 10 percent of the surcharge collections, which is estimated for this year alone between \$15 and \$20 million. I had asked the question of the Tax Director during this hearing, What would they do with the added \$4.5 million and what's the emergency? The emergency is that the county wants the state to collect. The state is going to collect and there's going to be an additional administration charge. It's not going to be \$4.5 million, it's not going to be \$2.5 million, and it certainly isn't going to be 15 to \$20 million, but we have created a windfall for the state with this surcharge and to give them anymore money, I think, is unconscionable.

"Thank you."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 992 was adopted and S.B. No. 1500, S.D. 3, entitled: "A BILL FOR AN ACT MAKING AN EMERGENCY APPROPRIATION FOR DEPARTMENT OF TAXATION COUNTY SURCHARGE IMPLEMENTATION COSTS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

"Madam President, I rise in opposition to S.B. 1923.

"It is at this time in the day where some of us might prefer to be in Ceylon talking or discussing with some of the terra cotta warriors the legislation. What we have in front of us is a bill that would require pre-legislative approval for land exchanges. We already, in the Legislature, have the right to control because we have the right to disavow such exchanges.

"I don't think going in this direction now is in the long-term interest of either the state or the individual Senators I see represented today. As I look around the room, I see many capable people who someday might occupy the fifth floor in this building. Were that to occur, this is certainly not a piece of legislation you would like on the books because it really would tie your hands in terms of trying to move the state forward in a rational way.

"Thank you."

Senator Kokubun rose in support of the measure as follows:

"Madam President, I rise in support of the measure and I'll be very quick about it.

"I believe the terra cotta soldiers were in a tomb initially, but I don't consider this to be a tomb. The previous speaker was absolutely correct in terms of land exchange and what this legislation would do. However, the issue is not really who's going to occupy the fifth floor; the issue really is the fact that we have a very finite and limited resource in terms of state lands, and I think we need to consider those resources in a very careful manner. The Legislature, in this proposed piece of legislation, would take a proactive position in terms of land exchanges, and in the next subsequent bill, it will deal with the sale of state lands.

"Again, really the motivating factor was the fact that we should recognize our state lands as very finite, very valuable resources, and that we need to take a very proactive step in terms of addressing our legislative authority with those resources.

"Thank you, Madam Chair."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 997 was adopted and S.B. No. 1923, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO LANDS CONTROLLED BY THE STATE," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Hemmings rose in favor of the measure as follows:

"Madam President, I rise to speak in favor of this bill.

"In doing so, I want to ask the question, How much money should we continue to throw at the repair and maintenance of our schools and continue to have the problem? A similar question could be asked of the education system which we are now spending \$2.3 billion a year on. In the last five years – FY 2003, \$130 million repair and maintenance, FY 04, \$74 million, followed by \$245 million, followed by \$233 million; this year \$177 million and we had a cash infusion of \$225 million for this year's budget.

"The question is, What is wrong? Why aren't our schools repaired? In the last five years, over \$1 billion has been spent on repair and maintenance and our schools are still falling down. Sooner or later, we're going to find out that the real

problem is the system by which we spend this money and we'll reform it in order to get our schools fixed rather than just tell our constituents we solved the problem again by throwing more money at it.

"I'm voting in favor of this legislation because it's necessary to at least get the ball rolling on getting these schools fixed, but we're going to have to hold the system accountable and hope that this Legislature in its wisdom will come to grips with this underlying, undeniable fiscal fact.

"Thank you, Madam President."

Senator Sakamoto rose in support of the measure and stated:

"Madam President, I rise in support of the measure.

"The previous speaker questioned when will the repair and maintenance . . . part of his line of questions was, When will that be done? A few years back, the backlog was \$800 million, then \$640 million, then \$525 million. Last year it was \$341 million, but just funding \$341 million will not solve the problem because every year the schools continue to have roof leaks, difficulties with other damages, and just deterioration, air condition systems, just as people's homes and businesses continually accumulate costs.

"Roughly \$75 million a year is added to the list of repair and maintenance of schools. My hope, or our hope should be that we can get the repair and maintenance of the K-12 schools to a condition – say \$150 million or so – which might be an ongoing basis.

"This bill also addresses the University of Hawaii system and other things. Separate from repair and maintenance, it costs Punahou School \$15,000 a student for tuition, which is in addition to the largess of alumni and other benefactors and million-dollar-plus carnivals. If you're having that kind of cost per student at an institution that takes the best of the brightest and those who don't cut it go into the public schools, those that get into a school such as that and have problems end up in the public schools, those who come from Micronesia end up in public schools, those that have special needs and other difficulties end up in our public schools. One might say, if our public schools had \$15,000 a student and even more, it would still be a struggle.

"There's no question we need more highly qualified teachers, we need better curriculum, we need many things to improve, and I believe we're on our way to do that. We need a better early education system. We need people to help fill the parent gap that schools like Punahou and Iolani enjoy – parents at many, many events and many, many support activities. The public schools lack that, but I believe we need volunteerism from businesses, nonprofits, and people in this room to help fill the parent gap.

"We're on our way there – we won't get there in an hour, we won't get there in a year, but we're improving the system. Thank you very much."

Senator Hemmings rose in rebuttal and said:

"Madam President, I rise to speak in favor of this legislation to rebut the previous comments.

"I truly regret that every time we talk about education we have to bring up this class envy and bash the private schools as a defense for the failures of public schools. We were told just now that it's going to take a couple of months, couple of years to fix the problem. Well, try 40, and it's still a huge problem.

We were just told that we added \$75 million a year to repair and maintenance budgets – not true. I just quoted the numbers we've had in the last five years – over \$1 billion. It comes to \$100 million.

"Yes, in other schools and in our homes we spend money repairing and maintaining our physical facilities – our houses and our schools – in the private sector, and guess what? We get the job done. We do repair and maintain our private sector facilities.

"But getting back to this battle between the public and private schools, I want to remind everybody that if you take the total amount of enrollment and divide it into the number of dollars spent, we spend over \$12,400 per public school child, which may be a good investment, except we're turning out, by measure of standard achievement tests and others, one of the worst products in the nation.

"All I'm saying is we should not be pitting private schools against public schools. And I might add, Madam President, since it was brought up that, yes, Punahou is expensive, and yes, Iolani is expensive, but the average tuition of private education in this state is under \$7,000 per student when you factor in parochial schools and others. I might add that our public school children, in most cases, are just as capable as children in the private sector schools and do well in school. They're being shortchanged, not by the private schools but by the schools that we're paying taxes for.

"So when are we going to move past this archaic and mundane argument regarding public/private school conflict? It should be no conflict. We should afford the people of this state as much choice in the education marketplace as possible, and we more importantly should assure that the huge amount of money they're spending on public education, educates out children and they're in schools that are safe without the roofs falling down on their head. Forty years have been more than enough time to fix the problem. Throwing more money at it will not do it.

"Thank you, Madam President."

Senator Baker moved that Stand. Com. Rep. No. 1009 be adopted and S.B. No. 707, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Trimble rose to speak against the measure and stated:

"Madam President, I rise in favor of the 707, but against S.B. No. 707. (Laughter.)

"The 707, the DC-8 really did help transform our islands. S.B. No. 707 will take us someplace and let us reflect where it will take us and what kind of transfer payment it winds up being. What it does is allows a 100 percent tax credit for people that contribute, invest in a community project. What we are allowing is the recreation of being able to build an aquarium not just in Ko Olina but almost anywhere on this island.

“Who will take advantage of this? Probably it will be the most affluent among our society that has the largest incomes and the largest tax liabilities. Who will wind up paying for this? Because in order to do the work of our government, we will have to rely more heavily on other sources of income because of the tax credits we so generously give out. That will be the middleclass and the lower-middleclass.

“What will happen is that we will have more developments in communities like Portlock and less money flowing to communities like Waianae. Because of this adverse effect of the ability of government to raise money and prioritize the spending of that money because less money will be available through the use of tax credits, I suggest that it is a wrong social policy and that you should vote against this ill-conceived notion.

“Thank you.”

Senator Fukunaga rose to speak in support and said:

“Madam President, I rise to speak in favor of this measure.

“I’d like to direct the members’ attention to one of the testimonies that we received during the deliberations on this bill: ‘The tax credit is equal to 39 percent of the qualified equity investment and is claimed over seven years. Corporations, nonprofit organizations, can create community development entities and apply for the federal new market tax credit which the state credit seeks to piggyback off of and to bring more capital allocated on the federal level to Hawaii. The credit was originally passed by Congress in 2000 as part of the Community Renewal Tax Relief Act. Hawaii currently conforms to the federal low-income housing tax credit, and conforming to the federal tax credits in this area is something that we believe will bring more capital to Hawaii to stimulate and help finance community development projects in low-income areas.’

“Thank you very much.”

Senator Taniguchi rose and said:

“Madam President, would you note my support with reservations?”

The Chair so ordered.

The motion was put by the Chair and carried, Stand. Com. Rep. No. 1009 was adopted and S.B. No. 707, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO A NEW MARKETS TAX CREDIT,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Stand. Com. Rep. No. 1015 (S.B. No. 1285, S.D. 1):

Senator Baker moved that Stand. Com. Rep. No. 1015 be adopted and S.B. No. 1285, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Tsutsui.

Senator Slom rose to oppose the measure as follows:

“Madam President, I rise in opposition to this bill.

“At first blush, we said, ‘Hooray! It’s a tax decrease; we’re going to exempt the general excise tax selectively.’ But then in reading the bill further, we find that there’s going to be a one penny per gallon addition. And the numbers that were presented in testimony were – tax loss from the GET exemption, \$100,000; tax gained to the highway fund, \$9.2 million. So, it is actually a tax increase. It’s a negative impact for consumers. For those that were seeking relief, particularly after the exemption for ethanol ran out December 31st and there were a lot of crocodile tears and consumers were not getting any relief at all, they’re going to get higher taxes.

“The intent of the bill supposedly is to boost up the highway fund because the highway fund and the Department of Transportation are involved in more projects. The truth of the matter is, the highway fund would not be low right now if it had not been raided for about \$144 million over the last 10 years.

“So, this is a bill that is definitely and specifically and very clearly a tax increase.”

Senator Baker rose to support the measure and stated:

“Madam President, I rise in support of this measure.

“Considering that when the GET went back on, gasoline prices raised by 11 cents, 13 cents on my island because gas is more expensive over there, we’re taking that off – that 11 cents, that 13 cents – and putting on a modest 1 penny that doesn’t go into the general fund; it goes into the highway fund so that the projects that many of us in all of our districts want, can be taken care of.

“It is an important measure. It is relief for the taxpayers, and I urge my colleagues to vote up.”

Senator Menor rose in favor with reservations and said:

“Madam President, I rise to speak in favor of this bill, but with some reservations.

"I agree with the Ways and Means Chair that this bill is not a tax increase bill but in fact will result in significant tax savings to the gasoline industry to the extent that the 1 cent per gallon fuel tax increase will be more than offset by the tax savings to be realized when the excise tax exemption is continued. I also think that this bill is well-intentioned to the extent that its purpose is to continue the exemption on the excise taxes paid by gasoline industry entities in hopes that it will lead to lower gas prices for consumers.

"The concern I have with this measure, however, is that it doesn't provide any guarantee that the tax savings that will be realized by the oil industry will be passed on to consumers in the form of lower pump prices. In fact, last year, when the excise tax exemption took effect, there were several months when pump prices did not fall notwithstanding the fact that the oil companies received considerable tax savings from the exemption from the excise taxes. In this regard, my concern is I think that the continuation of the excise tax exemption may represent a windfall to the oil companies. It's my understanding that the continuation of the exemption could lead to a revenue reduction of over \$30 million per year annually, which would mean the possibility that the oil companies could be reaping a \$30 million per year windfall at a time when they are earning massive profits and need no further windfalls.

"However, having said that, I think that this vehicle should be kept alive for further discussion and as a means by which we can provide meaningful relief to consumers. And in that regard, I think that one approach that might be better than exempting the gasoline sales from the excise tax could be to provide a refundable tax credit to consumers reflecting the portion of gas prices that can be attributed to the excise tax.

"So I would respectfully request the money committees in both the House and Senate to consider this sort of an approach, and accordingly, I'll vote in favor of this bill, but with those reservations.

"Thank you."

Senator Kim requested her vote be cast "aye, with reservations," and the Chair so ordered.

Senator Trimble rose to oppose the measure as follows:

"Madam President, I rise in opposition to Section 14 of this bill.

"Most of the bill is pretty good – pretty wonderful. The problem is when you get to Section 14, it designates, without a review of equally qualified firms, it designates one firm shall be in charge with disseminating information. I don't think that we should have a system where we identify individual companies or individual firms that we direct money to in light of our existing procurement code.

Senator Slom rose with reservations and said:

“Madam President, I rise . . . with reservations on this bill.

“I find this very curious. We’re going to create a commission to plan for the 50th anniversary of Hawaiian statehood. We haven’t celebrated Hawaiian statehood officially in this state for 10 years now. In fact, we had a lot of anti-statehood sentiment last year. It doesn’t say what we’re going to do in the next two years, but we’re going to have a commission of 25 people selected by the Senate, the House, the Governor. We’re going to have diversity, we’re going to have everything here, and yet we really don’t have a single purpose.

“I think we would probably be better served if we had a voluntary citizens’ committee plan and execute this event, not use any state resources or taxpayer money, but people that really believed in statehood and the pride in being an American.

“Thank you.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 1029 was adopted and S.B. Hawaii Legislature Takes Coordinated Steps to Reduce Poverty *Asset-Building Bill Lauded as a Model for All States*

Washington, D.C.—The Corporation for Enterprise Development (CFED), a national organization dedicated to expanding economic opportunity, today applauded the Hawaii State Legislature for taking steps to reduce poverty in the state and urges other states to take notice. On January 24, 2007, 14 members of the Hawaii State Senate introduced S.B. 1919 that provides a comprehensive set of policies and programs that will help Hawaii's low- and moderate- income families build productive assets such as savings, home ownership, business ownership and post secondary education.

While there has been much discussion over the growing difference in incomes in America, the difference is much larger when measured by asset ownership. In Hawaii, for example, one in five families have zero or negative net financial worth; and one in four Hawaiian households is asset poor—households that, in absence of income, lack enough assets to live at the federal poverty level for more than three months if their income were disrupted.

Senator Suzanne Chun Oakland, along with Senator Gary L. Hooser, pushed to make this bill a priority by including it in the senate majority package. S.B. 1919 emphasizes the importance of assets in helping Hawaii's families get ahead. Its authors recognize the complementary role that assets play to income-based policies in moving families out of paycheck-to-paycheck living. Because income alone cannot insulate a family from job loss, expenses from natural or health disasters, assets are vital to economic security.

"CFED promotes policies that expand economic opportunity for all Americans and this legislation does just that in Hawaii," said CFED President Andrea Levere. "Together, these four policies listed below would provide working families in Hawaii with the tools and opportunities to get ahead, not just get by." The legislation provides a range of good ideas that have been proven to help and should be a model for what other states can do. The ambitious set of asset-building policy components in the bill would:

- Maintain and utilize the self-sufficiency standard as a benchmark**
The family self-sufficiency standard—the actual amount needed to afford basic needs—will be based on the budget of a modern Hawaiian household, taking into account the cost of food, housing, child care, health care, utilities, transportation, and taxes. This standard will be used to determine eligibility for public assistance. Currently, eligibility is based on the federal poverty guidelines (\$23,750 for a family of four in Hawaii), however, working families with incomes above this often struggle to make ends meet and cannot afford to replace the lost public services.
- Establish a refundable state EITC**
The federal earned income tax credit (EITC) is the largest anti-poverty program in the U.S., dispersing over \$40 billion to 22 million low-income workers in 2006. The EITC encourages workforce participation and creates opportunities for asset building. State EITCs are usually expressed as a percentage of the federal credit, and S.B. 1919's 20% credit is more generous than many other states'.
- Maximize financial education opportunities to TANF eligible individuals**
Recipients of Temporary Assistance for Needy Families (TANF)—commonly known as welfare payments—would complete financial education courses, empowering them with the information

and skills to manage their personal finances. Learning about budgeting, saving for larger purchases and emergencies, understanding bank fees and managing credit are some of the important topics covered.

□ **Expand Individual development accounts (IDAs)**

IDAs are matched savings accounts that enable low-income individuals to put a down payment on a first home, start a business, pay for education or training, or buy a car. Across the country, 540 non-profit organizations partner with financial institutions to provide these matched savings accounts to 30,000 savers. Senate Bill 1919 allows the use of federal funds for matching the deposits of savers and administering IDAs.

###

CFED expands economic opportunity by helping Americans start and grow businesses, go to college, own a home, and save for their children's and own economic futures. We identify promising ideas, test and refine them in communities to find out what works, craft policies and products to help good ideas reach scale, and develop partnerships to promote lasting change. We bring together community practice, public policy and private markets in new and effective ways to achieve greater economic impact.

Established in 1979 as the Corporation for Enterprise Development, CFED works nationally and internationally through its offices in Washington, DC; Durham, North Carolina; and San Francisco, California.

ASSET AGENDA

State Earned Income Tax Credit

THE PROBLEMS

Too many families in Hawai'i struggle to make ends meet. These families are overtaxed and they have few opportunities to build assets and work their way to self-sufficiency.

1. **Too many cannot make ends meet** – The self-sufficiency standard (a.k.a. "living wage") for a one-parent, one-child family in Hawai'i is approximately \$36,000. Over 80,000 families in Hawai'i earn less than \$35,000 per year, including 21% of all two-parent families and 52% of all families headed by single mothers.¹
2. **Overtaxing the poor** – Hawai'i's poorest taxpayers pay 10% of their incomes in general excise tax (GET) while the richest pay only 2%.² Hawai'i is also among the worst states for income taxes on poor families—a single mother of two, who earns \$10,000 and is dependent on state subsidies, is currently required to pay state income tax.³
3. **No opportunities to build financial assets** – Mid- and high-income Americans can access numerous tax incentives and subsidies to build wealth—deductible mortgage interest, 401ks, and 529 plans for education are a few examples. By contrast, taxes and other public policies aimed at people with less than self-sufficient wages often create financial disincentives to earn and save more. In many cases, benefits are reduced and tax burdens increased when a person builds assets. These disincentives keep families and future generations trapped in a state of poverty.

THE SOLUTION

A refundable state Earned Income Tax Credit (EITC) will support those working families in Hawai'i who are having the hardest time making ends meet. A refundable state EITC would provide tax reductions and wage supplements for low-income working families to address three important goals:

1. **Tax relief for those who need it most** – Providing cost-effective, well targeted tax relief for the many working families in Hawai'i who do not make enough to be self-sufficient.
2. **Making work pay** – Supplementing incomes earned by hard working people and creating a financial incentive to continue choosing work over welfare. A state EITC is necessary to help people and their children escape poverty.
3. **A chance to build assets** – State EITC refunds can be used to pay off high interest debt, begin a savings account, invest in education, start a business, and more. It would be one of the few opportunities for low-income households to start building assets.

³ Center on Budget Policy and Priorities, <http://www.cbpp.org/2-22-06sfp.pdf>, 2006.

HOW IT WORKS

- ▶ **For working people with low incomes** – A Hawai'i EITC would apply to those taxpayers who qualify for the federal EITC because of their very low incomes.
- ▶ **Specifically aimed at families** – Low-income taxpayers with no children may claim the federal EITC (and therefore the proposed state EITC), but the credit is much larger for taxpayers with children.
- ▶ **How much is the credit (Part 1)?** – The amount of credit depends on how much income you have and how many children you have. So for example using IRS criteria for Tax Year 2006:

Family Type	Max Income to be Eligible	Max Federal Credit	Max State Credit if 20%
Single w/ 1 child	\$32,001	\$2,747	\$549
Married w/ 1 child	\$34,001	\$2,747	\$549
Single w/ 2 or more children	\$36,348	\$4,536	\$907
Married w/ 2 or more children	\$38,348	\$4,536	\$907
Single w/ no children	\$12,120	\$412	\$82
Married w/ no children	\$14,120	\$412	\$82

- ▶ **How much is the credit (Part 2)?** – The amount of credit one gets rises as one earns more income until it reaches the maximum amount. It remains at the maximum amount for certain low-income earners and is phased out until one is no longer eligible because income is too high. This unique structure is designed to create work incentives for people at the lowest income levels to allow them to choose work over welfare.
- ▶ **Simply piggybacks on the federal EITC** – Calculating the state EITC is simple. A taxpayer takes a set percentage (say 20%) of whatever was claimed for the federal EITC.
 For example, if the federal EITC for a family were \$2,500, the state EITC would be \$500. (2500 x 20% = 500)
- ▶ **Refundable** – Like the federal EITC, the state EITC would be refundable. That means that if the credit exceeds state income tax liability, the state sends that person the remaining amount.
 For example, if a low-income earner owes \$100 in taxes and has a state EITC of \$500, that person will receive \$400 back from the state.
- ▶ **Total Cost** – It is estimated that the total cost of a 20% refundable state EITC would cost about \$26 million in foregone revenues.⁴ Federal Temporary Aid to Needy Families (TANF) funds may be used to pay for the refundable portion of a state EITC. Compared to the cost of other measures to provide targeted tax relief, a state EITC is the most cost-effective means of helping those who need the most help.

OTHER POINTS

- ▶ The federal EITC is **well established, proven, and resilient**. The federal EITC was originally enacted in 1975 under President Ford to compensate for the heavy burden of payroll taxes on low-income earners. It has since been expanded three times by

⁴ Center on Budget and Policy Priorities, <http://www.cbpp.org/2-1-06eic.htm>, 2006.

Republican and Democratic presidents to provide additional supports to low-income families and to encourage work over welfare.⁵

- ▶ State EITCs are being **established across the country**. Today, 20 states and the District of Columbia have enacted state EITCs to supplement the goals of the federal EITC and to compensate for the disproportionate burden of state and local taxes on low-income earners. These states are Colorado, Delaware, Illinois, Indiana, Iowa, Kansas, Maine, Maryland, Massachusetts, Michigan, Minnesota, Nebraska, New Jersey, New York, Oklahoma, Oregon, Rhode Island, Vermont, Virginia, and Wisconsin.
- ▶ EITCs have **wide, bipartisan support**. Republicans and Democrats have worked together on federal, state and county levels to enact and expand EITC laws.⁶ So-called “red states” such as Oklahoma and Indiana have them as well as “blue states” like Illinois and New York.
- ▶ A state EITC would **help compensate for the regressive GE tax**. In Hawai'i, the poorest taxpayers pay 10% of their income in excise taxes, while the richest pay only 2%.
- ▶ A state EITC will give a needed boost to our **children living in poverty**. The federal EITC lifts more children out of poverty than any other government program; if supplemented with a Hawai'i state EITC, we can better address child poverty in Hawai'i.⁷
- ▶ People who are eligible **utilize the EITC**. In the U.S., about 85% of eligible people claimed the Federal EITC, compared to 67% for Food Stamps and 52% for TANF.⁸ In Hawai'i, over 88,000 of the neediest households claim the federal EITC according to the IRS.
- ▶ EITCs are **successful work incentives**. More than 60% of the increase in the employment of single mothers has been due to expansions in the federal EITC. An additional state EITC will supplement that positive trend.⁹
- ▶ A state EITC in Hawai'i can enhance efforts to **help families build assets**. Research indicates that state EITC refunds can be used to promote asset building in low-income families. One study found that 33% of the 650 EITC recipients examined planned to save a portion of their tax refunds. Another study found that half of EITC recipients use their refunds to make critical investments such as paying off high-interest debt, upgrading housing, or paying for education. This suggests that tax refunds might be effectively linked to a variety of asset-building initiatives.¹⁰
- ▶ A state EITC in Hawai'i would be **easy to administer**. The state EITC would be for those state taxpayers who have applied for the federal EITC. Calculating a state EITC is simply multiplying the federal amount by a set percentage. State taxpayer education, anti-error and anti-fraud efforts can benefit from federal efforts. Fears of high EITC error rates can be assuaged by the following: 1) the IRS has initiated a five-point initiative to improve EITC administration, 2) the IRS has a disproportionately large compliance and auditing budget focused on the EITC, 3) EITC errors amount to 0.5% of federal revenues and only 2.8% of the \$232 billion total amount of uncollected federal taxes.¹¹
- ▶ EITC refunds are **recycled in the economy and can help low-income communities**. Many people who receive EITC refunds put them back into the economy by spending on day-to-day survival needs. A 20% state EITC would add over \$25,000,000 to the

ASSET BUILDING OVERVIEW

*A refundable state EITC is part of a **comprehensive public policy to help Hawai'i's people build assets.** This policy package should include a package of programs, tax incentives, regulatory changes, and other mechanisms to help people earn more, save more, protect hard earned assets, start businesses and become homeowners.*

- ▶ **One in five** households in Hawai'i have zero or negative net worth, the 6th worst ranking among the states.
- ▶ **One in four** households do not have enough assets to subsist at the poverty level for three months if their income were disrupted.
- ▶ 69% of jobs in Hawai'i **do not pay a living wage** making it difficult for many families to make ends meet, let alone pay off debt, build savings accounts, start businesses, or buy homes.
- ▶ Assets are essential for three reasons.
 1. To have **financial security**—confidence to face job loss, medical emergencies, natural disasters and other misfortunes
 2. To create **economic opportunities** for oneself—the quintessential element of the American Dream
 3. To **leave a legacy** for future generations—the obligation of Hawai'i's ancestors and its current people.
- ▶ The wealthy benefit the most from existing asset-building policies—deductions for mortgage interest and property taxes, tax deferred retirement and education savings, lower taxes on long-term capital gains, etc. The state of Hawai'i can **level the playing field** by creating more asset-building opportunities for low- and middle-income households.
- ▶ Asset-building is **a critical economic development tool** to build the human capital needed to fuel the modern economy—also known as the “knowledge economy,” “new economy,” or the “innovation, science, and technology economy”

How to Really Help Low-Wage Workers

By Thomas Z. Freedman

If the House and Senate are able to agree on a minimum-wage hike and the president signs the bill, some may say we will have done enough to help low-income workers. It's true that low-wage workers urgently need a raise, that millions of Americans work full time and still live below the poverty line. But while an increase in the minimum wage is better than nothing, alone it is an incomplete instrument for really making work pay.

We should raise the minimum wage while committing our country to a bigger bargain: If you work full time, then you and your family will live above the poverty line. This goal is not only morally right but one our country can afford.

Published statistics for 2004, the most recent year with solid available data, show that about 3.5 million full-time workers earned less than poverty-level wages. Factoring in government benefits, about 2.6 percent of full-time workers live below the poverty line. That is about 2.7 million Americans. And these struggling workers frequently support families, meaning millions more depend on them.

On its own, the minimum wage is an imperfect means for ensuring no full-time worker is poor. First, it almost certainly will not be raised enough. Even the plan to raise it to \$7.25 an hour has been a political struggle, with success now likely but not guaranteed. It would take a wage of \$10 an hour for a worker to earn \$20,000 a year, about the poverty threshold for a family of four. Second, there are reasonable arguments that a \$10 minimum wage would harm many small businesses. Finally, increases in the minimum wage are not indexed for inflation -- and may never be. The last increase was 10 years ago, and some full-time workers have fallen further below the poverty line since then. Even with a new raise, workers will once again slip into poverty if a decade or more goes by between increases.

A better approach would be to increase the wage and simultaneously expand the earned-income tax credit (EITC). This program, signed into law by President Gerald Ford and greatly expanded and popularized by President Bill Clinton, is designed specifically to reward work. It is one of the country's most successful anti-poverty programs.

The EITC program, however, has substantial shortcomings. It does not cover childless workers younger than 25, and the credit does not help meet the costs of raising additional children after a family's second child. Further, many people who are eligible don't apply for the credit. These holes have significant consequences.

How many reforms are enacted would affect the cost of the credit. Increasing the EITC for families with three or more children -- more than half of all poor children live in such families -- would help an estimated 3 million families and cost about \$3 billion. Crucial actions such as improved outreach or removing a built-in marriage penalty could each be done for about \$1 billion; more complete reforms that would also help those living barely above the poverty line could cost 10 times that or more. But this is the best time in a decade to make this bargain with low-wage workers. An increased minimum wage will help millions of poor people; combining it with a new commitment to the earned-income tax credit could take them the rest of the way out of poverty.

Arguably, supporting those who are working hard and playing by the rules is as important a societal good as tax breaks for companies or even encouraging home ownership. The question ultimately is about our nation's priorities. The federal budget is more than \$2 trillion, and Congress's pork-barrel projects have been estimated at \$47 billion. Home mortgage deductions -- a benefit for mostly middle-class Americans --

average about \$9,500 a year per homeowner. By comparison, the cap on EITC payments last year was \$4,400. The average EITC benefit in 2005 was only \$1,872.

The issue of whether to make such a policy change is timely with a presidential contest looming. It's not unreasonable to hope that some candidate will want the world's richest country to make a new bargain with its poorest workers. We need to raise the minimum wage. But we should also make a larger commitment. If you work hard year-round, we will make sure you are not living below the official poverty line. You may not be rich, but you'll know that in America work pays.
